Academic Policies

The academic rules and regulations of the University of Missouri are published online in the Collected Rules and Regulations of the University of Missouri and the MU Faculty Council Academic Regulations (http://facultycouncil.missouri.edu/handbook/intro.html). The following are selected policies and procedures. Many are summarized as a guide for students. Students needing additional information on academic regulations in specific colleges and schools may obtain this information from their deans' offices.

If a policy is only applicable to certain students and not all students, this is indicated with one of the following codes. Else the policy is applicable to all University of Missouri students.

(G) policy applicable to Graduate students only
(L) policy applicable to Law students only
(U) policy applicable to Undergraduate students only
