Welcome to the University of Missouri 2015-2016 catalog! We are pleased to provide an interactive and searchable catalog online.

The catalog is a comprehensive reference for your academic studies. It includes a list of all degree programs offered at MU, including bachelors, masters, specialists, doctorates, minors, certificates, and emphasis areas. It details the university wide requirements, the curricular requirements for each program, and in some cases provides a sample plan of study. The catalog includes a complete listing and description of approved courses. It also provides information on academic policies, contact information for supporting offices, and a complete listing of faculty members.

Information in the catalog is current as of May 2015. The next catalog will be published in May 2016. In the interim, new courses will be announced in myZou (https://myzou.missouri.edu) (MU's online student information system), and are usually available in October for the upcoming Spring semester, and in March for the upcoming Summer and Fall semesters. Mid year changes to current courses (titles, descriptions and credit hours) are not reflected here, and will only show in myZou. For more information about which year’s edition of the catalog applies to whom and under what circumstances, go to Catalog Editions (p. 757) in the Academic Policies section.

Use the search box above, or click on the left hand menus to navigate through the catalog. There is also a PDF version available through the Print Options link above.

We welcome your feedback and suggestions to make this catalog better for the future. We would also appreciate reports of any broken links inside the catalog. Feedback may be provided by sending an email to muregistrarcatalog@missouri.edu. (muregistrarcatalog@missouri.edu)

University Level Academic Degree Requirements

Undergraduate
Undergraduate Requirements (University) (p. 19)
Common Credit Limitations (p. 19)
General Education Requirements (p. 20)

Degree Audits for Undergraduates
The degree audit is an automated report reflecting a student’s academic progress toward the completion of a degree. Degree Audits are not available for all programs; however, please consult with the appropriate college or school for audit information.

MU students who have attended since August 2007 can request a degree audit by logging in to mvZou and navigating to Self Service, then Student Center, and clicking on “Request Degree Audit.” The audit automatically pulls in the student’s MU course work, transfer courses and courses in progress.

MU students who have NOT attended since August 2007 can request a degree audit by contacting the Academic Advising Unit of the division in which they were last enrolled at MU. For contact information, go to http://advising.missouri.edu/contact/.

For newly admitted or prospective students, MU degree audits can be created at http://www.transfer.org. Information on the college credits already earned will have to be manually entered before it can be evaluated against current degree requirements.

For additional details on degree audits, go to http://registrar.missouri.edu/degree-audits/index.php.

Graduate and Professional
Master’s Requirements (University) (p. 21)
Educational Specialist Requirements (University) (p. 25)
Doctoral Requirements (Graduate School) (p. 26)
Doctoral Requirements (Law School) (p. 31)
Details on the academic requirements for medical students can be found at http://medicine.missouri.edu/education/curriculum.html.

Details on the academic requirements for veterinary medical students can be found at http://vetmed.missouri.edu/current.htm.

Undergraduate Requirements (University)

Undergraduate students must complete all University requirements as well as all requirements specified for the degree(s) and major(s), and requirements of the college or school, and department offering the degree. This would include the University general education requirements as well as the following:

* A second MU Writing Intensive course must be completed in a student’s major. It needs to be a 3000/4000 level MU WI course approved as part of the curriculum by the faculty of a student’s major.

* Complete an approved capstone course with MU course work in the student’s major
* Complete 30 of the last 36 credits with MU authored courses
* Complete no fewer than 120 credit hours of coursework.
* Students may transfer more than 64 credit hours for lower division courses from either Missouri associate degree-granting or baccalaureate degree-granting institutions. Any additional lower division course credits above 64 credit hours will be accepted in transfer if the credits are applicable to the baccalaureate degree or are prerequisites for an upper division course in the major
* Complete all University, general-education requirements (See the University General Education Requirements section in the catalog.)
* Earn no less than a 2.00 GPA, as defined by the GPA of Record
* Complete any additional divisional, degree or major requirements as specified by the academic unit offering the degree
* Must be completed with a grade of C- or better.

Common Credit Limitations

The following credit limitations are applicable to all undergraduate students, regardless of degree program. Please check with advisor for more information.

Chemistry

* A student can earn a maximum of 10 hours of credit towards graduation from the following courses: CHEM 1000 Introductory Chemistry, CHEM 1320 College Chemistry I, CHEM 1330 College Chemistry II. CHEM 1310 (General Chemistry I) is also included in this maximum if you took the course prior to Fall 2013.

Economics

* Students may not receive credit towards graduation for more than one of the following courses: ECONOM 1014 Principles of Microeconomics, ECONOM 1024 Fundamentals of Microeconomics, ECONOM 1051 General Economics, or AG_EC 1041 Applied Microeconomics.

History

* Students may not earn credit towards graduation for both HIST 1100 Survey of American History to 1865 and HIST 1400 American History.

* Students may not earn credit towards graduation for both HIST 1200 Survey of American History Since 1865 and HIST 1400 American History.

Mathematics

* Students can only have a total of 5 hours of credit towards graduation from the following courses: MATH 1320 Elements of Calculus, MATH 1400 Calculus for Social and Life Sciences I, MATH 1500 Analytic Geometry and Calculus I.

* Students can only have a total of 5 hours of credit towards graduation from the following courses: MATH 1100 College Algebra, MATH 1120, MATH 1140 Trigonometry, MATH 1160 Precalculus Mathematics.
Physics

- Students may not earn credit towards graduation for both PHYSCS 1210 College Physics I and PHYSCS 2750 University Physics I.
- Students may not earn credit towards graduation for both PHYSCS 1220 College Physics II and PHYSCS 2760 University Physics II.

Psychology

- Students may not receive credit towards graduation for more than one of the following courses: PSYCH 2410 Developmental Psychology, H_D_FS 3420 Early and Middle Childhood, or ESC_PS 2500 Child Development.

Statistics

- Students may not receive credit towards graduation for more than one of the following courses: STAT 1200 Introductory Statistical Reasoning, STAT 1300 Elementary Statistics, or STAT 1400 Elementary Statistics for Life Sciences.
- Students may not receive credit towards graduation for more than one of the following courses: STAT 2500 Introduction to Probability and Statistics I or STAT 2530 Statistical Methods in Natural Resources.
- Students may only receive a maximum of 4 hours of credit towards graduation from the following courses: STAT 1200 Introductory Statistical Reasoning, STAT 1300 Elementary Statistics, STAT 1400 Elementary Statistics for Life Sciences, STAT 2200 Introductory Statistical Methods, STAT 2500 Introduction to Probability and Statistics I, or STAT 2530 Statistical Methods in Natural Resources.

General Education Requirements

General education requirements are the foundation of knowledge upon which all University of Missouri degrees are built. They are specifically intended to prepare students as citizens who must make informed judgments about issues that go beyond the narrow area of their academic specialization. Students must complete the University General Education Requirements listed below. With careful planning, some courses may be chosen to meet both University General Education Requirements and specialization. Students must complete the University General Education Requirements listed below. With careful planning, some courses may be chosen to meet both University General Education Requirements and one or more of the divisional, degree and major requirements. Students are strongly encouraged (and in some divisions they are required) to meet with an academic advisor to ensure adequate progress towards the selected degree and major. More information can be found at: http://generaleducation.missouri.edu/.

Common University General Education Requirements for all MU degrees

- College Algebra (MATH 1100) or transferable equivalent (3 credits). Students may satisfy this requirement by:
  - Completing an appropriate math course (MATH 1100 or MATH 1160),
  - Completing a calculus course at MU (MATH 1400, MATH 1500, MATH 1700, or MATH 2300), which provides back-credit for MATH 1100 (or MATH 1160),
  - Passing the Proctored ALEKS Exam with a sufficient score, thereby demonstrating proficiency in College Algebra, or
- Possessing the minimum ACT or SAT Math subscores, thereby providing an exemption (See mathplacement.missouri.edu for further details)
- English Exposition and Argumentation (ENGLISH 1000 or ENGLISH 1000H) or transferable equivalent (3 credits)
  - This course in expository prose, which stresses writing as a process involving critical reading and thinking skills, should be taken during your freshman year.
  - Writing Intensive course (6 credits, 2 courses)
  - American History or Government (3 credits)
  - Math Reasoning Proficiency Course (these courses must state that College Algebra is a prerequisite)
- Distribution Requirement (27 credits) providing a breadth and depth of knowledge in three broad areas of study. The course work must include at least one course numbered 2000 or higher in two of the areas of distribution as described below.
  - Must include 9 credits in these sciences: biological science, physical science, and / or mathematical science
  - including at least one biological or physical science and its related laboratory component
  - representing two different areas of science
  - Must include 9 credits of behavioral and/or social science
  - Courses must be from at least two different departments in these areas
  - Must include 9 credits of humanities and/or fine arts
  - including courses from at least two different departments in these areas
  - Of special note related to the humanities and or fine arts distribution:
    - Only one course of specified of Humanities and Fine Arts courses can be counted.
    - For specified courses, the category will be designated per section per semester.
    - Students in CAFNR, Engineering, SHP, HES, SNR, and Nursing may use this course towards fulfillment of the humanities distribution requirement, but only if the entire 12-13 hour elementary language sequence is completed. This course may NOT be used to fulfill the humanities requirement in A&S, Business, Education, Journalism and Social Work.
    - For the full list of courses that fulfill this distribution and the noted exceptions, go to: http://generaleducation.missouri.edu/courses/
The term "laboratory" is used in reference to courses or portions of courses that satisfy the following criteria:

- They provide students with an opportunity for the active collection and/or analysis of data from real-world observations and experiments. These activities need not take place in a conventional "laboratory" setting but may be undertaken anywhere that an appropriate experiment or observation can take place (e.g., in the field).
- They promote scientific literacy and critical thinking/problem solving skills.
- Whenever possible, they include opportunities for students to design experimental or observational protocols.
- If the laboratory is directly associated with a specific lecture course or is included as part of a course that also includes lecture, the laboratory activities promote understanding of the content presented in the lecture.

Transfer Students and University General Education Requirements

All University, general-education requirements are considered completed for students who transfer to MU with an AA degree from a regionally-accredited Missouri institution. Transfer credits for other students are evaluated on a course-by-course basis. All students must complete University graduation requirements beyond the University general education requirements.

NOTE: Many departments, degrees and majors have more specific requirements for foundation course work in addition to the University, general-education requirement. However, the reverse is not true. Departments or academic units may not have fewer general education requirements than described by the University general education requirements. Careful planning will allow students to simultaneously meet University, general-education requirements and prepare for many of the more specific foundation courses required by their field of study.

Master's Requirements (University)

The purpose of this section is to provide an overview of the Office of Graduate Studies policies. Students considering a master’s degree should read all of the information below to fully understand the requirements of advanced study (e.g., residency, plan of study and time lines for completion) at MU.

MU confers a variety of master’s, dual master’s degrees (http://gradschool.missouri.edu/academics/process/dual-masters-process) or dual master’s/ professional degrees to students who satisfy the general requirements of the Graduate School and the specific requirements of the degree-granting department or area program. Designated graduate minors and certificates are available in some academic fields. Thesis and non-thesis options are available for select plans of study; students must consult with individual degree programs for more information.

Master’s Residency Requirements

The faculty of each graduate program determines its own residency requirements for master’s degrees, subject to initial review by the Graduate Faculty Senate. Consult with the academic program for requirements. For academic programs that choose to maintain the traditional regulation concerning residency for master’s students, the following applies: the student must complete a minimum of 24 semester hours of MU graduate courses which are taught by MU faculty and which are approved by the academic program and the Graduate School.

Students who cannot fulfill residency requirements are encouraged to consider Mizzou Online for available degrees.

Graduation and Commencement Deadlines and Forms

It is recommended that students refer often to the Graduation & Commencement Deadlines for Master’s Students (http://gradschool.missouri.edu/forms-downloads/repository/graduation_deadlines.pdf) to avoid missing any important graduation or commencement deadlines. In addition to various deadlines, student must also submit a variety of necessary paperwork. By the end of the first year of master’s work at MU, a student must begin submitting degree program forms, which will aid the department and the Office of Graduate Studies in planning an academically appropriate course of study and in tracking the student’s progress toward degree completion. These forms include the following:

Program of Study. Outlines the course work to be included in the student’s degree program. Due in the Office of Graduate Studies by the end of the second semester unless the degree can be completed in two semester. In that case, the form is due by the end of the first semester. Plan of Study (M1) form (pdf) (http://gradschool.missouri.edu/forms-downloads/repository/m1.pdf) Request for Thesis Committee (thesis option only). Is a membership proposal for the student’s thesis committee. Due in the Graduate School by the end of the second term. Request for Thesis Committee (M2) form (pdf) (http://gradschool.missouri.edu/forms-downloads/repository/m2.pdf)

Report of Master’s Examining Committee. Reports the results of the thesis defense, master’s comprehensive exam, project presentation, portfolio review, etc. Due in the Graduate Studies two weeks prior to graduation. Report of Master’s Examining Committee (M3) form (pdf) (http://gradschool.missouri.edu/forms-downloads/repository/m3.pdf).

Choosing an Advisor

Graduate Committee Membership for Jointly Appointed Faculty Chapter 320 of the Collected Rules and Regulations for the University of Missouri requires that all jointly appointed faculty members will have designated Primary Appointment and Primary Departments well as affiliation with one or more involved academic programs. These affiliations affect membership status of jointly appointed faculty on graduate student committees as follows:

- Faculty members may serve as advisor/committee chair when their Primary Appointment is in the graduate student’s home academic program.
- When the graduate student’s home academic program is the involved academic program for a jointly appointed faculty member, this person may serve as chair/advisor with the approval of the director of graduate studies from the student’s home academic department.
- A faculty member can serve as an Internal Member only when their Primary Appointment is in the graduate student’s home academic program.
- When a graduate student’s home academic program is the involved academic program for a jointly appointed faculty member, he or she may serve as either an Internal or External Member of the committee.
Graduate Committee Membership for Adjunct Faculty

Adjunct Faculty may serve as a Committee Chair or Committee Member only in academic programs in which they are appointed and approved for Graduate or Doctoral Faculty membership as appropriate for the student’s degree (Master’s or Doctoral). Service on graduate committees outside the academic program in which they are appointed requires a recommendation by the director of graduate studies from the student’s home academic program and approval by the vice provost for advanced studies and dean of the Graduate Studies.

Master’s Plan of Study

The Graduate Faculty Senate has established a campus wide minimum of 30 hours of graduate credit beyond the bachelor’s degree (or its equivalent) for a master’s degree. Fifteen of the 30-hour minimum must be selected from courses numbered at 8000 or 9000 level. No more than 40 percent of the 30-hour credit requirement can be satisfied by a combination of special investigations, Research, Readings and / or Problems courses. Master’s Plan of study. (http://gradschool.missouri.edu/academics/process/plan-of-study/masters.php)

Completing a Plan of Study Form

After performing satisfactorily for a minimum of one semester, the student, with the advisor’s assistance, completes the Plan of Study form (pdf) that outlines the plan of study for the student’s graduate program. The form is forwarded through the academic program’s director of graduate studies to the Office of Graduate Studies for approval. The Plan of Study form must be filed with Graduate Studies by the end of the student’s second semester of enrollment or at least one semester prior to graduation. Upon approval of the program by the Office of Graduate Studies, the student is a candidate for the degree. If a change is necessary to a student’s approved Plan of Study form, a Plan of Study Substitution form (http://gradschool.missouri.edu/forms-downloads/repository/subform.pdf) must be used.

Note: An academic program may have additional credit hour (or other) requirements. Check with the program of interest to confirm degree requirements.

Transfer Credit Toward a Master’s Degree

A maximum of 20 percent of the number of credit hours required for a student’s degree may be graduate credits transferred from another university, including another campus of the University of Missouri system upon the recommendation of the advisor, the approval of the academic program director of graduate studies and the Office of Graduate Studies.

Note: the above represents a change in policy and becomes effective for graduate students beginning their master’s programs during the fall semester 2001. Students who began their master’s programs prior to the fall semester 2001 have the option of using the above regulation or the regulation in place at the time they began their degree program. The MU Office of Graduate Studies will review the transfer request to determine if the credit meets the minimum guidelines.

If so then the Office of Graduate Studies will process the request so that each transfer course will appear on the student’s transcript.

How to Request Transfer of Credit

1. The request or transfer credit must first be approved by the student’s advisor and the department’s director of graduate studies.
2. Once approved the student submits his/her Plan of Study or Course Substitution form to add the transfer work to the Plan of Study along with an unopened, official transfer transcript if one is not currently on file with the Graduate School.
3. Once the Graduate School has received the request it will be reviewed to determine if minimum requirements have been met.
4. If approved then the Graduate School will process the request so that the transfer credit appears on the MU student record.

Minimum Transfer Requirements

Transfer course work:

- must be less than eight years old by the time the master’s degree is conferred;
- was taken for graduate credit and clearly marked as such on the transfer transcript, complete with credit hours and a grade;
- is limited to no more than 20 percent of the total course work on the student’s Plan of Study form;
- is from a regionally accredited institution in the U.S. or an overseas institution that is recognized by its country’s Ministry of Education as a graduate degree granting institution; and
- is not extension or correspondence credit (see policy on correspondence credit above)

Credit Toward a Second Master’s Degree

A student who has completed one master’s degree at the University of Missouri or elsewhere may, upon recommendation of the advisor and approval by the academic program’s director of graduate studies and the Office of Graduate Studies, present a maximum of eight hours of credit earned in the previous program toward a second master’s degree.

Forming a Master’s Thesis Committee

When a thesis is required for completion of a master’s degree, the student is required to submit a Request for Thesis Committee (M2 form) or a dual-masters Request for Thesis Committee (DM2 form) for approval by the academic program’s director of graduate studies and the Office of Graduate Studies. A thesis committee is composed of three members of the MU faculty: a major advisor from the academic program, a second reader from the academic program and an outside reader who is a member of the graduate faculty from a different MU graduate program.

After the Request for Thesis Committee form has been filed, any changes must be submitted through the Change of Committee form (http://gradschool.missouri.edu/forms-downloads/repository/coform.pdf).

Approval of a Non-MU Faculty Member

Upon approval of the academic program’s director of graduate studies, the student may petition the Office of Graduate Studies to allow a person who is not a member of the MU graduate faculty to serve as the third reader. The petition should include a written justification for such a request and a copy of the person’s curriculum vitae. The Office of Graduate Studies maintains copies of curricula vitae previously received and approved, and if such a request is anticipated, the student should...
contact the Office of Graduate Studies to see if the curriculum vitae of a particular person is already on file.

The Thesis Process

If a thesis is required, it must be the student’s own work and must demonstrate a capacity for research and independent thought. A student writing a thesis should refer to the Graduate Studies Guidelines for Preparing Theses and Dissertations (http://gradschool.missouri.edu/forms-downloads/repository/etd-guidelines.pdf). Academic programs may have additional requirements. The Office of Graduate Studies sets deadlines for master’s students (http://gradschool.missouri.edu/academics/graduation-commencement/timeline-deadlines/master-timeline.php) for completion and submission of the thesis.

Thesis Acceptance

A thesis must be approved by the major advisor, a second reader from the academic program and an outside reader who is a member of the graduate faculty from a different MU graduate program. Students need to supply committee members with copies for review/evaluation. After successfully defending the thesis, the student will make any needed adjustments in format and corrections, based on input from the committee. The thesis is then submitted as PDF file on a CD ROM or electronically to the Office of Graduate Studies by the established master’s deadline.

Grades at the Graduate Level-Graduation Requirement

To become eligible for a master’s degree, a student must have completed all MU graduate work attempted with a GPA of 3.0 (A=4.0) or higher. Review grading policies (p. 769) for more information.

Examination Process

Thesis Option

Where a thesis is presented in partial fulfillment of graduation requirements, students must form a thesis committee. In the final semester, the student must successfully present (defend) the thesis. Three members of the student’s committee must sign the Report of the Master’s Degree Examining Committee (pdf) (http://gradschool.missouri.edu/forms-downloads/repository/m3.pdf), which is then forwarded through the academic program’s director of graduate studies to the Graduate School by the semester deadline.

Non-Thesis Option

Where no thesis is presented by the candidate, a final examination committee, composed of three members from the academic program, is designated by the academic program’s director of graduate studies with the approval of the office of Graduate Studies. During the final semester, the Report of the Master’s Examining Committee (pdf), signed by the director of graduate studies, is forwarded to the Office of Graduate Studies by the semester deadline. All candidates for the MA or MS degrees must complete either a thesis or a substantial independent project that cannot be coauthored.

Enrollment at the Master’s Level

For general master’s enrollment requirements go to the Office of Graduate Studies web page on master’s enrollment requirements (http://gradschool.missouri.edu/academics/progress/graduate-stud-progress/master-stud-progress.php).

Enrollment

The master’s candidate must be enrolled at the University during the semester or session in which a thesis is defended, a master’s project is presented, or the completion of a master’s comprehensive exam is certified.

Scheduling Exams, etc.

Comprehensive exams, thesis defenses, portfolio presentations and the like may be offered during the regular semester session. Dates that are excluded from graduation examinations include breaks between regular semester sessions, national holidays where the University is not in operation and weekends.

Enrollment for Graduate Examination

Master’s and educational specialist degree candidates who have completed all requirements except the final examination or the defense of the thesis/project must be enrolled when the final examination is given or the thesis/project is defended. Students who do not wish to enroll in course work during this time can enroll in “Graduate Examination” hours only.

Note: Registration in the “Graduate Examination” does not count toward enrollment certification. Students enrolled in the “Graduate Examination” would not be considered full-time or part-time.

Graduate students must be enrolled in at least nine credit hours to be considered full-time students and at least four credit hours to be considered half-time students during fall and spring terms. For summer terms, graduate students must be enrolled in four hours to be considered full-time and two hours to be considered half-time students.

Students with financial aid or a visa should discuss plans with the Student Financial Aid (http://financialaid.missouri.edu) office before registering for Graduate Examination hours. International students with a visa should discuss plans with MU’s International Center (http://international.missouri.edu) before registering for the Graduate Examination. Failure to do so could cause serious consequences for a student’s financial aid or visa status.

How Enrollment Status Affects Access to Campus Resources

Students who enroll in the Graduate Examination will not have a valid student ID and thus will not have regular access to the Student Health Center, MU Libraries, the Student Recreation Center or campus computing centers. If a student needs to use any of these services, registration in a one-, two-, or three-hour course (including graduate research courses) is required. Extra fees apply for access too.

Time Limit for Master’s Degree Completion

The program for the master’s degree must be completed within a period of eight years beginning with the first semester of enrollment in which the student is accepted to a degree program or from the date of the oldest coursework used on the plan of study. Individual academic programs may stipulate a shorter time period. Time spent in the armed services will
not count toward the eight-year limit (see also Active Duty Policy). For any extension of this time limitation, the student must petition the Office of Graduate Studies by submitting a request to the advisor who, in turn, submits a written recommendation to the Office of Graduate Studies that is endorsed by the academic program’s director of graduate studies. The Office of Graduate Studies will notify the advisor in writing of the final decision.

For academic advice or assistance with degree program planning, students should contact their advisors. See master’s graduation requirements. (http://gradschool.missouri.edu/academics/graduation-requirements/masters-grad-requirements.php)

### Reasonable Rate of Progress for Master’s Students

Reasonable rate of progress is governed by both the campus-wide policies of the Office of Graduate Studies as well as academic program regulations which may be more restrictive. Failure to satisfy the Office of Graduate Studies rate of progress policies leading to dismissal is handled by the Request for Extension (http://gradschool.missouri.edu/academics/progress/requests-for-extensions-appeals.php) process.

### Deadline for Submission of Thesis After Successful Defense

After successful defense of the thesis or dissertation, students must comply with their academic program’s and/or the International Center’s enrollment requirements. Students are required to submit their final dissertation or thesis by the end of the following semester after a successful defense unless a letter asking for an extension is submitted to the Graduate Dean by the student’s advisor and program’s DGS.

### Extension Requests for Master’s Students

Extenuating circumstances that inhibit a student’s rate of progress are handled through the Request for Extension (http://gradschool.missouri.edu/academics/progress/requests-for-extensions-appeals.php) process.

### Dismissal

Dismissals arising from violation of academic program policies may be appealed using the Appeals Process. For additional details, graduate students should refer to the Dismissal Policy (http://gradschool.missouri.edu/academics/progress/probation-termination.php) and the Extension Requests and Appeals Process (http://gradschool.missouri.edu/academics/progress/requests-for-extensions-appeals.php).

### Dual Degrees: Master’s Students

As the US workforce becomes increasingly interdisciplinary, some master’s students elect to concurrently pursue two advanced study degrees. All dual-degree programs at the graduate level require Graduate Faculty Senate approval. Please refer to the A-Z list of graduate degree programs (http://gradschool.missouri.edu/academics/programs/a-z) to learn what is currently available.

The two types of dual master’s degrees are the dual master’s degree and the dual master’s-professional degree.

<table>
<thead>
<tr>
<th>Degree Type</th>
<th>Dual Master’s Degree</th>
<th>Dual Master’s-Professional Degree</th>
</tr>
</thead>
<tbody>
<tr>
<td>Description</td>
<td>This is a cooperative degree, arranged between two graduate degree granting programs and approved by the Graduate Faculty Senate.</td>
<td>This is a cooperative degree arranged between a graduate degree granting program and a professional degree granting program (e.g., law or medicine) and approved by the Graduate Faculty Senate.</td>
</tr>
<tr>
<td>Application Processes</td>
<td>Students must simultaneously submit a separate application to both degree programs to be considered for admittance. Because some students may not be aware of an approved dual-degree program before their arrival at MU, the option to participate in an approved dual-degree program may be postponed until no later than the end of a student’s second semester at MU. Start your online application process at <a href="http://gradschool.missouri.edu/admissions/index.php">http://gradschool.missouri.edu/admissions/index.php</a></td>
<td>The Office of Graduate Studies oversees the master’s degree portion of the dual master’s/professional degree. Students must apply to both the Office of Graduate Studies and the professional program, notifying both of their interest in the dual program. Start your online application process to the Graduate School at <a href="http://gradschool.missouri.edu/admissions/index.php">http://gradschool.missouri.edu/admissions/index.php</a></td>
</tr>
<tr>
<td>Forms and Policies</td>
<td>Students must fill out an Application for Dual Enrollment (pdf) no later than the end of a student’s second semester at MU. For Graduate Studies policies and forms pertaining to the master’s portion of the dual master’s/professional degree, refer to the Master’s Degrees Requirements and Policies on the website.</td>
<td></td>
</tr>
</tbody>
</table>

### Note on Dual Degrees for Law Students

Dual-degree programs with the Law School enable students to earn the Juris Doctor (JD) concurrently with a Master’s or PhD degree. Dual-degree students must fulfill entrance requirements for both schools, including the graduate school’s entrance exam (if required) and the LSAT. Contact the Law School (p. 734) for more information on their dual-degree programs.

### Note on Dual Degrees for Medical Students

Additional information concerning medical dual degrees for both master’s and doctoral students can be found on the doctoral dual degree (http://gradschool.missouri.edu/academics/graduation-requirements/dual-degree-requirements.php) page.
Counting Credits

A student must complete a minimum of 18 hours of graduate courses for each degree program respectively. A minimum of 3 hours must be 8000-level courses. Additionally, the student must complete 12 hours of shared 8000-level graduate credit, which can include thesis/project research credit, as applicable.

Thus, $18 + 18 + 12 = 48$ hours of graduate credit which is the minimum total hours for a dual master’s degree program.

For example, for a dual master’s degree program in Applied Mathematics and Electrical Engineering, a student’s plan of study must show 18 hours of Applied Mathematics graduate course work that applies only to the Applied Mathematics degree and 18 hours of Electrical Engineering graduate course work that applies only to the Electrical Engineering degree. The additional 12 hours of shared 8000-level graduate credit brings the total earned graduate credit hours to 48.

Transfer Credit

Up to eight hours of transfer credit may be applied as follows: to one of the two degree programs, or divided between the two degree programs. The eight hours of transfer credit cannot be applied to each degree program separately.

Advising & Committees

There will be a separate advisor and committee for each degree program.

Dean’s Note: the option of a combined committee structure may be included in proposals for Graduate Faculty Senate consideration, e.g., co-advisors who would also serve as outside members, plus one additional member from each degree program, for a total of four committee members.

Dual Degree Progress Forms

Special dual master’s degree program forms will be used to certify plans of study, committee members and final defense/examinations. The forms are available from the Master’s Requirements Time Line (http://gradschool.missouri.edu/academics/graduation-commencement/timeline-deadlines/master-timeline.php).

Conferral of Dual Degrees

The Office of Graduate Studies will confer two separate diplomas upon completion of all degree program requirements.

Educational Specialist Requirements

This degree, offered through the College of Education, is a 30-hour program of specialization built upon the education specialist degree, of which 24 hours must be taken with MU faculty. Six semester hours must be completed within one semester or summer session to provide an in-residence experience. Students have eight years to complete the degree from the time they are first admitted to the degree program. A student is required to take a final examination, and the report of the results must be approved by a majority of the candidate’s advisory committee members and submitted to the Graduate School. For additional information on the Educational Specialist degree (http://gradschool.missouri.edu/academics/graduation-requirements/educ-spec-requirements.php), consult the College of Education’s site (http://education.missouri.edu).

Required Educational Specialist Forms

The Graduate School obtains students’ official academic records as soon as they complete their first terms of enrollment. Each of the following forms is completed at the departmental/program level, routed for required signatures and forwarded to the Graduate School in 210 Jesse Hall.

Forms are reviewed by staff in the Office of Graduate Studies, given the Associate Vice Chancellor for Graduate Studies’ signature if approved, and an electronic copy is made available to the academic program office. If changes/corrections are needed, or if any signatures are missing, the forms will be returned to the department for corrective measures. If any faculty signatures are illegible, we ask that departments print a correct spelling below any such signatures.

Request for the Educational Specialist Advisory Committee (http://gradschool.missouri.edu/forms-downloads/repository/s1.pdf) (S-1 form, PDF)

The S-1 form serves as official documentation of who serves on a student’s advisory committee. It should be submitted to the Office of Graduate Studies by the end of a student’s second semester or at least one semester prior to degree completion.

Plan of Study for the Educational Specialist Degree (http://gradschool.missouri.edu/forms-downloads/repository/s2.pdf) (S-2 form, PDF)

The S-2 form provides the student, academic program/department and the Office of Graduate Studies with a plan for all the course work that will comprise a plan of study. It serves as a general plan to follow. Changes on the plan of study can be made easily by submitting a Course Substitution form (http://gradschool.missouri.edu/forms-downloads/repository/subform.pdf). The S-2 form should be submitted to the Graduate School preferably by the end of a student’s second semester or at least one semester prior to degree completion.

Report of the Educational Specialist Examining Committee (http://gradschool.missouri.edu/forms-downloads/repository/s3.pdf) (S-3 form, PDF)

This form is submitted by the academic program/department and reports the final results of a student’s comprehensive examination. Students are encouraged to consult with their departments to make sure the departments submit the S-3 form shortly after the exam has been graded.

Transfer Credit Toward the Educational Specialist Degree

A maximum of 20 percent of the number of credit hours required for a student’s degree may be graduate credits transferred from another university, including another campus of the University of Missouri system upon the recommendation of the advisor, the approval of the academic program director of graduate studies and the Office of Graduate Studies.

Note: The above represents a change in policy and becomes effective for graduate students beginning their education specialist programs during the fall semester 2001. Students who began their education specialist programs prior to the fall semester 2001 have the option of using the above regulation or the regulation in place at the time they began their degree program. The MU Office of Graduate Studies will review the transfer request to determine if the credit meets the minimum guidelines. If so then the Graduate School will process the request so that each transfer course will appear on the student’s transcript.
How to Request Transfer of Credit

1. The request or transfer credit must first be approved by the student’s advisor and the department’s director of graduate studies.
2. Once approved the student submits his/her Plan of Study or Course Substitution form to add the transfer work to the Plan of Study along with an unopened, official transfer transcript if one is not currently on file with the Office of Graduate Studies.
3. Once the Office of Graduate Studies has received the request it will be reviewed to determine if minimum requirements have been met.
4. If approved then the Office of Graduate Studies will process the request so that the transfer credit appears on the MU student record.

Minimum Transfer Requirements
Transfer course work:
- must be less than eight years old by the time the education specialist degree is conferred;
- was taken for graduate credit and clearly marked as such on the transfer transcript, complete with credit hours and a grade;
- is limited to no more than 20 percent of the total course work on the student’s Plan of Study form;
- is from a regionally accredited institution in the U.S. or an overseas institution that is recognized by its country’s Ministry of Education as a graduate degree granting institution.

Special Types of Credit for the Educational Specialist Degree
A maximum of six semester hours completed with a grade of B or better may be accepted in transfer from institutions accredited to offer doctoral degrees. Off-campus courses authorized for graduate credit and offered by MU faculty members and courses offered through MizzouOnline taught by MU faculty may be included in the program.

Grades at the Graduate level-Graduation requirement
To become eligible for a education specialist degree, a student must have completed all MU graduate work attempted with a GPA of 3.0 (A=4.0) or higher. Review grading policies (p. 769) for more information.

Enrollment
The educational specialist candidate must be enrolled at the University during the regular semester session in which comprehensive exams are taken, portfolio or project is presented, etc.

Time Limit for Education Specialist Degree Completion
The program for the education specialist degree must be completed within a period of eight years beginning with the first semester of enrollment in which the student is accepted to a degree program or from the date of the oldest coursework used on the plan of study. Individual academic programs may stipulate a shorter time period.

Time spent in the armed services will not count toward the eight-year limit (see Active Duty Policy (http://veterans.missouri.edu/forms/active-duty.php)). For any extension of this time limitation, the student must petition the Office of Graduate Studies by submitting a request to the adviser who, in turn, submits a written recommendation to the Graduate School that is endorsed by the academic program’s director of graduate studies. The Office of Graduate Studies’ staff will notify the advisor in writing of the final decision.

For academic advice or assistance with degree program planning, students should contact their advisors.

Reasonable Rate of Progress for Education Specialist Students
Reasonable rate of progress is governed by both the campus wide policies of the Graduate School as well as academic program regulations which may be more restrictive. Failure to satisfy the Graduate School’s rate of progress policies leading to dismissal are handled by the Request for Extension process, and the decision of the Associate Vice Chancellor for Graduate Studies in these matters is binding.

Extension Requests for Education Specialist Students
Extenuating circumstances that inhibit a student’s rate of progress are handled through the Request for Extension (http://gradschool.missouri.edu/academics/progress/requests-for-extensions-appeals.php) process. The decision regarding an extension is made by the vice provost for advanced studies and dean of the Graduate School, and is binding.

Dismissal
Dismissals arising from violation of academic program policies may be appealed using the Appeals Process. For additional details, graduate students should refer to the Dismissal Policy (http://gradschool.missouri.edu/academics/progress/termination.php) process. The decision regarding an extension is made by the vice provost for advanced studies and dean of the Graduate School.

Doctoral Requirements (Graduate School)

The University of Missouri grants four types of doctoral degrees: the doctor of philosophy (PhD), the doctor of education (EdD), the doctor of physical therapy (DPT), and the doctor of nursing practice (DNP). Consult with individual departments to learn about the availability of degrees. To obtain a doctoral degree, a student must follow the general regulations of the Graduate Faculty Senate well as special requirements of the degree program. It is the student’s responsibility to adhere to all regulations and satisfy the graduation requirements of the Graduate Studies and degree program. An individual who has held, at any time, a regular tenure-track appointment in an MU academic program is not eligible for a doctoral degree from that department or the area program in which the department participates.

Doctoral Qualifying Examination or Process
Prior to official admission into a doctoral program, the student must pass a qualifying examination or process. A department or area program may limit the number of times this examination or process may be
attempted. After the qualifying process is complete and the doctoral committee has been confirmed, the Qualifying Examination Results and Doctoral Committee Approval (D1) form should be submitted to the Graduate School, no later than the end of the second semester of enrollment.

Selecting a Doctoral Advisor

The student selects an advisor or co-advisors, by mutual consent, from doctoral faculty members who are dissertation supervisors in the department or area program in which the major work is planned. In the event that an advisor retires or leaves MU, he/she may continue to serve as a student’s advisor unless there is written academic program policy prohibiting such an arrangement. If an advisor is unable or unwilling to continue to serve, the academic program, with the leadership of the director of graduate studies, will assist to ensure that a replacement is found.

Forming a Doctoral Program Committee

The doctoral program committee must be recommended by the student’s advisor and approved by the academic program’s director of graduate studies and the Graduate School before one year has elapsed following the student’s first registration as a doctoral student. The Qualifying Examination Results and Doctoral Committee Approval (D1) form is due to the Graduate School office by the end of the student’s second semester.

Committee Changes

Changes to the committee must be submitted on the Change of Committee form.

Duties

All members of the doctoral program committee will be intimately involved and will actively participate in the activities of the doctoral student at all the stages of the student’s career at MU, except in some cases in the qualifying examination/process. The committee may also participate in the assessment of a student’s background and potential for success in the academic program’s doctoral program. Committee members may call a meeting of the full committee at any time to discuss the student’s progress.

Membership Requirements for Doctoral Committees

The doctoral program committee shall be composed of a minimum of four members of the MU graduate faculty and will include at least three members from the student’s doctoral degree program and an outside member from a different MU program. At least two of the doctoral committee members must be MU doctoral faculty. (Note: This policy is effective for students who begin their doctoral programs during the Fall 2005 Term. For students who began their doctoral programs before the fall 2005 semester, consult the appropriate catalog or the Graduate School.)

Additional committee members with specialized expertise who do not meet the criteria for the MU graduate faculty or doctoral faculty may serve on a doctoral committees as a fifth or sixth member, with special permission of the dean of the Graduate School.

Graduate Committee Membership for Jointly Appointed Faculty

Chapter 320 of the Collected Rules and Regulations (http://www.umsystem.edu/ums/rules/collected_rules/personnel/ch320) for the University of Missouri requires that all jointly appointed faculty members will have a designated Primary Appointment and Primary Department as well as affiliation with one or more involved departments or units. These affiliations affect membership status of jointly appointed faculty on graduate student committees as follows:

Committee Chair/Advisor

A faculty member may serve as advisor/committee chair when his or her primary appointment is in the graduate student’s home academic program. When the graduate student’s home academic program is the involved academic program for a jointly appointed faculty member, the person may serve as chair/advisor with the approval of the director of graduate studies from the student’s home academic program.

Doctoral Committee Member

A faculty member can serve only as an Internal Member when his or her Primary Appointment is in the graduate student’s home academic program. When a graduate student’s home academic program is the involved academic program for a jointly appointed faculty member, he or she may serve as either an Internal or External Member of the committee.

Graduate Committee Membership for Adjunct Faculty

Adjunct faculty may serve as a committee chair or committee member only in academic programs in which they are appointed and approved for graduate or doctoral faculty membership as appropriate for the student’s degree (master’s or doctoral). Service on graduate committees outside the academic program in which an adjunct member is appointed requires a recommendation by the director of graduate studies from the student’s home academic program and approval by the dean of the Graduate School.

Doctoral Plan of Study & Degree Requirements

The doctoral program committee provides academic program approval of the student’s Plan of Study which will prepare the student for research or scholarly investigation in the chosen field of study. The plan of study includes a list of the courses and the credit to be earned. By successfully completing the plan by deadlines, a doctoral student will:

- Prepare the student for research or scholarly investigation in the chosen field of study.
- Satisfy the credit-hour and residency requirement of the academic program.
- Satisfy any special requirements (proficiency in foreign languages, collateral field, doctoral minor, other special research skills) imposed by the department or area program.
- Satisfy the requirement for a minimum of 15 hours of MU coursework at the 8000/9000 level (exclusive of research, readings, and problems).

The committee also recommends to the Associate Vice Chancellor for Graduate Studies, as part of the Plan of Study, any request for transfer of graduate credit. Changes to the plan of study should be submitted on the
Doctoral Credit-Hour Requirement

MU requires a minimum of 72 semester hours beyond the baccalaureate degree for the PhD and EdD degrees. The student’s doctoral program committee must approve all course work used to satisfy the credit-hour requirement and may require additional course work beyond these minimums.

Transfer Credit

The doctoral committee may recommend up to 30 hours of post-baccalaureate graduate credit from a regionally accredited university be transferred toward the total hours required for the doctoral degree. It is the responsibility of the doctoral committee to determine the appropriateness of course work for transfer credit. All requests for exceptions to this policy must be approved by the dean of the Graduate School.

Note: This policy applies to students who begin their enrollment during the Fall Term 2006 and subsequent semesters. For students who began their doctoral programs prior to the fall 2006 semester, consult the appropriate catalog or the Graduate School for policies pertaining to transfer of credit.

Extension & Correspondence Credit in Doctoral Programs

The doctoral committee may recommend that courses taken through MU’s Extension division be counted toward the credit-hour requirement. Extension or correspondence course work from institutions other than MU may not be used to meet the total hours required for the doctoral degree.

Time Limits on Transfer Credits

All courses to be applied to the plan of study must be completed within eight years of filing the plan.

Grades at the Graduate Level

To become eligible for a degree, a doctoral student must have completed all MU graduate work attempted with a GPA of 3.0 (A=4.0) or higher. Review grading policies (p. 769) for more information.

Foreign Language Proficiency

In general, an English-speaking student may establish foreign language proficiency, if it is required, by demonstrating an ability to translate into English two foreign languages; or by demonstrating a high order of fluency in one language; that is the ability to read, write and converse in that language and to translate that language into English and English into that language.

Plan of Study Completion Before Doctoral Comprehensive Exam

The student must substantially complete the course work outlined in the Plan of Study to the satisfaction of the doctoral program committee and the Graduate School before being declared ready for the comprehensive examination (http://gradschool.missouri.edu/academics/process/doctoral-process/comprehensive-exam.php).

Doctoral Comprehensive Examination

The student must be enrolled to take the doctoral comprehensive examination (http://gradschool.missouri.edu/academics/process/doctoral-process/comprehensive-exam.php). It is to be administered only when MU is officially in session. The comprehensive examination is the most advanced posed by MU. It consists of written and oral sections. It must be completed at least seven months before the final defense of the dissertation. The two sections of the examination must be completed within one month.

Written Section

The written section or sections of the examination may be conducted in one or both of the following two ways:

1. The written sections may be arranged and supervised by the major advisor, in which case questions are prepared and graded by the doctoral program committee.
2. The major advisor may delegate responsibility for arranging, preparing, supervising and grading the written sections of the examination to one or more departmental/program committees appointed for this purpose.

Successful Completion

For the comprehensive examination to be successfully completed, the doctoral program committee must vote to pass the student on the entire examination, both written and oral sections, with no more than one dissenting or abstaining vote. A report of examination results, carrying the signatures of all members of the committee, must be sent to the Graduate School and the student no later than two weeks after the comprehensive examination is completed.

Exam Failure

A failure of either the written or oral section of the exam constitutes failure of the comprehensive exam. If a failure is reported, the committee also must include in the report an outline of the general weaknesses or deficiencies of the student’s work. The student and the committee members are encouraged to work together to identify steps the student might take to become fully prepared for the next examination.

Request for Clarification

If the student believes that the advice given by the committee is inadequate, the student may send a written request for clarification to the committee. A copy of this request should be sent to the Graduate School as well. The committee must respond to this request in writing within two weeks and a copy must be filed with the Graduate School.

Retaking the Comprehensive Examination

The student who fails may not take a second comprehensive examination for at least 12 weeks. Failure to pass two comprehensive examinations automatically prevents candidacy.

Doctoral Candidacy & Continuous Enrollment

Candidacy for a doctoral degree is established by passing the comprehensive examination. Status as a continuous enrollment doctoral student begins the term after the term in which the comprehensive exam was successfully completed. Students must maintain continuous
enrollment during their candidacy (the period after successful completion of the comprehensive examination).

Procedure for Continuous Enrollment
Candidacy is maintained by enrolling in 9090 Research (or 9990 Research for some Engineering students) for two semester hours each fall and spring semester and for one semester hour each summer session, or an equivalent number of hours through enrollment in other coursework, up to and including the term in which the dissertation is defended. Continuous enrollment provides access to an advisor’s support, doctoral program committee guidance and university research facilities for completion of the dissertation. Failure to enroll continuously in the appropriate number of hours until the doctoral degree is awarded terminates candidacy.

Reestablishing Candidacy After Time Off
Candidacy may be reestablished by paying the registration and late fees owed and completing the requirements specified by the student’s doctoral program committee. Registration fees owed may not exceed the amount owed for seven terms, regardless of the number of terms beyond seven for which the student failed to continuously enroll. The committee’s requirements may include a second comprehensive examination or evidence of currency in the research field as suggested by publications in refereed journals. Candidacy is reestablished when the student’s advisor and the departmental, area program or divisional director of graduate studies submits a written request to the Office of Graduate Studies explaining the basis for the decision. Once approved, a Request to Re-enroll form (pdf) (http://gradschool.missouri.edu/forms-downloads/repository/reenroll.pdf) must be completed by the student and sent to the department/program for processing.

The Doctoral Dissertation
The dissertation must be written on a subject approved by the candidate’s doctoral program committee, must embody the results of original and significant investigation and must be the candidate’s own work.

Enrollment Status and Reporting
The candidate must be continuously enrolled (http://gradschool.missouri.edu/admissions/types-of-enrollment/continuous-enrollment.php) to defend the dissertation, which can only be defended when MU is officially in session. A report of the dissertation defense (http://gradschool.missouri.edu/forms-downloads/repository/d4.pdf), carrying the signatures of all members of the committee (http://gradschool.missouri.edu/academics/process/forming-committees/doctoral.php), is sent to the Office of Graduate Studies before the deadline preceding the anticipated date of graduation. For the dissertation to be successfully defended, the student’s doctoral committee must vote to pass the student on the defense with no more than one dissenting or abstaining vote.

Required Dissertation Format
Every doctoral candidate should review the Guidelines for Preparing Theses and Dissertations from Graduate Studies and should consult their director of graduate studies for academic program style requirements. All dissertation defenses shall be open to the general faculty. Academic programs are encouraged to announce dissertation defense dates to academic program colleagues.

Submission of Dissertation to the Graduate School
The final copy of the dissertation must be submitted to the Office of Graduate Studies electronically or as a PDF file on a CD-ROM. Specific instructions are provided in the Guidelines for Preparing Theses and Dissertations.

Reasonable Rate of Progress
Reasonable rate of progress is governed by both the campus wide policies of the Graduate Faculty Senate listed below as well as academic program regulations which may be more restrictive. Failure to satisfy the Graduate Faculty Senate’s rate of progress policies leading to dismissal is handled by the Request for Extension process (http://gradschool.missouri.edu/academics/progress/requests-for-extensions-appeals.php). For academic advice or assistance with degree program planning, students should contact their advisors. Dismissals arising from violation of academic program policies may be appealed using the Appeals Process (http://gradschool.missouri.edu/academics/progress/requests-for-extensions-appeals.php). Students should also refer to the section on the Dismissal Policy (http://gradschool.missouri.edu/academics/progress/probation-termination.php) for additional details.

Time Limits for Doctoral Degree Completion
Three Graduate Faculty Senate policies govern the Reasonable Rate of Progress established for doctoral students. To determine which is applicable to a particular student, see the policies below:

Students Who Began Their Program in Fall 2000 to the Present
Effective fall semester 2000, a doctoral student must successfully complete the comprehensive examination within a period of five years beginning with the first semester of enrollment as a PhD student. In addition, the program for the doctoral degree must be completed within five years of passing the comprehensive examination. Individual departments or area programs may stipulate a shorter time period. For an extension of this time the student must petition the Graduate School by submitting a request to the advisor who, in turn, submits a written recommendation to the Graduate School which has been endorsed by the department or area program director of graduate studies.

Doctoral Students Who Passed Comps Between Fall 1994 and Summer 2000
Doctoral candidates who passed their comprehensive examinations between the beginning of the fall semester 1994 through summer session 2000 will have no more than five years after passing the comprehensive examination to complete the doctoral degree.

Doctoral Students who Passed Comps Before Fall 1994
Doctoral candidates who passed their comprehensive examinations before fall semester 1994 must complete their degree programs within eight calendar years beginning with the first semester of enrollment as a doctoral student.
Doctoral Degree Extension Request

Regardless of when a student entered the program or passed the comprehensive exam, any candidate requiring additional time must submit a request for an extension. On petition of the candidate and the candidate’s academic program, an extension of time may be granted by the Graduate School. Academic programs specifically reserve the right to re-certify currency in the discipline. All requests for extensions should be endorsed by the academic program’s director of graduate studies and accompanied by a description of the process whereby currency in the discipline is certified, if required by the academic programs. See also Active Duty Policy (http://veterans.missouri.edu/forms/active-duty.php).

Doctorate of Education (EdD): Special Requirements and Policies

Admission

To be admitted into a doctorate of education program, the student must have attained the degree of master of arts with a major in education, a degree of master of education, or the quantitative and qualitative equivalent of one of these degrees from an accredited college or university.

EdD Qualifying Exam

If required, the qualifying examination must be successfully completed before the plan of study is determined by the advisor and the student in cooperation with the doctoral advisory committee. This program must constitute a well organized plan of professional specialization in one of the major fields of education, with one or more supporting fields.

EdD Plan of Study

A minimum of 72 semester hours of graduate level course work beyond the bachelor’s degree is required for the degree of doctor of education degree. The plan of study is specifically intended to meet the professional needs of the candidate. As well as pursuing course work in the professional areas of specialization, the student must take courses in educational statistics, advanced educational statistics, methods of educational research and one research elective course. Foreign languages are not required, except as may be determined by the student’s doctoral advisory committee.

EdD Advisory Committee

The student’s advisor officially recommends for the approval by the Graduate School a doctoral advisory committee of at least five members. For students admitted Fall 2006 and later, the requirement is at least four committee members. In addition to planning the doctoral program with the student, this committee may administer a qualifying examination, which helps to assess the student’s general background and potential for the EdD degree. It also guides the planning of the plan of study.

EdD Comprehensive Examination

When the doctoral advisory committee determines that the needed course work has been completed with satisfactory grades, it plans the comprehensive examination (a written and oral examination that includes the candidate’s major field of interest) for the degree. This examination must be taken no earlier than the second year of graduate work and be completed at least seven months before graduation. A student must be enrolled to take the comprehensive examination. It is not administered unless MU is officially in session.

For the comprehensive examination to be completed successfully, the committee must vote to pass the student with no more than one dissenting or abstaining vote. If failure is reported, the committee recommends suggested work or remedial measures. See Comprehensive Examination (http://gradschool.missouri.edu/academics/process/doctoral-process/comprehensive-exam.php) under PhD Degree Regulations.

The student who fails may not take a second examination for at least 12 weeks. Failure on two comprehensive examinations automatically prevents candidacy.

Continuous Enrollment

EdD candidates are subject to the same policies and procedures as PhD candidates. See enrollment requirements (p. 764) for graduate studies.

Dissertation Defense

EdD candidates are subject to the same policies and procedures as PhD candidates. The dissertation must be reviewed and approved by the doctoral program committee. (http://gradschool.missouri.edu/academics/thesis-dissertation/dissertation-process.php)

Time Limits for Doctoral Degree Completion

Effective fall semester 2000, a doctoral student must successfully complete

• the comprehensive examination within a period of five years beginning with the first semester of enrollment as a PhD student.
• the doctoral degree within five years of passing the comprehensive examination.

Individual departments or area programs may stipulate a shorter time period.

For time limit policies prior to academic year 2000-2001, consult the Graduate School Catalog archive dissertation format EdD candidates are subject to the same dissertation formatting and submission requirements as PhD candidates. The dissertation must be reviewed and approved by the doctoral program committee. Polices can be found at http://gradschool.missouri.edu/academics/graduation-requirements/doctoral-grad-requirements.php.

Dissertation Submission

The final copy of the EdD dissertation must be submitted to the Graduate School as a PDF file on a CD-ROM. Specific instructions are provided in the Guidelines for Preparing Theses and Dissertations (http://gradschool.missouri.edu/forms-downloads/repository/edt-guidelines.pdf).

Deadline for Submission of Dissertation/Thesis after Successful Defense

After successful defense of the thesis or dissertation, students must comply with their academic program’s and/or the International Center’s enrollment requirements. Students are required to submit their final dissertation or thesis by the end of the following semester after a successful defense unless a letter asking for an extension is submitted to the Graduate Dean by the student’s advisor and program’s DGS.

Doctoral Degree Extension Request

Regardless of when a student entered the program or passed the comprehensive exam, any candidate requiring additional time must submit a request for an extension. On petition of the candidate and the
candidate's academic program, an extension of time may be granted by the Associate Vice Chancellor for Graduate Studies. Academic programs specifically reserve the right to re-certify currency in the discipline. All requests for extensions should be endorsed by the academic program's director of graduate studies and accompanied by a description of the process whereby currency in the discipline is certified, if required by the academic programs. (See also Active Duty Policy.)

**Doctoral Dual Degrees**

**Dual Doctoral-Professional Degrees**

As the US workforce becomes increasingly interdisciplinary, some graduate students elect to concurrently pursue a PhD (doctoral) degree in combination with a law or medical (professional) degree. Examples include the MD/PhD and the JD/PhD. Dual degrees are cooperatively arranged between a graduate degree granting program and a professional degree granting program. The Graduate School oversees the doctoral (PhD) degree portion of the dual doctoral/professional degree. Dual degrees are approved by the Graduate Faculty Senate.

Students must apply to **both** the Graduate School and the professional degree program, notifying both of their interest in a dual program. Please refer to the A-Z list of graduate degree programs (http://gradschool.missouri.edu/academics/programs/a-z) to learn what is currently available.

Because some students may not be aware of an approved dual-degree program before their arrival at MU, the option to participate in an approved dual-degree program may be postponed until no later than the end of a student’s second semester at MU.

The governing policies for dual degrees are the same for master’s and doctoral students. Please refer to the dual-degree information for master’s students (http://gradschool.missouri.edu/academics/process/dual-masters-process) for more information.

**Dual Degrees for Medical Students**

The MD/PhD program is for the student seeking a biomedical research career. Additional years are integrated into the medical curriculum to satisfy requirements for the PhD. (A MD/MS dual degree is another option). The graduate degree (MS or PhD) is typically accomplished after completion of the MD program. PhD programs are available in diverse areas at MU.

Students are accepted to the joint program by a single committee. Students interested in this dual-degree program should inquire at the dean's office in the School of Medicine.

**Financial Support**

Financial support may be provided for the graduate portion of the dual-degree program. Fellowship support may be provided for the PhD portion of this program, while loan and scholarship funds may be available for the MD curriculum.

**Applying Credit**

Students participating in the MD/PhD Program at the University of Missouri may apply up to 30 hours of credit for courses taken during the preclinical phase of the MD program towards the 72 hour requirement for the PhD degree. These MD courses, however, cannot be used to satisfy the requirement for 15 hours of 8000/9000 of graduate level course work.

The following table lists the distribution of credits for the preclinical courses among areas of study that can be used by the student and their committee in determining how many credit hours should be applied toward the PhD.

<table>
<thead>
<tr>
<th>Course</th>
<th>Applicable Hours Toward the PhD</th>

<td>Pathology</td>
<td>6 hrs</td>
</tr>
<tr>
<td>Neurosciences</td>
<td>3 hrs</td>
</tr>
</tbody>
</table>

**Advising & Committees**

There will be a separate advisor and committee for each degree program.

*Dean’s Note: the option of a combined committee structure may be included in proposals for Graduate Faculty Senate consideration, e.g., co-advisors who would also serve as outside members, plus one additional member from each degree program, for a total of four committee members.*

**Dual Degree Progress Forms**

Special dual degree program forms will be used to certify plans of study, committee members and final defense/examinations.

**Timelines for PhD Completion**

Policies governing doctoral degree completion, including but not limited to examinations, forms, continuous enrollment, and dissertation format, defense and submission, are detailed in the doctoral degree requirements section of the Graduate Catalog and web site.

**Conferral of Dual Degrees**

Upon completion of all degree program requirements, the Graduate School and the professional school will confer separate diplomas.

**Doctoral Requirements (School of Law)**

The Juris Doctor (J.D.), or "law degree," is a three year post-baccalaureate program. Students must complete 89 credit hours of law courses roughly one-half of which are required courses.

View JD Degree Requirements Here (p. 735)

The wide variety of academic courses are complemented by a variety of clinics and skills courses designed to provide graduates with a solid foundation for the practice of law.
Information in the catalog is current as of May 2015. The next catalog will be published in May 2016. In the interim, new courses will be announced in myZou (https://myzou.missouri.edu) (MU’s online student information system), and are usually available in October for the upcoming Spring semester, and in March for the upcoming Summer and Fall semesters. Mid year changes to current courses (titles, descriptions and credit hours) are not reflected here, and will only show in myZou.

**Undergraduate Study**

MU grants 25 percent of the bachelor’s degrees from Missouri public universities, providing an intellectually diverse environment and 360-degree learning for students from every state in the nation and more than 120 countries.

MU offers more than 300 degree programs through 19 colleges and schools and is a member of the prestigious Association of American Universities. Ninety-two percent of full-time, ranked faculty hold doctorates or the highest degree in their field. A highly interdisciplinary campus, it’s common for faculty and students from one school at Mizzou to collaborate on projects with those from other schools and colleges. For example, some courses in the sciences are taught in conjunction with MU’s medical school, and humanities classes include such areas as music composition and creative writing.

MU also offers an honors college for high-achievers and unmatched real-world experiences, including managing a bed and breakfast (The Gathering Place), operating a floral shop (Tiger Garden), preparing income taxes for families, studying abroad, volunteering for credit, providing health care, working at the country’s only university-owned TV network affiliate (KOMU), performing at Carnegie Hall and co-authoring articles in leading scientific journals. Mizzou students also hold patents and create startup companies.

For more information about undergraduate study, contact Undergraduate Admissions (http://admissions.missouri.edu).

**Graduate Study**

The University of Missouri Graduate Studies offers nearly 100 master’s degree programs, over 70 doctoral degree programs, and 6 educational specialist degree programs; 13 graduate minors; and 40+ graduate certificates. Opportunities for e-learning, including online graduate degrees, are available. An A-Z list of graduate degrees is available in this catalog as part of a total MU degrees listing (p. 5). For more information, contact Graduate Admissions (http://gradschool.missouri.edu).
Finally, the college helps the global community more fully develop their economies through improved agriculture. This global mission provides a valuable exchange of knowledge and understanding among students, teachers and scientists from many cultures.

The College of Agriculture, Food and Natural Resources was established at the University of Missouri in 1870 as the state’s land-grant university in response to the need for agricultural teaching and research in Missouri. The four major divisions in the college, the Agricultural and Natural Resources Experiment Station, Academic Programs, Agricultural and Natural Resources Extension and International Programs, continue to have a great influence on Missouri’s economy.

Undergraduate

- Special Programs (p. 33) (Pre-Veterinary Track and Pre-Medical Track)
- B.S. Degree Requirements (p. 34)
- University graduation and CAFNR Requirements (p. 34)
- CAFNR Honors Requirements (p. 34)
- Probation, Suspension and Dismissal (p. 35)
- Advising (p. 35)
- Career Development and Professional Opportunities (p. 35)
- Experiential Learning (p. 35)
- Study Abroad (p. 35)
- Student Activities (p. 35)

Admissions

Students admitted to the University of Missouri are encouraged to enter the College of Agriculture, Food and Natural Resources, including the School of Natural Resources, as freshmen. Current Mizzou students who are looking to transfer divisions to CAFNR need to contact the Office of Academic Programs first as some degree programs have specific GPA requirements.

Special Programs

Pre veterinary Track

Students wishing to prepare for application to the College of Veterinary Medicine may enroll in the College of Agriculture, Food and Natural Resources under programs that emphasize science, such as animal sciences or fisheries and wildlife. In satisfying the science program requirements, the requirements for entering veterinary medicine also may be satisfied.

A minimum of 60 credits is required for admission to the College of Veterinary Medicine. Before applying, a student should make certain that the requirements listed below have been satisfied. Questions concerning required admission credits should be directed to the College of Veterinary Medicine. (Note: Tracks are not listed on transcripts or diplomas.)

admission: on transcripts or diplomas.) The following course work is required for applicants to include as many of the following courses as possible among their electives. We have found that anatomy and physiology are especially challenging for students lacking a background in those subjects.

- Animal Nutrition
- Animal Reproduction
- Anatomy
- Animal Husbandry
- Physiology
- Business or Accounting
- Genetics
- Microbiology
- Psychology
- Statistics
- Cell Biology
- Any Biomed 1000-4000 level course at MU.

### Premedical Track

Students interested in a medical career may choose from a variety of science-based majors. The most common choice of students is biochemistry because it is a collaborative program between CAFNR and the School of Medicine. Questions concerning required admission credits should be directed to the School of Medicine. (Note: Tracks are not listed on transcripts or diplomas.) The following course work is required for admission:

### Bachelor of Science (B.S.) Degree Requirements

Students should refer to degree program sections for course requirements and credit hour requirements.

### University Graduation and CAFNR Requirements

- Students are required to meet all University graduation and degree program requirements to earn their degree. Refer to specific CAFNR degree programs to determine specific course requirements.
- Complete 30 of the last 36 hours with MU course work. Obtain approval of faculty advisor, degree program advisor chair, and associate dean prior to enrolling in courses at another institution.
- Earn no less than a 2.00 GPA, as defined by the GPA of Record (UM cumulative GPA)

### Transfer Credits

- A maximum of 18 credit hours of course work in CAFNR disciplines may be transferred from a community college and applied toward departmental degree requirements. Additional credit hours may apply toward general education requirements or electives.
- University general education requirements are considered completed for students transferring with an Associate of Arts (AA) degree from a regionally accredited Missouri institution.
- Transfer credit from a regionally accredited non-Missouri institution will be evaluated on a course by course basis.

### CAFNR Honors Requirements

Students are eligible to enter the honors program when they have obtained a cumulative GPA of 3.3 or above based on 30 credits earned at the University of Missouri. Transfer students are eligible after completing 15 credits at MU with a cumulative GPA of 3.3 or higher.

Students must be admitted to the honors program prior to the first day of classes for the last semester they are enrolled in residence in CAFNR. No student is admitted retroactively. The student is officially admitted to the program upon approval of the associate dean of academic programs.

Eligible students should complete an application as early in their undergraduate degree program as possible. The honors program application should be signed by at least two faculty members and the undergraduate advisor chair before it can be approved. The faculty members co-signing the application will comprise the honor student’s advisory committee.

An honors project (HP) is required and should be planned by the student and approved by the honor student’s advisory committee. The honors project should involve a significant research effort by the honors student, culminating in a written and oral presentation of the results. Departmental HP requirements must be approved by the CAFNR Honors Program Oversight Committee.

Students are officially admitted to the CAFNR Honors Program when the application has been approved and signed by the CAFNR associate dean of academic programs. To remain in good standing in the CAFNR Honors Program, a student must maintain a cumulative GPA of 3.3 or more. A
student whose GPA falls below 3.3 will be allowed a two-semester grace period to raise the GPA to the 3.3 level.

Changes in the program of study must be signed by the student, each advisory committee member, the undergraduate advisor chair and associate dean before they are officially approved.

**Dual Enrollment for Senior Undergraduates**

Qualified undergraduate students are eligible to enroll in up to 12 hours of graduate credit during the last 30 hours of their undergraduate program. Graduate credit cannot be counted toward undergraduate degree credit requirements. See the Office of Graduate Studies (http://gradstudies.missouri.edu) for additional details.

**Probation, Suspension and Dismissal**

In addition to the Academic Standing Policy (p. 756) of the University, CAFNR’s academic policies can be located at http://CAFNR.missouri.edu.

**Advising**

When entering the college, each student is assigned a faculty advisor/mentor to assist in defining career goals and planning courses for a program of study that leads to graduation. The advisor also serves as a resource person for the student in a variety of academic and individual situations.

One of a student’s first priorities is to meet and become acquainted with their advisor early in the semester. The student should consult with their advisor when planning or changing the academic program. The advisor and advisor chair must approve the program of study for graduation.

Questions dealing with advisement should be directed to Office of Academic Programs, Dickinson Student Achievement Center, 2-64 Agriculture Building, (573) 882-8301.

**Career Development and Professional Opportunities**

CAFNR believes in career development as a key part of the student experience. Our college provides career resources targeted specifically toward student interests and strengths. The CAFNR Career Services team focuses efforts to help educate, empower, and connect CAFNR students with their future careers. The resources in CAFNR expand beyond résumé reviews, mock interviews and one-on-one sessions to explore career possibilities. We focus on making valuable employer connections to help expand each student’s professional network. Students also have access and are encouraged to use www.HireMizzouTigers.com (http://www.hiremizzoutigers.com) to search open job and internship postings.

CAFNR graduates find rewarding careers in a variety of career fields, including: private industry, state and federal agencies, start-ups, production agriculture, and more.

We invite you to reach out in the traditional ways, too! Stop by our office in 2-64 Agriculture Building, call us at (573) 882-0088 or email CAFNRcareerservices@missouri.edu.

**Experiential Learning**

Employers want to hire students who have experience! CAFNR students have a variety of options when it comes to experiential learning. CAFNR’s focus on internships, study abroad, industry tours, and student organizations help students gain relevant experience employers want to see. Exploring these opportunities gives students the professional growth and network needed for career success after graduation.

Click here to check out some of the most recent student experiences (https://www.facebook.com/media/set/?set=a.631051863580078.1073741826.565193606832571&type=3) to see the kinds of opportunities CAFNR students explore. Interested in gaining your own experiences? We want to help you reach your goals! You can reach us in a variety of ways. Stop by our office in 2-64 Agriculture Building, call us at (573) 882-0088 or email CAFNRcareerservices@missouri.edu.

**Study Abroad**

CAFNR provides students with opportunities to study abroad on academic year, semester, summer, short term and winter break programs. Study Abroad compliments and enhances a student’s academic program. On these programs, students gain maturity and self confidence, broaden their horizons to the larger world around them and earn academic credit. Increasingly, employers are looking for students who have increased their skill set through study abroad.

For more information about CAFNR study abroad programs, contact the Office of Academic Programs, Dickinson Student Achievement Center, 2-64 Agriculture Building, at (573) 882-8301.

**Student Activities**

CAFNR offers a variety of extracurricular student activities that contribute to a student’s education and professional development. Clubs and organizations sponsor activities related to professional interests as well as social events. Involvement in extracurricular activities fosters leadership development. Involvement in activities outside the classroom also may prove beneficial when applying for scholarships or jobs. Many organizations and companies look favorably on a student who has received good grades while being involved in clubs and other University organizations. Each class and club elects a representative to the CAFNR Student Council. More information can also be found at Fall Round-up each fall semester.

**Graduate**

Graduate studies in CAFNR are taking an innovative, high-tech approach to traditional agriculture, food and natural resources. Our students are highly engaged with expert faculty mentors who are impacting the future with findings on health breakthroughs, sustainable agriculture techniques and food safety. Prospective students are able to choose from a range of academic programs consistently recognized for excellence:

- Agricultural Economics
- Agricultural Education
- Animal Sciences
• Biochemistry
• Biological Engineering
• Fisheries and Wildlife
• Food Science
• Forestry
• Parks, Recreation and Tourism
• Plant Sciences
  • Crop, Soil and Pest Management
  • Entomology
  • Horticulture
  • Plant Breeding, Genetics, and Genomics
  • Plant Stress Biology
• Rural Sociology
• Soil, Atmospheric and Environmental Science

Find CAFNR degree program descriptions by following the links in the left navigation column.

**Note:** Prospective graduate students must apply to *both* the degree program of interest and to the MU Graduate School. In most cases, the entire application process may be completed online. Find admission and application details by selecting the degree program of interest in the left navigation column.
**Agribusiness Management**

Joe Parcell, Chair  
Agricultural and Applied Economics  
College of Agriculture, Food and Natural Resources  
200 Mumford Hall  
(573) 882-3545  
Fax (573) 882-3958  
ParcellJ@missouri.edu (parcellj@missouri.edu)

The Department of Agricultural and Applied Economics offers a BS degree with a major in Agribusiness Management and BS, MS and PhD degrees with a major in Agricultural Economics. A minor in Agricultural Economics is also available. The Department is home to several programs and research centers where students can seek on-campus work experience.

- Agricultural Electronic Bulletin Board, a web-based clearinghouse for information related to farming and production agriculture
- Agribusiness Research Institute, an agribusiness research program that focuses on interactive problem solving and learning
- Center for Applied Research and Environmental Systems, a spatial economics and information research and education center
- Commercial Agriculture Program, a multi-disciplinary approach to researching issues and incorporating innovation into production agriculture
- Community Policy Analysis Center, providing research, outreach and training that supports improved policy decisions in Missouri communities
- Contracting and Organizations Research Institute, dedicated to enabling and encouraging interdisciplinary empirical research on contracting and organizational structure
- Economics and Management of Agrobiotechnology Center, a research institute with a focus on applications of biotechnology on agriculture and food production and distribution
- Food and Agricultural Policy Research Institute, a Congressionally-enacted center whose mission is to provide objective analysis of food, agricultural, nutritional and environmental issues
- McQuinn Center for Entrepreneurial Leadership, promotes research, teaching, and outreach on the nature, causes, and consequences of entrepreneurship.
- Missouri Institute of Cooperatives, coordinates information and leadership training for cooperatives serving Missouri
- Value Added Center, provides industry analysis for producer groups looking to add value to commodities

**Faculty**

**Extension Professor** R. Massey**
**Extension Associate Professor** V. Pierce*
**Associate Teaching Professor** C. R. Boessen**
**Assistant Teaching Professor** J. Palacios Rivera
**Research Assistant Professor** J. Binfield, D. S. Brown**
**Instructor** L. F. Sowers, J. Moreland

Adjunct Faculty

- Graduate Faculty Member - membership is required to teach graduate-level courses, chair master’s thesis committees, and serve on doctoral examination and dissertation committees.
- Doctoral Faculty Member - membership is required to chair doctoral examination or dissertation committees. Graduate faculty membership is a prerequisite for Doctoral faculty membership.

**Undergraduate**

- BS in Agribusiness Management (p. 37)

The degree in agribusiness management offers the student a general business background while emphasizing applications to various types of food and agricultural businesses. This program prepares students to assume leadership roles in business. The broad background allows maximum flexibility when entering the job market.

Students transferring into agribusiness management from other departments at MU or from other colleges must have a 2.7 cumulative GPA for all work attempted.

**Graduate**

While MU does not offer graduate degrees specifically in agribusiness management, the University does offer post-baccalaureate opportunities in a number of related areas, both within the College of Agriculture, Food and Natural Resources, and in the other Schools and Colleges that make up the University. The catalog provides a complete list of these degree options (p. 5).

**Undergraduate**

**BS in Agribusiness Management**

**Major Program Requirements**

Students earning a Bachelor of Science in Agribusiness Management are required to complete all University general education (p. 20), University undergraduate requirements (p. 19), degree, and major requirements, including selected foundational courses, which may fulfill some University general education requirements.

Students seeking an Entrepreneurship Option will substitute Entrepreneurship Option Major Core Requirements for Major Core Requirements in the Agribusiness Management major.

ParcellJ@missouri.edu (parcellj@missouri.edu)

The Department of Agricultural and Applied Economics offers a BS degree with a major in Agribusiness Management and BS, MS and PhD degrees with a major in Agricultural Economics. A minor in Agricultural Economics is also available. The Department is home to several programs and research centers where students can seek on-campus work experience.

- Agricultural Electronic Bulletin Board, a web-based clearinghouse for information related to farming and production agriculture
- Agribusiness Research Institute, an agribusiness research program that focuses on interactive problem solving and learning
- Center for Applied Research and Environmental Systems, a spatial economics and information research and education center
- Commercial Agriculture Program, a multi-disciplinary approach to researching issues and incorporating innovation into production agriculture
- Community Policy Analysis Center, providing research, outreach and training that supports improved policy decisions in Missouri communities
- Contracting and Organizations Research Institute, dedicated to enabling and encouraging interdisciplinary empirical research on contracting and organizational structure
- Economics and Management of Agrobiotechnology Center, a research institute with a focus on applications of biotechnology on agriculture and food production and distribution
- Food and Agricultural Policy Research Institute, a Congressionally-enacted center whose mission is to provide objective analysis of food, agricultural, nutritional and environmental issues
- McQuinn Center for Entrepreneurial Leadership, promotes research, teaching, and outreach on the nature, causes, and consequences of entrepreneurship.
- Missouri Institute of Cooperatives, coordinates information and training for cooperatives serving Missouri
- Value Added Center, provides industry analysis for producer groups looking to add value to commodities

Faculty

Extension Professor R. Massey**
Extension Associate Professor V. Pierce*
Teaching Professor J. L. Dauve*
Assistant Teaching Professor C. R. Boessen*
Research Assistant Professor J. Binfield, D. S. Brown**
Instructor M. Rodríguez Alcala, L. F. Sowers
Adjunct Faculty J. Kruse, S. Meyer, D. Miller

\* Graduate Faculty Member - membership is required to teach graduate-level courses, chair master's thesis committees, and serve on doctoral examination and dissertation committees.
** Doctoral Faculty Member - membership is required to chair doctoral examination or dissertation committees. Graduate faculty membership is a prerequisite for Doctoral faculty membership.

Undergraduate

While MU does not offer undergraduate degrees specifically in agricultural and applied economics, the University does offer bachelors degrees in the closely related areas of Agricultural Economics (p. 43), and Agribusiness Management (p. 37), as well as other related areas both within the College of Agriculture, Food and Natural Resources, and in the other Schools and Colleges that make up the University. The catalog provides a complete list of these degree options (p. 5).

Graduate

- MS in Agricultural and Applied Economics (p. 41)
- PhD in Agricultural and Applied Economics (p. 41)

Department of Agricultural Economics

Director of Graduate Studies: Harvey James (hjames@missouri.edu)

About the Graduate Programs

The graduate program in the Department of Agricultural and Applied Economics is recognized for its innovative approach to graduate training in agricultural economics. A distinguishing feature of the program is the integration of organizational, institutional and welfare economics in both applied and theoretical research. This approach gives the program a competitive advantage.

A PhD or MS degree in agricultural and applied economics prepares students for a rewarding career in academia, agricultural business, government or international agriculture. Students can study agribusiness management, contracting and strategy; collective action and cooperative theory; econometrics and price analysis; entrepreneurship; environmental and natural resource economics; food, biofuel and agricultural policy and regulation; international development; regional economics and rural development policy; science policy and innovation; sustainable agriculture and applied ethics. The MS program may be a step toward the PhD but may also be used as a terminal program for those interested in careers in agribusiness, extension or government. Programs are flexible. All PhD and most MS students become involved in research, but those whose career interests lie in other directions find the department willing to accommodate them.
Admission Criteria

Fall deadline: February 15
Spring deadline: September 15
Minimum TOEFL score: 80 Internet-based; 550 Paper-based
GRE required

Required Application Materials

To the Graduate School:
• All required Graduate School documents

To the Agricultural Economics Program:
• Departmental Application
• 3 letters of recommendation
• Statement of purpose
• Transcripts
• GRE score report

Internal Funding

A 3.25 GPA (A=4.0) is generally a minimum requirement for financial assistance such as fellowships and assistantships for research and teaching. Reasons for supporting a student with a GPA below 3.25 must be documented in detail.

Graduate

MS in Agricultural and Applied Economics

Degree Requirements

Before admission to the MS program, a student should have completed at least nine hours of agricultural economics or economics, a course in calculus and one in statistics.

For the MS degree, students must complete a minimum of 30 hours selected from courses accepted for graduate credit. The program must include graduate-level courses in intermediate microeconomic theory, intermediate macroeconomic theory, and multiple regression analysis. Students opting for the MS thesis must also complete at least six credit hours of research as part of the minimum 30 hours. An alternative MS non-thesis program requires that some additional course work be substituted for thesis research.

Sample Plan of Study

• ECONOM 7351 Intermediate Microeconomics
• ECONOM 7353 Intermediate Macroeconomics
• ECONOM 7371 Introduction to Econometrics or equivalent
• 6 hours of AG_EC 8090 Masters Thesis Research
• 15 hours of Agricultural and Applied Economics courses and/or electives

Thesis/Non-Thesis Requirements

Students in the Thesis track are expected to produce a thesis with the organization, degree of analysis, and style of presentation that can be readily converted into a professional publication.

Students in the non-Thesis track substitute coursework for the Thesis hours. Students also write a technical paper that represents a collaborative research agenda with his/her advisor. A typical paper would analyze an issue or problem of mutual interest to the student and advisor, such as a phenomenon in local, regional, or national economy; an analysis of a policy implementation or change; or a firm-level decision, such as a feasibility study or an organizational case study.

Admissions

The Department’s Graduate Studies Committee oversees the admissions process. Admission into the MS program is determined by an assessment of program prerequisites and application materials. Domestic and international students are equally welcome to apply.

For More Information

For further information on admissions or financial assistance, write to Harvey James, director of graduate studies in agricultural economics, 200 Mumford Hall, Columbia, MO 65211, or hjames@missouri.edu.

PhD in Agricultural and Applied Economics

Degree Requirements

The PhD program emphasizes preparation for research, teaching and extension and usually requires about three years beyond the master’s program to complete. The size, quality and diversity of the faculty provide a broad choice of advisors and research topics. Students and their advisory committees have considerable latitude in developing a plan of study. There is no foreign language requirement.

The general course requirements for the PhD consist of courses in advanced microeconomic theory, new institutional economics, welfare economics, econometrics and research methodology, followed by a well-balanced selection of elective and research courses in agricultural economics and other disciplines at the 8000/9000 level. The course of study should prepare the student for the written qualifying exam taken after the first year of courses, the comprehensive exam assessing the student’s competency in his or her chosen fields of study, and independent research. A dissertation embodying the results of original research must be written on a subject approved by the program committee. An oral examination over the dissertation completes the degree requirements.

Doctoral candidates have flexibility in developing their own program by choosing specialties from one of the department’s three areas (will not appear on transcripts or diplomas).

• Agribusiness Management, which emphasizes the economics of food-system organization, strategy and institutions. An important focus of this research includes organizational structure, entrepreneurship, innovation, information, strategy, finance and governance, contracting, collective action, and social capital.

• Public Policy Analysis, which prepares students to evaluate the role of government in a market economy. This would include food and agricultural policy, various regulatory policies (e.g. food and environmental safety, IPR and market structure), and rural development policy and assess the impacts of such domestic and international government interventions.
Resources and Development, which allows students to develop expertise in the application of economic theory and quantitative methods to problems and issues related to the subjects of natural resource and environmental economics, economic development, and regional economics. The significant overlap among these subjects allows students the flexibility to select courses and research topics relevant to more than one subject.

Prerequisites for the PhD program include courses in intermediate microeconomics; intermediate macroeconomics; quantitative or mathematical economics; statistics, econometrics or regression and correlation analysis; and calculus. A master’s degree in economics, agricultural economics, or a related field, is preferred but not required for admittance into the PhD program. However, applicants to the PhD program without a master’s degree will be admitted initially into the MS program with the expectation that they complete the MS degree including MS thesis before continuing with their doctoral studies.

Sample Plan of Study

Fall semester, year 1: AG_EC 9040 Advanced Microeconomics Theory and Applications I; AG_EC 8050 Economics of Institutions and Organizations; Elective

Spring semester, year 1: AG_EC 9042 Advanced Microeconomics Theory and Applications II; AG_EC 9230 Welfare and Consumption Economics; AG_EC 9475 Econometrics I

Fall semester, year 2: AG_EC 8010 Research Methodology; ECONOM 8473 Applied Econometrics; Field Course or Elective

Spring semester, year 2: Field Courses and/or Electives

Subsequent semesters: Field Courses and/or Electives; Research and Dissertation hours

Qualifying Process

After completing the first year sequence, students take a written qualifying exam administered by a committee formed under the direction of the department’s Graduate Studies Committee. The exam covers the content of the first-year PhD core courses (both microeconomic theory courses, new institutional economics, welfare economics and basic econometrics). The exam is generally given in May following the first complete year of studies, with a retake, if needed, offered in August. Students must pass the exam to continue in the PhD program.

Comprehensive Examination Process

Students take the Comprehensive Exam after passing the qualifying exam process and completing coursework, including core courses and field courses. The Comprehensive Exam consists of three parts: the written dissertation proposal, a written comprehensive exam, and an oral examination. The Comprehensive Exam is administered by the student’s Doctoral Program Committee.

Dissertation Requirements

Two types of dissertations are acceptable. The first type of dissertation is organized around a single topic and typically is a lengthy monograph of your research findings. The second type of dissertation is a compilation of three narrow-topic essays that are loosely related to a single, general theme or topic. Students select dissertation topics in consultation with their Doctoral Program Committee.

Admissions

The Department’s Graduate Studies Committee oversees the admissions process. Admission into the PhD program is determined by an assessment of program prerequisites and application materials. Domestic and international students are equally welcome to apply.

BS in Agricultural Economics

Students transferring into agricultural economics from other degree programs at MU or from other colleges or universities must have a 2.7 cumulative GPA for all work attempted.

Students earning a Bachelor of Science in Agricultural Economics are required to complete all University general education (p. 20), University undergraduate requirements (p. 19), degree, and major requirements, including selected foundational courses, which may fulfill some University general education requirements.

Total Credits: 120

The following foundational courses are included in the Semester Plan above and are used by the Department to meet MU's General Education Requirements (p. 20) and University Undergraduate Requirements (p. 19).

- ENGLISH 1000
- MATH 1100
- MATH 1400
- BIO_SC 1010 and BIO_SC 1020
- CHEM 1100
- AG_EC 1041
- AG_EC 1042
- POL_SC 1100, HIST 1100 or HIST 1200
- AG_ED_LD 2220 or COMMUN 1200

Minor in Agricultural Economics

A minor in agricultural economics requires 18 credits in agricultural economics with at least 9 credits at the 3000 level or above. A student earning an agribusiness management major is not eligible for an agricultural economics minor.
Agricultural Education

Anna L. Ball, Professor and Department Chair
College of Agriculture, Food and Natural Resources
127 Gentry Hall
(573) 882-7451
Fax: (573) 884-4444
Administrative Assistant: swaimc@missouri.edu
http://aged.missouri.edu

The agricultural education degree program provides students with the opportunity to combine an interest in agriculture, food and natural resources with their enjoyment of working and communicating with people. A degree in agricultural education leads to careers in which students can influence the understanding of agriculture and its role in society and the global economy.

The department offers the BS with a major in Agricultural Education, as well as an MS and a PhD. A minor is also available.

Faculty

Professor A. L. Ball**, B. L Garton**, L. G. Schumacher**
Associate Professor T. J. Kitchel**
Assistant Professor J. C. Simonsen**
Instructor J. D. Tummons*
Professional Development R. Scheiderer
Professor Emeritus R. E. Linhardt, B. R. Stewart

* Graduate Faculty Member - membership is required to teach graduate-level courses, chair master’s thesis committees, and serve on doctoral examination and dissertation committees.

** Doctoral Faculty Member - membership is required to chair doctoral examination or dissertation committees. Graduate faculty membership is a prerequisite for Doctoral faculty membership.

Undergraduate

• BS in Agricultural Education (p. 46)
  • with emphasis in Leadership (p. 47)
  • with emphasis in Teacher Certification (p. 48)
• Minor in Agricultural Education (p. 48)

Students pursuing a degree in agricultural education choose between two emphasis areas. The leadership emphasis focuses on developing students’ leadership, communication and human relation skills. Students learn how to plan, manage and disseminate information in educational and public settings. Teacher certification emphasis prepares students to meet state teacher licensure requirements and teach agriculture, food and natural resources to secondary and adult learners through Missouri public schools. Students in both the teacher certification and leadership emphasis areas have the opportunity to specialize in an area of interest by completing course work in one or more agriculture, food or natural resource disciplines.

Students transferring into agricultural education from other MU degree programs or from other institutions must have at least a 2.3 GPA for all course work attempted.

Major Core Requirements

See university general education and graduation requirements as well as the College of Agriculture, Food and Natural Resources listings. The requirements specific to agricultural education are also available at http://aged.missouri.edu.

Emphasis Areas

Students majoring in the agricultural education select the Teacher Certification emphasis or Leadership emphasis.

Graduate

• MS in Agricultural Education (p. 48)
• PhD in Agricultural Education (p. 49)

Department of Agricultural Education and Leadership
121 Gentry Hall, Columbia, MO 65211
573-882-7451
aged@missouri.edu
http://dass.missouri.edu/aged/grad/

The agricultural education programs are designed for students with interests in agricultural education and leadership development. Coursework includes program and professional development, evaluation, teaching and learning theories and practices, social sciences research methods, organization and administration, leadership and communication.

Undergraduate

BS in Agricultural Education

Major Program Requirements

Students earning a Bachelor of Science in Agricultural Education are required to complete all University general education (p. 20), University undergraduate requirements (p. 19), degree, and major requirements, including selected foundational courses, which may fulfill some University general education requirements. Approximately one-third of the course work for the degree is completed in agricultural education or professionally related courses. In addition, the curriculum includes courses in agriculture, food and natural resource disciplines including agricultural economics, agricultural systems management, animal science, food science, horticulture, plant science and natural resources.

Students majoring in agricultural education select the Teacher Certification emphasis or Leadership emphasis. Please see the individual emphasis areas (p. 46) for degree and major requirements.

BS in Agricultural Education with Emphasis in Leadership

Major Program Requirements

Students earning a Bachelor of Science in Agricultural Education are required to complete all University general education (p. 20), University undergraduate requirements (p. 19), degree, and major requirements, including selected foundational courses (p. 46), which may fulfill some University general education requirements.

Leadership Emphasis

The leadership emphasis focuses on developing students’ leadership, communication and human relation skills. Students are encouraged to develop a diverse background by completing course work in a variety of disciplines in the College of Agriculture, Food and Natural Resources. Students also have the opportunity to specialize and earn minors in disciplines of interest. The capstone experience involves a supervised internship with an agricultural business, public or private agency, or commodity organization in the area of education, training, communication and/or development.

Semester Plan
Refer to the Semester Plan for the BS in Agricultural Education (p. 46) and visit with an advisor to discuss the differences in the Leadership emphasis area.

BS in Agricultural Education with Emphasis in Teacher Certification

Major Program Requirements
Students earning a Bachelor of Science in Agricultural Education are required to complete all University general education (p. 20), University undergraduate requirements (p. 19), degree, and major requirements, including selected foundational courses (p. 46), which may fulfill some University general education requirements.

Teacher Certification Emphasis
The Teacher Certification emphasis prepares students to meet state teacher licensure requirements to teach agriculture in Missouri public schools at the secondary and adult levels. In addition to courses in agricultural education, the curriculum includes a diverse selection of courses in agriculture, food and natural resources and professional teacher certification courses offered through the College of Education. The capstone experience involves a semester-long teaching internship in a selected secondary agriculture program.

Emphasis core requirements

AG_ED_LD 1000 Orientation to Agricultural Education and Leadership 1
AG_ED_LD 2270 Leadership Development in Youth Organizations 3
AG_ED_LD 2271 Early Field Experience 1
AG_ED_LD 4310 Intracurricular Program Management in Agricultural Education 3
AG_ED_LD 4320 Methods of Teaching I 3
AG_ED_LD 4321 Field Experience I 1
AG_ED_LD 4330 Methods of Teaching II 3
AG_ED_LD 4331 Field Experience II 1
AG_ED_LD 4087 Internship Seminar in Agricultural Education and Leadership 3
AG_ED_LD 4995 Student Teaching Internship in Agriculture 9

College of Education
ESC_PS 2010 Inquiry Into Learning I 3
LTC 2040 Inquiring into Schools, Community and Society I 3
SPC_ED 4020 Inquiry into Learning II 3
LTC 4560 Reading and Writing in the Content Areas 3

Agricultural Economics
AG_EC 2183 The Agricultural Marketing System 3
or AG_EC 3224 New Products Marketing
or AG_EC 2223 Agricultural Sales
AND Agricultural Economics Elective 3

Animal Science
AN_SC 1065 Animal Science Laboratory Practicum 2
AND Animal Science Elective 3

Agronomy
PLNT_S 2110 Plants and their Cultivation 3
or SOIL 2100 Introduction to Soils
or PLNT_S 3275 Grain Crops
or PLNT_S 3270 Forage Crops

Agricultural Systems Management
AG_S_M 1020 Introduction to Agricultural Systems Management 3
AG_ED_LD 3320 Metal Fabrication and Laboratory Management 3

Horticulture
PLNT_S 2075 Environmental Horticulture 3
PLNT_S 3260 Greenhouse Management 4
or PLNT_S 4365 Greenhouse Crops Production

Electives
CAFNR electives 9
General Electives 9

Semester Plan
Refer to the Semester Plan for the BS in Agricultural Education (p. 46) and visit with an advisor because an actual plan may vary based on course choices where options are available.

Minor in Agricultural Education
The Agricultural Education minor focuses on learning, teaching and the dissemination of information about agriculture, food and natural resource topics. The minor requires 15 credits of agricultural education course work with a minimum of 6 credits at the 3000 level or above.

Graduate

MS in Agricultural Education

Degree Requirements
The program consists of a minimum of 32 credits of graduate coursework beyond the bachelor’s degree for the non-thesis/creative component option, and 30 credits for the thesis option. For a full explanation of the thesis/non-thesis options, see section below on Thesis/Non-Thesis Requirements (p. 49).

Core course required for all students (regardless of option):
Education and Communication
AG_ED_LD 8330 Advanced Methods of Teaching 3
JOURN 8000 Mass Media Seminar
Ag Communication Theory Course through AG*IDEA

Leadership
AG_ED_LD 8250 Leadership Theory and Application 3

Philosophy and Ethics
AG_ED_LD 8410 Philosophical Foundations of Agricultural Education and Leadership 3

JOURN 8000 Foundations of Career and Technology Education

Communicating Ethical Issues through AG*IDEA
Sample Plan of Study

Because students in the M.S. program are from a wide variety of circumstances, and pursue the M.S. at all different paces, a sample plan of study is not easily produced. Students are encouraged to work out their plan of study with their advisor.

**Thesis/Non-Thesis Requirements**

The program offers students three options:

1. **Creative Component Option**
   This option is research-oriented, focusing on designing and conducting research in the social sciences. The program of study should include courses and learning experiences that will develop the student’s knowledge and skills in the processes of learning and teaching. The Creative Component option requires a minimum of 32 hours of graduate credit (to include a minimum of 29 hours of formal graduate courses, plus a maximum of 3 hours of 8080 Creative Component) with a minimum of 16 credit hours at the 8000 level and a minimum of 16 credit hours taken in Agricultural Education and Leadership. Candidates must also complete an approved creative component project.

2. **Creative Component with Teacher Certification Option**
   This option is designed for individuals who have earned a B.S. degree in an agricultural discipline and desire the initial teacher certification to teach agriculture at the secondary level. Included in the course work for this option are some of the classes needed for certification to teach secondary high school agriculture in Missouri.

3. **Thesis Option**
   This option is research-oriented, focusing on designing and conducting research in the social sciences. The program of study should include courses and learning experiences that will develop the student’s knowledge and skills in the processes of learning and teaching. The Thesis option requires a minimum of 30 hours of graduate credit (to include a minimum of 24 hours of formal graduate courses, plus a maximum of six hours of 8090 Research) with a minimum of 15 credit hours at the 8000 level and a minimum of 15 credit hours taken in Agricultural Education and Leadership. Candidates must also complete an approved thesis based on original research.

**Admissions**

Applicants are required to meet two sets of minimum qualifications for admission: the requirements of the MS in Agricultural Education program (http://gradschool.missouri.edu/academics/programs/agricultural-education/masters.php) and the minimum requirements of the Office of Graduate Studies (http://gradstudies.missouri.edu/admissions/eligibility-process/minimimum-requirements). Because requirements vary, you must refer to a degree program’s graduate admission page to learn about specific admission criteria, application deadlines, eligibility and application process. Your application materials will be reviewed by both the Office of Graduate Studies and the degree program to which you’ve applied before official admission to the University of Missouri.

**PhD in Agricultural Education**

**Degree Requirements**

A total of 72 credit hours beyond the baccalaureate degree must be completed. The student’s doctoral program committee must approve all course work used to satisfy the credit-hour requirement and may require additional course work beyond the minimum.
Within the 72 credit hour requirement, students should complete 12 credit hours of coursework that focuses on developing an area of expertise. The student’s doctoral program committee will approve the area and content of the concentration. Concentrations may include, but are not limited to, Teacher Education, Extension Education, and Communication/Journalism.

</tbody>
</table>

* Electives - should be selected in consultation of the student’s advisor and must be approved by the student’s committee, and should total 27 credit or more.
Concentrations - should total at least 12 credits and are counted as part of the electives, should focus on developing an area of expertise such as Teacher Education, Adult Education, Journalism, Educational Leadership, etc.

**Qualifying Process**
Details regarding the Qualifying Process can be found in the program’s Graduate Handbook (http://dass.missouri.edu/aged/grad/grad-handbook.pdf).

**Comprehensive Examination Process**
Candidacy for a doctoral degree is established by passing the comprehensive examination. The comprehensive examination includes written and oral sections and is completed as the candidate is completing the prescribed coursework. Details regarding the examination process can be found in the program’s Graduate Handbook (http://dass.missouri.edu/aged/grad/grad-handbook.pdf).

**Dissertation Requirements**
After passing the comprehensive examination, the program for the doctoral degree must be completed within five years. Upon completions of the dissertation research project, the candidate defends the dissertation before his/her doctoral research committee. Details regarding the dissertation process can be found in the program’s Graduate Handbook (http://dass.missouri.edu/aged/grad/grad-handbook.pdf).

During the time when a student is working on the dissertation, candidacy is maintained by enrolling in AG_ED_LD 9090 Doctoral Research in Agricultural Education and Leadership for two credit hours each fall and spring semester, and for one credit hour each summer semester, up to and including the term in which the dissertation is defended. Continuous enrollment provides access to an advisor’s support, doctoral program committee guidance, and University research facilities for completion of the dissertation. Failure to continuously enroll in AG_ED_LD 9090 until the doctoral degree is awarded terminates candidacy.

**Admissions**
Applicants are required to meet two sets of minimum qualifications for admission: the requirements of the PhD in Agricultural Education program (http://gradschool.missouri.edu/academics/programs/agricultural-education/doctorate.php) and the minimum requirements of the graduate faculty, enforced by the Office of Graduate Studies (http://gradstudies.missouri.edu/admissions/eligibility-process/minimum-requirements). Because requirements vary, you must refer to a degree program’s graduate admission page to learn about specific admission criteria, application deadlines, eligibility and application process. Before official admission to the University of Missouri, your application materials will be reviewed by both the Graduate School and the degree program to which you’ve applied.
Agricultural Systems Management

Leon G. Schumacher, Chair
College of Agriculture, Food and Natural Resources
Division of Food Systems and Bioengineering
207 Agricultural Engineering Building
(573) 882-2731
ASM@missouri.edu

Agricultural systems management integrates physical systems with agricultural science and management skills to provide graduates with abilities to function in sales, service and maintenance management positions in agribusiness industries. The uniqueness of agricultural systems management graduates lies in their knowledge of the principles of physical systems that are the backbone of modern agricultural and food industries. The department offers the Bachelor of Science with a major in Agricultural Systems Management. A minor is also available.

Faculty

Professor Emeritus D. Currence, J. Frisby, B. Hires, J. Hoehne, D. Plost
Professor D. Brune*, W. Downs, L. Schumacher*
Associate Professor D. Baker*, S. Borgelt*, K. Sudduth**, A. Thompson**
Assistant Professor B. Broz, B. Koc*, T. Lim*, J. Zulovich*
Research Associate K. Funkenbusch
Extension Associate D. Downing

* Graduate Faculty Member - membership is required to teach graduate-level courses, chair master’s thesis committees, and serve on doctoral examination and dissertation committees.
** Doctoral Faculty Member - membership is required to chair doctoral examination or dissertation committees. Graduate faculty membership is a prerequisite for Doctoral faculty membership.

Undergraduate

- BS in Agricultural Systems Management (p. 51)
- Minor in Agricultural Systems Management (p. 52)

Graduate

While MU does not offer graduate degrees in ASM, the University does offer post-baccalaureate opportunities in a number of related areas, both within the College of Agriculture, Food and Natural Resources, and in the other Schools and Colleges that make up the University. The catalog provides a complete list of these degree options.

BS in Agricultural Systems Management

Major Program Requirements

Students earning a Bachelor of Science in Agricultural Systems Management are required to complete all University general education (p. 20), (p. 20) University undergraduate requirements (p. 19), degree, and major requirements, including selected foundational courses, which may fulfill some University general education requirements.

- AG_EC 3260 General Farm Management 3
- AG_EC 3282 Agribusiness Finance 3
- or FINANC 1000 Principles of Finance 3

**Electives** 27

In consultation with their advisor, students may select elective courses to bring their total credit hours to the 120 hour minimum. Typically electives are chosen to provide emphasis in one of the following areas:

- Natural resource and environment
- Materials handling and crop processing
- Power and machinery systems
- Production agriculture

**Agricultural Equipment Dealership Management Program**

Students who participate in the Agriculture Equipment Dealership Management program take a comprehensive sequence of courses in agricultural systems management and agricultural business management. Each student plans and completes an internship with a sponsoring dealer. Up to 6 credits may be earned through an Internship.

**Semester Plan**

Below is a sample plan of study, semester by semester. A student’s actual plan may vary based on course choices where options are available.

(573) 882-8301  
www.cafnr.missouri.edu

The agriculture degree program is for students searching for a well-rounded education that builds on the diversity of the other degree programs in the College of Agriculture, Food and Natural Resources (CAFNR). The flexibility of agriculture degree enables students to tailor a program to fit their individual interests and career goals. Students earn a Bachelor of Science in Agriculture.

Students choose agriculture for a variety of reasons. Some may enter the program with a specific career goal in mind. Others may choose agriculture to obtain a broader education that will give them more flexibility.

Graduate

While the College of Agriculture, Food and Natural Resources does not offer a graduate degree in Agriculture, the College does offer graduate degrees and certificates in a number of disciplinary areas. The catalog provides a complete list of these degree options (p. 5) for all Schools and Colleges that make up the University of Missouri.

Undergraduate

Degree and Major Courses

- Students in agriculture also must complete three areas of concentration from CAFNR programs that offer a major or a minor. The primary concentration area requires completion of 18 or more credits. Two additional concentration areas of at least 15 credits each are also required. (See below.)
  - These courses shall not be used to fulfill the requirements of a minor.
  - Within each concentration area, at least six credits must be at the 3000-level or above.
  - Within each concentration area, at least 50 percent of the credits must be earned through MU courses.
  - Credits used to meet the University general education requirements can be used to meet requirements in concentration areas.
  - No more than six credits in the primary area and three credits in the secondary areas may consist of problems, readings, internships, travel courses and other non-structured courses.
  - The capstone experience for agriculture majors can be a capstone course in a concentration area, an internship or capstone project. This capstone is in addition to credits in the concentration areas.

Areas of Concentration

Agricultural Economics  
Agricultural Education  
Agricultural Leadership  
Agricultural Systems Management  
Animal Sciences  
Fisheries and Wildlife Sciences  
Food Science and Nutrition  
Forestry  
Hospitality Management  
Parks, Recreation and Tourism  
Plant Sciences  
Rural Sociology  
Science and Agricultural Journalism  
Soil, Environmental, and Atmospheric Sciences

BS in Agriculture with Emphasis in Sustainable Agriculture  

Major Program Requirements  

CAFNR offers an emphasis area in Sustainable Agriculture as part of its Agriculture degree program. A minimum of 48 credits is required for the emphasis area (major) degree.  

Primary Concentration  
AFNR 2215 Introduction to the Theory and Practice of Sustainable Agriculture 3  
AFNR 3215 Community Food Systems 3  
AFNR 3315 Advanced Practices in Sustainable Agriculture 3  
SOIL 2100 Introduction to Soils (Concurrent enrollment in SOIL 2106 recommended) 3  
Choose two courses from the following  
AN_SCI 2111 Sophomore Seminar: Societal Issues Facing Animal Agriculture 3  
PLNT_S 2110 Plants and their Cultivation 3  
RU_SOC 1120 Population and the Environment 3  
NAT_R 1060 Ecology and Conservation of Living Resources 3  
NAT_R 1070 Ecology and Renewable Resource Management 3  
18  

Secondary Concentration  
AG_EC 2070 Environmental Economics and Policy 3  
AG_EC 2183 The Agricultural Marketing System 3  
AG_EC 3241 Ethical Issues in Agriculture 3  
Choose one course from the following  
AG_EC 3260 General Farm Management 3  
AG_EC 3224 New Products Marketing 3  
Choose one course from the following  
RU_SOC 2225 Science, Technology and Society 3  
BIOCHM 2112 Biotechnology in Society 3  
SCI_AG_J 4414 Field Reporting on the Food System and Environment 3  
15  

Secondary Concentration  
Choose Community Food Systems OR Production Systems  
Community Food Systems (15 hrs total)  
AG_EC 2223 Agricultural Sales 3  
AG_EC 3271 International Agricultural Development 3  
AG_EC 3283 Fundamentals of Entrepreneurship 3  
AG_ED_LD 2220 Verbal Communication in Agriculture, Food and Natural Resources 3  
AG_ED_LD 2250 Introduction to Leadership 3  
AG_ED_LD 2260 Team and Organizational Leadership 3

University of Missouri
SOIL 4312 Environmental Soil Microbiology 3
SOIL 4313 Soil Fertility and Plant Nutrition 3

Semester Plan

A sample plan of study has not been designed for this major. Students should contact the academic department for assistance with academic planning.
**Animal Sciences**

Division of Animal Sciences  
College of Agriculture, Food and Natural Resources  
S102 Animal Sciences Center  
(573) 882-7446  
Fax: (573) 882-6827  
http://animalsciences.missouri.edu

**Division Director:** Thomas B. McFadden

Animal sciences is a broad field centered on the study of agriculturally important animals and their products. Graduates in animal sciences have employment opportunities in many areas including agribusiness (feed, pharmaceutical and meat industries; dairy and poultry products; public relations and research), production and management (farming/ranching; managers of livestock and poultry operations; zookeepers; consultants and technical service representatives), governmental agencies (USDA) and educational institutions (extension, teaching and research).

Students seeking admission into graduate and professional schools usually take more courses in the sciences than students in production and management, who select more business-related courses. Students and their faculty advisors select courses that fit the students' needs, interests and objectives. The most specialization occurs at the graduate level.

The department offers BS, MS and PhD degrees with majors in Animal Sciences. A minor is also available.

**Faculty**

**Curators Professor** R. S. Prather**, R. M. Roberts**,** M. F. Smith**, J. F. Taylor**

**Associate Professor** G. Conant**, C. Elsik**,** J. A. Green**,** R. Rivera**,** T. J. Safranski**,** K. Wells**,  
**Assistant Professor** J. Decker**, A. Meyer**, J. Sexten**

**Assistant Teaching Professor** T. Strauch**

**Associate Research Professor** T. Ezashi**, R. Schnabel**

**Assistant Research Professor** A. Alexenko, D. Hagen, J. Kim, E. Waiters**

**Adjunct Professor** D. Lubahn**

**Instructor** M. Crosby, S. Hamilton, D. J. Kemp

* Graduate Faculty Member - membership is required to teach graduate-level courses, chair master’s thesis committees, and serve on doctoral examination and dissertation committees.

** Doctoral Faculty Member - membership is required to chair doctoral examination or dissertation committees. Graduate faculty membership is a prerequisite for Doctoral faculty membership.

**Undergraduate**

- BS in Animal Sciences (p. 57)
- Minor in Animal Sciences (p. 58)

---

**Divisional Honors Program**

In addition to the guidelines for the honors program in the College of Agriculture, Food and Natural Resources, students must meet the following requirements for the honors program in animal sciences. A student must be a junior or senior to participate in the honors program.

- Successful completion of either an internship or undergraduate research or a combination of both for 6 credits in animal sciences honors
- Program approval by a three-member departmental honors committee
- Submission of a written report plus an oral or poster presentation

**Ag Scholars Program**

This program provides early assurance of admission to the MU College of Veterinary Medicine for selected animal science majors on the University of Missouri campus.

High School seniors and MU freshman with an ACT composite score of 27 or more or an equivalent SAT score are eligible to apply for the Ag Scholars Program.

Students must have demonstrated experience or interest in livestock production and health. Examples of appropriate experience may include participation in a livestock enterprise as either a family member or an employee; enrollment in at least two years of high school agricultural coursework; and participation in FFA, 4H or equivalent organizations with projects directly related to livestock production or health; or completion of an internship of at least 250 supervised hours working in livestock production or a livestock health enterprise prior to applying for program admission.

For additional information, contact:

Pre veterinary Medical Scholars and Ag Scholars Programs
W-203 Veterinary Medicine Bldg.
College of Veterinary Medicine
University of Missouri
Columbia, Missouri 65211
(573) 884-3341

**Agreement with the College of Veterinary Medicine**

The Division of Animal Sciences and the College of Veterinary Medicine have an articulation agreement which enables MU Animal Science majors who are admitted to the College of Veterinary Medicine before completing their B.S. degree to earn a B.S. degree in Animal Sciences during their days as a professional veterinary medicine student. In order to earn a B.S. degree in Animal Sciences the following requirements must be met:

- The student will successfully meet all General Education (p. 20) requirements established by the University of Missouri campus.
- The student will meet any additional college or divisional requirements.
- The student will be required to complete all MU Animal Sciences requirements except for 9 hours of Animal Science Senior electives.
- The student will also be able to substitute up to 20 hours completed in the College of Veterinary Medicine in lieu of general electives in order to complete the total number of student credit hours necessary for a B.S. degree in Animal Sciences.
- The B.S. degree in Animal Science will be granted after successful completion of the first year of Veterinary Medicine.
Graduate

- MS in Animal Sciences (p. 58)
- PhD in Animal Sciences (p. 59)

Division of Animal Sciences
920 E. Campus Drive, Columbia, MO 65211

http://animalsciences.missouri.edu/academics/graduates.php

Director of Graduate Studies: Rocio Rivera

About Animal Sciences Graduate Programs

The Division of Animal Sciences has a broad-based teaching program, and our faculty members are noted for teaching and mentoring excellence. Our PhD program was recently ranked among the best in the country by the National Research Council and our research program among the best in the world by Reuters. Our graduate program has maintained or increased numbers, support, and placement rates over the past five years. The Division strives to maintain a diverse faculty qualified to teach relevant courses in five discipline areas (reproductive and environmental physiology, ruminant and monogastric nutrition, genetics/genomics, meat science and livestock production) and across six species (swine, dairy cattle, beef cattle, poultry, companion animals and horses) to serve the demand for graduates to be employed nationwide in research, teaching and industry.

Undergraduate

BS in Animal Sciences

Major Program Requirements

Students earning a Bachelor of Science in Animal Sciences are required to complete all University general education, University undergraduate requirements, degree, and major requirements, including selected foundational courses, which may fulfill some University general education requirements.

Total Credits: 120

Minor in Animal Sciences

To earn a minor in animal sciences, a student must meet the following requirements.

- A minimum of 15 hours of course credit in Animal Sciences
- A minimum of 9 hours of course work in Animal Sciences courses numbered 3000 or above.
- Students may select any combination of animal sciences courses excluding problems and internships to meet the above requirements; however, all students will be expected to meet prerequisites of animal sciences courses.
- Up to six transfer credits can be applied toward the minor; however, these transfer credits can only apply toward the lower level courses. Hence, a student must complete nine credit hours of Animal Science credits at MU that are 3000 level or higher.

Graduate

MS in Animal Sciences

Degree Requirements

You and your committee develop a program of study cooperatively. An official form or letter must accompany any change in a program. A satisfactory scholastic standard must be maintained. All courses taken for graduate credit must have a cumulative average of 3.0 or higher. If the GPA falls below 3.0 cumulative, you will be placed on academic probation. There will be no waiver of fees during this probationary period. You must regain a 3.0 level at the end of the following semester or become subject to dismissal. This GPA must be maintained exclusive of problems, research and departmental seminars.

Graduate students taking 7000 level courses should expect course requirements beyond those of undergraduate students in order to warrant receiving graduate credit for those courses. The Division of Animal Sciences allows no more than two 7000 level Animal Science courses in a graduate program.

Seminars

Two credit hours in seminar are required for the Master of Science degree. To meet the seminar requirement courses must require presentations of technical information. Seminars provide an opportunity to develop skills in presenting technical information to a group of peers and permit you to become acquainted with specialists in the area of animal and biological sciences.

Responsible Conduct of Research

M.S. students are encouraged to take a course in “Responsible Conduct of Research’. This requirement can be met by taking either:

- BIOCHM/BIO_SC 8060 Ethical Conduct of Research 1
- V_PBIO 8641 Introduction to Research Ethics 1
- Other Responsible Conduct of Research course approved by the Director of Graduate Studies

Sample Plan of Study

Because students in the M.S. program are from a wide variety of circumstances, and pursue the M.S. at all different paces, a sample plan of study is not easily produced. Students are encouraged to work out their plan of study with their advisor.

Thesis/Non-Thesis Requirements

Thesis Option Requirements

Course Work 24
(15 hours must be at 8000-level)
8090 research 6
Seminars 2
Approved Thesis
Total Minimum Hours 30
Non-Thesis Option Requirements
Non-Thesis M.S. program does not serve in preparing a student for candidacy for a Ph.D. program.

Course Work: 36 including 3 hours of 8450 research.

Total Minimum Hours: 36

Admissions
Admission Contact Information:
Gloria Johnson
920 E. Campus Drive
Columbia, MO 65211
(573)882-8336
http://animalsciences.missouri.edu/academics/graduates.php

Applicants are required to meet two sets of minimum qualifications for admission: the requirements of the MS in Animal Science program (http://gradstudies.missouri.edu/academics/programs/animal-sciences/masters.php) and the minimum requirements of the Office of Graduate Studies (http://gradstudies.missouri.edu/admissions/eligibility-process/minimum-requirements). Because requirements vary, you must refer to a degree program’s graduate admission page to learn about specific admission criteria, application deadlines, eligibility and application process. Your application materials will be reviewed by both the Office of Graduate Studies and the degree program to which you’ve applied before official admission to the University of Missouri.

PhD in Animal Sciences

Degree Requirements
Graduate students taking 7000 level courses should expect course requirements beyond those of undergraduate students in order to warrant receiving graduate credit for those courses. The Division of Animal Sciences allows no more than two 7000 level Animal Science courses in a graduate program.

The number of credit hours in formal course work and in research varies with the student’s background, training, interests, and the nature of the research. At least 4 hours of seminar and a responsible conduct of research course are required. A dissertation based on original research is required of each candidate. Completion of requirements for a doctoral degree is generally expected within three years (five years without prior MS) after admission to the PhD program.

Seminars
Four credit hours in seminar are required for the PhD degree. To meet the seminar requirement courses must require presentations of technical information. Seminars provide an opportunity to develop skills in presenting technical information to a group of peers and permit you to become acquainted with specialists in the area of animal and biological sciences.

Responsible Conduct of Research
PhD students are required to take a course in “Responsible Conduct of Research”. This requirement can be met by taking either:

Biochemistry

Gerald Hazelbauer, Chair
College of Agriculture, Food and Natural Resources
117 Schweitzer Hall
Phone: (573) 882-4845
Fax: (573) 882-5635

A course of study in the Department of Biochemistry emphasizes the application of chemical principles to biological systems and leads to the Bachelor of Science in Biochemistry. The program requires rigorous course work in the basic sciences, culminating with a two course capstone experience of discipline specific problems and laboratory techniques. Students are encouraged to gain research experience through independent projects in faculty labs. The biochemistry degree prepares students for further study in graduate or professional school or for a career in biochemistry, biotechnology or the biological, chemical or medical sciences.

Faculty

Assistant Professor P. Cornish**, A. Heese**, X. Heng*, A. Koo**, S. Sarafianos*
Research Professor G. Hagen*
Research Associate Professor L. Erb*, A. Simonyi*
Research Assistant Professor B. Mooney, V. Mossine, T. White*
Adjunct Professor J. Miernyk**
Associate Teaching Professor S. Freyermuth
Assistant Teaching Professor C. Lee, M. Pennella

* Graduate Faculty Member - membership is required to teach graduate-level courses, chair master’s thesis committees, and serve on doctoral examination and dissertation committees.
** Doctoral Faculty Member - membership is required to chair doctoral examination or dissertation committees. Graduate faculty membership is a prerequisite for Doctoral faculty membership.

Undergraduate

• BS in Biochemistry (p. 61)

Graduate

• MS in Biochemistry (p. 62)
• PhD in Biochemistry (p. 62)

College of Agriculture, Food and Natural Resources; School of Medicine
117 Schweitzer Hall
573-882-4846
http://www.biochem.missouri.edu/

Director of Graduate Studies: Thomas Quinn

Biochemistry at the University of Missouri is a division of the College of Agriculture, Food and Natural Resources and a department of the School of Medicine. As a nationally ranked top 10 biochemistry department among public medical schools, we offer outstanding training that help students achieve their goals. We have 39 core faculty members and approximately 10 additional members, all of whom are available to mentor students in biochemistry. Nearly all facets of contemporary biochemical research are represented in their collective research interests. Our highly interactive program is an integral part of a campus-wide network of research programs including life sciences, genetics, nutrition, plant biochemistry and structural biology.

Interdisciplinary Area Programs

• PhD in Nutrition Area Program (p. 707)
• PhD in Genetics Area Program (p. 683)
• Minors in Business (p. 345), and College Teaching (p. 729)

The graduate programs of the Department of Biochemistry prepare students for professional careers in academic institutions, industry and government. The Department of Biochemistry is administered by the College of Agriculture, Food and Natural Resources and the School of Medicine. It provides a great range of opportunities for multidisciplinary study in plant, animal and microbial biochemistry, molecular biology, structural biology, and chemical biology.

Faculty Research

Virtually every important area of biochemistry and molecular biology is represented among the research interests of the faculty. These interests focus on plant biochemistry, hormonal control of plant and animal-cell metabolism, growth-factor structure and function, enzyme reaction mechanisms, biochemistry of development, biochemistry of human disease, lipid and carbohydrate metabolism, molecular biology, analytical biochemistry, proteomics, systems biochemistry, and structural biochemistry.

Facilities

The department has modern, well-equipped laboratories in the Life Sciences Center, Schweitzer Hall, Schlundt Annex, and Stephens Hall. Additional faculty are housed in the Animal Sciences Research Center, Chemistry Building, Dalton Cardiovascular Research Center, Mason Eye Institute, and the Truman Veterans Hospital.

Plans of Study

All students participate in individually planned research programs and have a supervised teaching experience along with course work. Students are expected to complete a program of courses in biochemistry and selected courses in modern biology and chemistry.

Careers

Biochemistry at the University of Missouri provides world-class training that can open the door to a wide variety of career opportunities in the life sciences. Our graduates have career opportunities available in academia, industry, agriculture or medicine.

Required Application Materials

All pre-requisites and application materials must be submitted by the annual deadline.
MD/PhD in Biochemistry Dual Degree Program

Students already accepted into the School of Medicine at MU may apply to the Department for acceptance into the MD/PhD program. Students matriculating in the MD/PhD degree program must complete degree requirements of both the School of Medicine and the Graduate School. For information and for application forms, email gradprogram@missouri.edu or write the Director of Graduate Admissions in Biochemistry, 117 Schweitzer Hall, Columbia, MO 65211, or visit the website http://www.biochem.missouri.edu.

Undergraduate

BS in Biochemistry

Major Program Requirements

Students earning a Bachelor of Science in Biochemistry are required to complete all University general education (p. 20), University undergraduate requirements (p. 19), and degree requirements, including selected foundational courses, which may fulfill some University general education requirements.

PhD in Biochemistry

Degree Requirements

Along with courses and seminars, students embark on lab rotations, dissertation research, qualifying and comprehensive exams and committee meetings, culminating in the dissertation defense. Prior to successfully completing the comprehensive examination, a student must complete nine credit hours per semester, or four per summer, to remain a full-time graduate student. Following successful completion of both parts of the comprehensive exam, each student should register for a minimum of two hours of thesis/dissertation research per semester (or one in summer) to maintain continuous enrollment. More than the minimum may be needed to obtain the 72 credit hours required by the MU Graduate School (http://gradschool.missouri.edu) for completion of the PhD.

*D All graduate students are required to earn a grade of B or better.
# A student who earns a grade of C or lower in any of these courses must retake the course.

Department Seminars

Students are expected to attend all department seminars (http://www.biochem.missouri.edu/news-events/seminars).

Teaching Experience

An important part of graduate education is learning to communicate effectively as a teacher. Two semesters enrolled in BIOCHM 9001 helps prepare the students for their teaching assistant experience which consists of one semester in an undergraduate laboratory or lecture venue. This is a required component of PhD degrees and typically is performed in the second year of graduate study. Students must satisfy this teaching experience requirement with a grade of B or better to remain in good standing as a graduate student in Biochemistry. This teaching experience usually involves assisting a faculty member in one of several courses and interacting with the students fairly extensively. The Biochemistry Department also offers a Zahler Fellowship for graduate students interested in teaching as a career. Missouri requires that students whose first language is not English demonstrate adequate oral proficiency before assisting in teaching.

Qualifying Process

Students who have earned grades of B or better in the required courses of BIOCHM 8240 Introduction to Graduate Biochemistry I and BIOCHM 8260 Macromolecular Systems Integration and are in good standing academically (cumulative GPA 3.0) should take the oral qualifying exam in May after their second semester. Failure to complete the oral qualifying exam by June of the second year will result in dismissal from the PhD program. Students who have received a C in a core course must retake the course and receive a grade of B or better to remain in the PhD program, even after passing the oral qualifying exam.

Comprehensive Examination Process

Students who have passed the qualifying exam should complete the written comprehensive exam within the next one to two semesters (by May of their second year). This examination involves writing a proposal for doctoral research in the format of a federal postdoctoral fellowship application. The student must then orally defend the proposal before his/her doctoral program committee plus a member of the graduate education committee. This is designed to assess the student’s ability to think critically about science and to communicate effectively both in writing and in an oral presentation.

Dissertation Requirements

BIOCHM 9087

Students should enroll in the first round of the one-hour seminar BIOCHM 9087 during the first semester. BIOCHM 9087 in the fall semester is designed to teach the fundamental techniques of oral presentation of scientific information, slide preparation, computer graphics, overhead preparation, etc., as well as research-compliance training. Students should complete three additional semesters of BIOCHM 9087 in spring semesters for a total of four credit hours. A student’s first spring BIOCHM 9087 seminar is devoted to a presentation of the proposed dissertation research. The second should provide an update of research progress or a review of major journal papers.
in the student’s research area. The third should be a practice for the dissertation defense. The student’s thesis committee is expected to attend these presentations at the invitation of the student. A meeting with the doctoral program committee (DPC) can be arranged after the seminar presentation and may serve as the required annual meeting.

**Thesis/Dissertation Research**

**BIOCHM 9090**

Prior to successfully completing the comprehensive examination, a student must complete nine credit hours per semester, or four per summer, to remain a full-time graduate student. Following successful completion of both parts of the comprehensive exam, each student should register for a minimum of two hours of thesis/dissertation research per semester (or one in summer) to maintain continuous enrollment. More than the minimum may be needed to obtain the 72 credit hours required by the MU Graduate School (http://gradschool.missouri.edu) for completion of the Ph.D.

**Research Rotations**

Starting in the fall semester of the first year, each student completes three laboratory rotations with the aim of identifying a lab in which to conduct PhD thesis research. By the end of the second semester, most students have chosen their labs. Each rotation should be conducted for a period of at least eight weeks. Two rotations are performed in the first semester, with the second rotation ending Dec. 31. The third rotation begins Jan. 1 or soon after. One-half of the student’s time and effort should be directed toward the rotation project and the other half toward course work. The rotation laboratory should serve as an academic home, and the student should participate in all usual laboratory activities, including weekly group meetings.

**Admissions**

Biochemistry Graduate Admissions Support
117 Schweitzer Hall
Columbia, MO 65211
573-882-4846, 800-647-2414
gradprogram@missouri.edu

Applicants are required to meet two sets of minimum qualifications for admission: the requirements of the PhD in Biochemistry program (http://gradstudies.missouri.edu/academics/programs/biochemistry/doctorate.php) and the minimum requirements of the Graduate School (http://gradschool.missouri.edu/admissions/eligibility-process/minimum-requirements.php). Because requirements vary, you must refer to a degree program’s graduate admission page to learn about specific admission criteria, application deadlines, eligibility and application process. Before official admission to the University of Missouri, your application materials will be reviewed by both the Graduate School and the degree program to which you’ve applied.
Fisheries and Wildlife

School of Natural Resources
302 Anheuser-Busch Natural Resources Building
(573) 882-3436

The fisheries and wildlife sciences degree is based on a common foundation of biological sciences, ecology, conservation, communication, analytical, social science, humanities, and professional courses that provide students with a basic liberal education as well as prerequisites for additional professional courses.

Most students take courses that prepare them for entry-level, technical positions in fisheries, wildlife, or water quality management with local, state or federal agencies. Such training usually involves taking courses that meet the standards set by The Wildlife Society or the American Fisheries Society to become certified, professional wildlife or fisheries biologists. Other students may complete a program that emphasizes more advanced study and prepares them for careers in resource management, research or administration.

The department offers BSFW, MS, and PhD degrees with majors in Fisheries and Wildlife Sciences.

Faculty

Associate Professor D. B. Nottle* 
Extension Associate Professor R. A. Pierce II*

The following courses collectively meet the requirements for the SAF accredited Forest Resource Management curriculum:

- **Required as a minimum for Forestry Certification if the accredited curriculum has not been completed.**

**Graduate**

The School of Natural Resources  
302 Anheuser-Busch Natural Resources Building  
573-882-3436  
http://www.snr.missouri.edu/fw/

Fisheries and Wildlife Sciences emphasis areas are part of the degree program in Natural Resources. They emphasize resource management at organismal, population, or ecosystem scales. An emphasis on resource management helps distinguish our program from basic biology; therefore, course work in fisheries or wildlife management, environmental science, resource policy, or other applied ecology fields is advantageous. The program of study includes communications, quantitative skills, and basic courses in physical and social sciences. Core classes in biology and ecology and specialized courses that feature animal populations and their aquatic and terrestrial environments enhance the learning experience. Areas of study include wildlife ecology, water quality, habitat management, fisheries science, and conservation biology.

**Careers**

Graduate studies in fisheries, limnology, conservation biology, or wildlife prepare students for careers with state and federal agencies, consulting firms, private conservation organizations, or academic institutions.

**Graduate Certificates**

Graduate certificates in conservation biology, college teaching, and geographic information systems (GIS) are available to students who elect to take courses beyond those required for the graduate degree.

