Students are expected to attend all scheduled class sessions. A student who does not complete assigned academic work because of absence from class is responsible for making up that work in accordance with instructions provided by the faculty member consistent with any policy established by the faculty of the respective department, school or college. A school or college faculty, a department faculty, a course director or an individual instructor may establish attendance standards and will determine whether a student will be permitted to make up work missed as a result of absence(s). There is no dean’s excuse or official absence. (See Satisfactory Academic Progress Policy for Financial Aid Eligibility (http://financialaid.missouri.edu/eligibility/satisfactory-academic-progress.php)).

However, a student who is also a member of a national guard, Federal Emergency Management Agency or military reserve unit and is called to active duty while the University is in session, will be permitted to make up work missed as a result of such absences for up to two weeks of absences, provided that to do so does not require the instructor to engage in individualized tutorial work with the student. Recognizing that some students have contractual obligations to the University, while others are participating in intercollegiate events at the behest of their departments, faculty are encouraged to make accommodations for absences incurred because of these responsibilities. In enforcing their absence policy, it is recommended that faculty give due consideration to the important role that extracurricular activities play in the development of students, as well as to the benefits they provide to both our university and community.

Students must notify instructors of any scheduled absences within the first two weeks of the semester. In the case of later qualifying events, the instructor must be informed two weeks prior to those events. Instructors are encouraged to advise students of their absence policy at the beginning of the semester.

Academic Dishonesty

Academic honesty is essential to the intellectual life of the University. Thus, academic dishonesty, such as cheating and plagiarism, is a basis for disciplinary action. In all cases of academic dishonesty, the faculty member makes an academic judgment about the student’s grade on that work and in that course and reports all incidents to the provost for disciplinary action.

Academic honesty is fundamental to the activities and principles of the University. All members of the academic community must be confident that each person’s work has been responsibly and honorably acquired, developed and presented. Any effort to gain an advantage not given to all students is dishonest whether or not the effort is successful. The academic community regards academic dishonesty as an extremely serious matter, with serious consequences that range from probation to expulsion. When in doubt about plagiarism, paraphrasing, quoting or collaboration, consult the course instructor. Refer to the Collected Rules and Regulations, Section 200.010, Standard of Conduct (http://www.umsystem.edu/ums/rules/collected_rules/programs/ch200/200.010_standard_of_conduct), and Section 200.020, Rules of Procedures in Student Conduct Matters (http://www.umsystem.edu/ums/rules/collected_rules/programs/ch200/200.020_rules_of_procedures_in_student_conduct_matters) for more specific details. (The Collected Rules are available on the University of Missouri System web site.) According to the UM Rules of Procedures in Student Conduct Matters, when they suspect that academic dishonesty has occurred, faculty members have an obligation to report an incident to the Office of the Vice Provost for investigation.

Academic Progress (G)

Measuring Graduate Student Progress

Annual Requirement: Review of Graduate Student Progress

Since 2006, the Graduate School has required that all graduate students file an annual report on their academic performance, degree program milestones, and related academic/scholarly/research/creative achievements. Faculty mentors (advisors) are required to review their advisees’ annual reports to assess if their advisees are making satisfactory progress toward degree completion. In some cases, the director of graduate studies and/or department chair also reviews the students’ annual reports and faculty member responses.

Each division/area/department degree program must inform all students of the annual progress reporting requirement. This includes printed, published or electronic materials provided to graduate students (e.g., handbooks, orientation materials, guidelines, web site.)

Graduate Student Progress System (gspss.missouri.edu)

The Graduate Student Progress System (GSPS) is a web-based reporting system where students document their progress toward degree completion. All graduate students (i.e., in all disciplines) are required to submit an annual progress report by starting/updating a GSPS record. Faculty members use the GSPS to review students’ annual reports, assess their progress and provide feedback to the students.

At a minimum, students are required to report on academic progress, completion of required forms, award and honors, conferences, presentations, publications, service activities, creative activities, employment, funding activity, and job placement. Academic program faculty or administrators may require additional indicators of performance or achievement to accommodate the unique needs of their programs.

Additional information on measuring graduate student progress is at http://gradschool.missouri.edu/policies/satisfactory-progress.php.

Probation and Termination Dismissal

In addition to dismissal for failure to meet the usual examination and grade requirements, departments and graduate degree-granting area programs have the right to place on probation and, after at least 30 days of probation, to dismiss from their program any graduate student who is deemed to be making insufficient academic progress or whose work is not of the quality required. The faculty advisor or academic program chair must inform the Graduate School as soon as the student is notified and the probationary period begins. The dismissal may occur at any time during a student’s work toward a graduate degree.

For additional information on satisfactory progress, probation, termination, extension and appeals go to the Extension and Appeals of Satisfactory Progress Infractions section of this policy manual (click here to go to that section), or go to the web page version of the catalog, found at http://gradschool.missouri.edu/academics/progress/probation-termination.php.
Extension and Appeals of Satisfactory Progress Infractions

The progress of each graduate student is evaluated annually by the student’s advisor and/or director of graduate studies (DGS). The definition of “satisfactory progress” and procedures for its verification may vary among departments/programs. If a department/program has instituted timelines that differ from those applying generally to graduate students (see below), these timelines should be made available to students from their entrance into the graduate degree program. If a student is authorized to diverge from progress timelines established by either the department/program or the Graduate School, this fact should be documented in written form and endorsed by the student’s advisor and DGS.

Progress Toward Degree

Full-time students (those taking 9 hours or more per semester) should follow the time frames associated with degree programs discussed in the Graduate Policy Manual under Master’s Degrees and Doctoral Degrees. They must submit required forms on time and maintain a grade point average of 3.0 or better. Furthermore, they must successfully undergo their departments’ annual review processes.

Part-time students should file a timeline for successful degree completion with their departments and the Graduate School. This timeline should be endorsed by the director of graduate studies and a prospective advisor by the end of the first calendar year of admission into the department/program. When these timelines conflict with time to degree guidelines laid out in the Graduate Policy Manual’s sections on master’s and doctoral degrees, they must receive the endorsement of the dean of the Graduate School.

Distinction Between Requests for Extension and Appeals

A “Request for an Extension” and an “Appeal” are distinct processes for dealing with problems related to “satisfactory progress.” A “Request for Extension” is the appropriate course of action when a student has failed to meet satisfactory progress provisions of the Graduate School. The “Appeal Process” should be followed when a department/program has dismissed a student after the required probationary period.

Academic Progress (L)

Annual Review of Students’ Progress (Applicable to LLM Students)

The progress of each graduate student will be evaluated annually by the Director of the LL.M. Program.

For students who first enrolled in the LL.M. Program after January 1, 2001, the following are the standards of “satisfactory progress” in the LL.M. Program, subject to individual exceptions for good cause as approved by the Director of the LL.M. Program. Normally, students should complete all degree requirements within three (3) years of enrollment. By the end of the first year of enrollment, students must have completed at least eight (8) credits that satisfy requirements for the LL.M. degree. By the end of the second year of enrollment, students must have completed at least sixteen (16) credits that satisfy requirements for the LL.M. degree. By the end of the third year of enrollment, students must have completed at least twenty-four (24) credits that satisfy requirements for the LL.M. degree. Time spent in the armed services will not count toward the period for completing the degree requirements.

For students who first enrolled in the LL.M. Program before January 1, 2001, to achieve "satisfactory progress," students must complete an average of at least four (4) credits for every academic year since their initial enrollment in the LL.M. Program.

The Graduate School will be informed of all students who are not making satisfactory progress. When there is a question as to whether satisfactory progress is being made, the Director of the LL.M. Program will write to the student and recommend a face-to-face meeting with the student. If there is disagreement, the Director of the LL.M. Program will ask the student to submit a separate letter to him or her. Copies of both letters will be made available to the student, maintained in a departmental file, and forwarded to the Graduate School.

If difficulties persist and the Director of the LL.M. Program determines that probation is appropriate, the Director will notify the student in writing of the probationary period, which may be from 30 days to a full semester. The probation letter will state explicitly that the student is on departmental probation and state precisely what must be accomplished and by what date in order to enable the student to return to good standing in the Program and be removed from probation. Within ten (10) working days of receipt of the probation letter, the student may submit a written request for a review of this decision by the LL.M. Admissions Committee, which may affirm or revise the probation letter or determine that probation is not appropriate.

If the student does not comply with the conditions of probation, a letter signed by Director of the LL.M. Program will be sent to the student (with a copy to the Graduate School) with notification of dismissal from the LL.M. Program. Within ten (10) working days of receipt of the probation letter, the student may submit a written request for a review of this decision by the LL.M. Admissions Committee, which may affirm or revise the notification of dismissal or determine that dismissal is not appropriate (with a copy to the Graduate School). The Graduate School sends the official notice of dismissal from the Program.

A student may appeal a dismissal decision to the Graduate Faculty Senate only after completing the Program’s appeal process. The full text of the Dismissal Policy and Appeals Process for Graduate Students (http://gradschool.missouri.edu/academics/progress/requests-for-extensions-appeals.php) can be found in the Graduate School Catalog on its web site.

Academic Renewal (U)

Students who are returning to the University of Missouri to pursue an undergraduate degree after an extended absence may request permission to remove one or more complete academic terms from future degree and GPA considerations.

Eligibility

To be eligible for academic renewal consideration, students must meet these requirements:

- Students must not have enrolled as degree-seeking at the University of Missouri for four or more consecutive years.
- Students must not have graduated from the University of Missouri-Columbia.
- Students must either:
• be admitted as degree-seeking and have earned a minimum of 12.0 credits with at least a 2.5 GPA of record for those credits at the University of Missouri within the past 12 months; OR
• have attended as a non-degree-seeking student and have earned thereby a minimum of 12.0 credits with at least a 2.5 GPA of record for those credits at the University of Missouri within the past 12 months and subsequently have been admitted as degree-seeking by the University.

Conditions

Academic renewal is based on the following conditions:

• All courses and credits taken during the chosen terms will be removed from consideration for GPA and degree requirements. Students may not combine individual courses from multiple terms to comprise the semester(s) dropped. All courses and grades for the chosen terms will remain on the student’s academic record.
• Renewal may be applied only to academic terms completed prior to the student’s extended absence.
• Students may be granted only one academic renewal.
• Students who choose academic renewal must meet the degree requirements of the University of Missouri undergraduate catalog at the time of their readmission.
• Degree requirements met during the dropped terms must be repeated.
• To be eligible for a degree, students must complete a minimum of 24 credits at the University of Missouri after the granting of academic renewal.

Procedures

• Students should discuss their desire to pursue academic renewal with an academic advisor in the college they wish to enter.
• Students should submit an application for academic renewal (http://registrar.missouri.edu/policies-procedures/academic-renewal.php) to the Office of the University Registrar.
• For each term approved for academic renewal, a note will appear on the transcript.

Questions may be directed to the Office of the University Registrar, 125 Jesse Hall, (573) 882-7881.

Advanced Standing - Credit by Exam (U)

MU offers the opportunity for advanced credit by examination to any student with fewer than 90 credits. Credit may be awarded, but no grades or honors points are recorded. General eligibility to receive advanced standing at MU does not guarantee its applicability to a degree program.

The College Level Examination Program of the College Board provides general examinations and subject examinations. Credit may be awarded for CLEP subject exams only. Credit must be applicable in students’ programs of study. (Refer to the appropriate section in this catalog for the school or college, or contact the academic unit to ascertain the specific limitations for CLEP examinations.)

You are eligible to earn CLEP credit if you have fewer than 90 hours of college credit. Credit can be applied only to a course in your program of study. In most cases, your scaled score must be higher than 50 to earn credit. Exceptions are noted below.

Credit is accepted by most individual schools and colleges but might not be considered by your specific degree program.

Visit the CLEP website (https://clep.collegeboard.org/about/score) to learn how to send your scores to Mizzou.
Credit by Examination for Mathematics Courses

It is possible to receive credit in the following math courses by passing the appropriate examination:

<table>
<thead>
<tr>
<th>Course</th>
<th>Description</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>MATH 1100</td>
<td>College Algebra</td>
<td>3</td>
</tr>
<tr>
<td>MATH 1140</td>
<td>Trigonometry</td>
<td>2</td>
</tr>
<tr>
<td>MATH 1160</td>
<td>Precalculus Mathematics</td>
<td>5</td>
</tr>
<tr>
<td>MATH 1360</td>
<td>Geometric Concepts</td>
<td>3</td>
</tr>
<tr>
<td>MATH 1500</td>
<td>Analytic Geometry and Calculus I</td>
<td>5</td>
</tr>
<tr>
<td>MATH 1700</td>
<td>Calculus II</td>
<td>5</td>
</tr>
<tr>
<td><strong>Total Credits</strong></td>
<td></td>
<td><strong>23</strong></td>
</tr>
</tbody>
</table>

To inquire about these examinations, contact either the Group Testing Program, 220 Parker Hall, (573) 882-4801, or the departmental representative on testing for advanced placement. Credit for a course by examination is not available to students who have essentially covered the material of the course in college or university courses.

Departmental Examinations

Departmental examinations are limited to students with fewer than 90 credits and with no official record of previous enrollment in the course(s) in which credit is to be received.

Departmental examinations are comparable to final examinations given in the various courses offered on campus. The examinations are objective or essay formats and are prepared and graded by the faculty of the department concerned and MU Testing Services. Arrangements for departmental examinations should be made through Testing Services. (Also see the College of Arts and Science information on departmental exams (p. 138).)

International Baccalaureate

MU recognizes the International Baccalaureate Program. Students may receive credit and/or advanced standing for proficiency on the higher-level subject examinations. No credit is granted for subsidiary-level examinations.

Additional College Course Work

MU recognizes college course work completed before high school graduation if the college attended provides an official transcript of the course work.

Freshman Placement Tests

Placement in English is based on ACT score in English. Math placement is based on ALEKS Exam score or prior course credit. (See mathplacement.missouri.edu for more details)

Subject Examinations

Subject examinations are limited to students with fewer than 90 credits. The subject examinations are generally accepted by most schools and colleges but may not be considered for credit in all degree programs.

Application for Degree

Students should contact their academic unit at least one full semester before they anticipate graduating to complete the appropriate steps and paperwork to apply for receiving their degree. The University does not automatically anticipate or calculate who will be degree candidates each term.

Attendance (L)

Policies & Rules — Attendance

Law schools approved by the American Bar Association must adopt, publish and adhere to a written policy requiring regular class attendance. The rules below implement this requirement at MU, and were adopted by the faculty on January 23, 2015:

1. Class Attendance

   a. Attendance is expected, in accordance with the ABA standards.
   b. Administration of the attendance policy lies with the individual instructor for each course.
   c. The individual instructor determines the number and nature of absences from each course for an excess of which sanctions may be imposed, as well as the sanctions which will be imposed, up to and including dismissal from the course.
   d. If the instructor intends to attach a formal sanction (grade reduction or dismissal from the course) to inadequate attendance, he/she must announce to the class in writing at the beginning of the course what the rules governing attendance in that course will be, with appropriate provision for notice to late enrollers.
   e. A student who is in danger of accumulating excessive absences must be given notice by the instructor in advance of the absence which will give rise to a significant sanction (major grade reduction or dismissal from the class).

2. Appeals

   a. A student who is dropped from a course for excessive absences may meet with the Associate Dean for Academic Affairs and request reversal of the decision. A student may seek the assistance of the Student Bar Association in support of the request.
   b. A final decision on the appeal rests in the discretion of the Dean.

Auditing a Course (Hearer)

Students who wish to obtain knowledge from a course, but do not need or want the credit for graduation, may enroll in the course(s) as auditors/hearers.

- Hearsers receive no credit toward a degree and an H grade appears on the transcript. The credit received when auditing a course does not count toward your verification of full, half or less than half time enrollment status. This credit is not reported to the National Student Clearinghouse for enrollment verifications.
- Students pay standard fees (http://cashiers.missouri.edu) for the course(s).
- Students may not change their registration status (hearer vs. credit) after two weeks following the first day of classes in regular session or the equivalent thereof in a shorter session.
- Check the academic calendar (http://registrar.missouri.edu/academic-calendar) for deadlines.
- Students who want to change their grading basis must go to the academic advising office before two weeks following the first day of classes in regular session or equivalent thereof in a shorter session.
• Students who fail to meet class requirements may be dropped from the course by their academic advising unit upon request of their instructor and with the dean’s stamp.
• Normally, a hearer will attend the course on a regular basis; either the department or an individual instructor will stipulate the requirements for enrollment in a course as a hearer.

Catalog Editions (Which catalog applies to whom?)

These policies concern the application of the University of Missouri’s graduation, divisional and departmental degree requirements. MU students’ academic requirements for graduation are typically met as follows:

University general education and other University-wide policies:
• Students must complete the graduation requirements in effect for the term that they first enroll at MU or they may choose those in effect for the term that their degree is awarded with the agreement of their academic unit.
• This policy applies to newly admitted freshmen as well as transfer students.
• Students who have a lapse in enrollment must meet the degree requirements in effect at the time the students are readmitted to MU.

Divisional, departmental and other degree requirements:
• Students must meet the specified divisional, departmental and major requirements for the degree(s) that were in effect when they were admitted as degree seeking to the program or may choose those in effect for the term in which they will graduate, with the agreement of their division or department.
• Students who have a lapse in enrollment must meet the standards of their degree requirements in effect when they return to MU.

After consulting with an advisor, students may appeal. Requests for exceptions to the above policy may be made to the academic dean for the academic unit in which the student is enrolled. Some academic units may have unique “grandfathering” policies that apply to changes in their programs and that supersede this policy. Students should consult with an advisor in all cases.

Computer Policies (L)

Acceptable Use Policy
• Priority use of lab computing equipment is for academic rather than recreational purposes. If you are asked to relinquish use for this reason, your compliance is expected and appreciated.
• Computing at MU is a community enterprise serving academic, administrative and research needs. Please conserve resources by carefully managing your e-mail, data, web files, and printing.
• Users will respect copyright, slander, libel, anti-discrimination and other appropriate laws as well as the security and proper functioning of the campus network.
• MU is committed to privacy and will not routinely inspect the contents of your computer files.
• MU provides uncensored access to materials on the campus network or the Internet unless those materials violate federal or state laws.

For more detailed information on current acceptable use guidelines, or to report a potential violation, view MU’s Acceptable Use Policy (http://www.umsystem.edu/ums/rules/collected_rules/facilities/ch110/110.005_acceptable_use_policy).

Law School Computer Lab Policies
• Limited Access to the Law School Computer Lab - In order to use the computer lab you must be a current MU law student. Access to the computer lab is a privilege and is not transferable to non-law students. You may not let your family use the lab for any purpose.
• Computer Availability and Priority of Use - Computers in back of the lab are available during regular library service hours on a first-come, first-served basis. Computer training classes held in the front room of the lab take priority over individual use. An ADA workstation is available in Room 119 of the lab. Students who require access to this equipment in order to be able to access library resources have priority. All decisions as to the use of the computers are at the discretion of the Library Director, the Associate Director, or the Automation Librarian.
• Copyright and Licensing Restrictions - The user is responsible for observing all copyright laws. The software and documentation made available in the lab is for use only in the lab and is not to be duplicated for use elsewhere. Duplicating a copyrighted program or documentation is illegal and is an Honor Code violation. Any use of computer-assisted legal research databases (Westlaw and Lexis) is for academic purposes only. Terms of use are governed by individual subscriber agreements for each system.
• Assumption of the Risk - The MU Law Library and MU School of Law make no guarantee with respect to any equipment, programs, or other materials in the computer lab. The entire risk as to the quality and performance of the computer equipment, programs, and documentation is with the user. The lab is not responsible for loss of data due to faulty programs or equipment.
Failure to observe lab policies and directions from library staff regarding proper lab use may result in restriction or revocation of computer access, or in termination, academic probation, or prosecution under federal or state law.

Course Changes (V)

Any changes in course enrollments and/or number and dates of course offerings shall be initiated by the course coordinator and the appropriate chairman in consultation with the Associate Dean for Academic Affairs. (CVM Executive Committee, 1986)

Course Repeat Policy

The course repeat policy will not be applied automatically to a student’s GPA. After completing the second attempt of a course, a student must submit a request for GPA adjustment form (http://registrar.missouri.edu/policies-procedures/course-repeat.php) to the University Registrar’s Office 125 Jesse Hall.

When the grade received in an initial attempt, for an undergraduate course at University of Missouri-Columbia, or any University of Missouri System Campus, is a “C”, “D+”, “D”, “F” or “WF”, the grade will be replaced in the calculation of the GPA by the grade received in any second attempt of the same course at the University of Missouri-Columbia (unless the repeat grade is an I or W). All grades received in second and subsequent attempts will be included in GPA calculations. No more than 15 semester hours will be dropped from the calculation of the student’s GPA. All attempts of a given course will appear on the official transcript with the grade(s) earned. The transcript will have an explanation that the GPA is calculated using all grades earned in a course except when the initial attempt when a course has been repeated. This policy is effective with course work where the initial enrollment and completion of the course was fall semester 2000 and thereafter.

Any course being repeated may not be taken on an S/U basis. This policy does not imply a guarantee that openings will be available in courses if and when students wish to retake them, and instructors will not ordinarily know whether a student is enrolled in a course for the second time. When a course is repeated, all applicable tuition and required fees apply.

Degree credit may be earned only once for a particular course unless a department or division has, in other policies, allowed for multiple credit from that course.

Students are strongly encouraged to visit with an advisor to determine whether re-enrollment is advisable (certain department or divisional policies may be important in this connection). Further, students should be aware that repeating a course may have an impact on financial aid, insurance, entrance to professional schools, participation in athletics, immigration status, and other non-academic matters.

The academic status of a student in a given semester will not change as a result of repeating a course.

The policy is applicable to undergraduate students only.

Clarifying comments

Students should not re-enroll in a course for which they have been assigned a grade of “I”. Students may not apply the course repeat policy to courses once they have graduated. This also applies to students who are seeking a second undergraduate degree.

For the purposes of this policy, an undergraduate course is any course an undergraduate student attempts for undergraduate credit regardless of the course level. A student may not apply the course repeat policy to a course repeated as an undergraduate student for graduate credit.

If the department or course number has changed since the student completed the first attempt of a course, the department offering the course will verify that the subsequent course is substantially the same and the course repeat policy may apply. If the initial course is a cross-listed course, a student may apply the course repeat policy if the student subsequently completes the cross-listed course offered by the alternate department.

Courses for which a NR, W or a grade of I are assigned are not considered attempts since no final grade has been recorded.

If the initial attempt of a course contained an attribute such as; honors, writing intensive, math reasoning proficiency, service learning, or computer proficiency, the second attempt is not required to contain the same course attribute for the purpose of the course repeat policy. Students should be aware that if the second course does not have the same attribute as the initial course they will no longer be allowed to count the initial attribute toward any graduation requirement.

Grades of C or greater may not be repeated under the course repeat policy because these grades are considered acceptable work and would not prevent a student from graduating from MU.

Students may replace the grade earned from the course at the University of Missouri-Columbia or any other University of Missouri campus with a grade earned in an equivalent course at University of Missouri-Columbia campus. Courses for which a W or a grade of I are assigned are not considered attempts since no final grade has been recorded.

Course-Load Rules (L)

The maximum number of hours permitted for a semester is 17, and seven for a summer session, unless the Associate Dean for Academic Affairs for good cause approves a heavier load. The minimum number of hours permitted for a semester in order to be considered a full-time student is 12. There is no minimum for the summer session.

Credit for Non-Law Courses (L)

Law students are permitted to take up to a total of six hours of courses for Law School credit in other schools of the University during law school. Please note that because you are listed at "primary degree program-Law" with the University, you will be charged the same per credit hour rate for ANY non-law courses that applies to law courses (NOT the
undergraduate or graduate per credit hour rate). This does not apply to students officially enrolled in a dual degree program.

1. These credits are taken on an Satisfactory/Unsatisfactory (S/U) basis. In addition, non-law courses are subject to the following regulations:
   a. The course must be at the graduate level (numbered 7000-9999).
   b. The course must be related to the student's study and future practice of law.
   c. The semester hours of the non-law course will be counted in the student's total number for the semester, and the student may not (without permission) take any more than a combined total of sixteen hours in a regular semester, or seven in a Summer Session.
   d. Students wishing to take a non-law course for law credit MUST request approval of the course in writing prior to enrolling in the course. The request should be given to the Associate Dean for Academic Affairs and include the following (using a form available in Room 203):
      i. Course name, number and instructor;
      ii. Statement of purpose for taking the course as related to (b) above.
      iii. Syllabus
   e. Requests for the approval of below 7000-Level non-law courses within the guidelines given above must be referred to the Standards and Readmissions Committee. The Associate Dean for Academic Affairs may approve 7000-9999 level courses.
   f. For purposes of calculating GPA, non-law course are treated as S/U courses.

2. Any petition for law school credit for non-law courses beyond a cumulative maximum total of six hours, shall be initially presented to the Associate Dean for Academic Affairs. If the student's request is declined, the student may then petition the Standards and Readmissions Committee. If the Committee declines the student's request, the student can petition the faculty.

### Deficient Academic Performance (V)

Mid-course/rotation grade warnings must be issued to students if they are not achieving at least a "C" grade average. The notice should be copied to the Associate Dean for Academic Affairs.

A student who receives a grade of "F" in any required or elective course of the professional curriculum will be dismissed.

No more than 9 total semester credit hours of "D" grades may be accumulated prior to graduation. Greater than 9 semester credit hours of "D" grades will result in dismissal from the CVM. If readmitted, any subsequent "D" grades will again result in dismissal from the CVM.

**NOTE:** These regulations were adopted by faculty action August 4, 1983. They are subject to change by faculty action. *Revised in 1988, 2002, 2009, 2011 and 2012.*

### Degrees, Diplomas and Certificates

The process for awarding Degrees, Diplomas and Certificates at the University of Missouri is governed by the Faculty Council. For a full listing of this process please see Article IX of the Faculty Handbook (http://facultycouncil.missouri.edu/handbook/article-9.html).

### Disability Accommodations (L)

It is the policy and practice of the University of Missouri School of Law to comply with the Americans with Disabilities Act, Section 504 of the Rehabilitation Act, and state and local requirements regarding students and applicants with disabilities. No individual shall be discriminated against by the University of Missouri School of Law because of a disability, nor shall any qualified individual with a disability be denied access to or participation in Law School services, programs, or activities because of a disability. The School of Law is committed to providing reasonable accommodations for individuals with disabilities, though the School is not required to make accommodations that are unduly burdensome or that fundamentally alter the nature of the program.

Students who have been accepted for admission are advised to contact the Associate Dean for Academic Affairs as soon as possible regarding disabilities that might require accommodation. Continuing students who believe they have acquired or developed a disability should also contact the Associate Dean for Academic Affairs as soon as possible. Early identification of disabilities is necessary to allow adequate time for an evaluation, to review supporting documentation and to coordinate required accommodations. The accommodation process takes some time, so the Law School may be unable to grant last-minute requests for accommodation.

### Accommodation Process

To accommodate students with disabilities, the School of Law worked with the University’s Disability Center to arrange the following accommodation process:

1. A student who believes he/she has a disability that requires any accommodation should notify the Associate Dean for Academic Affairs.

2. The Associate Dean for Academic Affairs will then refer that student to the Disability Center (http://disabilitycenter.missouri.edu), located at S5 Memorial Union.

3. The Director of the Disability Center or a representative will meet with the student, request medical records and other information from the student. Please note that the Disability Center must first receive all necessary medical documentation from the student.

4. The Disability Center will then decide what accommodations are necessary and appropriate to provide, if any, in light of the student's medical information and the student's course schedule, exams, and/or graded exercises.

5. The student will then forward the Disability Center's accommodation recommendations to the Associate Dean for Academic Affairs and to the Law School Registrar.

6. The Associate Dean for Academic Affairs and the Registrar will work with the student to provide the accommodations that the Disability Center recommends.

7. Any problems that arise should be brought to the attention of the Associate Dean for Academic Affairs and/or the Disability Center.

### Academic Dismissal and Readmission

If a student who is academically dismissed raises a previously undisclosed disability as a basis for academic difficulty, the burden will be on the student to explain why the disability was not previously brought
to the attention of the administration, to explain why accommodations were not requested or why those provided were not adequate, and to demonstrate that the disability was the cause of the dismissal.

Readmission requests should be directed to the Associate Dean for Academic Affairs who will forward the request to the Law School's Standards and Readmissions Committee, which acts on the requests. For further information on the readmission process, please refer to the Policies and Honor Code section on School of Law website under Dismissal and Probation (http://catalog.missouri.edu/academicpolicies/dismissalandprobation).

Bar Examination

Law students with disabilities who believe they will require accommodations in taking the bar examination (http://law.missouri.edu/current/examination) should inquire early in their legal education as to what will be necessary to obtain accommodations. Information on how to contact bar examiners in all states is available from the Career Development Office or on the School of Law website. Many state boards of bar examiners will request that the law school provide information on accommodations provided during law school upon a written release from the student.

Career Services

The Career Development and Student Services Office provides assistance to all students and does not discriminate on the basis of disability. Students who believe that an employer working through Career Development and Student Services has discriminated on the basis of disability should bring their concerns to the attention of the Assistant Dean for Career Development and Student Services.

Grievances

If a student who requests accommodations from the School of Law believes that he/she has been discriminated against on the basis of his/her disability, the student should bring this matter to the attention of the Associate Dean for Academic Affairs, who will work the Disability Center to attempt to resolve the matter. The Associate Dean for Academic Affairs will communicate the decision to the student. If the student is dissatisfied with the decision, the student may file a grievance with the ADA Coordinator (http://ada.missouri.edu/complaints.php). Grievances filed with the ADA Coordinator must be in writing and must be filed within two weeks of the date the Associate Dean for Academic Affairs communicated the decision to the student.

Confidentiality

Information related to a student's disability is treated as confidential information under applicable federal, state and university laws.

Dismissal

A dean may at any time, and following such procedures as are reasonable, dismiss a student from a class or from a school or college for failure to perform academic duties.

In addition, the director of the Student Health Center (http://studenthealth.missouri.edu) has the authority to exclude a student from classes and other University exercises and activities because of exposure to a communicable or contagious disease, or to require a student to withdraw from the University at any time if the student has a medical condition constituting a hazard to themselves, other students or the campus community.

Adapted from the Faculty Handbook (http://facultycouncil.missouri.edu/handbook/article-3)

Dismissal and Probation (L)

A. Rules for Dismissal and Probation

1. For purposes of this section (Policies & Rules – Dismissal and Probation)
   a. "First year" consists of that series of semesters or summer sessions, or both, at the end of which a student first receives grades in courses aggregating to not fewer than 31 hours.
   b. "Semester" means either the fall or spring semester. The summer session is considered to be part of the next succeeding semester for the purpose of computing semester grade point averages.

2. A student is dismissed:
   a. at the end of the student's first semester if the student's cumulative grade point average is equal to or less than 76.399; or
   i. second semester if the student's semester grade point average is equal to or less than 76.399;
   ii. first year if the student's cumulative grade point average is equal to or less than 76.399; or
   b. at the end of any semester after the student's first year if the student's semester grade point average is equal to or less than 76.399; or
   c. at the end of any semester during which the student has been on probation if the student's semester grade point average is equal to or less than 77.499; or
   d. at the end of any semester during which the student has been on probation if the student's semester grade point average is not sufficient to raise his or her cumulative grade point average to an average greater than 77.499 if continued in future semesters until the remaining requirements for graduation have been satisfied; or
   e. at the end of any semester prior to the completion of the student's first year if
      i. the student has received grades in at least two sessions; and
      ii. has received grades in at least 12 hours of coursework; and
      iii. has a cumulative grade point average of equal to or less than 76.399;
   f. at the end of that semester where the student has a cumulative grade point average equal to or less than 77.499 after completing 89 or more hours of course work.

3. A student is placed or continued on probation:
   a. at the end of the student's first year if the student’s cumulative grade point average is greater than 76.399 but equal to or less than 77.499; or
   b. at the end of any semester after the student's first year, if the student’s semester grade point average is greater than 76.399 but equal to or less than 77.499; or
c. A student who is on probation will remain on probation if the student's cumulative grade point average is equal to or less than 77.499, but the semester grade point average is sufficient to raise his or her cumulative grade point average to a cumulative grade point average greater than 77.499 if continued in future semesters until the remaining requirements for graduation have been satisfied.

4. Any first-year student who does not achieve a grade point average greater than 77.499 in the fall semester will be required to take the Legal Reasoning course during the second semester. Students who are required to take Legal Reasoning under this provision will drop one of their courses. The course to be dropped will be decided in consultation with the Associate Dean for Academic Affairs.

5. A student ceases to be on probation at the end of a semester when the student's cumulative grade point average and semester grade point average are both greater than 77.499.

6. After the first semester of the first year, a student is in "good standing" at the School of Law if the student's cumulative grade point average is greater than 76.399. Thereafter, a student is in good standing when both the student's current semester and overall grade point average are greater than 77.499.

B. Rights of Students Petitioning for Readmission

Students who petition the Law School for readmission following academic dismissal have the following rights:

1. To be given fair notice of the time and place of the meeting.
2. To submit any supporting written material to the Standards and Readmissions Committee and/or to the Faculty at large in advance of the meeting, or to present such material at the meeting.
3. To appear personally at the meeting and make a presentation of reasonable duration.
4. To be accompanied by a person of their own choosing.
5. To be informed promptly following the meeting of the Committee's recommendation or decision, or the Faculty's decision.

C. Readmission Procedures

1. Readmission Procedures for students dismissed at the end of the first semester under Rule 2.a.1

   a. A student dismissed at the end of the student's first semester whose grade point average for the first semester is equal to or less than 75.299 will not be permitted to attend law school for the succeeding spring semester. The student will be required to meet with the Standards and Readmissions Committee to evaluate his or her past academic performance. Such student will be permitted to enroll for the next fall semester provided the student gives notice of his or her intention to enroll by April 15 of the semester following the student's dismissal. A student so re-enrolling will retake all the first year courses, and will be required to obtain a grade point average greater than 77.499 for the repeated semester. If the student fails to obtain this grade point average, the student will be dismissed. At its discretion, the Standards and Readmissions Committee may require readmitted students or students on probation to drop one or more of their courses.

   b. A student dismissed at the end of the student's first semester whose grade point average is greater than 75.299 and equal to or less than 76.399 may apply for readmission for the spring semester. Such student may not attend classes unless he or she has filed a written petition for readmission within the time limits indicated in the letter of dismissal issued by the School of Law. To qualify for readmission, an applicant for readmission must show that the applicant's poor academic performance was the result of factors other than intellectual inability to perform satisfactory law school work and that these factors will not continue to impair the applicant's performance in the future.

   i. To qualify for readmission, an applicant for readmission must show:

      (1) that the applicant's poor academic performance was the result of factors other than intellectual inability to perform satisfactory law school work;
      (2) that these factors will not continue to impair the applicant's performance in the future; and
      (3) that there is a reasonable probability that the applicant's grade point average can be raised to the graduation level by the time 89 credits have been accumulated.

   c. A petition for readmission by a student who has been dismissed shall be heard by the Standards and Readmissions Committee. A quorum of the Standards and Readmissions Committee, for purposes of deciding petitions for readmission, shall consist of one less than all voting members. If the Standards and Readmissions Committee's decision is favorable for readmission, or is unanimous against readmission, that decision shall be final and the student shall have no right of appeal to the Faculty at large. If the Standards and Readmissions Committee's decision is unfavorable against readmission, but not unanimous, the petition shall be referred to the Faculty at large for decision.

   d. A student who petitions for readmission has the right to appear personally before the Standards and Readmissions Committee and, if allowed under these rules, the Faculty at large. The student may be summoned to appear before either group by making a personal appearance or by supplying answers to written questions. (See above for a full statement of rights of petitioners.)

   e. A student who has been dismissed for scholastic reasons and whose readmission is approved will be on probation and subject to such conditions as may be imposed. The conditions below will apply unless varied by the Standards and Readmissions Committee or the Faculty.

      i. It is the policy of the Standards and Readmissions Committee to make decisions on readmission prior to the end of the summer semester for those students who are dismissed at the end of the spring semester and who may be enrolled in the summer term. Therefore,
D. Standard Conditions for Law Students Readmitted after Scholastic Dismissal, and for Law Students on Probation

Students who are readmitted or are on probation are subject to the following conditions as well as any specific conditions stated in the readmission action.

1. They will continue on academic probation until achieving academic good standing, which requires a cumulative grade point average greater than 77.499.

2. Students placed on probation at the end of the fall semester of their first year will be required to take the course in Legal Reasoning (5090) (http://www.law.missouri.edu/academics/curriculum.html#5090) during the second semester. At its discretion, the Standards and Readmissions Committee may require such students to drop one or more of their courses.

3. Until such time as they achieve a cumulative grade point average greater than 77.499, they must maintain a semester grade point average as set out in the readmission action. If no semester grade point average was specified, the student must maintain a semester grade point average sufficient to raise the student’s grade point average to a cumulative grade point average greater than 77.499 by the time the other requirements for graduation are completed.

4. Their schedule of courses must be approved by the Associate Dean for Academic Affairs, and the dropping of any course during the semester must also be approved by the Associate Dean for Academic Affairs. In general, students will be required to take required courses before electives and take graded courses rather than S/U or pass-fail courses.

5. During any session in which they are enrolled, they will not engage in any employment for compensation or spend a substantial amount of time on extra-curricular activities without the prior written approval of the Associate Dean for Academic Affairs. “Substantial amount of time on extra-curricular activities” is interpreted by the Standards and Readmissions Committee to include participation in any internal or external competition sponsored by the Board of Advocates as well as any position of leadership on any student board or organization.

6. Unless exempted by the Standards and Readmissions Committee, they are not allowed to take the following courses:
   * Externship
   * Independent Research
   * Courses taught outside Law School for Law School credit (e.g. graduate courses)
   * Courses taught by adjuncts
   * Seminars, except students classified as third-year students
   * Participation in any Study-Abroad Programs
   * Clinics or clinic-related courses including: Criminal Prosecution Clinic, Clinical Skills, Entrepreneurship Clinic, Family Violence Clinic, Innocence Project, Legislative Practicum, Landlord/Tenant Practicum, Mediation Clinic, Veterans Clinic

PLEASE NOTE that the Committee cannot exempt students from prohibitions regarding courses that are imposed by external sources such as Supreme Court rule or ABA accreditation requirements.

Drug and Alcohol Policy

Drug Free Schools & Community Act

Pursuant to the Drug-Free Schools and Communities Act Amendments of 1989, the University of Missouri is required to establish a drug and alcohol prevention program for its students and employees. Following is a description of the University of Missouri-Columbia’s program. A biennial review of this program will be done to determine its effectiveness, to implement changes to the program if they are needed and to ensure that the University’s disciplinary sanctions are consistently enforced.

A reference listing of MU resources for alcohol and other drug educational prevention efforts, counseling, and referral are listed below. Please feel free to contact any of the offices listed for more information.

Standards of conduct

University of Missouri-Columbia regulations prohibit the unlawful possession, use, distribution, and sale of alcohol and illicit drugs by University students and their guests and for employees on University-owned or controlled property and at University-sponsored or supervised activities.

University Discipline

Violation of these University regulations can result in disciplinary action up to and including expulsion for students and discharge for employees.

Legal sanctions

Local, state and federal laws also prohibit the unlawful possession, use, distribution, and sale of alcohol and illicit drugs. Criminal penalties for violation of such laws range from fines up to $20,000 to imprisonment for terms up to and including life.

Health risks

Specific serious health risks are associated with the use of alcohol and illicit drugs. Some of the major risks are listed below. For more information contact the Wellness Resource Center in G202 MU student Center or at www.wellness.missouri.edu.

Alcohol and Other Depressants (barbiturates, sedatives, and tranquilizers)

Addiction; accidents as a result of impaired ability and judgment; overdose when used with other depressants; damage to a developing fetus; heart and liver damage.

Marijuana

Impair short-term memory, thinking, and physical coordinations. Can cause panic reaction and increase the risk of lung cancer and emphysema. Can interfere with judgment, attention span concentration, and overall intellectual performance. Impairs driving ability. May cause psychological dependence and compromise the immune system.

Cocaine

Addiction, cardiovascular system damage including heart attack, brain damage, seizures, lung damage, sever depression, paranoia,
psychosis. Similar risks are associated with other stimulants, such as speed and uppers.

**Nicotine**

Tobacco smoke contains thousands of chemical compounds, many of which are known to cause cancer. Nicotine, which is a central nervous system stimulant, produces and increase in heart and respiration rates, blood pressure, adrenaline production and metabolism. People can rapidly become physically and psychologically dependent on tobacco. Compromises the immune system.

**Inhalants**

Inhalants are a diverse group of chemicals that easily evaporate and can cause intoxication when their vapors are inhaled. Most inhalants are central nervous system depressants. Use of these drugs slows down many body functions. High doses can cause severe breathing failure and sudden death. Chronic abuse of some of these chemicals can lead to irreversible liver damage and other health problems.

**Resources**

**Wellness Resource Center - (Campus Alcohol and Drug Abuse Prevention Office)**

Alcohol and other drug abuse prevention programs, speakers, peer educators, and referral services and research. Provides educational brochures and other printed materials and houses a large resource library of books, brochures, videos and other materials on a variety of wellness issues including alcohol and other drugs of wellness. Provides BASICS (Brief Alcohol Screening Intervention for College Students) workshops and individual assessments for students caught in violation of alcohol or drug policies or individual sessions for students who would like their alcohol or drug us evaluated.

- **MUSWA (MU Student Wellness Advocates): ADAPT (Alcohol and Drug Abuse Prevention Team)/PAWS (Peers Advocating Wellness solutions) and PASS (Peers Advocating Smoke-free Solutions)
- **Sober In College (SIC):** SIC is for students in recovery and students who want to live a sober lifestyle. Sponsors 12 step meetings.
- **GAMMA (Greeks Advocating the Mature Management of Alcohol)** is composed of Greek students who are interested in issues related to responsible alcohol use.
- **Active Minds:** Students working to de-stigmatize mental health issues and increase help seeking skills.

**Counseling Center** ([http://counseling.missouri.edu](http://counseling.missouri.edu))

573-882-6601

This center provides individual counseling, and group counseling.

**Student Health Center** ([http://studenthealth.missouri.edu](http://studenthealth.missouri.edu))

573-882-7481

This center offers medical services and individual consultation.

**University Police crime prevention unit** ([http://www.mupolice.com/cp](http://www.mupolice.com/cp))

573-884-7809

This unit provides alcohol- and drug-awareness presentations as well as printed and video resources.

---

**Dual Enrollment**

**Dual Enrollment for Senior Undergraduates**

Beginning Fall 2012, qualified undergraduate students will be eligible to enroll in up to 12 hours of graduate credit during the last 30 hours of their undergraduate program. The eligibility requirements are listed below.

**Eligibility Requirement**

With the approval of the undergraduate advisor, the undergraduate divisional dean, the Director of Graduate Studies, and the Graduate Dean, eligible seniors may dually enroll as an undergraduate for up to 12 semester hours of graduate credit. To qualify, seniors must:

1. Rank in the upper half of their class.
2. Have a B average in the most recent 45 semester hours of credit.
3. Be within 30 hours of completing graduation requirements for the first bachelor’s degree.

**Note:** Graduate degree programs may establish their own policies with regard to enrollment in and the applicability of senior dual enrollment credits.

Dual enrollment forms ([http://gradschool.missouri.edu/forms-downloads/repository/dual-enrollment.pdf](http://gradschool.missouri.edu/forms-downloads/repository/dual-enrollment.pdf)) must be completed and approved by the Graduate School prior to registering for the graduate level courses. This program also is available to seniors in other Missouri colleges. Additional information may be obtained from the Graduate School.

**Undergraduate/Law Enrollment (90-Credit Program)**

With prior written approval, select undergraduate MU Arts and Science students may have up to 30 credits in courses from the School of Law, which are acceptable to the faculty of the College of Arts and Science, applied toward a Bachelor of Arts degree. This combined curriculum enables students to obtain both the Bachelor of Arts (BA) and the Juris Doctor (JD) degrees in six years.

Other university divisions, and some colleges and universities other than MU, accept the Juris Doctorate in lieu of the fourth year of college and award a baccalaureate degree upon graduation from MU’s Law School. Students interested in this program should check with the dean of their college early in their undergraduate careers to ensure compliance with all requirements.

The undergraduate degree is a requirement for the Juris Doctor degree. Students entering law school under this combined degree program must make arrangements with their undergraduate schools to complete all requirements for their undergraduate degree.

Students with Bright Flight or MU awarded scholarships, such as Curators, Excellence, and Diversity, may use these awards in the law school. Check with the Office of Financial Aid.

**Please note:** While not a problem in the state of Missouri, prior to participating in the 90-credit program, students should determine whether participation would adversely affect admission to the bar in the jurisdiction in which they expect to practice. Some states will not admit to their bar **persons with fewer than 14 semesters of university work or who did not have their bachelor’s degree before entering law school.**
Enrollment Requirements (G)

Enrollment Requirements for Master’s and Educational Specialist Degree Candidates

After completing courses, students expecting to take examinations, present a thesis, manuscript, project, or portfolio must be enrolled when that activity occurs. If a master’s and educational specialist candidate only needs to take exams or defend a thesis or project, the candidate can enroll for “Graduate Examination” hours in myZou. Registration in the “Graduate Examination” does not count toward enrollment certification. Students enrolled in the “Graduate Examination” would not be considered full-time or part-time. If students need to use the library or computers on campus, they should enroll in at least one hour of regular credit hour instead of “Graduate Examination”.

Enrollment Requirements for Doctoral Candidates

Candidacy for a doctoral degree is established by passing the comprehensive examination. Status as a continuous enrollment doctoral student begins the term after the term in which the comprehensive exam was successfully completed. The continuous enrollment requirement is met by enrolling in 2 hours each spring and fall semester and 1 hour each summer semester.

Important Note on Graduate Examination Registration and Financial Aid

Students with financial aid should check with the Student Financial Aid office before registering for the Graduate Examination option. Failure to do so could cause serious consequences for the student’s financial aid status.

Important Note for International Students regarding Graduate Examination Registration and Your Visa Status

International students must check with the International Center before registering for the Graduate Examination option. Failure to do so could cause serious consequences for the student’s visa status.

Credits by Examination

https://admissions.missouri.edu/apply-freshmen/college-credits/

Examinations (L)

Policies Related to Final Examinations

1. The examination schedule is specified by the Associate Dean for Academic Affairs.
2. All students should arrive and be settled in the examination room 15 minutes prior to the scheduled beginning of the examination.
3. Arrivals after the examination begins should report immediately to Room 203 Hulston Hall.
4. The Cover Page for examinations should include the following information:
   a. Start of the Exam: Do not start reading (other than this cover page) or writing on scrap paper until the proctor starts the exam.
   b. Exam Number: Write your exam number on the Cover Page
   c. Length of Exam
   d. Exam Mode
   e. Materials
   f. Number of Pages
   g. Special Instructions
5. The “Instructions” page of any examination is reserved for all additional special instructions for the examination, and may include:
   a. the length of the examination;
   b. any special instructions for collaboration or material to be used during the examination;
   c. any special instructions for turning in the examination or parts thereof; and
   d. any other general instructions not a substantive part of the exam itself
6. Each student will have a different number on each examination. A three-part, perforated slip printed with a number on each of the three parts will be distributed to each student at the time of the examination. The student will complete each portion of the exam number slip and tear off the bottom part for his/her records. (If more than one bluebook is used for any one examination, the student will carefully number the extra book(s) with the assigned number.) At the end of the examination, students will turn in their bluebooks with the remaining two portions attached. The proctor collecting the examinations will remove the identifying second part to be retained in the office and the professor will receive the bluebook bearing only the examination number.
7. It is important for students to retain their portion of the number slip in order to review an examination or check grades when posted.
8. There must be an accounting of all copies of an examination. As a result, the person administering the exam will:
   a. notify students to complete the exam slip on the front of the bluebook;
   b. check the exam slips against the class roster at the conclusion of the exam (any portion of the exam slip that contains the student’s name is removed by the law school staff before the exam is given to a faculty member); and
   c. collect all copies of the examination itself -- all copies of the exam must be turned in with the exam answer.

Examinations (U)

Evening examinations

If a conflict arises between a group evening examination and a regularly scheduled class, the regularly scheduled class has priority. The instructor giving the group evening examination is responsible for scheduling a makeup examination at a mutually convenient time for both the student and the instructor.

Classes, Exams and Finals

For the schedule of evening exams and finals week schedule, refer to the Class, Exams and Finals (http://registrar.missouri.edu/academic-calendar) on the University Registrar’s website.
9. Examinations are scheduled in rooms that accommodate the taking of that examination. A list of the examination rooms is posted in various places in the law school prior to the last day of classes.

10. Examinations are distributed in the rooms scheduled and in no other rooms unless the exams are take-home exams, or a professor has made special arrangements for the administration of the exam.

11. Students may work on their examinations in assigned rooms only and in other designated areas in the law school. It is the responsibility of the student to return the completed examination to the place where it is to be picked up, at or before the time scheduled for the end of the examination.

12. A student who chooses to leave a designated examination room is responsible for returning their examination to the designated place at or prior to the end of the examination period.

13. Earplugs are permitted in any exam room.

14. The items below are NOT permitted in any examination room, unless SPECIFICALLY authorized by the instructions at the beginning of the written examination, or specifically permitted pursuant to the law school policy relative to exams on computer. The devices below should not be brought into the examination room. If they are, they MUST be turned in to the proctor PRIOR TO THE START OF THE EXAMINATION. The proctor will collect and keep any such device while the exam is being taken. The following items are prohibited:
   a. Noise cancelling headphones;
   b. Cellular phones or other communication devices;
   c. Personal Digital Assistants (PDA) or any device having the characteristics of a PDA;
   d. I-pads or other similar devices;
   e. Laser Pointers;
   f. Any device that allows for the recording of data, or the playing of recorded data, including, but not limited to iPods, MP3 players, CD players, DVD players, cassette players or recorders;
   
15. Smoking is NEVER permitted in any examination room.

16. Examinations are distributed by the proctor unless the professor elects to do so. Upon receipt of an examination, each student places his or her initials beside his or her name on the class roll. The proctor writes the time the examination begins and ends on the board. If they are, they MUST be turned in to the proctor PRIOR TO THE START OF THE EXAMINATION. The proctor will collect and keep any such device while the exam is being taken. The following items are prohibited:
   a. Noise cancelling headphones;
   b. Cellular phones or other communication devices;
   c. Personal Digital Assistants (PDA) or any device having the characteristics of a PDA;
   d. I-pads or other similar devices;
   e. Laser Pointers;
   f. Any device that allows for the recording of data, or the playing of recorded data, including, but not limited to iPods, MP3 players, CD players, DVD players, cassette players or recorders;

17. Examinations are distributed by the proctor unless the professor elects to do so. Upon receipt of an examination, each student places his or her initials beside his or her name on the class roll. The proctor writes the time the examination begins and ends on the board.

18. The examination ends at the earliest of the following:
   a. The time written on the board by the proctor or at the conclusion of the time designated on the examination. In some rooms, a law school staff member may say “Stop,” but the failure to so indicate does not allow a student to continue to write after the time limit has expired. No writing whatsoever is permitted after the exam ends.
   b. The time a student submits a written examination to the proctor collecting exams and leaves the immediate line of sight of that proctor. Whether such a student has left the immediate line of sight of the proctor is a question left to the discretion of the proctor, it being recognized that as more students turn in exams, the sight line of the proctor will be decreased.

   c. The time a student taking an exam on computer submits an exam and exits from the exam-writing software.

19. When the examination period ends, students who have not completed the examination early shall go to the place announced for examination pickup and hand to the proctor the examination, bluebooks and/or answer sheet and all scratch paper, used and unused. The material is checked at that time to be sure exam numbers are on each examination, bluebook and/or answer sheet and then placed in receptacles provided for that purpose. Students should not walk away until the proctor has confirmed they have all materials.

20. At the conclusion of each examination, each student again places his or her initials by his or her name on the class roll. The proctor checks to be sure all examinations and materials that should be returned are returned.

**Externships (V)**

Students from other colleges of veterinary medicine desiring an externship or participation in one or more instructional periods of the segmented curriculum must be accepted by the section/department involved. The University of Missouri will not provide insurance coverage for any externship.

Students from colleges with animal health technician training programs desiring an internship in the Veterinary Health Center will be considered upon proper application through the director of that program. They must be enrolled in and paying fees at their college, be evaluated by their director in consultation with the involved departmental unit during the externship period while allowing full utilization of their expertise in the hospitals’ operations. [http://www.vms.missouri.edu/vet_tech_int_prog.html](http://www.vms.missouri.edu/vet_tech_int_prog.html) (CVM Executive Committee, 1986)

**Final Examination Week (V)**

The College of Veterinary Medicine, University of Missouri, does not schedule “final examination week” for those courses included in the professional veterinary curriculum. Instead, classes will be scheduled through the last day of any regular session (term). Final grades will be submitted to the Dean’s Office so they can be filed with the Office of Academic Affairs as specified in the faculty handbook, i.e., “within 2 days, except Sunday, after the end of the examination period”. The “end of the examination period” will be interpreted as the time and date when the “semester (or session) closes”. (General Faculty meeting minutes, 10-9-73). Changes in examinations can be scheduled as outlined in the Student Handbook.

**Full-time/Part-time Status**

Undergraduate students who register for fewer than 12 hours and graduate students who register for fewer than nine hours during the fall or spring semesters are considered to be enrolled part time.

**Undergraduate Students**

- A full-time undergraduate student is enrolled in at least 12 semester hours during the fall and spring semesters, or an equivalent number of hours during the summer session.
A three-quarters-time undergraduate student is enrolled in at least nine semester hours during the fall and spring semesters, or an equivalent number of hours during the summer session.

A half-time undergraduate student is enrolled in at least six semester hours during the fall and spring semesters, or an equivalent number of hours during the summer session.

Graduate Students

- A full-time graduate student is enrolled in at least 9 semester hours during the fall and spring semesters, or an equivalent number of hours during the summer session.
- A three-quarters time graduate student is enrolled in at least 6 semester hours during the fall and spring semesters, or an equivalent number of hours during the summer session.
- A half-time graduate student is enrolled in at least 4 semester hours during the fall and spring semesters, or an equivalent number of hours during the summer session.

Professional Students

- Law student — 12 hours
- Medical student — 14 hours
- Veterinary medicine student — 12 hours

Policy Source: Faculty Council, Article VII (http://facultycouncil.missouri.edu/handbook/article-7.html)

Grades

GPA of Record

The grade point average for any period is obtained by dividing the quality points earned by the total number of credits for which the student was enrolled during that period. Grades of S, U, H, W, NR, or I are not included in determining the grade point average.

The undergraduate CUM GPA is the University of Missouri GPA, which will include all grades, credits, and honor points attempted at any University of Missouri campus, including all grades and credits. In computing the undergraduate GPA the grade points assigned to students’ transfer work are the grade points that would have been assigned if the courses had been taken on the University of Missouri System campus, including any adjustments made under policies related to course repeats and/or Academic Renewal/Forgiveness.

GPA Calculator Web Site

To calculate a grade point average, go to the GPA Calculator Web Site at http://registrar.missouri.edu/grades-calculators/gpa-calculator.php

Plus-Minus Grading System

The purpose of the grading system is to provide a framework in which the faculty can report evaluation of student performance and achievement. For undergraduates, all teachers are expected to use the grading scale approved by the faculty. This precludes any department or unit from opting to use a modification of the scale.

The A through F grading system is appropriate for those subjects and situations that allow discrimination in quality of achievement and performance. The S/U grading system is more appropriate for students wishing to take elective courses in a subject matter field in which they will be competing with majors, for mastery learning situations, and for courses graded primarily on the basis of attendance.

Grades carrying credit are: A+/-, B+/-, C+/-, D+/-, and S. Grades calculated in the grade point average are A+ (4.00), A (4.00), A- (3.7), B+ (3.3), B (3.00), B- (2.7), C+ (2.3), C (2.00), C- (1.7), D+ (1.3), D (1.00), D- (0.7), and F (0). The grades of S, U, NR, and W are not incorporated in the grade point average.

Students must have a cumulative GPA of 2.00 to remain in good academic standing.

All regulations currently applicable on a course-by-course basis and currently tied to a specific letter grade would be interpreted to mean a specific letter grade range. Hence, if a student must achieve a C in one course in order to proceed to another course, under the plus-minus grading system, that student must achieve a grade in the “C range,” which would include the grade of C-.

All regulations currently tied to a specific grade average are interpreted to mean the numerical average currently associated with that specific grade. Hence, the required “C average or better” on all courses is a “2.00 average or better.”

The grade of S (on S/U basis) is defined as equivalent to the letter grade of C- or higher.

Satisfactory/Unsatisfactory Grading System

Students may elect to take courses under the S/U (pass/fail) grading system in several MU colleges and schools. Before electing to take a course on a pass/fail basis, the student should evaluate the advantages and disadvantages of the S/U grading system. The S/U grading status is indicated in the appropriate column on the registration or add/drop form. Students may change to or from the S/U status only through the tenth day of classes in a semester.

In general, the teacher of a course does not know which students, if any, are enrolled on the S/U system, and a grade of A+, B+, C+/+, D+/+ or F for each student is reported to the Office of the University Registrar. The Office of the University Registrar staff members ascertain which students are enrolled on the S/U system and assign a grade of U to those reported for grades of D+/+ or F, and a grade of S for those reported A+/, B+/+, or C+/. Grades of S and U are not included in the computing of grade point averages.

Enrollment in courses under the S/U system is subject to the following restrictions by the University faculty:

- Students cannot change from one grading system to the other after the tenth day of classes in the fall or spring semesters, or the equivalent thereof in a shorter session.
- Students cannot elect to enroll in more than one course on an S/U basis in a given semester. This excludes courses taught only with the S/U grading system.
- First-year freshmen and students on scholastic probation are not eligible to enroll in courses on an S/U system. This excludes courses taught only with the S/U grading system.
- A+/-, B+/-, and C+/- grades are recorded on the transcript as an S. S grades are not included in the semester or cumulative grade point average on the transcript. Full credit is earned for courses completed with a grade of S.
• D+/- and F grades are recorded on the transcript as a U. U grades are not included in the semester or cumulative grade point average on the transcript and no academic credit is awarded for courses completed with a grade of U.

• Courses completed with a grade of S may be accepted in an area of concentration only with the prior approval of the area advisor.

Courses completed with a grade of S may constitute no more than 20 percent of the total credits for the baccalaureate degree.

• Taking S/U courses may affect eligibility for Latin or other graduation honors for undergraduate students. Contact the academic advising unit for information.

• Some specified courses may not be taken on S/U basis to meet graduation or degree program requirements. Contact the academic advising unit for S/U approval.

Selecting Grading Options (S/U vs. A through F)

Students must choose to change their grading option no later than after the expiration of two weeks following the first day of classes in regular session or the equivalent thereof in a shorter session. Students’ academic advising unit must approve and change their grading option in myZou for the change to become official. See the University Registrar’s website at http://registrar.missouri.edu/academic-calendar/ for deadlines for each term.

How Dropping/Withdrawing from a Class Affects the GPA

Students may drop a course through the end of the business day of the fifth week or the 25th class day of the semester. It will have no effect on the grade point average. After the 25th class day, the signature of the course instructor and/or dean of the academic unit is required. After the last day to drop, students are withdrawing from a course if they choose to leave the course. Students may withdraw from a course through the end of the business day of the 10th week or 50th class day of the semester.

At this point a grade of W for withdraw is recorded if the student was passing at the time of withdrawal. If the student was failing at the time of withdrawal, the course grade is F. The instructor determines which grade to assign. A W grade does not affect the grade point average, while a grade of F does. The grade generally will not appear until all grades for the course are submitted at the end of the semester.

Grades for Students Who Officially Withdraw from the University

No grade will be assigned to a student who officially drops prior to the 26th day of the fall or spring semester or an equivalent period in a summer session (other non-standard classes are also adjusted accordingly).

Students who officially withdraw from a standard 16-week course on or after the 26th day may be required to obtain the signature of the course instructor on the Course Withdrawal Form, available from the academic advising unit. This will inform the student of the grade (W or F) that will be submitted to the Office of the University Registrar at the end of the semester. A grade of F is assigned if the student is judged to be failing at the time of the withdrawal and will be calculated into the grade point average. Once the course withdrawal form is completed, students should return the form to their academic advising unit to obtain the dean’s signature (stamp of approval) on an add/drop form. The add/drop form is submitted to 125 Jesse Hall for processing.

Dropping or withdrawing from all classes for a term is considered withdrawing from the University. If done after the first day of standard classes the student remains eligible to pre-register for the following term. If a term elapses (other than summer) between enrollments, the student must apply for readmission. NOTE: Refund dates are different from withdrawal dates. (See Withdrawal from the University section on the University Registrar’s website: http://registrar.missouri.edu/policies-procedures/withdrawal-university.php.)

Grade Appeal

Guidelines for grade changes are as follows:

• Students who believe that they have been graded unfairly or incorrectly should see the course instructor.

• If still dissatisfied, the student may appeal to the chair of the department. (If the course has a large number of sections, it may have a course director. If so, the student should see the director before appealing the grade to the department chair.)

• The chair of the department will conduct an investigation. The chair cannot substitute his or her judgment for that of the instructor concerning the quality of the student’s work.

• If the instructor of the course also is the department chair, the dean of the school or college will handle grade appeals.

• No one may substitute personal judgment for that of the instructor concerning the quality of the student’s work. However, mathematical or mechanical errors in scoring examinations may be corrected.

• No grade shall be otherwise changed unless there is clear, convincing and unequivocal evidence that it was a direct result of arbitrary and capricious conduct by the instructor.

Incomplete Grades (Grade of I)

Whenever students cannot be assigned a grade at the end of a course in which they have been enrolled because their work is for good reason incomplete, the instructor will postpone the grades, reporting I grades to the University Registrar.

An I grade may be assigned only when:

1. The completed portion of the student’s work in the course is of passing quality AND
2. There is such evidence of hardship as to make it unjust to hold the student to the limits previously fixed for the completion of the work.

Each department of the schools and colleges maintains a record of I grades in courses of that department. (Exemptions are made for research courses and problems courses related to research assignments.) This record, kept in the electronic student information system, will include:

• The name of the student
• The course number, title and credits
• Semester and year of enrollment
• A brief statement of the reason for delaying the grade
• An adequate guide for the removal of the I grade along with a suggested final grade in the event of the departure or extended absence of the instructor from the campus

An undergraduate student who receives an I grade must complete the course requirements either:
1. within one year from the date it was recorded (unless the course is numbered 4950-4959 or 4995), OR
2. before the date of graduation (whichever comes first).

When an incomplete is satisfactorily resolved, the faculty member responsible for the grade change will notify the University Registrar of the revised grade.

Otherwise, the University Registrar will remove the I and record a grade of F in classes graded A-F or a grade of U in classes graded S/U. Any student planning to graduate with an unresolved I grade should be aware that translation to an F could drop the GPA below the requirements for graduation. As with any academic deficiency, the low GPA would delay the student’s graduation until all requirements for graduation are met.

Note:
• A grade of I is not figured into the grade point average.
• Students should not re-enroll in a course for which they have been assigned a grade of I.
• For further information, see the Faculty Handbook, Academic Regulations (http://facultycouncil.missouri.edu/handbook/intro.html).
• Exceptions to unresolved incomplete grades changing to an F are as follows:
  - Courses taken for graduate level credit
  - Courses taken prior to Fall 2003
  - Undergraduate research, honors research or problems courses that are approved for multiple terms of continuous research
  - Grades of I and the reason for the delay of grade may also be entered directly into myZou.

Questions may be directed to the Office of the University Registrar, (573) 882-4249.

Unassigned or Erroneous Grades

To correct a grade erroneously reported, proper notification is sent from instructors and their department chairs to the Office of the University Registrar on a form provided for that purpose.

Note: Grade corrections must be processed within one year of the original reporting date.

In situations when there is a failure to record a grade on the official grade sheet, the University Registrar will record a NR (not reported) and send a written notification of this action to the faculty member and relevant department chair. The faculty member is responsible for submitting a corrected entry. After 12 months NR will change to an F.

For graduate and professional students, the NR grade will remain on the transcript until a letter grade is submitted. If a letter grade is not submitted, an NR can remain on the student’s record indefinitely and will not convert to an F.

No student may be re-examined for the purpose of changing a grade after a final grade has been reported to the University Registrar. For further information see the Faculty Handbook, Academic Regulations (http://facultycouncil.missouri.edu/handbook/intro.html). Questions may be directed to the Office of the University Registrar, (573) 882-4249.

Grades & Credits (G)

Grading Scale

Graduate students’ grades in all courses counting toward an advanced degree may be reported as: A +/-, B +/-, and C +/-.. Faculty members are not required to use a plus/minus grading scale; that decision should be based on the faculty member’s evaluation of student performance and/or polices of their academic program.

Grade point averages are calculated as: A+ (4.0), A (4.0), A- (3.7), B+ (3.3), B (3.0), B- (2.7), C+ (2.3), C (2.0), and C- (1.7).

The Graduate School considers grades of C+, C and C- as passing grades; however, grades in the C range may not be acceptable for specific program-matic requirements and may result in the student being unable to maintain a 3.0 cumulative average. No D grade may be awarded to a graduate student, and a grade of F means the work has not satisfied the minimum requirements of the course. W denotes withdrawn passing and does not affect a student’s grade point average.

S/U Grading

Graduate students may be graded satisfactory/unsatisfactory (S/U) in graduate-level courses only when those courses are designated as “graded on S/U basis only” in the online Schedule of Courses available through myZou.

Incompletes

An incomplete grade (I) may be recorded when the student’s work is incomplete but otherwise worthy of credit, or when the instructor is unable to assign a grade at the end of the semester. The student must finish this work (Problems and Research courses exempted) within the next calendar year of residence.

If the work is not completed after one calendar year, the request to change an “I” grade will require an accompanying letter of justification from the instructor. Although grades of “I” do not automatically convert to an “F” if not completed, academic programs or the instructor may establish conditions or regulations pertaining to “I” grades that are more stringent.

Unreported Grades: NR

When grades are not reported by the instructor, these “Blank Grades” will be recorded as “NR” (Not Recorded). The NR designation will remain on the student’s transcript until a letter grade is submitted. If a letter grade is not submitted, the NR can remain on the student’s record indefinitely and will not revert to an “F”.

Grade Changes by Faculty

Faculty members may change grades within the policies set by the faculty. Grade Change Forms, available from the faculty member’s academic unit, must be completed, signed and submitted to the Office of the University Registrar - Records Dept., 126 Jesse Hall.

Graduate-Level Credit

No graduate credit is given for courses numbered below 7000. Graduate students taking 7000-level courses that are cross-leveled with 4000-level courses will be given additional course requirements in order to warrant graduate credit received for those courses. Courses at 8000/9000 level are primarily for graduate credit. 8090/9090 research (8990/9990
Research for Engineering students) is reserved for master’s and doctoral degree students working on a thesis or dissertation.

**Grade Point Average**

A graduate student's grade point average is based on the student's entire graduate record at MU. To remain in good standing, a graduate student must maintain a cumulative GPA of 3.0 or better.

**GPA and Probation**

At the end of each semester, graduate students with a cumulative GPA below 3.0 are placed on probation. If at the end of the following semester the cumulative GPA is 3.0 or better, the probationary status is removed. A student on probation failing to raise the cumulative GPA to 3.0 may, on the recommendation of the department or area program, be allowed a second probationary semester.

A student is subject to dismissal upon failure to raise the cumulative GPA to 3.0 by the end of the second probationary semester, or at any time a semester/term or cumulative GPA falls below 2.0. Note: Summer session is not counted as a semester.

**GPA and Graduation**

To graduate, a student must have an overall GPA of 3.0 in all graduate courses taken at MU and not just those courses listed on a plan of study.

For more information on grading, credit and related policies go to http://gradschool.missouri.edu/academics/progress/grading-credit.php.

**Grades & Ranks (L)**

**Class Rankings**

At the end of each semester, students are included in the first year, second year or third year class lists and are given a class rank based on their position in their class list. Classes are ranked by expected date of graduation.

When calculating the class rankings for the first year and second year classes, summer grades are included in the rankings for the following fall semester.

The graduating class ranking is determined as of the end of the summer semester and includes all students graduating within the academic year (preceding fall and spring semesters and current summer session).

**Rules for Determining Class Levels**

In order to register for courses, students are assigned a class level. The class levels are determined as follows:

1. **First Year Students:** A student who has received 31 hours or fewer of law school grades;
2. **Second Year Students:** A student who has between 32 and 56 (inclusive) hours of law school grades;
3. **Third Year Students:** A student who has received more than 56 hours of law school grades;
4. **Law School Grades:** As used herein, "law school grades" means grades counting towards credit at the School of Law. Failing grades do not count as "law school grades;"
5. **Effect of Summer School:** The determination of class level is made ONLY at the conclusion of the fall and spring semesters. A student's class level will NOT therefore change at the end of summer school;
6. **Exceptional Circumstances:** In cases of students in unusual situations, including, for example, part-time or unusually heavy- or light-load semesters, a determination will be made on the basis of dividing the student's law school career into relatively equal periods for the first, second and third years.

**Computation of Grade Point Average (GPA)**

Grade point averages are based only on law school courses taken at this school and only upon "graded courses." For the purpose of computing grade point averages, a "graded course" is one which is graded on the 65-100 scale.

A grade point average is obtained as follows:

1. The "grade points" for a graded course are obtained by multiplying the numerical grade for the course by the number of credit hours for the course.
2. The "grade point average" is obtained by dividing the total grade points for all graded courses by the total number of credit hours for all graded courses.

In computing grade point averages, all graded courses are included. When a course is repeated, the grade and hours for both takings are included in computing cumulative grade point averages subject to the following exception:

A student who is required to repeat a course will have his or her cumulative grade point average computed as follows: If the grade on the repeated course is 81 or higher, neither the hours nor the grade for the previous taking of the course will thereafter be used in the computation of the student's cumulative grade point average. The earlier grade will, however, remain on the transcript.

Grade point averages are computed for each student by semester, year and cumulatively. The fall semester grade point average includes the courses taken in the fall semester and courses taken in the preceding summer session. The yearly grade point average is based upon courses taken during a student's first, second and third years.

**Course Repeat Policy**

The School of Law's Standards and Readmissions Committee ("the Committee") has adopted the following course repeat policy:

1. Students who petition the Committee for readmission may be required to repeat any or all courses previously completed;
2. Students who achieve a grade in a course above the graduating average are not eligible to repeat that course;
3. Students who achieve a passing grade in a course that is below the graduating average are eligible to petition the Committee for permission to repeat the course. The Committee may grant such petition based on exceptional circumstances;
4. Students who fail a required course are required to repeat that course unless, in exceptional circumstances, repeating the course is waived.
5. Students who fail a non-required course are eligible to petition the Committee for permission to repeat the course. The Committee may grant such petition based on exceptional circumstances.

Note: When a course is repeated only the hours for one taking may be credited toward meeting the graduation requirement of having passed 89 hours, without regard to how the course is treated for computing grade point averages.
Dean's List
A student qualifies for inclusion on the Dean's List with a semester average greater than 85.999.

Good Standing
After the first semester of the first year, a student is in "good standing" at the School of Law if the student’s cumulative GPA is greater than 76.399. Thereafter, a student is in "good standing" at the School of Law when both the student's current semester and overall GPA are greater than 77.499.

Grades and Grading
The grades recorded in the School of Law are the official grades and the determination of grade point averages and satisfaction of law school requirements is based on the grades recorded in the School of Law.

Grades are recorded in the School of Law as numerical grades ranging from 65 through 100 or, where authorized, by the letters "S" (Satisfactory) and "U" (Unsatisfactory). The grades of S and of 70 through 100 are passing grades and earn course credit. The grades of U and of 65 through 69 are failing grades and do not earn course credit. A 70 is the lowest passing grade and a cumulative grade point average greater than 77.499 is the minimum required for graduation.

With the exception of Independent Research, and any of the activities that satisfy the writing requirement, if grading is to be done other than anonymously, the syllabus shall so state. Professors do not know the names of students until after grades are turned in to the Dean's Office. Professors may not obtain the names of students prior to assigning a class rank order for grades. The rank order may not be changed after the names are known.

Explanation of the Grading Scale (http://law.missouri.edu/students/pdf/gradingscale.pdf) (PDF)

Grades from myZou
Students may obtain their grades from MyZou. In addition to the student’s PawPrint, when checking grades for only one course, students must know the course number.

Student Honors
J.D. Degree Cum Laude
Any student with a graduating grade point average greater than 96.999 is eligible for the designation of Juris Doctor Summa Cum Laude upon graduation.

Any student with a graduating grade point average within the top 7 percent of the graduating class is eligible for the designation of Juris Doctor Magna Cum Laude.

Any student with a graduating grade point average within the top 12 percent of the graduating class is eligible for the designation of Juris Doctor Cum Laude.

Order of the Coif
The Order of the Coif is a national law school honor society, founded for the purpose of encouraging legal scholarship and of advancing the ethical standards of the legal profession. It has established chapters in the leading law schools of the country. Its members are selected by the faculty from the top ten percent of the graduating class and rank highest in scholarship, and whose achievements as students make them worthy of this distinction. Selections are made after six semester grades and rankings have been determined. To be eligible for membership in the Order of the Coif students must complete 75 percent of their law studies in graded courses. Starting in 2014, transfer students will be considered as having completed their first year of law studies in graded courses for purposes of calculating the 75 percent of coursework in graded courses requirement.

Order of the Barristers
The Order of the Barristers is a national law school honor society founded for the purpose of promoting legal advocacy and of advancing the ethical standards of the legal profession. Members are selected based upon participation and excellence in the advocacy programs of the School of Law.

Graduate Academic Minors (G)
Non-designated minors
Non-designated minors consist of course work constituting a unified plan of study that includes a minimum of nine hours of graduate course work. These minors should be listed on a student’s plan of study; however, they are not listed on a student’s transcript.

Obtaining approval for a minor
Both designated and non-designated minors must be approved by the student’s major advisor, the student’s academic program director of graduate studies, and the Office of Graduate Studies. In addition, the inclusion and completion of a designated minor must be approved by the director of graduate studies (or academic program chair/program director) of the academic program or interdisciplinary group offering the minor. Designated minors are listed on a student's transcript.

Graduate Assistants and Fellows (G)
Graduate Assistantships
Graduate assistantships give students opportunities for professional experience, academic training and financial support while pursuing advanced degrees. Specific assignments vary by type of assistantship. Graduate assistantships generally entail 10-20 hours of work per week (.25 to .50 full-time exempt). Students who hold graduate assistantships are discouraged from working more than 20 hours per week for more than one semester during the period of the assistantship.

Fellowships
Fellowships are a type of aid granted to graduate students to help support their education. Some fellowships include a tuition waiver or a payment to the university in lieu of tuition. Most fellowships include a small stipend to cover living expenses. Unlike a loan, a fellowship is a form of gift aid and does not have to be repaid. However, fellowships may be taxable and reportable to the Internal Revenue Service. No service or work requirement is associated with a fellowship.

Assistantship and Fellowship Policies
The complete set of policies regarding graduate assistantships and fellowships may be found on the Graduate School’s website (http://gradschool.missouri.edu/policies/graduate-assistantships-fellows.php).
Graduate Certificates

A graduate certificate is not a graduate degree. Rather, it is a document verifying the successful completion of a specified group of graduate courses. Certificates are intended to help students acquire (or enhance) discipline-related knowledge and skills. Upon completion of a designated set of courses and other requirements, the name of the graduate certificate will appear on the student’s official University of Missouri Transcript.

To accommodate a variety of learners’ needs, MU offers two types of graduate certificate programs:

- **Stand-alone graduate certificates** allow individuals to earn graduate credit hours without having to enroll in a specific degree program. Prospective students have an option to apply for graduate study as a Certificate-Seeking Student only. Degree seeking students may also pursue this type of certificate as complementary to (or independent of) their graduate degree program.

- **Degree-dependent graduate certificates** are designed for degree-seeking students only. Further, the students must be enrolled in the particular degree program offering the certificate. In other words, this type of certificate is intended for degree seeking students who wish to pursue specialized courses or related, complementary study.

Federal Disclosure Requirements for Stand Alone Graduate Certificates

“Final regulations published in the Federal Register on October 29, 2010, require institutions to report certain information about students who enrolled in Title IV eligible educational programs that lead to gainful employment in a recognized occupation (GE programs). Those regulations also provide that institutions must disclose to prospective students certain information about the institution’s GE programs.

Finally, the new regulations require institutions to notify the Department if they wish to add an additional GE Program to its list of Title IV eligible programs. All of these requirements are effective July 1, 2011. The Secretary published additional regulations related to the program eligibility metrics that will be calculated for gainful employment programs in the Federal Register on June 13, 2011.”

Source: Federal Student Aid, see https://www.ed.gov/category/keyword/Gainful-Employment

At the University of Missouri, the Graduate School’s Stand Alone certificates are subject to federal Gainful Employment disclosure requirements. A disclosure form for each Stand Alone certificate may be found in the last section of this catalog and on our web site.

Certificate Admission Information

**Stand-Alone Certificate Applicants.** All students enrolled in a stand-alone graduate certificate program will be classified as Graduate Certificate-seeking graduate students. As such, to qualify for admission, they must have successfully completed the baccalaureate degree at an accredited college/university. Specific graduate certificate programs may have admission standards that exceed those for post-baccalaureate graduate students. New graduate applicants wishing to pursue a stand-alone certificate only should complete the Graduate School’s online application for admission and meet the Graduate Faculty Senate’s minimum admission requirements for all programs.

**Degree-Dependent Certificate Applicants**

New applicants applying for a degree program should complete the Graduate Studies’ online application for admission for the degree program. Once enrolled at MU, the Application for Graduate Change of Division, Program, Degree Emphasis or Advisor Form (pdf) should be completed to add a graduate certificate.

Financial Aid

Check eligibility on both types of certificates Degree-dependent graduate certificate programs are federal financial-aid-eligible. Students only enrolled in stand-alone graduate certificates are potentially eligible for federal financial aid. Read our disclosure pages to learn more about the costs (tuition & fees); time needed to complete the certificate; and future placement (e.g., degree programs, jobs) of certificate holders. Next, check with MU Student Financial Aid Office to determine eligibility. Students enrolled only in a stand-alone graduate certificates are not eligible for scholarships, fellowships, assistantships, tuition waivers, etc. from the Office of Graduate Studies or University of Missouri.

Stand-Alone Certificate Admission Requirements for Non-Degree Seeking Students

A non degree-seeking student who is admitted into a stand-alone certificate program will be officially classified as “certificate-seeking” graduate student. To be admitted, the student must have successfully completed a baccalaureate degree at an accredited college/university. Specific graduate certificate programs may have admission standards that exceed those for post-baccalaureate graduate students.

Transfer credit for stand-alone certificate seekers. A maximum of three graduate credit hours which correspond directly to the MU graduate certificate program course requirements may be used as transfer credit from another university to satisfy the requirements for the certificate program. An original transcript from the other university, verifying graduate credit received for the requested hours of transfer credit, must be submitted to the Graduate School when the Plan of Study form is submitted. Please refer to the certificate program’s site for certificate policy updates.

Credit Hours Necessary for Certificate Completion

Graduate certificates vary in completion requirements, including the minimum credit hours. Please refer to the certificate program’s site for credit hour requirements.

Up to 12 hours of graduate credit earned for graduate certificate may be applied to degree requirements for a graduate degree upon approval of the degree program.

Grievances (L)

The School of Law is a charter member of the Association of American Law Schools. Information on the AALS may be found at http://www.aals.org/.

The School of Law is fully accredited by the American Bar Association. Questions regarding ABA accreditation may be directed to the Office of the Consultant on Legal Education, American Bar Association, 321 N. Clark Street, 21st Floor, Chicago, IL 60654-7597, (312)988-6738.

Student complaints implicating compliance with the standards imposed by the American Bar Association Section on Legal Education and Administration to the Bar shall be filed in writing with the Associate Dean for Academic Affairs, or if the complaint involves the person serving in that capacity, with the Dean of the Law School. The complaint shall include the date on which the complaint is being filed; the name and address
of the complainant; and a description of the complaint. The description of the complaint shall include a description of the accreditation standard which the law school’s action or inaction implicates. The Associate Dean for Academic Affairs (or the Dean of the Law School) will investigate the complaint and respond to the complainant in writing within 30 calendar days from receiving the complaint. The response will indicate whether the Law School has taken any corrective action, or if not, the reasons for not taking any action.

The complainant shall have the right to appeal this initial decision by filing an appeal with the Faculty Policy Committee. The appeal shall be filed in writing within 14 calendar days from the date on which the initial decision was issued. The appeal shall include the date in which the appeal is filed; the name and address of the complainant; a copy of the original complaint; a copy of the initial decision; and an explanation of the basis of the appeal. The Faculty Policy Committee will review the documents presented, and issue a decision in writing within 30 calendar days from receiving the appeal. The Faculty Policy Committee can sustain or reverse the initial decision. In cases where the initial decision is reversed, the Faculty Policy Committee will direct the Associate Dean for Academic Affairs on what corrective actions to take. The decision of the Faculty Policy Committee shall be considered final and subject to no further review.

Holds

There are several types of holds, which are restrictions that may block registration. Students are notified through myZou if they have a hold. They should go to the location indicated in myZou to resolve the hold.

Policy Source: Academic Unit/Department

In some situations, it is important that records or holds preventing certain actions be maintained in student records across the four campuses in the University of Missouri System. For instance, if a student is sanctioned with University Dismissal, University Suspension, University Expulsion or other sanctions / agreements that extend beyond a given campus, a mechanism to enforce such agreements or sanctions is applied. (Click here for the policy [http://www.umsystem.edu/ums/rules/collected_rules/programs/ch200/200.025_equity_resolution_process_for_resolving_complaints_of_harassment]).

Honors Recognition (V)

Each student graduating from the College of Veterinary Medicine and whose cumulative grade point average (G.P.A.) in the professional curriculum is within the range listed below will be designated, as indicated on the diploma, to graduate with honors:

G.P.A. 3.9-4.0 summa cum laude
G.P.A. 3.8-3.89 magna cum laude
G.P.A. 3.7-3.79 cum laude

(General Faculty meeting minutes, 10-10-74)

Late Registration

A student cannot register in classes offered by any school or college after one week following the first day of classes in a regular semester or the equivalent period of time for other sessions or classes. Class session meeting dates may be found in the class details on myZou (http://myzou.missouri.edu).

A late registration fee equal to the tuition for one undergraduate credit hour will be assessed starting the first day of classes for the regular session for the term.

Exceptions to this rule are enrollments in class sections of graduate exam, internships, problems, research and special readings.

Leave of Absence (G)

Key Terms

Leave of Absence

The student anticipates a need to discontinue enrollment for one or more semesters.

Active Duty Leave or Withdrawal

Students who are members of the US Military (e.g., Reserve or National guard) may be called into active duty by the government. As a result of the assignment, the student may need to request an active duty leave or may decide to withdraw from the University.

Contact Advisor and Director of Graduate Studies

Students considering a leave of absence that will result in a break in enrollment of one or more semesters must first contact their graduate advisor and the academic program’s director of graduate studies to inform them of their intent, the reason requesting leave and the expected duration.

Letters to the Office of Graduate Studies

After approval of the leave at the academic program level, the director of graduate studies and the student will submit letters to the associate vice chancellor for graduate studies. The DGS letter will verify that the academic program has been informed and that a leave of absence has been approved. The letter from the student will provide an explanation for the request as well as the anticipated departure and return date.

Resolving Financial Support Responsibilities

It will be the responsibility of students to resolve all issues pertaining to their support (e.g., research or teaching assistantship, scholarship) with their advisor or other relevant authority before departure. These issues include the date when support will be terminated and whether or under what conditions the student will be reinstated for support upon their return.

Notification for Re-Entry

Before the completion of the Leave of Absence, the student must notify the academic program’s director of graduate studies and the Office of Graduate Studies so that the re-entry process can be initiated.

Contact with the University During Leave

Students on a Leave of Absence may not make significant use of University resources and services or engage in significant consultation with the faculty.
Extension of Degree Time, Continuous Enrollment

Time spent on leave does not automatically extend limits for completion of the graduate degree but can be considered in a request for an extension.

Doctoral students who are required to maintain continuous enrollment may petition for an exception to this policy while they are on an approved Leave of Absence.

International Students

International students in F-1 and J-1 non-immigrant status must also obtain authorization from the International Center before the initiation of a Leave of Absence and before returning to campus to ensure compliance with current SEVIS regulations and visa restrictions.

F-1 and J-1 students approved for a leave of absence may not remain in the United States during the leave period unless authorized by the International Center. For students who must depart the United States, leave periods exceeding five months will necessitate updated student immigration documentation for re-entry.

All international students considering a leave of absence should meet with an international student advisor to determine the appropriate steps to safeguard their immigration status.

Military - Active Duty (Voluntary or Involuntary)

Enrolled students called into active service in the armed forces of the United States prior to the completion of the semester, whether voluntarily or involuntarily, but not including active service for training, shall be eligible for either of the options listed as follows: **NOTE: Students must choose either option 1 or 2**

Students taking distance / online classes who reside in states other than Missouri where a conflicting law may require other options than listed below will be given the accommodations required by that law when the student provides documentation of the law’s existence and proof of its applicability to him/her. **Please note:** Students who are enrolled at the University of Missouri and reside in a state outside of Missouri should review the information below related to unique military deployment benefits.

State of Iowa “Code Section 261.9(1)”g” (https://www.iowacollegeaid.gov/content/postsecondary-registration-iowa-code-chapter-261b-additional-requirements#codes)

Option 1 - Withdrawal from all courses for semester

They may choose to withdraw from all classes. In such cases, a student may request either:

1. That the official transcript indicate the courses from which he or she has withdrawn, the date of withdrawal and the reason for withdrawal. Students choosing this option will have their tuition and fee charges and their student financial aid eligibility calculated effective with their official withdrawal date.
2. Or the student may request that all courses for that semester be expunged from the student's academic record. Students taking this option will receive a complete refund of all educational and incidental fees paid by the student for enrollment for that semester. However, students who have received federal, state or institutionally funded financial aid must return all aid disbursed to them for the semester.

**NOTE:** Students must see their Academic Advising Unit to withdraw and return the form to Office of the University Registrar, 125 Jesse Hall.

Refunds will not be immediately available. Refunds are based on your last method of payment (i.e. credit card, check, etc). Refund checks will be sent to your mailing address unless a forwarding address is left with the University.

Option 2 - Receive Incompletes in all courses for the semester

The student may choose to receive an incomplete in all courses not yet completed for the semester. In that case the following rules apply:

- The student must complete all course work for the semester to the satisfaction of the instructor(s), and the time a student spends on active military duty shall not be counted against time allowed for the completion of an “Incomplete” grade.
- **I to F policy:** Students called to active military duty will be exempted from the one-year automated changes of I to F grades for the term of deployment and the year prior to deployment. In accordance with State statute, students may complete work upon their return from duty or may choose to maintain the I grade. Therefore, I grades for students called to active military duty will remain listed as “I” until a change of grade is submitted by the faculty member, or indefinitely, if so desired by the student.
- **NR to F Policy:** Military duty will be exempted from the one-year automated changes of NR to F grades for the term of deployment and the year prior to deployment. In accordance with State statute, students may complete work upon their return from duty or may choose to maintain the NR grade. Therefore, NR grades for students called to active military duty will remain listed as “NR” indefinitely, if so desired by the student.

Upon completion of all course work for the semester, the student may choose either to:

1. Have the grade earned for the course and have the “Incomplete” expunged from his or her official record
   OR
2. Have the “Incomplete” grade remain as the final grade with reason for the “Incomplete” noted on his or her official record

**NOTE:** No refunds will be given for option 2.

**Residential life:** Residential life will be contacted and informed of your intent to exit the University. Room, board and social fees will be prorated and applied to your University student account based on the effective date of your official check out from the residence hall or other University accommodations.

**Financial Aid:** The Office of Student Financial Aid will be informed of your student status and your official withdrawal date and may make adjustments according to federal, State of Missouri and institutional guidelines.

**Scholarships:** Scholarships may or may not be applicable upon the student’s return to the University. For example, Section 41.948.2, RSMo, provides that if a student has been awarded a scholarship to be used to pursue an academic program in any higher education institution in Missouri and he or she is not able to complete the term for which the scholarship was granted, the student shall be awarded that scholarship.
at any subsequent academic term provided the student returns to the academic program at the same institution at the beginning of the next academic term after the completion of active military service. If a student has any scholarships or other aid or award, he or she should contact the issuer to determine whether it will be applicable on his or her return and whether he or she will need to satisfy any other conditions.

Contact:
Office of the University Registrar
125 Jesse Hall
The University of Missouri - Columbia
Columbia, MO 65211
Office: (573) 882-7881
Fax: (573) 884-4530

The Office of the University Registrar will require the following information:

- A copy of your military orders, as soon as possible
- Forwarding Address
- Name, address and phone number of a contact or your representative
- Your name as it is on MU records
- MU ID number
- Which option student wishes to choose for classes

This information may be brought to 125 Jesse Hall or faxed to (573) 884-4530.

Re-admission of previously enrolled students

Undergraduate students who are returning to MU after an absence of at least one semester must complete a request for re-admission for undergraduate studies (http://admissions.missouri.edu/apply/re-admission) and return it to the Office of Admissions, 230 Jesse Hall, Columbia, MO 65211-1300 or fax to 573-882-7887.

Degree-seeking graduate students who are returning to MU after an absence of at least two semesters must complete a graduate studies reactivation form (PDF) (http://gradstudies.missouri.edu/forms-downloads) and return it directly to the academic program for approval. Post-baccalaureate (non-degree seeking) graduate students should return the completed form to the Graduate Admissions Office, 210 Jesse Hall, Columbia, MO 65211-1160 or fax it to 573-884-5454.

View Missouri Revised Statutes Chapter 41 (41.948) (http://www.moga.mo.gov/mostatutes/stathtml/04100009481.html). This policy is implemented to assure that students called to active duty prior to the end of a term receive fair and just treatment, both financially and academically.

Contact the Office of the University Registrar-Registration for more information at 573-882-7881.

MU Course Work Required

MU requires that 30 of a student’s last 36 credits must be MU course work. Mizzou Online-Self Paced courses authored by MU faculty are acceptable as are courses offered for credit through Mizzou Online. (NOTE: This policy has replaced the requirement for courses to be taken “in residence.”)

Name Changes

Policy Related to Changing Preferred Names for Students at the University of Missouri

The student may use preferred first and middle names at Mizzou. Preferred first and middle names are used on class rosters, ID cards, transcripts and diplomas and other locations where the legal name is not required. The policy outlining the use of the name may be found at: The University of Missouri Office of the University Registrar Preferred Name Policy (https://www.umsystem.edu/ums/rules/collected_rules/information/ch180/180.040_student_preferred_name_policy)

The path to update a preferred name in myZou is: Student Center->Personal Information->Names->Add a New Name.

NOTE: The Human Resource computing system overrides ID card names. If students who are employed by MU wish to have a preferred name on ID cards, they need to contact their department MU HR officer. Students who have questions may contact the University Registrar.

Policy Related to Changing Names for Students at the University of Missouri

The student must submit one of the legal documents listed below under “Proof of legal change to new name.”

The document submitted must have date of birth, a photograph and a signature. If you have multiple documents that prove your legal name change, please bring copies of the documents along with the name change form (http://registrar.missouri.edu/forms/name-change.pdf) to the Office of the University Registrar (http://registrar.missouri.edu/contact).

Proof of legal change to new name:

1. current, government-issued ID card such as a driver’s license, military ID, passport
2. current, valid Social Security card with new name
3. federally recognized Indian tribe’s enrollment card or a US Bureau of Indian Affairs identification card containing the new name, the signature and photograph of the individual
4. certified copy of a court order or a marriage certificate or a dissolution decree reflecting the new name in full

NOTE: Students may abbreviate their middle name(s) without documentation. Documentation is required if a student is adding or deleting a middle name or changing an initial to a name.

Non-Degree Graduate Study (G)

The Non-Degree Graduate Student Program allows post-baccalaureate students to complete graduate courses without being formally accepted into a degree-granting program. Many students use this enrollment option to explore a discipline, take courses for career advancement, prepare for application to a graduate degree program, or as personal enrichment.

Once enrolled, the non-degree graduate student may take undergraduate- or graduate-level courses but hours earned are not credit toward a graduate degree. However, if the student is later admitted to a degree-granting program, up to 12 hours of earned graduate credit may
be applied toward a graduate degree program, at the discretion of faculty in the admitting academic program.

Students admitted under the non-degree seeking status have access to MU libraries, museums, laboratories, and recreational and athletic facilities.

Note: To manage course enrollment, some academic programs may limit available courses to non-degree graduate students. Contact the academic program in which you wish to take courses for more information.

Eligibility

Applicants who hold a baccalaureate degree or its equivalent from a U.S. university or a university in which instruction is in the English language may be admitted to MU as non-degree graduate students.

International Student Eligibility

International students residing in the United States who do not satisfy the above requirement and are seeking admission as post-baccalaureate graduate students must provide evidence of proficiency in English. Either a minimum score on the TOEFL or IELTS or a minimum of 24 semester credit hours in which the student maintains a 2.0 GPA (A=4.0) in a degree program in which English was the primary language is required. The minimum required TOEFL score for entrance to the Graduate School is 500 paper-based, 61 internet-based. The Graduate School also accepts a 5.5 Academic IELTS score for admission to the Graduate school. Please consult your academic program of interest to determine if it requires higher TOEFL or IELTS scores for admission.

The University of Missouri will not issue I-20s to international students so that they may enter the United States to become non-degree graduate students.

Tuition and Fees

Non-degree graduate students must pay graduate educational and student activities fees regardless of whether they take graduate or undergraduate courses.

Financial Aid

Non-degree graduate students are not eligible to receive federal financial aid or veteran’s benefits or to hold campus-sponsored assistantships.

How to Apply for On-Campus Non-Degree Study

- Complete and submit the Graduate School Application (https://app.applyyourself.com/AYApplicantLogin/AY_ApplicantLogin.asp?id=umc-grad). The Graduate School encourages applicants to use the online application. The submission of a hard-copy application (PDF) (http://gradschool.missouri.edu/forms-downloads/repository/gradapp.pdf) will slow the application review process.
- Submit the application fee, (http://gradschool.missouri.edu/admissions/eligibility-process/non-degree-applicants/application-fee.php) which is $55 (US) for domestic applicants and $75 (US) for nonresident international applicants. You can pay the fee online through the Graduate School’s online application.
- Official transcripts or mark sheets must be sent directly from each university or college you have attended to the Graduate Admission Office, 210 Jesse Hall, Columbia, MO 65211. Transcripts/mark sheets for all baccalaureate degrees or their equivalents and any additional degrees must be sent. At this time, the Graduate School only accepts hard copies of transcripts. All transcripts/mark sheets become the property of MU.
- Standardized test scores, such as the GRE, are not required for non-degree graduate applicants. See below for the transfer and use policies for non-degree courses taken at MU.

How to Apply for Online Non-Degree Study

If you are planning to take course work online or at a distance, please contact Mizzou Online (http://online.missouri.edu) about course offerings and registration. The application process is different for online-only students.

Maintaining Good Standing

Non-degree graduate students must maintain a 3.0 GPA. If the cumulative GPA is less than 3.0, the student will be given one automatic probationary semester. If, after one semester of probation, the student’s cumulative GPA does not reach 3.0, the student may be granted a second probationary semester following a successful written petition made directly to the associate vice chancellor for graduate studies. (Summer sessions are not counted as probationary semesters.) If the student fails to achieve a cumulative GPA of 3.0 following the second probationary semester, the student will be made ineligible to enroll as a non-degree or degree-seeking graduate student. If at any time a student’s term or cumulative GPA falls below 2.0, the student will be ineligible to enroll as a non-degree or degree-seeking graduate student.

Switching Student Status from “Non-Degree” to “Degree-Seeking”

Non-degree graduate students who want to earn a graduate degree (master’s, doctoral or educational specialist) must:

- Submit official scores, if required by the degree program of interest (http://gradschool.missouri.edu/academics/programs), from an appropriate graduate admission examination (GRE, GMAT, MAT). The scores must be sent directly from the examination service to Graduate Admissions, 210 Jesse Hall, Columbia, MO 65211.
- Meet Graduate School minimum admission requirements (http://gradschool.missouri.edu/admissions/eligibility-process)
- Apply directly to the degree program of interest using a Change of Degree form (PDF) (http://gradschool.missouri.edu/forms-downloads/repository/change-degree.pdf).

Posthumous Degree Awarding (G)

Honoring Deceased Graduate Students

The following policies and procedures apply in instances in which a graduate student dies before being awarded a degree.

Student Completed All Degree Requirements

If the student has completed all degree requirements, the college or school’s representative (dean, assistant/associate dean or director) will contact the Office of the Provost and the Associate Vice Chancellor for Graduate Studies to nominate the individual to receive a posthumous degree.

University of Missouri
The diploma for the degree that the student was pursuing will be prepared in the same manner as if the student had lived. This diploma may be presented to the family of the deceased in a special ceremony, at Commencement or in whatever manner is deemed appropriate.

Student Did Not Yet Complete Degree Requirements

If the student had not completed degree requirements but was making satisfactory progress at the time of death, a dean’s certificate honoring the student can be provided by the appropriate academic unit(s). These certificates may be designed and presented in a manner that is fitting to the circumstances.

* In some instances, presentation of the degree or certificate to family members may be made at a remembrance ceremony.

Refund of Fees Policy

Exceptions to published tuition and required fees assessment policy and charges

1. The Office of the University Registrar and the vice provost for enrollment management are charged with considering and approving exceptions to published tuition and required fees assessment policy.

2. Any change in assessment can be adjusted or pro-rated only to a rate already established in the published university tuition and required fees schedule.

3. Only tuition required related to a student’s assessment for registration in credit hours are covered by these guidelines. Other required fees such as those for residence halls, the bookstore, etc. need to be directed to departments responsible for assessment of those required fees.

4. Grade assignments and other academic issues are not within the scope of these procedures and should be addressed to the dean of the college or school. Record changes, such as requests to withdraw, drop, add or enroll for courses in a term that has ended must be submitted on a separate form to the Revision of Records Committee, c/o the Office of the University Registrar, 130 Jesse Hall.

5. Decisions will be rendered by the designated official of the Office of the University Registrar and will be based solely upon any and all pertinent written documentation.

6. Notification of the status of the tuition appeal will be made in writing within 10 calendar days of receipt of the written appeal.

Appeal of the decision rendered by the Office of the University Registrar

1. Upon written request a student may appeal the decision rendered by the Office of the University Registrar.

2. A written appeal must be submitted to the Office of the University Registrar.

3. The written appeal must request a review of the original decision and may contain additional written documentation to support the appeal.

4. The appeal will be reviewed by the same designated official. If the appeal information is sufficient to overturn the original decision, the designated Office of the University Registrar official can direct staff to issue a tuition refund or adjustment in accordance with appropriate fiscal procedures.

If denied within 10 calendar days of receipt, the information must be forwarded to the University Registrar. If the appeal is denied a second time by the University Registrar, it may be forwarded to the vice provost for enrollment management for further consideration, upon the student’s request.

The decision rendered by the vice provost for enrollment management is the final University determination on the matter.
Refund of tuition and fees in the event of a student death

1. When a student dies prior to completing the current academic semester, a full refund of or credit for tuition and required fees will be made after the deduction of the following:
   a. Any required adjustments to scholarships, grants or loans determined by federal formula applied by the Office of Student Financial Aid.
   b. Any other debts owed to the University that occurred prior to the death of the student.

2. Any refund will be made payable to the student.

3. If, after all adjustments are made, there still remains a debt to the University, generally the University would not attempt to recover the debt from the estate of the deceased student.

Students called to active military duty

Enrolled students called into active service in the armed forces of the United States prior to the completion of the semester, whether voluntarily or involuntarily, but not including active service training, and unable to complete their course work, shall be eligible for two options. The options are implemented to assure that students called to active duty prior to the end of a term receive fair and just treatment, both financially and academically. Contact the Office of the University Registrar at 573-882-7881 for more detailed information.

Students called to jury duty

Full refunds (100 percent) of required tuition and any applicable required fees for all credit hours from which a student withdraws, when following University procedures announced by the provost.

Residency (L)

The School of Law residency rules satisfy the requirements of the American Bar Association and the Association of American Law Schools. The purpose of the residency requirements is to assure that the study of law will be spread evenly over a minimum period of six semesters or the equivalent.

The rules regarding the size of a student's course load -- the number of hours a student enrolls in for a given semester -- and residency rules are not the same.

The residency requirement means that students may not graduate in less than six semesters or the equivalent. Most students attend law school for six semesters. However, some students plan to graduate after only five semesters by attending summer school. Students who plan to attend summer school for two years and graduate a semester early should visit with the Associate Dean for Academic Affairs concerning their summer course load requirements.

For residency purposes, a minimum load of twelve hours is required for a semester. Thus, each student generally needs at least 12 hours each semester to meet residency requirements. (NOTE: An average of 12 credits per semester is not sufficient to complete the 89 credit degree requirement.) For purposes of accelerated graduation, the law school's residency rules require students to take a minimum of five hours in one summer session and combine it with another summer session of no less than seven hours. Two summer sessions of six hours each serve the same purpose. This approach gives students five semesters of at least 12 hours and two combined summers of 12 hours, which satisfies our residency requirements. If fewer hours are taken in a summer session, they may not be used toward residency for the purpose of accelerated graduation.

A student may combine any summer hours with an appropriate number of hours in a regular semester in order to fulfill a 12-hour semester residency requirement if they should fall below 12 hours during a semester for some reason. Students completing more than 12 hours in a semester may not use surplus hours over 12 toward residency in any other session; hence the three surplus hours from a 15-hour semester cannot be added to a subsequent nine-hour semester to give residency for two semesters. On the other hand, a nine-hour semester can be combined with a three-hour summer session to give residence for one semester.

A student in their final semester only can take less than 12 hours provided that the number of credits being taken is sufficient to satisfy the remainder of the 89 credit degree requirement. In cases of extreme hardship the Faculty may make a slight variance in the residency requirements, but cannot go below the standards set by the American Bar Association and the Association of American Law Schools.

Revision of Records

The Committee for Revision of Records reviews petitions from students asking for changes to their academic records. Students should discuss the petition process with their advisor before appealing to the committee to verify that changes are warranted and will benefit the student.

For instructions for completing petition to the committee see Revision of Records (http://registrar.missouri.edu/policies-procedures/revision-records.php).

The committee is composed of faculty appointed by the chancellor. Members are anonymous and students are not allowed to communicate directly with them. Forward questions to revisionofrecords@missouri.edu.

Student Conduct (L)

The academic life of students at the School of Law is governed by a Code of Honor that has been adopted by the Faculty and the Student Bar Association.

Students should note that they generally will be required to report any Honor Code violation on state bar application forms.

The Honor Code is available at http://law.missouri.edu/current/policies-rules-student-conduct/.

Incidents involving bias or harassment can be reported through the Office of Civil Rights and Title IX. Information is available at http://missouri.edu/civil-rights-title-ix/.

Student Employment (L)

No student shall work more than 20 hours per week in a semester where she or he is enrolled as a full-time first-year law student (hereinafter the "1L 20-hour rule").
The 1L 20-hour rule does not apply to the period between semesters, or the summer (unless the student is enrolled in summer school full-time) or to any break during the semester (e.g., spring or Thanksgiving breaks).

Student Files (V)

The following policy relates to compliance with the Family Educational Rights and Privacy Act Amendment to the Elementary and Secondary Education Act of 1974:

(I) Each student requesting permission to examine his/her file will be referred to the Associate Dean for Academic Affairs or his or her designate.

(2) Each student must provide proof of:

a. Current student status at the University of Missouri (or, if during an academic recess, attendance during the past academic session).

b. Identity. They must provide some identification which allows visual comparison of person’s appearance with a photograph on an item such as a driver’s license or student identification card.

(3) If the above conditions are met and permission is granted, a student will be allowed to examine their entire student record. This must be affected only in an office occupied by one of the assistants in the Dean’s Office.

(4) Copies of any item in the student’s folder except for transcripts or letters of recommendation and/or evaluation will be provided at cost. In such cases the sum of 25 cents per page must be collected before any copies are provided.

(5) A student must not, under any circumstances, be left alone with the folder.

(6) A record will be placed in the student’s folder stating the date and time that such examination occurred. It should be initialed and dated by the Associate Dean for Academic Affairs or his or her designate. (CVM Executive Committee, 1986)

Student Level (U)

Students are assigned to a particular class level based upon the number of credits they have completed in accordance with the following limitations:

<table>
<thead>
<tr>
<th>Class</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>Freshman</td>
<td>0 to 29 credits</td>
</tr>
<tr>
<td>Sophomore</td>
<td>30 to 59 credits</td>
</tr>
<tr>
<td>Junior</td>
<td>60 to 89 credits</td>
</tr>
<tr>
<td>Senior</td>
<td>90 or more credits</td>
</tr>
</tbody>
</table>

For registration purposes, student level will be determined by earned credits plus those credits in progress at MU. Undergraduate students pursuing degree programs at other institutions who enroll at MU as visiting students will generally be considered as freshmen, non-degree students. They are not assigned to a school or college. This applies to students who enroll under agreements with the Mid-Missouri Associated Colleges and Universities as well as those from other colleges and universities.

Testing Out of Courses (V)

For professional courses cross-listed as undergraduate or graduate courses, students may opt out of the course during the professional curriculum if the following conditions are met. The student took the course within three years, received an A or B in a course, and received instructor permission to waive the course.

Veterinary students are charged a flat rate per academic semester and testing out of a course will not result in a prorated tuition rate.

Theses and Dissertations: Submission Deadline, Review and Public Disclosure (G)

Formatting the Thesis

A thesis, when required for a master’s program, must be written on a subject approved by the candidate’s advisory committee. The thesis must be the student’s own work and must demonstrate a capacity for research and independent thought. Refer to the Master’s Degree section for details.

Thesis formatting guidelines may be found at http://gradstudies.missouri.edu/policies/thesis-dissertation/guidelines/. Students must follow the style manual recommended by their academic program. All work must be properly cited and permission to use copyrighted materials must be obtained prior to submission.

Formatting the Dissertation

A dissertation is required for the PhD and EdD degrees and must be written on a subject approved by the candidate’s advisory committee. The dissertation must include the results of original and significant investigation, and it must be the candidate’s own work. Refer to the Doctoral Degree section for details.

Dissertation formatting guidelines may be found at http://gradstudies.missouri.edu/policies/thesis-dissertation/guidelines/. Students must follow the style manual recommended by their academic program. All work must be properly cited and permission to use copyrighted materials must be obtained prior to submission.

About Third-Party Copyright

If your work contains material that has been copyrighted by another party, you may need to seek permission to use the material in your thesis or dissertation. Examples of materials for which you would need to seek copyright permission include but are not limited to: third-party software, images, graphics, large portions of text and maps. If copyright permission is needed, you must submit written approval for the use of the copyrighted material along with your thesis or dissertation.

Substituting for Copyrighted Materials in Theses and Dissertations

The Office of Graduate Studies encourages students to seek permission to use copyrighted material in their theses and dissertations. Your work is published after it is submitted in approved form to the Office of Graduate Studies, and it will be available to audiences who wish to know more about the subject you investigate. The more full and complete the thesis or dissertation, the better the experience for your reader and therefore the better the response to the fruits of your hard work. However, if
you are unable or unwilling to obtain copyright permission for some of the materials in your research, you may substitute for the copyrighted material as described below.

Acceptable substitutions include:

- Redrawing or tracing of maps, images, graphics, etc
- References to URLs, printed documents, or physical locations where the copyrighted material can be found

A student whose thesis or dissertation has had copyrighted material removed prior to submission must have his or her advisor sign a document reading:

[Student’s name] has removed copyrighted material from the copy of the thesis or dissertation submitted to the Office of Graduate Studies for electronic publication. I certify that:

- I approve the thesis or dissertation in this form;
- The student has presented accurate information as to where the removed, copyrighted material can be found

Advisor’s name (signature line) Date (date line)

Submission Deadline for a Thesis or Dissertation Following Committee Approval

Each semester the Graduate School establishes semester deadlines for the Report of the Examining Committee (master’s & EdS students), Report Dissertation Defense (doctoral students), and submission of theses, dissertations and supplemental materials. Those deadlines may be found on the Office of Graduate Studies’ page.

http://gradstudies.missouri.edu/about/news-events/events/index.php

After successful defense of the thesis or dissertation, students must comply with their academic program’s and/or the International Center’s enrollment requirements.

Generally, based upon input from the thesis/dissertation committee, a student will make corrections to a thesis/dissertation. The student will prepare the final document and supplemental materials in the required format (http://gradschool.missouri.edu/policies/thesis-dissertation) and submit everything to the Graduate School by the semester deadline. In the event the student misses the current semester deadline, the student is required to submit the final dissertation or thesis by the end of the following semester after a successful defense. If an extension is needed, the student’s advisor and program’s DGS must submit a request for an extension letter to the associate vice chancellor for graduate studies.

Submission Requirements and Forms

A thesis or dissertation must be presented before the deadline to the Office of Graduate Studies on a high-quality CD. The thesis or dissertation must be contained in a Portable Document Format (PDF) file (http://gradschool.missouri.edu/policies/thesis-dissertation/guidelines/technology-ch7.php), with the appropriate margins and formatting. Additional electronic files must be included (http://gradschool.missouri.edu/policies/thesis-dissertation/guidelines/supplements-cd-ch4.php) on the CD as PDF documents with the appropriate file name. If all files will not fit on one CD, a DVD or multiple CDs may be used, as long as no single file is split between CDs.

Additional Documents that Accompany the Electronic Submission

Several other documents must be submitted electronically or on CD, including the original signed Approval of the Committee page, paper copies of the Short Academic Abstract and Title Page, fees forms, release forms, and copyright agreement forms. Some forms are required on paper. See http://gradstudies.missouri.edu/academics/thesis-dissertation/diss-thesis-guideline/supplemental-paper-materials/index.php for more information.

Review of Theses and Dissertations by the Graduate School

Before a manuscript can be accepted for publication in scholarly journals, it is examined by editorial board members, for conformance to specific format style guidelines in addition to validity of content. In much the same manner, MU Graduate Studies’ staff, acting as an editorial board, reviews every submitted thesis and dissertation for conformance to University guidelines. Failure to meet the appropriate standards will result in the rejection of your work.

Copies of Theses and Dissertations

The MU library catalogs all theses and dissertations in the Merlin system. To locate a thesis or dissertation go to the MOSpace repository.

Specific Questions about MU Theses or Dissertations?

Specific questions should be directed to the academic advising staff of the Office of Graduate Studies, 210 Jesse Hall, (573) 882-9575 or (573) 882-3885 or 1-800-877-6312.

Thesis and Dissertation Research Must be Open to Public Disclosure

Students are prohibited from using research (data, results, methods or other content) in their theses or dissertations that could restrict subsequent publication or public disclosure of these documents.

Examples of restricted information include classified or proprietary materials. It is important to note that these restrictions do not apply to non-thesis or non-dissertation research that is approved by the student’s advisor and allowed by University of Missouri policies. Questions regarding the applicability of this policy to thesis or dissertation content should be referred to the Office of Graduate Studies.

Transfer Admission from Other AVMA Accredited Schools (V)

Transfer students entering in the professional curriculum from other AVMA-accredited veterinary schools: applications will be referred to the Committee on Admissions and Scholarship for recommendation to the Dean. Each case shall be handled on an individual basis. (CVM Executive Committee, 1986)
Transfer Credit (L)

Credit Earned at Other Law Schools

A student may earn credits at another law school to be applied toward the J.D. graduation requirements of the School of Law, on the following conditions:

1. No more than 31 semester credits may be so applied. Grades in courses taken at other law schools are reflected in the transcript. However, those grades do not calculate in the student’s grade point average.

2. The law school at which the credits are earned must be, at the time of the student’s work there, approved by the American Bar Association.

3. The Associate Dean for Academic Affairs must approve, in advance of the student’s work, the particular law school and the course of study the student will pursue there.

Credit Toward LL.M. Requirements for Non-Law Courses/Transfer Credit

With approval of the Director of the LL.M. Program, students may apply to the LL.M. graduation requirements up to six (6) graduate credits of university or college courses from outside the School of Law. This limit includes independent study courses supervised by faculty in units other than the School of Law. Credit toward the LL.M. degree for a non-law school course will be granted only under the following conditions:

- The course must be a graduate-level course and clearly marked as such on the transfer transcript complete with credit hours and a grade. If taken at the University of Missouri, it must be numbered 5000 or above.
- The transfer coursework is from a regionally-accredited institution in the U.S. or an overseas institution that is recognized by its country’s Ministry of Education as a graduate degree-granting institution.
- The course must involve at least 14 class hours per credit (based on 50-minute class hours).
- The course must be related to the student’s program of study. Students must submit a copy of the course syllabus if possible.
- The semester hours of the non-law-school course will be counted in the student’s total number for the semester.
- The grade must be B or higher.
- The transfer coursework is not online, extension or correspondence credit.

Normally, the Director of the LL.M. Program must approve the course in advance of the student’s work. In unusual situations, the Director of the LL.M. Program may approve application of credits earned within four (4) years prior to initial enrollment in the LL.M. Program if the credits were for work closely related to the student’s work in the LL.M. Program and were taken for graduate credit. Credits will not be applied from the student’s J.D. degree program or equivalent. A written request must be submitted to the Director of the LL.M. Program and include the following:

(a) Institution, course name, number, and instructor; and
(b) Description of how the course relates to the student’s program of study.

Transfer Credit and Degree Applicability

- Transfer from a Regionally Accredited Missouri College (p. 819)
- Transfer from a Community College (p. 820)
- Transfer Within the UM Systems (p. 820)
- Military Transfer Credits (p. 820)
- Transfer Students and University General Education Requirements (p. 820)
- Transfer Credit Appeal Process (p. 819)

Credits and Transfers

After students are admitted to the University of Missouri (MU), an admissions evaluator will evaluate whether any college credit earned elsewhere is transferable to MU. Coursework being transferred from schools outside of Missouri may need faculty review, which can delay the evaluation process.

- Advanced Placement (http://admissions.missouri.edu/apply/ap-ib-and-college-credits/advanced-placement-program.php) credit is only awarded based on official score reports sent to MU directly from the College Board, and not based on scores reported on transcripts.
- Dual credit (http://admissions.missouri.edu/apply/ap-ib-and-college-credits/dual-credit.php) must be evaluated by Admissions prior to being awarded.
- All courses transferring from community colleges will transfer as lower-division credit.
- For details on course equivalences for most school in Missouri and for select out-of-state institutions, check MU’s transfer course equivalencies which can be accessed from the myZou log-in page (http://myzou.missouri.edu) and then clicking on Transfer Course Equivalency. Students interested in seeing how transfer courses might apply toward MU degree requirements can go online to transfer.org (https://www.transfer.org/uselect/login.htm) to enter course data, review equivalencies, and produce an unofficial degree audit.
- The Mizzou Connection Program (http://admissions.missouri.edu/apply/transfer/mizzou-connection) is available for students wishing to transfer from Moberly Area Community College of MU.
- Advanced standing credit in a foreign language awarded by previous institutions will not transfer to MU. It can be requested after you have successfully completed a course at MU at or above that level.
- Military veterans may be awarded some credit if the meet certain criteria (http://admissions.missouri.edu/documents/military-credit.pdf).

Generally, coursework completed at a regionally accredited institution and oriented toward a baccalaureate degree will be accepted if each grade is C or better. Generally, the following types of credit are exceptions that are excluded from transferable courses: Technical, vocation or remedial courses; Courses not intended for a baccalaureate degree and/or terminal vocational degree or certificate program; Courses from non-regionally accredited institutions, though there is an appeal process.

Questions should be directed to the MU Office of Admissions (http://admissions.missouri.edu).
Transfer from a Regionally Accredited Missouri College

Students may transfer more than 64 credit hours of lower division courses from either Missouri associate degree-granting or baccalaureate degree-granting institutions. Any additional lower division course credits above 64 credit hours will be accepted in transfer if the credits are applicable to the baccalaureate degree or are prerequisites for an upper division course in the major, in accordance with the Missouri Coordinating Board's policy.

Transfer from a Community College

Community college courses can only have transferable equivalents at the 1000 or 2000 level. At no time can a community college course be the equivalent of a University of Missouri-Columbia course of 3000 or greater. If a 2000 level course title from a community college is similar to a 3000 level title on this campus, that course can be an elective in that department at the 2000 level. Individual schools and colleges can waive the requirement for a student to take a course with similar or same title on this campus, however there will be no direct transfer equivalency.

If a college or department wants to accept a course from a community college as an equivalency to a course numbered 3000 or greater, they need to give that course a new number of less than 3000.

Courses from a community college can account for six of the last 36 credits, but only for students who have general education or other 1000-2000 level courses remaining for their degree. (The University is not prohibited from accepting community college credit for juniors and seniors if it is at the 1000-2000 level.)

Students may transfer more than 64 credit hours for lower division courses from either Missouri associate degree-granting or baccalaureate degree-granting institutions. Any additional lower division course credits above 64 credit hours will be accepted in transfer if the credits are applicable to the baccalaureate degree or are prerequisites for an upper division course in the major, in accordance with the Missouri Coordinating Board's Handbook.

For additional information, contact the college or school from which the degree is sought or see Credits and Transfers (http://admissions.missouri.edu/apply/transfer/credits-and-transfers.php) information from the MU Office of Admissions (http://admissions.missouri.edu).

Articulation Agreements

Contact departmental advisors for information on articulation programs and agreements.

Associate of Arts Degree

An Associate of Arts degree (AA) is a two-year program that indicates the completion of a student's lower-division education. It also is a specific transfer degree for entry, at the junior level, into the general range of baccalaureate degree programs offered by the University.

Students transferring to MU from a regionally-accredited Missouri college or university with an AA degree and a certified 2.0 GPA will be accepted with junior standing. They will also have completed lower-division, general education requirements if the AA degree consisted of at least 60 credits of college-level work. These 60 credits must include completion of an institutionally-approved, general-education program of not fewer than 39 credits.

Students holding the AA degree are admissible to MU, but are not necessarily admissible to specific programs. Some of the specific programs with specialized lower-division requirements are the colleges of Business, Education, Human Environmental Sciences and the schools of Health Professions, Journalism, Nursing and Social Work. The transfer requirements for all academic units may be found in this catalog on the degree specific pages. Students applying with an AA degree from another state will have their courses reviewed for equivalency on an individual basis.

Associate of Science Degree

An Associate of Science degree (AS) is a specialized degree intended for transfer into a specific, preprofessional program. Junior standing is guaranteed to the transfer student only if curricular details have been agreed on by MU and the institution granting the AS. Students who receive a specialized AS degree do not automatically qualify for junior standing in all MU programs. To enroll in some degree programs, students may have to take additional, general-education courses.

Students without Associate Degrees

Students transferring without associate degrees must meet regular MU transfer admission standards.

Transfer within the UM System

Students may transfer among campuses within the University of Missouri System. University of Missouri Policy states that "Any course that leads to an undergraduate degree on any campus of the University of Missouri shall be accepted in transfer toward the same degree on each campus of the University offering said degree." Students transferring within the UM system are still required to satisfy the course and residency requirements of the campus from which they wish to graduate. Grades, including D and F grades, and grade points earned will also transfer and be included in the cumulative UM grade-point-average.

For more information contact the following offices:
University of Missouri - Columbia, Office of Admissions, 800-225-6075, mu4u@missouri.edu
University of Missouri - Kansas City, Registration & Records Office, 816-235-1125, registrar@umkc.edu
Missouri University of Science and Technology, Registrar's Office, 573-341-4181, registrar@mst.edu
University of Missouri - St. Louis, Office of the Registrar, 314-516-5545, registration@umsl.edu

Military Transfer Credits

Military veterans, with at least two years of honorable service are allowed to transfer military course credit. The transcript coursework must have been accredited by the American Council of Education (ACE). Veterans are advised to contact University Admissions regarding specific transfer credit policies. An exception to current transfer credit policies is that military veterans be allowed a maximum of 9 hours credit as general electives. This policy began with military veterans enrolled for the Fall 2010 semester.

Transfer Students and University General Education Requirements

All University, general-education requirements are considered completed for students who transfer to MU with an AA degree from a regionally-accredited Missouri institution. Transfer credits for other students are evaluated on a course-by-course basis. All students must complete
University graduation requirements beyond the University general education requirements.

NOTE: Many departments, degrees and majors have more specific requirements for foundation course work in addition to the University, general-education requirement. However, the reverse is not true. Departments or academic units may not have fewer general education requirements than described by the University general education requirements. Careful planning will allow students to simultaneously meet University, general-education requirements and prepare for many of the more specific foundation courses required by their field of study.

Transfer Credit Appeal Process

Transfer credit will be awarded for all college level courses that are sent from regionally accredited institutions and are not considered technical or remedial. If the University denies the transfer of a course the student does have the option to appeal that decision. There are three, internal levels to the appeal process:

• Level 1: Students or sending institutions wishing to contest the transfer credit award may send an email to transfer2mu@missouri.edu to request a review by the Office of Admissions Transfer Credit Coordinator. Students must provide the sending school department, course number, course title and grade earned along with the reason they feel the course should be accepted in transfer. Students will be notified of the decision via University email.

• Level 2: If the Office of Admissions has denied the Level 1 appeal students and the student or sending institutions wishes to contest the decision, the student may send an email to transfer2mu@missouri.edu to request an additional review. A Level 2 review request will be sent by the Transfer Credit Coordinator to the department chair (or chair designee) of the academic unit that teaches courses with the most similar subject matter to the external course in question. Students will be notified of the decision via University email.

• Level 3: If the department chair (or designee) has denied the Level 2 appeal and the student or sending institutions wishes to contest the decision, the student may send an email to transfer2mu@missouri.edu to request an additional review. A Level 3 review request will be sent by the Transfer Credit Coordinator to the Vice Provost for Undergraduate Studies. This is the final internal review process and the decision of the Vice Provost for Undergraduate Studies will be final if not contested within 45 calendar days.

External Review: If the transfer dispute is not resolved through the appeal process:

• Visiting UM Graduate Students are subject all campus and comply with the home campus’s transfer policies and restrictions.

Important Points:

• No application fee is required for this program.

• The home campus determines maximum enrollment requirements and the transferability of courses taken at other UM campuses. At MU, all courses taken in UM Visiting Graduate Student Program will be considered “transfer courses” and are subject to MU’s graduate course transfer policies.

• Visiting UM Graduate Students are subject all host campus registration requirements and restrictions.

• To officially transfer courses from the host campus to the home campus, students must order an official transcript from the host campus and comply with the home campus’s transfer policies and restrictions.

Withdraw from the University

From the Term

A student who wishes to withdraw from the Term (University) must process the appropriate Term Withdraw Form (http://registrar.missouri.edu/policies-procedures/withdrawal-university.php) (PDF). Dropping all classes is considered a withdrawal from the Term (University) and must be initiated in the students academic school or college and completed by the end of the business day of the Monday of the last week of classes or prior to completing the final in a self-paced course. Finals are not included as part of the term for this purpose.

Withdrawal forms will normally be dated according to the date the request was first received with the following exception: When health or other critical circumstances constitute the reason for withdrawal, the dean may designate an earlier date to which academic rules will apply.

Withdraw from the University (L)

Formal withdrawal from MU is arranged through the Graduate School using a Notice of Withdrawal form that is signed by the Director of the LL.M. Program and the Dean of the Graduate School. If the student is making a C or better at withdrawal time, a grade of W is recorded. If the
student is doing failing work at withdrawal time, a grade of F is recorded. Students are responsible for notifying their instructors of their intention to withdraw and for determining if their work qualifies for a W grade. Students who leave MU without filing a statement of formal withdrawal are given a grade of F in all courses. If the reason is so urgent that an official withdrawal cannot be obtained, the student should notify the LL.M. Program as soon as possible and officially request to be withdrawn.

Withdraw from the University (V)

An individual will be withdrawn from the university if they drop prior to the second block of classes held during that semester. If the withdrawal occurs during the first three weeks of the first block of the semester, all courses are “dropped” and will be removed from the transcript. No grades will be assigned. If the withdrawal occurs during the first block but after the first three weeks the student will be withdrawn from the courses and grades of W or F will appear on the transcript. A notice of withdrawal form may be used for this purpose and individual classes do not have to be detailed on an add/drop form.

If the student completes the first block of courses and then subsequently is either dismissed or chooses not to continue in the remaining enrollment blocks, the student will not be withdrawn from the university but instead will be either dropped or withdrawn from individual courses depending on when during the block the student chooses to drop.

Example 1:
Student A completes Block 1 and is dismissed from the university. The courses from Block 1 will remain on the transcript with grades but the student will be dropped from all subsequent terms since the student never attended those courses. The courses for the remaining blocks will be removed from her record, i.e. dropped.

Example 2:
Student B completes Block 1 and in the fourth week of Block 2 becomes ill and needs to withdraw. The courses from Block 1 will be posted with the grades she earned. The courses from Block 2 will also remain on the transcript with grades of either W or F.

Example 3:
Student C does not enroll in any courses for Block 1. During the first week of the second block the student decides to withdraw. The student would be withdrawn from the university and because the withdraw occurred within the first three weeks of the first block in which she was enrolled the courses would be dropped and therefore be removed from the transcript.

Withdrawing from a Course

If a student wishes to drop a course after the last day to drop a course without a grade, the process is referred to as “withdrawing” from a course. To withdraw from a course, students must begin in their academic advising unit. Following the approval from the academic advising unit, the student takes the form for processing to the Office of the University Registrar, 125 Jesse Hall. The process must be completed by the end of the business day of the Monday of the last week of classes or prior to completing the final in a self-paced course. See Academic Policies: Grades (p. 805) for more information on withdrawing from a course.

NOTE: Students may not withdraw from all courses or their last course via myZou after the tenth day prior to the start of the semester or term. This must be done in the academic advising unit.
# Course Numbering

<table>
<thead>
<tr>
<th>Course</th>
<th>Number</th>

Guidelines for Cross-Listed and Cross-Level Courses

* Approved by Faculty Council February 13, 2003

Per the faculty approved policies, only 4000 and 7000 level courses may be cross-level listed. Courses that are cross-listed should be from different departments, but cover the same content, with matching course descriptions.

Cross-Listed Courses must:
- Be at the same level
- Cover the same content
- Not meet different general education requirements

Cross-Listed Courses may:
- Not have the exact same number, but it is preferred that they do
- Have different additional fees. However, students may need to enroll in a specific course to meet a requirement and may or may not be allowed to substitute the cross-listed course to avoid the fee. There are limits on enrollment and space may not be available in the non-fee course or section.
- Exceptions: Fine art and music “skills” classes such as painting or drawing may have different levels meeting in the same room at the same time, such as 1000, 2000, etc. with the instructor requiring the appropriate additional quality and/or quantity of work for the respective level.

Cross-Level Courses:
- Only 4000 and 7000-level courses may be cross-level listed.
- The 7000-level course must require work appropriate for graduate credit and be approved as such by the Graduate Faculty Senate.
- Exceptions: Fine art and music “skills” classes such as painting or drawing may have different levels meeting in the same room at the same time, such as 1000, 2000, etc. with the instructor requiring the appropriate additional quality and/or quantity of work for the respective level.

Courses that are not cross-level may not meet in the same room at the same time or near each other at the same time so that they attempt to “get around” this rule.

Restrictions by Course Level

Not allowed:
- 0000-0999 – May not be cross listed or cross leveled outside of the 0000-0999 range
- 1000-3999 – May not be cross listed or cross listed with 5000-9999
- 4000-4999 - May not be listed as cross level with 8000-9999
- Linked cross-leveling may not result in a 1000-3999 level being linked with a 4000-4999, that is subsequently linked with 5000-7999, and a 7000-7999 that is cross-level with 8000-9999

Permissible:
- 1000-3999 May be cross-listed and/or cross-leveled with 1000-4999
- 4000-4999- May be listed as cross level with 5000-7999
- 5000-6999 – May be listed as cross level with 4000-4999 or with 7000-7999
- 7000-7999 – May be listed as cross level with 4000-6999 or with 8000-8999, but not both

Accountancy (ACCTCY)

ACCTCY 2010: Introduction to Accounting
Introduction to accounting for non-business majors. Emphasis on introducing students to business operations, as well as preparing and using management information and financial accounting information for business decisions (does not count as either ACCTCY 2036 or ACCTCY 2037).

Credit Hours: 3
Prerequisites: sophomore standing

ACCTCY 2026: Accounting I
An introduction to the field of accounting, this course covers the fundamentals of financial accounting. Business students at UMC must have advisor's approval. Credit may not be earned for both ACCTCY 2026 and ACCTCY 2036.

Credit Hours: 3
Prerequisites: Sophomore Standing

ACCTCY 2027: Accounting II
This course covers the fundamentals of managerial accounting and additional topics in financial accounting. Business students at UMC must have advisor's approval. Credit may not be earned for both ACCTCY 2027 and ACCTCY 2037. Course only offered through Mizzou Online (self paced).

Credit Hours: 3
Prerequisites: ACCTCY 2026

ACCTCY 2036: Accounting I
First half of two-part course focusing on the business environment and the use of managerial and financial accounting information for decision making in various business settings. Emphasizes the use of accounting information about a retail company (sole proprietorship) by internal and external users, followed by an introduction to other forms of business and, then, planning for corporate operations.

Credit Hours: 3
Prerequisites: Completion of 28 credit hours. May be restricted to lower-level business and lower-level accountancy students during early registration

ACCTCY 2037: Accounting II
Second half of two-part course focusing on the business environment and the use of managerial and financial accounting information for decision making in various business settings. This half emphasizes the use of accounting information about a manufacturing company (corporation) by internal and external users.

Credit Hours: 3
Prerequisites: ACCTCY 2036 or ACCTCY 2136H

ACCTCY 2136H: Honors Accounting I
First part of two-part course focusing on the nature and use of managerial and financial accounting information for decision making in various business settings. Emphasizes use of accounting information by internal and external users.

Credit Hours: 3
Prerequisites: sophomore standing in Accounting or Business, 3.3 or higher GPA. Honors eligibility required

ACCTCY 2137H: Honors Accounting II
Continuation of Accountancy 2136H.

Credit Hours: 3
Prerequisites: C or better ACCTCY 2136H. Honors eligibility required

ACCTCY 2258: Computer-Based Data Systems
Introduces the computer as a tool in the efficient operation of a business. Skills developed in the course include electronic information retrieval, information analysis using a spreadsheet, what-if analysis macro development, and information presentation. In addition, computer components, data storage, networks, and information technology are discussed.

Credit Hours: 3
Prerequisites: Sophomore standing

ACCTCY 3326: Financial Accounting Theory and Practice I
Institutional structure, conceptual framework, and reporting standards and practices of financial accounting, with special emphasis on accounting for assets.

Credit Hours: 3
Prerequisites: ACCTCY 2037 or ACCTCY 2137H or ACCTCY 2027. Restricted to Accountancy Majors

ACCTCY 3328: Accounting Information Systems

Credit Hours: 3
Prerequisites: Restricted to Accountancy Majors

ACCTCY 3346: Financial Accounting Theory and Practice II
Continuation of Accountancy 3326, with special emphasis on income recognition and accounting for liabilities and ownership equity.

Credit Hours: 3
Prerequisites: ACCTCY 3326. Restricted to Accountancy Majors

ACCTCY 3347: Cost and Managerial Accounting
Activity based and traditional job order and process cost systems for service, merchandising, and multinational manufacturing companies; Cost accounting techniques and procedures for financial reporting by multinational companies. Strategic focus to management accounting measurement and reporting. Standard costs and variances, capital budgeting.

Credit Hours: 3
Prerequisites: ACCTCY 2037 or ACCTCY 2137H or ACCTCY 2027. Restricted to Accountancy Majors

ACCTCY 4000: Accountancy Professional Speakers and Symposia
(cross-leveled with ACCTCY 7000). This non-credit course, recommended for all accountancy majors, will provide exposure to issues in the accounting profession through professional speaker series and
ACCTCY 4301: Topics in Accounting
Independent investigations, reports on approved topics.
Credit Hours: 1-3
Prerequisites: instructor's consent

ACCTCY 4353: Introduction to Taxation
(cross-leveled with ACCTCY 7353). Introduction to the structure and conceptual foundation of the U.S. federal income tax system for individual taxpayers. Topics include income recognition, deductions, property transactions, trusts, and family wealth planning. This course also introduces students to legal tax research and preparation of individual income tax returns.
Credit Hours: 3
Prerequisites: ACCTCY 2037 or ACCTCY 2137H or ACCTCY 2027. Restricted to accountancy majors only

ACCTCY 4356: Financial Accounting Concepts
(cross-leveled with ACCTCY 7356). Current issues in the financial reporting of business corporations to external parties.
Credit Hours: 3
Prerequisites: ACCTCY 2037 or ACCTCY 2137H or ACCTCY 2027 or ACCTCY 7310. Not open to accountancy majors

ACCTCY 4365: Governmental Accounting and Budgeting
(cross-leveled with ACCTCY 7365). Introduction to government and not-for-profit accounting. Concepts and principles of fund accounting, budgeting, auditing, and financial reporting in government and not-for-profit entities.
Credit Hours: 3
Prerequisites: ACCTCY 3326. Restricted to Accountancy Majors

ACCTCY 4384: Auditing Theory and Practice I
(cross-leveled with ACCTCY 7384). Introduction to the auditing profession, assurance function, and generally accepted standards for conducting audits.
Credit Hours: 3
Prerequisites: ACCTCY 3328 and ACCTCY 3346. Restricted to Accountancy Majors

ACCTCY 4940: Professional Accounting Internship
(cross-leveled with ACCTCY 7940). Provides full-time professional accounting work experience of at least eight weeks duration. Graded on S/U basis only.
Credit Hour: 3-6
Prerequisites: Accountancy Majors only and 105 credit hours completed and ACCTCY 3326 and ACCTCY 3328 and ACCTCY 3346 and ACCTCY 3347 and ACCTCY 4353, and GPA of 3.0 or higher

ACCTCY 7000: Accountancy Professional Speakers and Symposia
(cross-leveled with ACCTCY 4000). This non-credit course, recommended for all accountancy majors, will provide exposure to issues in the accounting profession through professional speaker series and symposia. Components will include the Dawdy Speaker Series, Orin Ethics Symposium, and Symposia delivered by accounting firms and/or professional accounting organizations. This will be a non-credit, non-billed, no hours course. Graded on S/U basis only.
Credit Hours: 0
Prerequisites: Accountancy Majors

ACCTCY 7310: Accounting for Managers
Introduction to understanding how accounting information is used to help make informed decisions in various business settings. Includes an introduction to basic financial and management accounting concepts and procedures.
Credit Hours: 3
Prerequisites: MBA or MSPA candidate, or departmental consent

ACCTCY 7353: Introduction to Taxation
(cross-leveled with ACCTCY 4353). Introduction to the structure and conceptual foundation of the U.S. federal income tax system for individual taxpayers. Topics include income recognition, deductions, property transactions, trusts, and family wealth planning. This course also introduces students to legal tax research and preparation of individual income tax returns.
Credit Hours: 3
Prerequisites: ACCTCY 2037 or ACCTCY 2137H or ACCTCY 2027. Restricted to accountancy majors only

ACCTCY 7356: Financial Accounting Concepts
(cross-leveled with ACCTCY 4356). Current issues in the financial reporting of business corporations to external parties. Not open to accountancy majors.
Credit Hours: 3
Prerequisites: ACCTCY 2037 or ACCTCY 2137H or ACCTCY 2027 or ACCTCY 7310

ACCTCY 7365: Governmental Accounting and Budgeting
(cross-leveled with ACCTCY 4365). Introduction to government and not-for-profit accounting. Concepts and principles of fund accounting, budgeting, auditing, and financial reporting in government and not-for-profit entities.
Credit Hours: 3
Prerequisites: ACCTCY 3326. Restricted to Accountancy Majors

ACCTCY 7384: Auditing Theory and Practice I
(cross-leveled with ACCTCY 4384). Introduction to the auditing profession, assurance function, and generally accepted standards for conducting audits.
Credit Hours: 3
Prerequisites: ACCTCY 3328 and ACCTCY 3346. Restricted to Accountancy Majors
ACCTCY 7940: Professional Accounting Internship
(cross-leveled with ACCTCY 4940). Provides full-time professional accounting work experience of at least eight weeks duration. Graded on S/U basis only.

Credit Hours: 3-6
Prerequisites: Completion of undergraduate portion of 150 hour program (or equivalent) and consent of Internship Coordinator

ACCTCY 8363: Multi-Jurisdictional Tax
This course takes a practical approach to exploring multistate and international tax concepts by focusing on tax issues that can arise as a company expands from a single business location into a multinational corporation. Part 1 of this course focuses on the economic, political, and constitutional constraints imposed on state and local taxation, including the due process clause, the commerce clause and state uniformity and equality clauses. Part 2 of the course includes a survey of state and local tax laws, with a particular emphasis on the imposition of sales and use taxes and the allocation and apportionment of state income taxes. Part 3 of the course covers the taxation of foreign investments or activities of U.S. taxpayers (outbound) and the U.S. taxation of the U.S. activity or investments of foreign taxpayers (inbound).

Credit Hours: 3
Prerequisites: ACCTCY 4353. Restricted to Accountancy Majors

ACCTCY 8373: Taxation of Corporations and Shareholders
Life cycle of a corporation including formations, operations, distributions, and liquidations of corporations.

Credit Hours: 3
Prerequisites: ACCTCY 4353 or ACCTCY 7353. Restricted to Accountancy Majors

ACCTCY 8393: Taxation of Trust, Gifts and Estates
This course covers two main topics. Students are introduced to the construction, operation and income taxation of trusts. After this portion of the course students will learn about the gift tax consequences of completed exchanges. Finally, students will learn the basic rules regarding the estate tax. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: ACCTCY 4353 or ACCTCY 7353. Restricted to Accountancy Majors

ACCTCY 8401: Topics in Accounting
Independent investigations, reports on approved topics.

Credit Hour: 1-3
Prerequisites: instructor's consent

ACCTCY 8404: Internal Auditing
This course covers the concepts, practices, and application of internal audit activities. The course will review the entire internal audit process including annual audit and engagement planning, fieldwork, reporting, and management communication. Other topics including internal controls, enterprise risk management, and key behavior skills will be discussed. The Professional Practices Framework and industry best practices will be incorporated throughout the semester. This course will prepare students for entry-level internal audit positions. Graded A-F only.

Credit Hours: 3
Prerequisites: ACCTCY 4384 or ACCTCY 7384. Restricted to Accountancy Majors

ACCTCY 8414: Audit of Internal Controls
A combination of control theory, concept application, demonstration of actual practice, and student research to develop an understanding of the concepts and practices used in the design, development or assurance of information systems (IS) controls. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: ACCTCY 3328, and ACCTCY 4384 or ACCTCY 7384. Restricted to Accountancy Majors

ACCTCY 8419: International Accounting
Introduction to accounting regulations and practices outside of the U.S., including international accounting standards and international management control issues. Review of cultural frameworks, transfer pricing methods and international accounting standards.

Credit Hours: 3
Prerequisites: ACCTCY 3346 and ACCTCY 3347. Restricted to Accountancy Majors

ACCTCY 8423: Tax Research and Planning
Applied tax research using print and electronic data bases; heuristic biases in tax judgments; responsibilities of professional tax practices.

Credit Hours: 3
Prerequisites or Corequisites: ACCTCY 8373
Acctcy 8393

ACCTCY 8424: Fraud Examination
A study of the methods and techniques of fraud examination, particularly with regard to frauds perpetrated by the company against the public. The ethical and professional standards that underlie the accountant's responsibility for fraud detection and prevention are emphasized. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: ACCTCY 4384 or ACCTCY 7384. Restricted to Accountancy Majors

ACCTCY 8428: Data Visualization and Data Mining
Enterprise-wide view of data and transaction processing. Concepts and techniques of data visualization and data mining of business-critical data. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: ACCTCY 3328 or departmental consent. Restricted to Accountancy Majors

ACCTCY 8433: Mergers and Acquisitions Taxation
This course covers the basic taxation of mergers and acquisitions, both taxable and tax-free acquisitions; issues in merger and acquisition deal making, such as due diligence and understanding contract tax provisions; and an overview of securities regulations with respect to publicly traded companies. Graded on A-F basis only.

Credit Hours: 3
Prerequisites or Corequisites: ACCTCY 8373
Prerequisites: ACCTCY 4353

ACCTCY 8436: Advanced Accounting
Continuation of ACCTCY 3346. Addresses a series of special financial accounting topics including income taxes, pensions, leases, business combinations, consolidated statements, and foreign currency translation. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: ACCTCY 3346. Restricted to Accountancy Majors

ACCTCY 8438: Forensic Accounting
Coverage of forensic accounting processes and tools used in the detection and prevention of fraud against the company. Topics include skimming, cash larceny, check tampering, billing schemes and others. An emphasis of the course will be upon the use of computer aids. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: ACCTCY 3328, ACCTCY 4384 or ACCTCY 7384. Restricted to Accountancy Majors

ACCTCY 8444: Advanced Audit
The Advanced Auditing course helps students develop a better understanding of the audit environment and gives them the opportunity to gain hands-on experience planning for an audit engagement, performing test work, and completing an audit engagement. The course also addresses additional topics not covered in detail in the Audit Theory and Practice I course, including inventory observation, legal liability issues faced by auditors today, the regulatory environment, professional responsibilities of auditors, preparing appropriate documentation for audit engagements, providing required communications to clients, and performing Single Audits. The course is designed to encourage open discussions of cases and current issues and provide learning opportunities for the students. The class meetings and assignments are designed to improve the student's critical thinking skills, communication skills, and team-building skills. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: ACCTCY 4384 or ACCTCY 7384. Restricted to Accountancy Majors

ACCTCY 8448: Emerging Issues in Accounting Information Systems
Current developments in the implementation and use of accounting information systems. Topics may vary. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: Restricted to Accountancy Majors

ACCTCY 8450: Accounting and Strategic Business Analysis
Capstone course in the Master of Accountancy program. Emphasis on case analysis to develop critical thinking and analytical skills in the use of accounting reports for broad-based business analysis. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: ACCTCY 3346 or equivalent. Restricted to Accountancy Majors

ACCTCY 8453: Taxes and Business Strategies
This class examines the role taxes in business decisions. The analysis involved considers 1) tax consequences of all parties to a transaction, 2) both explicit and implicit taxes, and 3) tax as well as non-tax costs. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: Restricted to Accountancy Majors

ACCTCY 8456: Corporate Governance
Corporate governance has taken on new prominence in light of the accounting scandals of the early 2000's (e.g., Enron) and the new regulatory regime of Sarbanes-Oxley. As a result, corporations, investors, auditors, and others are paying more attention to corporate governance. This course will familiarize students with corporate governance mechanisms and how they interact with financial reporting. This course should appeal to students pursuing careers in auditing, finance, management, as well as anyone seeking a deeper understanding of relations between financial reporting and corporate governance. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: ACCTCY 8436. Restricted to Accountancy Majors

ACCTCY 8458: Emerging Issues in Accounting Information Systems
Current developments in the implementation and use of accounting information systems. Topics may vary. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: ACCTCY 3347, MATH 1300 and MATH 1320 and STAT 3500, or instructor's consent

ACCTCY 9090: Research in Accounting
Each student is under direction and guidance of an accountancy professor in writing a dissertation. Periodic seminars discuss research projects. Graded on a S/U basis only.
Credit Hour: 1-99
Prerequisites: doctoral candidacy and instructor's consent

ACCTCY 9401: Doctoral Research Problems in Accounting
Independent investigations, reports on approved topics. Restricted to Doctoral level students only
Credit Hour: 1-3
Prerequisites: instructor's consent and director's consent

ACCTCY 9444: Seminar in Auditing Research
The economic role of auditing; the audit process; audit reports and the consequences of auditing on financial statements; new audit directions and perspectives.
Credit Hours: 3
Prerequisites: doctoral candidacy or instructor's consent

ACCTCY 9457: Quantitative Methods in Accounting
Application of mathematics and statistics to managerial and financial accounting problems.
Credit Hours: 3
Prerequisites: ACCTCY 3347, MATH 1300 and MATH 1320 and STAT 3500, or instructor's consent
The purpose is to instill a leadership mindset and to motivate sophomore students to transition from AFROTC cadet to AFROTC officer candidate. Applies communicative skills. Leadership lab.

**Credit Hours:** 3

**AERO 4100: National Security Affairs/Preparation for Active Duty**
Designed for college seniors and gives them the foundation to understand their role as military officers in American society. It is an overview of the complex social and political issues facing the military profession and requires a measure of sophistication commensurate with the senior college level. The final semester provides information that will prepare the cadets for Active Duty. Leadership lab.

**Credit Hours:** 3

**AERO 4200: National Security Affairs/Preparation for Active Duty**
Designed for college seniors and gives them the foundation to understand their role as military officers in American society. It is an overview of the complex social and political issues facing the military profession and requires a measure of sophistication commensurate with the senior college level. The final semester provides information that will prepare the cadets for Active Duty. Leadership laboratory.

**Credit Hours:** 3

**Agribusiness Management (ABM)**

**ABM 1010: Introduction to Agribusiness Management**
Agribusiness and agricultural economics touches many parts of business, agriculture, the environment and other areas. This course is designed to help students successfully make the adjustment to college/MU, provide an overview of the Department of Agricultural and Applied Economics degree programs and, enhance professional and career development.

**Credit Hours:** 3

**ABM 1011: Survey of Global Agribusiness**
Economic, social and political forces and trends and the impact on U.S. and global agribusinesses. Global production, consumption trade, and investment patterns in agriculture-food sector. Developing management strategy in changing economic political environment.

**Credit Hour:** 1
ABM 1041: Applied Microeconomics
Introduction to the microeconomic principles and their application to decision-making in agribusinesses. Consumer decision analysis, producer goals and optimization and the market environment where they meet and trade. Applications to current issues. Students who complete AG_EC/ABM 1041 may not have credit for ECONOM 1014.
Credit Hours: 3

ABM 1042: Applied Macroeconomics
Introduction to macroeconomic principles and their application to agriculture-food sector and natural resource issues. Using macroeconomic principles in decision making and in evaluating national and regional economic problems and issues. Students who complete ABM 1042 may not have credit for ECONOM 1015.
Credit Hours: 3

ABM 1200: Applied Computer Applications
This course is an applied problem based learning opportunity for students to gain Excel spreadsheet related skills critical to careers in agriculture, food and natural resources. Students will learn intermediate and advanced spreadsheet skills essential for problem solving and decision making in these biologically influenced fields.
Credit Hours: 3

ABM 2070: Environmental Economics and Policy
(same as ENV_ST 2070). Examines current environmental and natural resource issues using a systems perspective and key economic concepts. Explores connections between the environment and the economy based on problems at the local, national, and international levels.
Credit Hours: 3
Prerequisites: sophomore standing
Recommended: ENGLSH 1000

ABM 2070W: Environmental Economics and Policy - Writing Intensive
(same as ENV_ST 2070). Examines current environmental and natural resource issues using a systems perspective and key economic concepts. Explores connections between the environment and the economy based on problems at the local, national, and international levels.
Credit Hours: 3
Prerequisites: sophomore standing
Recommended: ENGLSH 1000

ABM 2123: Quantitative Applications in Agricultural Economics
Familiarize students with the use of calculus and other quantitative tools in developing and analyzing fundamental economic concepts.
Credit Hours: 3
Prerequisites: ABM 1041 or ECONOM 1014 and MATH 1400

ABM 2183: The Agricultural Marketing System
Analysis of marketing systems that transforms agricultural products into food products. Examines functions and institutions in marketing and distributing food from both micro and macro perspectives.
Credit Hours: 3
Prerequisites: ABM 1041 or ECONOM 1014
Recommended: ABM 1042 or ECONOM 1015

ABM 2183W: The Agricultural Marketing System - Writing Intensive
Analysis of marketing systems that transforms agricultural products into food products. Examines functions and institutions in marketing and distributing food from both micro and macro perspectives.
Credit Hours: 3
Prerequisites: ABM 1041 or ECONOM 1014
Recommended: ABM 1042 or ECONOM 1015

ABM 2223: Agricultural Sales
Principles of salesmanship in agricultural input and output markets; buyer motivations; time and territory management; communication models and techniques; planning and executing sales calls; after-sale service.
Credit Hours: 3
Prerequisites: ABM 1041 or ABM 1042 or ECONOM 1014 or ECONOM 1015 and sophomore standing

ABM 2225: Statistical Analysis
Credit Hours: 3
Prerequisites: MATH 1100

ABM 2940: Practicum in Agribusiness Management
Off-campus integrated working and learning experience for departmental majors and minors. Application of economic concepts in business or government. Graded on S/U basis only.
Credit Hour: 1-3
Prerequisites: Instructor's consent

ABM 3150: International Agribusiness
This course covers the primary factors that shape the business environment for food and agricultural firms conducting business across borders. The course examines how culture, institutions and public policy affect business operations and business strategies.
Credit Hours: 3
Prerequisites: ABM 2183

ABM 3224: New Products Marketing
Learning experience to develop skills in marketing new agriculture products. To include market analysis, goals and objectives, action plan, financial evaluation and monitoring and measurement. In small groups, students will develop complete marketing plan for a new product.
Credit Hours: 3
Prerequisites: ABM 1041 or ECONOM 1014

</table>
ABM 3295: Real Money: Speculative Trading for Beginners
Familiarize students with the learning components of commodity future/option trading. Students learn through involvement by investing in a commodity pool and trading futures/options. Students apply both fundamental and technical analysis. Students taking this course are required to invest from $200 to $600 in $200 increments. Students cannot lose more money than invested.

Credit Hours: 3
Prerequisites: ABM 2183
Recommended: ABM 3294

ABM 4230: Understanding the Agricultural Policy Process
The goal of this course is to prepare students for a career in agricultural policy and will build the skill set needed in the agricultural policy environment.

Credit Hours: 3
Prerequisites: ABM 3230

ABM 4240: Microeconomics Theory and Applications
(cross-leveled with AAE 7240). This course extends the learning from principles of microeconomics for students of applied economics. The topics in this course prepare students for further study in finance, business management, policy analysis, economic development, and other applications of economic theory. The course stresses development of theoretical models of consumer choice, firm behavior, perfect and imperfect markets, and externalities, balanced by investigation of the assumptions behind these models. Applications of the models to management and policy issues will be assigned throughout the semester.

Credit Hours: 3
Prerequisites: ABM 1041 or ECONOM 1014

ABM 4251: Agricultural Prices
(cross-leveled with AAE 7251). Variations in prices of agricultural products; underlying factors.

Credit Hours: 3
Prerequisites: ABM 2123 and ABM 2225 or STAT 2500

ABM 4295: Agricultural Risk Management
(cross-leveled with AAE 7295). This class will examine the range of risks business face and explore ways of characterizing and evaluating those risks.

Credit Hours: 3
Prerequisites: ABM 2183 and ABM 2225 or STAT 2500

ABM 4301: Topics in Agribusiness Management
Current and new topics not currently offered in applied and/or theoretical areas in Agricultural Economics.

Credit Hour: 1-6

ABM 4301H: Topics in Agribusiness Management - Honors
Current and new topics not currently offered in applied and/or theoretical areas in Agricultural Economics.

Credit Hour: 1-6
Prerequisites: honors eligibility required

ABM 4940: Internship Opportunities
Combines study, observation, and employment in a public agency or private firm in marketing, farm management, or credit. Staff supervision and evaluation. Reports required.

Credit Hour: 1-3
Prerequisites: instructor's consent
Recommended: 75 hours completed

ABM 4962: Planning the Farm Business
(cross-leveled with AAE 7962). Economic analysis and planning of the farm business and its organization. Applications of computerized management techniques to farm business including resource acquisition, tax management, enterprise analysis, and business analysis through farm records and budgets.

Credit Hours: 3
Prerequisites: ABM 3260

ABM 4971: Agribusiness Management Strategy
(cross-leveled with AAE 7971). Analysis of industry forces in agriculture and food sector. Assessing risks and firms' capabilities. Development of firm's competitive strategy, including vertical integration, diversification, international business option, and financial planning and performance measurement.

Credit Hours: 3
Prerequisites: ABM 3282 or FINANC 3000 and ABM 3286 or MANGMT 3000

ABM 4971W: Agribusiness Management Strategy - Writing Intensive
(cross-leveled with AAE 7971). Analysis of industry forces in agriculture and food sector. Assessing risks and firms' capabilities. Development of firm's competitive strategy, including vertical integration, diversification, international business option, and financial planning and performance measurement.

Credit Hours: 3
Prerequisites: ABM 3282 or FINANC 3000 and ABM 3286 or MANGMT 3000

ABM 4972: Agri-Food Business and Cooperative Management
(cross-leveled with AAE 7972). Risk management in the global agrifood chain, including managing the unique uncertainties of biological production processes, global market analysis, and government intervention, of risk management tools and institutions unique to strategic decision making in agribusiness and cooperative firms.

Credit Hours: 3
Prerequisites: ABM 4971 and ABM 3286 or MANGMT 3000
Recommended: ABM 3256

ABM 4983: Strategic Entrepreneurship in Agri-Food
(cross-leveled with AAE 7983). Strategic entrepreneurship is the search for opportunities to generate income streams from innovation, development of new markets, and altering the rivalry positions in existing markets.

Credit Hours: 3
Prerequisites: ABM 4971 and ABM 3286 or MANGMT 3000
Recommended: ABM 3256
Recommended: senior standing

**ABM 4990: Economic Analysis of Policy and Regulation**
(cross-leveled with AAE 7990). Apply economic concepts and tools to analyze the policy-making process and the implications of policy for individuals, firms, markets and society. Policy topics include, among other things, agricultural support programs, environmental policy, international trade, international development, and agribusiness regulation.

**Credit Hours:** 3
**Prerequisites:** ABM 4251
**Recommended:** ECONOM 4351

**ABM 4990W: Economic Analysis of Policy and Regulation - Writing Intensive**
(cross-leveled with AAE 7990). Apply economic concepts and tools to analyze the policy-making process and the implications of policy for individuals, firms, markets and society. Policy topics include, among other things, agricultural support programs, environmental policy, international trade, international development, and agribusiness regulation.

**Credit Hours:** 3
**Prerequisites:** ABM 4251
**Recommended:** ECONOM 4351

---

**Agricultural and Applied Economics (AAE)**

**AAE 7240: Microeconomics Theory and Applications**
(cross-leveled with ABM 4240). This course extends the learning from principles of microeconomics for students of applied economics. The topics in this course prepare students for further study in finance, business management, policy analysis, economic development, and other applications of economic theory. The course stresses development of theoretical models of consumer choice, firm behavior, perfect and imperfect markets, and externalities, balanced by investigation of the assumptions behind these models. Applications of the models to management and policy issues will be assigned throughout the semester.

**Credit Hours:** 3
**Prerequisites:** ABM 1041 or ECONOM 1014

**AAE 7251: Agricultural Prices**
(cross-leveled with ABM 4251). Variations in prices of agricultural products; underlying factors.

**Credit Hours:** 3
**Prerequisites:** ABM 2123 and ABM 2225 or STAT 2500

**AAE 7295: Agricultural Risk Management**
(cross-leveled with ABM 4295). This class will examine the range of risks businesses face and explore ways of characterizing and evaluating those risks.

**Credit Hours:** 3
**Prerequisites:** ABM 2183 and ABM 2225 or STAT 2500

**AAE 7301: Topics in Agricultural and Applied Economics**
Current and new topics not currently offered in applied and/or theoretical areas in Agricultural and Applied Economics.

**Credit Hour:** 1-6

**AAE 7940: Internship Experiences in Agricultural and Applied Economics**
Combines study, observation, and employment in a public agency or private firm in marketing, farm management, or credit. Staff supervision and evaluation. Reports required. Graded on S/U basis only.

**Credit Hour:** 1-3
**Prerequisites:** 2.5 GPA; 75 hours of course work and instructor's consent

**AAE 7962: Planning the Farm Business**
(cross-leveled with ABM 4962). Economic analysis and planning of the farm business and its organization. Applications of computerized management techniques to farm business including resource acquisition, tax management, enterprise analysis, and business analysis through farm records and budgets.

**Credit Hours:** 3
**Prerequisites:** ABM 3260

**AAE 7971: Agribusiness Management Strategy**
(cross-leveled with ABM 4971). Analysis of industry forces in agriculture and food sector. Assessing risks and firms capabilities. Development of firm's competitive strategy, including vertical integration, diversification, international business option, and financial planning and performance measurement.

**Credit Hours:** 3
**Prerequisites:** ABM 3282 or FINANC 3000 and ABM 3286 or MANGMT 3000

**AAE 7972: Agri-Food Business and Cooperative Management**
(cross-leveled with ABM 4972). Risk management in the global agrifood chain, including managing the unique uncertainties of biological production processes, global market analysis, and government intervention, of risk management tools and institutions unique to strategic decision making in agribusiness and cooperative firms.

**Credit Hours:** 3
**Prerequisites:** ABM 4971 and ABM 3286 or MANGMT 3000
**Recommended:** ABM 3256

**AAE 7983: Strategic Entrepreneurship in Agri-Food**
(cross-leveled with ABM 4983). Strategic entrepreneurship is the search for opportunities to generate income streams from innovation, development of new markets, and altering the rivalry positions in existing markets. Graded on A-F basis only.

**Credit Hours:** 3
**Prerequisites:** Graduate standing and one course at the level of intermediate microeconomics

**AAE 7990: Economic Analysis of Policy and Regulation**
(cross-leveled with ABM 4990). Apply economic concepts and tools to analyze the policy-making process and the implications of policy for...
individuals, firms, markets and society. Policy topics include, among other things, agricultural support programs, environmental policy, international trade, international development, and agribusiness regulation.

**Credit Hours:** 3  
**Prerequisites:** ABM 4251  
**Recommended:** ECONOM 4351

**AAE 7995: Economics of Agricultural Production and Distribution**  
(cross-leveled with ABM 4995). Applies economic principles to agricultural production including price theory, linear programming and uncertainty.

**Credit Hours:** 3  
**Prerequisites:** ECONOM 3251 and ABM 2225 or STAT 2500

**AAE 8001: Advanced Topics in Agricultural and Applied Economics**  
Analyzes economic logic problems. Current agricultural and applied economic problems.

**Credit Hours:** 3

**AAE 8050: Economics of Institutions and Organizations**  
This course expands upon the fundamental principles of neo-classical economics by relaxing traditional behavioral and informational assumptions and by introducing the importance of transaction costs and institutions for economic analysis.

**Credit Hours:** 3

**AAE 8060: Mathematical Modeling for Social Scientist**  
Introduction to mathematical programming, emphasizing problem formulation and solution interpretation. Computer applications are stressed.

**Credit Hours:** 3  
**Prerequisites:** STAT 4510

**AAE 8085: Masters Problems in Agricultural and Applied Economics**  
Supervised study, research in specialized phases of agricultural and applied economics.

**Credit Hour:** 1-99

**AAE 8090: Masters Thesis Research in Agricultural and Applied Economics**  
Independent investigation of advanced nature, leading to dissertation. Graded on a S/U basis only.

**Credit Hour:** 1-6

**AAE 8265: Agricultural and Food Policy**  
The course is designed to help students understand how agricultural and food policies are developed and how they can affect farmers, consumers, taxpayers and the environment. Topics include the policy process, farm subsidy programs, crop insurance, nutrition programs, trade agreements, food security, biofuel policies, promotion of organic and local foods and food safety. The primary focus will be U.S. policies, but policies in other countries will also be discussed. Students will develop analytical skills that will prepare them for careers in government, business or academia. Graded on A-F basis only.

**Credit Hours:** 3  
**Prerequisites:** ECONOM 7351 or equivalent  
**Recommended:** AAE 9220, AAE 9230

**AAE 8410: Natural Resource and Environmental Economics**  
Contemporary natural resource/environmental problems; natural resource capacity, alternative economic theories, property rights, externalities, market failures, efficient use of exhaustible and renewable resources, and economics of environmental pollution.

**Credit Hours:** 3  
**Prerequisites:** ECONOM 7351

**AAE 8430: International Agricultural Development Policy**  
An analytical review of economic policies directed toward stimulating agricultural development in the world's low income countries.

**Credit Hours:** 3  
**Prerequisites:** ECONOM 7351 and ECONOM 7353

**AAE 8450: Masters Non Thesis Research**  
Independent investigation of advanced nature. Report required.

**Credit Hour:** 1-6

**AAE 8510: Research Methods and Design**  
(same as AG_ED_LD 8510, RU_SOC 8510). This course will give students a foundational understanding of quantitative research methods and design in the social and behavioral sciences. The main objective is to help students identify and formulate their own research questions and develop and implement a process for answering them. Students will examine the nature of the research process, explore the connection between theory and empirical research, identify viable research topics, critique published research, learn how to structure good arguments, understand the structure of research papers and proposals, plan and manage research activities, and become familiar with research ethics. Graded on A-F basis only.

**Credit Hours:** 3

**AAE 8520: Economics of Transaction and Contracting**  
The course focuses on the economic incentives underlying transaction relationships and develops and implements a framework for analyzing contract documents governing various kinds of transactions.

**Credit Hours:** 3

**AAE 8560: International Comparative Rural Policy**  
(same as PUB_AF 8860). Compares the rural policy objectives and implementation strategies of various countries, and assesses these policies in terms of economic, social, environmental outcomes and their

**Credit Hours:** 3

**AAE 8610: Economic and Sociological Approaches to Collective Action**  
(same as RU_SOC 8610). This course identifies analytical and methodological tools, including rational choice and social capital, to deal with practical problems of collective action in: agricultural cooperatives, rural community development, political interest groups and other mutuals.

**Credit Hours:** 3  
**Prerequisites:** AAE 7972

**AAE 8860: International Comparative Rural Policy**  
(same as PUB_AF 8860). Compares the rural policy objectives and implementation strategies of various countries, and assesses these policies in terms of economic, social, environmental outcomes and their
implications for international relations. Includes 2-weeks of study Abroad. May be repeated for credit. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: instructor’s consent

AAE 9001: Advanced Topics in Economics II
Credit Hours: 3

AAE 9040: Advanced Microeconomics Theory and Applications I
First semester course that rigorously examines the microeconomic theory of producer and consumer behavior, combined with applications of the theoretical concepts to empirical economic research on agricultural, business, development, and environmental issues. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: ECONOM 7351 or instructors consent

AAE 9042: Advanced Microeconomics Theory and Applications II
Second semester advanced micro theory covering choice under uncertainty, industry structure, game theory, information econ, and political economy of regulation. Includes applications of micro models to issues in agricultural, natural resource, and development sectors.

Credit Hours: 3
Prerequisites: AAE 9040

AAE 9085: Doctoral Problems in Agricultural and Applied Economics
Supervised study, research in specialized phases of agricultural and applied economics.
Credit Hour: 1-99
Prerequisites: instructor’s consent

AAE 9090: Doctoral Dissertation Research in Agricultural and Applied Economics
Independent investigation of advanced nature, leading to dissertation. Graded on a S/U basis only.
Credit Hour: 1-99

AAE 9220: Advanced Price Analysis
Applies economic theory and quantitative methods to analyze agricultural price issues. Examines problem formulation, estimation, and model evaluation applied to demand and supply situations.

Credit Hours: 3
Prerequisites: ECONOM 8451 or ECONOM 8472; STAT 4510

AAE 9230: Welfare and Consumption Economics
Introduces welfare economic principles; application to problems of resource allocation. Appraises economic policies, programs; consumers’ choice; measurement of consumption; living standards; household decisions and markets relation.

Credit Hours: 3
Prerequisites: ECONOM 8451 or instructor’s consent

AAE 9265: Food, Agricultural and Rural Policy
Application of welfare economics theory to food, agricultural and rural development policy analysis. Historical perspective and economics analysis of contemporary issues in national and international policy and institutions.

Credit Hours: 3
Prerequisites: ECONOM 7351 and AAE 9230

AAE 9510: Organizational Economics I
This course builds on transaction cost-based theories and tools to study the economic underpinnings of intra-firm organization, firm boundaries, and the structure of inter-firm transactions.

Credit Hours: 3
Prerequisites: AAE 8050

Agricultural Economics (AG_EC)

AG_EC 7110: In-Service Course in Agricultural Economics (cross-leveled with AG_EC 4110). A. Profit Maximizing Principles B. Farm Planning C. Farm Records and Analysis D. Business Management E. Using Computers in Farm Management Decision Making. Basic principles of farm management. Applications of principles and subject matter in successful classroom presentation primarily for high school teachers. Course is offered in sections A-E as listed, for 2 hours each. Prerequisites:

Credit Hour: 2-10
Prerequisites: instructor’s consent. Recommended AG_EC 3260

Agricultural Education and Leadership (AG_ED_LD)

AG_ED_LD 1000: Orientation to Agricultural Education and Leadership
Overview of the discipline of agricultural education including: career opportunities, certification requirements, professional development, and current issues.

Credit Hour: 1

AG_ED_LD 2220: Verbal Communication in Agriculture, Food and Natural Resources
Application of verbal communication skills used in the dissemination of information related to agriculture, food, and natural resource topics. Acquisition of interpersonal communication skills and small group, impromptu and professional presentation skills.

Credit Hours: 3
Prerequisites: Restricted to College of Agriculture, Food and Natural Resources students only during Early Registration

AG_ED_LD 2250: Introduction to Leadership
Overview of basic leadership principles and theories, including, but not limited to: personal leadership development, characteristics of effective leaders, leadership styles, ethics as a leader and leadership obstacles.
**AG_ED_LD 2260: Team and Organizational Leadership**
Principles and practices in planning, developing, conducting, and evaluating leadership programs for agricultural groups. The course focuses on helping students better understand themselves and others, improving group communications; becoming effective leaders and members of groups; improving leadership and personal development skills; assessing leadership situations, determining and administering appropriate leadership strategies, and evaluating results.

**Credit Hours:** 3

---

**AG_ED_LD 2260W: Team and Organizational Leadership - Writing Intensive**
Principles and practices in planning, developing, conducting, and evaluating leadership programs for agricultural groups. The course focuses on helping students better understand themselves and others, improving group communications; becoming effective leaders and members of groups; improving leadership and personal development skills; assessing leadership situations, determining and administering appropriate leadership strategies, and evaluating results.

**Credit Hours:** 3

---

**AG_ED_LD 2270: Leadership Development in Youth Organizations**
This course focuses on how to develop leadership in youth through participation in a youth organization. In particular, this course explores youth development, how to develop leadership through youth organizations and their activities, and organizational structures.

**Credit Hours:** 3

---

**AG_ED_LD 2271: Early Field Experience**
This field experience is designed for students to explore the role of being a school-based agricultural educator. In particular, students will experience the total agricultural education program with a focus on youth organizations.

**Credit Hour:** 1

**Prerequisites:** AG_ED_LD 2270 or concurrent enrollment

---

**AG_ED_LD 3010: Leadership in Today's World**
Critically examines the leaders and leadership surrounding the greatest challenges to society today and in the future, while developing awareness and understanding of global and local issues in agriculture, democracy, civil society, business, and the environment. Course also focuses on fostering civil discourse and enhancing engagement. Graded on A-F basis only.

**Credit Hours:** 3

**Recommended:** RU_SOC 1000, AG_ED_LD 2250, or AG_ED_LD 2260

---

**AG_ED_LD 3085: Problems in Agricultural Education and Leadership**
Supervised and independent study of problems and issues in Agricultural Education and Leadership at the undergraduate level.

**Credit Hour:** 1-99

**Prerequisites:** instructor's consent

---

**AG_ED_LD 3320: Metal Fabrication and Laboratory Management**
Application of metal fabrication skills, including cutting, bending, and welding, using a variety of processes. Operations of hand tools and power equipment used in project construction. Also includes laboratory management, instructional strategies, and assessment techniques related to secondary agriculture programs. Prerequisites: Agriculture Education Majors Only

**Credit Hours:** 3

---

**AG_ED_LD 3776: Litton Leadership Scholars**
The Litton Leadership Scholars class focuses on developing students as leaders. Through leadership coursework, field-based mentorship and self-reflection, students will practice and develop exemplary leadership skills. Students will have an opportunity to spend time with industry leaders, expand their personal growth boundaries and develop their unique leadership style. Students will engage in an interview process to be selected for the Litton Leadership Scholars program. Graded on A-F basis only.

**Credit Hour:** 1-2

---

**AG_ED_LD 4001: Topics in Agricultural Education and Leadership**
Courses on specialized topics offered on a trial basis until the course has been assigned a course number.

**Credit Hour:** 1-3

---

**AG_ED_LD 4087: Internship Seminar in Agricultural Education and Leadership**
Seminar focused on the problems of practice and developing skills needed for a career in teaching agriculture at the secondary level. The core of the seminar is on coordinating experiential learning and leadership development activities, managing the complete program, and professional development.

**Credit Hours:** 3

**Corequisites:** AG_ED_LD 4995

---

**AG_ED_LD 4240: Leading Organizational and Community Change**
(cross-leveled with AG_ED_LD 7240). This course provides the diagnostic and strategic foundations for students to enact leadership in organizational and community contexts. Designed for undergraduate students and graduate-level professionals alike, this course increases a student's capacity to lead with or without authority, and with or without a formal organizational or political position. The course is based heavily on Heifetz's Adaptive Leadership theory, which challenges individuals to think beyond individual, role-based leadership skills and behaviors when enacting change in systems, such as organizations and communities.

**Credit Hours:** 3

**Recommended:** AG_ED_LD 2250 and AG_ED_LD 2260

---

**AG_ED_LD 4310: Intracurricular Program Management in Agricultural Education**
This course explores the philosophical foundations and current structures of secondary Agricultural Education Programs. Students will learn how to plan, supervise, and evaluate the intracurricular components within Agricultural Education programs.

**Credit Hours:** 3

**Prerequisites:** junior standing

</tbody>
</table>
AG_ED_LD 7340: Designing and Delivering Educational/Leadership Programs
Overview of theory and practice in communicating and facilitating adult and youth training/leadership programs in communities and organizations. Including: communicating program design, methods of communicating for different contexts, marketing programs, and evaluating programs.
Credit Hours: 3
Prerequisites: AG_ED_LD 2220 or equivalent

AG_ED_LD 7350: Inservice Course in Agricultural Education and Leadership
Professional development course which focuses on enhancing the technical, administrative, or management skills of agricultural educators.
Credit Hour: 1-99

AG_ED_LD 8080: Creative Component in Agricultural Education and Leadership
Independent original work that culminates in a scholarly project, document or presentation. Graded on S/U basis only.
Credit Hour: 1-3
Prerequisites: instructor's consent

AG_ED_LD 8085: Problems in Agricultural Education and Leadership
Credit Hour: 1-99
Prerequisites: instructor's consent

AG_ED_LD 8087: Seminar in Agricultural Education and Leadership
Seminar in Agricultural Education and Leadership.
Credit Hour: 1-99

AG_ED_LD 8090: Thesis Research in Agricultural Education and Leadership
Independent research activities by a master's student that culminates in a thesis. Graded on S/U basis only.
Credit Hour: 1-99
Prerequisites: instructor's consent

AG_ED_LD 8210: History and Leadership of the Land Grant University
Historical overview of the evolution and development of land-grant colleges. Students examine early public mandates and evaluate education, research, public service developments and new initiatives needed for Land Grant universities to effectively serve society.
Credit Hours: 2

AG_ED_LD 8250: Leadership Theory and Application
Survey of concepts, theories and practices of leadership, personal development and group dynamics. Exploration of leadership traits and models with a focus upon how they apply to Agricultural Education.
Credit Hours: 3

AG_ED_LD 8330: Advanced Methods of Teaching
Explores the principles and psychological aspects of teaching and learning; teaching strategies, methods, and techniques; evaluating student learning; motivating students; and personal teacher behaviors that influence learning.
Credit Hours: 3

AG_ED_LD 8340: Student and Teacher Development in Agricultural Education and Leadership
Examines planning and supervising career exploration, experiential learning, and leadership development activities of secondary agriculture students. The professional development of the secondary agriculture teacher is also examined.
Credit Hours: 3
Prerequisites: AG_ED_LD 4310 or equivalent

AG_ED_LD 8350: College Teaching of Agriculture, Food and Natural Resources
A course designed to assist current or future college faculty who wish to improve their teaching skills. Topics include theories, principles and practices associated with effective teaching and learning in higher education.
Credit Hours: 3

AG_ED_LD 8351: Induction Year Teaching I
Continuing education course for the professional development of first-year teachers of agriculture. The course focuses on the pedagogical knowledge, skills, and attitudes and managerial skills needed by beginning teachers of agriculture.
Credit Hour: 1-2
Prerequisites: AG_ED_LD 8351

AG_ED_LD 8352: Induction Year Teaching II
Continuing education course for the professional development of second-year teachers of agriculture. The course is a continuation of AG_ED_LD 8351 and focuses on the pedagogical knowledge, skills, and attitudes and managerial skills needed by beginning teachers of agriculture.
Credit Hour: 1-2
Prerequisites: AG_ED_LD 8351

AG_ED_LD 8410: Philosophical Foundations of Agricultural Education and Leadership
Overview of the history and philosophical development of agricultural education and leadership as a discipline. Philosophers, policy makers, movements, trends, and legislation that has influenced agricultural education. Current issues and future trends impacting the field. Graded on A-F basis only.
Credit Hour: 1-3

AG_ED_LD 8430: Evaluation of Educational Programs (same as RU_SOC 8430)
Examines program evaluation concepts, principles, and models; and identifies major steps in planning, conducting, and reporting results of evaluation objects.
Credit Hours: 3
AG_ED_LD 8510: Research Methods and Design
(same as RU_SOC 8510, AAE 8510). This course will give students a foundational understanding of quantitative research methods and design in the social and behavioral sciences. The main objective is to help students identify and formulate their own research questions and develop and implement a process for answering them. Students will examine the nature of the research process, explore the connection between theory and empirical research, identify viable research topics, critique published research, learn how to structure good arguments, understand the structure of research papers and proposals, plan and manage research activities, and become familiar with research ethics. Graded on A-F basis only.

Credit Hours: 3

Prerequisites: AG_ED_LD 8330 or AG_ED_LD 8350

AG_ED_LD 8330 or AG_ED_LD 8350

AG_ED_LD 8530: Grant Proposal Writing
Preparation of proposals designed to solicit grant funding to support teaching, research or outreach programs. Emphasis on proposal development, identifying funding sources, and proposal review processes.

Credit Hours: 2

AG_ED_LD 8540: Methods of Qualitative Research
(same as RU_SOC 8540). Overview of philosophies, approaches toward design, data collection, analysis and reporting of qualitative research.

Credit Hours: 3

AG_ED_LD 8995: College Teaching Practicum
Learning experience that combines the study, observation, and practice of teaching university-level courses in food, agriculture and/or natural resources under the supervision of teaching mentors. Graded on S/U basis only.

Credit Hours: 3

Prerequisites: instructor's consent and AG_ED_LD 8330 or AG_ED_LD 8350

AG_ED_LD 8995: College Teaching Practicum

AG_ED_LD 9090: Doctoral Research in Agricultural Education and Leadership
Independent research activities by a doctoral student that culminates in a dissertation or other scholarly work. Graded on S/U basis only.

Credit Hour: 1-99

Prerequisites: instructor's consent

AG_ED_LD 9090: Doctoral Research in Agricultural Education and Leadership

AG_ED_LD 9410: Foundations and Practices of Teacher Education
Foundations and practices of teacher preparation programs including student selection and advisement, licensure requirements, accreditation, curriculum, clinical and field experiences, supervision, evaluation and research.

Credit Hours: 3

Prerequisites: Doctoral student or instructor's consent

AG_ED_LD 9410: Foundations and Practices of Teacher Education

AG_ED_LD 9510: Data Collection, Analysis and Interpretation
(same as RU_SOC 9510). A quantitative methods course in measurement, data collection and analysis related to social and behavioral science research. An applied approach is taken on instrumentation and analyzing data using descriptive and inferential statistics. Practical skills in data manipulation using SPSS are developed. Graded on A-F basis only.

Credit Hours: 3

Prerequisites: AG_ED_LD 8510 or RU_SOC 8510 or instructor's consent

Agricultural Systems Management (AG_S_M)

AG_S_M 1020: Introduction to Agricultural Systems Management
Introductory course that acquaints students with the general technical areas of Agricultural Systems Management. A systematic problem-solving approach is applied to problems derived from each of the technical areas within Agricultural Systems Management.

Credit Hours: 3

AG_S_M 1020: Introduction to Agricultural Systems Management

AG_S_M 1040: Physical Principles for Agricultural Applications
Introductory survey course to help students: formulate problems; understand units/accuracy; learn basic definitions; understand simple machines, power transmission, fluid statics, electricity, heat-flow, and temperature/moisture relationships.

Credit Hours: 3

Prerequisites: MATH 1100

AG_S_M 1040: Physical Principles for Agricultural Applications

AG_S_M 2002: Topics in Agricultural Systems Management-Biological/Physical/Math
Current and new technical developments in agricultural systems management.

Credit Hours: 3

Prerequisites: Instructor's consent

Recommended: 6 hours in AG_S_M or instructor's consent

AG_S_M 2002: Topics in Agricultural Systems Management-Biological/Physical/Math

AG_S_M 2199: Seminar in Professional Development
This course is taught once a year in the Spring semester. The course explores the concept of what it means to be a professional in the field of Agricultural Systems Management. The course includes aspects of what it means to be a professional, such as resume writing, interviewing, finding a job, and building one's career. A second major aspect of the course is to explore the field of Agricultural Systems Management to gain a better understanding of various potential career paths available to students in Agricultural Systems Management. Graded on A-F basis only.

Credit Hour: 1

Prerequisites: ASM Freshman or Sophomores or instructor consent

Recommended: 6 hours in AG_S_M or instructor's consent

AG_S_M 2199: Seminar in Professional Development

AG_S_M 2220: Agricultural/Industrial Structures
A building science course looking at construction materials, structural component selection, ventilation, moisture control and energy use. Math reasoning proficiency course.

Credit Hours: 3

Prerequisites: MATH 1100

Recommended: AG_S_M 1040

AG_S_M 2220: Agricultural/Industrial Structures
AG_S_M 2320: Internal Combustion Power
Basic internal combustion engine principles, mechanisms, combustion cycles, fuels, fuel injection, electrical systems, engine testing.
Credit Hours: 3
Prerequisites: AG_S_M 1040

AG_S_M 2340: Pesticide Application Equipment
Principles of pesticide application; sprayer hydraulics and spray atomization; calibration, mixing calculations and compatibility of tank mixes; personal and environmental protection; pesticide labels and regulations. Students earn their private applicators license.
Credit Hours: 3
Prerequisites: MATH 1100
Recommended: AS_S_M 1040

AG_S_M 2345: Chemical Application Systems
Systems, components and operation practices used in the chemical application industry. Liquid and granular application systems and respective components will be studied along with procedures for minimizing drift, system calibration, recommended maintenance, and off-season storage procedures.
Credit Hour: 2-3
Prerequisites: MATH 1100 or equivalent

AG_S_M 2360: Fluid Power
Basic power hydraulic theory. Hydraulic systems, components and circuits. Math reasoning proficiency course.
Credit Hours: 3
Prerequisites: MATH 1100

AG_S_M 3350: Problems in Agricultural Systems Management
Supervised independent study at the undergraduate level.
Credit Hour: 1-5
Prerequisites: instructor's consent

AG_S_M 4020: Agricultural Safety and Health
Credit Hours: 3
Prerequisites: junior or senior standing or instructor's consent

AG_S_M 4140: Electricity: Wiring and Equipment
(cross-leveled with AG_S_M 7140). Home and agricultural electricity; emphasis on proper selection and use of electrical wiring materials and equipment. Basic electrical theory.
Credit Hours: 3
Prerequisites: MATH 1100

AG_S_M 4150: Biorenewable Systems Technology
Converting biorenewable resources into bioenergy and biobased products. Biorenewable concepts as they relate to drivers of change, feedstock production, processes, products, co-products, economics, transportation and logistics, and marketing.
Credit Hours: 3
Prerequisites: MATH 1100, CHEM 1100 and AG_EC 1041

AG_S_M 4220: Material Handling and Conditioning
(cross-leveled with AG_S_M 7220). Principles required for processing and handling food and feed materials; selection of machines; analysis and development of systems for processing and handling grain and bulk material.
Credit Hours: 3
Prerequisites: MATH 1100, AG_S_M 1040 and junior standing

AG_S_M 4225: Preservation of Grain Quality
Principles and management for grain quality preservation. Grain drying and grain storage. Psychrometrics. Fan and airflow. Grain handling methods and system planning. Grain quality measurement and end-use value analysis.
Credit Hours: 2
Prerequisites: MATH 1100. Recommended AG_S_M 1040 and AG_S_M 4220

AG_S_M 4320: Agricultural Equipment and Machinery
(cross-leveled with AG_S_M 7320). Operation of agricultural machinery. Selection and management of equipment.
Credit Hours: 3
Prerequisites: AG_S_M 1040

AG_S_M 4330: Principles for Food Processing
(same as F_S 4330; cross-leveled with AG_S_M 7330, F_S 7330). Introduction to basic engineering concepts used to process raw materials. Principle topics include energy and material balance, fluid flow, heat transfer, refrigeration and freezing, and preservation.
Credit Hours: 3
Prerequisites: MATH 1100, AG_S_M 1040 or PHYSCS 1210

AG_S_M 4350: Problems in Agricultural Systems Management
Supervised independent study at the undergraduate level.
Credit Hour: 1-5
Prerequisites: instructor's consent

AG_S_M 4360: Precision Agriculture Science and Technology
(same as PLNT_S 4360, SOIL 4360; cross-leveled with AG_S_M 7360, PLNT_S 7360, SOIL 7360). Precision agriculture is an information-based approach to farming whereby variability is managed to optimize crop production and reduce environmental pollution. This course provides an overview of precision agriculture technologies (like GIS, GPS, remote sensing), mapping methods, and case studies illustrating decisions and management.
Credit Hours: 3
Prerequisites: PLNT_S 2100 or SOIL 2100, or PLNT_S 2110
AG_S_M 4365: Machinery Management Using Precision Agriculture Technology
(cross-leveled with AG_S_M 7365). Planters, combines, fertilizer application equipment, and sprayer management along with GPS technologies are the focus of the course. One will learn how to manage these tools efficiently and accurately. Valuable precision agriculture management skills emphasized.

Credit Hours: 3
Prerequisites: MATH 1100
Recommended: AG_S_M 1040, and AG_S_M 4360 or PLNT_S 4360 or SOIL 4360

AG_S_M 4368: Profit Strategies Using Precision Agriculture Technology
(cross-leveled with AG_S_M 7368). Course begins with section on how to minimize errors while collecting spatial datasets. Datasets may include yield data, soil chemical and physical properties with real-time sensors, and soil nutrient data from grids or management zones. The course then continues with a section regarding data analytical techniques such as interpolation. The second half of the course will focus on writing prescriptions based on actual data obtained from industry leader experts. This portion of the course will integrate industry experts as well as hardware/software tools. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: AG_S_M 1040 and AG_S_M 4360 or PLNT_S 4360 or SOIL 4360

AG_S_M 4460: Irrigation and Drainage
(cross-leveled with AG_S_M 7460). Soil, water, plant relationships. Selection and layout of irrigation and drainage systems. Recommended: AG_S_M 1040

Credit Hours: 3
Prerequisites: MATH 1100 or higher

AG_S_M 4420: Surface Water Management
(cross-leveled with AG_S_M 7420). Topics include hydrology; soil erosion precautions; elementary surveying; selection and layout of ponds, terraces and water control structures.

Credit Hours: 3
Prerequisites: AG_S_M 4360

AG_S_M 4404: Irrigation and Drainage
(cross-leveled with AG_S_M 7460). Soil, water, plant relationships. Selection and layout of irrigation and drainage systems. Recommended: AG_S_M 1040

Credit Hours: 3
Prerequisites: MATH 1100

AG_S_M 4940: Agricultural Systems Management Internship
Combines study, observation, and employment with industry or government agency in an area of Agricultural Systems Management. A special problem / learning experience is selected by internship company representative, faculty problem advisor and student. Written and oral reports evaluated by faculty.

Credit Hour: 2-5
Prerequisites: Instructor's consent
Recommended: Sophomore standing and minor or major in Agricultural Systems Management

AG_S_M 4970: Agricultural Systems Management - Capstone
Capstone course required of Agricultural Systems Management majors. Team project involving extensive use of the students education, oral presentations and comprehensive written reports are required. Class experiences include but may not be limited to system selection and comparison, replacement and operating cost calculations, life cycle costing, and business feasibility analysis.

Credit Hours: 3
Prerequisites: Senior Standing

AG_S_M 4970W: Agricultural Systems Management - Capstone - Writing Intensive
Capstone course required of Agricultural Systems Management majors. Team project involving extensive use of the students education, oral presentations and comprehensive written reports are required. Class experiences include but may not be limited to system selection and comparison, replacement and operating cost calculations, life cycle costing, and business feasibility analysis.

Credit Hours: 3
Prerequisites: Senior Standing

AG_S_M 7001: Topics in Agricultural Systems Management
Initial offering of a course in a specific subject matter area related to Agricultural Systems Management. The course is offered when proposed by a faculty member in that area of expertise.

Credit Hours: 3

AG_S_M 7020: Agricultural Safety and Health
(cross-leveled with AG_S_M 4020). Analysis, organization and implementation of agriculture safety and health programs. Physical and...
economic impacts of accidents, standards and liabilities. Role of man in the man-machine system.

Credit Hours: 3

**AG_S_M 7085: Problems in Agricultural Systems Management**
Supervised individual study at the graduate level.

Credit Hour: 1-99

**AG_S_M 7140: Electricity: Wiring and Equipment**
(cross-leveled with AG_S_M 4140). Home and agricultural electricity; emphasis on proper selection and use of electrical wiring materials and equipment. Basic electrical theory.

Credit Hours: 3
Prerequisites: MATH 1100 and AG_S_M 1040

**AG_S_M 7220: Material Handling and Conditioning**
(cross-leveled with AG_S_M 4220). Principles required for processing and handling food and feed materials; selection of machines; analysis and development of systems for processing and handling grain and bulk materials.

Credit Hours: 3
Prerequisites: MATH 1100 and AG_S_M 1040

**AG_S_M 7320: Agricultural Equipment and Machinery**
(cross-leveled with AG_S_M 4320). Operation of agricultural machinery. Selection and management of equipment.

Credit Hours: 3
Prerequisites: AG_S_M 1040

**AG_S_M 7360: Precision Agriculture Science and Technology**
(same as PLNT_S 7360 and SOIL 7360; cross-leveled with AG_S_M 4360, PLNT_S 4360, SOIL 7360). Precision agriculture is an information-based approach to farming whereby variability is managed to optimize crop production and reduce environmental pollution. This course provides an overview of precision agriculture technologies (like GIS, GPS, remote sensing), mapping methods, and case studies illustrating decisions and management.

Credit Hours: 3
Prerequisites: SOIL 2100, PLNT_S 2110 or instructor's consent

**AG_S_M 7365: Machinery Management Using Precision Agriculture Technology**
(cross-leveled with AG_S_M 4365). This course focuses on agricultural equipment that is commonly used in conjunction with GPS technology. Planters, combines, fertilizer application equipment and sprayer application equipment are commonly equipped with GPS equipment to control and record operational parameters. These parameters focus around the equipments geographic location and can be recorded simultaneously with the volume of product applied and weather information (wind, temperature, humidity, etc.). GPS guidance is one of the main technologies to be studied throughout this course. The management of this equipment and the GPS technologies used to control and record this information is the focus of the course.

Credit Hours: 3
Recommended: AG_S_M 1040, and AG_S_M 4360 or PLNT_S 4360 or SOIL 4360

**AG_S_M 7366: Data Management and Analysis Using Precision Agriculture Technology**
(cross-leveled with AG_S_M 4366). Course begins with a section on how to minimize errors while collecting spatial datasets. Datasets may include yield data, soil chemical and physical properties with real-time sensors, and soil nutrient data from grids or management zones. The course then continues with a section regarding data analytical techniques such as interpolation. The second half of the course will focus on writing prescriptions based on actual data obtained from industry leader experts. This portion of the course will integrate industry experts as well as hardware/software tools. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: AG_S_M 1040 and AG_S_M 7360 or equivalent

**AG_S_M 7368: Profit Strategies Using Precision Agriculture Technology**
(cross-leveled with AG_S_M 4368). Course begins with section on how Precision Agriculture Technology can be used to benefit a farm's financial sustainability. Discussion of various types of farm operations and currently available Precision Agriculture Technology that is already developed and in use will be examined. The course continues by considering cost factors that create barriers for farm operators to adopt Precision Agriculture. The second half of the course will focus on developing a plan to implement various technologies into an existing farm operation and draft a business plan for cost, equipment, and transition the farm into using the following types of technologies, GPS, GIS, VRA, RS, RTK and other types of tracking and monitoring systems. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: AG_S_M 4360 or PLNT_S 4360 or SOIL 4360 or instructor consent, or equivalent

**AG_S_M 7370: In-Service Course Agriculture Systems Management-Farm Power and Machinery**
A. Farm Power and Machinery B. Farm Buildings and Conveniences C. Soil and Water Management D. Rural Electrification and Processing E. Agricultural Construction and Maintenance Basic principles relating to agricultural systems management. Applies principles and subject matter in successful classroom presentation at the high school level.

Credit Hour: 1-8
Prerequisites: 10 credits from Agricultural Systems Management courses; a B.S. degree in Agriculture or instructor's consent

**AG_S_M 7390: Optimization and Management of Food and Agriculture Systems**
(same as F_S 7390, HSP_MGMT 7390; cross-leveled with AG_S_M 4390, F_S 4390, HSP_MGMT 4390). This course is designed to introduce the student to the concept of layers and interacting systems within an operation and the analytical methods of modeling and simulation to make effective management decisions for optimal system design and function.

Credit Hours: 3
Prerequisites: instructor's consent
AG_S_M 7420: Surface Water Management
(cross-leveled with AG_S_M 4420). Topics include hydrology; soil erosion precautions; elementary surveying; selection and layout of ponds, terraces and water control structures.

Credit Hours: 3
Prerequisites: MATH 1100

AG_S_M 7440: Water Quality and Pollution Control
(cross-leveled with AG_S_M 4440). Applies scientific principles to a variety of water quality problems arising from activities associated with nonpoint pollution, agricultural chemicals, land disposal of wastes, on-site sewage disposal and individual drinking water systems.

Credit Hours: 3
Prerequisites: MATH 1100

AG_S_M 7460: Irrigation and Drainage
(cross-leveled with AG_S_M 4460). Soil, water, plant relationships. Selection and layout of irrigation and drainage systems.

Credit Hours: 3
Prerequisites: AG_S_M 4420 or instructor's consent

AG_S_M 8085: Problems in Agricultural Systems Management
Supervised individual study at the graduate level.

Credit Hours: 3

AG_S_M 8090: Thesis Research in Agricultural Systems Management
Independent investigation to be presented as a thesis. Graded on a S/U basis only.

Credit Hour: 1-99
Prerequisites: instructor's consent

AG_S_M 8340: Agricultural Mechanization Systems

Credit Hours: 3

AG_S_M 8360: Internet of Things for Precision Agriculture Technology
Wireless sensor network and communication technologies of precision agriculture systems (tractors, sprayers, combines, trucks, and field equipment) establishing real-time cloud synchronization of data. Evaluation of big data (spatial, economics, environmental, imagery) and how statistical tools can be used to analyze this information.

Credit Hours: 3
Prerequisites: AG_S_M 4360, AG_S_M 7360

Agriculture, Food and Natural Resources (AFNR)

AFNR 1115: Foundations for College Success
An investigation of principles and practices associated with academic success and the interpersonal challenges encountered in collegiate life. Learning preferences, time investment, study skills, degree requirements, and personal development opportunities available in the College and across campus are explored. Graded on A-F basis only.

Credit Hour: 1
Prerequisites: Instructor's consent

AFNR 1120: Computing and Information Technology
Provides students with a basic understanding of computer usage, electronic communications and use of the internet. Topics include understanding of operating systems, word processing, and presentation media.

Credit Hours: 2
Prerequisites: Restricted to freshmen and sophomores

AFNR 2115: College to Career: Strategies for Success
Systematic approach to self-assessment, career research and exploration, goal-setting and implementation of a career development plan. Students will learn specific skills, research knowledge and lifelong career management techniques.

Credit Hour: 1

AFNR 2120: Working with Data Using Excel
Provide students with a basic understanding of computer usage and spreadsheet applications.

Credit Hour: 1

AFNR 2190: International Agriculture and Natural Resources
This course is designed to provide students with an introduction into the agriculture/natural resources of the host country. Activities may include course work at an international institution, professional and personal development and special projects. Selected sections of this course may be graded either on A-F or S/U basis only.

Credit Hour: 1-15
Prerequisites: instructor's consent

AFNR 2191: International Agriculture and Natural Resources - Humanities
This course is designed to provide students with an introduction to valuing and appreciating the culture and philosophy entrenched in the host country's civilization through the examination of its arts, culture, language and history. May be repeated for credit. Selected sections of the course may be offered on A-F or S/U basis only.

Credit Hour: 1-6
Prerequisites: Instructor's consent

AFNR 2191W: International Agriculture and Natural Resources - Humanities - Writing Intensive
This course is designed to provide students with an introduction to valuing and appreciating the culture and philosophy entrenched in the host country's civilization through the examination of its arts, culture, language and history. May be repeated for credit. Selected sections of the course may be offered on A-F or S/U basis only.

Credit Hour: 1-6
Prerequisites: Instructor's consent

AFNR 2191: International Agriculture and Natural Resources - Humanities
This course is designed to provide students with an introduction to valuing and appreciating the culture and philosophy entrenched in the host country's civilization through the examination of its arts, culture, language and history. May be repeated for credit. Selected sections of the course may be offered on A-F or S/U basis only.

Credit Hour: 1-6
Prerequisites: Instructor's consent
AFNR 2192: International Agriculture/Natural Resources-Social Science
This course is designed to provide students with an examination of the social sciences of the host country; including the sociology, psychology, economics, government, and history of the country; including the dynamics of urban and rural communities. May be repeated for credit. Selected sections of this course may be graded either on A-F or S/U basis only.
Credit Hour: 1-6
Prerequisites: instructor's consent

AFNR 2215: Introduction to the Theory and Practice of Sustainable Agriculture
This experiential course provides an overview of the theoretical and practical principles of sustainable agriculture by exploring the holistic nature of sustainable agriculture, and analyzing agriculture systems based on their impact on the environment, economy and community.
Credit Hours: 3

AFNR 3215: Community Food Systems
This course focuses on essential concepts in the research, implementation and understanding of food systems, with topics ranging from micro-level local, community and regional food systems to macro-level global trends in food production and distribution. Students examine the social, economic and health implications of conventional and alternative food systems as well as specific U.S. policies and programs relevant to our present food systems. Particular focus is on the growing proliferation of alternative marketing schemes, food sovereignty issues, and the relationships between community food systems, and contemporary health and nutritional issues.
Credit Hours: 3
Recommended: AFNR 2215

AFNR 3315: Advanced Practices in Sustainable Agriculture
Course furthers students' understanding of sustainable production systems with an emphasis on stewarding natural resources (soil, water, biodiversity and energy) while maintaining and economically profitable enterprise that provides for a good quality of life.
Credit Hours: 3
Recommended: AFNR 2215; SOIL 2100

AFNR 4001: Topics in Agriculture-General
Topics in Agriculture-General
Credit Hour: 1-99

AFNR 4972: Capstone Project in Agriculture, Food and Natural Resources
A culminating learning experience focused on student's area of concentration that requires the application of knowledge and skills taught in the undergraduate curriculum. The capstone project comprises independent, original work culminating in a scholarly project, written document, and/or presentation. Graded on S/U basis only.
Credit Hour: 1-3
Prerequisites: instructor's consent
Recommended: junior or senior standing

AFNR 4993: Internship in Agriculture, Food and Natural Resources
Field-based learning experience combining the study, observation, and employment with a business, organization, or governmental agency. The internship provides opportunities to apply skills, concepts and theories about agriculture, food and natural resources in a practical context. The student intern, internship supervisor, and university coordinator will develop an individualized internship plan. May be repeated for credit. Some sections may be graded on either an A-F or S/U basis only.
Credit Hour: 1-6
Prerequisites: Instructor's consent
Recommended: junior or senior standing

AFNR 7190: International Agriculture/Natural Resources
This course is designed to provide students with an introduction into the agriculture/natural resources of the host country. Activities may include course work at an international institution, professional and personal development and special projects. Selected sections of the course may be offered on A-F or S/U basis only.
Credit Hour: 1-6
Prerequisites: advisor and instructor's consent

Anesthesiology (ANESTH)

ANESTH 6203: ABS Anesthesiology Research
ABS Anesthesiology Research
Credit Hour: 5-10

ANESTH 6205: ABS Anesthesiology Research and Review
ABS Anesthesiology Research and Review
Credit Hour: 5-10

ANESTH 6400: Anesthesiology
Goals/Objectives: The goals are providing students with opportunities to: 1. Understand the anesthetic state (e.g. the inability of a person to protect themselves from the environment; concomitant and common depression of other systems of the body other than the nervous system). 2. Learn how to think and react quickly and correctly in times of stress. 3. Develop knowledge and skill at maintaining artificial ventilation and circulation. 4. Develop technical skills (e.g. insertion of endotracheal tubes, intravenous catheters). 5. Understand the rationale behind the choice of an anesthetic agent or technique. 6. Learn the function of an anesthesiologist as a perioperative physician and pain consultant. 7. Learn about the specialty of anesthesiology as a possible future career.
Notes: Curriculum: Direct participation in anesthetic evaluation and administration for surgical procedures is combined with close individual supervision. Attendance at weekly teaching conferences is expected. Each student will follow a patient pre, intra, and post operatively and write a case presentation. Interblock: First consideration given to students interested in anesthesiology as a career choice; honors considered only with documentation of participation and completion of a research project related to anesthesiology. Evaluations: Evaluations are compiled from daily encounter cards completed by anesthesiology providers, a written paper that discusses one patient's anesthetic, and a 50 question written examination at the end of the rotation.
ANESTH 6927: Anesthesiology Two-Week
Through daily participation, students will gain insight into the specialty of anesthesiology and will develop an appreciation for the integration of basic science knowledge (especially anatomy, physiology, and pharmacology) in the clinical care of patients.

