Welcome to the University of Missouri 2018-2019 catalog! We are pleased to provide an interactive and searchable catalog online.

The catalog is a comprehensive reference for your academic studies. It includes a list of all degree programs offered at MU, including bachelors, masters, specialists, doctorates, minors, certificates, and emphasis areas. It details the university wide requirements, the curricular requirements for each program, and in some cases provides a sample plan of study. The catalog includes a complete listing and description of approved courses. It also provides information on academic policies, contact information for supporting offices, and a complete listing of faculty members.

Information in the catalog is current as of May 2018. The next catalog will be published in May 2019. In the interim, new courses will be announced in myZou (https://myzou.missouri.edu) (MU's online student information system), and are usually available in October for the upcoming Spring semester, and in March for the upcoming Summer and Fall semesters. Mid year changes to current courses (titles, descriptions and credit hours) are not reflected here, and will only show in myZou. For more information about which year's edition of the catalog applies to whom and under what circumstances, go to Catalog Editions (p. 796) in the Academic Policies section.

Use the search box above, or click on the left hand menus to navigate through the catalog. There is also a PDF version available through the Print Options link above.

We welcome your feedback and suggestions to make this catalog better for the future. We would also appreciate reports of any broken links inside the catalog. Feedback may be provided by sending an email to muregistrarcatalog@missouri.edu. (muregistrarcatalog@missouri.edu)

Brenda Selman
University Registrar
Degrees, Majors (Degree Programs), Emphasis Areas, Minors and Certificates

Superscripts on emphasis areas correspond to superscripts on that degree program’s majors where the emphasis is applicable. See tables following the degree listing for Keys to the College and Degree abbreviations.

Major and Career Exploration

The University of Missouri has many resources to assist you in exploring majors and career possibilities. For guidance, visit the Majors and Careers (https://career.missouri.edu/majors-careers) website or view specific resources below.

- If you are considering a change of major or are exploring multiple majors, schedule an appointment with an advisor in Academic Exploration and Advising Services (AEAS) (http://aeas.missouri.edu) by calling (573)/884-9700.

- If you would like to learn more about your career interests, abilities, values and talents, visit the MU Career Center (http://career.missouri.edu) in the lower level of the Student Success Center. No appointment is necessary to explore career options with one of our staff members.

- If you would like information about MU majors and degree programs, visit:
  - the Degrees, Majors (Degree Programs), Emphasis Areas, Minors and Certificates (p. 18) page in the catalog,
  - the MU Majors (https://majors.missouri.edu) website.

- If you want information on what you can do with a major, contact or visit:
  - Faculty or staff in the home academic department for that major,
  - the What Can I do With This Major (https://career.missouri.edu/majors-careers/explore-mu-majors) website

- If you are interested in information about occupations you're considering, visit O*Net (https://www.onetonline.org) or the Occupational Outlook Handbook (http://www.bls.gov/ooh).

- If you are curious about employment opportunities including internships and after-graduation employment, contact or visit the appropriate MU Career Services Office (http://hiremizzoutigers.com/career-offices).
University Level Academic Degree Requirements

Undergraduate

Undergraduate Requirements (University) (p. 33)
Common Credit Limitations (p. 33)
General Education Requirements (p. 34)

Degree Audits for Undergraduates

The degree audit is an automated report reflecting a student’s academic progress toward the completion of a degree. Degree Audits are not available for all programs; however, please consult with the appropriate college or school for audit information.

MU students can request a degree audit by logging in to myDegreePlanner (https://mydegreeplanner.missouri.edu). Students may also access myDegreePlanner via myZou, in the Student Center, by clicking on the Request Degree Audit link. The audit automatically pulls in the student’s MU course work, transfer courses and courses in progress. This is available to current students, admitted students, and those who last attended less than three terms ago.

Past MU students can request a degree audit by contacting the Academic Advising Unit of the division in which they were last enrolled at MU. For contact information, go to http://advising.missouri.edu/contact/.

Prospective students can access a preliminary MU degree audit via http://www.transfer.org (http://www.transfer.org). Information on the college credits already earned will have to be manually entered before it can be evaluated against current degree requirements.

For additional details on degree audits, go to http://registrar.missouri.edu/degree-audits/index.php.

Graduate and Professional

Master’s Requirements (University) (p. 35)
Educational Specialist Requirements (University) (p. 39)
Doctoral Requirements (Graduate School) (p. 41)
Doctoral Requirements (Law School) (p. 46)

Details on the academic requirements for medical students can be found at http://medicine.missouri.edu/education/curriculum.html.

Details on the academic requirements for veterinary medical students can be found at http://cvm.missouri.edu/about-the-college/.

Undergraduate Requirements (University)

Undergraduate students must complete all University requirements as well as all requirements specified for the degree(s) and major(s), and requirements of the college or school, and department offering the degree. This would include the University general education requirements as well as the following:

- A second MU Writing Intensive course must be completed in a student’s major. It needs to be a 3000/4000 level MU WI course approved as part of the curriculum by the faculty of a student’s major.
- Complete an approved capstone course with MU course work in the student’s major.
- Complete 30 of the last 36 credits with MU authored courses.
- Complete no fewer than 120 credit hours of coursework.
- Students may transfer more than 64 credit hours for lower division courses from either Missouri associate degree-granting or baccalaureate degree-granting institutions. Any additional lower division course credits above 64 credit hours will be accepted in transfer if the credits are applicable to the baccalaureate degree or are prerequisites for an upper division course in the major.
- Complete all University, general-education requirements (See the University General Education Requirements section in the catalog.)
- Earn no less than a 2.00 GPA, as defined by the GPA of Record.
- Complete any additional divisional, degree or major requirements as specified by the academic unit offering the degree.
- Must be completed with a grade of C- or better.

Common Credit Limitations

The following credit limitations are applicable to all undergraduate students, regardless of degree program. Please check with advisor for more information.

Chemistry

- A student can earn a maximum of 10 hours of credit towards graduation from the following courses: CHEM 1000 Introductory Chemistry, CHEM 1100 Atoms and Molecules with Lab CHEM 1320 College Chemistry I, CHEM 1330 College Chemistry II. CHEM 1310 (General Chemistry I) is also included in this maximum if you took the course prior to Fall 2013.

Economics

- Students may not receive credit towards graduation for more than one of the following courses: ECONOM 1014 Principles of Microeconomics, ECONOM 1024 Fundamentals of Microeconomics, ECONOM 1051, or ABM 1041 Applied Microeconomics.
- Students may not receive credit towards graduation for more than one of the following courses: ECONOM 1015 Principles of Macroeconomics, ECONOM 1051H General Economics - Honors or ECONOM 1000 General Economics, or ABM 1042 Applied Macroeconomics.

History

- Students may not earn credit towards graduation for both HIST 1100 Survey of American History to 1865 and HIST 1400 American History.
- Students may not earn credit towards graduation for both HIST 1200 Survey of American History Since 1865 and HIST 1400 American History.

Mathematics

- Students can only have a total of 5 hours of credit towards graduation from the following courses: MATH 1320 Elements of Calculus, MATH 1400 Calculus for Social and Life Sciences I, MATH 1500 Analytic Geometry and Calculus I.
- Students can only have a total of 5 hours of credit towards graduation from the following courses: MATH 1100 College Algebra,
MATH 1120, MATH 1140 Trigonometry, MATH 1160 Precalculus Mathematics.

- No hours for MATH 1050 Quantitative Reasoning will count for credit if a student has already earned credit for MATH 1300 Finite Mathematics, MATH 1400 Calculus for Social and Life Sciences I, or MATH 1500 Analytic Geometry and Calculus I.

Physics

- Students may not earn credit towards graduation for both PHYSCS 1210 College Physics I and PHYSCS 2750 University Physics I.
- Students may not earn credit towards graduation for both PHYSCS 1220 College Physics II and PHYSCS 2760 University Physics II.

Psychology

- Students may not receive credit towards graduation for more than one of the following courses: PSYCH 2410 Developmental Psychology, H_D_FS 3420 Early and Middle Childhood, or ESC_PS 2500 Child Development.

Statistics

- Students may not receive credit towards graduation for more than one of the following courses: STAT 1200 Introductory Statistical Reasoning, STAT 1300 Elementary Statistics, or STAT 1400 Elementary Statistics for Life Sciences.
- Students may not receive credit towards graduation for more than one of the following courses: STAT 2500 Introduction to Probability and Statistics I or STAT 2530 Statistical Methods in Natural Resources.
- Students may only receive a maximum of 4 hours of credit towards graduation from the following courses: STAT 1200 Introductory Statistical Reasoning, STAT 1300 Elementary Statistics, STAT 1400 Elementary Statistics for Life Sciences, STAT 2200 Introductory Statistical Methods, STAT 2500 Introduction to Probability and Statistics I, or STAT 2530 Statistical Methods in Natural Resources.
- A student may not receive credit toward an undergraduate degree for any statistics course numbered 2999 or below if a statistics course numbered 4000 or above was successfully completed prior to or concurrent with the course in question. Exceptions may be approved at the discretion of the department.

Common University General Education Requirements for all MU degrees

- College Algebra (MATH 1100) or transferable equivalent¹ (3 credits). Students may satisfy this requirement by:
  - Completing an appropriate math course (MATH 1100 or MATH 1160),
  - Completing a calculus course at MU (MATH 1400, MATH 1500, MATH 1700, or MATH 2300)¹, which provides back-credit for MATH 1100 (or MATH 1160),
  - Passing the Proctored ALEKS Exam with a sufficient score, thereby demonstrating proficiency in College Algebra, or
  - Possessing the minimum ACT or SAT Math subscores, thereby providing an exemption (See mathplacement.missouri.edu for further details)

- English Exposition and Argumentation (ENGLISH 1000 or ENGLISH 1000H) or transferable equivalent¹ (3 credits)
  - This course in expository prose, which stresses writing as a process involving critical reading and thinking skills, should be taken during your freshman year.

- Writing Intensive course¹,²,³ (3 credits, 1 courses)
- American History or Government²,⁵ (3 credits)
- Math Reasoning Proficiency Course¹,² (these courses must state that College Algebra is a prerequisite)
- Complete an approved capstone course¹ with MU course work in the student’s major
- Distribution Requirement (27 credits) providing a breadth and depth of knowledge in three broad areas of study. The course work must include at least one course numbered 2000 or higher in two of the areas of distribution as described below.
  - Must include 9 credits in these areas: biological science, physical science, and / or mathematical science⁶
    - including at least one biological or physical science and its related laboratory component⁶
  - Must possess the minimum ACT or SAT Math subscores, thereby demonstrating proficiency in College Algebra, or
  - Completing an appropriate math course (MATH 1100 or MATH 1160), MATH 1700, or MATH 2300)
- Must include 9 credits of humanities and/or fine arts
  - including courses from at least two different areas
- For the full list of courses that fulfill this distribution and the noted exceptions, go to: http://generaleducation.missouri.edu/courses/

General Education Requirements

General education requirements are the foundation of knowledge upon which all University of Missouri degrees are built. They are specifically intended to prepare students as citizens who must make informed judgments about issues that go beyond the narrow area of their academic specialization. Students must complete the University General Education Requirements listed below. With careful planning, some courses may be chosen to meet both University General Education Requirements and one or more of the divisional, degree and major requirements. Students are strongly encouraged (and in some divisions they are required) to meet with an academic advisor to ensure adequate progress towards the selected degree and major. More information can be found at: http://generaleducation.missouri.edu/.

¹ Must be completed with a grade of C- or better.
² Designated courses may also be used toward the distribution requirement.
³ Course must be taken at MU unless requirement is waived via completion of an AA degree from a regionally-accredited, Missouri institution.
⁴ Must be courses in mathematics or statistics with College Algebra as a prerequisite.
⁵ Fulfills State Law Requirement.
⁶ These requirements must be met in the student’s major.
The term “laboratory” is used in reference to courses or portions of courses that satisfy the following criteria:

- They provide students with an opportunity for the active collection and/or analysis of data from real-world observations and experiments. These activities need not take place in a conventional “laboratory” setting but may be undertaken anywhere that an appropriate experiment or observation can take place (e.g., in the field).
- They promote scientific literacy and critical thinking/problem solving skills.
- Whenever possible, they include opportunities for students to design experimental or observational protocols.
- If the laboratory is directly associated with a specific lecture course or is included as part of a course that also includes lecture, the laboratory activities promote understanding of the content presented in the lecture.

### Transfer Students and University General Education Requirements

All University, general-education requirements are considered completed for students who transfer to MU with an AA degree from a regionally-accredited Missouri institution. Transfer credits for other students are evaluated on a course-by-course basis. All students must complete University graduation requirements beyond the University general education requirements.

**CORE 42 Transfer Curriculum**

The CORE 42 Transfer Curriculum is a block of at least 42 credit hours that will transfer as a block and be considered to have met all General Education requirements at all Missouri public colleges and universities.

Students who complete the CORE 42 curriculum will meet the general education requirements.

To complete the curriculum, students must earn a minimum number of credit hours in five knowledge areas:

- Mathematical sciences – three credit hours
- Natural sciences – seven credit hours, including a course with a lab
- Humanities and fine arts – nine credit hours from at least two disciplines
- Social and behavioral sciences – nine credit hours, including a civics course
- Written and oral communications – nine credit hours (six in written communications and three in oral communications)

Credits earned beyond the minimum in each Knowledge area count toward the 42-hour minimum.

**MOTR Course Equivalencies**

Courses designated with a Missouri Transfer (MOTR) course number, guarantees the one-to-one transfer of these courses among all Missouri public institutions of higher education.

For more information about CORE 42 and MOTR Course Equivalencies, visit [https://dhe.mo.gov/core42.php](https://dhe.mo.gov/core42.php).

NOTE: Many departments, degrees and majors have more specific requirements for foundation course work in addition to the University, general-education requirement. However, the reverse is not true. Departments or academic units may not have fewer general education requirements than described by the University general education requirements. Careful planning will allow students to simultaneously meet University, general-education requirements and prepare for many of the more specific foundation courses required by their field of study.

### Master’s Requirements (University)

The purpose of this section is to provide an overview of the Office of Graduate Studies policies. Students considering a master’s degree should read all of the information below to fully understand the requirements of advanced study (e.g., residency, plan of study and time lines for completion) at MU.

MU confers a variety of master’s, dual master’s degrees ([http://gradschool.missouri.edu/academics/process/dual-masters-process](http://gradschool.missouri.edu/academics/process/dual-masters-process)) or dual master’s/professional degrees to students who satisfy the general requirements of the Graduate Studies and the specific requirements of the degree-granting department or area program. Designated graduate minors and certificates are available in some academic fields. Thesis and non-thesis options are available for select plans of study; students must consult with individual degree programs for more information.

### Master’s Residency Requirements

The faculty of each graduate program determines its own residency requirements for master’s degrees, subject to initial review by the Graduate Faculty Senate. Consult with the academic program for requirements. For academic programs that choose to maintain the traditional regulation concerning residency for master’s students, the following applies: the student must complete a minimum of 24 semester hours of MU graduate courses which are taught by MU faculty and which are approved by the academic program and the Graduate School. Students who cannot fulfill residency requirements are encouraged to consider Mizzou Online for available degrees.

### Graduation and Commencement Deadlines and Forms

It is recommended that students refer often to the Graduation & Commencement Deadlines for Master’s Students ([http://gradstudies.missouri.edu/academics/graduation-commencement/timeline-deadlines/master-timeline.php](http://gradstudies.missouri.edu/academics/graduation-commencement/timeline-deadlines/master-timeline.php)) to avoid missing any important graduation or commencement deadlines. In addition to various deadlines, student must also submit a variety of necessary paperwork. By the end of the first year of master’s work at MU, a student must begin submitting degree program forms, which will aid the department and the Office of Graduate Studies in planning an academically appropriate course of study and in tracking the student’s progress toward degree completion. These forms include the following:

- **Program of Study.** Outlines the course work to be included in the student’s degree program. Due in the Office of Graduate Studies by the end of the second semester unless the degree can be completed in two semesters. In that case, the form is due by the end of the first semester. Plan of Study (M1) form ([pdf](http://gradschool.missouri.edu/forms-downloads/repository/m1.pdf)) Request for Thesis Committee (thesis option only). Is a membership proposal for the student’s thesis committee. Due in the Office of Graduate Studies by the end of the second term. Request for Thesis Committee (M2) form ([pdf](http://gradschool.missouri.edu/forms-downloads/repository/m2.pdf))
- **Report of Master’s Examining Committee.** Reports the results of the thesis defense, master’s comprehensive exam, project presentation, portfolio review, etc. Due in the Office of Graduate Studies two weeks
Choosing an Advisor

Graduate Committee Membership for Jointly Appointed Faculty Chapter 320 of the Collected Rules and Regulations for the University of Missouri requires that all jointly appointed faculty members will have designated Primary Appointment and Primary Departments well as affiliation with one or more involved academic programs. These affiliations affect membership status of jointly appointed faculty on graduate student committees as follows:

- Faculty members may serve as advisor/committee chair when their Primary Appointment is in the graduate student’s home academic program.
- When the graduate student’s home academic program is the involved academic program for a jointly appointed faculty member, this person may serve as chair/advisor with the approval of the director of graduate studies from the student’s home academic department.
- A faculty member can only serve as an Internal Member when their Primary Appointment is in the graduate student’s home academic program.
- When a graduate student’s academic program is not the home academic program for a jointly appointed faculty member, they may serve as either an internal or external member of the committee.

Graduate Committee Membership for Adjunct Faculty

Adjunct Faculty may serve as a Committee Chair or Committee Member only in academic programs in which they are appointed and approved for Graduate or Doctoral Faculty membership as appropriate for the student’s degree (Master’s or Doctoral). Service on graduate committees outside the academic program in which they are appointed requires a recommendation by the director of graduate studies from the student’s home academic program and approval by the vice provost for advanced studies and dean of the Graduate Studies.

Master’s Plan of Study

The Graduate Faculty Senate has established a campus wide minimum of 30 hours of graduate credit beyond the bachelor’s degree (or its equivalent) for a master’s degree. Fifteen of the 30-hour minimum must be selected from courses numbered at 8000 or 9000 level. No more than 40 percent of the 30-hour credit requirement can be satisfied by a combination of special investigations, Research, Readings and/or Problems courses. Master’s Plan of study. (http://gradschool.missouri.edu/academics/process/plan-of-study/masters.php)

Completing a Plan of Study Form

After performing satisfactorily for a minimum of one semester, the student, with the advisor’s assistance, completes the Plan of Study form (pdf) that outlines the plan of study for the student’s graduate program. The form is forwarded through the academic program’s director of graduate studies to the Office of Graduate Studies for approval. The Plan of Study form must be filed with Graduate Studies by the end of the student’s second semester of enrollment or at least one semester prior to graduation. Upon approval of the program by the Office of Graduate Studies, the student is a candidate for the degree. If a change

Transfer Credit Toward a Master’s Degree

A maximum of 20 percent of the number of credit hours required for a student’s degree may be graduate credits transferred from another university, including another campus of the University of Missouri system upon the recommendation of the advisor, the approval of the academic program director of graduate studies and the Office of Graduate Studies.

Minimum Transfer Requirements

Transfer course work:

- must be less than eight years old by the time the master’s degree is conferred;
- was taken for graduate credit and clearly marked as such on the transfer transcript, complete with credit hours and a grade;
- is limited to no more than 20 percent of the total course work on the student’s Plan of Study form;
- is from a regionally accredited institution in the U.S. or an overseas institution that is recognized by its country’s Ministry of Education as a graduate degree granting institution; and

Credit Toward a Second Master’s Degree

A student who has completed one master’s degree at the University of Missouri or elsewhere may, upon recommendation of the advisor and approval by the academic program’s director of graduate studies and the Office of Graduate Studies, present a maximum of eight hours of credit earned in the previous program toward a second master’s degree.

How to Request Transfer of Credit

1. The request or transfer credit must first be approved by the student’s advisor and the department’s director of graduate studies.
2. Once approved the student submits his/her Plan of Study or Course Substitution form to add the transfer work to the Plan of Study along with an unopened, official transfer transcript if one is not currently on file with the Office of Graduate Studies.
3. Once the Office of Graduate Studies has received the request it will be reviewed to determine if minimum requirements have been met.
4. If approved then the Office of Graduate Studies will process the request so that the transfer credit appears on the MU student record.

Credit Toward a Second Master’s Degree

A student who has completed one master’s degree at the University of Missouri or elsewhere may, upon recommendation of the advisor and approval by the academic program’s director of graduate studies and the Office of Graduate Studies, present a maximum of eight hours of credit earned in the previous program toward a second master’s degree.

Forming a Master’s Thesis Committee

When a thesis is required for completion of a master’s degree, the student is required to submit a Request for Thesis Committee (M2 form)
Examination Process

Thesis Option

Where a thesis is presented in partial fulfillment of graduation requirements, students must form a thesis committee. In the final semester, the student must successfully present (defend) the thesis. Three members of the student’s committee must sign the Report of the Master’s Degree Examining Committee (pdf). which is then forwarded through the academic program’s director of graduate studies to the Office of Graduate Studies by the semester deadline.

Non-Thesis Option

Where no thesis is presented by the candidate, a final examination committee, composed of three members from the academic program, is designated by the academic program’s director of graduate studies with the approval of the office of Graduate Studies. During the final semester, the Report of the Master’s Examining Committee (pdf), signed by the director of graduate studies, is forwarded to the Office of Graduate Studies by the semester deadline. All candidates for the MA or MS degrees must complete either a thesis or a substantial independent project that cannot be coauthored.

Enrollment at the Master’s Level

For general master’s enrollment requirements go to the Office of Graduate Studies web page on master’s enrollment requirements. For master’s enrollment requirements go to the Office of Graduate Studies web page on master’s enrollment requirements. For general master’s enrollment requirements go to the Office of Graduate Studies web page on master’s enrollment requirements. For general master’s enrollment requirements go to the Office of Graduate Studies web page on master’s enrollment requirements.

Enrollment

The master’s candidate must be enrolled at the University during the semester or session in which a thesis is defended, a master’s project is presented, or the completion of a master’s comprehensive exam is certified.

Scheduling Exams, etc.

Comprehensive exams, thesis defenses, portfolio presentations and the like may be offered during the regular semester session. Dates that are excluded from graduation examinations include breaks between regular semester sessions, national holidays where the University is not in operation and weekends.

Enrollment for Graduate Examination

Master’s and educational specialist degree candidates who have completed all requirements except the final examination or the defense of the thesis/project must be enrolled when the final examination is given or the thesis/project is defended. Students who do not wish to enroll in course work during this time can enroll in “Graduate Examination” hours or the thesis/project is defended. Students who do not wish to enroll in course work during this time can enroll in “Graduate Examination” hours, or the thesis/project is defended. Students who do not wish to enroll in course work during this time can enroll in “Graduate Examination” hours. Students who do not wish to enroll in course work during this time can enroll in “Graduate Examination” hours.

Note: Registration in the “Graduate Examination” does not count toward enrollment certification. Students enrolled in the “Graduate Examination” would not be considered full-time or part-time.

Graduate students must be enrolled in at least nine credit hours to be considered full-time students and at least four credit hours to be considered half-time students during fall and spring terms. For summer terms, graduate students must be enrolled in four hours to be considered full-time and two hours to be considered half-time students.
Time Limit for Master's Degree Completion

The program for the master's degree must be completed within a period of eight years beginning with the first semester of enrollment in which the student is accepted to a degree program or from the date of the oldest coursework used on the plan of study. Individual academic programs may stipulate a shorter time period. Time spent in the armed services will not count toward the eight-year limit (see also Active Duty Policy). For any extension of this time limitation, the student must petition the Office of Graduate Studies by submitting a request to the advisor who, in turn, submits a written recommendation to the Office of Graduate Studies that is endorsed by the academic program’s director of graduate studies. The Office of Graduate Studies will notify the advisor in writing of the final decision.

For academic advice or assistance with degree program planning, students should contact their advisors. See master's graduation requirements. (http://gradschool.missouri.edu/academics/graduation-requirements/masters-grad-requirements.php)

Reasonable Rate of Progress for Master’s Students

Reasonable rate of progress is governed by both the campus-wide policies of the Office of Graduate Studies as well as academic program regulations which may be more restrictive. Failure to satisfy the Office of Graduate Studies rate of progress policies leading to dismissal is handled by the Request for Extension (http://gradschool.missouri.edu/academics/progress/requests-for-extensions-appeals.php) process.

Deadline for Submission of Thesis After Successful Defense

After successful defense of the thesis or dissertation, students must comply with their academic program’s and/or the International Center’s enrollment requirements. Students are required to submit their final dissertation or thesis by the end of the following semester after a successful defense unless a letter asking for an extension is submitted to the Graduate Dean by the student’s advisor and program’s DGS.

Extension Requests for Master’s Students

Extenuating circumstances that inhibit a student’s rate of progress are handled through the Request for Extension (http://gradschool.missouri.edu/academics/progress/requests-for-extensions-appeals.php) process.
Note on Dual Degrees for Law Students

Dual-degree programs with the Law School enable students to earn the Juris Doctor (JD) concurrently with a Master’s or PhD degree. Dual-degree students must fulfill entrance requirements for both schools, including the graduate studies’s entrance exam (if required) and the LSAT. Contact the Law School (p. 766) for more information on their dual-degree programs.

Note on Dual Degrees for Medical Students

Additional information concerning medical dual degrees for both master’s and doctoral students can be found on the doctoral dual degree (http://gradschool.missouri.edu/academics/graduation-requirements/dual-degree-requirements.php) page.

Counting Credits

A student must complete a minimum of 18 hours of graduate courses for each degree program respectively. A minimum of 3 hours must be 8000-level courses. Additionally, the student must complete 12 hours of shared 8000-level graduate credit, which can include thesis/project research credit, as applicable.

Thus, 18 + 18 + 12 = 48 hours of graduate credit which is the minimum total hours for a dual master’s degree program.

For example, for a dual master’s degree program in Applied Mathematics and Electrical Engineering, a student’s plan of study must show 18 hours of Applied Mathematics graduate course work that applies only to the Applied Mathematics degree and 18 hours of Electrical Engineering graduate course work that applies only to the Electrical Engineering degree. The additional 12 hours of shared 8000-level graduate credit brings the total earned graduate credit hours to 48.

Transfer Credit

Up to eight hours of transfer credit may be applied as follows: to one of the two degree programs, or divided between the two degree programs. The eight hours of transfer credit cannot be applied to each degree program separately.

Advising & Committees

There will be a separate advisor and committee for each degree program.

Dean’s Note: the option of a combined committee structure may be included in proposals for Graduate Faculty Senate consideration, e.g., co-advisors who would also serve as outside members, plus one additional member from each degree program, for a total of four committee members.

Dual Degree Progress Forms

Special dual master’s degree program forms will be used to certify plans of study, committee members and final defense/examinations. The forms are available from the Master’s Requirements Time Line (http://gradschool.missouri.edu/academics/graduation-commencement/timeline-deadlines/master-timeline.php).

Conferral of Dual Degrees

The Office of Graduate Studies will confer two separate diplomas upon completion of all degree program requirements.

Educational Specialist Requirements

This degree, offered through the College of Education, is a 30-hour program of specialization built upon the education specialist degree, of which 24 hours must be taken with MU faculty. Six semester hours must be completed within one semester or summer session to provide an in-residence experience. Students have eight years to complete the degree from the time they are first admitted to the degree program. A student is required to take a final examination, and the report of the results must be approved by a majority of the candidate’s advisory committee members and submitted to the Graduate School. For additional information on the Educational Specialist degree (http://gradschool.missouri.edu/academics/graduation-requirements/educ-spec-requirements.php), consult the College of Education’s site (http://education.missouri.edu).

Required Educational Specialist Forms

The Graduate School obtains students’ official academic records as soon as they complete their first terms of enrollment. Each of the following forms is completed at the departmental/program level, routed for required signatures and forwarded to the Graduate School in 210 Jesse Hall.

Forms are reviewed by staff in the Office of Graduate Studies, given the Associate Vice Chancellor for Graduate Studies’ signature if approved, and an electronic copy is made available to the academic program office. If changes/corrections are needed, or if any signatures are missing, the forms will be returned to the department for corrective measures. If any faculty signatures are illegible, we ask that departments print a correct spelling below any such signatures.

Request for the Educational Specialist Advisory Committee (http://gradschool.missouri.edu/forms-downloads/repository/s1.pdf) (S-1 form, PDF)

The S-1 form serves as official documentation of who serves on a student’s advisory committee. It should be submitted to the Office of Graduate Studies by the end of a student’s second semester or at least one semester prior to degree completion.

Plan of Study for the Educational Specialist Degree (http://gradschool.missouri.edu/forms-downloads/repository/s2.pdf) (S-2 form, PDF)

The S-2 form provides the student, academic program/department and the Office of Graduate Studies with a plan for all the course work that will comprise a plan of study. It serves as a general plan to follow. Changes on the plan of study can be made easily by submitting a Course Substitution form (http://gradschool.missouri.edu/forms-downloads/repository/subform.pdf). The S-2 form should be submitted to the Graduate School preferably by the end of a student’s second semester or at least one semester prior to degree completion.

Report of the Educational Specialist Examining Committee (http://gradschool.missouri.edu/forms-downloads/repository/s3.pdf) (S-3 form, PDF)
This form is submitted by the academic program/department and reports the final results of a student’s comprehensive examination. Students are encouraged to consult with their departments to make sure the departments submit the S-3 form shortly after the exam has been graded.

**Transfer Credit Toward the Educational Specialist Degree**

A maximum of 20 percent of the number of credit hours required for a student’s degree may be graduate credits transferred from another university, including another campus of the University of Missouri system upon the recommendation of the advisor, the approval of the academic program director of graduate studies and the Office of Graduate Studies.

**Note:** The above represents a change in policy and becomes effective for graduate students beginning their education specialist programs during the fall semester 2001. Students who began their education specialist programs prior to the fall semester 2001 have the option of using the above regulation or the regulation in place at the time they began their degree program. The MU Office of Graduate Studies will review the transfer request to determine if the credit meets the minimum guidelines. If so then the Graduate School will process the request so that each transfer course will appear on the student’s transcript.

**How to Request Transfer of Credit**

1. The request or transfer credit must first be approved by the student’s advisor and the department’s director of graduate studies.
2. Once approved the student submits his/her Plan of Study or Course Substitution form to add the transfer work to the Plan of Study along with an unopened, official transfer transcript if one is not currently on file with the Office of Graduate Studies.
3. Once the Office of Graduate Studies has received the request it will be reviewed to determine if minimum requirements have been met.
4. If approved then the Office of Graduate Studies will process the request so that the transfer credit appears on the MU student record.

**Minimum Transfer Requirements**

Transfer course work:

- must be less than eight years old by the time the education specialist degree is conferred;
- was taken for graduate credit and clearly marked as such on the transfer transcript, complete with credit hours and a grade;
- is limited to no more than 20 percent of the total course work on the student’s Plan of Study form;
- is from a regionally accredited institution in the U.S. or an overseas institution that is recognized by its country’s Ministry of Education as a graduate degree granting institution.

**Special Types of Credit for the Educational Specialist Degree**

A maximum of six semester hours completed with a grade of B or better may be accepted in transfer from institutions accredited to offer doctoral degrees. Off-campus courses authorized for graduate credit and offered by MU faculty members and courses offered through MizzouOnline taught by MU faculty may be included in the program.

**Grades at the Graduate level-Graduation requirement**

To become eligible for a education specialist degree, a student must have completed all MU graduate work attempted with a GPA of 3.0 (A=4.0) or higher. Review grading policies (p. 807) for more information.

**Enrollment**

The educational specialist candidate must be enrolled at the University during the regular semester session in which comprehensive exams are taken, portfolio or project is presented, etc.

**Time Limit for Education Specialist Degree Completion**

The program for the education specialist degree must be completed within a period of eight years beginning with the first semester of enrollment in which the student is accepted to a degree program or from the date of the oldest coursework used on the plan of study. Individual academic programs may stipulate a shorter time period.

Time spent in the armed services will not count toward the eight-year limit (see Active Duty Policy (http://veterans.missouri.edu/forms/active-duty.php)). For any extension of this time limitation, the student must petition the Office of Graduate Studies by submitting a request to the adviser who, in turn, submits a written recommendation to the Graduate School that is endorsed by the academic program’s director of graduate studies. The Office of Graduate Studies’ staff will notify the advisor in writing of the final decision.

For academic advice or assistance with degree program planning, students should contact their advisors.

**Reasonable Rate of Progress for Education Specialist Students**

Reasonable rate of progress is governed by both the campus wide policies of the Graduate School as well as academic program regulations which may be more restrictive. Failure to satisfy the Graduate School’s rate of progress policies leading to dismissal are handled by the Request for Extension process, and the decision of the Associate Vice Chancellor for Graduate Studies in these matters is binding.

**Extension Requests for Education Specialist Students**

Extenuating circumstances that inhibit a student’s rate of progress are handled through the Request for Extension (http://gradschool.missouri.edu/academics/progress/requests-for-extensions-appeals.php) process. The decision regarding an extension is made by the vice provost for advanced studies and dean of the Graduate School, and is binding.

**Dismissal**

Dismissals arising from violation of academic program policies may be appealed using the Appeals Process. For additional details, graduate students should refer to the Dismissal Policy (http://gradschool.missouri.edu/academics/progress/probation-termination.php) and the Extension Requests and Appeals Process (http://gradschool.missouri.edu/academics/progress/requests-for-
The University of Missouri grants four types of doctoral degrees: the doctor of philosophy (PhD), the doctor of education (EdD), the doctor of physical therapy (DPT), and the doctor of nursing practice (DNP). Consult with individual departments to learn about the availability of degrees. To obtain a doctoral degree, a student must follow the general regulations of the Graduate Faculty Senate as well as special requirements of the degree program. It is the student’s responsibility to adhere to all regulations and satisfy the graduation requirements of the Office of Graduate Studies and the degree program. An individual who has held, at any time, a regular tenure-track appointment in an MU academic program is not eligible for a doctoral degree from that department or the area program in which that department participates.

Doctoral Qualifying Examination or Process

Prior to official admission into a doctoral program, the student must pass a qualifying examination or process. A department or area program may limit the number of times this examination or process may be attempted. After the qualifying process is complete and the doctoral committee has been confirmed, the Qualifying Examination Results and Doctoral Committee Approval (D1) form should be submitted to the Office of Graduate Studies, no later than the end of the second semester of enrollment.

Selecting a Doctoral Advisor

The student selects an advisor or co-advisors, by mutual consent, from doctoral faculty members who are dissertation supervisors in the department or area program in which the major work is planned. In the event that an advisor retires or leaves MU, he/she may continue to serve as a student’s advisor unless there is written academic program policy prohibiting such an arrangement. If an advisor is unable or unwilling to continue to serve, the academic program, with the leadership of the director of graduate studies, will assist to ensure that a replacement is found.

Forming a Doctoral Program Committee

The doctoral program committee must be recommended by the student’s advisor and approved by the academic program’s director of graduate studies and the Office of Graduate Studies before one year has elapsed following the student’s first registration as a doctoral student. The Qualifying Examination Results and Doctoral Committee Approval (D1) form is due to the Graduate School office by the end of the student’s second semester.

Committee Changes

Changes to the committee must be submitted on the Change of Committee form.

Duties

All members of the doctoral program committee will be intimately involved and will actively participate in the activities of the doctoral student at all the stages of the student’s career at MU, except in some cases in the qualifying examination/process. The committee also may participate in the assessment of a student’s background and potential for success in the academic program’s doctoral program. Committee members may call a meeting of the full committee at any time to discuss the student’s progress.

Membership Requirements for Doctoral Committees

The doctoral program committee shall be composed of a minimum of four members of the MU graduate faculty and will include at least three members from the student’s doctoral degree program and an outside member from a different MU program. At least two of the doctoral committee members must be MU doctoral faculty. (Note: This policy is effective for students who begin their doctoral programs during the Fall 2005 Term. For students who began their doctoral programs before the fall 2005 semester, consult the appropriate catalog or the Office of Graduate Studies.)

Additional committee members with specialized expertise who do not meet the criteria for the MU graduate faculty or doctoral faculty may serve on a doctoral committees as a fifth or sixth member, with special permission of the Associate Vice Chancellor for Graduate Studies.

Graduate Committee Membership for Jointly Appointed Faculty

Chapter 320 of the Collected Rules and Regulations for the University of Missouri requires that all jointly appointed faculty members will have a designated Primary Appointment and Primary Department as well as affiliation with one or more involved departments or units. These affiliations affect membership status of jointly appointed faculty on graduate student committees as follows:

Committee Chair/Advisor

A faculty member may serve as advisor/committee chair when his or her primary appointment is in the graduate student’s home academic program. When the graduate student’s home academic program is the involved academic program for a jointly appointed faculty member, the person may serve as chair/advisor with the approval of the director of graduate studies from the student’s home academic program.

Doctoral Committee Member

A faculty member can serve only as an Internal Member when his or her Primary Appointment is in the graduate student’s home academic program. When a graduate student’s home academic program is the involved academic program for a jointly appointed faculty member, he or she may serve as either an Internal or External Member of the committee.

Graduate Committee Membership for Adjunct Faculty

Adjunct faculty may serve as a committee chair or committee member only in academic programs in which they are appointed and approved for graduate or doctoral faculty membership as appropriate for the student’s degree (master’s or doctoral). Service on graduate committees outside the academic program in which an adjunct member is appointed requires
a recommendation by the director of graduate studies from the student’s home academic program and approval by the Associate Vice Chancellor for Graduate Studies.

**Doctoral Plan of Study & Degree Requirements**

The doctoral program committee provides academic program approval of the student’s Plan of Study which will prepare the student for research or scholarly investigation in the chosen field of study. The plan of study includes a list of the courses and the credit to be earned. By successfully completing the plan by deadlines, a doctoral student will:

- Prepare the student for research or scholarly investigation in the chosen field of study.
- Satisfy the credit-hour and residency requirement of the academic program.
- Satisfy any special requirements (proficiency in foreign languages, collateral field, doctoral minor, other special research skills) imposed by the department or area program.
- Satisfy the requirement for a minimum of 15 hours of MU coursework at the 8000/9000 level (exclusive of research, readings, and problems).

The committee also recommends to the Associate Vice Chancellor for Graduate Studies, as part of the Plan of Study, any request for transfer of graduate credit. Changes to the plan of study should be submitted on the Plan of Study Course Substitution form (http://gradstudies.missouri.edu/forms-downloads/repository/subform.pdf).

**Doctoral Credit-Hour Requirement**

MU requires a minimum of 72 semester hours beyond the baccalaureate degree for the PhD and EdD degrees. The student’s doctoral program committee must approve all course work used to satisfy the credit-hour requirement and may require additional course work beyond these minimums.

**Transfer Credit**

The doctoral committee may recommend up to 30 hours of post-baccalaureate graduate credit from a regionally accredited university be transferred toward the total hours required for the doctoral degree. It is the responsibility of the doctoral committee to determine the appropriateness of course work for transfer credit. All requests for exceptions to this policy must be approved by the Associate Vice Chancellor for Graduate Studies.

Note: This policy applies to students who begin their enrollment during the Fall Term 2006 and subsequent semesters. For students who began their doctoral programs prior to the fall 2006 semester, consult the appropriate catalog or the Office of Graduate Studies for policies pertaining to transfer of credit.

**Extension & Correspondence Credit in Doctoral Programs**

The doctoral committee may recommend that courses taken through MU’s Extension division be counted toward the credit-hour requirement. Extension or correspondence course work from institutions other than MU may not be used to meet the total hours required for the doctoral degree.

---

**Time Limits on Transfer Credits**

All courses to be applied to the plan of study must be completed within eight years of filing the plan.

**Grades at the Graduate Level**

To become eligible for a degree, a doctoral student must have completed all MU graduate work attempted with a GPA of 3.0 (A=4.0) or higher. Review grading policies (p. 807) for more information.

**Foreign Language Proficiency**

In general, an English-speaking student may establish foreign language proficiency, if it is required, by demonstrating an ability to translate into English two foreign languages; or by demonstrating a high order of fluency in one language; that is the ability to read, write and converse in that language and to translate that language into English and English into that language.

**Plan of Study Completion Before Doctoral Comprehensive Exam**

The student must substantially complete the course work outlined in the Plan of Study to the satisfaction of the doctoral program committee and the Office of Graduate Studies before being declared ready for the comprehensive examination (https://gradstudies.missouri.edu/wp-content/uploads/2018/03/d3.pdf).

**Doctoral Comprehensive Examination**

The student must be enrolled to take the doctoral comprehensive examination (https://gradstudies.missouri.edu/wp-content/uploads/2018/03/d3.pdf). It is to be administered only when MU is officially in session. The comprehensive examination is the most advanced posed by MU. It consists of written and oral sections. It must be completed at least seven months before the final defense of the dissertation. The two sections of the examination must be completed within one month.

**Written Section**

The written section or sections of the examination may be conducted in one or both of the following two ways:

1. The written sections may be arranged and supervised by the major advisor, in which case questions are prepared and graded by the doctoral program committee.
2. The major advisor may delegate responsibility for arranging, preparing, supervising and grading the written sections of the examination to one or more departmental/program committees appointed for this purpose.

**Successful Completion**

For the comprehensive examination to be successfully completed, the doctoral program committee must vote to pass the student on the entire examination, both written and oral sections, with no more than one dissenting or abstaining vote. A report of examination results, carrying the signatures of all members of the committee, must be sent to the Office of Graduate Studies and the student no later than two weeks after the comprehensive examination is completed.
Exam Failure

A failure of either the written or oral section of the exam constitutes failure of the comprehensive exam. If a failure is reported, the committee also must include in the report an outline of the general weaknesses or deficiencies of the student’s work. The student and the committee members are encouraged to work together to identify steps the student might take to become fully prepared for the next examination.

Request for Clarification

If the student believes that the advice given by the committee is inadequate, the student may send a written request for clarification to the committee. A copy of this request should be sent to the Office of Graduate Studies as well. The committee must respond to this request in writing within two weeks and a copy must be filed with the Office of Graduate Studies.

Retaking the Comprehensive Examination

The student who fails may not take a second comprehensive examination for at least 12 weeks. Failure to pass two comprehensive examinations automatically prevents candidacy.

Doctoral Candidacy & Continuous Enrollment

Candidacy for a doctoral degree is established by passing the comprehensive examination. Status as a continuous enrollment doctoral student begins the term after the term in which the comprehensive exam was successfully completed. Students must maintain continuous enrollment during their candidacy (the period after successful completion of the comprehensive examination).

Procedure for Continuous Enrollment

Candidacy is maintained by enrolling in 9090 Research (or 9990 Research for some Engineering students) for two semester hours each fall and spring semester and for one semester hour each summer session, or an equivalent number of hours through enrollment in other coursework, up to and including the term in which the dissertation is defended. Continuous enrollment provides access to an advisor’s support, doctoral program committee guidance and university research facilities for completion of the dissertation. Failure to enroll continuously in the appropriate number of hours until the doctoral degree is awarded terminates candidacy.

Reestablishing Candidacy After Time Off

Candidacy may be reestablished by paying the registration and late fees owed and completing the requirements specified by the student’s doctoral program committee. Registration fees owed may not exceed the amount owed for seven terms, regardless of the number of terms beyond seven for which the student failed to continuously enroll. The committee’s requirements may include a second comprehensive examination or evidence of currency in the research field as suggested by publications in refereed journals. Candidacy is reestablished when the student’s advisor and the departmental, area program or divisional director of graduate studies submits a written request to the Office of Graduate Studies explaining the basis for the decision. Once approved, a Reactivation Form (http://gradstudies.missouri.edu/forms-downloads/repository/reactivation.pdf) must be completed by the student and sent to the department/program for processing.

The Doctoral Dissertation

The dissertation must be written on a subject approved by the candidate’s doctoral program committee, must embody the results of original and significant investigation and must be the candidate’s own work.

Enrollment Status and Reporting

The candidate must be continuously enrolled (http://gradstudies.missouri.edu/admissions/types-of-enrollment/continuous-enrollment.php) to defend the dissertation, which can only be defended when MU is officially in session. A report of the dissertation defense (http://gradstudies.missouri.edu/forms-downloads/repository/d4.pdf), carrying the signatures of all members of the committee (http://gradstudies.missouri.edu/academics/process/forming-committees/doctoral.php), is sent to the Office of Graduate Studies before the deadline preceding the anticipated date of graduation. For the dissertation to be successfully defended, the student’s doctoral committee must vote to pass the student on the defense with no more than one dissenting or abstaining vote.

Required Dissertation Format

Every doctoral candidate should review the Guidelines for Preparing Theses and Dissertations from Graduate Studies and should consult their director of graduate studies for academic program style requirements. All dissertation defenses shall be open to the general faculty. Academic programs are encouraged to announce dissertation defense dates to academic program colleagues.

Submission of Dissertation to the Office of Graduate Studies

The final copy of the dissertation must be submitted to the Office of Graduate Studies electronically or as a PDF file on a CD-ROM. Specific instructions are provided in the Guidelines for Preparing Theses and Dissertations.

Reasonable Rate of Progress

Reasonable rate of progress is governed by both the campus wide policies of the Graduate Faculty Senate listed below as well as academic program regulations which may be more restrictive. Failure to satisfy the Graduate Faculty Senate’s rate of progress policies leading to dismissal is handled by the Request for Extension process (http://gradstudies.missouri.edu/academics/progress/requests-for-extensions-appeals.php). For academic advice or assistance with degree program planning, students should contact their advisors. Dismissals arising from violation of academic program policies may be appealed using the Appeals Process (http://gradstudies.missouri.edu/academics/progress/requests-for-extensions-appeals.php). Students should also refer to the section on the Dismissal Policy (http://gradstudies.missouri.edu/academics/progress/probation-termination.php) for additional details.

Time Limits for Doctoral Degree Completion

Three Graduate Faculty Senate policies govern the Reasonable Rate of Progress established for doctoral students. To determine which is applicable to a particular student, see the policies below:
**Students Who Began Their Program in Fall 2000 to the Present**

Effective fall semester 2000, a doctoral student must successfully complete the comprehensive examination within a period of five years beginning with the first semester of enrollment as a PhD student. In addition, the program for the doctoral degree must be completed within five years of passing the comprehensive examination. Individual departments or area programs may stipulate a shorter time period. For an extension of this time the student must petition the Graduate School by submitting a request to the advisor who, in turn, submits a written recommendation to the Graduate School which has been endorsed by the department or area program director of graduate studies.

**Doctoral Students Who Passed Comps Between Fall 1994 and Summer 2000**

Doctoral candidates who passed their comprehensive examinations between the beginning of the fall semester 1994 through summer session 2000 will have no more than five years after passing the comprehensive examination to complete the doctoral degree.

**Doctoral Students who Passed Comps Before Fall 1994**

Doctoral candidates who passed their comprehensive examinations before fall semester 1994 must complete their degree programs within eight calendar years beginning with the first semester of enrollment as a doctoral student.

**Doctoral Degree Extension Request**

Regardless of when a student entered the program or passed the comprehensive exam, any candidate requiring additional time must submit a request for an extension. On petition of the candidate and the candidate’s academic program, an extension of time may be granted by the Office of Graduate Studies. Academic programs specifically reserve the right to re-certify currency in the discipline. All requests for extensions should be endorsed by the academic program’s director of graduate studies and accompanied by a description of the process whereby currency in the discipline is certified, if required by the academic programs. See also Active Duty Policy (http://veterans.missouri.edu/forms/active-duty.php).

**Doctorate of Education (EdD): Special Requirements and Policies**

**Admission**

To be admitted into a doctorate of education program, the student must have attained the degree of master of arts with a major in education, a degree of master of education, or the quantitative and qualitative equivalent of one of these degrees from an accredited college or university.

**EdD Qualifying Exam**

If required, the qualifying examination must be successfully completed before the plan of study is determined by the advisor and the student in cooperation with the doctoral advisory committee. This program must constitute a well organized plan of professional specialization in one of the major fields of education, with one or more supporting fields.

**EdD Plan of Study**

A minimum of 72 semester hours of graduate level course work beyond the bachelor’s degree is required for the degree of doctor of education degree. The plan of study is specifically intended to meet the professional needs of the candidate. As well as pursuing course work in the professional areas of specialization, the student must take courses in educational statistics, advanced educational statistics, methods of educational research and one research elective course. Foreign languages are not required, except as may be determined by the student’s doctoral advisory committee.

**EdD Advisory Committee**

The student’s advisor officially recommends for the approval by the Graduate School a doctoral advisory committee of at least five members. For students admitted Fall 2006 and later, the requirement is at least four committee members. In addition to planning the doctoral program with the student, this committee may administer a qualifying examination, which helps to assess the student’s general background and potential for the EdD degree. It also guides the planning of the plan of study.

**EdD Comprehensive Examination**

When the doctoral advisory committee determines that the needed course work has been completed with satisfactory grades, it plans the comprehensive examination (a written and oral examination that includes the candidate’s major field of interest) for the degree. This examination must be taken no earlier than the second year of graduate work and be completed at least seven months before graduation. A student must be enrolled to take the comprehensive examination. It is not administered unless MU is officially in session.

For the comprehensive examination to be completed successfully, the committee must vote to pass the student with no more than one dissenting or abstaining vote. If failure is reported, the committee recommends suggested work or remedial measures. See Comprehensive Examination (https://gradstudies.missouri.edu/wp-content/uploads/2018/03/d3.pdf) under PhD Degree Regulations.

The student who fails may not take a second examination for at least 12 weeks. Failure on two comprehensive examinations automatically prevents candidacy.

**Continuous Enrollment**

EdD candidates are subject to the same policies and procedures as PhD candidates. See enrollment requirements (p. 803) for graduate studies.

**Dissertation Defense**

EdD candidates are subject to the same policies and procedures as PhD candidates. The dissertation must be reviewed and approved by the doctoral program committee (http://gradstudies.missouri.edu/academics/thesis-dissertation/dissertation-process.php).

**Time Limits for Doctoral Degree Completion**

Effective fall semester 2000, a doctoral student must successfully complete

- the comprehensive examination within a period of five years beginning with the first semester of enrollment as a PhD student.
- the doctoral degree within five years of passing the comprehensive examination.
Individual departments or area programs may stipulate a shorter time period.

For time limit policies prior to academic year 2000-2001, consult the Graduate School Catalog archive dissertation format EdD candidates are subject to the same dissertation formatting and submission requirements as PhD candidates. The dissertation must be reviewed and approved by the doctoral program committee. Policies can be found at http://gradstudies.missouri.edu/academics/graduation-requirements/doctoral-grad-requirements.php.

**Dissertation Submission**

The final copy of the EdD dissertation must be submitted to the Graduate School as a PDF file on a CD-ROM. Specific instructions are provided in the Guidelines for Preparing Theses and Dissertations (https://gradstudies.missouri.edu/current-students/thesis-dissertation/thesis-dissertation-guidelines).

**Deadline for Submission of Dissertation/Thesis after Successful Defense**

After successful defense of the thesis or dissertation, students must comply with their academic program’s and/or the International Center’s enrollment requirements. Students are required to submit their final dissertation or thesis by the end of the following quarter after a successful defense unless a letter asking for an extension is submitted to the Associate Vice Chancellor for Graduate Studies by the student’s advisor and program’s DGS.

**Doctoral Degree Extension Request**

Regardless of when a student entered the program or passed the comprehensive exam, any candidate requiring additional time must submit a request for an extension. On petition of the candidate and the candidate’s academic program, an extension of time may be granted by the Associate Vice Chancellor for Graduate Studies.

Academic programs specifically reserve the right to re-certify currency in the discipline. All requests for extensions should be endorsed by the academic program’s director of graduate studies and accompanied by a description of the process whereby currency in the discipline is certified, if required by the academic programs. (See also Active Duty Policy.)

**Doctoral Dual Degrees**

**Dual Doctoral-Professional Degrees**

As the US workforce becomes increasingly interdisciplinary, some graduate students elect to concurrently pursue a PhD (doctoral) degree in combination with a law or medical (professional) degree. Examples include the MD/PhD and the JD/PhD. Dual degrees are cooperatively arranged between a graduate degree granting program and a professional degree granting program. The Graduate School oversees the doctoral (PhD) degree portion of the dual doctoral/professional degree. Dual degrees are approved by the Graduate Faculty Senate.

Students must apply to both the Office of Graduate Studies and the professional degree program, notifying both of their interest in a dual program. Please refer to the A-Z list of graduate degree programs (http://gradstudies.missouri.edu/academics/programs/a-z) to learn what is currently available.

Because some students may not be aware of an approved dual-degree program before their arrival at MU, the option to participate in an approved dual-degree program may be postponed until no later than the end of a student’s second semester at MU.

The governing policies for dual degrees are the same for master’s and doctoral students. Please refer to the dual-degree information for master’s students (http://gradstudies.missouri.edu/academics/process/dual-masters-process) for more information.

**Dual Degrees for Medical Students**

The MD/PhD program is for the student seeking a biomedical research career. Additional years are integrated into the medical curriculum to satisfy requirements for the PhD. (A MD/MS dual degree is another option). The graduate degree (MS or PhD) is typically accomplished after completion of the MD program. PhD programs are available in diverse areas at MU.

Students are accepted to the joint program by a single committee. Students interested in this dual-degree program should inquire at the dean’s office in the School of Medicine.

**Financial Support**

Financial support may be provided for the graduate portion of the dual-degree program. Fellowship support may be provided for the PhD portion of this program, while loan and scholarship funds may be available for the MD curriculum.

**Applying Credit**

Students participating in the MD/PhD Program at the University of Missouri may apply up to 30 hours of credit for courses taken during the preclinical phase of the MD program towards the 72 hour requirement for the PhD degree. These MD courses, however, cannot be used to satisfy the requirement for 15 hours of 8000/9000 of graduate level course work.

The following table lists the distribution of credits for the preclinical courses among areas of study that can be used by the student and their committee in determining how many credit hours should be applied toward the PhD.

<table>
<thead>
<tr>
<th>Course</th>
<th>Applicable Hours Toward the PhD</th>
</tr>
</thead>
<tbody>
<tr>
<td>Biochemistry</td>
<td>6 hrs</td>
</tr>
<tr>
<td>Microbiology</td>
<td>4 hrs</td>

<tr>
<td>Pharmacology</td>
<td>4 hrs</td>
</tr>
<tr>
<td>Physiology</td>
<td>4 hrs</td>
</tr>
<tr>
<td>Pathology</td>
<td>6 hrs</td>
</tr>
<tr>
<td>Neurosciences</td>
<td>3 hrs</td>
</tr>
</tbody>
</table>

**Advising & Committees**

There will be a separate advisor and committee for each degree program.

*Note:* The option of a combined committee structure may be included in proposals for Graduate Faculty Senate consideration, e.g., co-advisors who would also serve as outside members, plus one additional member from each degree program, for a total of four committee members.

**Dual Degree Progress Forms**

Special dual degree program forms will be used to certify plans of study, committee members and final defense/examinations.
Timelines for PhD Completion

Policies governing doctoral degree completion, including but not limited to examinations, forms, continuous enrollment, and dissertation format, defense and submission, are detailed in the doctoral degree requirements section of the Graduate Catalog and web site.

Conferral of Dual Degrees

Upon completion of all degree program requirements, the Graduate School and the professional school will confer separate diplomas.

Doctoral Requirements (School of Law)

The Juris Doctor (J.D.), or "law degree," is a three year post-baccalaureate program. Students must complete 89 credit hours of law courses roughly one-half of which are required courses.

View JD Degree Requirements Here (p. 768)

The wide variety of academic courses are complemented by a variety of clinics and skills courses designed to provide graduates with a solid foundation for the practice of law.
Undergraduate & Graduate

Information in the catalog is current as of May 2018. The next catalog will be published in May 2019. In the interim, new courses will be announced in myZou (https://myzou.missouri.edu), MU’s online student information system. Courses are usually available in October for the spring semester and in March for the summer and fall semesters. Midyear changes to current courses (titles, descriptions and credit hours) are not reflected here and can only be viewed in myZou.

Undergraduate Study

MU grants 25 percent of the bachelor’s degrees from Missouri public universities. Mizzou provides an intellectually diverse environment with 360-degree learning for students from every state in the nation and more than 120 countries.

Offering more than 300 degree programs through 19 colleges and schools, MU is a member of the prestigious Association of American Universities. Ninety-two percent of full-time, ranked faculty members have doctorates or the highest degree in their field. Dedicated to interdisciplinary education, MU faculty and students from different schools and colleges often collaborate. For example, some courses in the sciences are taught in conjunction with MU’s medical school, and humanities classes include areas such as music composition and creative writing.

MU is also dedicated to the Missouri Method, a philosophy of hands-on learning that includes operating a floral shop (Tiger Garden), preparing income taxes for families, studying abroad, volunteering for credit, providing health care, working at the country’s only university-owned TV network affiliate (KOMU), performing at Carnegie Hall and co-authoring articles in leading scientific journals. Mizzou students also hold patents and create startup companies.

For more information about undergraduate study, contact the MU Office of Admissions (https://admissions.missouri.edu).

Graduate Study

MU Graduate Studies offers nearly 100 master’s degree programs, more than 70 doctoral degree programs, six educational specialist degree programs, 13 graduate minors and 40-plus graduate certificates. Opportunities for e-learning, including online graduate degrees, are available. An alphabetical list of graduate degrees is available in this catalog as part of comprehensive degree list (p. 18). For more information, contact the MU Office of Graduate Studies (https://gradstudies.missouri.edu).
College of Agriculture, Food and Natural Resources

About the College
The mission of the College of Agriculture, Food and Natural Resources includes quality teaching, cutting-edge research and the extension of that research to the people of Missouri.

From entering freshmen to postdoctoral scientists, students prepare for a wide range of careers. Professional development through campus organizations and interaction with business and industry prepares our graduates to have an impact in the food system, business, government policy, environmental awareness, education, law, medicine and other areas.

The Missouri Agricultural Experiment Station develops new technology in animal, biochemical, plant, food and natural resource sciences to keep the state’s agribusiness system competitive in world markets and to provide consumers with a safe, low-cost food supply.

Technology reaches the people through the college’s Agriculture and Natural Resources Extension program. State specialists within the college and area specialists in county centers interact with the public for real-life application of research in solving problems.

Finally, the college helps developing nations become trading partners by improving their economies through better agriculture. This also provides a valuable exchange of knowledge and understanding with students, teachers and scientists from many cultures.

Undergraduate
• Admissions (p. 48)
• Special Programs (p. 48) (Pre-Veterinary Track and Pre-Medical Track)
• B.S. Degree Requirements (p. 49)
• University graduation and CAFNR Requirements (p. 49)
• CAFNR Honors Requirements (p. 49)
• Probation, Suspension and Dismissal (p. 49)
• Advising (p. 50)
• Career Development and Professional Opportunities (p. 50)
• Experiential Learning (p. 50)
• Study Abroad (p. 50)
• Student Activities (p. 50)

Admissions
Students admitted to the University of Missouri are encouraged to enter the College of Agriculture, Food and Natural Resources as freshmen. Current Mizzou students who are looking to transfer divisions into CAFNR need to contact the Office of Academic Programs first as some degree programs have specific GPA requirements.

Special Programs
Prevetinary Track
Students wishing to prepare for application to the College of Veterinary Medicine may enroll in the College of Agriculture, Food and Natural Resources under programs that emphasize science, such as animal sciences or fisheries and wildlife. In satisfying the science program requirements, the requirements for entering veterinary medicine also may be satisfied.

A minimum of 60 credits is required for admission to the College of Veterinary Medicine. Before applying, a student should make certain that the requirements listed below have been satisfied. Questions concerning required admission credits should be directed to the College of Veterinary Medicine. (Note: Tracks are not listed on transcripts or diplomas.)

| Composition or courses in communication skills such as Speech or Technical Writing | 6 |
| College Algebra or more advanced mathematics | 3 |
| Biochemistry (requires organic chemistry prerequisite) | 3 |
| Physics (comprehensive introductory course or courses) ** | 5 |
| Biological Science | 10 |
| Social Science and/or Humanistic Studies | 10 |
| Electives | |
| Minimum Total Semester Credit Hours* | 60 |

* Multiply quarter credits by 0.67 to convert to semester credits.
** 5 hrs. in only the first of a companion series in introductory physics will not suffice.

Students should take in-depth courses in these areas
A- Inorganic chemistry courses that prepare them for organic chemistry and, finally, biochemistry;
Biology Department courses that may be selected from zoology and botany or as required in foundation courses for a biology major.

NOTE: Whenever there is doubt as to whether a course will fulfill the requirements to apply, the applicant should contact the Admissions Advisor, MU College of Veterinary Medicine, as soon as possible. If the course is acceptable, the applicant is advised to produce a copy of the response letter when submitting their application.

Elective Courses
The faculty of the College of Veterinary Medicine strongly encourage applicants to include as many of the following courses as possible among their electives. We have found that anatomy and physiology are especially challenging for students lacking a background in those subjects.

- Animal Nutrition
- Animal Reproduction
- Anatomy
- Animal Husbandry
- Physiology
- Business or Accounting
- Genetics
- Microbiology
- Psychology
- Statistics
- Cell Biology
- Any Biomed 1000-4000 level course at MU.

Premedical Track
Students interested in a medical career may choose from a variety of science-based majors. The most common choice of students is biochemistry because it is a collaborative program between CAFNR and the School of Medicine. Questions concerning required admission credits should be directed to the School of Medicine. (Note: Tracks are not listed on transcripts or diplomas.) The following course work is required for admission:

<table>
<thead>
<tr>
<th>Course</th>
<th>Credits/Semesters</th>
</tr>
</thead>
<tbody>
<tr>
<td>English composition</td>
<td>6 credits or 2 semesters</td>
</tr>
<tr>
<td>College-level mathematics (or calculus eligibility)</td>
<td>3 credits or 1 semester</td>
</tr>
<tr>
<td>General biology, including laboratory</td>
<td>8 credits or 2 semesters</td>
</tr>
<tr>
<td>Organic chemistry, including laboratory</td>
<td>8 credits or 2 semesters</td>
</tr>
<tr>
<td>General physics, including laboratory</td>
<td>8 credits or 2 semesters</td>
</tr>
</tbody>
</table>

Bachelor of Science (B.S.) Degree Requirements
Students should refer to degree program sections for course requirements and credit hour requirements.

University Graduation and CAFNR Requirements

- Students are required to meet all University graduation and degree program requirements to earn their degree. Refer to specific CAFNR degree programs to determine specific course requirements.
- Complete 30 of the last 36 hours with MU course work. Obtain approval of faculty advisor, degree program advisor chair, and associate dean prior to enrolling in courses at another institution.
- Earn no less than a 2.00 GPA, as defined by the GPA of Record (UM cumulative GPA).

Transfer Credits

- University general education requirements are considered completed for students transferring with an Associate of Arts (AA) degree from a regionally accredited Missouri institution. Some programs will require specific courses to meet degree requirements.
- Transfer credit from a regionally accredited non-Missouri institution will be evaluated on a course by course basis.

CAFNR Honors Requirements
Students are eligible to enter the honors program when they have obtained a cumulative GPA of 3.3 or above based on 30 credits earned at the University of Missouri. Transfer students are eligible after completing 15 credits at MU with a cumulative GPA of 3.3 or higher.

Students must be admitted to the honors program prior to the first day of classes for the last semester they are enrolled in residence in CAFNR. No student is admitted retroactively. The student is officially admitted to the program upon approval of the associate dean of academic programs.

Eligible students should complete an application as early in their undergraduate degree program as possible. The honors program application should be signed by at least two faculty members and the undergraduate advisor chair before it can be approved. The faculty members co-signing the application will comprise the honor student’s advisory committee.

An honors project (HP) is required and should be planned by the student and approved by the honor student’s advisory committee. The honors project should involve a significant research effort by the honors student, culminating in a written and oral presentation of the results. Departmental HP requirements must be approved by the CAFNR Honors Program Oversight Committee.

Students are officially admitted to the CAFNR Honors Program when the application has been approved and signed by the CAFNR associate dean of academic programs. To remain in good standing in the CAFNR Honors Program, a student must maintain a cumulative GPA of 3.3 or more. A student whose GPA falls below 3.3 will be allowed a two-semester grace period to raise the GPA to the 3.3 level.

Dual Enrollment for Senior Undergraduates

Qualified undergraduate students are eligible to enroll in up to 12 hours of graduate credit during the last 30 hours of their undergraduate program. Graduate credit cannot be counted toward undergraduate degree credit requirements. See the Office of Graduate Studies (http://gradstudies.missouri.edu) for additional details.
Probation, Suspension and Dismissal

In addition to the Academic Standing Policy (p. 794) of the University, CAFNR’s academic policies can be located at https://cafnr.missouri.edu/current-students/ (http://CAFRN.missouri.edu)

Advising

When entering the college, each student is assigned a faculty advisor/mentor to assist in defining career goals and planning courses for a program of study that leads to graduation. The advisor also serves as a resource person for the student in a variety of academic and individual situations.

One of a student’s first priorities is to meet and become acquainted with their advisor early in the semester. The student should consult with their advisor when planning or changing the academic program. The advisor and advisor chair must approve the program of study for graduation.

Questions dealing with advising should be directed to Office of Academic Programs, 2-64 Agriculture Building, (573) 882-8301.

Career Development and Professional Opportunities

CAFRN believes in career development as a key part of the student experience. Our college provides career resources targeted specifically toward student interests and strengths. The CAFNR Career Services team focuses efforts to help educate, empower, and connect CAFNR students with their future careers. The resources in CAFNR expand beyond résumé reviews, mock interviews and one-on-one sessions to explore career possibilities. We focus on making valuable employer connections to help expand each student’s professional network. Students also have access and are encouraged to use www.HireMizzouTigers.com (http://www.hiremizzoutigers.com) to search open job and internship postings.

CAFRN graduates find rewarding careers in a variety of career fields, including: private industry, state and federal agencies, start-ups, production agriculture, and more.

You can receive relevant career planning updates from CAFNR delivered directly to your social media newsfeed. Simply like us at www.Facebook.com/CAFRNcareers (https://www.facebook.com/CAFRNcareers). We invite you to reach out in the traditional ways, too! Stop by our office in 2-64 Agriculture Building, call us at (573) 882-0088 or email CAFNRCareerservices@missouri.edu.

Experiential Learning

Employers want to hire students who have experience! CAFNR students have a variety of options when it comes to experiential learning. CAFNR’s focus on internships, study abroad, industry tours, and student organizations help students gain relevant experience that employers want to see. Exploring these opportunities gives students the professional growth and network needed for career success after graduation.

Click here to check out some of the most recent student experiences (https://www.facebook.com/media/set/?set=a.631051863580078.1073741826.585193606832571&type=3) to see the kinds of opportunities CAFNR students explore. Interested in gaining your own experiences? We want to help you reach your goals! You can reach us in a variety of ways. Stop by our office in 2-64 Agriculture Building, call us at (573) 882-0088 or email CAFNRCareerservices@missouri.edu.

Study Abroad

CAFRN provides students with opportunities to study abroad on semester, summer, spring break and winter break programs. Study Abroad complements and enhances a student’s academic program by helping students gain independence and self-confidence, better understand new cultures and the world around them, and enhance their résumé. Study abroad experiences increase a student’s skill-set and add the valuable international dimension to their degree that employers seek.

For more information about CAFNR study abroad programs, contact Shanon Dickerson, CAFNR Director of Study Abroad, Office of Academic Programs, 2-64 Agriculture Building, at dickersonsm@missouri.edu or (573) 882-8301.

Student Activities

CAFRN offers a variety of extracurricular student activities that contribute to a student’s education and professional development. Clubs and organizations sponsor activities related to professional interests as well as social events. Involvement in extracurricular activities fosters leadership development. Involvement in activities outside the classroom also may prove beneficial when applying for scholarships or jobs. Many organizations and companies look favorably on a student who has received good grades while being involved in clubs and other University organizations. Each class and club elects a representative to the CAFNR Student Council. More information can also be found at Fall Round-up each fall semester.

Graduate

Graduate studies in CAFNR are taking an innovative, high-tech approach to traditional agriculture, food and natural resources. Our students are highly engaged with expert faculty mentors who are impacting the future with findings on health breakthroughs, sustainable agriculture techniques and food safety. Prospective students are able to choose from a range of academic programs consistently recognized for excellence:

- Agricultural and Applied Economics
- Agricultural Education and Leadership
- Animal Sciences
- Biochemistry
- Biological Engineering
- Food Science
- Natural Resources
  - Fisheries and Wildlife
  - Forestry
  - Parks, Recreation and Tourism
- Soil, Environmental and Atmospheric Sciences
- Agroforestry
- Human Dimensions of Natural Resources
- Water Resources
- Plant Sciences
  - Crop, Soil and Pest Management
  - Entomology
  - Horticulture
The Division of Applied Social Sciences offers a Bachelor of Science degree in Agribusiness Management. The Agribusiness Management program trains students in business, management, entrepreneurship, policy and economics. With course topics centered on management, students gain a strong understanding of how firms operate and how to manage people and businesses.

By encouraging students to develop quantitative, analytical and critical thinking skills, the Agribusiness Management degree program prepares students for succeeding as managers with national or multinational food and agriculture firms.

Our research touches diverse disciplines, including communication, governance, management, operations, and policy. By conducting research in these areas, we strive to discover insights that people in the food and agriculture system — leaders, educators, managers, opinion leaders and volunteers — can apply to their jobs better, lead better, communicate better and ultimately enable our world's food and agriculture system to function better.

**Agribusiness Management**

Harvey James, Chair  
Agricultural and Applied Economics  
College of Agriculture, Food and Natural Resources  
146 Mumford Hall  
(573) 884-9682  
HJames@missouri.edu

The Agribusiness Management program uniquely equips students with the quantitative, analytical and critical thinking skills that are necessary for succeeding in their careers. Our faculty teach business, economics, entrepreneurship, finance, marketing and management concepts in the context of production agriculture and the global food system.

Combined with stressing conceptual understanding, the program immerses students in opportunities to apply their skills and experience real-world problem-solving. With this preparation, our graduates are equipped to help the food and agriculture industry in increasing food, fiber and biofuel production; meeting the world's growing needs; and acting as good stewards toward our natural resources.

Students transferring into Agribusiness Management from other degree programs at MU or from other colleges must have a 2.7 cumulative GPA.

**Graduate**

While MU does not offer graduate degrees specifically in agribusiness management, the University does offer post-baccalaureate opportunities in a number of related areas, both within the College of Agriculture, Food and Natural Resources, and in the other Schools and Colleges that make up the University. The catalog provides a complete list of these degree options (p. 18).

**BS in Agribusiness Management**

**Degree Program Description**

The degree in Agribusiness Management prepares you to be a leader and decision maker in the global agrifood system, whether in industry or the policy arena. Learn the economic principles driving the agriculture value chain and receive training in finance, commodity marketing, management, policy analysis and entrepreneurship.

Develop quantitative, analytic, interpersonal and critical thinking skills employers demand. Make a difference in improving agricultural production, processing, distribution and natural resource use. Agribusiness Management career opportunities include: supply-chain management, commodity and food product marketing, agribusiness and food industry sales, farm management and production, financial management and analysis, human and public relations, policy and law, and entrepreneurial endeavors.

**Major Program Requirements**

Students earning a Bachelor of Science in Agribusiness Management are required to complete all University general education (p. 34), University undergraduate requirements (p. 33), degree, and major requirements, including selected foundational courses, which may fulfill some University general education requirements.
Students transferring into agribusiness management from other degree programs at MU or from other colleges or universities must have a 2.7 cumulative GPA for all work attempted.

Agricultural and Applied Economics

Harvey James, Chair
Agricultural and Applied Economics
College of Agriculture, Food and Natural Resources
146 Mumford Hall
(573) 884-9682
Fax (573) 882-3958
HJames@missouri.edu

The Agricultural and Applied Economics Program offers a BS degree with a major in Agribusiness Management and MS and PhD degrees with a major in Agricultural and Applied Economics. A minor in Agricultural Economics is also available. Agricultural and Applied Economics is home to several programs and research centers where students can seek on-campus work experience.

- Agricultural Electronic Bulletin Board, a web-based clearinghouse for information related to farming and production agriculture
- Center for Applied Research and Environmental Systems, a spatial economics and information research and education center
- Commercial Agriculture Program, a multi-disciplinary approach to researching issues and incorporating innovation into production agriculture
- Contracting and Organizations Research Institute, dedicated to enabling and encouraging interdisciplinary empirical research on contracting and organizational structure
- Food Equation Institute, a research center with a focus on biotechnology and other agricultural and technologies relating to food production, distribution and consumption
- Economics and Management of Agribiotechnology Center, a research institute with a focus on applications of biotechnology on agriculture and food production and distribution
- Food and Agricultural Policy Research Institute, a Congressionally-enacted center whose mission is to provide objective analysis of food, agricultural, nutritional and environmental issues
- McQuinn Center for Entrepreneurial Leadership, promotes research, teaching, and outreach on the nature, causes, and consequences of entrepreneurship.
- Missouri Institute of Cooperatives, coordinates information and leadership training for cooperatives serving Missouri

Faculty

Extension Professor R. Massey**
Extension Assistant Professor D.S. Brown**
Assistant Teaching Professor J. Palacios Rivera
Research Assistant Professor J. Binfield
Instructor M. Foreman, J. Moreland, L. F. Sowers
Adjunct Faculty H. Gedikoglu, J. Kruse, D. Miller

- Graduate Faculty Member - membership is required to teach graduate-level courses, chair master's thesis committees, and serve on doctoral examination and dissertation committees.
- ** Doctoral Faculty Member - membership is required to chair doctoral examination or dissertation committees. Graduate faculty membership is a prerequisite for Doctoral faculty membership.

Undergraduate

While MU does not offer an undergraduate degree specifically in agricultural and applied economics, the University does offer a bachelor's degree in the closely related area of Agribusiness Management (p. 51), as well as other related areas both within the College of Agriculture, Food and Natural Resources, and in the other Schools and Colleges that make up the University. The catalog provides a complete list of these degree options (p. 18).

Graduate

- MS in Agricultural and Applied Economics (p. 54)
- PhD in Agricultural and Applied Economics (p. 54)
About the Graduate Programs

The graduate program in Agricultural and Applied Economics is recognized for its innovative approach to graduate training in agricultural economics. A distinguishing feature of the program is the integration of organizational, institutional and welfare economics in both applied and theoretical research. This approach gives the program a competitive advantage.

A PhD or MS degree in agricultural and applied economics prepares students for a rewarding career in academia, agricultural business, government or international agriculture. Students can study agribusiness management, contracting and strategy; collective action and cooperative theory; econometrics and price analysis; entrepreneurship; environmental and natural resource economics; food, biofuel and agricultural policy and regulation; international development; regional economics and rural development policy; science policy and innovation; sustainable agriculture and applied ethics. The MS program may be a step toward the PhD but may also be used as a terminal program for those interested in careers in agribusiness, extension or government. Programs are flexible. All PhD and most MS students become involved in research, but those whose career interests lie in other directions find the department willing to accommodate them.

Admission Criteria

Fall deadline: February 15  
Spring deadline: September 15

Minimum TOEFL score: 80 Internet-based; 550 Paper-based
GRE required

Required Application Materials

To the Office of Graduate Studies:
• All required Graduate Admissions documents

To the Agricultural Economics Program:
• Departmental Application
• 3 letters of recommendation
• Statement of purpose
• Transcripts
• GRE score report

Internal Funding

A 3.25 GPA (A=4.0) is generally a minimum requirement for financial assistance such as fellowships and assistantships for research and teaching. Reasons for supporting a student with a GPA below 3.25 must be documented in detail.

MS in Agricultural and Applied Economics

Degree Requirements

For the MS degree, students must complete a minimum of 30 hours selected from courses in one of three focus areas (Agricultural Economics and Policy Analysis; Environmental and Development Economics; Organizational Economics). Specific course requirements are determined by each focus area. All course work needs to be from courses numbered 7000-9000. The program includes graduate-level courses in microeconomic theory and quantitative methods. Students opting for the MS thesis must complete at least six credit hours of research as part of the minimum 30 hours. An alternative MS non-thesis program requires that additional course work be substituted for thesis research. Before admission to the MS program, a student should have completed at least nine hours of agricultural economics or economics, a course in calculus and one in statistics. Note: Focus areas do not appear on diplomas or transcripts.

Sample Plan of Study

• 9 hours designated as the MS focus area core
• 6 hours of AAE 8090 Masters Thesis Research
• 15 hours of Agricultural and Applied Economics courses and/or electives

Thesis/Non-Thesis Requirements

Students in the Thesis track are expected to produce a thesis with the organization, degree of analysis, and style of presentation that can be readily converted into a professional publication.

Students in the non-Thesis track substitute coursework for the Thesis hours. Students also write a technical paper that represents a collaborative research agenda with his/her advisor. A typical paper would analyze an issue or problem of mutual interest to the student and advisor, such as a phenomenon in local, regional, or national economy; an analysis of a policy implementation or change; or a firm-level decision, such as a feasibility study or an organizational case study.

Admissions

The Department’s Graduate Studies Committee and Focus Area faculty oversee the admissions process. Admission into the MS program is determined by an assessment of program prerequisites and application materials. Domestic and international students are equally welcome to apply.

For More Information

For further information on admissions or financial assistance, write to Harvey James, director of graduate studies in agricultural economics, 200 Mumford Hall, Columbia, MO 65211, or hjames@missouri.edu.

PhD in Agricultural and Applied Economics

Degree Requirements

The PhD program emphasizes preparation for research, teaching and extension work in academia, as well as for careers in agrifood business, government and international agriculture. The program usually requires about three years beyond the master's program to complete. The size, quality and diversity of the faculty provide a broad choice of advisors and research topics. Students and their advisory committees have latitude in developing a plan of study.

Doctoral candidates will choose specialties from one of the following Focus Areas (FAs) (will not appear on transcripts or diplomas):

Focus Areas (FAs) (will not appear on transcripts or diplomas).

Degree Requirements

For the MS degree, students must complete a minimum of 30 hours selected from courses in one of three focus areas (Agricultural Economics and Policy Analysis; Environmental and Development Economics; Organizational Economics). Specific course requirements are determined by each focus area. All course work needs to be from courses numbered 7000-9000. The program includes graduate-level courses in microeconomic theory and quantitative methods. Students opting for the MS thesis must complete at least six credit hours of research as part of the minimum 30 hours. An alternative MS non-thesis program requires that additional course work be substituted for thesis research. Before admission to the MS program, a student should have completed at least nine hours of agricultural economics or economics, a course in calculus and one in statistics. Note: Focus areas do not appear on diplomas or transcripts.

PhD in Agricultural and Applied Economics

Degree Requirements

The PhD program emphasizes preparation for research, teaching and extension work in academia, as well as for careers in agrifood business, government and international agriculture. The program usually requires about three years beyond the master's program to complete. The size, quality and diversity of the faculty provide a broad choice of advisors and research topics. Students and their advisory committees have latitude in developing a plan of study.

Doctoral candidates will choose specialties from one of the following Focus Areas (FAs) (will not appear on transcripts or diplomas):
Agricultural Economics and Policy Analysis: This Focus Area seeks knowledge about how agricultural and food policy and innovation influence markets and, ultimately, human well-being. The program relies on a rigorous approach to agricultural economics that underpins applied analysis, including experimental and behavioral economic models, strategic interaction models, structural economic models, investment or firm models, systems simulation, mathematical programming, and econometrics. The FA relies on coursework and research with widely recognized centers for agricultural economics, such as the Food and Agricultural Policy Research Institute (FAPRI), Agricultural Markets and Policy (AMAP) and the Economics and Management of Agrobiotechnology Center (EMAC).

Environmental and Development Economics: This Focus Area helps students develop skills and knowledge that can be used to address some of society’s most pressing problems. There are many linkages between environmental and natural resource issues and development, both in developed and developing economies. This is particularly true where agriculture plays a significant role in the livelihoods of people and rural communities, since soil and water resources are critical determinants of both agricultural productivity and human well-being. The importance of these linkages is evidenced by the emphasis on sustainable development in policy circles. Institutions affect environmental outcomes, economic development, and risk so comparing institutions across differing contexts can provide useful insights. An emerging research area is behavioral economics, which can be productively applied to environmental and development issues. Students will apply theory from economics and other social sciences using rigorous analytical tools to address real-world problems. We are interested in students who want to create knowledge that matters through translational research.

Organizational Economics: The Focus Area represents a coherent area of study for preparing students for academic careers in applied economics, management, and cognate fields, and for careers in government and industry. The program design is based upon a set of courses offered in the Department that support MS and PhD training in microeconomic theory, institutional and neo-institutional economics, and organizational economics. This set of courses is augmented by courses in qualitative and quantitative methods and a cognate area that supports the student’s research. The cognate area is chosen consultation with the major advisor and committee input.

The general course requirements for the PhD consist of theory and methods courses, followed by a well-balanced selection of elective and research courses in agricultural and applied economics and other disciplines at the graduate level. The course of study will prepare students for the qualifying exam taken after the first year of courses, the comprehensive exam assessing competency in his or her chosen fields of study, and independent research. A dissertation embodying the results of original research must be written on a subject approved by the program committee. An oral examination over the dissertation completes the degree requirements.

The minimum requirements for the PhD are as follows:
- 72 credit hours (minimum) from courses numbered 7000 – 9000, and within the 72 credit minimum are the following constraints:
  - No more than 30 credit hours can be transferred from an MS program
  - 15 credits must be from courses numbered 8000 – 9000, exclusive of dissertation research, problems or independent study
  - 6 credit hours designated as the PhD FA Theory core
- 6 credit hours designated as the PhD FA Methods core (can be met from any combination of quantitative, qualitative, mixed or other methods courses)
- 3 credit hours of AAE 8510 Research Methods and Design
- 12 credit hours of AAE 9090 Doctoral Dissertation Research in Agricultural and Applied Economics
- 45 credit hours designated as electives and/or additional required EA courses

Prerequisites for the PhD program include courses in intermediate microeconomics and macroeconomics; quantitative or mathematical economics; statistics, econometrics or regression and correlation analysis; and calculus. A master’s degree in economics, agricultural economics, or a related field, is preferred but not required for admittance into the PhD program. However, applicants to the PhD program without a master’s degree will be admitted initially into the MS program with the expectation that they complete the MS degree including MS thesis before continuing with their doctoral studies.

**Sample Plan of Study**

**Fall semester, year 1:**
- AAE 9040 Advanced Microeconomics Theory and Applications I; FA theory or methods course; Elective

**Spring semester, year 1:**
- FA theory or methods courses

**Fall semester, year 2:**
- FA field courses and/or Electives

**Spring semester, year 2:**
- AAE 8510 Research Methods and Design; FA field courses and/or Electives

**Subsequent semesters:**
- Field Courses and/or Electives; Research and Dissertation hours

**Qualifying Process**

After completing the first year sequence, students complete a qualifying exam process determined by the research Focus Area faculty. Examinations are completed in May with a retake, if needed, offered in August. Students must pass the qualifying exam process to continue in the PhD program.

**Comprehensive Examination Process**

Students take the Comprehensive Exam after passing the qualifying exam process and completing coursework, including core courses and field courses. The Comprehensive Exam consists of three parts: the written dissertation proposal, a written comprehensive exam, and an oral examination. The Comprehensive Exam is administered by the student’s Doctoral Program Committee.