**Facilities & Resources**

The Department of Fisheries and Wildlife Sciences is housed in the Anheuser-Busch Natural Resources Building. This building provides space for faculty and graduate student offices in close proximity to well-equipped research and teaching laboratories, classrooms, and computer facilities.

**Baskett Wildlife Research and Education Center**

The Thomas S. Baskett Wildlife Research and Education Area, formerly known as the Ashland Wildlife Research Area, is a 2,252-acre facility located 5 miles east of Ashland, Missouri, on Highway Y. In use since 1938, it has become an integral part of the School of Natural Resources mission of teaching, research, and extension. The Baskett Area is used as an outdoor laboratory for several classes, including dendrology, ornithology, and wildlife research techniques, and has been the source...
of more than 150 research publications. For more information see http://www.aes.missouri.edu/baskett/index.stm

The Missouri Cooperative Fish and Wildlife Research Unit

The Missouri Cooperative Fish and Wildlife Research Unit affiliated with the department is operated through a cooperative agreement among the University of Missouri, the Missouri Department of Conservation, and the United States Geological Survey. It is staffed with two Department of the Interior scientists who are members of the university faculty and who offer graduate-level courses and direct graduate student research.

Vertebrate Collections

The School of Natural Resources also maintains an extensive teaching collection of the vertebrate animals of Missouri, surrounding states, and other countries. The bird and mammal collections contain more than 7,000 specimens. The Glen Smart waterfowl collection consists of more than 200 species of mounted waterfowl of the world. The fish collection contains about 25,000 preserved specimens, including freshwater fishes from Missouri and the Midwest and saltwater fishes from the Atlantic, Pacific, and Gulf coasts.

Funding

Fellowships and teaching and research assistantships are available for most applicants selected for admission. Some programs require an extra form or statement from those who wish to be considered for internal assistantships, fellowships or other funding packages. Check the program website or ask the program contact for details. We require applicants to contact faculty to determine the availability of research assistantships prior to applying to the program.

Undergraduate

BSFW in Fisheries and Wildlife

Major Program Requirements

In addition to courses that satisfy General Education (p. 20) requirements, students earning a BS in Fisheries and Wildlife Sciences must complete required F&W courses and elective options to reach 125 credits. Students must earn C- or better in all courses applied to degree.

Azlin Mustapha, Director of Graduate Studies
(573) 882-2649
mustaphaa@missouri.edu

Typical employment areas for graduates of the food science program include quality assurance, quality control, product development, sensory science and flavor chemistry. The food science curriculum meets the standards established by the Institute of Food Technologists.

Faculty

Professor F. H. Hsieh**, A. Mustapha**
Associate Professor A. D. Clarke**, I. U. Gruen**, M. Lin**
Assistant Professor M. Kwasniewski*, B. Vardhanabuti*
Adjunct Associate Professor L. Occena-Po*
Adjunct Assistant Professor G. Zheng*
Research Professor Emeritus M. Ellersiek*
Professor Emeritus R. T. Marshall*, N. Unklesbay*

Adjunct Instructor Marlena Jones, Janelle Elmore

* Graduate Faculty Member - membership is required to teach graduate-level courses, chair master’s thesis committees, and serve on doctoral examination and dissertation committees.

** Doctoral Faculty Member - membership is required to chair doctoral examination or dissertation committees. Graduate faculty membership is a prerequisite for Doctoral faculty membership.

Undergraduate

• BS in Food Science and Nutrition (p. 68)
• Minor in Food Science and Nutrition (p. 70)

The department offers the Bachelor of Science degree with a major in Food Science and Nutrition within four tracks, namely Food Science, Food Business, Enology and Culinary Sciences. A minor is available.

Note: Tracks do not appear on transcripts or diplomas.

Graduate

• MS in Food Science (p. 70)
• PhD in Food Science (p. 71)

College of Agriculture, Food and Natural Resources

http://foodscience.missouri.edu

Director of Graduate Studies: Azlin Mustapha

About Food Science

Candidates are prepared for careers in research or advanced professional careers in the food industry, teaching positions in community and junior colleges, 4-year colleges and in supporting roles in academics or industry. Graduates also may play leadership roles in extension or other adult education programs, food production and quality assurance, or government agencies. Selected careers include research and development for private industry or the federal government, food plant supervision, technical operation, product development, nutrition, distribution, food service and food regulatory work.

Facilities and Resources

Departmental cooperation with the food industry is excellent. Special facilities for food science study and research include chemical, microbiological and analytical laboratories, as well as pilot plants to study food processing.

Funding

Assistantships are available on a competitive basis to qualified students from funds provided by the Agricultural Experiment Station, research contracts and grants. Fellowships supported by industry and professional societies, based on national competition, are also available.

Undergraduate

BS in Food Science and Nutrition

Major Program Requirements

Students earning a Bachelor of Science in Food Science and Nutrition are required to complete all University general education (p. 20), University undergraduate requirements (p. 19), degree, and major requirements, including foundational courses, which may fulfill some University general education requirements.

**Minor in Food Science and Nutrition**

- **Food Science Courses (minimum)**
  - F_S 1030  Food Science and Nutrition  3
  - One of the following disciplinary courses:  3-4
    - F_S 4310  Food Chemistry and Analysis
    - F_S 4311  Investigation of Food Properties
    - F_S 4315  Food Chemistry and Analysis Laboratory
    - F_S 4330  Principles of Food Processing
    - F_S 4370  Food Microbiology
    - F_S 4380  Sensory Analysis of Food and Beverages
  - One of the following capstone courses:  3
    - F_S 4970  Food Product Development
    - F_S 4980  Food Quality Assurance
  - Two other Elective Courses in Food Science  5-6

  9 of the 15 credits need to be fulfilled with 3000-level or higher Food Science courses.

  Cross-listed courses can be taken in either the home program or the cross-listed program.

**Graduate**

**MS in Food Science**

**Degree Requirements**

- Minimum of 30 hours of graduate-level coursework.
- 15 hours must be at the 8000-level or above.
- Maximum of 40% of coursework can be F_S 8090 or F_S 8085 hours.

While a basic goal of the M.S. program is to provide students with specialized skills and training in research methods, the Food Science faculty believe that it is important for M.S. students to understand something of the breadth of the discipline as well.

There are three tracks in the Food Science M.S. program: Food Science, Hospitality Management and Agricultural Systems Management. Each track includes specific required courses.

**Food Science Track Required Courses:**

- **Chemistry and Analysis**  3-4
  - F_S 7310  Food Chemistry and Analysis
  - F_S 7311  Investigation of Food Properties
  - F_S 7315  Food Chemistry and Analysis Laboratory
- **Engineering/Processing**  3-4
  - F_S 7330  Principles of Food Processing
  - or BIOL_EN 7160  Food Process Engineering
- **Microbiology**  3-5
The student and the major advisor, in consultation with the M.S. Program Committee, will prepare a plan of study. The plan of study includes a list of the formal courses, readings, problems, research hours and seminars that the students will use to fulfill the requirements for the M.S. degree.

Minimum Requirements

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Hours</th>

<tr>
<td>F_S 8087</td>
<td>Seminar in Food Science (2 semesters)</td>
<td></td>
</tr>
<tr>
<td>Two 8000-level courses (excluding Readings or Problems courses)</td>
<td>6</td>
<td></td>
</tr>
<tr>
<td>F_S 8090</td>
<td>Research in Food Science</td>
<td></td>
</tr>
</tbody>
</table>

The defense for the M.S. degree program will include the following components:

1. Exit seminar presented to the M.S. graduate program committee and the public.
2. Oral examination to demonstrate mastery of the course of study.

In addition to the departmental requirements, the MU Office of Graduate Studies is requiring that all graduating students include a public abstract. The public abstract will be used by the MU Office of Graduate Studies to record and track graduate students’ research interests.

Exit Seminar

Immediately before the final examination, the M.S. student must present a seminar on his or her research. The seminar must take place when MU is officially in session and has to be announced at least two weeks prior to the scheduled date. The exit seminar is open to the general university audience. All members of the M.S. Program Committee will attend.

Final Examination

After the student’s exit seminar has been presented, the M.S. Program Committee will conduct a final oral examination. The candidate should be prepared to defend his/her research and discuss any related areas. A report of the examination, carrying the signatures of at least three members of the committee, must be sent to the MU Office of Graduate Studies before the deadline preceding the anticipated date of graduation. For the thesis to be considered successfully defended, the student’s M.S. Program Committee must vote to pass the student on the defense with no more than one dissenting or abstaining vote.

All exit seminars are open to the general faculty. The Food Science program will announce exit seminars to appropriate colleagues within and outside the program. The final examination must take place when MU is officially in session and the candidate must be enrolled at MU at the time of the examination.

A final copy of the thesis must be submitted to the MU Office of Graduate Studies electronically. A final bound copy of the thesis and at least one manuscript suitable for publication must be submitted to the department.

Admissions

Applicants are required to meet two sets of minimum qualifications for admission: the requirements of the MS in Food Science program (http://gradstudies.missouri.edu/academics/programs/food-science/master-of-science-in-food-science.php) and the minimum requirements of the Office of Graduate Studies (http://gradstudies.missouri.edu/admissions/eligibility-process/minimum-requirements). Because requirements vary, you must refer to a degree program’s graduate admission page to learn about specific admission criteria, application deadlines, eligibility and application process. Your application materials will be reviewed by both the Office of Graduate Studies and the degree program to which you’ve applied before official admission to the University of Missouri.

PhD in Food Science

Degree Requirements

- Minimum of 72 hours of graduate level coursework beyond the Bachelor’s degree.
- 15 hours must be at the 8000-level or above, exclusive of readings, research, problems and independent study hours.
- Maximum of 30 hours of post-baccalaureate graduate credits (exclusive of readings, research, problems and independent study hours) from a regionally accredited university may be transferred in.

While a basic goal of the Ph.D. program is to provide students with highly specialized research skills and knowledge in a particular subdivision of Food Science, the faculty believe that it is important for Ph.D. students to understand the breadth of the discipline as well.

There are three tracks in the Food Science Ph.D. program: Food Science, Hospitality Management and Agricultural Systems Management. Courses required for all three tracks and those required for each track, respectively, are listed below.

Required Courses for Food Science, Hospitality and Agricultural Systems Management Tracks:

- Research Methodologies
Sample Plan of Study

The plan of study, completed under the guidance of a Doctoral Degree Program Committee, consists of a list of formal courses and research or problems hours.

Minimum Requirements

Hours beyond the baccalaureate degree 72

Graduate level courses (excluding Problems, Research or Independent Study) 15

F_S 9087 Seminar in Food Science (2 cr of F_S 8087 may be transferred in) 4

F_S 9090 Research in Foods Science 6

Doctoral Degree Program Committee

A Doctoral Degree Program Committee must be identified by the end of the student’s second semester. This committee must include at least four MU graduate faculty members, three of whom must be from the Food Science Program, including the advisor. The advisor chair and at least one other committee member must also be members of MU Doctoral Faculty. At least one committee member must be a graduate faculty member from MU but outside the Food Science Program.

Qualifying Exam

To fulfill the Ph.D. Qualifying Exam, a proposal of the Ph.D. dissertation research must be presented to and approved by the student’s Doctoral Degree Program Committee by the end of the student’s second semester. The D1 form must be submitted to the Office of Graduate Studies by the end of the second semester to indicate the results of this Qualifying Exam. The student’s Doctoral Degree Program Committee shall determine the course of action for students who do not pass the Qualifying Exam.

Research

Students are expected to begin their research once their proposal has been approved by the Doctoral Degree Program Committee during their Qualifying Exam. Students are required to conduct periodic committee meetings to update the Doctoral Degree Program Committee on his/her research progress throughout the Ph.D. program. Significant modifications of the research studies following initial approval of the proposed Ph.D. research during the Qualifying Exam must be approved by the student’s Doctoral Degree Program Committee. Upon completion of the research, a dissertation based on original research must be reviewed and approved by the student’s Doctoral Degree Program Committee. All Ph.D. candidates are required to prepare at least one manuscript, judged acceptable by the major advisor and at least one additional member of the student’s Doctoral Degree Program Committee, for submission to a refereed journal, prior to the final dissertation defense.

Exit Seminar

Immediately before the defense of the dissertation, the student must present a formal seminar on his/her research. The seminar must take
place when MU is officially in session, must be announced at least two weeks prior to the scheduled date and is open to the general university audience.

**Final Examination**

After the seminar has been presented, a final defense oral examination will be conducted by the Doctoral Degree Program Committee. The candidate should be prepared to defend his/her research and to discuss any related areas.

A report of the examination (D4 form), carrying the signatures of all members of the committee, must be sent to the MU Office of Graduate Studies before the deadline preceding the anticipated date of graduation. For the dissertation to be considered successfully defended, the student’s Doctoral Degree Program Committee must vote to pass the student on the defense with no more than one dissenting or abstaining vote.

All dissertation exit seminars are open to the public. The Food Science Program will announce dissertation exit seminar dates to appropriate colleagues within and outside the Food Science Program. The dissertation defense must take place when MU is officially in session and the candidate must be enrolled at MU at the time.

A final copy of the dissertation must be submitted to the MU Office of Graduate Studies electronically.

**Comprehensive Examination Process**

The comprehensive examination must be completed at least seven months prior to the dissertation research defense. Students must be enrolled in order to take this exam and MU must officially be in session. This examination is designed to measure the student’s knowledge of food science and related areas. In addition, students are expected to demonstrate the ability to think clearly and critically and to express themselves adequately in both written and spoken English. After completion of the written exam, the student, in consultation with their major advisor and Doctoral Degree Program Committee should schedule the oral exam. The oral exam is designed to determine whether the student can think clearly on their feet and express themselves well in English. The student will be expected to defend their answers on the written portion of the comprehensive exam as well as any other areas the committee wishes to explore. Both the written and oral sections of the Comprehensive Exam must be completed within one month. For the Comprehensive Exam to be completed successfully, the student’s Doctoral Degree Program Committee must vote to pass the student on both the written and oral sections of the exam with no more than one dissenting or abstaining vote. Students who fail the Comprehensive Exam may not retake the exam for at least 12 weeks. Failure to pass two Comprehensive Exam automatically prevents candidacy. Results of the Comprehensive Exam (D3 form) with signatures from all committee members must be submitted to the Office of Graduate Studies.

**Admissions**

Applicants are required to meet two sets of minimum qualifications for admission: the requirements of the PhD in Food Science program (http://gradstudies.missouri.edu/academics/programs/food-science/doctorate-in-food-science) and the minimum requirements of the Office of Graduate Studies (http://gradstudies.missouri.edu/admissions/eligibility-process/minimum-requirements). Because requirements vary, you must refer to a degree program’s graduate admission page to learn about specific admission criteria, application deadlines, eligibility and application process. Your application materials will be reviewed by both the Office of Graduate Studies and the degree program to which you’ve applied before official admission to the University of Missouri.
Forestry

H. E. Stelzer  
Department of Forestry  
The School of Natural Resources  
College of Agriculture, Food and Natural Resources  
203 Anheuser-Busch Natural Resources Building  
(573) 882-7242  
SNR@missouri.edu

The forestry undergraduate major is based on a foundation of communication, analytical science, humanities and professional courses that provides students with prerequisites for additional professional courses as well as a basic liberal education. Four emphasis areas are offered: forest resource management, urban forestry, forest resource entrepreneurship and business, and individualized studies.

The department offers a BSF degree in Forestry. MS and PhD degrees in Natural Resources with emphasis in Forestry. A minor is also available.

Faculty

**Professor** H. S. He**, S. Jose**, D. R. Larsen*, M. J. Linit*, R. M. Muzika**, T. L. Payne*

**Associate Professor** F. X. Aguilar**, J. A. Hubbart**, H. E. Stelzer**

**Assistant Professor** B. O. Knapp**

**Research Professor** M. A. Gold**, R. P. Guyette**

**Research Assistant Professor** M. V. Coggeshall**, C. H. Lin**, M. C. Stambaugh**

**Cooperative Associate Professor** D. Dey*, J. Van Sambeek**, S. R. Shifley*

**Adjunct Assistant Professor** J. Kabrick*

* Graduate Faculty Member - membership is required to teach graduate-level courses, chair master's thesis committees, and serve on doctoral examination and dissertation committees.

** Doctoral Faculty Member - membership is required to chair doctoral examination or dissertation committees. Graduate faculty membership is a prerequisite for Doctoral faculty membership.

Undergraduate

- BSF in Forestry (p. 77)
  - with emphasis in Forest Entrepreneurship and Business (p. 78)
  - with emphasis in Forest Resource Management (p. 78)
  - with emphasis in Individualized Studies (p. 79)
  - with emphasis in Urban Forestry (p. 79)
- Minor in Forestry (p. 79)

BSF in Forestry

Forestry is the science, art, and craft of creating, managing, using, conserving, and repairing forests and associated resources, in a sustainable manner, to meet desired societal goals. The challenge of forestry is to create systems that are socially accepted while sustaining the resources and any other resources that might be affected. Forestry has elements that belong to the biological, physical, social, political and managerial sciences. Forest ecosystems have come to be seen as the most important component of the biosphere and forestry has emerged as a vital applied science, craft, and technology.

Graduates work in an ever-expanding breadth of jobs related to the conservation and management of forests and other renewable natural resources in the United States and beyond. From urban, private and industrial forests to conservation easements and wilderness tracks, managers are needed to guide the use and sustainability of our nation's natural resources.

Studies in this discipline provide a broad exposure to the biological and physical sciences, from the study of water systems (hydrology), forest ecology, tree physiology and insects and disease (entomology and pathology) to forest soils, geology, and micrometeorology.

Honors

Students who graduate with the following cumulative GPA values are awarded BSF degrees with Latin honors:

<table>
<thead>
<tr>
<th>GPA Range</th>
<th>Honours</th>
</tr>
</thead>
<tbody>
<tr>
<td>3.50-3.69</td>
<td>cum laude</td>
</tr>
<tr>
<td>3.70-3.89</td>
<td>magna cum laude</td>
</tr>
<tr>
<td>&gt;3.90</td>
<td>summa cum laude</td>
</tr>
</tbody>
</table>

Dual Major - Forestry/Fisheries and Wildlife

In addition to courses that satisfy university general education requirements (p. 20), students who plan to complete a dual major in fisheries and wildlife/forestry must complete the required fisheries and wildlife sciences, forestry, and elective options to reach 140 credits. The dual major does not allow for any general elective hours.

### Graduation Requirements

- Required as a minimum for Forestry Certification if the accredited curriculum has not been completed.

### Graduation

- **Graduate Certificate in Agroforestry** (p. 80)

### School of Natural Resources

**Department of Forestry**

203 Anheuser-Busch Natural Resources Building

573-882-7242

http://snr.missouri.edu/forestry/academics/graduate-program.php

**Director of Graduate Studies:** Hong He

Forestry encompasses both basic and applied science, involving specific interests ranging from biophysical processes in forested ecosystems to plant population studies, but also recognizes overarching fundamental issues of sustainability of natural resources. Forestry graduate education prepares students for opportunities in a variety of disciplines such as forest ecology, tree physiology, hydrology, conservation, policy and silviculture.

### Degrees and Areas of Study

Graduate research programs in the Department of Forestry lead to an MS or PhD in Natural Resources with an emphasis in Forestry. Specialized graduate education can focus on, but is not limited to, studies in agroforestry, biometrics, community and landscape ecology, dendrochronology, economics, entomology, fire ecology, hydrology, physiological ecology, physiology, policy, silviculture, soils, forest management, stand dynamics, water quality and wood quality.

### Interdisciplinary Graduate Certificates

In collaboration with other departments, additional graduate certificates are available in Conservation Biology undergraduate/graduate/interdisciplinaryacademicprograms/additionalminorsandcertificates/grad-certif-conservation-biology/ (http://gradstudies.missouri.edu/academics/programs/conservation-biology-graduate-certificate) Geographic Information Sciences http://www.geog.missouri.edu/?q=grad/graduate-gis-program.
Interdisciplinary certificates are intended for students who elect to take courses beyond those required for our graduate degrees.

Partnerships

The graduate program in the Department of Forestry involves partnerships with the USDA Forest Service, Northern Research Station, the Missouri Department of Conservation, the Missouri Department of Natural Resources, the US Geological Survey, the National Park Service and the United States Fish and Wildlife Service. Students may work closely with scientists in these agencies who have affiliated faculty appointments.

Career Opportunities

A graduate degree in Natural Resources with an emphasis in Forestry is designed to prepare students for careers in academic institutions, consulting firms, non-governmental organizations, industry and state and federal agencies.

Facilities and Resources

Facilities available for research include well-equipped biometrics, ecology, dendrochronology, hydrology, physiology and wood quality laboratories in the Anheuser-Busch Natural Resources Building on campus at Columbia, the Horticultural and Agroforestry Research Center (HARC) and the Baskett Research and Education Area.

Horticulture and Agroforestry Research Center (HARC). HARC is a 540-acre tract about 30 miles northwest of campus near New Franklin, Mo. It is in the loess hills overlooking the Missouri River Valley and is well-suited for agroforestry, agronomic and horticultural field studies.

Baskett Research Area. Thomas Baskett Wildlife Research and Education Area, formerly known as the Ashland Wildlife Research Area, is a 2,252-acre facility located five miles east of Ashland, Missouri. In use since 1938, Baskett has become an integral part of the School of Natural Resources mission of teaching, research, and extension. The Baskett Research Area is used as an outdoor laboratory for several classes including dendrology, forest ecology, ornithology, and wildlife research techniques, and has been the source of over 150 research publications. For more information see http://www.aes.missouri.edu/baskett/

Schnabel Woods. The Schnabel Arboretum Tract is an 80-acre tract of late-successional forest on the bluffs near the Missouri River. It is located eight miles southwest of the MU campus near the river community of McBaine, adjacent to the Missouri Department of Conservation Eagle Bluff Conservation Area and the cross-state Katy Trail State Park. The Schnabel Tract represents a unique, relatively undisturbed example of a river-hills forest ecosystem complex not commonly found in Missouri. The area is used for undergraduate instruction, graduate research and demonstration.

University Forest. University Forest is located at the southeastern edge of the Missouri Ozarks, 14 miles north of Poplar Bluff and near Lake Wappapello. It is uniquely situated at the junction of two major ecological sections of the state: The Ozarks and the Mississippi Alluvial Basin. Three forest ecosystem types converge near this area: upland oak-hickory, oak-shortleaf pine and bottomland hardwoods. Using the adjacent 7,000-acre University State Forest managed by the Missouri Department of Conservation, this area is used routinely by the faculty and students of the School of Natural Resources for research.

Additional Locations. In addition, lands of the United States Forest Service, United States Fish and Wildlife Service, Corps of Engineers, National Park Service, Missouri Department of Conservation and the Missouri Department of Natural Resources are available for certain research activities. Numerous research projects have also taken place on private lands.

Funding

Some programs require an extra form or statement from those who wish to be considered for internal assistantships, fellowships or other funding packages. Check the program Web site or ask the program contact for details. A limited number of research assistantships are available. They are awarded based on (1.) demonstrated scholastic accomplishment; (2.) GRE scores; and (3.) experience related to the proposed field of study.

Application and Admission Information

Admission Contact Information
Dr. Hong He
203 ABNR Bldg.
HeH@missouri.edu

Admission Criteria

Fall deadline: May 15
Spring deadline: October 15
Summer deadline: March 15

• Minimum GPA: 3.0 in last 60 hours
• Minimum TOEFL scores:
• Minimum GRE scores:

<table>
<thead>
<tr>
<th>Internet-based test (iBT)</th>
<th>Paper-based test (PBT)</th>
</tr>
</thead>
<tbody>
<tr>
<td>80</td>
<td>550</td>
</tr>
</tbody>
</table>

• Minimum GRE scores:

When did you take the GRE? Verbal + Quantitative
Prior to August 1, 2011  1100
On or After August 1, 2011 300

‘ 50th percentile or higher preferred in each category.

Particular attention is given to the record of the last 2 years of undergraduate study, and/or the type and quality of professional experience since completion of the undergraduate degree. Doctoral candidates must demonstrate a higher level of achievement in each of these criteria.

Required Application Materials

To the Graduate School:
• All required Graduate School documents
• 3 letters of recommendation from individuals qualified to evaluate scholarly capacity and professional qualities
• Letter of intent

To the Program:
• Departmental application (use form)
• GRE scores

Undergraduate
BSF in Forestry

Major Program Requirements

Forestry is the science, art, and craft of creating, managing, using, conserving, and repairing forests and associated resources, in a sustainable manner, to meet desired societal goals. The challenge of forestry is to create systems that are socially accepted while sustaining the resources and any other resources that might be affected. Forestry has elements that belong to the biological, physical, social, political and managerial sciences. Forest ecosystems have come to be seen as the most important component of the biosphere and forestry has emerged as a vital applied science, craft, and technology.

The forestry majors requires the successful completion of 125 credits. In addition to the University General Education requirements, students must meet the forestry major requirements outlined below, as well as the additional requirements of their chosen emphasis area.

Students enrolled in forestry are required to attend a specialized, five-week, summer field session. This session includes courses for 5 credits and is recommended between the sophomore and junior years.

**BSF in Forestry with Emphasis in Forest Entrepreneurship and Business**

**Major Program Requirements**

The goal of forest resource entrepreneurship and business is to prepare graduates for work with large wood products firms, or as independent private consulting foresters. Along with the BSF students earn a Minor in Agricultural Economics.

Courses listed are in addition to University general education (p. 20) requirements and forestry major requirements (p. 77).

- MANGMT 3000 Principles of Management 3
- ACCTCY 2036 Accounting I 3
- FOREST 4350 Forest Economics 3
- FOREST 4365 Logging Systems: Operations and Analyses 3
- FOREST 4380 Forest Resource Management 3

If FOREST 4380 is selected as the capstone course then another Forestry course must be added to fulfill emphasis requirement.

Internship in Forest Resource Business Administration (TBD - Problems course) 6

Unrestricted electives 14-17

**Total Credits** 128

Semester Plan

Refer to the Semester Plan for the BS in Forestry (p. 77).

**BSF in Forestry with Emphasis in Forest Resource Management**

**Major Program Requirements**

Forest resource management is the overall administrative, economic, legal and social aspects and with the essentially scientific and technical aspects, especially silviculture, protection, and forest regulation. This includes management for aesthetics, fish, recreation, urban values, water, wilderness, wildlife, wood products, forest genetic resources and other forest resources values.

The forest resources management emphasis area curriculum is accredited by the Society of American Foresters (SAF). SAF is recognized by the Council on Higher Education as the specialized accrediting body for forestry in the United States.

Courses listed are in addition to the University General Education (p. 20) requirements and forestry major requirements (p. 77).

**Emphasis Core Requirements**

- FOREST 3212 Forest Health and Protection 4
- FOREST 3207 Forest Fire Control and Use 2
- FOREST 3240 Wood Technology 3
- FOREST 4340 Tree Physiology 3
- or PLNT_S 2125 Plant Structure and Function 3
- or PLNT_S 4315 Crop Physiology 3
- or PLNT_S 4320 Molecular Plant Physiology 3
- FOREST 4360 Photogrammetry, Inventory and Models 3
- FOREST 4380 Forest Resource Management 3
- FOREST 4350 Forest Economics 3
- F_W 4600 Ecosystem Management 4

Unrestricted electives 10-13

If Forestry 4380 is selected as the capstone course, then another Forestry course must be added to fulfill emphasis requirements.

**Total credits** 125

**Semester Plan**

Below is a sample plan of study, semester by semester. A student’s actual plan may vary based on course choices where options are available.

*Humanities Elective*
BSF in Forestry with Emphasis in Urban Forestry

Major Program Requirements

Urban forestry seeks the maintenance of vigorous and aesthetic tree systems that enhance urban and suburban environments. The responsibility of the urban forester is to establish, develop and administer tree management systems for metropolitan areas and other population centers.

Students in urban forestry learn communications and public relations skills as well as mid-level management procedures that prepare them to organize, staff, finance, plan and supervise urban forestry programs. Courses in management, administrative strategies and scientific foundations are incorporated into the urban forestry curriculum.

Courses listed are in addition to University General Education (p. 20) requirements and forestry major requirements (p. 77).

Emphasis core requirements

FOREST 3212 Forest Health and Protection 4
FOREST 3290 Urban Forestry 2
FOREST 4340 Tree Physiology 3
or PLNT_S 2125 Plant Structure and Function
or PLNT_S 4315 Crop Physiology
or PLNT_S 4320 Molecular Plant Physiology
PLNT_S 2210 Ornamental Woody Plants 3
PLNT_S 3230 Plant Propagation 3
PLNT_S 2254 Landscape Design 3
PLNT_S 4350 Nursery Crop Production and Management 4

Unrestricted electives 13-16

Total credits 125

Semester Plan

Refer to the Semester Plan for the BSF in Forestry (p. 77).

Minor in Forestry

The minor requires a minimum of 15 credit hours of coursework in the Forestry curriculum.

Nine of the required hours must be taken in classes numbered at the 3000 level or above from the following courses:

FOREST 2151 Dendrology (required of all students) 4
FOREST 3240 Wood Technology 3
FOREST 3207 Forest Fire Control and Use 2
FOREST 3290 Urban Forestry 2
FOREST 4320 Forest Ecology 5
FOREST 4330 Practice of Silviculture 3
FOREST 4360 Photogrammetry, Inventory and Models 3
FOREST 4390 Watershed Management and Water Quality 3
FOREST 4350 Forest Economics 3

Graduate
Graduate Certificate in Agroforestry

Agroforestry is intensive land-use management combining trees and/or shrubs with crops and/or livestock. It also is new market opportunities. Sustainable agriculture. Land stewardship. Habitat for wildlife. Improved water quality. Diversified farm income.

This 12-hour online graduate certificate, from the Center for Agroforestry at the University of Missouri, provides students with agroforestry fundamentals as well as theoretical foundations in both the biophysical and socioeconomic components of agroforestry.

Designed for individuals with years of experience in agroforestry but lacking a formal credential, it is a perfect fit for those interested in or involved with the Peace Corps, or possessing a bachelor’s degree in a related area but no formal training in agroforestry.

Holders of this certificate generally work as professional and consulting foresters, certified crop or horticulture advisors, extension agents, international development experts, soil and plant scientists, forestry and conservation science teachers and educators, and as forestry or soil and water conservation agents.

This online graduate certificate program is unique and fills a void worldwide. To the best of our knowledge, there are no similar programs in agroforestry elsewhere in the United States or abroad.

Fax: (573) 882-0596
HRM@missouri.edu
http://hospitality.missouri.edu/

The hospitality industry plays a vital role in U.S. economic development and employment. With the growth of the industry, the need for a well-trained workforce is greater than ever. The Hospitality Management Program is established as an effective response to growing demand for managerial talents in the hospitality industries and the promise of hospitality education in knowledge pursuit and human development. The mission of the Program is to develop students to be responsible citizens and successful, ethical hospitality leaders in today’s global community. The curriculum leading to the B.S. in Hospitality Management allows students to be anchored in theories of business education and develop skills and competencies that are essential to hospitality operations.

One of the unique features of the program is the exposure of students to the hospitality industry in the form of hands-on learning. In HSP_MGMT 4941 Internship in Hospitality Management course, students will have the opportunity to apply management concepts and theories from their coursework to practical work experiences in industry, under the direction of faculty mentors and industry professionals.

The program has a state-of-the art food-service facility that houses a food service laboratory, a commercial kitchen and a multi-purpose dining room that plays host to the student-run Café at Eckles Hall and fine dining evening experience. The facility also provides a a practice laboratory for food based research opportunities. The program cooperates with the College in operating the Gathering Place Bed and Breakfast which serves as a training operation for lodging management and conference and event planning management students. Sport and entertainment organizations like Mizzou Athletics and MU Event Production Services also provide students learning experience beyond classroom setting.

Faculty

Professor E. Tse
Associate Professor S. Cho, D. Kim
Assistant Teaching Professor A. Alexander, L. Marshall (Visiting)
Instructor P. Dreshfield, B. Langford

* Graduate Faculty Member - membership is required to teach graduate-level courses, chair master’s thesis committees, and serve on doctoral examination and dissertation committees.
** Doctoral Faculty Member - membership is required to chair doctoral examination or dissertation committees. Graduate faculty membership is a prerequisite for Doctoral faculty membership.

Undergraduate

• BS in Hospitality Management (p. 82)
  • with emphasis in Conference and Event Planning Management (p. 83)
  • with emphasis in Food and Beverage Management (p. 83)
  • with emphasis in Lodging Management (p. 83)
  • with emphasis in Sport Venue Management (p. 83)
  • Minor in Hospitality Management (p. 83)

Department Level Requirements

Students earning a Bachelor of Science in Hospitality Management are required to complete all University general education (p. 20), University undergraduate requirements (p. 19), as well as departmental and emphasis area requirements, including the following selected foundational courses, which may fulfill some University general education requirements.

Foundational Courses

• AG_ED_LD 2220 Verbal Communication in Agriculture, Food and Natural Resources 3
  or COMMUN 1200 Public Speaking 3
• CHEM 1100 Atoms and Molecules with Lab 3
• F_S 1030 Food Science and Nutrition 3
• or BIO_SC 1010 General Principles and Concepts of Biology 3
• AG_EC 1041 Applied Microeconomics 3
• or ECONOM 1014 Principles of Microeconomics 3
• AG_EC 1042 Applied Macroeconomics 3
• or ECONOM 1015 Principles of Macroeconomics 3
• Approved Physical Science, Biological Science, or Math 3

Students transferring into Hospitality Management from other MU degree programs or from other institutions must have both a term and cumulative GPA of 2.25.

A grade of C- or higher is required for all hospitality core, emphasis area, and professional elective courses. Please see the BS in Hospitality Management (p. 82) page for the major program requirements.

What you can do with a degree in Hospitality Management

Students selecting a major in Hospitality Management are required to take a wide variety of courses that provide basic knowledge of human understanding, a theoretical knowledge of business principles as applied in the hospitality industry. Students have a choice to select an emphasis area which provides them more in-depth knowledge of leadership application within a hospitality career. In addition, each student completes a 12-15 hour block of professional electives which allows them to gain additional expertise.

There are four emphasis areas in Hospitality Management: Conference and Event Planning Management, Food and Beverage Management, Lodging Management, or Sport Venue Management.

In the Conference and Event Planning Management emphasis, students develop knowledge and skills in planning and conducting a large variety of events from business meetings, social functions, to festivals and mega events. Students with this emphasis find employment in a variety of businesses, hotels, convention and conference centers, associations, and private event companies.

Students choosing the Food and Beverage Management emphasis acquire skills and knowledge in managing a variety of commercial and noncommercial food and beverage operations. These students find employment in a variety of restaurants, lodging food operations, institutional food service operations, and catering venues. Many students...
with entrepreneurial spirit in this area strive to own their own restaurant operations one day.

Students choosing the Lodging Management emphasis acquire skills and knowledge in managing a variety and size of lodging operations from budget to luxury hotels, inns and bed and breakfast operations. These students find employment in various functional areas, such as rooms, sales and marketing, human resources of the lodging operations.

Students choosing the Sport Venue Management emphasis acquire skills and knowledge in managing a variety of venues, such as stadiums, arenas, conference and events centers that have sports as one of their operations. These students will be qualified to operate large and small venues that cater to sports teams, concerts, entertainment and a variety of other functions. This is a good emphasis area for a student who wants to stay connected to the world of sports.

Graduate

Graduate Study in Hospitality Management

The graduate program, Masters and Ph.D., is jointly offered with the Food Science Program as one of the three tracks. It is established with the objectives for the generation of new knowledge through research. The program provides an understanding of the body of knowledge in the discipline of hospitality and develops abilities to achieve scholarly success. These abilities include competency in research, problem solving and teaching/communication.

After graduation, it is likely that a Masters student will join the hospitality industry or continue their Ph.D. study. Ph.D. graduates will likely join the faculty of a college or university that will require research and publication as part of the promotion and tenure process. This goal is accomplished by creating a scholarly research environment, which introduces students the opportunity for writing, publishing, research, consulting and teaching. The atmosphere is interdisciplinary and incorporates a number of opportunities for a variety of types of information exchange and growth.

For additional information, please visit the Food Science Graduate Program (p. 68) Overview.

Minor in Hospitality Management

The minor in Hospitality Management is for students interested in enhancing their understanding of the hospitality industry. A student must complete 18 credits of coursework related to each of the four Hospitality Management emphasis areas as listed below. The undergraduate chair of the HM program must approve students’ plan of study. Please use the
CAFNR Minor form (http://cafnr.missouri.edu/students/minor-form.xls) to complete the application process for the HM minor.

School of Natural Resources

The School of Natural Resources is Missouri’s and the Midwest’s only school with a comprehensive natural resources program. It encompasses Forestry, Fisheries & Wildlife Sciences, Parks, Recreation, and Tourism, and Soil, Environmental, and Atmospheric Sciences. The school is based on an integrated, scientific approach to natural resources management. It is housed in the Anheuser-Busch Natural Resources Building containing state-of-the-art teaching, research and outreach extension facilities.

The Department of Forestry was established at MU in 1947 and was elevated to the status of School of Forestry in 1957. The fisheries and wildlife program, which was established in 1937 in the College of Arts and Science, became part of the school in 1973. The Department of Parks, Recreation and Tourism was added in 1988. The School of Natural Resources was formed through a name change in 1989. A Department of Soils was formed at MU in 1914 and a Department of Atmospheric Science was formed in 1966. Faculties in soil science and atmospheric science joined The School of Natural Resources in 1990 and 1991, respectively, and were merged into the Department of Soil and Atmospheric Sciences in 1992. This name was changed to the Department of Soil, Environmental and Atmospheric Sciences in 2004.

Faculty

Faculty members within the School of Natural Resources have their appointments through the following degree programs: Forestry (p. 74), Fisheries & Wildlife (p. 84), Parks, Recreation & Tourism (p. 100), Soil, Environmental & Atmospheric Science (p. 118). Their faculty listing can be found on those degree pages.

Undergraduate

Admissions

In addition to requirements listed below, students admitted to the University of Missouri may enter The School of Natural Resources as freshmen or as transfer students.

Transfer Students

Previous college work is carefully accepted by The School of Natural Resources. Courses are readily accepted if they are satisfactory substitutes for required University of Missouri courses. Lists of acceptable substitute courses offered at many other institutions are maintained and are available to prospective transfer students on request.

Major Program Requirements

Students must meet all emphasis, major, degree, department, college and university graduation requirements (p. 19), including the university general education requirements (p. 20). See the appropriate sections of this catalog.

Academic Assessment

Credits by Examination

A total of 21 credits in CLEP (College Level Entrance Program) is accepted in the following areas: English, mathematics, social sciences and humanities. The school does not accept natural science CLEP credit.

Student Services

Advising

Personalized advisement and counseling is available from the school’s faculty members. An open-door policy by advisors is emphasized and the school is noted for excellent student/faculty relations. Undergraduate advisement in The School of Natural Resources (SNR) is undertaken by those faculty and staff who advise with the attitude of fostering academic and professional development and success. The faculty members recognize the importance of establishing a trust relationship with students that will extend through their academic years at MU into their careers.

Career Placement

Students in The School of Natural Resources are provided various types of employment assistance through the College of Agriculture, Food and Natural Resources Placement Office (2-64 Agriculture Building). Resource materials on potential employers are available for student use. Instructions regarding federal, state and industrial employment procedures and assistance in the preparation of résumés and applications also are available. Notices of available positions are posted, and interviews are arranged with visiting organizations. Employment assistance also is given to alumni of the school on request.

Freshman Interest Groups

Freshman Interest Groups (FIGs) are sponsored by the school in four areas, atmospheric sciences (“Storm Chasers”), environmental science, natural resources and sport management. A learning community is also sponsored, comprised of members of the two FIGs and other students who live on the same dormitory floor. The FIG experience promotes a sense of community among students that increases the quality of all aspects of university life for incoming students.

Transfer Student Interest Groups

TRIGS, or Transfer Interest Groups, involve activities that are specifically designed to help transfer students make a smooth transition to the MU campus. The School of Natural Resources TRIG is composed of transfer students with common interests and majors. In addition to other activities, members of each TRIG take a 1 credit hour proseminar together during their first semester at MU. You do not need to live on campus to participate in a TRIG program. TRIGs are only open to transfer students who have completed 24 or more hours at their previous institution. There is no additional cost for participating in a TRIG, and they are a great way to get to know campus and meet other students who are also making the same transition. TRIGs are available only for students planning to start at MU in the fall term.

Graduate

MS in Natural Resources

The MS in Natural Resources has emphasis areas in Agroforestry (p. 86), Fisheries & Wildlife Science (p. 87), Forestry (p. 88), Human Dimensions of Natural Resources (p. 89), Parks Recreation and Tourism (p. 89), Soil, Environmental and Atmospheric Sciences (p. 90), and Water Resources (p. 92). Please see the individual emphasis area pages for degree requirements and admissions information.

MS in Natural Resources with Emphasis in Agroforestry

Dr. Shibu Jose
203 Anheuser-Busch Natural Resources Building
Columbia, MO 65211
joses@missouri.edu
573-882-0240

Emphasis Area Focus

Agroforestry, as a farming system that integrates crops and/or livestock with trees and shrubs, has a long history of interdisciplinary research at the University of Missouri. The interdisciplinary emphasis area capitalizes on existing agroforestry research collaborations across The School of Natural Resources (SNR) departments in building an academic program that could attract and serve quality graduate students from Missouri, the nation and the world. The agroforestry emphasis area offers both a thesis and non-thesis option. The program also offers an online option designed for professionals working in natural resources around the globe who already have an undergraduate degree in a related field. Please visit the online webpage for more information: http://online.missouri.edu/degreeprograms/agroforestry/index.aspx

Admission Requirements

• Bachelor’s degree in a relevant discipline from an accredited institution
• Undergraduate GPA: 3.0 on a scale of 4.0
• Graduate Record Exam score (GRE)*: verbal plus quantitative total of at least 1100 (300 on the new GRE)

• Students whose GPAs and GRE scores do not meet the requirements will be evaluated individually

*The GRE requirement may be waived under exceptional circumstances. Applicants will be reviewed on a case-by-case basis.

How to Apply

To the Graduate School:

• All application materials must be submitted to the Apply Yourself online application system.
• Statement of interest
• Résumé or CV
• GRE scores
• TOEFL scores (if applicable)
• A minimum of three letters of recommendation and the accompanying evaluation sheets from people who can attest to the candidate’s scholastic ability and experience relevant to graduate study.
• Publications (optional)

Application Deadlines

Applications must be received by the following dates:
• March 15 for the summer semester
• May 15 for the fall semester
• Oct. 15 for the spring semester

Thesis option:

Students in the thesis option will complete 30 credit hours of course work with no more than 12 credits for thesis research. Students choosing the M.S. thesis option will prepare a written research proposal and make an oral defense of that proposal within 12 months of their initial enrollment in the program. Students in the thesis option will write a thesis based on their research and participate in a public oral defense of their thesis announced at least two weeks prior to the defense date.

Non-Thesis option:

Students in the non-thesis option will complete 30 credit hours of course work with no more than 6 credits for a project. Students choosing the non-thesis option will be required to write a project plan and to make an oral defense of that plan within the first year following their initial enrollment in the program. Students choosing the non-thesis option will write a technical report based on their project and participate in a public oral defense of their report to be announced at least two weeks prior to the defense date.

Timeline Requirements:

1. Within six month of initial enrollment in the emphasis area, students must submit a plan of study.
2. Within one year of initial enrollment in the emphasis area, students must present a written proposal of their research or project proposal to be reviewed and approved by members of the students’ Masters Committee.
3. Students will submit a written thesis or project report following the guidelines specified by the Graduate School. All students must present a public oral defense of their dissertation or project announced at least two weeks prior to the defense date. Electronic media may be used to facilitate the defense for online/distance education students when appropriate.
4. All students will submit an annual report of their progress as required by the MU Graduate School.

**Agroforestry Emphasis Area Coursework Requirements**

Students seeking the agroforestry graduate emphasis will develop their course of study to incorporate 12 hours of a core curriculum of designated courses. This has been designed to include theoretical foundations in both the biophysical and socioeconomic components of agroforestry. The curriculum leads the student through a progression of learning and applying concepts related to (A) Agroforestry Fundamentals; (B) Biophysical Foundation; and (C) Socio-economic Foundation (Table 1).

Each student’s coursework requirements, including the selection of specific courses in the above categories, will be listed in the student’s plan of study and approved by their graduate committee.

**MS in Natural Resources with Emphasis in Fisheries and Wildlife Sciences**

**Application and Admission Information**

Admission Contact Information
Graduate Secretary
302 Anheuser-Busch Natural Resources Building; Columbia, MO 65211
Janice Faaborg; faaborgje@missouri.edu; 573-882-9422 or Karen Decker; deckerkf@missouri.edu; 573-882-3436

**Admission Criteria**

Fall deadline: Rolling

- Minimum TOEFL scores:
  - Internet-based test (iBT): 79
  - Paper-based test (PBT): 550

- Minimum GRE scores:
  - When did you take the GRE?
    - Prior to August 1, 2011: 1100
    - On or After August 1, 2011: 1100 equivalent scores

- Minimum GPA: 3.2 in last 60 hours of undergraduate coursework.

- Experience in research or management of natural resources. Practical skills are strongly considered.

**Required Application Materials**

To the Graduate School:

- All application materials must be submitted to the Apply Yourself online application system
- All required Graduate School documents
- A minimum of three letters of recommendation and the accompanying evaluation sheets from people who can attest to the candidate’s scholastic and conservation field work abilities
- Departmental application
- Written response to 1 of 5 questions listed on the Fisheries and Wildlife Sciences Graduate Program Admissions page
- GRE scores
- TOEFL scores (when applicable)
- Publications (optional)
- Résumé or CV

We require applicants to contact specific faculty to determine the availability of research assistantships prior to applying to the program.

An applicant contemplating graduate work in fisheries, limnology, conservation biology, or wildlife should have a strong background in biological and physical sciences, including biology, botany, zoology, ecology, physiology, and genetics. In addition, such taxonomic courses as plant taxonomy, invertebrate zoology, ichthyology, ornithology, and
mammalogy are highly desirable, as is a background in chemistry, mathematics, statistics, and physics.

A background of 25 to 30 hours in biological sciences courses is desirable. Minor deficiencies may be remedied during the graduate program; major deficiencies may require preparatory coursework prior to consideration for admission.

Fisheries and Wildlife Sciences degrees emphasize resource management at organismal, population, or ecosystem scales. An emphasis on resource management helps distinguish our program from basic biology; therefore, course work in fisheries or wildlife management, environmental science, resource policy, or other applied ecology fields is advantageous.

Degree Completion Requirements

Master’s students must complete, with a B average or better, a minimum of 30 hours of course work (15 hours or more at the 8000 course level). Research, problems, special investigations, and special readings courses shall not exceed 12 of the 30 hours.

Plan of Study

Candidates are expected to design and have approved by their committee a plan of study during their first semester in residence and a thesis proposal by their second semester.

Thesis & Oral Examination

A thesis acceptable to the student’s graduate committee shall be completed and defended in a final oral examination; all candidates must complete the oral examination and a final thesis seminar before the degree is conferred.

MS in Natural Resources with Emphasis in Forestry

Graduate research programs leading to the M.S. or Ph.D. in Natural Resources with an emphasis in Forestry are designed to prepare students for careers in academic institutions, consulting firms, industry, and state and federal agencies.

Forestry graduates interested in research or teaching may concentrate much of their course work in one or more of the related sciences with a thesis appropriate to forestry. Dissertation research may be directed toward the solution of problems faced by the practicing forester or may consist of fundamental investigations pertinent to the solution of such problems.

Specialized graduate education is available in agroforestry, biometrics, community and landscape ecology, economics, entomology, fire ecology, hydrology, geographic information systems, physiological ecology, physiology, policy, silviculture, soils, forest management, stand dynamics, water quality, wood quality and tree-ring analysis.

Students often conduct joint research with natural resource specialists at the Northern Research Station (U.S. Forest Service), the Missouri Department of Conservation, the Missouri Department of Natural Resources, the National Park Service, and the U.S. Fish and Wildlife Service.

Degree Requirements

To attain the master’s degree:

- 30 hours of course work must be completed.
- 15 hours or more must be 8000+ level.
- Research, problems, special investigations and special readings courses must not exceed 12 of the 30 hours.
- The GPA of all course work submitted for the degree must be 3.0 or better.

Graduate students typically enroll in courses from across campus. For graduate students of Forestry emphasis area who lack academic or experiential background in forestry, the graduate committee may recommend several courses to compensate for that deficiency.

Forestry graduate students commonly enroll in dual undergraduate / graduate courses at the 7000 level, FOREST 7330, FOREST 7375, FOREST 7320, FOREST 7390.

For a graduate students emphasizing forestry, Forestry Seminar (FOREST 9087) is the only required course in the graduate student’s program of study. All Ph.D. students must enroll in Forestry Seminar (FOREST 9410) at least twice during the student’s graduate program. All graduate students are expected to attend all forestry seminars regardless of whether the student is enrolled in the seminar course.

Thesis Requirements

A master’s thesis, or a minimum of 5 semester hours of non-thesis research acceptable to the student’s committee, shall be completed before the final examination. Research toward a thesis normally shall not exceed 8 hours. Thesis requirements and defense are as defined by the MU Graduate School. A final oral examination is given to all candidates before completion of the degree.

Admissions

Admission Contact Information
Dr. Stephen G. Pallardy
203 ABNR Bldg.
PallardyS@missouri.edu

Applicants are required to meet two sets of minimum qualifications for admission: the requirements of the MS in Natural Resources with emphasis in Forestry (http://gradstudies.missouri.edu/academics/programs/natural-resources/ms-forestry-emphasis.php) program and the minimum requirements of the Office of Graduate Studies (http://gradstudies.missouri.edu/admissions/eligibility-process/minimum-requirements). Because requirements vary, you must refer to a degree program’s graduate admission page to learn about specific admission criteria, application deadlines, eligibility and application process. Your application materials will be reviewed by both the Office of Graduate Studies and the degree program to which you’ve applied before official admission to the University of Missouri.

Students without a Forestry Undergraduate Degree

Those without a baccalaureate degree in forestry may wish to further their education in forest science or to attain professional competence by completing course work in forestry. Work required of students without a forestry degree who want a professional forestry education includes courses in dendrology, utilization of forest resources, resource measurements, forest inventory, forest fire control and use, forest ecology, silviculture, forest information systems, watershed management, forest management, forest economics, and public resource policy. Some of these courses do not carry graduate credit.
MS in Natural Resources with Emphasis in Human Dimensions of Natural Resources

Application and Admission Information
Dr. Charles Nilon
302 Anheuser-Busch Natural Resources Building; Columbia, MO 65211
nilonc@missouri.edu; 573-882-3738

Emphasis Area Focus
The Human Dimensions of Natural Resources Emphasis Area (HDNR) addresses research and management questions including peoples’ attitudes, knowledge, values, perceptions, and behaviors associated with natural resources. As an interdisciplinary emphasis area, HDNR considers applicants with backgrounds in social sciences, environmental education, natural resources management and conservation, or related disciplines.

The MS is a research-based degree. The student is expected to work closely with a faculty advisor to develop a research topic and a program of study. Students who complete a thesis are expected to publish their findings in peer-reviewed journals. A non-thesis option is also available that requires additional coursework and a research project.

Admission Criteria
- Minimum GPA: 3.0 in last 60 hours
- Minimum TOEFL scores:
<table>
<thead>
<tr>
<th>Internet-based test (iBT)</th>
<th>Paper-based test (PBT)</th>
</tr>
</thead>
<tbody>
<tr>
<td>80</td>
<td>550</td>
</tr>
</tbody>
</table>
- GRE Required

Required Application Materials
To the Graduate School:
- All application materials must be submitted to the Apply Yourself online application system
- Statement of interest
- Résumé or CV
- GRE scores
- TOEFL scores (if applicable)
- A minimum of three letters of recommendation and the accompanying evaluation sheets from people who can attest to the candidate’s scholastic ability and experience relevant to graduate study
- Publications (optional)

Coursework Requirements
All students in the HDNR Emphasis Area will be required to take at least one course from each of three categories:
1. Social science research methods
2. Quantitative and/or qualitative data analysis
3. Social science theory

Each student’s coursework requirements, including the selection of specific courses in the above categories, will be listed in the student’s plan of study and approved by their graduate committee.

Thesis Option
Students in the thesis option will complete 30 credit hours of coursework with no more than 12 credits for thesis research. Students choosing the thesis option will prepare a written research proposal and make an oral defense of that proposal within 12 months of their initial enrollment in the program. Students in the thesis option will write a thesis based on their research and participate in a public oral defense of their thesis announced at least two weeks prior to the defense date.

Non-Thesis Option
Students in the non-thesis option will complete 36 credit hours of coursework with no more than 12 credits for project research. Students choosing the non-thesis option will be required to write a project plan and to make an oral defense of that plan within the first year following their initial enrollment in the program. Students choosing the non-thesis option will write a technical report based on their project and participate in a public oral defense of their report to be announced at least two weeks prior to the defense.

MS in Natural Resources with Emphasis in Parks, Recreation and Tourism

About the Emphasis
Since virtually everyone participates in some form of leisure, the primary benefit of Parks, Recreation and Tourism (PRT) is to address quality of life issues. The unique interaction of people, places, and activities establish our profession as one of the world’s largest industries. Students learn how to manage leisure service delivery systems by combining theory with practice. This degree is designed to prepare students for advanced positions in the parks, recreation, tourism and sport profession or admission into doctoral programs.

Degree Requirements
The program consists of a minimum of 30 credits for the thesis option and 39 credits for the non-thesis option. For a full explanation of the thesis/non-thesis options, see section below on Thesis/Non-Thesis Requirements (p. 90).

Students are required to take four 8000 level courses in the PRT curriculum: all students must take P_R_TR 8400 Constructs of Leisure and P_R_TR 8430 Research Methods in Parks, Recreation and Tourism; students then choose two courses from P_R_TR 8436 Visitor Behavior and Policy, P_R_TR 8450 Administration in Leisure Service Delivery, P_R_TR 8460 Financial Operations in Leisure Service Delivery, P_R_TR 8080 Foundations of Sport, and P_R_TR 8088 Sport and Leisure Economics.

All students must take a graduate level analysis course (i.e., statistics, qualitative analysis, or mixed analysis).

Sample Plan of Study
Because students in the M.S. program are from a wide variety of circumstances, and pursue the M.S. at all different paces, a sample plan
of study is not easily produced. Students work closely with their advisor to select appropriate coursework.

**Thesis/Non-Thesis Requirements**

The program offers students two options:

1. **Thesis Option**

   The thesis option is most appropriate for M.S. candidates who aspire to pursue doctoral education in the future, desire distinct research training and experience, and/or desire research or technical writing experience. Students who complete a thesis are encouraged to publish their findings in peer-reviewed journals.

   **Credit Hour Requirements:** The thesis option requires a minimum of 30 credit hours, which includes: a minimum of 15 hours at the 8000/9000 level; a minimum of 12 hours of 8000 level theory-based contact courses within the PRT curriculum; a graduate level analysis course; minimum 3 credits thesis research; and up to a maximum of 12 credits of independent study (Thesis Research, Guided Readings, Problems, or Independent Work).

   **Thesis Research Boundaries:** The thesis endeavor engages content of a solid academic/theoretical need that adds to or extends the knowledge base. It typically requires the student to display original scholarship or application of an existing theory to solve a specific problem. The rigor of the thesis challenges the student to address and engage the scientific process, which includes an evaluative component of peer and academic review.

   **Thesis Committee:** The thesis committee consists of a minimum of three graduate faculty members: two within the PRT department, and one outside the department. Emeritus and/or adjunct faculty members are eligible to serve on student committees, provided they have graduate faculty status.

   **Procedures:** The student develops the thesis proposal with primary guidance of the committee chair. The proposal is defended in a scheduled open forum followed by committee approval or disapproval. Following approval, the student conducts the research and completes the thesis paper. The student then defends the completed thesis in a scheduled open forum, followed by committee action to pass or fail the thesis defense. Students must submit the M-1 form by the end of their second semester. The M-3 form should be submitted shortly after the thesis defense.

2. **Non-Thesis (Project) Option**

   A non-thesis option is also available that requires additional coursework and a research project. The non-thesis option is most appropriate for M.S. candidates who view the Master’s Degree as the terminal degree, aspire for practitioner work within the profession, and/or desire additional course work to balance their program of study.

   **Credit Hour Requirements:** The non-thesis option requires a minimum of 39 credit hours, which includes: a minimum of 15 hours at the 8000/9000 level; a minimum of 12 hours of 8000 level theory-based contact courses within the PRT curriculum; a graduate level analysis course; 3-6 credits of P_R_TR 8090 Thesis Research in Parks, Recreation and Tourism (Research Project); and up to a maximum of 12 credits of independent study (Thesis Research, Guided Readings, Problems, or Independent Work).

   **Non-Thesis Boundaries:** The non-thesis option engages content of an academic/professional practice need that addresses issues or problems. It requires the student to display independent scholarship in the definition, review and analysis of a problem or issue under study. The rigor of the project challenges the student to engage content to professional standards, which include the evaluative component of peer and professional review.

   **Project Committee:** The project committee consists of a minimum of three graduate faculty members (one maybe be from outside the PRT department, but not a requirement). Emeritus and/or adjunct faculty members are eligible to serve on student committees, provided they have graduate faculty status.

   **Procedures:** The student develops the project proposal with primary guidance of the committee chair. The committee chair approves the proposal. Following approval, the student completes the project. The student then defends the completed project in a scheduled open forum, followed by committee action to pass or fail the project defense. Students must submit the M-1 form by the end of their second semester. The M-3 form should be submitted shortly after the project defense.

**Admissions**

**Admission Contact Information**

Dr. Sonja A. Wilhelm Stanis  
Department of Parks, Recreation and Tourism (http://snr.missouri.edu/prt)  
105 Anheuser-Busch Natural Resources Building; Columbia, MO 65211  
sonjaws@missouri.edu; 573-882-9524

Applicants are required to meet two sets of minimum qualifications for admission: the requirements of the MS in Natural Resources with emphasis in Parks, Recreation and Tourism (http://gradstudies.missouri.edu/academics/programs/natural-resources/ms-parks-rec-tourism-emphasis.php) program and the minimum requirements of the Office of Graduate Studies (http://gradstudies.missouri.edu/admissions/eligibility-process/minimum-requirements). Because requirements vary, you must refer to a degree program’s graduate admission page to learn about specific admission criteria, application deadlines, eligibility and application process. Your application materials will be reviewed by both the Office of Graduate Studies and the degree program to which you’ve applied before official admission to the University of Missouri.

**Financial Aid from the Program**

Funding is available, but assistantships are highly competitive. Prospective students must complete all the necessary application requirements to be considered for departmental funding. Contact the graduate program emphasis coordinator for more details. Applicants should also contact the faculty they want to work with to determine the availability of possible graduate assistantship positions.

**MS in Natural Resources with Emphasis in Soil, Environmental and Atmospheric Sciences**

**Degree Requirements**

The degree program with emphasis in SEAS must include:

- 30 hours of graduate credit, with at least 15 hours comprised of 8000- or 9000-level courses.
Not more than 12 hours of the minimum 30 hours are permitted for research, problems, special investigations and special readings.

A minimum of one credit hour of graduate seminar must be included in each student's graduate program.

All students enrolled in graduate programs are required to participate in a supervised teaching activity.

All students are required to attend a workshop on ethics and professionalism.

Students must maintain a GPA of 3.0 (A=4.0) in all course work presented for the degree.

For an atmospheric science focus area, appropriate atmospheric science courses must be selected and approved in consultation with the student's advisor and graduate thesis committee.

For a soil science focus area, at least 12 credit hours of soil science courses at the 7000, 8000, and 9000 levels, exclusive of problems and thesis research, must be included in the student's graduate program.

For an environmental science focus area, at least six credit hours of environmental science courses at the 7000, 8000, and 9000 levels, exclusive of problems and thesis research, must be included in the student's graduate program. To meet the six credit hour requirement, courses must be selected from the following list of approved environmental science courses:

Total Credits 47

To complete the environmental science focus area, an additional six credit hours must be selected from courses listed above or from the following departments: biochemistry, biological engineering, biological sciences, chemical engineering, chemistry, civil and environmental engineering, fisheries and wildlife sciences, forestry, geography, geological sciences, and natural resources. Selection of these courses will be determined in consultation with faculty members serving on a student's thesis committee.

**Integrated B.S./M.S. Program**

Undergraduate students enrolled in the Department of Soil, Environmental and Atmospheric Sciences (SEAS) are eligible to apply for the integrated degree program in soil, environmental and atmospheric sciences that will enable outstanding undergraduates to obtain a B.S. and a M.S. (thesis required) after the successful completion of both degree requirements in five years. The program provides a challenging curriculum that will include opportunities and training in undergraduate and graduate-level research and prepare the student for a successful professional career. Increasingly, employers in competitive technical fields are looking for highly-motivated students with graduate training to meet the demands for their work force and this program will provide talented students with a unique and expedited pathway to develop their educational background and professional skills.

**Overview**

Undergraduate students in SEAS interested in the integrated B.S./M.S. program will be encouraged to participate in an undergraduate research experience during the summer of their sophomore year. They will apply and then be selected to enter the integrated B.S./M.S. program during the second semester of their junior year. Selected students will need to meet admission requirements for the Graduate School. Once selected the students will initiate work on their research during the summer of their junior year. During their senior year they will complete their undergraduate credits and can take up to 12 graduate-level credits (courses with numbering 7000 or higher) under MU’s dual enrollment program. After completing the B.S. degree, students will continue their research and take the remaining coursework on their M.S. plan of study necessary to meet the 30 credit hour minimum required by the Graduate School for the M.S. degree. Several scholarships are currently available at the University of Missouri to assist outstanding students for the costs of their undergraduate and graduate education and for conducting undergraduate research, including the Honors College Discovery Fellowships Program and CAFNR and Life Sciences Undergraduate Research Fellowships.

**Thesis/Non-Thesis Requirements**

**Thesis**

A thesis, which is a research report of original research on a specialized soil, environmental or atmospheric science problem conducted by the student, must be presented to the student's graduate committee and successfully defended.

**Non-Thesis Option**

Under special circumstances, a non-thesis program in the soil science, environmental science or atmospheric science focus area may be approved by the student’s advisory committee, the SEAS Emphasis Area Coordinator and the Director of Graduate Studies. Not more than 6 hours of the minimum 30 hours are permitted for non-thesis research, problems, special investigations and special readings. At least 15 hours of the minimum 30 hours must be 8000- or 9000-level courses. A minimum of one credit hour of graduate seminar must be included in each student’s graduate program. The student is required to participate in a supervised teaching activity and attend a workshop on ethics and professionalism. A student in the non-thesis option must form a graduate advisory committee and have that committee approve of the student taking the non-thesis option, the proposed course plan, and a project for the student to complete to meet the requirements of the non-thesis option. The student will complete a written report for the project which must be approved by the student’s advisory committee.

**Admissions**

**Admission Contact Information**

Dr. Stephen Anderson, emphasis area coordinator (andersons@missouri.edu)
Department of Soil, Environmental and Atmospheric Sciences  
University of Missouri  
302 Anheuser-Busch Natural Resources Building  
Columbia, MO 65211 USA  
573-882-6303

Applicants are required to meet two sets of minimum qualifications for admission: the requirements of the MS in Natural Resources with emphasis in Soil, Environmental and Atmospheric Sciences (http://gradstudies.missouri.edu/academics/programs/natural-resources/ms-seas-emphasis.php) and the minimum requirements of the Office of Graduate Studies (http://gradstudies.missouri.edu/admissions/eligibility-process/minimum-requirements). Because requirements vary, you must refer to a degree program's graduate admission page to learn about specific admission criteria, application deadlines, eligibility and application process. Your application materials will be reviewed by both the Office of Graduate Studies and the degree program to which you’ve applied before official admission to the University of Missouri.

**Recommended Preparation**

Appropriate undergraduate majors in preparation for graduate studies in the soil, environmental and atmospheric sciences emphasis area include: agronomy, atmospheric science, biochemistry, biology, biogeochemistry, botany, chemistry, earth science, civil and environmental engineering, environmental science, forestry, geosciences, hydrology, mathematics, microbiology, physics, soil science, and watershed management. Check with the Emphasis Area Coordinator for specific recommendations for preparation for each graduate focus area.

**Completion of a BS Degree**

Undergraduate GPA of 3.0 for the last 60 hours of coursework

- **Atmospheric science focus area applicants**: undergraduate program should include integral calculus and one year of college physics.
- **Environmental science focus area applicants**: undergraduate program should include general and organic chemistry, introductory biology, calculus, geology, physics, and ecology.
- **Soil science focus area applicants**: completed courses in general and organic chemistry, calculus, geology and physics. Inadequacies in courses must be remedied through additional course work immediately after admission.

**Financial Aid from the Program**

Check the program website (http://www.snr.missouri.edu/seas/academics/graduate-program.php) or contact the program for details on scholarships or graduate assistantships that may be available.

**Admission Procedures for the Integrated BS/MS**

Students seeking admission into the program should submit an application to the SEAS Emphasis Area Coordinator at the beginning (i.e., January 30th) of the Spring semester of their junior year. A faculty committee will consider several criteria for admission into the Integrated B.S./M.S. Program including:

1. the student's undergraduate GPA (60 or more credits; minimum GPA of 3.5 at the time of enrollment)
2. a formal statement of interest indicating the intended emphasis area (i.e., soil science, environmental science or atmospheric science)
3. three letters of recommendation with one letter being a formal nomination letter from a SEAS Department faculty member

A student who meets the eligibility requirements will be extended an offer of admission by the middle of the Spring semester. All students must select a faculty mentor/advisor after admission to the program. A faculty advisory committee will be selected for each student and they will meet during the semester to approve a course of study and assist the student in designing and conducting their research program. Students will prepare a research proposal to be reviewed and accepted by their advisory committee. After approval of the research proposal, students will initiate their research during the summer of their junior year. Formal application of the student into the Graduate School will take place during the final semester of the student’s senior year and is contingent on the student’s successful completion of B.S. degree requirements and meeting eligibility requirements for the graduate program. Students will be required to maintain a cumulative 3.0 GPA during the program, write an M.S. thesis and meet other M.S. degree requirements.

**MS in Natural Resources with Emphasis in Water Resources**

The Water Resources emphasis area is an interdisciplinary graduate degree program encompassing all fields of natural sciences and, through collaboration, involves expertise from throughout the University of Missouri (MU). The geographic location of MU allows directed research to better understand water movement, biogeochemical cycling, biological and ecohydrological processes of flowing and impounded waters in forested, prairie, agricultural and urban landscapes of the midcontinent.

The Water Resources graduate emphasis area offers an M.S. degree program specializing in the occurrence, circulation, distribution, chemical and physical properties, and environmental interaction of atmospheric, surface and subsurface waters. Specific areas of investigation often include (but are not limited to) precipitation floods and drought regimes, lakes and reservoirs, groundwater, water use, water quality, water contamination, plant water use, environmental measurement methods, hydrologic modeling and International water resources.
Participating faculty in the Water Resources emphasis area are engaged in both scientific understanding of water resources (physical, chemical and biological) and its management, and the decision-making processes used to address competing societal values (social, economic and legal). The program has no geographic boundaries but benefits from a distinct midcontinent climate, and physiography. Multi-use watersheds (e.g. forest, agriculture, urban), streams, lakes, rivers, wetlands and subsurface waters are ideal areas for basic and applied research that is easily transferable to other regions. The program provides Global impact by graduating highly qualified internationally aware water resource professionals.

Water Resources program applicants must meet the program requirements of the University of Missouri Graduate School for MS programs and meet any additional application criteria of the Water Resources graduate emphasis area. Water Resources graduate students are often supported by grant-funded research assistantships, scholarships or fellowships, teaching assistantships, or are self-funded. Other opportunities may be available to eligible students.

Upon successful completion of the School of Natural Resources Water Resources graduate program, students will possess strong technical skills in water resources and related sub-disciplines. Graduates will have developed a holistic understanding of the hydrologic cycle related to ecosystem processes and the interdisciplinary background necessary to understand and address contemporary water resources problems.

## Degree Requirements

- 30 hours of course work must be completed
- 15 hours or more shall be 8000 level.
- Not more than 40 percent of the 30 hour credit requirement can be satisfied by a combination of special investigations, Research, Readings and/or Problems courses.
- The GPA of all course work submitted for the degree must be 3.0 or better.
- M.S. Students are required to publish at least one article in the primary literature stemming from their master’s thesis. In most cases, the article should be submitted to a peer reviewed journal prior to graduation.

### Must take at least 6 credit hours from the following:

Thesis Requirements

A thesis shall be completed before the final examination. Research credits toward a thesis normally shall not exceed eight hours. A final oral examination is provided by all candidates before completion of the degree.

Every candidate should review the “Guidelines for Preparing Theses and Dissertations” from the Graduate School and should consult the Water Resources Director of Graduate Studies for academic program style requirements.

Thesis defense seminar

All students must present a defense seminar in advance of his/her final examination. The seminar must be publicized and the Director of Graduate Studies needs to be informed of the date as soon as the student arranges it, at least two weeks before the seminar. If the seminar is not appropriately announced, it may be considered invalid.

Admissions

Admission Contact Information

School of Natural Resources
Water Resources Emphasis Area
203-Q Anheuser-Busch Natural Resources Building
573-884-7732

Director of Graduate Studies:

Dr. Jason A. Hubbart
203-Q ABNR Building
573-884-7732
HubbartJ@missouri.edu

Applicants are required to meet two sets of minimum qualifications for admission: the requirements of the MS in Natural Resources with emphasis in Water Resources (http://gradstudies.missouri.edu/academics/programs/natural-resources/ms-water-resources-emphasis.php) program and the minimum requirements of the Office of Graduate Studies (http://gradstudies.missouri.edu/academics/programs/natural-resources/ms-water-resources-emphasis.php). Because requirements vary, you must refer to a degree program's graduate admission page to learn about specific admission criteria, application deadlines, eligibility and application process. Your application materials will be reviewed by both the Office of Graduate Studies and the degree program to which you’ve applied before official admission to the University of Missouri.

PhD in Natural Resources

The PhD in Natural Resources has emphasis areas in Fisheries & Wildlife Sciences (p. 94), Forestry (p. 95), Human Dimensions of Natural Resources (p. 96), Soil, Environmental & Atmospheric Sciences (p. 97), and Water Resources (p. 97). Please see the individual emphasis area pages for degree requirements and admissions information.
PhD Degree Completion Requirements

The PhD degree is conferred only upon those students who, after extensive study, have demonstrated a high level of achievement in their particular specialization in fisheries and wildlife and have completed independent research contributing to knowledge in the field.

Doctoral Committee

A student pursuing a PhD is expected to pass qualifying, comprehensive, and final examinations administered by the student's doctoral committee. The committee shall be composed of a minimum of 4 members of the MU graduate faculty and will include at least 3 members from the student's doctoral degree program and 1 outside member from a different MU program. At least 2 of the committee members must be MU doctoral faculty.

Qualifying Examination

The qualifying examination includes a general knowledge examination and is designed to evaluate the student's background and determine areas that require further course work.

Plan of Study

The doctoral plan of study requires a minimum of 72 hours of graduate credit from courses taken at MU, transfer credits, and research hours. This program must include at least 15 hours of 8000- and 9000-level course work exclusive of problems, readings, and research credits. Up to 30 hours from an accredited master's program may be applied to the plan of study, subject to committee approval.

Residency Requirement

Students enrolled in the PhD program must also satisfy a residency requirement of at least 3 consecutive semesters in which the student is in residence on the MU campus and enrolled for 6 or more credit hours, unless a prior exception is approved by the director of graduate studies.

PhD in Natural Resources with Emphasis in Forestry

Admission Contact Information
Dr. Stephen G. Pallardy

Columbia, MO 65211
pallardys@missouri.edu

Doctoral Committee in Forestry

The student pursuing the doctoral program is expected to pass qualifying, comprehensive and final examinations administered by the student's doctoral committee. This committee is structured as defined by the MU Graduate School and must have a minimum of 4 members, at least 3 members must be from the student's doctoral degree program and 1 outside member from a different MU program. The Forestry Department strongly recommends a 5-person committee for Ph.D. students. At least 2 of the committee members must be MU doctoral faculty.

Doctoral Qualifying Examination

The qualifying examination determines whether the student's background is adequate to enter the PhD program. It also is intended to ascertain if there are areas of weakness in which a candidate will be required to gain
background through appropriate course work or areas that prohibit entry into the program.

Doctoral Comprehensive Examination
The objectives of the comprehensive examination are twofold:
1. to determine if a student has acquired sufficient depth and breadth of knowledge in selected areas of concentration
2. to evaluate the candidate’s capacity to apply that knowledge in solving applied or theoretical problems.

Final Examination
The final examination is directed primarily toward exploration of the dissertation research project.

Foreign Language Requirements
Requirements for foreign language and a collateral field, if any, are determined by the student’s doctoral committee. The doctoral committee is expected to make an assessment of the student’s needs as they relate to the student’s background and educational objectives.

Dissertation
An independent scholarly dissertation approved by the student’s advisor and doctoral committee must be completed.

Graduation Requirements
The PhD degree is conferred only upon those students who, after extensive study, have demonstrated a high level of achievement in their particular specialization in forestry and have completed significant independent research in their field.

PhD in Natural Resources with Emphasis in Human Dimensions of Natural Resources

Application and Admission Information
Dr. Charles Nilon
302 Anheuser-Busch Natural Resources Building; Columbia, MO 65211
nilonc@missouri.edu; 573-882-3738

Emphasis Area Focus
The Human Dimensions of Natural Resources Emphasis Area (HDNR) addresses research and management questions including peoples’ attitudes, knowledge, values, perceptions, and behaviors associated with natural resources. As an interdisciplinary emphasis area, HDNR considers applicants with backgrounds in social sciences, environmental education, natural resources management and conservation, or related disciplines.

The Ph.D. degree in HDNR is designed to prepare students for careers in academic research and teaching, or advanced scientific professions. The Ph.D. degree is conferred upon students who have demonstrated a high level of achievement in their particular specialization and have completed independent research contributing to knowledge in their respective field.

Admission Criteria
- Minimum GPA: 3.0 in last 60 hours
- Minimum TOEFL scores:

<table>
<thead>
<tr>
<th>Internet-based test (IBT)</th>
<th>Paper-based test (PBT)</th>
</tr>
</thead>
<tbody>
<tr>
<td>80</td>
<td>550</td>
</tr>
</tbody>
</table>

• GRE Required
• Students are expected to have completed a Master’s or equivalent degree at the time they start their doctoral program

Required Application Materials
To the Graduate School:
- All application materials must be submitted to the Apply Yourself online application system
- Statement of interest
- Résumé or CV
- GRE scores
- TOEFL scores (if applicable)
- A minimum of three letters of recommendation and the accompanying evaluation sheets from people who can attest to the candidate’s scholastic ability and experience relevant to graduate study
- Publications (optional)

Coursework Requirements
All students in the HDNR Emphasis Area will be required to take at least one course from each of three categories:
1. Social science research methods
2. Quantitative and/or qualitative data analysis
3. Social science theory

Each student’s coursework requirements, including the selection of specific courses in the above categories, will be listed in the student’s plan of study and approved by their graduate committee.

Doctoral Degree Requirements
The HDNR doctoral program of study requires a minimum of 72 hours of graduate credit from courses taken at MU, transfer credit from a Masters or equivalent degree, and research hours. Doctoral students will be expected to follow a timeline toward completion of their degree:

1. Within one year of initial enrollment in the emphasis area, doctoral students must pass a qualifying examination. The qualifying exam will include a presentation by the student of his/her course of study. The course of study shall be approved by the student’s graduate committee. The graduate committee may also request a demonstration of the student’s research aptitude, competencies in subject matter, and communication skills.
2. Within three years of initial enrollment in the emphasis area, doctoral students must present a written proposal of their research and an oral defense of that proposal to be reviewed and approved by members of the students’ doctoral committee.
3. Within three years of initial enrollment in the emphasis area, doctoral students must pass a comprehensive examination. The PhD comprehensive exam will be a written examination with questions from each of the graduate committee members followed by an oral examination. The format of each set of questions will be determined by the graduate committee members. The oral portion of the comprehensive examination may be combined with the research proposal oral defense.
4. Doctoral students will submit a written dissertation following the guidelines specified by the Graduate School. All doctoral students
must present a public oral defense of their dissertation announced at least two weeks prior to the defense date.

### PhD in Natural Resources with Emphasis in Soil, Environmental and Atmospheric Sciences

#### Degree Requirements
- The curriculum is developed by a doctoral program committee and requires a minimum of 72 semester hours beyond the baccalaureate degree.
- At least 15 hours of course work in the degree program must be at the 8000 and 9000 levels, exclusive of research, problems and independent study experiences.
- A minimum of two credit hours of graduate seminar must be included in each student’s graduate program.
- At least 12 credit hours of soil science courses at the 7000, 8000, and 9000 levels, exclusive of problems and thesis research, must be included in the student’s graduate program in the soil science focus area.
- All students are required to attend a workshop on ethics and professionalism.
- All students enrolled in graduate programs are required to participate in a supervised teaching activity.

#### Qualifying Process
The student should take the qualifying examination soon after admission into the PhD program and submit an approved plan of study to the Office of Graduate Studies. It is departmental policy that a student is only allowed one opportunity to pass the qualifying exam.

#### Comprehensive Examination Process
After successfully completing the required course work with a GPA of 3.0 (A=4.0) or better, students must pass a written and oral comprehensive examination administered by their doctoral program committee.

#### Dissertation Requirements
A dissertation, which is a comprehensive report of original research on a specialized soil or atmospheric science problem conducted by the student, must be presented to the student’s graduate committee and successfully defended.

#### Admissions

##### Admission Contact Information
Dr. Stephen Anderson, Emphasis Area Coordinator
andersons@missouri.edu
302 Anheuser-Busch Natural Resources Building
Columbia, MO 65211 USA
573-882-6303

Applicants are required to meet two sets of minimum qualifications for admission: the requirements of the PhD in Natural Resources with emphasis in Soil, Environmental and Atmospheric Sciences (http://gradstudies.missouri.edu/academics/programs/natural-resources/phd-seas-emphasis.php) and the minimum requirements of the Office of Graduate Studies (http://gradstudies.missouri.edu/admissions/eligibility-process/minimum-requirements). Because requirements vary, you must refer to a degree program’s graduate admission page to learn about specific admission criteria, application deadlines, eligibility and application process. Your application materials will be reviewed by both the Office of Graduate Studies and the degree program to which you’ve applied before official admission to the University of Missouri.

### Financial Aid from the Program
Check the program website (http://www.snr.missouri.edu/seas/academics/graduate-program.php) or contact the the program for details on scholarships or graduate assistantships that may be available.

#### PhD in Natural Resources with Emphasis in Water Resources
The Water Resources emphasis area is an interdisciplinary graduate degree program encompassing all fields of natural sciences and, through collaboration, involves expertise from throughout the University of Missouri (MU). The geographic location of MU allows directed research to better understand water movement, biogeochemical cycling, biological and ecohydrological processes of flowing and impounded waters in forested, prairie, agricultural and urban landscapes of the midcontinent.

The Water Resources graduate emphasis area offers a Ph.D. degree program specializing in the occurrence, circulation, distribution, chemical and physical properties, and environmental interaction of atmospheric, surface and subsurface waters. Specific areas of investigation often include (but are not limited to) precipitation floods and drought regimes, lakes and reservoirs, groundwater, water use, water quality, water contamination, plant water use, environmental measurement methods, hydrologic modeling and International water resources.

Participating faculty in the Water Resources emphasis area are engaged in both scientific understanding of water resources (physical, chemical and biological) and its management, and the decision-making processes used to address competing societal values (social, economic and legal). The program has no geographic boundaries but benefits from a distinct midcontinent climate, and physiography. Multi-use watersheds (e.g. forest, agriculture, urban), streams, lakes, rivers, wetlands and subsurface waters are ideal areas for basic and applied research that is easily transferable to other regions. The program provides Global impact by graduating highly qualified internationally aware water resource professionals.

Water Resources program applicants must meet the program requirements of the University of Missouri Graduate School for Ph.D. programs and meet any additional application criteria of the Water Resources graduate emphasis area. Water Resources graduate students are often supported by grant-funded research assistantships, scholarships or fellowships, teaching assistantships, or are self-funded. Other opportunities may be available to eligible students.

Upon successful completion of the School of Natural Resources Water Resources graduate program, students will possess strong technical skills in water resources and related sub-disciplines. Graduates will have developed a holistic understanding of the hydrologic cycle related to ecosystem processes and the interdisciplinary background necessary to understand and address contemporary water resources problems.
Degree Requirements

- A minimum of 72 hrs beyond the Baccalaureate degree for the Ph.D.
- A maximum of 30 hours of post baccalaureate graduate credit from an accredited university can be transferred toward the Ph.D. degree program.
- The program must include a minimum of 15 hours of 8000 level course work, exclusive of problems, readings and research.
- Ph.D. students are required to publish at least three articles in the primary literature stemming from their dissertation; at least one prior to graduation (requirements may vary by advisor).
- Ph.D. students are required to present their research at two or more professional conferences during matriculation.

Must take at least 9 credit hours from the following:

**Aquatic Ecosystem Science**
- F_W 8460 Wetland Ecology 3
- F_W 8520 Stream Ecology 3
- F_W 7400 Techniques for Fisheries Management and Conservation 3
- F_W 7100 Limnology 3
- F_W 8450 Advanced Limnology 3
- F_W 8550 Advanced Waterfowl Ecology 3

- GEOL 8400 Ancient Greenhouse Climate 3
- GEOL 8550 Stable Isotope Geochemistry 3
- PLNT_S 7720 Aquatic Entomology 3

**Qualifying Process**

The qualifying examination determines whether the student’s background is adequate to enter the Ph.D. program, as a candidate. It also is intended to ascertain if there are areas of weakness in which a candidate will be required to gain background through appropriate course work.

Therefore, it is advisable that the student work with their advisor to select a committee and complete the qualifying exam within the first 2 semesters of matriculation.

**Comprehensive Examination Process**

The comprehensive examination is taken following the completion of most if not all, the course work requirements established by the graduate committee.

The objectives of the comprehensive examination are twofold:

1. To determine if a student has acquired sufficient depth and breadth of knowledge in selected areas of concentration; and
2. to evaluate the candidate’s capacity to apply that knowledge in solving applied or theoretical problems.
Dissertation Requirements

Every candidate should review the Dissertation & Thesis Guidelines (http://gradschool.missouri.edu/academics/thesis-dissertation/diss-thesis-guideline) from the Graduate School and should consult the Director of Graduate Studies for academic program style requirements.

Dissertation Defense Seminar

The DGS must be informed of the dissertation defense seminar at least two weeks in advance of the seminar. It must be well advertised and open to the public.

Ph.D. Committee Meeting Minimum Requirements

Ph.D. Students must meet with their committee at least three times during their degree seeking program.

• First Meeting: Present a written research proposal, provide a proposal presentation to the committee and present the D1 and D2 for approval and signing.
• Second Meeting: Comprehensive exam committee meeting.
• Third Meeting: Often following public dissertation defense. Defend dissertation, present D3 and D4 for approval and signing.

Admissions

Admission Contact Information

School of Natural Resources
Water Resources Emphasis Area
203-Q Anheuser-Busch Natural Resources Building
573-884-7732

Director of Graduate Studies:

Dr. Jason A. Hubbart
203-Q ABNR Building
573-884-7732
HubbartJ@missouri.edu

Applicants are required to meet two sets of minimum qualifications for admission: the requirements of the PhD in Natural Resources with emphasis in Water Resources (http://gradstudies.missouri.edu/academics/programs/natural-resources/phd-water-resources-emphasis.php) program and the minimum requirements of the Office of Graduate Studies (http://gradstudies.missouri.edu/admissions/eligibility-process/minimum-requirements). Because requirements vary, you must refer to a degree program’s graduate admission page to learn about specific admission criteria, application deadlines, eligibility and application process. Your application materials will be reviewed by both the Office of Graduate Studies and the degree program to which you’ve applied before official admission to the University of Missouri.
The Department of Parks, Recreation and Tourism is among the oldest nationally accredited programs in the United States. Emphasis areas include: leisure service management (Recreation, Youth Development and Fitness), natural resource recreation management, tourism development, and sport management. The department integrates classroom learning with applied research and internship experiences and is a leader in technology infusion.

All students are required to complete an internship placement, normally taken during the last year of study and after completing all core courses. The semester-long internship is with an on or off-campus agency or organization chosen by the student and faculty. Regional, national and international internship placements are possible. Students may receive direct financial assistance from the agency or organization during the internship. Internships outside the state of Missouri require a 2.5 GPA.

The department offers BS in Parks, Recreation and Tourism and MS in Natural Resources.

Admission

It is possible for students who have a broad, liberal education to transfer into the department without a significant time penalty toward graduation. CLEP credits are accepted and evaluated on an individual basis. Minimum GPA of 2.5 required.

Faculty

Associate Professor G. L. Hitzhusen*, J. M. Morgan*
Assistant Professor S. A. Wilhelm-Stanis**
Associate Teaching Professor D. R. Vaught*
Assistant Teaching Professor K. J. Lee*, J. R. Upah*, N. M. Watanabe*, G. Yan*
Adjunct Professor D. Eiken*
Instructor T. Balthazor*
Director of Internships J. R. Upah*

* Graduate Faculty Member - membership is required to teach graduate-level courses, chair master’s thesis committees, and serve on doctoral examination and dissertation committees.
** Doctoral Faculty Member - membership is required to chair doctoral examination or dissertation committees. Graduate faculty membership is a prerequisite for Doctoral faculty membership.

Undergraduate

- BS in Parks, Recreation and Tourism (p. 100)
  - with emphasis in Leisure Service Management (p. 102)
  - with emphasis in Natural Resource Recreation Management (p. 102)
  - with emphasis in Sport Management (p. 102)
  - with emphasis in Tourism Development (p. 102)

Honors

Students who graduate with the following cumulative GPA values are awarded the baccalaureate degree accordingly:

<table>
<thead>
<tr>
<th>GPA Range</th>
<th>Degree Type</th>
</tr>
</thead>
<tbody>
<tr>
<td>3.50-3.69</td>
<td>cum laude</td>
</tr>
<tr>
<td>3.70-3.89</td>
<td>magna cum laude</td>
</tr>
<tr>
<td>3.90+</td>
<td>summa cum laude</td>
</tr>
</tbody>
</table>

Parks, Recreation and Tourism’s graduate program is housed under the MS in Natural Resources with emphasis in Parks, Recreation and Tourism (p. 89). Please visit their page for more information.

Director of Graduate Studies: Dr. Sonja Wilhelm Stanis

About Parks, Recreation & Tourism

Since virtually everyone participates in some form of leisure, the primary benefit of Parks, Recreation and Tourism (PRT) is to address quality of life issues. The unique interaction of people, places, and activities establish our profession as one of the world’s largest industries. Students learn how to manage service delivery systems by combining theory with practice.

Career Preparation

The purpose of graduate study is to promote research and scholarship as the foundation of professional excellence, thus preparing candidates for management-level positions or admission to doctoral programs.

Undergraduate

BS in Parks, Recreation and Tourism

Major Program Requirements

Satisfactory completion of 120 credits is required: a minimum of 108 credits in course work and a 12-credit internship with a cumulative GPA of 2.0. Professional preparation includes course work in a professional core, professional option requirements and electives, and an internship. Students must also complete all degree, department, college and university graduation requirements, including university general education (p. 20).

Students transferring into Parks, Recreation and Tourism from other MU degree programs or from other institutions must have a 2.5 GPA (past term and cumulative) for all work attempted.

Major core requirements (minimum grade of C- in core)

BS in Parks, Recreation and Tourism with Emphasis in Natural Resource Recreation Management

Major Program Requirements

Students must complete all university, college and degree requirements (p. 100), including university general education (p. 20), in addition to the requirements below:

- P_R_TR 2320: Introduction to Parks and Outdoor Recreation Services (3 credits)
- P_R_TR 3231: Principles of Interpretive Outdoor Recreation (3 credits)
- P_R_TR 4340: Advanced Recreation Land Management (3 credits)

Total Credits: 9

Semester Plan

Refer to the Semester Plan for the BS in Parks, Recreation and Tourism (p. 100).

BS in Parks, Recreation and Tourism with Emphasis in Sport Management

Major Program Requirements

Students must complete all university, college and degree requirements (p. 100), including university general education (p. 20), in addition to the requirements below:

- P_R_TR 2281: The Business of Sport (3 credits)
- P_R_TR 3185: Sports Economics and Finance (3 credits)
- P_R_TR 3282: Governance and Policy in Sport and Leisure (3 credits)
- P_R_TR 4385: Legal Aspects of Sport (3 credits)

Total Credits: 12

Semester Plan

Refer to the Semester Plan for the BS in Parks, Recreation and Tourism (p. 100).

BS in Parks, Recreation and Tourism with Emphasis in Tourism Development

Major Program Requirements

Students must complete all university, college and degree requirements (p. 100), including university general education (p. 20), in addition to the requirements below:

- P_R_TR 2355: Private and Commercial Recreation Principles and Practice (3 credits)
- P_R_TR 4356: Tourism Management (3 credits)

Total Credits: 9

Semester Plan

Refer to the Semester Plan for the BS in Parks, Recreation and Tourism (p. 100).
Semester Plan

Refer to the Semester Plan for the BS in Parks, Recreation and Tourism (p. 100).
Plant Sciences

Division of Plant Sciences
College of Agriculture, Food and Natural Resources
52 Agriculture Laboratory
(573) 882-3001
Fax: (573) 882-2699

Division Director: James English (Interim)

The Division of Plant Sciences was formed on August 1, 2005, through the consolidation of the former departments of Agronomy, Entomology, Horticulture and Plant Microbiology and Pathology. Programs formerly housed in those departments now reside in the division. The Division of Plant Sciences provides leadership for plant, insect and microbe-based research, education and Extension programs in the college.

The division is the sole academic program in the state to address issues related to plant production, plant protection and plant biology from the laboratory to the field. We intend to be at the national and international forefront of disciplinary and interdisciplinary research, Extension and education applied in and based on advances of plant sciences.

Division faculty contribute to advances in conventional, sustainable and alternative production systems, plant biology, genetics and breeding, plant protection and pest management, plant-insect/pathogen interactions, and plant-soil relationships.

Faculty

Endowed Professors H. T. Nguyen**, G. Stacey**

Assistant Professors D. Mendoza-Cozatl**, G. L. Miller**, H. Naumann*

Research Professors K.A. Nelson**

Associate Research Professors Z. Zhang**

Distinguished Research Professor Boyer, J.

Assistant Research Professors A. Bozzolo*, M. Jones*, A. Scaboo**, A. Thomas*

Extension Professors W. E. Stevens*

Associate Extension Professors J. A. Lory*, M. Nathan*, L. E. Sweets*

Assistant Extension Professors B. Fresenburg*, D. Volenberg

Assistant Teaching Professor M. A. Gowdy*

Senior Research Scientist H. M. Appel*

Associate Professor Emeritus R. Munson, B. Puttler

Curators’ Professor Emeritus C. J. Nelson*

Endowed Professor Emeritus J. G. Shannon**

• Graduate Faculty Member - membership is required to teach graduate-level courses, chair master’s thesis committees, and serve on doctoral examination and dissertation committees.

• Doctoral Faculty Member - membership is required to chair doctoral examination or dissertation committees. Graduate faculty membership is a prerequisite for Doctoral faculty membership.

Undergraduate

• BS in Plant Sciences (p. 105)
  • with emphasis in Breeding, Biology and Biotechnology (p. 106)
  • with emphasis in Crop Management (p. 106)
  • with emphasis in Horticultural Science and Design (p. 106)
  • with emphasis in Turfgrass Science (p. 107)

• Minor in Plant Sciences (p. 107)

Director for Undergraduate Programs
Reid J. Smeda
204 Waters
(573) 882-1329
Fax: (573) 882-1467
smedar@missouri.edu

The Plant Sciences undergraduate major is a joint contribution of the disciplines of Agronomy, Entomology, Horticulture and Plant Microbiology and Pathology. From the manipulation of genes to increasing crop productivity to improving the quality of life by enhancing the landscape, plant science students are engaged in the science and art of working with plants. Educational opportunities in plant science range from basic (genetics, biotechnology and physiology) to applied (crop production and protection, landscape design and turfgrass).

The division offers the BS degree with a major in Plant Sciences. Students in plant science initially receive a broad education in agriculture, the basic sciences and business. Later, they elect to enroll in a specific emphasis area designed to empower them to be competitive in career opportunities in that area. The emphasis areas are a series of interwoven courses in:

• Crop Management
• Horticultural Science and Design
• Breeding, Biology and Biotechnology
• Turfgrass Science

Graduate

• MS in Plant, Insect and Microbial Sciences (p. 107)
• PhD in Plant, Insect and Microbial Sciences (p. 109)

Division of Plant Sciences
52 Agriculture Laboratory

573-882-2699
http://plantsci.missouri.edu/graduate

Director of Graduate Studies: James Schoelz
The Division of Plant Sciences offers graduate programs leading to master of science and doctor of philosophy degrees in Plant, Insect and Microbial Sciences. A student can select training from a wide range of courses and research programs to prepare for a career in research, teaching, industry and extension work.

The Division of Plant Sciences maintains excellent graduate programs with classroom instruction and research supervision provided by leading scientists in the field. A student can select training in one of several Graduate Program Areas. Students can follow a traditional curriculum or take advantage of the cross-disciplinary expertise that exists within the Division.

Programmatic Interactions

Students also benefit from interaction with closely allied academic units on and off campus. Students work with scientists in two campus-based USDA research units associated with the division: the Plant Genetics Unit and the Biological Control of Insects Research Laboratory. Additional opportunities exist for interaction with scientists at the Donald Danforth Plant Science Center in St. Louis. Numerous USDA and Danforth Center scientists hold adjunct appointments in the DPS. Students in the DPS are encouraged to interact with interdisciplinary programs on campus such as the Interdisciplinary Plant Group, the Molecular Biology Program, the Genetics Area Program, the Center for Agroforestry and the Missouri Precision Agriculture Center.

Areas of Study

A student can select training from a wide range of courses and research programs to prepare for a career in research, teaching, industry and extension work. Students may complete their graduate degrees through any of the Graduate Program Areas:

- Crop, Soil and Pest Management
- Entomology
- Horticulture
- Plant Breeding, Genetics and Genomics
- Plant Stress Biology

Undergraduate

BS in Plant Sciences

Major Program Requirements

Students earning a Bachelor of Science in Plant Sciences are required to complete all University general education (p. 20), University undergraduate requirements (p. 19), degree, and major requirements, including selected foundational courses, which may fulfill some University general education requirements. Students earning a degree in Plant Sciences must also select one emphasis area.

BS in Plant Sciences with Emphasis in Breeding, Biology and Biotechnology

Emphasis Area Requirements

Manipulation of plants at the cellular and genetic level can lead to improvements in crop performance and resistance to pests, as well as increase plant users. Job opportunities from the laboratory to the field are widespread in seed and chemical industries around the world.

Breeding, Biology and Biotechnology Emphasis Area Requirements

Semester Plan

Refer to the Semester Plan for the BS in Plant Sciences (p. 105).

BS in Plant Sciences with Emphasis in Horticultural Science and Design

Emphasis Area Requirements

Trees, flowers and other ornamental plants add beauty to our landscape, preserve green space, and reduce the negative impacts of climate change. Other plants such as vegetables and fruits enhance human health. Career opportunities exist to design landscapes, improve the value and beauty of homes and businesses, as well as commercially grow horticultural crops in greenhouses and other settings.

PLNT_S 2215  Ornamental Herbaceous Plants 3  
PLNT_S 3250  Green Industry Bidding 1  
Total 34-36

Semester Plan
Refer to the Semester Plan for the BS in Plant Sciences (p. 105).

Minor in Plant Sciences

A minor in Plant Sciences shall consist of a minimum of 15 hours of formal coursework in Plant Sciences (PS) designated courses. Of the 15 hours selected, a minimum of 12 hours must be numbered 2000 or above, of which at least 9 hours must be numbered 3000 or above.

Note: Problems courses, Readings courses, Internship courses and Undergraduate Research courses are not acceptable courses for the Plant Sciences minor, unless approved by the Director for Undergraduate Programs.

Graduate

MS in Plant, Insect and Microbial Sciences

Degree Requirements
To satisfy the course requirements for a master's degree, a student must complete:

- A minimum of 30 credit hours from courses numbered 7000 - 9000
- 15 credit hours (towards the 30 credit hour requirement) must be from courses numbered at the 8000 or 9000 level
- 12 credit hours (towards the 30 credit hour requirement) can be satisfied by research, readings and problems courses
- For the Horticulture Program Area, at least 6 credits must be from formal courses, excluding Problems and other independent study courses and only 6 credit hours of research (PLNT_S 8090) can count towards the 30 credit hour requirement, even though additional hours of research can be taken.

The division-wide course requirements for the master's degree are:

PLNT_S 8010  Professionalism and Ethics 2  
Participation in the student seminar series  
PLNT_S 9087  Seminar in Plant Science 1  
PLNT_S 7087  Seminar (Must enroll twice) 2  
PLNT_S 8090  Thesis Research (1 - 10 credits per semester) 1-10

Teaching Requirement
With the exception of the Entomology Program Area, all students must participate in an approved teaching opportunity or an approved extension program.

Satisfactory Rate of Progress
A student shall maintain a minimum grade point average of 3.0. All divisional course requirements (and any additional requirements set by the student’s examination committee) shall be completed in a timely manner. All advisors will meet annually with each of their graduate advisees. They will discuss the student's performance, any problems that exist and any suggestions for improvement. The advisor will provide the student and the director of graduate studies with a written summary of the meeting as part of the annual program assessment process.

Sample Plan of Study
There are several areas of study within the MS in Plant, Insect and Microbial Sciences degree. A student can select training from a wide range of courses and research programs to prepare for a career in research, teaching, industry and extension work. Note: Areas of Study will not appear on transcripts or diplomas. Each program area emphasizes a customized approach towards the course of study. Each student will work with their advisor and graduate committee to develop a course of study best suited to the student's educational and career goals.

Thesis Requirements

A thesis is required for the M.S. degree in Plant, Insect and Microbial Sciences. The thesis must demonstrate the student’s capacity for research and independent thought. Organization of the thesis is subject to approval of the Master’s Committee.

The Thesis Defense will consist of a research seminar and final examination, the latter to demonstrate the student’s mastery of the academic focus of the chosen Graduate Program Area. It is the student’s responsibility to check the Graduate School’s graduation deadlines when scheduling the exam. The candidate must be enrolled to defend the thesis. The examination cannot be administered when MU is not officially in session.

The seminar will be presented by the student for division faculty, staff, students, committee members, and other interested persons. It must summarize the thesis research conducted by the student during the Master’s program. The seminar will be followed by the final, oral examination administered by the Master’s Committee. Although the general protocol followed during the oral examination shall be at the discretion of the Major Advisor, a typical oral examination lasts about 2 hours and is divided between defense of the thesis and non-thesis subject matter. The research seminar should be scheduled the same day (preferably) or during the week preceding the remainder of the final examination.

Admissions

Admission Contact Information
Ms. Christa Smith
52 Agriculture Lab; Columbia, MO 65211
573-882-3001

Applicants are required to meet two sets of minimum qualifications for admission: the requirements of the MS in Plant, Insect, and Microbial Sciences (http://gradstudies.missouri.edu/academics/programs/plant-
insect-microbial-sciences/masters.php) and the minimum requirements of the Office of Graduate Studies (http://gradstudies.missouri.edu/admissions/eligibility-process/minimum-requirements). Because requirements vary, you must refer to a degree program’s graduate admission page to learn about specific admission criteria, application deadlines, eligibility and application process. Your application materials will be reviewed by both the Office of Graduate Studies and the degree program to which you’ve applied before official admission to the University of Missouri.

**Financial Aid from the Program**

Financial assistance is available to qualified students at both the MS and PhD levels, as either fellowships or research assistantships. Some programs require an extra form or statement from those who wish to be considered for internal assistantships, fellowships or other funding packages. Check the program website (http://plantsci.missouri.edu/graduate) or ask the program contact for details.

**PhD in Plant, Insect and Microbial Sciences**

**Degree Requirements**

To satisfy the course requirements for a doctoral degree, a student must complete:

- A minimum of 72 credit hours from courses numbered 7000-9000 (this includes dissertation research credit hours - i.e. PLNT_S 9090).
- 15 credit hours (towards the 72 hour requirement) must be from courses numbered at the 8000 or 9000 level, exclusive of dissertation research, problems or independent study.
- For the Horticulture Program Area, all Doctoral students will have successfully completed the requirements for a master’s degree before beginning a doctoral program and no more than 30 hours of dissertation research may be counted towards the 72 hr minimum.
- Two semesters of PLNT_S 9087.
- Three semesters of PLNT_S 7087.

**Teaching Requirement**

With the exception of the Entomology Program Area, all students must participate in an approved teaching opportunity or an approved extension program.

**Reasonable Rate of Progress**

A reasonable rate of progress toward the degree is required. A Ph.D. student must successfully complete the comprehensive exam within 5 years of their first semester of enrollment as a Ph.D. student. In addition, the remaining program for the doctoral degree must be completed within 5 more years after passing the Comprehensive Exam.

**Sample Plan of Study**

There are several areas of study within the PhD in Plant, Insect and Microbial Sciences degree. A student can select training from a wide range of courses and research programs to prepare for a career in research, teaching, industry and extension work. Note: Areas of Study will not appear on transcripts or diplomas. Each program area emphasizes a customized approach towards the course of study. Each student will work with their advisor and graduate committee to develop a course of study best suited to the student’s educational and career goals.

**Elective Courses:**

- **PLNT_S 9790** or **PLNT_S 9797**
  - Readings in Molecular Ecology of Herbivory

**Comprehensive Examination Process**

The Comprehensive Examination is a major milestone in the Ph.D. candidate's progress towards completion of the degree requirements. The candidate is expected to clearly demonstrate his/her knowledge and understanding of the principles and concepts of the chosen Graduate Program Area, related biological sciences, and the scientific method. The Comprehensive Exam should be scheduled when the student has essentially completed the required plan of study. The Comprehensive Exam must be completed at least seven months before the final examination (defense). The Comprehensive Exam Committee is the same as the Doctoral Committee.

The Comprehensive Exam requires both written and oral performance by the student to achieve candidacy. The student’s advisor will select either Track I or Track II for the format of the exam. The student arranges the written and oral portion of the Comprehensive Exam with each member of the Committee.

**Dissertation Defense**

A dissertation is required of every Ph.D. Candidate in the Division of Plant Sciences. This is to be a substantial scholarly manuscript of original research conducted by the student. The dissertation should reflect the depth of understanding, independent thought, and original work worthy of a Ph.D.

The Dissertation Defense consists of a research seminar and final examination. It is the student's responsibility to check the Graduate School's graduation deadlines when scheduling the exam. The seminar will be presented by the student for division faculty, staff, students, committee members, and other interested persons. The student may choose to present the seminar as part of the Division Seminar Series. It must summarize the dissertation research conducted by the student during the Doctoral program. The seminar will be followed by the final, oral examination administered by the Doctoral Committee. Although the general protocol followed during the oral examination shall be at the discretion of the Major Advisor, a typical oral examination lasts about 2 hours and is divided between discussion of the dissertation and related, dissertation subject matter. The research seminar should be scheduled the same day (preferably) or during the week preceding the remainder of the final examination.

**Admissions**

Applicants are required to meet two sets of minimum qualifications for admission: the requirements of the PhD in Plant, Insect, and Microbial Sciences ([http://gradstudies.missouri.edu/academics/programs/plant-insect-microbial-sciences/doctorate.php](http://gradstudies.missouri.edu/academics/programs/plant-insect-microbial-sciences/doctorate.php)) and the minimum requirements of the Office of Graduate Studies ([http://gradstudies.missouri.edu/admissions/eligibility-process/minimum-requirements](http://gradstudies.missouri.edu/admissions/eligibility-process/minimum-requirements)). Because requirements vary, you must refer to a degree program's graduate admission page to learn about specific admission criteria, application deadlines, eligibility and application process. Your application materials will be reviewed by both the Office of Graduate Studies and the degree program to which you’ve applied before official admission to the University of Missouri.

**Financial Aid from the Program**

Financial assistance is available to qualified students at both the MS and PhD levels, as either fellowships or research assistantships. Some programs require an extra form or statement from those who wish to be considered for internal assistantships, fellowships or other funding packages. Check the program website ([http://plantsci.missouri.edu/graduate](http://plantsci.missouri.edu/graduate)) or ask the program contact for details.
Rural Sociology

College of Agriculture, Food and Natural Resources
David O'Brien, Chair
109 Gentry Hall
(573) 882-0392
ObrienDJ@missouri.edu
dass.missouri.edu/ruralsoc/

Carol Swaim, Administrative Assistant
121 Gentry Hall
(573) 882-7451
swaimc@missouri.edu

The Department of Rural Sociology participates in the Bachelor of Science in Agriculture degree offered by the College of Agriculture, Food and Natural Resources and offers a minor in rural sociology. For information about the agriculture degree, see the Agriculture degree page. The Department of Rural Sociology also offers graduate degrees.

Faculty

**Associate Professor** J. L. Gilles**
**Assistant Professor** M. Hendrickson**H. Qin*
Teaching Assistant Professor (NTT) C. Brock*
Extension Assistant Professor J. Adams*, S. Jeanetta*, M. S. Leuci*
Research Assistant Professor C. Fulcher*
**Associate Professor Emeritus** K. E. Pigg*
**Professor Emeritus** R. R. Campbell*, M. F. Nolan*

* Graduate Faculty Member - membership is required to teach graduate-level courses, chair master's thesis committees, and serve on doctoral examination and dissertation committees.
** Doctoral Faculty Member - membership is required to chair doctoral examination or dissertation committees. Graduate faculty membership is a prerequisite for Doctoral faculty membership.

Undergraduate

• Minor in Rural Sociology (p. 111)
  Advisor: Mary Grigsby
  Grigsbym@missouri.edu
  Administrative Assistant: Carol Swaim
  Swaimc@missouri.edu
  (573) 882-7451
  http://dass.missouri.edu/ruralsoc/

Graduate

• MS in Rural Sociology (p. 111)
• PhD in Rural Sociology (p. 112)

121 Gentry Hall
573-882-7451
http://dass.missouri.edu/ruralsoc/

Director of Graduate Studies: Jere Gilles

The Department of Rural Sociology offers the MS and PhD degrees. The program consists of broad training in sociological theory and methodology with attention to application and policy issues.

Students entering with a bachelor’s degree normally are admitted into the master’s program even if they are going on to a PhD, exceptional students may be admitted to the Masters/PhD program. Up to 12 hours of makeup work may be required for students who have less than adequate undergraduate preparation in the social sciences.

Specializations

Areas of specialization in the department are: sustainable development, community facilitation, and analytical processes.

Financial Aid from the Program

Request for financial support is made by the student at the time of application. Most of the financial support is for research assistantships. Some programs require an extra form or statement from those who wish to be considered for internal assistantships, fellowships or other funding packages. Check the program website or ask the program contact for details.

Undergraduate

Minor in Rural Sociology

The rural sociology undergraduate minor requires 15 credits in rural sociology courses. Nine credits must be above the 2000 level. The specific combination of courses must be approved by a department advisor.

Graduate

MS in Rural Sociology

Degree Requirements

Professional Master’s Degree

The principal master’s degree in rural sociology is the 39-credit-hour professional master’s degree. The program is designed to prepare students for positions in the public and private sectors, and it is particularly useful for positions that include applied research, policy analysis or community development. Students who wish to complete a master’s degree in rural sociology followed by a doctoral degree in the program also are encouraged to pursue the degree.

The professional master’s degree has two options:

1. The community facilitation option for individuals interested in working for government, extension and non-governmental agencies in the field of community development
2. The analytical processes option for students wishing to do policy analysis for government agencies.

Students must have a grade point average of 3.0 or greater and must have completed at least 15 hours of coursework at or above the 8000 level. Both programs require an internship.

Traditional Master’s Degree

A 30-credit-hour traditional master’s degree, requiring a thesis, is also offered. The degree primarily is intended for those who intend to pursue doctoral studies or who have a special reason for wanting a thesis degree. Although it requires fewer credit hours, a thesis degree normally
requires one semester longer to complete than the professional master's degree.

## Thesis/Non-Thesis Requirements

### Non-Thesis Requirements

The Professional Master of Science degree does not require a thesis. Instead students are required to complete an internship.

### Thesis Requirements

Students pursuing the Traditional Master of Science degree must complete a thesis. The thesis take approximately 1-3 semesters to complete.

## Admissions

Admission Contact: Carol Swaim
Department of Rural Sociology
121 Gentry Hall; Columbia, MO 65211
573-882-7451

Applicants are required to meet two sets of minimum qualifications for admission: the requirements of the MS in Rural Sociology program (http://gradstudies.missouri.edu/academics/programs/rural-sociology/masters.php) and the minimum requirements of the Office of Graduate Studies (http://gradstudies.missouri.edu/admissions/eligibility-process/minimum-requirements). Because requirements vary, you must refer to a degree program’s graduate admission page to learn about specific admission criteria, application deadlines, eligibility and application process. Your application materials will be reviewed by both the Office of Graduate Studies and the degree program to which you’ve applied before official admission to the University of Missouri.

## PhD in Rural Sociology

### Degree Requirements

The PhD is a 72 credit hour minimum with no more than 6 hours of readings or problems courses, and a maximum of 12 dissertation research hours toward the 72 hour requirement. Coursework taken toward a master’s degree in the social sciences may count toward these requirements. A student must complete thirty hours of coursework beyond the master’s degree.

### Areas of Professional Expertise

In addition to the required core, every PhD student will be required to complete an “area” of concentration” comprised of a minimum of 12
when they have:

- five years of beginning the doctoral program. A student is ready to take the comprehensive examination when they have:

Successful completion of a comprehensive examination must occur within five years of beginning the doctoral program. A student is ready to take the comprehensive examination when they have:

- five years of beginning the doctoral program. A student is ready to take the comprehensive examination when they have:

The comprehensive examination consists of both a written and an oral component.

Written Component: The written portion of the comprehensive examination will evaluate competency in theory and methods in the student's specialty area, as well as their readiness to conduct their dissertation research. After the advisory committee indicates that a student has passed the written portion of the comprehensive examination, the oral examination will be given.

Oral Comprehensive: The oral portion of the examination will address issues raised on the written examination and in the student's dissertation plans. This exam is open to faculty and students; the location and time must be publicly announced a minimum of two weeks before the examination takes place. The public part of the examination will be limited to the presentation of the student's research proposal followed by questions about the proposal. Following the public oral examination the student's advisory committee will complete the examination in private.

Sample Plan of Study

- SOCIO 9587  Topical Seminar in Contemporary Sociological Theory

Advanced Methods course (qualitative or quantitative) 3

Area of Professional Expertise 12

Qualifying Process

To qualify for continuation in the Ph.D. program students must complete two full enrollment semesters at the start of their program in which they take core sequence courses and make a B or above in all courses taken. (The qualifying requirement must be met. In some cases waivers may be given within one year of enrollment in the Ph.D. program.)

Comprehensive Examination Process

To be an official candidate for a doctoral degree the student must have passed a comprehensive examination for admission to doctoral study. This is the major examination in the doctoral training program, and must be passed BEFORE FORMAL WORK ON THE DISSERTATION IS BEGUN. It is administered by the Doctoral Program Committee.

Successful completion of a comprehensive examination must occur within five years of beginning the doctoral program. A student is ready to take the comprehensive examination when they have:

- Completed all of the courses listed in his/her Plan of Study with satisfactory grades.
- If they entered the program with a Masters degree that did not require a thesis, they must have written and submitted a paper for review in a scholarly journal. A copy of the paper as well as information as to where it was submitted must be in a student’s file.
- Submitted and received approval from their advisory committee for their dissertation research proposal.

- Submitted an approved copy of the dissertation proposal to be kept in the student’s departmental file until the dissertation is actually completed.

Dissertation Requirements

Successful completion of a dissertation or a research monograph, according to the regulations of the Office of Graduate Studies is required.

- The dissertation must be completed within five years of the completion of the comprehensive examination.
- All members of the committee are expected to take an active part in the preparation of the dissertation.
- The student’s committee is to conduct an oral final examination (“defense”) of the dissertation/monograph.
- This examination cannot be scheduled until the advisory committee members have received a completed draft copy of the dissertation.
- This examination is to be open to faculty and students and must be publicly announced at least two weeks before the exam. Candidates should provide the Rural Sociology Department Office with an announcement including (a) the title of the dissertation, (b) the date and location of the orals, and (c) the advisor’s name.
- Faculty and students may attend orals and question candidates, but cannot be present when the vote on the result of the examination is taken.
- At least four committee members must vote to pass a dissertation in order for the degree to be completed.
- The candidate must be enrolled to defend their dissertation.
- The defense must be scheduled when MU is officially in session.
• The Report of the Dissertation Defense form (D-4) and the Approval Page, which must be signed by all members of the approved committee, should be sent to the Office of Graduate Studies after the defense has been completed and must include an electronic copy as specified by the Office of Graduate Studies.

Admissions

Admission Contact: Carol Swaim
121 Gentry Hall; Columbia, MO 65211
573-882-7451

Applicants are required to meet two sets of minimum qualifications for admission: the requirements of the PhD in Rural Sociology program (http://gradstudies.missouri.edu/academics/programs/rural-sociology/doctorate.php) and the minimum requirements of the Graduate School (http://gradschool.missouri.edu/admissions/eligibility-process/minimum-requirements.php). Because requirements vary, you must refer to a degree program’s graduate admission page to learn about specific admission criteria, application deadlines, eligibility and application process. Before official admission to the University of Missouri, your application materials will be reviewed by both the Graduate School and the degree program to which you’ve applied.
Science and Agricultural Journalism

Sharon Wood-Turley, Program Chair
112 Gentry Hall
(573) 882-7645
Fax: (573) 884-4444
swt@missouri.edu

The College of Agriculture, Food and Natural Resources, in cooperation with the Missouri School of Journalism, offers a degree program in Science and Agricultural Journalism (http://dass.missouri.edu/agj). This curriculum prepares students to communicate about issues related to science and agriculture, including: the food system (including everything from traditional production agriculture to grape and wine production), natural resources, the life sciences, the environment, and medical and agricultural biotechnology.

Graduates are prepared to enter a wide variety of media professions including: public relations, marketing, multimedia/web production, photography, magazine writing, reporting and broadcast.

Students must meet all GPA requirements of the Missouri School of Journalism. Check with your advisor for details. The department offers the Bachelor of Science with a major in Science and Agricultural Journalism.

Faculty
Assistant Teaching Professor W. Allen*, S. Wood-Turley*
Instructor L. Sowers, N. Furstenau

* Graduate Faculty Member - membership is required to teach graduate-level courses, chair master’s thesis committees, and serve on doctoral examination and dissertation committees.

** Doctoral Faculty Member - membership is required to chair doctoral examination or dissertation committees. Graduate faculty membership is a prerequisite for Doctoral faculty membership.

Undergraduate

• BS in Science and Agricultural Journalism (p. 116)

Major Program Requirements and Options in Science and Agricultural Journalism

When you major in science and agricultural journalism (http://dass.missouri.edu/agj), you gain access to the strengths of two nationally renowned programs: the Missouri School of Journalism and the MU College of Agriculture, Food and Natural Resources. Students combine courses in a subject area related to agriculture and the food system with a specialization in a specific medium/communications focus in the School of Journalism.

The Science and Agricultural Journalism Program provides you with five subject matter tracks to select from:
(Note: Tracks do not appear on transcripts or diplomas.)

• Agricultural Marketing
• Agricultural Science
• Conservation and Environmental Sciences
• Food and Wine
• Science

In addition, you can focus on one of the following media emphasis areas in the Journalism School, or select courses from a combination of:

• Convergence Journalism (a combination of media skills)
• Magazine Journalism
• Photojournalism
• Print and Digital News
• Radio-Television Journalism
• Strategic Communications (Advertising and Public Relations)

Agricultural Marketing Track

The Agricultural Marketing Track prepares students for careers in the agribusiness, government and other sectors where the specialized skills of writing, multimedia, marketing and strategic communications are in high demand. This track includes courses within the College of Agriculture, Food and Natural Resources in the Ag Marketing System, Ag Sales, Fundamentals of Entrepreneurship, New Products Marketing, International Food Trade and Policy, Agribusiness Finance and Agribusiness Management Strategy.

Agricultural Science Track

The Agricultural Science Track prepares students for careers in the news media, agricultural industry, government and other sectors where an in-depth knowledge of plant, animal and food science is in high demand along with specialized skills in writing, multimedia and other forms of communication. This track includes courses within the college of Agriculture, Food and Natural Resources in Plant Growth and Culture; Genetics of Ag Plants and Animals; Animal Science; Global Animal Agriculture; Food Science and Nutrition; Meat Classification, Grading and Judging; Elements of Food Microbiology; and Principles of Meat Science.

Conservation and Environmental Sciences Track

The Conservation and Environmental Sciences Track prepares students for careers writing about the environment, energy, conservation and nature. From climate change, endangered species and clean water to wildlife, forestry and outdoor activities - students in this track will gain an understanding of the complex issues on these beats and the complex job of communicating about them. This track includes a specialized course in Field Reporting and can include a trip to the annual national meeting of the Society of Environmental Journalists, a non-advocacy group. Other courses within the College of Agriculture, Food and Natural Resources in this track include Introduction to Environmental Science, Ecology and Renewable Resource Management; Introduction to Meteorology; Climates of the World; Soils and the Environment; Environmental Economics and Policy; and Water Quality and Natural Resources Management.

Food and Wine Track

Interest in food and wine is growing among consumers and the news media industry. Also, dairy, meat and wine are major industries in Missouri. This track prepares students for journalism and strategic communications careers in this increasingly important sector. The Food and Wine Track includes a specialized course in covering food and wine. Other courses within the College of Agriculture, Food and Natural Resources in this track include Introduction to Food Science, Elements of Food Microbiology, Introduction to Viticulture (grape production) and

Science Track

The Science Journalism Track prepares students for careers covering news and information on the frontiers of science - from biotechnology and nanotechnology to astronomy, climate, geology and the human brain. Students in this track will gain an understanding of the scientific, social, political and economic forces that shape the world of science and technology today, a world that increasingly affects the way we live and learn. This track includes such courses as Explaining Research; Earth Systems and Global Change; Introduction to Meteorology; Physics for Poets; Mind, Brain and Behavior; Science, Technology and Society; and Readings in Science Journalism. This track will enable excellent preparation for students in both journalism and strategic communications.

Graduate

While the College of Agriculture, Food and Natural Resources does not offer a graduate degree in science and agricultural journalism, the College does offer graduate degrees and certificates in a number of disciplinary areas. The catalog provides a complete list of these degree options (p. 5) at the University of Missouri, including the School of Journalism (p. 627).

Undergraduate

BS in Science and Agricultural Journalism

Major Program Requirements

Students earning a Bachelor of Science in Science and Agricultural Journalism are required to complete all University general education (p. 20), University undergraduate requirements (p. 19), degree and major requirements including selected foundational courses, which may fulfill some University general education requirements. In addition, all students must complete 42 hours of Journalism coursework, 6 hours of Science and Agricultural Journalism courses, and 18 hours in one of the Science and Agricultural Journalism tracks (Agricultural Marketing, Agricultural Science, Conservation and Environment, Food and Wine, and Science). In addition, internship experience is strongly encouraged. A minimum of 120 credit hours is required for a B.S. in Science and Agricultural Journalism. Students must meet all GPA requirements for Journalism courses.

Soil, Environmental and Atmospheric Sciences

Patrick S. Market, Chair
Soil, Environmental and Atmospheric Sciences
School of Natural Resources
College of Agriculture, Food, and Natural Resources
331 Anheuser-Busch Natural Resources Building
(573) 882-6301
http://www.snr.missouri.edu/seas/

The Department of Soil, Environmental and Atmospheric Sciences brings together students, staff and faculty working in the fields of environmental, atmospheric and soil sciences. Excellent opportunities exist for students wishing to explore these exciting areas of study. The department offers a BS degree in Soil, Environmental and Atmospheric Sciences with three emphasis areas: Atmospheric Science, Environmental Science, and Soil Resource Management. A Soil, Environmental and Atmospheric Sciences minor with options in Environmental Science, Soil Science, or Atmospheric Science, is also available. MS and PhD degrees are offered in Natural Resources with an emphasis in Soil, Environmental and Atmospheric Sciences.

Faculty

Associate Professor N. I. Fox**, K. W. Goyne**, J. Hubbart**, R. J. Miles**
Assistant Professor Bohumil M. Svoma
Adjunct Associate Professor C. Baffaut*, F. Eivazi*, R. N. Lerch**, Igor I. Mokhov, J. Yang*
Adjunct Assistant Professor J. O. Adegoke*, Steven Lack, Brent Myers, Manjula Nathan, Brian Pettegrew, F. J. Young*
Associate Professor R. P. Uddawatta**
Instructor Eric Aldrich, David Freeman, Cammy Willett
Extension Assistant Professor P. E. Guinan**

* Graduate Faculty Member - membership is required to teach graduate-level courses, chair master’s thesis committees, and serve on doctoral examination and dissertation committees.
** Doctoral Faculty Member - membership is required to chair doctoral examination or dissertation committees. Graduate faculty membership is a prerequisite for Doctoral faculty membership.

Undergraduate

• BS in Soil, Environmental and Atmospheric Sciences (p. 119)
  • with emphasis in Atmospheric Science (p. 119)
  • with emphasis in Environmental Science (p. 120)
  • with emphasis in Environmental Soil Science (p. 123)
  • with emphasis in Soil Resource Management (p. 125)
• Minor in Soil, Environmental and Atmospheric Sciences (p. 126)

Dual Degree - Geological Sciences and Soil, Environmental and Atmospheric Sciences

The Department of Soil, Environmental and Atmospheric Sciences and the Department of Geological Sciences offer a dual BS in Geology and in Soil, Environmental and Atmospheric Sciences with an emphasis in Soil Resource Management. The dual degree program requires 132 credits for graduation. For more information on the dual degree program, contact an advisor in the Department of Soil, Environmental and Atmospheric Sciences or the Department of Geological Sciences.

Dual Degree - Biochemistry and Soil, Environmental and Atmospheric Sciences

The Department of Soil, Environmental and Atmospheric Sciences and the Division of Biochemistry offer a dual BS degree in Biochemistry and in Soil, Environmental and Atmospheric Sciences with an emphasis in Environmental Science. The dual degree program requires 134 credits for graduation. For more information on the dual degree program, contact an advisor in the Department of Soil, Environmental and Atmospheric Sciences or the Division of Biochemistry.