Credit Hours: 5
Prerequisites: successful completion of the first two years of medical school

Animal Science (AN_SCI)

AN_SCI 1001: Topics in Animal Science
Various courses offered on a preliminary basis to determine need for such offering prior to submission as a numbered course. Various topics, credit arranged. There may be prerequisites enforced depending on the topic.

Credit Hour: 1-4

AN_SCI 1010: Orientation to Animal Sciences
This course is designed to introduce students to the field of animal sciences, opportunities within this field, and an array of campus resources. Graded on A-F basis only.

Credit Hour: 1
Prerequisites: Restricted to Animal Sciences majors or consent required

AN_SCI 1011: Introduction to Animal Sciences
An introductory course for non animal sciences majors discussing the principles of animal sciences including the importance of animal agriculture, genetics, anatomy, physiology and nutrition.

Credit Hours: 3

AN_SCI 1011H: Animal Science - Honors
Principles of animal science including importance of animal agriculture, genetics, anatomy, physiology and nutrition.

Credit Hours: 3
Prerequisites: Honors eligibility required

AN_SCI 1012: Introduction to Captive Wild Animal Management
(same as F_W 1012). General introduction to housing, husbandry, behavior, genetics, nutrition, reproduction, animal health, and disease control of native and exotic species in zoological parks and other animal conservation facilities; emphasizes the role of captive animals in wildlife conservation. Graded on A-F basis only.

Credit Hours: 3

AN_SCI 1013: Biotechnology in Animal Agriculture
Concepts, discoveries, and applications of biotechnology ranging from the discovery of brewing and baking to animal cloning and genetic engineering are covered. Students will acquire a foundation to understand how biotechnology affects agriculture and our everyday lives. Graded on A-F basis only.

Credit Hours: 3

AN_SCI 1164: Biology of Animal Production I
This is an introductory course; a companion to Biology of Animal Production II. The overall intent of the courses is to provide an introduction to modern livestock production systems with emphasis on fundamental biological principles and their application in management of production animals. Key disciplines include genetics, nutrition, reproduction, physiology, health and behavior. This course is for non-Animal Sciences majors. No credit may be earned if taken after AN_SCI 1165. Graded on A-F basis only.

Credit Hours: 3

AN_SCI 1165: Biology of Animal Production I with Laboratory
This is an introductory course; a companion to Biology of Animal Production II. The overall intent of the courses is to provide an introduction to modern livestock production systems with emphasis on fundamental biological principles and their application in management of production animals. Key disciplines include genetics, nutrition, reproduction, physiology, health and behavior. The laboratory section of the course will provide hands on experience with livestock. Only 1 credit may be earned if taken after AN_SCI 1164. Graded on A-F basis only.

Credit Hours: 4
Prerequisites: This course is restricted to Animal Sciences students or requires consent

AN_SCI 1175: Biology of Animal Production II
This is an introductory course; a companion to Biology of Animal Production I. The overall intent of the courses is to provide an introduction to modern livestock production systems with emphasis on fundamental biological principles and their application in management of production animals. Key disciplines include genetics, nutrition, reproduction, physiology, health and behavior. The laboratory section of the course will provide hands on experience with livestock. Graded on A-F basis only.

Credit Hour: 3-4
Prerequisites: The section with a lab (4 credits) is restricted to Animal Sciences students or requires consent. The section without a lab (3 credits) is open to all majors

AN_SCI 2001: Topics in Animal Science
Various courses offered on a preliminary basis to determine need for such offering prior to submission as a numbered course. Various topics, credit arranged. There may be prerequisites enforced depending on the topic.

Credit Hour: 1-4

AN_SCI 2010: Careers in Animal Sciences
This course is designed to explore the breadth and depth of careers in animal sciences. Students will develop a professional resume, practice interviewing skills, and assess the value of a job offer. Graded on A-F basis only.

Credit Hour: 1
Prerequisites: Restricted to Animal Sciences majors or consent required
AN_SCI 2045: Equine Practicum
Focus on learning hands-on equine skills through the care of horses at the university's equine facility. Experiential learning is emphasized. Skills include: how to identify the general health and well-being of horses, recognize early onset of illness or lameness, understand basic feeding, housing, and daily care, and demonstrate the ability to handle and feed horses in a safe manner. Monthly meetings, scheduled feed shifts, monthly journals, required skill assessments, and attendance at various educational activities are required. Feed shift scheduling is determined around individual availability and no equine or animal experience is required. To enroll, students should contact the instructor for an application. Graded on A-F basis only.

Credit Hour: 1-2
Prerequisites: Instructor consent required
Recommended: AN_SCI 1001 or AN_SCI 1065 or AN_SCI 1175 or AN_SCI 2175

AN_SCI 2085: Problems in Animal Science
Library and laboratory study of assigned problems in animal breeding, nutrition, physiology or production and management. Planning, conduction and reporting to be in consultation with instructor.

Credit Hour: 1-5
Prerequisites: instructor's consent

AN_SCI 2095: Equine Behavior and Training
Students learn the psychology and ethology of equine behavior and how it relates to training. The use and proper fitting of equipment is taught and students learn to teach horses to perform the basic movements needed prior to advancing to specialized training. Cannot be taken at the same time as AN_SCI 2195. Enrollment is limited to students who have completed AN_SCI 1065, AN_SCI 1001, or AN_SCI 1175.

Credit Hour: 3
Prerequisites: Instructor's consent

AN_SCI 2105: Global Animal Agriculture
Animal Agriculture as influenced globally by political, religious cultural, economic and climatic factors.

Credit Hour: 2
Prerequisites: sophomore standing

AN_SCI 2110: Global Animal Agriculture
Animal Agriculture as influenced globally by political, religious cultural, economic and climatic factors.

Credit Hour: 2
Prerequisites: sophomore standing

AN_SCI 2111: Sophomore Seminar: Societal Issues Facing Animal Agriculture
Course designed to introduce students to key issues facing animal agriculture. Assignments focus on reading current publications associated with issues affecting the animal agriculture industry. Graded on A-F basis only.

Credit Hour: 3
Prerequisites: ENGLISH 1000

AN_SCI 2111W: Sophomore Seminar: Societal Issues Facing Animal Agriculture - Writing Intensive
Course designed to introduce students to key issues facing animal agriculture. Assignments focus on reading current publications associated with issues affecting the animal agriculture industry. Graded on A-F basis only.

Credit Hour: 3
Prerequisites: ENGLISH 1000

AN_SCI 2115: Livestock Judging
Comparative judging and evaluation; various classes of farm animals; particular reference to utility. Reference reading; illustrated lectures.

Credit Hours: 3
Prerequisites: Instructor's consent required

AN_SCI 2131: Dairy Products Evaluation
(same as F_S 2131) Sensory Evaluation and judging of dairy products.

Credit Hours: 2

AN_SCI 2140: Companion Animals
(same as BIOMED 2140). Companion animals form an important part of our society. They serve us, provide companionship and many become members of our families. This class focuses primarily on dogs, cats, and horses. Topics covered include: the pet industry, breeds, wellness, management, care, training, zoonotic diseases, evolution and domestication, toxicology, nutrition, reproduction, genetics, human animal interactions, companion animal enterprise, and biomedical research. Students may enroll in one of two sections: service learning section or traditional course section.

Credit Hours: 3
Recommended: sophomore standing

AN_SCI 2155: Animal Welfare
This course is designed to explore the variety of products that humans derive from animals for nutrition, fiber, and health and includes a laboratory session that promotes the working knowledge of methods for measuring animal product quality. Students will also assess factors related to consumer demand that influence the value of animal products. Graded on A-F basis only.

Credit Hours: 4
Prerequisites: Restricted to Animal Sciences majors or instructor's consent

AN_SCI 2195: Equine Facility Management and Marketing
Focuses on learning equine facility management through student care and management of the University's equine facility and breeding herd. Students also learn handling techniques for a wide variety of horses and gain experience in general equine facility maintenance. Students will be responsible for marketing horses sold in the annual MU online horse auction. Cannot be taken at the same time as AN_SCI 2095. Enrollment is limited to students with Sophomore standing or higher. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: Instructor's consent

AN_SCI 2214: Animal Products and Biotechnology
This course is designed to introduce students to key issues facing animal agriculture. Assignments focus on reading current publications associated with issues affecting the animal agriculture industry. Graded on A-F basis only.

Credit Hour: 1-4

AN_SCI 2215: Livestock Judging
Comparative judging and evaluation; various classes of farm animals; particular reference to utility. Reference reading; illustrated lectures.

Credit Hours: 3
Prerequisites: Instructor's consent required

AN_SCI 2311: Dairy Products Evaluation
(same as F_S 2131) Sensory Evaluation and judging of dairy products.

Credit Hours: 2

AN_SCI 3001: Topics in Animal Science
Various courses offered on a preliminary basis to determine need for such offering prior to submission as a numbered course. Various topics, credit arranged. There may be prerequisites enforced depending on the topic.

Credit Hour: 1-4
**AN_SCI 3010: Graduate Experience Program**
This course is designed to give undergraduates insight into the graduate student experience and to provide background knowledge in the various aspects of graduate level research as well as the application process for graduate school.

**Credit Hour:** 1  
**Prerequisites:** Consent required

**AN_SCI 3085: Problems in Animal Science**
Current problems in animal breeding, nutrition, livestock production and management, meats. Assigned topics. In some cases student may undertake a project by outlining objectives, planning work, keeping records and summarizing results in written report. Some sections may be graded either on S/U or A-F basis only.

**Credit Hours:** 1-6  
**Prerequisites:** instructor's consent

**AN_SCI 3085W: Problems in Animal Science - Writing Intensive**
Current problems in animal breeding, nutrition, livestock production and management, meats. Assigned topics. In some cases student may undertake a project by outlining objectives, planning work, keeping records and summarizing results in written report. Some sections may be graded either on S/U or A-F basis only.

**Credit Hours:** 1-6  
**Prerequisites:** instructor's consent

**AN_SCI 3190: Study Abroad: International Meat, Dairy and Enology**  
(same as F_S 3190). This study abroad course introduces students to the meat, dairy and wine industries in Germany or in New Zealand (destinations are on a rotational basis). Students will visit small, medium and large-scale producers and learn about differences in comparisons to the US industries. May be repeated once for credit.

**Credit Hours:** 3  
**Prerequisites:** instructor's consent

**AN_SCI 3213: Genetics of Agricultural Plants and Animals**  
(same as PLNT_S 3213). Concepts of molecular, transmission, and population and quantitative genetics. Special emphasis given to breeding and biotechnological applications in plant and animal agriculture.  
Prerequisites: MATH 1100 or higher and one of the following: BIO_SC 1100 or BIO_SC 1200 or BIO_SC 1500 or FW 1100.

**Credit Hours:** 3  
**Prerequisites:** instructor's consent

**AN_SCI 3214: Principles of Meat Science**  
(same as F_S 3214). Study of the principles involved in the conversion of living animals to meat and by-products; efficient utilization of meat as a food.

**Credit Hours:** 3  
**Recommended:** one course in Biology

**AN_SCI 3211: Principles of Dairy Foods Science**  
(same as F_S 3231). Technology, chemistry and microbiology related to milk and its transformation into fluid milk products, fermented dairy foods and spreads. (2 hours of lecture and two hours of laboratory per week.)

**Credit Hours:** 3  
**Recommended:** One course in Chemistry or Biological Sciences

**AN_SCI 3242: Principles and Applications of Animal Nutrition**
Fundamentals of animal nutrition, including digestion, absorption, metabolism, and function of nutrients; nutrient and energy requirements; feedstuffs used in livestock and companion animal nutrition; and integration of these principles with nutrition-based calculations to make nutritional management decisions. Graded on A-F basis only.

**Credit Hours:** 4  
**Prerequisites:** MATH 1100 or higher, CHEM 1320 or higher, Sophomore standing or higher

**AN_SCI 3254: Physiology of Domestic Animals**
Course covers basic concepts of physiology and anatomy in vertebrate animals.

**Credit Hours:** 4-5  
**Prerequisites:** BIO_SC 1100 or BIO_SCI 1500 or F_W 1100; CHEM 1320. 5 credit section (with lab) is restricted to Animal Sciences majors. 4 credit section (lecture and discussion) is open to all majors

**Recommended:** CHEM 1330; CHEM 2030 or CHEM 2100

**AN_SCI 3254H: Physiology of Domestic Animals - Honors**
Course covers basic concepts of physiology and anatomy in vertebrate animals.

**Credit Hours:** 4-5  
**Prerequisites:** BIO_SC 1100 or BIO_SCI 1500 or F_W 1100; CHEM 1320; Honors eligibility required. 5 credit section (with lab) is restricted to Animal Sciences majors. 4 credit section (lecture and discussion) is open to all majors

**Recommended:** CHEM 1330; CHEM 2030 or CHEM 2100

**AN_SCI 3264: Physiology of Domestic Animals II**
Advanced study of selected topics and systems in domestic animal physiology. Graded on A-F basis only.

**Credit Hours:** 3  
**Prerequisites or Corequisites:** AN_SCI 3254 or BIO_SCI 3700 or MPP 3202 or equivalent physiology course

**Recommended:** Foundational courses in biology and chemistry

**AN_SCI 3275: Meat Animal Evaluation**
Meat animal evaluation highlights the relationships and limitations that exist when evaluating market and breeding animals and develops an appreciation for carcass excellence as it relates to production, merchandising and consumption. Some travel time and commitments will be necessary.

**Credit Hours:** 2  
**Prerequisites:** Instructor's consent

**AN_SCI 4001: Topics in Animal Science**
Various courses offered on a preliminary basis to determine need for such offering prior to submission as a numbered course. Various topics, credit arranged.

**Credit Hour:** 1-4  
**Prerequisites:** instructor's consent
AN_SCI 4001W: Topics in Animal Science - Writing Intensive
Various courses offered on a preliminary basis to determine need for such offering prior to submission as a numbered course. Various topics, credit arranged.

Credit Hours: 1-4
Prerequisites: instructor's consent

AN_SCI 4012: Elements of Experimental Surgery
(cross-leveled with AN_SCI 7012). This course implements the basics of surgery techniques as well as the laws and regulations governing the privilege of using vertebrate animals in research. Consideration for enrollment will be given first to graduate students. Graded on S/U basis only.

Credit Hours: 1
Prerequisites: Instructor's consent

AN_SCI 4312: Monogastric Nutrition
(same as NEP 4020; cross-leveled with AN_SCI 7312 and NUTRIT 7020). Principles of nutrition, feed formulation and recent research in poultry feeding. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: AN_SCI 3212 or PLNT_S 3213 or BIO_SCI 2200 or F_W 2500

AN_SCI 4314: Physiology of Reproduction
(cross-leveled with AN_SCI 7314). Principles of animal reproduction with emphasis on endocrine control of reproductive processes.

Credit Hours: 3
Prerequisites or Corequisites: AN_SCI 3254 or MPP 3202 or BIO_SCI 3700

AN_SCI 4314H: Physiology of Reproduction - Honors
Principles of animal reproduction with emphasis on endocrine control of reproductive processes.

Credit Hours: 3
Prerequisites or Corequisites: AN_SCI 3254 or MPP 3202 or BIO_SCI 3700. Honors eligibility required

AN_SCI 4323: Applied Livestock Genetics
(cross-leveled with AN_SCI 7323). Genetic principles applied to improvement of farm animals. Covers selection, prediction of genetic merit and mating systems. Math Reasoning Proficiency Course.

Credit Hours: 2
Prerequisites or Corequisites: AN_SCI 3213 or PLNT_S 3213 or BIO_SCI 2200 or F_W 2500
Prerequisites: MATH 1100

AN_SCI 4324: Genomics of Plants and Animals
(cross-leveled with AN_SCI 7324). Analysis of organisms at the level of the complete genome sequence. Covers genome sequencing, assembly and annotation, as well as functional, evolutionary and computational genomics.

Credit Hours: 2
Recommended: BIO_SCI 1010, BIO_SCI 1020 or BIO_SCI 1500, MATH 1100, AN_SCI 3213/PLNT_S 3213 or equivalent

AN_SCI 4332: Ruminant Nutrition
(cross-leveled with AN_SCI 7332). Physiology, chemistry, microbiology and pathology of ruminants. Emphasizes the digestion, absorption, metabolism and utilization of nutrients.

Credit Hours: 3
Prerequisites: AN_SCI 3001 or AN_SCI 3212 or AN_SCI 3242

AN_SCI 4348: Reproductive Management
(cross-leveled with AN_SCI 7348). Reproductive management of cattle, swine and sheep; estrous synchronization; artificial insemination; embryo development and transfer; assisted reproductive technologies. Enrollment is restricted to students with Senior standing and have completed or currently enrolled in AN_SCI 4314.

Credit Hours: 3
Prerequisites: AN_SCI 3254 or MPP 3202 or BIO_SCI 3700; AN_SCI 2001 or AN_SCI 2214 or AN_SCI 2114 or AN_SCI 3214 or F_S 3214 or AN_SCI 3231 or F_S 3231

AN_SCI 4384: Reproductive Management
This online course will provide a general understanding of internal and external stress conditions that animals face throughout life. Since stress physiology can be expanded into many far-reaching and different areas, we will focus on specific topics that have a historical background and, at the same time, are pertinent in today's world. We will examine basic concepts of how stressors are received by the body and how it responds in both healthy and pathological situations. You will be able to relate many of the situations discussed in class to life events. In the end,
you will acquire a better understanding of external, environmental and internal stressors and why we need some of them for normal growth and development. Finally, you will learn to apply concepts gained in this class to actual research presented in the scientific literature, and apply this ability to real-world scenarios in the future.

**Credit Hours:** 3
**Prerequisites:** AN_SCI 3254, MPP 3202, or BIO_SC 3700

**AN_SCI 4910:** Senior Seminar in Captive Wild Animal Management
(same as F_W 4910). Investigates key issues in captive wild animal management, focusing on the role of animal caretakers in addressing the issues. Students are required to formulate informed opinions regarding these topics and communicate effectively about the subject matter. Graded A-F only.

**Credit Hour:** 1
**Prerequisites:** AN_SCI 1012 or F_W 1012 or instructor's consent; junior or senior standing

**AN_SCI 4940:** Internship in Animal Science & Technology
Off-campus training to develop technical skills and understanding of an area of animal science. Written reports required. Graded on an S/U basis only.

**Credit Hour:** 1-12
**Prerequisites:** instructor's consent

**AN_SCI 4950:** Undergraduate Research in Animal Science
Individually directed field or laboratory research culminating in a poster or oral presentation for upper-class students under faculty supervision.

**Credit Hour:** 1-3
**Prerequisites:** At least sophomore standing or instructor's consent

**AN_SCI 4973:** Molecular and Cellular Techniques in Animal Science
A directed research project that employs current molecular and cellular technologies. Students will generate experimental data, analyze the data and draft a research report in the format of a scientific paper.

**Credit Hours:** 4
**Prerequisites:** instructor's consent
**Recommended:** an introductory course in biology and a course in organic chemistry, at least junior standing

**AN_SCI 4975:** Beef Production and Management
(cross-leveled with AN_SCI 7975). Systems of beef production: breeding, feeding, management of commercial and purebred beef cattle.

**Credit Hours:** 3
**Prerequisites:** AN_SCI 1001 or AN_SCI 1065 and AN_SCI 2165; AN_SCI 3001 or AN_SCI 3212 or AN_SCI 3242; AN_SCI 3254 or MPP 3202 or BIO_SC 3700; AN_SCI 3213
**Recommended:** AN_SCI 4314

**AN_SCI 4975W:** Beef Production and Management - Writing Intensive
(cross-leveled with AN_SCI 7975). Systems of beef production: breeding, feeding, management of commercial and purebred beef cattle. Recommended: AN_SCI 4314

**Credit Hours:** 3

**AN_SCI 4976:** Dairy Production
(cross-leveled with AN_SCI 7976). Applied dairy science; emphasis on nutrition and management; herd health, labor-saving equipment, buildings, quality products, organization of dairy enterprise, business and economic aspects.

**Credit Hours:** 3
**Prerequisites:** AN_SCI 1065 and AN_SCI 2165, or AN_SCI 1065 and AN_SCI 1001, or AN_SCI 1065 and AN_SCI 1165, or AN_SCI 1165, or AN_SCI 1001; AN_SCI 3212 and AN_SCI 3232, or AN_SCI 3001, or AN_SCI 3242; or instructor's consent

**AN_SCI 4976W:** Dairy Production - Writing Intensive
(cross-leveled with AN_SCI 7976). Applied dairy science; emphasis on nutrition and management; herd health, labor-saving equipment, buildings, quality products, organization of dairy enterprise, business and economic aspects.

**Credit Hours:** 3
**Prerequisites:** AN_SCI 1065 and AN_SCI 2165, or AN_SCI 1065 and AN_SCI 1001, or AN_SCI 1065 and AN_SCI 1165, or AN_SCI 1165; AN_SCI 3212 and AN_SCI 3232, or AN_SCI 3001, or AN_SCI 3242; or instructor's consent

**AN_SCI 4977:** Horse Production
(cross-leveled with AN_SCI 7977). Systems of horse production: breeding, feeding and management of horses.

**Credit Hours:** 3
**Prerequisites:** AN_SCI 1001 or AN_SCI 1175 or AN_SCI 1065 and AN_SCI 2175; AN_SCI 3001 or AN_SCI 3212 or AN_SCI 3242 or instructor's consent

**AN_SCI 4978:** Swine Production
(cross-leveled with AN_SCI 7978). Systems of pork production: breeding, feeding, management of commercial and purebred swine.

**Credit Hours:** 3
**Prerequisites or Corequisites:** AN_SCI 3212 or AN_SCI 3242 or AN_SCI 3001 or instructor's consent
**Prerequisites:** AN_SCI 1065 and AN_SCI 2175, or AN_SCI 1065 and AN_SCI 1001, or AN_SCI 1065 and AN_SCI 1175, or AN_SCI 1001, or AN_SCI 1175, or instructor's consent
**Recommended:** AN_SCI 4314 and AN_SCI 3213

**AN_SCI 4978W:** Swine Production - Writing Intensive
Systems of pork production: breeding, feeding, management of commercial and purebred swine.

**Credit Hours:** 3
**Prerequisites or Corequisites:** AN_SCI 3212 or AN_SCI 3242 or AN_SCI 3001 or instructor's consent
**Prerequisites:** AN_SCI 1065 and AN_SCI 2175, or AN_SCI 1065 and AN_SCI 1001, or AN_SCI 1065 and AN_SCI 1175, or AN_SCI 1001, or AN_SCI 1175, or instructor's consent
**Recommended:** AN_SCI 4314 and AN_SCI 3213
AN_SCI 4979: Poultry Production (cross-leveled with AN_SCI 7979). Principles of housing systems, nutrition, management, business and production of commercial chickens and turkeys.

Credit Hours: 3
Prerequisites: AN_SCI 1001 or AN_SCI 1175 or AN_SCI 1065 and AN_SCI 2175; AN_SCI 3001 or AN_SCI 3232 or AN_SCI 3242 or instructor's consent

AN_SCI 4979W: Poultry Production Writing Intensive (cross-leveled with AN_SCI 7979). Principles of housing systems, nutrition, management, business and production of commercial chickens and turkeys.

Credit Hours: 3
Prerequisites: AN_SCI 1001 or AN_SCI 1175 or AN_SCI 1065 and AN_SCI 2175; AN_SCI 3001 or AN_SCI 3232 or AN_SCI 3242 or instructor's consent

AN_SCI 7001: Topics in Animal Science
Various courses offered on a preliminary basis to determine need for such offering prior to submission as a numbered course. Various topics, credit arranged.

Credit Hour: 1-4
Prerequisites: instructor's consent

AN_SCI 7012: Elements of Experimental Surgery (cross-leveled with AN_SCI 4012). This course implements the basics of surgery techniques as well as the laws and regulations governing the privilege of using vertebrate animals in research. Consideration for enrollment will be given first to graduate students. Graded on S/U basis only.

Credit Hour: 1
Prerequisites: Instructor's consent

AN_SCI 7312: Monogastric Nutrition (same as NUTRIT 7020 and NEP 7020; cross-leveled with AN_SCI 4312 and NEP 4020). Principles of nutrition, feed formulation and recent research in poultry feeding. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: AN_SCI 3212

AN_SCI 7314: Physiology of Reproduction (cross-leveled with AN_SCI 4314). Principles of animal reproduction with emphasis on endocrine control of reproductive processes.

Credit Hours: 3
Prerequisites or Corequisites: AN_SCI 3254 or MPP 3202

AN_SCI 7323: Applied Livestock Genetics (cross-leveled with AN_SCI 4323). Genetic principles applied to improvement of farm animals. Covers selection, prediction of genetic merit and mating systems.

Credit Hours: 2
Prerequisites or Corequisites: AN_SCI 3213 or PLNT_S 3213 or BIO_SC 2200 or F_W 2500

AN_SCI 7324: Genomics of Plants and Animals (cross-leveled with AN_SCI 4323). Analysis of organisms at the level of the complete genome sequence. Covers genome sequencing, assembly and annotation, as well as functional, evolutionary and computational genomics.

Credit Hours: 3
Prerequisites: BIO_SC 1010, BIO_SC 1020 or BIO_SC 1500, MATH 1100, AN_SCI 3213 /PLNT_S 3213 or equivalent; and instructor's consent

AN_SCI 7332: Ruminant Nutrition (cross-leveled with AN_SCI 4332). Physiology, chemistry, microbiology and pathology of ruminants. Emphasizes the digestion, absorption, metabolism and utilization of nutrients.

Credit Hours: 3
Prerequisites: AN_SCI 3001 or AN_SCI 3212 or AN_SCI 3242

AN_SCI 7344: Processing Muscle Foods (same as F_S 7344; cross-leveled with AN_SCI 4344, F_S 4344). Materials and technologies for the manufacture of muscle food products from red meats, poultry and seafood. Experience problem-solving through further processing of complex ingredients and develop skills by practicing operations in a pilot plant facility.

Credit Hours: 3
Prerequisites: one Chemistry course

AN_SCI 7354: Physiology and Biochemistry of Muscle as Food (same as F_S 7354; cross-leveled with AN_SCI 4354, F_S 4354). Basic concepts in muscle growth and development of livestock evaluating the effects of environment, welfare, nutrition and genetics regarding muscle metabolism, physiology, and the ultimate condition of muscle as food.

Credit Hours: 3
Prerequisites: AN_SCI 3254 or MPP 3202 or BIO_SC 3700; AN_SCI 2001 or AN_SCI 2214 or AN_SCI 2114 or AN_SCI 3214 or F_S 3214 or AN_SCI 3231 or F_S 3231
Recommended: Any Biochemistry or Organic Chemistry course

AN_SCI 7384: Reproductive Management (cross-leveled with AN_SCI 4384). Reproductive management of cattle, swine and sheep; estrous synchronization; artificial insemination; embryo development and transfer; assisted reproductive technologies.

Credit Hours: 3
Prerequisites or Corequisites: AN_SCI 4314
Prerequisites: Senior Standing, Instructor's consent

AN_SCI 7975: Beef Production and Management (cross-leveled with AN_SCI 4975). Systems of beef production: breeding, feeding, management of commercial and purebred beef cattle.

Credit Hours: 3
Prerequisites: AN_SCI 1001 or AN_SCI 1065 and AN_SCI 2165; AN_SCI 3001 or AN_SCI 3212 or AN_SCI 3242; AN_SCI 3254 or MPP 3202 or BIO_SC 3700; AN_SCI 3213
Recommended: AN_SCI 4314
AN_SCI 7976: Dairy Production
(cross-leveled with AN_SCI 4976). Applied dairy science; emphasis on nutrition and management; herd health, labor-saving equipment, buildings, quality products, organization of dairy enterprise, business and economic aspects.

Credit Hours: 3
Prerequisites: AN_SCI 1065 and AN_SCI 2165, or AN_SCI 1065 and AN_SCI 1001, or AN_SCI 1065 and AN_SCI 1165, or AN_SCI 3212 and AN_SCI 3232 or AN_SCI 3001 or AN_SCI 3242; or instructor's consent

AN_SCI 7977: Horse Production
(cross-leveled with AN_SCI 4977). Systems of horse production: breeding, feeding and management of horses.

Credit Hours: 3
Prerequisites: AN_SCI 1001 or AN_SCI 1175 or AN_SCI 1065 and AN_SCI 2175; AN_SCI 3001 or AN_SCI 3212 or AN_SCI 3242

AN_SCI 7978: Swine Production
(same as AN_SCI 4978; cross-leveled with AN_SCI 4978). Systems of pork production: breeding, feeding, management of commercial and purebred swine.

Credit Hours: 3
Prerequisites or Corequisites: AN_SCI 3212 or AN_SCI 3242 or AN_SCI 3001 or instructor's consent
Prerequisites: AN_SCI 1065 and AN_SCI 2175, or AN_SCI 1065 and AN_SCI 1001, or AN_SCI 1065 and AN_SCI 1175, or AN_SCI 1001, or AN_SCI 1175, or instructor's consent Recommended: AN_SCI 4314 and AN_SCI 3213

AN_SCI 7979: Poultry Production
(cross-leveled with AN_SCI 4979). Principles of housing systems, nutrition, management, business and production of commercial chickens and turkeys.

Credit Hours: 3
Prerequisites: AN_SCI 1065 and AN_SCI 1175 or AN_SCI 1001 and AN_SCI 2175; AN_SCI 3001 or AN_SCI 3212 or AN_SCI 3242

AN_SCI 8001: Topics in Animal Science
Various courses offered on a preliminary basis to determine need for such offering prior to submission as a numbered course. Various topics, credit arranged.

Credit Hour: 1-4
Prerequisites: Instructor's consent

AN_SCI 8085: Problems in Animal Science
Advanced independent studies in fields not directly related to thesis or non-thesis degree research program. May be graded on S/U or A-F basis only.

Credit Hour: 1-6
Prerequisites: instructor's consent

AN_SCI 8087: Seminar in Animal Science
Critical consideration of research and other selected subjects in animal breeding, animal nutrition, reproductive physiology, growth and development and livestock production and management.

Credit Hour: 1

AN_SCI 8090: Thesis Research in Animal Science
Investigations in animal breeding, animal nutrition, reproduction physiology, growth and development livestock production and management. Graded on a S/U basis only.

Credit Hour: 1-99

AN_SCI 8413: Reproductive Biology Seminar
Presentation and discussion of selected topics from all phases of reproductive biology. Open to qualified students of graduate standing in the field of Reproductive Biology.

Credit Hour: 1

AN_SCI 8414: Meat Quality
(same as F_S 8414). Discussion of factors affecting meat quality in beef, pork, lamb and poultry. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: AN_SCI 3214 or equivalent

AN_SCI 8420: Endocrinology
Hormones of pituitary and endocrine glands; special reference to influence on growth, reproduction, milk secretion.

Credit Hours: 3
Prerequisites: AN_SCI 7314 or equivalent

AN_SCI 8424: Meat Investigations
(same as F_S 8424). Discussions of scientific literature and hands-on experimentation with research techniques customarily used in the field of meat science. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: AN_SCI 7314 or equivalent; instructor's consent

AN_SCI 8430: Introduction to Bioinformatics Programming
(same as PLNT_S 8430). This course provides the basics of programming and database development to students in the life sciences who have little prior programming experience. It covers Unix/Linux, Perl, MySQL, the relational database design process, and common data formats used in genome informatics. Students will learn how
programming skills can enhance their ability to analyze large biological datasets, and will gain hands on experience with examples focused on genomics and bioinformatics. Graded on A-F basis only.

**Credit Hours:** 4  
**Prerequisites:** Instructor's consent  
**Recommended:** Undergraduate or graduate course in Genetics

### AN_SCI 8431: Nutritional Biochemistry of Lipids
(Same as NEP 8310 and NUTRIT 8310). Current concepts in the nutritional regulations of lipid metabolism. Emphasis on integrating information and interpreting current research data.

**Credit Hours:** 3  
**Prerequisites:** BIOCHM 4270 and BIOCHM 4272

### AN_SCI 8434: Special Topics in Reproductive Biology
The physiological, hormonal, cellular and molecular mechanisms regulating development and function of reproductive systems of mammals will be studied with an emphasis on domestic animals, rodents, and humans. Current theories will be evaluated and discussed using information from recent scientific publications. Graded on A-F basis only.

**Credit Hours:** 4  
**Prerequisites:** AN_SCI 4314 or AN_SCI 7314 or equivalent; AN_SCI 8420; and courses in biochemistry and/or cell biology

### AN_SCI 8441: Statistical Applications in Agriculture
Techniques of experimentation, with application to livestock production and management. Exercises in methods of planning, conducting, analyzing, evaluating and reporting research.

**Credit Hours:** 3  
**Prerequisites:** STAT 4530/STAT 7530 or equivalent or instructor's consent

### AN_SCI 8442: Digestive Physiology and Metabolism
The objective of this course is to provide graduate students in Animal Science and related areas with current knowledge in gastrointestinal physiology, including research methods used in nutrition and nutritional physiology. Graded on A-F basis only.

**Credit Hours:** 3  
**Prerequisites:** At least one (each) undergraduate or graduate-level nutrition, physiology (general), and biochemistry course; or instructor's consent

### AN_SCI 8633: Molecular and Network Evolution
(same as BIO_SC 8633). Evolution of biological macromolecules and networks, including sequence analysis algorithms and theory, phylogenetics, gene duplication, genome evolution, principles of biological networks. Development of computational skills emphasized.

**Credit Hours:** 3  
**Prerequisites:** Instructor's consent required

### AN_SCI 8725: Science Outreach: Public Understanding of Science
(same as BIO_SC 8725, PHYSCS 8350 and LTC 8725). Development of presentations to adult audiences on the science underlying issues of current interest. May be repeated for credit.

**Credit Hour:** 1-2

### AN_SCI 9001: Topics in Animal Science
**Credit Hour:** 1-99  
**Prerequisites:** instructor's consent

### AN_SCI 9090: Dissertation Research in Animal Science
Investigations in animal breeding, animal nutrition, livestock production and management. Dissertation required. Graded on a S/U basis only.

**Credit Hour:** 1-99

### AN_SCI 9423: Genetics of Populations
Introduction to quantitative genetics with application to animal and plant breeding.

**Credit Hours:** 4  
**Prerequisites:** STAT 4530 or STAT 7530

### AN_SCI 9432: Ruminant Nutrition
(same as NUTRIT 8320). Physiology, chemistry, microbiology, pathology of ruminants. Emphasizes digestion, absorption, metabolism, utilization of nutrients. Lecture, laboratory, assigned readings.

**Credit Hours:** 3  
**Prerequisites:** AN_SCI 4332/AN_SCI 7332 or equivalent and BIOCHM 4270

### AN_SCI 9433: Gamete and Embryo Development
A classical and molecular approach to spermatogenesis, oogenesis, fertilization and preimplantation development in the domestic species.

**Credit Hours:** 3  
**Prerequisites:** AN_SCI 4314/AN_SCI 7314 or BIO_SC 4984 or equivalent

### AN_SCI 9434: Gonadal Function
(same as BIOMED 9434).

**Credit Hours:** 3  
**Prerequisites:** AN_SCI 4314, biochemistry or cell biology and AN_SCI 8420

### AN_SCI 9435: Placentation
Provide students with current and in-depth information about the mechanisms involved in placental development and how the placenta (and placental products) influence maternal physiology - both locally at the placenta-uterine interface and systemically. All course topics will be covered in a comparative cross-species approach whenever possible. Emphasis will be placed on the most recent literature regarding the interactions taking place between the placenta and maternal system and how these interactions lead to the eventual birth of live young.

**Credit Hours:** 3  
**Recommended:** It is preferred that students take AN_SCI 9433 prior to this class, but this is not an absolute requirement

### AN_SCI 9442: Vitamins and Minerals
Designed to provide students with an understanding of the chemical, metabolic, and functional role of vitamins and minerals in nutrition. While
the primary focus will be on animals, comparative aspects to human nutrition will be discussed.

Credit Hours: 4
Prerequisites: AN_SCI 3212, BIOCHM 4270 or equivalent

Anthropology (ANTHRO)

ANTHRO 1000: General Anthropology
General survey course in fields of anthropological concern: archaeology, cultural anthropology, physical anthropology, linguistics; emphasizes underlying concepts, principles. Examples from peoples of the world.

Credit Hours: 3
ANTHRO 1000 - MOTR ANTH 101: General Anthropology

ANTHRO 1000H: General Anthropology - Honors
General survey course in fields of anthropological concern: archaeology, cultural anthropology, physical anthropology, linguistics; emphasizes underlying concepts, principles. Examples from peoples of the world.

Credit Hours: 3
Prerequisites: Honors eligibility required

ANTHRO 1001: Topics in Anthropology - General
Problems, topics, issues, or review of research in any areas of anthropology and/or experimental development of new content areas at a freshman level. Specific content will vary and will be announced in advance. May be repeated to a maximum of 9 hours.

Credit Hours: 3

ANTHRO 1003: Topics in Anthropology - Behavioral
Problems, topics, issues, or review of research in any areas of anthropology and/or experimental development of new content areas at a freshman level. Specific content will vary and will be announced in advance. May be repeated to a maximum of 9 hours.

Credit Hours: 3

ANTHRO 1060: Human Language
(same as LINGST 1060, C_S_D 1060 and ENGLSH 1060). General introduction to various aspects of linguistic study. Elementary analysis of language data with some attention to application of linguistic study to other disciplines.

Credit Hours: 3

ANTHRO 1150: Introduction to Folklore Genres
(same as ENGLSH 1700). Course focus is on genres of folklore in both historic and contemporary contexts, as well as in people's daily lives. Genres include narrative, proverbs, oral poetry and rhyme, riddles, jokes, legends, epics, material culture and intangible expressive culture. Graded on A-F basis only.

Credit Hours: 3

ANTHRO 1200: Significant Discoveries of Archaeology
Detailed consideration of approximately 20 archaeological discoveries and conclusions, from the field and the laboratory, which have been of surpassing importance for an understanding of human origins, behavior, culture and past experiences on earth.

Credit Hours: 3

ANTHRO 1300: Multiculturalism: An Introduction
Examines contemporary multiculturalism (and its origins) globally; introduces key concepts; uses diverse, extended cross-cultural and American examples; and emphasizes complexity of cultures, practicality of issues, and change.

Credit Hours: 3

ANTHRO 1350: Deviance: A Cross-Cultural Perspective
Cross-cultural studies of problem behavior with emphasis on violence, suicide, sexual misconduct, drug use and mental disorder.

Credit Hours: 3

ANTHRO 1500: Monkeys, Apes and Humans
For those with little or no background in anthropology. Surveys the ecology and behavior of major nonhuman primate groups, and how these relate to the evolution of human behavior.

Credit Hours: 3

ANTHRO 1500W: Monkeys, Apes and Humans - Writing Intensive
For those with little or no background in anthropology. Surveys the ecology and behavior of major nonhuman primate groups, and how these relate to the evolution of human behavior.

Credit Hours: 3

ANTHRO 2003: Topics in Anthropology - Behavioral
Problems, topics, issues or review of research in any area of anthropology (including its relationships with other areas) and/or experimental development of new content areas at an undergraduate level. Specific content will vary and will be announced in advance. May be repeated to a maximum of 9 hours.

Credit Hours: 3

ANTHRO 2005: Topics in Anthropology - Humanities
Problems, topics, issues or review of research in any area of anthropology (including its relationships with other areas) and/or experimental development of new content areas at an undergraduate level. Specific content will vary and will be announced in advance. May be repeated to a maximum of 9 hours.

Credit Hours: 3

ANTHRO 2020: Fundamentals of Archaeology with Laboratory
Introduces the methodological and theoretical underpinnings of archaeology. The goals of archaeological research, and the techniques used to extract data from the archaeological record are discussed. The lab involves hands-on experience with archaeological materials. No credit for both ANTHRO 2020 and ANTHRO 2021.

Credit Hours: 4
ANTHRO 2021: Fundamentals of Archaeology
Introduces the methodological and theoretical underpinnings of archaeology. The goals of archaeological research, and the techniques used to extract data from the archaeological record are discussed. No credit for both ANTHRO 2020 and ANTHRO 2021.

Credit Hours: 3

ANTHRO 2022: Fundamentals of Archaeology Lab
Involves hands-on experience with archaeological materials. No credit given to students who have taken ANTHRO 2020.

Credit Hour: 1
Prerequisites: must have completed ANTHRO 2021

ANTHRO 2030: Cultural Anthropology
Analysis of human cultures with emphasis on both constant and variable factors at different levels of social complexity; contact between cultures, and cultural influences on individual behavior.

Credit Hours: 3
ANTHRO 2030 - MOTR ANTH 201: Cultural Anthropology

ANTHRO 2030W: Cultural Anthropology - Writing Intensive
Analysis of human cultures with emphasis on both constant and variable factors at different levels of social complexity; contact between cultures, and cultural influences on individual behavior.

Credit Hours: 3

ANTHRO 2050: Introduction to Biological Anthropology with Laboratory
A survey of biological anthropology. Primary emphasis on the biological evidence for human evolution. Major topics include human paleontology, primate behavior and human variation. Three hours lecture and two hours lab. No credit for both ANTHRO 2050 and ANTHRO 2051. Math Reasoning Proficiency Course.

Credit Hours: 5
Prerequisites: MATH 1100 or MATH 1160

ANTHRO 2051: Introduction to Biological Anthropology
A survey of biological anthropology. Primary emphasis on the biological evidence for human evolution. Major topics include human paleontology, primate behavior and human variation. No credit for both ANTHRO 2050 and ANTHRO 2051.

Credit Hours: 3

ANTHRO 2052: Biological Anthropology Laboratory
Laboratory exercises dealing with human genetics, non-human primates, the human fossil record, and human variation. Credit not given for students who have taken ANTHRO 2050. Math Reasoning Proficiency Course.

Credit Hours: 2
Prerequisites: ANTHRO 2051 (or equivalent) and MATH 1100

ANTHRO 2100: Indigenous Religions
(same as REL_ST 2100). Explores the central aspects of religious life in indigenous communities. Focusing on specific native communities, it considers individual and group identity and the meaning of the sacred.

Credit Hours: 3

ANTHRO 2100H: Indigenous Religions - Honors
(same as REL_ST 2100H). Explores the central aspects of religious life in indigenous communities. Focusing on specific native communities, it considers individual and group identity and the meaning of the sacred.

Credit Hours: 3
Prerequisites: Honors eligibility required

ANTHRO 2150: World Archaeology
Major events in cultural evolution such as control of fire, invention of ceramic and metallurgical technologies, colonization of Australia and the Americas, development of agriculture, and emergence of complex sociopolitical organization are described in all regions of the world.

Credit Hours: 3

ANTHRO 2215: World Archaeology

ANTHRO 2215: Introduction to Folklore Field Research
(same as ENGLISH 2700). Course will focus on the specifics of how to identify, collect, preserve and document folklore within communities.

Credit Hours: 3
Recommended: ENGLISH 1000

ANTHRO 2300: Anthropology of War
Anthropological approaches to tribal and modern war; theories of war's origins; relation to ecology, economy, gender, belief systems, politics; transformation of tribal warfare by state expansion; peace.

Credit Hours: 3

ANTHRO 2340: Hunters and Gatherers
Exploration of how different hunter-gatherer groups interact with their physical and social environment. Topics include food acquisition, allocation of labor, reproduction and family life, and deciding where to live and when to move.

Credit Hours: 3

ANTHRO 2500: Primate Anatomy and Evolution
This course will explore why primates (and humans) are built the way they are, how they evolved, and what their anatomy tells us about their biology. We will cover basic primate anatomy and ecology, and then survey the fossil record of primate evolution.

Credit Hours: 3
Recommended: Sophomore standing

ANTHRO 2530: Human Evolution through Film and Literature
This course will use recent films and novels as starting points to introduce students to concepts in human biology, history and evolution. Topics will range broadly from genetics and mutation to primatology to paleoanthropology and the human fossil record.

Credit Hour: 1-3
ANTHRO 2570: Parents and Offspring
A comparative investigation of the evolution of parental behaviors and family interactions in humans and other primates.

Credit Hours: 3
Recommended: Sophomore standing

ANTHRO 2580: Evolution of Human Sexuality
Biological and cultural aspects of human reproduction are examined from the perspective of evolutionary and ecological theory.

Credit Hours: 3
Recommended: Sophomore standing

ANTHRO 2580W: Evolution of Human Sexuality - Writing Intensive
Biological and cultural aspects of human reproduction are examined from the perspective of evolutionary and ecological theory.

Credit Hours: 3
Recommended: Sophomore standing

ANTHRO 2800: Introduction to Field Methods in Archaeology
Techniques of field research and laboratory analysis through field experience.

Credit Hour: 1-6
Prerequisites: ANTHRO 2020 or ANTHRO 2021 or instructor's consent

ANTHRO 2950: Research Skills in Anthropology
Participation in faculty research activities. Course coordinator matches students with participating faculty. Three hours of research activities per week per credit hour. May be repeated to a maximum of nine hours.

Credit Hour: 1-3
Prerequisites: instructor's consent

ANTHRO 3001: Topics in Anthropology - General
Problems, topics, issues, or review of research in any area of anthropology and/or experimental development of new content areas. May be repeated to a maximum of 9 hours.

Credit Hours: 3

ANTHRO 3002: Topics in Anthropology-Biological/Physical/ Mathematics
Problems, topics, issues or review of research in any area of anthropology and/or experimental development of new content areas. May be repeated to a maximum of 9 hours.

Credit Hours: 3

ANTHRO 3003: Topics in Anthropology - Behavioral Science
Problems, topics, issues or review of research in any area of anthropology and/or experimental development of new content areas. May be repeated to a maximum of 9 hours.

Credit Hours: 3

ANTHRO 3004: Topics in Anthropology - Social Science
Problems, topics, issues or review of research in any area of anthropology and/or experimental development of new content areas. May be repeated to a maximum of 9 hours.

Credit Hours: 3

ANTHRO 3005: Topics in Anthropology - Humanities
Problems, topics, issues or review of research in any area of anthropology and/or experimental development of new content areas. May be repeated to a maximum of 9 hours.

Credit Hours: 3

ANTHRO 3150: American Folklore
(same as ENGLSH 3700). Focus on regional and ethnic folklore; emphasis on analysis of folklore in context. Requirements include book reports and two analytical papers based on student field research. May be repeated for a maximum of six hours with department's consent.

Credit Hours: 3

ANTHRO 3340H: The Evolution of Human Nature - Honors
(same as GN_HON 3241H, ANTHRO 3340). We will investigate the topic of human nature, asking such questions as: What are we like? Why do we behave the way we do? Are we inherently selfish or social? Do we have a unitary "self" or are we made up of many (and sometimes contradictory) selves? Is there a single "human" nature or are there distinct "male" and "female" natures? Does human nature vary across cultures? Insights come from fields ranging from genetics to literature. The concept of "human nature" is fiercely contested and debated both within and between academic disciplines. We will be focusing on the scientific study of human nature, seeking naturalistic explanations by formulating and testing hypotheses. In particular, we will use evolutionary theory to unify explanations from disparate disciplines like biology, psychology, and anthropology. In each class, we will discuss one specific topic like sex or violence and seek to make sense of it from both the proximate level (what triggers the behavior and how does it develop?) and the ultimate level (why and how did our evolutionary history imbue us with this capacity?). Graded on A-F basis only.

Credit Hours: 3

ANTHRO 3340HW: The Evolution of Human Nature - Honors/Writing Intensive
(same as ANTHRO 3340, ANTHRO 3340H GN_HON 3241H). We will investigate the topic of human nature, asking such questions as: What are we like? Why do we behave the way we do? Are we inherently selfish or social? Do we have a unitary "self" or are we made up of many (and sometimes contradictory) selves? Is there a single "human" nature or are there distinct "male" and "female" natures? Does human nature vary across cultures? Insights come from fields ranging from genetics to literature. The concept of "human nature" is fiercely contested and debated both within and between academic disciplines. We will be focusing on the scientific study of human nature, seeking naturalistic explanations by formulating and testing hypotheses. In particular, we will use evolutionary theory to unify explanations from disparate disciplines like biology, psychology, and anthropology. In each class, we will discuss one specific topic like sex or violence and seek to make sense of it from both the proximate level (what triggers the behavior and how does it develop?) and the ultimate level (why and how did our evolutionary history imbue us with this capacity?). Graded on A-F basis only.

Credit Hours: 3

ANTHRO 3490: American Folklore
(same as ENGLSH 3700). Focus on regional and ethnic folklore; emphasis on analysis of folklore in context. Requirements include book reports and two analytical papers based on student field research. May be repeated for a maximum of six hours with department's consent.

Credit Hours: 3

ANTHRO 3750: Social Policy and Social Security
Credit Hours: 3

ANTHRO 3800: Introduction to Field Methods in Archaeology
Techniques of field research and laboratory analysis through field experience.

Credit Hour: 1-6
Prerequisites: ANTHRO 2020 or ANTHRO 2021 or instructor's consent

ANTHRO 3900: Research Skills in Anthropology
Participation in faculty research activities. Course coordinator matches students with participating faculty. Three hours of research activities per week per credit hour. May be repeated to a maximum of nine hours.

Credit Hour: 1-3
Prerequisites: instructor's consent

ANTHRO 4001: Topics in Anthropology - General
Problems, topics, issues, or review of research in any area of anthropology and/or experimental development of new content areas. May be repeated to a maximum of 9 hours.

Credit Hours: 3

ANTHRO 4002: Topics in Anthropology-Biological/Physical/ Mathematics
Problems, topics, issues or review of research in any area of anthropology and/or experimental development of new content areas. May be repeated to a maximum of 9 hours.

Credit Hours: 3

ANTHRO 4003: Topics in Anthropology - Behavioral Science
Problems, topics, issues or review of research in any area of anthropology and/or experimental development of new content areas. May be repeated to a maximum of 9 hours.

Credit Hours: 3

ANTHRO 4004: Topics in Anthropology - Social Science
Problems, topics, issues or review of research in any area of anthropology and/or experimental development of new content areas. May be repeated to a maximum of 9 hours.

Credit Hours: 3
Prerequisites: Honors Eligibility Required

ANTHRO 3380: Native American Religions
(same as REL_ST 3380). Investigation of religious lives of the native peoples of the Americas through cultural contact with modernity. Perspectives based on historical, anthropological and native texts.
Credit Hours: 3

ANTHRO 3470: Culture as Communication
(same as COMMUN 3470, LINGST 3470). Study of the influence of culture on communication processes. Examines topics such as the impact of values, languages, and nonverbal behavior on intercultural interaction.
Credit Hours: 3

Prerequisites: sophomore standing

ANTHRO 3490: Indian Cinema
(same as AR_H_A 3790, S_A_ST 3490 and FILM_S 3490). Indian Cinema provides an overview of the key genres and themes of Indian film, including Bollywood, art cinema/parallel cinema, Indian regional cinemas, and diasporan cinema. The course combines film studies, anthropological, historical, and visual culture analyses to provide a holistic view of Indian culture and society through cinema.
Credit Hours: 3
Recommends: Sophomore standing or higher

ANTHRO 3560: Plagues and Peoples
Overview of the ecology of human host-pathogen interactions and the influence of human culture on the transmission and spread of infectious diseases through time and in different environments.
Credit Hours: 3
Recommended: sophomore standing

ANTHRO 3560W: Plagues and Peoples - Writing Intensive
Overview of the ecology of human host-pathogen interactions and the influence of human culture on the transmission and spread of infectious diseases through time and in different environments.
Credit Hours: 3
Recommended: sophomore standing

ANTHRO 3600: North American Indian Culture
Comparative study of American Indians north of Mexico, emphasizes eastern United States.
Credit Hours: 3

ANTHRO 3780: Cultures of Southeast Asia
Survey of peoples and cultures of Southeast Asia; topics include regional geography and prehistory, European colonialism, economic and social organization, religious practices, changing status of women, urban and rural poverty, and environmental transformations.
Credit Hours: 3

ANTHRO 4001: Topics in Anthropology-General
Problems, topics, issues, or review of research; experimental development of new content areas. Specific content varies depending on needs of faculty or students and will be announced in advance. May be repeated to a maximum of 9 hours.
Credit Hours: 3

ANTHRO 4005: Topics in Anthropology - Humanities
Problems, topics, issues, or review of research; experimental development of new content areas. Specific content varies depending on needs of faculty or students and will be announced in advance. May be repeated to a maximum of 9 hours.
Credit Hours: 3

ANTHRO 4150: Special Themes in Folklore
(same as ENGLSH 4700; cross-leveled with ANTHRO 7150 and ENGLISH 7700). Intensive study in a selected area of folklore: folk narrative, folk song, myth, proverb, etc., folklore and literature, or the folklore of a particular group. May be repeated for a maximum of six hours with department's consent.
Credit Hours: 3

Prerequisites: ENGLSH 1000 and sophomore standing

ANTHRO 4170: Oral Tradition
(same as ENGLSH 4770; cross-leveled with ANTHRO 7170, ENGLISH 7770). Study of oral tradition from living cultures as well as literary works and mass media with roots in verbal art. Oral tradition is a form of human communication through which ideas, knowledge, art, and cultural material is received, preserved, and transmitted orally from one generation to another or from one person to another. May include such folklore genres as ballads, chants, folktale, jokes, legends, myths, proverbs, prose, or verses.
Credit Hours: 3
Recommended: Sophomore standing or higher

ANTHRO 4200: Environment and Archaeology
(cross-leveled with ANTHRO 7200). Study of Quaternary environments and cultural systems. Focuses on North American records emphasizing climate and biologic components of regional ecosystems; regional environmental reconstruction.
Credit Hours: 3
Recommended: ANTHRO 2020 or ANTHRO 2021

ANTHRO 4240: History of Archaeology
(cross-leveled with ANTHRO 7240). Growth of archaeology worldwide since AD 1700. Emphasizes include intellectual and theoretical developments, field and laboratory techniques, and major figures in the history of the discipline.
Credit Hours: 3
Recommended: ANTHRO 2020 or ANTHRO 2021 or instructor's consent

ANTHRO 4280: Archaeology of Religion
(same as REL_ST 4280; cross-leveled with ANTHRO 7280 and REL_ST 7280). Examines how anthropologists conceptualize religious behavior, and how archaeologists use material remains to examine past religious
behavior, rituals, religious practitioners, cosmogonical constructs, worldview and ideology in the Americas.

**Anthropology of Shamanism**

*ANTHRO 4385: Anthropology of Shamanism*

(cross-leveled with ANTHRO 7385). Shamans are considered to be intermediates between this world and the spiritual world because they possess the power to communicate with spiritual beings and seek such beings to ask for their help with a variety of tasks such as healing, killing enemies, and weather control. Shamans are also the earliest ritual practitioners. Ancient cave paintings depict men dressed in animal skins, holding objects resembling the rattles used by modern shamans among northern hunting peoples. The cave art also has entoptic imagery that is seen in the shaman's mind during his shamanic rituals. In this course we will look at shamanism through time and in many cultures. We will also discuss the early accounts of shamanism by priests, explorers and adventurers, and how anthropology has come to understand and study this phenomenon. Particular topics to be discussed include biological explanations for shamanic trances and visions, mental health concerning shamans, gender issues, and how shamans fit in with societal development and complexity. Graded on A-F basis only.

**Anthropology of Gender**

*ANTHRO 4370: Anthropology of Gender*

(cross-leveled with ANTHRO 7370). Alternative hypotheses about the relationship between culture and evolution are evaluated in light of ethnohistoric evidence.

**Anthropological Theories of Religion**

*ANTHRO 4380: Anthropological Theories of Religion*

(same as REL_ST 4380; cross-leveled with ANTHRO 7380 and REL_ST 7380). Course provides a critical evaluation of anthropological explanations of various forms of traditional religious behavior such as magic, shamanism, divination, ritual, mythology, and witchcraft. The anthropological explanations examined range from nineteenth century classics to the current approaches of today.
demographic and especially cultural factors which contribute to biological variation.

**Credit Hours:** 3
**Prerequisites:** ANTHRO 2050 or ANTHRO 2051 or BIO_SC 1010

---

**ANTHRO 4580: Evolutionary Medicine**
(cross-leveled with ANTHRO 7580). Principles of modern evolutionary theory are applied to medical problems. Topics include: function of symptoms (fever, nausea, etc.); strategies of pathogens; senescence; cancer; phylogenetic constraints; mental disorders. Ideas will be actively discussed in class.

**Credit Hours:** 3
**Recommended:** lower level course in Biology or Biological Anthropology, junior or senior standing

---

**ANTHRO 4600: Ethnographic Studies of Selected Cultures**
(cross-leveled with ANTHRO 7600). Specific content varies with student interest, faculty availability. Will concentrate on peoples and cultures of one area such as East Asia, South Asia, Africa, North America, Mesoamerica, Oceania, Europe. Amplifies ethnographic knowledge gained in lower-level survey courses.

**Credit Hours:** 3
**Recommended:** junior standing

---

**ANTHRO 4620: North American Archaeology**
(cross-leveled with ANTHRO 7820). Ancient peoples and development of American Indian culture.

**Credit Hours:** 3
**Recommended:** ANTHRO 2020 or ANTHRO 2021

---

**ANTHRO 4640: Prehistory of the Greater Southwest**
(cross-leveled with ANTHRO 7640). The course will introduce students to the archaeology of aboriginal peoples of the American Southwest and southwestern Mexico. The emphasis will be on prehistoric culture development from the Paleolithic to the arrival of the Spanish. Ethnographic and modern peoples will be discussed as well.

**Credit Hours:** 3
**Recommended:** ANTHRO 2020 or ANTHRO 2021

---

**ANTHRO 4650: Prehistory of Mesoamerica**
(cross-leveled with ANTHRO 7650). Archaeology and prehistory of Mesoamerica (Mexico and Northern Central America). Emphasis on archaeological evidence for development of human societies from late Pleistocene hunting bands to complex agricultural civilizations encountered by Europeans in 1500s.

**Credit Hours:** 3
**Recommended:** ANTHRO 2020 or ANTHRO 2022

---

**ANTHRO 4680: Cultures and Peoples of the Amazon**
(cross-leveled with ANTHRO 7680). Ethnographic survey of indigenous Amazonian cultures.

**Credit Hours:** 3
**Recommended:** Junior standing required

---

**ANTHRO 4700: Old World Prehistory**
(cross-leveled with ANTHRO 7700). Beginnings of culture in the Old World through the early Iron Age.

**Credit Hours:** 3
**Recommended:** ANTHRO 2020 or ANTHRO 2021

---

**ANTHRO 4790: Culture and Society in South Asia**
(same as S_A_ST 4790; cross-leveled with ANTHRO 7790 and S_A_ST 7790). Survey of the cultures, social organizations, and lived experience of people from across the Indian subcontinent. Major topics include cast, kinship, gender, religion, village life, urbanization, public culture, popular culture, social change, and the South Asian diaspora.

**Credit Hours:** 3
**Recommended:** junior standing

---

**ANTHRO 4800: Field Methods in Archaeology**
(cross-leveled with ANTHRO 7800). Techniques of archaeological excavation; field surveying, recording, care and interpretation of materials.

**Credit Hours:** 1-8

---

**ANTHRO 4820: Zooarchaeology**
(cross-leveled with ANTHRO 7820). Survey of specialized techniques for archaeological faunal analysis, including zooarchaeological sampling, taphonomy, study of paleoecology, and recognition of domestication.

**Credit Hours:** 3
**Prerequisites:** ANTHRO 2020 or ANTHRO 2022 or instructor's consent

---

**ANTHRO 4826: Stone Artifact Analysis**
(cross-leveled with ANTHRO 7826). Theory, methods, and techniques of studying lithic artifacts and deriving culturally meaningful interpretations. Emphasizes flaked artifacts. Includes physical examination, manufacture and experimentation with stone tools.

**Credit Hours:** 3
**Prerequisites:** ANTHRO 2020 or ANTHRO 2022 or instructor's consent

---

**ANTHRO 4828: Archaeological Analysis of Ceramics**
(cross-leveled with ANTHRO 7828). To introduce students to the basic methods and concepts used in the archaeological analysis of pottery. By the end of the semester students will understand the various ways that pottery is created and how archaeologists can use ceramics to gain insights into everything from the organization of craft production to trade to symbolism.

**Credit Hours:** 3
**Prerequisites:** ANTHRO 2020 or ANTHRO 2022

---

**ANTHRO 4830: Ethnographic Methods**
(cross-leveled ANTHRO 7830). Relation of problems to techniques; surveys techniques of gathering data; discusses their limitations and potentials.

**Credit Hours:** 3
**Recommended:** ANTHRO 2030
ANTHRO 4840: The Comparative Method in Anthropology  
(cross-leveled with ANTHRO 7840). Comparative methods provide common ground for uniting bio-cultural anthropologists, archaeologists, and evolutionary biologists together in the investigation of human variation across time and space. It is an exciting time for comparative anthropology with the emergence of a large number of open-access databases covering many realms of biological, cultural, and linguistic variation. This class addresses many research opportunities that are opened up by these large collaborative efforts. Objectives are to develop research questions of interest to students, compile comparative databases necessary to answer those questions, and learn tools and software relevant for running analyses. Graded on A-F basis only.  
**Credit Hours:** 3

ANTHRO 4870W: Field Methods in Linguistics - Writing Intensive  
(same as LINGST 4870, ENGLSH 4670; cross-leveled with ANTHRO 7870, LINGST 7870, ENGLSH 7670). Intensive training in collection and analysis of data taken from a native speaker of non-Indo-European language.  
**Credit Hours:** 4  
**Prerequisites:** instructor's consent  
**Recommended:** 9 hours of Linguistics

ANTHRO 4880: Demographic Anthropology  
(cross-leveled with ANTHRO 7880). The major topics considered in this course are basic demographic analysis, including life tables, models for population growth and stable population theory; fertility analysis; disease and fertility; disease in human populations; and paleodemography. Math Reasoning Proficiency Course.  
**Credit Hours:** 3  
**Prerequisites:** MATH 1100  
**Recommended:** junior or senior standing

ANTHRO 4885: Anthropological Genetics  
(cross-leveled with ANTHRO 7885). Population genetics theory and methods applied to human and primate evolution and variation.  
**Credit Hours:** 3  
**Prerequisites:** ANTHRO 2050, or ANTHRO 2051 and ANTHRO 2052, or BIO_SC 1500, or instructor's consent

ANTHRO 4890: Human Skeletal Identification and Analysis  
(cross-leveled with ANTHRO 7890). Students interested in archaeology, physical anthropology, and law enforcement will learn human osteological methods of analysis applied to bioarchaeological problems and modern forensic techniques for personal identification.  
**Credit Hours:** 5  
**Prerequisites:** ANTHRO 2050 or ANTHRO 2052 or instructor's consent

ANTHRO 4950: Undergraduate Research in Anthropology  
Advanced research approved by and under the direction of a departmental faculty member. Enrollment limited to Juniors and Seniors.  
**Credit Hour:** 2-8  
**Prerequisites:** instructor's consent

ANTHRO 4950H: Honors Research in Anthropology  
Individual study and research leading to Honors in Anthropology. In consultation with instructor, student works on Honors Thesis. May be repeated for up to 6 credit hours. Enrollment is limited to Anthropology Majors with Junior Standing or higher, honors eligibility and a 3.5 GPA in Anthropology.  
**Credit Hours:** 3  
**Prerequisites:** instructor's consent

ANTHRO 4950HW: Undergraduate Research in Anthropology - Honors/Writing Intensive  
Advanced research approved by and under the direction of a departmental faculty member. Enrollment limited to Juniors and Seniors with Honors Eligibility.  
**Credit Hour:** 2-8  
**Prerequisites:** instructor's consent

ANTHRO 4960: Undergraduate Readings in Anthropology  
Directed readings in ethnology, linguistics, archaeology, or physical anthropology not leading to thesis.  
**Credit Hour:** 1-99  
**Prerequisites:** instructor's consent

ANTHRO 4990: Capstone Seminar in Anthropology  
Readings, discussions, and problems in the integration of the subfields of anthropology through theory and examples.  
**Credit Hours:** 3  
**Prerequisites:** Anthropology major and senior standing, or instructor's consent

ANTHRO 4990W: Capstone Seminar in Anthropology - Writing Intensive  
Readings, discussions, and problems in the integration of the subfields of anthropology through theory and examples.  
**Credit Hours:** 3  
**Prerequisites:** Anthropology major and senior standing, or instructor's consent

ANTHRO 7001: Topics in Anthropology-General  
Problems, topics, issues, or review of research; experimental development of new contact areas. Specific content varies depending on needs of faculty or students and will be announced in advance.  
**Credit Hours:** 3

ANTHRO 7150: Special Themes in Folklore  
(same as ENGLSH 7700; cross-leveled with ANTHRO 4150 and ENGLISH 4700). Intensive study in a selected area of folklore: folk narrative, folk song, myth, proverb, etc., folklore and literature, or the folklore of a particular group. May be repeated for a maximum of six hours. Instructor's consent for repetition.  
**Credit Hours:** 3
ANTHRO 7170: Oral Tradition
(same as ENGLISH 7770; cross-leveled with ENGLISH 4770, ANTHRO 4170). Study of oral tradition from living cultures as well as literary works and mass media with roots in verbal art. Oral tradition is a form of human communication through which ideas, knowledge, art, and cultural material is received, preserved, and transmitted orally from one generation to another or from one person to another. May include such folklore genres as ballads, chants, folktale, jokes, legends, myths, proverbs, prose, or verses.
Credit Hours: 3
Prerequisites: Instructor's consent

ANTHRO 7200: Environment and Archaeology
(cross-leveled with ANTHRO 4200). Study of quaternary environments and cultural systems. Focuses on North American records emphasizing climate and biologic components of regional ecosystems; regional environmental reconstruction.
Credit Hours: 3

ANTHRO 7240: History of Archaeology
(cross-leveled with ANTHRO 4240). Growth of archaeology worldwide since AD 1700. Emphasis include intellectual and theoretical developments, field and laboratory techniques, and major figures in the history of the discipline.
Credit Hours: 3

ANTHRO 7280: Archaeology of Religion
(Same as REL_ST 7280; cross-leveled with ANTHRO 4280 and REL_ST 4280) This course examines how anthropologists conceptualize religious behavior, and how archaeologists use material remains to examine past religious behavior, rituals, religious practitioners, cosmological constructs, worldview and ideology in the Americas.
Credit Hours: 3
Prerequisites: ANTHRO 2020 and/or REL_ST 2100

ANTHRO 7300: Comparative Social Organization
(cross-leveled with ANTHRO 4300). Cross-cultural comparison, analysis of social structures. Role of kinship, age, sex, locality, economics, religion and other factors in determining relationships between individuals and groups cross culturally.
Credit Hours: 3

ANTHRO 7340: Cultural Evolution and Change
(cross-leveled with ANTHRO 4340). Alternative hypotheses about the relationship between culture and evolution are evaluated in light of ethnographic evidence.
Credit Hours: 3

ANTHRO 7350: Psychological Anthropology
Examines cross-cultural approaches to the study of perception, cognition, and personality; methods for gathering and validating data; examples from non-Western societies.
Credit Hours: 3

ANTHRO 7360: Medical Anthropology
(cross-leveled with ANTHRO 4360). Cross-cultural study of belief systems concerning health and illness, practices of diagnosis and treatment, and roles of patients and practitioners. Several non-Western health care systems are studied in detail.
Credit Hours: 3

ANTHRO 7370: Anthropology of Gender
(same as WGST 7370; cross-leveled with ANTHRO 4370 and WGST 4370) The Anthropology of Gender Introduces the student to the variation in the relationships between males and females; and between men, women, and other genders from around the world. The different approaches to understanding and modeling gender are discussed, as are specific case-studies from many different cultures.
Credit Hours: 3

ANTHRO 7380: Anthropological Theory of Religions
(same as REL_ST 7380; cross-leveled with ANTHRO 4380 and REL_ST 4380). Course provides a critical evaluation of anthropological explanations of various forms of traditional religious behavior such as magic, shamanism, divination, ritual, mythology and witchcraft. The anthropological explanations examined range from nineteenth century classics to the current approaches of today.
Credit Hours: 3

ANTHRO 7385: Anthropology of Shamanism
(cross-leveled with ANTHRO 4385). Shamans are considered to be intermediates between this world and the spiritual world because they possess the power to communicate with spiritual beings and seek such beings to ask for their help with a variety of tasks such as healing, killing enemies, and weather control. Shamans are also the earliest ritual practitioners. Ancient cave paintings depict men dressed in animal skins, holding objects resembling the rattles used by modern shamans among northern hunting peoples. The cave art also has entopic imagery that is seen in the shaman’s mind during his shamanic rituals. In this course we will look at shamanism through time and in many cultures. We will also discuss the early accounts of shamanism by priests, explorers and adventurers, and how anthropology has come to understand and study this phenomenon. Particular topics to be discussed include biological explanations for shamanic trances and visions, mental health concerning shamans, gender issues, and how shamans fit in with societal development and complexity. Graded on A-F basis only.
Credit Hours: 3

ANTHRO 7500: Human Origins
(cross-leveled with ANTHRO 4500). History and theory in the study of human paleontology.
Credit Hours: 5

ANTHRO 7520: Functional Morphology of the Human Skeleton
(cross-leveled with ANTHRO 4520). This course will explore human functional morphology in a broad sense, i.e. will investigate how the form of various bodily systems influences their function and vice versa. In addition, the course is explicitly evolutionary in perspective; after the basic anatomy and function of a specific bodily region is introduced, we will cover how this functional unit has changed over the course of human
evolutionary history. Lastly, we will be using the knowledge gained in lecture and from the text to critically analyze examples of research in human functional morphology. Graded on A-F basis only.

**Credit Hours:** 3

**ANTHRO 7540: Human Biological Variation**
(cross-leveled with ANTHRO 4540). Human biological variation both among and within living populations. Evolutionary, genetic, ecological, demographic and especially cultural factors which contribute to biological variation.

**Credit Hours:** 3

**ANTHRO 7580: Evolutionary Medicine**
(cross-leveled with ANTHRO 4580). Principles of modern evolutionary theory are applied to medical problems. Topics include: function of symptoms (fever, nausea, etc.); strategies of pathogens; senescence; cancer; phylogenetic constraints; mental disorders. Ideas will be actively discussed in class.

**Credit Hours:** 3

**ANTHRO 7620: North American Archaeology**
(cross-leveled with ANTHRO 4620). Ancient peoples and development of American Indian culture.

**Credit Hours:** 3

**ANTHRO 7640: Prehistory of the Greater Southwest**
(cross-leveled with ANTHRO 4640). The course will introduce students to the archaeology of aboriginal peoples of the American southwest and northwestern Mexico. The emphasis will be on prehistoric culture development from the Paleoindians to the arrival of the Spanish. Ethnographic and modern peoples will be discussed as well.

**Credit Hours:** 3

**Prerequisites:** ANTHRO 2020 or ANTHRO 2021

**ANTHRO 7650: Prehistory of Mesoamerica**
(cross-leveled with ANTHRO 4650). Covers the archaeology and prehistory of Mesoamerica (Mexico and Northern Central America). Emphasis on archaeological evidence for development of human societies from late Pleistocene hunting bands to complex agricultural civilizations encountered by Europeans in 1500s.

**Credit Hours:** 3

**ANTHRO 7680: Cultures and Peoples of the Amazon**
(cross-leveled with ANTHRO 4680). Ethnographic survey of indigenous Amazonian cultures.

**Credit Hours:** 3

**ANTHRO 7700: Old World Prehistory**
(cross-leveled with ANTHRO 4700). Beginnings of culture in the old world through the early Iron Age.

**Credit Hours:** 3

**ANTHRO 7790: Cultures and Society in South Asia**
(same as S_A_ST 7790; cross-leveled with ANTHRO 4790 and S_A_ST 4790). Survey of the cultures, social organizations, and lived experience of people from across the Indian subcontinent. Major topics include cast, kinship, gender, religion, village life, urbanization, public culture, popular culture, social change, and the South Asian Diaspora.

**Credit Hours:** 3

**ANTHRO 7800: Field Methods in Archaeology**
Techniques of archaeological excavation; field surveying, recording, care and interpretation of materials.

**Credit Hour:** 1-8

**ANTHRO 7820: Zooarchaeology**
(cross-leveled with ANTHRO 4820). Survey of specialized techniques for archaeological/faunal analysis, including zoo archaeological sampling, taphonomy study of paleoecology, and recognition of domestication.

**Credit Hours:** 3

**ANTHRO 7826: Stone Artifact Analysis**
(cross-leveled with ANTHRO 4826). Theory, methods, and techniques of studying lithic artifacts and deriving culturally meaningful interpretations. Emphasizes flaked artifacts. Includes physical examination, manufacture and experimentation with stone tools.

**Credit Hours:** 3

**ANTHRO 7828: Archaeological Analysis of Ceramics**
(cross-leveled with ANTHRO 4828). To introduce students to the basic methods and concepts used in the archaeological analysis of pottery. By the end of the semester students will understand the various ways that pottery is created and how archaeologists can use ceramics to gain insights into everything from the organization of craft production to trade to symbolism.

**Credit Hours:** 3

**Prerequisites:** ANTHRO 2020 and/or ANTHRO 2022

**ANTHRO 7830: Ethnographic Methods**
(cross-leveled with ANTHRO 4830). Relation of problems to techniques; surveys techniques of gathering data; discusses their limitations and potentials.

**Credit Hours:** 3

**ANTHRO 7870: Field Methods in Linguistics**
(same as LINGST 7870 and ENGLSH 7670; cross-leveled with ANTHRO, LINGST 4870 and ENGLSH 4870). Intensive training in collection and analysis of data taken from a native speaker of non-Indo-European language.

**Credit Hours:** 4

**Prerequisites:** 6 hours of Linguistics and instructor's consent

**ANTHRO 7880: Demographic Anthropology**
(cross-leveled with ANTHRO 4880). The major topics considered in this course are basic demographic analysis, including life tables, models for
population growth and stable population theory; fertility analysis; disease and fertility; disease in human populations; and paleodemography.

**ANTHRO 7885: Anthropological Genetics**
(cross-leveled with ANTHRO 4885). Population genetic theory and methods applied to human and primate evolution and variation.

**Credit Hours:** 3
**Prerequisites:** ANTHRO 2050 and ANTHRO 2052 or BIO_SC 1500

**ANTHRO 7890: Human Skeletal Identification and Analysis**
(cross-leveled with ANTHRO 4890). Students interested in archaeology, physical anthropology, and law enforcement will learn human osteological methods of analysis applied to bioarchaeological problems and modern forensic techniques for personal identification.

**Credit Hours:** 5

**ANTHRO 7950: Introduction to Post-Graduate Anthropology**
How to succeed in graduate school and profession, and who is MU Anthropology. Introduces skills for success in graduate school, describes attributes of a professional anthropologist and how to find a job. Handouts and readings supplement discussions. Graded on S/U basis only.

**Credit Hour:** 1

**ANTHRO 7960: Graduate Readings in Anthropology**
Directed readings in ethnology, linguistics, archaeology, or physical anthropology not leading to thesis.

**Credit Hour:** 1-99
**Prerequisites:** instructor's consent

**ANTHRO 7990: Non Thesis Research in Anthropology**
Original research not leading to the preparation of a thesis or dissertation.

**Credit Hour:** 1-99
**Prerequisites:** instructor's consent

**ANTHRO 8010: History of Anthropology I**
Development of anthropological theories, methods, perspectives, major figures and contributions in cultural and linguistic subfields.

**Credit Hours:** 3

**ANTHRO 8090: Masters Thesis Research in Anthropology**
Advanced work leading to thesis. Graded on a S/U basis only.

**Credit Hour:** 1-99
**Prerequisites:** consent of major advisor

**ANTHRO 8157: Seminar in Folklore**
(same as ENGLISH 8700 and REL_ST 8700). Roots of folklore scholarship and methodology; their evolution in modern approaches to the study of oral, traditional, verbal genres; and their performance in natural folk groups. May repeat to twelve hours with departments consent.

**Credit Hours:** 3

**ANTHRO 8187: Seminar in Ecological Adaptation**
Relationships and interactions between humans and their environments, with emphasis on the physical and cultural adaptations to environment. May be repeated to 9 hours maximum.

**Credit Hours:** 3

**ANTHRO 8287: Seminar in Theory and Methods in Archaeology**
Application of theory and conceptual frameworks to archaeological studies drawn from both Old and New Worlds. May be repeated to 6 hours maximum.

**Credit Hours:** 3

**ANTHRO 8357: Seminar in Psychological Anthropology**
Focuses on developments in psychological anthropology, cross-cultural psychology. Special attention on cognition, perception, socialization, personality assessment, psycho-cultural change, psycho-linguistics, psychometrics, within cross-cultural contexts. May be repeated to 6 hours maximum.

**Credit Hours:** 3

**ANTHRO 8487: Seminar in Anthropological Linguistics**
(same as LINGST 8487). Topics: Ethnolinguistics, linguistic prehistory, pidgin and Creole languages, linguistic theories and cultural and cultural analysis. French structural anthropology. May be repeated for 9 hours maximum.

**Credit Hours:** 3
**Prerequisites:** instructor's consent

**ANTHRO 8587: Seminar in Physical Anthropology**
Readings and discussion concerning current problems in human and nonhuman primate evolution, with emphasis on taxonomy, morphology, and behavior. May be repeated to 9 hours maximum.

**Credit Hours:** 3

**ANTHRO 8687: Seminar in Cultural Dynamics**
Focuses on geographical, topical, and/or theoretical developments within cultural anthropology. May be repeated to 6 hours maximum.

**Credit Hours:** 3

**ANTHRO 8888: Analyzing Anthropological Data I**
Provides students with the conceptual and analytic tools necessary to conduct and evaluate the analysis of anthropological data. Examples gleaned from archaeology, bioanthropology, ethnography, and linguistics will provide a broad perspective of the application and utility of the various methods discussed.

**Credit Hours:** 3

**ANTHRO 8889: Analyzing Anthropological Data II**
This course introduces a variety of conceptual tools and advanced quantitative methods that anthropologists use to analyze their data. It includes an introduction of common software packages used to manipulate and analyze anthropological data.

**Credit Hours:** 3
**Arabic (ARABIC)**

**ARABIC 1100: Elementary Arabic I**
For beginners with no prior knowledge of Arabic. An elementary level course designed to facilitate student's acquisition of basic proficiency in communication within culturally significant contexts. Students learn Modern Standard Arabic language skills in an environment integrating interactive video and classroom instruction.

*Credit Hours: 6*

**ARABIC 1200: Elementary Arabic II**
This course builds upon the foundation established in ARABIC 1100. Greater emphasis is placed on oral and written expression. Cultural issues are explored in an environment integrating interactive video and classroom instruction.

*Credit Hours: 6*

**Prerequisites**: C- or higher in ARABIC 1100, or instructor's permission

**ARABIC 2005: Undergraduate Topics in Arabic - Humanities**
Organized study of selected topics. Subjects and credits may vary from semester to semester. May be repeated with departmental consent.

*Credit Hour: 1-3*

**Prerequisites**: sophomore standing or instructor's consent

**ARABIC 2130: Intermediate Arabic**
Builds on students' knowledge of Elementary Arabic by investing in four language skills of listening, speaking, reading, and writing.

Course is culturally oriented and considers various social, political, and religious forces to play in Arab world. Offers a unique blend of modern standards and colloquial Arabic. Enables students to develop listening comprehension, initiate and sustain conversations on daily-life topics, read texts on familiar topics, and write informal essays on topics, and write informal essays on topics connected to daily life.

*Credit Hours: 3*

**Prerequisites**: ARABIC 1200 or equivalent

**Architectural Studies (ARCHST)**

**ARCHST 1005: Topics in Architectural Studies - Humanities**
Organized study of selected topics in architectural studies. Particular topic and earnable credit may vary by semester. May be repeated for credit up to 6 credit hours.

*Credit Hour: 1-99*

**Prerequisites**: instructor's consent

**ARCHST 1100: Visual Design**
Design study as an introduction to basic design and visual composition with application to creating two- and three-dimensional abstract and/or functional design work. Studio exercises expressed through drawings and abstract models, using various media.

*Credit Hours: 3*

**ARCHST 1200: Architectural Drafting and Working Drawings**
Beginning drafting including equipment and materials; lettering; floor plans, sections, elevations; orthographic and axonometric drawings; working drawings; and details.

*Credit Hours: 3*

**ARCHST 1600: Fundamentals of Environmental Design**
Survey of the architectural environment emphasizing design fundamentals such as use, aesthetics, stability of structures and human relationships with places and time.

*Credit Hours: 3*

**ARCHST 1600W: Fundamentals of Environmental Design - Writing Intensive**
Survey of the architectural environment emphasizing design fundamentals such as use, aesthetics, stability of structures and human relationships with places and time.

*Credit Hours: 3*

**Prerequisites**: ENGLSH 1000

**ARCHST 2005: Topics in Architectural Studies - Humanities**
Organized study of selected topics in architectural studies. Particular topic and earnable credit may very by semester. May be repeated for credit up to 6 credit hours.

*Credit Hour: 1-99*

**Prerequisites**: instructor's consent
ARCHST 2085: Problems in Architectural Studies
Supervised independent work.

Credit Hours: 3
Prerequisites: instructor's consent

ARCHST 2100: Understanding Architecture and the American City
Multifaceted introduction to the architectural and social roots of urban form in the U. S.; historic precedents from around the world; growth, decline and revival of cities; rise of suburbia; tradition and transformation in campus communities; continuing housing challenges; sustainable design and the future of urbanism. Explores a diverse range of opportunities to improve communities available to professionals and general public.

Credit Hours: 3

ARCHST 2210: Understanding Visualization for Animated Films
Provides a critical overview of design and visualization techniques in animated film-making. Emphasizes the role of the built environment and spatial design features.

Credit Hours: 3

ARCHST 2220: Introduction to CAD
Introduction to computer-aided drafting and design with AutoCad software. Emphasis will be placed on development of skills and problem solving related to the professions of environmental and interior design.

Credit Hours: 3
Recommended: ARCHST 1200

ARCHST 2230: Design Communication I
Beginning studio course in techniques and conventions of graphic communication as an aid in the design process for interior designers.

Credit Hours: 3
Prerequisites: ARCHST 2220 and ARCHST 2811

ARCHST 2310: Building Systems
Integrated building systems: structure, construction, technology, comfort; including voice-data communication, safety, floor, wall, ceiling, mechanical, electrical, and plumbing systems; and project estimating.

Credit Hours: 3

ARCHST 2315: Introduction to Building Systems Laboratory
Building system renovations, materials, processes, finishes, and applications testing: furniture design, fabrication, finishing, lighting, concrete and masonry, wood and steel light framing construction, and mock-up fabrication and testing. All equipment training and safety is covered in this introductory course.

Credit Hour: 1

ARCHST 2316: Advanced Building Systems Lab
Advanced exposure to building system renovations, materials, processes, finishes, and applications testing: furniture design, fabrication, finishing, lighting, concrete and masonry, wood and steel light framing construction, and mock-up fabrication and testing. Graded on A-F basis only.

Credit Hours: 2
Prerequisites: ARCHST 2315

ARCHST 2323: Sustainable Building Design Fundamentals
Environmental concerns addressed by green building design practices for consumers and owners of homes and businesses. Overview of how green buildings improve prospects for ecology, economy, social equity, and human health. Hands-on lab experiments reference national performance standards for decision making in sustainable building projects. Emphasis on energy and water use, sustainable sites, environmentally friendly building products, indoor air quality, and design for sustainable behaviors. Graded on A-F basis only.

Credit Hours: 3

ARCHST 2620: People, Places and Design
Understanding human behavior and interaction with environments; the influence of architectural design on built places. Practical application for design.

Credit Hours: 3

ARCHST 2811: Studio I
Application of basic design and composition to built form. Studio exercises in two and three dimensions using various media relating to usable spaces. Formation of design concept, development of form and space, and application in built environment.

Credit Hours: 4
Prerequisites: instructor's consent

ARCHST 3100: Color and Light
The theory, application, and specification of color and light for interior and architectural design. Includes assigned lab exercises for color and light portfolio.

Credit Hours: 3

ARCHST 3182: Studio II
Application of basic design principles to built forms and functional spaces. Identification and manipulation of elements of design, understanding spatial relationships between human body and spatial enclosures related to built forms. Spatial organization and familiarity with role of immediate context.

Credit Hours: 4
Prerequisites: ARCHST 2310 and ARCHST 2811

ARCHST 3230: Advanced Design Communication Using BIM
Advanced course in techniques and conventions of computer aided design (CAD) and Building Information Modeling (BIM) for contemporary design process.

Credit Hours: 3
Prerequisites: ARCHST 2230

ARCHST 3600: Environmental Analysis
Discover through analytical methods of primary organizational factors which operate in a building and reveal the preoccupations of designer. Analytical approach investigates design principles by means of dissection.
ARCHST 3600W: Environmental Analysis - Writing Intensive
Discover through analytical methods of primary organizational factors which operate in a building and reveal the preoccupations of designer. Analytical approach investigates design principles by means of dissection.
Credit Hours: 3
Prerequisites: ARCHST 2811

ARCHST 3860: Human Factors Programming
Design Programming for Human Factors using a Case Study.
Credit Hours: 3
Recommended: ARCHST 1600

ARCHST 3860W: Human Factors Programming - Writing Intensive
Design Programming for Human Factors using a Case Study.
Credit Hours: 3
Recommended: ARCHST 1600

ARCHST 4001: Topics in Architectural Studies
Selected current topics in field of interest.
Credit Hour: 1-99

ARCHST 4085: Problems in Architectural Studies
Supervised independent work.
Credit Hour: 1-99
Prerequisites: instructor's consent

ARCHST 4320: Materials, Methods and Products
Inherent qualities of materials used in the design of interior environments. Manufacturing, application, and installation methods. Focus on environmentally sensitive materials.
Credit Hours: 3
Recommended: ARCHST 2310

ARCHST 4323: Sustainable Technologies and Systems
An in-depth study of ecologically-sensitive and energy-efficient strategies used in building and interiors. Prerequisites: MATH 1100 or equivalent or MATH 1160 or higher level of math: MATH 1400 or MATH 1500.
Credit Hours: 3

ARCHST 4325: Energy-Efficient Building Design
Broad study of energy use and energy-efficient strategies for buildings. Course will cover the fundamentals of climate-based design, energy-efficient heating/cooling/daylighting strategies, alternative energy systems applicable to buildings, energy auditing/modeling/verification, applicable building energy codes, and high performance building technologies.
Credit Hours: 3
Prerequisites: MATH 1100

ARCHST 4333: Compliance and Specifications
Application of laws, codes, regulations, standards in specifying for life safety, barrier-free and universal design, lighting, human factors, and contract documents.
Credit Hours: 3
Prerequisites: ARCHST 2220 and ARCHST 2811

ARCHST 4355: Recent Trends in Digital Media I
Recent Trends in Digital Media I
Credit Hour: 1-99

ARCHST 4411: Study Abroad in Architectural History
Discovery of historic architecture through on-site tour of timeless cities and places. May be repeated for credit.
Credit Hour: 1-3
Prerequisites: instructor's consent

ARCHST 4430: Guiding Design with Historic Preservation (cross-leveled with ARCHST 7430). Approaches to historic preservation; historic roots of architecture and interiors; regulations and design guidelines governing intervention; assessing significance of historic properties.
Credit Hours: 3
Recommended: American History or Government, or Art History

ARCHST 4435: History of the Designed Environment to 1750
An in-depth study of the designed environment including interiors, architecture, art, and the decorative arts within the major historical periods and cultural context from prehistory to the Industrial Revolution.
Credit Hours: 3

ARCHST 4440: Design Precedents: Architecture, Interiors and Furniture since the Industrial Revolution (cross-leveled with ARCHST 7440). Analysis of historical exemplars of architecture, interiors and furniture design offering strategies for approaching contemporary design problems. Covers design precedents from industrial revolution to contemporary design.
Credit Hours: 3

ARCHST 4555: Recent Trends
Upper-division students seeking additional knowledge in specific subject matter areas including digital media software.
Credit Hour: 1-99

ARCHST 4630: Shaping Human Settlements
Review classic designs and designers, key concepts and enduring issues of community design within the overall framework of environmental design.
Credit Hours: 3

ARCHST 4700: Place-Making in Community Design
Ideologies, case studies and participatory methods on place-making in community design. Use processes to design a place-making scheme in actual community project.
ARCHST 4710: Design Business Practices
Analysis of basic professional, human, and business skills necessary for the successful design practice. Studio work in development of portfolio and self-marketing materials with refinement through critiques.
Credit Hours: 3
Prerequisites or Corequisites: ARCHST 4814 or ARCHST 4824

ARCHST 4760: Healthcare Facilities Design
(cross-leveled with ARCHST 7760). Health care facilities design and planning course provides an in-depth investigation of best practice examples. Design and research methods include evidence-based design, simulation, and space syntax analysis leading to high-performance healthcare design. Graded on A-F basis only.
Credit Hours: 3
Recommended: senior standing

ARCHST 4813: Interiors Studio III
Spatial morphology, organization pattern, construction methods, materials, systems, and processes and integration with total design processes. Space planning and spatial manipulation in response to social, environmental, functional, and aesthetics specific to interiors.
Credit Hours: 4
Prerequisites: ARCHST 3182

ARCHST 4814: Interiors Studio IV
Continuation of ARCHST 4813. Manipulation of form and space responding to programmatic functions and activities, and constraints imposed by structure, building materials, spatial enclosure, and related factors. Projects may involve designing single-function space to multiple-function layered spaces - both vertically and horizontally.
Credit Hours: 4
Prerequisites: ARCHST 4823

ARCHST 4823: Architectural Studio III
Continuation of ARCHST 3182. Spatial morphology, organization pattern, construction methods, materials, systems, and processes and integration with total design process. Space planning and spatial manipulation in response to social, environmental, functional, and aesthetics specific to architecture.
Credit Hours: 4
Prerequisites: ARCHST 3182

ARCHST 4824: Architectural Studio IV
Continuation of ARCHST 4823. Manipulation of form and space responding to programmatic functions and activities, and constraints imposed by structure, building materials, spatial enclosure, and related factors. Projects may involve designing single-function space to multiple-function layered spaces - both vertically and horizontally.
Credit Hours: 4
Prerequisites: ARCHST 4823

ARCHST 4860: Programming for Thesis Design Studio
Develop written comprehensive program for thesis design studio project.
Credit Hour: 1
Prerequisites or Corequisites: ARCHST 4814 or ARCHST 4824
Prerequisites: ARCHST 2620

ARCHST 4940: Internship in Environmental Design
Field experience in design under professional and educational supervision. Graded on S/U basis only.
Credit Hour: 1-99
Prerequisites: instructor's consent

ARCHST 4960: Readings in Architectural Studio
Readings in recent research materials.
Credit Hour: 1-99

ARCHST 4961: Design Research and Service Design
(cross-leveled with ARCHST 7961). Provides an overview of applied research methods for design and development of products, services and environments. Introduces human-centered approach to design research and Communication of research findings to informed design concepts.
Credit Hours: 3
Recommended: senior standing

ARCHST 4962: Information Visualization and Visual Analytics
(cross-leveled with ARCHST 7962). Foundation for information visualization and deals with external representation and interactive manipulation of information, data or artifacts using digital tools to enhance communication, analytical reasoning and decision-making.
Credit Hours: 3
Recommended: senior standing

ARCHST 4963: Human Factors Research for Design
(cross-leveled with ARCHST 7963). Investigate effect of people's physical psychological, social functions in environments of differing scales. Use research techniques of photo-interviewers, mapping, and user analysis to develop an appropriate program for redesign.
Credit Hours: 3
Recommended: ARCHST 3860

ARCHST 4964: Design Thinking and Creative Process
(cross-leveled with ARCHST 7964). Analysis of how designers think, solve design problems, and engage in the creative process. Includes design methods, design cognition computations, and design protocol studies.
ARCHST 4990: Thesis Design Studio
Capstone experience on a single comprehensive project. Objective is to enable synthesis of previous course work by addressing a design problem defined in ARCHST 4860.
Credit Hours: 4
Prerequisites: ARCHST 4860, ARCHST 4814 or ARCHST 4824

ARCHST 7001: Topics in Environmental Design
Selected current topics in field of interest.
Credit Hour: 1-99

ARCHST 7085: Problems in Environmental Design
Supervised independent work.
Credit Hour: 1-99
Prerequisites: 3000-level course in field of problem and instructor's consent

ARCHST 7232: Graduate Design Communication I
Studio course in techniques and conventions of graphic communication as an aid in the design process of built forms.
Credit Hours: 3

ARCHST 7310: Graduate Building Systems
Integrated building systems; structure construction, technology, comfort; including voice-communications, safety, floor, wall, ceiling, mechanical, electrical, and plumbing systems, project estimating and management.
Credit Hours: 3
Prerequisites: MATH 1100 or MATH 1120

ARCHST 7315: Graduate Systems Laboratory
Experimental learning setting involving building construction systems, renovation, materials and finishes testing and experimentation. Focus on hands-on opportunities investigating building technology properties in detail. Laboratory 3 hrs/week.
Credit Hour: 1-9

ARCHST 7320: Materials, Methods and Products
Inherent qualities of materials used in the design of interior environments. Manufacturing, application, and installation methods. Focus on environmentally sensitive materials.
Credit Hours: 3
Prerequisites: MATH 1100 or MATH 1120

ARCHST 7323: Sustainable Technologies and Systems
An in-depth study of ecologically-sensitive and energy-efficient strategies used in buildings and interiors.
Credit Hours: 3

ARCHST 7325: Energy-Efficient Building Design
This course is a broad study of energy use and energy-efficient strategies for buildings. The course will cover the fundamentals of climate-based design, energy-efficient heating/cooling/daylighting strategies, alternative energy systems applicable to buildings, energy auditing/modeling/verification, applicable building energy codes, and high performance building technologies. Recommended for graduate students with undergraduate degrees and experience in engineering, architecture, and/ or building science.
Credit Hours: 3

ARCHST 7355: Recent Trends in Digital Media I
Recent Trends in Digital Media I
Credit Hour: 2-4

ARCHST 7430: Guiding Design with Historic Preservation
(cross-leveled with ARCHST 4430). Approaches to historic preservation; historic roots of architecture and interiors; regulations and design guidelines governing intervention; assessing significance of historic properties.
Credit Hours: 3
Prerequisites: American History or Government or Art History or instructor's consent

ARCHST 7440: Design Precedents: Architecture, Interiors and Furniture since the Industrial Revolution
(cross-leveled with ARCHST 4440). Analysis of historical exemplars of architecture, interiors and furniture design offering strategies for approaching contemporary design problems. Covers design precedents from industrial revolution to contemporary design.
Credit Hours: 3

ARCHST 7555: Recent Trends in Environmental Design
Upper-division students seeking additional knowledge in specific subject matter areas including digital media software.
Credit Hour: 1-99

ARCHST 7620: Environment and Behavior
Evaluate relationships between human behavior and environmental design. Survey of environment and behavior theoretical foundations examining how these concepts translate into a more responsive theory of design.
Credit Hours: 3

ARCHST 7630: Shaping Human Settlements
Review classic designs and designers, key concepts and enduring issues of community design within the overall framework of environmental design.
Credit Hours: 3

ARCHST 7650: Psychosocial Function and Older Adults
(same as F_C_MD 7751,HMI 7751, H_D_FS 7751, NURSE 7751, P_HLTH 7751 and SOC_WK 7751). This course takes an Interdisciplinary approach to understanding the psychosocial function of
older adults and explores approaches to alleviate disabling conditions that interfere with psychosocial function and quality of life in old age. Graded on A-F basis only.

Credit Hours: 3

ARCHST 7700: Place-Making in Community Design
Ideologies, case studies and participatory methods on place-making in community design. Use processes to design a place-making scheme in actual community project.

Credit Hours: 3

ARCHST 7840: Graduate Design Studio
Advanced graduate level design experience emphasizing project complexity, design skill refinement, and optional development of thesis project strategies.

Credit Hours: 3
Prerequisites: instructor's consent

ARCHST 7940: Internship in Environmental Design
Field experience in design under professional and educational supervision. Graded on S/U basis only.

Credit Hour: 1-99
Prerequisites: instructor's consent

ARCHST 7960: Readings in Environmental Design
Readings in recent research materials.

Credit Hour: 1-99

ARCHST 7961: Design Research and Service Design (cross-leveled with ARCHST 4961)
Provides an overview of applied research methods for design and development of products, services and environments. Introduces human-centered approach to design research and communication of research findings to inform design concepts.

Credit Hours: 3

ARCHST 7962: Information Visualization and Visual Analytics (cross-leveled with ARCHST 4962)
Foundation for information visualization and deals with external representation and interactive manipulation of information, data or artifacts using digital tools to enhance communication, analytical reasoning and decision-making.

Credit Hours: 3

ARCHST 7963: Human Factors Research for Design (cross-leveled with ARCHST 4963)
Investigate effect of people's physical psychological, social functions in environments of differing scales. Use research techniques of photo-interviewers, mapping, and user analysis to develop an appropriate program for redesign.

Credit Hours: 3

ARCHST 7964: Design Thinking and Creative Process (cross-leveled with ARCHST 4964)
Analysis of how designers think, solve design problems, and engage in the creative process. Includes design methods, design cognition and computations, and design protocol studies.

Credit Hours: 3

ARCHST 8001: Topics in Environmental Design
Selected current topics in field of interest.

Credit Hour: 1-99

ARCHST 8050: Research Methods in Environmental Design
A comparative study of quantitative and qualitative methods in environmental design with emphasis on research results and analyses. Lectures and seminar discussions.

Credit Hours: 3
Prerequisites: 12 hours advanced design

ARCHST 8085: Problems in Environmental Design
Credit Hour: 1-99
Prerequisites: 4000-level course in field of problem and instructor's consent

ARCHST 8090: Master's Research in Environmental Design
Independent research leading to a creative project. Graded on S/U basis only.

Credit Hour: 1-99

ARCHST 8230: Computer Graphic Application for Design II
Creative computer graphic modeling, rendering and animation projects related to the academic background and interests of individual students. May be repeated to 6 hours maximum.

Credit Hours: 3

ARCHST 8600: Graduate Environmental Analysis
Analysis of design principles and organizational factors operating in a building by means of dissection. Volumetric disposition, circulation pattern, axes, structural system, materials, purpose, and symbolism.

Credit Hours: 3

ARCHST 8630: Philosophy of Environmental Design Research
Formal environmental design theory concerning historical precedents, current aesthetic trends, and design processes. Assignments investigate philosophical influences, architectonic vocabularies, and communication of idea and artifact. May be repeated up to 12 credit hours.

Credit Hours: 3

ARCHST 8633: Theoretical Perspectives of Design Computing
Key theoretical ideas underlying the relationship between design and computing. Main research topics relevant to current discourse in design computing.

Credit Hours: 3

ARCHST 8820: Graduate Digital Design Studio
Graduate level design experience emphasizing project complexity, design skill refinement, and use of digital media for design representation.

Credit Hour: 1-99
ARCHST 8830: Digital Design Studio II
Advanced graduate level design experience emphasizing design, documentation, and representation using digital media. Optional development of graduate thesis project may be scheduled in this studio.

Credit Hours: 4

ARCHST 8840: Graduate Design Studio
Advanced graduate level design experience emphasizing project complexity, design skill refinement, and optional development of thesis project strategies.

Credit Hour: 1-99
Prerequisites: instructor's consent

ARCHST 8850: Seminar in Environmental Design
Reports, discussion of recent work in area of concentration.

Credit Hour: 1-4

ARCHST 887: Environment and Behavior II
Synthesis of environment and behavior themes in design research and application to professional practice. Research on socio-behavioral phenomena, user groups, places. Emphasis on integrated interactive character of elements.

Credit Hours: 3

ARCHST 8950: Qualitative Research Methods
Explores qualitative research methods as foundation for subsequent study. Focuses on qualitative research of the built environment. Course may be repeated for credit.

Credit Hours: 3

ARCHST 8960: Readings in Environmental Design
Readings in recent research materials.

Credit Hour: 1-99
Prerequisites: ARCHST 4960 or ARCHST 7960

ARCHST 9090: Dissertation Proposal
A formal dissertation proposal is written and presented to the dissertation committee for approval.

Credit Hour: 1-9
Prerequisites: instructor's consent

ARCHST 995: Pilot Project for Dissertation
Working with advisor, student proposes, conducts, and reports the findings from a pilot study germane to the dissertation topic in preparation for the dissertation research.

Credit Hour: 1-99
Prerequisites: instructor's consent

Art History And Archaeology (AR_H_A)

AR_H_A 1005: Undergraduate Topics in Art History and Archaeology- Humanities
Special studies in Art History and Archaeology.

Credit Hour: 1

AR_H_A 1010: Introduction to Museum of Art and Archaeology, UMC
This course is a brief introduction to the Museum of Art and Archaeology on Francis Quadrangle. Special attention will be given to the history of the Museum, to its operation and to its collection. Guest lecturers from the from the Museum will provide first hand accounts of their contributions to the day-to-day operations of the Museum and to the academic mission of the University.

Credit Hour: 1

AR_H_A 1020: Giotto and the Arena Chapel
This course is a brief introduction to one of the major monuments of western art, the Area (or Scrovegni) Chapel of Giotto di Bondone. Special attention will be given to stories about him by Renaissance authors.

Credit Hour: 1

AR_H_A 1040: Rembrandt
This course is a brief introduction to the life and work of the seventeenth-century Dutch painter Rembrandt van Rijn. Special attention is give to the appreciation of his art by his contemporaries.

Credit Hour: 1

AR_H_A 1040: Rembrandt
This course is a brief introduction to the life and work of the seventeenth-century Dutch painter Rembrandt van Rijn. Special attention is give to the appreciation of his art by his contemporaries.

Credit Hour: 1

AR_H_A 1105: Undergraduate Topics in Art History and Archaeology
Special studies in Art History and Archaeology.

Credit Hours: 3

</table>
Credit Hours: 3

**AR_H_A 2860W: The Lives of Objects - Writing Intensive**
Introduction to the problems of understanding, analyzing and writing about decorative arts, design history, and material culture.

Credit Hours: 3

**AR_H_A 2940: Archaeological Methods**
Methods of excavating various types of sites; recording, preserving their materials.

Credit Hours: 2-6
Prerequisites: instructor's consent

**AR_H_A 3120: Art and Gender in Antiquity**
Comparative survey of Egypt, Greece, and Rome, focusing on gender construction and cultural perception through material resources.

Credit Hours: 3

**AR_H_A 3210: Near Eastern and Egyptian Art and Archaeology**
General survey of material culture of the Near East and Egypt from the earliest times to the early Iron Age.

Credit Hours: 3
Recommended: AR_H_A 1110 or equivalent

**AR_H_A 3210: Near Eastern and Egyptian Art and Archaeology - Writing Intensive**
An investigation of the arts of western Europe during the first millennium, when the unifying traditions of Rome were transformed by the diverse cultures of her Northern neighbors.

Credit Hours: 3
Recommended: AR_H_A 1110 or equivalent

**AR_H_A 3310: Art and Gender in Antiquity**
Comparative survey of Egypt, Greece, and Rome, focusing on gender construction and cultural perception through material resources.

Credit Hours: 3

**AR_H_A 3310: Greek Art and Archaeology**
General survey of material culture in Greece from earliest times to the Hellenistic period.

Credit Hours: 3
Recommended: AR_H_A 1110 or equivalent

**AR_H_A 3310: Roman Art and Archaeology**
General survey of material culture in the Roman world from earliest times through the 3rd century.

Credit Hours: 3
Recommended: AR_H_A 1110 or equivalent

**AR_H_A 3310: Byzantine and Islamic Art and Archaeology**
General survey of the visual world of the Middle Ages in southwest Asia and the east Mediterranean, from late antiquity through the rise of the Ottoman empire.

Credit Hours: 3
Recommended: AR_H_A 1110 or equivalent

**AR_H_A 3310W: Byzantine and Islamic Art and Archaeology - Writing Intensive**
General survey of the visual world of the Middle Ages in southwest Asia and the east Mediterranean, from late antiquity through the rise of the Ottoman empire.

Credit Hours: 3
Recommended: AR_H_A 1110 or equivalent

**AR_H_A 3320: Early Medieval Art and Archaeology**
General survey of the arts of western Europe during the first millennium, when the unifying traditions of Rome were transformed by the diverse cultures of her Northern neighbors.

Credit Hours: 3
Recommended: AR_H_A 1110 or equivalent

**AR_H_A 3320W: Early Medieval Art and Archaeology - Writing Intensive**
An investigation of the arts of western Europe during the first millennium, when the unifying traditions of Rome were transformed by the diverse cultures of her Northern neighbors.

Credit Hours: 3
Recommended: AR_H_A 1110 or equivalent

**AR_H_A 3330: Late Medieval Art**
General survey of European art and architecture from the 11th through the 14th centuries.

Credit Hours: 3
Recommended: AR_H_A 1110 or equivalent

**AR_H_A 3330W: Late Medieval Art - Writing Intensive**
General survey of European art and architecture from the 11th through the 14th centuries.

Credit Hours: 3
Recommended: AR_H_A 1110 or equivalent

**AR_H_A 3410: Italian Renaissance Art**
General survey of the architecture, painting and sculpture of Italy from the 14th through the 16th century.

Credit Hours: 3
Recommended: AR_H_A 1110 or AR_H_A 1120 or equivalent

**AR_H_A 3410W: Northern Renaissance Art - Writing Intensive**
General survey of northern European art and architecture from the late 14th through the late 16th century.

Credit Hours: 3
Recommended: AR_H_A 1120 or equivalent

**AR_H_A 3420: Baroque Art**
General survey of 17th century European architecture, painting and sculpture.

Credit Hours: 3
Recommended: AR_H_A 1120 or equivalent

**AR_H_A 3430: Eighteenth Century European Art**
General survey of 18th-century European painting, sculpture and architecture.

Credit Hours: 3
Recommended: AR_H_A 1120 or equivalent
AR_H_A 3730W: Eighteenth Century European Art - Writing Intensive
General survey of 18th-century European painting, sculpture and architecture.
Credit Hours: 3
Recommended: AR_H_A 1120 or equivalent

AR_H_A 3740: Nineteenth-Century European Art
General survey of 19th-century European painting, sculpture and architecture.
Credit Hours: 3
Recommended: AR_H_A 1120 or equivalent

AR_H_A 3740W: Nineteenth-Century European Art - Writing Intensive
General survey of 19th-century European painting, sculpture and architecture.
Credit Hours: 3
Recommended: AR_H_A 1120 or equivalent

AR_H_A 3750: Modern Art in Europe and America
General survey of international directions in painting, sculpture, and architecture from 1885 to ca. 1940.
Credit Hours: 3
Recommended: AR_H_A 1120 or equivalent

AR_H_A 3760: Contemporary Art
General survey of painting, sculpture, and architecture from the Second World War to the present.
Credit Hours: 3
Recommended: AR_H_A 1120 or equivalent

AR_H_A 3775: The Ancient World on Film
(same as CL_HUM 3775 and FILM_S 3775) This course explores how classical antiquity has been represented in twentieth and twenty-first-century film, with particular emphasis on the ways in which ancient narratives and iconography have been appropriated by filmmakers to address contemporary cultural issues.
Credit Hours: 3
Recommended: Prior 2000 level coursework in Classical Humanities, Art History and Archaeology, or Film Studies

AR_H_A 3780: Architecture in Film
(same as FILM_S 3780) Filmmakers use architecture to convey meaning on symbolic, psychological, and ideological levels. Using architectural history and theory, in conjunction with weekly film screenings from a variety of genres, this course explores how architecture operates within film.
Credit Hours: 3

AR_H_A 3785: Arts and Artists on Film
(same as FILM_S 3785) This course explores representations of art and artists in film, including documentary films, fictionalized films, and films made by artists.
Credit Hours: 3

AR_H_A 3790: Indian Cinema
(same as ANTHRO 3490, S_A_ST 3490 and FILM_S 3490) Indian Cinema provides an overview of the key genres and themes of Indian film, including Bollywood, art cinema/parallel cinema, Indian regional cinemas, and diasporan cinema. The course combines film studies, anthropological, historical, and visual culture analyses to provide a holistic view of Indian culture and society through cinema.
Credit Hours: 3
Recommended: Sophomore standing or higher

AR_H_A 3830: American Art and Culture, 1500-1820
General survey of American visual culture - painting, sculpture, architecture-between 1500 and 1820.
Credit Hours: 3
Recommended: AR_H_A 1120 or equivalent

AR_H_A 3840: American Art and Culture, 1820-1913
General survey of American visual culture - painting, sculpture, architecture, photography - between 1820-1913.
Credit Hours: 3
Recommended: AR_H_A 1120 or AR_H_A 2830 or equivalent

AR_H_A 3850: American Art and Culture, 1913-Present
General survey of American visual culture - painting, sculpture, architecture, photography, advertising, film, new media - between 1913 and the present.
Credit Hours: 3
Recommended: AR_H_A 1120 or AR_H_A 2830 or equivalent

AR_H_A 4005: Topics in Art History and Archaeology-Humanities
Special studies in art history/archaeology; covers subjects not included in regularly offered courses.
Credit Hour: 1-99
Prerequisites: instructor's consent

AR_H_A 4120: Gender and the Arts
(same as WGST 4120; cross-leveled with WGST 7120, AR_H_A 7120). Exploration of the relationship between the visual arts and constructions of gender and sexuality in selected eras.
Credit Hours: 3
Prerequisites: instructor's consent

AR_H_A 4320: Archaeology of the Aegean Bronze Age
(cross-leveled with AR_H_A 7320). Analysis of the material culture of Greek prehistoric civilizations from 3000 to 1000 B.C.
Credit Hours: 3
Prerequisites: instructor's consent

AR_H_A 4350: Greek Pottery
(cross-leveled with AR_H_A 7350). Examination of pottery and vase painting with an emphasis on production, iconography, and social context.

<tr>
<td>AR_H_A 4710</td>
<td>The Arts of the Rococo</td>
<td>(cross-leveled with AR_H_A 7710). This course explores European Art from approximately 1710 to 1770,</td>
<td>3</td>
<td>focusing on art associated with two different social sectors: The early modern aristocratic court culture whose artistic predilections had formed the European norm, and the increasingly powerful merchant classes whose newfound wealth enabled new artistic genres and styles to proliferate. Our inquiry begins with an exploration of the rococo as an ornamental style; we examine its origins in Italian garden architecture and subsequent transformation into a decoration for both French palatial interiors and German Churches. We then launch a succession of case studies of important artists, media, and objects in order to assess the varied ways that diverse social identities were deflected through the periods’ art an architecture. Students will pursue a research topic on rococo art for their semester project.</td>
</tr>
<tr>

</tbody>
</table>
AR_H_A 4780: Advanced Course in Contemporary Art
(cross-leveled with AR_H_A 7780). Topics in European and American painting and sculpture after 1950.
Credit Hours: 3
Prerequisites: instructor's consent

AR_H_A 4820: American Material Culture
(cross-leveled with AR_H_A 7820). An exploration of American material culture from a multidisciplinary perspective.
Credit Hours: 3
Prerequisites: instructor's consent

AR_H_A 4840: American Architecture
(cross-leveled with AR_H_A 7840). An exploration of architecture and urbanism from the colonial period to the present.
Credit Hours: 3
Prerequisites: instructor's consent

AR_H_A 4960: Special Readings in Art History and Archaeology
Independent readings and research selected in consultation with supervisory faculty.
Credit Hours: 1-3
Prerequisites: instructor's consent

AR_H_A 4970: Capstone: Art History and Archaeology
Students will write an expanded, guided research paper. The Capstone student will consult on a regular basis with the professor responsible for the course and will make an oral presentation of the paper in the course. Must be taken in conjunction with a 4000-level Art History and Archaeology course.
Credit Hour: 1
Prerequisites: instructor's consent

AR_H_A 4980: Internship
A one-semester or full summer intensive internship for departmental majors with specific projects and responsibilities to be arranged by the student in cooperation with a faculty member and an appropriate agent of the museum involved. May be taken as an elective only. May be repeated for a maximum of 6 hours credit.
Credit Hours: 3
Prerequisites: instructor's consent

AR_H_A 4999: Honors Reading and Research I
Individual research projects in preparation of senior thesis.
Credit Hours: 3
Prerequisites: instructor's consent

AR_H_A 7005: Topics in Art History and Archaeology
Special studies in art history or archaeology; covers subjects not included in regularly offered courses.
Credit Hour: 1-99

AR_H_A 7120: Gender and the Arts
(same as WGST 7120; cross-leveled with AR_H_A 4120, WGST 4120). Exploration of the relationship between the visual arts and constructions of gender and sexuality in selected eras.
Credit Hours: 3
Prerequisites: instructor's consent

AR_H_A 7130: Museum Studies
Functions and history of museums and interrelations among departments, including those of director, curator, registrar, education, conservation, and marketing. Topics include acquisitions policies; public outreach; role of architecture; and philosophical and legal issues pertaining to administration of museums.
Credit Hours: 3
Prerequisites: instructor's consent

AR_H_A 7320: Archaeology of the Aegean Bronze Age
(cross-leveled with AR_H_A 4320). Analysis of the material culture of Greek prehistoric civilizations from 3000 to 1000 B.C.
Credit Hours: 3
Prerequisites: instructor's consent

AR_H_A 7350: Greek Pottery
(cross-leveled with AR_H_A 4350). Examination of pottery and vase painting with an emphasis on production, iconography, and social context.
Credit Hours: 3
Prerequisites: instructor's consent

AR_H_A 7360: Greek Sculpture
(cross-leveled with AR_H_A 4360). Survey of sculptor's art in Aegean and Classical world from earliest times to Hellenistic period.
Credit Hours: 3
Prerequisites: instructor's consent

AR_H_A 7420: Minor Arts of Antiquity
(cross-leveled with AR_H_A 4420). Discussion of selected minor arts and crafts of the Greco-Roman world.
Credit Hours: 3
Prerequisites: instructor's consent

AR_H_A 7440: Roman Architecture
(cross-leveled with AR_H_A 4440). The history of Roman architecture, origin and development of forms and techniques, major monuments in Rome and its provinces through the 3rd century after Christ.
Credit Hours: 3
Prerequisites: instructor's consent

AR_H_A 7460: Roman Sculpture
(cross-leveled with AR_H_A 4460). The origins and development of sculpture in the Roman Republic and the Roman Empire.
Credit Hours: 3

</table>
AR_H_A 8070: Master’s Tutorial
Consultation with faculty advisory and preparation of a scholarly essay based on a graduate research paper. Graded on S/U basis only.
Credit Hour: 1
Prerequisites: AR_H_A 8110, and other graduate courses in Art History & Archaeology

AR_H_A 8080: Readings for MA Thesis in Art History and Archaeology
Reading, critical evaluation of literature of special fields of art history and/or archaeology.
Credit Hour: 1-99
Prerequisites: instructor's consent

AR_H_A 8090: Master's Thesis Research and Thesis
Individual research leading to preparation of the M.A. thesis Graded on a S/U basis only.
Credit Hour: 1-99
Prerequisites: instructor's consent

AR_H_A 8110: Introduction to Graduate Study
Research methods, bibliography, use and criticism of source material. Required of graduate students in Art History and Archaeology who have not had AR_H_A 4986.
Credit Hours: 3
Prerequisites: departmental consent

AR_H_A 8120: Theories and Methodologies in Art History and Archaeology
Literature of art and archaeology in terms of works of leading European and American art historians, archaeologists.
Credit Hours: 3
Prerequisites: instructor's consent

AR_H_A 8130: Museum Studies Seminar
Appropriate means for care and display of artifacts. Topics include: accessioning, cataloging, retrieval of information, and laws and ethics of collecting; the museum environment and its monitoring; condition reports, shipping and storage, and conservation. Field trips.
Credit Hours: 3
Prerequisites: instructor's consent

AR_H_A 8320: Seminar in Greek Art and Archaeology
Special subjects of study assigned for individual research; discussion of reports by seminar members.
Credit Hour: 1-99
Prerequisites: instructor's consent

AR_H_A 8420: Seminar in Roman Art and Archaeology
Special subjects of study assigned for individual research; discussion of reports by seminar members.
Credit Hour: 1-99
Prerequisites: instructor's consent

AR_H_A 8440: Ancient/Medieval Topography
(same as CLASS 8440). Descriptive and historical analysis of a selected city or site. Subject varies.
Credit Hour: 1-99
Prerequisites: instructor's consent

AR_H_A 8490: Seminar in Late Antique Art and Archaeology
Special subjects of study assigned for individual research; discussion of reports by seminar members.
Credit Hours: 3
Prerequisites: AR_H_A 7490 or equivalent

AR_H_A 8520: Seminar in Medieval Art and Archaeology
Specific subjects of study will be assigned to students for presentation in relation to broader questions of the cultural/historical phenomena of the time, from ca 700 to ca 1400.
Credit Hour: 1-99
Prerequisites: instructor's consent

ART_CERM 2100: Beginning Ceramics
Exploration of ceramic art as an expressive, communicative medium. Study of ceramic design, technique and historic and contemporary models within the context of the creative process. Group critiques, slides, demonstrations. Expendable materials fee.
Credit Hours: 3
ART_CERM 3100: Intermediate Ceramics
Continuation of ART_CERM 2100 with emphasis on wheel throwing and the vessel format. Further exploration of glazing and firing techniques. Group and individual critiques, demonstrations, slide lectures and visiting artists. Expendable materials fee.

Credit Hours: 3
Prerequisites: instructor's consent

ART_CERM 4100: Advanced Ceramics
Continuation of ART_CERM 3100. Includes advanced problems in firing, clay and glaze technology, forming and ornamentation. Payment of expendable materials fee required. May be repeated to 15 hours maximum.

Credit Hours: 3
Prerequisites: instructor's consent

ART_CERM 4110: Ceramics Sculpture
Sculptural forms constructed of slabs, coils and wheel thrown elements. Payment of expendable materials expense is required. May be repeated to 15 hours maximum.

Credit Hours: 3
Prerequisites: instructor's consent required

ART_CERM 4185: Problems in Ceramics
Problems in Ceramics.

Credit Hour: 1-3
Prerequisites: departmental consent

ART_CERM 7100: Graduate Ceramics
Advanced study of ceramic technology and design concepts with emphasis on directed development of individual work. Payment of expendable materials expense is required. May be repeated to 18 hours maximum.

Credit Hours: 3
Prerequisites: ART_CERM 4100

ART_CERM 7110: Graduate Ceramic Sculpture
Directed development of individual work. Payment of expendable materials expense is required. May be repeated to 18 hours maximum.

Credit Hours: 3
Prerequisites: ART_CERM 4100

ART_CERM 7185: Problems in Ceramics
Graduate level work in ceramics.

Credit Hour: 1-3
Prerequisites: ART_CERM 7100 and ART_CERM 7110 and departmental consent

ART_CERM 8100: Graduate Ceramics II
Continuation of ART_CERM 7100. Repeatable to 15 hours.

Credit Hours: 3
Prerequisites: ART_CERM 7100 or equivalent

Art-Drawing (ART_DRAW)

ART_DRAW 1050: Drawing: Materials and Methods
This course focuses on the fundamentals of visual hierarchy, composition, and pictorial space in drawing. Emphasis on linear perspective and the language of light and shadow using black and white media (graphite, charcoal and/or conte crayon). Development of skills and concepts in drawing based on historical models, lectures, demonstrations and critiques. Expendable materials fee required.

Credit Hours: 3
Prerequisites: ART_DRAW 1050 - MOTR PERF 105D: Studio Art-Drawing

ART_DRAW 2210: Beginning Color Drawing
Theory and practice in the use of colored pencil, as well as oil and chalk pastel, working from still life, landscape, and portrait. This class is the second class in the drawing sequence. Expendable materials fee required.

Credit Hours: 3
Prerequisites: ART_DRAW 1050

ART_DRAW 3200: Portrait Drawing
Development of drawing techniques with an emphasis on the portrait. May be repeated to 15 hours maximum. Expendable materials fee required.

Credit Hours: 3
Prerequisites: ART_DRAW 1050 and ART_DRAW 2210

ART_DRAW 3210: Intermediate Color Drawing
Continuation of ART_DRAW 2210 with emphasis on design and organization. May be repeated to 9 hours maximum. Expendable materials fee required.

Credit Hours: 3
Prerequisites: ART_DRAW 1050 and ART_DRAW 2210

ART_DRAW 3220: Anatomical Drawing
Anatomical structure of human figure as it relates to art. Drawing from live model; emphasis on gross anatomy as defined by skeletal and muscular structure. Expendable materials fee required.

Credit Hours: 3
Prerequisites: ART_DRAW 1050 and ART_DRAW 2210

ART_DRAW 3230: Beginning Illustration
An introduction to visual problem solving from initial concept through final execution. Emphasis in drawing and painting skills and exploration of mixed media techniques including drawing from the model. Graded on A-F basis only. Expendable materials fee.

Credit Hours: 3
Prerequisites: ART_DRAW 1050 and ART_DRAW 2210

ART_DRAW 3240: The Graphic Novel
This drawing course focuses on sequential narrative art and its relationship to the graphic novel. The term, “graphic novel” represents a broad range of styles, formats and genres from simple comics to highly
rendered illustrations. Lectures provide an introduction to some of the most highly respected works from the early twentieth century onward. Expendable materials fee required. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: ART_DRAW 1050 and ART_DRAW 2100

ART_DRAW 4200: Drawing IV
This course will provide an intensive experience in the development of a portfolio of artwork. Students will explore the connections between their work and contemporary art. May be repeated 3 times. Expendable Materials Fee Required.

Credit Hours: 3
Prerequisites: ART_DRAW 1050, ART_DRAW 2100 and ART_DRAW 3200

ART_DRAW 4210: Advanced Color Drawing
Continuation of ART_DRAW 3210 with emphasis on the expressive properties of color in figural compositions. Repeatable to 15 hours. Expendable materials fee required.

Credit Hours: 3
Prerequisites: ART_DRAW 1050, ART_DRAW 2200 and ART_DRAW 3210

ART_DRAW 4220: Advanced Anatomical Drawing
Continuation of ART_DRAW 3220 with and emphasis on formal analysis of the figure in drawing based on superficial and deep anatomical structure. May be repeated to 15 hour maximum. Expendable materials fee required.

Credit Hours: 3
Recommended: ART_DRAW 2210 and ART_DRAW 3200 before taking this class

ART_DRAW 4230: Advanced Illustration
Further development of conceptual problem solving skills and technical proficiency through self generated assignments. Emphasis is placed on portfolio development by exploring sequential and narrative themes. Topics include contract, copyrights, and the art of freelancing. Students are advised to take the course a minimum of two times. May be repeated to 15 hours maximum. Expendable materials fee required.

Credit Hours: 3
Prerequisites: ART_DRAW 1050 and ART_DRAW 2210
Recommended: ART_DRAW 3230

ART_DRAW 4285: Problems in Drawing
Problems in Drawing.

Credit Hour: 1-3
Prerequisites: departmental consent

ART_DRAW 7200: Graduate Drawing
Drawing with emphasis on individual creative expression. May repeat to 18 hours maximum. Expendable materials fee required.

Credit Hours: 3
Prerequisites: graduate Art major

ART_DRAW 7285: Problems in Drawing
Credit Hour: 1-3
Prerequisites: ART_DRAW 7200 and departmental consent

ART_DRAW 8200: Advanced Graduate Drawing
Continuation of ART_DRAW 7200. Repeatable to 15 hours.

Credit Hours: 3
Prerequisites: ART_DRAW 7200 or equivalent

ART_DRAW 8270: Graduate Drawing - Theory and Context
Contextualizing artwork in culture, history, and theory, May be repeated to 18 hours for credit. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: Graduate Art Majors

Art-Fibers (ART_FIBR)

ART_FIBR 2300: Beginning Fibers
Exploration of various fiber and media including papermaking, weaving, surface design and sculptural techniques. Expendable materials fee required.

Credit Hours: 3

ART_FIBR 3300: Intermediate Fibers
Continuation of ART_FIBR 2300 with emphasis on utilizing acquired technical processes in loom and off weaving, paper making and surface design and a means of developing visual statements. Expendable materials fee required.

Credit Hours: 3
Prerequisites: ART_FIBR 2300

ART_FIBR 4300: Advanced Fibers
Exploration of aesthetic concepts, development of personal style and instruction in advanced fiber techniques within medium selected by student. Expendable materials fee required. May repeat to 15 hours maximum.

Credit Hours: 3
Prerequisites: ART_FIBR 3300 or approved equivalents

ART_FIBR 4385: Problems in Fibers
Problems in Fibers.

Credit Hour: 1-3
Prerequisites: ART_FIBR 4300

ART_FIBR 7300: Graduate Fibers
Advanced technical and aesthetic study in medium of choice with emphasis on development of the individual student's ideas and goals. Expendable materials fee required. May repeat to 15 hours maximum.

Credit Hours: 3
Prerequisites: ART_FIBR 4300

ART_FIBR 7385: Problems in Fibers
Graduate level work in fibers.
Credit Hour: 1-3
Prerequisites: ART_FIBR 7300 and departmental consent

ART_FIBR 8300: Graduate Fibers II
Continuation of ART_FIBR 7300. Repeatable to 15 hours.
Credit Hours: 3
Prerequisites: ART_FIBR 7300 or equivalent

Art-General (ART_GNRL)

ART_GNRL 1010: Introduction to Art
Basic practice in drawing, painting, design. Exploratory course for beginners.
Credit Hours: 3
Prerequisites: Restricted to Non-majors only

ART_GNRL 1020: Appreciation of Art
Illustrated discussion with examples from varied historic and contemporary art fields on nature of art, functions, methods of creative expression. One section is writing intensive each semester and the other is NON writing intensive each semester.
Credit Hours: 3
Prerequisites: ENGLISH 1000 may be required on some sections
ART_GNRL 1020 - MOTR ARTS 100: Art Appreciation

ART_GNRL 1020W: Appreciation of Art - Writing Intensive
Illustrated discussion with examples from varied historic and contemporary art fields on nature of art, functions, methods of creative expression. One section is writing intensive each semester and the other is NON writing intensive each semester.
Credit Hours: 3
Prerequisites: ENGLISH 1000

ART_GNRL 1030: Basic 2-D Design
(Art Foundations) Study of the basic principles and elements of two-dimensional composition in art. These principles of organization are the bases for expression and critical analysis of the visual arts. Students will create several studio projects exploring design variables, while employing a range of tools and materials from drawing to digital methods.
Credit Hours: 3

ART_GNRL 1040: Basic 3-D Design
A foundational course designed to familiarize students with the elements and principles of three-dimensional design as well as some of the materials, tools, processes and techniques used in the creation of sculptural art. Study and development of formal aesthetic ideas, conceptual vocabulary and technical skills is emphasized. Expendable materials fee required.
Credit Hours: 3

ART_GNRL 1920: Introduction to Digital Media Production
(same as ENGLISH 1880, FILM_S 1880, DST 1880). Introduction to concepts and skills for Digital Storytelling, including media literacy and forms of narrative manifested historically and currently across a range of media. This course focuses on theories and concepts that support the critical analysis and creation of contemporary narrative in digital form with particular attention to audio, visual and written communication. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: BA/BFA art majors only through early registration

ART_GNRL 2000: Color Theory
An investigation of various color systems and their application to art.
Credit Hours: 3
Prerequisites: ART_GNRL 1030

ART_GNRL 2001: Topics in Art
Special studies in studio art; covers subjects not included in regularly offered courses. Topics course are repeatable for up to 6 credits per individual topic.
Credit Hour: 1-3
Prerequisites: instructor's consent

ART_GNRL 2005H: Topics in Art - Humanities - Honors
Special studies in studio art; covers subjects not included in regularly offered courses. Topics courses are repeatable for up to six credits per individual topic. Enrollment limited to students with Honors Eligibility.
Credit Hour: 1-3
Prerequisites: instructor's consent

ART_GNRL 2020: International Summer Study Abroad
A four-week study abroad in studio art with required participation in scheduled excursions to art-related sites. Students create original art for review at schedule critiques in 1) Florence, Italy and surrounding cities, or 2) The Netherlands and Belgium. May be repeated once for credit.
Credit Hours: 4

ART_GNRL 2030: Context and Culture
The purpose of this course is to give journalism students a framework for engaging with the visual arts, with a focus on the 20th century and today. Our goal is to conduct a foundation for thinking, talking and writing about the visual arts, especially works and movements that might be challenging for the novice to understand.
Credit Hours: 3

ART_GNRL 2030H: Context and Culture - Honors
The purpose of this course is to give journalism students a framework for engaging with the visual arts, with a focus on the 20th century and today. Our goal is to conduct a foundation for thinking, talking and writing about the visual arts, especially works and movements that might be challenging for the novice to understand.
Credit Hours: 3
Prerequisites: Honors eligibility required

ART_GNRL 2040: Sophomore Seminar
This course is a bridge between contemporary art practices and developing a strong independent studio practice. Students develop a foundational sense of being a visual artist from the perspective of studio
practice, professional application and creating an artistic identity through contemporary theory and short critical writings. Students will learn how to document and create a digital platform for their work, as well as search for internships, residencies and other professional arts opportunities. Through lectures, demonstrations, student collaborations, and visits with the local arts community, students will create a sphere of professional influences. Graded on A-F basis only.

**Credit Hours:** 3
**Prerequisites:** ART_GNRL 1030, ART_GNRL 1040 and ART_DRAW 1050

---

**ART_GNRL 3001: Topics in Art**
Special studies in studio art; covers subjects not included in regularly offered courses. Topics courses are repeatable for up to 6 credits per individual topic. Enrollment limited to students with junior standing.

**Credit Hour:** 1-3
**Prerequisites:** instructor's consent

---

**ART_GNRL 3005: Topics in Art - Humanities**
Special studies in studio art; covers subjects not included in regularly offered courses. Topics courses are repeatable for up to six credits per individual topic.

**Credit Hour:** 1-3
**Prerequisites:** Instructor's consent

---

**ART_GNRL 3005H: Topics in Art - Humanities Honors**
Special studies in studio art; covers subjects not included in regularly offered courses. Topics courses are repeatable for up to six credits per individual topic. Enrollment limited to students with Honors Eligibility.

**Credit Hour:** 1-3
**Prerequisites:** instructor's consent

---

**ART_GNRL 3020: International Summer Study Abroad**
A four-week study abroad in studio art with required participation in scheduled excursions to art-related sites. Students create original art for review at scheduled critiques in 1) Florence, Italy and surrounding cities, or 2) The Netherlands and Belgium. May be repeated once for credit.

**Credit Hours:** 4
**Prerequisites:** instructor's consent

---

**ART_GNRL 3030: Undergraduate Internship in Art**
Special learning situations not covered by coursework. Credit standards pre-arranged with dept. Limit on total hours of problems courses applies. Enrollment limited to Art and Art Education majors with Junior Standing.

**Credit Hour:** 1-3
**Prerequisites:** departmental consent

---

**ART_GNRL 4001: Topics in Art**
Special studies in studio art; covers subjects not included in regularly offered courses. Topics courses are repeatable for up to 6 credits per individual topic.

**Credit Hour:** 1-3
**Prerequisites:** instructor's consent

---

**ART_GNRL 4001H: Topics in Art - Honors**
Special studies in studio art; covers subjects not included in regularly offered courses. Topics courses are repeatable for up to 6 credits per individual topic. Enrollment limited to students with Honors Eligibility.

**Credit Hour:** 1-3
**Prerequisites:** instructor's consent

---

**ART_GNRL 4005H: Topics in Art - Humanities Honors**
Special studies in studio art; covers subjects not included in regularly offered courses. Topics courses are repeatable for up to six credits per individual topic. Enrollment limited to students with Honors Eligibility.

**Credit Hour:** 1-3
**Prerequisites:** instructor's consent

---

**ART_GNRL 4030: Video Art and the Moving Image**
(same as FILM_S 4030; cross-leveled with ART_GNRL 7030). Video as a fine art form intersecting with sculpture, experimental filmmaking, DIY and Internet culture. Theoretical and historical knowledge is integrated with studio practice. Students create video works in Adobe Premiere Pro, demonstrating technical ability and aesthetic vision. May be repeated up to 9 hours maximum.

**Credit Hours:** 3

---

**ART_GNRL 4040: 2-D Portfolio Development**
This course will provide an intensive experience in the development of a portfolio of personal work outside the traditional media boundaries. Students will explore media relevant to their particular needs and begin to explore the connections between their work and contemporary art and culture through readings, discussions and critiques. Expendable Materials Fee Required. May be repeated up to 6 credits. Enrollment limited to students with Junior Standing. Recommended: 3000-level or above course in one of the following media areas: Drawing, Painting or Printmaking.

**Credit Hours:** 3
**Prerequisites:** instructor's consent required

---

**ART_GNRL 4050: Performance Art**
(cross-leveled with ART_GNRL 7050). This studio art course will survey the practices in Performance Art and its intersections with visual and media-based art, experimental theater, music and dance. Modules will include performance and: the object, culture, the mediatized body and alternative spaces. Graded on A-F basis only. May be repeated up to 9 hours maximum.

**Credit Hours:** 3

---

**ART_GNRL 4975: Senior Seminar in Art**
A capstone course for the undergraduate art degree with emphasis on the production of a written statement relating to the students' visual research.

**Credit Hours:** 3
**Prerequisites:** senior standing and ENGLSH 1000

---

**ART_GNRL 4975W: Senior Seminar in Art - Writing Intensive**
A capstone course for the undergraduate art degree with emphasis on the production of a written statement relating to the students' visual research.
ART_GNRL 4976: Design - Senior Seminar
Capstone for undergraduate art students who are interested in graphic design. Emphasis placed on research and writing about the theory and practice of design. Students connect with Graphic Design Alumni who are working in the field of design. All students will participate in a final, formal portfolio review.

Credit Hours: 3
Prerequisites: senior standing and ENGLSH 1000

ART_GNRL 4976W: Design - Senior Seminar - Writing Intensive
Capstone for undergraduate art students who are interested in graphic design. Emphasis placed on research and writing about the theory and practice of design. Students connect with Graphic Design Alumni who are working in the field of design. All students will participate in a final, formal portfolio review.

Credit Hours: 3
Prerequisites: senior standing and ENGLSH 1000

ART_GNRL 7000: Graduate Art - Studio Practice and Critique
Art studio practice emphasis on individual creative expression. Course may be repeated for up to 15 credit hours. Expendable materials fee required. Graded on A-F basis only. Prerequisites: Graduate Art Major

Credit Hours: 3

ART_GNRL 7001: Topics in Art
Special studies in studio art at the graduate level; covers subjects not included in regularly offered courses. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: instructor's consent

ART_GNRL 7005: Topics in Art - Humanities
Special studies in graduate level studio art; covers subjects not included in regularly offered courses. Topics courses are repeatable for up to 6 credits per individual topics.

Credit Hour: 1-3
Prerequisites: instructor's consent

ART_GNRL 7020: International Summer Study Abroad
A four-week study abroad in studio art with required participation in scheduled excursions to art-related sites. Students create original art for review at scheduled critiques in 1) Florence, Italy and surrounding cities, or 2) The Netherlands and Belgium. May be repeated for credit.

Credit Hours: 4

ART_GNRL 7030: Video Art and the Moving Image
(cross-leveled with ART_GNRL 4030). Video as a fine art form intersecting with sculpture, experimental filmmaking, DIY and Internet culture. Theoretical and historical knowledge is integrated with studio practice. Students create video works in Adobe Premiere Pro, demonstrating technical ability and aesthetic vision. May be repeated up to 9 hours maximum.

Credit Hours: 3

ART_GNRL 7050: Performance Art
(cross-leveled with ART_GNRL 4050) This studio art course will survey the practices in Performance Art and its intersections with visual and media-based art, experimental theater, music and dance. Modules will include performance and: the object, culture, the mediated body, culture and alternative spaces. Graded on A-F basis only.

Credit Hours: 3

ART_GNRL 7085: Problems in Art
Individual study in a subject area to be proposed by the student and approved by the instructor. The student will meet periodically on a regular basis with the instructor to review progress on the work assigned. May be repeated for credit. Graded on A-F basis only.

Credit Hour: 1-3
Prerequisites: for students with strong preparation in Art; departmental consent

ART_GNRL 8000: Graduate Art - Advanced Studio Practice and Critique
Continuation of ART_GNRL 7000. Art studio practice with emphasis on individual creative expression. Course may be repeated for up to 15 credit hours. Expendable materials fee required. Graded on A-F basis only. Prerequisites: Graduate Art Major

Credit Hours: 3

ART_GNRL 8001: Topics in Art
Special studies in graduate level studio art; covers subjects not included in regularly offered courses. Topics courses are repeatable for up to 6 credits per individual topic.

Credit Hour: 1-3
Prerequisites: instructor's consent

ART_GNRL 8070: Graduate Art - Theory and Context
Contextualizing artwork in culture, history, and theory. May be repeated up to 18 hours for credit. Graded on A-F basis only

Credit Hours: 3
Prerequisites: Graduate Art standing

ART_GNRL 8090: MFA Thesis Exhibition Documentation
Preparation of materials deemed necessary to document in a permanent form the thesis exhibition. Credit will be granted upon the satisfactory completion of the document, which will be retained by the Department of Art. Required of all MFA candidates. Graded on S/U basis only.

Credit Hour: 1

ART_GNRL 9010: Graduate Studio Seminar
Practical and philosophical concerns of the visual artist. Mandated for all MFA candidates.

Credit Hour: 1-2
Art-Graphic Design (ART_GRDN)

ART_GRDN 1400: Beginning Digital Imaging
Class will cover the basic tools used in digital imaging software. A variety of different software may be offered. Course may be repeated for up to 3 hours with the consent of instructor. Graded on S/U basis only.
Credit Hour: 1

ART_GRDN 2400: Advanced Digital Imaging
Class will cover the basic tools used in digital imaging software. A variety of different software may be offered. Course may be repeated for up to 3 hours with the consent of instructor. Graded on S/U basis only.
Credit Hour: 1
Prerequisites: ART_GRDN 1400

ART_GRDN 2410: Graphic Design I
Emphasis on developing a design language and vocabulary. Projects explore visual images in two-dimensional space, each one focusing on a specific set of relationships. Introduction to methodological and research practices for designers. Course concludes with portfolio review for admission to ART_GRDN 2420 and further Graphic Design Courses. Payment of expendable materials fee is required.
Credit Hours: 3
Prerequisites: ART_GNRL 1030, ART_DRAW 1050; restricted to BA/BFA art majors
Recommended: ART_GNRL 1040

ART_GRDN 2420: Graphic Design II
Introduction to the discipline, function and tradition of typography. Topics include communication, text intensive documents, legibility/readability, movement, language sequence and information hierarchy. Payment of expendable materials fee is required. Enrollment is limited to students who have completed ART_GRDN 2410 and successful completion of the graphic design portfolio review.
Credit Hours: 3
Prerequisites: consent of instructor

ART_GRDN 2430: Calligraphy and Hand Lettering
Technical and historical instruction on several calligraphic alphabets. Application of hand lettering to both two and three-dimensional design projects. Emphasis placed on both technical mastery of letters, development of personal style and creative expression in projects.
Credit Hours: 3
Prerequisites: ART_GNRL 1030, ART_DRAW 1050 or instructor's consent

ART_GRDN 3410: Graphic Design III
Digital media and motion graphics are explored through the development of interactive presentations and web site design. Students experiment with the computer as a medium for delivery of communication. New, practical and conceptual skills will be discussed in order to develop meaningful, interactive user experiences. Payment of expendable materials fees is required.
Credit Hours: 3
Prerequisites: ART_GRDN 2420

ART_GRDN 3420: Graphic Design IV
Goal directed graphic design problem solving stressing the integration of theory and practical applications while sharpening conceptual, computer, and research skills. Topics include current design theory, advanced typographic study, production methods and design/client interaction. Payment of expendable materials fee is required.
Credit Hours: 3
Prerequisites: ART_GRDN 3410

ART_GRDN 3430: Advanced Calligraphy and Hand Lettering
Continuation of ART_GRDN 2430. Students will expand their skills including study of more complex alphabets and further their personal style. Emphasis placed on both mastery of letters and creative exploration in projects. Repeatable to 6 credits.
Credit Hours: 3
Prerequisites: ART_GRDN 2430

ART_GRDN 3440: Packaging Design
This course will look at the discipline of packaging design from a three-dimensional perspective. By gaining an understanding of the materials and processes that relate to packaging, students will develop a selection of packaging solutions for a variety of different clients. Payment of expendable material fee is required. Repeatable to 6 credits.
Credit Hours: 3
Prerequisites: ART_GRDN 3410

ART_GRDN 3441: The History of Graphic Design
Broad overview of the history of graphic design. Topics will range from the history of printing, the beginnings of the profession, major movements and developments to the practice of design. Also looks at how the history of design and printing apply to today's visual communication.
Credit Hours: 3
Prerequisites: instructor's consent

ART_GRDN 3442: Design for Corporate Identity and Branding
Planning, strategy, and design of the visual components necessary to create a corporate identity. Course will focus on how cohesive design programs function across various mediums and engage specific audiences. Payment of expendable materials fees is required. Repeatable to 6 credits.
Credit Hours: 3
Prerequisites: ART_GRDN 3410

ART_GRDN 3443: Letterpress
This course is about creating conceptual design solutions using the letterpress printing process. Projects are very broad, conceptual and highly individual with the opportunity to explore letterpress printing processes using several different presses and printing techniques. Each project will require a limited edition print run. Repeatable to 9 hours.
Credit Hours: 3
Prerequisites: Instructor's consent
ART_GRDN 4410: Graphic Design V
Directed research, study and critical analysis in graphic design. Emphasis placed on research, writing, problem solving, aesthetic perception, conceptual thinking skills and technical proficiency. Students will focus on portfolio preparation and are advised to take the course a minimum of two times. May be repeated to 15 hours maximum. Payment of expendable materials fee is required.
Credit Hours: 3
Prerequisites: ART_GRDN 3420

ART_GRDN 4485: Problems in Graphic Design
Problems in Graphic Design.
Credit Hour: 1-3
Prerequisites: ART_GRDN 4410 and departmental consent

ART_GRDN 7400: Graduate Graphic Design
Graduate level work in graphic design. Emphasis on self-directed research and critical analysis. Students are encouraged to focus on conceptual development of their design work. Instruction is tailored to the student's individual investigations. Repeatable to 15 hours maximum.
Credit Hours: 3
Prerequisites: instructor's consent

ART_GRDN 7485: Problems in Graphic Design
Graduate level work in graphic design.
Credit Hour: 1-3
Prerequisites: ART_GRDN 4410 and departmental consent

ART_PNT 2500: Beginning Painting
Introduces primary techniques of painting. Emphasis on conceptualization of visual perception (understanding how we see) and the creative processes (understanding how we create). Sections either in oil or acrylic; contact instructor. Expendable material fee required.
Credit Hours: 3

ART_PNT 2510: Beginning Watercolor Painting
Theory, practice of painting in water color from still life, landscape, figure. Expendable materials fee required.
Credit Hours: 3

ART_PNT 3500: Intermediate Painting
This course provides a bridge between beginning and advanced painting. Student work will build on the structured assignments in the beginning course (ART_PNT 2500) to the more self-directed work expected in advanced art courses. Students will develop skills and critical thinking around how to make paintings that are visually dynamic yet also conceptually interesting and innovative. This course begins the process of creating a cohesive project in painting and a body of work as a professional artist. May be repeated to 9 hours maximum. Expendable materials fee required.
Credit Hours: 3
Prerequisites: ART_PNT 2500

ART_PNT 3510: Intermediate Watercolor Painting
Continuation of ART_PNT 2510. Theory and practice of painting in watercolor. May be repeated to 9 hours maximum. Expendable materials fee required.
Credit Hours: 3
Prerequisites: ART_PNT 2510

ART_PNT 4500: Advanced Painting: Portfolio
This course will provide an intensive experience in the development of a portfolio of artwork in painting. Students will explore the connections between their work and contemporary art. May be repeated to 15 hours maximum. Cross-listed with other advanced art classes so students may be working in a range of media. Expendable materials fee required.
Credit Hours: 3
Prerequisites: ART_PNT 3500

ART_PNT 4510: Advanced Watercolor Painting
(cross-leveled with ART_PNT 7510). Advanced problems in watercolor. May repeat to 15 hours maximum. Expendable materials fee required.
Credit Hours: 3
Prerequisites: ART_PNT 3510

ART_PNT 4585: Problems in Painting
Problems in Painting. Enrollment limited to students who have taken ART_PNT 4500.
Credit Hour: 1-3
Prerequisites: ART_PNT 4500 and departmental consent

ART_PNT 7500: Graduate Painting
Advanced study. Emphasis on individual creative expression. May repeat to 18 hours maximum. Expendable materials fee required.
Credit Hours: 3
Prerequisites: graduate Art major

ART_PNT 7585: Problems in Painting
Credit Hour: 1-3
Prerequisites: ART_PNT 7500 and departmental consent

ART_PNT 8500: Advanced Graduate Painting
Continuation of ART_PNT 7500. Repeatable to 15 hours.
Credit Hours: 3
Prerequisites: ART_PNT 7500 or equivalent

ART_PNT 8570: Graduate Painting - Theory and Context
Contextualizing artwork in culture, history, and theory. Repeatable to 18 hours for credit. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: Graduate Art standing
ART_PNT 8585: Problems in Painting II
Advanced independent studio practice including critical evaluation of student's creative work. Individual study in painting is to be proposed by the student and approved by the instructor. The student will meet on a regular basis with the instructor to review student progress. May be repeated for credit. Graded on A-F basis only.
Credit Hour: 1-3
Prerequisites: For students with strong preparation in Art; departmental consent; ART_PNT 7585

Art-Photography (ART_PHOT)

ART_PHOT 2600: Beginning Photography
Introduction to photography within an art context; digital workflow including use of camera, software, and digital output methods; and a survey of both contemporary and historical topics related to visual and conceptual concerns. Digital camera with RAW capability and manual aperture + shutter controls required. DSLR recommended. Payment of expendable materials fee required.
Credit Hours: 3
Prerequisites: BA/BFA art majors only through early registration
Recommended: ART_GNRL 1030, ART_GNRL 1040, ART_DRAW 1050

ART_PHOT 3600: Intermediate Photography
Continuation of ART_PHOT 2600 with emphasis utilizing acquired technical process to facilitate use of the camera as a means of developing awareness of immediate environment and the capabilities of Photography as a communicative, documentary, and expressive medium. Payment of expendable material fee is required.
Credit Hours: 3
Prerequisites: ART_PHOT 2600

ART_PHOT 4600: Advanced Photography
Exploration of aesthetic concepts, development of personal vision, and instruction in advanced technical process including fine B&W printing, negative and positive color, large format, zone system, and portfolios and book design to facilitate critical observation and personal expression through the medium of Photography. Payment of expendable materials fee is required. May repeat to 15 hours maximum.
Credit Hours: 3
Prerequisites: ART_PHOT 2600 and ART_PHOT 3600

ART_PHOT 4685: Problems in Photography
Supervised research in creative photography.
Credit Hour: 1-3
Prerequisites: departmental consent

ART_PHOT 7685: Problems in Photography
Supervised research in creative photography.
Credit Hour: 1-3
Prerequisites: ART_PHOT 4410

ART_PHOT 8600: Graduate Photography II
Continuation of ART_PHOT 7600. Repeatable to 15 hours.
Credit Hours: 3
Prerequisites: ART_PHOT 7600 or equivalent

Art-Printmaking (ART_PRNT)

ART_PRNT 2700: Introduction to Etching and Relief Printmaking
Introduction to Etching and Relief techniques to create original works of art toward portfolio and concept development. Processes include copper etching, linocut, woodcut, photo and laser etching, aquatint, drypoint, mezzotint, collagraphy, monotype, B&W and color printing. Expendable materials fee required.
Credit Hours: 3

ART_PRNT 2730: Introduction to Screen Printing
Introduction to large format color screen printing to create original works of art toward portfolio and concept development. Processes include reduction, CMYK, photo based screen printing methods, screen building and registration. Expendable materials fee required.
Credit Hours: 3

ART_PRNT 3700: Intermediate Printmaking
Intermediate printmaking focuses on strengthening all printmaking processes (Etching, Relief, Screen Printing, Lithography, Photo mechanics, Collagraphy and Monotype) towards an emphasis in concept, critique and portfolio building. Expendable materials fee required.
Credit Hours: 3
Recommended: ART_PRNT 2700, ART_PRNT 2730

ART_PRNT 4700: Advanced Printmaking
An advanced study of all printmaking processes with an emphasis in experimentation towards finalizing a fully realized fine art portfolio for a career in art. This class focuses on the refinement of all printmaking processes, critique and individual creative expression. May be repeatable to 15 hours. Expendable materials fee required.
Credit Hours: 3
Prerequisites: ART_PRNT 2700 or ART_PRNT 2730 and ART_PRNT 3700

ART_PRNT 4785: Problems in Printmaking
An intense independent study of printmaking processes designed around the student's particular academic goals.
Credit Hour: 1-3
Prerequisites: departmental consent
**ART_PRNT 7700: Graduate Printmaking**
Graduate level study in all processes of printmaking with a focus on exploring thesis themes within the history and concept of print based art. May repeat to 15 hours maximum. Expendable materials fee required.

**Credit Hours:** 3  
**Prerequisites:** departmental consent

**ART_PRNT 7785: Problems in Printmaking**
An intense independent study designed around the graduate student's particular academic goals.

**Credit Hour:** 1-3  
**Prerequisites:** ART_PRNT 7700 and departmental consent

**ART_PRNT 8700: Graduate Printmaking II**
Continuation of ART_PRNT 7700. Repeatable to 15 hours.

**Credit Hours:** 3  
**Prerequisites:** ART_PRNT 7700 or equivalent

---

**Art-Sculpture (ART_SCUL)**

**ART_SCUL 2800: Beginning Sculpture**
Principles of sculptural organization, figure studies, modeling techniques, simple plaster casting. Payment of expendable materials expense is required.

**Credit Hours:** 3  
**Prerequisites:** BA/BFA Art majors only through early registration

**ART_SCUL 2810: Experimental Media I**
Ordering and structuring materials into compositional forms, using various media, traditional as well as new. Subject matter will vary each semester.

**Credit Hours:** 3  
**Prerequisites:** permission of instructor

**ART_SCUL 2820: Beginning Welding And Casting**
This course is intended to foster critical thinking, creative problem solving, and cultural/visual literacy through the introduction of sculptural welding and metal casting techniques. Projects will address the sculptural methods of manipulation, addition, and substitution as well as the principles of three-dimensional design. Students will become conversant with MIG and gas welding as well as centrifugal and ceramic shell casting. The relationship of form and content will be discussed during class critiques. Graded on A-F basis only.

**Credit Hours:** 3  
**Prerequisites:** BA/BFA Art majors only through early registration

**ART_SCUL 3800: Intermediate Sculpture**
Continuation of ART_SCUL 2800. This course is designed to allow the student to pursue self-initiated imagery and ideas through the manipulation of mass and volume in time/space. A wide range of materials and techniques are available including the following: substitution casting (resin or bronze), subtraction (stone or wood), manipulation (terra-cotta or plaster), addition (welding, mixed media or assemblage) and/or time (video or performance). The relationship of form and content will be discussed during class critiques.

**Credit Hours:** 3  
**Recommended:** MATH 1100 or MATH 1120 or equivalent

**ASTRON 1010: Introduction to Astronomy**
Survey of methods of astronomy; description of the solar system, stellar astronomy, structure of the galaxy and the universe. Three hours of lecture and one hour of lab per week (scheduled by the instructor). Satisfies physical science laboratory requirement. Laboratory section: Survey of astronomical methods, instruments, observations and measurement techniques.

**Credit Hours:** 4  
**Recommended:** MATH 1100 or MATH 1120 or equivalent

**ASTRON 1020: Introduction to Laboratory Astronomy**
Laboratory supplement to Astronomy 1010. Satisfies physical science laboratory requirement. Survey of astronomical methods, instruments, observations and measurement techniques.

**Credit Hours:** 2
Recommended: MATH 1100 or MATH 1120

ASTRON 1200: History of Astronomy
Astronomy is the oldest and yet the newest science discipline that has far-reaching impact on our civilization. This course aims to provide a brief historical account of the major milestones in Astronomy that have led to our current understanding of the universe. Graded on A-F basis only.

Credit Hours: 3

Prerequisites: None

ASTRON 3010: Introduction to Modern Astrophysics
(same as PHYSCS 3010). Elements of stellar, and galactic astrophysics. Interpretation of observations and physical conditions of various astronomical objects including stars, gaseous nebulae and, galaxies.

Credit Hours: 3

Prerequisites: PHYSCS 2760

ASTRON 4020: Astrophysical Techniques
(same as PHYSCS 4020; cross-leveled with PHYSCS 7020). Elements of modern astronomical instruments, observations and analysis, with the emphasis in the optical regime. Graded on A-F basis only.

Credit Hours: 3

Prerequisites: ASTRON 3010

ASTRON 4180: Solar System Science
(same as PHYSCS 4180, GEOL 4180; cross-leveled with GEOL 7180). Investigates physical states, interior structures and comparative geology of solar systems bodies: planets, moons, asteroids, comets, sun. Solar system formation and evolution.

Credit Hours: 3

Prerequisites: ASTRON 3010

Recommended: MATH 1700

ASTRON 4250: Stellar Astrophysics
(same as PHYSCS 4250). Basic astrophysics of stable and unusual stars, stellar systems. Investigates stellar dimensions, radiation, spectra, energy, evolution, populations; interstellar medium, stellar motions and aggregation.

Credit Hours: 3

Prerequisites: ASTRON 3010

ASTRON 4350: Galactic Astronomy
(same as PHYSCS 4350; cross-leveled with ASTRON 7350). The course aims to introduce students to the basic knowledge of our Galaxy: how it looks like, how it might be formed, and how we have gained knowledge about it through observations. The main topics include distance measurement of stars, evolution of stars, interstellar medium, star clusters, the structure of Galaxy. The course will also briefly touch on "Near-field Cosmology" (sometimes referred to as "Galactic Archeology"), i.e., what we can infer from our Galaxy the general picture of galaxy formation and evolution.

Credit Hours: 3

Prerequisites: ASTRON 3010 or PHYSCS 3010

ASTRON 4360: Extragalactic Astronomy
(same as PHYSCS 4360; cross-leveled with ASTRON 7360). This course introduces students to the most basic knowledge of extragalactic astronomy, starting from Milky Way and extending to the most distant universe. Topics covered will include galaxy morphology and classification, groups and clusters of galaxies, active galactic nuclei, and galaxy formation and evolution.

Credit Hours: 3

Prerequisites: ASTRON 3010 or PHYSCS 3010

ASTRON 4550: Cosmochemistry
(same as PHYSCS 4550; cross-leveled with ASTRON 7550, PHYSCS 7550). Cosmic dust, stardust, spectra, energy, interstellar medium, meteorites, astromineralogy.

Credit Hours: 3

Prerequisites: ASTRON 3010

ASTRON 4950: Undergraduate Research in Astronomy
Special studies in astronomy; covers subjects not included in courses regularly offered.

Credit Hour: 1-99

Prerequisites: instructor's consent

ASTRON 4960: Senior Thesis in Astronomy
Special studies for senior undergraduate students in astronomy. The course requires an oral or poster presentations, or faculty-guided writing of a senior thesis involving independent research. Departmental consent required for repetition. Enrollment limited to students who have completed 3 credit hours of ASTRON 4950 or PHYSCS 4950.

Credit Hours: 3

Prerequisites: instructor's consent

ASTRON 7180: Solar System Science
(same as PHYSCS 7180, GEOL 7180; cross-leveled with ASTRON 4180, PHYSCS 4180, GEOL 4180). Investigates physical states, interior structures and comparative geology of solar systems bodies: planets, moons, asteroids, comets, sun. Solar system formation and evolution.

Credit Hours: 3

Prerequisites: PHYSCS 1220 or PHYSCS 2760 or instructor's consent

ASTRON 7350: Galactic Astronomy
(cross-leveled with PHYSCS 4350, ASTRON 4350). The course aims to introduce students to the basic knowledge of our Galaxy: how it looks like, how it might be formed, and how we have gained knowledge about it through observations. The main topics include distance measurement of stars, evolution of stars, interstellar medium, star clusters, the structure of Galaxy. The course will also briefly touch on "Near-field Cosmology" (sometimes referred to as "Galactic Archeology"), i.e., what we can infer from our Galaxy the general picture of galaxy formation and evolution.

Credit Hours: 3

Prerequisites: ASTRON 3010 or PHYSCS 3010

ASTRON 7550: Cosmochemistry
(same as PHYSCS 7550; cross-leveled with ASTRON 4550, PHYSCS 4550). Cosmic dust, stardust, spectra, energy, interstellar medium, meteorites, astromineralogy.

Credit Hours: 3

Prerequisites: ASTRON 3010
### ASTRON 8550: Stellar Structure and Evolution
(same as PHYSCS 8550). Reviews of atomic and molecular spectra. Investigates quantum radiation law, emission and absorption processes, radiation transfer theory, continuous and discrete line spectra of stars, stellar composition.  
**Credit Hours:** 3  
**Prerequisites:** ASTRON 4250, PHYSCS 4800, or instructor's consent

### Athletic Training (ATHTRN)

#### ATHTRN 1100: Athletic Training Skills I
Introduction to athletic training skills. Clinical observation hours required. Graded on A-F basis only.  
**Credit Hours:** 2  
**Prerequisites:** Restricted to Pre-Athletic Training majors only

#### ATHTRN 1200: Athletic Training Skills II
Continuation of athletic training skills. Graded on A-F basis only.  
**Credit Hours:** 2  
**Prerequisites:** Pre-Athletic Training majors; Completion of ATHTRN 1100 with minimum grade of B-

#### ATHTRN 2001: Topics in Athletic Training
Organized study of selected topics in Athletic Training. Subjects and earnable credit may vary from semester to semester.  
**Credit Hours:** 1-15  
**Prerequisites:** Instructor's consent

#### ATHTRN 2100: Principles and Fundamentals of Athletic Training
Introduces students to the common principles and fundamentals associated with the profession of athletic training. Graded on A-F basis only.  
**Credit Hours:** 3  
**Prerequisites:** Restricted to Pre-Athletic Training majors only

#### ATHTRN 2150: Athletic Training Practicum I
The first in a sequence of practical/clinical experiences under the direct supervision of a Preceptor. Graded on A-F basis only.  
**Credit Hours:** 3  
**Prerequisites:** Restricted to Athletic Training majors; ATHTRN 1100, ATHTRN 1200, and ATHTRN 2100

#### ATHTRN 2250: Athletic Training Practicum II
The second in a sequence of practical/clinical experiences under the direct supervision of a Preceptor. Graded on A-F basis only.  
**Credit Hours:** 3  
**Prerequisites:** Restricted to Athletic Training majors; Completion of ATHTRN 2150 with minimum grade of B-

#### ATHTRN 2500: Elementary Human Anatomy
Analysis of the structure and function of cells, tissue, and organ systems. Emphasis is placed on the muscular, skeletal, and nervous systems as they relate to human movement. Graded on A-F basis only.  
**Credit Hours:** 3  
**Prerequisites:** Restricted to Pre-Athletic Training majors only

#### ATHTRN 2550: Examination of Cadaveric Human Anatomy
Study of the human body utilizing cadaver specimens. Special emphasis will be placed upon the skeletal, muscular and nervous systems. Graded on A-F basis only.  
**Credit Hours:** 4  
**Prerequisites:** Restricted to Athletic Training majors; Completion of ATHTRN 2500 with a minimum grade of C

#### ATHTRN 2600: Human Physiology
Investigation into the structure, function, physiology, and biochemistry of the cardiovascular, lymphatic, respiratory, digestive, urinary, endocrine, and reproductive systems. Graded on A-F basis only.  
**Credit Hours:** 3  
**Prerequisites:** Restricted to Athletic Training majors only; Completion of ATHTRN 2500 with a minimum grade of C

#### ATHTRN 3100: Mental Health in Athletic Training
Study of psychosocial strategies, mental health referral policies and clinical application to athletic training. Graded on A-F basis only.  
**Credit Hours:** 3  
**Prerequisites:** Restricted to Athletic Training majors; PSYCH 1000

#### ATHTRN 3150: Athletic Training Practicum III
The third in a sequence of practical/clinical experiences under the direct supervision of a Preceptor. Graded on A-F basis only.  
**Credit Hours:** 3  
**Prerequisites:** Restricted to Athletic Training majors only; Completion of ATHTRN 2250 with a minimum grade of B-

#### ATHTRN 3200: Therapeutic Modalities
Study of therapeutic modalities utilized in the treatment and rehabilitation of athletic injuries. Graded on A-F basis only.  
**Credit Hours:** 4  
**Prerequisites:** Restricted to Athletic Training majors; Completion of ATHTRN 2250 with a minimum grade of B-

#### ATHTRN 3250: Athletic Training Practicum IV
The fourth in a sequence of practical/clinical experiences under the direct supervision of a Preceptor. Graded on A-F basis only.  
**Credit Hours:** 3  
**Prerequisites:** Restricted to Athletic Training majors; Completion of ATHTRN 3150 with a minimum grade of B-

#### ATHTRN 3300: Injury Assessment I
A systematic approach to injury evaluation of the lower extremity and spine. Graded on A-F basis only.  
**Credit Hours:** 4  
**Prerequisites:** Restricted to Athletic Training majors; Completion of ATHTRN 2100 with a minimum grade of B- and ATHTRN 2500 and ATHTRN 2550 with a minimum grade of C

- ATM_SC 4590
- MATH 1700, PHYSICS 2760
ATM_SC 7710: Synoptic Meteorology I (cross-leveled with ATM_SC 4710). Meteorological Data. Basic techniques for surface and upper air analysis, using selected examples of weather patterns.

Credit Hours: 3
Prerequisites: ATM_SC 4050 or ATM_SC 7050 or ATM_SC 3600

ATM_SC 7710: Synoptic Meteorology I
(cross-leveled with ATM_SC 4710). Meteorological Data. Basic techniques for surface and upper air analysis, using selected examples of weather patterns.

Credit Hours: 3
Prerequisites: ATM_SC 4050 or ATM_SC 7050 or ATM_SC 3600

ATM_SC 7720: Synoptic Meteorology II (cross-leveled with ATM_SC 4720). Graphical analysis and interpretation of physical, kinematical and dynamical properties of the atmosphere. Analysis techniques applicable to atmospheric research.

Credit Hours: 4
Prerequisites: ATM_SC 4710 or ATM_SC 7710

ATM_SC 7720: Synoptic Meteorology II
(cross-leveled with ATM_SC 4720). Graphical analysis and interpretation of physical, kinematical and dynamical properties of the atmosphere. Analysis techniques applicable to atmospheric research.

Credit Hours: 4
Prerequisites: ATM_SC 4710 or ATM_SC 7710

Credit Hours: 3
Prerequisites: Math through Calculus III

ATM_SC 7800: Numerical Methods in Atmospheric Science and Natural Resources
(cross-leveled with ATM_SC 4800). Examines numerical methods used in solving differential equations, filtering data sets, and Fourier decomposition of discrete data sets.

Credit Hours: 3
Prerequisites: Math through Calculus III

ATM_SC 8001: Topics in Atmospheric Science
Development of the theory with its application for selected topics in atmospheric science.

Credit Hours: 3

ATM_SC 8001: Topics in Atmospheric Science
Development of the theory with its application for selected topics in atmospheric science.

Credit Hours: 3

ATM_SC 8085: Problems in Atmospheric Science
Independent study by graduate students in atmospheric science.

Credit Hour: 1-99

ATM_SC 8085: Problems in Atmospheric Science
Independent study by graduate students in atmospheric science.

Credit Hour: 1-99

ATM_SC 8090: Masters Research in Atmospheric Science
Original investigation in atmospheric science in support of a master's thesis. Graded on S/U basis only.

Credit Hour: 1-99

ATM_SC 8090: Masters Research in Atmospheric Science
Original investigation in atmospheric science in support of a master's thesis. Graded on S/U basis only.

Credit Hour: 1-99

ATM_SC 8400: Atmospheric General Circulation
Comprehensive review of dynamical theories of general circulation with intensive discussion of current problems.

Credit Hours: 3
Prerequisites: ATM_SC 4320 or ATM_SC 7320

ATM_SC 8400: Atmospheric General Circulation
Comprehensive review of dynamical theories of general circulation with intensive discussion of current problems.

Credit Hours: 3
Prerequisites: ATM_SC 4320 or ATM_SC 7320

ATM_SC 8450: Tropical Meteorology
Study of the synoptic and dynamic character of the atmosphere in the tropical regions, including an examination of the general circulation and tropical storms.

Credit Hours: 3
Prerequisites: ATM_SC 4710 or ATM_SC 7710, ATM_SC 4720 or ATM_SC 7720 and MATH 2300; instructor's consent. Graded on A-F basis only

ATM_SC 8450: Tropical Meteorology
Study of the synoptic and dynamic character of the atmosphere in the tropical regions, including an examination of the general circulation and tropical storms.

Credit Hours: 3
Prerequisites: ATM_SC 4710 or ATM_SC 7710, ATM_SC 4720 or ATM_SC 7720 and MATH 2300; instructor's consent. Graded on A-F basis only

ATM_SC 8500: Radiation in the Atmosphere
Physics of solar and infrared radiative transfer in the atmosphere, including energy conversion effects, atmospheric optics, and photochemical processes.

Credit Hours: 3
Prerequisites: one year College Physics and MATH 1700

ATM_SC 8500: Radiation in the Atmosphere
Physics of solar and infrared radiative transfer in the atmosphere, including energy conversion effects, atmospheric optics, and photochemical processes.

Credit Hours: 3
Prerequisites: one year College Physics and MATH 1700

ATM_SC 8550: Nowcasting
Students will learn the science of nowcasting through the study of the various methods used and apply their knowledge in the design of the elements of a nowcast system and practical nowcasting exercises.

Credit Hours: 3
Prerequisites: ATM_SC 8500, instructor's consent

ATM_SC 8550: Nowcasting
Students will learn the science of nowcasting through the study of the various methods used and apply their knowledge in the design of the elements of a nowcast system and practical nowcasting exercises.

Credit Hours: 3
Prerequisites: ATM_SC 8500, instructor's consent

ATM_SC 8600: Advanced Climate Dynamics
Study of global climate; application of large scale atmospheric dynamics; conservation of various forms of energy, climatic evaluation, large scale climatic modification.

Credit Hours: 3
Prerequisites: ATM_SC 4320 or ATM_SC 7320 and ATM_SC 8400 or ATM_SC 3600

ATM_SC 8600: Advanced Climate Dynamics
Study of global climate; application of large scale atmospheric dynamics; conservation of various forms of energy, climatic evaluation, large scale climatic modification.

Credit Hours: 3
Prerequisites: ATM_SC 4320 or ATM_SC 7320

ATM_SC 8500: Radiation in the Atmosphere
Physics of solar and infrared radiative transfer in the atmosphere, including energy conversion effects, atmospheric optics, and photochemical processes.

Credit Hours: 3
Prerequisites: one year College Physics and MATH 1700

ATM_SC 8550: Nowcasting
Students will learn the science of nowcasting through the study of the various methods used and apply their knowledge in the design of the elements of a nowcast system and practical nowcasting exercises.

Credit Hours: 3
Prerequisites: ATM_SC 8500, instructor's consent

ATM_SC 8600: Advanced Climate Dynamics
Study of global climate; application of large scale atmospheric dynamics; conservation of various forms of energy, climatic evaluation, large scale climatic modification.

Credit Hours: 3
Prerequisites: ATM_SC 4320 or ATM_SC 7320 and ATM_SC 8400 or ATM_SC 3600

ATM_SC 8805: Problems in Atmospheric Science
Independent study by graduate students in atmospheric science.

Credit Hour: 1-99

ATM_SC 8805: Problems in Atmospheric Science
Independent study by graduate students in atmospheric science.

Credit Hour: 1-99

ATM_SC 8900: Doctoral Research in Atmospheric Science
Original investigation in atmospheric science in support of a doctoral dissertation. Graded on S/U basis only.

Credit Hour: 1-99

ATM_SC 8900: Doctoral Research in Atmospheric Science
Original investigation in atmospheric science in support of a doctoral dissertation. Graded on S/U basis only.

Credit Hour: 1-99

ATM_SC 9300: Introduction to Chaos Theory
Atmospheric predictability and related topics are examined as they relate to governing equations of motion and their non-linear solutions.

Credit Hours: 3
Prerequisites: ATM_SC 4320 or ATM_SC 7320, MATH 4100

ATM_SC 9300: Introduction to Chaos Theory
Atmospheric predictability and related topics are examined as they relate to governing equations of motion and their non-linear solutions.

Credit Hours: 3
Prerequisites: ATM_SC 4320 or ATM_SC 7320, MATH 4100

ATM_SC 9350: Advanced Dynamic Meteorology
Application of perturbation dynamics, advanced dynamics, and numerical methods to study of atmospheric circulations.

Credit Hours: 3
Prerequisites: ATM_SC 4320 or ATM_SC 7320

ATM_SC 9350: Advanced Dynamic Meteorology
Application of perturbation dynamics, advanced dynamics, and numerical methods to study of atmospheric circulations.

Credit Hours: 3
Prerequisites: ATM_SC 4320 or ATM_SC 7320

ATM_SC 9590: Advanced Applications of Weather Radar
This course will investigate quantitative uses of weather radar data that go beyond standard reflectivity and velocity image interpretation, particularly those that use new techniques such as dual-polarization.
Students will develop methods to analyze and display meteorological radar data. Graded on A-F basis only.

**Credit Hours:** 3  
**Prerequisites:** Instructor's consent  
**Recommended:** MATH 1700, PHYSCS 2760, INFOTC 1040 or equivalent, ATM_SC 4590

---

**ATM_SC 9700: Advanced Synoptic Meteorology**  
Detailed examination of vertical motions, their forcing, and how each is diagnosed (quasigeostrophic theory, the Trenberth approximation, Q-vectors). Current issues in synoptic meteorology and operational forecasting are discussed.

**Credit Hours:** 3  
**Prerequisites:** ATM_SC 4720 or ATM_SC 7720

---

**ATM_SC 9712: Convection and Lightning**  
Cumulus convection and cloud physics topics that will facilitate a deeper understanding of cloud electrification and lightning production are studied. Graded on A-F basis only.

**Credit Hours:** 3  
**Prerequisites:** ATM_SC 4710 or ATM_SC 7710, ATM_SC 4720 or ATM_SC 7720, MATH 2300; instructor's consent

---

**ATM_SC 9800: Numerical Weather Prediction**  
Examination of finite difference and objective analysis techniques, basic physical concepts, and parameterization of physical processes. Experience with a range of models (1-D cloud to operational PE models) stressed.

**Credit Hours:** 3  
**Prerequisites:** ATM_SC 4710 or ATM_SC 7710, ATM_SC 4720 or ATM_SC 7720, MATH 2300; instructor's consent

---

**Biochemistry (BIOCHM)**

---

**BIOCHM 1090: Introduction to Biochemistry**  
Fundamental concepts in biochemistry and molecular biology: structure function relationships, reactivity, thermodynamics, gene expression. Professional skills for biomedical careers. Graded on A-F basis only.

**Credit Hours:** 3  
**Prerequisites or Corequisites:** CHEM 1320  
**Prerequisites:** MATH 1100 or MATH 1160 or MATH 1500 and Freshman or Sophomore standing

---

**BIOCHM 1094: Introductory Biochemistry Laboratory**  
Techniques course involving analytical experiments with carbohydrates, lipids, proteins, nucleic acids; use of instrumentation in biochemistry; purification and kinetics of enzymes, PCR and cloning. Graded on A-F basis only.

**Credit Hours:** 2  
**Prerequisites:** BIOCHM 1090; Biochemistry majors only

---

**BIOCHM 2110: The Living World: Molecular Scale**  
Survey of modern biochemistry and biotechnology. Structure and function of DNA, proteins, lipids and carbohydrates. The role of biopolymers in life processes and everyday living is emphasized.

**Credit Hours:** 3  
**Prerequisites:** for non-Biochemistry majors only

---

**BIOCHM 2112: Biotechnology in Society**  
Biotechnology in a social context covers three areas: introduction to terminology and concepts, specific biotechnological applications to modern problems, and ethical questions.

**Credit Hours:** 3  
**Prerequisites:** for non-biochemistry majors only

---

**BIOCHM 2480: Introduction to Macromolecular Structure and Function**  
The function of biochemical macromolecules is directly related to their structure. The three-dimensional structures of proteins, nucleic acids, polysaccharides and membranes are each explored in the context of their functions and their microenvironments within living organisms. Graded on A-F basis only.

**Credit Hours:** 2  
**Prerequisites:** C- or higher in BIOCHM 1090  
**Corequisites:** CHEM 2100 or CHEM 2110

---

**BIOCHM 2484: Macromolecular Techniques Laboratory**  
The laboratory experiments include DNA isolation, DNA cloning, PCR, plasmid transformation, protein expression, affinity-tagged chromatography, SDS-polyacrylamide gel electrophoresis, enzyme isolation, enzyme assay, buffer preparation, and Michaelis-Menten kinetics. Graded on A-F basis only.

**Credit Hours:** 2  
**Prerequisites:** sophomore standing; restricted to Biochemistry majors only

---

**BIOCHM 2484H: Macromolecular Techniques Laboratory - Honors**  
The laboratory experiments include DNA isolation, DNA cloning, PCR, plasmid transformation, protein expression, affinity-tagged chromatography, SDS-polyacrylamide gel electrophoresis, enzyme isolation, enzyme assay, buffer preparation, and Michaelis-Menten kinetics. Graded on A-F basis only.

**Credit Hours:** 3  
**Prerequisites:** sophomore standing; Biochemistry majors only. Honors eligibility required

---

**BIOCHM 2484HW: Macromolecular Techniques Laboratory - Honors/Writing Intensive**  
The laboratory experiments include DNA isolation, DNA cloning, PCR, plasmid transformation, protein expression, affinity-tagged chromatography, SDS-polyacrylamide gel electrophoresis, enzyme isolation, enzyme assay, buffer preparation, and Michaelis-Menten kinetics. Graded on A-F basis only.

**Credit Hours:** 3  
**Prerequisites:** sophomore standing; Biochemistry majors only. Honors eligibility required

---

**BIOCHM 3630: General Biochemistry**  
Survey of biochemistry; static/dynamic aspects of carbohydrates, lipids, proteins, nucleic acid. Discussion of metabolic pathways, energy production, and metabolic regulatory mechanism.
BIOCHM 4001: Topics in Biochemistry
Experimental courses; highly specialized topics taught infrequently or courses taught by visiting professors.
Credit Hours: 1-99

BIOCHM 4120: Medicinal Plant Science
Presentation of core topics, including an overview of plant groups with medicinal properties, botanical nomenclature, important biochemical pathways, exposure to journals, texts, and online databases that facilitate evidence-based research involving medicinal plants. Content of world-wide application. Has an international flavor. The course facilitates students to be independent learners and critical thinkers in this important knowledge area (of value to diverse academic backgrounds). The important role of collaborative inter-disciplinary studies will also be emphasized. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: CHEM 1100 or CHEM 1320
Recommended: BIO_SC 1200 or BIO_SC 1500 or BIOCHM 1090

BIOCHM 4270: Biochemistry
(cross-leveled with BIOCHM 7270). First semester of comprehensive biochemistry course: metabolic pathways, amino acids/proteins, carbohydrates, lipids, nucleic acids, kinetics, energy requirements, metabolic regulation in living cells.
Credit Hours: 3
Prerequisites: CHEM 2110

BIOCHM 4272: Biochemistry
(cross-leveled with BIOCHM 7272). Second semester of a comprehensive biochemistry course, including metabolism of carbohydrates, fatty acids, steroids, amino acid synthesis and metabolism, molecular genetics, hormones, photosynthesis and integrated metabolism.
Credit Hours: 3
Prerequisites: C- or higher in BIOCHM 4270

BIOCHM 4300: Physical Chemistry of Biological Systems
To present fundamental principles of physical chemistry in the context of the structure and function of biological macromolecules. Graded on A-F basis only.
Credit Hours: 3
Prerequisites or Corequisites: BIOCHM 4270

BIOCHM 4376: Computer Assisted Sequence Analysis and Molecular Modeling
(cross-leveled with BIOCHM 7376). Employs the use of computer-based interactive molecular graphics and sequence analysis software to analyze the three dimensional structures of macromolecules.
Credit Hours: 3
Prerequisites: CHEM 2110

BIOCHM 4385: Problems in Biochemistry
Credit Hour: 1-3
Prerequisites: departmental consent

BIOCHM 4510: Single Molecule Biophysics
(same as PHYSCS 4510; cross-leveled with BIOCHM 7510, PHYSCS 7510). The course provides an overview of the biophysics of enzymes, nucleic acids and the cytoskeleton. Topics covered will include diffusion, molecular motors, polymerization and the cytoskeleton and the polymer properties of nucleic acids and microtubules.
Credit Hours: 3
Prerequisites: PHYSCS 2760

BIOCHM 4950: Advanced Undergraduate Research in Biochemistry
Research credit for students doing an independent research project under the guidance of a faculty member. Project must be arranged by student and faculty member prior to registration. Graded on A-F basis only.
Credit Hours: 1-3
Prerequisites: departmental consent

BIOCHM 4964: Industrial Internship with ABC Laboratories
This 5-credit course is a school and field-based learning experience combining the study, observation, and employment with ABC Laboratories in Columbia, MO. The internship provides opportunities to apply skills, concepts and theories about biochemistry and analytical chemistry in a practical context. The purpose of the internship experience is to provide the intern with the opportunity to develop knowledge and skills deemed desirable for a career in the biotechnology industries. During the time indicated in this agreement for the internship experience, the intern is expected to become a productive employee of ABC Laboratories. This course will provide technical instruction on commonly used laboratory skills and instrumentation at the University of Missouri followed by technical instruction on software and instrumentation at ABC Laboratories. After the training period, the interns will have the opportunity to work at ABC Laboratories full time for the summer.
Credit Hours: 5
Prerequisites or Corequisites: BIOCHEM 4272, CHEM 3200
Prerequisites: BIOCHM 1090, BIOCHM 2484, BIOCHM 4270

BIOCHM 4970: Senior Capstone in Biochemistry
Problem-based course on fundamental concepts of biochemistry. Requires written and oral presentations. One of two capstone courses required for biochemistry majors. Graded on A-F basis only.
Credit Hours: 2
Prerequisites: Departmental consent required
Recommended: Corequisite of BIOCHM 4974

BIOCHM 4974: Biochemistry Laboratory
(cross-leveled with BIOCHM 7274). Techniques course involving analytical experiments with carbohydrates, lipids, proteins, nucleic acids; use of instrumentation in biochemistry; purification and kinetics of enzymes. One of two capstone courses required for biochemistry majors.
Credit Hours: 5
Prerequisites or Corequisites: BIOCHM 4272
Corequisites: BIOCHM 4970
BIOCHM 4974W: Biochemistry Laboratory - Writing Intensive
(cross-leveled with BIOCHM 7274). Techniques course involving analytical experiments with carbohydrates, lipids, proteins, nucleic acids; use of instrumentation in biochemistry; purification and kinetics of enzymes. One of two capstone courses required for biochemistry majors.

Credit Hours: 5
Prerequisites or Corequisites: BIOCHM 4272
Corequisites: BIOCHM 4970

BIOCHM 4978: Cancer Biology
(same as BIO_SC 4978; cross-leveled with BIOCHM 7978, BIO_SC 7978). The cellular and molecular basis of cancer, with emphasis on the application of genomics, proteomics, and genetic manipulations in model organisms to the study of cancer biology.

Credit Hours: 3
Prerequisites: BIO_SC 2200 and BIO_SC 2300 or BIOCHM 4270
Recommended: BIO_SCI 4976 or BIOCHM 4272

BIOCHM 4996H: Honors Thesis Research in Biochemistry
Laboratory research for honors students doing an honors thesis research project in their final two semesters. Enrollment limited to Honors eligible students with senior standing who have CAFNR honors approval. Graded on A-F basis only.

Credit Hour: 1-3
Prerequisites: departmental consent

BIOCHM 7085: Problems in Biochemistry
Problems in Biochemistry.

Credit Hour: 1-6
Prerequisites: Consent of Director of Graduate Studies required

BIOCHM 7270: Biochemistry
(cross-leveled with BIOCHM 4270). First semester of comprehensive biochemistry course: metabolic pathways, amino acids/proteins, carbohydrates, lipids, nucleic acids, kinetics, energy requirements, metabolic regulation in living cells.

Credit Hours: 3
Prerequisites: CHEM 2110

BIOCHM 7272: Biochemistry
(cross-leveled with BIOCHM 4272). Second semester of a comprehensive biochemistry course, including metabolism of carbohydrates, fatty acids, steroids, amino acid synthesis and metabolism, molecular genetics, hormones, photosynthesis and integrated metabolism.

Credit Hours: 3
Prerequisites: BIOCHM 7270

BIOCHM 7274: Biochemistry Laboratory
Techniques course involving analytical experiments with carbohydrates, lipids, proteins, nucleic acids; use of instrumentation in biochemistry; radioisotope tracers in metabolism; isolation, purification and kinetics of enzymes.

Credit Hours: 5
Corequisites: concurrent enrollment in BIOCHM 7270

BIOCHM 7376: Computer Assisted Sequence Analysis and Molecular Modeling
(cross-leveled with BIOCHM 4376). This course uses advanced computer graphics and computational techniques to analyze protein and nucleic acid sequences and their three-dimensional structures.

Credit Hours: 2
Prerequisites: CHEM 2110

BIOCHM 7510: Single Molecule Biophysics
(same as PHYSCS 4510, PHYSCS 4510). The course provides an overview of the biophysics of enzymes, nucleic acids and the cytoskeleton. Topics covered will include diffusion, molecular motors, polymerization and the cytoskeleton and the polymer properties of nucleic acids and microtubules.

Credit Hours: 3
Prerequisites: PHYSCS 2760

BIOCHM 7978: Cancer Biology
(same as BIO_SC 7978). The course will cover major molecular and cellular aspects of cancer. Students will read original research articles, present overviews and lead class discussions.

Credit Hours: 3
Prerequisites: BIOCHM 4270, BIO_SC 2300 and BIO_SC 4976

BIOCHM 8060: Ethical Conduct of Research
(same as BIO_SC 8060). Discussion of ethical issues in biological research, including the rules and conventions for appropriate research conduct. Graded on S/U basis only.

Credit Hour: 1

BIOCHM 8090: Research in Biochemistry
Research in biochemistry for qualified students, with counsel of faculty. Includes preparation of dissertation. Graded on S/U basis only.

Credit Hour: 1-99
Prerequisites: Consent of Director of Graduate Studies required

BIOCHM 8120: Advanced Medicinal Plant Science
Presentation of core topics in pharmacognosy, including an overview of plant groups with medicinal properties, essentials of botanical nomenclature. Overview of pharmacological activities of plant-sourced products and evidence-based research, phytochemical variation and significance, important bioactive pathways, origins of secondary metabolites, some major groups of phytochemicals, observations on economic and social trends in the use of medicinal plant products in developed and developing countries, overview of modern technology, high throughput screening, bioinformatics. Considerable exposure to key articles in journals, based on internationally accepted text (Trease & Evans), exposure to online databases - all sources of information that facilitate evidence-based research involving medicinal plants. Content of world-wide application. Has considerable international flavor and directly applicable to medicinal flora world-wide. The course facilitates students to be independent learners and critical thinkers in this important knowledge area (of value to diverse academic backgrounds). The important role of
collaborative inter-disciplinary studies is also emphasized. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: CHEM 1100 or CHEM 1320 or BIOCHM 1090 and BIO_SC 1200 or BIO_SC 1500 or the equivalent of these courses for non-MU students
Recommended: A Freshman level course in the Life Sciences or General Botany will also be advantageous but not essential.

BIOCHM 8130: Commercial Use of Biodiversity
Biological diversity/biodiversity - provides the basis for life on earth. The variability among living organisms and among the ecological complexes of which they are part - forms the basis of many commercial products and underpins our very existence by providing essential ecosystem services e.g. water purification, prevention of soil erosion and floods, and regulation of the climate. But biodiversity is declining. The rapidly growing demand for access to genetic resources, is raising the commercial value of biological diversity (especially plant diversity) for providing new genetic resources for enhancing existing crops species, developing new crops, phytopharmaceuticals, botanical medicines, horticulture - via GMO and plant breeding technologies. The course will address the commercial use of biodiversity - access to genetic resources and benefit-sharing via the following topics: Regulating access to genetic resources and benefit-sharing (legal aspects); Natural products and the pharmaceutical industry; Botanical medicine industry; Development of major crops by the seed industry; Horticulture; Crop protection; Biotechnology in fields other than healthcare and agriculture; Natural personal care and cosmetics industry; Industry and the Convention on Biodiversity (CBD). The areas of Technical Barriers to Trade (TBT) and the Regulatory Frameworks that govern the release of new crops and other plant-based products will also be addressed. Course is of world-wide appeal, facilitated by being 100% online and asynchronous (independent of time zones). This course is recommended (as an elective) for students desiring more understanding of the complexities associated with the commercial use of biodiversity (specifically the commercial use of genetic resources). Graded on A-F basis only.

Credit Hours: 3
Recommended: Experience in some undergraduate course work in the life-science area would be advantageous.

BIOCHM 8240: Introduction to Graduate Biochemistry I
Introduction to biochemistry for life science graduate students. Core course for Biochemistry students. Structures and interactions of biological macromolecules including thermodynamics, binding, enzyme action and biological membranes as well as techniques of analysis and structure determination.

Credit Hours: 4
Prerequisites: Undergraduate organic chemistry plus undergraduate biochemistry or molecular biology, their equivalent or permission of instructor.

BIOCHM 8260: Macromolecular Systems Integration
To introduce graduate students to biochemistry at the graduate level with particular emphasis on genomics/gene expression and replication; proteomics/cell signaling and metabolism. Course graded on A-F basis only.

Credit Hours: 4
Prerequisites: BIOCHM 8240

BIOCHM 8362: Introduction to Plant Metabolism
(same as PLNT_S 8362 and BIO_SC 8362). This course is part of a series that aims to provide a solid conceptual foundation in interdisciplinary plant biology for graduate students with a research emphasis in plant biology. This course examines the basic concepts and techniques used to understand plant metabolism. Graded on A-F basis only.

Credit Hours: 2

BIOCHM 8365: Introduction to Molecular Cell Biology
(same as BIO_SC 8365 and PLNT_S 8365). This course is part of a series that aims to provide a solid conceptual foundation in interdisciplinary plant biology for graduate students with a research emphasis on plant biology. This course examines the basic concepts and techniques used to understand molecular cell biology. Graded on A-F basis only.

Credit Hours: 2

BIOCHM 8432: Enzymology and Metabolic Regulation
A basic introduction to the study of enzymes and their role in intermediary metabolism. Topics include enzyme kinetics, mechanisms of enzymatic catalysis and control of metabolic pathways.

Credit Hours: 3
Prerequisites: BIOCHM 7272

BIOCHM 8434: Signaling in Molecular Cell Biology
The objective of this course is to provide important foundations in cellular signaling in the context of biochemistry and cell biology for first and second year graduate students. The course focuses on cell-to-cell communication and intracellular signaling via different classes of cell surface receptors using specific receptor paradigms from human, other animals, plants, yeast and E.coli. Primary literature will be used for in-class discussions and homework assignments to highlight key experiments and introduce students to relevant experimental techniques. Graded on A-F basis only.

Credit Hours: 3
Recommended: BIO_SC 2300, BIOCHM 4270

BIOCHM 8450: Rotation Research
Introductory laboratory research. Graded on A-F basis only. Normally 1 hour per advisor per semester, two-1 hour sections can be taken per semester.

Credit Hour: 1-2

BIOCHM 9001: Topics in Biochemistry
Experimental courses, highly specialized topics taught infrequently or courses taught by visiting professors.

Credit Hour: 1-9

BIOCHM 9087: Seminar in Biochemistry
Review of current literature; individual presentation of research or classical science topics.
University of Missouri

Credit Hour: 1

**BIOCHM 9090: Research in Biochemistry**
Research in biochemistry for qualified students, with counsel of faculty. Includes preparation of dissertation. Graded on a S/U basis only.

Credit Hour: 1-99

**BIOCHM 9432: Molecular Biology II**
(same as MICROB and BIO_SC 9432) Detailed experimental analysis of eukaryotic cellular and molecular biology relevant to cellular and viral gene expression, post-transcriptional and post-translational modifications and genome replication. Models for developmental genetic analysis and genetic determinants controlling developmental processes utilizing the current literature will be examined.

Credit Hours: 4

**BIOCHM 9462: Hormone Action**
A lecture course with weekly assigned readings. Topics will include: a description of selected polypeptide, steroid and other hormones and their biological effects; receptors; second messengers; protein phosphorylation in hormone mediation; growth factors; cellular oncogenes.

Credit Hours: 2

**BIOCHM 9468: Molecular Biology of Plant Growth and Development**
(same as BIO_SC 9468). Molecular biology of plant hormones, signal transduction, environmental signals.

Credit Hours: 3

**Biological Engineering (BIOL_EN)**

**BIOL_EN 1000: Introduction to Biological Engineering**
For first semester engineering students. Develop appreciation for professional engineering. Students will participate with senior design students to conceptualize a case-study problem.

Credit Hour: 1-2

**BIOL_EN 2000: Professional Development in Engineering**
A review of professional opportunities, registration, ethics, and societies.

Credit Hour: 1-2

**BIOL_EN 2080: Introduction to Programming for Engineers**
This course teaches how to write scientific programs for analysis of data and simulation of physical phenomena using Matlab. Graded on A-F basis only.

Credit Hours: 3

**BIOL_EN 2180: Engineering Analysis of Bioprocesses**
Material and Energy Balances. Integrating principles of physics, chemistry and mathematics to analyze steady state and transient biological/biomedical processes. Graded on A-F basis only.

Credit Hours: 3

**BIOL_EN 3070: Biological Fluid Mechanics**
Basic principles of fluid mechanics applied to transport processes in biological systems. Graded on A-F basis only.

Credit Hours: 3

**BIOL_EN 3075: Introduction to Materials Engineering**
Course covers concepts and techniques in materials engineering from an engineering design perspective, materials requirements for design, and fundamentals; intended for undergraduate engineering students. Graded on A-F basis only.

Credit Hours: 3

**BIOL_EN 3170: Biomaterials**
Engineering sciences and design will be leverage for the study and design of biomaterials. Understanding the structure-property relationship between biomaterials and tissue will be addressed for implant design.

Credit Hours: 3

**BIOL_EN 3170W: Biomaterials - Writing Intensive**
Engineering sciences and design will be leverage for the study and design of biomaterials. Understanding the structure-property relationship between biomaterials and tissue will be addressed for implant design.

Credit Hours: 3

**BIOL_EN 3180: Heat and Mass Transfer in Biological Systems**
Principles of heat and mass transfer and their applications in biomedical, bioenvironmental, and bioprocessing engineering.

Credit Hours: 3

**BIOL_EN 4001: Topics in Biological Engineering**
Current and new technical developments in biological engineering.

Credit Hours: 3

**BIOL_EN 4070: Bioelectricity**
(cross-leveled with BIOL_EN 7070). Application of engineering approaches to understand bioelectricity at the cellular level including the equivalent circuit of cell membranes and the electronic design of patch-clamp amplifiers.

Credit Hours: 3
BIOE 4085: Problems in Biological Engineering
Supervised independent study at the undergraduate level.
Credit Hours: 1-5
Prerequisites: instructor's consent

BIOE 4150: Soil and Water Conservation Engineering
(same as CV ENGR 4710; cross-leveled with BIOE 7150, CV ENGR 7710). Urban and rural run-off and erosion analysis. Design and layout of erosion control structures.
Credit Hours: 3
Recommended: BIOE 2180 or CV ENGR 3200

BIOE 4160: Food Process Engineering
(cross-leveled with BIOE 7160). Study of transport phenomena and unit operations in food processing systems. Emphasis on fluid flow and heat transfer in food processing, preservation processes, refrigeration, freezing, psychrometrics, and dehydration.
Credit Hours: 3
Prerequisites: BIOE 3180

BIOE 4170: Biomaterials Interfaces of Implantable Devices
(cross-leveled with BIOE 7170). Surface structures and properties to improve biocompatibility will be studied. Engineering sciences and design will be leveraged in the design of an improved biocompatible surface.
Credit Hours: 3
Prerequisites: BIOE 3170

BIOE 4231: Transport Phenomena in Materials Processing
(same as MAE 4231; cross-leveled with BIOE 7231, MAE 7231). Applications of fluid flow, heat transfer, and mass transfer in steady-state and unsteady-state materials processing with applications to metals, polymers, and ceramics. Graded on A-F basis only.
Credit Hours: 3
Prerequisites or Corequisites: MAE 4300
Prerequisites: C- or better in Math 4100

BIOE 4250: Irrigation and Drainage Engineering
(cross-leveled with BIOE 7250). Soil, water, plant relationships. Water supplies and design of surface, sprinkler and drip irrigation systems. Surface and tile drainage.
Credit Hours: 3
Prerequisites: CV ENGR 3700 or MAE 3400 or BIOE 2180

BIOE 4270: Design of Experiments and Statistical Quality Control for Process Engineers
(same as CH_ENG 4270; cross-leveled with BIOE 7270, CH_ENG 7270). A practical statistical tool box for experimenters including comparison of process means, effects of variables, design and interpretation of factorial experiments, and statistical quality control.
Credit Hours: 3
Recommended: experience with Excel or instructor's consent

BIOE 4310: Feedback Control Systems
(same as ECE 4310, MAE 4750; cross-leveled with BIOE 7310, ECE 7310, MAE 7750). System modeling and time and frequency response, closed loop control, stability, continuous system design, introduction to discrete time control, software and hardware experiments on compensator design and PI/D control. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: MATH 4100 and junior/senior standing

BIOE 4315: Principles of Biochemical Engineering
(same as CH_ENG 4315; cross-leveled with BIOE 7315, CH_ENG 7315). This general introduction to bioprocess engineering covers the fundamentals of microbiology and biochemistry in the context of a biomass refinery. Analyses proceed through the use of mass balances, energy balances, and empirical or theoretical models.
Credit Hours: 3
Prerequisites: BIOE 2180 (for biological engineering students) -or- CH_ENG 2225 (for chemical engineering students)
Recommended: BIOE 3180 (for biological engineering students) -or- CH_ENG 3234 (for chemical engineering students) -or- Consent of instructor

BIOE 4316: Biomass Refinery Operations
(same as CH_ENG 4316; cross-leveled with BIOE 7316, CH_ENG 7316). Design and operation of processes for conversion and/or fractionation of biomass and associated upstream and downstream unit operations. Emphasis on separations and product recovery.
Credit Hours: 3
Recommended: BIOE 2180 or CH_ENG 2225 (for Chemical Engineering students) or instructor's consent

BIOE 4350: Watershed Modeling Using GIS
(same as CV ENGR 4720; cross-leveled with BIOE 7350, CV ENGR 7720). Watershed evaluation using AVSWAT for hydrology, sediment yield, water quality; includes USLE, MUSLE, WEPP. Procedures for model calibration/sensitivity data analysis.
Credit Hours: 3
Recommended: BIOE 2180 or CV ENGR 3200 or instructor's consent

BIOE 4370: Orthopaedic Biomechanics
(cross-leveled with BIOE 7370, V_M_S 7370). Engineering sciences will be leveraged to create a comprehensive study of orthopaedic biomechanics. The tissue mechanics of bone and soft tissue will be studied along with applying structural analysis of the musculoskeletal system. Graded on A-F basis only.
Credit Hours: 3
Recommended: ENGR 1200 and BIOE 3170

BIOE 4380: Applied Electronic Instrumentation
(cross-leveled with BIOE 7380). Fundamental concepts and theories, basic electronics, analog and digital circuits, signal conditioning, computer interfacing, measurement principles and techniques used in developing computer-based instrumentation systems.
Credit Hours: 4
Prerequisites: BIOE 2080 and PHYSICS 2760
BIOL_EN 4420: Introduction to Biomedical Imaging
(same as PHYSCS 420; cross-leveled with BIOL_EN 7420, PHYSCS 7420). This course offers a broad introduction to medical imaging. Topics to be covered include the physics basics and instrumentation of X-ray CT, PET, SPECT, ultrasound, MRI and Optical Imaging, as well as recent developments in biomedical imaging.

Credit Hours: 3
Prerequisites: PHYSCS 2760

BIOL_EN 4470: Biomolecular Engineering and Nanobiotechnology
(cross-leveled with BIOL_EN 7470). Generation of biotechnological products, devices through integration of engineering approaches with contemporary biology, chemistry and nanotechnology starting at the molecular level. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: MATH 1700, PHYSCS 2760, CHEM 2100

BIOL_EN 4480: Physics and Chemistry of Materials
(same as PHYSCS 4190, CHEM 4490, NU_ENG 4319; cross-leveled with BIOL_EN 7480, PHYSICS 7190, CHEM 7490, NU_ENG 7319). Physics and Chemistry of Materials is a 3 credit hours undergraduate/graduate level course offered every spring semester for students from Physics, Chemistry, Engineering and Medical Departments and consists of lectures, laboratory demonstrations, two mid term and one final exam. Graduate students will submit a term paper.