**Dissertation Requirements**

Two types of dissertations are acceptable. The first type of dissertation is organized around a single topic and typically is a lengthy monograph of your research findings. The second type of dissertation is a compilation of three narrow-topic essays that are loosely related to a single, general theme or topic. Students select dissertation topics in consultation with their Doctoral Program Committee.

**Admissions**

The Department’s Graduate Studies Committee and Focus Area faculty oversee the admissions process. Admission into the PhD program is determined by an assessment of program prerequisites and application
materials. Domestic and international students are equally welcome to apply.

For More Information
For further information on admissions or financial assistance, write to Harvey James, director of graduate studies in agricultural economics, 200 Mumford Hall, Columbia, MO 65211, or hjames@missouri.edu.

Agricultural Education

Jon C. Simonsen, Associate Professor & Department Chair  
College of Agriculture, Food and Natural Resources  
126 Gentry Hall  
(573) 882-7451  
Fax: (573) 884-4444  
Administrative Assistant: swaimc@missouri.edu  
http://aged.missouri.edu

The agricultural education degree program provides students with the opportunity to combine an interest in agriculture, food and natural resources with their enjoyment of working and communicating with people. A degree in agricultural education leads to careers in which students can influence the understanding of agriculture and its role in society and the global economy.

The department offers the BS with a major in Agricultural Education, as well as an MS and a PhD. A minor is also available.

Faculty

Professor A. L. Ball**, B. L Garton**, L. G. Schumacher**  
Associate Professor J.C.Simonsen**  
Assistant Professor D. A. Cletzer**  
Assistant Teaching Professor J. D. Tummons*  
Assistant Teaching Professor S. Wood-Turley*  
Professional Development C.M. Abbott  
Professor Emeritus R. E. Linhardt, B. R. Stewart

* Graduate Faculty Member - membership is required to teach graduate-level courses, chair master's thesis committees, and serve on doctoral examination and dissertation committees.  
** Doctoral Faculty Member - membership is required to chair doctoral examination or dissertation committees. Graduate faculty membership is a prerequisite for Doctoral faculty membership.

Undergraduate

• BS in Agricultural Education (p. 56)  
  • with emphasis in Leadership (p. 58)  
  • with emphasis in Teacher Certification (p. 59)  
  • Minor in Agricultural Education (p. 62)

Students pursuing a degree in agricultural education choose between two emphasis areas. The leadership emphasis focuses on developing students' leadership, communication and human relation skills. Students learn how to plan, manage and disseminate information in educational and public settings. Teacher certification emphasis prepares students to meet state teacher licensure requirements and teach agriculture, food and natural resources to secondary and adult learners through Missouri public schools. Students in both the teacher certification and leadership emphasis areas have the opportunity to specialize in an area of interest by completing course work in one or more agriculture, food or natural resource disciplines.

Students transferring into agricultural education from other MU degree programs or from other institutions must have at least a 2.3 GPA for all course work attempted.

Major Core Requirements

See university general education and graduation requirements as well as the College of Agriculture, Food and Natural Resources listings. The requirements specific to agricultural education are also available at http://aged.missouri.edu.

Emphasis Areas

Students majoring in the agricultural education select the Teacher Certification emphasis or Leadership emphasis.

Graduate

• PhD in Agricultural Education (p. 62)

Department of Agricultural Education and Leadership

aged@missouri.edu  
http://dass.missouri.edu/aged/grad/

The agricultural education programs are designed for students with interests in agricultural education and leadership development. Coursework includes program and professional development, evaluation, teaching and learning theories and practices, social sciences research methods, organization and administration, leadership and communication.

The department also offers a MS in Agricultural Leadership, Communication and Education (p. 63).

BS in Agricultural Education

Degree Program Description

Agricultural Education combines interests in agriculture, working with people, shaping the next generation’s understanding of agriculture and its role in society, and using communication and human relation skills to obtain leadership roles in many agricultural industries. The degree program is individualized by choosing between two degree options – teaching or leadership. Some agricultural education careers include Agriculture teachers, Public Relations Specialist, and Youth Specialist. As an Agriculture teacher, graduates work for both public schools and adult education programs. They are responsible for teaching their students about the many facets of agriculture – from crops and livestock to economics and marketing – and how that system provides the food we eat. As Public relations specialists graduates work for a variety of private companies and non-profit organizations. They are responsible for communicating messages about their company's products or their organization's cause to the public. They utilize various media, such as radio, television and print publications, to accomplish their goals. As Youth specialists graduates work for non-profit groups such as 4-H, as well as outreach and extension services. They are responsible for developing educational programs for youth in their area.
Major Program Requirements

Students earning a Bachelor of Science in Agricultural Education are required to complete all University general education (p. 34), University undergraduate requirements (p. 33), degree, and major requirements, including selected foundational courses, which may fulfill some University general education requirements. Approximately one-third of the course work for the degree is completed in agricultural education or professionally related courses. In addition, the curriculum includes courses in agriculture, food and natural resource disciplines including agricultural economics, agricultural systems management, animal science, food science, horticulture, plant science and natural resources.

Students majoring in agricultural education select the Teacher Certification emphasis or Leadership emphasis. Please see the individual emphasis areas (p. 56) for degree and major requirements.

Total Credits: 121

- Denotes University General Education Requirements
- Denotes Degree Program Requirements

Teacher Education Courses

Students proceed through three phases as they complete the baccalaureate program. Each phase includes training in technology as well as clinical experience. University general education and content requirements are completed each semester in addition to the required program area courses. A student admitted to a professional program (Phase II) must maintain the standards met at the time of admission.

The Director of Teacher Certification will monitor student GPAs each semester. Students must maintain the following minimum GPA (UM and overall) to maintain in good standing.

<table>
<thead>
<tr>
<th>Phases:</th>
<th>Min. cumulative GPA (UM &amp; overall)</th>
<th>Min. professional (educ) GPA</th>
<th>Minimum ag content GPA</th>
</tr>
</thead>
<tbody>
<tr>
<td>Phase I</td>
<td>2.00</td>
<td>2.00</td>
<td>2.00</td>
</tr>
<tr>
<td>Phase II</td>
<td>2.75</td>
<td>3.00</td>
<td>3.00</td>
</tr>
<tr>
<td>Phase III</td>
<td>2.75</td>
<td>3.00</td>
<td>3.00</td>
</tr>
</tbody>
</table>

Students in Phase II or III must maintain the minimum GPA for their phase to be considered in good standing. If a student in Phase II or III is determined to not be in good standing, the Director of Teacher Certification will change the student to Phase I status and will notify the student in writing. Students may apply to be readmitted to Phase II upon meeting all the minimum GPAs required of that level.

**Phase I**

Students are automatically enrolled into Phase I upon entering the degree program. This phase provides students with an immersion into the discipline and culture of teaching and learning before focusing on a teaching specialty. Phase I coursework includes the following courses: ESC_PS 2010, LTC 2040, AG_ED_LD 2270, AG_ED_LD 2271, AG_ED_LD 4310, and AG_ED_LD 4321.

**Phase II**

This phase occurs over a three-semester sequence and focuses increasingly on a chosen teaching emphasis and on interdisciplinary
Applicants must meet the following requirements:

- Completion of at least the preceding semester in residence
- A minimum 2.750 UM GPA of record and an overall GPA of 2.750 (on a 4.000 scale)
- Content GPA of 3.000 (on a 4.000 scale)
- Professional (education) GPA of 3.000 (on a 4.000 scale)
- Completion of specific prerequisite professional education and subject area course requirements for the level at which the teaching internship is to be accomplished

Teaching internship placements are available in several districts across the State of Missouri. Applications are accepted approximately a year preceding internship. More information concerning student teaching internships may be obtained from John Tummons, Director of Teacher Certification. 123 Gentry Hall.

**Teacher Certification/Licensures**

Completion of the bachelor’s degree and any additional requirements for certification must be completed before the graduate is eligible for an Initial Professional Certificate from the Department of Elementary and Secondary Education in the State of Missouri.

Recommendation for initial certification after graduation requires:

- Passing score on the Content Area Exam (and official scores submitted to the University of Missouri)
- Passing score on the Missouri Pre-Service Teacher Assessment
- Official transcripts with the degree posted submitted to Office of Assessment in 2 Hill Hall.
- Submission of an IPC application from the DESE web application website (https://apps.dese.mo.gov/weblogin/login.aspx) to MU
- The Department of Elementary and Secondary Education also requires that students seeking additional certification in other teaching subjects take the Content Area Exam in those additional subjects in order to be considered a Highly Qualified Teacher.

A student recommended for teacher certification must meet the following criteria:

- Cumulative UM GPA of record of 2.750
- Overall GPA of 2.750 for all college course work completed
- Cumulative GPA of 3.000 in all content area course work
- 2.000 in each professional education course with overall 3.000 GPA
- Overall GPA of 2.750 for all college course work
- Satisfactory score on the Missouri Pre-Service Teacher Assessment
- Satisfactory score on the Content Area Exam required by the State of Missouri
- Satisfactory completion of minimum required professional and technical agriculture coursework
- An official copy of the student’s transcript with baccalaureate degree posted submitted to the Office of Assessment in 2 Hill Hall.
- Complete online application for an Initial Professional Certificate through the Department of Elementary and Secondary Education (DESE) web application

---

**BS in Agricultural Education with Emphasis in Leadership**
Degree Program Description

Agricultural Education combines interests in agriculture, working with people, shaping the next generation’s understanding of agriculture and its role in society, and using communication and human relation skills to obtain leadership roles in many agricultural industries. The degree in Agricultural Education with emphasis in Leadership focuses on the development of leadership and communication skills in agriculture, food and natural resources. Students are encouraged to develop a diverse background in agriculture with an emphasis on communication, leadership and human relations skills. Students have the opportunity to specialize in an area of interest by completing coursework in one or more agriculture, food or natural resource disciplines. In addition to agricultural education and leadership course requirements, students complete course work in agricultural economics, agricultural sales and marketing, plant science, agricultural systems management, natural resources and food science. The capstone experience involves a supervised educational internship with an agricultural business, public or private agency or commodity organization.

Major Program Requirements

Students earning a Bachelor of Science in Agricultural Education are required to complete all University general education (p. 34), University undergraduate requirements (p. 33), degree, and major requirements, including selected foundational courses (p. 56), which may fulfill some University general education requirements.

Leadership Emphasis

The leadership emphasis focuses on developing students’ leadership, communication and human relation skills. Students are encouraged to develop a diverse background by completing course work in a variety of disciplines in the College of Agriculture, Food and Natural Resources. Students also have the opportunity to specialize and earn minors in disciplines of interest. The capstone experience involves a supervised internship with an agricultural business, public or private agency, or commodity organization in the area of education, training, communication and/or development.

Semester Plan

Refer to the Semester Plan for the BS in Agricultural Education (p. 56) and visit with an advisor to discuss the differences in the Leadership emphasis area.

BS in Agricultural Education with Emphasis in Teacher Certification

Degree Program Description

Agricultural Education combines interests in agriculture, working with people, shaping the next generation’s understanding of agriculture and its role in society, and using communication and human relation skills to obtain leadership roles in many agricultural industries. The degree in Agricultural Education with emphasis in Teacher Certification prepares students to meet state teacher certification requirements and teach agriculture in public schools at the secondary and adult levels. In addition to courses in agricultural education, the teaching option curriculum includes courses in general education, technical agriculture (agricultural economics, agricultural business and management, animal science, plant and soil science, agricultural systems management, horticulture, natural resources and forestry) and professional teacher certification courses offered through the College of Education. The capstone experience involves a 16-week student teaching internship.

Major Program Requirements

Students earning a Bachelor of Science in Agricultural Education are required to complete all University general education (p. 34), University undergraduate requirements (p. 33), degree, and major requirements, including selected foundational courses (p. 56), which may fulfill some University general education requirements.

Teacher Certification Emphasis

The Teacher Certification emphasis prepares students to meet state teacher licensure requirements to teach agriculture in Missouri public schools at the secondary and adult levels. In addition to courses in agricultural education, the curriculum includes a diverse selection of courses in agriculture, food and natural resources and professional
teacher certification courses offered through the College of Education. The capstone experience involves a semester-long teaching internship in a selected secondary agriculture program.

* Denotes University General Education Requirements

^ Denotes Degree Program Requirements

### Teacher Education Courses

Students proceed through three phases as they complete the baccalaureate program. Each phase includes training in technology as well as clinical experience. University general education and content requirements are completed each semester in addition to the required program area courses. A student admitted to a professional program (Phase II) must maintain the standards met at the time of admission.

The Director of Teacher Certification will monitor student GPAs each semester. Students must maintain the following minimum GPA (UM and overall) to maintain in good standing.
Meeting minimum requirements for admission to the University of Missouri requires that students seeking additional certification in other disciplines and subject areas or wishing to transfer to another program must meet the following criteria:

- Completion of Phase I coursework includes the following courses: ESC_PS 2010, LTC 2040, AG_ED_LD 2270, AG_ED_LD 2271, AG_ED_LD 4310, and AG_ED_LD 4321.

Phase I

Students are automatically enrolled into Phase I upon entering the degree program. This phase provides students with an immersion into the discipline and culture of teaching and learning before focusing on a teaching specialty. Phase I coursework includes the following courses: ESC_PS 2010, LTC 2040, AG_ED_LD 2270, AG_ED_LD 2271, AG_ED_LD 4310, and AG_ED_LD 4321.

Phase II

This phase occurs over a three-semester sequence and focuses increasingly on a chosen teaching emphasis and on interdisciplinary teaching. Experiences in this phase focus on instructional strategies, increasing on a chosen teaching emphasis and on interdisciplinary teaching. Experiences in this phase focus on instructional strategies, human development, classroom and behavior management and educational measurement. This phase provides students with experience in the methods of teaching in a specific subject area as well as emerging problems and practices within the field of education.

- Application to Phase II is required. Students become eligible for consideration for admittance to Phase II after meeting the following criteria:
  - Current enrollment in the Agricultural Education Program
  - Minimum 2.750 UM GPA of record and overall GPA (on a 4.000 scale)
  - Content GPA of 3.000 (on a 4.000 scale)
  - Professional (education) GPA of 3.000 (on a 4.000 scale)
  - Passing score on the Missouri General Education Assessment
  - Recommendation for initial certification after graduation requires:
    - Completion of the Missouri Educator Profile (or other required dispositions instrument as identified by DESE)
    - ENGLISH 1000 with a “C” range grade or higher
    - MATH 1100 with a “C” range grade or higher
    - Demonstration of competence of Phase 1 learning markers as demonstrated by satisfactory completion of Phase I courses (ESC_PS 2010, LTC 2040, AG_ED_LD 2270, AG_ED_LD 2271, AG_ED_LD 4310, and AG_ED_LD 4321) with a grade of “S” (satisfactory), or “C” (2.00) or higher in each course.
    - Demonstrated competence of Phase I mid-preparation benchmarks (as documented by Phase I instructors)
    - Possession of characteristics associated with effective performance in a professional role at the level(s) and in the major(s) selected
    - Completion of application for progression

Phase III

Phase III occurs during the last year, including student placement in a public school district for the entire semester, for approximately 16 weeks (12 credit hours).

Application for Phase III is required. To qualify for the teaching internship, applicants must meet the following requirements:

- Admission to Phase III in the program area
- Successful completion of all Phase II requirements
- Demonstration of competence of Phase II learning markers as demonstrated by satisfactory completion of Phase II courses (AG_ED_LD 4320, AG_ED_LD 4330, AG_ED_LD 4331, SPC_ED 4020, LTC 4460, LTC 4560, LTC 4565) with a grade of “S” (satisfactory), or “C” (2.00) or higher in each course.
- A minimum of 90 completed credit hours
- Completion of at least the preceding semester in residence
- A minimum 2.750 UM GPA of record and an overall GPA of 2.750 (on a 4.000 scale)
- Content GPA of 3.000 (on a 4.000 scale)
- Professional (education) GPA of 3.000 (on a 4.000 scale)
- Completion of specific prerequisite professional education and subject area course requirements for the level at which the teaching internship is to be accomplished

Teaching internship placements are available in several districts across the State of Missouri. Applications are accepted approximately a year preceding internship. More information concerning student teaching internships may be obtained from John Tummons, Director of Teacher Certification. 123 Gentry Hall.

Teacher Certification

Licensures

Completion of the bachelor’s degree and any additional requirements for certification must be completed before the graduate is eligible for an Initial Professional Certificate from the Department of Elementary and Secondary Education in the State of Missouri.

- Recommendation for initial certification after graduation requires:
  - Passing score on the Content Area Exam (and official scores submitted to the University of Missouri)
  - Passing score on the Missouri Pre-Service Teacher Assessment
  - Official transcripts with the degree posted submitted to Office of Assessment in 2 Hill Hall.
  - Submission of an IPC application from the DESE web application website (https://apps.dese.mo.gov/weblogin/login.aspx) to MU
  - The Department of Elementary and Secondary Education also requires that students seeking additional certification in other
teaching subjects take the Content Area Exam in those additional subjects in order to be considered a Highly Qualified Teacher.

A student recommended for teacher certification must meet the following criteria:

- Cumulative UM GPA of record of 2.750
- Overall GPA of 2.750 for all college course work completed
- Cumulative GPA of 3.000 in all content area course work
- 2,000 in each professional education course with overall 3,000 GPA on all professional education course work
- Satisfactory score on the Missouri Pre-Service Teacher Assessment
- Satisfactory score on the Content Area Exam required by the State of Missouri
- Satisfactory completion of minimum required professional and technical agriculture coursework
- An official copy of the student's transcript with baccalaureate degree posted submitted to the Office of Assessment in 2 Hill Hall.
- Complete online application for an Initial Professional Certificate through the Department of Elementary and Secondary Education (DESE) web application

**Minor in Agricultural Education**

The Agricultural Education minor focuses on learning, teaching and the dissemination of information about agriculture, food and natural resource topics. The minor requires 15 credits of agricultural education course work with a minimum of 6 credits at the 3000 level or above.

**PhD in Agricultural Education**

**Degree Requirements**

A total of 72 credit hours beyond the baccalaureate degree must be completed. The student's doctoral program committee must approve all course work used to satisfy the credit-hour requirement and may require additional course work beyond the minimum.

Within the 72 credit hour requirement, students should complete 12 credit hours of course work that focuses on developing an area of expertise. The student's doctoral program committee will approve the area and content of the concentration. Concentrations may include, but are not limited to, Teacher Education, Extension Education, and Communication/Journalism.

**Electives** (including minimum of 12 credit hours for Concentrations)

**Qualifying Process**

Details regarding the Qualifying Process can be found in the program's Graduate Handbook (http://dass.missouri.edu/aged/grad/grad-handbook.pdf).

**Comprehensive Examination Process**

Candidacy for a doctoral degree is established by passing the comprehensive examination. The comprehensive examination includes written and oral sections and is completed as the candidate is completing the prescribed coursework. Details regarding the examination process can be found in the program's Graduate Handbook (http://dass.missouri.edu/aged/grad/grad-handbook.pdf).

**Dissertation Requirements**

After passing the comprehensive examination, the program for the doctoral degree must be completed within five years. Upon completion of the dissertation research project, the candidate defends the dissertation before his/her doctoral research committee. Details regarding the dissertation process can be found in the program's Graduate Handbook (http://dass.missouri.edu/aged/grad/grad-handbook.pdf).

During the time when a student is working on the dissertation, candidacy is maintained by enrolling in AG_ED_LD 9090 Doctoral Research in Agricultural Education and Leadership for two credit hours each fall and spring semester, and for one credit hour each summer semester, up to and including the term in which the dissertation is defended. Continuous enrollment provides access to an advisor's support, doctoral program committee guidance, and University research facilities for completion of the dissertation. Failure to continuously enroll in AG_ED_LD 9090 until the doctoral degree is awarded terminates candidacy.

**Admissions**

Applicants are required to meet two sets of minimum qualifications for admission: the requirements of the PhD in Agricultural Education program (https://gradstudies.missouri.edu/degreecategory/agricultural-education) and the minimum requirements of the graduate faculty, enforced by the Office of Graduate Studies (https://gradstudies.missouri.edu/admissions/eligibility-process). Because requirements vary, you must refer to a degree program's graduate admission page to learn about specific admission criteria, application deadlines, eligibility and application process. Before official admission
to the University of Missouri, your application materials will be reviewed by both the Graduate School and the degree program to which you've applied.

**Agricultural Leadership, Communication and Education**

Jon Simonsen, Associate Professor and Department Chair  
College of Agriculture, Food and Natural Resources  
126 Gentry Hall  
(573) 884-7375  
Fax: (573) 884-4444  
Administrative Assistant: swaimc@missouri.edu  
http://aged.missouri.edu

The agricultural education degree program provides students with the opportunity to combine an interest in agriculture, food and natural resources with their enjoyment of working and communicating with people. A degree in agricultural education leads to careers in which students can influence the understanding of agriculture and its role in society and the global economy.

The department offers the BS and PhD in Agricultural Education, as well as an MS in Agricultural Leadership, Communication and Education. A minor is also available.

**Faculty**

**Professor** A. L. Ball**, B. L. Garton**, L. G. Schumacher**  
**Associate Professor** J. C. Simonsen**  
**Assistant Professor** D. A. Cletzer*  
**Assistant Teaching Professor** J. D. Tummons*  
**Assistant Teaching Professor** S. Wood-Turley*  
**Professor Development** C. M. Abbott  
**Professor Emeritus** R. E. Linhardt, B. R. Stewart

* Graduate Faculty Member - membership is required to teach graduate-level courses, chair master's thesis committees, and serve on doctoral examination and dissertation committees.  
** Doctoral Faculty Member - membership is required to chair doctoral examination or dissertation committees. Graduate faculty membership is a prerequisite for Doctoral faculty membership.

**Undergraduate**

While MU does not offer undergraduate degrees specifically in agricultural leadership, communication and education, the University does offer bachelors degrees in the closely related areas of Agricultural Education (p. 56), as well as other related areas both within the College of Agriculture, Food and Natural Resources, and in the other Schools and Colleges that make up the University. The catalog provides a complete list of these degree options (p. 18).

**Graduate**

* MS in Agricultural Leadership, Communication and Education (p. 63)

The department also offers a BS (p. 56) and PhD (p. 56) in Agricultural Education.

**MS in Agricultural Leadership, Communication and Education**

**Degree Requirements**

The program consists of a minimum of 32 credits of graduate coursework beyond the bachelor's degree for the non-thesis/creative component option, and 30 credits for the thesis option. For a full explanation of the thesis/non-thesis options, see section below on Thesis/Non-Thesis Requirements (p. 64).

### Sample Plan of Study

Because students in the M.S. program are from a wide variety of circumstances, and pursue the M.S. at all different paces, a sample plan of study is not easily produced. Students are encouraged to work out their plan of study with their advisor.

### Thesis/Non-Thesis Requirements

The program offers students three options:

1. **Creative Component Option**
   - This option is oriented toward improving a practitioner's professional proficiency in teaching, curriculum development, program planning and evaluations. The program of study should include courses and learning experiences that will develop the student's knowledge and skills in the processes of learning and teaching. The Creative Component option requires a minimum of 32 hours of graduate credit (to include a minimum of 29 hours of formal graduate courses, plus a maximum of 3 hours of 8080 Creative Component) with a minimum of 16 credit hours at the 8000 level and a minimum of 16 credit hours taken in Agricultural Education and Leadership. Candidates must also complete an approved creative component project.

2. **Creative Component with Teacher Certification Option**
   - This option is designed for individuals who have earned a B.S. degree in an agricultural discipline and desire the initial teacher certification to teach agriculture at the secondary level. Included in the course work for this option are some of the classes needed for certification to teach secondary high school agriculture in Missouri.

3. **Thesis Option**
   - This option is research-oriented, focusing on designing and conducting research in the social sciences. The program of study should include courses and learning experiences that will maximize a student's progress in developing skills that will enable the student to continue his/her education in a research-oriented area. The Thesis option requires a minimum of 30 hours of graduate credit (to include a minimum of 24 hours of formal graduate courses, plus a maximum of six hours of 8090 Research) with a minimum of 15 credit hours at the 8000 level and a minimum of 15 credit hours taken in Agricultural Education and Leadership. Candidates must also complete an approved thesis based on original research.

### Admissions

Applicants are required to meet two sets of minimum qualifications for admission: the requirements of the MS in Agricultural Education program (https://gradstudies.missouri.edu/degreecategory/agricultural-education) and the minimum requirements of the Office of Graduate Studies (https://gradstudies.missouri.edu/admissions/eligibility-process). Because requirements vary, you must refer to a degree program's graduate admission page to learn about specific admission criteria, application deadlines, eligibility and application process. Your application materials will be reviewed by both the Office of Graduate Studies and the degree program to which you've applied before official admission to the University of Missouri.

### Agricultural Systems Management

Leon G. Schumacher, Chair
College of Agriculture, Food and Natural Resources
Division of Food Systems and Bioengineering
207 Agricultural Engineering Building
(573) 882-2731
ASM@missouri.edu

Agricultural systems management integrates physical systems with agricultural science and management skills to provide graduates with abilities to function in sales, service and maintenance management positions in agribusiness industries. The uniqueness of agricultural systems management graduates lies in their knowledge of the principles of physical systems that are the backbone of modern agricultural and food industries. The department offers the Bachelor of Science with a major in Agricultural Systems Management. A minor is also available.

### Faculty

**Professor** D. Brune*, W. Downs, L. Schumacher*

**Associate Professor** D. Baker*, S. Borgelt**, K. Sudduth**, A. Thompson**

**Assistant Professor** B. Broz, B. Koc*, T. Lim*, J. Zulovich*

**Research Associate** K. Funkenbusch

**Extension Associate** D. Downing

**Professor Emeritus** D. Currence, J. Frisby, B. Hires, J. Hoehne, D. Pflot

* Graduate Faculty Member - membership is required to teach graduate-level courses, chair master's thesis committees, and serve on doctoral examination and dissertation committees.

** Doctoral Faculty Member - membership is required to chair doctoral examination or dissertation committees. Graduate faculty membership is a prerequisite for Doctoral faculty membership.

### Undergraduate

- BS in Agricultural Systems Management (p. 65)
- Minor in Agricultural Systems Management (p. 66)

### Graduate

While MU does not offer graduate degrees in ASM, the University does offer post-baccalaureate opportunities in a number of related areas, both
within the College of Agriculture, Food and Natural Resources, and in the other Schools and Colleges that make up the University. The catalog provides a complete list of these degree options (p. 18).

BS in Agricultural Systems Management

Degree Program Description

Agricultural Systems Management combines interests in machines and business. The business and technical skills acquired prepares students for any number of careers in many industries, including Agricultural and Power Equipment Manufacturing, Equipment Sales, Food Production and Processing, and Government. In Agricultural and Power Equipment Manufacturing, companies such as Caterpillar, Case IH and John Deere seek product developers, managers and supervisors trained in the latest in precision agriculture, hydraulics, electrical circuits, engines and machinery management. In Equipment Sales, local and regional dealerships who sell agricultural machinery to agricultural producers seek technical sales representatives who possess strong product knowledge and an understanding of business finance and marketing to provide producers with the equipment they need. In Food Production and Processing, companies such as Anheuser-Busch, Archer Daniels Midland, Frito-Lay, Pioneer Hi-Bred, Cargill and Purina Mills seek grain elevator and mill operators and managers to properly handle, store and process agricultural crops and materials. In Government, state and federal agencies such as the Missouri Department of Natural Resources, the U.S. Department of Agriculture and the Natural Resources Conservation Service seek consultants and specialists to oversee and regulate pesticide application, water handling and irrigation systems, animal waste management systems, and watershed management.

Major Program Requirements

Students earning a Bachelor of Science in Agricultural Systems Management are required to complete all University general education (p. 34), University undergraduate requirements (p. 33), degree, and major requirements, including selected foundational courses, which may fulfill some University general education requirements.

Agri-Business/Electives (12 credit hours)

Students are expected to take 3 classes that are 3000 level or above in Agribusiness Management.

ABM minor is recommended: 1-2000 level course and 3-3000 level courses fulfill this requirement

Electives

Please see your advisor for approval list of agribusiness electives.

In consultation with their advisor, students may select elective courses to bring their total credit hours to the 120 hour minimum. Typically electives are chosen to provide emphasis in one of the following areas:

- Natural resource and environment
• Materials handling and crop processing
• Power and machinery systems
• Production agriculture

**Agricultural Equipment Dealership Management Program**

Students who participate in the Agriculture Equipment Dealership Management program take a comprehensive sequence of courses in agricultural systems management and agricultural business management. Each student plans and completes an internship with a sponsoring dealer. Up to 6 credits may be earned through an Internship.

**Semester Plan**

Below is a sample plan of study, semester by semester. A student's actual plan may vary based on course choices where options are available.

Total Credits: 121-122

**Minor in Agricultural Systems Management**

15 hours of Agricultural Systems Management coursework. Of the 15 hours, 9 hours must be 3000 level or above.

**Agriculture**

The agriculture degree program is for students searching for a well-rounded education that builds on the diversity of the other degree programs in the College of Agriculture, Food and Natural Resources (CAFNR). The flexibility of agriculture degree enables students to tailor a program to fit their individual interests and career goals. Students earn a Bachelor of Science in Agriculture. This major offers and emphasis in Sustainable Agriculture (https://majors.missouri.edu/agriculture-sustainable-agriculture-bs).

Sustainable agriculture meets the needs of both farmers and consumers by creating agricultural systems that produce food for a growing population in a way that protects the environment and supports healthy, dynamic communities. Increasingly, farmers are looking for creative ways to increase and diversify farm income, while consumers are seeking sustainably raised food produced close to home. A Bachelor of Science degree in Agriculture with an emphasis in Sustainable Agriculture provides the skills and knowledge to incorporate economic viability, environmental stewardship, and social responsibility in food and farming systems. Some of the areas studied include: theory and practice of sustainable agriculture, community food systems, advanced sustainable production systems, and an introduction to soils.

Some career opportunities include production, sales and marketing, government, and non-governmental organizations.

**Faculty**

See Listing for Faculty in areas of concentration by referring to the degree listings available under the College of Agriculture, Food and Natural Resources.

**Undergraduate**

• BS in Agriculture (p. 67)
• with emphasis in Sustainable Agriculture (p. 68)

Students may choose to get a BS in Agriculture without the emphasis.

Dickinson Student Achievement Center
2-64 Agriculture Building
(573) 882-8301
www.cafnr.missouri.edu

The agriculture degree program is for students searching for a well-rounded education that builds on the diversity of the other degree programs in the College of Agriculture, Food and Natural Resources (CAFNR). The flexibility of agriculture degree enables students to tailor a program to fit their individual interests and career goals. Students earn a Bachelor of Science in Agriculture.

Students choose agriculture for a variety of reasons. Some may enter the program with a specific career goal in mind. Others may choose agriculture to obtain a broader education that will give them more flexibility.
Graduate

While the College of Agriculture, Food and Natural Resources does not offer a graduate degree in Agriculture, the College does offer graduate degrees and certificates in a number of disciplinary areas. The catalog provides a complete list of these degree options (p. 18) for all Schools and Colleges that make up the University of Missouri.

BS in Agriculture

Degree Program Description

The agriculture degree program is for students searching for a well-rounded education that builds on the diversity of the other degree programs in the College of Agriculture, Food and Natural Resources (CAFNR). The flexibility of agriculture degree enables students to tailor a program to fit their individual interests and career goals. Students earn a Bachelor of Science in Agriculture.

Major Program Requirements

Students earning a Bachelor of Science in Agriculture are required to complete all University general education (p. 34), University undergraduate requirements (p. 33), degree, and major requirements, including selected foundational courses, which may fulfill some University general education requirements.

Degree and Major Courses

- Students in agriculture also must complete three areas of concentration from CAFNR programs that offer a major or a minor. The primary concentration area requires completion of 18 or more credits. Two additional concentration areas of at least 15 credits each are also required. (See below.)
- These courses shall not be used to fulfill the requirements of a minor.
- Within each concentration area, at least six credits must be at the 3000-level or above.
- Within each concentration area, at least 50 percent of the credits must be earned through MU courses.
- Credits used to meet the University general education requirements can be used to meet requirements in concentration areas.

- No more than six credits in the primary area and three credits in the secondary areas may consist of problems, readings, internships, travel courses and other non-structured courses.
- The capstone experience for agriculture majors can be a capstone course in a concentration area, an internship or capstone project. This capstone is in addition to credits in the concentration areas.

Areas of Concentration

Agribusiness Management
Agricultural Education
Agricultural Leadership
Agricultural Systems Management
Animal Sciences
Environmental Sciences
Food Science and Nutrition
Hospitality Management
Natural Resource Science and Management
Parks, Recreation and Sport
Plant Sciences
Rural Sociology

BS in Agriculture with Emphasis in Sustainable Agriculture

Degree Program Description

Sustainable agriculture meets the needs of both farmers and consumers by creating agricultural systems that produce food for a growing population in a way that protects the environment and supports healthy, dynamic communities. Increasingly, farmers are looking for creative ways to increase and diversify farm income, while consumers are seeking sustainably raised food produced close to home. A Bachelor of Science degree in Agriculture with an emphasis in Sustainable Agriculture provides the skills and knowledge to incorporate economic viability, environmental stewardship, and social responsibility in food and farming systems. Some of the areas studied include: theory and practice of sustainable agriculture, community food systems, advanced sustainable production systems, and an introduction to soils. Some career opportunities include production, sales and marketing, government, and non-governmental organizations.

Major Program Requirements

CAFNR offers an emphasis area in Sustainable Agriculture as part of its Agriculture degree program. A minimum of 48 credits is required for the emphasis area (major) degree.

Primary Concentration

| AFNR 2215 | Introduction to the Theory and Practice of Sustainable Agriculture | 3  |
| AFNR 3215 | Community Food Systems | 3  |
| AFNR 3315 | Advanced Practices in Sustainable Agriculture | 3  |
| SOIL 2100 | Introduction to Soils (Concurrent enrollment in SOIL 2106 recommended) | 3  |
| Choose two courses from the following |
| AN_SCI 2111 | Sophomore Seminar: Societal Issues | 3  |
| PLNT_S 2110 | Plants and their Cultivation | 3  |
| RU_SOC 1120 | Population and the Environment | 3  |
| NAT_R 1060 | Ecology and Conservation of Natural Resources | 3  |
| NAT_R 1070 | Ecology and Renewable Resource Management | 3  |

Secondary Concentration

| ABM 2070 | Environmental Economics and Policy | 3  |
| ABM 2183 | The Agricultural Marketing System | 3  |
| ABM 3241 | Ethical Issues in Agriculture | 3  |
| Choose one course from the following |
| ABM 3260 | General Farm Management | 3  |
| ABM 3224 | New Products Marketing | 3  |

Choose one course from the following

| RU_SOC 2225 | Science, Technology and Society | 3  |
| BIOCHM 2112 | Biotechnology in Society | 3  |
| SCI_AG_J 4414 | Field Reporting on the Food System and Environment | 3  |

Secondary Concentration

15

Choose Community Food Systems OR Production Systems

Community Food Systems (15 hrs total)

| ABM 2223 | Agricultural Sales | 3  |
| ABM 3271 | International Agricultural Development | 3  |
| ABM 3283 | Fundamentals of Entrepreneurship | 3  |
| AG_ED_LD 2220 | Verbal Communication in Agriculture, Food and Natural Resources | 3  |
| AG_ED_LD 2250 | Introduction to Leadership | 3  |
| AG_ED_LD 2260 | Team and Organizational Leadership | 3  |
| AG_ED_LD 4340 | Designing and Delivering Educational/Leadership Programs | 3  |
| AN_SCI 2111 | Sophomore Seminar: Societal Issues | 3  |
| FINPLN 2183 | Personal and Family Finance | 3  |
| NEP 4590 | Community Nutrition | 3  |
| RU_SOC 3235 | Global Perspectives and Realities | 3  |
| RU_SOC 3235 | Sociology of Food and Nutrition | 3  |
| RU_SOC 4341 | Building Communities from the Grassroots | 3  |
| RU_SOC 4325 | American Community Studies | 3  |
| RU_SOC 4370 | Environmental Sociology | 3  |

Production Systems (15 hrs total)

| ABM 4962 | Planning the Farm Business | 3  |
| AN_SCI 2111 | Sophomore Seminar: Societal Issues | 3  |
| AN_SCI 2111 | Facing Animal Agriculture | 3  |
| FOREST 4385 | Agroforestry I: Theory, Practice and Adoption | 3  |
| PLNT_S 2075 | Environmental Horticulture | 3  |
| PLNT_S 2125 | Plant Structure and Function | 3  |
| PLNT_S 3210 | Principles of Weed Science | 4  |
| PLNT_S 3230 | Plant Propagation | 3  |
| PLNT_S 3260 | Greenhouse Management | 4  |
| PLNT_S 3270 | Forage Crops | 3  |
| PLNT_S 3275 | Grain Crops | 3  |
| PLNT_S 3710 | Introductory Entomology | 3  |
| PLNT_S 3715 | Insect Diversity | 2  |
| PLNT_S 4730 | Insect Pest Management for Plant Protection | 3  |
| SOIL 3290 | Soils and the Environment | 3  |
| SOIL 4308 | Soil Conservation | 3  |
| SOIL 4312 | Environmental Soil Microbiology | 3  |
| SOIL 4313 | Soil Fertility and Plant Nutrition | 3  |

Semester Plan

A sample plan of study has not been designed for this major. Students should contact the academic department for assistance with academic planning.

Animal Sciences

Division of Animal Sciences
Agriculture, Food and Natural Resources, students must meet the following requirements for the honors program in animal sciences. A student must be a junior or senior to participate in the honors program.

- Successful completion of either an internship or undergraduate research or a combination of both for 6 credits in animal sciences honors
- Program approval by a three-member departmental honors committee
- Submission of a written report plus an oral or poster presentation

Ag Scholars Program

This program provides early assurance of admission to the MU College of Veterinary Medicine to selected students pursuing undergraduate animal science studies at the University of Missouri.

High School seniors and MU freshman with an ACT composite score of 27 or more or an equivalent SAT score are eligible to apply for the Ag Scholars Program.

Applicants must have demonstrated experience in livestock production and health. Examples of appropriate experience may include participation in a livestock enterprise as either a family member or employee; enrollment in at least two years of high school agricultural coursework; and participation in FFA, 4H or equivalent organizations with projects directly related to livestock production or health; or completion of an internship of a least 250 supervised hours working in livestock production or a livestock health enterprise prior to applying for program admission.

For additional information, contact:
Preveterinary Medical Scholars and Ag Scholars Programs
W-203 Veterinary Medicine Bldg.
College of Veterinary Medicine
University of Missouri
Columbia, Missouri 65211
(573) 884-3341

Agreement with the College of Veterinary Medicine

The Division of Animal Sciences and the College of Veterinary Medicine have an articulation agreement which enables MU Animal Sciences majors who are admitted to the College of Veterinary Medicine before completing their B.S. degree to earn a B.S. degree in Animal Sciences while working toward their DVM. In order to earn a B.S. degree in Animal Sciences the following requirements must be met:

- All General Education (p. 34) requirements established by the University of Missouri campus.
- All MU Animal Sciences requirements except for Animal Science senior electives; courses from the College of Veterinary Medicine will substitute for the Animal Sciences senior electives.

The student may also substitute up to 20 hours completed in the College of Veterinary Medicine in lieu of general electives in order to complete the total number of student credit hours necessary for a B.S. degree in Animal Sciences.

The B.S. degree in Animal Sciences will be granted after meeting the requirements listed above and earning a total of 120 credits.
Graduate

- MS in Animal Sciences (p. 71)
- PhD in Animal Sciences (p. 72)

Division of Animal Sciences
920 E. Campus Drive, Columbia, MO 65211
(573) 882-8336
http://animalsciences.missouri.edu/academics/graduates.php

Director of Graduate Studies: William Lamberson

About Animal Sciences Graduate Programs

The Division of Animal Sciences has a broad-based teaching program, and our faculty members are noted for teaching and mentoring excellence. Our PhD program was recently ranked among the best in the country by the National Research Council and our research program among the best in the world by Reuters. Our graduate program has maintained or increased numbers, support, and placement rates over the past five years. The Division strives to maintain a diverse faculty qualified to teach relevant courses in five discipline areas (reproductive and environmental physiology, ruminant and monogastric nutrition, genetics/genomics, meat science and livestock production) and across six species (swine, dairy cattle, beef cattle, poultry, companion animals and horses) to serve the demand for graduates to be employed nationwide in research, teaching and industry.

BS in Animal Sciences

Degree Program Description

Humans have been improving the value of animals as companions, transportation, laborers and food since the first dogs, horses, donkeys and cattle were domesticated. Animal Sciences provides an in-depth focus on whole-animal biology and contributes to advances in livestock production, animal health and human health through cutting-edge research and direct application of that new knowledge. Animal Scientists apply the latest in genetics, physiology and nutrition to any of these diverse fields. By employing a whole-animal approach to science, this degree prepares students for any number of careers, including agribusiness, livestock production, research, veterinarians, captive wild animal management, animal products and equine industry. In agribusiness, our graduates are in demand to fill sales and management positions with feed and pharmaceutical companies such as Land O'Lakes, Zoetis and Elanco. In livestock production, graduates who prefer to work directly with animals find rewarding positions as managers of various farm companies, such as Tyson Foods, Smithfield, Cargill and other private companies. In research, graduates with a passion for research are needed as lead scientists and laboratory technicians in industry and academia. As a veterinarian, an animal sciences degree provides a solid science and husbandry foundation for the study of veterinary medicine. Some vets specialize in care for companion animals, such as dogs and cats, while others focus on livestock, horses or wildlife. In captive wild animal management, zoological parks hire animal sciences graduates to manage the care and well-being of the park’s collection. In addition to animal care, zookeepers also can be involved with research and conservation efforts. In animal products, students with a specific interest in meat, dairy products and eggs are in high demand for positions with companies such as Farmland, Hormel, Hy-Vee and Sam’s Club. Opportunities abound in procurement, sales, quality assurance and food safety. In equine industry, the degree focuses on the science behind equine management and as such students are placed in positions at prominent equine breeding, sales or training facilities throughout the U.S. Students have multiple opportunities to gain hands-on experience by using horses in the MU Quarter Horse Program.

Major Program Requirements

Students earning a Bachelor of Science in Animal Sciences are required to complete all University undergraduate general education requirements (p. 34), and divisional major requirements, including selected foundational courses, which may fulfill some University general education requirements.

Total Credits: 120

Minor in Animal Sciences

To earn a minor in animal sciences, a student must meet the following requirements.
- A minimum of 15 hours of course credit in Animal Sciences
- A minimum of 9 hours of course work in Animal Sciences courses numbered 3000 or above.
- Students may select any combination of animal sciences courses excluding problems and internships to meet the above requirements; however, all students will be expected to meet prerequisites of animal sciences courses.
- Up to six transfer credits can be applied toward the minor; however, these transfer credits can only apply toward the lower level courses. Hence, a student must complete nine credit hours of Animal Science credits at MU that are 3000 level or higher.

MS in Animal Sciences

Degree Requirements

You and your committee develop a program of study cooperatively. An official form or letter must accompany any change in a program. A satisfactory scholastic standard must be maintained. All courses taken for graduate credit must have a cumulative average of 3.0 or higher. If the GPA falls below 3.0 cumulative, you will be placed on academic probation. There will be no waiver of fees during this probationary period. You must regain a 3.0 level at the end of the following semester or become subject to dismissal. This GPA must be maintained exclusive of problems, research and departmental seminars.

Graduate students taking 7000 level courses should expect course requirements beyond those of undergraduate students in order to warrant receiving graduate credit for those courses. The Division of Animal Sciences allows no more than two 7000 level Animal Science courses in a graduate program.

Seminars

Two credit hours in seminar are required for the Master of Science degree. To meet the seminar requirement courses must require presentations of technical information. Seminars provide an opportunity...
to develop skills in presenting technical information to a group of peers and permit you to become acquainted with specialists in the area of animal and biological sciences.

**Responsible Conduct of Research**

M.S. students are encouraged to take a course in “Responsible Conduct of Research”. This requirement can be met by taking either:

- BIOCHM/BIO_SC 8060 Ethical Conduct of Research 1
- V_PBIO 8641 Introduction to Research Ethics 1
- Other Responsible Conduct of Research course approved by the Director of Graduate Studies

**Sample Plan of Study**

Because students in the M.S. program are from a wide variety of circumstances, and pursue the M.S. at all different paces, a sample plan of study is not easily produced. Students are encouraged to work out their plan of study with their advisor.

**Thesis/Non-Thesis Requirements**

**Thesis Option Requirements**

<table>
<thead>
<tr>

**Admissions**

**Admission Contact Information:**

Gloria Johnson
920 E. Campus Drive
Columbia, MO 65211
(573) 882-8336
https://animalsciences.missouri.edu/graduate/

Applicants are required to meet two sets of minimum qualifications for admission: the requirements of the MS in Animal Science program (https://gradstudies.missouri.edu/degreecategory/animal-sciences) and the minimum requirements of the Office of Graduate Studies (https://gradstudies.missouri.edu/admissions/eligibility-process). Because requirements vary, you must refer to a degree program’s graduate admission page to learn about specific admission criteria, application deadlines, eligibility and application process. Your application materials will be reviewed by both the Office of Graduate Studies and the degree program to which you’ve applied before official admission to the University of Missouri.

**PhD in Animal Sciences**

**Degree Requirements**

Graduate students taking 7000 level courses should expect course requirements beyond those of undergraduate students in order to warrant receiving graduate credit for those courses. The Division of Animal Sciences allows no more than two 7000 level Animal Science courses in a graduate program.

The number of credit hours in formal course work and in research varies with the student’s background, training, interests, and the nature of the research. At least 4 hours of seminar and a responsible conduct of research course are required. A dissertation based on original research is required of each candidate. Completion of requirements for a doctoral degree is generally expected within three years (five years without prior MS) after admission to the PhD program.

**Seminars**

Four credit hours in seminar are required for the PhD degree. To meet the seminar requirement courses must require presentations of technical information. Seminars provide an opportunity to develop skills in presenting technical information to a group of peers and permit you to become acquainted with specialists in the area of animal and biological sciences.

**Responsible Conduct of Research**

PhD students are required to take a course in “Responsible Conduct of Research”. This requirement can be met by taking either:

- BIOCHM/BIO_SC 8060 Ethical Conduct of Research 1
- V_PBIO 8641 Introduction to Research Ethics 1
- Other Responsible Conduct of Research course approved by the Director of Graduate Studies

**Qualifying Process**

**Comprehensive Examination Process**

**Dissertation Requirements**

**Admissions**

Biochemistry

Michael Chapman, Chair
College of Agriculture, Food and Natural Resources
117 Schweitzer Hall
Phone: (573) 882-4845
Fax: (573) 882-5635

A course of study in the Department of Biochemistry emphasizes the application of chemical principles to biological systems and leads to the Bachelor of Science in Biochemistry. The program requires rigorous coursework in the basic sciences, culminating with a two course capstone experience of discipline specific problems and laboratory techniques. Students are encouraged to gain research experience through independent projects in faculty labs. The biochemistry degree prepares students for further study in graduate or professional school or for a career in biochemistry, biotechnology or the biological, chemical or medical sciences.

Faculty

Assistant Professor X. Heng**, A. Koo**

Research Professor L. Erb*

Associate Research Professor B. Mooney

Assistant Research Professor Z. Lei, V. Mossine, T. White*

Adjunct Professor J. Miernyk**

Associate Teaching Professor S. Freyermuth

Assistant Teaching Professor C. Lee

* Graduate Faculty Member - membership is required to teach graduate-level courses, chair master's thesis committees, and serve on doctoral examination and dissertation committees.

** Doctoral Faculty Member - membership is required to chair doctoral examination or dissertation committees. Graduate faculty membership is a prerequisite for Doctoral faculty membership.

Undergraduate

• BS in Biochemistry (p. 74)

Graduate

• MS in Biochemistry (p. 75)
• PhD in Biochemistry (p. 75)

College of Agriculture, Food and Natural Resources; School of Medicine
117 Schweitzer Hall
(573) 882-4846
http://www.biochem.missouri.edu/

Director of Graduate Studies: Charlotte Phillips

Biochemistry at the University of Missouri is a division of the College of Agriculture, Food and Natural Resources and a department of the School of Medicine. As a nationally ranked top 10 biochemistry department among public medical schools, we offer outstanding training that help students achieve their goals. We have 39 core faculty members and approximately 10 additional members, all of whom are available to mentor students in biochemistry. Nearly all facets of contemporary biochemical research are represented in their collective research interests. Our highly interactive program is an integral part of a campus-wide network of research programs including life sciences, genetics, nutrition, plant biochemistry and structural biology.

Interdisciplinary Area Programs

• PhD in Nutrition Area Program (p. 744)
• PhD in Genetics Area Program (p. 721)
• Minors in Business (p. 375), and College Teaching (p. 760)

The graduate programs of the Department of Biochemistry prepare students for professional careers in academic institutions, industry and government. The Department of Biochemistry is administered by the College of Agriculture, Food and Natural Resources and the School of Medicine. It provides a great range of opportunities for multidisciplinary study in plant, animal and microbial biochemistry, molecular biology, structural biology, and chemical biology.

Faculty Research

Virtually every important area of biochemistry and molecular biology is represented among the research interests of the faculty. These interests focus on plant biochemistry, hormonal control of plant and animal-cell metabolism, growth-factor structure and function, enzyme reaction mechanisms, biochemistry of development, biochemistry of human disease, lipid and carbohydrate metabolism, molecular biology, analytical biochemistry, proteomics, systems biochemistry, and structural biochemistry.

Facilities

The department has modern, well-equipped laboratories in the Life Sciences Center, Schweitzer Hall, Schlundt Annex, and Stephens Hall. Additional faculty are housed in the Animal Sciences Research Center, Chemistry Building, Dalton Cardiovascular Research Center, Mason Eye Institute, and the Truman Veterans Hospital.

Plans of Study

All students participate in individually planned research programs and have a supervised teaching experience along with course work. Students are expected to complete a program of courses in biochemistry and selected courses in modern biology and chemistry.

Careers

Biochemistry at the University of Missouri provides world-class training that can open the door to a wide variety of career opportunities in the life sciences. Our graduates have career opportunities available in academia, industry, agriculture or medicine.

Required Application Materials

All pre-requisites and application materials must be submitted by the annual deadline.

MD/PhD in Biochemistry Dual Degree Program

Students already accepted into the School of Medicine at MU may apply to the Department for acceptance into the MD/PhD program. Students matriculating in the MD/PhD degree program must
complete degree requirements of both the School of Medicine and the Graduate School. For information and for application forms, email gradprogram@missouri.edu or write the Director of Graduate Admissions in Biochemistry, 117 Schweitzer Hall, Columbia, MO 65211, or visit the website http://www.biochem.missouri.edu.

BS in Biochemistry

Degree Program Description

Biochemists are the locksmiths of life science. They use their imagination, ingenuity and understanding of the basics of living processes to unlock life’s mysteries. By unraveling the complexities of nature, they improve the quality of life. Biochemistry combines the tools of biology, chemistry and genetics to fight human disease, increase the production and quality of food, and protect the environment. The knowledge acquired through the program prepares students for careers in many areas, including Medicine, Biotechnology, Agriculture and Government. For Medicine, the degree provides excellent preparation for the intellectual demands of the medical profession. This training includes, as part of the degree requirements, all of the science courses necessary for application to medical school or related professional fields. Many graduates of this program matriculate at medical, dental, veterinary, pharmacy or optometry schools. In Biotechnology, some of the nation’s largest and most respected private biotechnology companies, such as Bayer, Johnson & Johnson and Pfizer, employ biochemists in a wide range of specialties, including molecular biology, genetics engineering, pharmaceutical development and microbiology. Many graduates have chosen to pursue Masters or Doctoral degrees at major research institutions across the country. Some have been selected for internships at National Institute of Health and others have earned National Science Foundation Pre- Doctoral Awards. In Agriculture, biochemists find employment with agricultural industry companies such as Cargill, Monsanto and Novartis. They may work on projects to develop new varieties of crops that resist drought and insects, produce pharmaceutical compounds, or tolerate herbicide application. In Government, state and federal agencies such as the U.S. Food and Drug Administration, U.S. Department of Energy and the Missouri Department of Agriculture employ biochemists in many fields. They might research biological alternatives for reclaiming sites contaminated with radioactive material or search for ways to protect against food-borne pathogens.

Major Program Requirements

Students earning a Bachelor of Science in Biochemistry are required to complete all University general education (p. 34), University undergraduate requirements (p. 33), and degree requirements, including selected foundational courses, which may fulfill some University general education requirements.

Total Credits: 120

**MS in Biochemistry**

Contact Information:
gradprogram@missouri.edu
117 Schweitzer Hall
Columbia, MO 65211
(573) 882-4846

Information regarding the MS in Biochemistry is available only upon written request.

**PhD in Biochemistry**

**Degree Requirements**

Along with courses and seminars, students embark on lab rotations, dissertation research, qualifying and comprehensive exams and committee meetings, culminating in the dissertation defense. Prior to successfully completing the comprehensive examination, a student must complete nine credit hours per semester, or four per summer, to remain a full-time graduate student. Following successful completion of both parts of the comprehensive exam, each student should register for a minimum of two hours of thesis/dissertation research per semester (or one in summer) to maintain continuous enrollment. More than the minimum may be needed to obtain the 72 credit hours required by the MU Graduate School (http://gradschool.missouri.edu) for completion of the PhD.

**Core Course Work**

- BIOCHM 8240 Introduction to Graduate Biochemistry I 4
- BIOCHM 8260 Macromolecular Systems Integration 4

**Elective Course Work**

PhD students are required to take two additional 8000/9000-level science courses. The following are recommended and pre-approved:

- BIOCHM 9432 Molecular Biology II 4
- BIOCHM 8432 Enzymology and Metabolic Regulation 3

**Ethics Seminar**

BIOCHM 8060 Ethical Conduct of Research 1

- All graduate students are required to earn a grade of B or better.
- A student who earns a grade of C or lower in any of these courses must retake the course.

**Department Seminars**

Students are expected to attend all department seminars (http://www.biochem.missouri.edu/news-events/seminars).

**Teaching Experience**

An important part of graduate education is learning to communicate effectively as a teacher. Two semesters enrolled in BIOCHM 9001 helps prepare the students for their teaching assistant experience which consists of one semester in an undergraduate laboratory or lecture venue. This is a required component of PhD degrees and typically is performed in the second year of graduate study. Students must satisfy this teaching experience requirement with a grade of B or better to remain in good standing as a graduate student in Biochemistry. This teaching experience usually involves assisting a faculty member in one of several courses and interacting with the students fairly extensively. The Biochemistry Department also offers a Zahler Fellowship for graduate students interested in teaching as a career. Missouri requires that students whose first language is not English demonstrate adequate oral proficiency before assisting in teaching.

**Qualifying Process**

Students who have earned grades of B or better in the required courses of BIOCHM 8240 Introduction to Graduate Biochemistry I and BIOCHM 8260 Macromolecular Systems Integration and are in good standing academically (cumulative GPA 3.0) should take the oral qualifying exam in May after their second semester. Failure to complete the oral qualifying exam by June of the second year will result in dismissal from the PhD program. Students who have earned a grade of C in a core course must retake the course and receive a grade of B or better to remain in the PhD program, even after passing the oral qualifying exam.

**Comprehensive Examination Process**

Students who have passed the qualifying exam should complete the written comprehensive exam within the next one to two semesters (by May of their second year). This examination involves writing a proposal for doctoral research in the format of a federal postdoctoral fellowship application. The student must then orally defend the proposal before his/her doctoral program committee plus a member of the graduate education committee. This is designed to assess the student’s ability to think critically about science and to communicate effectively both in writing and in an oral presentation.
Dissertation Requirements

BIOCHM 9087

Students should enroll in the first round of the one-hour seminar BIOCHM 9087 during the first semester. BIOCHM 9087 in the fall semester is designed to teach the fundamental techniques of oral presentation of scientific information, slide preparation, computer graphics, overhead preparation, etc., as well as research-compliance training. Students should complete three additional semesters of BIOCHM 9087 in spring semesters for a total of four credit hours. A student’s first spring BIOCHM 9087 seminar is devoted to a presentation of the proposed dissertation research. The second should provide an update of research progress or a review of major journal papers in the student’s research area. The third should be a practice for the dissertation defense. The student’s thesis committee is expected to attend these presentations at the invitation of the student. A meeting with the doctoral program committee (DPC) can be arranged after the seminar presentation and may serve as the required annual meeting.

Thesis/Dissertation Research

BIOCHM 9090

Prior to successfully completing the comprehensive examination, a student must complete nine credit hours per semester, or four per summer, to remain a full-time graduate student. Following successful completion of both parts of the comprehensive exam, each student should register for a minimum of two hours of thesis/dissertation research per semester (or one in summer) to maintain continuous enrollment. More than the minimum may be needed to obtain the 72 credit hours required by the MU Graduate School (http://gradschool.missouri.edu) for completion of the Ph.D.

Research Rotations

Starting in the fall semester of the first year, each student completes three laboratory rotations with the aim of identifying a lab in which to conduct PhD thesis research. By the end of the second semester, most students have chosen their labs. Each rotation should be conducted for a period of at least eight weeks. Two rotations are performed in the first semester, with the second rotation ending Dec. 31. The third rotation begins Jan. 1 or soon after. One-half of the student’s time and effort should be directed toward the rotation project and the other half toward course work. The rotation laboratory should serve as an academic home, and the student should participate in all usual laboratory activities, including weekly group meetings.

Admissions

Biochemistry Graduate Admissions Support
117 Schweitzer Hall
Columbia, MO 65211
(573) 882-4846, (800) 647-2414
gradprogram@missouri.edu

Applicants are required to meet two sets of minimum qualifications for admission: the requirements of the PhD in Biochemistry program (https://gradstudies.missouri.edu/degreecategory/biochemistry) and the minimum requirements of the Graduate School (http://gradschool.missouri.edu/admissions/eligibility-process/minimum-requirements.php). Because requirements vary, you must refer to a degree program’s graduate admission page to learn about specific admission criteria, application deadlines, eligibility and application process. Before official admission to the University of Missouri, your application materials will be reviewed by both the Graduate School and the degree program to which you’ve applied.

Environmental Sciences

Patrick S. Market, Undergraduate Curriculum Coordinator
Environmental Sciences
College of Agriculture, Food, and Natural Resources
331 Anheuser-Busch Natural Resources Building
(573) 882-7045

Earth’s environment provides conditions conducive for life: an oxygenated atmosphere; water resources; and soil as a medium for plant growth. Environmental processes occurring on the planet govern the movement of air, energy, matter, and water. Through the study of Environmental Sciences, students will learn the science and experience the beauty of the outdoor environment. This degree program addresses how human activities can adversely alter some environmental processes and environmental quality, techniques to improve environmental quality, modelling of environmental processes and practices that minimize human impacts on the environment. The Environmental Sciences degree provides a strong science foundation through general science coursework and specialized studies of the atmosphere, land and soil, water, and environmental outreach and education. The degree combines interests in predicting and understanding weather patterns, monitoring environmental change, conserving and managing soil and biological organisms, assuring healthy streams and adequate water supplies, and improving environmental quality with the shaping of new policies and educating others about the natural environment and environmental issues. Example careers include Atmospheric Scientist, Climatologist, Environmental Specialist, Environmental Technician, Hydrologist, Land Manager, Meteorologist, Soil Scientist, and Water Quality Specialist. Employment may occur in a variety of sectors, including federal, state, county and city government agencies, non-government agencies (NGOs), and private consulting firms.

Faculty

Professor Emeritus C. J. Gantz**, S. E. Mudrick
Associate Professor N. I. Fox**
Associate Professor Emeritus R. J. Miles **
Adjunct Associate Professor C. Baffaut*, F. Eivazi*, R. N. Lerch**, I. I. Mokhov, J. Yang*
Adjunct Assistant Professor J. Q. Adegoke*, T. Eichler, S. Lack, B. Myers, M. Nathan, B. Pettigrew, K.S. Veum*, F. J. Young*
Associate Research Professor R. P. Udawatta**
Assistant Professor A. Argerich, C.J. Li, R. North
Instructor E. Aldrich, D. Freeman, P. Quackenbush
Extension Assistant Professor P. E. Guinan**

* Graduate Faculty Member - membership is required to teach graduate-level courses, chair master’s thesis committees, and serve on doctoral examination and dissertation committees.
** Doctoral Faculty Member - membership is required to chair doctoral examination or dissertation committees. Graduate faculty membership is a prerequisite for Doctoral faculty membership.
Undergraduate

- BS in Environmental Sciences (p. 77)
  - with emphasis in Atmosphere (p. 78)
  - with emphasis in Land and Soil (p. 79)
  - with emphasis in Water (p. 80)
  - Minor in Environmental Sciences (p. 83)

Dual Degree - Geological Sciences and Environmental Sciences

The School of Natural Resources and the Department of Geological Sciences offer a dual BS in Geological Sciences and in Environmental Sciences. The dual degree program requires 132 credits for graduation. For more information on the dual degree program, contact an advisor in the School of Natural Resources or the Department of Geological Sciences.

Dual Degree - Biochemistry and Environmental Sciences

The School of Natural Resources and the Division of Biochemistry offer a dual BS degree in Biochemistry and in Environmental Sciences. The dual degree program requires 134 credits for graduation. For more information on the dual degree program, contact an advisor in the School of Natural Resources or the Division of Biochemistry.

Dual Degree - Forestry and Environmental Sciences

The School of Natural Resources and the Department of Forestry offers a dual degree in Forestry and in Environmental Sciences. The dual degree requires 136 credits for graduation. For more information on the dual degree program, contact an advisor in the School of Natural Resources or the Department of Forestry.

Graduate study at the University of Missouri (MU) in soil, environmental, and atmospheric sciences is designed to prepare students for professional careers in research, teaching or practical application of the principles of soil, environmental and atmospheric sciences (SEAS).

As of the fall 2013 semester, options for graduate study in SEAS will be offered through the MS in Natural Resources with an emphasis in SEAS (p. 106) and the PhD in Natural Resources with an emphasis in SEAS (p. 113). Focus areas in soil science, environmental science or atmospheric science are available through these options. Details on both degree programs, including recommended preparation, admission criteria, required application materials, degree requirements and financial aid, are provided in the graduate tab of the Natural Resources section (p. 101) of the catalog under the College of Agriculture, Food and Natural Resources.

Graduate Focus Areas

Atmospheric Science

Atmospheric science students participate in an area of research such as dynamic and physical meteorology, general circulation, global climate change, severe storms, remote sensing and applied climatology with emphasis on environmental and socioeconomic impacts.

The program has a specialized computer laboratory that includes significant hardware and software to support thesis and dissertation research. There are also occasional opportunities for joint research programs with the National Center for Atmospheric Research.

Environmental Science

Environmental science students may participate in environmental quality, hydrology, watershed management, and water quality focus areas. State-of-the-art equipment for chemical, biological and physical analysis of water and earth materials is available for use in laboratories maintained by the SEAS Department in the School of Natural Resources.

The program has a working scale-nested watershed study spanning native lands as well as agricultural, and urban environments, thus supplying an excellent outdoor teaching and research laboratory.

Soil Science

Soil science students may participate in one of the following focus areas: environmental quality, pedology, soil chemistry and biochemistry, soil microbiology, soil physics and conservation, soil management, or soil fertility and plant nutrition.

State-of-the-art equipment for chemical, biological and physical analysis of soils is available for use in laboratories maintained by the SEAS Department in the School of Natural Resources. Access to additional chemical analysis equipment, computing facilities, digital imaging equipment, field facilities, greenhouse space, radiochemistry and scanning electron microscopes is available within the University of Missouri.

Financial Aid from the Program

Check the program website (http://www.snr.missouri.edu/seas/academics/graduate-program.php) or contact the program for details on scholarships or graduate assistantships that may be available.

BS in Environmental Sciences

Degree Program Description

Earth’s environment provides conditions conducive for life: an oxygenated atmosphere; water resources; and soil as a medium for plant growth. Environmental processes occurring on the planet govern the movement of air, energy, matter, and water. Through the study of Environmental Sciences, students will learn the science and experience the beauty of the outdoor environment. This degree program addresses how human activities can adversely alter some environmental processes.
and environmental quality, techniques to improve environmental quality, and practices that minimize human impacts on the environment.

The Environmental Sciences degree provides a strong science foundation through general science coursework and specialized studies of the atmosphere, land and soil, water, and environmental outreach and education. The degree combines interests in predicting and understanding weather patterns, monitoring environmental change, conserving and managing soil and biological organisms, assuring healthy streams and adequate water supplies, and improving environmental quality with the shaping of new policies and educating others about the natural environment and environmental issues. Example careers include Atmospheric Scientist, Climatologist, Environmental Specialist, Environmental Technician, Hydrologist, Land Manager, Meteorologist, Soil Scientist, and Water Quality Specialist. Employment may occur in a variety of sectors, including federal, state, county and city government agencies, non-government agencies (NGOs), and private consulting firms.

Minor in Environmental Sciences

The Minor in Environmental Sciences provides students an opportunity to enhance their understanding of environmental processes, interrelationships between various components of the environment, and environmental issues. The breadth of knowledge and skills acquired can complement other degrees (i.e., biology, geography, geological sciences, natural resource science and management, and plant science) and enhance employment opportunities.

The minor in Environmental Sciences with a focus on atmospheric science prepares students for jobs in journalism and broadcast meteorology as well as for certification required by government agencies.

The minor in Environmental Sciences with a focus on soil science prepares students for employment in government regulatory and management agencies conducting soil science research or managing soil resources, environmental and agricultural consulting firms providing clients with soil assessments and testing services, and agricultural research and development.

The minor in Environmental Sciences with a focus on water science prepares students for positions in local, state, and federal agencies managing and monitoring water resources, environmental consulting firms that help clients solve water quality and quantity challenges, and water testing laboratories.

Requirements

In addition to university general education requirements, students must meet the degree requirements below:

- 12 credit hours completed under the curriculum designators: ATM_SC, ENV_SC, and/or SOIL.
- 9 credit hours at the 3000-level or above

Students may choose to complete a broad range of environmental sciences coursework or gain greater depth of knowledge through a focused study of atmospheric science, soil science, or water science. All coursework must be approved by an academic advisor within the Environmental Sciences degree program.

mustaphaa@missouri.edu

Typical employment areas for graduates of the food science program include quality assurance, quality control, product development, sensory science and flavor chemistry. The food science curriculum meets the standards established by the Institute of Food Technologists.

Faculty

Professor A. Mustapha**
Associate Professor A. D. Clarke**, I. U. Gruen**, M. Lin**, B. Vardhanabhuti**
Assistant Professor M. Kwasniewski**
Adjunct Associate Professor L. Occena-Po*
Adjunct Assistant Professor G. Zheng*
Research Professor Emeritus M. Ellersieck*
Professor Emeritus F. H. Hsieh*, R. T. Marshall*, N. Unklesbay*
Adjunct Instructor M. Jones

* Graduate Faculty Member - membership is required to teach graduate-level courses, chair master's thesis committees, and serve on doctoral examination and dissertation committees.
** Doctoral Faculty Member - membership is required to chair doctoral examination or dissertation committees. Graduate faculty membership is a prerequisite for Doctoral faculty membership.

Undergraduate

While MU does not offer undergraduate degrees specifically in food and hospitality systems, the University does offer undergraduate opportunities in a number of related areas, both within the College of Agriculture, Food and Natural Resources, and in the other Schools and Colleges that make up the University. The catalog provides a complete list of these degree options (p. 18).

Graduate

- MS in Food and Hospitality Systems (p. 84)
- PhD in Food and Hospitality Systems (p. 85)

College of Agriculture, Food and Natural Resources

Director of Graduate Studies: Azlin Mustapha

About Food Science

Candidates are prepared for careers in research or advanced professional careers in the food industry, teaching positions in community and junior colleges, 4-year colleges and in supporting roles in academics or industry. Graduates also may play leadership roles in extension or
other adult education programs, food production and quality assurance, or government agencies. Selected careers include research and development for private industry or the federal government, food plant supervision, technical operation, product development, nutrition, distribution, food service and food regulatory work.

Facilities and Resources

Departmental cooperation with the food industry is excellent. Special facilities for food science study and research include chemical, microbiological and analytical laboratories, as well as pilot plants to study food processing.

Funding

Assistantships are available on a competitive basis to qualified students from funds provided by the Agricultural Experiment Station, research contracts and grants. Fellowships supported by industry and professional societies, based on national competition, are also available.

MS in Food and Hospitality Systems

Degree Requirements

- Minimum of 30 hours of graduate-level coursework.
- 15 hours must be at the 8000-level or above.
- Maximum of 40% of coursework can be F_S 8090 or F_S 8085 hours.

While a basic goal of the M.S. program is to provide students with specialized skills and training in research methods, the Food and Hospitality Systems graduate faculty (including faculty from Food Science, Hospitality Management and Agricultural Systems Management) believe that it is important for M.S. students to understand something of the breadth of the discipline as well.

There are three tracks in the Food and Hospitality Systems M.S. program: Food Science, Hospitality Management and Agricultural Systems Management. Each track includes specific required courses.

Note: Tracks do not appear on transcripts or diplomas. Emphasis areas appear on transcripts.

Food Science Track Required Courses:

Sample Plan of Study

The student and the major advisor, in consultation with the FHS M.S. Program Committee will prepare a plan of study (M1 form). The plan of study includes a list of the formal courses, readings, problems, research hours and seminars that the students will use to fulfill the requirements for the M.S. degree. The M1 form must be turned in to the FHS Graduate Program Coordinator by the end of the second semester of the student's graduate program for submission to the Office of Graduate Studies.

Thesis Requirements

A FHS Masters Degree Program Committee must be identified prior to approval of the research topic for the M.S. thesis and no later than the end of the second semester. An acceptable FHS M.S. Program Committee must include at least three graduate faculty members, at least two of whom must be from the Food and Hospitality Systems Graduate Program, including the advisor chair who must be a faculty in the track the student is in. At least one committee member must be a graduate faculty member from MU, but outside of the Food and Hospitality Systems Graduate Program. A signed M2 form which lists the names and academic programs of the committee members must be turned in to the FHS Graduate Program Coordinator by the end of the second semester of the student's graduate program for submission to the Office of Graduate Studies.

The defense for the M.S. degree program will include the following components:

1. Exit seminar presented to the M.S. graduate program committee and the public.
2. Oral examination to demonstrate mastery of the course of study.

In addition to the departmental requirements, the MU Office of Graduate Studies is requiring that all graduating students include a public abstract. The public abstract will be used by the MU Office of Graduate Studies to record and track graduate student's research interests.

Exit Seminar

Immediately before the final examination, the M.S. student must present a seminar on his or her research. The seminar must take place when MU
is officially in session and has to be announced at least two weeks prior to the scheduled date. The exit seminar is open to the general university audience. All members of the M.S. Program Committee will attend.

Final Examination

After the student’s exit seminar has been presented, the M.S. Program Committee will conduct a final oral examination. The candidate should be prepared to defend his/her research and discuss any related areas.

A report of the examination, carrying the signatures of at least three members of the committee, must be sent to the MU Office of Graduate Studies before the deadline preceding the anticipated date of graduation. For the thesis to be considered successfully defended, the student’s M.S. Program Committee must vote to pass the student on the defense with no more than one dissenting or abstaining vote. The signed M3 form which shows the results of the student’s final exam must be turned in to the FHS Graduate Program Coordinator for submission to the Office of Graduate Studies.

All exit seminars are open to the general faculty. The Food and Hospitality Systems Graduate Program will announce exit seminars to appropriate colleagues within and outside the program. The final examination must take place when MU is officially in session and the candidate must be enrolled at MU at the time of the examination.

A final copy of the thesis must be submitted to the MU Office of Graduate Studies electronically. A final bound copy of the thesis and at least one manuscript suitable for publication must be turned in to the Food and Hospitality Systems Graduate Program.

Admissions

Applicants are required to meet two sets of minimum qualifications for admission: the requirements of the MS in the Food and Hospitality Systems Graduate Program (https://gradstudies.missouri.edu/degrecategory/food-and-hospitality-systems) and the minimum requirements of the Office of Graduate Studies (https://gradstudies.missouri.edu/admissions/eligibility-process). Because requirements vary, you must refer to a degree program’s graduate admission page to learn about specific admission criteria, application deadlines, eligibility and application process. Your application materials will be reviewed by both the Office of Graduate Studies and the degree program to which you’ve applied before official admission to the University of Missouri.

PhD in Food and Hospitality Systems

Degree Requirements

- Minimum of 72 hours of graduate level coursework beyond the Bachelor’s degree.
- 15 hours must be at the 8000-level or above, exclusive of readings, research, problems and independent study hours.
- Maximum of 30 hours of post-baccalaureate graduate credits (exclusive of readings, research, problems and independent study hours) from a regionally accredited university may be transferred in.

While a basic goal of the Ph.D. program is to provide students with highly specialized research skills and knowledge in a particular subdivision of Food and Hospitality Systems, the faculty believe that it is important for Ph.D. students to understand the breadth of the discipline as well.

There are three tracks in the Food and Hospitality Systems (FHS) Ph.D. program: Food Science, Hospitality Management and Agricultural Systems Management. Courses required for all three tracks and those required for each track, respectively, are listed below.

Note: Tracks do not appear on transcripts or diplomas. Emphasis areas appear on transcripts.

</table>
Committee must vote to pass the student on both the written and oral sections of the exam with no more than one dissenting or abstaining vote. Students who fail the Comprehensive Exam may not retake the exam for at least 12 weeks. Failure to pass two Comprehensive Exam automatically prevents candidacy. Results of the Comprehensive Exam (D3 form) with signatures from all committee members must be turned in to the FHS Graduate Program Coordinator for submission to the Office of Graduate Studies.

**Dissertation Requirements**

**Doctoral Degree Program Committee**

A FHS Doctoral Degree Program Committee must be identified by the end of the student's second semester. This committee must include at least four MU graduate faculty members, three of whom must be from the Food and Hospitality Systems Graduate Program, including the advisor chair. The advisor chair and at least one other committee member must also be members of MU Doctoral Faculty. At least one committee member must be a graduate faculty member from MU but outside the chosen track in the Food and Hospitality Systems Graduate Program.

**Qualifying Exam**

To fulfill the Ph.D. Qualifying Exam, a proposal of the Ph.D. dissertation research must be presented to and approved by the student's Doctoral Degree Program Committee before the start of the student's third semester. The D1 form must be submitted to the FHS Graduate Program Coordinator for submission to the Office of Graduate Studies by the same time to indicate the results of this Qualifying Exam. The student's Doctoral Degree Program Committee shall determine the course of action for students who do not pass the Qualifying Exam.

**Research**

Students are expected to begin their research once their proposal has been approved by the FHS Doctoral Degree Program Committee at their Qualifying Exam. Students are required to conduct periodic committee meetings to update the Doctoral Degree Program Committee on their research progress throughout the Ph.D. program. Significant modifications of the research studies following initial approval of the proposed Ph.D. research during the Qualifying Exam must be approved by the student's Doctoral Degree Program Committee. Upon completion of the research, a dissertation based on original research must be reviewed and approved by the student's Doctoral Degree Program Committee, for submission to a refereed journal, prior to the final dissertation defense.

**Exit Seminar**

Immediately before the defense of the dissertation, the student must present a formal seminar on his/her research. The seminar must take place when MU is officially in session, must be announced at least two weeks prior to the scheduled date and is open to the general university audience.

**Final Examination**

After the seminar has been presented, a final defense oral examination will be conducted by the FHS Doctoral Degree Program Committee. The candidate should be prepared to defend his/her research and to discuss any related areas.
A report of the examination (D4 form), carrying the signatures of all members of the committee, must be turned in to the FHS Graduate Program Coordinator for submission to the MU Office of Graduate Studies before the deadline preceding the anticipated date of graduation. For the dissertation to be considered successfully defended, the student's Doctoral Degree Program Committee must vote to pass the student on the defense with no more than one dissenting or abstaining vote. All dissertation exit seminars are open to the public. The Food and Hospitality Systems Graduate Program will announce dissertation exit seminar dates to appropriate colleagues within and outside the program. The dissertation defense must take place when MU is officially in session and the candidate must be enrolled at MU at the time.

A final copy of the dissertation must be submitted to the MU Office of Graduate Studies electronically. A bound hard copy must be submitted to the FHS Graduate Program.

Admissions

Applicants are required to meet two sets of minimum qualifications for admission: the requirements of the PhD in Food and Hospitality Systems Graduate Program (https://gradstudies.missouri.edu/degrecategory/food-and-hospitality-systems) and the minimum requirements of the Office of Graduate Studies (https://gradstudies.missouri.edu/admissions/eligibility-process). Because requirements vary, you must refer to the degree program's graduate admission page to learn about specific admission criteria, application deadlines, eligibility and application process. Your application materials will be reviewed by both the Office of Graduate Studies and the degree program to which you've applied before official admission to the University of Missouri.

Adjunct Instructor M. Jones

- Graduate Faculty Member - membership is required to teach graduate-level courses, chair master's thesis committees, and serve on doctoral examination and dissertation committees.
- Doctoral Faculty Member - membership is required to chair doctoral examination or dissertation committees. Graduate faculty membership is a prerequisite for Doctoral faculty membership.

Undergraduate

- BS in Food Science and Nutrition (p. 87)
- Minor in Food Science and Nutrition (p. 89)

The department offers the Bachelor of Science degree with a major in Food Science and Nutrition within four tracks, namely Food Science, Food Business, Enology and Culinary Sciences. A minor is available.

Note: Tracks do not appear on transcripts or diplomas.

Graduate

The Food Science and Nutrition program does not offer an graduate degrees. For similar graduate degree programs the Food and Hospitality Systems Program offers M.S. and Ph.D. graduate degrees with three track options: Food Science, Hospitality Management and Agricultural Systems Management. We also offer an online graduate certificate program in Food Safety and Defense. The catalog provides a complete list of these degree options (p. 18).

BS in Food Science and Nutrition

Degree Program Description

From creating low-fat ice cream flavors that don’t taste low-fat, to developing packaging that protects food from E. coli and other pathogens, food scientists work to ensure the foods that fill your shopping cart are safe, nutritious and delicious. Food Science and Nutrition uses the latest in food manufacturing to turn agricultural commodities into products that consumers want to buy. A degree in food science and nutrition provides the skills needed to succeed in a variety of food science careers. The degree can be individualized by choosing between three degree tracks: Food Science, Food Business, Culinary Science. Some careers include Food technologist, product developers and quality assurance supervisors. Food technologists are employed by some of the world’s largest and most respected private industry companies, including Del Monte Foods, General Mills, H.J. Heinz and Kellogg. They apply the principles of many scientific disciplines, such as biology, chemistry, engineering, physics, molecular biology, nutrition and microbiology to the challenges of food production. Product developers find employment with many of the same companies as food technologists. Their job, however, focuses more on other aspects of food manufacturing such as consumer acceptability, economics, production feasibility and marketing. Developers also explore new ways to enhance nutritional value and health benefits. Quality assurance supervisors work in private industry but also are employed by government agencies such as the U.S. Department of Agriculture and the Food and Drug Administration. They
are responsible for reviewing safety and manufacturing protocol to ensure that the food you eat is safe and of the highest quality.

## Major Program Requirements

Students earning a Bachelor of Science in Food Science and Nutrition are required to complete all University general education (p. 34), University undergraduate requirements (p. 33), degree, and major requirements, including foundational courses, which may fulfill some University general education requirements.

9 of the 15 credits need to be fulfilled with 3000-level or higher Food Science courses.

Cross-listed courses can be taken in either the home program or the cross-listed program.

**Hospitality Management**

Eliza C. Tse, Professor & Chair
Hospitality Management
122 Eckles Hall
(573) 882-4100
Fax: (573) 882-0596
HRMDept@missouri.edu
http://hospitality.missouri.edu/

As one of the largest industries in the United States, the hospitality and travel industry plays a vital role in economic development and employment. The industry contributes $1.5 trillion to GDP in 2015 and it
is forecasted to contribute more than $2.6 trillion by 2027. The Bureau of Labor Statistics reports that the leisure and hospitality industry provides 15.8 million jobs in the United States and with an increase of most number of jobs in management. With the growth of the industry, the job prospects are bright and the need for a well-trained workforce is greater than ever.

**B.S. degree in Hospitality Management**

The Hospitality Management Program is established as an effective response to growing demand for managerial talents in the hospitality industries and the promise of hospitality education in knowledge pursuit and human development. Since its inception in the 1970s, student demand for Hospitality Management major has grown steadily over the decades. With an enrollment of over 400 students, the program is one of the largest degree programs in the College of Agriculture, Food and Natural Resources (CAFNR).

The mission of the Hospitality Management program is to develop and nurture forward thinking and innovative new generation of successful, ethical hospitality leaders in today's global community. The curriculum leading to the B.S. in Hospitality Management allows students to be anchored in theories of business education and develop skills and competencies that are essential to hospitality operations. Students in the major have the option to specialize in one of the four emphasis areas: Conference & Event Planning Management (C&E), Food & Beverage Management (F&B), Lodging Management (LM), and Sport Venue Management (SVM).

One of the unique features of the program is the exposure of students to the hospitality industry in the form of hands-on learning. Students develop their professionalism through HSP_MGMT 2190 Seminar in Professional Development and HSP_MGMT 4993 Hospitality Internship course. In HSP_MGMT 4993 Internship in Hospitality Management course, students will have the opportunity to apply management concepts and theories from their coursework to practical work experiences in industry, under the direction of faculty mentors and industry professionals.

The program has a state-of-the-art food-service facility that houses a food production laboratory, a commercial kitchen and a multi-purpose dining establishment that plays host to the student-run Café at Eckles Hall, a catering and fine dining evening experience. The facility provides a practice laboratory for food and consumer based research opportunities as well. In addition, the program leverages the concept of “living laboratories” by partnering with University of Missouri facilities like the University Club (http://uclub.missouri.edu/home) and Campus Dining Services (http://dining.missouri.edu). Sport and entertainment organizations like Mizzou Athletics and MU Event Production Services also provide students learning experience beyond classroom setting.

Strong support from the hospitality industry to the HM program is evident in the form of scholarship. Each year students received scholarship awards from industry associations such as the American Hotel & Lodging Education Foundation, National Restaurant Association, Hotel and Lodging Association of Greater Kansas City, Missouri Restaurant Association, Missouri Travel Council, as well as other endowed scholarships. In addition, CAPNR also awards one of the strongest scholarship programs at MU, with more than $1.3 million annually. These scholarships are available to incoming freshmen, transfer and continuing students.

To meet employer demand for educated workforce today’s hospitality professionals need management skills if they want to turn their passions into careers. Thus, to answer the needs of those on-the-job in the hospitality industry and military personnel, an online degree completion in Food & Beverage Management emphasis area has been implemented in 2013. Starting in 2016, this online program has been expanded into a B.S. online degree in Hospitality Management where students have the flexibility to study around their demanding schedule. The online degree program is designed to target audiences who would otherwise not be able to study on campus (http://online.missouri.edu/degreeprograms/cafnr/hospitality-management/bachelors/admissions.aspx).