Dual Degree - Forestry and Soil, Environmental and Atmospheric Sciences

The Department of Soil, Environmental and Atmospheric Sciences and the Department of Forestry offer a dual degree in Forestry and in Soil, Environmental and Atmospheric Science with an emphasis in Environmental Science. The dual degree requires 136 credits for graduation. For more information on the dual degree program, contact an advisor in the Department of Soil, Environmental and Atmospheric Sciences or the Department of Forestry.

Graduate study at the University of Missouri (MU) in soil, environmental, and atmospheric sciences is designed to prepare students for professional careers in research, teaching or practical application of the principles of soil, environmental and atmospheric sciences (SEAS).

As of the fall 2013 semester, options for graduate study in SEAS will be offered through the MS in Natural Resources with an emphasis in SEAS (p. 90) and the PhD in Natural Resources with an emphasis in SEAS (p. 97). Focus areas in soil science, environmental science or atmospheric science are available through these options. Details on both degree programs, including recommended preparation, admission criteria, required application materials, degree requirements and financial aid,
are provided in the graduate tab of the Natural Resources section of the catalog under the College of Agriculture, Food and Natural Resources.

Graduate Focus Areas

Atmospheric Science

Atmospheric science students participate in an area of research such as dynamic and physical meteorology, general circulation, global climate change, severe storms, remote sensing and applied climatology with emphasis on environmental and socioeconomic impacts.

The program has a specialized computer laboratory that includes significant hardware and software to support thesis and dissertation research. There are also occasional opportunities for joint research programs with the National Center for Atmospheric Research.

Environmental Science

Environmental science students may participate in environmental quality, hydrology, watershed management, and water quality emphasis areas. State-of-the-art equipment for chemical, biological and physical analysis of water and earth materials is available for use in laboratories maintained by the SEAS Department in the School of Natural Resources.

The program has a working scale-nested watershed study spanning native lands as well as agricultural, and urban environments, thus supplying an excellent outdoor teaching and research laboratory.

Soil Science

Soil science students may participate in one of the following emphasis areas: environmental quality, pedology, soil chemistry and biochemistry, soil microbiology, soil physics and conservation, soil management, or soil fertility and plant nutrition.

State-of-the-art equipment for chemical, biological and physical analysis of soils is available for use in laboratories maintained by the SEAS Department in the School of Natural Resources. Access to additional chemical analysis equipment, computing facilities, digital imaging equipment, field facilities, greenhouse space, radiochemistry and scanning electron microscopes is available within the University of Missouri.

Financial Aid from the Program

Check the program website (http://www.snr.missouri.edu/seas/academics/graduate-program.php) or contact the program for details on scholarships or graduate assistantships that may be available.

Undergraduate

BS in Soil, Environmental and Atmospheric Sciences

Major Program Requirements

In addition to university general education (p. 20) requirements, students must meet school requirements, as well as the degree requirements below:

Major core requirements

Social and behavioral sciences

Economics/business elective

Math reasoning skills

MATH 1400 Calculus for Social and Life Sciences I 3-5
or MATH 1500 Analytic Geometry and Calculus I

Computer science

AFNR 1120 Computing and Information Technology 2
AFNR 2120 Working with Data Using Excel 1

Major capstone experience

ATM_SC 4320 Atmospheric Dynamics 3-4
or ENV_SC 4320 Hydrologic and Water Quality Modeling
or SOIL 4320 Genesis of Soil Landscapes

Soil, environmental, and atmospheric sciences

ATM_SC 1050 Introductory Meteorology 3
SOIL 2100 Introduction to Soils 3
or SOIL 3290 Soils and the Environment
or ENV_SC 1100 Introduction to Environmental Science 5

ATM SC electives

OR SOIL electives

OR ENV SC electives

Major core quantitative skills

STAT 1400 Elementary Statistics for Life Sciences 3
or STAT 2530 Statistical Methods in Natural Resources

Major core science requirements

CHEM 1320 College Chemistry I 4
Science electives 9

Total Credits 39-42

Semester Plan

Refer to the Semester Plans for the BS in Soil, Environmental and Atmospheric Sciences designed for the emphasis areas of Atmospheric Sciences (p. 119), Environmental Science (p. 120), or Soil Resource Management (p. 125).

BS in Soil, Environmental and Atmospheric Sciences with Emphasis in Atmospheric Science

Major Program Requirements

In addition to university general education (p. 20) requirements, students must meet the degree requirements below:

Emphasis in Atmospheric Science

Study of atmospheric science prepares the student for employment as a professional meteorologist in the National Weather Service, the military and other government agencies as well as meteorological consulting firms, broadcast outlets and industry. The emphasis in atmospheric science adheres to federal requirements for employment as a meteorologist, yet emphasizes interdisciplinary studies in natural resources leading to specialization in operational meteorology or environmental science. The course of study also serves as a preparatory curriculum for advanced study in atmospheric science. A major in soil, environmental and atmospheric sciences with an emphasis in atmospheric science requires 128 credits for graduation.
Semester Plan

Below is a sample plan of study, semester by semester. A student’s actual plan may vary based on course choices where options are available.
Among the skills and abilities students develop as graduates with an environmental science emphasis are:

- Understanding of ecosystems and the factors affecting environmental processes and problems
- Facility with environmental monitoring techniques and instrumentation
- Knowledge of technologies and methods for remediation of degraded environments
- Capacity to effectively communicate and educate others about the environment

**Emphasis core general requirements**

**Departmental Quantitative Skills**
- MATH 1400 Calculus for Social and Life Sciences I 3
- MATH 1500 Analytic Geometry and Calculus I 5
- MATH 1700 Calculus II (recommended elective for Hydrology Track) 5

**Departmental Sciences**
- Biological science 15
- BIO_SC 1200 General Botany with Laboratory 5
- BIO_SC 1500 Introduction to Biological Systems with Laboratory 3-5
- BIO_SC 3650 General Ecology 5
- or FOREST 4320 Forest Ecology 3
- CHEM 1330 College Chemistry II 4

**Recommended electives**
- CHEM 2030 Survey of Organic Chemistry 3
- CHEM 2100 Organic Chemistry I 3
- CHEM 2110 Organic Chemistry II 3
- CHEM 2130 Organic Laboratory I 2
- Geology 4
- GEOL 1100 Principles of Geology with Laboratory 4
- or GEOL 1200 Environmental Geology with Laboratory 4
- GEOL 1200 Environmental Geology with Laboratory 4
- Physics 4-5
- ENV_SC 4305 Environmental Soil Physics 4-5
- & ENV_SC 4306 and Environmental Soil Physics Laboratory 4-5
- or PHYSCS 1210 College Physics I 4
- PHYSCS 1210 College Physics I 4
- PHYSCS 2750 University Physics I 5

**Recommended science electives for Hydrology Track:**
- PHYSCS 1220 College Physics II 4
- PHYSCS 2760 University Physics II 5
- Policy/Regulation: 3
- NAT_R 4353 Natural Resource Policy/Administration 3
- or CV_ENG 4250 Environmental Regulatory Compliance 3
- CV_ENG 4250 Environmental Regulatory Compliance 3

**Departmental Requirements**
- Atmospheric Sciences/Soil Science 8
- ATM_SC 1050 Introductory Meteorology 3
- SOIL 2100 Introduction to Soils 3
- SOIL 2106 Soil Science Laboratory 2

**Computer Science**
- AFNR 1111 Computing and Information Systems I 3
- INFOTC 1040 Introduction to Problem Solving and Programming 3
- CMP_SC 1050 Algorithm Design and Programming I 3
- NAT_R 4325 Introduction to Geographic Information Systems 3
- GEOG 3040 Introduction to Geographic Information Systems GIS 3

**Environmental Science Emphasis Area Requirements**
- ENV_SC 1100 Introduction to Environmental Science 3
- ENV_SC 3290 Soils and the Environment 3
- ENV_SC 3500 Pollutant Fate and Transport 3
- Capstone Experience 3
- ENV_SC 4320 Hydrologic and Water Quality Modeling 3

**Electives**
12-14

**Hydrology Track**
24-25

- FOREST 4390 Watershed Management and Water Quality 3
- NAT_R 3290 Hydrologic Measurement Techniques 1
- ENV_SC 4940 Environmental Science Internship 1-99

Select 6 classes (18 credit hours) from the following list (must take at least one course from ENV_SC or SOIL and a course from another department)
- AG_S_M 4420 Surface Water Management 3
- ATM_SC 4400 Micrometeorology 3
- ATM_SC 4520 Environmental Biophysics 3
- ATM_SC 4590 Radar Meteorology 3
- BIOL_EN 4150 Soil and Water Conservation Engineering 3
- CV_ENG 3200 Fundamentals of Environmental Engineering 4
- CV_ENG 3700 Fluid Mechanics 3
- CV_ENG 3702 Hydrology 4
- ENV_SC 4305 Environmental Soil Physics 3
- ENV_SC 4306 Environmental Soil Physics Laboratory 2
- ENV_SC 4318 Environmental Soil Chemistry 3
- F_W 3400 Water Quality and Natural Resource Management 3
- GEOG 3630 Earth Surface Systems 3
- GEOG 4630 River and Stream Dynamics 3
- GEOL 4100 Groundwater Hydrology 3
- SOIL 4308 Soil Conservation 3
- SOIL 4320 Genesis of Soil Landscapes 4

**Land Management Track**
24-25

- ENV_SC 3330 Environmental Land Use Management 3
- ENV_SC 4940 Environmental Science Internship 1-99
Select 6 classes (18 credit hours) from the following list (must take at least one course from ENV_SC or SOIL and a course from another department):

AG_S_M 4360  Precision Agriculture Science and Technology  3
AG_S_M 4420  Surface Water Management  3
ATM_SC 3600  Climates of the World  3
ATM_SC 4400  Micrometeorology  3
BIOL_EN 4150  Soil and Water Conservation Engineering  3
CV_ENG 4200  Remote Sensing of the Environment  3
ENV_SC 4305  Environmental Soil Physics  3
ENV_SC 4306  Environmental Soil Physics Laboratory  2
ENV_SC 4312  Environmental Soil Microbiology  3
ENV_SC 4318  Environmental Soil Chemistry  3
F_W 4800  Environmental Toxicology  3
FOREST 3207  Forest Fire Control and Use  2
FOREST 4330  Practice of Silviculture  3
FOREST 4370  Wildland Fire Management  3
FOREST 4386  Photogrammetry, Inventory and Models  3
FOREST 4390  Watershed Management and Water Quality  3
GEOG 3610  Physical Geography of the United States  3
GEOG 3630  Earth Surface Systems  3
GEOG 4710  Spatial Analysis in Geography  3
GEOG 5380  Remote Sensing  3
GEOG 3040  Introduction to Geographic Information Systems GIS  3
GEOG 4940  Advanced Geographic Information Systems (GIS II)  3
RU_SOC 1000  Environmental Sociology  3
RU_SOC 2225  Anthropology  3
RU_SOC 4370  Environmental Sociology  3
SOIL 2100  Soil Conservation  3
SOIL 2106  Soil Conservation  3
RT_SCI 4940  Geophysical Sciences Internship  3

Emphasis in Environmental Science

Addressing environmental problems such as water and air quality, waste management and land use issues often requires an interdisciplinary science education as well as an understanding of the social and economic context of the problem. The environmental science emphasis is designed to prepare students for careers as environmental professionals.

Within the environmental science emphasis, students can choose one of three tracks: (Note: Tracks do not appear on transcripts or diplomas.)

- water quality
- land management
- hydrology

Students in all tracks take a mixture of natural and applied science courses such as ecology, soil science, forestry, atmospheric science, and fisheries and wildlife.

Other required classes provide students with technical and outreach skills such as geographical information systems (GIS) and additional communications courses, to prepare for work in environmental careers. Students also gain hands-on experience in their field of interest through off-campus internships and practical courses. Each of the tracks requires a 3-credit practical internship in environmental science. Students must complete 128 credits to graduate, including 21-22 credits in the water quality, land management or air quality track.

Among the skills and abilities students develop as graduates with an environmental science emphasis are:

- Understanding of ecosystems and the factors affecting environmental processes and problems
- Facility with environmental monitoring techniques and instrumentation
- Knowledge of technologies and methods for remediation of degraded environments
- Capacity to effectively communicate and educate others about the environment

BS in Soil, Environmental and Atmospheric Sciences with Emphasis in Soil Resource Management

**Major Program Requirements**

In addition to university general education (p. 20) requirements, students must meet school requirements, as well as the degree requirements below:

**Emphasis in Soil Resource Management**

This course of study prepares the student for employment as a professional soil scientist in government, industry or consulting. Courses offered in soil science emphasize the application of basic physical and biological sciences to understanding the function and use of soils. A major in soil, environmental and atmospheric sciences with an emphasis in soil resource management requires 128 credits for graduation.

Soil science professionals have a wide range of career opportunities, including working in land-use planning and assessment, agricultural and horticultural production, consulting and sales, landscaping and recreational management. Among the state and federal agencies that employ soil scientists are the USDA-Natural Resources Conservation Service, the US Forest Service, the US Environmental Protection Agency, the Missouri Department of Natural Resources, the Missouri Department of Conservation and the Missouri Department of Health and Senior Services. Opportunities in private industry include working in environmental consulting firms and the horticultural and agricultural production and service industries.

Total Credits: 132-136

## Minor in Soil, Environmental and Atmospheric Sciences

A minor in soil, environmental and atmospheric sciences is offered at the undergraduate level with three options: atmospheric science, environmental science, and soil science.

The minor in soil, environmental, and atmospheric sciences with an option in atmospheric science prepares the student for jobs in journalism and broadcast meteorology as well as for certification required by government agencies. A minor with an option in atmospheric science requires a minimum of 15 credits including:

- ATM_SC 1050  Introductory Meteorology
- ATM_SC 2720  Weather Briefing
- ATM_SC 3600  Climates of the World
- ATM_SC 2150  Natural Hazards
- ATM_SC 2792  Weather Communication
- ATM_SC 4520  Environmental Biophysics

Total Credits: 15

The minor in soil, environmental and atmospheric sciences with an option in environmental science requires a minimum of 15 credit hours in environmental science courses with at least 9 credit hours at the 3000 level or above. This minor provides students an opportunity to enhance their understanding of the environment, interrelationships between various components of the environment, and a firm understanding of environmental issues. Selection of courses should be made in consultation with an advisor in environmental science. The following courses are required:

- ENV_SC 1100  Introduction to Environmental Science
- ENV_SC 3290  Soils and the Environment
- ENV_SC 3330  Environmental Land Use Management
- F_W 3400    Water Quality and Natural Resource Management

Additional credits in environmental science as recommended by the advisor

Total Credits: 15

The minor in soil, environmental and atmospheric sciences with an option in soil science requires a minimum of 15 credits in soil science. Selection of courses should be made in consultation with an advisor in soil science. Students with the following majors often choose minors with an option in soil science: forestry, fisheries and wildlife, plant science, and geological...
This minor also provides assistance with meeting certification as a waste water specialist. The following courses are required:

<table>

Additional Minors and Certificates - CAFNR

Undergraduate Minors

- Minor in Agricultural Leadership (p. 128)
- Minor in Captive Wild Animal Management (p. 128)
- Minor in International Agriculture, Food & Natural Resources (p. 128)
- Minor in Sustainable Agriculture (p. 129)
- Minor in Viticulture & Enology (p. 129)

Graduate Certificates

- Certificate in Analysis of Institutions and Organizations (p. 129)
- Certificate in Food Safety and Defense (p. 130)

Undergraduate

Minor in Agricultural Leadership

The minor in Agricultural Leadership is for students interested in enhancing their public speaking, analytical reasoning, critical thinking, effective writing and teamwork skills. A student must complete 15 credits of coursework related to leadership and personal development from the list of approved courses. The coordinator of the minor must approve courses not on the list. With appropriate approval, an internship with a focus upon providing the student practical experiences in leadership and supervisory roles can be counted toward the 15 credit requirement.

Minor in Captive Wild Animal Management

Students majoring in Animal Science can obtain a minor in captive wild animal management by taking courses in Animal Science, Natural Resources, and Fisheries and Wildlife that focus on captive wild animals.

Minor in International Agriculture, Food & Natural Resources

The world is becoming increasingly complex and integrated in nearly every category of human endeavor. An understanding of how global markets, natural resources, food production, and international trade and cooperation are affected by societies, languages, cultures, and governments is an essential component of a well-rounded 21st century education in AFNR. To facilitate these studies, the multidisciplinary International AFNR Minor offers academic recognition for achieving a level of expertise in coursework of international focus.

Coursework

The multidisciplinary Minor in International Agriculture, Food and Natural Resources is an excellent addition to any major as it provides insight into the ever-increasing interconnectedness of world communities.

- Minimum of 15 credits
- Nine of the 15 credits must be approved CAFNR courses at the 3000-level or above
- Maximum of six credits accepted from courses taken in formal study abroad programs

• Maximum of two courses (6 credits) approved by the student’s advisor and the chair of the International Education committee (Dr. Bob Sites) in a geographic area of interest may be used toward the minor.
• Independent research with a faculty member can provide up to six credits with approval of the student’s advisor and international advisor chair.

Minor in Sustainable Agriculture

The minor in sustainable agriculture is for students interested in exploring agriculture and food systems that promote profit-ability, steward our natural resources, and provide enhanced quality of life for farmers, citizens and communities. A student must complete 15 credits of coursework that introduces concepts of sustainable agriculture, provides practical information on natural resources and food production, and investigates the impact of different philosophical and scientific frameworks on food and agriculture.

Required coursework includes:

Total Credits 15

Graduate Certificate in Analysis of Institutions and Organizations

The Certificate Program focuses on the structures and processes of Institutions and Organizations in changing environments. Institutions are the “rules of the game” that shape human interaction and consist of both formal rules (e.g. legal-contractual) and informal structures (norms, values and beliefs). Organizations are the concrete, humanly devised entities in which people interact and pursue goals, ranging from families to private and nonprofit firms and public agencies. This certificate emphasizes the common foundations of institutional analysis across academic disciplines including economics, sociology, political science, psychology, anthropology, geography, and law, as well as the ways that multidisciplinary perspectives can inform each other.

Graduate Certificate in Food Safety and Defense

By providing a distance education Food Safety and Security certificate program, we will serve the needs of industry and agencies that must protect the human food supply from accidental or deliberate contamination with pathogenic microbes and/or toxicants. In an era of terrorism and global food systems, effective control of foodborne hazards requires advanced education. There is a need for online education for food industry personnel who, while working full time, would like to pursue more in-depth specialized training in food safety and security that is pertinent to their job.

Kansas State University, Iowa State University, University of Nebraska-Lincoln and the University of Missouri, Columbia have developed pertinent food safety and defense distance education courses and have established a multi-state agricultural consortium to develop and deliver high-priority collaborative distance education programs in the food and agricultural sciences.

Food Safety and Defense Graduate Certificate Learning Outcomes

1. Synthesize a current and multi-faceted picture of key food safety and security issues.
2. Apply in real-world situations the scientific principles of microbial and chemical risk assessment and analysis related to food safety and security issues.

3. Analyze and apply the concepts of HACCP (Hazard Analysis Critical Control Point) programs, as well as other safety and security approaches, in the management of food safety and security in food systems.
4. Evaluate food safety and security issues in the food industry using the perspectives of sound science, critical thinking and ethical reasoning.

Food Safety and Defense Certificate Requirements

The online certificate includes a minimum of 12 credits, 8-9 credits in core courses and at least 3 elective credits, on topics including food microbiology, foodborne toxicants, HACCP, food safety and security overview, food laws, risk assessment, food biotechnology, rapid food microbiological methods, food allergy and food fermentations with each participating university offering at least one course on a regular basis, and each university cross-listing all courses.

Students must meet admissions requirements for the Master of Science degree in Food Science (p. 70) or equivalent degree at their respective universities. A tuition disbursement framework as in operation for the Great Plains Interactive Distance Education Alliance (IDEA) consortium will be used. Certificate enrollments of 20-25 students per year are anticipated, with time to completion of 2-3 years (1-2 courses per semester). See the Great Plains IDEA (http://www.gpidea.org) for further information.

Admission standards and prerequisites for the certificate program.

Successful applicants must be a graduate of an accredited institution and normally must rank in the upper quartile (3.0 grade point average) of their class to gain admission. Undergraduate preparation should include emphasis in chemistry and biology or food science.

Course Requirements

Courses required for the Food Safety and Defense Graduate Certificate belong to Kansas State University, Iowa State University, University of Nebraska and the University of Missouri. For more information refer to the Food Safety and Defense Graduate Certificate website: http://foodscience.missouri.edu/graduate/foodsafetycert.php

The College of Arts and Science, established in 1841, is the oldest and largest academic division in the university. The majority of MU undergraduates are enrolled in the college, which provides undergraduate and graduate programs in humanities, fine and performing arts, and social, behavioral and natural sciences. It also offers a solid foundation in basic studies for students in professional and specialized programs in other colleges. In addition to offering degrees in a wide range of academic disciplines, the College also allows creative and useful combinations of disciplines in both the Interdisciplinary Studies and General Studies baccalaureate degrees.

A liberal education is the foundation of study in many disciplines. It enables students to serve roles in society or to continue their education with advanced academic study. To these ends, the college encourages excellence in teaching and scholarship among its faculty and provides both traditional and innovative undergraduate curricula. Degree programs allow flexibility in individual courses of study.

Many students who enroll in the college during their first two years at the University have not yet decided upon a major field of study. The structure of the college is such that students generally need not commit themselves to a major until the beginning of the junior year. This allows students time to explore possibilities and to consider their likes and dislikes and their personal and professional objectives. Students are encouraged to work closely with academic advisors while deciding on a program of study.

Students planning to enter the schools of Journalism, Law, Medicine or Veterinary Medicine often spend their first two or four years in the College of Arts and Science in preparation for professional training. Most students, realizing the increased necessity for a broad background in the liberal arts for all professions, earn an undergraduate degree in the college before enrolling in the schools of Law or Medicine. Preprofessional study for veterinary medicine may be completed either in the College of Agriculture, Food and Natural Resources or in the College of Arts and Science.

- Career Placement (p. 136)
- Air Force Reserve Officer Training Corps (AFROTC) (p. 136)
- Army Reserve Officer Training Corps (AROTC) (p. 136)

**College of Arts and Science Requirements**

To earn any degree from the College of Arts and Science, in addition to the university requirements a candidate must fulfill each of the following:

- Complete all course work required for the Arts and Science Foundation Requirements.
- Basic Skills, Breadth of Study and Depth of Study requirements
- Sufficient elective credits to bring the total earned credits to 120
- Earn a GPA of 2.0 in the following categories:
  - A minimum 2.0 cumulative MU GPA
  - A minimum 2.0 MU GPA in all courses taken in the major
  - A minimum 2.0 MU GPA in all courses taken in the final 60 credits
  - A minimum 2.0 MU GPA in all courses taken in the final 30 credits
  - A minimum 2.0 MU GPA in all courses taken in the minor, if student is completing one
- Attain grades of C- or higher in the major and optional minor. Some departments of the college have higher minimum grade requirements in specified courses.
- Earn a minimum of 30 credits in courses numbered 3000 or above, which may include courses in the major. These courses must be regularly accepted for credit in the College of Arts and Science. A few specifically identified math, science, and music courses numbered at the 2000-level may be used to meet this requirement. Additional information is available in appropriate advising offices.

**Credit Restrictions**

**Time Limit on Credits Earned**

Credit that is applied toward a degree is considered valid for eight years. After that time, the validity of credit already on the transcript will be reevaluated. Departments of the college have the right to accept or to reject credit earned after eight years have passed.

**Credit Toward Degree**

Some courses are not accepted toward a degree in the College of Arts and Science. They are:
- MIL_SC 1100, MIL_SC 1130, MIL_SC 2210 and MIL_SC 2230
- Vocational courses, such as radio repair or keyboarding
• Developmental courses, such as MATH _0110, English Language Support Program courses, spelling and grammar

Sequence
Credit for a more advanced course within a sequence will not apply toward graduation if a student subsequently completes a less advanced course. (For example: completion of FRENCH 1200 after FRENCH 2100 or completion of MATH 1100 after MATH 1300.)

Maximum Credit Policies
• With the exception of MATH 1100, MATH 1120 (or equivalent), ENGLISH 1000 (or equivalent), and the elementary sequence in a foreign language, the maximum number of credits from a single department that may apply toward graduation is 40 for the BA and the BGS, 70 for the BFA, and 90 for the BM.
• A maximum of 5 credits for BIO_SC 2060 (or BIO_SC 3100) and BIO_SC 3650 may apply toward graduation.
• A maximum of 5 credits for MATH 1100, MATH 1120, MATH 1140, MATH 1160 and MATH 1180 may apply toward graduation.
• A maximum of 5 credits for MATH 1320, MATH 1400 and MATH 1500 may apply toward graduation.
• A maximum of 10 credits for introductory chemistry, which includes CHEM 1310 (or CHEM 1100), CHEM 1320, CHEM 1330 and CHEM 1500H, may apply toward graduation.
• A maximum of 1 credit for AG_EC 3285 may apply toward graduation.
• A maximum of 3 credits for any combination of the following may apply toward graduation: LTC_V 1210; LTC_V 4550; CMP_SC 1020.
• For non-music majors, a maximum of 6 credits for music ensemble courses, which include MUS_ENS 1841, MUS_ENS 1842, MUS_ENS 1846, MUS_ENS 1865 and MUS_ENS 2843, may apply toward graduation.
• For non-music majors, a maximum of 12 credits for applied music courses, which include MUS_APMS 1435, MUSIC_NM 1445, MUSIC_NM 2445, MUSIC_NM 2445S, MUS_APMS 3455, MUS_APMS 3970, MUSIC_NM 4445 and MUSIC_NM 4445S, may apply toward graduation.
• For non-music majors, a maximum of 12 credits for physical education activity courses may apply toward graduation.
• For non-art majors, a maximum of 12 credits for studio art courses may apply toward graduation. For interdisciplinary studies majors, the maximum is 18 credits, and for general studies majors, the maximum is 21 credits.
• A maximum of 2 credits for physical education activity courses may apply toward graduation.
• A maximum of 5 credits for orientation courses may apply toward graduation. Of these 5 credits, no more than 3 credits may come from courses that cover life skills or orientation to college life, and no more than 3 credits may come from discipline-focused courses. Life skills/college life courses include courses such as Learning Strategies and Orientation to College; discipline-focused orientation courses include courses such as Introduction to Management and Introduction to Physical Therapy. Additional information is available in the appropriate advising offices.

Departmental Examinations
A student who wishes to take a departmental examination must take it before enrolling in a college class in the same subject. Applications normally are made to the departments indicated; however, during the summer preregistration period, some examinations can be taken at the MU Testing Service Office without formal application to the respective departments. In addition, the examinations administered by Testing Services may be taken any time during the academic year.

Students may not earn credit for introductory foreign language courses in their native language.
• Chemistry: Apply to the Department of Chemistry, 125 Chemistry Building, for an examination to earn credits in chemistry.
• French: Apply to the Department of Romance Languages, 143 Arts and Science Building, for an examination for 3 credits equivalent to the completion of FRENCH 2100. Upon successful completion of this test, a student will be awarded 10 credits of advanced standing for FRENCH 1100 and FRENCH 1200 in addition to the 3 credits indicated.
• German: Apply to the Department of German and Russian Studies, 448 Strickland Hall, for an examination to earn 3 credits in each of the following courses: GERMAN 2100; GERMAN 2260 Intermediate German II: Language and Culture; GERMAN 3230 Introduction to German Literature. Upon successful completion of one of these tests, a student will be awarded 10 credits of advanced standing for GERMAN 1100 and GERMAN 1200 in addition to the 3 credits indicated.
• Italian: Apply to the Department of Romance Languages, 143 Arts and Science Building.
• Latin: Apply to the Department of Classical Studies, 405 Strickland Hall.
• Mathematics: To earn 3 credits in College Algebra, students may take the proctored ALEKS Exam through the Office of Testing Services. (mathplacement.missouri.edu)
• Political Science: Contact the group testing program in the Testing Services Office for information on the 3-credit group test.
• Russian: Apply to the Department of German and Russian Studies, 448 Strickland Hall, for an examination to earn 3 credits in Elementary Russian and Russian Composition and Conversation. Upon successful completion of one of these two tests, a student will be awarded 10 credits of advanced standing for RUSS 1100 and RUSS 1200 in addition to the 3 credits indicated.
• Spanish: Apply to the Department of Romance Languages, 143 Arts and Science Building, for an examination to earn 3 credits equivalent to the completion of SPAN 2100. Upon successful completion of this test, a student will be awarded 10 credits of advanced standing for SPAN 1100 and SPAN 1200 in addition to the 3 credits indicated.
• Statistics: Apply to the Department of Statistics, 146 Middlebush Hall, for an examination to earn 3 credits for STAT 1300 Elementary Statistics.

Maximum Credits Enrolled
With the consent of the dean, students with superior scholastic records may be allowed to register for more than 18 credits during a fall or spring semester. During the summer sessions, a student may not ordinarily be enrolled for more than 9 credits during the two four-week sessions combined and/or the eight-week session.

Enrolling at Other Institutions
Students within the College of Arts & science are allowed to enroll in another institution, while being simultaneously enrolled at MU. Students are strongly encouraged to speak with an advisor to verify course transfer credit, degree applicability and other academic ramifications. Students, however, bear the ultimate responsibility for checking course
equivalencies and requesting official transcripts be sent to the MU Office of Admissions (230 Jesse Hall). Similarly, A&S students who are likely to qualify for Latin honors are advised not to risk their eligibility for this distinction because of simultaneous enrollment at another institution (see information on Latin honors). Students who receive financial aid are advised to check with a financial aid officer to learn the implications, if any, of simultaneous enrollment in a non-MU course.

Graduation with Latin Honors

Regulations of the college regarding the awarding of Latin honors require that 54 of the final 60 credits are completed in MU course work for a letter grade (A-F). Awarding of Latin Honors is based on the cumulative GPA. The local chapter of Phi Beta Kappa requires completion of a minimum of 60 credits of course work on the MU campus, usually during the last two years of study. Exceptions to this latter expectation may be made for students who study abroad in an approved program during their final semesters of study.

Probation and Dismissal

Academic (Scholastic) Standing

In addition to University requirements defined in the Academic Standing (p. 756) section of this catalog and in the Faculty Handbook (http://faculty.council.missouri.edu/handbook/article-8.html), academic status of Arts and Science students is determined in accordance with the following faculty guidelines. The word “term” in these regulations applies to semester, summer session or intersession. Course work completed by correspondence or through extension also has a bearing on academic status.

- Students on scholastic probation have two terms, (as long as each term GPA is no lower than 1.0), in which to attain good academic standing (2.0 minimum term and cumulative GPA) or be subject to dismissal. A student will not be eligible for removal from probation if he or she does not complete in residence (MU course work) during these two terms at least 12 graded credits acceptable by the student’s advisor and in accordance with college policy for credit in the College of Arts and Science. To complete a course, the student must earn a grade in the A, B, C or D range.
- A student on probation may not be allowed to participate in a study abroad program or internship opportunities.
- In the application of these rules, the dean will determine how an incomplete grade in a course will be considered in determining a student’s academic standing.
- The dean may, in extenuating circumstances, waive any of the foregoing regulations governing eligibility to re-enroll for an individual student.

Degree Requirements

Arts and Science Foundation Requirements

The purpose of the Arts and Science Foundation Requirements is to assure that students fulfill the common educational objectives of the College of Arts and Science. Courses satisfying these requirements impart specialized knowledge and help students fulfill the broader objectives of a liberal education. Thus, these courses help students develop the following abilities:

- To communicate clearly and effectively in both writing and speech
- To generate and test hypotheses
- To locate and develop information needed to solve problems
- To think critically and use analytic skills effectively
- To examine their lives critically and objectively
- To enrich their lives through appreciation of present and past cultural achievements

Foundation requirements include three categories:

- **Basic Skills** requirements ensure competency in composition and communication, mathematics and analytic reasoning, awareness of American history and government, and where applicable, foreign language.
- **Breadth of Study** requirements are met by completing course work from a wide array of disciplines to ensure that graduates are broadly educated.
- **Depth of Study** requirements are met by completing advanced course work that allows for fuller understanding of a discipline than can be gained in introductory course work alone.

All students must complete all Arts and Science Foundation Requirements in order to earn a degree, regardless of prior baccalaureate degrees earned. Course work will be evaluated on a course-by-course basis. For students who earn an Associates of Arts degree from a Regionally accredited Missouri institution all Breadth of Education requirements will be considered to be met. Students will be required to complete at least one Depth of Education class with MU course work. In all cases, completion of the basic English and Mathematics requirements will be evaluated on a course-by-course basis.

Basic Skills

MATH 1100, MATH 1160, MATH 1120 or transferable equivalent with grade of C- or higher
- Required for BA, BFA, BGS, BM and BS degrees.
ENGLISH 1000 or transferable equivalent with grade of C- or higher
- Required for BA, BFA, BGS, BM and BS degrees.
One Math Reasoning Proficiency course with grade of C- or higher
- Required for BA, BFA, BGS, BM and BS degrees.
- May also apply toward other degree program requirements.
- Must be chosen from the list of MRP courses designated each semester in the online Schedule of Courses.

One course in American government or history
- Required for BA, BFA, BGS, BM and BS degrees.
- May also apply as a social science toward the behavioral and social science requirement.
- Should be chosen from the list of MU courses approved to meet Arts and Science Foundation Requirements.

Foreign language

- Each student is required to attain the degree of proficiency equivalent to the completion of at least 12 hours of college-level work in a single foreign language. All MU foreign language departments require a grade in the C range or higher in level I or a language and level II of a language as prerequisites for level II and III, respectively.
- Alternative for selected BS degrees: 12 credits numbered 2000 or above in an area approved by the major department substituted with the concurrence of the dean’s office. Courses used for a minor cannot be used to meet this requirement.
The foreign language requirements can be waived if a student has completed four units of a single foreign language in high school. If a student chooses to meet the requirement by using high school units, any college credit for that same introductory language will not count towards graduation hours (i.e., a student who has completed 4 units of high school Spanish and has credit for SPAN 1100 will not have the SPAN 1100 count towards graduation hours). If a student wants to have the introductory college credit count towards graduation, the student must complete the language sequence.

International students whose native language is other than English are exempt from the foreign language requirements but may not receive credit for basic skills courses in their native languages. Others with native competence in one or more foreign language offered by MU may have a foreign language requirement waived by passing an exam given by a faculty member who is fluent in the language. The faculty member need not be a member of the MU faculty, but must be approved by the dean’s office. The exam tests the student’s ability to read, write, and speak the language at the level broadly described as “intermediate.” Results of the examination are forwarded to the dean’s office for evaluation. Students in this situation do not receive advanced-standing credit for their foreign language knowledge.

**Breadth of Study**

Breadth of Study requirements include course work distributed among the following categories: biological, physical and mathematical sciences; behavioral and social sciences; humanities and fine arts.

1. **Biological, physical and mathematical sciences**
   - 9 credits required for BA, BFA, BGS, BM and BS degrees.
   - Must include course work from at least two of three areas.
   - Must include at least one biological or physical science laboratory course.

2. **Behavioral and social sciences**
   - 9 credits required for BFA, BGS, BM and BS degrees (except for the BS degree with majors in Biological Sciences and Psychology).
   - Must include course work from both the behavioral and social sciences.
   - 14-15 credits required for all BA degrees and the BS degree with majors in Biological Sciences and Psychology.
   - Must include 5-6 credits of behavioral science.
   - Must include 9 credits of social science, including course work from at least two different areas.

3. **Humanities and fine arts**
   - 9 credits required for the BFA, BGS, BM and BS degrees (except for the BS degree with majors in Biological Sciences and Psychology).
   - Must include course work from at least two different areas.
   - 12 credits required for the BA degree, and the BS degree with majors in Biological Sciences and Psychology.
   - Must include course work from at least three different areas.

4. **Additional breadth requirement for the BGS degree**
   - 3 credits from course work chosen from any of the following four categories: biological, physical and mathematical sciences; behavioral sciences; social sciences; humanities and fine arts.

**Parameters for meeting Breadth of Study requirements:**

- Courses from the major department may not be used for breadth requirements in the BA, BFA and BS.
- Courses from the major department may be used for breadth requirements in the BM.
- Students earning degrees in special degree programs (where the courses in the major represent multiple departments) may use courses from their major departments to meet breadth requirements, but not the specific courses used in the major.
- Courses from outside the major department but required for the major may not be used to meet breadth requirements in the BFA or BA with a major in Art.
- Only one non-Arts and Science course may be used in each of the four categories: biological, physical and mathematical sciences; behavioral sciences; social sciences; humanities and fine arts.
- Courses must be chosen from the Distribution of Content List on the web site of the General Education Program. (http://generaleducation.missouri.edu.)
- Courses used to meet breadth requirements may also be used to meet depth requirements (see below).
- Problems, research, readings, and internship courses may not be used for breadth requirements.

**Depth of Study**

Depth of Study requirements include at least 6 hours of course work numbered 2000 or above, distributed as follows:

**BFA in Art**

- 6 credits required (minimum of 2 courses).
  - Must include course work from at least two of the following four breadth categories: biological, physical, mathematical sciences; behavioral sciences; social sciences; humanities and fine arts.

**BGS in General Studies, all BA degrees, and BS with majors in Biological Sciences and Psychology**

- 9 credits required (minimum of 3 courses).
  - Must include course work from at least two of the following four breadth categories: biological, physical and mathematical sciences; behavioral sciences; social sciences; humanities and fine arts.

**BS with majors in Chemistry, Geological Science, Mathematics, Physics and Statistics**

- 6 credits required (minimum of 2 courses).
  - Must include course work from at least two of the following three breadth categories: behavioral sciences; social sciences; humanities and fine arts.

**BS with a major in Economics**

- 6 credits required (minimum of 2 courses).
  - Must include course work from at least two of the following four breadth categories: biological, physical and mathematical sciences; behavioral sciences; social sciences; humanities and fine arts.
BS with a major in Philosophy

- 6 credits required (minimum of 2 courses).
- Must include course work from at least two of the following three breadth categories: biological, physical and mathematical sciences; behavioral sciences; social sciences.

BM with a major in Music

- 6 credits required (minimum of 2 courses).
- Must include course work from at least one of the following three breadth categories: biological, physical and mathematical sciences; behavioral sciences; social sciences.
- 3 credit hours in Music (see below).

Parameters for Meeting Depth of Study Requirements

- All courses must be numbered 2000 or above.
- At least 3 credits must be completed with MU course work.
- A student who elects 1-credit topics courses must complete a minimum of three courses in that breadth category as partial fulfillment of the depth of study requirement.
- Courses from the major department may not be used, except for the BM with a major in Music.
- Students earning degrees in special degree programs (where the courses in the major represent multiple departments) may use courses from their major departments to meet depth requirements, but not the specific courses used in the major.
- Courses from outside the major department, but required for the major, may not be used to meet depth requirements in the BFA or BA with a major in Art, the BA or BS with a major in Biology, or the BA with a major in Chemistry, Geological Science, Mathematics, Physics, or Statistics.
- Three hours (one course) of non-Arts and Science coursework may be used towards partial fulfillment of the depth of study requirement.
- Courses must be chosen from the Distribution of Content List (http://generaleducation.missouri.edu/requirements/distribution.php) on the website of the General Education Program.
- Courses used to meet depth requirements may also be used to meet breadth requirements.
- Problems, research, readings, and internship courses may not be used.

Major Program Requirements

A major consists of at least 21 credits, including at least 15 credits in courses numbered 2000 or above, 12 of which must be taken in MU course work. See detailed departmental information for additional requirements for specific majors.

All Arts and Science majors require an MU Writing Intensive course numbered 3000 or above and an MU capstone course with grades of C- or higher. In addition, some majors require course work outside the major department.

Each student must declare and receive official approval for a major by submitting a graduation plan no later than the semester after completion of 60 credits. The purpose of the graduation plan is to acquaint students with all requirements that must be met prior to graduation and to plan for the timely completion of these requirements. Departments and programs approve the graduation plan only when the student has met the following criteria:

- 2.0 cumulative GPA
- Completion of ENGLSH 1000 and MATH 1100 or MATH 1120 (or their equivalents) with grades of C- or higher
- Completion of any additional departmental requirements

Requirements for an Optional Minor

A minor consists of at least 15 credits, including at least 6 credits numbered 2000 or above, within a department or program that offers a minor; 9 of the required credits must be taken in MU course work. See detailed departmental information for additional requirements for specific minors. Courses outside the major department but required for the major may be used towards a minor. In addition, courses required in the minor may be used to meet Foundation requirements.

The College of Arts and Science awards minors only to undergraduate students who are simultaneous recipients of bachelor’s degrees. Students may not earn a major and a minor in the same field.

Requirements for an Optional Certificate

A certificate consists of at least 12 credits which must be taken in MU course work. See detailed information for additional requirements for specific certificates. Courses required for the certificate may be used to meet major, optional minor or Foundation requirements.

The College of Arts and Science awards certificates only to undergraduate students who are simultaneous recipients of bachelor’s degrees. Student may not earn a certificate and a minor in the same field.

Internships

In order to participate in an internship, a student must be in good academic standing (not on probation) and have completed at least one semester of college coursework after graduation from high school.

Dual Degrees

In order to receive two bachelor’s degrees, a student must complete a minimum of 132 credits and complete all of the specific requirements for both degrees. Normally, a minimum of one additional semester is required to earn both degrees. Each candidate for a dual degree is assigned advisors as appropriate.

The College of Arts and Science maintains dual-degree programs with the schools of Law, Medicine and Veterinary Medicine. To enroll in these programs, the student must have completed all of the specific course requirements for the bachelor’s degree prior to admission to the professional school and also must have completed the junior year in residence in the College of Arts and Science. Under certain circumstances, Arts and Science undergraduates may be assured admission to MU’s schools of Law or Medicine.

Second Degrees

The faculty of the college has approved the following guidelines for students wishing to obtain a second undergraduate degree after completion of a bachelor’s degree, in addition to any university requirements that may apply:

- Unless both degrees are earned at MU in successive semesters, a student pursuing a second undergraduate degree will ordinarily be required to complete a minimum of 30 credits in residence (MU course
work) in the College of Arts and Science after completion of the first undergraduate degree.

- A student must complete any college, general education or department requirements that are unique to the new degree program. Requirements that are in effect at the time a student begins work toward the second degree are applicable.
- Students applying for second-degree status will be considered only if they have completed (with grades C- or higher) ENGLISH 1000 and MATH 1100 or MATH 1120 (or equivalents) and have final term and cumulative GPAs no less than 2.0.
- The student must submit a graduation plan in consultation with an advisor in an appropriate department or program before the dean's office will approve a request from the student to enroll as a candidate for a second degree.
- With the exception of Interdisciplinary Studies majors with an emphasis in Black Studies, Peace Studies, or Women’s and Gender Studies, the college does not approve applications for a second undergraduate degree in General Studies or Interdisciplinary Studies.
- Once enrolled for a second degree, a student is committed to enrolling in course work required for completion of that degree. A student will not be allowed to continue as a candidate for a second undergraduate degree if not enrolled in courses required for the second bachelor's degree.

Double Majors

A number of Arts and Science students choose to complete multiple majors while earning one degree. The requirements of each major, along with requirements for the degree, must be completed. Often, this does not result in the addition of hours to the degree program.

Graduate School Dual Enrollment

A final-semester senior may dually enroll in the College of Arts and Science and the Graduate School with permission of the deans of both divisions. This enables the student to complete some graduate course work prior to receiving the bachelor’s degree.

The student must be within 15 credits of completion of the bachelor’s degree and must rank in the upper half of the class.

Application forms for dual enrollment in these two schools may be obtained from the Graduate School Dean in 210 Jesse Hall.

Advising

Students who have declared a major are assigned an advisor in that department. Students who have not yet decided on a major are assigned to a professional advisor in the Student Success Center.

Career Placement

Employment opportunities in the various disciplines of the liberal arts vary greatly. Most departments in the college have printed information available describing employment opportunities. The MU Career Center in the Student Success Center offers students a variety of career planning services.

Air Force Reserve Officer Training Corps (AFROTC)

The AFROTC provides the opportunity to become a United States Air Force officer while completing a college degree. The program combines traditional undergraduate education with military instruction in preparation for Air Force leadership challenges. Each semester academic AFROTC classes will build a foundation for application to a two-hour Leadership Lab. Scholarships are available. Visit www.afrotc.com (http://www.afrotc.com/) for the most current information. After graduating from college and successfully completing all AFROTC requirements, cadets receive a commission as as second lieutenant with an obligation of four years of service in the active duty Air Force. Pilots incur a ten-year commitment from the date of graduation from pilot training. A few additional career fields require a six or eight year commitment.

MU also offers a Minor in Aerospace Studies (p. 308).

For additional information contact:

Department of Aerospace Studies
217 Crowder Hall
573-882-7621
airforce.missouri.edu

Army Reserve Officer Training Corps (AROTC)

Army ROTC is a college elective program that teaches the skills needed to succeed in the Army or the corporate world. Students combine classroom time with hands-on experience and learn leadership and management skills. The experience of Army ROTC provides the confidence needed to excel in college and beyond. The Army ROTC program can be completed through a two- to four-year program designed to develop young men and women into junior commissioned officers in the Active Army, Army Reserve, or Army National Guard. In addition to traditional combat roles, Army officers serve in such professional fields as aviation, medical service, finance, personnel management, communications and engineering. MU also offers a Minor in Military Science (p. 313).

For additional information contact:

Department of Military Science and Leadership

Graduate

College of Arts & Science
107 Lowry Hall
(573) 882-6411
http://coas.missouri.edu/

The College of Arts and Science is home to a broad spectrum of disciplines that prepare graduate students for challenging and rewarding careers. Our faculty mentors are known for both research and teaching excellence and many have received national acclaim for discoveries, disciplinary leadership, creative works and music or theater performance. The School of Music (p. 232), housed within the College, offers masters degrees, a doctoral degrees and a graduate certificate in jazz studies. Music education degrees are offered in conjunction with the College of Education, Department of Learning, Teaching and Curriculum. Note: Prospective graduate students must apply to both the degree program of interest and to the MU Graduate School. In most cases, the entire application process may be completed online. Find admission and
application details by selecting the degree program of interest in the left navigation column.
**Anthropology**

*Mark V. Flinn, Chair*
Department of Anthropology
College of Arts & Science

**Mailing Address:**
107 Swallow Hall
Columbia, MO 65211

**Office Location:**
1205 University Ave., Suite 1110
Columbia, MO 65211

(573) 882-4731
Fax: (573) 884-5450
http://anthropology.missouri.edu

*Welcome* to the Department of Anthropology at the University of Missouri! Our University is the oldest public land grant institution west of the Mississippi, a member of the AAU and the highest category of research universities. We are a small department with an emphasis on scientific approaches to the study of human biology, behavior, culture, and evolution. Our faculty rank in the top 15 U.S. Anthropology Departments for research productivity by the National Research Council and includes a member of the National Academy of Sciences and six AAAS fellows. We strive to be a friendly, exciting, and fun place for students, staff, and faculty. Currently we are looking forward to moving back into our extensively renovated building with new lab facilities in June 2016!

**Faculty**

**Assistant Professor:** L. W. Cowgill (https://anthropology.missouri.edu/?q=people/cowgill)***, K. Panchanathan (https://anthropology.missouri.edu/?q=people/panchanathan)***, R. E. Walker (https://anthropology.missouri.edu/?q=people/walker)**

**Research Professor:** N. A. Chagnon (https://anthropology.missouri.edu/?q=people/chagnon)

**Post Doctoral Research Fellow:** R. F. Lynch (https://anthropology.missouri.edu/?q=people/lynch), D. A. Nolin (https://anthropology.missouri.edu/?q=people/nolin)

Note: All permanent regular faculty members in the department serve as undergraduate mentors for anthropology majors.

* Graduate Faculty Member - membership is required to teach graduate-level courses, chair master’s thesis committees, and serve on doctoral examination and dissertation committees.

**Doctoral Faculty Member** - membership is required to chair doctoral examination or dissertation committees. Graduate faculty membership is a prerequisite for Doctoral faculty membership.

**Undergraduate**

- BA in Anthropology (p. 140)
- Minor in Anthropology (p. 142)

**Advising Contact**
Cassandra L. Casperson
Academic Advisor
114 Switzler Hall
sdpadvising@missouri.edu
(573) 882-6060

**Director of Undergraduate Studies:** Dr. Craig Palmer (https://anthropology.missouri.edu/?q=people/palmer) - palmerct@missouri.edu

The University of Missouri Department of Anthropology offers three area program concentrations: general liberal arts BA, pre-professional BA, or Honors BA.

Within each of these three programs, a student may select a subfield of focus (Note: Subfields will not show on transcripts or diplomas):

- Archaeology (https://anthropology.missouri.edu/?q=research/archaeology)
- Biological anthropology (https://anthropology.missouri.edu/?q=research/biological)
- Cultural anthropology (https://anthropology.missouri.edu/?q=research/cultural-anthropology)
- Some combination of the above, or
- An interdisciplinary focus combining anthropology with some other area(s).

An undergraduate major in anthropology provides a broad educational base that can be the core of a liberal arts education or the background for specific vocational or professional goals of a student. Anthropology is of particular value to students planning professional careers in a world of cultural and ethnic diversity. Anthropology majors are required to take core courses in all three focal areas of the discipline, but may emphasize one or more of them in their remaining courses. Students may also develop an interdisciplinary program in cooperation with other departments or schools. In addition, the department offers an anthropology minor to students who are majoring in other departments and who will profit by more formal training in the discipline.

The Anthropology Department provides many opportunities for students to become involved in research and encourages all students to do so. Such experiences help a student develop creativity, critical thinking skills, and skills in problem solving and writing. Students who are interested in doing anthropological research have several options, including working in close conjunction with a faculty member or working on an independent project under faculty supervision. An independent research experience may lead to an honors degree for eligible students.

Undergraduate training in anthropology prepares students for work in government agencies (both in the United States and overseas), museum positions, field positions in, for example, archaeology, ethnography, human paleontology, death investigation, or linguistic studies, and for graduate study leading toward college or university teaching of anthropology. An anthropology degree also provides good background
The Department of Anthropology has a number of special facilities that are available for use in classes, for individual research opportunities, and in some cases, for the general public to visit. The list is included below. Students interested in additional information are encouraged to consult the following web site: http://web.coas.missouri.edu/~anthro/?q=node/107.

These special facilities include:
- The Museum of Anthropology (https://anthromuseum.missouri.edu) & Museum Support Center
- The Human Skeletal Remains Identification Laboratory
- The Paleoethnobotany Laboratory
- The Zooarchaeology Laboratory
- The Fossil Cast Collection
- MURR (University of Missouri Research Reactor)

**Departmental Honors**

The Honors Program is organized under the Honors College (http://honors.missouri.edu) of the College of Arts and Science within the University of Missouri. To be accepted in the Honors Program, the student must achieve and maintain a minimum cumulative Grade Point Average (GPA) of 3.3 in all course work. In addition, to be accepted, and remain eligible for the honors program in the Department of Anthropology, the student must maintain a GPA of 3.5 in all anthropology courses.

The University of Missouri grants three types of Honors degrees to students in the College of Arts and Science:

1. **General Honors**, which is administered by the Honors College and which is obtained by completion of a suitable number of honors courses (see the Honors College for details).
2. **Latin Honors** (e.g., cum laude), which are conferred on students whose GPAs meet specified minimum requirements, and
3. **Departmental Honors**, which is administered by the Department of Anthropology.

The departmental program leading to the BA degree with Honors in Anthropology is designed for students who desire a more intensive experience in anthropology and who wish to work closely with a particular faculty member in the anthropology department on an independent research or scholarly project. A student wishing to graduate with departmental honors must fulfill the basic course requirements for the BA in Anthropology. In addition, the student, with the assistance of his/her honors advisor, is expected to develop, plan, and conduct research on an independent project. It is recommended that students in the honors program enroll in ANTHRO 4950H Honors Research in Anthropology, although projects initiated in other courses or through independent, noncredit research experiences may also be honors eligible. To complete the Honors degree, a student must submit the results of the research project as a formal honors thesis that the student defends during an oral examination conducted by an examining committee. The committee consists of three faculty members: the advisor, another faculty member, and the departmental Honors Director. The examination is scheduled no later than the thirteenth week of the term during which the student expects to graduate. Each member of the committee is furnished with a copy of the student’s thesis or evidence of scholarly activity at least ten days before the examination. After the oral defense the student furnishes the department with one final copy of the thesis or evidence of scholarly achievement (e.g., photographs) suitable for preservation in the Departmental Library. Upon completion of the program, the examining committee recommends to the Dean of the College of Arts and Science that the student be awarded a BA with Honors in Anthropology.

**Goals of the Anthropology Curriculum**

Students completing an anthropology degree are awarded a BA degree with a major in Anthropology or a BA degree with Honors in Anthropology. The undergraduate program is designed to help students develop an appreciation of other cultures and other world views and to gain an understanding of how and why the diversity in human culture and biology came about. Several goals help faculty teach undergraduates about the nature of the discipline and how to think critically about what it is, what it means and how it is useful in today’s society. These goals include:

- To recognize the broad, cross-cultural generalizations that characterize anthropology
- To recognize the value of a cross-cultural, comparative perspective
- To acquire an understanding of the basic concepts in the subfields of anthropology
- To acquire advanced knowledge in one or more of the subfields
- To acquire an awareness of the interrelationship of the subfields
- To think critically about the nature and content of anthropological questions
- To assess the structure of an argument and evaluate it and its supporting information
- To communicate effectively in writing or through oral presentation
- To strive for innovative and creative thinking
- To think independently both within and outside anthropology

Students are also encouraged to acquire experience in research design and methods (e.g., using the library and internet effectively to gather information on a problem, or understanding and using the methods of one or more subfields). To this end, the department provides abundant opportunities for students to work with faculty members on independent research projects.

**GPA Requirements**

The College of Arts and Science requires that students attain a minimum GPA of 2.0 in all courses in their major department and in courses that comprise the related field. In addition, all core courses in anthropology (ANTHRO 2020 or ANTHRO 2021/ANTHRO 2022, ANTHRO 2030, ANTHRO 2050 or ANTHRO 2051/ANTHRO 2052, ANTHRO 4990) must be completed with a grade of C- or higher and students may receive a grade below C- in no more than one other course used to satisfy the major.

**Graduate**

- MA in Anthropology (p. 142)
- PhD in Anthropology (p. 142)

**Contact:** Cynthia Irsik
IrsikC@missouri.edu
Department of Anthropology
Administrative Assistant
(573)882-4731
Fax: (573)884-5450
http://anthropology.missouri.edu
Incoming graduate students are admitted into one of three tracks:

**Track 1: MA students**

Students admitted to Track 1 will be classified as MA seeking students with Graduate Studies (http://gradstudies.missouri.edu). These students will complete all requirements for the MA degree as currently outlined in the Graduate Students Handbook (https://anthropology.missouri.edu/sites/default/files/graduatebrochure1415.pdf), including the MA exam and completing a thesis (not a proposal or publication as for Track 2, see below, although eventual publication of the thesis is encouraged). Upon completion, the student can, if eligible, apply to the Anthropology program for acceptance as a PhD seeking student.

**Track 2: PhD students required to complete MA requirements**

Students admitted to this track will be classified as PhD seeking students with Graduate Studies (http://gradstudies.missouri.edu). These students will complete all course requirements for the MA, including the MA exam. With the consent of the student’s committee, a Track 2 student will complete either a thesis or a proposal formatted for a major granting agency that will serve as the student’s PhD dissertation proposal, or a primary-authored paper submitted for publication. In each of these cases, the student will orally defend the work. Upon successful completion of these requirements, the student will be awarded an MA, and will then be eligible to continue work towards a PhD without the need to reapply to the program or change student status.

**Track 3: PhD students with MA in hand**

Students admitted to this track will be classified as PhD seeking students with Graduate Studies (http://gradstudies.missouri.edu). They will not be required to complete the MA requirements and will not earn an MA during their graduate work at MU. Upon completion of the requirements currently listed for the PhD program, including coursework, qualifying examination, comprehensive examination, teaching, and dissertation, the student will be awarded a PhD.

**Facilities and Collections**

Departmental research facilities/collections include a paleoethnobotany laboratory, a ceramic analysis laboratory, a stone artifact analysis laboratory, a comparative faunal collection, a skeletal biology laboratory, extensive holdings of New World (especially Missouri) archaeological and skeletal materials and ethnographic specimens from many parts of the world. The department’s Museum of Anthropology (https://anthropology.missouri.edu) provides opportunities for museum-oriented studies (see also the Museum Studies Graduate Minor (http://catalog.missouri.edu/undergraduategraduate/collegeofartsandscience/additional-minors-certifications/graduate-minor-museum-studies)). The Museum Support Center, an archaeological research and curation facility is located on the edge of campus. The University of Missouri Herbarium is also housed in this facility. The University of Missouri Research Reactor provides opportunities for students interested in archaeometry. Resources in other departments or research units available by arrangement include the Archaeometrics Laboratory of the Research Reactor, the Electron Microscopy Facility, and the Stable Isotope Laboratory of the Department of Geological Sciences.

**Research by Location**

Regular faculty members of the department conduct research in the following geographical areas, beyond Missouri: the Northwest (archaeology), Europe (biological anthropology), the Mississippi River Valley (archaeology), Canada (biological and cultural anthropology), South Asia—India and Bangladesh (cultural anthropology), Dominica and Amazonia (biological anthropological), and the North American Southwest (archaeology). Refer to the faculty list for interests of emeritus faculty (https://anthropology.missouri.edu/?q=people/emeritus).

**Financial Assistance**

Financial assistance packages are usually granted on a competitive basis for students who enter the program in the Fall semester. This assistance comes in the form of tuition waivers and stipends provided by Life Science Fellowships, Graduate Studies Fellowships, teaching assistantships, or graduate instructorships. Applications for teaching assistantships and graduate instructorships for both presently enrolled and prospective graduate students must be received by March 1st of the academic year preceding the academic year for which assistance is sought. Applications will be emailed to existing and incoming student prior to the deadline.

**Undergraduate**

**BA in Anthropology**

**Major Program Requirements**

In addition to college foundation requirements and University graduation requirements, such as general education (p. 20), all anthropology students are required to complete the following core courses (15 credits):

- ANTHRO 2020: Fundamentals of Archaeology with Laboratory
- or ANTHRO 2021 & ANTHRO 2022: Fundamentals of Archaeology and Fundamentals of Archaeology Lab
ANTHRO 2030  Cultural Anthropology  3
ANTHRO 2050  Introduction to Biological Anthropology with Laboratory  5
or ANTHRO 2051 & ANTHRO 2052  Introduction to Biological Anthropology and Biological Anthropology Laboratory  
ANTHRO 4990  Capstone Seminar in Anthropology  3
Total Credits  15

ANTHRO 4990 Capstone Seminar in Anthropology must be completed even if a student completes an additional major in another department. Some departments waive this requirement for students completing a double major. Students with second majors should check with the other department to see if they are required to complete both capstone courses.

Electives
A minimum of five additional Anthropology courses (at least 15 credits) are required for the major. These courses must be distributed as follows:

- Topical/theoretical  1 course
- Area  1 course
- Methods  1 course
- Two additional courses of student’s choice  2 courses

Explanation about the distribution of departmental courses among these three categories is available at https://anthropology.missouri.edu/sites/default/files/undergrad-files/undergrad_brochure.pdf

The choice of area, topical-theoretical and methods courses is guided by the student’s individual interests and goals, and is selected in consultation with the advisor. With the consent of the student’s advisor and the director of undergraduate studies, the methods/techniques or area requirements may be fulfilled by suitable courses outside anthropology. If this requirement is satisfied by a course outside anthropology, an additional anthropology course is selected to complete the 30 credits required in anthropology.

Students may also complete the methods requirement by gaining hands-on experience doing anthropological research. This experience will normally begin with ANTHRO 2950 Research Skills in Anthropology, an introduction to the methods used by one or more faculty members. This course will satisfy the methods requirement if a student enrolls in it for at least 3 credits. A student may independently choose a faculty mentor and arrange for course credit or can work with the department’s undergraduate research coordinator, who will match the student’s interests with those of one or more faculty members.

Students wishing to continue doing research of an independent nature may register for ANTHRO 4950 Undergraduate Research in Anthropology. Prior approval by the director of undergraduate studies is required to use these courses to satisfy the departmental methods requirement. Honors Research may be used to satisfy the requirements for an Honors BA with a major in Anthropology, but the course is not required for that degree. Specific requirements for the Honors BA are described below.

Related Courses
Because of the interdisciplinary nature of anthropology, the Department of Anthropology strongly recommends that all students complete a cluster of at least two or three courses that complement chosen courses within the major.

These courses may be offered by a single department or may be a related set of courses from several departments (e.g., courses in ancient history from both the Art History and Archaeology and the History departments). The courses should be chosen with the advisor and are intended to provide background in the content of other disciplines related to the student’s anthropological focus. Fulfillment of a formal minor (15 credits in another department as approved by that department) or a second major (at least 30 credits in another department as approved by that department) can also be an effective way to gain expertise in related areas.

Semester Plan
Below is a sample plan of study, semester by semester. A student’s actual plan may vary based on course choices where options are available.

Total Credits: 123-127
**Minor in Anthropology**

A student wishing to minor in anthropology should contact the Director of Undergraduate Studies. The requirements for a minor in anthropology are:

1. A total of 15 hours of course credits in anthropology approved by the Director of Undergraduate Studies. At least 9 hours must be completed at MU.
2. No more than 6 hours of the 15 hours required for the minor may be drawn from courses numbered below 2000. In addition, a minimum of 3 hours must be in courses numbered 3000 or above.
3. Readings, research, or problems courses shall constitute no more than 6 of the required 15 hours.
4. Anthropology Minor Form [link](https://anthropology.missouri.edu/sites/default/files/undergrad-files/minor_form.pdf) filled out and signed

These procedures and requirements were approved March 17, 2004. This Program is effective for all students who file initial anthropology graduation plans after this date.

**Graduate**

**MA in Anthropology**

**Admission Criteria (Track One, MA Applicants)**

Students admitted to this track will be classified as MA seeking students with the graduate school. These students will complete all requirements for the MA degree as currently outlined in the Anthropology Graduate Handbook [link](https://anthropology.missouri.edu/sites/default/files/gradfiles/gradetabrochure1415.pdf), including the MA exam and completing a thesis. Upon completion, the student can, if eligible, apply to the Anthropology program for acceptance as a PhD seeking student.

Fall deadline: January 10
Spring deadline: October 15 (no departmental financial aid available this term)

- Minimum TOEFL scores:
  - Internet-based test (iBT) 61
  - Paper-based test (PBT) 500
- Minimum GRE scores:
  - Verbal + Quantitative 3.0
  - Analytical score of 550

Acceptance into the graduate program in anthropology is not limited to students with undergraduate degrees in anthropology.

**Required Application Materials**

*To Graduate Studies through ApplyYourself* [link](https://app.applyyourself.com/AYApplicantLogin/I_ApplicantConnectLogin.asp?id=umc-grad):

- All required Graduate School documents
- 3 letters of recommendation (through online application)
- GRE scores
- Statement of purpose
- Unofficial transcripts

**Graduation Requirements**

Students are expected to gain advanced knowledge in the three subfields represented in our program (archaeology, biological anthropology, cultural anthropology). Anthropology faculty members work closely with graduate students to conduct collaborative research as an integral component of the graduate program. Opportunities for specialization are provided through research courses leading to a thesis. A program tailored to each student’s educational objectives is planned by the student and the advisory committee of at least three members, one of whom is a non-anthropology faculty member.

**Credit Hours Required for Master’s Degree**

Students must complete a minimum of 30 credit hours beyond the Bachelor of Arts degree. At least 9 of the required hours must be 8000-level anthropology courses and seminars, and must include at least one content course (i.e., not a readings or research course). In addition to the 8000-level requirement, all students must take ANTHRO 8010 History of Anthropology. Students must also take one (1) course of their choosing in archaeology and one (1) course of their choosing in biological anthropology. Students lacking a basic course in statistics are required to take at least one course, preferably during the first year of graduate work. A maximum of 12 hours may be in non-thesis research (ANTHRO 7990/ANTHRO 8990) or reading courses (ANTHRO 7960).

**MA Thesis**

Students enrolled in Track 1 must complete the MA thesis requirement. Successful completion of the thesis will be determined by the student’s advisory committee. The advisory committee for the thesis consists of at least 3 faculty members, including the advisor, another member of the anthropology department, and one member of the graduate faculty from another MU department and who generally holds a doctorate degree in another subject.

**PhD in Anthropology**

**Admission Criteria - Track Two (ONLY): PhD Students Required to Complete MA Requirements**

Students admitted to this track will be classified as PhD seeking students with Graduate Studies. These students will complete all course requirements for the MA, including the MA exam. With the consent of the student’s committee, a Track 2 student will complete either a thesis...
OR a proposal formatted for a major granting agency that will serve as the student’s PhD dissertation proposal, OR a primary-authored paper submitted for publication. In each of these cases, the student will orally defend the work. Upon successful completion of these requirements, the student will be awarded an MA, and will then be eligible to continue work towards a PhD without the need to reapply to the program or change student status.

Minimum TOEFL scores:

<table>

 Minimum GPA: 3.25 in last 60 hours and in all anthropology courses

Required Application Materials For Track Two Applicants:

To Graduate Studies through ApplyYourself (https://app.applyyourself.com/AYApplicantLogin/f1_ApplicantConnectLogin.asp?id=umc-grad):

- All required Graduate School documents except transcripts
- 3 letters of recommendation (through online application)
- GRE scores
- Statement of purpose
- Unofficial transcripts

Credit Hours Required for Master’s Degree (Track Two Applicants Only)

Students must complete a minimum of 30 credit hours beyond the Bachelor of Arts degree. At least 9 of the required hours must be 8000-level anthropology courses and seminars, and must include at least one content course (i.e., not a readings or research course). In addition to the 8000-level requirement, all students must take History of Anthropology I (ANTHRO 8010). Students must also take one (1) course of their choosing in archaeology and one (1) course of their choosing in biological anthropology. Students lacking a basic course in statistics are required to take at least one course, preferably during the first year of graduate work. A maximum of 12 hours may be in non-thesis research (ANTHRO 7990/ANTHRO 8990) or reading courses (ANTHRO 7960).

Admission Criteria - Track Three: PhD Students with MA in Hand

Students admitted to this track will be classified as PhD seeking students with Graduate Studies. They will not be required to complete the MA requirements and will not earn an MA during their graduate work at MU. Upon completion of the requirements currently listed for the PhD program, including coursework, qualifying examination, comprehensive examination, teaching, and dissertation, the student will be awarded a PhD.

Fall deadline: January 10
Spring deadline: October 15

| Minimum TOEFL scores: | | |
|-----------------------|-----------------------|
| Internet-based test (iBT) | Paper-based test (PBT) |
| 61 Effective July 1, 2015 must have score of 80 | 500 Effective July 1, 2015 must have score of 550 |

| Minimum GRE scores: | | |
|---------------------|---------------------|
| When did you take the GRE? | Verbal + Quantitative | Analytical |
| Prior to August 1, 2011 | 1000 | 3.0 |
| On or After August 1, 2011 | 300 | 3.0 |

Minimum GPA: 3.5 in previous graduate work

Master’s degree

Note: A faculty who is a member of the doctoral faculty must agree, as a condition of admission, to accept the student as a PhD advisee. These qualifications apply to all applicants, including those with an MA degree from this department. Applicants whose MA is in a field other than anthropology will be considered under the policies for individuals holding the baccalaureate degree except that the quality of graduate work will be taken into consideration.

Required Application Materials for Track Three Applicants

To Graduate Studies through ApplyYourself (https://app.applyyourself.com/AYApplicantLogin/f1_ApplicantConnectLogin.asp?id=umc-grad):

- All required Graduate School documents except transcripts
- 3 letters of recommendation (through online application)
- GRE scores

Art

Jo Stealey, Chair
College of Arts and Science
A126 Fine Arts Building
(573) 882-3638
http://art.missouri.edu
umcart@missouri.edu

The Department of Art is housed principally within the Fine Arts Building. Founded in 1877, the Art Department faculty consists of 18 full-time faculty, 11 adjunct instructors, and 25 graduate teaching assistants. Our faculty members, many of whom are nationally and internationally renowned, are well-established professional artists and designers with numerous exhibitions, commissions, and awards to their credit.

Our studio/laboratory spaces for each media area have impressive features that include a fully-equipped printmaking studio, photography labs for digital and traditional processes, a papermaking/fiber facility, an anagama kiln, a bronze casting facility, and three state-of-the-art digital labs housing over 65 up-to-date Macintosh computers with large 27-inch monitors, three 44" large-format Epson printers, and a variety of video equipment. The Department of Art also operates the George Caleb Bingham Gallery (http://binghamgallery.missouri.edu) in the Fine Arts Building, which showcases art exhibitions from students, faculty, and visiting artists year-round. A popular Visiting Artists Lecture Series is presented on late Wednesday afternoons during the Fall and Spring semesters and is open to the public. A popular summer program sponsored by the Department in partnership with the International Center is the Summer Study Abroad Program (http://art.missouri.edu/undergraduate/study-abroad.html) that takes place in summers in Italy on odd-numbered years and in the Netherlands and Belgium in even-numbered years. In both countries, students will have the opportunity to study firsthand many of the most important masterpieces in Western art history.

Faculty and students have access to many other resources on the University campus, including the Museum of Art and Archaeology (http://maa.missouri.edu), the State Historical Society of Missouri (http://shs.umsystem.edu), the Craft Studio Gallery (http://www.craftstudio.org), extensive collections of Ellis Library (http://library.missouri.edu/libraries), and the image database on ArtStor (http://www.artstor.org).

You should not be surprised to find the works of MU art faculty and alumni in major museums, galleries, exhibitions, and collections around the world, from New York to Barcelona, and from Africa to China. The work of our faculty and alumni exemplifies the caliber of teaching and creativity that students experience in the MU Art Department. We are dedicated to providing our students with the best quality education possible and helping them to develop and nurture their artistic pursuits.

Faculty

Professor J. M. Brueggenjohann*, R. B. Clarke*, L. Leong*, J. Stealey*
Curators Teaching Professor D. L. Huelsbergen*
Assistant Professor C. Daniggelis*, D. Farnum*, J. Pintz*, A. Thompson*, J. Thornton*
Associate Teaching Professor M. Ballou*
Assistant Teaching Professor A. Callender*, M. G. Langeneckert*, T. Shaffer*

Professor Emeritus J. D. Berneche, R. F. Bussabarger, B. B. Cameron*, L. Kantner, L. Rugolo, O. A. Schuchard, F. H. Stack

* Graduate Faculty Member - membership is required to teach graduate-level courses, chair master’s thesis committees, and serve on doctoral examination and dissertation committees.

** Doctoral Faculty Member - membership is required to chair doctoral examination or dissertation committees. Graduate faculty membership is a prerequisite for Doctoral faculty membership.

Undergraduate

• BA in Art (p. 145)
• BFA in Art (p. 146)
• Minor in Art (p. 147)

Director of Undergraduate Studies: Deborah Huelsbergen

The Department of Art in the College of Arts & Science offers a BA and a BFA. A minor in Art is also available. Students have the option to take studio courses in drawing, painting, printmaking, ceramics, sculpture, fibers, photography, digital/experimental media, and graphic design.

The BA degree is intended for the student desiring a liberal education with a concentration in art, while the BFA provides more professional training in the studio area. The BFA is the required undergraduate degree for admission to most Master of Fine Arts programs.

Starting Fall 2015, all students wishing to pursue a BA or BFA degree in art will need to pass the Art Department BA/BFA Portfolio Review. A student will need to have completed six (6) courses in art before submitting a portfolio for either the BA or BFA. Those courses are ART_GNRL 1030, ART_GNRL 1040, ART_DRAW 1050; then three of the following courses: ART_CERM 2100, ART_DRAW 2200, ART_FIBR 2300, ART_GRDN 2410, ART_PNT 2500, ART_PHOT 2600, ART_PRNT 2700, ART_SCUL 2800. For more detailed information on the portfolio, please refer to the Art Department website (http://art.missouri.edu).

Undergraduate students enrolled in a BA Bachelor of Arts in Fine Arts or BFA Bachelor of Fine Arts degree program who wish to earn a masters with certification to teach K-12 Art can complete Professional Education Certification courses in the College of Education along with three Art Education Professional Education course requirements at the graduate level beginning the summer before senior year in your BA/BFA degree program.

Graduate

• MFA in Art (p. 147)
Department of Art
A126 Fine Arts Building
Columbia, MO 65211-6090
573-882-3255
http://art.missouri.edu/grad

Director of Graduate Studies: J. Brett Grill

Admission Contact:
Brenda J. Warren, Graduate Student Coordinator
warrenb@missouri.edu

The Department of Art offers a Master of Fine Arts (MFA) program that focuses on the creative goals of the individual. Our aim is to guide each student to finding and developing a particular direction and language as
demonstrated by a coherent and conceptually unified body of artwork. Through an intense studio-based practice, our graduates develop into professional artists and college level educators who will successfully contribute to the culture on a local, national and global scale through different fields in the visual arts.

The University of Missouri has been a leader in the visual arts since 1877 when the renowned painter George Caleb Bingham began teaching the first studio courses in the newly formed School of Art. Current faculty members follow in that tradition through their creative work that is nationally and internationally recognized. Their artwork encompasses: abstract and figurative painting and drawing, ceramics, sculpture, ceramics sculpture, as well as bronze cast sculpture, traditional and digital photography, all media of printmaking, surface design, illustration, papermaking and book arts, mixed-media, video, installation and performance art plus intermedia and intradmedia approaches. They are all eager to mentor young artists who share the passion for creativity, critical thinking and the arts.

Laboratory facilities are available in all media areas that are continually updated to coincide with technological advancements. The Department of Art is home to the George Caleb Bingham Gallery with monthly exhibitions highlight artwork by students, local, regional and national artists. Our yearly Florence Summer Study Abroad Program places students in Italy where students have a month to study firsthand many of the most important masterpieces in Western art history. More about the MFA program. (http://art.missouri.edu/mfa-program.html)

Study Areas

Applicants typically study within a particular art medium. Applicants declare a media emphasis of their choice at the time of application to the program. Media areas for selection include ceramics, drawing, fibers, graphic design, painting, photography, printmaking, and sculpture. Aspects of new media (2D and 3D computer imaging and animation, video production, web publishing and other digital media) are also integrated into the curriculum of many of the listed traditional media.

Financial Aid

Fellowships, scholarships, and tuition waivers, along with graduate teaching assistantships and graduate research assistantships with stipends are available to qualified graduate students. Assistantships include stipends. Some aid is awarded upon acceptance into the program, while others may be awarded later as the student develops within the program. Applications for graduate teaching assistantships should be submitted along with the application portfolio to the director of graduate studies. Application instructions follow later in this document. For a list of scholarships within the Department of Art, please visit the departmental website at: http://art.missouri.edu/mfa-program/scholarships.html

Some campus-wide opportunities are available, too. Most prominent would be the Mizzou Graduate Fellowship that is available for applicants for the fall semester (submitting deadline on January 1st each year) only.

Advising

Upon admission to the program, a candidate is assigned a graduate thesis committee chair/major advisor. This person will mentor the student throughout the student’s tenure and help the student to establish the three-member graduate thesis committee. By the second semester the student will select another committee member from the Graduate Faculty to serve as the student’s second advisor. The chair/major advisor will also help the graduate student to select an outside member who is from the graduate faculty of another department. In addition, students have access to all the art department faculty members for consultation throughout the duration of their studies.

Undergraduate

BA in Art

Major Program Requirements

Art majors earning a BA degree complete art foundations courses, art core requirements, and art studio electives. No more than 40 credits in studio art may be included in the BA curriculum. Students enrolled in the BA degree program may not include art or art history courses with a grade of D.

All art majors must complete a minimum of 12 credit hours of MU art coursework numbered 2000 or above. In addition, 9 hours of Art History and Archaeology courses, including two 3-hour classes numbered 2000 or above, are required.

In addition, students must complete all College of Arts and Science and University graduation requirements (p. 19), including University general education (p. 20).

Starting Fall 2015, all students wishing to pursue a BA or BFA degree in art will need to pass the Art Department BA/BFA Portfolio Review. A student will need to have completed six (6) courses in art before submitting a portfolio for either the BA or BFA. Those courses are ART_GNRL 1030, ART_GNRL 1040, ART_DRAW 1050; then three of the following courses: ART_CERM 2100, ART_DRAW 2200, ART_FIBR 2300, ART_GRDN 2410, ART_PNT 2500, ART_PNT 2510, ART_PHOT 2600, ART_PRNT 2700, ART_SCUL 2800. For more detailed information on the portfolio, please refer to the Art Department website (http://art.missouri.edu).

Semester Plan

Below is a sample plan of study, semester by semester. A student’s actual plan may vary based on course choices where options are available. (Students focusing on graphic design will take ART_GNRL 4976 Fall of their fourth year instead of an Art Studio Elective which they will move to the Spring of their fourth year and take instead of ART_GNRL 4975)

Total Credits: 121

**BFA in Art**

**Major Program Requirements**

Art majors earning a BFA degree complete art foundations courses, art core requirements, and art studio electives with 15 credits in one specific media area. Students enrolled in the BFA degree program may not include art or art history courses with a grade of D.

All art students are assigned a departmental faculty advisor. Students are encouraged to meet with the advisor to plan a program of study with a focus in one particular media area.

BFA students complete 60 to 70 credits in studio art, including a minimum of 15 credits in one specific media area, and 12 credits of art history, including at least two 3-hour Art History & Archaeology courses numbered 2000 or above. A minimum of 35 credit hours of studio art coursework must be taken at MU.

In addition, students must complete all College of Arts and Science and University graduation requirements (p. 19), including University general education. (p. 20)

Starting Fall 2015, all students wishing to pursue a BA or BFA degree in art will need to pass the Art Department BA/BFA Portfolio Review. A student will need to have completed six (6) courses in art before submitting a portfolio for either the BA or BFA. Those courses are ART_GNRL 1030, ART_GNRL 1040, ART_DRAW 1050; then three of the following courses: ART_CERM 2100, ART_DRAW 2200, ART_FIBR 2300, ART_GRDN 2410, ART_PNT 2500, ART_PNT 2510, ART_PHOT 2600, ART_PRNT 2700, ART_Scul 2800. For more detailed information on the portfolio, please refer to the Art Department website (http://art.missouri.edu).

**Major core requirements:**

- **Art foundations**
  - ART_GNRL 1030 Basic 2-D Design | 3
  - ART_GNRL 1040 Basic 3-D Design | 3
  - ART_DRAW 1050 Drawing I | 3

- **Art core requirements**
  - Drawing | 3
  - ART_PNT 2500 Beginning Painting | 3
  - or ART_PNT 2510 Beginning Watercolor Painting | 3
  - ART_Scul 2800 Beginning Sculpture | 3
  - (students need a total of 6 hours from ceramics and/or fibers)
  - ART_CERM 2100 Beginning Ceramics | 3
  - ART_FIBR 2300 Beginning Fibers | 3
  - (students need a total of 6 hours from photography and/or printmaking)
  - ART_PHOT 2600 Beginning Photography | 3
  - ART_PRNT 2700 Beginning Printmaking | 3
  - or ART_GNRL 4976 Senior Seminar in Art Design - Senior Seminar | 3

- **ART media area electives**
  - 15 minimum

- **ART studio electives**
  - up to 19

- **AR_H_A courses (Art History and Archaeology)**
  - 12

**Semester Plan**

Below is a sample plan of study, semester by semester. A student’s actual plan may vary based on course choices where options are available. (Students focusing on graphic design will take ART_GNRL 4976 Fall of their fourth year instead of an Art Studio Elective, which they will move to the Spring of their fourth year and take instead of ART_GNRL 4976)

Minors in Art 

The minor in art requires a total of 18 credits, including 15 credits in studio art and 3 credits from the Department of Art History & Archaeology. Six credits must be studio art courses numbered 2000 or above. At least 9 of these hours must be taken while in residence at the University of Missouri. An Art Minor may not include art or art history courses with a grade of D.

MFA in Art

Admission Contact:
Brenda J. Warren, Graduate Student Coordinator
warrenb@missouri.edu

Department of Art
A126 Fine Arts Building
University of Missouri
Columbia, MO 65211-6090, USA
573-882-4037

Admission Criteria

Fall semester deadline (priority for campus scholarships):
• January 1 if seeking nomination for Mizzou Graduate Fellowship

Spring semester deadline:
• September 1

Minimum TOEFL scores:

<table>
<thead>
<tr>
<th>Internet-based test (iBT)</th>
<th>Paper-based test (PBT)</th>
</tr>
</thead>
<tbody>
<tr>
<td>80</td>
<td>550</td>
</tr>
</tbody>
</table>

- Minimum GPA: 3.0

The preferred undergraduate degree for admission to the graduate program in visual art is the Bachelor of Fine Arts degree (BFA). However, applicants holding the BA, BS or other bachelor’s degrees are eligible to apply if they have a minimum of 40 hours of undergraduate studio credits or an equivalent commensurate professional experience. Applicants for the Graphic Design Area are required to have a minimum of 2 years professional experience before applying.

Application materials are evaluated to determine if the applicant has the preparation and ability to pursue an advanced degree. Admission is based on the recommendations from the art department graduate faculty members representing each of the media areas. Some applicants, may be placed on a waiting list as alternates, then accepted if others decline their admission offers.

Required Application Materials

Submit to the Graduate School:
• All required Graduate School documents
• Cover Letter of Intent (stating the goals for pursuing the MFA degree)
• A Digital Assets Sheet (defining the image and video files).
• Current Résumé (exhibition, award, publications, artistic experience, etc.)
• An artist’s statement
• Three (3) letters of recommendation
• Official transcripts from each college attended
• Application for G.T.A. (optional but necessary for tuition waiver)

Application Materials Submit to the Art Department

• The application process requires a digital portfolio documenting 20 separate pieces of the applicant’s artwork. Applicants can document these works using twenty (20) to forty (40) digital still images and/or moving image files. Please limit submissions to a maximum of 2 images for any one piece of artwork. The artwork in the portfolio should represent your most recent and most accomplished body of work. The work should indicate your major artistic interests and creative direction. The work should demonstrate your creative ability and media competence. If you are requesting consideration for a teaching assistantship, a few of the images could be works that demonstrate your foundational mastery of a specific media area. Portfolios must be submitted in digital form on CD only. Please follow closely the instructions for the submission of images available on the department website:

MFA Degree Completion Requirements

The MFA program consists of 60-70 credit hours.

The degree includes:
• 30 hours in the major area
• 9 hours in a minor area
• 3 hours of Graduate Studio Seminar
• A minimum of 1 hour of MFA Research Hours
• 11 hours of electives
• 6 hours of Art History
Graduate-Level Course work
Graduate level courses are at the 7000/8000/9000 level. A minimum of 15 of the 30 hours must be selected from courses numbered at 8000 and/or 9000 levels; no more than 40 percent of the 30 hours credit requirement can be satisfied by Research, Readings and Problems courses. No credit is given for courses at the 4000 or below levels.

Residency Requirement
A minimum residency of two years is required for the degree. However, mere completion of the prescribed number of credit hours and the residency requirement is insufficient, rather the degree will be granted upon the student’s high level of creative achievement as determined by the student’s graduate thesis committee.

Regular Student Evaluation
The full graduate faculty of the art department reviews every MFA candidate once each year to determine the rate of progress. If the candidate fails to receive a passing evaluation during the review, the student is placed on probation for one semester and is required to be reviewed the following semester. If two consecutive unsatisfactory reviews occur, the student is dismissed from the MFA program.

Clearance
During the semester prior to graduation, the graduate thesis committee will approve the student to proceed with the final steps toward graduation, composing the written thesis and mounting the thesis exhibition.

Thesis Acceptance
The graduate thesis committee approves the thesis exhibition and written thesis. The final semester, the MFA candidate installs a thesis exhibition to display visual, artistic and professional achievement. The candidate thereafter presents a final draft of the written thesis that defends the conceptual and philosophical ideas of the final body of artwork. Photographic record of the pieces discussed must be included in the written thesis.

Each degree candidate must pass a two-hour oral final examination conducted by the graduate thesis committee. The presentation must focus on the aspects of the academic study related to the written thesis and visual work. Following final approval of the thesis exhibition and the written thesis, the graduate will officially submit documentation of the theses to the graduate school. The thesis is submitted as a PDF file on a CD-ROM to the Graduate School by the established deadline.

Time Limit and Extensions
The time limit for completion of the MFA degree is 5 years. Time spent in military service is excluded. For an extension for other reasons the student must petition the Graduate School through his/her chair/major advisor. The five-year period will extend from the beginning of the first semester of enrollment in which the student is accepted to the MFA degree program to the date of his/her clearance to graduate.
Art History and Archaeology

S. Langdon, Chair
College of Arts and Science
365 McReynolds Hall
(573) 882-6711
aha@missouri.edu
http://aha.missouri.edu

The development of European and American art in its historic and cultural context is the subject of study in the Department of Art History and Archaeology.

The department offers BA, MA and PhD degrees with a major in Art History and Archaeology.

Faculty

Professor S. H. Langdon**, M. L. Rautman**
Associate Professor K. A. Schwain**, A. R. Stanton**, J. A. van Dyke**, M. E. Yonan**
Assistant Professor M. Mogetta*
Assistant Teaching Professor E. J. Hornbeck

Professor Emeritus: P. D. Crown, K. W. Slane**

• Graduate Faculty Member - membership is required to teach graduate-level courses, chair master’s thesis committees, and serve on doctoral examination and dissertation committees.

** Doctoral Faculty Member - membership is required to chair doctoral examination or dissertation committees. Graduate faculty membership is a prerequisite for Doctoral faculty membership.

Undergraduate

• BA in Art History and Archaeology (p. 150)
• Minor in Art History and Archaeology (p. 151)

Double Majors and Dual Degrees

Students may combine a major in art history and archaeology with a major in another department in the College of Arts and Science such as Art or Classical Studies (a double major), or with a major in another college such as Business or Journalism (a dual major). Students who graduate with dual majors will be awarded two degrees; their program of study will include an additional 12 credits. Students who plan to pursue double or dual majors should complete graduation plans in both departments.

Departmental Honors

Departmental Honors recognizes students who have demonstrated a commitment to future professional study in art history and archaeology, wish for more substantial research experience, and have built a record of excellence in departmental coursework.

Requirements:

• 3.3 Cumulative GPA
• 3.6 Departmental GPA
• Successful completion of one 4000-level AR_H_A course as a prerequisite
• Completion of a senior honors essay, AR_H_A 4999

Students apply for departmental honors the semester prior to taking AR_H_A 4999 by writing a proposal on the subject of their essay. The proposal is submitted in duplicate to the faculty member whom the student would like to have serve as the project’s supervisor and to the Director of Undergraduate Studies, but shall be considered and must be approved by the faculty as a whole. The essay’s topic should reflect both the student’s interests and the expertise of the faculty supervisor. The honors essay should be of substantial length, incorporate significant individual research, and engage with theoretical, historiographical, and methodological perspectives appropriate to the topic at hand. Completing these requirements to the faculty’s satisfaction will earn the student departmental honors.

Graduate

• MA in Art History and Archaeology (p. 151)
• PhD in Art History and Archaeology (p. 152)

Art History & Archaeology Graduate Programs

Director of Graduate Studies: Michael Yonan

About Art History and Archaeology

The University of Missouri has played a prominent role in the teaching of the visual arts in North America since Walter Miller and John Pickard first began lecturing on campus in the 1890s. Our faculty and staff reflect the widening scope of our discipline with particular strengths in the areas of classical Mediterranean archaeology, medieval and Renaissance art, and the art and architecture of modern Europe and the Americas. Current faculty research interests range from early Greece and Rome to modern architecture and contemporary painting. Resources available to faculty and students include the department’s Visual Resources Center and the Museum of Art and Archaeology, as well as the extensive collections of Ellis Library.

Degrees Offered

The Department of Art History and Archaeology offers the MA and the PhD degrees in Art History and Archaeology. The department participates in interdisciplinary graduate minors in Ancient Studies, Medieval and Renaissance Studies, Museum Studies, and Women’s and Gender Studies.

Funding: Internal and External

The Department of Art History and Archaeology offers two forms of graduate support: teaching assistantships in introductory and upper-level courses; and research assistantships in the Visual Resources Center, which provides students with the opportunity to learn a variety of skills vital to the field in the digital age. In addition, the Museum of Art and Archaeology provides research assistantships that allow students to work closely with curators in various departments of the Museum.

Generally, the department and the museum offer .25 FTE (full time equivalent) assistantships that require approximately ten hours of work per week. These provide a nine-month stipend; a tuition waiver that covers resident educational and non-resident fees; and a 50% medical insurance subsidy if you enroll in “Student Accident and Sickness...
Insurance” program. In special circumstances, the Department and the Museum will offer a .5 FTE to advanced students.

Incoming students are considered for funding when they apply to the program. Returning students submit applications for continued funding in the spring semester. The Department follows the rules set by the Graduate School regarding tuition waiver limits.

In addition to teaching and research assistantships, the department may award departmental fellowships to advanced students: the Herbert Schooling Fellowship; the John Pickard Fellowship; and the Charles D. Folse Fellowship for students in classical archaeology. Holders of these fellowships may, with proper consent, hold additional grants not to exceed $1000 or may hold teaching assistantships.

Finally, the department offers a number of fellowships and travel awards:

- The Edzard Baumann Traveling Fellowship in European Art
- The Irina Hans Fellowship in Art History
- The Osmund Overby Fund for research in American art, architecture, and historic preservation
- The Saul and Gladys Weinberg Traveling Fellowship for advanced students in classical archaeology

Students interested in these awards should contact the director of graduate studies and their advisors for application instructions.

In addition, the University of Missouri Graduate School sponsors two major fellowship programs: a spring competition and a Supplemental Graduate Fellowship Program. Applicants in both art history and archaeology are eligible for these fellowships, which are awarded to entering students through a campus-wide competition. Nominations for both are completed by the director of graduate studies in consultation with the entire faculty. Students in the Department of Art History and Archaeology have held a number of these awards, including the G. Ellsworth Huggins Scholarship, the Gus T. Ridgel Fellowship, and the Robert E. Waterston Award.

Students enrolled in MA and PhD programs are also eligible for awards from The Graduate Professional Council (GPC), which are designed to assist students who are traveling to present research papers, posters or creative works at conferences or symposia. The Graduate Student Association (GSA) also awards travel grants to students who are presenting a paper or poster, or chairing a plenary session or roundtable discussion, at an academic conference.

Finally, the department encourages graduate students to apply for internships, study abroad programs, grants, and fellowships that support their programs of study. An excellent place to initiate this search is Resources in Art History for Graduate Students: A Newsletter of Fellowships and other Opportunities for Art History Graduate Students (http://www.efn.org/~acd/resources.html).

### Undergraduate

### BA in Art History and Archaeology

#### Major Program Requirements

Students may elect a broad program in Art History or a more narrowly focused one in Classical Archaeology. Those who are planning to focus in either program should begin foreign language study as early as possible.

In addition to University general education (p. 20) requirements and other college and University graduation requirements (p. 19), students must meet the following requirements:

**Course requirements**

<table>
<thead>
<tr>
<th>Course requirements</th>
<th>30</th>
</tr>
</thead>
<tbody>
<tr>
<td>Students must take 1110 and 1120:</td>
<td>6</td>
</tr>
<tr>
<td>AR_H_A 1110 &amp; AR_H_A 1120</td>
<td>6</td>
</tr>
<tr>
<td>Ancient and Medieval Art and Renaissance through Modern Art</td>
<td>6</td>
</tr>
</tbody>
</table>

**OR**

- The General Honors Humanities Sequence (GN_HON 2111H, GN_HON 2112H, GN_HON 2113H, GN_HON 2114H)

**AND**

- At least six AR_H_A courses at the 3000 level or above, including at least one course in each of the following three distribution areas and at least two courses at the 4000 level:
  - Art History option: Ancient, Medieval-Baroque, and Modern Archaeology option: Greek, Roman, and Post-Classical

**PLUS**

- Two elective AR_H_A courses at any level, including internship, fieldwork, and study abroad.

### Language Requirement

The Art History option requires study through the reading level (i.e., 12 or 13 credits) in one modern language, such as French, German, Italian, or Spanish. The Archaeology option requires study through the reading level (i.e., 13 credits) in Greek or Latin. Students who plan to attend graduate school are strongly urged to begin study of one or more additional languages.

### Courses Recommended for a Well-Rounded Degree

Art History students should take additional courses in the Humanities, including anthropology, classical humanities, film studies, history, literature, religious studies, and philosophy, and at least one course in studio art or environmental design. Students pursuing the Archaeology option should take related courses in anthropology, classical humanities, geology, history, religious studies, and philosophy.

### Semester Plan: Art History Track

Below is a sample plan of study, semester by semester. A student’s actual plan may vary based on course choices where options are available.

<table>
<thead>
<tr>
<th>First Year</th>
</tr>
</thead>
<tbody>
<tr>
<td>Fall</td>

</tr>
</tbody>
</table>
Minor in Art History and Archaeology

A minor in Art History and Archaeology requires 15 credits within the department. Nine of the 15 credits must be at the 3000-level or above.

Graduate

MA in Art History and Archaeology

Admission Contact Information

Michael Yonan (YonanM@missouri.edu)
365 McReynolds Hall
Columbia, MO 65211
573-882-6711

About the Master’s

The MA program in the Department of Art History and Archaeology has two primary goals: to provide graduate students with a strong background in the history of art, from antiquity to the present; and to introduce them to the methods and theories of material and visual analysis, as well as the practices of critical writing and reading. Students who pursue the thesis option have the opportunity to specialize at that stage.

Admission Criteria

Admission to the department on the graduate level is granted yearly to a small number of candidates who hold recognized BA or MA degrees in art history, classical archaeology, classics, or related fields of the humanities and social sciences. In addition to the 3.0 GPA required by the Graduate School, the department requires: a GPA of 3.3 in the major field; minimum GRE score (below) and at least three semesters of a single appropriate foreign language (normally German, French or Italian).

Minimum GRE scores:

When did you take the GRE?   Verbal + Quantitative
Prior to August 1, 2011          1000          4.5
On or After August 1, 2011      300           4.5
Required Application Materials

All application materials must be submitted directly to the Graduate School through its Apply Yourself (https://app.applyyourself.com/AYApplicantLogin/l_ApplicantLogin.asp?id=umc-grad) online application system. Applications will not be considered complete until we receive the following:

- Official transcripts or mark sheets from each university or college you have attended
- GRE scores
- Three letters of recommendation concerning academic qualifications to undertake graduate work
- A short statement of the applicant’s professional goals and reasons for applying to do graduate work in art history or archaeology
- A copy of a recent term paper as a sample of the applicant’s scholarship and writing
- Curriculum vitae

Financial Aid from the Program

Incoming students are considered for funding when they apply to the program. Returning students submit applications for continued funding in the spring semester.

Graduation Requirements

Course Requirements

The successful completion of the MA requires at least thirty hours of coursework that must include: AR_H_A 8110 Introduction to Graduate Study; AR_H_A 8120 Theories and Methodologies in Art History and Archaeology; four distribution requirements that cover four broad periods of study: Ancient, Medieval and Renaissance, 1500-1850, and 1850-Present; and AR_H_A 8070 Master’s Tutorial. If students are invited to pursue the thesis option, they must enroll in AR_H_A 8080 Readings for MA Thesis in Art History and Archaeology and AR_H_A 8090 Master’s Thesis Research and Thesis in place of AR_H_A 8070. Courses for an interdisciplinary minor field will be in addition to these minimums.

Language Requirements

All students must demonstrate reading knowledge of one foreign language, usually German or a Romance language. Departmental language exams are offered in the fall semester of each year, although students can request an examination in the spring semester. Language requirements may be satisfied also by achieving a grade of B or better in a course approved by the Director of Graduate Studies. The department expects that the modern language requirement will be met by the end of the third semester for use in advanced coursework as well as thesis research and writing. In addition to the modern language, students in Classical Archaeology also must have reading knowledge of either Greek or Latin. Students who pursue the thesis option must have reading knowledge of two modern languages: German and a Romance language.

Master’s Essay

To complete the degree, students must complete a scholarly essay under the guidance of a faculty advisor. It will most likely be a revision of a research paper from a graduate course taken in the Department of Art History and Archaeology.

Master’s Essay Oral Examination

In consultation with the faculty advisor, students will select two additional members of the department faculty to read the essay. Students will discuss their essays in a meeting chaired by their advisor.

Master’s Thesis Option

Graduate students who intend to pursue doctoral work should complete the thesis option. This decision is made during the student’s second or third semester in residence in consultation with the Director of Graduate Studies and three faculty members in the student’s area of interest.

Master’s Thesis Committee

The master’s thesis committee consists of at least three people: the student’s thesis advisor, a second member from within the department, and a third member from outside the department. The student should invite the latter two in consultation with his or her thesis advisor.

The committee must approve the thesis topic in the semester before the student plans to defend the thesis; often, this is accomplished during an interview for candidacy.

Master’s Thesis

The master’s thesis enables graduate students to engage in independent and thorough research in a specific area of study. While the thesis need not be an original contribution, neither can it be an uncritical compilation of published facts. A successful thesis will demonstrate the student’s ability to use bibliography in the field; effectively utilize research tools and techniques; synthesize a variety of types of sources; and sustain an argument.

Master’s Thesis Defense

The defense of the master’s thesis is an oral examination, chaired by the student’s advisor, which focuses specifically on the MA thesis. The student should submit a complete draft of the thesis to the advisor at least two months before the intended defense date and a final draft, approved by the advisor, to the entire committee 30 days before the defense. Any changes recommended by the committee during the defense must be made before the finished thesis can be submitted to the Graduate School.

More Information

Further guidelines are included in the department’s graduate programs brochure or on the website.

PhD in Art History and Archaeology

Admission Contact Information

Michael Yonan (YonanM@missouri.edu)
365 McReynolds Hall
Columbia, MO 65211
573-882-6711
About the PhD

In the Doctoral Program, students deepen their exploration of art history or classical archaeology and demonstrate their ability to carry out original scholarship.

The department advises doctoral students in the following areas of study:
- Greek Art and Archaeology
- Roman and Late Antique Art and Archaeology
- Early Medieval Art and Archaeology
- Late Medieval Art
- Renaissance and Baroque Art
- 18th Century Art
- 19th Century Art
- 20-21st Century Art
- American Art
- Architectural History

Admission Criteria

The department accepts as candidates for the PhD students who have earned an MA or its equivalent in art history or classical archaeology, either from the University of Missouri or from an institution recognized by the university. An MA thesis is a prerequisite for the PhD in both art history and classical archaeology. The Doctoral Program Committee (see below) determines the acceptability of work completed elsewhere.

Students completing an M.A. degree in the Department of Art History and Archaeology at the University of Missouri-Columbia who want to continue for the Ph.D. must be accepted for advising by a faculty member who is a member of the doctoral faculty. Such students should submit a statement of purpose and a current CV to the department by the January 18 deadline. After they are accepted for advising, they need to submit a “Change of Program, Degree, Emphasis or Advisor Form” to the Graduate School.

Required Application Materials

All application materials must be submitted directly to the Graduate School through its Apply Yourself (https://app.applyyourself.com/AYApplicantLogin/fl_ApplicantLogin.asp?id=umc-grad) online application system. Applications will not be considered complete until we receive the following:

- Official transcripts or mark sheets from each university or college you have attended
- GRE scores
- Three letters of recommendation concerning academic qualifications to undertake graduate work
- A short statement of the applicant’s professional goals and reasons for applying to do graduate work in art history or archaeology
- A copy of a recent term paper as a sample of the applicant’s scholarship and writing, and
- Curriculum vitae

Financial Aid from the Program

Incoming students are considered for funding when they apply to the program. Returning students submit applications for continued funding in the spring semester.

Graduation Requirements

Coursework

The Graduate School requires a minimum of 72 hours for the PhD. At least 42 of those hours must be completed after the receipt of MA. Up to 30 hours from a previous institution can count toward the total of 72 hours. Most students will take more than the minimum number of courses and requirements

The 42 hours must include:

- At least one course from the following four areas—Ancient, Medieval and Renaissance, 1500-1850, and 1850-Present—unless students have taken an equivalent at the MA level.
- 27 hours of courses in the major areas. At least 12 of the 27 hours must be seminars at the 8000 level.
- 15 hours of coursework in the minor areas. At least 6 of the 15 hours must be taken at the 8000-level

The student’s program of study is determined in consultation with the Doctoral Program Committee. The Doctoral Program Committee is constituted in October during the first year of study. It consists of at least four people: the student’s advisor; two additional scholars from within the department; and an outside committee member. The committee:

1. Reviews the student’s MA thesis and determines it equivalency;
2. Accepts any transfer of credit from previous institutions;
3. Approves the plan of study;
4. Determines the major and minor areas as well as the scheduling of the comprehensive exams;
5. Approves the subject of the student’s dissertation;
6. Examines the student’s dissertation.

Languages

All students must demonstrate reading knowledge of two foreign languages, usually German and a Romance language relevant to their area. Departmental language exams are offered in the fall semester of each year, although students can request an examination in the spring semester. Language requirements may be satisfied also by achieving a grade of B or better in a course approved by the Director of Graduate Studies.

In addition to the modern languages, students in classical archaeology must demonstrate reading knowledge of both Greek and Latin. This requirement may be satisfied by passing with a grade of B or better in a course numbered 7500 or higher in both Greek and Latin and by taking a second course at this level (7500 or higher) in the language more closely related to the major field of study. Equivalent courses taken at other institutions must be approved by the Director of Graduate Studies.

Comprehensive Examination

The comprehensive examination in the major and minor areas of art history and archaeology, determined by the student and the doctoral program committee, consists of both written and oral examinations.

Dissertation

The dissertation is expected to be an original, scholarly contribution to the discipline. The topic must be approved by the advisor and the Doctoral Program Committee. A dissertation proposal should be filed with members of the committee within two months of passing the
comprehensive exams. A proposal for a dissertation fellowship will satisfy this requirement.

Individual chapters are generally submitted to the advisor as they are written. Other members of the Doctoral Program Committee may also criticize them in draft form. A complete, revised draft of the dissertation must be approved by the advisor at least two months before the defense. Students should distribute the final draft to each member of the committee at least one month before the defense.

Students maintain continuous enrollment by registering for 9080 or 9090 and by submitting a progress report to the Graduate Student Progress System and their advisor each term. Dissertation advising is not normally available during the summer unless previous arrangements have been made.

Further guidelines, including available areas of doctoral study, are included in the department’s website.

**Dissertation Defense**

The final examination will be in the form of an oral defense of the dissertation. It must take place on or before the penultimate Friday of classes. Any changes recommended by the committee during the defense must be made and approved before the finished thesis can be submitted to the Graduate School. Students are responsible for ensuring they meet the deadlines and guidelines established by the Graduate School for dissertation submission and graduation.
Biological Sciences

J. Walker, Director
College of Arts and Science
105 Tucker Hall
(573) 882-6659

The Division of Biological Sciences offers both a Bachelor of Arts and a Bachelor of Science with a major in Biological Sciences, in addition to a minor in biological sciences for students majoring in other departments. The department also offers MA and PhD degrees in Biological Sciences.

Faculty

Assistant Professor P. Brown**, R. Holdo**, E. King**, L. Milescu**, M. Milescu**
Research Assistant Professor R. Bhandari, J. Taylor
Teaching Associate Professor S. L. Bush*, R. D. Hurst, B. Stone*
Distinguished Teaching-Professor Emeritus J. E. Carrel**
Professor Emeritus B. G. Cumbie, A. Eisenstark, P. H. S. Jen, D. Mertz, C. D. Miles
Associate Professor Emeritus B. G. Cumbie, A. Eisenstark, P. H. S. Jen, D. Mertz, C. D. Miles

Departmental Honors

The department strongly encourages participation in departmental honors. The heart of the honors program is a year-long experience in laboratory, field, or theoretical work in any area of biology. Students work directly with outstanding faculty mentors from the Division of Biological Sciences or other life science units on campus.

Students may earn degrees with honors by completing BIO_SC 4950H and BIO_SC 4952H (6 credits) and preparing a manuscript suitable for publication in a journal or the abstract of an oral or poster presentation at an on-campus symposium or at a regional or national meeting of a professional society. Students should meet with the honors program director to arrange their research experience. The honors program requires sophomore standing or higher and a GPA of 3.3. Students with a GPA between 3.0 and 3.29 may petition the director of the honors program for admission. Students must however graduate with a GPA of 3.3 to receive departmental honors. The honors program director is Professor David Setzer, 410 Tucker, 882-6821, setzerd@missouri.edu.

Co-Director of Graduate Studies: Raymond Semlitsch
Co-Director of Graduate Studies: Steve Alexander

About Biological Sciences

The Division of Biological Sciences offers a unique integration of world-class research, award-winning graduate and undergraduate training, and outstanding community outreach. Our research mission includes the acquisition of new knowledge through basic research, and coordinated translational research to improve human health, our food supply, and our environment. Graduate training programs emphasize the excitement of discovery and the development of individual creativity and critical reasoning skills, with graduate mentors who are experts at the frontiers of their field. Because science exposure in the pre-college years is critical to the development of both scientists and informed citizens, we also offer special outreach programs for secondary school science teachers, students and citizens in Missouri.

The Division of Biological Sciences actively recruits outstanding graduate students from both national and international pools. Selected candidates are interviewed. The best are admitted to the division for graduate study. Even more important than the quantitative Grade Point Average and GRE scores, we are interested in evidence of critical qualitative characteristics including: undergraduate research experiences and presentation of research results; ability to face and overcome obstacles; exceptional motivation, work ethic, intellectual vitality, initiative, creativity, critical thinking ability and leadership ability.

Areas of Study

The division offers primarily PhD degrees. General areas of research emphasis within the division include evolutionary biology, ecology and behavior; genetic, cellular, molecular and developmental biology; neurobiology and behavior; and plant sciences. Within these general
areas, students may devise more specific graduate programs in, for example, plant genetics, invertebrate chemical communication or neurophysiology.

**Interdisciplinary Research**

Several students are currently involved in interdepartmental programs in neurosciences, genetics, plant biochemistry and physiology, cellular and molecular biology, the Conservation Biology Program, microbiology and physiology. In addition, the presence on this campus of a School of Medicine, College of Agriculture, Food and Natural Resources and College of Veterinary Medicine provides opportunities for direct interaction with a variety of established research scientists. Faculty in the division also participate in the Genetics Area Program, the Pathobiology Area Program, the Molecular Biology Program, the Interdisciplinary Program in Plant Biochemistry and Physiology, the Interdisciplinary Neuroscience Program and the Conservation Biology Program.

All entering graduate students should have a broad background in biology and should have completed courses in mathematics through integral calculus, chemistry through organic chemistry and a year of physics. Exceptions may be made for individual students. Outstanding students with undergraduate degrees in areas other than biology (such as chemistry, physics, engineering, mathematics or psychology) are encouraged to apply with the understanding that subject matter in biology will be addressed in the first year of graduate study.

**Research Facilities and Resources**

Divisional faculty have ready access to the campus computing network and microcomputers in their laboratories. Beyond the specialized equipment in each faculty research laboratory, departmental and campus equipment and facilities available to graduate students include:

- Molecular and cellular biology core facilities, including DNA (with Next Generation Sequencing), Electron Microscopy, Cell and Immunobiology, Informatics, Nuclear Magnetic Resonance, Molecular Cytology, Proteomics, Structural Biology, and Transgenic Animal;
- a 250,000-specimen herbarium;
- a new 15,000-square-foot greenhouse complex;
- animal-care facilities suitable for mice, bats, rats, rabbits and amphibians;
- a 14-acre botany preserve on the campus and a 146-acre prairie research station;
- 24 walk-in plant growth chambers with regulated light, temperature and humidity controls;
- cell and tissue culture facilities;
- growth chambers;
- scanning spectrophotometers and kinetic fluorimeters;
- ultracentrifuges and scintillation counters;
- HPLC facilities;
- sound isolation acoustic chambers;
- neurophysiological recorders, oscilloscopes and amplifiers; and,
- microneurosurgery facilities and equipment.

**Funding**

Financial support is available through research training grants, fellowships, scholarships, graduate research assistantships, and graduate teaching assistantships.

---

**Undergraduate**

**Department Level Requirements - Biological Sciences**

**Requirements - Biological Sciences**

Requirements for the BA and BS degrees with a major in Biological Sciences include course work in biology and ancillary science departments (chemistry, physics and math). The BS degree program requires more extensive course work, with additional studies in biology and the ancillary sciences. The BA degree program is more flexible and has fewer required courses to accommodate students with dual degrees or minors in other departments. Both degree programs can be used to prepare for graduate study or professional school. Students must also complete college and university graduation requirements, including university general education requirements.

All courses in the major (including ancillary sciences) must be completed with a grade of C- or higher with a cumulative GPA of 2.0 or higher. At least 12 hours of biology coursework must be taken in residence at MU.

**Foreign Language Alternative for students pursuing a BS degree in biological sciences**

Students who are pursuing a BS degree with a major in biological sciences may opt to satisfy the foreign language requirement through alternative coursework consisting of at least 12 credits in courses numbered 2000 or above. These courses may not be used to satisfy other degree requirements and may not be used to fulfill a minor in another department. Students should confer with the Biology Advising Office to insure that alternative courses meet departmental requirements and all alternatives must be approved by the Director of Undergraduate Studies.

**Major Core Requirements Biology**

BA in Biological Sciences

Major Program Requirements

Department Level Requirements (p. 156) must be completed in addition to all university requirements (p. 19), including general education (p. 20), and the degree requirements below.

CHEM 1320 College Chemistry I 4
CHEM 1330 College Chemistry II 4
CHEM 2100 Organic Chemistry I 3-6
& CHEM 2110 Organic Chemistry II
or CHEM 2030 Survey of Organic Chemistry
One course in Physics, Geology or Astronomy 4-5
Select one of the following: 3-5
MATH 1400 Calculus for Social and Life Sciences I
MATH 1500 Analytic Geometry and Calculus I
STAT 1200 Introductory Statistical Reasoning
or STAT 1300 Elementary Statistics
or STAT 1400 Elementary Statistics for Life Sciences

INFOTC 1040 Introduction to Problem Solving and Programming

Total Credits: 18-24

All courses in the major (including ancillary sciences) must be completed with a grade of C- or higher with a cumulative GPA of 2.0 or higher. At least 12 hours of biology coursework must be taken in residence at MU.

Semester Plan

NOTE: These plans are intended only as general guides. Courses outside Biology, Chemistry, MATH 1100, and ENGLISH 1000 are provided only for illustrative purposes. Advanced credit or exemption from the Foreign Language requirement and/or advanced credit in non-science courses, along with the interests of each individual student will determine a final combination of courses in each semester that is unique for each student. Note also that the sample schedules in Semester 5 and beyond are left incomplete on purpose because each schedule should be highly individualized at that point. Students who are pursuing the BA will not need to complete CHEM 2130.

Plan 1

A student that is exempt from MATH 1100

Additional Biological Sciences

Select 10 credits from at least two of the following areas:

- Genetics
  - BIO_SC 2200 General Genetics
  - BIO_SC 2300 Introduction to Cell Biology
  - Evolutionary Biology
    - BIO_SC 3400 Evolution and Ecology
    - BIO_SC 4600 Evolution
  - Biological Diversity
    - BIO_SC 2600 Ornithology
    - BIO_SC 2700 Ichthyology
    - BIO_SC 3210 Plant Systematics
    - BIO_SC 3260 Invertebrate Zoology
**Admission Criteria**

- Fall deadline: December 15
- Minimum TOEFL scores:
  - Internet-based test (iBT): 100
  - Paper-based test (PBT): 600
- Minimum GRE scores:
  - When did you take the GRE?
    - Prior to August 1, 2011: 1200
    - On or after August 1, 2011: 300

**Required Application Materials**

*To the Graduate School:*
- All required Graduate School documents

*To the Biological Sciences Program:*
- Division of Biological Sciences application form
- GRE test scores
- Official Transcripts
- 3 Reference letters
- Personal Statement
- Statement of previous research or scholarly experience
- Résumé

---

**Graduate**

**MA in Biological Sciences**

**Areas of Study**
The division offers primarily the PhD degree (p. 159).

**PhD in Biological Sciences**

**Admission Contact Information**

College of Arts and Science  
218 Tucker Hall  
Columbia, MO 65211  
800-553-5698  
573-882-1847

The Division of Biological Sciences actively recruits outstanding graduate students from both national and international pools. Selected candidates are interviewed. The best are admitted to the division for graduate study. Even more important than the quantitative Grade Point Average and GRE scores, we are interested in evidence of critical qualitative characteristics including: undergraduate research experiences and presentation of research results; ability to face and overcome obstacles; exceptional motivation, work ethic, intellectual vitality, initiative, creativity, critical thinking ability and leadership ability.

**Eligibility**

All entering graduate students should have a broad background in biology and should have completed courses in mathematics through integral calculus, chemistry through organic chemistry and a year of physics. Exceptions may be made for individual students. Outstanding students with undergraduate degrees in areas other than biology (such as chemistry, physics, engineering, mathematics or psychology) are encouraged to apply with the understanding that subject matter in biology will be addressed in the first year of graduate study.
The Department of Chemistry offers four undergraduate degree tracks, three leading to a Bachelor of Science and one leading to a Bachelor of Arts. A minor in chemistry and a Bachelor of Science degree with departmental honors also are offered.

At the graduate level, the department offers MS and PhD degrees in Chemistry.

Faculty

Curators Professor J. L. Atwood**
Curators Teaching Professor J. E. Adams**
Rabjohn Professor M. Harmata**
Schlundt Professor K. S. Gates**
Assistant Teaching Professor B. C. Ganley
Instructor L. P. Silverman

* Graduate Faculty Member - membership is required to teach graduate-level courses, chair master’s thesis committees, and serve on doctoral examination and dissertation committees.
** Doctoral Faculty Member - membership is required to chair doctoral examination or dissertation committees. Graduate faculty membership is a prerequisite for Doctoral faculty membership.

Undergraduate

Director of Graduate Studies: Timothy Glass

The Department of Chemistry offers graduate degrees in all areas of modern chemistry, including analytical, biological, computational, inorganic, organic, physical and radiochemistry.

Resources and Facilities

The department has well-equipped laboratories that contain state-of-the-art instrumentation and computing facilities for research. Major instrumentation includes NMR, X-ray diffraction and mass spectrometry centers, as well as a nuclear/radiochemistry lab. Other campus facilities widely used by the department include a central instrument shop, electronics shop, campus computing center and a 10-megawatt nuclear reactor. The latter provides a high neutron flux for radioisotope production, neutron activation analysis and neutron diffraction studies.

Internal Funding

Fellowships and teaching and research assistantships are available for highly qualified applicants. Application forms are available on the department’s website and should be submitted by February 1.

Graduate Degree Requirements

Students are strongly encouraged to visit the Department of Chemistry site (http://chemistry.missouri.edu) for the most up-to-date information.

Entrance Criteria

An applicant for graduate work in chemistry should have either a Bachelor of Arts or Bachelor of Science degree in chemistry, essentially equivalent to those awarded at MU, with at least a B average or a score at the 70th percentile on the GRE general test.

Examinations

All new graduate students in chemistry are required to take Departmental placement/qualifying examinations in all core areas (analytical, inorganic, organic and physical) prior to registration. Students must qualify in two areas. A student who performs well on an exam, as determined by the department’s Graduate Program Committee, will be considered to have qualified in that area. Students who do not qualify in particular areas, via the placement examinations, must pass appropriate advanced-level courses in those areas to qualify. An A or B grade is required in these courses for qualification.

Research, Advising, and the Committee

Affiliation with research adviser must be made by the end of the first semester through a formal process that is part of CHEM 7087. Student progress in the degree program is evaluated annually in May, using the Graduate Student Progress System through the Graduate School. In addition, the student’s Graduate Program Committee meets with the student and their research advisor after their first summer of research to review degree progress. At this time the student will have submitted a formal Research Progress Report to their committee for consideration. All students are expected to attend Departmental Colloquium and Organic/DyNAMITE seminars.

Undergraduate

Department Level Requirements - Chemistry

Requirements - BA or BS students

Students should consult with a chemistry advisor to schedule science and mathematics requirements in the appropriate order. Note that for
a number of chemistry courses there is a prerequisite of a grade of C or better in a previous course. Please see the Associate Chair for Undergraduate Studies for assignment of an advisor.

Students also must complete all applicable College of Arts and Sciences and University graduation requirements (p. 131), including University general education (p. 20). Note that students pursuing a BS degree with a major in Chemistry may opt to satisfy the foreign language requirement through alternative course work consisting of no fewer than 12 credits numbered 2000 or above.

### Departmental Honors

A BS with Honors in Chemistry is available to honors-eligible BS students who complete CHEM 4990H and CHEM 4991H as well as all of the requirements for the ACS Certification Track. (These courses replace CHEM 4950) Please see the Chemistry Honors Coordinator, for more specific details about the Honors in Chemistry program.

### Degree Tracks

Beyond the major core requirements, each student must select a degree track. There is one track for students pursuing a BA degree and three for those pursuing a BS. The BA degree is designed to meet the needs of students who wish to gain a strong chemistry background but who may have goals other than employment as a chemist or graduate work in chemistry. The American Chemical Society certification track is recommended for BS students who desire professional employment as chemists or who plan to pursue graduate education in chemistry. A medicinal chemistry track is available to BS students who plan careers in the health professions or in pharmaceutical, clinical or medicinal chemistry. The third BS track, leading to simultaneous completion of a BS in Chemistry and a BS in Education, is appropriate for those students who wish to teach chemistry in secondary schools. More information about this third degree track is available from the Chemistry Associate Chair for Undergraduate Studies.

Note: “Track” designations do not appear on transcripts or diplomas.

### Double Majors

No specific programs (other than the dual degree program with the College of Education noted above) are offered, although it is possible to combine a chemistry major (BS or BA) with a variety of other majors, including biological sciences, mathematics and physics.

### BA in Chemistry

Total Credits: 20

If a student's major already requires all of these courses, then an additional elective course not included in that major must be included in the chemistry minor. At least 9 hours of this course work must be taken at MU.

On-line application form for the Minor in Chemistry (http://backup.coas.missouri.edu/UGForms/minor.html)

PhD in Chemistry

Admission Contact Information

Jerry Brightwell (gradchem@missouri.edu)
125 Chemistry
Columbia, MO 65211
573-884-6832

Admission Criteria

Fall deadline: February 1
Spring deadline: October 15

- Minimum TOEFL scores:
  - Internet-based test (IBT)
  - Paper-based test (PBT)
  - 100
  - 600

- Minimum GRE scores:
  - Verbal
  - Quantitative
  - Analytical
  - Prior to August 1, 2011
  - 450
  - 600
  - 3.0-4.0
  - On or After August 1, 2011
  - 150
  - 150
  - 3.0-4.0

Required Application Materials

To the Graduate School:

- All required Graduate School documents

To the Chemistry Program (http://chemistry.missouri.edu/grad/gradprospec.html):

- Departmental Application (PDF)
- GRE scores
- 3 letters of recommendation
- Transcripts from each college and university you have attended
- Statement of Purpose, which should include a summary of why you are interested in pursuing an advanced chemistry degree, a brief description of your previous research experiences, the specific area of chemistry you are interested in pursuing, and your future career goals and plans in the chemistry field.

Financial Aid from the Program

Some programs require an extra form or statement from those who wish to be considered for internal assistantships, fellowships or other funding packages. Check the program website or ask the program contact for details.

Doctoral Degree Requirements

The following is a brief synopsis of the general degree requirements; please see the Department of Chemistry website for complete details:

1. Students must take at least 5 8000-level courses outside their own research concentration.
2. Students must pass 5 written cumulative exams within a specific time frame.
3. Students must present at least one departmental seminar.

MS in Chemistry

At this time, the Department of Chemistry is not accepting students into the Master of Science program. Please see admission information on our PhD Program (p. 163).
4. Students are required to complete a comprehensive exam, which includes written and oral elements, within a specific time frame.

5. Students must submit and defend a dissertation describing the results of successful and original research in one of the branches of chemistry.
Classics

D. Schenker, Chair
College of Arts and Science
408 Strickland Hall
(573) 882-0679

The Classical Studies Department offers courses in the life, languages, cultures, and thought of the ancient Greeks and Romans.

The department offers a BA degree with a major in Classics and emphasis areas in Classical Humanities, Greek, Latin, and Classical Languages; MA degrees in Classical Languages and PhD degrees in Classical Studies. Minors are also available.

Faculty

Professor T. A. Tarkow**
Assistant Professor M. Farmer**
Associate Teaching Professor M. H. Barnes*
Professor Emeritus D. M. Hooley**; C. Saylor*
Visiting Assistant Professor D. Krasne

* Graduate Faculty Member - membership is required to teach graduate-level courses, chair master’s thesis committees, and serve on doctoral examination and dissertation committees.
** Doctoral Faculty Member - membership is required to chair doctoral examination or dissertation committees. Graduate faculty membership is a prerequisite for Doctoral faculty membership.

Undergraduate

• BA in Classics (p. 165)
  • with emphasis in Classical Humanities (p. 166)
  • with emphasis in Classical Languages (p. 166)
  • with emphasis in Greek (p. 166)
  • with emphasis in Latin (p. 167)
• Minor in Classics with emphasis in Classical Humanities or Greek or Latin (p. 167)

Major with Honors

The undergraduate program can also include 3-6 credits in an honors thesis course (CL_HUM 4970H or CLASS 4970H). These credits, in addition to major requirements and a 3.5 GPA in all classical studies courses (as well as a 3.3 overall GPA), lead to a BA degree with a major in Classics with Honors.

Double Majors

A double major is a good way of integrating two related areas of interest, such as Classics and Archaeology or English and Philosophy. Students looking forward to a career in medicine or the sciences may use a double major (Classics and Biology or Chemistry, for instance) to ensure a thorough background in the humanities to balance their scientific studies. Usually minor or related field requirements for each major are satisfied by major courses in the other department. Consult with departmental advisors about specifics.

Graduate

• MA in Classical Languages (p. 167)
• PhD in Classical Studies (p. 168)

Graduate Studies
405 Strickland Hall
573-882-0679
http://classics.missouri.edu/

Director of Graduate Studies: Raymond Marks

The Department of Classical Studies offers graduate work leading to the degrees of Master of Arts and Doctor of Philosophy. The graduate faculty encourages applications from talented and committed students, whose undergraduate careers have given them an appreciation of the rich, many-faceted nature of classical studies and an interest in discovering a place of their own in it. Solid experience in Latin and Greek is of course desirable, but Missouri’s MA program is specifically designed for students whose study in one or both of the languages may have come late and who need help getting up to speed rapidly.