Credit Hours: 3
Recommended: PHYSCS 2760 or CHEM 1320 or equivalent

BIOL_EN 4470: Fluorescent Imaging
(cross-leveled with BIOL_EN 7570). Principles and applications of fluorescent imaging. The course covers: Image formation in microscope; Fundamentals of fluorescence and fluorescent microscopy; molecular and cellular fluorescent imaging.

Credit Hours: 3
Prerequisites: BIO_SC 1500 and BIOL_EN 2180 or instructor's consent

BIOL_EN 4570: Biomedical Optics
(cross-leveled with BIOL_EN 7770). Essential concepts and methods for applying optical techniques to biomedical diagnosis and therapy will be covered with major application examples being discussed.

Credit Hours: 3
Prerequisites: PHYSCS 2760
Recommended: BIOL_EN 3180

BIOL_EN 4940: Engineering Internship
Problem course following prior approved work experience. Problem selected by internship company representative, faculty problem adviser and student. Supervised by faculty problem advisor and presented in engineering report form. Graded on S/U basis only.

Credit Hour: 1-3
Prerequisites: advisor's consent

BIOL_EN 4980: Biological Engineering Design
Capstone design course for the Biological Engineering major. Design of biological system devices or processes.

Credit Hours: 3
Prerequisites: senior standing or instructor's consent

BIOL_EN 4980W: Biological Engineering Design - Writing Intensive
Capstone design course for the Biological Engineering major. Design of biological system devices or processes.

Credit Hours: 3
Prerequisites: ENGLSH 1000 and senior standing or instructor's consent

BIOL_EN 4990: Undergraduate Research in Biological Engineering
Supervised independent study at the undergraduate level.

Credit Hour: 1-5
Prerequisites: instructor's consent

BIOL_EN 4995: Undergraduate Honors Research in Biological Engineering
Open only to honor students in Biological Engineering. Independent investigation in biological engineering to be presented as a thesis.

Credit Hour: 1-5
Prerequisites: advisor's consent

BIOL_EN 4995H: Undergraduate Honors Research in Biological Engineering
Open only to honor students in Biological Engineering. Independent investigation in biological engineering to be presented as a thesis.

Credit Hour: 1-5
Prerequisites: advisor's consent. Honors eligibility required

BIOL_EN 7001: Topics in Biological Engineering
Study of advanced developments in biological engineering.

Credit Hour: 1-3

BIOL_EN 7070: Bioelectricity
(cross-leveled with BIOL_EN 4070). Application of engineering approaches to understand bioelectricity at the cellular level including the equivalent circuit of cell membranes and the electronic design of patch-clamp amplifiers. Prerequisites: PHYSCS 2760 and BIOL_EN 3180 or instructor's consent

Credit Hours: 3
BIOI_EN 7150: Soil and Water Conservation Engineering  
(same as CV_ENG 7710; cross-leveled with BIOI_EN 4150, CV_ENG 4150). Urban and rural run-off and erosion analysis. Design and layout of erosion control structures.  
Credit Hours: 3  
Prerequisites: BIOI_EN 2180 or CV_ENG 3200, or instructor's consent  

BIOI_EN 7160: Food Process Engineering  
(cross-level with BIOI_EN 4160). Study of transport phenomena and unit operations in food processing systems. Emphasis on fluid flow and heat transfer in food processing, preservation processes, refrigeration, freezing, psychrometrics, and dehydration.  
Credit Hours: 3  
Prerequisites: BIOI_EN 3180 or instructor's consent  

BIOI_EN 7170: Biomaterials Interfaces of Implantable Devices  
(cross-leveled with BIOI_EN 4170). Surface structures and properties to improve biocompatibility will be studied. Engineering sciences and design will be leverage in the design of an improved biocompatible surface.  
Credit Hours: 3  
Prerequisites: BIOI_EN 3170 or instructor's consent  

BIOI_EN 7250: Irrigation and Drainage Engineering  
(cross-leveled with BIOI_EN 4250). Soil, water, plant relationships. Water supplies and design of surface, sprinkler and drip irrigation systems. Surface and tile drainage.  
Credit Hours: 3  
Prerequisites: CV_ENG 3700 or MAE 3400 or BIOI_EN 2180  

BIOI_EN 7310: Feedback Control Systems  
(same as ECE 7310, MAE 7750; cross-leveled with ECE 4310, BIOI_EN 4310, MAE 4750). System modeling and time and frequency response, closed loop control, stability, continuous system design, introduction to discrete time control, software and hardware experiments on compensator design and PID control. Graded A-F only. May be repeated for credit.  
Credit Hours: 3  
Prerequisites: MATH 4100  

BIOI_EN 7315: Introduction to Bioprocess Engineering  
(same as CH_ENG 7315; cross-leveled with BIOI_EN 4315, CH_ENG 4315). This general introduction to bioprocess engineering covers the fundamentals of microbiology and biochemistry in the context of a biomass refinery. Analysis proceed through the use of mass balances, energy balances, and empirical or theoretical models.  
Credit Hours: 3  
Prerequisites: BIOI_EN 2180 (for biological engineering students) or CH_ENG 2225 (for chemical engineering students) or instructor's consent  

BIOI_EN 7316: Biomass Refinery Operation  
(same as CH_ENG 7316; cross-leveled with BIOI_EN 4316, CH_ENG 4316). Design and operation of processes for conversion and/or fractionation of biomass and associated upstream and downstream unit operations. Emphasis on separations and product recovery.  
Credit Hours: 3  

BIOI_EN 7350: Watershed Modeling Using GIS  
(same as CV_ENG 7720; cross-leveled with BIOI_EN 4350, CV_ENG 4720). Watershed evaluation using AV SWAT for hydrology, sediment yield, water quality; includes USLE, MUSLE, WEPP, Procedures for model calibration/sensitivity data analysis.  
Credit Hours: 3  
Prerequisites: BIOI_EN 2180 or CV_ENG 3200 or instructor's consent  

BIOI_EN 7370: Orthopaedic Biomechanics  
(same as V_M_S 7370; cross-leveled with BIOI_EN 4370). Engineering sciences will be leverage to create a comprehensive study of orthopaedic biomechanics. The tissue mechanics of bone and soft tissue will be studied along with applying structural analysis of the musculoskeletal system. Graded on A-F basis only.  
Credit Hours: 3  
Prerequisites: ENGINR 1200 and BIOI_EN 3170, instructor's consent required  

BIOI_EN 7380: Applied Electronic Instrumentation  
(cross-leveled with BIOI_EN 4380). Fundamental concepts and theories, basic electronics, analog and digital circuits, signal conditioning, computer interfacing, measurement principles and techniques used in developing computer-based instrumentation systems.  
Credit Hours: 4  
Prerequisites: BIOI_EN 2080, PHYSCS 2760  

BIOI_EN 7420: Introduction to Biomedical Imaging  
(same as PHYSCS 7420; cross-leveled with BIOI_EN 4420, PHYSCS 4420). This course offers a broad introduction to medical imaging. Topics to be covered include the physics basics and instrumentation of X-ray CT, PET, SPECT, ultrasound, MRI and Optical Imaging, as well as recent developments in biomedical imaging, as well as recent developments in biomedical imaging.  
Credit Hours: 3  
Prerequisites: PHYSCS 2760  

BIOI_EN 7470: Biomolecular Engineering and Nanobiotechnology  
(cross-leveled with BIOI_EN 4470). Generation of biotechnological products, devices through integration of engineering approaches with contemporary biology, chemistry and nanotechnology starting at the molecular level. Graded on A-F basis only.  
Credit Hours: 3  

BIOI_EN 7480: Physics and Chemistry of Materials  
(same as PHYSCS 7190, NU_ENG 7319, CHEM 7490; cross-leveled with BIOI_EN 4480, PHYSCS 4190, NU_ENG 4319, CHEM 7490). Physics and Chemistry of Materials is a 3 credit hours undergraduate/graduate level course offered every spring semester for students from Physics, Chemistry, Engineering and Medical Departments and consists of lectures, laboratory demonstrations, two midterm and one final exam. Graduate students will submit a term paper.  
Credit Hours: 3
BIOL_EN 8085: Problems in Biological Engineering
Supervised individual study at the graduate level.

BIOL_EN 8001: Advanced Topics in Biological Engineering
Study of advanced developments in biological engineering.

Credit Hour: 1-3

BIOL_EN 8087: Seminar in Biological Engineering
Recent investigations in biological engineering and related fields.
Discussion of current literature; preparation and presentation of papers.

Credit Hour: 1

BIOL_EN 8100: Design and Development of Biomedical Innovations
(same as ENGINR 8100). This course takes students through the
process of brainstorming and working out a solution to a medical need,
and then producing a product. Outputs may include the development of
a physical prototype through interactions with the College of Engineering
rapid prototype facility. The course is one of a three-course set leading
to a Graduate Certificate in Translational Science and Entrepreneurship.
Graded on A-F basis only.

Credit Hours: 3

Prerequisites: Student must be enrolled in a graduate degree program
and enrolled in a sequenced cohort group beginning with MPP 8000/
BIOL_EN 8000 then MPP 8100/BIOL_EN 8100 then MANGMT 8200

BIOL_EN 8170: Sensors and Biosensors
The course covers basic principles of chemical and biological sensors,
such as immobilization techniques, transducers (optical, electrical, etc.)
and performance factors.

Credit Hours: 3

BIOL_EN 8180: Numerical Methods in Engineering Research
Numerical techniques and case studies in Biological Engineering. Topics
include basic numerical methods, mathematical representation of data,
matrix algebra, ordinary and partial differential equations.

Credit Hours: 3

Prerequisites: MATH 4100

BIOL_EN 8230: Advanced Ceramic Materials
(same as CH_ENG 8230, MAE 8230). To provide an advanced level
understanding between processing, properties, and microstructure of
ceramic materials. Topics include crystallography, defect chemistry,
transport properties, microstructure, and forming methods. Graded on A-
F basis only.

Credit Hours: 3

BIOL_EN 8250: Water Management Theory
Advanced studies in erosion control, irrigation, and drainage. Water
resources engineering.

Credit Hours: 3

Prerequisites: MATH 1500, Computer Engineering and Computer
Science course, SOIL 4307 or SOIL 7307 and Soil Conservation course

BIOL_EN 8280: Advanced Biological Transport Processes
Principles of fluid flow, heat transfer, and mass transfer applied to (a)
understanding of how the human body functions (from the cellular up to
the system level) and (b) designing biomedical devices. An independent
project/case-study of a relevant research topic also required.
BIOL_EN 8370: Materials Characterization Techniques
Concepts and techniques in characterizing materials, including bulk and surface analyses. Techniques are presented in terms of use, sample requirements, and the engineering principles. Topics include: contact angle measurement, XPS, SEM, TEM, STM, AFM, XRD, and thermal analyses.

Credit Hours: 3
Prerequisites: at least one undergraduate course in material science, engineer, or design

BIOL_EN 8402: Research Methods
(same as F_S 8402). Review of literature; planning research projects; publication procedures.

Credit Hours: 2

BIOL_EN 8470: Ultrasensitive Biodetection
Multiplexing single-molecule, single-cell, nanobiotech analytical techniques to improve disease diagnosis, treatment, and understanding of biophenomena (membrane transport, gene expression, enzyme activities, cell communications). Graded A-F only.

Credit Hours: 3
Prerequisites: Instructor's consent required

BIOL_EN 8570: Microscopic Imaging
Advanced topics in microscopic imaging with focus on applications of molecular and cellular imaging using fluorescent microscopy.

Credit Hours: 3
Prerequisites: BIOL_EN 7570 or instructor's consent

BIOL_EN 8670: Orthopaedic Failure Modes and Effect Analysis
Engineering sciences will be leveraged to provide a comprehensive study of failure modes and related effects for orthopaedic devices, orthopaedic tissue repair, and surgical interventions. Clinical case studies will be analyzed to introduce real world problems of orthopaedic failures. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: BIOL_EN 3170 or ENGINR 1200, BIOL_EN 4370 or BIOL_EN 7370 or instructor consent
Recommended: For department majors

BIOL_EN 8870: Molecular and Cell Mechanics
Application of mechanics and engineering principles to biological systems at the cellular and molecular levels. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: ENGINR 2200

BIOL_EN 8990: Masters Thesis Research in Biological Engineering
Independent investigation to be presented as a thesis. Graded on S/U basis only.

Credit Hour: 1-99

BIOL_EN 9990: Doctoral Dissertation Research in Biological Engineering
Independent investigation to be presented as a thesis. Graded on S/U basis only.

Credit Hour: 1-99

Biological Sciences (BIO_SC)

BIO_SC 1010: General Principles and Concepts of Biology
Emphasizes connections and applications to society and the human condition, science literacy, and critical thinking skills. A discussion of general principles and fundamental concepts of living things. This course is intended for non-science majors. No more than 5 credits for BIO_SC 1010, BIO_SC 1020, and BIO_SC 1030.

Credit Hours: 3
Recommended: MATH 1100
BIO_SC 1010 - MOTR BIOL 100: Essentials in Biology

BIO_SC 1020: General Biology Laboratory
Laboratory exercises dealing with representative organisms and methods of modern biological sciences. This course is intended for non-science majors. No more than 5 credits for BIO_SC 1010, BIO_SC 1020, and BIO_SC 1030.

Credit Hours: 2
Prerequisites: BIO_SC 1010 or BIO_SC 1400 or BIO_SC 1010 concurrently
BIO_SC 1020 - MOTR BIOL 100L: Essentials in Biology with Lab

BIO_SC 1030: General Principles and Concepts of Biology with Laboratory
Survey of general principles and basic concepts of life science, emphasizing applications to society and the human condition. Lectures address science literacy and critical thinking and laboratory exercises use representative organisms to complement lecture topics. This course is intended for non-science majors. No more than 5 credits for BIO_SC 1010, BIO_SC 1020, and BIO_SC 1030.

Credit Hours: 5
Recommended: MATH 1100 or concurrent enrollment
BIO_SC 1030 - MOTR BIOL 100L: Essentials in Biology with Lab
**BIO_SC 1060: Basic Environmental Studies**
Considers the ecosystem, energy and biogeochemical cycles and population dynamics; relation of the environment to agriculture and technology, pollution, power and food production; politico-economic considerations; moral and ethical issues. For non-science majors.

**Credit Hours:** 3

---

**BIO_SC 1200: General Botany with Laboratory**
Introduction to study of plants. Emphasis on structure, growth, physiology, genetics and reproduction of plants.

**Credit Hours:** 5

**BIO_SC 1400: Evolution for Everyone**
This course will explore the application of evolutionary theory to modern human affairs. We will study the processes involved in evolution and investigate evolutionary interpretations of human social behavior (e.g., psychology, mate choice, economics, religion, and morality). No credit if student has received credit for BIO_SC 2060 or BIO_SC 4600.

**Credit Hours:** 3

---

**BIO_SC 1500: Introduction to Biological Systems with Laboratory**
Basic concepts and principles of the structure and function of living systems, from cells to populations. Foundation course for science students intending to complete a 3-semester sequence that also includes genetics and cell biology.

**Credit Hours:** 5

**Recommended:** MATH 1100 or sufficient ALEKS score

**BIO_SC 1500 - MOTR BIOL 150L: Essentials in Biology with Lab**

---

**BIO_SC 1500H: Introduction to Biological Systems with Laboratory - Honors**
Basic concepts and principles of the structure and function of living systems, from cells to populations. Foundation course for science students intending to complete a 3-semester sequence that also includes genetics and cell biology.

**Credit Hours:** 3-5

**Prerequisites:** MATH 1100 and high school chemistry. Honors eligibility required

---

**BIO_SC 2001: Topics in Biological Sciences - General**
Selected topics not covered in current offerings. May not be used in partial fulfillment of requirements for a biological science in general education. May be graded on A-F or S/U basis.

**Credit Hour:** 1-3

**Recommended:** One course in Biology

---

**BIO_SC 2002H: Topics in Biological Sciences- Biological/Physical/Mathematics - Honors**
Selected topics not covered in regularly offered courses. Recommended: a course in biology

**Credit Hour:** 1-3

**Prerequisites:** Honors eligibility required

---

**BIO_SC 2010: Undergraduate Seminar in Biological Sciences**
Discussion and critical evaluation of current topics in biological sciences for intermediate-level students. Some sections may be graded on either A-F or S/U basis only.

**Credit Hour:** 1-3

**Prerequisites:** sophomore standing

---

**BIO_SC 2015: Biological Career Explorations**
Students will learn about career options and choices, construct career portfolios, and interact with current biological professionals. Graded on S/U basis only.

**Credit Hour:** 1

**Prerequisites:** Departmental consent

**Recommended:** Sophomore standing

---

**BIO_SC 2020: How the Brain Works**
Basic structure and function of the brain; left and right brain studies; gender differences; learning and memory; brain disorders.

**Credit Hour:** 1

**Prerequisites:** C- or above in BIO_SC 1010 or BIO_SC 1500

---

**BIO_SC 2030: Life of the Cell**
This course will help students understand basic concepts of biomolecular structure, cell organization, cell membranes, energy and metabolism, cellular communication, and cell division. This course is intended for non-science majors and may not be used to satisfy requirements for either a major or a minor in biological sciences.

**Credit Hours:** 3

**Prerequisites:** BIO_SC 1010

---

**BIO_SC 2060: Community Biology**
Principles of population biology, ecology, and evolution, including consideration of human impacts on biological communities and ecosystems.

**Credit Hours:** 3

**Prerequisites:** BIO_SC 1010 or equivalent. Not open to biology majors

---

**BIO_SC 2100: Infectious Diseases**
An introduction to the basic science of bacterial, viral, protozoan, fungal and helminth infections, including discussions of how illness has influenced or been affected by public policy and culture.

**Credit Hours:** 3

**Prerequisites:** BIO_SC 1010. Not open to Biology Majors

---

**BIO_SC 2150: Genetic Diseases**
This course will discuss the biological basis for genetic diseases, including inherited diseases and non-inherited diseases such as cancer.
BIO_SC 2200: General Genetics
Principles of inheritance in plants and animals; structure and use of genetic material, transmission of genetic information, linkage, modification of genetic information, regulation of genetic activity, population genetics.

Credit Hours: 4
Prerequisites: BIO_SC 1500 and CHEM 1320 (or concurrent enrollment)

BIO_SC 2200H: General Genetics - Honors
Principles of inheritance in plants and animals; structure and use of genetic material, transmission of genetic information, linkage, modification of genetic information, regulation of genetic activity, population genetics.

Credit Hours: 4
Prerequisites: BIO_SC 1500 and CHEM 1320 (or concurrent enrollment); Honors eligibility required

BIO_SC 2300: Introduction to Cell Biology
Analysis of cellular organization and function at the molecular level. The mechanisms underlying cellular trafficking, cell motility, and signaling within cells and between cells and their environment will be emphasized.

Credit Hours: 4
Prerequisites: BIO_SC 2200

BIO_SC 2300H: Introduction to Cell Biology- Honors
Analysis of cellular organization and function at the molecular level. The mechanisms underlying cellular trafficking, cell motility, and signaling within cells and between cells and their environment will be emphasized.

Credit Hours: 4
Prerequisites: BIO_SC 2200. Honors eligibility required

BIO_SC 2300HW: Introduction to Cell Biology - Honors/Writing Intensive
Analysis of cellular organization and function at the molecular level. The mechanisms underlying cellular trafficking, cell motility, and signaling within cells and between cells and their environment will be emphasized.

Credit Hours: 4
Prerequisites: BIO_SC 2200. Honors eligibility required

BIO_SC 2600: Ornithology
(same as F_W 2600). Structure, identification, habits, importance of regional birds. Field work, lectures, lab.

Credit Hours: 5
Recommended: 5 hours of Biological Sciences

BIO_SC 2700: Ichthyology
(same as F_W 2700). A broad introduction to the biology and ecology of fishes. Emphasis will be placed on understanding the adaptations fishes exhibit to aspects of their environment. Includes lab.

Credit Hours: 4
Recommended: 8 hours biology or equivalent

BIO_SC 2940: Internship in Biological Science
Work experience in a non-profit, for profit, or governmental organization relevant to the biological sciences. Intended for students doing internships in which independent research is less than 50% of the experience. Graded on S/U basis only.

Credit Hour: 1-3
Prerequisites: instructor's consent
Recommended: junior standing, 12 hours of biological science and 2.70 GPA

BIO_SC 2950: Directed Independent Research
Participation in faculty research activities. May not be used to satisfy degree requirements for BA or BS in biological sciences or the minor in biological sciences.

Credit Hour: 1-3
Prerequisites: Departmental consent

BIO_SC 2960: Readings in Biological Science
Supervised reading in biological literature. May be repeated up to six hours total credit. Selected sections of this course may be graded either on A-F or S/U basis only. May not be used in partial fulfillment of Arts and Science foundation requirement.

Credit Hour: 1-3
Prerequisites: instructor's consent

BIO_SC 2965H: Honors Readings in Biological Literature
Selected readings in biological literature for Honors, in consultation with instructor. May not be used in partial fulfillment of Arts and Science foundation requirement.

Credit Hour: 1-3
Prerequisites: overall 3.3 GPA; instructor's consent. Honors eligibility required

BIO_SC 3002: Topics in Biological Sciences- Biological/Physical/ Mathematics
Selected topics not in regularly offered courses. Selected sections of this course may be graded either on A-F or S/U basis only.

Credit Hour: 1-3
Recommended: Junior Standing

BIO_SC 3002W: Topics in Biological Sciences- Biological/Physical/ Mathematics - Writing Intensive
Selected topics not in regularly offered courses. Selected sections of this course may be graded either on A-F or S/U basis only.

Credit Hour: 1-3
Recommended: Junior Standing
BIO_SC 3010: Professional Skills
This course will focus on application and interview skills for students interested in medical school. Graded on S/U basis only.
Credit Hour: 1
Prerequisites: instructor's consent
Recommended: junior standing; 3.4 GPA, and biological sciences majors

BIO_SC 3050: Genetics and Society
Introduction to genetics, emphasizing the impact of genetics on human society. Human evolution, molecular genetics, genetic engineering in medicine and agriculture. An intensive writing course.
Credit Hours: 3

BIO_SC 3050W: Genetics and Society - Writing Intensive
Introduction to genetics, emphasizing the impact of genetics on human society. Human evolution, molecular genetics, genetic engineering in medicine and agriculture. An intensive writing course.
Credit Hours: 3

BIO_SC 3075: The Human Microbiome
This course examines the astonishing diversity and medical significance of the microbes that inhabit our bodies. Interactive discussions explore scientific and ethical dimensions of topics ranging from probiotics and "poop transplants" to the role of microbes in asthma and obesity.
Credit Hours: 3
Prerequisites: BIO_SC 2200

BIO_SC 3075W: The Human Microbiome - Writing Intensive
This course examines the astonishing diversity and medical significance of the microbes that inhabit our bodies. Interactive discussions explore scientific and ethical dimensions of topics ranging from probiotics and "poop transplants" to the role of microbes in asthma and obesity.
Credit Hours: 3
Prerequisites: BIO_SC 2200

BIO_SC 3210: Plant Systematics
Principles of classification of plants; survey of diversity in flowering plant families; identification of local flora; use of keys. Includes lab.
Credit Hours: 4
Recommended: 8 hours of Biological Sciences

BIO_SC 3210W: Plant Systematics - Writing Intensive
Principles of classification of plants; survey of diversity in flowering plant families; identification of local flora; use of keys. Includes lab.
Credit Hours: 4
Recommended: 8 hours of Biological Sciences

BIO_SC 3260: Invertebrate Zoology
Structure, ecology and phylogeny of the invertebrate phyla. Includes lab.
Credit Hours: 4
Prerequisites: BIO_SC 1100 or BIO_SC 1500
Recommended: Junior Standing

BIO_SC 3260W: Invertebrate Zoology - Writing Intensive
Structure, ecology and phylogeny of the invertebrate phyla. Includes lab.
Credit Hours: 4
Prerequisites: BIO_SC 1100 or BIO_SC 1500
Recommended: Junior Standing

BIO_SC 3360: Herpetology
The biology, ecology, taxonomy, and distribution of amphibians and reptiles. Some Saturday field trips.
Credit Hours: 4
Recommended: 8 hours Biological Sciences or equivalent

BIO_SC 3400: Evolution and Ecology
Introduction to principles of evolution and ecology. Topics include natural selection, adaptation, phylogenetic analysis, human evolution, population growth and regulation, population interactions, ecosystem ecology, and human impacts on ecological processes. No credit for this course if either BIO_SC 3650 or BIO_SC 4600 already completed; may not co-enroll in this course and BIO_SC 4600.
Credit Hours: 3
Prerequisites: BIO_SC 2200

BIO_SC 3510: Biology of Fungi
(same as PLNT_S 3510). The diverse roles of fungi in the biosphere will be explored by considering fungi we eat, fungi which destroy our food, fungi in folklore and fungi as global nutrient recyclers. Includes lab.
Credit Hours: 3
Prerequisites: BIO_SC 1200 or BIO_SC 1500 or equivalent

BIO_SC 3650: General Ecology
Principles of populations, coevolution, density factors, competition; physical environment; concept of community, trophic structure, biotic succession; characterization of biomes, man in ecosystem. Biology majors having completed BIO_SC 3100: 2 hours credit.
Credit Hours: 5
Prerequisites: junior standing
Recommended: 10 hours in Biology

BIO_SC 3650W: General Ecology - Writing Intensive
Principles of populations, coevolution, density factors, competition; physical environment; concept of community, trophic structure, biotic succession; characterization of biomes, man in ecosystem. Biology majors having completed BIO_SC 3100: 2 hours credit.
Credit Hours: 5
Prerequisites: junior standing
Recommended: 10 hours in Biology

BIO_SC 3655: Tropical Ecology: Methods and Applications
Field study of tropical community; additional fee for transportation and accommodations required.
Credit Hours: 3
Prerequisites: BIO_SC 3650 or BIO_SC 4600 or BIO_SC 4660
BIO_SC 3660: Mammalogy
(same as F_W 3660). Taxonomy, distribution, structure, habits, importance of mammals; emphasizes those of central United States. Includes lab.

Credit Hours: 4
Recommended: Junior Standing or instructor's consent

BIO_SC 3700: Animal Physiology
Introduces concepts of vertebrate organ function and homeostatic control emphasizing mammalian physiology. Some comparisons to function in other vertebrates and strategies for coping with environmental stresses introduced. Includes lab.

Credit Hours: 5
Prerequisites: BIO_SC 2300

BIO_SC 3710: Introductory Entomology
(same as PLNT_S 3710). Emphasizes the role insects play in the scheme of life. Topics include insect structure, development, diversity, ecology, communication and behavior, and management. Prerequisites: Completion of 60 credit hours and one of the following: BIO_SC 1100 (or F_W 1100) or BIO_SC 1200, or BIO_SC 1500.

Credit Hours: 3

BIO_SC 3715: Insect Diversity
(same as PLNT_S 3715). Laboratory exercises emphasizing external insect anatomy, classification, and identification (to family level). Preparation of an insect collection is required.

Credit Hours: 2
Prerequisites: PLNT_S 3710 (or BIO_SC 3710) or concurrent registration

BIO_SC 3750: General Microbiology
Principles of microbiology. Includes lab.

Credit Hour: 3-4
Prerequisites: BIO_SC 2200 and BIO_SC 2300
Recommended: grades in C range for prerequisites

BIO_SC 3780: Genetics Laboratory
Experimental genetic studies of Drosophila, corn and microorganisms.

Credit Hours: 2
Prerequisites: C range grade or better in BIO_SC 2200 or instructor's consent

BIO_SC 4002: Topics in Biological Science - Biological/Physical/Mathematics
Selected topics not in regularly offered courses. May be repeated up to 2 times for credit.

Credit Hour: 1-3
Prerequisites: senior standing

BIO_SC 4085: Problems in Biological Sciences
Individual supervised work to supplement regularly organized courses in biology; introduction to research. Selected sections of this course may be graded either on A-F or S/U basis only.

BIO_SC 4320: Molecular Plant Physiology
(same as PLNT_S 4320; cross-leveled with BIO_SC 7320, PLNT_S 7320). Modern physiology of higher plants using common cultivated plants as examples.

Credit Hours: 3
Prerequisites: BIO_SC 1200 or BIO_SC 1500 and CHEM 1320

BIO_SC 4328: Introductory Radiation Biology
(same as NU_ENG 4328, RADIOL 4328; cross-leveled with BIO_SC 7328, NU_ENG 7328, RADIOL 7328). Concepts of ionizing radiations, their actions on matter through effects on simple chemical systems, biological molecules, cell, organisms, man.

Credit Hours: 3
Prerequisites: junior standing, Sciences/Engineering; one course in Biological Sciences and Physics/Chemistry; or instructor's consent

BIO_SC 4400: Plant Anatomy
(same as PLNT_S 4400; cross-leveled with BIO_SC 7400, PLNT_S 7400). Comparative structure, growth of meristems; development, structure of important cell types, tissues, tissue systems; comparative anatomy of stem, root, leaf. Emphasizes anatomy of gymnosperms, angiosperms. Includes lab.

Credit Hours: 4
Prerequisites: BIO_SC 1200 or BIO_SC 1500

BIO_SC 4500: Neurobiology
(cross-leveled with BIO_SC 7500). Vertebrate and invertebrate neurobiology, including cell and molecular biology of the neuron, neurophysiology, neuroanatomy, neuroethology and developmental neurobiology.

Credit Hours: 3
Prerequisites: BIO_SC 2300 or instructor's consent
Recommended: BIO_SC 3700

BIO_SC 4560: Sensory Physiology and Behavior
(cross-leveled with BIO_SC 7560). Basic principles of coding and integration of sensory stimuli; neural correlates of animal behavior; environmental influences on postnatal sensory development. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: BIO_SC 4500

BIO_SC 4590: Computational Neuroscience
(same as ECE 4590, BIOL_EN 4590; cross-leveled with ECE 7590, BIOL_EN 7590, BIO_SC 7590). An interdisciplinary course with a strong foundation in quantitative sciences for students in biological and behavioral science and an introduction to experimental methods for students from quantitative sciences.

Credit Hours: 4
Prerequisites: BIO_SC 1010 or BIO_SC 1500; MATH 1500
BIO_SC 4600: Evolution
Surveys various processes in organic evolution and underlying genetic mechanisms.

Credit Hours: 3
Prerequisites: BIO_SC 2200

BIO_SC 4640: Behavioral Biology
(cross-level with BIO_SC 7640). Comparative study of animal ethology. Principles of animal ethology illustrated in different animal phyla. May be taken with Laboratory for 4 credits.

Credit Hour: 3-4
Prerequisites: BIO_SC 1500
Recommended: one additional upper-level course in Biological Sciences or Psychology

BIO_SC 4642: Animal Communication
Physical properties of sensory stimuli, receptor mechanisms, functional significance of communication behavior, and multidisciplinary and experimental approaches to current research in animal communication.

Credit Hours: 3
Prerequisites: BIO_SC 3400 or BIO_SC 4600

BIO_SC 4670: Avian Ecology
(cross-level with BIO_SC 7670). Advanced examination of ecological patterns in birds. Explores the environmental factors affecting the evolution of avian behavior, morphology, community structure and distribution.

Credit Hours: 3
Prerequisites: BIO_SC 2600 or BIO_SC 3650

BIO_SC 4950: Undergraduate Research in Biology
Individually directed field or laboratory research for upperclass students under faculty supervision. Project must be arranged by student and faculty member prior to registration. May be repeated to a maximum of 6 hours.

Credit Hour: 1-3
Prerequisites: instructor's consent
Recommended: Overall GPA 2.75; 20 hours of Biological Sciences and/or Chemistry

BIO_SC 4950H: Honors Research in Biology
Individually directed field or laboratory research for upper-level Honors students, in consultation with a faculty member. Project must be arranged by student and faculty member prior to registration. May be repeated for credit. Graded on A-F basis only.

Credit Hour: 1-3
Prerequisites: overall GPA 3.3; instructor's consent; biology or microbiology major. Honors eligibility required

BIO_SC 4952: Undergraduate Research in Biology
Individually directed field or laboratory research for upperclass students under faculty supervision. Project must be arranged by student and faculty member prior to registration. May be repeated to a maximum of 6 hours.

Credit Hour: 1-3
Prerequisites: BIO_SC 4950; overall GPA 2.75; instructor's consent

BIO_SC 4952H: Honors Research in Biology
Continuation of research program. Successful completion requires public presentation and leads to degree with Honors in biological sciences. May be repeated for credit for maximum of 6 hours. Graded on A-F basis only.

Credit Hour: 1-3
Prerequisites: BIO_SC 4950H; overall GPA 3.3; instructor's consent. Honors eligibility required

BIO_SC 4960: Special Readings in Biological Sciences
Independent readings and discussions of topics in biology selected in consultation with supervising faculty member. Selected sections of this course may be graded either on A-F or S/U basis only.

Credit Hour: 1-3
Prerequisites: senior standing in Biological Sciences and instructor's consent

BIO_SC 4972: Developmental Biology
Analysis of the molecular, genetic, cellular, and morphological processes responsible for phenotypic changes in developing organisms. A variety of experimental systems are discussed to identify common mechanisms used by developing organisms.

Credit Hours: 3
Prerequisites: BIO_SC 2200, BIO_SC 2300, CHEM 2100

BIO_SC 4972W: Developmental Biology
Analysis of the molecular, genetic, cellular, and morphological processes responsible for phenotypic changes in developing organisms. A variety of experimental systems are discussed to identify common mechanisms used by developing organisms.

Credit Hours: 3
Prerequisites: BIO_SC 2200, BIO_SC 2300, CHEM 2100

BIO_SC 4976: Molecular Biology
(cross-leveled with BIO_SC 7976). Molecular mechanisms of DNA replication, mutation, recombination and gene expression in prokaryotes, eukaryotes, and their viruses; gene fine structure; genetic engineering.

Credit Hours: 3
Prerequisites: BIO_SC 2200 and BIO_SC 2300

BIO_SC 4978: Cancer Biology
(same as BIOCHM 4978; cross-leveled with BIO_SC 7978, BIOCHM 7978). The cellular and molecular basis of cancer, with emphasis on the application of genomics, proteomics, and genetic manipulations in model organisms to the study of cancer biology.

Credit Hours: 3
Prerequisites: BIO_SC 2200 and BIO_SC 2300
Recommended: BIO_SC 4976 or BIOCHM 4270 and BIOCHM 4272

BIO_SC 4982: Human Inherited Diseases
(cross-leveled with BIO_SC 7982). Analysis of the molecular and cellular mechanisms underlying inherited diseases in humans. Topics include genetics of sex determination, metabolic disorders, cancer, blood groups, transplantation, AIDS.
BIO_SC 4982W: Human Inherited Diseases - Writing Intensive (cross-leveled with BIO_SC 7982). Analysis of the molecular and cellular mechanisms underlying inherited diseases in humans. Topics include genetics of sex determination, metabolic disorders, cancer, blood groups, transplantation, AIDS.

Credit Hours: 3
Prerequisites: BIO_SC 2200 and BIO_SC 2300

BIO_SC 4983: Molecular Ecology
Application of molecular genetic techniques to topics in ecology and population biology such as sex ratios, dispersal, mating systems, biogeography and conservation genetics.

Credit Hours: 4
Prerequisites: BIO.SC 3400 or BIO.SC 2200 and BIO.SC 3650

BIO_SC 4984: Mammalian Reproductive Biology
Adult reproductive anatomy, physiology and behavior; gametogenesis and fertilization; placentation; sexual differentiation; parturition; maternal behavior and lactation; reproductive aging; reproductive ecology.

Credit Hours: 3
Prerequisites: junior standing
Recommended: 15 hours of Biological Sciences

BIO_SC 4986: Neurology of Motor Systems (cross-leveled with BIO_SC 7986). Examination of the function of neural networks at all levels, from properties of single neurons to large collections of neural elements.

Credit Hours: 3
Prerequisites: BIO.SC 3700 or instructor's consent

BIO_SC 4988: Nerve Cells and Behavior
The cellular basis of behavior. Molecular and cellular properties of nerve cells, as related to behavior, will be represented and discussed.

Credit Hours: 3
Prerequisites: BIO.SC 3700 or instructor's consent

BIO_SC 4990: Vertebrate Histology and Microscopic Anatomy
Microscopic anatomy of vertebrate tissues and organs. Includes lab.

Credit Hours: 5
Prerequisites: junior standing
Recommended: BIO.SC 3700, or equivalent

BIO_SC 4994: Senior Seminar
Readings and critical evaluation of selected problems and theories in biology. Offered in one or more sections, with specialized subdisciplinary emphasis.

Credit Hours: 3
Prerequisites: Biological Sciences major, senior standing

BIO_SC 4994H: Senior Seminar - Honors
Readings and critical evaluation of selected problems and theories in biology. Offered in one or more sections, with specialized subdisciplinary emphasis.

Credit Hours: 3
Prerequisites: Biological Sciences major, senior standing; Honors eligibility required

BIO_SC 4994HW: Senior Seminar - Honors/Writing Intensive
Readings and critical evaluation of selected problems and theories in biology. Offered in one or more sections, with specialized subdisciplinary emphasis.

Credit Hours: 3
Prerequisites: Biological Sciences major, senior standing; Honors eligibility required

BIO_SC 4994W: Senior Seminar - Writing Intensive
Readings and critical evaluation of selected problems and theories in biology. Offered in one or more sections, with specialized subdisciplinary emphasis.

Credit Hours: 3
Prerequisites: Biological Sciences major, senior standing

BIO_SC 7002: Topics in Biological Sciences
Advanced topics not in regularly offered courses. May be repeated for credit. Graded on A-F basis only.

Credit Hour: 1-6

BIO_SC 7320: Molecular Plant Physiology (same as PLNT_S 7320; cross-leveled with BIO_SC 4320, PLNT_S 4320). Modern physiology of higher plants using common cultivated plants as examples. May be taken with or without laboratory.

Credit Hours: 3
Prerequisites: BIO.SC 1200 or BIO.SC 1500 and 5 hours Chemistry

BIO_SC 7328: Introductory Radiation Biology (same as NU_ENG 7328, RADIOL 7328, V_M_S 7328; cross-leveled with BIO.SC 4328, NU_ENG 4328, RADIOL 4328). Concepts of ionizing radiations, their actions on matter through effects on simple chemical systems, biological molecules, cell, organisms, man.

Credit Hours: 3
Prerequisites: Sciences/Engineering; one course in Biological Sciences and Physics/Chemistry; or instructor's consent

BIO_SC 7400: Plant Anatomy (same as PLNT_S 7400; cross-leveled with BIO.SC 4400, PLNT_S 4400). Comparative structure, growth of meristems; development, structure of important cell types, tissues systems; comparative anatomy of stem root, leaf. Emphasizes anatomy of gymnosperms, angiosperms. Includes lab. Graded on A-F basis only.

Credit Hours: 4
Prerequisites: BIO.SC 1200 or equivalent
BIO_SC 7500: Neurobiology
(cross-leveled with BIO_SC 4500). Vertebrate and invertebrate neurobiology, including cell and molecular biology of the neuron, neurophysiology, neuranatomy, neuroethology and developmental biology. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: BIO_SC 2300 or BIO_SC 3700

BIO_SC 7560: Sensory Physiology and Behavior
(cross-leveled with BIO_SC 4560). Basic principles of coding and integration of sensory stimuli; neural correlates of animal behavior; environmental influences on postnatal sensory development.
Credit Hours: 3
Prerequisites: BIO_SC 4500 or equivalent

BIO_SC 7590: Computational Neuroscience
(same as BIOL_EN 7590, ECE 7590; cross-leveled with BIO_SC 4590, BIOL_EN 4590, ECE 4590). An interdisciplinary course with a strong foundation in quantitative sciences for students in biological and behavioral sciences and an introduction to experimental methods for students from quantitative sciences.
Credit Hours: 4
Prerequisites: BIO_SC 1010 or BIO_SC 1500, MATH 1500

BIO_SC 7640: Behavioral Biology
Credit Hours: 3
Prerequisites: BIO_SC 1500 and one additional upper-level course in Biological Sciences or Psychology

BIO_SC 7670: Avian Ecology
(cross-leveled with BIO_SC 4670). Advanced examination of ecological patterns in birds. Explores the environmental factors affecting the evolution of avian behavior, morphology, community structure and distribution.
Credit Hours: 3
Prerequisites: BIO_SC 2060 or BIO_SC 3650; BIO_SC 2600

BIO_SC 7976: Molecular Biology
(cross-leveled with BIO_SC 4976). Molecular mechanisms of DNA replication, mutation, recombination and gene expression in prokaryotes, eukaryotes, and their viruses; gene fine structure; genetic engineering.
Credit Hours: 3
Prerequisites: BIO_SC 2200 and BIO_SC 2300

BIO_SC 7978: Cancer Biology
(same as BIOCHM 7978; cross-leveled with BIO_SC 4978, BIOCHM 4978). The course will cover major molecular and cellular aspects of cancer. Students will read original research articles, present overviews and lead class discussions.
Credit Hours: 3
Prerequisites: BIOCHM 4270, BIO_SC 2300 and BIO_SC 4976 or equivalent

BIO_SC 7982: Human Inherited Diseases
Advanced analysis of the molecular basis for genetic disorders in humans. Topics will include both Mendelian and complex traits with readings from the primary literature. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: BIO_SC 2200 and instructor's consent

BIO_SC 7986: Neurology of Motor Systems
(cross-leveled with BIO_SC 4986). Examination of the function of neural networks at all levels, from properties of single neurons to large collections of neural elements. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: BIO_SC 3700

BIO_SC 7990: Non-thesis Research
Independent research not leading to a thesis. Some sections may be offered on either A-F or S/U grading basis.
Credit Hour: 1-99
Prerequisites: instructor's consent

BIO_SC 8002: Topics in Biological Sciences- Biological/Physical/ Mathematics
Advanced topics not in regularly offered courses.
Credit Hour: 1-6

BIO_SC 8050: Professional Survival Skills
Introduction to resources, facilities, and communication skills for professional careers in biological sciences. Topics include computer resources, accessing scientific literature, making slides and figures, grantsmanship, resume preparation, manuscript review, and research presentation.
Credit Hour: 1

BIO_SC 8060: Professional Communication Development
The purpose of this course is to develop professional communication skills in students that are planning to attend (or are in their first year of) graduate training. Some sections may be offered with A-F or S/U grading option.
Credit Hour: 1

BIO_SC 8085: Problems in Biological Sciences
Research not expected to terminate in thesis, or individual advanced study in special subjects.
Credit Hour: 1-99
Prerequisites: instructor's consent
**BIO_SC 8087: Seminar**
Current topics in the biological sciences. Open to all graduate students. Graded S/U basis only.

**Credit Hours:** 1

---

**BIO_SC 8090: Research in Biological Sciences**
Research leading to thesis. Graded on S/U basis only.

**Credit Hours:** 1-99

**Prerequisites:** Instructor's consent

---

**BIO_SC 8187: Seminar in Areas of Specialization**
Offered each semester in one or more specialized sections followed by the topic title of the seminar. Graded on S/U basis only.

**Credit Hours:** 1

---

**BIO_SC 8300: Advanced Plant Genetics**
Genetic approaches to molecular and biochemical studies in maize, wheat, and Arabidopsis.

**Credit Hours:** 3

**Prerequisites:** General Genetics and course in Cell Biology or Plant Physiology

---

**BIO_SC 8310: Fungal Genetics and Biology**
Introduction to fungal research, with an emphasis on genetics, biochemistry, cell and molecular biology, and pathogenicity of fungi. Graded A-F only.

**Credit Hours:** 3

---

**BIO_SC 8320: Developmental Genetics**
An overview of various developing systems amenable to classical and molecular genetic analysis. Specific developmental phenomena will be introduced in particular model systems, with an emphasis on experimental approaches used to address the underlying mechanisms.

**Credit Hours:** 3

**Prerequisites:** BIO_SC 2200 and BIOCHM 7270, BIOCHM 7272, or equivalent

---

**BIO_SC 8440: Integrative Neuroscience I**
(same as NEUROSCI 8440). Organization, development and function of the nervous system focusing on cellular and molecular processes. Graded on A-F basis only.

**Credit Hours:** 3

---

**BIO_SC 8442: Integrative Neuroscience II**
(same as NEUROSCI 8442). Organization and function of the nervous system at the systems level to examine processes of behavior and cognition. Graded on A-F basis only.

**Credit Hours:** 3

---

**BIO_SC 8460: Advanced Cancer Biology**
A study of the molecular basis of cancer, including topics in tumor cell biology, interactions between cancer cells and normal cells, mechanisms of metastasis, and novel approaches to development of new chemotherapies.

**Credit Hours:** 3

---

**BIO_SC 8505: Introduction to Plant Stress Biology**
(same as PLNT_S 8505). This course is part of a series that aims to provide a solid conceptual foundation to interdisciplinary plant biology for graduate students with a research emphasis in plant biology. This course examines the basic concepts and techniques used to understand plant stress biology. Graded on A-F basis only.

**Credit Hours:** 2

---

**BIO_SC 8600: Design of Ecological Experiments**
Principles of experimental design in the context of ecological, behavioral, and evolutionary research.

**Credit Hours:** 2

**Prerequisites:** STAT 1400

---

**BIO_SC 8610: Current Concepts in Conservation Biology**
Survey of current concepts in conservation biology literature. Discussions will provide students with an appreciation of the historical development of concepts, the interdisciplinary nature of conservation problems, and the research required for effective solutions.

**Credit Hours:** 2

---

**BIO_SC 8633: Molecular and Network Evolution**
(same as AN_SCI 8633). Evolution of biological macromolecules and networks, including sequence analysis algorithms and theory, phylogenetics, gene duplication, genome evolution, principles of biological networks. Development of computational skills emphasized.

**Credit Hours:** 3

**Prerequisites:** Instructor's consent required

---

**BIO_SC 8700: Ecological Genetics**
Population genetics and evolutionary theory, with emphasis on studies of natural populations.

**Credit Hours:** 3

**Prerequisites:** BIO_SC 2200, BIO_SC 3100 or BIO_SC 3650, and STAT 1400 or equivalent

---

**BIO_SC 8720: Speciation**
Advanced discussion of species concepts and the processes of formation of species.

**Credit Hours:** 3

**Prerequisites:** BIO_SC 2200 and BIO_SC 4600

---

**BIO_SC 8724: College Science Teaching**
(same as LTC 8724, PHYSCS 8310, ASTRON 8310). Study of learner characteristics, teaching strategies, and research findings related to teaching science at the post-secondary level.

**Credit Hours:** 3

---

**BIO_SC 8725: Science Outreach: Public Understanding of Science**
(same as AN_SCI 8725, PHYSCS 8350, LTC 8725). Development of presentations to adult audiences on the science underlying issues of current interest. May be repeated for credit.
**Credit Hour: 1-2**

**BIO_SC 8726: Integrating Science with Outreach**  
(same as LTC 8726). This course provides an opportunity for students to earn credit for outreach activities in the community. Students will capitalize on their area of study and scientific expertise in developing, implementing, and evaluating related outreach activities. May be repeated for credit.

**Credit Hour: 1-6**

**BIO_SC 8740: Plant/Animal Interactions**  
Discussion and lectures on herbivory, pollination biology, and dynamics of fruit and seed dispersal from ecological and evolutionary perspectives.

**Credit Hours: 3**  
**Prerequisites:** BIO_SC 3650 or BIO_SC 4660 or equivalent

**BIO_SC 9090: Research in Biological Sciences**  
Research leading to dissertation. Graded on S/U basis only.

**Credit Hour: 1-99**  
**Prerequisites:** instructor's consent

**BIO_SC 9432: Molecular Biology II**  
(same as MICROB 9432, BIOCHM 9432) Detailed experimental analysis of eukaryotic cellular and molecular biology relevant to cellular and viral gene expression, post-transcriptional and post-translational modifications and genome replication. Models for developmental genetic analysis and genetic determinants controlling processes utilizing the current literature will be examined.

**Credit Hours: 4**  
**Prerequisites:** MICROB 9430

**BIO_SC 9468: Molecular Biology of Plant Growth and Development**  
(same as BIOCHM 9468). Molecular biology of plant hormones, signal transduction, environmental signals.

**Credit Hours: 3**  
**Prerequisites:** BIO_SC 4976

### Biomedical Sciences (BIOMED)

**BIOMED 1010: Biomedical Career Explorations**  
An introduction to the variety of career possibilities within the growing field of biomedical sciences. Graded on A-F basis only.

**Credit Hour: 1**

**BIOMED 2110: Biomedical Terminology**  
Life science etymology (Greek for “true meaning”, means the study of word derivation) taught by classroom presentation and discussion. The course organization is based primarily on common themes of Greek and Latin terms along with historical reasons for current usage. The application of these terms is for all biomedical sciences and life sciences. Graded on A-F basis only.

**Credit Hours: 3**

**BIOMED 2111: Veterinary Medical Terminology**  
Veterinary Medical Terminology is an extension of Biomedical Sciences 2110, Biomedical Terminology. The course organization is lecture, based primarily on domestic species and common themes of Greek and Latin terms. In addition, major veterinary medical eponyms, acronyms, and medical and surgical instruments are included. Graded on A-F basis only.

**Credit Hour: 1**  
**Prerequisites:** BIOMED 2110 or instructor's consent

**BIOMED 2120: Essentials of Animal Handling and Physical Restraint**  
Fundamentals of handling and physical restraint of domestic large and small animals, laboratory animals, and common non-domestic pets. Graded on A-F basis only.

**Credit Hours: 2**

**BIOMED 2140: Companion Animals**  
(same as AN_SCI 2140). FCompanion animals form an important part of our society. They serve us, provide companionship and many become members of our families. This class focuses primarily on dogs, cats, and horses. Topics covered include: the pet industry, breeds, wellness, management, care, training, zoonotic diseases, evolution and domestication, toxicology, nutrition, reproduction, genetics, human animal interactions, companion animal enterprise, and biomedical research. Students may enroll in one of two sections: service learning section or traditional course section.

**Credit Hours: 3**  
**Recommended:** sophomore standing

**BIOMED 2230: Animal Sanitation and Disease Prevention**  
Preventative measures for diseases and parasites of farm animals.

**Credit Hours: 3**

**BIOMED 2940: Internship in Biomedical Sciences**  
Supervised work experience to develop technical skills and enhance student knowledge in an area of biomedical science. Not intended for more than 50% independent research. Graded on S/U basis only.

**Credit Hour: 1-6**  
**Prerequisites:** sophomore standing and instructor's consent

**BIOMED 3000: Specialty Careers for Veterinary Technicians**  
Specialty careers for veterinary technicians are jobs which required knowledge and skills beyond those needed in primary care clinical veterinary practice. This course will explore veterinary technician specialties, the education required, and the advantages of advanced academic training. Course graded on A-F basis only.

**Credit Hour: 1**  
**Prerequisites:** AAS degree in veterinary technology or instructors consent required

**BIOMED 3001: Topics in Biomedical Sciences**  
Topics in Biomedical Sciences.

**Credit Hour: 1-99**
BIOMED 3100: Biomedical Pathophysiology
Pathophysiology is the study of changes in the body resulting from disease. This course requires knowledge of normal anatomy and physiology. A comparative approach is used involving both domestic animal and human examples. Course graded on A-F basis only.

Credit Hours: 3
Prerequisites: AN_SCI 3254 or BIO_SC 3700 or equivalent, AAS or equivalent degree from AVMA-accredited program or instructor's consent

BIOMED 3200: Comparative Hematology
Hematology is the study of blood cells in health and disease. Emphasis in this course is placed on the changes associated with disease. Transfusion medicine and coagulation disorders will also be included. Course graded on A-F basis only.

Credit Hours: 3
Prerequisites: AN_SCI 3254 or BIO_SC 3700 or equivalent, AAS or equivalent degree from AVMA-accredited program or instructor's consent

BIOMED 3219: Elements of Comparative Anatomy
This course is designed to give students an introduction to and appreciation for comparative anatomy of various species encountered in animal science, veterinary technology and veterinary medicine. Detailed and labeled photos of dissected specimens are used to aid instruction. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: five hours of biological science or zoology or equivalent or instructor's consent

BIOMED 3250: Parasitology
Parasitology is considered as a fundamental type of interspecies interaction. Identifying characteristics, life cycle, and resulting disease caused by the common parasites of domestic animals, common laboratory animals, selected wildlife, and humans are described. Special emphasis is given to parasites that can be transmitted from animals to man.

Credit Hours: 3
Prerequisites: 8 hours of biology or instructor's consent

BIOMED 3300: Animal Welfare and Ethics
An introductory examination of ethical issues related to animal welfare, including animal use for food, research, and companionship, plus contemporary issues affecting companion animals, farm animals, and horses. Topics related to animal pain and legal status will also be discussed. Graded on A-F basis only.

Credit Hours: 3
Recommended: junior standing

BIOMED 3326: Comparative Pharmacology
An introduction to terminology used in pharmacology. Mechanisms of drug administration, absorption, distribution, metabolism, and excretion are described. Treatment modalities in animals and humans are compared. Basics of drug actions and the medicolegal aspects of pharmacology are discussed.

Credit Hours: 3
Prerequisites: an AAS degree in veterinary technology or AN_SCI 3254 or BIO_SC 3700, or equivalent, or instructor's consent

BIOMED 4001: Topics in Biomedical Sciences
Topics in Biomedical Sciences.

Credit Hour: 1-99

BIOMED 4100: Veterinary Clinical Chemistry
(cross-leveled with V_PBIO 7100). This course is designed to hone the skills of the practicing veterinary technician, veterinary student, or veterinarian and assumes some basic knowledge of gross anatomy and normal serum chemistry and urinalysis results. The review of normal will be minimal and emphasis will be placed on clinical serum chemistry and urinalysis findings associated with diseases. The graduate level course will include discussion of ancillary tests and more extensive case interpretations.

Credit Hours: 3
Prerequisites: An AAS or equivalent degree in veterinary technology from an American Veterinary Medical Association accredited program; Undergraduate physiology on mammals (AN_SCI 3254, BIO_SC 3700, or equivalent

Recommended: BIOMED 2110 and BIOMED 3200 or instructor's consent

BIOMED 4110: Veterinary Cytology
(cross-leveled with V_PBIO 7110). This course of Veterinary Cytology is designed to hone the skills of the practicing Veterinary Technician, Veterinary Student, or Veterinarian and assumes some basic knowledge of microscope usage and normal hematology. The review of normal cells will be minimal and emphasis will be placed on findings associated with inflammatory and neoplastic diseases. The graduate level course will include discussion of ancillary tests, special stains and treatment alternatives. The focus will be on canine and feline diseases but some common equine and bovine disease. Prerequisites: An AAS or equivalent degree in veterinary technology from an American Veterinary Medical Association-accredited program, or instructor's consent

Credit Hours: 2
Recommended: BIOMED 3200 and BIOMED 2110

BIOMED 4120: Principles of Toxicology
(cross-leveled with V_PBIO 7120). This course will provide an introduction to the general principles of toxicology, including the history and scope of the field; risk assessment and management; mechanisms of toxicity; the disposition of toxicants; non-target organ-directed toxicity; toxic responses of specific target organs; and various toxicological application, such as environmental toxicology.

Credit Hours: 3
Prerequisites: one year of college chemistry and biology, each or instructor's consent

BIOMED 4210: Animal Issues in Disasters
(cross-leveled with V_PBIO 7210). This course describes the various aspects of responding to disasters that involve animals. Government involvement, legal requirements, effects on the human-animal bond, preparation for disasters of different kinds, and impacts on animal-related businesses will be discussed.

Credit Hour: 1
Prerequisites: an AAS in veterinary technology from an American Veterinary Medical Association accredited program, or equivalent training, or instructor's consent

BIOMED 4300: Clinical Veterinary Neurology
Clinical veterinary neurology will review the neurologic examination, common neurologic diseases and techniques to properly care for the neurologic patient. The course organization is based primarily on neuroanatomic localization of disease. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: AAS in Veterinary Technology or BIOMED 3219 and 3100 or instructor's consent; junior or senior standing

BIOMED 4320: Fundamentals of Small Animal Emergency and Critical Care
(co-cross-leveled with V_BSCI 7320). This course will provide students with the knowledge and skills to assist in small animal medical emergency and critical care facilities.

Credit Hours: 3
Prerequisites: An AAS in veterinary technology from an American Veterinary Medical Association accredited program, or equivalent training, or instructor's consent

BIOMED 4333: Veterinary Cell Biology
(same as V_BSCI 5506). Course material stresses cell biology as related to animal health and medical issues. A comprehensive course overviewing molecular and biochemical issues of cell function especially as related to medicine and the underlying molecular causes of disease.

Credit Hours: 4
Prerequisites: BIO_SC 1500, or equivalent, 1 course in biochemistry or 4 credit hours in chemistry; or instructor's consent

BIOMED 4400: Veterinary Surgical Nursing
Veterinary Surgical Nursing will enable the student to properly identify, care for, and maintain surgical equipment. The course will also prepare the student to learn surgical anatomy as well as the potential complications of common clinical setting surgeries. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: BIOMED 2111, BIOMED 3219, and BIOMED 3100, or instructor's consent

BIOMED 4410: Small Animal Physical Rehabilitation
This course will review the science of veterinary rehabilitation, assessment of rehabilitation patients, and the techniques used to treat these patients. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: AAS degree in veterinary technology or BIOMED 2110 or HTH_PR 2190 or equivalent, plus BIOMED 3219 or PTH_AS 2201 or equivalent, or instructor's permission

BIOMED 4500: Equine Critical Care and Nursing
This course provides advanced information for veterinary technicians, veterinary assistants, and pre-veterinary students wishing to enhance and focus their understanding of equine critical care and nursing concepts. Course graded on A-F basis only.

Credit Hours: 3
Prerequisites: AN_SCI 2095 and AN_SCI 3254 or BIO_SC 3700 or equivalents, AAS or equivalent degree from AVMA-accredited program or instructor's consent

BIOMED 4510: Equine Clinical Anatomy: Forelimbs
(co-cross-leveled with V_BSCI 7510). Basic foundation in selected aspects of equine clinical anatomy from veterinary technicians, pre-veterinary students, and other students wishing to enhance their understanding of anatomical structures of the horse's forelimbs.

Credit Hour: 1
Prerequisites: five hours of biologic science or zoology, or equivalent, or instructor's consent, or an AAS or equivalent degree in veterinary technology from an American Veterinary Medical Association accredited program

BIOMED 4520: Equine Clinical Practice
This course is an introduction to a common medical conditions of the horse. Emphasis will be placed on the presenting complaint and the veterinarians approach to diagnosis, treatment, and prognosis.

Credit Hours: 1
Prerequisites: BIOMED 2110, BIOMED 2111 and AN_SCI 4977 or their equivalents, or an associate's degree in veterinary technology, or instructor's consent

BIOMED 8100: Veterinary Online Course Development and Teaching
Best practices of online teaching in veterinary medicine are taught. Emphasis is placed on proper course objectives, productive instructor and student interactions, appropriate student assessments, and essentials of course alignment. Graded on A-F basis only.

Credit Hours: 3
Prerequisites or Corequisites: ED_LPA 9456
Prerequisites: ED_LPA 9448

Black Studies (BL_STU)

BL_STU 1335: Introduction to Soul and Country
(same as MUSIC_NM 1335). Examination of musical cultures signified by "soul" and "country". Study of the evolution and aesthetics of these genres and how they deal with concepts like identity, class, race, and ethnicity; gender and sexuality; politics and patriotism.

Credit Hours: 3

BL_STU 1410: African American History
(same as HIST 1410). Survey of social, political and economic development to the African American people in American life from 1619 to the present.

Credit Hours: 3

BL_STU 1705: Introduction to Black Studies in Culture
Introduction to the concepts, terms, themes, and practices in the study of the African diaspora cultures, through readings in literature, music, and the arts that demonstrate concepts, terms, themes, and practices.
Recommended for prospective Black Studies Majors. Program consent for repetition.

**Credit Hours:** 3

**BL_STU 1720: African-American Theatre History**  
(same as THEATR 1720). A historical and critical analysis of the evolution of African American cultural performance in the American theatre and entertainment industry.

**Credit Hours:** 3

**BL_STU 1790: History of Early Africa**  
(same as HIST 1790). This course introduces students to the early history of Africa. It focuses on political, social, economic and cultural developments based on primary and secondary sources available in print and online.

**Credit Hours:** 3

**BL_STU 1800: History of Modern Africa**  
(same as HIST 1800). This course introduces students to the recent history of Africa. It provides them with an opportunity to understand the main challenges Africans faced since colonial times based on primary and secondary sources.

**Credit Hours:** 3

**BL_STU 2000: Black Studies**  
An interdisciplinary introduction to the basic concepts and literature in the disciplines covered by African-American studies. The role of historical, political, social, and economic forces in shaping cultural expression will be stressed.

**Credit Hours:** 3

**BL_STU 2003: Undergraduate Topics in Black Studies-Behavioral Science**  
Organized study of selected topics. Subjects, specific content, and credits may vary from semester to semester. Repeatable up to 6 hours with program consent.

**Credit Hours:** 3

**BL_STU 2003W: Undergraduate Topics in Black Studies-Behavioral Science - Writing Intensive**  
Organized study of selected topics. Subjects, specific content, and credits may vary from semester to semester. Repeatable up to 6 hours with program consent.

**Credit Hours:** 3

**BL_STU 2004: Topics in Black Studies-Social Science**  
Organized study of selected topics. Subjects, specific content, and credits may vary from semester to semester. Repeatable up to 6 hours with departmental consent.

**Credit Hours:** 3

**BL_STU 2005: Topics in Black Studies - Humanities**  
Organized study of selected topics focusing on Black history and culture. Specific content may vary from semester to semester and will be announced in advance.

**Credit Hours:** 3

**BL_STU 2200: Social Inequalities**  
(same as SOCIOL 2200). Survey of inequalities based upon criteria such as race, ethnicity, sex, age, religion and social class in contemporary societies. Focus on dynamics by which privilege and inequality are structured.

**Credit Hours:** 3

**BL_STU 2210: The Black Americans**  
(same as SOCIOL 2210.) Analysis of history of blacks in the United States. Assessment of contemporary black community in terms of its institutions, style of life, patterns of work and intergroup relations.

**Credit Hours:** 3

**Prerequisites:** SOCIOL 1000 or equivalent or instructor's consent

**BL_STU 2303: Studies in Black Relationships**  
This course examines constructions of Black American coupling and therefore, gender, race, sexuality, and class in the 20th and 21st centuries. Blackness has been and continues to be reconstructed via marriage, dating, and other forms of coupling. Emphasis will be placed on the role of socialization, institutions, mass media, myth, and individual and group practices. Students will have the opportunity to explore their own socialization and personal construction through assigned readings, self-reflection, experiential activities, and small group presentations.

**Credit Hours:** 3

**BL_STU 2400: Introduction to African Diaspora Literature**  
(same as ENGLSH 2400). Introduces students to African Diaspora literature with an emphasis on literature written originally in English. No more than six hours may be taken in the Introduction to African Diaspora Literature series.

**Credit Hours:** 3

**Recommended:** ENGLISH 1000

**BL_STU 2409: Introduction to African Diaspora Literature, 1890-Present**  
(same as ENGLSH 2409). See BL_STU 2400 for course description.

**Credit Hours:** 3

**BL_STU 2410: African American Women in History**  
(same as HIST 2410 and WGST 2410). African American Women in history is a topics course covering major issues affecting black women since their introduction into english-speaking North America to the present.

**Credit Hours:** 3

**BL_STU 2425: Race and the American Story**  
(same as POL_SC 2425, CNST_DEM 2425). This course represents a collaboration between the University of Missouri's Department of Black
Studies and the Kinder Institute on Constitutional Democracy. Building upon the existing Citizenship@Mizzou program, the course aims to carry forward the goals of the Citizenship program and to further solidify and magnify its impact on campus. In so doing, the course will also serve as a model for improving diversity education on campuses across the country and contribute to a more informed and unified national culture. The core syllabus will consist in readings that tell the story of the confrontation between American political principles and the practice of racial injustice throughout our history. Students will read and discuss the Declaration of Independence, the slavery clauses in the Constitution, the poetry of Phillis Wheatley, and the speeches of Frederick Douglass, Abraham Lincoln, and Martin Luther King, Jr., among others. They will achieve a greater understanding of how diversity relates to humanity, and will learn to dialogue productively and civilly with others who may not share their background or opinions.

Credit Hour: 1

BL_STU 2601: Languages of Africa
(same as ENGLISH 2601 and LINGST 2601). Introduction to the diversity of the 2000+ African languages, including first-hand experience exploring a few in detail with native speakers. Features of African languages are compared with others of the world. Political and social aspects of language in Africa are discussed.

Credit Hours: 3

BL_STU 2604: Caribbean History and Culture
This course surveys the historical and cultural development of the Caribbean region from colonial times to the present. It emphasizes the colonial decimation of Amerindians and the evolution from plantation societies to slave societies, along with tracing the history of racial and gender relations, imperial rivalries, economic dependency, and ultimately nationalism and political independence.

Credit Hours: 3

BL_STU 2715: Studies in Black Culture
This course will survey selected forms of black cultural expression, from a range of U.S., Africa, and the African Diaspora cultures in various media including literature, music, film studies, as will as other related disciplines. Program consent for repetition.

Credit Hours: 3

BL_STU 2904: Black Studies in Slavery and Freedom
(same as HIST 2904). This course provides study of historical background, economic, political and social implications of slavery and freedom in the African Diaspora (Americas, Africa, Europe, Asia) as well as the legal and extralegal struggles for and meaning of (global, local, and national) freedom.

Credit Hours: 3

BL_STU 2940: African Religions
(same as REL_ST 2940). This course will serve as an introduction to various forms of religiosity in sub-Saharan Africa. Greater emphasis will be devoted to the indigenous religious traditions of the continent, but we will also examine Christianity and Islam as they are practiced on the continent. The aim of this class is to help students to better understand various aspects of African cultures by dismantling stereotypes and assumptions that have long characterized the study of religions in Africa. The readings and lectures will be drawn from historical, anthropological, sociological, and literary sources. Graded on A-F basis only.

Credit Hours: 3

BL_STU 2975: Theoretical Traditions in Blacks Studies - Culture
This course provides a broad understanding of the diverse theoretical traditions within the field of Black Studies, through a comparative examination of concepts, developments, and debates in humanities, including literature, languages, and music. Course graded on A-F basis only.

Credit Hours: 3

BL_STU 3001: Undergraduate Topics in Black Studies - General
Organized study of selected topics. Subjects, specific content, and credits may vary from semester to semester. Repeatable up to 6 hours with program consent.

Credit Hours: 3

BL_STU 3003: Undergraduate Topics in Black Studies - Behavioral Sciences
Organized study of selected topics focusing on Black history, culture, or other relevant disciplines. Subjects, specific content, and credits may vary from semester to semester. Repeatable up to 6 hours with program consent.

Credit Hour: 1-3

BL_STU 3004: Undergraduate Topics in Black Studies - Social Science
Organized study of selected topics focusing on Black history, culture, or other relevant disciplines. Subjects, specific content, and credits may vary from semester to semester. Repeatable up to 6 hours with program consent.

Credit Hour: 1-3

BL_STU 3004W: Undergraduate Topics in Black Studies - Social Science - Writing Intensive
Organized study of selected topics focusing on Black history, culture, or other relevant disciplines. Subjects, specific content, and credits may vary from semester to semester. Repeatable up to 6 hours with program consent.

Credit Hour: 1-3

BL_STU 3005: Undergraduate Topics in Black Studies - Humanities
Organized study of selected topics focusing on Black history, culture, or other relevant disciplines. Subjects, specific content, and credits may vary from semester to semester. Repeatable up to six credit hours with program consent.

Credit Hours: 3

BL_STU 3100: African American Psychology
(same as ESC_PS 3100 and PSYCH 3880). The research, theories, and paradigms developed to understand the attitudes, behaviors, and psychosocial realities of African-Americans are discussed.
(same as HIST 3200). Examines the dismantling of American apartheid and its transformation into a new racial control system. It also explores how and why the Civil Rights Movement was converted into a struggle for Black Power.

Credit Hours: 3
Recommended: PSYCH 1000

BL_STU 3230: Studies in Black Sexual Politics
Course explores Black transnational politics of sex/sexuality and examines the theoretical, historical, and socio-cultural context that race, gender, and sexuality are used as analytical concepts. Students learn a transdisciplinary approach and apply this newly acquired information to analyze shifts in the field of Black sexuality studies. May be repeated for credit.

Credit Hours: 3
Recommended: sophomore standing required

BL_STU 3303: Black Athletes
This course examines Black Athletes in the 20th and 21st centuries. Emphasis will be placed on how Blacks entered competitive athletics and the role of racism and power, socialization, institutions, mass media, myth, and individual and group practices. Students will have the opportunity to explore their own socialization and personal construction through assigned readings, self-reflection, experiential activities, and small group presentations.

Credit Hours: 3

BL_STU 3400: Survey of African American Literature, Beginnings to 1900
(same as ENGLISH 3400). A survey of major authors and movements in African American literature from its beginnings to 1900.

Credit Hours: 3
Prerequisites: ENGLISH 1000

BL_STU 3400W: Survey of African American Literature, Beginnings to 1900 - Writing Intensive
(same as ENGLISH 3400). A survey of major authors and movements in African American literature from its beginnings to 1900.

Credit Hours: 3
Prerequisites: ENGLISH 1000

BL_STU 3410: Survey of African American Literature, 1900-Present
(same as ENGLISH 3410). A survey of major authors and movements in African American literature from 1900 to the present.

Credit Hours: 3
Prerequisites: ENGLISH 1000

BL_STU 3405: The History of Blacks in Germany
(same as GERMAN 3605). This course investigates the history of Africans and African Americans in Germany and Central Europe, from Antiquity to today. Special focus on Medieval Africans in Europe, travelling African American intellectuals around 1900, and African Americans in occupied Germany. This course will challenge your understanding of race and racism.

Credit Hours: 3

BL_STU 3624: Comparative Approaches to Black Studies in History
(same as HIST 3624). Comparative approach to the study of Black Diaspora history that focuses on the theory, method, structure, and application of modes of cultural production within the history of Black Diaspora cultures. Recommended for students with an interest in Black Studies or majors in the Humanities field. Program consent for repetition.

Credit Hours: 3

BL_STU 3624W: Comparative Approaches to Black Studies in History - Writing Intensive
(same as HIST 3624). Comparative approach to the study of Black Diaspora history that focuses on the theory, method, structure, and application of modes of cultural production within the history of Black Diaspora cultures. Recommended for students with an interest in Black Studies or majors in the Humanities field. Program consent for repetition.

Credit Hours: 3

BL_STU 3703: Themes in Black Society
Examines various themes, issues, and perspectives in political science, psychology, sociology, and other related disciplines related to social and historical institutions in the U.S., Africa, and the African Diaspora. Recommended for Black Studies or Behavioral Science Majors. Program consent for repetition.

Credit Hours: 3

BL_STU 3705: Themes in Black Culture
Examines various themes, issues and perspective in literature, music, the arts, and other related disciples related to social and historical institutions in the U.S., Africa, and the African Diaspora. Recommended for Black Studies Majors. Program consent required for repetition.

Credit Hours: 3

BL_STU 3705W: Themes in Black Culture - Writing Intensive
Examines various themes, issues and perspective in literature, music, the arts, and other related disciples related to social and historical institutions in the U.S., Africa, and the African Diaspora. Recommended for Black Studies Majors. Program consent required for repetition.

Credit Hours: 3

BL_STU 3804: Resistance in the Black Atlantic
Enslaved black people resisted slavery in the Americas in a variety of ways. From everyday forms of resistance to the planning of revolts, enslaved people displayed an unwillingness to yield to slavery, assertions of their freedom built on political, philosophical, and economic concepts about society and the rights of human beings. Resistance in what is known as the black Atlantic can be divided into nonviolent and violent forms, but within each of these categories were scores of activities validating the claim that the enslaved never accepted slavery or lost their sense of freedom as human beings. By focusing on nonviolent, violent, everyday and periodic forms of resistance, this course examines how the agency of the enslaved served as a foundation for the culture of freedom in the Americas. Resistance is used to explore the influence of blacks on the historical evolution of the Americas, and the overall aim of this course is to give students an understanding of black resistance as one of the most important sources of the progress of the Atlantic world.

Credit Hours: 3
BL_STU 3805: Hip-Hop: Global Music and Culture
Hip-Hop has captured the minds of youth worldwide, spawning themes, trends, attitudes, and behaviors that are similar to but distinct from the manifestation of hip-hop in the US. This course is designed as an intellectual excursion to explore the US and global creation and consumption of hip-hop through the lens of cultural studies. The class will study processes of imitation, appropriation, translation, and customization and their impact on themes of gender, hegemony, commercialism, sexuality, race, and identity.
Credit Hours: 3

BL_STU 3977: Black Studies Methodologies
Advanced research, writing, and application of knowledge and critical paradigms in Black Studies, through study of such topics as slavery, colonialism, urbanization and migration, environment, gender, race, identity, intellectual movements, cultural studies and popular culture. Graded on A-F basis only.
Credit Hours: 3
Recommended: BL_STU 2975

BL_STU 4001: Undergraduate Topics in Black Studies-General
Organized study of selected topics. Subjects and credit may vary from semester to semester. Program consent for repetition.
Credit Hour: 1-3
Prerequisites: junior standing

BL_STU 4001W: Undergraduate Topics in Black Studies-General - Writing Intensive
Organized study of selected topics. Subjects and credit may vary from semester to semester. Program consent for repetition.
Credit Hour: 1-3
Prerequisites: junior standing

BL_STU 4003: Topics in Black Studies-Behavioral Science
Organized study of selected topics. Subjects, specific content, and credits may vary from semester to semester. Repeatable up to 6 hours with departmental consent.
Credit Hours: 3

BL_STU 4004: Topics in Black Studies-Social Science
Organized study of selected topics. Subjects, specific content, and credits may vary from semester to semester. Repeatable up to 6 hours with departmental consent.
Credit Hours: 3

BL_STU 4005: Topics in Black Studies-Humanities
Organized study of selected topics. Subjects, specific content, and credits may vary from semester to semester. Repeatable up to 6 hours with departmental consent.
Credit Hours: 3

BL_STU 4020: Studies in Black Feminist Thought
(same as WGST 4020; cross-leveled with BL_STU 7020, WGST 7020). Examines recent problems and critical debates within black feminist theory.
Credit Hours: 3
Prerequisites: WGST 2020

BL_STU 4040: Slavery and the Crisis of the Union: The American Civil War Era
(same as HIST 4040). This class explores the history of the Civil War era, a transformative moment in both U.S. and world history. Our goal is to explore and answer a number of questions of great historical significance: How and why did slavery persist in an age of liberal democracy? Why did the pre-war Union prove unable to tolerate the plural visions and diverse institutions of its people? Was the descent into war more a measure of institutional weakness than of the intensity of moral conflict? What were the constituent elements of the competing wartime 'nationalisms' that evolved in both north and south? How and why did a war that began to restore the Union become one for emancipation? How was it the forerunner of modern, 'total' warfare? Did the governmental, socio-economic and racial changes wrought by war constitute a 'second American revolution'? Were the limits or the achievements of post-war Reconstruction more notable? And, last but certainly not least, how did the triumph of the Union condition the political and economic development of a rapidly globalizing world?
Credit Hours: 3

BL_STU 4103: African-American Politics
(same as POL_SC 4130). Surveys political participation of African-Americans in American politics. Analyzes their public lives in the context of elections, behavior of political organizations, social movements, parties, and level of government.
Credit Hours: 3

BL_STU 4210: African-American Religion
(same as REL_ST 4210). Examines the organization of major African American Christian denominations, Islam and religious movements. Twentieth century issues will be discussed, including sexism, classism and homophobia in church communities.
Credit Hours: 3
Prerequisites: junior standing

BL_STU 4230: Women, Development, and Globalization
(same as SOCIOL 4230, WGST 4230, PEA_ST 4230; cross-leveled with BL_STU 7230, SOCIOL 7230, WGST 7230). Examines the history and structure of "development" discourse and practices. Stresses the interconnections and impact on women globally. Reviews women's strategies in defining and instituting programs to improve quality of life in communities.
Credit Hours: 3
Prerequisites: BL_STU 1332, BL_STU 2200; SOCIOL 2200, WGST 1332 or WGST 2010
BL_STU 4270: African-Americans in the Twentieth Century
(same as HIST 4270; cross-leveled with BL_STU 7270, HIST 7270).
Surveys the African-American experience from 1900 to the present.
Attention is given to economic, political, social, and cultural trends.
Credit Hours: 3

BL_STU 4300: The Black Family: Past, Present & Future
(same as H_D_FS 4300; cross-leveled with BL_STU 7300, H_D_FS 7300). Emphasis is on the unique social, economic, religious, educational and political environments that have affected the structure and function of the black family.
Credit Hours: 3
Prerequisites: junior standing

BL_STU 4303: Race, Class, Gender and U.S. Social Policy
Examines the causes and effects of the vast social and economic inequalities that exist between blacks and whites in US society, including the role federal, state and local government plays in creating and addressing these inequalities.
Credit Hours: 3

BL_STU 4335: The Wire: Race, Urban Inequality, and the "Crisis" of the American City
(same as HIST 4335; cross-leveled with BL_STU 7335, HIST 7335). The HBO series "The Wire," a crime drama based on the border city of Baltimore, exposed the interlocking, structural realities giving shape to the landscapes, neighborhoods, and lived experiences of urban America during the early twenty-first century. Through vivid storytelling, "The Wire" complicates understandings of the "urban crisis" through a focus on the inner workings of major institutions such as the media, public schools, politics, underground economies, public housing, and the criminal justice system and on the ways in which poor and working-class black residents negotiate power and survival. Using the cable series as a lens, this class offers students the opportunity to critically examine the historical, economic, social, and political dimensions of urban inequality.
Credit Hours: 3

BL_STU 4352: Historical Studies in African Music
(same as MUS_H_LI 4352). Ethnomusical introduction to the music and culture of countries and ethnic groups in Africa. Traditional and contemporary popular styles are explored, and influences of Islamic invasions, missionary arrivals, colonial conquests, neo-colonial trends, and globalization.
Credit Hours: 3
Prerequisites: Open to upper-level undergraduate students with instructor's consent

BL_STU 4400: Studies in African Diaspora Literature
(same as ENGLISH 4400; cross-leveled with BL_STU 7400, ENGLISH 7400). Topics (e.g., African American Poetry, African Diaspora Drama) announced at time of registration. No more than six hours may be taken in the Studies in African Diaspora Literature series.
Credit Hours: 3
Recommended: junior standing

BL_STU 4415: African Americans and American Justice
(same as HIST 4415; cross-leveled with BL_STU 7415, HIST 7415). This course provides opportunities to review and discuss selected court cases and legislation in which black men, women, or children were plaintiffs and defendants or affected by the laws.
Credit Hours: 3
Prerequisites: senior standing required

BL_STU 4415W: African Americans and American Justice - Writing Intensive
(same as HIST 4415; cross-leveled with BL_STU 7415, HIST 7415). This course provides opportunities to review and discuss selected court cases and legislation in which black men, women, or children were plaintiffs and defendants or affected by the laws.
Credit Hours: 3
Prerequisites: senior standing required

BL_STU 4420: Africana Womanism
(same as ENGLISH 4420; cross-leveled with BL_STU 7420, ENGLISH 7420). An intensive study of Africana Womanism, focusing on selected Africana women writers. May be repeated to six hours with departmental consent.
Credit Hours: 3
Recommended: junior standing

BL_STU 4488: Major African Diaspora Women Writers, 1789 to 1890
(same as WGST 4488, ENGLISH 4488; cross-leveled with BL_STU 7488, WGST 7488, ENGLISH 7488). See BL_STU 4480 for course description.
Credit Hours: 3

BL_STU 4500: Special Problems in Black Studies
Independent project or paper, not leading to dissertation.
Credit Hour: 1-99
Prerequisites: instructor's consent

BL_STU 4640: African Politics
(same as POL_SC 4640). A general comparative course focusing on post-independent Africa. Theories and concepts related to decolonization, nationalism, democratization, and ethnicity; also institutional forms and organizations: political parties, parliaments, and executives.
Credit Hours: 3

BL_STU 4710: Themes in African Diaspora Folklore
(same as ANTHRO 4160 and ENGLISH 4710.) Intensive study in a selected area of African Diaspora Folklore: folk narrative, folk song, myth, proverb, etc., folklore and literature, or the folklore of a particular group. 4710 may be repeated for a maximum of six hours with instructor's consent.
Credit Hours: 3
Recommended: junior standing
BL_STU 4804: Historical Studies of Black Women
This course offers a comprehensive examination of the origins, developments, and productions of the specified time period with emphases on black women as creative artists, activists, performers, musicians, and writers.
Credit Hours: 3

BL_STU 4877: Black Studies: Study Abroad-Social Science
This interdisciplinary study abroad course provides students with global experience within the African Diaspora, the opportunity to study in a foreign culture and augment their "global competencies" and support their study and/or career development. Graded A-F basis only.
Credit Hours: 3

BL_STU 4904: Historical and Contemporary Slavery
(same as HIST 4904). An exploration of slavery in both its historical and contemporary context, focusing on the origins, characteristics, and struggles to abolish the practice. Historical slavery examined using African enslavement in the Americas, and contemporary slavery using human trafficking and forced labor in the developed and developing world.
Credit Hours: 3

BL_STU 4977: Black Studies Capstone
This course is designed to permit students to integrate general and specialized knowledge within the three Black Studies tracks (History, Society, Culture) using an interdisciplinary approach. Topics vary according to instructor and core discipline. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: Junior standing

BL_STU 7020: Studies in Black Feminist Thought
(same as WGST 7020; cross-leveled with BL_STU 4020 and WGST 4020). Examines recent problems and critical debates within black feminist theory.
Credit Hours: 3

BL_STU 7300: The Black Family: Past, Present & Future
(same as H_D_FS 7300). Emphasis is on the unique social, economic, religious, educational and political environments that have affected the structure and function of the black family.
Credit Hours: 3

BL_STU 7335: The Wire: Race, Urban Inequality, and the "Crisis" of the American City
(same as HIST 7335; cross-leveled with HIST 4335, BL_STU 4335). The HBO series "The Wire", a crime drama based on the border city of Baltimore, exposed the interlocking, structural realities giving shape to the landscapes, neighborhoods, and lived experiences of urban America during the early twenty-first century. Through vivid storytelling, "The Wire" complicates understandings of the "urban crisis" through a focus on the inner workings of major institutions such as the media, public schools, politics, underground economies, public housing, and the criminal justice system and on the ways in which poor and working-class black residents negotiate power and survival. Using the cable series as a lens, this class offers students the opportunity to critically examine the historical, economic, social, and political dimensions of urban inequality.
Credit Hours: 3

BL_STU 7420: Africana Womanism
(same as ENGLSH 7420). An intensive study of Africana Womanism, focusing on selected Africana women writers. May be repeated to six hours with departmental consent.
Credit Hours: 3

BL_STU 8000: Independent Readings in Black Studies
Readings on selected topics in Black Studies, with emphasis on the implications of the interdisciplinary and intersecting areas of History, Society, and Culture. May be repeated to a maximum of six hours.
Credit Hours: 3
Prerequisites: Department Consent Required

BL_STU 8510: Ecology, Conservation, and Environmental Justice
(same as F_W 8510). The goal of this course is to introduce graduate students in natural resource management and conservation biology to the ecological and management concepts that underlie environmental justice issues, and to explain how broader environmental justice concepts are relevant to natural resource and conservation fields. Graded on A-F basis only. Prerequisites: One undergraduate course from the following list of disciplines: ecology, natural resource management, conservation biology, sociology or equivalent.
Credit Hours: 2

BL_STU 8901: Graduate Topics in Black Studies
Graduate seminar arranged by topics or themes related to Black Studies. Graded on A-F basis only.
Credit Hours: 3

Business Administration (BUS_AD)

BUS_AD _0592: Alicante Study Abroad Pre-departure required on-Campus Information Session (GRAD)
Place holder Course for Pre-departure required on-Campus Information Session Zero credit and billing hours No Term Finalization
Credit Hours: 0

BUS_AD _0594: Marseille, France Pre-departure required on-Campus Information Session
Place holder Course for required pre-departure on-campus information sessions. Zero credit and billing hours. No Term Finalization.
Credit Hours: 0

BUS_AD _0599: Marseille, France Pre-departure required on-Campus Information Session
Place holder Course for required pre-departure on-campus information sessions. Zero credit and billing hours. No Term Finalization.
Credit Hours: 0
BUS_AD 1500: Foundations of Business and Professional Development Principles
This course will provide students the opportunity to learn how to be successful in the Trulaske College of Business (TCoB) as they prepare for a career in business. Students will be led through an exploration of opportunities in our college as well as their personal strengths and how those strengths match with various business academic and career paths. Further, students will learn competencies that are necessary for both academic and professional success. This course is offered as a component of the college's unique Professional Development Program. Graded on A-F basis only.

Credit Hours: 2
Prerequisites: Restricted to freshman and sophomore students during early registration

BUS_AD 2500: Intermediate Professional Development Principles
Introduction to Professional Development in Business, will provide students the opportunity to learn about professional interpersonal dynamics - understanding and working with others. Students will learn skills imperative to forming and nurturing professional relationships and will have the opportunity to practice these skills via field experience. Throughout the course, students will continue to develop the professional competencies necessary for career success. This course is offered as a component of the college's unique Professional Development Program. Graded on A-F basis only.

Credit Hours: 2
Prerequisites: 27 credit hours
Corequisites: BUS_AD 1500 or MNGMT 1050

BUS_AD 3500: Advanced Professional Development Principles
Provides a discussion of professional competencies important for success as a business professional. Includes the assessment, communication and development of competencies valued by employers. Graded on A-F basis only.

Credit Hours: 2
Prerequisites: Must be a BSBA or ACCT_BSACC major

BUS_AD 4500: Professional Development Program - Internship
This course is designed to help students practice professional core competencies in the workplace. Students will secure a professional-level work experience and apply classroom knowledge and interpersonal skills. This course is a graduation requirement for students seeking the BSBA degree. Graded on S/U basis only.

Credit Hours: 3
Prerequisites: BUS_AD 3500; Restricted to Upper Level Business Majors who have had their internship approved by the Professional Development Program

BUS_AD 7050: MBA Communications Practice
Special laboratory instruction in oral and written communication skills with an emphasis on business communications.

Credit Hour: 1-3

BUS_AD 7330: Business Law/Regulation
Legal aspects of employment, administrative regulation, corporate and noncorporate ownership structures, and legal issues involving business transactions.

Credit Hour: 2-3

BUS_AD 7340: Business Ethics and Leadership
Case studies, discussion, and readings used to integrate critical thinking about ethical issues into business decision. Development and application of ethical decision making frameworks.

Credit Hour: 1-3

BUS_AD 8001: Topics in Business Administration
Selected topics in administration offered on experimental basis.

Credit Hour: 1-99
Prerequisites: instructor's consent

BUS_AD 8010: MBA Seminar
Integration of business executives and real world problem solving, career preparation, and professional growth activities. Assignments emphasize teamwork and group productivity. May be repeated. Some sections may be graded on A-F or S/U basis.

Credit Hour: 1-3
Prerequisites: MBA students only

BUS_AD 8020: MBA Seminar
Integration of business executives and real world problem solving, career preparation, and professional growth activities. Assignments emphasize teamwork and group productivity. May be repeated. Some sections may be graded on A-F or S/U basis.

Credit Hour: 1-3
Prerequisites: MBA students only

BUS_AD 8030: MBA Seminar
Integration of business executives and real world problem solving, career preparation, and professional growth activities. Assignments emphasize teamwork and group productivity. Some sections may be graded A-F or S/U only. May be repeated.

Credit Hour: 1-3
Prerequisites: MBA students only

BUS_AD 8500: Business Problem Analysis: Field Project
Application of functional areas of business to real-world cases in business planning. Students will prepare and present business plan for an organization as a team project in a supervised experience.

Credit Hour: 1-3

BUS_AD 8600: Business Consulting
Students work in a team consulting capacity, with medium to large organizations, identifying and defining relatively complex and often ambiguous business problems such as needs assessment, quality management, systems management, policy/strategy formulation and similar areas.

Credit Hour: 2-3
BUS_AD 8730: International Study Abroad
Study abroad opportunities in one or more countries. Focuses on selected international business issues, cultural differences, and visiting businesses on-site. Some sections may be graded on A-F or S/U basis only.

Credit Hours: 1-6
Prerequisites: consent required

Cardiopulmonary & Diagnostic Sciences (CDS)

CDS 2190: Medical Terminology
Medical terminology based on a word building system. This course is intended for students majoring in health professions, nursing and other helping professions, pre-med and biology.

Credit Hours: 3
Prerequisites: sophomore standing

CDS 3200: Essentials of Pathology
Provides basic foundation for understanding etiology of disease with emphasis on systemic pathology for non-medical students.

Credit Hours: 2
Recommended: general biology and one course in either physiology or anatomy

CDS 3460: Cardiovascular and Pulmonary Diagnostic Applications I (same as RA_SCI 3460). Interdisciplinary small group, case-based study of common cardiovascular, pulmonary and other diseases. Pathophysiology, diagnosis and treatment from the perspective of allied health professionals. Emphasis on critical thinking, teamwork skills.

Credit Hours: 3
Prerequisites: Acceptance into Radiologic Sciences, Radiography Program

CDS 3460W: Cardiovascular and Pulmonary Diagnostic Applications I - Writing Intensive (same as RA_SCI 3460). Interdisciplinary small group, case-based study of common cardiovascular, pulmonary and other diseases. Pathophysiology, diagnosis and treatment from the perspective of allied health professionals. Emphasis on critical thinking, teamwork skills.

Credit Hours: 3
Prerequisites: Acceptance into Radiologic Sciences, Radiography Program

CDS 4085: Problems in Clinical and Diagnostic Sciences
Supervised investigation in an aspect of Clinical and Diagnostic Sciences usually culminating in a written report.

Credit Hour: 1-5
Prerequisites: instructor's consent

CDS 4328: Radiation Safety and Biology
Regulations and procedures for safe uses of radiation to heighten student understanding of radiation physics, radiation biology, and radiation safety. Graded on A-F basis only.

Credit Hours: 4
Prerequisites: Junior standing
Recommended: One course in Biological Sciences and Physics/Chemistry

CDS 4440: Organization and Administration (same as RA_SCI 4440 and RS_THR 4440). Examines design and operation of allied health service departments and educational programs, including facilities, personnel procedures, record systems, ethics, medical-legal aspects, interdepartmental relations and curriculum development.

Credit Hours: 3

CDS 4460: Cardiovascular and Pulmonary Diagnostic Applications II
Interdisciplinary study of cardiac dysrhythmias, MI, stroke. Application of current American Heart Association Advanced Cardiac Life Support (AHA ACLS) algorithms. Successful completion of this course fulfills AHA ACLS Provider requirements.

Credit Hours: 3

CDS 4480: Clinical Ethics
Exploration of bioethics issues in health care with emphasis on issues related to patient choice and provider responsibility. Topics include philosophical theories, principles and models for ethical and lawful decision making in healthcare.

Credit Hours: 3

CDS 4480W: Clinical Ethics - Writing Intensive
Exploration of bioethics issues in health care with emphasis on issues related to patient choice and provider responsibility. Topics include philosophical theories, principles and models for ethical and lawful decision making in healthcare.

Credit Hours: 3

CDS 4500: Emergency and Disaster Management in Healthcare
This course will provide the student with an orientation the principles of disaster management in the community (both state and federal levels) and the acute care facility. Topics include biological agents, allocation of resources and ethical considerations. Graded on A-F basis only.

Credit Hour: 1
Prerequisites: Restricted to students in the Undergraduate Academic Program of Health Professions

CDS 4840: Asthma Education
This course will provide the student with a multi-faceted approach to caring for the patient with asthma. Topics include pathophysiology, pharmacology, patient/family education, patient assessment and management. Assists students to take the Asthma Educator Credentialing Exam. Graded on A-F basis only.

Credit Hours: 2
Prerequisites: instructor's consent
CDS 4955: Introduction to Research
(same as RS_THR 4955). An interdisciplinary course designed to promote undergraduate allied health research. Includes identifying and designing research problems through formulating relevant questions, learning to systematically search for answers, and methods for searching the literature.

Credit Hours: 3

CDS 4955W: Introduction to Research - Writing Intensive
(same as RS_THR 4955). An interdisciplinary course designed to promote undergraduate allied health research. Includes identifying and designing research problems through formulating relevant questions, learning to systematically search for answers, and methods for searching the literature.

Credit Hours: 3

CDS 4985: Healthcare Organization and Leadership
In this course, students will explore leadership principles as they relate to the student's focus area, combining previous expertise in the field with an interdisciplinary perspective within the healthcare community. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: Senior standing

CDS 4985W: Healthcare Organization and Leadership - Writing Intensive
In this course, students will explore leadership principles as they relate to the student's focus area, combining previous expertise in the field with an interdisciplinary perspective within the healthcare community. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: Senior standing

CDS 7025: CDS Electronic Communication and Informatics
The course presents an overview of healthcare informatics pertaining to all clinical and diagnostic sciences (CDS) constituent programs and of medical informatics. The course introduces all possible electronic communication avenues and methods used in clinical and diagnostic sciences. It provides a comprehensive introduction to the applications of information systems in a range of healthcare environments including clinical and diagnostic sciences education, clinical research, and diverse clinical settings where students will be employed upon graduation. It includes extensive readings and critical discussions of relevant professional research literature. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: Program and instructor's consent

CDS 7027: Techniques for Teaching CDS Courses Traditionally or Online
Clinical and Diagnostic Sciences (CDS) is a new model that integrates multiple dissimilar programs in the allied health and medical fields. This course is designed to prepare CDS professionals to design, organize, conduct and evaluate professional educational offerings, including pre-professional didactic and clinical coursework, in-service trainings, and continuing professional education sessions conducted through traditional and/or online formats. The course will guide the student in developing critical thinking and problem solving strategies necessary in the clinical, therapeutic and diagnostic imaging modalities, as well as the relationship between theoretical and practical aspects of teaching techniques specific to CDS. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: Program and instructor's consent

CDS 7110: Management Approaches in CDS
Clinical and Diagnostic Sciences (CDS) is a multiple discipline program in allied health sciences and medical fields. This course is designed to prepare CDS professionals to effectively explore the variety of styles and effective approaches of management. The course will guide the student in developing critical thinking and problem solving strategies necessary in the clear understanding of the strategic avenues required by the appropriate management methods that lead to a harmonic decorum of integration between multiple programs and departments in CDS. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: Program and instructor's consent

CDS 7112: Leadership Styles in CDS
The course is designed to prepare clinical and diagnostic sciences (CDS) professionals from various integrated programs of CDS fields to understand and apply effective leadership styles and methods in order to be efficient, dynamic, and successful leader. The course will guide the students in developing critical thinking and problem solving strategies necessary to expand their strategic leadership knowledge and skills to function in diverse environments of the CDS fields as integrated units or separately. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: Program and instructor's consent

CDS 7113: Practical Multidiscipline Laboratory Organization in CDS
The course is designed to prepare clinical and diagnostic sciences (CDS) professionals from various integrated programs of CDS fields to understand and effectively apply practical organizational skills when dealing with multidisciplinary clinical laboratory settings. The course will guide the students to explore all available practical methods in order to construct an efficient, dynamic, and flowchart accessible laboratory within the CDS department and the fields. The outcome of this course will augment the student's abilities to develop critical thinking and problem solving strategies necessary to function in diverse laboratory environments within the CDS integrated fields. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: Program and instructor's consent

CDS 7114: Organizational Design and Dynamics in CDS
The course is designed to prepare clinical and diagnostic sciences (CDS) professionals from various integrated programs of CDS fields to understand and conceptualize the most appropriate model of structure design of an organization as part of the CDS constituent fields and holistically integrated CDS organization as a whole. Students will learn and be instructed to understand the dynamics that occur within the CDS organizational design. The course will guide the students as they explore various examples available for designs of a CDS organization. The outcome of this course will enhance the student's abilities to develop
critical thinking and problem solving strategies necessary to function in diverse clinical and diagnostic environments within the CDS integrated fields. Graded on A-F basis only.

**Credit Hours:** 3  
**Prerequisites:** Program and instructor's consent

---

**CDS 7116: Administration of Educational Programs in CDS**  
Clinical and Diagnostic Sciences (CDS) is a new model that integrates multiple dissimilar programs in the allied health and medical fields. This course is designed to prepare CDS professionals to effectively administer and articulate with educational programs. The course will guide the student in developing critical thinking and problem solving strategies necessary to implement strategic plans, institute clinical affiliation agreements, establish thoughtful and consistent policies and procedures, evaluate student selection criteria and pursue accreditation for education programs in CDS. Graded on A-F basis only.

**Credit Hours:** 3  
**Prerequisites:** Program and instructor's consent

---

**CDS 7118: Telecommunication and Reporting in CDS**  
Clinical and Diagnostic Sciences (CDS) is a new model that integrates multiple dissimilar programs in the allied health and medical fields. This course will introduce and prepare CDS professionals to telecommunication avenues of interacting, transmitting, and mobilizing the data and pertinent information to the countless outlets of information distribution areas. The course will provide the professional student with the tools and means to understand how to report all the relevant data and information essential to the process to interact and disseminate significant events and results used within the CDS constituent programs. The course will guide the student in developing critical thinking and problem solving strategies necessary in the clinical, therapeutic, and diagnostic imaging modalities in the process of telecommunication skills and reporting methods among all the CDS fields. Graded on A-F basis only.

**Credit Hours:** 3  
**Prerequisites:** Program and instructor's consent

---

**CDS 7840: Asthma Education**  
This course will provide the student with a multi-faceted approach to caring for the patient with asthma. Topics include pathophysiology, pharmacology, patient/family education, patient assessment and management. Assists students to take the Asthma Educator Credentialing Exam. Graded on A-F basis only.

**Credit Hours:** 2  
**Prerequisites:** instructor's consent required

---

**CDS 8001: Topics in Clinical and Diagnostic Sciences**  
This course is designed to explore, through selected themes assigned by the instructor, advanced clinical and diagnostic sciences (CDS) topics in psychosocial, professional, educational, and technical areas. The organized study of a specific CDS topic will be conducted in a holistic manner. Graded on A-F basis only.

**Credit Hour:** 1-3

---

**CDS 8050: Research in Clinical and Diagnostic Sciences**  
This course is designed for the clinical and diagnostic sciences (CDS) programs’ graduates and health science degree holders who wish to explore advanced opportunities in CDS through a research component and scientific investigations. It will allow the students to formulate appropriate reasons for pursuing a specific area of interest. The course will provide knowledge about research methodology in CDS, the operation of, and how to conduct a research in a CDS department and in a clinical setting. It will guide the student to develop appropriate research qualities associated with the CDS constituent programs. The course guides the students in developing independent study and scientific investigation skills. The course does not lead to a thesis or dissertation. Graded on A-F basis only.

**Credit Hour:** 1-3  
**Prerequisites:** Program and instructor’s consent

---

**CDS 8085: Problems in Clinical and Diagnostic Sciences**  
This course is designed for the clinical and diagnostic sciences (CDS) field is still an emerging profession in the medical field. This course is designed to provide a broad overview of multiple “problems” faced by CDS in the health care context. Through a variety of themes exploring theoretical and clinical aspects of the constituent professions, the course will guide the student in developing critical thinking and problem solving strategies necessary in the analysis of the controversial aspects of a chosen subject. Issues will include, but not limited to the role and function of CDS in health care in general and clinical and diagnostic imaging in special, the relationship between theoretical and practical aspects of the imaging modality and clinical aspects (fast pace of advancing technology versus slow pace of clinical application, education, literature of specialty, etc.), ethical and legal issues in the CDS constituent professions, problems faced by a clinical and diagnostic educational program, CDS graduates’ role in diagnosis, education, management, and CDS clinical applications. Graded on A-F basis only.

**Credit Hour:** 1-3  
**Prerequisites:** Program and instructor’s consent

---

**CDS 8090: Research in Clinical and Diagnostic Sciences**  
This course is designed for the clinical and diagnostic sciences (CDS) constituents programs and health science graduates who wish to explore through the methods of scientific research any area of interest in CDS fields. It leads to a thesis or dissertation. Graded on A-F basis only.

**Credit Hour:** 1-3  
**Prerequisites:** Program and instructor’s consent

---

**CDS 8920: Applied Research Methodologies in Clinical and Diagnostic Sciences**  
Practical research application of clinical and diagnostic sciences (CDS) in a real time clinical environment: exploring the various methods of applied clinical research and how they relate to decision making, patient handling, technical applications, instrumentation and image processing. Graded on A-F basis only.

**Credit Hours:** 3  
**Prerequisites:** BHS degree in CDS and or allied health professions, and Program and instructor's consent
# Chemical Engineering (CH_ENG)

**CH_ENG 1000: Introduction to Chemical Engineering**  
Orientation course for freshmen-level students. Introduction to careers and opportunities in chemical engineering, basic engineering principles, simple calculations.  
**Credit Hours:** 2  
**Prerequisites or Corequisites:** MATH 1500, CHEM 1320

**CH_ENG 1000H: Introduction to Chemical Engineering - Honors**  
Orientation course for freshmen-level students. Introduction to careers and opportunities in chemical engineering, basic engineering principles, simple calculations.  
**Credit Hours:** 2  
**Prerequisites or Corequisites:** MATH 1500, CHEM 1320. Honors eligibility required

**CH_ENG 1320: Chemistry and Chemical Technology I**  
Covers fundamental principals of chemistry, gases, engineering materials, electrochemistry, and applications with instruction including numerical modeling. Graded on A/F basis only. May be repeated for credit.  
**Credit Hours:** 3  
**Prerequisites or Corequisites:** MATH 1500

**CH_ENG 1330: Chemistry and Chemical Technology II**  
Covers fundamentals principals of chemistry, gases, engineering materials, electrochemistry, and applications with instruction including numerical modeling. May be repeated for credit. Graded on A/F basis only.  
**Credit Hours:** 3  
**Prerequisites or Corequisites:** CH_ENG 1320 or CHEM 1320 and MATH 1500  
**Corequisites:** MATH 1500

**CH_ENG 2001: Advanced Experimental Course**  
Content and number of credit hours to be listed in Schedule of Courses.  
**Credit Hour:** 1-99  
**Prerequisites:** sophomore standing

**CH_ENG 2118: Introduction to Energy Technology and Sustainability**  
An introductory course on energy technology and those resources and practices that allow for sustainable commercialization. Graded on A-F basis only.  
**Credit Hours:** 3  
**Prerequisites:** sophomore standing in engineering

**CH_ENG 2225: Mass and Energy Balance**  
Industrial stoichiometry, material and energy balances, thermophysics, thermochemistry; related topics.  
**Credit Hours:** 3  
**Prerequisites or Corequisites:** PHYSCS 2750, CHEM 2100

**CH_ENG 2226: Engineering Process Computations and Laboratory**  
Introduction to the effective use of computer software with emphasis on chemical engineering applications, which include solutions for systems of algebraic equations using matrix methods; solutions of ordinary differential equations and partial differential equations and visualization of those solutions; linear, multilinear, and nonlinear regression for data analysis; 2D and 3D plotting, symbolic calculations, process control simulations, and text processing.  
**Credit Hours:** 3  
**Prerequisites or Corequisites:** MATH 1700, CH_ENG 2225

**CH_ENG 3234: Principles of Chemical Engineering I**  
Fluid flow, heat and mass transfer. A comprehensive treatment of the transport processes related to chemical engineering operations, with focus on both theory and applications.  
**Credit Hours:** 4  
**Prerequisites:** grade of C- or better in CH_ENG 2225

**CH_ENG 3235: Principles of Chemical Engineering II**  
Separation processes in chemical engineering, including: Evaporation, absorption, distillation, extraction, leaching, membrane separation, and drying.  
**Credit Hours:** 3  
**Prerequisites:** CH_ENG 3234

**CH_ENG 3243: Chemical Engineering Laboratory I**  
Laboratory study of some principal unit operations of chemical engineering.  
**Credit Hours:** 3  
**Prerequisites or Corequisites:** CH_ENG 2226 and CH_ENG 3235

**CH_ENG 3243W: Chemical Engineering Laboratory I - Writing Intensive**  
Laboratory study of some principal unit operations of chemical engineering.  
**Credit Hours:** 3  
**Prerequisites or Corequisites:** CH_ENG 2226 and CH_ENG 3235

**CH_ENG 3261: Chemical Engineering Thermodynamics I**  
Introduction to classical thermodynamics with chemical engineering applications. Heat, work, and energy; Application of the Laws of Thermodynamics to closed systems, open systems, and power and refrigeration cycles; Thermochemical calculations; Equations of state; Phase equilibrium properties of pure fluids.  
**Credit Hours:** 3  
**Prerequisites:** grade of C or better in CH_ENG 2225

**CH_ENG 3262: Chemical Engineering Thermodynamics II**  
Chemical thermodynamics, with emphasis on mixtures. Multicomponent systems and phase diagrams; excess properties; chemical potential, fugacity, and activity; models of non-ideal mixtures; phase and surface equilibria; chemical reaction equilibria.  
**Credit Hours:** 3  
**Prerequisites or Corequisites:** CHEM 2110  
**Prerequisites:** CH_ENG 3261, MATH 2300
**CH_ENG 3307: Chemical Process Safety and Professional Ethics**

A course focused on important technical fundamentals of chemical process safety and their application including professional ethics considerations. Graded on A-F basis only.

**Credit Hours:** 3  
**Prerequisites:** CH_ENG 3234, CH_ENG 3261 or instructor's consent

---

**CH_ENG 4001: Topics in Chemical Engineering**

Current and new technical developments in chemical engineering.

**Credit Hours:** 3  
**Prerequisites:** instructor's consent

---

**CH_ENG 4085: Problems in Chemical Engineering**

Directed study of chemical engineering problems.

**Credit Hour:** 2-4  
**Prerequisites:** instructor's consent

---

**CH_ENG 4220: Hazardous Waste Management**

(same as CV_ENG 4220; cross-leveled with CH_ENG 7220, CV_ENG 7220). Engineering principles involved in handling, collection, transportation, processing and disposal of hazardous waste, waste minimization, legislation on hazardous wastes and groundwater contamination.

**Credit Hours:** 3  
**Prerequisites:** junior standing

---

**CH_ENG 4226: Engineering Research Calculations and Reporting**

(cross-leveled with CH_ENG 7226). Application and analysis of engineering calculations in MS Excel, Matlab, and project-specific software including applications of calculus, experiential learning, and supervised research. Must have research advisor define at least one experiment and review at least one report. Graded on A-F basis only.

**Credit Hours:** 3  
**Prerequisites:** MATH 4100

---

**CH_ENG 4270: Design of Experiments and Statistical Quality Control for Process Engineers**

(same as BIOL_EN 4270; cross-leveled with CH_ENG 7270, BIOL_EN 7270). A practical statistical tool box for experimenters: process means, effects of variables, factorial experiments, and statistical quality control.

**Credit Hours:** 3  
**Recommended:** experience with Excel or instructor's consent

---

**CH_ENG 4285: Pollution Prevention**

Identify, analyze, and solve energy, water, and raw materials inefficiencies common to industrial processes and facilities. Graded on A-F basis only.

**Credit Hours:** 3  
**Prerequisites:** CHEM 1320, ENGINR 2300 or CH_ENG 3261, MATH 2300, and PHYSCS 2760

---

**CH_ENG 4306: Advanced Engineering Math**

(same as NU_ENG 4306). Applies ordinary and partial differential equations to engineering problems; Fourier’s series; determinants and matrices; Laplace transforms; analog computer techniques.

**Credit Hours:** 3  
**Prerequisites:** MATH 4100

---

**CH_ENG 4311: Chemodynamics**

(cross-leveled with CH_ENG 7311). Environmental movement of chemicals in air, water, and soil; designed to introduce students to the basic principles and techniques useful for the prediction of the movement and fate chemicals in ecosystems.

**Credit Hours:** 3  
**Prerequisites:** CH_ENG 3234 or instructor's consent

---

**CH_ENG 4312: Air Pollution Control**

(cross-leveled with CH_ENG 7312). Modeling of urban air pollution and control techniques. Topics treated are plume dispersion theories, photochemistry, methods of monitoring, methods of industrial abatement and legal aspects.

**Credit Hours:** 3  
**Prerequisites:** CH_ENG 3234 or instructor's consent

---

**CH_ENG 4315: Introduction to Bioprocess Engineering**

(same as BIOL_EN 4315; cross-leveled with CH_ENG 7315, BIOL_EN 7315). This general introduction to bioprocess engineering covers the fundamentals of microbiology and biochemistry in the context of a biomass refinery. Analyses proceed through the use of mass balances, energy balances, and empirical or theoretical models.

**Credit Hours:** 3  
**Prerequisites:** BIOL_EN 2180 (for Biological Engineering students) or CH_ENG 2225 (for Chemical Engineering students) or instructor's consent

---

**CH_ENG 4316: Biomass Refinery Operations**

(same as BIOL_EN 4316; cross-leveled with CH_ENG 7316, BIOL_EN 7316). Design and operation of processes for conversion and/or fractionation of biomass and associated upstream and downstream unit operations. Emphasis on separations and product recovery.

**Credit Hours:** 3  
**Prerequisites:** BIOL_EN 2180 (for Biological Engineering students) or CH_ENG 2225 (for Chemical Engineering students) or instructor's consent

---

**CH_ENG 4317: Chemical Processing in Semiconductor Device**

(cross-leveled with CH_ENG 7317). This course covers the current plasma processing methods used to produce semiconductor devices with emphasis on memory devices. The physics and chemistry of how plasmas are formed, sustained and interact with the semiconductor wafers being processed. Plasma chemistry and the chemical reactions used in plasma etching are discussed.

**Credit Hours:** 3  
**Prerequisites:** MATH 4100 or MATH 7100
CH_ENG 4318: Energy Technology and Sustainability
An introductory course on energy technology, resources, practices, and common calculations used for energy analysis. May be repeated for credit.

Credit Hours: 3
Recommended: at least one engineering thermodynamics course or a Physical Chemistry course or instructor's consent

CH_ENG 4319: Introduction to Polymer Materials
(cross-leveled with CH_ENG 7319). An introduction to the structure and properties of polymers. Solution properties, molecular weight determination and rheological behavior are studied. Manufacturing and processing techniques are considered.

Credit Hours: 3
Prerequisites: CHEM 2110

CH_ENG 4335: Transport Phenomena
(cross-leveled with CH_ENG 7335). Integrated study of momentum, heat and mass transport.

Credit Hours: 3
Prerequisites: CH_ENG 3235, and MATH 4100 or MATH 7100

CH_ENG 4363: Chemical Reaction Engineering and Technology
Reactor design and optimization; rate equations; thermal effects in reactor.

Credit Hours: 3
Prerequisites: CH_ENG 2226, CH_ENG 3262, or instructor's consent

CH_ENG 4370: Process Control Methods and Laboratory
State-space modeling, simulation, and experimental validation; stability analysis; feedback design and experimental studies; methods for disturbance rejection.

Credit Hours: 3
Prerequisites: CH_ENG 2226

CH_ENG 4385: Chemical Engineering Design I
The course presents optimum design methods, cost estimation, material selection and other relevant areas for the design of chemical plants. In addition, chemical safety and risk assessment will be covered.

Credit Hours: 3
Prerequisites: CH_ENG 2226, CH_ENG 3235, CH_ENG 3262, PHYSCS 2760, CHEM 2110

CH_ENG 4401: Finite Element Methods in Chemical Engineering
(cross-leveled with CH_ENG 7401). The numerical solution of engineering problems in heat and mass transport, computational fluid dynamics, and chemical reactions including electromagnetic effects are treated in full detail using finite element methods and computational software to solve problems in one, two, and three dimensional spaces. Both time dependent and steady state solutions are considered. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: CH_ENG 2226
Corequisites: MATH 4100

CH_ENG 4980: Process Synthesis and Design
(cross-leveled with CH_ENG 7980). Continuation of CH_ENG 4385: application of chemical analysis and modeling to a capstone design project.

Credit Hours: 3
Prerequisites: CH_ENG 4363, CH_ENG 4385

CH_ENG 4980W: Process Synthesis and Design - Writing Intensive
(cross-leveled with CH_ENG 7980). Continuation of CH_ENG 4385: application of chemical analysis and modeling to a capstone design project.

Credit Hours: 3
Prerequisites: CH_ENG 4363, CH_ENG 4385

CH_ENG 4990: Undergraduate Research in Chemical Engineering
Directed study of chemical engineering problems.

Credit Hour: 2-4
Prerequisites: Instructor's consent

CH_ENG 4995: Undergraduate Research in Chemical Engineering - Honors
Individual research for a senior thesis; research is supervised by the chemical engineering faculty. The thesis is to be defended before the departmental Honors committee.

Credit Hour: 3-6
Prerequisites: senior standing

CH_ENG 7001: Topics in Chemical Engineering
Current and new technical developments in chemical engineering.

Credit Hours: 3
Prerequisites: Instructor's consent

CH_ENG 7220: Hazardous Waste Management
(same as CV_ENG 7220; cross-leveled with CH_ENG 4220, CV_ENG 4220). Engineering principles involved in handling, collection transportation, processing and disposal of hazardous waste minimization, legislation on hazardous wastes and groundwater contamination.

Credit Hours: 3

CH_ENG 7270: Design of Experiments and Statistical Quality Control for Process Engineers
(same as BIOL_EN 7270; cross-leveled with CH_ENG 4270, BIOL_EN 4270). A practical statistical tool box for experimenters: process means, effects of variables, factorial experiments, and statistical quality control.

Credit Hours: 3
Prerequisites: experience with Excel or instructor's consent

CH_ENG 7311: Chemodynamics
(cross-leveled with CH_ENG 4311). Environmental movement of chemicals in air, water, and soil; designed to introduce students to the basic principles and techniques useful for the prediction of the movement and fate chemicals in ecosystems.

Credit Hours: 3
Prerequisites: CH_ENG 3234 or instructor's consent

CH_ENG 7312: Air Pollution Control
(cross-leveled with CH_ENG 4312). Modeling of urban air pollution and control techniques. Topics treated are plume dispersion theories, photochemistry, methods of monitoring, methods of industrial abatement and legal aspects.

Credit Hours: 3
Prerequisites: CH_ENG 3234 or instructor's consent

CH_ENG 7315: Introduction to Bioprocess Engineering
(same as BIOL_EN 7315; cross-leveled with CH_ENG 4315, BIOL_EN 4315). This General introduction to bioprocess engineering covers the fundamentals of microbiology and biochemistry in the context of a biomass refinery. Analysis proceed through the use of mass balances, energy balances, and empirical or theoretical models.

Credit Hours: 3
Prerequisites: BIOL_EN 2180 (for biological engineering students) or CH_ENG 2225 (for chemical engineering students) or instructor's consent

CH_ENG 7316: Biomass Refinery Operation
(same as BIOL_EN 7316; cross-leveled with CH_ENG 4316, BIOL_EN 4316). Design and operation of processes for conversion and/or fractionation of biomass and associated upstream and downstream unit operations. Emphasis on separations and product recovery.

Credit Hours: 3
Prerequisites: BIOL_EN 2180 or CH_ENG 2225 or instructor's consent

CH_ENG 7319: Introduction to Polymer Materials
(cross-leveled with CH_ENG 7319). An introduction to the structure and properties of polymers. Solution properties, molecular weight determination and rheological behavior are studied. Manufacturing and processing techniques are considered.

Credit Hours: 3
Prerequisites: CHEM 2110

CH_ENG 7335: Transport Phenomena
(cross-leveled with CH_ENG 4335). Integrated study of momentum, heat and mass transport.

Credit Hours: 3
Prerequisites: CH_ENG 3235, and MATH 4100 or MATH 7100

CH_ENG 7401: Finite Element Methods in Chemical Engineering
(cross-leveled with CH_ENG 4401). The numerical solution of engineering problems in heat and mass transport, computational fluid dynamics, and chemical reactions including electromagnetic effects are treated in full detail using finite element methods and computational software to solve problems in one, two, and three dimensional spaces. Both time dependent and steady state solutions are considered. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: CH_ENG 2226
Corequisites: MATH 4100

CH_ENG 8001: Advanced Topics in Chemical Engineering
CH_ENG 8452: Advanced Chemical Engineering Thermodynamics II
Introduction to the methods of statistical thermodynamics and statistical mechanics. The method of ensembles, Maxwell-Boltzmann statistics, the kinetic theory of gases, and theories of liquids. Applications of statistical mechanics to the prediction of physical and chemical properties such as rate coefficients, diffusion coefficients, and conductivities. Graded A-F only.
Credit Hours: 3
Prerequisites: CH_ENG 8451 or instructor's consent

CH_ENG 8463: Chemical Reaction Engineering Science
Phenomenological behavior of catalysts. Theoretical interpretations for heterogeneous and homogeneous catalysts.
Credit Hours: 3
Prerequisites: CH_ENG 4363

CH_ENG 8990: Research-Masters Thesis in Chemical Engineering
Independent investigation in chemical engineering, to be presented as a thesis. Graded on a S/U basis only.
Credit Hour: 1-99
Prerequisites: Masters candidate

CH_ENG 9990: Research-Doctoral Dissertation in Chemical Engineering
Independent investigation in chemical engineering, to be presented as a thesis. Graded on a S/U basis only. candidate
Credit Hour: 1-99
Prerequisites: Ph.D

Chemistry (CHEM)

CHEM 1000: Introductory Chemistry
Introductory course for students with no high school background in chemistry. Covers fundamental principles of scientific measurement, stoichiometry, solutions, basic atomic structure, gases. No credit if taken after CHEM 1100 or CHEM 1320.
Credit Hours: 2
Prerequisites or Corequisites: MATH 1100 or MATH 1120
CHEM 1000 - MOTR CHEM 100: Essentials in Chemistry

CHEM 1100: Atoms and Molecules with Lab
One-semester introduction for non-science majors to the basic concepts and important applications of chemistry. Satisfies A&S requirement for a laboratory science. No credit if taken after CHEM 1000, CHEM 1310 or CHEM 1320.
Credit Hours: 3
CHEM 1100 - MOTR CHEM 100L: Essentials in Chemistry with Lab

CHEM 1100H: Atoms and Molecules with Laboratory - Honors
One-semester introduction for non-science majors to the basic concepts and important applications of chemistry. Satisfies A&S requirement for a laboratory science. No credit if taken after CHEM 1310.
Credit Hours: 3
Prerequisites: Honors eligibility required

CHEM 1320: College Chemistry I
First of two-course sequence emphasizing principles and applications of modern chemical sciences. Covers chemical nomenclature, stoichiometry, kinetic molecular theory, atomic structure, periodic properties, and molecular structure and bonding. Satisfies laboratory science requirement. Math Reasoning Proficiency Course.
Credit Hours: 4
Prerequisites: MATH 1100 or MATH 1120 or equivalent
CHEM 1320 - MOTR CHEM 150L: Chemistry I with Lab

CHEM 1320H: College Chemistry I - Honors
First of a two-course sequence emphasizing principles and applications of modern chemical sciences. Covers chemical nomenclature, stoichiometry, kinetic molecular theory, atomic structure, periodic properties, and molecular structure and bonding. Satisfies laboratory science requirement. Math Reasoning Proficiency Course.
Credit Hours: 4
Prerequisites: MATH 1100 or MATH 1120 or equivalent. Honors eligibility required

CHEM 1330: College Chemistry II
Continuation of CHEM 1320. Covers intermolecular forces, solutions, kinetics, acid-base chemistry, electrochemistry, nuclear chemistry, thermodynamics. Satisfies requirement for a laboratory science. May be taken concurrently with CHEM 2030 or CHEM 2100.
Credit Hours: 4
Prerequisites: grade of C- or better in CHEM 1320 or CHEM 1320H

CHEM 1330H: College Chemistry II - Honors
Continuation of CHEM 1320H. Covers equilibria, kinetics, electrochemistry, nuclear chemistry, thermodynamics. Satisfies requirement for a laboratory science. May be taken concurrently with CHEM 2030 or CHEM 2100.
Credit Hours: 4
Prerequisites: grade of C- or better in CHEM 1320 or CHEM 1320H. Honors eligibility required

CHEM 2030: Survey of Organic Chemistry
One-semester introduction to structure and bonding, functional group chemistry, principles of reactivity, reaction mechanisms, the molecules of life.
Credit Hours: 3
Prerequisites: Grade of C or better in CHEM 1320 or CHEM 1320H or equivalent. Recommended CHEM 1330, or CHEM 1330 concurrently

CHEM 2100: Organic Chemistry I
First course of a two-semester sequence. Structure and bonding; chemistry of hydrocarbons, alkyl halides, alcohols and ethers; reaction mechanisms; principles of reactivity and synthesis; IR and NMR spectroscopy. Only 1 hour credit if taken after CHEM 2030 or equivalent. Prerequisites: grade of C or better in CHEM 1320 or equivalent or CHEM 1330 concurrently,
Credit Hours: 3
Recommended: CHEM 1330
CHEM 2110: Organic Chemistry II
Continuation of CHEM 2100. Aromatic hydrocarbons, carbonyls, amines; chemistry of carbon compounds; reactions of polar double bonds; nucleic acids, proteins, carbohydrates and fats.
Credit Hours: 3
Prerequisites: grade of C or better in CHEM 2100 or equivalent, or departmental consent

CHEM 2130: Organic Laboratory I
Basic lab techniques, functional group manipulations, and short syntheses. Pre-lab and post-lab writing assignments. 1 hour recitation, 3 hours lab per week.
Credit Hours: 2
Recommended: Concurrent enrollment in CHEM 2110 or CHEM 2030. No credit for students who have previous organic laboratory credit

CHEM 2140: Organic Laboratory II
Continuation of CHEM 2130. Preparation and identification of organic compounds; application of instrumental techniques. 2 lab sessions, 1 recitation session per week.
Credit Hours: 2
Prerequisites: grade of C or better in CHEM 2110 and CHEM 2130 or equivalent

CHEM 2170H: Honors Organic Chemistry II with Lab - Honors
Continuation of CHEM 2160H; includes laboratory. Content and structure similar to CHEM 2110, but with increased depth and breadth.
Credit Hours: 5
Prerequisites: honors eligibility, grade of B or better in CHEM 2160H or instructor's permission

CHEM 2400: Fundamentals of Inorganic Chemistry with Lab
A systematic introduction with laboratory to inorganic and organometallic compounds, reactions, and periodic properties.
Credit Hours: 3
Prerequisites: grade of C or better in CHEM 2130

CHEM 2950: Undergraduate Research in Chemistry
A laboratory research project and/or preparation of compounds with a written final report. Cannot be substituted for other chemistry courses required for a B.S. or B.A. degree. No more than 6 hrs. total credit.
Credit Hour: 1-3
Prerequisites: sophomore standing, 2.75 GPA and/or instructor's consent

CHEM 3000: Fundamentals of Physical Chemistry
Survey of physical chemistry. Satisfies physical chemistry prerequisite for BIOCHM 8430.
Credit Hours: 3
Prerequisites: MATH 1700, a course in organic chemistry; PHYSCS 1210 and PHYSCS 1220 or PHYSCS 2175, or PHYSCS 2176 concurrently

CHEM 3300: Physical Chemistry I
Lecture only. Topics include the kinetic theory of gases, chemical kinetics, thermodynamics and chemical equilibrium.
Credit Hours: 3
Prerequisites: CHEM 2100, MATH 1700, and PHYSCS 1220 or 2760

CHEM 3330: Physical Chemistry II
Lecture only. Covers wave mechanics, bonding, molecular spectroscopy and statistical mechanics.
Credit Hours: 3
Prerequisites: MATH 2300 or instructor approval. May be taken independently of CHEM 3310

CHEM 3700: Undergraduate Seminar in Chemistry
Methods for locating and presenting chemical information, data analysis techniques, professional issues.
Credit Hours: 3
Prerequisites: CHEM 1330 and CHEM 2100

CHEM 3700W: Undergraduate Seminar in Chemistry - Writing Intensive
Methods for locating and presenting chemical information, data analysis techniques, professional issues.
Credit Hours: 3
Prerequisites: CHEM 1330 and CHEM 2100

CHEM 3800: Internship in Chemistry
Cannot be substituted for other chemistry courses required for B.S. or B.A. degree.
Credit Hour: 1-6
Prerequisites: departmental consent

CHEM 4001: Topics in Chemistry - General
Organized study designed to broaden the knowledge base of students. Subjects on analytical, inorganic, organic and physical chemistry covered.
Credit Hour: 1-99
Prerequisites: departmental consent

CHEM 4010: Advanced Chemistry Laboratory
Advanced methods for the synthesis and characterization of organic, inorganic, and organometallic compounds.

**CHEM 4050: Problems in Chemistry**
Individual study under the direction of a faculty member that supplements regular course work.

**CHEM 4160: Intermediate Organic Chemistry**
Stresses synthetic organic chemistry at an intermediate level.

**CHEM 4170: Medicinal Chemistry**
Chemical mechanisms of drug action. Topics include drug metabolism and action, chemical toxicology and medicines, enzyme activity, and specific drug case studies.

**CHEM 4200: Instrumental Methods of Analysis with Lab**
(cross-leveled with CHEM 7200). Chemical instrumentation methods including electrochemistry, spectroscopy, and advanced separations techniques.

**CHEM 4280: Environmental Chemistry**
Surveys the chemistry of air and water environments; discusses the chemistry of waste treatment.

**CHEM 4400: Inorganic Chemistry**
(cross-leveled with CHEM 7400). Atomic and molecular structure, bonding, kinetics and mechanism, ligand field theory, coordination compounds, acids and bases.

**CHEM 4490: Physics and Chemistry of Materials**
(same as NU_ENG 4319, PHYSCS 4190 and BIOL_EN 4480; cross-leveled with CHEM 7490, NU_ENG 7319, PHYSCS 7190, BIOL_EN 7480). Undergraduate/graduate level course offered every spring semester for students from Physics, Chemistry, Engineering and Medical Departments and consists of lectures, laboratory demonstrations, two midterm and one final exam. Graduate students will submit a term paper.

**CHEM 4600: Introduction to Radiochemistry with Lab**
Introduces application of radio-tracer techniques to chemical research.

**CHEM 4990H: Senior Honors Research I**
A laboratory research experience with a student-instructor prepared outline approved by the Honors Director, a final written report and a final oral presentation and examination.

**CHEM 4991H: Senior Honors Research II**
A laboratory research experience with a student-instructor prepared outline approved by the Honors Director, a final written report and a final oral presentation and examination.

**CHEM 7087: Seminar in Chemistry for Beginning Graduate Students**
Seminar in Chemistry for Beginning Graduate Students

**CHEM 7200: Instrumental Methods of Analysis with Lab**
(cross-leveled with CHEM 4200). Chemical instrumentation methods including electrochemistry, spectroscopy, and advanced separations techniques.

**CHEM 7300: Intermediate Physical Chemistry**
Treatment of atomic and molecular, structure and spectroscopy based on quantum concepts. Designed to provide a broad base of knowledge in these fundamental areas to beginning graduate students in chemistry.
CHEM 7400: Inorganic Chemistry
(cross-leveled with CHEM 4400). Atomic and molecular structure, bonding, kinetics and mechanism, ligand field theory, coordination compounds, acids and bases.

Credit Hours: 3
Prerequisites: one semester Physical Chemistry, second semester concurrently

CHEM 7490: Physics and Chemistry of Materials
(same as NU_ENG 7319, PHYSCS 7190, BIOL_EN 7480; cross-leveled with CHEM 4490, NU_ENG 4319, PHYSCS 4190, BIOL_EN 4480). Undergraduate/graduate level course offered every winter semester for students from Physics, Chemistry, Engineering and Medical Departments and consists of lectures, laboratory demonstrations, two midterm and one final exam. Graduate students will submit a term paper.

Credit Hours: 3
Prerequisites: PHYSCS 2760 and CHEM 1320 or equivalent and instructor's consent

CHEM 8003: Topics in Chemistry - Natural Science
Organized study of selected topics. Subjects and earned credit may vary from semester to semester. Repeatable upon consent of department.

Credit Hour: 1-99
Prerequisites: instructor's consent

CHEM 8050: Non-Thesis Research in Chemistry
Does not lead to dissertation.

Credit Hour: 1-99

CHEM 8085: Topics in Chemistry
Organized study of selected topics. Subjects and earned credit may vary from semester to semester. Repeatable upon consent of department.

Credit Hour: 1-99
Prerequisites: instructor's consent

CHEM 8087: Seminar in Chemistry
Seminar in Chemistry

Credit Hour: 1

CHEM 8090: Thesis/Dissertation (pre-candidacy) Research in Chemistry
Research leading to thesis. Graded on a S/U basis only.

Credit Hour: 1-99

CHEM 8150: Organic Reaction Mechanisms
Organic reaction mechanisms are discussed within a framework of structure-reactivity relationships. Particular attention directed to the chemistry of reactive intermediates and the application of stereochemical and molecular orbital concepts.

Credit Hours: 3
Prerequisites: 1 year of Organic Chemistry and Physical Chemistry

CHEM 8160: Organic Spectroscopy
Structural analysis of organic compounds involving problem solving using modern NMR, IR, UV-VIS, MS CD/ORD and other spectroscopic techniques.

Credit Hours: 3
Prerequisites: CHEM 3330 or equivalent or instructor's consent

CHEM 8170: Applications of the Reactions of Organic Chemistry
Credit Hours: 3
Prerequisites: CHEM 8150

CHEM 8210: Analytical Measurement
Fundamental and applied aspects of scientific measurements. Topics include: Statistics, signal-to-noise, frequency analysis, sources of noise, digital and analog filtering, time vs. frequency domain measurements, Fourier transformation, sampling, convolution/deconvolution, autocorrelation and cross-correlation. Directed toward entering graduate students.

Credit Hours: 3

CHEM 8230: Separations and Chromatography
Classical and instrumental methods of separation: gas, paper, thin film, and column chromatography; ion exchange.

Credit Hours: 3

CHEM 8240: Mass Spectrometry
This course will cover various aspects of modern mass spectrometry. Topics will include instrumentation, theory, uses and interfaces to mass spectrometry. Graded on A-F basis only.

Credit Hours: 3

CHEM 8250: Analytical Spectroscopy
Selected topics dealing with recent advances in analytical chemistry.

Credit Hours: 3

CHEM 8260: Surface Analysis and Characterization
Covers various aspects of modern methods of surface analysis and characterization. Topics include instrumentation, theory, and data reduction methods. Major sections include electron spectroscopy, microscopy, and vibrational spectroscopy as applied to surfaces. Graded on A-F basis only.

Credit Hours: 3

CHEM 8265: Fluorescence Spectroscopy
Advanced analytical chemistry course that explores the fundamental principles and uses of modern fluorescence spectroscopy in biology, materials science, chemistry, physics and engineering. Special emphasis is placed on the methodologies used to obtain specific information about a particular chemical system. Graded on A-F basis only.

Credit Hours: 3

CHEM 8270: Advanced Analytical Chemistry
Continuation of CHEM 8250.

Credit Hours: 3
CHEM 8280: Bioanalytical Chemistry
This course is aimed at introducing students to the instrumental and theoretical principles by which biological molecules are measured in vivo and in vitro. The course explores how protein, DNA and metabolite structures and quantities are determined in the laboratory with an emphasis on understanding historical methods up through cutting edge approaches in each field. The theory of measurement techniques, separation techniques and related instrumentation are explored in the context of understanding the chemical equilibria that govern each instance. Students will leave this course with a broad understanding for how many biological molecules are measured and what the limitations of various techniques may be. Graded on A-F basis only.

Credit Hours: 3

CHEM 8285: Nanochemistry
Covers various aspects of nanochemistry. Topics include synthesis and characterization of nonmaterial, nanotoxicity, and catalysis. Graded on A-F basis only.

Credit Hours: 3

CHEM 8310: Quantum Chemistry
Introduction to formal quantum mechanical theory, quantum measurement, simple model problems having exact solutions, angular momenta, approximation methods (perturbation theory, variation principle, WKB), and the structure of many-electron atoms.

Credit Hours: 3
Prerequisites: CHEM 3330 or equivalent or instructor's consent

CHEM 8320: Chemical Kinetics
Factors affecting rates, orders and mechanisms of chemical reactions, with emphasis on current theories and experimental techniques.

Credit Hours: 3
Prerequisites: CHEM 3330 or equivalent or instructor's consent

CHEM 8330: Computational Chemistry
Theory and application of modern computational techniques (molecular mechanics, ab initio and semiempirical molecular orbital methods) for predicting the structures, energies, and properties of molecules and molecular systems.

Credit Hours: 3
Prerequisites: CHEM 3300 or equivalent or instructor's consent

CHEM 8340: Statistical Mechanics
Principles of statistical mechanics and their application to chemical systems; ensemble theory; condensed phases.

Credit Hours: 3
Prerequisites: CHEM 3330 or equivalent or instructor's consent

CHEM 8410: Chemistry of the Main Group Elements
Descriptive inorganic chemistry of the main group elements. Textbook material extensively supplemented with information from the current chemical literature.

Credit Hours: 3

CHEM 8430: Coordination Chemistry and Reactivity
The chemistry of the transition elements (d-block) and their reactivity will be discussed, including bonding, coordination numbers, oxidation states, and reactivity (kinetics). Graded on A-F basis only.

Credit Hours: 3
Prerequisites: CHEM 4400 or equivalent; graduate standing in chemistry or instructor's consent

CHEM 8440: Inorganic Structural Methods
Chemical bonding, application of group theory, spectroscopy; diffraction as applied to structure determination; structural implications of dipole moment and magnetic susceptibility measurements.

Credit Hours: 3

CHEM 8450: Organometallics
Condensations effected by organometallics; dissolving metal reductions; sandwich compounds and related organotransition metal derivatives.

Credit Hours: 3

CHEM 8470: Actinide Chemistry
The course covers the inorganic and organometallic chemistry of the actinides. Graded on A-F basis only.

Credit Hours: 3

CHEM 8480: Chemistry of Nanomaterials
This course will cover several aspects of nanomaterials including synthesis and processing of small particles, as well as their characterization by crystallography, scanning tunneling microscopy, magnetism, and other optical properties. Also studied will be the application of quantum confinement to the electronic and optical properties of nanomaterials and the development of photonic materials. The nanostructure of organic polymers, micelles, and the process of biomineralization to make organic-inorganic hybrid materials will also be discussed.

Credit Hours: 3

CHEM 8600: Radiochemistry and Detection with Lab
An introductory course in the applications of radionuclides in chemistry. Topics include radioactive decay, interactions of radiation with matter, radioactive tracers, and nuclear methods of analysis. Directed towards entering graduate students.

Credit Hours: 3

CHEM 8610: Advanced Radiochemistry
Reviews current advances in radiochemistry, hot atom chemistry, radiation chemistry, nuclear spectrometry.

Credit Hours: 3

CHEM 8630: Radiopharmaceutical Chemistry
The radiotracer concept, history of nuclear medicine, radionuclide production, organic and inorganic chemistry of radiopharmaceutical chemistry, and applications will be discussed. Graded on A-F basis only.
Credit Hours: 3
**Prerequisites:** undergraduate organic and inorganic chemistry; graduate standing in chemistry or instructor's consent

**CHEM 8640: Biological Radiochemistry**
Covers the interaction of radiation on biological material. The effects of radiation overdose are discussed along with the use of radiation in therapy. Graded on a A-F basis only.

Credit Hours: 3

**CHEM 9090: Post-candidacy Dissertation Research in Chemistry**
Research leading to Ph.D. dissertation. Graded on a S/U basis only.

Credit Hours: 1-99

---

**Child Health (CH_HTH)**

**CH_HTH 6000: Child Health Clerkship**
Students have the opportunity to learn about common illnesses and abnormalities in children. Emphasis also is placed on the importance of preventive and developmental aspects of child care. Lectures and case presentations correlate with the clinical experiences.

Credit Hours: 8

**CH_HTH 6010: Rural Child Health Clerkship**
Rural Child Health Clerkship

Credit Hours: 8

**CH_HTH 6020: Springfield Child Health Clerkship**
Students have the opportunity to learn about common illnesses and abnormalities in children. Emphasis also is placed on the importance of preventive and developmental aspects of child care. Lectures and case presentations correlate with the clinical experiences.

Credit Hours: 8

**Prerequisites:** Successful completion of the first two years of medical school

**CH_HTH 6037: SCC Pediatric Intensive Care**
Student will learn the initial approach and daily management of children requiring care in the Pediatric Intensive Care Unit. Students will learn the evaluation of and the management of critically ill or injured children focusing on airway and pulmonary physiology, cardiac physiology, neurological diseases, traumatic injuries, acute overdoses, endocrine emergencies, basic fluid management, and the medically complex child. Pharmacologic and nutritional management of the critically ill or injured child will also be reviewed.

Credit Hours: 5

**Prerequisites:** Successful completion of 5 of the 7 core clerkships. One of the 5 must be Child Health clerkship CH_HTH 6000, 6010, 6020, or 6100

**CH_HTH 6043: SCC Pediatric Allergy and Immunology**
This subspecialty elective emphasizes experience in the evaluation and management of common clinical problems in allergy and immunology. The learner will assist in the diagnosis and management of asthma, rhinitis/conjunctivitis/rhinosinusitis, atopic dermatitis, contact dermatitis, urticaria, angioedema, anaphylaxis and adverse reactions to foods, drugs and stinging insects. Additional experience in immunodeficiency disorders, as well as experience in allergy skin testing, administration of allergen immunotherapy, performance and interpretation of pulmonary function tests, and performance of food challenges and/or drug challenges/desensitizations may also be provided. Outpatients will be evaluated by the student under supervision of the faculty physician. In addition, it is expected that the learner will complete recommended readings, participate in selected on-line learning activities and complete both pre-test and post-test assessments.

Credit Hours: 5

**Recommended:** Successful completion of the Child Health clerkship

**CH_HTH 6045: SCC Neonatal Intensive Care Unit Selective**
Students will gain experience in the evaluation, diagnosis, and management of sick newborns, and in the performance of specialized procedures necessary for ICU care.

Credit Hours: 5

**Prerequisites:** Successful completion of 5 of the 7 core clerkships. One of the 5 must be Child Health clerkship

**CH_HTH 6100: Remediation Child Health Clerkship**
Enrolled students are those who received an unsatisfactory grade in a Child Health Clerkship at any Mizzou Med location or site. This course gives them the opportunity to rectify a deficiency.

Credit Hours: 8

**Prerequisites:** CH_HTH 6000 Child Health Clerkship, received unsatisfactory grade

**CH_HTH 6221: Advanced Biomedical Science Medicine Problem Premature Infant**
Advanced Biomedical Science Medicine Problem Premature Infant

Credit Hours: 5

**CH_HTH 6223: ABS Child Health Research**
ABS Child Health Research

Credit Hours: 5-10

**CH_HTH 6225: ABS Child Health Research and Review**
ABS Child Health Research and Review

Credit Hours: 5-10

**CH_HTH 6425: Child Health Genetics**
Goals/Objectives: To develop an understanding of medical genetics, including genetic diagnosis, cytogenetics, metabolic genetic diseases, teratology, and the genetics literature, and computer databases. CURRICULUM: During the block, each student will see patients in consultation and in the genetics clinics (general genetics, metabolic, PKU, autism, Down Syndrome, outreach) where they will work up the patients and prepare a report and discussion of the diagnosis or diagnostic differential. Each student will also prepare a literature review around a specific patient or problem. For interested students, cytogenetics or metabolic problems are available. Prerequisites: Child Health clerkship
Goals/Objectives: 1) Gain experience in GI diseases of children noting the difference and similarities with adult diseases. 2) To introduce the student to some of the most commonly encountered diagnoses in pediatrics and to its management. 3) To learn to focus on physical examination skills. CURRICULUM: Preceptorship with a pediatric subspecialist for four weeks will include inpatient and outpatient service activities.

Credit Hours: 5
Prerequisites: Child Health Clerkship

CH_HTH 6434: Child Adolescent Medicine
Goals/Objectives: To teach 4th year students the intricacies of care of the adolescent patient. Specifically, the rotation will address the adolescent interview, important considerations in the adolescent "check-up", and managing the varied problems in adolescents, from attention deficit disorder to eating disorders and gynecological issues. The student will leave the rotation with a better understanding of the care of adolescents. CURRICULUM: These objectives will be met in the following manner: 1) Student will actively participate in adolescent medicine clinic with both clinical attendings. He/she will be responsible for the initial evaluation of the patients in the clinic, will actively participate in clinical decision-making, and will be responsible for helping with patient write-ups and referral letters (at the discretion of the attending). The student will be expected to function on an extern level, following up on laboratory evaluations and checking in with patients seen, when needed. 2) The student will participate in the adolescent interview practice sessions with the interact teen theatre with the residents on the rotation. This process will help to improve interviewing skills with adolescents. 3) The student will be responsible for helping with any inpatient care, including consultations and/or admissions. 4) The student will be asked to identify particular areas of interest to be used as topics for interactive discussion with one of the attendings or for a short paper.

Credit Hours: 5
Prerequisites: Child Health Clerkship

CH_HTH 6428: Pediatric Diabetes and Endocrinology
Goals/Objectives: 1) To understand the pathophysiology of endocrine and metabolic diseases in childhood. 2) To understand the fundamentals of growth processes in infancy, childhood, and adolescence. CURRICULUM: The Department of Child Health has a large patient care and research program for children with diabetes mellitus. In addition, the Department has a busy general endocrinology program. Thus, students on the elective can participate in the care of patients with a wide spectrum of endocrine and metabolic diseases. Students can carry out specific clinical or laboratory projects relating to specific aspects of either diabetes or endocrine disease, deepen their understanding of pathophysiology of disease and gain a better understanding of the impact of a chronic disorder on the child and his/her family.

Credit Hours: 5
Prerequisites: Child Health Clerkship

CH_HTH 6429: Developmental Pediatrics
Developmental Pediatrics

Credit Hours: 5

CH_HTH 6430: Pediatric Cardiology
Goals/Objectives: Clinical and laboratory material is available to achieve the following objectives: 1) Develop skills in auscultation, resuscitation, treatment of congestive heart failure, and recognition of congenital heart disease in infants. 2) Adequate exposure to pediatric electrocardiography, echocardiography, cineangiography, and interpretation of cardiac catheterization data. 3) Proficiency in the management of postoperative cardio-vascular patients.

Credit Hours: 5
Prerequisites: Child Health Clerkship

CH_HTH 6431: Pediatric Pulmonology
Goals/Objectives: To gain experience in the treatment of asthma, bronchopulmonary dysplasia, cystic fibrosis, sleep disorders, and other respiratory diseases and to learn about pulmonary function testing in children.

Credit Hours: 5
Prerequisites: Child Health Clerkship

CH_HTH 6432: Pediatric Gastroenterology
Goals/Objectives: 1) Gain experience in GI diseases of children noting the difference and similarities with adult diseases. 2) To introduce the student to some of the most commonly encountered diagnoses in pediatrics and to its management. 3) To learn to focus on physical diagnosis skills. CURRICULUM: Preceptorship with a pediatric

CH_HTH 6435: Ped Renal and Rheumatology
4th year elective for renal/rheumatology rotation, four weeks.

Credit Hours: 5
Prerequisites: 3rd year Pediatrics/Child Health or Internal Medicine rotation

CH_HTH 6726: Child Health Rural Elective
Students will enhance their knowledge about patient-centered care of children through active participation in a primarily outpatient clinical experience. Limited inpatient experience may be offered as well.

Credit Hours: 5
Prerequisites: CH_HTH 6000; restricted to medical students only

CH_HTH 6825: General Child Health - Inpatient
Goals/Objectives: To provide additional experience in general pediatrics in inpatient care. CURRICULUM: The student will function as a member of the house staff team assuming many of the roles of the first year resident in patient care. This includes working up of patient's management plans, rounding, staffing, conferences, etc. Night coverage with supervision is included.

Credit Hours: 5
Prerequisites: Child Health Clerkship

CH_HTH 6826: General Child Health - Outpatient
Goals/Objectives: To provide additional experience in general pediatrics in outpatient care. CURRICULUM: The student will function as a member
of the healthcare team. This includes taking histories, performing physical exams, and working up patient management plans. This may require working evening clinic and Saturday clinic in addition to regular daytime clinics.

Credit Hours: 5  
Prerequisites: Child Health Clerkship

CH_HTH 6827: Neonatology/Neonatal Intensive Care Unit  
Goals/Objectives: To gain experience: 1) in the evaluation, diagnosis, and management of sick newborns, and 2) in the performance of specialized procedures necessary for ICU care. CURRICULUM: The student will function as a first-year house officer, with his/her own neonatal ICU patients for initial work-up and management, under the supervision of the PL-2 or PL-3 and attending staff. (rotation at Columbia Regional Hospital)

Credit Hours: 5  
Prerequisites: Child Health Clerkship

CH_HTH 6828: Pediatric Intensive Care Unit  
Goals/Objectives: 1) To provide the student with the initial approach and management of children requiring care in the Pediatric Intensive Care Unit. 2) To provide the student with the basics of airway management in children. 3) To provide the student with an understanding of the preoperative assessment with preparation of pediatric patients. 4) To provide the student with an introduction to the perioperative management of common pediatric surgical problems. CURRICULUM: Students in this elective will spend time in both the Pediatric ICU and the operating rooms. They will be required to participate in daily rounds in the PICU and follow the medical/surgical patients admitted to the PICU.

Credit Hours: 5  
Prerequisites: Child Health Clerkship

CH_HTH 6829: Pediatric Neurology  
Pediatric Neurology

Credit Hours: 5

CH_HTH 6912: Introduction to Adolescent Medicine  
The rotation is primarily an outpatient experience, though the student may be asked to do inpatient consultations with the attending physician on service. In addition to learning and practicing primary care of adolescent patients the elective will present an in-depth experience of adolescent medicine as a subspecialty, including, but not limited to, conditions such as eating disorders, disorders of puberty and menstruation, obesity, ADHD, and substance abuse. Additional teaching methods used include a pre-test, post-test assessments.

Credit Hours: 2  
Prerequisites: Successful completion of the first two years of medical school

CH_HTH 6951: SCC Pediatric Allergy and Immunology 2 week  
This subspecialty elective emphasizes an introductory experience in allergic skin testing, administration of allergen immunotherapy, performance and interpretation of pulmonary function tests, and performance of food challenges and/or drug challenges. Outpatients will be evaluated by the student under supervision of the faculty physician. In addition, it is expected that the learner will complete recommended readings, participate in selected on-line learning activities and complete both pre-test and post-test assessments.

Credit Hours: 2  
Prerequisites: Successful completion of the first two years of medical school

CH_HTH 6953: SCC Neonatal Intensive Care Unit 2-Week  
The course goals are for the student to gain the knowledge and experience in the evaluation, diagnosis, and management of sick newborns, and in the performance of specialized procedures necessary for ICU care. The student will demonstrate an introductory level working understanding of these areas.

Credit Hours: 2  
Prerequisites: Successful completion of the first two years of medical school and a core rotation in family medicine or pediatrics

Chinese (CHINSE)

CHINSE 1100: Elementary Chinese I  
For beginners with no prior knowledge of Chinese. Five hours of classroom instruction, with one hour lab work weekly.

Credit Hours: 6

CHINSE 1200: Elementary Chinese II  
Five hours of classroom instruction, with one hour lab work weekly.

Credit Hours: 6  
Prerequisites: C- or better in CHINSE 1100 or equivalent

CHINSE 2100: Everyday Spoken Chinese Level I  
Reinforces and extends ability to use Chinese language for spoken communication. Studies situation-specific Chinese in real-life situations.
Intended to supplement, not replace, Chinese language courses taught on MU campus. Students must be enrolled in MU China Study Abroad.

**Credit Hours:** 3  
**Prerequisites:** C- or better in CHINSE 1200

**CHINSE 2160: Intermediate Chinese I Conversation and Composition**  
Continuation of CHINSE 2160. Introduces more complex grammatical constructions and extends ability to use those constructions for written and oral communication. Successful completion of course will enable students to communicate in Mandarin Chinese regarding everyday topics, with a vocabulary of just over 1900 words, and about 380 sentence patterns.  
**Credit Hours:** 3  
**Prerequisites:** C- or higher in CHINSE 1260

**CHINSE 2310: Chinese Civilization I**  
Survey of Chinese culture and arts. No knowledge of Chinese is required. No foreign language credit.  
**Credit Hours:** 3

**CHINSE 2330: Chinese Language and Culture**  
Presents information about the development of Chinese language over time, the variety of dialects spoken in China, and around the world. Explores relationship between Chinese language and culture. Considers different genres of Chinese literature. Visits to sites significant to development of Chinese language and literature. Introduction to calligraphy and basic daily Chinese.  
**Credit Hours:** 3  
**Prerequisites:** Must be enrolled in MU China Study Abroad; sophomore standing required

**CHINSE 3001: Topics in Chinese - General**  
Organized study of selected topics. Subjects and earnable credit may vary from semester to semester. May be repeated to a maximum of 6 hours with departmental consent. Graded on A-F basis only.  
**Credit Hour:** 1-3  
**Prerequisites:** Sophomore standing and instructor consent

**CHINSE 3005: Topics in Chinese - Humanities**  
Organized study of selected topics. Subjects and earnable credit may vary from semester to semester. Some sections may be graded on A-F or S/U basis only.  
**Credit Hour:** 1-3  
**Prerequisites:** sophomore standing and instructor's consent

**CHINSE 3005H: Topics in Chinese - Humanities - Honors**  
Organized study of selected topics. Subjects and earnable credit may vary from semester to semester. Some sections may be graded on A-F or S/U basis only.  
**Credit Hour:** 1-3  
**Prerequisites:** sophomore standing and instructor's consent, Honors eligibility required

**CHINSE 3085: Problems in Chinese**  
Supervised study in Chinese language and/or culture.  
**Credit Hour:** 1-3  
**Prerequisites:** instructor's consent

**CHINSE 3160: Intermediate Chinese II Conversation and Composition**  
Continuation of CHINSE 2160. Introduces more complex grammatical constructions and extends ability to use those constructions for written and oral communication. Successful completion of course will enable students to communicate in Mandarin Chinese regarding everyday topics, with a vocabulary of just over 1900 words, and about 380 sentence patterns.  
**Credit Hours:** 3  
**Prerequisites:** C- or higher in CHINSE 2160

**CHINSE 3170: Everyday Spoken Chinese Level II**  
For students who have completed 18 credits college-level Chinese. Reinforces and extends ability to use Chinese language for Spoken communication. Class-time spent studying situation-specific Chinese in real-life situations. Intended to supplement, not replace, Chinese language courses taught on UMC campus. Students must be enrolled in MU China Study Abroad.  
**Credit Hours:** 3  
**Prerequisites:** C- or better in CHINSE 3160 or consent of instructor

**CHINSE 3180: Advanced Chinese I**  
Improves vocabulary, listening, spoken and written Chinese Skills. Discusses basic cultural ideas. Graded on A-F basis only.  
**Credit Hours:** 3  
**Prerequisites:** C- or higher in CHINSE 3160, or equivalent

**CHINSE 3300: Chinese Traditions and Global Integration**  
Focuses on developments in China's International relations that have led to prominence on world stage, and the impact of modernization and integration into world community on China's sense of national identity, shape of Chinese culture, and lives of the people. Visits to cultural and business sites, guest lectures, and conversations with Chinese people.  
**Credit Hours:** 3  
**Prerequisites:** Must be enrolled in MU China Study Abroad; sophomore standing required

**CHINSE 3300H: Chinese Traditions and Global Integration - Honors**  
Focuses on developments in China's International relations that have led to prominence on world stage, and the impact of modernization and integration into world community on China's sense of national identity, shape of Chinese culture, and lives of the people. Visits to cultural and business sites, guest lectures, and conversations with Chinese people.  
**Credit Hours:** 3  
**Prerequisites:** Must be enrolled in MU China Study Abroad; sophomore standing required. Honors eligibility required

**CHINSE 3310: Chinese Poetry**  
This is an introductory course to Chinese poetry, both classical and contemporary, in English. It will explore issues in the intercultural and interlingual interpretation of foreign literature through the study of Western translations of and scholarship on selected Chinese poets.  
**Credit Hours:** 3  
**Prerequisites:** Sophomore standing
CHINSE 3320: Modern and Contemporary Chinese Fiction (in translation)
Studies Chinese fiction from 1920s to 1990s. Preceded by a brief historical survey of Chinese literature. Analyzes works by authors like Lu Xun, Ba Jin, Lao She, Wang Meng and many others of the younger generation. Readings and lectures in English.
Credit Hours: 3
Prerequisites: Sophomore standing

CHINSE 3400: Negotiating Chinese Culture
As political, business, religious, and personal encounters between Chinese and Americans increase, so also does the need for competence in negotiating these cross-cultural interactions. Whether hosting Chinese guests, visiting China for business or as a scholar, or simply trying to understand current events, a clear understanding of cultural differences and similarities can be quite valuable. Students will be introduced to multiple perspectives on American and Chinese cultural differences along with narratives of cross-cultural experiences. Course address issues related to American and Chinese cross-cultural communication in five spheres of interaction: political, religious, business, interpersonal, education. Through related readings, discussions, and structured conversations with Chinese, students will explore how this information and a deeper understanding of Chinese and American culture can be applied to more fruitful and positive cross-cultural interactions in multiple contexts.
Credit Hours: 3
Prerequisites: Sophomore standing

CHINSE 3880: Contemporary Chinese Film
(same as FILM_S 3880). Introduces development of 20th century Chinese film and popular genres, including review of earlier times. Explores how present day Chinese understand their own history, and issues they face in drive toward modernization in a global context. Films and readings in English or with English subtitles. No previous knowledge of the culture or language required.
Credit Hours: 3
Prerequisites: Sophomore standing

Civil Engineering (CV_ENG)

CV_ENG 1001: Experimental Course
For freshman-level students. Content and number of credit hours to be listed in Schedule of Courses.
Credit Hour: 1-99

CV_ENG 2080: Introduction to Dynamics
Basic fundamentals of particle and rigid body dynamics; energy and momentum methods.
Credit Hours: 3
Prerequisites: ENGINR 1200

CV_ENG 3010: Decision Methods for Civil Engineering Design
Essential features of civil engineering including the design process, design teams, experimental and computational tools, engineering economy, communication skills, and ethical considerations.
Credit Hours: 4
Prerequisites: grade of C- or better in ENGINR 1200 and ENGINR 2200

CV_ENG 3010W: Decision Methods for Civil Engineering Design - Writing Intensive
Essential features of civil engineering including the design process, design teams, experimental and computational tools, engineering economy, communication skills, and ethical considerations.
Credit Hours: 3
Prerequisites: grade of C- or better in ENGLISH 1000
Corequisites: ENGINR 1200

CV_ENG 3050: Introduction to Geographic Information Systems GIS
(same as GEOG 3040) Introduces theory, concepts and techniques related to the creation, manipulation, processing, and basic analysis of spatial data using GIS. Data management, current data models, GIS applications and course topics are reinforced through hands-on computer laboratory exercises.
Credit Hours: 3
Prerequisites: sophomore standing

CV_ENG 3100: Fundamentals of Transportation Engineering
Covers fundamentals of transportation engineering including geometric design, traffic engineering, pavements, and planning.
Credit Hours: 4
Prerequisites or Corequisites: CV_ENG 3010
Prerequisites: grade of C- or better in ENGINR 1100

CV_ENG 3200: Fundamentals of Environmental Engineering
Fundamentals of water quality engineering and water resources, water and wastewater treatment, solid and hazardous and radioactive waste management, air pollution, environmental regulation, and environmental ethics.
Credit Hours: 4
Prerequisites or Corequisites: CV_ENG 3010
Prerequisites: grade of C- or better in CHEM 1320 or equivalent

CV_ENG 3250: Pollutant Fate and Transport
(same as ENV_SC 3250). Introduction to concepts governing pollutant fate and transport in the environment, including pollutant interactions within and migration through environmental systems, as well as analytical techniques and tools necessary to quantify conditions and movement.
Credit Hours: 3
Prerequisites: ENV_SC 1100 or SOIL 2100 or CV_ENG 3200; and CHEM 1320; or instructor’s permission

CV_ENG 3300: Structural Analysis I
Analysis of statically determinate beams, frames; shear and moment diagrams; influence line diagrams; beam deflections. Analysis of statically indeterminate structures; moment distribution; energy methods. Introduction to matrix analysis.
Credit Hours: 3
Prerequisites: grade of C- or better in ENGINR 1200 and ENGINR 2200
CV_ENG 3300H: Structural Analysis I - Honors
Analysis of statically determinate beams, frames; shear and moment diagrams; influence line diagrams; beam deflections. Analysis of statically indeterminate structures; moment distribution; energy methods. Introduction to matrix analysis.
Credit Hours: 4
Prerequisites: grade of C- or better in ENGINR 1200 and ENGINR 2200. Honors Eligibility required

CV_ENG 3312: Reinforced Concrete Design
Basic principles of reinforced concrete design. Design of beams for flexure and shear; design of short and slender columns. Prerequisites: CV_ENG 3300;
Credit Hours: 3
Prerequisites or Corequisites: CV_ENG 3600

CV_ENG 3313: Structural Steel Design
Basic principles of structural steel design. Design of beams, axially loaded members, columns, and bolted and welded connections.
Credit Hours: 3
Corequisites: CV_ENG 3300 and CV_ENG 3600

CV_ENG 3400: Fundamentals of Geotechnical Engineering
Detailed study of physical and mechanical properties of soil governing its behavior as an engineering material.
Credit Hours: 4
Prerequisites: grade of C- or better in ENGINR 2200; Restricted to Civil Engineering major students only

CV_ENG 3600: Civil Engineering Materials
Introduces composition, structure, properties, behavior, and selection of civil engineering materials. Prerequisites: grade of C- or better in ENGINR 2200 or instructor's consent;
Credit Hours: 4
Prerequisites or Corequisites: CV_ENG 3010

CV_ENG 3700: Fluid Mechanics
Statics and dynamics of fluids, principles of continuity, momentum and energy, pipe flow.
Credit Hours: 3
Prerequisites: grade of C- or better PHYSCS 2750

CV_ENG 3702: Hydrology
Fundamental concepts of hydrology in engineering; quantitative estimation of stream-flow magnitude and frequency; and open channel flow considerations from stream-flow. Fluid Mechanics lab with lab reports.
Credit Hours: 4
Prerequisites: grade of C- or better MATH 2300 and CV_ENG 3200 and CV_ENG 3700

CV_ENG 4001: Topics in Civil Engineering
Study of current and new technical developments in civil engineering.
Credit Hour: 1-3

Prerequisites: instructor's consent

CV_ENG 4006: Digital Computer Applications in Engineering
(cross-leveled with CV_ENG 7006). Use of digital computer for solution of engineering problems involving roots of equations, simultaneous equations, curve fitting, integration, differentiation, and differential equations. Prerequisites: MATH 2300
Credit Hours: 3

CV_ENG 4008: Risk and Reliability for Civil Engineers
(cross-leveled with CV_ENG 7008). This course focuses on how to use probability and statistics to quantify uncertainties and consider risks when making civil engineering decisions and designing civil engineering systems.
Credit Hours: 3
Prerequisites: grade of C- or better in CV_ENG 3010 or other introductory probability/statistics course

CV_ENG 4085: Problems in Civil and Environmental Engineering
Directed investigation of civil engineering.
Credit Hour: 2-4
Prerequisites: instructor's consent

CV_ENG 4100: Traffic Engineering
(cross-leveled with CV_ENG 7100). Characteristics and studies associated with highway traffic. Capacity analysis and evaluation of freeways, rural highways, and urban streets. Traffic signal control and coordination.
Credit Hours: 3
Prerequisites: grade of C- or better in CV_ENG 3100

CV_ENG 4104: Pavement Materials and Design
Credit Hours: 3
Prerequisites: grade of C- or better in ENGINR 2200

CV_ENG 4110: Transportation Simulation
(cross-leveled with CV_ENG 7110). Theory and application of simulation in transportation engineering.
Credit Hours: 3
Prerequisites: grade of C- or better in CV_ENG 3100

CV_ENG 4120: Airport Engineering
(cross-leveled with CV_ENG 7120). Airport systems planning, design, and management.
Credit Hours: 3
Prerequisites: grade of C- or better in CV_ENG 3100

CV_ENG 4125: Transportation Legal Issues
(cross-leveled with CV_ENG 7125). This course discusses some of the legal issues that transportation engineers encounter throughout the course of their careers.
CV_ENG 4130: Transportation Safety
(cross-leveled with CV_ENG 7130). This course is an introduction to transportation safety. The focus will be on surface transportation. The student is expected to analyze safety data and to devise engineering solutions to safety problems.
Credit Hours: 3
Prerequisites: CV_ENG 3100

CV_ENG 4145: Civil and Environmental Engineering Legal Issues
(cross-leveled with CV_ENG 7145). Discussion of legal issues facing civil engineers including right of way, risk and liability, environment, financing public works, contracting and ethics.
Credit Hours: 3
Prerequisites: CV_ENG 3100

CV_ENG 4155: Transportation Geography
(same as GEOG 4850; cross-leveled with CV_ENG 7155; GEOG 7850). Introduction to fundamental concepts and modes of analysis in transportation geography. Focus on descriptive, explanatory, as well as normative approaches. Topics reviewed include spatial organization, transportation economics, spatial interaction, network analysis, location/ allocation, and urban transportation planning.
Credit Hours: 3

CV_ENG 4175: The Geospatial Science in National Security
(Same as GEOG 4130; cross-leveled with CV_ENG 4175, GEOG 7130). This course explores the critical contribution of the geospatial sciences in the collection processing, visualization and analysis of geospatial information related to national security. May be repeated for credit.
Credit Hours: 3
Prerequisites: instructor's consent
Recommended: junior standing

CV_ENG 4185: Location Analysis/Site Selection
(same as GEOG 4740; cross-leveled with CV_ENG 7185; GEOG 7740). An overview of location analysis in regional planning and spatial decision support, this course focuses on the use of Geographic Information Science (GIS) and location analysis methods in addressing regional service needs. Maybe be repeated for credit.
Credit Hours: 3
Prerequisites: CHEM 1320 or CV_ENG 3200

CV_ENG 4190: Infrastructure Project Development
(cross-leveled with CV_ENG 7190). Students will learn how the key elements of major civil engineering infrastructure projects fit together. The course will focus on the horizontal integration of: financing - planning - environment - right of way - design - construction - operations - maintenance. Engineering is important but so are a lot of other things. Graded on A-F basis only. Prerequisites: junior standing
Credit Hours: 3

CV_ENG 4220: Hazardous Waste Management
(same as CH_ENG 4220; cross-leveled with CV_ENG 7220, CH_ENG 7220). Engineering principles involved in handling, collection, transportation, processing and disposal of hazardous wastes, waste minimization, legislation on hazardous wastes and groundwater contamination.
Credit Hours: 3

CV_ENG 4232: Water and Wastewater Treatment Facilities
(cross-leveled with CV_ENG 7232). Physical, chemical, and biochemical processes for treating drinking water supplies and wastewaters (domestic and industrial), with emphasis on planning and design of such facilities.
Credit Hours: 3
Prerequisites: CV_ENG 4230 or CV_ENG 7230 or instructor's consent

CV_ENG 4245: Environmental Chemistry for Engineers
(cross-leveled with CV_ENG 7245). This course will cover the fundamentals of environmental chemistry. Physical, equilibrium, organic and colloid chemistry topics will be presented from an environmental perspective with a focus on their relevant engineering applications.
Credit Hours: 3
Prerequisites: CHEM 1320 or CV_ENG 3200

CV_ENG 4250: Environmental Regulatory Compliance
(cross-leveled with CV_ENG 4250). Systems of water law; provisions of major federal environmental laws and regulations; development of regulations at the federal, state, and local levels; regulatory frameworks; permits; and enforcement.
Credit Hours: 3

CV_ENG 4270: Environmental Engineering Microbiology
(cross-leveled with CV_ENG 7270). Theory and application of fundamental principles of microbiology, ecology, and aquatic biology of the microorganisms of importance to sanitary engineers.
Credit Hours: 3
Prerequisites: senior standing or instructor's consent
CV_ENG 4286: Environmental Sustainability
(cross-leveled with CV_ENG 7286). This course will present an
introduction to sustainability in engineering, tools for assessing
sustainability and principles of sustainable design practices. Topics
include climate change, energy and renewable resources, limits to
growth, risk assessment, life cycle assessments, water and energy
footprints, green buildings, and the water-food-energy-nexus. Graded on
A-F basis only.
Credit Hours: 3
Prerequisites: CV_ENG 3200

CV_ENG 4290: Wastewater Treatment and Process Design
(cross-leveled with CV_ENG 7290). Selection and use of wastewater and
sludge treatment processes, disposal methods, sustainable wastewater
treatment including anaerobic treatment of wastewater reuse.
Credit Hours: 3
Prerequisites: grade of C- or better in CV_ENG 3200. Instructor's
consent required

CV_ENG 4300: Advanced Structural Steel Design
(cross-leveled with CV_ENG 7300). Design of steel structures and
bridges. Topics include composite beams, plate girder design, and
moment resistant connections.
Credit Hours: 3
Prerequisites: grade of C- or better in CV_ENG 3313

CV_ENG 4302: Prestressed/Advanced Reinforced Concrete
Principles of prestressing. Constituent materials, loading and allowable
stresses, Working and ultimate stress analysis and design. Shear and
beams. Compression members. Footings.
Credit Hours: 3
Prerequisites or Corequisites: CV_ENG 3312

CV_ENG 4320: Energy Methods in Mechanics
Variational mechanics including practical examples. Topics include calculus of variation of boundary
value problems, energy methods such as Ritz and Galerkin methods, approximate solutions methods such as the finite element and finite
difference, and eigenvalue problems.
Credit Hours: 3
Prerequisites: senior or graduate standing required

CV_ENG 4330: Structural System Design
Design of buildings in steel and reinforced concrete, including estimation of loads and design of gravity and
lateral force resisting systems.
Credit Hours: 3
Prerequisites: grade of C- or better in CV_ENG 3313 and CV_ENG
3312

CV_ENG 4350: Matrix Methods of Structural Analysis
An introduction to the fundamentals of stiffness and flexibility methods for analysis of truss and frame
structures. Application of the STRUDL and NASTRAN programs to three
dimensional structures.
Credit Hours: 3
Prerequisites: senior standing; grade of C- or better in CV_ENG 3300

CV_ENG 4360: Bridge Engineering
(cross-leveled with CV_ENG 7360). Review of Highway Bridge Analysis
and Design Fundamentals. Study of Influence Line Diagrams and Shear
and Moment Envelopes. Design of Medium- and Short-Span Girder
Bridges based on AASHTO LRFD specs.
Credit Hours: 3
Prerequisites: grade of C- or better in CV_ENG 3312 and CV_ENG
3313

CV_ENG 4404: Geotechnical Earthquake Engineering
(cross-leveled with CV_ENG 7404). This course provides an introduction
to geotechnical aspects of earthquake engineering. Topics include:
basic seismology, seismic hazard analysis, dynamic soil properties, site
response analysis and soil liquefaction.
Credit Hours: 3
Prerequisites: grade of C- or better in CV_ENG 3400 or instructor's
consent

CV_ENG 4410: Foundation Engineering
Subsurface exploration. Design of basic foundation structures, shallow foundations, retaining walls, deep
foundations.
Credit Hours: 3
Prerequisites: grade of C- or better in CV_ENG 3400

CV_ENG 4412: Applied Geotechnical Engineering
Study of concepts, theories, and design procedures for modern earthwork engineering including:
compaction and densification of soils and soil improvement, seepage and
drainage, slope stability and performance, and earth retaining structures.
Credit Hours: 3
Prerequisites: grade of C- or better in CV_ENG 3400

CV_ENG 4500: Introduction to Construction Management
Structure of the construction industry; construction drawings and specifications; estimating and bidding;
construction contracts, bonds and insurance; planning and scheduling of
construction operations; project management; computer techniques.
Credit Hours: 3
Prerequisites: junior standing

CV_ENG 4600: Advanced Mechanics of Materials
Analysis of more complicated problems in stresses, strains.
Credit Hours: 3
Prerequisites: C- or better in ENGR 2200, MAE 3200 and Junior
standing
CV_ENG 4610: Sensors and Experimental Stress Analysis  
(cross-leveled with CV_ENG 7610). Sensors and instrumentation for stress analysis, mechanical measurement and health monitoring of civil structures. Application and design of data acquisition systems, basic digital signal processing. Electronics and instrumentation circuits.  
Credit Hours: 3  
Prerequisites: grade of C- or better in ENGINR 2200 and PHYSCS 2760

CV_ENG 4660: Vibration Analysis  
(same as MAE 4660; cross-leveled with CV_ENG 7660, MAE 7660). Vibration theory and its application to mechanical systems. Topics include free and forced vibration analysis of single- and multi-degree of freedom systems.  
Credit Hours: 3  
Prerequisites: C- or better in MATH 4100 and MAE 2600

CV_ENG 4692: Introduction to Structural Dynamics  
Theory of structural response to dynamic loads. Computation of dynamic response of structures to dynamic loads like blast and earthquake. Modal analysis and single degree of freedom methods will be covered.  
Credit Hours: 3  
Prerequisites: grade of C- or better in CV_ENG 3300

CV_ENG 4700: Hydraulics of Open Channels  
(cross-leveled with CV_ENG 7700). Gradually varied flow and theory of the hydraulic jump. Slowly varied flow involving storage; rating curves.  
Credit Hours: 3  
Prerequisites: grade of C- or better in CV_ENG 3700

CV_ENG 4710: Soil and Water Conservation Engineering  
(same as BIOL_EN 4150; cross-leveled with CV_ENG 7710, BIOL_EN 7150). Urban and rural run-off and erosion analysis. Design and layout of erosion control structures.  
Credit Hours: 3  
Prerequisites: BIOL_EN 2180 or CV_ENG 3200

CV_ENG 4720: Watershed Modeling Using GIS  
(same as BIOL_EN 4350). Watershed evaluation using AVSWAT for hydrology, sediment yield, water quality; includes USLE, MUSLE, WEPP, Procedures for model calibration/sensitivity data analysis.  
Credit Hours: 3  
Prerequisites: BIOL_EN 2180 or CV_ENG 3200

CV_ENG 4730: Hydraulic Design  
(cross-leveled with CV_ENG 7730). Design of hydraulic infrastructure utilizing principles of both pressure conduits and open channels. Hand calculations and use of commercial design software for water distribution (quantity and quality), stormwater collection and sanitary sewer systems, and detention basins. Graded on A-F basis only.  
Credit Hours: 3  
Prerequisites: CV_ENG 3700 or equivalent

CV_ENG 4990: Undergraduate Research in Civil and Environmental Engineering  
Independent investigation or project in Civil Engineering. May be repeated to 6 hours. Enrollment limited to seniors in Civil and Environmental Engineering.  
Credit Hour: 1-4  
Prerequisites: instructor's consent

CV_ENG 4995: Research in Civil & Environmental Engineering-Undergraduate Honors  
Independent project, supervised by the honors advisor, to be presented as a formal written report.  
Credit Hour: 1-3  
Prerequisites: Civil Engineering students only  
Recommended: participation in the Civil and Environmental Engineering Departmental Honors Program

CV_ENG 7001: Topics in Civil Engineering  
Study of current and new technical developments in civil engineering.  
Credit Hour: 1-3  
Prerequisites: instructor's consent

CV_ENG 7002: Analysis of Civil Engineering Decisions  
Formulates and analyzes probabilistic models of civil engineering systems and their environment. Elementary theory of decision making under uncertainty. Application to selected civil engineering problems.  
Credit Hours: 3

CV_ENG 7003: Optimization of Civil Engineering Systems  
Automated design techniques such as linear, nonlinear, and dynamic programming; gradient and random searching. Civil engineering applications emphasized throughout.  
Credit Hours: 3

CV_ENG 7004: Engineering Administration  
Cash flow analysis, financial analysis, managerial accounting and cost control, budgeting, organizational structure and behavior.  
Credit Hours: 3  
Prerequisites: MATH 1300 or MATH 1500, or instructor's consent

CV_ENG 7006: Digital Computer Applications in Engineering  
(cross-leveled with CV_ENG 4006). Use of digital computer for solution of engineering problems involving roots of equations, simultaneous
equations, curve fitting, integration, differentiation, and differential equations.

Credit Hours: 3
Prerequisites: MATH 2300

---

CV_ENG 7007: Quality Management in Civil Engineering
Quantitative and qualitative quality planning and analysis concepts, including statistical tools and total quality management techniques, control, measurement and assessment. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: MATH 2300

---

CV_ENG 7008: Risk and Reliability for Civil Engineers
(cross-leveled with CV_ENG 4008). This course focuses on how to use probability and statistics to quantify uncertainties and consider risks when making civil engineering decisions and designing civil engineering systems.

Credit Hours: 3
Prerequisites: grade of C- or better in CV_ENG 3010 or other introductory probability/statistics course

---

CV_ENG 7080: Advanced Surveying
(cross-leveled with CV_ENG 4080). Celestial observations for determination of position; state coordinate systems, precise surveys, introduction to geodetic surveys, principles of photogrammetry. Theory of optical surveying instruments.

Credit Hours: 3
Prerequisites: CV_ENG 2090 and MATH 1500

---

CV_ENG 7082: Property Boundary Location
Principles of real property ownership, deeds, property boundary surveying, legal principles of original and retracement surveys Missouri statutes and regulations affecting surveying, GLO corner restoration and re-establishment.

Credit Hours: 3
Prerequisites: ENGINR 1500 and CV_ENG 2090

---

CV_ENG 7104: Pavement Materials and Design

Credit Hours: 3
Prerequisites: grade of C- or better in ENGINR 2200

---

CV_ENG 7109: Urban Development and Planning
Introduction to planning processes; procedures and forces that shape urbanization.

Credit Hours: 3

---

CV_ENG 7110: Transportation Simulation
(cross-leveled with CV_ENG 7110). Theory and application of simulation in transportation engineering.

Credit Hours: 3
Prerequisites: C- or better in CV_ENG 3100

---

CV_ENG 7120: Airport Engineering
(cross-leveled with CV_ENG 4120). Airport systems planning, design, and management.

Credit Hours: 3
Prerequisites: grade of C- or better in CV_ENG 3100

---

CV_ENG 7130: Transportation Safety
(cross-leveled with CV_ENG 4130). This course is an introduction to transportation safety. The focus will be on surface transportation. The student is expected to analyze safety data and to devise engineering solutions to safety problems.

Credit Hours: 3
Prerequisites: CV_ENG 7120

---

CV_ENG 7155: Transportation Geography
(same as GEOG 7850; cross-leveled with CV_ENG 4155, GEOG 4850). Introduction to fundamental concepts and modes of analysis in transportation geography. Focus on descriptive, explanatory, as well as normative approaches. Topics reviewed include spatial organization, transportation economics, spatial interaction, network analysis, location/ allocation, and urban transportation planning.

Credit Hours: 3
Prerequisites: CV_ENG 7145

---

CV_ENG 7165: Geographic Information Systems I
Introduces concepts of computer analysis of geographic data and emphasizes the techniques for handling geographic data. Application of computer-based GIS systems in coursework.

Credit Hours: 3
Prerequisites: instructor's consent; GEOG 2840

---

CV_ENG 7175: The Geospatial Sciences in National Security
(Same as GEOG 7175; cross-leveled with CV_ENG 4175, GEOG 4740). This course explores the critical contribution of the geospatial sciences in the collection, processing, visualization and analysis of geospatial information related to national security. May be repeated for credit.

Credit Hours: 3
Prerequisites: instructor's consent

---

CV_ENG 7185: Location Analysis/Site Selection
(same as GEOG 7740; cross-leveled with CV_ENG 4185, GEOG 4740). An overview of location analysis in regional planning and spatial decision support, this course focuses on the use of Geographic Information Science (GIS) and location analysis methods in addressing regional service needs. May be repeated for credit.

Credit Hours: 3
CV_ENG 7190: Infrastructure Project Development
(cross-leveled with CV_ENG 4190). Students will learn how the key elements of major civil engineering infrastructure projects fit together. The course will focus on the horizontal integration of: financing - planning - environment - right of way - design - construction - operations - maintenance. Engineering is important but so are a lot of other things. Graded on A-F basis only.
Credit Hours: 3

CV_ENG 7200: Remote Sensing of the Environment
(cross-leveled with CV_ENG 4200). Principles, characteristics and applications of remote sensing in engineering, geosciences, agriculture and environmental projects. Topics: basic concepts, photographic, thermal multispectral and microwave systems, satellite remote sensing and digital image processing.
Credit Hours: 3

CV_ENG 7210: Hazardous Waste Management
(same as CH_ENG 7210; cross-leveled with CV_ENG 4220, CH_ENG 4220). Engineering principles involved in handling, collection, transportation, processing and disposal of hazardous wastes, waste minimization, legislation on hazardous wastes and groundwater contamination.
Credit Hours: 3

CV_ENG 7220: Hazardous Waste Management
(same as CH_ENG 7220; cross-leveled with CV_ENG 4220, CH_ENG 4220). Engineering principles involved in handling, collection, transportation, processing and disposal of hazardous wastes, waste minimization, legislation on hazardous wastes and groundwater contamination.
Credit Hours: 3

CV_ENG 7230: Introduction to Water Quality
(cross-leveled with CV_ENG 4230). Methods for determining and characterizing water quality, effects of pollution on streams and lakes, and an introduction to engineered systems for the distribution, collection and treatment of water and wastewater.
Credit Hours: 3

CV_ENG 7232: Water and Wastewater Treatment Facilities
(cross-leveled with CV_ENG 4232). Physical, chemical, and biochemical processes for treating drinking water supplies and wastewaters (domestic and industrial), with emphasis on planning and design of such facilities.
Credit Hours: 3
Prerequisites: CV_ENG 4230 or CV_ENG 7230 or instructor's consent

CV_ENG 7240: Water Quality Analysis
Chemical, physical and biological methods for analysis of streams, lakes, wastewaters and water supplies and their use in water quality management.
Credit Hours: 3
Prerequisites: C- or better in CV_ENG 4230 or instructor's consent

CV_ENG 7245: Environmental Chemistry for Engineers
(cross-leveled with CV_ENG 4245). This course will cover the fundamentals of environmental chemistry. Physical, equilibrium, organic and colloid chemistry topics will be presented from an environmental perspective with a focus on their relevant engineering applications. Graded on A-F basis only.
Credit Hours: 3

CV_ENG 7250: Environmental Regulatory Compliance
(cross-leveled with CV_ENG 4250). Systems of water law; provisions of major federal environmental laws and regulations; development or regulations at the federal, state, and local levels; regulatory frameworks; permits; and enforcement.
Credit Hours: 3

CV_ENG 7260: Environmental Public Policy
(cross-leveled with CV_ENG 4260). Engineering and economic aspects of environmental policy. Basic understanding of environmental statutes and case law. Graded on A-F basis.
Credit Hours: 3

CV_ENG 7270: Environmental Engineering Microbiology
(cross-leveled with CV_ENG 4270). Theory and application of fundamental principles of microbiology, ecology, and aquatic biology of the microorganisms of importance to sanitary engineers.
Credit Hours: 3

CV_ENG 7286: Environmental Sustainability
(cross-leveled with CV_ENG 4286). This course will present an introduction to sustainability in engineering, tools for assessing sustainability and principles of sustainable design practices. Topics include climate change, energy and renewable resources, limits to growth, risk assessment, life cycle assessments, water and energy footprints, green buildings, and the water-food-energy-nexus. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: CV_ENG 3200

CV_ENG 7290: Wastewater Treatment and Process Design
(cross-leveled with CV_ENG 4290). Selection and use of wastewater and sludge treatment processes, disposal methods, leading to rational design of overall wastewater treatment systems. Sustainable wastewater treatment including advanced processes in nutrient removal, anaerobic treatment for wastewater reuse. Graded on A-F basis only.
Credit Hours: 3

CV_ENG 7300: Advanced Structural Steel Design
(cross-leveled with CV_ENG 4300). Design of steel structures and bridges. Topics include composite beams, plate girder design, and moment resistant connections.
Credit Hours: 3
Prerequisites: grade of C- or better in CV_ENG 3313

CV_ENG 7302: Prestressed/Advanced Reinforced Concrete
Credit Hours: 3
Corequisites: CV_ENG 3312
CV_ENG 7310: Structural Design and Analysis
Credit Hours: 3
Prerequisites: grade of C- or better in CV_ENG 4300

CV_ENG 7320: Energy Methods in Mechanics
(cross-leveled with CV_ENG 4320). Variational mechanics including practical examples. Topics include calculus of variation of boundary value problems, energy methods such as Ritz and Galerkin methods, approximate solutions methods such as the finite element and finite difference, and eigenvalue problems.
Credit Hours: 3

CV_ENG 7330: Structural System Design
(cross-leveled with CV_ENG 4330). Design of buildings in steel and reinforced concrete, including estimation of loads and design of gravity and lateral force resisting systems.
Credit Hours: 3
Prerequisites: grade of C- or better in CV_ENG 3312 and CV_ENG 3313

CV_ENG 7350: Matrix Methods of Structural Analysis
(cross-leveled with CV_ENG 4350). An introduction to the fundamentals of stiffness and flexibility methods for analysis of truss and frame structures. Application of the STRUDL and NASTRAN programs to three dimensional structures.
Credit Hours: 3
Prerequisites: grade of C- or better in CV_ENG 3300

CV_ENG 7360: Bridge Engineering
Credit Hours: 3
Prerequisites: Grade of C- or better in CV_ENG 3312 and CV_ENG 3313

CV_ENG 7404: Geotechnical Earthquake Engineering
(cross-leveled with CV_ENG 4404). This course will provide an introduction to topics relating to geotechnical aspects of earthquake engineering. Topics to be covered include; basic seismology, seismic hazard analysis, dynamic soil properties, site response analysis and soil properties, site response analysis and soil liquefaction. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: Grade of C- or better in CV_ENG 3400 or instructor's consent

CV_ENG 7410: Foundation Engineering
(cross-leveled with CV_ENG 4410). Subsurface exploration. Design of basic foundation structures: shallow foundations, retaining walls, deep foundations.
Credit Hours: 3
Prerequisites: Grade of C- or better in CV_ENG 3400

CV_ENG 7412: Applied Geotechnical Engineering
(cross-leveled with CV_ENG 4412). Study of concepts, theories, and design procedures for modern earthwork engineering including: compaction and densification of soils and soil improvement, seepage and drainage, slope stability and performance, and earth retaining structures.
Credit Hours: 3
Prerequisites: grade of C- or better in CV_ENG 3400

CV_ENG 7510: Construction Methods and Equipment
Selection and use of construction equipment, planning construction operations, equipment economics and operations analyses.
Credit Hours: 3
Prerequisites: MATH 1300 or MATH 1500, or instructor's consent

CV_ENG 7600: Advanced Mechanics of Materials
(same as MAE 7600; cross-leveled with CV_ENG 4600 and MAE 4600). Analysis of more complicated problems in stresses, strains.
Credit Hours: 3
Prerequisites: C- or better in ENGR 2200, MAE 3200

CV_ENG 7610: Sensors and Experimental Stress Analysis
(cross-leveled with CV_ENG 4610). Sensors and instrumentation for stress analysis, mechanical measurement and health monitoring of civil structures. Application and design of data acquisition systems, digital signals and basic digital signal processing. Electronics and instrumentation circuits.
Credit Hours: 3
Prerequisites: Grade of C- or better in ENGINR 2200 and PHYSCS 2760

CV_ENG 7660: Vibration Analysis
(same as MAE 7660; cross-leveled with CV_ENG 4660, MAE 4660). Vibration theory with application to mechanical systems.
Credit Hours: 3
Prerequisites: C- or better in MATH 4100 and MAE 2600

CV_ENG 7700: Hydraulics of Open Channels
(cross-leveled with CV_ENG 4700). Gradually varied flow and theory of the hydraulic jump. Slowly varied flow involving storage; rating curves.
**Credit Hours:** 3  
**Prerequisites:** graduate standing and Grade of C- or better in CV_ENG 3700

---

**CV_ENG 7702: Pipeline Engineering**  
Theoretical and practical aspects of pipeline engineering including pipeline transport of natural gas and various solids such as coal, sand and solid wastes.  
**Credit Hours:** 3  
**Prerequisites:** CV_ENG 3700 and MAE 3400

---

**CV_ENG 7703: Applied Hydrology**  
(cross-leveled with CV_ENG 4703). Modern methods of applied hydrologic analysis and synthesis of hydrologic records.  
**Credit Hours:** 3  
**Prerequisites:** grade of C- or better in CV_ENG 3700 and CV_ENG 3702, or instructor's consent

---

**CV_ENG 7710: Soil and Water Conservation Engineering**  
(same as BIOL_EN 7150; cross-leveled with CV_ENG 4710, BIOL_EN 4150). Urban and rural run-off and erosion analysis. Design and layout of erosion control structures.  
**Credit Hours:** 3  
**Prerequisites:** BIOL_EN 3200 or CV_ENG 3200 or instructor's consent

---

**CV_ENG 7720: Watershed Modeling Using GIS**  
(same as BIOL_EN 7350). Watershed evaluation using AVSWAT for hydrology, sediment yield, water quality; includes USLE, MUSLE, WEPP, Procedures for model calibration/sensitivity data analysis.  
**Credit Hours:** 3  
**Prerequisites:** BIOL_EN 2180 or CV_ENG 3200 or instructor's consent

---

**CV_ENG 7730: Hydraulic Design**  
(cross-leveled with CV_ENG 4730). Design of hydraulic infrastructure utilizing principles of both pressure conduits and open channels. Hand calculations and use of commercial design software for water distribution (quantity and quality), stormwater collection and sanitary sewer systems, and detention basins. Graded on A-F basis only.  
**Credit Hours:** 3  
**Prerequisites:** CV_ENG 3700 or equivalent

---

**CV_ENG 7792: Analysis of Water-Resource Systems**  
(cross-leveled with CV_ENG 4792). Applies hydrology, hydraulic and sanitary engineering, and economics to water-resource design problems considering man and his environment. Uses methods of systems analysis.  
**Credit Hours:** 3  
**Prerequisites:** instructor's consent

---

**CV_ENG 8002: Directed Reading In Civil Engineering**  
Faculty supervised readings course.  
**Credit Hour:** 1-3

---

**CV_ENG 8005: Problems in Civil Engineering**  
Supervised investigation in civil engineering to be presented in the form of a report.  
**Credit Hour:** 1-6

---

**CV_ENG 8100: Transportation Planning and Models**  
Regional and metropolitan transportation studies; land use, traffic generation, distribution and assignment models.  
**Credit Hours:** 3  
**Prerequisites:** CV_ENG 4002 or CV_ENG 4003

---

**CV_ENG 8106: Advanced Intelligent Transportation Systems**  
This course is intended to be an introductory course in Intelligent Transportation Systems (ITS). This course includes the background of ITS, current implementations, sample deployments, and practical issues and implications.  
**Credit Hours:** 3

---

**CV_ENG 8110: Theory of Traffic Flow**  
Scientific approach to study of traffic phenomena with emphasis on applications. Deterministic and stochastic models of traffic flow; optimization of intersection controls; computer simulation of traffic problems.  
**Credit Hours:** 3  
**Prerequisites:** CV_ENG 4002 or instructor's consent

---

**CV_ENG 8140: Highway Transportation**  
Economics of transportation on highways. Comparison of vehicle operation costs. Project studies of highway problems in general.  
**Credit Hours:** 3  
**Prerequisites:** CV_ENG 4103 or equivalent

---

**CV_ENG 8150: Transportation Networks**  
This course presents techniques used in equilibrium analysis of transportation networks. The details of traffic assignment algorithms will be discussed along with theory and practical algorithms.  
**Credit Hours:** 3

---

**CV_ENG 8160: Advanced Research Methods in Transportation Engineering**  
This course will cover advanced research methods used in transportation. A special focus will be on the state-of-art approaches in traffic engineering. Mathematical and analytical models will be reviewed in detail. This is a reading intensive course where students are expected to review research articles on various topics. The methods used in the articles and a critical review of the article findings will be discussed in an interactive manner in the class. Graded on A-F basis only.  
**Credit Hours:** 3
CV_ENG 8187: Seminar in Transportation Engineering
Review of research in progress in the area of transportation engineering.

Credit Hours: 1

---

CV_ENG 8200: Water Quality Modeling
Derivation and application of models for describing oxygen budget, nutrient exchange, and biological productivity in streams, lakes and estuaries.

Credit Hours: 3
Prerequisites: CV_ENG 7230

---

CV_ENG 8215: Environmental Transport Phenomena
Fundamental processes that control the transport of constituents substances in fluids, and the implications of these processes for a variety of important applications in natural and engineered systems.

Credit Hours: 3

---

CV_ENG 8220: Advanced Hazardous Waste Treatment Processes
Course includes some introductory materials about hazardous waste regulations followed by advanced treatment methods such as air stripping, soil-vapor extraction, chemical oxidation, membrane processes, in-situ and ex-situ biotreatment methods, solidification and thermal processes.

Credit Hours: 3
Prerequisites: CV_ENG 4220

---

CV_ENG 8225: Aquatic Chemistry
Principles of chemical thermodynamics and equilibrium applied to processes in natural water and water and wastewater treatment systems. Emphasis on quantitative analyses of acid/base, complexation/dissociation, precipitation/dissolution, and reduction/oxidation reactions. Graded on A-F basis only.

Credit Hours: 3

---

CV_ENG 8230: Unit Process Laboratory
Studies chemical and physical relationships as applied to unit processes of water and wastewater.

Credit Hours: 3

---

CV_ENG 8240: Physiochemical Treatment Processes
Fundamental principles, analysis and modeling of physical and chemical processes for water and wastewater treatment.

Credit Hours: 3

---

CV_ENG 8245: Particles in the Environment
This course is an introduction to interfacial and colloid science, with an emphasis on aqueous systems of natural colloids and engineered nanomaterials. Graded on A-F basis only.

Credit Hours: 3

---

CV_ENG 8250: Biochemical Treatment Processes
Biochemical principles, kinetic models and energy considerations in the design of biological wastewater treatment processes.

---

---

CV_ENG 8260: Environmental Biotechnology
Major biochemical reactions relevant to environmental engineering. Theory and application of fundamental principles of attached and suspended microbial growth and process engineering for sanitary engineering and biodegradation.

Credit Hours: 3
Prerequisites: CV_ENG 8250 or instructor's consent

---

CV_ENG 8270: Design of Water and Wastewater Treatment Facilities
Development of design criteria and their application to the design of water and wastewater treatment facilities.

Credit Hours: 3

---

CV_ENG 8287: Seminar in Environmental Engineering
Review of research in progress in the area of environmental engineering.

Credit Hour: 1

---

CV_ENG 8295: Environmental Regulatory Policy
Discussion of the various policy aspects of environmental regulation: economic and non-economic impacts of degradation; risk assessment and management; distribution of environmental risks; regulatory tools; federal vs. state; disclosure; enforcement. Relation to environmental laws. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: CV_ENG 4250 or CV_ENG 7250 or equivalent

---

CV_ENG 8303: Behavior of Reinforced Concrete Members

Credit Hours: 3
Prerequisites: CV_ENG 3312

---

CV_ENG 8311: Nondestructive Evaluation Engineering
This course will present the interaction of nondestructive evaluation (NDE) technologies and engineering decision-making. Theory and application NDE technologies will be presented in the context of the engineering analysis required to effectively utilize the technologies. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: PHYSCS 2760, ENGINR 1200, MATH 4100

---

CV_ENG 8312: Advanced Structural Analysis

Credit Hours: 3

---

CV_ENG 8313: Random Vibration
Analysis of random vibrations including topics in stationary, ergodic and nonstationary random processes, with application to single-degree of freedom, discrete and continuous mechanical systems.
CV_ENG 8320: Continuum Mechanics
(same as MAE 8320). Introductory course in the mechanics of continuous media. Basic concepts of stress, strain, constitutive relationships; conservation laws are treated using Cartesian tensor notation. Examples from both solid and fluid mechanics investigated.

Credit Hours: 3
Prerequisites: CV_ENG 4606

CV_ENG 8330: Theory of Elasticity

Credit Hours: 3
Prerequisites: CV_ENG 3700, MATH 7100, ENGINR 2200

CV_ENG 8340: Theory of Plates and Shells

Credit Hours: 3

CV_ENG 8342: Space Mechanics
Rigid body dynamics analysis of satellites, space vehicles. Trajectories, time of flight optimization.

Credit Hours: 3
Prerequisites: MAE 3600 or equivalent, and MATH 4100

CV_ENG 8350: Theory of Elastic Stability

Credit Hours: 3

CV_ENG 8360: Theory of Plasticity

Credit Hours: 3
Prerequisites: CV_ENG 8330 or instructor's consent

CV_ENG 8372: Reinforced Concrete Theory and Design
Advanced design of reinforced concrete structures; review of standard codes and specifications and their influence.

Credit Hours: 3
Prerequisites: CV_ENG 4350 or equivalent

CV_ENG 8380: Nonlinear Mechanical Analysis
Analysis of behavior of nonlinear mechanical systems. Nonlinear phenomena of importance in mechanical design.

Credit Hours: 3
Prerequisites: MAE 3600 or equivalent and MATH 4100

CV_ENG 8387: Seminar in Structural Engineering
Review of research in progress in the area of structural engineering.

Credit Hour: 1

CV_ENG 8390: Advanced Topics Structural Analysis

Credit Hours: 3
Prerequisites: CV_ENG 4350

CV_ENG 8392: Dynamics of Structures
(same as MAE 8392). Study of the dynamic behavior of structures. Analysis of equivalent lumped parameter systems for the design of structures in a dynamic environment.

Credit Hours: 3
Prerequisites: MAE 2600 and MATH 4100 or MATH 7100

CV_ENG 8402: Advanced Shear Strength of Soils
Theoretical soil mechanics as applied to solution of specific engineering problems.

Credit Hours: 3

CV_ENG 8403: Consolidation and Settlement
Settlement of soil, Theory of Consolidation, consolidation testing, settlements of earth fills and embankments, stress distribution in soils, elastic settlement, bearing capacity of shallow foundations, shallow foundations design.

Credit Hours: 3
Prerequisites: CV_ENG 3400

CV_ENG 8404: Seepage in Soils
General principles that govern flow of water through soils and specific procedures for analysis and design of filtration and drainage media in geotechnical and geoenvironmental applications.

Credit Hours: 3
Prerequisites: CV_ENG 3400 or instructor's consent

CV_ENG 8407: Soil Behavior
Detailed study of composition, fabric, and geotechnical and hydrologic properties of soils that consist partly or wholly of clay. Emphasizes physico-chemical factors governing volume change and shear strength. Expansive clay behavior is examined in detail.

Credit Hours: 3
Prerequisites: CV_ENG 3400 or instructor's consent

CV_ENG 8408: Soil Dynamics
Cover topics relating to the response of soils to dynamic loading. Topics to be covered include: lab and field methods, cyclic soil models, foundation vibrations, and wave propagation through soil. Graded on A-F basis only.

Credit Hours: 3
**Prerequisites:** CV_ENG 3400 and instructor's consent

**CV_ENG 8410: Advanced Foundation Engineering**
Foundation design beyond simple spread footings, special footings and beams on an elastic foundations, mat foundations, pile foundations - static capacity, lateral loads, buckling, dynamic analysis load tests, pile groups, drilled piers.

**Credit Hours:** 3
**Prerequisites:** CV_ENG 4410

**CV_ENG 8412: Stability and Performance of Earth Slopes**
Principles, mechanics and procedures for analyzing the stability of earth slopes and landfills under short-term, long-term, rapid drawdown, and earthquake conditions.

**Credit Hours:** 3
**Prerequisites:** CV_ENG 3400 or instructor's consent

**CV_ENG 8413: Design and Analysis of Earth Retaining Structures**
General principals and specific procedures for analysis and design of earth retention systems including consideration of soil-structure interaction.

**Credit Hours:** 3
**Prerequisites:** CV_ENG 3400 or instructor's consent

**CV_ENG 8487: Seminar in Geotechnical Engineering**
Review of research in progress in the area of geotechnical engineering.

**Credit Hour:** 1

**CV_ENG 8610: Materials and Measurement**
About 25% of the course is devoted to the physical measurement of strain, force, displacement and motion. Remainder of course is devoted to advanced study of the behavior of steel and concrete with emphasis on brittle fracture in steel.

**Credit Hours:** 3
**Prerequisites:** CV_ENG 3600 or equivalent

**CV_ENG 8620: Advanced Dynamics**
(same as MAE 8620). Fundamental principles of advanced rigid body dynamics with applications. Special mathematical techniques including Lagrangian and Hamiltonian methods.

**Credit Hours:** 3
**Prerequisites:** CV_ENG 2080 and MATH 4100

**CV_ENG 8630: Vibrations of Distributed Parameter Systems**
(same as MAE 8630). Vibration analysis of strings, cables, bars, rods, shafts, beams, membranes, plates, circular rings, frames; free and forced oscillation; miscellaneous loading; various boundary conditions; effect of damping; energy methods; method of difference equations.

**Credit Hours:** 3
**Prerequisites:** CV_ENG 4660

**CV_ENG 8720: Hydrotechnical Practicum**
Application of advanced analysis and design techniques to practical problems in hydrotechnical engineering. Collaborative group investigations that may include experimental and computer aided studies. No more than 6 practicum hours may be applied toward the MS degree. Graded on A-F basis only.

**Credit Hour:** 2-4
**Prerequisites:** graduate standing in Civil Engineering

**CV_ENG 8990: Research-Masters Thesis in Civil & Environmental Engineering**
Independent investigation in the field of civil engineering to be presented in the form of a thesis. Graded on a S/U basis only.