**Faculty**

- **Professor E. Tse**
- **Associate Professor** S. Cho**, D. Kim**
- **Associate Teaching Professor** H. L. Marshall*
- **Assistant Professor** P. Liu*
- **Assistant Teaching Professor** A. Alexander*, M. Palmero*
- **Instructor** B. Langford

- Graduate Faculty Member - membership is required to teach graduate-level courses, chair master's thesis committees, and serve on doctoral examination and dissertation committees.
- **Doctoral Faculty Member** - membership is required to chair doctoral examination or dissertation committees. Graduate faculty membership is a prerequisite for Doctoral faculty membership.

**Undergraduate**

- BS in Hospitality Management (p. 91)
  - with emphasis in Conference and Event Planning Management (p. 92)
  - with emphasis in Food and Beverage Management (p. 93)
  - with emphasis in Lodging Management (p. 94)
  - with emphasis in Sport Venue Management (p. 94)
- Minor in Hospitality Management (p. 95)

**Department Level Requirements**

Students earning a Bachelor of Science in Hospitality Management are required to complete all University general education (p. 34), University undergraduate requirements (p. 33), as well as departmental and emphasis area requirements, including the following selected foundational courses, which may fulfill some University general education requirements.

Students transferring into Hospitality Management from other MU degree programs or from other institutions must have both a term and cumulative GPA of 2.50.

A grade of C- or higher is required for all business core, hospitality core, emphasis area, and professional elective courses. Please see the BS in Hospitality Management (p. 91) page for the major program requirements.

**Career Opportunities with a B.S. degree in Hospitality Management**

A Bachelor of Science degree in Hospitality Management (HM) will equip students with management skills to succeed in a variety of industry careers as well as transferrable skills to make them a life-long learners. The curriculum is designed to give students a set of applied management skills through a wide variety of courses that provide a theoretical knowledge of human understanding and business principles as applied in the hospitality industry. According to their interest, students of the resident degree program also have a choice to select an emphasis area to specialize in, which provides them more in-depth knowledge of leadership application within a hospitality career. In addition, each student completes a 15 hour block of professional electives which allows them to gain additional expertise towards their career objectives.

The four emphasis areas in Hospitality Management are: Conference & Event Planning Management, Food & Beverage Management, Lodging Management, or Sport Venue Management.

In the Conference & Event Planning Management emphasis, students develop knowledge and skills in planning and conducting a large variety of events from business meetings, conferences, social functions, to festivals and mega events and get the opportunity to practice those skills through hands-on experience. Students with this emphasis find employment in a variety of businesses, hospitality establishments, convention and conference centers, professional associations, private event companies as well as non-profit organizations.

Students choosing the Food & Beverage Management emphasis acquire skills and knowledge in managing a variety of commercial and noncommercial food and beverage operations, both front and back of the house. These students find employment in a variety of restaurants, lodging food operations, institutional food service operations, managed-service companies (such as business and industry, colleges and universities), airline, casino, cruise ship, military, theme parks and catering venues. Many students with entrepreneurial spirit in this area strive to own their restaurant operations one day.

Students choosing the Lodging Management emphasis acquire knowledge and competencies in assuming leadership positions in a variety and size of lodging operations from budget to luxury hotels, motels, inns, resorts, and bed and breakfast establishments. They find employment in various functional areas, such as front office, food & beverage, event, banquet & catering, sales and marketing, public relations, revenue management, and human resources of the lodging operations.

Students choosing the Sport Venue Management emphasis acquire skills and knowledge in managing various types of venues, such as stadiums, arenas, ballparks, clubs, conference and events centers that cater to sports and games, concerts, live entertainment, exhibitions, trade shows and other functions. Students pursue their careers in venue and event marketing, box office operations, guest services and community relations.

### Graduate

**Graduate Study in Hospitality Management**

The graduate program, Master's and Doctor of Philosophy (Ph.D.), is jointly offered under the Food and Hospitality Systems Program as one of the three tracks: Food Science, Hospitality Management and Agricultural Systems Management. The Hospitality Management graduate program is established with the objectives for the generation of new knowledge and intellectual curiosity through research. The program provides an understanding of the body of knowledge in the discipline of hospitality and develops abilities to achieve scholarly success. These abilities include competency in research, teaching/communication, problem solving and critical reasoning skills.

After graduation, it is likely that a Masters student will advance their careers in the hospitality industry or continue their Ph.D. study. Ph.D. graduates will likely join the faculty of a college or university that will require research and publication as part of the promotion and tenure process. This goal is accomplished by creating a scholarly research environment, which expose students the learning opportunity and train them for teaching, research, writing, publishing, and consulting. The atmosphere is interdisciplinary and incorporates a number of opportunities for students to engage in a variety of types of information exchange and growth.

For additional information regarding Master's and Ph.D. study, please visit the Food Science Graduate Program (p. 87) Overview and choose the Hospitality Management track.

### BS in Hospitality Management

**Degree Program Description**

A degree in Hospitality Management (HM) provides students with all the business and managerial skills needed to succeed in a wide variety of hospitality and venue management careers. The curriculum includes core business principles, core hospitality management concepts and advanced skills in one of the emphasis areas: Conference & Events Planning Management, Food & Beverage Management, Lodging Management, and Sport Venue Management. The essence for these areas is that hospitality is about creating an unique and memorable experience for customers. In Conference & Events Planning Management area, whether planning a wedding, private dinner party, business meeting, conference, festival, mega-event, or non-profit fundraising function, students learn the basics of planning and executing an event and get the opportunity to practice those skills through hands-on experience. In Food & Beverage Management area, whether in the back of the house helping to prepare the tasty meals, managing inventory, controlling food cost or in the front of the house entertaining guests, the HM degree provides students business tools and skills to successfully manage restaurants, institutional food service establishments, or full service catering businesses. In Lodging Management area, graduates manage and operate hotels, lodges, motels, bed & breakfast accommodations or resorts that serve either a specific audience or the general public. Graduates use their business and entrepreneurial skills to set their establishment apart from the competition by becoming the destination everyone wants to go for those memorable family vacations, romantic weekend getaways or business retreats. In Sport Venue Management area, students will receive specialized instructions and develop competencies in the management and operation of sport venues in addition to the business of live entertainment including sports.
games, tournaments, concerts and event productions. Upon successful completion of the curriculum, students will be prepared to assume leadership positions in the dynamic and ever growing global hospitality industry.

**BS in Hospitality Management with Emphasis in Conference and Event Planning Management**

**Degree Program Description**

The hospitality industry plays a vital role in U.S. economic development and employment, as well as in the global communities. While running a business requires strong marketing, finance and communication skills, the hospitality industry requires all these and more. Hospitality managers must create an experience for guests so unique and memorable that it will exceed their expectations and spread positive word-of-mouth to their friends and acquaintances. A B.S. degree in Hospitality Management provides students with all the business and managerial skills needed to succeed in a wide variety of hospitality and sport management careers. The curriculum includes core business skills and core Hospitality Management skills. In the B.S. in Hospitality Management with emphasis in Conference and Event Planning Management, students learn the basics of planning and running an event and get the opportunity to practice those skills through hands-on experience, whether planning a wedding, private dinner party, business meeting, conference, fund-raising function, community event, festival or mega-event.

### Major Program Requirements

#### Conference & Event Planning Management Emphasis Requirements

Students must complete all University general education (p. 34) requirements and degree requirements (p. 48), in addition to the Conference & Event Planning Management emphasis requirements below:

- HSP_MGMT 2200: Fundamentals of Conference and Events Industry
- HSP_MGMT 3200: Conference and Meeting Management
- HSP_MGMT 3310 or HSP_MGMT 4400: Food Service Budgeting and Controls
- or HSP_MGMT 4000: Hospitality Finance Management
The hospitality industry plays a vital role in U.S. economic development and employment, as well as in the global communities. While running a business requires strong marketing, finance and communication skills, the hospitality industry requires all these and more. Hospitality managers must create an experience for guests so unique and memorable that they are satisfied and want to return repeatedly. A B.S. in Hospitality Management provides students with all the business and managerial skills needed to succeed in a wide variety of hospitality and sport management careers. The curriculum includes core business skills and core Hospitality Management skills. In the B.S. in Hospitality Management with emphasis in Food and Beverage Management, whether in the kitchen supervising the production of a variety of food, managing inventory and controlling costs, or in the dining room entertaining guests and delivering quality service, students are provided the business tools to successfully manage a restaurant. Those same tools can also be used to operate a full service catering business and other food service establishments.

Major Program Requirements

Food & Beverage Management Requirements

Students must complete all University general education (p. 34) requirements and degree requirements (p. 48) in addition to the Food & Beverage Management emphasis requirements below:

- **HSP_MGMT 2300** Fundamentals of the Food and Beverage Industry 3
- **HSP_MGMT 3300** Food Production Management 3
- **HSP_MGMT 3310** Food Service Budgeting and Controls 3
- **HSP_MGMT 3320** Beverage Management 3
- **HSP_MGMT 4380W** Managing Food Service Businesses - Writing Intensive 3

Online Degree Program

Hospitality Management now offers the BS in Hospitality Management with an emphasis in Food and Beverage Management in an online format through Mizzou Online (http://online.missouri.edu/degreeprograms/cafnr/hospitality-management/bachelors).

BS in Hospitality Management with Emphasis in Lodging Management

Degree Program Description
The hospitality industry plays a vital role in U.S. economic development and employment, as well as in the global communities. While running a business requires strong marketing, finance and communication skills, the hospitality industry requires all these and more. Hospitality managers must create an experience for guests so unique and memorable that they will want to return repeatedly. A B.S. in Hospitality Management provides students with all the business and managerial skills needed to succeed in a wide variety of hospitality and sport management careers. The curriculum includes core business skills and core Hospitality Management skills. The B.S. in Hospitality Management with emphasis in Lodging Management, graduates manage and operate a hotel, lodge, motel, resort or bed & breakfast that serves a specific audience or the general public. Graduates use their business and entrepreneurial skills to set their establishment apart from the competition by becoming the destination everyone wants to go for those memorable family vacations, business meetings/retreats or romantic weekend getaways.

Major Program Requirements
Lodging Management Emphasis Requirements
Students must complete all University general education (p. 34) requirements and degree requirements (p. 48), in addition to the Lodging Management emphasis requirements below:

HSP_MGMT 2400 Fundamentals of Lodging Industry 3
HSP_MGMT 3400 Lodging Operations and Management 3

HSP_MGMT 3100 3 HSP_MGMT 3100 3 HSP_MGMT 4993 3
HSP_MGMT 3400 3 HSP_MGMT 3400 3 HSP_MGMT 4110 3
HSP_MGMT 3420 3 HSP_MGMT 3420 3 HSP_MGMT 4110 3

Degree Program Description

The hospitality industry plays a vital role in U.S. economic development and employment, as well as in the global communities. While running a business requires strong marketing, finance and communication skills, the hospitality industry requires all these and more. Hospitality managers must create an experience for guests so unique and memorable that they will want to return repeatedly. A B.S. in Hospitality Management provides students with all the business and managerial skills needed to succeed in a wide variety of hospitality and sport management careers.

The curriculum includes core business skills and core Hospitality Management skills. The B.S. in Hospitality Management with emphasis in Sport Venue Management provides specialized instructions in the management and operation of sport venues in addition to the business of live entertainment including sports games, tournaments, concerts and event production. Upon successful completion of the curriculum, students will be prepared to assume leadership positions in the dynamic sport venue and entertainment industries.

Major Program Requirements

Sport Venue Management Requirements

Students must complete all University general education (p. 34) requirements and degree requirements (p. 48), in addition to the Sport Venue Management emphasis requirements below:

Minor in Hospitality Management

The minor in Hospitality Management is for students interested in enhancing their understanding of the hospitality industry. A student must complete 18 credits of coursework related to each of the four Hospitality Management emphasis areas as listed below. The undergraduate chair of the HM program must approve students’ plan of study. Please use the CAFNR Minor form (http://cafnr.missouri.edu/students/minor-form.xls) to complete the application process for the HM minor.

Natural Resource Science and Management

Charles Nilon, Undergraduate Curriculum Coordinator
School of Natural Resources
302 Anheuser-Busch Natural Resources Building
Phone: (573) 882-3738
Fax: (573) 882-9526
nilonc@missouri.edu
https://cafnr.missouri.edu/degrees-and-programs/

The Natural Resource Science and Management degree addresses the science, art, and craft of creating, managing, using, conserving, and repairing natural and human-dominated ecosystems. The degree will allow students to apply biological, physical, social, political and managerial sciences to the conservation of plant and animal species in
forests, grasslands, rivers and streams, and urban areas. The degree also develops students' skills in working with diverse groups of people. Students with degrees in Natural Resource Science and Management work as fisheries biologists, foresters, interpreters, naturalists, and wildlife biologists for state and federal agencies, nature centers and museums, and consulting firms. Four emphasis areas are offered: Fisheries and Wildlife Sciences, Forest Resources, Human Dimensions, and Terrestrial Ecosystems. All students are encouraged to integrate their classroom learning experiences with research and internship experiences.

Faculty

**Professor** H. S. He**, S. Jose**, M. E. Gompper**, D. R. Larsen*, C. H. Nilon**
**Associate Professor** F. X. Aguilar**, M. Morgan**, D. B. Noltie*, S. Wilhelm-Stanis**, H. E. Stelzer**
**Assistant Professor** A. Argerich*, B. O. Knapp**, J. Li*, R. North*, M. Weegman*
**Extension Associate Professor** R. A. Pierce II*
**Teaching Assistant Professor** D. Vaught
**Teaching Assistant Professor** T. Strauch
**Research Professor** M. A. Gold**
**Research Assistant Professor** J. Whittier*
**Curators' Emeritus Professor** J. R. Jones**
**Adjunct Assistant Professor** J. Kabrick**, E. Kurzejeski, M. Kruse, D. Tillitt**, L. Vangilder, M. Wildhaber**
**Cooperative Associate Professor** D. Dey*, C. P. Paukert**, S. R. Shifley*, F. R. Thompson III**, J. Van Sambeek**, E. B. Webb*

* Graduate Faculty Member - membership is required to teach graduate-level courses, chair master's thesis committees, and serve on doctoral examination and dissertation committees.
** Doctoral Faculty Member - membership is required to chair doctoral examination or dissertation committees. Graduate faculty membership is a prerequisite for Doctoral faculty membership.

Undergraduate

• BS in Natural Resource Science and Management (p. 96)
  • with emphasis in Fisheries and Wildlife Sciences (p. 97)
  • with emphasis in Forest Resources (p. 98)
  • with emphasis in Human Dimensions (p. 99)
  • with emphasis in Terrestrial Ecosystems (p. 100)

Graduate

While the College of Agriculture, Food and Natural Resources does not offer a graduate degree specifically in Natural Resource Science Management, there are many options available for graduate studies in Natural Resources. Please refer to the list of graduate degrees on the Natural Resources (p. 101) section of the catalog for more information.

BS in Natural Resource Science and Management

The Natural Resource Science and Management degree addresses the science, art, and craft of creating, managing, using, conserving, and repairing natural and human-dominated ecosystems, in a sustainable manner, to meet desired societal goals. The degree has elements that belong to the biological, physical, social, political and managerial sciences that are applied to conserving plant and animal species in forests, grasslands, rivers and streams, and urban areas. The degree also develops students' skills in working with diverse groups of people. Students with degrees in Natural Resource Science and Management work as fisheries biologists, foresters, interpreters, naturalists, and wildlife biologists for state and federal agencies, nature centers and museums, and consulting firms.

Students pursuing a degree in Natural Resource Science and Management individualize their degree by choosing one of four emphasis areas: The Forest Resources emphasis prepares students to manage forests in order to protect wildlife habitats and the environment while meeting the ever-growing demand for wood products. The Human Dimensions emphasis trains students to apply social sciences to address questions about how people’s attitudes, knowledge, values and behaviors impact management of our natural resources. The Fisheries and Wildlife Science emphasis focuses upon development of skills in conservation of wildlife habitat, protection of endangered species, and management of wild animal populations. The Terrestrial Ecosystem emphasis allows students to combine interests in wildlife management and forestry to both conserve biodiversity and satisfy the needs of society for renewable natural resources using the practice of ecosystem management.

Major Program Requirements

Students earning a Bachelor of Science in Natural Resource Science and Management are required to complete all University general education (p. 34), University undergraduate requirements (p. 33), degree, and major requirements. Several foundational courses required in the degree program can be used to meet general education requirements. Students majoring in Natural Resource Science and Management will select an additional 39-49 hours of coursework within one of the following emphasis areas:

• Forest Resources (p. 98)
• Fisheries and Wildlife Science (p. 97)
• Human Dimensions (p. 99)
• Terrestrial Ecosystems (p. 100)

A student may complete the B.S. in Natural Resource Science and Management without selecting a specific emphasis area if they complete the 81 credit hours of general education, foundational, and major core classes and an additional 39 credit hours of coursework with NAT_R, FOREST, or F_W course designators, or other related courses approved by their faculty advisor. Of these 39 hours, at least 30 should be at the 3000- or 4000-level.

Requirements for thesis, internship or other capstone course
Capstone and internship are required.

Honors
You may graduate from the University of Missouri with honors based upon your final cumulative GPA. This distinction will appear upon your transcript and make you eligible for the Honors Convocation. GPA requirements for Latin Honors are the following:

- Summa Cum Laude > 3.90
- Magna Cum Laude 3.70-3.89
- Cum Laude 3.50-3.69

Each semester, students achieving a GPA of 3.5 or greater and having a cumulative GPA of 3.0 or greater will be placed on the School of Natural Resources Director’s List as acknowledgement of high scholastic achievement.

Semester Plan
Below is a sample semester plan for the B.S. in Natural Resource Science and Management. Please consult with your advisor prior to registering for courses.

BS in Natural Resource Science and Management with Emphasis in Fisheries and Wildlife Sciences

Degree Program Description
The Natural Resource Science and Management degree with an emphasis in Fisheries and Wildlife Sciences has a strong focus on taxonomy and adds additional required courses on research and management techniques. Students with degrees in Natural Resource Science and Management with an emphasis in Fisheries and Wildlife work as conservation biologists, ecologists, fisheries biologists, ornithologists, and wildlife biologists.

Emphasis Area Requirement
In addition to completing major program requirements (p. 96), students must complete the following additional requirements (44 credit hours):

- F_W 1100 Introductory Zoology with Laboratory 5
- F_W 2500 Introduction to Genetics and Evolution for Conservation 3-4
  or BIO_SC 2200 General Genetics 4
- F_W 2900 Principles of Wildlife Management 3
- F_W 4300 Fisheries Management 3
- F_W 4400 Techniques for Fisheries Management and Conservation 4
  or F_W 4700 Wildlife Research and Management Evaluation Methods 4
- F_W 4500 Animal Population Dynamics and Management 3
- Choose from group: 10-12
  - NAT_R 2080 Outdoor Recreation Consortium 2
  - F_W 3700 Animal Behavior 3
  - F_W 3400 Water Quality and Natural Resource Management 3
  or FOREST 4390 Watershed Management and Water Quality 4
BS in Natural Resource Science and Management with Emphasis in Forest Resources

Degree Program Description
The Natural Resource Science and Management degree with an emphasis in Forest Resources expands the knowledge base in fire ecology, silviculture, and forest stand dynamics in order for graduates to better address the challenges of managing forest resources in the 21st Century. Students with a degree in Natural Resource Science and Management with an emphasis in Forest Resources will be accredited by the Society of American Foresters and may find employment as community foresters, consulting foresters, ecologists, and resource foresters.

Emphasis Area Requirements
In addition to completing major program requirements (p. 96), students must complete the following additional requirements (39 credit hours):

- **FOREST 2542** Forest Measurement and Inventory 1
- **FOREST 2543** Forest Ecology Field Studies 1
- **FOREST 2544** Introduction to Silviculture and Management 1
- **FOREST 3207** Forest Fire Control and Use 2
- **FOREST 3212** Forest Health and Protection 4
- **FOREST 4330** Practice of Silviculture 3
- **FOREST 4350** Forest Economics 3
- **FOREST 4360** Photogrammetry, Inventory and Models 3
- **FOREST 4375** Forest Stand Dynamics 3
- **FOREST 4380** Forest Resource Management 3
- **FOREST 4390** Watershed Management and Water Quality 3
- **NAT_R 4365** GIS Applications 3
- **PLNT_S 4400** Plant Anatomy 4

Semester Plan
Below is a sample semester plan for the Forest Resources Area. Please consult with your advisor prior to registering for courses.

BS in Natural Resource Science and Management with Emphasis in Human Dimensions

Degree Program Description

The Natural Resource Science and Management degree with an emphasis in Human Dimensions targets students who wish to link a solid background in taxonomy and ecology with social sciences. Students may focus on outdoor interpretation, natural resources economics, and resource policy. Students with degrees in Natural Resource Science and Management with an emphasis in Human Dimensions can find employment as interpretive naturalists, natural resource educators.

Emphasis Area Requirements

In addition to completing major program requirements (p. 96), students must complete the following additional requirements (43 credit hours):

<table>

### Degree Program Description
The Natural Resource Science and Management degree with an emphasis in Terrestrial Ecosystems combines interests in wildlife management and conservation and forestry focusing on basic and applied concepts important in land management and species conservation. Students with degrees in Natural Resource Science and Management with an emphasis in Terrestrial Ecosystems are accredited by the Society of American Foresters and may find employment as conservation biologists, ecologists, land stewards, and resource foresters.

### Emphasis Area Requirements
In addition to completing major program requirements (p. 96), students must complete the following additional requirements (49 credit hours):

School of Natural Resources

The School of Natural Resources (SNR) is one of six Divisions in the College of Agriculture, Food and Natural Resources. It is Missouri’s and the Midwest’s only school with comprehensive academic and research programs focused on biological, physical, and social aspects of natural resources science and management. The School encompasses the fields of: Environmental Sciences; Natural Resource Science and Management; and Parks, Recreation and Sport. The School applies an integrated, scientific approach to develop sustainable solutions to environmental challenges and to train the next generation of natural resources and recreation professionals and leaders. This integrated approach results in creative course offerings, enhanced educational opportunities, stimulation of novel research, advanced understanding of natural systems, and expanded knowledge and management of human interactions with the environment. The School is housed in the Anheuser-Busch Natural Resources Building containing state-of-the-art teaching, research and outreach extension facilities.

Faculty

Faculty members within the School of Natural Resources have their appointments through the following degree programs; Environmental Sciences (p. 76); Natural Resources Science and Management (p. 96); and Parks, Recreation and Sport (p. 117). Their faculty listing can be found on those degree pages.

Undergraduate

While the College of Agriculture, Food and Natural Resources does not offer an undergraduate degree specifically in Natural Resources, there are many options available for graduate studies in Natural Resources including a degree in Natural Resource Science and Management (p. 96). Please refer to the list of graduate degrees on the Natural Resources (p. 101) section of the catalog for more information.

Graduate

• MS in Natural Resources (p. 101)
• with emphasis in Agroforestry (p. 101)
• with emphasis in Fisheries & Wildlife Sciences (p. 103)
• with emphasis in Forestry (p. 103)
• with emphasis in Human Dimensions of Natural Resources (p. 104)
• with emphasis in Parks, Recreation and Tourism (p. 105)
• with emphasis in Soil, Environmental and Atmospheric Sciences (p. 106)
• with emphasis in Water Resources (p. 108)

• PhD in Natural Resources (p. 110)
• with emphasis in Fisheries & Wildlife Sciences (p. 110)
• with emphasis in Forestry (p. 111)
• with emphasis in Human Dimensions of Natural Resources (p. 112)
• with emphasis in Soil, Environmental and Atmospheric Sciences (p. 113)
• with emphasis in Water Resources (p. 114)

MS in Natural Resources

The MS in Natural Resources has emphasis areas in Agroforestry (p. 101), Fisheries & Wildlife Science (p. 103), Forestry (p. 103), Human Dimensions of Natural Resources (p. 104), Parks Recreation and Tourism (p. 105), Soil, Environmental and Atmospheric Sciences (p. 106), and Water Resources (p. 108). Please see the individual emphasis area pages for degree requirements and admissions information.

MS in Natural Resources with Emphasis in Agroforestry

Dr. Shibu Jose
203 Anheuser-Busch Natural Resources Building
Columbia, MO 65211
joses@missouri.edu
(573) 882-0240

Emphasis Area Focus

Agroforestry, as a farming system that integrates crops and/or livestock with trees and shrubs, has a long history of interdisciplinary research at the University of Missouri. The interdisciplinary emphasis area capitalizes on existing agroforestry research collaborations across The School of Natural Resources (SNR) departments in building an academic program that could attract and serve quality graduate students from Missouri, the nation and the world. The agroforestry emphasis area offers both a thesis and non-thesis option. The program also offers an online option designed for professionals working in natural resources around the globe who already have an undergraduate degree in a related field. Please visit the online webpage for more information: http://online.missouri.edu/degreeprograms/cafnr/agroforestry/masters/

Admission Requirements

• Bachelor’s degree in a relevant discipline from an accredited institution
• Undergraduate GPA: 3.0 on a scale of 4.0
• Graduate Record Exam score (GRE)*: verbal plus quantitative total of at least 1100 (300 on the new GRE)
• Students whose GPAs and GRE scores do not meet the requirements will be evaluated individually

*The GRE requirement may be waived under exceptional circumstances. Applicants will be reviewed on a case-by-case basis.

How to Apply

To the Graduate School:
• All application materials must be submitted to the Apply Yourself (https://applygrad.missouri.edu/apply) online application system.
• Statement of interest
• Résumé or CV
• GRE scores
• TOEFL scores (if applicable)
• A minimum of three letters of recommendation and the accompanying evaluation sheets from people who can attest to the candidate’s scholastic ability and experience relevant to graduate study.
• Publications (optional)

Application Deadlines

Applications must be received by the following dates:
• March 15 for the summer semester
• May 15 for the fall semester
• Oct. 15 for the spring semester

Thesis option:

Students in the thesis option will complete 30 credit hours of course work with no more than 12 credits for thesis research. Students choosing the M.S. thesis option will prepare a written research proposal and make an oral defense of that proposal within 12 months of their initial enrollment in the program. Students in the thesis option will write a thesis based on their research and participate in a public oral defense of their thesis announced at least two weeks prior to the defense date.

Non-Thesis option:

Students in the non-thesis option will complete 30 credit hours of course work with no more than 6 credits for a project. Students choosing the non-thesis option will be required to write a project plan and to make an oral defense of their project within the first year following their initial enrollment in the program. Students choosing the non-thesis option will write a technical report based on their project and participate in a public oral defense of their report to be announced at least two weeks prior to the defense.

Timeline Requirements:

1. Within six month of initial enrollment in the emphasis area, students must submit a plan of study.
2. Within one year of initial enrollment in the emphasis area, students must present a written proposal of their research or project proposal to be reviewed and approved by members of the students' Masters Committee.
3. Students will submit a written thesis or project report following the guidelines specified by the Graduate School. All students must present a public oral defense of their dissertation or project announced at least two weeks prior to the defense date. Electronic media may be used to facilitate the defense for online/distance education students when appropriate.
4. All students will submit an annual report of their progress as required by the MU Graduate School.

Agroforestry Emphasis Area Coursework Requirements

Students seeking the agroforestry graduate emphasis will develop their course of study to incorporate 12 hours of a core curriculum of designated courses. This has been designed to include theoretical foundations in both the biophysical and socioeconomic components of agroforestry. The curriculum leads the student through a progression of learning and applying concepts related to (A) Agroforestry Fundamentals; (B) Biophysical Foundation; and (C) Socio-economic Foundation (Table 1).

Each student's coursework requirements, including the selection of specific courses in the above categories, will be listed in the student's plan of study and approved by their graduate committee.

MS in Natural Resources with Emphasis in Fisheries and Wildlife Sciences

Application and Admission Information

Admission Contact Information
Graduate Secretary
302 Anheuser-Busch Natural Resources Building
Columbia, MO 65211
Karen Decker; deckerkf@missouri.edu; (573) 882-3436

Admission Criteria

Fall deadline: Rolling

- Minimum TOEFL scores:
  - Internet-based test (iBT)
  - Paper-based test (PBT)
  - 79
  - 550

- Minimum GRE scores:
  - Prior to August 1, 2011: 1100
  - On or After August 1, 2011: 1100 equivalent scores

- Minimum GPA: 3.2 in last 60 hours of undergraduate coursework.
- Experience in research or management of natural resources. Practical skills are strongly considered.

Required Application Materials

To the Graduate School:

- All application materials must be submitted to the Apply Yourself (https://applygrad.missouri.edu/apply) online application system
- All required Graduate School documents
- A minimum of three letters of recommendation and the accompanying evaluation sheets from people who can attest to the candidate’s scholastic and conservation field work abilities
- Departmental application
- Written response to 1 of 5 questions listed on the Fisheries and Wildlife Sciences Graduate Program Admissions page
- GRE scores
- TOEFL scores (when applicable)
- Publications (optional)
- Résumé or CV

We require applicants to contact specific faculty to determine the availability of research assistantships prior to applying to the program.

A background of 25 to 30 hours in biological sciences courses is desirable. Minor deficiencies may be remedied during the graduate program; major deficiencies may require preparatory coursework prior to consideration for admission.

Fisheries and Wildlife Sciences degrees emphasize resource management at organismal, population, or ecosystem scales. An emphasis on resource management helps distinguish our program from basic biology; therefore, course work in fisheries or wildlife management, environmental science, resource policy, or other applied ecology fields is advantageous.

Degree Completion Requirements

Master’s students must complete, with a B average or better, a minimum of 30 hours of course work (15 hours or more at the 8000 course level). Research, problems, special investigations, and special readings courses shall not exceed 12 of the 30 hours.

Plan of Study

Candidates are expected to design and have approved by their committee a plan of study during their first semester in residence and a thesis proposal by their second semester.

Thesis & Oral Examination

A thesis acceptable to the student’s graduate committee shall be completed and defended in a final oral examination; all candidates must complete the oral examination and a final thesis seminar before the degree is conferred.

MS in Natural Resources with Emphasis in Forestry

Graduate research programs leading to the M.S. in Natural Resources with an emphasis in Forestry are designed to prepare students for careers in academic institutions, consulting firms, industry, and state and federal agencies.

Forestry graduates interested in research or teaching may concentrate much of their course work in one or more of the related sciences with a thesis appropriate to forestry. Specialized graduate education is available in agroforestry, biometrics, community and landscape ecology, economics, fire ecology, hydrology, geographic information systems, physiological ecology, physiology, policy, silviculture, forest soils, forest management, stand dynamics, water quality, woody quality and tree-ring analysis.

Students often conduct joint research with natural resource specialists at the Northern Research Station (U.S. Forest Service), the Missouri Department of Conservation, the Missouri Department of Natural Resources, the National Park Service, and the U.S. Fish and Wildlife Service.

Degree Requirements

To attain the master’s degree:

- 30 hours of course work must be completed.
- 15 hours or more must be 8000+ level.
- Research, problems, special investigations and special readings courses must not exceed 12 of the 30 hours.
• The GPA of all course work submitted for the degree must be 3.0 or better.

Graduate students typically enroll in courses from across campus. For graduate students of Forestry emphasis area who lack academic or experiential background in forestry, the graduate committee may recommend several courses to compensate for that deficiency. Forestry graduate students commonly enroll in dual undergraduate/graduate courses at the 7000 level, FOREST 7330, FOREST 7375, FOREST 7320, FOREST 7390.

For a graduate student emphasizing forestry, Forestry Seminar (FOREST 9087) is the only required course in the graduate student's program of study. All graduate students are expected to attend all forestry seminars and SNR graduate seminars regardless of whether the student is enrolled in the seminar course.

**Thesis Requirements**

A master's thesis, or a minimum of 5 semester hours of non-thesis research acceptable to the student’s committee, shall be completed before the final examination. Research toward a thesis normally shall not exceed 8 hours. Thesis requirements and defense are as defined by the MU Graduate School. A final oral examination is given to all candidates before completion of the degree.

**Admissions**

Admission Contact Information
Dr. Hong S. He
203 ABNR Bldg.
heh@missouri.edu

Applicants are required to meet two sets of minimum qualifications for admission: the requirements of the MS in Natural Resources with emphasis in Forestry (https://gradstudies.missouri.edu/degreecategory/natural-resources) program and the minimum requirements of the Office of Graduate Studies (https://gradstudies.missouri.edu/admissions/eligibility-process). Because requirements vary, you must refer to a degree program's graduate admission page to learn about specific admission criteria, application deadlines, eligibility and application process. Your application materials will be reviewed by both the Office of Graduate Studies and the degree program to which you've applied before official admission to the University of Missouri.

**Students without a Forestry Undergraduate Degree**

Those without a baccalaureate degree in forestry may wish to further their education in forest science or to attain professional competence by completing course work in forestry. Work required of students without a forestry degree who want a professional forestry education includes courses in dendrology (FOREST 2151), utilization of forest resources (FOREST 2541), forest resource measurements (FOREST 4380 or FOREST 7380), forest inventory (FOREST 2542), forest fire control and use (FOREST 3207), forest ecology (FOREST 4320 or FOREST 7320), silviculture (FOREST 2544), watershed management (FOREST 7390), and forest economics (FOREST 4350 or FOREST 7350). Some of these courses do not carry graduate credit.

---

**MS in Natural Resources with Emphasis in Human Dimensions of Natural Resources**

**Application and Admission Information**

Dr. Charles Nilon
302 Anheuser-Busch Natural Resources Building
Columbia, MO 65211
nilonc@missouri.edu; (573) 882-3738

**Emphasis Area Focus**

The Human Dimensions of Natural Resources Emphasis Area (HDNR) addresses research and management questions including peoples’ attitudes, knowledge, values, perceptions, and behaviors associated with natural resources. As an interdisciplinary emphasis area, HDNR considers applicants with backgrounds in social sciences, environmental education, natural resources management and conservation, or related disciplines.

The MS is a research-based degree. The student is expected to work closely with a faculty advisor to develop a research topic and a program of study. Students who complete a thesis are expected to publish their findings in peer-reviewed journals. A non-thesis option is also available that requires additional coursework and a research project.

**Admission Criteria**

- Minimum GPA: 3.0 in last 60 hours
- Minimum TOEFL scores:
  - Internet-based test (iBT): 80
  - Paper-based test (PBT): 550
- GRE Required

**Required Application Materials**

To the Graduate School:

- All application materials must be submitted to the Apply Yourself (https://applygrad.missouri.edu/apply) online application system
- Statement of interest
- Résumé or CV
- GRE scores
- TOEFL scores (if applicable)
- A minimum of three letters of recommendation and the accompanying evaluation sheets from people who can attest to the candidate’s scholastic ability and experience relevant to graduate study
- Publications (optional)

**Coursework Requirements**

All students in the HDNR Emphasis Area will be required to take at least one course from each of three categories:

1. Social science research methods
2. Quantitative and/or qualitative data analysis
3. Social science theory
Each student's coursework requirements, including the selection of specific courses in the above categories, will be listed in the student’s plan of study and approved by their graduate committee.

Thesis Option

Students in the thesis option will complete 30 credit hours of coursework with no more than 12 credits for thesis research. Students choosing the thesis option will prepare a written research proposal and make an oral defense of that proposal within 12 months of their initial enrollment in the program. Students in the thesis option will write a thesis based on their research and participate in a public oral defense of their thesis announced at least two weeks prior to the defense date.

Non-Thesis Option

Students in the non-thesis option will complete 36 credit hours of coursework with no more than 12 credits for project research. Students choosing the non-thesis option will be required to write a project plan and to make an oral defense of that plan within the first year following their initial enrollment in the program. Students choosing the non-thesis option will write a technical report based on their project and participate in a public oral defense of their report to be announced at least two weeks prior to the defense.

MS in Natural Resources with Emphasis in Parks, Recreation and Tourism

About the Emphasis

Since virtually everyone participates in some form of leisure, the primary benefit of Parks, Recreation and Tourism (PRT) is to address quality of life issues. The unique interaction of people, places, and activities establish our profession as one of the world's largest industries. Students learn how to manage leisure service delivery systems by combining theory with practice. This degree is designed to prepare students for advanced positions in the parks, recreation, tourism and sport profession or admission into doctoral programs.

Degree Requirements

The program consists of a minimum of 30 credits for the thesis option and 39 credits for the non-thesis option. For a full explanation of the thesis/non-thesis options, see section below on Thesis/Non-Thesis Requirements (p. 105).

Students are required to take four 8000 level courses in the PRT curriculum: all students must take PRST 8400 Constructs of Leisure and PRST 8430 Research Methods in Parks, Recreation and Tourism; students then choose two courses from the PRT 8000 level curriculum. All students must take a graduate level analysis course (i.e., statistics, qualitative analysis, or mixed analysis).

Sample Plan of Study

Because students in the M.S. program are from a wide variety of circumstances, and pursue the M.S. at different paces, a sample plan of study is not easily produced. Students work closely with their advisor to select appropriate coursework.

Thesis/Non-Thesis Requirements

The program offers students two options:

1. Thesis Option

The thesis option is most appropriate for M.S. candidates who aspire to pursue doctoral education in the future, desire distinct research training and experience, and/or desire research or technical writing experience. Students who complete a thesis are encouraged to publish their findings in peer-reviewed journals.

Credit Hour Requirements: The thesis option requires a minimum of 30 credit hours, which includes: a minimum of 15 hours at the 8000/9000 level; a minimum of 12 hours of 8000 level theory-based contact courses within the PRT curriculum; a graduate level analysis course; minimum 3 credits thesis research; and up to a maximum of 12 credits of independent study (Thesis Research, Guided Readings, Problems, or Independent Work).

Thesis Research Boundaries: The thesis endeavor engages content of a solid academic/theoretical need that adds to or extends the knowledge base. It typically requires the student to display original scholarship or application of an existing theory to solve a specific problem. The rigor of the thesis challenges the student to address and engage the scientific process, which includes an evaluative component of peer and academic review.

Thesis Committee: The thesis committee consists of a minimum of three graduate faculty members: two within the PRT department, and one outside the department. Emeritus and/or adjunct faculty members are eligible to serve on student committees, provided they have graduate faculty status.

Procedures: The student develops the thesis proposal with primary guidance of the committee chair. The proposal is defended in a scheduled open forum followed by committee approval or disapproval. Following proposal approval by the committee, the student conducts the research and completes the thesis paper. The student then defends the completed study in a scheduled open forum, followed by committee action to pass or fail the thesis defense. Students must submit the M-1 and M-2 forms by the end of their second semester. The M-3 form should be submitted shortly after the thesis defense.

2. Non-Thesis (Project) Option

A non-thesis option is also available that requires additional coursework and a research project. The non-thesis option is most appropriate for M.S. candidates who view the Master's Degree as the terminal degree, aspire for practitioner work within the profession, and/or desire additional course work to balance their program of study.

Credit Hour Requirements: The non-thesis option requires a minimum of 39 credit hours, which includes: a minimum of 15 hours at the 8000/9000 level; a minimum of 12 hours of 8000 level theory-based contact courses within the PRT curriculum; a graduate level analysis course; 3-6 credits of PRST 8090 Thesis Research in Parks, Recreation, Sport and Tourism (Research Project); and up to a maximum of 12 credits of independent study (Thesis Research, Guided Readings, Problems, or Independent Work).

Non-Thesis Boundaries: The non-thesis option engages content of an academic/professional practice need that addresses issues or problems. It requires the student to display independent scholarship in the definition, review and analysis of a problem or issue under study.
The rigor of the project challenges the student to engage content to professional standards, which include the evaluative component of peer and professional review.

**Project Committee:** The project committee consists of a minimum of three graduate faculty members (one maybe be from outside the PRT department, but not a requirement). Emeritus and/or adjunct faculty members are eligible to serve on student committees, provided they have graduate faculty status.

**Procedures:** The student develops the project proposal with primary guidance of the committee chair. The committee chair approves the proposal. Following approval, the student completes the project. The student then defends the completed project in a scheduled open forum, followed by committee action to pass or fail the project defense. Students must submit the M-1 form by the end of their second semester. The M-3 form should be submitted shortly after the project defense.

**Admissions**

**Admission Contact Information**
Dr. Sonja A. Wilhelm Stanis
Parks, Recreation and Tourism
105 Anheuser-Busch Natural Resources Building
Columbia, MO 65211
sonjaws@missouri.edu; 573-882-9524

Applicants are required to meet two sets of minimum qualifications for admission: the requirements of the MS in Natural Resources with emphasis in Parks, Recreation and Tourism (https://gradstudies.missouri.edu/degreecategory/natural-resources) program and the minimum requirements of the Office of Graduate Studies (https://gradstudies.missouri.edu/admissions/apply). Because requirements vary, you must refer to a degree program's graduate admission page to learn about specific admission criteria, application deadlines, eligibility and application process. Your application materials will be reviewed by both the Office of Graduate Studies and the degree program to which you've applied before official admission to the University of Missouri.

**Financial Aid from the Program**

Funding is available, but assistantships are highly competitive. Prospective students must complete all the necessary application requirements to be considered for departmental funding. Contact the graduate program emphasis coordinator for more details. Applicants should also contact the faculty they want to work with to determine the availability of possible graduate assistantship positions.

**MS in Natural Resources with Emphasis in Soil, Environmental and Atmospheric Sciences**

**Master of Science in Soil, Environmental and Atmospheric Sciences**

The MS degree in Natural Resources with an emphasis in Soil, Environmental and Atmospheric Sciences is designed to prepare students for academic careers in research and teaching or other advanced scientific or professional careers. Students entering the MS program are required to have a BS degree.

MS candidates conduct original research under the supervision of a faculty advisor or advisors and with the participation of a master's committee. The Soil, Environmental and Atmospheric Sciences program expects students to take part in professional and educational activities by giving presentations at conferences and presenting seminars. MS candidates complete a thesis and are expected to publish their research results in peer-reviewed scientific journals. A non-thesis option is also available that requires additional coursework and a research project.

**Degree Requirement**

The degree program with emphasis in SEAS must include:

- 30 hours of graduate credit, with at least 15 hours comprised of 8000- or 9000-level courses.
- Not more than 12 hours of the minimum 30 hours are permitted for research, problems, special investigations and special readings.
- A minimum of one credit hour of graduate seminar must be included in each student's graduate program.
- All students enrolled in graduate programs are required to participate in a supervised teaching activity.
- All students are required to attend a workshop on ethics and professionalism.
- Students must maintain a GPA of 3.0 (A=4.0) in all course work presented for the degree.

For an atmospheric science focus area, appropriate atmospheric science courses must be selected and approved in consultation with the student's advisor and graduate thesis committee.

For a soil science focus area, at least 12 credit hours of soil science courses at the 7000, 8000, and 9000 levels, exclusive of problems and thesis research, must be included in the student’s graduate program.

For an environmental science focus area, at least six credit hours of environmental science courses at the 7000, 8000, and 9000 levels, exclusive of problems and thesis research, must be included in the student’s graduate program. To meet the six credit hour requirement, courses must be selected from the following list of approved environmental science courses:

<table>
<thead>

**Total Credits** 41

To complete the environmental science focus area, an additional six credit hours must be selected from courses listed above or from the following programs: biochemistry, biological engineering, biological
Science, Chemical Engineering, Chemistry, Civil and Environmental Engineering, Fisheries and Wildlife Sciences, Forestry, Geography, Geological Sciences, and Natural Resources. Selection of these courses will be determined in consultation with faculty members serving on a student’s thesis committee.

**Integrated B.S./M.S. Program**

Undergraduate students enrolled in Environmental Sciences are eligible to apply for the integrated degree program in soil, environmental and atmospheric sciences that will enable outstanding undergraduates in Environmental Sciences to obtain a B.S. and a M.S. (thesis required) after the successful completion of both degree requirements in five years. The program provides a challenging curriculum that will include opportunities and training in undergraduate and graduate-level research and prepare the student for a successful professional career. Increasingly, employers in competitive technical fields are looking for highly-motivated students with graduate training to meet the demands for their workforce and this program will provide talented students with a unique and expedited pathway to develop their educational background and professional skills.

**Overview**

Undergraduate students in Environmental Sciences interested in the integrated B.S./M.S. program will be encouraged to participate in an undergraduate research experience during the summer of their sophomore year. They will apply and then be selected to enter the integrated B.S./M.S. program during the second semester of their junior year. Selected students will need to meet admission requirements for the Graduate School. Once selected the students will initiate work on their research during the summer of their junior year. During their senior year they will complete their undergraduate credits and can take up to 12 graduate-level credits (courses with numbering 7000 or higher) under MU’s dual enrollment program. After completing the B.S. degree, students will continue their research and take the remaining coursework on their M.S. plan of study necessary to meet the 30 credit hour minimum required by the Graduate School for the M.S. degree. Several scholarships are currently available at the University of Missouri to assist outstanding students for the costs of their undergraduate and graduate education and for conducting undergraduate research, including the Honors College Discovery Fellowships Program and CAFNR and Life Sciences Undergraduate Research Fellowships.

**Thesis/Non-Thesis Requirements**

**Thesis**

A thesis, which is a research report of original research on a specialized soil, environmental or atmospheric science problem conducted by the student, must be presented to the student’s graduate committee and successfully defended.

**Non-Thesis Option**

Under special circumstances, a non-thesis program in the soil science, environmental science or atmospheric science focus area may be approved by the student’s advisory committee, the SEAS Emphasis Area Coordinator and the Director of Graduate Studies. Not more than 6 hours of the minimum 30 hours are permitted for non-thesis research, problems, special investigations and special readings. At least 15 hours of the minimum 30 hours must be 8000- or 9000-level courses. A minimum of one credit hour of graduate seminar must be included in each student’s graduate program. The student is required to participate in a supervised teaching activity and attend a workshop on ethics and professionalism. A student in the non-thesis option must form a graduate advisory committee and have that committee approve of the student taking the non-thesis option, the proposed course plan, and a project for the student to complete to meet the requirements of the non-thesis option. The student will complete a written report for the project which must be approved by the student’s advisory committee.

**Admissions**

**Admission Contact Information**

Dr. Stephen Anderson, emphasis area coordinator  
(Andersons@missouri.edu)  
Soil, Environmental and Atmospheric Sciences  
University of Missouri  
302 Anheuser-Busch Natural Resources Building  
Columbia, MO 65211 USA  
(573) 882-6303

Applicants are required to meet two sets of minimum qualifications for admission: the requirements of the MS in Natural Resources with emphasis in Soil, Environmental and Atmospheric Sciences (https://gradstudies.missouri.edu/degrecategory/natural-resources) and the minimum requirements of the Office of Graduate Studies (http://gradstudies.missouri.edu/admissions/eligibility-process). Because requirements vary, you must refer to a degree program’s graduate admission page to learn about specific admission criteria, application deadlines, eligibility and application process. Your application materials will be reviewed by both the Office of Graduate Studies and the degree program to which you’ve applied before official admission to the University of Missouri.

**Recommended Preparation**

Appropriate undergraduate majors in preparation for graduate studies in the soil, environmental and atmospheric sciences emphasis area include: agronomy, atmospheric science, biochemistry, biology, biogeochemistry, botany, chemistry, earth science, civil and environmental engineering, environmental science, forestry, geosciences, hydrology, mathematics, microbiology, physics, soil science, and watershed management. Check with the Emphasis Area Coordinator for specific recommendations for preparation for each graduate focus area.

**Completion of a BS Degree**

Undergraduate GPA of 3.0 for the last 60 hours of coursework

- **Atmospheric science focus area applicants**: undergraduate program should include integral calculus and one year of college physics.
- **Environmental science focus area applicants**: undergraduate program should include general and organic chemistry, introductory biology, calculus, geology, physics, and ecology.
- **Soil science focus area applicants**: completed courses in general and organic chemistry, calculus, geology and physics. Inadequacies in courses must be remedied through additional course work immediately after admission.

**Financial Aid from the Program**

Check the School website (https://snr.missouri.edu/) or contact individual faculty for details on graduate assistantships that may be available.
**Admission Procedures for the Integrated BS/MS**

Students seeking admission into the program should submit an application to the SEAS Emphasis Area Coordinator at the beginning (i.e., January 30th) of the Spring semester of their junior year. A faculty committee will consider several criteria for admission into the Integrated B.S./M.S. Program including:

1. the student’s undergraduate GPA (60 or more credits; minimum GPA of 3.5 at the time of enrollment)
2. a formal statement of interest indicating the intended emphasis area (i.e., soil science, environmental science or atmospheric science)
3. three letters of recommendation with one letter being a formal nomination letter from a SEAS faculty member

A student who meets the eligibility requirements will be extended an offer of admission by the middle of the Spring semester. All students must select a faculty mentor/advisor after admission to the program. A faculty advisory committee will be selected for each student and they will meet during the semester to approve a course of study and assist the student in designing and conducting their research program. Students will prepare a research proposal to be reviewed and accepted by their advisory committee. After approval of the research proposal, students will initiate their research during the summer of their junior year. Formal application of the student into the Graduate School will take place during the final semester of the student’s senior year and is contingent on the student’s successful completion of B.S. degree requirements and meeting eligibility requirements for the graduate program. Students will be required to maintain a cumulative 3.0 GPA during the program, write an M.S. thesis and meet other M.S. degree requirements.

**MS in Natural Resources with Emphasis in Water Resources**

The Water Resources emphasis area is an interdisciplinary graduate degree program within the School of Natural Resources. It encompasses all fields of natural sciences represented in the School and, through collaboration, involves related expertise from throughout the University of Missouri and beyond. Participating faculty in the Water Resources emphasis area are engaged in both the scientific understanding of water resources (biological, chemical and physical) and its management, and the decision-making processes used to address competing societal values (social, economic and legal). The program has no geographic boundaries but the location of MU suggests most research will be directed to better understanding of water movement, biogeochemical cycling and biological processes of forested-agricultural and urban landscapes of the midcontinent. The lakes, rivers, streams, wetlands and subsurface waters of the region are prime areas for basic and applied research. One of the program’s major global impacts is the training of highly qualified graduate professionals that are equipped to address many of the complex contemporary water resource problems around the world.

The Water Resources graduate emphasis area offers M.S. degree programs specializing in (but not limited to) the occurrence, circulation, distribution, chemical and physical properties, and environmental interaction of surface and subsurface waters, including groundwater. Specific areas of investigation could include lakes and reservoirs, floods and droughts, groundwater aquifers, water use, water quality, water contamination, plant water use, measurement methods, hydrologic modeling and international water resources.

Participating faculty in the Water Resources emphasis area are engaged in both scientific understanding of water resources (biological, chemical and physical) and its management, and the decision-making processes used to address competing societal values (social, economic and legal). The program has no geographic boundaries but benefits from a distinct midcontinent climate, and physiography. Multi-use watersheds (e.g., forest, agriculture, urban), streams, lakes, rivers, wetlands and subsurface waters are ideal areas for basic and applied research that is easily transferrable to other regions. One of the program’s major global impacts is the training of highly qualified graduate professionals that are equipped to address many of the complex contemporary water resource problems around the world.

**Degree Requirements**

- 30 hours of course work must be completed, and 15 hours or more shall be 8000 level.
• Not more than 40 percent of the 30-hour credit requirement can be satisfied by a combination of special investigations, Research, Readings and/or Problems courses.
• A maximum of 20 percent of the number of credit hours required for a student's degree may be graduate credits transferred from another university, including another campus of the University of Missouri. The approval of the academic program director of graduate studies and the MU Office of Graduate Studies is required.
• Students must maintain a GPA of 3.0 (A=4.0) in all course work presented for the degree.
• Each student's coursework requirements, including the selection of specific courses, will be listed in the student's plan of study and approved by their graduate committee.

Must take at least 6 credit hours from the following:

Aquatic Ecosystem Science
F_W 8460 Wetland Ecology 3
F_W 8520 Stream Ecology 3
NAT_R 7001 Topics in Natural Resources 1-99
NAT_R 7100 Lake Ecology 3
FOREST 7390 Watershed Management and Water Quality 3
F_W 8450 Advanced Limnology 3

Climate and Climatology
ATM_SC 7400 Micrometeorology 3
ATM_SC 7590 Radar Meteorology 3
ATM_SC 9300 Introduction to Chaos Theory 3

GEOL 7300 Introduction to Low-Temperature Geochemistry 3
GEOL 7500 Organic Geochemistry 3

Thesis Requirements

Forms and Timelines

M1 Plan of study for Master's Degree
Together with his/her advisor, the student completes the M1 form and provides it to the Director of Graduate Studies in the emphasis area. This form provides the student, the school, and the MU Office of Graduate Studies with a plan for all course work, transfer credit and research hours that will comprise a student's program of study. This form should be completed by the end of the second semester.

M2 Request for Thesis Committee
The M2 form accompanies the M1, and should be submitted at the same time, by the end of the second semester. It is required of students who will be writing a thesis.

M3 Report of Master's Examining Committee
The M3 form reports the final results of 1) master's thesis defense 2) master's project presentation or 3) master's comprehensive examination. Submit to the MU Office of Graduate Studies as soon as possible after the exam, project presentation or thesis defense.

Thesis defense seminar: All students must present a defense seminar in advance of his/her final examination. The seminar must be publicized and the Director of Graduate Studies needs to be informed of the date as soon as the student arranges it, at least two weeks before the seminar.
If the seminar is not appropriated announced, it will be considered invalid.
A thesis shall be completed before the final examination. Research credits toward a thesis normally shall not exceed eight hours. A final oral examination is provided by all candidates before completion of the degree.
Every candidate should review the “Guidelines for Preparing Theses and Dissertations (http://gradschool.missouri.edu/academics/thesis-dissertation/diss-thesis-guideline)” from the Graduate School and should consult the Water Resources Director of Graduate Studies for academic program style requirements.

M.S. Committee Meeting Minimum Requirements
M.S. Students must meet with their committee at least twice during their degree seeking program.
First meeting: Present a written research proposal, provide a proposal presentation to the committee and present their M1, and M2 for approval and signing.
Admissions

Admission Contact Information
School of Natural Resources
Water Resources Emphasis Area
303L Anheuser-Busch Natural Resources Building
(573)-882-2832

Director of Graduate Studies:
Rebecca North, Ph.D.
Assistant Professor of Water Quality
School of Natural Resources
University of Missouri
303L Anheuser-Busch Natural Resources Building
Columbia, MO. 65211-7220
(573)-882-2832

Admission Requirements
• Bachelor's degree in a relevant discipline from an accredited institution
• Undergraduate GPA: 3.0 on a scale of 4.0 in last 60 hours
• Graduate Record Exam (GRE)*
• Minimum TOEFL scores: 550 (paper-based test), 80 (Internet-based test), 6.5 (IELTS Academic)
• Experience in research or management of water resources. Practical skills are strongly considered.

* Students whose GPAs do not meet the requirements will be evaluated individually. Applicants will be reviewed on a case-by-case basis.

How to Apply
For the Office of Graduate Studies:
Completed Graduate Studies online application
Unofficial Transcripts- As part of the application submission process, all applicants are required to upload unofficial copies of all post-secondary transcripts to the online application. Official transcripts are only required if accepted by the academic program.

Official Results of English Proficiency Exams (International applicants only)
For the Water Resources Program:
All application materials must be submitted to the Graduate Studies online application system.

A minimum of three letters of recommendation and the accompanying evaluation sheets from people who can attest to the candidate's scholastic and water resources related field work abilities

Resume or CV
Letter of professional goals (2 page limit), indicating education, research and career goals
Publications (optional)
GRE scores
TOEFL scores (when applicable)

Applicants should contact specific faculty to determine the availability of financial assistantships prior to applying.

An applicant contemplating graduate work in water resources should have a strong background in physical sciences, including calculus, chemistry, and physics. Those considering interdisciplinary degrees should also have a background in biology, botany, zoology, ecology and other natural sciences. A background of 25 to 30 hours in physical sciences courses is desirable. Minor deficiencies may be remedied during the graduate program; major deficiencies may require preparatory coursework prior to consideration for admission. Applicants are required to meet two sets of minimum qualifications for admission: the requirements of the MS in Natural Resources with emphasis in Water Resources (https://gradstudies.missouri.edu/degreecategory/natural-resources) and the minimum requirements of the Office of Graduate Studies (https://gradstudies.missouri.edu/admissions/eligibility-process).

Because requirements vary, you must refer to a degree program's graduate admission page to learn about specific admission criteria, application deadlines, eligibility and application process. Your application materials will be reviewed by both the Office of Graduate Studies and the degree program to which you've applied before official admission to the University of Missouri.

Application Deadlines
We have a rolling application window.

Financial Aid from the Program
Funding is available, but assistantships are highly competitive. Prospective students must complete all the necessary application requirements to be considered for funding. Contact the graduate program emphasis coordinator for more details. Applicants should also contact the faculty they want to work with to determine the availability of possible graduate assistantship positions.

PhD in Natural Resources
The PhD in Natural Resources has emphasis areas in Fisheries & Wildlife Sciences (p. 110), Forestry (p. 111), Human Dimensions of Natural Resources (p. 112), Soil, Environmental & Atmospheric Sciences (p. 113), and Water Resources (p. 114). Please see the individual emphasis area pages for degree requirements and admissions information.

</tr>
</thead>
<tbody>
<tr>
<td>79</td>
<td>550</td>
</tr>
</tbody>
</table>

• Minimum GRE scores:
The committee shall be composed of a minimum of 4 members of the MU and final examinations administered by the student's doctoral committee. A student pursuing a PhD is expected to pass qualifying, comprehensive, Doctoral Committee in independent research contributing to knowledge in the field. particular specialization in fisheries and wildlife and have completed extensive study, have demonstrated a high level of achievement in their PhD degree is conferred only upon those students who, after completing menial research, and professional careers. Students entering the PhD program will often have a master's degree, but this is not an absolute requirement. Prerequisite coursework prior to admission.

Fisheries and Wildlife Sciences degrees emphasize resource management at organismal, population, or ecosystem scales. An emphasis on resource management helps distinguish our program from basic biology; therefore, course work in fisheries or wildlife management, environmental science, resource policy, or other applied ecology fields is advantageous.

**PhD Degree Completion Requirements**

The PhD degree is conferred only upon those students who, after extensive study, have demonstrated a high level of achievement in their particular specialization in fisheries and wildlife and have completed independent research contributing to knowledge in the field.

**Doctoral Committee**

A student pursuing a PhD is expected to pass qualifying, comprehensive, and final examinations administered by the student's doctoral committee. The committee shall be composed of a minimum of 4 members of the MU graduate faculty and will include at least 3 members from the student's doctoral degree program and 1 outside member from a different MU program. At least 2 of the committee members must be MU doctoral faculty.

**Qualifying Examination**

The qualifying examination includes a general knowledge examination and is designed to evaluate the student's background and determine areas that require further course work.

**Plan of Study**

The doctoral plan of study requires a minimum of 72 hours of graduate credit from courses taken at MU, transfer credits, and research hours. This program must include at least 15 hours of 8000- and 9000-level course work exclusive of problems, readings, and research credits. Up to 30 hours from an accredited master's program may be applied to the plan of study, subject to committee approval.

**Residency Requirement**

Students enrolled in the PhD program must also satisfy a residency requirement of at least 3 consecutive semesters in which the student is in residence on the MU campus and enrolled for 6 or more credit hours, unless a prior exception is approved by the director of graduate studies.

**PhD in Natural Resources with Emphasis in Forestry**

**Admission Contact Information**

Dr. Hong S. He
203 ABNR Bldg.
Columbia, MO 65211
heh@missouri.edu

**Doctorate in Forestry**

The PhD degree in forestry is designed to prepare students for academic careers in research and teaching or other advanced scientific or professional careers. Students entering the PhD program will often have a master’s degree, but this is not an absolute requirement. PhD candidates conduct original research under the supervision of a faculty advisor or advisors and with the participation of a doctoral committee. Students are expected to engage in coursework to prepare for careers in research, industry or academia. The Department of Forestry expects students to take part in professional and educational activities by giving presentations at conferences and presenting seminars. Ph.D. candidates complete a dissertation and are expected to publish their research results in peer-reviewed scientific journals.

**Admission Criteria**

Fall deadline: May 15
Spring deadline: October 15
Summer deadline: March 15

- Minimum GPA: 3.0 in last 60 hours
- Minimum TOEFL scores (iBT:80)
- Minimum GRE scores: none

Particular attention is given to the record of the last 2 years of undergraduate study, and/or the type and quality of professional
experience since completion of the undergraduate degree. Doctoral candidates must demonstrate a higher level of achievement in each of these criteria.

**Required Application Materials**

*To the Graduate School:*

- All required Graduate School documents
- 3 letters of recommendation from individuals qualified to evaluate scholarly capacity and professional qualities
- Letter of intent

*To Forestry Emphasis Area:*

- Emphasis area application (use form)

**Doctoral Committee in Forestry**

The student pursuing the doctoral program is expected to pass qualifying, comprehensive and final examinations administered by the student’s doctoral committee. This committee is structured as defined by the MU Graduate School and must have a minimum of 4 members, at least 3 members must be from the student’s doctoral degree program and 1 outside member from a different MU program. The Forestry Department strongly recommends a 5-person committee for Ph.D. students. At least 2 of the committee members must be MU doctoral faculty.

**Doctoral Qualifying Examination**

The qualifying examination determines whether the student’s background is adequate to enter the PhD program. It also is intended to ascertain if there are areas of weakness in which a candidate will be required to gain background through appropriate course work or areas that prohibit entry into the program.

**D-1 Qualifying Examination Results and Doctoral Committee Approval Form**

Submission of the D-1 form follows a meeting of the student’s graduate committee and approval by the committee, of the student’s proposal and plan of research and coursework. This form is to be submitted to the Office of Graduate Studies within one month of exam completion.

**D-2 Plan of Study**

The D-2 form accompanies the D-1, and is also to be submitted to the MU Office of Graduate Studies within one month of exam completion.

**Doctoral Comprehensive Examination**

Comprehensive exam must be take a minimum 6 months before dissertation defense. The objectives of the comprehensive examination are twofold:

1. to determine if a student has acquired sufficient depth and breadth of knowledge in selected areas of concentration
2. to evaluate the candidate’s capacity to apply that knowledge in solving applied or theoretical problems.

**D-3 Doctoral Comprehensive Exam Result Form**

The D-3 forms should be completed and filed with the Office of Graduate Studies within one month of exam completion.

**Final Examination**

The final examination is directed primarily toward exploration of the dissertation research project. The final examination is directed primarily toward exploration of the dissertation research project. An independent scholarly dissertation approved by the student’s advisor and doctoral committee must be completed. The announcement of public seminar for the dissertation defense must be made at least two weeks in advance of the seminar. It must be well advertised and open to the public. Every candidate should review the Dissertation & Thesis Guidelines (http://gradschool.missouri.edu/academics/thesis-dissertation/diss-thesis-guideline) from the Graduate School and should consult the Director of Graduate Studies for academic program style requirements.

**D-4 Report of the Dissertation Defense Form**

The D-4 form should be completed and filed with the Office of Graduate Studies as soon as possible after the defense.

**Dissertation**

An independent scholarly dissertation approved by the student’s advisor and doctoral committee must be completed.

**Foreign Language Requirements**

Requirements for foreign language and a collateral field, if any, are determined by the student’s doctoral committee. The doctoral committee is expected to make an assessment of the student’s needs as they relate to the student’s background and educational objectives.

**PhD in Natural Resources with Emphasis in Human Dimensions of Natural Resources**

**Application and Admission Information**

Dr. Charles Nilon
302 Anheuser-Busch Natural Resources Building
Columbia, MO 65211
nilonc@missouri.edu; (573) 882-3738

**Emphasis Area Focus**

The Human Dimensions of Natural Resources Emphasis Area (HDNR) addresses research and management questions including peoples’ attitudes, knowledge, values, perceptions, and behaviors associated with natural resources. As an interdisciplinary emphasis area, HDNR considers applicants with backgrounds in social sciences, environmental education, natural resources management and conservation, or related disciplines.

The Ph.D. degree in HDNR is designed to prepare students for careers in academic research and teaching, or advanced scientific professions. The Ph.D. degree is conferred upon students who have demonstrated a high level of achievement in their particular specialization and have completed independent research contributing to knowledge in their respective field.

**Admission Criteria**

- Minimum GPA: 3.0 in last 60 hours
- Minimum TOEFL scores:
  - Internet-based test (iBT): 80
  - Paper-based test (PBT): 550
- GRE Required
- Students are expected to have completed a Master’s or equivalent degree at the time they start their doctoral program
Doctoral Degree Requirements

The HDNR doctoral program of study requires a minimum of 72 hours of graduate credit from courses taken at MU, transfer credit from a Masters or equivalent degree, and research hours. Doctoral students will be expected to follow a timeline toward completion of their degree:

1. Within one year of initial enrollment in the emphasis area, doctoral students must pass a qualifying examination. The qualifying exam will include a presentation by the student of his/her course of study. The course of study shall be approved by the student's graduate committee. The graduate committee may also request a demonstration of the student's research aptitude, competencies in subject matter, and communication skills.

2. Within three years of initial enrollment in the emphasis area, doctoral students must present a written proposal of their research and an oral defense of that proposal to be reviewed and approved by members of the students' doctoral committee.

3. Within three years of initial enrollment in the emphasis area, doctoral students must pass a comprehensive examination. The PhD comprehensive exam will be a written examination with questions from each of the graduate committee members followed by an oral examination. The format of each set of questions will be determined by the graduate committee members. The oral portion of the comprehensive examination may be combined with the research proposal oral defense.

4. Doctoral students will submit a written dissertation following the guidelines specified by the Graduate School. All doctoral students must present a public oral defense of their dissertation announced at least two weeks prior to the defense date.

Degree Requirements

- The curriculum is developed by a doctoral program committee and requires a minimum of 72 semester hours beyond the baccalaureate degree.
- At least 15 hours of course work in the degree program must be at the 8000 and 9000 levels, exclusive of research, problems and independent study experiences.
- A minimum of two credit hours of graduate seminar must be included in each student's graduate program.
- At least 12 credit hours of soil science courses at the 7000, 8000, and 9000 levels, exclusive of problems and thesis research, must be included in the student's graduate program in the soil science focus area.
- All students are required to attend a workshop on ethics and professionalism.
- All students enrolled in graduate programs are required to participate in a supervised teaching activity.

Qualifying Process

The student should take the qualifying examination soon after admission into the PhD program and submit an approved plan of study to the Office of Graduate Studies. It is departmental policy that a student is only allowed one opportunity to pass the qualifying exam.

Comprehensive Examination Process

After successfully completing the required course work with a GPA of 3.0 (A=4.0) or better, students must pass a written and oral comprehensive examination administered by their doctoral program committee.

Dissertation Requirements

A dissertation, which is a comprehensive report of original research on a specialized soil or atmospheric science problem conducted by the
Student, must be presented to the student’s graduate committee and successfully defended.

Admissions

Admission Contact Information
Dr. Stephen Anderson, Emphasis Area Coordinator
(andersons@missouri.edu)
302 Anheuser-Busch Natural Resources Building
Columbia, MO 65211 USA
(573) 882-6303

Applicants are required to meet two sets of minimum qualifications for admission: the requirements of the PhD in Natural Resources with emphasis in Soil, Environmental and Atmospheric Sciences (https://gradstudies.missouri.edu/degreecategory/natural-resources) and the minimum requirements of the Office of Graduate Studies (https://gradstudies.missouri.edu/admissions/eligibility-process). Because requirements vary, you must refer to a degree program’s graduate admission page to learn about specific admission criteria, application deadlines, eligibility and application process. Your application materials will be reviewed by both the Office of Graduate Studies and the degree program to which you’ve applied before official admission to the University of Missouri.

Financial Aid from the Program

Check the School website (http://snr.missouri.edu/) or contact individual faculty for details on graduate assistantships that may be available.

PhD in Natural Resources with Emphasis in Water Resources

The Water Resources emphasis area is an interdisciplinary graduate degree program within the School of Natural Resources. It encompasses all fields of natural sciences represented in the School and, through collaboration, involves related expertise from throughout the University of Missouri and beyond. Participating faculty in the Water Resources emphasis area are engaged in both the scientific understanding of water resources (biological, chemical and physical) and its management, and the decision-making processes used to address competing societal values (social, economic and legal). The program has no geographic boundaries but benefits from a distinct midcontinent climate, and physiography. Multi-use watersheds (e.g., forest, agriculture, urban), streams, lakes, rivers, wetlands and subsurface waters are ideal areas for basic and applied research that is easily transferrable to other regions. One of the program’s major global impacts is the training of highly qualified graduate professionals that are equipped to address many of the complex contemporary water resource problems around the world.

Water Resources program applicants must meet the general requirements set forth by the University of Missouri Office of Graduate Studies for the Ph.D. degree, and meet any additional application criteria of the Water Resources graduate emphasis area. Students often self-fund, apply for teaching assistantships, or are supported by grant-funded research assistantships. Other opportunities may be available to eligible students. Applicants should contact specific faculty to determine the availability of position(s) in the potential advisor’s research program and assistantships or scholarships prior to applying. If encouraged to apply by Water Resources faculty, please apply through the University of Missouri’s online application program.

Upon successful completion of the School of Natural Resources Water Resources graduate program, students will possess strong technical skills in water resources and related sub-disciplines. Graduates will have developed a holistic understanding of the hydrologic cycle related to ecosystem processes and the interdisciplinary background necessary to understand and address contemporary water resources problems. Graduates will have an appreciation of the complex interactions of biophysical processes and tightly coupled socioeconomic interactions necessary to implement water resource policy.

Degree Requirements

- MU requires a minimum of 72 hrs beyond the Baccalaureate degree for the Ph.D.
- The committee may recommend that a certain number of credits be transferred from the Master’s degree toward the Ph.D.
- A maximum of 30 hours of post baccalaureate graduate credit from an accredited university can be transferred toward the Ph.D. degree program.
- The program must include a minimum of 15 hours of 8000 level course work, exclusive of problems, readings and research.

Must take at least 9 credit hours from the following:

<table>
<thead>
<tr>
<th>Aquatic Ecosystem Science</th>
<th>Climate and Climatology</th>
</tr>
</thead>
<tbody>
<tr>
<td>F_W 8460 Wetland Ecology</td>
<td>ATM_SC 7400 Micrometeorology</td>
</tr>
<tr>
<td>F_W 8520 Stream Ecology</td>
<td>ATM_SC 7590 Radar Meteorology</td>
</tr>
<tr>
<td>NAT_R 7001 Topics in Natural Resources</td>
<td>ATM_SC 9300 Introduction to Chaos Theory</td>
</tr>
<tr>
<td>NAT_R 7100 Lake Ecology</td>
<td>ATM_SC 8400 Atmospheric General Circulation</td>
</tr>
<tr>
<td>FOREST 7390 Watershed Management and Water Quality</td>
<td></td>
</tr>
<tr>
<td>F_W 8450 Advanced Limnology</td>
<td></td>
</tr>
</tbody>
</table>
The D-2 form accompanies the D-1, and is also to be submitted to the MU Office of Graduate Studies no later than the end of the student's second semester of study.

### Comprehensive Examination Process

Comprehensive exam must be taken a minimum of 6 months before dissertation defense. The comprehensive examination is taken following the completion of most if not all, the course work requirements established by the graduate committee.

The objectives of the comprehensive examination are twofold:

1. to determine if a student has acquired sufficient depth and breadth of knowledge in selected areas of concentration; and
2. to evaluate the candidate's capacity to apply that knowledge in solving applied or theoretical problems.

#### D-3 Doctoral Comprehensive Exam Result Form

The D-3 forms should be completed and filed with the Office of Graduate Studies within one month of exam completion.

### Dissertation Requirements

Every candidate should review the Dissertation & Thesis Guidelines (http://gradschool.missouri.edu/academics/thesis-dissertation/diss-thesis-guideline) from the Graduate School and should consult the Director of Graduate Studies for academic program style requirements.

#### Dissertation Defense Seminar

The final examination is directed toward, but not limited to, exploration of the dissertation research project.

The DGS must be informed of the dissertation defense seminar at least two weeks in advance of the seminar. It must be well advertised and open to the public.

#### D-4 Report of the Dissertation Defense Form

The D-4 form should be completed and filed with the Office of Graduate Studies as soon as possible after the defense.

### Ph.D. Committee Meeting Minimum Requirements

The Ph.D. degree in the emphasis area is designed to prepare students for academic careers in research and teaching or other advanced scientific or professional careers. The student pursuing the doctoral degree is expected to pass a qualifying, comprehensive and final examination administered by the student's doctoral committee. This committee is structured at a minimum as defined by the MU Office of Graduate Studies and must have at least one representative from outside the School of Natural Resources and must consist of at least 4 members. An independent scholarly dissertation approved by the student's adviser and program committee must be completed in a form acceptable to the doctoral committee, and MU Office of Graduate Studies.

### Admissions

#### Admission Contact Information

School of Natural Resources
Water Resources Emphasis Area
303L Anheuser-Busch Natural Resources Building
Application Deadlines

of available research assistantships prior to applying.

Applicants should contact specific faculty to determine the availability of possible graduate assistantship positions.

Admission Requirements

• Bachelor's degree in a relevant discipline from an accredited institution
• Undergraduate GPA: 3.0 on a scale of 4.0 in last 60 hours
• Graduate Record Exam score (GRE)*
• Minimum TOEFL scores: 550 (paper-based test), 80 (Internet-based test), 6.5 (IELTS Academic)
• Experience in research or management of water resources. Practical skills are strongly considered.

* Students whose GPAs do not meet the requirements will be evaluated individually. Applicants will be reviewed on a case-by-case basis.

How to Apply

All application materials must be submitted through the university online application system (https://applygrad.missouri.edu/apply/), including:

• All application materials must be submitted to the online application system
• Statement of interest
• Résumé or CV
• GRE scores
• TOEFL scores (if applicable)
• A minimum of three letters of recommendation and the accompanying evaluation sheets from people who can attest to the candidate’s scholastic and conservation field work abilities
• Unofficial Transcripts- As part of the application submission process, all applicants are required to upload unofficial copies of all post-secondary transcripts to the online application. Official transcripts are only required if accepted by the academic program.
• Publications (optional)

Applicants are required to meet two sets of minimum qualifications for admission: the requirements of the PhD in Natural Resources with emphasis in Water Resources (https://gradstudies.missouri.edu/degreecategory/natural-resources) and the minimum requirements of the Office of Graduate Studies (http://gradstudies.missouri.edu/admissions/eligibility-process/minimum-requirements). Because requirements vary, you must refer to a degree program's graduate admission page to learn about specific admission criteria, application deadlines, eligibility and application process. Your application materials will be reviewed by both the Office of Graduate Studies and the degree program to which you've applied before official admission to the University of Missouri.

Financial Aid from the Program

We have a rolling application window.

Parks, Recreation and Sport

S. A. Wilhelm Stanis, Undergraduate Curriculum Coordinator
School of Natural Resources
105 Anheuser-Busch Natural Resources Building
Phone: (573) 882-7086
Fax: (573) 882-9526
SonjaWS@missouri.edu

Parks, Recreation and Sport is among the oldest nationally accredited programs in the United States. Emphasis areas include: Recreation Administration, Natural Resource Recreation Management, Tourism Development, and Sport Management. The program integrates classroom learning with applied research and internship experiences and is a leader in technology infusion.

Admission

It is possible for students who have a broad, liberal education to transfer into the department without a significant time penalty toward graduation.
CLEP credits are accepted and evaluated on an individual basis. Minimum GPA of 2.0 required.

Faculty

Associate Professor M. Morgan**, S. A. Wilhelm-Stanis**
Assistant Professor J. Li*
Associate Teaching Professor D. R. Vaught*
Assistant Teaching Professor D. Massengale, J. R. Upah*, J. Wartella
Adjunct Professor D. Eiken*

Director of Internships J. R. Upah*

* Graduate Faculty Member - membership is required to teach graduate-level courses, chair master's thesis committees, and serve on doctoral examination and dissertation committees.

** Doctoral Faculty Member - membership is required to chair doctoral examination or dissertation committees. Graduate faculty membership is a prerequisite for Doctoral faculty membership.

Undergraduate

- BS in Parks, Recreation and Sport (p. 117)
  - with emphasis in Natural Resource Recreation Management (p. 119)
  - with emphasis in Recreation Administration (p. 119)
  - with emphasis in Sport Management (p. 120)
  - with emphasis in Tourism Development (p. 121)

Students pursuing a degree in Parks, Recreation and Sport choose between four emphasis areas. The Natural Resources Recreation Management emphasis focuses on the combination of natural and social sciences, and the management of people and natural resources in parks, forests, refuges, and reservoirs. The Recreation Administration emphasis prepares students to work within a wide variety of public and private entities to oversee management, events, operations, and finance. The Sport Management emphasis is designed to provide students with the professional preparation, managerial skills, and leadership training required for an array of careers in the sport industry. The Tourism Development emphasis focuses on planning and management associated with tourism venues, enterprises and events.

Honors

Students who graduate with the following cumulative GPA values are awarded the baccalaureate degree accordingly:

- 3.50-3.69  cum laude
- 3.70-3.89  magna cum laude
- 3.90 +    summa cum laude

Director's List

Students achieving a GPA of 3.5 or greater and having a cumulative GPA of 3.0 or greater will be placed on the Director's list as acknowledgement of high scholastic achievement.

Graduate

School of Natural Resources
105 Anheuser-Busch Natural Resources Building
(573) 882-7086

Parks, Recreation and Tourism's graduate program is housed under the MS in Natural Resources with emphasis in Parks, Recreation and Tourism (p. 105). Please visit their page for more information.

Director of Graduate Studies: Dr. Sonja Wilhelm Stanis

About Parks, Recreation & Tourism

Since virtually everyone participates in some form of leisure, the primary benefit of Parks, Recreation and Tourism (PRT) is to address quality of life issues. The unique interaction of people, places, and activities establish our profession as one of the world's largest industries. Students learn how to manage service delivery systems by combining theory with practice.

Career Preparation

The purpose of graduate study is to promote research and scholarship as the foundation of professional excellence, thus preparing candidates for management-level positions or admission to doctoral programs.

BS in Parks, Recreation and Sport

Degree Program Description

The field of parks, recreation and sport is a multi-billion dollar industry, which encompasses important environmental and social issues such as conservation, community building, human development, health and well-being, and the quality of life. The Parks, Recreation and Sport program provides students with opportunities to develop knowledge and skills for designing, managing, and evaluating various leisure services across a variety of user groups. The undergraduate degree program is comprehensive, yet tailored to meet the needs of students based on current job requirements and professional trends including leadership, communication, problem solving, accounting, and economics. All of our areas of emphasis are accredited with eligibility to sit for the Certified Park and Recreation Professional certification. A wide range of careers in Parks, Recreation and Sport include: outdoor education, park management, park ranger, resource manager, back country guide, visitor relations, recreation supervisors, facility managers, health and fitness, golf course management, park planner, cultural arts, aquatics, account executives, customer relations, game-day operations, compliance, fund raising, sales, and marketing.

Major Program Requirements

Satisfactory completion of 120 credits is required: a minimum of 108 credits in course work and a 12-credit internship with a cumulative GPA of 2.0. Professional preparation includes course work in a professional core, professional option requirements and electives, and an internship. Students must also complete university general education (p. 34), university graduation requirements (p. 33), degree and major emphasis area requirements, including selected foundational courses which may fulfill some University general education requirements. Students transferring into Parks, Recreation and Sport from other MU degree programs or from other institutions must have a 2.0 GPA (past term and cumulative) for all work attempted.

BS in Parks, Recreation and Sport with Emphasis in Natural Resource Recreation Management

Emphasis Area Description

The public’s desire for quality of life, the pursuit of happiness and for well organized leisure activities drives a $600 billion marketplace supporting parks and recreation, more than $152 billion in sport management, and a $1.3 trillion investment in tourism. Students interested in Parks Recreation and Sport are individuals who are active, involved in sports and the great outdoors, and enjoy travel. The BS in Parks, Recreation & Sport with an emphasis in Natural Resource Recreation Management focuses on the combination of natural and social sciences, and the management of people and natural resources in parks, forests, refuges, and reservoirs. Areas of study include outdoor recreation, methods of interpretation, and land management. Professionals in natural resource recreation management hold integral roles in operations, visitor management, protection and administration of our federal, state, and local outdoor recreation resources. Outdoor and natural resource recreation managers are employed by local, state, and federal agencies such as state and federal park systems. Responsibilities include managing natural and cultural resources, providing information and education, park operations, planning and design, and outdoor programming. Possible careers include ranger, education/outreach, naturalist, outdoor skills specialist, landscape maintenance, program supervisor, and grants/contract administrator.

Emphasis Area Requirements

Students must complete all university, college, and degree requirements (p. 117), including university general education (p. 34), in addition to the requirements below:

Total Credits: 120-121
Degree Program Description

The public’s desire for quality of life, the pursuit of happiness and for well organized leisure activities drives a $600 billion marketplace supporting parks and recreation, more than $152 billion in sport management, and a $1.3 trillion investment in tourism. Students interested in Parks, Recreation and Sport are individuals who are active, involved in sports, the great outdoors, and enjoy travel. The BS in Parks, Recreation & Sport with emphasis in Recreation Administration focuses on quality of life issues within our local and global communities. Areas of study include personnel management and leadership, recreation for individuals with disabilities, program development, and park management.

Recreation administrators are engaged in a variety of public and private entities including parks and recreation systems, sports complexes, golf courses, resorts, recreation centers, aquatic theme parks and pools, and campus recreation facilities. They are responsible for management and operations, including fiscal responsibility. Careers include aquatics and facility manager, recreation specialists, camp management, adventure operations, including fiscal responsibility. Possible careers include aquatics and facility manager, recreation specialists, camp management, adventure operations, including fiscal responsibility.

BS in Parks, Recreation and Sport with Emphasis in Sport Management

Degree Program Description

The public’s desire for quality of life, the pursuit of happiness and for well organized leisure activities drives a $600 billion marketplace supporting parks and recreation, more than $152 billion in sport management, and a $1.3 trillion investment in tourism. Students interested in Parks, Recreation and Sport are individuals who are active, involved in sports, the great outdoors, and enjoy travel. The BS in Parks, Recreation & Sport with an emphasis in Sport Management specializes in the business aspects of sport and recreation. Areas of study include governance and policy in sport and leisure, sport economics and finance, business of sport, and legal aspects of sport. In Sport Management, economics drive a wide variety of opportunities including professional and collegiate sport, professional management, sporting goods, media, administration and finance. Sport managers are hired by professional sport team’s organizations and associations as well as collegiate athletics, sport facilities, in addition to positions in sporting goods, media, administration, and finance. Possible careers include sport brand manager, marketing manager, athletic director, sport agent, media relations director, and ticket sales representative. This emphasis is preparatory for post-baccalaureate and graduate work in law, business, or sport.

Major Program Requirements

Students must complete all university, college and degree requirements (p. 33), including university general education (p. 34), in addition to the requirements below:

<table>

BS in Parks, Recreation and Sport with Emphasis in Tourism Development

Degree Program Description
The public’s desire for quality of life, the pursuit of happiness, and for well organized leisure activities drives a $600 billion marketplace supporting parks and recreation, more than $152 billion in sport management, and a $1.3 trillion investment in tourism. Students interested in Parks, Recreation and Sport are individuals who are active, involved in sports, the great outdoors, and enjoy travel. The BS in Parks, Recreation & Sport with emphasis in Tourism Development offers students 12-week hands-on training in the area of interest. Students gain experience through coursework and internships. Tourism development, marketing and event specialists grow in careers associated with tourism venues and enterprises; resorts; local, state and regional economic development agencies; and visitor and convention services. They are responsible for promoting their clients throughout the broadly defined tourism industry. This includes organizing promotional and profitable events for venues and communities, developing public relations materials or establishing relationships with various local interest groups.