Career Preparation

Graduate programs in classical studies are designed to prepare students for professional careers as teachers and scholars of classical literature and ancient civilization. Besides acquiring expertise in the traditional classical disciplines, students are encouraged to become familiar with other areas, such as later literatures and cultures, on which the classical tradition has exercised a decided effect.

Facilities and Resources

Because MU is a contributing member of the American Academy in Rome and the American School of Classical Studies in Athens, the facilities of those organizations are available to graduate students from Missouri. Study in Athens or Rome is often feasible after the completion of a master’s degree. On campus, students have at their disposal the resources of Ellis Library, which are excellent in the major fields of Greek and Latin languages and literatures, and in ancillary fields. This collection is supplemented by the department’s Walter Miller Collection. The Museum of Art and Archaeology contains many items of interest to classicists.

Undergraduate

BA in Classics

Major Program Requirements

BA major requirements are specified in the four major emphasis areas: Latin, Greek, Classical Languages, and Classical Humanities. These must be met in addition to college and university requirements (p. 131), including University general education (p. 20).

Semester Plan

A sample plan of study has not been designed for this major. Students should contact the academic department for assistance with academic planning.
**BA in Classics with Emphasis in Classical Humanities**

**Major Program Requirements**

Below are the degree requirements. These must be met in addition to college and university requirements (p. 131), including University general education (p. 20).

CL HUM Courses at the 1000-2000 levels

6-9

CL HUM Courses at the 3000-level or above

15-18

(Latin or Greek language courses numbered 4300 or above can be used to replace up to two required Classical Humanities courses.)

**Semester Plan**

Please note that this is only one of many possible routes to a major and that one may concentrate in Latin, or Greek, Classical Languages, or Classical Humanities. For guidance on how to approach other major concentrations, please see the Director for Undergraduate Studies in the Classics Department.

### BA in Classics with Emphasis in Classical Languages

**Major Program Requirements**

Below are the degree requirements. These must be met in addition to college and university requirements (p. 131), including University general education (p. 20).

GREEK 1100 & GREEK 1200 & GREEK 2000 or GREEK 1100H & GREEK 1200H & GREEK 2000H or LATIN 1100 & LATIN 1200 & LATIN 2000 or LATIN 1100H & LATIN 1200H & LATIN 2000H (may be used to help satisfy the foreign language requirement in the College of Arts and Science)

GREEK 4300 Intermediate Readings 3

LATIN 4300 Latin Poetry 3

or LATIN 4350 Latin Prose 3

4000-level course in Greek or Latin 3

CL HUM courses at the 2000-level or higher 9

**Semester Plan**

A sample plan of study has not been designed for this major. Students should contact the academic department for assistance with academic planning.

### BA in Classics with Emphasis in Greek

**Major Program Requirements**

Below are the degree requirements. These must be met in addition to college and university requirements (p. 131), including University general education (p. 20).

GREEK 1100 & GREEK 1200 & GREEK 2000 or GREEK 1100H & GREEK 1200H & GREEK 2000H (may be used to help satisfy the foreign language requirement in the College of Arts and Science)

GREEK 4300 Intermediate Readings 3

GREEK 4350-level or above 9

CL HUM courses at the 2000-level or above 9
Semester Plan

A sample plan of study has not been designed for this major. Students should contact the academic department for assistance with academic planning.

BA in Classics with Emphasis in Latin

Major Program Requirements

Below are the degree requirements. These must be met in addition to college and university requirements (p. 131), including University general education (p. 20).

LATIN 1100 & LATIN 1200 & LATIN 2000
Elementary Latin I and Elementary Latin II and Latin Reading
13

LATIN 1100H & LATIN 1200H & LATIN 2000H
Honors Elementary Latin and Honors Elementary Latin II and Latin Reading - Honors
(may be used to help satisfy the foreign language requirement in the College of Arts and Science)

LATIN 4300 Latin Poetry 3
LATIN 4350-level or above 9
CL_HUM courses at the 2000-level or above 9

Semester Plan

A sample plan of study has not been designed for this major. Students should contact the academic department for assistance with academic planning.

Minor in Classics

Minor in Classics with Emphasis in Classical Humanities

Minor requires 15 credit hours

1000 through 2000-level 3-6
3000 through 4000-level 9-12
(3 credits in Greek or Latin language at the 4300-level or above may substitute for equivalent credits)

Total Credits 15

Minor in Classics with Emphasis in Greek

Minor requires 15 credit hours.

GREEK 4300 Intermediate Readings 3
One 4350-level or higher Greek course 3
CL_HUM courses at the 2000-level or higher 9

Total Credits 15

Minor in Classics with Emphasis in Latin

Minor requires 15 credit hours.

LATIN 4300 Latin Poetry 3
One 4350-level or higher Latin course 3

Graduate

MA in Classical Studies

Admission Contact Information
Raymond Marks (marksr@missouri.edu)
405 Strickland Hall, Columbia, MO 65211
573-882-0679

Admission Criteria

Fall deadline: April 1
NOTE: Deadline for teaching assistantship applicants: January 15
Spring deadline: November 1

• Minimum GPA: 3.0 during last 2 years
• Bachelor of arts degree from an accredited college or university
• Reading knowledge of Greek and/or Latin
• GPA of at least 3.0 in Greek and/or Latin courses
• Minimum GRE score: no minimum
• Minimum TOEFL scores

Internet-based test (IBT) Paper-based test (PBT)
61 Effective July 1, 2015 must have score of 80
500 Effective July 1, 2015 must have score of 550

Required Application Materials

To the Graduate School
• 3 letters of recommendation
• Statement of interest
• 10-20 pp. writing sample
• Transcripts
• GRE scores

Application materials that cannot be submitted directly to the Graduate School may be sent to the Classical Studies program.

Financial Aid from the Program

Some programs require an extra form or statement from those who wish to be considered for internal assistantships, fellowships or other funding packages. Check the program website or ask the program contact for details.

Plan of Study

The minimum course of study is 30 semester hours. Of these, at least 12 hours in Greek, Latin, classics and related fields must be at the 8000/9000 level or above, and at least six hours must be in courses in other departments. At least 21 of the 30 hours must be completed in Greek, Latin or classics in the department. CLASS 7000 is required of all students during their first year of graduate study. Students who wish to have a minor may take 10-12 hours in another department or complete an ancient studies minor.
Languages
Some command of German and French (or Italian) is helpful from the outset, and MA candidates are required to have demonstrated proficiency in one of the languages by the time that they begin their second year of graduate study. Degree candidates take MA language tests (Latin and/or Greek) in the 2nd or 3rd year of graduate studies.

Written Works and Oral Examination
A final oral examination is given by a faculty committee selected by the student in consultation with the advisor. This examination will include defense of either the thesis or a compiled portfolio of seminar papers. If the former option is elected, the thesis will account for six credit hours.

PhD in Classical Studies

Admission Contact Information
Raymond Marks (marksr@missouri.edu)
405 Strickland Hall, Columbia, MO 65211
573-882-0679

Admission Criteria
Fall deadline: April 1, Deadline for teaching assistantship applicants: January 15
Spring deadline: November 1

• MA with a major in Greek, Latin or classics, or the equivalent of a minimum of 21 hours of graduate work in the language(s). Reading knowledge of Greek and Latin and a reading knowledge of German and French (or Italian)
• Minimum GRE score: no minimum
• Minimum TOEFL scores:
  Internet-based test (iBT)  Paper-based test (PBT)
  61  500

Required Application Materials
To the Graduate School

• 3 letters of recommendation
• Statement of interest
• 10-20 pp. writing sample
• Transcripts
• GRE scores

Application materials that cannot be submitted directly to the Graduate School may be sent to the Classical Studies program.

Financial Aid from the Program
Some programs require an extra form or statement from those who wish to be considered for internal assistantships, fellowships or other funding packages. Check the program website or ask the program contact for details.

Language Requirements
Proficiency in one of the modern foreign languages (i.e., French, German, or Italian) must be demonstrated by the time of registration for the second year of graduate study; proficiency in the second language must be demonstrated by the time of registration for the third year.

Plan of Study
A minimum of 72 hours of graduate credit is required for the PhD degree. A maximum of 30 hours of this total may consist of hours transferred from the MA degree. At least 21 additional hours must be taken in the department at the graduate level. A minimum of eight hours of dissertation credit is required. At least two courses in related ancient fields, one of which must be in ancient history or classical archaeology, must be taken at the graduate level. Proficiency in Greek and Latin composition must be demonstrated at some point by course work or examination.

Minors and Areas of Concentration
All candidates must include in their plan of study a minor or area of concentration consisting of at least 12 hours at the graduate level outside the department. Suggested areas include ancient history, classical archaeology, the classical tradition, late antiquity, the oral tradition, rhetoric, or romance languages. A structured minor in ancient studies also is available.

Examinations
All candidates are required to complete two four-hour qualifying examinations, one in Greek and one in Latin.

Comprehensive: Written
After completing residency, language, and course requirements, PhD candidates must pass the comprehensive examination consisting of four written examinations in the following fields: Greek literature, Latin literature, special author or topic, and area of concentration or minor field. With the approval of the advisor and the candidate’s committee, extra course work beyond the required 12 hours may be substituted for the written examination in the area of concentration or minor field. Ancient Studies minors are automatically excused from the examination in the minor field.

Comprehensive: Oral
The oral comprehensive examination is taken only after the candidate successfully passes the written examinations.

Dissertation
Within one month of completion of both written and oral comprehensive exams, or at the beginning of the Fall term if the exams are taken in May, the candidate must meet with the doctoral program committee to obtain formal approval of the dissertation topic. Continuous enrollment must be maintained while the candidate completes the dissertation. At least eight hours of dissertation credit are required. A final oral defense of the dissertation is held upon completion of the dissertation.
Communication

Mitchell McKinney, Chair
College of Arts and Science
108 Switzler Hall
(573) 882-4431
http://communication.missouri.edu

The Department of Communication offers courses in creating and critically evaluating messages. These messages persuade, inform and entertain in contexts such as one-to-one interactions, communication in organizations, and media. Students prepare for careers in broadcasting, sales, public relations, law, politics, marketing and new media.

The department offers BA, MA and PhD degrees with majors in Communication.

Faculty

Associate Professor D. S. Dougherty**, M. S. McKinney**, R. Meisenbach**
Assistant Professor L. Behm-Morawitz**, M. Click**, C. Colaner**, K. Harris, J. B. Houston**, B. Warner*
Assistant Teaching Professor A. Villamil*
Associate Professor Emeritus M. J. Porter, M. J. Smythe
Adjunct Professor D. Dunkin, M. W. Dunn*, R. Karwoski
Professor Emeritus L. Reid

* Graduate Faculty Member - membership is required to teach graduate-level courses, chair master’s thesis committees, and serve on doctoral examination and dissertation committees.
** Doctoral Faculty Member - membership is required to chair doctoral examination or dissertation committees. Graduate faculty membership is a prerequisite for Doctoral faculty membership.

Undergraduate

• BA in Communication (p. 169)

Admission

Because of student interest in communication programs, admission is restricted. Students must apply for admission no earlier than the first semester of their sophomore year, or during the semester in which they will complete 45 credits. A copy of the admission procedures and policies is available in the department office or at http://communication.missouri.edu.

The student’s grade point average from the MU system as adjusted by the MU grade repeat policy and the grade point averages in completed communication courses at MU are the primary criteria used to determine admission to the program.

Transfer Student Admission

Transfer students are not eligible for admission until they have completed at least one semester in residence (12 credits) and a communication course in residence. Students who are not admitted may reapply for consideration in subsequent terms.

Departmental Honors

To receive departmental honors, a student must earn a minimum overall MU GPA of 3.3 and a minimum GPA of 3.5 in courses in communication completed at the University of Missouri. Students must a research project for a minimum of 3 credits with a faculty member, or a creative project completed for a minimum of 3 credits with a faculty member.

Graduate

• MA in Communication (p. 171)
• PhD in Communication (p. 171)

Communication Graduate Programs
College of Arts and Science
108 Switzler Hall
573-882-4431
http://communication.missouri.edu/

Director of Graduate Studies: Mitchell McKinney

About the Program

The program takes a theoretical, critical, and experimental approach to the study of communication. The MA program is designed to further enhance the understanding of the communication process by allowing students to study various aspects of communication in greater depth. Graduates are employed in corporate communication, educational and instructional media, sales, research and consulting. The doctoral program is designed for those interested in an academic career of college or university teaching and research. Doctoral students graduate with a strong theoretical background in interpersonal, mass media, organizational, or political communication.

Funding

Graduate students are eligible to apply for fellowships and graduate teaching assistantships. Funding is normally limited to doctoral students.

Undergraduate

BA in Communication

Major Program Requirements

The major in communication includes a minimum of 30 hours and a maximum of 40 hours in communication courses. Each course is 3 credits unless otherwise noted. Students must also complete College of Arts and Sciences and University requirements (p. 131), including University general education requirements (p. 20).

Areas of Focus

In addition to required courses, a student must select one of four areas of focus. Students must complete 12-18 hours in one area of focus including one of the core courses in that area (*). The student must take one course in two of the three other areas of focus. A course may only count once toward meeting these requirements. Students must have at least one 4000+ level course in the major. (Areas of Focus will not appear on transcripts or diplomas.)

** One Communication course must be COMMUN 3050, writing intensive.

*** May not exceed 40 hours in the major.

**Financial Aid from the Program**

Some programs require an extra form or statement from those who wish to be considered for internal assistantships, fellowships or other funding packages. Check the program website or ask the program contact for details.

**Plan of Study**

Not more than 6 semester hours of the required 30 hours of credit may be transferred from another university or campus of the University of Missouri System. There is no language requirement. For the assignment of advisors, students should see the director of graduate studies.

**Thesis and Non-thesis Options**

The master of arts degree may be completed under either a thesis option, approved by an advisory committee, or a non-thesis option (with a comprehensive examination and project). Both plans require a minimum of 30 hours of graduate credit, including at least 15 hours of course work at the 8000/9000 level. MA candidates may take up to 6 hours of credit for their MA project for the non-thesis option. MA candidates take a minimum of 6 hours in 9090 Thesis Research for the thesis option.

**Credit Hours for Production**

No more than 9 hours of course work or independent study in television production or scriptwriting will be accepted for the MA degree. Students may opt to take more production hours but they may not be included in the candidate’s plan of study.

**Length of Study**

The MA must be completed in 8 years.

**PhD in Communication**

**Admission Contact Information**

Martha Crump (crumpm@missouri.edu)
108 Switzler Hall; Columbia, MO 65211
573-882-4432

**Admission Criteria**

Fall deadline: January 15

- Minimum GPA: 3.0
- Minimum TOEFL scores:

<table>

<td>144</td>
<td>4.0</td>
</tr>
</tbody>
</table>

Students who do not have an undergraduate degree in communication may be required to take course work beyond the required 30 hours to provide necessary background.

**Required Application Materials**

To the Graduate School:

- All required Graduate School documents

To the Communication Program (http://communication.missouri.edu/?q=grad/admissions)

- Departmental application
- 3 letters of recommendation

- Example of scholarly writing (no more than 25 pages)
- Transcripts
- Statement of purpose (no more than 500 words) explaining the student's intended field of study, professional goals and other reasons for wishing to enter the graduate program
- GRE scores
- Résumé

**Credit Hours for Production**

No more than 9 hours of course work or independent study in television production or scriptwriting will be accepted for the MA degree. Students may opt to take more production hours but they may not be included in the candidate’s plan of study.

**Length of Study**

The MA must be completed in 8 years.

Admission procedures for students who have completed the MA degree elsewhere and wish to become PhD candidates are identical to the departmental requirements outlined for MA candidates. Only those applicants who show evidence of a clear likelihood of successful doctoral work are admitted.

Required Application Materials
To the Graduate School
All required Graduate School documents

To the Communication Program
• GRE scores
• Departmental Application
• 3 letters of recommendation
• Example of scholarly writing (no more than 25 pages)
• Transcripts
• Statement of Interest
• Résumé

Financial Aid from the Program
Some programs require an extra form or statement from those who wish to be considered for internal assistantships, fellowships or other funding packages. Check the program website or ask the program contact for details.

Plan of Study
Before registering for courses, the student must confer with their temporary advisor until a permanent advisor is assigned.

Committee and Qualifying Requirements
A doctoral program committee approves the student’s course of study and determines if the student has passed the qualifying requirements during the spring semester of the first year. Only after passing the qualifying requirements will the student be admitted to candidacy for the PhD degree in communication.

For a student whose MA program was done at MU, the six-hour comprehensive examination or the MA thesis defense constitutes the qualifying process. The student may proceed beyond the MA degree only upon the recommendation of the MA examining committee.

Courses
The PhD candidate must take at least 48 hours of course work beyond the MA. Students with an MA degree in another discipline may be required by their doctoral program committee to complete additional course work. Course work will include 36 hours within the department. The following courses are required:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>COMMUN 8110</td>
<td>Introduction to Graduate Study in Communication</td>

</tr>
<tr>
<td>COMMUN 8150</td>
<td>Seminar in Media Criticism</td>
</tr>
<tr>
<td>COMMUN 8140</td>
<td>Content Analysis</td>
</tr>
</tbody>
</table>

Including the courses listed above, students must complete a total of 15 hours of research methods classes. Nine of these hours may be taken outside the department.

Students must also complete a 6-hour collateral field block outside the department representing a coherent unit of study and relates to an area of major research interest.

Total Credits
36

Comprehensive Examination
The comprehensive examination, including a 30-page literature review, a 15-hour written exam and an oral defense, will cover all areas of studies in the field. During the semester students take comprehensive exams they enroll in.

Dissertation
The doctoral dissertation is written under the direction of the candidate’s advisor. The dissertation and the final oral examination on the dissertation complete the requirements for the PhD in communication. Students take a minimum of six hours of.

Length of Study
Course work and comprehensive exams for the PhD must be completed in five years. The dissertation must be completed within five years of completing comprehensive examinations. Satisfactory rate of progress means making adequate progress to meet these time requirements. Students working at a typical pace should be able to complete the doctorate in 4 years beyond their master’s.
Digital Storytelling

Combining the ancient practices of narrative with new and emerging tools of multimedia environments, Digital Storytelling emphasizes skills in writing, visual communication and design, and production. Like other forms of storytelling, digital storytelling reaches audiences for artistic, educational, and commercial purposes, translating human knowledge and experience into multimedia spaces. In an age of big data and rapidly changing communication environments, translational skills to connect audiences with interdisciplinary knowledge and expressive arts—from public health to climate science to campaigns to video games—are in high demand across business, government, nonprofit and research sectors. Training in the field requires literacy in narrative, multimedia and networked communication, as well as all elements of digital production, including writing, audio and visual production, and design.

Faculty

Faculty for Digital Storytelling teach across multiple disciplines. A complete listing of faculty can be found here (p. 1499).

Undergraduate

• BA in Digital Storytelling (p. 173)

Graduate

There currently is not a degree in Digital Storytelling offered at the graduate level.

Semester Plan

A semester plan has not been created for this degree.
The Department of Economics takes a global view of economics, with an emphasis on applied problems. An economics major prepares students for careers in business and government and for graduate work in areas such as economics, business and law. A basic understanding of economics develops insight into the many issues facing contemporary society, such as corporate downsizing, environmental pollution, urban decay, poverty, international trade, health care, educational reform, politics and sports deals.

In addition to the BA and the BS degree in the College of Arts and Science, the Economics Department offers an emphasis area within the Bachelor of Science in Business Administration (BSBA) degree in the Trulaske College of Business. The department also offers MA and PhD degrees in Economics. A minor is also available.

Faculty

- **Cook Chair** C. Otrok
- **Foster Professor** R. Harstad
- **Lay Chair** J. H. Hasliag
- **Research Professor** W. A. Brock
- **Professor** D. M. Mandy, J. Milyo, P. Mueser, X. Ni, M. J. Podgursky, X. Wang
- **Associate Professor** S. P. Aura, E. M. Basker, C. Gu, C. Koedel, O. Loginova, J. I. Miller, N. A. Raymon, V. Trindade
- **Associate Teaching Professor** M. Lee
- **Associate Research Professor** M. Ehler
- **Assistant Professor** A. Hedlund, D. Kaplan, D. Lee
- **Assistant Research Professor** E. Parsons
- **Assistant Teaching Professor** G. Chikladze
- **Assistant Adjunct Professor** K. Choe, S. K. Klein
- **Professor Emeritus** C. F. Menezes, R. Wallace
- **Associate Professor Emeritus** C. Geiss, D. Schilling

* Graduate Faculty Member - membership is required to teach graduate-level courses, chair master’s thesis committees, and serve on doctoral examination and dissertation committees.

** Doctoral Faculty Member - membership is required to chair doctoral examination or dissertation committees. Graduate faculty membership is a prerequisite for Doctoral faculty membership.

Undergraduate

- **BA in Economics** (p. 176)
- **BS in Economics** (p. 177)
- **Minor in Economics** (p. 178)

Before a graduation plan in economics will be approved, students in the College of Arts and Science must have an overall GPA of 2.5 after 30 credits and a GPA in economics of 2.67 after at least 8 credits of courses in economics.

Departmental Honors

Candidates for Economics departmental honors must be Economics majors with a GPA of 3.30 overall and a GPA of 3.50 or higher in Economics courses taken at the University of Missouri-Columbia. Candidates must complete ECONOM 4371 Introductory Econometrics, ECONOM 4995 Honors Proseminar, and ECONOM 4971 Supplemental Senior Seminar in Economics, during the junior or senior year and must receive a grade of B or higher in order to be awarded Department Honors.

Double Majors, Dual Degrees and Five-Year Program

For double majors and dual degrees, students must satisfy all requirements of both degree programs. Some courses may be allowed to count toward both degrees. Carefully chosen elective courses in addition to required courses can facilitate double majors and dual degrees.

Common double majors in the College of Arts and Science are:

- BA with majors in Economics and Political Science, Psychology, History, English or Communication
- BS with majors in Economics and Statistics or Mathematics

Common dual degrees with other schools and colleges are:

- BA with majors in Economics and Journalism, Accountancy, Finance, Marketing or Education
- BS with majors in Economics and Engineering

By planning their courses carefully, Economics majors can earn a bachelor’s and a master’s degree in economics in five years. Students who are in the BA or BS programs are good candidates for this program. Students must be accepted to this program by the beginning of their senior year.

Students interested in pursuing any of these options should contact the Undergraduate Advising Contact in economics for further advising.

Economics Emphasis Area in Business Administration Major

See the Trulaske College of Business for requirements for the Bachelor of Science with a major in Business Administration (BS BA) with an emphasis in Economics (p. 334).
**BA in Economics**

**Major Program Requirements – Economics**

In addition to the major core requirements, students must complete college and University graduation requirements (p. 19) including University general education requirements (p. 20).

**Options**

Students majoring in economics may earn either a BS or a BA degree. The last 21 credit hours in Economics must be completed in residence. Depending upon which degree is sought, students must choose one of the options below:

**BA with a major in Economics**

The BA degree is designed for students who plan to continue their education in non-economics fields and for students who plan to seek employment after graduation. Post-graduate educational alternatives include law school or programs in the business school, political science and journalism. Post-graduate employment opportunities include positions in state government, banking, insurance or other financial sectors, and private sector businesses. Frequently, students in humanities or fine arts complete a BA in Economics as a second major in order to increase their employment potential.

**Major Core Requirements for BA Economics**

(must earn a grade of C or above; grades of C- or below will not be accepted)

- ECONOM 4340 Introduction to Game Theory
- ECONOM 4345 Economics of Education
- ECONOM 4355 Industrial Organization and Competitive Strategy
- ECONOM 4357 Health Economics
- ECONOM 4360 Economic Development
- ECONOM 4367 Law and Economics
- ECONOM 4370 Quantitative Economics (Elective for BA, Required for BS)
- ECONOM 4385 Problems in Economics
- ECONOM 4775 Dynamic Optimization and its Applications to the Natural Sciences and Economics
- ECONOM 4965 Independent Study in Economics

Any two of ECONOM 3224, ECONOM 4325 and ECONOM 4326 may be taken for credit. But if all three are taken, ECONOM 3224 will not count towards an economics degree.

No more than 3 total credit hours of ECONOM 4385 and ECONOM 4965 will count as elective credits toward an economics degree, unless approved by the Director of Undergraduate Studies.

ECONOM 3004 and ECONOM 4004 may be approved by the Director of Undergraduate Studies to count as elective credits toward an economics degree or minor.

**BS in Economics**

**Major Program Requirements**

In addition to the major core requirements, students must complete college and University graduation requirements (p. 19) including University general education requirements (p. 20).

**BS with a Major in Economics**

The BS degree is for students who plan to attend graduate school in economics or finance.

**Major Core Requirements for BS Economics**

(must earn a grade of C or above; grades of C- or below will not be accepted)

<table>

Total Credits: 118-124

Foreign Language Alternative (for BS degree)

The student may elect to fulfill a special option area instead of taking a foreign language. This area consists of at least 12 credits numbered 2000 or above that are not from the parent department, are not normally required of all departmental majors and do not appear elsewhere in the area of concentration. The foreign language alternative is planned by the student with the Economics Academic Advisor and must be approved by the Director of Undergraduate Studies.

Electives

At least four (for the BA) or three (for the BS) of the following, with not more than one at the 3000 level, selected with the advisor and completed with a grade of C or above; grades of C- or below will not be accepted:

- ECONOM 3224: Introduction to International Economics
- ECONOM 3229: Money, Banking and Financial Markets
- ECONOM 4311: Labor Economics
- ECONOM 4315: Public Economics
- ECONOM 4320: History of Economic Thought
- ECONOM 4325: The International Monetary System
- ECONOM 4326: Economics of International Trade
- ECONOM 4329: The Banking System and the Money Market
- ECONOM 4340: Introduction to Game Theory
- ECONOM 4345: Economics of Education
- ECONOM 4355: Industrial Organization and Competitive Strategy
- ECONOM 4357: Health Economics
- ECONOM 4360: Economic Development
- ECONOM 4367: Law and Economics
- ECONOM 4370: Quantitative Economics (Elective for BA, Required for BS)
- ECONOM 4385: Problems in Economics
- ECONOM 4775: Dynamic Optimization and its Applications to the Natural Sciences and Economics
- ECONOM 4965: Independent Study in Economics

NOTE:

Any two of ECONOM 3224, ECONOM 4325 and ECONOM 4326 may be taken for credit. But if all three are taken, ECONOM 3224 will not count towards an economics degree.

No more than 3 total credit hours of ECONOM 4385 and ECONOM 4965 will count as elective credits toward an economics degree, unless approved by the Director of Undergraduate Studies.

ECONOM 3004 and ECONOM 4004 may be approved by the Director of Undergraduate Studies to count as elective credits toward an economics degree or minor.

Minor in Economics

Students wishing to minor in economics must take a minimum of 18 credits in economics and the last 12 credit hours in residence. Courses must include ECONOM 1014 and ECONOM 1015 (or ECONOM 1051 or ECONOM 1051H instead of the previous two courses) and ECONOM 3251 or ECONOM 4351 plus three economics electives including at least one at the 4000 level. All required courses must be completed with a grade of C or above; grades of C- or below will not be accepted. Students who take both ECONOM 3251 and ECONOM 4351 will receive credit for only one of these courses.

* A minor may be earned with 17 credits in economics by students who take ECONOM 1051H rather than ECONOM 1014 (ECONOM 1024) and ECONOM 1015; but not by students who take ECONOM 1051. The one credit hour reduction is exclusively for students who take the Honors section of ECONOM 1051.

Graduate

MA in Economics
Degree Requirements

To fulfill requirements for the MA degree, a candidate must complete a 30-hour approved program of study. This includes 15 credit hours of core courses:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>ECONOM 8451</td>
<td>Microeconomic Theory</td>
<td>3</td>
</tr>
<tr>
<td>ECONOM 8370</td>
<td>Mathematics for Economics</td>
<td>3</td>
</tr>
<tr>
<td>ECONOM 8453</td>
<td>Macroeconomic Theory</td>
<td>3</td>
</tr>
<tr>
<td>ECONOM 8472</td>
<td>Econometric Methods I</td>
<td>3</td>
</tr>
<tr>
<td>ECONOM 8001</td>
<td>Topics in Economics- General</td>
<td>3</td>
</tr>
<tr>
<td>ECONOM 8413</td>
<td>Research Workshop I</td>
<td>3</td>
</tr>
</tbody>
</table>

1 ECONOM 9451 may be substituted for ECONOM 8451, ECONOM 9453 may be substituted for ECONOM 8453, ECONOM 9473 may be substituted for ECONOM 8472, and enrollment in 9000-level courses may require consent of the department and/or the instructor.

PhD Track

Students can also earn an MA while working toward a PhD by passing the comprehensive examination.

Admissions

Applicants are required to meet two sets of minimum qualifications for admission: the requirements of the MA in the Economics program (http://gradschool.missouri.edu/academics/programs/economics/master-of-arts-in-economics.php) and the minimum requirements of the Graduate School (http://gradschool.missouri.edu/admissions/eligibility-process/minimum-requirements.php). Because requirements vary, you must refer to a degree program’s graduate admission page to learn about specific admission criteria, application deadlines, eligibility and application process. Before official admissions to the University of Missouri, your application materials will be reviewed by both the Graduate School and the degree program to which you’ve applied.

</thead>
<tbody>
<tr>
<td>Overall score</td>
<td>6.0</td>
</tr>
</tbody>
</table>

Students with a bachelor’s degree in any field may apply for admission into the master’s program. Applicants are admitted on the basis of an undergraduate record, with particular emphasis on performance in economics, mathematics, and statistics courses, performance on the GRE, and letters of recommendation. Although the graduate program assumes mathematical background through calculus (normally two or three semesters of college calculus), as well as undergraduate economics training, applicants with more limited backgrounds may be accepted into the program. Such individuals will be assigned supporting course work, some or all of which may be counted toward fulfilling requirements.

Required Application Materials

*To be uploaded to the MU Online Graduate Application for Admission:*

- Your transcript from every college or university you have attended
- Your résumé
- Your personal statement
- Three letters of recommendation
- A copy of your official TOEFL or IELTS score. Your official TOEFL or IELTS scores (sent directly from the Educational Testing Service) must be submitted directly to the Graduate Admission Office (210 Jesse Hall, Columbia, MO 65211) *International Applicants only.

*To the Economics Program:*

- Your official GRE scores (sent directly from the Educational Testing Service)

PhD in Economics

Degree Requirements

The PhD program is designed to encompass training in economic theory and quantitative methods, as well as flexibility for students in choosing course work to suit their interests and intended careers.

For those entering the program with a bachelor’s degree, the following courses are required:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>

</table>

Ordinarily, to be accepted for advisement in the PhD program, a student must have a master’s degree in economics, or, alternatively, the student must meet the requirements for admission to the MA program, together with the requirement of an adequate background in economics, mathematics and statistics.

Required Application Materials

The following items are required to be uploaded to the MU online Graduate Application for Admission:

- Your transcript from every college or university you have attended
- Your résumé
- Your personal statement
- Three letters of recommendation
- A copy of your official TOEFL or IELTS score. Your official TOEFL or IELTS scores (sent directly from the Educational Testing Service) must be submitted directly to the Graduate Admission Office (210 Jesse Hall, Columbia, MO 65211) * International applicants only

To the Economics Program (http://economics.missouri.edu/graduate/index.shtml):

- Your official GRE scores (sent directly from the Educational Testing Service)

Specialization

Fields

Students are required to complete a course of study in two defined areas of specialization. It is expected that one of the areas will be related to the objectives of the student’s dissertation. The exact areas of specialization from which the student can choose are listed below. Each course of study consists of two classes in the area followed by a research paper. Students are required to receive a passing grade in each course along with a passing grade on the research paper. The instructors of the field courses oversee the content of the research paper and the instructor of the Ph.D. research workshop (ECONOM 9413) oversees the mechanics of the paper. A field requirement is satisfied after both field course instructors and the ECONOM 9413 instructor sign off on the paper. Students are not allowed to combine courses from separate fields. The department commits itself to offering a second course in any field to all students if there is sufficient interest.

Dissertation Requirements

The dissertation must make a substantial contribution to knowledge. Upon completion of the dissertation, students pursuing the Ph.D. degree must pass a final oral examination. This exam can include an evaluation of the dissertation, the student’s defense of the dissertation, and the student’s general comprehension of economics, and is open to the academic community.

Admissions

Admission Contact Information

Lynne Riddell riddell@missouri.edu
118 Professional Bldg.; Columbia, MO 65211
573-884-7989
students who have completed an initial course in the field, within two semesters of the student completing the initial course (not counting the summer semester). This course may consist of a readings course with one of the faculty members in the field in lieu of a regular course. If a readings course is provided, then the faculty member is required to provide the department with the reading list for the course.

**List of Fields and Courses**

**Econometrics**
- ECONOM 9476 Advanced Topics in Econometrics I 3
- ECONOM 9477 Advanced Topics in Econometrics II 3

**Industrial Organization**
- ECONOM 9455 Monopoly and Competition 3
- ECONOM 9471 Advanced Game Theory 3

**International Economics**
Select any two of:
- ECONOM 9426 International Trade
- ECONOM 9427 Topics in International Trade
- ECONOM 9460 Development Economics

**Labor Economics**
- ECONOM 9411 Advanced Labor Economics I 3
- ECONOM 9412 Advanced Labor Economics II 3

**Monetary Economics**
- ECONOM 9430 Advanced Money and Banking 3
- ECONOM 9431 Central Banking Policies 3

**Public Economics**
- ECONOM 9415 Advanced Public Economics I 3

**Public Policy - Public/International**
- ECONOM 9415 Advanced Public Economics I 3
  or ECONOM 9416 Advanced Public Economics II 3
  or ECONOM 9426 International Trade
  or ECONOM 9427 Topics in International Trade
  or ECONOM 9460 Development Economics

**Quantitative Microeconomic Policy Analysis**
- ECONOM 9446 Advanced Empirical Methods 3
- ECONOM 9447 Topics in Microeconomic Policy Analysis 3

**Statement on Satisfactory Progress**

1. Taking and completing required course work on schedule and maintaining a GPA of at least 3.0.
2. Enrollment in a full-time plan of study, i.e., completion of at least 9 graded hours per semester.
3. Taking and passing qualifying and comprehensive examinations on schedule.
4. Students who have completed all course work and are working on the final stage of the PhD program are encouraged to present their written proposal within a reasonable amount of time.

- Applicants with outstanding background may be selected by the Graduate Studies Committee to be offered the opportunity to take the August qualifying exam prior to the start of their first semester. Such students who pass the August qualifying exam will move directly to second year courses. Students who fail will start with the normal first year courses.
English

David Read, Chair
College of Arts and Science
114 Tate Hall
(573) 882-6421

The English Department provides a major that not only grants a broad introduction to a range of literary and cultural study and creative activities, but also allows students to work more intensely in particular subfields of the discipline, including literary history, critical theory, film and cultural studies, linguistics, and creative writing. A major in English develops skills in reading, critical thinking, and writing. A degree in English is not intended to provide specific vocational training but rather to give a broad, open-ended education that can lead to many different careers, especially those requiring excellent communication skills and analytical thinking.

Recent graduates have gone on to careers in teaching, publishing, television, film, advertising, public relations, insurance, and government. In addition, English is excellent preparation for graduate or professional schools such as law and business.

The department offers BA, MA, and PhD degrees with majors in English. Two minors are also available, the English minor and the English writing minor.

Faculty

**Associate Professor Emeritus** H. Hinkel*, D. G. Hunt*, M. Patton*, G. Swan

**Curators’ Professor Emeritus** E. Lawless**

* Graduate Faculty Member - membership is required to teach graduate-level courses, chair master’s thesis committees, and serve on doctoral examination and dissertation committees.

** Doctoral Faculty Member - membership is required to chair doctoral examination or dissertation committees. Graduate faculty membership is a prerequisite for Doctoral faculty membership.

Undergraduate

• BA in English (p. 182)

• Minor in English (p. 184)

• Minor in English Writing (p. 184)

Departmental Honors

To graduate with honors in English, students must have a cumulative GPA of 3.3 and a GPA of 3.5 in English courses and successfully complete ENGLISH 4996 and ENGLISH 4997. Students wishing to enroll in these courses must complete an application process in January of their junior year. More information is available from the Director of Undergraduate Studies or the department’s Academic Advisor.

Graduate

• MA in English (p. 184)

• PhD in English (p. 185)

College of Arts and Science
114 Tate Hall
573-882-6421
http://english.missouri.edu

Director of Graduate Studies: Samuel Cohen

About the Program

With more than one hundred M.A. and Ph.D students and about 500 undergraduates, we are one of the largest and most diverse departments on the Columbia campus. We offer a wide range of courses in British and American literature and creative writing, as well as special emphases in African Diaspora Studies, Critical Theory, English Language and Linguistics, Folklore and Oral Tradition, and Rhetoric and Composition.

Subject Areas

Lecture courses, seminars and directed research are available in British and American language and literature, creative writing, folklore and oral tradition, critical theory, rhetoric and composition, language and linguistics, and African diaspora studies.

Funding

Students admitted to the graduate program usually receive a fellowship or teaching assistantship. Outstanding applicants will also be eligible to compete for a variety of college and university fellowships. The deadline for applications to both the MA and PhD programs is January 1. Announcements of awards are made by early April.

Publications Experience

Students will also have the opportunity to assist faculty in editing The Missouri Review, a nationally recognized journal of fiction, poetry and essays; Oral Tradition, the only journal involved in the comparative study of oral traditions; The Eighteenth Century Novel; and The Journal for Early Modern Cultural Studies.

Undergraduate

BA in English

Major Program Requirements

English majors must complete a minimum of 30 credit hours in English. A minor is recommended. At least 24 hours in the major must be at the 3000-level or above. At least 9 hours must be at the 4000-level.

No more than 40 credits in English may be counted toward graduation. The required English composition credits are excluded from this maximum and must be taken before the student enrolls in any English courses numbered above 2009.
Honors: Students may take an additional 3 hours (33 total) to complete ENGLSH 4995 Senior Honors Thesis. Note that ENGLSH 4996 Honors Seminar in English, will count towards the 9-hour requirement for 4000-level classes, ENGLSH 4995 Senior Honors Thesis, will not.

Internships and Independent Research: Students making satisfactory progress towards completion of degree requirements are encouraged to explore possibilities for gaining professional experience through internal or external internships. They are also encouraged to follow up on opportunities to pursue independent research sponsored by the department, the College of Arts and Science, and other divisions of the University. Note that only 3 credit hours of internship or independent study (ENGLSH 4940, ENGLSH 4950, ENGLSH 4955, or ENGLSH 4960) will count towards the major’s 4000-level requirement or towards the 24 hours at the 3000-level.

Major Core Requirements

Introduction
ENGLSH 2100 Writing About Literature

Body of Major

- At least 30 credit hours in English (including 3 hours of ENGLSH 2100) satisfying requirements listed below.
- Courses may count for 1, 2, or 3 of the three requirements for Breadth of Study, Historical Coverage and Depth of Study.
- At least one course must meet the Diversity Requirement.
- At least 24 hours must be at the 3000-level. At least 9 hours must be at the 4000-level.

Breadth of Study
Students take at least 1 course from each of the following areas (3000-level and above).

a. Period Studies and Surveys
Courses in this area examine texts in their historical context, and consider how historical events and developments shape culture and texts.

b. Author Studies
Courses in this area focus on an individual or several authors or artists.

c. Genre Studies; Thematic Studies
Genre Studies introduces students to a textual kind (e.g. the novel, poetry, drama, the essay, etc.), its conventions, and its history.
Thematic Studies explores a shared theme among works that may or may not belong to the same period.

d. Theory and Methods
Courses in this category give primary attention to the frame of inquiry and/or the method by which knowledge-making takes place.

Depth of Study
Students must take 3 courses in a single area of specialization listed below.

a. Medieval, Renaissance, and Early Modern Literature
b. 18th/19th Century Literature
c. 20th and 21st Century Literature
d. African Diaspora Studies and Post-Colonial Literature
e. Literary, Critical, or Rhetorical Theory
f. Creative Writing
g. Composition
h. English Language and Linguistics
i. Folklore Studies
j. Film Studies
k. Gender and Sexuality Studies
l. Other (subject to English Department Advisor approval)

Diversity Requirement
English majors must take one 3-hour course that focuses on issues such as race, ethnicity, gender, or sexuality. Each semester a list of approved courses will be made available to students.

Culmination
ENGLSH 4970 Capstone Experience (or ENGLSH 4996 Honors Seminar in English if choosing the honors sequence)

Semester Plan
Below is a sample plan of study, semester by semester. A student’s actual plan may vary based on course choices where options are available.

The English minor consists of 15 credits beyond the required composition course. It must include at least 6 credit hours in courses numbered 3000 or above and must include at least 3 credit hours at the 4000 level. It may include no more than 6 credits in special problems, methods, or readings courses such as ENGLSH 4955 and ENGLSH 4960. Neither ENGLSH 4940 nor ENGLSH 4950 can be applied to the minor. A grade of C or above must be earned in all minor course work and a minimum GPA of 2.0 achieved in the minor. A minimum of 9 hours must be completed in residence. The minor is a flexible and varied program that can be tailored to individual students’ needs. Students wishing to minor in English should consult the English Department’s undergraduate advisor.

Minor in English Writing

The writing minor is a 15-credit course of study designed to help students in all majors and colleges improve their writing and critical thinking skills. It requires writing courses specified by the department, including 6 credits in courses numbered 3000 or above. No more than 6 hours of transfer credit will be applied to the minor. Consult the English Department undergraduate advisor for specific requirements.

Graduate

MA in English

Admission Contact Information
Victoria Thorp thorpv@missouri.edu
114A Tate Hall, Department of English
Columbia, MO 65211
573-882-4676

Admission Criteria
Fall deadline: January 1

Internet-based test (iBT) Paper-based test (PBT)
61 Effective July 1, 2015 must have score of 80 500 Effective July 1, 2015 must have score of 550

• Minimum GRE score: not set
• Minimum GPA: 3.0 overall, higher in courses in major
• Majored in English as an undergraduate, with at least 18 hours in upper division courses in literature or linguistics. Students with other undergraduate majors may be admitted provided their background in English studies is suitable and provided they complete an appropriate course of preliminary study. Promising students who do not meet one or more of these criteria may at the discretion of the director of graduate studies be encouraged to enroll as non-degree graduate students.

Required Application Materials
To the Graduate School:
• All required Graduate School documents
To the English Program (http://english.missouri.edu/graduate-program/admissions.html):
• English Department application form
• GRE scores; The general test is required. Students are also welcome to submit subject test scores, and strongly encouraged to do so if their previous work is in a field other than English.
• 3 letters of recommendation (use departmental form)
• Official transcripts
• Statement of purpose
• 2 10-20 page critical/scholarly papers (1 for creative writing applicants)
• Creative writing applicants: also submit a sample of your fiction (30 pages) and/or poetry (20 pages) or a one-act play
• Supplementary information sheet (for MA/PhD and PhD track applicants only)

Financial Aid from the Program
Some programs require an extra form or statement from those who wish to be considered for internal assistantships, fellowships or other funding packages. Check the program website or ask the program contact for details.

Plan of Study
The MA is a 4-semester (2-year) program with 30 hours of course work (at least 15 hours at the 8000-level) in English.

• MA students may take up to 6 hours (7000-level or above) outside the English department.
In addition to literary study, students may also select from among the 
6 emphasis areas to accompany the program in British and American 
Literature: African Diaspora Studies, Creative Writing, Critical Theory, 
Folklore and Oral Tradition, Language and Linguistics, and Rhetoric 
and Composition.

A foreign language is not required for the master's degree.

Final Assessment Options
A student may elect to write an MA thesis (while taking 6 hours of 
ENGLSH 8090), to present a portfolio and take an oral exam, or to take a 
written comprehensive exam based on a reading list.

Thesis
Students who choose the MA thesis (50-75 pages) should, at the outset 
of master's work, discuss possible thesis topics with the faculty member 
or members who seem most likely to constitute the student's MA Thesis 
Committee (two English department members and one outside member). 
Students present and defend their theses to this committee in an oral 
examination.

Portfolio/Oral Exam
Students electing this option will choose two faculty members to work 
with in revising two essays previously written during their M.A. work. The 
Director of Graduate Studies, in consultation with the student, will chose 
a third faculty member to serve on the student’s portfolio committee. 
Students will defend the two revised essays, as well as those not chosen 
for revision, in a two-hour oral exam. The committee may pass or fail the 
examinee on any part(s) of the portfolio. In the case of partial or total 
failure, the student will retake the oral portions that were failed and may 
need to revise further one or both of the revised essays.

Written Exam Based on Reading List
The exam consists of three questions answered over a four-hour time 
period. Students in Literature and in Literature with a Creative Writing 
Emphasis are assigned to a three-member M.A. Comprehensive Exam 
Committee and write on three literature-based questions. Students with 
emphases in African Diaspora, Critical Theory, English Language & 
Linguistics, Folklore & Oral Tradition, or Rhetoric & Composition are 
assigned to a committee that includes two members from literature and 
one member from the emphasis area. They write two literature-based 
questions and one emphasis-area-based question.

Satisfactory Progress
The Department of English expects all candidates to make satisfactory 
progress toward completing their graduate degrees. The MA should be 
completed within three calendar years after matriculation. No grades of C 
will be counted toward the completion of the required number of hours for 
the MA.

MA/PhD Track
The department also offers an MA in an MA/PhD program intended 
for especially well-prepared students who have BA degrees and know 
they wish to pursue the PhD. It offers enhanced financial aid and an 
accelerated time to degree. Students complete MA requirements and 
begin taking PhD course work in their second year in the program. 
Academic requirements for the two degrees are identical with the 
aademic requirements for the separate MA and PhD degrees.

PhD in English

Admission Contact Information
Victoria Thorp thorpv@missouri.edu 
Department of English 
114A Tate Hall, Columbia, MO 65211

  • Creative writing applicants: also submit a sample of your fiction (30 pages) and/or poetry (20 pages) or a one-act play
  • Supplementary information sheet

Financial Aid from the Program
Some programs require an extra form or statement from those who wish to be considered for internal assistantships, fellowships or other funding packages. Check the program website or ask the program contact for details.

Plan of Study
The PhD is a 5-year program with 30 hours of course work beyond the MA. At least 18 hours in English must be taken at the 8000-level (English 8095 and 9090 do not count toward the 18-hour requirement). Candidates with insufficient background in English may be required to take additional hours upon the recommendation of the advisory committee.

A student may elect one English 8000 problems course (a maximum of three hours of credit), with the prior consent of the director of graduate studies. A minimum of 18 hours of course work beyond the MA (excluding research hours) must be taken in residence at the Columbia campus in order for the candidate to be eligible for a PhD from the University.
Language Requirement

PhD students should determine how they will fulfill the departmental language requirement in consultation with their faculty advisor and other committee members, since different projects and different areas of study will require different levels of language proficiency. A student’s committee can always recommend that the student pursue language study above and beyond the level required by the departmental language requirement for the purpose of their chosen dissertation project.

However, the purpose of the foreign language requirement is to ensure that all students have at least an awareness of their entrance into an international community of scholars and scholarship and ideally an ability to read literature and critical studies in other languages. Although simple fulfillment of the language requirement may not guarantee fluency in another language or culture, it should prepare students to read primary texts related to their fields and equip them with skills to conduct scholarly research on important secondary literature. To this end, the department is committed to the principle that all doctoral students who plan to study language and literature benefit from exposure to another language or languages.

A student may satisfy the foreign language requirement for the PhD in English by demonstrating either 1) basic proficiency in two foreign languages or 2) advanced proficiency in one foreign language.

To demonstrate basic proficiency the student must pass with a grade of B or better a) the intensive introduction to a language or b) the three-semester introductory sequence or c) one course at or beyond the third semester level in the language chosen or the equivalent of these courses elsewhere. The courses must have been completed or the examinations taken not more than five years prior to the candidate’s enrollment in the PhD program. Because not all languages are taught using this format at the University of Missouri, students have the option to demonstrate basic proficiency in one of their two chosen languages by taking an introductory course in another language that is relevant to their research. A student who wishes to obtain this exemption must submit a letter, signed by the student and the chair of his or her committee, explaining why the course is relevant to his or her program of doctoral study. This exemption will be granted only for University of Missouri courses taken during the student’s official degree program. Courses taken at another institution, or before the student begins the degree program, are not eligible for this exemption. Students cannot request this exemption for languages taught at MU using the regular structure outlined above (i.e., in a 3-course introductory sequence or a one-semester intensive introduction).

To obtain advanced proficiency the student must either a) pass with a grade of B or better two upper class undergraduate courses (3000- or 4000-level, or the equivalent elsewhere) in the literature of the language chosen or b) pass with a grade of B or better one graduate class (7000- or 8000-level, or the equivalent elsewhere) in the literature of the language chosen. These courses may not be in translation, and any graduate course in a modern language must be taught in that language. The department recommends taking a graduate-level course as the best option for students who are able to do so, since such courses can also count towards the nine hours of non-English department coursework that PhD students can include in their program of study. Undergraduate language courses (4000-level or below) do not count towards graduate study at the University of Missouri.

The director of graduate studies will work with students to try to arrange for testing for students with proficiency but without course work in an acceptable language (for instance, those who have lived in another country for an extended period of time). This option, and all other exceptions to the language requirement described above, are contingent upon 1) the student’s ability to demonstrate a substantial connection between the language in question and his or her program of study and 2) consent of the student’s advisor.

Doctoral Committee

By the end of the first year, doctoral students must meet with their advisors to organize a doctoral committee. Students meet with this committee to plan course work and define their primary and secondary fields of study. This meeting satisfies the graduate school requirement for a PhD qualifying examination.

Comprehensive Examination

After all course work, the foreign language requirement and the residency requirement have been completed, the student takes the PhD comprehensive examination. This exam consists of a written section (the Preparatory Essay) and a two-and-a-half hour oral exam. For the comprehensive examination to be successfully completed, the doctoral program committee must vote to pass the student on the entire examination, both written and oral sections, with no more than one dissenting or abstaining vote. If a student fails either part of the exam, he or she will be allowed to retake that part. No student will be allowed to take any part more than twice. All doctoral candidates should realize that no comprehensive exam is limited to the candidate’s course work.

Dissertation

As soon as possible after passing the comprehensive examination, a candidate should explore a dissertation topic under the guidance of the student’s advisor. The doctoral dissertation is written under the direction of a member of the doctoral faculty at MU.

Creative Dissertation Option

The PhD candidate may choose to write a creative dissertation, which may take the form of a novel, a novella, a book-length collection of short fiction or a collection of poetry. To exercise this option, the candidate must have taken 9 to 12 hours of creative writing seminars as part of the PhD course work.

In addition to the “creative” part of the dissertation, the candidate will compose a prose introduction (2,500-word minimum), to be written after completion of the creative project, to demonstrate the correspondence between the candidate’s academic studies and the creative project. The overall length required would be comparable with that of other dissertations approved by the department.

Satisfactory Progress

The Department of English expects all candidates to make satisfactory progress toward completing their graduate degrees. The comprehensive exam should be completed within five calendar years after matriculation, and the PhD should be completed within five calendar years after passing the comprehensive exam. No grades of C will be counted toward the completion of the required number of hours for the PhD.
Film Studies

Roger Cook, Program Director
Interdepartmental Program in the College of Arts and Science
451 Strickland
(573) 882-9452
cookrf@missouri.edu
filmstud@missouri.edu

The Film Studies Program offers a major that focuses on film analysis and covers the history of cinema, national and global cinemas, film theory and genres, documentary film, and contemporary visual culture. As a classic liberal arts discipline, film studies teaches the fundamental skills that make a college degree essential in career-oriented jobs: research, information management, critical analysis, cogent development of ideas, developing and testing of hypotheses, and writing and communication. It combines an emphasis on critical thinking, research, problem-solving, written expression, and cultural literacy with the discipline’s unique attention to visual analysis. Students emerge with a greater degree of visual literacy at a time when our culture is becoming increasingly dependent upon visual communication. As a complement to the main focus on the critical study of film, the program also offers some production courses and occasional opportunities to participate in filmmaking projects. For those who want to pursue a career in the TV/motion picture or the fast-growing digital media industry the major provides a strong foundation that can be combined with the learning of specific industry skills.

The program offers a BA degree in film studies as well as an undergraduate minor.

Faculty

Professor G. Barabtarlo*, R. F. Cook*, R. N. Johnson*, J. M. Miller, A. Prahlad*, C. Strathausen* N. M. West*
Assistant Professor
Associate Teaching Professor M. H. Barnes*, N. Monnier*,
Assistant Teaching Professor E. Hombbeck, B. Maurer, E. Naveh-
Instructor L. Dickinson, C. Gubera, R. Wise

* Graduate Faculty Member - membership is required to teach graduate-level courses, chair master’s thesis committees, and serve on doctoral examination and dissertation committees.
** Doctoral Faculty Member - membership is required to chair doctoral examination or dissertation committees. Graduate faculty membership is a prerequisite for Doctoral faculty membership.

Undergraduate

• BA in Film Studies (p. 187)
• Minor in Film Studies (p. 188)

Double and Dual Majors

A film studies major can be paired with a major in another department. Students must meet the requirements of both departments. The program for each major must be approved by the advisor in the degree-granting department.

Departmental Honors

To receive departmental honors, a student must earn a minimum overall MU GPA of 3.3 and a minimum GPA of 3.5 in courses in film studies completed at the University of Missouri. In addition, with the assistance of an honors thesis advisor, the student must develop, plan and conduct research on an independent project, normally while enrolled in FILM_S 4995.

Graduate

While MU does not offer graduate degrees specifically in film studies, the University does offer post-baccalaureate opportunities in a number of related areas, both within the College of Arts and Science, and in the other Schools and Colleges that make up the University. The catalog provides a complete list of these degree options (p. 5).

Undergraduate

BA in Film Studies

Major Program Requirement

Film Studies majors must complete 30 credits in film studies, with a grade of C- or above in every course. A minor is recommended. At least 15 hours in the major must be in courses at the 3000 level or above. Students must also complete College of Arts and Sciences and University requirements, including University general education (p. 20) requirements. No more than 40 credits in Film Studies may be counted toward graduation.

The 30 hours of Film Studies courses for the major must meet the following requirements:

Major core requirements

UNIT I:
FILM_S 1800 Introduction to Film Studies 3

UNIT II:
FILM_S 2820 Trends in World Cinema 3
Select one of the following: 3
FILM_S 2830 American Film History I, 1895-1950
FILM_S 2840 American Film History II, 1950-Present

UNIT III:
Electives 18

At least six of the elective hours must come from one of the following national cinema courses:
FILM_S 2850 Italian Cinema
FILM_S 2865 The Art of Soviet and Russian Cinema
FILM_S 3830 History of German Film
FILM_S 3840 German Film After 1945
FILM_S 3845 Modern Israeli Film
FILM_S 3870 Russian Women and Film
FILM_S 3875 Brazilian Cinema
FILM_S 3880 Contemporary Chinese Film
FILM_S 3890 Russian and Soviet Film
FILM_S 3895 Korean Society Through Cinema

At least six of the elective hours must come from one of the following courses on theory and method:
FILM_S 2860 Film Themes and Genres
FILM_S 2870 Film and Literature
### Semester Plan

### Minor in Film Studies

To earn a minor in Film Studies, students must earn 15 credits in film studies. Required courses include FILM_S 1800, and either FILM_S 2830 or FILM_S 2840. At least two courses must be at the 3000 level or above. The minor is a flexible and varied program that can be tailored to individual students’ needs. Students wishing to minor in film studies should consult the film studies advisor.
General Studies

Office of Multidisciplinary Degrees
College of Arts and Science
114 Switzler Hall
(573) 882-6060
omd.missouri.edu

Faculty

Faculty members are housed in departments and schools throughout the University of Missouri.

• Graduate Faculty Member - membership is required to teach graduate-level courses, chair master’s thesis committees, and serve on doctoral examination and dissertation committees.

• Doctoral Faculty Member - membership is required to chair doctoral examination or dissertation committees. Graduate faculty membership is a prerequisite for Doctoral faculty membership.

Undergraduate

• BGS in General Studies (p. 189)

The Bachelor of General Studies (BGS) is designed for students who want a multidisciplinary major to meet educational and career objectives. Students who pursue the BGS need a high degree of motivation and independence. The BGS degree is intended for students pursuing a first bachelor’s degree and will not be approved as a second bachelor’s degree.

The BGS degree requires a minimum of 120 credit hours with a minimum of 30 credit hours numbered 3000 or above. Students meet with the academic advisor to create a graduation plan after completing 60 credit hours, MATH 1100 or an equivalent with a C- grade or higher, ENGLSH 1000 with a C- grade or higher and maintaining a 2.0 cumulative GPA.

BGS students are required to complete 24 credit hours as declared BGS majors and this may include credit for the semester in which the student declares the BGS major. In exceptional circumstances, students who need fewer than 24 credit hours to complete all their BGS, A&S and MU requirements must take a minimum 3 credit hour BGS capstone course.

omd.missouri.edu

Graduate

While the College of Arts & Science does not offer a graduate degree in general studies, the College does offer graduate degrees, certificates and minors in a number of multidisciplinary areas. The catalog provides a complete list of these degree options (p. 5) for all Schools and Colleges at the University of Missouri.

Undergraduate

BGS in General Studies

Major Program Requirements

Students must complete the Department Requirements (p. 189) as well as those required for the degree listed below:

The BGS major requires 45 credit hours, including a capstone. These 45 credit hours are evenly distributed among three areas of study called components. A component may be made up of courses from a single department or may be made up of courses from multiple departments that relate thematically. Component courses may be selected from any department or program at MU (if the department permits), but at least 18 credit hours must be made of courses from an A&S department. Of the 15 credit hours required for each component, 6 credit hours in each of the components must be numbered 3000 or higher. Students must maintain a GPA of 2.0 in each component area and grades of D are not acceptable. A student may include one component made entirely of transfer coursework if the other two components each contain 9 credit hours of coursework numbered 3000 or above. BGS students are required to include a minimum of 12 credit hours of MU coursework numbered 3000 level or above in their three components.

• 30 of the last 36 hours a student completes must be taken at MU.

• In order to graduate, students must have the following GPAs:
  • 2.0 cumulative GPA (the GPA for all coursework taken at MU)
  • 2.0 major GPA (the GPA for all courses taken to fulfill requirements in the major)
  • 2.0 minor GPA (the GPA for all courses taken to fulfill requirements for a minor)
  • 2.0 GPA in the final 60 hours
  • 2.0 GPA in the final 30 hours

Semester Plan

Below is a sample plan of study, semester by semester. A student’s actual plan may vary based on course choices where options are available.

Undergraduate

• BA in Geography (p. 192)
  • with emphasis in General Geography (p. 193)
  • with emphasis in Geographic Information Sciences (p. 193)
  • with emphasis in Physical/Environmental (p. 193)
  • with emphasis in Regional/Cultural (p. 193)
  • with emphasis in Urban/Population (p. 193)
• Minor in Geography (p. 194)
• Certificate in Geographical Information Science - Interdisciplinary (p. 194)

The Department of Geography has established the following goals for the Bachelor of Arts with a major in Geography:

• Teach students to think spatially and develop problem solving skills
• Provide an intellectual focus for students seeking a broadly based liberal arts education
• Acquaint students with past and present patterns of landscape development and instill concern for intelligent management of earth’s biophysical resources
• Expose students to contemporary issues of geopolitical and international significance and their role in such problems
• Provide the skills and expertise necessary to master the application of geographic information technologies and analysis of spatial data
• Prepare motivated students for career development and graduate study

Four different emphasis areas allow students to further focus the undergraduate degree program on their own personal interests in geography.

1. Human-Regional-cultural geography helps students develop a fuller sense of geographic analysis and better understanding of the human and physical characteristics of major regions and settlement patterns of the world.
2. Physical-environmental systems emphasize the complex interactions between biophysical systems and human behavior in the areas of geomorphology and biogeography, as well as our role in managing applied environmental problems.
3. Geographic information sciences addresses the variety of technologies revolutionizing geographic analysis such as GIS, GPS, remote sensing, computer assisted cartography and spatial statistics.
4. General geography is designed for the student with broad interests in geography that overlap with other emphasis areas.

For students planning to end their formal education with the bachelor’s degree, a geography major provides marketable skills and the broad perspectives on environment, society and international affairs that enable graduates to move beyond entry-level positions. Geography also provides a sound foundation for students who plan to enter graduate work in a variety of fields, from geography to business, land use planning, law and medicine. Although positions are not often designated with the title of geographer, geography graduates’ employment has grown substantially in private enterprise and in all levels of government in recent years.

The Department offers BA and MA degrees with majors in geography as well as undergraduate and graduate certificates in Geographic Information Science and Geospatial Intelligence. Two minors are also available.

Departmental Honors

The geography honors program requires independent research during the senior year, usually under GEOG 4996H or GEOG 4997H. Consult the geography honors director for further information.

About Geography

The Department of Geography offers a Master of Arts degree that prepares students for a variety of professions, including careers in academics, research, public service, and the private sector. The MA program has a high success rate of preparing students for doctoral study in top-tier geography departments across the United States.

A primary strength of the department is the blending of major research facilities and opportunities with individual student-faculty interaction to build a strong sense of community. Students interested in questions of human geography, the physical environment, or geographic information sciences will find that the department has facilities and faculty expertise to build a successful plan of study.
Core areas of study in the department include human geography, nature/society relationships, physical-environmental systems, and application of geographic information sciences. The faculty has an active program of research and field work in North America, Middle America, the Middle East and Southeast Asia. They pride themselves on a creative instructional and interdisciplinary pattern of activity. The department emphasizes close contact between faculty and graduate students.

Individualized graduate programs allow latitude in areas of specialization such as regional, cultural, and physical geography, as well as geographic information sciences, remote sensing, environmental studies and geographic education. Strong collateral course work in such fields as anthropology, soil and atmospheric science, economics, geology, political science, forestry, computer science and history meets the special interests of many graduate students.

Facilities and Resources

An exceptional departmental collection of reference materials, including maps, journals and books, is available to graduate students in the department’s Wheeler Library and Seminar Room. The holdings of Ellis Library in geography and related fields are extensive and MU’s computer facilities are readily available. In addition, the department is home to the Geographic Resources Center (GRC), the Missouri Spatial Data Information Service and the Spatial Analysis and Modeling teaching laboratory. These facilities serve as an interdisciplinary center for GIS, remote sensing, cartography, computer graphics and digital spatial databases of enormous variety.

Financial Aid from the Program

Some programs require an extra form or statement from those who wish to be considered for internal assistantships, fellowships or other funding packages. Check the program website or ask the program contact for details. In Geography, a total of approximately 6 graduate teaching and research assistantships are awarded on a competitive basis annually. Applicants desiring consideration for one of these positions should indicate this in their application to the department.

Undergraduate

BA in Geography

Director of Undergraduate Studies: Douglas Hurt

Major Program Requirements

Students majoring in geography are required to take a total of 33 credits in geography and 3 in statistics. The geography major consists of 21 core credits and at least 15 credits in one of the four geography emphasis areas. In addition, students must complete all degree, College of Arts and Sciences and University requirements (p. 19) including University general education (p. 20).

~ Denotes Emphasis Area Requirements

BA in Geography with Emphasis in General Geography

Major Program Requirements

This area is designed for students with a broad interest in geographical studies. Due to the general nature of this emphasis area, students must develop in consultation with their advisor a personal plan of study outlining specific goals and course requirements. Four geography courses are required.

Semester Plan

A sample plan of study has not been designed for this major. Students should contact the academic department for assistance with academic planning.

BA in Geography with Emphasis in Geographic Information Sciences

Major Program Requirements

The study of GIS prepares students to address the variety of technologies revolutionizing geographic analysis such as GIS, Global Positioning Systems, remote sensing, computer assisted cartography and spatial statistics. Students must take three of the following courses:

GEOG 3040 Introduction to Geographic Information Systems GIS 3
GEOG 3830 Remote Sensing 3
GEOG 4130 The Geospatial Sciences in National Security 3
GEOG 4710 Spatial Analysis in Geography 3
GEOG 4740 Location Analysis and Site Selection 3
GEOG 4790 Geographic Information Systems for the Social Sciences 3
GEOG 4810 Landscape Ecology and GIS Analysis I 3
GEOG 4860 Advanced Remote Sensing 3
GEOG 4940 Advanced Geographic Information Systems (GIS II) 3

Semester Plan

Refer to the Semester Plan for the BA in Geography (p. 192).

BA in Geography with Emphasis in Physical/Environmental

Major Program Requirements

Physical and environmental geography emphasizes the complex interactions between the natural world and human behavior. Students learn to identify, delineate, and manage a range of environmental problems facing society from climate and vegetation change to river management. Students must take three of the following courses:

GEOG 3600 Climates of the World 3
GEOG 3610 Physical Geography of the United States 3
GEOG 3630 Earth Surface Systems 3
GEOG 4620 Biogeography: Global Patterns of Life 3
GEOG 4630 River and Stream Dynamics 3
GEOG 4810 Landscape Ecology and GIS Analysis I 3

Semester Plan

Refer to the Semester Plan for the BA in Geography (p. 192).

BA in Geography with Emphasis in Regional/Cultural

Major Program Requirements

Students studying human geography are trained to understand and analyze the social and cultural elements which generate regional differences. Assessing population patterns, political activity, urban planning, and linguistic distributions are included in this area. Students must take three of the following courses:

GEOG 3140 Mexico, Central America, and the Caribbean 3
GEOG 3270 Geography of the Middle East 3
GEOG 3290 Geography of Russia and the Newly Independent States of Eurasia 3
GEOG 3450 Geography of Africa 3
GEOG 3510 Historical Geography of North America 3
GEOG 3560 Native American Geographies 3
GEOG 3760 Geography of the World's Religions 3
GEOG 3780 World Political Geography: Patterns and Processes 3
GEOG 4560 Resources and Indigenous Peoples 3
GEOG 4770 Migration and Immigration 3
GEOG 4850 Transportation Geography 3

Semester Plan

Refer to the Semester Plan for the BA in Geography (p. 192).

BA in Geography with Emphasis in Urban/Population

Major Program Requirements

This area focuses on topics such as competitive vs. generative growth within urban systems, urban travel behavior, the role of cities in regional development, international commodity trade flow, and the fiscal
dilemmas of cities and migration behavior. It prepares students for career opportunities in fields such as transportation planning, regional development, urban environmental issues and management. Students must take four of the following courses:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>GEOG 2710</td>
<td>Economic Geography</td>
<td>3</td>
</tr>

<tr>
<td>GEOG 4770</td>
<td>Migration and Immigration</td>
<td>3</td>
</tr>
<tr>
<td>GEOG 4850</td>
<td>Transportation Geography</td>
<td>3</td>
</tr>
</tbody>
</table>

**Semester Plan**

Refer to the Semester Plan for the BA in Geography (p. 192).

**Minor in Geography**

**Minor Program Requirements**

Fifteen credits are required for a minor in geography, nine of them numbered 2000 and above.

**Certificate in Geographical Information Science - Interdisciplinary**

Certificate description: Students from a wide range of disciplines will benefit from students with the theoretical, practical and technical skills that are essential for the analysis of spatial data. Learners become proficient in the use and application of GIS technologies through a flexible set of courses and hands-on experiences. The program offers the training and experience necessary to prepare for the rapidly expanding professional opportunities available in the diverse set of fields that depend on geographic information.

**Graduate**

**MA in Geography**

**Application and Admission Information**

Admission Contact Information
Dr. Soren Larsen
Geography admission page: http://www.geog.missouri.edu/?q=grad/graduate-program

**Admission Criteria**

Fall deadline: January 15

- Minimum GPA: 3.0
- Minimum TOEFL scores:

**Internet-based test (IBT)**

- 61 Effective July 1, 2015 must have score of 80

**Paper-based test (PBT)**

- 500 Effective July 1, 2015 must have score of 550

**Required Application Materials**

All elements of the application including those required by the department are submitted through the Graduate School online application. For complete instructions, see http://www.geog.missouri.edu/?q=grad/graduate-program.

To the Graduate School:

- All required Graduate School documents
- 3 letters of recommendation (submitted through the online application)
- GRE scores
- Supplemental department application (with Statement of Purpose)

**Plan of Study MA in Geography**

The Master of Arts degree requires completion of 32 semester hours of course work. Two research options are available: a thesis and a non-thesis option. The non-thesis option requires the completion of a research paper. 15 or more of the 32 hours must be in courses at the 8000 level. Non-thesis candidates may take no more than 6 hours of special problems, special readings, special investigations, or research. Every student must take GEOG 8750 and GEOG 8760, 6 additional hours of seminar-structured course work and 6 hours of course work in geographic methods.

A student’s specific program of courses is selected jointly by the student and the graduate advisor, designated during the first semester in residence. All students of either option must pass a comprehensive oral examination at the end of their graduate work.

**Graduate Certificate in Geographical Information Science - Interdisciplinary**

Certificate description: Students from a wide range of disciplines will benefit from students with the theoretical, practical and technical skills that are essential for the analysis of spatial data. Learners become proficient in the use and application of GIS technologies through a flexible set of courses and hands-on experiences. The program offers the training and experience necessary to prepare for the rapidly expanding professional opportunities available in the diverse set of fields that depend on geographic information.

**Faculty**

Associate Professor M. Appold**, F. G. Gomez**  
Assistant Professor N.M. Bartlow, J. W. Huntley**, J. Schiiffbauer**  
Director, Geology Field Program M. Barquero-Molina*

*  Graduate Faculty Member - membership is required to teach graduate-level courses, chair master’s thesis committees, and serve on doctoral examination and dissertation committees.  
**  Doctoral Faculty Member - membership is required to chair doctoral examination or dissertation committees. Graduate faculty membership is a prerequisite for Doctoral faculty membership.

**Undergraduate**

• BA in Geological Sciences (p. 196)  
• BS in Geological Sciences (p. 196)  
• Minor in Geological Sciences (p. 197)

The Department of Geological Sciences offers two undergraduate degree programs, a Bachelor of Arts with a major in Environmental Geology and a Bachelor of Science with major in Geological Sciences. The BA is geared to those students interested in environmental concerns, while the BS is geared toward the traditional fields of geology. Both degrees provide a rigorous background in earth sciences. In addition, students majoring in other departments can minor in geological sciences.

**Departmental Honors**

Departmental honors can be achieved by students who maintain a cumulative GPA of 3.0, departmental GPA of 3.2, and who complete a senior thesis.

**Dual Degrees**

The Department of Geological Sciences offers dual degree programs with the Department of Soil, Environmental and Atmospheric Science in their emphasis area of Environmental Soil Science and with the Department of Civil and Environmental Engineering and with the College of Education in the Bachelor of Science in Education, emphasis in Earth Science Education. For more information, contact an advisor in the department.

**Graduate**

• MS in Geology (p. 197)  
• PhD in Geology (p. 198)

Department of Geological Sciences  
101 Geological Sciences Building  
573-882-6785

**About the Geological Sciences Program**

The areas of research covered by faculty are broad and diverse, with strong research expertise in the general areas of geochemistry, petrology, paleontology, and geophysics-tectonics. These strengths allow us to focus on problems identified by the National Research Council to be socially relevant and to be fundamental to an understanding of earth processes. Dynamic faculty, along with their students, are making significant contributions to numerous areas of basic and applied research. This research is supported by excellent, state-of-the-art analytical facilities in the department and on campus. Our graduate program prepares students for a wide range of professions within the geological sciences; students have been placed in private, federal, state, and academic institutions. Prospective students are encouraged to contact any faculty member directly for additional information.

**Areas of Specialization**

The areas of specialization are aqueous geochemistry, biogeochemistry, invertebrate paleontology, isotope geochemistry, geophysics, hydrogeology, igneous petrology, metamorphic petrology, paleontology, ore deposits, paleoclimatology, paleoecology, sedimentation, stratigraphy, structural geology, tectonics, and volcanology.

**Facilities and Resources**

The Geological Sciences Building houses many different research laboratories, as well as classrooms and an excellent geology library. Equipment is available for supervised student use in many fields. The Geology Field Camp is in the Wind River Mountains near Lander, Wyoming. See the Department website at http://geology.missouri.edu/index.html.

**About the Degrees**

The master’s degree program includes a thesis and a non-thesis option, both of which require 30 credit hours beyond the bachelor’s degree. The thesis option is accomplished by taking 18 to 21 graduate course credits and preparing a written thesis involving 9-12 credits of research or problems credits. Students have until the middle of their second semester in residence at the university to choose a supervisor and a thesis topic. The non-thesis track requires 27 hours of graduate course credits plus 3 hours of research credit leading to completion of a smaller-scope research project.

The doctoral degree requires 72 hours beyond a bachelor’s degree, and may include as many as 24 hours credit from a prior master's degree. Doctoral candidates must pass a qualifying exam during their first year in residence to assess their general background so that a meaningful program of study can be constructed. The usual doctoral program involves courses within and outside the department, and researching the dissertation topic prior to taking the comprehensive examination by the end of the second year. The results of the dissertation research are presented to the faculty and graduate students when the student has completed the project.

**Financial Aid from the Program**

Some programs require an extra form or statement from those who wish to be considered for internal assistantships, fellowships or other funding
packages. Check the program website or ask the program contact for details.

Undergraduate

BA in Geological Sciences

Major Program Requirements

The B.A. Curriculum is designed as a degree through which the student wishes to eventually pursue a career in teaching, journalism, law, etc. In addition to the major core requirements, students must complete all university graduation requirements including university general education (p. 20), as well as all degree and college or school requirements.

BS in Geological Sciences

Major Program Requirements

Majoring in geological sciences and earning a Bachelor of Science degree prepares the student for graduate work and a career as a professional geologist in industry, research or academia. The curriculum provides flexibility for students who seek to focus on a specific subdiscipline in the geosciences. Students interested in geophysics, for example, should use their electives to expand their background in math and to develop a broad knowledge of geology and geophysics. In addition, students must meet all degree, college, and university graduation requirements (p. 19) including university general education (p. 20).

The master’s degree program includes a thesis and a non-thesis option, both of which require 30 credit hours beyond the bachelor’s degree. The thesis option is accomplished by taking 18 to 21 graduate course credits and preparing a written thesis involving 9-12 credits of research or problems credits. Students have until the middle of their second semester in residence at the university to choose a supervisor and a thesis topic. The non-thesis track requires 27 hours of graduate course credits plus 3 hours of research credit leading to completion of a smaller-scope research project.

Admission Criteria
Fall deadline: none set, but January 31st for guaranteed consideration for departmental financial aid

• Minimum TOEFL scores:
  Internet-based test (IBT)  80
  Paper-based test (PBT)  530

• Minimum Academic IELTS scores:

**Note on GRE Scores and GPA:** Our quantitative assessment of applicants uses a combination of GPA for the last 60 hours and the student's GRE verbal, quantitative and analytical writing scores. We have a formula that weights the GPA and total GRE scores equally. Applicants with a GPA less than 3.0 may be considered, but their acceptance would require very strong GRE scores or exceptional circumstances.

**Required Application Materials**

**To the Graduate School:**
- All required Graduate School documents. We require applicants to submit applications through our online system.

**To the Geological Sciences Program:**
- 3 letters of recommendation (submitted through the Graduate School's online application system)
- Personal statement (uploaded into Graduate School application online)
- GRE scores

**Financial Aid from the Program**

Some programs require an extra form or statement from those who wish to be considered for internal assistantships, fellowships or other funding packages. Check the program website or ask the program contact for details.

**PhD in Geology**

Contact: Dr. Francisco Gomez

http://geology.missouri.edu/index.html

The doctoral degree requires 72 hours beyond a bachelor’s degree, and may include as many as 24 hours credit from a prior master’s degree. Doctoral candidates must pass a qualifying exam during their first year in residence to assess their general background so that a meaningful program of study can be constructed. The usual doctoral program involves courses within and outside the department, and researching the dissertation topic prior to taking the comprehensive examination by the end of the second year. The results of the dissertation research are presented to the faculty and graduate students when the student has completed the project.

**Admission Criteria**

Fall deadline: none set, but January 31 for guaranteed consideration for departmental financial aid

- Minimum TOEFL scores:
  - Internet-based test (iBT) 71
  - Paper-based test (PBT) 530

- Minimum Academic IELTS scores:

gns@missouri.edu

The Department of German and Russian Studies offers courses in German and Russian language, literature, film and civilization. It also offers instruction in Arabic, Chinese, Japanese, Hebrew and Korean. Many courses, such as civilization, culture, literature in translation and film courses, do not require knowledge of a foreign language.

The department offers the Bachelor of Arts with majors in German and in Russian, and the Master of Arts in German, in Russian and Slavonic Studies. The department also offers minors in German, Russian, Chinese, Japanese, and Korean. Many courses in the minor in East Asian Studies are taught in the Department of German and Russian Studies. The Film Studies program is also housed in the department.

Faculty

Professor R. F. Cook*, C. Strathausen*
Associate Professor S. Engelstein*, S. Franzel*, S. Ireton*, K. Kopp*, B. Prager*
Assistant Professor S. Howes*
Associate Teaching Professor M. Fischer*
Assistant Teaching Professor M. McKinstry, O. Schmidt

* Graduate Faculty Member - membership is required to teach graduate-level courses, chair master's thesis committees, and serve on doctoral examination and dissertation committees.
** Doctoral Faculty Member - membership is required to chair doctoral examination or dissertation committees. Graduate faculty membership is a prerequisite for Doctoral faculty membership.

Undergraduate

• BA in German (p. 199)
• Minor in German (p. 200)

Dual Degrees and Double Majors

As a double major or a dual degree has become an ever more popular choice, an increasing number of students choose German or Russian as one of their majors. Students looking forward to a career in medicine or in the sciences use a double major to ensure a thorough background in the humanities to balance their scientific studies. Double majors within the College of Arts and Science can be arranged and, if the second degree program is identified early, dual degree programs outside the college are also possible. Combined programs with journalism, international studies, education and business are frequent choices. Within the college, combinations with political science, history, philosophy, art history, and the sciences are popular double major programs.

Departmental Honors - German

Departmental honors are available for students majoring in German with a minimum 3.3 GPA. At least two literature courses must be taken at the 4000-level, with no grades below B. The equivalent of one of the courses may be completed in study abroad. Alternately, at the discretion of the department, a paper written within the capstone course may be substituted.

Graduate

• MA in German (p. 200)
College of Arts and Science
451 Strickland Hall
573-882-4328
http://german.missouri.edu/degprogs/germangradstudies.html

Director of Graduate Studies: Sean Ireton

The German and Russian Studies Department offers BA and MA degrees in two cultures and languages of critical significance in the world today - German and Russian. The German program prepares students for admission to PhD programs and for professional language careers in a number of fields. Courses in language, literature, teaching techniques and skills, seminars in various specialized aspects of German studies, and directed study and research provide candidates with opportunities to acquire a comprehensive background in German studies. Teaching assistants receive training in pedagogy.

Resources and Facilities

Resources include extensive library holdings in German literature, cultural studies, and teaching methodology, and an electronically equipped audiovisual laboratory for language training.

Financial Aid from the Program

Some programs require an extra form or statement from those who wish to be considered for internal assistantships, fellowships or other funding packages. Check the program website or ask the program contact for details.

Undergraduate

BA in German

Major Program Requirements

The major in German consists of 27 credits in German beyond GERMAN 2100. The German faculty strongly encourages all majors to spend at least one semester studying abroad at a German university. Equivalents to all the required courses for the major are available through study abroad. In addition, students must meet all degree, college and university graduation requirements including university general education.

Major core requirements (beyond the A&S language requirement)

The following courses or their equivalents must be included:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>GERMAN 2260</td>
<td>Intermediate German II: Language and Culture</td>
<td>3</td>

NOTE: Third Year - Study Abroad at German University

Minor in German

The department offers a minor in German consisting of 15 credits beyond GERMAN 2100. A minimum of 6 of these 15 credits must be in German courses numbered 3000 or above. In addition, a minimum of 9 of the 15 credits must be completed in residence. For the German minor, 12 of the 15 credits must be in courses where the language of instruction is German.

MA in German

Application and Admission Information

Admission Contact Information
Dr. Kristin Kopp
koppkr@missouri.edu
218A Strickland
Columbia, MO 65211
573-882-3367

Admission Criteria

Fall deadline: First preference given to applications received by January 15, subsequent applications welcomed
Note: Applications received by January 15 receive first consideration
Spring deadline: August 1
Note: Applications to begin Spring semester are not encouraged.
Assistantships are typically not available for graduate students beginning Spring semester.

• Minimum TOEFL scores:
  Internet-based test (iBT) 61 Effective July 1, 2015 must have score of 80
  Paper-based test (PBT) 500 Effective July 1, 2015 must have score of 550
• Minimum GPA: 3.0
• Undergraduate major in German or equivalent

Note: The department reserves the right to evaluate the work presented for admission and to determine how the student may make up for background deficiencies.

Required Application Materials

To the Graduate School:
• All required Graduate School documents

To the Program:
• Departmental application
• 3 letters of recommendation

Degree Requirements

Students must complete a minimum of 30 hours of graduate-level courses with a GPA of B or higher. No fewer than 24 hours are to be earned in German courses at the 7000 or 8000 level and at least 15 hours must be taken in German courses at the 8000 level. A thesis, with a maximum of 6 hours of credit, or a critical essay, with a maximum of 3 hours credit, are optional. Courses taken outside the department must
complement the student's plan of study and require the approval of the departmental advisor. No languages other than German and English are required. Information regarding specific course requirements can be obtained by writing to the director of graduate studies.

**Comprehensive Examinations**

Candidates for the MA degree must pass comprehensive written and oral final examinations based on coursework and a cumulatively prepared reading list.
History

J. Wigger, Chair
College of Arts and Science
101 Read Hall
(573) 882-0250
Fax: (573) 884-5151

The Department of History offers undergraduate work in the history of ancient, medieval and modern Europe, the United States, Latin America, Asia and Africa.

The department offers BA, MA and PhD degrees with majors in History. A minor is also available.

Faculty

Curators Professor A. M. Smith**, J. Sperber**, I. Worthington**
Associate Professor Emeritus L. Okamura**

* Graduate Faculty Member - membership is required to teach graduate-level courses, chair master’s thesis committees, and serve on doctoral examination and dissertation committees.
** Doctoral Faculty Member - membership is required to chair doctoral examination or dissertation committees. Graduate faculty membership is a prerequisite for Doctoral faculty membership.

Undergraduate

• BA in History (p. 202)
• Minor in History (p. 203)

Graduate

Director of Graduate Studies: Lois Huneycutt

By any measure one might choose, the History Department at the University of Missouri is an outstanding one. Our faculty has compiled a distinguished record of scholarship, receiving major awards to support their research from the National Endowment for the Humanities, the National Science Foundation, the John Simon Guggenheim Foundation and many other sponsors of cutting edge scholarship. Their books have won prizes from the American Historical Association, the Organization of American Historians and other national and regional scholarly organizations.

The department’s teaching record is every bit as distinguished as its record of scholarly accomplishment. Graduate students work closely with professors in advanced seminars and write theses and dissertations on a wide variety of topics. The teaching opportunities the department offers graduate students prepare them well for dealing with the difficult job market for new history PhDs. Over the last ten years, University of Missouri history PhDs have found positions at more than forty different colleges and universities across the United States.

Areas of Study

Lecture courses, seminars and directed research projects are available on the histories of Western Europe, Russia, Great Britain, South Asia, East Asia, Latin America and the United States. While students are expected to get specialized training in the fields of their choice, they are also urged to develop a broad historical background.

Facilities and Resources

Ellis Library has substantial research materials in all fields of graduate study, including an unusual collection of more than 5,000 pamphlets on 17th- and 18th-century British history and 18th- and 19th-century British and continental journals, including publications of all the major academies. The Health Sciences Library has excellent publications on the history of medicine. An additional resource is the Western Historical Manuscript Collection, a unique repository of material for regional studies in political, social and economic history. The State Historical Society of Missouri has an outstanding library of finding aids and primary and secondary works dealing with Missouri history. The graduate program also has available the resources of the Truman Library at Independence, Missouri.

Internal Funding

Applicants may compete for Graduate School fellowships for entering students. Graduate School fellowships require departmental nomination. Interested students should consult with the director of graduate studies for further details. The department provides qualified students the opportunity to gain college-level teaching experience as teaching assistants who conduct discussion sections in American and European history. Pending administrative approval and availability of funding, they earn at least $13,000 an academic year and carry nine semester hours. Each appointment is subject to annual review and may be renewed up to a maximum of six years.

Undergraduate

BA in History

Major Program Requirements

A student majoring in history must complete a total of 33 history credits. With the consent of the departmental director of undergraduate studies, certain history requirements can be waived for students pursuing dual degrees or double majors. A grade of C- or better is required for all courses taken for the major. In addition, students must complete all university graduation requirements and Arts and Science Foundation Requirements.

Major Core Requirements 33

| Introductory courses (below 2000) from three of the following areas | 9 |
| United States to ca. 1865 | |
| United States since ca. 1865 | |
| Europe | |
| Third World (Africa, Asia, Latin America) | |
One additional course (1000 level or above, not including HIST 1100, 1200, 1500, 1510) from each of the following areas

Europe
United States
Third World

Electives at the 3000 level or above, from any field of history 9
Seminar/thesis block 6
One undergraduate seminar and one additional history course at the 4000-level
OR Undergraduate Thesis
OR Honors Thesis

Minor in History

A minimum of 15 credits is required for a minor in history. At least 9 of the 15 must be in courses numbered 2000 or above. A minimum of 9 credits must be taken in residence, 6 of which must be in courses numbered 2000 or above. A grade of C- or better is required for all history courses taken for a minor. The selection and mix of courses is left to the discretion of the student.

Graduate

MA in History

Admission Contact Information
Nancy Taube (tauben@missouri.edu)
101 Read Hall; Columbia, MO 65211
573-882-9461

Admission Criteria

Fall deadline: Mid-January (see departmental website for specific date)

• Minimum GPA: 3.0 in last 60 hours
• BA or BS degree
• GPA of 3.3 in undergraduate history courses, and at least 18 hours in history
• Official GRE score report
• Minimum TOEFL scores (international applicants only):
  Internet-based test (iBT)  Paper-based test (PBT)
  61 500
  Effective July 1, 2015 must have
  score of 80
  Effective July 1, 2015 must have
  score of 550

Candidates who lack the necessary undergraduate hours in history must take graduate-level classes in history to remedy that deficiency before they can be considered for admission. They should consult with the director of graduate studies about appropriate classes. Graduate School regulations prohibit a non-degree student from taking more than twelve hours of course work.

Candidates must achieve a grade point average in these classes of at least 3.3 on a 4.0 scale to be considered for admission. A 3.3 GPA or higher does not guarantee admission. Course work taken as a non-degree student to remedy a deficiency in prerequisites ordinarily will not count toward the MA degree.

Required Application Materials

To the Graduate School:

• All required Graduate School documents, including Graduate School online application
• One uploaded copy of each college transcript where a degree was earned or is pending (official transcripts will be required upon admission)
• Short essay explaining goals and expectations in graduate study, including the fields in which the student plans to specialize (upload to the online application)
• Substantial writing sample, such as a final research paper from a course (upload to the online application)
• 3 letters of recommendation (submission through the online application system strongly preferred, but postal mail submission directly to the department allowed)
• Official GRE score report
Master’s candidates in Ancient History must demonstrate proficiency in at least one ancient language (Greek or Latin) and at least one modern language (generally, either French or German) before they begin work on their theses, if they choose that alternative, or before they take the non-thesis MA examination, if they are seeking a terminal master’s degree. These students should also be aware that ancient history graduate courses can include readings in Greek and Latin. For directions on how to demonstrate proficiency in these ancient and modern languages, students should talk with their advisors and obtain a written description of this process from them.

Special Note: No student will receive graduate credit for any course in which s/he earns a grade below B. The grade of C in a graduate class is the equivalent of an F in an undergraduate course.

**Satisfactory Progress and Annual Review**

At the beginning of every Spring semester, students must complete a “Progress Report” on the Graduate School’s Graduate Student Progress System (sometimes referred to as “online assessment”). This report will be read by the student’s faculty advisor, who will then submit an “Advisor Response.” In addition, the student and advisor should meet to discuss the student’s progress, confirm expectations for the coming year, and address any concerns either may have regarding the report.

This is an extremely important process for two reasons. First, the advisor determines whether the student is making satisfactory progress toward a degree. If s/he is not, the advisor informs the student what needs to be done to rectify the situation. The student then usually has a year to return to making satisfactory progress. Failure to do so may result in loss of financial aid or dismissal from the program. Second, if the student is making satisfactory progress, the advisor and s/he decide together on what reasonable goals are for the next twelve months. These goals will define “satisfactory progress” at the next assessment meeting.

**Appeals**

The student may appeal any assessment to the director of graduate studies. If not satisfied, s/he may seek the remedies described in the Graduate School catalog.

**Effect of Progress Report Completion on Funding**

Completion of the Graduate Student Progress System forms by both student (Progress Report) and faculty (Advisor Response) is mandatory to maintain eligibility for any form of financial aid from the department. Receipt of financial aid requires confirmation by a student’s advisor that s/he is making satisfactory progress. No student in the program who applies for or who is seeking renewal of financial aid will be eligible for aid without a complete and up-to-date Graduate Student Progress System Report on file.

**Plans for MA Degrees: Thesis plan**

All students who wish to apply for admission to doctoral programs in history either at the University of Missouri or at other institutions must write a thesis. A thesis involves an original and extended analysis of an historical issue that requires substantial research. The topic of the thesis must be approved in advance by the student’s faculty director and the thesis committee, which is composed of the director, at least one other member of the history faculty, and one faculty member from outside the department.
Graduate School regulations require that there be an outside faculty person on each thesis committee. At the discretion of the director, additional faculty members may be added to the committee. The appropriate forms, signed by the advisor and the director of graduate studies, will be submitted to the Graduate School.

Students will take HIST 8090, Thesis Research, during those semesters they are actually engaged in writing their thesis. N.B.: The Graduate School only permits six hours of HIST 8090 to count toward the 30 hours necessary to earn a master’s degree. Students should also note that hours earned in HIST 8090 do count toward the maximum of 12 hours of independent study, i.e., HIST 8085 (Problems), HIST 8089 (Research), and HIST 8090 (Thesis Research), the Graduate School will accept as credit for this degree.

**Plans for MA Degrees: Non-thesis plan**

Students may earn a master’s degree without writing a thesis. A non-thesis MA is a terminal degree. Those who receive it will not be considered for admission to the doctoral program. These students must successfully complete two research seminars in history. These seminars will count toward the thirty hours required for an MA degree. One of the seminar papers must be submitted to the department to fulfill the Graduate School requirement for a substantial effort reflecting creativity or originality.

**Examination for the MA degree: For Thesis Plan**

The student must defend her/his thesis before a committee of at least three faculty members, one of whom must be the thesis director. Another must be from a department other than History. The committee is appointed by the Dean of the Graduate School upon recommendation from the Department of History. The examining committee decides:

1. whether to recommend the awarding of the MA degree to the student
2. for prospective doctoral candidates, whether the student shall be permitted to enter the doctoral program.

This latter action constitutes a decision on the qualifying examination required in the doctoral program. Afterwards, the appropriate form(s) will be signed by the advisor, committee members, and the director of graduate studies, then sent to the Graduate School.

**Examination for the MA degree: For Non-Thesis Plan**

A comprehensive oral examination covering all work for the degree will be conducted by a committee of the advisor and at least two other faculty members, one of whom may be from a department other than history. The examining committee decides whether to recommend the awarding of the MA degree. Afterwards, the appropriate form(s) will be signed by the advisor, committee members, and the director of graduate studies, then sent to the Graduate School.

**Graduate School Deadlines for receipt of the MA degree**

Students must meet Graduate School deadlines for the awarding of degrees and the submission of theses. The final form of the thesis must be in conformity with the Graduate School requirements.

---

**PhD in History**

**Admission Contact Information**

Nancy Taube (tauben@missouri.edu)
101 Read Hall; Columbia, MO 65211
573-882-9461

**Application Deadline**

Fall deadline: Mid-January (see departmental website for specific date)

**Admission Criteria**

- MA in history strongly preferred
- Quality of master’s thesis or research seminar paper submission
- Official GRE score report
- Minimum TOEFL scores (international applicants only):
  - Internet-based test (iBT) 61
  - Paper-based test (PBT) 500

Students who do not meet one or more of these criteria may enroll as non-degree graduate students. Contact the director of graduate studies for further details. All admissions of doctoral candidates who did not receive the MA degree from the department are provisional. These students must pass a qualifying examination. See below for information about the qualifying examination.

**Required Application Materials**

**To the Graduate School:**

- All required Graduate School documents, including Graduate School online application
- One uploaded copy of each college transcript where a degree was earned or is pending (official transcripts required upon admission)
- Short essay explaining goals and expectations in graduate study, including the fields in which the student plans to specialize (upload to the online application)
- Substantial writing sample, such as a final research paper from a course (upload to the online application)
- 3 letters of recommendation (submission through the online application system strongly preferred, but postal mail submission directly to the department allowed)
- Official GRE score report
- Official TOEFL score for international students

**Note:** Incomplete applications will not be considered. It is the applicant’s responsibility to ensure that all required documents have been received by the January deadline.

**Financial Aid from the Program**

In this department, all applicants are considered for financial aid unless they indicate otherwise. Announcements of awards are made no later than April 1. Applicants may compete for Graduate School fellowships for entering students. Graduate School fellowships require departmental nomination. Interested students should consult with the director of graduate studies for further details.

The department provides qualified students the opportunity to gain college-level teaching experience as teaching assistants who conduct discussion sections in American and European history. Pending
must be approved by the dean of the Graduate School. A faculty member from outside the department who are on the graduate faculty, and one graduate committee will ordinarily consist of the advisor, three members of the history department who will plan the student's class work up to the comprehensive exams. They will also choose other members of the student's doctoral committee. That committee will ordinarily consist of the advisor, three members of the history department who are on the graduate faculty, and one graduate faculty member from outside the department. The advisory committee must be approved by the dean of the Graduate School.

Qualifying Examination
To be admitted to candidacy for a PhD in history, a student must have earned an MA in history or a related discipline and have passed a qualifying examination.

Students with an MA from the University of Missouri
Students earning their MA in history at this university may, with the approval of their advisory committee, combine their qualifying examination with their MA thesis defense. Other students must take their qualifying examination no later than the beginning of their third semester in the graduate program at the University of Missouri-Columbia.

Students Who Earned Degrees at Other Institution
All admissions of doctoral candidates who did not receive the MA degree from the department are provisional. These students must pass a qualifying examination no later than the beginning of their third semester of residence at MU. The exam will focus on a research paper the student wrote at MU.

About the Exam
The examining committee will be composed of the student’s advisor and at least two other history faculty members. During the consideration of prospective students, the committee on graduate admissions will consult closely with faculty best suited to advise them.

The basis for the examination will be a substantial research-based seminar paper written here. The exam will be oral, approximately one hour in length; the examiners will include the student's advisor and at least two other members of the department. It is designed to ascertain the candidate’s intellectual capacity, aptitude, and preparation for PhD level work in history. The committee reserves the right to reject otherwise qualified students if

1. this department cannot provide the applicant with an adequate program in his/her area of interest
2. no faculty member is willing to supervise his/her work.

PhD Program Overview
The PhD program in history at the University of Missouri-Columbia is governed by a number of rules, regulations, and expectations. What follows is an explanation of these elements of the program.

Advisor and Advisory Committee
A student will meet with his/her advisor no later than the semester following passage of the qualifying examination for students who earn their MA in history at the University of Missouri and prior to the qualifying examination for other students. The advisor and student together will plan the student’s class work up to the comprehensive exams. They will also choose other members of the student’s doctoral committee. That committee will ordinarily consist of the advisor, three members of the history department who are on the graduate faculty, and one graduate faculty member from outside the department. The advisory committee must be approved by the dean of the Graduate School.

Developing a PhD Plan of Study
The committee will meet formally with the student to help the student to develop a major field, two broad historical fields, a historical field outside his/her area of major emphasis, and one field in a discipline other than history for the comprehensive examination. How s/he will meet the foreign language and/or historical research technique requirement (see below) will be defined and approved by the advisor and the committee. Members of the advisory committee shall meet regularly with the student to ensure he/she is making satisfactory progress.

PhD Degree Requirements
To obtain a PhD in history at the University of Missouri, a student must fulfill the following requirements:
1. residency
2. course work
3. foreign language and/or historical/research technique
4. comprehensive examination
5. dissertation and oral defense

Residency
A minimum of two semesters of full-time enrollment (9 hours each semester) or three semesters of part-time enrollment (6 hours each semester). Enrollment in all graduate courses requires the consent of the student’s advisor and the instructor(s) of the class.

Course Work
The minimum requirement for the PhD degree at the University of Missouri is 72 hours of graduate credit beyond the baccalaureate degree. A student’s advisor and committee may require more. Customarily, students in history have more than 72 hours when they defend their dissertations. If a student has earned an MA degree at another institution, with the approval of her/his advisor and committee, s/he may receive up to 30 hours of credit toward the 72 necessary for the PhD. If a student took additional courses beyond his/her MA degree at another institution, with the approval of her/his advisor and committee, s/he may receive up to a maximum of six hours of credit toward the PhD.

Graduate School regulations forbid the awarding of more than six hours. Two-thirds of the courses taken by a PhD candidate within the department prior to the comprehensive examination must be at the 8000 or 9000 level. These may, and probably will, include History 8085 (Problems), History 8410 (Independent Readings PhD Exam), History 9089 (Research), but not History 9090 (Dissertation Research).

Every doctoral student who earned his /her master’s degree at another institution must take History 8480, Historiography, unless excused by the director of graduate studies. History 8480 is offered every spring semester.

Foreign Languages and Historical Research Techniques
PhD candidates must demonstrate abilities in foreign languages and/or historical research skills appropriate to the completion of a doctoral dissertation in their proposed field of research. There are four different ways a student may fulfill this requirement. Which one is chosen depends on the area of his/her research interest. The advisor and committee must approve the method for fulfilling this requirement.

PhD Focus Areas

Ancient History Focus
Candidates planning to write a doctoral dissertation in ancient history must demonstrate their competence in Greek and Latin, together with at least two modern languages (usually French and German).

For the ancient language, competence will be shown either by the successful completion of a translation examination designed by a history department faculty member with knowledge of the relevant language, or by passing the ETS language examination with a minimum score of 500, or by passing an ETS language examination with a minimum score of 500. Alternatively, competence in a foreign language may be demonstrated by satisfactory completion of an upper level language course in any modern language department of the university.

Areas of Study and Dissertation Topics

What the student learns in this discipline should assist his/her understanding of and research on her/his dissertation topic. The student’s choice of a discipline to work in for his/her outside field is potentially as wide as the number of programs and departments in the university. That choice is not confined merely to departments in the College of Arts and Science. The student must have his/her advisor’s approval of the discipline and the outside faculty member. The Graduate School must approve these selections as well.

Within the department of history there are seven broad areas of historical study.

- US history to 1865 (including the colonial period)
- US history since 1865
- Ancient history
- European history from the fall of Rome through the Reformation
- European history since the Reformation
- Latin American history
- Asian history

The three history faculty who, together with the advisor, will help the student prepare for the comprehensive examinations, must each test him/her on material in a different broad area. Thus the student will be working on three different broad areas, plus the dissertation field. The three faculty members may, in consultation with the student, define the broad area as narrowly or as widely as they choose.

Documenting Exam Preparation

The advisor and the four other faculty members must explain how they want the student to prepare, what they want the student to master, and which criteria they will use to assess the examinations in their particular field. These explanations must be in writing, and copies of each placed in the student’s permanent file.

Comprehensive Examination Requirement

Students may take a comprehensive examination only after fulfilling their residency, course work and foreign language and/or historical research technique requirements. It will be administered by a committee consisting of his/her advisor and four other faculty members, one from a discipline other than history. These should be the faculty members who helped the student prepare for the examinations. Sometimes it may be necessary to find substitutes. The director of graduate studies and the Graduate School must approve any substitutions, and new committee members...
must describe their expectations in writing for the student and for his/her permanent file.

**Comprehensive Exams Processes**

The comprehensive exams are given in two stages. The first is a series of at least three written exams. The second is an oral examination, which is conducted if the student passes the written portion. A report of the decision, signed by all members of the committee, must be sent to the Graduate School and the student no later than two weeks after the comprehensive exam is completed. One of the written exams must be in the major field; the committee will determine the subjects of the other exams, and their number.

Special Note: All members can require the student to write on their areas of expertise. Therefore the written examinations could cover all five areas.

All members of the committee will read the written exams and discuss them within two weeks after their completion. If they determine the student has not successfully completed the exam, they will inform him/her immediately and discuss the results. Failure ends the comprehensive exam at this point. The committee must provide the student with an outline in writing of the weaknesses and deficiencies of his/her work.

A copy of this must be placed in the student’s permanent file. If at any time the student believes that parts of the exam are unclear, or the decision of the committee is incorrect, or the advice given by the committee is inadequate, s/he may send a written request for clarification and rectification to the committee. A copy of this request should be sent to the Graduate School as well. The committee must respond to this request in writing within two weeks and a copy must be filed with the department and the Graduate School.

At least 12 weeks must pass before a student who failed can take the comprehensive exams again.

If the committee determines that the student did satisfactory work on the written examinations, they will schedule an oral examination. This second stage of the comprehensive exams will cover all five fields. Each member of the committee will test the student. At the end of the oral examinations, the committee discusses the student’s performance on each field and on the entire examination. This discussion includes both the written and the oral parts of the whole process. Then they vote pass, fail, or abstain on the student’s total performance on the exam.

**Criteria for Successful Completion of the Comprehensive Exam**

To complete the comprehensive exams successfully, the student must receive a vote of pass from at least four of the five examiners. Should two or more votes be negative or abstentions, the committee follows the same procedure outlined above for failure to pass the written part. These students must repeat the entire examination, not just the fields failed, and not just the oral portion. If the candidate fails the second examination, the examining committee must enter on its report to the dean of the Graduate School a recommendation to prevent the student’s further candidacy.

**Dissertation and Oral Defense**

Soon after successful completion of the comprehensive examination, the student and advisor will form a dissertation committee of five faculty members. One member of the committee must be from outside the department. The student shall develop with her/his advisor and committee a dissertation topic and a plan of research. S/he should keep in regular contact with the advisor. Together they shall decide when written work will be read by other members of the committee.

**Travel Funding**

When students begin work on their doctoral dissertations, they may apply for departmental fellowships and travel grants to assist their research and writing.

**Satisfactory Progress**

The department requires PhD candidates to make satisfactory progress towards completion of their degree.

**Annual Review**

At the beginning of every Spring Semester, students must complete a “Progress Report” on the Graduate School’s Graduate Student Progress System. This report will be read by the student’s faculty advisor, who will then submit an “advisor Response.” In addition, the student and advisor should meet to discuss the student’s progress, confirm expectations for the upcoming year, and address any concerns either may have regarding the report.

This is an extremely important process for two reasons. First, the advisor determines whether the student is making satisfactory progress toward a degree. If s/he is not, the advisor informs the student what needs to be done to rectify the situation. The student then usually has a year to return to making satisfactory progress.

Failure to do so may result in loss of financial aid or dismissal from the program. Second, if the student is making satisfactory progress, the advisor and s/he decide together on what reasonable goals are for the next twelve months. These goals will define “satisfactory progress” at the next assessment meeting.

**Appeals**

The student may appeal any assessment to the director of graduate studies. If not satisfied, s/he may seek the remedies described in the Graduate School catalog.

**Funding Impact of Incomplete Reports**

Completion of the Graduate Student Progress System forms by both student (Progress Report) and faculty (Advisor Response) is mandatory to maintain eligibility for any form of financial aid from the department. Receipt of financial aid requires confirmation by a student’s advisor that s/he is making satisfactory progress. No student in the program who applies for or who is seeking renewal of financial aid will be eligible for aid without a complete and up-to-date Graduate Student Progress System Report on file.

**Rate of Completion**

A PhD student must successfully complete the comprehensive examination within a period of five years beginning with the first semester of enrollment as a PhD student. For an extension of this the student must petition the Graduate School by submitting a request to the advisor who, in turn, submits a written recommendation to the Graduate School. The director of graduate studies will also make a written recommendation. In addition, the dissertation must be successfully defended within five years of passing the comprehensive examination. On petition of the candidate and the candidate’s department, an extension of time may be granted by the Graduate School.
Interdisciplinary

Office of Multidisciplinary Degrees  
College of Arts and Science  
114 Switzler Hall  
(573) 882-6060  
omd.missouri.edu

Faculty

Faculty members are housed in departments and schools throughout the University of Missouri.

* Graduate Faculty Member - membership is required to teach graduate-level courses, chair master’s thesis committees, and serve on doctoral examination and dissertation committees.
** Doctoral Faculty Member - membership is required to chair doctoral examination or dissertation committees. Graduate faculty membership is a prerequisite for Doctoral faculty membership.

Undergraduate

- BA in Interdisciplinary (p. 209)
  - with emphasis in Black Studies (p. 210)
  - with emphasis in Environmental Studies (p. 210)
  - with emphasis in Peace Studies (p. 212)
  - with emphasis in Women’s and Gender Studies (p. 213)

Interdisciplinary Studies provides for the needs and interests of individual students who are not being served by one of the existing majors. The Office of Multidisciplinary Degrees is responsible for a variety of multidisciplinary majors, including Interdisciplinary Studies, International Studies, and General Studies. The website is omd.missouri.edu.

Graduate

While MU does not offer graduate degrees specifically in interdisciplinary, the University does offer post-baccalaureate opportunities in a number of related areas, both within the College of Arts and Science, and in the other Schools and Colleges that make up the University. The catalog provides a complete list of these degree options (p. 5).

Undergraduate

BA in Interdisciplinary

Major Program Requirements

Students majoring in Interdisciplinary Studies may design an individual course of study. Students with very specific career plans and goals not easily accommodated in any one department may find this program suited for their needs. Others may find that this option permits a broader approach than the major found in a single department.

The Interdisciplinary Studies major is comprised of two or three components to total 36 credits. A component consists of course work from a single department or area, which may include programs outside the College of Arts and Science (e.g., Journalism, Business or Social Work). At least 18 hours must come from the College of Arts and Science. In addition to the 36 hours required in the major components, Interdisciplinary Studies students must also complete a 3-credit capstone.

Interdisciplinary Studies candidates must earn no less than a 2.0 GPA in each component. They are bound by rules and practices of the College of Arts and Science that pertain to admission to degree programs, the awarding of credit, and the awarding of degrees. Students must complete college as well as University requirements (p. 19), including University general education (p. 20).

Major Core Requirements

Area of concentration (select one option) 36
- Three components of 12 credits each
- Three components, one of 15, one of 12 and one of 9 credits
- Two components of 18 credits each
- Two components, one of 21 and one of 15 credits

All courses in the major must be at the 2000 level, and at least 15 credits must be 3000 level or above.

A minimum of 12 credit hours within all components must be MU courses.

Capstone requirement (to be completed during final 45 hours of course work)

There are several ways a student can complete the capstone experience in Interdisciplinary Studies.

1. Special Readings project: With this option, the student completes an independent research project under the supervision of a faculty member. The project allows the student to explore an area of interest and is designed to be an academic challenge. The department is open to creative, innovative approaches to learning. The supervising faculty member is responsible for grading the project. The student is responsible for locating a supervising faculty member.

2. Service Learning project: Students will engage in service activities, directly relevant to their areas of academic emphasis, in community not-for-profit agencies. At the same time as participants work in the community, they will research their agency and organization, undergo mock employment interviews, create a cover letter and résumé based on the professional skills they have gained through their service, and reflect on careers and leadership in public service. Course will be submitted for Writing Intensive credit each semester. Restricted to Interdisciplinary, General and International Studies students.

3. Internship: Students work approximately 50 clock hours per credit at an agency, company or corporation of their choice. Grades are on a pass-fail basis. For an internship to be approved as a capstone experience, it must help the student solidify and explore the areas of concentration. Internships must have prior approval from the Office of Multidisciplinary Degrees (https://omd.missouri.edu).

4. Capstone course: Students may have a specific course designated as a capstone course for the individual degree program. The course must be upper level, and the course must be taken in the last 45 hours of course work as a major. A course taken previously cannot retroactively be counted as a capstone course. Approval for the course must be provided in advance of registration from the Interdisciplinary Studies advisor.

Interdisciplinary Studies provides for the needs and interests of individual students who are not being served by one of the existing majors. The Office of Multidisciplinary Degrees is responsible for a variety of multidisciplinary majors, including Interdisciplinary Studies, International Studies, and General Studies. The website is omd.missouri.edu.

Total Credits: 120-124

BA in Interdisciplinary with Emphasis in Environmental Studies

Major Program Requirements

The Bachelor of Arts in Interdisciplinary Studies with an emphasis in Environmental Studies is an individually-designed major for students interested in acquiring a broad understanding of environmental issues and the complex causes underlying them. Students design their major to reflect their own interests and goals in the field. Individualized majors of this kind require a higher level of commitment than is typical of traditional majors because students MUST do the work of building their own degree. The program prepares students for graduate study and careers in education, law, business, public policy, humanitarian aid, non-profit organizations, and government. The majority of students with the degree work in areas such as advocacy and outreach as well as policy and regulation. Find additional information and course options at https://omd.missouri.edu/?q=env-st/index.

Students in this major must complete 5 specified Core courses to fulfill College of Arts and Science Foundation Requirements and an additional 39 hours minimum for the major. D-range grades are not allowed in the major. In addition, students must complete all university graduation requirements and Arts and Science Foundation Requirements.

Required Core Coursework

Math Reasoning Proficiency (MRP)

- Complete a statistics course designated as MRP with a C- grade or higher.
- MRP courses are listed at the MU General Education website (http://generaleducation.missouri.edu/requirements/math).
- Recommended course options are STAT 1200, STAT 1300 or STAT 1400.

Biological, Physical, and Mathematical Sciences

- Complete a general education approved Biological Sciences course. BIO_SC 1010, BIO_SC 1060, BIO_SC 1200, or BIO_SC 1500 are recommended course options.
- Complete a general education approved Geology course. GEOL 1100 or GEOL 1200 are the recommended course options.
- Complete a general education approved Chemistry course. CHEM 1100, CHEM 1320 and CHEM 1330 are recommended course options.
- One lecture with a corresponding laboratory must be completed.
• Laboratories should be taken with the corresponding lecture or after the lecture course is completed, but not before completing the corresponding lecture course.

Social Sciences
• Complete a general education approved Economics or Agricultural Economics course. ECONOM 1014, ECONOM 1015, AG_EC 1041, or AG_EC 1042 are recommended.

Major Requirements
Policies
• A total of 39 hours is required for the major.
• Students must complete 30 hours numbered 2000 or higher in the major.
• 18 hours numbered 3000 level or higher are required in the major.
• D-range grades are not allowed in the major.

Natural Dimensions
• Complete 15 hours of coursework in this section.
• The course levels will be determined by the academic advisor.
• Refer to the list of Natural Dimensions (https://omd.missouri.edu/?q=env-st/courses/natural-dimensions) courses to find options.

Social Dimensions
• Complete 15 hours of coursework in this section.
• The course levels will be determined by the academic advisor.
• Refer to the list of Social Dimensions (https://omd.missouri.edu/?q=env-st/courses/social-dimensions) courses to find options.

Practicum Core
• Complete AG_EC 2070 or NAT_R 2160.
• Complete 3 hours of Service Learning, Internships, or Readings.
• Complete an additional 3 hours of Service Learning, Internships, or Readings.
• Service Learning, Internship, or Readings can be taken as a single course for 6 hours.

Service Learning, Internships, & Readings
Policies
• The Capstone must be completed in the final 45 hours of coursework.
• Students must earn a C- or higher to fulfill the Capstone requirement.
• Students must have a Capstone approved by their academic advisor.
• Students may complete an Internship or Readings that is not used as a Capstone.
• Students may not earn retroactive credit for internships.

Internships 4940
• Students must have a 2.0 cumulative GPA to apply for approval of an internship project.
• Students must not have any active Student Conduct holds.
• Students may not complete an internship at an existing position.
• Students must work 50 hours for each credit hour earned.
• Only internships in the United States can be approved.
• During the Internship period, students must submit the following assignments:
  a. a well-written proposal outlining the details of the internship must accompany the application
  b. a carefully-prepared factual report about the internship which addresses the questions outlined in the student's internship proposal
  c. a résumé which includes the student's internship experience and documents the tangible skills they attained while working
  d. an interpretative essay in which students connect what they have learned from their internship experience with their academic work in their individualized major
• Internship supervisors must submit a performance evaluation.
• Internships receive a grade of S or U (pass/fail).
• The Office of Multidisciplinary Degrees reserves the right to deny internship project approval to any student it believes will not be a good representative of the University.

Readings 4960
Students work independently with MU faculty on research and/or professional projects. A student finds a campus professor with whom to work. Together, they create concrete objectives for a meaningful project. The professor guides and supervises the student towards completion of the project and is responsible for awarding a letter grade for the course.

Service-Learning 4970
Service-Learning provides hands-on experience in service experiences that are coordinated in collaboration with MU and the community. Service-Learning experiences create valuable learning environments for students as they connect with the community in partnerships that provide effective and far-reaching assistance to those in need. To apply, students must have a 2.5 GPA or higher.

BA in Interdisciplinary with Emphasis in Peace Studies

Major Program Requirements

Clarence Lo, Ph.D, Director
326 Middlebush Hall
(573) 882-1736
loc@missouri.edu

The peace studies emphasis area addresses a wide range of issues concerning peace and justice, including international and civil war and peace; global social and environmental justice; nonviolent social movements, process, and change; cultures, intellectuals, and war and peace; and indigenous peoples and the imperial state. Our courses provide a liberal arts foundation: students explore values to set goals; they evaluate evidence to assess alternate means to achieve goals. Some courses focus on practical issues of community organization (PEA_ST 4341), sustainable development (PEA_ST 1120) and construction, and public health (PEA_ST 3401), that students are likely to encounter in work, internship, or volunteer positions. Study abroad courses taught by MU faculty are regularly offered. Since issues of peace and conflict cut across disciplines, the curriculum includes courses offered by both the program itself and cross listed between Peace Studies and other programs and departments of the University.

Semester Plan

Refer to the Semester Plan for the BA in Interdisciplinary Studies (p. 209).
BA in Interdisciplinary with Emphasis in Women's and Gender Studies

Major Program Requirements
Interdepartmental Program in the College of Arts and Science
Joan Hermsen, Chair
Mary Jo Neitz, Director of Undergraduate Studies
325 Strickland Hall
(573) 882-2703

Students may earn a Bachelor of Arts in the College of Arts and Science with an Interdisciplinary Studies major and an emphasis in Women's and Gender Studies. A minor is also available as are departmental honors. Please consult the Women's and Gender Studies department for more information.

Advising of students and assistance in designing student-tailored academic plans is available from the Women's and Gender Studies department office.

The curriculum includes Women's and Gender Studies core courses as well as cross-listed courses from several departments throughout the University. These courses assume that knowledge cannot be separated from the study of women and gender, and that gender and sexuality are fundamental categories of analysis in all disciplines. The department stresses interdisciplinary scholarship and teaching that are broadly comparative and range across multiple cultures, national and transnational contexts, and historical periods. Its faculty employ a broad range of theoretical approaches and methods.

When students graduate with an emphasis in Women's and Gender Studies, they should be able to:

- Apply cross-cultural and global awareness to "big questions" about women and gender
- Have a comprehensive grasp of intersectionality and matrices of domination
- Think critically: i.e. consider an issue from multiple perspectives; locate, evaluate and interpret diverse sources, including statistics; engage in critical self-reflection
- Construct arguments with evidence obtained from research
- Work collaboratively
- Recognize sexist/racist writing and thinking
- Connect knowledge and experience, theory and activism, Women's and Gender Studies materials with other courses
- Communicate effectively in writing and speech
- Apply knowledge for social transformation, citizenship
- Use gender (and other identity categories) as a category/ies for analysis

An emphasis in Women's and Gender Studies prepares students for many different employment opportunities. Some fields include arts, business, education, healthcare, policy, media, politics, law, social work and social services. Because of the diversity of Women's and Gender Studies, the WGST emphasis can be combined with a number of other potential majors to create a dual degree. Many students choose to combine two areas of study, such as Women's and Gender Studies and Sociology, or Women's and Gender Studies and Journalism. This results in a student receiving one degree with two areas of specialization that reflect the student’s unique academic interests and his/her individually-designed course of study.

Thirty hours are required in Women's and Gender Studies. In addition to degree requirements, college and university requirements (p. 19), including university general education requirements (p. 20), must be met.

Additional courses

Students take an additional 15 hours selected from the lists of courses below. Students are encouraged to select the bulk of their elective coursework from the first list, Emphasis Core Courses, and must take a minimum of 9 hours from this list. Courses from the third list, Special Semester Topics Courses, may be either Emphasis Core Courses or Cross-listed Courses. Please seek advise from the department on which requirement these courses fulfill. 12 hours must be at 2000 level or above.

International Studies

Office of Multidisciplinary Degrees
College of Arts and Science
114 Switzer Hall
(573) 882-6060

International Studies (https://omd.missouri.edu/?q=intl-st/index)

The Bachelor of Arts in International Studies is an individually designed major with a strong multicultural and global focus. Students in the major have the opportunity to design a major that reflects their own interests and goals. The increased level of flexibility requires a higher level of commitment than is typical of traditional majors because students MUST do the work of building their own degree.

International Studies majors acquire analytical skills and knowledge that will enable them to understand and contribute to shaping the quickly evolving global community. The program prepares students for graduate study and careers in academia, teaching, law, business, public policy, humanitarian aid, non-profit organizations, government, and diplomacy. Students in the program will study advanced foreign language and participate in a study abroad experience to fulfill degree requirements.

International Business (https://omd.missouri.edu/?q=intl-bus/index)

The dual degree program in International Business leads to the BS in Business Administration from the Trulaske College of Business and the BA in International Studies from the College of Arts & Science. This degree typically takes 4 1/2+ years to complete. Students in the program will study advanced foreign language and participate in a study abroad experience to fulfill degree requirements.

International Studies majors acquire analytical skills and knowledge that will enable them to understand and contribute to shaping the quickly evolving global community. The program prepares students for graduate study and careers in academia, teaching, law, business, public policy, humanitarian aid, non-profit organizations, government, and diplomacy.

Faculty

Faculty for International Studies are housed within other departments.

Undergraduate

• BA in International Studies (p. 215)
  • with emphasis in East Asian Studies (p. 217)
  • with emphasis in Environmental Studies (p. 217)
  • with emphasis in European Studies (p. 217)
  • with emphasis in International Business (p. 218)
  • with emphasis in Latin American Studies (p. 218)
  • with emphasis in Peace Studies (p. 218)
  • with emphasis in South Asian Studies (p. 218)

Graduate

While the College does not offer a graduate degree specific to international studies, the Graduate School does offers a graduate academic Minor in International Development (p. 730).

This catalog provides a complete list of graduate degree options (p. 5) for all Schools and Colleges at the University of Missouri.

Undergraduate

BA in International Studies

Major Program Requirements

A student majoring in the BA in International Studies must complete 18 hours of specified Core coursework to fulfill Arts and Science Foundation Requirements, an additional 42 hours minimum for the major, and a study abroad experience. D-range grades are not allowed in the major. In addition, students must complete all university graduation requirements and Arts and Science Foundation Requirements. The information below pertains to the BA in International Studies and additional information can be found at https://omd.missouri.edu/?q=intl-st/index. Students interested in the dual degree in International Business, which is a different major, should find additional information at https://omd.missouri.edu/?q=intl-bus/index.

Major Requirements (42 hours minimum)

Language Requirements (6 hours minimum)

For the major, students must complete 6 hours minimum of conversation and/or composition courses in a single foreign language, beyond the elementary level.

Regional/Cultural Area (12 hours minimum)

Could include additional language and literature courses from the language of major study, as well as coursework with an international focus from Philosophy, Religious Studies, Art History, Film Studies, and Civilization courses.

Social/Behavioral Sciences Area (12 hours minimum)

Could include coursework with an international focus from Geography, History, Political Science, Economics, Anthropology, Sociology, Rural Sociology, Women’s and Gender Studies and Peace Studies.

Focus Area (12 hours minimum)

Course work with an international focus from an area of the student’s choice allowing the study of one area in depth. The focus area must be related to the foreign language the student is studying. Students are encouraged to take 9 credits from a single department or area. The 3-credit capstone experience will equal 12 hrs. of credit. See information on the capstone options below. The focus area options are: East Asian Studies, Environmental Studies, European Studies, Latin American Studies, Peace Studies, or South Asian Studies.

Capstone Options

Policies

- The Capstone must be completed in the final 45 hours of coursework.
- Students must earn a C- or higher to fulfill the Capstone requirement.
- A maximum of 12 hours of Internship, Readings, and/or Special Problems may apply to graduation.
- Students must have a Capstone approved by their academic advisor.
- Students may complete an Internship or Readings that is not used as a Capstone.
- Students may not earn retroactive credit for internships.

Internships 4940

- Students must have a 2.0 cumulative GPA to apply for approval of an internship project.
- Students must not have any active Student Conduct holds.
- Students may not complete an internship at an existing position.
- Students must work 50 hours for each credit hour earned.
- Only internships in the United States can be approved.
- During the Internship period, students must submit the following assignments:
  - a well-written proposal outlining the details of the internship must accompany the application
  - a carefully-prepared factual report about the internship which addresses the questions outlined in the student’s internship proposal
  - a résumé which includes the student’s internship experience and documents the tangible skills they attained while working
  - an interpretative essay in which students connect what they have learned from their internship experience with their academic work in their individualized major
  - Internship supervisors must submit a performance evaluation.
  - Internships receive a grade of S or U (pass/fail).
- Students must have a Capstone approved by their academic advisor.
- A maximum of 12 hours of Internship, Readings, and/or Special Problems may apply to graduation.
- Students must earn a C- or higher to fulfill the Capstone requirement.
- Only internships in the United States can be approved.
- The Office of Multidisciplinary Degrees reserves the right to deny internship project approval to any student it believes will not be a good representation of the University.

Readings 4960

Students work independently with MU faculty on research and/or professional projects. A student finds a campus professor with whom to work. Together, they create concrete objectives for a meaningful project. The professor guides and supervises the student towards completion of the project and is responsible for awarding a letter grade for the course.

Service-Learning 4970

Service-Learning provides hands-on experience in service experiences that are coordinated in collaboration with MU and the community. Service-Learning experiences create valuable learning environments for students as they connect with the community in partnerships that provide effective and far-reaching assistance to those in need. To apply, students must have a 2.5 GPA or higher.