**Credit Hour:** 1-99

**CV_ENG 9990: Research-Doctoral Dissertation Civil & Environmental Engineering**
Independent investigation in the field of civil engineering to be presented in the form of a thesis. Graded on a S/U basis only.

**Credit Hour:** 1-99

**Classical Humanities (CL_HUM)**

**CL_HUM 1050: Greek and Latin in English**
A survey of the influence of Greek and Latin upon English literary, scientific, technical, legal and medical vocabulary. Emphasis is upon building competency with complex English words while studying the cultural influence of the classical languages on modern vocabulary.

**Credit Hours:** 3

**CL_HUM 1060: Classical Mythology**
Myths of Greece and Rome in literature and art.

**Credit Hours:** 3

**CL_HUM 1060H: Classical Mythology - Honors**
Myths of Greece and Rome in literature and art.

**Credit Hours:** 3
**Prerequisites:** Honors eligibility required

**CL_HUM 1060HW: Classical Mythology - Honors/Writing Intensive**
Myths of Greece and Rome in literature and art.

**Credit Hours:** 3
**Prerequisites:** Honors eligibility required

**CL_HUM 1060W: Classical Mythology - Writing Intensive**
Myths of Greece and Rome in literature and art.

**Credit Hours:** 3

**CL_HUM 2005: Topics in Classical Humanities**
Organized study of selected topics. Subjects and earnable credit may vary from semester to semester.

**Credit Hour:** 1-99
CL_HUM 2005H: Topics in Classical Humanities - Honors
Organized study of selected topics. Subjects and earnable credit may vary from semester to semester.

Credit Hour: 1-99
Prerequisites: Honors eligibility required

CL_HUM 2050: Comparative History of Greece and Rome I
This comparative survey explores the ancient Mediterranean world of Greece and Rome from the age of Homer to the eve of the crisis of the Roman Republic. Topics include the rise of the city-state in Greece and Italy, the formation of democratic and republican constitutions, Greek and Roman imperialism, the Persian and Hannibalic wars, women and the family, slavery and the economy, the formation and context of literary production, and architecture and the ancient city-scape.

Credit Hours: 3

CL_HUM 2060: Comparative History of Greece and Rome II
This comparative survey explores the ancient Mediterranean world of Greece and Rome from the crisis of the Roman Republic (1c BCE) to the eve of the post-Roman Mediterranean (6c CE). Topics include the collapse of the Roman Republic and transition to the Augustan principate, the administrative and economic foundations of the Pax Romana (1-2c CE), the vitality of Greek culture and literature under Roman rule, the imperial army, the family and slavery, Judaism and Christianity, and the transformation of the Roman world into its medieval and Byzantine successors.

Credit Hours: 3

CL_HUM 2100: Greek Culture
Survey of Greek life and thought. Principal developments in literature, the arts, politics, religion and philosophy, and their influence on Western civilization.

Credit Hours: 3

CL_HUM 2200: Roman Culture
Survey of Roman life and thought. Principal developments in literature, the arts, politics, religion, philosophy, and private life, and their influence on Western Civilization.

Credit Hours: 3

CL_HUM 2300: Greek Classics in Translation
Reading in translation and critical study of the most important literary works of the ancient Greek World.

Credit Hours: 3

CL_HUM 2300H: Greek Classics in Translation
Reading in translation and critical study of the most important literary works of the ancient Greek world.

Credit Hours: 3
Prerequisites: Honors eligibility required

CL_HUM 2400: Roman Classics in Translation
Reading in translation and critical study of the most important literary works of the ancient Roman world.

Credit Hours: 3
Prerequisites: Honors eligibility required

CL_HUM 2400: Roman Classics in Translation
Reading in translation and critical study of the most important literary works of the ancient Roman world.

Credit Hours: 3

CL_HUM 2500: The Origins of Music in the Ancient World
Explores the use of music in the earliest historical societies, from the earliest evidence up to the fall of the Roman empire. Topics will include the history of musical instruments, the earliest scores, the development of music theory, the origins of melody, rhythm, and harmony, and the relationship between music, politics, and religion. Graded on A-F basis only.

Credit Hours: 3
Recommended: CL_HUM 1060; CL_HUM 2100; CL_HUM 2200

CL_HUM 2600: Media and Communication in Ancient Greece and Rome
An introduction to communications media in ancient Greece and Rome, from the invention of the alphabet to the fall of the Roman empire. Special attention will be paid to the material bases for communication, the social uses of information, and the relationship between communications technology and political power.

Credit Hours: 3
Recommended: CL_HUM 1060

CL_HUM 2940: Service Learning in Classical Studies
Students provide enrichment programming on the Ancient World at various Columbia Public School sites. Participants must be Classical Studies majors or minors. Graded on A/F basis only. Does not meet Arts and Science general education requirements.

Credit Hour: 1
Prerequisites: instructor's consent required

CL_HUM 3000: Foreigners and Dangerous Women in Greek and Latin Literature
(same as PEA_ST 3130). The study of how Greek and Roman writers depicted and reacted to other races and cultures, compared them with their own, and thereby revealed their own values and prejudices.

Credit Hours: 3
Recommended: CL_HUM 1060

CL_HUM 3000H: Foreigners and Dangerous Women in Greek and Latin Literature - Honors
(same as PEA_ST 3130). The study of how Greek and Roman writers depicted and reacted to other races and cultures, compared them with their own, and thereby revealed their own values and prejudices.

Credit Hours: 3
Prerequisites: Honors eligibility required
Recommended: CL_HUM 1060

CL_HUM 3000W: Foreigners and Dangerous Women in Greek and Latin Literature - Writing Intensive
(same as PEA_ST 3130). The study of how Greek and Roman writers depicted and reacted to other races and cultures, compared them with their own, and thereby revealed their own values and prejudices.

Credit Hours: 3
Recommended: CL_HUM 1060
**CL_HUM 3005: Topics in Classical Humanities**
Organized study of selected topics. Subjects and earnable credit may vary from semester to semester.

**Credit Hour:** 1-99  
**Recommended:** CL_HUM 1060

---

**CL_HUM 3005H: Topics in Classical Humanities - Honors**
Organized study of selected topics. Subjects and earnable credit may vary from semester to semester.

**Credit Hour:** 1-99  
**Prerequisites:** Honors eligibility required  
**Recommended:** CL_HUM 1060

---

**CL_HUM 3005W: Topics in Classical Humanities - Writing Intensive**
Organized study of selected topics. Subjects and earnable credit may vary from semester to semester.

**Credit Hour:** 1-99  
**Recommended:** CL_HUM 1060

---

**CL_HUM 3025: Ancient Western Philosophy**  
(same as PHIL 3000). Philosophical thought on nature, knowledge, the gods, human life and society, from Thales to Augustine. Emphasis on Plato and Aristotle. The relevance of the ancients to contemporary life.

**Credit Hours:** 3  
**Recommended:** CL_HUM 1060

---

**CL_HUM 3100: The Age of Pericles**
A study of the literature and culture of the 5th and early 4th centuries B.C. in Athens. Authors will include Thucydides, Herodotus, Xenophon, Plato, Aristotle, the tragedians and Aristophanes.

**Credit Hours:** 3  
**Recommended:** CL_HUM 1060

---

**CL_HUM 3150: The Age of Augustus**
Study of the literature of the Age of Augustus; Vergil, Ovid, Horace, Livy, and Propertius.

**Credit Hours:** 3  
**Recommended:** CL_HUM 1060

---

**CL_HUM 3150H: The Age of Augustus - Honors**
Study of the literature of the Age of Augustus; Vergil, Ovid, Horace, Livy, and Propertius.

**Credit Hours:** 3  
**Prerequisites:** Honors eligibility required  
**Recommended:** CL_HUM 1060

---

**CL_HUM 3225: Roman Comedy, Wit and Humor**
Study of works illustrating the comedy, wit and humor of the Romans: readings in comedies of Plautus and Terence, Catullus, Ovid's Metamorphoses, Petronius' Satyricon, Martial, Juvenal and Macrobius.

**Credit Hours:** 3  
**Recommended:** CL_HUM 1060

---

**CL_HUM 3250: Greek and Roman Epic**
A study of the major representatives of the ancient epic genre. Readings will include Homer's Iliad and Odyssey, Apollonius' Argonautica, Vergil's Aeneid.

**Credit Hours:** 3  
**Recommended:** CL_HUM 1060

---

**CL_HUM 3250H: Greek and Roman Epic - Honors**
A study of the major representatives of the ancient epic genre. Readings will include Homer's Iliad and Odyssey, Apollonius' Argonautica, Vergil's Aeneid.

**Credit Hours:** 3  
**Prerequisites:** Honors eligibility required  
**Recommended:** CL_HUM 1060

---

**CL_HUM 3300: Greek Drama**
Reading and interpretation of Greek tragedies and comedies in translation.

**Credit Hours:** 3  
**Recommended:** CL_HUM 1060

---

**CL_HUM 3350: Advanced Mythology**
Interpretation of selected classical myths and their influence on later literature and art.

**Credit Hours:** 3  
**Recommended:** CL_HUM 1060

---

**CL_HUM 3350H: Advanced Mythology - Honors**
Interpretation of selected classical myths and their influence on later literature and art.

**Credit Hours:** 3  
**Prerequisites:** Honors eligibility required  
**Recommended:** CL_HUM 1060

---

**CL_HUM 3400: Murder and Mayhem: Images of Justice in Classical Antiquity**
Ideas of justice from Homer through the early Roman Empire; personal vengeance, law courts and trials, philosophical attitudes, women and courts, techniques of persuasion.

**Credit Hours:** 3  
**Recommended:** CL_HUM 1060

---

**CL_HUM 3400W: Murder and Mayhem: Images of Justice in Classical Antiquity - Writing Intensive**
Ideas of justice from Homer through the early Roman Empire; personal vengeance, law courts and trials, philosophical attitudes, women and courts, techniques of persuasion.

**Credit Hours:** 3  
**Recommended:** CL_HUM 1060

---

**CL_HUM 3450: Greek and Roman Characters and Ideals**
Study of selected types of characters admired and imitated or hated and rejected in classical antiquity; heroes, philosophers, women.

**Credit Hours:** 3
Relevant courses:

**CL_HUM 1060**

**CL_HUM 3600: The Ancient Novel**
Reading and analysis of Greek and Latin prose fiction: ideal and comic romance, fantasy, romantic biography; Hellenistic background.

**Credit Hours:** 3
**Recommended:** CL_HUM 1060

**CL_HUM 3600H: The Ancient Novel - Honors**
Reading and analysis of Greek and Latin prose fiction: ideal and comic romance, fantasy, romantic biography; Hellenistic background.

**Credit Hours:** 3
**Prerequisites:** Honors eligibility required
**Recommended:** CL_HUM 1060

**CL_HUM 3650: Paganism and Christianity**
A study of the transition from Paganism to Christianity in the Roman Empire, as seen by observers contemporary with the events.

**Credit Hours:** 3
**Recommended:** CL_HUM 1060

**CL_HUM 3650W: Paganism and Christianity - Writing Intensive**
A study of the transition from Paganism to Christianity in the Roman Empire, as seen by observers contemporary with the events.

**Credit Hours:** 3
**Recommended:** CL_HUM 1060

**CL_HUM 3700: Women in the Ancient World**
Using classical literary texts as the central focus this course examines the role of women: the conflict inherent in their obligations and their identity in the context of these obligations.

**Credit Hours:** 3
**Recommended:** CL_HUM 1060

**CL_HUM 3750: Classics in a Cross-Cultural Context**
The goal of this course is to place classical literature in a multicultural context by studying Greek and Latin literary texts alongside verbal art from non-European as well as European cultures.

**Credit Hours:** 3
**Recommended:** CL_HUM 1060

**CL_HUM 3775: The Ancient World on Film**
(same as AR_H_A 3775 and FILM_S 3775). This course explores how classical antiquity has been represented in twentieth and twenty-first-century film, with particular emphasis on the ways in which ancient narratives and iconography have been appropriated by filmmakers to address contemporary cultural issues.

**Credit Hours:** 3
**Recommended:** CL_HUM 1060

**CL_HUM 3775W: The Ancient World on Film - Writing Intensive**
(same as AR_H_A 3775 and FILM_S 3775). This course explores how classical antiquity has been represented in twentieth and twenty-first-century film, with particular emphasis on the ways in which ancient narratives and iconography have been appropriated by filmmakers to address contemporary cultural issues.

**Credit Hours:** 3
**Recommended:** CL_HUM 1060

**CL_HUM 3800: Sports and Spectacles in Greco-Roman Antiquity**
Investigates athletic display in ancient Greek and Roman culture, from its earliest representations in Greek literature to the massive spectacles of the Roman empire, with an emphasis on the intersections between sport and spectacle and other areas of ancient cultural life.

**Credit Hours:** 3
**Recommended:** CL_HUM 1060

**CL_HUM 4005: Topics in Classical Humanities**
Subjects and earnable credit may vary from semester to semester.

**Credit Hours:** 1-99
**Recommended:** CL_HUM 1060 and junior standing

**CL_HUM 4100: Greece: From the Bronze Age to the Byzantine Empire**
Study abroad in Greece, in conjunction with the MU International Center. Immersion in the physical and intellectual heritage of ancient Greece; emphasis on cross-disciplinary, on-site learning and the intersections among ancient, Byzantine, and modern Greece. Application required. Graded on A/F basis only.

**Credit Hours:** 6
**Recommended:** CL_HUM 1060

**CL_HUM 4100H: Greece: From the Bronze Age to the Byzantine Empire - Honors**
Study abroad in Greece, in conjunction with the MU International Center. Immersion in the physical and intellectual heritage of ancient Greece; emphasis on cross-disciplinary, on-site learning and the intersections among ancient, Byzantine, and modern Greece. Participants chosen by instructor. Graded on A/F basis only. Application required.

**Credit Hours:** 6
**Prerequisites:** Honors eligibility required
**Recommended:** CL_HUM 1060

**CL_HUM 4550: Literature and Culture of the Hellenistic Age**
(cross-leveled with CL_HUM 7550). A survey of the literature and culture of the Hellenistic Age.

**Credit Hours:** 3
**Recommended:** CL_HUM 1060 and junior standing

**CL_HUM 4600: The Classical Tradition**
Selected studies in continuity and influence of Greek and Roman culture on Middle Ages, Renaissance, and modern times.

**Credit Hours:** 3
**Recommended:** CL_HUM 1060 and junior standing

**CL_HUM 4600H: The Classical Tradition - Honors**
Selected studies in continuity and influence of Greek and Roman culture on Middle Ages, Renaissance, and modern times.
Classics (CLASS)

CLASS 4970H: Capstone in Classical Languages
Culminating course in the study of Greek and Roman literature and Classical culture. Required for Greek, Latin, and Classical Languages majors in first term of senior year. Recommended for double-majors.

Credit Hours: 3
Prerequisites: instructor's consent. Honors eligibility required

CLASS 7000: Introduction to Graduate Study in Classics
Required of all first-year graduate students.

Credit Hour: 1

CLASS 7100: History of the Greek and Latin Languages
(same as LINGST 7130; cross-levelled with CLASS 4100, LINGST 4130). Evolution of classical languages and their relationship to each other.

Credit Hours: 3

CLASS 7205: Topics in Classical Studies
Organized study of selected topics. Subjects and earnable credit may vary from semester to semester. Departmental consent for repetition.

Credit Hours: 1-99

CLASS 7300: Introduction to Text Criticism and Paleography
(cross-leveled with CLASS 4300). Latin and/or Greek textual criticism and paleography, using manuscript facsimiles at the University library.

Credit Hours: 3
Prerequisites: 2 years of Classical Languages or equivalent

CLASS 7700: Advanced Study in the Teaching of the Classics

Credit Hours: 3
Prerequisites: classroom teaching experience or chairman's consent

CLASS 7960: Special Readings in Classical Studies
Readings in authors and texts not covered in other courses.

Credit Hour: 1-3
Prerequisites: graduate standing and classics/classical humanities; departmental consent; Greek--two years classical Greek or equivalent; Latin--two years Classical Latin or equivalent

CLASS 8085: Directed Readings in Classics
For graduate students to undertake special projects for graduate credit under the supervision of faculty.

Credit Hours: 3

CLASS 8090: Masters Research and Thesis in Classics
For graduate students studying for the MA and working on a thesis to receive credit for work directly related to the thesis. Graded S/U only.

Credit Hours: 3

CLASS 9090: PhD Research and Thesis
Individual research in preparation for writing thesis and/or dissertation. Graded on a S/U basis only.
Clinical Laboratory Sciences (CL_L_S)

CL_L_S 1000: Orientation to Clinical Laboratory Science
The class is designed to give prospective Clinical Laboratory Science students clinical experience in the field of Clinical Laboratory Science. Graded on S/U basis only.
Credit Hour: 1
Prerequisites: HLTH_SCI 1000

CL_L_S 4407: Clinical Laboratory Operations
This course provides a basic introduction to the theory, practical application, technical performance and evaluation of laboratory skills specific to the practice of clinical laboratory science. Laboratory safety; microscopy; pipetting; general laboratory equipment; quality control; mathematics; phlebotomy; pre-analytic, analytic and post-analytic processes, including specimen collection, processing and transport to maintain test result integrity, will be addressed. Graded on A-F basis only.
Credit Hour: 1-4
Prerequisites: Restricted to Clinical Laboratory Students only

CL_L_S 4408: Introduction to Clinical Hematology
This course introduces the theory, practical application, technical performance and evaluation of hematological and hemostasis procedures. Correlation of laboratory data with the diagnosis of erythrocyte, leukocyte and bleeding/clotting disorders will be introduced. Graded on A-F basis only.
Credit Hour: 1-4
Prerequisites: Restricted to Clinical Laboratory Students only

CL_L_S 4409: Introduction to Clinical Microbiology
This course introduces the theory, practical application, technical performance and evaluation of procedures for isolation, identification and susceptibility testing of infectious disease organisms in humans. The course primarily focuses on bacteriology, but will include introductory coverage of parasitology, mycology and virology. Graded on A-F basis only.
Credit Hour: 1-4
Prerequisites: Restricted to Clinical Laboratory Students only

CL_L_S 4410: Introduction to Clinical Chemistry and Urinalysis
This course introduces the theory, practical application, technical performance and evaluation of basic laboratory skills and methods in clinical chemistry and urinalysis. The course focuses on the correlation of laboratory data with the diagnosis of renal conditions, but will include introductory coverage of carbohydrate, liver and protein conditions, as well as enzymes. Graded on A-F basis only.
Credit Hour: 1-4
Prerequisites: Restricted to Clinical Laboratory Students only

CL_L_S 4411: Introduction to Clinical Immunohematology
This course introduces the theory, practical application, technical performance and evaluation of immunohematology procedures required to provide compatible blood components for transfusion. Methods for collection, processing, storage and transfusion of blood and blood components will be presented. Immunohematology procedures that assist in the diagnosis and management of hemolytic conditions will be introduced. Graded on A-F basis only.
Credit Hour: 1-4
Prerequisites: Restricted to Clinical Laboratory Students only

CL_L_S 4412: Clinical Laboratory Science Theory, Application and Correlation
Application, evaluation and correlation of laboratory procedures used in the diagnosis and treatment of common disease states. Opportunities for building critical thinking, problem solving, and leadership skills are provided in small group clinical case discussions. Course may be repeated for credit. Graded on A-F basis only.
Credit Hour: 5
Prerequisites: departmental consent, accepted in into the Medical Technology Program

CL_L_S 4413: Clinical Endocrinology and Toxicology
This course introduces the theory, practical application, and evaluation of clinical chemistry laboratory procedures. Correlation of clinical laboratory data with the diagnosis and treatment of endocrine disorders, toxicology disturbances and therapeutic drug monitoring is emphasized. Graded on A-F basis only.
Credit Hour: 1-4
Prerequisites: Restricted to Clinical Laboratory Students only

CL_L_S 4414: Clinical Chemistry and Urinalysis I
This course expands on the theory, practical application, and evaluation of basic laboratory procedures introduced in CL_L_S 4407 Clinical Laboratory Operations and CL_L_S 4410 Introduction to Clinical Chemistry and Urinalysis, with an emphasis on common automated methodologies used in clinical chemistry and urinalysis laboratories. This course will focus on the interpretation, evaluation and correlation of clinical laboratory data with the diagnosis and treatment monitoring of carbohydrate, renal, hepatic, protein, cardiac, lipid/lipoprotein, major and minor electrolyte, enzyme, pancreatic-gastrointestinal and acid-base disorders. May be repeated for credit. Graded on A-F basis only.
Credit Hour: 1-4
Prerequisites: Clinical Lab Sci (Medical Technology) Program students only

CL_L_S 4415: Clinical Chemistry and Urinalysis II
This course expands on the theory, practical application, and evaluation of laboratory procedures introduced in CL_L_S 4414 Clinical Chemistry and Urinalysis I and CL_L_S 4444 Clinical Core Laboratory Practical I. Correlation of clinical laboratory data with the diagnosis and treatment monitoring of carbohydrate, renal, hepatic, cardiac, lipid/lipoprotein, protein, major and minor electrolyte, trace element, enzyme, pancreatic-
gastrointestinal and acid-base disorders; tumor markers; and inborn errors of metabolism is emphasized. Graded on A-F basis only.

Credit Hour: 1-4  
Prerequisites: Clinical Lab Sci (Medical Technology) Program students only

---

**CL_L_S 4416: Clinical Hematology I**  
Introduction to the theory, practical application, technical performance and evaluation of hematological and coagulation procedures. Emphasis on correlations of clinical laboratory data with the diagnosis and treatment of anemia, leukemia, and bleeding/clotting disorders. May be repeated for credit. Graded on A-F basis only.

Credit Hour: 1-4  
Prerequisites: Clinical Lab Sci (Medical Technology) Program students only

---

**CL_L_S 4417: Clinical Hematology II**  
This course expands on the theory, practical application, and evaluation of hematological and hemostasis procedures introduced in CL_L_S 4416 Clinical Hematology I and CL_L_S 4444 Clinical Core Laboratory Practicum I, and includes the analysis of cerebrospinal, synovial and serous fluids. Correlation of clinical laboratory data with the diagnosis and treatment of erythrocyte, leukocyte and bleeding/clotting disorders will be emphasized. Graded on A-F basis only.

Credit Hour: 1-4  
Prerequisites: Clinical Lab Sci (Medical Technology) Program students only

---

**CL_L_S 4418: Clinical Microbiology I**  
This course includes the theory, practical application, and evaluation of immunological components and infection disease serology. The principles and methodologies used in the assessment of immunologically related disorders, including hypersensitivity reactions, autoimmune, Immunoproliferative, immunodeficient disorders and infectious disease are included. The course emphasizes the correlation of clinical laboratory data with the patient's diagnosis and treatment. The theory and application of molecular diagnostic tools, such as polymerase chain reaction (PCR), nucleic acid probes, and microarrays are also addressed. Graded on A-F basis only.

Credit Hour: 1-4  
Prerequisites: Clinical Lab Sci (Medical Technology) Program students only

---

**CL_L_S 4419: Clinical Microbiology II**  
This course builds on the theory, practical application and evaluation of the procedures for isolation, identification and susceptibility testing of infectious disease organisms in humans introduced in CL_L_S 4418 Clinical Microbiology I and CL_L_S 4448 Clinical Microbiology Laboratory Practicum I. This course includes bacteriology, mycology, parasitology, and virology content, and will emphasize the correlation of clinical laboratory data with the patient's diagnosis and treatment. Graded on A-F basis only.

Credit Hour: 1-4  
Prerequisites: Clinical Lab Sci (Medical Technology) Program students only

---

**CL_L_S 4420: Clinical Immunology and Molecular Diagnostics**  
This course includes the theory, practical application, and evaluation of immunological components and infection disease serology. The principles and methodologies used in the assessment of immunologically related disorders, including hypersensitivity reactions, autoimmune, Immunoproliferative, immunodeficient disorders and infectious disease are included. The course emphasizes the correlation of clinical laboratory data with the patient's diagnosis and treatment. The theory and application of molecular diagnostic tools, such as polymerase chain reaction (PCR), nucleic acid probes, and microarrays are also addressed. Graded on A-F basis only.

Credit Hour: 1-4  
Prerequisites: Clinical Lab Sci (Medical Technology) Program students only

---

**CL_L_S 4422: Immunohematology I**  
Introduction to the theory, practical application, technical performance and evaluation of blood bank procedures required for transfusion of blood and blood components and for handling and storage of blood and blood components. May be repeated for credit. Graded on A/F basis only.

Credit Hour: 1-4  
Prerequisites: departmental approval, accepted into the Medical Terminology Program

---

**CL_L_S 4423: Clinical Immunohematology II**  
This course expands on the theory, practical application, and evaluation of immunohematology procedures presented in CL_L_S 4422 Clinical Immunohematology I and CL_L_S 4442 Clinical Immunohematology Laboratory Practicum I. There is an emphasis on the application of immunohematology procedures used for the resolution of complex immunohematology problems. Proper selection of immunohematology procedures that assist in the diagnosis and management of hemolytic conditions will be discussed. Concepts in patient blood management and the adverse effects of transfusion will be presented. Quality management as it applies to transfusion medicine will be addressed. Graded on A-F basis only.

Credit Hours: 2  
Prerequisites: Clinical Lab Sci (Medical Technology) Program students only

---

**CL_L_S 4424: Phlebotomy**  
Theory, practical application, technical performance and evaluation of procedures used in collecting, handling and processing blood specimens. May be repeated for credit. Graded on S/U basis only.

Credit Hour: 1  
Prerequisites: departmental approval, accepted into the Medical Technology Program

---

**CL_L_S 4426: Body Fluid Analysis**  
Theory, practical application, technical performance and evaluation of procedures used in the analysis of urine and other body fluids, including cerebrospinal, synovial, serous, seminal, amniotic and feces. May be repeated for credit. Graded on A-F basis only.

Credit Hour: 1  
Prerequisites: departmental consent, accepted into the Medical Technology Program
CL_L_S 4442: Clinical Immunohematology Laboratory Practicum I
This course provides practical application in a clinical laboratory setting for the technical performance and evaluation of clinical immunohematology procedures and preparation of blood components. Course content will include new skills and procedures, in addition to the skills and procedures presented in CL_L_S 4407 Clinical Laboratory Operations and CL_L_S 4411 Introduction to Clinical Immunohematology. Graded on A-F basis only.

Credit Hour: 1-4
Prerequisites: Restricted to Clinical Laboratory Students only

CL_L_S 4443: Clinical Immunohematology Laboratory Practicum II
This course provides practical application in a clinical laboratory setting for the technical performance and evaluation of clinical immunohematology procedures and preparation of blood components. Course content will include new skills and procedures, in addition to the skills and procedures presented in CL_L_S 4442 Clinical Immunohematology Laboratory Practicum I. Graded on A-F basis only.

Credit Hour: 1-4
Prerequisites: Restricted to Clinical Laboratory Students only

CL_L_S 4444: Clinical Core Laboratory Practicum
This course provides practical application in a clinical laboratory setting for the technical performance and evaluation of clinical hematology/ hemostasis, chemistry and urinalysis procedures. Course content will include new skills and procedures and the application of automation and automatic verification techniques, building on the skills and procedures presented in CL_L_S 4407 Clinical Laboratory Operations, CL_L_S 4408 Introduction to Clinical Hematology and CL_L_S 4410 Introduction to Clinical Chemistry and Urinalysis. Graded on A-F basis only.

Credit Hour: 1-4
Prerequisites: Restricted to Clinical Laboratory Students only

CL_L_S 4445: Clinical Core Laboratory Practicum II
This course provides practical application in a clinical laboratory setting for the technical performance and evaluation of clinical hematology/ hemostasis, chemistry and urinalysis procedures. Course content will include new skills and procedures, in addition to the skills and procedures presented in CL_L_S 4444 Clinical Core Laboratory Practicum. Graded on A-F basis only.

Credit Hour: 1-4
Prerequisites: Restricted to Clinical Laboratory Students only

CL_L_S 4448: Clinical Microbiology Laboratory Practicum I
This course provides practical application in a clinical laboratory setting for the technical performance and evaluation of clinical microbiology procedures. Course content will include new skills and procedures, in addition to the skills and procedures presented in CL_L_S 4407 Clinical Laboratory Operations and CL_L_S 4409 Introduction to Clinical Microbiology. Graded on A-F basis only.

Credit Hour: 1-4
Prerequisites: Restricted to Clinical Laboratory Students only

CL_L_S 4449: Clinical Microbiology Laboratory Practicum II
This course provides practical application in a clinical laboratory setting for the technical performance and evaluation of clinical microbiology procedures. Course content will include new skills and procedures, in addition to the skills and procedures presented in CL_L_S 4448 Clinical Microbiology Laboratory Practicum I. Graded on A-F basis only.

Credit Hour: 1-4
Prerequisites: Restricted to Clinical Laboratory Students only

CL_L_S 4970: Clinical Laboratory Management I
This course introduces the theory, practical application and evaluation of laboratory management principles in healthcare, including safety, research, educational methodology, quality control, ethics, laboratory operations, point-of-care testing, scope of practice, and the job application process. Opportunities for building critical thinking, problem-solving, research, communication, professionalism, management and leadership skills are provided. Graded on A-F basis only. May be repeated for credit.

Credit Hours: 2
Prerequisites: Clinical Lab Sci (Medical Technology) Program students only

CL_L_S 4980: Clinical Lab Management II
Continuation of Clinical Lab Management I. Theory, practical application, and evaluation of laboratory management principles and associated models in compliance and regulatory issues, human resource management, method evaluation, professionalism and laboratory quality. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: CL_L_S 4970 or departmental consent

CL_L_S 4980W: Clinical Lab Management II - Writing Intensive
Continuation of Clinical Lab Management I. Theory, practical application, and evaluation of laboratory management principles and associated models in compliance and regulatory issues, human resource management, method evaluation, professionalism and laboratory quality. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: CL_L_S 4970 or departmental consent

Communication (COMMUN)

COMMUN 1200: Public Speaking
Principles, process of speech communication in small group and public speaking situations.

Credit Hours: 3
COMMUN 1200 - MOTR COMM 110: Fundamentals of Public Speaking

COMMUN 1200H: Public Speaking - Honors
Principles, process of speech communication in small group and public speaking situations.

Credit Hours: 3
Prerequisites: Honors eligibility required

</thead>
<tbody>
<tr>
<td>COMMUN 2100</td>
<td>Media Communication in Society</td>
<td>An introduction to the development and impact of media communications and its technologies on American society. Emphasis on contemporary industry developments, their historical antecedents, as well as contemporary issues related to the influence and impact of media communication on society.</td>
<td>3</td>
<td>freshman, sophomore or junior standing only</td>
</tr>
<tr>
<td>COMMUN 2100H</td>
<td>Media Communication in Society - Honors</td>
<td>An introduction to the development and impact of media communications and its technologies on American society. Emphasis on contemporary industry developments, their historical antecedents, as well as contemporary issues related to the influence and impact of media communication on society.</td>
<td>3</td>
<td>freshman, sophomore or junior standing only. Honors eligibility required</td>
</tr>
<tr>
<td>COMMUN 2200</td>
<td>Video Workshop: Mizzou Network</td>
<td>A hands-on workshop; students will participate in all phases of video production (camera operations, directing, graphics, video replay, and live audio production and digital editing) in a variety of live sports Projects. There is no requirement of previous production experience or course work. Course may be repeated an additional two times for credit. Graded on S/U basis only.</td>
<td>1</td>
<td>restricted to Communication majors</td>
</tr>
<tr>
<td>COMMUN 2315</td>
<td>Basic Audio Production and Performance</td>
<td>Radio speaking in varied types of programs; console operations, tape editing, microphone techniques.</td>
<td>3</td>
<td>sophomore standing. May be restricted to Communication majors only during early registration</td>
</tr>
<tr>
<td>COMMUN 2701</td>
<td>Topics in Communication - General</td>
<td>Topics in Communication - General.</td>
<td>3</td>
<td>may be restricted to Communication majors only during early registration</td>
</tr>
<tr>
<td>COMMUN 2703</td>
<td>Topics in Communication - Behavioral Science</td>
<td>Topics in Communication - Behavioral Science.</td>
<td>3</td>
<td>may be restricted to Communication majors only during early registration</td>
</tr>
<tr>
<td>COMMUN 2705</td>
<td>Topics in Communication - Humanities/Fine Arts</td>
<td>Topics in Communication - Humanities/Fine Arts.</td>
<td>3</td>
<td>may be restricted to Communication majors only during early registration</td>
</tr>
<tr>
<td>COMMUN 3050</td>
<td>Survey of Communication Studies</td>
<td>A survey of four main areas of the field communication, interpersonal, organizational, political, and mass communication.</td>
<td>3</td>
<td>May be restricted to Communications majors through early registration</td>
</tr>
<tr>
<td>COMMUN 3050W</td>
<td>Survey of Communication Studies - Writing Intensive</td>
<td>A survey of four main areas of the field communication, interpersonal, organizational, political, and mass communication.</td>
<td>3</td>
<td>May be restricted to Communications majors through early registration</td>
</tr>
<tr>
<td>COMMUN 3310</td>
<td>Message Design and Writing for the Media</td>
<td>This course introduces students to writing for the media in various contexts including television, film and new media (e.g., websites and social media).</td>
<td>3</td>
<td>COMMUN 2100. May be restricted to Communication majors only during early registration</td>
</tr>
<tr>
<td>COMMUN 3390</td>
<td>Digital Production I</td>
<td>Focus on building familiarity with video cameras, microphones, lighting, editing as well as the fundamentals of visual composition, (framing, camera angles, story boards, and ways to visualize information) and processes and procedures for producing and directing.</td>
<td>3</td>
<td>sophomore standing. May be restricted to Communication majors only during early registration</td>
</tr>
<tr>
<td>COMMUN 3395</td>
<td>Digital Production II</td>
<td>Focus on advanced production work; more elaborate projects including digital shorts, music videos, and short documentaries; advanced editing, storyboards, and emphasis on developing narrative structure.</td>
<td>3</td>
<td>COMMUN 3390 or instructor's consent. May be restricted to Communication majors only during early registration</td>
</tr>
<tr>
<td>COMMUN 3422</td>
<td>Communication Research Methods</td>
<td>Focuses on writing and administering surveys, conducting field research, and designing experimental studies.</td>
<td>3</td>
<td>sophomore standing and COMMUN 1200. May be restricted to Communication majors only during early registration</td>
</tr>
<tr>
<td>COMMUN 3441</td>
<td>Nonverbal Communication</td>
<td>Analysis of form and content of nonverbal communication. Emphasis on role of nonverbal cues in interpersonal communication.</td>
<td>3</td>
<td>sophomore standing and COMMUN 1200. May be restricted to Communication majors only during early registration</td>
</tr>
</tbody>
</table>
COMMUN 3460: Organizational Advocacy
Theory and analysis of communication to promote organizational culture and image.

Credit Hours: 3
Prerequisites: sophomore standing. May be restricted to Communication majors during early registration

COMMUN 3470: Culture as Communication
(same as ANTHRO 3470, LINGST 3470). Study of the influence of culture on communication processes. Examines topics such as the impact of values, languages, and nonverbal behavior on intercultural interaction.

Credit Hours: 3
Prerequisites: sophomore standing. May be restricted to Communication majors only during early registration

COMMUN 3490: Media Effects
Survey of the topics, research, and theories in the study of media effects.

Credit Hours: 3
Prerequisites: sophomore standing. May be restricted to Communication majors only during early registration

COMMUN 3525: Conflict and Communication
Theory and analysis of communication in conflict situations across a variety of contexts.

Credit Hours: 3
Prerequisites: sophomore standing required. May be restricted to Communication majors only during early registration

COMMUN 3551: Relational Communication
Analysis of communication influences on relational identities and development.

Credit Hours: 3
Prerequisites: sophomore standing and COMMUN 1200. May be restricted to Communication majors only during early registration

COMMUN 3570: Performance of Literature
(same as ENGLISH 3570 and THEATR 3200). Analysis and oral interpretation of literary works. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: sophomore standing

COMMUN 3571: Group Decision Making Processes
(same as PEA_ST 3521). Procedures and techniques for interpersonal communication and decision making in small groups.

Credit Hours: 3
Prerequisites: sophomore standing. May be restricted to Communication majors only during early registration

COMMUN 3572: Argument and Advocacy
Critical analysis and production of argument emphasizing evidence, reasoning, and refutation.

Credit Hours: 3
Prerequisites: COMMUN 1200. May be restricted to Communication majors only during early registration

COMMUN 3575: Business and Professional Communication
Principles and practice of speech communication in business and professional settings. Emphasis on interviews, group conferences and personal presentations.

Credit Hours: 3
Prerequisites: sophomore standing and COMMUN 1200. May be restricted to Communication majors only during early registration

COMMUN 3580: Crisis Communication
The theory and practice of corporate and political communication responses to crisis situations.

Credit Hours: 3
Prerequisites: sophomore standing. May be restricted to Communication majors only during early registration

COMMUN 3636: Contemporary Issues in Mass Communication
Introduction to current issues and trends and relationship among the new technologies, policies, and potential impact on society.

Credit Hours: 3
Prerequisites: sophomore standing

COMMUN 3701: Topics in Communication-General
Organized study of selected topics. Subjects and earnable credit may vary from semester to semester. Departmental consent required for repetition.

Credit Hours: 3
Prerequisites: COMMUN 1200 and COMMUN 2100. May be restricted to Communication majors only during early registration

COMMUN 3703: Topics in Communication-Behavioral Sciences
Organized study of selected topics. Subjects and earnable credit may vary from semester to semester. Departmental consent required for repetition.

Credit Hour: 1-99
Prerequisites: junior standing and instructor's consent. May be restricted to Communication majors only during early registration

COMMUN 3705: Topics in Communication-Humanities
Organized study of selected topics. Subjects and earnable credit may vary from semester to semester. Departmental consent required for repetition.

Credit Hour: 1-99
Prerequisites: junior standing and instructor's consent. May be restricted to Communications majors only during early registration

COMMUN 4395: Professional Seminar in Television Production
Application of principles to advanced television production, direction.

Credit Hours: 3
Prerequisites: COMMUN 3390 and instructor's consent. May be restricted to Communication majors only during early registration
COMMUN 4412: Gender, Language, and Communication
(same as LINGST 4412, ANTHRO 4412; cross-leveled with COMMUN 7412, LINGST 7412, ANTHRO 7412). Relationship among gender, language, nonverbal communication, and culture.
Credit Hours: 3
Prerequisites: junior standing or departmental consent. May be restricted to Communication majors only during early registration

COMMUN 4440: Ethical Issues in Communication
(same as PEA_ST 4440; cross-leveled with COMMUN 7440). Exploration and analysis of ethical dimensions intrinsic to human communication.
Credit Hours: 3
Prerequisites: junior standing or departmental consent. May be restricted to Communication majors only during early registration

COMMUN 4473: Political Communication
(cross-leveled with COMMUN 7473). Study of role and impact of communication in political campaigns; historical and contemporary study of influence by communication; case studies and practicum.
Credit Hours: 3
Prerequisites: junior standing or departmental consent. May be restricted to Communication majors only during early registration

COMMUN 4474: Theory and Research in Persuasion
(cross-leveled with COMMUN 7474). Studies the persuasive process, attitude formation, modification.
Credit Hours: 3
Prerequisites: junior standing and COMMUN 1200. May be restricted to Communication majors only during early registration

COMMUN 4476: Organizational Communication
(cross-leveled with COMMUN 7476). Theories of communication systems and processes in organizational structures; study of communication behavior in formal and informal organizational settings.
Credit Hours: 3
Prerequisites: junior standing and COMMUN 1200. May be restricted to Communication majors only during early registration

COMMUN 4520: Family Communication
(same as H_D_FS 4680; cross-leveled with COMMUN 7520, H_D_FS 7680). Analysis of the functions and processes of communication within families.
Credit Hours: 3
Prerequisites: junior standing or departmental consent. May be restricted to Communication majors only during early registration

COMMUN 4530: Health Communication
A general overview of the impact of communication on health, including doctor/patient communication and health campaigns. Graded on A-F basis only.
Credit Hours: 3

COMMUN 4628: Children, Adolescents and the Media
Focus on social scientific research concerning the mass media and social media in the lives of children and adolescents. The course centers on media effects literature and controversies relevant to child and adolescent media users. Course involves readings, lectures, discussions of theories, concepts, methods, and findings. We will also consider social implication and personal choices in media use. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: junior standing required

COMMUN 4638: New Technologies and Communication
Explores the social implications of new technologies designed for communication. Assumes basic computer knowledge.
Credit Hours: 3
Prerequisites: junior standing or instructor's consent. May be restricted to Communication Majors only during early registration

COMMUN 4701: Topics in Communication-General
Organized study of selected topics. Subjects and earnable credit may vary from semester to semester. Departmental consent required for repetition.
Credit Hour: 1-99
Prerequisites: junior standing and instructor's consent. May be restricted to Communication majors only during early registration

COMMUN 4705: Topics in Communication-Humanities
Organized study of selected topics. Subjects and earnable credit may vary from semester to semester. Departmental consent for repetition.
Credit Hour: 1-99
Prerequisites: junior standing and instructor's consent. May be restricted to Communication majors only during early registration

COMMUN 4940: Internship
Directed professional experience within and outside the University in communication-related fields or organizations. Graded on S/U basis only.
Credit Hours: 1-99
Prerequisites: Admission to department, junior standing, instructor's consent, 2.5 GPA

COMMUN 4950: Research Project
Student contributes to a research project with approved goals and a final written report. As part of the project, student will read articles in the communication research literature. Project can be independent or in conjunction with a faculty research project. Course may be repeated once for credit. Graded on A-F basis only
Credit Hour: 1-3
Prerequisites: COMMUN 3050; junior standing and instructor's consent. Approval by a faculty member who will serve as project supervisor

COMMUN 4960: Directed Reading
Independent reading, reports.
Credit Hour: 1-99
Prerequisites: junior standing or instructor's consent
COMMUN 4970: Communication Practicum
Special applied instruction in an advanced area of communication or media. Graded on S/U basis only.
Credit Hour: 1-3
Prerequisites: COMMUN 1200, COMMUN 3050, Communication major with junior standing and GPA of 2.5

COMMUN 4974: Senior Project
Integration and adaptation of communication theories to an applied communication problem. Required for all majors.
Credit Hours: 3
Prerequisites: admission to department, senior standing, and departmental consent

COMMUN 4975: Visual Literacy
Integration of theory and practice. The theoretical component of the class is grounded in the study of visual literacy and the practice component will focus on documentary filmmaking. May not be taken by graduate students. It is a capstone course for undergraduate students only.
Credit Hours: 3
Prerequisites: COMMUN 3390, senior standing; Admission to the department

COMMUN 7412: Gender, Language, and Communication
(same as LINGST 7412, ANTHRO 7412; cross-leveled with COMMUN 4412, LINGST 4412, ANTHRO 4412). Relationship among gender, language, nonverbal communication, and culture.
Credit Hours: 3

COMMUN 7473: Political Communication
(cross-leveled with COMMUN 4473). Study of role and impact of communication in political campaigns; historical and contemporary study of influence by communication; case studies and practicum.
Credit Hours: 3
Prerequisites: graduate standing or departmental consent

COMMUN 7530: Health Communication
A general overview of the impact of communication on health, including doctor/patient communication and health campaigns. Graded on A-F basis only.
Credit Hours: 3

COMMUN 7638: New Technologies and Communication
Explores the social implications of new technologies designed for communication. Assumes basic computer knowledge.
Credit Hours: 3

COMMUN 8001: Topics in Communication-General
Study of selected topics in communication. Topic and credit may vary semester to semester. Repeatable upon consent of department.
Credit Hours: 3
Prerequisites: instructor's consent

COMMUN 8085: Problems
Individual study not leading to thesis or dissertation.
Credit Hour: 1-99
Prerequisites: instructor's consent

COMMUN 8090: Master's Thesis Research in Communication
Research leading to thesis. Graded on a S/U basis only.
Credit Hour: 1-99
Prerequisites: instructor's consent

COMMUN 8110: Introduction to Graduate Study in Communication
Orientation to the field. Introduction to research methods. Production of research proposal. Emphasizes scholarly style of writing.
Credit Hours: 3

COMMUN 8120: Seminar in Quantitative Methods in Communication
Quantitative methods of communication research.
Credit Hours: 3

COMMUN 8130: Topics in Qualitative Research Methods
Examination of assumptions and techniques of qualitative methods adopting an interpretive framework for analyzing communication phenomena. May be repeated for credit.
Credit Hours: 3

COMMUN 8140: Content Analysis
Introduction to content analysis as a method. Students will learn about issues of sampling, codebook construction, intercoder reliability, validity, and analysis of content analytic data, including computer assisted content analysis.
Credit Hours: 3

COMMUN 8160: Rhetorical Criticism
Principles, practice criticism (description, analysis, evaluation) of rhetorical artifacts.
Credit Hours: 3

COMMUN 8170: Seminar in Quantitative Methods in Communication II
The focus of this course will be the study and practice of various multivariate statistical methods commonly used in communication research. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: COMMUN 8120; instructor's consent required

COMMUN 8310: Seminar in Interpersonal Communication
Examines theory and research concerning face-to-face dyadic interactions. Emphasis on context of interpersonal communication events and processes of interactional management.
Credit Hours: 3
COMMUN 8410: Seminar in Organizational Communication Theory
Exploration of the theoretical foundations of interpersonal communication in the organization, groups and team development, leadership, organizational decision making, motivation and power, bureaucracy, new information technologies, organizational effectiveness and the change process.
Credit Hours: 3

COMMUN 8510: Seminar in Mediated Communication Theory
This course will offer graduate students a broad overview of extant theories employed in the study of mediated communication. The class will be a survey of theory from foundation to modern conceptions of the study of mediated communication, from mass communication to interactive media contexts.
Credit Hours: 3

COMMUN 8610: Survey of Political Communication
Survey of theory and research on political communication; emphasis on messages and audience responses to messages.
Credit Hours: 3

COMMUN 9050: Research
Completes comprehensive exams and writes a literature review.
Credit Hour: 1-9

COMMUN 9090: Doctoral Dissertation Research in Communication
Research leading to dissertation. Graded on a S/U basis only.
Credit Hour: 1-99
Prerequisites: instructor's consent

COMMUN 9170: Research Practicum
Student conducts research under close supervision of faculty mentor. Goal: produce research report suitable for submission as convention paper, article, or book chapter. May be repeated once for credit.
Credit Hours: 3
Prerequisites: consent of mentor required; for advanced graduate students

COMMUN 9280: Seminar in Communication Theory
Examines the nature of theory, the assumptions underlying theoretical approaches to communication, and surveys themes in contemporary communication theories.
Credit Hours: 3

COMMUN 9310: Seminar in Family Communication
Examines research and theory of family communication; focus on family communication patterns and processes, emphasis on key conceptual, methodological and theoretical aspects of family communication scholarship and research on family forms, processes and outcomes. Graded on A-F basis only.
Credit Hours: 3

COMMUN 9330: Topics in Interpersonal and Family Communication
The course will review theory and research on topics related to the study of family communication and/or interpersonal communication. Subjects will rotate and include areas such as relational conflict, gender communication, narrative theory, family diversity, or intercultural communication.
Credit Hours: 3
Prerequisites: instructor's consent

COMMUN 9430: Topics in Organizational Communication
Examination of theory and research in selected areas of organizational communication. Topics vary by semester. Topics may include socialization, power, gender, emotions, and others. May be repeated for credit.
Credit Hours: 3

COMMUN 9460: Topics in Political Communication
Examination of theory and research in selected areas of political communication. Topics vary by semester. Topics may include political polarization, political socialization, politics and the media, political advertising, politics and new media.
Credit Hours: 3

COMMUN 9520: Seminar in Media Processes and Effects
Explores current research in the processes and effects of mediated communication. Readings pertain to the current social and psychological effects of media on users.
Credit Hours: 3

COMMUN 9530: Topics in Mediated Communication
Examination of theory and research in selected areas of mediated communication. Topics vary by semester. Topics include mass media and social relationships, digital media, social identity and media, health and media, and media diversity. May be repeated two times for credit.
Credit Hours: 3

COMMUN 9560: Seminar in Disaster, Crisis, and Risk
This course examines several lines of research from multiple disciplines that influence communication during disasters, crises, and emergencies. Topics may include federal government paradigms for disaster communication, crisis communication perspectives, risk perception, resilience, social media and emerging technologies in disasters, and media coverage of disasters.
Credit Hours: 3

COMMUN 9610: Seminar in Disaster, Crisis, and Risk
Theory and research on political campaign debates applied to analyses of candidate debates. Focus on primary and general presidential debates.
Credit Hours: 3

COMMUN 9620: Research Practicum
Student conducts research under close supervision of faculty mentor. Goal: produce research report suitable for submission as convention paper, article, or book chapter. May be repeated once for credit.
Credit Hours: 3

COMMUN 9630: Seminar in Communication Theory
Examines the nature of theory, the assumptions underlying theoretical approaches to communication, and surveys themes in contemporary communication theories.
Credit Hours: 3

COMMUN 9640: Seminar in Family Communication
Examines research and theory of family communication; focus on family communication patterns and processes, emphasis on key conceptual, methodological and theoretical aspects of family communication scholarship and research on family forms, processes and outcomes. Graded on A-F basis only.
Credit Hours: 3

<tbody>
<tr>
<td>COMMUN 9630: Political Advertising</td>
<td>Theory and research on political advertising applied to analyses of candidate advertisements. Focus on primary and general presidential television spots and web pages.</td>
<td></td>
<td>3</td>
<td></td>
</tr>
<tr>
<td>C_S_D 1060: Human Language</td>
<td>(same as ANTHRO 1060, LINGST 1060 and ENGLSH 1060). General introduction to various aspects of linguistic study. Elementary analysis of language data with some attention to application of linguistic study to other disciplines.</td>
<td></td>
<td>3</td>
<td></td>
</tr>
<tr>
<td>C_S_D 1100: American Sign Language I</td>
<td>Introduction to American Sign Language (ASL). Development of basic expressive and receptive skills in ASL, the manual alphabet, numbers, and signed vocabulary. Includes an overview of ASL syntax and grammar. Course graded on A-F basis only.</td>
<td></td>
<td>5</td>
<td></td>
</tr>
<tr>
<td>C_S_D 1200: American Sign Language II</td>
<td>This course is designed to increase students' understanding of American Sign Language. Students will increase their sign vocabulary, expressive and receptive skills, an understanding of ASL syntax and grammar. Graded on A-F basis only.</td>
<td></td>
<td>5</td>
<td>Prerequisites: C_S_D 1100 or equivalent</td>
</tr>
<tr>
<td>C_S_D 2120: Survey of Communication Disorders</td>
<td>Systematic survey of the disorders of speech, language and hearing.</td>
<td></td>
<td>3</td>
<td></td>
</tr>
<tr>
<td>C_S_D 2150: American Sign Language III</td>
<td>This course expands on vocabulary and signing skills developed in ASL II. Includes review of ASL grammar and extensive discussions of ASL linguistic structure and Deaf culture. Class is conducted entirely in ASL. Course graded on A-F basis only.</td>
<td></td>
<td>3</td>
<td>Prerequisites: C_S_D 1200 with minimum grade of C or instructor’s consent</td>
</tr>
<tr>
<td>C_S_D 3010: American Phonetics</td>
<td>(same as LINGST 3010). Analysis of production and acoustics of the sounds of speech with an emphasis on American English; practice in broad and narrow transcription using the International Phonetic Alphabet.</td>
<td></td>
<td>3</td>
<td>Prerequisites: Restricted to Communication Science and Disorders majors only</td>
</tr>
<tr>
<td>C_S_D 3020: Normal Language Development</td>
<td>Language development in children and changes in language processing during normal aging. Cognition and language; language learning processes; language sample analysis; relationship between spoken and written language.</td>
<td></td>
<td>3</td>
<td>Prerequisites: Communication Science and Disorders majors only</td>
</tr>
<tr>
<td>C_S_D 3020W: Normal Language Development - Writing Intensive</td>
<td>Language development in children and changes in language processing during normal aging. Cognition and language; language learning processes; language sample analysis; relationship between spoken and written language.</td>
<td></td>
<td>3</td>
<td>Prerequisites: Communication Science and Disorders majors only</td>
</tr>
<tr>
<td>C_S_D 3050: Signed English and Its Clinical Applications</td>
<td>This course covers research, theory, and methods of using sign language to assist the communication of the Deaf, individuals with disabilities, and hearing learners. Use of sign language to improve literacy and classroom management also will be targeted. No prior experience with any sign language and/or sign system is required. Development of a basic vocabulary in Signed English will be included in this course.</td>
<td></td>
<td>3</td>
<td></td>
</tr>
<tr>
<td>C_S_D 3210: Anatomy and Physiology of the Speech Mechanism</td>
<td>(same as LINGST 3210). Introduction to anatomical and functional aspects of the speech mechanism.</td>
<td></td>
<td>3</td>
<td></td>
</tr>
<tr>
<td>C_S_D 3220: Speech Acoustics</td>
<td>(same as LINGST 3220). An introduction to the acoustic aspects of speech as they relate to the respiratory, phonatory, resonatory, and articulatory systems.</td>
<td></td>
<td>2</td>
<td>Prerequisites: Communication Science and Disorders majors only or instructor’s consent</td>
</tr>
<tr>
<td>C_S_D 3230: Hearing Science</td>
<td>Introduction to the nature of sound and its measurement; anatomy and physiology of the auditory and vestibular systems; psychoacoustic methods and phenomena.</td>
<td></td>
<td>3</td>
<td>Prerequisites: Restricted to Communication Science and Disorders majors only</td>
</tr>
<tr>
<td>C_S_D 4001: Topics in Communication Science and Disorders</td>
<td>Organized study of selected topics. Subjects and earnable credit may vary from semester to semester. May be repeated with program consent.</td>
<td></td>
<td>1-99</td>
<td>Prerequisites: junior standing and instructor's consent</td>
</tr>
</tbody>
</table>
C_S_D 4020: Language Disorders in Children
Overview of language disorders from early childhood through adolescence. Includes language disorders as primary disability and as secondary to other disabilities. Introduction to assessment and intervention.

Credit Hours: 3
Prerequisites: Communication Science and Disorders majors only

C_S_D 4020W: Language Disorders in Children - Writing Intensive
Overview of language disorders from early childhood through adolescence. Includes language disorders as primary disability and as secondary to other disabilities. Introduction to assessment and intervention.

Credit Hours: 3
Prerequisites: Communication Science and Disorder majors only

C_S_D 4030: Language Disorders of Adults
Introduction to acquired adult language disorders. Review of neuroanatomy/physiology, etiology and symptomatology, with introduction to assessment and treatment procedures.

Credit Hours: 2
Prerequisites: Communication Science and Disorders majors only

C_S_D 4210: Fluency Disorders

Credit Hours: 2
Prerequisites: Communication Science and Disorders majors only

C_S_D 4220: Voice Disorders
Introduction to voice disorders in children and adults. Includes overview of perceptual and instrumental assessment procedures and selected treatment approaches.

Credit Hour: 1
Prerequisites: Communication Science and Disorders majors only

C_S_D 4320: Disorders of Phonology and Articulation
Overview of disorders of use and production of speech sounds with an emphasis on developmental disorders. Introduction to assessment and treatment.

Credit Hours: 3
Prerequisites: Communication Science and Disorders majors only

C_S_D 4330: Introduction to Audiology
Principles and techniques of audiological testing; etiologies of hearing impairment; current technologies in rehabilitation.

Credit Hours: 3
Prerequisites: C_S_D 3230; Communication Science and Disorders majors only or instructor's consent

C_S_D 4340: Aural Rehabilitation
(cross-leveled with C_S_D 7340). Identification, evaluation, and management of problems associated with hearing impairment in both children and adults. Includes issues related to speech/language development, communication, education, and social factors.

Credit Hours: 3
Prerequisites: Communication Science and Disorders majors only

C_S_D 4340W: Aural Rehabilitation-Writing Intensive
(cross-leveled with C_S_D 7340). Identification, evaluation, and management of problems associated with hearing impairment in both children and adults. Includes issues related to speech/language development, communication, education, and social factors.

Credit Hours: 3
Prerequisites: Communication Science and Disorders majors only

C_S_D 4430: Neurophysiology for Speech, Language, and Hearing
(cross-leveled with C_S_D 7430). Principles of basic neurophysiology, emphasizing correlation of structure and function of the nervous system.

Credit Hours: 3
Prerequisites: Communications Science and Disorders majors only

C_S_D 4830: Individual Differences in Language Processing
(cross-leveled with C_S_D 7830). Examination of the normal variations exhibited across individuals in the acquisition, use, and representation of language. Also considered are individual differences seen in second language learning, the aging process, and language disorders.

Credit Hours: 2
Prerequisites: instructor's consent

C_S_D 4900: Clinical Observation in Communication Disorders
Directed clinical observations designed to prepare the student for clinical practicum. Required for professional certification. Graded on a S/U basis only.

Credit Hours: 2
Prerequisites: Communication Science and Disorders majors only

C_S_D 4945: Clinical Apprenticeship in Communication Disorders
Supervised observation and clinical experience in speech-language pathology or audiology for undergraduates.

Credit Hour: 1-3
Prerequisites: senior standing and departmental consent. Communication Science and Disorders majors only

C_S_D 4950: Research Apprenticeship
Research apprenticeship with a faculty member, assisting in the development and execution of research in communication processes and disorders. May be repeated to 9 hrs. maximum.

Credit Hour: 1-9
Prerequisites: instructor's consent

C_S_D 4960: Directed Reading in Communication Science and Disorders
Independent reading; reports.

Credit Hour: 1-3
Prerequisites: instructor's consent
C_S_D 4990: Honors Thesis
Individual honors thesis on a topic selected with a faculty advisor. Requires planning, conducting, and writing up a research project under the guidance of a faculty member. Successful completion of thesis and maintenance of 3.3 GPA, leads to degree with departmental honors. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: Senior standing; 3.3 GPA; 3.5 GPA in Communication Science and Disorders courses; instructor's consent. Restricted to Communication Science and Disorders students only

C_S_D 7001: Topics in Communication Science and Disorders
Study of selected topics in speech pathology/audiology. Topic and credit may vary from semester to semester. May be repeated for credit with instructor and departmental consent.

Credit Hour: 1-99
Prerequisites: instructor's consent

C_S_D 7085: Problems in Communication Science and Disorders
Individual study not leading to thesis or dissertation.

Credit Hour: 1-99
Prerequisites: instructor's consent

C_S_D 7340: Aural Rehabilitation
(cross-leveled with C_S_D 4340). Identification, evaluation, and management of problems associated with hearing impairment in both children and adults. Includes issues related to speech/language development, communication, education, and social factors.

Credit Hours: 3
Prerequisites: Communication Science and Disorders majors only

C_S_D 7430: Neurophysiology for Speech, Language, and Hearing
(cross-leveled with C_S_D 4430). Principles of basic neurophysiology, emphasizing correlation of structure and function of the nervous system.

Credit Hours: 3
Prerequisites: Communication Science and Disorders majors or instructor's consent

C_S_D 7840: Language and Development in Infancy
(cross-leveled with C_S_D 4840). Overview of theory and research on the foundations and development of language in infancy (0 to 2 years), with an emphasis on relevant, interrelated areas of development, individual differences, early recognition of delay, and assessment.

Credit Hours: 3

C_S_D 8001: Topics in Communication Science and Disorders
Study of selected topics in speech pathology/audiology. Topic and credit may vary from semester to semester. May be repeated for credit with instructor and departmental consent.

Credit Hour: 1-99
Prerequisites: instructor's consent, instructor's

C_S_D 8020: Developmental Language Disorders

Credit Hours: 3
Prerequisites: Communication Science and Disorders students only

C_S_D 8030: Acquired Language Disorders
Etiology, symptomatology, assessment and rehabilitation of acquired neurogenic communication disorders in aphasia, traumatic brain injury, and dementia.

Credit Hours: 3
Prerequisites: Communication Science and Disorders students only

C_S_D 8050: Research in Communication Science and Disorders
Independent research leading to a report but not to a thesis or dissertation.

Credit Hour: 1-99
Prerequisites: instructor's consent

C_S_D 8085: Problems in Communication Science and Disorders
Individual study not leading to thesis or dissertation.

Credit Hour: 1-99
Prerequisites: instructor's consent

C_S_D 8090: Research in Communication Science and Disorders
Research leading to thesis or dissertation.

Credit Hour: 1-99
Prerequisites: instructor's consent. Graded on a S/U basis only

C_S_D 8200: Motor Speech Disorders
Etiology, symptomatology, epidemiology, and prognosis of motor speech disorders resulting from acquired neurological damage. Emphasis on clinical assessment and rehabilitation procedures. Graded on A-F basis only.

Credit Hours: 2
Prerequisites: Communication Science and Disorders students only

C_S_D 8210: Disorders of Fluency
Identification and remediation of fluency disorders in children and adults.

Credit Hours: 3
Prerequisites: Communication Science and Disorders students only

C_S_D 8225: Voice Science and Voice Disorders
Diagnosis and management of communicative disorders resulting from pathologies or misuse of the phonatory system. Includes experience with pertinent laboratory instrumentation. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: restricted to MHS CSD students; or with instructor's consent

C_S_D 8230: Dysphagia
Etiology, symptomatology, and epidemiology of acquired and developmental swallowing disorders (dysphagia). Emphasis on
instrumental and non-instrumental methods for assessing and treating dysphagia.

Credit Hours: 3
Prerequisites: Communication Science and Disorders students only

C_S_D 8240: Orofacial Anomalies

Credit Hour: 1
Prerequisites: Communication Science and Disorders students only

C_S_D 8250: Clinical Methods in Speech-Language Pathology
An introduction to clinical procedures and evidence-based intervention methods relating to speech and language disorders. Topics include session design, data collection, measurement of progress, reporting of clinical results, and various treatment options. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: Communication Science and Disorders students only

C_S_D 8260: Diagnosis in Speech-Language Pathology
General principles of diagnosis; specific diagnostic tools and procedures for various speech and language disorders.

Credit Hours: 3
Prerequisites: Communication Science and Disorders students only

C_S_D 8320: Speech Sound Disorders
Principles of clinical assessment and treatment for speech sound disorders in children. Includes foundations in research on early speech sound acquisition, organic and developmental disorders, and treatment efficacy. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: Communication Science and Disorders students only

C_S_D 8420: Reading and Language Disabilities in School-Age Children
Theories, research, and practice in reading development and disorders. Assessment and remediation of reading disabilities related to language disorders of various etiologies including developmental language disorders and head injury.

Credit Hours: 2
Prerequisites: C_S_D 4020 or C_S_D 8020

C_S_D 8430: Augmentative and Alternative Communication
Students will learn the principles of AAC assessment, methods of intervention, and types of technology available for individuals unable to communicate fully through speech. Graded on A-F basis only.

Credit Hours: 2
Prerequisites: Communication Science and Disorders students only

C_S_D 8500: Issues in Professional Practice
Organizational, inter-professional, economic, legal, and ethical aspects of delivering speech, language, and hearing services. Graded on A/F basis only.

Credit Hours: 2

Prerequisites: Communication Science and Disorders students only

C_S_D 8600: Clinical Language Analysis
This course provides a theoretical framework for understanding the morphology, semantics, syntax, and pragmatics of English as well as practice in the analysis of typical and atypical language samples. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: Communication Science and Disorders students only

C_S_D 8935: Clinical Practice in Audiology
Supervised practice in hearing screening, hearing conservation, and aural re/habilitation. May be repeated for credit. Graded on S/U basis only.

Credit Hour: 1

C_S_D 8945: Clinical Practice in Speech-Language Pathology
Supervised clinical practice in speech pathology for graduate students. May be repeated for credit.

Credit Hour: 1-10
Prerequisites: Communication Science and Disorders students only

C_S_D 8960: Directed Reading in Communication Science and Disorders
Independent reading; reports.

Credit Hour: 1-3
Prerequisites: Instructor's consent

C_S_D 9050: Research in Communication Science and Disorders
Independent research leading to a report but not to a thesis or dissertation.

Credit Hour: 1-99
Prerequisites: Instructor's consent

C_S_D 9090: Research in Communication Science and Disorders
Research leading to thesis or dissertation. Graded on a S/U basis only.

Credit Hour: 1-99
Prerequisites: Instructor's consent

Computer Science (CMP_SC)

CMP_SC 1000: Introduction to Computer Science
This course introduces the Computer Science field, including the history of computers, career opportunities, and ethical/social issues. There will be lectures given by MU Computer Science faculty to discuss exciting fields as well as career advisement given by Computer Science industry representatives. Prerequisites: Restricted to freshman/sophomore students who are BS Computer Science, BS Information Technology and Undeclared Engineering or Pre-Engineering may enroll in the class without permission

Credit Hour: 1
**CMP_SC 1001: Topics in Computer Science**
Topic and credit may vary from semester to semester. May be repeated upon consent of department.

Credit Hour: 1-99

---

**CMP_SC 1050: Algorithm Design and Programming I**
This course provides experience in developing algorithms, designing, implementing programs. Topics include syntax/semantics, flow control, loops, recursion, I/O, arrays, strings and pointers.

Credit Hours: 4
Prerequisites: C- or higher in MATH 1100 or MATH 1160 or MATH 1500. May be restricted to Engineering majors only

---

**CMP_SC 2001: Topics in Computer Science**
Topic and credit may vary from semester to semester. May be repeated upon consent of department.

Credit Hour: 1-99
Prerequisites: departmental consent

---

**CMP_SC 1050: Algorithm Design and Programming II**
A study of fundamental techniques and algorithms for representing and manipulating data structures. Topics include data abstraction, recursion, stacks, queues, linked lists, trees, efficient methods of sorting and searching, and Big-O analysis.

Credit Hours: 4
Prerequisites: C- or higher in CMP_SC 1050. May be restricted to Engineering majors only

---

**CMP_SC 2111: Production Languages**
The study of the syntax, semantics, and applications of one programming language suitable for large scale scientific or commercial projects, such as FORTRAN, COBOL, PL/1, C, or ADA. May be taken more than once for credit.

Credit Hour: 1-3
Prerequisites: C- or higher in CMP_SC 2050

---

**CMP_SC 2270: Introduction to Logic Systems**
(same as ECE 2210). Basic tools, methods and procedures to design combinational and sequential digital circuits and systems, including number systems, boolean algebra, logic minimization, circuit design, memory elements, and finite state machine design.

Credit Hours: 3
Prerequisites: C or higher in CMP_SC 1050

---

**CMP_SC 2830: Introduction to the Internet, WWW and Multimedia Systems**
(same as INFOTC 2830). This course will attempt to provide a comprehensive understanding of the evolution, the technologies, and the tools of the Internet. In particular, issues pertaining to the World Wide Web and Multimedia (HTML, CGI, Web based applications) will be discussed in detail.

Credit Hours: 3
Prerequisites: C- or higher in CMP_SC 2050

---

**CMP_SC 3050: Advanced Algorithm Design**
This class surveys fundamental algorithms and data structures that have wide practical applicability, including search trees and graph algorithms. Emphasis is placed on techniques for efficient implementation and good software development methodologies.

Credit Hours: 3
Prerequisites: CMP_SC 2050 with a C or higher

---

**CMP_SC 3280: Computer Organization and Assembly Language**
(same as ECE 3280). Introduces computer architectures, programming concepts including parameter passing, I/O, interrupt handling, DMA, memory systems, cache, and virtual memory. Graded of A-F basis only.

Credit Hours: 3
Prerequisites: C or higher in CMP_SC 2270 or ECE 2210 or ECE 1210

---

**CMP_SC 3330: Object Oriented Programming**
This course focuses on object-oriented programming concepts: abstraction, polymorphism, encapsulation, inheritance, interfaces, abstract classes, files, streams, and object serialization. Topics such as GUI and event-driven programming are also tackled.

Credit Hours: 3
Prerequisites: CMP_SC 2050 with a C or higher grade

---

**CMP_SC 3380: Database Applications and Information Systems**
Covers fundamental topics of database management systems (DBMS) and database-enabled applications. Topics include a brief history of secondary storage and databases, data modeling, introductory SQL, an overview of current database trends, and current popular database systems. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: C- or higher in CMP_SC 2270 or ECE 2210 or ECE 1210

---

**CMP_SC 3530: UNIX Operating System**
Introduction to the UNIX operating system and its interfaces including the file system, shell, editors, pipes and filters, input/output system, shell programming, program development including C, and document preparation.

Credit Hours: 3
Prerequisites: C- or higher in CMP_SC 2050

---

**CMP_SC 3940: Internship in Computer Science**
Computer-related experience in business or industry jointly supervised by faculty and computer professionals. Students should apply one semester in advance.

Credit Hours: 3
Prerequisites: C- or higher in CMP_SC 2050
Programming projects will be completed using C and C++ APIs and then developed for various scientific data processing problems. Parallel algorithms will be investigated, selected, and developed for modern multi-node systems; and general purpose multiprocessor workstations; parallel and distributed programming multi-process and multi-threaded techniques for modern multicore, reinforce lecture topics, programming projects will be completed using distributed programming; and general purpose GPU programming. To cover topics such as: multi-process and multi-threaded programming; and parallel programming techniques for those architectures. We will treat the evolution high performance computing architectures (cross-leveled with CMP_SC 7080). This course will provide in-depth treatment of the evolution high performance computing architectures and parallel programming techniques for those architectures. We will cover topics such as: multi-process and multi-threaded programming; multi-node system architectures (clusters, grids, and clouds) and distributed programming; and general purpose GPU programming. To reinforce lecture topics, programming projects will be completed using multi-process and multi-threaded techniques for modern multicore, multiprocessor workstations; parallel and distributed programming techniques for modern multi-node systems; and general purpose GPU programming. Parallel algorithms will be investigated, selected, and then developed for various scientific data processing problems. Programming projects will be completed using C and C++ APIs and language extensions, e.g. threads (pthreads, Boost/C++), TBB, CILK, OpenMP, OpenMPI, CUDA and OpenCL.

Credit Hours: 3
Prerequisites: C- or higher in CMP_SC 3280 or ECE 3210 and C- or higher in CMP_SC 3050 or ECE 3220

CMP_SC 4085: Problems in Computer Science
Independent investigation or project in Computer Science. May be repeated up to 6 hours.
Credit Hour: 1-6
Prerequisites: senior standing in Computer Science

CMP_SC 4270: Computer Organization
(same as ECE 4270; cross-leveled with CMP_SC 7270, ECE 7270). Advanced computer architectures and programming; memory, memory management and cache organizations, parallel processing, graphical processor units for general programming.
Credit Hours: 3
Prerequisites: C or higher in CMP_SC 2050 and CMP_SC 3280 or ECE 3280

CMP_SC 4280: Network Systems Architecture
(same as ECE 4280; cross-leveled with CMP_SC 7280, ECE 7280). The course covers network systems (interconnects and switch fabrics, network considerations) and relevant networking applications at the network, transport and application layer.
Credit Hours: 4
Prerequisites: C- or higher in CMP_SC 2050 or ECE 3220 and C- or higher in CMP_SC 3280 or ECE 3210

CMP_SC 4320: Software Engineering I
(cross-leveled with CMP_SC 7320). Overview of software life cycle, including topics in systems analysis and requirements specification, design, implementation testing and maintenance. Uses modeling techniques, project management, peer review, quality assurance, and system acquisition.
Credit Hours: 3
Prerequisites: C- or higher in CMP_SC 3380

CMP_SC 4320W: Software Engineering I - Writing Intensive
(cross-leveled with CMP_SC 7320). Overview of software life cycle, including topics in systems analysis and requirements specification, design, implementation testing and maintenance. Uses modeling techniques, project management, peer review, quality assurance, and system acquisition.
Credit Hours: 3
Prerequisites: CMP_SC 3380

CMP_SC 4330: Object Oriented Design I
(cross-leveled with CMP_SC 7330). Building on a prior knowledge of program design and data structures, this course covers object-oriented design, including classes, objects, inheritance, polymorphism, and information hiding. Students will apply techniques using a modern object-oriented implementation language.
Credit Hours: 3
Prerequisites: C- or higher in CMP_SC 3330

**CMP_SC 4350: Big Data Analytics**  
(cross-leveled with CMP_SC 7350). Big Data Analytics represents a new era of computing, where data in any format maybe processed and exploited to extract insights for industries and organizations to make informed decisions, whether that data is in-place, in-motion or at-rest, in large volume, structured or unstructured. More and more companies are embracing open source Big Data technologies, such as Hadoop and extending it into an enterprise ready Big Data Platform. This course will cover advanced analytics technologies and techniques that enable industries to extract insights from data with sophistication, speed and accuracy. You will learn practical industry best practices to bridge the gap between classroom learning and real world; and have access to cloud services for labs/projects.

Credit Hours: 3  
Prerequisites: C- or higher in CMP_SC 3330 and CMP_SC 3380

**CMP_SC 4380: Database Management Systems I**  
(cross-leveled with CMP_SC 7380). Fundamental concepts of current database systems with emphasis on the relational model. Topics include entity-relationship model, relational algebra, query by example, indexing, query optimization, normal forms, crash recovery, web-based database access, and case studies. Project work involves a modern DBMS, such as Oracle, using SQL.

Credit Hours: 3  
Prerequisites: C- or higher in CMP_SC 3380

**CMP_SC 4410: Theory of Computation I**  
(cross-leveled with CMP_SC 7410). An introductory study of computation and formal languages by means of automata and related grammars. The theory and applications of finite automata, regular expressions, context free grammars, pushdown automata and Turing machines are examined. May not be counted toward Computer Science MS/PHD.

Credit Hours: 3  
Prerequisites: C- or higher in MATH 2320

**CMP_SC 4420: Operating Systems I**  
(cross-leveled with CMP_SC 7420). Basic concepts, theories and implementation of modern operating systems including process and memory management, synchronization, CPU and disk scheduling, file systems, I/O systems, security and protection, and distributed operating systems.

Credit Hours: 3  
Prerequisites: C- or higher in CMP_SC 3050, CMP_SC 3280 and MATH 1700

**CMP_SC 4430: Compilers I**  
(cross-leveled with CMP_SC 7430). Introduction to the translation of programming languages by means of interpreters and compilers. Lexical analysis, syntax specification, parsing, error-recovery, syntax-directed translation, semantic analysis, symbol tables for block structured languages, and run-time storage organization. May not be counted toward Computer Science MS/PHD.

Credit Hours: 3  
Prerequisites: C- or higher in MATH 2320, CMP_SC 3280 and CMP_SC 4450

**CMP_SC 4440: Malware Analysis and Defense**  
(cross-leveled with CMP_SC 7440). Malicious software or “malware” is a security threat. This course teaches students to understand the nature and types of viruses and how they are threats; teaches techniques used to prevent, detect, repair and defend against viruses and worms; teaches program binary examination tools to detect malicious code; and teaches ethical issues surrounding computer security violations.

Credit Hours: 3

**CMP_SC 4450: Principles of Programming Languages**  
(cross-leveled with CMP_SC 7450). An introduction to the structure, design and implementation of programming languages. Topics include syntax, semantics, data types, control structures, parameter passing, run-time structures, and functional and logic programming. May not be counted toward Computer Science MS/PHD.

Credit Hours: 3  
Prerequisites: C- or higher in CMP_SC 2050

**CMP_SC 4460: Introduction to Cryptography**  
(cross-leveled with CMP_SC 7460). Cryptography is an important technique used to achieve security goals in an untrusted and possibly adversarial environment. The goals of this course are: (1) to provide students with a solid background with basic cryptographic techniques and their applications, (2) to impart knowledge of standard cryptographic algorithms and (3) to foster understanding of the correct use of cryptographic techniques.

Credit Hours: 3  
Prerequisites: C- or higher in CMP_SC 3050 and MATH 2320

**CMP_SC 4520: Operating Systems I**  
(cross-leveled with CMP_SC 7520). Basic concepts, theories and implementation of modern operating systems including process and memory management, synchronization, CPU and disk scheduling, file systems, I/O systems, security and protection, and distributed operating systems.

Credit Hours: 3  
Prerequisites: C- or higher in CMP_SC 3050, CMP_SC 3280 and MATH 1700

**CMP_SC 4530: Cloud Computing**  
(cross-leveled with CMP_SC 7530). This course covers principles that integrate computing theories and information technologies with the design, programming and application of distributed systems. The course topics will familiarize students with distributed system models and enabling technologies; virtual machines and virtualization of clusters, networks and data centers; cloud platform architecture with security over virtualized data centers; service-oriented architectures for distributed computing; and cloud programming and software environments. Additionally, students will learn how to conduct some parallel and distributed programming and performance evaluation experiments on applications within available cloud platforms. Finally we will survey research literature and latest technology trends that are shaping the future of high performance, distributed and cloud computing.

Credit Hours: 3

**CMP_SC 4610: Computer Graphics I**  
(cross-leveled with CMP_SC 7610). Basic concepts and techniques of interactive computer graphics including hardware, software, data structures, mathematical manipulation of graphical objects, the user interface, and fundamental implementation algorithms.

Credit Hours: 3
**Prerequisites:** C- or higher in CMP_SC 3050 and MATH 1500 or C- or higher in CMP_SC 3050 and MATH 1300 and MATH 1400

**CMP_SC 4650: Digital Image Processing**
(same as ECE 4655; cross-leveled with CMP_SC 7650, ECE 7655).
Fundamentals of digital image processing hardware and software including digital image acquisition, image display, image enhancement, image transforms and segmentation.

**Credit Hours:** 3
**Prerequisites:** C- or higher in CMP_SC 2050 and STAT 4710 or instructor's consent

**CMP_SC 4670: Digital Image Compression**
(same as ECE 4675; cross-leveled with ECE 7675, CMP_SC 7670).
Covers digital image formation, information theory concepts, and fundamental lossless and lossy image compression techniques including bit plane encoding, predictive coding, transform coding, block truncation coding, vector quantization, subband coding and hierarchical coding.

**Credit Hours:** 3
**Prerequisites:** C- or higher in CMP_SC 2050

**CMP_SC 4720: Introduction to Machine Learning and Pattern Recognition**
(same as ECE 4720; cross-leveled with ECE 7720, CMP_SC 7720)
This course provides foundations and methods in machine learning and pattern recognition that address the problem of programming computers to optimize performance by learning from example data or expert knowledge. Graded on A-F basis only.

**Credit Hours:** 3
**Prerequisites:** C- or higher in CMP_SC 2050 and STAT 4710 or instructor consent

**CMP_SC 4730: Building Intelligent Robots**
(same as ECE 4340; cross-leveled with CMP_SC 7340, ECE 7340).
Covers the design and development of intelligent machines, emphasizing topics related to sensor-based control of mobile robots. Includes mechanics and motor control, sensor characterization, reactive behaviors and control architectures.

**Credit Hours:** 4
**Prerequisites:** junior standing
**Recommended:** programming experience in one of the following programming languages - Basic, C, C++, or Java

**CMP_SC 4740: Interdisciplinary Introduction to NLP**
(same as LINGST 4740; cross-leveled with CMP_SC 7740; LINGST 7740). The goal of this course is to enable students to develop substantive NLP applications. Focus on current structural and statistical techniques for the parsing and interpretation of texts.

**Credit Hours:** 3
**Prerequisites:** senior standing

**CMP_SC 4750: Artificial Intelligence I**
(cross-leveled with CMP_SC 7750). Introduction to the concepts and theories of intelligent systems. Various approaches to creating intelligent systems, including symbolic and computational approaches, insight into the philosophical debates important to understanding AI.

**Credit Hours:** 3
**Prerequisites:** C- or higher in CMP_SC 3050 and junior standing

**CMP_SC 4770: Introduction to Computational Intelligence**
(same as ECE 4870; cross-leveled with CMP_SC 7770, ECE 7870).
Introduction to the concepts, models and algorithms for the development of intelligent systems from the standpoint of the computational paradigms of neural networks, fuzzy set theory and fuzzy logic, evolutionary computation and swarm optimization.

**Credit Hours:** 3

**CMP_SC 4830: Science and Engineering of the World Wide Web**
(same as INFOTC 4830; cross-leveled with CMP_SC 7830). This course will study the science and engineering of the World Wide Web. We will study the languages, protocols, services and tools that enable the web. Emphasis will be placed on basics and technologies.

**Credit Hours:** 3
**Prerequisites:** C- or higher in CMP_SC 2830

**CMP_SC 4850: Computer Networks I**
(cross-leveled with CMP_SC 7850). Introduction to concepts and terminology of data communications and computer networking. Basic protocols and standards, applications of networking, routing algorithms, congestion avoidance, long-haul and local networks.

**Credit Hours:** 3
**Prerequisites:** C- or higher in CMP_SC 2270 or ECE 1210 and C- or higher in MATH 2320

**CMP_SC 4970: Senior Capstone Design I**
Communication skills, and prototyping. Covers professional ethics, intellectual property/patenting, knowledge of engineering literature, safety, economic and environmental impact of technology. Essays, oral and written reports.

**Credit Hours:** 3
**Prerequisites:** C- or higher in CMP_SC 4320 and senior standing

**CMP_SC 4970W: Senior Capstone Design I - Writing Intensive**
Communication skills, and prototyping. Covers professional ethics, intellectual property/patenting, knowledge of engineering literature, safety, economic and environmental impact of technology. Essays, oral and written reports.

**Credit Hours:** 3
**Prerequisites:** C- or higher in CMP_SC 4320 and senior standing

**CMP_SC 4980: Senior Capstone Design II**
Course entails completion of CMP_SC 4970 design project. Design prototyping, testing, evaluation, presentation, and preparation of documentation.

**Credit Hours:** 3
**Prerequisites:** C- or higher in CMP_SC 4970

**CMP_SC 4990: Undergraduate Research in Computer Science**
Independent investigation or project in Computer Science. May be repeated to 6 hours.
**Credit Hour:** 0-6  
**Prerequisites:** senior standing in Computer Science

---

**CMP_SC 4995: Undergraduate Research in Computer Science - Honors**  
Independent investigation to be presented as an undergraduate honors thesis.  
**Credit Hour:** 1-6  
**Prerequisites:** honors student in Computer Science

---

**CMP_SC 7001: Topics in Computer Science**  
Topic and credit may vary from semester to semester. May be repeated upon consent of department.  
**Credit Hour:** 1-99

---

**CMP_SC 7010: Computational Methods in Bioinformatics**  
(same as INFOINST 7010) Introduces the fundamental concepts and basic computational techniques for mainstream bioinformatics problems. Emphasis will be placed on the computational aspect of bioinformatics, including formulation of a biological problem in a computable problem, design of scoring functions and algorithms, confidence assessment of prediction results and software development.  
**Credit Hours:** 3  
**Prerequisites:** CMP_SC 4050 and STAT 4710

---

**CMP_SC 7050: Design and Analysis of Algorithms I**  
(cross-leveled with CMP_SC 4050). This course reviews and extends earlier work with linked structures, sorting and searching algorithms, and recursion. Graph algorithms, string matching, combinatorial search, geometrical algorithms and related topics are also studied. Cannot be counted toward CS MS/PHD.  
**Credit Hours:** 3  
**Prerequisites:** CMP_SC 3050 and MATH 2320

---

**CMP_SC 7060: String Algorithms**  
(cross-leveled with CMP_SC 4060). This course provides an introduction to algorithms that efficiently compute patterns in strings. Topics covered include basic properties of strings, data structures for processing strings, string decomposition, exact and approximate string matching algorithms.  
**Credit Hours:** 3  
**Prerequisites:** CMP_SC 4050

---

**CMP_SC 7070: Numerical Methods for Science and Engineering**  
(cross-leveled with CMP_SC 4070). This course introduces the basic numerical methods that are widely used by computer scientists and engineers. Students will learn how to use the MATLAB platform to find the computational solution of various problems arising in many real world applications. By completing this course, students will be able to master algorithms, compare their performances and critically assess which ones are viable options for the particular problem at hand. Graded on A-F basis only.  
**Credit Hours:** 3  
**Prerequisites:** C- or higher in CMP_SC 2050 or instructor's consent  
**Recommended:** Students are expected to have basic knowledge in discrete math and algorithms

---

**CMP_SC 7080: Parallel Programming for High Performance Computing**  
(cross-leveled with CMP_SC 4080). This course will provide in-depth treatment of the evolution high performance computing architectures and parallel programming techniques for those architectures. We will cover topics such as: multi-process and multi-threaded programming; multi-node system architectures (clusters, grids, and clouds) and distributed programming; and general purpose GPU programming. To reinforce lecture topics, programming projects will be completed using multi-process and multi-threaded techniques for modern multicore, multiprocessor workstations; parallel and distributed programming techniques for modern multi-node systems; and general purpose GPU programming. Parallel algorithms will be investigated, selected, and then developed for various scientific data processing problems. Programming projects will be completed using C and C++ APIs and language extensions, e.g. threads (pthreads, Boost/C++), TBB, CILK, OpenMP, OpenMPI, CUDA and OpenCL.  
**Credit Hours:** 3  
**Prerequisites:** CMP_SC 3280 or ECE 3210 and CMP_SC 3050 or ECE 3220

---

**CMP_SC 7270: Computer Organization**  
(same as ECE 727; cross-leveled with CMP_SC 4270; ECE 4270). Advanced computer architectures and programming; memory, memory management and cache organizations, parallel processing, graphical processor units for general programming.  
**Credit Hours:** 4  
**Prerequisites:** C or higher in CMP_SC 2050 and CMP_SC 3280 or ECE 3280

---

**CMP_SC 7320: Software Engineering I**  
(cross-leveled with CMP_SC 4320). Overview of software life cycle, including topics in systems analysis and requirements specification, design, implementation testing and maintenance. Uses modeling techniques, project management, peer review, quality assurance, and system acquisition. May not be counted toward CS MS/PHD.  
**Credit Hours:** 3  
**Prerequisites:** CMP_SC 3380

---

**CMP_SC 7330: Object Oriented Design I**  
(cross-leveled with CMP_SC 4330). Building on a prior knowledge of program design and data structures, this course covers object-oriented design, including classes, objects, inheritance, polymorphism, and information hiding. Students will apply techniques using a modern object-oriented implementation language.  
**Credit Hours:** 3  
**Prerequisites:** CMP_SC 3380

---

**CMP_SC 7350: Big Data Analytics**  
(cross-leveled with CMP_SC 4350). Big Data Analytics represents a new era of computing, where data in any format maybe processed and exploited to extract insights for industries and organizations to make informed decisions, whether that data is in-place, in-motion or at-rest, in large volume, structured or unstructured. More and more companies are embracing open source Big Data technologies, such as Hadoop

</tbody>
</table>
**CMP_SC 7670: Digital Image Compression**  
(same as ECE 7675; cross-leveled with CMP_SC 4670, ECE 4675). Covers digital image formation, information theory concepts, and fundamental lossless and lossy image compression techniques including bit plane encoding, predictive coding, transform coding, block truncation coding, vector quantization, subband coding and hierarchical coding.  
**Credit Hours:** 3  
**Prerequisites:** CMP_SC 2050

**CMP_SC 7720: Introduction to Machine Learning and Pattern Recognition**  
(same as ECE 7720; cross-level CMP 4720, ECE 4720). This course provides foundation knowledge and methods in machine learning and pattern recognition that address the problem of programming computers to optimize performance by learning from example data or expert knowledge. Graded on A-F basis only.  
**Credit Hours:** 3  
**Prerequisites:** CMP_SC 2050 and STAT 4710 or instructor's consent

**CMP_SC 7730: Building Intelligent Robots**  
(same as ECE 7340; cross-leveled with CMP_SC 4730, ECE 4730). Covers the design and development of intelligent machines, emphasizing topics related to sensor-based control of mobile robots. Includes mechanics and motor control, sensor characterization, reactive behaviors and control architectures. Prerequisites: programing experience in one of the following programming languages: Basic, C, C++, or Java.  
**Credit Hours:** 4

**CMP_SC 7740: Interdisciplinary Introduction to Natural Language Processing**  
(same as LINGST 7740; cross-leveled with CMP_SC 4740; LINGST 4740). The goal of this course is to enable students to develop substantive NLP applications. Focus on current structural and statistical techniques for the parsing and interpretation of text.  
**Credit Hours:** 3

**CMP_SC 7750: Artificial Intelligence I**  
(cross-leveled with CMP_SC 4750). Introduction to the concepts and theories of intelligent systems. Various approaches to creating intelligent systems, including symbolic and computational approaches, insight into the philosophical debates important to understanding AI.  
**Credit Hours:** 3  
**Prerequisites:** CMP_SC 3050

**CMP_SC 7770: Introduction to Computational Intelligence**  
(same as ECE 7870; cross-leveled with CMP_SC 4770, ECE 4870). Introduction to the concepts, models and algorithms for the development of intelligent systems from the standpoint of the computational paradigms of neural networks, fuzzy set theory and fuzzy logic, evolutionary computation and swarm optimization.  
**Credit Hours:** 3

**CMP_SC 7830: Science and Engineering of the World Wide Web**  
(cross-leveled with CMP_SC 4830). This course will study the science and engineering of the World Wide Web. We will study the languages, protocols, services and tools that enable the web. Emphasis will be placed on basics and technologies.  
**Credit Hours:** 3  
**Prerequisites:** CMP_SC 3330 and CMP_SC 2830

**CMP_SC 7850: Computer Networks I**  
(cross-leveled with CMP_SC 4850). Introduction to concepts and terminology of data communications and computer networking. Basic protocols and standards, applications of networking, routing algorithms, congestion avoidance, long-haul and local networks.  
**Credit Hours:** 3  
**Prerequisites:** CMP_SC 2270 or ECE 1210 and MATH 2320

**CMP_SC 8001: Advanced Topics in Computer Science**  
Topic may vary from semester to semester. May be repeated upon consent of department.  
**Credit Hours:** 3  
**Prerequisites:** varies by topic

**CMP_SC 8050: Design and Analysis of Algorithms II**  
Techniques for the design and analysis of correct, efficient algorithms. Topics include graph, geometric, and algebraic/numeric algorithms, NP-completeness, and parallel algorithms.  
**Credit Hours:** 3  
**Prerequisites:** CMP_SC 4050

**CMP_SC 8060: Survey of Advanced Algorithm Techniques**  
This class provides a survey of important algorithmic techniques, some of which are emerging right now, and show that they are much easier to understand than they first appear. The class will create a renewed appreciation for what makes Computer Science such a fun/interesting discipline.  
**Credit Hours:** 3  
**Prerequisites:** CMP_SC 4050

**CMP_SC 8085: Problems in Computer Science**  
Independent study project work with a professor in computer science.  
**Credit Hour:** 1-4  
**Prerequisites:** instructor consent

**CMP_SC 8130: Computational Genomics**  
(same as INFOINST 8310). This course introduces computational concepts and methods of genomics to students. The course covers genome structure, database, sequencing, assembly, annotation, gene and RNA finding, motif and repeats identification, single nucleotide polymorphism, and epigenomics. Graded on A-F basis only.  
**Credit Hours:** 3  
**Prerequisites:** INFOINST 7010 or CMP_SC 7010

**CMP_SC 8150: Integrative Methods in Bioinformatics**  
(same as INFOINST 8150), Introduces the most popular experimental methods from the point of view of the information sources that can be used. Students will use data obtained directly from biological experiments...
and learn how to suggest new experiments to improve results. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: INFOINST 7010 or CMP_SC 7010

CMP_SC 8160: Content Management in Biomedical Informatics
(same as INFOINST 8860). This course introduces theory and techniques for content extraction, indexing, and retrieval of biomedical media databases. Topics include biomedical media databases, feature extraction methods, advanced database indexing structures, query methods, and result visualization. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: CMP_SC 7380, INFOINST 7010

CMP_SC 8170: Computational Modeling of Molecular Structures
This course uses a problem solving paradigm to investigate common principles, data structures, algorithms, challenges, and solutions in computationally modeling (constructing) 3D structures of proteins, RNAs, chromosomes, and genomes.

Credit Hours: 3
Prerequisites: CMP_SC 7010

CMP_SC 8180: Machine Learning Methods for Biomedical Informatics
(same as INFOINST 8880). Teaches statistical machine learning methods and applications in biomedical informatics. Covers theories of advanced statistical machine learning methods and how to develop machine learning methods to solve biomedical problems. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: CMP_SC 7050 and INFOINST 7010 or CMP_SC 7010 or CMP_SC 7005

CMP_SC 8190: Computational Systems Biology
(same as INFOINST 8390). This course covers current theories and methods in the modeling and analysis of high-throughput experiments such as microarrays, proteomics, and metabolomics. Topics include the inference of causal relations from experimental data and reverse engineering of cellular systems. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: INFOINST 7010 or CMP_SC 7010; INFOINST 8010

CMP_SC 8370: Data Mining and Knowledge Discovery
Course topics include an introduction to fundamental concepts, data mining techniques from machine learning and pattern recognition areas, association rules, web mining, spatial mining, temporal mining, multimedia/multimodal database mining, and database mining, and geospatial information mining.

Credit Hours: 3
Prerequisites: CMP_SC 7380

CMP_SC 8440: Information Security: A Language-Based Approach
This course focuses on language-based techniques for information flow security. Students will gain a solid background in information security, be encouraged to do further research and be exposed to important/promising trends in state-of-the-art computer security. Prerequisites: CMP_SC 4450 or CMP_SC 7450

Credit Hours: 3

Designing scalable exhaustive methods to ensure reliability of computer systems is an important challenge in computer science as even simple errors can have serious socio-economic-political consequences. This challenge is the focus of the field of automated verification techniques which draws techniques from complexity theory, automata theory, programming languages and logic, and provides tools to ensure that the computer systems are reliable. Computer-assisted techniques for verifying hardware implementations are regularly employed in the industry, and are also being increasingly adopted in the software industry as the costs of software bugs and security flaws escalate. The goals of this course are: (1) to provide students with a solid back-ground in the fundamental techniques used in this field, (2) to encourage further research in software and security verification, and (3) to introduce students to important upcoming trends in verifying security protocols. The students will get theoretical background as well as learn to use some standard tools in this field. Students will also explore topics of particular interest to them through the performance of a significant semester project.

Credit Hours: 3
Prerequisites: CMP_SC 4450 or CMP_SC 7450 or CMP_SC 4430 or CMP_SC 7430 or instructor's consent. A reasonable level of mathematical maturity and significant programming experience is expected.

CMP_SC 8530: Cloud Computing II
This course covers advanced principles of distributed system models and enabling technologies relating to cloud computing; latest advances in management and security of virtual machines and virtualization of clusters, networks, and data centers will be studied; additionally, students will survey research literature and perform cloud programming as well as performance evaluation experiments on applications within available cloud platforms. Students will learn project-based: problem solving, collaborative programming, technical writing and presentation skills. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: CMP_SC 4530 or CMP_SC 7530 or instructor's consent

CMP_SC 8610: Computer Graphics II
Further study of computer graphics, focused on 3-D graphics, transformations, geometric and surface modeling, color models, visible surface determination, lighting and shading, standard graphics software (Phigs/OpenGL). Selected current topics in graphics such as visualization, animation and realism.

Credit Hours: 3
Prerequisites: CMP_SC 7610

CMP_SC 8620: Physically Based Modeling and Animation II
This course introduces students to physical based modeling and animation methodology for computer graphics and related fields such as computer vision, visualization, biomedical imaging and virtual reality. We will explore current research issues and will cover associated
computational methods for simulating various visually interesting physical phenomena. This course should be appropriate for graduate students in all areas as well as advanced undergraduate students.

**Credit Hours:** 3  
**Prerequisites:** CMP_SC 4610 or CMP_SC 7610

---

**CMP_SC 8630: Data Visualization**  
Data visualization broadly covers transforming multidimensional and time-varying datasets to dynamic visual representations and encodings that facilitate exploratory data mining, knowledge discovery, improved understanding, summarization, structural modeling, collaboration and decision making using interactive methods.

**Credit Hours:** 3  
**Prerequisites:** CMP_SC 4610 or CMP_SC 7610 or instructor's consent

---

**CMP_SC 8650: Advanced Image Processing**  
(same as ECE 8855). This course covers advanced topics in image understanding including multispectral multimodal imaging, motion estimation, texture analysis, geometric level set methods.

**Credit Hours:** 3  
**Prerequisites:** CMP_SC 4650 or CMP_SC 7650 or instructor's consent

---

**CMP_SC 8660: Multimedia Security**  
This course offers a comprehensive coverage of the theoretical foundation of multimedia security technologies, including encryption, authentication, digital watermarking, key management, copy control, fingerprinting/tracing, digital media forensics, and biometrics, provides an in-depth study of the state-of-the-art digital rights management systems and the underlying security technologies. Graded on A-F basis only.

**Credit Hours:** 3  
**Prerequisites:** CMP_SC 4670 or CMP_SC 4650; instructor's consent

---

**CMP_SC 8675: Biomedical Image Processing**  
(same as ECE 8875). This course introduces students to the fundamentals of biomedical image processing and analysis with an emphasis on cellular and tissue microscopy along with anatomical imaging. The course will cover image and video processing techniques and pipelines for image enhancement, restoration, registration, detection, segmentation, classification, and motion analysis that are tailored for biomedical image informatics. This course will provide a rich exposure to a broad range of imaging datasets from the molecular to the anatomical; and train students to implement algorithms for moderately complex tasks in biomedical image analysis. This course is suitable for graduate students in all fields of engineering and science who are interested in understanding and implementing biomedical and biological image analytics and are seeking pointers to the broad literature in the field.

**Credit Hours:** 3  
**Prerequisites:** CMP_SC 4650 or CMP_SC 7650, ECE 4655 or ECE 7650 or instructor's consent

---

**CMP_SC 8680: 3-D Computer Vision**  
This course introduces students to a central problem in computer vision - how to recover 3-D structure and motion from a collection of 2-D images, using techniques drawn mainly from linear algebra and matrix theory. The main focus is on developing a unified framework for studying the geometry of multiple images of a 3-D scene and reconstructing geometric models from those images. The course also covers relevant aspects of image formation, basic image processing, and feature extraction.

**Credit Hours:** 3  
**Prerequisites:** CMP_SC 4650 or CMP_SC 7650  
**Recommended:** Good knowledge of C or C++ programming, linear algebra and data structures

---

**CMP_SC 8690: Computer Vision**  
(same as ECE 8690). This course introduces students to the fundamental problems of computer vision, the main concepts and the techniques used to solve such problems. It will enable graduate and advanced undergraduate students to solve complex problems and make sense of the literature in the area. Graded on A-F basis only.

**Credit Hours:** 3  
**Prerequisites:** CMP_SC 4650 or CMP_SC 7650 or CMP_SC 7650 or instructor's consent

---

**CMP_SC 8725: Supervised Learning**  
(same as ECE 8725). This course introduces the theories and applications of advanced supervised machine learning methods. It covers hidden Markov model and expectation maximization (EM) algorithms, probabilistic graphical models, non-linear support vector machine and kernel methods. The course emphasizes both the theoretical underpinnings of the advanced supervised learning methods and their applications in the real world. Graded on A-F basis only.

**Credit Hours:** 3  
**Prerequisites:** CMP_SC 4720 or CMP_SC 7720 or ECE 4720 or ECE 7720 or instructor's consent

---

**CMP_SC 8735: Unsupervised Learning**  
(same as ECE 8735). Theoretical and practical aspects of unsupervised learning including topics of expectation maximization (EM), mixture decomposition, clustering algorithms, cluster visualization, and cluster validity. Graded on A-F basis only.

**Credit Hours:** 3  
**Prerequisites:** CMP_SC 4720 or CMP_SC 7720 or ECE 4720 or ECE 7720 or instructor's consent

---

**CMP_SC 8740: Advanced Natural Language Processing**  
What do Google, the New York Times, Facebook, Cerner, and other big companies know that you don't? Natural language processing. This course considers open and compelling problems in contemporary research in the processing and analysis of text, focusing on both the underlying theory and its practical application. The goal is to help students understand the nature of these problems, the current approaches to them, the strengths and weaknesses of those approaches, and other possible ways forward.

**Credit Hours:** 3  
**Prerequisites:** CMP_SC 4740 or CMP_SC 7740  
**Recommended:** Good knowledge of univariate, parametric statistics
CMP_SC 8750: Artificial Intelligence II
Further discussion of theories and techniques of artificial intelligence. Investigating state-of-the-art systems with capabilities to perceive, reason, learn and react intelligently to their environment.

Credit Hours: 3  
Prerequisites: CMP_SC 4750 or CMP_SC 7750 or instructor's consent

CMP_SC 8780: Advanced Topics in Computational Intelligence  
(same as ECE 8870). This course is a continuation of ECE 7870/  
CMP_SC 7770 Introduction to Computational Intelligence in the  
concepts, models, and algorithms for the development of intelligent  
systems from the standpoint of the computational paradigms of neural  
networks, fuzzy set theory and fuzzy logic, evolutionary computation, and  
swarm intelligence. Advanced topics in these areas will be discussed with  
a focus on applications of these technologies.

Credit Hours: 3  
Prerequisites: ECE 4870 or ECE 7870 or CMP_SC 4770 or CMP_SC  
7770

CMP_SC 8790: Filtering, Tracking and Data Fusion
This course will cover theory and applications of rigorous and efficient  
techniques for determining the state of an observed system from a series  
of imperfect observations or measurements. Specific topics to be covered  
include semidefinite matrix theory, the Kalman filter, the Unscented  
Transform, Covariance Intersection and related techniques. Applications  
of these techniques include head and hand tracking in virtual reality  
systems, robotics, and distributed information fusion.

Credit Hours: 3  
Prerequisites: CMP_SC 2050, MATH 2300 or Linear Algebra or Matrix  
Theory

CMP_SC 8850: Computer Networks II
In-depth analysis and evaluation of computer networking architectures,  
protocols and algorithms, network security, distributed database and  
computational networks, routing and congestion control, domains and  
internetworking.

Credit Hours: 3  
Prerequisites: CMP_SC 7850

CMP_SC 8860: Parallel and Distributed Processing
This course covers basic issues of parallel and distributed processing,  
including parallel and distributed architectures and models, parallel  
programming, and parallel algorithms and applications.

Credit Hours: 3  
Prerequisites: CMP_SC 4050

CMP_SC 8870: Modeling and Management of Uncertainty  
(same as ECE 8870). Theoretical and practical issues in the modeling  
and management of uncertainty. Topics include probabilistic uncertainty,  
belief theory and fuzzy set theory. Applications to computer vision,  
pattern recognition and expert systems. Graded on A-F basis only.

Credit Hours: 3  
Prerequisites: ECE 4870 or ECE 7870 or CMP_SC 4770 or CMP_SC  
7770 or instructor's consent

CMP_SC 8980: Research Masters Project in Computer Science
Investigation and research of a topic, not leading to a thesis. Graded on  
S/U basis only.

Credit Hour: 1-99  
Prerequisites: departmental consent

CMP_SC 8990: Research-Masters Thesis Computer Science  
Graded on S/U basis only.

Credit Hour: 1-99  
Prerequisites: advisor's consent

CMP_SC 9990: Research-Doctoral Dissertation Computer Science  
Graded on S/U basis only.

Credit Hour: 1-99  
Prerequisites: advisor's consent

Constitutional Democracy  
(CNST_DEM)

CNST_DEM 2150: The American Civil War: A Global History  
(same as HIST 2150). In this class students will study the American Civil  
War from the perspective of global history. The familiar actors and events  
will be covered - the debate over slavery, the secession of the South,  
the rise of Abraham Lincoln, the great battles and generals, etc. But  
these familiar episodes will take on different meanings when viewed in  
relation to global structures of politics, economics, social relations, and  
ideology. The 1860s was at once a formative moment in the history of  
globalization and the key decade for the formation and consolidation of  
modern nations.

Credit Hours: 3

CNST_DEM 2425: Race and the American Story  
(same as BL_STU 2425, POL_SC 2425). This course represents a  
collaboration between the University of Missouri’s Department of Black  
Studies and the Kinder Institute on Constitutional Democracy. Building  
upon the existing Citizenship@Mizzou program, the course aims to carry  
forward the goals of the Citizenship program and to further solidify and  
magnify its impact on campus. In so doing, the course will also serve as a  
model for improving diversity education on campuses across the country  
and contribute to a more informed and unified national culture. The core  
syllabus will consist in readings that tell the story of the confrontation  
between American political principles and the practice of racial injustice  
throughout our history. Students will read and discuss the Declaration  
of Independence, the slavery clauses in the Constitution, the poetry of  
Phillis Wheatley, and the speeches of Frederick Douglass, Abraham  
Lincoln, and Martin Luther King, Jr., among others. They will achieve a  
greater understanding of how diversity relates to humanity, and will learn  
to dialogue productively and civilly with others who may not share their  
background or opinions.

Credit Hour: 1

CNST_DEM 2445: American Constitutional Democracy  
(same as POL_SC 2445, HIST 2445). This course offers an introduction  
to American constitutional democracy. On the one hand, this course will  
strive to set the development of America's constitutional democracy into
its historical context and to explain it in relation to larger social, political, military, and economic events. A second emphasis is on the nature and character of the American democratic system. Graded on A-F basis only.

**Credit Hours:** 3

**DATA_SCI 7001: Topics in Data Science and Analytics**
Topics and credit may vary from semester to semester. Can be repeated with departmental approval. Graded on A-F basis only.

**Credit Hour:** 1-6

**DATA_SCI 7263: Digital Strategy II**
This course provides hands on experience using several digital platforms such as Facebook Insights, Google AdWords, Google Analytics, Adobe Analytics, Clarabridge and Topsy. In this course you’ll learn digital advertising terminology and jargon, the importance of digital analytics, the role of analysts, qualities of effective analysts, the digital optimization process, web metrics and key performance indicators, as well as the essentials of collaboration and generating support and buy-in while gaining your executive’s attention. Graded on A-F basis only.

**Credit Hours:** 3

**Recommended:** Basic programming experience and Basic database experience

**DATA_SCI 7600: Introduction to Data Science and Analytics**
An introductory course in data science and analytics. The objective of the course is to give students a broad overview of the various aspects of data analytics such as accessing, cleansing, modeling, visualizing, and interpreting data. Students will perform hands-on learning of data analytic topics, using technologies such as Python, R, and open source analytic tools. Two Big Data cyberinfrastructure platforms will be introduced through case studies, allowing students to perform data analytical learning modules on modern cloud infrastructure and other relevant technologies. Graded on A-F basis only.

**Credit Hours:** 3

**Recommended:** Enrollment in NGA Training Program or instructor consent

**DATA_SCI 7601: Introduction to Data Science**
This course is an introduction to the NGA Program of Study in Data Science (PSDS), the concentration areas, and the role of each concentration area in data science. Participants will learn how to receive, if desired, an accredited Graduate Certificate and/or a Master of Science degree in Data Science and Analytics from the University of Missouri. Participants will receive an introduction to software, tools, and resources to be utilized throughout the program. Participants will learn of systematic methodologies for data science projects and the data science pipeline through review of case studies. Graded on S/U basis only.

**Credit Hours:** 2

**Recommended:** Enrollment in NGA Training Program or instructor consent

**DATA_SCI 7610: Python Programming Boot Camp**
This course teaches students how to program in Python, including use of auxiliary libraries various Python ecosystems. Students are introduced to the iPython notebooks from the SciPy ecosystem, as well Python’s use across the spectrum of Data Science courses and topics. Many activities are focus on data ingestion, cleaning, manipulation, and restructuring (e.g., ETL). Graded on A-F basis only.

**Credit Hour:** 1

**Recommended:** Enrollment in NGA Training Program or instructor consent
DATA_SCI 7620: Database Basics and SQL Boot Camp
This course covers a core concepts to heterogeneous data management, including relational databases, NoSQL databases, and other data storage systems. The focus is on making students quickly productive in the use of multiple types of database management systems available on the market for data science work. This includes traditional relational databases, NOSQL databases and graph databases. This course is a 1 credit hour / 5 day course. This course is delivered in an asynchronous online mode. The instructor virtually kicks off the course on day-one, then four additional days over a two week period are used for self-paced, online activities using the JupyterHub learning environment. Graded on A-F basis only.

Credit Hour: 1
Recommended: Enrollment in NGA Training Program or instructor consent

DATA_SCI 7630: Introductory Probability and Statistics for Data Analytics
This course explores the use of inferential and predictive statistics for data modeling and analytics. Single–variate and multivariate statistical concepts are discussed, as well as intermediate exposure to statistical modeling. Students learn to evaluate model effectiveness and conduct results driven model selection. Statistical and modeling techniques focus on high dimensional data analytics. Topics related to dimensionality reduction are also covered, such as principal component analysis and factor analysis. Graded on A-F basis only.

Credit Hours: 2
Recommended: Enrollment in NGA Training Program or instructor consent

DATA_SCI 7637: Streaming Social Media Data Management and Analysis
An intermediate data wrangling and analysis class designed to provide students with an in-depth overview of collecting and analyzing Twitter data. Computational topics include composing, sending, and receiving Hypertext Transfer Protocol (HTTP) messages. Data wrangling topics include parsing json files, navigating recursively nested structures, and processing textual data. Analysis methods include machine learning, network analysis, topic modeling, time series, etc. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: Instructor consent

DATA_SCI 7640: R Statistical Programming Boot Camp
This course teaches students how to program in R, including use of auxiliary libraries in R focused on various statistical and visualization oriented techniques. Students are introduced to R's use across the spectrum of Data Science courses and topics. Many activities focus on the development of statistical tests, and the use of R for statistical exploration. This course teaches students how to program in R, including use of auxiliary libraries in R focused on various statistical and visualization oriented techniques. Students are introduced to R's use across the spectrum of Data Science courses and topics. Many activities focus on the development of statistical tests, and the use of R for statistical exploration. Graded on A-F basis only.

Credit Hour: 1

DATA_SCI 8001: Advanced Topics in Data Science and Analytics
Topics and credit may vary from semester to semester. Can be repeated with departmental approval. Graded on A-F basis only.

Credit Hour: 1-6

DATA_SCI 8085: Problems in Data Science and Analytics
Directed study on a topic in data science and analytics. Graded on A-F basis only.

Credit Hour: 1-6
Prerequisites: Instructor's consent

DATA_SCI 8610: Statistical and Mathematical Foundations for Data Analytics
An intermediate statistics class designed to build the mathematical foundation for students dealing with Big Data phenomena. Topics include discussions of probability, data sampling, data summarization, sampling distributions, statistical inference, statistical pattern analysis, hypothesis testing, regression, and nonparametric inference over multidimensional data collections. Students will engage in Big Data projects using various publicly available data sets and leveraging modern Data Science tools, techniques, and cyberinfrastructure. Graded on A-F basis only.

Credit Hours: 3
Recommended: Basic understanding of mathematical principles of vectors and matrices, and Basic course in probability and statistics

DATA_SCI 8612: Spatial and Geostatistical Analysis
This course will provide a practical overview of key issues encountered when working with and analyzing spatial data as well as an overview of major spatial analysis approaches. Discussions and laboratory work will focus on implementation, analysis, and interpretive issues given constraining factors that commonly arise in practice. Graded on A-F basis only.

Credit Hours: 3
Recommended: Enrollment in NGA Training Program or instructor consent

DATA_SCI 8614: Data Analytics from Applied Machine Learning
This course leverages the foundations in statistics and modeling to teach applied concepts in machine learning. Participants will learn various classes of machine learning and modeling techniques, and gain an in-depth understanding how to select appropriate techniques for various data science tasks. Topics cover a spectrum from simple Bayesian modeling to more advanced algorithms such as support vector machines, decision trees/forests, and neural networks. Students learn to incorporate machine learning workflows into data-intensive analytical processes. Graded on A-F basis only.

Credit Hours: 3
Recommended: Enrollment in NGA Training Program or instructor consent

DATA_SCI 8620: Database and Analytics
Covers the Fundamental concepts of current database systems and query methods with emphasis on relational model and non-relational
techniques in Big Data environments. Topics include entity-relationship model, relational algebra, indexing, query optimization, normal forms, tuning, security, NoSQL, and data analytics skills in both relational and non-relational environments. Project work involves modern relational DBMS systems and NoSQL environments. Graded on A-F basis only.

Credit Hours: 3
Recommended: Basic understanding of mathematical principles of vectors and matrices, and Basic course in probability and statistics

DATA_SCI 8630: Data Mining and Information Retrieval
The course introduces the main concepts and techniques of data mining and information retrieval. It covers a variety of data mining topics and methods to extract hidden and predictive patterns from large data collections. Furthermore, theory and techniques for the modeling, indexing, and retrieval of relational, nonrelational, text-based and multimedia databases is covered. Topics include introduction to data mining process, mining frequent patterns, and pattern analysis, as well as different information retrieval models and evaluation, query languages and operations, and indexing/searching methods. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: DATA_SCI 7600 and DATA_SCI 8620
Recommended: Basic understanding of mathematical principles of vectors and matrices; Basic course in probability and statistics; Basic course in databases and data analytics

DATA_SCI 8635: Cloud Computing for Data Analytics
This course introduces students to cluster and cloud computing big data ecosystems. Topics include a survey of cloud computing platforms, architectures, and use-cases. Students will examine scaling data science techniques and algorithms using a variety of cluster and cloud paradigms, such as those built atop Hadoop (Map-Reduce) concepts, and others. Graded on A-F basis only.

Credit Hours: 3
Recommended: Enrollment in NGA Training Program or instructor consent

DATA_SCI 8640: Big Data Security
This course provides an overview of state-of-the-art topics in Big Data Security, looking at data collection (smartphones, sensors, the Web), data storage and processing (scalable relational databases, Hadoop, Spark, etc.), extracting structured data from unstructured data, systems issues (exploiting multicore, security). Securing sensitive data, personal data and behavioral data while ensuring a respect for privacy will be a focus point in the course Graded on A-F only.

Credit Hours: 3
Prerequisites: DATA_SCI 7600 and DATA_SCI 8620

DATA_SCI 8650: Big Data Visualization
Covers the Fundamental concepts of current visualization concepts and technologies. Unlike many data visualization courses, this one focuses on principles of visualization design and the grammar of graphics. These principles are then implemented in popular contemporary visualization technologies. Students will develop an advanced knowledge of the appropriate selection, modeling, and evaluation of data visualizations. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: DATA_SCI 7600 and DATA_SCI 8620
Recommended: Basic understanding of mathematical principles of vectors and matrices; Basic course in probability and statistics; Basic course in databases and data analytics

DATA_SCI 8654: Advanced Visualization and Communication I
Covers the Fundamental concepts of current visualization concepts and technologies, adding in Infographic and Interactive Visualization Design. Unlike many data visualization courses, this one focuses on principles of visualization design and the grammar of graphics as they can be applied to combining art and technology to tell data stories. These principles are then implemented in popular contemporary visualization technologies. Students will develop an advanced knowledge of the appropriate selection, modeling, and evaluation of data visualizations. Graded on A-F basis only.

Credit Hours: 3
Recommended: Enrollment in NGA Training Program or instructor consent

DATA_SCI 8656: Advanced Visualization and Communication II
Covers the Fundamental concepts of current visualization concepts and technologies, adding in Infographic and Interactive Visualization Design. Unlike many data visualization courses, this one focuses on principles of visualization design and the grammar of graphics as they can be applied to combining art & technology to tell data stories. These principles are then implemented in popular contemporary visualization technologies. Students will develop an advanced knowledge of the appropriate selection, modeling, and evaluation of data visualizations. Graded on A-F basis only.

Credit Hours: 3
Recommended: Enrollment in NGA Training Program or instructor consent

DATA_SCI 8660: Data and Information Ethics
Introduces the ethics related to Big Data in industry, business, academia, and research settings. Students will learn the social, ethical, legal and policy issues that underpin the big data phenomenon. Discussions and case studies will help guard against the repetition of known mistakes and inadequate preparation. The course content will follow the guidelines to be developed by the Council for Big Data, Ethics, and Society. Graded on A-F basis only.

Credit Hour: 1
Prerequisites: DATA_SCI 7600 and DATA_SCI 8650

DATA_SCI 8680: Big Data Analysis Case Study
Using a case-study approach, students will engage in discussions on a variety of big data topics relevant to their emphasis area and the realm of Big Data. This course will help students generate ideas and prepare them for the Big Data Capstone. Course work will be performed in small teams, mentored by faculty and/or industry advisors. Teams will research, cultivate, curate, and leverage large data sets. Students will gain hands-on experience applying relevant data science and analytical technology and techniques to gain insight and information from these real-world data sets. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: DATA_SCI 8630, DATA_SCI 8640, DATA_SCI 8650
DATA_SCI 8750: Parallel Computing for Data Science
This course will provide in-depth treatment of the evolution of high performance, parallel computing architectures and how these architectures and computational ecosystems support data science. We will cover topics such as: parallel algorithms for numerical processing, parallel data search, and other parallel computing algorithms which facilitate advanced analytics. To reinforce lecture topics, learning activities will be completed using parallel computing techniques for modern multicore and multi-node systems. Parallel algorithms will be investigated, selected, and then developed for various scientific data analytics problems. Programming projects will be completed using Python and R, leveraging various parallel and distributed computing infrastructure such as AWS Elastic Map Reduce and Google Big Query. Students will research emerging parallel and scalable architectures for data analytics. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: DATA_SCI 8610, DATA_SCI 8620

DERM 6233: ABS Dermatology Research
ABS Dermatology Research
Credit Hours: 5

DERM 6450: Dermatology I
The Dermatology rotation is designed to provide the medical student with a broad general base in clinical dermatology for the non-dermatologist. During the rotation the student should: Enhance the visual diagnostic skills and related reasoning used in dermatology; Become familiar with a select list of dermatologic conditions commonly seen and best treated by the non-dermatologist; Gain familiarity with certain dermatologic conditions which require a high index of suspicion by all physicians because of their danger to life or risks to public health; Become familiar with dermatologic treatment regimens for the non-dermatologist and guidelines for appropriate referral of cases; Learn appropriate use of both systemic and topical dermatologic medications; Learn basic punch, shave, and excisional biopsy techniques; Become proficient in skin surveillance, especially early detection of skin cancer. Students are evaluated using a standard evaluation. The student's knowledge of subject matter is evaluated in the following settings: informal discussion during clinics, ward rounds, inpatient consultation rounds and scheduled conferences.
Credit Hours: 5
Prerequisites: Internal Medicine Clerkship

DERM 6750: Dermatology I - Rural
The Dermatology rotation is designed to provide the medical student with a broad general base in clinical dermatology for the non-dermatologist. During the rotation the student should: Enhance the visual diagnostic skills and related reasoning used in dermatology. Become familiar with a select list of dermatologic conditions commonly seen and best treated by the non-dermatologist. Gain familiarity with certain dermatologic conditions which require a high index of suspicion by all physicians because of their danger to life or risks to public health. Become familiar with dermatologic treatment regimens for the non-dermatologist and guidelines for appropriate referral of cases. Learn appropriate use of both systemic and topical dermatologic medications. Learn basic punch, shave, and excisional biopsy techniques. Become proficient in skin surveillance, especially early detection of skin cancer.
Credit Hours: 5

DERM 6856: Dermatology II
This elective rotation is an expansion of the objective goals outlined for Dermatology I. The student is expected to expand the depth and breadth of his/her dermatology experiences and knowledge. Enhance the visual diagnostic skills and related reasoning used in dermatology. Become familiar with a select list of dermatologic conditions commonly seen and best treated by the non-dermatologist. Gain familiarity with certain dermatologic conditions which require a high index of suspicion by all physicians because of their danger to life or risks to public health. Become familiar with dermatologic treatment regimens for the non-dermatologist and guidelines for appropriate referral of cases. Learn appropriate use of both systemic and topical dermatologic medications. Learn basic punch, shave, and excisional biopsy techniques. Become proficient in skin surveillance, especially early detection of skin cancer. As Dermatology II is an extension of the Dermatology I curriculum, Dermatology II students are expected to master the above objectives. In addition, they are expected to expand their clinical skills related to the diagnosis and treatment of dermatologic diseases and they will have increased responsibilities for patient education. It is expected that they will further their surgical skills including biopsies, simple excisions, and basic cryotherapy. They will also become proficient in basic laboratory procedures including KOH and scabies prep.
Credit Hours: 5

DERM 6910: Clinical Dermatology Elective
The 2 week elective in Dermatology will allow students to participate in a wide breadth of general, pediatric, and surgical dermatology. Students will participate in clinics and in weekly didactic sessions. Students will also complete the American Academy of Dermatology online student modules and the self-evaluation that is provided.
Credit Hours: 2
Prerequisites: Successful completion of the first two years of medical school. Must have completed at least 1 core clinical rotation

Diagnostic Medical Ultrasound (DMU)

DMU 1000: Introduction to Diagnostic Medical Ultrasound
Introduction to the profession of diagnostic medical ultrasound. Imaging characteristics, educational requirements, professional trends. Observation opportunities. Graded on S/U basis only.
Credit Hour: 1
Prerequisites: Departmental consent required

DMU 4001: Topics in Diagnostic Medical Ultrasound
Organized study of selected topics in medical ultrasound. Topics may vary. May be repeated for credit. Graded on A-F basis only.
Credit Hour: 1-99
Prerequisites: restricted to Diagnostic Medical Ultrasound undergraduate students

</table>
DMU 4325: Ultrasound Clinical Pharmacology and Contrast Agents
(cross-leveled with DMU 7325). Study of the biophysical, biochemical and complete action of ultrasound contrast agents and other drugs used in Diagnostic Medical Ultrasound and their pharmacodynamics.

Credit Hours: 3
Prerequisites: Restricted to Diagnostic Medical Ultrasound students

DMU 4326: Vascular Ultrasound Physics, Instrumentation and Hemodynamics
(cross-leveled with DMU 7326). Study of vascular principles and fundamentals including physics and instrumentation. Emphasis on ultrasound wave characteristics, Doppler principles, tissue interaction and hemodynamics.

Credit Hours: 3
Prerequisites: Restricted to Diagnostic Medical Ultrasound students

DMU 4330: Vascular Ultrasound Lab

Credit Hours: 3
Prerequisites: Restricted to Diagnostic Medical Ultrasound students

DMU 4332: Vascular Ultrasound
(cross-leveled with DMU 7332). Vascular ultrasound for normal and pathological processes: study of disease, correlation of patients' clinical data and ultrasound findings used in differential diagnosis.

Credit Hours: 4
Prerequisites: Restricted to Diagnostic Medical Ultrasound students

DMU 4342: Adult Cardiac Ultrasound
(cross-leveled with DMU 7342). Provides principles of diagnostic adult cardiac ultrasound in relation to pathology, further presenting the practical aspects of scanning techniques, exam critique, patient care in relation to cardiac US exams. Graded on A-F basis only.

Credit Hours: 5
Prerequisites: DMU 4313, DMU 4315 and DMU 4338; instructor's consent

DMU 4944: Vascular Ultrasound Clinical IV
(cross-leveled with DMU 7944). Application of diagnostic vascular ultrasound in supervised clinical settings: practice, decision making, patient handling and image processing.

Credit Hours: 7
Prerequisites: Restricted to Diagnostic Medical Ultrasound students

DMU 4945: Cardiac Ultrasound Clinical V
(cross-leveled with DMU 7945). Application of ultrasonography in real clinical settings for learning, practicing and decision making regarding, patient handling and imaging process with students supervised in a clinical setting. Graded on A-F basis only.

Credit Hours: 6
Prerequisites: DMU 4313, DMU 4315, and DMU 4944. Instructor and Departmental permission required

DMU 4946: Cardiac Ultrasound Clinical VI
(cross-leveled with DMU 7946). Further application of ultrasonography for continuation of learning, practicing and decision making, patient handling and imaging process with students supervised in a clinical setting. Graded on A-F basis only.

Credit Hours: 6
Prerequisites: DMU 4313, DMU 4315, DMU 4338 and DMU 4945. Instructor and Departmental permission required

DMU 4947: Cardiac Ultrasound Clinical VII
(cross-leveled with DMU 7947). Further application of ultrasonography for continuation of learning, practicing and decision making, patient handling and imaging process with students supervised in a clinical setting. Graded on A-F basis only.

Credit Hours: 6
Prerequisites: DMU 4313, DMU 4315, DMU 4338 and DMU 4945. Instructor and Departmental permission required

DMU 4948: Cardiac Ultrasound Clinical VIII
(cross-leveled with DMU 7948). Further application of ultrasonography for continuation of learning, practicing and decision making, patient handling and imaging process with students supervised in a clinical setting. Graded on A-F basis only.

Credit Hours: 6
Prerequisites: DMU 4313, DMU 4315, DMU 4338 and DMU 4945. Instructor and Departmental permission required

DMU 4949: Cardiac Ultrasound Clinical IX
(cross-leveled with DMU 7949). Further application of ultrasonography for continuation of learning, practicing and decision making, patient handling and imaging process with students supervised in a clinical setting. Graded on A-F basis only.

Credit Hours: 6
Prerequisites: DMU 4313, DMU 4315, DMU 4338 and DMU 4945. Instructor and Departmental permission required

DMU 4950: Cardiac Ultrasound Clinical X
(cross-leveled with DMU 7950). Further application of ultrasonography for continuation of learning, practicing and decision making, patient handling and imaging process with students supervised in a clinical setting. Graded on A-F basis only.

Credit Hours: 6
Prerequisites: DMU 4313, DMU 4315, DMU 4338 and DMU 4945. Instructor and Departmental permission required

DMU 4994: Vascular Ultrasound Clinical V
(cross-leveled with DMU 7944). Application of diagnostic vascular ultrasound in supervised clinical settings: practice, decision making, patient handling and image processing.

Credit Hours: 7
Prerequisites: Restricted to Diagnostic Medical Ultrasound students

DMU 4995: Cardiac Ultrasound Clinical VI
(cross-leveled with DMU 7945). Application of ultrasonography in real clinical settings for learning, practicing and decision making regarding, patient handling and imaging process with students supervised in a clinical setting. Graded on A-F basis only.

Credit Hours: 6
Prerequisites: DMU 4313, DMU 4315, and DMU 4944. Instructor and Departmental permission required

DMU 4996: Cardiac Ultrasound Clinical VII
(cross-leveled with DMU 7946). Further application of ultrasonography for continuation of learning, practicing and decision making, patient handling and imaging process with students supervised in a clinical setting. Graded on A-F basis only.

Credit Hours: 6
Prerequisites: DMU 4313, DMU 4315, DMU 4338 and DMU 4945. Instructor and Departmental permission required

DMU 4997: Cardiac Ultrasound Clinical VIII
(cross-leveled with DMU 7947). Further application of ultrasonography for continuation of learning, practicing and decision making, patient handling and imaging process with students supervised in a clinical setting. Graded on A-F basis only.

Credit Hours: 6
Prerequisites: DMU 4313, DMU 4315, DMU 4338 and DMU 4945. Instructor and Departmental permission required

DMU 4998: Cardiac Ultrasound Clinical IX
(cross-leveled with DMU 7948). Further application of ultrasonography for continuation of learning, practicing and decision making, patient handling and imaging process with students supervised in a clinical setting. Graded on A-F basis only.

Credit Hours: 6
Prerequisites: DMU 4313, DMU 4315, DMU 4338 and DMU 4945. Instructor and Departmental permission required

DMU 4999: Cardiac Ultrasound Clinical X
(cross-leveled with DMU 7949). Further application of ultrasonography for continuation of learning, practicing and decision making, patient handling and imaging process with students supervised in a clinical setting. Graded on A-F basis only.

Credit Hours: 6
Prerequisites: DMU 4313, DMU 4315, DMU 4338 and DMU 4945. Instructor and Departmental permission required

DMU 7200: Diagnostic Medical Ultrasound Principles and Patient Care
Introduction diagnostic medical ultrasound principles including history, development, ultrasound physics - equipment fundamentals. Provides introduction to concepts of sonographic techniques, positioning, image critique, aspects of patient care and professional organizations. Graded on A-F basis only.

Credit Hours: 8
Prerequisites: Restricted to Graduate Diagnostic Medical Ultrasound students

DMU 7234: Clinical Pathophysiology
(cross-leveled with DMU 4234). Abnormal function of organ systems in the presence of disease; clinical manifestations and medical management.

Credit Hours: 3

DMU 7309: Normal Ultrasound Clinical
(cross-leveled with DMU 4309). Integration of ultrasound instrumentation and clinical practice in a laboratory setting. Interaction between the sonographer, equipment and patient.

Credit Hours: 5
Prerequisites: admitted to the DMU program
DMU 7311: Pathological Images Ultrasound  
(cross-leveled with DMU 4311). Disease presentation in ultrasound imaging. Practical aspects of ultrasound scanning techniques in pathology.  
Credit Hours: 3  
Prerequisites: Restricted to Diagnostic Medical Ultrasound students

DMU 7312: Sectional Anatomy  
(same as RA_SCI 7110; cross-leveled with DMU 4312, RA_SCI 4110). A study of human anatomy using the sectional approach; anatomical structures will be related to modern medical imaging techniques. Graded on A-F basis only.  
Credit Hours: 3  
Prerequisites: Restricted to Graduate Diagnostic Medical Ultrasound students

DMU 7313: Ultrasound Physics  
(cross-leveled with DMU 4313). Principles of diagnostic ultrasound physics. Sound wave characteristics, tissue interaction, power intensity, and Doppler physics.  
Credit Hours: 3  
Prerequisites: Restricted to Diagnostic Medical Ultrasound students

DMU 7314: Abdominal Ultrasound  
(cross-leveled with DMU 4314). Differentiation between normal and pathological ultrasound studies of the abdomen. Differential diagnosis of pathological states.  
Credit Hours: 5  
Prerequisites: Restricted to Diagnostic Medical Ultrasound students

DMU 7315: Ultrasound Instrumentation  
(cross-leveled with DMU 4315). Integration of ultrasound physics and instrumentation components in a laboratory setting. Practice in modes of operation and safety.  
Credit Hours: 3  
Prerequisites: Restricted to Diagnostic Medical Ultrasound students

DMU 7318: Gynecology Ultrasound  
Credit Hours: 3  
Prerequisites: Restricted to Diagnostic Medical Ultrasound students

DMU 7320: Obstetrics Ultrasound  
(cross-leveled with DMU 4320). Study of normal and abnormal obstetrical ultrasound anatomy. Distinction between normal and pathological OB ultrasound studies with emphasis on differential diagnosis.  
Credit Hours: 3  
Prerequisites: Restricted to Diagnostic Medical Ultrasound students

DMU 7322: Superficial Organs Ultrasound  
(cross-leveled with DMU 4322). Ultrasound evaluation and diagnosis of normal and abnormal superficial organs; thyroid gland, testes, breasts, soft tissues and musculoskeletal.  
Credit Hours: 3  
Prerequisites: Restricted to Diagnostic Medical Ultrasound students

DMU 7325: Ultrasonic Clinical Pharmacology and Contrast Agents  
(cross-leveled with DMU 4325). Study of the biophysical, biochemical and complete action of ultrasound contrast agents and other drugs used in DMU and their pharmacodynamics.  
Credit Hours: 3  
Prerequisites: Restricted to Graduate Diagnostic Medical Ultrasound majors

DMU 7326: Vascular Ultrasound Physics, Instrumentation and Hemodynamics  
(cross-leveled with DMU 4326). Study of vascular principles and fundamentals including physics and instrumentation. Emphasis on ultrasound wave characteristics, Doppler principles, tissue interaction and hemodynamics.  
Credit Hours: 3  
Prerequisites: Restricted to Diagnostic Medical Ultrasound students

DMU 7330: Vascular Ultrasound Lab  
Credit Hours: 3  
Prerequisites: Restricted to Diagnostic Medical Ultrasound students

DMU 7332: Vascular Ultrasound  
(cross-leveled with DMU 4332). Vascular ultrasound for normal and pathological processes: study of disease, correlation of patients' clinical data and ultrasound findings used in differential diagnosis.  
Credit Hours: 4  
Prerequisites: Restricted to Diagnostic Medical Ultrasound students

DMU 7338: Cardiac Ultrasound, Principles and Hemodynamics  
(cross-leveled with DMU 4338). Study of cardiac ultrasound fundamentals including: wave characteristics, principles of 2-D/3-D/4-D imaging, M-mode, and Doppler, cardiac anatomy and physiology, embryology, evaluation methods and hemodynamics. Graded on A-F basis only.  
Credit Hours: 3  
Prerequisites: Restricted to Diagnostic Medical Ultrasound students

DMU 7342: Adult Cardiac Ultrasound  
(cross-leveled with DMU 4342). Study of adult cardiac ultrasound for normal and pathological processes. Differential diagnosis of cardiac disease through correlation of patients’ clinical data and ultrasound findings.  
Credit Hours: 5  
Prerequisites: Restricted to Diagnostic Medical Ultrasound students
DMU 7941: Ultrasound Clinical I

Credit Hours: 7
Prerequisites: Restricted to Diagnostic Medical Ultrasound students

DMU 7943: Ultrasound Clinical III
(cross-leveled with DMU 4943). Final clinical application of general medical ultrasound practicum in supervised clinical settings. Further enhancement of practice, decision making, patient handling, image processing and case studies.

Credit Hours: 6
Prerequisites: Restricted to Diagnostic Medical Ultrasound students

DMU 7944: Vascular Ultrasound Clinical IV
(cross-leveled with DMU 4944). Application of diagnostic vascular ultrasound in supervised clinical settings: practice, decision making, patient handling and image processing.

Credit Hours: 7
Prerequisites: Restricted to Diagnostic Medical Ultrasound students

DMU 7945: Cardiac Ultrasound Clinical V
(cross-leveled with DMU 4945). Application of diagnostic cardiac ultrasound in supervised clinical settings: practice and decision making regarding echocardiography, patient handling and image processing.

Credit Hours: 6
Prerequisites: Restricted to Diagnostic Medical Ultrasound students

DMU 7946: Cardiac Ultrasound Clinical VI
(cross-leveled with DMU 4946). Further enhancement of diagnostic cardiac ultrasound in supervised clinical settings: practice and decision making regarding echocardiography, patient handling and image processing.

Credit Hours: 6
Prerequisites: Restricted to Diagnostic Medical Ultrasound students

DMU 7949: Ultrasound Clinical II
(cross-leveled with DMU 4993). Application of medical ultrasound in supervised clinical settings with practice and decision making related to ultrasound diagnosis, patient handling and image processing.

Credit Hours: 8
Prerequisites: Restricted to Graduate Diagnostic Medical Ultrasound students

DMU 8001: Topics in Diagnostic Medical Ultrasound
Organized study of selected topics. Topic may vary.

Credit Hour: 1-3
Prerequisites: restricted to students enrolled in the Diagnostic Medical Ultrasound program only

DMU 8050: Research in Diagnostic Medical Ultrasound
Research not leading to a thesis or dissertation. Graded on an A-F basis only.

Credit Hour: 1-99
Prerequisites: restricted to students enrolled in the Diagnostic Medical Ultrasound program only

DMU 8085: Problems in Diagnostic Medical Ultrasound
Independent study of a special project involving clinical applications or research. Topic may vary.

Credit Hour: 1-99
Prerequisites: restricted to students enrolled in the Diagnostic Medical Ultrasound program only

DMU 8346: Pediatric Cardiac Ultrasound
Study of pediatric cardiac ultrasound for normal and pathological processes. Differential diagnosis of cardiac disease through correlation of patients' clinical data and ultrasound findings.

Credit Hours: 4
Prerequisites: Restricted to Diagnostic Medical Ultrasound students

DMU 8947: Applied Clinical Research & Practicum
Clinical research application of cardiovascular & general ultrasound in clinical environment: clinical research, practicum, decision making, patient handling, and image processing. Graded on A-F basis only.

Credit Hour: 5-8
Prerequisites: Restricted to Diagnostic Medical Ultrasound students

Digital Storytelling (DST)

DST 1800: Introduction to Film Studies
(same as FILM_S 1800, ENGLSH 1800). Introduction to terms and concepts for film analysis, including mise-en-scene, cinematography, editing, sound, narrative, genre, and other elements. No credit for students who have completed FILM_S 2810. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: Freshmen and sophomores only or instructor's consent

DST 1880: Introduction to Digital Media Production
(same as ENGLSH 1880; FILM_S 1880, ART_GNRL 1920). Introduction to concepts and skills for Digital Storytelling, including media literacy and forms of narrative manifested historically and currently across a range of media. This course focuses on theories and concepts that support the critical analysis and creation of contemporary narrative in digital form with particular attention to audio, visual and written communication. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: Enrollment limited to declared DST majors during early registration

DST 1880: Introduction to Digital Media Production
(same as ENGLSH 1880; FILM_S 1880, ART_GNRL 1920). Introduction to concepts and skills for Digital Storytelling, including media literacy and forms of narrative manifested historically and currently across a range of media. This course focuses on theories and concepts that support the critical analysis and creation of contemporary narrative in digital form with particular attention to audio, visual and written communication. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: Enrollment limited to declared DST majors during early registration

DST 2001: Topics in Digital Storytelling
Organized study of selected topics in Digital Storytelling. Subject may vary from semester to semester. May be repeated with consent of instructor. Graded on A-F basis only.

Credit Hours: 3
DST 2005: Topics in Digital Storytelling
Organized study of selected topics in Digital Storytelling. Subject may vary from semester to semester. May be repeated with consent of instructor. Graded on A-F basis only.

Credit Hours: 3

DST 2860: Film Themes and Genres
(same as ENGLISH 2860, FILM_S 2860). Topics (e.g. film noir, African-American filmmakers, food and film, the western) announced at time of registration.

Credit Hours: 3
Prerequisites: ENGLISH 1800 or FILM_S 1800
Recommended: ENGLISH 1000

DST 2880: Digital Storytelling Production I
(same as ENGLISH 2880). Digital Storytelling Production I teaches agility with digital video technology through applied experiences. Assignments in digital video production emphasize how video narratives are created and how images and audio enhance the structure, mood, and theme of the narrative. Instruction will focus on planning a video production and developing the tools and practices in lighting, sound recording, image capturing, and editing. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: DST 1880 or ENGLISH 1880 or FILM_S 1880 or ART_GNRL 1920 or consent of instructor. Enrollment limited to declared DST majors during early enrollment.

DST 2885: Digital Storytelling Animation Production I
(same as ENGLISH 2885). Introduction to all aspects of digital animation and elements of the 3D computer animation production pipeline, including story drafting and production planning, polygonal modeling and texturing, rigging, key framing, lighting, compositing rendered images, and editing into a short finished film. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: DST 1880 or ENGLISH 1880 or FILM_S 1880 or ART_GNRL 1920 or instructor consent. Enrollment limited to declared DST majors during early enrollment.

Recommended: ENGLISH 1000

DST 3001: Topics in Digital Storytelling
Organized study of selected topics in Digital Storytelling. Subject may vary from semester to semester. May be repeated with consent of instructor. Graded on A-F basis only.

Credit Hours: 3
Recommended: Sophomore standing

DST 3005: Topics in Digital Storytelling
Organized study of selected topics in Digital Storytelling. Subject may vary from semester to semester. May be repeated with consent of instructor. Graded on A-F basis only.

Credit Hours: 3
Recommended: Sophomore standing

DST 3005W: Topics in Digital Storytelling
Organized study of selected topics in Digital Storytelling. Subject may vary from semester to semester. May be repeated with consent of instructor. Graded on A-F basis only.

Credit Hours: 3

DST 3510: Think Global: Fundamentals of Globalization and Digital Technology
(same as GERMAN 3510, JOURN 3510, PEA_ST 2810, T_A_M 3010). This interdepartmental course serves as one of the core seminars for students pursuing the undergraduate Certificate in Digital Global Studies. The course focuses on the impact of technological change and globalization on cultures around the world from various interdisciplinary perspectives. The course is open to students in any discipline. Graded on A-F basis only.

Credit Hours: 3

(same as GERMAN 3510H, JOURN 3510H, PEA_ST 2810H, T_A_M 3010H). This interdepartmental course serves as one of the core seminars for students pursuing the undergraduate Certificate in Digital Global Studies. The course focuses on the impact of technological change and globalization on cultures around the world from various interdisciplinary perspectives. The course is open to students in any discipline. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: Sophomore standing; 2.75 GPA or instructor's consent. Honors eligibility required

(same as JOURN 3510HW, T_A_M 3010HW, PEA_ST 2810HW, GERMAN 3510HW). This interdepartmental course serves as one of the core seminars for students pursuing the undergraduate Certificate in Digital Global Studies. The course focuses on the impact of technological change and globalization on cultures around the world from various interdisciplinary perspectives. The course is open to students in any discipline. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: Sophomore standing; 2.75 GPA or instructor's consent. Honors eligibility required

DST 3510W: Think Global: Fundamentals of Globalization and Digital Technology - Writing Intensive
(same as GERMAN 3510W, JOURN 3510W, PEA_ST 2810W, T_A_M 3010W). This interdepartmental course serves as one of the core seminars for students pursuing the undergraduate Certificate in Digital Global Studies. The course focuses on the impact of technological change and globalization on cultures around the world from various interdisciplinary perspectives. The course is open to students in any discipline. Graded on A-F basis only.

Credit Hours: 3
DST 3855: Documentary Film
(same as ENGLISH 3855, FILM_S 3855). Surveys the history of documentary film including the development of subgenres, sound and voice over in documentary, re-enactment, ethical issues in documentary film production, and more. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: ENGLISH 1000

DST 3860: Special Themes in Digital Storytelling
Themes (e.g., Indigenous digital studies, folklore and the internet) announced at time of registration. No more than six hours may be taken in the Special Themes in Digital Storytelling. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: ENGLISH 1000

DST 3880: Writing and Theory for Digital Media
(same as ENGLISH 3880). Writing and Theory for Digital Media teaches the skills, methods and theoretical frameworks needed to write for new media. Students will study and practice writing for web-based and digital media platforms, including short-form modes such as Twitter and various social media sites; longer-form modes such as blogs, vlogs and podcasts; and the emerging possibilities of locative and interactive media. Assignments emphasize the professional and creative possibilities of new media production. In addition to the hands-on creation of audio, screen-based, networked, and hybrid forms of digital media, students will also read, discuss, and write about work by new media theorists. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: DST 1880 or ENGLISH 1880 or FILM_S 1880 or ART_GNRL 1920 or instructor consent. Enrollment limited to declared DST majors during early enrollment
Recommended: Sophomore standing or above; ENGLISH 1000

DST 3880W: Writing and Theory for Digital Media - Writing Intensive
(same as ENGLISH 3880W). Writing and Theory for Digital Media teaches the skills, methods and theoretical frameworks needed to write for new media. Students will study and practice writing for web-based and digital media platforms, including short-form modes such as Twitter and various social media sites; longer-form modes such as blogs, vlogs and podcasts; and the emerging possibilities of locative and interactive media. Assignments emphasize the professional and creative possibilities of new media production. In addition to the hands-on creation of audio, screen-based, networked, and hybrid forms of digital media, students will also read, discuss, and write about work by new media theorists. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: DST 1880 or ENGLISH 1880 or FILM_S 1880 or ART_GNRL 1920 or instructor consent. Enrollment limited to declared DST majors during early enrollment
Recommended: Sophomore standing or above; ENGLISH 1000

DST 3885: Audio Storytelling
Students in this course explore the skills, methods and theoretical frameworks needed to produce audio for new media and to understand the relationship between audio and digital culture. Students will study and practice writing and producing for web-based and digital media platforms. Assignments emphasize the professional and creative possibilities of new media production with an emphasis on audio. In addition to the hands-on creation of audio for radio, podcast, as well as screen-based, networked, and hybrid forms of digital media, students will also read, discuss, and write about work by producers and radio historians and theorists. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: DST 1880/ENGLISH 1880/FILM_S 1880/ART_GNRL 1920 or consent of instructor

DST 3885W: Audio Storytelling - Writing Intensive
Students in this course explore the skills, methods and theoretical frameworks needed to produce audio for new media and to understand the relationship between audio and digital culture. Students will study and practice writing and producing for web-based and digital media platforms. Assignments emphasize the professional and creative possibilities of new media production with an emphasis on audio. In addition to the hands-on creation of audio for radio, podcast, as well as screen-based, networked, and hybrid forms of digital media, students will also read, discuss, and write about work by producers and radio historians and theorists. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: DST 1880/ENGLISH 1880/FILM_S 1880/ART_GNRL 1920 or consent of instructor

DST 4005: Topics in Digital Storytelling
Advanced study of selected topics in Digital Storytelling. Subject may vary from semester to semester. May be repeated with consent of instructor. Graded on A-F basis only.

Credit Hours: 3
Recommended: Sophomore standing

DST 4805: Case Studies in an Inter/Multicultural World
(same as GERMAN 4810, PEA_ST 4810, T_A_M 4810). This interdepartmental course examines the ways in which people across the globe are affected every day by an unprecedented array of linkages that defy geographic and political boundaries. Also serves as one of the seminars for the certificate in Digital Global Studies. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: ENGLISH 1000

DST 4810: Film Theory
(same as ENGLISH 4810, FILM_S 4810). This course explores contemporary trends in film theory. Topics may include: psychoanalysis, feminism, Marxism, cultural studies, queer theory, audience and star studies, post colonialism, among others.

Credit Hours: 3
Prerequisites: ENGLISH 1000 and ENGLISH 1800 or FILM_S 1800; junior standing

DST 4840: Culture and Media
(same as ENGLISH 4840, FILM_S 4840). Topics (e.g. Cinema and Imperialism, Indigenous Media, Ethnographic Documentary) announced at time of registration.

Credit Hours: 3
Prerequisites: ENGLISH 1000 and ENGLISH 1800 or FILM_S 1800; junior standing or instructor's consent required

DST 4880: Digital Storytelling Production II
(same as ENGLISH 4880). Digital Storytelling Production II introduces students to advanced techniques in digital storytelling production, while further developing skills in script writing, storyboarding, Adobe Premiere Pro, and video production with DSLR cameras. Assignments in digital video production emphasize how video narratives are created and how images and audio enhance the structure, mood, and theme of the narrative. Instruction will focus on planning a video production and developing the tools and practices in lighting, sound recording, image capturing, and editing. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: ENGLISH 1000 and DST 1880 or ENGLISH 1880 or FILM_S 1880 or ART_GNRL 1920 and DST 2880 or ENGLISH 2880 and sophomore standing, or consent of instructor. Enrollment is limited to declared DST majors during early registration

DST 4885: Digital Storytelling Animation Production II
Advanced instruction in various aspects of digital animation and elements of the 3D computer animation production pipeline, including story drafting and production planning, polygonal modeling and texturing, rigging, key framing, lighting, compositing rendered images, and editing into a short finished film. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: ENGLISH 1000 and DST 1880 or ENGLISH 1880 or FILM_S 1880 or ART_GNRL 1920 and DST 2880 or ENGLISH 2880 and sophomore standing, or consent of instructor. Enrollment limited to DST majors during early registration

DST 4930: Digital Storytelling Practicum
This course provides an opportunity for experiential learning in digital storytelling practice. Students will receive hands-on training through an intensive master class. Graded on S/U basis only.

Credit Hour: 1-6
Prerequisites: Instructor's consent

DST 4940: Digital Storytelling Internship
Students work in an agency or institution using their digital storytelling skills for one to three credit hours. Graded on an S/U basis only.

Credit Hour: 1-3
Prerequisites: Program consent

DST 4955: Independent Research in Digital Storytelling
Development of a carefully considered research project under close supervision of a faculty member. Open to undergraduate students only. Graded on A-F basis only.

Credit Hour: 1-3
Prerequisites: Instructor consent required

DST 4970: Capstone Experience
For students in their senior year who have completed the core requirements for the Digital Storytelling program, this course focuses on advanced studies in the field and a major project involving the processes of selection, research, and production or writing leading to its completion. May include a professional component. Graded on A-F basis only.

Credit Hours: 1-6
Prerequisites: DST 1880, and DST 2880 or DST 2885, and DST 4880 or DST 4885

Economics (ECONOM)

ECONOM 1000: General Economics
One semester course covering similar material as covered in ECONOM 1014 and ECONOM 1015. Topics include opportunity costs, gains from trade, efficiency and markets, non-competitive markets, game theory, government spending and taxation, economic growth, monetary and fiscal policy, unemployment and inflation, exchange rates. Includes applications for Journalism students. Not open to students who have completed ECONOM 1014 or ECONOM 1024 and, ECONOM 1015 or AG_EC 1041 and AG_EC 1042. Graded on A-F basis only.

Credit Hours: 5
Prerequisites: Open only to majors in Education, Health Professions, Human Environmental Science and Journalism (including Journalism pre-majors)

ECONOM 1014: Principles of Microeconomics
A basic examination of the economy at the individual consumer, firm and market level. Simple economic models used to analyze the workings of the economy. Topics include opportunity costs, gains from trade, efficiency and markets, non-competitive markets, game theory, the importance of free trade, the markets response to economic shocks and the effect of government intervention. Not open to students who have completed ECONOM 1024, ECONOM 1051, or AG_EC 1041.

Credit Hours: 3
ECONOM 1014 - MOTR ECON 102: Introduction to Microeconomics

ECONOM 1014H: Principles of Microeconomics-Honors
An examination of the economy at the individual consumer, firm and market level. This course introduces and applies basic economic models to analyze the workings of the economy. Topics include opportunity costs, gains from trade, efficiency and markets, market failure, wage and price discrimination, game theory, inequality, poverty and the effects of government intervention in the economy. Not open to students who have completed ECONOM 1000, 1024, 1051, or AG_EC 1041. Math Reasoning Proficiency Course. Graded on A-F basis only.

Credit Hours: 3
ECONOM 1014H - MOTR ECON 102: Introduction to Microeconomics

ECONOM 1015: Principles of Macroeconomics
Macroeconomics generally refers to a collection of questions about how scarcity affects a collection of people interacting with one another. In this course, our focus is on understanding how scarcity affects welfare of a nation. Topics include Gross Domestic Product, government spending and taxation, economic growth, monetary and fiscal policy, unemployment and inflation, and exchange rates. Not open to students who have completed ECONOM 1051 or AG_EC 1042.

Credit Hours: 3
ECONOM 1015 - MOTR ECON 101: Introduction to Macroeconomics
ECONOM 1024: Fundamentals of Microeconomics
This course uses mathematical reasoning to provide an elementary quantitative introduction to fundamental concepts in microeconomics. It uses college algebra and simple geometric concepts to describe the behavior of economic units, such as consumers, firms and resource owners, and to depict their interaction through production and exchange in perfect and imperfect markets. Not open to students who have completed ECONOM 1014, ECONOM 1051, or AG_ECON 1041. Math Reasoning Proficiency Course.
Credit Hours: 3
Prerequisites: MATH 1100 or MATH 1120 or equivalent with grade of C or better

ECONOM 1051H: General Economics - Honors
One semester course covering similar material as covered in ECONOM 1014 and ECONOM 1015. Topics include opportunity costs, gains from trade, efficiency and markets, non-competitive markets, game theory, government spending and taxation, economic growth, monetary and fiscal policy, unemployment and inflation, exchange rates. Not open to students who have completed ECONOM 1014 or ECONOM 1024 and ECONOM 1015. Math Reasoning Proficiency Course.
Credit Hours: 5
Prerequisites: Honors eligibility required

ECONOM 2004: Undergraduate Topics in Economics - Social Science
Organized study of selected topics in Economics; applied or theoretical economics; covers subjects not included in regularly offered courses.
Credit Hour: 1-3
Prerequisites: instructor’s consent

ECONOM 3224: Introduction to International Economics
A topical course which emphasizes the application of basic economic analysis to real and current international economic issues. Topics include free trade, protectionism, free trade areas, multilateral trade negotiations, trade and development, exchange rates, the International Monetary System, and economic integration.
Credit Hours: 3
Prerequisites: ECONOM 1014 or ECONOM 1024 or ECONOM 1051

ECONOM 3229: Money, Banking and Financial Markets
Operation of the U.S. financial and economic system. Covers interest rates, banking regulation, the money supply process and the conduct of the Federal Reserve, inflation and the macroeconomy, exchange rates and the international financial system, rational expectations, and efficient markets.
Credit Hours: 3
Prerequisites: (ECONOM 1014 or ECONOM 1024) and ECONOM 1015, or ECONOM 1051, or AG ECON 1041 with a minimum grade of C-

ECONOM 3229H: Money, Banking and Financial Markets - Honors
Operation of the U.S. financial and economic system. Covers interest rates, banking regulation, the money supply process and the conduct of the Federal Reserve, inflation and the macroeconomy, exchange rates and the international financial system, rational expectations, and efficient markets.
Credit Hours: 3
Prerequisites: ECONOM 3251 or ECONOM 4351

ECONOM 3251: Theory of the Firm
Theory of rational behavior in consumption, production, and pricing decisions of households and firms. Topics include the economics of the firm in the context of partial equilibria in product and factor markets under competition, monopoly, oligopoly and monopolistic competition as well as game theory. No credit for students who have completed ECONOM 4351.
Credit Hours: 3
Prerequisites: (ECONOM 1014 or ECONOM 1024 or ECONOM 1051) and MATH 1400, or equivalent. Not open to economics majors

ECONOM 3323: Capitalism, Democracy and Society
This is a one-credit seminar course for students interested in careers involving social science research and analysis; topics covered will be a selection of classic and contemporary debates in the social sciences.
Credit Hour: 1
Prerequisites: ECONOM 1014 and ECONOM 1015, or ECONOM 1051

ECONOM 3940: Internship
Internship experience for students interested in economics. Supervised internship work with approval of Director of Undergraduate Studies and academic adviser. Graded on S/U basis only.
Credit Hour: 1-3
Prerequisites: ECONOM 1014 or ECONOM 1051

ECONOM 4004: Topics in Economics- Social Science
Study in applied or theoretical economics; covers subjects not included in regularly offered courses.
Credit Hour: 1-3
Prerequisites: instructor's consent

ECONOM 4004W: Topics in Economics- Social Science - Writing Intensive
Study in applied or theoretical economics; covers subjects not included in regularly offered courses.
Credit Hour: 1-3
Prerequisites: instructor's consent

ECONOM 4311: Labor Economics
(cross-leveled with ECONOM 7311). Surveys theoretical explanations of wage and employment determination in contemporary labor markets.
Credit Hours: 3
Prerequisites: ECONOM 3251 or ECONOM 4351

ECONOM 4311W: Labor Economics - Writing Intensive
Surveys theoretical explanations of wage and employment determination in contemporary labor markets.
Credit Hours: 3
Prerequisites: ECONOM 3251 or ECONOM 4351
ECONOM 4315: Public Economics  
(cross-leveled with ECONOM 4315). Analyzes economic effects of government expenditures, taxes and debt. Expenditure and taxation principles, tax reform, cost-benefit analysis, fiscal policy.  
Credit Hours: 3  
Prerequisites: ECONOM 3251 or ECONOM 4351

ECONOM 4315W: Public Economics - Writing Intensive  
Analyzes economic effects of government expenditures, taxes and debt. Expenditure and taxation principles, tax reform, cost-benefit analysis, fiscal policy.  
Credit Hours: 3  
Prerequisites: ECONOM 3251 or ECONOM 4351

ECONOM 4320: History of Economic Thought  
(cross-leveled with ECONOM 7320). Origins of modern economic thought in the context of social and intellectual environment of the time in which they originated, their contribution to their period and to modern thought.  
Credit Hours: 3  
Prerequisites: (ECONOM 1014 or ECONOM 1024) and ECONOM 1015, or ECONOM 1051

ECONOM 4320W: History of Economic Thought  
Origins of modern economic thought in the context of social and intellectual environment of the time in which they originated, their contribution to their period and to modern thought.  
Credit Hours: 3  
Prerequisites: (ECONOM 1014 or ECONOM 1024) and ECONOM 1015, or ECONOM 1051

ECONOM 4326: Economics of International Trade  
(cross-leveled with ECONOM 7326). The microeconomic theory of international trade. Topics include comparative advantage, the theory of commercial policy, economic integration, trade with less developed countries and the trade effects of economic growth.  
Credit Hours: 3  
Prerequisites: ECONOM 3251 or ECONOM 4351

ECONOM 4326W: Economics of International Trade - Writing Intensive  
(cross-leveled with ECONOM 7326). The microeconomic theory of international trade. Topics include comparative advantage, the theory of commercial policy, economic integration, trade with less developed countries and the trade effects of economic growth.  
Credit Hours: 3  
Prerequisites: ECONOM 3251 or ECONOM 4351

ECONOM 4329: The Banking System and the Money Market  
(cross-leveled with ECONOM 7329). Organization of the money market; credit control procedures and aims, effect of bank expansion and contraction on money market and national income deregulation.  
Credit Hours: 3  
Prerequisites: ECONOM 1015 or ECONOM 1051

ECONOM 4329W: The Banking System and the Money Market - Writing Intensive  
Organization of the money market; credit control procedures and aims, effect of bank expansion and contraction on money market and national income deregulation.  
Credit Hours: 3  
Prerequisites: ECONOM 1015 or ECONOM 1051

ECONOM 4340: Introduction to Game Theory  
(cross-leveled with ECONOM 7340). An introduction to the theory of games, viewed as a set of tools used widely in economics to study situations in which decision-makers (consumers, firms, governments, etc.) interact. The course introduces the basic theory, emphasizing the concepts and their economic applications.  
Credit Hours: 3  
Prerequisites: ECONOM 3251 or ECONOM 4351

ECONOM 4345: Economics of Education  
(cross-leveled with ECONOM 7345). Economic theory is used to analyze the market for educational services and education policy. Topics include: human capital theory, cost and performance measures for public and private schools, market based approaches to school reform, school finance, higher education cost and access.  
Credit Hours: 3  
Prerequisites: (ECONOM 1014 or ECONOM 1024 or ECONOM 1051), and STAT 2500 or equivalent

ECONOM 4345W: Economics of Education - Writing Intensive  
Economic theory is used to analyze the market for educational services and education policy. Topics include: human capital theory, cost and performance measures for public and private schools, market based approaches to school reform, school finance, higher education cost and access.  
Credit Hours: 3  
Prerequisites: (ECONOM 1014 or ECONOM 1024 or ECONOM 1051), and STAT 2500 or equivalent

ECONOM 4351: Intermediate Microeconomics  
(cross-leveled with ECONOM 7351). Theory of rational behavior in consumption, production, and pricing decisions of households and firms. Partial equilibria in product and factor markets under competition, monopoly, oligopoly and monopolistic competition. A brief introduction to general equilibrium and welfare economics is provided. Calculus is employed. No credit for students who have completed ECONOM 3251.  
Credit Hours: 3  
Prerequisites: (ECONOM 1014 or ECONOM 1024 or ECONOM 1051) and MATH 1400 or equivalent

ECONOM 4351H: Intermediate Microeconomics - Honors  
Theory of rational behavior in consumption, production, and pricing decisions of households and firms. Partial equilibria in product and factor markets under competition, monopoly, oligopoly and monopolistic competition. A brief introduction to general equilibrium and welfare economics is provided. Calculus is employed. No credit for students who have completed ECONOM 3251.
ECONOM 4353: Intermediate Macroeconomics
(cross-leveled with ECONOM 7353). The study of the structure and performance of national economics. Topics include: long-term economic growth, aggregate economic fluctuations, unemployment, and inflation; consequences for national economies of being part of the global economic system; government policies and macroeconomic performance.

Credit Hours: 3
Prerequisites: ECONOM 1014 or ECONOM 1024 or ECONOM 1051, and MATH 1400, or equivalent. Honors eligibility required

ECONOM 4355: Industrial Organization and Competitive Strategy
(cross-leveled with ECONOM 7355). Analyzes the structure of industry, its impact on the operations of the firm and significance for public policy. The focus is on strategic interaction among firms with market power. Topics include oligopoly, competition, collusion, price discrimination, product differentiation, advertising, entry and exit.

Credit Hours: 3
Prerequisites: ECONOM 3251 or ECONOM 4351

ECONOM 4355W: Industrial Organization and Competitive Strategy - Writing Intensive
Analyzes the structure of industry, its impact on the operations of the firm and significance for public policy. The focus is on strategic interaction among firms with market power. Topics include oligopoly, competition, collusion, price discrimination, product differentiation, advertising, entry and exit.

Credit Hours: 3
Prerequisites: ECONOM 3251 or ECONOM 4351

ECONOM 4357: Health Economics
(cross-leveled with ECONOM 4357, PUB_AF 4357). Analyzes the economics of health care in the United States with particular attention paid to the role of government. It examines the demand for health care and the structure and consequences of public and private health insurance; the supply of health care, including professional training, licensure, specialization and compensation, hospital competition and finance, and the determinants and consequences of technical change in medicine and health care reform.

Credit Hours: 3
Prerequisites: ECONOM 3251 or ECONOM 4351 and STAT 2500, or equivalent

ECONOM 4357W: Health Economics - Writing Intensive
Analyzes the economics of health care in the United States with particular attention paid to the role of government. It examines the demand for health care and the structure and consequences of public and private health insurance; the supply of health care, including professional training, licensure, specialization and compensation, hospital competition and finance, and the determinants and consequences of technical change in medicine and health care reform.

Credit Hours: 3
Prerequisites: ECONOM 3251 or ECONOM 4351 and STAT 2500, or equivalent

ECONOM 4367: Law and Economics
(cross-leveled with ECONOM 7367 PUB_AF 7367). This course is a survey of economic analyses of American legal institutions. Students will apply basic microeconomics, game theoretic and statistical concepts to the study of property, contracts, torts, the legal process, crime, and the judiciary.

Credit Hours: 3
Prerequisites: ECONOM 3251 or ECONOM 4351, and STAT 2500, or equivalent

ECONOM 4367W: Law and Economics - Writing Intensive
This course is a survey of economic analyses of American legal institutions. Students will apply basic microeconomics, game theoretic and statistical concepts to the study of property, contracts, torts, the legal process, crime, and the judiciary.

Credit Hours: 3
Prerequisites: ECONOM 3251 or ECONOM 4351, and STAT 2500, or equivalent

ECONOM 4370: Quantitative Economics
(cross-leveled with ECONOM 7370). The aim of this course is to provide an introduction to the mathematical language of economic theory. Topics include linear models, matrix algebra, rules of differentiation and comparative static analysis, optimization.

Credit Hours: 3
Prerequisites: MATH 1500 or equivalent

ECONOM 4371: Introductory Econometrics
(cross-leveled with ECONOM 7371). Study methods for quantitative analysis of economic data. Estimation techniques, tests of significance, prediction and forecasting reviewed with respect to problems presented by economic data and information demands of economic decision models.

Credit Hours: 3
Prerequisites: ECONOM 3251 or ECONOM 4351, and STAT 2500, or equivalent

ECONOM 4385: Problems in Economics
Development of a carefully considered research project under close supervision of a faculty member. Credit arranged by instructor.

Credit Hour: 1-3
Prerequisites: ECONOM 4351, ECONOM 4371, and instructor's consent. Not open to non-majors

ECONOM 4775: Dynamic Optimization and its Applications to the Natural Sciences and Economics

Credit Hour: 1-3
Prerequisites: ECONOM 4370 or instructor's consent
ECONOM 4940: Internship in Economics
Internship experience for Economics majors. 40 hours of supervised internship work with approval of Director of Undergraduate Studies and academic advisor. Graded on S/U basis only.

Credit Hour: 1-3
Prerequisites: C or higher in ECONOM 4351 and ECONOM 4371; Declared economics majors who have a minimum overall CUM GPA of 2.75 and have junior or senior standing
Recommended: Students must have completed at least 15 credit hours at MU

ECONOM 4965: Independent Study in Economics
Individual work, with conferences adjusted to needs of student.

Credit Hour: 1-3
Prerequisites: instructor's consent

ECONOM 4970: Senior Seminar in Economics
Seminar for graduating seniors who are majoring in economics. Multiple writing assignments will emphasize synthesis of theoretical, empirical, and institutional economics. Not open to non-majors.

Credit Hours: 3

ECONOM 4971: Supplemental Senior Seminar in Economics
Content description is the same as ECONOM 4970. Required for Economics honors students and double majors in Economics who take a capstone course in another major. No credit for students who have completed ECONOM 4970. Not open to non-majors.

Credit Hour: 1

ECONOM 4995: Honors Thesis
Not open to non-majors. Capstone course required for Economics honors students.

Credit Hours: 3
Prerequisites: ECONOM 4351

ECONOM 7001: Topics in Economics - General
Study in applied or theoretical economics. Subjects and earnable credit may vary from semester to semester.

Credit Hour: 1-99
Prerequisites: instructor's consent

ECONOM 7311: Labor Economics
(cross-leveled with ECONOM 4311). Surveys theoretical explanations of wage and employment determination in contemporary labor markets.

Credit Hours: 3
Prerequisites: ECONOM 3251 or ECONOM 7351

ECONOM 7315: Public Economics
(cross-leveled with ECONOM 4315). Analyzes economic effects of government expenditures, taxes and debt. Expenditure and taxation principles, tax reform, cost-benefit analysis, fiscal policy.

Credit Hours: 3
Prerequisites: ECONOM 3251 or ECONOM 4351

ECONOM 7317: Urban Economics
(cross-leveled with ECONOM 4317). This is a class in urban economics. Topics covered include: formation of cities, land markets, housing markets, economics of transportation and commuting, cities as engines of growth and issues affecting cities such as crime, poverty and migration. Graded on A-F basis only.

Credit Hours: 3

ECONOM 7320: History of Economic Thought
(cross-leveled with ECONOM 4320). Origins of modern economic thought in the context of social and intellectual environment of the time in which they originated, their contribution to their period and to modern thought.

Credit Hours: 3
Prerequisites: ECONOM 1014 or ECONOM 1024 and ECONOM 1015 or ECONOM 1051H

ECONOM 7326: Economics of International Trade
(cross-leveled with ECONOM 4326). The microeconomic theory of international trade. Topics include comparative advantage, the theory of commercial policy, economic integration, trade with LDC's and the trade effects of economic growth.

Credit Hours: 3
Prerequisites: ECONOM 7351 or instructor's consent

ECONOM 7329: The Banking System and the Money Market
(cross-leveled with ECONOM 4329) Organization of the money market; credit control procedures and aims, effect of bank expansion and contraction on money market and national income deregulation.

Credit Hours: 3
Prerequisites: ECONOM 1015 or ECONOM 1051

ECONOM 7340: Introduction to Game Theory
(cross-leveled with ECONOM 4340). An introduction to the theory of games, viewed as a set of tools used widely in economics to study situations in which decision-makers (consumers, firms, governments, etc.) interact. The course introduces the basic theory, emphasizing the concepts and their economic applications.

Credit Hours: 3
Prerequisites: ECONOM 3251 or ECONOM 7351 or instructor's consent

ECONOM 7345: Economics of Education
(cross-leveled with ECONOM 4345). Economic theory is used to analyze the market for educational services and education policy. Topics include: human capital theory, cost and performance measures for public and private schools, market based approaches to school reform, school finance, higher education cost and access.

Credit Hours: 3
Prerequisites: ECONOM 1014 or ECONOM 1024, or ECONOM 1051H and ECONOM 4371 or equivalent

ECONOM 7351: Intermediate Microeconomics
(cross-leveled with ECONOM 4351). Theory of rational behavior in consumption, production, and pricing decisions of households and firms. Partial equilibria in product and factor markets under competition,
monopoly, oligopoly and monopolistic competition. A brief introduction
to general equilibrium and welfare economics is provided. Calculus is
employed. No credit for students who have completed 3251.

Credit Hours: 3
Prerequisites: (ECONOM 1014 or ECONOM 1024 or ECONOM 1051)
and MATH 1400 or equivalent

ECONOM 7353: Intermediate Macroeconomics
(cross-leveled with ECONOM 4353). The study of the structure and
performance of national economics. Topics include: long-term economic
growth, aggregate economic fluctuations, unemployment, and inflation;
consequences for national economies of being part of the global
economic system; government policies and macroeconomic performance.

Credit Hours: 3
Prerequisites: ECONOM 1015 or ECONOM 1051 and MATH 1400 or
equivalent

ECONOM 7355: Industrial Organization and Competitive Strategy
(cross-leveled with ECONOM 4355). Analyzes the structure of industry,
its impact on the operations of the firm and significance for public policy.
The focus is on strategic interaction among firms with market power.
Topics include oligopoly, competition, collusion, price discrimination,
product differentiation, advertising, entry and exit.

Credit Hours: 3
Prerequisites: ECONOM 3251 or ECONOM 7351

ECONOM 7357: Health Economics
(same as PUB_AF 7357; cross-leveled with ECONOM 4357). Analyzes the
economics of health care in the United States with particular attention
paid to the role of government. It examines the demand for health
care and the structure and consequences of public and private health
insurance; the supply of health care, including professional training,
licensure, specialization and compensation, hospital competition and
finance, and the determinants and consequences of technical change in
medicine; and examination of recent proposals and initiatives for health
care reform.

Credit Hours: 3
Prerequisites: STAT 2500 and ECONOM 4351

ECONOM 7361: Comparative Economic Systems
(cross-leveled with Econ 4361). Study of capitalism, market socialism,
and central planning.

Credit Hours: 3
Prerequisites: ECONOM 3229 and ECONOM 3251 or ECONOM 4351

ECONOM 7370: Quantitative Economics
(cross-leveled with ECONOM 4370). The aim of this course is to provide
an introduction to the mathematical language of economic theory.
Topics include linear models, matrix algebra, rules of differentiation and
comparative static analysis, optimization.

Credit Hours: 3
Prerequisites: MATH 1500 or equivalent

ECONOM 7371: Introductory Econometrics
(cross-leveled with ECONOM 4371). Study methods for quantitative
analysis of economic data. Estimating techniques, tests of significance,
prediction and forecasting reviewed with respect to problems presented
by economic data and information demands of economic decision
models.

Credit Hours: 3
Prerequisites: ECONOM 3251 or ECONOM 4351 and STAT 2500 and
MATH 1320 or instructor's consent

ECONOM 7775: Dynamic Optimization and its Applications to the
Natural Sciences and Economics
(cross-leveled with ECONOM 4775). Development of Calculus of
Variations and Optimal Control Theory. Applications. Extensions to
stochastic and robust control.

Credit Hour: 1-3
Prerequisites: ECONOM 7370 or instructor's consent

ECONOM 8001: Topics in Economics- General
Organized study of selected topics. Subjects and earnable credit may
vary from semester to semester.

Credit Hours: 3
Prerequisites: instructor's consent

ECONOM 8085: Problems in Economics
Graduate students may select topics for study and investigation subject
to approval by supervising faculty.

Credit Hour: 1-99

ECONOM 8340: Game Theory
Game theory is the study of strategic behavior by agents who perceive
themselves as "large" relative to the market and who therefore consider
the effect of their behavior on others. This course examines the rigorous
theory of strategic interaction of rational agents. May be repeated for
credit.

Credit Hours: 3
Prerequisites: ECONOM 4351 or equivalent; MATH 1320 or
equivalent. Graded on A-F basis only

ECONOM 8370: Mathematics for Economics
The aim of this course is to cover essential mathematics used in
economics. Topics include introductory linear algebra, multivariate
calculus, comparative statics analysis, unconstrained optimization, and
equality constrained optimization. May be repeated for credit.

Credit Hours: 3
Prerequisites: ECONOM 4351 or equivalent; MATH 1320 or equivalent.
Graded on A-F basis only

ECONOM 8413: Research Workshop I
Required course for economics MA students. Combines instruction,
student presentations, and seminar participation to introduce research
methods and practice. A major research paper are required.

Credit Hours: 3
Prerequisites: ECONOM 8451, ECONOM 8453, and ECONOM 8472 or
instructor's consent
ECONOM 8451: Microeconomic Theory
MA-level course in microeconomic theory. The course relies extensively on calculus to survey theories of: rational behavior in consumption, production, and pricing decisions of households and firms; partial equilibria in product and factor markets under competition, monopoly, oligopoly and monopolistic competition; and general equilibrium and welfare.
Credit Hours: 3

ECONOM 8453: Macroeconomic Theory
Basic models in macroeconomics will be covered with emphasis on assumptions and on how hypotheses can be tested. Course is an introductory survey for students intending to develop ability for research in macroeconomics.
Credit Hours: 3
Prerequisites: ECONOM 4353 or equivalent; at least concurrent enrollment in ECONOM 8451. Instructor's consent required for non graduate level students

ECONOM 8472: Econometric Methods I
Familiarizes students with fundamental techniques found and used in applied economic research. Topics include: ordinary least squares, generalized least square, instrumental variables, maximum likelihood estimation, and generalized methods of moments.
Credit Hours: 3
Prerequisites: STAT 7710 or instructor's consent

ECONOM 8473: Applied Econometrics
Topics include: nonlinear least squares, numerical optimization, maximum likelihood and basic panel data and time series methods. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: ECONOM 7371 and MATH 7140 or equivalent, or instructor's consent

ECONOM 9001: Topics in Economics
Selected current topics in economics.
Credit Hours: 3

ECONOM 9085: Problems in Economics
Graduate students may select topics for study and investigation subject to approval by supervising faculty.
Credit Hour: 1-99

ECONOM 9090: Research in Economics
Thesis research for Ph.D. degree. Graded on a S/U basis only.
Credit Hour: 1-99

ECONOM 9413: Research Workshop II
Introduces doctoral students to practices of preparing scholarly economic research by moving through the process of selecting a topic, identifying relevant literature, and communicating results. Graded on A-F basis only.
Credit Hour: 1-3

ECONOM 9430: Advanced Money and Banking
The working and structure of institutional arrangements, welfare aspects of structural policies, operation of money and credit markets, and behavior of returns on assets.
Credit Hours: 3
Prerequisites: ECONOM 9452 or instructor's consent

ECONOM 9431: Central Banking Policies
Examines central banking procedures, policies and the role they play in maintaining economic stability. Special attention to connection of Federal Reserve System with money and capital markets.
Credit Hours: 3
Prerequisites: ECONOM 9452 or instructor's consent

ECONOM 9446: Advanced Empirical Methods
Empirical and modeling techniques for evaluation of microeconomic policy questions.
Credit Hours: 3
Prerequisites: ECONOM 8451, ECONOM 8472
Recommended: Concurrent enrollment in ECONOM 8473 or ECONOM 9473

ECONOM 9447: Topics in Microeconomic Policy Analysis (same as PUB_AF 9447). Applies the methods and techniques of microeconomics and to specific timely policy questions. Taught by applied-microeconomics faculty and focuses on current topics in labor economics, public economics, the economics of education, health economics, and other applied areas of microeconomics.
Credit Hours: 3
Prerequisites: ECONOM 8451, ECONOM 8472, ECONOM 9446
Recommended: Concurrent enrollment in ECONOM 8473 or ECONOM 9473

ECONOM 9451: Advanced Microeconomic Theory I
The theory of rational behavior and partial equilibrium in markets. Topics include consumer behavior, theory of the firm, decisions making under uncertainty, perfect competition, monopoly and monopsony, and imperfect competition. Graded on A/F basis only.
Credit Hours: 3
Prerequisites: ECONOM 9451 or instructor's consent; PhD standing

ECONOM 9452: Advanced Microeconomic Theory II
Survey of equilibrium theory and market failures in economics. Topics include the structure and modeling of games, and cooperative and non-cooperative equilibrium concepts.
Credit Hours: 3
Prerequisites: ECONOM 9451 or instructor's consent

ECONOM 9453: Advanced Macroeconomic Theory I
Aggregate models of life-cycle microfoundations, of macroeconomics fluctuations and growth. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: departmental consent; PhD standing

**ECONOM 9454: Advanced Macroeconomic Theory II**
Analyzes topics in income analysis, including capital theory and economic dynamics.

Credit Hours: 3
Prerequisites: ECONOM 9453 or instructor's consent

**ECONOM 9455: Monopoly and Competition**
A survey of the theoretical and empirical literature on the organization of industries. Includes study of monopolized markets, competitive markets, and strategic interaction among firms in imperfectly competitive markets. Both the rationale and practice of anti-trust policy are studied.

Credit Hours: 3
Prerequisites: ECONOM 9452 and ECONOM 9471 or instructor's consent

**ECONOM 9457: Computational Economics**
Covers numerical and computational methods to solve economic models at the research frontier. Emphasis is on practical applications to prepare students for independent research. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: ECONOM 8451 and ECONOM 8453 and ECONOM 8472

**ECONOM 9471: Advanced Game Theory**
Presents core concepts in game theory and illustrates their uses with a range of applications.

Credit Hours: 3
Prerequisites: ECONOM 9452 or instructor's consent

**ECONOM 9472: Econometric Theory I**
Analysis of linear regression models from an advanced statistical perspective.

Credit Hours: 3
Prerequisites: Department consent required

**ECONOM 9473: Econometric Theory II**
Analysis of nonlinear regression models and other essential econometric tools not covered in ECONOM 9472 from an advanced statistical perspective.

Credit Hours: 3
Prerequisites: ECONOM 9472 or instructor's consent

**ECONOM 9474: Advanced Topics in Econometrics I**
Equips students with some essential tools for conducting publishable econometric research. Topics at the discretion of the instructor - typically time series analysis. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: ECONOM 9473 or instructor's consent

**ECONOM 9476: Advanced Topics in Econometrics II**
Equips students with some essential tools for conducting publishable econometric research. Topics at the discretion of the instructor - typically microeconometrics.

Credit Hours: 3
Prerequisites: ECONOM 9473 or instructor's consent

**ECONOM 9477: Advanced Topics in Econometrics III**
Equips students with some essential tools for conducting publishable econometric research. Topics at the discretion of the instructor - typically the second semester of a two-semester time series sequence beginning with ECONOM 9474 or a two-semester microeconometrics sequence beginning with ECONOM 9476.

Credit Hours: 3
Prerequisites: ECONOM 9473 or instructor's consent

---

**Education Honors (EDUC_H)**

**EDUC_H 4996H: Undergraduate Reading Honors**
This course is designed to introduce students to a variety of readings from a broad array of research, historical, contemporary and philosophical documents and writings. Selection of topics and additional readings are determined by the faculty instructor for the course. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: instructor's consent; Honors eligibility required

**EDUC_H 4997H: Honors Undergraduate Seminar I**
This class will consist of a 1 credit hour seminar. The class is designed to allow undergraduates to develop the skills necessary to engage in practical research for application within the field of teaching and education. The cumulating assignment for the class is a proposal for a research poster or presentation to be presented at the undergraduate research fair held each year in May. Graded on A-F basis only.

Credit Hour: 1
Prerequisites: instructor's consent; Honors eligibility required

**EDUC_H 4998H: Honors Undergraduate Seminar II**
The class will consist of a 1 credit hour seminar. The class is designed to allow undergraduates to develop the skills necessary to engage in practical research for application within the field of teaching and education. The cumulating assignment for the class is the production of a research poster or presentation at the undergraduate research fair held each year in May. Graded on A-F basis only.

Credit Hour: 1
Prerequisites: instructor's consent; GPA of 3.5 or higher. Honors eligibility required

**EDUC_H 4999H: Honors Undergraduate Research Seminar**
This class will be offered over 2 academic semesters and will consist of a 1-2 credit hour lab each semester with a College of Education faculty member working on an undergraduate research project. This course is designed as part of the Honors sequence. Graded on A-F only.

Credit Hour: 1-2
Corequisites: EDUC_H 4997H and EDUC_H 4998H
**Prerequisites:** instructor’s consent; Honors eligibility required

### Educational Leadership and Policy Analysis (ED_LPA)

<table>
<thead>
<tr>
<th>Course Number</th>
<th>Course Title</th>
<th>Description</th>
<th>Credit Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>ED_LPA 3100</td>
<td>Foundations of Education</td>
<td>Focus on developing a theoretical and conceptual knowledge of leadership. In addition, skill-building exercises will take place through group case studies and role playing exercises allowing each student to identify and achieve methods for personal development.</td>
<td>1-3</td>
</tr>
<tr>
<td>ED_LPA 4060</td>
<td>Inquiring into Schools, Community and Society II</td>
<td>(same as ED_LPA 7060). Required 3 hour course for students pursuing teacher certification. Designed to transition students into the teaching internship through study of teacher roles, school organizations and cultures, and community contexts.</td>
<td>3</td>
</tr>
<tr>
<td>ED_LPA 7060</td>
<td>Inquiring into Schools, Community and Society II</td>
<td>(same as ED_LPA 4060). Required 3 hours course for students pursuing teacher certification. Designed to transition students into the teaching internship through study of teacher roles, school organizations and cultures, and community contexts. Prerequisites: LTC 2040 and LTC 7040</td>
<td>3</td>
</tr>
<tr>
<td>ED_LPA 7458</td>
<td>Sociology of Education</td>
<td>(same as SOCIOL 7410; cross-leveled with SOCIOL 4410). Contexts, structures and processes of schooling; effects on class, race, ethnicity and gender; social change, educational policy, and organizational dynamics; higher education and the economy.</td>
<td>3</td>
</tr>
<tr>
<td>ED_LPA 8409</td>
<td>Learning, Curriculum and Assessment for School Leaders</td>
<td>Addresses assessment, learning and curriculum and the integration of the instructional and assessment processes. Topics include authentic assessment, curriculum alignment, cognition and learning, instructional approaches, and application of student learning theory to the curriculum.</td>
<td>3</td>
</tr>
<tr>
<td>ED_LPA 8410</td>
<td>Learning Cultures</td>
<td>Integrates the themes of building a common purpose to enhance school culture, empowering teachers and students, and diversity. Topics include importance of shared mission and vision, the use of group processes and collaboration, the intricacies of school culture, and ethical and moral leadership.</td>
<td>3</td>
</tr>
<tr>
<td>ED_LPA 8411</td>
<td>Professional Development for Learning</td>
<td>Focuses on the professional development and reflection on practice. Topics include organizational actions and personal responsibility, life-long learning, and public education in a democratic society.</td>
<td>3</td>
</tr>
<tr>
<td>ED_LPA 8412</td>
<td>School Improvement</td>
<td>This course addresses the topics of organizational management and personal inquiry. It covers issues such as organizational effectiveness, organizing for an effective school environment, legal and fiscal decision-making and responsibilities of school leaders, creating an environment where stakeholders acquire and utilized data to inform decisions and practice, and where action research methods are utilized to evaluate and inform practice.</td>
<td>3</td>
</tr>
<tr>
<td>ED_LPA 8416</td>
<td>Foundations of School Leadership</td>
<td>School leader knowledge of student learning theory and related instructional practices is the focus of this course. The problem-based learning format will include topics on school culture, leadership communication, technology, and conflict resolution. Issues concerning professional relationships are also addressed.</td>
<td>3</td>
</tr>
<tr>
<td>ED_LPA 8417</td>
<td>Site-Level Organization and Leadership</td>
<td>Student will study state and national regulations that affect Missouri school policies. The student will develop a database on various legal issues. A study of middle level education will conclude with on-site evaluation of a local middle school.</td>
<td>3</td>
</tr>
<tr>
<td>ED_LPA 8418</td>
<td>Supervision for Learning Environments</td>
<td>Students are prepared to articulate, recognize, and support classroom practices that reflect the most current principles of learning. Effective instructional strategies that link this knowledge to practice will be entered into a computer database.</td>
<td>3</td>
</tr>
<tr>
<td>ED_LPA 8419</td>
<td>Structures and Processes for Effective Schools</td>
<td>Emphasis is placed on the Missouri Comprehensive Guidance Program and positive strategies for working with challenging students. A continuation of the study of state and national legal and policy issues will focus on special programs and services.</td>
<td>3</td>
</tr>
<tr>
<td>ED_LPA 8423</td>
<td>Advanced Leadership for Learning Environments</td>
<td>Students will demonstrate their understanding of instructional improvement for all teachers and students by designing and defending a comprehensive strategy for instructional changes in a simulated school. The ongoing study of learning principles and effective instructional practices will be concluded.</td>
<td>3</td>
</tr>
</tbody>
</table>
ED_LPA 8424: Education Politics and Policymaking
This course examines the politics and policymaking process of education in the United States, paying particular attention to the influence of various institutions and actors at local, state, and federal levels. Graded on A-F basis only.

Credit Hours: 3

ED_LPA 8428: Curriculum Leadership
A study of research, theory, and skills necessary for curriculum leadership in educational organizations. Course includes generic curriculum management processes, design trends, controversial issues multi-media, innovative instructional techniques, and program evaluation.

Credit Hours: 3

ED_LPA 8430: School Law and Finance for Principal Leadership
Designed to engage learners in examination of the legal (judicial and legislative) system, school law, and finance policies that govern public schools and their fiscal resources in the United States and the State of Missouri. Graded on A-F basis only.

Credit Hours: 3

ED_LPA 8431: Leadership for Data-Driven Change
This course instructs school leaders on how to use data for school improvement. Students will: identify reliable sources of data; develop, implement, and monitor strategic School Improvement Plans using data; analyze data using technology; and describe evidence-based strategies that respond to data analysis. Graded on A-F basis only.

Credit Hours: 3

ED_LPA 8653: Education Toward Bi/Multilingualism: Theory, Policy, and Practice
(same as LTC 8653). Overview of the theory, policy, and practice of using at least two languages in education to develop children's bi/multilingualism. Key topics include: (1) models of bilingual/multilingual education; (2) policy and politics of language education in the U.S. and international contexts; (3) psycholinguistic and sociocultural perspectives on bi/multilingual language development, as related to schooling; and (4) evaluation and assessment issues in bi/multilingual education.

Credit Hours: 3

ED_LPA 8955: Discourse Analysis in Education
(same as LTC 8955). This course introduces the theories and methods of discourse analysis, including conversation, critical discourse, and multimodal. Students will analyze the role of context and ethics, as they transcribe and analyze discourse, especially from analytical settings. Graded on A-F basis only.

Credit Hours: 3

Prerequisites: ESC_PS 8957 and ESC_PS 9620

ED_LPA 9000: ELPA EdD Outgoing Visiting Student
This class is a placeholder for students in their Statewide Cooperative EdD Program who take classes at their regional site during the fall and spring. There is 0 billing hours and it is not term finalized.

Credit Hours: 4

ED_LPA 9090: Research in Educational Leadership and Policy Analysis
Graded on a S/U basis only.

Credit Hour: 1-99

Prerequisites: departmental consent

ED_LPA 9095: Problems in Educational Leadership and Policy Analysis
Credit Hour: 1-99

Prerequisites: instructor's consent

ED_LPA 9400: Social Theory in Education
Students will examine the relationship of society and education through a variety of theoretical perspectives and empirical studies. These theories deal with the relation of education to society as a whole, and the relation between education and the state. Graded on A-F basis only.

Credit Hours: 3

ED_LPA 9401: Educational Leadership
Critical examination of key leadership theories and their application to various educational contexts. Includes consideration of research methods and designs appropriate for the study of leadership and the spectrum of lenses through which educational leadership is studied.

Credit Hours: 3

ED_LPA 9402: Educational Policy Analysis
Course centers on developing multiple understandings of the education policy making process. Theoretical constructs used to advance those understandings are eclectic in nature, drawing from the fields of political science, history, sociology and economics.

Credit Hours: 3

ED_LPA 9403: Organizational Analysis
Analysis of organizational characteristics and principles in educational organizations. Topics include: Organizational theories and models, organizational culture, communication, innovation, planning, leadership, power and influence, and external environment influences.

Credit Hours: 3

ED_LPA 9404: Inquiry into Educational Leadership and Policy Analysis
A critical overview of theory development, research paradigms, and research ethics in the department of Educational Leadership and Policy Analysis. Required for all ELPA Ph.D. students.

Credit Hours: 3

Recommended: for students who have completed at least 2 semesters of coursework
ED_LPA 9405: Seminar in Educational Leadership and Policy Analysis
Seminar in Educational Leadership and Policy Analysis
Credit Hour: 1-99

ED_LPA 9406: Seminar in Educational Administration
Seminar in Educational Administration
Credit Hour: 1-99

ED_LPA 9407: Seminar in Educational Policy
Seminar in Educational Policy
Credit Hour: 1-99

ED_LPA 9408: Seminar in Higher Education
Seminar in Higher Education
Credit Hour: 1-99

ED_LPA 9409: Introduction to Research Design
This course provides an introduction to quantitative, qualitative, and mixed methods research, with an emphasis on the epistemological and ontological issues that inform our choice of research methods. This course is intended for first year doctoral students. Graded on A-F basis only.
Credit Hours: 3

ED_LPA 9424: Superintendent: Instructional Leadership
Effective superintendents understand educational core knowledge of curriculum, instructional and assessment. They establish an exception for the use of best instructional practices for all students among both the educational and public communities. Graded on A-F basis only.
Credit Hours: 3

ED_LPA 9429: Superintendent: Communication, Team Leadership
Effective superintendents negotiate political and cultural challenges to lead diverse, socially-just school systems. Reflective practices that enhance competence in public board member, and district personnel relationships are essential skills. Graded on A-F basis only.
Credit Hours: 3

ED_LPA 9430: Superintendent: Fiscal, Legal Leadership
Effective superintendents efficiently manage finances and ensure that rules, regulations, and policies adhere to statutory/case law. Fiscal and legal practices ensure equity of educational experiences for all students. Open to all graduate students. Graded on A-F basis only.
Credit Hours: 3

ED_LPA 9439: Applying Higher Education Research to Practice
This course introduces quantitative, qualitative, and mixed within a student affairs context. Students will become familiar with, and able to critique research. Course graded on A-F basis only.
Credit Hours: 3

ED_LPA 9440: Race, Gender, and Ethnicity in Higher Education
(same as WGST 9440). Historical and current issues of race, gender, and ethnicity in colleges and universities in the U.S. Issues include: students, faculty, and staff experiences of diversity, access and equity, and salience of diversity in a higher education setting.
Credit Hours: 3

ED_LPA 9442: Curriculum Philosophy and Development in Higher Education
A study of the philosophical foundations of postsecondary curricula, current trends and issues, and approaches to curriculum reforms and revisions.
Credit Hours: 3

ED_LPA 9444: Program Planning in Higher Education
Analysis of program planning and evaluation in higher education. Topics include: conceptualizations of program planning, situational analysis, needs assessment, priority setting, marketing and promotion, and program evaluation.
Credit Hours: 3

ED_LPA 9445: College Student Development
Emphasis on college student development theory and its application in student affairs work.
Credit Hours: 3

ED_LPA 9446: Student Affairs Administration
History, philosophy, theory, and issues pertinent to student affairs work.
Credit Hours: 3

ED_LPA 9447: College Student Culture and Environment
This course examines the characteristics and outcomes of American undergraduates, and the aspects of the college environment the differentially influence students. Topics include: theoretical models of students change, campus climate and cultures, learning communities, institutional differences, and conditions for success.
Credit Hours: 3

ED_LPA 9448: College Teaching
Designed to introduce students to theories and practices central to teaching in a higher education setting. Teaching related to institutional contexts and disciplines will be considered. Teaching and learning theories will be introduced.
Credit Hours: 3

ED_LPA 9449: History of Higher Education in the United States
A study of the transformation of the English college tradition to what higher education is currently in the United States. The emphasis is on how institutions of higher learning changed to meet the needs of the nation or failed to do so.
Credit Hours: 3
ED_LPA 9450: Administration and Governance of Higher Education
Principles of administration, academic culture and environment, and structures of governance of higher education will be explored.

Credit Hours: 3

ED_LPA 9451: Higher Education Finance
How students pay for college and how institutions finance their operations is explored through the lens of economics. Topics include: Theories of student access, tuition and financial aid policy, institutional costs and revenue patterns, and resource allocation models.

Credit Hours: 3

ED_LPA 9452: Overview of Higher Education
This course provides an overview of American Higher education. Emphasis is placed on how these institutions currently operate and what issues dominate current discussions of academe.

Credit Hours: 3

ED_LPA 9454: Introduction to Post-Secondary Law
Examination of the legal structure within which higher education operates. Includes consideration of legal analysis of case law, institutional responsibilities under the law, and analysis of legal issues within postsecondary education.

Credit Hours: 3

ED_LPA 9455: The Community College
An overview of the community college. Topics include historical roots and development of the community college, organization and governance, finance, students, faculty, administrators, curriculum, social role, and recurring and emerging issues.

Credit Hours: 3

ED_LPA 9456: The Professoriate
Overview of faculty roles and work in U.S. colleges and universities. Explores institutional and disciplinary differences and seeks to prepare future faculty for academic life.

Credit Hours: 3

ED_LPA 9457: Higher Education Policy
An overview of current higher education policy issues facing governmental bodies and institutions. An emphasis is placed on investigating both the policy-making and policy-evaluation processes through multiple theoretical lenses. Specific topics explored include access, equity, and accountability within the higher education setting.

Credit Hours: 3

ED_LPA 9459: Comparative and International Education
Theories, methods and issues in the field of comparative and international education. Topics cover PK-16 education and include globalization, centralization and decentralization, equity and equity, teaching and student learning, and social context of education.

Credit Hours: 3

ED_LPA 9461: Ethics in Education
Explores the ethical dimensions of work within and related to educational settings focusing on dilemmas that occur in professional practice, theories that inform thinking about ethical issues, and frameworks that guide ethical decision making.

Credit Hours: 3

ED_LPA 9462: History of U.S. Education Policy
Provides overview of major US education issues (primary K-12), explores analytic tools for studying history of education and introduces multiple ways of constructing the history of a particular movement reform or era in education.

Credit Hours: 3

ED_LPA 9463: Politics of Education
Focuses on politics of education in the United States, attending to the influence of various institutions and actors at local, state, and federal levels. Students will examine current reforms in PK-12 education and their impact on the future of education.

Credit Hours: 3

ED_LPA 9465: Policy Analysis Using Large Data Bases
Intends to develop students' capacity to process national level large databases and to conduct policy-related research.

Credit Hours: 3

Prerequisites: an understanding of inferential statistics and experience with SPSS and SAS program

ED_LPA 9466: International Higher Education
The purpose of this class is to learn the major trends and issues facing postsecondary education around the world and critically engage in comparative analysis with emphasis on lessons for the U.S. higher education system. In particular, this course will cover global trends around governance, accountability, funding, and internationalization. Graded on A-F basis only.

Credit Hours: 3

ED_LPA 9469: Education Leadership Inquiry IV
Developing and writing research proposals and conducting pilot studies. Knowledge and skills in writing the research report and sharing research with others.

Credit Hour: 1

Prerequisites: ED_LPA 9471, ED_LPA 9472 and ED_LPA 9473. Open only to students in Ed.D. Program in Educational Leadership

ED_LPA 9470: Organizational Analysis for Educational Leadership
Schools of organizational theory, six frames to analyze organizations and their underlying concepts, organizational change and leadership for change, and rationale for reframing organizations.

Credit Hours: 4

Prerequisites: Open only to students in Ed.D. program in Educational Leadership
ED_LPA 9471: Educational Leadership Inquiry I
Introductory seminar on evaluating research using, APA Publication guidelines, writing scholarly publications, and using computer technology for literature searches.
Credit Hours: 2
Prerequisites: Open only to students in Ed.D. Program in Educational Leadership

ED_LPA 9472: Educational Leadership Inquiry II
MU Graduate School policies related to doctoral research, use of multiple search sources, human subjects review process, and research ethics.
Credit Hour: 1
Prerequisites: Open only to students in Ed.D. program in Educational Leadership

ED_LPA 9473: Educational Leadership Inquiry III
Knowledge and skills in applying planning procedures for development and implementation of future dissertation research.
Credit Hour: 1
Prerequisites: Open only to students in Ed.D. Program in Educational Leadership

ED_LPA 9474: Professional Seminar I
Focuses on diversity and ethics in educational leadership and educational organizations. Students learn about professional development, professional practice, and professional service. May be repeated for credit.
Credit Hour: 1
Prerequisites: Open only to students in Ed.D. Program in Educational Leadership

ED_LPA 9475: Professional Seminar II
Problem-based learning via the Internet to make decisions involving professional practice and problem solving. The UCEA Internet program, Information Environment for School Leader Preparation, is used. May be repeated for credit.
Credit Hour: 1
Prerequisites: Open only to students in Ed.D. Program in Educational Leadership

ED_LPA 9476: Leadership Theory and Practice
An advanced study of leadership theories, concepts, and inquiry as applied to educational organizations. Explores power and authority in organizations, leader effectiveness, and organizational reform.
Credit Hours: 3
Prerequisites: Open only to students in Ed.D. Program in Educational Leadership

ED_LPA 9477: Leadership Theory and Practice Application
Focuses on building understanding of the conduct of leadership in organizations through application and extension of leadership theories in practice.
Credit Hour: 1
Prerequisites: Open only to students in Ed.D. Program in Educational Leadership

ED_LPA 9478: Policy Analysis for Educational Leadership
Analysis and investigation of educational policy utilizing various knowledge bases; organizational politics and culture's impact on policy processes; interpretation and application of policy-making activities.
Credit Hours: 4
Prerequisites: Open only to students in Ed.D. Program in Ed. Leadership

ED_LPA 9479: Content and Context of Learning
Students develop the knowledge and skills for examining designing, and implementing organizational, classroom, and training conditions that support quality learning experiences for learners.
Credit Hours: 3
Prerequisites: Open only to students in Ed.D. Program in Educational Leadership

ED_LPA 9480: Team Building and Group Dynamics
Stages of group development, team building and maintenance, team/group structures, team performance, problem-based learning as team process, and empowerment through development of self-managed teams.
Credit Hour: 1
Prerequisites: Open only to students in Ed.D. Program in Educational Leadership

ED_LPA 9481: Internship in Educational Leadership and Policy Analysis
Some sections may be graded on A-F or S/U basis only.
Credit Hour: 1-99
Prerequisites: departmental consent

General introduction to quantitative methods of data analysis. Develop concepts of measurement, design, and analysis. The focus is on data driven decision marking and using various quantitative methods to investigate problems of educational leadership practice. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: Only students in the Statewide Cooperative Ed.D. program in Educational Leadership can enroll

ED_LPA 9483: Qualitative Tools for Applied Research in Educational Leadership
Students will learn about a number of qualitative research designs that leaders can use to critically examine research questions in their practice. They will also learn to analyze educational issues and execute processes to effectively explore those issues. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: Restricted to students in the Statewide Cooperative Ed.D. Program in Educational Leadership
ED_LPA 9484: Program Evaluation and Planning for Educational Leaders
Participants develop thorough knowledge of theoretical underpinnings of selected approaches to program planning and evaluation and their necessary integration. Affords participants the opportunity to plan, conduct and deliver the results of a program evaluation to actual client. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: Only students in the Statewide Cooperative Ed.D. Program in Educational Leadership can enroll

ED_LPA 9620: Qualitative Methods in Educational Research II
(same as ESC_PS 9620 and LTC 9620). This course constructs a conceptual and methodological bridge between the understandings of qualitative research developed in Qualitative Methods I and more advanced study of theories, designs, and methods. The focus is on theory, approaches to data analysis, and interpretation. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: ESC_PS 8957

Educational, School and Counseling Psychology (ESC_PS)

ESC_PS 2000: Experiencing Cultural Diversity in the United States
The purpose of this course is to examine cultural diversity in U.S. Society, to increase self-awareness related to worldviews and beliefs about diversity issues, and to increase understanding of the intersections of multiple group identities. Graded on A-F basis only.
Credit Hours: 3

ESC_PS 2010: Inquiry Into Learning I
This course is designed to focus students on the central themes of learning and teaching. Emphasis will be placed on the interaction of theory, philosophy and practice as related to the field of education. Required for Phase II of the certification program.
Credit Hours: 3

ESC_PS 2014: Inquiry into Learning I - Field Experience
This field experience course supports the Inquiry into Learning I, component of Phase I. Graded on S/U basis only.
Credit Hour: 1
Recommended: departmental consent

ESC_PS 2014H: Inquiry into Learning I - Field Experience - Honors
This field experience course supports the Inquiry into Learning I, component of Phase I. Graded on S/U basis only.
Credit Hour: 1
Prerequisites: Honors eligibility required
Recommended: Departmental consent

ESC_PS 2100: Career Explorations
Contribution of career development theory to choice of career and/or major. Exploration of personal and social determinants of career choice.