Major Program Requirements
Students must complete all university, college and degree requirements (p. 117), including university general education (p. 34), in addition to the requirements below:

University of Missouri

121
Division of Plant Sciences
College of Agriculture, Food and Natural Resources
52 Agriculture Laboratory
(573) 882-3001
Fax: (573) 882-2699

Division Director: James English

The Division of Plant Sciences is a consolidation of the disciplines of Agronomy, Entomology, Horticulture, Plant Microbiology and Pathology. Containing both a vibrant and diversified undergraduate and graduate education program, students completing B.S., M.S. or Ph.D. programs are highly competitive for the strong job market in basic or applied careers. In addition to education, the Division of Plant Sciences also provides leadership for plant, insect and microbe-based research, education and Extension programs in the college.

The division is the sole academic program in the state to address issues related to plant production, plant protection and plant biology from the laboratory to the field. We intend to be at the national and international forefront of disciplinary and interdisciplinary research, Extension and education programs in applied and basic aspects of plant sciences.

Division faculty contribute to advances in conventional, sustainable and alternative production systems, plant biology, genetics and breeding, plant protection and pest management, plant-insect/pathogen interactions, and plant-soil relationships.

  • with emphasis in Horticultural Science and Design (p. 125)

Director for Undergraduate Programs
Bruce Barrett
3-22 Agriculture Building
(573) 882-3446
Fax: (573) 882-1469
BarrettB@missouri.edu

The Plant Sciences undergraduate major is a joint contribution of the disciplines of Agronomy, Entomology, Horticulture and Plant Microbiology and Pathology. From the manipulation of genes to increasing crop productivity to improving the quality of life by enhancing the landscape, plant science students are engaged in the science and art of working with plants. Educational opportunities in plant science range from basic (genetics, biotechnology and physiology) to applied (crop production and protection, and landscape design).

The division offers the BS degree with a major in Plant Sciences. Students in plant science initially receive a broad education in agriculture, the basic sciences and business. Later, they elect to enroll in a specific emphasis area designed to empower them to be competitive in career opportunities in that area. The emphasis areas are a series of interwoven courses in:

• Crop Management
  • Horticultural Science and Design
**Graduate**

- MS in Plant, Insect and Microbial Sciences (p. 126)
- PhD in Plant, Insect and Microbial Sciences (p. 128)

**Areas of Study**

A student can select training in one of several Graduate Program Areas. Students can follow a traditional curriculum or take advantage of the cross-disciplinary expertise that exists within the Division.

**Programmatic Interactions**

Students also benefit from interaction with closely allied academic units on and off campus. Students work with scientists in two campus-based USDA research units associated with the division: the Plant Genetics Unit and the Biological Control of Insects Research Laboratory. Additional opportunities exist for interaction with scientists at the Donald Danforth Plant Science Center in St. Louis. Numerous USDA and Danforth Center scientists hold adjunct appointments in the DPS. Students in the DPS are encouraged to interact with interdisciplinary programs on campus such as the Interdisciplinary Plant Group, the Molecular Biology Program, the Genetics Area Program, the Center for Agroforestry and the Missouri Precision Agriculture Center.

**BS in Plant Sciences**

**Degree Program Description**

From the food on our plates to the homes we live in to the fuel in our vehicles, plants impact all aspects of our daily lives. As an ever-growing human population continues to increase the demand for crops and other plant products, so too does the demand for plant scientists. Plant Sciences addresses the challenges from the field to the laboratory. Students enroll in a generalized core curriculum, then further refine their expertise by choosing among a variety of emphasis areas including: Breeding, Biology & Biotechnology; Crop Management; and Horticultural Science and Design. A few of the plant sciences careers include crop management specialists, horticulturists, plant geneticists, biotechnologists, plant protection specialists, and turfgrass scientists.

**Major Program Requirements**

Students earning a Bachelor of Science in Plant Sciences are required to complete all University general education (p. 34), University undergraduate requirements (p. 33), degree, and major requirements, including selected foundational courses, which may fulfill some University general education requirements. Students earning a degree in Plant Sciences must also select one emphasis area.

**Programmatic Interactions**

Students can select training in one of several Graduate Program Areas. Students can follow a traditional curriculum or take advantage of the cross-disciplinary expertise that exists within the Division.

**Areas of Study**

A student can select training from a wide range of courses and research programs to prepare for a career in research, teaching, industry and extension work. Students may complete their graduate degrees through any of the Graduate Program Areas:

- Crop, Soil and Pest Management
- Entomology
- Horticulture
- Plant Breeding, Genetics and Genomics
- Plant Stress Biology

**Semester Plan**

Below is a sample plan of study, semester by semester. A student's actual plan may vary based on course choices where options are available.
BS in Plant Sciences with Emphasis in Breeding, Biology and Biotechnology

Degree Program Description

From the food on our plates to the homes we live in to the fuel in our vehicles, plants impact all aspects of our daily lives. As an ever-growing human population continues to increase the demand for crops and other plant products, so too does the demand for plant scientists. Plant Sciences addresses the challenges from the field to the laboratory. Students enroll in a generalized core curriculum, then further refine their expertise in the Breeding, Biology & Biotechnology emphasis area. Plants are an integral component of the food, fiber, and medicinal components necessary to meet current and future population demands. Manipulation of plants at the cellular level can improve yields, pest resistance, and enhance nutritional value. Students in this emphasis area will gain classroom and real world experience (research opportunities in labs; internships with industry partners) to prepare for challenging careers or advanced education. From commercial plant breeders to lab managers, trained students are in high demand for rewarding opportunities.

Major Program Requirements

Emphasis Area Requirements

Manipulation of plants at the cellular and genetic level can lead to improvements in crop performance and resistance to pests, as well as increase plant users. Job opportunities from the laboratory to the field are widespread in seed and chemical industries around the world.

Breeding, Biology and Biotechnology Emphasis Area Requirements

BS in Plant Sciences with Emphasis in Crop Management

Degree Program Description
From the food on our plates to the homes we live in to the fuel in our vehicles, plants impact all aspects of our daily lives. As an ever-growing human population continues to increase the demand for crops and other plant products, so too does the demand for plant scientists. Plant Sciences addresses the challenges from the field to the laboratory. Students enroll in a generalized core curriculum, then further refine their expertise in the Crop Management emphasis area. Whether from a farm or urban background, developing technology in the husbandry and protection of agronomic or horticultural crops has created this productive career track. Students utilize a combination of classroom and outdoor experiences to prepare for one of many opportunities: crop consultant; agronomist; crop sales representative; pest management specialist; farmer or entrepreneur; and advanced education. Many positions are applied; the participation in crop growth and protection careers will be in demand well into the future. Crop management specialists find employment with universities, the USDA Agricultural Research Service or private companies. They answer agronomic questions specific to their region, study major field and forage crops, and examine the feasibility of growing alternative crops for niche markets.

Major Program Requirements

Emphasis Requirements
The management of food and fiber crops is key to meeting the global demands for food and energy. There are many opportunities to improve plant growth by manipulating production practices and improving control of disease, insect, and weed pests.

BS in Plant Sciences with Emphasis in Horticultural Science and Design

Degree Program Description
From the food on our plates to the homes we live in to the fuel in our vehicles, plants impact all aspects of our daily lives. As an ever-growing human population continues to increase the demand for crops and other plant products, so too does the demand for plant scientists. Plant Sciences addresses the challenges from the field to the laboratory. Students enroll in a generalized core curriculum, then further refine...
their expertise in the Horticultural Science and Design emphasis area. The beauty of attractive indoor plant displays or ornamental species in landscapes adds value and satisfaction. Appreciating the plants around us and designing new ways to present them can lead to careers in nursery management, landscape designer, zoo groundskeeper, or botanic gardener. Students in this area learn the basics in the classroom and advance their skills working locally (greenhouses, landscape firms) or abroad (Epcot Center, MO Botanical Gardens). Horticulturists use their knowledge of plant growth to sustainably produce flowers, vegetables and ornamental plants to enhance the environment. Careers include botanical gardens, commercial greenhouses and nurseries, landscape design firms, or life science companies.

**Major Program Requirements**

**Emphasis Area Requirements**

Trees, flowers and other ornamental plants add beauty to our landscape, preserve green space, and reduce the negative impacts of climate change. Other plants such as vegetables and fruits enhance human health. Career opportunities exist to design landscapes, improve the value and beauty of homes and businesses, as well as commercially grow horticultural crops in greenhouses and other settings.

**Horticultural Science & Design Emphasis Area Requirements**

**Total Credits: 120-121**

**Minor in Plant Sciences**

A minor in Plant Sciences shall consist of a minimum of 15 hours of formal coursework in Plant Sciences (PS) designated courses. Of the 15 hours selected, a minimum of 12 hours must be numbered 2000 or above, of which at least 9 hours must be numbered 3000 or above.

**Note:** Problems courses, Readings courses, Internship courses and Undergraduate Research courses are not acceptable courses for the Plant Sciences minor, unless approved by the Director for Undergraduate Programs.

**MS in Plant, Insect and Microbial Sciences**

**Degree Requirements**

To satisfy the course requirements for a master’s degree, a student must complete:

- A minimum of 30 credit hours from courses numbered 7000 - 9000
- 15 credit hours (towards the 30 credit hour requirement) must be from courses numbered at the 8000 or 9000 level
• 12 credit hours (towards the 30 credit hour requirement) can be satisfied by research, readings and problems courses
• For the Horticulture Program Area, at least 6 credits must be from formal courses, excluding Problems and other independent study courses and only 6 credit hours of research (PLNT_S 8090) can count towards the 30 credit hour requirement, even though additional hours of research can be taken.

The division-wide course requirements for the master’s degree are:

</tbody>
</table>

Teaching Requirement

With the exception of the Entomology Program Area, all students must participate in an approved teaching opportunity or an approved extension program.

Satisfactory Rate of Progress

A student shall maintain a minimum grade point average of 3.0. All divisional course requirements (and any additional requirements set by the student's examination committee) shall be completed in a timely manner. All advisors will meet annually with each of their graduate advisees. They will discuss the student's performance, any problems that exist and any suggestions for improvement. The advisor will provide the student and the director of graduate studies with a written summary of the meeting as part of the annual program assessment process.

Sample Plan of Study

There are several areas of study within the MS in Plant, Insect and Microbial Sciences degree. A student can select training from a wide range of courses and research programs to prepare for a career in research, teaching, industry and extension work. Note: Areas of Study will not appear on transcripts or diplomas. Each program area emphasizes a customized approach towards the course of study. Each student will work with their advisor and graduate committee to develop a course of study best suited to the student's educational and career goals.

Thesis Requirements

A thesis is required for the M.S. degree in Plant, Insect and Microbial Sciences. The thesis must demonstrate the student's capacity for research and independent thought. Organization of the thesis is subject to approval of the Master’s Committee.

The Thesis Defense will consist of a research seminar and final examination, the latter to demonstrate the student's mastery of the academic focus of the chosen Graduate Program Area. It is the student's responsibility to check the Graduate Studies Office's graduation deadlines when scheduling the exam. The candidate must be enrolled to defend the thesis. The examination cannot be administered when MU is not officially in session.

The seminar will be presented by the student for division faculty, staff, students, committee members, and other interested persons. It must summarize the thesis research conducted by the student during the Master's program. The seminar will be followed by the final, oral examination administered by the Master's Committee. Although the general protocol followed during the oral examination shall be at the discretion of the Major Advisor, a typical oral examination lasts about 2 hours and is divided between defense of the thesis and non-thesis subject matter. The research seminar should be scheduled the same day (preferably) or during the week preceding the remainder of the final examination.

Admissions

Admission Contact Information
Ms. Christa Smith
52 Agriculture Lab; Columbia, MO 65211
(573) 882-3001

Financial Aid from the Program

Financial assistance is available to qualified students at both the MS and PhD levels, as either fellowships or research assistantships. Some programs require an extra form or statement from those who wish to be considered for internal assistantships, fellowships or other funding packages. Check the program website (http://plantsci.missouri.edu/graduate) or ask the program contact for details.

PhD in Plant, Insect and Microbial Sciences

Degree Requirements

To satisfy the course requirements for a doctoral degree, a student must complete:

- A minimum of 72 credit hours from courses numbered 7000-9000 (this includes dissertation research credit hours - i.e. PLNT_S 9090).
- 15 credit hours (towards the 72 hour requirement) must be from courses numbered at the 8000 or 9000 level, exclusive of dissertation research, problems or independent study.
- For the Horticulture Program Area, all Doctoral students will have successfully completed the requirements for a master's degree before beginning a doctoral program and no more than 30 hours of dissertation research may be counted towards the 72 hr minimum.
- Two semesters of PLNT_S 9087.
- Three semesters of PLNT_S 7087.

Teaching Requirement

With the exception of the Entomology Program Area, all students must participate in an approved teaching opportunity or an approved extension program.

Reasonable Rate of Progress

A reasonable rate of progress toward the degree is required. A Ph.D. student must successfully complete the comprehensive exam within 5 years of their first semester of enrollment as a Ph.D. student. In addition, the remaining program for the doctoral degree must be completed within 5 more years after passing the Comprehensive Exam.

Sample Plan of Study

There are several areas of study within the PhD in Plant, Insect and Microbial Sciences degree. A student can select training from a wide range of courses and research programs to prepare for a career in research, teaching, industry and extension work. Note: Areas of Study will not appear on transcripts or diplomas. Each program area
emphasizes a customized approach towards the course of study. Each student will work with their advisor and graduate committee to develop a course of study best suited to the student's educational and career goals.

**Crop, Soil and Pest Management**

**Core Requirements:**
- PLNT_S 8010 Professionalism and Ethics 2
- PLNT_S 9087 Seminar in Plant Science (must enroll twice) 2
- PLNT_S 7087 Seminar (must enroll three times) 3
- PLNT_S 9090 Dissertation Research 1-10 per semester

**Entomology**

**Core Requirements:**
- PLNT_S 7710 Systematic Entomology 5
- PLNT_S 7820 Principles of Insect Physiology 4
- PLNT_S 8010 Professionalism and Ethics 2
- PLNT_S 9087 Seminar in Plant Science (must enroll twice. Only 1 credit will count towards the 15 credit hour at 8000/9000-level requirement.) 2
- PLNT_S 7087 Seminar (must enroll three times) 3
- PLNT_S 9090 Dissertation Research 1-10 per semester
- PLNT_S 9810 Insect Ecology 3

Two elective formal Entomology courses

**Horticulture**

**Core Requirements:**
- PLNT_S 8010 Professionalism and Ethics 2
- PLNT_S 9087 Seminar in Plant Science (must enroll twice. Only 1 credit will count towards the 15 credit hour at 8000/9000-level requirement.) 2
- PLNT_S 7087 Seminar (must enroll three times) 3
- PLNT_S 9090 Dissertation Research 1-10 per semester

**Plant Breeding, Genetics, and Genomics**

**Core Requirements:**
- PLNT_S 8010 Professionalism and Ethics 2
- PLNT_S 9087 Seminar in Plant Science (must enroll twice. Only 1 credit will count towards the 15 credit hour at 8000/9000-level requirement.) 2

PLNT_S 9810 Insect Ecology 3

**Additional Entry Level Courses:**

PLNT_S 7550 Plant Biotechnology 4
PLNT_S 7400 Plant Anatomy 4
STAT 7070 Statistical Methods for Research 3
Comprehensive Examination Process

The Comprehensive Examination is a major milestone in the Ph.D. candidate's progress towards completion of the degree requirements. The candidate is expected to clearly demonstrate his/her knowledge and understanding of the principles and concepts of the chosen Graduate Program Area, related biological sciences, and the scientific method. The Comprehensive Exam should be scheduled when the student has essentially completed the required plan of study. The Comprehensive Exam must be completed at least seven months before the final examination (defense). The Comprehensive Exam Committee is the same as the Doctoral Committee.

The Comprehensive Exam requires both written and oral performance by the student to achieve candidacy. The student's advisor will select either Track I or Track II for the format of the exam. The student arranges the written and oral portion of the Comprehensive Exam with each member of the Committee.

Dissertation Defense

A dissertation is required of every Ph.D. Candidate in the Division of Plant Sciences. This is to be a substantial scholarly manuscript of original research conducted by the student. The dissertation should reflect the depth of understanding, independent thought, and original work worthy of a Ph.D.

The Dissertation Defense consists of a research seminar and final examination. It is the student's responsibility to check the Graduate School's graduation deadlines when scheduling the exam. The seminar will be presented by the student for division faculty, staff, students, committee members, and other interested persons. The student may choose to present the seminar as part of the Division Seminar Series. It must summarize the dissertation research conducted by the student during the Doctoral program. The seminar will be followed by the final, oral examination administered by the Doctoral Committee. Although the general protocol followed during the oral examination shall be at the discretion of the Major Advisor, a typical oral examination lasts about 2 hours and is divided between discussion of the dissertation and related, dissertation subject matter. The research seminar should be scheduled the same day (preferably) or during the week preceding the remainder of the final examination.

Admissions

Applicants are required to meet two sets of minimum qualifications for admission: the requirements of the PhD in Plant, Insect, and Microbial Sciences (https://gradstudies.missouri.edu/degreecategory/plant-insect-microbial-sciences) and the minimum requirements of the Office of Graduate Studies (https://gradstudies.missouri.edu/admissions/eligibility-process). Because requirements vary, you must refer to a degree program's graduate admission page to learn about specific admission criteria, application deadlines, eligibility and application process. Your application materials will be reviewed by both the Office of Graduate Studies and the degree program to which you’ve applied before official admission to the University of Missouri.

Financial Aid from the Program

Financial assistance is available to qualified students at both the MS and PhD levels, as either fellowships or research assistantships. Some programs require an extra form or statement from those who wish to be considered for internal assistantships, fellowships or other funding packages. Check the program website (http://plantsci.missouri.edu/graduate) or ask the program contact for details.

Rural Sociology

College of Agriculture, Food and Natural Resources
David O'Brien, Chair
109 Gentry Hall
(573) 882-0392

dass.missouri.edu/ruralsoc/

Carol Swaim, Administrative Assistant
121 Gentry Hall
(573) 882-7451
swaimc@missouri.edu

The Department of Rural Sociology participates in the Bachelor of Science in Agriculture degree offered by the College of Agriculture, Food and Natural Resources and offers a minor in rural sociology. For information about the agriculture degree, see the Agriculture degree page. The Department of Rural Sociology also offers graduate degrees.

Faculty

Associate Professor J. L. Gilles**
Assistant Professor M. Hendrickson**, H. Qin**
Teaching Assistant Professor (NTT) C. Brock*
Extension Assistant Professor J. Adams*
Associate Extension Professor S. Jeanetta**, M. S. Leuci*
Research Assistant Professor C. Fulcher*
Associate Professor Emeritus K. E. Pigg*
Professor Emeritus R. R. Campbell*, M. Grigsby**, M. F. Nolan*

* Graduate Faculty Member - membership is required to teach graduate-level courses, chair master's thesis committees, and serve on doctoral examination and dissertation committees.
** Doctoral Faculty Member - membership is required to chair doctoral examination or dissertation committees. Graduate faculty membership is a prerequisite for Doctoral faculty membership.

Undergraduate

• Minor in Rural Sociology (p. 131)
  Advisor: Caroline Brock
  brockcc@missouri.edu

Graduate

• MS in Rural Sociology (p. 131)
• PhD in Rural Sociology (p. 132)

121 Gentry Hall
(573) 882-7451
http://dass.missouri.edu/ruralsoc/

Director of Graduate Studies: Jere Gilles
The Department of Rural Sociology offers the MS and PhD degrees. The program consists of broad training in sociological theory and methodology with attention to application and policy issues.

Students entering with a bachelor's degree normally are admitted into the master’s program even if they are going on to a PhD, exceptional students may be admitted to the Masters/PhD program. Up to 12 hours of makeup work may be required for students who have less than adequate undergraduate preparation in the social sciences.

Specializations
Areas of specialization in the department are: sustainable development, community facilitation, and analytical processes

Financial Aid from the Program
Request for financial support is made by the student at the time of application. Most of the financial support is for research assistantships. Some programs require an extra form or statement from those who wish to be considered for internal assistantships, fellowships or other funding packages. Check the program website or ask the program contact for details.

Minor in Rural Sociology
The rural sociology undergraduate minor requires 15 credits in rural sociology courses. Nine credits must be above the 2000 level. The specific combination of courses must be approved by a department advisor.

MS in Rural Sociology

Degree Requirements

Professional Master’s Degree
The principal master’s degree in rural sociology is the 39-credit-hour professional master's degree. The program is designed to prepare students for positions in the public and private sectors, and it is particularly useful for positions that include applied research, policy analysis or community development. Students who wish to complete a master's degree in rural sociology followed by a doctoral degree in the program also are encouraged to pursue the degree.

The professional master's degree has two options:
1. The community facilitation option for individuals interested in working for government, extension and non-governmental agencies in the field of community development
2. The analytical processes option for students wishing to do policy analysis for government agencies.

Students must have a grade point average of 3.0 or greater and must have completed at least 15 hours of coursework at or above the 8000 level. Both programs require an internship

Traditional Master's Degree
A 30-credit-hour traditional master's degree, requiring a thesis, is also offered. The degree primarily is intended for those who intend to pursue doctoral studies or who have a special reason for wanting a thesis degree. Although it requires fewer credit hours, a thesis degree normally requires one semester longer to complete than the professional master's degree.

| PUB_AF 8150 | Collaborative Governance |
| PUB_AF 8190 | Economic Analysis for Public Affairs |
| PUB_AF 8195 | Economic Analysis for Public Policy - Mid Career |
| AG_ED_LD 8430 | Evaluation of Educational Programs |
| SOCIOL/RU_SOC 7120 | Social Statistics |
| RU_SOC/AG_ED_LD 8540 | Methods of Qualitative Research |

Analytical Process Option (additional requirements)

Additional Requirements:
| RU_SOC 8130 | Advanced Social Statistics |
| RU_SOC 9480 | Community Survey Research |
| PUB_AF 8320 | Spatial Analysis for Public Affairs |
| AG_ED_LD 8540 | Methods of Qualitative Research |

Must take two of the following:
| PUB_AF 8150 | Collaborative Governance |
| PUB_AF 8340 | Regional and Economic Development Policy |
| AAE 8060 | Mathematical Modeling for Social Scientist |
| ESC_PS 9650 | Application of Multivariate Analysis in Educational Research |

Traditional Master’s Degree

Required Courses
Students should select from the following options:

1. An existing Graduate Certificate Program
2. An existing Graduate Minor in a substantive Area
3. Development of an individualized “Area of Concentration”.

**Sample Plan of Study**

**Additional credit hours**

18

**Thesis/Non-Thesis Requirements**

**Non-Thesis Requirements**

The Professional Master of Science degree does not require a thesis. Instead students are required to complete an internship.

**Thesis Requirements**

Students pursuing the Traditional Master of Science degree must complete a thesis. The thesis takes approximately 1-3 semesters to complete.

**Admissions**

Admission Contact: Carol Swaim
Department of Rural Sociology
121 Gentry Hall; Columbia, MO 65211
573-882-7451

Applicants are required to meet two sets of minimum qualifications for admission: the requirements of the MS in Rural Sociology program (https://gradstudies.missouri.edu/degreecategory/rural-sociology) and the minimum requirements of the Office of Graduate Studies (https://gradstudies.missouri.edu/admissions/eligibility-process). Because requirements vary, you must refer to a degree program’s graduate admission page to learn about specific admission criteria, application deadlines, eligibility and application process. Your application materials will be reviewed by both the Office of Graduate Studies and the degree program to which you’ve applied before official admission to the University of Missouri.

**PhD in Rural Sociology**

**Degree Requirements**

The PhD is a 72 credit hour minimum with no more than 6 hours of readings or problems courses, and a maximum of 12 dissertation research hours toward the 72 hour requirement. Coursework taken toward a master’s degree in the social sciences may count toward these requirements. A student must complete thirty hours of coursework beyond the master’s degree.

**Areas of Professional Expertise**

In addition to the required core, every PhD student will be required to complete an “area of concentration” comprised of a minimum of 12 credits (in the case of a minor or certificate requiring less than 12 hours, a student must complete an additional 3 hours of coursework related to this area of concentration.

Students should select from the following options:

1. An existing Graduate Certificate Program
2. An existing Graduate Minor in a substantive Area
3. Development of an individualized “Area of Concentration”.

**Qualifying Process**

To qualify for continuation in the Ph.D. program students must complete two full enrollment semesters at the start of their program in which they take core sequence courses and make a B or above in all courses taken. (The qualifying requirement must be met. In some cases waivers may be given within one year of enrollment in the Ph.D. program.)

**Comprehensive Examination Process**

To be an official candidate for a doctoral degree the student must have passed a comprehensive examination for admission to doctoral study. This is the major examination in the doctoral training program, and must be passed BEFORE FORMAL WORK ON THE DISSERTATION IS BEGUN. It is administered by the Doctoral Program Committee.

Successful completion of a comprehensive examination must occur within five years of beginning the doctoral program. A student is ready to take the comprehensive examination when he/she has:

- Completed all of the courses listed in his/her Plan of Study with satisfactory grades.
- If they entered the program with a Masters degree that did not require a thesis, they must have written and submitted a paper for review in a scholarly journal. A copy of the paper as well as information as to where it was submitted must be in a student’s file.
- Submitted and received approval from their advisory committee for their dissertation research proposal.
- Submitted an approved copy of the dissertation proposal to be kept in the student’s departmental file until the dissertation is actually completed.

The comprehensive examination consists of both a written and an oral examination.

- These are designed and administered by the advisory committee of the Ph.D. student.
- The comprehensive examination is designed to evaluate a student’s preparedness to proceed with the dissertation.
Students are normally given two opportunities to pass this examination.

A copy of the completed comprehensive examination will be filed with the director of graduate studies and kept in the departmental student record.

**Written Comprehensive:** The written portion of the examination will evaluate competency in theory and methods in the student's specialty area, as well as their readiness to conduct their dissertation research. After the advisory committee indicates that a student has passed the written portion of the comprehensive examination, the oral examination will be given.

**Oral Comprehensive:** The oral portion of the examination will address issues raised on the written examination and in the student's dissertation plans. This exam is open to faculty and students; the location and time must be publicly announced a minimum of two weeks before the examination takes place. The public part of the examination will be limited to the presentation of the student's research proposal followed by questions about the proposal. Following the public oral examination the student's advisory committee will complete the examination in private.

**Dissertation Requirements**

Successful completion of a dissertation or a research monograph, according to the regulations of the Office of Graduate Studies is required.

- The dissertation must be completed within five years of the completion of the comprehensive examination.
- All members of the committee are expected to take an active part in the preparation of the dissertation.
- The student's committee is to conduct an oral final examination ("defense") of the dissertation/monograph.
- This examination cannot be scheduled until the advisory committee members have received a completed draft copy of the dissertation.
- This examination is to be open to faculty and students and must be publicly announced at least two weeks before the exam. Candidates should provide the Rural Sociology Department Office with an announcement including (a) the title of the dissertation, (b) the date and location of the orals, and (c) the advisor's name.
- Faculty and students may attend orals and question candidates, but cannot be present when the vote on the result of the examination is taken.
- At least four committee members must vote to pass a dissertation in order for the degree to be completed.
- The candidate must be enrolled to defend their dissertation.
- The defense must be scheduled when MU is officially in session.
- The Report of the Dissertation Defense form (D-4) and the Approval Page, which must be signed by all members of the approved committee, should be sent to the Office of Graduate Studies after the defense has been completed and must include an electronic copy as specified by the Office of Graduate Studies.

**Admissions**

Admission Contact: Carol Swaim
121 Gentry Hall; Columbia, MO 65211
(573) 882-7451

Applicants are required to meet two sets of minimum qualifications for admission: the requirements of the PhD in Rural Sociology program (https://gradstudies.missouri.edu/degreecategory/rural-sociology) and the minimum requirements of the Graduate School (http://gradschool.missouri.edu/admissions/eligibility-process/minimum-requirements.php). Because requirements vary, you must refer to a degree program's graduate admission page to learn about specific admission criteria, application deadlines, eligibility and application process. Before official admission to the University of Missouri, your application materials will be reviewed by both the Graduate School and the degree program to which you've applied.

**Additional Minors and Certificates - CAFNR**

**Undergraduate Certificates**

- Certificate in Precision Agriculture Technology (http://catalog.missouri.edu/undergraduategraduate/collegeofagriculturefoodandnaturalresources/additionalminorscertificates/ug-certif-precision-ag-tech)

**Undergraduate Minors**

- Minor in Agricultural Economics (p. 133)
- Minor in Agricultural Leadership (p. 133)
- Minor in Captive Wild Animal Management (p. 134)
- Minor in Forestry (p. 134)
- Minor in International Agriculture, Food & Natural Resources (p. 134)
- Minor in Science and Agricultural Communications (p. 135)
- Minor in Sustainable Agriculture (p. 135)

**Graduate Certificates**

- Certificate in Agroforestry (p. 136)
- Certificate in Food Safety and Defense (p. 136)
- Certificate in Precision Agriculture Technology (p. 137)

**Minor in Agricultural Economics**

A minor in agricultural economics requires 18 credits in agricultural economics with at least 9 credits at the 3000 level or above. A student earning an agribusiness management major is not eligible for an agricultural economics minor.

**Minor in Agricultural Leadership**

The minor in Agricultural Leadership is for students interested in enhancing their public speaking, analytical reasoning, critical thinking, effective writing and teamwork skills. A student must complete 15 credits of coursework related to leadership and personal development from the list of approved courses. The coordinator of the minor must approve courses not on the list. With appropriate approval, an internship with a focus upon providing the student practical experiences in leadership and supervisory roles can be counted toward the 15 credit requirement.

Students interested in this minor should complete the online form located on the CAFNR website (https://cafnr.missouri.edu/current-students/forms-requirements).

**Minor in Agricultural Economics**

A minor in agricultural economics requires 18 credits in agricultural economics with at least 9 credits at the 3000 level or above. A student earning an agribusiness management major is not eligible for an agricultural economics minor.

**Minor in Agricultural Leadership**

The minor in Agricultural Leadership is for students interested in enhancing their public speaking, analytical reasoning, critical thinking, effective writing and teamwork skills. ## Minor in Captive Wild Animal Management

Students majoring in Animal Sciences can obtain a minor in captive wild animal management by taking courses in Animal Sciences, Natural Resources, and Fisheries and Wildlife that focus on captive wild animals.

Students interested in this minor should complete the online form located on the CAFNR website (https://cafnr.missouri.edu/current-students/forms-requirements).

## Minor in International Agriculture, Food & Natural Resources

The world is becoming increasingly complex and integrated in nearly every category of human endeavor. An understanding of how global markets, natural resources, food production, and international trade and cooperation are affected by societies, languages, cultures, and governments is an essential component of a well-rounded 21st century education in AFNR. To facilitate these studies, the multidisciplinary International AFNR Minor offers academic recognition for achieving a level of expertise in coursework of international focus.

### Coursework

- Fifteen credit hours, selected from the course list below, are required for the minor.
- At least 9 of the 15 hours must be approved CAFNR courses at the 3000 or 4000 level.
- There is flexibility in choice of the remaining 6 credit hours.
  - These can be (1) approved CAFNR elective courses, including study abroad, and (2) other MU courses of international focus, including foreign language, as approved by the International Education Committee.
  - Questions should be directed to the Office of Academic Programs (cafnradvising@missouri.edu).
- Students interested in this minor should complete the online form located on the CAFNR website (https://cafnr.missouri.edu/current-students/forms-requirements).

### Advanced Physiology, Nutrition & Disease Courses (Choose two)

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>AN_SCI 4312</td>

Minor in Science and Agricultural Communications

The Minor in Science and Agricultural Communications will equip students with the knowledge and skills necessary to advocate, publicize, and promote agricultural and natural resources organizations, as well as communicate scientific findings to lay audiences. The interdisciplinary curriculum features foundational courses in verbal communication and writing for the media, while providing students the ability to specialize based on their career interests. This minor will benefit students seeking agricultural and science communication careers, as well as provide a complement of communication and interpersonal skills for future bench scientists.

Students interested in this minor should complete the online CAFNR minor form located at cafnr.missouri.edu.

Requirements

Students must complete a total of 16 credit hours to receive the minor.

- Seven hours of required coursework
- Nine additional hours of approved coursework
- At least six credit hours must be at the 3000 level or above
- The coordinator must approve courses not listed.

Minor in Sustainable Agriculture

The minor in sustainable agriculture is for students interested in exploring agriculture and food systems that promote profit-ability, steward natural resources, and provide enhanced quality of life for farmers, citizens and communities. A student must complete 15 credits of coursework that introduces concepts of sustainable agriculture, provides practical information on natural resources and food production, and investigates the impact of different philosophical and scientific frameworks on food and agriculture.

Students interested in this minor should complete the online form located on the CAFNR website (https://cafnr.missouri.edu/current-students/forms-requirements).

Required coursework includes:

Total Credits 15
Graduate Certificate in Agroforestry

Agroforestry is intensive land-use management combining trees and/or shrubs with crops and/or livestock. It also is new market opportunities. Sustainable agriculture. Land stewardship. Habitat for wildlife. Improved water quality. Diversified farm income.

This 12-hour online graduate certificate, from the Center for Agroforestry at the University of Missouri, provides students with agroforestry fundamentals as well as theoretical foundations in both the biophysical and socioeconomic components of agroforestry.

Designed for individuals with years of experience in agroforestry but lacking a formal credential, it is a perfect fit for those interested in or involved with the Peace Corps, or possessing a bachelor's degree in a related area but no formal training in agroforestry.

Holders of this certificate generally work as professional and consulting foresters, certified crop or horticulture advisors, extension agents, international development experts, soil and plant scientists, forestry and conservation science teachers and educators, and as forestry or soil and water conservation agents.

This online graduate certificate program is unique and fills a void worldwide. To the best of our knowledge, there are no similar programs in agroforestry elsewhere in the United States or abroad.

Graduate Certificate in Food Safety and Defense

By providing a distance education Food Safety and Defense Graduate Certificate program, we will serve the needs of industry and agencies that must protect the human food supply from accidental or deliberate contamination with pathogenic microbes and/or toxicants. In an era of terrorism and global food systems, effective control of foodborne hazards requires advanced education. There is a need for online education for food industry personnel who, while working full time, would like to pursue more in-depth specialized training in food safety and defense that is pertinent to their job.

Kansas State University, Iowa State University, University of Nebraska-Lincoln and the University of Missouri, Columbia have developed pertinent food safety and defense distance education courses and have established a multi-state agricultural consortium to develop and deliver high-priority collaborative distance education programs in the food and agricultural sciences.

Food Safety and Defense Graduate Certificate Learning Outcomes

1. Synthesize a current and multi-faceted picture of key food safety and security issues.
2. Apply in real-world situations the scientific principles of microbial and chemical risk assessment and analysis related to food safety and defense issues.
3. Analyze and apply the concepts of HACCP (Hazard Analysis and Critical Control Point) programs, as well as other safety and defense approaches, in the management of food safety and defense in food systems.
4. Evaluate food safety and defense issues in the food industry using the perspectives of sound science, critical thinking and ethical reasoning.

Food Safety and Defense Certificate Requirements

The online certificate includes a minimum of 12 credits, 8-9 credits in core courses and at least 3 elective credits, on topics including food microbiology, foodborne toxictants, HACCP, food safety and security overview, food laws, risk assessment, food biotechnology, rapid food microbiological methods, and food fermentations with each participating university offering at least one course on a regular basis, and each university cross-listing all courses.

Students must meet admissions requirements as outlined for this program: http://online.missouri.edu/degreeprograms/cafnr/food-safety-defense/grad-cert/admissions.aspx#howtoapply or equivalent degree at their respective universities. A tuition disbursement framework as in operation for the Great Plains Interactive Distance Education Alliance (IDEA) consortium will be used. Certificate enrollments of 20-25 students per year are anticipated, with time to completion of 2-3 years (1-2 courses per semester). See the Great Plains IDEA (http://www.gpidea.org) for further information.
Admission standards and prerequisites for the certificate program.

Successful applicants must be a graduate of an accredited institution and normally must rank in the upper quartile (3.0 grade point average) of their class to gain admission. Undergraduate preparation should include emphasis in chemistry and biology or food science.

Course Requirements

Courses required for the Food Safety and Defense Graduate Certificate belong to Kansas State University, Iowa State University, University of Nebraska and the University of Missouri. For more information refer to the Food Safety and Defense Graduate Certificate website: http://foodscience.missouri.edu/graduate/foodsafetycert.php

For additional information contact:
• Azlin Mustapha, Ph.D., Professor and Director of Graduate & Certificate Programs
• E-mail: MustaphaA@missouri.edu
• Telephone: 573-882-2649
• Address: 246 William Stringer Wing, University of Missouri, Columbia, MO 65211

Graduate Certificate in Precision Agriculture Technology

The Graduate Certificate in Precision Agriculture Technology will provide students with the knowledge and skills to address a growing industry need in the technology of production agriculture. For students to be awarded a Graduate Certificate in Precision Agriculture Technology they will need to complete 12 credit hours.

Required Courses

Website: http://asm.missouri.edu/
The College of Arts and Science, established in 1841, is the oldest and largest academic division in the university. The majority of MU undergraduates are enrolled in the college, which provides undergraduate and graduate programs in humanities, fine and performing arts, and social, behavioral and natural sciences. It also offers a solid foundation in basic studies for students in professional and specialized programs in other colleges. In addition to offering degrees in a wide range of academic disciplines, the College also allows creative and useful combinations of disciplines in both the Interdisciplinary Studies and General Studies baccalaureate degrees.

A liberal education is the foundation of study in many disciplines. It enables students to serve roles in society or to continue their education with advanced academic study. To these ends, the college encourages excellence in teaching and scholarship among its faculty and provides both traditional and innovative undergraduate curricula. Degree programs allow flexibility in individual courses of study.

Many students who enroll in the college during their first two years at the University have not yet decided upon a major field of study. The structure of the college is such that students generally need not commit themselves to a major until the beginning of the junior year. This allows students time to explore possibilities and to consider their likes and dislikes and their personal and professional objectives. Students are encouraged to work closely with academic advisors while deciding on a program of study.

Students planning to enter the schools of Journalism, Law, Medicine or Veterinary Medicine often spend their first two or four years in the College of Arts and Science in preparation for professional training. Most students, realizing the increased necessity for a broad background in the liberal arts for all professions, earn an undergraduate degree in the college before enrolling in the schools of Law or Medicine. Preprofessional study for veterinary medicine may be completed either in the College of Agriculture, Food and Natural Resources or in the College of Arts and Science.

Undergraduate

- College of Arts and Science Requirements (p. 138)
- Credit Restrictions (p. 138)
- Departmental Examinations (p. 139)
- Maximum Credits Enrolled (p. 139)
- Enrolling at Other Institutions (p. 139)
- Graduation with Latin Honors (p. 139)
- Probation and Dismissal (p. 139)
- Degree Requirements (p. 140)
- Major Program Requirements (p. 142)
- Requirements for Optional Minor (p. 142)
- Requirements for Optional Certificate (p. 142)
- Internships (p. 142)
- Dual Degrees (p. 142)
- Second Degrees (p. 142)
- Double Majors (p. 142)
- Graduate Dual Enrollment (p. 142)
- Advising (p. 142)
- Career Placement (p. 143)
- Air Force Reserve Officer Training Corps (AFROTC) (p. 143)
- Army Reserve Officer Training Corps (AROTC) (p. 143)
Maximum Credit Policies

- With the exception of MATH 1100, MATH 1120 (or equivalent), ENGL 1000 (or equivalent), and the elementary sequence in a foreign language, the maximum number of credits from a single department that may apply toward graduation is 40 for the BA and the BGS, 70 for the BFA, and 90 for the BM.
- A maximum of 5 credits for BIO_SC 2060 (or BIO_SC 3100) and BIO_SC 3650 may apply toward graduation.
- A maximum of 5 credits for MATH 1100, MATH 1120, MATH 1140, MATH 1160, and MATH 1180 may apply toward graduation.
- A maximum of 5 credits for MATH 1320, MATH 1400 and MATH 1500 may apply toward graduation.
- A maximum of 10 credits for introductory chemistry, which includes CHEM 1310 (or CHEM 1100), CHEM 1320, CHEM 1330 and CHEM 1500H, may apply toward graduation.
- A maximum of 1 credit for ABM 3285 may apply toward graduation.
- A maximum of 3 credits for any combination of the following may apply toward graduation: LTC_V 1210; LTC_V 4550; CMP_SC 1020.
- For non-music majors, a maximum of 6 credits for music ensemble courses, which include MUS_ENS 1841, MUS_ENS 1842, MUS_ENS 1846, MUS_ENS 1865 and MUS_ENS 2843, may apply toward graduation.
- For non-music majors, a maximum of 12 credits for applied music courses, which include MUS_APMS 1435, MUSIC_NM 1445, MUSIC_NM 2445, MUSIC_NM 2445, MUS_APMS 3455, MUS_APMS 3970, MUSIC_NM 4445 and MUSIC_NM 4445, may apply toward graduation.
- For non-music majors, a maximum of 12 credits for studio art courses may apply toward graduation. For interdisciplinary studies majors, the maximum is 18 credits, and for general studies majors, the maximum is 21 credits.
- A maximum of 2 credits for physical education activity courses may apply toward graduation.

Departmental Examinations

A student who wishes to take a departmental examination must take it before enrolling in a college class in the same subject. Applications are made to the departments indicated; however, during the summer preregistration period, some examinations can be taken at the MU Testing Service Office without formal application to the respective departments. In addition, the examinations administered by Testing Services may be taken any time during the academic year. Students may not earn credit for introductory foreign language courses in their native language.

- Chemistry: Apply to the Department of Chemistry, 125 Chemistry Building, for an examination to earn credits in chemistry.
- Mathematics: To earn 3 credits in College Algebra, students may take the proctored ALEKS Exam through the Office of Testing Services. (mathplacement.missouri.edu)
- Political Science: Contact the group testing program in the Testing Services Office for information on the 3-credit group test.
- Statistics: Apply to the Department of Statistics, 146 Middlebush Hall, for an examination to earn 3 credits for STAT 1300 Elementary Statistics.

Maximum Credits Enrolled

With the consent of the dean, students with superior scholastic records may be allowed to register for more than 18 credits during a fall or spring semester. During the summer sessions, a student may not ordinarily be enrolled for more than 9 credits during the two four-week sessions combined and/or the eight-week session.

Enrolling at Other Institutions

Students within the College of Arts & Science are allowed to enroll in another institution, while being simultaneously enrolled at MU. Students are strongly encouraged to speak with an advisor to verify course transfers before taking courses at an off-campus institution. Students, however, bear the ultimate responsibility for checking course equivalencies and requesting official transcripts be sent to the MU Office of Admissions (230 Jesse Hall). Similarly, A&S students who are likely to qualify for Latin honors are advised not to risk their eligibility for this distinction because of simultaneous enrollment at another institution (see information on Latin honors). Students who receive financial aid are advised to check with a financial aid officer to learn the implications, if any, of simultaneous enrollment in a non-MU course.

Graduation with Latin Honors

Regulations of the college regarding the awarding of Latin honors require that 54 of the final 60 credits are completed in MU course work for a letter grade (A-F). Awarding of Latin Honors is based on the cumulative GPA. The local chapter of Phi Beta Kappa requires completion of a minimum of 60 credits of course work on the MU campus, usually during the last two years of study. Exceptions to this latter expectation may be made for students who study abroad in an approved program during their final semesters of study.

Probation and Dismissal

Academic (Scholastic) Standing

In addition to University requirements defined in the Academic Standing (p. 794) section of this catalog and in the Faculty Handbook (http://facultycouncil.missouri.edu/handbook/article-8.html), academic status of Arts and Science students is determined in accordance with the following faculty guidelines. The word “term” in these regulations applies to semester, summer session or intersession. Course work completed by correspondence or through extension also has a bearing on academic status.

- Students on scholastic probation have two terms, (as long as each term GPA is no lower than 1.0), in which to attain good academic standing (2.0 minimum term and cumulative GPA) or be subject to dismissal. A student will not be eligible for removal from probation if he or she does not complete in residence (MU course work).
during these two terms at least 12 graded credits acceptable by the student’s advisor and in accordance with college policy for credit in the College of Arts and Science. To complete a course, the student must earn a grade in the A, B, C or D range.

- A student on probation may not be allowed to participate in a study abroad program or internship opportunities.
- In the application of these rules, the dean will determine how an incomplete grade in a course will be considered in determining a student’s academic standing.
- The dean may, in extenuating circumstances, waive any of the foregoing regulations governing eligibility to re-enroll for an individual student.

**Degree Requirements**

**Arts and Science Foundation Requirements**

The purpose of the Arts and Science Foundation Requirements is to assure that students fulfill the common educational objectives of the College of Arts and Science. Courses satisfying these requirements impart specialized knowledge and help students fulfill the broader objectives of a liberal education. Thus, these courses help students develop the following abilities:

- To communicate clearly and effectively in both writing and speech
- To generate and test hypotheses
- To locate and develop information needed to solve problems
- To think critically and use analytic skills effectively
- To examine their lives critically and objectively
- To enrich their lives through appreciation of present and past cultural achievements

Foundation requirements include three categories:

- **Basic Skills** requirements ensure competency in composition and communication, mathematics and analytic reasoning, awareness of American history and government, and where applicable, foreign language.
- **Breadth of Study** requirements are met by completing course work from a wide array of disciplines to ensure that graduates are broadly educated.
- **Depth of Study** requirements are met by completing advanced course work that allows for fuller understanding of a discipline than can be gained in introductory course work alone.

All students must complete all Arts and Science Foundation Requirements in order to earn a degree, regardless of prior baccalaureate degrees earned. Course work will be evaluated on a course-by-course basis. For students who earn an Associates of Arts degree from a Regionally accredited Missouri institution all Breadth of Education requirements will be considered to be met. Students will be required to complete at least one Depth of Education class with MU course work. In all cases, completion of the basic English and Mathematics requirements will be evaluated on a course-by-course basis.

**Basic Skills**

MATH 1100, MATH 1160, MATH 1120 or transferable equivalent with grade of C- or higher

- Required for BA, BFA, BGS, BM and BS degrees.
ENGLISH 1000 or transferable equivalent with grade of C- or higher

- Required for BA, BFA, BGS, BM and BS degrees.

**One Math Reasoning Proficiency course with grade of C- or higher**

- Required for BA, BFA, BGS, BM and BS degrees.
- May also apply toward other degree program requirements.
- Must be chosen from the list of MRP courses designated each semester in the online Schedule of Courses.

**One course in American government or history**

- Required for BA, BFA, BGS, BM and BS degrees.
- May also apply as a social science toward the behavioral and social science requirement.
- Should be chosen from the list of MU courses approved to meet Arts and Science Foundation Requirements.

**Foreign language**

- Each student is required to attain the degree of proficiency equivalent to the completion of at least 12 hours of college-level work in a single foreign language. All MU foreign language departments require a grade in the C range or higher in level I or a language and level II of a language as prerequisites for level II and III, respectively.
- Alternative for selected BS degrees: 12 credits numbered 2000 or above in an area approved by the major department substituted with the concurrence of the dean’s office. Courses used for a minor cannot be used to meet this requirement.
- The foreign language requirements can be waived if a student has completed four units of a single foreign language in high school. If a student chooses to meet the requirement by using high school units, any college credit for that same introductory language will not count towards graduation hours (i.e., a student who has completed 4 units of high school Spanish and has credit for SPAN 1100 will not have the SPAN 1100 count towards graduation hours). If a student wants to have the introductory college credit count towards graduation, the student must complete the language sequence.
- International students whose native language is other than English are exempt from the foreign language requirements but may not receive credit for basic skills courses in their native languages. Others with native competence in one or more foreign language offered by MU may have a foreign language requirement waived by passing an exam given by a faculty member who is fluent in the language. The faculty member need not be a member of the MU faculty, but must be approved by the dean’s office. The test must be administered by a faculty member who is fluent in the language and where applicable, foreign language. The faculty member need not be a member of the MU faculty, but must be approved by the dean’s office. The student’s ability to read, write, and speak the language at the level broadly described as “intermediate.” Results of the examination are forwarded to the dean’s office for evaluation. Students in this situation do not receive advanced-standing credit for their foreign language knowledge.

**Breadth of Study**

Breadth of Study requirements include course work distributed among the following categories: biological, physical and mathematical sciences; behavioral and social sciences; humanities and fine arts.

1. **Biological, physical and mathematical sciences**

   9 credits required for BA, BFA, BGS, BM and BS degrees.

   - Must include course work from at least two of three areas.
   - Must include at least one biological or physical science laboratory course.

2. **Behavioral and social sciences**
Parameters for meeting Breadth of Study requirements:

- Courses from the major department may not be used for breadth requirements in the BA, BFA and BS.
- Courses from the major department may be used for breadth requirements in the BM.
- Students earning degrees in special degree programs (where the courses in the major represent multiple departments) may use courses from their major departments to meet breadth requirements, but not the specific courses used in the major.
- Courses from outside the major department but required for the major may not be used to meet breadth requirements in the BFA or BA with a major in Art.
- Only one non-Arts and Science course may be used in each of the four categories: biological, physical and mathematical sciences; behavioral sciences; social sciences; humanities and fine arts.
- Courses must be chosen from the Distribution of Content List on the website of the General Education Program. (http://generaleducation.missouri.edu/)
- Courses used to meet breadth requirements may also be used to meet depth requirements (see below).
- Problems, research, readings, and internship courses may not be used for breadth requirements.

Depth of Study

Depth of Study requirements include at least 6 hours of course work numbered 2000 or above, distributed as follows:

BFA in Art

- 6 credits required (minimum of 2 courses).
- Must include course work from at least two of the following four breadth categories: biological, physical, mathematical sciences; behavioral sciences; social sciences; humanities and fine arts.

BGS in General Studies, all BA degrees, and BS with majors in Biological Sciences and Psychology

- 9 credits required (minimum of 3 courses).
- Must include course work from at least two of the following four breadth categories: biological, physical and mathematical sciences; behavioral sciences; social sciences; humanities and fine arts.

BS with majors in Chemistry, Geological Science, Mathematics, Physics and Statistics

- 6 credits required (minimum of 2 courses).
- Must include course work from at least two of the following three breadth categories: biological, physical and mathematical sciences; behavioral sciences; social sciences; humanities and fine arts.

BS with a major in Economics

- 6 credits required (minimum of 2 courses).
- Must include course work from at least two of the following three breadth categories: biological, physical and mathematical sciences; behavioral sciences; social sciences; humanities and fine arts.

BS with a major in Philosophy

- 6 credits required (minimum of 2 courses).
- Must include course work from at least two of the following three breadth categories: biological, physical and mathematical sciences; behavioral sciences; social sciences.

BM with a major in Music

- 6 credits required (minimum of 2 courses).
- Must include course work from at least one of the following three breadth categories: biological, physical and mathematical sciences; behavioral sciences; social sciences.
- 3 credit hours in Music (see below).

Parameters for Meeting Depth of Study Requirements

- All courses must be numbered 2000 or above.
- At least 3 credits must be completed with MU course work.
- A student who elects 1-credit topics courses must complete a minimum of three courses in that breadth category as partial fulfillment of the depth of study requirement.
- Courses from the major department may not be used, except for the BM with a major in Music.
- Students earning degrees in special degree programs (where the courses in the major represent multiple departments) may use courses from their major departments to meet depth requirements, but not the specific courses used in the major.
- Courses from outside the major department, but required for the major, may not be used to meet depth requirements in the BFA or BA with a major in Art, the BA or BS with a major in Biology, or the BA with a major in Chemistry, Geological Science, Mathematics, Physics, or Statistics.
- Three hours (one course) of non-Arts and Science coursework may be used towards partial fulfillment of the depth of study requirement.
- Courses must be chosen from the Distribution of Content List (http://generaleducation.missouri.edu/requirements/distribution.php) on the website of the General Education Program.
• Courses used to meet depth requirements may also be used to meet breadth requirements.
• Problems, research, readings, and internship courses may not be used.

**Major Program Requirements**

A major consists of at least 21 credits, including at least 15 credits in courses numbered 2000 or above, 12 of which must be taken in MU course work. See detailed departmental information for additional requirements for specific majors.

All Arts and Science majors require an MU Writing Intensive course numbered 3000 or above and an MU capstone course with grades of C- or higher. In addition, some majors require course work outside the major department.

Each student must declare and receive official approval for a major by submitting a graduation plan no later than the semester after completion of 60 credits. The purpose of the graduation plan is to acquaint students with all requirements that must be met prior to graduation and to plan for the timely completion of these requirements. Departments and programs approve the graduation plan only when the student has met the following criteria:

- Completion of ENGLSH 1000 and MATH 1100 or MATH 1120 (or their equivalents) with grades of C- or higher
- Completion of any additional departmental requirements

**Requirements for an Optional Minor**

A minor consists of at least 15 credits, including at least 6 credits numbered 2000 or above, within a department or program that offers a minor; 9 of the required credits must be taken in MU course work. See detailed departmental information for additional requirements for specific minors. Courses outside the major department but required for the major may be used towards a minor. In addition, courses required in the minor may be used to meet Foundation requirements.

The College of Arts and Science awards minors only to undergraduate students who are simultaneous recipients of bachelor's degrees. Students may not earn a major and a minor in the same field.

**Requirements for an Optional Certificate**

A certificate consists of at least 12 credits which must be taken in MU course work. See detailed information for additional requirements for specific certificates. Courses required for the certificate may be used to meet major, optional minor or Foundation requirements.

The College of Arts and Science awards certificates only to undergraduate students who are simultaneous recipients of bachelor's degrees. Student may not earn a certificate and a minor in the same field.

**Internships**

In order to participate in an internship, a student must be in good academic standing (not on probation) and have completed at least one semester of college coursework after graduation from high school.

**Dual Degrees**

In order to receive two bachelor's degrees, a student must complete a minimum of 132 credits and complete all of the specific requirements for both degrees. Normally, a minimum of one additional semester is required to earn both degrees. Each candidate for a dual degree is assigned advisors as appropriate.

The College of Arts and Science maintains dual-degree programs with the schools of Law, Medicine and Veterinary Medicine. To enroll in these programs, the student must have completed all of the specific course requirements for the bachelor's degree prior to admission to the professional school and also must have completed the junior year in residence in the College of Arts and Science. Under certain circumstances, Arts and Science undergraduates may be assured admission to MU's schools of Law or Medicine.

**Second Degrees**

The faculty of the college has approved the following guidelines for students wishing to obtain a second undergraduate degree after completion of a bachelor's degree, in addition to any university requirements that may apply:

- A student must complete any college, general education or department requirements that are unique to the new degree program. Requirements that are in effect at the time a student begins work toward the second degree are applicable.
- Students applying for second-degree status will be considered only if they have completed (with grades C- or higher) ENGLSH 1000 and MATH 1100 or MATH 1120 (or equivalents) and have final term and cumulative GPAs no less than 2.0.
- The student must submit a graduation plan in consultation with an advisor in an appropriate department or program before the dean's office will approve a request from the student to enroll as a candidate for a second degree.
- With the exception of Interdisciplinary Studies majors with an emphasis in Black Studies, Peace Studies, or Women's and Gender Studies, the college does not approve applications for a second undergraduate degree in General Studies or Interdisciplinary Studies. Once enrolled for a second degree, a student is committed to enrolling in course work required for completion of that degree. A student will not be allowed to continue as a candidate for a second undergraduate degree if not enrolled in courses required for the second bachelor's degree.

**Double Majors**

A number of Arts and Science students choose to complete multiple majors while earning one degree. The requirements of each major, along with requirements for the degree, must be completed. Often, this does not result in the addition of hours to the degree program.

**Graduate Dual Enrollment**

A final-semester senior may dually enroll in the College of Arts and Science and the Office of Graduate Studies with permission of the deans of both divisions. This enables the student to complete some graduate course work prior to receiving the bachelor's degree.

The student must be within 15 credits of completion of the bachelor's degree and must rank in the upper half of the class.

Application forms for dual enrollment in these two schools may be obtained from the Office of Graduate Studies in 210 Jesse Hall.
Advising

Students who have declared a major are assigned an advisor in that department. Students who have not yet decided on a major are assigned to a professional advisor in the Student Success Center.

Career Placement

Employment opportunities in the various disciplines of the liberal arts vary greatly. Most departments in the college have printed information available describing employment opportunities. The MU Career Center in the Student Success Center offers students a variety of career planning services.

Air Force Reserve Officer Training Corps (AFROTC)

The AFROTC provides the opportunity to become a United States Air Force officer while completing a college degree. The program combines traditional undergraduate education with military instruction in preparation for Air Force leadership challenges. Each semester academic AFROTC classes will build a foundation for application to a two-hour Leadership Lab. Scholarships are available. Visit www.afrotc.com (http://www.afrotc.com) for the most current information. After graduating from college and successfully completing all AFROTC requirements, cadets receive a commission as an officer in the active duty Air Force. Pilots incur a ten-year commitment from the date of graduation from pilot training. A few additional career fields require a six or eight year commitment.

MU also offers a Minor in Aerospace Studies (p. 333).

For additional information contact:

Department of Aerospace Studies
217 Crowder Hall
(573) 882-7621
airforce.missouri.edu

Army Reserve Officer Training Corps (AROTC)

Army ROTC is a college elective program that teaches the skills needed to succeed in the Army or the corporate world. Students combine classroom time with hands-on experience and learn leadership and management skills. The experience of Army ROTC provides the confidence needed to excel in college and beyond. The Army ROTC program can be completed through a two- to four-year program designed to develop young men and women into junior commissioned officers in the Active Army, Army Reserve, or Army National Guard. In addition to traditional combat roles, Army officers serve in such professional fields as aviation, medical service, finance, personnel management, communications and engineering. MU also offers a Minor in Military Science (p. 339).

For additional information contact:

Department of Military Science and Leadership
202 Crowder Hall
(573)-882-7721
http://armyrotc.missouri.edu/

Graduate

College of Arts & Science
107 Lowry Hall
(573) 882-6411
http://coas.missouri.edu/

The College of Arts and Science is home to a broad spectrum of disciplines that prepare graduate students for challenging and rewarding careers. Our faculty mentors are known for both research and teaching excellence and many have received national acclaim for discoveries, disciplinary leadership, creative works and music or theater performance.

The School of Music (p. 250), housed within the College, offers masters degrees, a doctoral degree and a graduate certificate in jazz studies. Music education degrees are offered in conjunction with the College of Education, Department of Learning, Teaching and Curriculum.

Note: Prospective graduate students must apply to both the degree program of interest and to the Office of Graduate Studies. In most cases, the entire application process may be completed online. Find admission and application details by selecting the degree program of interest in the left navigation column.

Anthropology

Lisa Sattenspiel, Chair
Department of Anthropology
College of Arts & Science

Mailing Address:
112 Swallow Hall
Columbia, MO 65211
(573) 882-4731
muasanthropology@missouri.edu
http://anthropology.missouri.edu

Welcome to the Department of Anthropology at the University of Missouri! Our University is the oldest public land grant institution west of the Mississippi, a member of the AAU and the highest category of research universities. We are a small department with an emphasis on scientific approaches to the study of human biology, behavior, culture, and evolution. MU students study the whole of humanity: its history, variability, artifacts, customs, beliefs and value systems which produces sophisticated problem solvers for today's complex and conflict-prone world.

Faculty

Professor: M. V. Flinn (https://anthropology.missouri.edu/?q=people/flinn)**, L. Sattenspiel (https://anthropology.missouri.edu/?q=people/sattenspiel)**
Assistant Professor: K. Panchanathan (https://anthropology.missouri.edu/?q=people/panchanathan)**
Research Professor: N. A. Chagnon (https://anthropology.missouri.edu/?q=people/chagnon)
Visiting Assistant Professor: M. J. Hamilton (https://anthropology.missouri.edu/people/hamilton)

Note: All permanent regular faculty members in the department serve as undergraduate mentors for anthropology majors.

* Graduate Faculty Member - membership is required to teach graduate-level courses, chair master's thesis committees, and serve on doctoral examination and dissertation committees.
** Doctoral Faculty Member - membership is required to chair doctoral examination or dissertation committees. Graduate faculty membership is a prerequisite for Doctoral faculty membership.

Undergraduate

- BA in Anthropology (p. 146)
- Minor in Anthropology (p. 147)

Advising Contact
Jen Schaffer
Academic Advisor
M110 Student Success Center
schafferjm@missouri.edu
(573) 884-9700

Director of Undergraduate Studies: Dr. Greg Blomquist (https://anthropology.missouri.edu/people/blomquist) - blomquistg@missouri.edu

The University of Missouri Department of Anthropology offers a BA in Anthropology. Students may also earn Departmental Honors, as outlined in the next section.

Within this program, a student may select a subfield of focus (Note: Subfields will not show on transcripts or diplomas):

- Archaeology (https://anthropology.missouri.edu/?q=research/archaeology)
- Biological anthropology (https://anthropology.missouri.edu/?q=research/biological)
- Cultural anthropology (https://anthropology.missouri.edu/?q=research/cultural-anthropology)
- Some combination of the above, or
- An interdisciplinary focus combining anthropology with some other area(s).

An undergraduate major in anthropology provides a broad educational base that can be the core of a liberal arts education or the background for specific vocational or professional goals of a student. Anthropology is of particular value to students planning professional careers in a world of cultural and ethnic diversity. Anthropology majors are required to take core courses in all three focal areas of the discipline, but may emphasize one or more of them in their remaining courses. Students may also develop an interdisciplinary program in cooperation with other departments or schools. In addition, the department offers an anthropology minor to students who are majoring in other departments or schools. In addition, the department offers an interdisciplinary program in cooperation with other departments or schools.

The Anthropology Department provides many opportunities for students to become involved in research and encourages all students to do so. Such experiences help a student develop creativity, critical thinking skills, and skills in problem solving and writing. Students who are interested in doing anthropological research have several options, including working in close conjunction with a faculty member or working on an independent project under faculty supervision. An independent research experience may lead to an honors degree for eligible students.

Undergraduate training in anthropology prepares students for work in government agencies (both in the United States and overseas), museum positions, field positions in, for example, archaeology, ethnography, or human paleontology, and for graduate study leading toward college or university teaching of anthropology. An anthropology degree also provides good background for careers in business, journalism, health care, law, and many other fields.

The Department of Anthropology has a number of special facilities that are available for use in classes, for individual research opportunities, and in some cases, for the general public to visit. The list is included below. Students interested in additional information are encouraged to consult the following web site: https://anthropology.missouri.edu/links. (http://web.coas.missouri.edu/~anthro/?q=node/107)

These special facilities include:
- The Museum of Anthropology (https://anthromuseum.missouri.edu) & Museum Support Center
- The Archaeology Laboratory
- The Skeletal Laboratory
- The Fossil Cast Collection
- MURR (http://www.murr.missouri.edu) (University of Missouri Research Reactor)

Departmental Honors

The Honors Program is organized under the Honors College (http://honors.missouri.edu) of the College of Arts and Science within the University of Missouri. To be accepted in the Honors Program, the student must achieve and maintain a minimum cumulative Grade Point Average (GPA) of 3.3 in all course work. In addition, to be accepted, and remain eligible for the honors program in the Department of Anthropology, the student must maintain a GPA of 3.5 in all anthropology courses.

The University of Missouri grants three types of Honors degrees to students in the College of Arts and Science:

1. General Honors, which is administered by the Honors College and which is obtained by completion of a suitable number of honors courses (see the Honors College for details),
2. Latin Honors (e.g., cum laude), which are conferred on students whose GPAs meet specified minimum requirements, and
3. Departmental Honors, which is administered by the Department of Anthropology.

The departmental program leading to the BA degree with Honors in Anthropology is designed for students who desire a more intensive experience in anthropology and who wish to work closely with a particular faculty member in the anthropology department on an independent research or scholarly project. A student wishing to graduate with departmental honors must fulfill the basic course requirements for the BA in Anthropology. In addition, the student, with the assistance of his/her honors advisor, is expected to develop, plan, and conduct research on an independent project. It is recommended that students in the honors program enroll in ANTHRO 4950H Honors Research in Anthropology, although projects initiated in other courses or through independent, noncredit research experiences may also be honors eligible. To complete the Honors degree, a student must submit the results of the research project as a formal honors thesis that the student defends during an
oral examination conducted by an examining committee. The committee consists of three faculty members: the advisor, another faculty member, and the departmental Honors Director. The examination is scheduled no later than the thirteenth week of the term during which the student expects to graduate. Each member of the committee is furnished with a copy of the student’s thesis or evidence of scholarly activity at least ten days before the examination. After the oral defense the student furnishes the department with one final copy of the thesis or evidence of scholarly achievement (e.g., photographs) suitable for preservation by the Department. Upon completion of the program, the examining committee recommends to the Dean of the College of Arts and Science that the student be awarded a BA with Honors in Anthropology.

Goals of the Anthropology Curriculum

Students completing an anthropology degree are awarded a BA degree with a major in Anthropology or a BA degree with Honors in Anthropology. The undergraduate program is designed to help students develop an appreciation of other cultures and other world views and to gain an understanding of how and why the diversity in human culture and biology came about. Several goals help faculty teach undergraduates about the nature of the discipline and how to think critically about what it is, what it means and how it is useful in today’s society. These goals include:

- To recognize the broad, cross-cultural generalizations that characterize anthropology
- To recognize the value of a cross-cultural, comparative perspective
- To acquire an understanding of the basic concepts in the subfields of anthropology
- To acquire advanced knowledge in one or more of the subfields
- To acquire an awareness of the interrelationship of the subfields
- To think critically about the nature and content of anthropological questions
- To assess the structure of an argument and evaluate it and its supporting information
- To communicate effectively in writing or through oral presentation
- To strive for innovative and creative thinking
- To think independently both within and outside anthropology

Students are also encouraged to acquire experience in research design and methods (e.g., using the library and internet effectively to gather information on a problem, or understanding and using the methods of one or more subfields). To this end, the department provides abundant opportunities for students to work with faculty members on independent research projects.

GPA Requirements

The College of Arts and Science requires that students attain a minimum GPA of 2.0 in all courses in their major department and in courses that comprise the related field. In addition, all core courses in anthropology (ANTHRO 2020 or ANTHRO 2021/ANTHRO 2022, ANTHRO 2030, ANTHRO 2050 or ANTHRO 2051/ANTHRO 2052, ANTHRO 4990) must be completed with a grade of C- or higher and students may receive a grade below C- in no more than one other course used to satisfy the major.

Graduate

- MA in Anthropology (p. 147)
- PhD in Anthropology (p. 148)

Department of Anthropology

Dr. Libby Cowgill (https://anthropology.missouri.edu/people/cowgill), Director of Graduate Studies

CowgillLL@missouri.edu
Main Office: (573) 882-4731
Fax: (573) 884-5450
http://anthropology.missouri.edu
muasanthropology@missouri.edu

The Department of Anthropology offers graduate work leading to the degrees of Master of Arts (MA) and Doctor of Philosophy (PhD) with a current enrollment of about 30 graduate students. Our department has a broad scientific approach to understanding human biology and behavior, both past and present, that is grounded in ecological and evolutionary theory. The graduate program provides rigorous coursework with a rich combination of hands-on field and laboratory research experiences. Students work closely with a faculty advisor who helps them pursue fellowships/grants and to develop collaborative research projects.

Active areas of research by our regular professors include:

- Archaeology (https://anthropology.missouri.edu/?q=research/archaeology): archaeological theory, evolutionary archaeology, lithic artifact analysis, ceramic analysis, and material sourcing studies with regional foci in the American Southwest
- Biological anthropology (https://anthropology.missouri.edu/?q=research/biological): skeletal biology, functional anatomy, human osteology, Neanderthals, demography, epidemiology, life history, and primate genetics

Incoming graduate students are admitted into one of three tracks:

Track 1: MA students

Students admitted to Track 1 will be classified as MA seeking students with the office of Graduate Studies (http://gradstudies.missouri.edu). These students will complete all requirements for the MA degree as currently outlined in our Graduate Students Handbook (https://anthropology.missouri.edu/sites/default/files/gradfiles/graduate_student_handbook_0.pdf), including completing a thesis (not a proposal or publication as for Track 2, see below, although eventual publication of the thesis is encouraged). Upon completion, the student can, if eligible, apply to the Anthropology program for acceptance as a PhD seeking student.

Track 2: PhD students required to complete MA requirements

Students admitted to this track will be classified as PhD seeking students with the office of Graduate Studies (http://gradstudies.missouri.edu). These students will complete all course requirements for the MA. With the consent of the student’s committee, a Track 2 student will complete either a thesis OR a proposal formatted for a major granting agency that will serve as the student’s PhD dissertation proposal, OR a primary-authored paper that must have been submitted for publication. In each
of these cases, the student will orally defend the work. Upon successful completion of these requirements, the student will be awarded an MA, and will then be eligible to continue work towards a PhD without the need to reapply to the program or change student status.

**Track 3: PhD students with MA in hand**

Students admitted to this track will be classified as PhD seeking students with the office of Graduate Studies (http://gradstudies.missouri.edu). They will not be required to complete the MA requirements and will not earn an MA during their graduate work at MU. Upon completion of the requirements currently listed for the PhD program, including coursework, qualifying examination, comprehensive examination, teaching, and dissertation, the student will be awarded a PhD.

**Facilities and Collections**

Departmental research facilities/collections include a ceramic analysis laboratory, a stone artifact analysis laboratory, a comparative faunal collection, and a skeletal biology laboratory. The Museum of Anthropology (https://anthropology.missouri.edu) houses extensive holdings of New World (especially Missouri) archaeological and skeletal materials and ethnographic specimens from many parts of the world, and provides opportunities for museum-oriented studies (see also the Museum Studies Graduate Minor (p. 348)). The Museum Support Center, an archaeological research and curation facility is located on the edge of campus. The University of Missouri Research Reactor provides opportunities for students interested in archaeometry. Resources in other departments or research units available by arrangement include the Archaeometrics Laboratory of the Research Reactor, the Electron Microscopy Facility, and the Stable Isotope Laboratory of the Department of Geological Sciences.

**Research by Location**

Regular faculty members of the department conduct research in the following geographical areas, beyond Missouri: the Northwest (archaeology), Canada (biological anthropology), Dominica and Amazonia (biological & cultural anthropology), and the North American Southwest (archaeology). Refer to the faculty list for interests of faculty (https://anthropology.missouri.edu/people/faculty) and emeritus faculty (https://anthropology.missouri.edu/?q=people/emeritus).

**Financial Assistance**

Financial assistance packages are usually granted on a competitive basis for students who enter the program in the Fall semester. This assistance comes in the form of tuition waivers and stipends provided by Life Science Fellowships, Graduate Studies Fellowships, teaching assistantships, or graduate instructorships. Applications for teaching assistantships and graduate instructorships for both presently enrolled and prospective graduate students must be received by March 1st of the academic year preceding the academic year for which assistance is sought. Applications will be emailed to existing and incoming students prior to the deadline.

**BA in Anthropology**

**Degree Program Description**

Anthropology is the study of humans and human experience, past and present. Anthropology at MU emphasizes scientific approaches to the study of human biology, behavior, culture, and evolution. Anthropology majors are required to take core courses in all three focal areas of the discipline (archaeology, biological anthropology, and cultural anthropology) but may concentrate in one or more of these fields. Students have opportunities to become involved in research, helping them develop creativity, enhance critical thinking skills, solve problems and improve their writing. Undergraduate training in anthropology also prepares students for work in government (both in the United States and abroad), museum positions, and field positions in archaeology, ethnography, human paleontology, or forensics. It may also provide students with the opportunity to enter graduate school leading towards an academic career teaching and conducting anthropological research at a college or university. A degree in anthropology also provides students with the background to pursue careers in business, journalism, health care, law, and many other fields.

**Major Program Requirements**

In addition to college foundation requirements and University graduation requirements, such as general education (p. 34), all anthropology students are required to complete the following core courses (15 credits):

<table>
<thead>
<tr>
<th>Code</th>
<th>Course</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>ANTHRO 2050</td>
<td>Fundamentals of Archaeology with Laboratory</td>
<td>4</td>
</tr>
<tr>
<td>or ANTHRO 2021 &amp; ANTHRO 2022</td>
<td>Fundamentals of Archaeology and Fundamentals of Archaeology Lab</td>
<td>3</td>
</tr>
<tr>
<td>ANTHRO 2030</td>
<td>Cultural Anthropology</td>
<td>3</td>
</tr>
<tr>
<td>ANTHRO 2050</td>
<td>Introduction to Biological Anthropology with Laboratory</td>
<td>5</td>
</tr>
<tr>
<td>or ANTHRO 2051 &amp; ANTHRO 2052</td>
<td>Introduction to Biological Anthropology and Biological Anthropology Laboratory</td>
<td>3</td>
</tr>
<tr>
<td>ANTHRO 4990</td>
<td>Capstone Seminar in Anthropology</td>
<td>3</td>
</tr>
<tr>
<td><strong>Total Credits</strong></td>
<td><strong>15</strong></td>
<td><strong>15</strong></td>
</tr>
</tbody>
</table>

ANTHRO 4990 Capstone Seminar in Anthropology must be completed even if a student completes an additional major in another department. Some departments waive this requirement for students completing a double major. Students with second majors should check with the other department to see if they are required to complete both capstone courses.

**Electives**

A minimum of 15 additional Anthropology credits (usually 5 courses) are required for the major. These courses must be distributed as follows:

<table>
<thead>
<tr>
<th>Type</th>
<th>Courses</th>
</tr>
</thead>
<tbody>
<tr>
<td>Topical/theoretical</td>
<td>1 course</td>
</tr>
<tr>
<td>Area</td>
<td>1 course</td>
</tr>
<tr>
<td>Methods</td>
<td>1 course</td>
</tr>
<tr>
<td>Additional courses</td>
<td>1-2 courses or more</td>
</tr>
</tbody>
</table>

Explanation about the distribution of departmental courses among these three categories is available at https://anthropology.missouri.edu/sites/default/files/undergrad-files/undergrad_brochure_2015.pdf

The choice of area, topical-theoretical and methods courses is guided by the student’s individual interests and goals, and is selected in consultation with their departmental mentor. With the consent of the student’s mentor and the director of undergraduate studies, the methods/techniques or area requirements may be fulfilled by suitable courses outside anthropology. If this requirement is satisfied by a course outside anthropology, an additional anthropology course is selected to complete the 30 credits required in anthropology.
Students may also complete the methods requirement by gaining hands-on experience doing anthropological research. This experience will normally begin with ANTHRO 2950 Research Skills in Anthropology, an introduction to the methods used by one or more faculty members. This course will satisfy the methods requirement if a student enrolls in it for at least 3 credits. A student may independently choose a faculty mentor and arrange for course credit or can work with the department's undergraduate research coordinator, who will match the student's interests with those of one or more faculty members.

Students wishing to continue doing research of an independent nature may register for ANTHRO 4950 Undergraduate Research in Anthropology. Prior approval by the director of undergraduate studies is required to use these courses to satisfy the departmental methods requirement. Honors Research ANTHRO 4950H Honors Research in Anthropology may be used to satisfy the requirements for an Honors BA with a major in Anthropology, but the course is not required for that degree. Specific requirements for the Honors BA are described below.

Related Courses

Because of the interdisciplinary nature of anthropology, the Department of Anthropology strongly recommends that all students complete a cluster of at least two or three courses that complement chosen courses within the major.

These courses may be offered by a single department or may be a related set of courses from several departments (e.g., courses in ancient history from both the Art History and Archaeology and the History departments). The courses should be chosen with their mentor and are intended to provide background in the content of other disciplines related to the student's anthropological focus. Fulfillment of a formal minor (15 credits in another department as approved by that department) or a second major (at least 30 credits in another department as approved by that department) can also be an effective way to gain expertise in related areas.

Semester Plan

Below is a sample plan of study, semester by semester. A student's actual plan may vary based on course choices where options are available.

Total Credits: 121-125

* Course meets University general education and/or campus graduation requirements.

^ Course meets degree program requirements.

Minor in Anthropology

A student wishing to minor in anthropology should contact the Anthropology advisor for an appointment. The requirements for a minor in anthropology are:

1. A total of 15 hours of course credits in anthropology approved by the Director of Undergraduate Studies. At least 9 hours must be completed at MU.
2. No more than 6 hours of the 15 hours required for the minor may be drawn from courses numbered below 2000. In addition, a minimum of 3 hours must be in courses numbered 3000 or above.
3. Readings, research, or problems courses shall constitute no more than 6 of the required 15 hours.
4. Anthropology Minor Form (https://anthropology.missouri.edu/sites/default/files/undergrad-files/minor_form.pdf) filled out and signed

These procedures and requirements were approved March 17, 2004. This Program is effective for all students who file initial anthropology graduation plans after this date.

MA in Anthropology

Admission Criteria (Track One, MA Applicants)

Students admitted to this track will be classified as MA seeking students with the graduate school. These students will complete all requirements for the MA degree as currently outlined in the Anthropology Graduate Handbook (https://anthropology.missouri.edu/sites/default/files/gradfiles/graduate_student_handbook_0.pdf), including the MA exam and completing a thesis. Upon completion, the student can, if eligible, apply to the Anthropology program for acceptance as a PhD seeking student.

Fall deadline: January 10
Spring deadline: October 15 (no departmental financial support available this term)

• Minimum TOEFL scores:
Internet-based test (IBT)  Paper-based test (PBT)
---  ---
80  50
Prior to July 1, 2015 must have score of (61)  Prior to July 1, 2015 must have score of (500)

- Minimum GRE scores:

<table>
<thead>
<tr>
<th>When did you take the GRE?</th>
<th>Verbal + Quantitative</th>
<th>Analytical</th>
</tr>
</thead>
<tbody>
<tr>
<td>Prior to August 1, 2011</td>

<td></td>
</tr>
<tr>
<td>On or After August 1, 2011</td>
<td>3.0</td>
<td></td>
</tr>
</tbody>
</table>

Minimum GPA: 3.25 in last 60 hours and in all anthropology courses. Acceptance into the graduate program in anthropology is not limited to students with undergraduate degrees in anthropology.

## Required Application Materials

To Graduate Studies (https://applygrad.missouri.edu/apply):

- All required Graduate Studies documents
- 3 letters of recommendation (through online application)
- GRE scores
- Statement of purpose
- Unofficial transcripts (Official transcripts need to be submitted to the School of Graduate Studies upon acceptance.)
- Writing Sample

## Graduation Requirements

Students are expected to gain advanced knowledge in the three subfields represented in our program (archaeology, biological anthropology, cultural anthropology). Anthropology faculty members work closely with graduate students to conduct collaborative research as an integral component of the graduate program. Opportunities for specialization are provided through research courses leading to a thesis. A program tailored to each student’s educational objectives is planned by the student and the advisory committee of at least three members, one of whom is a non-anthropology faculty member.

## Credit Hours Required for Master’s Degree

MA graduate students must complete a minimum of 30 credit hours beyond the Bachelor of Arts degree. At least 9 of the required hours must be 8000-level anthropology courses and seminars, and must include at least one content course (i.e., not a readings or research course). As part of the 8000-level requirement, all students must take the departmental core courses in cultural anthropology, archaeology, and biological anthropology. Students lacking a basic course in statistics are required to take at least one course, preferably during the first year of graduate work. A maximum of 12 hours may be in non-thesis research (ANTHRO 7990/ANTHRO 8990) or reading courses (ANTHRO 7960).

## MA Thesis

Students enrolled in Track 1 must complete the MA thesis requirement. Successful completion of the thesis will be determined by the student’s advisory committee. The advisory committee for the thesis consists of at least 3 faculty members, including the advisor, another member of the anthropology department, and one member of the graduate faculty from another MU department and who generally holds a doctorate degree in another subject.

## PhD in Anthropology

### Admission Criteria - Track Two (ONLY):

**PhD Students Required to Complete MA Requirements**

Track 2 students will be classified as PhD seeking students with Graduate Studies. These students will complete all course requirements for the MA. With the consent of the student’s committee, a Track 2 student will complete either a thesis OR a proposal formatted for a major granting agency that will serve as the student’s PhD dissertation proposal. OR a primary-authored paper submitted for publication. In each of these cases, the student will orally defend the work. Upon successful completion of these requirements, the student will be awarded an MA, and will then be eligible to continue work towards a PhD without the need to reapply to the program or change student status.

### Minimum TOEFL scores:

<table>
<thead>
<tr>
<th>Internet-based test (IBT)</th>
<th>Paper-based test (PBT)</th>
</tr>
</thead>
<tbody>
<tr>
<td>80</td>
<td>550</td>
</tr>
<tr>
<td>Prior to July 1, 2015 must have a score of 61</td>
<td>Prior to July 1, 2015 must have a score of 500</td>
</tr>
</tbody>
</table>

- Minimum GRE scores:

<table>
<thead>
<tr>
<th>When did you take the GRE?</th>
<th>Verbal + Quantitative</th>
<th>Analytical</th>
</tr>
</thead>
<tbody>
<tr>

<td>1000</td>
<td>3.0</td>
</tr>
<tr>
<td>On or After August 1, 2011</td>
<td>300</td>
<td>3.0</td>
</tr>
</tbody>
</table>

- Minimum GPA: 3.25 in last 60 hours and in all anthropology courses

### Required Application Materials For Track Two Applicants:

To Graduate Studies (https://applygrad.missouri.edu/apply):

- All required Graduate Admissions documents
- 3 letters of recommendation (through online application)
- GRE scores
- Statement of purpose
- Unofficial transcripts (Official transcripts need to be submitted to the School of Graduate Studies upon acceptance.)
- Writing Sample

## Credit Hours Required for Master’s Degree (Track Two Applicants Only)

All MA students must complete a minimum of 30 credit hours beyond the Bachelor of Arts degree. At least 9 of the required hours must be 8000-level anthropology courses and seminars, and must include at least one content course (i.e., not a readings or research course). As part of the 8000-level requirement, all students must take the departmental core courses in cultural anthropology, archaeology, and biological anthropology. Students lacking a basic course in statistics are required to take at least one course, preferably during the first year of graduate work. A maximum of 12 hours may be in non-thesis research (ANTHRO 7990/ANTHRO 8990) or reading courses (ANTHRO 7960).
Admission Criteria - Track Three: PhD Students with MA in Hand

Students admitted to this track will be classified as PhD seeking students with Graduate Studies. They will not be required to complete the MA requirements and will not earn an MA during their graduate work at MU. Upon completion of the requirements currently listed for the PhD program, including coursework, qualifying examination, comprehensive examination, teaching, and dissertation, the student will be awarded a PhD.