### BA in International Studies with Emphasis in East Asian Studies

#### Major Program Requirements

Refer to the program requirements for the BA in International Studies (p. 215). East Asian Studies is one of the emphasis areas in the International Studies major. The program is multidisciplinary, encompassing course work from the departments of Geography, History, Anthropology, Religious Studies, Political Science and Philosophy, as well as in Chinese, Japanese and Korean. The program focuses on creating an understanding and awareness of the culture, history, politics, geography and languages of the East Asian countries, with an emphasis in China, Japan or Korea. Students are encouraged to begin study of their foreign language no later than the sophomore year. Students should consult with the International Center about appropriate locations for their study abroad experience.

#### Semester Plan

Refer to the program requirements for the BA in International Studies (p. 215).

### BA in International Studies with Emphasis in Environmental Studies

#### Major Program Requirements

Refer to the program requirements for the BA in International Studies (p. 215). The Environmental Studies emphasis is for students interested in developing a broad understanding of environmental problems and their underlying causes so they can work effectively in the areas of environmental advocacy, outreach, policy, and regulation.

### Semester Plan

Refer to the program requirements for the BA in International Studies (p. 215).

### BA in International Studies with Emphasis in European Studies

#### Major Program Requirements

Refer to the program requirements for the BA in International Studies (p. 215). European studies is an emphasis area in the International Studies major. Students who are studying French, Spanish, German, Italian or Russian may wish to select European studies as their emphasis area. The student examines the politics, culture, history and geography of the European continent, with a focus on the country whose native language is being studied by the student. Given the multidisciplinary approach to this degree, students take courses that are specifically geared to a better understanding of the culture, history, and language of a given country, as well as a better understanding of the entire continent of Europe.
Semester Plan
Refer to the program requirements for the BA in International Studies (p. 215).

BA in International Studies with Emphasis in International Business

Major Program Requirements
Refer to the website at https://omd.missouri.edu/?q=intl-bus/index. The dual degree program in International Business leads to the BS in Business Administration from the Trulaske College of Business and the BA in International Studies from the College of Arts & Science. This degree typically takes 4 1/2+ years to complete. Students in the program will study advanced foreign language and participate in a study abroad experience to fulfill degree requirements.

International Studies majors acquire analytical skills and knowledge that will enable them to understand and contribute to shaping the quickly evolving global community. The program prepares students for graduate study and careers in academia, teaching, law, business, public policy, humanitarian aid, non-profit organizations, government, and diplomacy.

Semester Plan
Refer to the website at https://omd.missouri.edu/?q=intl-bus/index.

BA in International Studies with Emphasis in Latin American Studies

Major Program Requirements
Refer to the program requirements for the BA in International Studies (p. 215). Latin American Studies is offered as an emphasis area for the BA in International Studies. The Latin American Studies option is designed to offer, in addition to linguistic competency in Spanish or Portuguese, a broad base of knowledge about Latin American politics, literature, economics and culture.

This field of inquiry, alone or in combination with another discipline, is in high demand throughout the world and can provide students with an indisputable competitive edge in the contemporary professional arena. Students who graduate with an emphasis in Latin American Studies will be fully prepared to pursue graduate study in Latin American Studies programs offered around the country.

Students are encouraged to study abroad in one of many program opportunities in Spain, Mexico, Central and South America, Brazil or the Caribbean.

Semester Plan
Refer to the program requirements for the BA in International Studies (p. 215).

BA in International Studies with Emphasis in Peace Studies

Major Program Requirements
Refer to the program requirements for the BA in International Studies (p. 215). Students may opt for an emphasis in Peace Studies. Students with this emphasis examine issues related to global peace and social justice - in the international arena. The emphasis in Peace Studies helps prepare students for employment, volunteer assignments, and graduate study in such areas as conflict resolution, human rights, humanitarian assistance, sustainable development, social justice, nonviolent social change, indigenous peoples, and the understanding of global cultural diversity.

Semester Plan
Refer to the program requirements for the BA in International Studies (p. 215).

BA in International Studies with Emphasis in South Asian Studies

Major Program Requirements
Refer to the program requirements for the BA in International Studies (p. 215). The South Asian Studies emphasis offers courses in history, politics, philosophy, religion, culture, social life and languages of India. It thus provides the opportunity for study of an ancient and extensive civilization with a significant role in human history.

An emphasis in South Asian Studies prepares students to enter MA and PhD programs in this area of specialization, which often provide intensive summer language programs. An advanced degree opens a variety of professional and job opportunities for those planning to work in such fields as international business, trade and diplomacy, international law or agricultural development, among others.

Semester Plan
Refer to the program requirements for the BA in International Studies (p. 215).
Linguistics

Linguistics is the scientific study of human language. It seeks to understand and explain the properties of language in a clear and formal manner. Linguists document understudied and endangered languages, explore the consequences of language contact, measure language variation and change, investigate the structure of language, and analyze the construction of meaning.

Some of the main subfields of linguistics are phonetics (the physical properties of sounds), phonology (the grammar of sounds), morphology (the structure of words), syntax (the organization of phrases and sentences), semantics (meaning), and sociolinguistics (the interaction of language and society).

A Bachelor of Arts with a major in linguistics is available (with an honors option) as is a linguistics minor, both involving coursework in the various subfields.

The study of linguistics prepares students for careers which utilize insight into the workings of language including language instruction, translation and interpreting, speech pathology, anthropology, the reconstruction of prehistory, and computational fields related to the interaction of language and technology. Academic careers of linguistic research and teaching are also possible after further training at the graduate level.

In addition, a major in linguistics offers students a liberal education and develops verbal and analytical skills that are valuable in a variety of less directly related careers such as journalism, literary study, and the law. The linguistics program is staffed by faculty from a number of MU departments. Supporting course work is offered in Anthropology, Black Studies, Classical Studies, Communication, Communication Science and Disorders, the College of Education, English, German and Russian Studies, Psychology, Philosophy, Romance Languages and Literatures, and South Asian Studies.

Although specialists in the field commonly know one or more foreign languages, such knowledge is complementary rather than essential.

Faculty

Professors: P. Weirich*, J. Zemke*, F. Zéphir*
Associate Professors: V. Carstens*, J. Goodman*, M. Gordon*, C. Horisk*, M. McGrath*, P. Robbins*, T. Kazic*
Assistant Professors: A. Alcazar*, M. Fagan*, J. Kramer*, M. Marlo*, M. Popescu*
Emeritus Faculty: L. Day*, N. L. Furbee*, D. E. Gulstad, B. L. Honeycutt, M-J Smythe, D. Watson, G. Youmans*

* Graduate Faculty Member - membership is required to teach graduate-level courses, chair master’s thesis committees, and serve on doctoral examination and dissertation committees.

Undergraduate

• BA in Linguistics (p. 220)
• Minor in Linguistics (p. 221)

Departmental Honors

A student wishing to graduate with honors in Linguistics must earn a 3.3 GPA in all courses and complete all the requirements for the BA in Linguistics. In addition, with the assistance of his/her honors thesis advisor, the student must develop, plan and conduct research on an independent project, normally while enrolled in LINGST 4991 (p. 219). A committee consisting of the thesis advisor and a second reader, to be selected by the advisor and the program chair, will examine the student on the resulting thesis of 25-40 pages in an oral exam held no later than the thirteenth week of the term during which the student expects to graduate. The second reader will be provided with a copy of the thesis at least two weeks before the examination. After completing any revisions that the exam committee recommends, the student will submit a final version of the thesis for linguistics program records and will then be recommended to the college of Arts and Science for a BA with Honors in Linguistics.

Graduate

• Graduate Minor in Linguistics (p. 221)

Cooperating Graduate Degree Programs

Anthropology (p. 139)
Interested Anthropology and other graduate students may minor in Linguistics. Linguistics is a integral component of ethnographic research.

Communication (p. 169)
In the Department of Communication, students learn to apply the study of communication to their professional and personal lives. Students may receive a MA, or PhD through this department.

Communication Science and Disorders (p. 546)
The discipline of Communication Science and Disorders encompasses the field of speech, language, and hearing science and the distinct but related professions of Speech-Language Pathology and Audiology. Students may receive a MA, or PhD through this department.

English (p. 182)
The English department offers MA and PhD degrees with an emphasis in English Language and Linguistics.

Philosophy (p. 245)
Linguistics majors benefit by taking courses offered by the Philosophy Department and can focus on issues at the intersection of philosophy and linguistics.

Romance Languages and Literatures (p. 274)
The Department of Romance Languages and Literatures offers the MA with an emphasis on Language Teaching (MALT).

* Graduate Faculty Member - membership is required to teach graduate-level courses, chair master’s thesis committees, and serve on doctoral examination and dissertation committees.
** Doctoral Faculty Member - membership is required to chair doctoral examination or dissertation committees. Graduate faculty membership is a prerequisite for Doctoral faculty membership.

Undergraduate

- Department Level Requirements (p. 223)
- BA in Mathematics (p. 223)
- BS in Mathematics (p. 224)
  - with emphasis in Actuarial Science and Mathematical Finance (p. 224)
- Minor in Mathematics (p. 225)

The Department of Mathematics offers a major with either a Bachelor of Arts or a Bachelor of Science degree. Within the BS degree, an emphasis in Actuarial Science and Financial Mathematics is available. Both the BA and BS degrees will prepare a student for a graduate program in Mathematics.

Preparation for Graduate Study in Mathematics

Students satisfying the requirements for either the BA or the “traditional” BS will have the basic preparation for a graduate program in Mathematics. A student considering graduate work, however, should take additional coursework. Because of this, a BS degree would be considered preferable. Those students in the Actuarial Science area considering graduate work should take MATH 4720 as part of their program. Those students getting a dual degree in Mathematics and Mathematics Education considering graduate work in mathematics should choose to take both MATH 4700 and MATH 4720 as part of their program.

Courses recommended for students planning to pursue graduate studies in pure mathematics: MATH 4400, MATH 4500, MATH 4900, MATH 4920, and MATH 4940.

Courses recommended for students planning to pursue graduate studies in applied mathematics: MATH 4300, MATH 4310, MATH 4315, MATH 4320, MATH 4500, MATH 4540, MATH 4940.

Departmental Honors

Eligibility

To become a candidate for the BA or BS degree with a major in Mathematics with departmental honors, a student must have a cumulative grade point average that meets the Honors College standards. At present, students with a GPA of 3.30 or higher are automatically eligible to enter the departmental honors programs.

Requirements

To graduate with departmental honors in mathematics, a student must satisfy the regular BA or BS degree requirements and must have a GPA of 3.5 or higher in all Mathematics Department courses. In addition, the student must have at least 26 credits in mathematics courses numbered 4000 or above. Furthermore, the student must complete one of the two options listed below.

Option 1: Honors Thesis

The student must write an honors thesis in conjunction with a mentorship or in conjunction with MATH 4996. This option requires that the student enroll in MATH 4996.

Option 2:

The student’s program of study must include MATH 4700, MATH 4900, MATH 4720 and MATH 4920.

Graduate

- MA in Mathematics (p. 225)
- MS in Applied Mathematics (p. 227)
- MST in Mathematics (p. 228)
- PhD in Mathematics (p. 229)

College of Arts and Science

http://www.math.missouri.edu/degrees/graduate/index.html

Director of Graduate Studies: Dan Edidin

About Mathematics

The Graduate Program in Mathematics is large enough to encompass research and courses in many areas, yet small enough to remain responsive to the needs of individual students. There are approximately 80 graduate students, 40 professors, and 15 postdoctoral and visiting researchers. The active areas of research include: algebraic geometry, analysis (real, complex, functional and harmonic), analytic functions, applied mathematics, financial mathematics and mathematics of insurance, commutative rings, scattering theory, differential equations (ordinary and partial), differential geometry, dynamical systems, general
relativity, mathematical physics, number theory, probabilistic analysis and topology.

The Mathematical Sciences Building houses a library with more than 34,000 volumes and 430 journal titles. MU students have access to an extensive array of computing resources.

Admission Notice

Applicants for any graduate degree in mathematics should submit an application for graduate study. Admission to the graduate program does NOT guarantee admission to the Ph.D. program. International Applicants applying from outside North America who seek financial support from the Department will only be considered for the PhD program.

Financial Aid from the Program

All domestic applications for admission are automatically considered for financial support, in most cases by Teaching Assistantships. Virtually all current students are supported financially. Scholarships, assistantships, fellowships and other sources of aid are available.

The Department Research Fellowship, the Blumenthal Scholarship and the McFarlan Fellowship are administered by the department, while the Huggins Scholarship, Gregory Fellowship and Ridgel Fellowship are administered by the university.

International applications with TOEFL of 85 or higher (or equivalent) will also be automatically considered for departmental financial support.

Undergraduate

Department Level Requirements-Mathematics

Students may apply to be Math majors upon meeting the following criteria:

- Completion of ENGLSH 1000 and MATH 2300
- Both cumulative GPA and GPA in Math courses numbered 1500 and above (expect for 2100) of 2.5 or above.

All math courses required for the degree must be passed with a grade of C- or above.

BA in Mathematics

Major Program Requirements

All MU General Education (p. 20) and Arts and Science Breadth and Depth requirements (for the BA) must be satisfied, in addition to the

Department Level Requirements (p. 223). The foreign language requirement must be satisfied either by taking a foreign language for 4 years in high school or by completing a language sequence at MU.

Additional requirements for the BA degree

- MATH 4700 Advanced Calculus of One Real Variable I
- MATH 4720 Introduction to Abstract Algebra I
- Four approved 4000 level Math electives

BS in Mathematics

Major Program Requirements

The Mathematics Department offers a “Standard” BS, a BS with emphasis in Actuarial Science and Mathematical Finance, and a Dual Degree in Mathematics and Mathematics Education. In each case all MU General Education (p. 20) and Arts and Science Breadth and Depth requirements (for the BS) must be satisfied, in addition to the Department Level Requirements (p. 223). Note that the courses accepted for the science requirement by the Mathematics department are more restrictive than the Arts and Science requirement.

All BS degrees require completion of the Foreign Language requirement by one of: four years of a language in high school, completion of a foreign language sequence at MU, or a Foreign Language Alternative (12 credits at the 2000 level or above in an area, or related areas, approved by the Director of Undergraduate Studies).

Additional requirements for the BS degree

• MATH 4700
• MATH 4720
• Four approved 4000 level Math electives
• Science Requirement: 13 or more credits from the two groups below. Both groups must be represented.

Group I:

<table>
<thead>
<tr>
<th>Course</th>
<th>CR</th>
</tr>
</thead>
<tbody>
<tr>
<td>PHYSCS 2750</td>
<td>5</td>
</tr>
<tr>
<td>PHYSCS 2760</td>

<td>4</td>
</tr>
<tr>
<td>CHEM 1330</td>
<td>4</td>
</tr>
<tr>
<td>BIO_SC 1500</td>
<td>5</td>
</tr>
</tbody>
</table>

Group II: Any 4000 level courses in Statistics or Computer Science.

Additional requirements for the BS Degree (Dual degree for Math and Math Ed majors)

• One of: MATH 4300, MATH 4500, or MATH 4700
• One of MATH 4510 or MATH 4720
• Four approved 4000 level Math electives
• Science Requirement: 10 or more credits from the two groups from the Course List above. Both groups must be represented.

Additional requirements for the BS degree (Double major in Math and Economics)

• MATH 4700
• One of MATH 4310, MATH 4720, or MATH 4900
• Four approved 4000 level Math electives
• Science Requirement: 10 or more credits from the two groups from the Course List above. Both groups must be represented.

BS in Mathematics with Emphasis in Actuarial Science and Mathematical Finance

Major Program Requirements

Students must complete the MU general education requirements (p. 20) and the Department Level Requirements (p. 223) in addition to the degree requirements listed below.

This emphasis area will serve those who want to pursue a career in the financial and insurance industries. It will also help BS students to prepare for their first actuarial exams. Those students considering further graduate work in Mathematics should also take

Total Credits: 121

Minor in Mathematics

To minor in mathematics, a student must satisfactorily complete the following requirements.

- The equivalents of MATH 1500, MATH 1700 and MATH 2300
- 9 additional credits in approved math courses (students not taking MATH 2320 or MATH 3000, must take all 9 credits at the 4000 level; students taking MATH 2320 or MATH 3000, need an additional 6 credits at the 4000 level)
- All courses completed with grades in C range or higher
- At least 9 credits used to satisfy the minor requirements taken in residence (College of Arts and Science requirement)

Graduate

MA in Mathematics

Admission Contact Information
Stephen Montgomery-Smith, Director of Graduate Studies
222 Mathematical Sciences Building
Columbia, MO 65211
573-882-6221
e-mail: muasmathdgs@missouri.edu

Admission Criteria

Notes: Applicants for any graduate degree in mathematics should submit an application for graduate study. Admission to the graduate program does NOT guarantee admission to the Ph.D. program. International Applicants applying from outside North America who seek financial support from the Department will only be considered for the PhD program.

Fall deadline: January 15

- While a bachelor’s degree from an accredited institution is required, the undergraduate major need not be mathematics as long as applicants have had sufficient mathematics training to qualify for 8000-level courses during the first three semesters of graduate work.
- Minimum TOEFL scores:
  - Internet-based test (iBT)
    - 61
    - Effective July 1, 2015 must have score of 80
  - Paper-based test (PBT)
    - 500
    - Effective July 1, 2015 must have score of 550

Important Notes: International applicants seeking departmental support are required to have a minimum TOEFL score of 85 (Internet-based test) or equivalent. An iBTTOEFL Speaking subscore of 22 or higher is preferred.

- Minimum total academic IELTS score is 5.5

Required Application Materials

- 3 or more letters of recommendation from your professors or persons who assess in detail your academic performance and potential.
- Transcripts
Supplemental Information:

- **Personal Statement**
- **GRE scores (required for PhD application, strongly recommended for Masters application)**
- **TOEFL or IELTS (International students only)**

Note: The application is submitted through the Graduate School’s ApplyYourself system. This includes the online credit card payment $55.00 US for U.S. Citizens and Permanent Residents, $75.00 US for Non-Resident International applicants.

**Completing the ApplyYourself Application:**

This section consists of four subsections.

- **Application Information:** Applications are considered only starting Fall Semester, and only for Full-time study. Select a degree from the Graduate Degrees offered by the MU Mathematics Department.
- **Admissions Category:** Graduate Degree Sought at MU: Master’s
- **Graduate Program to which you are seeking admissions:**
  - Mathematics Master of Arts (MA)
  - Mathematics Master of Arts (MA)
- **Educational History:** Complete all information as requested.
- **Test Information:**
  - The GRE General Test is required for application to the PhD program in Mathematics, and are strongly recommended for Masters applicants. GRE General Test scores sent directly from the ETS will be considered as part of an application if available. The GRE Subject Test is not required, will be considered if submitted.
  - MU’s Institutional Code for the GRE is: 6875.
  - MU’s Institutional Code for the TOEFL is: 6875.
- **Statement of Purpose.**

**International Applicants Only**

- **Unofficial copies of TOEFL/IELTS reports uploaded by applicant can be used for initial evaluation - official reports sent directly to the Graduate Admissions Office will still be required to finalize admission**
- **Affidavit of Support for International Applicants: It is not necessary to complete this form. International applicants are required to complete the Affidavit of Support OR provide a letter of support from a University of Missouri graduate degree program before immigration documents can be issued. All international admissions to the Mathematics graduate program come with financial support which suffices to meet this requirement.**

The following (paper) application materials must be on file at the Graduate Admissions office before an admission offer can be finalized:

- **Official transcripts/mark sheets from each college or university you have attended (sent directly from the college or university).** Applicants with degrees from outside the United States must provide academic credentials in both the native language and in English.
- **Official TOEFL or IELTS scores (sent directly from the testing service).** Please review the Graduate School’s policy regarding proof of English Language proficiency.

Please arrange to have these materials mailed to the following address:

University of Missouri-Columbia
Graduate Admissions
210 Jesse Hall
Columbia, MO 65211
800-877-6312
573-884-8488

**MA Degree Completion Requirements**

The degree requirements include the satisfactory completion of 30 hours of approved course work, of which at least 18 hours must be at the 8000 level.

<table>
<thead>
<tr>
<th>Required</th>
<th>3</th>

e-mail: muasmathdgs@missouri.edu

**Admission Criteria**

**Notes:** Applicants for any graduate degree in mathematics should submit an application for graduate study. Admission to the graduate program does NOT guarantee admission to the Ph.D. program. International Applicants applying from outside North America who seek financial support from the Department will only be considered for the PhD program.

**Fall deadline:** January 15

- While a bachelor’s degree from an accredited institution is required, the undergraduate major need not be mathematics as long as applicants have had sufficient mathematics training to qualify for 8000-level courses during the first three semesters of graduate work.
- Minimum TOEFL scores:
  - Internet-based test (iBT): 61 Effective July 1, 2015 must have score of 80
  - Paper-based test (PBT): 500 Effective July 1, 2015 must have score of 80

**Important Notes:** International applicants seeking departmental support are required to have a minimum TOEFL score of 85 (Internet-based test) or equivalent. An ibtTOEFL Speaking subscore of 22 or higher is preferred.

- Minimum total academic IELTS score is 5.5

**Required Application Materials**

- Transcripts
- Personal Statement
- GRE scores (required for PhD application, strongly recommended for Masters application)
- TOEFL or IELTS (International students only)

**Note:** The application is submitted through the Graduate School’s ApplyYourself system. This includes the online credit card payment $55.00 US for U.S. Citizens and Permanent Residents, $75.00 US for Non-Resident International applicants.

**Completing the ApplyYourself Application:**

This section consists of four subsections.

- **Personal Information:** Complete all information as requested.
- **Application Information:** Applications are considered only starting Fall Semester, and only for Full-time study. Select a degree from the Graduate Degrees offered by the MU Mathematics Department.
- **Indicate your selection for the Applied master of Mathematics**
  - Master of Arts (MS)
  - Master of Science (MS)

**Supplemental Information:**

- (required) Upload your Personal Statement, Statement of Goals or Statement of Purpose.
- Please indicate the specific degree for which you are applying, any additional degrees for which you may later apply, and explain your reasons for choosing to pursue these degrees at the University of Missouri. Note that admissions criteria for the PhD are more stringent than for the Master’s. MU PhD students can later add a Master’s degree to their program of study without requiring departmental approval. MU Master’s students who wish to later add the PhD to their program of study require departmental evaluation and approval.
- (optional) Upload your résumé or curriculum vita.
- (optional) Upload your writing sample.
- You may submit samples of your mathematical writings, publications, or pre-prints. Please limit to 10 pages.
- (optional) Upload any other supporting documents
- Unofficial copies of transcripts uploaded by applicant can be used for initial evaluation. Official transcripts sent directly to the Graduate Admissions Office will still be required to finalize admission
• Unofficial copies of GRE reports uploaded by applicant can be used for initial evaluation

RECOMMENDATIONS: The ApplyYourself system will let you request confidential online recommendation letters from your recommendation providers. You need to provide the names and email addresses of recommendation providers who have agreed in advance to write letters for you. The Mathematics Department application requires at least three recommendation letters from your professors (or persons who assess in detail your academic performance and potential).

MS Degree Completion Requirements

Designed to give students training in those areas of mathematics used frequently in applications.

A candidate must satisfactorily complete 30 hours of approved coursework, at least 15 hours of which must be in 8000-level courses.

RECOMMENDATIONS: The ApplyYourself system will let you request confidential online recommendation letters from your recommendation providers. You need to provide the names and email addresses of recommendation providers who have agreed in advance to write letters for you. The Mathematics Department application requires at least three recommendation letters from your professors or persons who assess in detail your academic performance and potential.

MST Degree Completion Requirements

This degree is designed primarily for those who want to teach mathematics at the secondary school level. A candidate for the degree must have a valid teaching certificate before entering the program and must satisfactorily complete 30 hours of approved course work. MATH 8190 or MATH 8090 is required. At least 15 hours must be in 8000-level courses, of which at least 9 hours must be courses from the Mathematics Department. At least two courses are required in the fields of algebra, analysis and geometry/topology. The successful completion of a Master’s Project (MATH 8190) or Master’s Thesis (MATH 8090) must be certified by a Master’s Committee consisting of three members of the Mathematics regular faculty.

Note: The MU College of Education at the University of Missouri is a separate academic unit offering graduate degrees in Mathematics Education, with an emphasis on learning, teaching, and curriculum development.

• Unofficial copies of transcripts uploaded by applicant can be used for initial evaluation - official transcripts sent directly to the Graduate Admissions Office will still be required to finalize admission
• Unofficial copies of GRE reports uploaded by applicant can be used for initial evaluation

RECOMMENDATIONS: The ApplyYourself system will let you request confidential online recommendation letters from your recommendation providers. You need to provide the names and email addresses of recommendation providers who have agreed in advance to write letters for you. The Mathematics Department application requires at least three recommendation letters from your professors (or persons who assess in detail your academic performance and potential).

International Applicants Only
• Unofficial copies of TOEFL/IELTS reports uploaded by applicant can be used for initial evaluation - official reports sent directly to the Graduate Admissions Office will still be required to finalize admission
• Affidavit of Support for International Applicants: It is not necessary to complete this form. International applicants are required to complete the Affidavit of Support OR provide a letter of support from a University of Missouri graduate degree program before immigration documents can be issued. All international admissions to the Mathematics graduate program come with financial support which suffices to meet this requirement.

Official transcripts/mark sheets from each college or university you have attended (sent directly from the college or university). Applicants with degrees from outside the United States must provide academic credentials in both the native language and in English.
• Official TOEFL or IELTS scores (sent directly from the testing service). Please review the Graduate School’s policy regarding proof of English Language proficiency.

Please arrange to have these materials mailed to the following address:
University of Missouri-Columbia Graduate Admissions 210 Jesse Hall Columbia, MO 65211 800-877-6312 573-884-8488

PhD Degree Completion Requirements
This is a professional research degree designed to prepare students for various advanced professional careers, including college teaching and research. Before formally becoming a candidate, a student must have training equivalent to that required for a master’s degree.

Year 0 courses include basic advanced undergraduate material, which incoming Ph.D. students are required to master before engaging in graduate coursework. Well prepared incoming students can petition to skip some or all of the Year 0 courses. The Director of Graduate Studies will administer an informal exam to see if the students are sufficiently ready to skip Year 0 courses.

Total Credits: 18

Year 1 courses will train students to develop a common solid foundation on basic graduate mathematics. The Ph.D. student is required to pass all 6 courses, and to pass qualifying exams in Algebra and Real Analysis. The qualifying exams will be given in May of each year, shortly after finals week. There will be an opportunity to retake a qualifying exam in August just before the beginning of the Fall semester. The Analysis qualifying exams will be from topics from Real Analysis I and Real Analysis II. The Algebra qualifying exams will be from topics from Algebra I and Algebra II.

Extremely well prepared students, with the permission of their initial advisor and the Director of Graduate studies, may take one or both qualifying exams in August before they start their first semester. If they pass, then with the permission of their initial advisor and the Director of Graduate studies they may skip the corresponding courses in Year 1.

Year 1: Take All 6

The following (paper) application materials must be on file at the Graduate Admissions office before an admission offer can be finalized:
MATH 8425  3 MATH 8502 (.†)  3
         9
Total Credits: 18

† Here, and elsewhere in this document, the number after the period refers to the section number.

Year 2 and above are the post-qual core courses. Every Ph.D. student must complete at least six of the post-qual core courses. (Note that the parity of the year is determined by the beginning of the AY. For example, Spring 2016 occurs in the beginning of AY 2015, and so would be considered to be in an odd year.)

Year 2 and above: Minimum 6 classes

Some of the above courses are listed in the catalog under different names. Others are new courses, and are currently listed as topics courses until we are able to add them to the catalog.

The candidate must further complete a course of study approved by the doctoral program committee and pass a comprehensive examination. The active areas of research interest of the current members of the staff are: algebraic geometry, analysis (real, complex, functional and harmonic), analytic functions, applied mathematics, financial mathematics and mathematics of insurance, commutative rings, scattering theory, differential equations (ordinary and partial), differential geometry, dynamical systems, general relativity, mathematical physics, number theory, probabilistic analysis and topology.

Note: Effective at the start of Winter Semester 2007, there is NO foreign language proficiency requirement for the Mathematics PhD. However, a student’s Doctoral Committee still retains the discretion to impose a foreign language proficiency requirement.
Music

Julia Gaines, Director
140 Fine Arts Bldg.
(573) 882-2606

The School of Music is a department in the College of Arts and Sciences that offers instruction to those who want professional training in music as well as those who wish to pursue music as a vocation. Applied music instruction in piano, voice, string, woodwind, brass and percussion instruments is offered for beginning and advanced students. Elementary and advanced courses are given in music theory and composition. The appreciation, literature and history of music are covered by survey and specialized courses. The school has been an accredited member of the National Association of Schools of Music since 1933.

The School of Music also offers opportunities for all students of the university to participate in various performing groups. Regular programs are presented on campus and throughout the state by groups such as The University Philharmonic Orchestra, University Wind Ensemble, Marching Mizzou, Symphonic Band, University Band, Jazz Ensembles, Choral Union, University Singers, Chamber Singers, Concert Chorale, Hitt Street Harmony, Women's Choir, Opera Workshop and many vocal, string, percussion and wind chamber ensembles. Membership in these groups is open to interested students by audition, except University Choral Union and University Band, which do not require an audition.

The department offers BA, BM, MA and MM degrees in Music. BSEd, MA, Med, EdSP and PhD degrees with majors in Music Education are offered through the Department of Learning, Teaching and Curriculum. A minor in Music and a minor and certificate in Jazz Studies are also available. A certificate in Music Entrepreneurship is also available.

Faculty

Associate Teaching Professor C. Seitz*
Assistant Professor M. Gibson*, T. Howe*, K. LaMoure*, J. Mabary*, J. Rosenfeld*, P. Savvidou*, S. Shonekan*, B. Silvey*, S. Tharp*, A. White*
Assistant Teaching Professor S. Jeppson*, J. Kuuskoski*, W. Lackey*, F. Lyon*, B. Snow*
Visiting Assistant Professor A. K. Dade*, R. Pellegrin*
Adjunct Instructor T. Andes, A. Beeson, N. Bolshakova, K. Gianino, K. Hennessy, S. Hennessy, A. Glise*, E. Manzo, H. Patterson, P. Seitz*, S. Stubbs, B. Tate
** Graduate Faculty Member - membership is required to teach graduate-level courses, chair master's thesis committees, and serve on doctoral examination and dissertation committees.
** Doctoral Faculty Member - membership is required to chair doctoral examination or dissertation committees. Graduate faculty membership is a prerequisite for Doctoral faculty membership.

Undergraduate

• BA in Music (p. 233)
• BM in Music (p. 233)

• with emphasis in Composition (p. 234)
• with emphasis in Music History (p. 235)
• with emphasis in Music Theory (p. 236)
• with emphasis in Performance (p. 237)
• Minor in Music (p. 240)

Departmental Honors

Departmental Honors for the School of Music are designed to reward truly superlative achievement by an undergraduate music student, focusing on the student's area of performance, theory and composition, or history and literature. A minimum GPA of 3.3 at the onset of the senior year is required, not including grades for large ensembles. The student must initiate the process by submitting a formal application to the Director of the School of Music at the beginning of the semester prior to the semester of graduation, and must receive approval from his or her area coordinator and faculty advisor. Further information and an application form may be obtained by contacting the Director of Undergraduate Studies in Music.

Graduate

• MA in Music (p. 240)
  • with emphasis in Musicology (p. 241)
• MM in Music (p. 241)
  • with emphasis in Collaborative Piano (p. 243)
  • with emphasis in Composition (p. 243)
  • with emphasis in Conducting (p. 243)
  • with emphasis in Jazz Performance and Pedagogy (p. 243)
  • with emphasis in Music Theory (p. 244)
  • with emphasis in Performance (p. 244)
  • with emphasis in Piano Pedagogy (p. 244)

Director of Graduate Studies: Dan Willett

About the School of Music

Founded in 1907, the School of Music is one of the larger academic units in the College of Arts and Science. Comprised of 38 full-time faculty members and approximately 300 music majors, it is small enough to permit close, personal interaction between students and faculty, but large enough to provide many wonderful opportunities for talented students to excel. Our primary mission is to prepare students to become professional musicians and music educators. The School of Music is widely known for its scholarship in the field, and it is an important cultural resource for the profession, the campus community, and the people of Missouri.

Performance

At MU a student of music has the opportunity to hear many concerts or to participate in a variety of performing organizations. Many recitals are given by students, faculty and visiting artists. Among the student ensembles that give several concerts during the year are the University Philharmonic, University Wind Ensemble and other concert bands, jazz ensembles, University Singers and other choral ensembles, Show-Me Opera, and chamber music groups. Faculty ensembles that present
recitals regularly include the Esterhazy String Quartet, the Missouri Woodwind Quintet and the MU Faculty Brass Quintet.

Resources and Facilities

The music section of the Fine Arts Building contains a recital hall, classrooms, studios and practice facilities. The music holdings in Ellis Library, both printed and recorded materials, constitute a substantial research and reference collection. The School of Music maintains a digital piano and MIDI laboratory, analog and digital music studios, and access to a listening laboratory for history and theory courses.

Additional Degree Options

Graduate Certificate in Jazz Studies (p. 316)

Music Education Degrees

These are degrees offered by the Department of Learning, Teaching, and Curriculum in the College of Education (p. 415) in conjunction with the School of Music. These degrees include

- Master of Arts (MA) (p. 416)
- Master of Education (M Ed) (p. 416)
- Educational Specialist (EdSp) (p. 431)
- Doctor of Philosophy (PhD) (p. 437)

Undergraduate

BA in Music

Major Program Requirements

Students who elect to earn a Bachelor of Arts with a major in Music will complete a general, liberal arts degree with a strong music emphasis. Students must also complete all degree, college and university graduation requirements, including Arts & Science Foundation Requirements.

Courses completed in the D range may not fulfill music course requirements without the approval of the advisor and the dean, and the student must achieve an overall average of at least C (2.0) in all of the courses attempted in the School of Music.

Major Core Requirements

- MUS_THRY 1230 Aural Training and Sight Singing I 2
- MUS_THRY 1231 Aural Training and Sight Singing II 2
- MUS_THRY 2230 Aural Training and Sight Singing III 2
- MUS_THRY 2231 Aural Training and Sight Singing IV 2
- MUS_THRY 1220 Syntax, Structure and Style of Music I 2
- MUS_THRY 1221 Syntax, Structure and Style of Music II 2
- MUS_THRY 2220 Syntax, Structure and Style of Music III 2
- MUS_THRY 2221 Syntax, Structure and Style of Music IV 2
- MUS_H_LI 1322 Introduction to Music in the United States 2
- MUS_H_LI 2307 History of Western Music I 2
- MUS_H_LI 2308 History of Western Music II 2
- MUS_H_LI 2309 Music 4300 level History Elective (Writing Intensive) 3
- MUS_GENL 3085 Problems in Music (Capstone Experience) 1
- MUS_GENL 1091 Recital Attendance for Undergraduate Music Majors (7 semesters) 0
- MUS_APMS 2455 Studio Instruction (Total of 8 credit hours) 2

MUS_APMS 3455 Studio Instruction 2
MUS_ENS 1841 Instrumental Ensemble (Total of 4 credit hours) 1
or MUS_ENS 1842 Choral Ensemble

Total Credits 31

BM in Music

Major Program Requirements

The Bachelor of Music (BM) is a professional degree that offers the maximum concentration in music. The student may focus on instrumental, keyboard or vocal performance; music theory; composition; or music history by choosing an emphasis area. In addition, students must complete degree, college and university requirements, including Arts & Science Foundation Requirements.

Foreign Language Requirement:
• Woodwind or Percussion Performance: 12-13 hours of any foreign language
• Theory, Composition, or Piano or Brass Performance: 12-13 hours of French, Italian, or German
• Music History: 10 hours of German + 5-6 hours of second language, approved by advisor (15-16 total)
• String Performance: 12-13 hours of French, Italian, German or Spanish
• Vocal Performance: GERMAN 1100 Elementary German I (5 hours), FRENCH 1100 Elementary French I (5 hours), and ITAL 1100 Elementary Italian I (6 hours); and one additional course in German (5 hours), French (5 hours), or Italian (6 hours) (21-22 hours total). In addition, one hour each in Italian, French, and German diction (music courses; 3 hours total)

Candidates must pass an examination administered by the applied faculty in the area of performance at the completion of their sophomore year before entrance is approved to studio instruction at the 4455-level (for performance tracks) or 3455-level (for all other tracks). Degree recitals must be approved two weeks in advance by a faculty hearing committee.

Courses completed in the “D” range may not fulfill music course requirements without the approval of the advisor and the dean, and the student must achieve an overall average of at least C (2.0) in all of the courses attempted in the School of Music at MU.

Note: Performance tracks' requirements include changes in effect for students entering Fall 2012 and later. Students who entered before Fall 2012 should consult an older undergraduate catalog.

### BM in Music with Emphasis in Music History

**Major Program Requirements**

In addition to the list of required courses below for the emphasis in History, students must complete the bachelor of music (p. 233), college and university requirements (p. 19), including Arts & Science Foundation Requirements (p. 131).

- MUS_GENL 1091 Recital Attendance for Undergraduate Music Majors 0
- MUS_APMS 1435 Studio Instruction for Majors (Piano; total of 4 credit hours) 1-5
- or MUS_APMS 2455 Studio Instruction 1-5
- MUS_ENS 1841 Instrumental Ensemble (total of 8 credit hours) 0-1
- or MUS_ENS 1842 Choral Ensemble
- MUS_THRY 1210 Introduction to Computer Technology and Music 2
- MUS_THRY 1220 Syntax, Structure and Style of Music I 2
- MUS_THRY 1221 Syntax, Structure and Style of Music II 2
- MUS_THRY 1230 Aural Training and Sight Singing I 2
- MUS_THRY 1231 Aural Training and Sight Singing II 2
- MUS_THRY 2220 Syntax, Structure and Style of Music III 2
- MUS_THRY 2221 Syntax, Structure and Style of Music IV 2
- MUS_THRY 2230 Aural Training and Sight Singing III 2
- MUS_THRY 2231 Aural Training and Sight Singing IV 2
- MUS_THRY 4220 20th Century Composition Techniques 2
- MUS_THRY 4225 Sixteenth-Century Counterpoint 3
- or MUS_THRY 4223 Eighteenth-Century Counterpoint
- MUS_THRY 4227 Orchestration 2
- MUS_H_LI 1322 Introduction to Music in the United States 2
- MUS_H_LI 2307 History of Western Music I 2
- MUS_H_LI 2308 History of Western Music II 2
- MUS_I_VT 2610 Group Piano for Music Majors I 1
- MUS_I_VT 2611 Group Piano for Music Majors II 1
- MUS_I_VT 2611 Group Piano for Music Majors IV 1
- MUS_I_VT 2631 Basic Conducting and Score Reading 2
- MUS_H_LI 43xx History Elective 3+3+6+6 18
- MUS_GENL 3085 Problems in Music 1

Total Credits: 59-70

**Minor in Music**

Students who have chosen a major in another field but who wish to continue their musical growth may wish to pursue a minor. Approval for declaration of the Minor in Music must be received from the Associate Director in Music. A minimum of 18 credits is required, including least 6 at the 2000-level or higher:

**Music Theory**

- MUS_THRY 1220 Syntax, Structure and Style of Music I 2
- MUS_THRY 1221 Syntax, Structure and Style of Music II 2

**Music History**

- MUS_H_LI 1322 Introduction to Music in the United States 2
- MUS_H_LI 2307 History of Western Music I 2
- MUS_H_LI 2308 History of Western Music II 2

**Ensembles/Applied Music**

- Any combination of MUSIC 1841, 1842, 2445 4
- Additional Credits in either Theory, History, or Performance 4

**Total Credits** 18

---

**Graduate**

**MA in Music**

**About the MA**

The MA in Music History provides opportunities for continued development of musical insights, scholarly competencies, and the enhancement of interests in musical and related non-musical areas. This liberal graduate education is designed to prepare a student to pursue a career in college teaching, especially as preparation for doctoral studies in music history or musicology.

**Prerequisites**

Completion of a bachelor’s degree in music (or demonstrated equivalent), with a GPA of 3.0 in the last 60 credit-hours, is required. Additional prerequisites listed below. In the event that a candidate does not meet the required prerequisites, appropriate additional course(s) will be added as requirements to the degree program.

- Keyboard competency as is typically developed in an undergraduate music degree program
- 4 semesters of languages: 2 semesters each of French, Italian, or German
- 3 courses beyond the core music history courses (Music 2307, 2308 at MU)
- Freshman/sophomore music theory courses
- 1 semester of orchestration
- 1 course in counterpoint (3 credits or equivalent)
- 1 course in Western civilization
- 1 course in European history prior to 1800

**Priority Application Deadline**

All graduate applicants are expected to submit required application materials (for both the School of Music and the Graduate School) by January 15 for fall semester matriculation, in order to receive full consideration for admission and assistantship or scholarship support. Applications submitted after January 15 will be considered as space permits on a rolling basis. Applicants interested in spring semester matriculation should contact the Associate Director of the School of Music (see below).

**Application Process**

1. Apply online via the Graduate School’s ApplyYourself (https://app.applyyourself.com/AYApplicantLogin/FL_ApplicantLogin.asp?id=umc-grad) system.
2. Complete the following directly with the School of Music (https://app.getacceptd.com/missouri):
   a. Register for an interview during a Graduate Audition/Interview day.
   b. Submit samples of written scholarly work.
   c. Submit your unofficial transcript.
   d. Submit an essay explaining professional goals.
   e. Request three references to submit letters of recommendation.

**Note:** The School of Music does not require GRE scores.

---

**Application Process**

1. Apply online via the Graduate School’s ApplyYourself (https://app.applyyourself.com/AYApplicantLogin/FL_ApplicantLogin.asp?id=umc-grad) system.
2. Complete the following directly with the School of Music (https://app.getacceptd.com/missouri):
   a. Register for an interview during a Graduate Audition/Interview day.
   b. Submit samples of written scholarly work.
   c. Submit your unofficial transcript.
   d. Submit an essay explaining professional goals.
   e. Request three references to submit letters of recommendation.

**Note:** The School of Music does not require GRE scores.
International Student Information

Strong English reading, writing, and speaking abilities are necessary for success in the graduate programs in the School of Music. The following scores are required for admission to a graduate degree program in the School of Music:

- Minimum TOEFL scores:
  - Internet-based test (iBT)
    - Minimum Score: 80
  - Paper-based test (PBT)
    - Minimum Score: 550

Note: No TOEFL subscores below 50 (paper) or 15 (internet), or IELTS 5

- Minimum Academic IELTS scores:
  - OVERALL
    - Minimum Score: 6.5

Note: No IELTS subscores below 5

FOOTNOTE: If you have a TOEFL score between 500 and 550 (paper) or between 61 and 79 (internet), or an IELTS score between 5.5 and 6.5, you may still be admitted to the School of Music but may be required to take courses from the English Language Support Program at the University of Missouri. These courses will increase the length of your program by one or two semesters, assuming you make good progress in English and eventually achieve the School of Music’s required TOEFL or IELTS scores. Note: the University of Missouri’s institutional code for the TOEFL is 6875.

At least 15 credits must be at 8000 level

Total credits: 33

Additional Requirements:

- Proficiency Exams (http://music.missouri.edu/graduate/requiredexams.html) in music theory and music history are administered during new student orientation and two other times each year. All sections must be passed before the Comprehensive Exam can be taken.
- Comprehensive Exam. (http://music.missouri.edu/graduate/requiredexams.html)
- MA degree candidates must satisfactorily complete a Thesis on an approved topic and must pass a final oral examination, administered by a faculty committee, about their projects.

MA in Music with Emphasis in Musicology

The page for this program is still under construction and should be available in future editions of the catalog. For further information concerning this degree, contact the School or College offering this degree.

For admission requirements, refer to the Graduate School’s website for the minimum qualifications for the degree program (http://gradschool.missouri.edu/academics/programs) and the Graduate School (http://gradschool.missouri.edu/admissions/eligibility-process/minimum-requirements.php). Because requirements vary, you must refer to a degree program’s graduate admission page to learn about specific admission criteria, application deadlines, eligibility, and application process. Before official admissions to the University of Missouri, your application materials will be reviewed by both the Graduate School and the degree program to which you’ve applied.

MM in Music

About the MM

The principal function of the MM program is to provide students with opportunities for continued development of their musical talents—in a specific area—and overall musicianship. This degree is designed to prepare the graduate for a career in performance or composition, teaching, or continued graduate studies toward a doctoral degree.

Prerequisites

Completion of a Bachelor of Music degree (or demonstrated equivalent) is required, normally with the same major as that to be pursued at the graduate level, and a GPA of 3.0 in the last 60 credit-hours. In the event that a candidate does not meet the required prerequisites for a specific curriculum (listed below), then appropriate course(s) may be added to the degree program as additional requirements.

WOODWIND, BRASS, PERCUSSION, OR STRING PERFORMANCE
- Senior recital

VOCAL PERFORMANCE
- Senior recital
- Proficiency in French, Italian, and German languages and diction.

PIANO PERFORMANCE
- Senior Recital
- 1 upper-level music history course
- 3 credits of 18th-century counterpoint

COLLABORATIVE PIANO
- Senior Recital
- 2 courses in either French or German
- 2 courses in French, German, or Italian diction
- 1 upper-level music history course
• 3 credits in 18th-century counterpoint

PIANO PEDAGOGY
• 1 upper-level music history course
• 3 credits in 18th-century counterpoint
• A senior recital and undergraduate courses in piano pedagogy or teaching experience are desirable, but not required for admission.

JAZZ PERFORMANCE AND PEDAGOGY
• Senior Recital

THEORY
• 3 credits of 18th- or 16th-century counterpoint
• 2 credits of orchestration
• 2 credits of a theory elective
• 4 credits of music history (equivalent study to Music 2307-2308)
• 16 credits of applied instruction (or equivalent)

COMPOSITION
• 3 credits of 18th- or 16th-century counterpoint
• 2 credits of orchestration
• 8 credits of composition
• 4 credits of music history (equivalent study to Music 2307-2308)
• 16 credits of applied instruction (or equivalent)

CONDUCTING (Choral, Orchestral, or Wind Ensemble)
• 2 undergraduate conducting courses
• Previous conducting experience
• Proficiency in French, Italian, and German diction (Choral Conducting only)
• Proficiency in vocal pedagogy (Choral Conducting only)

Priority Application Deadline
All graduate applicants are expected to submit required application materials (for both the School of Music and the Graduate School) by January 15 for fall semester matriculation, in order to receive full consideration for admission and assistantship or scholarship support. Applications submitted after January 15 will be considered as space permits on a rolling basis. Applicants interested in spring semester matriculation should contact the Associate Director of the School of Music (see below).

Application Process
1. Apply online directly to the Graduate School through ApplyYourself (https://app.applyyourself.com/AYApplicantLogin/fl_ApplicantConnectLogin.asp?id=umc-grad).
2. Complete the following directly with the School of Music at https://app.getacceptd.com/missouri
   a. Register for an audition or interview (see further information below).
   b. Submit an essay explaining professional goals.
   c. Submit an unofficial transcript.
   d. Request three references to submit letters of recommendation.
   e. For some performance areas, a recording will be required once you are logged into the system.

Notes: The School of Music does not require GRE scores.

International Student Information
Strong English reading, writing, and speaking abilities are necessary for success in the graduate programs in the School of Music. The following scores are required for admission to a graduate degree program in the School of Music:

- Minimum TOEFL scores:
  Internet-based test (iBT) | Paper-based test (PBT)
  80                      | 550

Note: No TOEFL subscores below 50 (paper) or 15 (internet), or IELTS 5

- Minimum Academic IELTS scores:

<table>
<thead>
<tr>
<th>Item</th>
<th>Score</th>
</tr>
</thead>
<tbody>
<tr>
<td>OVERALL</td>
<td>6.5</td>
</tr>
</tbody>
</table>

Note: No IELTS subscores below 5

FOOTNOTE: If you have a TOEFL score between 500 and 550 (paper) or between 61 and 79 (internet), or an IELTS score between 5.5 and 6.5, you may still be admitted to the School of Music but may be required to take courses from the English Language Support Program at the University of Missouri. These courses will increase the length of your program by one or two semesters, assuming you make good progress in English and eventually achieve the School of Music’s required TOEFL or IELTS scores. Note: the University of Missouri’s institutional code for the TOEFL is 6875.

Audition Information
A visit to the School of Music and in-person audition are strongly encouraged for applicants planning to major in an applied area (brass, classical guitar, jazz, percussion, piano, strings, voice, woodwinds), either on one of the graduation audition days (see above) or at another arranged time. In-person auditions are required for all conducting applicants. MM jazz performance and pedagogy applicants should contact the Director of Jazz Studies to confirm the audition repertoire for video submissions. Applicants who audition initially by recording may be required to participate in a videoconference interview (Skype, iChat, etc.) or to audition on campus at a later time. Please visit the School of Music website, music.missouri.edu, for more information regarding graduate audition days.

CONTACT INFORMATION:
Professor Dan Willett, Associate Director
School of Music
215 Fine Arts Building
Columbia, MO 65211-6120
WillettD@missouri.edu
573-882-0933

Audition/Interview Information by Area
Piano: click here for detailed audition requirements for all MM piano programs (collaborative, pedagogy, and performance).
Voice: eight selections required, including at least one operatic aria and selections in French, Italian, German, and English.
**Jazz Performance and Pedagogy:** Please see the audition requirements for the Graduate Certificate in Jazz Studies and contact the Director of Jazz Studies for more information.

**Other Applied Areas:** contact the appropriate applied faculty member for information about audition repertoire and procedures.

**Composition:** submit representative original compositions and register for an interview. Portfolio materials are due by the Priority Application Deadline.

**Theory:** submit examples of written scholarly work and register for an interview. Portfolio materials are due by the Priority Application Deadline.

**Conducting applicants** should arrange an audition and interview with the appropriate faculty member:

- Dr. R. Paul Crabb, Choral Conducting
- Professor Edward Dolbashian, Orchestral Conducting
- Dr. D. Bradley Snow, Wind Ensemble Conducting

**Additional information for Choral Conducting applicants:** Students applying for MM in Choral Conducting or PhD in Music Education with choral emphasis will rehearse one MU choir for 15-20 minutes (music will be assigned and sent to you before the audition); take a short conducting lesson on the same music; sing a prepared aria or art song; demonstrate proficiency in sight-reading and ear-training; demonstrate basic piano proficiency.

**Degree Completion Requirements**

See Courses of Study (http://music.missouri.edu/pdfs-docs/MM %20degrees2013REV.pdf). In addition, students must complete the following:

- Proficiency Exams (http://music.missouri.edu/graduate/ requiredexams.html) in music theory and music history are administered during new student orientation and two other times each year. All sections must be passed before taking the Comprehensive Exam.
- Comprehensive Exam (http://music.missouri.edu/graduate/ requiredexams.html).
- Music Theory majors must satisfactorily complete a Thesis on an approved topic, and Composition majors must complete a substantial compositional project. Both Music Theory and Composition majors must pass a final oral examination, administered by a faculty committee, about their projects.

**MM in Music with Emphasis in Collaborative Piano**

The page for this program is still under construction and should be available in future editions of the catalog. For further information concerning this degree, contact the School or College offering this degree.

For admission requirements, refer to the Graduate School’s website for the minimum qualifications for the degree program (http://gradschool.missouri.edu/academics/programs) and the Graduate School (http://gradschool.missouri.edu/admissions/eligibility-process/minimum-requirements.php). Because requirements vary, you must refer to a degree program’s graduate admission page to learn about specific admission criteria, application deadlines, eligibility, and application process. Before official admissions to the University of Missouri, your application materials will be reviewed by both the Graduate School and the degree program to which you’ve applied.

**MM in Music with Emphasis in Composition**

The page for this program is still under construction and should be available in future editions of the catalog. For further information concerning this degree, contact the School or College offering this degree.

For admission requirements, refer to the Graduate School’s website for the minimum qualifications for the degree program (http://gradschool.missouri.edu/academics/programs) and the Graduate School (http://gradschool.missouri.edu/admissions/eligibility-process/minimum-requirements.php). Because requirements vary, you must refer to a degree program’s graduate admission page to learn about specific admission criteria, application deadlines, eligibility, and application process. Before official admissions to the University of Missouri, your application materials will be reviewed by both the Graduate School and the degree program to which you’ve applied.

**MM in Music with Emphasis in Jazz Performance and Pedagogy**

The page for this program is still under construction and should be available in future editions of the catalog. For further information concerning this degree, contact the School or College offering this degree.

For admission requirements, refer to the Graduate School’s website for the minimum qualifications for the degree program (http://gradschool.missouri.edu/academics/programs) and the Graduate School (http://gradschool.missouri.edu/admissions/eligibility-process/minimum-requirements.php). Because requirements vary, you must refer to a degree program’s graduate admission page to learn about specific admission criteria, application deadlines, eligibility, and application process. Before official admissions to the University of Missouri, your application materials will be reviewed by both the Graduate School and the degree program to which you’ve applied.
MM in Music with Emphasis in Music Theory

The page for this program is still under construction and should be available in future editions of the catalog. For further information concerning this degree, contact the School or College offering this degree.

For admission requirements, refer to the Graduate School’s website for the minimum qualifications for the degree program (http://gradschool.missouri.edu/academics/programs) and the Graduate School (http://gradschool.missouri.edu/admissions/eligibility-process/minimum-requirements.php). Because requirements vary, you must refer to a degree program’s graduate admission page to learn about specific admission criteria, application deadlines, eligibility, and application process. Before official admissions to the University of Missouri, your application materials will be reviewed by both the Graduate School and the degree program to which you’ve applied.

MM in Music with Emphasis in Performance

The page for this program is still under construction and should be available in future editions of the catalog. For further information concerning this degree, contact the School or College offering this degree.

For admission requirements, refer to the Graduate School’s website for the minimum qualifications for the degree program (http://gradschool.missouri.edu/academics/programs) and the Graduate School (http://gradschool.missouri.edu/admissions/eligibility-process/minimum-requirements.php). Because requirements vary, you must refer to a degree program’s graduate admission page to learn about specific admission criteria, application deadlines, eligibility, and application process. Before official admissions to the University of Missouri, your application materials will be reviewed by both the Graduate School and the degree program to which you’ve applied.

MM in Music with Emphasis in Piano Pedagogy

The page for this program is still under construction and should be available in future editions of the catalog. For further information concerning this degree, contact the School or College offering this degree.

For admission requirements, refer to the Graduate School’s website for the minimum qualifications for the degree program (http://gradschool.missouri.edu/academics/programs) and the Graduate School (http://gradschool.missouri.edu/admissions/eligibility-process/minimum-requirements.php). Because requirements vary, you must refer to a degree program’s graduate admission page to learn about specific admission criteria, application deadlines, eligibility, and application process. Philosophy

R. N. Johnson, Chair
College of Arts and Science
438 Strickland Hall
(573) 882-2871
Fax: (573) 884-8949
philosophy@missouri.edu
http://philosophy.missouri.edu/

The Department of Philosophy offers a wide variety of undergraduate and graduate courses, including courses on applied ethics, ethical theory, epistemology, logic, metaphysics, philosophy of mind, philosophy of language, philosophy of religion, philosophy of science, philosophy of biology, decision theory, political philosophy, non-Western philosophy, and the history of philosophy. The study of philosophy is not only fascinating in its own right but practical too, since it encourages the development of marketable intellectual abilities. These include the abilities to read, think, and write about conceptually complex and abstract material, and to construct and analyze elaborate chains of reasoning. Philosophy majors go on to pursue careers in such fields as law, medicine, business, the non-profit sector, the church, and academia.

The department offers BA, MA, and PhD degrees in philosophy, as well as an undergraduate minor.

Faculty

Associate Professor A. Ariew**, S. Chant*, C. S. Horisk**, P. Robbins**
Assistant Professor K. Boyce*, M. Folescu*, A. Radulescu*
Professor Emeritus/a A. von Schönborn*, C. S. Horisk**, P. Robbins**

Associate Professor Emeritus A. von Schönborn*

* Graduate Faculty Member - membership is required to teach graduate-level courses, chair master's thesis committees, and serve on doctoral examination and dissertation committees.
** Doctoral Faculty Member - membership is required to chair doctoral examination or dissertation committees. Graduate faculty membership is a prerequisite for Doctoral faculty membership.

Undergraduate

• BA in Philosophy (p. 246)
• BS in Philosophy (p. 246)
• Minor in Philosophy (p. 247)

Double and Dual Majors

A philosophy major can be paired with a major in another department in the College of Arts and Science (double major) or in some other College (dual major). Students must meet the major requirements of both departments. The program for each department must be approved by the advisor for that department.

Departmental Honors

To earn a BA (or BS) with honors in philosophy, a student must earn a 3.3 GPA in all courses, and a 3.7 GPA in all philosophy courses; meet all the standard requirements for the regular philosophy BA (or BS); in addition take PHIL 4998 Honors I in Philosophy, and PHIL 4999 Honors II in Philosophy, writing a satisfactory senior thesis normally of 3,000 to 9,000 words under the guidance of a faculty member who has consented to work with the student; and pass an oral examination on the thesis before a committee of three members of the philosophy faculty.

Graduate

• MA in Philosophy (p. 247)
• PhD in Philosophy (p. 247)

College of Arts and Science

Director of Graduate Studies: Phillip Robbins

About the Program

The philosophy department provides excellent training in both research and teaching. The nationally and internationally renowned faculty have expertise in the core areas of philosophy, with particular strength in epistemology, ethics, philosophy of mind and political philosophy, and also in various specialties; these include philosophy of biology, Asian philosophy, experimental philosophy, and the foundations of decision and game theory. With 15 full time faculty and around 25 graduate students, we offer a supportive community for pursuit of the MA and the PhD, with a broad range of courses, rigorous training, attentive, high-quality advising, the opportunity to develop a professional network through our series of colloquia and conferences, and help in every aspect of job seeking. We give students the advice and support they need to present their work at regional and national conferences, and to publish in professional journals, before they begin to look for jobs. We also give our students extensive training and experience in teaching, including assistantships with award-winning teachers.

Although we award an MA degree, we only admit students to our PhD program (with the MA obtained in the process).

We receive about 50 applications per year and offer funding to about 10-15% of these. The average scores for students we admit are: GRE Verbal 650, GRE Quantitative 700, and GPA in the major (normally philosophy) 3.9. Of course, our decisions are also based on the writing sample, letters of reference, and other factors, such as degree of fit with the department.

Professional Development

Presentation of research at professional meetings and publication by graduate students is encouraged. Prominent off-campus philosophers visit the department yearly for talks and symposia. Twice yearly, the Florence G. Kline endowment sponsors an intensive workshop at which papers on a special topic are presented by several leading figures in philosophy.

Financial Aid from the Program

Fellowships and teaching assistantships are available to qualified students. Applications for fellowships must meet Graduate School deadlines, usually in January. Applications for teaching assistantships must meet the department deadline of January 15.

Undergraduate
## BA in Philosophy

### Major Program Requirements

Undergraduates pursuing a BA degree in philosophy must meet all the non-philosophy requirements for a BA degree in the College of Arts and Science, including university general education requirements. They are recommended, but not required, to pursue a minor in another field. Finally, they must earn 30 credits in philosophy, with a grade of "C-" or above in every course, in accordance with the following rules:

1. No course can be used to fulfill more than one of the above requirements.
2. No more than two philosophy courses below the 2000-level can count toward the major.

Graduate

MA in Philosophy

About the Master of Arts in Philosophy

At this time, our Department is not admitting students who are seeking a terminal master’s degree. However, our doctoral students earn an MA degree en route to the PhD.

Please see the admission criteria for our doctoral degree program (p. 247).

Admission Contact Information
Paul Weirich
College of Arts and Science
Department of Philosophy
415 Strickland Hall
573 882-6760

Master of Arts Degree Completion Requirements

• 30 semester hours of graduate work, 15 of which must be at the 8000 level.
• At least 80 percent of the hours submitted for the master’s program must be completed with a grade of A or B.
• A distribution of graduate courses including a proseminar for all first year students, one course in the history of philosophy and one course in either ethics, political philosophy, metaphysics, or epistemology.
• A thesis or two papers of format and topic appropriate for a refereed paper in a major journal, displaying sustained research and philosophical analysis, and an oral defense of the thesis or papers.

PhD in Philosophy

Admission Contact Information
Paul Weirich
College of Arts and Science
Department of Philosophy
415 Strickland Hall
573 882-6760

Note: Although we award the MA degree, we only admit students to our PhD program (with the MA obtained in the process). Any unusual circumstances regarding failure to meet the minimum requirements should be called to the attention of the director of graduate admissions.

Admission Process

In order to be considered for our graduate program, the following steps need to be completed (including receipt of transcripts and test scores) by January 15th:

1. Arrange for all relevant official transcripts to be sent directly to the Graduate School by your college or university (student copies are not acceptable).
2. Arrange with Educational Testing Services for your GRE scores to be sent directly to the Graduate School (MU’s school code is 6875;
philosophy’s department code is 2801). Only electronic scores are acceptable.

3. International students also should arrange for their TOEFL scores to be sent directly to the Graduate School (MU’s school code is 6875; philosophy’s department code is 2801). The minimum required scores are 100 (internet) total with a speaking score of at least 23 (internet). (For more information about scores, see Graduate School TOEFL policy.)

4. Complete the basic information in online Graduate School application.

5. Upload a 750-word Statement of Interest to the Supplemental Information section of the on-line Graduation School application form. It should explain why you are interested in graduate study in philosophy at the University of Missouri. We encourage you to address, if you wish, how you can advance the department’s commitment to diversity.

6. Upload a sample of your 15-25 page philosophical writing (e.g., a paper or thesis chapter) to the Supplemental Information section of the on-line Graduation School application form. For the sake of blind evaluation, do not include your name on the sample you upload.

7. In the Recommendation section of the on-line Graduation School application form, enter the information for three letters of recommendation regarding your academic potential. You should first obtain agreement from the professors writing these letters. They will be contacted by e-mail to submit their letters electronically. If a professor is unable to send his/her letters electronically, you should still enter all his/her information in the Recommendation section, but you should write “(off-line)” immediately after her name.

8. A hardcopy of the recommendation should then be sent to the Director of Graduate Studies, Department of Philosophy University of Missouri, Columbia, MO 65211-4160. Because all other materials are electronic, hardcopies do not receive the same attention. It is thus in your strong interest to have your letters submitted electronically.

9. Complete the Department Philosophy application form (http://philosophy.missouri.edu/graduate/apply.html).

---

**Required Application Materials**

**To the Graduate School**

- All required Graduate School documents
- 3 letters of recommendation (submission through the online application system strongly preferred, but postal mail submission directly to the department allowed)
- Statement of interest (upload to the online application)
- Writing sample (upload to the online application)
- Departmental application (download this from http://philosophy.missouri.edu/graduate/apply.html and then upload to the online application).

**To the Philosophy Program**

- GRE score report (electronic only)

---

**Qualifying Exam**

Qualification for the PhD program is established by a qualifying examination (typically by superior performance on the MA research requirement).

---

**Graduation Requirements for the PhD**

- 72 hours of course work in philosophy, with at least 42 hours of regular course work.
- A distribution of graduate courses including an introductory seminar for all first year students, two advanced courses in logic, two courses in the history of philosophy, and one course in each of ethics, epistemology, and metaphysics.
- A written and oral dissertation proposal requirement designed to ensure the student’s familiarity with the relevant philosophical literature and ability to analyze philosophical issues. A dissertation and a final oral examination on the dissertation.

---

**Admission Criteria**

Fall deadline: January 15

- Minimum TOEFL scores:

<table>
<thead>
<tr>
<th>Internet-based test (iBT)</th>
<th>Paper-based test (PBT)</th>
</tr>
</thead>
<tbody>
<tr>
<td>100</td>
<td>600</td>
</tr>
</tbody>
</table>

- Speaking score of at least 23

- Average GRE scores:

<table>
<thead>
<tr>
<th>When did you take the GRE?</th>
<th>Verbal</th>
<th>Quantitative</th>
</tr>
</thead>
<tbody>
<tr>
<td>Prior to August 1, 2011</td>
<td>650</td>
<td>700</td>
</tr>
<tr>
<td>On or After August 1, 2011</td>
<td>163</td>
<td>155</td>
</tr>
</tbody>
</table>

- Eligibility for any graduate work in philosophy requires the equivalent of the following six undergraduate courses in philosophy: formal logic, ethics, ancient philosophy, modern philosophy, epistemology, and metaphysics.
- Deficiencies may be made up after the student is enrolled at MU.
- Average GPA in the major: 3.9
Physics

Sashi Satpathy, Chair
College of Arts and Science
223 Physics Building
(573) 882-3335
Fax: (573) 882-4195
http://www.missouri.edu/

Physics is the science that studies the structure and properties of matter and transformations of energy. With math as the language and experimental verification as a guide, physical study has established the fundamental laws of nature that are the foundation of all natural science and technology. The study of physics includes learning the general principles and the phenomena that have been discovered and developing the skills that enable such knowledge to be advanced through research.

The Department of Physics and Astronomy offers a major in physics with either a Bachelor of Arts or a Bachelor of Science Degree. The BA degree provides a broad coverage of classical and modern physics while permitting a broader liberal arts education. It is normally selected by students who do not envision a professional career in physics, but plan to enter a professional school later in their academic career, e.g. medicine, dentistry or law, or who desire to pursue a teaching certificate. The BS degree in Physics is designed to prepare students for scientific careers immediately upon graduation, for further training in graduate school, or for teaching high school physics. A minor in physics or astronomy is also available.

Physics education plays a pivotal role in such areas of burgeoning and societal importance as biomedical optical imaging/biomedicine, materials science, and homeland security. Therefore, the Department of Physics has introduced several new courses and electives to train undergraduate students in optical sciences, biological physics, materials sciences and nanotechnology.

Faculty

Associate Professor D. Hanuscin*, G. King**, W. T. Montfrooij**, X. Zou**
Assistant Professor S. Bompade**, H. Yan**
Teaching Professor D. Kosztin*
Associate Teaching Professor Y. Zhang*
Assistant Teaching Professor K. King*
Adjunct Professor S. M. Badalyan, S. Balasubramanian, C. Chicone*, P. Cornish*, F. Y. Hansen, F. Hehl, A. Helfer*, H. Kaiser, A. Neagu, Z. S. Popovic, W. Yelon*
Adjunct Associate Professor X. Fan, J. Farmer**
Associate Professor Emeritus C. J. Peterson

** Doctoral Faculty Member - membership is required to chair doctoral examination or dissertation committees. Graduate faculty membership is a prerequisite for Doctoral faculty membership.

Undergraduate

- BA in Physics (p. 250)
- BS in Physics (p. 251)
  - with emphasis in Astronomy (p. 252)
  - with emphasis in Materials Science (p. 253)
- Minor in Physics (p. 253)

Candidates for both degrees must complete 120 credits with an average grade of C or better. For the BA in physics degree, students must complete 30 credits in physics and 19 credits in math and chemistry. For the BS in physics degree, students must complete 45 credits in physics and 25 credits in math and chemistry. Students pursuing a Bachelor of Science in Secondary Education, emphasis in Physics, have the option of receiving a BS in physics degree by completing 33 credits in physics and 19 hours in math and chemistry. In addition, students must meet all degree, college, and university requirements including University general education. All students who complete the BS degree in Physics automatically also complete a minor in Mathematics.

Departmental Honors

The departmental honors program in physics provides exceptional students with an opportunity to develop skills beyond the normal course work. It also acknowledges those students who have attained a level of achievement beyond what is normally expected of an undergraduate physics major.

To receive an honors degree with a major in physics, a student must meet the following criteria:

- Satisfy the BA or BS degree requirements
- Cumulative GPA of at least 3.30 and minimum GPA of 3.50 in Physics Department courses
- Complete a six credit hours research sequence, by signing up for PHYSICS 4950/ASTRON 4950 Undergraduate Research in Physics/Astronomy in the first (second) semester junior year and for PHYSICS 4950/ASTRON 4960 Senior Thesis (or PHYSICS 4950/ASTRON 4950 again) in the first (second) semester senior year. In PHYSICS 4950 /ASTRON 4950 students will work on a research project, either by doing research in a lab or by doing reading research and completing specific readings under the supervision of a faculty advisor.
- Present the results of the research project in a poster or in a paper prepared in the form of a scientific journal article at a regional or national meeting, to a faculty panel that will consist of no fewer than three Physics Department faculty members, or in a physics seminar.

In order to receive departmental honors recognition, the student must be recommended by the director of undergraduate studies. Upon recommendation, the Office of the University Registrar will be notified that the candidate has earned departmental honors recognition. This acknowledgement will appear on the student’s diploma as well as on the transcript.

Elective Tracks

Students have available a variety of courses from which they may select the required credits of physics electives for the BS or BA degree. The
department offers tracks that allow students to specialize in astronomy, biological physics, condensed matter physics, energy storage, materials science, nanomaterials, or optoelectronics. Students may wish to pursue one of these tracks, or follow a general track in which they can choose any of the courses that are listed and are not required courses. Note: Tracks are not indicated on the diploma.

Foreign Language Alternative (BS)

Students who elect an undergraduate program leading to the BS degree with a major in Physics have an option regarding the College of Arts and Science foreign language requirement. This requirement of 12 or 13 credits (depending on the language studied) may be satisfied alternatively by the substitution of an approved specialization. This consists of a minimum of 12 credits at the 2000/3000 level or above and may not include courses normally required of all physics majors. It is to be selected from an area with special relevance to physics and to the student’s own interests and future plans.

Students have selected options in aerospace engineering, atmospheric science/geophysical fluid dynamics, radiation biology, chemistry, computer science, electrical engineering (circuits or computer hardware option), geology, nuclear engineering, material science, math and other areas. The choice and planning of an option must be done under the direction of the departmental undergraduate advisor.

Dual Degrees and Double Majors

Students may wish to pursue two baccalaureate dual degrees simultaneously. For example, this might include a BS in Physics and a BS in Engineering, which is the most common choice. In order to receive two baccalaureate degrees, a student must complete a minimum of 132 credits and complete all the specified requirements for both degrees.

Another degree option is a single baccalaureate degree with two majors (double majors), which may be developed with the concurrence of appropriate advisors in the two departments. A notation of the successful completion of the two areas appears on the student’s transcript. Both departments must be in the College of Arts and Sciences. Double major options often chosen by a physics major are chemistry, mathematics or geology. Mathematics is a particularly viable double major because the extensive mathematics component normally required in the BS degree with a major in physics, if coupled with a specialization area chosen from mathematics, nearly completes the BS degree with a major in mathematics.

Careful planning, started early in the academic career, is required to meet the conditions of dual majors or dual degrees. Students who complete such programs obtain the maximum from their undergraduate experience.

About Physics

At the University of Missouri, the physics degrees are offered by the Department of Physics and Astronomy. Because the Department has a moderate size, graduate students are better able to maintain a close relationship with the faculty. Our facilities include various laboratories within the Physics Building as well as the Research Reactor. In certain cases, a student’s work may be done in collaboration with other science and engineering departments.

The largest research area is in experimental and theoretical condensed-matter physics. Graduates in these fields have been very successful in continuing their careers in industry and academics. Other research programs in which thesis work may be accomplished are biological physics and astronomy/astrophysics.

Research Resources

The Department of Physics and Astronomy offers many opportunities for scientific research in internationally recognized programs, some of which are unique at a university and at a level expected only in much larger departments. The main focus of research is in the areas of theoretical and experimental condensed matter physics, biological physics, astrophysics, and alternative energy. These research efforts are fostered by the existence of the University of Missouri Research Reactor (MURR), a 10 MW light-water moderated reactor that is the highest-power university research reactor in the country. Furthermore, many research activities involve facilities at National Laboratories such as Argonne, Oak Ridge, or NIST.

Financial Aid from the Program

Some programs require an extra form or statement from those who wish to be considered for internal assistantships, fellowships or other funding packages. Check the program website or ask the program contact for details.

More Details

For more details on the Physics graduate program please consult the departmental web site: http://physics.missouri.edu/graduate-program/program-overview/

In particular, details about degree requirements, rules and regulations can be found in the Physics graduate handbook (http://physics.missouri.edu/wp-content/uploads/2012/08/fileGradStudentHandbook.pdf).

BS in Physics with Emphasis in Astronomy

Major Program Requirements

Students interested in astronomy may pursue a BS in Physics with an Emphasis in Astronomy. For this option, students must take the same required courses as the students pursuing a regular BS degree and take all their physics electives in astronomy. One of the 4 required astronomy electives is ASTRON 3010 Introduction to Modern Astrophysics. If successfully completed, the emphasis in Astronomy will be recorded on the student’s diploma.

</tr>
</tbody>
</table>

With approval, one materials science related course may be taken from outside the physics program. Only courses in which a grade of C- or above will be counted toward the emphasis area.

### Minor in Physics

A student whose area of concentration is in another department may receive a minor in physics with the completion of the following courses with grades of C or better: PHYSICS 2750, PHYSICS 2760: University Physics (10 credits) plus three additional courses at the 2000/3000 level or above (to include at least one course dealing with topics in modern physics). In order to complete these requirements, the student must complete mathematics through MATH 4100 Differential Equations.

Conversely, a student whose area of concentration is physics may pursue a minor in another department in the College of Arts and Sciences.

### Graduate

#### MS in Physics

**About the Master of Science**

The master of science degree in physics prepares students for a variety of scientific careers. Since physics is the most fundamental of the physical sciences, graduate-level studies in the field provide essential knowledge for application in many areas. Students with strong backgrounds in physics, as well as in areas ranging from biology to engineering, are encouraged to consider a personalized MS program in physics. Graduates have many job opportunities in a variety of areas.

#### Application Process

We welcome applications from students who have successfully completed a 4-year undergraduate degree in physics or closely related fields. International students who have gone through a 3-year undergraduate degree program need to have an MS degree to become eligible for admission. Applications for admission for graduate study in physics have to be completed online. Your online application should include the following material (to be uploaded in electronic format):

- University of Missouri Graduate School Application. Use the online application system to fill out the application form and upload the required documents.
- The results of the general GRE Test (required).
- The results of the GRE Advanced Physics Test, if available (not mandatory, but strongly recommended).
- For international applicants, the results of the TOEFL Test. The minimum total TOEFL scores for graduate admission into the MU Physics program are 550 (paper-based), 213 (computer-based) or 80 (internet-based). The IELTS test with a minimum score of 6.5 is an acceptable alternative to the TOEFL.
- A statement of purpose, in which you tell us a bit about yourself (e.g. your motivations, career goals, and research interests, and why you chose to apply at the University of Missouri).
- Three letters of recommendation from three of your professors who are familiar with you and your work. school.
- Official transcripts from all undergraduate and graduate institutions applicant has attended.

**Admission Criteria**

- Fall deadline: March 1
- Spring deadline: Rolling (target date: October 1)
- Minimum GRE score: none set
- International applicants must submit results of the TOEFL test.

<table>
<thead>
<tr>
<th>Test Type</th>

<td>550</td>
</tr>
</tbody>
</table>

- MU institutional code for GRE and TOEFL: 6875
- GRE department code: 0808
- TOEFL department code: 76

#### Degree Completion Requirements

In general, students must present at least 30 credit hours for the MS degree, including at least 15 hours in courses at the 8000 level. The program must include at least 15 hours of physics courses. There is no foreign language requirement.

#### Physical Science Option

The master of science (physical science) degree is designed for those preparing to teach more than one science or for those broadening their foundation in science before proceeding to the doctoral degree. It...
Plan of Study

The MS Degree requires completion of a minimum of 30 course hours beyond the Bachelor's Degree (at least 15 hours of those in 8000 level courses) with a grade of 3.0 (B) or better, and completion of the Departmental Qualifying Examination at least at the MS pass level. The basic residency requirement stipulates that 24 hours of this work be courses taken at MU (i.e., no more than 6 hours may be transfer credits). In a normal program, this requirement is met by the end of the second year at MU. The required courses for a Master's Degree are:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>PHYSCS 8610</td>
<td>Classical Mechanics</td>
<td>3</td>
</tr>
<tr>
<td>PHYSCS 8620</td>
<td>Electrodynamics I</td>
<td>3</td>
</tr>
<tr>
<td>PHYSCS 8660</td>
<td>Methods in Mathematical Physics</td>
<td>3</td>
</tr>
<tr>
<td>PHYSCS 8680</td>
<td>Thermodynamics and Statistical Mechanics</td>
<td>3</td>
</tr>
<tr>
<td>PHYSCS 8710</td>
<td>Quantum Mechanics I</td>
<td>3</td>
</tr>
</tbody>
</table>

Other additional courses may be taken from 7000 and 8000 level courses in astronomy, mathematics, chemistry, biology, engineering, and physics to make a total of 30 hours of course work. In some cases, a student who is a transfer graduate student or who has a particularly strong undergraduate background may have had course work which satisfies the requirement of one or more of these core courses. Exemption from taking these courses at MU may be granted upon written application to the Departmental Graduate Studies Committee.

Research

It is essential for the MS degree that the students carry out some research. Three hours of research, PHYSCS 8090, should be taken, but not more than nine hours of reading and research courses may be included in the 30 hour requirement. (Note: This 9 hour limitation is a departmental requirement and is more restrictive than the Graduate School requirement.) A formal MS thesis is not required in Physics. The student, in consultation with his/her advisor, can choose to write an MS thesis as an option (MU Graduate School thesis guidelines http://gradschool.missouri.edu/academics/thesis-dissertation/diss-thesis-guideline)).

Qualifying Examination

The student must pass the Departmental Qualifying Examination at least at the MS pass level. Upon completion of the qualifying examination, the student fills out the form M3, “Report of the Master’s Examining Committee” and gathers the signatures of the Qualifying Examination Committee members. This form is then signed by the Director of Graduate Studies and forwarded to the Graduate School Dean.

Graduation Requirements

After performing satisfactory work for the first year, the student with the advisor’s assistance completes the form M1, “Plan of Study for the Master’s Degree,” an outline of the course of study for the student’s graduate program, and forwards the application through the Departmental Graduate Studies Committee to the Dean of the Graduate School. The plan of study form must be filed no later than the session preceding the session in which the student expects to receive the degree. Upon approval of the M1 form by the Dean of the Graduate School, the student is a candidate for the degree.

The program for the Master’s Degree must be completed within a period of eight years beginning with the first semester of enrollment, not including time spent in the armed services. For any extension of this time limitation, the student must petition the Graduate School Dean. Such petitions must be received in the Graduate School Office prior to the expiration of the normal period and must be approved by the advisor, the Departmental Director of Graduate Studies, and the Graduate School Dean. The Graduate School will notify the advisor in writing of the final decision.

The candidate must be enrolled at the MU campus during the semester in which the program of study, outlined in the “Plan of Study for the Master’s Degree”, is expected to be completed. During the first six weeks of this semester, the candidate must personally confirm with the Graduate School Office for all graduation arrangements.

PhD in Physics

The doctor of philosophy degree is designed to educate scientists to be capable of independently formulating and solving problems of fundamental scientific importance. Detailed policies for the PhD degree are listed at the MU Graduate School. Here we give details specific to the Physics program.

Application Process

Applications for admission for graduate study in physics have to be completed online. Your online application should include the following material (to be uploaded in electronic format):

- University of Missouri Graduate School Application. Use the online application system (https://app.applyyourself.com/AYApplicantLogin/fl_ApplicantLogin.asp?id=umc-grad) to fill out the application form and upload the required documents.
- The results of the general GRE Test (required). MU institutional code for GRE: 6875 GRE department code: 0808
- The results of the GRE Advanced Physics Test, if available (not mandatory, but strongly recommended).
- For international applicants, the results of the TOEFL Test. A minimum test score of 80 is required. The IELTS test with a minimum score of 6.5 is an acceptable alternative to the TOEFL.
- A statement of purpose, in which you tell us a bit about yourself (e.g., your motivations, career goals, and research interests, and why you chose to apply at the University of Missouri).
- Three letters of recommendation.
- Your official transcripts from all undergraduate and graduate institutions attended.

Admission Criteria

- Fall deadline: March 1
- Spring deadline: Rolling (target date: October 1)
- Minimum GRE score: none set
- Minimum TOEFL scores (international applicants only):

Degree Completion Requirements

A Ph.D. Degree requires completion of a minimum of 18 hours beyond the Master’s Degree, with a grade of 3.0 (B) or better, and completion of the Department Qualifying Examination at the PhD pass level. The
degree candidate must also meet the residency requirements. There is no foreign language requirement.
The required courses for a PhD Degree (in addition to those for the MS Degree in physics) are as follows:

- PHYSCS 8640 Electrodynamics II (3)
- PHYSCS 8720 Quantum Mechanics II (3)
- Two graduate-level (>8000) courses in the student’s area of specialization (6)
- A graduate-level (>8000) course in an area other than the student’s area of specialization (3)

Additional graduate-level courses to make a total of 18 hours beyond the Master’s Degree are required. See the graduate courses in Physics and Astronomy for electives. In addition, students can choose selected 7000 and 8000 level courses in Mathematics, Chemistry, Biology and Engineering.

A student is required to have taken a minimum of three full years of graduate work beyond the Bachelor’s Degree. All acceptable graduate work, including one year’s residence for a Master’s Degree, is used to compute the three-year requirement for the PhD Degree. It is important to note that this is not a requirement for three calendar years of work, but rather a three-year’s equivalent of full time study. When this three-year residency requirement is satisfied, a student should have finished a minimum of 72 credit hours of graduate work.

Within the three-year residence, each doctoral student must successfully complete at least two 12-hour semesters or three 8-hour semesters of graduate level program within a period of 18 calendar months. During this period, the student must be fully involved in academic pursuit, be it study, teaching, or research. This period of full-time reading, reflection, study, teaching, and research is considered necessary to give the student’s program continuity and to fulfill the spirit and special demands of the doctoral program.

A student who is a graduate assistant, or who is engaged in other activities that reduce the time available for graduate study, may need more than the anticipated time to meet course and dissertation requirements. Nonetheless, a reasonable rate of progress is required. A PhD student must successfully complete the comprehensive examination within a period of five years beginning with the first semester of enrollment as a PhD student. In addition, the program for the doctoral degree must be completed within five years of passing the comprehensive examination.

For an extension of this time, the student must, before the expiration of the normal period, petition the Graduate School by submitting a request to the advisor who, in turn, submits a written recommendation to the Graduate School which has been endorsed by the departmental Director of Graduate Studies. An extension, if granted, may entail a revision of the candidate’s program to update course work and research.

**Transfer of Credit**

A student who has completed a master’s degree at the University of Missouri-Columbia or elsewhere may, upon recommendation of the advisor and approval by the departmental Director of Graduate Studies and the Graduate School, transfer a maximum of 36 credit hours toward the total hours required for the doctoral degree. Transfer credit for doctoral students who do no have an earned master’s degree is limited to a maximum of 12 hours of graduate credit.

**Degree Completion Requirements**

In general, a PhD requires completion of a minimum of 18 hours beyond the master’s degree, with a grade of 3.0 (B) or better, and completion of the department qualifying examination at the PhD pass level. The degree candidate must also meet the residency requirement. For more details, please consult the department’s website or ask the director of graduate studies.

**Plan of Study**

The doctoral program committee guides the student in planning a program of study. The Chair of the Doctoral Program Committee, after conferring with the student and the Doctoral Program Committee, submits to the Graduate School a report, including a copy of the proposed course of study and any request for transfer of graduate credit. This plan of study will, when completed,

- prepare the student for research in the chosen field of Physics or Astronomy,
- satisfy the credit-hour and residency requirements.

The student must substantially complete the course work outlined in the “Plan of Study for the Doctoral Degree” form (Form D2), to the satisfaction of the Doctoral Program Committee and the Dean before being considered for the Comprehensive Examination.

**Comprehensive Examination**

To be an official candidate, the student must pass the Doctoral Comprehensive Examination, which is based upon graduate coursework in the Department (PHYSCS 8610, PHYSCS 8620, PHYSCS 8660, PHYSCS 8710, PHYSCS 8720, and other optional courses). The student must be enrolled to take this examination. It is to be administered only when MU is officially in session. The major advisor applies to the Dean for the Doctoral Program Committee to administer the Comprehensive Examination when the doctoral student has

- passed the Qualifying Examination,
- substantially completed the planned course work, and
- completed two years of the residence requirement.

The Comprehensive Examination is the most advanced general exam posed by MU. It may consist of both written and oral sections. It must be completed at least seven months before the final Dissertation Defense. The two sections of the examination must be completed within one month.

The written segment of the Comprehensive Examination is arranged and supervised by the major advisor. It consists of either (1) written questions prepared and graded by members of the Doctoral Program Committee, or (2) a research proposal on the work to be done for the PhD. Normally, the student will have two weeks to answer eight questions. Upon satisfactory completion of the written examination (or research proposal), the student is then given an oral examination by the committee.

For the Comprehensive Examination to be successfully completed, all or all but one of the committee, must vote to pass the student on the entire examination, both written and oral. A report of this examination, as in the “Doctoral Comprehensive Examination Results Form” (Form D3), carrying the signatures of all members of the committee, must be sent to the Graduate School and the student no later than two weeks after the completion of the examination.
A failure of either the written or oral section of the examination constitutes failure of the comprehensive examination. If a failure is reported, the committee will include in the report an outline of the general weaknesses of deficiencies of the student’s work. The student and the committee will work together to identify steps the student might take to become fully prepared for the next examination. If at any time the student believes that the advice given by the committee is inadequate, the student may send a written request for clarification to the committee. A copy of this request should be sent to the Graduate School as well. The committee must respond to this request in writing within two weeks and a copy must be filed with the Graduate School. A student who fails may not take a second examination for 12 weeks. Failure to pass two Comprehensive Examinations automatically prevents candidacy.

Doctoral Candidacy and Continuous Enrollment

Candidacy for a doctoral degree is established by passing the comprehensive examination. Status as a continuous enrollment doctoral student begins the term after the term in which the comprehensive exam was successfully completed. Candidacy is maintained by enrolling in PHYSCS 9090 research for two semester hours each fall and winter semester and for one semester hour each summer session up to and including the term in which the dissertation is defended. Continuous enrollment provides access to an advisor’s support, doctoral program committee guidance and University research facilities for completion of the dissertation. Failure to continuously enroll in PHYSCS 9090 research until the doctoral degree is awarded terminates candidacy.

Candidacy may be reestablished by paying the registration and late fees owed and completing the requirements specified by the student’s doctoral program committee. Registration fees owed may not exceed the amount owed for seven terms, regardless of the number of terms beyond seven for which the student failed to continuously enroll. The committee’s requirements may include a second comprehensive examination of evidence of currency in the research field as suggested by publications in refereed journals. Candidacy is reestablished when the student’s advisor and the departmental Director of Graduate Studies submit a written request to the Graduate School explaining the basis of the decision. Once approved, a Request to Re-enroll form must be completed by the student and sent to the department for processing.

Dissertation and Defense

The dissertation must be written on a subject approved by the candidate’s Doctoral Program Committee, must embody the results of original and significant investigation, and must be the candidate’s own work. Candidates should consult the Graduate School’s Theses and Dissertations Guidelines.

All dissertation defenses shall be open to all Physics and Astronomy faculty and graduate students. Dissertation defense dates should be publicly announced in advance. The candidate must be enrolled to defend the dissertation, which is administered when MU is officially in session. A report of the dissertation defense form (Form D4), carrying the signatures of all members of the committee, is sent to the Graduate School before the deadline preceding the anticipated date of graduation. For the dissertation to be successfully defended, the student’s doctoral committee must vote to pass the student on the defense with no more than one dissenting or abstaining vote.

Graduate Certificate in Teaching High School Physics

Through this project, participants gain an expanded range of leadership expertise, content knowledge and pedagogical proficiency to share with others, as they become resources and catalysts for reform in science education at the secondary and post-secondary institutional levels. Ultimately, the overall goal is a significant increase in student achievement in science and science coursework.

For more information please visit the A TIME for Physics First website: http://www.physicsfirstmo.org/# or contact the Department of Physics by calling 573-882-7997 or emailing hillsar@missouri.edu

Federal Gainful Employment disclosure information for this Graduate Certificate is available at http://gradschool.missouri.edu/academics/programs/teaching-high-school-physics-graduate-certificate/teach-hs-ge/Gedt.html
Political Science

A. Cooper Drury, Chair
College of Arts and Science
113 Professional Building
(573) 882-2843
druvy@missouri.edu

Political science is concerned with government, politics and public policies. In political science courses, students learn how government operates and how to analyze and evaluate public policies and political ideas. This training can help students be more effective as active citizens, as political leaders and as government administrators.

Many political science graduates attend law school or graduate school in political science, public administration, business administration, the social sciences, and other subjects. Others are employed in governmental or political jobs as legislative assistants, military officers or lobbyists, and more go into business or private employment. Many public officials and government administrators have political science degrees.

Courses in political science help students learn to think critically, analyze complex material and communicate effectively. Political science classes require extensive writing assignments, and majors are given many opportunities to hone their writing skills.

The department offers BA, MA and PhD degrees with majors in Political Science.

Faculty

Assistant Professor S. C. Greitens**, J. Haselswerdt, M. Wahman, L. K. Williams**
Adjunct Professor J. D. Milyo*, M. A. Stegmaier*

* Graduate Faculty Member - membership is required to teach graduate-level courses, chair master’s thesis committees, and serve on doctoral examination and dissertation committees.
** Doctoral Faculty Member - membership is required to chair doctoral examination or dissertation committees. Graduate faculty membership is a prerequisite for Doctoral faculty membership.

Undergraduate

- BA in Political Science (p. 258)
- Minor in Political Science (p. 259)

Departmental Requirements

Students complete a graduation plan, usually at the end of the sophomore year or beginning of the junior year. They should prepare for political science courses by completing university (p. 19) and College of Arts and Science foundation requirements, including university general education (p. 20).

Students must complete the following classes with letter grades in the C range or better to file a graduation plan:

- POL_SC 1100 or an equivalent course
- ENGLISH 1000 or an equivalent course

- MATH 1100 followed by a mathematics or statistics course (STAT 1200 will count)
- An analytical course e.g. SOCIOL 1000, PSYCH 1000, ECONOM 1014, PHIL 1000 or PHIL 1200
- POL_SC 3000

Students are required to complete 30 credits in political science. Fifteen of the 30 must be numbered 4000 or above.

Internships

The Political Science Department offers internship course credit for work in a variety of governmental settings, including work with state legislators, administrative agencies, lobbyists, members of Congress, statewide elected officials, and state political parties. Seniors in good standing with a GPA of 2.67 and juniors in good standing with a GPA of 3.0 who have completed appropriate coursework are eligible to apply. No more than 3 internship credit hours may be included in the 30 hours required for the major.

Departmental Honors

Students who have honors eligibility and a 3.5 GPA may enter the departmental honors program. Students who successfully complete a senior honors paper with a letter grade in the “B” range or better will have the phrase “with Honors in Political Science” added to their diplomas. Each year many political science honors students are selected for Phi Beta Kappa, Mortar Board, Golden Key and other scholastic honoraries.

Students who plan to enter graduate school are encouraged to enter the departmental honors program and to speak with a faculty member early in their academic career. Some areas of graduate study require significant preparation in language, statistics and methodology.

Graduate

- MA in Political Science (p. 259)
  - with emphasis in Public Policy (p. 260)
- PhD in Political Science (p. 260)

College of Arts and Science

Director of Graduate Studies: Amanda Murdie

The department emphasizes both quality teaching and research. Several faculty members have received awards and prizes for teaching excellence and innovative research. The department aims to train people as experts in the study of politics and government, while encouraging students to acquire a sufficient background in other disciplines to enable them to correlate their specialized knowledge with all aspects of modern life.

Careers

The MA can serve multiple career goals: community-college teaching, continuation of studies to the PhD, entrance into and advancement in public service, or acquisition of skills for a position in the private sector. Alumni with PhDs have received teaching appointments at public and private colleges as well as positions of responsibility in state and national government in the United States and in many foreign countries. In recent
years, an average of five students a year entered the PhD job market. Approximately eighty percent of the PhD graduates became college teachers. Most of the remainder went into public service and a few into the private sector. Six departmental alumni have become college presidents.

**Financial Aid from the Program**

Applications for admission and financial aid are considered on the basis of the entire packet submitted. Students may apply for departmental teaching and research assistantships and fellowships, as well as university scholarships and fellowships. Many of our students are supported by departmental assistantships providing a stipend and course tuition waivers. Consult the program website or ask the program contact for details.

**Satisfactory Progress**

A graduate student must maintain a minimum 3.0 GPA after the first semester of graduate study and a 3.4 cumulative GPA in all subsequent semesters. A student should complete and pass required courses, activities, and examinations on schedule. The student’s advisor and the director of graduate studies will monitor and provide an annual assessment of a student’s progress. Failure to maintain satisfactory progress can have serious consequences, including dismissal from the program.

**Undergraduate**

**BA in Political Science**

**Major Program Requirements**

Students must complete the University of Missouri’s general education requirements and the Departmental Requirements (p. 257), in addition to the degree requirements below.

All majors must take:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>POL_SC 1100</td>
<td>American Government</td>
</tr>
<tr>
<td>POL_SC 3000</td>
<td>Introduction to Political Research</td>
</tr>
</tbody>
</table>

*POL SC 3000 should be taken as a sophomore. It introduces majors to the systematic study of political phenomenon and prepares students for upper-class courses. A grade of C- or higher is required.

Comparative government (at least one course required)

<table>
<thead>
<tr>

**Options**

For students who want to concentrate on a specific area, suggestions for a course of study are available from the academic advisor. These include:

- Government service for students who want to become government administrators
- Public information and reporting for students who plan to be governmental press secretaries, public information specialists, interest group lobbyists or government reporters
- International relations for students who want to work for multinational corporations or international agencies
- Graduate school preparation
- Law school preparation

**Semester Plan**

Below is a sample plan of study, semester by semester. A student’s actual plan may vary based on course choices where options are available.
First Year

Total Credits: 120

^ Course meets degree program requirements
* Course meets University general education and/or campus graduation requirements

**Minor in Political Science

To earn a minor in political science, students must complete 15 credits, including the following:
- POL_SC 1100, American Government (3) or an equivalent course
- Additional political science courses totaling 12 credits with at least 6 at the 4000 level
- No more than 3 internship credits may be included and will not count as a 4000 level
- Nine credits must be in residence including 6 at the 4000 level
- A grade of C- or better is required of all political science classes in either a minor or a major with an overall GPA of 2.0 or greater.

Graduate

MA in Political Science

Admission Contact Information

Graduate Studies Office
113 Professional Bldg.
Columbia, MO 65211
573-882-2062
gradpolsci@missouri.edu

Admission Criteria

Admission into the MA program is determined by the graduate committee’s consideration of the applicant’s performance on the applicant’s academic record, personal statement, letters of recommendation, and the GRE general test.

Fall deadline: January 1

- Minimum TOEFL scores for international applicants: 89
- Minimum GPA: 3.0 overall, in last 60 hours, and in political science courses.
- 12 hours of upper-division course work in political science is recommended.
- An undergraduate major in an area other than political science may be acceptable.

Required Application Materials

- Graduate School online application form
- one to two page statement of purpose, describing interests and goals in graduate study in Political Science
- three letters of recommendation
- transcripts from all universities attended [official transcripts upon admission]
- official results from the Graduate Record Examination (GRE)
- writing sample
- Test of English as a Foreign Language (TOEFL) scores (for International students)

MA Degree Completion Requirements

All MA students must complete POL_SC 7000, POL_SC 7010, and POL_SC 9030. Each candidate must take one graduate seminar (8000 level) in each of two fields. Fields include: American political institutions and behavior, comparative politics and government, international relations, and public policy and administration.

The master’s degree program culminates in a comprehensive oral examination and defense of the research project. The Master of Arts degree may be earned by completing either the thesis or the non-thesis program.

Thesis Option

Students wishing to advance from the master’s program to the PhD program at MU must take the thesis option. The thesis program requires 30 hours of academic credit (at least 18 in 8000-level Political Science
Admissions

Applicants are required to meet two sets of minimum qualifications for admission: the requirements of the MA in Political Science program (http://gradschool.missouri.edu/academics/programs/political-science/masters.php) and the minimum requirements of the Graduate School (http://gradschool.missouri.edu/admissions/eligibility-process/minimum-requirements.php). Because requirements vary, you must refer to a degree program’s graduate admission page to learn about specific admission criteria, application deadlines, eligibility and application process. Before official admissions to the University of Missouri, your application materials will be reviewed by both the Graduate School and the degree program to which you’ve applied.

PhD in Political Science

Admission Contact Information

Graduate Studies Office
113 Professional Bldg.
Columbia, MO 65211
573-882-2062
gradpolsci@mizzou.edu

Admission

Admission to the PhD program is determined by the graduate studies committee’s consideration of the applicant’s performance on the applicant’s academic record, personal statement, letters of recommendation, and the GRE general test.

Admission Criteria

Fall deadline: January 1

- Minimum TOEFL score for international students: 89
- Minimum GPA: 3.0 overall, in last 60 hours, and in political science courses
- 12 hours of upper-division course work in political science is recommended.

Required Application Materials

- Graduate School online application form
- one to two page statement of purpose, describing interests and goals in graduate study in Political Science
- three letters of recommendation
- transcripts from all universities attended [official transcripts required upon admission]
- official results from the Graduate Record Examination (GRE)
- writing sample
- Test of English as a Foreign Language (TOEFL) scores (for International students)

PhD Degree Completion Requirements

A student’s doctoral program must include at least 52 hours of graduate work, exclusive of comprehensives and dissertation research. At the option of the student’s doctoral program committee, up to 24 hours of the MA program may be included in the PhD program.

Plan of Study

A student’s program shall include at least 40 hours in Political Science courses and at least 40 hours in graduate seminars (8000 and above). Students choose a primary and secondary field from the four doctoral fields: American political institutions and behavior, comparative politics and government, international relations, and public policy and administration.

Graduate courses must include:

- A minimum of 12 seminar hours in the primary (research) field
- A minimum of nine seminar hours in a secondary field supporting the primary field
- A minimum of 13 hours in a methodology or research tool field.
Required courses include POL_SC 7000, POL_SC 7010, and POL_SC 9030.
- The remaining six hours in the methodology field may be in advanced formal or quantitative methods, advanced foreign language, or a combination of the two.
- A minimum of six hours in an outside field. These courses may be in a cognate field in support of relevant substantive fields or research methods related to dissertation research.

Besides completing the necessary course work, the candidate must demonstrate the capacity to use a research tool (such as a foreign language or statistics), should obtain some teaching experience in political science (for academic careers), must pass separately written and oral comprehensive examinations, must submit and defend a dissertation proposal, and must submit and defend a dissertation.

Length of Study

All required courses and the comprehensive examination must be completed within five years of the first semester in the graduate program. The dissertation must be completed and defended within five years of passing the comprehensive examination.

The PhD usually requires five years full time or the equivalent in part-time work beyond the bachelor’s degree and four years beyond the master’s
degree. Full-time students (including teaching and research assistants) must carry a minimum of nine credit hours of courses per semester (except for students conducting dissertation research).

**Timeline**

The first three years of doctoral study typically include course work and preparation for the comprehensive examinations. Comps (POL_SC 9970) are typically taken early in the fourth year. A proposal for dissertation research is defended within a few months of the comprehensive exams. The remaining time is devoted to dissertation research (POL_SC 9090).

**Satisfactory Progress**

A doctoral student must maintain a minimum 3.0 GPA after the first semester and a 3.4 cumulative GPA in subsequent semesters. Comprehensive exams and dissertation proposal must be completed within a timely fashion. The PhD program must be completed within ten years of the first semester of enrollment. Most students complete the doctoral program within five years.
Psychology

Dr. Moshe Naveh-Benjamin
College of Arts and Science
210 McAlester Hall
(573) 882-6860
http://psychology.missouri.edu

The faculty and staff of the Department of Psychological Sciences are committed to providing students with a high-quality, broadly-based undergraduate education. Understanding that undergraduate students use the psychology major as preparation for a variety of postbaccalaureate experiences, the department is dedicated to offering a wide range of courses and services to students. While some students are interested in pursuing psychology-related interests in graduate school, most are interested in pursuing careers after graduating with a Bachelor of Arts (BA).

Regardless of a student’s ultimate goals, faculty members believe that students will be best served by completing a rigorous research-oriented program of study. Therefore, students should expect instructors to take a scientific approach to the psychological content of each course.

The department offers the BA and BS degrees with a major in Psychology, and the MA and PhD degrees with an emphasis in Clinical Psychology, Cognition & Neuroscience, Developmental Psychology, Quantitative Psychology, and Social & Personality Psychology. A minor in Quantitative Methods is also available.

* K. vanMarle**, M. Will**
* Assistant Professor I. Gizer**, A. Groh**, J. Johnson**, L. Scherer**
* Research Assistant Professor J. Bohanek, J. Craggs
* Clinical Professor N. Presser
* Clinical Associate Professor M. Klein-Trull, J. Skinner

**Assistant Teaching Professor L. Bauer, J. Ludlam, E. Naveh-Benjamin, I. Segert, M. Skaggs Sheldon, I. Zimmerman

**Professor Emeritus W. Anderson, B. Biddle, R. Geen, J. LoPiccolo, A. Strathman, M. Thelen, D. Wright

* Graduate Faculty Member - membership is required to teach graduate-level courses, chair master’s thesis committees, and serve on doctoral examination and dissertation committees.

** Doctoral Faculty Member - membership is required to chair doctoral examination or dissertation committees. Graduate faculty membership is a prerequisite for Doctoral faculty membership.

Undergraduate

- BA in Psychology (p. 263)
- BS in Psychology (p. 264)
- Minor in Psychology (p. 267)

Graduate

- MA in Psychology (p. 267)
  - emphasis in Applied Psychometrics (p. 267)
  - emphasis in Child Development and Developmental Psychology (p. 268) *
    - emphasis in Clinical Psychology (p. 268) *
    - emphasis in Cognition and Neuroscience (p. 268) *
    - emphasis in Developmental Psychology (p. 268) *
    - emphasis in Social/Personality Psychology (p. 268) *

- PhD in Psychology (p. 268)
  - emphasis in Child Clinical and Developmental Psychology (p. 269)
  - emphasis in Clinical and Quantitative Psychology (p. 269)
  - emphasis in Clinical Psychology (p. 269)
  - emphasis in Cognition and Neuroscience (p. 270)
  - emphasis in Developmental Psychology (p. 270)
  - emphasis in Quantitative Psychology (p. 270)
  - emphasis in Social/Personality Psychology (p. 271)

* Please refer to the corresponding PhD programs for the MA emphasis areas indicated above. Students are only accepted for the PhD in Psychology and the MA is earned as a secondary degree en route to the PhD.

About Psychological Sciences’ Degrees

Most students accepted have an undergraduate major in psychology or its equivalent. Acceptance is based on training, quality of work, recommendations, GRE scores and other information. For additional information on admission requirements, consult Graduate Study in Psychology and Associated Fields, published annually by the American Psychological Association and available in most libraries.

More Information about Emphasis Areas

These programs and others are more fully described at the departmental website at http://psychology.missouri.edu.

Dual Emphases: Child Clinical and Developmental Psychology

Students in the Dual Emphasis Program pursue a graduate degree with training in both clinical (child track) and developmental psychology. Students in this program are involved in training that bridges the two areas of developmental psychology and child-clinical psychology.

Dual Emphases: Clinical and Quantitative Psychology

Students in the Dual Emphasis Program pursue a graduate degree with training in both clinical and quantitative psychology. Students in this program are involved in training that bridges the two training areas. This program provides intensive training in the area of quantitative psychology.
Major Core Requirements

For more information on dual emphases degrees: http://psychology.missouri.edu/dual-degree

Undergraduate

BA in Psychology

Major Program Requirements
To graduate with a Bachelor of Arts in Psychology in the College of Arts and Science, a student must complete all degree, college, and university graduation requirements, including university general education (p. 20) as well as all degree and college or school requirements. Students are reminded to check the Undergraduate Catalog for course descriptions and prerequisite information.

Major Core Requirements

The psychology major requires 30 credit hours.

- All courses that count toward the psychology major requirements must be completed with a grade of C or better. Grades of C- or below will not be accepted. This includes STAT 1200 or its equivalent (a required course for all psychology majors).
- Students must complete MATH 1100 before STAT 1200 and PSYCH 3010, before PSYCH 3020, before the capstone labs. We make no exceptions to the research methods sequence requirements.
- Students must complete at least two psychology courses numbered 4000 or above. The Psychology capstone lab will meet one of these 4000-level courses.
- Students must complete at least one psychology course numbered 3000 or above that is designated Writing Intensive. The psychology capstone lab will meet the WI requirement if completed during the fall or spring semesters. Capstones are not WI in the summer sessions.
- No more than 43 psychology credits may count toward the required 120 credits to graduate. Students enrolled in the two-semester Honors Capstone only may use up to 49 psychology credits toward graduation.
- Students may use no more than 12 hours of Special Problems Courses, Special Readings Courses, or Internship Courses (PSYCH 2950, PSYCH 4940, PSYCH 4950 & PSYCH 4960 toward graduation. Within the 12 hours, no more than 9 hours may be Special Problems Courses. (i.e., psychology research credit hours). A student may complete either 6 hours of PSYCH 2950 and 3 hours of PSYCH 4950, or they may complete 3 hours of PSYCH 2950 and 6 hours of PSYCH 4950.
- Psych majors may have up to a total of 6 hours of PSYCH 4940.

Distribution Areas

Psychology majors are required to take one course from four of the five distribution areas. This ensures that students will have exposure to a wide range of psychological theory and research. In addition, students choose two additional Psychology courses to receive further education according to their interests. Although the distribution areas are presented below as distinct areas of study, a great deal of overlap exists among them. Students should understand the ways in which the various areas complement one another and gain the ability to integrate information learned in the different areas.

Learning/Cognition

This distribution area studies the mechanisms of the mind and how they are altered by experience. Courses in this distribution area include:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>PSYCH 2110</td>
<td>Learning, Memory, and Cognition</td>
<td>3</td>
</tr>
<tr>
<td>PSYCH 3110</td>
<td>Theories of Learning</td>
<td>3</td>
</tr>
<tr>
<td>PSYCH 3140</td>
<td>Cognitive Psychology</td>
<td>3</td>
</tr>
<tr>
<td>PSYCH 3150</td>
<td>Human Memory</td>
<td>3</td>
</tr>
<tr>
<td>PSYCH 3160</td>
<td>Perception and Thought</td>
<td>3</td>
</tr>
</tbody>
</table>

Biological/Neuroscience

This distribution area studies the biological basis of the behavior of humans and other animals. Courses in this distribution area include:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>PSYCH 2210</td>
<td>Mind, Brain, and Behavior</td>
<td>3</td>
</tr>
<tr>
<td>PSYCH 2220</td>
<td>Drugs and Behavior</td>
<td>3</td>
</tr>
<tr>
<td>PSYCH 2810</td>
<td>Human Sexuality</td>
<td>3</td>
</tr>
<tr>
<td>PSYCH 3830</td>
<td>Health Psychology</td>
<td>3</td>
</tr>
<tr>
<td>PSYCH 4210</td>
<td>Physiological Psychology</td>
<td>3</td>
</tr>
<tr>
<td>PSYCH 4240</td>
<td>Cognitive Neuroscience</td>
<td>3</td>
</tr>
</tbody>
</table>

Note: A student may not receive credit for PSYCH 2210 if it is completed after PSYCH 4210.

Social/Personality

This distribution area employs scientific methods to understand the nature and causes of individuals’ thoughts, feelings and behavior in social situations. Courses in this distribution area include:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>PSYCH 2310</td>
<td>Social Psychology</td>
<td>3</td>
</tr>
<tr>
<td>PSYCH 2320</td>
<td>Introduction to Personality</td>
<td>3</td>
</tr>
<tr>
<td>PSYCH 2330</td>
<td>Consumer Psychology</td>
<td>3</td>
</tr>
<tr>
<td>PSYCH 3350</td>
<td>Positive Psychology</td>
<td>3</td>
</tr>
<tr>
<td>PSYCH 3360</td>
<td>Automatic Social Judgments</td>
<td>3</td>
</tr>
<tr>
<td>PSYCH 3370</td>
<td>The Science of Mindfulness (Psych 3010 prerequisite)</td>
<td>3</td>
</tr>
<tr>
<td>PSYCH 4815</td>
<td>Cross-Cultural Psychology</td>
<td>3</td>
</tr>
</tbody>
</table>

Note: Due to overlap in content, a student may not receive credit for both PSYCH 3350 AND ESC_PS 4200.

Developmental

This distribution area studies the cultural and biological influences on age-related changes in cognition, emotion and social behavior that take place throughout an individual’s lifespan. Courses in this distribution area include:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>PSYCH 2410</td>
<td>Developmental Psychology</td>
<td>3</td>
</tr>
<tr>
<td>PSYCH 3420</td>
<td>Cognitive Development in Childhood</td>
<td>3</td>
</tr>
</tbody>
</table>
Note: Due to the overlap in course content, a student may receive credit for only one of the following three courses: PSYCH 2410, H_D_FS 3420 or ESC_PS 2500.

### Clinical/Abnormal

This distribution area focuses on scientific study of the causes of mental disorders as well as methods for assessing and alleviating mental health problems and related types of maladjustment. It also is concerned with the study of mental health and wellness, including strategies for preventing the development of mental disorders. Courses in this area include:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>CR</th>
</tr>
</thead>
<tbody>
<tr>
<td>PSYCH 2510</td>
<td>Survey of Abnormal Psychology</td>
<td>3</td>
</tr>
<tr>
<td>PSYCH 2830</td>
<td>Human-Companion Animal Interaction</td>
<td>3</td>
</tr>
<tr>
<td>PSYCH 3510</td>
<td>Introduction to Clinical Psychology</td>
<td>3</td>
</tr>
<tr>
<td>PSYCH 4520</td>
<td>Behavior Genetics (Prerequisite of Psych 3010 and Stat 1200 with a C or better)</td>
<td>3</td>
</tr>
<tr>
<td>PSYCH 4530</td>
<td>Research in Psychopathology</td>
<td>3</td>
</tr>
<tr>
<td>PSYCH 4540</td>
<td>Emotional Disorders in Childhood and Adolescence</td>
<td>3</td>
</tr>
<tr>
<td>PSYCH 4560</td>
<td>Schizophrenia</td>
<td>3</td>
</tr>
<tr>
<td>PSYCH 4570</td>
<td>Pediatric Neuropsychology</td>
<td>3</td>
</tr>
</tbody>
</table>

#### Psychology Electives (2000-level) 6 credit hours

Students must complete two psychology elective courses numbered 2000 or above, excluding Special Problems/Readings (i.e., PSYCH 2950, PSYCH 4950, PSYCH 4960), Internship PSYCH 4940, and Capstone Labs.

### Semester Plan

Below is a sample plan of study, semester by semester. A student’s actual plan may vary based on course choices where options are available. Psychology majors are required to earn a C or higher (no C- or below) in all Psychology courses and STAT 1200.

### Total Credits: 120

*^ Course meets degree program requirements

* Course meets University general education and/or campus graduation requirements

* Course meets College of Arts and Science foundation (Basic Skills)

### BS in Psychology

#### Major Program Requirements

To graduate with a Bachelor of Science in Psychology from the College of Arts and Science, a student must complete all degree, college and university graduation requirements (p. 19), including university general education (p. 20) as well as all degree and college or school requirements. Students are reminded to check the Undergraduate Catalog for course descriptions and prerequisite information.

#### Major Core Requirements

- The psychology major requires 30 credit hours.
- All courses that count toward the psychology major requirements must be completed with a grade of C or better. Grades of C- or below will not be accepted. This includes STAT 2500 and the required science track.
- A required statistics course (STAT 2500 or higher, or STAT 1200 and STAT 2200).
- Students must complete MATH 1100 before STAT 2500 and PSYCH 3010, before PSYCH 3020, before the capstone labs. We make no exceptions to the research methods sequence requirements.
- Students must complete at least two psychology courses numbered 4000 or above. The Psychology capstone lab will meet one of these 4000-level courses.
• Students must complete at least one psychology course numbered 3000 or above that is designated Writing Intensive. The psychology capstone lab will meet the WI requirement if completed during the fall or spring semesters. Capstones are not WI in the summer sessions.

• Students may use no more than 12 hours of Special Problems Courses, Special Readings Courses, or Internship Courses (PSYCH 2950, PSYCH 4940, PSYCH 4950, & PSYCH 4960) toward graduation. Within the 12 hours, no more than 9 hours may be Special Problems Courses (i.e., psychology research credit hours). A student may complete either 6 hours of PSYCH 2950 and 3 hours of PSYCH 4950, or they may complete 3 hours of PSYCH 2950 and 6 hours of PSYCH 4950.

• Psych majors may have up to a total of 6 hours of PSYCH 4940.

• Other than the 12 hour limit of Special Problems Courses, Special Readings Courses, and Internship hours described above, there is no limit to the number of psychology credits that may count toward the required 120 credits to graduate with the Bachelor of Science.

Minor in Psychology

The psychology minor requires 15 credits, distributed as shown below.

<table>
<thead>
<tr>
<th>Course</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>PSYCH 1000</td>
<td>General Psychology</td>
</tr>
<tr>
<td>Four regularly-scheduled psychology courses</td>
<td>12</td>
</tr>
</tbody>
</table>

At least two of these courses must be numbered 3000 or above.

"Regularly-scheduled" includes all courses except special problems courses (i.e., psychology research credit hours), which are PSYCH 4950 and PSYCH 4960: Readings.

Total Credits: 15

Students must receive a grade of C or better in all courses required for the minor. Grades of C- will not be accepted.

Only 6 credits in transfer courses will be accepted toward the minor.

AP credit for PSYCH 1000 is considered a transfer course.

Online MU courses offered by Mizzou Online are considered "regularly-scheduled courses".

Graduate

MA in Psychology

Our department is admitting students who are seeking a terminal master’s degree with an emphasis in Applied Psychometrics. All other students are only accepted for the PhD in psychology and the MA is earned as a secondary degree en route to the PhD.

Please see the admission criteria for our doctoral degree program.

Graduate Contact Information
Graduate Student Services
gradpsych@missouri.edu
210 McAlester Hall
Columbia, MO 65211
573-882-0838
573-882-7710 (fax)

MA in Psychology with Emphasis in Applied Psychometrics

A minimum of 35 hours of graduate-level courses is required for the M.A. in Psychology with an emphasis in Applied Psychometrics. Students must complete 30 hours of advanced study at the University of Missouri to receive the degree. This means that a maximum of six hours of graduate coursework taken elsewhere can count toward the master’s degree. Such transfer of credit must be recommended by the student’s advisor and approved by the director of graduate studies.

Admissions

Applicants are required to meet two sets of minimum qualifications for admission: the requirements of the MA in Psychology program with an emphasis in applied psychometrics (http://gradschool.missouri.edu/academics/programs/psychology) and the minimum requirements of the Graduate School (http://gradschool.missouri.edu/admissions/eligibility-process/minimum-requirements.php). Because requirements vary, you must refer to a degree program’s graduate admission page to learn about specific admission criteria, application deadlines, eligibility and application
process. Before official admissions to the University of Missouri, your application materials will be reviewed by both the Graduate School and the degree program to which you've applied.

**MA in Psychology with Emphasis in Child Development and Developmental Psychology**

Please refer to the PhD program with an Emphasis in Child Development and Developmental Psychology (p. 269). Students are only accepted for the PhD in Psychology and the MA is earned as a secondary degree en route to the PhD.

**Admissions**

Please refer to the admission requirements for the PhD program with an Emphasis in Child Development and Developmental Psychology. (p. 269) Students are only accepted for the PhD in Psychology and the MA is earned as a secondary degree en route to the PhD.

**MA in Psychology with Emphasis in Clinical Psychology**

Please refer to the PhD program with an Emphasis in Clinical Psychology. (p. 269) Students are only accepted for the PhD in Psychology and the MA is earned as a secondary degree en route to the PhD.

**Admissions**

Please refer to the admission requirements for the PhD program with an Emphasis in Clinical Psychology (p. 269). Students are accepted for the PhD in Psychology and the MA is earned as a secondary degree en route to the PhD.

**MA in Psychology with Emphasis in Cognition and Neuroscience**

Please refer to the PhD program with an Emphasis in Cognition and Neuroscience (p. 270). Students are only accepted for the PhD in Psychology and the MA is earned as a secondary degree en route to the PhD.

**Admissions**

Please refer to the admission requirements for the PhD program with an Emphasis in Cognition and Neuroscience (p. 270). Students are only accepted for the PhD in Psychology and the MA is earned as a secondary degree en route to the PhD.

**MA in Psychology with Emphasis in Developmental Psychology**

Please refer to the PhD program with an Emphasis in Developmental Psychology (p. 270). Students are only accepted for the PhD in Psychology and the MA is earned as a secondary degree en route to the PhD.

**Admissions**

Please refer to the admission requirements for the PhD program with an Emphasis in Developmental Psychology. Students are only accepted for the PhD in Psychology and the MA is earned as a secondary degree en route to the PhD.

**MA in Psychology with Emphasis in Social/Personality Psychology**

Please refer to the PhD program with an Emphasis in Social & Personality Psychology. (p. 271) Students are only accepted for the PhD in Psychology and the MA is earned as a secondary degree en route to the PhD.

**Admissions**

Please refer to the admission requirements for the PhD program with an Emphasis in Social & Personality Psychology (p. 271). Students are only accepted for the PhD in Psychology and the MA is earned as a secondary degree en route to the PhD.

**PhD in Psychology**

**Admission Contact Information**

Graduate Student Services
gradpsych@missouri.edu
210 McAlester Hall
Columbia, MO 65211
573-882-0838
573-882-7710 (fax)

**Admission Criteria**

Fall deadline: December 1

- Minimum GPA: 3.0
- Minimum GRE score: no minimum, subject test is strongly recommended
- Minimum TOEFL scores:
  - Internet-based test (iBT): 61 Effective July 1, 2015 must have score of 80
  - Paper-based test (PBT): 500 Effective July 1, 2015 must have score of 550

An interview is required for admission. Students earn an MA en route to the PhD, but we do not admit students seeking a terminal master’s degree.

Most students accepted have an undergraduate major in psychology or its equivalent. Acceptance is based on training, quality of work, recommendations, GRE scores and other information. For additional information on admission requirements, consult Graduate Study in Psychology and Associated Fields, published annually by the American Psychological Association and available in most libraries.

**Required Application Materials**

Note: Submit all application materials directly to the Graduate School

- Graduate School online application including:
- Department application (available at department website)
- Personal statement
• Three letters of recommendation
• One unofficial copy of each college transcript where a degree was earned or is pending
• Official GRE score report (subject test report recommended)
• Official TOEFL score (if applicable)

PhD Degree Completion Requirements

The PhD qualifying examination requirement is satisfied by successful completion of the MA degree. A master’s degree with an empirical thesis is required for doctoral study. The master’s with thesis is typically completed as part of a student’s normal progress through the doctoral program.

Students with Degrees from Other Universities

Students who enter the doctoral program with a master’s (thesis) degree from another university can satisfy the MA requirement at this university by having their thesis and course work approved by a three-member thesis committee. The committee must be composed of one faculty member from the student’s training area, one faculty member from another training area, and one MU faculty member from outside the department. Those entering the department with a master’s degree obtained without an empirical thesis may meet this requirement by conducting an investigation under the supervision of their advisor and having the resulting thesis approved by a three-member committee with the composition identified above.

Plan of Study

General requirements for the PhD include nine hours of distribution courses, 11 hours in statistics, 24 hours in the area of concentration, other elective courses, and research. Students must earn 83 hours to graduate with the PhD. Practica, internship and additional course work are required for the clinical program. Other requirements include a dissertation and comprehensive and final oral examinations. More detailed information about the rules and regulations for degree completion can be found in the Department of Psychological Sciences Graduate Student Handbook.

Financial Aid from the Program

Financial aid is available through departmental research and teaching assistantships and from university fellowships.

PhD in Psychology with Emphasis in Child Clinical and Developmental Psychology

Students in the Dual Emphasis Program pursue a graduate degree with training in both clinical (child track) and developmental psychology. Students in this program are involved in training that bridges the two areas of developmental psychology and child-clinical psychology. This program provides training in the area of developmental psychopathology with the added benefit of training in the practice of child-clinical psychology. To pursue the joint program, students must be officially admitted into both the clinical and developmental training areas within the Department of Psychological Sciences and complete requirements for both areas. Students should initially apply and be admitted to just one training area, either the clinical or developmental area. Once they have successfully completed the first year in that training area, they may apply to the second area.

Admissions

Applicants are required to meet two sets of minimum qualifications for admission: the requirements of the PhD in Psychology program (http://gradschool.missouri.edu/academics/programs/psychology/doctorate.php) and the minimum requirements of the Graduate School (http://gradschool.missouri.edu/admissions/eligibility-process/minimum-requirements.php). Because requirements vary, you must refer to a degree program’s graduate admission page to learn about specific admission criteria, application deadlines, eligibility and application process. Your application materials will be reviewed by both the Graduate School and the degree program to which you’ve applied before official admission to the University of Missouri.

PhD in Psychology with Emphasis in Clinical and Quantitative Psychology

Students in the Dual Emphasis Program pursue a graduate degree with training in both clinical and quantitative psychology. Students in this program are involved in training that bridges the two training areas. This program provides intensive training in the area of quantitative psychology with the added benefit of training in the research and practice of clinical psychology. To pursue the joint program, students must be officially admitted into both the clinical and quantitative training areas within the Department of Psychological Sciences and complete the requirements for both areas.

Admissions

Applicants are required to meet two sets of minimum qualifications for admission: the requirements of the PhD in Psychology program (http://gradschool.missouri.edu/academics/programs/psychology/doctorate.php) and the minimum requirements of the Graduate School (http://gradschool.missouri.edu/admissions/eligibility-process/minimum-requirements.php). Because requirements vary, you must refer to a degree program’s graduate admission page to learn about specific admission criteria, application deadlines, eligibility and application process. Before official admissions to the University of Missouri, your application materials will be reviewed by both the Graduate School and the degree program to which you’ve applied.

PhD in Psychology with Emphasis in Clinical Psychology

The Clinical Psychology program is accredited by the American Psychological Association and by the Psychological Clinical Science Accreditation System, and is a member of the Academy of Psychological Clinical Science. The Clinical program follows a clinical science model of training. Central to this model is a commitment to:

1. using an empirical approach to understanding, ameliorating, and preventing human problems in behavior, affect, cognition, and health;
2. to promoting adaptive human functioning; and
3. to disseminating and applying knowledge in ways consistent with scientific evidence.