ESC_PS 2400: Learning and Instruction
The nature of human learning processes with implications for instruction. Emphasis on bases of and readiness for learning, types of learning, memory forgetting and transfer, and related topics.
Credit Hours: 2

ESC_PS 2500: Child Development
The psychological, intellectual, social, and physical development of children.
Credit Hours: 3

ESC_PS 2700: Psychological Perspectives in Sport
Survey of sport psychology literature with focus upon such topics as personality, positive and negative affect, cognitive and behavioral intervention, motivation, aggression, audience effects, team cohesion, team building, leadership, exercise, and multicultural issues.
Credit Hours: 3

ESC_PS 3085: Problems in Educational, School, and Counseling Psychology
Credit Hours: 1-3
Recommended: instructor's consent

ESC_PS 3100: African-American Psychology
(same as BL_STU 3100 and PSYCH 3880). The research, theories and paradigms developed to understand the attitudes, behaviors and psychosocial realities of African-Americans are discussed.
Credit Hours: 3
Prerequisites: PSYCH 1000

ESC_PS 3200: Black Feminism
This course outlines the basic principles and practices of Black feminism in the United States. Examination of the multiple systems of oppression on Black women’s lives and Black women's collective actions against social structures will occur.
Credit Hours: 3
Recommended: PSYCH 1000 or instructor's consent

ESC_PS 4087: Seminar in Educational, School, and Counseling Psychology
Credit Hour: 1-3
Recommended: instructor's consent

ESC_PS 4115: Human Learning
An introduction to the basic principles of learning. Focus is on principles of learning which have the greatest utility for professional educators. This course provides a foundation for more advanced courses in human learning.
Credit Hours: 3
ESC_PS 4170: Introduction to Applied Statistics
Introduces statistical techniques including descriptive statistics, correlation, simple regression and hypothesis testing. Math Reasoning Proficiency Course.
Credit Hours: 3
Recommended: College Algebra or equivalent

ESC_PS 4185: Health Behavior: Drug and Sexuality Education
Psychological, social, and physical factors related to drug taking and sexuality behaviors.
Credit Hours: 3
Recommended: instructor's consent

ESC_PS 4200: Positive Psychology
Using self-actualization and self-determination theory, the course builds on identifying personal strengths in people. An emphasis is placed on developing interventions that promote positive thinking. Some sections graded on either A-F or S/U basis only.
Credit Hours: 3

ESC_PS 4460: Exploring Mental Health Issues in Schools
This course is an introduction to the mental health challenges found in schools. It provides education professionals with the knowledge and basic skills to promote positive mental health practices in the schools.
Credit Hours: 3

ESC_PS 4575: MU Youth Development Academy: Positive Youth Development in Practice
(cross-leveled with ESC_PS 7575). This course prepares students to apply principles of positive youth development to practice, including leading youth programs, developing organizational and community systems that support youth, and engaging others to create positive environments in which youth ages 5-19 grow, thrive, and make successful transitions to adulthood. Course topics include ages and stages of development, experiential learning, program planning, diversity and inclusion, youth/adult partnerships, volunteer systems, risk management, community partnerships, and creating environments for healthy relationships. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: Restricted to upper level (junior/senior standing) students

ESC_PS 7115: Human Learning
An introduction to the basic principles of learning. Focus is on principles of learning which have the greatest utility for professional educators. This course provides a foundation for more advanced courses in human learning. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: ESC_PS 4100 or ESC_PS 7100

ESC_PS 7120: Theories and Techniques of Counseling
Survey of contemporary theories underlying individual, feminist, family systems, and multicultural approaches to counseling. Introduction to professional and ethical issues in Counseling Psychology.
Credit Hours: 3
Prerequisites: departmental consent

ESC_PS 7130: Parent Counseling and Consultation
For personnel working with parents in professional settings. Examines current family needs and child-rearing practices. Basic skills in diagnosis, counseling, consultation, parent education are developed.
Credit Hours: 3
Prerequisites: ESC_PS 4120 or ESC_PS 7120

ESC_PS 7160: Developmental Aspects of Human Learning
Investigates aspects of human development that affect classroom learning. Topics include parenting style, divorce, friendship, mental health, attachment, play aggression, culture, and media. Graded on A-F basis only.
Credit Hours: 3

ESC_PS 7170: Introduction to Applied Statistics
Introduces statistical techniques including descriptive statistics, correlation, simple regression and hypothesis testing. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: College Algebra or equivalent

ESC_PS 7185: Health Behaviors: Drug and Sexuality Education
Psychological, social and physical factors related to drug taking and sexuality behaviors.
Credit Hours: 3
Prerequisites: ESC_PS 7195; Restricted Positive Coaching degree seeking students (distance students) or permission of department

ESC_PS 7195: Sport and Applied Coaching Psychology
Sport and Applied Coaching Psychology is a fusion of positive psychology and sport psychology. Positive psychology teaches coaches a healthy approach based in positive motivation and behavior modeling. Sport psychology helps coaches identify with the mental training of athletes and its role in delivering maximum performance. Course focus is on helping coaches maximize the potential of their athletes and teams, while also building upon their emotional and psychological wellbeing.
Credit Hours: 3

ESC_PS 7000: Foundation of Teacher Prep I
Designed for graduate students seeking teacher certification, this course addresses content and application in comprehensive classroom management, development, behavior management, and diversity. Field work is required and integrated with course content.
Credit Hours: 3
Prerequisites: PSYCH 1000

ESC_PS 7087: Seminar in Educational, School, and Counseling Psychology
Credit Hour: 1-3
Prerequisites: instructor's consent
Prerequisites: Restricted Positive Coaching degree seeking students (distance students) or permission of department

ESC_PS 7200: Positive Psychology
Positive psychology explores what is positive, creative, and fulfilling in human behavior. It is the scientific study of well-being and flourishing: what people do right. This course will examine cornerstones and key concepts such as emotions, engagement, relationships, strengths, virtues, meaning, and purpose. Proven as a very effective application in the realms of organizations, governments, businesses, education, counseling, etc., it is best originally understood by applying it to oneself.
Credit Hours: 3

ESC_PS 7260: Development of Character and Talent Strengths
This course will explore the development and application of psychological strengths through the lens of positive psychology theory, research, and intervention. Lessons feature strengths topics including identification, leadership, flow and engagement, regulation, goal-setting and motivation. At the end of the course, students will be proficient in the languages of the StrengthsFinder and VIA Character Strengths assessments, exploration and development oriented activities, and basic facilitator techniques. Graded on A-F basis only.
Credit Hour: 1

ESC_PS 7270: Motivation and Positive Psychology
This course is designed to give you a better understanding of your own motivation and the motivations of others. We will explore the whether, the what, the why, and the how of motivation through the study of Self-Determination, Self-Concordance and Goal Systems, as well as Attribution and Achievement goal theories. In addition to conceptual knowledge, it is our hope that you broaden your personal knowledge, such as gain new insights on how to set and select self-appropriate goals. Additionally, we will explore techniques and recommendations for motivating others towards better performance, learning, and development. Graded on A-F basis only.
Credit Hour: 1

ESC_PS 7280: Mindfulness, Meditation and Wellbeing
This class explores both the historical roots and contemporary research related to mindfulness, meditation, and their impacts on wellbeing. Through readings, video presentations and applied practices students will expand their knowledge of meditation and Eastern influences on psychology. Students will also be encouraged to increase their personal awareness of the relationships between stress reduction, present moment and mind/ body awareness, and mindfulness practices. Students will be challenged to integrate a regular meditation practice into their daily routine and, through diverse readings, be introduced to cross-cultural perspectives on human health, psychology, and wellbeing. Graded on A-F basis only.
Credit Hour: 1

ESC_PS 7460: Foundations of School Mental Health
Explores the history, foundations, and implementation of an expanded framework of school mental health focusing on collaborative and interdisciplinary approaches to supporting the wellness and school success of youth. Introduces professional working in or with schools to the school mental health framework emphasizing a behavioral health continuum of care, links between mental health and academic performance, a comprehensive system of learning supports, and data-based decision-making.
Credit Hours: 3

ESC_PS 8020: Overview of Research Methods
Survey of research design and methods of data collection for masters, educational specialists, and doctoral students.
Credit Hours: 3
Prerequisites: ESC_PS 7170 or instructor's consent

ESC_PS 8040: Counseling Methods and Practices
Introduction to counseling microskills and techniques, with attention to case conceptualization, therapeutic alliance, and counseling process. Laboratory experience in demonstrating skills and the ability to form an effective counseling relationship is required.
Credit Hours: 3

ESC_PS 8060: Lifespan Development
A comprehensive analysis of normal development across the lifespan with a primary focus on children and adolescents. Will investigate the cognitive, affective, academic, physical, moral, social/cultural/racial, religious/spiritual and sexual domains. Examples of atypical development will be discussed.
Credit Hours: 3
Prerequisites: ESC_PS 4100 or equivalent. Consent of instructor required

ESC_PS 8070: Ethical and Legal Issues in Psychological Practice
Legal and ethical concepts and issues relevant to the practice of psychology and student personnel services.
Credit Hours: 3
Prerequisites: ESC_PS 4120 or ESC_PS 7120 or instructor's consent

ESC_PS 8082: Foundations of Educational and Psychological Measurement
Basic principles of educational and psychological measurement including test construction, validity, reliability, item analysis, and derived scores.
Credit Hours: 3
Prerequisites: ESC_PS 4170 or ESC_PS 7170 or instructor's consent

ESC_PS 8085: Problems in Educational, School, and Counseling Psychology
Credit Hour: 1-3
Prerequisites: instructor's consent

ESC_PS 8087: Seminar in Educational, School, and Counseling Psychology
Graded on A-F basis only.
Credit Hour: 1-3
Prerequisites: instructor's consent
ESC_PS 8090: Master's Thesis in Educational, School, and Counseling Psychology
Independent research leading to Master's Thesis. Graded on S/U basis only. Prerequisites: advisor's consent
Credit Hour: 3-6

ESC_PS 8095: Research in Educational, School, and Counseling Psychology
Supervised research that is independent of master's thesis or doctoral dissertation. Graded on S/U basis only.
Credit Hour: 1-6
Prerequisites: advisor's consent

ESC_PS 8100: Psychological Assessment of Children and Adolescents: Cognitive Assessment
Basic principles in intelligence theory and intermediate measurement concepts. Practice in administering, scoring, and interpretation of data from individually administered intelligence tests with school aged children and adolescents. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: instructor's consent

ESC_PS 8110: Methods in Group Counseling
Study of group counseling methods and techniques. Participation in a group is required.
Credit Hours: 3
Prerequisites: ESC_PS 8040, demonstrated knowledge of ethical principles and departmental consent

ESC_PS 8120: Psychological Assessment of Children and Adolescents: Psychoeducational Assessment
Practice in administering, scoring, and interpretation of data from academic achievement, nonverbal intelligence, memory, adaptive behavior, and perceptual/motor assessments with school-age youth and adolescents.
Credit Hours: 3
Prerequisites: ESC_PS 8100 and instructor's consent

For first-year doctoral students in school psychology. History, current issues, trends, professional organizations, legal-ethical standards of doctoral level school psychology are discussed. The scientist-practitioner model and scientific reasoning process as they apply to both science and practice are reviewed.
Credit Hours: 3
Prerequisites: Must be admitted to school psychology program

ESC_PS 8130: Psychological Assessment of Adults
Students develop and practice skills in writing psychological reports with special emphasis on assessing psychological social-vocational functioning.
Credit Hours: 3
Prerequisites: ESC_PS 8100

ESC_PS 8135: Foundations of Career Psychology
Theoretical orientations to counseling for career development; nature and structure of work, education, and leisure; work and family issues; career concerns of special populations; use of career information in counseling.
Credit Hours: 3
Prerequisites: PSYCH 1000

ESC_PS 8140: Psychological Assessment in Children and Adolescents: Behavior and Social Emotional Assessment
This course introduces behavior theory, behavioral and social-emotional assessment techniques (including observations, interviewing, rating scales, and projective techniques) and their link to relevant interventions, with a primary focus on school-age youth and adolescents.
Credit Hours: 3

ESC_PS 8145: Psychological Interventions with Children and Adolescents: Behavioral Intervention
This course will emphasize behavioral theory, assessment, and intervention, including functional behavior assessment, positive behavior supports, and the conceptualization from an individual, systems, and public health perspective. Graded on A-F basis only
Credit Hours: 3

ESC_PS 8155: Crisis Prevention, Intervention, and Response in Schools
The course provides students with basic knowledge, theoretical frameworks, and skills/strategies for crisis prevention, intervention, response, and recovery in school and community settings, with a primary focus on addressing the mental health needs.
Credit Hours: 3
Prerequisites: Instructor consent

ESC_PS 8160: Psychological Interventions with Children and Adolescents: Educational Instruction
This course investigates models of school instruction in both general and special education, and how instruction can be adapted for learners who exhibit a range of academic and psychological problems and disabling conditions.
Credit Hours: 3
Prerequisites: ESC_PS 8100, ESC_PS 8120 and instructor's consent

ESC_PS 8165: Psychological Interventions with Children and Adolescents: Evidence-Based Therapies
An introduction to evidence-based child and adolescent psychotherapies, including individual and group interventions. Various aspects will be considered including assessment, diagnosis, and treatment planning. Graded on A-F basis only.
Credit Hours: 3

This course is designed to provide students with an understanding of operant conditioning principles and concepts, single-case design
methodology, and behavior analytic assessments and evaluation. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: Instructor's consent

ESC_PS 8185: Health Promotion
An overview of the important concepts of health promotion. Emphasis on specific health-related problems and issues, health behavior change, and the design, development implementation, and evaluation of comprehensive health promotion programs.

Credit Hours: 3
Prerequisites: LTC 1310 or equivalent or instructor's consent

ESC_PS 8195: Applied Positive Coaching
Explores concepts of sport, coaching and positive psychology, particularly the interventions and applications designed to further develop a coach's philosophy, communication skills, understanding of motivation, leadership skills, and the coach's and athlete's well-being.

Credit Hours: 3
Prerequisites: ESC_PS 7195; Restricted Positive Coaching degree seeking students (distance students) or permission of department

ESC_PS 8200: Applied Positive Psychology
This course will require students to implement positive psychology concepts from the introductory course into their personal, professional, and/or social lives. We will also study specific ways in which these concepts and theories are being applied throughout various realms of well-being. Among the topics in this course are therapeutic lifestyles, goal-setting and attainment, self-care, meaning making, transformational leadership, influence and sustainable happiness theory. Prerequisites: ESC_PS 7200

Credit Hours: 3

ESC_PS 8232: Foundations of Sport Performance
Focuses on principles and methods to become an effective sport performance coach. Examines the development of athletes and education of basic sports nutrition, strength, and conditioning.

Credit Hours: 3
Prerequisites: Restricted Positive Coaching degree seeking students (distance students) or permission of department

ESC_PS 8240: Sport in America
Sociological perspectives of sport in America. Attention given to the influence of society on sport as in institution, and the role of sport as an agent of social change.

Credit Hours: 3
Prerequisites: SOCIOL 1000 or PSYCH 1000

ESC_PS 8250: School Psychology Practicum: Introduction
This course is an intro practicum that exposes students to the organization and functions of schools. Students work with psychologists and other school personnel on academic and behavioral interventions to learn how schools serve children and their families. Graded on S/U basis only. May be repeated for credit.

Credit Hour: 1-6

ESC_PS 8255: Legal Aspects of Sport and Coaching
Emphasis is to provide insight about how the law is applied is sport settings, the types of litigation involved, and the standard of care required. Fundamental terminology and concepts, and contemporary issues in sport law will be addressed.

Credit Hours: 3
Prerequisites: Restricted Positive Coaching degree seeking students (distance students) or permission of department

ESC_PS 8260: School Psychology Practicum: Intermediate
Intermediate School Psychology Practicum provides students with experience in school-based psychological service delivery. Students gain experience with psychoeducational assessment and diagnosis, intervention planning and delivery, consultation, and serving on multidisciplinary teams. Graded S/U basis only. May be repeated for credit.

Credit Hour: 1-6
Prerequisites: Instructor's consent

ESC_PS 8265: Administration of Athletic Programs
Examines methods, principles, and roles of athletic administrators. Also, examines the job responsibilities and competencies required of sport leaders in athletic administration.

Credit Hours: 3
Prerequisites: Restricted Positive Coaching degree seeking students (distance students) or permission of department

ESC_PS 8270: Student-Athlete Wellbeing
As a positive coach and career educator, your knowledge of student wellbeing is critical to support your students' physical, mental, and social health alongside their academic success and development beyond sport. Although our semester will focus largely on the most critical components of student welfare, we will also frame our study of student wellbeing using the tenets of Positive Psychology, a discipline that champions a strengths-based approach to guide positive behaviors associated with health and wellbeing. Health promotion theory will also guide our course of study as we examine: (a) individual student-athlete wellbeing with a focus on physical, mental, and social health (b) wellbeing in the context of student services provided by the school or organization, and (c) program evaluation methodology to identify strengths and opportunities for program improvement to enhance wellbeing and welfare for all student-athletes. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: Restricted Positive Coaching degree seeking students (distance students) or permission of department
Recommended: ESC_PS 7200 Positive Psychology

ESC_PS 8280: Gender Issues in Sport
Through a study of theory and applied practice, students will explore personal biases, understand intersecting identities and explore privilege and oppression at the individual, interpersonal, structural, and cultural level when considering gender awareness in sport.

Credit Hours: 3
Prerequisites: Restricted Positive Coaching degree seeking students (distance students) or permission of department

ESC_PS 8290: Multicultural Issues in Sport
The purpose of this course is to increase the level of multicultural awareness, knowledge, skills, and relationship of athletic coaches working with diverse student populations. Activities and assignments are designed to assist, encourage, and challenge each student to more fully develop awareness and knowledge of self, and to use this information to improve intercultural interactions with others in professional settings as well as other settings.
Credit Hours: 3
Prerequisites: Restricted Positive Coaching degree seeking students (distance students) or permission of department

ESC_PS 8300: Positive Leadership in Sport
A Positive Leadership philosophy requires Positive Leadership delivery. Course is designed to prepare leaders to bridge content knowledge to practical application. Students will use core competencies learned throughout their program to develop their leadership approach.
Credit Hours: 3

ESC_PS 8320: Advanced Human Learning
A study of behavioral and cognitive theories of learning with an emphasis on those greatest utility for educators. Experimental evidence forming the theoretical base for educational practice is examined.
Credit Hours: 3
Recommended: ESC_PS 2400 or ESC_PS 7100

ESC_PS 8330: Motivating At-Risk and Diverse Students
This course examines motivational concepts that apply to students of all ages. The course is designed to help teachers design classrooms and assignments that would improve the motivation of students, especially at-risk students. The course pays special attention to issues of diversity relevant to motivation. Graded on A-F basis only.
Credit Hours: 3

ESC_PS 8340: Cultural Backgrounds and Learning
The course explores the influence of culture on the process of learning. Topics and discussions will center on learning within the K-12 classroom. Readings and assignments are tailored to engage students in practical classroom applications of the information and discussions within the course. At the conclusion of the course students will have a deep understanding of how culture shapes thinking, learning, behavior, and the classroom environment. Graded on A-F basis only.
Credit Hours: 3

ESC_PS 8350: Cognition, Learning and Instruction
Examines the topics of memory and cognition as they apply to the process of learning and instruction.
Credit Hours: 3
Prerequisites: ESC_PS 8320 or instructor's consent

ESC_PS 8355: Cognition and Emotion
This course looks at human cognition and emotions and their influence on learning, self-control, motivation, executive processes, and behavior change. Graded on A-F basis only.
Credit Hours: 3

ESC_PS 8360: Advanced Counseling Theories and Interventions
Contemporary theories and interventions of counseling. Advanced study of efficacious techniques. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: ESC_PS 8040 or ESC_PS 8342

ESC_PS 8370: Social Emotional Learning
The development and support of social emotional learning will be examined for K-12 age students. The course is both theoretical and application based and is appropriate for all levels of graduate students. Research strongly supports the importance of social emotional regulation in increasing and supporting academic achievement and well-being. Specific topics covered in the class include: the integration of SEL with related prevention approaches, SEL and student-teacher relationships, SEL in connection with PBIS, and accountability in SEL programs. Graded on A-F basis only.
Credit Hours: 3

ESC_PS 8380: Data-Driven Instructional Decisions
This course explores the uses of assessments and evaluation techniques for practical applications within the classroom. Focus is on use of data gathering techniques to increase student academic performance and inform classroom instruction. Graded on A-F basis only.
Credit Hours: 3

ESC_PS 8400: Analysis of Research in Career Psychology
Examination of career development theories, the research supporting the theories, and the practical application of these ideas in career counseling and career programs.
Credit Hours: 3
Prerequisites: ESC_PS 8135

ESC_PS 8410: School Guidance Programs
Provides knowledge and skills in the development and management of school guidance programs including program planning, structuring, implementing, and evaluating.
Credit Hours: 3
Prerequisites: ESC_PS 7120

ESC_PS 8415: Program Evaluation for School Counselors
Program Evaluation is a graduate seminar intended to provide students with the skills needed to evaluate comprehensive guidance and counseling programs. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: ESC_PS 7120
ESC_PS 8425: Effects of Maltreatment on Child and Adolescent Development
Course topics to be covered include 1) definitions of child maltreatment, 2) incidence and prevalence rates, 3) possible causes and consequences associated with child maltreatment, 4) treatment of survivors and perpetrators, and 5) prevention efforts. Important legal and ethical issues will be discussed, such as children's competence and eyewitness abilities, false allegations of abuse, mandated reporting, and investigative interviewing of children. Graded on A-F basis only.
Credit Hours: 3

ESC_PS 8430: Mental, Emotional, and Behavioral Disorders in Youth
The course will include an overview of normal development and an investigation into specific deviations in intensity, frequency, and/or duration of normal development which impact the individual in his or her home, school, and community.
Credit Hours: 3

ESC_PS 8435: Wellness Management for School Personnel
The current climate in schools places considerable demands on teachers and other school personnel. Often, those working in schools find themselves under enormous stress and pressure. In this course, school personnel will examine a variety of topics related to both identifying and effectively dealing with these pressures. Topics include communication skills, dealing with challenging individuals in the school system, recognizing and effectively managing stress, and recognizing burnout and re-energizing. The course will provide an overview of the research on these topics, as well as numerous effective strategies to deal with these pressures. Students in the course will have opportunities to apply learned strategies to real-life situations in the schools. Graded on A-F basis only.
Credit Hours: 3

ESC_PS 8440: School Mental Health: Policy, Law and Ethics
This course is designed to familiarize school-based professionals with policies, laws and ethics associated with children and youth and schools.
Credit Hours: 3

ESC_PS 8445: Building Resiliency and Optimism in Youth
Examines risk and resiliency processes during childhood and adolescence. Focuses on defining resilience; sources of risks and protective factors within families, schools, and communities; prevention programs targeting early, middle childhood and adolescence. Promotion of one's own resilience and well-being discussed. Special topics include strengths-based models of resiliency, resilience and family difficulties, violence and maltreatment, poverty, dropout, and school/community-based prevention and intervention.
Credit Hours: 3

ESC_PS 8450: Diversity Issues in School Mental Health
The purpose of this course is to increase the level of multicultural awareness, knowledge, skills, and relationship of school personnel working with diverse student populations.
Credit Hours: 3

ESC_PS 8455: Bully and Youth Violence: Prevention and Reduction
This course is a survey of current issues in bullying and youth violence with an emphasis on applications in the school environment. The course will present effective strategies for bullying and violence prevention within the school and in collaboration with the community at large. Students are encouraged to apply the course concepts to their work environment and develop tools for future practice in schools and other youth-serving settings. Graded on A-F basis only.
Credit Hours: 3

ESC_PS 8460: Communication and Collaboration with Children and Families
This course will provide education professionals with the knowledge and basic skills to address common mental health issues through positive and solution focused communication and collaboration.
Credit Hours: 3

ESC_PS 8465: Vital Issues in School Mental Health
The course is highly individualized in that students, as a group, will choose the specific topics to be covered. Readings and assignments have three foci: 1) improve understanding of each issue within a broader context of public mental health policy, prevention, intervention, and maintenance; 2) deepen student knowledge of the topic from practice and research-based sources; and 3) enable students to deal more effectively with those issues within relevant settings. Topics may include, but are not limited to: school dropout, substance use, self-injury/cutting, relational aggression, management of extreme behaviors, homelessness, divorce/death, eating disorders, pregnancy, ADHD, and many others. Graded on A-F basis only.
Credit Hours: 3

ESC_PS 8470: Preventions and Interventions in School Mental Health
This course explores the role that educators and school mental health professionals play in promoting, prevention and early intervention practices for mental, emotional, and behavioral disorders in youth and considers the basic steps for designing, implementing and evaluating evidence based interventions.
Credit Hours: 3

ESC_PS 8475: Proactive Behavior Management
This course provides a framework to a prevention-focused model of classroom support and behavior management. Prevention is less time-consuming in the long run and leads to more opportunities for learning and social engagement because discipline problems are not interfering with teaching. This course will include evidence based strategies to structure proactive learning environments that promote students’ academic skills and competencies as well as their social and emotional development. Graded on A-F basis only.
Credit Hours: 3

ESC_PS 8490: Mental Health in Schools Capstone Paper
Course focuses on writing a capstone integration paper that is intended to be a culminating experience. Allows students to reflect on the content of their course work, evaluate the knowledge and skills acquired,
and apply what they have learned into their professional practice.  
Prerequisites: instructor's consent  
Credit Hour: 1  

ESC_PS 8515: Sport Psychology  
Current topics of research in sport psychology are examined. Topics include: sport personality, attention, activation and anxiety intervention, motivation, sport aggression, audience effects, team cohesion, leadership, and health psychology.  
Credit Hours: 3  
Prerequisites: PSYCH 1000

ESC_PS 8530: Developmental Psychopathology and Exceptionality  
An investigation into the presentation, diagnosis, and treatment of psychopathologies in individuals, emphasizing causal pathways, risks/resiliency, prevalence, incidence, and continuity/discontinuity of the disorders from research in the field of developmental psychopathology. Graded on A-F basis only.  
Credit Hours: 3

ESC_PS 8550: Diversity and Multiculturalism II - Practical Application  
This course is part two in the Multicultural Education Certificate series of online courses designed for students working in a broad range of professions, such as health care, social work, education, school counseling, administration, etc. Students will examine various topics on diversity and multiculturalism to enhance their personal and professional development. To this end, the milieu of this course will be a safe online environment that is conducive to open dialogue, self-reflection, critical thinking, and questioning, and one in which students can actively engage in the learning process through affective and cognitive approaches. Postings, along with relevant readings and assignments, will be used as the primary tools and resources for this collective learning experience. Graded on A-F basis only.  
Credit Hours: 3  
Recommended: ESC_PS 8450

ESC_PS 8555: African American Education - Historic and Current Issues  
Critical examination of the deculturalization of American educational system. Concepts of race, culture, and "post racial society" are juxtaposed with social and systemic trends impacting African American students both in and out of the classroom. Pedagogical strategies are discussed. Graded on A-F basis only.  
Credit Hours: 3  
Recommended: ESC_PS 8450

ESC_PS 8560: Immigrant Issues in Education  
The purpose of this course is to increase the level of cross-cultural awareness, knowledge, and skills of school personnel working with students who are immigrants. It is designed to be practically and experientially oriented. Activities and assignments in the class are designed to assist, encourage, and challenge each student to more fully develop awareness and knowledge of self, and to use this information to improve intercultural interactions with others in professional settings as well as other settings. The anticipated outcome includes improved skills in conceptualizing the unique needs of and responding with appropriate approaches to effectively assist students who are immigrants. Graded on A-F basis only.  
Credit Hours: 3

ESC_PS 8565: Gay, Lesbian and Bisexual Issues in the Schools  
This online course seeks to expand your perspective, worldview, and knowledge of GLB individuals and in your work environments as well as an invitation to promote social justice to make positive changes for the benefit of GLB individuals. Individuals who identify as GLB face many unique experiences, challenges, and opportunities during their developmental life span including issues related to coming out, psychological well-being and mental health development, heterosexism and homophobia, stereotypes and myths, and sexual identity. These issues and more are discussed in the course. Graded on A-F basis only.  
Credit Hours: 3  
Recommended: ESC_PS 8450

ESC_PS 8590: Multicultural Counseling Competencies: Theory and Research  
This course will introduce students to the current status of multicultural counseling theories and research issues and help students to increase their knowledge of cultural differences in counseling and psychology. Graded on A-F basis only.  
Credit Hours: 3

ESC_PS 8640: Interviewing, Diagnosis, and Assessment  
Introduction to clinical, psychometric assessment, and diagnosis. Data-gathering methods include interviews and tests/inventories of intellectual functioning, abilities, personality, and interests. Students utilize psychological reports to inform assessment, diagnosis and treatment.  
Credit Hours: 3  
Prerequisites or Corequisites: ESC_PS 8082

ESC_PS 8655: Item Response Theory  
Introduces modern scaling with Item Response Theory, and includes how it can be used to statistically specify information about latent variables and the stimuli (e.g., tests) used to represent them.  
Credit Hours: 3  
Prerequisites: ESC_PS 9640 and ESC_PS 9650

ESC_PS 8690: Educational Planning and Evaluation  
This course addresses major issues and models used in educational program planning and evaluation, including the appropriate use of various evaluation models and different types of data.  
Credit Hours: 3  
Prerequisites: departmental inquiry course, ESC_PS 8830 and/or ESC_PS 8957

ESC_PS 8700: Life/Career Coaching and Development  
Designed to teach life and career coaching strategies with roots in career psychology and positive psychology. It provides the tools and knowledge on how to coach people to achieve their personal and professional goals.
ESC_PS 8710: Meaning In Work
Covers a broad look at meaning and vocation using theoretical
and empirical frameworks. Also explores the influence of culture,
environment, relationships and personal values on meaning development
while providing a framework for working from a coaching/counseling
standpoint to help others identify or develop meaningful vocations.
Graded on A-F basis only.
Credit Hours: 3
Prerequisites: ESC_PS 7200

ESC_PS 8720: Community and Stewardship
Examines the concepts of community and stewardship, explores the
literal roots of the word (common-unity) and our ability to respond
(responsibility) to and build our communities. Also explores the
connections between altruism, personal well-being, and social
stewardship.
Credit Hours: 3
Prerequisites: ESC_PS 7200

ESC_PS 8730: Positive Organizational Psychology
Surveys the impact of positive organizational psychology research
throughout professional organizations. Students will learn empirically
defined elements of positive work environments and learn the building
blocks associated with this field including: Appreciative Inquiry, the
Abundance Approach, Strengths-Based Organizations, Positive Work
Environments, and Employee Engagement and Satisfaction.
Credit Hours: 3
Prerequisites: ESC_PS 7200

ESC_PS 8800: Quantitative Foundations in Educational Research
This course is designed to provide students the fundamental and
necessary quantitative methods skills in educational research. Topics
include one-way and factorial analysis of variance (ANOVA), analysis
of covariance (ANCOVA), repeated measures ANOVA, random-effects
ANOVA, simple linear regression, multiple regression, regression
diagnostics, introduction to logistic regression, and statistical power
analysis. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: ESC_PS 7170

ESC_PS 8860: Statistical Data Management and Analysis in
Educational Research
Good data management is a prerequisite for successful research, needed
for reproducibility of results, and essential when collaborating with
others. The focus of this course is the application of various techniques
with different educational databases using R. By the end of the class,
students should feel comfortable importing data using different formats,
recoding/renaming variables, merging data from different sources,
reshaping data, handling missing values, and creating graphs/tables/
plots. Graded on A-F basis only.
Credit Hours: 3

ESC_PS 8940: Counseling Psychology Practicum
Supervised practice of counseling in an approved counseling setting. May
be repeated. Graded on S/U basis only.
Credit Hour: 3-9
Prerequisites: ESC_PS 8040, ESC_PS 8135, and ESC_PS 8640 and
consent of counseling area faculty

ESC_PS 8943: Practicum in Multicultural Counseling Interventions
Supervised practice of applied multicultural counseling interventions in a
wide variety of approved community and university settings. Graded on S/
U basis only.
Credit Hour: 1-6
Prerequisites: ESC_PS 8040 and either ESC_PS 8570 or ESC_PS
8590

ESC_PS 8948: Field Placement in Counseling/Supervision
Students will conduct counseling and/or supervision in approved
community agencies under the supervision of licensed practitioners.
Graded on S/U basis only.
Credit Hour: 1-12
Prerequisites: completion of 9 credit hours of ESC_PS 8040, and
consent of the Counseling Area Faculty

ESC_PS 8957: Qualitative Methods in Educational Research I
(same as LTC 8957 and ED_LPA 8957). This course provides a practical
introduction to qualitative research and its applications in education and
social sciences. Graded on A-F basis only.
Credit Hours: 3

ESC_PS 8960: Interdisciplinary Child and Family Practicum
This class includes a focus on child/family services with a systems/
interdisciplinary approach. Students provide services via a mentorship
model (strong supervision initially moving toward autonomy). Services
include evaluations, therapy, consultation, psychiatric cross-training, and
others. Graded on S/U basis only.
Credit Hour: 1-6
Prerequisites: ESC_PS 8040 and instructor's consent

ESC_PS 8990: Career Development Theory for Women
Consideration of the relevance of theories of career development for
women, and their application to the counseling of women. Supervised
clinical experience in the application of theories to counseling high school
age women.
Credit Hours: 3

ESC_PS 9000: Multicultural Issues in Counseling
This course covers the research and theories of counseling racial/ethnic
minorities and gays, lesbians, and bisexuals in the U.S. Examination of
personal values and education about the interrelationship between race,
class, gender, and sexuality are accomplished via structured activities.
Credit Hours: 3
Recommended: ESC_PS 8340
ESC_PS 9020: Psychology of Crossing Cultural Borders
The primary purpose of the course is to promote the development of cross-cultural knowledge, awareness, and skills for applied psychologists. Students acquire knowledge of psychological processes associated with crossing cultural borders, and translate that knowledge into practical applications. Graded on A-F basis only.

Credit Hours: 3

ESC_PS 9030: Social Bases of Behavior
This course provides an advanced level, broad overview of the field of social psychology in relation to applied psychology. Graded on A-F basis only.

Credit Hours: 3

ESC_PS 9060: Advanced History and Systems of Psychology
This course explores the origins of psychology in philosophy and the sciences, the development of the science of psychology in the 19th and 20th centuries, and current theoretical perspectives and research in relation to the enduring issues in psychology. Graded on A-F basis only.

Credit Hours: 3

ESC_PS 9080: Biological Basis of Behavior
This course is an advanced level doctoral seminar that provides a broad overview of biological bases for human behavior. It will examine the neurophysiological bases of "normal" and "abnormal" behavior using a developmental perspective. Graded on A-F basis only.

Credit Hours: 3

ESC_PS 9090: Doctoral Dissertation Educational School & Counseling Psychology
Independent research leading to dissertation. Graded on S/U basis only.

Credit Hour: 1-12

Prerequisites: departmental consent

ESC_PS 9091: Internship in Counseling Psychology
Supervised experience in counseling psychology on half- or full-time basis in approved internship station. May be repeated. Graded on S/U basis only.

Credit Hour: 1-6

Prerequisites: departmental consent

ESC_PS 9092: Internship in School Psychology
Supervised practice in school psychology in an educational setting. May be repeated. Graded on S/U basis only.

Credit Hour: 1-6

Prerequisites: departmental consent

ESC_PS 9093: Doctoral Internship in School Psychology
Supervised practice in doctoral-level school psychology in an institutional or applied setting. May be repeated. Graded on S/U basis only.

Credit Hour: 1-6

Prerequisites: departmental consent

ESC_PS 9100: Advanced Psychological Measurement and Assessment
Introduction to the scientific and psychometric foundations of clinical assessment, including measurement theory, reliability, validity, and scale/test construction. Primary focus on the development and validation of evidence-based, psychometrically-sound assessment tools. Graded on A-F basis only.

Credit Hours: 3

Prerequisites: Instructor consent

ESC_PS 9125: Professional Iss. in Sch. Psych. II: Rsrch. Design & Application
For first-year doctoral students in school psychology. Includes study of research design and methodological issues in the field of school psychology.

Credit Hours: 3

Prerequisites: Must be admitted to school psychology doctoral program

ESC_PS 9126: Prevention Science Research Design and Analysis
Prevention Science Research is a graduate seminar intended to provide students with the theoretical and empirical foundations of prevention science. In particular, students will learn how to conceptualize problems from a prevention science perspective and design and evaluate preventive interventions using advanced methodologies. Opportunities for community-based participatory research including research design and analysis, papers and briefs, grantwriting, and community collaborations regarding prevention programming particularly pertaining to children's mental health.

Credit Hour: 1-3

Prerequisites: Instructor's consent

ESC_PS 9250: School Psychology Practicum: Advanced
This course is an advanced practicum for students providing school psychology services. Students develop higher-level skills in the areas of case coordination, diagnostic decision-making, intervention, and systems change. Graded S/U basis only. May be repeated for credit.

Credit Hour: 1-6

Prerequisites: Instructor's consent

ESC_PS 9260: Policy Practicum in Professional Psychology
Policy Practicum is an advanced practicum focused on macro level skills for shaping policy and systems-level intervention. Students work within agencies that establish policy for special education, mental health, and other education/psychology-related issues. May be repeated for credit.

Credit Hour: 1-3

Prerequisites: Instructor's consent

ESC_PS 9400: Theories and Practices in Supervision
Instruction and practice in the supervision of psychological services conducted in appropriate laboratories and agencies. Sections titled Counseling Psychology are graded on S/U basis only. Sections titled School Psychology are on A-F basis only.

Credit Hours: 3

Prerequisites: ESC_PS 8940 or ESC_PS 8944 and instructor's consent
ESC_PS 9450: Motivation
Investigates human motivation applied to performance in schools, athletics, and personal life. Topics include goals, attributions, self-efficacy, interest, cultural differences, and rewards. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: ESC_PS 8320 or equivalent

ESC_PS 9530: Scientific Fdns of Counseling Psych I: Prof Iss &
For first-year doctoral students in counseling psychology. This course focuses on the history of counseling psychology, in and scientific reasoning processes as they apply to both science and practice.
Credit Hours: 3

ESC_PS 9540: Scientific Foundations of Counseling Psych II: Rsrch, Dsgn & Appl
For first-year doctoral students in applied psychology. Includes study of research design and methodological issues in the field of counseling psychology.
Credit Hours: 3
Prerequisites: ESC_PS 9530

ESC_PS 9550: Scientific Writing in Counseling Psychology
This course focuses on the technical skills needed for developing a scientific research proposal in counseling psychology.
Credit Hours: 3
Prerequisites: ESC_PS 9530 and ESC_PS 9540 and instructor's consent

ESC_PS 9560: Psychological Consultation: Schools
The individual psychological consultation process between the mental health professional and school personnel. Techniques, models, research roles, and responsibilities are discussed. Graded on A-F basis only.
Credit Hours: 3

ESC_PS 9570: Psychological Consultation: Organizations
This course provides an introduction to the theory and practical skills required to effectively consult at the organizational level in a variety of settings and contexts. Graded on A-F basis only.
Credit Hours: 3

ESC_PS 9610: Applied Sport Psychology
Building upon the knowledge base of sport psychology, this course integrates and synthesizes student's understandings of the wide array of concepts and theories of the field into meaningful applications and strategies aimed at enhancing the sport experience of others. A case study approach will be employed.
Credit Hours: 3
Prerequisites: ESC_PS 8515

ESC_PS 9620: Qualitative Methods in Educational Research II
(same as ED_LPA 9620 and LTC 9620). This course constructs a conceptual and methodological bridge between the understandings of qualitative research developed in Qualitative Methods I and more advanced study of theories, designs, and methods. The focus is on theory, approaches to data analysis, and interpretation. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: ESC_PS 8957

ESC_PS 9640: Introduction to Theory of Educational Measurement
Classical and modern test theory, including IRT, generalizability theory and test bias. Also covered are advanced strategies for investigating reliability and validity.
Credit Hours: 3
Prerequisites: ESC_PS 7170 and ESC_PS 8082

ESC_PS 9650: Application of Multivariate Analysis in Educational Research
The focus of this course will be on applications of multivariate analysis in educational research.
Credit Hours: 3
Prerequisites: ESC_PS 8830 and ESC_PS 8840 or equivalent and instructor's consent

ESC_PS 9670: Structural Equation Modeling
Simultaneous analysis of relationships among variables. Topics included are path analysis, confirmatory factor analysis, hybrid models, and special types of structural models involving longitudinal data, multiple groups and analysis of means. May be repeated for credit.
Credit Hours: 3
Prerequisites: ESC_PS 9670

ESC_PS 9680: Hierarchical Linear Modeling
Hierarchical Linear Modeling (HLM), including multilevel and longitudinal approaches, in applied research settings for the social, educational psychological, and health-related sciences. May be repeated for credit.
Credit Hours: 3
Prerequisites: ESC_PS 7170, ESC_PS 8830, ESC_PS 8840, ESC_PS 9650; consent required

Electrical And Computer Engineering (ECE)

ECE 1000: Introduction to Electrical and Computer Engineering
Introduction to the basic principles of electrical and computer engineering through hands-on activity. Course includes fundaments of programming using Matlab, applied to electrical and computer engineering problems.
Credit Hours: 2

ECE 2100: Circuit Theory I
DC circuit analysis, inductors and capacitors, first order response, AC circuit analysis, single-phase AC power. Graded on A-F basis only.
Credit Hours: 4
Prerequisites: A grade of C- or better in MATH 1700
ECE 2210: Introduction to Logic Systems
(same as CMP_SC 2270). Introduces basic tools, methods and procedures to design combinational and sequential digital circuits and systems. Topics include number systems, Boolean algebra, logic minimization, circuit design, memory elements, and finite state machine design. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: CMP_SC 1050 with a grade of C or better

ECE 3110: Electrical and Computer Engineering Projects
Open-ended design projects which encourage innovative solutions to design and measurement problems. Students teams complete several projects from different areas. Both oral and written presentations emphasized. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: A grade of C or better in ECE 3210 or ECE 3280 or CMP_SC 3280 and ECE 3410 and a grade of C- or better in STAT 4710. Restricted to Electrical and Computer Engineering students only or instructor's consent

ECE 3210: Microprocessor Engineering for Electrical Engineers
Introduction to microprocessor architectures and programming; memory, memory management and cache organizations, bus configurations and timing implications; parallel I/O and serial communication interfaces.

Credit Hours: 4
Prerequisites: A grade of C or better in CMP_SC 1050 and ECE 2210 or CMP_SC 2270

ECE 3220: Software Design in C and C++
Software/Hardware development for embedded systems, including memory, I/O and interrupts; an overview of C and C++, class structures in object oriented programming; software development with UML and testing and debugging strategies. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: ECE 3280 or CMP_SC 3280 or ECE 3210 or CMP_SC 2270

ECE 3280: Computer Organization and Assembly Language
(same as CMP_SC 3280). Introduces computer architectures, programming concepts including parameter passing, I/O interrupt handling, DMA, memory systems, cache, and virtual memory. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: ECE 2210 or CMP_SC 2270 with a grade of C or better

ECE 3410: Electronic Circuits and Signals I
Electron Devices, modeling and applications to basic electronic circuits, including RC amplifiers and power supplies.

Credit Hours: 4
Corequisites: ECE 3810

ECE 3510: Electromagnetic Fields
Elements of vector analysis, transmission line theory, electrostatics, magnetostatics, time varying fields and plane waves. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: A grade of C- or better in PHYSCS 2760 and a grade of C or better in ECE 2100
Corequisites: MATH 4100

ECE 3610: Semiconductors and Devices
Crystal structure; quantum aspects of energy, radiation and matter; quantum mechanics and energy bands in solids; electronic and optical properties of semiconductors; p-n junctions and diodes; bipolar and field-effect transistors.

Credit Hours: 3
Prerequisites: A grade of C or better in ECE 3510

ECE 3810: Circuit Theory II
Impulse and step responses, RLC circuits, classical differential equations solutions, complex plane stability, frequency and Bode Analysis, Resonance, Laplace transforms, two-port networks, mutual inductance and transformers. Graded on A-F basis only.

Credit Hours: 4
Prerequisites: A grade of C or better in ECE 2100
Corequisites: MATH 4100

ECE 3830: Signals and Linear Systems
Transform Analysis of Signals and Linear Systems. Laplace transforms, z-transforms, Fourier series and transforms.

Credit Hours: 3
Prerequisites: A grade of C or better in ECE 3810

ECE 4001: Topics in Electrical and Computer Engineering
Current and new technical developments in electrical engineering.

Credit Hour: 1-4
Prerequisites: senior standing

ECE 4020: Energy Systems and Resources
(same as NU_ENG 4315; cross-leveled with ECE 7020, NU_ENG 7315). Analysis of present energy usage in Missouri, USA and the world, evaluation of emerging energy technologies and trends for the future. Economics and environmental impact of the developed technologies.

Credit Hours: 3
Prerequisites: ENGINR 2300

ECE 4030: Introduction to Nuclear Reactor Engineering
(same as NU_ENG 4346; cross-leveled with ECE 7030, NU_ENG 7346). Engineering principles of nuclear power systems, primarily for the production of electrical energy.

Credit Hours: 3
Prerequisites: ENGINR 1200, ENGINR 2300

ECE 4040: Introduction to Nuclear Physics
(cross-leveled with ECE 7040). Introduction of Quantum mechanics for non-physics majors. Course topics include nuclear properties; alpha, beta and gamma radioactive decay; and nuclear reactions. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: senior standing or graduate standing in engineering or equivalent mathematical preparation

ECE 4070: Numerical Methods for Science and Engineering
(same as CMP_SC 4070; cross-leveled with ECE 7070, CMP_SC 7070).
This course introduces the basic numerical methods that are widely used by computer scientists and engineers. Students will learn how to use the MATLAB platform to find the computational solution of various problems arising in many real world applications. By completing this course, students will be able to master algorithms, compare their performances and critically assess which ones are viable options for the particular problem at hand. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: CMP_SC 2050, junior standing, or Instructor's consent
Recommended: Students are expected to have basic knowledge in discrete math and algorithms

ECE 4085: Problems in Electrical and Computer Engineering
Analytical or experimental problems pertaining to electric circuits, machines, fields or electronics.
Credit Hour: 1-3
Recommended: 12 hours Electrical and Computer Engineering credit or instructor's consent

ECE 4220: Real Time Embedded Computing
(cross-leveled with ECE 7220). Embedded systems development with real time constraints including RTOS, task management and synchronization, real time scheduling algorithms, deadlocks, performance analysis and optimization, interfacing to external devices, and device drivers. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: ECE 3220 or ECE 4220

ECE 4250: VHDL and Programmable Logic Devices
(cross-leveled with ECE 7250). Design techniques including module definition, functional partitioning, hardware design language descriptions and microprogramming; design examples include arithmetic units, programmable controllers, and microprocessors.
Credit Hours: 4
Prerequisites: ECE 3210 or ECE 3280 or CMP_SC 3280 with a grade of C or better

ECE 4270: Computer Organization
(same as CMP_SC 4270; cross-leveled with ECE 7270, CMP_SC 7270).
Advanced computer architectures and programming; memory, memory management and cache organizations, parallel processing, graphical processor units for general programming.
Credit Hours: 4
Prerequisites: CMP_SC 2050 and ECE 3280 or CMP_SC 3280 or ECE 3210 with a grade of C or better

ECE 4280: Network Systems Architecture
(same as CMP_SC 4280; cross-leveled with ECE 7280, CMP_SC 7280).
The course covers network systems interconnects and switch fabrics, network considerations: and relevant networking applications at the network, transport and application layer. Graded on A-F basis only.
Credit Hours: 4
Prerequisites: junior standing

ECE 4310: Feedback Control Systems
(same as BIOL_EN 4310, MAE 4750; cross-leveled with BIOL_EN 7310, ECE 7310, MAE 7750). System modeling and time and frequency response, closed loop control, stability, continuous system design, introduction to discrete time control, software and hardware experiments on compensator design and PID control. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: MATH 4100

ECE 4320: Architectural Robotics
(cross-leveled with ECE 7320). Architectural robotics has been defined as "intelligent and adaptable built environments (featuring embedded robotic components) that sense, plan, and act". This course will cover the basic concepts required for understanding, developing, and testing embedded robotic systems for the built environment. Students will work together in teams in a studio-style format which emphasizes hands-on projects to develop working prototypes. The goal is to offer students an opportunity for creativity in an interdisciplinary setting. Graded on A-F basis only.
Credit Hours: 4
Prerequisites: junior or senior standing

ECE 4330: Introduction to Mechatronics and Robotic Vision
(cross-leveled with ECE 7330). Covers 1) mechatronic systems; 2) the mathematical tools used to model industrial and mobile robots; and 3) vision sensors, their underlying models and algorithms that allow us to control and interact with robots.
Credit Hours: 4
Prerequisites: ECE 3220 or ECE 4220
Recommended: a C/C++ languages

ECE 4340: Building Intelligent Robots
(same as CMP_SC 4740; cross-leveled with ECE 7340, CMP_SC 7740). Covers the design and development of intelligent machines, emphasizing topics related to sensor-based control of mobile robots. Includes mechanics and motor control, sensor characterization, reactive behaviors and control architectures. Recommended: programming experience in one of the following programming languages: Basic , C, C++, or Java.
Credit Hours: 4
Prerequisites: junior standing

ECE 4350: Programmable Logic Controllers
(cross-leveled with ECE 7350). Hardware and software aspects of PLC's; computer/PLC Communications; developing ladder logic programs; interfacing I/O devices, including sensors, to the PLC; labeling and documentation; utilizing analog capabilities; applications; developing Supervisory Control and Data Acquisitions (SCADA) applications.
Credit Hours: 4
Prerequisites: junior standing
### ECE 4410: Power Electronics I
(cross-leveled with ECE 7410). Power electronic device characteristics, important circuit and component concepts, loss mechanisms and thermal analysis, phase controlled rectifiers, dc-dc converters, and dc-ac inverters. Includes laboratory projects.

**Credit Hours:** 4  
**Prerequisites:** ECE 3410

### ECE 4430: Electronic Circuits and Signals II
(cross-leveled with ECE 7430). Advanced study of electronic devices including frequency response of amplifiers, nonlinear effects in transistor amplifiers, oscillators, and feedback amplifiers.

**Credit Hours:** 3  
**Prerequisites:** ECE 3830 and ECE 3410

### ECE 4440: Power Systems Analysis
(cross-leveled with ECE 7440). Selected topics related to modern power system analysis. Single and three-phase balanced power; Transformers and the per unit concept; Properties and analysis of transmission lines; power flow analysis; symmetrical and asymmetrical faults; system stability; power distribution; use of Powerworld software. Graded on A-F basis only.

**Credit Hours:** 3  
**Prerequisites:** ECE 3810 and MATH 4100 or instructor's consent

### ECE 4460: Energy and Machines

**Credit Hours:** 3  
**Prerequisites:** ECE 3510

### ECE 4470: Sustainable Electrical Energy Resources
(cross-leveled with ECE 7470). Analysis of renewable electrical energy resources from both the utility and distributed resource perspective. Covers safety, metering and power quality issues associated with coupling distributed resources to the utility grid.

**Credit Hours:** 3  
**Prerequisites:** ECE 2100 or ENGINR 2100

### ECE 4510: Pulsed Power Engineering
(cross-leveled with ECE 7510). Concepts of energy generation and storage systems used in pulse power engineering, high power opening and closing switches, high voltage engineering, grounding and shielding, high voltage safety.

**Credit Hours:** 3  
**Prerequisites:** ECE 3510

### ECE 4550: Digital Image Processing
(same as CMP_SC 4650; cross-leveled with ECE 7655, CMP_SC 7650). This course provides fundamentals of digital image processing hardware and software including digital image acquisition, image display, image enhancement, image transforms and segmentation.

**Credit Hours:** 3  
**Prerequisites:** ECE 3510
**Prerequisites:** C- or higher in CMP_SC 2050 and STAT 4710 or instructor's consent

**ECE 4670: Microelectronic Fabrication**  
(cross-leveled with ECE 7670). Basic silicon integrated circuit fabrication processes, basic techniques of wafer processing, economics of fabrication and resulting devices properties, interdependence of process flow and device design. Accompanying laboratory.  
**Credit Hours:** 4  
**Prerequisites:** ECE 3610

**ECE 4675: Digital Image Compression**  
(same as CMP_SC 4670; cross-leveled with ECE 7675, CMP_SC 7670). This course provides basic concepts and theorems in information theory, discrete cosine transform, discrete wavelet transform, quantizer design, bit allocation, and rate-distortion analysis and practical coding and communication system design, (such as Huffman coding, arithmetic coding, variable length coding, motion estimation, JPEG.)  
**Credit Hours:** 3  
**Prerequisites:** C- or higher in CMP_SC 2050

**ECE 4710: Communications Systems**  
(cross-leveled with ECE 7710). Concepts of communication systems, signal analysis and power spectrum density, signal transmission and filtering, linear modulation, exponential modulation, sampling, baseband digital communication, modulated digital communication, spread spectrum communication.  
**Credit Hours:** 3  
**Prerequisites:** ECE 3830

**ECE 4720: Introduction to Machine Learning and Pattern Recognition**  
(Same as CMP_SC 4720; cross-leveled with ECE 7720, CMP_SC 7720)  
This course provides foundation knowledge to the basic methods in machine learning and pattern recognition (MLPR). MLPR addresses the problems of programming computers to optimize certain performance criteria by using example data or expert knowledge and it has wide applications.  
**Credit Hours:** 3  
**Prerequisites:** C- or higher in CMP_SC 2050 and STAT 4710 or instructor consent

**ECE 4730: Introduction to Wireless Communication System**  
(cross-leveled with ECE 7730). Principles of wireless communication analysis and design. Digital communication basics, cellular radio, wireless PCS communications, multiple access techniques, channel coding and equalization, and standards of digital cellular/PCS systems.  
**Credit Hours:** 3

**ECE 4830: Introduction to Digital Signal Processing**  
(cross-leveled with ECE 7830). Concepts, analytical tools, design techniques used in computer processing of signals; signal representation, sampling, discrete-time systems analysis, recursive and non-recursive filters, design/implementation, discrete Fourier transform.  
**Credit Hours:** 4

**ECE 4870: Introduction to Computational Intelligence**  
(same as CMP_SC 4770; cross-leveled with ECE 7870, CMP_SC 7770). Introduction to the concepts, models, and algorithms for the development of intelligent systems from the standpoint of the computational paradigms of neural networks, fuzzy set theory and fuzzy logic, evolutionary computation and swarm optimization. Graded on A-F basis only.  
**Credit Hours:** 3  
**Recommended:** some exposure to rigorous axiomatic mathematical development of a topic (as can be found in most senior/graduate level math or statistics courses) is needed to appreciate some of the development of the theory. Also, the ability to program (well) in some high level language is essential to perform the computer projects

**ECE 4880: Micro/Nano Systems**  
(cross-leveled with ECE 7880). Micro/nano systems covers various micro/nanotechnologies, micro sensors and actuators including digital light processors, accelerometers, gyroscopes, micro optical switches and components, micro speakers, RF switches, inertial/mechanical and acoustic M/NEMS and M/Nanofluidic systems. Major mechanisms/principles for micro/Nano devices and systems are also covered. The Micro/Nano Systems focuses on the miniaturization technologies that have important roles in materials, mechanical, and biomedical engineering practice. Graded on A-F basis only.  
**Credit Hours:** 3  
**Prerequisites:** ECE 3610 or instructor's consent

**ECE 4930: Intermediate Electromagnetics**  
(cross-leveled with ECE 7930). Course covers transmission lines, waveguides, microstrip electromagnetic circuits, and radiating systems.  
**Credit Hours:** 4  
**Prerequisites:** ECE 3510

**ECE 4940: Antenna Theory, Design and Laboratory**  
(cross-leveled with ECE 7940). Introduction to antenna theory, design and laboratory. Emphasis on engineering aspects of antenna systems, transmitting and receiving antenna parameters, various antennas.  
**Credit Hours:** 4  
**Prerequisites:** ECE 3510

**ECE 4970: Senior Capstone Design**  
**Credit Hours:** 3  
**Prerequisites:** A grade of C or better in ECE 3110 and senior standing. Restricted to Electrical and Computer Engineering students only or instructor's consent

**ECE 4970W: Senior Capstone Design - WI**  
Credit Hours: 3
Prerequisites: A grade of C or better in ECE 3110 and senior standing. Restricted to Electrical and Computer Engineering students only or instructor's consent

ECE 4990: Undergraduate Research in Electrical Computer Engineering
Supervised independent study or project in electrical or computer engineering, culminating in a written report.
Credit Hour: 1-3
Prerequisites: Undergraduate Program Director's consent

ECE 4995: Undergraduate Honors Research in Electrical Computer Engineering
Independent investigation or project in electrical or computer engineering to be presented as an undergraduate honors thesis. Enrollment is limited to students participation in the Electrical and Computer Engineering Honors Program.
Credit Hour: 1-3

ECE 7001: Advanced Topics in Electrical and Computer Engineering
Current and new technical developments in electrical engineering.
Credit Hour: 1-4

ECE 7010: Digital Computer Applications in Engineering
Use of digital computer for solution of engineering problems involving roots of equations, simultaneous equations, curve fitting, integration, differentiation and differential equations.
Credit Hours: 3
Prerequisites: MATH 2300

ECE 7020: Energy Systems and Resources
(same as NU_ENG 7315; cross-leveled with ECE 4020, NU_ENG 4315). Analysis of present energy usage in Missouri, USA and the world, evaluation of emerging energy technologies and trends for the future. Economics and environmental impact of the developed technologies.
Credit Hours: 3
Prerequisites: ENGINR 2300

ECE 7030: Introduction to Nuclear Reactor Engineering
(same as NU_ENG 7346; cross-leveled with ECE 4030, NU_ENG 4346). Engineering principles of nuclear power systems, primarily for the production of electrical energy.
Credit Hours: 3
Prerequisites: graduate ENGINR 1200, ENGINR 2300

ECE 7040: Introduction to Nuclear Physics
(cross-leveled with ECE 4040). Introduction of Quantum mechanics for non-physics majors. Course topics include nuclear properties; alpha, beta and gamma radioactive decay; and nuclear reactions. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: senior standing or graduate standing in engineering or equivalent mathematical preparation

ECE 7070: Numerical Methods for Science and Engineering
(same as CMP_SC 7070; cross-leveled with ECE 4070, CMP_SC 4070). This course introduces the basic numerical methods that are widely used by computer scientists and engineers. Students will learn how to use the MATLAB platform to find the computational solution of various problems arising in many real world applications. By completing this course, students will be able to master algorithms, compare their performances and critically assess which ones are viable options for the particular problem at hand. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: CMP_SC 2050, junior standing, or Instructor's consent
Recommended: Students are expected to have basic knowledge in discrete math and algorithms

ECE 7220: Real Time Embedded Computing
(cross-level with ECE 4220). Embedded systems development with real time constraints including RTOS, task management and synchronization, realtime scheduling algorithms, deadlocks, performance analysis and optimization, interfacing to external devices, and device drivers. Graded A-F basis only.
Credit Hours: 3
Prerequisites: ECE 3220

ECE 7250: VDHL and Programmable Logic Devices
(cross-leveled with ECE 4250). Design techniques including module definition, functional partitioning, hardware design language descriptions and microprogramming; design examples include arithmetic units, programmable controllers, and microprocessors.
Credit Hours: 4
Prerequisites: ECE 3210 or ECE 3280 or CMP_SC 3280 with a grade of C or better

ECE 7270: Computer Organization
(same as CMP_SC 7270; cross-leveled with ECE 4270, CMP_SC 4270). Advanced computer architectures and programming; memory, memory management and cache organizations, parallel processing, graphical processor units for general programming.
Credit Hours: 4
Prerequisites: CMP_SC 2050 and ECE 3280 or CMP_SC 3280 or ECE 3210 with a grade of C or better

ECE 7280: Network Systems Architecture
(same as CMP_SC 7280; cross-leveled with ECE 4280, CMP_SC 4280). The course covers network systems interconnects and switch fabrics, network considerations and relevant networking applications at the network, transport and application layer. Graded on A-F basis only.
Credit Hours: 4
Prerequisites: CMP_SC 2050 or ECE 3200 and CMP_SC 3280 or CMP_SC 3210 with a grade of C or better

ECE 7310: Feedback Control Systems
(same as BIOL_EN 7310, MAE 7750; cross-leveled with ECE 4310, BIOL_EN 4310, MAE 4750). System modeling and time and frequency response, closed loop control, stability, continuous system design,
introduction to discrete time control, software and hardware experiments on compensator design and PID control.

**Credit Hours:** 3  
**Prerequisites:** MATH 4100

---

**ECE 7320: Architectural Robotics**  
(cross-leveled with ECE 4320). Architectural robotics has been defined as "intelligent and adaptable built environments (featuring embedded robotic components) that sense, plan, and act". This course will cover the basic concepts required for understanding, developing, and testing embedded robotic systems for the built environment. Students will work together in teams in a studio-style format which emphasizes hands-on projects to develop working prototypes. The goal is to offer students an opportunity for creativity in an interdisciplinary setting. Graded on A-F basis only.

**Credit Hours:** 4  
**Prerequisites:** ECE 4970 or equivalent

---

**ECE 7330: Introduction to Mechatronics and Robotic Vision**  
(cross-leveled with ECE 4330). Introduces robotics; robot system characteristics; robot motive power systems; geometric structure of robots; sensors and feedback; control algorithms and testing algorithms; data acquisition and output actuation function; robots and AI; microprocessor applications. Lecture and Laboratory. Recommended: a C/C++ Language course.

**Credit Hours:** 4  
**Prerequisites:** ECE 3220 or ECE 4220

---

**ECE 7335: Nuclear Safeguards Science and Technology**  
(same as NU_ENG 7335). This course provides an overview of nuclear materials management and safeguards, including physical protection systems, material accounting and control, monitoring, and regulatory issues.

**Credit Hours:** 3  
**Prerequisites:** NU_ENG 4303 or NU_ENG 7303

---

**ECE 7340: Building Intelligent Robots**  
(same as CMP_SC 7730; cross-leveled with ECE 4340, CMP_SC 4730) Covers the design and development of intelligent machines, emphasizing topics related to sensor-based control of mobile robots. Includes mechanics and motor control, sensor characterization, reactive behaviors and control architectures.

**Credit Hours:** 4  
**Recommended:** some programming experience

---

**ECE 7350: Programmable Logic Controllers**  
(cross-leveled with ECE 4350). Hardware and software aspects of PLC's; computer/PLC Communications; developing ladder logic programs; interfacing I/O devices, including sensors, to the PLC; labeling and documentation; utilizing analog capabilities; applications; developing Supervisory Control and Data Acquisitions (SCADA) applications.

**Credit Hours:** 4

---

**ECE 7370: Automatic Control System Design**  
(cross-leveled with ECE 4370). Techniques for feedback system design and analysis; compensation using root locus and frequency-domain methods; state-variable design methods; techniques for nonlinear systems analysis and design; sample-data control systems.

**Credit Hours:** 3  
**Prerequisites:** ECE 4310

---

**ECE 7410: Power Electronics I**  
(cross-leveled with ECE 4410). Power electronic device characteristics, important circuit and component concepts, loss mechanisms and thermal analysis, phase controlled rectifiers, dc-dc converters, and dc-ac inverters. Includes laboratory projects.

**Credit Hours:** 4  
**Prerequisites:** ECE 3410

---

**ECE 7430: Electronic Circuits and Signals II**  
(cross-leveled with ECE 4430). Advanced study of electronic devices including frequency response of amplifiers, nonlinear effects in transistor amplifiers, oscillators, and feedback amplifiers.

**Credit Hours:** 3  
**Prerequisites:** ECE 3830 and ECE 3410

---

**ECE 7460: Energy and Machines**  

**Credit Hours:** 3  
**Prerequisites:** ECE 3510

---

**ECE 7470: Sustainable Electrical Energy Resources**  
(cross-leveled with ECE 4470). Analysis of renewable electrical energy resources from both the utility and distributed resource perspective. Covers safety, metering and power quality issues associated with coupling distributed resources to the utility grid.

**Credit Hours:** 3  
**Prerequisites:** ECE 2100 or ENGINR 2100

---

**ECE 7510: Pulsed Power Engineering**  
(cross-leveled with ECE 4510). Concepts of energy generation and storage systems used in pulse power engineering, high power opening and closing switches, high voltage engineering, grounding and shielding, high voltage safety.

**Credit Hours:** 3  
**Prerequisites:** ECE 3510

---

**ECE 7550: Introduction to Plasmas**  
(same as NU_ENG 7375; cross-leveled with ECE 4550, NU_ENG 4375). Equations of plasma physics, interaction of waves and plasmas; plasma sheaths and oscillations; measurements and applications.

**Credit Hours:** 3  
**Prerequisites:** ECE 4930

---

**ECE 7590: Computational Neuroscience**  
(same as BIOL_EN 7590, BIO_SC 7590; cross-leveled with BIOL_EN 4590, BIO_SC 4590, ECE 4590). Interdisciplinary course in biology and
quantitative sciences with laboratory and modeling components. Explores basic computational and neurobiological concepts at the cellular and network level. Introduction to neuronal processing and experimental methods in neurobiology; modeling of neurons and neuron-networks. Graded on A-F basis only.

**Credit Hours:** 4  
**Prerequisites:** MATH 1500 or equivalent

---

**ECE 7620: Introduction to BioMEMS**  

**Credit Hours:** 3  
**Prerequisites:** ECE 7620: Introduction to BioMEMS (cross-leveled ECE 4620). BioMEMS materials, fabrication techniques, micro-fluidic principles and devices, drug delivery, biomedical micro-devices for neural implants, patch clamping and single cell based systems, micro-electroporation, DNA microarrays, Polymerase Chain Reaction, chemical/gas/bio-sensors. Graded on A-F basis only.

---

**ECE 7630: Introduction to Optical Electronics**  

**Credit Hours:** 3  
**Prerequisites:** ECE 7630

---

**ECE 7640: MEMS Laboratory**  
(cross-leveled with ECE 4640). The main objective of this course is to provide hands-on skills for the interdisciplinary Microelectromechanical systems (MEMS). It puts emphasis on the practical aspects of design, fabrication, test, and characterization of micro/nano devices and systems. Graded on A-F basis only.

**Credit Hours:** 4  
**Prerequisites:** PHYSCS 2760, CHEM 1320 or ECE 2100; instructor's consent

---

**ECE 7650: Semiconductor Device Theory**  
(cross-leveled with ECE 7650). Band theory, equilibrium and non-equilibrium semiconductor electronics, junction theory, p-n junction devices, bipolar and field effect transistors including SPICE simulation.

**Credit Hours:** 3  
**Prerequisites:** ECE 3610

---

**ECE 7655: Digital Image Processing**  
(same as CMP_SC 7650; cross-leveled ECE 4655, CMP_SC 4650). The course provides fundamentals of digital image processing hardware and software including digital image acquisition, image display, image enhancement, image transforms and segmentation.

**Credit Hours:** 3  
**Prerequisites:** STAT 4710 and CMP_SC 2050 or instructor's consent

---

**ECE 7670: Microelectronic Fabrication**  
(cross-leveled with ECE 4670). Basic silicon integrated circuit fabrication processes, basic techniques of wafer processing, economics of fabrication and resulting devices properties, interdependence of process flow and device design. Accompanying laboratory.

**Credit Hours:** 4  
**Prerequisites:** ECE 3610

---

**ECE 7675: Digital Image Compression**  
(same as CMP_SC 7670; cross-leveled with ECE 4675, CMP_SC 4670). This course provides basic concepts and theorems in information theory, discrete cosine transform, discrete wavelet transform, quantizer design, bit allocation, and rate-distortion analysis and practical coding and communication system design, (such as Huffman coding, arithmetic coding, variable length coding, motion estimation, JPEG.)

**Credit Hours:** 3  
**Prerequisites:** CMP_SC 2050

---

**ECE 7690: Design and Simulation of VLSI Circuits**  
(cross-leveled with ECE 4690). Design of CMOS integrated circuits with emphasis on analog applications. Device models are developed for circuit simulation. Lecture and laboratory.

**Credit Hours:** 4  
**Prerequisites:** ECE 7690

---

**ECE 7710: Communications Systems**  
(cross-leveled with ECE 4710). Concepts of communication systems, signal analysis and power spectrum density, signal transmission and filtering, linear modulation, exponential modulation, sampling, baseband digital communication, modulated digital communication, spread spectrum communication.

**Credit Hours:** 3  
**Prerequisites:** ECE 3830

---

**ECE 7720: Introduction to Machine Learning and Pattern Recognition**  
(same as CMP_SC 7720; cross-leveled with ECE 4720, CMP_SC 4720). This course provides foundation knowledge to the basic methods in machine learning and pattern recognition (MLPR). MLPR addresses the problem of programming computers to optimize certain performance criteria by using example data or expert knowledge and it has wide applications.

**Credit Hours:** 3  
**Prerequisites:** CMP_SC 2050 and STAT 4710 or instructor's consent

---

**ECE 7730: Introduction to Wireless Communication System**  
(cross-leveled with ECE 4730). Principles of wireless communication analysis and design. Digital communication basics, cellular radio, wireless PCS communications, multiple access techniques, channel coding and equalization, and standards of digital cellular/PCS systems.

**Credit Hours:** 3

---

**ECE 7810: Multimedia Engineering and Technology**  
(same as CMP_SC 7810). Survey of multimedia applications. Capture, coding, storage, transmission, and software tools for developing productions involving text, graphics, images, animation, sound and video. Term projects. Lecture and laboratory.

**Credit Hours:** 4
Prerequisites: ECE 3210 and ECE 3830

ECE 7830: Introduction to Digital Signal Processing
(cross-leveled with ECE 4830). Concepts, analytical tools, design techniques used in computer processing of signals; signal representation, sampling, discrete-time systems analysis, recursive and non-recursive filters, design/implementation, discrete Fourier transform.
Credit Hours: 4
Prerequisites: ECE 1210, ECE 3830

ECE 7870: Introduction to Computational Intelligence
(same as CMP_SC 7770; cross-leveled with ECE 4870, CMP_SC 4770). Introduction to the concepts, models, and algorithms for the development of intelligent systems from the standpoint of the computational paradigms of neural networks, fuzzy set theory and fuzzy logic, evolutionary computation and swarm optimization. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: some exposure to rigorous axiomatic mathematical development of a topic (as can be found in most senior/graduate level math or statistics courses) is needed to appreciate some of the development of the theory. Also, the ability to program (well) in some high level language is essential to perform the computer projects

ECE 7880: Micro/Nano Systems
(cross-leveled with ECE 4880). Micro/Nano systems covers various micro/nanotechnologies, micro sensors and actuators including digital light processors, accelerometers, gyroscopes, micro optical switches and components, micro speakers, RF switches, inertial/mechanical and acoustic M/NEMS and M/Nanofluidic systems. Major mechanisms/principles for micro/Nano devices and systems are also covered. The Micro/Nano Systems focuses on the miniaturization technologies that have important roles in materials, mechanical, and biomedical engineering practice. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: ECE 3610 or instructor's approval

ECE 7930: Intermediate Electromagnetics
(cross-leveled with ECE 4930). Course covers transmission lines, waveguides, microstrip electromagnetic circuits, and radiating systems
Credit Hours: 4
Prerequisites: ECE 3510

ECE 7940: Antenna Theory, Design and Laboratory
(cross-leveled with ECE 4940). Introduction to antenna theory, design and laboratory. Emphasis on engineering aspects of antenna systems, transmitting and receiving antenna parameters, and various wire antennas.
Credit Hours: 4
Prerequisites: ECE 3510

ECE 7950: Microwave Principles
(cross-leveled with ECE 4950). Maxwell's Equations, transmission lines, plane wave propagation and reflection, waveguides, resonant cavities, microwave devices and components, radiation, radio wave propagation. Lecture and laboratory.

Prerequisites: ECE 3510 and ECE 3410

ECE 8001: Advanced Topics in Electrical and Computer Engineering
Advanced Topics in Electrical and Computer Engineering. Graded on A-F basis only.
Credit Hour: 1-4
Prerequisites: may vary from semester to semester depending on topic

ECE 8010: Supervised Study in Electrical Engineering
Supervised individual study at the graduate level to be completed within the course of one semester in the form of a brief report. Graded on S/U basis only
Credit Hour: 1-3

ECE 8011: Software and Cyber Automation in Neuroscience
This seminar course will emphasize software and cyber automation tools in neuroscience to address the emerging needs of big data in neuroscience. Students will work in pairs to address such needs of various neuroscience Labs both within MU and with collaborators outside MU. The students pairs will be provided a list of automation projects to work on (one or maximum two) during the semester, under close supervision of the instructors. They will also be provided access to local cyberinfrastructure at MU, national cyberinfrastructure resources such as CyVerse (www.cyverse.org) and Neuroscience Gateway (https://www.nsgportal.org), as well as public clouds such as XSEDE and Amazon Web Services. Graded on A-F basis only.
Credit Hour: 1
Prerequisites: Basic software programming, basic cell biology, or consent of instructor

ECE 8058: Problems in Electrical and Computer Engineering
Supervised investigation of an electrical engineering problem for an MS project. Study culminates in a project report. Graded on a S/U basis only.
Credit Hour: 2-5

ECE 8110: Preparing Advanced Professionals - I
Discussions on a variety of topics: Pedagogy - latest from cognitive science and learning theory, effective teaching, how a university functions, engineering teaching and research; how leading industries perform research and the importance of soft skills, etc. Graded on A-F basis only.
Credit Hour: 1
Prerequisites: restricted to graduate Engineering majors only

ECE 8120: Preparing Advanced Professionals - II
Continues format of ECE 8110 with group discussions and seminars by experts on how to write an effective proposal, including a review of model proposals, model proposal reviews, and a 'hands-on' proposal writing followed by globalization and its effects on professionals. Graded on A-F only.
Credit Hour: 1
Prerequisites: graduate engineering majors only
ECE 8270: Parallel Computer Architecture
The course covers parallel computer architecture (general purpose multi-core and many-core processors, shared and distributed memory systems, clusters). Emphasis will be given to both architectural and programmability aspects. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: ECE 4270 or ECE 7270, ECE 4220 or ECE 7220 or CMP_SC 4250 or CMP_SC 7250

ECE 8320: Nonlinear Systems
Nonlinear systems including topics such as limit cycles, phase plane analysis, bifurcation, Lyapunov stability, input-output stability, passivity. Topics from control such as feedback linearization, sliding control, and Lyapunov redesign. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: ECE 4310

ECE 8510: Advanced Electromagnetics
Advanced theoretical electromagnetic theory. Investigation of summation problems with general boundary conditions, time varying fields, and time harmonic currents. Basic applications and relationships in classical and relativistic physics.

Credit Hours: 3
Prerequisites: ECE 3510

ECE 8520: Direct Energy Conversion Technologies
Study of direct energy conversion technology and research trends in this area. Topics include energy storage techniques (mechanical, chemical, thermal, inductive, capacitive), thermoelectric generators, photovoltaic generators, thermionic generators, magnetohydrodynamic generators, piezoelectric generators, wind generators, fuel cells. Current research trends in this area will also be examined. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: ECE Majors or instructors consent

ECE 8530: Advanced Photonics
Concentrated study of optical system design, including integrated optics, semiconductor lasers, quantum wells, optical materials, and electro-optical effects used in modern optical systems.

Credit Hours: 3
Prerequisites: ECE 4530

ECE 8540: Advanced Network Theory and Applications
Advanced study of network theorems including compensation, reciprocity, duality, and maximum power. Theory and application of N-port parameters. Linear and non-linear network synthesis techniques. Analysis of ordinary and partial differential equations to develop electrical analogs for mechanical, pneumatic, thermal, hydraulic systems. Study of non-linear circuit analysis and modeling techniques. Current research trends in this area will also be examined. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: ECE Majors or instructors consent

ECE 8570: Theoretical Neuroscience I
Properties of nerve cells including membrane potential, action potential, ion channel dynamics, GHK equation, dynamical properties of excitable membranes. Equilibria, stability, eigenvalues and phase portraits. Conductance based models, bifurcations, excitability. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: ECE 4310

ECE 8580: Theoretical Neuroscience II
Neural encoding and decoding including firing rate and spike statistics, reverse correlation and visual receptive fields. Cellular and synaptic biophysics. Adaptation and learning including plasticity, classical conditioning, reinforcement learning and representational learning. Graded on A-F basis.

Credit Hours: 3
Prerequisites: ECE 8570

ECE 8590: Computer Vision
(same as CMP_SC 8690). This course introduces students to the fundamental problems of computer vision, the main concepts and the techniques used to solve such problems. It will enable graduate and advanced undergraduate students to solve complex problems and make sense of the literature in the area. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: ECE 4655 or ECE 7655 or CMP_SC 4650 or CMP_SC 7650 or instructor's consent

ECE 8610: Power Semiconductor Devices
A study of the semiconductor devices used in switch-mode power converter circuits. Course surveys the field and discusses selected devices in depth.

Credit Hours: 3
Prerequisites: ECE 3610, ECE 4630 and ECE 4650

ECE 8620: Advanced Microelectromechanical Systems
MEMS development cycle, overview of microfabrication, microsystem modeling, mechanical analysis, thermal analysis, transduction mechanism, case studies; Micromirror, accelerometers, pressure sensors, force sensors, RF MEMS switches, Infrared sensors, and Microsystem packaging.

Credit Hours: 3

ECE 8690: Computer Vision
(same as CMP_SC 8690). This course introduces the theories and applications of advanced supervised machine learning methods. It covers

ECE 8695: Cognitive Computer Vision
One of the more recent trends in computer vision research in the pursuit of human-like capability is the coupling of cognition and vision into cognitive computer vision. This course will emphasize the advanced topics in applying machine learning techniques in computer vision.

Credit Hours: 3
Prerequisites: ECE 4850 or ECE 7850 or CMP_SC 4650 or CMP_SC 7650 or consent of instructor

ECE 8725: Supervised Learning
(same as CMP_SC 8725). This course introduces the theories and applications of advanced supervised machine learning methods. It covers
hidden Markov model and expectation maximization (EM) algorithms, probabilistic graphical models, non-linear support vector machine and kernel methods. The course emphasizes both the theoretical underpinnings of the advanced supervised learning methods and their applications in the real world. Graded on A-F basis only.

**Credit Hours:** 3  
**Prerequisites:** CMP_SC 4720 or CMP_SC 7720 or ECE 4720 or ECE 7720 or instructor's consent

---

**ECE 8730: Fundamentals of Radar Signal Processing**  
Study of radar signal processing fundamentals. Topics include radar systems, signal models, sampling and quantization of radar signals, radar waveforms, Doppler processing, detection fundamentals, radar imaging.

**Credit Hours:** 3

---

**ECE 8735: Unsupervised Learning**  
(same as CMP_SC 8735). Theoretical and practical aspects of unsupervised learning including topics of expectation maximization (EM), mixture decomposition, clustering algorithms, cluster visualization, and cluster validity. Graded on A-F basis only.

**Credit Hours:** 3  
**Prerequisites:** CMP_SC 4720 or CMP_SC 7720 or ECE 4720 or ECE 7720 or instructor's consent

---

**ECE 8790: Digital Processing of SAR Data**  
Study of digital processing of synthetic aperture radar (SAR) data. Topics cover SAR data fundamentals including concepts, signal processing, pulse compression, signal properties, processing algorithms, and image processing.

**Credit Hours:** 3

---

**ECE 8800: Sensor Array and Statistical Signal Processing**  
Introduce the basics on sensor array processing, signal detection and parameter estimation, with their applications in communications and signal processing. Graded on A-F basis only.

**Credit Hours:** 3  
**Prerequisites:** ECE 7830 and ECE 8860 or with instructor consent

---

**ECE 8810: Advanced Digital Signal Processing**  
Topics in digital signal analysis and filtering. Including hardware implementation, speech synthesis and recognition, multi-dimensional transforms, random-signal concepts, design methods and computer aids to analysis and design.

**Credit Hours:** 3  
**Prerequisites:** ECE 4830

---

**ECE 8855: Advanced Image Processing**  
(same as CMP_SC 8650). This course covers advanced topics in image understanding including multispectral multimodal imaging, motion estimation, texture analysis, geometric level set methods.

**Credit Hours:** 3  
**Prerequisites:** CMP_SC 4650 or CMP_SC 7650 or instructor's consent

---

**ECE 8860: Probability and Stochastic Processes for Engineers**  
Introduction to probability, multidimensional complex (phasor) random variables and stochastic processes in electrical engineering.

**Credit Hours:** 3  
**Prerequisites:** ECE 4830, ECE 4710, or ECE 8620

---

**ECE 8875: Advanced Topics in Computational Intelligence**  
(same as CMP_SC 8780). This course is a continuation of ECE 7870 in the concepts, models, and algorithms for the development of intelligent systems from the standpoint of the computational paradigms of neural networks, fuzzy set theory and fuzzy logic, evolutionary computation, and swarm intelligence. Advanced topics in these areas will be discussed with a focus on applications of these technologies.

**Credit Hours:** 3  
**Prerequisites:** ECE 4870 or ECE 7870

---

**ECE 8890: Research-Master Thesis in Electrical and Computer Engineering**  
Independent investigation in a field of electrical engineering to be presented as thesis or dissertation. Graded on a S/U basis only.

**Credit Hour:** 1-99

---

**ECE 9001: Advanced Topics in Electrical and Computer Engineering**  
Advanced Topics in Electrical and Computer Engineering

**Credit Hours:** 3

---

**ECE 9990: Research-Doctoral Dissertation Electrical & Computer Engineering**  
Independent investigation in a field of electrical engineering to be presented as thesis or dissertation. Graded on a S/U basis only.

**Credit Hour:** 1-99

---

**Emergency Medicine (EMR_ME)**

**EMR_ME 6034: SCC Emergency Medicine Selective**  
This selective is designed to offer an introductory experience in Emergency Medicine, including all levels of acuity and pre-hospital emergency care. The student will work 15-16 (~140 hours) rotating shifts in the Emergency Department. During that time, the student will have free access to all patient care activities. The student will assist with patient evaluations and procedures under the close supervision of the Emergency attending physicians, residents, or physician assistants. Specific time will be devoted to learning basic skills needed in emergency medicine. An orientation skills lab will be provided early in the rotation to cover suturing, splinting, etc. Teaching will be primarily a one-on-one exchange with the residents and PA's/Attendings. There are night shifts in this rotation.
Credit Hours: 5
Prerequisites: Successful completion of the first two years of medical school. Successful completion of 5 of the 7 core clerkships. Three of the 5 must be the Surgery Clerkship, Internal Medicine Clerkship, and either the Pediatrics or Family Medicine Clerkship.

EMR_ME 6245: ABS Emergency Medicine Research and Review
ABS Emergency Medicine Research and Review
Credit Hour: 5-10

EMR_ME 6760: Emergency Medicine - Rural
Emergency Medicine - Rural
Credit Hours: 5

EMR_ME 6860: EMERGENCY MEDICINE
Emergency Medicine
Credit Hours: 5

EMR_ME 6919: Introduction to Emergency Medicine
This elective is designed to offer an introductory experience in Emergency Medicine, including all levels of acuity and pre-hospital emergency care.
Credit Hours: 2
Prerequisites: Successful completion of the first two years of medical school.

EMR_ME 6920: Introduction to Pediatric Emergency Medicine
This elective is designed to offer an introductory experience in Pediatric Emergency Medicine (PEM) including all levels of acuity and pre-hospital emergency care.
Credit Hours: 2
Prerequisites: successful completion of the first two years of medical school.

EMR_ME 6943: SCC Emergency Medicine 2-week
This elective is designed to offer an introductory experience in Emergency Medicine, including all levels of acuity and pre-hospital emergency care. The student will work rotating shifts of 10 hours each in the Emergency Department at Cox South or Mercy Hospital. During that time, the student will have access to all patient care activities. The student will assist with patient evaluations and select procedures under the close supervision of the Emergency Medicine attending physician. Specific time will be devoted to learning basic skills needed in Emergency Medicine. Teaching will be primarily a one-on-one exchange with the attending physicians.
Credit Hours: 2
Prerequisites: Successful completion of the first two years of medical school.

Engineering (ENGINR)

ENGINR 1000: Introduction to Engineering
This course will help students identify a field of engineering that they will pursue during the remainder of their studies at MU. This objective will be achieved by exposing students to the history of our engineering disciplines, and by giving an overview of the individual departments within the college of engineering. Guest lecturers from industry will make presentations on what it's like to be an engineer. Other lectures will be given to help acclimate students to university life. Graded on A-F basis only.
Credit Hour: 1

ENGINR 1100: Engineering Graphics Fundamentals
Introduction to computer-aided design and drafting. Topics include visualization methods and standards techniques for communication and presenting engineering design graphics information.
Credit Hours: 2
Prerequisites or Corequisites: MATH 1500
Prerequisites: Restricted to Engineering Students only, or by departmental consent.

ENGINR 1110: Solid Modeling for Engineering Design
Introduction to 3D (three dimensional) modeling techniques using computer aided design software. Topics include model creation techniques and advanced graphical presentation practices. Graded on A-F basis only.
Credit Hour: 1
Prerequisites: ENGINR 1100 or instructor's consent. Restricted to Engineering Students Only or by departmental consent.

ENGINR 1200: Statics and Elementary Strength of Materials
Fundamentals of statics; static equilibrium and introduction to elements of mechanics of elastic materials.
Credit Hours: 3
Prerequisites or Corequisites: PHYSCS 2750. Restricted to Engineering Students only or with departmental consent.
Prerequisites: MATH 1500.

ENGINR 2001: Experimental Course
For sophomore-level students. Content and number of credit hours to be listed in Schedule of Courses.
Credit Hour: 1-99

ENGINR 2001W: Experimental Course - Writing Intensive
For sophomore-level students. Content and number of credit hours to be listed in Schedule of Courses.
Credit Hour: 1-99

ENGINR 2100: Circuit Theory for Engineers
DC circuit analysis, inductors and capacitors, first-order response, AC circuit analysis, single-phase AC power and three-phase, transformers.
Credit Hours: 3
Prerequisites: MATH 1700. For Non-Electrical and Computer Engineering Majors. Restricted to Engineering Students only or with departmental consent.
ENGINR 2100H: Circuit Theory for Engineers - Honors
DC circuit analysis, inductors and capacitors, first order response, AC circuit analysis, single-phase AC power.

Credit Hours: 3
Prerequisites: MATH 1700. Honors eligibility required

ENGINR 2200: Intermediate Strength of Materials
Elements of mechanics of elastic materials.

Credit Hours: 3
Prerequisites: ENGINR 1200. Restricted to Engineering Students only or with departmental consent

ENGINR 2300: Engineering Thermodynamics
(same as MAE 2300). Fluid properties, work and heat, first law, second law, entropy, applications to vapor and ideal gas processes.

Credit Hours: 3
Prerequisites: PHYSCS 2750. Restricted to Engineering Students Only or departmental consent

ENGINR 2500: A History of Modern Engineering
This course will introduce the student to significant engineering events that have shaped the late modern-area from the French Revolution to the end of World War II (1789-1945). Radical inventions and their dates will be used as historical landmarks throughout the course. Graded on A-F basis only.

Credit Hours: 3

ENGINR 2600H: History of Human Spaceflight - Honors
This course will provide an overview of the history of human spaceflight, including early efforts up through the present for the three countries that have flown humans in space (U.S., Russian, and China). Special topics will include a discussion of the major space accidents. Finally, the future of human space exploration will be discussed. May be repeated for credit. Graded on A-F basis only. Prerequisites: Honors eligibility required

Credit Hours: 3

ENGINR 2600HW: History of Human Spaceflight - Honors/ Writing Intensive
This course will provide an overview of the history of human spaceflight, including early efforts up through the present for the three countries that have flown humans in space (U.S., Russian, and China). Special topics will include a discussion of the major space accidents. Finally, the future of human space exploration will be discussed. May be repeated for credit. Graded on A-F basis only. Prerequisites: Honors eligibility required

Credit Hours: 3

ENGINR 3000: Short Term Education Abroad
Introduction to history and culture of country and/or cities in specified country. Students will make engineering profession and corporate site visits. Lecture activities will focus on industry and society, with country and/or cities compared and contrasted to U.S. engineering. Graded A-F only.

Credit Hours: 3
Prerequisites: Instructor's consent required. Students must be in Academic Good Standing

ENGINR 3000H: Short Term Education Abroad - Honors
Introduction to history and culture of country and/or cities in specified country. Students will make engineering profession and corporate site visits. Lecture activities will focus on industry and society, with country and/or cities compared and contrasted to U.S. engineering. Graded A-F only.

Credit Hours: 3
Prerequisites: Instructor's consent required. Students must be in Academic Good Standing

ENGINR 4000: Study Abroad Technical Elective
This course is designed to provide students with an international experience while also potentially fulfilling a required engineering technical elective course. Engineering technical electives are courses that are relevant or related to engineering from a broad range of fields including math and science as well as the various engineering departments. This course will be used as the umbrella course for all Engineering Technical Elective Study Abroad Opportunities and each course will provide a separate section number.

Credit Hour: 3-6

ENGINR 4050: Cooperative Education Program
For Engineering Cooperative Education Program Students. No billing hours, No term finalization.

Credit Hours: 0

ENGINR 4890: Multi-disciplinary Senior Engineering Capstone Design
Engineering design and prototyping including reliability, testing, evaluation, preparation of documentation, safety, ethics, manufacturing, intellectual property, economic and environmental constraints. Oral and written reports. Graded A-F only.

Credit Hours: 3
Prerequisites: Instructor's consent. Student's department consent also required
Recommended: Senior standing

ENGINR 4890W: Multi-disciplinary Senior Engineering Capstone Design - Writing Intensive
Engineering design and prototyping including reliability, testing, evaluation, preparation of documentation, safety, ethics, manufacturing, intellectual property, economic and environmental constraints. Oral and written reports. Graded A-F only.

Credit Hours: 3
Prerequisites: Instructor's consent. Student's department consent also required
Recommended: Senior standing

English (ENGLSH)

ENGLSH 1000: Exposition and Argumentation
Stresses writing as a process, with due attention given to critical reading and thinking skills applicable to all college classes, as well as to
invention, drafting, revising, and rewriting. English 1000 is a prerequisite for any Writing Intensive course.

**Credit Hours:** 3  
**ENGLSH 1000 - MOTR ENGL 200: Composition II**

**ENGLSH 1000H: Honors Exposition English**  
Stresses writing as a process, with due attention given to critical reading and thinking skills applicable to all college classes, as well as to invention, drafting, revising, and rewriting. English 1000 is a prerequisite for any Writing Intensive course.

**Credit Hours:** 3  
**Prerequisites:** Honors eligibility required

**ENGLSH 1010W: Missouri Transfer Equivalent to Comp 1**  
Equivalent to COMP 1 taken at a Missouri Institution. For transfer purposes only in accordance with the Missouri Department of Higher Education standards for the 42 general education block. Guaranteed transfer course as part of Missouri transfer policies. Fulfills MU lower division Writing Intensive.

**Credit Hours:** 1-10  
**ENGLSH 1010W - MOTR ENGL 100: Composition I**

**ENGLSH 1060: Human Language**  
(same as ANTHRO 1060, C_S_D 1060 and LINGST 1060). General introduction of various aspects of linguistic study. Elementary analysis of language data, with some attention to application of linguistic study to other disciplines.

**Credit Hours:** 3

**ENGLSH 1100: Reading Literature**  
Introduces the student to the values, rigors, and pleasures of reading literature. Intended for first-year, non-English majors. No more than six hours may be taken in the Reading Literature Series.

**Credit Hours:** 3  
**ENGLSH 1100 - MOTR LITR 100: Introduction to Literature**

**ENGLSH 1100H: Reading Literature - Honors**  
Introduces the student to the values, rigors, and pleasures of reading literature. Intended for first-year, non-English majors. No more than six hours may be taken in the Reading Literature Series.

**Credit Hours:** 3  
**Prerequisites:** Honors eligibility required

**ENGLSH 1106: Reading Literature, Beginning to 1603**  
See ENGLSH 1100 course for description.

**Credit Hours:** 3  
**ENGLSH 1106 - MOTR LITR 100: British Literature**

**ENGLSH 1107: Reading Literature, 1603 to 1789**  
See ENGLSH 1100 course for description.

**Credit Hours:** 3  
**ENGLSH 1107 - MOTR LITR 100: British Literature**

**ENGLSH 1108: Reading Literature, 1789-1890**  
See ENGLSH 1100 course for description.

**Credit Hours:** 3  
**ENGLSH 1108 - MOTR LITR 100: Introduction to Literature**

**ENGLSH 1109: Reading Literature, 1890 to Present**  
See ENGLSH 1100 course for description.

**Credit Hours:** 3  
**ENGLSH 1109 - MOTR LITR 100: Introduction to Literature**

**ENGLSH 1160: Themes in Literature**  
Topics (e.g., The Idea of Progress, Images of Women) announced at time of registration. No more than six hours may be taken in the Themes in Literature series.

**Credit Hours:** 3

**ENGLSH 1160H: Themes in Literature - Honors**  
Topics (e.g., The Idea of Progress, Images of Women) announced at time of registration. No more than six hours may be taken in the Themes in Literature series.

**Credit Hours:** 3  
**Prerequisites:** Honors eligibility required

**ENGLSH 1166: Themes in Literature, Beginning to 1603**  
See ENGLSH 1160 for course description.

**Credit Hours:** 3  
**ENGLSH 1166 - MOTR LITR 102: British Literature**

**ENGLSH 1167: Themes in Literature, 1603 to 1789**  
See ENGLSH 1160 for course description.

**Credit Hours:** 3  
**ENGLSH 1167 - MOTR LITR 102: British Literature**

**ENGLSH 1168: Themes in Literature, 1789 to 1890**  
See ENGLSH 1160 for course description.

**Credit Hours:** 3  
**ENGLSH 1168 - MOTR LITR 102: British Literature**

**ENGLSH 1169: Themes in Literature, 1890 to Present**  
See ENGLSH 1160 for course description.

**Credit Hours:** 3

**ENGLSH 1206: Readings in British Literature, Beginning to 1603**  
See ENGLSH 1200 for course description.

**Credit Hours:** 3  
**ENGLSH 1206 - MOTR LITR 102: British Literature**

**ENGLSH 1207: Readings in British Literature, 1603 to 1789**  
See ENGLSH 1200 for course description.

**Credit Hours:** 3  
**ENGLSH 1207 - MOTR LITR 102: British Literature**

**ENGLSH 1208: Readings in British Literature, 1789 to 1890**  
See ENGLSH 1200 for course description.
Credit Hours: 3  
ENGLSH 1208 - MOTR LITR 102: British Literature

ENGLSH 1209: Readings in British Literature, 1890 to Present  
See ENGLSH 1200 for course description.  
Credit Hours: 3  
ENGLSH 1209 - MOTR LITR 102: British Literature

ENGLSH 1210: Introduction to British Literature  
A basic introduction to the concepts, terms, and practices commonly encountered in literary study, presented by way of texts from the history of British literature that appropriately demonstrate such concepts, terms, and practices. Graded on A-F basis only.  
Credit Hours: 3

ENGLSH 1210H: Introduction to British Literature  
A basic introduction to the concepts, terms, and practices commonly encountered in literary study, presented by way of texts from the history of British literature that appropriately demonstrate such concepts, terms, and practices. This course is recommended for prospective majors. Graded on A-F basis only.  
Credit Hours: 3  
Prerequisites: honors eligibility required

ENGLSH 1307: Readings in American Literature, 1603 to 1789  
See ENGLSH 1300 for course description.  
Credit Hours: 3  
ENGLSH 1307 - MOTR LITR 101: American Literature

ENGLSH 1308: Readings in American Literature, 1789 to 1890  
See ENGLSH 1300 for course description.  
Credit Hours: 3  
ENGLSH 1308 - MOTR LITR 101: American Literature

ENGLSH 1309: Readings in American Literature, 1890 to Present  
See ENGLSH 1300 for course description.  
Credit Hours: 3  
ENGLSH 1309 - MOTR LITR 101: American Literature

ENGLSH 1310: Introduction to American Literature  
A basic introduction to the concepts, terms, and practices commonly encountered in literary study, presented by way of texts from the history of American literature that appropriately demonstrate such concepts, terms, and practices. Graded on A-F basis only.  
Credit Hours: 3

ENGLSH 1310H: Introduction to American Literature - Honors  
A basic introduction to the concepts, terms, and practices commonly encountered in literary study, presented by way of texts from the history of American literature that appropriately demonstrates such concepts, terms, and practices. Graded A-F basis only.  
Credit Hours: 3  
Prerequisites: Honors eligibility required

ENGLSH 1510: Creative Writing: Introduction to Fiction  
Introduces basic narrative techniques, including writing original stories.  
Credit Hours: 3

ENGLSH 1520: Creative Writing: Introduction to Nonfiction Prose  
Introduces the range and basic techniques of creative nonfiction, including composing original work in the genre.  
Credit Hours: 3

ENGLSH 1530: Creative Writing: Introduction to Poetry  
Introduces basic poetic techniques, including writing original poems.  
Credit Hours: 3

ENGLSH 1700: Introduction to Folklore Genres  
(same as ANTHRO 1150). Course focus is on genres of folklore in both historic and contemporary contexts, as well as in people's daily lives. Genres include narrative, proverbs, oral poetry and rhyme, riddles, jokes, legends, epics, material culture and intangible expressive culture. Graded on A/F basis only.  
Credit Hours: 3

ENGLSH 1700W: Introduction to Folklore Genres - Writing Intensive  
(same as ANTHRO 1150). Course focus is on genres of folklore in both historic and contemporary contexts, as well as in people's daily lives. Genres include narrative, proverbs, oral poetry and rhyme, riddles, jokes, legends, epics, material culture and intangible expressive culture. Graded on A/F basis only.  
Credit Hours: 3

ENGLSH 1800: Introduction to Film Studies  
(same as FILM_S 1800, DST 1800). Introduction to terms and concepts for film analysis, including mise-en-scene, cinematography, editing, sound narrative, genre, and other elements. No credit for students who have completed FILM_S 2810. Graded on A-F basis only.  
Credit Hours: 3  
Prerequisites: freshman and sophomores only or instructor's consent

ENGLSH 1880: Introduction to Digital Media Production  
(same as DST 1880; FILM_S 1880). Introduction to concepts and skills for Digital Storytelling, including media literacy and forms of narrative manifested historically and currently across a range of media. This course focuses on theories and concepts that support the critical analysis and creation of contemporary narrative in digital form with particular attention to audio, visual and written communication. Graded on A-F basis only.  
Credit Hours: 3

ENGLSH 2000: Studies in English  
Underclass topics. Subjects vary from semester to semester. No more than six hours may be taken in the Topics in English Studies series.  
Credit Hours: 3
ENGLISH 2000H: Studies in English - Honors
Underclass topics. Subjects vary from semester to semester. No more than six hours may be taken in the Topics in English Studies series.
Credit Hours: 3
Prerequisites: Honors eligibility required

ENGLISH 2000W: Studies in English - Writing Intensive
Underclass topics. Subjects vary from semester to semester. No more than six hours may be taken in the Topics in English Studies series.
Credit Hours: 3

(cross-leveled with ENGLSH 7106). See ENGLSH 4100 for course description.
ENGLSH 4107: Genres, 1603 to 1789
(cross-leveled with ENGLSH 7107). See ENGLSH 4100 for course description.
Credit Hours: 3

ENGLSH 4108: Genres, 1789 to 1890
(cross-leveled with ENGLSH 7108). See ENGLSH 4100 for course description.
Credit Hours: 3

ENGLSH 4109: Genres, 1890 to Present
(cross-leveled with ENGLSH 7109). See ENGLSH 4100 for course description.
Credit Hours: 3

ENGLSH 4109W: Genres, 1890 to Present - Writing Intensive
See ENGLSH 4100 for course description.
Credit Hours: 3

ENGLSH 4110: Ethnic Literature, 1890 to Present
(cross-leveled with ENGLSH 7110). See ENGLSH 4120 for course description.
Credit Hours: 3

ENGLSH 4110W: Ethnic Literature, 1890 to Present - Writing Intensive
See ENGLSH 4120 for course description.
Credit Hours: 3

ENGLSH 4114: Modern Literature
(cross-leveled with ENGLSH 7114). A study of selected twentieth-century literature within the intellectual and cultural contexts of the modern era.
Credit Hours: 3

ENGLSH 4115: World Literatures, 1890 to Present
(cross-leveled with ENGLSH 7115). See ENGLSH 4150 for course description.
Credit Hours: 3

ENGLSH 4115W: World Literatures, 1890 to Present - Writing Intensive
See ENGLSH 4150 for course description.
Credit Hours: 3

ENGLSH 4116: Major Authors, Beginning to 1603
(cross-leveled with ENGLSH 7116). See ENGLSH 4160 for course description.
Credit Hours: 3

ENGLSH 4116W: Major Authors, Beginning to 1603 - Writing Intensive
See ENGLSH 4160 for course description.
Credit Hours: 3

ENGLSH 4117: Major Authors, 1603-1789
(cross-leveled with ENGLSH 7117). See ENGLSH 4160 for course description.
Credit Hours: 3

ENGLSH 4117W: Major Authors, 1603-1789 - Writing Intensive
See ENGLSH 4160 for course description.
Credit Hours: 3

ENGLSH 4118: Major Authors, 1789-1890
(cross-leveled with ENGLSH 7118). See ENGLSH 4160 for course description.
Credit Hours: 3

ENGLSH 4118W: Major Authors, 1789-1890 - Writing Intensive
See ENGLSH 4160 for course description.
Credit Hours: 3

ENGLSH 4119: Major Authors, 1890-Present
(cross-leveled with ENGLSH 7119). See ENGLSH 4160 for course description.
Credit Hours: 3

ENGLSH 4119W: Major Authors, 1890-Present - Writing Intensive
See ENGLSH 4160 for course description.
Credit Hours: 3

ENGLSH 4120W: Comparative Approaches to Literature - Writing Intensive
Study of works separated by the places or eras of their composition, but united by themes or traditions. Topics (e.g., Poets of African Diaspora, Literatures of Exile) announced at time of registration. No more than six hours may be taken in the Comparative Approaches to Literature.
Credit Hours: 3
Recommended: junior standing

(cross-levelled with ENGLSH 7260). Topics (e.g., Contemporary British 
Poets, The Post-War Novel) announced at time of registration. May repeat to six hours with department's consent.  
Credit Hours: 3

ENGLSH 4300: Early American Literature  
(cross-levelled with ENGLSH 7300). Topics (e.g., Narratives of Discovery 
and Exploration, The Puritan Heritage) announced at time of registration. 
May repeat to six hours with department's consent.  
Credit Hours: 3

ENGLSH 4310: 19th-Century American Literature  
(cross-levelled with ENGLSH 7310). Topics (e.g., American Romanticism, 
Regionalism) announced at time of registration. May repeat to six hours 
with department's consent.  
Credit Hours: 3

ENGLSH 4310W: 19th-Century American Literature - Writing 
Intensive  
(cross-levelled with ENGLSH 7310). Topics (e.g., American Romanticism, 
Regionalism) announced at time of registration. May repeat to six hours 
with department's consent.  
Credit Hours: 3

ENGLSH 4310W: 19th-Century American Literature - Writing 
Intensive  
(cross-levelled with ENGLSH 7310). Topics (e.g., American Romanticism, 
Regionalism) announced at time of registration. May repeat to six hours 
with department's consent.  
Credit Hours: 3  
Recommended: junior standing
ENGLISH 4320: 20th-Century American Literature
(cross-leveled with ENGLSH 7320). Topics (e.g., American Poetry since T. S. Eliot, The Short Story) announced at time of registration. May repeat to six hours with department's consent.
Credit Hours: 3
Recommended: junior standing

ENGLISH 4320W: 20th-Century American Literature - Writing Intensive
(cross-leveled with ENGLSH 7320). Topics (e.g., American Poetry since T. S. Eliot, The Short Story) announced at time of registration. May repeat to six hours with department's consent.
Credit Hours: 3
Recommended: junior standing

ENGLISH 4400: Studies in African Diaspora Literature
(same as BL_STU 4400; cross-leveled with ENGLSH 7400, BL_STU 7400). Topics (e.g., African American Poetry, Africana Diaspora Drama) announced at time of registration. No more than six hours may be taken in the Studies in Africana Literature series.
Credit Hours: 3
Recommended: junior standing

ENGLISH 4409: Studies in African Diaspora Literature, 1890 to Present
(same as BL_STU 4409; cross-leveled with ENGLSH 7409, BL_STU 7409). See ENGLSH 4400 for course description.
Credit Hours: 3

ENGLISH 4410: Major Africana Diaspora Writers
(same as BL_STU 4410; cross-leveled with ENGLSH 7410, BL_STU 7410). An intensive study of selected writers of African Diaspora literature focusing on texts originally in English. No more than six hours may be taken in the Major Africana Diaspora Writers series.
Credit Hours: 3
Recommended: junior standing

ENGLISH 4420: Africana Womanism
(same as BL_STU 4420; cross-leveled with ENGLSH 7420, BL_STU 7420). An intensive study of Africana Womanism, focusing on selected Africana women writers. May be repeated to six hours with departmental consent.
Credit Hours: 3
Recommended: junior standing

ENGLISH 4480W: Major African Diaspora Women Writers - Writing Intensive
(same as WGST 4480 and BL_STU 4480). Study of selected Africana Diaspora women writers, focusing on texts originally in English. Maybe repeated for credit with departmental consent. Maximum of 6 hours for ENGLSH 4180 and ENGLSH 4480.
Credit Hours: 3

ENGLISH 4488: Major African Diaspora Women Writers, 1789 to 1890
(same as WGST 4488, BL_STU 4488; cross-leveled with ENGLSH 7488, BL_STU 7488, WGST 7488). See ENGLSH 4480 for course description.
Credit Hours: 3

ENGLISH 4490: Studies in Native American and Indigenous Studies
In-depth study of topics in Native American and Indigenous Studies, such as tribal intellectual histories, defined historical periods, or specific genres or media. Examples of course titles include Ojibwe Writing, Native Film and Video, and Contemporary Native Literature.
Credit Hours: 3

ENGLISH 4510: Creative Writing: Advanced Fiction
(cross-leveled with ENGLSH 7510). An intensive writing workshop in which student stories and related literary texts receive close reading and analysis. Prerequisites: Any ONE of the following: ENGLSH 1510, ENGLSH 1520, ENGLSH 1530, ENGLSH 2510, ENGLSH 2520, or ENGLSH 2530.
Credit Hours: 3

ENGLISH 4510W: Creative Writing: Advanced Fiction - Writing Intensive
(cross-leveled with ENGLH 7510). An intensive writing workshop in which student stories and related literary texts receive close reading and analysis. Prerequisites: Any ONE of the following: ENGLSH 1510, ENGLSH 1520, ENGLSH 1530, ENGLSH 2510, ENGLSH 2520, or ENGLSH 2530.
Credit Hours: 3

ENGLISH 4520: Creative Writing: Advanced Nonfiction Prose
(cross-leveled with ENGLSH 7520). An intensive writing workshop in which a student's creative nonfiction receives close reading and analysis. Prerequisites: Any ONE of the following: ENGLSH 1510, ENGLSH 1520, ENGLSH 1530, ENGLSH 2510, ENGLSH 2520, or ENGLSH 2530.
Credit Hours: 3

ENGLISH 4520W: Creative Writing: Advanced Nonfiction Prose - Writing Intensive
(cross-leveled with ENGLSH 7520). An intensive writing workshop in which a student's creative nonfiction receives close reading and analysis. Prerequisites: Any ONE of the following: ENGLSH 1510, ENGLSH 1520, ENGLSH 1530, ENGLSH 2510, ENGLSH 2520, or ENGLSH 2530.
Credit Hours: 3

ENGLISH 4530: Creative Writing: Advanced Poetry
(cross-leveled with ENGLSH 7530). Poetry regarded as a mode of understanding. Poetic values related to other values. Practical consideration of verse techniques. Prerequisites: Any ONE of the following: ENGLSH 1510, ENGLSH 1520, ENGLSH 1530, ENGLSH 2510, ENGLSH 2520, or ENGLSH 2530.
Credit Hours: 3
ENGLISH 4530W: Creative Writing: Advanced Poetry - Writing Intensive
(cross-leveled with ENGLSH 7530). Poetry regarded as a mode of understanding. Poetic values related to other values. Practical consideration of verse techniques. Prerequisites: Any ONE of the following: ENGLSH 1510, ENGLSH 1520, ENGLSH 1530, ENGLSH 2510, ENGLSH 2520, or ENGLSH 2530.
Credit Hours: 3

ENGLISH 4560: Advanced Playwriting: Problems
(same as THEATR 4920; cross-leveled with ENGLSH 7560 and THEATR 7920). Advanced study of the writing process as applied to theatre, including theory and practice. Special playwriting problems and techniques.
Credit Hours: 3
Prerequisites: ENGLISH 3560

ENGLISH 4560W: Advanced Playwriting: Problems - Writing Intensive
(same as THEATR 4920; cross-leveled with ENGLSH 7560 and THEATR 7920). Advanced study of the writing process as applied to theatre, including theory and practice. Special playwriting problems and techniques.
Credit Hours: 3
Prerequisites: ENGLISH 3560

ENGLISH 4560: Advanced Playwriting: Problems
(same as THEATR 4920; cross-leveled with ENGLSH 7560 and THEATR 7920). Advanced study of the writing process as applied to theatre, including theory and practice. Special playwriting problems and techniques.
Credit Hours: 3

ENGLISH 4570: Adaptation of Literature for the Stage
(same as THEATR 4930; cross-leveled with ENGLSH 7570 and THEATR 7930). Explores adaptation principles and practices with literature not originally written for the stage. Graded on A-F basis only.
Credit Hours: 3

ENGLISH 4600: Structure of American English
(same as LINGST 4600). Introduction to English linguistics. Study of the grammar and pronunciation of contemporary English, with the major focus on syntax.
Credit Hours: 3
Prerequisites: junior standing

ENGLISH 4610: History of the English Language
(same as LINGST 4610; cross-leveled with ENGLSH 7610, LINGST 7610). Historical changes in the grammar and pronunciation of the English language from Old English to the present. Introduction to Indo-European origins of English.
Credit Hours: 3
Prerequisites: junior standing

ENGLISH 4620: Regional and Social Dialects of American English
(same as LINGST 4620; cross-leveled with ENGLSH 7620, LINGST 7620). The study of regional and social variation in pronunciation, vocabulary, and grammar of American English.
Credit Hours: 3
Recommended: ENGLISH 4600 and ENGLISH 4610 or equivalent

ENGLISH 4630: Phonology
(same as LINGST 4630; cross-leveled with ENGLSH 7630, LINGST 7630). Survey of the sound patterns of English, with some comparison to other languages.
Credit Hours: 3
Prerequisites: ENGLISH 4600

ENGLISH 4640: Syntax
(same as LINGST 4640; cross-leveled with ENGLSH 7640, LINGST 7610). Study of the properties of phrase-and sentence-level grammar, emphasizing English, with some comparison to other languages.
Credit Hours: 3
Prerequisites: ENGLISH 4600 or another comparable linguistics course

ENGLISH 4670: Field Methods in Linguistics
(same as LINGST 4870 and ANTHRO 4870). Provides training in the methods of constructing a detailed linguistic description and analysis of wholly unfamiliar language, based on interviews with a native speaker. May be repeated for credit. Graded on A-F basis only.
Credit Hours: 4

ENGLISH 4700: Special Themes in Folklore
(same as ANTHRO 4150; cross-leveled with ENGLSH 7700). Intensive study in a selected area of folklore: folk narrative, folk song, myth, proverb, etc., folklore of a particular group. May be repeated for a maximum of six hours with department's consent.
Credit Hours: 3

ENGLISH 4710: Themes in African Diaspora Folklore
(same as ANTHRO 4160 and BL_STU 4710; cross-leveled with ENGLSH 7710, ANTHRO 7160, BL_STU 7710). Intensive study in a selected area of African Diaspora folklore: folk narrative, folk song, myth, proverb, etc., folklore and literature; or the folklore of a particular group. ENGLSH 4700 and ENGLSH 4710 may be repeated for a maximum of six hours with instructor's consent.
Credit Hours: 3
Recommended: junior standing

ENGLISH 4770: Oral Tradition
(same as ANTHRO 4170; cross-leveled with ENGLSH 7770, ANTHRO 7170). Study of oral tradition from living cultures as well as literary works and mass media with roots in verbal art. Oral tradition is a form of human communication through which ideas, knowledge, art, and cultural material is received, preserved, and transmitted orally from one generation to another or from one person to another. May include such folklore genres as ballads, chants, folktales, jokes, legends, myths, proverbs, prose, or verses.
Credit Hours: 3

ENGLISH 4770H: Oral Tradition - Honors
(same as ANTHRO 4170; cross-leveled with ENGLSH 7770, ANTHRO 7170). Study of oral tradition from living cultures as well as literary works and mass media with roots in verbal art. Oral tradition is a form of human communication through which ideas, knowledge, art, and cultural material...
is received, preserved, and transmitted orally from one generation to another or from one person to another. May include such folklore genres as ballads, chants, folktales, jokes, legends, myths, proverbs, prose, or verses. Prerequisites: ENGL 1000 and sophomore standing; Honors eligibility required

Credit Hours: 3

ENGL 4780: Women's Folklore and Feminist Theory
(same as WGST 4780; cross-leveled with ENGL 7780, WGST 7780).
Examines folklore and artistic expression of women in relation to feminist theory and in multicultural contexts. Includes verbal genres (narrative/song) as well as material genres (quilting/arts).

Credit Hours: 3
Recommended: junior standing

ENGL 4810: Film Theory
(same as FILM_S 4810, DST 4810; cross-leveled with ENGL 7810, FILM_S 7810, DST 7810). This course explores contemporary trends in film theory. Topics may include: psychoanalysis, feminism, Marxism, cultural studies, queer theory, audience and star studies, postcolonialism, among others.

Credit Hours: 3
Prerequisites: ENGL 1000
Recommended: junior standing

ENGL 4840: Culture and Media
(same as FILM_S 4840, DST 4840). Topics (e.g. Cinema and Imperialism, Indigenous Media, Ethnographic Documentary) announced at time of registration. No more than six hours may be taken for credit toward the major.

Credit Hours: 3
Prerequisites: ENGL 1000
Recommended: Junior standing

ENGL 4880: Digital Storytelling Production II
(same as DST 4880). Digital Storytelling Production II introduces students to advanced techniques in digital storytelling production, while further developing skills in script writing, storyboarding, Adobe Premiere Pro, and video production with DSLR cameras. Assignments in digital video production emphasize how video narratives are created and how images and audio enhance the structure, mood, and theme of the narrative. Instruction will focus on planning a video production and developing the tools and practices in lighting, sound recording, image capturing, and editing. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: ENGL 1000 and DST 1880 or ENGL 1880 or FILM_S 1880 or ART_GNRL 1920 and DST 2880 or ENGL 2880 and sophomore standing, or consent of instructor. Enrollment limited to English majors during early registration

ENGL 4938: Advanced Screenwriting: Styles
(same as THEATR 4938; cross-leveled with ENGL 7938, THEATR 7938). Students develop advanced skills of screenwriting through a focus on non-realistic, non-linear dramatic writing styles in development of a full-length screenplay. Areas of study will include techniques of magic realism, symbolism, expressionism, absurdism, surrealism/dada, mythic/fantasy, musicals, political docudrama, and science fiction.

Credit Hours: 3
Prerequisites: THEATR 2920 or ENGL 2560
Recommended: THEATR 3930

ENGL 4940: Internship in English
Students work in an agency or institution using their English-related skills for one to three credit hours. Graded on an S/U basis only.

Credit Hour: 1-3
Prerequisites: Department consent

ENGL 4950: Internship in Publishing
Offers practical experience working with a literary or scholarly publication edited or sponsored by faculty members. Graduate students in English must take the course two semesters in order to count three hours toward the completion of their program.

Credit Hours: 3
Prerequisites: instructor's consent

ENGL 4955: Independent Research in English
Development of a carefully considered research project under close supervision of a faculty member. Open to undergraduate students only.

Credit Hour: 1-3
Prerequisites: junior standing and departmental consent

ENGL 4960: Special Readings in English
Individual work with conferences adjusted to needs of student.

Credit Hour: 1-99
Prerequisites: Consent of instructor

ENGL 4970: Capstone Experience
For students in their last semester, this course focuses on a major project and the processes of selection, research, and writing leading to its completion. Includes a professional component (resume, cover letter).

Credit Hours: 3

ENGL 4970W: Capstone Experience - Writing Intensive
For students in their last semester, this course focuses on a major project and the processes of selection, research, and writing leading to its completion. Includes a professional component (resume, cover letter).

Credit Hours: 3

ENGL 4995: Senior Honors Thesis
Independent research under direction of faculty. Second course of two part Honors Sequence. Students must have successfully completed English 4996 before taking English 4995.

Credit Hours: 3
Prerequisites: ENGL 4996

ENGL 4996: Honors Seminar in English
First of two major semester Honors sequence. Studies literary topic, critical approaches and advanced literary research methodology in preparation for Honors Senior Thesis.
Credit Hours: 3

ENGLSH 4996W: Honors Seminar in English - Writing Intensive
First of two major semester Honors sequence. Studies literary topic, critical approaches and advanced literary research methodology in preparation for Honors Senior Thesis.

Credit Hours: 3

ENGLSH 7040: Studies in Writing
(cross-leveled with ENGLSH 4040). A hybrid reading/writing course that focuses on a form of nonfiction prose, such as the experimental essay, art criticism, book reviews, spiritual writing, nature writing, etc. This course is not a workshop, although it may incorporate workshop elements. Designed for students who may or may not have taken previous creative writing courses. May repeat to six hours with departmental consent.

Credit Hours: 3

ENGLSH 7045: Rhetorical Studies
(cross-leveled with ENGLSH 4045). Examines questions related to rhetoric, the study of symbols used for persuasion, justification, or communication. Specific topics are announced at time of registration and may involve the rhetorical study of fiction or nonfiction, oral or written texts, verbal or visual modes.

Credit Hours: 3

ENGLSH 7060: Studies in Critical Theory
(cross-leveled with ENGLSH 4060). Focuses on questions raised by various critical theories, includes practice writing criticism that applies the theories to particular works. May repeat to six hours with departmental consent.

Credit Hours: 3

ENGLSH 7100: Genres
(cross-leveled with ENGLSH 4100). Advanced survey of major movements and writers. Topics (e.g., American Poetry, The Development of the British Novel) announced at time of registration. No more than six hours may be taken in the Genres series.

Credit Hours: 3

ENGLSH 7106: Genres, Beginning to 1603
(cross-leveled with ENGLSH 4106). See ENGLSH 7100 for course description.

Credit Hours: 3

ENGLSH 7107: Genres, 1603 to 1789
(cross-leveled with ENGLSH 4107). See ENGLSH 7100 for course description.

Credit Hours: 3

ENGLSH 7109: Genres, 1890 to Present
(cross-leveled with ENGLSH 4109). See ENGLSH 7100 for course description.

Credit Hours: 3

ENGLSH 7129: Ethnic Literature, 1890 to Present
(cross-leveled with ENGLSH 4129). See ENGLSH 7120 for course description.

Credit Hours: 3

ENGLSH 7140: Modern Literature
(cross-leveled with ENGLSH 7140). A study of selected twentieth-century literature within the intellectual and cultural contexts of the modern era.

Credit Hours: 3

ENGLSH 7159: World Literatures, 1890 to Present
(cross-leveled with ENGLSH 4159). See ENGLSH 7150 for course description.

Credit Hours: 3

ENGLSH 7166: Major Authors, Beginning to 1603
(cross-leveled with ENGLSH 7166). See ENGLSH 7160 for course description.

Credit Hours: 3

ENGLSH 7167: Major Authors, 1603-1789
(cross-leveled with ENGLSH 4167). See ENGLSH 7160 for course description.

Credit Hours: 3

ENGLSH 7168: Major Authors, 1789-1890
(cross-leveled with ENGLSH 4168). See ENGLSH 7160 for course description.

Credit Hours: 3

ENGLSH 7169: Major Authors, 1890-Present
(cross-leveled with ENGLSH 4169). See ENGLSH 7160 for course description.

Credit Hours: 3

ENGLSH 7179: Comparative Approaches to Literature, 1890-Present
(cross-leveled with ENGLSH 4179). See ENGLSH 7170 for course description.

Credit Hours: 3

ENGLSH 7188: Major Women Writers, 1789-1890
(same as WGST 7188; cross-leveled with ENGLSH 4188, WGST 4188). See ENGLSH 7180 for course description.

Credit Hours: 3

ENGLSH 7200: Introduction to Old English
(same as LINGST 7200; cross-leveled with ENGLSH 4200, LINGST 4200). A beginning study of the Old English or Anglo-Saxon language in its cultural context, with emphasis on gaining a reading knowledge.

Credit Hours: 3
ENGLSH 7206: Anglo-Saxon Literature
(cross-leveled with ENGLSH 4206). Readings in the literature of Anglo-Saxon England (ca.500-ca.1100 C.E.). Specific topics (e.g., Women in the Early Middle Ages, Beowulf, Old English Heroic Poetry) announced at time of registration. May repeat to six hours with department's consent.
Credit Hours: 3

ENGLSH 7210: Medieval Literature
(cross-leveled with ENGLSH 4210). Topics (e.g., Age of Chaucer, Chivalry and Courtly Love, Allegory and Satire) announced at time of registration. May repeat to six hours with department's consent.
Credit Hours: 3

ENGLSH 7220: Renaissance and 17th-Century English Literature
(cross-leveled with ENGLSH 4220). Topics (e.g., The Metaphysical Poets, Themes in Shakespeare) announced at time of registration. No more than six hours may be taken in the Renaissance and Seventeenth Century Literature series.
Credit Hours: 3

ENGLSH 7240: Restoration and 18th-Century English Literature
(cross-leveled with ENGLSH 4240). Topics (e.g., Restoration Drama, Johnson and his Circle) announced at time of registration. May repeat to six hours with department's consent.
Credit Hours: 3

ENGLSH 7250: 19th-Century English Literature
(cross-leveled with ENGLSH 4250). Topics (e.g., Victorian Poetry, Non-Fiction Prose) announced at time of registration. May repeat to six hours with department's consent.
Credit Hours: 3

ENGLSH 7260: 20th-Century British Literature
(cross-leveled with ENGLSH 4260). Topics (e.g. Contemporary British Poets, The Post-War Novel) announced at time of registration. May repeat to six hours with department's consent.
Credit Hours: 3

ENGLSH 7310: 19th-Century American Literature
(cross-leveled with ENGLSH 4310). Topics (e.g., American Romanticism, Regionalism) announced at time of registration. May repeat to six hours with department's consent.
Credit Hours: 3

ENGLSH 7320: 20th-Century American Literature
(cross-leveled with ENGLSH 4320). Topics (e.g., American Poetry since T. S. Eliot, The Short Story) announced at time of registration. May repeat to six hours with department's consent.
Credit Hours: 3

ENGLSH 7400: Studies in African Diaspora Literature
(same as BL_STU 7400; cross-level with ENGLSH 4400, BL_STU 4400). Topics (e.g., African American Poetry, African Diaspora Drama) announced at time of registration. No more than six hours may be taken in the Studies in African Diaspora Literature series.
Credit Hours: 3

ENGLSH 7420: Africana Womanism
(same as BL_STU 7420; cross-leveled with ENGLSH 4420, BL_STU 4420). An intensive study of Africana Womanism, focusing on selected Africana women writers.
Credit Hours: 3
Prerequisites: graduate standing or instructor's consent. May be repeated to six hours with departmental consent

ENGLSH 7510: Creative Writing: Advanced Fiction
(cross-leveled with ENGLSH 4510). An intensive writing workshop in which student stories and related literary texts receive close reading and analysis. Prerequisites: Any ONE of the following: ENGLSH 1510, ENGLSH 1520, ENGLSH 1530, ENGLSH 2510, ENGLSH 2520, or ENGLSH 2530.
Credit Hours: 3

ENGLSH 7520: Creative Writing: Advanced Nonfiction Prose
(cross-leveled with ENGLSH 4520). An intensive writing workshop in which a student's creative nonfiction receives close reading and analysis. Prerequisites: Any ONE of the following: ENGLSH 1510, ENGLSH 1520, ENGLSH 1530, ENGLSH 2510, ENGLSH 2520, or ENGLSH 2530.
Credit Hours: 3

ENGLSH 7530: Creative Writing: Advanced Poetry
(cross-leveled with ENGLSH 7530). Poetry regarded as a mode of understanding. Poetic values related to other values. Practical consideration of verse techniques. Prerequisites: Any ONE of the following: ENGLSH 1510, ENGLSH 1520, ENGLSH 1530, ENGLSH 2510, ENGLSH 2520, or ENGLSH 2530.
Credit Hours: 3

ENGLSH 7560: Advanced Playwriting: Problems
(same as THEATR 7920; cross-leveled with ENGLSH 4650 and THEATR 4920). Advanced study of the writing process as applied to theatre, including theory and practice. Special playwriting problems and techniques.
Credit Hours: 3

ENGLSH 7600: Structure of American English
(same as LINGST 7600). Introduction to English linguistics. Study of the grammar and pronunciation of contemporary English, with the major focus on syntax.
Credit Hours: 3
ENGLSH 7610: History of the English Language  
(same as LINGST 7610; cross-leveled with ENGLSH 4610, LINGST 4610). Historical changes in the grammar and pronunciation of the English language from Old English to the present. Introduction to Indo-European origins of English.  
Credit Hours: 3

ENGLSH 7620: Regional and Social Dialects of American English  
(same as LINGST 7620; cross-leveled with ENGLSH 4620, LINGST 7620). The study of regional and social variation in pronunciation, vocabulary, and grammar of American English.  
Credit Hours: 3  
Prerequisites: ENGLSH 4600 and ENGLSH 4610 or equivalent

ENGLSH 7630: Phonology  
(same as LINGST 7630; cross-leveled with ENGLSH 4630, LINGST 4630). Survey of the sound patterns of English, with some comparison to other languages.  
Credit Hours: 3  
Prerequisites: ENGLSH 4600 or another introductory course in linguistics or phonetics

ENGLSH 7640: Syntax  
(same as LINGST 7640; cross-leveled with ENGLSH 4640, LINGST 4640). Study of the properties of phrase-and sentence-level grammar, emphasizing English, with some comparison to other languages.  
Credit Hours: 3  
Prerequisites: ENGLSH 4600 or another comparable linguistics course

ENGLSH 7670: Field Methods in Linguistics  
(same as LINGST 7870 and ANTHRO 7870). Provides training in the methods of constructing a detailed linguistic description and analysis of a wholly unfamiliar language, based on interviews with a native speaker. Graded on A-F basis only.  
Credit Hours: 3  
Prerequisites: LINGST 1060, LINGST 7600, LINGST 7630 and LINGST 7640  
Corequisites: LINGST 7630 or LINGST 7640

ENGLSH 7700: Special Themes in Folklore  
(same as ANTHRO 7150; cross-leveled with ENGLSH 4770, ANTHRO 4170). Study of oral tradition from living cultures as well as literary works and mass media with roots in verbal art. Oral tradition is a form of human communication through which ideas, knowledge, art, and cultural material is received, preserved, and transmitted orally from one generation to another or from one person to another. May include such folklore genres as ballads, chants, folktales, jokes, legends, myths, proverbs, prose, or verses. Prerequisites: Instructor's consent  
Credit Hours: 3

ENGLSH 7770: Oral Tradition  
(same as ANTHRO 7170; cross-leveled with ENGLSH 4770, ANTHRO 4170). Study of oral tradition from living cultures as well as literary works and mass media with roots in verbal art. Oral tradition is a form of human communication through which ideas, knowledge, art, and cultural material is received, preserved, and transmitted orally from one generation to another or from one person to another. May include such folklore genres as ballads, chants, folktales, jokes, legends, myths, proverbs, prose, or verses. Prerequisites: Instructor's consent  
Credit Hours: 3

ENGLSH 7780: Women’s Folklore and Feminist Theory  
(same as WGST 7780; cross-leveled with ENGLSH 4780, WGST 4780). Examines folklore and artistic expression of women in relation to feminist theory and in multicultural contexts. Includes verbal genres (narrative/song) as well as material genres (quilting/arts).  
Credit Hours: 3

ENGLSH 7938: Advanced Screenwriting: Styles  
(same as THEATR 7938; cross-leveled with ENGLSH 4938, THEATR 4938). Students develop advanced skills of screenwriting through a focus on non-realistic, non-linear dramatic writing styles in development of a full-length screenplay. Areas of study will include techniques of magic realism, symbolism, expressionism, absurdism, surrealism/dada, mythic/fantasy, musicals, political docudrama, and science fiction.  
Credit Hours: 3

ENGLSH 7950: Internship in Publishing  
Offers practical experience working with a literary or scholarly publication edited or sponsored by faculty members. Graduate students in English must take the course two semesters in order to count three hours toward the completion of their program.  
Credit Hours: 3  
Prerequisites: instructor's consent

ENGLSH 8001: Topics in English-General  
Organized study of selected topics. Subjects and earnable credit may vary from semester to semester.  
Credit Hour: 1-99

ENGLSH 8005: Introduction to Graduate Study  
Introduces entering MA and PhD students to the profession of English and the intellectual resources needed to complete their degrees successfully.  
Credit Hour: 1

ENGLSH 8006: Professional Issues in English Studies  
Introduces advanced graduate students to issues relevant to their professional training, including entering the job market and preparing work for publication. May be repeated for credit.  
Credit Hour: 1-3

ENGLSH 8010: Theory and Practice of Composition  
Current and historical theories of rhetoric and composition as applied to the teaching of college composition.  
Credit Hours: 3  
Prerequisites: department's consent
ENGLSH 8040: Seminar in Rhetoric and Composition
Topics (e.g., The Institutionalization of Rhetoric, Writing Across the Curriculum) announced at time of registration. May repeat to twelve hours with department's approval.
Credit Hours: 3

ENGLSH 8050: Contemporary Critical Approaches
A survey of contemporary professional critical methods, such as formalism, poststructuralism, feminism, Marxism, new historicism, psychoanalysis, identity studies, and cultural studies.
Credit Hours: 3

ENGLSH 8060: Seminar in Criticism and Theory
Principles and practices of selected critics. May repeat to twelve hours with department's consent.
Credit Hours: 3

ENGLSH 8070: History of Criticism and Theory
A survey of the history of literary criticism and theory. While comprehensive in scope, the course might focus on specific topics in the history of criticism, such as the dialectic between rhetoric and poetics, the rise of aesthetics, or the relation of art and culture to society. Figures studied will extend from early philosophers such as Plato and Aristotle, through eighteenth-century thinkers such as Kant and Johnson, up to present theorists such as Derrida and Butler.
Credit Hours: 3

ENGLSH 8090: Masters Thesis Research
Leads to preparation of masters thesis. Graded on S/U basis only.
Credit Hour: 1-99

ENGLSH 8095: Problems in English
Individual work not leading to preparation of dissertation.
Credit Hour: 1-99
Prerequisites: departmental consent

ENGLSH 8110: Forms
Topics (e.g., The Epic, The Epistolary Novel) announced at time of registration. May repeat to twelve hours with department's approval.
Credit Hours: 3

ENGLSH 8200: Seminar in Old English Literature
Topics in Old English or Anglo-Saxon literature, such as Beowulf, the Exeter Book poems, or the genres of elegy, Biblical narrative, or wisdom poetry. May repeat to twelve hours with department's approval.
Credit Hours: 3
Prerequisites: ENGLISH 4200 or equivalent

ENGLSH 8210: Seminar in Middle English Literature
Topics (e.g., Medieval Drama, Chaucer) announced at time of registration. May repeat to twelve hours with department's approval.
Credit Hours: 3

ENGLSH 8220: Seminar in Renaissance British Literature
Topics (e.g., Tudor and Stuart Drama, Shakespearean Tragedy) announced at time of registration. May repeat to twelve hours with department's approval.
Credit Hours: 3

ENGLSH 8230: Seminar in 17th-Century British Literature
Topics (e.g., The Metaphysical Poets, Restoration Drama) announced at time of registration. May repeat to twelve hours with department's approval.
Credit Hours: 3

ENGLSH 8240: Seminar in 18th-Century British Literature
Topics (e.g., The 18th-Century Novel, Historical and Biographical Prose) announced at time of registration. May repeat to twelve hours with department's approval.
Credit Hours: 3

ENGLSH 8250: Seminar in 19th-Century British Literature
Topics (e.g., The Later Romantics, Victorian Poetry) announced at time of registration. May repeat to twelve hours with department's approval.
Credit Hours: 3

ENGLSH 8260: Seminar in 20th-Century British Literature
Topics (e.g., Chief Contemporary Poets, Modernism and the Novel) announced at time of registration. May repeat to twelve hours with department's approval.
Credit Hours: 3

ENGLSH 8310: Seminar in 19th Century American Literature
Topics (e.g., The Transcendentalists, American Realism) announced at time of registration. May repeat to twelve hours with department's consent.
Credit Hours: 3

ENGLSH 8320: Seminar in 20th-Century American Literature
Topics (e.g., The African-American Novel, Chief Contemporary Poets) announced at time of registration. May repeat to twelve hours with department's consent.
Credit Hours: 3

ENGLSH 8400: Seminar in African Diaspora Literature
(same as BL_STU 8400): Topic (e.g., Autobiography, Black Women Writers) announced at time of registration. May be repeated to 12 hours with departmental consent.
Credit Hours: 3

ENGLSH 8510: Advanced Writing of Fiction
Advanced fiction writing designed for graduate students, with the intention of producing work of professional quality. May repeat to twelve hours with consent of instructor.
Credit Hours: 3
ENGLSH 8520: Advanced Writing of Nonfiction Prose
Advanced workshop in nonfiction prose for graduate students intending to produce professional quality work. May repeat to twelve hours with consent of instructor.
Credit Hours: 3

ENGLSH 8530: Advanced Writing of Poetry
Advanced poetry writing designed for graduate students with the intention of producing work of professional quality. May repeat to twelve hours with consent of instructor.
Credit Hours: 3

ENGLSH 8560: Graduate Seminar in Playwriting
(same as THEATR 8987). Seminar in theory, practice, and pedagogy of playwriting, students a mid-term in playwriting theory, a full-length play, a research paper, and a syllabus and lesson plans for an undergraduate playwriting course.
Credit Hours: 3

ENGLSH 8600: Seminar in the English Language
(same as LINGST 8600). Descriptive and historical studies of the English language. Topics (e.g., The Germanic Origins, Modern Syntactic Analysis) announced at time of registration. May repeat to twelve hours with department's approval.
Credit Hours: 3

ENGLSH 8700: Seminar in Folklore
(same as ANTHRO 8157 and REL_ST 8700). Focus on the roots of folklore scholarship and methodology and their evolution in modern approaches to the study of oral, traditional verbal genres and their performance in natural folk groups. May repeat to twelve hours with department's consent.
Credit Hours: 3

ENGLSH 9090: Doctoral Dissertation Research
Leads to preparation of dissertation. Graded on S/U basis only.
Credit Hour: 1-12

Environmental Science (ENV_SC)

ENV_SC 1100: Introduction to Environmental Science
This class provides an opportunity to develop an understanding of environment, physical and social causes of environmental problems, their impacts, and strategies to manage these issues.
Credit Hours: 3
Prerequisites: Enrollment restricted to College of Agriculture, Food and Natural Resources undergraduates and students minoring in Environmental Science

ENV_SC 3085: Problems in Environmental Science
Special individualized projects or readings in environmental science.
Credit Hour: 1-99

ENV_SC 3250: Pollutant Fate and Transport
(same as CV_ENG 3250). Introduction to concepts governing pollutant fate and transport in the environment, including pollutant interactions within and migration through environmental systems, as well as analytical techniques and tools necessary to quantify conditions and movement.
Credit Hours: 3
Prerequisites: ENV_SC 1100 or SOIL 2100 or CV_ENG 3200; and CHEM 1320

ENV_SC 3290: Soils and the Environment
(same as SOIL 3290). Addresses the role of soils and soil properties on environmental pollution and management. Emphasis will be placed on carbon, nitrogen, phosphorus, and sulfur transformations and transport in natural and disturbed ecosystems and soil management practices and technology to prevent or remediate environmental pollution.
Credit Hours: 3
Prerequisites: SOIL 2100, ENGLSH 1000. Recommended 3 hours of CHEM courses

Environmental Science (ENV_SC)

ENV_SC 3290W: Soils and the Environment - Writing Intensive
(same as SOIL 3290W). Addresses the role of soils and soil properties on environmental pollution and management. Emphasis will be placed on carbon, nitrogen, phosphorus, and sulfur transformations and transport in natural and disturbed ecosystems and soil management practices and technology to prevent or remediate environmental pollution.
Credit Hours: 3
Prerequisites: SOIL 2100, ENGLSH 1000. Recommended 3 hours of CHEM courses

ENV_SC 3330: Environmental Land Use Management
An introduction to environmentally sustainable use and management of land.
Credit Hours: 3

English Language Support Program (ELSP)

ELSP _0100: Grammar and Composition I
Grammar and Composition I. Graded S/U only.
Credit Hours: 3

ELSP _0200: Reading and Vocabulary
Reading and Vocabulary. Graded on S/U basis only.
Credit Hours: 3

ELSP _0300: Grammar and Composition II
Grammar and Composition II. Graded S/U Only.
Credit Hours: 3

ELSP _0400: Oral Communication
Credit Hours: 3
ENV_SC 3500: Pollutant Fate and Transport
This course introduces students to concepts governing pollutant fate
and transport in the environment, and it provides students with the
quantitative tools necessary to estimate the fate and transport of
pollutants in the environment.
Credit Hours: 3
Prerequisites: ENV_SC 1100 or SOIL 2100, and CHEM 1320

ENV_SC 4024: Foundations of Environmental Education
(same as NAT_R 4024; cross-leveled with NAT_R 7024) This course
provides a theoretical foundation to environmental education (EE).
The purpose of this course is to develop the knowledge and skills for
developing quality, age-appropriate EE for students in both formal
and non-formal education setting. The emphasis is on EE curriculum
materials, resources, and programs that can be used with students in
settings at classrooms, nature centers, museums, and parks. This course
involves training in the Missouri Department of Conservation Discover
Nature School educational materials, and in observing and teaching EE
lessons in a local nature center. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: BIO_SC 1010 or ENV_SC 1100 or NAT_R 1060 or
NAT_R 1070 or NAT_R 2160 or Instructor's consent

ENV_SC 4085: Problems in Environmental Science
Special individualized research projects or readings in environmental
science.
Credit Hour: 1-99

ENV_SC 4100: Lake Ecology
(same as NAT_R 4100; cross-leveled with ENV_SC 7100, NAT_R 7100).
Ecology of inland waters with emphasis on productivity. Graded on A-F
basis only.
Credit Hours: 3
Recommended: senior standing or BIO_SC 3650

ENV_SC 4305: Environmental Soil Physics
(same as SOIL 4305). Study of soil physical properties and processes
important in solving environmental problems. Topics include soil solids,
water content and energy, and transport of water, solutes, gas and heat.
Credit Hours: 3
Prerequisites: SOIL 2100
Recommended: PHYSCS 1210 or equivalent

ENV_SC 4306: Environmental Soil Physics Laboratory
(same as SOIL 4306). Introduction to the methodology and equipment for
measurement of soil physical properties and processes.
Credit Hours: 2
Prerequisites or Corequisites: ENV_SC 4305

ENV_SC 4312: Environmental Soil Microbiology
(same as SOIL 4312). Microbiology/ecology of life in the soil ecosystem.
Emphasis is placed on the role of microbes in nutrient cycling, microbial
pesticide/xenobiotic transformation bioremediation, etc.

ENV_SC 4318: Environmental Soil Chemistry
(same as SOIL 4318 and GEOL 4318). Study of chemical constituents
and processes occurring in soils. Topics include soil minerals and
weathering processes, organic matter, solution chemistry, oxidation-
reduction reactions and adsorption processes.
Credit Hours: 3
Prerequisites: SOIL 2100 or GEOL 2400, CHEM 1320 and CHEM 1330;
junior standing or instructor's consent

ENV_SC 4320: Hydrologic and Water Quality Modeling
(same as NAT_R 4320). Introduction to models for simulating hydrologic
and water quality processes. Emphasis is placed on watersheds to
provide experience with the use of simulation models for natural resource
decision making.
Credit Hours: 3
Prerequisites: ENV_SC 1100 or SOIL 2100

ENV_SC 436: Agroforestry for Watershed Restoration
Agroforestry for watershed restoration will focus on integrated
approaches for improved water quality, soil health, and economic
benefits. Students will learn principles and practices, critical analysis and
application of agroforestry practices to improve overall environmental
quality. May be repeated for credit. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: FOREST 4385 or FOREST 7385

ENV_SC 4940: Environmental Science Internship
Supervised professional experience with an approved public or private
organization. Graded on S/U basis only.
Credit Hour: 1-99

ENV_SC 7100: Lake Ecology
(same as NAT_R 7100; cross-leveled with ENV_SC 4100, NAT_R 4100).
Ecology of inland waters with emphasis on productivity. Graded on A-F
basis only.
Credit Hours: 3
Recommended: BIO_SC 3650

ENV_SC 7305: Environmental Soil Physics
(same as SOIL 7305). Study of soil physical properties and processes
important in solving environmental problems. Topics include soil solids,
water content and energy, and transport of water, solutes, gas and heat.
Credit Hours: 3
Prerequisites: SOIL 2100, PHYSCS 1210 or equivalent

ENV_SC 7306: Environmental Soil Physics Laboratory
(same as SOIL 7306). Introduction to the methodology and equipment for
measurement of soil physical properties and processes.
Prerequisites or Corequisites: SOIL 4305.
Credit Hours: 2
ENV_SC 7312: Environmental Soil Microbiology
(same as SOIL 7312). Microbiology/ecology of life in the soil ecosystem. Emphasis is placed on the role of microbes in nutrient cycling, microbial pesticide/xenobiotic degradation and bioremediation, soil quality and pathogen regulation in the environment. Nitrogen fixation, mycorrhizal processes are discussed.

Credit Hours: 3

ENV_SC 7318: Environmental Soil Chemistry
(same as SOIL 7318 and GEOL 7318). Study of chemical constituents and processes occurring in soils. Topics include soil minerals, and weathering processes, organic matter, solution chemistry, oxidation-reduction reactions and adsorption processes.

Credit Hours: 3
Prerequisites: SOIL 2100 or GEOL 2400, CHEM 1320 and CHEM 1330

ENV_SC 7320: Hydrologic and Water Quality Modeling
(same as NAT_R 7320). Introduction to models for simulating hydrologic and water quality processes. Emphasis is placed on watersheds to provide experience with the use of simulation models for natural resource decision making.

Credit Hours: 3
Prerequisites: ENV_SC 1100 or SOIL 2100 or equivalent

ENV_SC 7396: Agroforestry for Watershed Restoration
Agroforestry for watershed restoration will focus on integrated approaches for improved water quality, soil health, and economic benefits. Students will learn principles and practices, critical analysis and application of agroforestry practices to improve overall environmental quality. May be repeated for credit. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: FOREST 4385 or FOREST 7385 or permission of instructor

ENV_SC 8090: Masters Research in Environmental Science
Original investigations in environmental science for presentation in a thesis. Graded on S/U basis only.

Credit Hour: 1-10

ENV_SC 8400: Solute Transport in the Vadose Zone
(same as SOIL 8400). Transport of water and solutes in geomedia with emphasis on development of the equations of flow. Evaluation of analytical and numeral solutions to equations describing transport phenomena.

Credit Hours: 3
Prerequisites: ENV_SC 7305 or SOIL 7305

Environmental Studies (ENV_ST)

ENV_ST 2150: Directed Independent Study
Working with Environmental Studies you will find and develop a research project or an internship with the university, a government agency, a business or a non-profit agency. The project will be directed towards solving an environmental problem.

Credit Hour: 1-3
Prerequisites: instructor's consent

Family And Community Medicine (F_C_MD)

F_C_MD 6001: Family Medicine Clerkship
Core learning experiences take place in ambulatory clinic settings. Students work with experienced clinicians and senior residents, spending time in University teaching practices and in community-based practices. Students also may spend time seeing patients in emergency room, hospital, nursing home settings and taking call with residents and practicing physicians. A high volume of patients of all ages with a wide range of problems is encountered. Many patients will have undifferentiated problems.

Credit Hours: 8

F_C_MD 6011: Rural Family Medicine Clerkship
Rural Family Medicine Clerkship

Credit Hours: 8

F_C_MD 6021: Springfield Family Medicine Clerkship
Core learning experiences take place in ambulatory clinic settings. Students work with experienced clinicians and senior residents, spending time in University teaching practices and in community-based practices. Students also may spend time seeing patients in emergency room, hospital, nursing home settings and taking call with residents and practicing physicians. A high volume of patients of all ages with a wide range of problems is encountered. Many patients will have undifferentiated problems.

Credit Hours: 8
Prerequisites: successful completion of the first two years of medical school

F_C_MD 6036: SCC Palliative Care Elective
Students will learn a multidisciplinary approach to the care of the palliative care patient while working in a variety of clinical settings. This is an inpatient and outpatient experience in a variety of settings that represent different levels and types of care available to people with a terminal condition. Each week students will work with palliative care physicians at either Cox or Mercy Palliative Care Service and/or a Hospice agency. Students will have the opportunity to see patients undergoing palliative care assessment and observe nursing staff and professional therapy staff in their work with patients and families. Students will participate in various palliative care-related conferences. Students will participate in inpatient palliative care services as well as outpatient palliative care clinics. The student will work with faculty in the Departments of Family and Community Medicine as well as Internal Medicine.

Credit Hours: 1-3
Prerequisites: Successful completion of 5 of 7 core clerkships, one of which must be either Family Medicine or Internal Medicine. IN_MED 6002, 6012, 6022, or 6102. F_C_MD 6001, 6011, 6021, or 6101
also see patients undergoing geriatric assessment and thus develop a better understanding of the multidisciplinary approach to geriatric assessment. 3. Additional experiences may be arranged depending on the student's interests. 4. Participate in the various conferences related to geriatrics. Evaluations: Final evaluation will be determined by the attending physicians supervising the student during the block.

Credit Hours: 5
Prerequisites: Must have completed all core clerkships

F_C_MD 6468: Evidence Based Medical Writing in Family Medicine
Student will co-author a draft of an evidence-based article under the supervision of FCM faculty with evidence-based writing experience. Before writing begins, students complete an evidence-based medicine curriculum using online modules. FCM integrated residents will also participate in a departmental editorial review session.

Credit Hours: 5
Prerequisites: restricted to 4th year medical students

F_C_MD 6475: Family Medicine Elective Preceptorship - Rural
Family Medicine Preceptorship - Rural

Credit Hours: 5
Prerequisites:

F_C_MD 6477: Rural Health Policy and Legislative Advocacy
Elective content will focus on the intersection of rural medicine, health policy, and legislative advocacy. Course Goals: 1) To inform and educate students about rural health policy issues at the local, state, and national levels. 2) To train medical students to be informed advocates of rural health policy issues at the local, state, and national levels. To apply, medical students must complete the Rural Track Elective Application posted on the MU AHEC website http://medicine.missouri.edu/ahec/rural-track-elective.html. In the notes section of the application, the student must document a rationale for applying for this course. (Maximum length - 1 paragraph).

Credit Hours: 5
Prerequisites: M4 status. Applicants must complete either the Rural Track Summer Community Program or the Rural Track Clerkship Program prior to enrollment. Students will share first-hand experiences from rural track placement(s) with legislators to advocate for the MU Rural Track Pipeline Program and to influence rural health policy in Missouri.

F_C_MD 6775: Family Medicine Preceptorship - Rural

Credit Hours: 5
Prerequisites:

F_C_MD 6777: Rural Health Policy and Legislative Advocacy

Credit Hours: 5
Prerequisites:

F_C_MD 6487: Family and Community Medicine Palliative Care Elective
This is an inpatient and outpatient experience in a variety of settings that represent different levels and types of care available to people with terminal condition.

Credit Hours: 5
Prerequisites: F_C_MD 6001; restricted to 4th year medical students

F_C_MD 6477: Family Medicine Elective Preceptorship
May be available as a rural offsite elective: contact the MU-AHEC Coordinator. Goals/Objectives: During this elective the student works closely with a family physician in private practice. Students both observe the preceptor's patient encounters and take primary responsibility for several patients each day, discussing diagnosis and formulating management plans with supervision by the preceptor. The Preceptorship also provides opportunities not available elsewhere in the medical school curriculum, including seeing the patient's illness in its context, assessing a community's health care system, and learning about practice management. Evaluations: Evaluation of the student is based on the preceptor's evaluation and comments. Notes: Site must be pre-approved by the Course Director.

Credit Hours: 5
Prerequisites: Students should have completed at least two clinical blocks, plus the Family Practice Clerkship

F_C_MD 6483: Preventive/Community Medicine
Preventive/Community Medicine

Credit Hours: 5
Prerequisites:

F_C_MD 6485: Geriatrics-Family and Community Medicine Elective
Goals/Objectives: This is an outpatient experience in a variety of settings. Each week students will: 1. Work with Dr. David Cravens and other health care providers at Lenoir Village, Lenoir Manor, Lenoir Health Care and Maplewood Apartments. These all represent different levels and types of care available to elders. a. Students will develop an understanding of the available care and residential options that elders utilize. 2. Work with several geriatricians in the SAGE Clinic and/or Geriatrics Clinic at Green Meadows. a. Students will improve their understanding of care of elders in the outpatient setting. b. Students will

Credit Hours: 5
Prerequisites:

University of Missouri
will also have the opportunity to work with a medical director of a local University Hospital Supportive and Palliative Care Service. They will also be expected to follow their patients after discharge, making home visits or nursing home visits and seeing them in follow-up at the clinic as indicated. Students will also have exposure to ambulatory family medicine. Each student will work closely in the clinic with one of the third-year residents assigned to the inpatient team. The student will attend each of the resident’s clinics whether they are at Green Meadows, Fulton, or Fayette.

**Credit Hours:** 5  
**Prerequisites:** Students should have completed at least two clinical blocks, plus the Family Practice Clerkship.

---

**F_C_MD 6876: Family Medicine Offsite Externship**  
Several different types of experiences are available for the offsite track of the externship. Students have the opportunity to work at selected Indian Health Service sites that provide the appropriate mix of inpatient and outpatient experiences. A list of these IHS sites and the students’ evaluations are available in the course office. These offer high volume and high levels of responsibility. Planning needs to begin early in the third year. Offsite externship experiences are also available in certain community-based family practices and in certain family practice residency programs. A list of pre-approved sites is available in the course office. All of the sites available for the offsite experience have been carefully selected by the faculty based on previous experiences of fourth-year students. These sites offer an appropriate level of patient care responsibility with supervision. Offsite practices need to be approved in advance by the course director and often require planning 6 to 12 months in advance. Students considering offsite rotations will be expected to have a clear idea of how these experiences will offer unique advantages to their personal and professional development, and how they will meet the course criteria. Many offsite locations used in the past for the Family Medicine Clerkship will not satisfy the externship requirement. They still offer excellent experiences and could be taken as electives. Students on the offsite track will be evaluated with respect to their ability to collect, process, and analyze information, engage in clinical reasoning, and formulate appropriate diagnoses and treatment plans. Sites must be pre-approved by the Course director.

**Credit Hours:** 5

---

**F_C_MD 6877: Rural Family Medicine Elective**  
**Credit Hours:** 5

---

**F_C_MD 6878: Family Medicine Maternity Care-Advanced Selective**  
**Credit Hours:** 5

---

**F_C_MD 6879: Palliative Care Selective**  
This is an inpatient and outpatient experience in a variety of settings that represent different levels and types of care available to people with a terminal condition. Each day the student will work directly with palliative care physicians, as well as the rest of the multidisciplinary team, as part of the University Hospital Supportive and Palliative Care Service. They will also have the opportunity to work with a medical director of a local Hospice agency, who is a faculty member of the University of Missouri. Students will be expected to function as a member of the Palliative Care Team. Students will have the opportunity to actively participate in the assessment and care of patients under the direction of the Palliative Care Interdisciplinary team. Students will work alongside palliative care attending physicians, nursing staff, social workers, and pastoral care team members in their work with patients and families. Students will participate in various palliative care-related conferences including Interdisciplinary Team Meetings, didactics, patient remembrance and memorial services, self-care rounds, monthly team business meetings and the monthly Palliative Care hospital committee meeting. Additional experiences will include outpatient palliative care clinics at Ellis Fischel, bi-weekly community Hospice Interdisciplinary team meetings, patient home assessments and nursing visits with hospice staff, and completion of an oral presentation to the Palliative Care Team as part of their assessment and evidence of mastery of course objectives.

**Credit Hours:** 5  
**Prerequisites:** Fourth year medical student. Must have completed 6 of the 7 core clerkships

---

**F_C_MD 6928: Primary Care Sports Medicine Elective**  
Students will work with a multi-disciplinary sports medicine team, providing hands on clinical services in an outpatient setting. Participants will gain experience working with primary care sports medicine physicians, orthopedic surgeons, physical therapists and cast technicians.

**Credit Hours:** 2  
**Prerequisites:** successful completion of the first two years of medical school

---

**F_C_MD 7310: The Health Care System**  
Overview of health care system and relationship between its components. Focuses on changing nature of the system and issues confronting the future health care system.

**Credit Hours:** 3  
**Prerequisites:** instructor’s consent

---

**F_C_MD 7350: Special Readings in Community Health**  
Extensive reading and critical analysis of classical and current studies in selected areas of community health.

**Credit Hour:** 1-3  
**Prerequisites:** instructor’s consent

---

**F_C_MD 7400: Problems in Community Health**  
Intensive study of an area of community health.

**Credit Hour:** 1-3  
**Prerequisites:** instructor’s consent

---

**F_C_MD 8410: Principles and Practices in Medical Education**  
An examination of the past and present influences on the education of physicians, the application of adult education principles and the future approaches to medical education.

**Credit Hours:** 3  
**Prerequisites:** instructor’s consent
F_C_MD 8411: Learning Strategies in Preclinical & Clinical Educ. of Physicians
Examination of curricular strategies in preclinical and clinical education of medical students and graduate medical education. Emphasis will be placed on different types of instructional strategies.
Credit Hours: 3
Prerequisites: instructor's consent

F_C_MD 8420: Principles of Epidemiology
Examines methods of study of disease frequency and distribution in populations. Utilizes small group discussions for understanding of current medical literature.
Credit Hours: 3
Prerequisites: instructor's consent

F_C_MD 8422: Clinical Research Methods I
Principles of designing, implementing and reviewing research in the health sciences.
Credit Hours: 3

F_C_MD 8423: Clinical Research Methods II
This is a continuation of the Clinical Research Methods I (CRM_I) introductory course on the multi-method approach to clinical research. Similar to the previous course, it covers both quantitative and qualitative research methods, but includes advanced applications.
Credit Hours: 3

F_C_MD 8424: Comparative Effectiveness Research
Advanced research class that presents a framework for analyzing observational studies and randomized trials for comparative effectiveness. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: Two recent semester-length courses in statistics such as NURSE 8020 or STAT 2500 or above; Working knowledge of managing and analyzing data in SPSS or SAS; Research methods; or consent of instructor
Recommended: One semester of epidemiology is strongly recommended

F_C_MD 8425: Participatory Approaches for Health and Health Systems
(same as NURSE 8425). Focuses on the use of participatory approaches for the design of health and health-system interventions. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: NURSE 8100 or F_C_MD 8420 or instructor consent

F_C_MD 8430: Applications of Evidence-Based Medicine I
Students will participate in editing, presentation and publication of evidence-based reviews of current medical literature.
Credit Hours: 3
Prerequisites: instructor's consent

F_C_MD 8431: Applications of Evidence-Based Medicine II
Students will participate in editing, presentation and publication of evidence-based reviews of current medical literature.
Credit Hours: 3
Prerequisites: instructor's consent

F_C_MD 8450: Research in Community Health
Original research in community health not leading to a thesis but requiring a formal research report.
Credit Hour: 1-99

F_C_MD 8491: Field Experience in Family and Community Medicine
Supervised teaching experience in the preclinical, clinical, and residency programs.
Credit Hour: 1-6
Prerequisites: instructor's consent

Film Studies (FILM_S)

FILM_S 1000: Introduction to Film for Non-Majors
Introduction to terms and concepts for film analysis, including mise-en-scene, cinematography, editing, sound narrative, genre, and other elements. No credit for students who have completed FILM_S 1800. No credit for film majors or minors. Graded on A-F basis only.
Credit Hours: 3

FILM_S 1800: Introduction to Film Studies
(same as ENGLSH 1800, DST 1800). Introduction to terms and concepts for film analysis, including mise-en-scene, cinematography, editing, sound narrative, genre, and other elements. No credit for students who have completed FILM_S 2810. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: Freshmen and Sophomores only or instructor's consent

FILM_S 2001: Topics in Film Studies-General
Organized study of selected topics. Subject may vary from semester to semester. May be repeated with consent of instructor.
Credit Hour: 1-3

FILM_S 2005: Topics in Film Studies- Humanities
Organized study of selected topics. Subject may vary from semester to semester. May be repeated with consent of instructor.
FILM_S 2010: The Philosophy of Film  
(same as PHIL 2010). Philosophical problems having to do with film. Topic may include the nature of films, the differences between fiction and documentary film, ethical issues with film and filmmaking.  
Credit Hours: 3

FILM_S 2020: World Cinema for Non-Majors  
World Cinema introduces students to the history of international cinema. The course focuses on particular cinematic movements and national cinemas as case studies for trends and trajectories that also characterize the national and non-Hollywood cinemas not covered in the course. Examines the relationship of form and genre to individual national, or localized, cultural contexts. No credit for students who have completed FILM_S 2820. No credit for film majors or minors. Graded on A-F basis only.  
Credit Hours: 3

FILM_S 2160: Film Adaptation of Shakespeare - Non Majors  
This course serves as an introduction to the problems and complexities that arise when adapting William Shakespeare’s plays to contemporary film. One basic task of the course is to develop students’ ideas about adaptation, especially with reference to contemporary adaptation theory. This course hopes both to explain and discredit the value of "fidelity discourse," students should be liberated from the notion of "faithfulness" to the texts. No credit for film majors or minors. Graded on A-F basis only.  
Credit Hours: 3

FILM_S 2530: Screenwriting I  
Analyze various script formats and apply different writing techniques and styles to create screenplays and teleplays. Work inside a creative critique environment to craft vivid storytelling and character elements while developing viable loglines and pitches for their stories. Screenwriting concepts include the three-act structure and the timing and placement of plot points. Graded on A-F basis only.  
Credit Hours: 3  
Prerequisites: FILM_S 1800 or ENGLSH 1800; sophomore standing or higher. May be restricted to Film Studies majors and minors during early registration

FILM_S 2540: Introduction to Film Management  
Film Production Management is a hands-on exploration of the roles of feature film executive producers, producers, and unit production managers. Creating balanced budgets, hiring personnel, creating meaningful business relationships, and managing post-production responsibilities are investigated. The feature film budget will be examined in each phase of the production; creating a sales pitch for a film, and developing a detailed approach to distribution is explored. Graded on A-F basis only.  
Credit Hours: 3  
Prerequisites: FILM_S 1800 or ENGLSH 1800; sophomore standing or higher

Credit Hours: 3  
Prerequisites: FILM_S 1800 or ENGLSH 1800; sophomore standing or higher

FILM_S 2820: Trends in World Cinema  
(same as GERMAN 2820 and RM_LAN 2820). This course is a historical overview of the major trends in international cinema. It focuses on the intersection of aesthetics, industry, and ideological and social concerns in cinematic production.  
Credit Hours: 3  
Prerequisites: Sophomore standing, ENGLSH 1800 or FILM_S 1800

FILM_S 2830: American Film History I, 1895-1950  
(same as ENGLSH 2830). Examines the development of American cinema in relation to other national cinemas, from 1895-1950. No credit for students who have completed ENGLSH or FILM_S 1810.  
Credit Hours: 3  
Prerequisites: ENGLSH 1000 and ENGLSH 1800 or FILM_S 1800

FILM_S 2840: American Film History II, 1950-Present  
(same as ENGLSH 2840). Examines American film history in an international context, from 1950-present. No credit for students who have completed ENGLSH or FILM_S 1820.  
Credit Hours: 3  
Prerequisites: ENGLSH 1000 and ENGLSH 1800 or FILM_S 1800

FILM_S 2850: Italian Cinema  
(same as ITAL 2850). A course which concentrates on the development of Italian Cinema, primarily since the Post-WWII era, and the ways in which it reflects major economic, social and political events occurring in Italy. No knowledge of Italian required.  
Credit Hours: 3  
Prerequisites: Sophomore standing

FILM_S 2860: Film Themes and Genres  
(same as ENGLSH 2860, DST 2860) Topics (e.g. Film noir, African-American filmmakers, Food and Film, The Western) announced at time of registration. No more than six hours may be taken in Film Themes and Genres 2680.  
Credit Hours: 3  
Prerequisites: ENGLSH 1000 and ENGLSH 1800 or FILM_S 1800

FILM_S 2865: The Art of Soviet and Russian Cinema  
(Same as RUSS 2865) Topics (e.g. Distorted Picture: Post-War Cinema in a Soviet State, Cinema in the Soviet Times and Beyond, etc.) announced at time of registration. Only 6 hours may be taken toward major.  
Credit Hours: 3

FILM_S 2865W: The Art of Soviet and Russian Cinema - Writing Intensive  
(Same as RUSS 2865) Topics (e.g. Distorted Picture: Post-War Cinema in a Soviet State, Cinema in the Soviet Times and Beyond, etc.) announced at time of registration. Only 6 hours may be taken toward major.  
Credit Hours: 3
FILM_S 3005: Topics in Film Studies - Humanities
Organized study of selected topics. Subjects and earnable credit may vary from semester to semester.
Credit Hours: 1-3
Prerequisites: Sophomore standing

FILM_S 3005W: Topics in Film Studies - Humanities - Writing Intensive
Organized study of selected topics. Subjects and earnable credit may vary from semester to semester.
Credit Hours: 1-3
Prerequisites: Sophomore standing

FILM_S 3490: Indian Cinema
(same as S_A_ST 3490, AR_H_A 3790 and ANTHRO 3490). Indian Cinema provides an overview of the key genres and themes of Indian film, including Bollywood, art cinema/parallel cinema, Indian regional cinemas, and diasporan cinema. The course combines film studies, anthropological, historical, and visual culture analyses to provide a holistic view of Indian culture and society through cinema.
Credit Hours: 3
Prerequisites: Sophomore standing or higher

FILM_S 3520: Post Production
Editing above all else is about feeling and rhythm. This course immerses students in the complete filmmaking editorial process from ingesting the footage to final delivery. Using non-linear editing software students will sharpen their sensibilities through hands on learning and practice. While editing scenes from both fiction and non-fiction cinema - students can expect to learn the ins and outs of media management and organization, the language of the edit, basic toolset navigation and color correction. Graded A-F basis only.
Credit Hours: 3
Prerequisites: FILM_S 1800 or ENGLISH 1800; sophomore standing or higher

FILM_S 3540: Cinematography I
An exploration of the principles and techniques of cinematography that includes shot composition lighting styles, and storytelling, using the moving image. Students will examine historical and contemporary approaches to cinematography used in Hollywood, foreign and independent films. Analyzing cinematographic approaches of a wide range of work will help the students discriminate the quality of their own creative work. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: FILM_S 1800 or ENGLISH 1800, and FILM_S 1880. Sophomore standing or higher. May be restricted to Film Studies majors and minors during early registration

FILM_S 3550: Introduction to Field Production
Provides a comprehensive overview of pre-production and production involved in the development of a film. Students will receive hands-on experience in lighting design, camera operation, grip and electrical, producing, directing, sound capture and design, and fundraising. Students will ultimately be responsible for the production of a commercially viable, competition grade short film at the end of the semester. Some outside class obligations may be required.
Credit Hours: 3
Prerequisites: FILM_S 1800 or ENGLISH 1800 and FILM_S 3540

FILM_S 3555: Directing for the Screen
Directing for the Screen combines previous knowledge of the cinematic frame with the power of communication. This course focuses on developing the student's ability to effectively communicate to actors, cinematographers, and art departments, while also commanding a film crew and managing relationships with producers. Students develop concise personal vision and aesthetics with respect to scripts, and will work directly with actors to achieve performances that suit the project.
Credit Hours: 3

FILM_S 3560: Audio Engineering for the Screen
This course is an intensive study of the techniques and science behind the use of audio in today's cinema. The course will focus on four major areas of study: sound in cinema, sound creation, sound manipulation, and environmental sound layering.
Credit Hours: 3
Prerequisites: FILM_S 1800 or ENGLISH 1800, Sophomore standing. May be restricted to Film Studies majors and minors during early registration

FILM_S 3775: The Ancient World on Film
(Same as CL_HUM 3775 and AR_H_A 3775) This course explores how classical antiquity has been represented in twentieth and twenty-first-century film, with particular emphasis on the ways in which ancient narratives and iconography have been appropriated by filmmakers to address contemporary cultural issues.
Credit Hours: 3
Prerequisites: Prior 2000 level coursework in CL_HUM, AR_H_A, or FILM_S. Instructors consent required

FILM_S 3780: Architecture in Film
(Same as AR_H_A 3780) Filmmakers use architecture to convey meaning on symbolic, psychological, and ideological levels. Using architectural history and theory, in conjunction with weekly film screenings from a variety of genres, this course explores how architecture operates within film.
Credit Hours: 3

FILM_S 3785: Art and Artists on Film
(Same as AR_H_A 3785) This course explores representations of art and artists in film, including documentary films, fictionalized films, and films made by artists.
Credit Hours: 3

FILM_S 3820: Major Directors
(Same as ENGLISH 3820 and RM_LAN 3820). Topics (e.g. Hitchcock, Kubrick, Fellini, Allen, Kurosawa, Wilder) announced at time of registration. Only 6 hours may be taken for credit toward major. Graded on A-F basis only.
**Prerequisites:** ENGLISH 1000 and ENGLISH 1800 or FILM_S 1800

**FILM_S 3830: History of German Film**  
(same as GERMAN 3830). Introduction to the development of the German film. Old and recent films are viewed and discussed in terms of techniques, artistry, psychology and social impact. English dubbing or subtitles. No foreign language credit.  
**Credit Hours:** 3  
**Prerequisites:** Sophomore standing or instructor's consent

**FILM_S 3845: Modern Israeli Film**  
(same as HEBREW 3845). Examines the modern film of developing Israel. Discusses complex social relationships. Introduces concepts of Hebrew language and its use in the arts world-wide. Discusses varied communities in Israel, and universal themes such as democracy and social justice. Provides introduction to Israeli culture.  
**Credit Hours:** 3  
**Prerequisites:** Sophomore standing or instructor's consent

**FILM_S 3850: Studies in Film History**  
(same as ENGLISH 3850). Topics (e.g. Classical Period of Hollywood cinema, silent era, Post-WWII American film, German Weimar cinema, French New Wave) announced at time of registration. Only 6 hours count as credit toward major.  
**Credit Hours:** 3  
**Prerequisites:** ENGLISH 1000 and ENGLISH 1800 or FILM_S 1800

**FILM_S 3855: Documentary Film**  
(same as ENGLISH 3855; DST 3855). Surveys the history of documentary film including the development of subgenres, sound and voice over in documentary, re-enactment, ethical issues in documentary film production, and more. Graded on A-F basis only.  
**Credit Hours:** 3  
**Prerequisites:** Sophomore standing or consent of instructor required

**FILM_S 3861: Film Themes and Genres**  
Topics (e.g. Film noir, African-American filmmakers, Food and Film, The Western) announced at time of registration. No more than six hours may be taken in Film Themes and Genres 3861.  
**Credit Hours:** 3  
**Prerequisites:** ENGLISH 1000

**FILM_S 3865: The Holocaust on Screen**  
(same as GERMAN 3865). This course explores how the Holocaust has been depicted on film in a variety of national and historical contexts. Drawing on films from 1945 to the present, from the U.S., Germany, Poland, France, and Italy, we will consider to what extent images of the Holocaust have been used. Graded on A-F basis only.  
**Credit Hours:** 3  
**Prerequisites:** Sophomore standing

**FILM_S 3875: Brazilian Cinema**  
(same as PORT 3875). An introduction to Brazilian cinema, culture, and society through the study of contemporary cinematic productions. Topics include: Hollywood perceptions of Brazil; redefinition of national identity and history, representations of race and gender.  
**Credit Hours:** 3  
**Prerequisites:** ENGLISH 1000

**FILM_S 3880: Contemporary Chinese Film**  
(same as CHINSE 3880). Introduces development of 20th century Chinese film and popular genres, including review of earlier times. Explores how present day Chinese understand their own history, and issues they face in drive toward modernization in a global context. Films and readings in English or with English subtitles. No previous knowledge of the culture or language required.  
**Credit Hours:** 3  
**Prerequisites:** Sophomore standing or instructor's consent

**FILM_S 3885: Twenty-First Century South American Cinema**  
(same as SPAN 3885, PORT 3885). Broad overview of the major national cinemas of the 21st century in South America. Approximately 14 feature films screened from Argentina, Brazil, Chile and other nations of the region. Instructor provides a thematic framework for films within the context of film theory, Latin American cinematic history and cultural studies. Course taught in English. Graded on A-F basis only.  
**Credit Hours:** 3  
**Prerequisites:** ENGLISH 1000 or ENGLISH 1000H

**FILM_S 3890: Russian and Soviet Film**  
(same as RUSS 3890). Introduces three significant genres of Russian cinema: comedy, literary adaptations, and films that explore issues of identity and autobiography. Includes examples from different epochs. Considers Soviet and post-Soviet films. Russia and Russian culture. Course conducted in English; films have English subtitles.  
**Credit Hours:** 3  
**Prerequisites:** Sophomore standing or instructor's consent

**FILM_S 3930: Screenwriting for Television and Film**  
(same as THEATR 3930). Fundamentals of storytelling utilizing tools and structure used by television and film.  
**Credit Hours:** 3  
**Prerequisites:** ENGLISH 1000

**FILM_S 4001: Topics in Film-General**  
Organized study of selected topics. Subjects and earnable credit may vary from semester to semester.  
**Credit Hour:** 1-3  
**Prerequisites:** Sophomore standing

**FILM_S 4005: Topics in Film Studies - Humanities**  
Organized study of selected topics. Subjects and earnable credit may vary from semester to semester.  
**Credit Hour:** 1-3  
**Prerequisites:** Sophomore standing
FILM_S 4005W: Topics in Film Studies - Humanities - Writing Intensive
Organized study of selected topics. Subjects and earnable credit may vary from semester to semester.
Credit Hour: 1-3
Prerequisites: sophomore standing

FILM_S 4030: Video Art and the Moving Image
(same as ART_GNR 4030; cross-leveled with ART_GNR 7030).
Video as a fine art form intersecting with sculpture, experimental filmmaking, DIY and Internet culture. Theoretical and historical knowledge is integrated with studio practice. Students create video works in Adobe Premiere Pro, demonstrating technical ability and aesthetic vision. May be repeated up to 9 hours maximum.
Credit Hours: 3

FILM_S 4130: Advanced Character Voice and Dialogue
Builds upon principles of story arc and screenwriting techniques, while providing an in-depth study of character psyche and unique voice. Students will master the skills necessary to create vibrant, memorable characters through the exploration and development of unique character traits, physical imagery development and distinctive voice. Students will analyze dialog traits of scripts and films of industry professionals, and will craft their own characters using industry standard technology, adhering to the principles of industry standard formatting. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: FILM_S 3530, THEATR 3930, FILM_S 3930, ENGLISH 2510, ENGLISH 2520 or ENGLISH 2530

FILM_S 4370: Film Studies: The Intersection of Documentary Film and Journalism
(same as JOURN 4370; cross-leveled with FILM_S 7370, JOURN 7370). The popularity of documentary film in the past ten years has skyrocketed, and recent award-winning documentaries such as Inside Job (2010), Blackfish (2013), and The Invisible War (2012) are simultaneously entertaining audiences and investigating serious issues like the financial collapse, killer whale captivity, and sex crimes in the military--issues that in the past might have been covered exclusively by investigative journalism. What explains the public's growing fascination with documentary? How is documentary film reacting to recent transformations in the media landscape? Is it filling a critical need that journalism is no longer willing or able to meet? This course will explore the intersection of these two nonfiction storytelling forms--documentary film and journalism--and examine the role played by advocacy in both modes, as well as the cultural and ethical implications of the convergence between journalism and documentary film. In that it is centered on contemporary documentary film culture, the course also takes advantage of the True/False Film Festival, and will be host to a conference during Week 6, featuring a number of major visiting filmmakers and film critics. Attendance at some sessions is required. Graded on A-F basis only.
Credit Hours: 3

FILM_S 4540: Cinematography II
This workshop explores advanced cinema camera systems, lighting techniques, cine lenses and rigging equipment. We will view examples of camera and lighting work, both historical and contemporary, and develop scenes with complex blocking and camera movement. Expect to spend time outside of class working to ensure a successful semester. Graded A-F basis only.
Credit Hours: 4
Prerequisites: FILM_S 1800 or ENGLISH 1800; FILM_S 3540; sophomore standing or higher

FILM_S 4560: Field Production II
This workshop is a senior level course that serves as the capstone of our production emphasis curriculum. Students entering the class must be prepared to submit a short script (no longer than 15 minutes) at the first class of the term, and complete the entire filmmaking process by close of the semester. Participants are required to assist fellow students in the production of their films. Expect to spend a significant amount of time outside of class to ensure a successful semester. Works will be screened in our senior showcase. Graded A-F basis only.
Credit Hours: 3
Prerequisites: FILM_S 1800, FILM_S 1880, FILM_S 3540, and FILM_S 3550

FILM_S 4580: Production Practicum
Provides an intensive, comprehensive experience in film production. Students will receiver hands-on experience in lightning and set design, camera operation, grip/electrical and sound capture. The course pits students against a rigorous industry standard shooting schedule - long hours are to be expected each day. Graded A-F basis only.
Credit Hours: 3
Prerequisites: FILM_S 3540

FILM_S 4810: Film Theory
(same as ENGLISH 4810, DST 4810). This course explores contemporary trends in film theory. Topics may include: psychoanalysis, feminism, Marxism, cultural studies, queer theory, audience and star studies, postcolonialism, among others.
**FILM_S 4840: Culture and Media**  
(Same as ENGLSH 4840, DST 4840). Topics (e.g. Cinema and Imperialism, Indigenous Media, Ethnographic Documentary) announced at time of registration. No more than six hours may be taken for credit toward the major.

Credit Hours: 3  
Prerequisites: ENGLSH 1000 and ENGLSH or FILM_S 1800. Junior standing or above required.

**FILM_S 4860: Film Themes and Genres**  
Topics (e.g. Film noir, African-American filmmakers, Food and Film, The Western) announced at time of registration. No more than six hours may be taken in Film Themes and Genres 4860.

Credit Hours: 3  
Prerequisites: ENGLSH 1000 and ENGLSH 1800 or FILM_S 1800. Junior standing or instructor's consent required.

**FILM_S 4880: Capstone Experience**  
This course is for Film Studies students who have completed their concentration requirements. The main objective is to help students independently create and complete a capstone project. The project should allow you to conceptualize and enter professional life after commencement.

Credit Hours: 3  
Prerequisites: Film Studies majors only. Consent of instructor required.

**FILM_S 4935: Adaptation of Literature for Film**  
(same as ENGLSH 4935 and THEATR 4935; cross-leveled with FILM_S 7935, ENGLSH 7580 and THEATR 7935). This upper-division course will explore adaptation principles and practices with a variety of forms of literature that were not originally written for film.

Credit Hours: 3

**FILM_S 4940: Internship**  
This course is for Film Studies students who have the opportunity to work in an internship position in a related industry or at a government agency where they can gain valuable on the job experience and knowledge. The student must register for the Internship course in the semester in which the work takes place. Graded S/U basis only.

Credit Hour: 1-3  
Prerequisites: ENGLSH 1000 and ENGLSH 1800 or FILM_S 1800. Must have at least 15 hours of Films Studies credit. Online courses do not count for the 15 hours of Film Credit.

**FILM_S 4960: Special Readings in Film Studies**  
Arranged. Individual work with conferences adjusted to needs of student.

Credit Hour: 1-3  
Prerequisites: ENGLSH 1000 and ENGLSH 1800 or FILM_S 1800. Consent of instructor required. Restricted to Film Studies majors in their final year.

**FILM_S 4963: Latin American Cinema (in Spanish)**  
(same as SPAN 4960). Subject varies according to instructor.

Credit Hour: 2-3  
Prerequisites: SPAN 3420 and SPAN 3430.

**FILM_S 4995: Senior Honors Thesis**  
Independent honors research under direction of faculty. Graded on S/U basis only.

Credit Hour: 1-3  
Prerequisites: Senior standing required, consent of instructor required. Honors eligibility required.

**FILM_S 7001: Topics in Film Studies-General**  
Topics in Film Studies-General

Credit Hour: 1-3

**FILM_S 7370: The Intersections of Documentary Film and Journalism**  
(same as JOURN 7370). (cross-leveled with JOURN 4370 and FILM_S 4370). The popularity of documentary film in the past ten years has skyrocketed, and recent award-winning documentaries such as Inside Job (2010), Blackfish (2013), and The Invisible War (2012) are simultaneously entertaining audiences and investigating serious issues like the financial collapse, killer whale captivity, and sex crimes in the military—issues that in the past might have been covered exclusively by investigative journalism. What explains the public's growing fascination with documentary? How is documentary film reacting to recent transformations in the media landscape? Is it filling a critical need that journalism is no longer willing or able to meet? This course will explore the intersection of these two nonfiction storytelling forms—documentary film and journalism—and examine the role played by advocacy in both modes, as well as the cultural and ethical implications of the convergence between journalism and documentary film. In that it is centered on contemporary documentary film culture, the course also takes advantage of the True/False Film Festival, and will be host to a conference during Week 6, featuring a number of major visiting filmmakers and film critics. Attendance at some sessions is required. Graded on A-F basis only.

Credit Hours: 3

**Finance (FINANC)**

**FINANC 1000: Principles of Finance**  
Financing business, consumer, and government activity; stocks, bonds, real estate, and financial markets; risk; insurance; inflation; cash and income management; capital accumulation and appreciation.

Credit Hours: 3  
Prerequisites: Students admitted to COB upper level degree program cannot enroll.

**FINANC 2000: Survey of Business Finance**  
An overview of the global financial system, financial markets, financial institutions, and principles of financial management.

Credit Hours: 3
Prerequisites: Students admitted to COB upper level degree program cannot enroll

FINANC 3000: Corporate Finance
Financial decision-making in a corporate environment. Time value of money, capital budgeting, cost of capital, working capital management and financial instruments issued by the firm.
Credit Hours: 3
Prerequisites: Completed 45 semester hours; Stat 2500 (or Stat 2200 and Stat 1200 or Stat 1300 or Stat 1400); Acctcy 2027 or Acctcy 2037 or Acctcy 2137H; Econom 1014 or Econom 1024; Econom 1015 or Econom 1051 or 1051H

FINANC 3300: Personal Risk Management and Insurance
Teaches the importance of risk in personal endeavors and the intelligent handling of such risk. Life, health, auto, homeowner and liability risks are treated.
Credit Hours: 3
Prerequisites: sophomore standing

FINANC 4010: Financial Management
Theory and techniques of financial management, study of firm valuation, dividend policy, capital budgeting and capital asset pricing.
Credit Hours: 3
Prerequisites: FINANC 3000

FINANC 4020: Investments
Security valuation and analysis, formulation of personal and professional investment programs.
Credit Hours: 3
Prerequisites: FINANC 3000

FINANC 4030: Financial Intermediaries and Markets
Functions of intermediaries in the aggregation and allocation of funds, creation and transfer of assets, and distribution of risks. Regulation of financial institutions; financial institutions as instruments of public policy.
Credit Hours: 3
Prerequisites: FINANC 3000 and ECONOM 3229

FINANC 4130: Management of Financial Institutions
Operating principles of major financial intermediaries, including commercial banking, savings, insuring, lending and investing institutions. Analysis of cases; study of current problems. Some sections of the course may be graded on A-F or S/U graded basis only.
Credit Hours: 3
Prerequisites: FINANC 4030

FINANC 4185: Problems in Finance
Independent study, reports on selected topics. Some sections of this course may be offered A-F only or S/U only.
Credit Hour: 1-99

FINANC 4201: Topics in Finance
Selected topics in finance, insurance or real estate. Offered on an experimental basis. Some sections of this course may be offered A-F only or S/U only.
Credit Hours: 3

FINANC 4220: Portfolio Management
Development and application of the principles of modern portfolio theory to financial assets. Analysis of the concepts of diversification, portfolio construction, portfolio revision, and use of types of financial assets in effective portfolio management.
Credit Hours: 3
Prerequisites: FINANC 4020

FINANC 4310: Financial Modeling and Databases
Financial modeling and using online databases to retrieve data, data analysis, spreadsheet design, excel VBA programming, interpreting results. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: FINANC 3000

FINANC 4320: Financial Futures and Options
A basic overview of financial futures and options markets. Topics include: theoretical pricing of financial futures contracts and stock options, institutional aspects of these markets, hedging, and speculative strategies.
Credit Hours: 3
Prerequisites: FINANC 4020

FINANC 4450: Financial Ethics and Professional Standards
The course comprises an intensive study of the CFA Institute Code of Ethics and Standards of Professional Conduct and Global Investment Performance Standards. It also includes a review of corporate governance issues.
Credit Hours: 3
Recommended: FINANC 4010 or departmental consent

FINANC 4500: Principles of Real Estate
Principle factors influencing land use, practices in real estate business.
Credit Hours: 3
Recommended: FINANC 3000
FINANC 4510: Real Estate Appraisal
Procedures for valuing industrial, commercial, residential realty by market, income, replacement cost approaches. Case method, field investigations.

Credit Hours: 3  
Prerequisites: FINANC 4500

FINANC 4520: Real Estate Finance and Investment
Financing of residential, commercial, and industrial real estate and real estate development. Instruments, institutions, and markets; role of government agencies; investment qualities of real estate.

Credit Hours: 3  
Prerequisites: FINANC 4500

FINANC 4530: Real Estate Portfolio Analysis and REITs
Management of real estate portfolios and analysis of real estate investment trusts including financial statement analysis, cash flows, and valuation techniques.

Credit Hours: 3  
Prerequisites: FINANC 3000

FINANC 4620: Investment Strategy of Warren Buffett
Survey and application of the investment philosophy and valuation methods of Warren Buffett. Prerequisites: FINANC 3000;

Credit Hours: 3  
Prerequisites: FINANC 4020

FINANC 4630: Introduction to Risk Management and Insurance
Basic principles of risk management and insurance focusing on operational risks faced by organizations. Covers terminology, sources, dimensions, characteristics, measurement, and assessment of risk along with design and implementation of techniques to mitigate and control risk.

Credit Hours: 3  
Prerequisites or Corequisites: FINANC 2000 or FINANC 3000

FINANC 4632: Principles of Commercial Property and Liability Insurance
The objective of this course is to examine the principles and key elements of commercial property and liability insurance. The primary emphasis will be on the property and liability loss exposures faced by organizations and the corresponding types of insurance for covering those loss exposures. This course qualifies students who make a "B" or better to receive credit for CPCU 552 Commercial Liability Risk Management and Insurance.

Credit Hours: 3  
Prerequisites: FINANC 2000 or FINANC 3000 or FINANC 4630, or permission of the instructor

FINANC 4640: Enterprise Risk Management
This course addresses the principles, concepts, key elements and applications of Enterprise Risk Management (ERM) to businesses and other organizations. The principal objective of this course is to prepare students to understand the principles of ERM and to be able to integrate sound risk management principles into their work.

Credit Hours: 3  
Prerequisites: FINANC 4630, or permission of instructor

FINANC 4710: Topics in International Finance
Available during study abroad session. Emphasis is on international corporate governance, foreign exchange risk management, international capital markets, balance of payments, international monetary system, and exchange rate determination. Graded on A-F basis only.

Credit Hours: 3

FINANC 4720: International Finance
Application of domestic corporate finance to the international arena. Emphasis on international capital budgeting, working capital management, foreign exchange risk management, international capital markets, balance of payments, international monetary system, and exchange rate determination. Some sections maybe graded on A-F or S/U basis only.

Credit Hours: 3

FINANC 4820: Investment Fund Management
Analysis and management of securities and markets by participation in the management of a student-run portfolio of publicly traded stocks and bonds. May be repeated once for credit for a total of six credits.

Credit Hours: 3  
Prerequisites: FINANC 3000, FINANC 4120 or FINANC 4620, instructor's consent required each enrollment

FINANC 4830: Chartered Financial Analyst Exam Review Course
(cross-leveled with FINANC 7830). A review of the content and format of the chartered financial analyst (CFA) examination. Students need to be registered for the CFA exam to enroll in the class.

Credit Hours: 3  
Prerequisites: Instructor's consent

FINANC 4840: Angel Capital Education Program
(cross-leveled with FINANC 7840). In depth understanding of investing in start up enterprises, including structuring investment deals, doing due diligence, and monitoring of prior investments. Graded on A-F basis only.

Credit Hours: 1-3  
Prerequisites: Instructor's consent

FINANC 7010: Financial Management
Theory and techniques of financial management, study of firm valuation, dividend policy, capital budgeting and capital asset pricing.

Credit Hours: 3  
Prerequisites: FINANC 3000

FINANC 7020: Investments
Security valuation and analysis, formulation of personal and professional investment programs.

Credit Hours: 3  
Prerequisites: FINANC 3000

FINANC 7201: Special Topics in Finance
Selected topics in Finance, insurance, or real estate. Offered on an experimental basis.
FINANC 7210: Microeconomics for Business
Examination of how the behavior or consumers and the business decisions of firms affect supply, demand, and the resulting prices of goods and services in the market.

Credit Hour: 1-3
Prerequisites: instructor's consent

FINANC 7220: Economics for Managers
Applies the concepts and tools of economics to management issues and problems.

Credit Hour: 1.5-3
Prerequisites: FINANC 7210 or equivalent

FINANC 7410: Managerial Finance I
Introduction to financial management including the time value of money capital budgeting techniques, risk measurement, and the valuation of financial securities.

Credit Hour: 1-3
Prerequisites: ACCTCY 7310

FINANC 7420: Managerial Finance II
Continuation of the study of financial management with focus on the risk-return tradeoff, capital structure, corporate layout polices, long-term financing, elementary options pricing, and mergers and acquisitions.

Credit Hour: 1-3
Prerequisites: FINANC 7410

FINANC 7440: Managerial Finance
Analyzes financial information relative to acquisition, management of assets; costs of alternative financial contracts; effect of mix of outstanding securities on entity's cost of capital; interaction between funding/investment decisions.

Credit Hours: 3
Prerequisites: ACCTCY 7310 or departmental consent

FINANC 7620: Investment Strategy of Warren Buffett
Survey and application of the investment philosophy and valuation methods of Warren Buffett.

Credit Hour: 1-3
Prerequisites: FINANC 3000 or FINANC 7440

FINANC 7820: Investment Fund Management
(cross-leveled with FINANC 4820). Analysis and management of securities and markets by participation in the management of a student-run portfolio of publicly traded stocks and bonds. May be repeated 1 time for credit.

Credit Hour: 1-3
Prerequisites: FINANC 3000 or FINANC 7440; instructor's consent

FINANC 7830: Chartered Financial Analyst Exam Review Course
(cross-leveled with FINANC 4830). A review of the content and format of the chartered financial analyst (CFA) examination. Students need to be registered for the CFA exam to enroll in the class.

Credit Hour: 1-3
Prerequisites: Instructor's consent

FINANC 7840: Angel Capital Education Program
(cross-leveled with FINANC 4840). In depth understanding of investing in start up enterprises, including structuring investment deals, doing due diligence, and monitoring of prior investments. Graded on A-F basis only.

Credit Hour: 1-3
Prerequisites: Instructor's consent

FINANC 8001: Topics in Finance
Selected topics in finance, insurance or real estate. Offered on experimental basis.

Credit Hour: 1-3
Prerequisites: instructor's consent

FINANC 8010: Multicultural and Global Finance Study Abroad
International topical issues in finance including cultural difference, corporate governance, differential approaches to regulation across countries, and cross-risk. Includes a study abroad component with on-site visits to businesses and other organizations. May be repeated as venues change.

Credit Hour: 1-3
Prerequisites: Consent required

FINANC 8012: International Financial Markets
International capital, foreign exchange, money markets, and financial institutions including exchange rates, instruments and securities, and multinational risk exposure. May include a study-abroad component with on-site visits to businesses and other organizations. May be repeated as venues change. Graded on A-F basis only.

Credit Hour: 1-3
Prerequisites: Consent required

FINANC 8085: Problems in Finance
For independent investigation and analysis, graduate students select topics suggested by the foregoing undergraduate courses.

Credit Hour: 1-3
Prerequisites: Consent required

FINANC 8090: Master's Thesis Research
Advanced research leading to thesis. Graded on S/U basis only.

Credit Hour: 1-6
Prerequisites: Consent required

FINANC 8310: Financial Databases and Analysis
Financial modeling and using online databases to retrieve data, data analysis, spreadsheet design, excel VBA programming, interpreting results. Graded on A-F basis only.

Credit Hour: 1-3
<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Name</th>
<th>Description</th>
<th>Prerequisites</th>
<th>Credit Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>FINANC 8312</td>
<td>Financial Modeling</td>
<td>Financial modeling using Excel spreadsheet design and VBA programming. Includes alternative computational methods, simulation and the use of information retrieved from financial databases. Graded on A-F basis only.</td>
<td></td>
<td>1-3</td>
</tr>
<tr>
<td>FINANC 8320</td>
<td>Financial Markets</td>
<td>Operation and structure of money markets and capital markets, including markets for stocks, bonds and derivatives securities. Study of the securities that trade in those markets including characteristics, valuation and diversification.</td>
<td>FINANC 8310</td>
<td>1-3</td>
</tr>
<tr>
<td>FINANC 8330</td>
<td>Investment Policy and Portfolio Management</td>
<td>Study of investment policies and the effects of risk and diversification on investment management including measurement of risk, identification of investment policy, and construction and maintenance of investment portfolios. Prerequisites: FINANC 8320</td>
<td></td>
<td>1-3</td>
</tr>
<tr>
<td>FINANC 8340</td>
<td>Derivative Financial Securities</td>
<td>Comprehensive overview of derivative securities including financial futures and options, swaps, and financial engineering. Major topics: institutional aspects of these markets, advanced pricing models, pricing relationships among derivative securities, and risk shifting.</td>
<td>FINANC 8070</td>
<td>1-3</td>
</tr>
<tr>
<td>FINANC 8350</td>
<td>Financial Statement Analysis I</td>
<td>An introduction to financial statement analysis with emphasis on interpretation and understanding of the balance sheet income statement, and statement of cash flows.</td>
<td>ACCTCY 7310</td>
<td>1-3</td>
</tr>
<tr>
<td>FINANC 8352</td>
<td>Financial Statement Analysis II</td>
<td>Analysis of company financial statements and related accounting information with emphasis on investors' decisions to invest in the company.</td>
<td>FINANC 8350</td>
<td>1.5-3</td>
</tr>
<tr>
<td>FINANC 8360</td>
<td>Equity Securities Analysis</td>
<td>Theory and application of models and methods for valuing common stocks.</td>
<td>FINANC 7420</td>
<td>1-3</td>
</tr>
<tr>
<td>FINANC 8370</td>
<td>Fixed-Income Securities Analysis</td>
<td>Markets for fixed-income securities and theory and application of models for valuing bonds and other fixed-income securities. Prerequisites: FINANC 7420</td>
<td></td>
<td>1-3</td>
</tr>
<tr>
<td>FINANC 8380</td>
<td>Investment Banking</td>
<td>Topics in investment banking including types of offerings and securities, analysis of comparable companies and transactions, valuation methods, and hedge funds and private equity. Graded on A-F basis only.</td>
<td>FINANCE 7420 or equivalent</td>
<td>1-3</td>
</tr>
<tr>
<td>FINANC 8410</td>
<td>Advanced Financial Management</td>
<td>Examination of the modern theory of finance. Capital budgeting capital structure, dividend theory and valuation.</td>
<td>FINANC 8320</td>
<td>1-3</td>
</tr>
<tr>
<td>FINANC 8440</td>
<td>Financing Multinational Business</td>
<td>Study of foreign exchange markets, currency derivatives, global capital budgeting, and international financial decision strategy. Some sections of this course may be offered on an A-F or S/U basis only.</td>
<td>FINANC 7420</td>
<td>1-3</td>
</tr>
<tr>
<td>FINANC 8450</td>
<td>Ethics and Standards of Financial Practice</td>
<td>Study of financial ethics with particular focus on standards of practice for investment performance standards. Recommended for students planning to take the CFA exam. Prerequisites: FINANC 7420</td>
<td></td>
<td>1-3</td>
</tr>
<tr>
<td>FINANC 8460</td>
<td>Mergers and Acquisitions</td>
<td>Analysis of merger and acquisition transactions. Includes methods of financing, valuation and deal structure, hostile takeovers and restructuring.</td>
<td>FINANC 7420 or equivalent</td>
<td>1-3</td>
</tr>
<tr>
<td>FINANC 8510</td>
<td>Management of Financial Institutions</td>
<td>Study and analysis of policies, goals, practices and organizational changes in the management of financial institutions and intermediaries.</td>
<td>FINANC 7440</td>
<td>1-3</td>
</tr>
<tr>
<td>FINANC 8522</td>
<td>Real Estate Investment II</td>
<td>A continuation of FINANC 8520. Advanced risk analysis, syndication, and renovation and disposition of investment property including case analyses. Graded on A-F basis only.</td>
<td>FINANC 8520</td>
<td>1-3</td>
</tr>
<tr>
<td>FINANC 8520</td>
<td>Real Estate Investment I</td>
<td></td>
<td></td>
<td>1-3</td>
</tr>
</tbody>
</table>
FINANC 8530: Real Estate Portfolio Analysis
Portfolio analysis applied to real estate investment including diversification, portfolio theory, and management of real estate portfolios including real estate investment trusts (REITs).
Credit Hour: 1.5-3
Prerequisites: FINANC 7420

FINANC 8540: Real Estate Finance
Instruments and methods of financing real estate including fixed and variable rate mortgages, the mortgage loan underwriting process, financing investment property, and alternative financing methods. Graded on A-F basis only.
Credit Hour: 1-3
Prerequisites: FINANC 7420 or equivalent

FINANC 8550: Real Estate Valuation I
Valuation and appraisal methods for real estate. Includes cost, comparable sales, and income capitalization approaches. Credit may not be earned for both FINANC 7510 and FINANC 8550. Graded on A-F basis only.
Credit Hour: 1-3
Prerequisites: FINANC 7420 or equivalent

FINANC 8552: Real Estate Valuation II
A continuation of FINANC 8550. Focus is on advanced methods and the use of case analyses. Credit may not be earned for both FINANC 7510 and FINANC 8552. Graded on A-F basis only.
Credit Hour: 1-3
Prerequisites: FINANC 8550

FINANC 8560: Real Estate Securities Analysis
Analysis of real estate securities including in-depth financial statement analysis and valuation of real estate investment trusts (REITs) and real estate operating companies (REOCs).
Credit Hour: 1.5-3
Prerequisites: FINANC 8530 or instructor's consent

FINANC 8570: Real Estate Development
Developing real estate properties. Topics include organizational forms, land development, construction, and environmental issues. Includes issues specific to residential, office, industrial, and retail properties. Graded on A-F basis only.
Credit Hour: 1-3
Prerequisites: FINANC 7420 or equivalent

FINANC 8620: Investment Strategy of Warren Buffett
This course is designed to familiarize students with the investment philosophy of Warren Buffett. Buffett's criteria for evaluating potential acquisitions and investments will be analyzed in detail.
Credit Hour: 1-3
Prerequisites: FINANC 7420

FINANC 8630: Corporate Risk Management
Principles of identifying, analyzing, assessing, and managing operational risks faced by large organizations. Sources, dimensions, and qualities of risk as well as development and implementation of methods to avoid, control, or transfer risk.
Credit Hour: 1-3
Prerequisites or Corequisites: FINANC 7420
Recommended: Undergraduate Business degree with major/emphasis/minor in Finance, Accounting or Economics

FINANC 8632: Corporate Insurance and Alternative Financing Mechanisms
Basis and techniques for insuring hazard and operational risks encountered by large organizations. Analysis of insurance policies, determination of optimal limits and retentions, and assessment of alternative risk financing methods.
Credit Hour: 1-3
Prerequisites: FINANC 8630

FINANC 9001: Advanced Topics in Finance
Selected topics in finance.
Credit Hours: 3
Prerequisites: instructor's consent

FINANC 9090: Research in Finance
Thesis research for Ph.D. degree. Graded on a S/U basis only.
Credit Hour: 1-99

FINANC 9100: Seminar in Corporate Finance
Advanced theory, investigation of current research in financial management.
Credit Hours: 3

FINANC 9101: Topics Seminar in Finance
Reading and critical evaluation of selected current finance literature and research. Departmental consent. May be repeated. Graded on S/U basis only. students only
Credit Hour: 1-3
Prerequisites: Ph.D

FINANC 9200: Research in Corporate Finance
Advanced topics in corporate finance.
Credit Hours: 3
Prerequisites: Finance [FINANC] 9100

FINANC 9300: Financial Economics
Utility analysis, efficient frontier mathematics, asset pricing and related topics.
Credit Hours: 3
Prerequisites: instructor's consent
FINANC 9400: Seminar in Investment Analysis
Develops integrated theory and analytic techniques for evaluating investment potential of financial instruments. Emphasizes corporate securities. Selected cases and readings.