Fall deadline: January 10
Spring deadline: October 15

- Minimum TOEFL scores:

<table>
<thead>
<tr>
<th>Internet-based test (iBT)</th>
<th>Paper-based test (PBT)</th>
</tr>
</thead>
<tbody>
<tr>
<td>Prior to July 1, 2015 must have a score of (61)</td>
<td>Prior to July 1, 2015 must have a score of (500)</td>
</tr>
</tbody>
</table>

- Minimum GRE scores:

<table>
<thead>
<tr>
<th>When did you take the GRE?</th>
<th>Verbal + Quantitative</th>
<th>Analytical</th>
</tr>
</thead>
<tbody>
<tr>
<td>Prior to August 1, 2011</td>
<td>1000</td>
<td>3.0</td>
</tr>
<tr>
<td>On or After August 1, 2011</td>
<td>300</td>
<td>3.0</td>
</tr>
</tbody>
</table>

- Minimum GPA: 3.5 in previous graduate work
- Master's degree

Note: A faculty member who is on the doctoral faculty must agree, as a condition of admission, to accept the student as a PhD advisee. These qualifications apply to all applicants, including those with an MA degree from this department. Applicants whose MA is in a field other than anthropology will be considered under the policies for individuals holding the baccalaureate degree except that the quality of graduate work will be taken into consideration.

Required Application Materials for Track Three Applicants

To Graduate Studies (https://applygrad.missouri.edu/apply):
- All required Graduate Admissions documents except transcripts
- 3 letters of recommendation (through online application)
- GRE scores
- Statement of purpose
- Unofficial transcripts (Official transcripts need to be submitted to the School of Graduate Studies upon acceptance.)
- Writing Sample

Art

Joe Johnson, Program Director
School of Visual Studies, College of Arts and Science
A129 Fine Arts Building
(573) 882-4037
http://visualstudies.missouri.edu

The Art program is housed principally within the Fine Arts Building. Founded in 1877, the Art faculty consists of 18 full-time faculty, 4 adjunct instructors, and 21 graduate teaching assistants. Our faculty members, many of whom are nationally and internationally renowned, are well-established professional artists and designers with numerous exhibitions, commissions, and awards to their credit.

Our studio/laboratory spaces for each media area have impressive features that include a fully-equipped printmaking studio, photography labs for digital and traditional processes, a papermaking/fiber facility, an anagama kiln, a bronze casting facility, and three state-of-the-art digital labs housing over 65 up-to-date Macintosh computers with large 27-inch monitors, three 44” large-format Epson printers, and a variety of video equipment. The Art program also operates the George Caleb Bingham Gallery (https://art.missouri.edu/gallery/bingham) in the Fine Arts Building, which showcases art exhibitions from students, faculty, and visiting artists year-round. A Visiting Artists Lecture Series is presented during the Fall and Spring semesters and is open to the public. A popular summer experience sponsored by the program in partnership with the International Center is the Summer Study Abroad Program (http://art.missouri.edu/undergraduate/study-abroad.html) that takes place in summers in Italy on odd-numbered years and in the Netherlands and Belgium in even-numbered years. In both countries, students will have the opportunity to study firsthand many of the most important masterpieces in Western art history.

Faculty

** Professor J. M. Brueggenjohann*, R. B. Clarke*, L. Leong*, J. Stealey*
Curators Teaching Professor D. L. Huelsbergen*
Assistant Professor C. P. Mannella*, F. Martinez*, J. Thornton*
Assistant Teaching Professor M. Ballou*
Visiting Assistant Teaching Professor A. Wehrwein,
Assistant Teaching Professor M. G. Langeneckert, T. Shaffer*
Professor Emeritus B. B. Cameron*, W. H. Hawk, L. Kantner, L. Rugolo, O. A. Schuchard, F. H. Stack

* Graduate Faculty Member - membership is required to teach graduate-level courses, chair master's thesis committees, and serve on doctoral examination and dissertation committees.
** Doctoral Faculty Member - membership is required to chair doctoral examination or dissertation committees. Graduate faculty membership is a prerequisite for Doctoral faculty membership.

Undergraduate

- BA in Art (p. 150)
- BFA in Art (p. 151)
**Minor in Art (p. 152)**

**Director of Undergraduate Studies:** Matt Ballou

The School of Visual Studies Art program in the College of Arts & Science offers a BA and a BFA. A minor in Art is also available. Students have the option to take studio courses in drawing, painting, printmaking, ceramics, sculpture, fibers, photography, digital/experimental media, and graphic design.

The BA degree is intended for the student desiring a liberal education with a concentration in art, while the BFA provides more professional training in the studio area. The BFA is the required undergraduate degree for admission to most Master of Fine Arts programs.

Starting Fall 2015, all students wishing to pursue a BA or BFA degree in art will need to pass the Art Department BA/BFA Portfolio Review. A student will need to have completed six (6) courses in art before submitting a portfolio (although they can be enrolled in the last classes the semester they submit a portfolio) for either the BA or BFA. Those courses are ART_GNRL 1030, ART_GNRL 1040, ART_DRAW 1050; then three studio art courses at the 2000 level. For more detailed information on the portfolio, please refer to the SVS website.

Undergraduate students enrolled in a BA Bachelor of Arts in Fine Arts or BFA Bachelor of Fine Arts degree program who wish to earn a masters with certification to teach K-12 Art can complete Professional Education Certification courses in the College of Education along with three Art Education Professional Education course requirements at the graduate level beginning the summer before senior year in your BA/BFA degree program.

**Director of Graduate Studies:** Chris Daniggelis

**Admission Contact:** Jennifer Bennett, Graduate Student Coordinator  
b (warrenb@missouri.edu)ennettjen@missouri.edu

The School of Visual Studies Art program offers a Master of Fine Arts (MFA) program that focuses on the creative goals of the individual. Our aim is to guide each student to finding and developing a particular direction and language as demonstrated by a coherent and conceptually unified body of artwork. Through an intense studio-based practice, our graduates develop into professional artists and college level educators who will successfully contribute to the culture on a local, national and global scale through different fields in the visual arts.

The University of Missouri has been a leader in the visual arts since 1877 when the renowned painter George Caleb Bingham began teaching the first studio courses in the newly formed School of Art. Current faculty members follow in that tradition through their creative work that is nationally and internationally recognized. Their artwork encompasses: abstract and figurative painting and drawing, ceramics, sculpture, ceramics sculpture, as well as bronze cast sculpture, traditional and digital photography, all media of printmaking, surface design, illustration, papemaking and book arts, mixed-media, video, installation and performance art plus intermedia and intradmedia approaches. They are all eager to mentor young artists who share the passion for creativity, critical thinking and the arts.

Laboratory facilities are available in all media areas that are continually updated to coincide with technological advancements. The Art program is home to the George Caleb Bingham Gallery with monthly exhibitions highlight artwork by students, local, regional and national artists. Our yearly Florence Summer Study Abroad Program places students in Italy where students have a month to study firsthand many of the most important masterpieces in Western art history. More about the MFA program. (http://art.missouri.edu/mfa-program.html)

**Study Areas**

Applicants typically study within a particular art medium. Applicants declare a media emphasis of their choice at the time of application to the program. Media areas for selection include ceramics, drawing, fibers, graphic design, painting, photography, printmaking, and sculpture. Aspects of new media (2D and 3D computer imaging and animation, video production, web publishing and other digital media) are also integrated into the curriculum of many of the listed traditional media.

**Financial Aid**

Fellowships, scholarships, and tuition waivers, along with graduate teaching assistantships and graduate research assistantships with stipends are available to qualified graduate students. Assistantships include stipends. Some aid is awarded upon acceptance into the program, while others may be awarded later as the student develops within the program. Applications for graduate teaching assistantships should be submitted along with the application portfolio to the director of graduate studies. Application instructions follow later in this document.

For a list of scholarships within the Department of Art, please visit the departmental website at: http://art.missouri.edu/mfa-program/scholarships.html

Some campus-wide opportunities are available, too. Most prominent would be the Mizzou Graduate Fellowship that is available for applicants for the fall semester (submitting deadline on January 1st each year) only.

**Advising**

Upon admission to the program, a candidate is assigned a graduate thesis committee chair/major advisor. This person will mentor the student throughout the student’s tenure and help the student to establish the three-member graduate thesis committee. By the second semester the student will select another committee member from the Graduate Faculty to serve as the student’s second advisor. The chair/major advisor will also help the graduate student to select an outside member who is from the graduate faculty of another department. In addition, students have access to all the art department faculty members for consultation throughout the duration of their studies.

**BA in Art**

**Degree Program Description**

The Art program offers opportunities for creative development, provides instruction in visual literacy, and trains students in the necessary technical and conceptual skills needed to pursue a lifetime of creative activity. Through a variety of studio art courses, students learn critical thinking skills, creative problem solving, and become life-long learners. The Department of Art offers courses in ceramics, drawing, fibers,
graphic design, painting, photography, printmaking, and sculpture. The BA degree is a liberal arts degree in which students complete 30 - 40 hours of studio art courses and 9 hours of courses in Art History. Starting Fall 2015, all students wishing to pursue a BA degree in art must pass the Art Department BA/BFA Portfolio Review. Students that earn a degree in art pursue a variety of careers, including artists; art educators; commercial and studio designers; and graphic, web, print and packaging designers.

Major Program Requirements

Art majors earning a BA degree complete art foundations courses, art core requirements, and art studio electives. No more than 40 credits in studio art may be included in the BA curriculum. Students enrolled in the BA degree program may not include art or art history courses with a grade of D.

All art majors must complete a minimum of 12 credit hours of MU art coursework numbered 2000 or above. In addition, 9 hours of Art History and Archaeology courses, including two 3-hour classes numbered 2000 or above, are required.

In addition, students must complete all College of Arts and Science and University graduation requirements (p. 33), including University general education (p. 34).

Starting Fall 2015, all students wishing to pursue a BA or BFA degree in art will need to pass the Art program BA/BFA Portfolio Review. A student will need to have completed six (6) courses in art before submitting a portfolio (it is acceptable to be enrolled in the last class(es) the semester the portfolio is submitted) for either the BA or BFA. The courses are ART_GNRL 1030, ART_GNRL 1040, ART_DRAW 1050 and three studio art courses at the 2000 level. For more detailed information on the portfolio, please refer to the School of Visual Studies website.

BFA in Art

Degree Program Description

The School of Visual Studies Art program offers opportunities for creative development, provides instruction in visual literacy, and trains students in the necessary technical and conceptual skills needed to pursue a lifetime of creative activity. Through a variety of studio art courses, students learn critical thinking skills, creative problem solving, and become lifelong learners. Course offerings include ceramics, drawing, fibers, graphic design, painting, photography, printmaking, and sculpture. The BFA is considered a professional degree intended to provide a solid foundation for a career in visual art. Students in the BFA program must complete 60-70 hours of studio art and 12 hours of Art History. Starting Fall 2015, all students wishing to pursue a BA or BFA degree in art must pass the Art program BA/BFA Portfolio Review. Students that earn a degree in art pursue a variety of careers, including artists; art educators; commercial and studio designers; and graphic, web, print and packaging designers.
Major Program Requirements

Art majors earning a BFA degree complete art foundations courses, art core requirements, and art studio electives with 15 credits in one specific media area. Students enrolled in the BFA degree program may not include art or art history courses with a grade of D.

All art students are assigned a departmental faculty advisor. Students are encouraged to meet with the advisor to plan a program of study with a focus in one particular media area.

BFA students complete 60 to 70 credits in studio art, including a minimum of 15 credits in one specific media area, and 12 credits of art history, including at least two 3-hour Art History & Archaeology courses numbered 2000 or above. A minimum of 35 credit hours of studio art coursework must be taken at MU.

In addition, students must complete all College of Arts and Science and University graduation requirements (p. 33), including University general education. (p. 34)

Starting Fall 2015, all students wishing to pursue a BA or BFA degree in art will need to pass the Art program BA/BFA Portfolio Review. A student will need to have completed six (6) courses in art before submitting a portfolio (it is acceptable to be enrolled in the last class(es) the semester the portfolio is submitted) for either the BA or BFA. The courses are ART_GNRL 1030, ART_GNRL 1040, ART_DRAW 1050 and three studio art courses at the 2000 level. For more detailed information on the portfolio, please refer to the School of Visual Studies website.

Minor in Art

The minor in art requires a total of 18 credits, including 15 credits in studio art and 3 credits from the Department of Art History & Archaeology. Six credits must be studio art courses numbered 2000 or above. At least 3 of these hours must be taken while in residence at the University of Missouri. An Art Minor may not include art or art history courses with a grade of D.

MFA in Art

Admission Contact:
Brenda J. Warren, Graduate Student Coordinator
warrenb@missouri.edu
Department of Art
Admission Criteria

Fall semester deadline (priority for campus scholarships):
• January 1 if seeking nomination for Mizzou Graduate Fellowship

Spring semester deadline:
• September 1

Minimum TOEFL scores:

<table>
<thead>
<tr>
<th>Internet-based test (iBT)</th>
<th>Paper-based test (PBT)</th>
</tr>
</thead>
<tbody>
<tr>
<td>80</td>
<td>550</td>
</tr>
</tbody>
</table>

Minimum GPA: 3.0

The preferred undergraduate degree for admission to the graduate program in visual art is the Bachelor of Fine Arts degree (BFA). However, applicants holding the BA, BS or other bachelor’s degrees are eligible to apply if they have a minimum of 40 hours of undergraduate studio credits or an equivalent commensurate professional experience. Applicants for the Graphic Design Area are required to have a minimum of 2 years professional experience before applying.

Application materials are evaluated to determine if the applicant has the preparation and ability to pursue an advanced degree. Admission is based on the recommendations from the art department graduate faculty members representing each of the media areas. Some applicants, may be placed on a waiting list as alternates, then accepted if others decline their admission offers.

Required Application Materials

Submit to the Graduate School:
• All required Graduate School documents
• Cover Letter of Intent (stating the goals for pursuing the MFA degree)
• A Digital Assets Sheet (defining the image and video files).
• Current Résumé (exhibition, award, publications, artistic experience, etc.)
• An artist’s statement
• Three (3) letters of recommendation
• Official transcripts from each college attended
• Application for G.T.A. (optional but necessary for tuition waiver)

Application Materials Submit to the Art Department

• The application process requires a digital portfolio documenting 20 separate pieces of the applicant’s artwork. Applicants can document these works using twenty (20) to forty (40) digital still images and/or moving image files. Please limit submissions to a maximum of 2 images for any one piece of artwork. The artwork in the portfolio should represent your most recent and most accomplished body of work. The work should indicate your major artistic interests and creative direction. The work should demonstrate your creative ability and media competence. If you are requesting consideration for a teaching assistantship, a few of the images could be works that demonstrate your foundational mastery of a specific media area. Portfolios must be submitted in digital form on CD only. Please follow closely the instructions for the submission of images available on the department website:

MFA Degree Completion Requirements

The MFA program consists of 60-70 credit hours.

The degree includes:
• 30 hours in the major area
• 9 hours in a minor area
• 3 hours of Graduate Studio Seminar
• A minimum of 1 hour of MFA Research Hours
• 11 hours of electives
• 6 hours of Art History

Graduate-Level Course work

Graduate level courses are at the 7000/8000/9000 level. A minimum of 15 of the 30 hours must be selected from courses numbered at 8000 and/or 9000 levels; no more than 40 percent of the 30 hours credit requirement can be satisfied by Research, Readings and Problems courses. No credit is given for courses at the 4000 or below levels.

Residency Requirement

A minimum residency of two years is required for the degree. However, mere completion of the prescribed number of credit hours and the residency requirement is insufficient, rather the degree will be granted upon the student’s high level of creative achievement as determined by the student’s graduate thesis committee.

Regular Student Evaluation

The full graduate faculty of the art department reviews every MFA candidate once each year to determine the rate of progress. If the candidate fails to receive a passing evaluation during the review, the student is placed on probation for one semester and is required to be reviewed the following semester. If two consecutive unsatisfactory reviews occur, the student is dismissed from the MFA program.

Clearance

During the semester prior to graduation, the graduate thesis committee will approve the student to proceed with the final steps toward graduation, composing the written thesis and mounting the thesis exhibition.

Thesis Acceptance

The graduate thesis committee approves the thesis exhibition and written thesis. The final semester, the MFA candidate installs a thesis exhibition to display visual, artistic and professional achievement. The candidate thereafter presents a final draft of the written thesis that defends the conceptual and philosophical ideas of the final body of artwork. Photographic record of the pieces discussed must be included in the written thesis.

Each degree candidate must pass a two-hour oral final examination conducted by the graduate thesis committee. The presentation must focus on the aspects of the academic study related to the written thesis and visual work. Following final approval of the thesis exhibition and the written thesis, the graduate will officially submit documentation of the theses to the graduate school. The thesis is submitted as a PDF file on a CD-ROM to the Graduate School by the established deadline.
Time Limit and Extensions
The time limit for completion of the MFA degree is 5 years. Time spent in military service is excluded. For an extension for other reasons the student must petition the Graduate School through his/her chair or major advisor. The five-year period will extend from the beginning of the first semester of enrollment in which the student is accepted to the MFA degree program to the date of his/her clearance to graduate.

Art History and Archaeology
Michael Yonan, Program Director
School of Visual Studies, College of Arts and Science
102 Swallow Hall
(573) 882-7547
http://visualstudies.missouri.edu

The development of European and American art in its historic and cultural context is the subject of study in the Department of Art History and Archaeology. The program offers BA, MA and PhD degrees with a major in Art History and Archaeology.

Faculty
Professor S. H. Langdon**, M. L. Rautman**
Associate Professor K. A. Schwain**, A. R. Stanton**, J. A. van Dyke**, M. E. Yonan**
Assistant Professor M. Mogetta*
Assistant Teaching Professor E. J. Hornbeck
Professor Emeritus: W. R. Biers, N. E. Land, Jr., H. W. Marshall
Professor Emerita: P. D. Crown, K. W. Slane

* Graduate Faculty Member - membership is required to teach graduate-level courses, chair master's thesis committees, and serve on doctoral examination and dissertation committees.
** Doctoral Faculty Member - membership is required to chair doctoral examination or dissertation committees. Graduate faculty membership is a prerequisite for Doctoral faculty membership.

Undergraduate
• BA in Art History and Archaeology (p. 155)
• Minor in Art History and Archaeology (p. 156)

Director of Undergraduate Studies: James van Dyke

Double Majors and Dual Degrees
Students may combine a major in art history and archaeology with a major in another department in the College of Arts and Science such as Art or Classical Studies (a double major), or with a major in another college such as Business or Journalism (a dual major). Students who graduate with dual majors will be awarded two degrees; their program of study will include an additional 12 credits. Students who plan to pursue double or dual majors should complete graduation plans in both departments.

Program Honors
Program Honors recognizes students who have demonstrated a commitment to future professional study in art history and archaeology, wish for more substantial research experience, and have built a record of excellence in departmental coursework.

Requirements:
• 3.3 Cumulative GPA
• 3.6 Departmental GPA
• Successful completion of one 4000-level AR_H_A course as a prerequisite
• Completion of a senior honors essay, AR_H_A 4999

Students apply for Program Honors the semester prior to taking AR_H_A 4999 by writing a proposal on the subject of their essay. The proposal is submitted in duplicate to the faculty member whom the student would like to have serve as the project's supervisor and to the Director of Undergraduate Studies, but shall be considered and must be approved by the faculty as a whole. The essay's topic should reflect both the student's interests and the expertise of the faculty supervisor. The honors essay should be of substantial length, incorporate significant individual research, and engage with theoretical, historiographical, and methodological perspectives appropriate to the topic at hand. Completing these requirements to the faculty's satisfaction will earn the student departmental honors.

Graduate
• MA in Art History and Archaeology (p. 156)
• PhD in Art History and Archaeology (p. 158)

Director of Graduate Studies: Anne Rudloff Stanton

About Art History and Archaeology
The University of Missouri has played a prominent role in the teaching of the visual arts in North America since Walter Miller and John Pickard first began lecturing on campus in the 1890s. Our faculty and staff reflect the widening scope of our discipline with particular strengths in the areas of classical Mediterranean archaeology, medieval and Renaissance art, and the art and architecture of modern Europe and the Americas. Current faculty research interests range from early Greece and Rome to modern architecture and contemporary painting. Resources available to faculty and students include the department's Visual Resources Center and the Museum of Art and Archaeology, as well as the extensive collections of Ellis Library.

Degrees Offered
The Department of Art History and Archaeology offers the MA and the PhD degrees in Art History and Archaeology. The department participates in interdisciplinary graduate minors in Ancient Studies, Medieval and Renaissance Studies, Museum Studies, and Women's and Gender Studies.

Funding: Internal and External
The Department of Art History and Archaeology offers two forms of graduate support: teaching assistantships in introductory and upper-level courses; and research assistantships in the Visual Resources Center,
which provides students with the opportunity to learn a variety of skills vital to the field in the digital age. In addition, the Museum of Art and Archaeology provides research assistantships that allow students to work closely with curators in various departments of the Museum.

Generally, the department and the museum offer .25 FTE (full time equivalent) assistantships that require approximately ten hours of work per week. These provide a nine-month stipend; a tuition waiver that covers resident educational and non-resident fees; and a 50% medical insurance subsidy if you enroll in “Student Accident and Sickness Insurance” program. In special circumstances, the Department and the Museum will offer a .5 FTE to advanced students.

Incoming students are considered for funding when they apply to the program. Returning students submit applications for continued funding in the spring semester. The Department follows the rules set by the Graduate School regarding tuition waiver limits.

In addition to teaching and research assistantships, the department may award departmental fellowships to advanced students: the Herbert Schooling Fellowship; the John Pickard Fellowship; and the Charles D. Folse Fellowship for students in classical archaeology. Holders of these fellowships may, with proper consent, hold additional grants not to exceed $1000 or may hold teaching assistantships.

Finally, the department offers a number of fellowships and travel awards:

- The Edzard Baumann Traveling Fellowship in European Art
- The Irina Hans Fellowship in Art History
- The Osmund Overby Fund for research in American art, architecture, and historic preservation
- The Saul and Gladys Weinberg Traveling Fellowship for advanced students in classical archaeology

Students interested in these awards should contact the director of graduate studies and their advisors for application instructions.

In addition, the University of Missouri Graduate School sponsors two major fellowship programs: a spring competition and a Supplemental Graduate Fellowship Program. Applicants in both art history and archaeology are eligible for these fellowships, which are awarded to entering students through a campus-wide competition. Nominations for both are completed by the director of graduate studies in consultation with the entire faculty. Students in the Department of Art History and Archaeology have held a number of these awards, including the G. Ellsworth Huggins Scholarship, the Gus T. Ridgel Fellowship, and the Robert E. Waterston Award.

Students enrolled in MA and PhD programs are also eligible for awards from The Graduate Professional Council (GPC), which are designed to assist students who are traveling to present research papers, posters or creative works at conferences or symposia. The Graduate Student Association (GSA) also awards travel grants to students who are presenting a paper or poster, or chairing a plenary session or roundtable discussion, at an academic conference.

Finally, the department encourages graduate students to apply for internships, study abroad programs, grants, and fellowships that support their programs of study. An excellent place to initiate this search is Resources in Art History for Graduate Students: A Newsletter of Fellowships and other Opportunities for Art History Graduate Students (http://www.efn.org/~acd/resources.html).

---

**BA in Art History and Archaeology**

**Degree Program Description**

Art historians and archaeologists seek to understand different cultures by studying their artistic monuments and other material remains. By looking closely at objects within their historical, social, and technological contexts, students develop skills of visual perception and analysis as ways of exploring how images can express identity, share information, and shape everyday life. This integrative approach to cultural traditions draws readily on other disciplines like art, anthropology, classics, film studies, gender studies, history, languages, literature, music, philosophy, and religion.

While the BA is not a vocational or professional degree, undergraduate majors gain a broad foundation in the liberal arts that is readily adapted to future goals. Recent graduates of the program have gone on to careers in art galleries, civic arts organizations, cultural heritage offices, historical archives and museums, journalism, library and information sciences, secondary education, and fine arts conservation. Students wishing to pursue specialized research and college-level teaching continue their studies at the masters and doctoral levels.

**Major Program Requirements**

Students may elect a broad program in Art History or a more narrowly focused one in Classical Archaeology. Those who are planning to focus in either program should begin foreign language study as early as possible.

In addition to University general education (p. 34) requirements and other college and University graduation requirements (p. 33), students must meet the following requirements:

**Course requirements**

<table>
<thead>
<tr>
<th>Course requirements</th>
<th>30</th>
</tr>
</thead>
<tbody>
<tr>

</tr>
</tbody>
</table>

At least six AR H A courses at the 3000 level or above, including at least one course in each of the following three distribution areas and at least two courses at the 4000 level:

- Art History option: Ancient, Medieval-Baroque, and Modern
- Archaeology option: Greek, Roman, and Post-Classical

**PLUS**

Two elective AR HA courses at any level, including internship, fieldwork, and study abroad.

**Language Requirement**

The Art History option requires study through the reading level (i.e., 12 or 13 credits) in one modern language, such as French, German, Italian, or Spanish. The Archaeology option requires study through the reading level (i.e., 13 credits) in Greek or Latin. Students who plan to attend graduate school are strongly urged to begin study of one or more additional languages.
Courses Recommended for a Well-Rounded Degree

Art History students should take additional courses in the Humanities, including anthropology, classical humanities, film studies, history, literature, religious studies, and philosophy, and at least one course in studio art or environmental design. Students pursuing the Archaeology option should take related courses in anthropology, classical humanities, geology, history, religious studies, and philosophy.

Total Credits: 120

Minor in Art History and Archaeology

A minor in Art History and Archaeology requires 15 credits within the department. Nine of the 15 credits must be at the 3000-level or above.

MA in Art History and Archaeology

Admission Contact Information

Michael Yonan (YonanM@missouri.edu)
About the Master’s

The MA program in the Department of Art History and Archaeology has two primary goals: to provide graduate students with a strong background in the history of art, from antiquity to the present; and to introduce them to the methods and theories of material and visual analysis, as well as the practices of critical writing and reading. Students who pursue the thesis option have the opportunity to specialize at that stage.

Admission Criteria

Admission to the department on the graduate level is granted yearly to a small number of candidates who hold recognized BA or MA degrees in art history, classical archaeology, classics, or related fields of the humanities and social sciences. In addition to the 3.0 GPA required by the Graduate School, the department requires: a GPA of 3.3 in the major field; minimum GRE score (below) and at least three semesters of a single appropriate foreign language (normally German, French or Italian).

Minimum GRE scores:

Required Application Materials

All application materials must be submitted directly to the Graduate School through its Apply Yourself (https://app.applyyourself.com/AYApplicantLogin/I_ApplicantLogin.asp?id=umc-grad) online application system. Applications will not be considered complete until we receive the following:

- Official transcripts or mark sheets from each university or college you have attended
- GRE scores
- Three letters of recommendation concerning academic qualifications to undertake graduate work
- A short statement of the applicant’s professional goals and reasons for applying to do graduate work in art history or archaeology
- A copy of a recent term paper as a sample of the applicant’s scholarship and writing
- Curriculum vitae

Financial Aid from the Program

Incoming students are considered for funding when they apply to the program. Returning students submit applications for continued funding in the spring semester.

Graduation Requirements

Course Requirements

The successful completion of the MA requires at least thirty hours of coursework that must include: AR_H_A 8110 Introduction to Graduate Study; AR_H_A 8120 Theories and Methodologies in Art History and Archaeology; four distribution requirements that cover four broad periods of study: Ancient, Medieval and Renaissance, 1500-1850, and 1850-

Language Requirements

All students must demonstrate reading knowledge of one foreign language, usually German or a Romance language. Departmental language exams are offered in the fall semester of each year, although students can request an examination in the spring semester. Language requirements may be satisfied also by achieving a grade of B or better in a course approved by the Director of Graduate Studies. The department expects that the modern language requirement will be met by the end of the third semester for use in advanced coursework as well as thesis research and writing. In addition to the modern language, students in Classical Archaeology also must have reading knowledge of either Greek or Latin. Students who pursue the thesis option must have reading knowledge of two modern languages: German and a Romance language.

Master’s Essay

To complete the degree, students must complete a scholarly essay under the guidance of a faculty advisor. It will most likely be a revision of a research paper from a graduate course taken in the Department of Art History and Archaeology.

Master’s Essay Oral Examination

In consultation with the faculty advisor, students will select two additional members of the department faculty to read the essay. Students will discuss their essays in a meeting chaired by their advisor.

Master’s Thesis Option

Graduate students who intend to pursue doctoral work should complete the thesis option. This decision is made during the student’s second or third semester in residence in consultation with the Director of Graduate Studies and three faculty members in the student’s area of interest.

Master’s Thesis Committee

The master’s thesis committee consists of at least three people: the student’s thesis advisor, a second member from within the department, and a third member from outside the department. The student should invite the latter two in consultation with his or her thesis advisor.

The committee must approve the thesis topic in the semester before the student plans to defend the thesis; often, this is accomplished during an interview for candidacy.

Master’s Thesis

The master’s thesis enables graduate students to engage in independent and thorough research in a specific area of study. While the thesis need not be an original contribution, neither can it be an uncritical compilation of published facts. A successful thesis will demonstrate the student’s ability to use bibliography in the field; effectively utilize research tools and techniques; synthesize a variety of types of sources; and sustain an argument.

Master’s Thesis Defense

The defense of the master’s thesis is an oral examination, chaired by the student’s advisor, which focuses specifically on the MA thesis. The
A student should submit a complete draft of the thesis to the advisor at least two months before the intended defense date and a final draft, approved by the advisor, to the entire committee 30 days before the defense. Any changes recommended by the committee during the defense must be made before the finished thesis can be submitted to the Graduate School.

More Information

Further guidelines are included in the department’s graduate programs brochure or on the website.

PhD in Art History and Archaeology

Admission Contact Information

Michael Yonan (YonanM@missouri.edu)
385 McReynolds Hall
Columbia, MO 65211
(573) 882-6711

About the PhD

In the Doctoral Program, students deepen their exploration of art history or classical archaeology and demonstrate their ability to carry out original scholarship.

The department advises doctoral students in the following areas of study:

• Greek Art and Archaeology
• Roman and Late Antique Art and Archaeology
• Early Medieval Art and Archaeology
• Late Medieval Art
• Renaissance and Baroque Art
• 18th Century Art
• 19th Century Art
• 20-21st Century Art
• American Art
• Architectural History

Admission Criteria

The department accepts as candidates for the PhD students who have earned an MA or its equivalent in art history or classical archaeology, either from the University of Missouri or from an institution recognized by the university. An MA thesis is a prerequisite for the PhD in both art history and classical archaeology. The Doctoral Program Committee (see below) determines the acceptability of work completed elsewhere.

Students completing an M.A. degree in the Department of Art History and Archaeology at the University of Missouri-Columbia who want to continue for the Ph.D. must be accepted for advising by a faculty member who is a member of the doctoral faculty. Such students should submit a statement of purpose and a current CV to the department by the January 18 deadline. After they are accepted for advising, they need to submit a “Change of Program, Degree, Emphasis or Advisor Form” to the Graduate School.

Required Application Materials

All application materials must be submitted directly to the Graduate School through its Apply Yourself (https://applygrad.missouri.edu/apply) online application system. Applications will not be considered complete until we receive the following:

• Official transcripts or mark sheets from each university or college you have attended
• GRE scores
• Three letters of recommendation concerning academic qualifications to undertake graduate work
• A short statement of the applicant’s professional goals and reasons for applying to do graduate work in art history or archaeology
• A copy of a recent term paper as a sample of the applicant’s scholarship and writing, and
• Curriculum vitae

Financial Aid from the Program

Incoming students are considered for funding when they apply to the program. Returning students submit applications for continued funding in the spring semester.

Graduation Requirements

Coursework

The Graduate School requires a minimum of 72 hours for the PhD. At least 42 of those hours must be completed after the receipt of MA. Up to 30 hours from a previous institution can count toward the total of 72 hours. Most students will take more than the minimum number of courses and requirements

The 42 hours must include:

• At least one course from the following four areas—Ancient, Medieval and Renaissance, 1500-1850, and 1850-Present—unless students have taken an equivalent at the MA level.
• 27 hours of courses in the major areas. At least 12 of the 27 hours must be seminars at the 8000 level.
• 15 hours of coursework in the minor areas. At least 6 of the 15 hours must be taken at the 8000-level

The student’s program of study is determined in consultation with the Doctoral Program Committee. The Doctoral Program Committee is constituted in October during the first year of study. It consists of at least four people: the student’s advisor; two additional scholars from within the department; and an outside committee member. The committee:

1. Reviews the student’s MA thesis and determines it equivalency;
2. Accepts any transfer of credit from previous institutions;
3. Approves the plan of study;
4. Determines the major and minor areas as well as the scheduling of the comprehensive exams;
5. Approves the subject of the student’s dissertation;
6. Examines the student’s dissertation.

Languages

All students must demonstrate reading knowledge of two foreign languages, usually German and a Romance language relevant to their area. Departmental language exams are offered in the fall semester of
each year, although students can request an examination in the spring semester. Language requirements may be satisfied also by achieving a grade of B or better in a course approved by the Director of Graduate Studies.

In addition to the modern languages, students in classical archaeology must demonstrate reading knowledge of both Greek and Latin. This requirement may be satisfied by passing with a grade of B or better in a course numbered 7500 or higher in both Greek and Latin and by taking a second course at this level (7500 or higher) in the language more closely related to the major field of study. Equivalent courses taken at other institutions must be approved by the Director of Graduate Studies.

**Comprehensive Examination**

The comprehensive examination in the major and minor areas of art history and archaeology, determined by the student and the doctoral program committee, consists of both written and oral examinations.

**Dissertation**

The dissertation is expected to be an original, scholarly contribution to the discipline. The topic must be approved by the advisor and the Doctoral Program Committee. A dissertation proposal should be filed with members of the committee within two months of passing the comprehensive exams. A proposal for a dissertation fellowship will satisfy this requirement.

Individual chapters are generally submitted to the advisor as they are written. Other members of the Doctoral Program Committee may also criticize them in draft form. A complete, revised draft of the dissertation must be approved by the advisor at least two months before the defense. Students should distribute the final draft to each member of the committee at least one month before the defense.

Students maintain continuous enrollment by registering for 9080 or 9090 and by submitting a progress report to the Graduate Student Progress System and their advisor each term. Dissertation advising is not normally available during the summer unless previous arrangements have been made.

Further guidelines, including available areas of doctoral study, are included in the department’s website.

**Dissertation Defense**

The final examination will be in the form of an oral defense of the dissertation. It must take place on or before the penultimate Friday of classes. Any changes recommended by the committee during the defense must be made and approved before the finished thesis can be submitted to the Graduate School. Students are responsible for ensuring they meet the deadlines and guidelines established by the Graduate School for dissertation submission and graduation.

**Biological Sciences**

J. Walker, Director  
College of Arts and Science  
105 Tucker Hall  
(573) 882-6659

The Division of Biological Sciences offers both a Bachelor of Arts and a Bachelor of Science with a major in Biological Sciences, in addition to a minor in biological sciences for students majoring in other departments. The department also offers MA and PhD degrees in Biological Sciences.

**Faculty**

- **Curators Professor** J. A. Birchler**, J. C. Walker**  
- **Curators Distinguished-Teaching Professor** T. E. Phillips**  
- **Research Assistant Professor** R. Bhandari, J. Taylor  
- **Teaching Professor** S. L. Bush*, B. Stone*  
- **Teaching Associate Professor** R. D. Hurst  
- **Teaching Assistant Professor** A. Durbak  
- **Curators Professor Emeritus** H. C. Gerhardt**, G. P. Smith**, F. S. Vom Saal**  
- **Distinguished Teaching-Professor Emeritus** J. E. Carrel**  
- **Associate Professor Emeritus** L. Chapman, M. Golomb**, T. Holtsford, J. Maruniak*, D. L. Worcester

- **Doctoral Faculty Member** - membership is required to teach graduate-level courses, chair master's thesis committees, and serve on doctoral examination and dissertation committees.  
- **Doctoral Faculty Member** - membership is required to chair doctoral examination or dissertation committees. Graduate faculty membership is a prerequisite for Doctoral faculty membership.

**Undergraduate**

- Department Level Requirements (p. 160)  
- BA in Biological Sciences (p. 161)  
- BS in Biological Sciences (p. 163)  
- Minor in Biological Sciences (p. 165)

**Undergraduate Advising Center**

- 3 Tucker Hall  
- (573) 882-4068  
- bioadvising@mizzou.edu  
- Carol Martin  
- martinc@mizzou.edu  
- Jordan Parshall  
- parshallj@mizzou.edu  
- Brittony Corneillier  
- CorneillierB@mizzou.edu

**Departmental Honors**

The department strongly encourages participation in departmental honors. The heart of the honors program is a year-long experience in laboratory, field, or theoretical work in any area of biology. Students work directly with outstanding faculty mentors from the Division of Biological Sciences or other life science units on campus.

Students may earn degrees with honors by completing BIO_SC 4950H and BIO_SC 4952H (6 credits) and preparing a manuscript suitable for publication in a journal or the abstract of an oral or poster presentation at an on-campus symposium or at a regional or national meeting of
Graduate

Director of Graduate Studies: Lori Eggert

About Biological Sciences

The Division of Biological Sciences offers a unique integration of world-class research, award-winning graduate and undergraduate training, and outstanding community outreach. Our research mission includes the acquisition of new knowledge through basic research and coordinated translational research to improve human health, our food supply, and our environment. Graduate training programs emphasize the excitement of discovery and the development of individual creativity and critical reasoning skills, with graduate mentors who are experts at the frontiers of their field. Because science exposure in the pre-college years is critical to the development of both scientists and informed citizens, we also offer special outreach programs for secondary school science teachers, students and citizens in Missouri.

The Division of Biological Sciences actively recruits outstanding graduate students from both national and international pools. Selected candidates are interviewed. The best are admitted to the division for graduate study. Even more important than the quantitative Grade Point Average and GRE scores, we are interested in evidence of critical qualitative characteristics including: undergraduate research experiences and presentation of research results; ability to face and overcome obstacles; exceptional motivation, work ethic, intellectual vitality, initiative, creativity, critical thinking ability and leadership ability.

Areas of Study

The division offers primarily PhD degrees. General areas of research emphasis within the division include evolutionary biology, ecology and behavior; genetic, cellular, molecular and developmental biology; neurobiology and behavior; and plant sciences. Within these general areas, students may devise more specific graduate programs in, for example, plant genetics, invertebrate chemical communication or neurophysiology.

Interdisciplinary Research

Several students are currently involved in interdepartmental programs in neurosciences, genetics, plant biochemistry and physiology, cellular and molecular biology, the Conservation Biology Program, microbiology, and physiology. In addition, the presence on this campus of a School of Medicine, College of Agriculture, Food and Natural Resources and College of Veterinary Medicine provides opportunities for direct interaction with a variety of established research scientists. Faculty in the division also participate in the Genetics Area Program, the Pathobiology Area Program, the Molecular Biology Program, the Interdisciplinary Program in Plant Biochemistry and Physiology, the Interdisciplinary Neuroscience Program and the Conservation Biology Program.

All entering graduate students should have a broad background in biology and should have completed courses in mathematics through integral calculus, chemistry through organic chemistry and a year of physics. Exceptions may be made for individual students. Outstanding students with undergraduate degrees in areas other than biology (such as biochemistry, chemistry, physics, engineering, mathematics or psychology) are encouraged to apply with the understanding that subject matter in biology will be addressed in the first year of graduate study.

Research Facilities and Resources

Divisional faculty have ready access to the campus computing network and microcomputers in their laboratories. Beyond the specialized equipment in each faculty research laboratory, departmental and campus equipment and facilities available to graduate students include:

- molecular and cellular biology core facilities, including DNA (with Next Generation Sequencing), Electron Microscopy, Cell and Immunobiology, Informatics, Nuclear Magnetic Resonance, Molecular Cytology, Proteomics, Structural Biology, and Transgenic Animal;
- a 15,000-square-foot greenhouse complex;
- animal-care facilities suitable for mice, bats, rats, rabbits and amphibians;
- a 14-acre botany preserve on the campus and a 146-acre prairie research station;
- 24 walk-in plant growth chambers with regulated light, temperature and humidity controls;
- cell and tissue culture facilities;
- growth chambers;
- scanning spectrophotometers and kinetic fluorimeters;
- ultracentrifuges and scintillation counters;
- HPLC facilities;
- sound isolation acoustic chambers;
- neurophysiological recorders, oscilloscopes and amplifiers; and,
- microneurosurgery facilities and equipment.

Funding

Financial support is available through research training grants, fellowships, scholarships, graduate research assistantships, and graduate teaching assistantships.

Department Level Requirements - Biological Sciences

Requirements - Biological Sciences

Requirements for the BA and BS degrees with a major in Biological Sciences include course work in biology and ancillary science departments (chemistry, physics and math). The BS degree program requires more extensive course work, with additional studies in biology and the ancillary sciences. The BA degree program is more flexible and has fewer required courses to accommodate students with dual degrees or minors in other departments. Both degree programs can be used to
prepare for graduate study or professional school. Students must also complete college and university graduation requirements, including university general education requirements.

All courses in the major (including ancillary sciences) must be completed with a grade of C- or higher with a cumulative GPA of 2.0 or higher. (Satisfactory/Unsatisfactory grading is not acceptable for courses in the major.) At least 12 hours of biology coursework must be taken in residence at MU.

Foreign Language Alternative for students pursuing a BS degree in biological sciences

Students who are pursuing a BS degree with a major in biological sciences may opt to satisfy the foreign language requirement through alternative coursework consisting of at least 12 credits in courses numbered 2000 or above. These courses may not be used to satisfy other degree requirements and may not be used to fulfill a minor in another department. Students should confer with the Biology Advising Office to insure that alternative courses meet departmental requirements and all alternatives must be approved by the Director of Undergraduate Studies.

Electives

All biology majors must take additional biology courses to total at least 29 credits for the BA degree or 33 credits for the BS degree. Elective credits must be in formal courses numbered above 2000 and must include at least one 3000- or 4000-level laboratory course, one 4000-level course, and one WI course at the 3000 or 4000 level in a natural science. BIO_SC 2100, BIO_SC 2150, BIO_SC 2950, BIO_SC 2952, and BIO_SC 2952H may not be used to satisfy this requirement. MICROB 3200 may not be used to satisfy the laboratory course requirement.

Independent readings, internships, problems and seminar courses do not apply (i.e., BIO_SC 2940, BIO_SC 2960, BIO_SC 2965H, BIO_SC 4085, and BIO_SC 4960).

Students completing research courses BIO_SC 4950, BIO_SC 4950H, BIO_SC 4952, or BIO_SC 4952H for 6 credits may apply 3 credits toward fulfillment of biology elective hours for the BA or BS degree.

Students may repeat research courses for a total of 12 hours. Any credits remaining after 3 hours are used as a capstone or an elective in biology will be applied toward total hours to graduate. A maximum of 12 credit hours from the following courses (BIO_SC 2940, BIO_SC 2960, BIO_SC 2965H, BIO_SC 4085, BIO_SC 4950, BIO_SC 4950H, BIO_SC 4952 and BIO_SC 4952H) can be counted toward graduation.

BIOCHM 4270 and BIOCHM 4272 may apply toward fulfillment of biology elective hours for the BA or BS degree.

BA in Biological Sciences

Degree Program Description

Biology is a broad field centered on the study of living organisms and processes. While the degree program requires general education courses in behavioral sciences, social sciences, and the humanities, students can specialize their curriculum through their course selections. The main difference between the BS degree and the BA degree is that the BS degree requires more credit hours in biology, chemistry, physics, and math than the BA degree. Some of the knowledge that students acquire includes basic sciences necessary for upper-level biological science coursework (i.e., mathematics, statistics, physics, general and organic chemistry), how biologists use mathematical modeling and simulation to describe living systems, and arguments employed by scientists and others in key ethical controversies in biological science and research (for example, stem cell research). This degree is designed to prepare students for graduate study, professional schools, or direct entry into the workplace. Undergraduates majoring in biological sciences go on to careers in a wide range of fields, including medicine and other health professions, biotechnology, industry, government service, conservation and ecology, and secondary and higher education.

Major Program Requirements

Department Level Requirements (p. 160) must be completed in addition to all university requirements (p. 33), including general education (p. 34), and the degree requirements below.

Requirements - Biological Sciences

Requirements for the BA and BS degrees with a major in Biological Sciences include course work in biology and ancillary science departments (chemistry, physics and math). The BS degree program requires more extensive course work, with additional studies in biology.
and the ancillary sciences. The BA degree program is more flexible and has fewer required courses to accommodate students with dual degrees or minors in other departments. Both degree programs can be used to prepare for graduate study or professional school. Students must also complete college and university graduation requirements, including university general education requirements.

All courses in the major (including ancillary sciences) must be completed with a grade of C- or higher with a cumulative GPA of 2.0 or higher. (Satisfactory/Unsatisfactory grading is not acceptable for courses in the major.) At least 12 hours of biology coursework must be taken in residence at MU.

**Electives**

All biology majors must take additional biology courses to total at least 29 credits for the BA degree or 33 credits for the BS degree.

Elective credits must be in formal courses numbered above 2000 and must include at least one 3000- or 4000-level laboratory course, one 4000-level course, and one WI course at the 3000 or 4000 level in a natural science. BIO_SC 2010, BIO_SC 2015, BIO_SC 2030, BIO_SC 2060, BIO_SC 2100, BIO_SC 2150, and BIO_SC 2950 may not be used to satisfy this requirement. MICROB 3200 may not be used to satisfy the laboratory course requirement.

Independent readings, internships, problems and seminar courses do not apply (i.e., BIO_SC 2940, BIO_SC 2960, BIO_SC 2965H, BIO_SC 4085, and BIO_SC 4960).

Students completing research courses BIO_SC 4950, BIO_SC 4950H, BIO_SC 4952, or BIO_SC 4952H for 6 credits may apply 3 credits toward fulfillment of biology elective hours for the BA or BS degree.

Students may repeat research courses for a total of 12 hours. Any credits remaining after 3 hours are used as a capstone or an elective in biology will be applied toward total hours to graduate. A maximum of 12 credit hours from the following courses (BIO_SC 2940, BIO_SC 2960, BIO_SC 2965H, BIO_SC 4085, BIO_SC 4950, BIO_SC 4952 and BIO_SC 4952H) can be counted toward graduation.

BIOCHM 4270 and BIOCHM 4272 may apply toward fulfillment of biology elective hours for the BA or BS degree.

**Semester Plan**

NOTE: These plans are intended only as general guides. Courses outside Biology, Chemistry, MATH 1100, and ENGLISH 1000 are provided only for illustrative purposes. Advanced credit or exemption from the Foreign Language requirement and/or advanced credit in non-science courses, along with the interests of each individual student will determine a final combination of courses in each semester that is unique for each student. Note also that the sample schedules in Semester 5 and beyond are left incomplete on purpose because each schedule should be highly individualized at that point. Students who are pursuing the BA will not need to complete CHEM 2130.

**Plan 1**

A student that is exempt from MATH 1100
BS in Biological Sciences

Degree Program Description

Biology is a broad field centered on the study of living organisms and processes. While the degree program requires general education courses in behavioral sciences, social sciences, and the humanities, students can specialize their curriculum through their course selections. The main difference between the BS degree and the BA degree is that the BS degree requires more credit hours in biology, chemistry, physics, and math than the BA degree. The curriculum for the BS degree currently has the option of completing a foreign language sequence or substituting one of three tracks for the foreign language requirement. Some of the knowledge that students acquire includes basic sciences necessary for upper-level biological science coursework (i.e., mathematics, statistics, physics, general and organic chemistry), how biologists use mathematical modeling and simulation to describe living systems, and arguments employed by scientists and others in key ethical controversies in biological science and research (for example, stem cell research). This degree is designed to prepare students for graduate study, professional schools, or direct entry into the workplace. Undergraduates majoring in biological sciences go on to careers in a wide range of fields, including medicine and other health professions, biotechnology, industry, government service, conservation and ecology, and secondary and higher education.

Major Program Requirements

Department Level Requirements (p. 160) must be completed in addition to all university requirements (p. 33), including general education (p. 34), and the degree requirements below.

Requirements - Biological Sciences

Requirements for the BA and BS degrees with a major in Biological Sciences include course work in biology and ancillary science departments (chemistry, physics and math). The BS degree program requires more extensive course work, with additional studies in biology and the ancillary sciences. The BA degree program is more flexible and has fewer required courses to accommodate students with dual degrees or minors in other departments. Both degree programs can be used to prepare for graduate study or professional school. Students must also

** Could meet A&S Diversity Intensive Requirement (3hrs)
complete college and university graduation requirements, including university general education requirements.

All courses in the major (including ancillary sciences) must be completed with a grade of C- or higher with a cumulative GPA of 2.0 or higher. (Satisfactory/Unsatisfactory grading is not acceptable for courses in the major.) At least 12 hours of biology coursework must be taken in residence at MU.

**Foreign Language Alternative for students pursuing a BS degree in biological sciences**

Students who are pursuing a BS degree with a major in biological sciences may opt to satisfy the foreign language requirement through alternative coursework consisting of at least 12 credits in courses numbered 2000 or above. These courses may not be used to satisfy other degree requirements and may not be used to fulfill a minor in another department. Students should confer with the Biology Advising Office to insure that alternative courses meet departmental requirements and all alternatives must be approved by the Director of Undergraduate Studies.

**Electives**

All biology majors must take additional biology courses to total at least 29 credits for the BA degree or 33 credits for the BS degree. Elective courses must be in formal courses numbered above 2000 and must include at least one 3000- or 4000-level laboratory course, one 4000-level course, and one WI course at the 3000 or 4000 level in a natural science. BIO_SC 2010, BIO_SC 2015, BIO_SC 2030, BIO_SC 2060, BIO_SC 2100, BIO_SC 2150, and BIO_SC 2950 may not be used to satisfy this requirement. MICROB 3200 may not be used to satisfy the laboratory course requirement.

Students completing research courses BIO_SC 4950, BIO_SC 4952, or BIO_SC 4952H for 6 credits may apply 3 credits toward fulfillment of biology elective hours for the BA or BS degree.

**Semester Plan**

NOTE: These plans are intended only as general guides. Courses outside Biology and Chemistry are provided only for illustrative purposes. Advanced credit or exemption from the Foreign Language requirement and/or advanced credit in non-science courses, along with the interests of each individual student will determine a final combination of courses in each semester that is unique for each student. Total Credits: 117-122

** Could meet A&S Diversity Intensive Requirement (3 hrs).

Minor in Biological Sciences

**Minor Core Requirements**

- BIO_SC 1200 General Botany with Laboratory 5
- or BIO_SC 1500 Introduction to Biological Systems with Laboratory
- Genetics 4
- BIO_SC 2200 General Genetics

**Additional Biological Sciences**

Select 6 additional credits in courses numbered 2000 or higher (see exclusions below), including at least one course from two of the following areas:

- Cell Biology
- BIO_SC 2300 Introduction to Cell Biology
- BIO_SC 3400 Evolution and Ecology
- BIO_SC 4600 Evolution

- Biological Diversity
- BIO_SC 2600 Ornithology
- BIO_SC 2700 Ichthyology
- BIO_SC 3210 Plant Systematics
- BIO_SC 3260 Invertebrate Zoology
- BIO_SC 3360 Herpetology
- BIO_SC 3510 Biology of Fungi
- BIO_SC 3660 Mammalogy
**MA in Biological Sciences**

For information about Biological Sciences graduate degree programs visit our website: http://biology.missouri.edu/graduate-studies/.

The Division of Biological Sciences also offers a PhD degree (p. 166).

**PhD in Biological Sciences**

**Admission Contact Information**

College of Arts and Science  
218 Tucker Hall  
Columbia, MO 65211  
1-800-553-5698  
(573) 882-1847

The Division of Biological Sciences actively recruits outstanding graduate students from both national and international pools. Selected candidates are interviewed. The best are admitted to the division for graduate study. Even more important than the quantitative Grade Point Average and GRE scores, we are interested in evidence of critical qualitative characteristics including: undergraduate research experiences and presentation of research results; ability to face and overcome obstacles; exceptional motivation, work ethic, intellectual vitality, initiative, creativity, critical thinking ability and leadership ability.

**Eligibility**

All entering graduate students should have a broad background in biology and should have completed courses in mathematics through integral calculus, chemistry through organic chemistry and a year of physics. Exceptions may be made for individual students. Outstanding students with undergraduate degrees in areas other than biology (such as biochemistry, chemistry, physics, engineering, mathematics or psychology) are encouraged to apply with the understanding that subject matter in biology will be addressed in the first year of graduate study.

**Admission Criteria**

- Fall deadline: December 15

- Minimum TOEFL scores:
  - Internet-based test (iBT) 250
  - Paper-based test (PBT) 608

- Minimum IELTS score: 7

- Minimum GRE scores:
  - Verbal + Quantitative
    - Prior to August 1, 2011 1200
    - On or after August 1, 2011 308

**Required Application Materials**

To the Office of Graduate Studies:

- All required Graduate Admissions documents

To the Biological Sciences Program:

- Division of Biological Sciences application form
- GRE test scores
- Official Transcripts
- 3 Reference letters
- Personal Statement
- Statement of previous research or scholarly experience
- Résumé

**Chemistry**

T. Glass, Chair  
College of Arts and Science  
125 Chemistry Building  
(573) 882-8374  
chemistry@missouri.edu

The Department of Chemistry offers four undergraduate degree tracks, three leading to a Bachelor of Science and one leading to a Bachelor of Arts. A minor in chemistry and a Bachelor of Science degree with departmental honors also are offered.

At the graduate level, the department offers MS and PhD degrees in Chemistry.

**Faculty**

Curators Professor J. L. Atwood**  
Rabjohn Professor M. Harmata**  
Schlundt Professor K. S. Gates**  
Assistant Professor G. A. Baker**, S. N. Baker**, M. Lee**  
Assistant Teaching Professor B. C. Ganley  
Instructor L. P. Silverman

* Graduate Faculty Member - membership is required to teach graduate-level courses, chair master's thesis committees, and serve on doctoral examination and dissertation committees.

** Doctoral Faculty Member - membership is required to chair doctoral examination or dissertation committees. Graduate faculty membership is a prerequisite for Doctoral faculty membership.
Research, Advising, and the Committee

Affiliation with research advisor must be made by the end of the first semester through a formal process that is part of CHEM 7087. Student progress in the degree program is evaluated annually in May, using the Graduate Student Progress System through the Graduate School. In addition, the student’s Graduate Program Committee meets with the student and their research advisor after their first summer of research to review degree progress. At this time the student will have submitted a formal Research Progress Report to their committee for consideration. All students are expected to attend Departmental Colloquium and Organic/DyNAMITE seminars.

Department Level Requirements - Chemistry

Requirements - BA or BS students

Students should consult with a chemistry advisor to schedule science and mathematics requirements in the appropriate order. Note that for a number of chemistry courses there is a prerequisite of a grade of C or better in a previous course. Please see the Associate Chair for Undergraduate Studies for assignment of an advisor.

Students also must complete all applicable College of Arts and Sciences and University graduation requirements (p. 138), including University general education (p. 34). Note that students pursuing a BS degree with a major in Chemistry may opt to satisfy the foreign language requirement through alternative course work consisting of no fewer than 12 credits numbered 2000 or above.

Degree Tracks

Beyond the major core requirements, each student must select a degree track. There is one track for students pursuing a BA degree and three for those pursuing a BS. The BA degree is designed to meet the needs of students who wish to gain a strong chemistry background but who may have goals other than employment as a chemist or graduate work in chemistry. The American Chemical Society certification track is recommended for BS students who desire professional employment as chemists or who plan to pursue graduate education in chemistry. A medicinal chemistry track is available to BS students who plan careers in the health professions or in pharmaceutical, clinical or medicinal chemistry. The third BS track, leading to simultaneous completion of a
BS in Chemistry and a BS in Education, is appropriate for those students who wish to teach chemistry in secondary schools. More information about this third degree track is available from the Chemistry Associate Chair for Undergraduate Studies.

Note: "Track" designations do not appear on transcripts or diplomas.

## Double Majors

No specific programs (other than the dual degree program with the College of Education noted above) are offered, although it is possible to combine a chemistry major (BS or BA) with a variety of other majors, including biological sciences, mathematics and physics.

## Departmental Honors

A BS with Honors in Chemistry is available to honors-eligible BS students who complete CHEM 4990H and CHEM 4991H as well as all of the requirements for the ACS Certification Track. (These courses replace CHEM 4950). Please see the Chemistry Honors Coordinator, for more specific details about the Honors in Chemistry program.

## BA in Chemistry

### Degree Program Description

Chemistry is the study of matter and substances in order to understand, explain and predict how substances change. The BA degree is designed for those students who desire a more general education than that provided by the BS degree, but nonetheless are seeking a degree in chemistry. Most chemistry majors continue their education in graduate school or professional school. Many of our graduates are now physicians or have teaching and research careers at universities and colleges. Other graduates are managers in industry and specialists in their fields. This degree also may be appropriate for students in pre-professional programs (pre-medicine, pre-dentistry, pre-pharmacy, and pre-law).

### Major Program Requirements

Department Level Requirements (p. 167) must be completed in addition to all university requirements, including general education (p. 34), and the degree requirements below.

Students should consult with a chemistry advisor to schedule science and mathematics requirements in the appropriate order. Note that for a number of chemistry courses there is a prerequisite of a grade of C or better in a previous course. Please see the Associate Chair for Undergraduate Studies for assignment of an advisor.

Students also must complete all applicable College of Arts and Sciences and University graduation requirements (p. 138), including University general education (p. 34). Note that students pursuing a BS degree with a major in Chemistry may opt to satisfy the foreign language requirement through alternative course work consisting of no fewer than 12 credits numbered 2000 or above.

Total Credits: 19
BS in Chemistry

**Degree Program Description**

Chemistry is the study of matter and substances in order to understand, explain and predict how substances change. The BS degree is designed for those students who desire a more focused education in Chemistry and related Sciences than that provided by the BA degree, which is more general. There are three degree tracks for those who are pursuing a BS. The American Chemical Society certification track is recommended for BS students who desire professional employment as chemists or who plan to pursue graduate education in chemistry. A medicinal chemistry track is available to BS students who plan careers in the health professions or in pharmaceutical, clinical or medicinal chemistry. The third BS track, leading to simultaneous completion of a BS in Chemistry and a BS in Education, is appropriate for those students who wish to teach chemistry in secondary schools. Most chemistry majors continue their education in the best graduate schools or professional schools in the country. Many of our graduates are now physicians or have teaching and research careers at universities and colleges. Other graduates are managers in industry and specialists in their fields.

**Major Program Requirements**

Department Level Requirements (p. 167) must be completed in addition to all university requirements (p. 33), including general education (p. 34), and the degree requirements below.

Students should consult with a chemistry advisor to schedule science and mathematics requirements in the appropriate order. Note that for a number of chemistry courses there is a prerequisite of a grade of C or better in a previous course. Please see the Associate Chair for Undergraduate Studies for assignment of an advisor.

Students also must complete all applicable College of Arts and Sciences and University graduation requirements (p. 138), including University general education (p. 34). Note that students pursuing a BS degree with a major in Chemistry may opt to satisfy the language requirement through alternative course work consisting of no fewer than 12 credits numbered 2000 or above.

Total Credits: 122-123

* Courses satisfy certain University general education requirements.

### Sample Eight-Semester Program - Bachelor of Science with a Major in Chemistry (Medicinal Chemistry Track)

Check the Undergraduate Catalog for Prerequisites.

### MS in Chemistry

At this time, the Department of Chemistry is not accepting students into the Master of Science program. Please see admission information on our PhD Program (p. 170).

### PhD in Chemistry

#### Admission Contact Information

Jerry Brightwell (gradchem@missouri.edu)
125 Chemistry
Columbia, MO 65211
(573) 884-6832

#### Admission Criteria

Fall deadline: February 1
Spring deadline: October 15

- Minimum TOEFL scores:
  - Internet-based test (iBT): 100
  - Paper-based test (PBT): 600

- Minimum GRE scores:
When did you take the GRE?

<table>

</tbody>
</table>

Required Application Materials

To the Graduate School:

- All required Graduate School documents

To the Chemistry Program (https://chemistry.missouri.edu):

- Departmental Application (PDF)
- GRE scores
- 3 letters of recommendation
- Transcripts from each college and university you have attended
- Statement of Purpose, which should include a summary of why you are interested in pursuing an advanced chemistry degree, a brief description of your previous research experiences, the specific area of chemistry you are interested in pursuing, and your future career goals and plans in the chemistry field.

Financial Aid from the Program

Some programs require an extra form or statement from those who wish to be considered for internal assistantships, fellowships or other funding packages. Check the program website or ask the program contact for details.

Doctoral Degree Requirements

The following is a brief synopsis of the general degree requirements; please see the Department of Chemistry website for complete details:

1. Students must take at least 5 8000-level courses outside their own research concentration.
2. Students must pass 5 written cumulative exams within a specific time frame.
3. Students must present at least one departmental seminar.
4. Students are required to complete a comprehensive exam, which includes written and oral elements, within a specific time frame.
5. Students must submit and defend a dissertation describing the results of successful and original research in one of the branches of chemistry.

Classics

Anatole Mori, Department Chair
College of Arts and Science
112B Swallow Hall
(573) 882-0679

The Department of Ancient Mediterranean Studies offers classic courses in the life, languages, cultures, and thought of the ancient Greeks and Romans.

The department offers a BA degree with a major in Ancient Mediterranean Studies and emphasis areas in Classical Humanities, Greek, Latin, and Classical Languages; MA degrees in Classical Languages and PhD degrees in Classical Studies. Minors are also available.

Faculty

Professor S. Gurd**, T. A. Tarkow**, D. Trout**
Associate Professor R. D. Marks**, A. Mori**, D. J. Schenker**, B. P. Wallach*
Assistant Professor M. Farmer*, S. Yona*
Assistant Teaching Professor John McDonald*
Professor Emeritus D. M. Hooley**, C. Saylor*

• Graduate Faculty Member - membership is required to teach graduate-level courses, chair master's thesis committees, and serve on doctoral examination and dissertation committees.

• Doctoral Faculty Member - membership is required to chair doctoral examination or dissertation committees. Graduate faculty membership is a prerequisite for Doctoral faculty membership.

Undergraduate

- BA in Classics (p. 172)
  - with emphasis in Classical Humanities (p. 172)
  - with emphasis in Classical Languages (p. 173)
  - with emphasis in Greek (p. 173)
  - with emphasis in Latin (p. 173)
- Minor in Classics with emphasis in Classical Humanities or Greek or Latin (p. 174)

Major with Honors

The undergraduate program can also include 3-6 credits in an honors thesis course (CL_HUM 4970H or CLASS 4970H). These credits, in addition to major requirements and a 3.5 GPA in all Classics courses (as well as a 3.3 overall GPA), lead to a BA degree with a major in Classics with Honors.

Double Majors

A double major is a good way of integrating two related areas of interest, such as Classics, Archaeology, English and Philosophy. Students looking forward to a career in medicine or the sciences may use a double major (Classics and Biology or Chemistry, for instance) to ensure a thorough background in the humanities to balance their scientific studies. Usually minor or related field requirements for each major are satisfied by major courses in the other department. Consult with departmental advisors about specifics.

Graduate

- MA in Classical Languages (p. 174)
- PhD in Classical Studies (p. 175)

Director of Graduate Studies:
Raymond Marks
222 Swallow Hall
(579)882-0679
MarksR@missouri.edu (marksr@missouri.edu)

The Department of Ancient Mediterranean Studies offers graduate work leading to the degrees of Master of Arts and Doctor of Philosophy. The graduate faculty encourages applications from talented and committed students, whose undergraduate careers have given them an appreciation of the rich, many-faceted nature of classical studies and an interest in
discovering a place of their own in it. Solid experience in Latin and Greek is of course desirable, but Missouri's MA program is specifically designed for students whose study in one or both of the languages may have come late and who need help getting up to speed rapidly.

Career Preparation

Graduate programs in Ancient Mediterranean Studies are designed to prepare students for professional careers as teachers and scholars of classical literature and ancient civilization. Besides acquiring expertise in the traditional classical disciplines, students are encouraged to become familiar with other areas, such as later literatures and cultures, on which the classical tradition has exercised a decided effect.

Facilities and Resources

Because MU is a contributing member of the American Academy in Rome and the American School of Classical Studies in Athens, the facilities of those organizations are available to graduate students from Missouri. Study in Athens or Rome is often feasible after the completion of a master's degree. On campus, students have at their disposal the resources of Ellis Library, which are excellent in the major fields of Greek and Latin languages and literatures, and in ancillary fields. This collection is supplemented by the department’s Walter Miller Collection. The Museum of Art and Archaeology contains many items of interest to classicists.

BA in Classics

Degree Program Description

The Classics major is a broad study of literature, covering a deep knowledge of the elements of language, grammar, and syntax, writing and reading skills, vocabulary building and experience with the foundational texts of the Western literary tradition that have influenced most all of subsequent literary and philosophical thought. The degree has four emphasis areas for students interested in the mythology, literature, history, and culture of ancient Greece and Rome. Three of these emphasis areas — Latin, Greek, and Classical Languages — focus on learning the ancient languages and introduce students to advanced readings in ancient Greek and Latin texts. A fourth emphasis area, Classical Humanities, is available to those students who would like to study the Greek and Latin Classics in translation. In the course of their degree, all classics majors achieve an integrated knowledge of the primary political, social, and military events and developments in the ancient Greek and Roman world. Students completing these majors will be well prepared for a variety of careers and for further study in graduate or other professional schools.

Major Program Requirements

BA major requirements are specified in the four major emphasis areas: Latin, Greek, Classical Languages, and Classical Humanities. These must be met in addition to college (p. 138) and university requirements (p. 33), including University general education (p. 34).

Semester Plan

A sample plan of study has not been designed for this major. Students should contact the academic department for assistance with academic planning.

BA in Classics with Emphasis in Classical Humanities

Degree Program Description

The Ancient Mediterranean Studies major is a broad study of literature, covering a deep knowledge of the elements of language, grammar, and syntax, writing and reading skills, vocabulary building and experience with the foundational texts. The emphasis in Classical Humanities consists of a structured sequence of classes, all using texts in English translation, that guides students through a broad introduction to Classical literature and culture (e.g., Classical Mythology, Greek Culture, and Roman Culture) into more specialized study of some of the most important literary works and cultural traditions of the western world. The Classical Humanities emphasis area offers a thorough course of study to any student broadly interested in ancient culture as well as a sound pre-professional education. Students completing the major will be well prepared for a variety of careers and for further study in graduate or other professional schools.

Major Program Requirements

Below are the degree requirements. These must be met in addition to college (p. 138) and university requirements (p. 33), including University general education (p. 34).

### Semester Plan

A sample plan of study has not been designed for this major. Students should contact the academic department for assistance with academic planning.

### BA in Classics with Emphasis in Greek

#### Degree Program Description

The Classics major (within the Department of Ancient Mediterranean Studies) is a broad study of literature, covering a deep knowledge of the elements of language, grammar, and syntax, writing and reading skills, vocabulary building and experience with the foundational texts. Students pursuing Classics with an emphasis in Greek will have coursework that is Greek centered. Students master the grammar, syntax, and vocabulary of the Greek and/or Latin languages, for reading and writing; the distinguishing characteristics of the various styles of the poets and prose writers active during various literary periods; and the fundamental structural elements common to all languages. In addition, students learn to read and translate central Greek and Latin texts, and to identify the resources that will help them read other texts. Students completing the major will be well prepared for a variety of careers and for further study in graduate or other professional schools.

### Major Program Requirements

Below are the degree requirements. These must be met in addition to college (p. 138) and university requirements (p. 33), including University general education (p. 34).

</tbody>
</table>

(may be used to help satisfy the foreign language requirement in the College of Arts and Science)

### Semester Plan

A sample plan of study has not been designed for this major. Students should contact the academic department for assistance with academic planning.

### BA in Classics with Emphasis in Latin

#### Degree Program Description

The Classics major (within the Department of Ancient Mediterranean Studies) is a broad study of literature, covering a deep knowledge of the elements of language, grammar, and syntax, writing and reading skills,
vocabulary building and experience with the foundational texts. Students pursuing Classics with an emphasis in Latin will have coursework that is Latin centered. Students master the grammar, syntax, and vocabulary of the Greek and/or Latin languages, for reading and writing; the distinguishing characteristics of the various styles of the poets and prose writers active during various literary periods; and the fundamental structural elements common to all languages. In addition students learn to read and translate central Greek and Latin texts, and to identify the resources that will help them read other texts. Students completing the major will be well prepared for a variety of careers and for further study in graduate or other professional schools.

Major Program Requirements

Below are the degree requirements. These must be met in addition to college (p. 138) and university requirements (p. 33), including University general education (p. 34).

MarksR@missouri.edu

Admission Criteria

Fall deadline: April 1st
Spring deadline: November 1st (Departmental support not typically available)

- Minimum GPA: 3.0 during last 2 years
- Bachelor of arts degree from an accredited college or university
- Reading knowledge of Greek and/or Latin
- GPA of at least 3.0 in Greek and/or Latin courses
- Minimum GRE score: no minimum
- Minimum TOEFL scores

<table>
<thead>
<tr>

</tbody>
</table>

Required Application Materials

To the Office of Graduate Studies

- 3 letters of recommendation
- Statement of interest
- 10-20 pp. writing sample
- Transcripts
- GRE scores

Application materials that cannot be submitted directly to the Office of Graduate Studies may be sent to the Classical Studies program.

Financial Aid from the Program

Some programs require an extra form or statement from those who wish to be considered for internal assistantships, fellowships or other funding packages. Check the program website or ask the program contact for details.

Plan of Study

The minimum course of study is 30 semester hours. Of these, at least 12 hours in Greek, Latin, classics and related fields must be at the 8000/9000 level or above, and at least six hours must be in courses in other departments. At least 21 of the 30 hours must be completed in Greek, Latin or classics in the department. CLASS 7000 is required of all students during their first year of graduate study. Students who wish to have a minor may take 10-12 hours in another department or complete an ancient studies minor.
Languages

Some command of German and French (or Italian) is helpful from the outset, and MA candidates are required to have demonstrated proficiency in one of the languages by the time that they begin their second year of graduate study. Degree candidates take MA language tests (Latin and/or Greek) in the 2nd or 3rd year of graduate studies.

Written Works and Oral Examination

A final oral examination is given by a faculty committee selected by the student in consultation with the advisor. This examination will include defense of either the thesis or a compiled portfolio of seminar papers. If the former option is elected, the thesis will account for six credit hours.

PhD in Classical Studies

Admission Contact Information

Raymond Marks
222 Swallow Hall, Columbia, MO 65211
(573) 882-0679
MarksR@missouri.edu

Admission Criteria

Fall deadline: April 1st
NOTE: Deadline for teaching assistantship applicants: January 15th
Spring deadline: November 1st (Departmental support not typically available)

• MA with a major in Greek, Latin or classics, or the equivalent of a minimum of 21 hours of graduate work in the language(s). Reading knowledge of Greek and Latin and a reading knowledge of German and French (or Italian)

• Minimum GRE score: no minimum

• Minimum TOEFL scores:
  - Internet-based test (iBT) 61
  - Paper-based test (PBT) 500

Required Application Materials

To the Office of Graduate Studies

• 3 letters of recommendation
• Statement of interest
• 10-20 pp. writing sample
• Transcripts
• GRE scores

Application materials that cannot be submitted directly to the Office of Graduate Studies may be sent to the Classical Studies program.

Financial Aid from the Program

Some programs require an extra form or statement from those who wish to be considered for internal assistantships, fellowships or other funding packages. Check the program website or ask the program contact for details.

Language Requirements

Proficiency in one of the modern foreign languages (i.e., French, German, or Italian) must be demonstrated by the time of registration for the second year of graduate study; proficiency in the second language must be demonstrated by the time of registration for the third year.

Plan of Study

A minimum of 72 hours of graduate credit is required for the PhD degree. A maximum of 30 hours of this total may consist of hours transferred from the MA degree. At least 21 additional hours must be taken in the department at the graduate level. A minimum of eight hours of dissertation credit is required. At least two courses in related ancient fields, one of which must be in ancient history or classical archaeology, must be taken at the graduate level. Proficiency in Greek and Latin composition must be demonstrated at some point by course work or examination.

Minors and Areas of Concentration

All candidates must include in their plan of study a minor or area of concentration consisting of at least 12 hours at the graduate level outside the department. Suggested areas include ancient history, classical archaeology, the classical tradition, late antiquity, the oral tradition, rhetoric, or romance languages. A structured minor in ancient studies also is available.

Examinations

All candidates are required to complete two four-hour qualifying examinations, one in Greek and one in Latin.

Comprehensive: Written

After completing residency, language, and course requirements, PhD candidates must pass the comprehensive examination consisting of four written examinations in the following fields: Greek literature, Latin literature, special author or topic, and area of concentration or minor field. With the approval of the advisor and the candidate’s committee, extra course work beyond the required 12 hours may be substituted for the written examination in the area of concentration or minor field. Ancient Studies minors are automatically excused from the examination in the minor field.

Comprehensive: Oral

The oral comprehensive examination is taken only after the candidate successfully passes the written examinations.

Dissertation

Within one month of completion of both written and oral comprehensive exams, or at the beginning of the Fall term if the exams are taken in May, the candidate must meet with the doctoral program committee to obtain formal approval of the dissertation topic. Continuous enrollment must be maintained while the candidate completes the dissertation. At least eight hours of dissertation credit are required. A final oral defense of the dissertation is held upon completion of the dissertation.

Communication

Mitchell McKinney, Chair
College of Arts and Science
108 Switzler Hall
(573) 882-4431
http://communication.missouri.edu
The Department of Communication offers courses in creating and critically evaluating messages. These messages persuade, inform and entertain in contexts such as one-to-one interactions, communication in organizations, and media. Students prepare for careers in broadcasting, sales, public relations, law, politics, marketing and new media. The department offers BA, MA and PhD degrees with majors in Communication.

Faculty

Associate Professor D. S. Dougherty**, M. S. McKinney**, R. Meisenbach**
Assistant Professor L. Behm-Morawitz**, M. Click**, C. Colaner**, K. Harris, J. B. Houston**, B. Warner*
Assistant Teaching Professor A. Villamil
Associate Professor Emeritus M. J. Porter, M. J. Smythe
Adjunct Professor D. Dunkin, M. W. Dunn*, R. Karwoski
Professor Emeritus L. Reid

* Graduate Faculty Member - membership is required to teach graduate-level courses, chair master's thesis committees, and serve on doctoral examination and dissertation committees.
** Doctoral Faculty Member - membership is required to chair doctoral examination or dissertation committees. Graduate faculty membership is a prerequisite for Doctoral faculty membership.

Undergraduate

- BA in Communication (p. 176)

Admission

Because of student interest in communication programs, admission is restricted. Students must apply for admission no earlier than the first semester of their sophomore year, or during the semester in which they will complete 45 credits. A copy of the admission procedures and policies is available in the department office or at http://communication.missouri.edu.

The student's grade point average from the MU system as adjusted by the MU grade repeat policy and the grade point averages in completed communication courses at MU are the primary criteria used to determine admission to the program.

Transfer Student Admission

Transfer students are not eligible for admission until they have completed at least one semester in residence (12 credits) and a communication course in residence. Students who are not admitted may reapply for consideration in subsequent terms.

Departmental Honors

To receive departmental honors, a student must earn a minimum overall MU GPA of 3.3 and a minimum GPA of 3.5 in courses in communication completed at the University of Missouri. Students must a research project for a minimum of 3 credits with a faculty member, or a creative project completed for a minimum of 3 credits with a faculty member.

http://communication.missouri.edu/

Director of Graduate Studies: Mitchell McKinney

About the Program

The program takes a theoretical, critical, and experimental approach to the study of communication. The MA program is designed to further enhance the understanding of the communication process by allowing students to study various aspects of communication in greater depth. Graduates are employed in corporate communication, educational and instructional media, sales, research and consulting. The doctoral program is designed for those interested in an academic career of college or university teaching and research. Doctoral students graduate with a strong theoretical background in interpersonal, mass media, organizational, or political communication.

Funding

Graduate students are eligible to apply for fellowships and graduate teaching assistantships. Funding is normally limited to doctoral students.

BA in Communication

Degree Program Description

Communication students navigate rich environments using communication theories and models, critically evaluate messages and arguments, and effectively advocate their values, beliefs, and opinions using communication principles. Graduates are able to create persuasive messages for a variety of contexts using verbal and nonverbal, written, and mediated communication. The curriculum for the degree covers four main areas: interpersonal, mass media, organizational, and political communication. Students are asked to specialize in one area but are required to explore two additional areas. Interpersonal and family communication focuses on communication processes in family and personal relationships. The mass media area studies theory and research related to media content and use, media effects, and audience reception. Students in this area have the opportunity to gain valuable hands-on experience in digital production. Organizational communication focuses on the various ways in which we produce, enact, and generally conduct our lives in various organizational contexts. Political communication studies the communicative activity of citizens, political figures and campaigns, government institutions, and social movements. Professional internships and two undergraduate organizations are offered and student participation is strongly encouraged. A degree in Communication is not intended to provide specific vocational training, but to prepare students for professional opportunities requiring active communication skills. Recent graduates have found careers in sales, public relations, marketing, advertising, promotions, political consulting, corporate communications, event planning, social media, media production, law, education, and public policy.

Major Program Requirements

The major in communication includes a minimum of 30 hours and a maximum of 40 hours in communication courses. Each course is 3 credits unless otherwise noted. Students must also complete College of Arts...
and Sciences (p. 138) and University requirements (p. 33), including University general education requirements (p. 34).

Areas of Focus

In addition to required courses, a student must select one of four areas of focus. Students must complete 12-18 hours in one area of focus including one of the core courses in that area (*). The student must take one course in two of the three other areas of focus. A course may only count once toward meeting these requirements. Students must have at least one 4000+ level course in the major. (Areas of Focus will not appear on transcripts or diplomas.)

Admission procedures for students who have completed the MA degree elsewhere and wish to become PhD candidates are identical to the departmental requirements outlined for MA candidates. Only those applicants who show evidence of a clear likelihood of successful doctoral work are admitted.

**Required Application Materials**

To the Graduate School
All required Graduate School documents

To the Communication Program

- GRE scores
- Departmental Application
- 3 letters of recommendation
- Example of scholarly writing (no more than 25 pages)
- Transcripts
- Statement of Interest
- Résumé

**Financial Aid from the Program**

Some programs require an extra form or statement from those who wish to be considered for internal assistantships, fellowships or other funding packages. Check the program website or ask the program contact for details.

**Plan of Study**

Before registering for courses, the student must confer with their temporary advisor until a permanent advisor is assigned.

**Committee and Qualifying Requirements**

A doctoral program committee approves the student’s course of study and determines if the student has passed the qualifying requirements during the spring semester of the first year. Only after passing the qualifying requirements will the student be admitted to candidacy for the PhD degree in communication.

For a student whose MA program was done at MU, the six-hour comprehensive examination or the MA thesis defense constitutes the qualifying process. The student may proceed beyond the MA degree only upon the recommendation of the MA examining committee.

**Courses**

The PhD candidate must take at least 48 hours of course work beyond the MA. Students with an MA degree in another discipline may be required by their doctoral program committee to complete additional course work. Course work will include 36 hours within the department. The following courses are required:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>COMM 8110</td>
<td>Introduction to Graduate Study in Communication</td>
<td>3</td>
</tr>
<tr>

</tr>
<tr>
<td>COMM 8160</td>
<td>Rhetorical Criticism</td>
<td>3</td>
</tr>
<tr>
<td>COMM 8140</td>
<td>Content Analysis</td>
<td>3</td>
</tr>
</tbody>
</table>

Including the courses listed above, students must complete a total of 15 hours of research methods classes. Nine of these hours may be taken outside the department.

Students must also complete a 6-hour collateral field block outside the department representing a coherent unit of study and relates to an area of major research interest.

**Comprehensive Examination**

The comprehensive examination, including a 30-page literature review, a 15-hour written exam and an oral defense, will cover all areas of studies in the field. During the semester students take comprehensive exams they enroll in.

**Dissertation**

The doctoral dissertation is written under the direction of the candidate’s advisor. The dissertation and the final oral examination on the dissertation complete the requirements for the PhD in communication. Students take a minimum of six hours of.

**Length of Study**

Course work and comprehensive exams for the PhD must be completed in five years. The dissertation must be completed within five years of completing comprehensive examinations. Satisfactory rate of progress means making adequate progress to meet these time requirements. Students working at a typical pace should be able to complete the doctorate in 4 years beyond their master’s.

**Digital Storytelling**

Katina Bitsicas, Program Director
School of Visual Studies, College of Arts and Science
226 Tate Hall
(573) 882-7547
https://visualstudies.missouri.edu/digital-storytelling

Digital Storytelling within the School of Visual Studies combines the ancient practices of narrative with new and emerging tools of multimedia environments. The program emphasizes skills in writing, visual communication and design, and production. Like other forms of storytelling, digital storytelling reaches audiences for artistic, educational, and commercial purposes, translating human knowledge and experience into multimedia spaces. In an age of big data and rapidly changing communication environments, translational skills to connect audiences with interdisciplinary knowledge and expressive arts—from public health to climate science to campaigns to video games—are in high demand.
across business, government, nonprofit and research sectors. Training in the field requires literacy in narrative, multimedia and networked communication, as well as all elements of digital production, including writing, audio and visual production, and design.

Faculty

Associate Professor J. Hearne
Assistant Professor K. Bitsicas, J. Erb, C. Rozier

* Graduate Faculty Member - membership is required to teach graduate-level courses, chair master's thesis committees, and serve on doctoral examination and dissertation committees.

** Doctoral Faculty Member - membership is required to chair doctoral examination or dissertation committees. Graduate faculty membership is a prerequisite for Doctoral faculty membership.

Undergraduate

• BA in Digital Storytelling (p. 180)
• Minor in Digital Storytelling (p. 180)

Graduate

There currently is not a degree in Digital Storytelling offered at the graduate level.

BA in Digital Storytelling

Degree Program Description

The Digital Storytelling Program is an interdisciplinary B.A in the School of Visual Studies, that combines narrative and conceptually driven studies with new and emerging multimedia tools to achieve a balance between aesthetic and imagination. Through a variety of academic units including art, film studies, information technology, art history, English, theater and architectural studies, students take courses in writing, critical studies, art, video production and animation. Like other forms of storytelling, digital storytelling translates human knowledge and experience to reach audiences for artistic, commercial and social justice purposes. In arenas ranging from public health to video games to museum education, digital content creators are in high demand across business, government, nonprofit and artistic research sectors. Training in the field requires literacy in narrative, multimedia and networked communication, as well as all elements of digital production, including writing, audio and visual production, and design.

In addition, students must complete all College of Arts and Science and University graduation requirements (p. 33), including University general education (p. 34).

**Electives (6 credit hours)**

Can be chosen from Art, Digital Storytelling, Film Studies, English, Journalism, Communication, Information Technology, Theatre, Art History and can be found here: https://visualstudies.missouri.edu/sites/default/files/ds/digital_storytelling_electives.pdf
The Department of Economics takes a global view of economics, with an emphasis on applied problems. An economics major prepares students for careers in business and government and for graduate work in areas such as economics, business and law. A basic understanding of economics develops insight into the many issues facing contemporary society, such as corporate downsizing, environmental pollution, urban decay, poverty, international trade, health care, educational reform, politics and sports deals.

In addition to the BA and the BS degree in the College of Arts and Science, the Department of Economics offers an emphasis area within the Bachelor of Science in Business Administration (BSBA) degree in the Trulaske College of Business. The department also offers MA and PhD degrees in Economics as well as a minor.