The Clinical program prepares students for careers involving support, production, and dissemination of clinical science research. Clinical faculty and students are active in research and scholarship that advances understanding of the symptoms, causes, course, treatment, and prevention of many of our nation’s most distressing and impairing mental/behavioral health issues (e.g., addictions, anxiety, developmental disorders, juvenile delinquency, mood instability and disorders, schizophrenia) in youth and adults. Students work primarily with core clinical faculty, but may also collaborate with researchers throughout the department and in other campus and community units (e.g., Thompson Center for Autism and Developmental Disabilities, Fulton State Hospital).

Students also develop clinical skills in empirically supported approaches to assessment, prevention and intervention. The Clinical program maintains its own community-based outpatient clinic (the Psychological Services Clinic or PSC) as a practicum training site for students in the clinical program. The PSC is staffed by doctoral-level clinical psychologists and clinical graduate students, and it serves a broad range of clients through individual, couple, family, and group assessment and therapy services. Additional clinical experiences are available through paid or volunteer positions at institutions such as Fulton State Hospital, University Hospitals and Clinics, the Thompson Center, and the Boone County Juvenile Office’s Multisystemic Family Therapy Program.

After completing high quality internships, typically at medical centers, VAs, or university research centers, graduates are employed in positions that involve research, teaching and service in universities, medical centers, clinics, hospitals and similar agencies.

Admissions

Applicants are required to meet two sets of minimum qualifications for admission: the requirements of the PhD in Psychology program (http://gradschool.missouri.edu/academics/programs/psychology/doctorate.php) and the minimum requirements of the Graduate School (http://gradschool.missouri.edu/admissions/eligibility-process/minimum-requirements.php). Because requirements vary, you must refer to a degree program’s graduate admission page to learn about specific admission criteria, application deadlines, eligibility and application process. Before official admissions to the University of Missouri, your application materials will be reviewed by both the Graduate School and the degree program to which you’ve applied.

PhD in Psychology with Emphasis in Developmental Psychology

Developmental psychology is the scientific study of social, cognitive, and physical development over time. The Developmental Psychology doctoral program offers a strong background in statistics and research methodology and intensive research mentoring. Graduate students engage in research with their primary advisor beginning in their first semester in the program and take supporting coursework.

Admissions

Applicants are required to meet two sets of minimum qualifications for admission: the requirements of the PhD in Psychology program (http://gradschool.missouri.edu/academics/programs/psychology/doctorate.php) and the minimum requirements of the Graduate School (http://gradschool.missouri.edu/admissions/eligibility-process/minimum-requirements.php). Because requirements vary, you must refer to a degree program’s graduate admission page to learn about specific admission criteria, application deadlines, eligibility and application process. Before official admissions to the University of Missouri, your application materials will be reviewed by both the Graduate School and the degree program to which you’ve applied.

PhD in Psychology with Emphasis in Quantitative Psychology

The goal of the PhD program with emphasis in quantitative psychology is to produce researchers who are able to develop, evaluate, and apply advanced methodological techniques to psychological research questions. The program offers considerable diversity in faculty research and coursework offerings; our substantive interests span clinical, social, health, developmental, and cognitive psychology. Quantitative areas of expertise cover a range of linear and non-linear approaches to modeling,
as well as meta-analysis, time series, state-space models, and issues in large-scale data management.

Students in quantitative psychology complete course work in mathematical statistics, experimental design, and measurement, as well as courses in quantitative methods. Students can acquire extensive experience as statistical consultants through specific coursework in statistical consultation. Program requirements are fairly flexible, and students with particular interests in a substantive area of psychology are encouraged to take advanced courses in that area. Quantitative course offerings focus both on classic analytic methods as well as advanced techniques such as structural equation modeling, multilevel modeling, and meta-analysis.

Strong ties exist between the Department of Psychological Sciences and the Department of Statistics, and students may opt to complete a master’s degree in statistics as they progress through the PhD program. In addition, students have the opportunity to gain experience as statistical consultants through specific coursework in this area.

On-going projects conducted by the faculty include research in meta-analytic and secondary analysis techniques, structural equation modeling, particularly as applied to longitudinal models of change and growth, multilevel modeling, and mathematical and statistical models of cognition and perception.

Admissions

Applicants are required to meet two sets of minimum qualifications for admission: the requirements of the PhD in Psychology program and the minimum requirements of the Graduate School. Because requirements vary, you must refer to a degree program’s graduate admission page to learn about specific admission criteria, application deadlines, eligibility and application process. Before official admissions to the University of Missouri, your application materials will be reviewed by both the Graduate School and the degree program to which you’ve applied.

PhD in Psychology with Emphasis in Social/Personality Psychology

Social/Personality psychology offers training in the traditional areas of social and personality psychology, as well as their relevance for several applied areas including health psychology. This Social/Personality area integrates the psychology of the person and the situation, with the goal of understanding the psychological processes that underlie people’s emotions, motivations, beliefs, actions, and decisions.

Training focuses on the multi-faceted view of social behavior from three levels:

1. the individual level;
2. the contextual level (or social level); and
3. the interaction of the individual and the contextual levels.

All three levels are vital to fully understanding human psychology. Particular research foci in the area include the sources of motivation, both individual and social; the nature of meaning-making, both existential and interpersonal; the determinants of optimal and destructive functioning, both within and between groups and in relationships; and the causes and consequences of psychological well-being, growth, and defense.

Faculty

Associate Professors  R. J. Callahan*, S. M. Cohen*
Assistant Professors  D. Amponsah*, C. Duncan*, R. Gregory*, N. Hofer*, D. Kelley*
Teaching Assistant Professors  D. Cohen*, J. Flanagan*

* Graduate Faculty Member - membership is required to teach graduate-level courses, chair master’s thesis committees, and serve on doctoral examination and dissertation committees.
** Doctoral Faculty Member - membership is required to chair doctoral examination or dissertation committees. Graduate faculty membership is a prerequisite for Doctoral faculty membership.

Undergraduate

• BA in Religious Studies (p. 272)
• Minor in Religious Studies (p. 273)

The department’s field of study includes religious expressions from many cultures and in every period of history. Systematic study of this rich world of expression employs the widest range of academic tools and competencies, from the skills of the literary critic and historian to the analytic abilities of the social scientist and anthropologist. Because of this broad base, study in the department promotes fundamental academic skills and critical judgment and provides deeper understanding of national and international cultures. Thus, the religious studies major provides students with a foundation to pursue careers in business, government, counseling, law, medicine and journalism, as well as advanced professional study in religion. The department offers BA and MA degrees with majors in Religious Studies. A minor is also available.

Double Majors

Students are encouraged to pursue dual majors that combine religion with other interests.

Director of Graduate Studies: Signe Cohen

About the Religious Studies MA Program

The master’s program in religious studies at the University of Missouri is a two-year stand-alone graduate program in the academic study of religion. Many of the program’s alumni have gone on to PhD programs in religious studies or related disciplines, while others have completed the master’s degree in order to enrich their educational lives or to prepare for work in journalism, education, law, or other fields that demand critical thinking and analytical skills.

The master’s program offers training in the academic study of religion, with particular emphasis on theory and methods in religious studies. Students work closely with their advisors and mentors in order to develop and grow as scholars of the discipline. The department offers courses in the areas of Biblical Studies, History of Christianity, Religion in America, Islam, Judaism, Indigenous Religions, Hinduism, Buddhism, Women and Religion, and Religion and Neuroscience.

Students must complete a total of 30 credit hours at the graduate level, pass comprehensive exams in theory and methods in the academic study of religion, and complete a Master’s thesis or portfolio.

BA in Religious Studies

Major Program Requirements

Students must earn a minimum GPA of 2.0 or higher in order to have the credit applied. In addition, students must complete all degree, college and university graduation requirements, including university general education requirements (p. 20).

Required Application Materials

To the Graduate School
All required Graduate School documents, including transcripts

To the Religious Studies MA Program
Departmental application and writing sample
3 letters of recommendation (use departmental form)
GRE score report

Additional Information

The match between the interests of applicants and the areas of emphasis offered in the program will be an important consideration in the evaluation of applications.

All application materials are available online, and applications should be submitted electronically at https://app.applyyourself.com/?id=umc-grad
Although electronic applications are preferred, a student may also print out the application materials and mail them to the Religious Studies Department at the following address:
The Director of Graduate Studies
The Department of Religious Studies
221 A&S
The University of Missouri
Columbia, MO 65211

International students should contact the Office for International Admissions. Students whose native language is not English should achieve a score of 550 or more on the TOEFL exam for admission to the program.

Applications must be completed at least six weeks before the start of graduate studies. Applicants seeking teaching assistantships or fellowships must submit applications no later that February 1. Notification of admission and awards will be made no later than April 1. Applicants who wish to enter the program in January of an academic year must submit materials no later than October 15.
The study of a foreign language allows for the development and refinement of communication, listening and speaking skills. Such study also endows students with a concern for world affairs and an appreciation of and respect for individual differences.

The Department of Romance Languages and Literatures offers language and literature courses in French, Italian, Portuguese and Spanish. Students may elect a major in Romance Languages with an emphasis in French or Spanish. Minors are also available in Afro-Romance literatures in Translation, French, Italian Area Studies, Luso-Brazilian Area Studies, Romance Literatures in Translation, and Spanish. The department also participates in the interdepartmental minor in film studies.

Double majors within the College of Arts and Science, as well as dual degree programs outside of the College of Arts and Science, can be arranged if the second degree is identified early. Combined programs with journalism, political science, agriculture, education and business are among the possibilities.

The department offers BA and MA degrees in Romance Languages with major emphasis in French and Spanish; an MA with a major in French Language Teaching or Spanish Language Teaching, and a PhD in Romance Languages. Minors are also available.

Faculty

**Assistant Professor** M. Moore**, G. Pérez-Anzaldo**, M. Soria-López*

**Teaching Associate Professor** D. Anzaldo-González*, M. Marcos-Llinas, J. Otabela-Mewolo*

**Teaching Assistant Professor** A. Aviles-Quinones*, K. Fleak*, D. M. Heston, J. Sandone

**Instructor** L. McCune, A. Wetzel

- Graduate Faculty Member - membership is required to teach graduate-level courses, chair master’s thesis committees, and serve on doctoral examination and dissertation committees.
- Doctoral Faculty Member - membership is required to chair doctoral examination or dissertation committees. Graduate faculty membership is a prerequisite for Doctoral faculty membership.

  - with emphasis in Language Teaching (p. 278)
  - with emphasis in Spanish (p. 280)
- PhD in Romance Languages (p. 281)

**About the Department of Romance Languages and Literatures**

The Department of Romance Languages and Literatures offers graduate degree programs with an emphasis in Spanish (p. 280), and French (p. 276), both with the option of an emphasis in foreign language teaching. The department’s faculty and graduate student seminars are an interdisciplinary, interdepartmental series seeking to provide a collegial atmosphere in which scholars can present their recent work. The department strongly encourages study abroad as a way to reinforce language skills, broaden one’s horizons, and add an unforgettable experience to a meaningful university education.

The Department of Romance Languages and Literatures at the University of Missouri has the country’s only focus area in the field of Afro-Romance Studies. In order to facilitate research collaboration between our faculty members working in this field and scholars outside our institution, we have established the Institute for Languages and Literatures of the African Diaspora. The Institute serves first and foremost to expose black writers of French, Portuguese and Spanish expression to a wider audience.

**Specialization**

The Department of Romance Languages and Literatures offers four fields of specialization at the doctoral level: French Literature, Francophone Literature, Spanish Literature or Spanish American Literature.

**Financial Aid from the Program**

Some programs require an extra form or statement from those who wish to be considered for internal assistantships, fellowships or other funding packages. Check the program website or ask the program contact for details.

**Undergraduate**

**BA in Romance Languages**

**Major Program Requirements**

The bachelor of arts degree in Romance Languages is offered in two emphasis areas: French (p. 275) and Spanish (p. 275). Students must choose one of the emphasis areas to earn the BA in Romance Languages. Details on the requirements for the programs are listed under each emphasis.
Semester Plan

A sample plan of study has not been designed for this major, as students are required to select an emphasis. Refer to the semester plans designed for the emphasis in French (p. 275) or Spanish (p. 275).

BA in Romance Languages with Emphasis in French

Major Program Requirements

Students may obtain a BA in Romance Languages with an emphasis in French with a minimum of 30 credits in French beyond FRENCH 2100. Additionally, course work must be completed with a grade in the C range or higher in each of the required courses and students must maintain a 2.0 GPA in the major. Students must meet all major requirements listed below, as well as all College of Arts and Science and University graduation requirements, including University general education.

Students who work toward a double major (two degrees within the College of Arts and Science) may be able to complete the majors with a minimum of 120 credits. Students who are considering a dual degree program (in Arts and Science and in another school or college) are advised that a minimum of 132 credits are necessary.

To obtain the BA degree in Romance Languages with an emphasis in French, the following courses, or their equivalents, must be included in the graduation plan (numbers in parentheses indicate prerequisite courses).

Additional Requirements

- Students must complete five additional 4000-level courses (one of which must be stylistics and one must be a capstone) selected with the advisor’s approval. FRENCH 4960: Special Readings in French cannot be used to fulfill this requirement except by permission of the department chair.
- Students beginning at a level higher than FRENCH 2160 due to placement testing must still complete 30 credits in order to receive the major.
- In addition, the student is required to take a Writing Intensive course in the major, normally designated sections of FRENCH 3420 or FRENCH 3430, and must complete a minor.
- It is highly recommended that students take FRENCH 2310: French Civilization as an elective and, if at all possible, study for a summer, a semester or a full year in a French-speaking country.

<td>3</td>
</tr>
</tbody>
</table>

**Additional Requirements**

Students must complete five 4000-level courses (one of which must be a capstone) selected with the advisor’s approval. These courses must be distributed in one of the following options:

- Option 1: two peninsular lit., two Spanish-American lit., one course of choice (one course must be capstone).
- Option 2: one peninsular lit., one Spanish-American lit., one language/civilization, one capstone and one course of choice.

It should be noted that SPAN 4960 Special Readings in Spanish cannot be used to fulfill this requirement except by permission of the department chair. Students who plan to teach at any level should include courses SPAN 3160 and SPAN 3721, rather than their alternates.

Students beginning at a level higher than SPAN 2160 due to placement testing must still complete 30 credits in order to receive the major.

In addition, the student is required to take a Writing Intensive course in the major, normally designated sections of SPAN 3420 or SPAN 3430, and must complete a minor.

It is highly recommended that students take SPAN 2310 Spanish Civilization as an elective and, if at all possible, study for a summer, a semester or a full year in a Spanish-speaking country.

**Graduate**

**MA in Romance Languages**

The master of arts degree in Romance Languages is offered in three emphasis areas. Students must choose one of the emphasis areas listed below:

- French (p. 276)
- Spanish (p. 280)
- Language Teaching (p. 278)

Details on the requirements for the programs are listed under each emphasis.

**MA in Romance Languages with Emphasis in French**

Admission Contact Information
Mary Harris
MA Degree Requirements

Students must complete a total of 30 credit hours at the graduate-level to earn their MA degree. At least 15 hours must be in courses at the 8000 level or above. The plan of study for the MA with an emphasis in Spanish must include a minimum of nine hours of course work in Spanish peninsular literature and a minimum of nine hours of course work in Spanish-American literature. The plan of study for an MA with an emphasis in Spanish must also include three credit hours in the history of the Spanish language (completion of or the equivalent).

For the MA with an emphasis in either French or Spanish, the total number of credit hours in special readings (7960), problems (8085) or any combination of both may not exceed twelve. The number of credit hours in special readings (7960) within the student’s major field may not exceed three per semester. Graduate Instructors with no pedagogical experience or those who have completed no graduate course in foreign language teaching methodology will be required to take French/Spanish 7120, Foreign Language Teaching Methodology.

Non-native speakers will be required to complete an online proficiency assessment with the appropriate course coordinator before a decision on their admission status is finalized by the department.

Submitting Your Plan of Study to the Graduate School Office

MA candidates must submit a completed M-1 Plan of Study form to the Graduate School at least one semester before taking their MA examinations.

Funding Through Graduate Instructorships

MA candidates normally receive 4 semesters of financial support from the University while completing their degree. This support will customarily take the form of a graduate instructorship, though it may take the form of either a research or teaching assistantship.

Possible Fifth Semester of Support

In exceptional cases, students in good standing — with no grades of Incomplete and unproblematic teaching — may receive a fifth semester of support, at the discretion of the faculty. Faculty will award a fifth semester of support according to the department’s need for instructors. Students must submit all requests for a fifth semester of support in writing to the director of graduate studies. No student will receive more than five semesters of support.

Normal Teaching Load vs. Course Load

The minimum teaching assignment for MA candidates holding instructorships is 1 course per semester, although there may be an opportunity for two. International students may never teach more than 2 courses per semester owing to visa restrictions. All MA candidates must be registered in a minimum of 6 hours of course work for each semester in which they hold an instructorship. Students may enroll in up to 6 hours per semester of 8080 (Readings) if they have completed all their course work and are preparing for their MA exams.

Annual Review

The faculty and course directors in both major languages meet during the fall and spring semesters to evaluate the teaching and academic performance of all graduate students. The director of graduate studies informs all students in writing of their status at the end of each semester. Students who fail to remove a grade of Incomplete will be limited to

Admission Criteria

Fall deadline: February 15
Spring deadline: October 15

• Minimum GPA: 3.0 in field of major
• Masters applicants must have a bachelor’s degree
• Minimum TOEFL scores (international applicants):

<tr>
<td>500</td>
<td>Effective July 1, 2015</td>
</tr>
</tbody>
</table>

Note: Applicants must also demonstrate adequate preparation in advanced language and literature courses. This will require their having completed at least four courses equivalent to a 4000-level course for masters applicants or a 7000 level course for doctoral applicants at the University of Missouri. At a minimum, three of these courses must be in literature. If the faculty determines a deficiency, they will require that the student complete remedial course work in literature during the first year of enrollment. The director of graduate studies will inform students of these additional requirements at the time of their admission.

Required Application Materials

To the Graduate School

• All required Graduate School documents
• Official Transcript
• 10-15 page writing sample in language of desired degree program, must be uploaded to the online application
• 500-word Personal Statement, uploaded to the online application
• 3 letters of recommendation (submitted through Apply Yourself or mailed to the Romance Languages Department, 143 Arts & Science, University of Missouri, Columbia, MO 65211)
• Résumé or CV

Choosing an Advisor

All graduate students in the department may choose, or the director of graduate studies will assign them, an academic advisor at the start of their first semester of graduate study. Students must choose an academic advisor by the end of their first semester of graduate study.

Plan of Study

The department offers MA degrees with an emphasis in both French and Spanish (Peninsular or Spanish-American literature).

Minors

Students may also elect a minor field of study, which requires a minimum of 9 hours of course work completed in another department or other departments. Students interested in such minors should consult the section titled Plan of Study in the Graduate Catalog. These minor fields appear on students’ plan of study, but not on their transcript. Students electing minors must complete the standard MA examination in their major field of emphasis (French or Spanish).
teaching one course per semester for as long that grade of Incomplete remains on their academic record.

Master’s Thesis
The writing of a thesis is optional. A minimum of 4 hours and a maximum of 6 hours of 8090 Research will be allowed for the thesis. Students are urged to obtain the Graduate School’s guidelines for thesis/dissertation writing as the thesis must conform to the Graduate School’s formatting and style specifications.

Thesis Committee
Students choosing to write a thesis must name a thesis committee consisting of no fewer than three members of the doctoral faculty at the University of Missouri, one of whom should be from a department other than the Department of Romance Languages and Literatures.

Comprehensive Examination for the MA degree
All candidates for the Master of Arts degree must pass a 6-hour written examination based on the MA reading list. The examination is given twice a year, generally in late October and late March.

The French Master’s examination consists of six 1-hour parts covering literature of the Middle Ages/Renaissance, 17th, 18th, and 19th centuries, and two of the following three periods in the contemporary period: twentieth century French Literature, twentieth century Francophone Literature, contemporary literary theory.

The Spanish examination consists of two 3-hour examinations. The first component covers Peninsular Spanish literature from the Middle Ages to the present and the second component covers Spanish American literature from the Colonial period to the present.

At least half the examination must be written in the candidate’s language of specialization.

Grading of the Comprehensive Exam
The MA examination is graded as follows: High Pass, Pass, and Fail. In order to receive a passing grade on any section of the examination, a student must receive passing grades from two thirds of the examining committee. To pass the entire examination, students must receive passing grades on all sections. With permission from the examining committee, students who fail part of the examination may retake only the failed section or sections of the examination. Two failures of the examination, in whole or in part, will terminate candidacy for the degree and result in dismissal from the program.

MA in Romance Languages with Emphasis in Language Teaching

Admission
Students desiring to work for the degree of Master of Arts, Emphasis on Language Teaching (MALT) should apply directly online to the Graduate School. Applicants can find links for information, instructions for applying and the online application form on the Graduate School’s site (http://gradschool.missouri.edu/admissions). This online form is submitted electronically to the Graduate School, along with the application fee.

Additionally, the following materials submitted via the Graduate School’s Apply Yourself (https://app.applyyourself.com/AYApplicantLogin/fl_ApplicantLogin.asp?id=umc-grad) system:

- Official transcripts from the institution(s) previously attended
- TOEFL scores (international applicants only)
- Photocopies of diplomas earned at colleges/universities outside the US (international applicants only)

In addition, our department requires the following materials from all applicants:

- Departmental Graduate Studies Application
- Three Letters of Reference
- A 10-15 page-writing sample
- 500-word personal statement detailing the applicant’s reasons for selecting the University of Missouri for graduate studies and academic/career goals. Applicants may also send other supporting materials, such as a résumé, if desired.

The application form and the form for reference letters are available on the Department’s page (http://romancelanguages.missouri.edu).

Eligibility
Candidates for the MA must hold a Bachelor’s degree (or equivalent) with a grade point average of 3.0 or better in their major field of study. They must also demonstrate adequate preparation in advanced language and literature courses for admission. This will normally be four courses equivalent to a 4000-level course at the University of Missouri. At least three of these courses must be in literature or linguistics. If the Admissions Committee believes that a deficiency exists, it will prescribe additional course work (during the first year of enrollment) beyond the 30 credit hours necessary for the MALT degree. The Director of Graduate Studies will inform students of these additional requirements at the time of admission.

All non-native speakers of French/Spanish will be required to complete an online proficiency assessment prior to admission. Applicants will be contacted by the appropriate course coordinators to schedule this assessment. Students who are judged deficient in any of these areas are required to do remedial work. New graduate students who are required to do remedial work because of the departmental language proficiency examination will be retested within one year. Students must receive a passing score, or their candidacy will be terminated.

All graduate students will be assigned an advisor by the Director of Graduate Studies at the start of their first semester of graduate study.

MALT Program of Study
A total of 30 hours selected from courses receiving graduate credit must be completed for the MALT (Master of Arts in Language Teaching). A minimum of 21 of the 30 hours must be taken in either French or Spanish. At least 15 hours must be in courses at the 8000 level or above. Of these 8000-level courses, six hours must be in the Department of Romance Languages. The remaining 9 hours may be taken from courses outside the department with the approval of the student’s academic advisor.

Note: The College of Education no longer offers a certification program in the field of foreign language education. However, students who do not have a teaching certificate and who are interested in completing relevant courses in the field of education while working on their MALT
will need to contact the professional advisors in the School of Education. These students, with advisor’s consent, could use their 9 hours allowed outside the department-provided that they are graduate-level courses toward courses in education. At the completion of their MA, students can work directly with the Missouri Department of Elementary and Secondary Education to see how they can be certified in the State of Missouri.

Please note also that the number of hours of credit allowed for Special Readings (7960) and Problems (8085) may not exceed twelve. MA candidates may not take more than one of these two independent readings course per semester.

Students wishing to transfer MA credits from another university may transfer up to six hours, provided these courses were taken within the last eight years.

MALT candidates must submit a completed M-1 Program of Study to the Graduate School at least one semester before completing their comprehensive examinations.

Teaching Assistants

MALT students normally have 4 semesters of support in which to complete their degree. This support will customarily take the form of a Graduate Instructorship. MA students may not teach more than ten hours per semester. A fifth and final semester may be granted in exceptional circumstances to students in good standing (i.e., no incompletes, history of good teaching, etc.). This extra semester will be awarded on the basis of departmental need and will be granted only if a request is made formally and in writing to the Graduate Studies Committee, which will make its recommendation to the entire faculty. No student will receive support beyond the fifth semester.

The normal course load for MALT candidates holding teaching assistantships is 9 hours. All MALT candidates must register for a minimum of 6 hours of graded courses included in the Master’s program in every semester in which they hold a teaching assistantship. Exceptions to this regulation must have the approval of the Graduate Studies Committee prior to registration. International students must not fall below six hours or they will lose their student status. Students who have completed all coursework may enroll in up to 6 hours per semester of 8080 (Readings) in order to prepare for the MALT exam.

The faculty and the course directors in each of the major languages will meet during the fall and winter semesters to evaluate the performance of all graduate students as students and as teaching assistants. The Director of Graduate Studies will inform all students in writing of their status following this formal performance review.

Any student who fails to have an incomplete removed within one year of its issuance will be limited to teaching one class per semester until the incomplete grade is removed. This excludes Dissertation/Thesis (9090) courses.

Course Distribution

The course distribution for the MALT program is as follows:

**WITHIN THE DEPARTMENT**

<table>

</table>

**OUTSIDE THE DEPARTMENT (UP TO 9 HRS)**

- For students interested in education, suggested courses from the College of Education can include:
  - ESC_PS 7000 Foundation of Teacher Prep I
  - SPC_ED 7020 Foundation of Teacher Prep II

**Preparation II (4)**

- For students interested in ESL, courses can include:
  - Structure of American English (3)
  - History of the English Language (3)
  - Regional and Social Dialects of English (3)

Please Note: Courses taken outside the department must be approved by the student’s academic advisor.

**Comprehensive Examination for the MALT degree**

All graduate students in Language Teaching are required to pass a series of examinations in order to fulfill degree requirements.

**Written Examination**

All students take a six-hour written examination, which consists of three two-hour components. Two of the components include: a) Foreign Language Methodology and Second Language Acquisition; b) Applied Linguistics. In addition, each candidate will be examined in a third field of their choice, either civilization/culture or literature. The two-hour written questions will reflect the coursework completed by each candidate and appropriate texts suggested by faculty represented on the examination committee. These examinations are generally given in November and March.

The MALT examination is graded as follows: High Pass, Pass, and Fail. In order to receive a passing grade, the candidate must attain a Pass in all fields of the written examination. Should a candidate fail any part of the exam and wish second consideration for the degree (s)he must retake the failed section(s). Two failures eliminate the candidate from consideration for the MA in language teaching.
MA in Romance Languages with Emphasis in Spanish

Admission Contact Information

Mary Harris
143 Arts and Science
Columbia, MO 65211
573-882-5039
http://romancelanguages.missouri.edu/grad.shtml

Admission Criteria

Fall deadline: February 15
Spring deadline: October 15
- Minimum GPA: 3.0 in field of major
- Masters applicants must have a bachelor's degree
- Minimum TOEFL scores (international applicants):
  Internet-based test (IBT)  Paper-based test (PBT)
  61 Effective July 1, 2015 must have  500 Effective July 1, 2015 must
  score of 80          have score of 550

Applicants must also demonstrate adequate preparation in advanced language and literature courses. This will require their having completed at least four courses equivalent to a 4000-level course for masters applicants or a 7000 level course for doctoral applicants at the University of Missouri. At a minimum, three of these courses must be in literature. If the faculty determines a deficiency, they will require that the student complete remedial course work in literature during the first year of enrollment. The director of graduate studies will inform students of these additional requirements at the time of their admission.

Required Application Materials

To the Graduate School
- All required Graduate School documents
- Official Transcript
- 10-15 page writing sample in language of desired degree program, must be uploaded to the online application
- 500-word Personal Statement, uploaded to the online application
- 3 letters of recommendation (submitted through Apply Yourself (https://app.applyyourself.com/AYApplicantLogin/FL_ApplicantLogin.asp?id=umc-grad) or mailed to the Romance Languages Department, 143 Arts & Science, University of Missouri, Columbia, MO 65211)
- Résumé or CV

Choosing an Advisor

All graduate students in the department may choose, or the director of graduate studies will assign them, an academic advisor at the start of their first semester of graduate study. Students must choose an academic advisor by the end of their first semester of graduate study.

Plan of Study

The department offers MA degrees with an emphasis in both French and Spanish (Peninsular or Spanish-American literature).

Minors

Students may also elect a minor field of study, which requires a minimum of 9 hours of course work completed in another department or other departments. Students interested in such minors should consult the section titled Plan of Study in the Graduate Catalog. These minor fields appear on students' plan of study, but not on their transcript. Students electing minors must complete the standard MA examination in their major field of emphasis (French or Spanish).

MA Degree Requirements

Students must complete a total of 30 credit hours at the graduate-level to earn their MA degree. At least 15 hours must be in courses at the 8000 level or above. The plan of study for the MA with an emphasis in Spanish must include a minimum of nine hours of course work in Spanish peninsular literature and a minimum of nine hours of course work in Spanish-American literature. The plan of study for an MA with an emphasis in Spanish must also include three credit hours in the history of the Spanish language (completion of or the equivalent).

For the MA with an emphasis in either French or Spanish, the total number of credit hours in special readings (7960), problems (8085) or any combination of both may not exceed twelve. The number of credit hours in special readings (7960) within the student's major field may not exceed three per semester. Graduate Instructors with no pedagogical experience or those who have completed no graduate course in foreign language teaching methodology will be required to take FRENCH 7120/SPAN 7120, Foreign Language Teaching Methodology.

Non-native speakers will be required to complete an online proficiency assessment with the appropriate course coordinator before a decision on their admission status is finalized by the department.

Submitting Your Plan of Study to the Graduate School Office

MA candidates must submit a completed M-1 Plan of Study form to the Graduate School at least one semester before taking their MA examinations.

Funding Through Graduate Instructorships

MA candidates normally receive 4 semesters of financial support from the University while completing their degree. This support will customarily take the form of a graduate instructorship, though it may take the form of either a research or teaching assistantship.

Possible Fifth Semester of Support

In exceptional cases, students in good standing — with no grades of incomplete and unproblematic teaching — may receive a fifth semester of support, at the discretion of the faculty. Faculty will award a fifth semester of support according to the department’s need for instructors. Students must submit all requests for a fifth semester of support in writing to the director of graduate studies. No student will receive more than five semesters of support.

Normal Teaching Load vs. Course Load

The minimum teaching assignment for MA candidates holding instructorships is 1 course per semester, although there may be an opportunity for two. International students may never teach more than 2 courses per semester owing to visa restrictions. All MA candidates must be registered in a minimum of 6 hours of course work for each semester.
in which they hold an instructorship. Students may enroll in up to 6 hours per semester of 8080 (Readings) if they have completed all their course work and are preparing for their MA exams.

Annual Review
The faculty and course directors in both major languages meet during the fall and spring semesters to evaluate the teaching and academic performance of all graduate students. The director of graduate studies informs all students in writing of their status at the end of each semester. Students who fail to remove a grade of Incomplete will be limited to teaching one course per semester for as long that grade of Incomplete remains on their academic record.

Master’s Thesis
The writing of a thesis is optional. A minimum of 4 hours and a maximum of 6 hours of 8090 Research will be allowed for the thesis. Students are urged to obtain the Graduate School’s guidelines for thesis/dissertation writing as the thesis must conform to the Graduate School’s formatting and style specifications.

Thesis Committee
Students choosing to write a thesis must name a thesis committee consisting of no fewer than three members of the doctoral faculty at the University of Missouri, one of whom should be from a department other than the Department of Romance Languages and Literatures.

Comprehensive Examination for the MA degree
All candidates for the Master of Arts degree must pass a 6-hour written examination based on the MA reading list. The examination is given twice a year, generally in late October and late March.

The French Master’s examination consists of six 1-hour parts covering literature of the Middle Ages/Renaissance, 17th, 18th, and 19th centuries, and two of the following three periods in the contemporary period: twentieth century French Literature, twentieth century Francophone Literature, contemporary literary theory.

The Spanish examination consists of two 3-hour examinations. The first component covers Peninsular Spanish literature from the Middle Ages to the present and the second component covers Spanish American literature from the Colonial period to the present.

At least half the examination must be written in the candidate’s language of specialization.

Grading of the Comprehensive Exam
The MA examination is graded as follows: High Pass, Pass, and Fail. In order to receive a passing grade on any section of the examination, a student must receive passing grades from two thirds of the examining committee. To pass the entire examination, students must receive passing grades on all sections. With permission from the examining committee, students who fail part of the examination may retake only the failed section or sections of the examination. Two failures of the examination, in whole or in part, will terminate candidacy for the degree and result in dismissal from the program.

PhD in Romance Languages

Note to Internal Doctoral Applicants
Students who wish to advance to the doctoral program after completing their MA degree in the Department of Romance Languages and Literatures may do so only after receiving written approval from the MA examining committee. Alternatively, candidates may not advance to the doctoral program if the examining committee determines, after the MA examination, that their degree is terminal.

Students advancing directly from the MA to the PhD program need to complete only a Change of Degree Program form, which the department submits to the Graduate School.

Students who apply to the doctoral program one semester or more after completing their MA examinations must complete a Request to Re-enroll form and reapply to the doctoral program. They must submit a new departmental application and reference letters. They need not submit a new application to the Graduate School.

Application and Admission Information
Admission Contact Information

Applicants must also demonstrate adequate preparation in advanced language and literature courses. This will require their having completed at least four courses equivalent to a 4000-level course for masters applicants or a 7000 level course for doctoral applicants at the University of Missouri. At a minimum, three of these courses must be in literature. If the faculty determines a deficiency, they will require that the student complete remedial course work in literature during the first year of enrollment. The director of graduate studies will inform students of these additional requirements at the time of their admission.

Required Application Materials
Submit to the Graduate School using the online application system:
- All required Graduate School documents
- Official Transcript (send to Graduate School at 210 Jesse Hall, University of Missouri, Columbia, MO 65211-1160)
- 10-15 page writing sample in language of desired degree program, must be uploaded to the online application
- 500-word Personal Statement, uploaded to the online application
• 3 letters of recommendation (submitted through Apply Yourself or mailed to the Romance Languages Department, 143 Arts & Science, University of Missouri, Columbia, MO 65211)
• Résumé or CV

Note: All application forms are on the Graduate School site

Specialization

The Department of Romance Languages and Literatures offers four fields of specialization at the doctoral level: French Literature, Francophone Literature, Spanish Literature or Spanish American Literature.

Candidates may elect a secondary field, which entails a minimum of 9 hours of course work within another department, in consultation with their doctoral program committee. This secondary field appears on students’ plan of study, but not on their transcript. Students electing a secondary field must complete a PhD examination that will include at least one question devoted to their secondary field.

Choosing an Advisor

All graduate students in the department may choose, or the director of graduate studies will assign them, an academic advisor at the start of their first semester of graduate study. Students must choose an academic advisor by the end of their first semester of graduate study.

Qualifying Examination

All PhD candidates must complete a qualifying examination during their first year in the program to determine their fitness for doctoral study.

Exemptions

The faculty may excuse students from this requirement if those students received their MA degree from this department, earned a grade of High Pass on all sections of their MA examination, and enrolled in the PhD program the semester after fulfilling all requirements for the MA degree.

Purpose and Questions

The qualifying examination provides an opportunity for the faculty to evaluate candidates and advise their future course of study in the program. The examination consists of two questions related to the candidate’s course work during the previous and current semester: one question requires analysis of a text; the other, discussion of a general topic (e.g., a literary genre, a particular author, a critical or artistic movement, and so on). The candidate’s academic advisor delivers both questions to the candidate three days before a meeting with the examining committee.

Exam Meeting with the Committee

At this meeting, the candidate offers two oral presentations of 20-25 minutes each, based on the two questions. Following these presentations, the candidate responds to comments and questions from the examining committee. At the close of this meeting, the examining committee determines whether the candidate’s performance warrants a grade of Pass or Fail. The examining committee communicates these results to the Graduate School in writing, on a D-1 form bearing the signatures of the candidate and all members of the committee. Students who receive a failing grade must retake this examination before the end of the following semester. A second failure on this examination terminates eligibility for the PhD degree and will result in dismissal from the graduate program.

Arranging the Committee

All arrangements for the qualifying examination are the joint responsibility of the candidate and the candidate’s academic advisor. Any tenured or tenure-track member of the faculty may act as academic advisor to students during their first year of doctoral study. The academic advisor need not act as the director of that student’s PhD examination or dissertation committee.

Submitting Results

Students who earn a passing grade on their qualifying examination submit the D-1 form to the Graduate School, communicating the results of the examination and formally naming their doctoral committee.

Plan of Study & Degree Requirements

After the qualifying exam, students and their doctoral committee meet to devise a plan of study. The doctoral committee signs and submits this plan of study with the D-2 form to the Graduate School. Students in the PhD program must complete a minimum of 72 hours of course work, which includes a maximum of 30 credit hours earned as part of their MA degree. These credit hours must include course work in language teaching methodology (FRENCH 7120/SPAN 7120 or the equivalent) and, if applicable, the candidate’s secondary field. Spanish doctoral candidates must also complete course work in Old Spanish.

Foreign Language Requirements

PhD candidates must demonstrate reading proficiency in 2 languages other than English and their language of specialization (French or Spanish). They may satisfy this requirement, at a minimum, by completing intensive beginning courses in the required languages (4070 or the equivalent) with a grade of B- or better, or by passing written examinations administered by departments at the University of Missouri offering courses in those languages. Students choosing Latin as one of their foreign languages may satisfy this requirement by completing with a grade of B- or better, a beginning honors class (LATIN 1100H, or the equivalent). Students also fulfill this requirement if they demonstrate proficiency by objective measures (courses, examinations) that exceed this minimum standard, as approved by the Director of Graduate Studies.

Students must satisfy the foreign language requirement before they take their Comprehensive Examination for the PhD. Basic language courses carry no credit toward the PhD and are therefore not included in the Plan of Study.

Latin Requirements for Students of Medieval and Renaissance Literatures

Students specializing in literature of either the Middle Ages or the Renaissance- literature produced within the period from the rise of the vernacular to the end of the seventeenth century- must demonstrate reading proficiency in Latin. In doing so, they fulfill half their foreign language requirement. They demonstrate proficiency in Latin according to the standard explained in the previous paragraph: by means of a beginning Honors course (LATIN 1100H), a written examination administered by the Classics Department, or equivalents of these.

Language Requirements for Students With Secondary Field in Non-English Literature

Students pursuing a secondary field in a non-English literature different from that of their major field must complete with a final grade of B- or better at least three 7000-level courses (or the equivalent) in literature
of their secondary field. Competing these courses fulfills half the foreign language requirement.

For example, a student specializing in French literature of the Romantic period may choose a secondary field of German literature of the Romantic period. That student must complete 3 courses in German literature at the 7000 level (or the equivalent). Completing these courses satisfies half the foreign language requirement.

**Financial Support: Graduate Instructorships**

PhD candidates normally receive 6 semesters of financial support from the university while completing their plan of study and 4 additional semesters of support after completing their PhD examination. This support will customarily take the form of a Graduate Instructorship, though it may take the form of either a Research or Teaching Assistantship.

The minimum teaching assignment for PhD candidates holding instructorships is one course during their first semester of study. Depending on staffing needs, there may be an opportunity to teach two courses per semester. Students writing their dissertation may teach an additional course. International students may never teach more than 2 courses per semester owing to visa restrictions. All PhD candidates must be registered in a minimum of 6 hours of course work for each semester in which they hold an instructorship.

Students may enroll in a maximum of 6 hours per semester of 9080 (Readings) if they have completed all their course work and are preparing for their PhD exams. Students may enroll in a maximum of 12 hours of 9080 (Readings) over the course of their doctoral studies, provided this occurs within their first six semesters of financial support. After passing their PhD examination, students may retain their Instructorships if they enroll in Research (9090) for a minimum of 5 credit hours per year (2 in fall; 2 in spring; 1 in summer).

**Annual Review**

The faculty and course directors in both major languages meet during the fall and spring semesters to evaluate the teaching and academic performance of all graduate students. The director of graduate studies informs all students in writing of their status at the end of each semester. Students who fail to remove a grade of Incomplete will be limited to teaching one course per semester as long that grade of Incomplete remains on their academic record. This restriction applies to courses other than Research (9090).

**The PhD Comprehensive Examination**

**Reading List, Examining Committee, and Faculty Preparing Questions**

Each candidate will name a PhD Examining Committee and, as necessary, other faculty members who will prepare examination questions relating to their respective periods of expertise. The Examining Committee consists of at least 4 members: 3 members of the regular (tenured or tenure-track) faculty from the Department of Romance Languages and Literatures, including the student’s academic advisor, 1 outside member from a different department. All of them must belong to the graduate faculty at the University of Missouri. Beyond this minimum, candidates may name other members to the committee - recognized experts in the candidates field - from either the University of Missouri or another institution, with the approval of both the student’s academic advisor and the Director of Graduate Studies.

A member of the regular faculty in the Department of Romance Languages and Literatures who is an expert in literature pertaining to each part of the PhD examination will prepare questions for that part. If there is only one available expert in a specific field (for example, only one regular faculty member who is an experts in Medieval literature of either France or Spain), that faculty member must prepare and grade examination questions relating to that field. If there is more than one expert available in a particular field (for example, more than one member of the regular faculty who is an expert in contemporary French literature, contemporary Spanish literature, or contemporary Spanish-American literature), the student may choose one of those faculty members to prepare and grade questions in that field.

All questions on the PhD Examination derive from a reading list that the candidate compiles with the collaboration and approval of the Doctoral Committee and of all other faculty preparing questions. This list aims at both breadth and depth, but mainly depth. It should include texts of literature, criticism, and history that are indispensable for an expert in the candidate’s specialized field. Yet, in the non-specialized fields, this list should include a solid literary history of all genres in the period (drama, fiction, lyric, essay), while also including literary texts that would prove indispensable only for an undergraduate survey course that the candidate might teach on works of all periods and all genres over a span of two semesters. In other words, readings from this list should yield both a generalist and a specialist - an instructor who can both design and teach a survey course, and an expert who can produce original scholarship.

**Timetable of the PhD Comprehensive Examination in French and Spanish**

The candidate and the academic advisor set both the dates and the order for all parts of the Comprehensive Examination, in consultation with the Director of Graduate Studies. The Comprehensive Examination in French or Spanish consists of a written and an oral section. The written section comprises 4 parts of 3 hours per part. Candidates complete the written examination on 4 separate days - 1 part per day - within a period of 14 days. They complete the oral examination no later than five weeks after earning a passing grade on all parts of the written examination. This allows candidates to complete the written examination at the end of the fall semester and to complete the oral examination at the start of the spring semester of the same scholastic year.

Either the Director of Graduate Studies or someone delegated by the Director of Graduate Studies will administer the written part of the PhD Examination. Only members of the department faculty of departmental staff may administer the examination.

**Oral Examination**

Students complete the oral examination after receiving a passing grade on all sections of the written examination. The oral examination will last 1-2 hours, part of which must be in the language of the candidate’s specialized field. The oral exam allows candidates to clarify, strengthen or amplify the answers of the written exam. Only members of the Doctoral Committee must attend the oral examination.

With permission from the Doctoral Committee, students who fail part of the written or oral examination may retake only the failed part of parts. A minimum of 14 days must elapse before a student retakes a failed part or failed parts of the examination. Two failures of the examination, in whole or in part, will terminate candidacy for the degree and result in dismissal from the program.
Prospectus
After passing both the written and oral parts of the PhD Examination, doctoral students present a prospectus of the dissertation. This presentation occurs immediately after completing and passing the oral part of the Examination. Candidates prepare the prospectus in consultation with the academic advisor and deliver it in writing at least one week before the date of the oral examination to all members of the Doctoral Committee. The Prospectus requires approval by all members of the Doctoral Committee.

The prospectus presents a working outline, with a working bibliography, of the proposed project - its topic, organization, and critical method. Just as important, the prospectus should present a line of inquiry that promises to contribute to human knowledge - a thesis, or a position that warrants defending by means of both critical analysis and empirical evidence.

Research and Dissertation
Doctoral students register in 9090 (Research) once they have passed their PhD examinations. They will need to enroll for a minimum of 2 credit hours of 9090 during the fall and spring semesters and 1 hour during the summer semester in order to complete the 12 hours of dissertation credits required for graduation. In addition, the program for the doctoral degree must be completed within five years of passing the comprehensive examination. Individual departments or area programs may stipulate a shorter time period. Doctoral students should complete all requirements for the degree, including the dissertation, within five years of passing the comprehensive examination. The Graduate School extends this deadline in extenuating circumstances. Nonetheless, students must request additional time in writing from the director of graduate studies. Failure to show sufficient progress on the dissertation may result in dismissal from the graduate program. Students should obtain the Graduate School’s guidelines for thesis/dissertation writing since the dissertation must conform to the formatting and style specifications established by the Graduate School.

Defense
Candidates and their directors schedule a formal defense of a dissertation after its acceptance by all members of the doctoral committee. This oral defense, conducted by members of the doctoral committee, is open to the public. For additional information, contact the Director of Graduate Studies in the Department of Romance Languages and Literatures.
Russian

Tim Langen, Chair
College of Arts and Science
451 Strickland Hall
(573) 882-4328
grs@missouri.edu

The Department of German and Russian Studies offers courses in German and Russian language, literature, film and civilization. It also offers instruction in Arabic, Chinese, Japanese, Hebrew and Korean. Many courses, such as civilization, culture, literature in translation and film courses, do not require knowledge of a foreign language.

The department offers the Bachelor of Arts with majors in German, and in Russian, and the Master of Arts in German, and in Russian and Slavonic Studies. The department also offers minors in German, Russian, Chinese, Japanese, and Korean. Many courses in the minor in East Asian Studies are taught in the Department of German and Russian Studies. The Film Studies program is also housed in the department.

Faculty

Professor G. Barabtarlo*
Associate Professor T. Langen*
Assistant Professor M. Kelly*
Associate Teaching Professor N. Monnier*

* Graduate Faculty Member - membership is required to teach graduate-level courses, chair master’s thesis committees, and serve on doctoral examination and dissertation committees.

** Doctoral Faculty Member - membership is required to chair doctoral examination or dissertation committees. Graduate faculty membership is a prerequisite for Doctoral faculty membership.

Undergraduate

• BA in Russian (p. 286)
• Minor in Russian (p. 287)

Dual Degrees and Double Majors

As a double major or a dual degree has become an ever more popular choice, an increasing number of students choose German or Russian as one of their majors. Students looking forward to a career in medicine or in the sciences use a double major to ensure a thorough background in the humanities to balance their scientific studies. Double majors within the College of Arts and Science can be arranged and, if the second degree program is identified early, dual degree programs outside the college are also possible. Combined programs with journalism, international studies, education and business are frequent choices. Within the college, combinations with political science, history, philosophy, art history, and the sciences are popular double major programs.

Departmental Honors - Russian

Departmental honors are available for students majoring in Russian with a minimum 3.3 GPA. A three-course literature sequence must be completed with no grades below B or, at the discretion of the department, a thesis paper may be written.

Beginning Fall 2013: Departmental Honors are available for student majoring in Russian with a minimum 3.5 GPA in the Russian major and 3.3 GPA overall. Students must complete a minimum of three literature courses, two of which must be at the 4000 level, with no grades below a B. At the discretion of the department, students may write a thesis paper in lieu of one of the 4000 level literature courses.

Graduate

• MA in Russian and Slavonic Studies (p. 287)
College of Arts and Science
451 Strickland Hall
573-882-4328
http://grs.missouri.edu/degprogs/russiangradstudies.html

Director of Graduate Studies: Gene Barabtarlo

The Master of Arts program in Russian and Slavonic Studies offers advanced study in the literature and culture of Russia. Course offerings are primarily in literature, but reflect a variety of interrelated fields, including religion, philology, intellectual history, and philosophy. In two years of coursework students receive training in the theory and history of Russian literature and culture in general, as well as an introduction to the history of the language.

Careers

Students may go on to careers in a number of fields, including government work and international business; they will also be prepared to continue their studies at the doctoral level.

Facilities and Resources

The library of the University of Missouri is particularly strong in Russian history and literature. We are also part of a consortium that provides quick access to the holdings of many other major academic and public libraries.

Financial Support

In this program, qualified graduate students may have the opportunity to work as teaching assistants in language, literature or civilization courses. Incoming graduate students are normally offered paid positions as Teaching Assistants. To be eligible for a teaching assistantship, your application must be received by March 1. Teaching assistants (TAs) are normally appointed for one academic year (two semesters / nine months). The Fall Semester runs from late August to mid-December; the Spring Semester from mid-January to mid-May. TA appointments are normally renewed for the second year of study when teaching and progress toward the degree are satisfactory. Appointments after the second year may be available in special cases, depending upon departmental needs and resources. At present the TA position provides a stipend of approximately $1,000 per month. In addition, tuition for courses taken toward the MA are waived for TAs. Some programs require an extra form or statement from those who wish to be considered for internal assistantships, fellowships or other funding packages. Check the program website or ask the program contact for details. The Graduate School offers several valuable fellowships for which the department may nominate incoming students.

Undergraduate
BA in Russian

Major Program Requirements

The major in Russian consists of 27 credits in Russian beyond RUSS 1200. Within these 27 hours, students must meet minimum requirements within three categories: language, literature, and culture (see below). The Russian faculty strongly encourages all majors to spend at least one semester (or summer) studying abroad, preferably after their second year of the language. In addition, students must meet all degree, college and university graduation requirements, including those for university general education (p. 20).

Major core requirements (beyond the A&S language requirement)

Four of the following courses in language or their equivalents (minimum of two at the 3000-plus level) must be included:

- RUSS 2130 Second-Year Russian I
- RUSS 2160 Second-Year Russian II
- RUSS 3001 Topics in Russian-General
- RUSS 3130 Intermediate Russian or RUSS 3160 Intermediate Conversation and Composition
- RUSS 3630 Russian Classics I
- RUSS 3640 Russian Classics II
- RUSS 4160 Advanced Russian Conversation

Three literature or culture courses, chosen from the following, and to include at least one at the 4000-level:

- RUSS 2100 Classics and Iconoclasts: An Introduction to Russian Literature
- RUSS 3005 Topics in Russian-Humanities
- RUSS 3310 Heroes of Their Times: Individualism in Russian Literature
- RUSS 3320 Matters of Life and Death: The Fiction of Tolstoy and Dostoevsky
- RUSS 3330 Decline, Fall, and Resurrection in Modern Russian Literature
- RUSS 3350 The Split Tree of Russian Literature: Contemporary Russian Prose
- RUSS 3380 Sinners, Saints, and Madmen: 19th Century Russian Literature
- RUSS 3390 True Fictions: Russian Prose since 1900
- RUSS 4005 Topics in Russian-Humanities
- RUSS 4420 Russian Poetry
- RUSS 4350 Special Readings in Russian
- RUSS 4430 Russian Drama
- RUSS 4435 Russian Prose
- RUSS 4440 The Russian Novel
- RUSS 4510 The Art and Life of Pushkin
- RUSS 4520 Nikolai Gogol
- RUSS 4530 Dostoevsky
- RUSS 4540 Tolstoy’s Fiction and Truth
- RUSS 4550 Nabokov’s Russian Fiction
- RUSS 4820 Blogging the World: The Web in Cultural Context

One of the following two courses in culture:

- RUSS 2310 Between Heaven and Earth: Russian Civilization
- RUSS 2320 The Arts of Survival: Civilization in Soviet Times

Electives

Elective courses and equivalents to replace the required courses above should be selected in consultation with the advisor

Total Credits: 27

* Both RUSS 2310 and RUSS 2320 are Writing Intensive Russian civilization courses.

Semester Plan

Below is a sample plan of study, semester by semester. A student's actual plan may vary based on course choices where options are available.

Total Credits: 122
Minor in Russian

The department offers a minor in Russian, consisting of 15 credits beyond RUSS 1200. A minimum of 6 of these 15 credits must be in Russian courses numbered 3000 or above. In addition, a minimum of 9 of the 15 credits must be completed in residence.

Graduate

MA in Russian and Slavonic Studies

Admission Contact Information

Professor Gene Barabtarlo
Send email to Dr. Barabtarlo: barabtarlog@missouri.edu
451 Strickland Hall
Columbia, MO 65211
573-882-4328

Admission Information

Before applying, please send an informal letter of intent or inquiry to Dr. Barabtarlo at either the physical address or e-mail address above.

Admission Criteria

Fall deadline: January 1 (domestic); December 15 (international)
Note: to be eligible for a teaching assistantship, application must be received by March 1
Spring deadline: September 1 (domestic); May 1 (international)
Minimum GPA: 3.0 in last 60 hours
Undergraduate major or minor in Russian or equivalent
Minimum TOEFL scores:

<table>
<thead>
<tr>
<th>Internet-based test (iBT)</th>
<th>Paper-based test (PBT)</th>
</tr>
</thead>
<tbody>
<tr>
<td>61 Effective July 1, 2015 must have score of 80</td>
<td>500 Effective July 1, 2015 must have score of 550</td>
</tr>
</tbody>
</table>

Note: No language other than English and Russian is required for admission.

Required Application Materials

To the Graduate School:
• All required Graduate School documents
To the Program:
• 2 letters of recommendation

Degree Requirements

Students must complete a minimum of 30 hours of graduate-level courses with a GPA of B or higher. In accordance with Graduate School policy, no fewer than 24 of these must be Russian and Slavonic Studies courses at the 7000 or 8000 level, with at least 12 at the 8000 level. In addition, students must demonstrate adequate language skills in English and Russian.

Thesis

A master’s thesis is optional.
Sociology

J. Gubrium, Chair
College of Arts and Science
312 Middlebush Hall
(573) 882-8331
gubriumj@missouri.edu

Sociology is a discipline founded over 100 years ago to bring the scientific method to the study of human societies. It has pioneered in the development of methods and techniques designed to provide accurate and verifiable information about contemporary societies. It is the inventor of survey research and a host of statistical measures. The techniques created by sociologists are now used in all disciplines concerned with human behavior.

Sociologists today conduct research and reason from research findings to generate deeper understandings of how societies work. The generation of theoretical statements and the testing of those statements in a wide variety of social settings is the core of sociological work. Sociology contributes to human improvement by seeing that change can be based on credible information and reasoned understanding of how humans work together in groups or larger aggregates.

Faculty
Professor E. E. Brent Jr.**, J. F. Gubrium**, I. Pearce**
Assistant Professor S. Prasad**

Graduate Faculty Member - membership is required to teach graduate-level courses, chair master's thesis committees, and serve on doctoral examination and dissertation committees.

Doctoral Faculty Member - membership is required to chair doctoral examination or dissertation committees. Graduate faculty membership is a prerequisite for Doctoral faculty membership.

Undergraduate

• BA in Sociology (p. 288)
• Minor in Sociology (p. 290)

Departmental Honors
Students with a cumulative GPA of at least 3.3 are eligible for departmental honors in sociology. Qualified students who seek this option must write an honors thesis under the supervision of a sociology faculty member. Students who take the honors thesis option are not required to take SOCIOL 4970 (p. 288). Students enroll in SOCIOL 4995 (p. 288) for 3 credits each semester of the senior year for a total of 6 credits.

Graduate

• MA in Sociology (p. 290)
• PhD in Sociology (p. 290)

Financial Aid from the Program
Financial support for students includes teaching and research assistantships, both of which include remission of educational fees. International students cannot be awarded teaching assistantships until they have completed one semester of residence at MU and pass a test of spoken English.

About the Program
The Department of Sociology engages students in research, utilizing qualitative and quantitative research methodologies, in order to analyze issues and problems affecting societies. The core of doctoral training is in classical and contemporary theory, and research methods including quantitative, historical, and feminist methodologies, and interviews and field work.

Specializations
Students may focus their studies on any two of the following graduate program areas:
• Culture and Identity
• Health, Aging, and Environment
• Political Economy, Power, and Movements
• Social Inequalities

Financial Aid from the Program
Financial support for students includes teaching and research assistantships, both of which include remission of educational fees. International students cannot be awarded teaching assistantships until they have completed one semester of residence at MU and pass a test of spoken English.

Undergraduate

BA in Sociology

Major Program Requirements
A Bachelor of Arts with a major in Sociology consists of 30 credits organized to provide progressively more sophisticated levels of sociological analysis culminating in a capstone experience. It is expected that students start with entry courses, progress to basic courses and then to upper-level electives. In addition, students must complete all degree, College of Arts and Sciences and University graduation requirements (p. 19), including University General Education (p. 20).

Major core requirements
Entry courses
SOCIOL 1000 Introduction to Sociology 3
SOCIOL 2200 Social Inequalities 3

Basic courses
SOCIOL 2950 Social Research I 3
SOCIOL 3100 Recent Theories in Sociology (prerequisite: SOCIOL 2200) 3

Post-basic courses

Three additional sociology courses numbered 3000 or above; may include no more than 3 credits in SOCIOL 4940, SOCIOL 4942, or SOCIOL 4960.

Additional hours in sociology

An additional 6 credits in elective coursework in the major

Capstone course

SOCIOL 4970 Senior Seminar 3

Should be taken in the last semester of undergraduate work

Departmental honors

SOCIOL 4995 Honors in Sociology (1st semester of senior year) 3
SOCIOL 4995 Honors in Sociology (2nd semester of senior year) 3

Students with a cumulative GPA of at least 3.3 are eligible for departmental honors in sociology. Qualified students who seek this option must write an honors thesis under the supervision of a sociology faculty member. Students who take the honors thesis option are not required to take SOCIOL 4970. Students enroll in SOCIOL 4995 for 3 credits each semester of the senior year.

Statistics

A course in statistics is not required for the major. However, such a course is highly recommended, especially for students considering graduate or professional school.

Suggested courses:

STAT 1200 Introductory Statistical Reasoning 3
STAT 1300 Elementary Statistics 3
SOCIOL 4120 Social Statistics 3

Total Credits 30

Optional Tracks

The course work in sociology fits into five recommended tracks of study. Although sociology majors are not required to select a track, students who want a closer fit between the major and future employment are encouraged to do so. Each track has recommended courses in the major, complementary internships, and service learning opportunities. (Note: Tracks are not listed on transcripts or diplomas.) These tracks are outlined below.

Track: Law, Justice and Society

SOCIOL 1000 Introduction to Sociology 3
SOCIOL 1650 Social Deviance 3
SOCIOL 3010 Social Problems 3
SOCIOL 3600 Criminology 3
SOCIOL 4500 Sociology of Social Policy 3
SOCIOL 4600 Contemporary Corrections 3
SOCIOL 4610 Society and Social Control 3

Track: Power, Inequalities and Social Change

SOCIOL 1000 Introduction to Sociology 3
SOCIOL 2210 The Black Americans 3
SOCIOL 3200 Class, Status, and Power 3
SOCIOL 3210 Sociology of Globalization 3
SOCIOL 3320 Sociology of Gender 3
SOCIOL 3510 Public Opinion and Communication 3
SOCIOL 3520 Collective Behavior 3
SOCIOL 4220 Race and Ethnic Relations 3
SOCIOL 4230 Women, Development, and Globalization 3

Track: Sexuality, Health and the Life Course

SOCIOL 1000 Introduction to Sociology 3
SOCIOL 1360 The Female Experience: Body, Identity, Culture 3
SOCIOL 2230 Social Perspectives on Aging 3
SOCIOL 3010 Social Problems 3
SOCIOL 3300 Queer Theories/Identities 3
SOCIOL 3320 Sociology of Gender 3
SOCIOL 3420 The Family 3
SOCIOL 3460 Technology and Society 3
SOCIOL 3440 Sociology of Health 3
SOCIOL 4210 Aging and the Life Course 3
WGST 4420 Studies in Gender, Culture, and Politics 3

Track: Culture, Identity and the Media

SOCIOL 1000 Introduction to Sociology 3
SOCIOL 2300 Self and Society 3
SOCIOL 2310 Culture and Mass Media 3
SOCIOL 3300 Queer Theories/Identities 3
SOCIOL 3310 Social Psychology 3
SOCIOL 3400 Politics of the Media 3
SOCIOL 3430 The Sociology of Sport 3
SOCIOL 3450 The Sociology of Religion 3
SOCIOL 3510 Public Opinion and Communication 3
SOCIOL 4320 Culture, Identity and Interaction 3

Track: Organizations, Work, Technology and the Economy

SOCIOL 1000 Introduction to Sociology 3
SOCIOL 3200 Class, Status, and Power 3
SOCIOL 3210 Sociology of Globalization 3
SOCIOL 3460 Technology and Society 3
SOCIOL 3520 Collective Behavior 3
SOCIOL 3700 Organizations and Institutions 3
SOCIOL 3710 The Sociology of Work 3
SOCIOL 4230 Women, Development, and Globalization 3

Graduate

MA in Sociology

About the Master of Arts in Sociology

At this time, our Department is not admitting students who are seeking a terminal master's degree. However, our doctoral students earn an MA degree en route to the PhD.

Please see the admission criteria for our doctoral degree program (p. 290).

PhD in Sociology

Admission Contact Information

Graduate Admissions Coordinator (oakesm@missouri.edu)
312 Middlebush Hall
Columbia, MO 65211
573-882-8331

Admission Criteria

Fall deadline: January 15

- Minimum TOEFL scores:
  - Internet-based test (IBT)
    - 61 Effective July 1, 2015 must have score of 80
  - Paper-based test (PBT)
    - 500 Effective July 1, 2015 must have score of 550

- Minimum GRE score: case-by-case
- 15 hours of undergraduate sociology with a grade of B or better, including one course in sociological theory and a basic statistics course

Required Application Materials

To the Graduate School:
- All required Graduate School documents
To the Sociology Program: http://sociology.missouri.edu/graduate/admission.shtml
- GRE score report
- Departmental application
- 3 letters of recommendation
- Statement of research interests
- Copy of Graduate School application (needs to be printed out when done online)
- Copies of transcripts (it is helpful to have unofficial copies sent to the department)
- One page Application for Financial Support

PhD Plan of Study

The PhD program requires a minimum of 30 hours of course work including:

- SOCIOL 8100 Theoretical Thinking in Sociology 3
- and two additional seminars in sociological theory:
  - SOCIOL 9187 Seminar in Sociological Theory I 3
  - SOCIOL 9487 Seminar in Sociological Theory II 3
  - SOCIOL 8120 The Logic of Social Research 3
  - SOCIOL 7120 Social Statistics (or its equivalent) 3
  - SOCIOL 8130 Advanced Social Statistics 3
- and two seminars in sociological research methods:
  - SOCIOL 7110 Feminist Research and Criticism 3
  - SOCIOL 8187 Seminar on Interview Theory and Technique 3
  - SOCIOL 9287 Seminar in Qualitative Methods in Sociology 3
  - SOCIOL 9288 Ethnographic Fieldwork 3
  - SOCIOL 9687 Topical Seminar in Historical Sociology 3
  - SOCIOL 9837 Seminar in Multivariate Analysis Techniques 3
- plus six courses targeted to the student’s specialty interests.

Exams and Research

All students are required to submit a research paper no later than their fourth semester of residence. Students with a Master’s Thesis in sociology can fulfill this requirement as early as their first semester. At least eight months before the date on which they expect to complete the degree, candidates must pass a comprehensive examination centered on two of the five graduate program areas. Students must prepare and
successfully defend a dissertation that makes an original contribution to the discipline.
Statistics

Dongchu Sun, Chair
College of Arts and Science
146 Middlebush Hall
(573) 882-6376
www.stat.missouri.edu
umcasstat@missouri.edu

Information is needed to solve the many problems of today’s world. How much information? What kind? After it is obtained, what must be done with it? Statisticians are trained to help answer these questions. Early admission into the Statistics Department will allow students to plan their programs so that the math and statistics prerequisites can be taken in the most efficient sequence.

The department offers BA, BS, MA and PhD degrees with a major in Statistics. A minor is also available.

Faculty

Associate Professor S. Chakraborty**, S. Guha**, A. Micheas**, L. A. Thombs**
Assistant Professor H. Cao*, T. Ji*, E. Schliep*, X. Zhang*
Assistant Teaching Professor S. Lee*, L. D. Ries*
Assistant Teaching Professor J. Shows*, I. Zaniletti*

* Graduate Faculty Member - membership is required to teach graduate-level courses, chair master’s thesis committees, and serve on doctoral examination and dissertation committees.
** Doctoral Faculty Member - membership is required to chair doctoral examination or dissertation committees. Graduate faculty membership is a prerequisite for Doctoral faculty membership.

Undergraduate

• BA in Statistics (p. 293)
• BS in Statistics (p. 294)
• Minor in Statistics (p. 295)

Credit for Beginning Courses

(Applies to all students and all majors)

• A student may not receive credit toward an undergraduate degree for more than one of STAT 1200, STAT 1300 and STAT 1400.
• A student may not receive credit toward an undergraduate degree for more than one of STAT 2500 and STAT 2530.
• Subject to the above restrictions, a student may receive a maximum of 4 credits toward an undergraduate degree for any combination of STAT 1200, STAT 1300, STAT 1400, STAT 2200, STAT 2500 and STAT 2530.
• A student may not receive credit toward an undergraduate degree for any statistics course numbered 2999 or below if a statistics course numbered 4000 or above was successfully completed prior to or concurrent with the course in question. Exceptions may be approved at the discretion of the department.

Department Degree Requirements - Statistics

The Department of Statistics approves majors in statistics only for students who have met the following criteria:

• Completion of at least one statistics course at the 3000-level or above (or equivalent)
• Cumulative GPA of at least 2.50 overall
• Have earned a grade of C or higher in each statistics course completed

Students are encouraged to supplement their work in statistics with courses from areas such as economics, biology, accounting, finance, marketing, management, psychology, sociology, engineering, agriculture and atmospheric science. In addition, students must complete all degree, college and university graduation requirements (p. 19), including university general education (p. 20).

Options

Students may pursue either a BA or a BS degree. For both degrees, students may pursue either a traditional track or an applied track. Students who are interested in graduate study in statistics are strongly encouraged to follow the traditional track.

Departmental Honors

To be admitted to the undergraduate honors program in the Department of Statistics, a student must have completed at least 12 of the 21 credits of statistics courses required for the major, have a grade-point average of at least 3.25 in all completed statistics courses, and identify a faculty member from the department who agrees to supervise the student’s honors research project.

In order to receive the departmental honors designation, students who have been accepted into the program must graduate with a grade-point average of at least 3.25 in statistics courses, prepare a senior thesis based on their honors project, and present the results of the thesis in a departmental colloquium or other public forum approved by their mentor. They also must earn a grade of “B” or better in 3 credits of STAT 4999.

Graduate

• MA in Statistics (p. 295)
  • with emphasis in Biostatistics (p. 296)
  • with emphasis in Data Analytics (p. 296)
• PhD in Statistics (p. 297)
• Graduate Minor in Statistics (p. 298)

Kathleen Maurer, Coordinator of Graduate Studies

http://www.stat.missouri.edu/

Director of Graduate Studies: Athanasios Micheas

About Statistics

The statistics department faculty is known for both cutting edge methodological and collaborative research and for outstanding teaching. Faculty members are currently investigating statistical problems in the fields of ecology, genetics, economics, meteorology,
wildlife management, epidemiology, AIDS research, geophysics, and climatology. The program’s faculty members have ongoing collaborative programs across disciplines such as biostatistics, bioinformatics, economics, atmospheric science, psychology and with the Missouri Department of Conservation.

The graduate program provides opportunities for graduate study and thesis direction in various areas of probability and statistics, both theoretical and applied. A variety of consulting and collaborative opportunities allow both faculty and graduate students to conduct cooperative and interdisciplinary research. Regular statistics colloquia provide opportunities for faculty and outside speakers to present the results of their research. Faculty and graduate students also participate in weekly seminar series in Bayesian statistics, bioinformatics, and biostatistics.

Dual Master’s Degree in Economics and Statistics

The department offers a cooperative MA degree with the Economics Department. Students may obtain MA degrees in economics and statistics with 48 hours of course work numbered 7000 or higher from the University of Missouri instead of the 52 or more required for separate degrees. (These 48 hours may not include any of the following: Economics 7351, 7353, or Statistics 7510, 7530, 7710.) Eighteen or more hours are required from the Department of Economics. At least 15 hours must be numbered 8000 or higher with no more than four hours of 8090. Students must take the core economics courses 8451 and 8453 and research workshop 8413 (2 credit hours). Eighteen or more hours are required from the Department of Statistics. At least 15 hours must be numbered 8000 or higher with no more than three hours of 8090. Statistics 7750 and 7760 and Mathematics 7140 are required if equivalent courses were not taken as an undergraduate.

All candidates must submit a thesis or written project demonstrating an independent effort towards producing original work satisfactory for each degree. The candidate may complete separate theses/projects for both economics and statistics or a single joint thesis/project satisfying both requirements.

Career Opportunities

Statisticians are in demand in education, medicine, government, business and industry as well as in the biological, social and physical sciences.

Facilities & Resources

The Department of Statistics maintains a state-of-the-art computer network with Linux workstations and servers for research and personal productivity software on PCs. Students have access to the network through PCs in student offices and through the statistics department computer laboratory. An extensive library of software including R, SAS, and common programming languages is maintained. Students also have access to the campus computing network. The statistics department is located in newly renovated space in Middlebush, with easy access to the main library’s outstanding collection of books and journals in statistics.

Financial Aid from the Program

Fellowships and teaching and research assistantships are available to qualified graduate students. Some programs require an extra form or statement from those who wish to be considered for internal assistantships, fellowships or other funding packages. Check the program website or ask the program contact for details.

### Foreign Language Option for Students Pursuing a BS Degree

Students pursuing the BS degree may elect to take an alternative to a foreign language. Such students must complete no fewer than 12 upper-class credits that are not from the parent department, are not normally required of departmental majors and do not appear elsewhere in the graduation plan. This program must be carefully planned to form a coherent unit and must be approved by the director of undergraduate studies.

The following are examples of foreign language alternatives:

- mathematical sciences
- biological sciences
- behavioral sciences
- physical sciences
- business
- engineering
- economics

Total Credits: 119

- Course used as area in lieu of foreign language
- Course meets University General Education and/or campus requirements

## Minor in Statistics

A minor in statistics requires a minimum of 15 credits in statistics courses numbered 3000 or above. The courses used to complete the minor must be chosen in consultation with the director of undergraduate studies and must include at least one of the following:

- STAT 3500 Introduction to Probability and Statistics II
- STAT 4710 Introduction to Mathematical Statistics
- STAT 4750 Introduction to Probability Theory

A maximum of 3 of the 15 credits may be in:

- STAT 4002 Topics in Statistics-Biological/Physical/Mathematics
- STAT 4085 Problems in Statistics for Undergraduates

## Graduate

### MA in Statistics

#### Admission Criteria

Fall deadline: January 15
Spring deadline: October 15
- Minimum TOEFL scores:
  - Internet-based test (IBT): 74
  - Paper-based test (PBT): 535
- Minimum GPA: 3.0 in math and statistics courses to enter master’s program
- Bachelor’s degree from accredited college or university in related area

Undergraduate courses in statistics are recommended but not required. Consideration also is given to rank in graduating class, trends in grade records, maturity and experience, and other criteria bearing on qualifications.

Before entering the graduate program, a student should have a background that includes three semesters of calculus (or equivalent), one semester of matrix theory, and at least one post-calculus course in probability and statistics. Some required courses at the 7000 level not taken as an undergraduate may be taken for graduate credit as part of the graduate program.

### Required Application Materials

**To the Graduate School:**
- All required Graduate School documents

**To the Program:**
- Departmental application
- 3 letters of recommendation (use departmental form)
- Letter of intent
- GRE score report

### Degree Completion Requirements

The general requirements for receiving a master’s degree are at least 30 semester hours of course work at the 7000 level or higher, of which at least 18 hours must be from the Department of Statistics at MU. The 30 hours may not include credit hours of:

- STAT 7020 Statistical Methods in the Health Sciences 3
- STAT 7050 Connecting Statistics to Middle and Secondary Schools 3
- STAT 7510 Applied Statistical Models I 3
- STAT 7530 Analysis of Variance 3
- STAT 7710 Introduction to Mathematical Statistics 3
- STAT 8090 Master’s Thesis Research in Statistics (more than a total of six hours of) 1-99
- STAT 8220 Applied Statistical Models II 3

At least 15 semester hours of course work at the 8000 level or above must be taken from the Department of Statistics at MU. The 15 semester hours cannot include more than a total of three hours of STAT 8090.

Additional courses recommended but not required are:
### Remedial Courses

The following courses are required if equivalent courses were not taken as an undergraduate: MATH 7140, STAT 7750 and STAT 7760. These courses may not be used for more than six of the required 30 hours.

### Applied Track Masters of Arts Degree

#### Required core courses

<table>
<thead>
<tr>

</tr>
<tr>
<td>or CMP_SC 2050</td>
<td>Algorithm Design and Programming II</td>
<td></td>
</tr>
</tbody>
</table>

In addition, students must take four elective courses, at least three of which must be selected from the department of statistics course offerings numbered 8000 or above.

#### Examination

Students in the applied track must pass written and oral master's exams administered by a departmental committee.

### Regular Track Masters of Arts Degree

#### Original Written Work

All candidates must submit a written report on an independent effort toward producing original work. This report may, with the advisor’s consent, take the form of a thesis, a written review on a set of papers in statistics, or a written report on an independent study project, which may include an original application of statistics. For this work, a student must register for at least three semester hours of STAT 8090.

#### Presenting the Work

All candidates are required to present an open seminar on the results of the written report. The report should be made available for public review, through the Department of Statistics office, for at least one week before the examination.

#### Examination

The MA examination covers material presented in the written report and the seminar and may also cover course work.

### Satisfactory Progress

#### Length of Study

A master’s candidate is expected to complete the master’s degree within three calendar years beginning with the first semester of enrollment unless approval is obtained from the graduate faculty of the Department of Statistics.

#### Grade Requirements

Any student, while a graduate student in this program, who receives a grade of C or lower in six or more hours of courses offered by the Department of Statistics or a grade of C or lower in nine or more hours of all courses taken will be dismissed from the graduate program unless contrary action is taken by the graduate faculty of the department.

For each credit hour over three hours with a grade of C or lower in courses offered by the Department of Statistics at the 7000 level and above, the student must receive a credit hour with a grade of A in courses offered by the department at the 7000 level and above.

### MA in Statistics with Emphasis in Biostatistics

Students who wish to specialize in biostatistics may obtain a degree with special emphasis. The general requirements are the same as those for the MA degree in statistics (p. 295). In addition, students must satisfy the following:

1. Take STAT 7410 and either STAT 7420, STAT 8410 or STAT 9410 or the equivalent;
2. Submit a project or thesis related to biostatistics.

### MA in Statistics with Emphasis in Data Analytics

#### Prerequisites

Three semesters of calculus (or equivalent), one semester of linear algebra, and at least one post-calculus course in probability and statistics. At least one course in applied linear models is recommended.

#### Degree Requirements

At least 30 hours of course work in the Department of Statistics; of these, at least 15 hours must be numbered 8000 or above.

#### Required Courses

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>STAT 7110</td>
<td>Statistical Software and Data Analysis</td>
<td>3</td>
</tr>
<tr>
<td>STAT 7750</td>
<td>Introduction to Probability Theory</td>
<td>3</td>
</tr>
<tr>
<td>STAT 7760</td>
<td>Statistical Inference</td>
<td>3</td>
</tr>
</tbody>
</table>
Master’s Exam

All students must pass a written comprehensive exam on the core data analytics portion of the program: STAT 7750, STAT 7560, STAT 8310, STAT 8320. These exams will be administered at least twice per year and may be taken on campus or in testing centers in the United States or Internationally.

PhD in Statistics

Admission Criteria

Fall deadline: January 15
Spring deadline: October 15

• Minimum TOEFL scores:
  Internet-based test (iBT)  Paper-based test (PBT)
  80  535

• Minimum GPA: 3.5 in math and statistics to enter PhD program
• Master’s degree from accredited college or university in related area

Before entering the graduate program, a student should have a background that includes three semesters of calculus (or equivalent), one semester of matrix theory, and at least one post-calculus course in probability and statistics. Some required courses at the 7000 level not taken as an undergraduate may be taken for graduate credit as part of the graduate program.

Required Application Materials

To the Graduate School:
• All required Graduate School documents

To the Program:
• Departmental application
• 3 letters of recommendation (use departmental form)
• Letter of intent
• GRE score report

Qualifying Examination

All doctoral students must pass the qualifying exam, which is offered in August and January of each year. The exam consists of two parts, one covering Statistics 7750 and 7760 (Statistical Inference), and a second part covering Statistics 8310 and 8320. All doctoral students must take the exams at the first opportunity after taking the required courses, usually in August at the start of the second year. Students have two attempts to pass each part.

Doctoral Committee

Within one semester of passing the qualifying examination, a student must choose a doctoral program committee in consultation with his or her advisor. This committee consists of at least five members, at least three of whom are members of the doctoral faculty in statistics and at least one from another MU doctoral program.

Preliminary Examination

The preliminary exam is a written exam offered in August and January of each year. Before taking the exam, the student is required to have passed the qualifying exams and chosen his/her major professor. The exam consists of two parts: Part one covering STAT 9710 and STAT 9720 and part two covering STAT 9310. Students have two attempts to pass each part. Students must take the preliminary exam at the earliest possible time after passing the qualifying exam and completing the courses required for the preliminary exam, normally the start of the third year of study.

Required Course Work

Before taking the comprehensive examination, students should complete six courses taken at MU or at comparable institutions.

Select six of the following:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>STAT 9100</td>
<td>Recent Developments in Statistics</td>
</tr>
<tr>
<td>STAT 9250</td>
<td>Statistical Computation and Simulation</td>
</tr>
<tr>
<td>STAT 9320</td>
<td>Advanced Linear Models</td>
</tr>
<tr>
<td>STAT 9370</td>
<td>Multivariate Analysis</td>
</tr>
<tr>
<td>STAT 9410</td>
<td>Survival Analysis</td>
</tr>
<tr>
<td>STAT 9510</td>
<td>Theory of Nonparametric Statistics</td>
</tr>
<tr>
<td>STAT 9530</td>
<td>Data Mining and Machine Learning Methods</td>
</tr>
<tr>
<td>STAT 9640</td>
<td>Bayesian Analysis II</td>
</tr>
<tr>
<td>STAT 9810</td>
<td>Advanced Probability</td>
</tr>
<tr>
<td>STAT 9820</td>
<td>Stochastic Processes</td>
</tr>
</tbody>
</table>

(Different 9100s can be counted more than once.) Other courses may be substituted at the discretion of the student’s doctoral program committee.

Comprehensive Examination

After successfully completing the preliminary exam and the required coursework, the student is eligible to take the comprehensive examination. This examination consists of a written and oral section as specified in the Graduate School catalog. This examination must be completed at least seven months prior to the final defense of the dissertation.

Dissertation

A dissertation, prepared under the direction of a dissertation supervisor, is required. The dissertation should be presented in an open seminar as part of the final examination, which is be conducted by the final examination committee. The dissertation should be made available for public review, through the Department of Statistics office, for at least one week before the examination.

Additional Requirements

Additional requirements for the PhD in statistics are determined by the student’s program committee and the director of graduate studies.
Graduate Minor in Statistics

Master’s Minor

To receive a designated minor in statistics for a master’s degree, at least 12 credit hours of course work at the 7000 level or higher must be completed from the Department of Statistics at MU. The courses should be unified in theme and must be approved by the Director of Graduate Studies of the Department of Statistics.

The courses must be completed with an average grade of B (3.0) or higher.

The courses may not include:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>STAT 7002</td>
<td>Topics in Statistics-Biological/Physical/Mathematics</td>
</tr>
<tr>
<td>STAT 7070</td>
<td>Statistical Methods for Research</td>
</tr>
<tr>
<td>STAT 7085</td>
<td>Problems in Statistics for Non-majors</td>
</tr>
<tr>
<td>STAT 8085</td>
<td>Problems in Statistics for Majors - Masters</td>
</tr>
<tr>
<td>STAT 9085</td>
<td>Problems in Statistics for Majors - PhD</td>
</tr>
</tbody>
</table>

The courses may not include more than one course from:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>STAT 7710</td>
<td>Introduction to Mathematical Statistics</td>
</tr>
<tr>
<td>STAT 7750</td>
<td>Introduction to Probability Theory</td>
</tr>
</tbody>
</table>

PhD Minor

To receive a designated minor in statistics for a PhD degree, at least 15 credit hours of course work at the 7000 level or higher must be completed from the Department of Statistics at MU.

Courses may not include:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>STAT 7002</td>
<td>Topics in Statistics-Biological/Physical/Mathematics</td>
</tr>
<tr>
<td>STAT 7020</td>
<td>Statistical Methods in the Health Sciences</td>
</tr>
<tr>
<td>STAT 7050</td>
<td>Connecting Statistics to Middle and Secondary Schools</td>
</tr>
<tr>
<td>STAT 7070</td>
<td>Statistical Methods for Research</td>
</tr>
<tr>
<td>STAT 7085</td>
<td>Problems in Statistics for Non-majors</td>
</tr>
<tr>
<td>STAT 7530</td>
<td>Analysis of Variance</td>
</tr>
<tr>
<td>STAT 8085</td>
<td>Problems in Statistics for Majors - Masters</td>
</tr>
<tr>
<td>STAT 8090</td>
<td>Master’s Thesis Research in Statistics</td>
</tr>
<tr>
<td>STAT 9085</td>
<td>Problems in Statistics for Majors - PhD</td>
</tr>
</tbody>
</table>

Students must have at least one course in calculus-based statistics and the equivalent of at least two courses in an applied statistics sequence. The calculus-based statistics requirement can be met by STAT 7710 or STAT 7760 or above, but no more than 6 hours of STAT 7710, STAT 7750, and STAT 7760 can be counted towards the 15 hours. The applied sequence requirement can be satisfied by either STAT 7510/STAT 8220 or STAT 8310/STAT 8320. At most one course from STAT 7510 and STAT 8310 can be counted and at most one course from STAT 8220 and STAT 8320 can be counted towards the 15 hours.

The plan of study must be approved by the Director of Graduate Studies of the Statistics Department and be completed with an average grade of B (3.0) or higher. Each student is encouraged to seek approval of his/her plan of study as soon as possible.
Theatre

Clyde Ruffin, Chair
College of Arts and Science
Rhynsburger Theatre
129 Fine Arts Center
(573) 882-2021
http://theatre.missouri.edu

The Department of Theatre offers students an appreciation of theatre as a fine art, sharpens the talents of those who seek careers in theatre and provides students with methods of stimulating and using their imagination and intensifying their communication skills.

The department offers BA, MA and PhD degrees with a major in Theatre. A minor is also available.

Faculty

Professor S. Burgoyne*, D. A. Crespy**, J. M. Miller*, C. Ruffin*
Associate Professor C. D. Black**, M. H. Carver*
Assistant Professor K. Brown**, B. Carlson*
Assistant Teaching Professor J. A. Drtina, C. Gleason*
Associate Teaching Professor K. S. Packard*, R. D. Packard*

* Graduate Faculty Member - membership is required to teach graduate-level courses, chair master’s thesis committees, and serve on doctoral examination and dissertation committees.
** Doctoral Faculty Member - membership is required to chair doctoral examination or dissertation committees. Graduate faculty membership is a prerequisite for Doctoral faculty membership.

Undergraduate

- BA in Theatre (p. 300)
  - with emphasis in Design/Technical (p. 300)
  - with emphasis in Performance (p. 300)
  - with emphasis in Writing for Performance (p. 301)
- Minor in Theatre (p. 301)

Departmental Honors

To graduate with honors in theatre, a student must earn a minimum overall MU GPA of 3.3 and earn a minimum GPA of 3.5 in courses in theatre completed at the University of Missouri.

Double Majors

Many students in theatre choose either a double major or a minor in another area. In either case, the student must see a theatre advisor for approval.

Graduate

- MA in Theatre (p. 301)
- PhD in Theatre (p. 303)

Director of Graduate Studies: Heather Carver

About the Department of Theatre

The MU Department of Theatre has a distinguished history that began shortly after 1900 when a small group of aspiring thespians resolved to enhance the cultural life of the campus by producing plays in an abandoned dining room in Lathrop Hall. In 1925, Professor Donovan Rhynsburger joined the MU faculty and established the Missouri Workshop Theatre. For over 85 years, the department has sustained a national and international reputation as a major center for theatre and performance scholarship and dramatic art production. In 2007 “Academic Analytics” ranked MU Department of Theatre #4 nationally for scholarly productivity in Theatre Literature, History, and Criticism (reported in Chronicle of Higher Education, November 11, 2007). MU Theatre offers graduate and undergraduate programs.

A professional faculty comprises internationally recognized scholars and artists who develop the talents, skills and knowledge of students by teaching them to combine scholarship with artistry. MU has consistently produced fine theatre and notable alumni, including Tennessee Williams, George C. Scott, Tom Berenger, Chris Cooper, Jon Hamm, Ethel Pitts Walker, and Barbara Molette. MU students have won the prestigious David Library Award seven times, several nationally coveted awards like the Mark Twain Comedy Prize, and departmental productions have been cited for national awards by the Kennedy Center American College Theater Festival, the National Communication Association, and the Association of Theatre in Higher Education. Graduate students in the department have won numerous campus, professional and national awards, fellowships and research grants for their scholarship and artistry.

The department is proud of its legacy of artistic excellence and the enrichment it brings to the cultural life of the campus and community.

Facilities

Rhynsburger Theatre. Named after Donovan Rhynsburger, MU’s principal theatre for dramatic productions is in the Fine Arts Building, which also houses the music and art departments. The 278-seat proscenium theatre has a large stage and fly system with well-equipped costume and scenic shops located adjacent to the stage. The theatre houses faculty offices, classrooms, shops, dressing rooms and other production support spaces.

Students interested in lighting and sound production will find a variety of equipment and modern control systems on which to learn their craft. We’re also thrilled to announce the addition of a new, state-of-the-art professional computer graphics lab in 2012.

Corner Playhouse. The Corner Playhouse provides an opportunity for students and faculty to present smaller, often more experimental productions in a flexible space. Seating up to 125, the theatre is designed to accommodate any stage configuration. Across the street from the Rhynsburger Theatre, the Corner Playhouse also houses dressing rooms, graduate student offices and classrooms.

Satisfactory Progress: General Guidelines for MA and PhD in Theatre

Probationary Status

The following constitute grounds for placing a student on departmental probation:

Earning a grade of C or below in any departmental course taken for graduate credit will result in probationary status. A grade of incomplete in any course will result in probationary status for the subsequent semester.
Incomplete grades must be changed to a grade of A or B by the end of the probationary semester (dissertation research incompletes are evaluated as S/U until the dissertation is defended). Failure to comply in a satisfactory manner with all responsibilities related to graduate assistantships. Graduate students in our department are expected to conduct themselves in a manner reflecting the university’s commitment to professional integrity, collegiality, and good citizenship. Students who consistently fail to conduct themselves in this manner may be subject to probation or dismissal. In the case of each student on departmental probation, the director of graduate studies will confer with the advisor (in the case of an MA student), or the members of the program committee (in the case of a PhD student) to determine the grounds for removal of probation, and will communicate this decision to the student.

**Annual Review**

Each Fall semester the director of graduate studies convenes the Graduate Studies Committee to review the progress and performance of all graduate students.

Each graduate student in residence should meet with his or her advisor within the first two weeks of each semester to determine whether satisfactory progress has been maintained, and the advisor shall report the results of this meeting to the director of graduate studies.

**Losing & Regaining Financial Support**

Termination of departmental financial support will result if the student is considered to be making unsatisfactory progress and the student’s program may be terminated. Departmental financial support may be restored when the student has made satisfactory progress toward a graduate degree for one semester, has made an A or a B in all incomplete courses, and is judged to be off probation by the director of graduate studies.

**Undergraduate**

**BA in Theatre**

**Major Program Requirements**

The major in Theatre consists of core courses and an emphasis area. In addition, all students must complete all College of Arts and Sciences and University graduation requirements, including University General Education (p. 20). All courses used to satisfy requirements for the major must be completed with a grade of C or higher.

carverh@missouri.edu

#### Admission Criteria

http://theatre.missouri.edu/gradprogram/index.html

Deadline: January 15 for the following fall semester admission. We only admit once a year, barring extraordinary circumstances.

- Minimum TOEFL scores:
Form M-1, Application for Degree of Master of Arts to the Graduate School, will advise the student in writing of what must be done to change the probationary admission to regular admission.

**Required Application Materials**

To the Graduate School:

- All required Graduate School documents

To the Theater Program:

- 3 letters of recommendation
- GRE score report
- Statement of purpose
- Scholarly writing sample

**Financial Aid from the Program**

Some programs require an extra form or statement from those who wish to be considered for internal assistantships, fellowships or other funding packages. Check the program Web site or ask the program contact for details.

**Curriculum Requirements**

The degree of Master of Arts in Theatre will be awarded upon completion of the curriculum outlined below with a GPA of 3.0 or better.

**Completed Undergraduate Curriculum**

Most students have completed this course of study before seeking admission to MU. However, applicants holding undergraduate degrees in disciplines other than theatre will be asked to complete those courses, which were not part of their undergraduate curriculum. In some cases professional theatre experience may substitute for certain courses. Twelve courses in the undergraduate curriculum should be distributed as follows:

- Basic skills: at least one course in each of the following: voice and articulation, movement for the stage, script analysis, technical theatre;
- At least one upper-division course in each of the following: acting, directing, dramatic literature, theatre history;
- At least two upper-division courses in technical theatre; and two upper-division theatre electives.

**Graduate Curriculum**

The student must complete at least 24 graduate hours while in residence as a graduate student at MU. The academic program should be established in consultation with an advisor not later than the end of the first full semester of residence. No more than six semester hours of graduate work may be transferred from another university. The student submits Form M-1, Application for Degree of Master of Arts to the Graduate School listing the courses to be taken to complete the graduate curriculum.

**Independent Project**

Each candidate for the MA must complete an independent project, which should be specified on the M-1 form as part of the plan of study.

There are three options:

1. This may be a thesis, for which up to six semester hours of credit in Theatre Research may be earned.
2. Another option is to write an original performance/play, translate a play/performance, or complete a project in acting, design, adaptation/devising, dramaturgy, solo performance or directing. Credit of up to three semester hours may be earned in a graduate problems course.
3. A student may create and successfully execute a research project to earn three semester hours in a graduate course in independent research.

**Satisfactory Progress: General Guidelines for MA in Theatre**

**Probationary Status**

The following constitute grounds for placing a student on departmental probation:

Earning a grade of C or below in any departmental course taken for graduate credit will result in probationary status. A grade of incomplete in any course will result in probationary status for the subsequent semester. Incomplete grades must be changed to a grade of A or B by the end of the probationary semester (dissertation research incompletes are evaluated as S/U until the dissertation is defended). Failure to comply in a satisfactory manner with all responsibilities related to graduate assistantships. Graduate students in our department are expected to conduct themselves in a manner reflecting the university’s commitment to professional integrity, collegiality, and good citizenship. Students who consistently fail to conduct themselves in this manner may be subject to probation or dismissal. In the case of each student on departmental probation, the director of graduate studies will confer with the advisor (in the case of an MA student), or the members of the program committee (in the case of a PhD student) to determine the grounds for removal of probation, and will communicate this decision to the student.

**Annual Review**

Each Fall semester the director of graduate studies convenes the Graduate Studies Committee to review the progress and performance of all graduate students.

Each graduate student in residence should meet with his or her advisor within the first two weeks of each semester to determine whether satisfactory progress has been maintained, and the advisor shall report the results of this meeting to the director of graduate studies.

**Losing & Regaining Financial Support**

Termination of departmental financial support will result if the student is considered to be making unsatisfactory progress and the student’s program may be terminated. Departmental financial support may be restored when the student has made satisfactory progress toward a graduate degree for one semester, has made an A or a B in all
incomplete courses, and is judged to be off probation by the director of graduate studies.

**Master’s Final Examination**

Master’s degree students who have been maintaining satisfactory progress toward a degree for a period of 24 months are expected, barring unusual and extenuating circumstances, to be prepared to write the master’s final examination.

Each candidate for the MA is required to pass a final examination to demonstrate mastery of the fundamental principles of the work included in the course of study. An examining board consisting of at least three members of the faculty shall administer the examination.

In consultation with his or her advisor the student selects four areas for examination from among those listed below:

At least two but no more than three areas may be selected from among:

- Theatre History and Historiography
- Dramatic Literature and Criticism
- Dramatic and Performance Theory
- Performance Studies and Writing for Performance

At least one but no more than two areas must be selected from among:

- History, Theory or Pedagogy of Acting or Directing
- History, Theory or Pedagogy of Dramaturgy
- History, Theory or Pedagogy of Theatrical Design
- History, Theory or Pedagogy of Performance Studies
- History, Theory or Pedagogy of Playwriting/Writing for Performance

**Length of Exam**

Two hours are allotted for answering the question(s) for each area, making a total of eight hours for the examination.

**Notifying the Graduate School of Results**

As soon as the performance on the Master’s Final Examination has been evaluated, the student’s advisor informs the Graduate School, using the appropriate M-form.

If one area examination is unsatisfactory, the examining board will give the student an oral examination on that area, with special emphasis on the questions or questions missed. If two area examinations are unsatisfactory, the student is failed.

**PhD in Theatre**

Director of Graduate Studies
Dr. Heather Carver
129 Fine Arts Building; Columbia, MO 65211
573-882-2021
carverh@missouri.edu

**Admission Criteria**

Deadline: January 15. We only admit once a year, barring extraordinary circumstances.

- Minimum TOEFL scores:
  - Internet-based test (iBT) 112
  - Paper-based test (PBT) 650

- Minimum GRE scores:
  - When did you take the GRE?
    - Prior to August 1, 2011
      - Verbal 600
      - Quantitative 550
      - Analytical 5.0
    - On or After August 1, 2011
      - Verbal 160
      - Quantitative 146
      - Analytical 4.0

- Minimum GPA: 3.0 in the last 60 hours
- GPA of 3.5 or better in master’s program

**Required Application Materials**

To the Graduate School:
All required Graduate School documents

To the Program:
- 3 letters of recommendation
- GRE score report
- Statement of purpose
- Scholarly writing sample
- Professional résumé or portfolio
- Creative (dramatic) writing samples

**Financial Aid from the Program**

Some programs require an extra form or statement from those who wish to be considered for internal assistantships, fellowships or other funding packages. Check the program website or ask the program contact for details.

**Careers**

The doctorate in theatre at MU aims to provide knowledge and research skills necessary to launch the successful student on a career of scholarly and artistic investigation of theatre history, performance theory and criticism, performance studies, playwriting and other modes of writing for performance (such as adaptation and translation), dramaturgy, performance and theatre pedagogy.

**Qualifying Examination**

During the first semester of residence, the student completes a qualifying examination. The Graduate Affairs Committee of the Department of Theatre meets with the student to discuss the student’s academic background, career goals and research interests for an oral review and discussion of their proposed course of study. The adviser submits the D-1 form, Qualifying Process/Confirmation of Advisor, reporting on the departmental qualifying process.

**Advisory Committee: Form D-1**

Doctoral Program Committee asks the graduate dean to approve a committee of four graduate faculty members to help the student plan and
carry out a program. One member of the Doctoral Program Committee must come from outside the Department of Theatre.

**Program Planning**

As early as is practical, usually in the student’s second semester on campus, the student should meet with the Doctoral Program Committee to plan a doctoral program. The student should prepare a trial plan in consultation with the faculty advisor who serves as chair of the Doctoral Program Committee and reports the approved plan of study to the graduate dean on Form D-2: Doctoral Plan of Study.

**Theatre Department Course Work**

Although the Graduate School requires no specific number of hours of class work, the Department of Theatre typically requires students entering the program with a master’s degree to complete about 40 semester hours of graduate level course work in the theatre department, including three semester hours of Dissertation Research, devoted to writing a dissertation prospectus. For more specific information regarding required coursework, see http://theatre.missouri.edu/gradprogram/index.html.

**Doctoral Minor**

The department also requires the student to complete a doctoral minor, a nine-semester-hour unified area of study outside the Department of Theatre.

**Research Tool Options**

The PhD in Theatre also includes a research tool requirement that may be satisfied in several ways:

1. Option One: Present evidence of translation ability in each of two foreign languages in one of the following ways: by receiving an acceptable score on a GFSLT Humanities examination if the language is French, German or Spanish (Acceptable scores at this time are: French 570, German 560 and Spanish 540) by receiving certification of competence from a qualified examiner if other languages are presented by showing on one’s transcript a grade of B or better on a literature course at MU. (This course must require reading of works in the foreign language. The course may be taken during the doctoral program or within the five years prior to beginning the program.)

2. Option Two: Demonstrate a high degree of fluency in one foreign language by individual examination conducted by the appropriate language department at MU.

3. Option Three: Choose one language and one block of courses. Demonstrate translation ability for one language as in Option One. Complete with grades of B or better six semester hours in graduate courses taken outside of the department that represent a coherent unit of study, providing a research tool applicable to the candidate’s dissertation research.

4. Option Four: Choose two blocks of courses. Complete with grades of B or better two blocks of course work of six hours each in graduate level courses taken outside of the department that must represent to the candidate’s advisory committee a coherent unit of study. One or both blocks should provide a research tool for the candidate’s dissertation.

**Participation in Productions**

The doctoral student is encouraged to participate in University Theatre and studio theatre productions and may, in some cases, be required to do so. Academic credit is available.

**Satisfactory Progress Guidelines for the PhD in Theatre**

**Probationary Status**

The following constitute grounds for placing a student on departmental probation:

- Earning a grade of C or below in any departmental course taken for graduate credit will result in probationary status.
- A grade of incomplete in any course will result in probationary status for the subsequent semester. Incomplete grades must be changed to a grade of A or B by the end of the probationary semester (dissertation research incompletes are evaluated as S/U until the dissertation is defended).
- Failure to comply in a satisfactory manner with all responsibilities related to graduate assistantships. Graduate students in our department are expected to conduct themselves in a manner reflecting the university’s commitment to professional integrity, collegiality, and good citizenship.
- Students who consistently fail to conduct themselves in this manner may be subject to probation or dismissal. In the case of each student on departmental probation, the director of graduate studies will confer with the advisor (in the case of an MA student), or the members of the program committee (in the case of a PhD student) to determine the grounds for removal of probation, and will communicate this decision to the student.

**Annual Review**

Each Fall semester the director of graduate studies convenes the Graduate Studies Committee to review the progress and performance of all graduate students.

Each graduate student in residence should meet with his or her advisor within the first two weeks of each semester to determine whether satisfactory progress has been maintained, and the advisor shall report the results of this meeting to the director of graduate studies.

**Losing & Regaining Financial Support**

Termination of departmental financial support will result if the student is considered to be making unsatisfactory progress and the student’s program may be terminated. Departmental financial support may be restored when the student has made satisfactory progress toward a graduate degree for one semester, has made an A or B in all incomplete courses, and is judged to be off probation by the director of graduate studies.

**Satisfactory Progress Before the Comprehensive Exam**

Each semester prior to the semester in which comprehensive examinations are taken, satisfactory progress is maintained when a student completes nine semester hours of graduate level work with a grade of B or above. Incomplete grades are given only under extraordinary circumstances and with the approval of the graduate faculty. Doctoral students who have been maintaining satisfactory
progress toward a degree for a period of 36 months are expected, barring unusual and extenuating circumstances, to be prepared to write comprehensive examinations.

**Satisfactory Progress During and After Comps**

For the semester in which comprehensive examinations are taken and in semesters after comprehensive exams and orals are passed, satisfactory progress is maintained when, in the judgment of the student’s dissertation advisor, the student is making satisfactory progress toward completion of the dissertation.

Students who leave MU having completed all but the dissertation must maintain continuous enrollment by registering for two semester hours of Dissertation Research each fall and spring term and one hour in the summer term. Failure to register negate's a student’s candidacy.

**Graduate School Regulations on Satisfactory Progress**

The Graduate School regulations regarding a reasonable rate of progress for doctoral students enrolled during or after Fall 2000: Effective for students beginning their doctoral studies during or after Fall Semester 2000, a PhD student must successfully complete the comprehensive exam within a period of five years beginning with the first semester of enrollment as a PhD student. For an extension of this time limit, the student must petition the Graduate School by submitting a request to the advisor, who, in turns, submits, via the departmental director of graduate studies, a written recommendation to the Graduate School. The Theatre Department recommends taking comprehensive exams no later than the third year of consecutive full enrollment. Only students who have taken and passed their exams by May of their third year of assistantship will be considered for a fourth year of assistantship with the department.

All requests for extensions should be endorsed by the departmental director of graduate studies and should be accompanied by a description of the process whereby currency in the discipline is certified, if required by the department.

**Dissertation Proposal/Prospectus**

Before comprehensive exams may be scheduled, students will be required to complete a 5-page Dissertation Proposal, concisely but clearly expressing the purpose, justification, method and general organizational plan for the dissertation. A bibliography is also required (bibliography is not included in 5 pp. minimum). The theatre department faculty members on student’s doctoral committee must approve this proposal. After successful completion of comprehensive exams, the student will expand the dissertation proposal into a Dissertation Prospectus — a more detailed and thorough description of the dissertation project. The prospectus should provide a clear statement of the purpose of the dissertation, describe the need for the knowledge the dissertation report will supply, outline the research questions and demonstrate the procedures by which the scholar will answer these questions. The candidate will present the prospectus to the Doctoral Program Committee and will be prepared to defend it.

**Comprehensive Examination**

After completing the research tool option, a substantial amount of the course work and after obtaining the approval of the 5-page proposal from the Doctoral Program Committee, the student takes the comprehensive examination. The comprehensive examination provides an opportunity for the student to demonstrate a thorough grasp of the history and principles of theatre. The examination provides the Doctoral Program Committee with a window looking back upon the student’s training as well as a chance to estimate the student’s potential as a problem solving scholar of theatre. Readers of the examination look for more than a reiteration of the content of standard sources of information about dramatic art. The examinee should demonstrate an ability to analyze problems and data, to formulate theses or points of view, and to locate, evaluate and organize evidence to support a contention—the essential skills of scholarship.

The comprehensive examination in theatre allows candidates not only to tell what they know but also to demonstrate what they can do with information. Comprehensive exams are scheduled once each semester, during the first third of the current semester.

**Stages of the Comprehensive Exam**

The examination is given in two stages.

- **Stage One** consists of a written examination, over the history of theatre, dramatic theory, criticism, writing for performance, performance studies, and theatre pedagogy, and an additional (written) examination consisting of one or two questions posed by the outside member of the Doctoral Program Committee. The examination is evaluated by the student’s Doctoral Program Committee, which decides whether or not the student should be advanced to the oral examination.

- **Stage Two** is the oral examination administered by the Doctoral Program Committee. This examination provides an opportunity for the student to correct, amend, or defend assertions made in the written examination, although the oral examination is not bound by any limits established by the written examination. Ordinarily of two hours duration, the oral is also an opportunity for the student to demonstrate skill in oral explanation and argument.

**Criteria for Passage of the Comprehensive Exam**

The result of the comprehensive examination shall be marked pass if all of the Doctoral Program Committee members recommend a pass on the entire examination, both written and oral sections. Should the examination be marked fail, the committee may recommend that the candidate retake the examination after a minimum period of 12 weeks. A report of the committee’s decision (Form D-3), carrying the signatures of all members of the committee, is sent to the Graduate School and to the student no later than two weeks after the comprehensive examination is terminated.

If a failure is reported, the committee also must include in the report an outline of the general weaknesses or deficiencies of the student’s work. The student and the committee members are encouraged to work together to identify steps the student might take to become fully prepared for the next examination. If at any time the student believes that the advice given by the committee is inadequate, the student may send a written request for clarification to the committee. A copy of this request should be sent to the Graduate School. The committee must respond to this request in writing within two weeks with a copy to the Graduate School. Failure to pass two comprehensive examinations automatically prevents candidacy for the doctorate in theatre at MU.
Completing the Dissertation

The final step is completion and approval of the doctoral dissertation. The director of graduate studies can provide the student a copy of Guidelines for Preparing Theses and Dissertations.

Formatting

Dissertations in the Department of Theatre should be formatted according to the latest edition of A Manual for Writers of Term Papers, Theses, and Dissertations, ed. Kate L. Turabian or the MLA Handbook; the chosen format must meet with the dissertation advisor’s approval.

Graduate School Paperwork

Form D-4, Report of the Doctoral Dissertation Defense, indicates that the student has defended the dissertation at an oral examination.

Advisory and Committee Approval of the Dissertation

No draft of the dissertation can be considered a final draft until the advisor (First Reader) has approved it. All dissertation committee members must have at least 10 days to read the dissertation before the last date for oral examination as published by the Graduate School. Unanimous approval of the dissertation by four committee members constitutes satisfactory completion of this examination.
Additional Minors and Certificates - A&S

Undergraduate Certificates

• Certificate in American Constitutional Democracy (p. 307)
• Certificate in Jazz Studies (p. 308)
• Certificate in Multicultural Studies (p. 308)
• Certificate in Music Entrepreneurship (p. 308)

Undergraduate Minors

• Minor in Aerospace Studies (p. 308)
• Minor in Afro-Romance Literatures in Translation (p. 309)
• Minor in American Constitutional Democracy (p. 309)
• Minor in Astronomy (p. 310)

Certificate in American Constitutional Democracy

For general questions about the certificate, contact:
Justin Dyer, Program Director
573-882-3777
dyerjb@missouri.edu

Political Science Academic Advisor
573-882-2580
politicalscience@missouri.edu

The Certificate in American Constitutional Democracy recognizes students who have completed twelve (12) hours of coursework on the history, theory, and practice of American constitutional self-government. In contrast to the minor, students pursuing the certificate are not required to complete a study abroad course or internship. Note: courses used to satisfy a major requirement may also count toward a certificate. However, students may not receive credit for both the certificate and the minor in American Constitutional Democracy.

Students must maintain a “B” average (3.0 GPA) in all certificate coursework. All coursework must be completed at MU.

Must complete 12 hours from the following courses:

Certificate in Music Entrepreneurship

The Undergraduate Music Entrepreneurship Certificate offers MU

Students an officially recognized core of courses dealing with the
development, business, and publicity aspects of a musical career. In
today’s fine arts economy, an increasingly viable and popular model
is the "portfolio career," in which a person incorporates multiple roles
(e.g., performer, teacher, advocate, manager, publicist, composer/
arranger, etc.) rather than pursuing one narrowly defined career path.
Contextualizing the vision, skills, and networking activities needed to
achieve a viable arts career, while offering a combination of theoretical
and practical career preparation for Mizzou students, is the overarching
aim of the Certificate.

Availability: Aimed primarily at degree-seeking students in music
and music education, this certificate is also available to students in
other majors with a commitment to pursuing a career in the music
industries. All students who wish to declare the certificate must receive
approval from our certificate director, Prof. Jonathan Kuuskoski
(kuuskoskij@missouri.edu).

Total Credits: 12

Certificate in Multicultural Studies

The College of Arts and Sciences offers a Certificate in Multicultural
Studies. Students earning the certificate will become familiar with
multicultural and diversity issues. In an increasingly global environment,
students earning this certificate will be better prepared to understand and
to facilitate cross-cultural interactions in their future careers, as well as in
their general life experiences.

Requirements

Students are required to complete a coherent program of 15 credit hours
from a list of approved courses*. Approved courses for the certificate

Certificate in Jazz Studies

Music Majors (BM, BA Music) and Music Education majors (BSEd) may
earn a Certificate in Jazz Studies by completing this core of courses in
jazz. Approval for admission into the Certificate program must be
received from the Director of Jazz Studies.

A minimum of 12 credits is required, including the following:

<table>
<thead>
<tr>

</tr>
</tbody>
</table>

Additionally, course work must be completed with a grade in the C range or higher in each of the required courses and students must maintain a 2.0 GPA in the minor.

**Minor in American Constitutional Democracy**

For general questions about the minor, contact:

Justin Dyer, Program Director  
573-882-3777  
dyerjb@missouri.edu

Political Science Academic Advisor  
573-882-2580  
politicalscience@missouri.edu

The minor in American Constitutional Democracy is designed for those students who wish to delve more deeply into the American experience with self government, exploring the development of the American state and the intellectual, political, historical, and cultural forces that contributed to this development. The minor is appropriate for students in many majors, particularly political science, economics, history, and journalism.

The minor affords students a unique opportunity to gain a broad perspective on issues of American political development, allowing focus on areas where they may have additional educational requirements not offered in their chosen major field of study. In addition, it contains an “experiential” component that permits students to consider constitutional issues in practice and/or in comparative perspective.

**Minor Requirements**

A minimum of fifteen (15) credits are required for the minor. Students in the minor must maintain a B average (3.0 GPA) for courses in the minor.

A minimum of twelve (12) credits must come from the following courses. At least nine (9) hours must be completed at MU. Additionally, a minimum of three (3) credits must come from an experiential component. The experiential component may be satisfied through participation in either an internship or study abroad program associated with the minor or approved by the director of the minor.

The minor must be completed with courses from at least two (2) subject areas.

### Minor in Canadian Studies

For general questions about the minor, contact:
James Endersby, Program Director
573-882-4238
endersby@missouri.edu

Political Science Academic Advisor
573-882-2580
politicalscience@missouri.edu

A Minor in Canadian Studies allows you to

- participate in Study Abroad programs in Canada
- enhance your degree and career options
- learn about the culture, history, and politics of Canada

With a minor in Canadian Studies, students will be better equipped to deal with political, economic, social, and even cultural issues that will arise vis-a-vis Canada, a close military ally and trading partner. In an era that features the internet, Free Trade, and most importantly, issues of border security and national defense, knowledge of Canada is particularly useful in a number of careers. The Canadian Studies Program is an interdisciplinary program which includes Political Science, Geography, Anthropology, Romance Languages, and Public Affairs. The minor concentration in Canadian Studies will require 15 hours of credits. Courses may be selected from at least two of the disciplines listed below. Any course qualifies for the Minor in Canadian Studies as long as it contains at least one-third content on Canada.

### Minor in Chinese Studies

Students may obtain a minor in Chinese Studies by completing at least 15 credits of Chinese courses. At least nine of these hours must be
completed on campus, or as part of an MU faculty-led study abroad program. At least nine of these credit hours must be earned in Chinese language courses beyond the elementary level. The remaining six hours can be earned in non-language Chinese culture courses, or courses from other departments that relate to China.

**CHINE 2160**  Intermediate Chinese I Conversation and Composition  3
**CHINE 3160**  Intermediate Chinese II Conversation and Composition  3
**CHINE 3180**  Advanced Chinese I  3
**CHINE 3085**  Problems in Chinese  1-3

### Minor in East Asian Studies

**Office of Multidisciplinary Degrees**
114 Switzler Hall
(573)882-6060
https://omd.missouri.edu/?q=eas-minor/index

**Requirements**

- Complete 9 hours related to one cultural group and 6 hours related to a second cultural group. For example, a student can complete 9 hours related to Chinese studies and 6 hours related to Japanese studies.
- The cultural group options are Chinese, Japanese, and Korean.
- At least 6 credits must be numbered 2000 level or above.
- Nine of the required credits must be completed at MU.
- The elementary levels of language (Japanese, Chinese, and/or Korean) may NOT be used to fulfill minor requirements.
- Intermediate-level language courses may be used to meet minor requirements.

### Policies

- Courses used to fulfill major requirements may NOT also fulfill minor requirements, or vice versa.
- Courses outside the major department, but required for the major, may be used to fulfill minor requirements.
- Courses required for the minor may also be used to meet the College of Arts & Science Foundation requirements.
- Minors are only awarded to undergraduate students who are simultaneous recipients of a Bachelor degree.
- Students may not earn a major and a minor in the same field.

For course options see https://omd.missouri.edu/?q=eas-minor/index.

### Faculty for East Asian Studies

**Chinese**

- **Assistant Teaching Professor** Michael Volz
- **Lecturer** Huichung Liang

**Japanese**

- **Assistant Teaching Professor** J. Martin Holman
- **Lecturer** Chieko Kellar

**Korean**

- **Associate Teaching Professor** Seungkwan You

### Minor in French

Students may obtain a French minor by completing a minimum of 15 credits beyond FRENCH 2100, of which at least 6 credits must be in literature. Courses taught in English and cross-listed courses taught in English do not count toward the minor. The courses listed below are the most likely choice.

FRENCH 2160  Intermediate French Composition and Conversation  3
FRENCH 3160  Advanced French Composition and Conversation I  3
or FRENCH 3280  Commercial French  3
FRENCH 3410  Introduction to Literary Analysis  3
FRENCH 3420  Introduction to French Literature I  3
FRENCH 3430  Introduction to French Literature II  3

Students beginning at a level higher than FRENCH 2100 due to placement testing must still complete the minimum of 15 additional credits in order to receive the minor. A minimum of 9 credits, including 3 in literature, must be taken in residence.

Additionally, course work must be completed with a grade in the C range or higher in each of the required courses and students must maintain a 2.0 GPA in the minor.

### Minor in Italian Area Studies

Students may obtain a minor in Italian area studies by completing at least 9 credits in Italian language beyond ITAL 1200, e.g.: ITAL 2160, ITAL 3150 or ITAL 3160. An additional 6 credits must be chosen from the list below:

ITAL 2001/2005  Undergraduate Topics in Italian-General  1-3
ITAL 2310  Italian Civilization  3
A minimum of 15 credits is required, including the following:

- Jazz Minor must be received from the Director of Jazz Studies.
- Auditions required for Jazz Ensembles. Approval for declaration of the courses (students with basic musical knowledge. Hence the prerequisites a minor in jazz. The Minor is not intended for beginners, but for students who have chosen a major in a non-music field may complete courses, or courses from other departments that relate to Japan.

Additionally, course work must be completed with a grade in the C range or higher in each of the required courses and students must maintain a 2.0 GPA in the minor.

**Minor in Japanese Studies**

Students may obtain a minor in Japanese Studies by completing at least 15 credits of Japanese courses. At least nine of these hours must be completed on campus. At least nine of these credit hours must be earned in Japanese language courses beyond the elementary level. The remaining six hours can be earned in non-language Japanese culture courses, or courses from other departments that relate to Japan.

- **JAPNSE 2160** Japanese Conversation and Composition 3
- **JAPNSE 3160** Intermediate Japanese Composition and Conversation 3
- **JAPNSE 3370** Intermediate Readings in Japanese 3
- **JAPNSE 3380** Intermediate Japanese II 3
- **JAPNSE 3085** Problems in Japanese 1-3
- **JAPNSE 4160** Advanced Japanese I 3
- **JAPNSE 4180** Advanced Japanese II 3
- **JAPNSE 2310** Japanese Civilization I 3
- **JAPNSE 2320** Japanese Civilization II 3
- **JAPNSE 2330** The World of Japanese Business 3
- **JAPNSE 3320** Classical Japanese Literature (in translation) 3
- **JAPNSE 3360** Modern Japanese Literature (in Translation) 3
- **JAPNSE 3850** Traditional Japanese Theatre 3
- **JAPNSE 3880** Japan and its Cinema 3
- **JAPNSE 4005** Topics in Japanese - Humanities 1-3
- **JAPNSE 4005H** Topics in Japanese - Humanities - Honors 1-3
- **HIST 1830** Survey of East Asian History 3
- **REL_ST 2310** Religions of China and Japan 3
- **MUS_I_VT 1620** Jazz Piano Class 1
- **MUS_I_VT 4645** Jazz Improvisation 2
- **MUSIC_NM 1311** Jazz, Pop, and Rock 3
- **MUS_ENS 1841** Instrumental Ensemble and Chamber Music (Large Jazz Ensemble & Small Jazz Ensemble) 2
- **MUSIC_NM 2445** Studio Instruction for Non-Majors (Or additional hours in Jazz Ensembles) 3

**Minor in Latin American Studies**

Office of Multidisciplinary Degrees
114 Switzler Hall
(573)882-6060
https://omd.missouri.edu/?q=las-minor/index

This is an interdisciplinary minor which allows students to take courses about Latin America from various departments. Find course options at the link above.

**Requirements**

- Complete 15 credit hours from at least two departments.
- At least 6 credits must be numbered 2000 level or above.
- Nine of the required credits must be completed at MU.
- The elementary levels of language may NOT be used to fulfill minor requirements.
- Intermediate-level language courses may be used to meet minor requirements.
Minor in Leadership and Public Service

The Minor in Leadership and Public Service combines an academic component of courses in leadership, public policy, ethics, and social issues with a strong focus on service-learning, community service, and public service internships.

Consider this minor if you are:
- Interested in a self-crafted minor that provides a framework for your own leadership goals
- Set on developing the skills needed to succeed in both the non-profit sector and government
- Determined to give back on a local, national, and international level
- Looking for an opportunity to set yourself apart from the applicant pool

For more information, contact:
Kirsten Pape
MU Office of Service Learning
208 Lowry Hall
Columbia, MO 65211
573-882-0227
servicelearning@missouri.edu

Minor in Luso-Brazilian Area Studies

Students may obtain a minor in Luso-Brazilian Area Studies by completing at least 9 credits in the Portuguese language beyond Portuguese 1200, e.g. PORT 2160, PORT 3160, and PORT 4960.

An additional 6 credits may be chosen from the following list:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>PORT 2310</td>
<td>Brazilian Civilization</td>
<td>3</td>
</tr>
<tr>
<td>PORT 3001/3005</td>
<td>Topics in Portuguese-General</td>
<td>1-3</td>
</tr>
<tr>
<td>PORT 3420</td>
<td>Survey of Brazilian Literature</td>
<td>3</td>
</tr>
<tr>
<td>PORT 3875</td>
<td>Brazilian Cinema</td>
<td>3</td>
</tr>
<tr>
<td>SPAN 2330</td>
<td>Latin American Civilization</td>
<td>3</td>
</tr>
</tbody>
</table>

Luso-Brazilian culture/topics emphasis courses offered by other programs/departments (e.g. Anthropology, History, Music, Political Science).

 Normally 9 credits must be completed in residence at MU. However, students are permitted to count 6 credits toward the minor from an officially sanctioned semester or year-long foreign study program in Brazil or Portugal. These include the MU in Rio de Janeiro program at the Pontificia Universidade Catolica and the CIEE Universidad Nova de Lisboa program.

Additionally, course work must be completed with a grade in the C range or higher in each of the required courses and students must maintain a minimum GPA of 2.0 in the minor.

Minor in Medieval and Renaissance Studies

Think dead languages, medieval literature, and old castles are cool? Love your Shakespeare or Art History class and interested in learning more about the Middle Ages or the Renaissance? Then explore the possibility of a MARS undergraduate minor, in which students do coursework on medieval and Renaissance topics, receiving outstanding instruction from faculty in up to eleven different academic departments. For students interested in medieval and Renaissance history, art, literatures, religion, music, languages, and culture, the MARS minor offers the possibility of furthering interests while studying more broadly towards your major. Meet others interested in the same things as you, incorporate classwork you’ve already done, and learn new things about the Middle Ages and Renaissance, all while showing prospective employers or graduate schools the depth of your study with an official minor in MARS!

Requirements

- A minimum of fifteen (15) hours of approved coursework (see list below) in different departments outside the student’s major department.
- At least nine (9) hours of the fifteen must be in courses numbered 2000 or above.
- At least three (3) hours of the fifteen must be taken in a course numbered 3000 or above.
- A minimum of nine (9) hours must be taken in residence.
- A minimum GPA of 2.0 is required in all courses in the minor.
- Only one course from Classics may count towards the minor.
- Students may specialize in either medieval or Renaissance, but must take at least one course in both.

Students and their advisors may petition the Chair of MARS (Dr. Emma Lipton, English) to have coursework with relevant content counted. Students may count courses toward the minor that are also used to fulfill general education requirements in the College of Arts and Science. Many upper-level courses in European languages and literatures may be used to fulfill the minor requirements.

Departments keep a list of courses approved for the MARS minor on file for advisors. For a full description of the minor, including a list of all courses currently counted toward the minor, go to Medieval and Renaissance Studies (http://medren.missouri.edu/undergrad.shtml).

Minor in Military Science

With departmental approval, students may earn a minor in military science and leadership by successfully completing the following courses:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>MIL_SC 3230</td>
<td>Leadership and Problem Solving</td>
<td>3</td>
</tr>
<tr>
<td>MIL_SC 3240</td>
<td>Leadership and Ethics</td>
<td>3</td>
</tr>
<tr>
<td>MIL_SC 3250</td>
<td>Leadership and Management</td>
<td>3</td>
</tr>
<tr>
<td>MIL_SC 3260</td>
<td>Officership</td>
<td>3</td>
</tr>
</tbody>
</table>

Additionally, students must complete an approved course in American military history.

Minor in Peace Studies

A minor in peace studies requires a minimum of 15 credits. PEA_ST 1050 Introduction to Peace Studies is required, plus 12 additional credits. Online writing intensive versions of 1050 are available. It is recommended that the credits be distributed among the five areas on the following list:

Area 1: International and Civil War and Peace

<table>
<thead>
<tr>

</tbody>
</table>
Minor in Romance Literatures in Translation

To obtain a minor in Romance Literatures in Translation, students must complete the basic language sequence shown below.

SPAN 1100 Elementary Spanish I 13
& SPAN 1200 and Elementary Spanish II
& SPAN 2100 and Elementary Spanish III
or FRENCH 1100 Elementary French I
& FRENCH 1200 and Elementary French II
& FRENCH 2100 and Elementary French III

ITAL 1100 Elementary Italian I 10-12
& ITAL 1200 and Elementary Italian II
& PORT 1100 Elementary Portuguese I
& PORT 1200 and Elementary Portuguese II

Students must also complete three 2000-level literature-in-translation courses and two 3000-level literature-in-translation courses (one of which must be either ITAL 3310 or PORT 3001) chosen from the list below:

FRENCH 2320 French Literature and Thought in English Translation I 3
FRENCH 2330 French Literature in Translation II 3
FRENCH 2350 New World Francophone Literature in Translation 3
FRENCH 2370 French Women Writers (in translation) 3
ITAL 2850 Italian Cinema 3
ITAL 3310 20th Century Italian Fiction in Translation 3
ITAL 3820 Films of Federico Fellini 3
PORT 3001/3005 Topics in Portuguese-General 1-3
SPAN 2320 Literature of Spanish Civil War 3
SPAN 2340 Hispanic Minority Literature 3

Additionally, course work must be completed with a grade in the C range or higher in each of the required courses and students must maintain a 2.0 GPA in the minor.

Minor in South Asian Studies

The South Asian Studies minor is a course of study that allows a student to acquire specialized knowledge about South Asia in a variety of disciplines, e.g., anthropology, history, philosophy, religious studies, political science, sociology, women and gender studies and language studies.

To obtain a minor in South Asian Studies, a student must:

- Complete 15 hours of coursework relating to South Asia. The courses approved for the South Asian Studies minor are listed at http://southasia.missouri.edu/minor.html.
- At least nine of the 15 hours must be at the 2000 level or above.
- A student is required to take courses in two or more departments.
- A minimum of six hours must be taken in residence.
- A grade of C or better is required for all courses counting toward the South Asian Studies minor.