Credit Hours: 3

Fisheries And Wildlife (F_W)

F_W 1012: Introduction to Captive Wild Animal Management
(same as AN_SCI 1012). General introduction to housing, husbandry, behavior, genetics, nutrition, reproduction, animal health, and disease control of native and exotic species in zoological parks and other animal conservation facilities; emphasizes the role of captive animals in wildlife conservation. Graded on A-F basis only.

Credit Hours: 3

F_W 1100: Introductory Zoology with Laboratory
(same as BIO_SC 1100). Introduces important principles and concepts of zoology. Emphasizes cell biology; evolution; genetics; ecology; structure, function, development of the organism.

Credit Hours: 5

F_W 2500: Introduction to Genetics and Evolution for Conservation
Basic principles and processes of genetics and evolution and their importance for management and conservation. Graded on A-F basis only.

Credit Hours: 3
Recommended: NAT_R 1070, BIO_SC 1500, CHEM 1310, and MATH 1100

F_W 2600: Ornithology
(same as BIO_SC 2600). Structure, identification, habits, importance of regional birds. Field work, lectures, lab.

Credit Hours: 5
Recommended: 5 hours Biological Sciences

F_W 2700: Ichthyology
(same as BIO_SC 2700). A broad introduction to the biology and ecology of fishes. Emphasis will be placed on understanding the adaptations fishes exhibit to aspects of their environment.

Credit Hours: 4
Recommended: 8 hours Biological Sciences

F_W 2900: Principles of Wildlife Management
Expose students to the principles of wildlife management with emphasis on current issues faced by wildlife researchers and managers in the field. Graded on A-F basis only.

Credit Hours: 4
Recommended: NAT_R 1070 and one other course in biological or environmental science; sophomore standing or higher

F_W 3085: Problems in Fisheries and Wildlife
Individual problems studies to supplement regularly organized undergraduate courses in Fisheries and Wildlife. Proposal for problems study must be arranged by student and supervising faculty member prior to registration.

Credit Hour: 1-99
Prerequisites: consent of supervising faculty member

F_W 3400: Water Quality and Natural Resource Management
Introduction to broad aspects of water quality science, management and policy. Topics include aquatic ecology, eutrophication, lake and coastal management, water supply and treatment, watershed management with respect to agriculture and urban development, and toxicology.

Credit Hours: 3
Recommended: CHEM 1000 or CHEM 1320 and ENV SC 1100 or NAT_R 1070

F_W 3600: Introduction to Conservation Biology
Introduction to principles of conservation biology. Application of ecological concepts and conservation biology principles to management of endangered species, biodiversity and threatened ecosystems.

Credit Hours: 3
Prerequisites: BIO_SC 3650

F_W 3660: Mammalogy
(same as BIO_SC 3660). Taxonomy, distribution, structure, habits, importance of mammals; emphasizes those of central United States.

Credit Hours: 4
Recommended: junior standing

F_W 3700: Animal Behavior
Behavior allows animals to react promptly to environmental changes, and is how they interact with others and their surroundings. Because behaving is central to an animal's life, knowing about behavior is fundamental to understanding animal ecology and to conservation efforts. Graded on A-F basis only.

Credit Hours: 3
Recommended: F_W 1100

F_W 3900: Ecology of Fishes
This course considers fishes' interactions with their environments in relation to survival, growth and population processes. The course is for mid- to upper-level undergraduates interested in fisheries science, management and fish conservation. May be repeated once for credit. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: STAT 2530 or STAT 1400; BIO_SC 1500 or F_W 1100; sophomore standing

F_W 4002: Topics in Fisheries and Wildlife-Biological/Physical/Mathematics
Organized study of selected topics intended primarily for senior-level students in Fisheries and Wildlife Sciences.

Credit Hour: 1-99
F_W 4200: Urban Wildlife Conservation
(cross-leveled with F_W 7200). Reviewing the theory and practice of applying ecological concepts to the management of wildlife species in urban areas.

Credit Hours: 3
Prerequisites: BIO_SC 3650 or FOREST 4320

F_W 4200W: Urban Wildlife Conservation - Writing Intensive
Reviewing the theory and practice of applying ecological concepts to the management of wildlife species in urban areas.

Credit Hours: 3
Prerequisites: BIO_SC 3650

F_W 4220: Human Dimensions of Fish and Wildlife Conservation
Overview of human dimensions approaches and methods as they are applied to issues in fish and wildlife conservation.

Credit Hours: 3
Recommended: One 3000-level or above professional Fisheries and Wildlife management or techniques course

F_W 4300: Fisheries Management
Introduction to the scientific principles and techniques of fishery management. Integrates ecological principles with social, economic and legal considerations.

Credit Hours: 3
Recommended: BIO_SC 3650 and STAT 2530

F_W 4400: Techniques for Fisheries Management and Conservation
Introduction to techniques (field and analytical/quantitative) used by fisheries and conservation biologists. Fosters understanding of techniques uses, advantages, limitations biases, and data interpretation. Extended weekly field outings require chest waders and life jackets. Graded on A-F basis only.

Credit Hours: 4
Recommended: BIO_SC 3650 and STAT 2530 or NAT_R 3110 and F_W 2700 or F_W 4300

F_W 4400W: Techniques for Fisheries Management and Conservation - Writing Intensive
Introduction to techniques (field and analytical/quantitative) used by fisheries and conservation biologists. Fosters understanding of techniques uses, advantages, limitations biases, and data interpretation. Extended weekly field outings require chest waders and life jackets. Graded on A-F basis only.

Credit Hours: 4
Recommended: BIO_SC 3650 and STAT 2530 or NAT_R 3110 and F_W 2700 or F_W 4300

F_W 4500: Animal Population Dynamics and Management
Quantitative modeling approach to examining principles and analysis techniques of fish and wildlife population dynamics. Emphasis on approaches useful in the management of exploited species.

Credit Hours: 3
Prerequisites: MATH 1400, STAT and BIO_SC 3650

F_W 4600: Ecosystem Management
Explores the development and implementation of large-scale approaches to restoring and maintaining ecosystems for sustainability. Incorporates ecological, socio-economic, and institutional factors that influence natural management agencies. Graded on A-F basis only.

Credit Hours: 4
Prerequisites: BIO_SC 3650

F_W 4600W: Ecosystem Management - Writing Intensive
Explores the development and implementation of large-scale approaches to restoring and maintaining ecosystems for sustainability. Incorporates ecological, socio-economic, and institutional factors that influence natural management agencies. Graded on A-F basis only.

Credit Hours: 4
Prerequisites: BIO_SC 3650

F_W 4650: Natural Resource Planning and Management
Students will be exposed to various natural resource planning tools. Student teams will develop natural resource management plans with strategic and operational components for current conservation issues in Missouri. Plans will be critiqued by peers and outside professionals. Graded on A-F basis only.

Credit Hours: 4
Prerequisites: FOREST 4320 or BIO_SC 3650 and senior standing

F_W 4700: Wildlife Research and Management Evaluation Methods
Techniques for conducting wildlife research and evaluating wildlife management practices.

Credit Hours: 4
Recommended: BIO_SC 3650 or F_W 2900 or STAT

F_W 4700W: Wildlife Research and Management Evaluation Methods - Writing Intensive
Techniques for conducting wildlife research and evaluating wildlife management practices.

Credit Hours: 4
Recommended: BIO_SC 3650 or F_W 2900 or STAT

F_W 4800: Environmental Toxicology
Introduction to classes of chemicals, tools, methods, and approaches used in environmental toxicology. Emphasizes fundamentals of toxicology, dose-response relationships, evaluation of contaminant issues, strategies, and exposure analysis/toxicity assessment strategies in a risk assessment.

Credit Hours: 3
Prerequisites: CHEM 1320 and F_W 3400

F_W 4810: Wildlife Disease Ecology
An introduction to the ecology of wildlife diseases. Topics include the definition of a disease, how to measure diseases, impacts on individuals and populations, and the role of disease in wildlife management and conservation.

Credit Hours: 3
**Prerequisites:** BIO_SC 3650

**F_W 4880: Waterfowl Ecology and Management**  
Ecology and management of North American waterfowl and their habitats. Laboratory exercises focus on identification, life histories, sex and age determination, and survey methods. Lectures cover taxonomy, ecology, behavior, population dynamics, harvest management, and habitat management and conservation. Graded on A-F basis only.  
**Credit Hours:** 3  
**Prerequisites:** F_W 2600; BIO_SC 3650; instructor's consent

**F_W 4910: Senior Seminar in Captive Wild Animal Management**  
(same as AN_SCI 4910). Investigates key issues in captive wild animal management, focusing on the role of animal caretakers in addressing the issues. Students are required to formulate informed opinions regarding these topics and communicate effectively about the subject matter. Graded on A-F basis only.  
**Credit Hour:** 1  
**Prerequisites:** AN_SCI 1012 or F_W 1012; junior or senior standing

**F_W 4940: Fisheries and Wildlife Internship**  
Supervised professional experience with an approval public or private organization. May be repeated for credit. Graded on S/U basis only.  
**Credit Hour:** 1-12  
**Prerequisites:** Fisheries and Wildlife majors only

**F_W 4950: Undergraduate Research in Fisheries and Wildlife**  
Individually directed field or laboratory research for students under faculty supervision. Project must be arranged by student and faculty member prior to registration.  
**Credit Hour:** 1-99  
**Prerequisites:** consent of supervising faculty member

**F_W 7002: Graduate Topics in Fisheries and Wildlife**  
Organized study of selected topics intended primarily for graduate students in Fisheries and Wildlife Sciences. Graded on A-F basis only.  
**Credit Hour:** 1-99

**F_W 7200: Urban Wildlife Conservation**  
Reviewing the theory and practice of applying ecological concepts to the management of wildlife species in urban areas.  
**Credit Hours:** 3  
**Corequisites:** BIO SC 3650 or instructor's consent

**F_W 7220: Human Dimensions of Fish and Wildlife Conservation**  
Overview of human dimensions approaches and methods as they are applied to issues in fish and wildlife conservation.  
**Credit Hours:** 3  
**Prerequisites:** One 3000-level or above professional management or techniques course or instructor consent

**F_W 7300: Fisheries Management**  
Introduction to the scientific principles and techniques of fishery management. Integrates ecological principles with social, economic and legal considerations.  
**Credit Hours:** 3  
**Prerequisites:** BIO_SC 3650 and STAT 2530

**F_W 7500: Animal Population Dynamics and Management**  
Quantitative modeling approach to examining principles and analysis techniques of fish and wildlife population dynamics. Emphasis on approaches useful in the management of exploited species. Graded on A-F basis only.  
**Credit Hours:** 3  
**Prerequisites:** MATH 1400, BIO_SC 3650, Statistics

**F_W 7600: Ecosystem Management**  
Explores the development and implementation of large-scale approaches to restoring and maintaining ecosystems for sustainability. Incorporates ecological, social-economic, and institutional factors that influence natural resource management agencies. Graded on A-F basis only.  
**Credit Hours:** 4

**F_W 7800: Environmental Toxicology**  
Introduction to classes of chemicals, tools, methods, and approaches used in environmental toxicology. Emphasizes fundamentals of toxicology, dose-response relationships, evaluation of contaminant issues, strategies, and exposure analysis/toxicity assessment strategies in a risk assessment.  
**Credit Hours:** 3  
**Prerequisites:** CHEM 1320 and F_W 3400 or instructor's consent

**F_W 7810: Wildlife Disease Ecology**  
An introduction to the ecology of wildlife diseases. Topics include the definition of a disease, how to measure diseases, impacts on individuals and populations, and the role of disease in wildlife management and conservation.  
**Credit Hours:** 3  
**Prerequisites:** instructor's consent

**F_W 7880: Waterfowl Ecology and Management**  
**Credit Hours:** 3  
**Prerequisites:** F_W 2600; BIO_SC 3650; instructor's consent

**F_W 8001: Topics in Fisheries and Wildlife**  
Organized study of selected topics. Subjects and credit may vary from semester to semester.  
**Credit Hour:** 1-99  
**Prerequisites:** instructor's consent
F_W 8050: Non-Thesis Research in Fisheries and Wildlife
Independent research not leading to a thesis.
Credit Hour: 1-99

F_W 8085: Graduate Problems in Fisheries and Wildlife
Individualized problems studies to supplement regularly organized graduate courses in Fisheries and Wildlife.
Credit Hour: 1-5
Prerequisites: consent of supervising faculty member

F_W 8087: Masters Seminar in Fisheries and Wildlife
Discussions of current developments in forestry, fisheries and wildlife, and critical study of research programs.
Credit Hour: 1

F_W 8090: Masters Thesis Research in Fisheries and Wildlife
Research leading to a thesis or dissertation. Graded on a S/U basis only.
Credit Hour: 1-99

F_W 8300: Professional Development and Communications
Intended to foster professional growth and development of graduate students. The course will present a rigorous introduction to professionalism, ethics, career development, and professional communications skills and techniques. Graded on A-F basis only.
Credit Hour: 1-3

F_W 8450: Advanced Limnology
Physical, chemical and biological processes of lakes and streams emphasizing biological production, water quality and modern problems. Field, laboratory techniques in limnology research.
Credit Hours: 3
Prerequisites: F_W 4100, BIO_SC 3650, BIO_SC 3510 or equivalent

F_W 8460: Wetland Ecology
A survey of the wetlands of North America; emphasis on nutrient dynamics, habitat structure, management, legislation and regulations, and man's impacts.
Credit Hours: 3
Prerequisites: F_W 4100, BIO_SC 3650 and instructor's consent

F_W 8510: Ecology, Conservation, and Environmental Justice
The goal of this course is to introduce graduate students in natural resource management and conservation biology to the ecological and management concepts that underlie environmental justice issues, and to explain how broader environmental justice concepts are relevant to natural resource and conservation fields. Graded on A-F basis only.
Prerequisites: one undergraduate course from the following list of disciplines: ecology, natural resource management, conservation biology, sociology or equivalent.
Credit Hours: 2

F_W 8520: Stream Ecology
Ecological principles applied to flowing waters. Emphasis on ecological processes within algal, invertebrate and fish communities. The influence

Food Science (F_S)

F_S 1010: Introduction to Viticulture and Enology
This course will give a general overview of growing grapes (viticulture) and winemaking (enology) with an emphasis on Missouri wines and wineries. This course is the first course in a sequence of courses in the viticulture and enology track of the food science degree program.
Credit Hour: 1

F_S 1020: World Food and You
(same as PLNT_S 1020). Basic scientific principles involved in production agriculture, food processing, marketing and consumption. Evaluation and understanding or current agriculture issues that affect human foods and required nutrients.
Credit Hours: 3

F_S 1030: Food Science and Nutrition
Basic principles of science and technology as applied to the problem of providing safe, nutritious, and desirable food for man.
Credit Hours: 3

F_S 2131: Dairy Products Evaluation
(same as AN_SCI 2131). Sensory Evaluation and judging of dairy products.
Credit Hours: 2

F_S 2172: Elements of Food Microbiology
Introductory microbiology course stressing basic principles as related to foods.
Credit Hours: 3
Prerequisites: Sophomore standing. Restricted to Food Science Students during Early Registration

F_S 2195: Grapes and Wines of the World
(same as PLNT_S 2195). Explores the world of wine through study of viticultural principles and practices, wine styles, classifying wine, the winemaking process and New World and Old World wine regions. Learn wine tasting skills and experience wines from around the world. World wine consumption, social and physical health benefits of moderate wine consumption.
F_S 2199: Seminar in Professional Development
Readings and discussion related to professional development for the industry.
Credit Hour: 1

F_S 3190: Study Abroad: International Meat, Dairy and Enology
(same as AN_SCI 3190). This study abroad course introduces students to the meat, dairy and wine industries in Germany or in New Zealand (destinations are on a rotational basis). Students will visit small, medium and large-scale producers and learn about differences in comparison to the US industries. May be repeated once for credit. Prerequisites: instructor's consent
Credit Hours: 3

F_S 3190H: Study Abroad: International Meat, Dairy and Enology - Honors
(same as AN_SCI 3190). This study abroad course introduces students to the meat, dairy and wine industries in Germany or in New Zealand (destinations are on a rotational basis). Students will visit small, medium and large-scale producers and learn about differences in comparison to the US industries. May be repeated once for credit. Enrollment is limited to Honors eligible students.
Credit Hours: 3
Prerequisites: instructor's consent

F_S 3210: Kitchen Chemistry
This course is targeted at current Food Science, Hospitality Management, Nutrition or Biochemistry students who wish to study the application of scientific principles to the practice of cooking. This on-line summer class assumes students have access to a working kitchen. Video cooking projects are submitted weekly. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: CHEM 1100 or higher

F_S 3214: Principles of Meat Science
(same as AN_SCI 3214). Study of the principles involved in the conversion of living animals to meat and by-products; efficient utilization of meat as a food.
Credit Hours: 3
Recommended: one course in Biological Sciences

F_S 3231: Principles of Dairy Foods Science
(same as AN_SCI 3231). Technology, chemistry and microbiology related to milk and its transformation into fluid milk products, fermented dairy foods and spreads. (2 hours of lecture and two hours of laboratory per week.)
Credit Hours: 3
Recommended: One course in Chemistry or Biological Sciences

F_S 3240: Principles of Viticulture I
(same as PLNT_S 3240). Grapevine growth, development, selection, propagation, training systems, pruning, and harvesting; vineyard site selection, design, and development. Graded on A-F basis only. Prerequisites: F_S 1010 and one of the following: F_S 2195 or PLNT_S 2195 or PLNT_S 2100 or SOIL 2100 or PLNT_S 2110 or PLNT_S 2125.
Credit Hours: 4

F_S 3385: Problems in Food Science
Supervised study in a specialized phase of food science and nutrition.
Credit Hour: 1-99

F_S 4199: Food Industry Senior Seminar
The course explores the structure and the various branches of the food industry. Emphasis is placed on industry trends and the manufacture of specific selected food products and their ingredients. Graded on A-F basis only.
Credit Hour: 1
Prerequisites: F_S 1030 or equivalent, F_S 2199 or equivalent; junior or senior standing

F_S 4301: Topics in Food Science
Instruction in specific subject matter areas in the field of food science and nutrition.
Credit Hour: 1-99

F_S 4310: Food Chemistry and Analysis
(cross-leveled with F_S 7310). Structure, composition and chemical properties of food.
Credit Hours: 4
Recommended: 5 hours Chemistry or Biochemistry

F_S 4311: Investigation of Food Properties
(cross-leveled with F_S 7311). Study of the chemical and physical properties of foods and the interaction of food components.
Credit Hours: 3
Recommended: F_S 4310 or equivalent, or instructor's consent

F_S 4315: Food Chemistry and Analysis Laboratory
(cross-leveled with F_S 7315)The quantitative determination of the constituents of food.
Credit Hours: 3

F_S 4315W: Food Chemistry and Analysis Laboratory - Writing Intensive
(cross-leveled with F_S 7315). The quantitative determination of the constituents of food.
Credit Hours: 3

F_S 4330: Principles of Food Processing
(same as AG_S_M 4330; cross-leveled with F_S 7330, AG_S_M 7330). Introduction to basic engineering concepts used to process raw materials. Principle topics include energy, material balance, fluid flow, heat transfer, refrigeration and freezing, and preservation.
Credit Hours: 3
Prerequisites: MATH 1100 and AG_S_M 1040 or PHYSCS 1210
F_S 4331: Technology of Dairy Products and Ingredients
(cross-leveled with F_S 7331). Technology, chemistry, and nutrition of dairy foods as well as functional properties of dairy ingredients.
Credit Hours: 3
Prerequisites: F_S 3231 or equivalent
Recommended: one Chemistry course

F_S 4340: Principles of Viticulture II
(same as PLNT_S 4340). Environmental and biological factors influencing vine physiology and wine grape quality. Irrigation, canopy management, pest and disease control, budgets and current trends in viticulture. Graded on A-F basis only.
Credit Hours: 4
Prerequisites: F_S 3240 or PLNT_S 3240

F_S 4344: Processing Muscle Foods
(same as AN_SCI 4344; cross-leveled with F_S 7344, AN_SCI 7344). Materials and technologies for the manufacture of muscle food products from red meats, poultry and seafood. Experience problem-solving through further processing of complex ingredients and develop skills by practicing operations in a pilot plant facility.
Credit Hours: 3
Recommended: one Chemistry course

F_S 4345: Principles of Viticulture and Winemaking
(same as PLNT_S 4345; cross-leveled with PLNT_S 7345, F_S 7345). This course will cover the basics needed by viticulturists and winemakers to understand grape vine growth and vineyard considerations along with winemaking principles. Viticultural topics will include grapevine growth and development, vineyard design and development, cultivar selection, grapevine propagation, training systems, and harvest and pruning. Winemaking topics will include sensory analysis of grapes, chemical, microbiological and technological aspects of winemaking, and the analytical methods used for juice and wine analysis. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: BIO_SC 1010 or BIO_SC 1020 or BIO_SC 1030

F_S 4354: Physiology and Biochemistry of Muscle as Food
(same as AN_SCI 4354; F_S 7354, AN_SCI 7354). Basic concepts in muscle growth and development of livestock evaluating the effects of environment, welfare, nutrition and genetics regarding muscle metabolism, physiology, and the ultimate condition of muscle as food.
Credit Hours: 3
Prerequisites: AN_SCI 3254 or MPP 3202 or BIO_SC 3700; AN_SCI 2001 or AN_SCI 2214 or AN_SCI 2114 or AN_SCI 3214 or F_S 3214 or AN_SCI 3231 or F_S 3231
Recommended: Any Biochemistry or Organic Chemistry course

F_S 4370: Food Microbiology
(cross-leveled with F_S 7370). Study of bacteria, yeast and molds. Includes dominant flora, public health significance, characterization of organisms, examination of foods representative of major food groups, spoilage, preservation, food fermentations and physiological groups.
Credit Hours: 3
Prerequisites: F_S 2172
Recommended: one Biochemistry course

F_S 4375: Food Microbiology Laboratory
(cross-leveled with F_S 7375). Examination of foods for microorganisms and characterization of major species.
Credit Hours: 2
Prerequisites or Corequisites: F_S 4370

F_S 4380: Sensory Analysis of Food and Beverages
(cross-leveled with F_S 7380). Methodological principles of the sensory analysis of food and beverages.
Credit Hours: 3
Prerequisites: F_S 1030; junior or senior standing
Recommended: one statistics course

F_S 4385: Problems in Food Science
Advanced problems in a selected field of food science and nutrition.
Credit Hour: 1-99

F_S 4390: Optimization and Management of Food and Agricultural Systems
(same as AG_S_M 4390, HSP_MGMT 4390; cross-leveled with F_S 7390; AG_S_M 7390, HSP_MGMT 7390). This course is designed to introduce the student to the concept of layers and interacting systems within an operation and the analytical methods of modeling and simulation to make effective management decisions for optimal system design and function.
Credit Hours: 3
Prerequisites: MATH 1100

F_S 4440: Principles of Winemaking and Wine Chemical Analysis
(cross-leveled with F_S 7440). The theoretical and practical basics needed by enologists/winemakers including sensory analysis of grapes; chemical, microbiological and technological aspects of winemaking; and the analytical methods used for juice and wine analysis. Graded on A-F basis only.
Credit Hours: 4
Recommended: 5 credit hours inorganic chemistry and organic chemistry or concurrent, or instructors consent

F_S 4441: Cellar Operations and Special Vinifications
(cross-leveled with F_S 7441). The theoretical and practical basics needed by winemakers to supervise the operations of the winemaking, wine stabilization and packaging equipment. The theoretical and practical basics needed by winemakers to make special wines including rose, dessert, carbonic maceration, and sparkling wines. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: F_S 4440
Recommended: 5 credit hours inorganic chemistry and organic chemistry or instructor's consent
F_S 4941: Internship in Food Science
Combines study, observation and employment in an area of food science and nutrition. Written reports, faculty evaluation.
Credit Hour: 1-6
Prerequisites: instructor's consent
Recommended: one Food Science course

F_S 4970: Food Product Development
(cross-leveled with F_S 7970). Capstone course integrating the various disciplines of food science to create new food products.
Credit Hours: 3
Prerequisites: Junior or Senior standing, or instructor's consent. ENGLSH 1000 required if course is taught Writing Intensive
Recommended: 9 credit hours of Food Science

F_S 4970W: Food Product Development - Writing Intensive
Capstone course integrating the various disciplines of food science to create new food products.
Credit Hours: 3
Prerequisites: Junior or Senior standing, or instructor's consent. ENGLSH 1000 required if course is taught Writing Intensive
Recommended: 9 credit hours of Food Science

F_S 4980: Food Quality Assurance
(cross-leveled with F_S 7360). Capstone course integrating various food science disciplines to comply with regulations concerned with protection of the nation's food supply. Applies practices to insure consumers of healthful foods.
Credit Hours: 3
Prerequisites: Junior or Senior standing or instructor's consent
Recommended: 9 credit hours of food science

F_S 7310: Food Chemistry and Analysis
(cross-leveled with F_S 4310). Structure, composition and chemical properties of food.
Credit Hours: 4
Prerequisites: 5 hours Chemistry or Biochemistry

F_S 7311: Investigation of Food Properties
(cross-leveled with F_S 4311). Study of the chemical and physical properties of foods and the interaction of food components. Lecture.
Credit Hours: 3
Prerequisites: F_S 4310 or F_S 7310 or equivalent, or instructor's consent

F_S 7315: Food Chemistry and Analysis Laboratory
(cross-leveled with F_S 4315). The quantitative determination of the constituents of food.
Credit Hours: 3
Prerequisites: F_S 4310 or concurrent enrollment

F_S 7330: Principles of Food Processing
(same as AG_S_M 7330; cross-leveled with F_S 4330, AG_S_M 4330). Basic principles of food processing, with emphasis on blanching, pasteurization, commercial sterilization, refrigeration, freezing, concentration, dehydration and packing. Impacts of processing on product quality are evaluated.
Credit Hours: 4

F_S 7331: Technology of Dairy Products and Ingredients
(cross-leveled with F_S 4331). Technology, chemistry, and nutrition of dairy foods as well as functional properties of dairy ingredients.
Credit Hours: 3
Prerequisites: one Chemistry course and F_S 3231 or equivalent

F_S 7344: Processing Muscle Foods
(same as AN_SCI 7344; cross-leveled with F_S 4344, AN_SCI 4344). Materials and technologies for the manufacture of muscle food products from red meats, poultry and seafood. Experience problem-solving through further processing of complex ingredients and develop skills by practicing operations in a pilot plant facility.
Credit Hours: 3
Prerequisites: one Chemistry course

F_S 7354: Physiology and Biochemistry of Muscle as Food
(same as AN_SCI 7354; cross-leveled with F_S 4354, AN_SCI 4354). Basic concepts in muscle growth and development of livestock evaluating the effects of environment, welfare, nutrition and genetics regarding muscle metabolism, physiology, and the ultimate condition of muscle as food.
Credit Hours: 3
Prerequisites: AN_SCI 3254 or MPP 3202 or BIO_SC 3700; AN_SCI 2001 or AN_SCI 2214 or AN_SCI 2114 or AN_SCI 3214 or F_S 3214 or AN_SCI 3231 or F_S 3231
Recommended: Any Biochemistry or Organic Chemistry course

F_S 7360: Food Quality Assurance
(cross-leveled with F_S 4980). Capstone course integrating various food science disciplines to comply with regulations concerned with protection of the nation's food supply. Applies practices to insure consumers of healthful foods.
Credit Hours: 3

F_S 7370: Food Microbiology
(cross-leveled with F_S 4370). Study of bacteria, yeast and molds. Includes dominant flora, public health significance, characterization of organisms, examination of foods representative of major food groups, spoilage, preservation, food fermentations and physiological groups.
Credit Hours: 3
Prerequisites: F_S 2172 and one Biochemistry course or concurrent enrollment

F_S 7375: Food Microbiology Laboratory
(cross-leveled with F_S 4375). Examination of foods for microorganisms and characterization of major species.
Credit Hours: 2
Prerequisites: F_S 4370 or concurrent enrollment
F_S 7380: Sensory Analysis of Food and Beverages
(cross-leveled with F_S 4380). Methodological principles of the sensory analysis of food and beverages.

Credit Hours: 3
Prerequisites: F_S 1030; junior or senior standing
Recommended: one statistics course

F_S 7440: Principles of Winemaking and Wine Chemical Analysis
(cross-leveled with F_S 4440). The theoretical and practical basics needed by enologist/winemakers including sensory analysis of grapes; chemical, microbiological and technological aspects of winemaking; and the analytical methods used for juice and wine analysis. Graded on A-F basis only.

Credit Hours: 4
Prerequisites: 5 hours inorganic chemistry and organic chemistry or concurrent, or instructor's consent

F_S 7441: Cellar Operations and Special Vinifications
(cross-leveled with F_S 4441). The theoretical and practical basics needed by winemakers to supervise the operations of the winemaking, wine stabilization and packaging equipment. The theoretical and practical basics needed by winemakers to make special wines including rose, dessert, carbonic maceration, and sparkling wines. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: 5 credit hours inorganic chemistry and organic chemistry and F_S 4440 or instructor's consent

F_S 7941: Internship in Food Science
Combines study, observation and employment in an area of food science and nutrition. Written reports, faculty evaluation.

Credit Hour: 1-6
Prerequisites: One Food Science course and instructor's consent

F_S 7970: Food Product Development
Capstone course integrating the various disciplines of food science to create new food products.

Credit Hours: 3
Prerequisites: ENGLISH 1000, and instructor's consent

F_S 8085: Problems in Food Science
Individual studies include a minor research problems.

Credit Hour: 1-99
Prerequisites: Restricted to Food Science MS Students only

F_S 8087: Seminar in Food Science
Provides students with opportunities for development in depth of advanced aspects of food science through reviews of research in progress and of current scientific publications. Prerequisites: Masters standing

Credit Hour: 1

F_S 8090: Research in Food Science
Original investigations, usually in connection with one of the research projects of Agricultural Experiment Station. Written report required. Graded on S/U basis only.

Credit Hour: 1-99
Prerequisites: Restricted to Food Science MS Students Only

F_S 8100: Strategic Human Resource Management in Hospitality
This course is designed to familiarize students with a wide range of theories, concepts, business practices and applications associated with managing human resources in business. Topics include micro-human resource issues such as recruitment, hiring, performance measurements, employee relations, and retention, macro human resource topics such as organizational performance measurement, and interrelationship between micro and macro human resources such as individual differences and job performance and organizational performance. Students will learn the key theories and applications through reading, discussion, research, and writings. Graded on A-F only.

Credit Hours: 3
Prerequisites: HSP_MGMT 7100

F_S 8110: Advanced Hospitality Marketing
This course provides students with an advanced-level view of marketing strategies with the focus in hospitality and tourism. Students will be exposed to a general overview of theoretical frameworks and seminal work in this field. They will gain appreciation of the contemporary social-scientific research on marketing and persuasion. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: HSP_MGMT 7110 or instructor's consent

F_S 8180: Strategic Management and Competitive Strategy in the Hospitality Industries
This course introduces to students and enables them to develop a comprehensive understanding of the concepts and principles of strategic management and competitive strategy as applied to the hospitality industries. Students will be acquainted with the key concepts of strategic management through discussions, research, critiquing and writings. This course will cover a wide variety of topics related to environmental scanning, strategic direction, organizational structure and culture, administration and evaluation of existing and challenging business practices, concepts and theories in the management distinctive to that of hospitality, tourism and service. Emphasis will place on the identification of relevant interdisciplinary paradigms and theory and research techniques for analysis, using advanced concepts and quantitative methods in the scientific investigation problems related to hospitality. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: HSP_MGMT 7180 or instructor's consent

F_S 8263: Service Operations Management: Revenue Management
This course offers an opportunity for students to learn the theory, concepts, and knowledge applied in service operations management. Students will find them useful in trying to cope with the dilemmas faced by operating managers in the hospitality industry. Especially, the course focuses on revenue management.

<th>Description</th>
<th>Credit Hours</th>
<th>Prerequisites</th>
</tr>
</thead>
<tbody>
<tr>
<td>F_S 8273</td>
<td>Advanced Hospitality Marketing</td>
<td>This course provides students with an advanced-level view of marketing strategies in the hospitality. The course encompasses analytical readings on segmentation and positioning, relationship marketing, marketing-mix development, and other strategic approaches applicable to hospitality industries.</td>
<td>3</td>
<td>HSP_MGMT 3153 or instructor's consent</td>
</tr>
<tr>
<td>F_S 8301</td>
<td>Ethnic Foods: Food Safety, Food Protection and Defense Challenges</td>
<td>An overview of the safety concerns and risks associated with ethnic and imported ethnic foods. Graded on A-F basis only.</td>
<td>2</td>
<td>HSP_MGMT 4273 or equivalent and instructor's consent</td>
</tr>
<tr>
<td>F_S 8303</td>
<td>A Multidisciplinary Overview of Food Safety and Security</td>
<td>This course provides students with an understanding of a host of multidisciplinary aspects of food safety, particularly in the context of public health. Graded on A-F basis only.</td>
<td>2</td>
<td>F_S 4370 or equivalent</td>
</tr>
<tr>
<td>F_S 8401</td>
<td>Topics in Food Science</td>
<td>Specialized topics in the area of food science and nutrition.</td>
<td>2</td>
<td>F_S 4310 or equivalent</td>
</tr>
<tr>
<td>F_S 8402</td>
<td>Research Methods in Food Science</td>
<td>(same as BIOL_EN 8402). Introduction to research. Defining research problems, developing hypotheses, searching scientific literature, designing experiments, presenting data, writing scientific papers and theses, making oral presentations.</td>
<td>2</td>
<td>BIOCHM 3630 or equivalent and F_S 4310 or equivalent, or instructor's consent</td>
</tr>
<tr>
<td>F_S 8404</td>
<td>Advanced Food Microbiology and Biotechnology</td>
<td>Covers basic principles in biotechnology and applied food microbiology, including current topics of interest in food biotechnology. May be repeated for credit. Graded on A-F basis only.</td>
<td>3</td>
<td>F_S 4310, or equivalent or instructor's consent</td>
</tr>
<tr>
<td>F_S 8405</td>
<td>Advanced Microbiology of Foods</td>
<td>Principles of microbial physiology, taxonomy, analytical methods applied to study of microorganisms added to foods and those causing food spoilage or food-borne illness. Roles of microorganisms in manufacture/distribution of foods.</td>
<td>3</td>
<td>F_S 4370 or equivalent</td>
</tr>
<tr>
<td>F_S 8406</td>
<td>Foodborne Toxicants</td>
<td>This course covers human risks from foodborne toxicants, remediation and detoxification strategies for key foodborne toxicants and major modes of toxicity of key foodborne toxicants. Principles of food toxicology will be applied to optimize hazard analysis within HACCP for the prevention of foodborne toxicities. Graded on A-F basis only.</td>
<td>3</td>
<td>BIOCHM 3630 or equivalent and F_S 4310 or equivalent, or instructor's consent</td>
</tr>
<tr>
<td>F_S 8410</td>
<td>Food Chemistry II</td>
<td>Study of chemical content of food, emphasizing aspects that exist uniquely in food.</td>
<td>4</td>
<td>F_S 4310 or equivalent</td>
</tr>
<tr>
<td>F_S 8414</td>
<td>Meat Quality</td>
<td>(same as AN_SCI 8414). Discussion of factors affecting meat quality in beef, pork, lamb and poultry. Graded on A-F basis only.</td>
<td>3</td>
<td>F_S 3214 or equivalent</td>
</tr>
<tr>
<td>F_S 8424</td>
<td>Meat Investigations</td>
<td>(same as AN_SCI 8424). Discussion of literature, special reports, assigned readings, techniques, interpretation of results.</td>
<td>3</td>
<td>F_S 4344 and F_S 4310 or equivalent</td>
</tr>
<tr>
<td>F_S 8440</td>
<td>Functional Foods and Nutraceuticals</td>
<td>Principles and challenges involved in developing foods with health benefits beyond basic nutrition; efficacy, safety, regulatory and marketing aspects of functional foods and nutraceutical; current controversies and evidence of therapeutic properties of functional foods and Dietary supplements. Graded on A-F basis only.</td>
<td>3</td>
<td>BIOCHM 3630 or equivalent and F_S 4310 or equivalent, or instructor's consent</td>
</tr>
<tr>
<td>F_S 8460</td>
<td>Food Biopolymers</td>
<td>Study of physical, chemical, and functional properties of food biopolymers and their applications in food and other industries. Graded on A-F basis only.</td>
<td>3</td>
<td>F_S 4310, or equivalent or instructor's consent</td>
</tr>
<tr>
<td>F_S 8470</td>
<td>Advanced Food Technology</td>
<td>To understand the physical and chemical changes that occur during the processing and storage of food; study the quality and safety issues of foods and learn traditional and recent advances in food science and technology.</td>
<td>3</td>
<td>Organic chemistry and food chemistry</td>
</tr>
<tr>
<td>F_S 9085</td>
<td>Problems in Food Science</td>
<td>Individual studies includes minor research problems.</td>
<td>1-99</td>
<td>Food Science PhD students</td>
</tr>
</tbody>
</table>

Recommended: Organic chemistry and food chemistry
**F_S 9087: Seminar in Food Science**  
Provides students with opportunities for development in depth of advanced aspects of food science through reviews of research in progress and of current scientific publications. Prerequisites: PhD standing  
Credit Hour: 1

**F_S 9090: Research in Foods Science**  
Original investigation of advanced nature, leading to dissertation. Graded on a S/U basis only.  
Credit Hour: 1-99  
Prerequisites: Food Science PhD students

**F_S 9402: Advanced Research Methods in Food and Hospitality Systems**  
This course provides doctoral students with introduction and review of research methods available for use in the study of food science, hospitality management and agricultural system management. Hence, the emphasis of this course is on empirical studies in the field, and will examine research conducted by scholars in the academic area. This course assists as baseline preparation for graduate students’ continuing work in the graduate program. Specifically, the course provides students with knowledge and research experience in regard to 1) research fundamentals and backgrounds, 2) types of research, and 3) data analysis.  
Credit Hours: 3  
Prerequisites: Introductory research method course or statistics course; instructor's consent required

**Forestry (FOREST)**

**FOREST 2151: Dendrology**  
An introduction to the biology of trees, emphasizing identification in the field, taxonomy, ecology, geographic distribution and economic significance of forest species.  
Credit Hours: 4  
Prerequisites: BIO_SC 1200 or PLNT_S 2120 and PLNT_S 3130

**FOREST 2541: Forest Utilization**  
Field studies of logging and milling of timber.  
Credit Hour: 1  
Prerequisites: SOIL 2100, FOREST 2151  
Corequisites: FOREST 2540, FOREST 2542, FOREST 2543, FOREST 2544 and FOREST 2545

**FOREST 2542: Forest Measurement and Inventory**  
Field measurement of standing trees including diameter, height and age. Estimation of forest timber resources using a variety of sampling schemes and techniques. Introduction to Arcview and growth models.  
Credit Hour: 1  
Prerequisites: SOIL 2100, FOREST 2151  
Corequisites: FOREST 2540, FOREST 2541, FOREST 2543, FOREST 2544 and FOREST 2545

**FOREST 2543: Forest Ecology Field Studies**  
Field studies of vegetation, soils, habitats and ecological units. Application of ecological principles of natural resource management and understanding of natural and managed forested communities with an emphasis on southeastern Missouri.  
Credit Hour: 1  
Prerequisites: SOIL 2100, FOREST 2151  
Corequisites: FOREST 2540, FOREST 2541, FOREST 2542, FOREST 2544 and FOREST 2545

**FOREST 2544: Introduction to Silviculture and Management**  
Management objectives and stand prescriptions, regeneration and intermediate silvicultural treatments, management on private and federal forest lands, tree evaluation and timber marking.  
Credit Hour: 1  
Prerequisites: SOIL 2100, FOREST 2151  
Corequisites: FOREST 2540, FOREST 2541, FOREST 2542, FOREST 2543 and FOREST 2545

**FOREST 2545: Forest Management Planning**  
Preparation and presentation of a written forest management plan using material and data developed in prerequisite courses.  
Credit Hour: 1  
Prerequisites: SOIL 2100, FOREST 2151  
Corequisites: FOREST 2540, FOREST 2541, FOREST 2542, FOREST 2543 and FOREST 2544 concurrently

**FOREST 3207: Forest Fire Control and Use**  
Fundamentals of all phases of fire protection. Objectives and techniques in use of fire.  
Credit Hours: 2

**FOREST 3212: Forest Health and Protection**  
Fundamental concepts of forest pathology and forest entomology including emphasis on ecological principles and management strategies.  
Credit Hours: 4  
Recommended: FOREST 2151

**FOREST 3212W: Forest Health and Protection - Writing Intensive**  
Fundamental concepts of forest pathology and forest entomology including emphasis on ecological principles and management strategies.  
Credit Hours: 4  
Recommended: FOREST 2151

**FOREST 3240: Wood Technology**  
Structure and identification of commercial woods. Relation of growth to physical and chemical properties of wood.  
Credit Hours: 3

**FOREST 3290: Urban Forestry**  
The culture and management of trees in urban areas, including ownership patterns, species composition, growth environment, amenities provided and evaluation. One-day field trip required.  
Credit Hours: 2
**Prerequisites:** FOREST 2151 or PLNT_S 2210

**FOREST 3300: Problems in Forestry**  
Problems in Forestry  
*Credit Hours: 1-99*

**FOREST 3350: Special Readings in Forestry**  
Critical review of current literature and research in forestry, fisheries and wildlife, and methods of presenting research results.  
*Credit Hours: 1-99*

**FOREST 4320: Forest Ecology**  
Principles of community, ecosystem, and population ecology and examination of the influence of environmental factors and human activity on forest dynamics, composition, structure and function.  
*Credit Hours: 5*  
**Prerequisites:** Senior standing only. Recommended FOREST 2151

**FOREST 4320W: Forest Ecology - Writing Intensive**  
Principles of community, ecosystem, and population ecology and examination of the influence of environmental factors and human activity on forest dynamics, composition, structure and function.  
*Credit Hours: 5*  
**Prerequisites:** Senior standing only. Recommended FOREST 2151

**FOREST 4330: Practice of Silviculture**  
Applied ecological principles, cultural practices, tree improvement techniques and treatments to forest stands and other lands for systematic production of goods and services.  
*Credit Hours: 3*  
**Prerequisites:** FOREST 4320; Senior standing only

**FOREST 4350: Forest Economics**  
Economic principles applied to production/marketing of goods and services from forest land: emphasizes capital and land factors and investment alternatives related to time.  
*Credit Hours: 3*  
**Prerequisites:** AG_EC 1042 or AG_EC 2070

**FOREST 4360: Photogrammetry, Inventory and Models**  
Applied course in the area of aerial photogrammetry, forest inventory, and forest growth models for developing, maintaining, and utilizing these tools in a forest management.  
*Credit Hours: 3*

**FOREST 4375: Forest Stand Dynamics**  
Examines the development of forest structure, the role of disturbance on forest change and the use of this knowledge in applying silvicultural systems. Both forest stand dynamics theories, structure diagrams, forest growth models, and long term data sets are used to understand stand dynamics.  
*Credit Hours: 3*  
**Prerequisites:** FOREST 4330

**FOREST 4940: Forestry Internship**  
Supervised professional experience with an approved public or private organization. May be repeated for credit. Graded on S/U basis only.  
*Credit Hour: 1-12*  
**Prerequisites:** Instructor consent required

**FOREST 4950: Forestry Undergraduate Research**  
Research apprenticeship with a faculty mentor. Students are expected to develop initial concept for the research, design experiments, collect data, and analyze data with faculty input, oversight, and guidance. Graded on A-F basis only.  
*Credit Hour: 1-4*  
**Prerequisites:** Senior standing, STAT 2530

**FOREST 4994: Senior Honors Research in Forestry**  
*Credit Hour: 1-3*  
**Prerequisites:** Instructor Consent Required

**FOREST 4380: Forest Resource Management**  
Teaches resource managers how to develop a plan for the management of forest resources using managerial, economic, silvical and wildlife techniques for its enhancement and to meet the landowner's objectives.  
*Credit Hours: 3*  
**Prerequisites:** FOREST 4330 and FOREST 4350; Senior Standing only

**FOREST 4385: Agroforestry I: Theory, Practice and Adoption**  
Understand biophysical, ecological, social and economic features of temperate and tropical agroforestry. Covers the basics of design, planning and implementation of agroforestry practices.  
*Credit Hours: 3*  
**Prerequisites:** junior standing

**FOREST 4387: Agroforestry Economics and Policy**  
This course focuses on economic principles applied to the adoption and management of agroforestry practices at both the micro and macro scale. This includes cost and benefits analysis of ecosystem services and marketing of goods and services from agroforestry. More specifically, this course emphasizes both market and nonmarket valuation of managed tree and crop/ livestock interactions; investment alternatives related to economics and natural resources; and decision making with relation to financial principles, environmental principles, and social principles. Graded on A-F basis only.  
*Credit Hours: 3*  
**Prerequisites:** FOREST 4385 or FOREST 7385, AG_EC 1041 or permission of instructor

**FOREST 4390: Watershed Management and Water Quality**  
(cross-leveled with FOREST 7390). Hydrologic processes on wildland watersheds. Effects of forest land management on streamflow, erosion and water quality.  
*Credit Hours: 3*  
**Prerequisites:** MATH 1400; Senior standing only

**FOREST 4940: Forestry Internship**  
Supervised professional experience with an approved public or private organization. May be repeated for credit. Graded on S/U basis only.  
*Credit Hour: 1-12*  
**Prerequisites:** Instructor Consent Required

**FOREST 4950: Forestry Undergraduate Research**  
Research apprenticeship with a faculty mentor. Students are expected to develop initial concept for the research, design experiments, collect data, and analyze data with faculty input, oversight, and guidance. Graded on A-F basis only.  
*Credit Hour: 1-4*  
**Prerequisites:** Senior standing, STAT 2530

**FOREST 4994: Senior Honors Research in Forestry**  
*Credit Hour: 1-3*  
**Prerequisites:** Instructor Consent Required

<th>Course Title</th>
<th>Credit Hours</th>
<th>Prerequisites</th>
</tr>
</thead>
<tbody>
<tr>
<td>FOREST 7301: Topics in Forestry</td>
<td>Organized study of selected topics. Intended for upper-division and graduate students. Subjects and credit may vary from semester to semester.</td>
<td>1-99</td>
<td>instructor's consent</td>
</tr>
<tr>
<td>FOREST 7320: Forest Ecology</td>
<td>Principles of community, ecosystem, and population ecology and examination of the influence of environmental factors and human activity on forest dynamics, composition, structure and function.</td>
<td>5</td>
<td>FOREST 2151 or BIO_SC 3210 or instructor's consent</td>
</tr>
<tr>
<td>FOREST 7330: Practice of Silviculture</td>
<td>Applied ecological principles, cultural practices, tree improvement techniques and treatments to forest stands and other lands for systematic production of goods and services.</td>
<td>3</td>
<td>FOREST 4320</td>
</tr>
<tr>
<td>FOREST 7350: Forest Economics</td>
<td>Economic principles applied to production/marketing of goods and services from forest land: emphasizes capital and land factors and investment alternatives related to time.</td>
<td>3</td>
<td>Mathematics requirement completed; AG_EC 1041, or AG_EC 3080</td>
</tr>
<tr>
<td>FOREST 7360: Photogrammetry, Inventory and Models</td>
<td>Applied course in the area of aerial photogrammetry, forest inventory, and forest growth models for developing, maintaining, and utilizing these tools in a forest management.</td>
<td>3</td>
<td>FOREST 4300</td>
</tr>
<tr>
<td>FOREST 7375: Forest Stand Dynamics</td>
<td>Examines the development of forest structure, the role of disturbance on forest change and the use of this knowledge in applying silvicultural systems. Both forest stand dynamics theories, structure diagrams, forest growth models, and long term data sets are used to understand stand dynamics.</td>
<td>3</td>
<td>FOREST 4330 or instructor's consent</td>
</tr>
<tr>
<td>FOREST 7380: Forest Resource Management</td>
<td>Teaches resource managers how to develop a plan for the management of forest resources using managerial, economic, silvical and wildlife techniques for its enhancement and to meet the landowner's objectives.</td>
<td>3</td>
<td>FOREST 4330 and FOREST 4350</td>

### Prerequisites:
- FOREST 4330 or instructor's consent

**FOREST 8460: Advanced Forest Ecology**
Lecture/discussion based course emphasizing contemporary and classic ecological studies and concepts in the context of current forest ecology issues and research. Prerequisites: undergraduate ecology course

**Credit Hours:** 3

**FOREST 8490: Advanced Forest Management**
Modern quantitative methods to facilitate decision-making in harvest scheduling and regulation, land use allocation, and production planning in natural resource management.

**Credit Hours:** 3

Prerequisites: FOREST 4380

**FOREST 8515: Advanced Forest Biometrics**
An introduction to the topics and philosophy of ecological modeling. The course will guide students through the process of developing a conceptual model, formalizing the model, formulating, parameterizing, and running the model as well as analyzing the results.

**Credit Hours:** 3

Prerequisites: STAT 7070 or instructor's consent

**FOREST 8530: Ecosystem Management: The Human Dimension**
Overview of cultural, social, political and economic dimensions of natural resource problems and issues from an ecologically grounded management perspective.

**Credit Hours:** 3

Prerequisites: NAT_R 4353 or equivalent

**FOREST 8620: Plant-Water Relations**

**Credit Hours:** 3

**FOREST 9087: Seminar in Forestry**
Discussions of current developments in Forestry, and critical study of research programs. Graded on S/U basis only.

**Credit Hour:** 1

**FOREST 9090: Dissertation Research in Forestry**
Original investigation for presentation in a doctoral dissertation. Graded on a S/U basis only.

**Credit Hour:** 1-10

---

### French (FRENCH)

**FRENCH 1100: Elementary French I**
French 1100 is a beginning French course, but many students will have had 1 or 2 years of high school French. Students will learn using all four skills—listening, speaking, reading, and writing with an emphasis on communication. The class meets four days a week and will be taught in French. The pace of the course is much faster than a high school class and should be accompanied by 2 hours of study for each hour spent in class. Class time is used to integrate new structures and vocabulary.

**Credit Hours:** 4

FRENCH 1100 - MOTR LANG 101: French I

**FRENCH 1100H: Elementary French I - Honors**
French 1100 Honors is an introductory course that emphasizes correct pronunciation, speaking and class interaction. French is the language of instruction and students are expected to quickly grasp concepts taught in French. The class meets four days a week. Graded on A-F basis only.

**Credit Hours:** 4

Prerequisites: Honors eligibility required

**FRENCH 1200: Elementary French II**
The second course of the beginning language sequence is the continuation of FRENCH 1100. It places equal emphasis on the four skills; listening, speaking, reading, and writing. Students who have prior knowledge of French are encouraged to take this course.

**Credit Hours:** 4

Prerequisites: Grade in the C range or better in FRENCH 1100 or equivalent

FRENCH 1200 - MOTR LANG 102: French II

**FRENCH 2100: Elementary French III**
A multi-skill course following FRENCH 1200, centering on cultural/literary reading, and including a grammar review, practice of the spoken language, as well as some practice in written expression.

**Credit Hours:** 4

Prerequisites: Grade in the C range or better in FRENCH 1200, or equivalent course

**FRENCH 2100H: Elementary French III - Honors**
A multi-skill course following FRENCH 1200, centering on cultural/literary reading, and including a grammar review, practice of the spoken language, as well as some practice in written expression.

**Credit Hours:** 4

Prerequisites: grade in the C range or better in FRENCH 1200, or equivalent course. Honors eligibility required

**FRENCH 2160: Intermediate French Composition and Conversation**
A course designed to develop the ability to speak, read, and write in French via the reading of French short stories and/or a short novel. Grammar review.

**Credit Hours:** 3

Prerequisites: FRENCH 2100

**FRENCH 2310: French Civilization**
Open to any student interested. No knowledge of French required. May not be included in area of concentration in French.

**Credit Hours:** 3

Prerequisites: sophomore standing
FRENCH 2310W: French Civilization - Writing Intensive
Open to any student interested. No knowledge of French required. May not be included in area of concentration in French.

Credit Hours: 3
Prerequisites: sophomore standing

FRENCH 2320: French Literature and Thought in English Translation I
This course examines how the masterworks of French literature, from the Middle Ages to the eighteenth century, have influenced Western literary, cultural and philosophical traditions.

Credit Hours: 3
Prerequisites: sophomore standing or instructor's consent

FRENCH 2330: French Literature in Translation II
This course examines how the masterworks of French literature of the nineteenth and twentieth centuries have influenced Western literary, cultural and philosophical traditions.

Credit Hours: 3
Prerequisites: sophomore standing or instructor's consent

FRENCH 2350: New World Francophone Literature in Translation

Credit Hours: 3
Prerequisites: ENGLISH 1000

FRENCH 3004: Topics in French-Social Science
Organized study of selected topics. Subjects and earnable credit may vary from semester to semester.

Credit Hour: 1-3
Prerequisites: sophomore standing, departmental consent for repetition

FRENCH 3005: Topics in French-Humanities/Fine Arts
Organized study of selected topics. Subjects and earnable credit may vary from semester to semester. Departmental consent for repetition. Prerequisites: sophomore standing

Credit Hour: 1-3

FRENCH 3160: Advanced French Composition and Conversation I
Development of more sophisticated skills of written and oral expression.

Credit Hours: 3
Prerequisites: FRENCH 2160 or equivalent

FRENCH 3180: Les Fondations de la Civilisation Francaise
Overview of French civilization from its origins to French Revolution. Studies will examine key cultural objects from art, literature, and popular culture as well as political and historical movements that have shaped development of French civilization. Ideal for students interested in engaging with issues, debates, and problems that helped to define the nascent French state.

Credit Hours: 3
Prerequisites: FRENCH 2160

FRENCH 3280: Commercial French
Composition and Conversation course based on materials related to the French business world. Acquisition of business-related vocabulary. Introduction to French business operations and correspondence.

Credit Hours: 3
Prerequisites: FRENCH 2160 or equivalent

FRENCH 3410: Introduction to Literary Analysis
Will acquaint students with vocabulary required for analysis of literary texts. Along with the traditional French method of poetry explication, students will learn to analyze the major literary genres (poetry, theatre, prose).

Credit Hours: 3
Prerequisites: FRENCH 3160

FRENCH 3420: Introduction to French Literature I
Study of selected masterpieces of French literature from the Middle Ages through the 18th century.

Credit Hours: 3
Prerequisites: FRENCH 3160 and FRENCH 3410

FRENCH 3430: Introduction to French Literature II
Study of selected masterpieces of French literature of the 19th and 20th centuries. Recommended: FRENCH 3410

Credit Hours: 3
Prerequisites: FRENCH 3160 and FRENCH 3410

FRENCH 3440: Francophone Literature of North America
A survey course of Francophone literature of New France, Louisiana territory and the French West Indies from its beginnings in the seventeenth century to the late twentieth century. Selected novels, poems and plays will be studied in their historical and social context.

Credit Hours: 3
Prerequisites: FRENCH 2160
FRENCH 3710: Survey of Minority and Creole Languages of the U.S. and the Caribbean
(same as SPAN 3710 and LINGST 3710). Analysis of the state of the minority languages of the U.S. and the Creole languages of the Caribbean with particular attention to the social status of these languages and speakers’ attitudes toward them in the context of ethnic, cultural and national identity (taught in English).
Credit Hours: 3
Prerequisites: FRENCH 3420, FRENCH 3430 or FRENCH 3410
Recommended: FRENCH 3160 or FRENCH 3280
FRENCH 3710: Survey of Minority and Creole Languages of the U.S. and the Caribbean
(same as SPAN 3710 and LINGST 3710). Analysis of the state of the minority languages of the U.S. and the Creole languages of the Caribbean with particular attention to the social status of these languages and speakers’ attitudes toward them in the context of ethnic, cultural and national identity (taught in English).
Credit Hours: 3
Prerequisites: FRENCH 3420, FRENCH 3430 or FRENCH 3410
Recommended: FRENCH 3160 or FRENCH 3280
FRENCH 4120: Foreign Language Teaching Methodology
(same as SPAN 4120). Theory and techniques of current foreign language methodology and their application in the classroom. Presentation of instructional projects, classroom observations, and strategies for classroom management. May not be used toward Arts and Science major.
Credit Hours: 3
Prerequisites: departmental consent
FRENCH 4130: Stylistics
A technical study of French as a means of communication and of self-expression, involving levels of meaning, rhetorical structure, and textual analysis.
Credit Hours: 3
Prerequisites: FRENCH 3160 or FRENCH 3280
Recommended: FRENCH 3420, FRENCH 3430 or FRENCH 3410
FRENCH 4130W: Stylistics - Writing Intensive
A technical study of French as a means of communication and of self-expression, involving levels of meaning, rhetorical structure, and textual analysis.
Credit Hours: 3
Prerequisites: FRENCH 3160 or FRENCH 3280
Recommended: FRENCH 3420, FRENCH 3430 or FRENCH 3410
FRENCH 4410: History of the French Language
(same as LINGST 4710). Study of the French language from its Latin origin to the present. The course includes a survey of the external social, political, and historical factors that have affected the development of French, followed by a diachronic study of the internal structural features of the language.
Credit Hours: 3
Prerequisites: FRENCH 3420 and FRENCH 3430
FRENCH 4720: Structure of Modern French
(same as LINGST 4720). An introductory presentation of the phonological and syntactic systems of contemporary standard French.
Credit Hours: 3
Prerequisites: FRENCH 3160 or equivalent or instructor's consent
FRENCH 4820: Blogging the World: The Web in Cultural Context
(same as GERMAN 4820 and RUSS 4820). Innovative interdisciplinary course addresses issues of access to international news and specific cultural context working in cross-disciplinary teams. Students in journalism, foreign language, international studies, political science and various other disciplines track cultural developments and information on non-US Web sites, blogs and digital social networks along with exploring various historical forms of communication that preceded the digital era of the Web. Students analyze the potential and limitations/ effects of blogs and the web in specific contemporary cultural contexts and as part of the broader historical evolution of the web. The course is taught in English. The goal of this course is two-fold: students learn the particulars of web blogging, explore various features of the contemporary social network landscape while focusing on the concept of culture, in particular
the cultures of Europe and the US. Questions asked are: what is culture? What is common or popular right now in other cultures? And how do new social networks amplify or alter certain features or culture across national and international contests?

Credit Hours: 3
Prerequisites: sophomore standing required

FRENCH 4820W: Blogging the World: The Web in Cultural Context - Writing Intensive
(same as GERMAN 4820 and RUSS 4820). Innovative interdisciplinary course addresses issues of access to international news and specific cultural context working in cross-disciplinary teams. Students in journalism, foreign language, international studies, political science and various other disciplines track cultural developments and information on non-US Web sites, blogs and digital social networks along with exploring various historical forms of communication that preceded the digital era of the Web. Students analyze the potential and limitations/effects of blogs and the web in specific contemporary cultural contexts and as part of the broader historical evolution of the web. The course is taught in English. The goal of this course is two-fold: students learn the particulars of web blogging, explore various features of the contemporary social network landscape while focusing on the concept of culture, in particular the cultures of Europe and the US. Questions asked are: what is culture? What is common or popular right now in other cultures? And how do new social networks amplify or alter certain features or culture across national and international contests?

Credit Hours: 3
Prerequisites: sophomore standing required

FRENCH 4960: Special Readings in French
Independent study through readings, conferences, reports.

Credit Hour: 1-3
Prerequisites: FRENCH 3420 and FRENCH 3430 and departmental consent

FRENCH 4980: Special Themes in French
Subject varies according to instructor. May be repeated for credit.

Credit Hours: 3
Prerequisites: FRENCH 3420 and FRENCH 3430

FRENCH 4993: The Capstone Experience in French
This course is required of all majors. Topics vary but all courses synthesize and review essential components of the major: speaking, writing, reading in French, and the ability to think critically and analytically.

Credit Hours: 3

FRENCH 4993H: The Capstone Experience in French - Honors
This course is required of all majors. Topics vary but all courses synthesize and review essential components of the major: speaking, writing, reading in French, and the ability to think critically and analytically.

Credit Hours: 3
Prerequisites: Honors eligibility required

FRENCH 7004: Topics in French-Social Science
Organized study of selected topics. Subjects and earnable credit may vary from semester to semester. Departmental consent for repetition.

Credit Hour: 1-99

FRENCH 7120: Foreign Language Teaching Methodology
(same as SPAN 7120). Theory and techniques of current foreign language methodology and their application in the classroom. Presentation of instructional projects, classroom observations, and strategies for classroom management. May not be used toward Arts and Science major.

Credit Hours: 3

FRENCH 7130: Stylistics
A technical study of French as a means of communication and of self-expression, involving levels of meaning, rhetorical structure, and textual analysis.

Credit Hours: 3
Prerequisites: FRENCH 3160 or FRENCH 3280 and FRENCH 3420 or FRENCH 3430

FRENCH 7410: French Medieval Literature

Credit Hours: 3
Prerequisites: FRENCH 3420 and FRENCH 3430

FRENCH 7420: French Renaissance

Credit Hours: 3
Prerequisites: FRENCH 3420 and FRENCH 3430

FRENCH 7440: Eighteenth-Century French Literature
(cross-leveled with FRENCH 4440). Through systematic and representative readings, this course familiarizes students with the literary trends and intellectual currents of 18th century France. The course includes works by Montesquieu, Voltaire, Rousseau, Laclos, Diderot, Marivaux, Prevost, and Beaumarchais.

Credit Hours: 3
Prerequisites: FRENCH 3420 and FRENCH 3430

FRENCH 7710: History of the French Language
(same as LINGST 7710). Required of M.A. candidates.

Credit Hours: 3
Prerequisites: FRENCH 3420 and FRENCH 3430

FRENCH 7720: Structure of Modern French
(same as LINGST 7720). An introductory presentation of the phonological and syntactic systems of contemporary standard French.

Credit Hours: 3
Prerequisites: FRENCH 3160 or equivalent or instructor's consent

FRENCH 7960: Special Readings in French
Independent study through readings, conferences, reports.

Credit Hour: 1-3
Prerequisites: departmental consent
FRENCH 7980: Special Themes in French  
Subject varies according to instructor.  
Credit Hours: 3

FRENCH 7993: The Capstone Experience in French  
This course is required of all majors. Topics vary but all courses synthesize and review essential components of the major: speaking, writing, reading in French, and the ability to think critically and analytically.  
Credit Hours: 3

FRENCH 8080: Readings in French  
Independent readings in preparation for MA or MALT comprehensive examination in French. Graded on A-F basis only.  
Credit Hour: 1-3

FRENCH 8085: Problems in French  
Problems in French.  
Credit Hour: 1-99

FRENCH 8087: Seminar in French  
Subject varies according to instructor.  
Credit Hour: 2-3

FRENCH 8120: Bilingualism and Language Contact  
(same as SPAN 8120 and LINGST 8120). Global analysis of the study of Bilingualism from a combined sociocultural, sociolinguistic and psycholinguistic perspective based on current research and examination of various phenomena of language contact (taught in English).  
Credit Hours: 3

FRENCH 8411: Old French  
Old French.  
Credit Hours: 3  
Recommended: FRENCH 4710 or FRENCH 7710 and some knowledge of Latin

FRENCH 8416: Studies in the French Renaissance  
Studies in the French Renaissance.  
Credit Hours: 3  
Recommended: FRENCH 4420 or FRENCH 7420

FRENCH 8417: Studies in Seventeenth-Century French Literature  
Credit Hours: 3  
Recommended: FRENCH 4430 or FRENCH 7430

FRENCH 8418: Studies in Eighteenth-Century French Literature  
Credit Hours: 3  
Recommended: FRENCH 4440 or FRENCH 7440

FRENCH 8420: Studies in Twentieth-Century French Literature  
Credit Hours: 3  
Recommended: FRENCH 4460 or FRENCH 7460, FRENCH 4470 or FRENCH 7470 or FRENCH 4480 or FRENCH 7480

FRENCH 9080: Readings in French  
Independent readings in preparation for the PhD comprehensive examination in French.  
Credit Hour: 3-6

FRENCH 9090: Research in French  
Leads to preparation of PhD dissertation in French. Graded on S/U basis only.  
Credit Hour: 1-99

General Human Environmental Sciences (GN_HES)

GN_HES 1100: Introduction to Human Environmental Sciences  
Introduction to Human Environmental Sciences  
Credit Hour: 1

General Studies (G_STDY)

G_STDY 4940: Internship in General Studies  
Internship limited to students pursuing the Bachelor of General Studies degree. Graded on S/U basis only.  
Credit Hour: 1-6

G_STDY 4960: Readings in General Studies  
Independent readings with supervisory faculty member. May be repeated to a maximum of six hours.  
Credit Hour: 1-6  
Prerequisites: Open only to General Studies majors

Geography (GEOG)

GEOG 1050: Introductory Meteorology  
(same as ATM_SC 1050). Physical processes of atmosphere in relation to day-to-day changes in weather.  
Credit Hours: 3  
Prerequisites: Enrollment restricted to students enrolled in the College of Arts and Science  
GEOG 1050 - MOTR PHYS 110: Essentials in Physical Sciences

GEOG 1100: Regions and Nations of the World I  
Introductory analysis for general education. Regional character, spatial relationships, major problems of Europe, North America (United States and Canada) and Latin America. Organized around basic concepts in field of geography.
GEOG 1800: Digital Earth: Introduction to the Geospatial Technologies
Introduction to technologies used to map a changing world, with an emphasis on digital mapping explorations of human and environmental interactions on Earth. Course includes lab and fieldwork to introduce geographic information data collection and analysis techniques. Graded on A/F basis only. May be repeated for credit.
Credit Hours: 3
Prerequisites: Freshman and sophomore standing or instructor’s consent

GEOG 1840: Global Environmental Change
Course uses a geographic framework to study patterns and processes related to global environmental change. Topics include environmental reconstruction, water resources, human-environment interactions, glaciers, fire, and climate.
Credit Hours: 3

GEOG 1900: Our Dynamic Planet in Film
This course focuses on using documentary films (e.g., Planet Earth) as a medium for studying how global environmental change is impacting all spheres of our dynamic planet. To ensure a more complete understanding of course material, films are supplemented with active lectures and discussions of assigned readings from both periodicals and peer-reviewed literature that emphasize key points illustrated in the films. In doing so, this course synthesizes material from numerous fields of study that fall under the burgeoning umbrella field of global change ecology. This synthetic approach is used to highlight the formidable linkages on Earth between the non-living and living, thus permitting students to gain an appreciation and holistic understanding of how global environmental change is impacting Earth processes responsible for creating both our current landscapes and the remarkable diversity of life that inhabit them.
Credit Hours: 3

GEOG 2010: Exploring Geography
We are all explorers. As children, we grew up testing the boundaries of our known worlds and trying to understand what was beyond. Geography gives us the means to formalize this impulse to explore the world around us, both local and distant. It allows us to make sense of the ways in which space and relationships between objects drives much of human, social, and environmental interaction. In this course, we will illustrate some of the principle ways in which Geographers investigate, explain, and map meaning, pushing the boundaries of what we know as individuals and society. Using a combination of discussion and field exercises, students will be asked to engage with a number of critical societal issues that have geographical elements at their core. Examples include the Geography of crime, imagining place, the city of the future, environmental change, to ensure a more complete understanding of course material, films are supplemented with active lectures and discussions of assigned readings from both periodicals and peer-reviewed literature that emphasize key points illustrated in the films. In doing so, this course synthesizes material from numerous fields of study that fall under the burgeoning umbrella field of global change ecology. This synthetic approach is used to highlight the formidable linkages on Earth between the non-living and living, thus permitting students to gain an appreciation and holistic understanding of how global environmental change is impacting Earth processes responsible for creating both our current landscapes and the remarkable diversity of life that inhabit them.
Credit Hour: 1

GEOG 2100: United States and Canada
Intensive examination of selected areas and distributions. Regional systems, problems and planning.
Credit Hours: 3
Prerequisites: sophomore standing

GEOG 2130: Geography of Missouri
Physical, human, economic, and political geography of Missouri; regions of the state; geography applied to current state issues.
Credit Hours: 3
Prerequisites: GEOG 1100

GEOG 2280: Race, Democracy, and Violence in Cuba and Haiti
(same as PEA_ST 2280, SOCIOL 2280). A sociological approach to understand race/ethnicity, identity, citizenship, human rights, violence, and political and economic systems in the Caribbean. Comparisons of the
Part II focuses on the ways in which individuals are now seeking to find political change and a vast gap between global wealth and poverty. The course will conclude by examining the recently emerging (and highly contested) concept of ‘global citizenship’. Graded on A-F basis only.

Credit Hours: 3

GEOG 2280W: Race, Democracy, and Violence in Cuba and Haiti - Writing Intensive
(same as PEA_ST 2280W, SOCIOL 2280W). A sociological approach to understand race/ethnicity, identity, citizenship, human rights, violence, and political and economic systems in the Caribbean. Comparisons of the culture, politics, and historical trajectories of Cuba and Haiti using Post-Colonial and Feminist theories. Graded on A-F basis only.

Credit Hours: 3

GEOG 2289: Towns in Missouri and the Midwest: Voices and Inequalities
(same as PEA_ST 2289, RU_SOC 2289). Focusing on towns and communities and their regional history and cultural traditions, we will examine the issues and concerns of small town America in the context of recent hardships and adverse economic trends. Examples of topics to be covered include case studies of communities such as Marceline, Missouri (Walt Disney’s boyhood home), race and the immigration of non-whites to rural areas; gender roles in small communities, the role of religion in small-town identity formation, and other current issues faced by “middle America”. The responsiveness of government, large corporations, and institutions to the problems of diverse communities will be critically examined, with a multidisciplinary approach that will draw on key theories and works in the disciplines of sociology, rural sociology, community development, and geography. Graded on A-F basis only.

Credit Hours: 3

GEOG 2293: Globalization, Identity and Citizenship
(same as PEA_ST 2293, POL_SC 2293). This course examines the forces of globalization that are transforming our world, and explores the various responses - psychological, social and political -- that people have been making over the past fifty years. Part I examines globalization as an economic and geographical process, generating huge social consequences, with rapid growth, population movements, political change and a vast gap between global wealth and poverty. Part II focuses on the ways in which individuals are now seeking to find themselves in this globalizing world. Emphasis will be placed on the ways in which national identity, faith, gender and sexuality are emerging as key loci around which contemporary people (especially young people) are trying to forge new social identities for themselves. The course will conclude by examining the recently emerging (and highly contested) concept of ‘global citizenship’. Graded on A-F basis only.

Credit Hours: 3

GEOG 2293W: Globalization, Identity and Citizenship - Writing Intensive
(same as PEA_ST 2293W, POL_SC 2293W). This course examines the forces of globalization that are transforming our world, and explores the various responses - psychological, social and political -- that people have been making over the past fifty years. Part I examines globalization as an economic and geographical process, generating huge social consequences, with rapid growth, population movements, political change and a vast gap between global wealth and poverty. Part II focuses on the ways in which individuals are now seeking to find themselves in this globalizing world. Emphasis will be placed on the ways in which national identity, faith, gender and sexuality are emerging as key loci around which contemporary people (especially young people) are trying to forge new social identities for themselves. The course will conclude by examining the recently emerging (and highly contested) concept of ‘global citizenship’. Graded on A-F basis only.

Credit Hour: 1-3

Prerequisites: sophomore standing, departmental consent for repetition
GEOG 2904W: Topics in Geography-Social Science - Writing Intensive
Organized study of selected topics. Subjects and earnable credit may vary from semester to semester.

Credit Hour: 1-3
Prerequisites: sophomore standing, departmental consent for repetition

GEOG 3040: Introduction to Geographic Information Systems GIS
(same as CV_ENG 3050). Introduces theory, concepts and techniques related to the creation, manipulation, processing, and basic analysis of spatial data using GIS. Data management, current data models, GIS applications and course topics are reinforced through hands-on computer laboratory exercises.

Credit Hours: 3
Prerequisites: sophomore standing or instructor's consent

GEOG 3140: Mexico, Central America, and the Caribbean
Physical environment and culture in the regional development of Mexico, Central America, and the Caribbean.

Credit Hours: 3

GEOG 3270: Geography of the Middle East
Cultural, physical and historical geography of Middle East, with emphasis on cultural adaptations to environments and conflicts over the resources.

Credit Hours: 3

GEOG 3385: Special Problems in Geography
Independent investigation leading to a paper or project. May be repeated to a maximum of 6 hours.

Credit Hour: 1-3
Prerequisites: instructor's consent

GEOG 3496: Digital Indigenous Studies
(same as PEA_ST 3496). This course introduces students to Indigenous studies in a digital world. The course begins with study of Indigenous sovereignty and representation, and moves quickly to critical and theoretical readings in new media, tracing both the historical impact of digital technologies (such as GIS) on Native communities, and the ways that both urban and rural Native communities have engaged in innovative digital projects that expand the way we understand information and storytelling in digital environments. The course materials will cover a wide range of platforms and audio-visual genres, from documentary, community video, and animation productions, to GIS, video games, and social media sites. Students will engage with both scholars and artists working with new media through a program of public lectures, classroom visits, and Skype interviews. All interview will be archived as podcasts from the course website. Students will write weekly short response papers and produce independent audio-visual projects over the course of the semester, with opportunities to revise their work leading up to substantial final projects. The course will also integrate community outreach into the curriculum through online participation of students from the Kiowa Kids, an Indigenous language immersion and storytelling program.

Credit Hours: 3

GEOG 3496W: Digital Indigenous Studies - Writing Intensive
(same as PEA_ST 3496). This course introduces students to Indigenous studies in a digital world. The course begins with study of Indigenous sovereignty and representation, and moves quickly to critical and theoretical readings in new media, tracing both the historical impact of digital technologies (such as GIS) on Native communities, and the ways that both urban and rural Native communities have engaged in innovative digital projects that expand the way we understand information and storytelling in digital environments. The course materials will cover a wide range of platforms and audio-visual genres, from documentary, community video, and animation productions, to GIS, video games, and social media sites. Students will engage with both scholars and artists working with new media through a program of public lectures, classroom visits, and Skype interviews. Students will write weekly short response papers and produce independent audio-visual projects over the course of the semester, with opportunities to revise their work leading up to substantial final projects. The course will also integrate community outreach into the curriculum through online participation of students from the Kiowa Kids, an Indigenous language immersion and storytelling program.

Credit Hours: 3

GEOG 3510: Historical Geography of North America
Analysis of selected geographical patterns and themes in the continent's past. Focus is explicitly geographical, stressing extensive use of maps and recent scholarly work by historical geographers.

Credit Hours: 3

GEOG 3550: Native American Geographies
A survey of the Native American geographies in the United States. Historical and contemporary topics are covered employing cross-cultural perspectives including some philosophical views of the Earth and society, sense of place, memory, sacred land, colonialism and GIS representations, and natural resources.

Credit Hours: 3

GEOG 3560: Native American Geographies
A survey of the Native American geographies in the United States. Historical and contemporary topics are covered employing cross-cultural perspectives including some philosophical views of the Earth and society, sense of place, memory, sacred land, colonialism and GIS representations, and natural resources.

Credit Hours: 3

GEOG 3580: Placewriting
This class explores creative nonfiction work that attends to the geographical dimensions of human experience and the character of place - "placewriting". Students will investigate how creative nonfiction evokes the human relationship with place and the geographical dimensions of personal and group identity. The class consists of two parts: discussion and critique of six creative nonfiction works on place, and a writer's workshop designed to enable students produce their own work in the genre focused on a local community or place.

Credit Hours: 3
Recommended: GEOG 1550

GEOG 3600: Climates of the World  
(same as ATM_SC 3600). A study of the world distribution of climates based on "cause and effect" relationships. Special attention is given to the impacts of climate on humanity.

Credit Hours: 3  
Prerequisites: GEOG 1050 or equivalent or graduate standing  
Corequisites: By permission, only

GEOG 3610: Physical Geography of the United States  
Study of natural regions of the United States by integrating topics from landforms, geology, climate, soils, vegetation, resources, and land use.

Credit Hours: 3  
Prerequisites: GEOG 2610

GEOG 3630: Earth Surface Systems  
Systematic study of landforms geomorphic processes governing them. Provides a foundation for the theoretical, technical, and practical understanding of environmental systems.

Credit Hours: 3

GEOG 3740: Geography and Planning  
Emphasis on geographic techniques for gathering and generating environmental information for planners. Principles of land use planning will be applied to selected regions.

Credit Hour: 1-3

GEOG 3760: Geography of the World's Religions  
(same as REL_ST 3760). Explores the significance of place in the origin, diffusion, distribution and practice of religions, emphasizing imprints of religion on the cultural landscape and connections between culture, politics, economics, and religion.

Credit Hours: 3

GEOG 3760W: Geography of the World's Religions - Writing Intensive  
(same as REL_ST 3760). Explores the significance of place in the origin, diffusion, distribution and practice of religions, emphasizing imprints of religion on the cultural landscape and connections between culture, politics, economics, and religion.

Credit Hours: 3

GEOG 3780: World Political Geography: Patterns and Processes  
(same as PEA_ST 3780). Geographic factors in the development of political boundaries traditions, and societal perspectives. Spatial patterns and geopolitical processes are explored in selected regions of the world.

Credit Hours: 3

GEOG 3800: Geography of Travel and Tourism  
This course examines the fundamentals of the geography of tourism and travel in both foreign and domestic contexts. During the past few decades, tourism has been a fast growing industry around the world, although tourism can easily be negatively influenced by terrorism, natural disasters, and economic downturns. During the semester we'll look at several common types of tourism and focus on the positive and negative impacts of tourism upon local cultures, the environment, and economic development. Graded on A-F basis only.

Credit Hours: 3  
Recommended: GEOG 1100 or GEOG 1200 or sophomore standing

GEOG 3830: Remote Sensing  
Introduction to the principles of remote sensing of the environment. Digital imagery from spacecraft, conventional and high-altitude aerial photography, thermal imaging, and microwave remote sensing.

Credit Hours: 3

GEOG 3840: Cartography  
Principles of computer-assisted cartography. Automated cartographic display. "Hands on" experience with computer-mapping software and hardware systems. Role of computers in map design. Digital encoding of geographic data.

Credit Hours: 3  
Prerequisites: GEOG 2840

GEOG 3870: The Geospatial Sciences in National Security  
(Same as CV_ENG 4175). This course explores the critical contribution of the geospatial sciences in the collection, processing, visualization and analysis of geospatial information related to national security. May be repeated for credit.

Credit Hours: 3  
Recommended: GEOG 1100 or GEOG 1200

GEOG 4130: Geopolitics  
(cross-leveled with GEOG 7200). Geopolitics examines politics, especially international relations, as influenced by geographical factors. To reveal and forecast global trends, we examine the interactions of geographical contexts and perspectives with international and domestic political processes. Our geopolitical analysis is both thematic and regional. Geographical themes are multi-disciplinary and include location and place, physical geography and natural resources, population and immigration, culture and ethnicity, religion, economics and trade, foreign policy, conflict, globalization, and development. These are examined in the context of eight world regions and the polar realms. Graded on A-F basis only.

Credit Hours: 3  
Recommended: GEOG 1100 or GEOG 1200

GEOG 4200: Geopolitics  
(cross-leveled with GEOG 7200). Geopolitics examines politics, especially international relations, as influenced by geographical factors. To reveal and forecast global trends, we examine the interactions of geographical contexts and perspectives with international and domestic political processes. Our geopolitical analysis is both thematic and regional. Geographical themes are multi-disciplinary and include location and place, physical geography and natural resources, population and immigration, culture and ethnicity, religion, economics and trade, foreign policy, conflict, globalization, and development. These are examined in the context of eight world regions and the polar realms. Graded on A-F basis only.

Credit Hours: 3  
Recommended: GEOG 1100 or GEOG 1200

GEOG 4390: Special Readings in Geography  
Independent readings selected in consultation with supervisory faculty member. May be repeated to a maximum of 6 hours.

Credit Hour: 1-3  
Prerequisites: instructor's consent and independent study contract

GEOG 4560: Resources and Indigenous Peoples  
(cross-leveled with GEOG 7560). This is a survey of indigenous peoples' struggle to control and use natural resources, to have a say in determining the path of economic development, and to restrain
the destructive tendencies of colonialism and capitalism, challenging traditional state-to-state relations.

Credit Hours: 3  
Prerequisites: Junior standing required

**GEOG 4560W: Resources and Indigenous Peoples - Writing Intensive**
This is a survey of indigenous peoples' struggle to control and use natural resources, to have a say in determining the path of economic development, and to restrain the destructive tendencies of colonialism and capitalism, challenging traditional state-to-state relations.

Credit Hours: 3  
Prerequisites: Junior standing required

**GEOG 4620: Biogeography: Global Patterns of Life**
Analysis of the patterns and processes of plant distribution in the contemporary landscape, stressing environmental influences and vegetation dynamics, particularly as they relate to North American vegetation.

Credit Hours: 3  
Recommended: GEOG 2610

**GEOG 4710: Spatial Analysis in Geography**
Application of statistical methods to geographic research. Prepares students to utilize advanced methodologies and models in spatial analysis. Includes computer analysis of geographical data. Math Reasoning Proficiency Course

Credit Hours: 3  
Recommended: MATH 1100 or MATH 1120

**GEOG 4740: Location Analysis and Site Selection**
(same as CV_ENG 4185). An overview of location analysis in regional planning and spatial decision support, this course focuses on the use of Geographic Information Science (GIS) and location analysis methods in addressing regional service needs. May be repeated for credit.

Credit Hours: 3

**GEOG 4770: Migration and Immigration**
Explores demographic, economic, and social issues surrounding immigration and migration. The course focuses on the global labor migration system, immigration to the United States, and internal migration within the US, as well as the linkages between these systems.

Credit Hours: 3

**GEOG 4790: Geographic Information Systems for the Social Sciences**
Designed for social science students interested in learning about the tools available in GIS for linking to and analyzing spatial qualitative data. Uses multiple data sources (qualitative and quantitative), applied within a social context, using spatial investigation procedures to detect geographical trends in data sets. Primary focus is on how GIS can enhance social science research.

Credit Hours: 3  
Prerequisites: juniors and seniors only

**GEOG 4810: Landscape Ecology and GIS Analysis I**
(same as NAT_R 4385). Examination of the landscape-scale approach to biodiversity, ecosystem dynamics, and habitat management. Particular emphasis on the use of Geographic Information Systems to analyze the spatial dimension of ecological patterns and processes.

Credit Hours: 3  
Prerequisites: GEOG 3040, or instructor's consent

**GEOG 4850: Transportation Geography**
(same as CV_ENG 4155). Introduction to fundamental concepts and modes of analysis in transportation geography. Focus on descriptive, explanatory, as well as normative approaches. Topics reviewed include spatial organization, transportation economics, spatial interaction, network analysis, location/allocation, and urban transportation planning.

Credit Hours: 3

**GEOG 4860: Advanced Remote Sensing**
Advanced remote sensing to provide digital image processing techniques for satellite and airborne imagery; emphasis on spatial/spectral analysis, image classification and land use/land cover change detection. Class project heavily involved.

Credit Hours: 3  
Prerequisites: GEOG 3830

**GEOG 4904: Topics in Geography-Social Science**
Organized study of selected topics. Subjects and earnable credit may vary from semester to semester. Must get departmental Consent for repetition.

Credit Hour: 1-12  
Prerequisites: junior standing

**GEOG 4904W: Topics in Geography-Social Science - Writing Intensive**
Organized study of selected topics. Subjects and earnable credit may vary from semester to semester. Must get departmental Consent for repetition.

Credit Hour: 1-12  
Prerequisites: junior standing

**GEOG 4940: Advanced Geographic Information Systems (GIS II)**
(cross-leveled with GEOG 7940). Advanced study of geographic and spatial analysis and modeling utilizing Geographic Information Systems technology. Focus on project management, research applications, and geostatistical analysis through independent research projects.

Credit Hours: 3  
Prerequisites: GEOG 3040 or instructor's permission

**GEOG 4945: Internship in Applied Geography and Cartography**
Regularized individual work experience with local, regional, state or national agencies, with guidance and readings supplied by faculty coordinator. May repeat to maximum of 6 hours.

Credit Hour: 1-3  
Prerequisites: Departmental consent required
GEOG 4990: Senior Seminar in Geography
A seminar in selected themes in Geography. Class will focus on research, writing, presenting, and discussing themes in contemporary geography. Required of all majors prior to graduation.
Credit Hours: 3
Prerequisites: 5 courses in geography or instructor's consent

GEOG 4996H: Honors in Geography
Special work for Honors candidates in geography. Prerequisites: Honors eligibility required
Credit Hours: 3

GEOG 4996HW: Honors in Geography - Honors/Writing Intensive
Special work for Honors candidates in geography. Prerequisites: Honors eligibility required
Credit Hours: 3

GEOG 4997H: Honors in Geography
Special work for Honors candidates in geography.
Credit Hours: 3
Prerequisites: Honors eligibility required

GEOG 7130: The Geospatial Sciences in National Security
(Same as CV_ENG 7175). This course explores the critical contribution of the geospatial sciences in the collection, processing, visualization and analysis of geospatial information related to national security. May be repeated for credit.
Credit Hours: 3
Prerequisites: junior standing or above required; instructor's consent

GEOG 7560: Resources and Indigenous Peoples
(cross-leveled with GEOG 4560). This is a survey of indigenous peoples' struggle to control and use natural resources, to have a say in determining the path of economic development, and to restrain the destructive tendencies of colonialism and capitalism, challenging traditional state-to-state relations.
Credit Hours: 3

GEOG 7620: Biogeography: Global Patterns of Life
Analysis of the patterns and processes of plant distribution in the contemporary landscape, stressing environmental influences and vegetation dynamics, particularly as they relate to North American vegetation.
Credit Hours: 3
Prerequisites: GEOG 2610 or instructor's consent

GEOG 7710: Spatial Analysis in Geography
Application of statistical methods to geographic research. Prepares students to utilize advanced methodologies and models in spatial analysis. Includes computer analysis of geographical data.
Credit Hours: 3
Recommended: MATH 1100 or MATH 1120

GEOG 7740: Location Analysis and Site Selection
(Same as CV_ENG 7185). An overview of location analysis in regional planning and spatial decision support, this course focuses on the use of Geographic Information Science (GIS) and location analysis methods in addressing regional service needs. May be repeated for credit.
Credit Hours: 3

GEOG 7770: Migration and Immigration
As fertility and mortality decline to record low levels, immigration and migration have become the primary components of population change. Changes brought on by immigration to a country and the internal redistribution of population via migration pose challenges to governments, economic development, social and cultural relations, and environmental sustainability. This course explores issues surrounding immigration and migration. Beginning with the demographic overview of immigration, it focuses on the challenges faced by immigrant, sending, and receiving nations in the global migration system. The second part of the course focuses on the array of issues surrounding immigration to the United States, including the socio-economic adaptation of immigrants, the economic and cultural impacts of immigration, and illegal immigration. The third part of the course focuses on internal migration within migration within the US, discussing topics such as migration to the Sunbelt, Great Plains depopulation, poverty migration, migration to the suburbs, and migration's impact on community. Linkages between domestic migration and immigration will also be explored.
Credit Hours: 3

GEOG 7790: Geographic Information Systems for the Social Sciences
Designed for social science students interested in learning about the tools available in GIS for linking to analyzing spatial qualitative data. Uses multiple data sources (qualitative and quantitative), applied within a social context, using spatial investigation procedures to detect geographical trends in data sets. Primary focus is on how GIS can enhance social science research.
Credit Hours: 3

GEOG 7810: Landscape Ecology and GIS Analysis I
(same as NAT_R 7385). Examination of the landscape-scale approach to biodiversity, ecosystem dynamics, and habitat management. Particular emphasis on the use of Geographic Information Systems to analyze the spatial dimension of ecological patterns and processes.
Credit Hours: 3
Prerequisites: instructor's consent

GEOG 7840: Geographic Information Systems I
Introductory study of theory, concepts and techniques related to basic analysis, creation and processing of geographic and spatial data using Geographic Information Systems (GIS). Independent learning and computer-based laboratory exercises supplement theoretical lectures and discussion.
Credit Hours: 3
GEOG 7850: Transportation Geography
(same as CV_ENG 7155). Introduction to fundamental concepts and modes of analysis in transportation geography. Focus on descriptive, explanatory, as well as normative approaches. Topics reviewed include spatial organization, transportation economics, spatial interaction, network analysis, location/allocation, and urban transportation planning.
Credit Hours: 3

GEOG 7860: Advanced Remote Sensing
Advanced remote sensing to provide digital image processing techniques for satellite and airborne imagery; emphasis on spatial/spectral analysis, image classification and land use/land cover change detection. Class project heavily involved.
Credit Hours: 3
Prerequisites: GEOG 3830

GEOG 7904: Topics in Geography-Social Science
Organized study of selected topics. Subjects and earnable credit may vary from semester to semester. May be repeated for credit with departmental consent.
Credit Hour: 1-12
Prerequisites: instructor's consent

GEOG 7940: Advanced Geographic Information Systems (GIS II)
(cross-leveled with GEOG 4940). Advanced study of geographic and spatial analysis and modeling utilizing Geographic Information Systems technology. Focus on project management, research applications, and geostatistical analysis through independent research projects.
Credit Hours: 3
Prerequisites: GEOG 7840 or instructor's consent

GEOG 8080: Research in Geography
Research not leading to thesis. May be repeated to a maximum of 6 hours. Graded on S/U basis only.
Credit Hour: 1-6
Prerequisites: instructor's consent

GEOG 8085: Special Investigations in Geography
Advanced studies to meet the needs of the individual student. May be repeated to a maximum of 6 hours.
Credit Hour: 1-3
Prerequisites: instructor's consent and independent study contract

GEOG 8090: Research in Geography
Research leading to a thesis. May be repeated to a maximum of 8 hours. Graded on S/U basis only.
Credit Hour: 1-8
Prerequisites: instructor's consent and independent study contract

GEOG 8270: Seminar in the Geography of the Middle East
Advanced readings and analysis of topics in the geography of the Middle East.
Credit Hours: 3
Prerequisites: instructor's consent

GEOG 8710: Seminar
May be repeated to a maximum of 6 hours.
Credit Hour: 1-3
Prerequisites: departmental consent

GEOG 8750: Research Design
Credit Hours: 3
Prerequisites: restricted to graduate geography majors graduate or instructor's consent

GEOG 8760: Geographic Thought
Discussion of the historic roots of the discipline, especially the ideas, theories and underlying philosophies that have defined Geography in the past century and a half. Students will also explore the philosophical and theoretical ideas that shape the way geographers approach the study of the world.
Credit Hours: 3
Prerequisites: instructor's consent

GEOG 8820: Field Geography
Techniques of geographical investigation in the field.
Credit Hours: 3
Prerequisites: restricted to graduate Geography majors or instructor's consent

GEOG 8902: Topics in Geography-Biological/Physical/Mathematical
Organized study of selected topics. Subjects and earnable credit may vary from semester to semester. May be repeated for credit with departmental consent.
Credit Hour: 1-3
Prerequisites: instructor's consent

Geology (GEOL)

GEOL 1050: Planet Earth
An introduction to Earth Science. Topics include: evidence for continental drift and plate tectonics, causes and prediction of natural hazards, the scale of geological time.
Credit Hours: 3
GEOL 1050 - MOTR GEOL 100: Geology

GEOL 1100: Principles of Geology with Laboratory
Three lectures, 2-hours lab. Earth processes and products and their impact on human needs and the environment. One field trip. For the Mizzou Online sections, there will not be required lectures, lab, and field trip.
Credit Hours: 4
GEOL 1100 - MOTR GEOL 100L: Geology with Lab
GEOL 1200: Environmental Geology with Laboratory
The interaction between geologic processes and human society.
Topics include mineral, water, and energy resources, volcanic hazards,
earthquakes, landslides, floods, coastal erosion, pollution problems and
environmental management.
Credit Hours: 4

GEOL 1250: The World’s Oceans
An interdisciplinary introduction to oceanography. Topics include:
geologic evolution of ocean basins, properties of seawater, ocean
circulation (waves, tides, and currents), marine ecosystems, instability of
beaches and coastlines, coastal development and engineering.
Credit Hours: 3

GEOL 1400: Themes in Geology
5-week course organized around a central theme or topic, up to 3
different sections can be taken for credit.
Credit Hour: 1

GEOL 2100: Independent Study in Geology
Directed Library research in geological topics, under the supervision of
faculty sponsor. May be repeated for a maximum of 3 hours credit.
Credit Hour: 1-3
Prerequisites: instructor’s consent

GEOL 2110: Introduction to Soil Science with Laboratory
(same as SOIL 2110). Introduction to Soil Science with emphasis placed
on physical, biological, and chemical properties and applications to land
use, plant growth, and environmental problems with laboratory application
of these concepts.
Credit Hours: 5
Prerequisites: CHEM 1320

GEOL 2120H: Faults and Earthquakes: Past, Present, and Future
Seminar in science and societal ramifications of earthquakes. Geologic
background includes causes, behavior, and distribution of faults.
Student-led discussions cover historical disasters, economic, political,
psychological, and cultural perspectives.
Credit Hours: 3
Prerequisites: ENGLISH 1000
Recommended: Honors eligibility

GEOL 2130: Physical Geology for Scientists and Engineers
Introduction to physical geology and Earth processes with a focus
on applications and societal relevance. In addition to basic geologic
processes, physical principles will illustrate the interactions between
geology and engineering, using a calculus-based approach.
Credit Hours: 4
Prerequisites: MATH 1500

GEOL 2140: Intro to Soil Science with Laboratory
Introduces soil science with emphasis placed on physical, biological,
and chemical properties and applications to land use, plant growth,
and environmental problems with laboratory application of these
concepts. 
Credit Hours: 3

GEOL 2150: The Age of the Dinosaurs
Study of the evolution of dinosaurs during the Mesozoic Era. New
information on dinosaur life habits, food resources, dispersal by plate
tectonics, and theories of extinction will be covered.
Credit Hours: 3
Prerequisites: 1000-level science course

GEOL 2160H: Volcanoes and the Human Environment - Honors
(same as GN_HON 2450H). This course gives students an
understanding of how volcanoes work, how they are studied, and how
they have impacted human cultures. Students will gain appreciation of
volcanology as a broad scientific discipline within geology and the role
that science plays in public policy. Graded on A/F basis only.
Credit Hours: 3
Recommended: Honors eligibility required

GEOL 2220: Seminar: Headline Topics in the Geological Sciences
(same as GEOL 2220H). Seminar organized around a central theme that
is the focus of intense ongoing research and public debate.
Credit Hours: 3

GEOL 2220H: Honors Seminar: Headline Topics in the Geological
Science
Seminar organized around a central theme that is the focus of intense
ongoing research and public debate.
Credit Hours: 3
Recommended: Honors eligibility

GEOL 2300: Earth Systems and Global Change
Study of the earth as a whole, taking into account the many interwoven
components of the geosphere, hydrosphere, atmosphere and biosphere.
Credit Hours: 3

GEOL 2350: Historical Geology
Summary of principles and techniques used in reconstructing Earth’s
history. Survey of major events that have affected Earth and its
Credit Hours: 3
Prerequisites: GEOL 1100 or GEOL 1150 or GEOL 1200 and ENGLISH
1000

GEOL 2360: Historical Geology Laboratory
A laboratory course designed to improve understanding of Earth History
by examination of maps and mineral, rock, sediment and fossil samples.
Credit Hour: 1
Prerequisites: GEOL 1100 or GEOL 1150 or GEOL 1200
Corequisites: GEOL 2350

GEOL 2400: Surficial Earth Processes and Products with Laboratory
Semiquantitative analysis of geologic processes that shape the earth’s
surface. Includes topics in sedimentation and geomorphology.
Credit Hours: 4
Prerequisites: GEOL 1100 or GEOL 1150 or GEOL 1200, and MATH 1100

GEOL 2450: Global Water Cycle
Study of environmental geochemical factors controlling the composition of natural waters, and sources of water's constituents (natural or human-produced). Math Reasoning Proficiency Course.

Credit Hours: 3
Prerequisites: MATH 1100
Recommended: 1000-level science course

GEOL 2500: Regional Geology Field Trip
Field based study of a particular geologic region, including classroom preparation prior to the field trip. The trip will last 7-10 days, either during Spring Break or immediately after finals week. May be repeated for credit.

Credit Hours: 3
Prerequisites: GEOL 1100 or GEOL 1150 or GEOL 1200

GEOL 2600: Mineral and Energy Resources of the Earth
This course examines the geology of Earth's major mineral and energy resources--their origin, distribution, and characteristics--and societal implications of their use and abundance. Major topics: fossil fuels, nuclear energy, base & precious metals, non-metallic minerals, water.

Credit Hours: 3

GEOL 3085: Problems in Geological Sciences
Problems in Geological Sciences.

Credit Hour: 1-5
Prerequisites: instructor's consent

GEOL 3250: Mineralogy
Introduction to crystallography, crystal chemistry and crystal structures. Systematic study of mineral groups. Includes identification of minerals by physical, chemical and optical properties.

Credit Hours: 5

GEOL 3300: Introduction to Geochemistry

Credit Hours: 3
Prerequisites or Corequisites: CHEM 1330
Prerequisites: MATH 1400 or MATH 1500, and GEOL 1100 or GEOL 1150 or GEOL 1200

GEOL 3550: Introduction to Paleontology with Laboratory
Study of the morphology, paleontology, patterns of evolution, and causes of extinction in geologically important groups of invertebrate and vertebrate fossils. Lab concentrates on identification of biostratigraphically important fossils (mostly invertebrates). Several half-day field trips.

Credit Hours: 4
Prerequisites: GEOL 1100 or GEOL 1150 or GEOL 1200

GEOL 3650: Structural Geology
The mechanical behavior of earth materials. Analysis of the geometry and mechanics of faults, fractures, and folds. Laboratory includes problems on stresses and strains associated with deformation, geometric analysis of deformation structures, and interpretation of geologic maps.

Credit Hours: 4
Prerequisites: GEOL 1100 or GEOL 1150 or GEOL 1200 and MATH 1140 or MATH 1160 or MATH 1500

GEOL 3800: Sedimentology and Stratigraphy with Lab
Mechanics of sediment transport by fluid flow and gravity flow, origins of stratification and sedimentary structures, facies characteristics depositional environments.

Credit Hours: 4
Prerequisites: GEOL 1100 or GEOL 1150 or GEOL 1200

GEOL 4002: Topics in Geological Sciences-Biological/Physical/Mathematics
Organized study of selected topics. Subjects and earnable credit may vary. May be repeated with departmental consent.

Credit Hour: 1-99
Prerequisites: instructor's consent

GEOL 4100: Groundwater Hydrology
(cross-leveled with GEOL 7100). Analysis of groundwater occurrence, flow, recovery, and solute transport within shallow levels of the Earth's crust.

Credit Hours: 3
Prerequisites: GEOL 1100 or GEOL 1150 or GEOL 1200, and PHYSCS 1210 or PHYSCS 2750, and MATH 1400 or MATH 1500

GEOL 4120: Engineering Geology
(cross-leveled with GEOL 7120). Fundamentals of earth materials and geological processes and their applications in engineering works and environmental sciences. Includes properties of minerals and rocks, rock and soil mechanics, surficial geological processes, and practice of engineering.

Credit Hours: 3
Prerequisites: GEOL 1100 or GEOL 1150 or GEOL 1200, and MATH 1500, or instructor's consent

GEOL 4130: Groundwater Modeling
Use of leading groundwater flow and contamination modeling software. Theory of groundwater flow, solute transport, and selected numerical solution techniques. Applications to water resource, environmental, and geological problems.

Credit Hours: 3
Prerequisites: GEOL 4100 or equivalent

GEOL 4180: Solar System Science
(same as PHYSCS 4180, ASTRON 4180; cross-leveled with GEOL 7180). Investigates physical states, interior structures and comparative geology of solar systems bodies: planets, moons, asteroids, comets, sun. Solar system formation and evolution.
Credit Hours: 3
Prerequisites: MATH 1700 and PHYSCS 1220 or PHYSCS 2760 or instructor's consent

GEOL 4200: Economic Geology with Laboratory
Geochemistry of ore deposits. Introduction to types of mineral deposits, genesis of ore, and current areas of research. Laboratory emphasizes hand-specimen and polished-section studies of a wide variety of ore deposit types.
Credit Hours: 4
Prerequisites: GEOL 4900

GEOL 4300: Introduction to Low-Temperature Geochemistry
Introduction to the chemical alteration of rock-forming minerals in weathering environments and to factors controlling the chemical composition of subsurface water.
Credit Hours: 3
Prerequisites: GEOL 3300 or instructor's consent

GEOL 4318: Environmental Soil Chemistry
(same as SOIL 4318 and ENV_SC 4318). Study of chemical constituents and processes occurring in soils. Topics include soil minerals and weathering processes, organic matter, solution chemistry, oxidation-reduction reactions and adsorption processes.
Credit Hours: 3
Prerequisites: SOIL 2100 or GEOL 2400, CHEM 1320 and CHEM 1330. Junior standing or instructor's consent

GEOL 4350: Patterns and Processes in the Fossil Record
(cross-leveled with GEOL 7350). The purposes of this course are to 1) analyze patterns in the history of life and 2) to recognize the biased processes that led to its preservation. We will accomplish these goals by examining two disparate fossil preservation pathways: 1) Konservat lagerstätten: fossil deposits that are notorious for the exceptional and rare preservation of soft tissues and 2) Konzentrat lagerstätten: fossil deposits that are exceptional for the enormous amount of fossilized skeletal material they contain. Through careful examination of both the rare and the hyper-abundant, we can address the fundamental question of paleobiology: how literally can the fossil record be read as the history of life? Graded on A-F basis only.
Credit Hours: 3
Prerequisites: GEOL 2350, GEOL 2360

GEOL 4500: Organic Geochemistry
Topics include chemistry of petroleum-forming reactions and their kinetic parameters; use of organic-chemical criteria in source-rock evaluation; carbon isotope fractionation in organic precursors of biological molecules; early history of earth's atmosphere.
Credit Hours: 3
Prerequisites: instructor's consent

GEOL 4650: Plate Tectonics
Formation, evolution, and structure of the earth. Rules, causes, and implications of plate tectonics with emphasis on present-day features.
Credit Hours: 3
Prerequisites: GEOL 3250 or GEOL 3650 or instructor's consent

GEOL 4650W: Plate Tectonics - Writing Intensive
Formation, evolution, and structure of the earth. Rules, causes, and implications of plate tectonics with emphasis on present-day features.
Credit Hours: 3
Prerequisites: GEOL 3250 or GEOL 3650 or instructor's consent

GEOL 4680: Neotectonics and Earthquake Geology
(cross-leveled with GEOL 7680). Introduction to techniques and concepts of active crustal deformation from the geological and geodetic perspectives. Topics include tectonic geomorphology, paleoseismology, Quaternary dating, tectonic geodesy, numerical models of faults, and earthquake hazard assessment.
Credit Hours: 3
Prerequisites: GEOL 3250 or GEOL 3650 or instructor's consent

GEOL 4750: Microanalysis for Geological Sciences
(cross-leveled with GEOL 7750). This course is intended to provide a working knowledge of electron and X-ray microbeam analytical instruments - both in principle and in practice. Lectures will focus on the physics of how these instruments collect data, and how these data can be interpreted. In addition, students will gain hands-on experience with operating these instruments, specifically on their own samples, as well as preparing their samples for microanalysis and interpreting/manipulating the resulting data. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: Instructor's Consent (instrument time is limited so enrollment must also be limited)

GEOL 4800: Introduction to Geophysics
(cross-leveled with GEOL 7800). Introduction to the fundamentals of geophysical methods and their applications in geology, environmental studies, and exploration. Topics include seismic, gravity, magnetic, and electric methods.
Credit Hours: 3
Prerequisites: GEOL 1100 or GEOL 1150 or GEOL 1200 and MATH 1700 or instructor's consent

GEOL 4900: Igneous and Metamorphic Petrology with Laboratory
Introduction to igneous and metamorphic rock associations and rock-forming processes. Emphasis on understanding the evolution of the Earth in view of igneous and metamorphic rock petrogenesis.
Credit Hours: 4
Prerequisites: GEOL 3250
Recommended: GEOL 3300

GEOL 4950: Senior Thesis
Research conducted in an area of the Geological Sciences under the auspices of a member of the faculty. Under normal circumstances, this research should be completed over two semesters. May be repeated for a maximum of 3 hours credit.
Credit Hour: 1-3
GEOL 4992: Geology Field Camp

Credit Hours: 6
Recommended: GEOL 2350, GEOL 3650, and GEOL 3800

GEOL 7002: Topics in Geological Sciences-Biological/Physical/Mathematics
Organized study of selected topics. Subjects and earnable credit may vary. May be repeated with departmental consent.

Credit Hour: 1-99
Prerequisites: instructor's consent

GEOL 7085: Problems in Geological Sciences
Credit Hour: 1-8
Prerequisites: instructor's consent

GEOL 7100: Groundwater Hydrology
(cross-leveled with GEOL 4100). Analysis of groundwater occurrence, flow, recovery, and solute transport within shallow levels of the Earth's crust.

Credit Hours: 3
Prerequisites: GEOL 1100 or GEOL 1150 or GEOL 1200, and PHYSCS 1210 or PHYSCS 2750, and MATH 1400 or MATH 1500

GEOL 7120: Engineering Geology
(cross-leveled with GEOL 4120). Fundamentals of earth materials and geological processes and their applications in engineering works and environmental sciences. Includes properties of minerals and rocks, rock and soil mechanics, surficial geological processes, and practice of engineering.

Credit Hours: 3
Prerequisites: GEOL 1100 or GEOL 1150 or GEOL 1200 and MATH 1500, or instructor's consent

GEOL 7130: Groundwater Modeling
Use of leading groundwater flow and contamination modeling software. Theory of groundwater flow, solute transport, and selected numerical solution techniques. Applications to water resource, environmental, and geological problems.

Credit Hours: 3
Prerequisites: GEOL 4100 or equivalent

GEOL 7180: Solar System Science
(same as PHYSCS 7180 and ASTRON 7180). Investigates physical states, interior structures and comparative geology of solar systems bodies: planets, moons, asteroids, comets, sun. Solar system formation and evolution.

Credit Hours: 3
Prerequisites: MATH 1700 and PHYSCS 1220 or PHYSCS 2760 or instructor's consent

GEOL 7200: Economic Geology with Laboratory
Geochemistry of ore deposits. Introduction to types of mineral deposits, genesis of ore, and current areas of research. Laboratory emphasizes hand-specimen and polished-section studies of a wide variety of ore deposit types.

Credit Hours: 4
Prerequisites: GEOL 4900

GEOL 7300: Introduction to Low-Temperature Geochemistry
Introduction to the chemical alteration of rock-forming minerals in weathering environments and to factors controlling the chemical composition of subsurface water.

Credit Hours: 3
Prerequisites: GEOL 3300 or instructor's consent

GEOL 7318: Environmental Soil Chemistry
(same as SOIL 7318 and ENV_SC 7318). Study of chemical constituents and processes occurring in soils. Topics include soil minerals, and weathering processes organic matter, solution chemistry, oxidation-reduction reactions and adsorption processes.

Credit Hours: 3
Prerequisites: SOIL 2100 or GEOL 2400, CHEM 1320 and CHEM 1330 or instructor's consent

GEOL 7350: Patterns and Processes in the Fossil Record
(cross-leveled with GEOL 4350). The purposes of this course are to 1) analyze patterns in the history of life and 2) to recognize the biased processes that led to its preservation. We will accomplish these goals by examining two disparate fossil preservation pathways: 1) Konservat lagerstätten: fossil deposits that are notorious for the exceptional and rare preservation of soft tissues and 2) Konzentrat lagerstätten: fossil deposits that are exceptional for the enormous amount of fossilized skeletal material they contain. Through careful examination of both the rare and hyper-abundant we can address the fundamental question of paleobiology: how literally can the fossil record be read as the history of life? Graded on A-F basis only.

Credit Hours: 3

GEOL 7500: Organic Geochemistry
Topics include chemistry of petroleum-forming reactions and their kinetic parameters; use of organic-chemical criteria in source-rock evaluation; carbon isotope fractionation in organic precursors of biological molecules; early history of earth's atmosphere.

Credit Hours: 3
Prerequisites: instructor's consent

GEOL 7650: Plate Tectonics
(cross-leveled with GEOL 4650). Formation, evolution, and structure of the earth. Rules, causes, and implications of plate tectonics with emphasis on present-day features.

Credit Hours: 3
Prerequisites: GEOL 3250, GEOL 3650 or instructor's consent
GEOL 7680: Neotectonics and Earthquake Geology
(cross-leveled with GEOL 4680). Introduction to techniques and concepts of active crustal deformation from the geological and geodetic perspectives. Topics include tectonic geomorphology, paleoseismology, Quaternary dating, tectonic geodesy, numerical models of faults, and earthquake hazard assessment.

Credit Hours: 3
Prerequisites: GEOL 3650 or GEOL 4650

GEOL 7750: Microanalysis for Geological Sciences
(cross-leveled with GEOL 4750). This course is intended to provide a working knowledge of electron and X-ray microbeam analytical instruments - both in principle and in practice. Lectures will focus on the physics of how these instruments collect data, and how these data can be interpreted. In addition, students will gain hands-on experience with operating these instruments, specifically on their own samples, as well as preparing their samples for microanalysis and interpreting/manipulating the resulting data. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: Instructor's consent (Instrument time is limited; graduate students who will use the instruments in their research will have priority)

GEOL 7800: Introduction to Geophysics
(cross-leveled with GEOL 4800). Introduction to the fundamentals of geophysical methods and their applications in geology, environmental studies, and exploration. Topics include seismic, gravity, magnetic, and electric methods.

Credit Hours: 3
Prerequisites: GEOL 1100 or GEOL 1150 or GEOL 1200 and MATH 1700 or instructor's consent

GEOL 7990: Research in Geological Sciences-Masters
Does not lead to dissertation.

Credit Hour: 1-8

GEOL 8002: Topics in Geological Sciences
Organized study of selected topics. May be repeated with departmental consent.

Credit Hours: 3
Prerequisites: PhD standing, instructor's consent

GEOL 8050: Research in Geological Sciences-Masters Non-Thesis
Research leading to a non-thesis Masters project. Graded on S/U basis only.

Credit Hour: 1-3

GEOL 8085: Problems in Geological Sciences
Credit Hour: 1-8
Prerequisites: instructor's consent

GEOL 8090: Research in Geological Sciences-Masters Thesis
Preparation of dissertation. Graded on a S/U basis only.

Credit Hour: 1-99

GEOL 8100: Continental Tectonics
The structural, metamorphic, and igneous evolution of mountain belts and continental rifts with emphasis on convergent margin settings and terrane accretion processes and products. Case studies are considered from the Precambrian to the recent.

Credit Hours: 3
Prerequisites: GEOL 3650 and GEOL 4900

GEOL 8140: Metamorphic Petrology
Petrography and petrology of metamorphic rocks. Emphasis on textures, mineral assemblages, and mineral chemistry in order to determine the physico-chemical condition of metamorphism.

Credit Hours: 3
Prerequisites: GEOL 3250 and GEOL 4900

GEOL 8150: Earthquake Seismology

Credit Hours: 3
Prerequisites: GEOL 8320

GEOL 8160: Igneous Petrology
Studies of the origin and evolution of magmas with use of phase equilibria, physical properties, and kinetics.

Credit Hours: 3
Prerequisites: GEOL 3250 and GEOL 4900

GEOL 8170: Radiogenic Isotope Geochemistry
Studies of the application of trace element and radiogenic isotope systematics to petrogenesis of rocks.

Credit Hours: 3
Prerequisites: GEOL 4900

GEOL 8190: Advanced Paleontology
Principles of taxonomy, biostratigraphy, functional morphology and paleoecology are illustrated by individual projects that combine field collecting, laboratory examination and literature research.

Credit Hours: 3
Prerequisites: GEOL 4550

GEOL 8200: Advanced Structural Geology

Credit Hours: 3
Prerequisites: GEOL 3650

GEOL 8240: Hydrogeologic Processes
Quantitative analysis of role of groundwater in major geologic processes. Theory review of fluid flow, heat transport, reactive solute transport in
porous media. Applications to sedimentary diagenesis, hydrothermal ore deposits, petroleum migration, earthquakes, magmatism, metamorphism.

**Credit Hours:** 3  
**Prerequisites:** GEOL 4100 or GEOL 7100 or equivalent

**GEOL 8300: Precambrian History**  
Coupled evolution of the biosphere, lithosphere, hydrosphere, and atmosphere over the span of Precambrian history. Topics will be discussed largely in the context of biological evolutionary events and the fossil record, as well as with a focus on geochemical records.

**Credit Hours:** 3

**GEOL 8320: Introduction to Seismology**  

**Credit Hours:** 3  
**Prerequisites:** PHYSCS 2760, MATH 4500 and CMP_SC 1050

**GEOL 8450: Tectonics and Sedimentation**  
Global survey of modern and ancient convergent plate boundaries with an emphasis on sedimentary facies and structural styles.

**Credit Hours:** 3  
**Prerequisites:** GEOL 3650, GEOL 3800 and instructor's consent

**GEOL 8510: Geodynamics**  
This course is designed to cover the fundamentals of the quantitative aspects of Plate Tectonics. The study of these subjects generally referred to as Geodynamics or Geodynamic Theory. This theory revolutionized the earth sciences and the way people think of earth processes. By definition Geodynamics is an interdisciplinary paradigm therefore it is necessary to cover a wide range of topics from heat transfer to gravity. This course will overlap with subjects covered in both Plate Tectonics and Geophysics but we will emphasize the quantitative aspects of this theory in this course.

**Credit Hours:** 3  
**Prerequisites:** MATH 1700, PHYSCS 2760

**GEOL 8550: Stable Isotope Geochemistry**  
Mechanisms and fundamental concepts of fractionation of light stable isotopes in nature. Emphasizes application of hydrogen, carbon, oxygen and sulfur isotopes to igneous, metamorphic and sedimentary rocks, metallic ore deposits, and to natural waters.

**Credit Hours:** 3  
**Prerequisites:** instructor's consent

**GEOL 8650: Thermal Processes in the Solid Earth**  
Principles of heat transfer in solid earth by conduction, advection and convection. Basic analytic and numerical solutions. Application in Earth's dynamic system, environmental sciences, and geological problems.

**Credit Hours:** 3  
**Prerequisites:** MATH 1700, PHYSCS 1220 or PHYSCS 2760

**GEOL 8750: Silicate Glasses, Liquids and Magmas**  
Theory of silicate liquid viscosity, heat capacity and configurational entropy, emphasizing the role of volatile components. Applications to magma rheology and eruptive behavior. Lab instruction in viscometry techniques.

**Credit Hours:** 3  
**Prerequisites:** GEOL 4900 and GEOL 4700, or instructor's consent

**GEOL 8800: Applied Numerical Analysis**  
A study of applied mathematical analysis of spatial and temporal data as applied in the geosciences.

**Credit Hours:** 3  
**Prerequisites:** MATH 1700 or MATH 2300, PHYSCS 1220 or PHYSCS 2760

**GEOL 8990: Research**  
Does not lead to dissertation.

**Credit Hour:** 1-8

**GEOL 9090: Research in Geological Sciences-Doctoral Dissertation**  
Preparation of dissertation. Graded on a S/U basis only.

**Credit Hour:** 1-99

**German (GERMAN)**

**GERMAN 1100: Elementary German I**  
For beginners with no prior knowledge of German. This course helps learners develop the skills they need to use German as a means of communication in their personal and professional life. It covers a wide variety of vocabulary pertaining to everyday life; emphasis is on all types of communication--oral and listening skills, reading and writing.

**Credit Hours:** 5

**GERMAN 1100H: Elementary German I - Honors**  
This course is designed for Honors students with little or no German language background and will provide students with a foundation in vocabulary and grammar in order to develop communication proficiency in German. Students will be trained using the five skills: listening, speaking, writing, reading and cultural knowledge. The course will be taught as a total immersion class and thus differs from the standard elementary German sequence. Furthermore, students will be required to complete longer reading and writing tasks as well as present a final oral multimedia project at the end of the semester.

**Credit Hours:** 5  
**Prerequisites:** Honors eligibility required

**GERMAN 1150: Freshman Introduction to German Studies**  
Introduction to German Studies as academic field. Small seminar setting with senior faculty, their favorite texts, and questions pursued in the research and teaching. Recommended for all students interested in integrating German studies into their academic career, conducted in English.

**Credit Hour:** 1  
**Prerequisites:** Restricted to Freshman students only
GERMAN 1200: Elementary German II
A continuation of GERMAN 1100. This course helps learners develop
the skills they need to use German as a means of communication in
their personal and professional life. It covers a wide variety of vocabulary
pertaining to everyday life; emphasis is on all types of communication -
oral and listening skills, reading and writing.

Credit Hours: 5
Prerequisites: C- or better in GERMAN 1100, or equivalent

GERMAN 1200H: Elementary German II - Honors
This course is designed for Honors students who either took the
GERMAN 1100H section or are placing into GERMAN 1200 as honors
eligible students. The main focus of this course is on further development
of basic communication skills in speaking, listening, reading, and
writing in German adding more nuanced cultural and sociolinguistic
competencies in a total immersion environment.

Credit Hours: 5
Prerequisites: Honors eligibility required

GERMAN 2001: Undergraduate Topics in German-General
Organized study of selected topics. Subjects and credits may vary from
semester to semester. May be repeated with departmental consent.

Credit Hour: 1-3

GERMAN 2005: Undergraduate Topics in German-Humanities
Organized study of selected topics. Subjects and credits may vary from
semester to semester. May be repeated with departmental consent. No
language credit.

Credit Hour: 1-3

GERMAN 2100: Intermediate German I
A continuation of GERMAN 1200. This course helps learners develop
the skills they need to use German as a means of communication in
their personal and professional life. It covers a wide variety of vocabulary
pertaining to everyday life; emphasis is on all types of communication -
oral and listening skills, reading and writing.

Credit Hours: 3
Prerequisites: C- or better in GERMAN 1200, or equivalent

GERMAN 2260: Intermediate German II: Language and Culture
This course continues to help learners develop the necessary
communicative skills in German. The particular emphasis is on oral and
writing skills, and texts that provide insight into contemporary German
culture and social life.

Credit Hours: 3
Prerequisites: C- in GERMAN 2100 or equivalent

GERMAN 2310: German Civilization: Beginning to 1850
Major historical, social, artistic, literary themes from beginnings to end of
Revolution of 1848. Films and recordings. May be taken independently of
GERMAN 2320. No foreign language credit. Some sections may enforce
prerequisite of ENGLSH 1000.

Credit Hours: 3

GERMAN 2310W: German Civilization: Beginning to 1850 - Writing
Intensive
Major historical, social, artistic, literary themes from beginnings to end of
Revolution of 1848. Films and recordings. May be taken independently of
GERMAN 2320. No foreign language credit. Some sections may enforce
prerequisite of ENGLSH 1000.

Credit Hours: 3

GERMAN 2320: German Civilization: 1850 to Present
Second Empire, Weimar Republic, Nazi era, two Germanies after 1949.
Historical, social, artistic, literary themes. Films and recordings. May be
taken independently of GERMAN 2310. No foreign language credit.

Credit Hours: 3
Prerequisites: some sections may enforce prerequisite of ENGLSH 1000

GERMAN 2320W: German Civilization: 1850 to Present - Writing
Intensive
Second Empire, Weimar Republic, Nazi era, two Germanies after 1949.
Historical, social, artistic, literary themes. Films and recordings. May be
taken independently of GERMAN 2310. No foreign language credit.

Credit Hours: 3
Prerequisites: some sections may enforce prerequisite of ENGLSH 1000

GERMAN 2820: Trends in World Cinema
(same as FILM_S 2820 and RM_LAN 2820). This course is a historical
overview of the major trends in international cinema. It focuses on the
intersection of aesthetics, industry, and ideological and social concerns in
cinematic production.

Credit Hours: 3
Prerequisites: sophomore standing, ENGLSH 1800 or FILM_S 1800 or
instructor's consent

GERMAN 3001: Topics in German-General
Organized study of selected topics. Subjects and earnable credit may
vary from semester to semester. May be repeated to a maximum of 6
hours with departmental consent.

Credit Hour: 1-3
Prerequisites: instructor's consent
Recommended: sophomore standing

GERMAN 3005: Topics in German-Humanities
Organized study of selected topics. Subjects and earnable credit may
vary from semester to semester. May be repeated to a maximum of 6
hours with departmental consent.

Credit Hour: 1-3
Prerequisites: instructor's consent

GERMAN 3160: German Conversation and Composition
This course expands communicative competence in German and
provides a review of advanced grammar concepts. Primary emphasis
is on the further development of oral and written skills, reading
comprehension, vocabulary expansion, and a broad exposure to relevant
GERMAN 3180: Business German
Examines language within the economic and professional context of German-speaking countries. Introduces different economic concepts of Germany's turbulent 20th century, modern-day business systems and everyday commercial activities such as job applications, professional routines, capital investment and banking. Provides students with vocabulary, cultural knowledge and communicative abilities in order to participate in the professional German-speaking world using linguistically-solid and stylistically-persuasive writing and speaking skills.

Credit Hours: 3
Prerequisites: GERMAN 2260 or equivalent

GERMAN 3190: Contemporary German Culture
This content-driven course provides insights into essential subjects of 20th century German history and contemporary society, using a variety of literature, journalistic sources and film. The course will improve German conversation and literacy skills, and will strengthen critical reading and writing, as well as interpretative abilities. Significant grammatical concepts will be thoroughly reviewed throughout the semester. Conducted in German.

Credit Hours: 3
Prerequisites: GERMAN 2260 or instructor's consent

GERMAN 3230: Introduction to German Literature
This course introduces students to German-language literary texts, images, and films in their cultural and historical context through exposure to major genres (poetry, drama, short stories, and the novel). It further builds their vocabulary and teaches them critical interpretive skills as preparation for the analysis of literary texts in upper-division courses - and in life.

Credit Hours: 3
Prerequisites: C- or better in either GERMAN 3160 or GERMAN 3190

GERMAN 3320: Readings in German Literature
Readings in English of selected works of German literature from Goethe to the present, with a particular emphasis on writers and texts that have had a strong influence on European thought and culture.

Credit Hours: 3
Prerequisites: sophomore standing, ENGLISH 1000

GERMAN 3510: Think Global: Fundamentals of Globalization and Digital Technologies
Looks at the genre of fairytales, studies the historical context of the genesis of the collection of tales, and modern versions of the tales. Compares and contrasts Grimm's fairytales with folktales of different cultural traditions, analyzes and identifies the formal structure of fairytales and motifs, discusses various interpretive models/perspectives and juxtaposes several historical and contemporary literary fairytales and fairytale adaptations. Cultural unit examples will be on Mongolian culture and history and the Maori culture of New Zealand. Students are expected to create their own cultural unit based on the course's units. Course is taught in English.

Credit Hours: 3
Prerequisites: Sophomore standing or instructor's consent
GERMAN 3520H: Folk and Fairytales in a Global Context
Analyzes the most famous European collection of fairytales, namely the Kinder-und Hausmarchen (Children's and Household Tales) by the Brothers Grimm and juxtaposes them to folktales from other cultures. Looks at the genre of fairytales, studies the historical context of the genesis of the collection of tales, and modern versions of the tales. Compares and contrasts Grimm's fairytales with folktales of different cultural traditions, analyzes and identifies the formal structure of fairytales and motifs, discusses various interpretive models/perspectives and juxtaposes several historical and contemporary literary fairytales and fairytale adaptations. Cultural unit examples will be on Mongolian culture and history and the Maori culture of New Zealand. Students are expected to create their own cultural unit based on the course's units. Course is taught in English.

Credit Hours: 3
Prerequisites: sophomore standing required. Honors eligibility required

GERMAN 3520HW: Folk and Fairytales in a Global Context - Honors/ Writing Intensive
Analyzes the most famous European collection of fairytales, namely the Kinder-und Hausmarchen (Children's and Household Tales) by the Brothers Grimm and juxtaposes them to folktales from other cultures. Looks at the genre of fairytales, studies the historical context of the genesis of the collection of tales, and modern versions of the tales. Compares and contrasts Grimm's fairytales with folktales of different cultural traditions, analyzes and identifies the formal structure of fairytales and motifs, discusses various interpretive models/perspectives and juxtaposes several historical and contemporary literary fairytales and fairytale adaptations. Cultural unit examples will be on Mongolian culture and history and the Maori culture of New Zealand. Students are expected to create their own cultural unit based on the course's units. Course is taught in English.

Credit Hours: 3
Prerequisites: sophomore standing required. Honors eligibility required

GERMAN 3520W: Folk and Fairytales in a Global Context - Writing Intensive
Analyzes the most famous European collection of fairytales, namely the Kinder-und Hausmarchen (Children's and Household Tales) by the Brothers Grimm and juxtaposes them to folktales from other cultures. Looks at the genre of fairytales, studies the historical context of the genesis of the collection of tales, and modern versions of the tales. Compares and contrasts Grimm's fairytales with folktales of different cultural traditions, analyzes and identifies the formal structure of fairytales and motifs, discusses various interpretive models/perspectives and juxtaposes several historical and contemporary literary fairytales and fairytale adaptations. Cultural unit examples will be on Mongolian culture and history and the Maori culture of New Zealand. Students are expected to create their own cultural unit based on the course's units. Course is taught in English.

Credit Hours: 3
Prerequisites: sophomore standing required

GERMAN 3550: Resistance is Futile: The Advance of the Cyborg
Contemporary culture is haunted by the image of artificial killing machine as metaphor for technology run rampant. Fears may be prompted by feelings of alienation in automated society and underlying suspicion that humans may be nothing more than sophisticated machines. Course maps history of l'homme machine, focusing on fictional representation of creatures that consist of both human and technological "parts." Goal is to discern source of fascination and sociopolitical mechanism behind evocation of "human machine."

Credit Hours: 3
Prerequisites: Sophomore standing or consent of instructor

GERMAN 3830: History of the German Film
(same as FILM_S 3830). Introduction to the development of the German film. Old and recent films are viewed and discussed in terms of techniques, artistry, psychology and social impact. English dubbing or subtitles. No foreign language credit.

Credit Hours: 3
Prerequisites: sophomore standing or instructor's consent

GERMAN 3865: The Holocaust on Screen
(same as FILM_S 3865). This course explores how the Holocaust has been depicted on film in a variety of national and historical contexts. Drawing on films from 1945 to the present, from the U.S., Germany, Poland, France, and Italy, we will consider to what end images of the Holocaust have been used. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: GERMAN 2260, or instructor's consent

GERMAN 4001: Topics in German-General
Organized study of selected topics. Subjects and earnable credit may vary from semester to semester. May be repeated to a maximum of 6 hours with departmental consent.

Credit Hour: 1-3
Prerequisites: instructor's consent
Recommended: junior standing

GERMAN 4005: Topics in German-Humanities
Organized study of selected topics. Subjects and earnable credit may vary from semester to semester. May be repeated to a maximum of 6 hours with departmental consent.

Credit Hour: 1-3
Prerequisites: instructor's consent
Recommended: junior standing

GERMAN 4005H: Topics in German-Humanities - Honors
Organized study of selected topics. Subjects and earnable credit may vary from semester to semester. May be repeated to a maximum of 6 hours with departmental consent.

Credit Hour: 1-3
Prerequisites: junior standing and instructor's consent. Honors eligibility required
GERMAN 4005W: Topics in German-Humanities - Writing Intensive
Organized study of selected topics. Subjects and earnable credit may vary from semester to semester. May be repeated to a maximum of 6 hours with departmental consent.
Credit Hours: 1-3
Prerequisites: instructor's consent
Recommended: junior standing

GERMAN 4070: Intensive Beginning German
Designed to lead to a reading knowledge of German. Cannot be taken to fulfill undergraduate language requirement.
Credit Hours: 3
Prerequisites: graduate standing or instructor's consent

GERMAN 4160: Advanced Language Proficiency
(cross-leveled with GERMAN 7160). A course for intermediate to advanced students of German. This course helps learners develop further the necessary communicative skills in German. The particular emphasis is on oral and writing skills, and texts that provide insight into contemporary German culture and social life.
Credit Hours: 3
Prerequisites: GERMAN 3230 or equivalent language capacity

GERMAN 4220: Eerie Tales: Classic German Narratives
In this class, we will read classic uncanny tales in German by major authors, and will explore the traits of this category across a variety of literary movements.
Credit Hours: 3
Prerequisites: GERMAN 3230 or equivalent language capacity

GERMAN 4230: Enlightenment and Revolution
Reading and discussion of selected works by major German writers from 1740 to 1870.
Credit Hours: 3
Prerequisites: GERMAN 3230 or equivalent

GERMAN 4240: Modernism and Modernity
Reading and discussion of selected works by major German writers from 1870 to the present.
Credit Hours: 3
Prerequisites: GERMAN 3230 or equivalent

GERMAN 4260: Recent German Literature
This course examines 'post-unification' works (i.e. by formerly East and West German authors) of literature and film written since 1989 that addresses social and political changes leading to or resulting from unification and the experience of WWII. Students will analyze the diverse cultural, political and economic factors that influence writers and filmmakers whose aesthetic production in turn helps shape contemporary German society.
Credit Hours: 3
Prerequisites: GERMAN 3230

GERMAN 4730: German Internship and Methods
(cross-leveled with GERMAN 7730). Supervised introduction to the methodology of the teaching of elementary German; conducted in a classroom environment.
Credit Hours: 3
Prerequisites: junior standing, GERMAN 4230, or instructor's consent

GERMAN 4810: Case Studies in an Inter/Multicultural World
(same as T_A_M 4810, PEA_ST 4810, DST 4805). This inter-departmental course examines the ways in which people across the globe are affected every day by an unprecedented array of linkages that defy geographic and political boundaries. Also serves as one of the seminars for the certificate in Digital Global Studies. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: Sophomore standing; 2.75 GPA or instructor's consent

GERMAN 4820: Blogging the World: The Web in Cultural Context
(same as FRENCH 4820 and RUSS 4820). Innovative interdisciplinary course addresses issues of access to international news and specific cultural context working in cross-disciplinary teams. Students in journalism, foreign language, international studies, political science and various other disciplines track cultural developments and information on non-US Web sites, blogs and digital social networks along with exploring various historical forms of communication that preceded the digital era of the Web. Students analyze the potential and limitations/ effects of blogs and the web in specific contemporary cultural contexts and as part of the broader historical evolution of the web. The course is taught in English. The goal of this course is two-fold; students learn the particulars of web blogging, explore various features of the contemporary social network landscape while focusing on the concept of culture, in particular the cultures of Europe and the US. Questions asked are: what is culture? What is common or popular right now in other cultures? And how do new social networks amplify or alter certain features or culture across national and international contests?
Credit Hours: 3
Prerequisites: sophomore standing required

GERMAN 4820W: Blogging the World: The Web in Cultural Context - Writing Intensive
(same as FRENCH 4820 and RUSS 4820). Innovative interdisciplinary course addresses issues of access to international news and specific cultural context working in cross-disciplinary teams. Students in journalism, foreign language, international studies, political science and various other disciplines track cultural developments and information on non-US Web sites, blogs and digital social networks along with exploring various historical forms of communication that preceded the digital era of the Web. Students analyze the potential and limitations/ effects of blogs and the web in specific contemporary cultural contexts and as part of the broader historical evolution of the web. The course is taught in English. The goal of this course is two-fold; students learn the particulars of web blogging, explore various features of the contemporary social network landscape while focusing on the concept of culture, in particular the cultures of Europe and the US. Questions asked are: what is culture? What is common or popular right now in other cultures? And how do new social networks amplify or alter certain features or culture across national and international contests?
GERMAN 4960: Special Readings in German  
Independent study through readings, conferences, and reports.  
Credit Hours: 1-3  
Prerequisites: instructor's consent  
Recommended: junior standing

GERMAN 4980: German Capstone Seminar  
(cross-leveled with GERMAN 7980). Required of all senior German majors; usually taken in the senior year. Focuses on contemporary Germany and brings together aspects of German literature and culture studies during the degree program.  
Credit Hours: 3  
Prerequisites: senior standing or departmental consent

GERMAN 7001: Topics in German-General  
Organized study of selected topics. Subjects and earnable credit may vary from semester to semester. May be repeated to a maximum of 6 hours with departmental consent.  
Credit Hour: 1-3

GERMAN 7005: Topics in German - Humanities  
Organized study of selected topics. Subjects and earnable credit may vary from semester to semester. May be repeated to a maximum of 6 hours with departmental consent.  
Credit Hour: 1-99

GERMAN 7085: Problems in German  
Credit Hour: 1-3  
Prerequisites: chairman's consent

GERMAN 7160: German Conversation and Composition III  
(cross-leveled with GERMAN 4160). A course for intermediate to advanced students of German. This course helps learners develop further the necessary communicative skills in German. The particular emphasis is on oral and writing skills, and texts that provide insight into contemporary German culture and social life.  
Credit Hours: 3  
Prerequisites: GERMAN 3230 or equivalent

GERMAN 7650: Faust  
(cross-leveled with GERMAN 4650). Faust.  
Credit Hours: 3  
Prerequisites: GERMAN 4230 or equivalent

GERMAN 7670: Medieval German Literature 1170-1210  
(cross-leveled with GERMAN 4670). Analysis of major narrative and lyric poetry of the Age of Chivalry.  
Credit Hours: 3  
Prerequisites: GERMAN 4230 or equivalent

GERMAN 7730: German Internship and Methods  
(cross-leveled with GERMAN 4730). Supervised introduction to the methodology of the teaching of elementary German; conducted in a classroom environment.  
Credit Hours: 3  
Prerequisites: GERMAN 4230 or equivalent, or instructor's consent

GERMAN 7960: Special Readings in German  
Independent study through readings, conferences, and reports.  
Credit Hour: 1-3  
Prerequisites: instructor's consent

GERMAN 7980: German Capstone Seminar  
(cross-leveled with GERMAN 4980). Focuses on contemporary Germany and brings together aspects of German literature and culture studies during the degree program.  
Credit Hours: 3  
Prerequisites: one 3000-level literature course or equivalent, or instructor's consent

GERMAN 8005: Topics in German - Humanities  
Organized study of selected topics. Subjects and earnable credit may vary from semester to semester. May be repeated to a maximum of 6 hours with departmental consent.  
Credit Hour: 1-99

GERMAN 8050: Research in German  
Translations or creative work not leading to thesis. Credit hours arranged.  
Credit Hour: 1-3

GERMAN 8085: Problems in German  
Credit Hour: 1-3  
Prerequisites: graduate director's consent

GERMAN 8087: Seminar in German  
Course content varies.  
Credit Hours: 3

GERMAN 8090: Research in German  
Graded on S/U basis only.  
Credit Hour: 1-3  
Prerequisites: graduate director's consent

Graduate School (GRAD)

GRAD 4010: Preparing To Be A Graduate Teaching Assistant  
Provides an understanding of the roles and responsibilities of teaching assistants to prepare students for graduate school. Learning will take place through observation, lecture, reading and discussion. Graded on S/U basis only.  
Credit Hour: 1
**GRAD 7302: Tools for Teaching American Students**
Emphasis on advanced academic listening, discrete pronunciation skills, techniques for laboratory teaching and one-to-one interactions. Integrated with a general overview of American classroom culture.

**Credit Hours:** 4

**GRAD 7303: Communication and Culture for American College Teaching**
This class will focus on the linguistic aspects of teaching, as well as specific pedagogical and cultural aspects of the American classroom. It will emphasize fluency development at the suprasegmental level, and interactive teaching skills, like organizational, questioning and compensation strategies.

**Credit Hours:** 4

**GRAD 9001: Topics in Graduate School**
Organized study of selected professional and career development topics. Subjects and course credit may vary from semester to semester.

**Credit Hour:** 1-99
**Prerequisites:** instructor's and academic advisor's consent

**GRAD 9010: Preparing Future Faculty I**
First course in a two-semester Preparing Future Faculty program that introduces Ph.D. students to a variety of faculty roles and work environments. Graded on S/U basis only.

**Credit Hour:** 1
**Prerequisites:** instructor's consent

**GRAD 9020: Preparing Future Faculty II**
Second course in a two-semester Preparing Future Faculty program that introduces Ph.D. students to a variety of faculty roles and work environments. Topics build upon those presented in GRAD 9010 and focus on the job search and career development processes. Graded on S/U basis only.

**Credit Hour:** 1
**Prerequisites:** GRAD 9010

**GRAD 9050: Preparing Future Professionals for Post-Graduate Studies Careers**
Specialized leadership and transferable skills course that helps students recognize their potential and versatility for careers within and beyond the academy. Beyond leadership theory, the course is framed by 4 competency areas: 1) Analytic competencies; 2) Personal competencies; 3) Communication competencies and 4) Organizational competencies.
Learning is enhanced with short text readings and videos in the course management system. Guest speakers. To pass the course, students must attend class; complete a self-assessment; complete an informational interview or job shadow with a leader of choice; and submit 3 short assignments including an Individual Development Plan with goals. Graded on S/U basis only.

**Credit Hour:** 1

**GRAD 9072: Science Policy and Public Engagement**
It is important the STEM professionals to understand the intersections between science, politics, and society to understand how the decisions that affect them are made. Junior scholars who understand the goals and implications of publicly funded science will likely have an advantage when seeking jobs and funding. This program also will explore numerous careers in the science policy realm.

**Credit Hours:** 3

**GRAD 9082: Science Policy and Public Engagement**
It is important the STEM professionals to understand the intersections between science, politics, and society to understand how the decisions that affect them are made. Junior scholars who understand the goals and implications of publicly funded science will likely have an advantage when seeking jobs and funding. This program also will explore numerous careers in the science policy realm.

**Credit Hour:** 1

**GRAD 9304: Instructional and Communication Strategies for Effective College Teaching**
This class will focus on teaching and presentation strategies such as lesson design, using case studies and problem based learning, interactive learning, and classroom and course management. The linguistic emphasis will be on reduction, linking and speech patterns as well as pragmatic issues of organizing, clarifying and emphasizing ideas. Requires an MU Oral Language Proficiency Assessment score of 3 and course consent. Graded on A-F basis only.

**Credit Hours:** 4
**Prerequisites:** ITAP language level 3P or GRAD 7303 and level 2; consent required

### Grammar (Intensive English Program) (IEPG)

**IEPG _0001: Grammar with Writing I**
Students will learn to recognize and use basic grammatical structures. Students will use these structures to produce basic sentences and short paragraphs on topics from daily life. Not open to native speakers of English. No college credit.

**Credit Hours:** 3
**Prerequisites:** must be admitted to the IEP program and placed into the course by the IEP; department consent required

**IEPG _0002: Grammar II**
Students will learn low-intermediate grammatical structures including modals, simple and progressive verb tenses, and expressions of quantity. Not open to native speakers of English. No college credit.

**Credit Hours:** 3
**Prerequisites:** must be admitted to the IEP program and placed into the course by the IEP; department consent required

**IEPG _0030: Grammar for Academic Purposes III**
Students will learn intermediate grammatical structures including present perfect tense, simple gerunds and infinitives, comparatives and superlatives, and restrictive adjective clauses. Not open to native speakers of English. No college credit.

**Credit Hours:** 3
Prerequisites: must be admitted to the IEP program and placed into the course by the IEP; consent of department required

IEPG _0040: Grammar for Academic Purposes IV
Students will learn high-intermediate grammatical structures including past perfect tense, passive voice, noun clauses, adjective clauses, and adverb clauses. Not open to native speakers of English. No college credit.
Credit Hours: 3
Prerequisites: must be admitted to the IEP program and placed into the course by the IEP; consent of department required

IEPG _0050: Grammar for Academic Purposes V
Students will learn advanced grammatical structures including passive and perfect modals, passive gerunds and infinitives, conditionals, and reported speech. Not open to native speakers of English. No college credit.
Credit Hours: 3
Prerequisites: must be admitted to the IEP program and placed into the course by the IEP; consent of department required

Greek (GREEK)

GREEK 1100: Elementary Ancient Greek I
Study of forms, grammar, syntax. Early attention to reading in simple Attic prose.
Credit Hours: 5

GREEK 1100H: Elementary Ancient Greek I - Honors
Study of forms, grammar, syntax. Early attention to reading in simple Attic prose.
Credit Hours: 5
Prerequisites: Honors eligibility required

GREEK 1200: Elementary Ancient Greek II
Continuation of GREEK 1100. Readings in Attic prose.
Credit Hours: 5
Prerequisites: GREEK 1100

GREEK 1200H: Elementary Ancient Greek II - Honors
Continuation of GREEK 1100. Readings in Attic prose.
Credit Hours: 5
Prerequisites: GREEK 1100, Honors eligibility required

GREEK 2000: Greek Reading
Selected works of Greek literature.
Credit Hours: 3
Prerequisites: GREEK 1200

GREEK 2000H: Greek Reading - Honors
Selected works of Greek literature.
Credit Hours: 3
Prerequisites: GREEK 1200, Honors eligibility required

GREEK 3000: Intermediate Readings
Selected advanced readings in prose and poetry. Introduction to Homer.
Credit Hours: 3
Prerequisites: GREEK 2000

GREEK 4000: Greek Stylistics
Study and practice of Greek prose, with special consideration to basic problems: abstract expression, word order, sentence structure and use of common rhetorical devices.
Credit Hours: 3
Recommended: GREEK 4300

GREEK 4100: Greek Tragedy
Selected works of Aeschylus, Sophocles, Euripides, with special attention to language, style, ideas, and dramatic techniques.
Credit Hours: 3
Recommended: GREEK 4300

GREEK 4200: Greek Comedy
Selected plays of Aristophanes and Menander, with special attention to cultural contexts.
Credit Hours: 3
Recommended: GREEK 4300

GREEK 4300: Greek Lyric Poetry
Selected readings from lyric poets, with attention to verse forms, and dialects.
Credit Hours: 3
Recommended: GREEK 4300

GREEK 4400: Greek Oratory
Selections from Greek orators, with emphasis on Lysias and Demosthenes.
Credit Hours: 3
Recommended: GREEK 4300

GREEK 4500: Greek Historians
Reading and analysis of selected texts of major Greek historians.
Credit Hours: 3
Recommended: GREEK 4300

GREEK 4600: Survey of Greek Literature
Greek literature from origins to end of Roman period; emphasis on authors not covered in other courses, to provide general view of styles and genres.
Credit Hours: 3
Recommended: GREEK 4300

GREEK 4700: Special Readings in Greek
Readings in authors and texts not covered in other courses.
Credit Hours: 3
Recommended: GREEK 4300
GREEK 7300: Intermediate Readings in Greek
Selected advanced readings in prose and poetry. Introduction to Homer.
Credit Hours: 3
Prerequisites: GREEK 2000 or equivalent. Available to students for graduate credit in departments other than Classical Studies.

GREEK 7500: Greek Stylistics
Study and practice of general Greek prose tendencies, with special consideration to basic problems: abstract expression, word order, sentence structure and use of common rhetorical devices.
Credit Hours: 3

GREEK 7510: Greek Tragedy
Selected works of Aeschylus, Sophocles, Euripides, with special attention to language, style, ideas, and dramatic techniques.
Credit Hours: 3
Prerequisites: two years Classical Greek or equivalent.

GREEK 7520: Greek Comedy
Selected plays of Aristophanes and Menander, with special attention to cultural contexts.
Credit Hours: 3
Prerequisites: two years Classical Greek or equivalent.

GREEK 7530: Greek Lyric Poetry
Selected readings from lyric poets, with attention to verse forms, and dialects.
Credit Hours: 3
Prerequisites: two years Classical Greek or equivalent.

GREEK 7540: Greek Oratory
Selections from Greek orators, with emphasis on Lysias and Demosthenes.
Credit Hours: 3
Prerequisites: two years Classical Greek or equivalent.

GREEK 7560: Greek Historians
Reading and analysis of selected texts of major Greek historians.
Credit Hours: 3
Prerequisites: two years Classical Greek or equivalent.

GREEK 7960: Special Readings in Greek
Readings in authors and texts not covered in other courses.
Credit Hours: 1-3
Prerequisites: departmental consent and two years Classical Greek or equivalent.

GREEK 8000: Proseminar in Greek Texts
This is a seminar-level introduction to Greek literary and historical texts. The emphasis in this course will be on wide and intensive reading, with the objective of helping the new graduate student quickly develop a sound literary and linguistic competence.

GREEK 8010: Greek Rough Guide
Intensive exploration of Greek Literature from its earliest appearance through the Roman period. Emphasis upon texts as both literary and cultural artifacts whose interpretation requires familiarity with the historical and archaeological legacy of antiquity as well as modern exegetical strategies. Graded on A-F basis only.
Credit Hours: 3

GREEK 9287: Seminar in Greek Drama
May be repeated to a maximum of 6 hours.
Credit Hours: 3

GREEK 9487: Seminar in the Greek Philosophers
Seminar in the Greek Philosophers.
Credit Hours: 3

GREEK 9887: Seminar in Special Fields
Seminar in Special Fields.
Credit Hours: 3

Health Management and Informatics (HMI)

HMI 4420: Fundamentals of Bioinformatics
(cross-leveled with HMI 7420). The purpose of this course is to provide perspective on the fundamentals of exploration of biological knowledge using computers. As technologies such as microarray, sequencing, and biomarkers become more pervasive, they are impacting not only the development of science, but also domains such as health care, nutrition, and ethics. This course provides a description of fundamental bioinformatics concepts such as sequencing, proteomics, metabolomics, and biological pathways, and illustrates them with short informatics experiments. Mainly online resources will be used, so no programming is necessary. Also, the course includes a short primer of molecular biology, so background in molecular biology is not required.
Credit Hours: 3
Prerequisites: Departmental consent required.

HMI 4440: Health Information Technology
(cross-leveled with HMI 7440). In this course, the student will learn 1) the visual basic programming language and how to design a visual basic application 2) the SQL database language and how to design and operate a database, and 3) HTML, HTML5, javascript and vbscript languages and how to design a client-server database application using Visual Basic and a web database application. Applications will be healthcare focused.
Credit Hours: 3
Prerequisites: Departmental consent required.
HMI 7410: Introduction to the US Health Care System
This is a survey course about the American health system, meant to provide a conceptual foundation for students to think critically about the US health system and to build upon their future related courses. It includes concepts and language in health care, public health, and personal health and provides an understanding of how these domains of health interrelate. Particular focus is given to health care delivery, including how health care services are organized, delivered, paid for, and measured. Selected key, forward-looking issues are covered. The roles of management, leadership, and physicians are highlighted. A resource bank and regular flow of good information sources is developed. Business writing skills are emphasized.

Credit Hours: 3

HMI 7420: Fundamentals of Bioinformatics
(cross-leveled with HMI 4420). The purpose of this course is to provide perspective on the fundamentals of exploration of biological knowledge using computers. As technologies such as microarray, sequencing, and biomarkers become more pervasive, they are impacting not only the development of science, but also domains such as health care, nutrition, and ethics. This course provides a description of fundamental bioinformatics concepts such as sequencing, proteomics, metabolomics, and biological pathways, and illustrates them with short informatics experiments. Mainly online resources will be used, so no programming is necessary. Also, the course includes a short primer of molecular biology, so background in molecular biology is not required.

Credit Hours: 3
Prerequisites: Open to undergraduates with dual enrollment

HMI 7430: Introduction to Health Informatics
(same as INFOINST 7430). Introduction to the use of clinical information systems in healthcare. Topics include clinical data, standards, electronic medical records, computerized provider order entry, decision support, telemedicine, and consumer applications.

Credit Hours: 3
Prerequisites: departmental consent

HMI 7431: Foundation of Public Health Informatics
This course will cover foundational knowledge relevant to Public Health Informatics (PHI). The purpose of this course is to expose students to emerging research and application areas in the field of PHI. It will enhance abilities to know when and how to use theories, concepts, and tools of informatics applied to public health. The emphasis of the course is on the use of informatics tools and practices in public health and the existing and evolving relationship between clinical and public health systems. The focus is on PHI including topics such as data exchange and standards, interoperability, use of informatics tools, applying informatics to public health communication and dissemination, surveillance systems, public health policy and project management.

Credit Hours: 3

HMI 7432: Health Database Management and Public Health Data Systems
This course will cover foundational knowledge relevant to database management and public health data systems for Public Health Informatics (PHI). The purpose of this course is to provide students with concepts relevant to the effective use of data, information, and knowledge tools to build, manage, merge, retrieve, and analyze public health data from appropriate health data systems. The emphasis of the course is to use, develop and adapt public health information systems as needed to support public health efforts through use of public health informatics tools and practices to support existing and evolving relationships between clinical and public health systems. The focus is to plan, develop, implement, manage and evaluate database management systems and health data systems that meet the needs of public health practice through PHI.

Credit Hours: 3

HMI 7440: Health Information Technology
(cross-leveled with HMI 4440). In this course, the student will learn 1) the visual basic programming language and how to design a visual basic application 2) the SQL database language and how to design and operate a database, and 3) HTML, HTML5, javascript and vbscript languages and how to design a client-server database application using Visual Basic and a web database application. Applications will be healthcare focused.

Credit Hours: 3
Prerequisites: college algebra and statistics

HMI 7471: Introduction to Accounting and Finance in Health Care
This course introduces the current financial environment in which providers operate and the fundamentals of financial accounting, with an emphasis on accounting and financial management principles and concepts that are critical to decision making for department-level management of health services organizations. This course provides the foundation for the second healthcare financial management course offered in the second year of this program.

Credit Hours: 3
Prerequisites: Graduate standing or consent of instructor

HMI 7564: Health Ethics Theory
An introduction to health ethics theory and methodology. We discuss metaethics and normative ethics theories, normative ethics in health ethics and methods of ethics case work up.

Credit Hours: 3

HMI 7566: Health Informatics Ethics
An introduction to how the increasing use of distance-based technologies, computers, and online communications may impact the ethical delivery of health care. Examples of questions to be addressed: Is it possible that the increasing use of computers in healthcare has made things worse? How should HIPAA be interpreted and why is there such confusion about it? Should patients be able to "post" negative comments about providers on social media sites? What should be done about the increasing amounts of personal information healthcare corporations are collecting on patients?

Credit Hours: 3

HMI 7567: Health Organizational Ethics
Examples of questions to be addressed: Should hospitals and doctors try to maximize profits? Do providers have a moral obligation to serve people who cannot pay? Is it okay to deceive an insurance company if it means better patient care? What should employees do if their employer
is committing fraud? Is it ethical for hospitals to drug-test employees and investigate their private lives? What is the ethical way to hire and fire healthcare staff? What should you do if your supervisor is evil?

Credit Hours: 3
Prerequisites: HMI 7564 or equivalent course, or permission of instructor

HMI 8090: Thesis Research in Health Management and Informatics
Research leading to a thesis. May be repeated to maximum of 9 hours.
Credit Hour: 1-6
Prerequisites: Advisor's consent

HMI 8401: Topics in Health Management and Informatics
Organized study of selected topics. Subjects will vary from semester to semester. May be repeated for credit with departmental consent.
Credit Hours: 3

HMI 8435: Information Security, Evaluation and Policy
The purpose of this course is to provide an extensive overview, practical applications and analyses of functionality and usability evaluations of health care information technology, and to discuss the impact of security on the present and future health care settings.
Credit Hours: 3

HMI 8437: Data Warehousing and Data/Text Mining for Health Care
An introduction to the basic concepts of data warehouse and data/text mining, creating an understanding of why we need those technologies and how they can be applied to healthcare problems.
Credit Hours: 3
Prerequisites: HMI 8441

HMI 8441: Biomedical and Health Vocabularies and Ontologies
Basic and advanced concepts of controlled terminologies and their use in the representation of biomedical information and knowledge, with emphasis on terminology management in the health care enterprise. Syntactic and semantic structure of controlled terminologies are examined and a number of representative terminologies are analyzed.
Credit Hours: 3

HMI 8443: Enterprise Information and Solutions Architecture for Strategic Healthcare Operations
Organization and development of infrastructure necessary to support an enterprise information system for patient care. Components of architecture are introduced in a problem-based approach, case examples are presented as the basis for addressing specific attributes of the components, as well as problems facing the design of an enterprise information system for health care.
Credit Hours: 3

HMI 8450: Methods of Health Services Research
Writing intensive course provides students with basic understanding of literature search, experimental designs, evaluation methods, ethics, reporting and application of health services research. Practical research problems are discussed and students prepare a professional, managerially relevant research proposal.
Credit Hours: 3
Prerequisites: HMI 7410, and HMI 8524

HMI 8451: Individual Executive Management Studies
Students will investigate and address important issues in their organizations. Students will use scientific evidence and techniques to solve applied problems. They will develop data collection protocols, collect and analyze data, draw conclusions, and develop recommendations using basic research methods tools. They will provide actionable and feasible recommendations based on their analysis.
Credit Hours: 3
Prerequisites: HMI 7410, HMI 8450 or permission of instructor

HMI 8453: Executive Management Studies
Students will use scientific evidence and techniques to solve applied problems in health care organizations. Students will serve as professional consultants, working within small teams to develop project specifications and plans in collaboration with their clients. They will develop data collection protocols, collect and analyze data, draw conclusions and develop recommendations using basic research methods tools. They will provide actionable, feasible recommendations to their clients based on their analysis. Graded on A/F basis only.
Credit Hours: 3
Prerequisites: HMI 7410; Graduate standing or permission of the instructor

HMI 8460: Administration of Health Care Organizations
Analyzes health care organizations, emphasizing organizational structure, and strategy, and managerial leadership. Topics include governance, adaptation, design, interorganizational networks, and organizational performance.
Credit Hours: 3

HMI 8461: Managing Human Resources in Health Care Organizations
Provides a framework for understanding and thinking strategically about employee relations and management of people in organizations, drawing on insights from social sciences to explore how psychological, economic, social, and cultural forces influence human resources management in health care.
Credit Hours: 3

HMI 8470: Strategic Planning and Marketing for Health Care Organizations
Analysis of strategic planning and services management and marketing concepts, techniques, and tools in the health care industry. Includes analyzing the environment, assessing the organization's strengths and weaknesses, formulating strategy to achieve competitive advantage, and implementing strategy through service management and marketing.
Credit Hours: 3

HMI 8472: Financial Management for Health Care Organizations
Application of concepts, tools and techniques of financial management and their interrelationships as they apply to current and future operation of health care organizations. Prerequisites: For Residential students:
HMI 7410, HMI 7471, HMI 8460, HMI 8524. For Executive students: HMI 7410, HMI 8460, HMI 8524, and satisfactory completion of college-level courses in managerial accounting and financial management or satisfactory completion of HMI's online accounting and finance module.

Credit Hours: 3

HMI 8478: Knowledge Management in Health Care
Representing clinical terms, concepts and knowledge in a form for manipulation by intelligent systems. Theoretical formalisms and conceptual representations of medical information. Examination of knowledge engineering tools and decision support systems.

Credit Hours: 3

HMI 8485: Problems in Health Management and Informatics
Intensive study of an area of health services management.

Credit Hour: 1-6
Prerequisites: instructor's consent

HMI 8515: Problems in Medical Ethics and Clinical Ethics Consultation Practicum
The Problems in Medical Ethics Course is a practicum based course with a hands-on clinical ethics consultation component. The course will provide the student with a tailored learning experience that will encourage and develop skills and a working knowledge about health care ethics, and the ability to respond effectively when confronted with the difficult ethical dilemmas that may be encountered at multiple levels in the complex arena of health care. Specifically students will cultivate skills which will optimize their ability to work as an ethics consultant in a multidimensional and diverse society as well as an inclusive health care environment. The course is designed with flexibility in mind, however there are mandatory onsite components which will require the student to attend structured meetings, consultations and presentations.

Credit Hours: 5
Prerequisites: M-4 status for medical students. For Graduate students, HMI 7564 - Health Ethics Theory and HMI 8565 - Health Care Ethics and permission of instructor

HMI 8524: Health Economics
Building upon previous knowledge of basic economic theories, concepts, and tools, the structure, organization, activities, functions, and problems of health and medical care are considered from an economics perspective.

Credit Hours: 3
Prerequisites: microeconomics

HMI 8544: Managerial Epidemiology (Population Health Management)
Examination of basic epidemiological concepts and methods as they apply to health services management. Lectures and discussions focus on the most useful measures of occurrence of health events, methods of data collection, research study design, the interpretation of epidemiological data, and the limitation of epidemiological methods, providing the background needed by students to critically review, draw conclusions from, and use information encountered in their roles as healthcare managers. Emphasis is placed on practical applications of epidemiology to health services planning, problem solving, policy development, and systems-thinking.

Credit Hours: 3
Prerequisites: Restricted to HMI students only

HMI 8545: Methods in Public Health Informatics/Biostatistics
This course will cover foundational statistical knowledge and methods relevant to Public Health Informatics (PHI). The purpose of this course is to teach students to identify and perform appropriate statistical methods for the data analysis of data from many commonly used experimental designs in the field of PHI. The emphasis of the course is on the understanding of theoretical assumptions underlying these statistical methods. The focus of this course is to perform selected statistical analyses using, SPSS and/or R and to interpret statistical results, in a manner relevant to public health informatics in the context of public health. This course builds upon previous knowledge of basic statistics, concepts, and tools by applying them specifically to the public health field.

Credit Hours: 3
Recommended: college algebra

HMI 8546: Public Health Information and Visualization (GIS) in Public Health
This course will cover foundational knowledge of Geographic Information Systems (GIS) relevant to Public Health Informatics (PHI). The purpose of this course is to learn basic descriptive and analytical functions of GIS for research and application areas in the field of PHI. The course emphasis is for students to gain hands-on experience in the use of GIS, mapping, and spatial data analysis software such as ArcGIS, R, and Instant Atlas. The focus is on the use of geographic information systems (GISs) in the analysis of public health data. No previous knowledge of mapping or GIS is required, but one is expected to have a working knowledge of MS Office, Windows operating systems, and Biostatistics (prerequisites Methods in Public Health Informatics/Biostatistics). This course builds upon previous knowledge of basic statistics, concepts, and tools by applying them in a GIS context specific to Public Health Informatics.

Credit Hours: 3

HMI 8550: Health Data Analytics
The purpose of this course is to provide you with an applied approach to analyze healthcare data. It will enhance abilities to know when and how to use theories, concepts, and tools of data analysis and statistics to evaluate and analyze health care data systematically. The emphasis of the course is on the use of data analysis in the health care field. The focus is on applying data analysis to health care data, problems and issues in the health care system, and on the data application necessary to make decisions based on the analysis. This course builds upon previous knowledge of basic statistics and analytics, concepts, and tools by applying them specifically to the health care system.

Credit Hours: 3
Prerequisites: college algebra and statistics or permission of instructor

HMI 8565: Health Care Ethics
Explores ethics issues and controversies facing clinicians and healthcare administrators. Topics may include end-of-life care, imperiled newborns,
maternal-fetal conflict, procreative liberty, genetic screening and enhancement, organ procurement and allocation, rationing, public health, workplace relationships, and conflicts of interest.

**Credit Hours:** 3

**HMI 8571: Decision Support in Health Care Systems**
Applies principles and techniques of computer-assisted decision making to solve health care problems. Clinical and managerial applications of artificial intelligence, including expert systems reviewed. Advantages of integrating decision support programs with databases are discussed.

**Credit Hours:** 3

**Prerequisites:** Restricted to HMI students

**HMI 8573: Decision Making for Health Care Organizations**
Applies and integrates data and decision making techniques with process analytic and improvement tools and techniques. Also includes applications of spreadsheets and relational databases in healthcare settings.

**Credit Hours:** 3

**Prerequisites:** HMI 7410, HMI 7471, HMI 8460, HMI 8524. Non HMI students with a Graduate or professional school career may be able to take the course with instructor consent

**HMI 8574: Health Care Law**
Survey of the function and methods of law as applied to health care administration and health care.

**Credit Hours:** 3

**Prerequisites:** HMI 7410, HMI 7471, HMI 8460, HMI 8524. Non HMI students with a Graduate or professional school career may be able to take the course with instructor consent

**HMI 8575: Health Policy and Politics**
Overview and critical analysis of health policy issues in the United States, including how the dynamics of the policy-making process have shaped outcomes, successful and unsuccessful, of a number of important policy initiatives.

**Credit Hours:** 3

**HMI 8580: Project Management**
This course is designed to provide an in-depth understanding of the fundamentals of project management and its application to the provision of health care. A problem-based approach is used to frame both the theoretical underpinnings of project management and hands-on practical application. Students will develop an understanding of the foundations of project management designed to enable them to successfully complete the certification exam to become a certified project manager. Course content includes project scope development, project work breakdown, financial control, and human resources management for projects.

**Credit Hours:** 3

**HMI 8610: Consumer Health Informatics**
Consumer health informatics explores the branch of medical informatics that analyzes consumers' needs for information; studies and implements methods of making information accessible to consumers; and models and integrates consumers' preferences into medical information systems.

**Credit Hours:** 3

**Prerequisites:** HMI 7430 or instructor's consent

**HMI 8689: Field Experience in Health Management and Informatics**
Supervised field experience in approved health agencies and institutions. Opportunity for observation and service participation in various fields of health. Graded on an A-F basis only.

**Credit Hours:** 3

**HMI 8810: Research Methods in Informatics**
(same as INFOINST 8810). Research Methods in Health and Bioinformatics is a writing intensive course that provides students with an understanding of research proposal development, literature searching, research synthesis, research designs, evaluation methods, and ethics. Graded on A-F basis only.

**Credit Hours:** 3

**Prerequisites:** Second semester or later in PhD program or instructor's consent

**HMI 8870: Knowledge Representation in Biology and Medicine**
(same as INFOINST 8870). The main topics presented in the course are: logic systems, knowledge representation methods, production systems and representation of statistical and uncertain knowledge. Graded on A-F basis only.

**Credit Hours:** 3

**Prerequisites:** HMI 7430 and HMI 7440

**Health Professions (HTH_PR)**

**HTH_PR 1001: Topics in Health Professions**
Organized study of selected topics in Health Professions. Particular topics and credit may vary each semester.

**Credit Hour:** 1-3

**Prerequisites:** instructor's consent

**Recommended:** to students in specified leadership programs

**HTH_PR 1100: Introductory Topics in Pharmacy**
The course includes presentations and discussions on the profession of pharmacy including: the roles and responsibilities of the pharmacist, educational requirements to obtain the degree, career opportunities, student life, legal and ethical issues, and study skills development. Enrollment limited to Freshman enrolled in Early Assurance Program. Graded on S/U basis only.

**Credit Hour:** 1

**Prerequisites:** Instructor's consent

**HTH_PR 2000: Leadership in Health Care**
This course will cover a broad range of concepts in leadership and professional development. Focus will be placed on knowledge and skills necessary for effective leadership in the Health Professions. The first of two semesters series. Graded on S/U basis only.

**Credit Hour:** 1

**Prerequisites:** instructors consent

**Recommended:** to students in specified leadership programs
**Health Psychology (HLTHPSYC)**

**HLTHPSYC 3100: Applied Behavior Analysis and Autism**
Students will learn the behavioral principles and techniques currently employed to help children with autism acquire functional language, appropriate social behavior, and general academic and living skills as well as decrease problematic behaviors. The objectives of this course are to: 1) To identify and describe key features of applied behavior analysis (ABA), particularly as it applies to intervention for children with autism. 2) To identify and describe key issues in curricular design, program development, and evidence-based interventions in autism. 3) To become familiar with key outcome research in behavioral interventions for children with autism. 4) To become familiar with key research on language, social skills, self-help skills, and problem behavior reduction as these areas relate to the behavioral treatment of autism. Graded on A-F basis only.

**Credit Hours:** 3

**HLTHPSYC 8100: Concepts and Principles in Behavior Analysis**
This course will provide an overview of both classic and contemporary theory and research on nonhuman and human learning. We will focus on a behavior-analytic conceptualization of learning and the underlying research on basic processes and operations that result in learning. The readings and class discussions will provide you with a strong foundation in the psychology of learning from a behavioral orientation, with particular emphasis on the relation between biological and environmental contributions to selection of behavior. To effectively produce socially significant behavior change among members of clinical populations, we must approach the task with a thorough understanding of these basic principles. Graded on A-F basis only.

**Credit Hours:** 3

**HLTHPSYC 8200: Advanced Applied Behavior Analysis**
This course provides students with a basic understanding of the fundamentals of behavior analysis and behavioral interventions designed to establish, shape, strengthen and maintain desirable behavior and reduce aberrant behavior. The course focuses on the application of behavioral principles using procedures such as differential reinforcement, extinction, antecedent interventions, and punishment. Graded on A-F basis only.

**Credit Hours:** 3

**HLTHPSYC 8250: Methods in Applied Behavior Analysis**
This course provides students with a basic understanding of systematic data collection and analysis methods used in applied behavior analysis to make informed (data-driven) clinical decisions. Graded on A-F basis only.

**Credit Hours:** 3

**HLTHPSYC 8300: Ethics in Applied Behavior Analysis**
This course provides the student with an in-depth coverage of ethics and professional behavior in applied behavior analysis. This course will help the student become prepared to sit for the Behavior Analyst Certification Board exam. Graded on A-F basis only.

---

**HTH_PR 2001: Topics in Health Professions**
Organized study of selected topics in health professions. Particular topics and earnable credit may vary from semester to semester.

**Credit Hour:** 1-99

**Prerequisites:** sophomore standing and instructor's consent

---

**HTH_PR 2001: Topics in Health Professions**
Organized study of selected topics in health professions. Particular topics and earnable credit may vary from semester to semester.

**Credit Hour:** 1-99

**Prerequisites:** instructor's consent

---

**HTH_PR 2060: Special Readings in Health Professions**
Directed study of literature and research reports in the health-related professions.

**Credit Hour:** 1-3

**Prerequisites:** instructor's consent

---

**HTH_PR 2085: Problems in Health Professions**
Individual study not leading to thesis or dissertation.

**Credit Hour:** 1-3

**Prerequisites:** instructor's consent

---

**HTH_PR 4085: Problems in Health Professions**
Credit Hours: 3

**Prerequisites:** instructor's consent

---

**HTH_PR 4250: Human Kinesiology**
(same as PH_THR 4250). Study of principles of physical laws, biomechanics and anatomic structure relative to human movement. Application through analysis of daily functional performance, exercise and sport.

**Credit Hours:** 3

**Prerequisites:** PTH_AS 2201 or PH_THR 2500

---

**HTH_PR 4950: Research Apprenticeship in Health Professions**
This course provides undergraduate students in the health professions and related disciplines experience with research in the health professions and related disciplines experience with research in the health professions. Students will assist in the development and execution of research projects under the supervision of an SHP faculty member.

**Credit Hour:** 1-3

**Prerequisites:** instructor's consent

---

**HTH_PR 7300: Health Care in the United States**
Overview of financing, structure, and outcomes in the U.S. health care system. Contemporary health care issues, policy, and politics will be addressed. Graded on A-F basis only.

**Credit Hours:** 3

---

**HTH_PR 8001: Topics in Health Professions**
Organized study of selected topics in health and/or healthcare. Topic and credit may vary from semester to semester.

**Credit Hour:** 1-3

**Prerequisites:** instructor's consent

---

**HTH_PR 8085: Problems in Health Professions**
Individual study not leading to thesis or dissertation.

**Credit Hour:** 1-3

**Prerequisites:** instructor's consent

---

**HTH_PR 8200: Advanced Applied Behavior Analysis**
This course provides students with a basic understanding of the fundamentals of behavior analysis and behavioral interventions designed to establish, shape, strengthen and maintain desirable behavior and reduce aberrant behavior. The course focuses on the application of behavioral principles using procedures such as differential reinforcement, extinction, antecedent interventions, and punishment. Graded on A-F basis only.

**Credit Hours:** 3

---

**HTH_PR 8250: Methods in Applied Behavior Analysis**
This course provides students with a basic understanding of systematic data collection and analysis methods used in applied behavior analysis to make informed (data-driven) clinical decisions. Graded on A-F basis only.

**Credit Hours:** 3

---

**HTH_PR 8300: Ethics in Applied Behavior Analysis**
This course provides the student with an in-depth coverage of ethics and professional behavior in applied behavior analysis. This course will help the student become prepared to sit for the Behavior Analyst Certification Board exam. Graded on A-F basis only.
HLTHPSYC 8350: Individualized Assessment and Intervention
This course builds upon the basic principles of learning and applied behavior analysis presented during previous courses in the Behavior Analysis core. The course will offer advanced coverage of the functional assessment of problem behaviors. In particular, there will be a strong emphasis in the functional analysis of problem behaviors. Additionally, this course will focus on how identification of function guides treatment development (i.e., function-based treatments). Graded on A-F basis only.

Credit Hours: 3
Prerequisites: HLTHPSYC 8100

HLTHPSYC 8400: Survey of Applied Behavior Analysis
This course builds upon the basic principles of learning and applied behavior analysis presented during previous courses in the Behavior Analysis core. The course will offer coverage of the many different applications of behavior analysis (e.g., behavioral medicine, behavioral gerontology, substance abuse, organizational behavior management, etc.). Finally, this class will cover topics related to professional development. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: HLTHPSYC 8100 OR HLTHPSYC 8200

HLTHPSYC 8450: Verbal Behavior
This course will provide an introduction to a behavior analytic approach to the study of language (i.e., verbal behavior). The course will have two related focuses: (a) the theoretical underpinnings of a functional approach to language as outlined by B.F. Skinner in Verbal Behavior (1957), (b) a review of the testing of this theoretical approach through research and practice (primarily with children and individuals with Intellectual Disabilities). Graded on A-F basis only.

Credit Hours: 3
Prerequisites: HLTHPSYC 8100
Recommended: HLTHPSYC 8200

HLTHPSYC 8800: Practicum in Applied Behavior Analysis
The Practicum in Applied Behavior Analysis provides practical training in ABA. Graduate students will participate in an intensive practicum that focuses on developing well-rounded training in ABA. Students will work hands on with children at the MU Thompson Center for Autism and Neurodevelopmental Disorders. By the completion of the practicum, students will be well versed in the development of skill building programs as well as behavioral reduction programs that focus on function-based interventions (e.g., functional analyses). Graded on S/U basis only.

Credit Hours: 1-3
Prerequisites: Students must be enrolled in the Graduate Certificate in ABA or Masters of Science in ABA programs

HLTHPSYC 8900: Capstone in Applied Behavior Analysis
The capstone will consist of a clinical question or direct replication of previous research, which will serve as a demonstration of the student's knowledge of applied behavior analysis. Graded on S/U basis only.

Credit Hour: 1-9

Prerequisites: Graduate student in the M.S. program in Applied Behavior Analysis

HLTHPSYC 8950: Thesis in Applied Behavior Analysis
The thesis will consist of an original research question, which will serve as a demonstration of the student's knowledge of applied behavior analysis. Graded on S/U basis only.

Credit Hour: 1-9
Prerequisites: Graduate student in the M.S. in Applied Behavior Analysis program

Health Sciences (HLTH_SCI)

HLTH_SCI 1000: Introduction to the Health Professions
Overview of clinical/non-clinical health careers; aptitudes/abilities needed for each; the history, current and future state of health care in the U.S: introduction to diverse populations and patient/family issues; assists with career planning/selection of appropriate majors. Graded on A-F basis only.

Credit Hours: 3

HLTH_SCI 2100: Health Sciences Seminar
Professional Development course for Health Science Majors. Topics include resume development/revision, interviewing skills, applying to graduate/professional programs and/or jobs, professional communication, etc. Graded on S/U basis only.

Credit Hour: 1
Prerequisites: sophomore standing required; restricted to Health Science majors only

HLTH_SCI 2200: Nuclear Weapons: Environmental, Health and Social Effects
(same as SOCIOL 2281 and PEA_ST 2200). Environmental consequences of the nuclear arms race, “regional” nuclear war, and weapons testing for human health, agriculture, and society. Examining "a world without nuclear weapons"; political dialogue on proliferation; Iran, North Korea, and nuclear weapons conventions. Graded on A-F basis only.

Credit Hours: 3

HLTH_SCI 2200W: Nuclear Weapons: Environmental, Health and Social Effects - Writing Intensive
(same as SOCIOL 2281 and PEA_ST 2200). Environmental consequences of the nuclear arms race, “regional” nuclear war, and weapons testing for human health, agriculture, and society. Examining "a world without nuclear weapons"; political dialogue on proliferation; Iran, North Korea, and nuclear weapons conventions. Graded on A-F basis only.

Credit Hours: 3

HLTH_SCI 2800: Social Justice in Health
This course introduces the social justice framework and the building of inclusive classrooms and clinics. It includes weekly topics on inclusion, social identities, implicit bias, socioeconomic status, allyship and intrusion. Tools examined include: good personal communication,
understanding an inclusive culture, how to be an ally, strategies to recognize and mitigate bias in health situations. Experiential activities and dialogue are the main avenues of learning in this course. Graded on S/U basis only.

Credit Hours: 1
Prerequisites: Restricted to Health Sciences Majors during preregistration

**HLTH_SCI 3300: Public Health Principles, Practice, and Education**
Public Health is the science and practice of protecting and improving the health of communities through education, promotion of healthy lifestyles, and research for disease and injury prevention. This course focuses on the basic structures of the Public Health system in the U.S. and provides an introduction to the factors that influence and shape that system. Among others, factors include socioeconomic, financing, politics and global issues. Students in this course will be challenged to consider the complex web of factors affecting the health of communities. The course will explore: health needs assessments, examining relationships among behavioral, environmental and genetic factors that enhance or compromise health, examining factors that influence the learning process, and examining factors that enhance or compromise the process of health education. Graded on an A-F basis only.

Credit Hours: 3
Prerequisites: Restricted to Health Sciences Majors during preregistration

**HLTH_SCI 3300H: Public Health Principles, Practice, & Education - Honors**
Public Health is the science and practice of protecting and improving the health of communities through education, promotion of healthy lifestyles, and research for disease and injury prevention. This course focuses on the basic structures of the Public Health system in the U.S. and provides an introduction to the factors that influence and shape that system. Among others, factors include socioeconomic, financing, politics and global issues. Students in this course will be challenged to consider the complex web of factors affecting the health of communities. The course will explore: health needs assessments, examining relationships among behavioral, environmental and genetic factors that enhance or compromise health, examining factors that influence the learning process, and examining factors that enhance or compromise the process of health education. Graded on an A-F basis only.

Credit Hours: 3
Prerequisites: Honors eligibility required

**HLTH_SCI 3310: Social and Behavioral Health Theory and Practice**
Social and Behavioral Health (SBH) is the core discipline of public health that focuses on the factors that influence individuals’ and communities health actions and decisions. This course will take both a theoretical and a practical approach to understanding SBH. Students will gain an understanding of theory and develop practical skills to apply theories to real world health issues. Readings, assignments, and discussions will focus largely on ways to understand and change health behaviors and various individual, relational, community, and social-level influences on health. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: Restricted to Health Sciences Majors during preregistration

**HLTH_SCI 3300W: Public Health Principles, Practice, and Education - Writing Intensive**
Public Health is the science and practice of protecting and improving the health of communities through education, promotion of healthy lifestyles, and research for disease and injury prevention. This course focuses on the basic structures of the Public Health system in the U.S. and provides an introduction to the factors that influence and shape that system. Among others, factors include socioeconomic, financing, politics and global issues. Students in this course will be challenged to consider the complex web of factors affecting the health of communities. The course will explore: health needs assessments, examining relationships among behavioral, environmental and genetic factors that enhance or compromise health, examining factors that influence the learning process, and examining factors that enhance or compromise the process of health education. Graded on an A-F basis only.

Credit Hours: 3
Prerequisites: Acceptance into the Public Health Undergraduate Program or by Department Consent

**HLTH_SCI 3350: Mental Health**
This course provides a look at mental health problems with regard to influences, etiology, diagnosis, and treatment. Students learn theories of mental health, diagnostic criteria, treatment modalities, and community issues concerning the mental health system. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: HLTH_SCI 2100
HLTH_SCI 3600: Health Promotion Programs I: Assessment and Planning
Health promotion planning is the development and implementation of a well-researched and tailored intervention to increase the health status of an individual and population. This course will provide a comprehensive introduction to health promotion planning and assessment by integrating a solid theoretical foundation of the discipline with hands-on experience in assessing needs, assets and capacity for health education, health education and project planning, funding, intervention development, implementation of health education projects, and evaluation. Special attention placed on implementing health education and promotion programs that are tailored to the particular population in need as well as specialized for the appropriate setting be it school, work, health care clinic, or the community. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: Restricted to Health Science majors during preregistration

HLTH_SCI 3610: Health Promotion Programs II: Implementation, Evaluation, and Communication
This course builds on topics covered in Health Promotion Programs I: Assessment and Planning. It will provide a comprehensive introduction to the implementation, evaluation and communication required for successful health promotion programs by integrating a solid theoretical foundation of the discipline with hands-on experience in the implementation of health promotion program, developing an evaluation and communication strategies for successful health education and health promotion programs in a variety of community-based settings. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: Restricted to Health Sciences Majors only
Corequisites: HLTH_SCI 3600

HLTH_SCI 3800: Holistic Health Systems for the Health Professions
This course will explore the various aspects of the holistic health movement and how they interact with American health care. Topics will include complementary and alternative medicine, or CAM, acupuncture, chiropractic, herbal remedies, naturopathy, traditional Chinese medicine, Ayurveda, midwifery. New Age healing, and others. Students will learn about the underlying philosophical principles of these practices, cultures of origin, treatments offered, and what consumers of health care as well as members of the health care workforce need to know about them. Graded on A-F basis only. Recommended: The most successful students will have taken other Health Sciences courses, particularly HLTH_SCI 3300: Public Health, prior to enrolling in this course.

Credit Hours: 3
Prerequisites: Restricted to students in junior or senior status. Restricted to Health Sciences Majors during pre-registration

HLTH_SCI 3900: Introduction to The Research Process and Evidence Base
This course provides an introduction to the basic quantitative and qualitative research techniques used in public health, health education and promotion, and the health professions. Conducting research, making medical decisions based on research findings, and using and interpreting research and evidence in practice settings all represent potential outcomes for students selecting a career in public health or the health professions. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: Restricted to Health Sciences Majors with junior or senior standing

HLTH_SCI 3900W: Introduction to The Research Process and Evidence Base - Writing Intensive
This course provides an introduction to the basic quantitative and qualitative research techniques used in public health, health education and promotion, and the health professions. Conducting research, making medical decisions based on research findings, and using and interpreting research and evidence in practice settings all represent potential outcomes for students selecting a career in public health or the health professions. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: Restricted to Health Sciences Majors with junior or senior standing

HLTH_SCI 4001: Topics in Health Science
Organized study of selected topics. Subjects will vary from semester to semester. Graded on A-F basis only.

Credit Hours: 1-3
Prerequisites: Restricted to Health Sciences Majors during preregistration

HLTH_SCI 4300: Health Care in the United States
Overview of financing, structure, and outcomes in the U.S. health care system. Contemporary health care issues, policy, and politics will be addressed. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: sophomore standing; Restricted to Health Sciences Majors during pre-registration

HLTH_SCI 4300H: Health Care in the United States - Honors
Overview of financing, structure, and outcomes in the U.S. health care system. Contemporary health care issues, policy, and politics will be addressed. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: Honors eligibility required

HLTH_SCI 4400: Culture and Health Literacy for the Health Professions
This course will explore differences and attitudes towards the health care industry across various social, cultural and ability groups. This exploration will result in more culturally competent health professionals by promoting self-awareness and challenging the existing assumptions and biases of the health care system. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: junior or senior standing or instructor's consent. Restricted to Health Sciences Majors during preregistration

HLTH_SCI 4410: Humanism and Health Literacy
This class will teach how the humanities can help students become better health professionals. Topics include: spirituality and health; non-medical factors that impact health; representation of disability in art history; and literature and health. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: Restricted to Health Sciences Majors during pre-registration

HLTH_SCI 4420: Health Literacy and Behavioral Compliance
Students will learn about the behavioral, psychological, and cognitive factors that impact health literacy and the ability to follow healthcare recommendations.
Credit Hours: 3
Prerequisites: Restricted to Health Sciences Majors during pre-registration

HLTH_SCI 4480: Clinical Ethics
Exploration of bioethics issues in health care with emphasis on issues related to patient choice and provider responsibility. Topics include philosophical theories, principles and models for ethical and lawful decision making in healthcare.
Credit Hours: 3
Prerequisites: junior or senior standing; Restricted to Health Science majors only

HLTH_SCI 4480W: Clinical Ethics - Writing Intensive
Exploration of bioethics issues in health care with emphasis on issues related to patient choice and provider responsibility. Topics include philosophical theories, principles and models for ethical and lawful decision making in healthcare.
Credit Hours: 3
Prerequisites: junior or senior standing; Restricted to Health Science majors only

HLTH_SCI 4500: Health Care Management
Examines various management concepts as they relate to the unique environment of health care. Concepts include planning, decision making, budgeting, staffing, organizing, and motivating for working with individuals or teams. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: Restricted to Health Science majors only with junior or senior status

HLTH_SCI 4510: Essential Tools for the Health Care Leader: A Problem-Based Approach
This course is designed to increase students' ability to evaluate, synthesize, and perform tasks in the areas of business intelligence, business analysis, performance and process improvement, data management and mining, information security and privacy, and project management. Graded A-F basis only.
Credit Hours: 3
Prerequisites: Restricted to Health Science majors only in junior or senior status
Recommended: Access to and experience using Microsoft Excel 2010

HLTH_SCI 4520: Health Care Project Management
Examines various project management concepts, both universal and as they relate to the unique environment of health care. Concepts include project, program and portfolio management, initiating projects, planning projects, executing projects, monitoring and controlling projects, closing projects, and using industry best practices and tools. This course will enable you to work with other project management professionals across various industries and in the changing health care setting. You will learn how good project, program, and portfolio management can help you achieve organizational and individual success. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: Restricted to Health Science majors only in junior or senior status

HLTH_SCI 4900: Seminar in Health Education
This course provides students pursuing careers in health education/promotion and public health with the opportunity to synthesize their relevant coursework and prepare for the Certified Health Education Specialist (CHES) examination. This course is intended for BHS/Health Sciences and BHS/Public Health undergraduate majors with senior standing. Graded S/U basis only.
Credit Hour: 1
Prerequisites: Instructor consent required
Recommended: Intended as preparation for the Certified Health Education Specialist (CHES) Exam

HLTH_SCI 4975: Internship in Health Sciences
Focuses on knowledge, skills and attitudes that enhance personal effectiveness and professional success. Opportunities to research selected career paths and related topics in health sciences and participate in directed service learning projects or internships in selected emphasis area. Graded on A-F basis only.
Credit Hour: 1-6
Prerequisites: HLTH_SCI 2100

HLTH_SCI 4985: Healthcare Organization and Leadership
(same as CDS 4985). In this course, students will explore leadership principles as they relate to the student's focus area, combining previous expertise in the field with an interdisciplinary perspective within the healthcare community. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: HLTH_SCI 2100; senior standing required

Hebrew (HEBREW)

HEBREW 1100: Elementary Hebrew I
For beginners with no prior knowledge of Hebrew. Five hours of classroom instruction, with one hour lab work weekly.
Credit Hours: 6

HEBREW 1200: Elementary Hebrew II
Five hours of classroom instruction, with one hour lab work weekly.
Credit Hours: 6
Prerequisites: C- or better in HEBREW 1100, or equivalent

HEBREW 3085: Problems in Hebrew
Supervised study of Hebrew language and/or culture.
Credit Hour: 1-3
Prerequisites: instructor's consent
HEBREW 3845: Modern Israeli Film
(same as FILM_S 3845). Examines the modern film of developing Israel. Discusses complex social relationships. Introduces concepts of Hebrew language and its use in the arts world-wide. Discusses varied communities in Israel, and universal themes such as democracy and social justice. Provides introduction to Israeli culture. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: sophomore standing or instructor's consent required

History (HIST)

HIST 1004: Undergraduate Topics in History-Social Science
Organized study of selected topics. Subjects and credits may vary from semester to semester. May be repeated for credit with departmental consent.
Credit Hour: 1-3

HIST 1100: Survey of American History to 1865
Introduction to U.S. history through the Civil War, surveying political, economic, social and cultural development of the American people. No credit will be given to students who have received credit in HIST 1400 (AP credit for US History).
Credit Hours: 3
HIST 1100 - MOTR HIST 101: American History I

HIST 1100H: Survey of American History to 1865 - Honors
Introduction to U.S. history through the Civil War, surveying political, economic, social and cultural development of the American people. No credit will be given to students who have received credit in HIST 1400 (AP credit for US History).
Credit Hours: 3
Prerequisites: Honors eligibility required

HIST 1200: Survey of American History Since 1865
Introduction to U.S. history since 1865, surveying political, economic, social, and cultural development of the American people. No credit will be given to students who have received credit in HIST 1400 (AP credit for US History).
Credit Hours: 3
HIST 1200 - MOTR HIST 102: American History II

HIST 1200H: Survey of American History Since 1865 - Honors
Introduction to U.S. history since 1865, surveying political, economic, social, and cultural development of the American people. No credit will be given to students who have received credit in HIST 1400 (AP credit for US History).
Credit Hours: 3
Prerequisites: Honors eligibility required

HIST 1400: American History
Broad survey of political, economic, social, intellectual, diplomatic and constitutional development of American people from first English settlements to present day; emphasizes evolution of American culture and institutions. Students may not receive additional credit for HIST 1100 and/or HIST 1200.
Credit Hours: 5

HIST 1410: African American History
(same as BL_STU 1410). Survey of social, political and economic development to the African American people in American life from 1619 to the present.
Credit Hours: 3

HIST 1500: Foundations of Western Civilization
Development of characteristic ideas and institutions of Western cultural tradition, from origin of civilization in ancient Near East to beginning of rapid social, political, intellectual transformation of Europe in 18th century.
Credit Hours: 3
HIST 1500 - MOTR WCIV 101: Western Civilization I

HIST 1500H: Foundations of Western Civilization - Honors
Development of characteristic ideas and institutions of Western cultural tradition, from origin of civilization in ancient Near East to beginning of rapid social, political, intellectual transformation of Europe in 18th century.
Credit Hours: 3
Prerequisites: Honors eligibility required

HIST 1510: History of Modern Europe
Selected major themes in European history from French Revolution to recent times. Breakdown of traditional institutions, ideas; political, social revolution; industrialization, nationalism, imperialism, world wars; democratic, totalitarian ideologies, movements; quest for international order, European unity.
Credit Hours: 3
HIST 1510 - MOTR WCIV 102: Western Civilization II

HIST 1510H: History of Modern Europe - Honors
Selected major themes in European history from French Revolution to recent times. Breakdown of traditional institutions, ideas; political, social revolution; industrialization, nationalism, imperialism, world wars; democratic, totalitarian ideologies, movements; quest for international order, European unity.
Credit Hours: 3
Prerequisites: Honors eligibility required

HIST 1510HW: History of Modern Europe - Honors/Writing Intensive
Selected major themes in European history from French Revolution to recent times. Breakdown of traditional institutions, ideas; political, social revolution; industrialization, nationalism, imperialism, world wars; democratic, totalitarian ideologies, movements; quest for international order, European unity.
Credit Hours: 3
Prerequisites: Honors eligibility required

HIST 1400: American History
Broad survey of political, economic, social, intellectual, diplomatic and constitutional development of American people from first English
HIST 1520: The Ancient World
Survey of institutional and cultural development of ancient Near East, Greece, Rome, and Asia.

Credit Hours: 3

HIST 1540: England Before the Glorious Revolution
Survey of English institutions, culture and politics from the Roman invasion to the Revolution of 1688.

Credit Hours: 3

HIST 1550: Britain 1688 to the Present
Surveys British history from 1688 to present. Emphasizes social and economic change.

Credit Hours: 3

HIST 1570: Survey of Early Modern Europe, 1350-1650
Survey of Western and Central Europe (including Britain) from the Black Death to the end of the Thirty Years' War. This period comprises late medieval crises, the Renaissance, Reformation, Counter-Reformation, Exploration and the New World, the Confessional Age, early modern state-building, and the Thirty Years' War.

Credit Hours: 3

HIST 1590: Women and the Family in the Pre-Modern West
Examines the changing roles of women and familial structures from the Ancient Mediterranean World to the Protestant Reformation and the effects of religious, political and economic change on the family.

Credit Hours: 3

HIST 1600: Foundations of Russian History
A survey of the Kievan and Muscovite period to the end of the 17th century.

Credit Hours: 3

HIST 1790: History of Early Africa
(same as BL_STU 1790). This course introduces students to the early history of Africa. It focuses on political, social, economic and cultural developments based on primary and secondary sources available in print and online.

Credit Hours: 3

HIST 1800: History of Modern Africa
(same as BL_STU 1800). This course introduces students to the recent history of Africa. It provides them with an opportunity to understand the main challenges Africans faced since colonial times based on primary and secondary sources.

Credit Hours: 3

HIST 1830: Survey of East Asian History
(same as KOREAN 1830). Introductory survey of the history of East Asian countries (China, Korea, Vietnam, and Japan) in the past two thousand years, focusing on their cultural, economic, and political traditions as well as their transformations in the modern era.

Credit Hours: 3

HIST 1840: Colonial Latin America
Survey of Latin America, 1492-1825; Exploration and conquest; European settlement; colonial government and institutions; economy and society; cultural and intellectual life, independence movements.

Credit Hours: 3

HIST 1850: Latin America Since Independence
Political, social and economic developments; nationalism; revolutionary movements; U.S. influence.

Credit Hours: 3

HIST 1861: History of Modern India
(same as [S_A_ST 1861). This course surveys the history of the South Asian subcontinent from the early seventeenth through the twentieth century. Emphasis will be placed on cultural and social history, religion, arts and literature, imperialism and colonialism, and the sources used for the study of modern civilizations. Students will develop a basic knowledge and vocabulary necessary to pursue additional South Asian courses.

Credit Hours: 3

HIST 1871: History of China in Modern Times
This is a lecture course designed to introduce to beginning level students the epic journey of China's historical transformation since c. 1600. This survey provides a basis for understanding the painstaking transition from "tradition" to "modernity" in China.

Credit Hours: 3

HIST 1872: Mao's China and Beyond: China Since 1949
Through a series of readings, images, and film we will look at the dramatic cultural, economic, social and intellectual changes the People's Republic of China has experienced since 1949, and look at the interrelated, yet often contradictory, challenges facing Beijing in regards to the task of furthering economic prosperity while promoting policies of integrating with the international society.

Credit Hours: 3

HIST 2004: Topics in History-Social Science
Organized study of selected topics. Subjects and earnable credit may vary from semester to semester. May be repeated for credit with departmental consent.

Credit Hour: 1-99

HIST 2100H: The Revolutionary Transformation of America - Honors
In the broadest of terms, this is a course on origins. On one hand, we will devote significant class time to discussing "the causes which impelled" the colonies to throw off the yoke of British rule. We will examine this on both a practical and a more abstract level, focusing first on writings that delineate why colonists grew to perceive the economic, social, and political conditions of British rule as insufferable, and then on how they translated these practical concerns into a more ideological justification of violent revolution.

<tr>
<td>HIST 2120H</td>
<td>The Young Republic - Honors</td>
<td>Honors eligibility required</td>
<td>3</td>
<td>This course examines the early years of the United States under the (then) new Constitution, an important historical period with which present-day Americans are increasingly unfamiliar. Our focus will be on abandoning our preconceptions about the nation’s early history and thoroughly understanding the choices that were posed and made in the years after 1789 and that would determine what type of nation the U.S. would become.</td>
</tr>
<tr>
<td>HIST 2150</td>
<td>The American Civil War: A Global History</td>
<td>Honors eligibility required</td>
<td>3</td>
<td>(same as CNST_DEM 2150). In this class students will study the American Civil War from the perspective of global history. The familiar actors and events will be covered - the debate over slavery, the secession of the South, the rise of Abraham Lincoln, the great battles and generals, etc. But these familiar episodes will take on different meanings when viewed in relation to global structures of politics, economics, social relations, and ideology. The 1860s was at once a formative moment in the history of globalization and the key decade for the formation and consolidation of modern nations.</td>
</tr>
<tr>
<td>HIST 2210</td>
<td>Twentieth Century America</td>
<td></td>
<td>3</td>
<td>Survey of American development from 1900 to present. For students who have not taken advanced courses in American history, especially HIST 4210, HIST 4220, or HIST 4230.</td>
</tr>
<tr>
<td>HIST 2220</td>
<td>America in the 1960's</td>
<td>sophomore standing required</td>
<td>3</td>
<td>(same as PEA_ST 2220). Examines the political and cultural main currents of the 1960s. Emphasizes the challenges mounted by protest groups and the responses of America’s political leadership to the ferment of the period.</td>
</tr>
<tr>
<td>HIST 2230</td>
<td>Walt Disney and American Culture</td>
<td></td>
<td>3</td>
<td>Examines Walt Disney's influence on shaping of modern American culture.</td>

<td>A successor state of the former Soviet Union, Ukraine occupies a strategic position in Eastern Europe. The course will trace the long, turbulent history of this East Slavic nation, culminating the independence in 1991.</td>
</tr>
<tr>
<td>HIST 2580</td>
<td>Mafia Myth and Reality: The Italian Mafia and the Nation-State, 1860 to the Present</td>
<td></td>
<td>3</td>
<td>This course explores contemporary cultural representations of the Mafia in film and literature and grounds these fictional representations in the history of modern Italy. We trace the emergence of the various Mafia networks during the wars of the Risorgimento and the construction of the &quot;southern problem&quot;, and the impact transnational Italian migration, the rise of Fascism and the postwar reconstruction had on the form and function of these networks.</td>
</tr>
</tbody>
</table>
HIST 2630: History of Christian Traditions  
(same as REL_ST 2630). An overview of the origins and development of Christianities from the first century of the Common Era to the present day. Topics will include competing Christian theologies, colonialism, conversion narratives, globalization, religious violence, and heresy.  
Credit Hours: 3

HIST 2700: History of Pirates: Maritime Raiding From the Ancient to the Modern Eras  
This course examines piracy from the ancient to the modern world, with a particular focus on the Mediterranean and Atlantic from the 15th through the 18th centuries. We'll look at a variety of firsthand accounts of piracy as well as historical interpretations of the motivations for and impact of piracy.  
Credit Hours: 3

HIST 2810: History of Korea: Premodern to Hypermodern  
(same as KOREAN 2810). This course examines Korea historically. The area known as Korea and the people identified as Korean are considered temporally from the ancient times to the contemporary period. This course begins with the questions of what is Korea and when it became a distinct place in world history.  
Credit Hours: 3

HIST 2820: Taiwan: The First Chinese Democracy  
This course is an introduction to the history of Taiwan, from the seventeenth century to the present day. This course examines historical development leading to the contemporary situation. It problematizes the notion that "democracy is not suitable for Chinese society."  
Credit Hours: 3

HIST 2904: Black Studies in Slavery and Freedom  
(same as BL_STU 2904). This course provides study of historical background, economic, political and social implications of slavery and freedom in the African Diaspora (Americas, Africa, Europe, Asia) as well as the legal and extralegal struggles for and meaning of (global, local, and national) freedom.  
Credit Hours: 3

HIST 2950: Sophomore Seminar  
This course is designed to introduce history majors to the experience of doing original research early in their undergraduate career. Topic will vary.  
Prerequisites: departmental consent required  
Credit Hours: 3

HIST 2950W: Sophomore Seminar - Writing Intensive  
This course is designed to introduce history majors to the experience of doing original research early in their undergraduate career. Topic will vary.  
Prerequisites: departmental consent required

HIST 3000: History of Religion in America to the Civil War  
(same as REL_ST 3000). Studies major American religious traditions from the Age of Discovery to the Civil War, especially the evolution of religious practices and institutions and their influence upon American social, intellectual and political developments.  
Credit Hours: 3

HIST 3010: Colonial America  
This course will examine major colonial American events from a cultural history standpoint. We will explore the ways in which the famous and not so famous shaped and were shaped by events of the seventeenth and eighteenth centuries and how these people understood the changing meaning of American liberty.  
Credit Hours: 3

(same as BL_STU 3200). Examines the dismantling of American apartheid and its transformation into a new racial control system. It also explores how and why the Civil Rights Movement was converted into a struggle for Black Power.  
Credit Hours: 3

HIST 3210: History of Religion in Post-Civil War America  
(same as REL_ST 3210). Surveys major American religious traditions from 1865 to the present. Focuses on the evaluation of religious practices and institutions and their interaction with and influence upon American social, intellectual and political developments.  
Credit Hours: 3

HIST 3220: U.S. Women's Political History, 1880-Present  
(same as WGST 3220). This course explores American women's engagement with American politics (broadly defined) over the course of the twentieth century. It addresses issues of political identity, organization, ideology, and division.  
Prerequisites: sophomore standing  
Credit Hours: 3

HIST 3230: Individualism and Success in Modern America, 1830-Present  
This course explores changing notions of individualism and success in American culture during the 19th and 20th centuries. Standards defining achievement, gain, and happiness for the individual citizen have evolved over time, and we will examine a wide variety of sources - advice literature, essays, novels, historical texts, plays and movies, political and religious texts, social criticism - to analyze this broad evolution. The resulting insights into a variety of historical issues and values, problems and possibilities, promise to forge a deeper understanding of what it has meant to be a successful individual in the United States over the last two hundred years.