** Faculty **

Cook Chair  C. Otrok**
Foster Professor  R. Harstad**
Lay Chair  J. H. Haslag**
Research Professor  W. A. Brock
Associate Professor  S. P. Aura**, C. Gu**, C. Koedel**, O. Loginova**, J. I. Miller**, V. Trindade*
Assistant Professor  A. Hedlund*, D. Kaplan**
Associate Teaching Professor  G. Chikhladze, M. Lee
Associate Research Professor  M. Ehler
Assistant Research Professor  B. Kisida, E. Parsons*
Assistant Adjunct Professor  K. Choe
Adjunct Professor  E. M. Basker, R. Ratti, L. Thomas
Professor Emeritus  J. Kuhlman, C. F. Menezes, R. Wallace
Associate Professor Emeritus  C. Geiss, D. Schilling

* Graduate Faculty Member - membership is required to teach graduate-level courses, chair master's thesis committees, and serve on doctoral examination and dissertation committees.

** Doctoral Faculty Member - membership is required to chair doctoral examination or dissertation committees. Graduate faculty membership is a prerequisite for Doctoral faculty membership.

### Undergraduate

- **BA in Economics** (p. 182)
- **BS in Economics** (p. 183)
- **Minor in Economics** (p. 184)

Before a graduation plan in economics will be approved, students in the College of Arts and Science must have a cumulative GPA of 2.0 or a 2.0 GPA in economics coursework.

### Departmental Honors

Candidates for Economics departmental honors must be Economics majors with at least a cumulative GPA of 3.30 and, in Economics courses taken at the University of Missouri-Columbia, at least a GPA of 3.50 for BA majors or a 3.25 for BS majors. Candidates must complete ECONOM 4371 Introductory Econometrics and ECONOM 4995 Honors Thesis during their junior or senior year and must receive a grade of B or higher in order to be awarded Department Honors.

### Double Majors, Dual Degrees and Five-Year Program

For double majors and dual degrees, students must satisfy all requirements of both degree programs. Some courses may be allowed to count toward both degrees. Carefully chosen elective courses in addition to required courses can facilitate double majors and dual degrees.

Common double majors in the College of Arts and Science are:
- BA with majors in Economics and Political Science, Psychology, History, English or Communication
- BS with majors in Economics and Statistics or Mathematics

Common dual degrees with other schools and colleges are:
- BA with majors in Economics and Journalism or Education
- BS with majors in Economics and Engineering, Accountancy, Finance, or Marketing

By planning their courses carefully, Economics majors can earn a bachelor's and a master's degree in economics in five years. Students who are in the BA or BS programs are good candidates for this program. Students must be accepted to this program by the beginning of their senior year.

Students interested in pursuing any of these options should contact the Undergraduate Academic Advisor in economics for further advising.

### Economics Emphasis Area in Business Administration Major

See the Trulaske College of Business for requirements for the Bachelor of Science with a major in Business Administration (BS BA) with an emphasis in Economics (p. 363).

### Graduate

- **MA in Economics** (p. 185)
  - with emphasis in Econometrics and Quantitative Economics (p. 185)
- **PhD in Economics** (p. 186)
Economics is a broad discipline that explores the factors that determine production, distribution, and consumption of resources. An Economics degree provides a good foundation on how the economy and the world works and an understanding of the effects of policy issues. The BA degree is designed for students who plan to continue their education in non-economics fields and for students who plan to seek employment after graduation. Post-graduate educational alternatives include law school or programs in the business school, political science and journalism. Graduates in Economics enter a diverse field of jobs in government, banking, insurance or other financial sectors, private sector businesses or even open their own businesses. Frequently, students in humanities or fine arts complete a BA in Economics as a second major in order to increase their employment potential.

### Major Program Requirements

Students must earn a grade of C- or higher in all Economics, Mathematics and Statistics courses, and must have at least a 2.0 GPA in Economics courses to earn the degree. At least 21 credit hours in Economics must be completed in residence. In addition to the major core requirements, students must complete college and University graduation requirements (p. 33) including University general education requirements (p. 34).

Degree Program Description
Economics is a broad discipline that explores the factors that determine production, distribution, and consumption of resources. An Economics degree provides a good foundation on how the economy and the world works and an understanding of the effects of policy issues. The BS degree in Economics is a challenging degree program specifically designed for students who plan to attend graduate school in Economics, Finance, or related fields. The curriculum includes more quantitative coursework than the BA degree, but still allows students to take electives that focus on various aspects of economics, such as labor, law, and education. Graduates in Economics enter a diverse field of jobs in government, banking, insurance or other financial sectors, private sector businesses or even open their own businesses. Often students pursuing a BS degree double major with Mathematics or Statistics and look at employment positions in actuarial science or more analytical fields.

Major Program Requirements
Students must earn a grade of C- or higher in all Economics, Mathematics and Statistics courses, and must have at least a 2.0 GPA in Economics courses to earn the degree. At least 21 credit hours in Economics must be completed in residence. In addition to the major core requirements, students must complete college and University graduation requirements (p. 33) including University general education requirements (p. 34).

BS Tracks in Economics
The BS Quantitative Track is a degree program for students who plan to attend graduate school in Economics, Finance, or related fields. The curriculum includes more quantitative coursework than the BA degree, but still allows students to take electives that focus on various aspects of economics, such as labor, law, and education. Graduates in Economics enter a diverse field of jobs in government, banking, insurance or other financial sectors, private sector businesses or even open their own businesses. Often students pursuing a BS degree double major with Mathematics or Statistics and look at employment positions in actuarial science or more analytical fields.

Major Core Requirements for BS in Economics

**Electives**
Students must complete at least five (for the BA) or four (for the BS) of the following electives, with no more than two at the 3000 level, selected with the advisor and completed with a grade of C- or above. One of the chosen Economics Electives should be taken as Writing Intensive. Students who double or dual major will be eligible to waive one 3000 level Economics Elective course.

Foreign Language Alternative (for BS degree)
A student may elect to fulfill a special option area instead of taking a foreign language. This area consists of at least 12 credits numbered 2000 or above that are not from the parent department, are not normally required of all departmental majors and do not appear elsewhere in the area of concentration. The foreign language alternative is planned by the student with the Economics Academic Advisor and must be approved by the Director of Undergraduate Studies.

Electives
Students must complete at least five (for the BA) or four (for the BS) of the following electives, with no more than two at the 3000 level, selected with the advisor and completed with a grade of C- or above. One of the chosen Economics Electives should be taken as Writing Intensive. Students who double or dual major will be eligible to waive one 3000 level Economics Elective course.

Minor in Economics

Students wishing to minor in economics must take a minimum of 18 credits in economics*. Economics courses not taken in residence must be approved by the Department, but at least nine hours must be completed at MU. All courses must be completed with a grade of C- or higher with an Economics GPA of at least 2.0. Students who take both ECONOM 3251 and ECONOM 4351 will receive credit for only one of these courses.

Students pursuing the Bachelor of Science in Business Administration with an emphasis in Economics are not eligible to earn the Economics minor.

Minor Requirements
MA in Economics

Degree Requirements
To fulfill requirements for the MA degree, a candidate must complete a 30-hour approved program of study. This includes 21 credit hours of core courses:

- ECONOM 7370 Quantitative Economics 3
- ECONOM 7371 Introductory Econometrics 3
- ECONOM 8451 Microeconomic Theory 3
- ECONOM 8453 Macroeconomic Theory 3
- ECONOM 8473 Applied Econometrics 3
- ECONOM 8413 Research Workshop I 3

1 ECONOM 9451 may be substituted for ECONOM 8451, ECONOM 9453 may be substituted for ECONOM 8453, ECONOM 9472 may be substituted for ECONOM 8473, and enrollment in 9000-level courses may require consent of the department and/or the instructor.

PhD Track
Students can also earn an MA while working toward a PhD by passing the comprehensive examination.

Admissions
Applicants are required to meet two sets of minimum qualifications for admission: the requirements of the MA in the Economics program (http://gradstudies.missouri.edu/academics/programs/economics/master-of-arts-in-economics.php) and the minimum requirements of the Office of Graduate Studies (http://gradstudies.missouri.edu/admissions/eligibility-process/minimum-requirements.php). Because requirements vary, you must refer to a degree program’s graduate admission page to learn about specific admission criteria, application deadlines, eligibility and application process. Before official admissions to the University of Missouri, your application materials will be reviewed by both the Office of Graduate Studies and the degree program to which you’ve applied.

Admission Contact Information
 Lynne Owen Owenle@missouri.edu
 118 Professional Bldg.
 Columbia, MO 65211
 (573) 884-7989

Admission Criteria
Fall deadline: Open

Bachelor’s degree in any field
Minimum GRE scores: Quantitative = 155
Minimum TOEFL scores:
Internet-based test (iBT) | Paper-based test (PBT)
---|---
80 | 550
Minimum Academic IELTS scores:

<table>
<thead>
<tr>
<th>Item</th>
<th>Score</th>
</tr>
</thead>
<tbody>
<tr>
<td>Overall score</td>
<td>6.5</td>
</tr>
</tbody>
</table>

Students with a bachelor’s degree in any field may apply for admission into the master’s program. Applicants are admitted on the basis of an undergraduate record, with particular emphasis on performance in economics, mathematics, and statistics courses, performance on the GRE, and letters of recommendation. Although the graduate program assumes mathematical background through calculus, as well as undergraduate economics training, applicants with more limited backgrounds may be accepted into the program. Such individuals will be assigned supporting course work, some or all of which may be counted toward fulfilling requirements.

Required Application Materials
To be uploaded to the MU Online Graduate Application for Admission:
- Your transcript from every college or university you have attended
- Your résumé
- Your personal statement
- Two letters of recommendation
- A copy of your official TOEFL or IELTS score. Your official TOEFL or IELTS scores (sent directly from the Educational Testing Service) must be submitted directly to the Graduate Admission Office (210 Jesse Hall, Columbia, MO 65211) * International Applicants only.
- Your official GRE scores (sent directly from the Educational Testing Service)

MA in Economics with Emphasis in Econometrics and Quantitative Economics

All MA students in Economics with good academic standing may apply to add the emphasis in Econometrics and Quantitative Economics to their program. The emphasis area requires 9 credit hours. Students may satisfy the requirements for the MA and the emphasis area at the same time.

Required Courses: (must have 3.0 GPA average)

Two 9000-level economics courses in one area of specialization 6

Four other 9000-level economics courses (excluding ECONOM 9090 and ECONOM 9480) 12

15 credit hours of ECONOM 9085, Econom 9480 or other electives 15

Dissertation research 12

Total Credits 72

Courses taken to satisfy these requirements (except dissertation research) may be taken while earning an MA at MU, or, as with students entering the program with prior graduate coursework, at other accredited colleges and universities as recommended by the Graduate Studies Committee.

Qualifying Process

Students pursuing the PhD degree must pass a qualifying examination. Upon completion of relevant required courses in the first year, students take the qualifying examination, which covers microeconomics, macroeconomics and econometrics. The exam is 6 hours in length; it is administered in parts with two-hours devoted to each of the three core subjects. The first offering of the exam is in late May. Students who fail to pass all three parts of the exam the first time may retake the failed part(s) the following July/August. Students who fail the exam may continue in the MA program.

Comprehensive Examination Process

Students pursuing the PhD degree must pass a comprehensive examination. The comprehensive exam has a written section and an oral section, both administered by the student’s dissertation committee. The oral section of the comprehensive exam is part of the dissertation proposal defense.

Dissertation Requirements

The dissertation must make a substantial contribution to knowledge. Upon completion of the dissertation, students pursuing the Ph.D. degree must pass a final oral examination. This exam can include an evaluation of the dissertation, the student’s defense of the dissertation, and the student’s general comprehension of economics, and is open to the academic community.

Admissions

Admission Contact Information
Lynne Owen Owenle@missouri.edu (owenle@missouri.edu)
118 Professional Bldg.
Columbia, MO 65211
(573) 884-7989

Admission Criteria

Fall deadline: February 1

The minimum requirements for admission into the PhD program are

Undergraduate GPA 3.0

Minimum GRE scores: Quantitative = 155

Minimum TOEFL scores:

<table>
<thead>
<tr>
<th>Internet-based test (IBT)</th>
<th>Paper-based test (PBT)</th>
</tr>
</thead>
<tbody>
<tr>
<td>80</td>
<td>550</td>
</tr>
</tbody>
</table>

Minimum Academic IELTS scores:

<table>
<thead>
<tr>
<th>Item</th>
<th>Score</th>
</tr>
</thead>
<tbody>
<tr>
<td>Overall Score</td>
<td>6.5</td>
</tr>
</tbody>
</table>

Ordinarily, to be accepted for advisement in the PhD program, a student must have a master’s degree in economics, or, alternatively, the student must meet the requirements for admission to the MA program, together with the requirement of an adequate background in economics, mathematics and statistics.

Required Application Materials

The following items are required to be uploaded to the MU online Graduate Application for Admission:

• Your transcript from every college or university you have attended
• Your résumé
• Your personal statement
• Three letters of recommendation
• A copy of your official TOEFL or IELTS score. Your official TOEFL or IELTS scores (sent directly from the Educational Testing Service) must be submitted directly to the Graduate Admission Office (210 Jesse Hall, Columbia, MO 65211) * International applicants only.
• Your official GRE scores (sent directly from the Educational Testing Service)

Specialization

Fields

Students are required to complete one area of specialization consisting of two courses and a field paper. It is expected that this area will be related to the objectives of the student’s dissertation. The instructors of the field courses will provide written guidance about field papers and oversee the content of the research paper, and the instructor of the PhD research workshop (ECONOM 9413) oversees the mechanics of the paper. Field requirement is satisfied after both courses have been passed and the instructor(s) of both field courses as well as ECONOM 9413 approve the field paper. The areas of specialization from which the student can choose are listed below. The department commits itself to offering a second course in any field to all students who have completed an initial course in the field, within two semesters of the student completing the
initial course (not counting the summer semester). This course may consist of a readings course with one of the faculty members in the field in lieu of a regular course. If a readings course is provided, then the faculty member is required to provide the department with the reading list for the course.

List of Fields and Courses

Econometrics
ECONOM 9476  Advanced Topics in Econometrics II  3
ECONOM 9477  Advanced Topics in Econometrics III  3

Industrial Organization
ECONOM 9455  Monopoly and Competition  3
ECONOM 9471  Advanced Game Theory  3

International Economics
Labor Economics
Monetary Economics
ECONOM 9430  Advanced Money and Banking  3
ECONOM 9431  Central Banking Policies  3

ECONOM 9446  Advanced Empirical Methods  3
ECONOM 9447  Topics in Microeconomic Policy Analysis  3

Statement on Satisfactory Progress

1. Taking and completing required course work on schedule and maintaining a GPA of at least 3.0.
2. Enrollment in a full-time program of study, i.e., completion of at least 9 credit hours per semester.
3. Taking and passing qualifying and comprehensive examinations on schedule.
4. Completing the field requirement on schedule.

PhD in Economics with Emphasis in Econometrics and Quantitative Economics

All PhD students in Economics with good academic standing may apply to add the emphasis in Econometrics and Quantitative Economics to their program. The emphasis area requires 12 credit hours. Students may satisfy the requirements for the PhD and the emphasis area at the same time.

Required Courses: (must have 3.0 GPA average)
ECONOM 8370  Mathematics for Economics  3
ECONOM 9472  Econometric Theory I  3
ECONOM 9473  Econometric Theory II  3
ECONOM 9474  Advanced Topics in Econometrics I  3

(573) 882-6421

The English Department provides a major that not only grants a broad introduction to a range of literary and cultural study and creative activities, but also allows students to work more intensely in particular subfields of the discipline, including literary history, critical theory, film and cultural studies, linguistics, and creative writing. A major in English develops skills in reading, critical thinking, and writing. A degree in English is not intended to provide specific vocational training but rather to give a broad education that can lead to many different careers, especially those requiring excellent communication skills and analytical thinking.

Recent graduates have gone on to careers in teaching, publishing, television, film, advertising, public relations, insurance, and government. In addition, English is excellent preparation for graduate or professional schools such as law and business.

The department offers BA, MA, and PhD degrees with majors in English. Two minors are also available, the English minor and the English writing minor.

Faculty

Assistant Professor G. Fried**, R. Grollemund*

Associate Professor Emeritus H. Hinkel*, D. G. Hunt*, M. Patton*, G. Swan

Curators' Professor Emeritus E. Lawless*

*  Graduate Faculty Member - membership is required to teach graduate-level courses, chair master's thesis committees, and serve on doctoral examination and dissertation committees.
** Doctoral Faculty Member - membership is required to chair doctoral examination or dissertation committees. Graduate faculty membership is a prerequisite for Doctoral faculty membership.

Undergraduate

• BA in English (p. 188)
• Minor in English (p. 189)
• Minor in English Writing (p. 190)

Director of Undergraduate Studies: Samuel Cohen

Departmental Honors

To graduate with honors in English, students must have a cumulative GPA of 3.3 and a GPA of 3.5 in English courses and successfully complete ENGLSH 4996 and ENGLSH 4995. Students wishing to enroll in these courses must complete an application process in January of their junior year. More information is available from the Director of Undergraduate Studies or the department's Academic Advisor.

Director of Graduate Studies for Advising and Admissions: Emma Lipton

About the Program

With more than one hundred M.A. and Ph.D students and about 500 undergraduates, we are one of the largest and most diverse departments on the Columbia campus. We offer a wide range of courses in British and American literature and creative writing, as well as special emphases in African Diaspora Studies, Critical Theory, and English Language and Linguistics.

Subject Areas

Lecture courses, seminars and directed research are available in British and American language and literature, creative writing, critical theory, language and linguistics, and African diaspora studies.

Funding

Students admitted to the graduate program usually receive a fellowship or teaching assistantship. Outstanding applicants will also be eligible to compete for a variety of college and university fellowships. The deadline for applications to both the MA and PhD programs is January 1. Announcements of awards are made by early April.

Publications Experience

Students will also have the opportunity to assist faculty in editing The Missouri Review, a nationally recognized journal of fiction, poetry and essays; Persea Books, a small, venerable publishing house; and Oral Tradition, the only journal involved in the comparative study of oral traditions.

BA in English

Degree Program Description

English majors are asked to think in terms of both the breadth and depth of their knowledge, studying a wide variety of topics, periods and methods; developing skills in reading, critical thinking, and writing; and delving deeply into a particular area of interest. Students study literature from around the world and from all historical periods, learn about the theory and practice of writing through the study of rhetoric and composition, and acquire skills as writers of fiction, poetry, and nonfiction. The BA in English requires the following types of courses: period studies and surveys, author studies, genre/thematic studies, and theory/method studies. Students must also take several courses in an area of specialization such as Medieval Literature; Renaissance/Early Modern Literature; 18th and 19th Century Literature; 20th and 21st Century Literature; African Diaspora Studies; Post-Colonial Literature; Literary, Critical or Rhetorical Theory; Creative Writing; Composition; English Language and Linguistics; Folklore Studies; Film and Digital Studies; or Gender and Sexuality Studies. A degree in English is intended to provide a broad, open-ended education that can lead to many different careers, especially those requiring excellent communication skills and analytical thinking. Recent graduates have gone on to careers in teaching, publishing, television, film, advertising, public relations, insurance, government, public service, management, and law.

In addition, students must complete all College of Arts and Science and University graduation requirements (p. 33), including University general education (p. 34).

Major Program Requirements

English majors must complete a minimum of 30 credit hours in English. At least 24 credit hours in the major must be at the 3000-level or above. At least 9 credit hours must be at the 4000-level. A minor in a different discipline is recommended.

No more than 40 credit hours in English may be counted toward graduation. The required English composition credits are excluded from this maximum and are recommended to be taken before the student enrolls in any English courses numbered above 2009.

Honors: Students may take an additional 3 hours (33 total) to complete ENGLSH 4995 Senior Honors Thesis. Note that ENGLSH 4996 Honors Seminar in English, will count towards the 9-hour requirement for 4000-level classes, ENGLSH 4995 Senior Honors Thesis, will not.

Internships and Independent Research: Students making satisfactory progress towards completion of degree requirements are encouraged to explore possibilities for gaining professional experience through internal or external internships. They are also encouraged to follow up on opportunities to pursue independent research sponsored by the department, the College of Arts and Science, and other divisions of the University. Note that only 3 credit hours of internship or independent study (ENGLISH 4940, ENGLISH 4950, ENGLISH 4955, or ENGLISH 4960) will count towards the major's 4000-level requirement or towards the 24 hours at the 3000-level or above.

Major Core Requirements

Introduction

ENGLSH 2100 Writing About Literature

Body of Major

- At least 30 credit hours in English (including 3 hours of ENGLSH 2100) satisfying requirements listed below.
- Courses may count for 1, 2, or 3 of the three requirements for Breadth of Study, Historical Coverage and Depth of Study.
- At least one course must meet the Diversity Requirement.
- At least 24 hours must be at the 3000-level or above. At least 9 hours must be at the 4000-level.

Breadth of Study

Students take at least 1 course from each of the following areas (3000-level and above).

a. Period Studies and Surveys

Courses in this area examine texts in their historical context, and consider how historical events and developments shape culture and texts.

b. Author Studies

Courses in this area focus on an individual or several authors or artists.

c. Genre Studies; Thematic Studies
Genre Studies introduces students to a textual kind (e.g. the novel, poetry, drama, the essay, etc.), its conventions, and its history.
Thematic Studies explores a shared theme among works that may or may not belong to the same period.

d. Theory and Methods
Courses in this category give primary attention to the frame of inquiry and/or the method by which knowledge-making takes place.

**Historical Coverage**
Students take 3 courses that focus on literature written prior to 1890. One of these must focus on literature written prior to 1603.

**Depth of Study**
Students must take 3 courses in a single area of specialization listed below.

a. Medieval Literature  
b. Renaissance/Early Modern Literature  
c. 18th and 19th Century Literature  
d. 20th and 21st Century Literature  
e. African Diaspora Studies  
f. Postcolonial & Global Literatures  
g. Literary, Critical, or Rhetorical Theory  
h. Creative Writing  
i. Composition & Studies in Writing  
j. English Language and Linguistics  
k. Folklore Studies  
l. Film & Digital Studies  
m. Gender and Sexuality Studies  
n. Other (subject to English Department Advisor approval)

**Diversity Requirement**
English majors must take one 3-hour course that focuses on issues such as race, ethnicity, gender, or sexuality. Each semester a list of approved courses will be made available to students.

**Culmination**
ENGLSH 4970 Capstone Experience (or ENGLSH 4996 Honors Seminar in English if choosing the honors sequence)

**Semester Plan**
Below is a sample plan of study, semester by semester. A student’s actual plan may vary based on course choices where options are available.

* Course concurrently meets University General Education, Arts and Science Foundation and/or campus graduation requirements.  
^ Course meets degree requirements or major requirements.

Depth Areas are courses that are 2000 level or above chosen from four areas: the sciences, social sciences, behavioral sciences, or humanities and fine arts. Arts and Science students are required to complete 9 hours in at least 2 of the four areas.

**Minor in English**
The English minor consists of 15 credit hours of coursework beyond ENGLSH 1000 (or its equivalent). It must include at least 6 credit hours in courses numbered 3000 or above and must include at least 3 credit
hours at the 4000 level. It may include no more than 3 credit hours from amongst ENGLISH 4940, ENGLISH 4950, ENGLISH 4955, and ENGLISH 4960. A grade of C- or above must be earned in all minor course work and a minimum GPA of 2.0 achieved in the minor. A minimum of 9 credit hours must be completed in MU coursework.

Minor in English Writing

The English Writing minor consists of 15 credit hours of coursework beyond ENGLISH 1000 (or its equivalent), and is designed to help students in all majors and colleges improve their writing and critical thinking skills. Students must take at least 3 credit hours of a composition course (ENGLISH 2010, ENGLISH 2030, ENGLISH 3010); at least 6 credit hours of a nonfiction creative writing course (ENGLISH 1520, ENGLISH 2520, ENGLISH 4520) or ENGLISH 4040; and at least 3 credit hours of any English Writing Intensive course beyond those WI courses required for graduation. The remaining 3 credit hours can be taken in any of the above 3 categories (composition, nonfiction creative writing or ENGLISH 4040, and English WI) and can include any creative writing course. A grade of C- or above must be earned in all minor course work and a minimum GPA of 2.0 achieved in the minor. A minimum of 9 credit hours must be completed in MU coursework.

MA in English

Admission Contact Information

Victoria Thorp thorpv@missouri.edu
114A Tate Hall, Department of English
Columbia, MO 65211
(573) 882-4676

Admission Criteria

Fall deadline: January 1

Internet-based test (iBT) | Paper-based test (PBT)
---|---
80 | 550

MA and MA/PhD

To be admitted to the MA program, a candidate should have majored in English as an undergraduate, with at least 18 hours in upper division courses in literature or linguistics. Students with other undergraduate majors may be admitted provided their background in English studies is suitable and provided they complete an appropriate course of preliminary study. The candidate should have an overall undergraduate average of at least a B (3.0), with a higher average in courses in the major.

Application Process and Materials

Apply online through the Office of Graduate Studies (http://gradstudies.missouri.edu/admissions/apply)

- The University requires a $65 fee and one set of transcripts from all colleges or universities you have attended.
- If already enrolled as a PBS student or as an undergraduate student at MU, you must file a transfer of division form with the admissions office.

The following items are needed to complete your application for the MA, MA/PhD, and PhD programs.

- GRE scores. The general test is required.
- Three letters of recommendation (at least two of which must be academic).
- One transcript from all colleges or universities you have attended.
- CV
- List of any previous graduate classes taken (for PhD candidates)
- Statement of purpose (approximately 500 words): The admissions committee is interested in your past academic interests, including specific papers and projects you have worked on, and what you wish to accomplish as a graduate student. Please explain why you wish to pursue a particular emphasis (poetry, Romanticism, etc...), in this department. The Statement of Purpose serves as your request to be considered for a Graduate School fellowship.
- Writing Sample: One 15-20 page scholarly paper for students applying for Literature Studies or for English Language and Linguistics. Creative Writing applicants should submit one critical/scholarly paper and one of the following: a sample of your fiction (15-30 pages), creative non-fiction (15-20 pages), or poetry (15-20 pages).

Your application cannot be read until all of these materials have been received. All materials must be received by the departmental deadline of January 1.

Plan of Study

The MA program is a two-year program with 30 hours of coursework, including at least 15 hours in graduate seminars at the 8000-level. Coursework builds on a student’s Bachelor’s-level knowledge of her or his field to provide a broad perspective on literature and culture while allowing for specialization and advanced research work. Funded students receive tuition benefits and stipend each year. In their first year, funded students receive teaching training in their first semester, and teach one section of English 1000 while taking three courses per semester. In their second year they teach two sections of English 1000, complete coursework, and write an MA Thesis.

Degree Timeline

First Year: 18 hours of coursework and a 1/4-time assistantship in the fall with training to teach composition through shadowing in the Composition Program and through tutoring in the Writing Center. In spring semester, teach one section of English 1000.

Second Year: Complete coursework and teach two sections of English 1000 per semester. Write MA Thesis.

Throughout their time in the department, students will be advised on designing programs of study not only to achieve their personal goals but also to enter the job market as successfully as possible. No grades of C will be counted toward the completion of the required number of hours for the MA. Although the lowest passing grade for graduate credit is B, graduate students should achieve A grades in a significant portion of their courses, and students with a B or near-B average are not encouraged to pursue graduate work beyond the MA.

Course Requirements

30 hours total of coursework of which 15 hours must be at the 8000 level; the remaining hours may be either 7000 or 8000 level.

3 hours in critical theory (English 8060, English 8050, or English 8070)

Introduction to Graduate Study (English 8005): 1-credit class required in Fall semester of the first year
3 hours are required in 2 of the following 3 areas of literature at the 8000 level. However, for students concentrating in literature, 3 hours are required in each of the following 3 areas:

• pre-1700
• 1700-1900
• 1900-present

9 hours at the 8000 level are required in one of the following concentrations (7000 level courses can be substituted with the approval of the DGS):

• Literature
• Creative Writing (6 hours must be in one genre, 3 hours must be in another genre)
• Language and Linguistics
• Folklore Studies

Students can take up to 9 hours outside the English Department with approval of the Director of Graduate Studies.

English 8090 is only available during the semester(s) they are writing a thesis.

8010: The Theory and Practice of Composition is required in the fall of the first year for students who will teach English 1000.

MA Thesis

The thesis requires independent research at the graduate level in a sustained consideration of a critical or creative project. The MA thesis may build on work produced in coursework but must also include significant new work.

Students present and defend their theses to a committee (composed of two members in the department and one outside member) in an oral defense.

Required length: 40-60 pages

The successful thesis in Literature will:

• support an argument with insightful textual analysis.
• show a command of clear academic prose.
• demonstrate awareness of current critical, theoretical trends and/or historical contexts relevant to the project.
• use library resources to locate and select critical and/or historical sources, and connect them meaningfully to the central text(s).
• show proficiency in documentation and bibliography.

The successful thesis in Creative Writing will:

• constitute a polished piece or collection of creative work in the candidate's genre of specialization.
• demonstrate a nuanced understanding and practice of the genre and/or form in question.
• by including an annotated bibliography of at least 10 entries or a critical introduction of no more than 15 pages, demonstrate a critical engagement with the practice, history, and/or theorization of creative writing.

The successful thesis in Language and Linguistics will:

• identify and investigate a problem or question that is relevant to current debates in the field.
• situate the investigation within the relevant scholarship with appropriate citation of the literature.
• demonstrate command of methodological and analytical tools suitable for the investigation.
• demonstrate command of effective writing in an appropriate academic register.

In their first year, students should discuss possible thesis topics with the Director of Graduate Studies and faculty members likely to constitute the student’s MA Thesis Committee.

The MA Thesis includes up to 6 hours of English 8090. Students generally take 6 hours of thesis credit in one semester while doing research and writing. Some will take 3 hours in the fall and then 3 more in the spring semester if they are working closely with an advisor at the outset of the second year. English 8090 counts towards the total number of course hours required for the MA, but does not count towards the required number of 8000-level courses.

MA/PhD Track

The MA/PhD program is intended for especially well-prepared students who have BA degrees and know they wish to pursue the PhD. It offers enhanced financial aid and an accelerated time to degree. In their first year in the program, students take three courses per semester. In their first semester, they receive teaching training through shadowing in the Composition Program and through tutoring in the Writing Center and in their second semester, they teach one section of English 1000, receiving a substantial stipend to ensure that they complete their work in a timely manner. In their second, fifth, and sixth years in the program, MA/PhD students teach a reduced schedule of two classes in the fall and one class in the spring without a reduction in pay from our regular PhD package. Students complete MA requirements and begin taking PhD coursework in their second year in the program. Academic requirements for the two degrees are identical with the academic requirements for the separate MA and PhD degrees.

Self-Funded MA in English

Students can be accepted into our MA program without the aid of a university fellowship or assistantship. If accepted, students must fulfill all degree requirements, but they do not have to take English 8010, the Theory and Practice of Composition, and do not teach English 1000.

Self-funded students will take seminars, workshops, and other courses with the rest of the graduate student population; permission will be required for participation in the creative writing courses.

Students can pursue the MA either part time or full time, but all students must complete the MA program in the five-year time limit mandated by the Graduate School.

PhD in English

Admission Contact Information

Victoria Thorp thorpv@missouri.edu
Department of English
114A Tate Hall, Columbia, MO 65211
(573) 882-4676

Admission Criteria

Fall deadline: January 1
The PhD candidate will take 30 hours of coursework beyond the MA (http://gradstudies.missouri.edu/academics/graduation-requirements/doctoral-grad-requirements.php). Coursework must include:

- At least 18 hours in English at the 8000-level (English 8095 and 9090 hours do not count toward the 18-hour requirement).

Candidates’ coursework and program of study will be designed to prepare them as competent scholars in the designated fields. All PhD candidates will be required to take:

- English 8005, Introduction to Graduate Studies (a one hour course in fall semester of the first year in the program)
- English 8010, Theory and Practice of Composition is required in the first semester for students teaching English 1000
- A course in English linguistics focused on the structure of the language (English 7600 or an equivalent graduate course at another institution), on its history (English 7610, English 7200, or an equivalent graduate course at another institution), or on sociolinguistic aspects of English (English 7620 or an equivalent graduate course at another institution)
- A course in literary criticism (English 8050, 8060, 8070, or an equivalent graduate course at another institution)
- English 8020, The Theory and Practice of Teaching in English (for students who want to teach literature classes)

PhD students in the creative writing program are required to take:

- 9 workshop hours at the 8000 level (6 in their primary genre, and 3 in a second genre of choice)
- 9 hours of 8000-level seminars in literature or seminars whose content includes in-depth analysis of literary texts. 7000-level courses, or courses outside of the English department may be substituted with the approval of the DCW and DGS

A student may elect one English 8095 problems course (a maximum of 3 hours credit), with the prior consent of the Director of Graduate Studies, but the credits will not count towards the 18-hour 8000-level course requirement. Students may also take up to 9 hours of coursework outside English in fields related to their programs of study upon the advice and consent of the advisory committee. In general, students with limited backgrounds in related areas (such as history, philosophy, art history) are encouraged to take coursework in such areas, while students with extensive background in other areas (e.g., one whose undergraduate major or MA is in a field other than English) should choose to concentrate coursework within the department.

**Degree Timeline**

The typical timeline for the PhD is five years.

**Semester One**

Take three courses; teach courses. Begin to explore potential areas of specialization. Consider potential advisors.

**Semester Two**

Take three courses; teach courses. Choose an advisor, and in consultation form a doctoral committee. Meet with committee to discuss program of study. This meets the...
Graduate School's requirement of a "Qualifying Examination." Use Graduate School's D-1 form and have it signed at that meeting. After meeting, prepare D-2 form for program of study and have it signed by the committee and the DGS.

- **Semester Three**
  Take two or three courses; teach courses. Begin reading for comprehensive examination.

- **Semester Four**
  Take two or three courses; teach courses. Continue reading for comprehensive examination. Submit draft of preparatory essay portion of comprehensive exam to committee for comments.

- **Semester Five**
  Teach classes. Prepare to take comprehensive examination by the end of the semester. Use D-3 form to register success with the Graduate School.

- **Semester Six**
  Teach classes. Prepare dissertation proposal early in the semester and have it approved by advisor and DGS. Begin dissertation work.

- **Semester Seven**
  Teach classes. Work on dissertation.

- **Semester Eight**
  Teach classes. Work on dissertation.

- **Semester Nine**
  Teach classes. Take job placement workshop.

- **Semester Ten**

**Foreign Language Requirement**

All PhD students must fulfill a foreign language requirement to ensure that all students have familiarity with a language and a literature other than English. All of our students, regardless of specialty, gain substantially by situating their work globally. A student may satisfy the foreign language requirement for the PhD in English by demonstrating either 1) advanced proficiency in one foreign language, 2) basic proficiency in two foreign languages, or 3) basic competency in one foreign language, and the completion of two courses in the Digital Humanities Certificate program.

PhD students should determine how they will fulfill the departmental language requirement in consultation with their faculty advisor and other committee members, since different projects and areas of study will require different levels of language proficiency. A student's committee can always recommend that the student pursue language study above and beyond the level required by the departmental language requirement for the purpose of their chosen dissertation project. Advanced proficiency does not require fluency; it requires advanced reading knowledge of another culture’s language and literature.

To obtain advanced proficiency, the student has several options. One is to pass with a grade of B or better two upper-class undergraduate courses (3000- or 4000-level, or the equivalent elsewhere, taken within the seven years prior to the candidate’s enrollment in the Ph.D program at the University of Missouri) in the literature of the language chosen. A second is to pass with a grade of B or better one graduate class (7000- or 8000-level, or the equivalent elsewhere, taken within the same time period as above) in the literature of the language chosen. These courses may not be in translation, and any graduate course in a modern language must be taught in that language. A third option is to demonstrate advanced proficiency in a manner approved by the student’s advisor and the director of graduate studies; the mechanism for doing so will be proposed by the student and advisor, and is subject to the approval of the director of graduate studies. Advanced proficiency does not require fluency; it requires advanced reading knowledge of and extended engagement with another culture’s language and literature.

To demonstrate basic proficiency the student must pass with a grade of B or better a) the intensive introduction to a language or b) the three-semester introductory sequence or c) one course at or beyond the third semester level in the language chosen or the equivalent of these courses elsewhere. The courses must have been completed or the examinations taken not more than seven years prior to the candidate’s enrollment in the PhD program. Because not all languages are taught using this format at the University of Missouri, students have the option to demonstrate basic proficiency in one of their two chosen languages by taking an introductory course in any language that is relevant to their research. The Director of Graduate Studies will work with students to try to arrange for testing for students with proficiency but without coursework in any language (for instance, those who have lived in another country for an extended period of time). In these cases, one option is to take the Twelve-Point Exam from the NYU School of Professional Studies, and achieve a score of at least ten.

Overall, the department recommends students pursue advanced proficiency in one language, a language that will enrich their work. All of our students, regardless of specialty, will gain by making meaningful and extended connections between their own work and a non-English speaking culture.

**Proficiency in English**

International students should consult the International Teaching Assistant Program (http://gradstudies.missouri.edu/professional-development/build-your-skills/teach-mentor-preparing-faculty/international-teaching-assistant) (ITAP) of the Graduate School for university and state requirements regarding teaching at the university.

**Exams**

**Qualifying Exam**

By the end of the first year, students must meet with their advisers to organize their doctoral committees. The committee is made up of at least three English department members and at least one member from an MU department outside English. Students then meet with this committee to plan coursework and define their primary and secondary fields of study. This meeting satisfies the graduate school requirement for a PhD qualifying examination.

The Qualifying Exam must be a formal meeting, scheduled by the committee chair, with at least three of the four members present. The outside faculty member need not be involved in this meeting, but all four members of the committee must sign the D-1 form. The student
and committee chair should decide on a proposed Plan of Study to be discussed and approved at the meeting. The student is responsible for preparing the forms and bringing them to the meeting.

**Comprehensive Examination**

After the coursework and foreign language requirement have been completed, the student takes the PhD comprehensive examination. This exam consists of a written section (the Preparatory Essay) and a two-and-a-half hour oral exam. Guidelines for the PhD comprehensive examination are as follows:

1. **Committee and Reading List**

   Students will choose a faculty committee consisting of a chair, two additional department members, and an external member from another department.

   In consultation with her or his committee, the student will specify reading lists made up of one major field, one minor field, and one field in criticism and theory.

   **The major field** list should reflect the student's area of professional specialization (poetry, 16th-century British literature, 20th-century American fiction, folklore) and should take account of both the student's interests and job market categories. If a candidate chooses a major field that is a single genre (or has an otherwise delimited focus), then the candidate's committee may mandate that the area should extend over at least three centuries.

   **The minor field** list should reflect the student's area of professional specialization (poetry, 16th-century British literature, 20th-century American fiction, rhetoric and composition, folklore) and should take account of both the student's interests and job market categories. If a candidate chooses a major field that is a single genre (or has an otherwise delimited focus), then the candidate's committee may mandate that the area should extend over at least three centuries.

   **The criticism and theory list** will vary depending on the topics of the major and minor lists. In cases where the major and minor lists consist primarily of literary works, the criticism and theory list must include sections covering the major works of criticism and/or theory in those fields. The remainder of the criticism and theory list, up to its entirety in cases where both the major and minor list include substantial secondary reading, can be organized around a major subfield of criticism or theory (poetics, psychoanalysis, the history of the novel) or a particular theme (Theories of the Middle Class; The Role of Religion in Contemporary Fiction; Medieval Conceptions of Gender).

   All three lists together should comprise approximately 100 -120 book length works or the equivalent in scholarly articles or works in other media (as decided in consultation with the committee), with the major list roughly equivalent in size to the combined minor and criticism/theory lists. Where linguistics constitutes one of the fields, the relevant committee member or members will assign, in addition to reading materials, other materials intended to ensure competence in carrying out analyses in phonology, phonetics, syntax, and other areas appropriate to the student's background and interests.

   During the semester in which the student begins drafting her or his reading lists (ideally the second semester of PhD study), the faculty chair will convene a meeting with the entire committee, during which the student will present and defend her or his program of study and draft reading lists. This meeting is known as the Qualifying Examination. During this meeting the committee members will sign the D-1 form; after

   the meeting the student will prepare the D-2 form for program of study and have it signed by the committee members.

2. **Preparatory Essay/Written Comprehensive Exam**

   During the time a student is preparing for her or his exam, he or she will write a Preparatory Essay of at least twenty-five pages. These essays must not be more than fifty pages. This Preparatory Essay constitutes the written portion of the comprehensive exam, and is designed to give the student the opportunity to demonstrate broad knowledge of her or his fields, deep interest in specific topics relevant to those fields, and initial plans for the dissertation (or, in the case of creative writers, the critical introduction).

   This is a highly individualized process, designed to encourage students to shape this process to serve their research needs.

   Students will write and submit two different drafts. They will submit a preliminary draft of the essay to committee members for feedback; this must be done the semester before submitting the final draft and taking the exam. When the student submits the final version to the committee, committee members will evaluate it for range and depth of coverage, specificity of references to the works discussed, theoretical grasp of the material and clarity of organization and style. A student should consider the Preparatory Essay an opportunity to address what he or she has learned in the preparation process, and to indicate what questions most interest him or her about the works on her or his lists. The Preparatory Essay is designed to be flexible, but each essay should include the following, in a form agreed upon by the student and the committee:

   - Brief overviews of each of the fields represented by the lists, discussing major issues raised by the three lists, and, where relevant, connections among them; these overviews may preface the body of the essay or be folded into it
   - Answers to three or four substantive questions about the fields (or, where relevant, problems in linguistic analysis) that were developed in consultation with the committee, and that are meant to serve as talking points for the oral exams
   - A preliminary description of the dissertation or, for creative writers, the critical introduction that demonstrates how it will be informed by the student's reading

   In order to pass the written portion of the exam the student must receive no more than one dissenting or abstaining vote on the Preparatory Essay. To submit the final version of the preparatory essay, a student should send the essay to the Graduate Secretary who will distribute the exam to the student's committee. **Within a week of receiving a copy of the exam, committee members will submit evaluations discussing strengths and weaknesses of the Preparatory Essay to the Graduate Studies Secretary, who will forward them to the student and also place copies in the student's file.**

   If the student does not pass, the committee will offer advice on rewriting and resubmitting the Preparatory Essay. If the student does pass, the chair of the exam committee, in conjunction with other members of the committee, will **schedule the student's oral examination for no earlier than one week, and no later than one month, following committee members' reports on the Preparatory Essay.** The Graduate Secretary should be informed of the time and place of the oral examination. Students must be enrolled during the term in which they take their oral exam (to be administered only when MU is officially in session). The oral
exam must be completed at least seven months before the final defense of the dissertation.

3. Oral Exam

While discussion will be guided by the writing students have done in the Preparatory Essay, the examinee should be prepared for questions on any item on their list, in order to demonstrate a breadth of training beyond that displayed in the essays. Exams are commonly structured in two parts, with discussion of the essay in the first hour and discussion of the lists more broadly in the second.

The oral exam will be scheduled for two and half hours and will consist of:

- Two hours of questions, with format and time allotted to committee members arranged beforehand by the chair of the student’s committee
- Fifteen minutes during which the committee deliberates about the exam
- Fifteen minutes during which the committee informs the student whether he or she has passed or failed, and discusses the exam with the student

During the fifteen-minute faculty deliberation period the chair of the committee is responsible for taking notes, which will form the basis of a 1-2 page document discussing the exam—things the student did well on, and things he or she might improve. The chair should give a copy of this document to the Graduate Secretary, who will forward it to the student and also place a copy in the student’s file.

In order to pass the student must receive no more than one dissenting or abstaining vote on the oral exam. Students who fail the oral examination will be allowed to retake it, but cannot do so sooner than 12 weeks after, or later than the end of the semester following, the initial examination. If the student passes the oral examination, all members of the committee must sign the D-3 form. The chair of the committee is responsible for submitting the D-3 form to the graduate studies office, and the form must be filed with the graduate school within two weeks after the final completion of the exams. Per graduate school rules, failure to pass two comprehensive examinations automatically prevents candidacy.

4. Comprehensive Exam Timeline

Semester Two in the PhD program: Choose a committee, begin to draft reading lists, and take the Qualifying Exam.

Semester Three: Begin reading for exams; meet at least once with each committee member; finalize reading lists.

Semester Four: Continue reading for exams and begin drafting Preparatory Essay; meet with each committee member and during meeting discuss a rough draft of the Preparatory Essay (to be given to committee members at least one week prior to the meeting). Students must give the draft of the Preparatory Essay to committee members the semester before they expect to turn in the final version and take the oral exam, and should then meet with committee members for oral feedback.

Semester Five: Give final draft of Preparatory Essay to committee members; complete oral examination; turn in D-3 form upon passing the oral examination.

Continuous Enrollment

After students complete their comprehensive exams, candidacy for the doctoral degree is maintained by enrolling in two credit hours in the fall and spring semesters and one credit in the summer semester up to and including the term in which the dissertation is defended. Failure to enroll continuously in 9090 Research hours (or alternatively, in the 8006 Professional Writing Workshop or Job Market Workshop) until the doctoral degree is awarded terminates candidacy. Guidelines for continuous enrollment can be found on the Graduate School website (http://gradstudies.missouri.edu/admissions/types-of-enrollment/continuous-enrollment.php).

Dissertation and Defense

Prospectus

As soon as possible after passing the comprehensive examination, a candidate should explore a dissertation topic under the guidance of the student’s adviser. Candidates must formally present and describe the topic in a prospectus of no more than fifteen pages (excluding bibliography); for the student to remain in good standing, the prospectus with committee members’ signatures must be submitted to the Graduate Studies Office within three months of a successful oral defense of the Comprehensive Examination or first two weeks of the semester following.

The prospectus should contain five elements:

- The state of current scholarship in the relevant fields
- The nature of the dissertation’s intervention in current scholarship
- A description of method
- A description of the materials—that is, the objects/archives studied and consulted
- A short bibliography

In the case of students writing creative dissertations, the prospectus should primarily describe the critical introduction (see “Creative Dissertation” below); ten pages is a good goal here.

The prospectus should be drafted in consultation with the adviser. Once drafted, it will be the subject of the Prospectus Conference, a meeting of the dissertation committee (outside member optional) covering the student’s ideas and research plans, including schedule. If a majority of the student’s committee doesn’t approve the prospectus, suggestions for revision will be made and the student will submit the revised prospectus only to the adviser; for this reason, students should schedule their meeting with enough time to revise and meet the deadline.

The prospectus must be completed for the student to begin writing, but it is also important because it usually forms the basis of grant applications and dissertation descriptions when the student goes on the job market. It is of long-term use to have a prospectus on file early, even though it is understood that the dissertation may change during research and writing.

Dissertation

Two types of dissertations are written for our program: the scholarly PhD Dissertation and the creative dissertation.

The scholarly PhD Dissertation is a work of original scholarship in a recognizable field covered by departmental expertise. Most dissertations in English are between 200 and 350 pages and combine an original argument with research into the field you explore. By the end of the process of researching and writing the dissertation, the successful student will be one of a few world experts in the field addressed. Therefore topics should be specific enough to allow students to stake a claim to expertise, while broad enough to speak to the general field in which the dissertation is placed. The dissertation becomes the central document upon which you build your academic reputation. At best, it will be ready to go as a book project. Chapters of your dissertation will
likely serve as writing samples on the academic job market and might be revised into publications either before or after you have defended it and received your PhD. The dissertation itself will be read by the student’s adviser and a minimum of three other readers (for students entering in the fall of 2005 or later; earlier students must have committees of at least five faculty members). One member of the committee must be a member of a department other than English. In the process of research and writing, some students work closely with an entire committee; others focus on the responses of their primary adviser to preliminary work.

PhD candidates in Creative Writing generally write a creative PhD dissertation, which may take the form of a collection of poetry, a novel, a novella, a book-length collection of short stories, or a book-length work of creative non-fiction. To exercise this option, the candidate must have taken 9-12 hours of creative writing seminars as part of the PhD coursework. In addition to the creative part of the dissertation, the candidate will compose a Critical Introduction, which is an article-length and rigorous critical essay that substantively engages the candidate’s areas of critical interest.

By Graduate School rules, seven months must elapse between a student’s successfully passing the PhD Comprehensive Examination and submitting the PhD dissertation.

Defense

Defense usually occurs within a month of submission to the committee of an acceptable dissertation. Committee members prepare questions in advance and the defense consists of a conversation regarding the scholarship and writing of the dissertation. The defense is customarily a celebratory occasion. But committee members can - and sometimes do - ask challenging questions that undercut specific and general issues in the project. Students have a chance to incorporate suggestions from the defense into the final document submitted to the Graduate School. Therefore it is useful to schedule the defense some weeks before the final deadline for submission to the Graduate School in the term in which the student wishes to graduate. A majority of the committee must vote positively for the dissertation to pass. If the dissertation is not passed, the student can revise in accordance with suggestions and resubmit.

Film Studies

Roger Cook, Program Director
School of Visual Studies, College of Arts and Science
451 Strickland
(573) 882-9452 or (573) 882-7547
cookrf@missouri.edu
https://visualstudies.missouri.edu/filmsstudies

The Film Studies Program within the School of Visual Studies provides guidance to our students from accomplished research and film production faculty, real world experience through hands-on internship practicums, and opportunities for success beyond the program for our graduates. The B.A. offers courses in film analysis and covers the history of cinema, national and global cinemas, film theory and genres, documentary film, and contemporary visual culture. It combines an emphasis on critical thinking, research, problem-solving, written expression, and cultural literacy with the discipline’s unique attention to visual analysis. The Emphasis in Production provides hands-on instruction in all areas of filmmaking, including writing, production management, directing, cinematography, audio, and editing. A degree in Film Studies provides a broad, open-ended education that can lead to many different careers, especially those requiring excellent communication skills and analytical thinking. Recent graduates have gone on to careers in teaching, publishing, public relations, management, law, the TV/motion picture industry, independent filmmaking, advertising and other areas of digital media production.

The program offers a BA degree in film studies, a BA with an emphasis in production, and an undergraduate minor.

Faculty

Professor R. F. Cook*, R. N. Johnson*, B. Prager*, A. Prahlad*, C. Strathausen* N. M. West*
Assistant Professor S. C. Rozier*, M. Folescu*, R. Greene*
Associate Teaching Professor N. Monnier*,
Assistant Teaching Professor K. Bilal, E. Hornbeck, E. Naveh-Benjamin, M. Volz
Instructor R. Wise

* Graduate Faculty Member - membership is required to teach graduate-level courses, chair master's thesis committees, and serve on doctoral examination and dissertation committees.
** Doctoral Faculty Member - membership is required to chair doctoral examination or dissertation committees. Graduate faculty membership is a prerequisite for Doctoral faculty membership.

Undergraduate

- BA in Film Studies (p. 196)
  - with emphasis in Film Production (p. 198)
  - Minor in Film Studies (p. 198)

Double and Dual Majors

A film studies major can be paired with a major in another department. Students must meet the requirements of both departments. The program for each major must be approved by the advisor in the degree-granting department.

Departmental Honors

To receive departmental honors, a student must earn a minimum overall MU GPA of 3.3 and a minimum GPA of 3.5 in courses in film studies completed at the University of Missouri. In addition, with the assistance of an honors thesis advisor, the student must develop, plan and conduct research on an independent project, normally while enrolled in FILM_S 4995.

Graduate

While MU does not offer graduate degrees specifically in film studies, the University does offer post-baccalaureate opportunities in a number of related areas, both within the College of Arts and Science, and in the other Schools and Colleges that make up the University. The catalog provides a complete list of these degree options (p. 18).

BA in Film Studies

Degree Program Description

The Film Studies Program provides guidance to our students from accomplished research faculty, real world experience through hands-on internship practicums, and opportunities for success beyond the
program for our graduates. The B.A. focuses on film analysis and covers the history of cinema, national and global cinemas, film theory and genres, documentary film, and contemporary visual culture. It combines an emphasis on critical thinking, research, problem-solving, written expression, and cultural literacy with the discipline's unique attention to the analysis of moving-image media. Students emerge with a greater degree of visual literacy at a time when our culture is becoming increasingly dependent upon visual communication. Graduates have pursued careers in film and related areas of the entertainment industry, journalism, art education, and writing.

**Major Program Requirements**

Film Studies majors must complete 30 credits in film studies, with a grade of C- or above in every course. A minor is recommended. At least 15 hours in the major must be in courses at the 3000 level or above. Students must also complete College of Arts and Sciences and University requirements (p. 33), including University general education (p. 34) requirements. No more than 40 credits in Film Studies may be counted toward graduation.

The 30 hours of Film Studies courses for the major must meet the following requirements:

**Major core requirements**

BA in Film Studies with Emphasis in Film Production

Degree Program Description

The Film Studies program provides guidance to our students from accomplished research and film production faculty, real world experience through hands-on internship practicums, and opportunities for success beyond the program for our graduates. The B.A. in Film Studies with Emphasis in Production offers an immersive curriculum in film production, spanning from writing and cinematography to audio engineering and field production. The program combines rigorous technical instruction with aesthetic, historical, and theoretical topics that inspire you to find innovative ways to express yourself through film. Working with established filmmakers, media artists and scholars, our film production students develop their own personal craft and vision as a filmmaker. At each stage of the curriculum students exercise and demonstrate their skills and creativity through class projects. This learning process culminates in the senior film project that serves as the central piece of the graduate's portfolio. Recent graduates have gone on to careers in the TV/motion picture industry, independent filmmaking, advertising and other areas of digital media production.

In addition, students must complete all College of Arts and Sciences and University graduation requirements, including University general education.

Major Program Requirements

**Film Studies Core I**
Students must take 6 credit hours

**Minor in Film Studies**

To earn a minor in Film Studies, students must earn 15 credits in film studies. Required courses include FILM_S 1800, and either FILM_S 2830 or FILM_S 2840. At least two courses must be at the 3000 level or above. The minor is a flexible and varied program that can be tailored to individual students' needs. Students wishing to minor in film studies should consult the film studies advisor.

**General Studies**

Office of Multidisciplinary Degrees
College of Arts and Science
114 Switzler Hall
(573) 882-6060
In addition, students must complete all College of Arts and Science and University graduation requirements (p. 33), including University general education (p. 34).

**Major Program Requirements**

Students must complete the Department Requirements (p. 199) as well as those required for the degree listed below:

The BGS major requires 45 credit hours, including a capstone. These 45 credit hours are evenly distributed among three areas of study called components. A component may be made up of courses from a single department or may be made up of courses from multiple departments that relate thematically. Component courses may be selected from any department or program at MU (if the department permits), but at least 18 credit hours must be made of courses from an A&S department.

Of the 15 credit hours required for each component, 6 credit hours in each of the components must be numbered 3000 or higher. Students must maintain a GPA of 2.0 in each component area and grades of D are not acceptable. A student may include one component made entirely of transfer coursework if the other two components each contain 9 credit hours of coursework numbered 3000 or above. BGS students are required to include a minimum of 12 credit hours of MU coursework numbered 3000 level or above in their three components.

- 30 of the last 36 hours a student completes must be taken at MU.
- In order to graduate, students must have the following GPAs:
  - 2.0 cumulative GPA (the GPA for all coursework taken at MU)
  - 2.0 major GPA (the GPA for all courses taken to fulfill requirements in the major)
  - 2.0 minor GPA (the GPA for all courses taken to fulfill requirements for a minor)
- A maximum of 6 hours of Internship may apply to graduation
- A maximum of 12 hours of Internship, Readings and/or Special Problems may apply to graduation
- A minimum of 24 hours of coursework must be satisfactorily completed after declaring the General Studies major. For currently enrolled students, this may include credit earned during the semester in which the student declares the BGS major. For students who have been absent from MU for four or more consecutive years, and who need fewer than 24 credit hours to complete the BGS, A&S and MU degree requirements, a minimum of 12 hours of coursework, including 3 hours at the 3000 or higher level, must be satisfactorily completed after declaring the General Studies major. The minimum must allow the student to meet any System or Campus residency requirements.
Undergraduate

- BA in Geography (p. 201)
  - with emphasis in General Geography (p. 202)
  - with emphasis in Geographic Information Sciences (p. 203)
  - with emphasis in Physical/Environmental (p. 204)
  - with emphasis in Regional/Cultural (p. 205)
- Minor in Geography (p. 205)
- Certificate in Geographical Information Science - Interdisciplinary (p. 206)

The Department of Geography has established the following goals for the Bachelor of Arts with a major in Geography:

- Teach students to think spatially and develop problem solving skills
- Provide an intellectual focus for students seeking a broadly based liberal arts education
- Acquaint students with past and present patterns of landscape development and instill concern for intelligent management of earth’s biophysical resources
-Expose students to contemporary issues of geopolitical and international significance and their role in such problems
- Provide the skills and expertise necessary to master the application of geographic information technologies and analysis of spatial data
- Prepare motivated students for career development and graduate study

Four different emphasis areas allow students to further focus the undergraduate degree program on their own personal interests in geography.

1. Human-Regional-cultural geography helps students develop a fuller sense of geographic analysis and better understanding of the human and physical characteristics of major regions and settlement patterns of the world.
2. Physical-environmental systems emphasize the complex interactions between biophysical systems and human behavior in the areas of geomorphology and biogeography, as well as our role in managing applied environmental problems.
3. Geographic information sciences addresses the variety of technologies revolutionizing geographic analysis such as GIS, GPS, remote sensing, computer assisted cartography and spatial statistics.
4. General geography is designed for the student with broad interests in geography that overlap with other emphasis areas.

For students planning to end their formal education with the bachelor’s degree, a geography major provides marketable skills and the broad perspectives on environment, society and international affairs that enable graduates to move beyond entry-level positions. Geography also provides a sound foundation for students who plan to enter graduate work in a variety of fields, from geography to business, land use planning, law and medicine. Although positions are not often designated with the title of geographer, geography graduates’ employment has grown substantially in private enterprise and in all levels of government in recent years.

The Department offers BA and MA degrees with majors in geography as well as undergraduate and graduate certificates in Geographic Information Science and Geospatial Intelligence. Two minors are also available.

Director of Graduate Studies: Matthew Foulkes

About Geography

The Department of Geography offers a Master of Arts degree that prepares students for a variety of professions, including careers in academics, research, public service, and the private sector. The MA program has a high success rate of preparing students for doctoral study in top-tier geography departments across the United States.

A primary strength of the department is the blending of major research facilities and opportunities with individual student-faculty interaction to build a strong sense of community. Students interested in questions of human geography, the physical environment, or geographic information sciences will find that the department has facilities and faculty expertise to build a successful plan of study.

Core areas of study in the department include human geography, nature/society relationships, physical-environmental systems, and application of geographic information sciences. The faculty has an active program of research and field work in North America, Middle America, the Middle East and Southeast Asia. They pride themselves on a creative instructional and interdisciplinary pattern of activity. The department emphasizes close contact between faculty and graduate students.

Individualized graduate programs allow latitude in areas of specialization such as regional, cultural, and physical geography, as well as geographic information sciences, remote sensing, environmental studies and geographic education. Strong collateral course work in such fields as anthropology, soil and atmospheric science, economics, geology, political science, forestry, computer science and history meets the special interests of many graduate students.

Facilities and Resources

An exceptional departmental collection of reference materials, including maps, journals and books, is available to graduate students in the department’s Wheeler Library and Seminar Room. The holdings of Ellis Library in geography and related fields are extensive and MU’s computer facilities are readily available. In addition, the department is home to the Geographic Resources Center (GRC), the Missouri Spatial Data Information Service and the Spatial Analysis and Modeling teaching laboratory. These facilities serve as an interdisciplinary center for GIS, remote sensing, cartography, computer graphics and digital spatial databases of enormous variety.

Financial Aid from the Program

Some programs require an extra form or statement from those who wish to be considered for internal assistantships, fellowships or other funding packages. Check the program website or ask the program contact for details. In Geography, a total of approximately 6 graduate teaching and research assistantships are awarded on a competitive basis annually. Applicants desiring consideration for one of these positions should indicate this in their application to the department.

BA in Geography

Director of Undergraduate Studies: Douglas Hurt

Degree Program Description

Geographers are interested in a wide range of topics and often work in interdisciplinary teams that analyze challenges like environmental change, resource use, and economic issues in an increasingly interdependent world. Geography majors receive marketable skills during their undergraduate experience. All majors must select one of the four emphasis areas: General Geography, Geographic Information Sciences, Physical/Environmental, Regional/Cultural, or Urban/Population. Geography prepares students for a variety of professions including careers in environmental impact assessment, mapping, remote sensing, geographic information analysis, government service, military intelligence, as well as education.

Major Program Requirements

Students majoring in geography are required to take a total of 33 credits in geography and 3 in statistics. The geography major consists of 21 core credits and at least 15 credits in one of the four geography emphasis areas. In addition, students must complete all degree, College of Arts and Sciences and University requirements (p. 33) including University general education (p. 34).

Semester Plan

Below is a sample plan of study, semester by semester. A student's actual plan may vary based on course choices where options are available.
### Degree Program Description

Geographers are interested in a wide range of topics and often work in interdisciplinary teams that analyze challenges such as environmental change, resource use, and economic issues in an increasingly interdependent world. Students who select the general geography track plan their own upper-division coursework in order to receive a very broadly-structured education, typically selecting courses from all three of the GIS, physical geography, and human geography emphasis areas. Geography prepares students for a variety of professions including careers in environmental impact assessment, mapping, remote sensing, geographic information analysis, government service, military intelligence, as well as education. Geographers are interested in a wide range of topics and often work in interdisciplinary teams that analyze challenges like environmental change, resource use, and economic issues in an increasingly interdependent world. Geography majors receive marketable skills during their undergraduate experience. Recent graduates work for companies such as ESRI and Garmin. MU geography graduates have also found employment with government agencies, including the National Park Service, National Geospatial-Intelligence Agency, U.S. Geological Survey, Missouri Department of Natural Resources, and Missouri Department of Transportation.

### Major Program Requirements

This area is designed for students with a broad interest in geographical studies. Due to the general nature of this emphasis area, students must develop in consultation with their advisor a personal plan of study outlining specific goals and course requirements. Five geography courses are required, four of those at the 3000-level or higher.

In addition, students must complete all College of Arts and Science and University graduation requirements (p. 33), including University general education (p. 34).

### BA in Geography with Emphasis in General Geography
Degree Program Description

Geographers are interested in a wide range of topics and often work in interdisciplinary teams that analyze challenges like environmental change, resource use, and economic issues in an increasingly interdependent world. The study of Geographic Information Systems trains students to address the variety of technologies revolutionizing geographic analysis such as GIS, Global Positioning Systems, remote sensing, computer assisted cartography and spatial statistics. Geography prepares students for a variety of professions including careers in environmental impact assessment, mapping, remote sensing, geographic information analysis, government service, military intelligence, as well as education. Geographers are interested in a wide range of topics and often work in interdisciplinary teams that analyze challenges like environmental change, resource use, and economic issues in an increasingly interdependent world. Geography majors receive

Major Program Requirements

The study of GIS prepares students to address the variety of technologies revolutionizing geographic analysis such as GIS, Global Positioning Systems, remote sensing, computer assisted cartography and spatial statistics. Students are required to take three courses (normally

nine hours) in the emphasis. Two additional courses (six additional hours) are selected from a secondary emphasis area.

- GEOG 3040 Introduction to Geographic Information Systems GIS 3
- GEOG 3830 Remote Sensing 3
- GEOG 4130 The Geospatial Sciences in National Security 3
- GEOG 4710 Spatial Analysis in Geography 3
- GEOG 4740 Location Analysis and Site Selection 3
- GEOG 4790 Geographic Information Systems for the Social Sciences 3
- GEOG 4810 Landscape Ecology and GIS Analysis I 3
- GEOG 4860 Advanced Remote Sensing 3
- GEOG 4940 Advanced Geographic Information Systems (GIS II) 3

In addition, students must complete all College of Arts and Science and University graduation requirements (p. 33), including University general education (p. 34).

BA in Geography with Emphasis in Regional/ Cultural

Degree Program Descriptions

Geographers are interested in a wide range of topics and often work in interdisciplinary teams that analyze challenges like environmental change, resource use, and economic issues in an increasingly interdependent world. Students studying human geography are trained to understand and analyze the social and cultural elements which generate regional differences. Assessing population patterns, political activity, urban planning, and linguistic distributions are included in this area. Geography prepares students for a variety of professions including careers in environmental impact assessment, mapping, remote sensing, geographic information analysis, government service, military intelligence, as well as education. Geographers are interested in a wide range of topics and often work in interdisciplinary teams that analyze challenges like environmental change, resource use, and economic issues in an increasingly interdependent world. Geography majors receive marketable skills during their undergraduate experience. Recent graduates work for companies such as ESRI and Garmin. MU geography graduates have also found employment with government agencies, including the National Park Service, National Geospatial-Intelligence Agency, U.S. Geological Survey, Missouri Department of Natural Resources, and Missouri Department of Transportation.

Major Program Requirements

Students studying human geography are trained to understand and analyze the social and cultural elements which generate regional differences. Assessing population patterns, political activity, urban planning, and linguistic distributions are included in this area. Students are required to take three courses (normally nine hours) in the emphasis. Two additional courses (six additional hours) are selected from a secondary emphasis area.

Minor in Geography

Minor Program Requirements

Fifteen credits are required for a minor in geography, nine of them numbered 2000 and above.
Certificate in Geographical Information Science - Interdisciplinary

Certificate description: Students from a wide range of disciplines will benefit from students with the theoretical, practical and technical skills that are essential for the analysis of spatial data. Learners become proficient in the use and application of GIS technologies through a flexible set of courses and hands-on experiences. The program offers the training and experience necessary to prepare for the rapidly expanding professional opportunities available in the diverse set of fields that depend on geographic information.

Preparation for graduate work in geography should include undergraduate courses in geography. Upon consultation with their advisor, students with insufficient background work in geography may be required to take additional undergraduate courses.

Required Application Materials

All elements of the application including those required by the department are submitted through the Graduate School online application. For complete instructions, see https://geography.missouri.edu/grad/graduate-studies.

To the Office of Graduate Studies:

- All required Graduate Admissions documents
- 3 letters of recommendation (submitted through the online application) GRE scores
- Supplemental department application (with Statement of Purpose)

Plan of Study MA in Geography

The Master of Arts degree requires completion of 32 semester hours of course work. Two research options are available: a thesis and a non-thesis option. The non-thesis option requires the completion of a research paper. 15 or more of the 32 hours must be in courses at the 8000 level. Non-thesis candidates may take no more than 6 hours of special problems, special readings, special investigations, or research.

Every student must take GEOG 8750 and GEOG 8760, 6 additional hours of seminar-structured course work and 6 hours of course work in geographic methods.

A student’s specific program of courses is selected jointly by the student and the graduate advisor, designated during the first semester in residence. All students of either option must pass a comprehensive oral examination at the end of their graduate work.

Graduate Certificate in Geographical Information Science - Interdisciplinary

Certificate description: Students from a wide range of disciplines will benefit from students with the theoretical, practical and technical skills that are essential for the analysis of spatial data. Learners become proficient in the use and application of GIS technologies through a flexible set of courses and hands-on experiences. The program offers the training and experience necessary to prepare for the rapidly expanding professional opportunities available in the diverse set of fields that depend on geographic information.

Faculty

Associate Professor M. Appold**, F. G. Gomez**, J. Schiffbauer**
Assistant Professor T. Bidgoli*, J. W. Huntley**

Director, Geology Field Program M. Barquero-Molina*

* Graduate Faculty Member - membership is required to teach graduate-level courses, chair master's thesis committees, and serve on doctoral examination and dissertation committees.
** Doctoral Faculty Member - membership is required to chair doctoral examination or dissertation committees. Graduate faculty membership is a prerequisite for Doctoral faculty membership.

Undergraduate

- BA in Geological Sciences (p. 207)
- BS in Geological Sciences (p. 208)
- Minor in Geological Sciences (p. 209)
The Department of Geological Sciences offers two undergraduate degree programs, a Bachelor of Arts and a Bachelor of Science, both with major in Geological Sciences. The BA is geared to those students interested in using geological knowledge in an allied career such as environmental law or science journalism, while the BS is geared toward students interested in careers as environmental geoscientists and hydrogeologists, the mining and fossil fuel industries, or an advanced degrees geology or geophysics. The BS capstone is a 6 week field camp at our permanent field station, Camp Branson, in Wyoming. This camp is sought after by students form around the country and its graduates are well regarded by employers. In addition, students majoring in other departments can minor in geological sciences.

**Departmental Honors**

Departmental honors can be achieved by students who maintain a cumulative GPA of 3.0, departmental GPA of 3.3, and who complete a senior thesis.

**Dual Degrees**

The Department of Geological Sciences offers dual degree programs with the Department of Soil, Environmental and Atmospheric Science in their emphasis area of Environmental Soil Science and with the Department of Civil and Environmental Engineering and with the College of Education in the Bachelor of Science in Education, emphasis in Earth Science Education. For more information, contact an advisor in the department.

**Graduate**

- MS in Geology (p. 209)
- PhD in Geology (p. 210)

Department of Geological Sciences
101 Geological Sciences Building
(573) 882-6785
https://geology.missouri.edu/grad/graduate-program

**Director of Graduate Studies:** Francisco Gomez

**About the Geological Sciences Program**

The areas of research covered by faculty are broad and diverse, with strong research expertise in the general areas of geochemistry, petrology, paleontology, and geophysics-tectonics. These strengths allow us to focus on problems identified by the National Research Council to be socially relevant and to be fundamental to an understanding of earth processes. Dynamic faculty, along with their students, are making significant contributions to numerous areas of basic and applied research. This research is supported by excellent, state-of-the-art analytical facilities in the department and on campus. Our graduate program prepares students for a wide range of professions within the geological sciences; students have been placed in private, federal, state, and academic institutions. Prospective students are encouraged to contact any faculty member directly for additional information.

**Areas of Specialization**

The areas of specialization are aqueous geochemistry, biogeochemistry, invertebrate paleontology, isotope geochemistry, geophysics, hydrogeology, igneous petrology, metamorphic petrology, paleontology, ore deposits, paleoclimatology, paleoecology, sedimentation, stratigraphy, structural geology, tectonics, and volcanology.

**Facilities and Resources**

The Geological Sciences Building houses many different research laboratories, as well as classrooms and an excellent geology library. Equipment is available for supervised student use in many fields. The Geology Field Camp is in the Wind River Mountains near Lander, Wyoming. See the Department website at https://geology.missouri.edu/grad/graduate-program.

**About the Degrees**

The master’s degree program includes a thesis and a non-thesis option, both of which require 30 credit hours beyond the bachelor’s degree. The thesis option is accomplished by taking 18 to 21 graduate course credits and preparing a written thesis involving 9-12 credits of research or problems credits. Students have until the middle of their second semester in residence at the university to choose a supervisor and a thesis topic. The non-thesis track requires 27 hours of graduate course credits plus 3 hours of research credit leading to completion of a smaller-scope research project.

The doctoral degree requires 72 hours beyond a bachelor’s degree, and may include as many as 24 hours credit from a prior master’s degree. Doctoral candidates must pass a qualifying exam during their first year in residence to assess their general background so that a meaningful program of study can be constructed. The usual doctoral program involves courses within and outside the department, and researching the dissertation topic prior to taking the comprehensive examination by the end of the second year. The results of the dissertation research are presented to the faculty and graduate students when the student has completed the project.

**Financial Aid from the Program**

Some programs require an extra form or statement from those who wish to be considered for institutional assistantships, fellowships or other funding packages. Check the program website or ask the program contact for details.

**BA in Geological Sciences**

**Degree Program Description**

The Bachelor of Arts in Geological Sciences is a liberal arts degree for students interested in earth science. The curriculum provides an overview of several subdisciplines within Geology, including paleontology and hydrogeology. The degree is designed for students interested in careers in science journalism, environmental law, and urban design and planning. The degree can easily be combined with other BA degrees in the College of Arts and Science.

**Major Program Requirements**

The B.A. Curriculum is designed as a degree through which the student wishes to eventually pursue a career in teaching, journalism, law, etc. In addition to the major core requirements, students must complete all university graduation requirements (p. 33) including university general education (p. 34), as well as all degree and college or school requirements.

Total Credits: 126-128

BS in Geological Sciences

Degree Program Description

A Bachelor of Science degree in Geological Sciences provides students with the quantitative and conceptual skills they need to succeed in graduate work and a career as a professional geologist in industry, government or academia. The curriculum provides flexibility for students who seek to focus on a specific subdiscipline in the geosciences. Students interested in geophysics, for example, should use their electives to expand their background in math and to develop a broad knowledge of geology and geophysics. Other subdisciplines include geochemistry, paleobiology and hydrogeology. The capstone class is an award-winning 6-week summer Field Camp based in Lander, Wyoming. Many students participate in research projects with faculty members, usually involving fieldwork, and leading to a senior thesis. Their results are typically presented at a national meeting and in an oral defense in the department. Study abroad classes are typically offered every two to three years - recently to China, Chile, and Spain. Some BS graduates pursue careers in environmental consulting. Many others go into the oil and gas industry, which typically requires an MS degree.

Major Program Requirements

Majoring in geological sciences and earning a Bachelor of Science degree prepares the student for graduate work and a career as a professional geologist in industry, research or academia. The curriculum provides flexibility for students who seek to focus on a specific subdiscipline in the geosciences. Students interested in geophysics, for example, should use their electives to expand their background in math and to develop a broad knowledge of geology and geophysics. In addition, students must meet all degree, college, and university graduation requirements (p. 33) including university general education (p. 34).

Major core requirements

- GEOL 1100: Principles of Geology with Laboratory 4
- GEOL 2300: Historical Geology 3
- GEOL 2360: Historical Geology Laboratory 1
- GEOL 2400: Surficial Earth Processes and Products with Laboratory 4-5
- GEOL 3250: Mineralogy 5
GEOL 3300 Introduction to Geochemistry 3
GEOL 3650 Structural Geology 4
GEOL 3800 Sedimentology and Stratigraphy with Lab 4
GEOL 4650 Plate Tectonics 3
GEOL 4900 Igneous and Metamorphic Petrology with Laboratory 4
GEOL 4992 Geology Field Camp 6

Additional geological sciences course at or above 2000 level (not GEOL 3200) 3
Three additional geological sciences courses at 3000 level, cannot be fulfilled by problems 9

Total Credits: 125-130

Minor in Geological Sciences

A minor in geological sciences consists of 15 credits in the geological sciences with 9 or more at the 2000-level or above. All courses must be taken for a letter grade, and a grade of C- or better must be earned in each course. The courses must be selected in consultation with an advisor in the department.

MS in Geology

Contact: Dr. Francisco Gomez
101 Geological Sciences Building
(573) 882-9744
https://geology.missouri.edu/grad/graduate-program

The master's degree program includes a thesis and a non-thesis option, both of which require 30 credit hours beyond the bachelor's degree. The thesis option is accomplished by taking 18 to 21 graduate course credits and preparing a written thesis involving 9-12 credits of research or problems credits. Students have until the middle of their second semester in residence at the university to choose a supervisor and a thesis topic. The non-thesis track requires 27 hours of graduate course credits plus 3 hours of research credit leading to completion of a smaller-scope research project.

Degree Requirements

• A minimum of 30 hours beyond the bachelor's degree.
• At least 15 hours of 8000- or 9000-level work.
  • For the Thesis Option, no more than 40% of those hours can be thesis research, problems in geological sciences, or similar courses.
  • For the Non-thesis Option, no more than 10% (3 credit hours) can be research, problems in geological sciences, or similar courses.
• Students must maintain a GPA of 3.00 for all competitive classroom work at MU. If GPA falls below 3.00, student must raise GPA to 3.00 or higher by end of next semester or be dropped from Master's program.
• The student must choose a supervisor by the middle of his second semester in residence, and make a brief written report to the faculty outlining the proposed thesis research.
• The Master's Final Exam is a defense of the thesis. The student should invite all faculty members to attend their defense. An oral presentation of the thesis results must be given at a departmental seminar (either fall or winter semester) as a part of the defense. After an open question-answer session, the student and the exam committee may conclude the defense in a closed question-answer session.
• The Non-thesis option also includes a public presentation of the project.

Note on scheduling defenses: Faculty members are not required to read theses or conduct final examinations during the summer field season.

Sample Plan of Study

The following plan of study is meant to serve as an example, only. An individual student's plan of study will be developed in coordination with their graduate supervisor and reflect the emphasis of their study. The study may also enroll in additional courses that do not appear on the Plan of Study submitted to the Office of Graduate Studies.

Thesis/Non-Thesis Requirements

Thesis: No more than 12 hours (of the 30) can be Geology 7085, 7990, 8085, & 8090 (problems, readings, thesis research, etc.).

• Fall semester (year 1)
  • GEOL 7650 Plate Tectonics (3 hours)
  • GEOL 7100 Groundwater Hydrology (3 hours)
  • GEOL 7180 Solar System Science (3 hours)
• Spring semester (year 1)
  • GEOL 8750 Silicate Glasses, Liquids and Magmas (3 hours)
  • GEOL 8200 Advanced Structural Geology (3 hours)
  • GEOL 8090 Research in Geological Sciences-Masters Thesis (3 hours)
• Fall semester (year 2)
  • GEOL 8100 Continental Tectonics (3 hours)
  • GEOL 8090 Research in Geological Sciences-Masters Thesis (3 hours)
• Spring semester (year 2)
  • Research in Geological Sciences-Masters Thesis (GEOL 8090) (6 hours)

Non-Thesis Option: No more than 3 hours (of the 30) can be Geology 7085, 7990, 8085, & 8090 (problems, readings, thesis research, etc.).

• Fall semester (year 1)
  • GEOL 7100 Groundwater Hydrology (3 hours)
  • GEOL 7180 Solar System Science (3 hours)
  • GEOL 7650 Plate Tectonics (3 hours)
• Spring semester (year 1)
  • GEOL 7120 Engineering Geology (3 hours)
  • GEOL 8240 Hydrogeologic Processes (3 hours)
  • GEOL 8450 Tectonics and Sedimentation (3 hours)
• Fall semester (year 2)
  • GEOL 7200 Economic Geology with Laboratory (4 hours)
  • GEOL 8100 Continental Tectonics (3 hours)
  • GEOL 8240 Hydrogeologic Processes (3 hours)
• Spring semester (year 2)
  • GEOL 8050 Research in Geological Sciences-Masters Non-Thesis - non-Thesis (3 hours)

Admissions

Fall deadline: none set, but January 31st for guaranteed consideration for departmental financial aid for the following Fall-Spring academic year. Additional admission requirements and criteria:

• Equivalent of MU Bachelor of Science degree in geology or another science field is normally required prior to receiving an advanced degree. Science-course deficiencies must be made up before beginning thesis work.
• International students for whom English is a foreign language must submit a minimum TOEFL score of 550 (paper-based) or 80 (Internet-based) or minimum IELTS of 6.5 (average) to be considered for admission.
• Admission is based upon examination of transcripts, required GRE scores (Verbal and Quantitative), and letters of recommendation. Serious consideration for admission requires a 3.00 GPA on the last 60 hours of undergraduate work, GRE scores above the 50th percentile on the Verbal and Quantitative Tests, and strong letters of recommendation.
• GRE scores (required by the department).
• 3 letters of recommendation.
• Personal statement describing the applicants interests, background, motivation, and goals for graduate study at MU.

Note on GRE Scores and GPA: Our quantitative assessment of applicants uses a combination of GPA for the last 60 hours and the student's GRE verbal, quantitative and analytical writing scores. We have a formula that weights the GPA and total GRE scores equally. Applicants with a GPA less than 3.0 may be considered, but their acceptance would require very strong GRE scores or exceptional circumstances.

Financial Aid from the Program

Although some graduate students in Geological Sciences are externally supported by fellowships or sponsors, many are generally supported by Graduate Teaching Assistantships and Graduate Research Assistantships. If you are interested in assistantship support, please be sure to indicate so on your application form.

PhD in Geology

Contact: Dr. Francisco Gomez
101 Geological Sciences Building
(573) 882-9744
https://geology.missouri.edu/

The doctoral degree requires 72 hours beyond a bachelor's degree, and may include as many as 24 hours credit from a prior master's degree. Doctoral candidates must pass a qualifying exam during their first year in residence to assess their general background so that a meaningful program of study can be constructed. The usual doctoral program involves courses within and outside the department, and researching the dissertation topic prior to taking the comprehensive examination.
by the end of the second year. The results of the dissertation research are presented to the faculty and graduate students when the student has completed the project.

Degree Requirements

- Residence: The equivalent of 3 full years of graduate work (72 hours) is required. One year's credit (up to 24 credit hours for graduate-level, lecture-based courses) is normally granted for the Master's degree.
- All PhD students must take at least three classes (9-12 hours) outside of the Department, at the 7000 level or higher, as approved by their PhD Advisory Committee. This requirement can be satisfied by non-Geology graduate credits taken elsewhere and accepted by the Graduate School.
- Each year Ph.D. students will submit a report outlining their progress toward degree.
- The student must maintain a minimum 3.0 GPA in order to remain in good standing.
- Qualifying Exam (see below) and Comprehensive Exam (see below).
- Completion and defense of a Dissertation.

Sample Plan of Study

The following plan of study is meant to serve as an example, only. An individual student's plan of study will be developed in coordination with their graduate supervisor and reflect the emphasis of their study. The study may also enroll in additional courses that do not appear on the Plan of Study submitted to the Office of Graduate Studies.

- Transfer from Masters Degree: 15 hours (graduate courses, only)
- Fall semester (year 1)
  - GEOL 7180 Solar System Science (3 hours)
  - GEOL 7650 Plate Tectonics (3 hours)
  - GEOL 8300 Precambrian History (3 hours)
- Spring semester (year 1)
  - GEOL 8450 Tectonics and Sedimentation (3 hours)
  - GEOL 8320 Introduction to Seismology (3 hours)
  - STAT 7070 Introduction to Statistical Methods for Research (3 hours)
- Fall semester (year 2)
  - GEOL 8800 Applied Numerical Analysis (3 hours)
  - ASTRON 7180 Solar System Science (3 hours)
  - GEOL 9090 Research in Geological Sciences-Doctoral Dissertation (3 hours)
- Spring semester (year 2)
  - GEOL 8140 Metamorphic Petrology (3 hours)
  - LTC 8724 College Science Teaching (3 hours)
  - GEOL 9090 Research in Geological Sciences-Doctoral Dissertation (3 hours)
- Spring semester (year 3)
  - GEOL 9090 Research in Geological Sciences-Doctoral Dissertation (3 hours)
- Summer term (year 3)
  - GEOL 9090 Research in Geological Sciences-Doctoral Dissertation (1 hour)
- Fall semester (year 4)
  - GEOL 9090 Research in Geological Sciences-Doctoral Dissertation (3 hours)
- Spring semester (year 4)
  - GEOL 9090 Research in Geological Sciences-Doctoral Dissertation (3 hours)
- Summer term (year 4)
  - GEOL 9090 Research in Geological Sciences-Doctoral Dissertation (1 hour)
- Fall semester (year 5)
  - GEOL 9090 Research in Geological Sciences-Doctoral Dissertation (3 hours)

Total: 72 hours

Exams

Qualifying Exam Process

After filing a formal application for the Ph.D., the student must take the departmental Ph.D. Qualifying Exam following the first semester in residence. This is a written and oral exam administered by an exam committee. Passing this exam enables the student to form a Ph.D. Advisory committee and plan the Ph.D. Program of Study.