A minor in South Asian studies can easily be combined with a major in anthropology, philosophy, history, religious studies, political science, geography, journalism, sociology, women & gender studies, etc.
Minor in Spanish

Students may obtain a Spanish minor by completing a minimum of 15 credits beyond SPAN 2100, of which at least 6 credits must be in literature. Courses taught in English and cross-listed courses taught in English do not count toward the minor. The courses listed below are the most likely choice.

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>SPAN 2160</td>
<td>Intermediate Spanish Composition and Conversation</td>
<td>3</td>
</tr>
<tr>
<td>SPAN 3150</td>
<td>Advanced Spanish Conversation</td>
<td>3</td>
</tr>
<tr>
<td>or SPAN 3721</td>
<td>Spanish Phonetics</td>
<td>3</td>
</tr>
<tr>
<td>SPAN 3160</td>
<td>Advanced Spanish Composition</td>
<td>3</td>
</tr>
<tr>
<td>or SPAN 3280</td>
<td>Commercial Spanish</td>
<td>3</td>
</tr>
<tr>
<td>SPAN 3420</td>
<td>Introduction to Hispanic Literature I</td>
<td>3</td>
</tr>
<tr>
<td>SPAN 3430</td>
<td>Introduction to Hispanic Literature II</td>
<td>3</td>
</tr>
</tbody>
</table>

Students beginning at a level higher than SPAN 2160 due to placement testing must still complete the minimum of 15 additional credits to receive the minor. A minimum of 9 credits, including 3 in literature, must be taken in residence.

Additionally, course work must be completed with a grade in the C range or higher in each of the required courses and students must maintain a 2.0 GPA in the minor.

Minor in Strategic Studies

For general questions about the minor, contact:
Stephen Quackenbush, Program Director
573-882-2082
quackenbushs@missouri.edu

Political Science Academic Advisor
573-882-2580
politicalscience@missouri.edu

The minor in Strategic Studies is designed for those students who wish to acquire the knowledge and analytical skills that are critical for working in a career field related to national security. The minor is appropriate for students of almost any major, particularly political science, economics, history, geography, journalism, and engineering. The program is also well suited for students in Army, Navy, or Air Force ROTC, providing a solid background for officers encountering the changing strategic environment of the twenty-first century.

The program affords students a unique opportunity to gain a broad perspective on security issues, allowing focus on areas where they may have additional educational requirements not offered in their chosen major field of study. Students may work for the defense department, national intelligence agencies, or other federal agencies, or any number of jobs related to security in the private and non-profit sectors.

Fifteen (15) credits are required for the minor in strategic studies, selected from the list below. Of these, six hours must be from political science, and three hours must be from military science. Students in the minor must maintain a B average (3.0 GPA) for courses in the minor.

Select from the courses below

</table>

As part of the program, new courses are being developed in areas such as coercive diplomacy and human security.

Minor in Women's and Gender Studies

A Women's and Gender Studies minor can be a component of any undergraduate degree granted at MU.

The curriculum includes women's and gender studies core courses as well as cross-listed courses from several departments throughout the University. These courses assume that knowledge cannot be separated from the study of women and gender, and that gender and sexuality are fundamental categories of analysis in all disciplines. The department stresses interdisciplinary scholarship and teaching that are broadly comparative and range across multiple cultures, national and transnational contexts, and historical periods. Its faculty employ a broad range of theoretical approaches and methods.

When students graduate with a Women's and Gender Studies minor they should be able to:

- Apply cross-cultural and global awareness to "big questions" about women and gender
- Have a comprehensive grasp of intersectionality and matrices of domination
- Think critically: i.e. consider an issue from multiple perspectives; locate, evaluate and interpret diverse sources, including statistics; engage in critical self-reflection
- Construct arguments with evidence obtained from research
- Work collaboratively
- Recognize sexist/racist writing and thinking
- Connect knowledge and experience, theory and activism, Women’s and Gender Studies materials with other courses
- Communicate effectively in writing and speech
- Apply knowledge for social transformation, citizenship
- Use gender (and other identity categories) as a category/ies for analysis

A student minoring in Women’s and Gender Studies is required to fulfill all requirements for their major degree program, and in addition complete at least 15 credits of Women’s and Gender Studies courses, including:

<table>

Graduate Certificate in Geospatial Intelligence

The page for this program is still under construction and should be available in future editions of the catalog. For further information concerning this degree, contact the School or College offering this degree.

For admission requirements, refer to the Graduate School’s website for the minimum qualifications for the degree program (http://gradschool.missouri.edu/academics/programs) and the Graduate School (http://gradschool.missouri.edu/admissions/eligibility-process/minimum-requirements.php). Because requirements vary, you must refer to a degree program’s graduate admission page to learn about specific admission criteria, application deadlines, eligibility, and application process. Before official admissions to the University of Missouri, your application materials will be reviewed by both the Graduate School and the degree program to which you’ve applied.

Graduate Certificate in Jazz Studies

The Graduate Certificate in Jazz Studies is a one-year program that provides opportunities for continued development of skills in jazz-specific areas, such as improvisation, pedagogy, and arranging. The certificate is available to degree-seeking and non-degree seeking students alike, non-music as well as music majors, and is designed as an intensive introduction to jazz performance. The program will deepen the student’s preparation for a career in jazz performance or prepare the student for further study in jazz.

Federal Gainful Employment disclosure information for this Graduate Certificate is available at http://gradschool.missouri.edu/academics/programs/jazz-studies-certificate/jazz-studies-ge/Gedt.html

Prerequisites:

Entrance into the Graduate Certificate program requires a live audition (see below), though video-recorded auditions will be acceptable in rare cases, by permission of the Director of Jazz Studies. Entrance into the program also requires completion of a Bachelor of Music degree (or demonstrated equivalent), with a GPA of 3.0 in the last 60 credit hours. In the event that a candidate does not meet the required prerequisites for a specific curriculum, appropriate course(s) may be added as additional requirements.

Graduate Certificate in Lifespan Development

Dr. Nicole Campione-Barr, Coordinator
Lifespan Development Graduate Certificate Program
204D McAlester Hall
e-mail: campionebarrn@missouri.edu
phone: 884-1681

About the Certificate (Educational Objective)

Developmental psychology and lifespan developmental studies include the scientific study of psychological changes that occur over the life course. Therefore, developmental studies are inherently interested in many of the same questions of other areas of psychology, education, family studies, etc., but by investigating the ways in which particular psychological processes change and develop from infancy to adolescence, and through to adulthood. The purpose of the graduate certificate in lifespan development is to provide students in other areas of psychological study, or human behavior broadly defined, a better understanding of the ways in which psychological functions change with age, as well as the challenges and special considerations that are a part of research with children and adolescents and how they may be different from those of working with adults.

Plan of Study

The requirements for acceptance and completion of work for the certificate are as follows:

1) The student must be enrolled and in good standing in a doctoral-level program at MU (available to degree-seeking students only).

2) A request to be included in the certificate program must be made in advance of final completion of courses to Nicole Campione-Barr, PhD. This can be done via e-mail or hard copy, however, the request must also be approved by the student’s major advisor.

3) A formal plan of study must be submitted to the Graduate School no later than the semester prior to graduation. This must be signed by the certificate coordinator (Nicole Campione-Barr) and the director of graduate studies of the student’s major department.

4) Students must complete a minimum of 15 credit hours to be awarded the certificate, following the below guidelines:

Core Courses: students are required to take 3 core courses

Graduate Certificate in Music Entrepreneurship

The Graduate Music Entrepreneurship Certificate offers MU graduate students, as well as post-baccalaureate students in the MU community, an officially recognized core of courses dealing with the development, business, and publicity aspects of a musical career. In today’s fine arts economy, an increasingly viable and popular model is the “portfolio career,” in which a person incorporates multiple roles (e.g. performer, teacher, advocate, manager, publicist, composer/arranger, etc.) rather than pursuing one narrowly defined career path. Contextualizing the vision, skills, and networking activities needed to achieve a viable arts career, while offering a combination of theoretical and practical career preparation for Mizzou students, is the overarching aim of the Certificate.

Availability: Aimed primarily at degree-seeking students in music and music education, this certificate would be also be available to students as an add-on to a degree or as a stand-alone certificate. All students who wish to declare the certificate must receive approval from our certificate director, Prof. Jonathan Kuuskoski (kuuskoski@missouri.edu).

Required Courses

MUS_GENL 7510 Career Development for Musicians 2
MUS_GENL 7512 Principles of Entrepreneurship for Musicians 1
MUS_GENL 7514 Arts Marketing for Musicians 1
builds upon existing concepts, theories, and approaches to the study of the evolving experiences and contributions of the African Diaspora. In so doing, Black Studies prepares students to participate competently in diverse and competitive global societies where they may contribute viable practical solutions to critical challenges on multiple levels.

**Affiliates of the Black Studies**

The Department of Black Studies encourages the use of diverse curricular offerings throughout many different departments. Faculty members and affiliates of the department design new ways to incorporate topics of Black Studies in their courses. Departments affiliating with Black Studies include art, educational leadership and policy analysis, English, history, human development and family studies, journalism, law, music, political science, religious studies, romance languages, sociology, theatre, and women and gender studies.

**Resources**

The Walter Daniel Resource Center is supported by an endowment set up by the estate of the late Dr. Walter C. Daniel. Dr. Daniel came to the University of Missouri in 1973 as its first vice chancellor. He was instrumental in helping to reorganize the University's administration. However, his success as an administrator never overshadowed his love of teaching and working with students. Located in 328 Gentry Hall, the books, periodicals, reference materials and media resources in this center will supplement and complement existing university resources on the histories, cultures, and societies of people of African descent in Africa, the U.S., and throughout the Diaspora available to the University community. Additionally, the center houses Dr. Daniel’s extensive private library of African American literature, as well as an extensive collection of primary and secondary sources including numerous periodicals and scholarly journals. The library also offers a small video collection which can be viewed on site. At the present time the library is a read-only research facility.

**Plan of Study**

An individual program of specialization in Black Studies may be arranged within the framework of a conventional graduate degree in any one of several fields. The options within a regular degree program are employed to include maximum exposure to courses emphasizing the diverse histories, cultures, and societies of people of African descent in Africa, the U.S., and throughout the Black Diaspora. Courses outside the major department, but in related fields, are incorporated into the student’s study plan. Students interested in pursuing a Black Studies specialty within their chosen fields should consult a departmental advisor, who is an affiliate of the Department of Black Studies, to assist in course selection. Lacking such an advisor, students should contact the Chair of the Department of Black Studies for assistance or send an email to Mary Beth Brown (bromary@missouri.edu) in the Department of Black Studies.

**Graduate Minor in Black Studies**

The central mission of Black Studies is to prepare students to critically understand, conduct research, and interpret the complex histories, societies, and cultures of people of African descent in the United States, Africa and the Diaspora.

The Department’s interdisciplinary design encourages specialization within the University of Missouri’s broad liberal arts curriculum. As a result, students and faculty may conduct research that develops new or builds upon existing concepts, theories, and approaches to the study of

**About the Department of Black Studies**

Considering a graduate MARS minor? While most students still choose to study in a traditional disciplinary framework, a MARS minor allows students to expand the breadth of their studies and research by taking coursework in over 11 different departments on campus. So much of the research on the Middle Ages and the Renaissance is interdisciplinary in nature, and the MARS minor helps students gain expertise in areas outside of their home discipline while simultaneously offering a quick
and comprehensive way for prospective employers to understand their specialization and background.

Requirements: Courses that may be applied toward this minor are taught by faculty members from the departments of Art History and Archaeology, Classical Studies, English, Germanic and Russian Studies, History, Music, Philosophy, Religious Studies, and Romance Languages and Literatures. Under certain circumstances, a minor in Medieval or Renaissance studies may also be arranged for MA programs. A student must be accepted for advisement by the major department. Then, in consultation with the major advisor, who must be a specialist in the medieval or Renaissance period, an interdisciplinary curriculum for the minor is prepared and submitted to the Medieval and Renaissance Studies Committee for approval.

- A doctoral candidate in one of these departments offering a PhD may elect a minor concentration in interdisciplinary Medieval or Renaissance Studies by taking at least three appropriate courses outside the department, as well as all appropriate ones within it. Thus one earns, for example, a PhD in Art History and Archaeology with specialization in Medieval Studies, or a PhD in History with specialization in Renaissance Studies.
- At least nine (9) hours in relevant 7000 or 8000 level courses outside the major department are required to constitute the minor.
- Because the program places considerable emphasis on foreign languages, all doctoral candidates must study at least two languages.

Perks:
- The Newberry Library Center for Renaissance Studies consortium
- MU graduate Association for Medieval and Renaissance studies
- Renaissance reading group
- A listserv announcing campus-related activities for MARS members

For more information contact:
Dr. Emma Lipton
Chair of MARS
liptone@missouri.edu

Graduate Minor in Museum Studies

This minor, offered by the Museum of Art and Archaeology and the Department of Art History and Archaeology, provides students with a systematic introduction to the history, philosophy, and role of museums. The program blends academic theory with practical experience to provide students with an opportunity to build a foundation applicable for work in either university or public museums.

Curriculum: The program comprises six courses designed to introduce students to the history and role of museums in society; to the philosophical, legal and administrative issues that face the modern museum; and to the exhibition and preservation skills required of a museum curator. The emphasis of the program is on museum management, curatorial responsibilities (collections management and exhibition) and educational interpretation. Internships and field trips to local museums provide additional insight into the world of museum professionals.

- Individual courses are listed under the Department of Art History and Archaeology. Successful completion of the program is accomplished through 12 credit hours of required course work, including AR_H_A 7130, AR_H_A 8130 and AR_H_A 7980, and is recognized when the student successfully completes an M.A. in his or her academic field of study. An individual’s course of study will be arranged with the program director.
- The minimum period required to complete the minor is four semesters, or three semesters and one summer. Courses are open to advanced undergraduate students, but admission to the program is open only to those who have completed a BA degree.

Admissions: Students who undertake the museum studies minor are normally already enrolled as graduate students in degree-granting academic departments. Students should apply at the beginning of the fall semester to the Director of Graduate Studies, 109 Pickard Hall, for admission to the program.

Graduate Minor in Psychological Statistics and Methods

The Minor in Psychological Statistics and Methods is a joint program between the Department of Psychological Sciences and the Department of Statistics.

A total of seven courses at the 7000 level or above in statistics and methods is required. The course options are dependent on the doctoral program in which the student is admitted. More detailed specification of the courses required in the plan of study may be stipulated by the student’s major department and the student should consult with them in this regard.

Doctoral students in the Department of Psychological Sciences or Statistics must take at least two of the seven required courses outside their major department.

A grade of B or better is required in the following courses:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>PSYCH 9710</td>
<td>Multivariate Statistics in Psychology</td>
<td>3</td>
</tr>
<tr>
<td>PSYCH 9720</td>
<td>Latent Variable Models in Statistical Analysis</td>
<td>3</td>
</tr>
<tr>
<td>PSYCH 9715</td>
<td>Multilevel Modeling</td>
<td>3</td>
</tr>
</tbody>
</table>

Quantitative Psychology - one of the following is required:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>PSYCH 9520</td>
<td>Psychometrics</td>
<td>3</td>
</tr>
<tr>
<td>PSYCH 9725</td>
<td>The Literature Review</td>
<td>3</td>
</tr>
<tr>
<td>PSYCH 9750</td>
<td>Advanced Structural Equation Modeling</td>
<td>3</td>
</tr>
<tr>
<td>PSYCH 9760</td>
<td>Categorical Data Analysis</td>
<td>3</td>
</tr>
<tr>
<td>PSYCH 9735</td>
<td>Psychological Process Models</td>
<td>3</td>
</tr>
</tbody>
</table>

Two approved courses at the 7000 level or above in the Department of Statistics, Mathematics, or in other departments provided those courses are primarily statistics-oriented or methods-oriented. *

* The following courses cannot be used to fulfill minor requirements:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>STAT 7050</td>
<td></td>
<td></td>
</tr>
<tr>
<td>STAT 7510</td>

<td></td>
</tr>
<tr>
<td>STAT 7530</td>
<td></td>
<td></td>
</tr>
<tr>
<td>STAT 7560</td>
<td></td>
<td></td>
</tr>
<tr>
<td>STAT 4970</td>
<td></td>
<td></td>
</tr>
<tr>
<td>STAT 7070</td>
<td></td>
<td></td>
</tr>
<tr>
<td>STAT 8220</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

Doctoral students in other departments must take five courses within the Department of Psychological Sciences or the Department of Statistics, at least two of which are in statistics and two of which are in psychology.

Questions regarding the minor in Psychological Statistics and Methods should be directed to:

(573) 882-2703

Eligibility for Minor

The Women’s and Gender Studies Graduate Minor is available to all students pursuing a graduate degree at MU.

Plan of Study

15 credit hours will be chosen to complement the student’s main area of graduate study. Students may take up to six hours in their home department. Students will gain expertise in the methodologies and theories in Women’s and Gender Studies.

The minor requires the following six credit hours:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Credit Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>WGST 8020</td>
<td>Graduate Feminist Theory</td>

The Robert J. Trulaske Sr., College of Business, established in 1914, educates students for professional opportunities and responsibilities in the private and public sectors. The college includes the School of Accountancy (the first established at a major public university) and the departments of Finance, Management and Marketing. The college offers an undergraduate degree in business administration, a combined bachelor’s and master’s degree program in accountancy, master’s degrees in business administration, and doctoral degrees in accountancy and business.

Students’ educational experiences are enhanced through the scholarly activities of the faculty, who conduct research on significant, timely issues. Students in the college are exposed to relevant theories and concepts applied to real-world operations of private and public enterprises. Students gain added practical insights through internships, field projects, guest speakers and executives-in-residence. The college’s agencies provide information, research, continuing education and managerial assistance to practitioners and organizations throughout Missouri and in other states.

The Trulaske College of Business accepts CLEP subject examinations, departmental exams and Advanced Placement (College Board) credit. More information may be obtained from academic advisors in the undergraduate Trulaske College of Business and the Credit by Examination section in the beginning of this catalog.

Department of Finance

Through the study of finance, students learn to independently analyze security markets, understand the basic valuation techniques and use their knowledge to make investment decisions. In addition, students learn basic theoretical concepts in corporate finance and their application to corporate financing and investment decisions. Course work focuses on the areas of investments, portfolio management, real estate appraisal, financial institutions and corporate finance.

Department of Management

Management is defined by the Academy of Management as including “all processes, structures, and behaviors that are related to the work of organizations, as well as the dynamics of industries, economies, cultures, and other environmental forces that affect organizations and their employees.” Management course work at MU is quite diverse, covering the areas of human resource management, human behavior in organizations, organization theory, strategic management, entrepreneurship, information systems, e-commerce, operations management and business law.

Department of Marketing

Marketing focuses on creating and managing customers. It deals with the strategies, tactics and business processes involved in researching markets, deciding which markets and segments to pursue, identifying what unique value to provide, and then assembling the products, services, people and partner firms needed to build, communicate and deliver that value.

Exploratory Course

Students wanting to explore business administration as a major should take MANGMT 1010 Contemporary Business Practices.

Double Emphasis

Students may have a dual emphasis of Finance and Real Estate, or may add on an economics emphasis to any other BSBA emphasis program.

Undergraduate

• Admissions (p. 321)
• Degree core Requirements (p. 322)
• Academic Regulations (p. 322)
• Enrolling in Other Institutions (p. 323)
• Advising (p. 323)
• Business Career Services (p. 323)
• Professional Development Programs (p. 322)

Admissions

Freshmen

Freshman applicants to the Robert J. Trulaske Sr., College of Business (students applying to MU from high school) will be admitted to the lower division if they meet campus admission requirements. Admission to the lower division does not guarantee admission to the BSBA degree program and emphasis areas or the Accountancy program. Admission to an upper-level emphasis area is based on the UM cumulative grade record (minimum 2.6 GPA), successful completion of the business and professional core courses, and completion of the Professional Development requirements.

Transfer Students

Students in good standing in another school or college at MU must submit a Transfer of Division form to the Trulaske College of Business. Such students may be admitted to the lower division if they can complete degree-program admission requirements by the completion of 60 credits (60 credits for Accountancy students).

External transfer students who request admission to the Trulaske College of Business will be admitted to the lower division if they can complete degree-program admission requirements by the completion of 60 credits. Students are encouraged to have their transcripts evaluated by an academic advisor in the Trulaske College of Business prior to their enrollment at MU.

Course work completed with a grade of D- or better at an accredited two- or four-year institution will be accepted if the courses are appropriate equivalents of the required MU courses and if the equivalent MU courses
do not require a grade in the C range. Only six hours of business course work at the 3000-level can be transferred for the degree requirements. The college does not accept developmental or vocational/technical course work.

Credits transferred from accredited community or junior colleges usually include general education, upper level or pre-accountancy admission requirements and unrestricted elective courses. The Trulaske College of Business accepts a maximum of 64 credits from a community or junior college toward the bachelor’s degree. When more than 64 credits have been completed, the additional courses are evaluated on a course-by-course basis for applicability to lower-division requirements.

A student holding an associate of arts degree from an accredited Missouri Community College will have fulfilled general education requirements (p. 20). However, this does not exempt the student from satisfying the specialized degree, major or emphasis prerequisites of the college in the areas of accounting, economics, math and statistics.

Students transferring to the college without an associate of arts degree will have their transcripts evaluated on a course-by-course basis and must meet the entrance requirements of the college in the same way as other MU students. Students transferring to the Trulaske College of Business will be required to meet the Professional Development requirements based on the earliest semester of continuous enrollment in college after high school graduation.

**Probationary Admissions**

Students are placed on academic probation if they are admitted to the college without fully meeting the good-standing requirements of the school. (See the section on Probation Suspension and Dismissal (p. 322) for these requirements.)

**Degree Core Requirements**

**Credit Hour Requirements**

In addition to University general education (p. 20) and graduation requirements, students must meet the following requirements:

- Students must complete a minimum of 120 credits from accredited colleges or universities for all BSBA emphasis areas except International Business, which requires 136-141 credits. (See separate section for international business major requirements.) Additionally, the joint BSAcc and the MAcc degree program requires students to complete a minimum of 150 credit hours.
- In completing the 120 credits for graduation, students may count no more than 30 credits within their emphasis area.

A student who has a degree in another curricular area may receive a Bachelor of Science in Business Administration degree upon completion of all requirements for the degree.

**Professional Development Program**

In addition to completing required coursework to earn a Bachelor of Science, Business Administration degree, students must fulfill the requirements of the Professional Development Program (PDP). The goal of the PDP is to offer opportunities to all BS BA and Accountancy students to develop core competencies and values necessary for success in their professional careers.

As a graduation requirement, the program is comprised of the following:

- Completion of designated professional activities to acquire points for admission to the upper division. Once admitted to the upper division, students will continue to earn points to meet the graduation requirements. Specific activities may be required.
  - Completion of BUS_AD 3500 the semester immediately following admission to the upper division. This course is a pre-requisite to the completion of the required BUS_AD 4500. These two courses may not be taken out of sequence without prior approval. BUS_AD 3500 must be completed in residence.
  - Completion of BUS_AD 4500 once admitted to the upper division. This will include completion of a professional level internship/practicum experience. Practicums can be completed over a summer or semester-long period of time (intercession assignments will not meet the PDP requirement). Students must seek final approval of their internship/practicum experience from the PDP Office before beginning the assignment. BUS_AD 4500 must be completed in residence.

If a student fails to meet the requirements of the PDP at either the lower or upper division, the student will not be allowed to continue in or graduate from the Trulaske College of Business.

**Professional Development Graduation Requirement**

- The student must earn a minimum of 70 PDP points (maximum of 100) at the lower division for official admittance to the upper division. Once admitted, students must earn a total of 200 PDP points to meet the requirement. Specific activities and workshops may be required.
- The student must earn a C- (or higher) in BUS_AD 3500 to satisfy the requirement.
- BUS_AD 4500 is graded as Satisfactory/Unsatisfactory. Students must complete practicum course to a satisfactory level of 70% or greater to receive a passing grade for the course.

**Capstone**

Students must complete MNGMT 4970 Strategic Management to meet the capstone requirement. Students must earn a C- or better to earn credit for this course in order to graduate.

**Required Work in Residence**

Students must complete 30 of the last 36 hours of courses in residence at MU, enrolled in the Trulaske College of Business.

**Latin Honors**

Graduation with Latin Honors is determined by grade point average from either the last 50 undergraduate credits in the UM system or overall UM System undergraduate credits, whichever is higher. Grade point average requirements for Latin Honors are 3.5 for cum laude; 3.7 for magna cum laude and 3.9 for summa cum laude.

**Academic Assessment**

Students are required to complete a college-wide assessment exam in addition to a University assessment exam during their capstone course.

**Academic Regulations**

**Credits by Examination**

The Trulaske College of Business accepts CLEP subject examinations, departmental exams and advanced placement (College Board) credit. More information may be obtained from academic advisors in the Trulaske College of Business and the Credit by Examinations section (p. 756).
Maximum Credits Enrolled
A student may register for more than 18 credits for a fall or spring term, with permission of their academic advisor in the Trulaske College of Business.

Probation, Suspension and Dismissal

Grade Point Average Requirements
Minimum GPAs must be maintained in the following categories to remain in good standing with the Trulaske College of Business:

- Students in the Upper Level for Business must maintain a 2.50 GPA in all MU accounting and business courses. Students in the Upper Level Accountancy, must maintain a 3.0 GPA in order to graduate.
- All students must earn a 2.00 term and cumulative GPA on courses completed in the UM System.

Probation
See the Academic Standing (p. 756) section of this catalog.

- A student in good academic standing whose term GPA subsequently falls below 2.0 but is 1.0 or above (0.5 or above for a first term Freshman) is placed on academic probation.
- A student whose cumulative GPA for courses offered by the Trulaske College of Business is below a 2.0 is placed on probation. (Courses offered by the college are those with the curricular designations of ACCTCY, BUS AD, ECONOM, FINANC, MANGMT and MRKTNG.) This only applies to students admitted to an upper level BSBA emphasis.
- A student placed on academic probation must establish a 2.0 term GPA, a 2.0 UM System cumulative GPA and a 2.0 MU Trulaske College of Business cumulative GPA within two successive terms of enrollment; otherwise, the student is ineligible to enroll.
- Students placed on probation may become ineligible to enroll in the Trulaske College of Business at the end of the first term of probation if they become subject to one or more of the first three dismissal provisions below.

Dismissal
See University requirements outlined in the Academic Standing (p. 756) section of this catalog.

Students become ineligible (dismissed) to enroll in the Trulaske College of Business if one or more of the following occurs:

- The fall or spring term GPA falls below 1.0.
- For a student who has been admitted to upper level, the cumulative GPA for courses offered by the Trulaske College of Business is below a 2.0 GPA. This includes all MU accountancy and business courses regardless of whether the courses are completed before or after admission to a BSBA emphasis area.
- The student fails to remove probationary status at the completion of the second successive term on probation (summer terms excluded).

A student who has been ineligible to enroll for a period of one year may be readmitted only on the approval of the Director of Undergraduate Advising. As a condition of readmission, the director may set forth stipulations about minimum standards of academic work that must be maintained by the student. After readmission, if the student again becomes ineligible to enroll, his or her ineligibility is considered permanent.

Satisfactory/Unsatisfactory Grades
The S/U grading system is limited to unrestricted elective courses or courses only offered with a S/U grade.

Enrolling in Other Institutions
The Trulaske College of Business has no restrictions on a student enrolling in another institution simultaneously as long as university residency requirements are met.

A student may take no more than six credit hours of transfer business course work at the 3000-level or higher.

Advising
Academic Advising Contact
Undergraduate Advising Office
111 Cornell Hall
(573) 882-7073
businessadvising@missouri.edu

Students admitted to a degree program in the college are assigned an academic advisor. The academic advisor works with students in determining course work needed to complete a degree. In addition, students are assigned a faculty advisor in their emphasis area who can assist with career planning and selection of professional electives and emphasis support courses. Students are responsible for determining an appropriate schedule of courses each semester and are encouraged to meet with their academic advisor for assistance.

Business Career Services
Business Career Services (BCS) is a valuable resource for all levels of TCoB students. BCS provides students individual career coaching, guidance and advice in areas such as résumé and cover letter construction/revision, mock interviews, interview preparation, salary negotiations, and much more. Business Career Services partners with numerous companies serving as a liaison to bridge employer with employee. BCS sponsored events such as Corporate Visit Days and Emphasis Panel (Accountancy, Finance & Banking, Management, Marketing, Real Estate, Sales, Entrepreneurial, Consulting, Government, Health Care, and Human Resources) provide students with firsthand knowledge of what is required to be competitive in the job market upon graduation from the Trulaske College of Business. All students are encouraged to register with BCS and begin utilizing these services as early as freshman year. BCS hosts three career fairs annually.

Professional Development Program
The mission of the Professional Development Program is to provide every BSBA and lower division Accounting student with substantive professional development experiences during their degree program. Professional Development refers to activities, both inside and outside of the classroom, that provide students with the opportunity to develop and practice skills that are needed to perform successfully in professional roles after graduation. Students who graduate with a BSBA degree from the Robert J. Trulaske Sr., College of Business will have content knowledge and advanced professional competencies that are necessary for success in the business world.

Graduate
Founded in 1914, the Robert J. Trulaske, Sr. College of Business enrolls about 350 graduate students as well as 4,000 undergraduates. The
primary mission of the college is to prepare students to succeed in the world of business and to advance the body of knowledge about the world of business. The college has four academic units – Accountancy, Finance, Management, and Marketing – with 64 full-time faculty members.

The Trulaske College offers PhD degrees in both accountancy and business administration, an MBA degree, a 150-hour program that confers both undergraduate and master’s degrees in accountancy, and an undergraduate degree in business administration. Over time, the college’s degree programs and faculty research productivity have earned national acclaim.

The college takes great pride in its graduates. More than 31,000 alumni are contributing their expertise to the public and private sectors in every state in the U.S. and in a host of foreign countries. The Trulaske College’s graduate-level degree programs, dual degrees, and certificates are described below.

**Note:** Prospective graduate students must apply to both the degree program of interest and to the MU Office of Graduate Studies. In most cases, the entire application process may be completed online. Find admission and application details by selecting the degree program of interest in the left navigation column.

The accountancy program at the University of Missouri has long been nationally recognized for its excellence. MU accountancy faculty have published leading textbooks and research articles and have served at high levels in numerous professional accounting associations. The school offers a combined BSAcc and MAcc degrees.

Students wanting to explore accountancy as a major should take ACCTCY 2036.

Admissions

Accountancy prepares students for the competitive field of accounting with a combination of classroom study, practical experience, and student organizations, all in a degree that is nationally recognized for its excellence. The bachelor of science and master of accountancy degree programs are merged into an integrated 150-hour curriculum to be entered into as a junior. A limited number of students may also be accepted into the MAcc-only program.

Admission decisions will be made at the end of the spring semester for fall admissions only. Meeting the minimum requirements does not guarantee admission. Admission cutoffs will be revised each year in order to control accountancy undergraduate enrollment at a limit that can be served with current authorized faculty staffing and still maintain program quality and meet accreditation guidelines. Students meeting the minimum requirements will be selected for admission based on their UM cumulative grade point average until the enrollment for that year is reached. A limited number of students may be selected by considering grades and other criteria such as demonstrated commitment, experience, leadership and other exceptional circumstances.

Students not admitted to the 150 credit hour degree program in the School of Accountancy may meet Trulaske College of Business admission requirements and transfer into a business administration emphasis area, depending on available space.

A student may take no more than six credit hours of 3000 or higher business courses through non-MU courses off campus, excluding BUS_AD 4500. Study abroad courses are also excluded from this requirement.

Faculty

Associate Professor E. G. Mauldin**, K. W. Shaw**
Teaching Professor B. M. Cunningham*
Associate Teaching Professor C. Prestigiacomo*
Assistant Teaching Professor K. Hockman*, P. Kleen*, R. Wilson*

* Graduate Faculty Member - membership is required to teach graduate-level courses, chair master’s thesis committees, and serve on doctoral examination and dissertation committees.
** Doctoral Faculty Member - membership is required to chair doctoral examination or dissertation committees. Graduate faculty membership is a prerequisite for Doctoral faculty membership.

Undergraduate

• BSAcc in Accountancy (p. 326)

Undergraduate Level

Information on students who are admitted to MU and who indicate an interest in becoming accountancy or business majors is subsequently forwarded to the Undergraduate Programs Office of the College of Business (111 Cornell Hall, 573-882-7073). Qualified applicants with less than 54 semester hours of college courses completed will be admitted to the lower (pre-professional) level of the Trulaske College of Business. Applicants with more than 54 semester hours of college credit may be admitted to a specific upper (professional) level college of business program, e.g., the 150-Hour Accountancy Program, if they meet the program’s admission requirements. Students who transfer into the Trulaske College of Business’ upper or lower levels from another Mizzou school or college must submit a Transfer of Division form in order to be considered for admission.

The combined BSAcc/MAcc (150-hour) program is open to qualified undergraduate students at Mizzou as well as qualified undergraduates who transfer to MU from other colleges and universities. Interested students not already admitted to Mizzou should visit the Office of Admissions website (http://admissions.missouri.edu/apply). Undergraduate students are also responsible for completing all Trulaske College of Business requirements. These requirements can be found here (p. 321).

Admission to the Joint BSAcc and MAcc Degree Program

In the School of Accountancy, the bachelor’s and master’s degree programs are merged into a 150-credit program. Students should be admitted to the BSAcc/MAcc degree program by the time they have completed 60 hours. Refer to the list of Pre-Accountancy (p. 326) courses in the BSAcc (p. 326) information which are required for admission.

Students must also complete the Professional Development Program (PDP) point requirement for admission to the School of Accountancy and for graduation. Students must earn a minimum of 70 PDP points (maximum of 100) at the lower division for official admittance to the upper division. Once admitted, students must earn a total of 200 PDP points for graduation.
Academic Standing - School of Accountancy

Accountancy students are in good academic standing if they maintain a cumulative UM grade point average of 3.0 or higher for all coursework subsequent to admission to the 150-hour Accountancy program. Failure to meet this requirement will result in a probationary semester, and if not rectified, dismissal from the program. Accountancy students are subject to the probation and dismissal policies (p. 321) set by the Trulaske College of Business. An undergraduate who has been ineligible to enroll for a period of one year may be reenrolled only on the approval of the director of the 150-hour program in accountancy. As a condition of readmission, the director may set forth stipulations with regard to minimum standards of academic work that must be maintained by the student. After readmission, if the student again becomes ineligible to enroll, his or her ineligibility is considered permanent. Accountancy students entering the graduate portion of the 150-hour program should consult The Graduate School (http://gradschool.missouri.edu) for academic standing policies for graduate students.

About Accountancy Graduate Programs

The School of Accountancy offers graduate work leading to the master of accountancy and doctor of philosophy degrees. Graduate programs in accountancy prepare students for advanced professional careers in public, private and governmental accounting, and for careers in teaching and research.

Alert to change and recognizing that accounting education at the graduate level should be ahead of current practice, the School’s programs require course work stressing advanced knowledge in accounting theory and practice, quantitative methods, economics and business. Opportunities exist on and off campus for exchanging ideas with practicing accountants and for participating in the solution of their professional problems.

Among the school’s special facilities are a comprehensive collection of accounting and investment services, computer databases, technical journals and microfilm copies of annual reports, government documents and doctoral dissertations.

Funding

Fellowships, scholarships and teaching and research assistantships are available to qualified graduate students.

Undergraduate

BSAcc in Accountancy

Major Program Requirements

The undergraduate and master’s degree programs with a major in accountancy are merged into an integrated 150-credit curriculum to provide high-quality preparation for a career as a professional accountant in public accounting, business or government.

The Bachelor of Science with a major in Accountancy is awarded along with the Master of Accountancy degree upon satisfactory completion of the 150-credit, integrated curriculum. In this integrated program, a minimum of 24 credits in accountancy courses at the 3000-level or above must be completed at MU.

Major Core Requirements

The following courses are degree specific major requirements for the 150-credit program in the School of Accountancy. Courses that satisfy University general education (p. 20) and core program prerequisite requirements are recommended for the freshman and sophomore years.

Accountancy Elective 3

Professional Electives

Nine credits must be taken as 2000-level or higher University non-business electives or 3000-level business electives

Senior Capstone

MANGMT 4970 Strategic Management 3

Graduate Level Coursework

Total Credits 30

* Both ACCTCY 2036 and ACCTCY 2037 must be taken in residence or both must be taken at another campus.
** ECONOM 1051H may be taken in place of ECONOM 1014/ECONOM 1024 and ECONOM 1015.
*** Requires a grade of C- or better.
1 Requires minimum 3.0 GPA for ACCTCY 2036 and ACCTCY 2037 (including grades from other institutions).
2 Requires minimum 3.0 GPA (including grades from other institutions) for these Pre-Accountancy courses.

School of Accountancy Graduation Requirements

Course requirements ensure that at least 40 percent of a student's course work is earned in divisions other than business. The merged BSAcc and MAcc degrees require 150 total credits.

General Education 23
Pre-Accountancy Courses 28
Accountancy Foundation Courses 9
Required Core Courses 27
Required Accountancy Courses 21
Professional Electives 9
Senior Capstone 3
Graduate Level Coursework 30
Total Minimum 150

* Additional 3 hours of humanities fulfilled in Accountancy foundation courses. Students also need to fulfill an International Studies Component (3 hours) to be selected with your advisor. These classes can be taken at the undergraduate or graduate level.

Semester Plan - Bachelor of Science in Accountancy and Master of Accountancy

Below is a sample plan of study, semester by semester. A student's actual plan may vary based on course choices where options are available.

Total Credits: 150

# Internship

ACCTCY 4940 Professional Accounting Internship 3
ACCTCY 4384 Auditing Theory and Practice I 3
Accountancy Elective 3
Independent Study 3
Total Credits 12
Some students get an opportunity to do a spring internship for 3 hours during the 8th semester. Internships are normally the 1st 8 weeks and students take 6 hours during 2nd 8 weeks for a total of 9 hours. If students do a winter internship, they can normally complete only 12 hours by taking an independent study course. Students would need to complete the additional 6-9 hours prior to or during the summer following the internship.

* MATH 1300 must be taken. A grade of C- is required in MATH 1100 (counts in place of non-business elective), MATH 1300 and STAT 2500.
** Need grade of C- or better to fulfill requirement.

Note:
MANGMT 3200 OR MANGMT 4140 is a required course. ECONOM 1051H satisfies both ECONOM 1014 or ECONOM 1024 and ECONOM 1015 requirement.

Graduate

MAcc in Accountancy

Admission Contact Information
Koni J. Daws, dawsk@missouri.edu
303 Cornell Hall; Columbia, MO 65211
573-882-4463

The School of Accountancy is NOT accepting any applications for admission to the MAcc-only program, as we are at full capacity.

About the MAcc Program

The growing scope and diversity of functions being performed by professional accountants has created a strong demand for individuals who have both a broader base of general and business education as well as more in-depth technical accounting education than can be obtained in a four-year.

Requirements for Master’s Degree Only

A student who has a degree in a different curricular area or a bachelor’s degree in accountancy from another college or university may earn a master’s degree from the School of Accountancy upon completion of the requirements for the degree. The student’s program must include a minimum of 30 credits beyond the bachelor’s degree (or its equivalent) selected from courses carrying graduate credit. In addition, the student must meet the following stipulations:
• At least 15 of the 30 credits must be completed in 8000-9000-level courses.
• A minimum of 24 credits of advanced study must be completed under MU faculty.
• A maximum of 6 graduate credits may be transferred from another college or university.
• All requirements must be completed within eight years from the time of initial enrollment.

MU’s MAcc program is designed especially to provide the additional breadth and depth of knowledge and skills required for success in contemporary accounting practice.

Core Business Education
Business electives: 9 hours

Professional Accountancy Education
ACCTCY 7365 Governmental Accounting and Budgeting 3
ACCTCY 7384 Auditing Theory and Practice I 3
ACCTCY 8450 Accounting and Strategic Business Analysis 3

Accounting Electives: 12 hours

Admission Criteria to the MAcc
• Fall deadline: March 15
• Minimum TOEFL scores:
  Internet-based test (iBT) 100
  Paper-based test (PBT) 600
• Minimum GMAT scores:
  Minimum Score
  Verbal 640
  Quantitative 50th Percentile
  Analytical 75th Percentile
• Minimum GPA: at least 3.5 for last 60 hours
• Bachelor’s degree from an accredited college or university, with a major in accountancy or equivalent
• A prior record of outstanding academic performance
• Strong letters of recommendation
• Work experience may be considered

Note: Meeting the minimum requirements does not guarantee admission. Admission is competitive and based on space availability.

Required Application Materials

To the Graduate School
All required Graduate School documents
Statement of objectives, no more than 500 words (upload to the online Graduate Application)
TOEFL score (if native language is not English)

To the M Acc Program
GMAT score
2 Recommendation letters, mailed

Prerequisites for the MAcc

The master of accountancy (MAcc) program encompasses the last 30 hours of MU’s 150-hour accountancy program and presumes students have completed the undergraduate portion of the program, or the equivalent. Students whose undergraduate education is not equivalent to the first 120 hours of the 150-hour program may overcome important deficiencies by taking additional courses approved by the program director.
To be considered for acceptance in the M Acc program candidates must have completed the first 120 hours of MU’s 150-hour program or received a baccalaureate degree from an accredited college or university with a major in accountancy or the equivalent (students with bachelor’s degrees in non-accounting areas may enter the M Acc program after completing an appropriate set of “prerequisite” courses).

In addition to the requirements listed above, other factors such as the student’s statement of objectives and recommendation letters also may be considered to the extent that they provide indications of a student’s ability to be successful in the M Acc program.

The MAcc Admission Process

Generally, admission decisions for the M Acc program are made in the late spring and summer for fall admissions only, and this is on a highly competitive basis.

Graduation Requirements for the MAcc

The basic 30-hour M Acc curriculum requires a minimum of 15 hours of accountancy courses and a minimum of 15 hours of courses reserved exclusively for graduate students. A maximum of 6 semester hours of graduate level course work may be transferred from another accredited master’s program.

Through careful selection of electives, the M Acc program provides great flexibility to enable customized programs of study in specialty areas of particular interest to students. One of the most popular areas of specialization is taxation (where a “tax track” is available). Other specialties may be developed in the areas of financial accounting and auditing. Go the following link for more information about graduate accounting certificates: /undergraduate/graduate/collegeofbusiness/additionalminorsandcertificates/(p. 353).

Official GMAT scores

Prerequisites for the Doctoral Degree in Accountancy

International students should note that we rarely admit a student directly from outside the United States unless they have studied/worked in an English-language setting.

Prerequisites to undertaking doctoral course work include one, and preferably two, semesters of calculus; an introductory statistics course; intermediate-level microeconomic theory; and an undergraduate accounting major (or equivalent). Prior graduate work is not required for admission to the program, but most successful applicants do have a master’s degree.

Graduation Requirements for the Doctoral Degree in Accountancy

The University requires 72 total hours beyond a baccalaureate degree for a PhD. In order to meet this requirement, the School of Accountancy requires the following program of course work and dissertation research:

<table>
<thead>
<tr>
<th>Course Category</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>Doctoral-level Accounting Research courses</td>
<td>15</td>
</tr>
<tr>
<td>Course Work in supporting theoretical fields (e.g. economics, finance, organizational theory and behavior)</td>
<td>15</td>
</tr>
<tr>
<td>Statistics and other research methods courses</td>
<td>18</td>
</tr>
<tr>
<td>Weekly Research Seminar (meeting one hour per semester for four years)</td>
<td>8</td>
</tr>
</tbody>
</table>
Dissertation Research 12-16
Total Credits 68-72

Course work is designed to be completed in five semesters (two and one-half years). Written and oral comprehensive examinations are then taken after completion of course work, and the remainder of years three and four is devoted to the completion of the research dissertation. Specializations are available in areas of faculty research interests.

More Information about the Doctoral Degree in Accountancy

Department of Finance
Through the study of finance, students learn to independently analyze security markets, understand the basic valuation techniques and use their knowledge to make investment decisions. In addition, students learn basic theoretical concepts in corporate finance and their application to corporate financing and investment decisions. Course work focuses on the areas of investments, portfolio management, real estate appraisal, financial institutions and corporate finance.

Department of Management
Management is defined by the Academy of Management as including "all processes, structures, and behaviors that are related to the work of organizations, as well as the dynamics of industries, economies, cultures, and other environmental forces that affect organizations and their employees." Management course work at MU is quite diverse, covering the areas of human resource management, human behavior in organizations, organization theory, strategic management, entrepreneurship, information systems, e-commerce, operations management and business law.

Department of Marketing
Marketing focuses on creating and managing customers. It deals with the strategies, tactics and business processes involved in researching markets, deciding which markets and segments to pursue, identifying what unique value to provide, and then assembling the products, services, people and partner firms needed to build, communicate and deliver that value.

Exploratory Course
Students wanting to explore business administration as a major should take MANGMT 1010.

Double Emphasis
Students may have a dual emphasis of Finance and Real Estate, or may add on an Economics emphasis to any other BSBA emphasis program.

Preprofessional Information
To apply to the upper-level BSBA and a related emphasis area program, a student must have completed a minimum of 45 credits, have at least a UM Cumulative GPA of a 2.6 (minimum requirement and does not guarantee admission to Upper Level) and met the Professional Development Program requirements. A Trulaske College of Business student must be admitted by the semester after the 60th credit hour is earned. The following courses must be among the credits completed or in process at the time of application:

- Graduate Faculty Member - membership is required to teach graduate-level courses, chair master’s thesis committees, and serve on doctoral examination and dissertation committees.
- Doctoral Faculty Member - membership is required to chair doctoral examination or dissertation committees. Graduate faculty membership is a prerequisite for Doctoral faculty membership.

Undergraduate

- BSBA in Business Administration (p. 334)
  - with emphasis in Economics (p. 334)
  - with emphasis in Finance and Banking (p. 335)
  - with emphasis in Management (p. 336)
  - with emphasis in Marketing (p. 338)
  - with emphasis in Real Estate (p. 339)
  - with emphasis in International Business - Economics (p. 340)
  - with emphasis in International Business - Finance (p. 342)
  - with emphasis in International Business - Management (p. 343)
- with emphasis in International Business - Marketing (p. 344)
- Minor in Business (p. 345)

Professional Development Program

In addition to completing required coursework to earn a Bachelor of Science, Business Administration degree, students must fulfill the requirements of the Professional Development Program (PDP). The goal of the PDP is to offer opportunities to all BS BA and Accounting students to develop core competencies and values necessary for success in their professional careers.

As a graduation requirement, the program is comprised of the following:

- Completion of designated professional activities to acquire points for admission to the upper division. Once admitted to the upper division, students will continue to earn points to meet the graduation requirements. Specific activities may be required.
- Completion of BUS_AD 3500 the semester immediately following admission to the upper division. This course is a pre-requisite to the completion of the required BUS_AD 4500. These two courses may not be taken out of sequence without prior approval. BUS_AD 3500 must be completed in residence.
- Completion of BUS_AD 4500 once admitted to the upper division. This will include completion of a professional level internship/practicum experience. Practicums can be completed over a summer or semester-long period of time (intercession assignments will not meet the PDP requirement). Students must seek final approval of their internship/practicum experience from the PDP Office before beginning the assignment. BUS_AD 4500 must be completed in residence.

If a student fails to meet the requirements of the PDP at either the lower or upper division, the student will not be allowed to continue in or graduate from the Trulaske College of Business.

Professional Development Graduation Requirement

- The student must earn a minimum of 70 PDP points (maximum of 100) at the lower division for official admittance to the upper division. Once admitted, students must earn a total of 200 PDP points to meet the requirement. Specific activities and workshops may be required.
- The student must earn a C- (or higher) in BUS_AD 3500 to satisfy the requirement.
- BUS_AD 4500 is graded as Satisfactory/Unsatisfactory. Students must complete practicum course to a satisfactory level of 70% or greater to receive a passing grade for the course.

Admission to the Business Administration Program

Capacity Limitations

Admission into the upper-level Bachelor of Science in Business Administration (BSBA), or International Business (BSBA) degree program is highly competitive, because enrollment is limited. Each of the individual emphasis areas (Economics, Finance and Banking, Management, Marketing or Real Estate) has its own capacity limitation. Students who have earned a 3.25 minimum UM cumulative GPA or higher will be guaranteed admission to the upper level emphasis area of their choice. Other students with at least a 2.6 minimum UM cumulative GPA will be admitted on a space available basis.

Preprofessional Information

To apply to the upper-level BSBA and a related emphasis area program, a student must have completed a minimum of 45 credits and met the Professional Development Program requirements. A TCOB student must be admitted by the semester after the 60th credit hour is earned. The following courses must be among the credits completed or in process at the time of application.

* Both ACCTCY 2036 and ACCTCY 2037 must be taken in residence or both must be taken at another campus.
Admission to BSBA Degree and Emphasis Areas

In addition to meeting the previous requirements, students are admitted to an upper-level BSBA emphasis area based on UM cumulative grade point average. Students with exceptional circumstances may ask to be considered for admission based on both grades and other factors.

Students request an emphasis area when applying to the upper-division BSBA degree program. If the requested emphasis area is at capacity, students who qualify for admission to the upper-division BSBA degree program are given the opportunity to choose another emphasis area.

Students are notified by email when they are eligible to apply for upper-level status. Students are admitted to upper level in February and September of each year.

Students who complete 60 credits without gaining admission to an upper-level BSBA emphasis area will not be eligible to re-enroll in the Trulaske College of Business, unless special accommodations have been made in the Undergraduate Advising Office.

A student may take no more than six credit hours of 3000 or higher business courses from a non-MU course off campus, excluding BUS_AD 4500. University of Missouri sponsored study abroad courses are excluded from this requirement.

Graduate

- MBA in Business Administration (p. 346)
- PhD in Business Administration with emphasis in Business (p. 348)

About the Crosby MBA (daytime program)

Crosby MBA candidates come from all backgrounds, including science, engineering, liberal arts, journalism, business and health-related fields. There are no prerequisite courses. Our admission standards are high and the curriculum is rigorous. The Crosby MBA program is AACSB accredited, nationally recognized and highly ranked by U.S. News America’s Best Graduate Schools, Forbes, Princeton Review, and The Wall Street Journal. Students attend full-time, although part-time is an option if the student is able to attend daytime classes.

Through the Crosby MBA program, highly capable graduate students gain real-world experience that prepares them for a wide variety of career paths. The program teaches skills necessary to compete in the global business environment, and helps you achieve a career path that will bring both personal fulfillment and professional success. We offer individual career counseling, an executive mentoring program, employer site visits, and workshops focusing on résumé writing, presentation skills, negotiation skills and business etiquette. Students obtain employment in fields such as financial analysis, investments, banking, human resources, project management, strategy, operations and logistics, marketing, marketing analytics, consulting, and non-profit management.

Factors considered in the admissions decision include undergraduate grade point average (GPA), as indicated on the graduation transcript, with consideration given to other calculations; performance on the Graduate Management Admissions Test (GMAT) or the GRE; work experience, including significant part-time employment and internships; demonstrated leadership; and personal essays. A baccalaureate degree in any discipline from an accredited school is required. Interviews by invitation will also be conducted. See the Crosby MBA website to apply.

Cooperative Dual Degrees with the Crosby MBA Program

- MBA and Bachelor of Science Industrial Engineering (BSIE)
- MBA and Bachelor of Science in Information Technology (BSIT)
- MBA and Master of Health Administration (MHA)
- MBA and Master of Science in Industrial Engineering (MSIE)
- MBA and Juris Doctor (JD)

About the execMBA Program (for working professionals)

This innovative executive MBA is specifically designed for high achieving professionals seeking a first-rate MBA program that provides flexibility around their work schedules. This is the same renowned degree and the same renowned faculty offered with the Crosby MBA, but is specially designed for executives. Combining face-to-face class time with online delivery for professionals with substantive experience, the 21-month execMBA program will connect you with peers, challenge you in relevant ways, and develop the mind- and skill-set to match today’s marketplace.

All applicants to the MU execMBA must have a minimum of 5-7 years of professional work experience, as well as a letter of endorsement from their employer to participate in the program. Other factors considered in admission include undergraduate GPA (a bachelor’s degree in any discipline from an accredited school is required), demonstrated leadership experience and a personal statement addressing criteria outlined on the exec MBA website. Interviews by invitation will also be conducted.

About the PhD Program

The PhD program (p. 348) is designed to prepare graduates for careers as effective university researchers and teachers or for senior research positions in business or government. Course work involves research activities such as literature review and critique, theoretical modeling, research design, computer-assisted empirical analysis and preparation of proposals and research papers. PhD candidates are provided the opportunity to teach undergraduate courses in their specialty area. In addition, students are expected to participate in national and regional academic conferences and are encouraged to work with faculty in developing individual research and teaching skills.

Program Location: Cornell Hall

Cornell Hall, a state-of-the-art building, houses the Robert J. Trulaske, Sr. College of Business. It contains labs with over 230 computers with a variety of up-to-date software. The College subscribes to the following online services, databases and software packages: Wharton Research Data Services, Audit Analytics CompuStat, CRSP, Datastream/Worldscope, Eventus, I/B/E/S, IRRC, ISSM, Mergent FISD, Mutual Fund Links, SDC Platinum, Thomson Reuters, Stock Trak, and Qualtrics (an online survey system).

Undergraduate

+ Needs grade of C- or better in ENGLISH 1000, MATH 1100, and STAT 2500.
BSBA in Business Administration

Major Program Requirements

Students in the Trulaske College of Business are in either the lower level (undeclared) or the upper level (admitted to an emphasis area). Students entering the Trulaske College of Business usually enter the lower level while they take University general education and business preparation courses. The first two years of all business programs (except international business and accounting) involve the same course sequences. A student typically applies to the upper level at the end of the sophomore year or the beginning of the junior year.

A student may count a maximum of 30 credits in their emphasis area to meet the 120-credit requirement for the undergraduate degree.

Requirements above and beyond general education requirements are typically applied to the upper level at the end of the sophomore year or courses. The first two years of all business programs (except international

Major Core Requirements

Course requirements ensure that 40 percent of a student’s course work is earned in divisions other than business.

Students must also complete all University requirements (p. 19), including general education (p. 20), and the degree requirements below.

BSBA in Business Administration

BSBA in Business Administration with Emphasis in Economics

Major Program Requirements

The sequence of courses for the BSBA with an emphasis in economics introduces the student to the tools of economic analysis and to their use in decision-making. It also may provide training in internal and external forecasting. Such analytical techniques are appropriate for industrial, commercial and financial organizations as well as government agencies.

Students must complete all university requirements (p. 19), including general education (p. 20), and the degree requirements below.

### BSBA in Business Administration with Emphasis in Management

**Major Program Requirements**

Management is the directing and guiding of activities to produce a desired result, product or service. Managers are repeatedly required to make decisions that will have far-reaching effects. The basic functions all managers perform are planning, organizing, staffing, motivating and directing. Professional education in management can lead to a variety of career opportunities in the private and public sectors.

Students must complete all university requirements (p. 19), including general education (p. 20), and the degree requirements below.

BSBA in Business Administration with Emphasis in Marketing

Major Program Requirements

Marketing focuses on the activities involved in the creation and sale of goods and services that serve prospective customers’ needs and wants. The BSBA with an emphasis in marketing is suitable for students who anticipate careers in areas such as retail management, sales, buying and supply chain management; marketing research; product and brand management; marketing communications; customer relationship management; international marketing; and service marketing.

Students must complete all university requirements (p. 19), including general education (p. 20), and the degree requirements below.

General Education Requirements 32

Upper Level Admission Courses 28

Required Core Courses 27

- ACCTCY 2258 Computer-Based Data Systems
- or INFOTC 1040 Introduction to Problem Solving and Programming
- or CMP_SC 1050 Algorithm Design and Programming I
- ECONOM 3229 Money, Banking and Financial Markets
- or ECONOM 3251 Theory of the Firm
- FINANC 3000 Corporate Finance
- MANGMT 3000 Principles of Management
- MANGMT 3540 Introduction to Business Law
- MRKTNG 3000 Principles of Marketing
- STAT 3500 Introduction to Probability and Statistics II
- BUS_AD 3500 Professional Development in Business
- BUS_AD 4500 Professional Development Program - Practicum

Required Marketing Courses 6

- MRKTNG 4000 Marketing Management
- MRKTNG 4050 Marketing Research

Additional Marketing Courses 12

Select from the following:

- MRKTNG 3901 Special Topics in Marketing
- MRKTNG 3942 International Business Internship
- MRKTNG 3975 Current Issues in International Marketing
- MRKTNG 3985 Problems in International Business
- MRKTNG 4185 Problems in Marketing
- MRKTNG 4201 Topics in Marketing
- MRKTNG 4220 Consumer Behavior
- MRKTNG 4250 Retail Marketing
- MRKTNG 4350 Business-to-Business Relationships
- MRKTNG 4380 Buying and Supply Chain Management
- MRKTNG 4410 Personal Selling
- MRKTNG 4420 Sales Management
- MRKTNG 4440 Services Marketing
- MRKTNG 4450 Marketing Channels
- MRKTNG 4550 Integrated Marketing Communications
- MRKTNG 4650 e-Marketing
- MRKTNG 4720 Global Marketing
- MRKTNG 4750 Marketing, Society, and Government
- MRKTNG 4880 Contemporary Issues in Marketing
- MRKTNG 4940 Marketing Practicum

Emphasis Support Courses 12

A list of suggested emphasis support courses for marketing majors is available at the College of Business undergraduate advising office.

Pre-approved emphasis support courses include:

- Any 2300+ course in: Chinese, French, German, Hebrew, Italian, Japanese, Korean, Portuguese, Romance Languages, Russian, Spanish
- Other 3000+ level courses taken in fulfillment of requirements for an official minor or dual major
- Any of the specific courses listed below

- CHINSE 2160 Intermediate Chinese I Conversation and Composition
COMMUN 1200 Public Speaking  
ENGLISH 2030 Professional Writing  
FRENCH 2100 Elementary French III

### BSBA in Business Administration with Emphasis in Real Estate

**Major Program Requirements**

Students can earn a dual emphasis in Finance & Banking and Real Estate. This curriculum, leading to a BSBA with an emphasis in real estate, provides a basic education for students contemplating a career in real estate, real estate management, or associated fields.

Students must complete all university requirements (p. 19), including general education (p. 20), and the degree requirements below.

**General Education Requirements**

BSBA in Business Administration with Emphasis in International Business - Management

Major Program Requirements

International Business is a joint degree program offered by the College of Arts and Science and the Trulaske College of Business. The program incorporates foreign language, geographic region and cultural environment courses with core and international business courses. Completion of this degree program requires 136-141 credits depending on emphasis.

To complete this course of study, students must be accepted in both the Bachelor of Arts in International Studies program in the College of Arts and Science and the Bachelor of Science in Business Administration program in the Trulaske College of Business. Students must also complete all university requirements (p. 19), including general education (p. 20), and the degree requirements below.
or INFOTC 1040  Introduction to Problem Solving and Programming
or CMP_SC 1050  Algorithm Design and Programming I
ECONOM 3229  Money, Banking and Financial Markets 3
or ECONOM 3251  Theory of the Firm
FINANC 3000  Corporate Finance 3
MANGMT 3000  Principles of Management 3
MANGMT 3540  Introduction to Business Law 3
MRKTNG 3000  Principles of Marketing 3
STAT 3500  Introduction to Probability and Statistics II 3
BUS_AD 3500  Professional Development Program - Practicum 3
Business Area 18-21
  to be selected with Business advisor, depending on emphasis area.
MANGMT 4970  Strategic Management 3
Total Credits 136-141

ENGLISH 2156  Introduction to World Literatures, Beginnings to 1603
ENGLISH 2157  Introduction to World Literatures, 1603 to 1789
ENGLISH 2158  Introduction to World Literatures, 1789 to 1890
ENGLISH 2159  Introduction to World Literatures, 1890 to Present
Minor in Business

The business minor has the same rigor and content as the fundamental courses taken by business students. It provides flexibility in undergraduate studies and better prepares students for jobs and for graduate school. The business minor includes courses that are highly complementary. For most students, the requirements for the business minor are far more valuable than a similar number of courses in one or two areas.

15 of the 18 hours must be taken in residence and a 2.0 GPA in all business courses and those required for the business minor is required. See a business advisor for questions regarding the business minor.

Total Credits: 136-141
Degree Requirements (Crosby MBA)

Beginning Fall 2014, total graduate course work necessary to qualify for the Crosby MBA degree is 57 credit hours. For graduation, MBA students must earn a cumulative grade point average of 3.0 or better in the hours completed in the designated MBA plan of study and a minimum 3.0 cumulative MU graduate grade point average.

Required course work in Quantitative Analysis, Finance, Management, Marketing and Professional Development and Experiential Learning provides a comprehensive business education for Crosby MBA students. Our curriculum assures that graduates enter the 21st century business world with tools that will enable them to be successful. The program consists of 34.5 required credits, including foundational and advanced coursework, plus 22.5 elective credits.

The structure of the MU Crosby MBA allows students to concentrate in a specific area of business, develop a broad managerial focus, or complement business training with course work from other areas on campus. Areas of concentration are offered within the departments of finance, management, and marketing, including the marketing analytics concentration, or another field related to a student’s individual interests. The delivery format includes 1.5 credit hour, 8-week modules, to allow for more focused attention to a particular topic, as well as to provide a wider array of choices. 3 credit, 16 week courses are also available.

Degree Requirements (execMBA)

The program curriculum, designed with executives in mind, is inventive, practical, and market-facing. Students will build skills that increase self- and global-awareness, develop strategic risk-taking, and heighten influence. Delivery is a blend of approximately 75% online and 25% in-class coursework. Students will amplify global expertise and value in the marketplace with an 8- to 10-day international residency. This lock-step, cohort program – meaning students will take the same classes together in the same order – is conducive to personal interactions with the other high-level professionals.

</tbody>
</table>

Total Credits: 10

2. An in-depth major concentration in the area of finance, management (organizational sciences) or marketing (minimum of 15 hours of 8000/9000-level courses).

3. Two support areas of at least nine credit hours each, one of which must be taken outside the School of Business, or one support area of at least 12 credit hours. These supporting areas offer the student considerable latitude in identifying a course of study that can be tailored to the individual’s interests and goals. If two support areas are selected, the student must also satisfy a 12-hour analytical tool requirement; if one support area is selected, the analytical tool requirement is 18 hours.

4. Collateral requirements emphasizing analytical tools (proficiency in a foreign language does not fulfill the collateral requirements). This is a research methods and analyses sequence of at least 12 hours (at least 18 if only one support area), including appropriate courses in economics, mathematics, psychology, sociology, statistics or other areas deemed appropriate by the program committee.

5. An ongoing seminar experience (each semester until successful completion of comprehensive examinations) that acquaints the student with current literature and research in his/her major area of interest. This seminar is in addition to other seminars offered departmentally (4 hours minimum).

6. Dissertation (minimum 12 hours of 9090 credit).

These requirements are independent of one another; courses taken to satisfy one requirement may not be used to satisfy any other requirement. Previous graduate work taken before admission to the PhD program may be used to satisfy these requirements if it is deemed appropriate by the program committee.

Concentration in Finance

The PhD program with a concentration in Finance emphasizes university level research and teaching skills. The program of study is flexible to meet individual needs and interests, but all students take advanced classes in Finance, Economics, and Statistics. Students admitted on a full-time basis normally work as research or teaching assistants.

A committee. Coursework applied to a Support Area cannot be applied to a Collateral Area. Support Areas are tailored to the research and teaching goals of the PhD candidate. Programs are highly individualized to reflect student interests and desired focus. The combination of courses in any Support Area and in the concentration core is flexible, to reflect student interests and desired focus. The combination of courses in any Support Area and in the concentration core is flexible, with numerous combinations possible. Program design is subject to the approval of the student's program committee. Typical Support Areas include psychology, finance/economics, research methods and statistics, career development, sociology, marketing, and communication. Listed below are examples of Support Areas that could be selected:

### Support Areas - Finance Concentration

PhD students must complete either two 9-hour Support Areas or one 12-hour Support Area to complement advanced training in Finance. Successful completion of a Support Area may require a written examination covering course work applied to the Support Area. At least one Support Area must come from outside the College of Business. Most students choose Support Areas in Microeconomics and Statistics to reflect student interests and desired focus. The combination of courses in any Support Area and in the concentration core is flexible, with numerous combinations possible. Program design is subject to the approval of the student's program committee. Typical Support Areas include psychology, finance/economics, research methods and statistics, career development, sociology, marketing, and communication. Listed below are examples of Support Areas that could be selected:

**Example support area in Microeconomics:**
- ECONOM 7370: Quantitative Economics (3 credit hours)
- ECONOM 8451: Microeconomic Theory (3 credit hours)
- ECONOM 9452: Advanced Microeconomic Theory II (3 credit hours)

**Example support area in Statistics:**
- STAT 7510: Applied Statistical Models I (3 credit hours)
- STAT 7750: Introduction to Probability Theory (3 credit hours)
- STAT 7760: Statistical Inference (3 credit hours)

### Collateral Area - Finance Concentration

PhD students must complete a 12-hour Collateral Area (if completing two 9-hour Support Areas) or an 18-hour Collateral Area (if completing one 12-hour Support Area) selected in cooperation with a student's program committee. Coursework applied to a Support Area may require a written examination covering course work applied to the Support Area. At least one Support Area must come from outside the College of Business. Most students choose Support Areas in Microeconomics and Statistics, or Corporate Law. Some representative examples include:

**Example collateral area in Econometrics:**
- ECONOM 8472: Econometric Methods I (3 credit hours)
- ECONOM 9473: Econometric Methods II (3 credit hours)
- ECONOM 9476: Advanced Topics in Econometrics I (3 credit hours)

**Example collateral area in Economics:**
- ECONOM 8451: Microeconomic Theory (3 credit hours)
- ECONOM 9452: Advanced Microeconomic Theory II (3 credit hours)

**Example collateral area in Corporate Law:**
- LAW 5395: Business Organizations (1-4 credit hours)
- LAW 5460: Corporate Finance (1-3 credit hours)
- LAW 5365: Bankruptcy (1-3 credit hours)
- LAW 5470: Criminal Clinic (1-5 credit hours)

**Example collateral area in Statistics:**
- STAT 7210: Applied Nonparametric Methods (3 credit hours)

### Concentration in Management

PhD students with a concentration in Management is designed to provide students with a sound foundation for a productive career as an academic in management. Students typically work as research or teaching assistants.

### Degree Requirements - Management Concentration

**Required courses:**
- MANGMT 9040: Seminar in Human Resource Management (3 credit hours)
- MANGMT 9080: Seminar in Entrepreneurship (3 credit hours)
- MANGMT 9020: Seminar in Micro Organizational Behavior (3 credit hours)
- MANGMT 9030: Seminar in Macro Organizational Behavior (3 credit hours)
- MANGMT 9060: Seminar in Corporate Strategy (3 credit hours)
- MANGMT 9101: Topics Seminar in Management (minimum of 1 credit hour)
- MANGMT 9090: Research in Management (minimum of 12 credit hours)

### Support Areas - Management Concentration

PhD students must complete either two 9-hour Support Areas or one 12-hour Support Area. Support Areas are tailored to the research and teaching goals of the PhD candidate. Programs are highly individualized to reflect student interests and desired focus. The combination of courses in any Support Area and in the concentration core is flexible, with numerous combinations possible. Program design is subject to the approval of the student's program committee. Typical Support Areas include psychology, finance/economics, research methods and statistics, career development, sociology, marketing, and communication. Listed below are examples of Support Areas that could be selected:

**Example support area in Social Psychology:**
- PSYCH 7340: Attitude Change (3 credit hours)
- PSYCH 8310: Survey of Social Psychology (3 credit hours)
- PSYCH 8610: Motivation (3 credit hours)
- PSYCH 8620: Personality Psychology (3 credit hours)
- PSYCH 9350: Studies in Social Psychology (3 credit hours)

**Example support area in Finance/Economics:**
- FINANC 8440: Financing Multinational Business (1-3 credit hours)
- FINANC 9100: Seminar in Corporate Finance (3 credit hours)
- ECONOM 7355: Industrial Organization and Competitive Strategy (3 credit hours)
- ECONOM 8451: Microeconomic Theory (3 credit hours)

**Example support area in Research Methods and Statistics:**
- MRKTNG 9030: Seminar in Applied Multivariate Analysis in Marketing (3 credit hours)
- PSYCH 9330: Field Research Methods (3 credit hours)
- PSYCH 9725: The Literature Review (3 credit hours)
- SOCIOL 8120: The Logic of Social Research (3 credit hours)
- SOCIOL 9287: Seminar in Qualitative Methods in Sociology (3 credit hours)
- STAT 7310: Sampling Techniques (3 credit hours)
- STAT 7830: Categorical Data Analysis (3 credit hours)
- STAT 7870: Time Series Analysis (3 credit hours)
Concentration in Marketing

Students with an interest in behavioral, strategic, or methodological issues marketing are a great fit for this program. It emphasizes the development of research and teaching skills needed to pursue career placement at a research-oriented university. The program is flexible to meet individual needs and interests and graduates annually well-situated professionals prepared for the market. In addition, the program offers small class sizes, a set of doctoral specific seminars, and a collaborative environment. Students develop research skills by working with faculty on research projects and from faculty mentoring. Students also gain valuable experience by teaching undergraduate courses.

Degree Requirements - Marketing Concentration

Prerequisites typically needed for Marketing Concentration
MATH 1320 Elements of Calculus 3
STAT 1400 Elementary Statistics for Life Sciences 3

Required courses:
MRKTNG 9020 Seminar in Advanced Research Methods in Marketing 3
MRKTNG 9210 Seminar in Marketing Strategy 3
MRKTNG 9220 Seminar Marketing Models 3
MRKTNG 9230 Seminar in Consumer Behavior 3

Electives (minimum of 3 credits):
MRKTNG 9185 Doctoral Independent Study in Marketing 3
MRKTNG 9101 Current Topics Seminar in Marketing (taken each fall and spring while in residence at MU) 1
MRKTNG 9090 Research in Marketing (Dissertation - minimum of 12 hours with at least 2 hours each fall and spring and 1 hour each summer semester) 12

Support Areas - Marketing Concentration

PhD students must complete either two 9-hour Support Areas or one 12-hour Support Area. Support Areas should be selected to provide depth in theory and research appropriate for the particular research interests of the student. Typical Support Areas for students concentrating in marketing are social psychology, organizational behavior, economics, and statistics, but other areas may be appropriate. Below are examples:
Example support area in Psychology/Social Psychology:
PSYCH 7340  Attitude Change  3
PSYCH 8310  Survey of Social Psychology  3
PSYCH 8610  Motivation  3
PSYCH 9310  Theories of Social Psychology  3
PSYCH 9360  Seminar in Social Psychology  1

Example support area in Organizational Behavior:
MANGMT 9087  Seminar in Management (Human Resource Management)  1-99
MANGMT 9087  Seminar in Management (Organizational Behavior I)  1-99
MANGMT 9087  Seminar in Management (Organizational Behavior II)  1-99
MANGMT 9087  Seminar in Management (Strategic Management I)  1-99
MANGMT 9087  Seminar in Management (Organizational Theory)  1-99
SOCIOL 7487  Seminar in Sociology of Organizations  3

Example support area in Economics:
ECONOM 7340  Introduction to Game Theory  3
ECONOM 7351  Intermediate Microeconomics  3
ECONOM 8451  Microeconomic Theory  3
ECONOM 8470  Dynamic Optimization  3
ECONOM 8472  Econometric Methods I  3
ECONOM 9452  Advanced Microeconomic Theory II  3
ECONOM 9471  Advanced Game Theory  3
ECONOM 9473  Econometric Methods II  3

Example support area in Statistics:
STAT 7530  Analysis of Variance  3
STAT 7750  Introduction to Probability Theory  3
STAT 7760  Statistical Inference  3
STAT 7830  Categorical Data Analysis  3
STAT 7850  Introduction to Stochastic Processes  3
STAT 8640  Bayesian Analysis I  3
STAT 9710  Mathematical Statistics I  3
STAT 9720  Mathematical Statistics II  3

Analytical Tools - Marketing Concentration
Courses in research methods and statistics are required to provide each doctoral student with a sound foundation in research skills. The requirement includes a minimum of 12 hours for students with two support areas, or 18 hours for students with one support area. Students often take additional analytical tool courses beyond the minimum in order to develop depth of knowledge in tools required for their specific research interests. Coursework in multiple regression, analysis of variance, and multivariate statistics is required.

Example analytical tools courses:
MRKTNG 9010  Introduction to Research Methods in Marketing  1-3
MRKTNG 9030  Seminar in Applied Multivariate Analysis in Marketing  1-3
ECONOM 7340  Introduction to Game Theory  3
ECONOM 7351  Intermediate Microeconomics  3
ECONOM 8470  Dynamic Optimization  3
ECONOM 8472  Econometric Methods I  3
ECONOM 9473  Econometric Methods II  3
PSYCH 8710  General Linear Models in Psychology I  4
PSYCH 8720  General Linear Models in Psychology II  4
PSYCH 9320  Social Psychology Methodology  3
PSYCH 9330  Field Research Methods  3
PSYCH 9520  Psychometrics  3
PSYCH 9710  Multivariate Statistics in Psychology  3
PSYCH 9725  The Literature Review  3
SOCIOL 7120  Social Statistics  3
SOCIOL 8130  Advanced Social Statistics  3
SOCIOL 8120  The Logic of Social Research  3
SOCIOL 9287  Seminar in Qualitative Methods in Sociology  3
SOCIOL 9837  Seminar in Multivariate Analysis Techniques  3
STAT 7210  Applied Nonparametric Methods  3
STAT 7310  Sampling Techniques  3
STAT 7510  Applied Statistical Models I  3
STAT 7530  Analysis of Variance  3
STAT 7540  Experimental Design  3
STAT 7750  Introduction to Probability Theory  3
STAT 7760  Statistical Inference  3
STAT 7830  Categorical Data Analysis  3
STAT 7850  Introduction to Stochastic Processes  3
STAT 8640  Bayesian Analysis I  3
STAT 9710  Mathematical Statistics I  3
STAT 9720  Mathematical Statistics II  3

Marketing PhD Seminars
MRKTNG 9010  Introduction to Research Methods in Marketing  1-3
MRKTNG 9020  Seminar in Advanced Research Methods in Marketing  1-3
MRKTNG 9030  Seminar in Applied Multivariate Analysis in Marketing  1-3
MRKTNG 9210  Seminar in Marketing Strategy  1-3
MRKTNG 9220  Seminar Marketing Models  1-3
MRKTNG 9230  Seminar in Consumer Behavior  1-3

All Concentrations
Qualifying Process
Program Committee
During the first semester of course work, the PhD Coordinator, a member of the doctoral faculty from the major area of study (finance, management or marketing), serves as the student’s faculty advisor.

By the end of the first year of course work, a student should make formal application for the doctoral degree and, after consultation with faculty, request appointment of a Doctoral Program Committee. This committee consists of at least three members from the student’s major area of study and at least one member from each supporting area of study.

The Doctoral Program Committee conducts the qualifying examination and works with the student to design a plan of study.

Residency Requirement
In compliance with University regulations, the doctor of philosophy degree requires the completion of 72 semester hours of graduate work beyond the baccalaureate degree. Within the credit-hour requirement is the
residency requirement. To satisfy the residency requirement, a student must complete at least 2 9-hour semesters or 3 6-hour semesters in an 18-month period at MU. All courses taken to satisfy the residency requirement must be MU courses approved for graduate credit and approved by the student’s doctoral program committee. Correspondence and off-campus courses may not be counted toward the residency requirement. This program is designed for full-time students and typically requires a 4-year on-campus commitment.

Qualifying Examination and First-Year Project

Every marketing doctoral student is required to pass the qualifying exam consisting of two major components. The first component is a comprehensive evaluation of overall performance in coursework and RA assignments and participation in formal and informal doctoral program elements. The second component is a first-year project addressing a scholarly research topic in marketing consisting of three major parts: a written outline, presentation, and paper suitable for submission to a conference or journal. The goal of this project is to promote early research engagement, interaction with faculty, and the development of communication and presentation skills that will enhance the overall experience of the student throughout the doctoral program.

Comprehensive Examination Process

Typically, after completion of the course work specified on the plan of study, the student’s doctoral program committee determines the student’s readiness to undertake the comprehensive examination. The student must be enrolled at MU the semester s/he takes this examination.

The comprehensive examination consists of written and oral sections. Both sections must be completed within one month of each other, and at least seven months before a final dissertation defense. Successful completion of the comprehensive examination requires that the student’s doctoral program committee vote to pass the student on the entire examination, both written and oral sections, with no more than one dissenting or abstaining vote. The student who fails this exam may not take a second comprehensive examination for at least 12 weeks. Failure to pass two successive comprehensive examinations automatically prevents candidacy.

Dissertation Requirements

A dissertation is required to complete the doctoral program. Each student, working under the supervision of the doctoral program committee chair, must propose an original scholarly research project. The dissertation proposal is normally defended at the end of the third year of the program in an oral presentation. The proposal must be approved formally by the student’s program committee. Following completion of the research, the written dissertation must be orally defended and approved by the student's program committee.

Admissions

grad@missouri.edu

Certificate in Sales and Customer Development

The Certificate in Sales and Customer Development prepares undergraduate students for careers in the highly professional and dynamic field of sales. Through the Certificate’s required practices in the sales profession and sales management.

Students who finish the 13 credit-hour curriculum will receive the Certificate in Sales and Customer Development upon completion of their bachelor’s degree, thereby offering to employers tangible evidence of a strong background in sales.

Required Courses - A minimum 3.00 GPA is needed in these three courses

Internship Requirement (Minimum 1 credit hour) 1

Certificate Requirements and Curriculum 13

• Satisfactory completion of at least one credit hours for a supervised internship (summer or regular semester), with significant customer contract and a minimum of 120 hours on-the-job experience. This credit hour can be earned in any College at MU. Internships that qualify for this Certificate will need to be approved by the Program Coordinator as part of the Certificate application process.

Note: Many Trulaske College of Business students will be able to satisfy the internship requirement by completing a suitable internship under the College's BUS_AD 4500 requirement. But if a student has already completed BUS_AD 4500 with an internship that does not meet the requirements of this Certificate program, that individual would be advised to register for one credit hour under MRKTNG 4185 for an internship that would qualify.

Non-business majors should contact the Program Coordinator, salescertificate@missouri.edu, regarding the internship component.

Graduate

Certificate in Accounting Information Systems

The College of Business is not currently accepting applications for the Graduate Certificate in Accounting Information Systems.

Certificate in Marketing Analytics

The Graduate Certificate in Marketing Analytics is available to students in the Crosby MBA Program. Students must already be admitted to the Crosby MBA program. The certificate is designed to enhance the value of the MBA by providing students with the necessary knowledge and skills needed for entry-level as well as leadership positions in the fast-growing area of marketing analytics. The curriculum focuses on the development, implementation, and delivery of data-driven analytical solutions that assist in marketing strategies, tasks, and decisions.

To earn the Graduate Certificate in Marketing Analytics, students must fulfill the course requirements listed below. Students must also complete the SAS Base Programming Certification. A minimum GPA of 3.3 must be earned in the four Marketing Analytics courses.

Total Credits 15

* The Department of Marketing may approve course substitution if prior equivalence is determined.

** Or other elective courses approved by the Department of Marketing.

### Graduate Certificate in Taxation

School of Accountancy
303 Cornell Hall
573-882-4463

For more information, contact Koni Daws (dawsk@missouri.edu).

#### About the Certificate

Depending on the course configuration in the program, completion of the Certificate in Taxation indicates that a student has developed expertise in tax planning and preparation in regard to international, federal, state, or estate issues for corporations, partnerships, or individuals.

#### Eligibility

Students must be enrolled in the MAcc graduate degree program in the School of Accountancy at MU to be eligible for the certificate.

#### Plan of Study

Students are required to complete 15 credit hours to receive the certificate. Course options are listed below for the tax certificate.

education.missouri.edu
MizzouEdCertification@missouri.edu

The College of Education, established in 1868, is the oldest teacher preparation program west of the Mississippi River. Today’s graduates of the college are employed in a variety of educational institutions and non-school settings. The college serves the educational community through research-based professional practice and a variety of learning constructs applied to real-world experiences. The college is a member of the American Association of Colleges for Teacher Education and a candidate member of the Teacher Education Accreditation Council. All programs are fully accredited by the North Central Association of Secondary Schools and Colleges.

All programs that lead to earning a certificate by the Missouri Department of Elementary and Secondary Education (DESE) are fully approved by the State Board of Education. DESE accredits all teacher certification programs at MU. The Office of Educator Quality at DESE is working with representative stakeholder groups to redesign the standards for educator preparation including certification requirements. These changes and implementation schedule will be communicated to students through individual advising sessions, meetings, and/or other university communications.

Undergraduate

- Admissions (p. 355)
- Academic Regulations (p. 356)
- Academic Affairs (p. 356)
- Academic Programs (p. 357)
- Teacher Certification (p. 358)

The Bachelor of Science in Education (BSEd) degree offers programs with the following certification levels:

- Early Childhood Education (Birth-Grade 3)
- Elementary Education (Grades 1-6)
- Middle School Education (Grades 5 - 9)
- Secondary Education (Grades 9-12)
- Special Education and Music (Grades K-12)

The total undergraduate enrollment in the College of Education for 2014-2015 was 1209. Clinical faculty with a 6:1 student/faculty ratio supervise this 640-hour experience.

Admissions

Even for students meeting selective admission criteria, admission to program areas is dependent on capacity, resulting in the selection of the best-qualified applicants. In addition to meeting minimum Phase II criteria, the faculty may exercise professional judgment in the selection of students through personal interviews and program specific essays.

Admission to a specific program is a prerequisite to many upper-level education courses and associated field experiences (including the teaching internship). A student admitted to a professional program (Phase II) must maintain the standards met at the time of admission. Continued assessment will be made of the characteristics associated with effective performance in the role of a professional at each level and in the program. See specific requirements for admission to each of the three phases of the chosen major.

Freshmen

Undergraduate students may enter the College of Education as first-year students at MU.

Transfer Students

The College of Education accepts transfer students consistent with the transfer/articulation policy of the Missouri Department of Higher Education. The transfer policy does not waive or alter any course requirements for the Bachelor of Science in Education or the Bachelor of Educational Studies degrees. Grades received from other accredited institutions are recorded on the MU transcript as they were earned (A = A, etc.). Courses from other University of Missouri institutions are calculated into the UM GPA of Record and grades received from other accredited institutions are calculated into the overall grade point average for admission to the College of Education.

Students transferring to the College of Education with a completed Associate of Arts (AA) degree from a Missouri institution will be considered to have completed the first two years of university general education requirements. Students transferring with a completed Associate of Arts in Teaching (AAT) degree from a Missouri institution will be considered to have completed the first two years of university general education and lower division (Phase I) professional education coursework. Additional course work may be needed to satisfy prerequisites or degree requirements for Phase II and Phase III of the chosen program.

International Students

International students enrolled in the BSEd program must have earned a score of 600 (paper-based) or 100 (internet-based) on the TOEFL exam. International students enrolled in the BES program must have a score of 550 (paper-based) or 79 (internet-based) on the TOEFL exam.

Exploratory Courses

Students wishing to explore Teacher Education may enroll in LTC 11XX for 1 credit hour in the emphasis area of interest.

Preprofessional Information

Many of the program areas contain preprofessional course work that must be completed with specific course grades prior to the selective admission process for Phase II of the program or the teaching internship (Phase III). Contact the Academic Advising and Certification Services Office for the specific course work required for the area of interest.

Grade Point Average

The College of Education uses the UM GPA of record to assess students’ academic standing and progress. Both the UM GPA of record and overall grade point average at the level required are used to determine eligibility for admittance and progression. (see Calculation of Grade Point Averages below for levels)
Time Limits on Credits Earned
The Office of Admissions evaluates transfer credit. All course work must meet the current state minimum requirements for teacher certification. Course work completed in the discipline must be evaluated by faculty within that area to be applicable.

Academic Regulations
Calculation of Grade Point Averages (GPA)
To remain in good standing with the college, a student must earn a minimum UM term and cumulative GPA of record, as described below:

<table>
<thead>
<tr>
<th>Credits</th>
<th>BSEd GPA</th>
<th>BES GPA (Non-Certificate)</th>
</tr>
</thead>
<tbody>
<tr>
<td>0-29</td>
<td>2.600</td>
<td>2.500</td>
</tr>
<tr>
<td>30-59</td>
<td>2.700</td>
<td>2.500</td>
</tr>
<tr>
<td>60 credits and above</td>
<td>2.750</td>
<td>2.500</td>
</tr>
</tbody>
</table>

Satisfactory/Unsatisfactory Grades
In addition to University policies on S/U grading, professional education courses, excluding field experiences and orientation, may not be completed under the S/U grading system.

Advanced Standing
In addition to University standards for advanced-standing credit, content courses, as defined by teacher certification, must be completed with a UM cumulative GPA of record of 3.000 or better to satisfy Missouri requirements for certification. Advanced-standing credit includes course work used to satisfy degree requirements, including any elective portion of the degree program.

Courses taken from other institutions after students have matriculated to UM must have prior approval.

Probation, Suspension and Dismissal
A student in good standing (see Calculation of Grade Point Averages above) whose MU GPA of record and/or cumulative grade point average falls below the level outlined is placed on scholastic probation. In addition, any student admitted to the College of Education who does not meet the minimum entrance standards (e.g., admission due to extenuating circumstances or admission of a returning student) will enter on scholastic probation.

A student on scholastic probation whose MU term grade point average for a subsequent enrollment semester is at or above the level specified, but whose UM cumulative grade point average is below the level required for good standing is placed on conditional scholastic probation. A student may be on conditional scholastic probation for two enrollment semesters only. If the MU cumulative grade point average is not at the level required for the student’s classification at the conclusion of the period of conditional scholastic probation, the student is ineligible for continued enrollment in the College of Education.

A student whose MU term and cumulative GPA of record falls below 2.000 is ineligible for enrollment at MU. (Exception: a first-semester freshman whose UM term GPA is below 1.000 may, at the discretion of the associate/assistant dean for academic programs, be placed on conditional scholastic probation instead of being declared ineligible.)

Capstone Options
All students graduating from the College of Education are required to complete a capstone experience. For students completing a BSEd, the internship experience (Phase III) serves as the capstone. For the BES degree, a minimum two hour capstone is required in collaboration with a faculty member in the College of Education.

Graduation Requirements
University requirements state that students must earn 30 of the last 36 credits applicable to their degree in MU courses. For the BSEd, these courses must include the student teaching internship. For the BES, they must include an approved capstone course for a minimum of two semester hours.

Graduation with Departmental Honors
The College of Education maintains a Dean’s List that includes all College of Education undergraduates who are enrolled in 12 or more credits of graded (A-F) course work, and who have a 3.500 or higher UM term GPA.

The College of Education awards Latin Honors designations will be based on the Spring graduates each year, and those GPAs will determine the levels that will be applied to Summer and Fall graduates during that calendar year. The top 5% will receive Summa Cum Laude distinction, the next 10% Magna Cum Laude, and the remaining 15% Cum Laude for each of the program area categories (Early Childhood and Elementary, Middle School, Secondary/K12, and Special Education).

Students must earn a minimum of 60 credits on the MU campus to be eligible for Latin Honors designation. Determination of eligibility is will be based on either the cumulative MU GPA of record, or the MU GPA for the last 60 hours of credits, whichever is greater.

In no case will a Latin Honors designation be conferred for an individual whose overall MU GPA is less than 3.6.

In addition, College of Education students may participate in a University Honors Program. (See the Honors College (p. 732) information on this site).

Academic Affairs
The College of Education offers services to assist undergraduate students interested in pursuing a degree in Education.

Academic Advising
101/102 Hill Hall
573-882-5659
MizzouEdAdvising@missouri.edu

Academic Advising, located in 101/102 Hill Hall, is dedicated to the academic, professional and personal success of all students. The office is committed to building a one-on-one professional collaborative relationship that empowers students to explore opportunities and develop and implement individual academic and life goals. Meeting with a professional advisor early and regularly is a necessary component of this relationship. Degree choice and requirements, campus involvement, academic struggles, study abroad options, graduate school program and the certification process are just a few of the many topics that can be explored in working with a professional advisor.
Career Services
105 Hill Hall
573-882-5069
MizzouEdCareers@missouri.edu

The Education Career Services Office, located in 105 Hill Hall, specializes in the development of cover letters and résumés, preparation for interviews, and implementation of an effective job search. Students will find considerable support in building a professional, self-managed credential file needed for the field of education. In addition, this office provides information about job openings, school district contacts, and career fairs, as well as hosts on-campus interviews with potential employers.

Students will find additional assistance at www.hiremizzoutigers.com (http://www.hiremizzoutigers.com), but also the Education Career Services website at http://caps.missouri.edu, which contains extensive resources exclusively for the job seeker in the field of education.

Assessment and Certification
2 Hill Hall
573-884-9556
MizzouEdCertification@missouri.edu

Multiple data points will be collected throughout a student’s time in the College of Education to ensure University of Missouri and DESE certification standards are upheld. Assessment and Certification, located in 2 Hill Hall, will be the primary collection and reporting resource for this data. Assessment and Certification work very closely with the Office of Teacher Education, Academic Advising and the MU Registrar.

Recruitment and Retention Initiatives
104 Hill Hall
573-882-7772
MizzouEdRecruit@missouri.edu

The Office of Recruitment and Retention, located in 104 Hill Hall, serves as a welcome center for prospective and current students as well as their families. Through student tours and recruitment events, the staff showcase the College of Education and highlight opportunities and services provided to our students. The staff advise and assist prospective students in understanding College of Education degree programs, admission requirements, and financial assistance options. In addition, the office provides programs and initiatives tailored to the recruitment, retention, and matriculation of underrepresented student populations.

International and Intercultural Initiatives
218 Townsend Hall
573-882-0732

The Office of International and Intercultural Initiatives, located in 218 Townsend Hall, designs initiatives and supports undergraduates as they develop cultural competence and intercultural understanding through foreign and domestic experiences. These experiences include on campus multicultural events and activities, as well as study/teach abroad opportunities in Italy, Ghana, Tanzania, Australia/New Zealand, South Korea, India, South Africa, Jakarta, Thailand; and service learning opportunities in organizations such as Centro Latino, Columbia Public Schools and Granny’s House.

Office of Scholarship Services
102C Hill Hall
573-884-7848
MizzouEdScholarships@missouri.edu

The Office of Scholarships helps students pursue scholarships and fellowships. This office disseminates information about scholarship opportunities and deadlines to current and potential students. Incoming Freshmen become eligible for College of Education scholarships when they submit their MU Annual Scholarship Application, due December 1st of each year. Returning and Transfer Students become eligible for College of Education scholarships when they submit their MU Annual Scholarship Application, due by February 1st each year. The Scholarship Coordinator then assists the Financial Awards Committee, which consists of College of Education faculty members, as they determine recipients based on the criteria for each scholarship.

The scholarship website lists the numerous scholarships available for undergraduate students majoring in Education: http://education.missouri.edu/academics/financial_assistance/scholarships-undergraduate.php

Teacher Education
Office of Teacher Education
202 Townsend Hall
573-882-0560
TeacherEducation@missouri.edu

The Office of Teacher Education is committed to supporting students as they progress through the phases of their academic career including answering general questions about all aspects of the program and making sure that you are enrolled in the appropriate education courses. This office works in conjunction with all MizzouEd departments in Academic Affairs, to provide the best educational experience for our students.

Field Experience
202 Townsend Hall
573-882-4364
MizzouEdFieldExp@missouri.edu

The Office of Field Experience supports students in all phases leading up to and including the student teaching internship. The professional staff makes regular contact with school district faculty and administrators in Columbia and around the state to assure that students encounter high-quality field experiences where they gain knowledge and assume progressive responsibilities within classroom settings. In addition, the office provides guidance to any student who requests additional help to prepare for student teaching.

Academic Programs

College of Education Requirements - BSEd

As Mizzou Ed continues to implement the new Missouri Standards for the Preparation of Educators mandated by the Department of Elementary and Secondary Education (DESE), curriculum changes will be required that must be met in order to complete your degree and earn teacher certification. Those changes may become effective at any point during your academic program. Therefore, it is extremely important that you DO NOT SELF ADVISE.
College of Education Requirements - BES

In addition to the University general education (p. 20) and graduation requirements (p. 19), students must complete the following degree requirements and additional major requirements:

- 24 hours of education coursework with a 2.500 cumulative and overall UM GPA
- Twenty-four hours of coursework focusing on a particular concentration
- Completion of a graduation check in collaboration with a professional advisor once 60 credit hours of coursework are completed
- Multicultural studies requirement; students address this requirement by demonstrating competence on diversity standards in their education coursework.
- Students will complete a two hour minimum capstone course in collaboration with a faculty member in the College of Education.

Professional Education

The College of Education professional education requirements include those that are common to all majors as well as requirements that are specific to each major. Students must meet the following requirements:

- Course GPA of 2.00 or better with an overall professional education GPA of at least 3.000 (required for Missouri Teacher Certification)
- UM GPA of record and overall GPA of 2.750
- GPA of 3.000 in the content area for students majoring in a degree leading to certification in a subject (K–12, 9–12, 5–9 or PK-3)

Teacher Education Courses

Students proceed through three phases as they complete the baccalaureate program. Each phase includes training in technology as well as clinical experience. University general education and content requirements are completed each semester in addition to the required program area courses.

Phase I

This phase provides students with an immersion into the discipline and culture of teaching and learning before focusing on a teaching specialty. It includes five courses for a total of 9 credits: LTC 11XX, ESC_PS 2010 and ESC_PS 2014, LTC 2040 and LTC 2044. Experiences in this phase incorporate the teacher’s roles in facilitating learning at all levels of development. Students also focus on how problems of schools, family, community and society affect educators. The emphasis in Phase I is on career exploration and oral and written communication. All students in the BSEd degree program complete these courses regardless of major. Students majoring in Special Education complete an additional course in Phase I, SPC_ED 4300, for a total of 12 hours in Phase I.

Phase II

This phase occurs over a three-semester sequence and focuses increasingly on a chosen teaching emphasis and on interdisciplinary teaching. Experiences in this phase focus on instructional strategies, human development, classroom and behavior management and educational measurement. This phase provides students with experience in the methods of teaching in a specific subject area as well as emerging problems and practices within the field of education. Certain degree programs have limited enrollments. The number of credits is dependent on the selected program. See specific majors for courses required in Phase II.

Application to Phase II is required. Students become eligible for consideration for admittance to Phase II in a specific program after meeting the following criteria:

- Current enrollment in the College of Education
- 2.750 UM GPA of record and overall GPA (on a 4.000 scale)
- Passing score on the Missouri General Education Assessment
- ENGLISH 1000 with a “C” range grade or higher
- MATH 1100 with a “C” range grade or higher
- Demonstration of competence of Phase I learning markers as demonstrated by satisfactory completion of Phase I courses (LTC 11XX, grade of “S”; ESC_PS 2014 and LTC 2044, grade of “S” in each course; ESC_PS 2010 and LTC 2040, grade of “C” (2.00) or higher in each course)
- Demonstrated competence of Phase I mid-preparation benchmarks (as documented by Phase I instructors)
- Additional requirements as designated by the faculty
- Possession of characteristics associated with effective performance in a professional role at the level(s) and in the major(s) selected
- Completion of application for progression

Decisions regarding Phase II admission are made by program faculty. Meeting minimum requirements for admission to Phase II does not guarantee admission to Phase II.

Phase III

Phase III occurs during the last semester (or last year) with student placement in a public school district for the entire semester, for approximately 16 weeks (14 credit hours).

Application for Phase III is required. To qualify for the teaching internship, applicants must meet the following requirements:

- Admission to Phase III in the program area
- Successful completion of Phase II
- A minimum of 90 completed credit hours
- Completion of at least the preceding semester in residence
- A minimum 2.750 UM GPA of record and an overall GPA of 2.750 (on a 4.000 scale)
- Completion of specific prerequisite professional education and subject area course requirements for the level at which the teaching internship is to be accomplished

Teaching internship placements are available in several districts across the State of Missouri. Applications are accepted approximately a year preceding internship. More information concerning student teaching internships may be obtained from Field Experience Office, 202 Townsend Hall, in the College of Education.

Teacher Certification Licensures

Completion of the BSEd and any additional requirements for certification must be completed before the graduate is eligible for an Initial Professional Certificate from the Department of Elementary and Secondary Education in the State of Missouri.

Recommendation for initial certification after graduation requires:
• Passing score on the Content Area Exam for each major (the examination should be taken during the last year of the program and official scores submitted to the University of Missouri)
• Official transcripts with the degree posted submitted to Office of Assessment in 2 Hill Hall.
• Submission of an IPC application from the DESE web application website (https://k12apps.dese.mo.gov/webLogin/login.aspx) to MU
• The Department of Elementary and Secondary Education also requires that students seeking additional certification in other teaching subjects take the Content Area Exam in those additional subjects in order to be considered a Highly Qualified Teacher.

A student recommended for teacher certification must meet the following criteria:
• Cumulative UM GPA of record of 2.750
• Overall GPA of 2.750 for all college course work completed
• Cumulative GPA of 3.000 in all content area course work
• 2.000 in each professional education course with overall 3.000 GPA on all professional education course work
• Satisfactory score on the Content Area Exam required by the State of Missouri
• An official copy of the student’s transcript with baccalaureate degree posted submitted to the Office of Assessment in 2 Hill Hall.
• Complete online application for an Initial Professional Certificate through the Department of Elementary and Secondary Education (DESE) web application

Graduate

Now is an exciting time to pursue graduate studies in the College of Education. A range of professional and continuing education degrees are available, many with specializations.

Our 122 faculty mentors create a rich environment as they are not only involved in teaching, but also heavily invested in research programs and centers. Faculty members balance their research efforts with student coordination and guidance. Choosing the right college for graduate studies is not an easy or simple decision. We welcome you to visit the MU Columbia campus and meet with our faculty and current students to find out more about life in the College of Education.

Note: Prospective graduate students must apply to both the degree program of interest and to the MU Graduate School. In most cases, the entire application process may be completed online. Find admission and application details by selecting the degree program of interest in the left navigation column.
Career and Technical Education

Career and Technical Education (CTE) is for people interested in a wide variety of possible careers related to education for employment. CTE programs are intended to prepare students to be effective instructors and workforce development professionals at community colleges, area vocational-technical career centers, or corporate training centers. Program coursework emphasizes a foundation in curriculum design, teaching methods, student assessment, instructional program design and management, educational philosophy, learner psychology, and educational technology.

For undergraduate students, the online Bachelor of Educational Studies degree program has numerous options that allow students to focus on any one of a variety of areas such as strategic human resource development, instructional design, health professions education, and youth development professions.

For individuals interested in graduate education, there are two emphasis options in the Master of Education in CTE:

The Business & Marketing Education option is for those interested in teaching subjects such as Business Administration, Computer Information Systems, Administrative Office Systems, Personal Financial Planning, Advertising & Marketing, Retail Management & Sales, Accounting & Business Finance, and International Business.

The Vocational Technical Education emphasis is designed for careers teaching in fields such as Allied Health Professions, Telecommunications and Electronic Technology, Construction Trades, Culinary Arts and Food Science, Automotive Technology, Small and Marine Engine Repair, and Industrial and Manufacturing Processes.

Faculty

Associate Teaching Professor Anthony "Tony" Barbis *

* Graduate Faculty Member - membership is required to teach graduate-level courses, chair master’s thesis committees, and serve on doctoral examination and dissertation committees.

** Doctoral Faculty Member - membership is required to chair doctoral examination or dissertation committees. Graduate faculty membership is a prerequisite for Doctoral faculty membership.

Undergraduate

The University does not offer an undergraduate degree in Career and Technical Education. Students interested in this field might want to consider the online Bachelor of Educational Studies (BES) degree program coordinated by the LTC program area is the undergraduate option for individuals who want to teach or work in workforce education. The degree program is designed for people who plan to work with adult learners at community colleges, workforce development programs, and continuing professional education programs. It is intended to prepare students to become effective educational professionals by providing not only the traditional broad-based education of a 4-year degree, but also a foundation in curriculum design, teaching methods, and other aspects of the field of adult education.

For information about the online BES program, contact the College of Education Advising Office:
Phone: 573-882-5659
Address: 101 Hill Hall

email: education_advising@missouri.edu

MEd in Career and Technical Education

The Master of Education in Career and Technical Education (CTE) is a 33 credit-hour online degree program designed for people interested in a wide variety of possible careers related to education for employment. This program is intended to prepare students to be effective instructors and workforce development professionals at community colleges, area vocational-technical career centers, or corporate training centers. Program coursework emphasizes a foundation in curriculum design, teaching methods, student assessment, instructional program design and management, educational philosophy, learner psychology, and educational technology. There are two emphasis options in the CTE program.

The Business & Marketing Education option is for those interested in teaching subjects such as Business Administration, Computer Information Systems, Administrative Office Systems, Personal Financial Planning, Advertising & Marketing, Retail Management & Sales, Accounting & Business Finance, and International Business.

The Vocational Technical Education emphasis is designed for careers teaching in fields such as Allied Health Professions, Telecommunications and Electronic Technology, Construction Trades, Culinary Arts and Food Science, Automotive Technology, Small and Marine Engine Repair, and Industrial and Manufacturing Processes.

Admissions

Admission Deadlines

• May 1 for fall admission (classes beginning in August)
• October 1 for spring admission (classes beginning in January)
• March 1 for summer admission (classes beginning in June)
Applicants are encouraged to submit their applications as early in the process as possible. Applications can take 6-8 weeks to expedite completely. Every reasonable effort will be made to process the application for the semester requested.

**Thesis/Non-Thesis Requirements**

Students in the M.Ed. in CTE will create a portfolio that will serve as the summative capstone of the program of study in lieu of a thesis or comprehensive examination. Students build the portfolio as they progress through the program by adding material from the courses in the Plan of Study. Guidelines for the capstone portfolio project are provided to students early in the program.

**Admission Requirements**

- Completed bachelor’s degree (from a regionally accredited institution) in education or a subject related to the applicant’s teaching interest
- Undergraduate GPA of 3.0 on a 4.0 scale in the last 60 hours of course work
- Statement of purpose
- Résumé or curriculum vitae
- Two letters of recommendation (Letters should attest to applicant’s professional competence, academic preparation and potential for graduate work.)
- If applicant’s native language is not English, the Test of English as a Foreign Language (http://www.ets.org/toefl) (TOEFL) administered within the last two years, with a score of at least 500, is required.

The Graduate Record Examination (http://www.ets.org/gre) (GRE) is not required for consideration for admission. However, applicants with competitive GRE scores whose GPA is below 3.0 will be considered for acceptance by the Special Admissions Committee.

Applicants are required to meet two sets of minimum qualifications for admissions: the requirements of the MEd in Career and Technical Education program and the minimum requirements of the Office of Graduate Studies. (http://gradschool.missouri.edu/admissions/eligibility-process/minimum-requirements.php)

**MEd in Career and Technical Education with Emphasis in Business and Marketing Education**

This online program is designed for certified secondary teachers, community college instructors, trade school facilitators, and corporate trainers. Courses in the degree program will support a graduate’s ability to be an effective teacher by providing a foundation in curriculum design, teaching methods, student assessment, instructional program design and management, learner psychology, and educational technology.

The Business and Marketing Education emphasis is for those who teach:

- Business administration
- Computer information systems
- Personal financial planning
- Advertising and marketing
- Retail management and sales
- Accounting and business finance

**Admissions**

Applicants are required to meet two sets of minimum qualifications for admission: the requirements of the MEd in Career and Technical Education program and the minimum requirements of the Graduate School (http://gradschool.missouri.edu/admissions/eligibility-process/minimum-requirements.php). Because requirements vary, you must refer to a degree program’s graduate admission page to learn about specific admission criteria, application deadlines, eligibility, and application process. Your application materials will be reviewed by both the Graduate School and the degree program to which you’ve applied before official admission to the University of Missouri.

**MEd in Career and Technical Education with Emphasis in Vocational Technical Education**

This online program is designed for certified secondary teachers, community college instructors, trade school facilitators, and corporate trainers. Courses in the degree program will support a graduate’s ability to be an effective teacher by providing a foundation in curriculum design, teaching methods, student assessment, instructional program design and management, learner psychology, and educational technology.

The Vocational Technical Instruction emphasis is for those who teach:

- Allied health science professions
- Telecommunications and electronic technology
- Construction trades
- Culinary arts and food science
- Automotive technology
- Small and marine engine repair

**Admissions**

Applicants are required to meet two sets of minimum qualifications for admission: the requirements of the MEd in Career and Technical Education program and the minimum requirements of the Graduate School (http://gradschool.missouri.edu/admissions/eligibility-process/minimum-requirements.php). Because requirements vary, you must refer to a degree program’s graduate admission page to learn about specific admission criteria, application deadlines, eligibility and application process. Your application materials will be reviewed by both the Graduate School and the degree program to which you’ve applied before official admission to the University of Missouri.

**BSEd in Early Childhood Education**

**Major Program Requirements**

Students must complete all university (p. 19), general education (p. 20), and content requirements, in addition to degree requirements. Please meet with an Academic Advisor to discuss degree requirements and to create a semester plan.

As Mizzou Ed continues to implement the new Missouri Standards for the Preparation of Educators mandated by the Department of Elementary and Secondary Education (DESE), curriculum changes will be required that must be met in order to complete your degree and earn teacher certification. Those changes may become effective at any point during your academic program. Therefore, it is extremely important that you DO NOT SELF ADVISE.

**Semester Plan**

This degree does not currently have a sample semester plan. Please schedule an appointment with an academic advisor to discuss courses.

**Undergraduate**

- BSEd in Early Childhood Education (p. 364)

The requirements for the Bachelor of Science in Education are specified in three areas: University general education, professional education and a teaching major. All students preparing to be teachers in early childhood, elementary, special education, middle or secondary schools, regardless of the major field, are required to complete the University general education program. Students transferring from other institutions are required to fulfill the equivalencies of these courses.

**Graduate**

The Early Childhood Education Program at the University of Missouri includes degree programs that focus on preparing graduates to teach in grades Birth-3. The College of Education offers a Masters (M.Ed.) and a doctorate (Ph.D.) in Learning, Teaching and Curriculum with an emphasis in Early Childhood Education. You can find out more information about the graduate program at [http://education.missouri.edu/LTC/_language_society_culture/_old-pages/early_childhood.php](http://education.missouri.edu/LTC/_language_society_culture/_old-pages/early_childhood.php).
Educational, School, and Counseling Psychology

ESCP provides a diverse, supportive, and caring environment for students. Our faculty members create rich and stimulating learning opportunities through their teaching, research, and service. Our faculty are more than academic advisors and teachers - they are mentors providing students with role models featuring the scientist-practitioner model.

Associate Division Director: T. Chris Riley-Tillman, Ph.D.

About the Program

The PhD programs in counseling psychology and school psychology is accredited by the American Psychological Association. The 2005 Faculty Scholarly Productivity Index ranked MU’s graduate program in counseling psychology 4th in the nation and the 2010 U.S. News & World Report ranked it 9th nationally.

Our faculty members create a rich and stimulating learning environment for students through their teaching, research, and service. ESCP has three centers that provide students and faculty with many opportunities to collaborate on research and service-related projects while focusing on improving life for learners in all environments.

Career Opportunities

Our graduates find employment in a wide range of settings, including colleges and universities, public schools, agencies, clinics, hospitals, business and industry, research laboratories and government service. Occupations include, but are not limited to, school counselors, licensed professional counselors, faculty members, school psychologists, psychometricians, health educators and educational researchers.
Application Deadlines

• Fall Deadline: December 1st for Counseling and School Psychology
• Fall Deadline: January 15th for Educational Psychology and Educational Research Methods and Analysis
• M Ed in Ed Psych/Student Learning and Well-being focus (online degree) - rolling admission
• M Ed, EdSp in Mental Health Practices in Schools (online degrees) - rolling admission
• M Ed in Positive Coaching (online degree) - rolling admission
• Graduate Certificate in Multicultural Education - rolling admission
• Graduate Certificate in Positive Psychology - rolling admission

Financial Aid from the Program

Some programs require an extra form or statement from those who wish to be considered for internal assistantships, fellowships or other funding packages. Check the program Web site or ask the program contact for details.

Recommended Analytic Writing score = 4

Application Deadlines

• Fall deadline: December 1st for all programs except Educational Psychology, which is January 15th
• M Ed/MA in Health Education & Promotion - rolling deadline
• Career & Sport Psychology - rolling deadline
• M Ed, EdSp track in Mental Health Practices in Schools (online degrees) - rolling deadline Deadlines

Note: If an applicant is admitted but does not hold a bachelor’s degree in a related discipline or does not have relevant background course work, the applicant must complete prerequisite courses as specified by the faculty of the department.

Required Application Materials

To the Graduate School:

• All required Graduate School documents
• Official transcripts
• GRE scores
• TOEFL scores
• 3 letters of recommendation via the online application
• Personal statement and vitae via online application per departmental requirements

MA in Educational, School, and Counseling Psychology with Emphasis in Counseling Psychology

Degree Requirements

The MU Masters program in Counseling Psychology provides students training and education in the scientist-practitioner philosophy that is consistent with most Counseling Psychology Ph.D. programs, including the one at MU. Students will complete core coursework in counseling psychology and receive clinical training in the form of practicum experience and research training through faculty labs, research teams, and other research projects. They will also be required to complete an independent research manuscript during their second year in the program. This program has more of a research focus than most counseling masters programs. The program is not designed for students interested exclusively in practicing at the masters level, and students who graduate from this program will not yet be license-eligible for a LPC in the state of Missouri (this would require additional coursework and training).

Graduate Studies and the degree program to which you’ve applied before official admission to the University of Missouri.

MA in Educational, School, and Counseling Psychology with Emphasis in Educational Psychology

- Sample Plan of Study (p. 368)
- Thesis/Non-Thesis Requirements (p. 368)
- Admissions (p. 368)

Degree Requirements

The Educational Psychology program is committed to the dissemination and development of knowledge and skills in human learning and cognition, development, and motivation. We use quantitative and qualitative methods to study how people’s thinking, motivation, and behavior change across time. We study how different social settings like classroom, family, work, and peers affect people’s well-being, learning and behavior. The study of educational psychology is relevant to teachers, coaches, athletes, nurses, counselors, software developers, trainers, social workers, program evaluators, and administrators.

Educational psychologists attempt to understand:
- how to improve learning, academic achievement, and motivation
- developmental influences on learning and well being
- how society influences learning and behavior
- school influences on students’ development in other settings
- improving human performance

The master’s degree program requires at least 33 credit hours. Students enrolled in the MEd take a 4 hour comprehensive exam at the end of the program. Students enrolled in the MA do a thesis or research manuscript that demonstrates research competence and includes an oral defense of the paper. The MA is the preferred degree for students who intend to pursue a PhD.

Master’s students must have completed or plan to complete 15 hours of prerequisite course work as listed below. The prerequisite coursework is over and above that required for the master’s degree itself, and thus cannot be counted on the Program of Study for the master’s degree. Many students will have completed these prerequisites in their undergraduate programs.

1. **Statistics:** A course in statistics covering descriptive statistics, correlation, t-tests, and chi-square. If undergraduate coursework does not include an introductory level course in statistics, ESC_PS 4170/ESC_PS 7170 must be taken to satisfy this prerequisite, but it then cannot count on the Program of Study.
2. **Psychological Theory:** Two courses in psychological theory (not including the introductory course in psychology), for example, personality, social, developmental, or learning.
3. **Additional courses:** Two additional courses in education, psychology, or sociology.

### Required Coursework

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>ESC_PS 8020</td>
<td>Overview of Research Methods</td>
</tr>
</tbody>
</table>

**Thesis/Non-Thesis Requirements**

The thesis/research manuscript is a project that the student completes with his or her advisor and receives advisor approval. This project will serve as the student's comprehensive examination. Two additional committee members will be required to approve the project. The project can be either a comprehensive literature review (i.e., modeled after a review article one would see in a scholarly journal) or an independent research study written in manuscript form (i.e., introduction, method, results, discussion) or traditional thesis format. The topic of the project should be selected by the beginning of the student’s second year in the program. The project is to be completed by the deadline date for comprehensive examinations, dissertations, and thesis in April of the student’s second year.

**Admissions**

Applicants are required to meet two sets of minimum qualifications for admission: the requirements of the MA in Educational and Counseling Psychology program (http://gradschool.missouri.edu/academics/programs/educational-school-and-counseling-psychology/ma-m.ed-or-edsp-in-educational-school-counseling-psychology.php) and the minimum requirements of the Office of Graduate Studies (http://gradschool.missouri.edu/admissions/eligibility-process/minimum-requirements.php). Because requirements vary, you must refer to a degree program’s graduate admission page to learn about specific admission criteria, application deadlines, eligibility and application process. Your application materials will be reviewed by both the Office of
Sample Plan of Study

The plan of study will depend on the student’s career goals and research interests, and should be completed in consultation with the advisor.

Thesis/Non-Thesis Requirements

After working with the academic advisor on developing a thesis proposal, the student meets with the thesis committee to obtain approval. This happens before data collection begins. After the project is completed, the student submits a written thesis and defends the thesis to the committee. The defense can occur only when MU is officially in session.

Admissions

Applicants are required to meet two sets of minimum qualifications for admission: the requirements of the MA in Educational and Counseling Psychology program (http://gradschool.missouri.edu/academics/programs/educational,-school-and-counseling-psychology/ma,-med-or-edsp-in-educational,-school-counseling-psychology.php) and the minimum requirements of the Graduate School (http://gradschool.missouri.edu/admissions/eligibility-process/minimum-requirements.php). Because requirements vary, you must refer to a degree program’s graduate admission page to learn about specific admission criteria, application deadlines, eligibility and application process. Your application materials will be reviewed by both the Graduate School and the degree program to which you’ve applied before official admission to the University of Missouri.

MA in Educational, School, and Counseling Psychology with Emphasis in Educational Research Methods and Analysis

Degree Requirements

This program focuses on design and analysis of quantitative studies. Researchers typically begin with adopting appropriate study designs (e.g., experimental, quasi-experimental, and observational study designs) for their research purpose. Researchers must verify that their measures are reliable and valid and may use analytic techniques like classical test theory or item response theory (IRT). Researchers submit their data to statistical techniques like analysis of variance (ANOVA), regression, structural equation modeling (SEM), and hierarchical linear model (HLM) to analyze the relationship among variables to answer their research questions.

General Core Courses

21

Statistics and Research

15

ESC_PS 7170 Introduction to Applied Statistics
ESC_PS 8020 Overview of Research Methods
ESC_PS 8082 Foundations of Educational and Psychological Measurement
ESC_PS 8957 Qualitative Methods in Educational Research
ESC_PS 8850 Quantitative Foundations in Educational Research

Research Methods Emphasis Area

12

Courses in this area may vary. Possible courses include:

ESC_PS 9650 Application of Multivariate Analysis in Educational Research
ESC_PS 9710 Structural Equation Modeling
ESC_PS 9720 Hierarchical Linear Modeling
ESC_PS 8655 Item Response Theory
ESC_PS 8087 Seminar in Educational, School, and Counseling Psychology
ESC_PS 8890 Educational Planning and Evaluation

Selected graduate level courses in the Psychology Department with advisor approval (e.g. latent variable models in statistical analyses, categorical data analysis)

Selected graduate level courses from the Statistics Department with advisor approval (e.g. Bayesian statistics, nonparametric statistics). NOTE: MA with thesis or manuscript, 6 hours of these courses must be ESC_PS 8090.

Sample Plan of Study

The plan of study will depend on the student’s career goals and research interests, and should be completed in consultation with the Master’s Committee.

Thesis/Non-Thesis Requirements

The student will consult with the academic advisor and decide to complete a thesis or manuscript. After working with the academic advisor on developing a thesis or manuscript proposal, the student meets with the Master’s program committee to obtain approval of the written thesis or manuscript proposal. This happens before data collection begins. After the project is completed, the student submits a written thesis or manuscript and defends the thesis or manuscript to the Master’s program committee. The defense can occur only when MU is officially in session.

Admissions

Applicants are required to meet two sets of minimum qualifications for admission: the requirements of the MA in Educational and Counseling Psychology program (http://gradschool.missouri.edu/academics/programs/educational,-school-and-counseling-psychology/ma,-med-or-edsp-in-educational,-school-counseling-psychology.php) and the minimum requirements of the Graduate School (http://gradschool.missouri.edu/admissions/eligibility-process/minimum-requirements.php). Because requirements vary, you must refer to a degree program’s graduate admission page to learn about specific
admission criteria, application deadlines, eligibility and application process. Your application materials will be reviewed by both the Graduate School and the degree program to which you’ve applied before official admission to the University of Missouri.

MA in Educational, School, and Counseling Psychology with Emphasis in Health Education and Promotion

Degree Requirements

Health Education is a strong graduate program within the Department of Educational and Counseling Psychology. The graduate program serves bachelors and masters degree students from the state of Missouri as well as from other states. Many of our graduate students are professionals practicing in the field and come to MU for graduate training. A number of our graduate students cross train in health related fields like athletics, nursing, nutrition, physical training, physical therapy, occupational therapy, and psychology.

Students who earned a bachelor’s degree in a health-related program of study are qualified to enter the masters program in health education. A minimum of 30 credit hours are required for the M.A. M.A. students are required to write a thesis. Students who earn a master’s degree are encouraged to take the CHES (Certified Health Education Specialist) examination for certification.

Thesis/Non-Thesis Requirements

All MA students are required to complete a Thesis in the last semester of the program.

Admissions

This program is not accepting applications at this time.

MA in Educational, School, and Counseling Psychology with Emphasis in School Psychology

Degree Requirements

The Masters of Arts (M.A.) program in School Psychology is completed concurrently with the Doctoral (Ph.D.) program in School Psychology. The M.A. program itself is not a terminal degree program. Students admitted to the Doctoral program in School Psychology (Ph.D.) who have already completed an advanced degree in School Psychology or a related field, including completion of a data-based graduate level research project, may not be required to complete a Masters of Education (M.A.) program in School Psychology. Students admitted to the Ph.D. degree program typically complete degree requirements (coursework and comprehensive examination) for the Masters of Arts by the end of their second year in the program. Students admitted to the M.A./Ph.D. programs in School Psychology are prepared to support the learning, behavior, and mental health of youth and their families as well as support the enhancement of the educational and mental health systems that serve those children and families. Through coursework as well as research, clinical, and teaching experiences, graduates are prepared to serve as leaders in clinical settings as well as researcher/scholars in higher education settings. Completion of the M.A. program alone does not lead to licensure as a Psychologist nor state certification as a School Psychologist, however graduates of both the M.A. and Ph.D. programs are eligible for licensure as a Psychologist and state certification as a School Psychologist, pending completion of additional examinations specified in their intended jurisdiction.

Thesis/Non-Thesis Requirements

Students are required to complete a data-based research project in order to earn their M.A. in School Psychology. Students have two options, the master’s thesis or the master’s manuscript, both requiring similar scholarly and scientific rigor to their project. The thesis option requires that students comply with the graduate school expectations for committee membership and formatting, while the manuscript option does not. Students taking the latter option often format their manuscript for publication in professional journals.

Admissions

Students are admitted concurrently to the M.A. and Ph.D. programs in School Psychology based on the admissions criteria identified below in the Doctoral program.

MEd in Educational, School, and Counseling Psychology

Admission Contact Information

Christina Edholm (EdholmC@missouri.edu)
16 Hill Hall; Columbia, MO 65211

Admission Criteria

• Minimum GPA: 3.0
• Minimum TOEFL scores:
  - Internet-based test (IBT)
    - Required: 92
  - Paper-based test (PBT)
    - Required: 580

Recommended Analytic Writing score = 4

Application Deadlines

• Fall deadline: December 1st for all programs except Educational Psychology, which is January 15th
• M Ed/MA in Health Education & Promotion - rolling deadline
• Career & Sport Psychology - rolling deadline
• M Ed, EdSp in Mental Health Practices in Schools (online degrees) - rolling admission
• M Ed in Positive Coaching (online degree) - rolling admission

Note: If an applicant is admitted but does not hold a bachelor’s degree in a related discipline or does not have relevant background course work, the applicant must complete prerequisite courses as specified by the faculty of the department.

Required Application Materials

To the Graduate School:

• All required Graduate School documents
• Official transcripts
• GRE scores
• TOEFL scores
• 3 letters of recommendation via the online application
• Personal statement and vitae via online application per departmental requirements

Note: Online programs do NOT require GRE scores. Check individual online programs for required application materials.

MEd in Educational, School, and Counseling Psychology with Emphasis in Career Counseling Psychology

Degree Requirements

Career Psychology provides the theoretical basis for this program. It prepares one to practice in a variety of settings, most notably college career or advising centers, other student affairs settings, or business settings where there may be opportunity for defining or developing career roles for students or employees. MU’s Career Center is where students practice what is learned in classes making this a strong scientific-practitioner model of training. This program was designed to move one toward qualifying a student to meet most but not all of the State of Missouri’s curricular requirements for Licensure as a Professional Counselor (LPC). In addition to completing course work beyond what is
required for this degree, the graduate must also complete 3000 hours of supervised counseling and pass a licensure examination.

**Admissions**

Applicants are required to meet two sets of minimum qualifications for admission: the requirements of the MEd in Educational, School & Counseling Psychology program (http://gradschool.missouri.edu/academics/programs/educational,-school-and-counseling-psychology/doctorate-in-educational,-school--counseling-psychology.php) and the minimum requirements of the Office of Graduate Studies. (http://gradschool.missouri.edu/admissions/eligibility-process/minimum-requirements.php)

Apply online by submitting the following documents using the MU Office of Graduate Studies (https://app.applyyourself.com/AYApplicantLogin/fl_ApplicantConnectLogin.asp?id=umc-grad) application form by December 1st for the next Fall cohort.