<td>HIST 3485</td>
<td>The United States and the Middle East</td>
<td>This course will explore the history of American relations with the Middle East. How have U.S. Policy-makers defined American interests in this region? How have they sought to protect and advance those interests? We will consider the cultural stereotypes and assumptions Americans have brought to their relations with the Middle East, and the images of the Middle East that have been projected in American popular culture. Finally, we will explore the ways in which the current political situations in the Middle East reflect the results of past U.S. events.</td>

HIST 3624: Comparative Approaches to Black Studies in History
(same as BL_STU 3624). Comparative approach to the study of Black Diaspora history that focuses on the theory, method, structure, and application of modes of cultural production within the history of Black Diaspora cultures. Program consent for repetition.
Credit Hours: 3

HIST 3624W: Comparative Approaches to Black Studies in History - Writing Intensive
(same as BL_STU 3624). Comparative approach to the study of Black Diaspora history that focuses on the theory, method, structure, and application of modes of cultural production within the history of Black Diaspora cultures. Program consent for repetition.
Credit Hours: 3

HIST 3820: Twentieth Century China
History of China from Nationalist Revolution of 1911 to present. A problem-oriented course: special emphasis on Mao and Maoist ideology, social, literary and cultural history also receive attention.
Credit Hours: 3

HIST 3850: Islam and the West
(same as PEA_ST 3850). This course provides a historical intellectual context for the raging debate on Islam and the West. It will discuss how Muslims conceived and reacted variously to the political and cultural challenge the West posed in the nineteenth and twentieth century. It will focus on the discourse on the reception of modernization in Islam. It will highlight the political and cultural energies invested by various Muslim elite communities to distinguish between modernization and Westernization. Islamic fundamentalism, the dominant Islamic expression of our time, will be usefully discussed in the context of this debate and praxis about modernization, authenticity, and Westernization.
Credit Hours: 3
Prerequisites: junior/senior standing

HIST 3860: History of Mexico
Survey of Mexican history from Cortes to present day.
Credit Hours: 3

HIST 3870: Social Revolution in Latin America
(same as PEA_ST 3870 and SOCIOL 3870). Twentieth century social revolutions in selected Latin American countries.
Credit Hours: 3

HIST 4000: Age of Jefferson
Political, constitutional, cultural, and economic developments in United States during formative period of Republic, 1787-1828. Special attention to Constitutional Convention, formation of national political institutions.
Credit Hours: 3

HIST 4004: Topics in History-Social Science
Organized study of selected topics. Subjects and earnable credit may vary from semester to semester. May be repeated for credit with departmental consent.
Credit Hour: 1-99

HIST 4040: Slavery and the Crisis of the Union: The American Civil War Era
(same as BL_STU 4040; cross-leveled with HIST 7040). This class explores the history of the Civil War era, a transformative moment in both U.S. and world history. Our goal is to explore and answer a number of questions of great historical significance: How and why did slavery persist in an age of liberal democracy? Why did the pre-war Union prove unable to tolerate the plural visions and diverse institutions of its people? Was the descent into war more a measure of institutional weakness than of the intensity of moral conflict? What were the constituent elements of the competing wartime 'nationalisms' that evolved in both north and south? How and why did a war that began to restore the Union become one for emancipation? How was it the forerunner of modern, 'total' warfare? Did the governmental, socio-economic and racial changes wrought by war constitute a 'second American revolution'? Were the levels or the achievements of post-war Reconstruction more notable? And, last but certainly not least, how did the triumph of the Union condition the political and economic development of a rapidly globalizing world?
Credit Hours: 3

HIST 4060: The Period of the American Revolution, 1760-1789
Analysis of the Revolution, its causes and consequences, through establishment of the new government in 1789.
Credit Hours: 3

HIST 4070: Indians and Europeans in Early America
A study of the cultural, political and often military struggle that took place for control of North America from contact through mid 19th century emphasizing native efforts to resist European domination and expansion in areas that became the U.S. and Canada.
Credit Hours: 3
Prerequisites: HIST 1100 or equivalent
HIST 4080: American Foreign Policy from Colonial Times to 1898 (same as PEA_ST 4080).
Credit Hours: 3

HIST 4085: Special Problems in History
Independent investigation leading to a paper or project.
Credit Hour: 1-6
Prerequisites: Department consent required

HIST 4085H: Special Problems in History
Independent investigation leading to a paper or project.
Credit Hour: 1-99
Prerequisites: Honors eligibility required

HIST 4085W: Special Problems in History - Writing Intensive
Independent investigation leading to a paper or project.
Credit Hour: 1-6
Prerequisites: Department consent required

HIST 4100: American Cultural and Intellectual History to 1865
Origins and growth of American values and ideas considered in their social context. Topics include: the work ethic, republican politics, revivalism, reform movements, sexual attitudes, literature in the marketplace, Afro-American and slave-holding subcultures.
Credit Hours: 3

HIST 4200: American Cultural and Intellectual History Since 1865
Tensions and transformations in American culture to the present. Topics include: spiritual crisis in Christianity; rise of welfare state liberalism; socialist and feminist alternatives; literature and the arts.
Credit Hours: 3

HIST 4220: U.S. Society Between the Wars 1918-1945
Detailed examination of American history from end of World War I to end of World War II.
Credit Hours: 3

HIST 4230: Our Times: United States Since 1945
Detailed examination of American history from end of World War II to the present.
Credit Hours: 3

HIST 4235: The Wire: Race, Urban Inequality, and the "Crisis" of the American City
(cross-leveled with HIST 7235). The HBO series "The Wire", a crime drama based on the border city of Baltimore, exposed the interlocking, structural realities giving shape to the landscapes, neighborhoods, and lived experiences of urban America during the early twenty-first century. Through vivid storytelling, "The Wire" complicates understandings of the "urban crisis" through a focus on the inner workings of major institutions such as the media, public schools, politics, underground economies, public housing, and the criminal justice system and on the ways in which poor and working-class black residents negotiate power and survival. Using the cable series as a lens, this class offers students the opportunity to critically examine the historical, economic, social, and political dimensions of urban inequality.
Credit Hours: 3

HIST 4240: History of the New South
Study of the South since 1860.
Credit Hours: 3

HIST 4250: U.S. Foreign Relations, 1898-1945
A history of American Foreign Policy from the Spanish American War to the end of World War II.
Credit Hours: 3
Prerequisites: sophomore standing

HIST 4260: The Age of Ascendancy: U.S. Foreign Relations, 1945 - Present
(same as PEA_ST 4260). Surveys the Cold War in Europe and Asia, the Korean and Vietnam Wars, and Middle East policy.
Credit Hours: 3
Prerequisites: sophomore standing

HIST 4270: African-Americans in the Twentieth Century
(same as BL_STU 4270). Surveys the African-American experience from 1900 to the present. Attention is given to economic, political, social, and cultural trends.
Credit Hours: 3

HIST 4280: America in the Reagan Years
Examines the major political, economic, social, and cultural currents and developments of the "Long Eighties," from Jimmy Carter's "malaise speech" of July 1979 to Bill Clinton's mid-1990s embrace of welfare reform and pronouncement that the era of big government was over.
Credit Hours: 3

HIST 4310: Adoption, Child Welfare and the Family, 1850-Present
(same as WGST 4310; cross-leveled with HIST 7310 and WGST 7310). This interdisciplinary U.S. history course will address topics such as: changing legal and social meaning of adoption since 1850; historical connections between adoption and poverty, family, gender race, sexuality, class, fertility, identity; and more recent issues such as transnational adoption.
Credit Hours: 3

HIST 4400: History of American Law
American law from English origins to present. Reviews common law, codification, legal reform movements, slavery law, administrative state, formalism, legal realism, jurisprudential questions concerning rule of law.
Credit Hours: 3
Recommended: HIST 1100, HIST 1200, or HIST 1400
HIST 4415: African Americans and American Justice
(same as BL_STU 4415) This course provides opportunities to review and discuss selected court cases and legislation in which black men, women, or children were plaintiffs and defendants or affected by the laws.
Credit Hours: 3

HIST 4415W: African Americans and American Justice - Writing Intensive
(same as BL_STU 4415) This course provides opportunities to review and discuss selected court cases and legislation in which black men, women, or children were plaintiffs and defendants or affected by the laws.
Credit Hours: 3

HIST 4425: The Superhero in American Culture From Washington to Wolverine
This course aims to help students become better informed and more critical consumers of popular culture by situating a selection of important American works and genres within the historical context of their creation, and in the history of American culture. Students will be challenged to look for historical patterns in popular culture and to consider the particular habits of thought and action that American popular culture seems to reinforce.
Credit Hours: 3
Prerequisites: HIST 1100 or HIST 1200 or HIST 1400 or HIST 2210

HIST 4440: History of the American Environment
A reading and discussion course exploring diverse responses to the changing American environment from early man to the present, including ecological, institutional, and philosophical aspects.
Credit Hours: 3

HIST 4445: American Political Economy from the Commerce Clause to the Great Recession
This course examines the history of the American political economy from the founding of the United States to the recent Great Recession. Scholars of political economy explore the ways in which politics and public policy intersect with economics, such as the operation of the institutions like the tax system, the first and second Banks of the United States in the late 18th and early 19th centuries, and the Federal Reserve after 1913. We will focus on efforts by the U.S. federal government to regulate the American economy and bring economic affairs under the control of the American people and their representatives through a wide variety of political, legal, and institutional mechanisms. A specialized knowledge of economics is not required for this course.
Credit Hours: 3

HIST 4500: Philip II and Alexander the Great of Macadonia
Concentrates on the history and politics of Greece during reigns of these two kings along with Alexander’s military conquests and various controversies from the period.
Credit Hours: 3

HIST 4510: Crime and Punishment: Law in Classical Athens
Examines the main principles of Athenian law and judicial procedures including history of law code and study of actual speeches from a variety of law suits and procedures.
Credit Hours: 3

HIST 4515: Power and Oratory in Ancient Greece
Concentrates on the rise of oratory in Greece and how oratory was exploited for political ends. Special attention will be paid to the Athenian Democracy in the fifth and fourth centuries BC.
Credit Hours: 3

HIST 4520: The Rise and Fall of the Roman Republic
(cross-leveled with HIST 7520). Analysis of the downfall of Republican institutions and the origins of autocracy, from the Gracchi to the death of Augustus in A.D. 14.
Credit Hours: 3

HIST 4530: The Roman Empire
Roman imperialism; management of, and rebellion in, the Empire; cultural exchange between Rome and its provinces.
Credit Hours: 3

HIST 4535: Monastic Worlds
(same as REL_ST 4535, MDVL_REN 4535; cross-leveled with REL_ST 7535, MDVL_REN 7535). Monastic Worlds is an experiential learning course designed to serve as a Humanities Field School in medieval and early modern studies. It will be taught by faculty from UMKC and UMC through the Intercampus Course Sharing initiative. The class introduces students to humanities research methodology and the religious history and culture of premodern Europe and the contemporary Midwest by using the monastic communities as a focal point to learn about musicology, history, art history, literature, and religion. Following two weeks of online course modules, students will travel to the Benedictine communities of Conception Abbey in Conception, Missouri and Mount Saint Scholastica's in Atchison, Kansas, for additional face-to-face classes and research projects. On-site, students will participate in communal living and attend face-to-face classes on the historical and cultural worlds of medieval and early modern Europe. They will practice ethnography through observation of and participation in communal life of prayer, study, book production, and labor. Students will also have the opportunity to work with the manuscripts and rare books owned by these communities and visit the largest reliquary collection in North America, housed at the nearby Benedictine community of the Sisters of Perpetual
Adoration in Clyde, MO. This course has an associated fee. Contact teaching faculty for this year’s fee details. Graded on A/F basis only.

Credit Hours: 3

HIST 4540: The Later Roman Empire
Political, religious and cultural life in Late Antiquity, from the “soldier emperors,” to the barbarian kingdoms and early Byzantium.

Credit Hours: 3

HIST 4550: Age of the Vikings
Scandinavia and Scandinavian expansion in the Central Middle Ages. Covers political, economic, religious, and cultural effects of the Viking movement.

Credit Hours: 3
Prerequisites: junior standing required
Recommended: HIST 1500, HIST 1540, HIST 1600 or HIST 2560

HIST 4550W: Age of the Vikings - Writing Intensive
Scandinavia and Scandinavian expansion in the Central Middle Ages. Covers political, economic, religious, and cultural effects of the Viking movement.

Credit Hours: 3
Prerequisites: junior standing required
Recommended: HIST 1500, HIST 1540, HIST 1600 or HIST 2560

HIST 4555W: Medieval France - Writing Intensive
(cross-leveled with HIST 7555). This course covers the area that became the kingdom of France from the end of the Roman era until the end of the Hundred Years War; emphasis on political and cultural developments.

Credit Hours: 3
Prerequisites: junior standing required
Recommended: HIST 1500, HIST 1540, HIST 1600 or HIST 2560

HIST 4560: The Crusades
Survey of the European crusading movement from its inception in the late eleventh century to its decline during the later Middle Ages.

Credit Hours: 3
Prerequisites: junior standing

HIST 4580: The “Making” of Modern Europe: Identity, Culture, Empire
(cross-leveled with HIST 7580). This course will explore some of the ideas, institutions and events that shaped modern Western civilization and thought, focusing on Western Europe, but also giving attention to the relationship between the West and the rest of the world. The course will introduce topics such as the rise of, nationalism, the cult of science, scientific racism and sexism, consumer mass culture, fascist ideology, existentialism, psychoanalysis, the modern city, gender and sexuality.

Credit Hours: 3
Prerequisites: junior standing

HIST 4585: Rome from Fascism to Liberation, 1922-1944
In this course we will explore the history of Fascism and German occupation in Italy through the city of Rome. We will study how fascism remade Rome, the arrival of the Germans, the history of the Jewish community and the deportations and the resistance.

Credit Hours: 3

HIST 4605: Early Modern Spain, 1450-1750
(cross-leveled with HIST 7605). In this course, we begin with Fernando and Isabel, whose marriage brought together the two principle territories of Castile and Aragon, leading to the beginnings of a “united” Spain. As we trace the political and social history of Spain through the early modern era, we’ll also be examining the many myths surrounding Spanish history including topics such as the Columbus’ voyages, the Spanish Inquisition and the Black Legend.

Credit Hours: 3

HIST 4620: Modern England
Surveys British history in the 18th and 19th centuries. Emphasizes social and economic change.

Credit Hours: 3

HIST 4625: Nature vs. Nurture: The History of a Debate
(cross-leveled with HIST 7625). The purpose of this course is to explore the debate on nature vs. nurture in human society from the late eighteenth century to the present. The goal of this course is to give biology, history, and social science (including journalism) majors a better understanding of how this debate between nature and culture has played out over the past 250 years, and what impact it has left on biology, the social sciences, and public discourse today.

Credit Hours: 3

HIST 4630: The Age of the Renaissance
Major changes in European economic, social, political, religious, and intellectual life between 1250-1500. Humanism and Renaissance. The “Renaissance problem”.

Credit Hours: 3

HIST 4640: The Age of the Reformation
State of Europe about 1500. Political, diplomatic, social, and intellectual changes to 1648. Humanistic reform movements. Protestant-Catholic Reformation. Development of the modern state and international relations.

Credit Hours: 3

HIST 4645: Witchcraft and Witch Hunting in Pre-Modern Europe
(cross-leveled with HIST 7645). The surviving evidence indicates that between 1400 and 1700, at least 50,000 women, men, and children were executed for practicing witchcraft. Is there an explanation for this? Does it make any sense in terms of the intellectual, religious, social, political, and economic contexts of this period in European history? Fundamental to this course are the assumptions that there are many, not one, reasonable explanations for witchcraft beliefs and persecutions, and that when studied in terms of the various historical contexts this phenomenon must be understood as an integral part of European society during these centuries.

</table>
HIST 4867: North Korea: History, Political Economy, Culture
(same as KOREAN 4867; cross-leveled with HIST 7867). The aim of this course is to survey North Korea’s history, especially in terms of political economy and culture. Through several themes, we will examine the historical situations of North Korea from its beginnings in the postliberation period to the present, as North Korea undergoes monumental changes.

Credit Hours: 3

HIST 4870: Southeast Asia Since the Eighteenth Century
The general objective of this course is to introduce students to the fascinating world of Southeast Asia. We will look at the shared history of commodity, cultural, and religious exchanges that gave this region a collective character, as well as explore the historical conditions from which individual modern Southeast Asian state emerged.

Credit Hours: 3

HIST 4880: Chinese Migration: From Yellow Peril to Model Minority
(cross-leveled with HIST 7880). This course surveys Chinese emigration in the global context over the span of five centuries. We will pay special attention to the changing relationships between China and Chinese migrants. Our emphasis will be on history as a process of negotiation and contestation of heterogeneous groups or individuals through creative and selective acts.

Credit Hours: 3

HIST 4900: Beltway History: American Constitutional Democracy in Theory and Practice
(same as POL_SC 4900, CNST_DEM 4900). This course is an experiential overview of American political history for students participating in the Kinder Forum’s Washington internship program, showing how American constitutional democracy was developed and implemented right here on the Potomac, as much as possible in the actual places where the events occurred. Emphasis will be placed on the interplay between constitutional theory and actual political experience over time, and the tensions and institutional changes that emerged as Americans and their government coped with cataclysmic social changes, unparalleled economic development, and fearsome international challenges.

Credit Hours: 3

HIST 4904: Historical and Contemporary Slavery
(same as BL_STU 4904). An exploration of slavery in both its historical and contemporary context, focusing on the origins, characteristics, and struggles to abolish the practice. Historical slavery examined using African enslavement in the Americas, and contemporary slavery using human trafficking and forced labor in the developed and developing world.

Credit Hours: 3

HIST 4910: History in the Public: An Introduction to the Theory and Practice of Public History
(cross-leveled with HIST 7910). The purpose of this course is to introduce students to the world of public history, the central questions and debates in the field, and to offer students the opportunity to practice public history.

Credit Hours: 3

HIST 4910W: History in the Public An Introduction to the Theory & Practice of Public History - Writing Intensive
(cross-leveled with HIST 7910). The purpose of this course is to introduce students to the world of public history, the central questions and debates in the field, and to offer students the opportunity to practice public history.

Credit Hours: 3

HIST 4940: Internship in History
Professional training in history and archive-related fields. Graded on S/U basis only.

Credit Hours: 3

Prerequisites: departmental consent

HIST 4970: Undergraduate Seminar in Third World History
Readings in selected problems in the history of Africa, Asia or Latin America with reports and discussion.

Credit Hours: 3

Prerequisites: departmental consent

HIST 4970W: Undergraduate Seminar in Third World History - Writing Intensive
Readings in selected problems in the history of Africa, Asia or Latin America with reports and discussion.

Credit Hours: 3

Prerequisites: departmental consent

HIST 4971: Undergraduate Seminar in European History
Readings in problems in European history with reports and discussion.

Credit Hours: 3

Prerequisites: departmental consent

HIST 4971W: Undergraduate Seminar in European History - Writing Intensive
Readings in problems in European history with reports and discussion.

Credit Hours: 3

Prerequisites: departmental consent

HIST 4972: Undergraduate Seminar in American History
Readings in selected problems in American history with reports and discussion on selected topics.

Credit Hours: 3

Prerequisites: departmental consent

HIST 4972W: Undergraduate Seminar in American History - Writing Intensive
Readings in selected problems in American history with reports and discussion on selected topics.

Credit Hours: 3

Prerequisites: departmental consent
HIST 4975: Journal on Constitutional Democracy
(same as POL_SC 4975, CNST_DEM 4975). The Journal is sponsored by the Kinder Institute on Constitutional Democracy and staffed by current and former participants in the Institute's undergraduate Society of Fellows program. Each volume of the Journal is organized around a student-selected idea or era central to the historical development and philosophical foundations of constitutional democracy in the United States. Student-authored essays address this theme via arguments and historical overviews crafted from the close reading and analysis of primary source documents, with the exception being that participating in the Journal will relate back to and advance students' study of American political thought and history.

Credit Hours: 1-3

HIST 4980: Undergraduate Thesis in History
Individually directed research leading to a senior thesis.

Credit Hours: 3
Prerequisites: departmental consent

HIST 4981: Undergraduate Thesis in History
Continuation of HIST 4980.

Credit Hours: 3
Prerequisites: departmental consent

HIST 4981W: Undergraduate Thesis in History - Writing Intensive
Continuation of HIST 4980.

Credit Hours: 3
Prerequisites: departmental consent

HIST 4995: Honors Thesis in History
Research and completion of the thesis required for graduation with Honors in History.

Credit Hours: 3
Prerequisites: departmental consent

HIST 4995W: Honors Thesis in History - Writing Intensive
Research and completion of the thesis required for graduation with Honors in History.

Credit Hours: 3
Prerequisites: departmental consent

HIST 4996: Honors Thesis in History
Continuation of HIST 4995.

Credit Hours: 3
Prerequisites: departmental consent

HIST 4996W: Honors Thesis in History - Writing Intensive
Continuation of HIST 4995.

Credit Hours: 3
Prerequisites: departmental consent

HIST 7000: Age of Jefferson
Political, constitutional, cultural, and economic developments in United States during formative period of Republic, 1787-1828. Special attention to Constitutional Convention, formation of national political institutions.

Credit Hours: 3

HIST 7004: Topics in History - Social Science
Organized study of selected topics. Subjects and earnable credit may vary from semester to semester. Graduate students will be expected to complete additional reading and writing assignments commiserate with graduate level course requirements. May be repeated to maximum of 6 hours.

Credit Hours: 3
Prerequisites: departmental consent

HIST 7030: History of the Old South
Study of the South to 1860.

Credit Hours: 3

HIST 7040: Slavery and the Crisis of the Union: The American Civil War Era
(cross-leveled with HIST 4040). This class explores the history of the Civil War era, a transformative moment in both U.S. and world history. Our goal is to explore and answer a number of questions of great historical significance: How and why did slavery persist in an age of liberal democracy? Why did the pre-war Union prove unable to tolerate the plural visions and diverse institutions of its people? Was the descent into war more a measure of institutional weakness than of the intensity of moral conflict? What were the constituent elements of the competing wartime ‘nationalisms’ that evolved in both north and south? How and why did a war that began to restore the Union become one for emancipation? How was it the forerunner of modern, ‘total’ warfare? Did the governmental, socio-economic and racial changes wrought by war constitute a ‘second American revolution’? Were the limits or the achievements of post-war Reconstruction more notable? And, last but certainly not least, how did the triumph of the Union condition the political and economic development of a rapidly globalizing world? Graded on A-F basis only.

Credit Hours: 3

HIST 7060: The Period of the American Revolution, 1760-1789
Analysis of the Revolution, its causes and consequences, through establishment of the new government in 1789.

Credit Hours: 3

HIST 7070: Indians and Europeans in Early America
A study of the cultural, political and often military struggle that took place for control of North America from contact through mid 19th century emphasizing native efforts to resist European domination and expansion in areas that became the U.S. and Canada.

Credit Hours: 3
Prerequisites: HIST 1100 or equivalent

HIST 7080: American Foreign Policy from Colonial Times to 1898
(same as PEA_ST 7080).
HIST 7100: American Cultural and Intellectual History to 1865  
Origins and growth of American values and ideas considered in their social context. Topics include: the work ethic, republican politics, revivalism, reform movements, sexual attitudes, literature in the marketplace, Afro-American and slave-holding subcultures.

Credit Hours: 3

HIST 7220: U.S. Society Between the Wars 1918-1945  
Detailed examination of American history from end of World War I to end of World War II.

Credit Hours: 3

HIST 7230: Our Times: United States Since 1945  
Detailed examination of American history from end of World War II to the present.

Credit Hours: 3

HIST 7240: History of the New South  
Study of the South since 1860.

Credit Hours: 3

HIST 7260: The Age of Ascendancy: U.S. Foreign Relations, 1945-Present  
(same as PEA_ST 7260). Surveys the Cold War in Europe and Asia, the Korean and Vietnam Wars, and Middle East policy.

Credit Hours: 3

HIST 7280: America in the Reagan Years  
Examines the major political, economic, social, and cultural currents and developments of the "Long Eighties," from Jimmy Carter's "malaise speech" of July 1979 to Bill Clinton's mid-1990s embrace of welfare reform and pronouncement that the era of big government was over.

Credit Hours: 3

HIST 7310: Adoption Child Welfare and the Family, 1850-present  
(same as WGST 7310; cross-leveled with HIST 4310, WGST 4310). This interdisciplinary U.S. history course will address topics such as: changing legal and social meanings of adoption since 1850; historical connections between adoption and poverty, family, gender, race, sexuality, class, fertility, identity; and more recent issues such as transnational adoption.

Credit Hours: 3

HIST 7415: African Americans and American Justice  
(same as BL_STU 7415) This course provides opportunities to review and discuss selected court cases and legislation in which black men, women, or children were plaintiffs and defendants or affected by the laws.

Credit Hours: 3

HIST 7500: Philip II and Alexander the Great of Macedonia  
Concentrates on the history and politics of Greece during reigns of these two kings along with Alexander's military conquests and various controversies from the period.

Credit Hours: 3

HIST 7510: Crime and Punishment: Law in Classical Athens  
Examines the main principles of Athenian law and judicial procedures including history of law code and study of actual speeches from a variety of law suits and procedures.

Credit Hours: 3

HIST 7520: The Rise and Fall of the Roman Republic  
(cross-leveled with HIST 7520). Analysis of the downfall of Republican institutions and the origins of autocracy, from the Gracchi to the death of Augustus in A.D. 14.

Credit Hours: 3

HIST 7530: The Roman Empire  
Roman imperialism; management of, and rebellion in, the Empire; cultural exchange between Rome and its provinces.

Credit Hours: 3

HIST 7540: The Later Roman Empire  
Political, religious and cultural life in Late Antiquity, from the "soldier emperors," to the barbarian kingdoms and early Byzantium.

Credit Hours: 3

HIST 7550: Age of the Vikings  
Scandinavia and Scandinavian expansion in the Central Middle Ages. Covers political, economic, religious, and cultural effects of the Viking movement.

Credit Hours: 3

HIST 7555: Medieval France  
(cross-leveled with HIST 4555). This course covers the area that became the kingdom of France from the end of the Roman era until the end of the Hundred Years War; emphasize on political and cultural developments.

Credit Hours: 3

HIST 7560: The Crusades  
Survey of the European crusading movement from its inception in the late eleventh century to its decline during the later Middle Ages.

Credit Hours: 3

HIST 7580: The "Making" of Modern Europe: Identity, Culture, Empire  
(cross-leveled with HIST 4580). This course will explore some of the ideas, institutions and events that shaped modern Western civilization and thought, focusing on Western Europe, but also giving attention to the relationship between the West and the rest of the world. The course...
will introduce topics such as the rise of, nationalism, the cult of science, scientific racism and sexism, consumer mass culture, fascist ideology, existentialism, psychoanalysis, the modern city, gender and sexuality. Graded on A-F basis only.

**Credit Hours: 3**

**HIST 7605: Early Modern Spain, 1450-1750**
(cross-leveled with HIST 4605). In this course, we begin with Fernando and Isabel, whose marriage brought together the two principle territories of Castile and Aragon, leading to the beginnings of a "united" Spain. As we trace the political and social history of Spain through the early modern era, we'll also be examining the many myths surrounding Spanish history including topics such as the Columbus' voyages, the Spanish Inquisition and the Black Legend. Graded on A-F basis only.

**Credit Hours: 3**

**Prerequisites:** Department consent required

**HIST 7620: Modern England**
Surveys British history in the 18th and 19th centuries. Emphasizes social and economic change.

**Credit Hours: 3**

**HIST 7625: Nature vs. Nurture: The History of a Debate**
(cross-leveled with HIST 4625). The purpose of this course is to explore the debate on nature vs. nurture in human society from the late eighteenth century to the present. The goal of the course is to give biology, history, and social science (including journalism) majors a better understanding of how this debate between nature and culture has played out over the past 250 years, and what impact it has left on biology, the social sciences, and public discourse today. Graded on A-F basis only.

**Credit Hours: 3**

**HIST 7630: The Age of the Renaissance**
Major changes in European economic, social, political, religious, and intellectual life between 1250-1500. Humanism and Renaissance. The "Renaissance problem."

**Credit Hours: 3**

**HIST 7640: The Age of the Reformation**
State of Europe about 1500. Political, diplomatic, social, and intellectual changes to 1648. Humanistic reform movements. Protestant-Catholic Reformation. Development of the modern state and international relations.

**Credit Hours: 3**

**HIST 7645: Witchcraft and Witch Hunting in Pre-Modern Europe**
(cross-leveled with HIST 4645). The surviving evidence indicates that between 1400 and 1700, at least 50,000 women, men, and children were executed for practicing witchcraft. Is there an explanation for this? Does it make any sense in terms of the intellectual, religious, social, political, and economic contexts of this period in European history? Fundamental to this course are the assumptions that there are many, not one, reasonable explanations for witchcraft beliefs and persecutions, and that when studied in terms of the various historical contexts this phenomenon must be understood as an integral part of European society during these centuries. Graded on A-F basis only.

**Credit Hours: 3**

**HIST 7650: Revolutionary France, 1789-1851**
Revolutionary upheavals of the revolutionary-Napoleonic era, which destroyed traditional French society and laid the basis for modern France.

**Credit Hours: 3**

**HIST 7670: From the Holy Roman Empire to the First World War: German History, 1750-1918**
(cross-leveled with HIST 4670). Cultural, social and political history of Central Europe from 1800 to 1914. A case study in incomplete modernization, focused on industrialization, unification, cultural crisis and imperialism.

**Credit Hours: 3**

**HIST 7680: From the Rise of the Nazis to the Fall of the Wall: German History in the Twentieth Century**
(cross-leveled with HIST 4680). Cultural, social and political history from 1914 to present day. Focus on world wars, national socialism, the holocaust, the cold war and the emergence of East and West Germany.

**Credit Hours: 3**

**HIST 7700: Imperial Russia, 1682-1825**
Russia in the 18th and early 19th centuries, with special emphasis on the reigns of Peter I, Catherine II, and Alexander I.

**Credit Hours: 3**

**HIST 7710: The Russian Revolution**
Analyzes the transformation of Russian society that produced the collapse of autocracy, efforts to create a parliamentary government, the Bolshevik seizure of power in 1917, and the civil war that followed.

**Credit Hours: 3**

**HIST 7750: Traversing the Muslim World**
The traveler's tale formed an important part of the medieval world's system of knowledge. This writing intensive discussion-based course examines a wide array of the most influential travelers in Muslim lands such as Ibn Fadlan, Ibn Battuta, Benjamin of Tudela and Marco Polo.

**Credit Hours: 3**

**HIST 7850: Traversing the Muslim World**
Surveys British history in the 18th and 19th centuries. Emphasizes social and economic change.

**Credit Hours: 3**

**HIST 7860: From the Rise of the Nazis to the Fall of the Wall: German History in the Twentieth Century**
(cross-leveled with HIST 4680). Cultural, social and political history from 1914 to present day. Focus on world wars, national socialism, the holocaust, the cold war and the emergence of East and West Germany.

**Credit Hours: 3**

**HIST 7865: Buying Desire: History of Consumption**
(cross-leveled with HIST 4865). This course explores the history of consumption practice in various cultural contexts. The course is divided into four parts: "Masses As Consumers", "Selling/Consuming Cultures", "Consumption as (Postcolonial) Modernity", and "Consumption and the Nation". Under each section are thematically related texts on particular cultural contexts. The reading of ethnographic texts on consumption is to be accompanied by critical discussions that locate consumption within the practices of the nation-state-making and global product-marketing. Graded on A-F basis only.

**Credit Hours: 3**
HIST 7867: North Korea: History, Political Economy, Culture (cross-leveled with HIST 4867). The aim of this course is to survey North Korea's history, especially in terms of political economy and culture. Through several themes, we will examine the historical situations of North Korea from its beginnings in the postliberation period to the present, as North Korea undergoes monumental changes. Graded on A-F basis only.

Credit Hours: 3

HIST 7880: Chinese Migration: From Yellow Peril to Model Minority (cross-leveled with HIST 4880). This course surveys Chinese emigration in the global context over the span of five centuries. We will pay special attention to the changing relationships between China and Chinese migrants. Our emphasis will be on history as a process of negotiation and contestation of heterogeneous groups or individuals through creative and selective activities.

Credit Hours: 3

HIST 7910: History in the Public: An Introduction to the Theory and Practice of Public History (cross-leveled with HIST 4910). The purpose of this course is to introduce students to the world of public history, the central questions and debates in the field, and to offer students the opportunity to practice public history. Graded on A-F basis only.

Credit Hours: 3

HIST 7990: Economic Analysis of Policy & Regulation (cross-leveled with AG_EC 4990). Apply economic concepts and tools to analyze the policy-making process and the implications of policy for individuals, firms, markets and society. Policy topics include, among other things, agricultural support programs, environmental policy, international trade, international development, and agribusiness regulation.

Credit Hours: 3

Recommended: Graduate students should have previous coursework in basic econometrics and at least intermediate-level micro economic theory

HIST 8001: Seminar in the History of Colonial America Directed research in the colonial and revolutionary period of American history. May be repeated to a maximum of 6 hours.

Credit Hours: 3

HIST 8004: Topics in History-General Organized study of selected topics. Subjects and earnable credit may vary from semester to semester. May be repeated to a maximum of 6 hours.

Credit Hours: 1-99

Prerequisites: instructor's consent

HIST 8010: Studies in American Religious History, 1750-1850 This class will examine important ideas and trends in the field, with an emphasis on popular religious movements. This is a reading-based seminar, revolving around discussion of influential recent books. May be repeated to a maximum of 6 hours.

Credit Hours: 3

HIST 8020: Seminar in the Early American Republic Directed research in the period 1787-1861. May be repeated to a maximum of 6 hours.

Credit Hours: 3

HIST 8021: Studies in the Early American Republic This is an intense reading and discussion course designed to give students a crash course in the historiography of this period (emphasizing political culture) as well as practical experience in assimilating themselves quickly to a field. Students must attend and be prepared to participate knowledgeably in each class section. Graded on A-F basis only.

Credit Hours: 3

HIST 8030: Studies in Sectional Controversy, Civil War and Reconstruction Directed readings and discussions of major issues in the period of national unification of the United States, from 1850 through 1877. May be repeated to a maximum of 6 hours.

Credit Hours: 3

HIST 8040: Seminar in Imperial History Empires have been the predominant organizing political structure in modern world history (c. 1500-2000). Yet historians mostly structure historical inquiry around nations. This graduate class seeks to redress this imbalance by acquainting students with a diverse selection of the modern Anglophone historiography on empire, as well as giving them the opportunity to develop their own research project on an aspect of imperial history of their choosing. This class is reading and writing intensive, as should be expected of graduate students. Graded on A-F basis only.

Credit Hours: 3

HIST 8085: Problems in History Individual work not leading to dissertation.

Credit Hour: 1-99

Prerequisites: instructor's consent

HIST 8089: Masters Research in History Work equal to research done for a dissertation, but not leading to thesis.

Credit Hour: 1-99

Prerequisites: instructor's consent

HIST 8090: Masters Research in History Graded on a S/U basis only.

Credit Hour: 1-99

HIST 8210: Studies in Recent United States History Critical evaluation of writing in American history in period 1929-present. May be repeated to a maximum of 6 hours.

Credit Hours: 3

HIST 8211: Seminar in Recent United States History Advanced seminar in American history from 1929 to present. May be repeated to a maximum of 12 hours.
Credit: 1-12

HIST 8405: Studies in Gender
Studies in recent research material focused on the analysis of the intersections of gender, race and class in particular times and places. May be repeated to a maximum of 6 hours.

Credit Hours: 3

HIST 8410: Independent Readings for History Ph.D. Comprehensive Examination
Independent readings for Ph.D. Comprehensives.

Credit Hour: 1-99

Prerequisites: Open only to graduate students formally admitted to candidacy for Ph.D. in history

HIST 8415: Studies in African-American History
(same as BL_STU 8415). Readings on selected topics in African-American history from 1619 to the present, with emphasis on conflicting interpretations. May be repeated to a maximum of 6 hours.

Credit Hours: 3

HIST 8416: Seminar in African-American History
(same as BL_STU 8416). Directed research in selected topics in African-American history. May be repeated to a maximum of 6 hours.

Credit Hours: 3

HIST 8440: Studies in American Western and Environmental History
Readings, class discussion, and written analysis on topics in American Western and environmental history from early settlement to the present. May be repeated to a maximum of 6 hours.

Credit Hours: 3

HIST 8450: Studies in the History of the South
Group readings and appraisal of controversial interpretations in Southern history. May be repeated to a maximum of 6 hours.

Credit Hours: 3

HIST 8455: Studies in the History of American Diplomacy
Readings in evolution of American diplomacy from the Revolution to present. May be repeated to a maximum of 6 hours.

Credit Hours: 3

HIST 8457: Studies in the History of the United States and the World
This graduate seminar will explore the emerging historiographical field known as "The United States and the World", broadly defined to encompass both the history of U.S. foreign policy and other topics like the history of trade, immigration, and cultural exchange. This course will focus on historiography and methodology in order to introduce students to the existing literature, assist in preparation for comprehensive examinations, identify major trends in the field, and suggest directions for future research. Graded on A-F basis only.

Credit Hours: 3

HIST 8460: Historiography
Acquaints graduate students with examples of modern historical thought and practice by examining various conceptual approaches to the study of history. May be repeated to a maximum of six hours.

Credit Hours: 3

Prerequisites: departmental consent

HIST 8510: Seminar in Ancient History
Readings and research on selected problems in ancient history. May be repeated to a maximum of 6 hours.

Credit Hours: 3

HIST 8531: Studies in English History
Readings in historical literature covering period since 1660; particular reference to new interpretations of political, social developments. May be repeated to a maximum of 6 hours.

Credit Hours: 3

HIST 8540: Seminar in Medieval Culture
Investigates cultural developments in the medieval period. May be repeated to a maximum of 6 hours.

Credit Hours: 3

HIST 8541: Studies in Medieval History
Readings in medieval history and historiography with emphasis on current scholarship. May be repeated to a maximum of 6 hours.

Credit Hours: 3

HIST 8542: Seminar in Medieval Paleography
This course provides an introduction to medieval and Renaissance manuscript-sources and their use as research-tools in a fairly wide variety of sub-fields (e.g., archival study, scholastic text-analysis, vernacular literature). Graded on A-F basis only.

Credit Hours: 3

Prerequisites: departmental consent and competence in Latin grammar required

HIST 8550: Seminar in the Renaissance and Reformation
Analyzes problems of the period 1300-1600; emphasizes intellectual history. May be repeated to a maximum of 6 hours.

Credit Hours: 3

HIST 8551: Studies in Early Modern European History
Readings in historical classics and current scholarship on Renaissance, Reformation, Baroque, and Enlightenment periods. Problem of modernity. May be repeated to a maximum of 6 hours.

Credit Hours: 3

HIST 8570: Studies in Modern European History
Readings in recent research material on selected topics. May be repeated to a maximum of 6 hours.

Credit Hours: 3
HIST 8571: Seminar in Modern European History
Explores Modern European History. Graded on A-F basis only. Repeatable for credit.
Credit Hours: 3

HIST 8800: Studies in Latin American History
Readings in standard and recent historical literature, with critical discussion of reports on special topics. May be repeated to a maximum of 6 hours.
Credit Hour: 1-6

HIST 9090: PhD Research in History
Graded on a S/U basis only.
Credit Hours: 1-99

Honors-General (GN_HON)

GN_HON 1010H: Career Explorations
Colloquia in which experts from both the University and the Columbia communities discuss their specialties and answer students’ questions on the nature and current status of their disciplines. Open primarily to freshmen. Graded on an S/U basis only.
Credit Hour: 1
Prerequisites: Honors eligibility required

GN_HON 1030H: Honors Discussion Groups
Informal discussion between students and faculty on various academic topics. Graded S/U only.
Credit Hour: 1-2
Prerequisites: Honors eligibility required

GN_HON 1050H: Honors Seminar
Freshman-sophomore seminar offering a small group opportunity to write about and discuss basic works chosen by instructor.
Credit Hour: 1-3
Prerequisites: Honors eligibility required

GN_HON 1070H: Honors Elective Colloquium
Credit Hour: 2-3
Prerequisites: Honors eligibility required

GN_HON 1080H: Honors Internship
Independent study under the supervision of a regular faculty member.
Credit Hour: 1-3
Prerequisites: written proposal with professor's approval submitted in advance to Director of the Honors College. Honors eligibility required

GN_HON 2010H: Honors Tutorial
Small group of students (2-5) engage in collaborative work under faculty guidance. The focus is determined in advance by a faculty member and shaped through discussion with the enrolled students. Course may be repeated for credit. Honors eligibility required
Credit Hour: 1-3

Prerequisites: instructor's consent

GN_HON 2011H: Unbound: Reading Without Limits
Joining forces with the Unbound Book Festival, held late April each year here in Columbia, the Unbound tutorial seeks to engage students in the life-long learning approach to reading for pleasure, for the pursuit of engagement, and as a social construct (rather than simply an isolated act). Students will read no fewer than four works of fiction, non-fiction, poetry, and essays, and discuss them as a reading circle but also have the opportunity to meet the authors during the Unbound Book Festival and discuss with them their ideas and skills. Graded on A-F basis only.
Credit Hour: 1
Prerequisites: Honors eligibility required

GN_HON 2012H: BBQ: Culture, Cuts, and Consumption - Honors
This course will focus on providing you with a sound understanding of the culture, context, culinary, and commercial aspects of Barbecue. We will explore how the meat industry plays a role in BBQ, the environmental implications (of both meat and wood usage), the culture (from your backyard to the national competitions, and even BBQ abroad), and look into how and why BBQ has become such a phenomenon. We will spend some time with a local (KC) author who has written a novel on BBQ that is currently being turned into a TV series. And then we will spend time visiting local BBQ "joints", speaking with owners and pitmasters, customers and devotees, about their business models, their culinary decisions, and their traditions - yes, we will taste, but we will also learn, and use what we have learned, to understand the world of BBQ and its intersections in our daily and national lives. Graded on A-F basis only.
Credit Hour: 1
Prerequisites: Honors eligibility required

GN_HON 2015H: Theory and Practice of Tutoring Writing Seminar (same as ENGLSH 2015H).
Addresses both the theory and practice of tutoring and the foundations of good writing. This course also qualifies students for a part-time job working as Writing Lab/Online Writery tutors in future semesters.
Credit Hours: 3
Prerequisites: ENGLSH 1000; instructor's consent

GN_HON 2015HW: Theory and Practice of Tutoring Writing Seminar - Honors/Writing Intensive (same as ENGLSH 2015H).
Addresses both the theory and practice of tutoring and the foundations of good writing. This course also qualifies students for a part-time job working as Writing Lab/Online Writery tutors in future semesters.
Credit Hours: 3
Prerequisites: ENGLSH 1000; instructor's consent

GN_HON 2085H: Honors Problems
Independent study under the supervision of a regular faculty member.
Credit Hour: 1-3
Prerequisites: written proposal with professor's approval submitted in advance to Director of the Honors College. Honors eligibility required
GN_HON 2111H: The Ancient World
The reading list is comprised of the great writers of classical Greece and Rome such as Homer, Sophocles, Plato, Aristotle, Virgil and Apuleius, and of the biblical period, the authors of the Book of Job and the Gospel of Mark.

Credit Hours: 3
Prerequisites: Honors eligibility required

GN_HON 2111HW: The Ancient World - Honors/Writing Intensive
The reading list is comprised of the great writers of classical Greece and Rome such as Homer, Sophocles, Plato, Aristotle, Virgil and Apuleius, and of the biblical period, the authors of the Book of Job and the Gospel of Mark.

Credit Hours: 3
Prerequisites: Honors eligibility required

GN_HON 2112H: The Middle Ages and the Renaissance
The literature, art and philosophy which reflect the interaction of biblical thought with the classical past, and ultimately an emerging humanism, form the contents of the second semester. Readings include selections from such central figures as Aquinas, Chaucer, Dante, and Shakespeare. Special lectures are presented on the art, architecture and music of these eras.

Credit Hours: 3
Prerequisites: Honors eligibility required

GN_HON 2112HW: The Middle Ages and the Renaissance - Honors/Writing Intensive
The literature, art and philosophy which reflect the interaction of biblical thought with the classical past, and ultimately an emerging humanism, form the contents of the second semester. Readings include selections from such central figures as Aquinas, Chaucer, Dante, and Shakespeare. Special lectures are presented on the art, architecture and music of these eras.

Credit Hours: 3
Prerequisites: Honors eligibility required

GN_HON 2113H: The Early Modern World: The 17th-19th Centuries
Enlightenment
The third segment of the Sequence treats the cultural developments in the West from the Baroque to the Enlightenment through Romanticism. The works of Cervantes, Descartes, Milton, Voltaire, Kant, Austen, Goethe, and Dickinson are among those studied. The music and visual arts of these periods are also included.

Credit Hours: 3
Prerequisites: Honors eligibility required

GN_HON 2114H: The Modern Era
The final semester of the Humanities Sequence deals with the intellectual and cultural developments from the mid-nineteenth to the late twentieth century. Lectures and discussions will be held on the philosophy of Marx, Nietzsche, Sartre and Hannah Arendt; on the literary works of Dickens, Dostoevsky, James Joyce, Virginia Woolf, T.S. Eliot, and Toni Morrison. Special lectures are presented on the music of the period.

Credit Hours: 3
Prerequisites: Honors eligibility required

GN_HON 2114HW: The Modern Era - Honors/Writing Intensive
The final semester of the Humanities Sequence deals with the intellectual and cultural developments from the mid-nineteenth to the late twentieth century. Lectures and discussions will be held on the philosophy of Marx, Nietzsche, Sartre and Hannah Arendt; on the literary works of Dickens, Dostoevsky, James Joyce, Virginia Woolf, T.S. Eliot, and Toni Morrison. Special lectures are presented on the music of the period.

Credit Hours: 3
Prerequisites: Honors eligibility required

GN_HON 2120H: Honors Humanities Colloquium
Credit Hour: 2-3
Prerequisites: Honors eligibility required

GN_HON 2120HW: Honors Social Science Colloquium - Honors/Writing Intensive
Credit Hour: 2-3
Prerequisites: Honors eligibility required

GN_HON 2230H: Honors Social Science Colloquium
Credit Hour: 2-3
Prerequisites: Honors eligibility required

GN_HON 2230HW: Honors Social Science Colloquium - Honors/Writing Intensive
Credit Hour: 2-3
Prerequisites: Honors eligibility required

GN_HON 2231H: Genocide in the Modern World: An Introduction
This course examines the multitude of genocide's facets - its causes, course of events, consequences, and the pursuit of prevention and punishment - since the advent of the Twentieth Century (with some examination of historical antecedents). Specific historical and conceptual aspects of various case studies will be examined and a framework for the study of genocide will be developed and applied, starting with the legal definition of genocide and ending with very nuanced theories, behaviors, and components of specific events. The class will use foundational case studies to understand the place of genocide throughout history and end with an investigation into current and on-going genocides, as well as the international pursuit of justice in the wake of these events. Graded on A-F basis only.

Credit Hours: 2-3
Prerequisites: Honors eligibility required

GN_HON 2232H: Human Sciences Sequence I: Personal Identity
This interdisciplinary course approached the perennial but fascinating question of how we define, develop, and present ourselves. It considers this question from a range of disciplinary, regional, and thematic perspectives.

Credit Hours: 3
Prerequisites: Honors eligibility required

GN_HON 2233H: Social Relations
This interdisciplinary course explores the construction of human identity as it related to social groups (these groups might include anything from the family to fan clubs, sports teams to college students).

Credit Hours: 3
Prerequisites: Honors eligibility required

<tr>
<td>GN_HON 2245H</td>
<td>Social Organization</td>
<td>This course examines various forms of social organization from an interdisciplinary perspective. The course will examine small organizations (such as families and kin networks) that are grounded in face-to-face relationships and then consider the impact of large-scale organizations (such as markets and states). The class will also explore how these larger organizations can hold together in the absence of direct personal connections between members.</td>

**GN_HON 3241H: Evolution of Human Nature**  
(same as ANTHRO 3340H). We will investigate the topic of human nature, asking such questions as: What are we like? Why do we behave the way we do? Are we inherently selfish or social? Do we have a unitary “self” or are we made up of many (and sometimes contradictory) selves? Is there a single “human” nature or are there distinct “male” and “female” natures? Does human nature vary across cultures? Insights come from fields ranging from genetics to literature. The concept of “human nature” is fiercely contested and debated both within and between academic disciplines. We will be focusing on the scientific study of human nature, seeking naturalistic explanations by formulating and testing hypotheses. In particular, we will use evolutionary theory to unify explanations from disparate disciplines like biology, psychology, and anthropology. In each class, we will discuss one specific topic like sex or violence and seek to make sense of it from both the proximate level (what triggers the behavior and how does it develop?) and the ultimate level (why and how did our evolutionary history imbue us with this capacity?). Graded on A-F basis only.

**GN_HON 3242H: Ethics of Global Citizenship Honors/Writing  
Intensive**  
This course investigates the dynamic qualities of human experience in psychological, social, and environmental context with a focus on contemporary global issues. Course topics vary by semester but will bridge the social and behavioral sciences to address an overarching question: What makes us human? We will explore the social and behavioral factors that shape our shared human condition as well as those that contribute to diversity in the human experience. We will then investigate the complexities of what it means to be human within the globally interconnected societies we live in today. How do we deal creatively with human diversity in addressing the global problems and uncertainties that confront us? What attitudes, practices, and projects might help us manage global uncertainties and opportunities more effectively? What is your role in the global community of the twenty-first century? In exploring these questions through intensive reading, writing, research, and discussion, this course will help you develop a global consciousness that is sensitive to the lived textures and realities of places and peoples around the world. This course satisfies three credit hours of general education requirements in the behavioral and social sciences and is part of the Honors College’s Interdisciplinary Topics in the Human Sciences series. Graded on A-F basis only.

Hospitality Management (HSP_MGMT)

HSP_MGMT 1100: Introduction to Hospitality Management
An overview of the size, scope, form, analysis and development of various sectors in the hospitality industry. These include hotel, tourism, food and beverage, convention and events, club, cruise, gaming, managed services, and sport venue management. Emphasis will be on the global nature of the industry and its impact on economy and employment. Students will be exposed to career opportunities, cultural diversity, ethical consideration and current trends facing industry. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: Restricted to freshman and sophomore students only

HSP_MGMT 2100: Hospitality Law
Provides an integrated analysis of the legal system as it applies to the hospitality industry. Topics include: theories of recover/liability; employment laws, property rights and contracts, lawsuits and their prevention; familiarization with legal arguments, ligation, ethical issues and the tort of negligence in professional context. Relevant federal and state cases, statutes, and regulations will be examined. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: HSP_MGMT 1100

HSP_MGMT 2115: Club Management and Operations
Examines aspects of club operations from a managerial perspective. Topics include: history, types of club and membership systems, club management structure, charter, by-laws; athletic activities, master and club calendars; unique features of club operations including food and beverage operations, human resources management, finances, building and facilities management, external and governmental factors, trends and the future of clubs. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: HSP_MGMT 1100

HSP_MGMT 2190: Seminar in Professional Development
A systematic approach to expose students to a journey of self assessment and to develop life-long skills for their careers in the hospitality industry. Using professionalism as a framework, students are made aware of the foundation of effective workplace relationship and how to appropriately manage these relationships toward career success. Topics include self management, workplace relationship, and career planning tools. Graded on A-F basis only.
Credit Hours: 1
Prerequisites: HSP_MGMT 1100; restricted to Hospitality Management majors only

HSP_MGMT 2200: Fundamentals of Conference and Events Industry
Overview of the Meeting, Incentive, Convention and Exhibition (MICE) management industry in hospitality and tourism from a macro perspective. The knowledge and information available to conference and meeting business are described and evaluated, including the trend and issues facing the industry, the characteristics of the size and scope of the market, key players, and different sectors in the meeting industry. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: HSP_MGMT 1100

HSP_MGMT 2300: Fundamentals of the Food and Beverage Industry
An introduction to the macro aspects and a comprehensive overview of the Food and Beverage industry. The course begins with a history of meals away from home and an overview of commercial versus noncommercial food and beverage operations. Detailed considerations are given to components of the food service businesses: size and scope of the industry, major classifications, ownership types, key players, consumer purchasing behavior, quality assurance, trends, challenges, cultural diversity, ethical consideration, and impact of globalization. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: HSP_MGMT 1100

HSP_MGMT 2400: Fundamentals of Lodging Industry
Explores the foundations of the global lodging industry. The history of the industry, relationship of tourism, size and scope, classification and types, major global players will be examined. Issues related to the impact of globalization, international hotel investment, development and operations, global competitions, political aspects, human resources and cultural diversity will be discussed. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: HSP_MGMT 1100

HSP_MGMT 2500: Fundamentals of Sport Venue Industry
An overview of the Sport Venue Industry from a macro perspective. Students will be exposed to the major aspects regarding management of athletic and recreational facilities. Topics will include: history, trends and globalization of sport and venue development, types of sport facilities and major key players, construction and finance, facility systems and operations, sales and marketing, liability and risk management, ticket and box office operation, and event management. Cultural diversity, ethical
issues and career opportunities in Sport Venue Management will also be explored. Graded on A-F basis only.

**Credit Hours:** 3  
**Prerequisites:** HSP_MGMT 1100

---

**HSP_MGMT 3100: Service Delivery Management**  
Addresses the essence of delivering memorable guest experience through service management. Topics include concepts of service, guest behavior, perceptions and satisfaction, service compliance standards, assessment methods and service recovery strategies. Students will then learn how to leverage their understanding of these concepts to establish service culture and strategies to meet organizational goals within the context of hospitality businesses. Graded on A-F basis only.

**Credit Hours:** 3  
**Prerequisites:** HSP_MGMT 1100; Restricted to Hospitality Management junior and senior students only

---

**HSP_MGMT 3104: Topics in Hospitality Management**  
An examination of specific subject matter areas in the field of hospitality management will be addressed. Current issues, trends and challenges will also be discussed. Graded on A-F basis only

**Credit Hours:** 1-3  
**Prerequisites:** HSP_MGMT 1100; Restricted to Hospitality Management junior and senior students

---

**HSP_MGMT 3105: Problems in Hospitality Management**  
Students develop problem solving, analytical skills by engaging in a supervised study of a selected field in the hospitality industry. Challenges and issues will be identified and probable solutions will be weighed and evaluated. Graded on A-F basis only

**Credit Hours:** 3  
**Prerequisites:** Instructor's consent required

---

**HSP_MGMT 3115: Management of Gaming Operations**  
An overview, analysis of gaming management and financial elements unique to operating gaming businesses. Topics include: History and development of gaming, economic relationships, social impact, legal and changing competitive environments, consumer behavior and psychological forces, corporate culture and technology, revenue control, and promotion and marketing. Graded on A-F basis only

**Credit Hours:** 3  
**Prerequisites:** HSP_MGMT 1100; Restricted to Hospitality Management junior and senior students only

---

**HSP_MGMT 3200: Conference and Meeting Management**  
Addresses the different operational aspects regarding convention and meeting planning management. Students will be exposed to skill-based knowledge pertaining to meeting and event planning, implementation and management. Topics discussed to include group business market, the role of the event planner, the various techniques and services used to meet their needs. Food and beverage, technology used, legal issues, social responsibility, and international aspects in the convention and meeting industry will be addressed. Graded on A-F basis only.

**Credit Hours:** 3  
**Prerequisites:** HSP_MGMT 2200; Restricted to Hospitality Management junior and senior students only

---

**HSP_MGMT 3300: Food Production Management**  
Explore the production and service aspects of the food and beverage businesses. It will examine principles of concept development, menu planning, pricing and costing, forecasting, standardize recipe and testing, purchasing, food sanitation and safety, quantity food production, delivery of service, inventory control, quality assurance, professionalism and team work. Students will rotate through the different functions of the "front" and "back of the house" of a food facility. This supervised student-operated facility enables students to apply theories to the actual food service operation. Graded on A-F basis only.

**Credit Hours:** 3  
**Prerequisites:** HSP_MGMT 2300; Restricted to Hospitality Management juniors and seniors only

---

**HSP_MGMT 3310: Food Service Budgeting and Controls**  
Examines management systems and techniques in the food and beverage industry. Topics include: effective use and control of food, beverage, and labor costs to manage a company's operations, with emphasis on computer applications, problems solving and analytical skills, making sound financial decisions, and excellence in customer service. This is a Math Reasoning Proficiency course. Graded on A-F basis only.

**Credit Hours:** 3  
**Prerequisites:** HSP_MGMT 1100, MATH 1100.; Restricted to Hospitality Management junior and senior students only

---

**HSP_MGMT 3315: Banquet and Catering Management**  
Engage in the management of service and production systems in catering operations and banquet facilities. An emphasis will be placed on the fundamentals of communication and planning with event coordinators, menu planning, sales and marketing, food and beverage cost control, guest service standards, quantity food productions, food safety, needs and challenges of catering both on and off premises. Graded on A-F basis only.

**Credit Hours:** 3  
**Prerequisites:** HSP_MGMT 2300; Restricted to Hospitality Management junior and senior students only

---

**HSP_MGMT 3320: Beverage Management**  
Explore and analyze operational and managerial elements of the bar and beverage industry. Topics include: alcoholic versus non-alcoholic beverage, beverage menu development, pricing strategy and costing, sensory evaluation, food and beverage pairing, marketing and promotion, inventory control, training of personnel, legal aspects of responsible service of alcohol. Graded on A-F basis only.

**Credit Hours:** 3  
**Prerequisites:** HSP_MGMT 2300.; Restricted to Hospitality Management junior and senior students only

---

**HSP_MGMT 3400: Lodging Operations and Management**  
Exposes students to the principles of managing lodging businesses regarding the fundamental principles, hows and whys of management. Topics include: Analysis of the functions of each department, organization structure, inter-relationship among various departments of a lodging facility, property management system, safety and security, guest
service and satisfaction, and total quality issues. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: HSP_MGMT 2400

HSP_MGMT 3420: Technology Applications in the Lodging Industry
Survey of the technology applications, issues, and trends in the lodging industry. The role of technology in operations and as a strategic tool to achieve competitive advantage will be examined. Students will need to have a good grasp of how to best implement information technology that will impact the future of their organizations. Current technology issues of interest and importance to the industry will also be explored. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: HSP_MGMT 2400. Open to Hospitality Management junior and senior students only

HSP_MGMT 3500: Sport Venue Operation Management
Examines the various operational dynamics and management of sport venues and facilities. Topics such as public versus private ownership and governance structures, facility planning and feasibility study, design and construction, event planning, programming and execution, sales and marketing, box office operations, and financial management will be addressed. Ethical issues, legal responsibilities, risk and security management will also be discussed. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: HSP_MGMT 2500; Restricted to Hospitality Management junior and senior students only

HSP_MGMT 3993: Field Training in Hospitality Management
Applies theories into actual industry setting. Aspects such as career paths, team work, inter-relationship in the workplace and professionalism are explored. Graded on A-F basis only.

Credit Hour: 1-3
Prerequisites: instructor’s consent

HSP_MGMT 4100: Hospitality Human Resources Management
(cross-leveled with HSP_MGMT 7100). Examines effective management of human resources issues in hospitality businesses. It addresses issues related to managing subordinates through hiring the right person for the position, training properly, evaluating employees' performance accurately and promptly, rewarding good behaviors, and motivating and coaching them. Manpower planning, equal employment practices and employee relations, quality of work life, compensation and reward structure, and how to make sound human resource management decisions will also be discussed. This is a writing intensive course. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: HSP_MGMT 1100. Open to Hospitality Management junior and senior students only

HSP_MGMT 4110: Hospitality Sales and Marketing Management
(cross-leveled with HSP_MGMT 7110). Application of a customer-oriented approach to sales and marketing management in hospitality and tourism industry. The marketing techniques available to hospitality businesses are described and evaluated, including service marketing mix, packaging, travel trade, advertising, sales promotion, merchandising, and personal selling. Marketing of hospitality services regarding human factors, consumer demand, planning, professional considerations are also discussed. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: HSP_MGMT 1100. Open to Hospitality Management junior and senior students only

HSP_MGMT 4180: Strategic Management in the Hospitality Industry
Focuses on developing conceptual skills and application of the principles of strategic management in the context of the hospitality industry. It involves handling and analyzing ambiguous facts as well as relevant industry problems and issues facing management personnel in the global hospitality markets. Topics include: Business environments, mission statement, corporate and business strategies, evaluation and control. It requires that students to apply functions of management, finance, human resources, and marketing, learn how to engage in planning by examining situations from the perspectives of customer, employee, and management. The ultimate goal is to encourage students to think "out-of-the-box" in order to find innovative solutions that will reshape the hospitality industry and define how the hospitality company of tomorrow will create value. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: HSP_MGMT 3100 and MANGMT 3000. Open to Hospitality Management junior and senior students only

HSP_MGMT 4190: Trends in Hospitality Management
To keep abreast of the development that affects current managerial practices, this course is a survey of key trends and critical issues that impact the hospitality industry. Best practices, opportunities and challenges facing the industry will also be discussed. Graded on A-F basis only.

Credit Hour: 1
Prerequisites: HSP_MGMT 1100 and open to Hospitality Management students only

HSP_MGMT 4200: Destination Management
(cross-leveled with HSP_MGMT 7200). An overview of hospitality and tourism destination management using a system approach that integrates a variety of hospitality and tourism organizations and businesses. Destination management will be examined from the perspectives of travelers and destination communities in the context of economic, socio-cultural, and environmental impacts. Optimal planning, development,
marketing of destination image and position in the context of the overall
management plan will be addressed. Graded on A-F basis only.

**Credit Hours:** 3  
**Prerequisites:** HSP_MGMT 2200. Open to Hospitality Management
junior and senior students only

---

**HSP_MGMT 4280: Special Events Management**  
Synthesis of theories and a comprehensive guide in understanding,
planning, promoting and producing and managing special events. Topics
include: Event design, feasibility studies, legal compliance, promotion,
safety and security, logistics, staffing, financial control and technology.
It is based on a systematic, step-by-step approach to event planning,
implementation, and management. This course requires a considerable
amount of teamwork. Graded on A-F basis only.

**Credit Hours:** 3  
**Prerequisites:** HSP_MGMT 3200. Open Hospitality Management senior
students only

---

**HSP_MGMT 4280W: Special Events Management - Writing Intensive**  
Synthesis of theories and a comprehensive guide in understanding,
planning, promoting and producing and managing special events. Topics
include: Event design, feasibility studies, legal compliance, promotion,
safety and security, logistics, staffing, financial control and technology.
It is based on a systematic, step-by-step approach to event planning,
implementation, and management. This course requires a considerable
amount of teamwork. Graded on A-F basis only.

**Credit Hours:** 3  
**Prerequisites:** HSP_MGMT 3200. Open Hospitality Management senior
students only

---

**HSP_MGMT 4380W: Managing Food Service Businesses - Writing Intensive**  
Students explore the market positioning and the management of
the student-run food service operation from concept development
to execution. Students will apply knowledge gained from marketing,
human resources and operational budgeting to develop their themes and
execute their meals. Students will hone their problem solving, leadership
and interpersonal skills while engaging in team building. Graded on A-F
basis only.

**Credit Hours:** 3  
**Prerequisites:** HSP_MGMT 3300. Open to Hospitality Management senior
students only

---

**HSP_MGMT 4400: Hospitality Finance Management**  
(cross-leveled with HSP_MGMT 7400). Application of financial principles
to the hospitality industry. The focus is to provide students a foundation
on how to use numbers and fundamental financial analysis to operate a
successful hospitality business. Topics include forecasting, profit and loss
statement, balance sheet, capital budgeting, and revenue management
related to the hospitality industry. Graded on A-F basis only.

**Credit Hours:** 3  
**Prerequisites:** HSP_MGMT 1100, FINANC 2000. Open to Hospitality
Management junior and senior students only

---

**HSP_MGMT 4480W: Advanced Lodging Management - Writing Intensive**  
Apply, integrate, and synthesize previously learned knowledge, skills,
and experience to solve real problems that the lodging industry faces.
Specifically, managerial responsibilities, organizational structures and
current trends will be examined. Throughout the class students will
develop their professional identity, leadership skills and confidence to
participate in the workforce. Graded on A-F basis only.

**Credit Hours:** 3  
**Prerequisites:** HSP_MGMT 3400. Open to Hospitality Management
senior students only

---

**HSP_MGMT 4500: Management and Promotion of Live Entertainment**  
Examines the various media used to promote venues, events and live entertainment. Topics include: Artist management, budgets and financial management, insurance, liabilities, contracts and riders, event production and tour scheduling, sport communication, and community relations. In particular, emphasis will be on the use of social media platforms in promotions, public relations, and other revenue generating activities of the industry. The principles of organizational advocacy, press conferences, and crisis communication plans will also be discussed. Graded on A-F basis only.

**Credit Hours:** 3  
**Prerequisites:** HSP_MGMT 2500, open to Hospitality Management
students only

---

**HSP_MGMT 4515: The Business of Sport Venue Management**  
Focuses on the business aspects of managing athletic and recreational venues. The course examines the management and financial tools that managers use to run their sport venues and businesses. Traditional and innovative methods of revenue acquisition, financial business structure, sponsorship and forecasting processes as it pertains to the effective management of venues and sport organizations are discussed. Graded on A-F basis only.

**Credit Hours:** 3  
**Prerequisites:** HSP_MGMT 2500. Open to Hospitality Management
junior and senior students only

---

**HSP_MGMT 4580W: Sport Venue and Facility Management - Writing Intensive**  
Examines the various media used to promote venues, events and live entertainment. Topics include: Artist management, budgets and financial management, insurance, liabilities, contracts and riders, event production and tour scheduling, sport communication, and community relations. In particular, emphasis will be on the use of social media platforms in promotions, public relations, and other revenue generating activities of the industry. The principles of organizational advocacy, press conferences, and crisis communication plans will also be discussed. Graded on A-F basis only.

**Credit Hours:** 3  
**Prerequisites:** HSP_MGMT 3500. Open to Hospitality Management
senior students only

---

**HSP_MGMT 4580: Sport Venue and Facility Management**  
Examines the various media used to promote venues, events and live entertainment. Topics include: Artist management, budgets and financial management, insurance, liabilities, contracts and riders, event production and tour scheduling, sport communication, and community relations. In particular, emphasis will be on the use of social media platforms in promotions, public relations, and other revenue generating activities of the industry. The principles of organizational advocacy, press conferences, and crisis communication plans will also be discussed. Graded on A-F basis only.

**Credit Hours:** 3  
**Prerequisites:** HSP_MGMT 2500. Open to Hospitality Management
students only

---

**HSP_MGMT 4590: The Business of Sport Venue Management**  
Focuses on the business aspects of managing athletic and recreational venues. The course examines the management and financial tools that managers use to run their sport venues and businesses. Traditional and innovative methods of revenue acquisition, financial business structure, sponsorship and forecasting processes as it pertains to the effective management of venues and sport organizations are discussed. Graded on A-F basis only.

**Credit Hours:** 3  
**Prerequisites:** HSP_MGMT 2500. Open to Hospitality Management
junior and senior students only

---

**HSP_MGMT 4680W: Sport Venue and Facility Management - Writing Intensive**  
Examines the various media used to promote venues, events and live entertainment. Topics include: Artist management, budgets and financial management, insurance, liabilities, contracts and riders, event production and tour scheduling, sport communication, and community relations. In particular, emphasis will be on the use of social media platforms in promotions, public relations, and other revenue generating activities of the industry. The principles of organizational advocacy, press conferences, and crisis communication plans will also be discussed. Graded on A-F basis only.

**Credit Hours:** 3  
**Prerequisites:** HSP_MGMT 3600. Open to Hospitality Management
senior students only

---

**HSP_MGMT 4780: Sport Venue and Facility Management**  
Examines the various media used to promote venues, events and live entertainment. Topics include: Artist management, budgets and financial management, insurance, liabilities, contracts and riders, event production and tour scheduling, sport communication, and community relations. In particular, emphasis will be on the use of social media platforms in promotions, public relations, and other revenue generating activities of the industry. **Credit Hours:** 3  
**Prerequisites:** HSP_MGMT 3600. Open to Hospitality Management
senior students only
HSP_MGMT 4993: Internship in Hospitality Management
Students apply concepts and theories from their coursework to practical work experiences in the hospitality industry, under the direction of industry professionals and faculty evaluation. It is the student's responsibility to secure an internship position and all internship experience must have prior approval from his/her advisor. In addition to the field experience, students will develop their problem solving and analytical skills through projects that are operational in nature. Graded on A-F basis only. Enrollment is limited to students who have completed a minimum of 75 credits and completed HSP_MGMT 1100, HSP_MGMT 2190 and one of the courses from students designated emphasis area: HSP_MGMT 3200, HSP_MGMT 3300, HSP_MGMT 3400 or HSP_MGMT 3500.

Credit Hours: 3
Prerequisites: Instructor's consent required

HSP_MGMT 7100: Hospitality Human Resources Management
(cross-leveled with HSP_MGMT 4100). Examines effective management of human resources issues in hospitality businesses. It addresses issues related to managing subordinates through hiring the right person for the position, training property, evaluating employees' performance accurately and promptly, rewarding good behaviors, and motivating and coaching them. Manpower planning, equal employment practices and employee relations, quality of work life, compensation and reward structure, and how to make sound human resource management decisions will also be discussed. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: instructor's consent

HSP_MGMT 7110: Hospitality Sales and Marketing
(cross-leveled with HSP_MGMT 4110). Application of a customer-oriented approach to sales and marketing management in hospitality and tourism industry. The marketing techniques available to hospitality businesses are described and evaluated, including service marketing mix, packaging, travel trade, advertising, sales promotion, merchandising, and personal selling. Marketing of hospitality services regarding human factors, consumer demand, planning, professional considerations are also discussed. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: instructor's consent

HSP_MGMT 7180: Strategic Management in the Hospitality Industry
(cross-leveled with HSP_MGMT 4180). Focuses on developing conceptual skills and application of the principles of strategic management in the context of the hospitality industry. It involves handling and analyzing ambiguous facts as well as relevant industry problems and issues facing management personnel in the global hospitality markets. Topics include: Business environments, mission statement, corporate and business strategies, evaluation and control. It requires that students to apply functions of management, finance, human resources, and marketing, learn how to engage in planning by examining situations from the perspectives of customer, employee, and management. The ultimate goal is to encourage students to think "out-of-the-box" in order to find innovative solutions that will reshape the hospitality industry and define how the hospitality company of tomorrow will create value. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: Instructor's consent

HSP_MGMT 7200: Destination Management
(cross-leveled with HSP_MGMT 4200). An overview of hospitality and tourism destination management using a system approach that integrates a variety of hospitality and tourism organizations and businesses. Destination management will be examined from the perspectives of travelers and destination communities in the context of economic, socio-cultural, and environmental impacts. Optimal planning, development, marketing of destination image and position in the context of the overall management plan will be addressed. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: instructor's consent

HSP_MGMT 7400: Hospitality Finance Management
(cross-leveled with HSP_MGMT 4400). Application of financial principles to the hospitality industry. The focus is to provide students a foundation on how to use numbers and fundamental financial analysis to operate a successful hospitality business. Topics include forecasting, profit and loss statement, balance sheet, capital budgeting, and revenue management related to the hospitality industry. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: instructor's consent

Human Development And Family Studies (H_D_FS)

H_D_FS 1600: Foundations of Family Science
Introduction to family science discipline and profession. Introduces historical changes in families, diversity by race, ethnicity, class, life stage and sexual orientation, and interaction of families with neighborhoods, schools, the workplace, and larger systems.

Credit Hours: 3

H_D_FS 1610: Intimate Relationships and Marriage
Examination of historical and contemporary issues pertaining to intimate and marital relationships such as relationship formation and dissolution processes, love, sex, behavioral scripts, and conflict. Diversity related to race, ethnicity, gender, age, and sexual orientation is explored.

Credit Hours: 3

H_D_FS 2200: Research Methods in Human Development and Family Science
Introduction to research methods in the social sciences. Emphasis on both qualitative and quantitative methods, as well as applied research and program evaluation.

Credit Hours: 3
Prerequisites: STAT 1200 or STAT 1300 or STAT 1400 or ESC_PS 4170; sophomore standing

H_D_FS 2300: Multicultural Study of Children and Families
Study of cultural variation in family life around the world and within America (e.g.: African-American, Hispanic American). Attention is paid to the external conditions that affect the internal workings of these families.
Credit Hours: 3

H_D_FS 2400: Principles of Human Development
Concepts and principles basic to an understanding of human development and learning throughout the life span.

Credit Hours: 3

H_D_FS 2400H: Principles of Human Development - Honors
Concepts and principles basic to an understanding of human development and learning throughout the life span.

Credit Hours: 4
Prerequisites: ENGLSH 1000. Honors eligibility required

H_D_FS 2400HW: Principles of Human Development - Honors/ Writing Intensive
Concepts and principles basic to an understanding of human development and learning throughout the life span.

Credit Hours: 4
Prerequisites: ENGLSH 1000. Honors eligibility required

H_D_FS 2400W: Principles of Human Development - Writing Intensive
Concepts and principles basic to an understanding of human development and learning throughout the life span.

Credit Hours: 4
Prerequisites: ENGLSH 1000

H_D_FS 2450: Human Sexuality Across the Life Span
An introductory survey of human sexuality including gender, love and intimacy, sexual expression and variation, sexual orientation, contraception, pregnancy and birth, sexually transmitted infections, sexual coercion, and sex in society. Sexuality within the context of intimate relationships across the life course will be emphasized.

Credit Hours: 3

H_D_FS 2510: Observation, Assessment, and Curriculum Planning
Fundamental course for students in the Child Development and Education emphasis area, and for other students planning to engage in work that requires observation and assessment of young children’s development, as well as planning, implementation and evaluation of developmentally appropriate curriculum.

Credit Hours: 4
Prerequisites: H_D_FS 2400 or H_D_FS 2400W

H_D_FS 3050: Child Development: Birth to 3 (Infant/Toddler)
Child development from birth to age 3. Topics include growth patterns; influences of disabilities and risk factors; environmental factors and attachment; language acquisition; brain development; cognitive and social-emotional development; and perceptual and sensory motor skills. Some course content overlaps with H_D_FS 3500.

Credit Hours: 3
Prerequisites: Some sections may be restricted to students admitted to the Great Plains IDEA Early Childhood Education Program (GPI-ECE).

H_D_FS 3085: Problems in Human Development and Family Science
Independent work on special problems in human development and family science. Graded on S/U basis only.

Credit Hour: 1-30
Prerequisites: Instructor’s consent

H_D_FS 3090: Research Experience in Human Development and Family Science
Student training and engagement in research with a H_D_FS faculty member. Students learn about the research process and methods, and develop research skills (e.g., data collection, entry, coding, analysis) through hands-on work. Graded on S/U basis only. May be repeated for credit.

Credit Hour: 1-30
Prerequisites: H_D_FS 2200; instructor’s consent

H_D_FS 3150: Child Development 4-8 (Early Childhood)
Physical, cognitive, social/emotional and personality growth and development during early childhood. Topics include major theories of development and current research and ideas in conjunction with historical approaches to examining growth and development in ages 4-8.

Credit Hours: 3
Prerequisites: Some sections may be restricted to students admitted to the Great Plains IDEA Early Childhood Education Program (GPI-ECE).

H_D_FS 3150W: Child Development 4-8 (Early Childhood) - Writing Intensive
Physical, cognitive, social/emotional and personality growth and development during early childhood. Topics include major theories of development and current research and ideas in conjunction with historical approaches to examining growth and development in ages 4-8.

Credit Hours: 3
Prerequisites: Some sections may be restricted to students admitted to the Great Plains IDEA Early Childhood Education Program (GPI-ECE).

H_D_FS 3250: Introduction to Early Childhood Education in a Mobile Society
Role of a professional as a teacher, administrator, or advocate in early childhood programming. Topics include professionalism and ethics; identifying child abuse; the role of an early childhood educator; program models and working with children and professional colleagues.

Credit Hours: 3
Prerequisites: Enrollment restricted to students admitted to the Great Plains IDEA Early Childhood Education Program (GPI-ECE)

H_D_FS 3350: Child Guidance and Classroom Environments
Examines developmentally appropriate practice in child guidance. Current guidance methods and programs will be covered. Students will develop their own approach to guidance based upon course content.
Credit Hours: 3
Prerequisites: enrollment is restricted to students admitted to the Great Plains IDEA Early Childhood Education Program (GPI_ECE)

_H_D_FS 3420: Early and Middle Childhood_
Emotional, cognitive, and physical development of the child before puberty. Observation is integral part of course. Cannot receive credit for more than one of the following: PSYCH 2410, H_D_FS 3420, or ESC_PS 2500.

Credit Hours: 3
Prerequisites: Restricted to Education, HDFS and Pre-HDFS majors during preregistration period

_H_D_FS 3420W: Early and Middle Childhood - Writing Intensive_
Emotional, cognitive, and physical development of the child before puberty. Observation is integral part of course. Cannot receive credit for more than one of the following: PSYCH 2410, H_D_FS 3420, or ESC_PS 2500.

Credit Hours: 3
Prerequisites: Restricted to Education, HDFS and Pre-HDFS majors during preregistration period

_H_D_FS 3430: Adolescence and Young Adulthood_
Physical, intellectual, and psychosocial maturation of adolescents and young adults within the context of life long developmental sequelae.

Credit Hours: 3
Prerequisites: Restricted to HDFS and Pre-HDFS majors during pre-registration period

_H_D_FS 3440: Adulthood and Aging_
Examination of biological, cognitive, psychological and social changes experienced across adulthood.

Credit Hours: 3

_H_D_FS 3450: Health, Safety and Nutrition_
Topics include planning, promoting, and maintaining health and safe learning/care environments; understanding childhood illnesses and establishing healthy lifestyles; performing first aid; and maintaining care providers' health and safe relationships with others; identifying and reporting child abuse; nutrients for life; and safe food preparations.

Credit Hours: 3
Prerequisites: enrollment is restricted to students admitted to the Great Plains Idea Early Childhood Education Program (GPI_ECE)

_H_D_FS 3500: Infant-Toddler Practicum_
Practical experience working with infants and toddlers, applying developmentally appropriate practice and theoretical perspectives. Emphasizes cognitive, social/emotional, creative and motor development; and staff and family relationships in child care settings. Graded on A-F basis only.

Credit Hours: 6
Prerequisites or Corequisites: H_D_FS 3050 or H_D_FS 3420/ H_D_FS 3420W or instructor's consent

_H_D_FS 3530: Foundations of Community-Based Programs for Children and Youth_
Examines non-academic community-based programming for children and youth. Experience working with these age groups. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: H_D_FS 3420 or equivalent or instructor's consent

_H_D_FS 3550: Technology and Young Children_
Students will learn how electronic technology impacts the development of young children in educational, home and community environments, and how technology can be used to enhance teaching and learning.

Credit Hours: 3
Prerequisites: enrollment is restricted to students admitted to the Great Plains IDEA Early Childhood Education Program (GPI_ECE)

_H_D_FS 3600: Partnering with Parents and Families_
Examination of stages of parenthood, caregiving styles, and the impact of relationships and culture on caregiving and its challenges. Development of applied skills working with parents and families in a service learning experience. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: H_D_FS 1600 and H_D_FS 2400/H_D_FS 2400W

_H_D_FS 3650: Diversity in the Lives of Young Children and Families_
In this course, students will explore cultural diversity in daily life and beliefs in families with young children. The focus is on U.S. families, with attention to the multiple cultures from which they come.

Credit Hours: 3
Prerequisites: Restricted to students admitted to the Great Plains IDEA Early Childhood Education Program (GPI-ECE), or by instructor consent

_H_D_FS 3700: Preschool Practicum_
Practical experience working with children ages 2.5-5 years of age, applying developmentally appropriate practice and theoretical perspectives. Emphasizes cognitive, social and emotional, creative, and motor development, and family and staff relationships in a child care setting. Graded on A-F basis only.

Credit Hours: 6
Prerequisites or Corequisites: H_D_FS 3150/H_D_FS 3150W, or H_D_FS 3420/H_D_FS 3420W, or instructor's consent

_H_D_FS 3720: Student Teaching Prekindergarten_
Experience working with children (2-5 years), using general guidance principles and methods for fostering creativity.

Credit Hours: 6
Prerequisites: H_D_FS 3420 or equivalent and instructor's consent

_H_D_FS 3730: Field Training Practicum_
Field training experiences under supervision. May be repeated for credit. Graded on S/U basis only.

Credit Hours: 3
Prerequisites: advisor's consent
**H_D_FS 3750: Working with Families**  
This course focuses on application of an ecological model to the understanding of variation in parental roles, perspectives, approaches, and challenges. The course also provides an overview of effective communication strategies and parent education programs. Course content overlaps with H_D_FS 3600 thus students may not enroll in both courses. Students will NOT receive credit for both H_D_FS 3600 and H_D_FS 3750.  
**Credit Hours:** 3  
**Prerequisites:** Restricted to students admitted to the Great Plains IDEA Early Childhood Education Program (GPI-ECE) or by instructor consent

**H_D_FS 3800: Children's Play**  
This course is an examination of the complex phenomenon of play in children's lives. Emphasis is placed on the value of play in developmental, social, and cultural contexts. Topics include the exploration of play theories and supporting empirical evidence, play materials, various environments, violence and conflict resolution, and therapeutic uses of play. Observation and assessment of children at play and analysis of play environments is required.  
**Credit Hours:** 3  
**Prerequisites:** H_D_FS 2400/H_D_FS 2400W, H_D_FS 3050 and H_D_FS 3150/H_D_FS 3150W, or instructor's consent, junior standing. Enrolment is restricted to H_D_FS and Pre H_D_FS majors during preregistration period

**H_D_FS 3950: Practicum I: Child Observations in Classroom Environment**  
Opportunity for Early Childhood Education teacher candidates to have a guided learning experience in a professional agency that provides services to children and families. Some course content overlaps with LTC 4110.  
**Credit Hours:** 3  
**Prerequisites:** restricted to students admitted to the Great Plains IDEA Early Childhood Education Program (GPI-ECE); H_D_FS 3050, H_D_FS 3150, H_D_FS 3250, H_D_FS 3350 and H_D_FS 3450

**H_D_FS 3960: Readings in Human Development and Family Science**  
Readings in recent research; critical discussions.  
**Credit Hour:** 1-30

**H_D_FS 4001: Topics in Human Development and Family Science**  
Selected current topics in field of interest.  
**Credit Hour:** 1-6

**H_D_FS 4085: Problems in Human Development and Family Science**  
Independent work on special problems in human development and family science. Graded on S/U basis only.  
**Credit Hour:** 1-30  
**Prerequisites:** instructor's consent

**H_D_FS 4090: Advanced Research in Human Development and Family Science**  
Advanced training and engagement in research with a H_D_FS faculty member. Student develops research skills (e.g., data collection, entry, coding, analysis) and works semi-independently on own research project. Graded on S/U basis only. May be repeated for credit.  
**Credit Hour:** 1-30  
**Prerequisites:** H_D_FS 2200 and H_D_FS 3090; instructor's consent

**H_D_FS 4100: Children in Healthcare Settings**  
(cross-leveled with H_D_FS 7100). Overview of the medical conditions and treatments commonly encountered by children and adolescents in healthcare settings and their typical reactions to healthcare experiences. Introduction to the philosophy and the role of the child life specialist in the healthcare setting.  
**Credit Hours:** 3  
**Prerequisites:** H_D_FS 2200, H_D_FS 2400/H_D_FS 2400W, H_D_FS 3050, H_D_FS 3150/H_D_FS 3150W, or instructor's consent. Restricted to H_D_FS and Pre-H_D_FS majors

**H_D_FS 4110: Child Life Theory and Practice**  
(cross-leveled with H_D_FS 7110). Focuses on theoretical foundations and principal intervention strategies used in Child Life professional practice.  
**Credit Hours:** 3  
**Prerequisites:** H_D_FS 2200, H_D_FS 3050, H_D_FS 3150/H_D_FS 3150W, and H_D_FS 3500 or H_D_FS 3700, or instructor's consent

**H_D_FS 4130: Child Life Practicum**  
Observation of Child Life staff at Children's Hospital and experience helping children and adolescents cope with hospitalization.  
**Credit Hours:** 3  
**Prerequisites:** H_D_FS 3500 and H_D_FS 3700, consent required

**H_D_FS 4150: Development of Curriculum for Children Ages Birth to 3**  
Students will learn and use assessment and documentation to inform curriculum; plan and evaluate developmentally appropriate activities; and learn about effective ways to share curriculum information with families. Focus is on children ages birth to 3.  
**Credit Hours:** 3  
**Prerequisites:** enrollment is restricted to students admitted to the Great Plains IDEA Early Childhood Education Program (GPI_ECE)

**H_D_FS 4200: Latino/a Youth and Families**  
Current issues in theory, methods, and research in U.S. Latino/a youth and families are examined from a social and developmental psychological perspective. The course is an advanced level study, with a particular focus on history, theories, methods, research, and applied social issues. Topics will include, parenting, siblings, youth development and adjustment, stress, risky behaviors, gender issues, assessment, study design, cultural values, intervention programs, and immigration issues.  
**Credit Hours:** 3  
**Prerequisites:** Pre-H_D_FS and H_D_FS majors must complete H_D_FS 1600, H_D_FS 2200, H_D_FS 2300, H_D_FS 2400/H_D_FS 2400W
H_D_FS 4250: Development of Curriculum for Children 4-8
Students will learn and use assessment and documentation to inform curriculum, plan and evaluate developmentally appropriate activities; and learn about effective ways to share curriculum information with families. Focus is on children ages 4-8.
Credit Hours: 3
Prerequisites: enrollment is restricted to students admitted to the Great Plains IDEA Early Childhood Education Program (GPI_ECE)

H_D_FS 4300: Black Families
(same as BL_STU 4300). Emphasis is on the unique social, economic, religious, educational, and political environments that have affected the structure and function of the Black family.
Credit Hours: 3
Prerequisites: H_D_FS 2200 or equivalent, and junior standing

H_D_FS 4350: Assessing Young Children and their Environments
Credit Hours: 3
Prerequisites: enrollment is restricted to students admitted to the Great Plains IDEA Early Childhood Education Program (GPI_ECE)

H_D_FS 4400: Childhood Death and Bereavement
(cross-leveled with H_D_FS 7400). An exploration of issues that arise for children and families when facing life-threatening illness and death. The course also includes an examination of coping and helping strategies for dying and grieving children.
Credit Hours: 3
Prerequisites: H_D_FS 2200, H_D_FS 2400/H_D_FS 2400W, H_D_FS 3150 AND H_D_FS 3150/H_D_FS 3150W (or H_D_FS 3420/H_D_FS 3420W) or instructor's consent. Restricted to HDFS and Pre-HDFS majors during pre-registration period

H_D_FS 4420: Environmental Influences on Lifespan Cognition
This course covers the change and growth of cognition through the lifespan with particular attention to how the environment influences cognition (including perception, language memory, attention executive functions, and problem solving).
Credit Hours: 3
Prerequisites: Pre-HDFS and HDFS Majors must complete H_D_FS 1600, H_D_FS 2200, H_D_FS 2300, H_D_FS 2400/H_D_FS 2400W, H_D_FS 3050, H_D_FS 3150/H_D_FS 3150W (or H_D_FS 3420/H_D_FS 3420W) instead of H_D_FS 3050 and H_D_FS 3150/H_D_FS 3150W

H_D_FS 4450: Understanding and Adapting for Developmental Differences
This course focuses on knowledge of disability conditions, assessment and identification, interventions in inclusive environments, and collaborations among service providers.
Credit Hours: 3
Prerequisites: enrollment is restricted to students admitted to the Great Plains IDEA Early Childhood Education Program (GPI_ECE)

H_D_FS 4500: Practicum II: Child Observations in Classroom Environments
Practicum in ECE is an opportunity for teacher candidates to have a guided learning experience in a professional agency that provides services to children and families, and allows teacher candidates to have the opportunity to use and implement theories and practices. Course content overlaps with LTC 4110. Not recommended for students to enroll in both courses.
Credit Hours: 3
Prerequisites: restricted to students admitted to the Great Plains IDEA Early Childhood Education Program (GPI-ECE)

H_D_FS 4570: Administration of Programs for Children and Families
(cross-leveled with H_D_FS 7570). The development of leadership and management skills for administering community-based early childhood programs for children and their families. Includes an overview of early childhood standards; budgeting, funding and financial matters; developing, equipping, and staffing a center; recruiting children and families; curriculum; health, safety, and nutrition; volunteer and staff development, and program evaluation. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: H_D_FS 1600, H_D_FS 2200 or equivalent, H_D_FS 2300, H_D_FS 2400/2400W, H_D_FS 2510, H_D_FS 3500 or H_D_FS 3700, or instructor's consent

H_D_FS 4610: Stress and Resilience in Families
(cross-leveled with H_D_FS 7610). Introduction to the study of stressor events in families, such as poverty, violence within families, substance abuse, and health problems. Emphasis is on both prevention and coping.
Credit Hours: 3
Prerequisites: Pre-HDFS and HDFS majors must complete H_D_FS 1600, H_D_FS 2200, H_D_FS 2300 and H_D_FS 2400/H_D_FS 2400W

H_D_FS 4620: Family Interaction
Analysis of intrafamilial interaction from a systems perspective; includes comparative study of family paradigms, family subsystems, goals, and resources, boundaries, and patterns of feedback.
Credit Hours: 3
Prerequisites: Pre-HDFS and HDFS majors must complete H_D_FS 1600, H_D_FS 2200, H_D_FS 2300 and H_D_FS 2400/H_D_FS 2400W

H_D_FS 4630: The Process of Divorce
(cross-leveled with H_D_FS 7630). Examination of theory and research related to marital dissolution. The impact of divorce on children and adults, and divorce intervention strategies are considered.
Credit Hours: 3
Prerequisites: Pre-HDFS and HDFS majors must complete H_D_FS 1600, H_D_FS 2200, H_D_FS 2300 and H_D_FS 2400/H_D_FS 2400W

H_D_FS 4640: Interpersonal Relationships
In-depth examination of interpersonal relationships, including theoretical perspectives, research methods, relationship forms, relationship processes, and how context affects relationships. Students are introduced to the field of close relationships.
**H_D_FS 4500: Administration/Supervision in Early Childhood Settings**
Explore issues surrounding administration of ECE programs including identification of community needs, analysis of business opportunities, evaluation, and appropriate use of quality programming, consideration of policy and equal responsibilities, and professionalism. Course content overlaps with H_D_FS 4750. Students may NOT enroll in both courses. Students will not receive credit for both H_D_FS 4650 and H_D_FS 4750.

**Credit Hours:** 3  
**Prerequisites:** Pre-HDFS and HDFS majors must complete H_D_FS 1600, H_D_FS 2200, H_D_FS 2300 and H_D_FS 2400/H_D_FS 2400W

---

**H_D_FS 4680: Family Communication**
(same as COMMUN 4520). Analysis of the functions and processes of communication within families.

**Credit Hours:** 3  
**Prerequisites:** junior standing or departmental consent. May be restricted to Communication majors only during early registration

---

**H_D_FS 4700: Children and Families in Poverty**
Study of the extent, distribution, and implications of poverty on children and families. Examination of myths and realities, social conditions, policies, and programs that contribute to or reduce poverty and its consequences.

**Credit Hours:** 3  
**Prerequisites:** Pre-HDFS and HDFS majors must complete H_D_FS 1600, H_D_FS 2200, H_D_FS 2300 and H_D_FS 2400/H_D_FS 2400W

---

**H_D_FS 4720: Child and Family Advocacy**
Study of the processes of social policies, legislation, and regulations affecting children and families at the local, state, and federal levels. The course emphasizes current issues and need for citizen involvement.

**Credit Hours:** 3  
**Prerequisites:** Restricted to HDFS and Pre-HDFS majors during pre-registration period; Pre-HDFS and HDFS majors must complete H_D_FS 1600, H_D_FS 2200, H_D_FS 2300 and H_D_FS 2400/H_D_FS 2400W

---

**H_D_FS 4740: Parent-Child Relations Over the Life Course**
Examines the development, continuities, transitions, and discontinuities of parent-child relationships over the life course. Considers the influence of parents on children and children on parents.

**Credit Hours:** 3  
**Recommended:** H_D_FS 1600 and H_D_FS 2200

---

**H_D_FS 4750: Practicum III: Capstone Experience**
This is a 15-week experience allowing the student to demonstrate practical application of developmentally appropriate early childhood teaching techniques and skills, teaching experience and developmental feedback. Includes observation and evaluation of classroom experience. Course content overlaps with H_D_FS 3700 and LTC 4170. Not recommended for students to enroll in both courses. Students will not receive credit for both H_D_FS 4750 and H_D_FS 3700 or H_D_FS 4750 and LTC 4170.

**Credit Hours:** 3  
**Prerequisites:** restricted to students admitted to the Great Plains IDEA Early Childhood Education Program (GPI-ECE). H_D_FS 3950, H_D_FS 4150, H_D_FS 4250, H_D_FS 4350, H_D_FS 4450 and H_D_FS 4550

---

**H_D_FS 4820: Assessment in Family and Consumer Sciences Education**
What should a teacher do to determine the extent to which program/lesson objectives have been achieved? Includes the selection, design, and use of a wide variety of assessment tools and techniques, and the impact of assessment on the evaluation of learners and program design.

**Credit Hours:** 3  
**Prerequisites:** ESC_PS 2010 and SPC_ED 2020 or equivalent. Admission to Phase II, and instructor's consent

---

**H_D_FS 4830: Methods of Teaching FACS in Middle and Secondary Schools**
What should a teacher do to help students achieve learner objectives? Includes classroom management strategies, choosing and using instructional methods to stimulate thinking skills and reasoning processes, communication skills, professionalism, and public relations.

**Credit Hours:** 3  
**Prerequisites:** admission into Phase II, H_D_FS 4800, and instructor's consent

---

**H_D_FS 4940: Field Experience in Family and Consumer Sciences**
Students will observe and assist in FACS classroom.

**Credit Hour:** 1  
**Prerequisites:** to be taken concurrently with H_D_FS 4800, and instructor's consent

---

**H_D_FS 4941: Field Experience in Family and Consumer Sciences**
Students will be involved in real-world experiences in a FACS classroom.

**Credit Hour:** 1  
**Prerequisites:** to be taken concurrently with H_D_FS 4800; requires instructor's consent

---

**H_D_FS 4942: Student Teaching FACS in Middle and Secondary Schools**
What guided practicum experiences will directly contribute to success as a classroom teacher? Students will teach for sixteen weeks within the state of Missouri under the supervision of an experienced FACS teacher.

**Credit Hour:** 1-15  
**Prerequisites:** H_D_FS 4800, H_D_FS 4820, H_D_FS 4830, ENGLISH 1000, admittance to Phase III, and instructor's consent
H_D_FS 4942W: Student Teaching FACS in Middle and Secondary Schools - Writing Intensive
What guided practicum experiences will directly contribute to success as a classroom teacher? Students will teach for sixteen weeks within the state of Missouri under the supervision of an experienced FACS teacher.
Credit Hour: 1-15
Prerequisites: H_D_FS 4800, H_D_FS 4820, H_D_FS 4830, ENGLISH 1000, admittance to Phase III, and instructor's consent

H_D_FS 4970: Families and Lifespan Development Capstone
Focus on integrating, extending, critiquing, and applying knowledge gained in the Families and Lifespan Development option within a family and lifespan development educational framework. Graded on A-F basis only.
Credit Hours: 4
Prerequisites: senior standing and instructor's consent

H_D_FS 4970W: Families and Lifespan Development Capstone - Writing Intensive
Focus on integrating, extending, critiquing, and applying knowledge gained in the Families and Lifespan Development option within a family and lifespan development educational framework. Graded on A-F basis only.
Credit Hours: 4
Prerequisites: senior standing and instructor's consent

H_D_FS 4971: Child Development and Education Capstone
Practical experience working with young children (up to 10) in out-of-home care facilities. Program planning for children and working with parents. Lab hours required.
Credit Hours: 9
Prerequisites: H_D_FS 2200, H_D_FS 3500 and H_D_FS 3700, or equivalent and instructor's consent

H_D_FS 4993: Internship in Human Development and Family Science
Internships or field training experiences under supervision. Graded on S/U basis only.
Credit Hour: 1-30
Prerequisites: H_D_FS 2200 or equivalent and instructor's consent

H_D_FS 7100: Children in Healthcare Settings
Credit Hours: 3

H_D_FS 7110: Child Life Theory and Practice
Focuses on theoretical foundations and principal intervention strategies used in Child Life professional practice.
Credit Hours: 3
Prerequisites: H_D_FS 2200, H_D_FS 3050, H_D_FS 3150/H_D_FS 3150W, and H_D_FS 3500 or H_D_FS 3700, or instructor's consent

H_D_FS 7130: Child Life Practicum
Observation of Child Life staff at Children's Hospital and experience helping children and adolescents cope with hospitalization.
Credit Hours: 3
Prerequisites: H_D_FS 3500 and H_D_FS 3700, consent required

H_D_FS 7200: Latino Families and Youth
This course will cover the critical integration of theoretical, methodological, and empirical issues in Latino psychology using a cross-cultural, cross-ethnic perspective, including the increased sensitivity to issues and challenges facing Latino families and youth from a social science perspective. There will be a particular focus on selected topics in social and developmental psychology, as well as, understanding the relevance to other areas of study, to policy contexts, and to applied settings. Students will provide a written, integrative literature review and research proposal related to the course topic. The course will consist primarily of seminar discussions based on the textbook and additional readings. Students will lead class discussions based on the readings and their QRCs. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: Instructor's consent

H_D_FS 7231: Foundations of Youth Development
This course provides an introduction to the field of youth development and the professions that include youth work. This course is designed to provide a foundation of knowledge that students will need to begin any course in the Great Plains IDEA Youth Development programs. Priority given to students in the Great Plains Idea Group master's and certificate programs.
Credit Hour: 1

H_D_FS 7233: Basic Grant Development and Management
This course introduces students to grant development and management. This short-course is not intended to cover all aspects of grant development and management, but it will help students gain confidence in their grant development abilities and inspire them to learn more. Priority given to students in the Great Plains Idea Group master's and certificate programs.
Credit Hours: 3
**H_D_FS 7252: Adult Development**
This course presents a life-span, multidisciplinary developmental framework that considers sociohistorical influences, individual differences, and concern for promoting optimal functioning. Priority given to students in the Great Plains Idea Group master's and certificate programs.

**Credit Hours: 3**

**H_D_FS 7255: Aging Policy**
Policy development in the context of the economic status of the elderly populations. Retirement planning and the retirement decision; Social Security and public transfer programs for the elderly; intrafamily transfers to/from the elderly; private pensions; financing medical care for the elderly; prospects and issues for the future. Priority given to students in the Great Plains Idea Group master's and certificate programs.

**Credit Hours: 3**

**H_D_FS 7256: Environments and Aging**
Examination of attributes of physical environments that support special needs of older people and application of this knowledge to the design and management of housing, institutional settings, neighborhoods and communities. Priority given to students in the Great Plains Idea Group master's and certificate programs.

**Credit Hours: 3**

**H_D_FS 7257: Aging and the Family**
Theories and research related to personal and family adjustments in later life affecting older persons and their inter-generational relationships. Related issues including demographics are also examined through the use of current literature. Priority given to students in the Great Plains Idea Group master's and certificate programs.

**Credit Hours: 3**

**H_D_FS 7259: Mental Health and Aging**
Student is introduced to the range of issues utilizing several theoretical perspectives and the systems framework. Major mental, emotional, and psychiatric problems encountered in old age are examined, along with normal processes of aging individual’s personality, mental and brain functions. Priority given to students in the Great Plains Idea Group master's and certificate programs.

**Credit Hours: 3**

**H_D_FS 7260: Women and Aging**
Women and aging is the study of theory, research and application of issues related to women and the aging experience. Priority given to students in the Great Plains Idea Group master's and certificate programs.

**Credit Hours: 3**

**H_D_FS 7261: Biological Principles of Aging**
This course will give an overview of the normal aging process of the human body systems, environmental factors influencing normal aging, diseases and disorders associated with aging. A special topics unit will include but is not limited to interviews and observations dealing with the aging process in humans. Priority given to students in the Great Plains Idea Group master's and certificate programs.

**Credit Hours: 3**

**H_D_FS 7262: Long-Term Care Administration**
Provides information for persons interested in leadership role in long-term care, or for those considering careers intersecting with senior living organizations. Also considers long-term care options. Priority given to students in the Great Plains Idea Group master's and certificate programs.

**Credit Hours: 3**

**H_D_FS 7300: Black Families**
(same as BL_STU 7300). Emphasis is on the unique social, economic, religious, educational, and political environments that have affected the structure and function of the black families.

**Credit Hours: 3**

**Prerequisites: H_D_FS 2200 or equivalent**

**H_D_FS 7400: Childhood Death and Bereavement**
(cross-leveled with H_D_FS 4400). An exploration of issues that arise for children and families when facing terminal illness or death. The course also includes an examination of coping and helping strategies for dying and grieving children.

**Credit Hours: 3**

**Prerequisites: H_D_FS 2200, H_D_FS 2400/H_D_FS 2400W, H_D_FS 3150 AND H_D_FS 3150/H_D_FS 3150W or H_D_FS 3420/H_D_FS 3420W and instructor's consent. Restricted to HDFS and Pre-HDFS majors during pre-registration period**

**H_D_FS 7500: Developing Plans of Care for Community-Dwelling Older Adults**
This applied course focuses on conducting geriatric assessments across multiple domains in order to develop holistic plans of care for older adults. Designed for students with some familiarity with the large age-graded income and health programs (e.g., Social Security, Medicare), the course examines the broad range of community resource programs designed to support more specific medical, psychosocial, and functional needs. Although service delivery varies by community, students will be trained to seek out those that are locally provided, up to and including resources providing a transitional bridge to respite and long-term care services. Graded on A-F basis only.

**Credit Hours: 3**

**Prerequisites: Bachelor or Master's degree in Human Services, Social Work, Mental Health, Nursing, Physical Rehabilitation, or Psychology. Must be enrolled in Graduate Certificate in Geriatric Care Management Program**

**H_D_FS 7520: Ethical, Legal, and Business Considerations in Geriatric Care Management**
This applied eight-week course addresses multiple issues that geriatric care managers must consider in their work with the vulnerable older population. Topics include the ethics of care management, developing cultural and spiritual competencies, legal requirements in both the fee-for-service and nonprofit settings, as well as business aspects for those...
considering independent practice in this growing field, including national certification. May be repeated for credit. Graded on A-F basis only.

**Credit Hours:** 3

**Prerequisites:** H_D_FS 7500, H_D_FS 8012 and H_D_FS 7510; Bachelor or Master's degree in human services, social work, mental health, nursing, physical rehabilitation or psychology required; must be enrolled in Graduate Certificate in Geriatric Care Management program

---

**H_D_FS 7570: Administration of Programs for Children and Families**
(cross-leveled with H_D_FS 4570). The development of leadership and management skills for administering community-based early childhood programs for children and their families. Includes an overview of early childhood standards; budgeting, funding and financial matters; developing, equipping, and staffing a center; recruiting children and families; curriculum; health, safety, and nutrition; volunteer and staff development, and program evaluation. Graded on A-F basis only.

**Credit Hours:** 3

**Prerequisites:** H_D_FS 1600, H_D_FS 2200 or equivalent, H_D_FS 2300, H_D_FS 2400/2400W, H_D_FS 2510, H_D_FS 3500 or H_D_FS 3700, or instructors consent

---

**H_D_FS 7583: Personal Financial Issues of Older Adults**
(same as FINPLN 7583). Principles and practice of personal finance relevant to assessing and improving the financial security of older individuals. Topics covered include sources of income, management of cash flow, credit use and abuse, risk exposure, investment management, housing, and financial planning. Financial vulnerabilities of seniors will be explored. Graded on A-F basis only.

**Credit Hours:** 3

**Prerequisites:** Bachelor or Master's degree in human services, social work, mental health, nursing physical rehabilitation or psychology; must be enrolled in Graduate Certificate in Geriatric Care Management program. May be repeated for credit

---

**H_D_FS 7600: Resilience in Families**
Exploration of the evolution of a resilience approach to the study of families and human development. Using a lifespan approach, students will explore resilience across time as well as within special populations such as families experiencing crisis and trauma, culturally diverse families, and military families. Graded on A-F basis only.

**Credit Hours:** 3

---

**H_D_FS 7610: Stress and Resilience in Families**
(cross-leveled with H_D_FS 4610). Introduction to the study of stressor events in families, such as poverty, violence within families, substance abuse, and health problems. Emphasis is on both prevention and coping.

**Credit Hours:** 3

---

**H_D_FS 7630: The Process of Divorce**
(cross-leveled with H_D_FS 4630). Examination of theory and research related to marital dissolution. The impact of divorce on children and adults, and divorce intervention strategies will be considered.

**Credit Hours:** 3

**Prerequisites:** Pre-HDFS and HDFS majors must complete H_D_FS 1600, H_D_FS 2200, H_D_FS 2300 and H_D_FS 2400/H_D_FS 2400W

---

**H_D_FS 7640: Interpersonal Relationships**
In-depth examination of interpersonal relationships, including theoretical perspectives, research methods, relationship forms, relationship processes, and how context affects relationships. Students will also be introduced to the field of close relationships.

**Credit Hours:** 3

---

**H_D_FS 7650: Family Crisis Intervention**
Individuals and families in crises are examined. Focus is on grief and loss, substance abuse, family violence, and suicidal ideation. Examination of evidence-based preventions and treatments and community resources for those affected by stress, trauma, and crises. Graded on A-F basis only.

**Credit Hours:** 3

---

**H_D_FS 7690: Family Resource Management**
Survey course of personal finance and family resource management literature to provide an overview of how individual and family members develop and exercise their capacity to obtain and manage resources to meet life needs. Resources include the self, other people, time, money, energy, material assets, space, and environment. Graded on A-F basis only.

**Credit Hours:** 3

---

**H_D_FS 8001: Topics in Human Development and Family Science**
Selected current topics in field of interest.

**Credit Hour:** 1-99

---

**H_D_FS 8012: Family Dynamics and Intervention**
(same as NURSE 8010). Theories of family function and dysfunction; techniques of assessment; models of family intervention. Practicum with selected families.

**Credit Hours:** 3

**Prerequisites:** NURSE 7100

---

**H_D_FS 8085: Problems in Human Development and Family Science**
Independent work on special problems in human development and family science. Graded on S/U basis only.

**Credit Hour:** 1-99

**Prerequisites:** instructor's consent

---

**H_D_FS 8087: Seminar in Human Development and Family Science**
Seminar in selected topics in human development and family science.

**Credit Hour:** 1-99

---

**H_D_FS 8090: Research in Human Development and Family Science**
Independent research not leading to a thesis. Report required. Graded on S/U basis only.

**Credit Hour:** 1-99
H_D_FS 8100: Foundations and Principles of Family and Community Services
This course provides an introduction to the field of family studies and related professions that involve working with individuals and families in communities. This course is designed to provide a foundation of knowledge that students will need in the Great Plains IDEA family and Community Services program. This course is organized around theory, research, and practice of Family Studies. Graded on A-F basis only.
Credit Hours: 3

H_D_FS 8110: Developmental Perspectives on Health and Illness
Seminar on child and adolescent development as applied to illness and hospitalization, with a focus on applying psychosocial research and theory in work with pediatric populations. Graded on A-F only. May be repeated for credit.
Credit Hours: 3
Prerequisites: instructor consent; coursework in human development and experience with pediatric populations

H_D_FS 8200: Research Methods in Human Development and Family Science
Examination of the rationale for conducting scientific research; various research methods pertinent to the study of individuals over the life span, close relationships, marriages, and families; hypothesis formulation; selection of appropriate designs, instrumentation, and analysis.
Credit Hours: 3
Prerequisites: 6 hours of 300-level Behavioral Sciences courses or instructor's consent

H_D_FS 8210: Theories of Human Development
Major theories of life span human development. Attention given to structure, content, and major research critiqued for theoretical strengths.
Credit Hours: 3
Prerequisites: 6 hours of 300-level Behavioral Sciences courses or instructor's consent

H_D_FS 8220: Family Theories
Reviews existing family theories, their assumptions, values, propositions, and applications. Examines processes of theory testing and construction and linkages between theory and research.
Credit Hours: 3
Prerequisites: instructor's consent

H_D_FS 8221: Gerontechnology
Population aging is combining with technological advancement to create and change the world of modern older people, their families, and their communities. This course takes an interdisciplinary approach to the understanding of the biological, environmental, and social spheres where technology and gerontology meet. Graded on A-F basis only.
Credit Hours: 3

H_D_FS 8222: Creativity and Aging
What happens to creativity as a person ages? This unique class will help students to understand developmental and pathological changes in the brain that can lead to changes in creative output over time. Through hands-on experiences and direct association with older adults, students will grow an appreciation for creativity produced and inspired by older people. This course is intended to provide experiences that will help the student to be able to create art programs for older adults. Graded on A-F basis only.
Credit Hours: 3

H_D_FS 8232: Youth Professionals as Consumers of Research
This course will help youth development professionals understand and evaluate the quality of research reports. Students will learn the basics of quantitative and qualitative research approaches that will enable them to understand, evaluate, and critique research articles reported in newspaper, journals or other sources. Priority given to students in the Great Plains Idea Group master's and certificate programs.
Credit Hours: 3

H_D_FS 8234: Adolescents and their Families
This course explores adolescent development in the context of the family. The bi-directional influences between adolescents and their families will be examined. Implications for professionals working with youth and families will be explored and highlighted. Priority given to students in the Great Plains Idea Group master's and certificate programs.
Credit Hours: 3

H_D_FS 8235: Administration and Program Management
This course introduces students to the development, administration and management of youth-serving organizations. Priority given to students in the Great Plains Idea Group master's and certificate programs.
Credit Hours: 3

H_D_FS 8236: Federal and State Policies that Impact Youth Development
This course examines various federal and state policies that effect developmental opportunities for youth. Course participants will also examine not only how policies are developed, but also why. Priority given to students in the Great Plains Idea Group master's and certificate programs.
Credit Hours: 3

H_D_FS 8237: Youth Cultures and the Cultures of Youth
This course examines the cultural contexts that affect youth from within and outside the family. Students will study social, ethnic, and educational processes that affect youth, and they will examine how history has shaped the current cultural climate of the U.S. Priority given to students in the Great Plains Idea Group master's and certificate programs.
Credit Hours: 3

H_D_FS 8238: Program Design, Implementation and Evaluation
The course will discuss program design, implementation, and outcome evaluation. This course will focus on planning, designing logic models, and evaluating program. Students will evaluate a community-based project.
Credit Hours: 3
Prerequisites: graduate standing required. Priority given to students in the Great Plains Idea Group master's and certificate programs
H_D_FS 8239: Community Youth Development
This course focuses on community youth development from a strength-based or developmental asset approach. This approach encompasses both individual development and interrelationships with social environments. Priority given to students in the Great Plains Idea Group master's and certificate programs.

Credit Hours: 3

H_D_FS 8240: Youth Development
This course introduces the developmental period of adolescence. Emphasis will be on developmental tasks of this life stage and influences of family and home, school, peers and other contextual forces. Priority given to students in the Great Plains Idea Group master’s and certificate programs.

Credit Hours: 3

H_D_FS 8251: Perspectives in Gerontology
An overview of current aging issues including the prevailing focus of gerontology theory and research, critical social and political issues in aging, the interdisciplinary focus of gerontology, career opportunities, and aging in the future. Priority given to students in the Great Plains Idea Group master's and certificate programs.

Credit Hours: 3

H_D_FS 8253: Physical Health in Aging
This course identifies the basic physiologic changes during aging and their effects on health and disease. The focus will be on successful aging with special emphasis on physical activity and nutrition. Practical application to community settings is addressed. Priority given to students in the Great Plains Idea Group master's and certificate program.

Credit Hours: 3

H_D_FS 8254: Gerontology Research Methods and Program Evaluation
Overview of program evaluation, research methods and grant writing in gerontology. Includes application of quantitative and qualitative methods in professional settings. Priority given to students in the Great Plains Idea Group master's and certificate programs.

Credit Hours: 3

H_D_FS 8258: Professional Seminar in Gerontology
An integrative experience for gerontology students designed to be taken near the end of the degree program. By applying knowledge gained in earlier course work, students strengthen skills in ethical decision-making behavior, apply these skills in gerontology-related areas such as advocacy, professionalism, family and workplace issues.

Credit Hours: 3

Prerequisites: Completion of all other gerontology program coursework. Priority given to students in the Great Plains Idea Group master's and certificate programs

H_D_FS 8300: Advanced Seminar on Multicultural Families
Advanced study of multicultural (racial, ethnic, social) families within American society. Attention is focused on each group's unique cultural heritage and social environment.

Credit Hours: 3

Prerequisites: instructor's consent

H_D_FS 8420: Cognitive Development
(same as PSYCH 8420). Study of the development of reasoning, perception and language.

Credit Hours: 3

H_D_FS 8440: Social and Emotional Development
(same as PSYCH 8440). Seminar on emotional and social development in children, with focus on research and theory on the impact of various family, school, and societal factors.

Credit Hours: 3

H_D_FS 8450: Adolescence and Emerging Adulthood
Seminar on development during adolescence and emerging adulthood from biological, cognitive, psychosocial, and cultural perspectives, and with a focus on health-related attitudes and behaviors.

Credit Hours: 3

H_D_FS 8460: Life Course Perspective
Seminar on the life course perspective, an interdisciplinary approach to the study of lives over time and the interplay between human lives and social institutions. Deals with how individual lives are shaped by social change and social structure.

Credit Hours: 3

H_D_FS 8500: Prosocial and Moral Development
The course objective is to increase the understanding of the study of morality from psychological and developmental perspectives and the critical integration of theoretical, methodological, and empirical issues in moral psychology. It will also cover understanding the relevance of moral concepts and findings to other areas of study, policy contexts, and applied settings. Students will provide a written, integrative literature review and research proposal related to the course topic. Graded on A-F basis only.

Credit Hours: 3

Prerequisites: Instructor's consent

H_D_FS 8510: Parenting Education
Study of theories, models, research and skills regarding parenting effectiveness and parent-child relations in the context of Western and Eastern cultures. Included are comparisons of the relative strengths and weaknesses of various parenting approaches, historical perspective on parenthood and children, parenting roles, strategies for contemporary parenting, developmental interaction from infancy through adulthood and selected special concerns of parents. A Bio-Ecological Systems approach will be utilized in this course. Graded on A-F basis only.

Credit Hours: 3
H_D_FS 8520: Lifespan Development
This course covers the human development including the cognitive, social-emotional, motor, language, and moral domains from both a lifespan and a bio-ecological perspective. Course content focuses on the major theories of development as well as current research on the micro-macro interrelationship. Students who complete this course will have a better understanding of individual human developmental processes and their relationship with context and within family and community matters. Graded on A-F basis only.
Credit Hours: 3

H_D_FS 8610: Remarriage & Stepfamilies: Development, Dynamics, & Intervention
The processes of remarriage and reconstituted family dynamics; special developmental needs and intervention models will be studied. The impact on children is considered.
Credit Hours: 3
Prerequisites: instructor's consent

H_D_FS 8630: Gendered Relations in Families
(same as WGST 8630). From a feminist perspective, the roles of gender in shaping family life experience and of family life experience in shaping gender will be explored. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: instructor's consent

H_D_FS 8640: Family Interaction
Examination of intrafamilial interaction. Includes an overview of theories used to study family interaction, critical review of the assessment of family interaction; and examination of contemporary research on family interaction focusing on intra and inter-generational relationships.
Credit Hours: 3
Prerequisites: H_D_FS 1600 and H_D_FS 2200 or equivalent; or instructor's consent

H_D_FS 8710: Children, Families and Public Policy
Seminar on societal issues relating to children and families, with focus on the development of public policies.
Credit Hours: 3
Prerequisites: instructor's consent

H_D_FS 8770: Poverty
Implications of poverty for child, adult, and family functioning. Poverty-related policies and programs.
Credit Hours: 3

H_D_FS 8960: Readings in Human Development and Family Science
Readings in recent research; critical evaluation.
Credit Hour: 1-99
Prerequisites: instructor's consent

H_D_FS 8972: Internship in Human Development and Family Science
Internships and/or field training experiences under supervision. Graded on S/U basis only.
Credit Hour: 1-99
Prerequisites: instructor's consent

H_D_FS 9090: Research in Human Development and Family Science
Independent research leading to thesis or dissertation. Graded on S/U basis only.
Credit Hour: 1-99

H_D_FS 9100: Teaching Practicum
Supervised experience in teaching various audiences, including college students, professionals, and community residents. Graded on S/U basis only.
Credit Hour: 2-6
Prerequisites: instructor's consent

H_D_FS 9200: Advanced Research Methods in Human Development and Family Science
(same as NURSE 9410). Examination of issues related to the study of individuals and their families: measurement, designs, and interpretation of statistical analyses. Statistics are placed in perspective through readings and discussions of the relationships between theory, research design, and data analyses.
Credit Hours: 3
Prerequisites: H_D_FS 8200 or instructor's consent

H_D_FS 9210: Research Practicum in Human Development and Family Science
Independent research activities in conjunction with faculty. Graded on S/U basis only.
Credit Hour: 2-6
Prerequisites: instructor's consent

H_D_FS 9420: Qualitative Methods
(same as NURSE 9420). Examines the following selected qualitative research approaches appropriate for the study of nursing phenomena and the extension or modification of scientific knowledge so as to be relevant to nursing: case study research methods, verbal qualitative approaches, and nonverbal qualitative approaches. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: NURSE 7150 and doctoral status (or permission of faculty)

Industrial And Manufacturing Systems (IMSE)

IMSE 1000: Introduction to Industrial Engineering
Introduction to industrial engineering profession, the Industrial and Manufacturing Systems Engineering department, and the core topics
of industrial engineering. Introduction to problem solving, ethics and industrial engineering design and analysis techniques.

**Credit Hour:** 1

**IMSE 2030: Fundamentals of Systems Design and Analysis**
Develop an understanding of a systems approach to the design and operation of modern industrial organizations: systems structure and function, system specification, structured problem solving and system design methodology.

**Credit Hours:** 3

**Prerequisites:** MATH 1500. Restricted to Engineering Students who are non-IMSE majors

**IMSE 2110: Probability and Statistics for Engineers**
Introduction to data analysis, probability concepts, random variables, parameter estimation and hypothesis testing.

**Credit Hours:** 3

**Prerequisites:** MATH 1500. Restricted to IMSE students only

**IMSE 2210: Linear Algebra for Engineers**
Study of quantitative methods necessary for analysis, modeling and design of optimal industrial systems.

**Credit Hours:** 3

**Prerequisites:** MATH 1700

**IMSE 2710: Engineering Economic Analysis**
Fundamentals of engineering economic decision making. Includes time value of money, breakeven analysis, capital budgeting, replacement, after-tax analysis, inflation, risk, sensitivity analysis and multi-attribute analysis.

**Credit Hours:** 3

**Prerequisites:** sophomore standing

**IMSE 3030: Manufacturing and Supply Systems**
Provide a structured approach for the design and optimization of a system throughout its lifecycle: techniques following the logical sequence of strategic analysis, system design, implementation, and monitoring.

**Credit Hours:** 3

**Prerequisites:** IMSE 2030

**IMSE 3110: Probability Models for Engineers**
Introduction to probability concept and theory, random variables, discrete and continuous probability distributions, joint probability distributions.

**Credit Hours:** 3

**Prerequisites:** MATH 1500. Restricted to IMSE students only

**IMSE 3810: Ergonomics and Workstation Design**
Ergonomics and human factors theories applied to the design of man-machine systems. Discussion of ergonomic methods for measurement, assessment, and evaluation, with major topics including workstation design, environmental stresses, and workplace safety. Includes lab.

**Credit Hours:** 3

**Prerequisites:** Restricted to IMSE students and ENGINR 1200

**IMSE 3810W: Ergonomics and Workstation Design - Writing Intensive**
Ergonomics and human factors theories applied to the design of man-machine systems. Discussion of ergonomic methods for measurement, assessment, and evaluation, with major topics including workstation design, environmental stresses, and workplace safety. Includes lab.

**Credit Hours:** 3

**Prerequisites:** Restricted to IMSE students and ENGINR 1200

**IMSE 4001: Topics in Industrial and Manufacturing Systems Engineering**
Current and new technical developments in industrial engineering.

**Credit Hours:** 3

**IMSE 4085: Problems in Industrial Engineering**
Supervised investigation in industrial engineering presented in form of an engineering report.

**Credit Hour:** 1-4

**IMSE 4110: Engineering Statistics**
Understanding and application of statistical analysis techniques. Emphasis on hypothesis testing, regression analysis, analysis of variance (ANOVA) and design of experiments (DOE).

**Credit Hours:** 3

**Prerequisites:** Restricted to IMSE students or by Departmental consent. Grade of C- or better in IMSE 3110

**IMSE 4210: Linear Optimization**
(cross-leveled with IMSE 7210). Theory and application of linear optimization.

**Credit Hours:** 3

**Prerequisites:** IMSE 3110, IMSE 4210

**IMSE 4220: Optimization Modeling and Computational Methods**
(cross-leveled with IMSE 7220). Modeling and solution techniques for mathematical optimization, including linear, nonlinear, integer, and stochastic programming. Emphasis on formulation of models for most-efficient use of solution algorithms. Graded on A-F basis only.

**Credit Hours:** 3

**Prerequisites:** Restricted to IMSE students or by Departmental consent. Grade of C- or better in IMSE 2210

**IMSE 4230: Operations Research Models**
Formulates probabilistic models and determines optimal control policies for queuing and inventory systems. Introduces Markov chains and dynamic programming.

**Credit Hours:** 3

**Prerequisites:** IMSE 3110, IMSE 4210

**IMSE 4230: Operations Research Models**
Formulates probabilistic models and determines optimal control policies for queuing and inventory systems. Introduces Markov chains and dynamic programming.

**Credit Hours:** 3

**Prerequisites:** Restricted to IMSE students or by Departmental consent. Grade of C- or better in IMSE 2210 and IMSE 3110

**IMSE 4280: Systems Simulation**
Discrete-event stochastic systems modeling and experimentation using simulation software. Statistical
design and analysis including distribution fitting and alternative comparison methodologies.

Credit Hours: 3
Prerequisites: Restricted to IMSE students. CMP_SC 1050. Grade of C- or better in IMSE 4110

IMSE 4310: Integrated Production Systems Design
Design and operation of production systems, including lean six sigma concepts, just-in-time/kanban, facility layout and material flow issues.

Credit Hours: 3
Prerequisites: Restricted to IMSE students. CMP_SC 1050. Grade of C- or better in IMSE 4110

IMSE 4320: Integrated Production Systems Design
Design and operation of production systems, including lean six sigma concepts, just-in-time/kanban, facility layout and material flow issues.

Credit Hours: 3
Prerequisites: Restricted to IMSE students or by Departmental consent. IMSE 4210, IMSE 4280

IMSE 4330: Material Flow and Logistics System Design
Modeling and analysis of structural and operational issues associated with material-flow system design including facility location, warehouse/inventory systems, and distribution/transportation systems.

Credit Hours: 3
Prerequisites: IMSE 4210 and IMSE 4280

IMSE 4350: Production and Operations Analysis
Quantitative methods for forecasting, scheduling, and production control in manufacturing and service systems. Use of Enterprise Resource Planning (ERP) systems.

Credit Hours: 3
Prerequisites: Restricted to IMSE students or by Departmental consent. IMSE 4210 and IMSE 4230

IMSE 4360: Supply Chain Engineering
(cross-leveled with IMSE 7360). Modeling and analysis of supply chain network design and management issues including integration of production, inventory control, supplier selection, risk management and logistics network design. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: IMSE 4350

IMSE 4370: Service Systems Engineering and Management
(cross-leveled with IMSE 7370). Service systems contribute to more than 75% of US GDP and provide close to 80% employment. This course introduces students to service system engineering and management and will discuss models, concepts and solution methods important in the design, control, and operation of service systems. In addition, this course will provide students the ability to apply industrial engineering and operations research tools for analyzing service enterprises, including supply chain engineering, financial engineering and revenue management. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: IMSE 4210 or instructor's consent

IMSE 4380: Six Sigma Methodology
(cross-leveled with IMSE 7380). An overview of the Six Sigma DMAIC methodology for analyzing and improving processes. Requires completing a Six Sigma Green Belt project. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: Grade of C or better in IMSE 2110 or IMSE 4110 or STAT 4710

IMSE 4385: Lean Six Sigma Green Belt Project
Application of the Lean Six Sigma methodology in an industry-based project. Prerequisites: IMSE 4310

Credit Hour: 1

IMSE 4410: Management Information Systems Design
MIS concepts and management issues, HTML for web pages and eShop (front-office operations), back-office operations using relational databases, introduction to SQL.

Credit Hours: 3
Prerequisites: Restricted to IMSE students. INFOTC 1040 or CMP_SC 1050 and junior standing required

IMSE 4420: Web-Based Information Systems
Data models, design of databases using E-R, UML (Access/Oracle), web databases, web servers and interfaces (Visual Basic, JavaScript), E-commerce infrastructure (PDM, STEP, XML), data mining for management information and services.

Credit Hours: 3
Prerequisites: IMSE 4410 and instructor's consent

IMSE 4550: Computer Aided Design and Manufacturing
(cross-leveled with IMSE 7550). Product realization process from design, process planning, to manufacturing. Includes CE, DFS/DFM, CAD, CAPP, CNC, and survey of manufacturing methods.

Credit Hours: 4
Prerequisites: Restricted to IMSE students; Junior Standing

IMSE 4560: Introduction to Rapid Prototyping
(cross-leveled with IMSE 4560). Course covers all five MU systems: FDM, SLS, SLA, Polyjet, 3DP. Students will learn fundamental rapid prototyping and related concepts, and design and produce models from each system. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: Sophomore standing or higher

IMSE 4570: Computer Integrated Manufacturing Control
(cross-leveled with IMSE 7570). Implementation of computer integrated manufacturing (CIM) and automation at the shop floor level. Covers essential components of machine sensing and actuation (including programmable robots), information representation and processing, data communication and networking.

Credit Hours: 3
Prerequisites: IMSE 4550

IMSE 4580: Industrial Energy Efficiency and Management
(cross-leveled with IMSE 7580). Introduction to the fundamentals of industrial energy efficiency and management. Covers the essential concepts, best practices, management systems and current standards to achieve and improve energy efficiency in industrial settings, and utilizes hands-on experiences involving real assessment and analysis of industrial site visits and projects.
IMSE 4610: Engineering Quality Control
Analysis of quality in manufacturing including control charts, sampling plans, process capability, experimental design; introduction to system reliability. Overview of Six Sigma and DMAIC methodology.

Credit Hours: 3
Prerequisites: IMSE 2030 or instructor's consent

IMSE 4720: Introduction to Life Cycle Analysis
(cross-leveled with IMSE 7720). Introduction to life cycle thinking, application of ISO standards for conducting an LCA. Students learn process, input-output and hybrid LCA modeling basics, in addition to the application of LCA skills and thinking to improve the performance of systems and processes. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: Junior standing

IMSE 4750: Entrepreneurial Innovation Management: Enterprise Conception
(same as MANGMT 4750). Develop a new business and technology plan including marketing, finance, engineering, manufacturing, and production concepts in this joint College of Engineering and College of Business course.

Credit Hours: 3
Prerequisites: sophomore standing

IMSE 4755H: Entrepreneurial Innovation Management: Enterprise Conception-Honors
Develop a new business and technology plan including marketing, finance, engineering, manufacturing, and production concepts in this joint College of Engineering and College of Business course.

Credit Hours: 3
Prerequisites: sophomore standing. Honors eligibility required

IMSE 4810: Cognitive Ergonomics
(cross-leveled with IMSE 7810). This course will cover the study of empirical research in Cognitive ergonomics and Human-Computer Interaction (HCI). Students will learn cognitive information processing, mental workload, human reliability, and empirical methods in HCI research. Graded on A-F basis only.

Credit Hours: 3
Recommended: Junior or senior level undergraduate students

IMSE 4910: Industrial Engineering Internship
An industry-based learning experience that provides opportunities to apply industrial engineering skills, concepts and theories in a practical context. Requires submission of an internship plan for prior approval and a final oral presentation / written report at the completion of the internship. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: instructor and departmental consent
Recommended: junior standing

IMSE 4920: Industrial Engineering COOP
An industry-based learning experience that provides opportunities to apply industrial engineering skills, concepts and theories in a practical context. Requires submission of a COOP plan for prior approval and a final oral presentation / written report at the completion of the COOP. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: instructor and departmental consent

Recommended: junior standing

IMSE 4970: Capstone Design I
Overview of professional engineering issues such as ethics, team dynamics, communication, and project management. Includes team-based industrial assessments to develop skills in problem/opportunity identification. Graded on A-F basis only.

Credit Hour: 1
Prerequisites: Restricted to IMSE students; Senior Standing, IMSE 2030; IMSE 2710

IMSE 4970W: Capstone Design I - Writing Intensive
Overview of professional engineering issues such as ethics, team dynamics, communication, and project management. Includes team-based industrial assessments to develop skills in problem/opportunity identification. Graded on A-F basis only.

Credit Hour: 1
Prerequisites: Restricted to IMSE students; Senior Standing, IMSE 2030; IMSE 2710

IMSE 4980: Capstone Design II
Industry-based team design experience structured to integrate material presented throughout the Industrial and Manufacturing Systems Engineering curriculum. Must immediately follow IMSE 4970.

Credit Hours: 3
Prerequisites: Restricted to IMSE student; IMSE 3810, IMSE 4310, and IMSE 4970

IMSE 4980W: Capstone Design II - Writing Intensive
Industry-based team design experience structured to integrate material presented throughout the Industrial and Manufacturing Systems Engineering curriculum. Must immediately follow IMSE 4970.

Credit Hours: 3
Prerequisites: Restricted to IMSE student; IMSE 3810, IMSE 4310, and IMSE 4970

IMSE 4990: Undergraduate Research in Industrial Engineering
Independent investigation or project in industrial engineering. May be repeated to 6 hours.

Credit Hour: 0-6

IMSE 4995: Undergraduate Research Industrial Engineering - Honors
Independent investigation or project in industrial engineering. May be repeated to 6 hours. Enrollment limited to receiving departmental honors
IMSE 7001: Topics in Industrial and Manufacturing Systems Engineering
Current and new technical developments in industrial engineering.
Credit Hours: 3
Prerequisites: Restricted to IMSE students only

IMSE 7110: Engineering Statistics
Understanding and application of statistical analysis of techniques. Emphasis on hypothesis testing, regression analysis, analysis of variance (ANOVA) and design of experiments (DOE).
Credit Hours: 3
Prerequisites: grade of C- or better in IMSE 3110

IMSE 7210: Linear Optimization
(cross-leveled with IMSE 4210). Theory and application of linear optimization.
Credit Hours: 3
Prerequisites: IMSE 2210

IMSE 7220: Optimization Modeling and Computational Methods
(cross-leveled with IMSE 4220). Modeling and solution techniques for mathematical optimization, including linear, nonlinear, integer, and stochastic programming. Emphasis on formulation of models for most-efficient use of solution algorithms. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: IMSE 3110, IMSE 4210

IMSE 7230: Operations Research Models
Forms probabilistic models and determines optimal control policies for queuing and inventory systems. Introduces Markov chains and dynamic programming.
Credit Hours: 3
Prerequisites: grade of C- or better in IMSE 2110 and IMSE 3110

IMSE 7280: Systems Simulation
(cross-leveled with IMSE 4280). Discrete-event stochastic systems modeling and experimentation using simulation software. Statistical design and analysis including distribution fitting and alternative comparison methodologies. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: Restricted to IMSE students. CMP_SC 1050. Grade of C- or better in IMSE 4110

IMSE 7300: Material Flow and Logistics System Design
Modeling and analysis of structural and operational issues associated with material-flow system design including facility location, warehouse/inventory systems, and distribution/transportation systems.
Credit Hours: 3
Prerequisites: IMSE 4210, IMSE 4280

IMSE 7350: Production and Operations Analysis
Quantitative methods for forecasting, scheduling, and production control in manufacturing and service systems. Use of Enterprise Resource Planning (ERP) systems.
Credit Hours: 3
Prerequisites: IMSE 4210 and IMSE 4230

IMSE 7360: Supply Chain Engineering
(cross-leveled with IMSE 4360). Modeling and analysis of supply chain network design and management issues including integration of production, inventory control, supplier selection, risk management and logistics network design. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: IMSE 4350

IMSE 7380: Six Sigma Methodology
(cross-leveled with IMSE 4380). An overview of the Six Sigma DMAIC methodology for analyzing and improving processes. Requires completing a Six Sigma Green Belt project. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: Grade of C or better in IMSE 2110 or IMSE 4110 or STAT 4710

IMSE 7385: Lean Six Sigma Green Belt Project
Application of the Lean Six Sigma methodology in an industry-based project.
Credit Hour: 1
Prerequisites: IMSE 4310

IMSE 7410: Management Information Systems Design
MIS concepts and management issues, HTML for web pages and eShop (front office operation), back-office operations using relational databases, introduction for SQL. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: INFOTC 1040 or CMP_SC 1050

IMSE 7420: Web-Based Information Systems
Data models, design of databases using E-R, UML (Access/Oracle), web databases, web servers and interfaces (Visual Basic, JavaScript), E-commerce infrastructure (PDM, STEP, XML), data mining for management information and services.
Credit Hours: 3
Prerequisites: IMSE 4410 and instructor's consent
<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Description</th>
<th>Credit Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>IMSE 7550</td>
<td>Computer Aided Design and Manufacturing</td>
<td>(cross-leveled with IMSE 4550). Product realization process from design, process planning, to manufacturing. Includes CE, DFS/DFM, CAD, CAPP, CNC, and survey of manufacturing methods.</td>
<td>4</td>
</tr>
<tr>
<td>IMSE 7560</td>
<td>Introduction to Rapid Prototyping</td>
<td>(cross-leveled with IMSE 4560). Course covers all five MU systems: FDM, SLS, SLA, Polyjet, 3DP. Students will learn fundamental rapid prototyping and related concepts, and design and produce models from each system. Graded on A-F basis only.</td>
<td>3</td>
</tr>
<tr>
<td>IMSE 7570</td>
<td>Computer Integrated Manufacturing Control</td>
<td>(cross-leveled with IMSE 4570). Implementation of computer integrated manufacturing (CIM) and automation at the shop floor level. Covers essential components of machine sensing and actuation (including programmable robots), information representation and processing, data communication and networking.</td>
<td>3</td>
</tr>
<tr>
<td>IMSE 7580</td>
<td>Industrial Energy Efficiency and Management</td>
<td>(cross-leveled with IMSE 4580). Introduction to the fundamentals of industrial energy efficiency and management. Covers the essential concepts, best practices, management systems and current standards to achieve and improve energy efficiency in industrial settings, and utilizes hands-on experiences involving real assessment and analysis of industrial site visits and projects.</td>
<td>3</td>
</tr>
<tr>
<td>IMSE 7610</td>
<td>Engineering Quality Control</td>
<td>Analysis of quality in manufacturing including control charts, sampling plans, process capability, experimental design; introduction to system reliability. Overview of Six Sigma and DMAIC methodology.</td>
<td>3</td>
</tr>
<tr>
<td>IMSE 7720</td>
<td>Introduction to Life Cycle Analysis</td>
<td>(cross-leveled with IMSE 4720). Introduction to life cycle thinking, application of ISO standards for conducting an LCA. Students learn process, input-output and hybrid LCA modeling basics, in addition to the application of LCA skills and thinking to improve the performance of systems and processes. Graded on A-F basis only.</td>
<td>3</td>
</tr>
<tr>
<td>IMSE 7750</td>
<td>Entrepreneurial Innovation Management: Advanced Enterprise Conception</td>
<td>Develop a new business and technology plan (including marketing, finance, engineering, manufacturing, and production concepts) in this joint College of Engineering/College of Business course.</td>
<td>3</td>
</tr>
<tr>
<td>IMSE 7810</td>
<td>Cognitive Ergonomics and Decision Making</td>
<td>(cross-leveled with IMSE 4810). This course will cover the study of empirical research in cognitive ergonomics and Human-Computer Interaction (HCI). Students will learn cognitive information processing, mental workload, human reliability, decision-making, and empirical methods in HCI research. Graded on A-F basis only.</td>
<td>3</td>
</tr>
<tr>
<td>IMSE 8001</td>
<td>Advanced Topics in Industrial &amp; Manufacturing Systems Engineering</td>
<td>Current and new technical developments in industrial engineering.</td>
<td>3</td>
</tr>
<tr>
<td>IMSE 8030</td>
<td>Advanced Manufacturing and Supply Systems</td>
<td>The design, regulation, and optimization of manufacturing and supply systems through systems analysis.</td>
<td>3</td>
</tr>
<tr>
<td>IMSE 8085</td>
<td>Problems in Industrial and Manufacturing Systems Engineering</td>
<td>Supervised investigation in industrial engineering to be presented in the form of an engineering report.</td>
<td>1-99</td>
</tr>
<tr>
<td>IMSE 8087</td>
<td>Industrial Engineering Graduate Seminar</td>
<td>Selected topics in industrial engineering; oral presentations and engineering reports. Graded on S/U basis only.</td>
<td>0</td>
</tr>
<tr>
<td>IMSE 8110</td>
<td>Engineering Experimentation</td>
<td>Application of advanced statistical methods for the analysis of engineering design and experimental problems.</td>
<td>3</td>
</tr>
<tr>
<td>IMSE 8210</td>
<td>Operations Research-Discrete Models</td>
<td>Applications of discrete operations research methods, including linear programming, fuzzy sets, integer programming, and meta-heuristics.</td>
<td>3</td>
</tr>
<tr>
<td>IMSE 8220</td>
<td>Nonlinear Optimization</td>
<td>Introduces computational non-linear mathematical programming procedures their use in solving complex industrial systems design problems.</td>
<td>3</td>
</tr>
<tr>
<td>IMSE 8230</td>
<td>Operations Research-Stochastic Models</td>
<td>Theory and applications of stochastic processes; includes continuous time Markov chain, Markov decision process, queueing theory, and stochastic manufacturing systems.</td>
<td>3</td>
</tr>
</tbody>
</table>
Prerequisites: IMSE 4230 or IMSE 7230

IMSE 8310: Advanced Integrated Production Systems
Advanced study of the design and operation of flow shop, job shop, and cell-based production systems, including scheduling, layout and material flow issues.
Credit Hours: 3
Prerequisites: IMSE 4310 or IMSE 7310

IMSE 8410: Advanced Management Information Systems Design
Develops requirements for management information, staffing, cost estimating, evaluation, and the design of management communication systems; includes case studies.
Credit Hours: 3
Prerequisites: IMSE 4410

IMSE 8550: Advanced CAD/CAM
Covers the state-of-the-art in CAD/CAM and explores the latest developments, residual problems, and new direction in CAD/CAM. Includes sculptured surface modeling, rapid prototyping and manufacturing, integrated process planning, shape analysis, machine intelligence.
Credit Hours: 3
Prerequisites: IMSE 4550 or IMSE 7550

IMSE 8810: Human Factors
Human factors inputs, outputs and environment and their influence on design and evaluation of man and machine systems.
Credit Hours: 3

IS_LT 1111: Information Use and Student Success
In this course, students will learn to frame meaningful questions, gain knowledge and skills to succeed academically, understand the structure and content of information resources, evaluate information, and use information resources as genuine learning tools.
Credit Hour: 1

IS_LT 4099: Making and Education (3D printing)
(cross-leveled with IS_LT 7099). This course - via hands-on activities and projects - will immerse you into the making and 3D printing culture.

You will learn how to design and redesign 3D objects, learn 3D modeling software 3D printing. You will learn how to teach STEM concepts through 3D modeling and 3D printing.
Credit Hour: 1-3

IS_LT 4310: Seminar in Information Science and Learning Technologies
Discussion and critical study of current developments in the field of information science and learning technologies.
Credit Hour: 1-3

IS_LT 4356: Interactive Web Design with JavaScript
(cross-leveled with IS_LT 7356). Attain skills in designing/developing interactive web sites/applications using JavaScript, JavaScript libraries, AJAX, plugins, widgets, user interface themes. Add effects, animations to photo galleries, slide shows, carousels to support instruction. Integrate Google Maps and application API's in learning activities. Dynamically modify web pages based on user actions.
Credit Hours: 3
Prerequisites: IS_LT 4370

IS_LT 4360: Introduction to Web Development
(cross-leveled with IS_LT 7360). Basic web design and HTML. Covers file transfer and UNIX/LINUX servers management. Develops understanding of web graphic formats. Emphasizes user interface, navigation, and instructional design in building web sites. Online. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: IS_LT 4360 or instructor's consent

IS_LT 4370: Intermediate Web Development
(cross-leveled with IS_LT 7370). Development of design and web authoring skills. Topics include CSS, HTML, web interactivity through the use of JavaScript, Dreamweaver and usability practices. Upon completion, students will be ready to create high-impact and highly functional web pages.
Credit Hours: 3
Prerequisites: IS_LT 4360 or instructor's consent

IS_LT 4361: Introduction to Digital Media
(cross-leveled with IS_LT 7361). Hands-on approach to multimedia production techniques. Develops understanding of technical and conceptual tools for the basics of digital media, video editing, still image and audio file manipulation. Students create web portfolio to present their digital products. Graded on A-F basis only.
Credit Hours: 3

IS_LT 4372: Exploring CourseSites
(cross-leveled with IS_LT 7372). This course will prepare you to work within the CourseSites Learning Management System (LMS) to set up and manage an online course. As a student in this course, you will investigate and manipulate components of CourseSites from an instructor's perspective. Graded on A-F basis only.
Credit Hour: 1
IS_LT 4373: Exploring Moodle  
(cross-leveled with IS_LT 7373). This course will prepare students to work within the Moodle Learning Management System (LMS) to set up and manage an online course. Students in the course will investigate and manipulate components of Moodle from an instructor’s perspective. Graded on A-F basis only.  
Credit Hour: 1

IS_LT 4374: Exploring Canvas  
(cross-leveled with IS_LT 7374). This course will prepare students to work within the Canvas Learning Management System (LMS) to set up and manage an online course. Students will investigate and manipulate components of Canvas from an instructor's perspective. Graded on A-F basis only.  
Credit Hour: 1

IS_LT 4467: Technology to Enhance Learning  
This course is designed for undergraduates in the teacher education program. Emphasis is placed on strategies for integrating technology into the teaching and learning process, with a focus on enhancing how students think rather than what they think. Special attention given to supporting higher order thinking and problem solving with technology. Graded on A-F basis only.  
Credit Hours: 3  
Prerequisites: Consent required (students must be admitted to College of Education's Teacher Education program)

IS_LT 7099: Making and Education (3D printing)  
(cross-leveled with IS_LT 4099). This course--via hands-on activities and projects--will immerse you into the making and 3D printing culture. You will learn how to design and redesign 3D objects, learn 3D modeling software 3D printing. You will learn how to teach STEM concepts through 3D modeling and 3D printing.  
Credit Hours: 3

IS_LT 7301: Introduction to Information Technology  
The nature of information and information transfer in the institutional setting; covers the culture of information in society, standards for information processing and transfer, and networking in communications perspectives of information providing agencies.  
Credit Hours: 3

IS_LT 7302: Organization of Information  
In order to retrieve and use information, that information must first be organized. This course investigates systems and structures for organizing information in a variety of contexts.  
Credit Hours: 3

IS_LT 7305: Foundations of Library and Information Science  
An introduction to the background, contexts, organizations, issues, ethics, values, and terms of information science, the information professions, and the library as an idea, space, institution, and repository of the cultural record.  
Credit Hours: 3

IS_LT 7310: Seminar in Information Science and Learning Technology  
Discussion and critical study of current developments in the field of information science and learning technologies.  
Credit Hour: 1-3

IS_LT 7312: Principles of Cataloging and Classification  
Credit Hours: 3  
Prerequisites: IS_LT 7305

IS_LT 7313: Collection and Access Management  
Selection of materials for libraries and information agencies, policies for collection management, freedom and diversity of information, access to information and evaluation of collections and access.  
Credit Hours: 3

IS_LT 7314: Reference Sources and Services  
General reference sources with emphasis on print sources. Principles, developments and trends in reference services and reference service organization.  
Credit Hours: 3

IS_LT 7315: Management of Information Agencies  
Concepts of management applied to libraries and information systems; management tools, programming, models and simulation in an environment of an information producing or disseminating agency.  
Credit Hours: 3

IS_LT 7320: Emerging Technologies in Libraries  
Critically examines web technologies, devices, and methods used to access collections and services, promote social interaction, and facilitate communication. Focuses on new and emerging software, resources, and communication methods including their discovery and implementation. Graded on A-F basis only.  
Credit Hours: 3

IS_LT 7334: Library Information Systems  
Focuses on the automated library systems marketplace. Covers integrated online library systems from the systems, functional and user perspective. Includes management approaches for procurement and operation of such systems.  
Credit Hours: 3

IS_LT 7336: Interactive Web Design with JavaScript  
(cross-leveled with IS_LT 4356). Attain skills in designing/developing interactive web sites/applications using JavaScript, JavaScript libraries, AJAX, plugins, widgets, user interface themes. Add effects, animations to photo galleries, slide shows, carousels to support instruction. Integrate Google Maps and application API’s in learning activities. Dynamically modify web pages based on user actions.  
Credit Hours: 3
**IS_LT 7360: Introduction to Web Development**
(cross-leveled with IS_LT 4360). Basic web design and HTML. Covers file transfer and UNIX/LINUX servers management. Develops understanding of web graphic formats. Emphasizes user interface, navigation, and instructional design in building web sites. Online. Graded on A-F basis only.

**Credit Hours:** 3  
**Prerequisites:** IS_LT 4370 or IS_LT 7370

**IS_LT 7361: Introduction to Digital Media**
(cross-leveled with IS_LT 4361). Hands-on approach to multimedia production techniques. Develops understanding of technical and conceptual tools for the basics of digital media, video editing, still image and audio file manipulation. Students create web portfolio to present their digital products. Graded on A-F basis only.

**Credit Hours:** 3

**IS_LT 7364: Flash Authoring**
Plan, develop, and evaluate a multimedia project using digital authoring software (Macromedia Flash). Emphasizes scripting and user interface issues for web-based animations. Course is production-based. Graded on A-F basis only.

**Credit Hours:** 3

**IS_LT 7366: Technology Leadership**
Develop skills, knowledge, and values needed to provide leadership in schools. Analyzes characteristics of effective leaders, focusing on staff development. Explores technology and school reform, technology integration, and current issues. Online. Graded on A-F basis only.

**Credit Hours:** 3

**IS_LT 7368: Technology Across the Curriculum**
The emphasis in this course is on using technologies to enhance and support student collaboration and learning in K-23 classrooms.

**Credit Hours:** 3  
**Prerequisites:** admission to the Teaching Fellowship Program

**IS_LT 7370: Intermediate Web Development**
(cross-leveled with IS_LT 4370). Development of design and web authoring skills. Topics include CSS, HTML, web interactivity through the use of JavaScript, Dreamweaver and usability practices. Upon completion, students will be ready to create high-impact and highly functional web pages.

**Credit Hours:** 3  
**Prerequisites:** IS_LT 7360 or instructor's consent

**IS_LT 7371: Exploring Sakai**
(cross-leveled with IS_LT 4371). This course will prepare you to work within the Sakai Learning Management System (LMS) to set up and manage an online course. As a student in this course you will investigate and manipulate components of Sakai from an instructor's perspective. Graded on A-F basis only.

**Credit Hours:** 1  
**Prerequisites:** IS_LT 4370 or IS_LT 7370 or permission of instructor

**IS_LT 7372: Exploring CourseSites**
(cross-leveled with IS_LT 4372). This course will prepare you to work within the CourseSites Learning Management System (LMS) to set up and manage an online course. As a student in this course, you will investigate and manipulate components of CourseSites from an instructor's perspective. Graded on A-F basis only.

**Credit Hour:** 1

**IS_LT 7373: Exploring Moodle**
(cross-leveled with IS_LT 4373). This course will prepare you to work within the Moodle Learning Management System (LMS) to set up and manage an online course. As a student in this course, you will investigate and manipulate components of Moodle from an instructor's perspective. Graded on A-F basis only.

**Credit Hour:** 1

**IS_LT 7374: Exploring Canvas**
(cross-leveled with IS_LT 4374). This course will prepare students to work within the Canvas Learning Management System (LMS) to set up and manage an online course. Students will investigate and manipulate components of Canvas from an instructor's perspective. Graded on A-F basis only.

**Credit Hour:** 1

**IS_LT 7375: Mobile Web App Development**
(cross-leveled with IS_LT 4375). The purpose of this course is to provide students with knowledge necessary to create a mobile app with basic functions using HTML 5, JavaScript, and CSS3. Through this course, students will obtain knowledge of mobile web app development including both design and development phases. Upon the completion of this course, students will produce a mobile web app that can be operated via a mobile device. Graded on A-F basis only. Recommended: Students must be able to hand code: html, Styling and positioning web pages using CSS & JavaScript, and JavaScript basic functions.

**Credit Hours:** 3  
**Prerequisites:** IS_LT 4370 or IS_LT 7370 or permission of instructor

**IS_LT 7378: Electronic Portfolio Development**
This course provides an overview of electronic portfolio development. Students will select, categorize and document their accomplishments in the Technology in Schools emphasis area for review and assessment. Students will demonstrate mastery of the ISTE Standards and commitment to ongoing learning. Web development skills are required.

**Credit Hours:** 3  
**Prerequisites:** Restricted to students admitted into the Technology in Schools emphasis

**IS_LT 7380: School Library Practicum**
Directed, project-based experience in school libraries. Graded on S/U basis only.

**Credit Hours:** 1-3  
**Prerequisites:** admission to MA, initial certification or 24 completed LIS credit hours taken at MU; instructor's consent
IS_LT 7381: Practicum in Information Agencies
Provides a supervised work experience for master's degree students in a public, academic, or special library. Graded on S/U basis only.
Credit Hour: 1-3
Prerequisites: IS_LT 7301, IS_LT 7302 or IS_LT 7312, IS_LT 7314, IS_LT 7315

IS_LT 7383: Rapid Development Tools for Online Learning
Students will apply principles of rapid development and use rapid development tools to create a prototype of an e-learning module that uses technology features that can enhance learning (e.g. learner interactions). Specific competencies include: Storyboard and "rapidly" develop an e-learning module using software designed to support this process; Use software tools that develop specific elements of e-learning (e.g. video, animation, gaming), and incorporate those elements into an e-learning module; Evaluate rapidly developed e-learning products; Compare and contrast features of rapid development software packages. Graded on A-F basis only.
Credit Hours: 3

IS_LT 7384: Designing Games for Learning (cross-leveled with IS_LT 4384). Learn why games can be useful in learning and how to design them. Play some exemplary games that will help you understand the mechanics of game design and work incrementally towards designing and developing your own educational game prototype via game modifications ("mods"), engaging in gaming communities, evaluating existing games, building learning plans using games and learning the basics of a simple gaming shell language. Graded on A-F basis only.
Credit Hours: 3

IS_LT 9012: Public Library Community Partnerships
This is a service learning course. Students will have the opportunity to work with local community leaders on a project. Students will learn about partnerships and advocacy for the library, developing leadership skills through action and reflection.
Credit Hours: 3
Prerequisites: IS_LT 7305 and IS_LT 9444

IS_LT 9085: Problems in Information Science and Learning Technology
Independent, directed study on a topic in the areas of information science and learning technologies.
Credit Hour: 1-99
Prerequisites: departmental consent

IS_LT 9090: Research in Information Science and Learning Technologies
Dissertation research. Graded on S/U basis only.
Credit Hour: 1-99
Prerequisites: Doctoral Committee Chair's consent

IS_LT 9404: School Library Administration
Emphasizes school library administration; program development, implementation, evaluation; planning cycle; budget process; services for diverse school constituencies. Effects of national, state, district guidelines, standards and policies on library media programs.
Credit Hours: 3

IS_LT 9406: Curriculum and the School Library
Focuses on the library media specialist as teacher and instructional partner. Emphasizes negotiating instructional partnerships, integrating information problem-solving models into the curriculum, curriculum mapping, and resource-based learning models.
Credit Hours: 3

IS_LT 9408: Information Policy
Examination of the roles of private and public sectors in information policy formation. Includes consideration of social, economic, political and technological issues.
Credit Hours: 3

IS_LT 9409: Seminar in Digital Libraries
This course is a project-based learning environment that combines Instructor-prepared content, group-based student projects, and threaded asynchronous discussions on selected topics relating to the design, development, and implementation of practical digital libraries. Research directives within the broad domain of digital library development are also covered.
Credit Hours: 3

IS_LT 9410: Seminar in Information Science and Learning Technology
Discussion and critical study of current developments in information science and learning technologies.
Credit Hour: 1-3

IS_LT 9411: Doctoral Seminar in Information Science and Learning Technologies
Discussion and critical study of current developments in information science and learning technologies. Graded on A-F basis only.
Credit Hour: 1-3

IS_LT 9412: Information Storage and Retrieval
Introduces students to concepts and terminology associated with the storage and retrieval of bibliographic information. Emphasizes design of applied database management systems.
Credit Hours: 3

IS_LT 9413: Electronic Resource Management
This course explores electronic resources (primarily subscription journals and databases) in terms of products, pricing, in-house management of resources, both technical and organizational, licensing, configuring databases and organizing websites for the end user, statistical reporting, and future trends.
Credit Hours: 3
IS_LT 9417: Action Research
Study of concepts associated with action research; and the processes and procedures for conducting action research. Culminating project is the development of an action research project.
Credit Hours: 3
Prerequisites: 12 credit hours completed prior to enrolling

IS_LT 9419: American Library History
Students in this course will learn about the history of libraries in America, reading about and analyzing the political, cultural, and social roles of particular libraries and the library as an institution. Graded on A-F basis only.
Credit Hours: 3

IS_LT 9420: Scholarly Communication
Exploration of the production and communication of information and knowledge in the disciplines.
Credit Hours: 3

IS_LT 9421: Usability of Information Systems and Services
Introduction to concepts and methods of usability testing and research and user-centered design strategy. Course takes a process approach to define target audiences and usability problems, create and administer investigative procedures, analyze results, and report findings effectively. Graded on A-F basis only.
Credit Hours: 3

IS_LT 9423: Ethics, Data, and Information
Critical inquiry into perennial and emerging issues in the ethics of data and information.
Credit Hour: 1-3

IS_LT 9427: The Information Society
This class critically examines the control, dissemination, and effects of information on the modern world. We will study the complex relationship between information and society, looking at how each is a reflection and shaper of the other. The relationship of libraries and other information agencies to the state, and the role of information professionals in the political and cultural spheres are central themes in the course. Graded on A-F basis only.
Credit Hours: 3

IS_LT 9428: History of Books and Media
Examines the history and philosophy of books and media from the beginnings of writing to the Internet, emphasizing the effects of changes in communication and information technologies. The focus is on the social, cultural, intellectual, scientific, and religious impacts of shifts in the media for preserving and transmitting information. Graded on A-F basis only.
Credit Hours: 3

IS_LT 9429: Metadata
Explores principles, standards, and schema for metadata in diverse online environments to facilitate information retrieval and use. Graded on A-F basis only.
Credit Hours: 3

IS_LT 9431: Children's Library Materials
Evaluation and selection of materials for children birth-age 13 (Grade 6). Early literacy, emergent readers, reader response theory; social, cultural contexts of readers and reading, trends in publishing.
Credit Hours: 3

IS_LT 9432: Online Searching
Search strategies and techniques for commercial online databases. The course first covers the basic concepts of online information retrieval and then focuses on selection and online searching in the most prominent social science, science, humanities, and numerical databases.
Credit Hours: 3
Prerequisites: IS_LT 4301 or IS_LT 7301 and IS_LT 4314 OR IS_LT 7314

IS_LT 9433: Youth Services in Libraries
Examines physical, mental, and emotional development of youth birth through high school. Emphasis on community analysis, outreach services, program design and techniques. Graded on A-F basis only.
Credit Hours: 3

IS_LT 9434: Teen Library Materials
Evaluation, selection of print, alternate formats for teens, 13-18 (Grades 7-12). Personal, social, popular culture contexts of teen readers and texts; emphasizes reader response; challenges common assumptions about teens and reading.
Credit Hours: 3

IS_LT 9435: Adult Services in Libraries
Library services to adults, including special populations. Emphasis on information needs of adults, organization and management of adult services.
Credit Hours: 3

IS_LT 9437: Reader Advisory Services
Examination of value and role of leisure reading and leisure reading materials. Coverage of reader advisory techniques, support processes, and resources for providing reader advisory services to various audiences. Graded on A-F basis only.
Credit Hours: 3

IS_LT 9438: Marketing and Libraries
This course provides an introduction to marketing - concepts, planning, strategies and evaluation - as related to libraries and information agencies. Graded on A-F basis only.
Credit Hours: 3
IS_LT 9439: Digital Humanities and Information
This course on history, philosophy, and methods in the emerging field of ‘digital humanities’ focuses on topics at the nexus of information, the humanities disciplines, technology, and culture, as well as the contexts of the academy, libraries/archives, museums, and media. Graded on A-F basis only.
Credit Hours: 3

IS_LT 9440: Learning with Web-based Technologies
Explores the potential of the Internet to support inquiry-based learning through collaborative activities, research, and authoring/publishing. Investigates goals and methods of online learning. Examines learning theories and models of teaching/learning in relation to selected Internet activities for K-12, undergraduate students and learners in other fields outside education (e.g., work placed learning, non-formal learning).
Credit Hours: 3

IS_LT 9443: The Academic Library
Development, objectives, organization and structure, nature of the collections and responsibility for their development, philosophy of library services, measurement and standards of library effectiveness.
Credit Hours: 3

IS_LT 9444: The Public Library
An overview of public library history, missions, and societal roles. Includes public library funding, organization, and management.
Credit Hours: 3

IS_LT 9445: Special Libraries and Information Centers
Goals of special librarianship including information provision, management styles. Library functions as performed in special libraries. Contributions of special libraries, such as information analysis centers, information brokering, and accountability for and evaluation of services.
Credit Hours: 3

IS_LT 9446: International and Comparative Librarianship
International libraries, intercultural information concerns, how information agencies differ between nations and global information issues. Course presents various countries, their information infrastructures and the influence of information and communication technologies.
Credit Hours: 3

IS_LT 9447: Human Centered Design
This course provides an overview to the Human Computer Interaction (HCI) field while focusing on the use and adaptation of existing HCI theories and research to a range of interface design problems. The course points the way to acquiring continuing information on the field and also provides groundwork for understanding future applied research papers in the field. Graded on A-F basis only.
Credit Hours: 3

IS_LT 9448: International Libraries in Context
Study Abroad course. Visit and study international libraries and related institutions. Covers the political, cultural, social, and economic context in which they operate.
Credit Hours: 3

IS_LT 9449: Services for Business Communities and Entrepreneurs
The course covers the introduction to and application of basic concepts of business information in academic, public and special library environments, and the information searching techniques used for specific business information needs (finding company information, industry information, investment information, statistical information, marketing information, etc.) Course includes service to entrepreneurs. Content covers company, investment, industry, statistical and marketing information and includes use of GIS systems.
Credit Hours: 3

IS_LT 9450: Research Methods in Information Science and Learning Technologies
Research methods and ethics of research in the social sciences, focusing on the information professions and learning technologies.
Credit Hours: 3

IS_LT 9452: Information Literacy and Instruction
This course is designed to prepare Library Science students/Information professionals for the variety of teaching situations they will encounter in library and information agency settings. Students will consider learning theory applicable to library instruction, learning styles, teaching methods, and appropriate evaluation of library instruction. Students will also learn strategies for incorporating library instruction into the institutional curriculum. Graded on A-F basis only.
Credit Hours: 3

IS_LT 9453: Planning and Evaluation of Information Services
The course focuses on the complexity of the planning process in libraries and other information agencies, including the influence of external environments (upper administrations, user communities, information producers) on planning. Internal elements of the organization (staffing, services, finances) are discussed, as are external elements (requirements of a parent organization, legal constraints, etc.). The role of evaluation of personnel, budgets, facilities, access to information, and services is integrated into the process of providing service.
Credit Hours: 3

IS_LT 9454: Copyright in Libraries
An introductory and practical course covering the foundations of copyright, fair use, e-reserves, related laws including DMCA and TEACH and managing copyright in the public and school environments.
Credit Hours: 3

IS_LT 9455: Formative and Summative Evaluation
Study of the process of gathering data and making judgments about the effectiveness of instructional programs that uses technology. Covers techniques of a formative evaluation process to revise instruction.
Culminating project is planning and conducting a portion of a summative evaluation of instructional program.

Credit Hours: 3

IS_LT 9456: Designing Computer Support for Collaborative Learning
Students will examine the theoretical bases for using collaboration and social interaction as methods for learning, and learn key methods and approaches for designing computer supported collaborative learning. Graded A-F only.

Credit Hours: 3

IS_LT 9457: Designing Computer Support for Cooperative Work
Study of the tools and methods of groupware and communities of practice, including their psychological, social and organizational effects. Students focus on designing and developing improved tools and methods. Graded on A-F basis only.

Credit Hours: 3

IS_LT 9458: Technology and Assessment
Learn how to assess specific types of knowledge, using technology to enhance the process. Topics include use of tools/strategies for data collection to guide instructional decision-making and investigating technologies to improve assessment of student learning. Emphasis on aligning learning objectives, activities, and assessments and developing performance assessments to measure higher-order thinking. Graded on A-F basis only.

Credit Hours: 3

IS_LT 9461: Interaction Design
Students will learn the basic concepts of interaction design, then focus on usability engineering and prototyping principles to support the design process for learning and performance based technologies.

Credit Hours: 3

IS_LT 9466: Learning Analytics
Learning Analytics (LAK) addresses the questions of how people learn together and how computers can participate with and augment that learning. LAK researchers address the socio-technical aspects of how technology mediates learning practices. Graded on A-F basis only.

Credit Hours: 3

IS_LT 9471: Instructional Systems Design
Develop knowledge and skills related to the systematic design of instruction. Learn to analyze, design, develop, implement, and evaluate learning systems and instruction. Identify appropriate technologies to support learning and explore alternative models of instructional design.

Credit Hours: 3

IS_LT 9473: Project Management
This course introduces the learner to the necessary and practical project management concepts and skills that lead to reductions in project cycle time while maintaining control over budget, resources, risk, and delivered value. This course proposes to integrate practical project management skills within the project management lifecycle (i.e., initiating, planning, executing, controlling, and closing).

Credit Hours: 3

IS_LT 9474: Front End Analysis of Systems
Develop skills for systematically analyzing learning, or other types of systems, that need to be improved. Develop data collection instruments (e.g. surveys, observation protocols, interviews); analyze secondary data; analyze tasks or activities in the system, and interpret data to make recommendations for system improvement. Skills will be learned by doing and applying to real systems that need improvement.

Credit Hours: 3

IS_LT 9475: Diffusion of Educational Innovations
In-depth analysis of innovation development and adoption processes in educational organizations, including schools, universities, and training centers.

Credit Hours: 3

IS_LT 9480: Internship in Information Science and Learning Technologies
Provides internship experience under supervision in advanced levels of practical experience in Information Science and Learning Technology Research and Teaching. Graded on S/U basis only.

Credit Hour: 1-99

Prerequisites: School director's consent

IS_LT 9483: Capstone: Online Education Emphasis Area
Culminating course for Online Education emphasis area in Information Science and Learning Technologies graduate degree. Design/develop/evaluate an online course or rework existing course. Analyze evaluation data from two external reviewers (novice/expert). Write paper describing results and modifications. To be taken during last semester of student's program. Graded on S/U basis only.

Credit Hour: 1
IS_LT 9484: Teaching Online Courses
Learn to be an effective online instructor! Examine issues in teaching and learning online; instructor and student roles; instructional strategies for supporting diverse learners; methods of student assessment; online communication; classroom management; characteristics of online learning management systems. Projects put you in the role of instructor to practice what you learn.
Credit Hours: 3

IS_LT 9485: Designing Online Learning
Online learning is everywhere! This online course will teach you how to leverage existing software tools to design and develop online learning activities in multiple domains that are grounded in sound learning principles. Course will focus on developing online learning for meaningful learning outcomes such as problem solving, building communities, and developing collaboration skills.
Credit Hours: 3
Prerequisites: Instructor consent

Information Technology (INFOTC)

INFOTC 1001: Topics in Information Technology
Topics may vary from semester to semester. May be repeated upon consent of department.
Credit Hours: 3
Prerequisites: May be restricted to Information Technology majors during early registration

INFOTC 1040: Introduction to Problem Solving and Programming
An introduction to problem solving methods and programming concepts, providing experience in designing, developing, implementing, and testing programs. Cannot be taken for credit after CMP_SC 1050.
Credit Hours: 3

INFOTC 1610: Introduction to Entertainment Media
This course is an introduction to the basic fundamentals of entertainment products such as postproduction technology, camera and lighting technology, audio creation and mixing technology, and broadcast technology. Computer programs designed for visual special effects are used.
Credit Hours: 3
Prerequisites: May be restricted to Information Technology majors during early registration

INFOTC 2001: Topics in Information Technology
Topics may vary from semester to semester. May be repeated upon consent of department. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: May be restricted to Information Technology majors during early registration

INFOTC 2040: Programming Languages and Paradigms
This course presents programming principles and their syntactical representation and implementation across languages including those that are compiled and interpreted. The course shows how to implement algorithms and data structures to solve problems while utilizing paradigms offered by the programming languages such as procedural, object-oriented, protocol-oriented, functional, and declarative. Language support for strong and weak typing and type safety are covered along with support for optional values. Provides experience in developing algorithms and determining their efficiency, designing application architecture, and developing applications. Building and using libraries/ application programming interfaces is covered. Git and GitHub are used for code versioning and collaboration. Integrated development environments (IDEs) are used for managing, building, debugging, and testing applications.
Credit Hours: 3
Prerequisites: INFOTC 1040 or CMP_SC 1050, or prior experience with programming and consent of instructor

INFOTC 2600: Digital Multimedia
This course introduces broad views of concepts, software, hardware, and solutions in entertainment media applications. It will examine career options in fields such as information technology, news, film production and postproduction, website design, advertising, or communication.
Credit Hours: 3
Prerequisites: May be restricted to Information Technology majors during early registration

INFOTC 2610: Audio/Video I
This is an introductory course on digital audio and video editing. Background presented in the course will include an overview of the techniques used in modern Non-Linear video editing, and understanding of block editing, and why it is essential when using modern digital technology. The course is hands-on with students at workstations, learning the software directly at the keyboard, and working on assignments in a lab context.
Credit Hours: 3
Prerequisites: May be restricted to Information Technology majors during early registration

INFOTC 2620: Computer Modeling and Animation I
Introduction to the field of computer modeling and animation with an emphasis on tools. Learn programming methods for developing customized modeling and animation algorithms. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: May be restricted to Information Technology majors during early registration

INFOTC 2810: Fundamentals of Network Technology
This course includes an overview of networking and the common wireless standards. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: CMP_SC 1050. May be restricted to Information Technology majors during early registration
INFO TC 2830: Introduction to the Internet, WWW and Multimedia Systems
(same as CMP_SC 2830). This course will attempt to provide a comprehensive understanding of the evolution, the technologies, and the tools of the Internet. In particular, issues pertaining to the World Wide Web and Multimedia (HTML, CGI, Web based applications) will be discussed in detail.

Credit Hours: 3
Prerequisites: CMP_SC 2050 with a C- or higher

INFO TC 2910: Cyber Security
This course covers numerous platform-independent security topics including threats, problem ports and services, theory and practice of defense in security, intrusion detection, data security, securing remote access, user education and support, designing a secure network and security management. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: CMP_SC 1050, INFOTC 2810. May be restricted to Information Technology majors during early registration

INFO TC 3001: Topics in Information Technology
Topics may vary from semester to semester. May be repeated upon consent of department. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: May be restricted to Information Technology majors during early registration

INFO TC 3610: Audio/Video II
This course presents broad professional techniques for completing an off-line edit and the progression to online and finishing, adding depth to topics introduced in A/V I. Students will gain experience in editing techniques involving dialogue, action, documentaries, music videos, and multi-camera projects. The course also introduces special effects, audio finishing, clip and media management, and use of various media formats.

Credit Hours: 3
Prerequisites: C- or higher in INFOTC 2610. May be restricted to Information Technology majors during early registration

INFO TC 3620: Computer Modeling and Animation II
This course covers advanced methods for modeling and animation with an emphasis on computer science theory and virtual reality. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: C- or higher in INFOTC 2620. May be restricted to Information Technology majors during early registration

INFO TC 3630: Introduction to Virtual Reality
The course will provide students with a good understanding of the fundamentals of virtual reality and practical hands on VR experience development skills. It will introduce students to the software, hardware, and concepts involved with the current state of the art in virtual reality. This course will focus on using the recent consumer-grade equipment to design and construct virtual environment and experience.

Credit Hours: 3
Prerequisites: CMP_SC 1050 with C- or higher. May be restricted to Information Technology majors during early registration

INFO TC 3640: Digital Effects
This course is an introduction to the fundamentals of digital motion picture effects technology. This course is designed for a student interested in pursuing a career in information technology, news, film production and film postproduction, website design, or communication.

Credit Hours: 3
Prerequisites: C- or higher in INFOTC 1610 or C- or higher in INFOTC 2610. May be restricted to Information Technology majors during early registration

INFO TC 3850: Computer System Administration
This course will cover network management tools, network maintenance, data management, remote access management, management tasks, responsibilities and ethics, required plans and policies, design of a well-managed network. Some work will be done in both Windows and Linux environments. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: CMP_SC 2050, junior standing. May be restricted to Information Technology majors during early registration

INFO TC 3940: Internship in Information Technology
Information Technology-related experience in business or industry jointly supervised by faculty and IT professionals. Students should apply one semester in advance for consent of the supervising professor. Graded on an S/U basis only.

Credit Hour: 1-6
Prerequisites: Instructor Consent

INFO TC 4001: Topics in Information Technology
Topics may vary from semester to semester. May be repeated upon consent of department. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: May be restricted to Information Technology majors during early registration

INFO TC 4001W: Topics in Information Technology - Writing Intensive
Topics may vary from semester to semester. May be repeated upon consent of department. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: May be restricted to Information Technology majors during early registration

INFO TC 4085: Independent Projects
A student interested in doing an independent study project should first choose an area and instructor to work with. The student and instructor decide on a suitable Information Technology topic. The student writes up a detailed description of the project, including references, deadlines and deliverables. The instructor and student decide on details for completing the project during the semester for a grade.

Credit Hour: 1-6
Prerequisites: Consent of instructor
INFOTC 4400: C#/.NET Development
Learn how to develop and debug multi-threaded Windows desktop applications based on the object-oriented (OO), Model-View-Controller (MVC), and Model View ViewModel (MVVM) paradigms using C#. .NET, Windows Presentation Foundations (WPF), and Visual Studio. Graded on A-F basis only.

**Credit Hours:** 3
**Prerequisites:** CMP_SC 2050. May be restricted to Information Technology majors during early registration.

INFOTC 4500: Team-Based Mobile Device Application Development
(same as JOURN 4444). This is a multi-disciplinary, team-based course on developing applications for mobile devices. Teams will be comprised of students who are software developers and students who are designers. Graded on A-F basis only.

**Credit Hours:** 3
**Prerequisites:** for Journalism majors (Designers), instructor's consent; for Computer Science or Information Technology majors (Developers), CMP_SC 2050 or permission of instructor. May be restricted to Information Technology majors during early registration.

INFOTC 4630: Game Development
This class will focus on the theory, design, and implementation of games using the industry standard game development tools. Students will learn about the workflow for designing, creating and implementing vital components for modern games, with respect to data structures, algorithms, content, development tools and practice of game development. The final project is a fully functional, your own custom game.

**Credit Hours:** 3
**Prerequisites:** INFOTC 3630 or CMP_SC 2050 with C- or higher. May be restricted to Information Technology majors during early registration.

INFOTC 4640: Digital Effects II
This course builds on fundamentals of digital motion picture effects technology learned in Digital Effects I. Computer programs designed for digital visual special effects in film and broadcast are integrated throughout the course.

**Credit Hours:** 3
**Prerequisites:** C- or higher in INFOTC 3640. May be restricted to Information Technology majors during early registration.

INFOTC 4650: Shader Programming
The focus of this course is modern computer graphics algorithms and programming, with an emphasis on games, shader languages, (GLSL and Cg) and Graphical Processor Units (GPUs).

**Credit Hours:** 3
**Prerequisites:** CMP_SC 2050, INFOTC 2620. May be restricted to Information Technology majors during early registration.

INFOTC 4830: Science and Engineering of the World Wide Web
(same as CMP_SC 4830; cross-leveled with CMP_SC 7830). This course will study the science and engineering of the World Wide Web. We will study the languages, protocols, services and tools that enable the web. Emphasis will be placed on basics and technologies.

**Credit Hours:** 3
NEUROSCI 8442: Integrative Neuroscience II
(same as BIO_SC 8442). Organization and function of the nervous system at the systems level to examine processes of behavior and cognition. Graded on A-F basis only.
Credit Hours: 3

NEUROSCI 9090: Thesis Research in Neuroscience
The course is intended primarily for graduate students who are working with mentors in departments that do not offer courses (e.g. Radiology). Graded on A-F basis only.
Credit Hour: 1-6
Prerequisites: Instructor's consent required

Interdisciplinary Studies (INTDSC)

INTDSC 1001: Proseminar in Interdisciplinary Studies
Lecture/discussion survey of time-management, note taking techniques, in the context of the three courses that are part of a Freshman Interest Group. Regular use of library, electronic mail and computing facilities is stressed. Elective credit only; students cannot receive credit for INTDSC 2001 and INTDSC 1001 or INTDSC 1150. Graded on S/U basis only.
Credit Hour: 1

INTDSC 1020: University Freshmen Seminar
(same as SSC 1020). To maximize student's potential to achieve academic success and to adjust responsibly to the individual and interpersonal challenges presented by collegiate life. Attainment of an appropriate balance between personal freedom and social responsibility underlies all seminar activities. No credit for students who have earned credit for AFNR 1115, INTDSC 1001, IS_LT 1110, ED_LPA 3100 or an equivalent first year orientation course at another institution. Credit restrictions that apply to orientation classes apply to this course. Students are not allowed to be enrolled in SSC 1020 and SSC 1150 in the same semester.
Credit Hour: 1
Prerequisites: Restricted to freshman only

INTDSC 1940: Internship
Limited to freshmen/sophomores who are "undecided" or otherwise not accepted into a major. Graded on S/U basis only.
Credit Hour: 0-1

INTDSC 2001: Proseminar in Interdisciplinary Studies
Lecture/discussion survey of a range of issues of special importance for transfer students new to the University. Elective credit only; no credit for INTDSC 1001 and/or SSC 1150. Graded on A-F basis only.
Credit Hour: 1

INTDSC 2942: Internship and Career Exploration in Arts and Science
This course is designed to develop skills required to successfully apply for, and be successful in, internships and employment. Graded on S/U basis only.
Credit Hour: 1

INTDSC 4940: Internship in Interdisciplinary Studies
Internship limited to students pursuing the BA in Interdisciplinary Studies degree. Graded on S/U basis only.
Credit Hour: 1-6
Prerequisites: departmental Consent Required

INTDSC 4942: Arts and Science Internship
Internship limited to students in the College of Arts and Science. Graded on S/U basis only.
Credit Hour: 1-6
Prerequisites: Consent of instructor required

INTDSC 4960: Readings in Interdisciplinary Studies
Independent readings with supervisory faculty member. Open only to Interdisciplinary Studies majors. May be repeated up to a maximum of 6 hours.
Credit Hour: 1-6

INTDSC 4970: Service Learning Project.
Independent readings with supervisory faculty member; Students will engage in service activities, directly relevant to their areas of academic emphasis, in community not-for-profit agencies. At the same time as participants work in the community, they will research their agency and organization, undergo mock employment interviews, create a cover letter and resume based on the professional skills they have gained through their service, and reflect on careers and leadership in public service. Graded on A-F basis only.
Credit Hour: 3-6
Prerequisites: restricted to Interdisciplinary, General Studies and International Studies students

INTDSC 4970W: Service Learning Project. - Writing Intensive
Independent readings with supervisory faculty member; Students will engage in service activities, directly relevant to their areas of academic emphasis, in community not-for-profit agencies. At the same time as participants work in the community, they will research their agency and organization, undergo mock employment interviews, create a cover letter and resume based on the professional skills they have gained through their service, and reflect on careers and leadership in public service.
Credit Hour: 3-6
Prerequisites: restricted to Interdisciplinary, General Studies and International Studies students

INTDSC 4971: Capstone Internship in Interdisciplinary Studies
Internship experience which serves as the student's capstone experience. Program advisor must approve internships. Section 2 of this course will be designated for Service Learning Capstone experience. Graded on S/U basis only.
Credit Hour: 1-6

Internal Medicine (IN_MED)
IN_MED 6002: Medicine Clerkship
Students spend eight weeks on the medicine inpatient service at University Hospital and Harry S. Truman Veterans Hospital where they learn to care for adult patients with acute and chronic illnesses. Teaching emphasizes the principles of differential diagnosis and problem solving as well as the integration of basic science information into the art of patient care. Students also gain clinical experience in medical interviewing and physical examination.
Credit Hours: 8

IN_MED 6012: Rural Medicine Clerkship
Rural Medicine Clerkship
Credit Hours: 8

IN_MED 6022: Springfield Medicine Clerkship
Students learn to care for adult patients with acute and chronic illnesses. Teaching emphasizes the principles of differential diagnosis and problem solving as well as the integration of basic science information into the art of patient care. Students also gain clinical experience in medical interviewing and physical examination.
Credit Hours: 8
Prerequisites: successful completion of the first two years of medical school

IN_MED 6035: SCC Medical Intensive Care
Internists and medical sub-specialists frequently encounter patients with critical conditions that require unique skills. During this rotation medicine students will: 1. Provide assessment, management and follow-up of critically ill patients under the supervision of the medical critical care attending. 2. Be intimately involved in this multidisciplinary approach to patient care. 3. Work collaborative with medical attending physicians, nurses, pharmacists, respiratory therapists and nutritional support staff. 4. Work in a coordinated fashion with consulting physicians and services, social services, physical therapy workers, and the radiology, pathology laboratory departments and chaplain services.
Credit Hours: 5
Prerequisites: Successful completion of IN_MED 6002 or IN_MED 6012 or IN_MED 6022 or IN_MED 6102

IN_MED 6102: Remediation Medicine Clerkship
Enrolled students are those who received an unsatisfactory grade in a Medicine Clerkship at any Mizzou Med location or site. This course allows them the opportunity to rectify a deficiency.
Credit Hours: 8
Prerequisites: IN_MED 6002 Medicine Clerkship, received unsatisfactory grade

IN_MED 6263: ABS Internal Medicine Research
ABS Internal Medicine Research
Credit Hour: 5-10

IN_MED 6265: ABS IN MED RSCH/REVIEW
ABS in Medicine Research Review
Credit Hours: 5

IN_MED 6500: Cardiology Consultation Service
On the inpatient cardiology consultation block, the senior student gains experience in cardiology consultation at either the University Hospital or the Harry S Truman VA Hospital. Through active participation in the consult service the student is provided the opportunity to acquire knowledge of cardiovascular anatomy, physiology, cardiovascular pharmacology, prevention of cardiovascular disease, risk factors for cardiac disease, lipid disorders, chronic coronary artery disease management and its complications, cardiac arrhythmias and conduction abnormalities, hypertension, valvular heart disease, cardiomyopathy, pericardial disease, pulmonary heart disease, peripheral vascular disease, cerebral vascular disease, adult congenital heart disease, and pre- and post-operative assessment of patients with or without cardiac problems. Students will be evaluated using the standard department student elective evaluation form submitted to the Internal Medicine Education Office. Each faculty working with the student will have the opportunity to contribute to the final grade. The final evaluation will be based on student performance on the cardiology consultation service and active participation in the cardiology conferences. Students' skills in performing a history and physical exam, the quality of their presentation, the quality of their knowledge base, the quality of their interactions will constitute the basis of grade assignment.
Credit Hours: 5

IN_MED 6507: Endocrinology/Metabolism
The Endocrinology rotation is designed to enable the student to deal with clinical problems in Diabetes endocrinology and metabolism with particular emphasis on the more common problems in an ambulatory setting. During the rotation the student will have the opportunity to see patients with a wide range of endocrine disorders. These patients will be used as the focus for teaching with the emphasis placed on differential diagnosis, pathophysiology, management, and how the disorder affects the patient as a whole. By the end of the rotation the student should be able to evaluate and manage (with supervision) patients with: 1. Diabetes Mellitus 2. Hypoglycemia 3. Thyroid disorders including goiters, thyroid nodules, hyperthyroidism and hypothyroidism 4. Adrenal disorders including adrenal incidentalomas, Cushing and Hyperaldosteronism 5. Pituitary problems including hypopituitarism, conditions due to pituitary hormone excess that including Cushing's disease, acromegaly and prolactinoma. 6. Calcium abnormalities including hyperparathyroidism, hypoparathyroidism, hypercalcemia, hypocalcaemia and osteoporosis. 7. Polycystic ovarian syndrome. Evaluations: The course grade will be based on students' skill in performing a history and physical exam, the quality of the presentation, the quality of their knowledge base and the quality of their interactions.
Credit Hours: 5

IN_MED 6508: General Internal Medicine Outpatient
General Internal Medicine Outpatient
Credit Hours: 5

IN_MED 6513: Infectious Diseases
The goals of the Infectious Diseases elective will be to: 1. Teach the student how to be an effective consultant. 2. Assist the student in his/her knowledge of disease processes. 3. Help the student improve his/her history taking and physical examination skills. 4. Enhance the student's
knowledge regarding the use of antimicrobial agents. 5. Improve the student's understanding of the diagnosis and management of commonly-encountered infectious diseases with attention to the use of the history and readily available laboratory tests.

Credit Hours: 5

IN_MED 6515: Problems in Medical Ethics
Problems in Medical Ethics
Credit Hours: 5

IN_MED 6800: Coronary Care Unit
During the Coronary Intensive Care Unit rotation, the medical student is provided the opportunity to acquire knowledge in the evaluation and management of acute and chronic coronary artery disease, life threatening cardiac arrhythmia's, acute severe congestive heart failure, acute valvular disease, acute infective endocarditis, hypertensive emergencies, cardiac tamponade, aortic dissection, aortic pulmonary embolism, life threatening complications of cardiac therapy, hypotension, and shock. The Coronary Intensive Care rotation allows the student to evaluate and treat these patients in close conjunction with medical residents, cardiology fellows and cardiology faculty. Students will be evaluated using the standard Department student elective evaluation form submitted to the Internal Medicine Education Office. Each faculty working with the student will have the opportunity to contribute to the final grade. The final evaluation will be based on student performance on the cardiology consultation service and active participation in the cardiology conferences. Students' skills in performing a history and physical exam, the quality of their presentation, the quality of their knowledge base, the quality of their interactions will constitute the basis of grade assignment.

Credit Hours: 5

IN_MED 6801: Diabetes Mellitus Externship
Diabetes Mellitus Externship
Credit Hours: 5

IN_MED 6802: Gastroenterology
Medical students will be assigned to the inpatient GI consultation service, where they will see and evaluate patients, read about their problems, and present them to the GI fellow and/or teaching attending. They should attend all endoscopic procedures on the patients they follow on the inpatient service. They should also attend a sampling of outpatient procedures each week in the Endoscopy Center. As time permits, they may be assigned to one or more GI clinics during the rotation as well. Medical students will be expected to attend all GI conferences during the rotation. Students are also encouraged to attend Internal Medicine Grand Rounds and Internal Medicine Morning Report. They may also be assigned to give one formal presentation during their rotation. It is recommended that they read the entire GI-Liver section of the Internal Medicine textbook that they used on their third-year Internal Medicine Clerkship. Ongoing feedback is provided to the student during the rotation. At the end of the rotation, a formal written evaluation will be prepared by the inpatient attending, in conjunction with the GI fellow with whom the resident/medical student worked with. Conference participation is factored in.

Credit Hours: 5

IN_MED 6803: Subinternship in Internal Medicine
The internal medicine subinternship builds on the skills begun during the internal medicine clerkship and prepares the student for the internship year. 1. Students will refine and further develop skills in: a. Physical exam, history taking, chart review, and written notes; b. Problem list development and management plan; data interpretation and synthesis; c. Oral presentation; d. Interpersonal relations with patients, families, staff and peers; e. Time management i. Self-directed learning ii. Evidence-based medicine 2. Expand knowledge base in general internal medicine 3. Assume primary responsibility for inpatient care 4. Further develop in the role of primary care giver Patient management skills, medical record keeping, presentation skills, knowledge base, and ability to handle responsibility will be carefully observed by both the senior ward resident and the attending physician. Students will receive constructive feedback/suggestions for improvement throughout the rotation from both the attending and the senior ward resident. The attending, with input from the senior ward resident and the third year students, will report the final scores using the Department of Internal Medicine standard electives evaluation form. Students will meet with the attending physician at the end of the block to discuss their performance. Students will not receive elective credit for three weeks rotations.

Credit Hours: 5

IN_MED 6805: Hematology and Medical Oncology Chronic Care
The specific objective of the course is to assist the student in developing a greater understanding for the care of chronically ill patients with hematologic and neoplastic diseases. The student's evaluation is based predominantly on his/her performance in presentation and in written chart notes of patients under the student's care. This evaluation will be by the attending physician with whom the student has worked. The standard department student elective evaluation form will be used to document student performance.

Credit Hours: 5

IN_MED 6806: Immunology/Rheumatology
The overall curricular objectives of this elective include: 1. Basic Information. The student should be able to: a. Perform a medical history and screening physical examination with attention to symptoms and signs of rheumatic disease. Understand the basic pathophysiology and clinical diagnosis of common arthritic and musculoskeletal diseases in adults. b. Understand the natural history of rheumatic diseases, particularly rheumatoid arthritis, soft tissue rheumatism, degenerative joint disease, systemic lupus erythematosus and spondyloarthropathies. c. Understand the short and long term management of rheumatic conditions and apply these principles together with overall clinical judgment in the management of individual patients. These therapeutic measures include: 1. drug therapy, 2. physical rehabilitative measures, and 3. surgical intervention. d. Learn the uses and pitfalls of laboratory tests in practice. e. Formulate ways to approach the emotional problems of patients with chronic disease. 1. Understand the value of the comprehensive approach in arthritis treatment including patient education, the role of the allied health professional and community resources.

Credit Hours: 5

IN_MED 6807: Medical Intensive Care
Under the supervision of the medical critical care attending, the medical students are part of a team providing assessment, management, and follow-up of critically ill patients. Students will be intimately involved in
this multidisciplinary approach to patient care. As a member of the ICU patient management team, the student will work collaboratively with residents, fellows, medical attendings, nurses, pharmacists, respiratory therapists and the nutritional support staff. The team will work in a coordinated fashion with consulting physicians and services, social services, physical therapy workers, and the radiology and pathology laboratory departments, and chaplain services.

**Credit Hours:** 5

**IN_MED 6808: Nephrology Advanced Elective**
This elective builds on the knowledge and skills students have acquired in the third year course in Internal Medicine. Students will have the opportunity to perform histories and physicals, participate in the decision-making process of patient management, and be responsible for daily follow-up in patients with fluid and electrolyte problems, acid-base disturbances, acute and chronic renal failure and a variety of renal diseases. The focus in these areas will be at a much higher level of responsibility and management than in the third-year course.

**Credit Hours:** 5

**IN_MED 6809: Pulmonary Medicine Diagnostic Services**
The Pulmonary Medicine Service is designed to allow students to participate in the diagnosis and care of hospitalized patients with an acute pulmonary problem as well as continuity follow up of existing known disease processes. This service evaluates and assists in management of adult patients at the University or VA Medical Centers. Either rotation includes intensive care unit patients with primary surgical or cardiac diagnoses, the rotation at the VA Medical Center also includes intensive care unit patients with primary medical diagnoses. The rotation will introduce the student to major clinical entities including the diagnosis and management of infectious lung disorders, neoplasms of the lungs, chronic obstructive pulmonary disease, asthma, acute respiratory failure, occupational pulmonary disease and interstitial lung disorders. The student will be introduced to the variety of diagnostic tests including radiographic studies, fiberoptic bronchoscopy, pulmonary function testing, cardiopulmonary exercise testing, surgical lung biopsy, thoracentesis and pleural biopsy, and arterial blood sampling. Students also participate in consultation on patients requiring outpatient pulmonary clinic evaluation. Each student is encouraged to spend extra time in the pulmonary function lab, and have pulmonary function tests and cardiopulmonary exercise tests done on themselves, depending on available time. Each student rotating through the pulmonary service will be expected to evaluate and present patients fully on a daily basis to the pulmonary consult team, including the attending physician. The student will have an opportunity to assist fellows and faculty with procedures such as bronchoscopy and thoracentesis. Students will have the opportunity to interpret pulmonary function tests, chest radiographs and other radiographic studies such as computed tomography and nuclear medicine studies of the thorax.

**Credit Hours:** 5

**IN_MED 6911: Cardiology Procedure Service**
The Cardiology Procedure Service is designed to allow students to participate in the cardiology procedures involved in the diagnosis and care of hospitalized patients with an acute cardiac problem as well as continuity follow up of existing known disease processes. Sterile technique will be taught by the attending and students will demonstrate competence with sterile technique.

**Credit Hours:** 5

**IN_MED 6914: Pulmonary Medicine Procedure Service**
The Pulmonary Medicine Procedure Service is designed to allow students to participate in the pulmonary procedures involved in the diagnosis and care of hospitalized patients with an acute pulmonary problem as well as continuity follow up of existing known disease processes. Sterile technique will be taught by the attending and students will demonstrate competence with sterile technique.

**Credit Hours:** 5

**International Studies (INTL_S)**

**INTL_S 4290: Pre-Departure Seminar for the TaLK Program**
Prior to beginning the TaLK Program in Korea, students will explore Korean language, culture and educational system through seminars and workshops provided by the Asian Affairs Staff and guest speakers. Graded on A-F basis only.

**Credit Hours:** 3

**Prerequisites:** instructor's consent

**INTL_S 4940: Internship in International Studies**
Internship limited to students pursuing the AB in International Studies degree. May be repeated to a maximum of six hours. Graded on S/U basis only.

**Credit Hour:** 1-6

**INTL_S 4960: Readings in International Studies**
Independent readings with supervisory faculty member. Open only to International Studies majors. May be repeated up to a maximum of 6 hours.

**Credit Hour:** 1-6

**Italian (ITAL)**

**ITAL 1100: Elementary Italian I**
Intensive approach to beginning language. Designed to give students an overview of the grammar and syntax of Italian. Emphasis is on oral, with some reading and writing. The 5-hour option is open ONLY to Bachelor of Music students and only with override from the Department. The 5-hour option cannot be applied to meets Arts and Science or Journalism foreign language requirements.

**Credit Hour:** 5-6

**ITAL 1200: Elementary Italian II**
Continues basic grammar and syntax of Italian. Emphasis is on oral, with some reading and writing. The 5-hour option is open ONLY to Bachelor of Music students and only with override from the Department. The 5-hour option cannot be applied to meet Arts and Science or Journalism foreign language requirements.
Credit Hour: 5-6
Prerequisites: Grade in the C range or better in ITAL 1100 or its equivalent

ITAL 2001: Undergraduate Topics in Italian-General
Organized study of selected topics. Subjects and credits may vary from semester to semester. Departmental consent for repetition.
Credit Hour: 1-3

ITAL 2005: Undergraduate Topics in Italian-Humanities/Fine Arts
Organized study of selected topics. Subjects and credits may vary from semester to semester. Departmental consent for repetition.
Credit Hour: 1-3

ITAL 2160: Intermediate Italian
Continues development of language skills acquired in Elementary Italian. While learning new structures and new vocabulary, students also review basic grammar components. By the end of the course, students are able to understand (through reading and listening) and communicate (in writing and orally) in a variety of both formal and informal situations.
Credit Hours: 3
Prerequisites: ITAL 1200

ITAL 2310: Italian Civilization
Open to any student interested. No knowledge of Italian required.
Credit Hours: 3

ITAL 2850: Italian Cinema
(same as FILM_S 2850). A course which concentrates on the development of Italian Cinema, primarily since the Post-WWII era, and the ways in which it reflects major economic, social and political events occurring in Italy. No knowledge of Italian required.
Credit Hours: 3

ITAL 3005: Topics in Italian-Humanities/Fine Arts
Organized study of selected topics. Subjects and earnable credit may vary from semester to semester. Departmental consent for repetition. No knowledge of Italian required.
Credit Hour: 1-3

ITAL 3150: Post-Intermediate Italian
Gives emphasis on acquiring communicative multi-skills competence necessary to understand and discuss a variety of written and aural texts, from newspaper articles to brief literature excerpts. It offers students opportunity to review grammar components as well as learning more complex structures, to expand their vocabulary, and to use language in a variety of cultural contexts.
Credit Hours: 3
Prerequisites: ITAL 2160

ITAL 3160: Italian Composition
Continues the development of the language skills acquired in Intermediate and Post-Intermediate Italian. It offers students the opportunity to expand their vocabulary, to use the language in a variety of contexts prompted by cultural activities, and to acquire more complex grammatical structures. Emphasis is given on refining writing skills in connection with different text types.
Credit Hours: 3
Prerequisites: ITAL 3150

ITAL 3310: 20th Century Italian Fiction in Translation
This course is designed to present American students with a selection of Italian novels aimed at introducing them to some key issues in the historical, social, and literary developments of Italian life from the turn of the century to the 1960s.
Credit Hours: 3

ITAL 3430: Survey of Italian Literature
Designed to expose students to the rich variety of Italian letters. Emphasis will be placed on textual analysis as well as on authors, themes and stylistic features. No knowledge of Italian required.
Credit Hours: 3

ITAL 4070: Intensive Beginning Italian
Designed for rapid acquisition of a reading knowledge of Italian. Cannot be taken to fulfill undergraduate language requirement.
Credit Hours: 3
Prerequisites: instructor's consent

Japanese (JAPNSE)

JAPNSE 1100: Elementary Japanese I
For beginners with no prior knowledge of Japanese. Three hours of lecture instruction and three hours of practice/drill per week in small groups.
Credit Hours: 6

JAPNSE 1200: Elementary Japanese II
Three hours of lecture instruction and three hours of practice/drill per week in small groups.
Credit Hours: 6
Prerequisites: C- or better in JAPNSE 1100, or equivalent

JAPNSE 2160: Japanese Conversation and Composition
Credit Hours: 3
Prerequisites: C- or better in JAPNSE 1200, or equivalent

JAPNSE 2310: Japanese Civilization I
Survey of Japanese culture and arts before 1868. May be taken independently of JAPNSE 2320. No knowledge of Japanese required. No foreign language credit.
Credit Hours: 3

JAPNSE 3085: Problems in Japanese
Supervised study in Japanese language and/or culture.
Credit Hour: 1-3
Prerequisites: instructor's consent

JAPNSE 3160: Intermediate Japanese Composition and Conversation
Further develops oral command of Japanese as well as listening comprehension and further essay writing skills.
Credit Hours: 3
Prerequisites: C- or better in JAPNSE 2160

JAPNSE 3360: Modern Japanese Literature (in Translation)
Surveys Japanese literature from 1868 to present. Analyzes works by such authors as Soseki, Tanizaki, Kawabata, Mishima, Oe, Murakami, and others. Readings and lectures in English.
Credit Hours: 3

JAPNSE 3370: Intermediate Readings in Japanese
Develops reading and speaking skills and acquisition of more Kanji, vocabulary, and complex structures.
Recommended: sophomore standing

JAPNSE 3380: Intermediate Japanese II
Continues development of intermediate reading, listening, speaking, writing skills, with attention to vocabulary acquisition, expansion of knowledge of kanji, and understanding of complex grammatical structures. Authentic readings in Japanese literature, exercises using authentic multi-media materials. Encourages development of student autonomy in language learning with the introduction and use of appropriate reference materials.
Credit Hours: 3
Prerequisites: C- or better in JAPNSE 3160, or equivalent, or instructor's consent

JAPNSE 3850: Traditional Japanese Theatre
Study of the history, scripts, and performance techniques of Japanese theatre from 14th century through late 19th century. Examines major plays (in English translations) and the culture that created them. Looks at staging and performance techniques of traditional puppet theatre. Course included stage performances and performances on campus and/or in the community.
Credit Hours: 3
Prerequisites: sophomore standing or instructor's consent

JAPNSE 3880: Japan and its Cinema
Survey and analysis of selected Japanese films from the 1940s to present. Films will be viewed and discussed in terms of history, techniques, artistry, and social impact. English subtitles. No foreign language credit.
Credit Hours: 3
Prerequisites: sophomore standing or instructor's consent

JAPNSE 4005: Topics in Japanese - Humanities
Organized study of selected topics. Subjects and earnable credit may vary from semester to semester. Suitable for students who have taken JAPNSE 3370 or equivalent.
Credit Hour: 1-3
Prerequisites: instructor's consent, sophomore standing

JAPNSE 4005H: Topics in Japanese - Humanities - Honors
Organized study of selected topics. Subjects and earnable credit may vary from semester to semester. Suitable for students who have taken JAPNSE 3370 or equivalent.
Credit Hour: 1-3
Prerequisites: instructor's consent, sophomore standing; Honors eligibility required

JAPNSE 4160: Advanced Japanese I
Continues development of reading, listening, speaking, writing skills, with attention to vocabulary acquisition, expansion of knowledge of kanji, and understanding of complex grammatical structures. Authentic readings in Japanese literature, exercises using authentic multi-media materials. Encourages development of student autonomy in language learning with the introduction and use of appropriate reference materials.
Credit Hours: 3
Prerequisites: JAPNSE 3380 or equivalent, or instructor's consent

JAPNSE 4180: Advanced Japanese II
This course continues the development of reading, listening, speaking, and writing skills, with attention to vocabulary acquisition, expansion of knowledge of kanji, and understanding of complex grammatical structures. Authentic readings in Japanese literature and exercises using authentic multimedia materials also help students gain greater familiarity with Japanese culture. The course encourages the development of student autonomy in language learning with the introduction and use of appropriate reference materials.
Credit Hours: 3
Prerequisites: JAPNSE 4160

Journalism (JOURN)

JOURN 0900: News Practicum
Instruction in fundamentals of newswriting for students entering the graduate program without an undergraduate degree in journalism.
Credit Hours: 3

JOURN 1000: The News Media: Journalism and Advertising in a Democratic Society
How do you know the media are telling the full truth and nothing but the truth? In this course, you will learn how to decide what information sources to trust. You'll survey the roles played by you, the consumer, as well as by journalists, strategic communicators and advertisers in their relationships with different audiences. Students will weigh the merits of various storytelling methods, uses of social media and revenue models while developing a deeper understanding of the ethical issues facing consumers and journalists in today's fast-paced media environment. Pre-
Journalism and Journalism majors cannot count this course towards the Bachelor of Journalism.