Comprehensive Exam Process

After the Program of Study is completed the student must take the Comprehensive Exam—typically in their 4th or 5th semester. The written portion of the exam is a dissertation research proposal, followed by an oral defense of the proposal. The presentation of the dissertation proposal is open to the public. Following successful completion of the Comprehensive Exam, the Ph.D. student is now a Ph.D. candidate and can devote full attention to the required dissertation.

Dissertation Requirements

The dissertation is expected to be an original piece of research that is a genuine contribution to geology. Continuous registration (fall, winter and summer) is required until the degree is received. The student is required to make an oral presentation of the results of his dissertation research before faculty and students as the project nears completion. A separate defense of the dissertation occurs during the Final Examination after the dissertation has been read by the supervisor and committee members.

Admissions

Fall deadline: none set, but January 31st for guaranteed consideration for departmental financial aid for the following Fall-Spring academic year. Additional admission requirements and criteria:

- The equivalent of the MU Master of Science degree in geology or in another related science is normally required of each student prior to admission to the Ph.D. program. Students with outstanding first year graduate records, however, may bypass the Master's degree upon petition to the faculty.
- Minimum G.P.A. of 3.00 (on a 4.0 scale) for last 2 years undergraduate work and at least a 3.20 G.P.A. in Master's-level
The Department of German and Russian Studies offers courses in German and Russian language, literature, film and civilization. It also offers instruction in Arabic, Chinese, Japanese, Hebrew and Korean. Many courses, such as civilization, culture, literature in translation and film courses, do not require knowledge of a foreign language.

The department offers the Bachelor of Arts with majors in German and in Russian, and the Master of Arts in German and in Russian and Slavonic Studies. The department also offers minors in German, Russian, Chinese Studies, Japanese Studies, and Korean Studies. Many courses in the minor in East Asian Studies are taught in the Department of German and Russian Studies. The Film Studies program is also housed in the department.

Faculty

Professor R. F. Cook*, B. Prager*, C. Strathausen*
Associate Professor S. Engelstein*, S. Franzel*, S. Ireton*, K. Kopp*
Assistant Professor S. Howes*
Associate Teaching Professor M. Fischer*
Assistant Teaching Professor M. McKinstry, O. Schmidt

* Graduate Faculty Member - membership is required to teach graduate-level courses, chair master's thesis committees, and serve on doctoral examination and dissertation committees.

** Doctoral Faculty Member - membership is required to chair doctoral examination or dissertation committees. Graduate faculty membership is a prerequisite for Doctoral faculty membership.

Undergraduate

- BA in German (p. 212)
- Minor in German (p. 213)

Dual Degrees and Double Majors

As a double major or a dual degree has become an ever more popular choice, an increasing number of students choose German or Russian as one of their majors. Students looking forward to a career in medicine or in the sciences use a double major to ensure a thorough background in the humanities to balance their scientific studies. Double majors within the College of Arts and Science can be arranged and, if the second degree program is identified early, dual degree programs outside the college are also possible. Combined programs with journalism, international studies, education and business are frequent choices. Within the college, combinations with political science, history, philosophy, art history, and the sciences are popular double major programs.

Departmental Honors - German

Departmental honors are available for students majoring in German with a minimum 3.3 GPA. At least two literature courses must be taken at the 4000-level, with no grades below B. The equivalent of one of the courses may be completed in study abroad. Alternatively, at the discretion of the department, a paper written within the capstone course may be substituted.

Graduate

- MA in German (p. 213)

Director of Graduate Studies: Sean Ireton

The German and Russian Studies Department offers BA and MA degrees in two cultures and languages of critical significance in the world today - German and Russian. The German program prepares students for admission to PhD programs and for professional language careers in a number of fields. Courses in language, literature, teaching techniques and skills, seminars in various specialized aspects of German studies, and directed study and research provide candidates with opportunities to acquire a comprehensive background in German studies. Teaching assistants receive training in pedagogy.

Resources and Facilities

Resources include extensive library holdings in German literature, cultural studies, and teaching methodology, and an electronically equipped audiovisual laboratory for language training.

Financial Aid from the Program

Some programs require an extra form or statement from those who wish to be considered for internal assistantships, fellowships or other funding packages. Check the program website or ask the program contact for details.

BA in German
Degree Program Description

The German degree is the exploration of the language, literature and culture of German-speaking countries (Germany, Austria, and Switzerland). Many of the greatest thinkers and artists of the modern era - e.g. Einstein, Freud, Nietzsche, Kant, Beethoven, Marx, Kafka, Goethe - came from these regions, while almost every discipline in the humanities, sciences, and social sciences has a strong German tradition. In addition, Germany plays a crucial role in the European Union, on the world political stage, and in economic dealings with the United States and around the world. The BA in German offers you the possibility of participating in this vibrant cultural tradition first hand. MU German majors have successfully pursued careers in business, engineering, finance, law, journalism, government service, teaching, medicine, and the sciences, as well as in art, literature, philosophy, music, and film.

Major Program Requirements

The major in German consists of 27 credits in German beyond GERMAN 2100. The German faculty strongly encourages all majors to spend at least one semester studying abroad at a German university. Equivalents to all the required courses for the major are available through study abroad. In addition, students must meet all degree, college and university graduation requirements (p. 33) including university general education (p. 34).

Major core requirements (beyond the A&S language requirement)
The following courses or their equivalents must be included:

<table>
<thead>
<tr>
<th>Course</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>GERMAN 2260 Intermediate German II: Language and Culture</td>
<td>3</td>
</tr>
<tr>
<td>GERMAN 3160 or GERMAN 3190 German Conversation and Composition</td>
<td>3</td>
</tr>
<tr>
<td>GERMAN 3230 Introduction to German Literature</td>
<td>3</td>
</tr>
<tr>
<td>GERMAN 4980 German Capstone Seminar</td>
<td>3</td>
</tr>
<tr>
<td>One GERMAN 4200-level literature course</td>
<td>3</td>
</tr>
<tr>
<td>GERMAN 2310 or GERMAN 2320 German Civilization: Beginning to 1850</td>
<td>3</td>
</tr>
</tbody>
</table>

Electives

Elective courses and equivalents to replace the required courses above should be selected in consultation with the advisor.

Total Credits: 18

* GERMAN 2310 and GERMAN 2320 are Writing Intensive German civilization courses. Versions of both GERMAN 2310 and GERMAN 2320 taken online do NOT count towards the major or minor requirements.

Semester Plan

Below is a sample plan of study, semester by semester. A student's actual plan may vary based on course choices where options are available.

First Year

Total Credits: 122

NOTE: Third Year - Study Abroad at German University

Minor in German

The department offers a minor in German consisting of 15 credits beyond GERMAN 2100. A minimum of 6 of these 15 credits must be in German courses numbered 3000 or above. In addition, a minimum of 9 of the 15 credits must be completed in residence. For the German minor, 12 of the 15 credits must be in courses where the language of instruction is German.

MA in German

Application and Admission Information

Admission Contact Information
Dr. Kristin Kopp
koppkr@missouri.edu
218A Strickland
Columbia, MO 65211
(573) 882-3367
Admission Criteria

Fall deadline: First preference given to applications received by January 15, subsequent applications welcomed
Note: Applications received by January 15 receive first consideration

Spring deadline: August 1
Note: Applications to begin Spring semester are not encouraged. Assistantships are typically not available for graduate students beginning Spring semester.

• Minimum TOEFL scores:
  - Internet-based test (iBT)
    - 61 Effective July 1, 2015 must have score of 80
  - Paper-based test (PBT)
    - 500 Effective July 1, 2015 must have score of 550

• Minimum GPA: 3.0
• Undergraduate major in German or equivalent

Note: The department reserves the right to evaluate the work presented for admission and to determine how the student may make up for background deficiencies.

Required Application Materials

To the Office of Graduate Studies:
• All required documents

To the Program:
• Departmental application
• 3 letters of recommendation

Degree Requirements

Students must complete a minimum of 30 hours of graduate-level courses with a GPA of B or higher. No fewer than 24 hours are to be earned in German courses at the 7000 or 8000 level and at least 15 hours must be taken in German courses at the 8000 level. A thesis, with a maximum of 6 hours of credit, or a critical essay, with a maximum of 3 hours credit, are optional. Courses taken outside the department must complement the student’s plan of study and require the approval of the departmental advisor. No languages other than German and English are required. Information regarding specific course requirements can be obtained by writing to the director of graduate studies.

Comprehensive Examinations

Candidates for the MA degree must pass comprehensive written and oral final examinations based on coursework and a cumulatively prepared reading list.

History

C. Rymp, Chair
College of Arts and Science
101 Read Hall

Director of Graduate Studies: John Frymire

By any measure one might choose, the History Department at the University of Missouri is an outstanding one. Our faculty has compiled a distinguished record of scholarship, receiving major awards to support their research from the National Endowment for the Humanities, the National Science Foundation, the John Simon Guggenheim Foundation and many other sponsors of cutting edge scholarship. Their books have won prizes from the American Historical Association, the Organization of American Historians and other national and regional scholarly organizations.

The department’s teaching record is every bit as distinguished as its record of scholarly accomplishment. Graduate students work closely with professors in advanced seminars and write theses and dissertations on a wide variety of topics. The teaching opportunities the department offers graduate students prepare them well for dealing with the difficult job market for new history PhDs. Over the last ten years, University of Missouri history PhDs have found positions at more than forty different colleges and universities across the United States.
Areas of Study

Lecture courses, seminars and directed research projects are available on the histories of Western Europe, East Asia, Latin America, and the United States. While students are expected to get specialized training in the fields of their choice, they are also urged to develop a broad historical background.

Facilities and Resources

Ellis Library has substantial research materials in all fields of graduate study, including an unusual collection of more than 5,000 pamphlets on 17th- and 18th-century British history and 18th- and 19th-century British and continental journals, including publications of all the major academies. The Health Sciences Library has excellent publications on the history of medicine. An additional resource is the Western Historical Manuscript Collection, a unique repository of material for regional studies in political, social and economic history. The State Historical Society of Missouri has an outstanding library of finding aids and primary and secondary works dealing with Missouri history. The graduate program also has available the resources of the Truman Library at Independence, Missouri.

Internal Funding

Applicants may compete for Office of Graduate Studies fellowships for entering students. Office of Graduate Studies fellowships require departmental nomination. Interested students should consult with the director of graduate studies for further details. The department provides qualified students the opportunity to gain college-level teaching experience as teaching assistants who conduct discussion sections in American and European history. Pending administrative approval and availability of funding, they earn at least $18,000 an academic year at the PhD level and carry nine semester hours. Each appointment is subject to annual review and may be renewed up to a maximum of six years.

BA in History

Degree Program Description

History is the chronicle of humanity’s activities throughout the ages. The study of history offers a means of understanding the present by investigating and analyzing the past. Students can choose from a wide selection of course work including courses in the history of the United States, Latin America, Europe (from ancient Greece to the present), Africa and East Asia. The curriculum provides course work in political, cultural, social, intellectual, environmental and diplomatic history. Beyond the classroom students gain hands-on experience by working as interns at sites such as the University of Missouri Archives the Boone County Historical Society and The Museum of Missouri Military History. Students skilled in research, analysis and writing are attractive to graduate schools in history, museum studies, and public affairs as well as law schools, and business schools. Many history majors obtain their teaching certificate to allow them to teach in public schools. History majors are highly recruited in many fields of business, including management, marketing and finance. Libraries, museums, archives, publishing companies, and local history and preservation projects all offer careers with the possibility of continued specialization in history. A number of our majors have also found rewarding work in city, state and federal government, including city planning, historic preservation, and working on political campaigns locally and in Washington DC.

Major Program Requirements

A student majoring in history must complete a total of 33 history credits. A grade of C- or better is required for all courses taken for the major. In addition, students must complete all university graduation requirements (p. 33), general education (p. 34) and Arts and Science Foundation Requirements.

BA in History with Emphasis in Public History

Degree Program Description

The Public History emphasis is intended for history majors interested in the application of historical studies in public settings. The course of study encompasses historical work outside of the university setting, including, museums, heritage sites, national parks, archives, public agencies, private corporations and non-profit organizations. The emphasis is designed to prepare students for graduate programs in public history, museum studies, or careers in public service.

Major Program Requirements

I. Introductory Courses (same as BA degree) 9
II. Research Skills (same as BA degree) 3
III. Area Specific Courses (same as BA degree) 9
IV. History Electives
   HIST 4910: History in the Public + 1 history course at the 3000 level or above 6
V. Capstone (Two Internships, HIST 4940) 6
   At least one internship must involve some sort of public presentation (poster session, conference presentation, museum display or digital exhibit) based on original research
VI. Public History Component
   Two courses from above, (not to include HIST 4910 or HIST 4940) must include a digital or public history component.
VI. U.S. History Requirement (same as BA degree)

In addition, students must complete all College of Arts and Science and University graduation requirements (p. 33), including University general education (p. 34).

Semester Plan

Below is a sample plan of study, semester by semester. A student’s actual plan will vary based on course choices where options are available.

Minor in History

A minimum of 15 credits is required for a minor in history. At least 9 of the 15 must be in courses numbered 2000 or above. A minimum of 9 credits must be taken in residence, 6 of which must be in courses numbered 2000 or above. A grade of C- or better is required for all history courses taken for the minor, however, a cumulative GPA in your minor must be at least a 2.0. The selection and mix of courses is left to the discretion of the student.

You cannot use minor coursework in your major. You cannot use the same coursework for multiple A&S minors. Once an A&S minor is awarded a student cannot return to MU to complete a major in the same department. A minor must be posted at the same time as the major degree is posted, you cannot return after you have graduated to obtain a minor.

MA in History

Admission Contact Information

Nancy Taube (tauben@missouri.edu)
101 Read Hall; Columbia, MO 65211
(573) 882-0250

**Admission Criteria**

Fall deadline: Mid-January (see departmental website for specific date)

- Minimum GPA: 3.0 in last 60 hours
- BA or BS degree
- GPA of 3.3 in undergraduate history courses, and at least 18 hours in history
- Official GRE score report, recommended but not required
- Minimum TOEFL scores (international applicants only):

<table>
<thead>
<tr>
<th>Internet-based test (iBT)</th>
<th>Paper-based test (PBT)</th>
</tr>
</thead>
<tbody>
<tr>
<td>Effective July 1, 2015 must have score of 80</td>
<td>Effective July 1, 2015 must have score of 550</td>
</tr>
</tbody>
</table>

Candidates who lack the necessary undergraduate hours in history must take graduate-level classes in history to remedy that deficiency before they can be considered for admission. They should consult with the director of graduate studies about appropriate classes. Graduate School regulations prohibit a non-degree student from taking more than twelve hours of course work.

Candidates must achieve a grade point average in these classes of at least 3.3 on a 4.0 scale to be considered for admission. A 3.3 GPA or higher does not guarantee admission. Course work taken as a non-degree student to remedy a deficiency in prerequisites ordinarily will not count toward the MA degree.

**Required Application Materials**

*To the Office of Graduate Studies:*

- All required documents, including online application
- One uploaded copy of each college transcript where a degree was earned or is pending (official transcripts will be required upon admission)
- Short essay explaining goals and expectations in graduate study, including the fields in which the student plans to specialize (upload to the online application)
- Substantial writing sample, such as a final research paper from a course (upload to the online application)
- 3 letters of recommendation (submission through the online application system strongly preferred, but postal mail submission directly to the department allowed)
- Official GRE score report, recommended but not required
- Official TOEFL score for international students

**Note:** Incomplete applications will not be considered. It is the applicant’s responsibility to ensure that all required documents have been received by the January deadline.

**Financial Aid from the Program**

In this department, all applicants are considered for financial aid unless they indicate otherwise. Announcements of awards are made no later than April 1. Applicants may compete for fellowships for entering students. Fellowships require departmental nomination. Interested students should consult with the director of graduate studies for further details.

The department provides qualified students the opportunity to gain college-level teaching experience as graders who grade exams and papers in American and European history. Pending administrative approval and availability of funding, they earn at least $8,000 an academic year and carry nine semester hours.

Each appointment is subject to annual review and may be renewed up to a maximum of two years.

**Requirements for the Degree Residency**

A minimum of two semesters of full-time enrollment (9 hours each semester) or three semesters of part-time enrollment (6 hours each semester). Enrollment in all graduate courses requires the consent of the student’s advisor and the instructor(s) of the class.

**Hours**

Thirty semester hours of graduate credit are required by the Office of Graduate Studies for the MA degree. The Office of Graduate Studies also mandates that at least fifteen of these hours be in courses numbered 8000 or above, and will not count more than twelve hours of individually directed studies toward the thirty hours necessary to earn the degree. The department requires that at least twenty of these hours be in history. For students of United States history, at least fifteen hours must be in formally constituted US history courses. For students in the non-United States history program, at least twelve hours must be in formally constituted non-US history courses. Independently directed work does not count toward fulfilling this requirement in either category.

**Required Courses**

A studies course in every semester in which as many as nine credit hours are carried, unless the student is granted an exemption by the director of graduate studies. Every master’s student must take HIST 8480 Historiography unless excused by the director of graduate studies. HIST 8480 is offered regularly.

Every student who is a non-thesis candidate must complete at least two research seminars before receiving the MA degree. No master’s candidates in US or non-US history are required by the department to demonstrate reading proficiency in any foreign languages or to develop research skills before receiving the MA degree. Individual advisors, however, can require MA candidates to become proficient in reading foreign languages and/or develop specific research skills if they determine such knowledge is essential for the successful completion of a student’s master’s program. As soon as any such determination is made, students will be informed by their advisors. The advisors will also discuss with them processes for achieving and demonstrating those proficiencies.

Master’s candidates in Ancient History must demonstrate proficiency in at least one ancient language (Greek or Latin) and at least one modern language (generally, either French or German) before they begin work on their theses, if they choose that alternative, or before they take the non-thesis MA examination, if they are seeking a terminal master’s degree. These students should also be aware that ancient history graduate courses can include readings in Greek and Latin. For directions on how to demonstrate proficiency in these ancient and modern languages, students should talk with their advisors and obtain a written description of this process from them.

Special Note: No student will receive graduate credit for any course in which s/he earns a grade below B. The grade of C in a graduate class is the equivalent of an F in an undergraduate course.
Satisfactory Progress and Annual Review

At the beginning of every Spring semester, students must complete a “Progress Report” on the Office of Graduate Studies’ Graduate Student Progress System (sometimes referred to as “online assessment”). This report will be read by the student’s faculty advisor, who will then submit an “Advisor Response.” In addition, the student and advisor should meet to discuss the student’s progress, confirm expectations for the coming year, and address any concerns either may have regarding the report.

This is an extremely important process for two reasons. First, the advisor determines whether the student is making satisfactory progress toward a degree. If s/he is not, the advisor informs the student what needs to be done to rectify the situation. The student then usually has a year to return to making satisfactory progress. Failure to do so may result in loss of financial aid or dismissal from the program. Second, if the student is making satisfactory progress, the advisor and s/he decide together on what reasonable goals are for the next twelve months. These goals will define “satisfactory progress” at the next assessment meeting.

Appeals

The student may appeal any assessment to the director of graduate studies. If not satisfied, s/he may seek the remedies described in the Graduate School catalog.

Effect of Progress Report Completion on Funding

Completion of the Graduate Student Progress System forms by both student (Progress Report) and faculty (Advisor Response) is mandatory to maintain eligibility for any form of financial aid from the department. Receipt of financial aid requires confirmation by a student’s advisor that s/he is making satisfactory progress. No student in the program who applies for or who is seeking renewal of financial aid will be eligible for aid without a complete and up-to-date Graduate Student Progress System Report on file.

Plans for MA Degrees: Thesis plan

All students who wish to apply for admission to doctoral programs in history either at the University of Missouri or at other institutions must write a thesis. A thesis involves an original and extended analysis of an historical issue that requires substantial research. The topic of the thesis must be approved in advance by the student’s faculty director and the thesis committee, which is composed of the director, at least one other member of the history faculty, and one faculty member from outside the department.

The Office of Graduate Studies regulations require that there be an outside faculty person on each thesis committee. At the discretion of the director, additional faculty members may be added to the committee. The appropriate forms, signed by the advisor and the director of graduate studies, will be submitted to the Office of Graduate Studies.

Students will take HIST 8090, Thesis Research, during those semesters they are actually engaged in writing their thesis. N.B.: The Office of Graduate Studies only permits six hours of HIST 8090 to count toward the 30 hours necessary to earn a master’s degree. Students should also note that hours earned in HIST 8090 do count toward the maximum of 12 hours of independent study, i.e., HIST 8085 (Problems), HIST 8089 (Research), and HIST 8090 (Thesis Research), the Office of Graduate Studies will accept as credit for this degree.

Plans for MA Degrees: Non-Thesis Plan

Students may earn a master’s degree without writing a thesis. A non-thesis MA is a terminal degree. Those who receive it will not be considered for admission to the doctoral program. These students must successfully complete two research seminars in history. These seminars will count toward the thirty hours required for an MA degree. One of the seminar papers must be submitted to the department to fulfill the Office of Graduate Studies requirement for a substantial effort reflecting creativity or originality.

Examination for the MA degree: For Thesis Plan

The student must defend her/his thesis before a committee of at least three faculty members, one of whom must be the thesis director. Another must be from a department other than History. The committee is appointed by the Office of Graduate Studies upon recommendation from the Department of History. The examining committee decides:

1. whether to recommend the awarding of the MA degree to the student
2. for prospective doctoral candidates, whether the student shall be permitted to enter the doctoral program.

This latter action constitutes a decision on the qualifying examination required in the doctoral program. Afterwards, the appropriate form(s) will be signed by the advisor, committee members, and the director of graduate studies, then sent to the Office of Graduate Studies.

Examination for the MA degree: For Non-Thesis Plan

A comprehensive oral examination covering all work for the degree will be conducted by a committee of the advisor and at least two other faculty members, one of whom may be from a department other than history. The examining committee decides whether to recommend the awarding of the MA degree. Afterwards, the appropriate form(s) will be signed by the advisor, committee members, and the director of graduate studies, then sent to the Office of Graduate Studies.

Graduate School Deadlines for receipt of the MA degree

Students must meet the Office of Graduate Studies’ deadlines for the awarding of degrees and the submission of theses. The final form of the thesis must be in conformity with the Office of Graduate Studies requirements.

PhD in History

Admission Contact Information
Nancy Taube (tauben@missouri.edu)
101 Read Hall; Columbia, MO 65211
(573) 882-0250

Application Deadline
Fall deadline: Mid-January (see departmental website for specific date)

Admission Criteria

• MA in history strongly preferred
• Quality of master’s thesis or research seminar paper submission
Students who do not meet one or more of these criteria may enroll as non-degree graduate students. Contact the director of graduate studies for further details. All admissions of doctoral candidates who did not receive the MA degree from the department are provisional. These students must pass a qualifying examination. See below for information about the qualifying examination.

**Required Application Materials**

*To the Office of Graduate Studies:*

- All required Office of Graduate Studies documents, including Office of Graduate Studies online application
- One uploaded copy of each college transcript where a degree was earned or is pending (official transcripts required upon admission)
- Short essay explaining goals and expectations in graduate study, including the fields in which the student plans to specialize (upload to the online application)
- Substantial writing sample, such as a final research paper from a course (upload to the online application)
- 3 letters of recommendation (submission through the online application system strongly preferred, but postal mail submission directly to the department allowed)
- Official GRE score report, recommended but not required
- Official TOEFL score for international students

**Note:** Incomplete applications will not be considered. It is the applicant’s responsibility to ensure that all required documents have been received by the January deadline.

**Financial Aid from the Program**

In this department, all applicants are considered for financial aid unless they indicate otherwise. Announcements of awards are made no later than April 1. Applicants may compete for Office of Graduate Studies fellowships for entering students. Office of Graduate Studies fellowships require departmental nomination. Interested students should consult with the director of graduate studies for further details.

The department provides qualified students the opportunity to gain college-level teaching experience as teaching assistants who conduct discussion sections in American and European history. Pending administrative approval and availability of funding, they earn at least $18,000 an academic year and carry nine semester hours. Each appointment is subject to annual review and may be renewed up to a maximum of six years.

**Qualifying Examination**

To be admitted to candidacy for a PhD in history, a student must have earned an MA in history or a related discipline and have passed a qualifying examination.

Students with an MA from the University of Missouri

Students earning their MA in history at this university may, with the approval of their advisory committee, combine their qualifying examination with their MA thesis defense. Other students must take their qualifying examination no later than the beginning of their third semester in the graduate program at the University of Missouri-Columbia.

**Students Who Earned Degrees at Other Institution**

All admissions of doctoral candidates who did not receive the MA degree from the department are provisional. These students must pass a qualifying examination no later than the beginning of their third semester of residence at MU. The exam will focus on a research paper the student wrote at MU.

**About the Exam**

The examining committee will be composed of the student’s advisor and at least two other history faculty members. During the consideration of prospective students, the committee on graduate admissions will consult closely with faculty best suited to advise them.

The basis for the examination will be a substantial research-based seminar paper written here. The exam will be oral, approximately one hour in length; the examiners will include the student’s advisor and at least two other members of the department. It is designed to ascertain the candidate’s intellectual capacity, aptitude, and preparation for PhD level work in history.

The committee reserves the right to reject otherwise qualified students if:

1. this department cannot provide the applicant with an adequate program in his/her area of interest
2. no faculty member is willing to supervise his/her work.

**PhD Program Overview**

The PhD program in history at the University of Missouri-Columbia is governed by a number of rules, regulations, and expectations. What follows is an explanation of these elements of the program.

**Advisor and Advisory Committee**

A student will meet with his/her advisor no later than the semester following passage of the qualifying examination for students who earn their MA in history at the University of Missouri and prior to the qualifying examination for other students. The advisor and student together will plan the student’s class work up to the comprehensive exams. They will also choose other members of the student’s doctoral committee. That committee will ordinarily consist of the advisor, three members of the history department who are on the graduate faculty, and one graduate faculty member from outside the department. The advisory committee must be approved by the dean of the Graduate School.

**Developing a PhD Plan of Study**

The committee will meet formally with the student to help the student to develop a major field, two broad historical fields, a historical field outside his/her area of major emphasis, and one field in a discipline other than history for the comprehensive examination. How s/he will meet the foreign language and/or historical research technique requirement (see below) will be defined and approved by the advisor and the committee. Members of the advisory committee shall meet regularly with the student to ensure he/she is making satisfactory progress.

**PhD Degree Requirements**

To obtain a PhD in history at the University of Missouri, a student must fulfill the following requirements:

1. residency
2. course work  
3. foreign language and/or historical/research technique  
4. comprehensive examination  
5. dissertation and oral defense

**Residency**

A minimum of two semesters of full-time enrollment (9 hours each semester) or three semesters of part-time enrollment (6 hours each semester). Enrollment in all graduate courses requires the consent of the student's advisor and the instructor(s) of the class.

**Course Work**

The minimum requirement for the PhD degree at the University of Missouri is 72 hours of graduate credit beyond the baccalaureate degree. A student's advisor and committee may require more. Customarily, students in history have more than 72 hours when they defend their dissertations. If a student has earned an MA degree at another institution, with the approval of her/his advisor and committee, s/he may receive up to 30 hours of credit toward the 72 necessary for the PhD. If a student took additional courses beyond his/her MA degree at another institution, with the approval of her/his advisor and committee, s/he may receive up to a maximum of six hours of credit toward the PhD.

Graduate School regulations forbid the awarding of more than six hours. Two-thirds of the courses taken by a PhD candidate within the department prior to the comprehensive examination must be at the 8000 or 9000 level. These may, and probably will, include History 8085 (Problems), HIST 8410 (Independent Readings PhD Exam), but not HIST 9090 (Dissertation Research).

Every doctoral student who earned his/her master's degree at another institution must take HIST 8480, Historiography, unless excused by the director of graduate studies. History 8480 is offered regularly.

**Foreign Languages and Historical Research Techniques**

PhD candidates must demonstrate abilities in foreign languages and/or historical research skills appropriate to the completion of a doctoral dissertation in their proposed field of research. There are four different ways a student may fulfill this requirement. Which one is chosen depends on the area of his/her research interest. The advisor and committee must approve the method for fulfilling this requirement.

**PhD Focus Areas**

**Ancient History Focus**

Candidates planning to write a doctoral dissertation in ancient history must demonstrate their competence in Greek and Latin, together with at least two modern languages (usually French and German).

For the ancient language, competence will be shown either by the successful completion of a translation examination designed by a history department faculty member with knowledge of the relevant language, or by the completion of upper-level courses in the department of classical studies, or by other such proof as the advisor and other members of the advisory committee deem appropriate.

Competence in the modern languages will be shown either by the successful completion of a translation examination designed by a history department faculty member with knowledge of the relevant language, or by passing the ETS language examination with a minimum score of 500, or by the successful completion of an upper level language course in any modern language department of the university.

**European History Focus**

Candidates planning to write a dissertation in European history must be competent in two foreign languages.

Competence may be demonstrated either by successful completion of a research paper, the sources for which are predominantly in the foreign language under consideration, or by successful completion of a translation examination designed by a history department faculty member with knowledge of the relevant language, or by passing an ETS language examination with a minimum score of 500. A candidate's advisory committee may also require him/her to show competence in historical research technique. An historical research technique is a specialized field of study which provides a student with additional skills for research. Quantitative methods/statistics or techniques of historical exhibition, museum work, and the analysis of material culture are some examples. Competence will be demonstrated by satisfactory completion of a substantial research paper or other historical project for which the technique is necessary.

Students who take foreign language courses should keep in mind that all classes below 7000 may not be taken for graduate credit and do not count toward the 9 hours per semester required for those receiving financial aid.

**American History Focus**

Candidates planning to write a dissertation in American history shall have a competent reading knowledge of one foreign language.

Competence in a foreign language shall be demonstrated in the ways described above for candidates in European history.

**Asian or Latin American History Focus**

Candidates planning to write a dissertation in Asian or Latin American history shall demonstrate a competence in such languages as their advisory committee requires for their research. In addition, a candidate’s advisory committee may require the candidate to demonstrate competence in an historical/research technique, as defined above in the American History section (3).

**Preparation for the Comprehensive Examination**

In the department of history, each doctoral student must prepare five fields for the comprehensive examinations. The selection of those fields and the faculty who will be the examiners in each should be begun by the doctoral candidate and her/his advisor during her/his first semester at MU. The advisor will help the student prepare for examination in her/his major field. This will cover significant historical themes and historiographical trends in the specific period and area of the student’s prospective dissertation topic.

Two other members of the history faculty will help the student prepare for examinations in two chronological and/or geographical areas of historical study that are appropriate for his/her dissertation topic. A fourth member of the history faculty will prepare the student for an examination in a chronological, geographical, and/or thematic area of historical study that is not directly related to his/her dissertation topic. A fifth faculty member from a department other than history will prepare the student...
for examination in an outside field. This will cover the methodologies and research findings of another academic discipline.

**Areas of Study and Dissertation Topics**

What the student learns in this discipline should assist his/her understanding of and research on her/his dissertation topic. The student’s choice of a discipline to work in for his/her outside field is potentially as wide as the number of programs and departments in the university. That choice is not confined merely to departments in the College of Arts and Science. The student must have his/her advisor’s approval of the discipline and the outside faculty member. The Graduate School must approve these selections as well.

Within the department of history there are seven broad areas of historical study.

- US history to 1865 (including the colonial period)
- US history since 1865
- Ancient history
- European history from the fall of Rome through the Reformation
- European history since the Reformation
- Latin American history
- Asian history

The three history faculty who, together with the advisor, will help the student prepare for the comprehensive examinations, must each test him/her on material in a different broad area. Thus the student will be working on three different broad areas, plus the dissertation field. The three faculty members may, in consultation with the student, define the broad area as narrowly or as widely as they choose.

**Documenting Exam Preparation**

The advisor and the four other faculty members must explain how they want the student to prepare, what they want the student to master, and which criteria they will use to assess the examinations in their particular field. These explanations must be in writing, and copies of each placed in the student’s permanent file.

**Comprehensive Examination Requirement**

Students may take a comprehensive examination only after fulfilling their residency, course work and foreign language and/or historical research technique requirements. It will be administered by a committee consisting of his/her advisor and four other faculty members, one from a discipline other than history. These should be the faculty members who helped the student prepare for the examinations. Sometimes it may be necessary to find substitutes. The director of graduate studies and the Graduate School must approve any substitutions, and new committee members must describe their expectations in writing for the student and for his/her permanent file.

**Comprehensive Exams Processes**

The comprehensive exams are given in two stages. The first is a series of at least three written exams. The second is an oral examination, which is conducted if the student passes the written portion. A report of the decision, signed by all members of the committee, must be sent to the Graduate School and the student no later than two weeks after the comprehensive exam is completed. One of the written exams must be in the major field; the committee will determine the subjects of the other exams, and their number.

Special Note: All members can require the student to write on their areas of expertise. Therefore the written examinations could cover all five areas.

All members of the committee will read the written exams and discuss them within two weeks after their completion. If they determine the student has not successfully completed the exam, they will inform him/her immediately and discuss the results. Failure ends the comprehensive exam at this point. The committee must provide the student with an outline in writing of the weaknesses and deficiencies of his/her work.

A copy of this must be placed in the student’s permanent file. If at any time the student believes that parts of the exam are unclear, or the decision of the committee is incorrect, or the advice given by the committee is inadequate, s/he may send a written request for clarification and rectification to the committee. A copy of this request should be sent to the Graduate School as well. The committee must respond to this request in writing within two weeks and a copy must be filed with the department and the Graduate School.

At least 12 weeks must pass before a student who failed can take the comprehensive exams again.

If the committee determines that the student did satisfactory work on the written examinations, they will schedule an oral examination. This second stage of the comprehensive exams will cover all five fields. Each member of the committee will test the student. At the end of the oral examinations, the committee discusses the student’s performance on each field and on the entire examination. This discussion includes both the written and the oral parts of the whole process. Then they vote pass, fail, or abstain on the student’s total performance on the exam.

**Criteria for Successful Completion of the Comprehensive Exam**

To complete the comprehensive exams successfully, the student must receive a vote of pass from at least four of the five examiners. Should two or more votes be negative or abstentions, the committee follows the same procedure outlined above for failure to pass the written part. These students must repeat the entire examination, not just the fields failed, and not just the oral portion. If the candidate fails the second examination, the examining committee must enter on its report to the dean of the Graduate School a recommendation to prevent the student’s further candidacy.

**Dissertation and Oral Defense**

Soon after successful completion of the comprehensive examination, the student and advisor will form a dissertation committee of five faculty members. One member of the committee must be from outside the department. The student shall develop with her/his advisor and committee a dissertation topic and a plan of research. S/he should keep in regular contact with the advisor. Together they shall decide when written work will be read by other members of the committee.

**Travel Funding**

When students begin work on their doctoral dissertations, they may apply for departmental fellowships and travel grants to assist their research and writing.

**Satisfactory Progress**

The department requires PhD candidates to make satisfactory progress towards completion of their degree.
Annual Review

At the beginning of every Spring Semester, students must complete a “Progress Report” on the Graduate School’s Graduate Student Progress System. This report will be read by the student’s faculty advisor, who will then submit an “advisor Response.” In addition, the student and advisor should meet to discuss the student’s progress, confirm expectations for the coming year, and address any concerns either may have regarding the report.

This is an extremely important process for two reasons. First, the advisor determines whether the student is making satisfactory progress toward a degree. If s/he is not, the advisor informs the student what needs to be done to rectify the situation. The student then usually has a year to return to making satisfactory progress.

Failure to do so may result in loss of financial aid or dismissal from the program. Second, if the student is making satisfactory progress, the advisor and s/he decide together on what reasonable goals are for the next twelve months. These goals will define “satisfactory progress” at the next assessment meeting.

Appeals

The student may appeal any assessment to the director of graduate studies. If not satisfied, s/he may seek the remedies described in the Graduate School catalog.

Funding Impact of Incomplete Reports

Completion of the Graduate Student Progress System forms by both student (Progress Report) and faculty (Advisor Response) is mandatory to maintain eligibility for any form of financial aid from the department. Receipt of financial aid requires confirmation by a student’s advisor that s/he is making satisfactory progress. No student in the program who applies for or who is seeking renewal of financial aid will be eligible for aid without a complete and up-to-date Graduate Student Progress System Report on file.

Rate of Completion

A PhD student must successfully complete the comprehensive examination within a period of five years beginning with the first semester of enrollment as a PhD student. For an extension of this the student must petition the Graduate School by submitting a request to the advisor who, in turn, submits a written recommendation to the Graduate School. The director of graduate studies will also make a written recommendation. In addition, the dissertation must be successfully defended within five years of passing the comprehensive examination. On petition of the candidate and the candidate’s department, an extension of time may be granted by the Graduate School.

Interdisciplinary

Office of Multidisciplinary Degrees
College of Arts and Science
114 Switzler Hall
(573) 882-6060
omd.missouri.edu

Faculty

Faculty members are housed in departments and schools throughout the University of Missouri.

• Graduate Faculty Member - membership is required to teach graduate-level courses, chair master's thesis committees, and serve on doctoral examination and dissertation committees.

• Doctoral Faculty Member - membership is required to chair doctoral examination or dissertation committees. Graduate faculty membership is a prerequisite for Doctoral faculty membership.

Undergraduate

• BA in Interdisciplinary (p. 222)
  • with emphasis in Black Studies (p. 223)
  • with emphasis in Environmental Studies (p. 224)
  • with emphasis in Peace Studies (p. 226)
  • with emphasis in Women's and Gender Studies (p. 227)

Interdisciplinary Studies provides for the needs and interests of individual students who are not being served by one of the existing majors. The Office of Multidisciplinary Degrees is responsible for a variety of multidisciplinary majors, including Interdisciplinary Studies, International Studies, and General Studies. The website is omd.missouri.edu.

Graduate

While MU does not offer graduate degrees specifically in interdisciplinary, the University does offer post-baccalaureate opportunities in a number of related areas, both within the College of Arts and Science, and in the other Schools and Colleges that make up the University. The catalog provides a complete list of these degree options (p. 18).

BA in Interdisciplinary

Degree Program Description

The Bachelor of Arts in Interdisciplinary Studies (IDS) degree in the College of Arts and Science is available to students who have explored various departments at MU and discovered that their academic interests and goals are not easily accommodated in any one major. IDS degree requirements allow students to build an individualized major that is integrative, multidisciplinary, and reflects their personal academic interests and career goals. Students are attracted to IDS for various reasons: a desire to create a unique degree, broad interests, a need for flexibility, timely degree completion, or preparation for further study at the graduate level. Career options are as varied as the combination of curricula. There is an option available for students who wish to obtain Chinese teaching certification.

Major Program Requirements

Students majoring in Interdisciplinary Studies may design an individual course of study. Students with very specific career plans and goals not easily accommodated in any one department may find this program suited for their needs. Others may find that this option permits a broader approach than the major found in a single department.

The Interdisciplinary Studies major is comprised of two or three components to total 36 credits. A component consists of course work from a single department or area, which may include programs outside the College of Arts and Science (e.g., Journalism, Business or Social...
Work. At least 18 hours must come from the College of Arts and Science. In addition to the 36 hours required in the major components, Interdisciplinary Studies students must also complete a 3-credit capstone.

Interdisciplinary Studies candidates must earn no less than a 2.0 GPA in each component. They are bound by rules and practices of the College of Arts and Science that pertain to admission to degree programs, the awarding of credit, and the awarding of degrees. Students must complete college as well as University requirements (p. 33), including University general education (p. 34).

### Major Core Requirements

Area of concentration (select one option) 36

- Three components of 12 credits each
- Three components, one of 15, one of 12 and one of 9 credits
- Two components of 18 credits each
- Two components, one of 21 and one of 15 credits

All courses in the major must be at the 2000 level, and at least 15 credits must be 3000 level or above.

A minimum of 12 credit hours within all components must be MU courses.

A maximum of 6 hours of Internship may apply to graduation.

A maximum of 12 hours of Internship, Readings and/or Special Problems may apply to graduation.

### Capstone requirement (to be completed during final 45 hours of course work)

There are several ways a student can complete the capstone experience in Interdisciplinary Studies.

1. Special Readings project: With this option, the student completes an independent research project under the supervision of a faculty member. The project allows the student to explore an area of interest and is designed to be an academic challenge. The department is open to creative, innovative approaches to learning. The supervising faculty member is responsible for grading the project. The student is responsible for locating a supervising faculty member.

2. Service Learning project: Students will engage in service activities, directly relevant to their areas of academic emphasis, in community not-for-profit agencies. At the same time as participants work in the community, they will research their agency and organization, undergo mock employment interviews, create a cover letter and résumé based on the professional skills they have gained through their service, and reflect on careers and leadership in public service. Course will be submitted for Writing Intensive credit each semester. Restricted to Interdisciplinary, General and International Studies students.

3. Internship: Students work approximately 50 clock hours per credit at an agency, company or corporation of their choice. Grades are on a pass-fail basis. For an internship to be approved as a capstone experience, it must help the student solidify and explore the areas of concentration. Internships must have prior approval from the Office of Multidisciplinary Degrees (https://ord.missouri.edu).

4. Capstone course: Students may have a specific course designated as a capstone course for the individual degree program. The course must be upper level, and the course must be taken in the last 45 hours of course work as a major. A course taken previously cannot retroactively be counted as a capstone course. Approval for the course must be provided in advance of registration from the Interdisciplinary Studies advisor.

### Semester Plan

Below is a sample plan of study, semester by semester. A student's actual plan may vary based on course choices where options are available.

### BA in Interdisciplinary with Emphasis in Black Studies

#### Degree Program Description

Students in Black Studies learn about the varied experiences of people of African descent from various fields including arts and the humanities, the social sciences, the hard sciences, public policy, education, and law, to name a few. This interdisciplinary field of study focuses on African Americans, Africans, and other people in the African Diaspora. A BA in Interdisciplinary with an emphasis in Black Studies challenges students to learn about and critically analyze the global experiences of people of African descent, including conditions that have shaped their past, as well as their present lives. The degree provides knowledge in the following: critical thinking skills to understand and effectively articulate
experiences and contributions of the people who share a common heritage; ability to critically think, research, write, and analyze the black experience; communication (both oral and written), problem solving, strategic planning and a range of research skills. Students acquire such skills while they develop in-depth knowledge that is beneficial to careers in multicultural, cross-cultural, and diversity consulting, all of which are critical in 21st century employment. In addition, graduates of the degree often pursue employment or graduate studies in academic fields such as Social and Intellectual Movements, Politics, Sociology, Literature, Psychology, Music, Art, History, and many others.

**Major Program Requirements**

Emphasis in Black Studies - Coordinated with the Department of Black Studies, an academic department in the College of Arts and Science

Stephanie Shonekan, Chair
311 Gentry Hall
(573) 882-4326

Students may earn a Bachelor of Arts in the College of Arts and Science with an Interdisciplinary major and an emphasis in Black Studies.

A student majoring in Interdisciplinary with a Black Studies emphasis must complete a total of 33 Black Studies credits. In addition, students must complete all university graduation requirements and Arts and Science Foundation Requirements. A minimum grade of C- is required for each course taken in the major. A minimum cumulative GPA in all major coursework is 2.0.

**Emphasis core requirements**

- Completion of an interdisciplinary area of concentration of at least 33 credits in Black Studies and related courses

In selecting a language to meet general education requirements in the College of Arts and Science, students are encouraged to consider Spanish, Portuguese or French.

In addition, students must complete all College of Arts and Science and University graduation requirements (p. 33), including University general education (p. 34).

**BA in Interdisciplinary with Emphasis in Environmental Studies**

**Degree Program Description**

The Bachelor of Arts in Interdisciplinary with an emphasis in Environmental Studies is an individually-designed major for students interested in acquiring a broad understanding of environmental issues and the complex causes underlying them. Students design their major to reflect their own interests and goals in the field. Individualized majors of this kind require a higher level of commitment than is typical of traditional majors because students must do the work of building their own degree. The program prepares students for graduate study and careers in education, law, business, public policy, humanitarian aid, non-profit organizations, and government. The majority of students with the degree work in areas such as advocacy and outreach as well as policy and regulation.

**Major Program Requirements**

The Bachelor of Arts in Interdisciplinary with an emphasis in Environmental Studies is an individually-designed major for students interested in acquiring a broad understanding of environmental issues and the complex causes underlying them. Students design their major to reflect their own interests and goals in the field. Individualized majors of this kind require a higher level of commitment than is typical of traditional majors because students MUST do the work of building their own degree. The program prepares students for graduate study and careers in education, law, business, public policy, humanitarian aid, non-profit organizations, and government. The majority of students with the degree work in areas such as advocacy and outreach as well as policy and regulation. Find additional information and course options at https://omd.missouri.edu/?q=env-st/index.

Students in this major must complete 5 specified Core courses to fulfill College of Arts and Science Foundation Requirements and an additional 39 hours minimum for the major. In addition, students must complete all university graduation requirements and Arts and Science Foundation...
Requirements. A minimum grade of C- is required for courses taken for the major. A minimum cumulative GPA in all major coursework is 2.0.

In addition, students must complete all College of Arts and Science and University graduation requirements (p. 33), including University general education (p. 34).

**Required Core Coursework**

**Math Reasoning Proficiency (MRP)**

- Complete a statistics course designated as MRP with a C- grade or higher.
- MRP courses are listed at the MU General Education website (http://generaleducation.missouri.edu/requirements/math).
- Recommended course options are STAT 1200, STAT 1300, or STAT 1400.

**Biological, Physical, and Mathematical Sciences**

- Complete a general education approved Biological Sciences course. BIO_SC 1010, BIO_SC 1060, BIO_SC 1200, or BIO_SC 1500 are recommended course options.
- Complete a general education approved Geology course. GEOL 1100 or GEOL 1200 are the recommended course options.
- Complete a general education approved Chemistry course. CHEM 1100, CHEM 1320 and CHEM 1330 are recommended course options.
- One lecture with a corresponding laboratory must be completed.
- Laboratories should be taken with the corresponding lecture or after the lecture course is completed, but not before completing the corresponding lecture course.

**Social Sciences**

- Complete a general education approved Economics or Agricultural Economics course. ECONOM 1014, ECONOM 1015, ABM 1041, or ABM 1042 are recommended.

**Major Requirements**

**Policies**

- A total of 39 hours is required for the major.
- Students must complete 30 hours numbered 2000 or higher in the major.
- 18 hours numbered 3000 level or higher are required in the major.
- D-range grades are not allowed in the major.
- A minimum grade of C- is required for courses taken for the major.
- A minimum cumulative GPA in all major coursework is 2.0.

**Natural Dimensions**

- Complete 15 hours of coursework in this section.
- The course levels will be determined by the academic advisor.
- Refer to the list of Natural Dimensions (https://omd.missouri.edu/?q=env-st/courses/natural-dimensions) courses to find options.

**Social Dimensions**

- Complete 15 hours of coursework in this section.
- The course levels will be determined by the academic advisor.
- Refer to the list of Social Dimensions (https://omd.missouri.edu/?q=env-st/courses/social-dimensions) courses to find options.

**Practicum Core**

- Complete ABM 2070 or NAT_R 2160.
- Complete 3 hours of Service Learning, Internships, or Readings.
- Complete an additional 3 hours of Service Learning, Internships, or Readings.
- Service Learning, Internship, or Readings can be taken as a single course for 6 hours.

**Service Learning, Internships, & Readings**

**Policies**

- The Capstone must be completed in the final 45 hours of coursework.
- Students must earn a C- or higher to fulfill the Capstone requirement.
- Students must have a Capstone approved by their academic advisor.
- Students may complete an Internship or Readings that is not used as a Capstone.
- Students may not earn retroactive credit for internships.

**Internships 4940**

- Students must have a 2.0 cumulative GPA to apply for approval of an internship project.
- Students must not have any active Student Conduct holds.
- Students may not complete an internship at an existing position.
- Students must work 50 hours for each credit hour earned.
- Only internships in the United States can be approved.
- During the Internship period, students must submit the following assignments:
  a. a well-written proposal outlining the details of the internship must accompany the application
  b. a carefully-prepared factual report about the internship which addresses the questions outlined in the student’s internship proposal
  c. a résumé which includes the student’s internship experience and documents the tangible skills they attained while working
  d. an interpretative essay in which students connect what they have learned from their internship experience with their academic work in their individualized major
- Internship supervisors must submit a performance evaluation.
- Internships receive a grade of S or U (pass/fail).
- The Office of Multidisciplinary Degrees reserves the right to deny internship project approval to any student it believes will not be a good representative of the University.

**Readings 4960**

Students work independently with MU faculty on research and/or professional projects. A student finds a campus professor with whom to work. Together, they create concrete objectives for a meaningful project. The professor guides and supervises the student towards completion of the project and is responsible for awarding a letter grade for the course.

**Service-Learning 4970**

Service-Learning provides hands-on experience in service experiences that are coordinated in collaboration with MU and the community. Service-Learning experiences create valuable learning environments for students as they connect with the community in partnerships that provide
effective and far-reaching assistance to those in need. To apply, students must have a 2.5 GPA or higher.

BA in Interdisciplinary with Emphasis in Peace Studies

Degree Program Description

Peace Studies is offered as an emphasis area in the BA in Interdisciplinary Studies. Students with this emphasis examine issues related to global peace and social justice. The emphasis in Peace Studies helps prepare students for employment, volunteer assignments, and graduate study in such areas as conflict resolution, human rights, humanitarian assistance, sustainable development, social justice, nonviolent social change, and the understanding of global cultural diversity.

Major Program Requirements

Clarence Lo, Ph.D, Director
326 Middlebush Hall
(573) 882-1736
loc@missouri.edu

The peace studies emphasis area addresses a wide range of issues concerning peace and justice, including international and civil war and peace, global social and environmental justice; nonviolent social movements, process, and change; cultures, intellectuals, and war and peace; and indigenous peoples and the imperial state. Our courses provide a liberal arts foundation: students explore values to set goals; they evaluate evidence to assess alternate means to achieve goals. Some courses focus on practical issues of community organization, sustainable development (PEA_ST 1120) and construction, and public health (PEA_ST 3401), that students are likely to encounter in work, internship, or volunteer positions. Study abroad courses taught by MU faculty are regularly offered. Since issues of peace and conflict cut across disciplines, the curriculum includes courses offered by both the program itself and cross listed between Peace Studies and other programs and departments of the University.

In addition, students must complete all College of Arts and Science and University graduation requirements (p. 33), including University general education (p. 34).

### BA in Interdisciplinary with Emphasis in Women's and Gender Studies

#### Degree Program Description

Women's and Gender Studies is the interdisciplinary, feminist study of the social, cultural, and historical processes that effect gender human identity. The BA in Interdisciplinary with an emphasis in Women's and Gender Studies combines a broad range of approaches and methods with innovative classroom experiences and teaching. Students learn to integrate women's, gender, and/or queer studies with analyses of race, ethnicity, religion, spirituality, nationality, and class, and to think critically and synthetically about the multiple axes of power through which sexual and gendered identities are constructed. Courses encourage students to analyze the world in which they live, in order that they might act to transform it. An emphasis in Women's and Gender Studies prepares students for many different employment opportunities. Some fields include arts, business, education, healthcare, media, politics, law, social work and social services.

#### Major Program Requirements

Department in the College of Arts and Science

Linda Reeder, Chair
Sriprada Prasad, Director of Undergraduate Studies
325 Strickland Hall
(573) 882-2703

Students may earn a Bachelor of Arts in the College of Arts and Science with an Interdisciplinary Studies major and an emphasis in Women's and Gender Studies. A minor is also available as are departmental honors. Please consult the Women's and Gender Studies department for more information.
Advising of students and assistance in designing student-tailored academic plans is available from the Women’s and Gender Studies department office.

The curriculum includes Women’s and Gender Studies core courses as well as cross-listed courses from several departments throughout the University. These courses assume that knowledge cannot be separated from the study of women and gender, and that gender and sexuality are fundamental categories of analysis in all disciplines. The department stresses interdisciplinary scholarship and teaching that are broadly comparative and range across multiple cultures, national and transnational contexts, and historical periods. Its faculty employ a broad range of theoretical approaches and methods.

When students graduate with an emphasis in Women’s and Gender Studies, they should be able to:

- Apply cross-cultural and global awareness to “big questions” about women and gender
- Have a comprehensive grasp of intersectionality and matrices of domination
- Think critically: i.e. consider an issue from multiple perspectives; locate, evaluate and interpret diverse sources, including statistics; engage in critical self-reflection
- Construct arguments with evidence obtained from research
- Work collaboratively
- Recognize sexist/racist writing and thinking
- Connect knowledge and experience, theory and activism, Women’s and Gender Studies materials with other courses
- Communicate effectively in writing and speech
- Apply knowledge for social transformation, citizenship
- Use gender (and other identity categories) as a category/ies for analysis

An emphasis in Women’s and Gender Studies prepares students for many different employment opportunities. Some fields include arts, business, education, healthcare, policy, media, politics, law, social work and social services. Because of the diversity of Women’s and Gender Studies, the WGST emphasis can be combined with a number of other potential majors to create a dual degree. Many students choose to combine two areas of study, such as Women’s and Gender Studies and Sociology, or Women’s and Gender Studies and Journalism. This results in a student receiving one degree with two areas of specialization that reflect the student's unique academic interests and his/her individually-designed course of study.

Thirty hours are required in Women’s and Gender Studies. In addition to degree requirements, college and university requirements (p. 33), including university general education requirements (p. 34), must be met.

International Studies ([https://omd.missouri.edu/?q=intl-st/index](https://omd.missouri.edu/?q=intl-st/index))

The Bachelor of Arts in International Studies is an individually designed major with a strong multicultural and global focus. Students in the major have the opportunity to design a major that reflects their own interests and goals. The increased level of flexibility requires a higher level of commitment than is typical of traditional majors because students MUST do the work of building their own degree.

International Studies majors acquire analytical skills and knowledge that will enable them to understand and contribute to shaping the quickly evolving global community. The program prepares students for graduate study and careers in academia, teaching, law, business, public policy, humanitarian aid, non-profit organizations, government, and diplomacy. Students in the program will study advanced foreign language and participate in a study abroad experience to fulfill degree requirements.

International Business ([https://omd.missouri.edu/?q=intl-bus/index](https://omd.missouri.edu/?q=intl-bus/index))

The dual degree program in International Business leads to the BS in Business Administration from the Trulaske College of Business and the BA in International Studies from the College of Arts & Science. This degree typically takes 4 1/2 to 5 years to complete. Students in the program will study advanced foreign language and participate in a study abroad experience to fulfill degree requirements.

International Studies majors acquire analytical skills and knowledge that will enable them to understand and contribute to shaping the quickly evolving global community. The program prepares students for graduate study and careers in academia, teaching, law, business, public policy, humanitarian aid, non-profit organizations, government, and diplomacy.

Faculty

Faculty for International Studies are housed within other departments.

Undergraduate

- BA in International Studies (p. 230)
  - with emphasis in East Asian Studies (p. 232)
  - with emphasis in Environmental Studies (p. 232)
• with emphasis in European Studies (p. 233)
• with emphasis in International Business (p. 234)
• with emphasis in Latin American Studies (p. 234)
• with emphasis in Peace Studies (p. 235)
• with emphasis in South Asian Studies (p. 236)

Graduate

While the College does not offer a graduate degree specific to international studies, the Office of Graduate Studies does offer a graduate academic Minor in International Development (p. 761).

This catalog provides a complete list of graduate degree options (p. 18) for all Schools and Colleges at the University of Missouri.

BA in International Studies

Degree Program Description

The Bachelor of Arts in International Studies is an individually designed major with a strong multicultural and global focus. Students in the major have the opportunity to design a major that reflects their own interests and goals. The increased level of flexibility requires a higher level of commitment than is typical of traditional majors because students MUST do the work of building their own degree. International Studies majors acquire analytical skills and knowledge that will enable them to understand and contribute to shaping the quickly evolving global community. The program prepares students for graduate study and careers in academia, teaching, law, business, public policy, humanitarian aid, non-profit organizations, government, and diplomacy. Students in the program will study advanced foreign language and participate in a study abroad experience to fulfill degree requirements.

Major Program Requirements

A student majoring in the BA in International Studies must complete 18 hours of specified Core coursework to fulfill Arts and Science Foundation Requirements, an additional 42 hours minimum for the major, and a study abroad experience. A minimum grade of C- is required for courses taken for the major. A minimum cumulative GPA in all major coursework is 2.0. In addition, students must complete all university graduation requirements and Arts and Science Foundation Requirements. The information below pertains to the BA in International Studies and additional information can be found at http://omd.missouri.edu/?q=intl-st/index. Students interested in the dual degree in International Business, which is a different major, should find additional information at http://omd.missouri.edu/?q=intl-bus/index.

In addition, students must complete all College of Arts and Science and University graduation requirements (p. 33), including University general education (p. 34).

Required Core Coursework

Internships 4940

Policies

• During the Internship period, students must submit the following assignments:
  • a well-written proposal outlining the details of the internship must accompany the application
  • a carefully-prepared factual report about the internship which addresses the questions outlined in the student’s internship proposal

• The Capstone must be completed in the final 45 hours of coursework.
• Students must earn a C- or higher to fulfill the Capstone requirement.
• Students must have a Capstone approved by their academic advisor.
• Students may complete an Internship or Readings that is not used as a Capstone.
• Students may not earn retroactive credit for internships.

Internships 4940

• Students must have a 2.0 cumulative GPA to apply for approval of an internship project.
• Students must not have any active Student Conduct holds.
• Students may not complete an internship at an existing position.
• Students must work 50 hours for each credit hour earned.
• Only internships in the United States can be approved.
• During the Internship period, students must submit the following assignments:
  • a résumé which includes the student’s internship experience and documents the tangible skills they attained while working
  • an interpretative essay in which students connect what they have learned from their internship experience with their academic work in their individualized major
  • Internship supervisors must submit a performance evaluation.
• Internships receive a grade of S or U (pass/fail).
• The Office of Multidisciplinary Degrees reserves the right to deny internship project approval to any student it believes will not be a good representation of the University.

Readings 4960

Students work independently with MU faculty on research and/or professional projects. A student finds a campus professor with whom to work. Together, they create concrete objectives for a meaningful project. The professor guides and supervises the student towards completion of the project and is responsible for awarding a letter grade for the course.

Service-Learning 4970

Service-Learning provides hands-on experience in service experiences that are coordinated in collaboration with MU and the community. Service-Learning experiences create valuable learning environments for students as they connect with the community in partnerships that provide effective and far-reaching assistance to those in need. To apply, students must have a 2.5 GPA or higher.

4000-level Capstone course

Students can select a 4000-level course in the Focus Area to fulfill the Capstone requirement. This course does not need to be a departmental Capstone in order to fulfill the requirement.

Study Abroad Experience Requirement

• Students should study abroad for a minimum of 4 weeks.
• If a program is less than 4 weeks, it must be approved by the academic advisor.
• Credit earned during a study abroad experience may be used to fulfill major requirements.
• Students should complete their study abroad experience prior to their last year.
• Preparation for a study abroad experience should begin a year in advance.
• Information on study abroad is available at the International Center website (http://international.missouri.edu/study-outside-the-us).

### BA in International Studies with Emphasis in East Asian Studies

#### Degree Program Description

The Bachelor of Arts in International Studies is an individually designed major with a strong multicultural and global focus. The emphasis in East Asian Studies focuses on creating an understanding and awareness of the culture, history, politics, geography and languages of the East Asian countries, with an emphasis in China, Japan or Korea. The program is multidisciplinary, encompassing course work from the departments of Geography, History, Anthropology, Religious Studies, Political Science and Philosophy, as well as in Chinese, Japanese and Korean. Students are encouraged to begin study of their foreign language no later than the sophomore year. Students should consult with the International Center about appropriate locations for their study abroad experience.

In addition, students must complete all College of Arts and Science and University graduation requirements (p. 33), including University general education (p. 34).

### BA in International Studies with Emphasis in Environmental Studies

#### Degree Program Description

The Bachelor of Arts in International Studies is an individually designed major with a strong multicultural and global focus. The Environmental Studies emphasis is for students interested in developing a broad...
understanding of environmental problems and their underlying causes so they can work effectively in the areas of environmental advocacy, outreach, policy, and regulation. The program prepares students for graduate study and careers in academia, teaching, law, business, public policy, humanitarian aid, non-profit organizations, government, and diplomacy.

**Major Program Requirements**

Refer to the program requirements for the BA in International Studies (p. 230). The Environmental Studies emphasis is for students interested in developing a broad understanding of environmental problems and their underlying causes so they can work effectively in the areas of environmental advocacy, outreach, policy, and regulation.

In addition, students must complete all College of Arts and Science and University graduation requirements (p. 33), including University general education (p. 34).

**Semester Plan**

**BA in International Studies with Emphasis in European Studies**

**Degree Program Description**

European studies is an emphasis area in the International Studies major. Students who are studying French, Spanish, German, Italian or Russian may wish to select European studies as their emphasis area. The student examines the politics, culture, history and geography of the European continent, with a focus on the country whose native language is being studied by the student. Given the multidisciplinary approach to this degree, students take courses that are specifically geared to a better understanding of the culture, history, and language of a given country, as well as a better understanding of the entire continent of Europe. The program prepares students for graduate study and careers in academia, teaching, law, business, public policy, humanitarian aid, non-profit organizations, government, and diplomacy.

**Major Program Requirements**

Refer to the program requirements for the BA in International Studies (p. 230). European studies is an emphasis area in the International Studies major. Students who are studying French, Spanish, German, Italian or Russian may wish to select European studies as their emphasis area. The student examines the politics, culture, history and geography of the European continent, with a focus on the country whose native language is being studied by the student. Given the multidisciplinary approach to this degree, students take courses that are specifically geared to a better understanding of the culture, history, and language of a given country, as well as a better understanding of the entire continent of Europe. In addition, students must complete all College of Arts and Science and University graduation requirements (p. 33), including University general education (p. 34).

BA in International Studies with Emphasis in International Business

Degree Program Description

The dual degree program leads to the BS in Business Administration with emphasis in one of the four International Business areas and the BA in International Studies with emphasis in International Business. This dual degree typically takes 4 1/2 to 5 years to complete. Students in the program will study advanced foreign language and participate in a study abroad experience to fulfill degree requirements. International Studies majors acquire analytical skills and knowledge that will enable them to understand and contribute to shaping the quickly evolving global community. The program prepares students for graduate study and careers in academia, teaching, law, business, public policy, humanitarian aid, non-profit organizations, government, and diplomacy.

Major Program Requirements

Refer to the website at https://omd.missouri.edu/?q=intl-bus/index. The dual degree program in International Business leads to the BS in Business Administration from the Trulaske College of Business and the BA in International Studies from the College of Arts & Science. This degree typically takes 4 1/2 to 5 years to complete. Students in the program will study advanced foreign language and participate in a study abroad experience to fulfill degree requirements. A minimum grade of C- is required for courses taken for the major.

International Studies majors acquire analytical skills and knowledge that will enable them to understand and contribute to shaping the quickly evolving global community. The program prepares students for graduate study and careers in academia, teaching, law, business, public policy, humanitarian aid, non-profit organizations, government, and diplomacy.

In addition, students must complete all College of Arts and Science and University graduation requirements (p. 33), including University general education (p. 34).

Semester Plan

Below is a sample plan of study, semester by semester. A student’s actual plan may vary based on course choices where options are available or the individual semester plan based on emphasis areas. Please visit the following for specific semester plans: Economics (p. 366), Finance (p. 367), Management (p. 369), or Marketing (p. 370).

BA in International Studies with Emphasis in Latin American Studies
Degree Program Description

Latin American Studies is offered as an emphasis area for the BA in International Studies. The Latin American Studies emphasis is designed to offer, in addition to linguistic competency in Spanish or Portuguese, a broad base of knowledge about Latin American politics, literature, economics and culture. This field of inquiry, alone or in combination with another discipline, is in high demand throughout the world and can provide students with an indisputable competitive edge in the contemporary professional arena. Students who graduate with an emphasis in Latin American Studies will be fully prepared to pursue graduate study in Latin American Studies programs offered around the country. Students are encouraged to study abroad in one of many program opportunities in Spain, Mexico, Central and South America, Brazil or the Caribbean.

Major Program Requirements

Refer to the program requirements for the BA in International Studies (p. 230). Latin American Studies is offered as an emphasis area for the BA in International Studies. The Latin American Studies option is designed to offer, in addition to linguistic competency in Spanish or Portuguese, a broad base of knowledge about Latin American politics, literature, economics and culture.

This field of inquiry, alone or in combination with another discipline, is in high demand throughout the world and can provide students with an indisputable competitive edge in the contemporary professional arena. BA in International Studies with Emphasis in Peace Studies

Degree Program Description

Peace Studies is offered as an emphasis area for the BA in International Studies. Students with this emphasis examine issues related to global peace and social justice in the international arena. The emphasis in Peace Studies helps prepare students for employment, volunteer assignments, and graduate study in such areas as conflict resolution, human rights, humanitarian assistance, sustainable development, social justice, nonviolent social change, indigenous peoples, and the understanding of global cultural diversity.

Major Program Requirements

Refer to the program requirements for the BA in International Studies (p. 230). Students may opt for an emphasis in Peace Studies. Students with this emphasis examine issues related to global peace and social justice in the international arena. The emphasis in Peace Studies helps prepare students for employment, volunteer assignments, and graduate study in such areas as conflict resolution, human rights, humanitarian assistance, sustainable development, social justice, nonviolent social change, indigenous peoples, and the understanding of global cultural diversity. The courses for the emphasis in Peace Studies center on those offered through the Peace Studies program, many of which are cross-listed with other departments. In addition, students can count towards the Peace Studies emphasis other courses from departments such as Black Studies, English, Geography, History, Political Science, Religious Studies, Romance Languages, and Women’s and Gender Studies. Peace Studies courses counting for the emphasis can be drawn from the list shown on the Peace Studies minor page (p. 340).

In addition, students must complete all College of Arts and Science and University graduation requirements (p. 33), including University general education (p. 34).

### BA in International Studies with Emphasis in South Asian Studies

#### Degree Program Description

The South Asian Studies emphasis offers courses in history, politics, philosophy, religion, culture, social life and languages of India. It thus provides the opportunity for study of an ancient and extensive civilization with a significant role in human history. An emphasis in South Asian Studies prepares students to enter MA and PhD programs in this area of specialization, which often provide intensive summer language programs. An advanced degree opens a variety of professional and job opportunities for those planning to work in such fields as international business, trade and diplomacy, international law or agricultural development, among others.

### Major Program Requirements

Refer to the program requirements for the BA in International Studies (p. 230). The South Asian Studies emphasis offers courses in history, politics, philosophy, religion, culture, social life and languages of India. It thus provides the opportunity for study of an ancient and extensive civilization with a significant role in human history.

Linguistics

Matthew Gordon, Chair
Interdepartmental Program in the College of Arts and Science
223 Tate Hall
(573) 882-6421
gordonmj@missouri.edu

Kibby Smith, Advisor
Office of Multidisciplinary Degrees
(573) 882-6060
smithkib@missouri.edu

Linguistics is the scientific study of human language. It seeks to understand and explain the properties of language in a clear and formal manner. Linguists document understudied and endangered languages, explore the consequences of language contact, measure language variation and change, investigate the structure of language, and analyze the construction of meaning.

Some of the main subfields of linguistics are phonetics (the physical properties of sounds), phonology (the grammar of sounds), morphology (the structure of words), syntax (the organization of phrases and sentences), semantics (meaning), and sociolinguistics (the interaction of language and society).

A Bachelor of Arts with a major in linguistics is available (with an honors option) as is a linguistics minor, both involving coursework in the various subfields.

In addition, a major in linguistics offers students a liberal education and develops verbal and analytical skills that are valuable in a variety of less directly related careers such as journalism, literary study, and the law.

The study of linguistics prepares students for careers which utilize insight into the workings of language including language instruction, translation and interpreting, speech pathology, anthropology, the reconstruction of prehistory, and computational fields related to the interaction of language and technology. Academic careers of linguistic research and teaching are also possible after further training at the graduate level.

Although specialists in the field commonly know one or more foreign languages, such knowledge is complementary rather than essential.

Faculty

Professors: P. Weirich*, J. Zemke*, F. Zéphir*
Associate Professors: J. Goodman*, M. Gordon*, C. Horisk*, J. Kramer*, M. McGrath*, P. Robbins*, T. Kazic*
Assistant Professors: A. Alcazar*, M. Fagan*, M. Marlo*, M. Popescu*, A. Radulescu*
Emeritus Faculty: L. Day*, N. L. Furbee*, D. E. Gulstad, B. L. Honeycutt, M-J Smythe, D. Watson, G. Youmans*

* Graduate Faculty Member - membership is required to teach graduate-level courses, chair master's thesis committees, and serve on doctoral examination and dissertation committees.

** Doctoral Faculty Member - membership is required to chair doctoral examination or dissertation committees. Graduate faculty membership is a prerequisite for Doctoral faculty membership.

Undergraduate

- BA in Linguistics (p. 238)
- Minor in Linguistics (p. 239)

Departmental Honors

A student wishing to graduate with honors in Linguistics must earn a 3.3 GPA in all courses and complete all the requirements for the BA in Linguistics. In addition, with the assistance of his/her honors thesis advisor, the student must develop, plan and conduct research on an independent project, normally while enrolled in LINGST 4991 . A committee consisting of the thesis advisor and a second reader, to be selected by the advisor and the program chair, will examine the student on the resulting thesis of 25-40 pages in an oral exam held no later than the thirteenth week of the term during which the student expects to graduate. The second reader will be provided with a copy of the thesis at least two weeks before the examination. After completing any revisions that the exam committee recommends, the student will submit a final version of the thesis for linguistics program records and will then be recommended to the college of Arts and Science for a BA with Honors in Linguistics.

Graduate

- Graduate Minor in Linguistics (p. 239)

Interdepartmental Program in the College of Arts and Science
224 Tate Hall
(573) 882-8814

Chair of Linguistics: Matthew Gordon

A graduate minor in linguistics consists of at least 12 hours including two electives and two required courses: LINGST 7630 Phonology and LINGST 7640 Syntax. Electives are to be drawn from our list of upper level linguistics classes (see http://linguistics.missouri.edu/courses.html). Graduate degrees in linguistics are not offered but MA and PhD programs that emphasize language and linguistics are available in some cooperating departments such as Anthropology, Communication, English, Romance Languages and Literatures, and Philosophy.

The linguistics area program is staffed by faculty from various departments (see below). Supporting course work may be drawn from a range of units including Anthropology, Black Studies, Classical Studies, Communication, Communication Science and Disorders, the College of Education, English, German and Russian Studies, Psychology, Philosophy, Romance Languages and Literatures, and South Asian Studies.

Although specialists in the field commonly know one or more foreign languages, such knowledge is complementary rather than essential.

Financial aid, when available, is arranged through the participating departments.

Cooperating Graduate Degree Programs

Anthropology (p. 145)
Interested Anthropology and other graduate students may minor in Linguistics. Linguistics is a integral component of ethnographic research.

Communication (p. 176)
In the Department of Communication, students learn to apply the study of communication to their professional and personal lives. Students may receive a MA, or PhD through this department.

Communication Science and Disorders (p. 583)
The discipline of Communication Science and Disorders encompasses the field of speech, language, and hearing science and the distinct but related professions of Speech-Language Pathology and Audiology. Students may receive a MA, or PhD through this department.

English (p. 188)
The English department offers MA and PhD degrees with an emphasis in English Language and Linguistics.

Philosophy (p. 268)
Linguistics majors benefit by taking courses offered by the Philosophy Department and can focus on issues at the intersection of philosophy and linguistics.

Romance Languages and Literatures (p. 300)
The Department of Romance Languages and Literatures offers the MA with an emphasis on Language Teaching (MALT).

BA in Linguistics

Degree Program Description
The study of linguistics offers students a liberal education and a window into the fascinating human linguistic capacity. Students can obtain a BA in linguistics, and many students double-major in linguistics and another field. The BA prepares students for graduate study in linguistics and related fields. It also develops analytical and verbal skills that are valuable in a wide variety of professional careers.

Major Program Requirements

Major core requirements (minimum) 21

I. Required areas/courses
Introduction to Linguistics 3
LINGST 1060 Human Language
Language Structure - At least one in-depth structure course such as: 3
LINGST 4600 Structure of American English
LINGST 4720 Structure of Modern French
LINGST 4721 Structure of Modern Spanish
Phonology 3
LINGST 4630 Phonology (typically offered Spring semesters)
Syntax 3
LINGST 4640 Syntax (typically offered Fall semesters; a structure course prerequisite)
Semantics 3
Select one of the following:
LINGST 2700 Elementary Logic
LINGST 4100 Philosophy of Language
LINGST 4110 Advanced Logic
II. Electives
At least one additional course from any part of the linguistics 3
curriculum, including but not limited to those listed above and below
Language variation
LINGST 4620 Regional and Social Dialects of American English

LINGST 4722 Spanish Across the Continents
LINGST 4723 Language and Society: Spanish in the U.S.

Language and Culture
LINGST 3470 Culture as Communication
LINGST 4412 Gender, Language and Communication

Historical Linguistics and Language Change
LINGST 4200 Introduction to Old English
LINGST 4610 History of the English Language
LINGST 4710 History of the French Language
LINGST 4711 History of the Spanish Language

Phonetics
LINGST 3010 American Phonetics
LINGST 3220 Speech Acoustics
LINGST 3210 Anatomy and Physiology of the Speech Mechanism
LINGST 3220 Speech Acoustics
LINGST 3721 Spanish Phonetics

Language and the Mind
LINGST 2820 Introduction to Cognitive Science
LINGST 4810 Psycholinguistics

III. Capstone Course 3
LINGST 4870 Field Methods in Linguistics

Options
Topics courses such as LINGST 2001, LINGST 3001 and LINGST 4001 may also satisfy core requirements. Substitutions may be approved for courses in one of the required areas if no courses are available in that area during a student's senior year.

In addition, students must complete all College of Arts and Science and University graduation requirements (p. 33), including University general education (p. 34).

Semester Plan
Below is a sample plan of study, semester by semester. A student's actual plan may vary based on course choices where options are available.

First Year

<table>
<thead>
<tr>

Minor in Linguistics

The minor in linguistics requires at least 15 credits of linguistic courses. They may be drawn from any part of the linguistics curriculum.

Graduate Minor in Linguistics

Completion Requirements for the Graduate Minor in Linguistics

A graduate minor field in linguistics is available to graduate students. It is comprised of 12 hours, two courses of which are required and two are to be selected from a list of upper level linguistics classes:

Required:

<table>
<thead>
<tr>
<th>Course</th>
<th>CR</th>
<th>CR</th>
</tr>
</thead>
<tbody>
<tr>
<td>LINGST 7630 Phonology</td>
<td>3</td>
<td>3</td>
</tr>
<tr>
<td>LINGST 7640 Syntax</td>
<td>3</td>
<td>3</td>
</tr>
</tbody>
</table>

Sample list from which two additional courses will be selected (appropriate substitutes may be accepted at the discretion of the chair):

<table>

</tr>
<tr>
<td>LINGST 7870 Field Methods in Linguistics</td>
<td>3</td>
</tr>
</tbody>
</table>

Total Credits: 12-13

Undergraduate

- Department Level Requirements (p. 240)
- BA in Mathematics (p. 240)
- BS in Mathematics (p. 241)
  - with emphasis in (p. 242) Actuarial Science and Mathematical Finance (p. 242)
- Minor in Mathematics (p. 243)

The Department of Mathematics offers a major with either a Bachelor of Arts or a Bachelor of Science degree. Within the BS degree, an emphasis in Actuarial Science and Financial Mathematics is available. Both the BA and BS degrees will prepare a student for a graduate program in Mathematics.

Preparation for Graduate Study in Mathematics

Students satisfying the requirements for either the BA or the “traditional” BS will have the basic preparation for a graduate program in Mathematics. A student considering graduate work, however, should take additional coursework. Because of this, a BS degree would be considered preferable. Those students in the Actuarial Science area considering graduate work should take MATH 4720 as part of their program. Those students getting a dual degree in Mathematics and Mathematics Education considering graduate work in mathematics should choose to take both MATH 4700 and MATH 4720 as part of their program.

Courses recommended for students planning to pursue graduate studies in pure mathematics: MATH 4400, MATH 4500, MATH 4900, MATH 4920, and MATH 4940.

Courses recommended for students planning to pursue graduate studies in applied mathematics: MATH 4300, MATH 4310, MATH 4315, MATH 4320, MATH 4500, MATH 4540, MATH 4940.

Departmental Honors

Eligibility

To become a candidate for the BA or BS degree with a major in Mathematics with departmental honors, a student must have a cumulative
grade point average that meets the Honors College standards. At present, students with a GPA of 3.30 or higher are automatically eligible to enter the departmental honors programs.

Requirements

To graduate with departmental honors in mathematics, a student must satisfy the regular BA or BS degree requirements and must have a GPA of 3.5 or higher in all Mathematics Department courses. In addition, the student must have at least 26 credits in mathematics courses numbered 4000 or above. Furthermore, the student must complete one of the two options listed below.

Option 1: Honors Thesis

The student must write an honors thesis in conjunction with a mentorship or in conjunction with MATH 4996. This option requires that the student enroll in MATH 4996.

Option 2:

The student’s program of study must include MATH 4700, MATH 4900, MATH 4720 and MATH 4920.

Financial Aid from the Program

All domestic applications for admission are automatically considered for financial support, in most cases by Teaching Assistantships. Virtually all current students are supported financially. Scholarships, assistantships, fellowships and other sources of aid are available.

The Department Research Fellowship, the Blumenthal Scholarship and the McFarlan Fellowship are administered by the department, while the Huggins Scholarship, Gregory Fellowship and Ridgel Fellowship are administered by the university.

International applications with TOEFL of 85 or higher (or equivalent) will also be automatically considered for departmental financial support.

Department Level Requirements-

Mathematics

Students may apply to be Math majors upon meeting the following criteria:

- Completion of ENGLSH 1000 and MATH 2300
- Both cumulative GPA and GPA in Math courses numbered 1500 and above (except for 2100) of 2.5 or above.

All math courses required for the degree must be passed with a grade of C- or above.

Core Math Requirements for all Math degrees (24 credits)

Total Credits 25

BA in Mathematics

Degree Program Requirements

Mathematics is part of the foundation of all the sciences, engineering, statistics, and many social sciences. A degree in mathematics provides one with both the applied mathematics knowledge necessary to engage in these disciplines, and formal reasoning skills that can be applied in any area. The major is well suited for those interested in mathematics alone, or for those looking to supplement another major. Our students go on to jobs or further study in all the above disciplines, as well as many others (medical school or law school, for instance).

Major Program Requirements

All MU General Education (p. 34), University graduation requirements (p. 33) and Arts and Science Breadth and Depth requirements (for the BA) must be satisfied, in addition to the Department Level Requirements (p. 240). The foreign language requirement must be satisfied either by taking a foreign language for 4 years in high school or by completing a language sequence at MU.
Students may apply to be Math majors upon meeting the following criteria:

- Completion of ENGLSH 1000 and MATH 2300
- Both cumulative GPA and GPA in Math courses numbered 1500 and above (expect for 2100) of 2.5 or above.

All math courses required for the degree must be passed with a grade of C- or above.

BS in Mathematics

Degree Program Description

Mathematics is part of the foundation of all the sciences, engineering, statistics, and many social sciences. A degree in mathematics provides one with both the applied mathematics knowledge necessary to engage in these disciplines, and formal reasoning skills that can be applied in any area. The major is well suited for those interested in mathematics alone, or for those looking to supplement another major. Our students go on to jobs or further study in all the above disciplines, as well as many others (medical school or law school, for instance).

Major Program Requirements

The Mathematics Department offers a “Standard” BS, a BS with emphasis in Actuarial Science and Mathematical Finance, and a Dual Degree in Mathematics and Mathematics Education. In each case all MU General Education (p. 34), University graduation requirements (p. 33) and Arts and Science Breadth and Depth requirements (for the BS) must be satisfied, in addition to the Department Level Requirements (p. 240). Note that the courses accepted for the science requirement by the Mathematics department are more restrictive than the Arts and Science requirement.

All BS degrees require completion of the Foreign Language requirement by one of: four years of a language in high school, completion of a foreign language sequence at MU, or a Foreign Language Alternative (12 credits at the 2000 level or above in an area, or related areas, approved by the Director of Undergraduate Studies).

Students may apply to be Math majors upon meeting the following criteria:

- Completion of ENGLSH 1000 and MATH 2300
- Both cumulative GPA and GPA in Math courses numbered 1500 and above (expect for 2100) of 2.5 or above.

All math courses required for the degree must be passed with a grade of C- or above.

Additional requirements for the BS degree

• MATH 4700
• MATH 4720
• Four approved 4000 level Math electives
• Science Requirement: 13 or more credits from the two groups below. Both groups must be represented.

Group I:
- PHYSICS 2750 University Physics I 5
- PHYSICS 2760 University Physics II 5
- CHEM 1320 College Chemistry I 4
- CHEM 1330 College Chemistry II 4
- BIO_SC 1500 Introduction to Biological Systems with Laboratory 5

Group II: Any 4000 level courses in Statistics or Computer Science.

Additional requirements for the BS Degree (Dual degree for Math and Math Ed majors)

• One of: MATH 4300, MATH 4500, or MATH 4700
• One of MATH 4510 or MATH 4720
• Four approved 4000 level Math electives
• Science Requirement: 10 or more credits from the two groups from the Course List above. Both groups must be represented.

Additional requirements for the BS degree (Double major in Math and Economics)

• MATH 4700
• One of MATH 4310, MATH 4720, or MATH 4900
• Four approved 4000 level Math electives
• Science Requirement: 10 or more credits from the two groups from the Course List above. Both groups must be represented.

BS in Mathematics with Emphasis in Actuarial Science and Mathematical Finance

Degree Program Description

Actuarial science applies mathematical and statistical methods to finance and insurance, particularly to the assessment of risk. Actuarial science includes a number of interrelating disciplines, in particular the mathematics of probability and statistics. In the life insurance industry, traditional actuarial science focuses on the analysis of mortality and the production of life tables, and the application of compound interest. More recently, actuarial science has come to embrace more sophisticated mathematical modeling of finance. Ideas from financial economics are also becoming increasingly influential in actuarial thinking.

Major Program Requirements

Students must complete the MU general education requirements (p. 34), University graduation requirements (p. 33) and the Department Level Requirements (p. 240) in addition to the degree requirements listed below.

This emphasis area will serve those who want to pursue a career in the financial and insurance industries. It will also help BS students to prepare for their first actuarial exams. In addition to course requirements, students...
completing this program are also required to attempt two actuarial exams (Probability and Financial Mathematics or equivalent).

Students may apply to be Math majors upon meeting the following criteria:

- Completion of ENGLSH 1000 and MATH 2300
- Both cumulative GPA and GPA in Math courses numbered 1500 and above (expect for 2100) of 2.5 or above.

All math courses required for the degree must be passed with a grade of C- or above.

### Minor in Mathematics

To minor in mathematics, a student must satisfactorily complete the following requirements.