1. Three letters of recommendation
2. Curriculum Vita
3. Official academic transcripts of all previous undergraduate and graduate work
   a. Minimum undergraduate GPA of 3.0 from an accredited institution in psychology, education, or a related major.
4. Statement of purpose addressing the following:
   a. Describe interests and experiences working with people from diverse backgrounds (e.g. ethnic, cultural, socio-economic, religious, ability status, sexual orientation). How have these experiences influenced you? (250 word maximum).
   b. Describe experiences that demonstrate your potential for leadership that you believe distinguish you as a candidate for graduate study. (250 word maximum)
   c. Describe (1) your previous experience serving in a helping or counseling role, (2) your interests and career objectives, (3) how these interests and career objectives have developed, (4) how these interests match those of specific program faculty, and (5) how being accepted into the program of your choice will benefit your career aspirations and help you act upon your beliefs, goals, and philosophy. (Please limit to 1000 words)
5. Official Graduate Record Examination (GRE) scores for tests taken on or after August 1, 2011 should have a combined Verbal and Quantitative score of 305 or tests taken prior to August 1, 2011 combined Verbal and Quantitative score of 1200 or higher.
6. TOEFL for international students (preferred score of 580 for paper test, 92 iBT, IELTS 6.5 or higher)

Applicants with a bachelor's degree in a field not related to psychology will be required to complete 15 hours of prerequisite courses in the behavioral sciences (including an introductory statistics course) either prior to, or concurrently with, coursework in the program. This prerequisite coursework is over and above that required for the master's degree itself and is not counted on the Program of Study for the master's degree.

**Thesis/Non-Thesis Requirements**

Students are required to portfolio. The purpose of developing a career counseling portfolio as your comprehensive exam is to provide a sense of integration of the varied skills you have developed over the course of your master's degree.
MEd in Educational, School, and Counseling Psychology with Emphasis in Counseling Psychology

Degree Requirements

The MU Masters program in Counseling Psychology provides students training and education in the scientist-practitioner philosophy that is consistent with most Counseling Psychology Ph.D. programs, including the one at MU. Students will complete core coursework in counseling psychology and receive clinical training in the form of practicum experience and research training through faculty labs, research teams, and other research projects. They will also be required to complete an independent research manuscript during their second year in the program. This program has more of a research focus than most counseling masters programs. The program is not designed for students interested exclusively in practicing at the masters level, and students who graduate from this program will not yet be license-eligible for a LPC in the state of Missouri (this would require additional coursework and training).

   b. Describe experiences that demonstrate your potential for leadership that you believe distinguish you as a candidate for graduate study. (250 word maximum)
   c. Describe (1) your previous experience serving in a helping or counseling role, (2) your interests and career objectives, (3) how these interests and career objectives have developed, (4) how these interests match those of specific program faculty, and (5) how being accepted into the program of your choice
will benefit your career aspirations and help you act upon your beliefs, goals, and philosophy. (Please limit to 1000 words)

5. Official Graduate Record Examination (GRE) scores for tests taken on or after August 1, 2011 should have a combined Verbal and Quantitative score of 305 or tests taken prior to August 1, 2011 combined Verbal and Quantitative score of 1200 or higher.
6. TOEFL for international students (preferred score of 580 for paper test, 92 iBT, IELTS 6.5 or higher)

Applicants with a bachelor’s degree in a field not related to psychology will be required to complete 15 hours of prerequisite courses in the behavioral sciences (including an introductory statistics course) either prior to, or concurrently with, coursework in the program. This prerequisite coursework is over and above that required for the master’s degree itself and is not counted on the Program of Study for the master’s degree.

**MEd in Educational, School, and Counseling Psychology with Emphasis in Educational Psychology**

**Degree Requirements**

The Educational Psychology program is committed to the dissemination and development of knowledge and skills in human learning and cognition, development, and motivation. We use quantitative and qualitative methods to study how people’s thinking, motivation, and behavior change across time. We study how different social settings like classroom, family, work, and peers affect people’s well-being, learning and behavior. The study of educational psychology is relevant to teachers, coaches, athletes, nurses, counselors, software developers, trainers, social workers, program evaluators, and administrators.

Educational psychologists attempt to understand:

- how to improve learning, academic achievement, and motivation
- developmental influences on learning and well being
- how society influences learning and behavior
- school influences on students’ development in other settings
- improving human performance

The master’s degree program requires at least 33 credit hours. Students enrolled in the MEd take a 4 hour comprehensive exam at the end of the program. Students enrolled in the MA do a thesis or research manuscript that demonstrates research competence and includes an oral defense of the paper. The MA is the preferred degree for students who intend to pursue a PhD.

Master’s students must have completed or plan to complete 15 hours of prerequisite course work as listed below. The prerequisite coursework is over and above that required for the master’s degree itself, and thus cannot be counted on the Program of Study for the master’s degree. Many students will have completed these prerequisites in their undergraduate programs.

1. **Statistics:** A course in statistics covering descriptive statistics, correlation, t-tests, and chi-square. If undergraduate coursework does not include an introductory level course in statistics, ESC_PS 4170/ESC_PS 7170 must be taken to satisfy this prerequisite, but it then cannot count on the Program of Study.
2. **Psychological Theory:** Two courses in psychological theory (not including the introductory course in psychology), for example, personality, social, developmental, or learning.
3. **Additional courses:** Two additional courses in education, psychology, or sociology.

**Requirements**

For MA with thesis or manuscript, 6 hours of these courses must be 8090. Elective courses can be taken from Educational, School, & Counseling Psychology or from other departments such as Human Development and Family Studies, Psychological Sciences, or Information Science and Learning Technology.

**Student Learning and Well-being (online)**

An online master’s degree with a student learning and well-being focus is also available. The 33-hour program was developed with the working K-12 classroom teacher in mind. Course work is completely online and provides practical applications of learning theory, motivation, assessment of student well-being, mental health, issues of bullying, positive psychology and the development of a safe and supportive school environment.

No GRE is required.

Complete program details are available at the Student Learning and Well-being website.

**Sample Plan of Study**

The plan of study will depend on the student’s career goals and research interests, and should be completed in consultation with the advisor.

**Thesis/Non-Thesis Requirements**

After working with the academic advisor on developing a thesis or project proposal, the student meets with his or her committee to obtain approval. This happens before data collection begins. After the project is completed, the student submits a written thesis and defends the thesis to the committee. The defense can occur only when MU is officially in session.

**Admissions**

Applicants are required to meet two sets of minimum qualifications for admission: the requirements of the MEd in Educational, School & Counseling Psychology program (http://gradschool.missouri.edu/academics/programs/educational,-school-and-counseling-psychology/doctorate-in-educational,-school--counseling-psychology.php) and the minimum requirements of the Office of Graduate Studies. (http://
Applying online by submitting the following documents using the MU Office of Graduate Studies (https://app.applyyourself.com/AYApplicantLogin/fl_ApplicantConnectLogin.asp?id=umc-grad) application form by January 15th for the next Fall cohort.

1. The three letters of recommendation
2. Curriculum Vita
3. Official academic transcripts of all previous undergraduate and graduate work
   a. Minimum undergraduate GPA of 3.0 from an accredited institution in psychology, education, or a related major.
4. Statement of purpose addressing the following:
5. Describe experiences teaching, designing instruction, and engaging in research and how these experiences have prepared you for graduate study. (500 word maximum)
6. Describe (1) your research interests that you hope to pursue in graduate school (2) how these interests match those of specific faculty (3) your career objectives, and (4) how being accepted into MU's program will benefit your career aspirations. (Please limit to 500 words)
7. Official Graduate Record Examination (GRE) scores (preferred combined Verbal and Quantitative score of 1200 or higher)
8. TOEFL for international students (preferred score of 580 for paper test, 92 iBT, IELTS 6.5 or higher)

Applicants with a bachelor's degree in a field not related to psychology will be required to complete 15 hours of prerequisite courses in the behavioral sciences (including an introductory statistics course) either prior to, or concurrently with, coursework in the program. This prerequisite coursework is over and above that required for the master's degree itself and is not counted on the Program of Study for the master's degree.

MEd in Educational, School, and Counseling Psychology with Emphasis in Educational Research Methods and Analysis

Degree Requirements

This program focuses on design and analysis of quantitative studies. Researchers typically begin with adopting appropriate study designs (e.g., experimental, quasi-experimental, and observational study designs) for their research purpose. Researchers must verify that their measures are reliable and valid and may use analytic techniques like classical test theory or item response theory (IRT). Researchers submit their data to statistical techniques like analysis of variance (ANOVA), regression, structural equation modeling (SEM), and hierarchical linear model (HLM) to analyze the relationship among variables to answer their research questions.

7. TOEFL for international students (preferred score of 580 for paper test, 92 iBT, IELTS 6.5 or higher)

MEd in Educational, School, and Counseling Psychology with Emphasis in Health Education and Promotion

Degree Requirements

Health Education is a strong graduate program within the Department of Educational and Counseling Psychology. The graduate program serves bachelors and masters degree students from the state of Missouri as well as from other states. Many of our graduate students are professionals practicing in the field and come to MU for graduate training. A number of our graduate students cross train in health related fields like athletics, nursing, nutrition, physical training, physical therapy, occupational therapy, and psychology.

Students who earned a bachelor’s degree in a health-related program of study are qualified to enter the masters program in health education. A minimum of 30 credit hours are required for the MEd Students who earn a master’s degree are encouraged to take the CHES (Certified Health Education Specialist) examination for certification.

Sample Plan of Study

A student’s plan of study will vary depending on her/his program track and career goals and should be completed in consultation with her/his academic advisor.

Thesis/Non-Thesis Requirements

The M.Ed. student is required to take a comprehensive examination during the last semester in the program.

Admissions

This program is not accepting applications at this time.

MEd in Educational, School, and Counseling Psychology with Emphasis in Mental Health Practices in Schools

The online Mental Health Practices in Schools (http://online.missouri.edu/degrees/ed-mhinschools) program is intended for school personnel, educators and other community mental health professionals who work with children and adolescents in schools and community agencies. This includes elementary and secondary teachers, special education professionals, school counselors, school nurses, administrators, at-risk coordinators and resource officers, safety coordinators, substance abuse coordinators, speech/language pathologists, itinerant and migrant educators, and private practitioners.

Courses are designed to offer practical applications of psychological concepts and are taught by experts in the field. The program identifies and deals with issues that promote positive mental health of children and adolescents. Courses in the program provide a solid base to increase awareness, knowledge and skills in areas such as:

- Identifying and assessing evidence-based prevention and intervention strategies and programs
- Communicating effectively with parents, children and school personnel
- Building resiliency and optimism in children and adolescents
- Increasing awareness of multicultural and diversity issues
- Understanding mental, emotional, and behavioral factors in youth
- Managing crisis interventions
- Applying wellness management for self and others
- Implementing positive behavior support and strategies in the classroom

Collaborating with families and other school personnel

Note: This program does not provide school counselor certification, nor any professional counseling licensure.

Website: Mental Health Practices in Schools (http://online.missouri.edu/degrees/ed-mhinschools).
Application Process:

Admission criteria (M Ed)

1. Successful completion of the baccalaureate degree at an accredited college/university.
2. 3.0 or better grade point average in the last 60 hours of baccalaureate coursework.
3. TOEFL score: Minimum 580 (paper) or 92 (ibt). Applies to non-native English speaking applicants only. If the non-native English speaking applicant has successfully completed one year of full-time post-secondary (college-level) study in a country where English is the native language within the past two years, then the TOEFL is waived.
4. GRE scores are NOT required.

Application Process:

1. Complete the online Application to the Graduate School (https://app.applyyourself.com/?id=umc-grad).
2. As part of the submission process, applicants are required to upload UNOFFICIAL copies of all transcripts to the online application. NOTE: If you are accepted by our academic program, you will then be asked to provide official copies of all transcripts to: Office of Graduate Studies, University of Missouri, 210 Jesse Hall, Columbia, Missouri 65211.
3. Three letters of recommendation will need to be submitted via the online application. Each recommender will receive directions on how to submit the recommendation once you have entered their contact information in the application system.
4. You must also provide the following supplementary materials: Personal Statement and Vita/Résumé via the online Application to the Graduate School (https://app.applyyourself.com/?id=umc-grad). In your statement describe:
   a. Your previous/current experience serving in a teaching, helping or counseling role,
   b. Your interests and career objectives,
   c. How these interests and career objectives have developed, and
   d. How being accepted into the program will benefit your career aspirations and help you act upon your beliefs, goals and philosophy. Include interests and experiences working with diverse groups (e.g. ethnic, cultural, socio-economic, religious, ability status, sexual orientation, grade levels, ages), leadership roles, or other skills or experiences (not previously mentioned) that you believe distinguish you as a candidate for graduate study. (Please limit to 1000 words).
5. If your native language is other than English, the Test of English as a Foreign Language (TOEFL (http://www.toefl.org)) is required. Please send this to the Office of Graduate Studies using school code 6875.
   • Please be sure to upload all supplemental materials BEFORE you submit the application.

For applicants currently enrolled as graduate students at MU:

1. Complete the Change of Degree (http://gradschool.missouri.edu/forms-downloads/repository/change-degree.pdf) form.
2. Provide unofficial copies of your University of Missouri transcripts.
3. Provide 3 letters of recommendation.

Send application materials to Sandy Sites (SitesS@missouri.edu) or mail to the ESCP Dept., 16 Hill Hall, Columbia, MO 65211

Application deadline: None - rolling admission.

MEd in Educational, School, and Counseling Psychology with Emphasis in Positive Coaching

The online Positive Coaching program (http://online.missouri.edu/degreeprograms/ed-positivecoaching) is intended for all athletic coaches and sports coordinators who have completed a bachelor's degree program, and now wish to pursue their master's degree. The program is well-suited for athletic coaches at all levels of sport participation, as well as any individuals in educational or other settings, who provide instructional, leadership or counseling services to students or to others. The required core courses focus on identifying and applying the most pertinent and impactful aspects of sport, coaching and positive psychology. The core courses also focus on leading individuals, teams and groups to experience the fulfillment and happiness associated with striving for and achieving excellence. Emphasis is on the understanding, skills and strategies of highly effective teaching, learning and leading.

The electives emphasize the development of professional knowledge and awareness of key topical issues and areas pertinent to preparing to serve
as competent, caring and committed coaches for others. Course topics include:

- Administration of athletics programs
- Ethical and legal aspects of athletics
- Athlete training and conditioning
- Gender and multicultural issues in sports
- Positive coaching
- Positive interventions contributing to coordinated school health programs
- Healthier total school or organizational environments

Website: Positive Coaching. (http://online.missouri.edu/degreeprograms/ed-positivecoaching)

**Degree Requirements**

This is a 30 credit hour program. Students take 15 hours of required core course work and 15 hours of electives.

### Thesis/Non-Thesis Requirements

Students complete a project in the capstone course ESC_PS 8300 Positive Leadership in Sport.

### Admissions

Applicants are required to meet two sets of minimum qualifications for admission: the requirements of the MEd in Educational and Counseling Psychology program (below) and the minimum requirements of the Office of Graduate Studies (http://gradstudies.missouri.edu/admissions/eligibility-process/minimum-requirements). Because requirements vary, you must refer to a degree program’s graduate admission page to learn about specific admission criteria, application deadlines, eligibility and application process. Your application materials will be reviewed by both the Office of Graduate Studies and the degree program to which you’ve applied before official admission to the University of Missouri.

### Admission criteria (M Ed)

1. Successful completion of the baccalaureate degree at an accredited college/university.
2. 3.0 or better grade point average in the last 60 hours of baccalaureate coursework
3. TOEFL score: Minimum 580 (paper) or 92 (ibt). Applies to non-native English speaking applicants only. If the non-native English-speaking applicant has successfully completed one year of full-time post-secondary (college-level) study in a country where English is the native language within the past two years, then the TOEFL is waived.
4. GRE scores are NOT required.

### Application Process:

1. Complete the online Application to the Graduate School (https://app.applyyourself.com/?id=umc-grad).
2. As part of the submission process, applicants are required to upload UNOFFICIAL copies of all transcripts to the online application. NOTE: If you are accepted by our academic program, you will then be asked to provide official copies of all transcripts to: Office of Graduate Studies, University of Missouri, 210 Jesse Hall, Columbia, Missouri 65211.
3. One letter of recommendation will need to be submitted via the online application. The recommender will receive directions on how to submit the recommendation once you have entered their contact information in the application system.
4. If your native language is other than English, the Test of English as a Foreign Language (TOEFL) is required. Please send this to the Office of Graduate Studies using school code 6875.

Note: If your undergraduate GPA (last 60 hours) is below 3.0 additional information will be required.

Please be sure to upload all supplemental materials BEFORE you submit the application.

For applicants currently enrolled as graduate students at MU:

1. Complete the Change of Degree (http://gradschool.missouri.edu/forms-downloads/repository/change-degree.pdf) form.
2. Provide unofficial copies of your University of Missouri transcripts.
3. Provide one letter of recommendation.

Send application materials to Sandy Sites (SitesS@missouri.edu) or mail to the ESCP Dept., 16 Hill Hall, Columbia, MO 65211

**Application deadline: None - rolling admission.**

### MEd in Educational, School, and Counseling Psychology with Emphasis in School Counselor, Elementary, Certification

**Degree Requirements**

Students who select this specialty have an interest in working as elementary school, middle school, or high school counselors. The curriculum of this specialty is based on the scientist-practitioner model of training as well as the comprehensive school guidance and counseling program model, both of which emphasize the best in counseling psychology theory, research, and practice. The missions of the MU School Counseling Masters and Specialist degree programs are to prepare individuals to practice successfully as entry-level multiculturally sensitive professional school counselors in socially and economically diverse work settings.

The specific courses that meet these requirements are as follows (42 credit hours):
General Psychology Core 6
- ESC_PS 8082 Foundations of Educational and Psychological Measurement
- ESC_PS 8015 Child and Adolescent Development

Counseling Psychology Core 15
- ESC_PS 7120 Foundations of Counseling Psychology
- ESC_PS 8135 Foundations of Career Psychology
- ESC_PS 8110 Methods in Group Counseling
- ESC_PS 8140 Counseling Methods and Practices (Secondary)
- ESC_PS 8145 Psychological Interventions with Children and Adolescents: Behavioral Intervention (Elementary)
- ESC_PS 8165 Psychological Interventions with Children and Adolescents: Evidence-Based Therapies (Elementary)

Practicum 9
(Students wishing to receive Elementary/Secondary certification are required to complete an additional 3 hours of practicum in the setting in which they did not previously complete a practicum plus complete all of the other coursework in both elementary and secondary school counseling.)
- ESC_PS 8940 Counseling Psychology Practicum (Elementary and Secondary School Counseling - Public Schools)
- ESC_PS 8940 Counseling Psychology Practicum (Elementary and Secondary School Counseling - Public Schools)

Specialty Requirements 12
- ESC_PS 7130 Parent Counseling and Consultation
- ESC_PS 8410 School Guidance Programs
- ESC_PS 8415 Program Evaluation for School Counselors
- ESC_PS 9000 Multicultural Issues in Counseling or ESC_PS 8580 Social and Cultural Identity Development

Required Teacher Education courses to fulfill the State of Missouri requirements for School Counselor candidates who are not Certified Teachers
- ESC_PS 2014 Inquiry into Learning I - Field Experience
- LTC 2044 Inquiry into Schools, Community and Society: Field
- ESC_PS 7000 Foundation of Teacher Prep I
- LTC 7040 Inquiring into Schools, Community and Society I
- SPC_ED 7020 Foundation of Teacher Prep II

Total Credits: 39-51

*Practicum (Students wishing to receive Elementary/Secondary certification are required to complete an additional 3 hours of practicum in the setting in which they did not previously complete a practicum plus complete all of the other coursework in both elementary and secondary school counseling.)*

Graduation requirements include a portfolio as part of the Comprehensive Exam. Students complete a portfolio as part of the Comprehensive Exam.

**Required Teacher Education courses to fulfill the State of Missouri requirements for School Counselor candidates who are not Certified Teachers:**

- ESC_PS 2014 Inquiry into Learning I - Field Experience
- LTC 2044 Inquiry into Schools, Community and Society: Field
- ESC_PS 7000 Foundation of Teacher Prep I
- LTC 7040 Inquiring into Schools, Community and Society I
- SPC_ED 7020 Foundation of Teacher Prep II

**Specialty Requirements**

Specific courses that meet these requirements are as follows (42 credit hours):

- ESC_PS 8082 Foundations of Educational and Psychological Measurement
- ESC_PS 8015 Child and Adolescent Development
- ESC_PS 7120 Foundations of Counseling Psychology
- ESC_PS 8135 Foundations of Career Psychology
- ESC_PS 8110 Methods in Group Counseling
- ESC_PS 8040 Counseling Methods and Practices (Secondary)
- ESC_PS 8145 Psychological Interventions with Children and Adolescents: Behavioral Intervention (Elementary)
- ESC_PS 8165 Psychological Interventions with Children and Adolescents: Evidence-Based Therapies (Elementary)
- ESC_PS 8940 Counseling Psychology Practicum (Elementary and Secondary School Counseling - Public Schools)
- ESC_PS 8940 Counseling Psychology Practicum (Elementary and Secondary School Counseling - Public Schools)

Total Credits: 42-54

Thesis/Non-Thesis Requirements

Students complete a portfolio as part of their comprehensive exams and defend it to a committee.

Admissions

Applicants are required to meet two sets of minimum qualifications for admission: the requirements of the M.Ed in Educational and Counseling Psychology program (http://gradschool.missouri.edu/academics/programs/educational,-school-and-counseling-psycho/ma,-med-or-mdsp-in-educational,-school--counseling-psycho.php) and the minimum requirements of the Graduate School (http://gradschool.missouri.edu/admissions/eligibility-process/minimum-requirements.php). Because requirements vary, you must refer to a degree program’s graduate admission page to learn about specific admission criteria, application deadlines, eligibility and application process. Your application materials will be reviewed by both the Graduate School and the degree program to which you’ve applied before official admission to the University of Missouri.

MEd in Educational, School, and Counseling Psychology with Emphasis in School Psychology

Degree Requirements

The Masters of Education (M.Ed.) program in School Psychology is completed concurrently with the Educational Specialist (Ed.S.) program in School Psychology. The M.Ed. program itself is not a terminal degree program. Students admitted to the Educational Specialist degree program will complete degree requirements coursework and comprehensive examination) for the Masters in Education by the end of the Winter semester of their second year in the program. Students admitted to the M.Ed./Ed.S. programs in School Psychology are prepared to work with children, youth, families, and educators to promote effective functioning in the areas of learning, behavior, and mental health in schools. Operating from a problem solving framework, our focus is on preparing data-based decision makers capable of intervening to address both individual- and systems-level challenges. Students develop professional competencies in assessment, intervention, consultation, and research/evaluation. Completion of the M.Ed. program alone does not lead to state certification as a School Psychologist, however graduates of both the M.Ed. and Ed.S. programs are eligible for state certification as a School Psychologist in Missouri.

Degree Requirements

This degree program provides a strong, fortified (48 credit hours) Masters Degree that blends the two fields of Sport Psychology and Career Counseling. Students who choose this specialty area have an interest in working with the careers of individuals in the world of sports (sport coaches, strength and conditioning coaches, athletic trainers, athletic academic counselors, Life Skills coordinators, athletic administrators, career coaches, life coaches, and the like). The curriculum is based on a scientist-practitioner model of training as well as a holistic view of how sport, career choice, and personal adjustment provide one with both an engaging and rewarding career and personal life. There is a strong emphasis on learning thru experience, where the experiences derived in and with athletic teams and with a college career center.

The Counseling Sport Psychology program was designed to move one toward qualifying a student to meet most but not all of the State of Missouri’s curricular requirements for Licensure as a Professional Counselor (LPC). In addition to required course work, the graduate must also complete 3000 hours of supervised counseling and pass a licensure examination. The Counseling Sport Psychology program was also designed to qualify a student to meet some of the Association for the Advancement of Applied Sport Psychology’s (AAASP) curricular requirements to become a Certified AAASP Consultant. Additional courses/experiences necessary for AAASP Certification are included in a separate Sport Psychology electives section.

Application Deadlines

• Fall deadline: December 1st for all programs except Educational Psychology, which is January 15th
• M Ed/MA in Health Education & Promotion - rolling deadline
• Career & Sport Psychology - rolling deadline
• M Ed, EdSp track in Mental Health Practices in Schools (online degrees) - rolling deadline Deadlines

Note: If an applicant is admitted but does not hold a bachelor's degree in a related discipline or does not have relevant background course work, the applicant must complete prerequisite courses as specified by the faculty of the department.

Required Application Materials

To the Graduate School:

• All required Graduate School documents
• Official transcripts
• GRE scores
• TOEFL scores
• 3 letters of recommendation via the online application
• Personal statement and vitae via online application per departmental requirements

EdSp in Educational, School, and Counseling Psychology
with Emphasis in Counseling Psychology

Degree Requirements

The program of study outlined for the degree must contain a minimum of 30 semester hours of approved graduate credit beyond the master’s degree. No more than 12 semester hours of non-degree seeking (NGS) course work may be used in a program. Evidence of proficiency in the areas of educational statistics and research methodology must be shown prior to the candidates’ taking the final comprehensive examination. This will normally be provided through satisfactory completion of ESC_PS 7170 Introduction to Applied Statistics and ESC_PS 8020 Overview of Research Methods or equivalent. If not completed as part of the master’s degree, the program must include a course in the behavioral, social, historical, or philosophic foundations of education. The program may consist entirely of courses in education or may be made up, in part, of courses from other disciplines selected to fit the candidate’s professional needs. A minimum of 15 semester hours of the program must be courses offered in the College of Education. A minimum of 15 semester hours of the program must also be courses numbered 8000 or above. To adhere to the concept of a planned program, at least eight semester hours of the program must be completed after the Program of Study has been filed with the Office of Graduate Studies.

Sample Plan of Study

The plan of study will depend on the student’s career goals and research interests, and should be completed in consultation with the student’s advisor.

Comprehensive Examination Process

The Comprehensive Exam is administered once a year in July or August. The Comprehensive Exam is administered as a take-home exam and follows an essay/long answer response format. It is expected that responses will not exceed 10 pages (double-spaced; not including references) in length and will adequately provide both breadth and depth on the topic. Appropriate citations are expected. Attention should also be paid to grammar, APA style, and overall professional writing conventions. Students will have two consecutive weekends to complete the exam. Students schedule an oral exam after successfully passing the written portion of the comprehensive exam.

The Comprehensive Exam is designed as an integrative, culminating assessment of foundational knowledge of (1) counseling theories, assessment and practice, (2) research design, measurement, and statistics, (3) multicultural and professional issues, and (4) career development. Thus, the exam is designed to assess students’ ability to (a) use counseling theories and appropriate assessment strategies to conceptualize clinical cases and to identify appropriate intervention strategies in clinical practice; (b) design research studies, including developing appropriate research questions, addressing issues related to a study’s internal and external validity, applying appropriate methods for the research methodology, and identifying appropriate statistical analyses; (c) understand multicultural, ethical and professional issues
related to counseling psychology; and (d) apply appropriate vocational theories and assessment in practice.

Admissions

Applicants are required to meet two sets of minimum qualifications for admission: the requirements of the EdSp in Educational, School & Counseling Psychology program (http://gradstudies.missouri.edu/academics/programs/educational-sCHOOL-AND-counseling-psychology/ma-m-ed-or-edsp-in-educational-school-counseling-psychology.php) and the minimum requirements of the Office of Graduate Studies (http://gradstudies.missouri.edu/admissions/eligibility-process/minimum-requirements). Because requirements vary, you must refer to a degree program’s graduate admission page to learn about specific admission criteria, application deadlines, eligibility and application process. Your application materials will be reviewed by both the Office of Graduate Studies and the degree program to which you’ve applied before official admission to the University of Missouri.

EdSp in Educational, School, and Counseling Psychology with Emphasis in Mental Health Practices in Schools

The online Mental Health Practices in Schools (http://online.missouri.edu/degreeprograms/ed-mhinschools) program is intended for school personnel, educators and other community mental health professionals who work with children and adolescents in schools and community agencies. This includes elementary and secondary teachers, special education professionals, school counselors, school nurses, administrators, at-risk coordinators and resource officers, safety coordinators, substance abuse coordinators, speech/language pathologists, itinerant and migrant educators, and private practitioners.

Courses are designed to offer practical applications of psychological concepts and are taught by experts in the field. The program identifies and deals with issues that promote positive mental health of children and adolescents. Courses in the program provide a solid base to increase awareness, knowledge and skills in areas such as:

- Identifying and assessing evidence-based prevention and intervention strategies and programs
- Communicating effectively with parents, children and school personnel
- Building resiliency and optimism in children and adolescents
- Increasing awareness of multicultural and diversity issues
- Understanding mental, emotional, and behavioral factors in youth
- Managing crisis interventions
- Applying wellness management for self and others
- Implementing positive behavior support and strategies in the classroom
- Collaborating with families and other school personnel

Note: This program does not provide school counselor certification, nor any professional counseling licensure.

Website: Mental Health Practices in Schools (http://online.missouri.edu/degreeprograms/ed-mhinschools).

Degree Requirements

The educational specialist degree is a 30-hour program of specialization built upon the master’s degree. To earn the Mental Health Practices in Schools educational specialist degree, students complete 31 credit hours from among the courses listed below. The only required courses are the research methods (ESC_PS 8020) and capstone (ESC_PS 8490). At least 5 courses must be at the 8000 level. Students can select the remaining courses that best fit their educational and professional experience and interests.

   - Practicum* 21
   - Internship 3

Sample Plan of Study

A student’s plan of study will vary depending on her/his program track and career goals and should be completed in consultation with her/his academic advisor.

Qualifying Process

The Graduate School requires that students pass a qualifying examination as a condition of official admittance to the PhD program. Acceptable performance on the Departmental Qualifying Examination is defined as achieving a grade of “B” or better in each of the courses comprising the “core” courses for each of four emphasis areas. These courses are:

   ESC_PS 7120 Foundations of Counseling Psychology
   ESC_PS 8040 Counseling Methods and Practices
   ESC_PS 8135 Foundations of Career Psychology

Comprehensive Examination Process

The Comprehensive Exam is administered once a year in July or August. The Comprehensive Exam is administered as a take-home exam and follows an essay/long answer response format. It is expected that responses will not exceed 10 pages (double-spaced; not including references) in length and will adequately provide both breadth and depth on the topic. Appropriate citations are expected. Attention should also be paid to grammar, APA style, and overall professional writing conventions.

Students will have two consecutive weekends to complete the exam. Students schedule an oral exam after successfully passing the written portion of the comprehensive exam.

The Comprehensive Exam is designed as an integrative, culminating assessment of foundational knowledge of (1) counseling theories, assessment and practice, (2) research design, measurement, and statistics, (3) multicultural and professional issues, and (4) career development. Thus, the exam is designed to assess students’ ability to (a) use counseling theories and appropriate assessment strategies to conceptualize clinical cases and to identify appropriate intervention strategies in clinical practice; (b) design research studies, including developing appropriate research questions, addressing issues related to a study’s internal and external validity, applying appropriate methods for the research methodology, and identifying appropriate statistical analyses; (c) understand multicultural, ethical and professional issues related to counseling psychology; and (d) apply appropriate vocational theories and assessment in practice.

Dissertation Requirements

After working with the academic advisor on developing a dissertation proposal, the student meets with her/his doctoral program committee to obtain approval of the written dissertation proposal. This happens before data collection begins. After the project is completed, the student submits a written dissertation and defends her/his dissertation project to the doctoral program committee.

Admissions

Applicants are required to meet two sets of minimum qualifications for admission: the requirements of the PhD in Educational, School & Counseling Psychology program (http://gradschool.missouri.edu/academics/programs/educational,-school-and-counseling-psychology/) and the minimum requirements of the Office of Graduate Studies (http://gradschool.missouri.edu/admissions/eligibility-process/minimum-requirements.php)

Apply online by submitting the following documents using the MU Office of Graduate Studies application form by December 1st for the next Fall cohort.

- Three letters of recommendation
- Curriculum Vita
- Official academic transcripts of all previous undergraduate and graduate work
- Minimum undergraduate GPA of 3.0 from an accredited institution in psychology, education, or a related major.
- Statement of purpose addressing the following:
  a. Describe interests and experiences working with people from diverse backgrounds (e.g. ethnic, cultural, socio-economic, religious, ability status, sexual orientation). How have these experiences influenced you? (250 word maximum).
  b. Describe experiences that demonstrate your potential for leadership that you believe distinguish you as a candidate for graduate study. (250 word maximum)
  c. Describe (1) your previous experience serving in a helping or counseling role, (2) your interests and career objectives, (3) how these interests and career objectives have developed, (4) how these interests match those of specific program faculty, and (5)
PhD in Educational, School, and Counseling Psychology with Emphasis in Educational Psychology

Degree Requirements

The Educational Psychology program is committed to the dissemination and development of knowledge and skills in human learning and cognition, development, and motivation. We use quantitative and qualitative methods to study how people's thinking, motivation, and behavior change across time. We study how different social settings like classroom, family, work, and peers affect people's well-being, learning, and behavior. The study of educational psychology is relevant to teachers, coaches, athletes, nurses, counselors, software developers, trainers, social workers, program evaluators, and administrators.

Educational psychologists attempt to understand:

- how to improve learning, academic achievement, and motivation
- developmental influences on learning and well-being
- how society influences learning and behavior
- school influences on students' development in other settings
- improving human performance

The Ph.D. program focuses on generating original research and consists of a minimum of 72 semester hours of graduate credit beyond the bachelor’s degree. The plan of study provides additional details about requirements. The following is a synopsis.

I. General Core Courses

Statistics and Research (21 hours)

- ESC_PS 8020 Overview of Research Methods 3
- ED_LPA 8957 Qualitative Methods in Educational Research I 3
- ESC_PS 8850 Quantitative Foundations in Educational Research (pending approval) 3
- ESC_PS 8082 Foundations of Educational and Psychological Measurement 3
- ESC_PS 9650 Application of Multivariate Analysis in Educational Research 3

II. Human Learning and Development

- ESC_PS 8060 Lifespan Development 3
- ESC_PS 8330 Advanced Human Learning 3
- ESC_PS 8350 Cognition, Learning and Instruction 3
- ESC_PS 9450 Motivation 3

III. Human Diversity (relevant course)

IV. Technology (relevant course)

V. General Electives

- Students can take more than 6 research hours if they wish to enroll in more than 18 hours of electives. Elective courses can be taken from Educational, School, & Counseling Psychology or from other departments such as Human Development and Family Studies, Psychological Sciences, or Information Science and Learning Technology.

VI. Dissertation

6-18

Sample Plan of Study

The plan of study will depend on the student's career goals and research interests, and should be completed in consultation with the Doctoral Dissertation Committee.

Qualifying Process

The Graduate School requires that students pass a qualifying examination as a condition of official admittance to the PhD program. Acceptable performance on the Departmental Qualifying Examination is defined as achieving a grade of “B” or better in each of the courses comprising the “core” courses. For educational psychology, these courses are the following:

- ESC_PS 8060 Lifespan Development
- ESC_PS 8082 Foundations of Educational and Psychological Measurement
- ESC_PS 8350 Cognition, Learning and Instruction

Comprehensive Examination Process

To complete the comprehensive exam, students must complete evidence of professional activity, evidence of teaching, two assigned papers, and an oral exam. The two papers are administered as a take-home exam with one week for completion of each paper. The procedure is described in a separate document. The papers can be written during any semester. They must be scored as passing before the oral exam can be conducted. The oral exam must be scheduled during fall or spring semesters.

Dissertation Requirements

After working with the academic advisor on developing a dissertation proposal, the student meets with the doctoral program committee to obtain approval of the written dissertation proposal. This happens before data collection begins. After the project is completed, the student submits a written dissertation and defends the dissertation to the doctoral program committee. The defense can occur only when MU is officially in session.

Admissions

Applicants are required to meet two sets of minimum qualifications for admission: the requirements of the PhD in Educational, School & Counseling Psychology program (http://gradschool.missouri.edu/academics/programs/educational,-school-and-counseling-psychology/...
PhD in Educational, School, and Counseling Psychology with Emphasis in Educational Research Methods and Analysis

Degree Requirements

This program focuses on design and analysis of quantitative studies. Researchers typically begin with adopting appropriate study designs (e.g., experimental, quasi-experimental, and observational study designs) for their research purpose. Researchers must verify that their measures are reliable and valid and may use analytic techniques like classical test theory or item response theory (IRT). Researchers submit their data to statistical techniques like analysis of variance (ANOVA), regression, structural equation modeling (SEM), and hierarchical linear model (HLM) to analyze the relationship among variables to answer their research questions.

General Core Courses
- ESC_PS 8020 Overview of Research Methods 33
- ESC_PS 8082 Foundations of Educational and Psychological Measurement 21
- ESC_PS 8850 Quantitative Foundations in Educational Research
- ED_LPA 8957 Qualitative Methods in Educational Research

Sample Plan of Study

The plan of study will depend on the student's career goals and research interests, and should be completed in consultation with the Doctoral Dissertation Committee.

Qualifying Process

The Graduate School requires that students pass a qualifying examination as a condition of official admittance to the PhD program. Acceptable performance on the Departmental Qualifying Examination is defined as achieving a grade of "B" or better in each of the courses comprising the "core" courses. For educational research methods and analysis, these courses are the following:

- ESC_PS 8082 Foundations of Educational and Psychological Measurement
- ESC_PS 8020 Overview of Research Methods
- ESC_PS 8850 Quantitative Foundations in Educational Research

Comprehensive Examination Process

To complete the comprehensive exam, students must complete evidence of professional activity (e.g., publication in a refereed journal, paper presentation at a national conference, development of a professionally published test or measure that is used nationally, evidence of teaching), evidence of teaching, and successful completion of a written comprehensive exam.

Dissertation Requirements

After working with the academic advisor on developing a dissertation proposal, the student meets with the doctoral program committee to obtain approval of the written dissertation proposal. This happens before data collection begins. After the project is completed, the student submits a written dissertation and defends the dissertation to the doctoral program committee. The defense can occur only when MU is officially in session.
Admissions

Applicants are required to meet two sets of minimum qualifications for admission: the requirements of the PhD in Educational, School & Counseling Psychology program (http://gradschool.missouri.edu/academics/programs/educational-school-and-counseling-psychology/doctorate-in-educational-school-counseling-psychology.php) and the minimum requirements of the Office of Graduate Studies. (http://gradschool.missouri.edu/admissions/eligibility-process/minimum-requirements.php)

1. Apply online by submitting the following documents using the MU Office of Graduate Studies (https://app.applyyourself.com/AYApplicantLogin/II_ApplicantConnectLogin.asp?id=umc-grad) application form by January 15th for the next Fall cohort.

2. The three letters of recommendation

3. Curriculum Vita

4. Official academic transcripts of all previous undergraduate and graduate work
   a. Minimum undergraduate GPA of 3.0 from an accredited institution in psychology, education, or a related major.

5. Statement of purpose addressing the following:
   a. Describe experiences teaching, designing instruction, and engaging in research and how these experiences have prepared you for graduate study. (500 word maximum)
   b. Describe (1) your research interests that you hope to pursue in graduate school (2) how these interests match those of specific faculty (3) your career objectives, and (4) how being accepted into MU’s program will benefit your career aspirations. (Please limit to 500 words)

6. Official Graduate Record Examination (GRE) scores for tests taken on or after August 1, 2011 should have a combined Verbal and Quantitative score of 305 or tests taken prior to August 1, 2011 combined Verbal and Quantitative score of 1200 or higher.

7. TOEFL for international students (preferred score of 580 for paper test, 92 iBT, IELTS 6.5 or higher).

Sample Plan of Study

A student’s plan of study will vary depending on her/his program track and career goals and should be completed in consultation with her/his academic advisor.

Qualifying Process

The Graduate School requires that students pass a qualifying examination as a condition of official admittance to the PhD program.

Comprehensive Examination Process

The Comprehensive Exam is administered once a year.

Dissertation Requirements

After working with the academic advisor on developing a dissertation proposal, the student meets with her/his doctoral program committee to obtain approval of the written dissertation proposal. After the project is completed, the student submits a written dissertation and defends her/his dissertation project to the doctoral program committee.

Admissions

This program is not accepting admissions at this time.

**PSYCH 9920** Advanced History of Psychology 3

ESC_PS 8070 Ethical and Legal Issues in Psychological Practice 3

2 Electives in ESC_PS or related disciplines (6 credit total, approved by the doctoral committee)

## Qualifying Process

The qualifying examination for the Ph.D. in School Psychology includes a take-home written examination. It is typically completed at the start of the fall semester of year 2 in the program, presuming successful completion of ESC_PS 8125, ESC_PS 9125, and ESC_PS 8087 (Clinical Methodology).

## Comprehensive Examination Process

The comprehensive examination for the Ph.D. in School Psychology includes a take-home written examination followed by an oral examination with the doctoral committee. This examination process is typically completed at the beginning of the winter semester in year 3 or the start of the fall semester in year 4. Students jointly enrolled in the Masters of Arts program in School Psychology must have completed their master’s thesis/manuscript prior to sitting for their Doctoral Comprehensive exams.

## Dissertation Requirements

### Admissions

Applicants are required to meet two sets of minimum qualifications for admission: the requirements of the PhD in Educational, School & Counseling Psychology program (http://gradschool.missouri.edu/academics/programs/educational,-school-and-counseling-psychology/doctorate-in-educational,-school--counseling-psychology.php) and the minimum requirements of the Office of Graduate Studies. (http://gradschool.missouri.edu/admissions/eligibility-process/minimum-requirements.php)

Apply online by submitting the following documents using the MU Office of Graduate Studies (https://app.applyyourself.com/AYApplicantLogin/ fl_ApplicantConnectLogin.asp?id=umc-grad) application form by December 1 for the next Fall cohort.

1. Three letters of recommendation
2. Curriculum Vita
3. Official academic transcripts of all previous undergraduate and graduate work
   a. Minimum undergraduate GPA of 3.0 from an accredited institution in psychology, education, or a related major.
4. Statement of purpose addressing the following:
   a. Describe interests and experiences with working with people from diverse backgrounds (e.g. ethnic, cultural, socioeconomic, religious, ability status, sexual orientation). How have these experiences influenced you? (250 word maximum)
   b. Describe experiences that demonstrate your potential for leadership that you believe distinguish you as a candidate for graduate study. (250 word maximum)
   c. Describe (1) your research interests that you hope to pursue in graduate school (2) how these interests match those of specific faculty. (Please limit to 500 words)
   d. Describe (1) your career objectives (2) how these career objectives have developed, and (3) how being accepted into MU’s program will benefit your career aspirations and help you act upon your beliefs, goals, and philosophy. (Please limit to 500 words)
5. Official Graduate Record Examination (GRE) scores for tests taken on or after August 1, 2011 should have a combined Verbal and
Quantitative score of 305 or tests taken prior to August 1, 2011 combined Verbal and Quantitative score of 1200 or higher.

6. TOEFL for international students (preferred score of 580 for paper test, 92 iBT, IELTS 6.5 or higher)
ELPA - Our mission is to create knowledge while preparing leaders to critically shape and transform educational issues, policies, and practices.

Consider ELPA if you:

- Want to improve your organizational leadership skills and knowledge in elementary, secondary, or postsecondary settings
- Are interested in principal or superintendent certification
- Want to work in student affairs or higher education administration
- Want to become a scholar or researcher in an academic setting
- Desire to shape policy through legislative or research activity

About ELPA’s Graduate Programs

The graduate programs in the Department of Educational Leadership and Policy Analysis are designed to meet the specific educational needs of the student in a particular area of emphasis. Graduates find employment in a wide range of settings including colleges and universities, public schools, policy agencies, professional associations, government and business and industry.

The PhD Program in ELPA requires a minimum of 60 hours beyond the master’s degree. The goal of the PhD program is the preparation of professional researchers and scholars who have high levels of competence in conducting research that adds to the knowledge base. The program also has a goal of meeting the student’s individual career goals and interests through the development of an appropriate plan.
of study. Each emphasis area has slightly different requirements and areas of focus; however, all 3 emphasis areas require a department-wide core; emphasis area coursework; electives; a research core; and the completion of a minimum of 6 hours for the dissertation.

The Statewide Cooperative EdD Program in Educational Leadership is a cohort program designed for practicing educational leaders to enhance their knowledge and competencies so they provide optimal leadership in organizations that educate a wide range of learners from youth to adult. The program’s curriculum is designed to prepare leaders who are inquiring, reflective practitioners who are competent in defining and solving complex problems in education.

The Educational Specialist (EdSp) Program is designed to enhance the knowledge and competencies of K-12 educational administrators and to lead to advanced principal certification and/or superintendent certification. The program has a thematic, integrated, problem-based curriculum intended to prepare school and district leaders who are inquiring, reflective practitioners. The curriculum is aligned with state standards for certification.

The department’s Master’s Programs are intended to provide initial preparation for leaders in a variety of educational contexts, including higher education and PK-12 schools. Programs vary according to emphasis area and are designed to meet student’s individual career goals and interests — e.g., student affairs administration, initial principal certification and higher education administration.

A minimum of 33 credit hours is required for the M Ed or MA in Higher Education and a minimum of 30 hours is required for the M Ed in Educational Leadership.

Note: Per ELPA policy, students have 5 years to complete their MA or M Ed degree.

Graduate Certificates:
- Education Policy
- Higher and Continuing Education Administration

Satisfactory Rate of Progress

All ELPA students are expected to make satisfactory progress toward their degrees. Satisfactory progress of students will be determined through an annual review by the director of graduate studies, graduate students’ academic advisors and their committees. Judgments about satisfactory progress will include consideration of the following:

- University-wide time limits for degree completion
- GPA for departmental courses
- Continuous enrollment and active engagement in course work or research (EdD and PhD)
- Student performance in research credits
- Timely resolution of incomplete grades

Financial Aid from the Program

Some programs require an extra form or statement from those who wish to be considered for internal assistantships, fellowships or other funding packages. Check the program website or ask the program contact for details.

Total Credits: 9

**Thesis/Non-Thesis Requirements**

In addition to 33 hours of coursework, to complete a Master of Education (MEd), students must write a capstone reflection paper drawing on knowledge gained throughout the program.

**Admissions**

Applicants are required to meet two sets of minimum qualifications for admission: the requirements of the MEd in Educational Leadership and Policy Analysis and the minimum requirements of the Graduate School. Because requirements vary, you must refer to a degree program’s graduate admission page to learn about specific admission criteria, application deadlines, eligibility and application process. Your application materials will be reviewed by both the Graduate School and the degree program to which you’ve applied before official admission to the University of Missouri.

For application instructions, see: http://elpa.missouri.edu/#167

**MEd in Educational Leadership and Policy Analysis with Emphasis in PK-12 Educational Leadership and Administration, Secondary Principal, Certification**

At this time we are not offering an MEd in Educational Leadership and Policy Analysis with Emphasis in PK-12 Educational Leadership and Administration, Secondary Principal, Certification.

You do have the option of getting both certifications – Elementary and Secondary. Please refer to MEd in Educational Leadership and Policy Analysis with Emphasis in PK-12 Educational Leadership and Administration, Elementary and Secondary Principal, Certification.

<td>Leadership for Data-Driven Change</td>
<td>3</td>
</tr>
</tbody>
</table>

**Internship Requirement**

Students may become eligible for both elementary and secondary level principal certifications by completing two internships, but in three semesters (a total of 6 graduate hours and while within the program). To be eligible for PK-12 building level certifications, 500 on-site hours and 100 in-class hours must be completed. Specific activities and expectations are provided to students by their internship advisor. When completing activities for both levels, there are activities that can be counted for each, meaning that students can “double dip,” with activities that are universal to the practice of building level principal.

EdD Application Information
This cohort program accepts applicants only during even-numbered years with a deadline of December 1.
http://elpa.missouri.edu/#167

Candidates who are selected during initial screening are invited to the MU campus to participate in an on-campus interview, a problem-solving activity, and a writing assessment.

Note: Admissions screening and decisions for all graduate programs are not made until all required materials have been submitted. Admissions recommendations are based on a profile developed from data that include undergraduate (last 60 hours) and graduate grade point averages, scores on the Graduate Record Examinations (GRE), recommendations, evidence of consistency between candidate and program goals, and relevant organizational or educational leadership experience.

Degree Requirements
This educational doctorate program is known as The Statewide Cooperative EdD Program.

The EdD program requires a minimum of 76 credit hours beyond the baccalaureate degree. The program, offered in a cohort format, includes 34 hours of course work in 6 contiguous semesters, beginning in the summer and concluding in the spring semester 2 years later. In addition to course work credit, 12 credit hours of dissertation-in-practice research are required.

Educational Studies

Dr. Wendy Sims, Director of Teacher Education
Department of Learning, Teaching and Curriculum
202 Townsend Hall
573-882-0560

Anthony M. Barbis
303B Townsend Hall
573-882-9705
TeacherEducation@missouri.edu

The online Bachelor of Educational Studies (BES) degree program coordinated by the LTC program area is the undergraduate option for individuals who want to teach or work in workforce education. The degree program is designed for people who plan to work with adult learners at community colleges, workforce development programs, and continuing professional education programs. It is intended to prepare students to become effective educational professionals by providing not only the traditional broad-based education of a 4-year degree, but also a foundation in curriculum design, teaching methods, and other aspects of the field of adult education.

For information about the online BES program, contact the College of Education Advising Office:
Phone: 573-882-5659
Address: 101 Hill Hall
e-mail: education_advising@missouri.edu

Faculty

Associate Professor Emeritus M. Volkmann*
Emeritus Research Professor D. A. Grouws
Associate Teaching Professor A. Barbis*, L. Kingsley*, J. Ostrow*
Assistant Teaching Professor A. Ashcraft*, L. Neier*, R. Jackson
Assistant Clinical Professor A. Waldron**

Undergraduate

For graduate degree programs related to educational studies, please see the Department of Educational Leadership and Policy Analysis (p. 391) or other College of Education (p. 355) programs. You might also browse the complete list of degree options (p. 5) at the University of Missouri.

BES in Educational Studies

Major Program Requirements – Educational Studies (BES)

The Bachelor of Educational Studies (BES) degree prepares students for education-related careers. The College of Education will not recommend certification to teach in the public schools on the basis of the BES degree. This degree may be completed on campus or online. Students interested in the BES degree on campus may complete an individualized major course of study developed with an advisor from Advising Services. Students interested in the online BES degree may complete an individualized major course of study in collaboration with the Program Director. Please contact Mizzou Online at 1-800-609-3727 or mizzouonline@missouri.edu.

In addition to University requirements (p. 19), such as University general education (p. 20) and graduation requirements, students must complete the following requirements:

- Multicultural studies: Students address this requirement by demonstrating competence through a multicultural studies course.
- A minimum of 24 - 32 credits in the study of the field of education
- A minimum of 24 - 32 credits in a concentration option

Semester Plan

This degree does not currently have a sample semester plan. Please schedule an appointment with an academic advisor to discuss courses.

BES in Educational Studies with Emphasis in Interdepartmental

Major Program Requirements

Please see the BES in Educational Studies (p. 404) for program requirements.

Semester Plan

This degree does not currently have a sample semester plan. Please schedule an appointment with an academic advisor to discuss courses.

Graduate

For graduate degree programs related to educational studies, please see the Department of Educational Leadership and Policy Analysis (p. 391) or other College of Education (p. 355) programs. You might also browse the complete list of degree options (p. 5) at the University of Missouri.
**Elementary Education**

Dr. Wendy Sims, Director of Teacher Education  
Department of Learning, Teaching and Curriculum  
202 Townsend Hall  
573-882-0560  
TeacherEducation@missouri.edu

Professional education coursework is delivered by four departments within the College of Education, namely, Learning, Teaching and Curriculum; Special Education; Educational Leadership and Policy Analysis; and Educational, School and Counseling Psychology.

**Faculty**

*Associate Professor Emeritus* M. Volkmann*

*Emeritus Research Professor* D. A. Grouws

*Associate Teaching Professor* A. Barbis*, L. Kingsley*, J. Ostrow*

*Assistant Teaching Professor* A. Ashcraft*, L. Neier*, R. Jackson

*Assistant Clinical Professor* A. Waldron**

*Graduate Faculty Member - membership is required to teach*  
*graduate-level courses, chair master's thesis committees, and serve*  
on doctoral examination and dissertation committees.

*Doctoral Faculty Member - membership is required to chair*  
doctoral examination or dissertation committees. Graduate faculty membership is a prerequisite for Doctoral faculty membership.

**Undergraduate**

**BSEd in Elementary Education**

**Major Program Requirements**

Students must complete all university (p. 19), general education (p. 20), and content requirements, in addition to degree requirements. Please meet with an Academic Advisor to discuss degree requirements and to create a semester plan.

As Mizzou Ed continues to implement the new Missouri Standards for the Preparation of Educators mandated by the Department of Elementary and Secondary Education (DESE), curriculum changes will be required that must be met in order to complete your degree and earn teacher certification. Those changes may become effective at any point during your academic program. Therefore, it is extremely important that you DO NOT SELF ADVISE.

**Semester Plan**

This degree does not currently have a sample semester plan. Please schedule an appointment with an academic advisor to discuss courses.

**BSEd in Elementary Education**  
**with Emphasis in Elementary Education**

**Major Program Requirements**

Students must complete all university, general education, and content requirements, in addition to the degree requirements. Please meet with an Academic Advisor to discuss degree requirements and to create a semester plan.

**Undergraduate**

- BSEd in Elementary Education (p. 405)
  - with emphasis in Elementary Education (p. 405)

The requirements for the Bachelor of Science in Education are specified in three areas: University general education, professional education and a teaching major. All students preparing to be teachers in early childhood, elementary, special education, middle or secondary schools, regardless of the major field, are required to complete the University general education program. Students transferring from other institutions are required to fulfill the equivalencies of these courses.

**Graduate**

The Elementary Education Program at the University of Missouri includes degree programs that focus on preparing graduates to teach in grades 1-6. We currently offer a Master's and Doctoral (PhD or EdD) in Learning, Teaching and Curriculum with an emphasis in Elementary Education. You can find out more about these programs at [http://education.missouri.edu/LTC/elementary/](http://education.missouri.edu/LTC/elementary)

You might also browse the complete list of degree options (p. 5) at the University of Missouri.

Undergraduate

While MU does not offer undergraduate degrees specifically in information science and learning technologies, the University does offer baccalaureate opportunities in a number of related areas, both within the College of Education, and in the other Schools and Colleges that make up the University. The catalog provides a complete list of these degree options (p. 5).

Graduate

• MA in Information Science and Learning Technologies (p. 406)

  • with emphasis in Library Science (p. 406)  
• MEd in Information Science and Learning Technologies (p. 407)  
  • with emphasis in Learning Systems Design and Development (p. 407)  
  • with emphasis in Online Educator (p. 408)  
  • with emphasis in Technology in Schools (p. 409)  
• EdSp in Information Science and Learning Technologies (p. 410)  
  • with emphasis in Learning Systems Design and Development (p. 410)  
  • with emphasis in Online Educator (p. 410)  
  • with emphasis in Technology in Schools (p. 411)  
• PhD in Information Science and Learning Technologies (p. 412)

About Information Science & Learning Technologies

In January 1997, the School of Information Science & Learning Technologies became the home for MU’s graduate programs in Library and Information Science and Educational Technologies as well as a new, interdisciplinary doctoral program in Information Science & Learning Technologies.

SISLT faculty are internationally renowned for their research and development accomplishments. Faculty and students are committed to a collaborative, interdisciplinary approach – both within MU and among other research-extensive universities. Nowhere is this more evident than in the Allen Institute (http://alleninstitute.missouri.edu), a 10,000 square foot facility dedicated to supporting collaborative R&D at the intersection of Information & Learning.

Graduate

MA in Information Science and Learning Technologies

Degree information for the MA in Information Science and Learning Technologies degree may be found on the degree’s emphasis pages. They are Library Media Specialist, Certification (p. 406) and Library Science (p. 406).

MA in Information Science and Learning Technologies with Emphasis in Library Media Specialist, Certification

In the state of Missouri, Library Media Certification is granted by the Missouri Department of Elementary and Secondary Education (DESE). The School of Information Science & Learning Technologies (SISLT) LIS Program offers many of the courses approved by DESE for this certification. Presently SISLT does not offer courses in Library Media Administration and Curriculum and the Media Center.

Students are encouraged to speak with their academic advisors about completing these courses at other universities in the state of Missouri. For more information about the process of certification, please visit DESE website (http://dese.mo.gov/sites/default/files/04%20SecondaryEducation04-08.pdf).

MA in Information Science and Learning Technologies with Emphasis in Library Science

About the Program

The School of Information Science & Learning Technologies (SISLT) is the only program in Missouri to offer the American Library Association...
accredited Master’s Degree. Upon successful completion of the 39-hour program of study (42 hours for students admitted before Fall 2014), students receive a Master of Arts (MA) Degree in Information Science & Learning Technologies with an Emphasis in Library Science. The program curriculum reflects the foundations of the LIS field as well as the critical issues facing the profession. Courses are offered in online and hybrid formats and can be completed on the MU campus in Columbia, MO or at distributed locations in Missouri (Kansas City, Springfield, St. Louis) and Omaha, NE. More detailed Program information is available at: http://lis.missouri.edu.

**Comprehensive Examination Process**

Master’s degree students in the Library Science program must complete the Comprehensive Examination during the final semester of coursework. The Comprehensive Examination consists of one question in each of four general areas: Issues, Management, Services, and Technology. Each question is created and evaluated by one of the full-time resident Library Science faculty.

Eight weeks prior to the administration of the examination each semester, students are given an overview of the content of the questions, a list of suggested readings for each question and information on how the Comprehensive Examination will be administered. Students scheduled to take the exam are loaded into a Blackboard site where you can post questions and interact with the Comprehensive Examination Committee and your peers.

Toward the latter half of the semester, the Comprehensive Examination questions are released on the Blackboard site. You have nine days to answer the four questions and submit the answers to the Comprehensive Exam Committee.

**Admissions**

Contact Information
Email: sislt@missouri.edu
SISLT Student Services Coordinator
304 Townsend Hall
Columbia, MO 65211
Phone: 573-882-4546 or toll free 877-747-5868
http://lis.missouri.edu/

Applicants are required to meet two sets of minimum qualifications for admission: the requirements of the MA in Information Science and Learning Technologies program (http://lis.missouri.edu/apply) and the minimum requirements of the Graduate School (http://gradschool.missouri.edu/admissions/eligibility-process/minimum-requirements.php). Because requirements vary, you must refer to a degree program’s graduate admission page to learn about specific admission criteria, application deadlines, eligibility and application process. Your application materials will be reviewed by both the Graduate School and the degree program to which you’ve applied before official admission to the University of Missouri.

**MEd in Information Science and Learning Technologies**

Degree information for the MEd in Information Science and Learning Technologies degree may be found on the degree’s emphasis pages. They are Learning Systems Design and Development (p. 407), Online Educator (p. 408), and Technology in Schools (p. 409).

**MEd in Information Science and Learning Technologies with Emphasis in Learning Systems Design and Development**

The Learning Systems Design and Development emphasis area is your portal to excellence and leadership in designing, developing, and implementing technology in education, training and performance support. In the LSDD focus area you will develop the knowledge and skills to design learning systems and develop the digital media and network applications need to implement them. The courses emphasize learning by doing. You will take on challenging assignments and work collaboratively with both faculty and other students to produce a portfolio that documents your work and accomplishments.

Working with a faculty advisor, each student develops a customized program of study. You pick the professional goal that makes sense to you, and our faculty will help you transform your goal into reality. Your degree will open an array of career options. Some graduates work in K-12 schools, others work in corporations, and still others apply their skills in government, healthcare, higher education, and other settings. For example, some of our recent graduates are Software Designers and Developers, Learning Strategy Managers, Adaptive Technology Specialists, Training Designers, School Technology Coordinators, and Online Instructors. Whatever the setting, you will graduate with a skill set that will serve you well in the future.

**Degree Requirements**

The MEd consists of 30 graduate credit hours, with a minimum of 15 at the 9000 level or above. The Learning Systems Design and Development curriculum allows you to customize your course work by focusing on technology design and development or technology implementation.

**Total Credits: 30**

**Comprehensive Examination Process**

In your final semester, you will develop and present a portfolio of your work to demonstrate your mastery of the competencies specific to your focus area. The portfolio contains descriptions of competencies and what
they mean to you, explanations of artifacts, and reflections. You should start on your portfolio early in your coursework.

Portfolios can be submitted spring, fall, and summer semesters. Portfolios must be submitted to the assigned portfolio coach for review no later than three (3) weeks prior to the last day of classes; you will be notified by the SISLT Student Services Office of the specific date at the beginning of your final semester.

The student will work with the portfolio coach who will provide feedback and support to the student as she/he prepares the portfolio for review.

The review process asks three basic questions:

1. Does the portfolio demonstrate the student’s knowledge of what the competencies mean?
2. Does the portfolio demonstrate the student’s mastery of the competencies?
3. Does the portfolio present the student in a positive and professional manner?

Once a portfolio is deemed acceptable or unacceptable by the portfolio coach, the coach will notify the student and the SISLT Student Services Office. Should the portfolio be deemed unacceptable by the portfolio coach, the student may appeal this decision by petitioning the Director of SISLT and requesting that two other faculty review the portfolio.

Admissions

Email: sislt@missouri.edu
SISLT Student Services Coordinator
304 Townsend Hall
Columbia, MO 65211
Phone: 573-882-4546 or toll free 877-747-5868
http://edtech.missouri.edu/lsdd

Applicants are required to meet two sets of minimum qualifications for admission: the requirements of the MEd in Information Science and Learning Technologies program (http://edtech.missouri.edu/#admission) and the minimum requirements of the Graduate School (http://gradschool.missouri.edu/admissions/eligibility-process/minimum-requirements.php). Because requirements vary, you must refer to a degree program’s graduate admission page to learn about specific admission criteria, application deadlines, eligibility, and application process. Your application materials will be reviewed by both the Graduate School and the degree program to which you’ve applied before official admission to the University of Missouri.

MEd in Information Science and Learning Technologies with Emphasis in Online Educator

In the Online Educator emphasis area you will develop the knowledge and skills in eLearning offerings. You will prepare for jobs in an expanding field where online education is used in schools, universities, industry, health care, museums, and other learning settings. Your work will culminate in an authentic capstone project that documents your learning and accomplishments.

Working with a faculty advisor, each student develops a customized program of study. You pick the professional goal that makes sense to you, and our faculty will help you transform your goal into reality.

Your degree will open an array of career options. Some graduates work in K-12 schools, others work in corporations, and still others apply their skills in government, healthcare, higher education, and other settings. For example, some of our recent graduates are Software Designers and Developers, Learning Strategy Managers, Adaptive Technology Specialists, Training Designers, School Technology Coordinators, and Online Instructors. Whatever the setting, you will graduate with a skill set that will serve you well in the future.

Degree Requirements

The MEd consists of 30 graduate credit hours, with a minimum of 15 at the 9000 level or above. The Online Educator curriculum allows you to customize your course work by focusing on technology design and development or technology implementation.

MEd in Information Science and Learning Technologies with Emphasis in Technology in Schools

The Technology in Schools emphasis area is your portal to excellence and leadership in designing, developing, and implementing technology in education, training and performance support. In the TiS focus area you will prepare to use innovative and effective technology to improve teaching and learning in a wide variety of settings. In addition to gaining a working knowledge of the underlying theories and strategies involved, you will get practical experience using technology as an effective teaching and learning tool.

Working with a faculty advisor, each student develops a customized program of study. You pick the professional goal that makes sense to you, and our faculty will help you transform your goal into reality.

Your degree will open an array of career options. **EdSp in Information Science and Learning Technologies**

Degree information for the EdSp in Information Science and Learning Technologies degree may be found on the degree's emphasis pages. They are Learning Systems Design and Development (p. 410), Technology in Schools (p. 411), and Online Educator (p. 410).

**EdSp in Information Science and Learning Technologies with Emphasis in Learning Systems Design and Development**

The Educational Specialist degree in Learning Systems Design and Development at MU is your portal to excellence and leadership in designing, developing, and implementing technology in education, training and performance support. In the LSDD emphasis area you will develop the knowledge and skills to design learning systems and develop the digital media and network applications need to implement them. The courses emphasize learning by doing. You will take on challenging assignments and work collaboratively with both faculty and other students to produce a portfolio that documents your work and accomplishments. Working with a faculty advisor, each student develops a customized program of study. You pick the professional goal that makes sense to you, and our faculty will help you transform your goal into reality.

Applications are required to meet two sets of minimum qualifications for admission: the requirements of the EdSp in Information Science and Learning Technologies program (http://edtech.missouri.edu/admission) and the minimum requirements of the Graduate School (http://gradschool.missouri.edu/admissions/eligibility-process/minimum-requirements.php). Because requirements vary, you must refer to a degree program’s graduate admission page to learn about specific admission criteria, application deadlines, eligibility and application process. Your application materials will be reviewed by both the Graduate School and the degree program to which you’ve applied before official admission to the University of Missouri.

**PhD in Information Science and Learning Technologies**

**About the Program**

The PhD program prepares professionals to understand and influence learning, information and performance in diverse settings, especially through the use of interactive technologies. We seek individuals who are committed to conducting research that integrates theory and practice.

You will gain the competencies required to:

- Analyze specific informational organization and retrieval, learning and performance needs and evaluate systems to meet these needs.
- Design, develop and implement technologies and technological interventions to improve information organization and retrieval, learning and performance.
- Conduct systematic research, which contributes to the knowledge base of learning, information organization and retrieval, performance and/or technology.

**Degree Requirements**

1-3 master’s level conceptual courses in Educational Technology or Library Science (if entering doctoral program without Master’s in Educational Technology, Library Science, or a related field)

**Doctoral Seminar Courses (9 credit hours)**

Analyzing and Designing Systems 3
Research and Theory Seminars 6

**Elective SISLT Coursework (minimum of 18 credit hours)**

IS_LT coursework beyond master’s degree 18

**Research Methodologies (minimum of 9 credit hours)**

Research design courses with at least one course in qualitative and once course in quantitative

ESC_PS 7170 Introduction to Applied Statistics 3
ESC_PS 8957 Qualitative Methods in Educational Research I 3
ESC_PS 9620 Qualitative Methods in Educational Research II 3
or ESC_PS 8840 Quantitative Analysis in Educational Research II

**Support Field (9 or more credit hours)**

Coordinated coursework related to an area of emphasis outside IS_LT and research courses selected in consultation with your program committee 9

**Dissertation**

Course work, internships and independent study projects support the achievement of these competencies, and your program centers on producing a portfolio of achievements indicating that the competencies...
have been attained. While course work supports production of the portfolio, we encourage students to develop products that cut across several courses, resulting in products that are personally satisfying, solve real problems and represent high quality work. We are particularly interested in products developed in collaboration with other students, practicing professionals and others beyond our program and campus.

The program culminates with a significant research effort that contributes to the knowledge base of learning, information organization and retrieval, performance and/or technology. Whether one major study or a series of smaller studies, the research is designed to position our graduates alongside the leading theorists, researchers and practitioners in the field. There is no minimum number of 9090 research hours.

Sample Plan of Study

During your first two academic semesters, you will work with your assigned advisor to select courses and identify Professional Immersion activities that will successfully lead toward the completion of your degree. During this same time period, you should work to establish professional relationships with faculty in SISLT and your supporting field who you would like to include on your Program Committee. Prior to the beginning of your second academic year of study, you must have identified your Program Committee and conducted a Program of Study meeting with your Program Committee. Early approval of your Program of Study will enhance your academic experience in SISLT. This is a very important part of the degree planning process; failure to receive approval of your Program of Study prior to the second academic year may mean that courses or activities completed afterward may not count toward your degree.

Qualifying Process

At the Program of Study meeting, the Program Committee will review the student’s statement of accomplishments. Students judged by the Program Committee to be making adequate progress will pass the Qualifying Exam. If the doctoral student fails the Qualifying Exam, the meeting will be rescheduled for the following semester. The student may attempt the Qualifying Exam twice. Once a student completes the Qualifying Exam process, he or she will then submit the D-2 Plan of Study for the Doctoral Degree Program Form approved by their Program Committee.

Comprehensive Examination Process

The comprehensive examination is an assessment of your comprehensive knowledge of information science and learning technologies. It is your responsibility to inform your committee members of your intent to complete your comprehensive exam prior to the beginning of the semester in which you plan to complete the exam.

The IS&LT examination consists of three parts:

- Portfolio
- Written component
- Oral component

For more information on the comprehensive exam process, please refer to the SISLT PhD Handbook at http://education.missouri.edu/SISLT/files/PhDHandbook-2009-web.pdf.

Dissertation Requirements

You should become involved in research throughout your program so that, by the time the comprehensive examination is completed, you have a well-formulated topic for research. Research may include required coursework activities, collaborations with faculty, or an independent effort. Earlier research can serve to explore a dissertation topic, serve as a pilot study, or become part of a dissertation prospectus. However, formal approval of a dissertation prospectus by your Committee must precede the serious pursuit of the study.

Dissertation Committee

Following the completion of the comprehensive examination, the responsibility of the Program Committee is completed. You will then form a committee to direct your dissertation. This committee may, but does not have to, consist of the same members as the Program Committee. You are encouraged to include those faculty members who can best support your line of research as members of your Dissertation Committee. During your academic program, your interests may change and should be reflected in the Dissertation Committee membership. The Dissertation Committee must consist of a minimum of three SISLT faculty members. The Dissertation Committee chair must be a member of the MU doctoral faculty. A faculty member or practitioner holding a terminal degree from outside of SISLT who has expertise in your research may be added as a special Committee member with program approval. At least one member must be from a program other than IS&LT, typically from your minor or supporting field.

Dissertation Proposal Meeting

You will be required to schedule a dissertation proposal meeting prior to beginning your research. Your Dissertation Committee must approve your conceptualization and methodology prior to beginning any data collection. The proposal meeting is open to all faculty and students in the School. The proposal should include the first three chapters (Chapter 1: Rationale for the Study, Chapter 2: Literature Review, Chapter 3: Description of Methodology) of the dissertation unless your Committee has approved an alternative form.

Dissertation Defense

After receiving your Dissertation Chair’s approval, you may schedule your dissertation defense. A copy of your dissertation must be sent to each committee member at least three weeks prior to the defense meeting. Other faculty, students, and staff may also attend your oral defense. It will be announced to the entire program at least one week prior to the scheduled examination time. These people will be excused while the Committee evaluates your performance.

Admissions

Email: sislt@missouri.edu
SISLT Student Services Coordinator
304 Townsend Hall
Columbia, MO 65211
Phone: 573-882-4546 or toll free 877-747-5868

Applicants are required to meet two sets of minimum qualifications for admission: the requirements of the PhD in Information Science and Learning Technologies program (http://education.missouri.edu/SISLT/PhDPhd_Application.php) and the minimum requirements of the Graduate School (http://gradschool.missouri.edu/admissions/eligibility-process/minimum-requirements.php). Because requirements vary, you must refer to a degree program’s graduate admission page to learn about specific admission criteria, application deadlines, eligibility and application process. Your application materials will be reviewed by both the Graduate
School and the degree program to which you’ve applied before official admission to the University of Missouri.
Learning, Teaching and Curriculum

Professionals interested in advancing their careers in education can specialize in a variety of disciplines in MU’s Department of Learning, Teaching and Curriculum. LTC specializes in teacher preparation and in graduate programming for professionals in education. Students find challenging, yet rewarding, opportunities through MU’s dynamic research centers and projects and are supported by faculty who are subject matter experts.

Consider LTC if you:

• want to advance as a professional in education through a field specialization
• enjoy exercising independent judgment, and
• desire to help all learners achieve success and strengthen the future through education.

* Graduate Faculty Member - membership is required to teach graduate-level courses, chair master’s thesis committees, and serve on doctoral examination and dissertation committees.
** Doctoral Faculty Member - membership is required to chair doctoral examination or dissertation committees. Graduate faculty membership is a prerequisite for Doctoral faculty membership.

Undergraduate

While MU does not offer undergraduate degrees specifically in Learning, Teaching & Curriculum, the University does offer baccalaureate opportunities in a number of related areas, both within the College of Education, and in the other Schools and Colleges that comprise the University. The catalog provides a complete list of these degree options (p. 5).

Director of Graduate Studies: Kathy Unrath

About the Program
Graduate study in Learning, Teaching, & Curriculum prepares teachers, curriculum leaders and teacher educators for professional excellence. With the rapid changes in education--especially developments in instructional materials and techniques, curriculum construction and classroom organization--teachers who have completed their certification may need to update, refine and extend their knowledge and skills.

Further, many educators enter new roles as subject-matter specialists, curriculum coordinators, supervisors of instruction, department heads, leaders of professional development education or teacher educators. Graduate programs in Learning, Teaching, & Curriculum are designed to prepare the professionals for these new roles.

Areas of Study
Depending on the degree program, students can pursue discipline-specific emphasis areas (e.g., elementary education, music education, science education and others) and focus on curriculum development, research, or teacher education. Outside concentration areas are also available.

Financial Aid from the Program
Some programs require an extra form or statement from those who wish to be considered for internal assistantships, fellowships or other funding packages. Check the program Web site or ask the program contact for details.

Graduate

MA in Learning, Teaching and Curriculum

Our department is no longer admitting students to the MA in Learning, Teaching and Curriculum. We invite you to explore the other graduate degree options in Learning, Teaching and Curriculum (p. 415) and the College of Education. (p. 359)

MA in Learning, Teaching and Curriculum with Emphasis in General

Our department is no longer admitting students to the MA in Learning, Teaching and Curriculum. We invite you to explore the other graduate degree options in Learning, Teaching and Curriculum (p. 415) and the College of Education. (p. 359)

MA in Learning, Teaching and Curriculum with Emphasis in Music Education

Our department is no longer admitting students to the MA in Learning, Teaching and Curriculum. We invite you to explore the other graduate degree options in Learning, Teaching and Curriculum (p. 415) and the College of Education. (p. 359)

About the M.Ed.
The M. Ed. program requires 32 hours in Learning, Teaching, & Curriculum coursework. The following emphasis areas are currently offered: General LTC; Art Education; Early Childhood Education; Elementary Education; English Education; Learning and Instruction; Mathematics Education; Music Education; Reading Education; Science Education; Social Studies Education; and also a focus in TESOL.

Admissions Deadlines
Applicants are encouraged to submit their applications as early in the process as possible. Applications can take 6-8 weeks to expedite completely. Every reasonable effort will be made to process the application for the semester requested.

Admission Requirements
• Completion of an appropriate baccalaureate degree with a GPA of 3.0 or better
• Evidence of at least 2 years of successful experience in an appropriate field
• Minimum TOEFL scores for most areas:

<table>
<thead>
<tr>
<th>Internet-based test (iBT)</th>
<th>Paper-based test (PBT)</th>
</tr>
</thead>
<tbody>
<tr>
<td>80</td>
<td>550</td>
</tr>
</tbody>
</table>

• Minimum GRE score* required for following emphasis areas only: Early Childhood Education, English Education, Mathematics Education, Science Education, Social Studies Education, and TESOL.
When did you take the GRE?  

<table>
<thead>
<tr>
<th>Prior to August 1, 2011</th>
<th>810+</th>
</tr>
</thead>
<tbody>
<tr>
<td>On or After August 1, 2011</td>
<td>291=(V150,Q141)</td>
</tr>
</tbody>
</table>

*Clarification: Not all LTC programs require the GRE exam - only those listed above.

**Required Application Materials to the Graduate School**

- All required Graduate School documents
- Official transcripts
- TOEFL scores (international applicants)

**Required Application Materials to the Learning, Teaching, & Curriculum Program**

- Personal data sheet form (select appropriate form from the department website)
- Statement of purpose
- GRE scores (a copy may be sent to the department too; minimum, an official result needs to be sent to Graduate School)
- Letters of recommendation; check with department to see if they are required for your emphasis. Most programs now require a minimum of 2 letters of recommendation. ALL LETTERS MUST BE CONFIDENTIAL AND SUBMITTED ACCORDINGLY THROUGH THE GRADUATE SCHOOL APPLICATION SYSTEM.

---

**MEd in Learning, Teaching and Curriculum with Emphasis in Art Education**

**Degree Requirements**

The master's degree in Art Education is designed to allow elementary teachers or secondary teachers to pursue a program of study to increase competence in curriculum planning, techniques of teaching art, and the subject matter of studio art and art history.

The MEd degree in Art Education comprises 32 semester hours of graduate work that meets the professional needs of the students. The courses include 16 hours of classes at the 8000-9000 level and 16 hours of work in education at the 7000-9000 level or above, which includes a course that enables the student to read, interpret and evaluate research.

**Admissions**

Admission requirements will be based upon the following criteria.

1. Completion of an appropriate Bachelor’s degree with a GPA of 3.0 or better.
2. A minimum of two letters of recommendation; three letters, if your undergraduate GPA (last 60 hours) is below a 3.0.
3. Statement of purpose clearly indicating that the proposed Masters degree is appropriate to the applicant’s professional aspirations.
4. For students whose native language is not English, a score of 550 or better on the TOEFL or a 6.5 on the IELTS taken within the past two years

The LTC graduate program cannot assure admission to all applicants who meet minimum standards specified for the degree program. Resource constraints do not permit the admission of all qualified applicants.

A committee of faculty reviews the credentials of each applicant. It is the responsibility of this committee to exercise professional judgment related to the criteria that applicants must meet in order to be considered for admission to the program.

**MEd in Learning, Teaching and Curriculum with Emphasis in Art Education, Certification**
Degree Requirements

The master’s degree in Art Education with certification is designed to allow non-certified students to pursue a program of study to increase competence in curriculum planning, techniques of teaching art, and the subject matter of studio art and art history and lead to certification to teach art.

The MEd degree in Art Education comprises 32 semester hours of graduate work that meets the professional needs of the students. The courses include 16 hours of classes at the 8000-9000 level and 16 hours of work in education at the 7000-9000 level or above, which includes a course that enables the student to read, interpret and evaluate research.

Admissions

Admission requirements will be based upon the following criteria. Complete admission requirements (http://education.missouri.edu/LTC/prospective_students/how_to_apply.php) for the Master’s program.

- Completion of an appropriate Bachelor’s degree with a GPA of 3.0 or better.
- A minimum of two letters of recommendation; three letters, if your undergraduate GPA (last 60 hours) is below a 3.0.
- Statement of purpose clearly indicating that the proposed Masters degree is appropriate to the applicant’s professional aspirations.
- For students whose native language is not English, a score of 550 or better on the TOEFL or a 6.5 on the IELTS taken within the past two years.

The LTC graduate program cannot assure admission to all applicants who meet minimum standards specified for the degree program. Resource constraints do not permit the admission of all qualified applicants.

A committee of faculty reviews the credentials of each applicant. It is the responsibility of this committee to exercise professional judgment related to the criteria that applicants must meet in order to be considered for admission to the program.

MEd in Learning, Teaching and Curriculum with Emphasis in Early Childhood Education

Overview

In the early childhood education emphasis, students will gain increased knowledge and skills in the design, delivery and evaluation of educational services to children from birth through age 8. The program addresses the essential problems of practice with special emphasis given to effective teaching approaches for children who are at risk for school failure: children with special needs, children who are English-language learners and children who have challenging behaviors.

The program is designed for early childhood practitioners, Head Start teachers, early childhood special education teachers, child-care center staff and others who work with children from birth through age 8.

Admissions

Applicants are required to meet two sets of minimum qualifications for admission: the requirements of the MEd in Learning, Teaching and Curriculum program (http://gradschool.missouri.edu/academics/programs/learning-teaching-curriculum/master-of-education--educational-specialist.php) and the minimum requirements of the Graduate School (http://gradschool.missouri.edu/admissions/eligibility-process/minimum-requirements.php). Because requirements vary, you must refer to a degree program’s graduate admission page to learn about specific admission criteria, application deadlines, eligibility and application process. Your application materials will be reviewed by both the Graduate School and the degree program to which you’ve applied before official admission to the University of Missouri.

More information about the Early Childhood Education M.Ed. program can be found at the Mizzou Online website. http://online.missouri.edu/degreeprograms/ed-early/index.aspx

Admission requirements will be based upon the following criteria. Complete admission requirements (http://education.missouri.edu/LTC/prospective_students/how_to_apply.php) for the Master’s program.
• Completion of an appropriate Bachelor’s degree with a GPA of 3.0 or better.
• A minimum of two letters of recommendation; three letters, if your undergraduate GPA (last 60 hours) is below a 3.0.
• Statement of purpose clearly indicating that the proposed Masters degree is appropriate to the applicant’s professional aspirations.
• GRE scores taken within the last 5 years (preferred minimum scores should be V150,Q141,A3.5 or higher)
• For students whose native language is not English, a score of 550 or better on the TOEFL or a 6.5 on the IELTS taken within the past two years

The LTC program cannot assure admission to all applicants who meet minimum standards specified for the degree program. Resource constraints do not permit the admission of all qualified applicants.

A committee of faculty reviews the credentials of each applicant. It is the responsibility of this committee to exercise professional judgment related to the criteria that applicants must meet in order to be considered for admission to the program.

Admissions

Applicants are required to meet two sets of minimum qualifications for admission: the requirements of the MEd in Learning, Teaching and Curriculum program (http://gradschool.missouri.edu/academics/programs/learning-teaching-curriculum/master-of-education--educational-specialist.php) and the minimum requirements of the Graduate School (http://gradschool.missouri.edu/admissions/eligibility-process/minimum-requirements.php). Because requirements vary, you must refer to a degree program’s graduate admission page to learn about specific admission criteria, application deadlines, eligibility and application process. Your application materials will be reviewed by both the Graduate School and the degree program to which you’ve applied before official admission to the University of Missouri.

More information about the Early Childhood Education M.Ed. program can be found at the Mizzou Online website. http://online.missouri.edu/degreq/ed-early/index.aspx

Admission requirements will be based upon the following criteria. Complete admission requirements (http://education.missouri.edu/LTC/prospective_students/how_to_apply.php) for the Master’s program.

• Completion of an appropriate Bachelor’s degree with a GPA of 3.0 or better.
• A minimum of two letters of recommendation; three letters, if your undergraduate GPA (last 60 hours) is below a 3.0.
• Statement of purpose clearly indicating that the proposed Masters degree is appropriate to the applicant’s professional aspirations.
• GRE scores taken within the last 5 years (preferred minimum scores should be V150,Q141,A3.5 or higher)
• For students whose native language is not English, a score of 550 or better on the TOEFL or a 6.5 on the IELTS taken within the past two years.

The LTC graduate program cannot assure admission to all applicants who meet minimum standards specified for the degree program. Resource constraints do not permit the admission of all qualified applicants.

A committee of faculty reviews the credentials of each applicant. It is the responsibility of this committee to exercise professional judgment related to the criteria that applicants must meet in order to be considered for admission to the program.

**MEd in Learning, Teaching and Curriculum with Emphasis in Elementary Education**

This emphasis is currently suspended within the Learning, Teaching, and Curriculum program due to budget constraints and limited resources. We are not taking applicants at this time.

**Admissions**

Applicants are required to meet two sets of minimum qualifications for admission: the requirements of the MEd in Learning, Teaching and Curriculum program (http://gradschool.missouri.edu/academics/programs/learning-teaching-curriculum/master-of-education--educational-specialist.php) and the minimum requirements of the Graduate School (http://gradschool.missouri.edu/admissions/eligibility-process/minimum-requirements.php). Because requirements vary, you must refer to a degree program's graduate admission page to learn about specific admission criteria, application deadlines, eligibility and application process. Your application materials will be reviewed by both the Graduate School and the degree program to which you've applied before official admission to the University of Missouri.

**MEd in Learning, Teaching and Curriculum with Emphasis in English Education**

**Overview**

The English area gives students a strong background in reading and writing pedagogy, adolescent literature, and media literacy. We also emphasize lesson planning, curriculum creation and teaching, classroom management, diversity and social equity.

We prepare candidates to be English teachers and follow the guidelines of National Council of Teachers of English (NCTE), as well as those of the National Middle School Association (NMSA).

**Admissions**

Applicants are required to meet two sets of minimum qualifications for admission: the requirements of the MEd in Learning, Teaching and Curriculum program (http://gradschool.missouri.edu/academics/programs/learning-teaching-curriculum/master-of-education--educational-specialist.php) and the minimum requirements of the Graduate School (http://gradschool.missouri.edu/admissions/eligibility-process/minimum-requirements.php). Because requirements vary, you must refer to a degree program's graduate admission page to learn about specific admission criteria, application deadlines, eligibility and application process. Your application materials will be reviewed by both the Graduate School and the degree program to which you've applied before official admission to the University of Missouri.

**Admissions**

Applicants are required to meet two sets of minimum qualifications for admission: the requirements of the MEd in Learning, Teaching and Curriculum program (http://gradschool.missouri.edu/academics/programs/learning-teaching-curriculum/master-of-education--educational-specialist.php) and the minimum requirements of the Graduate School (http://gradschool.missouri.edu/admissions/eligibility-process/minimum-requirements.php). Because requirements vary, you must refer to a degree program's graduate admission page to learn about specific admission criteria, application deadlines, eligibility and application process. Your application materials will be reviewed by both the Graduate School and the degree program to which you've applied before official admission to the University of Missouri.
• A minimum of two letters of recommendation; three letters, if your undergraduate GPA (last 60 hours) is below a 3.0.
• Statement of purpose clearly indicating that the proposed Masters degree is appropriate to the applicant’s professional aspirations.
• For students whose native language is not English, a score of 550 or better on the TOEFL or a 6.5 on the IELTS taken within the past two years.

The LTC graduate program cannot assure admission to all applicants who meet minimum standards specified for the degree program. Resource constraints do not permit the admission of all qualified applicants.

A committee of faculty reviews the credentials of each applicant. It is the responsibility of this committee to exercise professional judgment related to the criteria that applicants must meet in order to be considered for admission to the program.

MEd in Learning, Teaching and Curriculum with Emphasis in English Education, Teaching Fellow

Sample Plan of Study

General Core (9 credits)
ESC_PS 8320 Advanced Human Learning 3
ESC_PS 7087 Seminar in Educational, School, and Counseling Psychology (Mental Health “Wellness/Stress”) 1-3
IS_LT 7368 Technology Across the Curriculum 3
ESC_PS 7087 Seminar in Educational, School, and Counseling Psychology (Mental Health) 1-3

Pedagogical Core (11 credits)
LTC 8780 Managing Classrooms for Learning 1-3
SPC_ED 8520 Meeting the Needs of all Learners 3
LTC 8900 Seminar in Curriculum and Instruction 1-3
ED_LPA 9406 Seminar in Educational Administration 1-99

Specialization Area (6 credits)
LTC 8900 Seminar in Curriculum and Instruction 1-3

Research Courses (6 credits)
LTC 8915 Classroom Research-Learning, Teaching and Curriculum 1-3
LTC 8910 Individual Research 1-3

Admissions

Applicants are required to meet two sets of minimum qualifications for admission: the requirements of the MEd in Learning, Teaching and Curriculum program (http://gradschool.missouri.edu/academics/programs/learning-teaching-curriculum/master-of-education--educational-specialist.php) and the minimum requirements of the Graduate School (http://gradschool.missouri.edu/admissions/eligibility-process/minimum-requirements.php). Because requirements vary, you must refer to a degree program’s graduate admission page to learn about specific admission criteria, application deadlines, eligibility and application process. Your application materials will be reviewed by both the Graduate School and the degree program to which you’ve applied before official admission to the University of Missouri.

MEd in Learning, Teaching and Curriculum with Emphasis in Literacy Education

Overview
Do you want to become a literacy education researcher? Do you want to improve your literacy instruction (K-12)? Do you want to be certified as a Special Reading teacher (K-12) in the state of Missouri? Do you want to improve your literacy instruction (K-12)? Do you want to become a literacy education researcher?
The nationally-recognized Literacy Faculty at the University of Missouri-Columbia is prepared to help you accomplish your professional goals.

Teachers with this certification are qualified for such positions as: Remedial Reading, Title I Reading, Reading Development, Special Education, and Language Arts. Depending on your initial certification experience (BA/BS), this certification may require as few as 6 courses.

Degree Requirements
The MEd degree in Literacy Education comprises a minimum of 32 semester hours of graduate work that meets the professional needs of the students. The courses include 16 hours of classes at the 8000-9000 level and 16 hours of work in education at the 7000-9000 level or above, which includes a course that enables the student to read, interpret and evaluate research.

Sample Plan of Study

• Prerequisites (0-9 semester hours)
• Psychological or Philosophical Foundations of Education (3 semester hours)
• Educational Research (3 semester hours)
• Foundations of Literacy Education (12-15 hours)
• Area of Specialization (0-9 semester hours)
  • Children’s Literature
  • Media and Technology
  • Special Reading Certification (K-12)
  • Teaching Literacy to Diverse Learners
  • Writing Instruction
• Electives (0-9 semester hours)

Thesis/Non-Thesis Requirements

To complete the masters programs, students are required to pass "comprehensive exams" or equivalent. Please speak with your advisor what this exam/project may entail.

Admissions

Applicants are required to meet two sets of minimum qualifications for admission: the requirements of the MEd in Learning, Teaching and Curriculum program (http://gradschool.missouri.edu/academics/programs/learning-teaching-curriculum/master-of-education--educational-specialist.php) and the minimum requirements of the Graduate School (http://gradschool.missouri.edu/admissions/eligibility-process/minimum-requirements.php). Because requirements vary, you must refer to a degree program’s graduate admission page to learn about specific
admission criteria, application deadlines, eligibility and application process. Your application materials will be reviewed by both the Graduate School and the degree program to which you’ve applied before official admission to the University of Missouri.

Admission requirements will be based upon the following criteria. Complete admission requirements for the Master’s program.

- Completion of an appropriate Bachelor’s degree with a GPA of 3.0 or better.
- A minimum of two letters of recommendation; three letters, if your undergraduate GPA (last 60 hours) is below a 3.0.
- Statement of purpose clearly indicating that the proposed Masters degree is appropriate to the applicant’s professional aspirations.
- For students whose native language is not English, a score of 500 or better on the TOEFL or a 5.5 on the IELTS taken within the past two years.

The LTC graduate program cannot assure admission to all applicants who meet minimum standards specified for the degree program. Resource constraints do not permit the admission of all qualified applicants.

A committee of faculty reviews the credentials of each applicant. It is the responsibility of this committee to exercise professional judgment related to the criteria that applicants must meet in order to be considered for admission to the program.

### MEd in Learning, Teaching and Curriculum with Emphasis in Mathematics Education

The Master of Education degree in Mathematics Education is intended for those who wish to improve their mathematics teaching practice and to gain a broader understanding of issues related to teaching and learning mathematics, K-12.

In addition to the campus option, there is a completely online masters degree in Mathematics Education for certified teachers. More information specific to this program can be found here: [http://online.missouri.edu/degreeprograms/ed-mathematics/no-certification/index.aspx](http://online.missouri.edu/degreeprograms/ed-mathematics/no-certification/index.aspx).

#### Admissions

Applicants are required to meet two sets of minimum qualifications for admission: the requirements of the MEd in Learning, Teaching and Curriculum program ([http://gradschool.missouri.edu/academics/programs/learning-teaching-curriculum/master-of-education--educational-specialist.php](http://gradschool.missouri.edu/academics/programs/learning-teaching-curriculum/master-of-education--educational-specialist.php)) and the minimum requirements of the Graduate School ([http://gradschool.missouri.edu/admissions/eligibility-process/minimum-requirements.php](http://gradschool.missouri.edu/admissions/eligibility-process/minimum-requirements.php)). Because requirements vary, you must refer to a degree program’s graduate admission page to learn about specific admission criteria, application deadlines, eligibility and application process. Your application materials will be reviewed by both the Graduate School and the degree program to which you’ve applied before official admission to the University of Missouri.

Admission requirements will be based upon the following criteria. Complete admission requirements ([http://education.missouri.edu/LTC/prospective_students/how_to_apply.php](http://education.missouri.edu/LTC/prospective_students/how_to_apply.php)) for the Master’s program.

- Completion of an appropriate Bachelor’s degree with a GPA of 3.0 or better.
- A minimum of two letters of recommendation; three letters, if your undergraduate GPA (last 60 hours) is below a 3.0.
- Statement of purpose clearly indicating that the proposed Masters degree is appropriate to the applicant’s professional aspirations.
- GRE scores taken within the last 5 years (preferred minimum scores should be V150,Q141,A3.5 or higher)
- For students whose native language is not English, a score of 550 or better on the TOEFL or a 5.5 on the IELTS taken within the past two years.

The LTC graduate program cannot assure admission to all applicants who meet minimum standards specified for the degree program. Resource constraints do not permit the admission of all qualified applicants.

A committee of faculty reviews the credentials of each applicant. It is the responsibility of this committee to exercise professional judgment related to the criteria that applicants must meet in order to be considered for admission to the program.

### MEd in Learning, Teaching and Curriculum with Emphasis in Mathematics Education, Certification

#### Overview

Program currently suspended due to limited budget and departmental resources.

This degree combines both masters degree and initial certification in K-12 mathematics education into a 36+ hour program.

MEd in Learning, Teaching and Curriculum with Emphasis in Music Education

Master’s degrees in music education, offered through the College of Education’s Department of Learning, Teaching, and Curriculum (http://education.missouri.edu/LTC/music/music_program.php), are fully accredited by the National Association of Schools of Music. The MEd with a major in Music Education is a practice-oriented degree, designed to meet the needs of professionals interested in advancing their careers, knowledge, and skills in music education, regardless of level or specialization. This may be completed either by full-time teachers attending classes part time during evenings and full time during summers, or by traditional, full-time graduate students. Students who hold a BA or BM in music may pursue teacher certification simultaneously while working on the MEd.

This degree requires 32 credit hours. At least 16 hours must be taken in education/music education, and 16 must be numbered 8000 or above (one course may be counted in both categories: i.e., LTC 8900 can be used in both).

Sample Program of Study

Music Education Coursework (13-18 credit hours)

Required:

- LTC 8900: Seminar: Research and Measurement in Music Education (3 credits)
- LTC 8840: Foundations of Music Education
- LTC 8900: Seminar: Psychology of Music Performance

Additional music education courses as determined by student and advisor, from among the courses listed below, and depending on course availability (3 credits each, unless noted otherwise):
• LTC 8820: Advanced Techniques in Music Education - General Music Education
• LTC 8823: Advanced Techniques in Music Education - Early Childhood
• LTC 8825: Administration and Supervision of Music Programs
• LTC 8900: Seminars with varying topics, such as Current Issues in Music Education, Implementing National Standards K-12, Diversity Issues in Music Education
• LTC 8085, 8940, 8941: Problems, In-Service Course, or Internship (individual study courses) (1-3 credits)

Professional Education Coursework (3-6 credits)
• At least one course (3 credits) must be taken in Educational Psychology, Philosophy, or Sociology.
• One additional course (3 credits) may count toward the degree as an elective.

Music Coursework (11-16 credit hours)
Required:
• Music Theory and History: 8-9 credits, at least one course from each area
• Applied Music, Music Techniques, or Conducting: 2-3 credits from one of these areas

Electives in Music (0-5 credits)

Examinations
Written comprehensive examinations are administered by the music education faculty, comprising take-home projects and essays based on synthesis of aspects of the coursework completed in the Music Education area, and application of the coursework completed in the Studies in Music component of the degree program to their current or future classrooms.

Admissions
Applicants are required to meet two sets of minimum qualifications for admission: the requirements of the MEd in Learning, Teaching and Curriculum program (http://gradschool.missouri.edu/academics/programs/learning-teaching-curriculum/master-of-education--educational-specialist.php) and the minimum requirements of the Graduate School (http://gradschool.missouri.edu/admissions/eligibility-process/minimum-requirements.php). Because requirements vary, you must refer to a degree program’s graduate admission page to learn about specific admission criteria, application deadlines, eligibility and application process. Your application materials will be reviewed by both the Graduate School and the degree program to which you’ve applied before official admission to the University of Missouri.

Admission requirements will be based upon the following criteria. Complete admission requirements (http://education.missouri.edu/LTC/prospective_students/how_to_apply.php) for the Master’s program.
• Completion of an appropriate Bachelor’s degree with a GPA of 3.0 or better.
• A minimum of two letters of recommendation; three letters, if your undergraduate GPA (last 60 hours) is below a 3.0.
• Statement of purpose clearly indicating that the proposed Masters degree is appropriate to the applicant’s professional aspirations.

• For students whose native language is not English, a score of 550 or better on the TOEFL or a 6.5 on the IELTS taken within the past two years

The LTC graduate program cannot assure admission to all applicants who meet minimum standards specified for the degree program. Resource constraints do not permit the admission of all qualified applicants.

A committee of faculty reviews the credentials of each applicant. It is the responsibility of this committee to exercise professional judgment related to the criteria that applicants must meet in order to be considered for admission to the program.

MEd in Learning, Teaching and Curriculum with Emphasis in Science Education

The MU Master’s Program in Science Education is intended for classroom teachers who want to become reflective and inquiring professionals by:
• Enhancing their knowledge and skills about science teaching and learning.
• Inquiring into and improving their practice and responsibility of this committee to exercise professional judgment related to the criteria that applicants must meet in order to be considered for admission to the program.

Degree Requirements

The MEd program requires a minimum of 32 semester hours beyond the Bachelor’s (16 hours at the 8000 or 9000 level, 16 hours of education courses), planned in agreement with the student’s Advisory Committee. Listed below are the requirements for a Master’s degree in Science Education.

• Science Education (9 or more semester hours)
• Science Content (9 or more semester hours)
• Educational Foundations (1 course in sociology, philosophy, or history of education--e.g., ED_LPA 9460, ED_LPA 9462, ED_LPA 9464; or educational psychology--e.g., ESC_PS 7100, ESC_PS 8320 or ED_LPA 9441)
• Research Methods (1 course in research methods: LTC 8714 or Action Research)
• Comprehensive Exam (Written comps, either in exam or project format, are individually designed for each student by committee members.)

Admissions

Applicants are required to meet two sets of minimum qualifications for admission: the requirements of the MEd in Learning, Teaching and Curriculum program (http://gradschool.missouri.edu/academics/programs/learning-teaching-curriculum/master-of-education--educational-specialist.php) and the minimum requirements of the Graduate School (http://gradschool.missouri.edu/admissions/eligibility-process/minimum-requirements.php). Because requirements vary, you must refer to a degree program’s graduate admission page to learn about specific admission criteria, application deadlines, eligibility and application process. Your application materials will be reviewed by both the Graduate School and the degree program to which you’ve applied before official admission to the University of Missouri.

Admission requirements will be based upon the following criteria. Complete admission requirements (http://education.missouri.edu/LTC/prospective_students/how_to_apply.php) for the Master’s program.

• Completion of an appropriate Bachelor’s degree with a GPA of 3.0 or better.
• A minimum of two letters of recommendation; three letters, if your undergraduate GPA (last 60 hours) is below a 3.0.
• Statement of purpose clearly indicating that the proposed Masters degree is appropriate to the applicant’s professional aspirations.
• GRE scores taken within the last 5 years (preferred minimum scores should be V150, Q141, A3.5 or higher)
• For students whose native language is not English, a score of 550 or better on the TOEFL or a 6.5 on the IELTS taken within the past two years.

The LTC graduate program cannot assure admission to all applicants who meet minimum standards specified for the degree program. Resource constraints do not permit the admission of all qualified applicants.

A committee of faculty reviews the credentials of each applicant. It is the responsibility of this committee to exercise professional judgment related to the criteria that applicants must meet in order to be considered for admission to the program.

MEd in Learning, Teaching and Curriculum with Emphasis in Science Education, Certification

Overview

This degree program is currently suspended due to limited budget and departmental resources. (This program was known as the SMAR2T program.) We are not taking applications for this program at this time.

The MU Master’s Program in Science Education is intended for students who have a BA or BS in a science field and want to become classroom teachers by:

• Enhancing their knowledge and skills about science teaching and learning.
• Inquiring into and improving their practice and responsibility of this committee to exercise professional judgment related to the criteria that applicants must meet in order to be considered for admission to the program.

Sample Plan of Study

The MEd program requires a minimum of 32 semester hours beyond the Bachelor’s (16 hours at the 8000 or 9000 level), planned in agreement with the student’s Advisory Committee. Listed below are the requirements for a Master’s degree in Science Education.

Admissions

Applicants are required to meet two sets of minimum qualifications for admission: the requirements of the MEd in Learning, Teaching and Curriculum program (http://gradschool.missouri.edu/academics/programs/learning-teaching-curriculum/master-of-education--educational-specialist.php) and the minimum requirements of the Graduate School (http://gradschool.missouri.edu/admissions/eligibility-process/minimum-requirements.php). Because requirements vary, you must refer to a degree program’s graduate admission page to learn about specific admission criteria, application deadlines, eligibility and application process. Your application materials will be reviewed by both the Graduate School and the degree program to which you’ve applied before official admission to the University of Missouri.
Admission requirements will be based upon the following criteria. Complete admission requirements (http://education.missouri.edu/LTC/prospective_students/how_to_apply.php) for the Master’s program.

- Completion of an appropriate Bachelor’s degree with a GPA of 3.0 or better.
- A minimum of two letters of recommendation; three letters, if your undergraduate GPA (last 60 hours) is below a 3.0.
- Statement of purpose clearly indicating that the proposed Masters degree is appropriate to the applicant’s professional aspirations.
- GRE scores taken within the last 5 years (preferred minimum scores should be V150,Q141,A3.5 or higher)
- For students whose native language is not English, a score of 550 or better on the TOEFL or a 6.5 on the IELTS taken within the past two years.

The LTC graduate program cannot assure admission to all applicants who meet minimum standards specified for the degree program. Resource constraints do not permit the admission of all qualified applicants.

A committee of faculty reviews the credentials of each applicant. It is the responsibility of this committee to exercise professional judgment related to the criteria that applicants must meet in order to be considered for admission to the program.

Admissions

Applicants are required to meet two sets of minimum qualifications for admission: the requirements of the MEd in Learning, Teaching and Curriculum program (http://gradschool.missouri.edu/academics/programs/learning-teaching-curriculum/master-of-education--educational-specialist.php) and the minimum requirements of the Graduate School (http://gradschool.missouri.edu/admissions/eligibility-process/minimum-requirements.php). Because requirements vary, you must refer to a degree program’s graduate admission page to learn about specific admission criteria, application deadlines, eligibility and application process. Your application materials will be reviewed by both the Graduate School and the degree program to which you’ve applied before official admission to the University of Missouri.

MEd in Learning, Teaching and Curriculum with Emphasis in Social Studies Education

The masters degree program in Social Studies Education is primarily for classroom teachers, grades 1-12, who wish to advance their knowledge and practice of social studies while obtaining an advanced degree. This focus area will provide you with skills and knowledge applicable to the social studies classroom. Students have the option of pursuing a campus or online degree.

**Admissions**

Applicants are required to meet two sets of minimum qualifications for admission: the requirements of the MEd in Learning, Teaching and Curriculum program (http://gradschool.missouri.edu/academics/programs/learning-teaching-curriculum/master-of-education--educational-specialist.php) and the minimum requirements of the Graduate School (http://gradschool.missouri.edu/admissions/eligibility-process/minimum-requirements.php). Because requirements vary, you must refer to a degree program’s graduate admission page to learn about specific admission criteria, application deadlines, eligibility and application process. Your application materials will be reviewed by both the Graduate School and the degree program to which you’ve applied before official admission to the University of Missouri.

**MEd in Learning, Teaching and Curriculum with Emphasis in Teaching English to Speakers of Other Languages**

The University of Missouri’s Teaching English to Speakers of Other Languages (TESOL) program is designed to meet the challenges of a diverse student body in a variety of education settings. Given the use of English as a global lingua franca, learning the unique methodology and theories associated with second language teaching is crucial to effectively meeting the challenges of a multilingual global society.

The TESOL program at MU can meet the needs of teachers seeking ESOL certification in the state of Missouri, those seeking advanced education in ESL/EFL teaching and learning, as well as those who seek further education in TESOL. Currently, many of our students begin the ESOL certification courses but find the topic so intriguing that they go on to pursue advanced education in the field (all TESOL courses taken at the graduate level are fully transferable to the M.Ed. degree).

The student body in the TESOL program at MU is incredibly diverse with students from a variety of ethnicities, cultures, and linguistic and educational backgrounds. We welcome traditional and nontraditional students as the program is designed to meet the needs of a variety of learners in a variety of academic settings.

The TESOL program at MU is informed by the second language acquisition theories and pedagogy unique to students who speak English in addition to their native language(s). The courses in the TESOL program are taught by faculty with expertise and knowledge in the field of English language learning including applied linguistics, sociolinguistics, intercultural communication, and English language education. By focusing on the interplay of theory and methods, as well as the cultural and linguistic diversity of English Language Learners, this program focuses on developing effective, responsive scholars and practitioners who use theory and research to enhance their work in a global, diverse, and technological society.

**Degree Requirements**

The M Ed program in TESOL requires 33 semester hours beyond the Bachelor’s (16 hours at the 8000 or 9000 level), planned in agreement with the student’s Advisory Committee.

**Sample Plan of Study**

**TESOL Focus Courses (18 semester hours)**
- LTC 8645 Second Language Acquisition 3
- LTC 8648 Linguistics for Educators 3
- LTC 8647 Language and Culture for Educators 3
- LTC 8646 Materials for and Assessment of English Language Learners 3
- LTC 8649 Methods of Teaching English Language Learners 3
- LTC 8650 English to Speakers of Other Languages Practicum 3

**Practicum:** All master’s students will be required to complete a practicum upon completion of the TESOL focus courses. LTC 8649 Methods of Teaching English Language Learners is a prerequisite and cannot be taken during the same semester as the practicum. If you are currently teaching English language learners, the 16-week practicum can be conducted in your own classroom and will be supervised online by a TESOL instructor. The Practicum may be waived for two years of full-time teaching experience in an ELL program.

**Core Master’s Courses (6 semester hours)**
- ESC_PS 7115 Human Learning 3
- LTC 8915 Classroom Research-Learning, Teaching and Curriculum 1-3

**Electives (9 semester hours)**
- LTC 8900 Seminar in Curriculum and Instruction (Teaching ESL/EFL to Adult Learners) 1-3
- LTC 8633 Celebrating Reading Through Good Books 3
- LTC 8642 Teaching Writing and Reading in Content Areas 3
LTC 8644 Teaching English Grammar and Pronunciation 3
LTC 8651 Working with English Language Learners with Special Needs 3
LTC 8900 Seminar in Curriculum and Instruction (Seminar in Bilingual Education) 1-3
ED_LPA 8428 Curriculum Leadership 3
IS_LT 9467 Technology to Enhance Learning 3

Other electives may be chosen in consultation with your advisor

Thesis/Non-Thesis Requirements
To complete the masters programs, students are required to pass "comprehensive exams" or equivalent. Please speak with your advisor what this exam/project may entail.

Admission
Applicants are required to meet two sets of minimum qualifications for admission: the requirements of the MEd in Learning, Teaching and Curriculum program (http://gradschool.missouri.edu/academics/programs/learning-teaching-curriculum/master-of-education--educational-specialist.php) and the minimum requirements of the Graduate School (http://gradschool.missouri.edu/admissions/eligibility-process/minimum-requirements.php). Because requirements vary, you must refer to a degree program’s graduate admission page to learn about specific admission criteria, application deadlines, eligibility and application process. Your application materials will be reviewed by both the Graduate School and the degree program to which you’ve applied before official admission to the University of Missouri.

Admission requirements will be based upon the following criteria.
Complete admission requirements (http://education.missouri.edu/LTC/prospective_students/how_to_apply.php) for the Master’s program.
• Completion of an appropriate Bachelor’s degree with a GPA of 3.0 or better.
• A minimum of two letters of recommendation; three letters, if your undergraduate GPA (last 60 hours) is below a 3.0.
• Statement of purpose clearly indicating that the proposed Masters degree is appropriate to the applicant’s professional aspirations.
• GRE scores taken within the last 5 years (preferred minimum scores should be V150,Q145,A3.5 or higher). The verbal must meet the 150 minimum in order to be considered for the program.
• For students whose native language is not English, a score of 550 or better on the TOEFL or a 6.5 on the IELTS taken within the past two years

The LTC graduate program cannot assure admission to all applicants who meet minimum standards specified for the degree program. Resource constraints do not permit the admission of all qualified applicants.

A committee of faculty reviews the credentials of each applicant. It is the responsibility of this committee to exercise professional judgment related to the criteria that applicants must meet in order to be considered for admission to the program.

About the Ed.S.
This post-master Educational Specialist degree is offered with the following emphasis areas: Literacy; Mathematics Education; Music Education; and Science Education.

Admissions Deadlines
Applicants are encouraged to submit their applications as early in the process as possible. Applications can take 6-8 weeks to expedite completely. Every reasonable effort will be made to process the application for the semester requested.

Admission Requirements
• Completion of an appropriate baccalaureate degree with a GPA of 3.0 or better
• Evidence of at least 2 years of successful experience in an appropriate field
• Minimum TOEFL scores for most areas:
  Internet-based test (iBT) 80
  Paper-based test (PBT) 550

Minimum GRE score is required for all applicants of the Ed.S. program.

When did you take the GRE?
• Prior to August 1, 2011 810+
• On or After August 1, 2011 291= (V150,Q141)

Required Application Materials to the Graduate School:
• All required Graduate School documents
• Official transcripts
• GRE scores
• TOEFL scores

Required Application Materials to the Learning, Teaching, & Curriculum Program
• Personal data sheet form (select appropriate form from the department website)
• Statement of purpose
• GRE scores (a copy may be sent to the department too; minimum, an official result needs to be sent to Graduate School)
• 3 letters of recommendation; check with department to see if they are required for your emphasis. ALL LETTERS MUST BE CONFIDENTIAL AND SUBMITTED ACCORDINGLY THROUGH THE GRADUATE SCHOOL APPLICATION SYSTEM.

EdSp in Learning, Teaching and Curriculum with Emphasis in Literacy Education
Degree Requirements

The EdS is a 30-hour program of specialization built on the master’s degree. The program requires course work in core, research, and electives. The program is directed by an advisory committee (3 members) and supervised by the major advisor.

Sample Plan of Study

Please consult with an advisor to inquire what a sample program of study may look like. Coursework will generally comprise upper-level graduate work in literacy education, tailored to the student’s needs and career objectives.

- Prerequisites
  - Foundations of Educational Psychology (or equivalent)
  - Introduction to Statistics (or equivalent)

- English Education or Literacy Education Core
  - To be negotiated with advisor to meet your professional goals

- Education Core (3+ semester hours)
  - If not completed as a part of the master’s degree, one or more graduate courses in the behavioral, social, philosophical, or historical foundations of education

- Research Courses (6+ semester hours)
  - Introduction to Educational Statistics
  - Overview of Educational Research

- Electives
  - May be taken to deepen specialization or to advance the student’s career goals

Comprehensive Examination Process

A thesis or seminar paper and final examination are required.

Admissions

Applicants are required to meet two sets of minimum qualifications for admission: the requirements of the EdS in Learning, Teaching and Curriculum program (http://gradschool.missouri.edu/academics/programs/learning-teaching-curriculum/master-of-education--educational-specialist.php) and the minimum requirements of the Graduate School (http://gradschool.missouri.edu/admissions/eligibility-process/minimum-requirements.php). Because requirements vary, you must refer to a degree program’s graduate admission page to learn about specific admission criteria, application deadlines, eligibility and application process. Your application materials will be reviewed by both the Graduate School and the degree program to which you’ve applied before official admission to the University of Missouri.

Admission requirements will be based upon the following criteria. Complete admission requirements (http://education.missouri.edu/LTC/prospective_students/how_to_apply.php) for the Master’s program.

- Completion of an appropriate Bachelor’s degree with a GPA of 3.0 or better.
- Completion of an appropriate master’s degree with a GPA of 3.0 or better.
- A minimum of three letters of recommendation.
- Statement of purpose clearly indicating that the proposed Masters degree is appropriate to the applicant’s professional aspirations.

- GRE scores taken within the last 5 years (preferred minimum scores should be V150,Q141,A3.5 or higher)
- For students whose native language is not English, a score of 550 or better on the TOEFL or a 6.5 on the IELTS taken within the past two years

### EdSp in Learning, Teaching and Curriculum with Emphasis in Music Education

The Educational Specialist Degree (EdS) in Learning, Teaching, & Curriculum with an emphasis in Music Education, is offered by the College of Education in close collaboration with the School of Music. The EdS represents a planned program of approved graduate coursework beyond the master’s degree, organized to meet the specific needs of the student. The program is one of specialization and is designed to build upon the foundation represented by previous coursework and teaching experience.

The EdS is a 30-hour program beyond a master’s degree. Coursework is comprised of at least 15 hours at the 8000 level or higher; and at least half the coursework in education. The program of study is approved by the student’s advisor and two committee members.

### Admissions

Applicants are required to meet two sets of minimum qualifications for admission: the requirements of the EdSp in Learning, Teaching and Curriculum program (http://gradschool.missouri.edu/academics/programs/learning-teaching-curriculum/master-of-education--educational-specialist.php) and the minimum requirements of the Graduate School (http://gradschool.missouri.edu/admissions/eligibility-process/minimum-requirements.php). Because requirements vary, you must refer to a degree program’s graduate admission page to learn about specific admission criteria, application deadlines, eligibility and application process. Your application materials will be reviewed by both the Graduate School and the degree program to which you’ve applied before official admission to the University of Missouri.

Admission requirements will be based upon the following criteria.

Complete admission requirements (http://education.missouri.edu/LTC/prospective_students/how_to_apply.php) for the EdS program.

- Completion of an appropriate Bachelor’s degree with a GPA of 3.0 or better.
- Completion of an appropriate master’s degree with a GPA of 3.0 or better.
- A minimum of three letters of recommendation.
- Statement of purpose clearly indicating that the proposed EdS degree is appropriate to the applicant’s professional aspirations.
- GRE scores taken within the last 5 years (preferred minimum scores should be V150,Q141,A3.5 or higher)
- For students whose native language is not English, a score of 550 or better on the TOEFL or a 6.5 on the IELTS taken within the past two years

The LTC graduate program cannot assure admission to all applicants who meet minimum standards specified for the degree program. Resource constraints do not permit the admission of all qualified applicants.

### EdSp in Learning, Teaching and Curriculum with Emphasis in Science Education

The MU Educational Specialist (EdS) Program in Science Education is designed for individuals holding a Master’s in Science Education who desire further education. The EdS is typically considered a terminal degree, not a stepping stone to the PhD.

The EdS is a 30-hour program beyond a master’s degree. Coursework is comprised of at least 15 hours at the 8000 level or higher; and at least half the coursework in education. The program of study is approved by the student’s advisor and two committee members.

### Admissions

Applicants are required to meet two sets of minimum qualifications for admission: the requirements of the EdSp in Learning, Teaching and Curriculum program (http://gradschool.missouri.edu/academics/programs/learning-teaching-curriculum/master-of-education--educational-specialist.php) and the minimum requirements of the Graduate School (http://gradschool.missouri.edu/admissions/eligibility-process/minimum-requirements.php). Because requirements vary, you must refer to a degree program’s graduate admission page to learn about specific admission criteria, application deadlines, eligibility and application process. Your application materials will be reviewed by both the Graduate School and the degree program to which you’ve applied before official admission to the University of Missouri.

Admission requirements will be based upon the following criteria.

Complete admission requirements (http://education.missouri.edu/LTC/prospective_students/how_to_apply.php) for the EdS program.

- Completion of an appropriate Bachelor’s degree with a GPA of 3.0 or better.
- Completion of an appropriate master’s degree with a GPA of 3.0 or better.
- A minimum of three letters of recommendation.
- Statement of purpose clearly indicating that the proposed graduate degree is appropriate to the applicant’s professional aspirations.
- GRE scores taken within the last 5 years (preferred minimum scores should be V150,Q141,A3.5 or higher)
- For students whose native language is not English, a score of 550 or better on the TOEFL or a 6.5 on the IELTS taken within the past two years

The LTC graduate program cannot assure admission to all applicants who meet minimum standards specified for the degree program. Resource constraints do not permit the admission of all qualified applicants.

**EdD in Learning, Teaching and Curriculum**

**Admission Contact Information**
Fran Colley
colleyf@missouri.edu
303 Townsend Hall
Columbia, MO 65211
573-882-2659

**About the Ed.D.**
The LTC department offers the doctorate of education with emphasis in General LTC studies, Elementary Education, or Reading Education.

**Application Deadline**
Applicants are encouraged to submit their applications as early in the process as possible. Applications can take 6-8 weeks to expedite completely. Every reasonable effort will be made to process the application for the semester requested.

**Admission Requirements**
- Completion of an appropriate preliminary degree with a GPA of 3.0 or better
- Evidence of at least 2 years of successful experience in an appropriate field
- Minimum TOEFL scores for most areas:
  - Internet-based test (iBT)
    - 80
  - Paper-based test (PBT)
    - 550

Minimum GRE score* (varies by program area). Generally:

- Prior to August 1, 2011
  - Verbal + Quantitative: 810+
- On or After August 1, 2011
  - 291= (V150,Q141)

*Note: Minimum GRE score varies by program area. All LTC doctoral programs require the GRE exam in order to be considered for the program.

**Required Application Materials to the Graduate School:**
- All required Graduate School documents
- Official transcripts
- Official GRE Scores
- Official TOEFL scores

**Required Application Materials to the Learning, Teaching, & Curriculum Program**
- Personal data sheet form (select appropriate form from the department website)
- Statement of purpose
- GRE scores (a copy may be sent to the department too; minimum, an official result needs to be sent to Graduate School)
- 3 letters of recommendation are required for all doctoral applicants.
  ALL LETTERS MUST BE CONFIDENTIAL AND SUBMITTED ACCORDINGLY THROUGH THE GRADUATE SCHOOL APPLICATION SYSTEM.

**Financial Aid from the Program**
Internal assistantships, fellowships or other funding packages require a departmental application, starting Fall 2010, and must be completed every semester in order to have funding renewed. Completion of the application does not guarantee renewal. Check the program Web site or ask the program contact for details.

**EdD in Learning, Teaching and Curriculum with Emphasis in Elementary Education**

Would you like to become a district coordinator for Elementary Education or a professor of Elementary Education? You can participate in advanced research-based courses in literacy/reading, mathematics education, science education, and social studies education. In addition, you will be mentored to teach at the university level and to conduct publishable research. The majority of Ed.D. students in elementary education move into administrative roles at the district or state level. The majority of Ph.D. students in elementary education move on to take positions at universities or colleges. This program offers 72-hours beyond the bachelor's degree.

**Goals of the Doctoral Programs**
Prepares students to:
- Understand the depth and breadth of the fields of literacy, mathematics education, social studies education, and science education in terms of research, curriculum, policy, teacher development and student learning;
- Develop, carry out, and report independent research in some area of elementary education;
- Become outstanding teachers/advisors of college students;
- Understand the role of service in the university setting and begin those memberships in organizations that can lead to a service agenda.

These goals are achieved through a combination of course-work, internships, and authentic experiences with research, development, and teacher education.

**Admissions**
Applicants are required to meet two sets of minimum qualifications for admission: the requirements of the EdD in Learning, Teaching and Curriculum (http://gradschool.missouri.edu/academics/programs/learning-teaching-curriculum/doctorate.php) and the minimum requirements of the Graduate School (http://gradschool.missouri.edu/admissions/eligibility-process/minimum-requirements.php). Because requirements vary, you must refer to a degree program’s graduate admission page to learn about specific admission criteria, application deadlines, eligibility and application process. Your application materials will be reviewed by both the Graduate School and the degree program to which you’ve applied before official admission to the University of Missouri.
Admission requirements will be based upon the following criteria. Complete admission requirements (http://education.missouri.edu/LTC/prospective_students/how_to_apply.php) for the Master’s program.

- Completion of an appropriate Bachelor’s degree with a GPA of 3.0 or better.
- Completion of an appropriate master’s degree with a GPA of 3.0 or better.
- A minimum of three letters of recommendation.
- Statement of purpose clearly indicating that the proposed graduate degree is appropriate to the applicant’s professional aspirations.
- GRE scores taken within the last 5 years (preferred minimum scores should be V150, Q144, A4.0 or higher)
- For students whose native language is not English, a score of 100 or better on the IBT TOEFL or a 7.0 on the IELTS taken within the past two years

The LTC graduate program cannot assure admission to all applicants who meet minimum standards specified for the degree program. Resource constraints do not permit the admission of all qualified applicants.

A committee of faculty reviews the credentials of each applicant. It is the responsibility of this committee to exercise professional judgment related to the criteria that applicants must meet in order to be considered for admission to the program.

EdD in Learning, Teaching and Curriculum with Emphasis in General

The page for this program is still under construction and should be available in future editions of the catalog. For further information concerning this degree, contact the School or College offering this degree.

Admissions

Applicants are required to meet two sets of minimum qualifications for admission: the requirements of the EdD in Learning, Teaching and Curriculum (http://gradschool.missouri.edu/academics/programs/learning-teaching-curriculum/doctorate.php) and the minimum requirements of the Graduate School (http://gradschool.missouri.edu/admissions/eligibility-process/minimum-requirements.php). Because requirements vary, you must refer to a degree program’s graduate admission page to learn about specific admission criteria, application deadlines, eligibility and application process. Your application materials will be reviewed by both the Graduate School and the degree program to which you’ve applied before official admission to the University of Missouri.

Admission requirements will be based upon the following criteria. Complete admission requirements (http://education.missouri.edu/LTC/prospective_students/how_to_apply.php) for the Master’s program.

- Completion of an appropriate Bachelor’s degree with a GPA of 3.0 or better.
- Completion of an appropriate master’s degree with a GPA of 3.0 or better.
- A minimum of three letters of recommendation.
- Statement of purpose clearly indicating that the proposed graduate degree is appropriate to the applicant’s professional aspirations.
- GRE scores taken within the last 5 years (preferred minimum scores should be V150, Q144, A4.0 or higher)
- For students whose native language is not English, a score of 100 or better on the IBT TOEFL or a 6.5 on the IELTS taken within the past two years

The LTC graduate program cannot assure admission to all applicants who meet minimum standards specified for the degree program. Resource constraints do not permit the admission of all qualified applicants.

A committee of faculty reviews the credentials of each applicant. It is the responsibility of this committee to exercise professional judgment related to the criteria that applicants must meet in order to be considered for admission to the program.

EdD in Learning, Teaching and Curriculum with Emphasis in Reading Education

The Ed.D. in Literacy Education is a 72-hour program above the bachelor’s. Students can expect to:

- Understand the depth and breadth of literacy education in terms of research, curriculum, policy, teacher development and student learning;
- Develop, carry out, and report independent research in literacy education;
- Become outstanding teachers/advisors of college students;
- Understand the role of service in the university setting and begin those memberships in organizations that can lead to a service agenda.

These goals are achieved through a combination of course-work, internships, and authentic experiences with research, development, and teacher education.

Admissions

Applicants are required to meet two sets of minimum qualifications for admission: the requirements of the EdD in Learning, Teaching and Curriculum (http://gradschool.missouri.edu/academics/programs/learning-teaching-curriculum/doctorate.php) and the minimum requirements of the Graduate School (http://gradschool.missouri.edu/admissions/eligibility-process/minimum-requirements.php). Because requirements vary, you must refer to a degree program’s graduate admission page to learn about specific admission criteria, application deadlines, eligibility and application process. Your application materials will be reviewed by both the Graduate School and the degree program to which you’ve applied before official admission to the University of Missouri.