Credit Hours: 3

JOURN 1010: Career Explorations in Journalism
Colloquium in which experts discuss their specialties and answer students’ questions on the nature and current status of their disciplines. Graded on S/U basis only.

Credit Hour: 1
Prerequisites: Undeclared Journalism, Pre-Journalism, or Science and Agricultural Journalism majors only

JOURN 1010H: Career Explorations in Journalism - Honors
Colloquium in which experts discuss their specialties and answer students’ questions on the nature and current status of their disciplines. Graded on S/U basis only.

Credit Hour: 1
Prerequisites: Freshman Journalism and Science and Agricultural Journalism Majors only. Honors Eligibility Required

JOURN 1100: Principles of American Journalism
Course designed to acquaint students with concepts and functions of journalism in American society. Stresses the basic issues and problems facing journalists and the mass media.

Credit Hours: 3
Recommended: For first-time college students a high school core GPA of 3.0 or higher and 15 college credits (dual, AP, IB or other). For current MU students a GPA of 2.75 and 15 college credits

JOURN 1940: Pre-Sequence Internship
Internship for Journalism students who have not yet entered their emphasis areas. Used to satisfy employer requirements. Graded on S/U basis only.

Credit Hour: 0-1
Prerequisites: Consent from internship coordinator required

JOURN 2000: Cross-Cultural Journalism
Cross-Cultural Journalism provides journalistic tools for the coverage of diverse ethnic, gender, ability and ideological groups inside and outside the United States. The critical role of diverse voices in a democracy will be discussed.

Credit Hours: 3
Prerequisites: sophomore standing required; C- or higher in JOURN 1100 and UM GPA of 2.8. Restricted to Undeclared Journalism, Pre-Journalism, Journalism and Science and Agricultural Journalism Students Only

JOURN 2100: News
Introduction to fundamentals of news writing. Lectures, discussions and laboratory work provide training under deadline pressure in writing basic news stories. Stories cover several "live" assignments. May not be taken concurrently with JOURN 2150.

Credit Hours: 3
Prerequisites: sophomore standing, C- or better in JOURN 1100; grade of "B-" or higher in ENGLSH 1000 and 2.8 UM GPA. Restricted to Undeclared Journalism, Pre-Journalism, Journalism and Science and Agricultural Journalism students

JOURN 2100H: News
Introduction to fundamentals of news writing. Lectures, discussions and laboratory work provide training under deadline pressure in writing basic news stories. Stories cover several "live" assignments. May not be taken concurrently with JOURN 2150.

Credit Hours: 3
Prerequisites: sophomore standing, C- or higher in JOURN 1100; grade of "B-" or higher in ENGLSH 1000 and 2.8 UM GPA. Restricted to Undeclared Journalism, Pre-Journalism, Journalism and Science and Agricultural Journalism students. Honors eligibility required

JOURN 2100HW: News - Honors/Writing Intensive
Introduction to fundamentals of news writing. Lectures, discussions and laboratory work provide training under deadline pressure in writing basic news stories. Stories cover several "live" assignments. May not be taken concurrently with JOURN 2150.

Credit Hours: 3
Prerequisites: sophomore standing, C- or higher in JOURN 1100; grade of "B-" or higher in ENGLSH 1000 and 2.8 UM GPA. Restricted to Undeclared Journalism, Pre-Journalism, Journalism and Science and Agricultural Journalism students. Honors eligibility required

JOURN 2100W: News - Writing Intensive
Introduction to fundamentals of news writing. Lectures, discussions and laboratory work provide training under deadline pressure in writing basic news stories. Stories cover several "live" assignments. May not be taken concurrently with JOURN 2150.

Credit Hours: 3
Prerequisites: sophomore standing, C- or higher in JOURN 1100; grade of "B-" or higher in ENGLSH 1000 and 2.8 UM GPA. Restricted to Undeclared Journalism, Pre-Journalism, Journalism and Science and Agricultural Journalism students

JOURN 2150: Fundamentals of Multimedia Journalism
This course deals with the challenges faced by journalists and other communicators working with still photos, audio, video and print. Students learn the basics and ethics of cross-platform, multimedia storytelling. May not be taken concurrently with JOURN 2100. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: C- or higher in JOURN 1100; sophomore standing and a UM GPA of 2.8. Restricted to Undeclared Journalism, Pre-Journalism, Journalism and Science and Agricultural Journalism students only

JOURN 3000: History of American Journalism
American mass media from colonial days to present in the context of social, economic and political change.

Credit Hours: 3
Prerequisites: Junior Standing; Journalism or Science and Agricultural Journalism majors

how chief executive officers of sport and entertainment organizations choose, maintain, or redirect their promotion strategies and activities to help achieve organization missions, encourage tickets sales, and attract large audiences.

**Credit Hours:** 3  
**Prerequisites:** Consent of instructor

**JOURN 4213: Strategic Communication Mobile Sports Production**  
(cross-leveled with JOURN 7213). This class is designed to prepare Strategic Communication students for vital new positions in the world of sports marketing with the emphasis on video productions, strategic planning, and strategic dissemination of video content via multiple media, channels and platforms. Graded on A-F basis only.

**Credit Hours:** 3  
**Prerequisites:** JOURN 4200, JOURN 4204 and JOURN 4952. Restricted to Journalism Strategic Communication and Science and Agricultural Journalism Majors

**JOURN 4216: Media Sales**  
(cross-leveled with JOURN 7216). Focus of this course is to familiarize students with how to sell a variety of media, including newspaper, radio, television, outdoor, new media, and others.

**Credit Hours:** 3  
**Prerequisites:** JOURN 4200, JOURN 4204 and JOURN 4952

**JOURN 4218: MoJo Ad Staff**  
(cross-leveled with JOURN 7218). Application of strategic communication skills in a professional services agency specializing in the youth and young adult segment. Positions include management, planning, creative media and research. Other electives required based on position. Application required. Graded on A-F basis only.

**Credit Hours:** 3  
**Prerequisites:** Consent of Instructor

**JOURN 4220: Creative Portfolio**  
(cross-leveled with JOURN 7220). Students will produce a free-standing collection of outstanding, polished creative work to demonstrate his/her ability to perform at a high level of creativity.

**Credit Hours:** 3  
**Prerequisites:** JOURN 4208 or JOURN 4228. Restricted to Strategic Communication and Science and Agricultural Journalism students only

**JOURN 4224: Effective Job Search Strategies**  
Are you getting ready to apply for a job or internship? A resume is a brief written account of personal, educational, and professional qualifications and experience that you prepare as part of your application materials for a prospective job. To ensure that your resume is read by the recipient, you will need a cover letter that markets your unique qualifications for the specified job description. In the current global economy, it is essential for job seekers to optimize their chances of being considered and hired for positions that are well-suited to their qualifications and interests. This course will help you effectively develop employment application materials for today's job market by honing your resume writing skills, providing you with tools to create an impressive resume (or to improve the one you already have), and giving suggestions on developing an effective cover letter. You will study different types of resume and cover letter formats that can be applied to various prospective employment situations and your own personal career goals. You will undertake a critical assessment of the professional skills you already possess, brainstorm and apply the best ways to market these skills in your resume and cover letter, and enhance your application materials by using specific tips and techniques to make you more competitive for the job you seek. Special focus is placed on developing effective application correspondence, follow-up correspondence and interviewing techniques. Graded on A-F basis only.

**Credit Hours:** 3  
**Prerequisites:** JOURN 4200, JOURN 4204, and JOURN 4952

**JOURN 4226: Strategic Design and Visuals I**  
Course gives students a foundation in visual communication in areas such as typography, balance, eye flow and layouts.

**Credit Hours:** 3  
**Prerequisites:** junior standing. Restricted to Strategic Communications students only

**JOURN 4226H: Strategic Design and Visuals I - Honors**  
Course gives students a foundation in visual communication in areas such as typography, balance, eye flow and layouts.

**Credit Hours:** 3  
**Prerequisites:** Restricted to Strategic Communication students only with junior standing or higher. Honors eligibility required

**JOURN 4228: Strategic Design and Visuals II**  
(cross-leveled with JOURN 7228). Advanced course in strategic design and visuals. Persuasive visual principles applied to variety of integrated media including print, broadcast and on-line. Graded on A-F basis only.

**Credit Hours:** 3  
**Prerequisites:** JOURN 4200, JOURN 4204 and JOURN 4952

**JOURN 4236: Psychology in Advertising**  
(cross-leveled with JOURN 7236). Application of psychological principles, learning, perception, motivation, attitudes to advertising. Emphasis on the increasing use of psychographics (the "lifestyle" factor) to understand consumer wants and buying behavior.

**Credit Hours:** 3  
**Prerequisites:** JOURN 4200, JOURN 4204 and JOURN 4952

**JOURN 4242: Strategic Communication Leadership**  
(cross-leveled with JOURN 7242). Strategic Communication Leadership is aimed at students who are eager to develop their skills and abilities in management and leadership with the likely outcome that they will be leaders in media organizations or as entrepreneurs. Rooted in principles of ethical persuasion and strategic communication, it will help develop individual skills and abilities and the mindset of helping others achieve their goals. Based on the experience and writings of CEO and world-renowned leader David Novak (Strategic Communication alumnus 1974), this is the one of three courses comprising the Leadership Interest Area in Strategic Communication. This course will call on students to commit to the process of their own growth and self discovery and to help foster the growth and development of fellow learners. It will be an intensive experience and, with commitment to the program, will be immediately applicable to the students' current and future personal and professional lives. Graded on A-F basis only.

<td>Strategic Communication Leadership - Writing Intensive</td>
<td>(cross-level with JOURN 7242). Strategic Communication Leadership is aimed at students who are eager to develop their skills and abilities in management and leadership with the likely outcome that they will be leaders in media organizations or as entrepreneurs. Rooted in principles of ethical persuasion and strategic communication, it will help develop individual skills and abilities and the mindset of helping others achieve their goals. Based on the experience and writings of CEO and world-renowned leader David Novak (Strategic Communication alumnus 1974), this is the one of three courses comprising the Leadership Interest Area in Strategic Communication. This course will call on students to commit to the process of their own growth and self-discovery and to help foster the growth and development of fellow learners. It will be an intensive experience and, with commitment to the program, will be immediately applicable to the students' current and future personal and professional lives. Graded on A-F basis only.</td>
<td>3</td>
</tr>
<tr>
<td>JOURN 4248</td>
<td>Media Strategy and Planning</td>
<td>(cross-level with JOURN 7248). Course deals with strategic planning and the selection and evaluation of appropriate media outlets. Students gain a clear understanding of the problems and issues involved in crafting effective media strategies, creative problem solving and selection of appropriate media.</td>
<td>3</td>
</tr>
<tr>
<td>JOURN 4250</td>

</table>
JOURN 4301W: Topics in Journalism - Writing Intensive
Selected current topics in journalism. Specific topics to be announced at time of registration.

Credit Hours: 1-3
Prerequisites: Consent of instructor required

JOURN 4306: Broadcast News II
Introduction to general assignment reporting skills for the newsroom environment. Instruction in time management, writing, storytelling and performance. Team skills and ethnic diversity in the newsroom are discussed. Students begin work for broadcast newsrooms.

Credit Hours: 3
Prerequisites: JOURN 4300

JOURN 4308: Broadcast News III
Intermediate reporting and news writing skills for radio and television. Advanced techniques in the use of video and sound in production of news stories.

Credit Hours: 3
Prerequisites: Consent of instructor required

JOURN 4308W: Broadcast News III - Writing Intensive
Intermediate reporting and news writing skills for radio and television. Advanced techniques in the use of video and sound in production of news stories.

Credit Hours: 3
Prerequisites: Consent of instructor required

JOURN 4310: News Producing

Credit Hours: 1-3
Prerequisites: JOURN 4308

JOURN 4320: Advanced Broadcast Reporting
(cross-leveled with JOURN 7320). In-depth reporting and editing for radio or television; advanced production techniques; emphasis on writing, interviewing, effective use of audio or videotape at KOMU-TV or KBIA.

Credit Hours: 3
Prerequisites: JOURN 4308

JOURN 4328: Advanced News Communication
(cross-leveled with JOURN 7328). This course will examine and practice the components of effective interviewing and on-set and live reporting for television news. Students will anchor KOMU-TV's morning newscasts.

Credit Hours: 1
Prerequisites: Restricted to Journalism and Science and Agricultural Journalism Majors only with Junior Standing or higher

JOURN 4330: From Murrow to Moore: What Good Journalists Read
Introduces undergraduates to seminal works in broadcast and print Journalism that influences contemporary professional practices. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: junior standing or instructor's consent. Restricted to Journalism and Science and Agricultural Journalism majors only

JOURN 4340: Viewing Journalism Films: Images of the Reporter
(cross-leveled with JOURN 7340). The course will examine images of journalists in American films ranging from "Citizen Kane" to the present. Students will analyze award-winning movies that pose key questions about the professional responsibilities of journalists in all fields. Topics will include issues related to the practice of journalism as well as those triggered by the work of specific journalists, such as Woodward and Bernstein.

Credit Hours: 2
Prerequisites: Instructor's consent required

JOURN 4350: Problems in Journalism
Independent research arranged with individual faculty member. Contract must be approved by instructor and dean. Not accepted as a substitute for any regularly scheduled course. Some sections of the course may be offered on either A-F graded or S/U graded basis only.

Credit Hours: 1-3
Prerequisites: Consent of instructor required

JOURN 4350W: Problems in Journalism - Writing Intensive
Independent research arranged with individual faculty member. Contract must be approved by instructor and dean. Not accepted as a substitute for any regularly scheduled course. Some sections of the course may be offered on either A-F graded or S/U graded basis only.

Credit Hours: 1-3
Prerequisites: Consent of instructor required

JOURN 4360: Fundamentals of Design
(cross-leveled with JOURN 7360). This is a beginning course in editorial design. We will study design history and learn basic design principles and concepts in both print and digital platforms. You will be introduced to software programs such as InDesign, Photoshop and Illustrator, as well as basic HTML coding.

Credit Hours: 2
Prerequisites: Consent of instructor required

Recommended: JOURN 2100 or JOURN 2150

JOURN 4370: Film Studies: The Intersections of Documentary Film and Journalism
(same as FILM_S 4370; cross-leveled with FILM_S 7370, JOURN 7370). The popularity of documentary film in the past ten years has skyrocketed, and recent award-winning documentaries such as Inside Job (2010), Blackfish (2013), and The Invisible War (2012) are simultaneously entertaining audiences and investigating serious issues like the financial collapse, killer whale captivity, and sex crimes in the military--issues that in the past might have been covered exclusively by investigative journalism. What explains the public's growing fascination with documentary? How is documentary film reacting to recent
transformations in the media landscape? Is it filling a critical need that journalism is no longer willing or able to meet? This course will explore the intersection of these two nonfiction storytelling forms - documentary film and journalism - and examine the role played by advocacy in both modes, as well as the cultural and ethical implications of the convergence between journalism and documentary film. In that it is centered on contemporary documentary film culture, the course also takes advantage of the True/False Film Festival, and will be host to a conference during Week 6, featuring a number of major visiting filmmakers and film critics. Attendance at some sessions is required. Graded on A-F basis only.

**Credit Hours:** 3

**JOURN 4370W: Film Studies: The Intersections of Documentary Film and Journalism - Writing Intensive**
(same as FILM_S 4370; cross-leveled with FILM_S 7370, JOURN 7370). The popularity of documentary film in the past ten years has skyrocketed, and recent award-winning documentaries such as Inside Job (2010), Blackfish (2013), and The Invisible War (2012) are simultaneously entertaining audiences and investigating serious issues like the financial collapse, killer whale captivity, and sex crimes in the military--issues that in the past might have been covered exclusively by investigative journalism. What explains the public's growing fascination with documentary? How is documentary film reacting to recent transformations in the media landscape? Is it filling a critical need that journalism is no longer willing or able to meet? This course will explore the intersection of these two nonfiction storytelling forms - documentary film and journalism - and examine the role played by advocacy in both modes, as well as the cultural and ethical implications of the convergence between journalism and documentary film. In that it is centered on contemporary documentary film culture, the course also takes advantage of the True/False Film Festival, and will be host to a conference during Week 6, featuring a number of major visiting filmmakers and film critics. Attendance at some sessions is required. Graded on A-F basis only.

**Credit Hours:** 3

**JOURN 4371: Documentary Theory**
(cross-leveled with JOURN 7371). Documentary and other long-form story telling methods involve a complex series of decisions made in the creation of the work that determines its style, length, direction, point of view and more. These and a thousand other editing decisions are the difference between a successful project that touches its audience and one that falls short. The focus of this course is on the craft of editing, as seen in a variety of documentary and other works and explained through the decisions made in and out of the editing room that lead to the final product. The course will introduce important concepts of editing, the work of significant editors in both documentary and narrative fiction films, and seek to apply those techniques to the conceptualization of documentary work students will do as part of their degree. Students will understand the history of documentary editing as it evolved on its own and as influenced by narrative fiction films, the language of editing, the work of important editors and directors and how it influences today's aesthetic and how to apply what they have learned to their own documentary projects at an advanced level. Graded on A-F basis only.

**Credit Hours:** 3

**Prerequisites:** Consent of instructor required

**JOURN 4372: Documentary Reporting**
(cross-leveled with JOURN 7372). Students will learn elementary documentary reporting techniques by producing video and audio content in small group and individual projects. The course focuses on collection of content in the field, interviewing, research, story construction, editing and presentation. Graded on A-F basis only.

**Credit Hours:** 3

**Prerequisites:** Instructor consent

**JOURN 4373: Documentary Development**
(cross-leveled with JOURN 7373). This course will concern itself primarily with the formation of projects: from theories behind different kinds of documentaries, through real world investigations and research into possible projects, into the pitching and writing stage and lastly to the final idea that will be the basis of students' senior films. The ability to properly think of, clearly articulate, pitch and hone a project idea often makes the difference between a successful and unsuccessful final film. Still these ideas don't materialize out of thin air; inspiration for great documentaries can come from many places. Understanding how to seize viable project ideas is a crucial skill for a documentary filmmaker. Graded on A-F basis only.

**Credit Hours:** 3

**Prerequisites:** JOURN 4371

**JOURN 4375: Documentary Business and the Public Sphere**
(cross-leveled with JOURN 7375). Whether it be through contract employment, freelancing, or independent production, creating documentaries requires a knowledge of professional and business practices that differ from many other parts of journalism. The course will introduce important concepts related to the development and production of documentary work, as well as the public distribution of that work. Students will research the industry and develop skills to manage business and professional relationships with the documentary world. Students will build and maintain personal branding materials. Graded on A-F basis only.

**Credit Hours:** 2

**Prerequisites:** JOURN 4564

**JOURN 4377: Documentary Senior Project**
Students in this course will begin work on a yearlong documentary project to be the capstone of their work in the documentary journalism program. This course will concentrate on the research, reporting and field acquisition work for the senior documentary project. Students will show and discuss their work in group settings to share progress and report results. Each will also meet individually with the instructor to fine tune the direction and content of the project. Graded on A-F basis only.

**Credit Hours:** 2

**Prerequisites:** JOURN 4375

**JOURN 4379W: Documentary Senior Capstone - Writing Intensive**
Focus on the completion of a long-form documentary work and its place in current documentary programming. Students will apply knowledge from previous documentary courses in this capstone experience through writing, in-class presentations and their finished work.

**Credit Hours:** 3

**Prerequisites:** JOURN 4377
JOURN 4400: Introduction to News Editing
(cross-leveled with JOURN 7400). Introduces the fundamentals of editing stories and writing headlines for publication online and in print, including an emphasis on style and grammar. Emphasized editing for an online audience.

Credit Hours: 1-2
Prerequisites: Consent of instructor required
Recommended: JOURN 4450 or JOURN 4804

JOURN 4406: Digital News Editing
(cross-leveled with JOURN 7406). Real-world experience in digital editing and news decision-making coupled with newspaper production; emphasis on editing and headline writing across platforms, design for home page and mobile, social media, ethics and fundamentals of grammar. Lab work is hands-on experience at cOLUMBIAMissOURIAN.com and the Missourian newspaper.

Credit Hours: 3
Prerequisites: restricted to Journalism and Science and Agricultural Journalism Majors only

JOURN 4408: Magazine Editing
(cross-leveled with JOURN 7408). Lectures provide an introduction to the magazine industry, including types of publications, roles of an editor and skills needed for today's magazine editor. Labs focus heavily on sentence structure, grammar, syntax, usage, punctuation and style.

Credit Hours: 3
Prerequisites: Consent of instructor required
Recommended: JOURN 4450 or JOURN 4804

JOURN 4410: Intermediate Writing
(cross-leveled with JOURN 7410). In-depth reporting, research, and writing techniques with a magazine focus. Students produce articles for Vox, the Missourian and other magazines, publications or digital outlets.

Credit Hours: 3
Prerequisites: Consent of instructor required
Recommended: JOURN 4450 or JOURN 4804

JOURN 4410W: Intermediate Writing - Writing Intensive
(cross-leveled with JOURN 7410). In-depth reporting, research, and writing techniques with a magazine focus. Students produce articles for Vox, the Missourian and other magazines, publications or digital outlets.

Credit Hours: 3
Prerequisites: Consent of instructor required
Recommended: JOURN 4450 or JOURN 4804

JOURN 4414: Field Reporting on the Food System and Environment
(same as SCI_AG_J 4414). Field reporting on the social, political, scientific, economic and ethical dimensions of the food system and environment, with emphasis on explanatory story-telling. Includes multi-day field trip. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: Consent of instructor required

JOURN 4415: Current Issues in Science Journalism
(same as SCI_AG_J 4415). Focuses on covering the interplay of one or more current issues of concern to journalists, scientists and society. The focus for any given semester may be biotechnology, climate change, energy, food safety, global population growth, wildlife or another issue. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: JOURN 2100 or instructor's consent

JOURN 4416: Science, Health and Environmental Writing
(cross-leveled with JOURN 7416). In this course students learn how to cover science, health and environmental topics by reporting and writing several stories for publication. Students can develop a marketable specialty or cover these angles in any beat. This course can serve as a substitute for JOURN 4410 Intermediate Writing.

Credit Hours: 3
Prerequisites: JOURN 4450 or JOURN 4804

JOURN 4416W: Science, Health and Environmental Writing - Writing Intensive
(cross-leveled with JOURN 7416). In this course students learn how to cover science, health and environmental topics by reporting and writing several stories for publication. Students can develop a marketable specialty or cover these angles in any beat. This course can serve as a substitute for JOURN 4410 Intermediate Writing.

Credit Hours: 3
Prerequisites: JOURN 4450 or JOURN 4804

JOURN 4418: Critical Reviewing
(cross-leveled with JOURN 7418). This course seeks to enrich students' understanding of the arts; support their attendance of concerts, plays, films, and exhibitions; sharpen their skills in critical thinking; and encourage the publication of their reviews in Vox as well as other outlets. Students will analyze the works of critics, gain a general appreciation of the ways to approach each art, and write reviews.

Credit Hours: 3
Prerequisites: JOURN _0900 or JOURN 2100. Restricted to Journalism and Science and Agricultural Journalism majors only

JOURN 4418W: Critical Reviewing - Writing Intensive
(cross-leveled with JOURN 7418). This course seeks to enrich students' understanding of the arts; support their attendance of concerts, plays, films, and exhibitions; sharpen their skills in critical thinking; and encourage the publication of their reviews in Vox as well as other outlets. Students will analyze the works of critics, gain a general appreciation of the ways to approach each art, and write reviews.

Credit Hours: 3
Prerequisites: JOURN _0900 or JOURN 2100. Restricted to Journalism and Science and Agricultural Journalism majors only

JOURN 4420: Editorial Writing

Credit Hours: 3
Prerequisites: JOURN 4450. Restricted to Journalism and Science and Agricultural Journalism majors only.

JOURN 4422: Sports Journalism
(cross-leveled with JOURN 7422). A review of everything from "how to watch Sports" to the history of sports writing. Contact instructor for consent on this course. Priority will be given to Sports Journalism students. All other consent will be given on a first-come, first-serve basis as space allows. Course graded on A-F basis only.

Credit Hours: 3
Prerequisites: Consent of instructor required
Recommended: JOURN 4450/JOURN 7450 or JOURN 4804/JOURN 7804 or JOURN 4306/JOURN 7306 or JOURN 4560/JOURN 7560.
Priority will be given to Sports Journalism students. All other consent will be given on a first-come, first-served basis as space allows.

JOURN 4424: Covering Traumatic Events
(cross-leveled with JOURN 7424). This course will prepare reporters and future newsroom managers across platforms for the ethical, practical and emotional challenges of reporting accurately and sensitively on traumatic events. It will give students a deeper understanding of the psychological impact of such events, including natural and man-made disasters, violent crime, accidents, terrorism and war. The course will explore how news coverage affects individuals and communities, and the psychological challenges and ethical hazards for the journalists who cover these events, with a focus on best newsroom practices for managing fast-breaking news stories and mitigating the effects on communities and staffs. The course will also explore the challenges of technology in the context of traumatic events and how social media have affected coverage of and response to crime, war and disasters. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: JOURN 4450 or JOURN 7450; JOURN 4804 or JOURN 7804; or JOURN 4560 or JOURN 7560.

JOURN 4426: Religion Reporting and Writing
(same as REL_ST 4418). Advanced seminar in religion reporting and writing. Examines the role of religion journalism in faith, public life and culture.

Credit Hours: 3
Prerequisites: JOURN 4450 or JOURN 4804

JOURN 4428: Health Reporting Skills
This course focuses on research and analysis techniques journalists use to understand and report on health policy, health-care quality, medical research and the business of health care. Graded on A-F basis only.

Credit Hour: 2-3
Prerequisites: Consent of Instructor required. Recommended JOURN 4450 or JOURN 4306 or JOURN 4804

JOURN 4430: Computer-Assisted Reporting
How to negotiate for, transfer and process electronic information; the unique opportunities computers provide for analyzing information.

Credit Hours: 3
Prerequisites: Restricted to Journalism and Science and Agricultural Journalism majors only. Junior Standing

JOURN 4432: Advanced Data Journalism
(cross-leveled with JOURN 7432). Teaches students how to creatively solve problems in journalism using computer programming. Students will learn how to code using the Python language, and how to apply those coding skills to perform real-world tasks. Students will learn the concepts, theory and practical programming skills needed to clean data, scrape web sites and turn databases into interactive online experiences. By the end of the semester, students will have learned the skills to create interactive database presentations, and will have created a functional web app that will serve as a portfolio piece. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: JOURN 4430
Recommended: JOURN 4502

JOURN 4434: The Art and Mechanics of the Business Story
The purpose of this course is to give students a deep understanding of business journalism and for them to apply those skills in a real newsroom, Missouri Business Alert. The class will cover everything from audience to financials, and students will leave the class with several work samples to show potential employers.

Credit Hours: 3
Prerequisites: Journalism and Science and Agricultural Journalism majors only; JOURN 4450 or JOURN 7450, or JOURN 4306 or JOURN 7306, or JOURN 4804 or JOURN 7804, or JOURN 4556 or JOURN 7556

JOURN 4436: Investigative Reporting
Advanced course designed to acquaint reporters with public issues. Students write two in-depth projects and other shorter assignments. Students meet weekly with instructor for editorial suggestions.

Credit Hours: 3
Prerequisites: Consent of instructor required

JOURN 4438: Business and Economics Reporting
Advanced reporting course concentrating on writing and reporting about business and the economy. Emphasis on sources, records, documents and writing techniques.

Credit Hours: 3
Prerequisites: JOURN 4408 and JOURN 4410 or JOURN 4506

JOURN 4444: Team-Based Mobile Device Application Development
(same as INFOTC 4500). This is a multi-disciplinary, team-based course on developing applications for mobile devices. Teams will be comprised of students who are software developers and students who are designers. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: JOURN 4804 or JOURN 4204 or JOURN 4306 or JOURN 4450

JOURN 4450: News Reporting
Assignments on a daily city newspaper covering community news, city, county and state affairs, sports and lifestyle issues. Experience in gathering and writing news, writing under deadline conditions.

Credit Hours: 3
Prerequisites: JOURN 2100
JOURN 4450W: News Reporting - Writing Intensive
Assignments on a daily city newspaper covering community news, city, county and state affairs, sports and lifestyle issues. Experience in gathering and writing news, writing under deadline conditions.
Credit Hours: 3
Prerequisites: JOURN 2100

JOURN 4460: Advanced News Reporting
(cross-leveled with JOURN 7460). Assignments to more difficult beat areas, team reporting and some investigative reporting for community newspaper. Individual conferences and weekly class sessions on contemporary reporting problems.
Credit Hours: 3
Prerequisites: JOURN 4450

JOURN 4460W: Advanced News Reporting - Writing Intensive
(cross-leveled with JOURN 7460). Assignments to more difficult beat areas, team reporting and some investigative reporting for community newspaper. Individual conferences and weekly class sessions on contemporary reporting problems.
Credit Hours: 3
Prerequisites: JOURN 4450

JOURN 4462: Emerging Technologies in Journalism
This course quickly responds to technology developments in journalism through a combination of theory, practice and research. Students learn to use the developing technology and also strategies to manage its impact on media organizations while expanding academic discourse. May be repeated for credit. Graded on A-F basis only.
Credit Hours: 1-3
Prerequisites: junior standing; restricted to Journalism and Science and Agricultural Journalism students only

JOURN 4464: Magazines Across Platforms
(cross-leveled with JOURN 7464). As digital editors for Vox Magazine, students manage and create content for Vox's digital platforms, including its WordPress website, blog, social media accounts and award-winning iPad app. Students also work with analytics, engagement and multimedia. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: Consent of instructor required
Recommended: JOURN 4450 or JOURN 4804

JOURN 4480: Will Write for Food (and Wine)
(same as SCI_AG_J 4480; cross-leveled with JOURN 7480). Course focuses on food and wine writing in current U.S. culture. Come ready to create mouthwatering narrative and actively seek publishing your finished work. An emphasis will be placed on class participation and written critiques of peer-reviewed articles in class. This course can serve as a substitute for JOURN 4410 Intermediate Writing. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: Consent of instructor required
Recommended: JOURN 4450 or JOURN 4804

JOURN 4480W: Will Write for Food (and Wine) - Writing Intensive
(same as SCI_AG_J 4480; cross-leveled with JOURN 7480). Course focuses on food and wine writing in current U.S. culture. Come ready to create mouthwatering narrative and actively seek publishing your finished work. An emphasis will be placed on class participation and written critiques of peer-reviewed articles in class. This course can serve as a substitute for JOURN 4410 Intermediate Writing. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: Consent of instructor required
Recommended: JOURN 4450 or JOURN 4804

JOURN 4482: Field Reporting: Wine Country Writing
(same as SCI_AG_J 4482). Students will examine wine culture, agricultural issues in the vineyard, wine trends, the historical context of wine and Missouri settlement, and more. Come ready to shape articles into sharp focus and make them fresh with input from fellow student critiques. Graded on A-F basis only. Prerequisites: JOURN 2100
Credit Hours: 3

JOURN 4482W: Field Reporting: Wine Country Writing - Writing Intensive
(same as SCI_AG_J 4482). Students will examine wine culture, agricultural issues in the vineyard, wine trends, the historical context of wine and Missouri settlement, and more. Come ready to shape articles into sharp focus and make them fresh with input from fellow student critiques. Graded on A-F basis only. Prerequisites: JOURN 2100
Credit Hours: 3

JOURN 4500: Publication Design
(cross-leveled with JOURN 7500). Intermediate design techniques and theories of editorial design. Students apply classroom teachings by designing pages for the Columbia Missourian and Vox Magazine. Students work under deadline and learn attention-to-detail through use and execution of design style guides.
Credit Hours: 3
Prerequisites: Consent of instructor required
Recommended: JOURN 4360

JOURN 4502: Multimedia Planning and Design
Class covers the basics of web design - Storyboarding, navigation, information architecture, reader behavior, usability studies - as they relate to journalistic stories and persuasive messages.
Credit Hours: 3
Prerequisites: Consent of instructor required
Recommended: Completion of one of the following--JOURN 4804 or JOURN 4508 or JOURN 4406 or JOURN 4506 or JOURN 4204 or JOURN 4306 or OURN 4450 or JOURN 4560

JOURN 4506: Magazine Design
Introduction to typography of magazines from manuscript markup through layout to page proof. Extensions and limitations of typography are considered in light of current practice and economic possibilities.
Credit Hours: 3
Prerequisites: Restricted to Journalism and Science and Agricultural Journalism majors only
JOURN 4508: Information Graphics
Work as a news artist for a daily city newspaper graphically covering community news, sports and lifestyle issues. Emphasis on visual thinking and effective presentation. Experience with state-of-the-art software.
Credit Hours: 3
Prerequisites: JOURN 4450 or JOURN 4804

JOURN 4510: Visual Communication
How to communicate through pictures. Topics: visual perception, vocabulary, the role of words, picture editing, design and layout, printers, taste and judgment, camera mechanics. For journalism students who are not photographers.
Credit Hours: 3
Prerequisites: Restricted to Journalism and Science and Agricultural Journalism majors only with Junior standing

JOURN 4550: Basic Photography and Photo Editing
A basic survey for non-photojournalism majors and others with no prior experience who desire a working knowledge of photojournalistic theory and practice.
Credit Hours: 3
Prerequisites: instructor's consent. Restricted to Journalism and Science and Agricultural Journalism majors only

JOURN 4554: Visual Editing for Multimedia
This class develops understanding of multimedia storytelling by focusing on editing, production, and business model practices for online visual journalism. It builds on a foundation of digital editing, photojournalism, photo editing, videography, and multimedia production. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: JOURN 4804 or JOURN 4550 or JOURN 4306 or JOURN 4406 or JOURN 4506 and instructor's consent; restricted to Journalism and Science and Agricultural Journalism students only

JOURN 4556: Fundamentals of Photojournalism
A rigorous skills course for advanced students preparing for a career in photojournalism consisting of weekly exercises in black and white and color photographic storytelling and lectures that explore the philosophical, historical and ethical roots of the profession.
Credit Hours: 3
Prerequisites: instructor's consent

JOURN 4556W: Fundamentals of Photojournalism - Writing Intensive
A rigorous skills course for advanced students preparing for a career in photojournalism consisting of weekly exercises in black and white and color photographic storytelling and lectures that explore the philosophical, historical and ethical roots of the profession.
Credit Hours: 3
Prerequisites: instructor's consent

JOURN 4558: Advanced Techniques in Photojournalism
Credit Hours: 3
Prerequisites: JOURN 4556

JOURN 4560: Staff Photojournalism
(cross-leveled with JOURN 7560). A laboratory course exploring the photojournalist's role in the news-gathering process. As staffers for the Columbia Missourian, students cover news, sports, features, food assignments and originate single pictures and stories.
Credit Hours: 3
Prerequisites: Consent of Instructor Required
Recommended: JOURN 4558

JOURN 4562: Photojournalism Business Practices
Discusses legal, financial, organizational and entrepreneurial issues for photojournalists. Graded on A-F basis only.
Credit Hours: 2
Prerequisites: JOURN 4558 or JOURN 7558 and JOURN 4566 or JOURN 7566 or consent of instructor; junior standing; restricted to Journalism and Science and Agricultural Journalism students only

JOURN 4564: Micro-Documentary Photojournalism and Videography
This course extends student's understanding and abilities to produce short-form video journalism. They will produce, from concepts to web publication, two five-minute non-fiction videos that serves the public through engaging visual sound techniques and compelling narrative. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: JOURN 4558 or JOURN 4306 or JOURN 4804

JOURN 4566: Electronic Photojournalism
Concepts and skills to incorporate photographs, audio and video for interactive presentation, with an emphasis on project design and coding for web and mobile devices. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: JOURN 4556 and instructor's consent

JOURN 4568: History of Photojournalism
Examination of the aesthetic and technological development of photography from its invention in 1839 to the present. Primary emphasis on the evolution and impact of the picture press and the documentary tradition in America, although international developments are studied as well.
Credit Hours: 3
Prerequisites: Journalism and Science and Agricultural Journalism majors only with Junior standing

JOURN 4568W: History of Photojournalism - Writing Intensive
Examination of the aesthetic and technological development of photography from its invention in 1839 to the present. Primary emphasis on the evolution and impact of the picture press and the documentary tradition in America, although international developments are studied as well.
Credit Hours: 3
Prerequisites: Journalism and Science and Agricultural Journalism majors only with Junior standing

<td>(cross-leveled with JOURN 7718). Lectures, readings, discussions, writing assignments relating to justice system reporting from the view of attorneys, prosecutors, judges, correction and probation officers with the cooperation of the Missouri Bar.</td>
</tr>
<tr>
<td>JOURN 4734</td>
<td>Journalism and Chaos: How to Understand and Cover 21st Century Business Models</td>
<td>The purpose of this class is to explore alternative business/journalism models that can be grown from the rib of the traditional newsroom. Graded on A-F basis only.</td>
</tr>
</tbody>
</table>
**Prerequisites:** Restricted to Journalism and Science and Agricultural Journalism majors only

**JOURN 4738: Language, Thought and Journalism**
This online course helps you, as S.I. Hayakawa wrote, "to think more clearly, to speak and to write more effectively, and to listen and to read with greater understanding." It explores the biases and limitations of language, culture, technology and other factors as applied to the practice of journalism and mass communications.

**Credit Hours:** 3  
**Prerequisites:** Restricted to Journalism and Science and Agricultural Journalism majors only

---

**JOURN 4804: Convergence Reporting**
(cross-leveled with JOURN 7804). Practice and theory of reporting for converged media. Students produce multimedia reports for traditional and converged media operations. Graded on A-F basis only.

**Credit Hours:** 3  
**Prerequisites:** Restricted to Convergence, Print and Digital, Photojournalism, and Magazine students, and Science and Agricultural Journalism students

---

**JOURN 4804W: Convergence Reporting - Writing Intensive**
(cross-leveled with JOURN 7804). Practice and theory of reporting for converged media. Students produce multimedia reports for traditional and converged media operations. Graded on A-F basis only.

**Credit Hours:** 3  
**Prerequisites:** Restricted to Convergence, Print and Digital, Photojournalism, and Magazine students, and Science and Agricultural Journalism students

---

**JOURN 4806: Convergence Editing and Producing**
(cross-leveled with JOURN 7806). Practice and theory of editing and producing material for publication or broadcast in a converged environment. Students produce media for multiple outlets. Graded on A-F basis only.

**Credit Hours:** 3  
**Prerequisites:** JOURN 4306 or JOURN 4804 or JOURN 4450

---

**JOURN 4810: Advanced Global Converged News**
(cross-leveled with JOURN 7810). Internet news services offers real-world newsroom experience synthesizing worldwide news coverage and revealing alternative perspectives on current events. Graded on A-F basis only.

**Credit Hours:** 3  
**Prerequisites:** instructor consent required

---

**JOURN 4812: Online Audience Development**
You're already using social media every day - but are you using it in the most effective way possible? In Online Audience Development students will explore, envision and evaluate the possibilities of social media integration in news production workflows. We'll experiment with emerging social platforms to see how they might fit in a newsroom's social media and branding playbook. You will also exercise, develop and improve on all the journalism skills practiced in previous classes: researching, reporting, editing, producing, proofreading, photo editing and design. The big difference? This time you'll be reporting on our newsrooms in order to help create deeper connections with the audience. Graded on A/F basis only.

**Credit Hours:** 3  
**Prerequisites:** JOURN 4560 or JOURN 4804 or JOURN 4306 or JOURN 4450 or instructor consent. Restricted to Journalism and Science and Agricultural Journalism majors only

---

**JOURN 4814: Multimedia Sports Journalism**
(cross-leveled with JOURN 7814). Assignments on a daily regional website and radio station covering sports with converged media. Experience in reporting game and feature stories under deadline conditions. Graded on A-F basis only.

**Credit Hours:** 3  
**Prerequisites:** Instructor's consent required

---

**JOURN 4818: Strategic Campaigns**
(cross-leveled with JOURN 7970). This capstone course, gives students a hands-on opportunity to use their skills and apply strategic communication learning to a real client situation. To be taken final semester. Application required for Mojo Ad section and will include additional leadership responsibilities.

**Credit Hours:** 3  
**Prerequisites:** Consent of Instructor required

---

**JOURN 4950: Understanding Audiences**
Focuses on the recipients of journalistic efforts by teaching students to identify, analyze and address media audiences. Students will learn a variety of research methods and gain hands-on experience with audience analysis through team-based practical projects.

**Credit Hours:** 3  
**Prerequisites:** JOURN 2000 and junior standing. Strategic Communication students may not enroll in this entry level research course

---

**JOURN 4952: Strategic Communication Research I**
(cross-leveled with JOURN 7952). Introduction to techniques and practice of strategic communication research. Emphasis on research techniques and use of research results, including consumer analysis, attitude measurement and evaluation of externally supplied research.

**Credit Hours:** 3  
**Prerequisites:** Restricted to Strategic Communication and Science and Agricultural Journalism Majors

---

**JOURN 4970: Strategic Campaigns**
(cross-leveled with JOURN 7970). This capstone course, gives students a hands-on opportunity to use their skills and apply strategic communication learning to a real client situation. To be taken final semester. Application required for Mojo Ad section and will include additional leadership responsibilities.

**Credit Hours:** 3  
**Prerequisites:** Consent of Instructor required

---

**JOURN 4970W: Strategic Campaigns - Writing Intensive**
(cross-leveled with JOURN 7970). This capstone course, gives students a hands-on opportunity to use their skills and apply strategic communication learning to a real client situation. To be taken final
semester. Application required for Mojo Ad section and will include additional leadership responsibilities.

Credit Hours: 3
Prerequisites: Consent of Instructor required

JOURN 4972: Photo and Visual Editing
An advanced visual editing course. Primary work is as a photo/multimedia editor on the Columbia Missourian photo desk. You collaborate on daily and semester projects and are assigned specific leadership roles.

Credit Hours: 3
Prerequisites: JOURN 4408 or JOURN 4204 or JOURN 4500 or JOURN 4560

JOURN 4974: Advanced Internet Applications for Radio/TV News
Integration of advanced Internet research and publishing skills with production and management of the KOMU-TV/KBIA Radio World Wide Web news service.

Credit Hours: 3
Prerequisites: JOURN 4306

JOURN 4976: Seminar in Radio/TV News
Seminar in network and local news process, in coverage of major issues and social problems, in relationships of radio-TV news and government institutions.

Credit Hours: 3
Prerequisites: Consent of instructor required

JOURN 4978: Media Management and Leadership
Dramatic changes in technology and the media's role in converging technologies require new management and leadership techniques and paradigms. Students will write case examining these changes.

Credit Hours: 3
Prerequisites: JOURN 4306 or JOURN 4804. Restricted to Journalism and Science and Agricultural Journalism majors only

JOURN 4980: The Picture Story and Photographic Essay
Production of photo stories/essays for newspapers, magazines and news media presentations. Research, photography, design and layout. Final portfolio will show journalistic strength and versatility in black and white, and color.

Credit Hours: 3
Prerequisites: JOURN 4560

JOURN 4984: Magazine Staff
(cross-leveled with JOURN 7984). This course provides hands-on experience serving as an editor on a magazine staff. Students are department editors for Vox Magazine and learn how to take a story from an idea through story creation and production and to the printed page, as well as best practices for executing that idea across multiple platforms. Students learn about pitching, working with writers, designers and photographers, editing for content and style, successful story packaging and team collaboration.

Credit Hours: 3
Prerequisites: Consent of instructor required

Recommended: JOURN 4408 and JOURN 4410 or JOURN 4412 or JOURN 4416 or JOURN 4480

JOURN 4986: Advanced Writing
(cross-leveled with JOURN 7986). This course builds on the in-depth, reporting, research, and writing techniques of Intermediate Writing and other writing and reporting classes. It is designed for those who wish to pursue writing as a career. Students complete writing assignments and analyze the work of well-known magazine and book authors.

Credit Hours: 3
Prerequisites: Consent of instructor required
Recommended: JOURN 4410 or JOURN 4412 or JOURN 4416 or JOURN 4480

JOURN 4986W: Advanced Writing - Writing Intensive
(cross-leveled with JOURN 7986). This course builds on the in-depth, reporting, research, and writing techniques of Intermediate Writing and other writing and reporting classes. It is designed for those who wish to pursue writing as a career. Students complete writing assignments and analyze the work of well-known magazine and book authors.

Credit Hours: 3
Prerequisites: Consent of instructor required
Recommended: JOURN 4410 or JOURN 4412 or JOURN 4416 or JOURN 4480

JOURN 4988: Advanced Publication Design
(cross-leveled with JOURN 7988). Project-based capstone in which skills learned in previous courses are applied to professional-level design challenges, such as feature, cover or iPad designs; multimedia prototypes; special editions; or other applications for Vox Magazine, Columbia Missourian, or other outlets.

Credit Hours: 3
Prerequisites: Consent of instructor required
Recommended: JOURN 4500

JOURN 4988W: Advanced Publication Design
(cross-leveled with JOURN 7988). Project-based capstone in which skills learned in previous courses are applied to professional-level design challenges, such as feature, cover or iPad designs; multimedia prototypes; special editions; or other applications for Vox Magazine, Columbia Missourian, or other outlets.

Credit Hours: 3
Prerequisites: Consent of instructor required
Recommended: JOURN 4500

JOURN 4990: Journalism and Democracy
This course seeks to cultivate critical-thinking skills by helping students synthesize and apply knowledge gained from a journalism education to the evaluation of news media performance in a democratic society.

Credit Hours: 3
Prerequisites: Consent of instructor required
Recommended: JOURN 4450
JOURN 4990W: Journalism and Democracy - Writing Intensive
This course seeks to cultivate critical-thinking skills by helping students synthesize and apply knowledge gained from a journalism education to the evaluation of news media performance in a democratic society.

Credit Hours: 3
Prerequisites: Consent of instructor required
Recommended: JOURN 4450

JOURN 4992: Reporting, Editing and Marketing of Converged Media
Capstone course brings together the reporting, editing, management and marketing skills gained in previous convergence courses. Students plan, produce, promote and evaluate journalistic content and applications. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: Consent of instructor required

JOURN 4992W: Reporting, Editing and Marketing of Converged Media - Writing Intensive
Capstone course brings together the reporting, editing, management and marketing skills gained in previous convergence courses. Students plan, produce, promote and evaluate journalistic content and applications. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: Consent of instructor required

JOURN 4994: Magazine Publishing
(cross-leveled with JOURN 7994). This capstone experience explores key components and recent trends in the magazine industry. The primary focus is creating a magazine prototype that includes conceptualizing ideas and editorial for new titles, as well as business plans for advertising, circulation, finance and production. The course follows a nuts and bolts, learn-by-doing approach to how these components work together and influence one another. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: JOURN 4408 and either JOURN 4410 or equivalent, or JOURN 4360 or 4500. Restricted to Journalism and Science and Agricultural Journalism majors only

JOURN 7000: Communications Law
Legal concepts, including prior restraint, libel, privacy, obscenity, contempt and access as they relate to print, broadcast, advertising and other areas.

Credit Hours: 3

JOURN 7050: Communications Practice
Special instruction in the school's media as an extension of existing advanced media courses, or, in advertising, an extension of advertising creative courses. Contract must be approved by instructor and dean. Some sections of the course may be offered on either A-F or S/U graded basis only.

Credit Hour: 1-3
Prerequisites: Study Abroad sections require consent by International Program. Obtain consent in 76 Gannett

JOURN 7122: Fundamentals of Data Reporting
(cross-leveled with JOURN 4122). Explores the importance to journalists of mining public records and data; reviews basic newsroom mathematics; teaches basic techniques for using Microsoft Excel to create and manipulate spreadsheets and to produce graphics. Graded on A-F basis only. This course is not to be taken by students who have already completed JOURN 4430 or JOURN 7430. Restricted to Graduate Journalism students.

Credit Hour: 1

JOURN 7126: Digital Audio and Visual Basics for Journalists
Introduces journalism students to audio and video tools used in converged environments. Students will create news stories, ads or promos to meet journalistic or strategic communication goals.

Credit Hour: 1

JOURN 7130: Account Services
(cross-leveled with JOURN 4130). Designed for advanced strategic communication students preparing for careers in account services. Section topics vary.

Credit Hour: 1

JOURN 7138: Public Relations Techniques
(cross-leveled with JOURN 4138). Designed for advanced strategic communication students preparing for careers in public relations. Section topics vary.

Credit Hour: 1

JOURN 7140: Interactive Techniques
(cross-leveled with JOURN 4140). Designed for advanced strategic communications students preparing for careers in interactive media. Section topics may vary.

Credit Hour: 1

JOURN 7146: Strategic Communication Techniques
(cross-leveled with JOURN 4146). Designed for advanced strategic communication students. Section topics vary. Graded on A-F basis only.

Credit Hour: 1

JOURN 7148: Interviewing Essentials
(cross-leveled with JOURN 4148). This class focuses on the journalistic interviewing process, from identifying and gaining access to the best sources, setting ethical boundaries, asking the most effective questions and ensuring accuracy. It applies to the full range of story types, from breaking news to in-depth work in all coverage areas.

Credit Hour: 1
Prerequisites: Consent of instructor required

JOURN 7150: Using Infographics
An introduction to the various types of information graphics and how each can be used effectively to help explain the news. Additional emphasis on generating graphic ideas and on the specific challenges of gathering information for graphics.

Credit Hour: 1
**Prerequisites:** Instructor's consent required

**JOURN 7152: Concepts in Participatory Journalism**
Journals need to know how to be in conversation with their communities rather than to lecture to them. In this course, we will look at how a collaborative culture is changing journalism, and how journalists can take advantage of the new landscape. Graded on A-F basis only.

**Credit Hours:** 3  
**Prerequisites:** JOURN 2100, JOURN 2150

**JOURN 7198: Area Seminar**
Special lectures, readings, discussions relating to the urban journalism, state government reporting or local public affairs reporting programs.

**Credit Hours:** 3

**JOURN 7200: Principles of Strategic Communication**
This course will teach you about strategic writing and design, and then show you how to apply these skills to key communication platforms such as digital media, TV, radio, social media and others. Along the way, you will learn to think, write and design creatively and strategically. Graded on A-F basis only.

**Credit Hours:** 3  
**Prerequisites:** Restricted to Journalism Strategic Communication and Science and Agriculture Journalism Majors

**JOURN 7204: Introduction to Strategic Writing and Design**
This course will teach you about strategic writing and design, and then show you how to apply these skills to key communication platforms such as digital media, TV, radio, social media and others. Along the way, you will learn to think, write and design creatively and strategically. Graded on A-F basis only.

**Credit Hours:** 3  
**Prerequisites:** Restricted to Journalism Strategic Communication and Science and Agriculture Journalism Majors

**JOURN 7206: Strategic Writing I**
This course will teach you about strategic writing and design, and then show you how to apply these skills to key communication platforms such as digital media, TV, radio, social media and others. Along the way, you will learn to think, write and design creatively and strategically. Graded on A-F basis only.

**Credit Hours:** 3  
**Prerequisites:** JOURN 4200, JOURN 4226, JOURN 4952

**JOURN 7208: Strategic Writing II**
Advanced course in the creation of advertising and public relations materials with an emphasis on strategic planning, developing creative concepts, producing and polishing copy and visuals, execution of finished product and refining. Graded on A-F basis only.

**Credit Hours:** 3  
**Prerequisites:** JOURN 4200, JOURN 4204 and JOURN 4952

**JOURN 7212: Sports and Entertainment Promotion**
Course focuses on the role that research, sponsorship, advertising, public relations, social media, positioning, target marketing, psychographics, and other strategic communication processes play in the promotion of the sports and entertainment industry. The course will critically analyze and examine how chief executive officers of sport and entertainment organizations choose, maintain, or redirect their promotion strategies and activities to help achieve organization missions, encourage tickets sales, and attract large audiences.

**Credit Hours:** 3  
**Prerequisites:** Consent of instructor

**JOURN 7213: Strategic Communication Mobile Sports Production**
This class is designed to prepare Strategic Communication students for vital new positions in the world of sports marketing with the emphasis on video productions, strategic planning, and strategic dissemination of video content via multiple media, channels and platforms. Graded on A-F basis only.

**Credit Hours:** 3  
**Prerequisites:** Restricted to Journalism Graduate Students

**JOURN 7216: Media Sales**
Focus of this course is to familiarize students with how to sell a variety of media including newspaper, radio, television, outdoor, new media, and others.

**Credit Hours:** 3  
**Prerequisites:** Restricted to Journalism Strategic Communication and Science and Agricultural Journalism Majors

**JOURN 7218: Mojo Ad Staff**
Application of strategic communication skills in a professional services agency specializing in the youth and young adult segment. Positions include management, planning, creative media and research. Other electives required based on position. Application required. Graded on A-F basis only.

**Credit Hours:** 3  
**Prerequisites:** Consent of Instructor

**JOURN 7220: Creative Portfolio**
Students will produce a free-standing collection of outstanding, polished creative work to demonstrate his/her ability to perform at a high level of creativity.

**Credit Hours:** 3  
**Prerequisites:** core courses and JOURN 4208 or JOURN 4220 and JOURN 4952

**JOURN 7222: Strategic Design and Visuals II**
Advanced course in strategic design and visuals. Persuasive visual principles applied to variety of integrated media including print, broadcast and on-line. Graded on A-F basis only.

**Credit Hours:** 3  
**Prerequisites:** JOURN 4200, JOURN 4204 and JOURN 4952

**JOURN 7236: Psychology in Advertising**
Application of psychological principles, learning, perception, motivation, attitudes to advertising. Emphasis on the increasing use of psychographics (the "lifestyle" factor) to understand consumer wants and buying behavior.

**Credit Hours:** 3  
**Prerequisites:** JOURN 4200 or JOURN 7200, JOURN 4952 or JOURN 7952, JOURN 4204 or JOURN 7204
JOURN 7242: Strategic Communication Leadership
(cross-leveled with JOURN 4242). Strategic Communication Leadership is aimed at students who are eager to develop their skills and abilities in management and leadership with the likely outcome that they will be leaders in media organizations or as entrepreneurs. Rooted in principles of ethical persuasion and strategic communication, it will help develop individual skills and abilities and the mindset of helping others achieve their goals. Based on the experience and writings of CEO and world-renowned leader David Novak (Strategic Communication alumnus 1974), this is the one of three courses comprising the Leadership Interest Area in Strategic Communication. This course will call on students to commit to the process of their own growth and self-discovery and to help foster the growth and development of fellow learners. It will be an intensive experience and, with commitment to the program, will be immediately applicable to the students’ current and future personal and professional lives. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: Journalism Graduate students only

JOURN 7248: Media Strategy and Planning
(cross-leveled with JOURN 4248). Course deals with strategic planning and the selection and evaluation of appropriate media outlets. Students gain a clear understanding of the problems and issues involved in crafting effective media strategies, creative problem solving and selection of appropriate media.

Credit Hours: 3
Prerequisites: JOURN 4200 or JOURN 7200, JOURN 4952 or JOURN 7592, JOURN 4204 or JOURN 7204. Restricted to Journalism graduate students

JOURN 7250: Management of Strategic Communication
(cross-leveled with JOURN 4250). How to lead and contribute to strategically sound, highly creative and seamlessly integrated strategic communication on the agency or client side of the business. Directly relevant to agency account management and account planning, as well as client career paths.

Credit Hours: 3
Prerequisites: Consent of Instructor required

JOURN 7252: Branded Strategic Storytelling
(cross-leveled with JOURN 4252). This course for Strategic Communication students integrates digital and content marketing planning and operational methodologies designed to deepen students’ knowledge of content creation, distribution strategies and audience engagement. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: JOURN 4200/JOURN 7200, JOURN 4204/JOURN 7204 and JOURN 4952/JOURN 7952. Restricted to Journalism Strategic Communication and Science and Agricultural Journalism Majors

JOURN 7256: Public Relations
Current methods of communicating with constituents as practiced by agencies, corporations and government/not-for-profit organizations.

Credit Hours: 3
Prerequisites: JOURN 4200

JOURN 7262: Digital Strategy I
(cross-leveled with JOURN 4262). Course covers every step from integrating Internet efforts into the overall strategic communication plan to building a website that works. Designed for those with an interest in interactive advertising. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: JOURN 7200, JOURN 7204 and JOURN 7952

JOURN 7263: Digital Strategy II
(cross-leveled with JOURN 4263). Course goes in-depth on top issues in the interactive process from video advertising to social networking sites and how to increase campaign performance with web analytics. Designed for those who want a career in interactive advertising. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: JOURN 7262. Restricted to Journalism Graduate students

JOURN 7268: Strategic Communication Practicum
(cross-leveled with JOURN 4268) Practical experience in public relations, corporate communications and strategic planning with the Missouri School of Journalism serving as client. Students from all journalism disciplines will apply knowledge and skills on a variety of platforms.

Credit Hours: 3
Prerequisites: JOURN 4200 or JOURN 7200, JOURN 4204 or JOURN 7204 and JOURN 4952 or JOURN 7952

JOURN 7270: Public Relations Writing
(cross-leveled with JOURN 4270). Develop skills and capabilities in strategic communication applications, including news releases, media advisories, pitch letters, video news releases, media relations techniques, writing for electronic and broadcast media, feature writing, brochures and speeches. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: Consent of instructor

JOURN 7300: Broadcast News I
Beginning reporting and news writing for radio, television and their online services. Introduction to use of audio and video recorders and editing systems in production of news stories. Consideration of ethical issues, economic factors, relationships with news sources and gender and ethnic diversity in the newsroom and in news stories.

Credit Hours: 3
Prerequisites: JOURN 2100

JOURN 7301: Topics in Journalism
Selected current topics in journalism. Specific topics to be announced at time of registration.

Credit Hour: 1-3

JOURN 7306: Broadcast News II
Introduction to general assignment reporting skills for the newsroom environment. Instruction in time management, writing, storytelling and performance. Team skills and ethnic diversity in the newsroom are discussed. Students begin work for broadcast newsrooms.
JOURN 7308: Broadcast News III
Intermediate reporting and news writing skills for radio and television. Advanced techniques in the use of video and sound in production of news stories.

Credit Hours: 3
Prerequisites: JOURN 4300 or JOURN 7300

JOURN 7310: News Producing

Credit Hour: 1-3
Prerequisites: JOURN 4308 or JOURN 7308

JOURN 7320: Advanced Broadcast Reporting
(cross-leveled with JOURN 4320). In-depth reporting and editing for radio or television; advanced production techniques; emphasis on writing, interviewing, effective use of audio or videotape at KOMU-TV or KBIA.

Credit Hours: 3
Prerequisites: JOURN 4308 or JOURN 7308

JOURN 7328: Advanced News Communication
(cross-leveled with JOURN 4328). This course will examine and practice the components of effective interviewing and on-set and live reporting for television news. Students will anchor KOMU-TV’s morning newscasts.

Credit Hour: 1
Prerequisites: JOURN 4306 or JOURN 7306

JOURN 7340: Viewing Journalism Films: Images of the Reporter
(cross-leveled with JOURN 4340). The course will examine images of journalists in American films ranging from "Citizen Kane" to the present. Students will analyze award-winning movies that pose key questions about the professional responsibilities of journalists in all fields. Topics will include issues related to the practice of journalism as well as those triggered by the work of specific journalists, such as Woodward and Bernstein.

Credit Hours: 2
Prerequisites: Instructor’s consent required

JOURN 7350: Problems in Journalism
Independent research arranged with individual faculty member. Contract must be approved by instructor and dean. Not accepted as a substitute for any regularly scheduled course. Some sections of the course may be graded on either A-F or S/U basis only.

Credit Hour: 1-3

JOURN 7360: Fundamentals of Design
(cross-leveled with JOURN 4360). This is a beginning course in editorial design. We will study design history and learn basic design principles and concepts in both print and digital platforms. You will be introduced to software programs such as InDesign, Photoshop and Illustrator, as well as basic HTML coding.

Credit Hours: 3
Prerequisites: Instructor consent

JOURN 7370: The Intersections of Documentary Film and Journalism
(same as FILM_S 7370; cross-leveled with JOURN 4370). The popularity of documentary film in the past ten years has skyrocketed, and recent award-winning documentaries such as Inside Job (2010), Blackfish (2013), and The Invisible War (2012) are simultaneously entertaining audiences and investigating serious issues like the financial collapse, killer whale captivity, and sex crimes in the military-issues that in the past might have been covered exclusively by investigative journalism. What explains the public’s growing fascination with documentary? How is documentary film reacting to recent transformations in the media landscape? Is it filling a critical need that journalism is no longer willing or able to meet? This course will explore the intersection of these two nonfiction storytelling forms—documentary film and journalism—and examine the role played by advocacy in both modes, as well as the cultural and ethical implications of the convergence between journalism and documentary film. In that it is centered on contemporary documentary film culture, the course also takes advantage of the True/False Film Festival, and will be host to a conference during Week 6, featuring a number of major visiting filmmakers and film critics. Attendance at some sessions is required. Graded on A-F basis only.

Credit Hours: 2
Prerequisites: Consent of instructor required
Recommended: JOURN 2100 or 2150

JOURN 7371: Documentary Theory
(cross-leveled with JOURN 4371). Documentary and other long-form story telling methods involve a complex series of decisions made in the creation of the work that determines its style, length, direction, point of view and more. These and a thousand other editing decisions are the difference between a successful project that touches its audience and one that falls short. The focus of this course is on the craft of editing, as seen in a variety of documentary and other works and explained through the decisions made in and out of the editing room that lead to the final product. The course will introduce important concepts of editing, the work of significant editors in both documentary and narrative fiction films, and seek to apply those techniques to the conceptualization of documentary work students will do as part of their degree. Students will understand the history of documentary editing as it evolved on its own and as influenced by narrative fiction films, the language of editing, the work of important editors and directors and how it influences today’s aesthetic and how to apply what they have learned to their own documentary projects at an advanced level. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: JOURN 4360 or JOURN 7360
Corequisites: JOURN 7564
Recommended: JOURN 7370

JOURN 7372: Documentary Reporting
(cross-leveled with JOURN 4372). Students will learn elementary documentary reporting techniques by producing video and audio content in small group and individual projects. The course focuses on collection of content in the field, interviewing, research, story construction, editing and presentation. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: JOURN 4300 or JOURN 7300
JOURN 7373: Documentary Development
(cross-leveled with JOURN 4373). This course will concern itself primarily with the formation of projects: from theories behind different kinds of documentaries, through real world investigations and research into possible projects, into the pitching and writing stage and lastly to the final idea that will be the basis of students’ senior films. The ability to properly think of, clearly articulate, pitch and hone in on a project idea often makes the difference between a successful and unsuccessful final film. Still these ideas don't materialize out of thin air; inspiration for great documentaries can come from many places. Understanding how to seize viable project ideas is a crucial skill for a documentary filmmaker. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: JOURN 7371

JOURN 7375: Documentary Business and the Public Sphere
(cross-leveled with JOURN 4375). Whether it be through contract employment, freelancing, or independent production, creating documentaries requires a knowledge of professional and business practices that differ from many other parts of journalism. The course will introduce important concepts related to the development and production of documentary work, as well as the public distribution of that work. Students will research the industry and develop skills to manage business and professional relationships with the documentary world. Students will build and maintain personal branding materials. Graded on A-F basis only.

Credit Hours: 2
Prerequisites: JOURN 7564

JOURN 7400: Introduction to News Editing
(cross-leveled with JOURN 4400). Introduces the fundamentals of editing of stories and writing headlines for publication online and in print, including an emphasis on style and grammar. Emphasized editing for an online audience.

Credit Hours: 3
Prerequisites: Consent of instructor required

JOURN 7406: Digital News Editing
(cross-leveled with JOURN 4406). Real-world experience in digital editing and news decision-making coupled with newspaper production; emphasis on editing and headline writing across platforms, design for home page and mobile, social media, ethics and fundamentals of grammar. Lab work is hands-on experience at cOLUMBiAmissourian.com and the Missourian newspaper.

Credit Hours: 3

JOURN 7408: Magazine Editing
(cross-leveled with JOURN 4408). Lectures provide an introduction to the magazine industry, including types of publications, roles of an editor and skills needed for today’s magazine editor. Labs focus heavily on sentence structure, grammar, syntax, usage, punctuation and style.

Credit Hours: 3
Prerequisites: Consent of instructor required
Recommended: JOURN 4450 or JOURN 4804

JOURN 7410: Intermediate Writing
(cross-leveled with JOURN 4410). In-depth reporting, research, and writing techniques with a magazine focus. Students produce articles for Vox, the Missourian and other magazines, publications or digital outlets.

Credit Hours: 3
Prerequisites: JOURN 4450 or JOURN 7450 or JOURN 4804 or JOURN 7804. Restricted to Journalism majors only

JOURN 7414: Field Reporting on the Food System and Environment
(same as SCI_AG_J 7414) Field reporting on the social, political, scientific, economic and ethical dimensions of the food system and environment, with emphasis on explanatory story-telling. Includes multi-day filed trip. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: instructor's consent required

JOURN 7416: Science, Health and Environmental Writing
(cross-leveled with JOURN 4416). In this course students learn how to cover science, health and environmental topics by reporting and writing several stories for publication. Students can develop a marketable specialty or cover these angles in any beat. This course can serve as a substitute for JOURN 7410 Intermediate Writing.

Credit Hours: 3
Prerequisites: JOURN 4450 or JOURN 7450 or JOURN 4804 or JOURN 7804

JOURN 7418: Critical Reviewing
(cross-leveled with JOURN 4418). This course seeks to enrich students’ understanding of the arts; support their attendance of concerts, plays, films, and exhibitions; sharpen their skills in critical thinking; and encourage the publication of their reviews in Vox as well as other outlets. Students will analyze the works of critics, gain a general appreciation of the ways to approach each art, and write reviews.

Credit Hours: 3
Prerequisites: JOURN _0900 or JOURN 2100

JOURN 7420: Editorial Writing

Credit Hours: 3

JOURN 7422: Sports Journalism
(cross-leveled with JOURN 4422). A review of everything from "How to Watch Sports" to the history of sports writing.

Credit Hours: 3
Recommended: JOURN 4450/JOURN 7450 or JOURN 4804/JOURN 7804 or JOURN 4306/JOURN 7306 or JOURN 4560/JOURN 7560. Priority will be given to Sports Journalism students. All other consent will be give on a first-come first-served basis as space allows

JOURN 7424: Covering Traumatic Events
(cross-leveled with JOURN 4424). This course will prepare reporters and future newsroom managers across platforms for the ethical, practical and
emotional challenges of reporting accurately and sensitively on traumatic events. It will give students a deeper understanding of the psychological impact of such events, including natural and man-made disasters, violent crime, accidents, terrorism and war. The course will explore how news coverage affects individuals and communities, and the psychological challenges and ethical hazards for the journalists who cover these events, with a focus on best newsroom practices for managing fast-breaking news stories and mitigating the effects on communities and staffs. The course will also explore the challenges of technology in the context of traumatic events and how social media have affected coverage of and response to crime, war and disasters. Graded on A-F basis only.

Credit Hours: 3  
Prerequisites: JOURN 4450 or JOURN 7450; JOURN 4804 or JOURN 7804; or JOURN 4560 or JOURN 7560

JOURN 7426: Religion Reporting and Writing  
(same as REL_ST 7418). Advanced seminar in religion reporting and writing. Examines the role of religion journalism in faith, public life and culture.

Credit Hours: 3  
Prerequisites: JOURN 4450 or JOURN 7450 or its equivalent in professional writing experience and instructor's consent

JOURN 7428: Health Reporting Skills  
This course focuses on reporting, sourcing and analysis techniques journalists use to understand and report on health policy, health-care quality, medical research and the business of health care. Graded on A-F basis only.

Credit Hour: 2-3  
Prerequisites: JOURN 4450 or JOURN 7450, JOURN 4306 or JOURN 7306, or JOURN 4804 or JOURN 7804 and instructor's consent

JOURN 7430: Computer-Assisted Reporting  
How to negotiate for, transfer and process electronic information; the unique opportunities computers provide for analyzing information.

Credit Hours: 3

JOURN 7432: Advanced Data Journalism  
(cross-leveled with JOURN 4432). Teaches students how to creatively solve problems in journalism using computer programming. Students will learn how to code using the Python language, and how to apply those coding skills to perform real-world tasks. Students will learn the concepts, theory and practical programming skills needed to clean data, scrape web sites and turn databases into interactive online experiences. By the end of the semester, students will have learned the skills to create interactive database presentations, and will have created a functional web app that will serve as a portfolio piece.

Credit Hours: 3  
Prerequisites: JOURN 4430  
Recommended: JOURN 4502

JOURN 7434: The Art and Mechanics of the Business Story  
The purpose of this course is to give students a deep understanding of business journalism and for them to apply those skills in a real newsroom, Missouri Business Alert. The class will cover everything from audience to financials, and students will leave the class with several work samples to show potential employers. Those classes include: JOURN 4450 or JOURN 7450; JOURN 4306 or JOURN 7306; JOURN 4804 or JOURN 7804; JOURN 4556 or JOURN 7556.

Credit Hours: 3  
Prerequisites: Journalism Graduate students who have passes a newsroom reporting class (or its equivalent)

JOURN 7436: Investigative Reporting  
Advanced course designed to acquaint reporters with public issues. Students write two in-depth projects and other shorter assignments. Students meet weekly with instructor for editorial suggestions.

Credit Hours: 3  
Prerequisites: JOURN 4450 or JOURN 7450 and instructor's consent

JOURN 7438: Business and Economics Reporting  
Advanced reporting course concentrating on writing and reporting about business and the economy. Emphasis on sources, records, documents and writing techniques.

Credit Hours: 3  
Prerequisites: JOURN 4408 or JOURN 7408 and JOURN 4410 or JOURN 7410 or JOURN 4506 or JOURN 7506

JOURN 7440: Mapping for Stories and Graphics  
Learn mapping software to discover information for news stories and lay the foundations for compelling news information graphics. Students will learn how to create maps for print, broadcast and online. Graded on A-F basis only.

Credit Hours: 2  
Prerequisites: JOURN 2100 and instructor's consent

JOURN 7450: News Reporting  
Assignments on a daily city newspaper covering community news, city, county and state affairs, sports and lifestyle issues. Experience in gathering and writing news, writing under deadline conditions.

Credit Hours: 3

JOURN 7460: Advanced News Reporting  
(cross-leveled with JOURN 7460). Assignments to more difficult beat areas, team reporting, and some investigative reporting for community newspaper. Individual conferences and weekly class sessions on contemporary reporting problems.

Credit Hours: 3  
Prerequisites: JOURN 4450 or JOURN 7450

JOURN 7462: Emerging Technologies in Journalism  
This course quickly responds to technology developments in journalism through a combination of theory, practice and research. Students learn to use the developing technology and also strategies to manage its impact on media organizations while expanding academic discourse. May be repeated for credit. Graded A-F basis only.

Credit Hour: 1-3
JOURN 7464: Magazines Across Platforms
(cross-leveled with JOURN 4464). As digital editors for Vox Magazine, students manage and create content for Vox's digital platforms, including its WordPress website, blog, social media accounts and award-winning iPad app. Students also work with analytics, engagement and multimedia. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: Consent of instructor required
Recommended: JOURN 4450 or JOURN 7450 or JOURN 4804 or JOURN 7804

JOURN 7480: Will Write for Food (and Wine)
(cross-leveled with SCI_AG_J 4480). Course focuses on food and wine writing in current U.S. culture. Come ready to create mouthwatering narrative and actively seek publishing your finished work. An emphasis will be placed on class participation and written critiques of peer-reviewed articles in class. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: Junior standing, instructor's consent and JOURN 4450. Restricted to Journalism and Science Agriculture Journalism students only

JOURN 7500: Publication Design
(cross-leveled with JOURN 4500). Intermediate design techniques and theories of editorial design. Students apply classroom teachings by designing pages for the Columbia Missourian and Vox Magazine. Students work under deadline and learn attention-to-detail through use of execution of design style guides.

Credit Hours: 3
Prerequisites: JOURN 4360 and instructor's consent. Restricted to Journalism Graduate students only

JOURN 7502: Multimedia Planning and Design
Class covers the basics of web design - Storyboarding, navigation, information architecture, reader behavior, usability studies - as they relate to journalistic stories and persuasive messages. Prerequisites: Completion of one of the following: JOURN 4804, JOURN 4508, JOURN 4406, JOURN 4506, JOURN 4204, JOURN 4306, JOURN 4450 or JOURN 4560; or by instructor's consent.

Credit Hours: 3
Prerequisites: JOURN 4360 and instructor's consent. Restricted to Journalism Graduate students only

JOURN 7506: Magazine Design
Introduction to typography of magazines from manuscript markup through layout to page proof. Extensions and limitations of typography are considered in light of current practice and economic possibilities.

Credit Hours: 3

JOURN 7508: Information Graphics
Work as a news artist for a daily city newspaper graphically covering community news, sports and lifestyle issues. Emphasis on visual thinking and effective presentation. Experience with state-of-the-art software.

Credit Hours: 3
Prerequisites: JOURN 4450 or JOURN 7450 or the professional equivalent, or instructor's consent

JOURN 7510: Visual Communications
How to communicate through pictures. Topics: visual perception, vocabulary, the role of words, picture editing, design and layout, printers, taste and judgment, camera mechanics. For journalism students who are not photographers.

Credit Hour: 2-3

JOURN 7554: Visual Editing for Multimedia
This class develops understanding of multimedia storytelling by focusing on editing, production, and business model practices for online visual journalism. It builds on a foundation of digital editing, photojournalism, photo editing, videography, and multimedia production. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: JOURN 4804 or JOURN 4550 or JOURN 4306 or JOURN 4406 or JOURN 4506 and instructor's consent; restricted to Journalism and Science Agriculture Journalism students only

JOURN 7556: Fundamentals of Photojournalism
A rigorous skills course for advanced students preparing for a career in photojournalism consisting of weekly exercises in black and white and color photographic story telling and lectures that explore the philosophical, historical and ethical roots of the profession.

Credit Hours: 3
Prerequisites: instructor's consent required

JOURN 7558: Advanced Techniques in Photojournalism

Credit Hours: 3

JOURN 7559: Visual Editing for Multimedia
This class develops understanding of multimedia storytelling by focusing on editing, production, and business model practices for online visual journalism. It builds on a foundation of digital editing, photojournalism, photo editing, videography, and multimedia production. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: JOURN 4804 or JOURN 4550 or JOURN 4306 or JOURN 4406 or JOURN 4506 and instructor's consent; restricted to Journalism and Science Agriculture Journalism students only

JOURN 7560: Staff Photojournalism
(cross-leveled with JOURN 4560). A laboratory course exploring the photojournalist's role in the news-gathering process. As staffers for the Columbia Missourian, students cover news, sports, features, food assignments and originate single pictures and stories.

Credit Hours: 3
Prerequisites: JOURN 4556 or JOURN 7556

JOURN 7562: Photojournalism Business Practices
Discusses legal, financial, organizational and entrepreneurial issues for photojournalists. Graded on A-F basis only.

Credit Hours: 2
Prerequisites: JOURN 4558 or JOURN 7558 and JOURN 4566 or JOURN 7566, or instructor's consent required. Restricted to graduate Journalism majors only

JOURN 7564: Micro-Documentary Photojournalism and Videography
This course extends students' understanding and abilities to produce short-form video journalism. They will produce, from concept to web publication, two five-minute non-fiction videos that serves the public
through engaging visual sound techniques and compelling narrative. Graded on A/F basis only.

Credit Hours: 3
Prerequisites: JOURN 4558 or JOURN 7558 or JOURN 4306 or JOURN 7306 or JOURN 4804 or JOURN 7804 or consent of instructor. Restricted to Journalism or Science and Agricultural Journalism students only

JOURN 7566: Electronic Photojournalism
Concepts and skills to incorporate photographs, audio and video for interactive presentation, with an emphasis on project design and coding for web and mobile devices. Graded on A-F basis.

Credit Hours: 3
Prerequisites: JOURN 4556 or JOURN 7556 and instructor's consent required

JOURN 7568: History of Photojournalism
Examination of the aesthetic and technological development of photography from its invention in 1839 to the present. Primary emphasis on the evolution and impact of the picture press and the documentary tradition in America, although international developments are studied as well.

Credit Hours: 3

JOURN 7650: International Issues Reporting
An advanced professional seminar on how to recognize, report and write about the domestic influence of international political, economic and cultural problems and trends.

Credit Hours: 3
Prerequisites: JOURN 4450 or JOURN 7450

JOURN 7656: International News Media Systems
A comparative survey of current news media systems and how they affect the international flow of information. Newspapers, news agencies, broadcasting and satellite networks of the world are analyzed.

Credit Hours: 3

JOURN 7658: International Journalism
An examination of the gathering, editing and dissemination of international news. The impact of social, economic, cultural and political structures on news media performance is evaluated.

Credit Hours: 3

JOURN 7660: Media Forces Shaping the European Union
Seminar analyzes the role of media in shaping policies and actions of the European Union member nations and their people. Open to graduate students regardless of major and to undergraduates with instructor's consent. Course qualifies for EU Certificate Program.

Credit Hours: 3

JOURN 7662: Global News Across Platforms
(cross-leveled with JOURN 4662). Online, radio, and print production for a converged media enterprise, Global Journalist. Students report, write, plan, edit, design, and produce a video and radio program and website on international news while working under weekly deadlines.

Credit Hours: 3

JOURN 7700: Participatory Journalism
(cross-leveled with JOURN 4700). An examination of how information is shared outside professional journalism, and how journalists can interact with communities. Topics will include community collaboration, social media, audience outreach and understanding, and an expanding definition of "news." Students will work with the community on behalf of the Missourian. All interest areas welcome.

Credit Hour: 1-3
Prerequisites: Instructor's consent

JOURN 7706: The Community Newspaper
The role of the newspaper in the community. Handling of news categories especially applicable to smaller newspaper. Field trips giving students experience in publishing newspapers in the state.

Credit Hours: 3
Prerequisites: JOURN_0900 and JOURN 2100

JOURN 7716: Women and the Media
(same as WGST 7716; cross-leveled with JOURN 4716, WGST 4716). Focus on portrayal of women in American mass media. Other goals: historical perspective on women as journalists; exposure to issues usually not covered by mass media; research and writing skills.

Credit Hours: 3
Prerequisites: Instructor's consent required

JOURN 7718: Law and the Justice System
(cross-leveled with JOURN 4718). Lectures, readings, discussions, writing assignments relating to justice system reporting from the view of attorneys, prosecutors, judges, correction and probation officers, with the cooperation of the Missouri Bar.

Credit Hours: 3
Prerequisites: JOURN_0900 or JOURN 2100

JOURN 7734: Journalism and Chaos: How to Understand and Cover 21st Century Business Models
The purpose of this class is to explore alternative business/journalism models that can be grown from the rib of the traditional newsroom.

Credit Hours: 3
Prerequisites: Restricted to Journalism and Agricultural Journalism students only

JOURN 7736: Changing Media Business Models
Analysis of the economic changes in news media. Explore concepts and theories of monetizing media. Hands-on experience in creating innovations in media business models.

Credit Hours: 3

JOURN 7738: Thought, Language and Journalism
This seminar uses the methods of science to explore and better understand the biases and limitations of language, culture, technology and other factors shaping the semantic environment as applied to the practice of journalism and mass communications studies.
JOURN 7802: Fundamentals of TV, Radio and Photojournalism
Skills, theory and ethics of broadcast news and photojournalism for non-broadcast majors. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: JOURN 2100

JOURN 7804: Convergence Reporting
(cross-leveled with JOURN 4804). Practice and theory of reporting for converged media. Students produce multimedia reports for traditional and converged media operations. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: JOURN 7802 or instructor's consent

JOURN 7806: Convergence Editing and Producing
(cross-leveled with JOURN 4806). Practice and theory of editing and producing material for publication or broadcast in a converged environment. Students produce media for multiple outlets. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: JOURN 4306 or JOURN 7306 or JOURN 4804 or JOURN 7804

JOURN 7810: Advanced Global Converged News
(cross-leveled with JOURN 4810). Internet news services offers real-world newsroom experience synthesizing world wide news coverage and revealing alternative perspectives on current events. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: instructor's consent required

JOURN 7812: Online Audience Development
(cross-leveled with JOURN 4812). You're already using social media every day - but are you using it in the most effective way possible? In Online Audience Development students will explore, envision and evaluate the possibilities of social media integration in news production workflows. We'll experiment with emerging social platforms to see how they might fit in a newsroom's social media and branding playbook. You will also exercise, develop and improve on all the journalism skills practiced in previous classes: researching, reporting, editing, producing, proofreading, photo editing and design. The big difference? This time you'll be reporting on our newsrooms in order to help create deeper connections with the audience. Graded A-F basis only.
Credit Hours: 3
Prerequisites: Instructor's consent required

JOURN 7814: Multimedia Sports Journalism
Assignments on a daily regional website and radio station covering sports with converged media. Experience in reporting game and feature stories under deadline conditions. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: JOURN 4306 or JOURN 7306, or JOURN 4450 or JOURN 7450, or JOURN 4804 or JOURN 7804, or JOURN 4556 or JOURN 7556 or JOURN 4560 or JOURN 7560. Restricted to Journalism and Science and Agricultural Journalism students only. Instructor's consent required

JOURN 7940: Internship in Journalism
Credit for approved employment in journalism. Specifications for this course appear in the Undergraduate Catalog. Graded on S/U basis only.
Credit Hours: 1-6
Prerequisites: Restricted to Journalism students only

JOURN 7970: Strategic Campaigns
(cross-leveled with JOURN 4970). This capstone course gives students a hands-on opportunity to use their skills and apply strategic communication learning to a real client situation. To be taken final semester. Application required for Mojo Ad section and will include additional leadership responsibilities.
Credit Hours: 3
Prerequisites: JOURN 4204 or JOURN 7204

JOURN 7972: Photo and Visual Editing
An advanced visual editing course. Primary work is as a photo/multimedia editor on the Columbia Missourian photo desk. Your collaborate on daily and semester projects and are assigned specific leadership roles.
Credit Hours: 3
Prerequisites: JOURN 4408 or JOURN 7408 or JOURN 4204 or JOURN 7204 or JOURN 4500 or JOURN 7500 or JOURN 4560 or JOURN 7560

JOURN 7974: Advanced Internet Applications for Radio/TV News
Integration of advanced Internet research and publishing skills with production and management of the KOMU-TV/KBIA Radio World Wide Web news service.
Credit Hours: 3
Prerequisites: JOURN 4306 or JOURN 7306

JOURN 7976: Seminar in Radio-TV News
Seminar in network and local news process, in coverage of major issues and social problems, in relationships of radio-TV news and government institutions. Not for students who have taken JOURN 8096.
Credit Hours: 3
Prerequisites: JOURN 4306; instructor's consent required

JOURN 7978: Media Management and Leadership
Dramatic changes in technology and the media's role in converging technologies require new management and leadership techniques and paradigms. Students will write case examining these changes.
Credit Hours: 3
Prerequisites: JOURN 4306 or JOURN 4804

JOURN 7980: The Picture Story and Photographic Essay
Production of photo stories/essays for newspapers, magazines and news media presentations. Research, photography, design and layout. Final portfolio will show journalistic strength and versatility in black and white, and color.
Credit Hours: 3
Prerequisites: JOURN 4560 or JOURN 7560
JOURN 7984: Magazine Staff
(cross-leveled with JOURN 4984). This course provides hands-on experience serving as an editor on a magazine staff. Students are department editors for Vox Magazine and learn how to take a story from an idea through story creation and production and to the printed page, as well as best practices for executing that idea across multiple platforms. Students learn about pitching, working with writers, designers and photographers, editing for content and style, successful story packaging and team collaboration.

Credit Hours: 3
Prerequisites: JOURN 4410 or JOURN 7410, JOURN 4408 or JOURN 7408

JOURN 7986: Advanced Writing
(cross-leveled with JOURN 4986). This course builds on the in-depth, reporting, research, and writing techniques of Intermediate Writing and other writing and reporting classes. It is designed for those who wish to pursue writing as a career. Students complete writing assignments and analyze the work of well-known magazine and book authors.

Credit Hours: 3
Prerequisites: JOURN 4410 or JOURN 7410 or equivalent. Restricted to Journalism students only

JOURN 7988: Advanced Publication Design
(cross-leveled with JOURN 4988). Project-based capstone in which skills learned in previous courses are applied to professional-level design challenges, such as feature, cover or iPad designs; multimedia prototypes; special editions; or other applications for Vox Magazine, Columbia Missourian or other outlets.

Credit Hours: 3
Prerequisites: Consent of instructor required
Recommended: JOURN 4500 or JOURN 7500

JOURN 7994: Magazine Publishing
(cross-leveled with JOURN 4994). This capstone experience explores key components and recent trends in the magazine industry. The primary focus is creating a magazine prototype that includes conceptualizing ideas and editorial for new titles, as well as business plans for advertising, circulation, finance and production. The course follows a nuts and bolts, learn-by-doing approach to how these components work together and influence one another.

Credit Hours: 3
Prerequisites: JOURN 4408 or JOURN 7410 or either JOURN 4410 or 7410 or equivalent, or JOURN 4360 or JOURN 7360 or JOURN 4500 or JOURN 7500. Restricted to Journalism students only

JOURN 8000: Mass Media Seminar
Concepts, functions and major problems of print and electronic media in the United States. Two hours lecture and one hour of discussion lab each week.

Credit Hours: 3

JOURN 8001: Seminar on Topics in Journalism
Problems, issues and approaches to research in selected topic areas. Specific content varies by needs of faculty and students and will be announced in advance.

Credit Hours: 3

JOURN 8006: Quantitative Research Methods in Journalism
Research methods of utility in journalism and philosophy of science. Emphasis on understanding common quantitative methods and tools.

Credit Hours: 3
Prerequisites: six hours of journalism or instructor's consent

JOURN 8008: Qualitative Research Methods in Journalism
Course is designed to introduce graduate students to common qualitative approaches applicable to the study of journalism and mass communication. Students will learn a variety of approaches, practical methodologies and tools that will help them conduct research.

Credit Hours: 3

JOURN 8010: Advanced Qualitative Methods in Journalism
Designed to familiarize doctoral students with qualitative approaches applicable to the study of journalism and mass communication. Students will be introduced to a variety of philosophical and conceptual approaches as well as to practical tools-oriented methodologies in four major areas of qualitative research.

Credit Hours: 3

JOURN 8016: Advanced Quantitative Research Methods
Experimental design, factor analysis, semantic differential and Q methodology as tools for the researcher in journalism, communication.

Credit Hours: 3

JOURN 8020: Principles and Tools in Strategic Communication Planning
Introduces the latest principles of strategic communication and the importance of strategic planning in many contemporary communication fields. A significant operational component in the course introduces skills such as budgeting, scheduling objective-setting, organizing personal time, and managing people.

Credit Hours: 3

JOURN 8026: Philosophy of Journalism
Seminar deals with wide assortment of philosophical questions in journalism but concentrates on epistemology, political press theory and ethics. Such questions as "objectivity" in journalism, press responsibility, professionalism.

Credit Hours: 3

JOURN 8028: The Literature of Journalism
Reading of ten basic books about journalism. Several books are assigned to everyone; several are assigned on an individual basis, and several are electives. Oral reports, short papers, and class discussion.

Credit Hours: 3
JOURN 8030: History of Mass Media
American mass media from colonial days to present in the context of social, economic and political change. History research.

Credit Hours: 3

JOURN 8036: Historical Methods
Graduate seminar in research methods and theoretical approaches used by media historians, including oral history, biography, quantitative and archival research.

Credit Hours: 3

JOURN 8038: Seminar in Communications Law
A graduate-level survey of issues in media law, as well as an introduction to First Amendment theory and scholarship. The course familiarizes students with fundamental concepts of mass media law through exposure to primary materials and provides students with the opportunity to analyze the issues discussed in class through individual research projects.

Credit Hours: 3

JOURN 8042: Health News and Promotion
This is an advanced seminar that examines and critiques the literature on health communication in news about health and its impact and health promotion campaigns.

Credit Hours: 3

JOURN 8044: Strategic Conflict Management
Strategic conflict management is a cross-disciplinary study that integrated organizational behavior, crisis management, conflict resolution and image repair. This course melds theory with practice, and is for those venturing into media management, law, and strategic communication.

Credit Hours: 3

Prerequisites: graduate journalism standing required

JOURN 8046: Controls of Information
A detail of actions by government, largely the federal government, calculated to limit or alter the content of information in the United States.

Credit Hours: 3

JOURN 8052: Case Studies in the Digital Globe
This course seeks to broaden students perspective about how digital technology affects the world around us. Final course in the CDiG certificate. Inter-departmental course.

Credit Hours: 3

JOURN 8054: Entrepreneurship and Media of the Future
This course will give students an intense hands-on experience in working with real entrepreneurs on complex business problems in the journalism field. Example companies are the Associated Press, Kachingle, the Chicago Sun-Times, Spot-Us and the Media Policy Center. The goal is to offer a solution or solutions to the stated problem, and to present these ideas in a competitive, symposium environment.

Credit Hours: 3

Prerequisites: Graduate standing in Journalism or MBA program

JOURN 8056: Theory of Mass Communication
Major communication theories and theorists. Interpersonal theories are included as they relate to mass communication.

Credit Hours: 3

JOURN 8058: Communication in Media Organizations
Covers key concepts in management and communication in media organizations, including print, broadcast, advertising and public relations. Topics include leadership, human resource management, managerial/employee communication, career success, financial decision-making, teambuilding and goal setting in media organizations.

Credit Hours: 3

JOURN 8066: The Mass Media and the Presidency
This seminar examines that historical triad of the free expression clauses of the First Amendment, the presidency and the American mass media through readings, class assignments and a project.

Credit Hours: 3

JOURN 8068: The Mass Media and the Presidency
This seminar examines that historical triad of the free expression clauses of the First Amendment, the presidency and the American mass media through readings, class assignments and a project.

Credit Hours: 3

JOURN 8070: Proseminar in Communications
Seminar on professional and academic issues in journalism and communication. Specific discussion topics selected by faculty and students on a per class basis.

Credit Hour: 1-3

JOURN 8070: Proseminar in Communications
Seminar on professional and academic issues in journalism and communication. Specific discussion topics selected by faculty and students on a per class basis.

Credit Hour: 1-3

JOURN 8070: Proseminar in Communications
Seminar on professional and academic issues in journalism and communication. Specific discussion topics selected by faculty and students on a per class basis.

Credit Hour: 1-3

JOURN 8080: Media Ethics
An introduction to and application of ethical theory to their contemporary mass media.

Credit Hours: 3

JOURN 8085: Problems in Journalism
Individual work on chosen and specified problems not associated with the master's thesis or project. Topic must be arranged with supervising teacher prior to registration.

Credit Hour: 1-4

Prerequisites: Master's students only

JOURN 8090: Research in Journalism
Guidance for graduate students engaged in research toward production of the thesis. Graded on a S/U basis only.

Credit Hour: 1-9

JOURN 8092: Photography in Society
Social and political dimensions of still photography with emphasis on critical thinking and analysis in visual communication.

Credit Hours: 3

JOURN 8098: MA Project Seminar
Choosing and designing an appropriate profession project; preparation to carry out work successfully; discussion of trends and future directions in various areas of journalism. Must be completed before starting the professional project. Graded on S/U basis only.
Credit Hour: 1

JOURN 8100: MA Thesis Seminar
Choosing and developing an appropriate research topic for a thesis; designing a research strategy and learning appropriate investigative techniques. Must be completed before starting thesis. Graded on S/U basis only.

Credit Hour: 1

JOURN 8106: The Magazine: Then and Now
Examines magazines' history, role, economics and ethical practices, and the companies and people who produce them, particularly in the United States. It also reviews research perspectives that have illuminated this medium.

Credit Hours: 3
Prerequisites: JOURN 8000

JOURN 8110: Editing and News Design for the High School Advisor
Fundamentals of editing and headline writing for publication. Principles of design with emphasis on newspaper usage.

Credit Hours: 3
Prerequisites: Restricted to students in the online College of Education Master's program for high school journalism instructors

JOURN 8120: Media Law and Ethics for the High School Advisor
Legal concepts, including prior restraint, libel, privacy, obscenity, contempt and access as they related to print, broadcast, scholastic journalism, advertising and other areas. Includes examination of media ethics and practice.

Credit Hours: 3
Prerequisites: Restricted to students in the online College of Education Master's program for high school journalism instructors

JOURN 8185: Area Seminar in Journalism
Seminar designed to accompany JOURN 8190, Area Problem. Through readings and discussions the master's student examines the special area related to the project.

Credit Hours: 3

JOURN 8190: Area Problem in Journalism
Work project enabling a master's student to demonstrate professional competence; may be one offered in a graduate reporting program or a creative project designed to meet a particular interest of student. Graded on S/U basis only.

Credit Hour: 1-9

JOURN 9000: Doctoral Theory and Research I
First semester of a one-year course that covers theory and method in important topic areas. Each topic would be examined from several theoretical and methodological points of view. Required of doctoral students.

Credit Hours: 3

JOURN 9006: Doctoral Theory and Research II
Continuation of JOURN 9000. Required of doctoral students.

Credit Hours: 3

JOURN 9008: Readings in Journalism
Directed readings for doctoral candidates. Designed to supplement work in other courses and to broaden student's knowledge of trends, interpretations and developments in the media.

Credit Hour: 1-5

JOURN 9010: Doctoral Research Design
This course is designed to meet the University requirement for a first-year qualifying examination process for doctoral students, involve students in research early in their programs and encourage students to recruit members of their doctoral committees.

Credit Hours: 3

JOURN 9085: Problems in Journalism
Individual work on chosen and specified problems not associated with the doctoral dissertation or project. Topic must be arranged with supervising teacher prior to registration.

Credit Hour: 1-4
Prerequisites: Doctoral students only

JOURN 9087: Professional Development
Weekly discussion session for doctoral students. Required of all doctoral students. Graded on S/U basis only.

Credit Hour: 1

JOURN 9090: Research in Journalism
Guidance for doctoral candidates engaged in investigations looking toward production of the dissertation. Graded on a S/U basis only.

Credit Hour: 1-9

Korean (KOREAN)

KOREAN 1001: Topics in Korean - General
Organized study of selected topics. Subjects and earnable credit may vary from semester to semester. May be repeated for credit with departmental consent. Graded on A-F basis only.

Credit Hour: 1-3
Prerequisites: Instructor's consent

KOREAN 1005: Topics in Korean - Humanities
Organized study of selected topics. Subjects and earnable credit may vary from semester to semester. May be repeated for credit with departmental consent. Graded on A-F basis only.

Credit Hour: 1-3
Prerequisites: Instructor's consent

KOREAN 1100: Elementary Korean I
Introductory course on Korean language. Five hours classroom instruction with one hour lab weekly.
KOREAN 1200: Elementary Korean II
Five hours classroom instruction with one hour lab work weekly.

Credit Hours: 6
Prerequisites: C- or better in KOREAN 1100

KOREAN 1830: Survey of East Asian History
(same as HIST 1830) Introductory survey of the history of East Asian countries (China, Korea, Vietnam, and Japan) in the past two thousand years, focusing on their cultural, economic, and political traditions as well as their transformations in the modern era. Graded on A-F basis only.

Credit Hours: 3

KOREAN 2001: Topics in Korean - General
Organized study of selected topics. Subjects and earnable credit may vary from semester to semester. May be repeated for credit with departmental consent. Graded on A-F basis only.

Credit Hour: 1-3
Prerequisites: sophomore standing or instructor's consent

KOREAN 2005: Topics in Korean - Humanities
Organized study of selected topics. Subjects and earnable credit may vary from semester to semester. May be repeated for credit with departmental consent. Graded on A-F basis only.

Credit Hour: 1-3
Prerequisites: sophomore standing or instructor's consent

KOREAN 2160: Intermediate Korean Language II
Intermediate Korean I continues to build on the skills students acquired in the first-year series with increasing work in authentic materials and situations in conversation and reading. Encourages students to understand the use of language in its social and cultural context.

Credit Hours: 3
Prerequisites: KOREAN 2160, or instructor's consent

KOREAN 2310: Korean Civilization I
Focuses on understanding traditional Korean people and culture through examining social, political, economic, and belief systems. Considers literature, art, folklore, and history up to the late 19th century. May be taken independently of KOREAN 2320.

Credit Hours: 3
Prerequisites: KOREAN 1200

KOREAN 2320: Korean Civilization II
Considers the situation and culture of Korea at the end of the Chosun Kingdom, and the period of modernization beginning about 1876. Investigates how modernization has changed Korea by looking at attitudes, behaviors, values, philosophies, and trends of Korea in the 20th and 21st centuries. May be taken independently of KOREAN 2310.

Credit Hours: 3

KOREAN 2810: History of Korea: Premodern to Hypermodern
(same as HIST 2810). This course examines Korea historically. The area known as Korea and the people identified as Korean are considered temporally from the ancient times to the contemporary period. This course begins with the questions of what is Korea and when it became a distinct place in world history. More time is devoted to the contemporary period than other periods, and North Korea is equally considered with South Korea. This course is not only about what happened in Korea but also about how Korea's historical events are causally connected to world events, with the greater aim of universalizing Koreas' historical questions.

Credit Hours: 3

KOREAN 3001: Topics in Korean - General
Organized study of selected topics. Subjects and earnable credit may vary from semester to semester. May be repeated for credit with departmental consent. Prerequisites: sophomore standing and instructor's consent;

Credit Hour: 1-3

KOREAN 3005: Topics in Korean - Humanities
Organized study of selected topics. Subjects and earnable credit may vary from semester to semester. May be repeated for credit with departmental consent.

Credit Hours: 3
Prerequisites: sophomore standing and instructor's consent

KOREAN 3100: Intermediate Korean Language I
Designed as interdisciplinary introduction to Korean politics, public policy, economics, and society, paying special attention to the government and politics of South Korea. The Korean peninsula (South and North Korea) has important implications for U.S. foreign policy toward East Asia. Surrounded by Russia, China, and Japan, the Korean peninsula long been regarded among social scientists as one of major regional cases that informs the broader theoretical debate on political and economic issues including democratization, civil society, economic development, and security. Course aims to provide students with the information necessary to understand and analyze modern South and North Korea, and discuss the future of the two Koreas as well as of U.S. foreign policy toward Korea.

Credit Hours: 3
Prerequisites: C- or higher in KOREAN 3160, or equivalent

KOREAN 3160: Intermediate Korean Language I
Continues to build on the skills students acquire in the third semester of Korean language with increasing work in authentic materials and situations in conversation and reading. Encourages students to understand the use of language in its social and cultural context.

Credit Hours: 3
Prerequisites: KOREAN 2160, or instructor's consent

KOREAN 3180: Advanced Korean I

Credit Hours: 3
Prerequisites: KOREAN 2100

KOREAN 3650: The Korean Peninsula in World Affairs: Political, Economic, and Cultural Forces
Designed as interdisciplinary introduction to Korean politics, public policy, economics, and society, paying special attention to the government and politics of South Korea. The Korean peninsula (South and North Korea) has important implications for U.S. foreign policy toward East Asia. Surrounded by Russia, China, and Japan, the Korean peninsula long been regarded among social scientists as one of major regional cases that informs the broader theoretical debate on political and economic issues including democratization, civil society, economic development, and security. Course aims to provide students with the information necessary to understand and analyze modern South and North Korea, and discuss the future of the two Koreas as well as of U.S. foreign policy toward Korea.

Credit Hours: 3
Prerequisites: C- or higher in KOREAN 3160, or equivalent
KOREAN 3800: Korean Economic Development and US-Korean Free Trade Agreement
Covers introductory theories of economic development and overviews Korean historical economic development plans. Aids with understanding how South Korean achieved high levels of economic development and what policies the South Korean Government implemented to spur growth. US-Korea Free Trade Agreement is a good example of how trade promotes the achievement of development goals.
Credit Hours: 3

KOREAN 3890: Korean Society Through Cinema (same as FILM_S 3895)
Examines the way in which Korean film reveals the cultural, political, and ideological orientation of the society in which it is created and circulated. Compares films from North and South Korea, considering modernity, gender, nationhood, and class. Graded on A/F basis only.
Credit Hours: 3
Prerequisites: sophomore standing

KOREAN 4001: Topics in Korean-General
Organized study of selected topics. Subjects and earnable credit may vary from semester to semester. May be repeated for credit with departmental consent.
Credit Hour: 1-3
Prerequisites: sophomore standing and instructor's consent

KOREAN 4005: Topics in Korean - Humanities
Organized study of selected topics. Subjects and earnable credit may vary from semester to semester. May be repeated for credit with departmental consent.
Credit Hour: 1-3
Prerequisites: sophomore standing and instructor's consent

KOREAN 4220: Korean Unification
Explores many different topics related to Korean Unification. Studies North Korean ideology, political system, economic system, military, and negotiating behavior. Examines Unification policies of Koreas as well as past efforts toward Unification. Considers various scenarios of unification. Studies unification attitudes and values of Korean people including anti-American values, and the roles of neighboring countries.
Credit Hours: 3
Prerequisites: junior standing required

KOREAN 4260: The Korean Diaspora in the U.S., Japan and China
Interdisciplinary course related to the phenomenon of migration and settlement from Korea. Course seeks to deepen understanding of the ways in which Korean immigrants have shaped and continue to shape social thought as well as institutions in the United States, Japan, and China. Draws upon literature, history and cultural studies to examine experiences of Koreans living in the U.S., Japan and China. Through reading critical literatures, students address issues such as immigration history, race/ethnicity, racism and resistance, gender and sexuality, culture and identity, labor, migration and globalization, class, education, religion.
Credit Hours: 3
Prerequisites: sophomore standing or instructor's consent required

KOREAN 4867: North Korea: History, Political Economy, Culture (same as HIST 4867)
The aim of this course is to survey North Korea's history, especially in terms of political economy and culture. Through several themes, we will examine the historical situations of North Korea from its beginnings in the postliberation period to the present, as North Korea undergoes monumental changes. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: sophomore standing, or instructor's consent

Laboratory Animal Medicine (LAB_AN)

LAB_AN 8090: Research in Laboratory Animal Medicine
Research expected to terminate in a thesis. Graded on a S/U basis only.
Credit Hour: 1-99

LAB_AN 9087: Seminar in Laboratory Animal Medicine
Theme-oriented seminars and discussions in the field of laboratory animal medicine, comparative medicine or related areas. Graded on S/U basis only.
Credit Hour: 1
Prerequisites: departmental consent

LAB_AN 9437: Pathology of Laboratory Animals
Pathogenesis, pathology and diagnosis of naturally occurring diseases in animals used in research.
Credit Hours: 4
Prerequisites: departmental consent

LAB_AN 9468: Laboratory Animal Biology
Anatomy, taxonomy, reproduction, genetics, nutrition, and behavior of common laboratory animals. Emphasis is placed on mice and rats, including genetically-engineered models with comparative discussions on other laboratory animals. Prerequisites: departmental consent
Credit Hours: 4
Prerequisites: departmental consent

LAB_AN 9469: Laboratory Animal Resource Management
Policies, standards and regulations in the care and use of laboratory animals, including colony management, animal procurement, cost accounting, facility design, and supervisory skills.
Credit Hours: 4
Prerequisites: departmental consent

LAB_AN 9476: Grant and Manuscript Writing for Biomedical Researchers
Topics include experimental design applied biostatics and writing effective grant proposals and scientific manuscripts. Methods include lecture, discussion and assignments including an individual grant proposal which will be reviewed by a mock study section.
Credit Hours: 3
Prerequisites: LAB_AN 9475; instructor's consent
LAB_AN 9477: Laboratory and Project Management
This course will provide graduates with professional development skills and career guidance including instruction in laboratory and project management. Topics will include job searching, start-up considerations, equipping a lab, personnel management and budget management. Graded on S/U basis only.

Credit Hour: 1
Prerequisites: enrollment in Comparative Medicine Area Program or approval of course coordinator

Latin (LATIN)

LATIN 1100: Elementary Latin I
Forms, grammar, syntax.
Credit Hours: 5

LATIN 1100H: Honors Elementary Latin
Beginning Latin for Honors Eligible students.
Credit Hours: 5
Prerequisites: Honors eligibility required

LATIN 1200: Elementary Latin II
Continuation of LATIN 1100.
Credit Hours: 5
Prerequisites: LATIN 1100

LATIN 1200H: Honors Elementary Latin II
Continuation of LATIN 1100H.
Credit Hours: 5
Prerequisites: LATIN 1100. Honors eligibility required

LATIN 2000: Latin Reading
Readings in Latin prose and poetry.
Credit Hours: 3
Prerequisites: LATIN 1200

LATIN 2000H: Latin Reading - Honors
Readings in Latin prose and poetry.
Credit Hours: 3
Prerequisites: LATIN 1200. Honors eligibility required

LATIN 4300: Latin Poetry
Readings in selections from the Latin poets.
Credit Hours: 3
Prerequisites: LATIN 2000

LATIN 4350: Latin Prose
Selections from various Latin prose writers; some composition at instructor's discretion.
Credit Hours: 3
Prerequisites: LATIN 2000

LATIN 4500: Latin Stylistics
Study and writing of connected prose compositions.
Credit Hour: 1-3
Recommended: LATIN 4300

LATIN 4510: Age of the Scipios
Critical readings in and integrated analyses of the culture of the second century B.C.
Credit Hour: 3-6
Recommended: LATIN 4300

LATIN 4520: Age of Cicero
Critical readings in and integrated analyses of the culture of the last decades of the Roman Republic.
Credit Hours: 3
Recommended: LATIN 4300

LATIN 4530: Vergil
Readings, discussion, and literary analysis of Vergil Aeneid.
Credit Hours: 3
Recommended: LATIN 4300

LATIN 4540: Augustan Literature
Critical readings in and integrated analyses of the culture of Augustan Rome.
Credit Hours: 3
Recommended: LATIN 4300

LATIN 4550: The Theodosian Age
A survey of major literary works of the late fourth and early fifth centuries. Readings from Augustine, Ambrose, Prudentius, Paulinus of Nola, Ammianus Marcellinus, Claudian.
Credit Hours: 3
Recommended: LATIN 4300

LATIN 4560: Medieval Latin
Selected texts of Middle Ages and Renaissance. For students with primary interest in history, literature, philosophy, religion, Romance philology, or the classical tradition, experience with Latin sources in their field.
Credit Hours: 3
Recommended: LATIN 4300

LATIN 4600: Survey of Latin Literature
Latin literature from origins to end of Roman Empire; emphasis on authors not covered in other courses, to provide general view of styles and genres.
Credit Hours: 3
Recommended: LATIN 4300

LATIN 4960: Special Readings in Latin
Readings in authors and texts not covered in other courses.
Credit Hour: 1-3
**Latin (LATIN)**

**LATIN 7300: Latin Poetry**
Readings in selections from the Latin poets. Available to students for graduate credit in departments other than Classical Studies.

**Credit Hours:** 3  
**Prerequisites:** LATIN 2000 or equivalent

**LATIN 7350: Latin Prose**
Selections from various Latin prose writers; some composition at instructor's discretion. Available to students for graduate credit in departments other than Classical Studies.

**Credit Hours:** 3  
**Prerequisites:** LATIN 2000

**LATIN 7500: Latin Stylistics**
Study and writing of connected prose compositions.

**Credit Hours:** 3  
**Prerequisites:** two years classical Latin or equivalent

**LATIN 7510: Age of the Scipios**
Critical readings in and integrated analyses of the culture of the second century B.C.

**Credit Hours:** 3-6  
**Prerequisites:** two years Classical Latin or equivalent

**LATIN 7520: Age of Cicero**
Critical readings in and integrated analyses of the culture of the last decades of the Roman Republic.

**Credit Hours:** 3  
**Prerequisites:** two years Classical Latin or equivalent

**LATIN 7530: Vergil**
Readings, discussion, and literary analysis of Vergil's Aeneid.

**Credit Hours:** 3  
**Prerequisites:** two years of Classical Latin or equivalent

**LATIN 7580: The Theodosian Age**
A survey of major literary works of the late fourth and early fifth centuries. Readings from Augustine, Ambrose, Prudentius, Paulinus of Nola, Ammianus Marcellinus, Claudian.

**Credit Hours:** 3  
**Prerequisites:** two years of Classical Latin or equivalent

**LATIN 7590: Medieval Latin**
Selected texts of Middle Ages and Renaissance. For students with primary interest in history, literature, philosophy, religion, Romance philology, or the classical tradition, experience with Latin sources in their field.

**Credit Hours:** 3  
**Prerequisites:** instructor's consent

**LATIN 7600: Survey of Latin Literature**
Latin literature from origins to end of Roman Empire; emphasis on authors not covered in other courses, to provide general view of styles and genres.

**Credit Hours:** 3  
**Prerequisites:** two years Classical Latin or equivalent

**LATIN 7960: Special Readings in Latin**
Readings in authors and texts not covered in other courses.

**Credit Hours:** 2-3  
**Prerequisites:** two years Classical Latin or equivalent

**LATIN 8000: Proseminar in Latin Texts**

**Credit Hours:** 3  
**Prerequisites:** instructor's consent

**LATIN 8010: Latin Rough Guide**
Intensive exploration of Latin literature from the Roman Republic through the Late Empire. Emphasis upon texts as both literary and cultural artifacts whose interpretation requires familiarity with the historical and archaeological legacy of antiquity as well as modern exegetical strategies.

**Credit Hours:** 3

**LATIN 9587: Seminar in Latin Epic Poetry**
Seminar in Latin Epic Poetry.

**Credit Hour:** 1-99

**LATIN 9687: Seminar in the Augustan Age**
Integrated studies in the culture of the age of Augustus--its literature, art and architecture, religion, political and social institutions.

**Credit Hour:** 3-6

**LATIN 9787: Seminar in Late Antiquity**
Integrated studies in the culture of late antiquity with interdisciplinary focus.

**Credit Hours:** 3  
**Prerequisites:** consent required for non graduate students

---

**Law (LAW)**

**LAW 5010: Civil Procedure I**
Fundamental and recurrent problems in civil actions in federal and state courts; remedies; pleading; discovery; trials; jurisdiction; appeals; joinder; preclusion.

**Credit Hour:** 1-3

**LAW 5015: Civil Procedure II**
Continuation of LAW 5010.

**Credit Hour:** 1-3

<td>Administrative Law</td>
<td>(same as PUB_AF 8864). Administrative Law is concerned with the process government agencies used to make decisions. As such it develops the requirements for establishing rules and policies. It also covers the means by which regulations and statutory provisions are enforced by agencies, and the means for securing judicial review of rules and enforcement actions.</td>
<td>1-3</td>
</tr>
<tr>
<td>LAW 5320</td>
<td>Advanced Legal Research</td>
<td>Skill training in advanced research techniques and resources used in law practice. Designed to help students become critical legal information consumers with emphasis on developing effective, cost-efficient research strategies. Topics include advanced litigation research, legislative and regulatory history, audience research, research in transactional practices areas, and research in other practices areas including legal ethics, public interest law, and international law. In-depth practice with Lexis, Westlaw and free Internet sources, including appropriate and effective use of social networking tools to extend research.</td>
<td>1-3</td>
</tr>
</tbody>
</table>
LAW 5330: Advocacy, Family Violence and Public Policy
Interdisciplinary presentations examine both the state of family violence in America and the cross disciplinary issues in effective intervention, including legal procedures. The seminar is open to 2nd or 3rd year law students and other professional graduate students with permission of the faculty.

Credit Hour: 1-2

Prerequisites: LAW 5260 Evidence and LAW 5925 Trial Practice

LAW 5331: American Legal History to 1876
This is a revision of Legal History. The course covers such topics as the impact of the English common law heritage; the development of law in the American colonies; slavery, race and gender in nineteenth century America. The course ends with the conclusion of the Civil War. The course will explore the effects of historical events on the development of law, but the course does not presume prior study of American history.

Credit Hour: 1-3

LAW 5332: Advanced Torts: Dignitary and Economic Torts
The Advanced Torts: Dignitary and Economic Torts class will examine dignitary and economic torts covering but not limited to such topics as: defamation, invasion of privacy, tortious interference, misrepresentation and injurious falsehood. Unlike tortious conduct that results in an individual suffering physical harm or contact, the claims that arise from these torts represent one of two kinds of non-physical injury - independent dignitary that are similar to or include emotional harms or independent economic or commercial harms. The purpose of the course is to provide students with an opportunity to explore tortious conduct and remedies available that are omitted typically from the First Year Torts course.

Credit Hour: 1-3

LAW 5332: Advanced Torts: Dignitary and Economic Torts
The Advanced Torts: Dignitary and Economic Torts class will examine dignitary and economic torts covering but not limited to such topics as: defamation, invasion of privacy, tortious interference, misrepresentation and injurious falsehood. Unlike tortious conduct that results in an individual suffering physical harm or contact, the claims that arise from these torts represent one of two kinds of non-physical injury - independent dignitary that are similar to or include emotional harms or independent economic or commercial harms. The purpose of the course is to provide students with an opportunity to explore tortious conduct and remedies available that are omitted typically from the First Year Torts course.

Credit Hour: 1-3

Prerequisites: LAW 5260 Evidence and LAW 5925 Trial Practice

LAW 5333: Advanced Trial Practice
This course will expand student knowledge of opening statements, direct/cross examination witnesses, jury instruction, closing arguments and will focus significantly on the examination/cross examination of expert witnesses. Grading is based on student participation in examination of witness and semester-ending written trial brief. NOTE: Intersession Trial Practice will not satisfy the prerequisite.

Credit Hour: 1-3

LAW 5337: American Legal History from 1876
Historical study of the development of American law since the Civil War. The course will cover such topics as the Civil War amendments to the Constitution; Reconstruction and its aftermath; legal change during the rise of industrialism; race and gender in late 19th century and 20th century America; law in the Progressive Era; the growth of civil liberties and civil rights in the Supreme Court; the law during war and the Depression; jurisprudential trends; and the Civil Rights Movement of the 1960s. The course will explore the effects of historical events on the development of law, but the course does not presume prior study of American history.

Credit Hour: 1-3

LAW 5338: American Legal History from 1876
Historical study of the development of American law since the Civil War. The course will cover such topics as the Civil War amendments to the Constitution; Reconstruction and its aftermath; legal change during the rise of industrialism; race and gender in late 19th century and 20th century America; law in the Progressive Era; the growth of civil liberties and civil rights in the Supreme Court; the law during war and the Depression; jurisprudential trends; and the Civil Rights Movement of the 1960s. The course will explore the effects of historical events on the development of law, but the course does not presume prior study of American history.

Credit Hour: 1-3

LAW 5340: Antitrust Law
Introduces antitrust and economic analysis and the role of competition, with emphasis on price fixing, horizontal and vertical restraints of trade, monopoly and merger problems.

Credit Hour: 1-3

LAW 5345: Appellate Advocacy
Enhances skills training for the preservation and presentation of matters on appeal. In addition, an introductory examination of extraordinary remedies (as a complement to appeal) and other unique actions filed in the Supreme Court of Missouri.

Credit Hour: 1-3

LAW 5350: Arbitration
Law, policy and practices relating to the arbitration process as it is utilized in commercial and international sectors. Topics include modern arbitration statutes (e.g., the Federal Arbitration Act), enforceability of agreements to arbitrate, public policy defenses against enforcement of arbitration agreements, arbitrators and administering institutions, components of the arbitral process, arbitral remedies and awards, and the arbitration award in the courts.

Credit Hour: 1-3

LAW 5356: Bankruptcy
Focuses on rights of both secured and unsecured creditors under state and federal law. State law covers collective actions and such individual actions as execution, attachment, garnishment, and the law of fraudulent conveyances. Federal law concentrates on liquidation proceedings under Chapter 7 of the Bankruptcy Code and reorganizations for wage earners under Chapter 13 of the Code. Includes, as time permits, an introduction to the business reorganization provisions of Chapter 11.

Credit Hour: 1-3

LAW 5375: Basic Federal Income Taxation
Federal income tax problems of individual taxpayers; nature of income; when and to whom income is taxable; exclusion from tax base; deduction; tax effects of exchange or other disposition of capital assets. This course is designed to introduce students to the income tax considerations that arise in a variety of legal contexts and will benefit even those students not planning to pursue a career in tax.

Credit Hour: 1-4

LAW 5385: BOA Competition
This is a late summer moot court competition directed by the Board of Advocates. The competition is open to 2Ls and 3Ls, but only 2Ls can advance to the final rounds. Students receive an assignment in
the spring, submit their written appellate briefs at the end of July, and participate in oral arguments at the beginning of fall semester. The top six 2L competitors present their final arguments in Jefferson City before Missouri Supreme Court judges. These finalists are invited to represent the law school during the following academic year as members of our regional teams for the National Moot Court Competition. Regional team members must enroll in Moot Court I and Moot Court II. Class may be dropped anytime up to the day that the Appellate Brief is due. Graded on S/U basis only.

Credit Hour: 1
Prerequisites: LAW 5085 Advocacy & Research (or the equivalent for transfer students)

LAW 5392: Business, Entrepreneurship, and Tax Law Review
The Business, Entrepreneurship, and Tax Law Review (BETR) will be affiliated with the Center for Intellectual Property and Entrepreneurship. The BET Review journal will give students an opportunity to hone their legal research and writing skills, as well as their leadership skills as editors of the journal, on contemporary issues in growing areas of legal practice. It will also provide an outlet for the publication of articles stemming from symposia and a colloquium series that will be held on topics in the fields of intellectual property, entrepreneurship, and tax.

Credit Hour: 1-2

LAW 5395: Business Organizations
The law school's foundation course in business law; recommended for students in all areas of interest. Course coverage includes the study of agency, partnership, limited partnerships, limited liability partnerships, limited liability companies, and corporations. This course is a prerequisite for several advanced electives in business law.

Credit Hour: 1-4

LAW 5410: Children and the Law
This course covers the status, rights and obligations of children in contemporary American law; civil proceedings and criminal prosecutions alleging child abuse or neglect; foster care; termination of parental rights; juvenile protective legislation; and delinquency. Emphasis is placed on juvenile justice doctrine, policy and practice issues and the historical and contemporary operation of juvenile and family courts.

Credit Hour: 1-3

LAW 5415: Constitutional and Civil Rights Litigation

Credit Hour: 1-3

LAW 5420: Client Interviewing and Counseling
This course covers the nature and conduct of counseling process including basic interviewing techniques, psychological factors affecting the interview process, facilitating and structuring the interview, clarification of statements and ascertaining legal issues, and dealing with client resistance and hostility. Graded on S/U basis only.

Credit Hour: 1-3

LAW 5425: Clinical Skills
Skills training for students enrolled in the Criminal Clinic. Lectures and simulations designed to facilitate student skills in case preparation and presentation and client representation: ethical concerns, fact investigation, interviewing and counseling, drafting legal documents, direct and cross examination, making and responding to objections. (Not available to students on probation).

Credit Hour: 1-4
Prerequisites: LAW 5260 Evidence and LAW 5280 Professional Responsibility
Corequisites: LAW 5470 Criminal Clinic and LAW 5475 Criminal Clinic Writing Project

LAW 5430: Commercial Real Estate Leasing
Seminar course focused on the study of selected topics involved in the negotiation, drafting, and interpretation of commercial real estate leases. Topics will include but are not limited to: rental provisions, condition of the premises, assignments and subleases, maintenance and repairs, casualty insurance, default/remedies, and collateral lease documentation. The course looks at the various parties involved in the process of commercial real estate leasing, their respective interests, and the dynamics of the negotiation and drafting process in which these parties memorialize their respective interests in the lease document. There is a heavy focus upon the careful reading, review, negotiation and revision of the lease document. Grading is based upon a series of exercises involving document review, negotiation, and drafting, and includes both individual and group work.

Credit Hour: 1-3
Prerequisites: LAW 5856 Real Estate Finance, or LAW 5858 Real Estate Transactions, or LAW 5697 Landlord/Tenant Law and Practice

LAW 5435: Comparative Law
This course examines differences and similarities between the major legal systems of the world, focusing on distant areas of substantive and procedural law to demonstrate diverse methods of addressing similar legal issues. The course includes a discussion of the historical distinctions between the common and civil law traditions but also moves the analysis forward to address more recent legal innovations and the recognition of new groupings of legal systems. Students will leave the class with a solid understanding of (1) how U.S. legal principles compare to approaches used elsewhere and (2) the uses and benefits of the comparative approach. Principles taught in this course will be equally applicable to those who anticipate practicing domestic U.S. law as well as those who expect to develop an international practice. No foreign language skills are necessary for this course.

Credit Hour: 1-3

LAW 5440: Complex Litigation
Course will examine principles and practical techniques relevant to complex civil cases. Building on civil procedure, the course will focus on litigation involving multiple parties and/or multiple jurisdictions. Each student will be required to complete several drafting assignments.

Credit Hour: 1-3
LAW 541: Complex Litigation: Mass Torts
This course will explore aspects of complex civil litigation through the lens of mass torts lawsuits. It will specifically examine issues such as discovery and scientific evidence, alternative liability issues, class action and multi-district litigation, and alternatives to litigation. This course will involve a final exam.

Credit Hour: 1-3

LAW 545: Contract Drafting
Course teaches students the principles of drafting commercial agreements. Although the course will be of particular interest to students pursuing a corporate or commercial law career, the concepts are applicable to any transactional practice. Students will learn how transactional lawyers translate business deals into contract provisions, as well as techniques for minimizing ambiguity and drafting with clarity. Through a combination of lecture, hands-on drafting exercises and extensive homework assignments, students will learn about different types of contracts, other documents used in commercial transactions, and the drafting problems that contracts and other documents present. Course will also focus on how a drafter can add value to a deal by finding, analyzing and resolving business issues. Grades will be based on the graded assignments, good faith completion of the ungraded assignments, and class participation.

Credit Hour: 1-3

LAW 545: Copyright Law
Nature of copyright law; common law misappropriation; scope of common law copyrights; Copyright Revision Act of 1976 as amended; formalities of registration (fixation, copyright notice); copyrightable subject matter; originality; exclusive rights of copyright owner; scope of copyright protection; substantial similarity and infringement; fair use; joint and composite works; duration, renewal, termination, transfer; remedies; artists moral rights; federal preemption; international protection; copyrightability of computer software; and, copyright issues on the internet.

Credit Hour: 1-3

LAW 545: Corporate Taxation
This course will provide an in-depth study of the federal income taxation of corporations and their shareholders, including the tax aspects of forming and capitalizing a corporation, corporate distributions, redemptions, and taxable and tax-free corporate liquidations. This course will be taught using the problem method of instruction.

Credit Hour: 1-3

Prerequisites or Corequisites: Must have taken or be currently enrolled in LAW 5375 Basic Federal Income Taxation

Prerequisites: LAW 5375 Basic Federal Income Taxation

LAW 5470: Criminal Clinic
The Criminal Clinic is available during both the Fall and Winter semesters. It can only be taken once. Enrollment is limited to 8 students per semester. Students must also enroll in Clinical Skills and Criminal Clinic Writing Project and have completed, or be enrolled in, LAW 5280 Professional Responsibility and LAW 5260 Evidence. (Not available to students on probation).

Credit Hour: 1-5

Prerequisites: LAW 5280 Professional Responsibility, LAW 5260 Evidence. Students must have prior permission of professor

LAW 5475: Criminal Clinic Writing Project
This is the Writing Section accompanying course LAW 5470.

Credit Hour: 1-2

LAW 5477: Criminal Justice Administration
This course will examine the justice system's processing of formal criminal cases from the point at which a defendant is formally charged and going forward. In other words, it will be a "procedure" course reviewing the processing and adjudication of criminal cases. Topics will include the defendant's rights under the Sixth Amendment (e.g. jury trial, speedy trial, confrontation clause, and compulsory process rights); Eighth Amendment issues (e.g. bail and cruel and unusual punishment); criminal discovery (e.g. the prosecutor's Brady obligation to provide exculpatory evidence to defendants and notice requirements for alibi and insanity defenses); expert witnesses; pretrial and trial publicity; plea bargaining; sentencing (e.g. use of discretionary guidelines and minimum mandatory systems); and appeals. Other topics that may be reviewed are: post-conviction relief (e.g. habeas corpus, pardons, and commutations); fraud and other white collar crimes; conspiracy and the expanding federal presence in investigation, prosecution, and incarceration. This will be both an advanced criminal procedure course (similar to "bail to jail" courses at other law schools) and an advanced criminal law course.

Credit Hour: 1-3

Recommended: successful completion both LAW 5035 Criminal Law and LAW 5240 Criminal Procedure before taking this course

LAW 5485: Cross-Cultural Dispute Resolution
The course will focus on the impact culture can have on the private ordering of disputes. Culture affects communication, perceptions regarding conflict and methods for resolution. As the world becomes more interrelated and Missouri and the U.S. more diverse, lawyers need to be prepared to resolve problems across cultural lines. 20-25% of the grade will come from timely attendance and class participation.

Credit Hour: 1-3

LAW 5486: Deal Skills Class
Introduces students to business and legal issues common to commercial transactions. Class will emphasize the thought process involved in, and required by, the practice of transactional law, skills as interviewing, counseling and communicating with your client, understanding business issues and drafting contract provisions to reflect those issues, negotiation deals and managing a transaction closing. Simulation exercise, in-class role-play and lectures, out-of-class due diligence, negotiation and other exercises.
Credit Hour: 1-3
Prerequisites: Either LAW 5395 - Business Organization or LAW 5454 - Contracting Drafting. Students cannot enroll concurrently in Corporate Finance and Deal Skills. Students who have completed Deal Skills are precluded from enrolling in Corporate Finance. However, students are allowed to enroll in Deal Skills even if they have already taken Corporate Finance planning for incapacity, and health care decisions at the end of life. The course emphasizes planning techniques for the average client. Grade will be based on a short paper and take-home exam. The course may be taken for writing credit.

Credit Hour: 1-3

LAW 5497: Death Penalty Law
The primary focus of this course will be on the Supreme Court's capital punishment jurisprudence over the past 35 years, with particular attention to how it has shaped state statutory schemes and legal argumentation in capital sentencing trials.

Credit Hour: 1-3

LAW 5516: Dispute Resolution in the Digital Age
This course will explore the need for expanded and equalized access to remedies in consumer cases, and how the internet opens doors to online dispute resolution ("ODR") systems that utilize cost-effective negotiation, mediation, and arbitration processes for resolving complaints. ODR has its drawbacks, but it can be especially effective and satisfying for low dollar claims such as those in most consumer contexts because of its efficiencies. ODR also has potential to ease power imbalances that have hindered market regulation. Accordingly, this course will look at the various systems currently used by major companies such as eBay, as well as the rules and treaty developments in global markets. We will also do ODR simulation exercises, led by Colin Rule, who has been a leader in creating ODR systems. The class also will include deep consideration of both the potential and drawbacks of ODR systems. All ODR processes are not beneficial, and thus we will also discuss development of best practices and policy directions.

Credit Hour: 1-4

LAW 5520: Drafting of Legal Instruments
Problems frequently encountered in general office practice (land transfers, mortgages, leases, contracts, wills, business organizations, etc.), with drafting of the related instruments. Use and adaptation of legal forms. Graded on S/U basis only.

Credit Hour: 1-2

LAW 5525: Education Law
This course examines the application of discrete doctrines from criminal law, constitutional law, juvenile law, employment law, and disability law to the legal problems facing American schools. Students will explore the ways in which the objectives of these discrete legal doctrines either promote or interfere with our educational policies. Substantive areas of concentration include state regulation of education; freedom of speech, association and religion; equal educational opportunity; employment of teachers; and discipline of students.

Credit Hour: 1-3

LAW 5530: Elder Law
This course address legal issues impacting older individuals, including discussion of government benefits (Social Security, Medicaid, Medicare, Supplemental Security Income), long-term care (types, contract issues, civil rights, and financial planning), guardianship and conservatorship, and employees in the non-unionized workplace. The course will survey a variety of issues regarding the establishment, maintenance and termination of the employment relationship. For example, the course will
cover the common law aspects of that relationship, particularly contracts and torts. It will examine statutory modifications of the common law in areas such as wage and hours, pensions, whistle-blower protection, unemployment insurance, workers compensation, and health and safety.

**Credit Hour:** 1-3

**LAW 5544: Entrepreneurship Legal Clinic**
The Entrepreneurship Legal Clinic (the "Clinic") combines business law issues, intellectual property, and transactional experiential learning. The Clinic explores the lawyer's role as counsel to entrepreneurs engaged in early-stage ventures. Students will survey the legal and business issues encountered by entrepreneurs and develop the practical skills necessary to effectively represent them, including client interviewing and counseling, entity formation and planning, governance issues, employee issues, intellectual property analysis (except patents [presently]), and contract drafting. Students will work on actual client matters approved by the Clinic's Supervising Attorney. Students must have the Supervising Attorney's permission to enroll, and they must meet the Requisites listed below. The Clinic is graded and enrollment is limited.

**Credit Hour:** 1-4
**Prerequisites:** LAW 5395 - Business Organizations
**Corequisites:** LAW 5280 - Professional Responsibility

**LAW 5545: Environmental Law**
Federal and state regulation of the environment, including the economic and philosophical foundations of environmental regulation, the common law roots of environmental regulation, and substantive coverage of a number of environmental statutes, such as the Clean Air Act, Clean Water Act, Resource Conservation and Recovery Act, Comprehensive Environmental Response, Compensation and Liability Act, National Environmental Policy Act, and Endangered Species Act.

**Credit Hour:** 1-3

**LAW 5555: Estate Planning and Taxation**
This is a tax-oriented planning course, including discussion of federal estate and gift tax, income taxation of estates and trusts, and techniques for transferring property of a minimal tax cost both during life and at death. Grade will be based on the preparation of one or more projects.

**Credit Hour:** 1-4
**Prerequisites:** LAW 5560 and LAW 5375

**LAW 5560: Estates and Trusts**
Wills: probate process and will contests, intestate succession; restrictions on testament; execution, revival of wills; integration, incorporation by reference, events of independent significance; will substitutes; will construction; family protection.. Trusts: elements and creations; modification and termination; beneficial interests; charitable trusts; trust construction; powers of appointment; trust administration and fiduciary duties.

**Credit Hour:** 1-4

**LAW 5570: Externship**
The Externship offers students an opportunity to develop the skills necessary to bridge the gap between law school and law practice. Through the Externship, students prepare for "effective and responsible participation in the legal profession" (ABA Std. 301) by applying the core concepts learned in law school courses to the challenges presented in the actual, in-office practice of law. Details concerning the requirements and structure of the course are available at the Externship webpage. Students cannot take more than 6 hours of Externship credits. Credits earned in Landlord/Tenant Practicum count toward that 6-hour Externship limit. Graded on S/U basis only.

**Credit Hour:** 1-3

**LAW 5575: Family Law**
After surveying the variety of family arrangements in contemporary America and central issues concerning the practice of domestic relations law, this course covers marriage; dissolution; distribution of marital property; alimony; child custody/visitation and support; post-dissolution disputes over custody and child-rearing; non-marital families and non-marital children; private agreements in family law; and alternative dispute resolution in collaboration with other professions in client representations, and ethical and policy issues.

**Credit Hour:** 1-3

**LAW 5580: Family Violence Clinic: Individual and Social Justice**
Rule 13 certified law students represent needy abused women and children in 13 rural Missouri counties. Students obtain orders of protection in adult abuse courts, and appear in protective custody cases in juvenile courts. Weekly debriefings may include interprofessional graduate students. Law students must complete LAW 5330 Advocacy, Family Violence and Public Policy before or during their clinical experience. (Not available to students on probation).

**Credit Hour:** 1-4
**Prerequisites:** LAW 5280 Professional Responsibility
**Corequisites:** LAW 5330 Advocacy, Family Violence and Public Policy
**Recommended:** LAW 5260 Evidence

**LAW 5584: Fiduciary Administration**
This course will cover key issues that arise in the administration of decedent's estates and trusts, including the necessity for probate, rights of creditors, the fiduciary obligations of trustees and personal representatives, investments, and accounting and distribution. Depending on class size, grading will be based either on an exam, a practice-oriented project, or both.

**Credit Hour:** 1-3
**Prerequisites:** LAW 5560 Estates and Trusts

**LAW 5585: Federal Courts**
The course will examine the role of federal courts and their relationship to state courts. Topics covered: justiciability; federal question and diversity jurisdiction; sovereign immunity; abstention; and habeas corpus.

**Credit Hour:** 1-3
**Prerequisites or Corequisites:** LAW 5220 Constitutional Law

**LAW 5590: Freedom of Speech and Association**
A study of the rights of speech and association under the First Amendment of the United States Constitution. Major Supreme Court decisions regarding freedom of speech, including content-based and content-neutral restrictions of speech, regulation of commercial speech, regulation of obscenity and pornography, regulation of speech in public
and private fora, libel and privacy law, forced association with persons or ideas, and subsidization of speech.

Credit Hour: 1-3

LAW 5591: Food Law and Policy
This course examines the laws that govern food safety and food labeling, and considers how well this network works to protect American consumers. It also considers current issues affecting the global food system. Representative topics include recent food safety problems such as tainted meat and salmonella contamination of eggs; food labeling issues such as the use of the term "grass fed" in meat labeling and the use of GMO seed; organic standards; government efforts to address the obesity problem; urban food deserts; animal welfare concerns; the regulation of pet food, and the like. Specific topics addressed each semester will depend on current events and recent legal developments. Students will be graded on the basis of research paper and class participation. The course will often include a writing section designed to meet the upper-level writing requirement. The course may be offered from time to time as a paper-only course, designed to meet the upper-level writing requirement.

Credit Hour: 1-3

LAW 5592: Firearms Law
This class will examine the historical development and modern context of the regulation of firearms. Although emphasizing domestic law, some international and comparative perspectives will be examined. The class may be taken for writing credit.

Credit Hour: 1-3

Prerequisites: LAW 5220 Constitutional Law

LAW 5595: Gender, Race, Sexuality and the Law
A study of the treatment of gender by the legal system. Topics will include a survey of writings by influential feminist legal scholars, historians and social scientists; a comparison of different theoretical frameworks; and an overview of substantive law and the latest legal developments involving gender. The primary aim of the course is to study various feminist theories to discern how gender is viewed by today's lawmakers and courts.

Credit Hour: 1-3

LAW 5615: Health Care Law: The Doctor-Patient Relationship
An examination of the law governing the interactions between patients and their health care providers (doctors, hospitals and managed care organizations). The course will focus on rules governing the duty to treat, confidentiality, informed consent, medical malpractice liability, institutional vicarious liability, managed care liability, ERISA preemption and medical malpractice reform. As time permits, the class may also cover selected elements of public health law.

Credit Hour: 1-3

LAW 5632: Innocence Project Clinic
This is a joint clinic among the MU and UMKC law schools, the MU School of Journalism and The Midwestern Innocence Project, a non-profit organization. Law students will work under the supervision of the Clinic Director, a practicing lawyer, on cases of possible actual innocence from six states. Graded on S/U basis only.

Credit Hour: 1-4

Prerequisites: LAW 5946 Wrongful Convictions

LAW 5635: Insurance Law
A basic course in the fundamentals of insurance law. Topics covered include defining insurance; risk and the nature of the insurance relationship; insurable interest; indemnity; fortuity; subrogation; coordination of benefits; interpretation; rights at variance with policy provisions; contract formation; warranties, misrepresentation and concealment; condition; agents and brokers; introduction to regulation; introduction to insurance coverage.

Credit Hour: 1-3

LAW 5637: Insurance Claims Processing and Dispute Resolution
This course provides an in-depth examination of claims processing and dispute resolution in the insurance business in both first-party (property, life, etc.) and third-party (liability) insurance. Topics covered include notice of loss, proof of loss, duty to cooperate; negotiation of insurance claims; appraisal; mediation and arbitration of insurance claims; remedies for noncompliance with claims processing obligations; and, bad faith. The topics will be covered from a national perspective, but special emphasis will also be given to Missouri law. This course is approved to count as an elective toward the Dispute Resolution Certificate.

Credit Hour: 1-4

LAW 5640: Intellectual Property
This course is an introduction to the four broad areas of intellectual property. Students will learn about intellectual property, contract, and tort knowledge gained from the first year curriculum. The course will cover trademarks, trade secrets, patent law, and copyright law. Thus, the course will cover how one obtains the special property rights called the copyright, patent, trademark contract. Further, the course will cover how these intellectual property rights are protected from the tortious act of infringement, as well as any defense to infringement it is important to note that this introductory class cannot be used to satisfy any of the requirements for the Intellectual Property certificate; nor is this introductory course substitute for the more in-depth coverage offered by Patent Law and Policy, Copyright Law or Trademark Law. Rather, it is designed to allow students to explore basic intellectual property issues and to meet any prerequisites for Cyberspace Law, Software Law and International Intellectual Property. Students may find that taking this introductory course complements the rest of the intellectual property curriculum. Class participation and preparations is required, as is class attendance. An exam and several small written projects will be required.

Credit Hour: 1-3

LAW 5652: International Commercial Arbitration
This course offers a study of arbitration as a dispute resolution process for international trade and business disputes. The course reviews ad hoc and institutional arbitration, the authority of arbitral panels, enforcement of agreement to arbitrate, challenging arbitrators, procedure and choice of law in arbitral proceedings, the enforcement of international arbitral awards. Special attention will be given to the international convention on the recognition and enforcement of international arbitral agreements and awards (New York Convention) and the UNCITRAL (U.N. Commission of International Trade Law) arbitral rules and model law. The course focuses on commercial arbitration as an international practice and not on
arbitration under any particular national system. Students will participate in a hypothetical arbitration matter, beginning from the development of the claim to preliminary proceedings, the arbitration hearing, and ending with the arbitrators' award.

**Credit Hour:** 2-3

**LAW 5660: International Human Rights**
The purpose of this course is to enable students to develop a basic understanding of the concept of international human rights law and the role played by international and regional organizations, states and private actors in defining and enforcing human rights. Beginning with the historical origins of human rights, the course will examine the international regional human rights instruments and institutions that form the sources of human rights law (the UN system, including the Charter and treaties, European, African and Inter-American human rights regimes). It will also examine the role of non-governmental organization, the International Criminal Court and International humanitarian law (the law of war), and the interaction between US civil rights law and International human rights. Throughout the course, students will be introduced to important critical themes of human rights, including: the distinctions between public and private acts, evolving theories of statehood, sovereignty immunity, cultural relativism, and the western tradition of individual rights, and the relationship between rights and duties. Issues examined will include: political participation and democratization, religious freedom, the use of torture, corporate liability, woman's rights, the right and status of refugees, genocide and war crimes.

**Credit Hour:** 1-3

**LAW 5665: International Law**
Introduction to the international legal system, with emphasis on relations between nation-states or international entities. Topics include statehood and recognition, legislative and judicial jurisdiction, human rights and the status of the individual, treaties and international organizations.

**Credit Hour:** 1-3

**LAW 5675: International Taxation**
This course examines the federal income tax treatment of international transactions. It will focus on the principles and policies underlying the United States tax system as it relates to income earned by U.S. citizens and residents doing business and investing outside the country, as well as income derived from foreign persons doing business and investing in the United States. Topics include jurisdiction issues, source of income rules, effectively connected income, FDAP income, the foreign tax credit, the role of tax treaties in international tax, and an introduction to subpart F and other anti-deferral mechanisms.

**Credit Hour:** 1-3

**Recommended:** LAW 5375 Basic Federal Income Taxation

**LAW 5677: Internet Law and Practice**
This course will focus on preparing to advise business clients dealing with electronic commerce and internet law issues. There is no technological background requirement or prerequisite to take the class. We will explore a variety of themes including the control over the internet by both government and private actors; how online activities differ from their off-line counterparts; and how the laws should react to new forms of interaction and social structures found online. Specific doctrinal topics include problems of digital authorship and publication including rights of anonymity, copyrights, trademarks, defamation and other torts; sales and licensing of products; marketing, advertising and data-mining, including privacy issues; jurisdiction over online actors; and cyber-squatting. Grades will be based on the final exam and an optional short paper.

**Credit Hour:** 1-3

**LAW 5680: Journal of Dispute Resolution**
Credit for work as prescribed by the faculty for members of the Journal of Dispute Resolution. Graded on S/U basis only.

**Credit Hour:** 1-3

**LAW 5690: Jurisprudence**
The major part of the course will cover classic jurisprudential questions about the nature of law - what law is-and related questions regarding judicial decision-making: Under what conditions is a rule a law within a legal system? Are there moral principles that are part of the law even though a legislature has not enacted them? How do judges actually interpret statutes and constitutional clauses? How should they interpret them and are there definitive right answers to disputes about what the law is? Is it possible to refrain from "legislating from the bench" or does judicial decision-making necessarily involve making new law based on moral and political judgments? In the second part of the course, we will begin thinking about the proper function or aim of some core areas of substantive law. For example, questions might include: Does the criminal law aim to exact retributive justice, to achieve deterrence, or both? Is it legitimate for the legislature to use law to enforce morality of the community's moral belief? Does tort law aim to achieve corrective justice? Does corrective justice require reparations to groups for long past injuries? Reading will include Hart, Fuller, Dworkin, Raz, Ely, Holmes, Scalia, Feinberg, and others.

**Credit Hour:** 1-3

**LAW 5691: Jury Instructions**
Theoretical and practical aspects of jury instructions (including general and special verdicts) at trial are presented from the perspectives of the judge, counsel, the jury, and the court of appeals. The course will involve the students in researching and drafting instructions, using pattern instructions, observing or participating in a simulated jury instruction conference, and writing an appellate court opinion that describes what the student has learned during the course.

**Credit Hour:** 1-3

**LAW 5695: Labor Law**
The regulation of relations between employers and labor unions at common law and under federal and state legislation; primary emphasis on the National Labor Relations Act, as amended.

**Credit Hour:** 1-3

**LAW 5697: Landlord Tenant Law and Practice**
This course focuses primarily on litigation under the Missouri Landlord Tenant statute and under federal administrative regulations governing public entities which provide housing and housing subsidies to low-income people including the processes for litigating against such entities. The course will address proper pleading, relevant evidentiary issues, and requisite settlement skills/strategies. This course is available to all 2L's.
LAW 5697: Landlord/Tenant Law and Practice
This course focuses on laws governing the use and development of land. The course examines legal rules and policy considerations related to zoning, subdivision controls, building codes, historic preservation, aesthetic regulation, growth management, eminent domain, nuisance law, regional land use conflicts, development exactions, and environmental land use restrictions.
Credit Hour: 1-3

Prerequisites or Corequisites: LAW 5697 Landlord/Tenant Law and Practice
Corequisites: LAW 5280 Professional Responsibility

LAW 5700: Land Use Controls
This course focuses on laws governing the use and development of land. The course examines legal rules and policy considerations related to zoning, subdivision controls, building codes, historic preservation, aesthetic regulation, growth management, eminent domain, nuisance law, regional land use conflicts, development exactions, and environmental land use restrictions.
Credit Hour: 1-3

LAW 5715: Law and Economics
Study of the use of microeconomic analysis and methods in influencing the law. Topics: economic analysis of tort, contract and property law, the use and misuse of economics in the common law judging tradition, limitations on the use of economic analysis in law and links between economic analysis and constitutional law/public choice theory.
Credit Hour: 1-3

LAW 5717: The Law of Habeas Corpus and Post-Conviction Relief
Course will cover principles and practices of post-conviction remedies available to collaterally attack a criminal conviction in state and federal courts. Students will prepare post-conviction motions and petitions for a writ of habeas corpus under state and federal rules.
Credit Hour: 1-3

LAW 5723: The Law and Practice of Criminal Sentencing
This simulation-based course examines the substantive law and practical operation of state and federal criminal sentencing systems and seeks to provide students with entry-level competence as advocates in the sentencing phase of criminal cases. Students will participate in a series of simulated sentencing proceedings in state and federal court, acting as counsel for the government or the defendant, or as the sentencing judge. Criminal Procedure and Criminal Justice Administration are recommended, but not required.
Credit Hour: 1-4

LAW 5724: Law and Public Policy
This course provides students with a framework for making decisions about the policies that governments should adopt to respond to important public problems. It takes an interdisciplinary perspective and argues that decision-makers manage four kinds of risk: litigation risk, political risk, policy risk and implementation risk. Students are introduced to techniques for identifying and minimizing such risks, and apply these techniques to real-world policy problems. Guest speakers also provide a perspective on the challenges of policy choice.
Credit Hour: 1-3

LAW 5727: The Law of Tax Exempt Organizations
This course will briefly address theories and rationales for exempt organizations and examine in some depth the Internal Revenue Service's tests for tax-exemption and the major types of 501(c)(3) organizations and related contribution deductions, as well as a collection of other 501(c) associations. Attention will be paid to state law regarding the formation and operation of Missouri Nonprofit corporations and the IRS application process for recognition of tax-exemption in addition to nonprofit corporate governance matters. Focus will be on Internal Revenue Code provisions, Treasury Regulations, IRS interpretive rulings and case law.
Credit Hour: 1-3

Prerequisites: LAW 5375 Basic Federal Income Taxation
Recommended: LAW 5395 Business Organizations

LAW 5730: Law Review
Credit for work as prescribed by the faculty for members of the Missouri Law Review. Graded on S/U basis only.
Credit Hour: 1-3

LAW 5745: Legislation
Study of how statutes are drafted, adopted, and interpreted. The principal focus of the course is on the interpretation of statutes by courts.
Credit Hour: 1-3

LAW 5746: Legislative Practicum
This course provides students with the opportunity to work with individual lawyer legislators, or lawyer staff, at the Missouri General Assembly. The students will assist members of the General Assembly with drafting legislation, preparing materials for hearings, conducting research and analysis to respond to broad public policy issues as well as constituent concerns. On occasion students may be assigned to legislative committees, legislative staff support services, or to groups lobbying for legislation. Students will be expected to meet periodically with the
professor and to maintain a journal of their activities. Graded on S/U basis only.

**Credit Hour: 1-3**

**LAW 5748: Life Skills for Lawyers**
Readings and discussions will focus on how members of the class want to live their lives as a lawyer. Students will be asked to examine their law school experience and visualize their place in the legal profession. Various problems faced by lawyers (e.g., the pressure to produce billable hours and dealing with clients) will be discussed. Some of the positive aspects of being a lawyer will be identified. The emphasis will be on what the problems and opportunities mean to you personally and the importance of taking responsibility for your own personal and professional life. (not available to students on probation, except for students classified as 3L students).

**Credit Hour: 1-3**

**LAW 5750: Local Government Law**
(same as PUB_AF 8866). Structure and powers of local government units; state-local relations, including "home rule"; local government finance, including taxation and indebtedness; incorporation and annexation; eminent domain; tort liability; land use controls; labor relations.

**Credit Hour: 1-3**

**LAW 5765: Mediation**
A study of the process in which a neutral third party assists others in resolving a dispute or planning a transaction. The course addresses the mediation movement as regards public policy, politics, professional responsibility, malpractice, and negotiation. Students develop mediation and negotiation skills through readings, demonstrations, experimental exercises, and preparation of a case study.

**Credit Hour: 1-3**

**LAW 5770: Mediation Clinic**
(same as LAW 6970). Students develop and refine mediation skills by observing and participating in simulated and real mediation cases. Graded on S/U basis only.

**Credit Hour: 1-2**

**Prerequisites:** LAW 5765 Mediation (or concurrent enrollment), or completion of an approved training. Limited to J.D. or LL.M. students in designated semesters

**LAW 5800: Moot Court I**
Required only for those students participating in the National Moot Court or ABA Moot Court Competitions. Graded on S/U basis only.

**Credit Hour: 1-3**

**LAW 5805: Moot Court II**
Required only for those students participating in the National Moot Court or ABA Moot Court Competitions. Graded on S/U basis only.

**Credit Hour: 1-2**

**LAW 5808: Natural Resources Law**
This course is a foundational survey course in the law and policy related to management of natural resources. Resources covered may include public lands, waters, submerged lands and wetlands, forests, minerals and energy, wildlife and biodiversity and ecosystems. Topics also may include organic statutes establishing certain resource management standards and procedures, generally applicable statutes governing agency behavior, judicial review of agency decisions, integrated management of multiple resources, the use of ecosystem management and conservation methods, and takings.

**Credit Hour: 1-3**

**LAW 5810: Negotiation**
Negotiation is an essential skill for most lawyers, regardless of practice area. Lawyers must negotiate with their counterparts, clients, partners, staff, courts, and many others in the course of representing a client. This course provides an in-depth understanding of the different models of negotiation, and practical skill development for meeting the many challenges that negotiation presents.

**Credit Hour: 1-3**

**LAW 5815: Partnership Taxation**
This course will study the federal income tax treatment of partnerships and other entities treated as partnerships, including limited liability companies. The course will examine partnership formations, contributions and distributions from partnerships, partnership operations, including special allocations of income and losses among partners, transfers of partnership interests, and partnership dissolution. This course will be taught using the problem method of instruction.

**Credit Hour: 1-3**

**Prerequisites:** LAW 5375 Basic Federal Income Taxation

**LAW 5820: Patent Law and Policy**
This course will provide comprehensive coverage of the U.S. Patent Laws for those interested in obtaining general information about patents, as well as for those interested in practicing before the Patent and Trademark Office. The course will trace an invention through the application, examination, reconsideration, re-examination and litigation processes. If time permits, there may also be coverage of international treaties that affect U.S. Patent Laws as well as some comparison of U.S. Patent Laws and the Patent Laws of select countries. There are no course prerequisites and a technical background is not required because the course primarily focuses on the Patent Act, its requirements and its jurisprudence. Thus, students need only be familiar with applying statutes and cases to a fact pattern. In lieu of an examination or a paper, up to six written projects, between 3-10 pages each (approx. 40 pages overall), will be due at the end of the semester, giving students an intensive writing experience. The professor will review drafts of some of these projects during the semester and all of the projects will be discussed in class. These projects will allow students to help solve a clients hypothetical patent problem as we work through the Patent Act and its jurisprudence. Students may also have the opportunity to engage in client interviewing and counseling in order to complete the projects. There are no prerequisites and a technical background is not required.

**Credit Hour: 1-3**
LAW 5830: Pretrial Litigation
Focus on the study of the legal principles, techniques, strategies and skills which pertain to civil pretrial practice, including: Professional and Ethical Considerations, Case Selection Case Investigation, Development of a case theory, Pleading, Discovery, Pretrial Conference, Motion Practice, Settlement Processes and Alternative Dispute Resolution.

Credit Hour: 1-3

LAW 5835: Products Liability
A study of civil liability for personal injury, property damage, and economic loss caused by defective products. The study includes actions for negligence, strict liability, misrepresentation and the effect of state and federal legislation on those actions.

Credit Hour: 1-3

LAW 5837: Property, Life, Disability and Health Insurance Law
This course will explore the legal issues that arise in connection with the purchase and ownership of “first-party” insurance policies, which includes the categories of personal and commercial property insurance, life insurance, accidental death insurance, disability insurance, and health insurance. The course will examine the law from a national perspective but will give special attention to Missouri law when appropriate. The emphasis will be on the legal issues that typically arise when the consumer comes into contact with the insurance industry with respect to these products. The coverage of health insurance will focus on the provision and regulation of private insurance, as distinct from government programs providing access to the health care system through insurance or insurance-like benefits.

Credit Hour: 1-3

LAW 5845: Publicly Held Corporation
This course focuses on legal issues most relevant to large public corporations. Recommended for students interested in pursuing a career in corporate law or for students desiring study in corporate law beyond the Business Organizations course.

Credit Hours: 3

LAW 5855: Real Estate Transactions and Finance
Real estate mortgages and financing substitutes--theory and practice; receivers; redemption; foreclosure; priorities; the Missouri Deed of Trust; subdivision development; leasehold mortgages; shopping centers; and, government intervention in the mortgage market.

Credit Hours: 4

LAW 5856: Real Estate Finance
This course examines legal and transactional issues relating to the financing of real estate. The course covers mortgage documentation; the use of mortgagee prior to foreclosure; transfers of mortgaged property; transfers of mortgages and securitization; payment and discharge of mortgages; default and impact of bankruptcy on real estate transactions. The grade will be based upon a final examination.

Credit Hour: 1-3

LAW 5858: Real Estate Transactions
This course examines issues relating to the transfer of real estate and the practice of transactional real estate law. The course covers conveyance documentation, the recording system, title and survey review, title insurance, purchase and sale transactions, basis entity structure and tax considerations, environmental review, commercial leasing, valuation of real estate, and project cash flow. The grade will be based on a final examination.

Credit Hour: 1-3

LAW 5859: Real Estate Transaction Skills Project
Students will participate in a weekly seminar class focused on contract drafting, negotiation, due diligence, and client management in the context of a transactional real estate law practice. The grade for the course will be based upon student performance on drafting and practice skills assignments. Projects may include the negotiation and drafting of a purchase contract; the negotiation and modification of a commitment for title insurance; survey review; review and evaluation of lease and, lease drafting and negotiation. Student projects will include both individual and group work.

Credit Hour: 1
Corequisites: Concurrent registration in LAW 5858 Real Estate Transaction is required

LAW 5861: Regulation of Drugs and Medical Devices
This course examines the U.S. Food and Drug Administration (FDA) interpretation and implementation of the federal Food, Drug, and Cosmetic Act (FDCA) and the Public Health Service Act (PHSA). FDA regulates food, drugs, animal drugs and feed, cosmetics, medical devices, tobacco products, and biological products (broadly speaking “food and drugs”). The course considers not only the substantive regulations and policies applicable to food and drugs, but also issues of administrative law (agency practice and procedure, as well as judicial review), enforcement authority (powers and priorities), the agency’s place within our federal system, and the place of food and drug law in the larger legal environment. The scope of the class will vary from semester to semester, usually covering at least drugs and devices.

Credit Hour: 1-3

LAW 5870: Remedies
Survey of damages, history of equity; coverage of various equitable remedies and their adequacy, practicability, defenses, procedural problems, enforcement of decrees, merger of law and equity, contempt.

Credit Hour: 1-3

LAW 5875: Research in Law
Independent Research with a faculty member is available during the Summer, Fall and Spring Semesters. Any student enrolling for Research credit must designate at the time of enrollment the professor who will supervise the research project. Credit is earned at the rate of 20 pages per credit hour. No more than three hours of Research may be taken or counted toward the law degree. Enrollment in LAW 5875 may, but need not, be structured so as to satisfy the upper-level writing requirement. Enrollment in LAW 5875 Research satisfies the Law School’s writing requirement only if the project culminates in an individually authored paper of at least 20 pages, based on independent research, through a
process that involves an initial draft, critique by the supervising faculty members, and rewrite.

Credit Hour: 1-3

LAW 5885: Secured Transactions
The course focuses on the rights of secured creditors and debtors under Article 9 of the Uniform Commercial Code, and includes coverage of creditors with special rights (such as taxing authorities and artisans), documentary exchanges under Article 7, and bulk sales under Article 6.

Credit Hour: 1-3

LAW 5890: Securities Regulation
Financing of business through the sale of securities. Emphasis on federal securities acts, with some consideration of state statutes. Consideration of the registration process; exemptions from registration; the special antifraud rules; liabilities and criminal penalties; reporting; insider trading; and, proxy solicitation problems.

Credit Hour: 1-3
Prerequisites: LAW 5395 Business Organizations

LAW 5905: Sports Law
Substantive areas of concentration include sports litigation, labor law, NCAA regulations, legal relationships in professional sports, anti-trust aspects of sports activities, and collective bargaining.

Credit Hour: 1-3

LAW 5914: Tax Planning
This course will examine the application of corporate and partnership tax planning principles to accomplish common business objectives. Students will interview hypothetical clients, prepare written planning documents, present their tax plans to the class, and analyze associated substantive tax and business issues in a seminar format. The grade in this course will be based on written planning documents, a class presentation, and class participation. There will be no final exam.

Credit Hour: 1-3
Prerequisites: LAW 5375 Basic Federal Income Taxation
Recommended: Students are strongly encouraged to have taken or be concurrently enrolled in LAW 5465 Corporate Taxation or LAW 5815 Partnership Taxation

LAW 5915: Tax Research
This course provides students with an in-depth exploration of methods and sources for researching tax issues. The course provides students an opportunity to gain experience in using tax research tools. While primarily applicable to tax research, the knowledge gained by students will be helpful in future practice, regardless of practice area. Grades will be based on written assignments to be completed throughout the semester and one final project.

Credit Hour: 1-2

LAW 5916: Taxation of Property Transactions
This course will examine tax laws and policies fundamental to real estate investment. Topics include depreciation and recapture, cash and accrual methods of accounting, installment sales, non-recognition transactions, including like-kind exchanges and bad involuntary conversions, and discharge of indebtedness issues arising out of real estate transactions. This course is designed to provide a detailed analysis of complex tax provisions necessary for advanced tax planning and will be taught using the problem method of instruction.

Credit Hour: 1-3
Prerequisites: LAW 5375 Basic Federal Income Taxation

LAW 5917: Topics in Law
Various topics in law are explored in depth. Topics change each semester.

Credit Hour: 1-5

LAW 5918: Tax Policy
This seminar examines issues of federal tax policy and theory made critically important by the budget deficit and projected shortfalls. We will discuss the major features of the U.S. tax system, identify significant problems, and analyze current reform proposals. Topics will include income distribution, tax treatment of the family, corporate tax reform, capital gains taxation, the alternative minimum tax, the estate tax, taxation of health benefits, consumption or value-added taxes, and tax expenditures.

Credit Hour: 1-3

LAW 5919: Title Insurance Practice
This course will examine the application of corporate and partnership tax planning principles to accomplish common business objectives. Students will interview hypothetical clients, prepare written planning documents, present their tax plans to the class, and analyze associated substantive tax and business issues in a seminar format. The grade in this course will be based on written planning documents, a class presentation, and class participation. There will be no final exam. Title Insurance is integral to the real estate market in the United States. Students will be exposed to the development and need for title insurance. They will learn what is necessary to become a title insurance producer and how to run a practice that incorporates both title insurance issuance and how to work within an agency and an underwriter.

Credit Hour: 1-3
Prerequisites: LAW 5855 Real Estate Transactions and Finance, or LAW 5856 Real Estate Finance, or LAW 5858 Real Estate Transactions

LAW 5920: Trademark Law
Nature of trademark law; common law and statutory trademarks and trade-names; Lanham Act of 1946; distinctiveness; types of marks; qualification of marks for registration (use in commerce, intent-to-use certification, secondary meaning, abandonment); registration procedures; exclusive rights of trademark owner; scope of protection; concurrent use; infringement (including "gray market" use); international protection; remedies; state trademark acts; related common law doctrines; trademark usage on the Internet; and, domain name issues.

Credit Hour: 1-3

LAW 5923: Transnational Litigation
This course addresses common areas of concern in private transnational litigation and provides students with an understanding of litigation tactics in this growing area of law. Topics include jurisdictional issues, forum selection, international service of process, international discovery,
international choice of law, proving foreign law in U.S. courts, multiple proceedings (including parallel proceedings and interim/interlocutory assistance) and enforcement of foreign judgments. Although international in nature, the course covers many of the same sorts of concerns that arise in other sorts of complex civil litigation and emphasizes practical strategy points and transactional considerations.

Credit Hour: 1-3

LAW 5925: Trial Practice
Skills based course that focuses on the techniques of pleading, discovery, jury selection, opening statements, direct/cross examination of witnesses, preparing jury instructions, and closing arguments. Each student participates in classroom problems selected from various phases of litigation, and in one complete trial. Some sections of this course may be offered as a graded section or graded on S/U basis only.

Credit Hour: 1-4
Prerequisites: LAW 5260 Evidence

LAW 5927: Veterans Clinic
In this clinical program, students will help veterans in need and/or their dependents secure disability related benefits after an initial denial from the Regional VA office. This work will be done at the Board of Veterans' Appeals (BVA) level or before the Court of Appeals for Veterans' Claims (CAVC), both located in Washington D.C. The BVA and CAVC are federal tribunals, specially created to handle veterans' claims. Students will have the opportunity to work with the client, in a law firm type atmosphere, and prepare and argue appeals relating to the denial of benefits.

Credit Hour: 1-4
Prerequisites or Corequisites: LAW 5280 Professional Responsibility

LAW 5928: Voir Dire
This course is designed to provide the students with hands-on experience in selecting a jury. Students will act as lawyers, jurors and one student presiding as judge in the concluding 2-1/2 hour courtroom simulation where a jury is selected after making challenges for cause and end exercising preemptory strikes. An actual case involving a badly injured young plaintiff and a large corporate defendant--where liability is questionable--will be the basis for this exercise. The course will outline the purpose of voir dire and the law pertaining to jury selection. Students will learn active listening skills and how to interpret non-verbal behavior. Examples from prominent, practicing lawyers will be presented. The ultimate purpose of the course is to bring recognition that jury selection is an art--not a science-- and should be tailored to the facts of the case and the witnesses the attorney expects to present. Graded on S/U basis only.

Credit Hour: 1-2

LAW 5940: White Collar Crime
Study of what are generally considered to be business or organizational crimes. General topics to be explored may include: mail and wire fraud, conspiracy, securities fraud, tax fraud, government contracting fraud (with particular emphasis on the False Claims Act), the Hobbs Act and the Racketeer Influenced and Corrupt Organizations Acts.

Credit Hour: 1-3

LAW 5945: Will and Trust Drafting
Building on Estates and Trusts, applies substantive law of wills and trusts to actual drafting of documents typical of those used in law practice. Grade based entirely on student projects.

Credit Hour: 1-3
Prerequisites: LAW 5560 Estates and Trust

LAW 5946: Wrongful Convictions
This course offers students an insider’s look into the operation of the criminal justice system. It should be of particular interest to any student interested in working in a prosecutor’s office, public defender’s office or for a firm doing defense work. It is a prerequisite for any student wishing to enroll in the Innocence Project clinic. The course is designed to help students gain insight into features of the criminal justice system that have a tendency to produce wrongful convictions. In addition to examining the causes of wrongful convictions, the course will consider systemic reforms that might minimize convicting the innocent. We will also work with the Midwest Innocence Project on cases of possible actual innocence. Finally, the class will also focus on recurring ethical issues that confront prosecutors and criminal defense lawyers.

Credit Hour: 1-4

LAW 5947: Workers’ Compensation Law and Practice
This course will cover the law and practice of Workers’ Compensation Law both in general and in Missouri. About two-thirds of the class time will be spent studying and discussing the doctrinal basis of workers’ compensation. In the balance of the time students will work on a simulation in which they will have the opportunity to work through different steps of a workers’ compensation claim.

Credit Hour: 1-3

LAW 5948: South Africa Program
This course is designed to provide students with hands-on experience in working with clients in South Africa. Students will have the opportunity to work in law firms and non-profit organizations, and will gain an understanding of the legal system of South Africa.

Credit Hour: 1-4
Prerequisites or Corequisites: LAW 5280 Professional Responsibility

LAW 5949: South Africa Program
This course is designed to provide students with hands-on experience in working with clients in South Africa. Students will have the opportunity to work in law firms and non-profit organizations, and will gain an understanding of the legal system of South Africa.

Credit Hour: 1-4
Prerequisites or Corequisites: LAW 5280 Professional Responsibility

LAW 6500: London Program
Students enrolled in classes in London. Credit will count toward graduation requirements. Zero billing hours.

Credit Hour: 1-16

LAW 6710: Comparative Dispute Resolution
South Africa Program

Credit Hour: 1-2

LAW 6720: Comparative Constitutional Law
South Africa Program

Credit Hour: 1-2

LAW 6730: Comparative Criminal Justice
South Africa Program

Credit Hour: 1-2

LAW 6905: LLM Arbitration Seminar
(same as LAW 6805). This course covers law, policy, and practices relating to the arbitration in the U.S. under modern arbitration statutes as well as arbitration of international commercial disputes under international conventions and arbitral rules.

Credit Hours: 3
Prerequisites: instructor’s consent

LAW 6920: LL.M. Externship
Student will be placed (or secure placement) with attorney, professional mediator or arbitrator, or dispute resolution agency (government-based or private) for an externship ranging from three to nine weeks. Students will observe and, to the extent possible, participate in dispute resolution activities of mentor. Journal entries form basis for credit. Externship placements will be local, national or international. Graded on a S/U basis only.

Credit Hour: 1-99
Prerequisites: LL.M. students only

LAW 6925: LL.M. Independent Study
Substantial research project on selected topic of choice.

Credit Hour: 1-3
Prerequisites: LL.M. students only

LAW 6930: LL.M. Major Research Project
(same as LAW 6830). Development and presentation of substantial research paper on current topic in dispute resolution. Supervision of this work by appropriate faculty will be determined according to the topic selected.

Credit Hours: 3
Prerequisites: instructor’s consent

LAW 6935: Dispute System Design
(same as LAW 6835). Analysis of system design principles and the management of multi-party complex disputes. Course will include overview of statutes, regulations, court rules and general policy considerations for the development of systematic approaches to the resolution of disputes as well as the consultation process inherent in system design work. An underlying theme for this course will be issues of program quality. Students will review scholarly work evaluating the ADR field and study basic research/evaluation methodologies.

Credit Hours: 3
Prerequisites: instructor’s consent

LAW 6945: Non-Binding Methods of Dispute Resolution
(same as LAW 6845). Negotiation and mediation of disputes, focusing on the theory, strategy, and skills, and public policy issues involved in using non-binding methods of dispute resolution. The course addresses the role of attorneys in unassisted and mediated negotiation as well as the role of mediators. The course considers the professional responsibility of advocates negotiating for clients and of mediators.

Credit Hour: 3-4
Prerequisites: instructor’s consent

LAW 6950: Practicum on Dispute Resolution Training and Education
Structured training experience through participation in the first-year curriculum project; service as judges in J.D. student competitions, such as negotiation and client counseling; and assignments to appropriate upper division courses to assist with development of dispute resolution modules. Credit is earned for work over the entire academic year. Graded on a S/U basis only.

Credit Hour: 1-2
Prerequisites: LL.M. students only

LAW 6955: Topics
Special and emerging topics in dispute resolution. Subject, content and credit varies, depending on available faculty and student interest.

Credit Hour: 1-99
Prerequisites: instructor’s consent

LAW 6970: Mediation Clinic
(same as LAW 5770). Students develop and refine mediation skills by observing and participating in simulated and real mediation cases. Limited to J.D. or LL.M. students in designated semesters. Graded on S/U basis only.

Credit Hour: 1-2
Prerequisites or Corequisites: LAW 5765 (or concurrent enrollment), or completion of an approved training

Learning, Teaching, & Curriculum (LTC)

LTC 1100: Orientation
This course familiarizes and orients students with MU resources, College of Education programs and expectations and career options. Graded on S/U basis only.

Credit Hour: 1

LTC 1110: Orientation: Art Education
This course familiarizes and orients students with MU resources, College of Education programs and expectations and career options, emphasizing Art Education. Graded on S/U basis only.

Credit Hour: 1

LTC 1120: Orientation: Math Education
This course familiarizes and orients students with MU resources, College of Education programs and expectations and career options, emphasizing Math Education. Graded on S/U basis only.

Credit Hour: 1

LTC 1130: Orientation: Middle School Education
This course familiarizes and orients students with MU resources, College of Education programs and expectations and career options, emphasizing Middle School Education. Graded on S/U basis only.

Credit Hour: 1

LTC 1155: Orientation: Science Education
This course familiarizes and orients students with MU resources, College of Education programs and expectations and career options, emphasizing Science Education. Graded on S/U basis only.

Credit Hour: 1
LTC 1160: Orientation: Special Education
This course familiarizes and orients students with MU resources, College of Education programs and expectations and career options, emphasizing Special Education. Graded on S/U basis only.
Credit Hour: 1

LTC 1170: Orientation: English/Language Arts
This course familiarizes and orients students with MU resources, College of Education programs, expectations and career options, emphasizing English/Language Arts education. Graded on S/U only.
Credit Hour: 1

LTC 1320: Scuba Theory
The curriculum of the class includes bio-physics, hydrostatic pressures, physiology, fundamentals of compressed gases, environmental conditions, mechanics, first aid as it relates to diving, and planning specialty dives such as decompression, night, cave, ice, salvage and wreck diving.
Credit Hours: 3

LTC 2040: Inquiring into Schools, Community and Society I
This course focuses on schooling in American society, the school community, the school culture and students' lives and identities. Studied are the political, cultural, and economic conditions of the schools.
Credit Hours: 3

LTC 2044: Inquiry into Schools, Community and Society: Field
This field experience course supports the Inquiring into Schools, Community and Society (ISCS), component of Phase I. Graded on S/U basis only.
Credit Hour: 1

LTC 2200: School Health and Student Wellbeing
This course will explore and analyze the critical role schools and teachers play to address students' physical, social, and emotional wellbeing. Research indicates that a healthy school environment can improve both academic and social outcomes. Focus areas include school safety, nutrition policy and health education.
Credit Hours: 3

LTC 4085: Problems in Curriculum and Instruction
Studies professional programs and issues in health or physical education.
Credit Hour: 1-3
Recommended: instructor's consent

LTC 4085W: Problems in Curriculum and Instruction - Writing Intensive
Studies professional programs and issues in health or physical education.
Credit Hour: 1-3
Recommended: instructor's consent

LTC 4091: Assessment and Family Collaboration in Early Childhood Education
(cross-leveled with LTC 7091). Strategies for effectively observing and assessing young children and strategies for building positive family and community relationships, which support children's development and learning.
Credit Hours: 3
Prerequisites: Consent required (enrollment limited to students admitted to Phase II)

LTC 4110: Working with Infants and Toddlers
Experience working with children aged 6 weeks to 2 1/2 years and their families. Opportunity to apply theories of cognitive, language, and social development.
Credit Hour: 2-3
Recommended: Admittance to Phase II

LTC 4120: Early Childhood Education Literacy Methods & Assessment I
Credit Hours: 3
Prerequisites: Consent of department required

LTC 4124: Emergent and Developing Literacy Early Childhood Field Experience
This field experience supports the LTC 4120 component of Phase II. Field experience expectations are delineated in the LTC 4120 course syllabi. Graded on a S/U basis only.
Credit Hours: 3
Corequisites: LTC 4120 and LTC 4210
Recommended: Admittance to Phase II
LTC 4134: Teaching & Learning Math, Sci & Soc Studies w/Young Children Field Experience
This field experience supports the LTC 4130 component of Phase II. Field experience expectations are delineated in the LTC 4130 course syllabi. Graded on a S/U basis only.

Credit Hours: 3
Corequisites: LTC 4130
Recommended: Admittance to Phase II

LTC 4140: Curriculum, Theory and Classroom Management in Early Childhood Education
(cross-leveled with LTC 7140). Reflection on the relationship of theory and practice in ECE. Consideration of various topics including historical influences on early childhood curriculum, models of early childhood curriculum, classroom management, and individualizing curriculum.

Credit Hours: 3
Prerequisites: Consent required (enrollment limited to students who have completed the first two semesters of Phase II)

LTC 4140W: Curriculum, Theory and Classroom Management in Early Childhood Education - Writing Intensive
(cross-leveled with LTC 7140). Reflection on the relationship of theory and practice in ECE. Consideration of various topics including historical influences on early childhood curriculum, models of early childhood curriculum, classroom management, and individualizing curriculum.

Credit Hours: 3
Prerequisites: Consent required (enrollment limited to students who have completed the first two semesters of Phase II)

LTC 4150: Early Childhood Education Literacy Teaching Methods and Assessment II
(cross-leveled with LTC 7150). Advanced strategies for assessing and supporting young children's literacy development.

Credit Hours: 3
Prerequisites: Consent of department required
Recommended: LTC 4120 or LTC 7120, LTC 4124 K-3 Field experience and admittance to the ECE certification program in Phase II of the College of Education required

LTC 4150W: Early Childhood Education Literacy Teaching Methods and Assessment II - Writing Intensive
(cross-leveled with LTC 7150). Advanced strategies for assessing and supporting young children's literacy development.

Credit Hours: 3
Prerequisites: Consent of department required
Recommended: LTC 4120 or LTC 7120, LTC 4124 K-3 Field experience and admittance to the ECE certification program in Phase II of the College of Education required

LTC 4160: Motor Development in Young Children
For Early Childhood majors. Study of young children's motor development.

Credit Hours: 2
Recommended: Admission to Phase II

LTC 4170: Program Management & Environmental Organization in PreKindergarten
Strategies for working with children aged 2-6 and their families. Emphasis on planning and implementing developmentally appropriate practice, designing effective learning environments, and managing programs.

Credit Hours: 3
Prerequisites: Consent required (enrollment limited to students admitted to Phase II, and completion of first 2 semesters of Phase II)
Recommended: Co-enrollment in LTC 4971 (Early Childhood section)

LTC 4194: Elementary Education Field Experience I
Seminars and diverse 1-5 grade classroom experience focus is on the learner and learning in the elementary school. Graded on a S/U basis only.

Credit Hour: 1-3
Recommended: Admittance to Phase II

LTC 4200: Young Children's Emergent Language
For Early Childhood and Elementary Education majors. Study of young children's language development and implications for teachers.

Credit Hours: 2
Corequisites: LTC 4120, LTC 4124, and LTC 4210
Recommended: Admittance to Phase II

LTC 4210: Children's Language and Literature (cross-leveled with LTC 7210). For Early Childhood Education majors. Examines children's oral language development and surveys the field of children's literature for children ages birth to eight. Graded on A-F basis only.

Credit Hours: 3
Corequisites: LTC 4120 and LTC 4124
Recommended: Admittance to Phase II

LTC 4211: Literacy Assessment and Development
Focus is on the development, assessment, and instruction of reading and writing motivations, skills, and strategies of diverse learners with emphasis on data interpretation and instruction. Graded on A-F basis only.

Credit Hours: 3
Recommended: Admittance to Phase II

LTC 4221: Contexts and Methods for Elementary Reading Instruction
Students will closely explore the different contexts, methods, and materials for reading instruction in diverse settings. Graded on A-F basis only.

Credit Hours: 3
Recommended: Admittance to Phase II

LTC 4231: Contexts and Methods for Writing Instruction
This course explores contexts and methods for writing instruction, with a focus on writing development, writing across the content, and multimodal and multilingual composition. Graded on A-F basis only.

Credit Hours: 3
Recommended: Admittance to Phase II
LTC 4231W: Contexts and Methods for Writing Instruction - Writing Intensive
This course explores contexts and methods for writing instruction, with a focus on writing development, writing across the content, and multimodal and multilingual composition. Graded on A-F basis only.

Credit Hours: 3
Recommended: Admittance to Phase II

LTC 4240: Art for Children
This course focuses on appropriate teaching methods and strategies for teaching art (studio, art history, aesthetic, and criticism), artistic development of children, and curriculum, instructional, and organization strategies for the art classroom.

Credit Hours: 2
Recommended: Admittance to Phase II

LTC 4241: Diverse Literature for Children and Youth
Reading and discussion of diverse literature within a wide variety of genres will allow students to explore issues of diversity as related to elementary instruction. Graded on A-F basis only.

Credit Hours: 3
Recommended: Admittance to Phase II

LTC 4241W: Diverse Literature for Children and Youth - Writing Intensive
Reading and discussion of diverse literature within a wide variety of genres will allow students to explore issues of diversity as related to elementary instruction. Graded on A-F basis only.

Credit Hours: 3
Recommended: Admittance to Phase II

LTC 4250: Music for Children
Preparation of early childhood and elementary education students with the skills, knowledge, and philosophical foundations necessary to integrate music into the early childhood and elementary curricula.

Credit Hours: 2
Recommended: MUSIC_NM 1608, MUSIC_NM 1612, MUSIC_NM 1618 or competency test; Admittance to Phase II

LTC 4260: Elementary Social Studies
To develop knowledge of social studies and the skills to teach social studies in the elementary school. The course is designed to provide the student with the skills to plan, implement, and evaluate both the teaching and learning processes for the elementary social studies classroom.

Credit Hours: 3
Recommended: Admittance to Phase II

LTC 4280: Teaching Science in Elementary Schools
Concepts, materials, methods in the elementary school program.

Credit Hours: 3
Recommended: Admittance to Phase II

LTC 4294: Elementary Education Field Experience II
Seminars and diverse 1-5 grade classroom experiences focus is on the teacher and instruction in the elementary school. Graded on S/U basis only.

Credit Hour: 1-3
Recommended: Admittance to Phase II

LTC 4300: Learning and Teaching Number and Operation in the Elementary School
The purpose of this course is to (a) develop a deeper understanding of number and operation, (b) connect the mathematical knowledge of number as described in (a) to the learning and teaching of number in elementary school.

Credit Hours: 3
Recommended: Admittance to Phase II

LTC 4310: Learning and Teaching Geometry in the Elementary School
The purpose of this course is to (a) develop a deeper understanding of geometry and measurement, (b) critically examine content and issues of the complexities in teaching and learning fundamental concepts of geometry and measurement in elementary schools.

Credit Hours: 3
Recommended: Admittance to Phase II

LTC 4320: Middle School Social Studies I
Curriculum decision making, instructional planning, techniques and strategies, materials selection, approaches to assessment in middle level social studies, all based upon early adolescent growth and development principles.

Credit Hours: 3
Recommended: Admittance to Phase II

LTC 4324: Middle School Social Studies Field I
This field experience supports the Learning, Teaching and Curriculum 4320 component of Phase II for MS students. Field experience expectations are delineated in the LTC 4320 course syllabi. Graded on S/U basis only.

Credit Hour: 1
Recommended: Admittance to Phase II

LTC 4334: Middle School Social Studies Field Experience II
This field experience supports the LTC 4550 component of Phase II for MS students. Field experience expectations are delineated in the LTC 4550 course syllabi. Graded on a S/U basis only.

Credit Hour: 1
Recommended: Admittance to Phase II

LTC 4340: Middle School Science I
This course is cross-leveled with LTC 7340. Concepts, materials, methods in middle school program.

Credit Hours: 4
Prerequisites: Consent required
Recommended: Admittance to Phase II
LTC 4340W: Middle School Science I - Writing Intensive
(cross-leveled with LTC 7340). Concepts, materials, methods in middle school program.

**Credit Hours:** 4

**Prerequisites:** Consent required

**Recommended:** Admittance to Phase II

---

LTC 4344: Middle School Science Field I
This field experience supports the Learning, Teaching and Curriculum 4340 component of Phase II. Field experience expectations are delineated in the LTC 4340 course syllabi. Graded on a S/U basis only.

**Credit Hour:** 1

**Recommended:** Admittance to Phase II

---

LTC 4350: Middle School Science II
Concepts, materials, methods in the middle school program.

**Credit Hours:** 3

**Recommended:** Admittance to Phase II

---

LTC 4354: Middle School Science Field Experience
This field experience supports the LTC 4350 component of Phase II. Field experience expectations are delineated in the LTC 4350 course syllabi. Graded on a S/U basis only.

**Credit Hour:** 1

**Recommended:** Admittance to Phase II

---

LTC 4360: Intro. Teaching Mathematics in Middle and Secondary Schools
Introduction to teaching mathematics including: professional mathematics teacher associations and journals, learning theories related to teaching mathematics, tools, and materials for teaching mathematics, curriculum and instructional strategies (middle and lower high school level), and techniques for assessing mathematical understanding.

**Credit Hours:** 3

**Recommended:** Admittance to Phase II

---

LTC 4364: Intro. Teaching Math in Middle and Secondary School Field Experience
This field experience supports the LTC 4360 component of Phase II. Field experience expectations are delineated in the LTC 4360 course syllabi. Graded on a S/U basis only.

**Credit Hour:** 1

**Recommended:** Admittance to Phase II

---

LTC 4370W: Teaching and Modeling Middle School Mathematics - Writing Intensive
Major issues/topics of the course include: nature of middle school students, lesson planning, developing and utilizing teaching strategies, assessment alternatives, teaching via problem solving and mathematical modeling, interdisciplinary strategies and materials, and techniques for assessing mathematical understanding.

**Credit Hours:** 3

**Prerequisites:** LTC 4360 or LTC 7360 and LTC 4581 or 7581

**Recommended:** Admittance to Phase II and at least 18 credit hours of required mathematics

---

LTC 4374: Teaching and Modeling Middle School Mathematics Field Experience
This field experience supports the LTC 4370 component of Phase II. Field experience expectations are delineated in the LTC 4370 course syllabi. Graded on a S/U basis only.

**Credit Hour:** 1

**Recommended:** Admittance to Phase II

---

LTC 4380: Teaching Middle School Language Arts I
Integrates an understanding of literacy (highlighting reading) with content area demands, literature and other media texts, evaluation and inquiry within a context of diversity.

**Credit Hours:** 3

**Recommended:** Admittance to Phase II

---

LTC 4384: Teaching Middle School Language Arts I Field Experience
This field experience supports the LTC 4380 component of Phase II. Field experience expectations are delineated in the LTC 4380 course syllabi. Graded on a S/U basis only.

**Credit Hour:** 1

**Recommended:** Admittance to Phase II

---

LTC 4390: Teaching Middle and Secondary English/Language Arts II
Prepares prospective educators with the knowledge, skills, and strategies necessary for integrating and teaching the English/Language Arts, primarily focusing on the teaching of writing and critical thinking.

**Credit Hours:** 3

**Recommended:** Admittance to Phase II

---

LTC 4390W: Teaching Middle and Secondary English/Language Arts II - Writing Intensive
Prepares prospective educators with the knowledge, skills, and strategies necessary for integrating and teaching the English/Language Arts, primarily focusing on the teaching of writing and critical thinking.

**Credit Hours:** 3

**Recommended:** Admittance to Phase II
LTC 4394: Teaching Middle School Language Arts II Field Experience
This field experience supports the LTC 4390 component of Phase II. Field experience expectations are delineated in the LTC 4390 course syllabi. Graded on a S/U basis only.
Credit Hour: 1
Recommended: Admission to Phase II

LTC 4400: Teaching Middle and Secondary English/Language Arts III
Prepare prospective educators by focusing on the teaching of American culture and critical thinking, through literacy, mediacy, oracy, and cultural artifacts.
Credit Hours: 3
Prerequisites: LTC 4380 or LTC 7380 and LTC 4390 or LTC 7390
Recommended: Admission to Phase II

LTC 4404: Teaching Middle School Language Arts III Field Experience
This field experience supports the LTC 4400 component of Phase II. Field experience expectations are delineated in the LTC 4400 course syllabi. Graded on a S/U basis only.
Credit Hour: 1
Recommended: Admission to Phase II

LTC 4410: Teaching, Engaging and Assessing Middle-Level Students
In this course students will learn about the specific and individual needs of middle-level students and develop the skills and understandings to meet these needs.
Credit Hours: 3
Recommended: Admission to Phase II

LTC 4410W: Teaching, Engaging and Assessing Middle-Level Students - Writing Intensive
In this course students will learn about the specific and individual needs of middle-level students and develop the skills and understandings to meet these needs.
Credit Hours: 3
Recommended: Admission to Phase II

LTC 4414: Teaching, Engaging & Assessing Mid-Level Students Field Experience
This field experience supports the LTC 4410 component of Phase II. Field experience expectations are delineated in the LTC 4410 course syllabi. Graded on a S/U basis only.
Credit Hour: 1
Recommended: Admission to Phase II

LTC 4420: Adolescent Literacy (cross-leveled with LTC 7420). Explores literacy implications of content areas. Topics include determining the difficulty of text, examining literature that supports content, creating alternative assessments, and evaluating reading/writing strategies as tools for learning. (Required of all students obtaining certification in middle school or concurrent certification in middle and secondary school area(s) except language arts.
Credit Hours: 3
Recommended: Admission to Phase II

LTC 4424: Middle School Literacy Field Experience
This field experience supports the LTC 4420 component of Phase II. Field experience expectations are delineated in the LTC 4420 course syllabi. Graded on a S/U basis only.
Credit Hour: 1
Recommended: Admission to Phase II

LTC 4460: Teaching English to Speakers of Other Languages (same as LINGST 4650; cross-leveled with LTC 7460, LINGST 7650). Linguistic and pedagogical principles of teaching English to speakers of other languages. Graded A-F only.
Credit Hours: 3
Prerequisites: Consent required

LTC 4470: Teaching Secondary English/Language Arts I
Prepares prospective educators with the knowledge, skills, and strategies necessary for integrating and teaching the English/Language Arts, primarily focusing on Young Adult Literature and critical thinking.
Credit Hours: 3
Recommended: Admission to Phase II

LTC 4474: Teaching Secondary English/Language Arts I Field Experience
This field experience supports the LTC 4470 component of Phase II. Field experience expectations are delineated in the LTC 4470 course syllabi. Graded on a S/U basis only.
Credit Hour: 1
Recommended: Admission to Phase II

LTC 4480: Teaching Middle and Secondary English/Language Arts II
Prepares prospective educators with the knowledge and strategies necessary for integrating and teaching the English/Language Arts, primarily focusing on the teaching of writing and critical thinking.
Credit Hours: 3
Recommended: Admission to Phase II

LTC 4480W: Teaching Middle and Secondary English/Language Arts II - Writing Intensive
Prepares prospective educators with the knowledge and strategies necessary for integrating and teaching the English/Language Arts, primarily focusing on the teaching of writing and critical thinking.
Credit Hours: 3
Recommended: Admission to Phase II

LTC 4484: Teaching Secondary English/Language Arts II Field Experience
This field experience supports the LTC 4480 component of Phase II. Field experience expectations are delineated in the LTC 4480 course syllabi. Graded on a S/U basis only.
Credit Hour: 1
Recommended: Admission to Phase II
LTC 4490: Teaching Middle and Secondary English/Language Arts III
Prepares prospective educators by focusing on the teaching of American culture and critical thinking, through literacy, mediacy, oracy, and cultural artifacts.
Credit Hours: 3
Prerequisites: LTC 4470 or LTC 7470 and LTC 4480 or LTC 7480
Recommended: Admittance to Phase II

LTC 4494: Teaching Secondary English/Language Arts III Field Experience
This field experience supports the LTC 4490 component of Phase II. Field experience expectations are delineated in the LTC 4490 course syllabi. Graded on a S/U basis only.
Credit Hour: 1
Recommended: Admittance to Phase II

LTC 4500: Emergent Language in Early Childhood
Study of language learning in young children; how meaning of the environment is gained through language; implications for teachers working with children from varying language-learning environments.
Credit Hours: 3

LTC 4510: Assessment in Early Childhood Education
A study of formal and informal assessment instruments and procedures used to measure progress and determine developmentally appropriate curriculum for children in early childhood settings.
Credit Hours: 3
Recommended: H_D_FS 3420 or equivalent child development or child psychology course

LTC 4530: Introduction to Social Studies
Will introduce prospective teachers to the profession of social studies teaching; to the bases for making curriculum choices in social studies and the process of choosing content; and the process of planning curriculum and instruction in social studies classrooms.
Credit Hours: 3
Recommended: Admittance to Phase II

LTC 4534: Secondary Social Studies I Field Experience
This field experience supports the LTC 4530 component of Phase II. Field experience expectations are delineated in the LTC 4530 course syllabi. Graded on a S/U basis only.
Credit Hour: 1
Recommended: Admittance to Phase II

LTC 4541: Reading and Writing in the Social Studies
(cross-leveled with LTC 7541). Focuses on the teaching of reading and writing strategies for social studies teachers. Students review literacy interventions related to reading and writing historical texts. Graded on A-F basis only.
Credit Hours: 3
Recommended: Admittance to Phase II

LTC 4544: Reading and Writing in the Social Studies Field
This field experience supports the Learning, Teaching and Curriculum 4541 component of Phase II. Field experience expectations are delineated in the LTC 4541 course syllabi. Graded on a S/U basis only.
Credit Hour: 1
Recommended: Admittance to Phase II

LTC 4550: Assessment in Social Studies
Will address the purposes and development of social studies assessment for all levels from classroom to national assessment. Assessment will be used to reflect upon curriculum/instruction, make revisions and set goals.
Credit Hours: 3
Recommended: Admittance to Phase II

LTC 4550W: Assessment in Social Studies - Writing Intensive
Will address the purposes and development of social studies assessment for all levels from classroom to national assessment. Assessment will be used to reflect upon curriculum/instruction, make revisions and set goals.
Credit Hours: 3
Recommended: Admittance to Phase II

LTC 4554: Secondary Social Studies III Field Experience
This field experience supports the LTC 4550 component of Phase II. Field experience expectations are delineated in the LTC 4550 course syllabi. Graded on a S/U basis only.
Credit Hour: 1
Recommended: Admittance to Phase II

LTC 4560: Reading and Writing in the Content Areas
(cross-leveled with LTC 7560). For secondary school teachers. Specific ways teachers can help students improve reading and writing skills in content areas and ways they can be taught.
Credit Hours: 3
Recommended: Phase II admittance

LTC 4565: Reading and Writing in the Content Areas II
(cross-leveled with LTC 7565). Reading and Writing in the Content Areas II explores specific reading and writing content area strategies, with a focus on struggling students and new investigations in disciplinary literacy.
Credit Hours: 3
Prerequisites: LTC 4560 or LTC 7560 or LTC 4380

LTC 4566: Reading and Writing in the Content Areas II (cross-leveled with LTC 7565). Reading and Writing in the Content Areas II explores specific reading and writing content area strategies, with a focus on struggling students and new investigations in disciplinary literacy.
Credit Hours: 3
Prerequisites: LTC 4560 or LTC 7560 or LTC 4380

LTC 4571: Introduction to Teaching Mathematics in Middle and Secondary Schools
Introduction to teaching mathematics including: professional mathematics teacher associations and journals, learning theories related to teaching mathematics, tools, and materials for teaching mathematics, curriculum and instructional strategies (middle and lower high school level), and techniques for assessing mathematical understanding. Recommended: Admittance to Phase II
Credit Hours: 3

</table>
and curricula for teaching/learning science; and using technology in science learning.

Credit Hours: 3
Prerequisites: LTC 4631 and LTC 4641
Recommended: Admittance to Phase II

---

LTC 4654: Teach Sci MS/Sec Sch: Phil, Hist, Sci Inq, Curr, Assm & Tech III Fld
This field experience supports the LTC 4651 component of Phase II. Field experience expectations are delineated in the LTC 4651 course syllabi. Graded on a S/U basis only.

Credit Hour: 1
Recommended: Admittance to Phase II

---

LTC 4730: Overview of Art Education
This is the first of a three course sequence and serves as the foundation for inquiries of methodological and philosophical approaches to the teaching of the visual arts at the elementary and secondary level.

Credit Hours: 3
Recommended: Admittance to Phase II

---

LTC 4734: Overview of Art Education Field Experience
This field experience supports the Learning, Teaching and Curriculum 4730 component of Phase II. Field experience expectations are delineated in the LTC 4730 course syllabi. Graded on a S/U basis only.

Credit Hour: 1
Recommended: Admittance to Phase II

---

LTC 4740: Inquiry into Art Education: Pre-School Through Middle School
The second of three course sequence. It will cover art education issues as they apply to the Pre-School through Middle School setting.

Credit Hours: 3
Prerequisites: LTC 4730 or LTC 7730
Recommended: Admittance to Phase II

---

LTC 4740W: Inquiry into Art Education: Pre-School Through Middle School - Writing Intensive
The second of three course sequence. It will cover art education issues as they apply to the Pre-School through Middle School setting.

Credit Hours: 3
Prerequisites: LTC 4730 or LTC 7730
Recommended: Admittance to Phase II

---

LTC 4744: Inquiry into Art Education: Pre-School Through Middle School Field Experience
This field experience supports the LTC 4740 component of Phase II. Field experience expectations are delineated in the LTC 4740 course syllabi. Graded on a S/U basis only.

Credit Hour: 1
Recommended: Admittance to Phase II

---

LTC 4750: Inquiry into Art Education: Secondary
The third of a three course sequence. Student will learn about secondary art education and make application to practice with emphasis on adolescent development, curriculum design, student assessment, instruction, diversity/equity, and professionalism.

Credit Hours: 3
Prerequisites: LTC 4740 or LTC 7740
Recommended: Admittance to Phase II

---

LTC 4754: Inquiry into Art Education: Secondary Field Experience
This field experience supports the LTC 4750 component of Phase II. Field experience expectations are delineated in the LTC 4750 course syllabi. Graded on a S/U basis only.

Credit Hour: 1
Recommended: Admittance to Phase II

---

LTC 4800: Educational and Cultural Experience Abroad
(cross-leveled with LTC 7800). Students work in a collaborative setting with K-12 educations in the host country. Components of this experience include research, discussion, electronic communication, in-country observations, and co-teaching experiences with a focus on the host-country education and culture.

Credit Hour: 0-6

---

LTC 4960: Special Readings in Curriculum and Instruction
Directed study of literature and research reports in education.

Credit Hour: 1-3

---

LTC 4970: Standardized Assessments
This non-credit course will provide resources to assist with standardized assessments required to become a Missouri certified teacher. Graded on S/U basis only.

Credit Hours: 0
Recommended: Admittance to Phase III

---

LTC 4971: Internship and Capstone Seminar
Internship is a full-semester experience in the public schools, including a capstone seminar addressing problems of practice (integrating subjects, reading and writing across the curriculum, meeting all students' needs), and evaluation of the interns preparation for entering the profession. It is offered each Fall and Spring for 10-16 credit hours. Admittance to College of Education required.

Credit Hour: 1-16
Prerequisites: ED_LPA 4060 or ED_LPA 7060
Recommended: Admittance to Phase III

---

LTC 4975: Educational Studies Senior Capstone
The senior capstone course is designed to allow a rigorous and in depth study area of inquiry within the field of education. The area of inquiry is cumulative and includes critical analysis and theoretical and/or pragmatic integration of scholarly materials. The course of study is individualized under the guidance of a faculty member. Graded on A-F basis only.

Credit Hours: 3
Recommended: Senior Standing, 90+ credit hours, Bachelor of Educational Studies major
LTC 4981: Internship I
This field experience provides preservice interns a semester-long public school experience where they simultaneously engage in a unique combination of observation and teaching. Through observation, conferencing, reading, discussion, demonstration, and participation, the preservice intern will synthesize the course concepts of the Senior Year On-Site Program (SYOSP). Graded on A-F basis only.
Credit Hour: 1-4
Prerequisites: ED_LPA 4060 or ED_LPA 7060
Recommended: Admittance to Phase III

LTC 7040: Inquiring into Schools, Community and Society I
This course focuses on schooling in American society, the school community, the school culture and students' lives and identities. Studied are the political, cultural, and economic conditions of the schools.
Credit Hour: 2-3
Prerequisites: TDP 2020 and completion of Phase I or enrollment in a graduate level program in the College of Education

LTC 7085: Problems in Curriculum and Instruction
Studies professional programs and issues in health or physical education.
Credit Hour: 1-3
Prerequisites: instructor's consent

LTC 7091: Assessment and Family Collaboration in Early Childhood Education
(cross-leveled with LTC 4091). Strategies for effectively observing and assessing young children and strategies for building positive family and community relationships, which support children's development and learning.
Credit Hours: 3
Prerequisites: Consent required (enrollment limited to students admitted to Phase II)

LTC 7100: Young Children's Emergent Language
For Early Childhood and Elementary Education majors. Study of young children's language development and implications for teachers.
Credit Hours: 2
Prerequisites: admittance to Phase II; admittance to College of Education required
Corequisites: LTC 4120, LTC 4210, and K-3 field experience

LTC 7110: Working with Infants and Toddlers
Experience working with children aged 6 weeks to 2 1/2 years and their families. Opportunity to apply theories of cognitive, language, and social development.
Credit Hours: 3
Prerequisites: course in child development and admission to Phase II; admittance to College of Education required

LTC 7120: Early Childhood Education Literacy Methods & Assessment I