- The equivalents of MATH 1500, MATH 1700 and MATH 2300
- 9 additional credits in approved math courses (students not taking MATH 2320 or MATH 3000, must take all 9 credits at the 4000 level; students taking MATH 2320 or MATH 3000, need an additional 6 credits at the 4000 level)
- All courses completed with grades in C range or higher
- At least 9 credits used to satisfy the minor requirements taken in residence (College of Arts and Science requirement)

### MA in Mathematics

**Admission Contact Information**

Stephen Montgomery-Smith, Director of Graduate Studies
222 Mathematical Sciences Building
Columbia, MO 65211
(573) 882-6221
e-mail: muasmathdgs@missouri.edu

**Admission Criteria**

**Notes:** Applicants for any graduate degree in mathematics should submit an application for graduate study. Admission to the graduate program does NOT guarantee admission to the Ph.D. program. International
Applicants applying from outside North America who seek financial support from the Department will only be considered for the PhD program.

Fall deadline: January 15

- While a bachelor’s degree from an accredited institution is required, the undergraduate major need not be mathematics as long as applicants have had sufficient mathematics training to qualify for 8000-level courses during the first three semesters of graduate work.
- Minimum TOEFL scores:
  
<table>
<thead>
<tr>
<th>Internet-based test (iBT)</th>
<th>Paper-based test (PBT)</th>
</tr>
</thead>
<tbody>
<tr>
<td>Effective July 1, 2015 must have score of 80</td>
<td>Effective July 1, 2015 must have score of 550</td>
</tr>
</tbody>
</table>

**Important Notes:** International applicants seeking departmental support are required to have a minimum TOEFL score of 85 (Internet-based test) or equivalent. An ibtTOEFL Speaking subscore of 22 or higher is preferred.

- Minimum total academic IELTS score is 5.5

**Required Application Materials**

- 3 or more letters of recommendation from your professors or persons who assess in detail your academic performance and potential.
- Transcripts
- Personal Statement
- GRE scores (required for PhD application, strongly recommended for Masters application)
- TOEFL or IELTS (International students only)

Note: The application is submitted through the Office of Graduate Studies’ ApplyYourself system. This includes the online credit card payment $55.00 US for U.S. Citizens and Permanent Residents, $75.00 US for Non-Resident International applicants.

**Completing the ApplyYourself Application:**

This section consists of four subsections.

- Personal Information: Complete all information as requested.
- Application Information: Applications are considered only starting Fall Semester, and only for Full-time study. Select a degree from the Graduate Degrees offered by the MU Mathematics Department.
- Indicate your selection for the Mathematics Master of Arts (MA)
  - Admissions Category: Graduate Degree Sought at MU: Master's
  - Graduate Program to which you are seeking admissions: Mathematics Master of Arts (MA)
- Educational History: Complete all information as requested.
- Test Information:
  - The GRE General Test is required for application to the PhD program in Mathematics, and are strongly recommended for Masters applicants. GRE General Test scores sent directly from the ETS will be considered as part of an application if available. The GRE Subject Test is not required, will be considered if submitted.
  - MU's institutional Code for the TOEFL is: 6875.
  - MU's institutional Code for the TOEFL is: 6875.

**Supplemental Information:**

- (required) Upload your Personal Statement, Statement of Goals or Statement of Purpose.
- Please indicate the specific degree for which you are applying, any additional degrees for which you may later apply, and explain your reasons for choosing to pursue these degrees at the University of Missouri. Note that admissions criteria for the PhD are more stringent than for the Master’s. MU PhD students can later add a Master’s degree to their program of study without requiring departmental approval. MU Master's students who wish to later add the PhD to their program of study require departmental evaluation and approval.
- (optional) Upload your résumé or curriculum vitae.
- (optional) Upload a writing sample.
- You may submit samples of your mathematical writings, publications, or pre-prints. Please limit to 10 pages.
- (optional) Upload any other supporting documents.
- Unofficial copies of transcripts uploaded by applicant can be used for initial evaluation. Official transcripts sent directly to the Graduate Admissions Office will still be required to finalize admission.
- Unofficial copies of GRE reports uploaded by applicant can be used for initial evaluation.

**RECOMMENDATIONS:** The ApplyYourself (https://applygrad.missouri.edu/apply) system will let you request confidential online recommendation letters from your recommendation providers. You need to provide the names and email addresses of recommendation providers who have agreed in advance to write letters for you. The Mathematics Department application requires at least three recommendation letters from your professors (or persons who assess in detail your academic performance and potential).

**International Applicants Only**

- Unofficial copies of TOEFL/IELTS reports uploaded by applicant can be used for initial evaluation. Official reports sent directly to the Graduate Admissions Office will still be required to finalize admission.
- Affidavit of Support for International Applicants: It is not necessary to complete this form. International applicants are required to complete the Affidavit of Support OR provide a letter of support from a University of Missouri graduate degree program before immigration documents can be issued. All international admissions to the Mathematics graduate program come with financial support which suffices to meet this requirement.

The following (paper) application materials must be on file at the Graduate Admissions Office before an admission offer can be finalized:

- Official transcripts/mark sheets from each college or university you have attended (sent directly from the college or university). Applicants with degrees from outside the United States must provide academic credentials in both the native language and in English.
- Official TOEFL or IELTS scores (sent directly from the testing service). Please review the Graduate School’s policy regarding proof of English Language proficiency.
Please arrange to have these materials mailed to the following address:
University of Missouri-Columbia
Graduate Admissions
210 Jesse Hall
Columbia, MO 65211
800-877-6312
573-884-888

**MA Degree Completion Requirements**

The degree requirements include the satisfactory completion of 30 hours of approved course work, of which at least 18 hours must be at the 8000 level.

**Required**

<table>
<thead>
<tr>

The Mathematics Department application requires at least three recommendation letters from your professors (or persons who assess in detail your academic performance and potential).

**MST Degree Completion Requirements**

This degree is designed primarily for those who want to teach mathematics at the secondary school level. A candidate for the degree must have a valid teaching certificate before entering the program, and must satisfactorily complete 30 hours of approved course work. MATH 8190 or MATH 8090 is required. At least 15 hours must be in 8000-level courses, of which at least 9 hours must be courses from the Mathematics Department. At least two courses are required in the fields of algebra, analysis and geometry/topology. The successful completion of a Master’s Project (MATH 8190) or Master’s Thesis (MATH 8090) must be certified by a Master’s Committee consisting of three members of the Mathematics regular faculty.

**Note:** The MU College of Education at the University of Missouri is a separate academic unit offering graduate degrees in Mathematics Education, with an emphasis on learning, teaching, and curriculum development.

**PhD in Mathematics**

**Admission Contact Information**

International applicants are required to complete the Affidavit of Support OR provide a letter of support from a University of Missouri graduate degree program before immigration documents can be issued. All international admissions to the Mathematics graduate program come with financial support which suffices to meet this requirement.**

**PhD Degree Completion Requirements**

This is a professional research degree designed to prepare students for various advanced professional careers, including college teaching and research. Before formally becoming a candidate, a student must have training equivalent to that required for a master's degree.
Year 0 courses include basic advanced undergraduate material, which incoming Ph.D. students are required to master before engaging in graduate coursework. Well prepared incoming students can petition to skip some or all of the Year 0 courses. The Director of Graduate Studies will administer an informal exam to see if the students are sufficiently ready to skip Year 0 courses.

Total Credits: 18

Year 1 courses will train students to develop a common solid foundation on basic graduate mathematics. The Ph.D. student is required to pass all 6 courses, and to pass qualifying exams in Algebra and Real Analysis. The qualifying exams will be given in May of each year, shortly after finals week. There will be an opportunity to retake a qualifying exam in August just before the beginning of the Fall semester. The Analysis qualifying exams will be from topics from Real Analysis I and Real Analysis II. The Algebra qualifying exams will be from topics from Algebra I and Algebra II.

Extremely well prepared students, with the permission of their initial advisor and the Director of Graduate studies, may take one or both qualifying exams in August before they start their first semester. If they pass, then with the permission of their initial advisor and the Director of Graduate studies they may skip the corresponding courses in Year 1.

**Year 1: Take All 6**

† Here, and elsewhere in this document, the number after the period refers to the section number.

Year 2 and above are the post-qual core courses. Every Ph.D. student must complete at least six of the post-qual core courses. (Note that the parity of the year is determined by the beginning of the AY. For example, Spring 2016 occurs in the beginning of AY 2015, and so would be considered to be in an odd year.)

</table>

Some of the above courses are listed in the catalog under different names. Others are new courses, and are currently listed as topics courses until we are able to add them to the catalog.

The candidate must further complete a course of study approved by the doctoral program committee and pass a comprehensive examination. The active areas of research interest of the current members of the staff are: algebraic geometry, analysis (real, complex, functional and harmonic), analytic functions, applied mathematics, financial mathematics and mathematics of insurance, commutative rings, scattering theory, differential equations (ordinary and partial), differential geometry, dynamical systems, general relativity, mathematical physics, number theory, probabilistic analysis and topology.

Note: Effective at the start of Winter Semester 2007, there is NO foreign language proficiency requirement for the Mathematics PhD. However, a student’s Doctoral Committee still retains the discretion to impose a foreign language proficiency requirement.

140 Fine Arts Bldg.
(573) 882-2606

The School of Music is a department in the College of Arts and Sciences that offers instruction to those who want professional training in music as well as those who wish to pursue music as a vocation. Applied music instruction in piano, voice, string, woodwind, brass and percussion instruments is offered for beginning and advanced students. Elementary and advanced courses are given in music theory and composition. The appreciation, literature and history of music are covered by survey and specialized courses. Undergraduate and graduate courses are offered in music education. The school has been an accredited member of the National Association of Schools of Music since 1933.
The School of Music also offers opportunities for all students of the university to participate in various performing ensembles. Regular programs are presented on campus and throughout the state by groups such as The University Philharmonic Orchestra, University Wind Ensemble, Marching Mizzou, Symphonic Band, University Band, Jazz Ensembles, Choral Union, University Singers, Chamber Singers, Concert Chorale, Hitt Street Harmony, Women's Choir, Opera Workshop and many vocal, string, percussion and wind chamber ensembles. Membership in these groups is open to interested students by audition, except University Choral Union and University Band, which do not require an audition.

The department offers BA and MA degrees with majors in Music, and BM and MM degrees with majors in Music and Music Education. A PhD degree with a major in Music Education is offered through the Department of Learning, Teaching and Curriculum. A minor in Music and a minor and certificate in Jazz Studies are also available, as is a certificate in Music Entrepreneurship.

Faculty

Curators' Teaching Professor M. Budds*
Associate Professor I. Akhmadullin*, B. Ford*, J. Gaines*, J. Mabary*, A. Manzo*, N. Mintum*, L. Saguiguit*, S. Shonekan*, B. Silvey*
Associate Teaching Professor C. Seitz*
Assistant Teaching Professor S. Griffith*, S. Jepson*, A.M Knopps*, P. Lea*, L. Munoz*, W. Warnhoff*, P. Zambito*
Post Doc Y. Onishi
Adjunct Instructor E. Edgington Andrews, N. Bolshakova, J. Gotlib, E. Manzo, P. Seitz*, S. Stubbs, B. Tate

* Graduate Faculty Member - membership is required to teach graduate-level courses, chair master's thesis committees, and serve on doctoral examination and dissertation committees.

** Doctoral Faculty Member - membership is required to chair doctoral examination or dissertation committees. Graduate faculty membership is a prerequisite for Doctoral faculty membership.

Undergraduate

• BA in Music (p. 251)
  • BM in Music (p. 251)
    • with emphasis in Composition (p. 252)
    • with emphasis in Music Education (p. 253)
    • with emphasis in Music History (p. 256)
    • with emphasis in Music Theory (p. 257)
    • with emphasis in Performance (p. 258)
  • Minor in Music (p. 261)

Departmental Honors

Departmental Honors for the School of Music are designed to reward truly superlative achievement by an undergraduate music student, focusing on the student's area of performance, theory and composition, or history and literature. A minimum GPA of 3.3 at the onset of the senior year is required, not including grades for large ensembles. The student must initiate the process by submitting a formal application to the Director of the School of Music at the beginning of the semester prior to the semester of graduation, and must receive approval from his or her area coordinator and faculty advisor. Further information and an application form may be obtained by contacting the Director of Undergraduate Studies in Music.

Graduate

• MA in Music (p. 261)
  • with emphasis in Musicology (p. 262)
• MM in Music (p. 262)
  • with emphasis in Collaborative Piano (p. 264)
  • with emphasis in Composition (p. 264)
  • with emphasis in Conducting (p. 264)
  • with emphasis in Jazz Performance & Pedagogy (p. 265)
  • with emphasis in Music Education (p. 265)
  • with emphasis in Music Theory (p. 266)
  • with emphasis in Performance (p. 266)
  • with emphasis in Piano Pedagogy (p. 267)
• PhD in Music Education (http://catalog.missouri.edu/undergraduatedegree/collegeofartsandscience/music/phd-music-education)

About the School of Music

Founded in 1907, the School of Music is one of the larger academic units in the College of Arts and Science. Comprised of 38 full-time faculty members and approximately 260 music majors, it is small enough to permit close, personal interaction between students and faculty, but large enough to provide many wonderful opportunities for talented students to excel. Our primary mission is to prepare students to become professional musicians and music educators. The School of Music is widely known for its scholarship in the field, and it is an important cultural resource for the profession, the campus community, and the people of Missouri.

Performance

At MU a student of music has the opportunity to hear many concerts or to participate in a variety of performing organizations. Many recitals are given by students, faculty and visiting artists. Among the student ensembles that give several concerts during the year are the University Philharmonic, University Wind Ensemble and other concert bands, jazz ensembles, University Singers and other choral ensembles, Show-Me Opera, and chamber music groups. Faculty ensembles that present recitals regularly include the Esterhazy String Quartet, the Missouri Woodwind Quintet and the MU Faculty Brass Quintet.

Resources and Facilities

The music section of the Fine Arts Building contains a recital hall, classrooms, studios and practice facilities. The music holdings in Ellis Library, both printed and recorded materials, constitute a substantial research and reference collection. The School of Music maintains a digital piano and MIDI laboratory, analog and digital music studios, and access to a listening laboratory for history and theory courses.

Additional Degree Options

Graduate Certificate in Jazz Studies (p. 343)
Music Education Degrees

These are degrees offered by the Department of Learning, Teaching, and Curriculum in the College of Education (p. 441) in conjunction with the School of Music. These degrees include

- Educational Specialist (EdSp) (p. 456)

BA in Music

Degree Program Description

The Bachelor of Arts (BA) in Music is a 120-hour degree in which the number of courses in music is less than in the professionally-oriented BM degree, thereby making more hours available for non-music courses. The degree does, however, require a well-rounded set of courses that will leave the student with excellent musical understanding and performance skills. In addition, the student has the freedom to pursue a secondary area of interest, which might form the basis of a specific kind of professional training. Most students pursuing a double major (music and another field) choose the BA degree.

Major Program Requirements

Students who elect to earn a Bachelor of Arts with a major in Music will complete a general, liberal arts degree with a strong music emphasis. Students must also complete all degree, college and university graduation requirements, including Arts & Science Foundation Requirements.

Courses completed in the D range may not fulfill music course requirements without the approval of the advisor and the dean, and the student must achieve an overall average of at least C (2.0) in all of the courses attempted in the School of Music.

In addition, students must complete all College of Arts and Science and University graduation requirements (p. 33), including University general education (p. 34).

BM in Music

Degree Program Description

The Bachelor of Music (BM) degree is a program of 120-145 hours that may be earned with an emphasis in Performance (brass, percussion, piano, strings, voice, or woodwinds), Music History, Music Theory, Composition, or Music Education. It is designed for the student who intends to pursue a career as a composer, performer, K-12 or college teacher, as well as the student who plans to enter graduate school to pursue further study in one of these areas. Students must audition to be admitted into the program.
Major Program Requirements

The Bachelor of Music (BM) is a professional degree that offers the maximum concentration in music. The student may focus on instrumental, keyboard or vocal performance; music theory; composition; music history or music education based on the choice of emphasis area. In addition, students must complete degree, college and university requirements, including Arts & Science Foundation Requirements.

In addition, students must complete all College of Arts and Science and University graduation requirements (p. 33), including University general education (p. 34).

Foreign Language Requirement:

- Woodwind or Percussion Performance: 12-13 hours of any foreign language
- Theory, Composition, or Piano or Brass Performance: 12-13 hours of French, Italian, or German
- Music History: 10 hours of German + 5-6 hours of second language, approved by advisor (15-16 total)
- String Performance: 12-13 hours of French, Italian, German or Spanish
- Vocal Performance: GERMAN 1100 Elementary German I (5 hours), FRENCH 1100 Elementary French I (5 hours), and ITAL 1100 Elementary Italian I (6 hours); and one additional course in German (5 hours), French (5 hours), or Italian (6 hours) (21-22 hours total). In addition, one hour each in Italian, French, and German diction (music courses; 3 hours total)
- Music Education: Foreign language is not required

Candidates must pass an examination administered by the applied faculty in the area of performance at the completion of their sophomore year before entrance is approved to studio instruction at the 4455-level (for performance tracks) or 3455-level (for all other tracks). Degree recitals must be approved two weeks in advance by a faculty hearing committee.

Courses completed in the “D” range may not fulfill music course requirements without the approval of the advisor and the dean, and the student must achieve an overall average of at least C (2.0) in all of the courses attempted in the School of Music at MU. Music education students must have an overall grade point average (GPA) of 2.75, a music content GPA of 3.00, and an education course GPA of 3.00 to qualify for teacher certification.

Requirements for ALL emphasis areas and tracks, except music education.

Semester Plan

The BM in Music has emphasis areas in Composition (p. 252), Music Education (p. 253), Music History (p. 256), Music Theory (p. 257), and Performance (p. 258). Please see the individual emphasis area pages for semester plans specific to the emphasis area.

BM in Music with Emphasis in Composition

Degree Program Description

The Bachelor of Music (BM) degree with an emphasis in Composition focuses on music theory, methodology, composition of music, and music history. The program requires 130-145 hours, including courses in music theory, music history, studio instruction, and ensembles. It is designed for the student who intends to pursue a career as a composer, performer, or college teacher, as well as the student who plans to enter graduate school to pursue further study in one of these areas. Admission to the composition emphasis area requires an application, examination, and/or samples of work. Incoming freshmen accepted to the University of Missouri may be admitted to the BM composition major after a review of sample compositions and an interview with the composition faculty (normally on one of the Mizzou Music Days). Students already pursuing a music degree may be admitted to the emphasis area, typically toward the end of the sophomore year of study, through an application and examination process.

Major Program Requirements

In addition to the list of required courses below for the emphasis in Composition, students must complete the bachelor of music (p. 251), college and university requirements (p. 33), including Arts & Science Foundation Requirements (p. 138).

#### BM in Music with Emphasis in Music Education

**Degree Program Description**

The music education degree program is designed for students who wish to become school music teachers. Graduates will be certified to teach music to children in kindergarten through twelfth grade, including elementary general music and either secondary instrumental or vocal music. MU music education students become successful teachers and performers who are sought after by schools in Missouri and beyond, as well as by prestigious graduate programs. Students enhance their musicianship by taking private lessons and participating in ensembles, and acquire a breadth of knowledge through coursework in general education, professional education and core music areas. They develop skills related to music teaching and rehearsing in their music education classes, which are accompanied by observing, interacting with, and instructing students in the public schools. This allows for important hands-on experience prior to the full semester of student teaching. The faculty members who teach music education courses are active professionals who publish research in prestigious journals, and play leadership roles in international and national organizations devoted to improving prekindergarten through college-level music instruction.

**Major Program Requirements**

Students must complete all university (p. 33), general education (p. 34), and content requirements, in addition to degree requirements. Please meet with a music education faculty member to discuss degree requirements and to create a semester plan.
As we continue to implement the new Missouri Standards for the Preparation of Educators mandated by the Department of Elementary and Secondary Education (DESE), curriculum changes will be required that must be met in order to complete your degree and earn teacher certification. Those changes may become effective at any point during your academic program. Therefore, it is extremely important that you DO NOT SELF ADVISE.

The lists below are provided as an overview of the degree requirements. Because this degree program is highly sequenced, and includes requirements leading to state certification including specified content, education, and overall grade point averages, students should not use this list to self advise but must work closely with their music education advisors to plan their coursework.

**MU General Education Requirements** - Students will plan for this coursework with their Music Education Advisors

*Note: Options do not appear on transcripts or diplomas. Emphasis areas appear on transcripts.*

BM in Music with Emphasis in Music History

Degree Program Description
The Bachelor of Music (BM) degree with an emphasis in Music History focuses on the history and significance of musical traditions. The program requires 128-144 hours, including courses in music theory, music history, studio instruction, and ensembles. It is designed for the student who intends to pursue a career as a composer, performer, or college teacher, as well as the student who plans to enter graduate school to pursue further study in one of these areas. In addition to an audition on the major instrument or voice, students must be approved for admission by the music history faculty.

Major Program Requirements
In addition to the list of required courses below for the emphasis in History, students must complete the bachelor of music (p. 251), college and university requirements (p. 33), including Arts & Science Foundation Requirements (p. 138).

MUS_GENL 1091  Recital Attendance for Undergraduate Music Majors  0

or MUS_APMS 1435  Studio Instruction for Majors (Piano; total of 4 credit hours)  1-5

or MUS_APMS 2455  Studio Instruction  1-5

MUS_APMS 2455  Studio Instruction (total of 8 credit hours)  1-5

MUS_APMS 3455  Studio Instruction (total of 4 credit hours)  1-3

MUS_ENS 1841  Instrumental Ensemble (total of 8 credit hours)  0-1

or MUS_ENS 1842  Choral Ensemble  0-1

MUS_THRY 1210  Introduction to Computer Technology and Music  2

MUS_THRY 1220  Syntax, Structure and Style of Music I  2

MUS_THRY 1221  Syntax, Structure and Style of Music II  2

MUS_THRY 1230  Aural Training and Sight Singing I  2

MUS_THRY 1231  Aural Training and Sight Singing II  2

MUS_THRY 2220  Syntax, Structure and Style of Music III  2

MUS_THRY 2221  Syntax, Structure and Style of Music IV  2

MUS_THRY 2230  Aural Training and Sight Singing III  2

MUS_THRY 2231  Aural Training and Sight Singing IV  2

MUS_THRY 4220  20th Century Composition Techniques  2

or MUS_THRY 4225  16th-Century Counterpoint  3

or MUS_THRY 4223  Eighteenth-Century Counterpoint  3

MUS_THRY 4227  Orchestration  2

MUS_H_LI 1322  Introduction to Music in the United States  2

MUS_H_LI 2307  History of Western Music I  2

MUS_H_LI 2308  History of Western Music II  2

MUS_I_VT 1610  Group Piano for Music Majors I  1

MUS_I_VT 1611  Group Piano for Music Majors II  1

MUS_I_VT 2610  Group Piano for Music Majors III  1

MUS_I_VT 2611  Group Piano for Music Majors IV  1

MUS_I_VT 2631  Basic Conducting and Score Reading  2

MUS_H_LI 43xx History Elective  3+3+6+6

MUS_GENL 3085  Problems in Music  1

Total Credits: 130-131

BM in Music with Emphasis in Music Theory

Degree Program Description
The Bachelor of Music (BM) degree with an emphasis in Music Theory teaches students how music works, critical listening, technical performance, and composition. The program requires 125-142 hours, including courses in music theory, music history, studio instruction, and ensembles. It is designed for the student who intends to pursue a career as a composer, performer, or college teacher, as well as the student who plans to enter graduate school to pursue further study in one of these areas. In addition to an audition on the major instrument or voice, admission into the emphasis area requires an application and examination.

Major Program Requirements
In addition to the list of required courses below for the emphasis in Music Theory, students must complete the bachelor of music (p. 251), college and university requirements (p. 33), including Arts & Science Foundation Requirements (p. 138).

| MUS_GENL 1091 | Recital Attendance for Undergraduate Music Majors (7 satisfactory semesters) | 0 |
| MUS_APMS 1435 | Studio Instruction for Majors (secondary instr. total of 4 credit hours) | 1 |
| MUS_APMS 2455 | Studio Instruction (Major instr. total of 8 credit hours) | 1-5 |
| MUS_APMS 3455 | Studio Instruction (total of 8 credit hours) | 1-3 |
| MUS_GENL 3085 | Problems in Music (Capstone Theory) | 2 |
| MUS_THRY 1210 | Syntax, Structure and Style of Music I | 2 |
| MUS_THRY 1220 | Syntax, Structure and Style of Music II | 2 |
| MUS_THRY 1230 | Aural Training and Sight Singing I | 2 |
| MUS_THRY 1231 | Aural Training and Sight Singing II | 2 |
| MUS_THRY 2215 | Composition I | 2 |
| MUS_THRY 2216 | Composition II | 2 |
| MUS_THRY 2220 | Syntax, Structure and Style of Music III | 2 |
| MUS_THRY 2221 | Syntax, Structure and Style of Music IV | 2 |
| MUS_THRY 2230 | Aural Training and Sight Singing III | 2 |
| MUS_THRY 2231 | Aural Training and Sight Singing IV | 2 |
| MUS_THRY 4220 | 20th Century Composition Techniques | 2 |
| MUS_THRY 4223 | Eighteenth-Century Counterpoint | 3 |
| MUS_THRY 4225 | Sixteenth-Century Counterpoint | 3 |
| MUS_THRY 4227 | Orchestration | 2 |
| MUS_THRY 42xx | Theory Elective 2+2 or 3 | 6-7 |
| MUS_H_LI 1322 | Introduction to Music in the United States | 2 |
| MUS_H_LI 2307 | History of Western Music I | 2 |
| MUS_H_LI 2308 | History of Western Music II | 2 |
| MUS_H_LI 43xx | History Elective 3+3 | 6 |
| MUS_I_VT 1610 | Group Piano for Music Majors I | 1 |
| MUS_I_VT 1611 | Group Piano for Music Majors II | 1 |
| MUS_I_VT 2610 | Group Piano for Music Majors III | 1 |

### BM in Music with Emphasis in Performance

#### Degree Program Description

The Bachelor of Music (BM) degree with an emphasis in Performance focuses on studio instruction, pedagogy, and literature for instrumental or vocal performance. Students select brass, percussion, piano, strings, voice, or woodwinds as a primary instrument. The program requires 123-143 hours, including courses in music theory, music history, studio instruction, and ensembles. It is designed for the student who intends to pursue a career as a composer, performer, or college teacher, as well as the student who plans to enter graduate school to pursue further study in one of these areas. Students must audition to be admitted into the emphasis area.

#### Major Program Requirements

In addition to the list of required courses below for the emphasis in Performance for each track (piano, string performance, vocal performance, wind or percussion performance), students must complete the bachelor of music (p. 251), college and university requirements (p. 33), including Arts & Science Foundation Requirements (p. 138).

##### Piano Track

- **MUS_GENL 1091** Recital Attendance for Undergraduate Music Majors (7 satisfactory semesters) 0
- **MUS_APMS 2455** Studio Instruction (total of 16 credit hours) 1-5
- **MUS_APMS 4455** Studio Instruction (total of 14 credit hours) 1-5
- **MUS_APMS 3970** Junior Recital 1
- **MUS_APMS 4970** Senior Recital 1
- **MUS_ENS 1841** Instrumental Ensemble (total of 2 credit hours) 0-1
- **MUS_ENS 1842** Choral Ensemble 1
- **MUS_H_LI 1320** Introduction to Computer Technology and Music 2
- **MUS_THRY 1220** Syntax, Structure and Style of Music I 2
- **MUS_THRY 1221** Syntax, Structure and Style of Music II 2
- **MUS_THRY 1230** Aural Training and Sight Singing I 2
- **MUS_THRY 1231** Aural Training and Sight Singing II 2
- **MUS_THRY 2220** Syntax, Structure and Style of Music III 2
- **MUS_THRY 2221** Syntax, Structure and Style of Music IV 2
- **MUS_THRY 2222** Aural Training and Sight Singing III 2
- **MUS_THRY 2231** Aural Training and Sight Singing IV 2
- **MUS_THRY 4220** 20th Century Composition Techniques 2
- **MUS_THRY 4223** Eighteenth-Century Counterpoint 3
- **MUS_THRY 42xx Theory Elective** 2
- **MUS_H_LI 1322** Introduction to Music in the United States 2
- **MUS_H_LI 2307** History of Western Music I 2
- **MUS_H_LI 2308** History of Western Music II 2
- **MUS_H_LI 43xx History Elective** 3

##### String Performance Track

- **MUS_GENL 1091** Recital Attendance for Undergraduate Music Majors (7 satisfactory semesters) 0
- **MUS_APMS 2455** Studio Instruction (total of 16 credit hours) 1-5
- **MUS_APMS 4455** Studio Instruction (total of 14 credit hours) 1-5
- **MUS_APMS 3970** Junior Recital 1
- **MUS_APMS 4970** Senior Recital 1
- **MUS_ENS 1841** Instrumental Ensemble (University Philharmonic) 1
- **MUS_ENS 1846** Chamber Music (1+1) 1
- **MUS_THRY 1210** Introduction to Computer Technology and Music 2
- **MUS_THRY 1220** Syntax, Structure and Style of Music I 2
- **MUS_THRY 1221** Syntax, Structure and Style of Music II 2
- **MUS_THRY 1230** Aural Training and Sight Singing I 2
- **MUS_THRY 1231** Aural Training and Sight Singing II 2
- **MUS_THRY 2220** Syntax, Structure and Style of Music III 2
- **MUS_THRY 2221** Syntax, Structure and Style of Music IV 2
- **MUS_THRY 2231** Aural Training and Sight Singing III 2
- **MUS_THRY 2231** Aural Training and Sight Singing IV 2
- **MUS_THRY 4220** 20th Century Composition Techniques 2
- **MUS_THRY 4223** Eighteenth-Century Counterpoint 3
- **MUS_THRY 42xx Theory Elective** 2
- **MUS_H_LI 1322** Introduction to Music in the United States 2
- **MUS_H_LI 2307** History of Western Music I 2
- **MUS_H_LI 2308** History of Western Music II 2
- **MUS_H_LI 43xx History Elective** 3

##### Vocal Performance Track

- **MUS_GENL 1091** Recital Attendance for Undergraduate Music Majors (7 satisfactory semesters) 0
- **MUS_APMS 2455** Studio Instruction (total of 12 credit hours) 1-5
- **MUS_APMS 3970** Junior Recital 1
- **MUS_APMS 4455** Studio Instruction (total of 10 credit hours) 1-5
- **MUS_APMS 4970** Senior Recital 1
- **MUS_ENS 1842** Choral Ensemble (1+1+1+1+1) 1
- **MUS_ENS 1865** Opera Workshop (1+1) 1

### Total Credits

- **Piano Track**: 53-62
- **String Performance Track**: 48-54
- **Vocal Performance Track**: 48-54

**Minor in Music**

Students who have chosen a major in another field but who wish to continue their musical growth may wish to pursue a music minor. Approval for declaration of the Minor in Music must be received from the Director of Undergraduate Studies in Music. A minimum of 18 credits is required, including at least 6 at the 2000-level or higher:

---

**MA in Music**

**About the MA**

The MA in Music provides opportunities for continued development of musical insights, scholarly competencies, and the enhancement of interests in musical and related non-musical areas. This liberal graduate education is designed to prepare a student to pursue a career in college teaching, especially as preparation for doctoral studies in music history or musicology.

**Prerequisites**

Completion of a bachelor's degree in music (or demonstrated equivalent), with a GPA of 3.0 in the last 60 credit-hours, is required. Additional prerequisites listed below. In the event that a candidate does not meet the required prerequisites, appropriate additional course(s) will be added as requirements to the degree program.

- Keyboard competency as is typically developed in an undergraduate music degree program
- 4 semesters of languages: 2 semesters each of French, Italian, or German
- 3 courses beyond the core music history courses (MUS_H_LI 2307, MUS_H_LI 2308 at MU)
- Freshman/sophomore music theory courses
- 1 semester of orchestration
- 1 course in counterpoint (3 credits or equivalent)
- 1 course in Western civilization
- 1 course in European history prior to 1800

**Priority Application Deadline**

All graduate applicants are expected to submit required application materials (for both the School of Music and the Office of Graduate Studies) by January 15 for fall semester matriculation, in order to receive full consideration for admission and assistantship or scholarship support. Applications submitted after January 15 will be considered as space permits on a rolling basis. Applicants interested in spring semester matriculation should contact the Associate Director of the School of Music (see below).

**Application Process**

Apply online via Graduate Admission's Slate (https://applygrad.missouri.edu/apply) system, which will prompt you to complete the following:

- Register for an interview during a Graduate Audition/Interview day.
- Submit samples of written scholarly work.
- Submit your unofficial transcript.
- Submit an essay explaining professional goals.
- Request three references to submit letters of recommendation.

**Note:** The School of Music does **not** require GRE scores.

**International Student Information**

Strong English reading, writing, and speaking abilities are necessary for success in the graduate programs in the School of Music. The following scores are required for admission to a graduate degree program in the School of Music:

- Minimum TOEFL scores:
  - Internet-based test (iBT) 80
  - Paper-based test (PBT) 550

**Note:** No TOEFL subscores below 52 (paper) or 17 (internet), or IELTS 6
Minimum Academic IELTS scores:

At least 15 credits must be at 8000 level

Total credits: 33

Additional Requirements:

- Comprehensive Exam.
- MA degree candidates must satisfactorily complete a Thesis on an approved topic and must pass a final oral examination, administered by a faculty committee, about their projects.

MA in Music with Emphasis in Musicology

This liberal degree is designed to prepare a student to pursue a career in college teaching, or doctoral studies in music history or musicology. Opportunities are provided for continued development of musical insights, scholarly competencies, and the enhancement of interests in music and related non-music areas.

Prerequisites

- Bachelor's degree in music (or demonstrated equivalent)
- GPA of 3.0 in the last 60 hours
- Keyboard competency as is typically developed in an undergraduate music degree program
- 4 semesters of languages: 2 semesters each of French, Italian, or German
- 3 courses beyond the core music history courses (MUS_H_LI 2307, MUS_H_LI 2308 at MU)
- Freshman/sophomore music theory courses
- 1 semester of orchestration
- 1 course in counterpoint (3 credits or equivalent)
- 1 course in Western civilization
- 1 course in European history prior to 1800

If an applicant does not meet the required prerequisites, then appropriate course(s) may be added to the degree requirements.

Required Courses (Only one course grade below B- allowed; at least 12 credits must be at the 8000 level)

Admissions

For admission requirements, refer to the Graduate Studies' website for the minimum qualifications for the MA in Music (https://gradstudies.missouri.edu/degreecategory/music). Because requirements vary, you must refer to a degree program's graduate admission page to learn about specific admission criteria, application deadlines, eligibility, and the application process. Before official admissions to the University of Missouri, your application materials will be reviewed by both the Office of Graduate Studies and the degree program to which you have applied.

MM in Music

The principal function of the MM program is to provide students with opportunities for continued development of their musical talents—in a specific area—and overall musicianship. This degree is designed to prepare the graduate for a career in performance or composition, teaching, or continued graduate studies toward a doctoral degree. Students can choose from the following emphasis areas: Performance (p. 266), Collaborative Piano (p. 264), Piano Pedagogy (p. 267), Music Theory (p. 266), Composition (p. 264), Conducting (p. 264), or Music Education (p. 265). Specific requirements for each area are listed on the emphasis page.

Prerequisites

Completion of a Bachelor of Music degree (or demonstrated equivalent) is required, normally with the same major as that to be pursued at the graduate level, and a GPA of 3.0 in the last 60 credit-hours. In the event that a candidate does not meet the required prerequisites for a specific curriculum (listed below), then appropriate course(s) may be added to the degree program as additional requirements.

WOODWIND, BRASS, PERCUSSION, OR STRING PERFORMANCE

- Senior recital

VOCAL PERFORMANCE

- Senior recital
- Proficiency in French, Italian, and German languages and diction.

PIANO PERFORMANCE

- Senior Recital
- 1 upper-level music history course
- 3 credits of 18th-century counterpoint

COLLABORATIVE PIANO

- Senior Recital
- 2 courses in either French or German
- 2 courses in French, German, or Italian diction
- 1 upper-level music history course
• 3 credits in 18th-century counterpoint

**PIANO PEDAGOGY**
• 1 upper-level music history course
• 3 credits in 18th-century counterpoint
• A senior recital and undergraduate courses in piano pedagogy or teaching experience are desirable, but not required for admission.

**MUSIC THEORY**
• 3 credits of 18th- or 16th-century counterpoint
• 2 credits of orchestration
• 2 credits of a theory elective
• 4 credits of music history (equivalent study to MUS_H_LI 2307-MUS_H_LI 2308)
• 16 credits of applied instruction (or equivalent)

**COMPOSITION**
• 3 credits of 18th- or 16th-century counterpoint
• 2 credits of orchestration
• 8 credits of composition
• 4 credits of music history (equivalent study to MUS_H_LI 2307-MUS_H_LI 2308)
• 16 credits of applied instruction (or equivalent)

**CONDUCTING (Choral, Orchestral, or Wind Ensemble)**
• 2 undergraduate conducting courses
• Previous conducting experience
• Proficiency in French, Italian, and German diction (Choral Conducting only)
• Proficiency in vocal pedagogy (Choral Conducting only)

**Priority Application Deadline**
All graduate applicants are expected to submit required application materials (for both the School of Music and the Office of Graduate Studies) by January 15 for fall semester matriculation, in order to receive full consideration for admission and assistantship or scholarship support. Applications submitted after January 15 will be considered as space permits on a rolling basis. Applicants interested in spring semester matriculation should contact the Admissions Coordinator of the School of Music (see below).

**Application Process**
Apply online through Graduate Admission’s (http://gradstudies.missouri.edu/admissions/apply) Slate system, which will prompt you to complete the following:
• Register for an audition or interview during a Graduate Audition/Interview day.
• Submit an essay explaining professional goals.
• Submit an unofficial transcript.
• Request three references to submit letters of recommendation.
• For performance areas, a recording will be required.

**Notes:** The School of Music does **not** require GRE scores.

Information about international admissions may be found by clicking here (https://gradstudies.missouri.edu/admissions/eligibility-process/international-applicants/#language)

**Audition Information**
A visit to the School of Music and in-person audition are strongly encouraged for applicants planning to major in an applied area (brass, percussion, piano, strings, voice, woodwinds), either on one of the graduation audition days or at another arranged time. In-person auditions are required for all conducting applicants. Applicants who audition initially by recording may be required to participate in a video conference interview (Skype, iChat, etc.) or to audition on campus at a later time. Please visit the School of Music website, music.missouri.edu, for more information regarding graduate audition days.

**CONTACT INFORMATION:**
Ben Harting, Admissions Coordinator
School of Music
150 Fine Arts Building
Columbia, MO 65211-6120
HartingB@missouri.edu
(573) 882-4471

*For Detailed Information About Audition/Interview Expectations and Deadlines by Area, Please Click Here* (https://music.missouri.edu/prospective-students?q=grad/audition)

**Degree Completion Requirements**
See Courses of Study (https://music.missouri.edu/grad/master-music). In addition, students must complete the following:
• Comprehensive Exam.
• Music Theory majors must satisfactorily complete a Thesis on an approved topic, and Composition majors must complete a substantial compositional project. Both Music Theory and Composition majors must pass a final oral examination, administered by a faculty committee, about their projects.
MM in Music with Emphasis in Collaborative Piano

Through continued development of performance skills and overall musicianship, this degree is designed to prepare the graduate for a career in performance or teaching, or for doctoral study.

Repertoire and performance are emphasized, with three required degree recitals. Extensive experiences in chamber music are provided with both vocal and instrumental students, and potentially in opera, choral, orchestra, and wind ensembles. All master’s students meet weekly in piano performance classes with faculty. MU enjoys a wealth of carefully maintained grand pianos as well as a digital piano lab, two harpsichords and a fortepiano. Annually, distinguished pianists provide masterclasses to MU piano students, including recent guests Boris Berman, Malcolm Bilson, Anne Epperson, Claude Frank, Peter Frankl, Ian Hobson, and Ralph Votapek.

Prerequisites

- Bachelor’s degree in Piano (or demonstrated equivalent)
- GPA of 3.0 in the last 60 hours
- Senior recital
- 2 courses in either French or German
- 3 credits of 18th-century counterpoint
- 1 upper-level music history course
- 16 credits of applied instruction (or equivalent)

If an applicant does not meet the required prerequisites, then appropriate course(s) may be added to the degree requirements.

Admissions

For admission requirements, refer to the Graduate Studies' website for the minimum qualifications for the MM in Music (https://gradstudies.missouri.edu/degreecategory/music). Because requirements vary, you must refer to a degree program's graduate admission page to learn about specific admission criteria, application deadlines, eligibility, and the application process. Before official admissions to the University of Missouri, your application materials will be reviewed by both the Graduate Studies and the degree program to which you've applied.

MM in Music with Emphasis in Composition

This degree is designed to prepare the graduate for a career in composition, college teaching, or for doctoral study.

MU offers numerous opportunities for collaboration with artists various mediums, community engagement in the creative process, and performance of works on and off campus. The graduate New Music Ensemble is dedicated to performing works of student composers studying at MU. Our annual Sinquefield Composition Prize gives one of our students the opportunity to have a work for large ensemble performed at the annual Chancellor’s Concert. In addition we host a Student Composers Concert each spring, a Composers Forum, and a student chapter of Society of Composers, Inc. Our graduates have been admitted to some of the most prestigious doctoral programs in the country, and our students have won many competitions of the Music Teachers National Association, the Music Educators National Conference, and the prestigious Broadcast Music Incorporated (BMI) Student Composers.

Prerequisites

- Bachelor’s degree in music (or demonstrated equivalent)
- GPA of 3.0 in the last 60 hours
- 3 credits of 18th- or 16th-century counterpoint
- 2 credits of orchestration
- 8 credits of composition
- 4 credits of music history (equivalent study to MUS_H_LI 2307, MUS_H_LI 2308)
- GPA of 3.0 in the last 60 hours

If an applicant does not meet the required prerequisites, then appropriate course(s) may be added to the degree requirements.

Admissions

For admission requirements, refer to the Graduate Studies' website for the minimum qualifications for the MM in Music (https://gradstudies.missouri.edu/degreecategory/music). Because requirements vary, you must refer to a degree program’s graduate admission page to learn about specific admission criteria, application deadlines, eligibility, and the application process. Before official admissions to the University of Missouri, your application materials will be reviewed by both the Graduate Studies and the degree program to which you’ve applied.

MM in Music with Emphasis in Conducting

CHORAL Conducting:

Through focus on practical conducting skills while integrating the academic areas of theory, history and pedagogy, this degree is designed to prepare the graduate for a career in conducting or teaching, or for doctoral study. Conducting opportunities include conducting labs, ad hoc ensembles, and five regular ensembles. We also regularly offer opportunities to study with national and international figures. Recent guests include Peter Phillips, Joseph Flummerfelt, Erwin Ortner, Amy Kaiser, Simon Carrington and Charles Bruffy.

Prerequisites

- Bachelor’s degree in music (or demonstrated equivalent)
- GPA of 3.0 in the last 60 hours
- Basic keyboard skills
- Two undergraduate conducting courses
- Proficiency in French, Italian, and German diction
- Proficiency in vocal pedagogy

If an applicant does not meet the required prerequisites, then appropriate course(s) may be added to the degree requirements.

ORCHESTRAL Conducting:

Through continued development of performance skills and overall musicianship, this degree is designed to prepare the graduate for a career in conducting or teaching, or for doctoral study. Students receive individual conducting lessons and regular podium time with the orchestra.

Prerequisites
• Bachelor’s degree in music (or demonstrated equivalent)
• GPA of 3.0 in the last 60 hours
• 2 undergraduate conducting courses
• Previous conducting experience

If an applicant does not meet the required prerequisites, then appropriate course(s) may be added to the degree requirements.

**WIND CONDUCTING:**

Through focus on practical conducting skills while integrating the academic areas of theory, history and pedagogy, this degree is designed to prepare the graduate for a career in conducting or teaching, or for doctoral study. Conducting and teaching opportunities include three concert ensembles, assisting with courses in basic conducting, score reading, and rehearsal techniques, and working and traveling with athletic bands, including Marching Mizzou.

**Prerequisites**

• Bachelor’s degree in music (or demonstrated equivalent)
• GPA of 3.0 in the last 60 hours
• Two undergraduate conducting courses
• Previous conducting experience

**Admissions**

For admission requirements, refer to the Graduate School’s website for the minimum qualifications for the MM in Music (https://gradstudies.missouri.edu/degreecategory/music). Because requirements vary, you must refer to a degree program’s graduate admission page to learn about specific admission criteria, application deadlines, eligibility, auditions, and the application process. Before official admissions to the University of Missouri, your application materials will be reviewed by both the Graduate School and the degree program to which you’ve applied.

**MM in Music with Emphasis in Jazz Performance and Pedagogy**

The School of Music is currently not accepting applications for this degree program.

**MM in Music with Emphasis in Music Education**

Professionals interested in improving their teaching and advancing their careers in music education at the early childhood, elementary school, middle school, or high school level can earn a master’s degree in music education.

Students encounter a simulating curriculum that is relevant to their career aspirations, taught by faculty who are on the cutting edge of best-practice pedagogy, research, scholarship, and creative activity. Music education faculty members play active leadership roles in international, national and state organizations devoted to improving preK-12th grade music instruction. They also regularly publish their work in premier research and practitioner journals, and remain actively engaged with music teachers through presentations, clinics, and guest teaching and conducting.

Master’s degrees can be completed either full-time on campus, or part-time while teaching school with evening, summer, and one or two online courses. Graduate assistantships for full time study may be available, awarded competitively.

**Prerequisites**

The Master of Music in Music Education is a practice-oriented degree. Students who hold a BA or BM in music may pursue teacher certification simultaneously while working on the degree. Students without music teacher certification may be admitted with pre-/co-requisite requirements designated of up to 9 hours in education and/or music education coursework.

**Degree Requirements**

This degree requires 32 credit hours. At least 15 hours must be taken in music education, and 16 must be numbered 8000 or above (a course may be counted in both categories: i.e., MUS_EDUC 8150 can count toward both).

Music Education Coursework (15 - 18 credit hours)

Required Courses (3 credit hours each):

**Music Education Coursework**

<table>
<thead>
<tr>
<th>Course Code</th>

</tbody>
</table>

Additional music education course(s) as determined by student and advisor, from among those listed below, and depending on course availability

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>MUS_EDUC 8160</td>
<td>Current Issues in Music Education</td>
</tr>
</tbody>
</table>

Music Coursework (10-15 credit hours)

- Music Theory and History: 3 courses, at least one course from each area
- Applied Music, Music Techniques, or Conducting: 2 credits from at least one of these areas

**Electives** (2-6 credit hours)

May be in Music, and/or Education (e.g., Educational Psychology or Sociology, TESOL, Reading, Early Childhood), and/or in a related area with advisor approval.

**Comprehensive Examinations**

Written comprehensive examinations are administered by the music education faculty, comprising take-home projects and essays based on the synthesis the coursework completed, and application of the coursework to their current or future classrooms.

**Research Option**

Students who aspire to pursue a doctorate in music education in the future may wish to complete a formal research project as part of the
degree program, in lieu of the comprehensive examinations. If so, the degree program should include one course in statistics and completion of a publishable research project (4 credit hours total) including an oral examination/defense.

**Admissions**

For admission requirements, refer to the Graduate School’s website for the minimum qualifications for the MM in Music (https://gradstudies.missouri.edu/degreecategory/music). Because requirements vary, you must refer to a degree program’s graduate admission page to learn about specific admission criteria, application deadlines, eligibility, and the application process. Before official admission to the University of Missouri, your application materials will be reviewed by both the Graduate School and the degree program to which you’ve applied.

**MM in Music with Emphasis in Music Theory**

This degree is designed to prepare the graduate for college-level teaching or for doctoral study.

The program includes in-class teaching experience, study and survey of a wide variety of theory texts, and collaboration with a faculty advisor/mentor. Applicants are encouraged to consider studying music theory pedagogy paired with another area (i.e. performance, musicology, conducting, composition, or piano pedagogy).

Active listening, a skill necessary for understanding music and cultivating musical thought, requires musical proficiency: playing an instrument at a moderately accomplished level, score reading, and fluency in keyboard harmony. A theorist must hear what one sees in a score and see in a score what one hears.

**Prerequisites**

- Bachelor's degree in music (or demonstrated equivalent)
- GPA of 3.0 in the last 60 hours
- 3 credits of 18th- or 16th-century counterpoint
- 2 credits of orchestration
- 2 credits of a theory elective
- 4 credits of music history (equivalent study to MUS_H_LI 2307, MUS_H_LI 2308)
- 16 credits of applied instruction (or equivalent)

If an applicant does not meet the required prerequisites, then appropriate course(s) may be added to the degree requirements.

**Admissions**

For admission requirements, refer to the Graduate Studies’ website for the minimum qualifications for the MM in Music (https://gradstudies.missouri.edu/degreecategory/music). Because requirements vary, you must refer to a degree program’s graduate admission page to learn about specific admission criteria, application deadlines, eligibility, and the application process. Before official admissions to the University of Missouri, your application materials will be reviewed by both the Graduate Studies and the degree program to which you’ve applied.

**MM in Music with Emphasis in Performance**

**BRASS:**

Through continued development of performance skills and overall musicianship, this degree is designed to prepare the graduate for a career in performance or teaching, or for doctoral study.

Performance opportunities include large ensembles, mixed chamber ensembles, and faculty-directed chamber ensembles (brass quintets, brass choirs, the MU Trumpet Ensemble, the Mizzou Horn Choir, the MU Trombone Choir, and the MU Tuba/Euphonium Ensemble).

**Prerequisites**

- Bachelor's degree in music (or demonstrated equivalent)
- GPA of 3.0 in the last 60 hours
- Senior recital

If an applicant does not meet the required prerequisites, then appropriate course(s) may be added to the degree requirements.

**PERCUSSION:**

Through continued development of performance skills and overall musicianship, this degree is designed to prepare the graduate for a career in performance or teaching, or for doctoral study.

Performing opportunities include large ensembles, Marching Mizzou Drumline, jazz ensembles and three different percussion ensembles (University Percussion Ensemble, World Percussion Ensemble, and the Graduate Percussion Ensemble). MU has a large inventory of world percussion instruments including a full traditional steel pan band.

**Prerequisites**

- Bachelor's degree in music (or demonstrated equivalent)
- GPA of 3.0 in the last 60 hours
- Senior recital

If an applicant does not meet the required prerequisites, then appropriate course(s) may be added to the degree requirements.

**PIANO:**

Through continued development of performance skills and overall musicianship, this degree is designed to prepare the graduate for a career in performance or teaching, or for doctoral study.

Performance opportunities include recitals, weekly studio class, and chamber music. Most student elect to take courses in pedagogy and qualify to teach in the Community Music Program. The program is supported by a wealth of carefully maintained grand pianos as well as a digital piano lab, two harpsichords and a fortepiano. Annually, distinguished pianists provide masterclasses to MU piano students, including recent guests Boris Berman, Malcolm Bilson, Anne Epperson, Claude Frank, Peter Frankl, Ian Hobson, and Ralph Votapek.

**Prerequisites**

- Bachelor's degree in Piano (or demonstrated equivalent)
- GPA of 3.0 in the last 60 hours
- Senior recital
- 1 upper-level music history course
If an applicant does not meet the required prerequisites, then appropriate course(s) may be added to the degree requirements.

**STRINGS:**

Through continued development of performance skills and overall musicianship, this degree is designed to prepare the graduate for a career in performance or teaching, or for doctoral study. Performance opportunities include the University Philharmonic, Chamber Solosists chamber orchestra, studio ensembles such as the MU Cello Choir, and chamber groups coached by members of the Esterhazy Quartet.

**Prerequisites**

- Bachelor's degree in music (or demonstrated equivalent)
- GPA of 3.0 in the last 60 hours
- Senior recital

If an applicant does not meet the required prerequisites, then appropriate course(s) may be added to the degree requirements.

**VOICE:**

Through continued development of performance skills and overall musicianship, this degree is designed to prepare the graduate for a career in performance or teaching, or for doctoral study.

Performance opportunities include choral ensembles, opera workshop, and chamber ensembles with instrumentalists. The Opera Workshop presents scenes every fall semester and a fully staged production each spring semester. In Spring 2015, the Show-Me Opera is presented a production of Puccini’s *Suor Angelica* and *Gianni Schicchi*. Other recent opera productions include Robert Ward’s *The Crucible*, Mozart’s *Cosi fan tutte* and *The Magic Flute*, Rossini’s *La Cenerentola*, Lehár’s *The Merry Widow*, and Puccini’s *Gianni Schicchi* paired with Act II of *La bohème*.

**Prerequisites**

- Bachelor's degree in music (or demonstrated equivalent)
- GPA of 3.0 in the last 60 hours
- Senior recital
- Proficiency in French, Italian, and German languages and diction.

If an applicant does not meet the required prerequisites, then appropriate course(s) may be added to the degree requirements.

**WOODWINDS:**

Through continued development of performance skills and overall musicianship, this degree is designed to prepare the graduate for a career in performance or teaching, or for doctoral study.

Performance opportunities include large ensembles, mixed chamber ensembles, and faculty-directed chamber ensembles (flute choir, clarinet choir, bassoon ensemble, saxophones quartets and choir).

**Prerequisites**

- Bachelor's degree in music (or demonstrated equivalent)
- GPA of 3.0 in the last 60 hours
- Senior recital

If an applicant does not meet the required prerequisites, then appropriate course(s) may be added to the degree requirements.

---

**Admissions**

For admission requirements, refer to the Graduate Studies' website for the minimum qualifications for the MM in Music (https://gradstudies.missouri.edu/degreecategory/music). Because requirements vary, you must refer to a degree program's graduate admission page to learn about specific admission criteria, application deadlines, eligibility, auditions, and the application process. Before official admissions to the University of Missouri, your application materials will be reviewed by both the Graduate Studies and the degree program to which you’ve applied.

**MM in Music with Emphasis in Piano Pedagogy**

Through coursework, practical teaching experiences, and performances, this degree prepares students for teaching at all levels—-with a focus on promoting wellness, creativity, and injury prevention—-or for doctoral study. Practical experiences include teaching group classes and private lessons for children and adults through the Experiencing Piano program, the Community Music Program, and the Group Piano program. MU enjoys a wealth of carefully maintained grand pianos as well as a digital piano lab, two harpsichords, and a fortepiano. Annually, distinguished pianists and pedagogues provide masterclasses to MU piano students, including recent guests Boris Berman, Martha Hilley, Claude Frank, Peter Frankl, Ian Hobson, and Ralph Votapek.

**Prerequisites**

- Bachelor’s degree in Piano (or demonstrated equivalent)
- GPA of 3.0 in the last 60 hours
- 1 upper-level music history course
- 3 credits of 18th-century counterpoint

If an applicant does not meet the required prerequisites, then appropriate course(s) may be added to the degree requirements.

Note: a senior recital and undergraduate courses in piano pedagogy or teaching experience are desirable, but not required for admission.

**Philosophy**

Matthew S. McGrath, Chair  
College of Arts and Science  
438 Strickland Hall  
(573) 882-2871  
Fax: (573) 884-8949  
philosophy@missouri.edu  
http://philosophy.missouri.edu/

The Department of Philosophy offers a wide variety of undergraduate and graduate courses, including courses on applied ethics, ethical theory,
epistemology, logic, metaphysics, philosophy of mind, philosophy of language, philosophy of religion, philosophy of science, philosophy of biology, decision theory, political philosophy, non-Western philosophy, and the history of philosophy. The study of philosophy is not only fascinating in its own right but practical too, since it encourages the development of marketable intellectual abilities. These include the abilities to read, think, and write about conceptually complex and abstract material, and to construct and analyze elaborate chains of reasoning. Philosophy majors go on to pursue careers in such fields as law, medicine, business, the non-profit sector, the church, and academia. The department offers BA, BS, MA, and PhD degrees in philosophy, as well as an undergraduate minor.

Faculty
Associate Professor A. Ariew**, C. S. Horisk**, P. Robbins**
Assistant Professor K. Boyce*, M. Folescu*, M. Heckel*, A. Radulescu*
Associate Professor Emeritus A. von Schönborn*

* Graduate Faculty Member - membership is required to teach graduate-level courses, chair master’s thesis committees, and serve on doctoral examination and dissertation committees.
** Doctoral Faculty Member - membership is required to chair doctoral examination or dissertation committees. Graduate faculty membership is a prerequisite for Doctoral faculty membership.

Undergraduate
• BA in Philosophy (p. 268)
• BS in Philosophy (p. 269)
• Minor in Philosophy (p. 270)

Double and Dual Majors
A philosophy major can be paired with a major in another department in the College of Arts and Science (double major) or in some other College (dual major). Students must meet the major requirements of both departments. The program for each department must be approved by the advisor for that department.

Departmental Honors
To earn a BA (or BS) with Departmental Honors in philosophy, a student must achieve at least a 3.3 GPA in all courses, and a 3.7 GPA in all philosophy courses; meet all the standard requirements for the regular philosophy BA (or BS); take PHIL 4998 Honors I in Philosophy, and PHIL 4999 Honors II in Philosophy, writing a satisfactory senior thesis normally of 3,000 to 9,000 words under the guidance of a faculty member who has consented to work with the student; and pass an oral examination on the thesis before a committee of three members of the philosophy faculty.

Graduate
• MA in Philosophy (p. 270)
• PhD in Philosophy (p. 271)

College of Arts and Science
438 Strickland Hall

Mizzou
University of Missouri

(573) 882-2871
http://philosophy.missouri.edu/

Director of Graduate Studies: André Ariew

About the Program
The Department of Philosophy provides excellent training in both research and teaching. The nationally and internationally renowned faculty have expertise in the core areas of philosophy, with particular strengths in epistemology, ethics, philosophy of mind, and political philosophy, and also in various specialties, including philosophy of biology, experimental philosophy, and the foundations of decision and game theory. With 13 full time faculty and around 25 graduate students, we offer a supportive community for pursuit of the MA and the PhD, with a broad range of courses, rigorous training, attentive, high-quality advising, the opportunity to develop a professional network through our series of colloquia and conferences, and help in every aspect of job seeking. We give students the advice and support they need to present their work at regional and national conferences, and to publish in professional journals, before they begin to look for jobs. We also give our students extensive training and experience in teaching, including assistantships with award-winning teachers.

Although we award an MA degree, we only admit students to our PhD program (with the MA obtained in the process).

We receive about 50 applications per year and offer funding to about 10-15% of these. The normal ranges of scores for students we admit are: GRE Verbal 158-170, GRE Quantitative 147-166, and GPA in the major (normally philosophy) 3.9. Of course, our decisions are also based on the writing sample, letters of reference, and other factors, such as degree of fit with the Department.

Professional Development
Presentation of research at professional meetings and publication by graduate students is strongly encouraged. Prominent philosophers from other institutions visit the Department yearly for talks and symposia. Twice yearly, the Florence G. Kline endowment sponsors an intensive workshop at which papers on a special topic are presented by several leading figures in philosophy.

Financial Aid from the Program
Fellowships and teaching assistantships are available to qualified students. Applications for fellowships must meet the Office of Graduate Studies deadlines, usually in January. Applications for teaching assistantships must meet the Department deadline of January 15.

BA in Philosophy

Degree Program Description
Philosophy is the search for reasoned answers to certain fundamental questions about the nature of the universe and the place of humans in it, questions that science seems unable to answer. To do philosophy is to construct and evaluate the best arguments for and against the various answers to the questions that philosophy seeks to answer. The Bachelor of Arts is broader in scope than the Bachelor of Science, and is the better choice for most students. The practical value of studying philosophy lies in the intellectual training that it provides. Successful study of philosophy requires, and helps develop, several intellectual abilities: the ability to grasp the big picture as well as fine details; the ability to think, speak, and
write about highly abstract and conceptually demanding questions; the ability to identify key assumptions made in arguments; the ability to make relevant conceptual distinctions; and the ability to assess the pros and cons of proposed solutions. These abilities are highly prized in a wide variety of careers, and philosophy majors go on to successful careers in a wide range of fields, including law, medicine, and business.

**Major Program Requirements**

Undergraduates pursuing a BA degree in philosophy must meet all the non-philosophy requirements for a BA degree in the College of Arts and Science, including university general education requirements (p. 34) and graduation requirements (p. 33). In addition, they are recommended, but not required, to pursue a minor in another field. Finally, they must earn 30 credits in philosophy, with a grade of ”C-“ or above in every course, distributed as follows:

**Logic Requirement**
- One of the following three courses:
  - PHIL 1200 Logic and Reasoning
  - PHIL 120OH Logic and Reasoning-Honors
  - PHIL 2700 Elementary Logic

**Required Courses**
- All of the following three courses:
  - PHIL 3000 Ancient Western Philosophy
  - PHIL 3200 Modern Philosophy
  - PHIL 4950 Senior Seminar in Philosophy

**3000-Level/4000-Level Requirement**
- Any three semester-based courses at the 3000-level or 4000-level not already taken to meet other major requirements, except for 4998 and 4999.

**Philosophy Electives**
- Nine philosophy credits in any classes (excluding 4998 and 4999) not taken to meet other major requirements, but no more than three 1000-level philosophy courses may be used as philosophy electives.

**Total Credits**: 30

**Semester Plan**

Below is a sample plan of study, semester by semester. A student’s actual plan may vary, depending on his or her course choices and whether options are available.

**BS in Philosophy**

**Degree Program Description**

Philosophy is the search for reasoned answers to certain fundamental questions about the nature of the universe and the place of humans in it, questions that science seems unable to answer. To do philosophy is to construct and evaluate the best arguments for and against the various answers to the questions that philosophy seeks to answer. The Bachelor of Science emphasizes the formal aspects of philosophy and its many connections with the sciences. It may be a better choice for those wishing to double major in philosophy and a science. The practical value of studying philosophy lies in the intellectual training that it provides. Successful study of philosophy requires, and helps develop, several intellectual abilities: the ability to grasp the big picture as well as fine details; the ability to think, speak, and write about highly abstract and conceptually demanding questions; the ability to identify key assumptions made in arguments; the ability to make relevant conceptual distinctions; and the ability to assess the pros and cons of proposed solutions. These abilities are highly prized in a wide variety of careers, and philosophy majors go on to successful careers in a wide range of fields, including law, medicine, and business.

**Major Program Requirements**

Undergraduates pursuing a BS degree in philosophy must meet all the non-philosophy requirements for a BS degree in the College of Arts and Science, including university general education (p. 34) requirements and graduation requirements (p. 33). In addition, they are recommended, but not required, to pursue a minor in another field. Finally, they must earn 42 credits in philosophy, with a grade of ”C-“ or above in every course, distributed as follows:

**Required Courses**
- All of the following four courses:
  - PHIL 2700 Elementary Logic
  - PHIL 3000 Ancient Western Philosophy
  - PHIL 3200 Modern Philosophy
  - PHIL 4950 Senior Seminar in Philosophy

**Total Credits**: 12
3000-Level/4000-Level Requirement
Any three semester-based courses at the 3000-level or 4000-level
not taken to meet other major requirements, except for 4998 and 4999.

Further BS Requirement
Any four semester-based courses from the following list:
- PHIL 2600 Rational Decisions
- PHIL 2820 Introduction to Cognitive Science
- PHIL 4100 Philosophy of Language
- PHIL 4110 Advanced Logic
- PHIL 4120 Selected Topics in Logic
- PHIL 4130 Probability and Induction
- PHIL 4150 Formal Semantics
- PHIL 4200 Metaphysics
- PHIL 4210 Philosophy of Mind
- PHIL 4400 Philosophy of Science
- PHIL 4420 Philosophy of Biology

Philosophy Electives
Nine philosophy credits in any classes (excluding 4998 and 4999)
ot taken to meet other major requirements; but no more than three
1000-level courses may be used as philosophy electives.

Total Credits: 42

Semester Plan

Total Credits: 120-122

Minor in Philosophy

A minor in philosophy requires 15 credits in philosophy, including at least
3 credits at the 4000-level and a further 3 credits at the 3000-level or
4000-level.

The remaining credits may be earned in any philosophy courses, except
for PHIL 4998 and PHIL 4999.

Of the 15 credits required, 9 must be taken in MU course work.

Students considering a minor might want to consult the requirements for
the philosophy major before selecting their courses, so as to leave open
the option of upgrading to a major at some later date.

Prospective philosophy minors must get the permission of their academic
unit.

MA in Philosophy

About the Master of Arts in Philosophy

At this time, our Department is not admitting students who are seeking
a terminal master’s degree. However, our doctoral students earn an MA
degree en route to the PhD.

Please see the admission criteria for our doctoral degree program
(p. 271).

Admission Contact Information
Paul Weirich
College of Arts and Science
Department of Philosophy
415 Strickland Hall
(573) 882-6760

Master of Arts Degree Completion
Requirements

- 30 semester hours of graduate work, 15 of which must be at the 8000
  level.
- At least 80 percent of the hours submitted for the master’s program
  must be completed with a grade of A or B.
- A distribution of graduate courses including a proseminar for all first
  year students, one course in the history of philosophy and one course
  in either ethics, political philosophy, metaphysics, or epistemology.
A thesis or two papers of format and topic appropriate for a refereed paper in a major journal, displaying sustained research and philosophical analysis, and an oral defense of the thesis or papers.

PhD in Philosophy

Admission Contact Information
Paul Weirich
College of Arts and Science
Department of Philosophy
415 Strickland Hall
(573) 882-6760

Note: Although we award the MA degree, we only admit students to our PhD program (with the MA obtained in the process). Any unusual circumstances regarding failure to meet the minimum requirements should be called to the attention of the director of graduate admissions.

Admission Process

In order to be considered for our graduate program, the following steps need to be completed (including receipt of transcripts and test scores) by January 15th:

1. Arrange for all relevant official transcripts to be sent directly to the Office of Graduate Studies by your college or university (student copies are not acceptable).

2. Arrange with Educational Testing Services for your GRE scores to be sent directly to the Office of Graduate Studies (MU's school code is 6875; philosophy's department code is 2801). Only electronic scores are acceptable.

3. International students also should arrange for their TOEFL scores to be sent directly to the Office of Graduate Studies (MU's school code is 6875; philosophy's department code is 2801). The minimum required scores are 100 (internet) total with a speaking score of at least 23 (internet). (For more information about scores, see the Office of Graduate Studies’ TOEFL policy.)

4. Complete the basic information in online Graduate Studies application.

5. Upload a 750-word Statement of Interest to the Supplemental Information section of the on-line Graduate Studies application form. It should explain why you are interested in graduate study in philosophy at the University of Missouri. We encourage you to address, if you wish, how you can advance the department’s commitment to diversity.

6. Upload a sample of your 15-25 page philosophical writing (e.g., a paper or thesis chapter) to the Supplemental Information section of the on-line Graduate Studies application form. For the sake of blind evaluation, do not include your name on the sample you upload.

7. In the Recommendation section of the on-line Graduate Studies application form, enter the information for three letters of recommendation regarding your academic potential. You should first obtain agreement from the professors writing these letters. They will be contacted by e-mail to submit their letters electronically. If a professor is unable to send his/her letters electronically, you should still enter all his/her information in the Recommendation section, but you should write “(off-line)” immediately after her name.

8. A hardcopy of the recommendation should then be sent to the Director of Graduate Studies, Department of Philosophy University of Missouri, Columbia, MO 65211-4160. Because all other materials are electronic, hardcopies often do not receive the same attention. It is thus in your strong interest to have your letters submitted electronically.

9. Complete the Department Philosophy application form (https://philosophy.missouri.edu/grad/graduate-program).

Admission Criteria

Fall deadline: January 15

- Minimum TOEFL scores:
  - Internet-based test (iBT) 100*
  - Paper-based test (PBT) 600

- Speaking score of at least 23
- Average GRE scores:
  - Prior to August 1, 2011 650 700
  - On or After August 1, 2011 163 155

- Eligibility for any graduate work in philosophy requires the equivalent of the following six undergraduate courses in philosophy: formal logic, ethics, ancient philosophy, modern philosophy, epistemology, and metaphysics.

- Deficiencies may be made up after the student is enrolled at MU.

- Average GPA in the major: 3.9

Required Application Materials

To the Office of Graduate Studies

- All required Graduate Studies documents
- 3 letters of recommendation (submission through the online application system strongly preferred, but postal mail submission directly to the department allowed)
- Statement of interest (upload to the online application)
- Writing sample (upload to the online application)
- Departmental application (download this from https://philosophy.missouri.edu/grad/graduate-program and then upload to the online application).

To the Philosophy Program

- GRE score report (electronic only)

Qualifying Exam

Qualification for the PhD program is established by a qualifying examination (typically by superior performance on the MA research requirement).

Graduation Requirements for the PhD

- 72 hours of course work in philosophy, with at least 42 hours of regular course work.
- A distribution of graduate courses including an introductory seminar for all first year students, two advanced courses in logic, two courses in the history of philosophy, and one course in each of ethics, epistemology, and metaphysics.
- A written and oral dissertation proposal requirement designed to ensure the student’s familiarity with the relevant philosophical
Physics is the science that studies the structure and properties of matter and transformations of energy. With math as the language and experimental verification as a guide, physical study has established the fundamental laws of nature that are the foundation of all natural science and technology. The study of physics includes learning the general principles and the phenomena that have been discovered and developing the skills that enable such knowledge to be advanced through research.

The Department of Physics and Astronomy offers a major in physics with either a Bachelor of Arts or a Bachelor of Science Degree. The BA degree provides a broad coverage of classical and modern physics while permitting a broader liberal arts education. It is normally selected by students who do not envision a professional career in physics, but plan to enter a professional school later in their academic career, e.g., medicine, dentistry or law, or who desire to pursue a teaching certificate. The BS degree in Physics is designed to prepare students for scientific careers immediately upon graduation, for further training in graduate school, or for teaching high school physics. A minor in physics or astronomy is also available.

Physics education plays a pivotal role in such areas of burgeoning and societal importance as biomedical optical imaging/biomedicine, materials science, and homeland security. Therefore, the Department of Physics has introduced several new courses and electives to train undergraduate students in optical sciences, biological physics, materials sciences and nanotechnology.

Faculty

Associate Professor G. King**, W. T. Montfrooij**, H. Yan**
Assistant Professor G. Bian**, Y. Guo**, D. Singh**
Teaching Professor D. Kosztin*
Associate Teaching Professor Y. Zhang*
Assistant Teaching Professor S. Bompadre*, K. King*
Adjunct Professor Z. Afrasiabi, C. Arendse, S. Balasubramanian, J. Belk, J. Burress, R. V. Duncan, L. F. Gomez, A. Helfer, H. Kaiser, B. Kuchta, L. Ma, Z. S. Popovic
Adjunct Associate Professor X. Fan, J. Farmer**
Associate Professor Emeritus C. J. Peterson

* Graduate Faculty Member - membership is required to teach graduate-level courses, chair master's thesis committees, and serve on doctoral examination and dissertation committees.

** Doctoral Faculty Member - membership is required to chair doctoral examination or dissertation committees. Graduate faculty membership is a prerequisite for Doctoral faculty membership.

Undergraduate

- BA in Physics (p. 273)
- BS in Physics (p. 274)
  - with emphasis in Astronomy (p. 275)
  - with emphasis in Biological Physics (p. 276)
  - with emphasis in Materials Science (p. 277)
- Minor in Physics (p. 278)

Candidates for both degrees must complete 120 credits with an average grade of C or better. For the BA in physics degree, students must complete 30 credits in physics and 19 credits in math and chemistry. For the BS in physics degree, students must complete 45 credits in physics and 25 credits in math and chemistry. Students pursuing a Bachelor of Science in Secondary Education, emphasis in Physics, have the option of receiving a BS in physics degree by completing 33 credits in physics and 19 hours in math and chemistry. In addition, students must meet all degree, college, and university requirements including University general education. All students who complete the BS degree in Physics automatically also complete a minor in Mathematics.

Departmental Honors

The departmental honors program in physics provides exceptional students with an opportunity to develop skills beyond the normal course work. It also acknowledges those students who have attained a level of achievement beyond what is normally expected of an undergraduate physics major.

To receive an honors degree with a major in physics, a student must meet the following criteria:

- Satisfy the BA or BS degree requirements
- Cumulative GPA of at least 3.30 and minimum GPA of 3.50 in Physics Department courses
- Complete a six credit hours research sequence, by signing up for PHYSCS 4950/ASTRON 4950 Undergraduate Research in Physics/Astronomy in the first (second) semester junior year and for PHYSCS 4950/ASTRON 4950 Senior Thesis (or PHYSCS 4950/ASTRON 4950 again) in the first (second) semester senior year. In PHYSCS 4950 /ASTRON 4950 students will work on a research project, either by doing research in a lab or by doing reading research and completing specific readings under the supervision of a faculty advisor.
- Present the results of the research project in a poster or in a paper prepared in the form of a scientific journal article at a regional or national meeting, to a faculty panel that will consist of no fewer than three Physics Department faculty members, or in a physics seminar.

In order to receive departmental honors recognition, the student must be recommended by the director of undergraduate studies. Upon recommendation, the Office of the University Registrar will be notified that the candidate has earned departmental honors recognition. This acknowledgement will appear on the student’s diploma as well as on the transcript.
Elective Tracks

Students have available a variety of courses from which they may select the required credits of physics electives for the BS or BA degree. The department offers tracks that allow students to specialize in astronomy, biological physics, condensed matter physics, energy storage, materials science, nanomaterials, or optoelectronics. Students may wish to pursue one of these tracks, or follow a general track in which they can choose any of the courses that are listed and are not required courses.

Note: Tracks are not indicated on the diploma.

Foreign Language Alternative (BS)

Students who elect an undergraduate program leading to the BS degree with a major in Physics have an option regarding the College of Arts and Science foreign language requirement. This requirement of 12 or 13 credits (depending on the language studied) may be satisfied alternatively by the substitution of an approved specialization. This consists of a minimum of 12 credits at the 2000/3000 level or above and may not include courses normally required of all physics majors. It is to be selected from an area with special relevance to physics and to the student’s own interests and future plans.

Students have selected options in aerospace engineering, atmospheric science/geophysical fluid dynamics, radiation biology, chemistry, computer science, electrical engineering (circuits or computer hardware option), geology, nuclear engineering, material science, math and other areas. The choice and planning of an option must be done under the direction of the departmental undergraduate advisor.

Dual Degrees and Double Majors

Students may wish to pursue two baccalaureate dual degrees simultaneously. For example, this might include a BS in Physics and a BS in Engineering, which is the most common choice. In order to receive two baccalaureate degrees, a student must complete a minimum of 132 credits and complete all the specified requirements for both degrees.

Another degree option is a single baccalaureate degree with two majors (double majors), which may be developed with the concurrence of appropriate advisors in the two departments. A notation of the successful completion of the two areas appears on the student’s transcript. Both departments must be in the College of Arts and Sciences. Double major options often chosen by a physics major are chemistry, mathematics or geology. Mathematics is a particularly viable double major because the extensive mathematics component normally required in the BS degree with a major in physics, if coupled with a specialization area chosen from mathematics, nearly completes the BS degree with a major in mathematics.

Careful planning, started early in the academic career, is required to meet the conditions of dual majors or dual degrees. Students who complete such programs obtain the maximum from their undergraduate experience.

Graduate

- MS in Physics (p. 278)
- PhD in Physics (p. 279)
- Graduate Certificate in Teaching High School Physics (p. 281)

Department of Physics & Astronomy

About Physics

At the University of Missouri, the physics degrees are offered by the Department of Physics and Astronomy. Because the Department has a moderate size, graduate students are better able to maintain a close relationship with the faculty. Our facilities include various laboratories within the Physics Building as well as the Research Reactor. In certain cases, a student’s work may be done in collaboration with other science and engineering departments.

The largest research area is in experimental and theoretical condensed-matter physics. Graduates in these fields have been very successful in continuing their careers in industry and academics. Other research programs in which thesis work may be accomplished are biological physics and astronomy/astrophysics.

Research Resources

The Department of Physics and Astronomy offers many opportunities for scientific research in internationally recognized programs, some of which are unique at a university and at a level expected only in much larger departments. The main focus of research is in the areas of theoretical and experimental condensed-matter physics, biological physics, astrophysics, and alternative energy. These research efforts are fostered by the existence of the University of Missouri Research Reactor (MURR), a 10 MW light-water moderated reactor that is the highest-power university research reactor in the country. Furthermore, many research activities involve facilities at National Laboratories such as Argonne, Oak Ridge, or NIST.

Financial Aid from the Program

Some programs require an extra form or statement from those who wish to be considered for internal assistantships, fellowships or other funding packages. Check the program website or ask the program contact for details.

More Details

For more details on the Physics graduate program please consult the departmental web site: https://physics.missouri.edu/grad/graduate-program.

In particular, details about degree requirements, rules and regulations can be found in the Physics graduate handbook (https://physics.missouri.edu/sites/default/files/grad-files/graduatehandbook10-02-14.pdf).

BS in Physics

Degree Program Description

Physics is the science that studies the structure and properties of matter and transformations of energy. With math as the language and experimental verification as a guide, physical study has established the fundamental laws of nature that are the foundation of all natural science and technology. The study of physics includes learning the general principles and the phenomena that have been discovered and developing the skills that enable such knowledge to be advanced through research. The BS degree in Physics is designed to prepare students for scientific careers immediately upon graduation, for further training in graduate school, or for teaching high school physics. Physics plays a pivotal role in such areas of expanding and societal importance as biomedical optical imaging/biomedicine, materials science, and homeland security, and as such, courses are offered in optical sciences, biological physics, materials sciences and nanotechnology. Students can specialize by pursuing a BS in physics with an emphasis in astronomy or materials science.

Major Program Requirements

Students must complete the University general education (p. 34) requirements and graduation requirements (p. 33) in addition to the Major Program Requirements below.

### BS in Physics with Emphasis in Astronomy

#### Degree Program Description

Physics is the science that studies the structure and properties of matter and transformations of energy. With math as the language and experimental verification as a guide, physical study has established the fundamental laws of nature that are the foundation of all natural science and technology. The study of physics includes learning the general principles and the phenomena that have been discovered and developing the skills that enable such knowledge to be advanced through research. An emphasis area in astronomy is excellent preparation also for science teachers, laboratory technicians, computer programmers, and science journalists. It can also serve as the basis for graduate degrees in other fields, such as law or medical school. People with a degree (or background) in Physics with and emphasis in astronomy find jobs in planetariums, science museums, national observatories, national laboratories, federal agencies, universities, business or private industry.

#### Major Program Requirements

Students interested in astronomy may pursue a BS in Physics with an Emphasis in Astronomy. For this option, students must take the same required courses as the students pursuing a regular BS degree and take all their physics electives in astronomy. One of the 4 required astronomy electives is ASTRON 3010 Introduction to Modern Astrophysics. If successfully completed, the emphasis in Astronomy will be recorded on the student’s diploma.

In addition, students must complete all College of Arts and Science and University graduation requirements (p. 33), including University general education (p. 34).

- Course meets University general education and/or campus graduation requirements
BS in Physics with Emphasis in Biological Physics

Degree Program Description

Physics is the science that studies the structure and properties of matter and transformations of energy. With math as the language and experimental verification as a guide, physical study has established the fundamental laws of nature that are the foundation of all natural science and technology. The study of physics includes learning the general principles and the phenomena that have been discovered and developing the skills that enable such knowledge to be advanced through research. Biological physics is an interdisciplinary area that employs and develops theories and methods of the physical sciences for the investigation of biological systems. There is a long history of the quantitative tools and techniques originally developed within the physics community finding critical applications in biology. Examples range from the first visualization of the DNA double helix via X-ray diffraction to the widespread use of magnetic resonance imaging in hospitals throughout the world. Currently, biological physics is one of the fastest growing physics research areas that is vital for many other fields, including medicine, bioengineering, and biology. Students specializing in this area have career opportunities in medical centers, research institutes and biotechnology industries, as well as the more traditional academic venues.

Major Program Requirements

Students interested in biological physics may choose to pursue a BS in Physics with an Emphasis in Biological Physics. For this option, students must take the same required courses as the students pursuing a regular BS degree, take PHYSICS 4520 Introduction to Biophysics, and three additional physics electives (3 courses) from the list below:

^ Course meets degree program requirements.

* Course meets University General Education and/or campus graduation requirements.

### Degree Program Description

Physics is the science that studies the structure and properties of matter and transformations of energy. With math as the language and experimental verification as a guide, physical study has established the fundamental laws of nature that are the foundation of all natural science and technology. The study of physics includes learning the general principles and the phenomena that have been discovered and developing the skills that enable such knowledge to be advanced through research. Materials Science is an interdisciplinary field encompassing several disciplines of science and technology. Physics lies at the heart of materials science since it provides a rationale for understanding the mechanical, thermal, optical, and magnetic properties of matter. The emphasis area in materials science prepares students in areas of high demand for the 21st century workforce in the US. Materials scientists are employed by companies who make products ranging from metals, ceramics, and biomedical implants to integrated-circuit chips and superconducting materials. A major concentration of the program is on nanomaterials, which prepares students in areas of nanotechnology and energy-related issues.

### Major Program Requirements

Students interested in materials science may choose to pursue a BS in Physics with an Emphasis in Materials Science. For this option, students must take the same required courses as the students pursuing a regular BS degree, take PHYSCS 4620 Introduction to Materials Science, and three additional physics electives (3 courses) from the list below:

- PHYSCS 4190 Physics and Chemistry of Materials 3
- PHYSCS 4230 Scanning and Transmission Electron Microscopy and Microanalysis 3
- PHYSCS 4410 Analysis of Biological Macromolecules and Biomaterials 3
- PHYSCS 4600 Semiconductor Optics 3
- PHYSCS 4620 Introduction to Materials Science 3
- PHYSCS 4650 Modern Condensed Matter Physics 3
- PHYSCS 4950 Undergraduate Research in Physics 1-3
- PHYSCS 4960 Senior Thesis in Physics 3

With approval, one materials science related course may be taken from outside the physics program. Only courses in which a grade of C- or above will be counted toward the emphasis area.

In addition, students must complete all College of Arts and Science and University graduation requirements (p. 33), including University general education (p. 34).

related fields. International students who have gone through a 3-year completed a 4-year undergraduate degree in physics or closely related fields. We welcome applications from students who have successfully

**Application Process**

We welcome applications from students who have successfully completed a 4-year undergraduate degree in physics or closely related fields. International students who have gone through a 3-year undergraduate degree program need to have an MS degree to become eligible for admission. Applications for admission for graduate study in physics have to be completed online. Your online application should include the following material (to be uploaded in electronic format):

- University of Missouri Graduate School Application. Use the online application system to fill out the application form and upload the required documents.
- The results of the general GRE Test (required).
- The results of the GRE Advanced Physics Test, if available (not mandatory, but strongly recommended).
- For international applicants, the results of the TOEFL Test. The minimum total TOEFL scores for graduate admission into the MU Physics program are 550 (paper-based), 213 (computer-based) or 80 (internet-based). The IELTS test with a minimum score of 6.5 is an acceptable alternative to the TOEFL.
- A statement of purpose, in which you tell us a bit about yourself (e.g. your motivations, career goals, and research interests, and why you chose to apply at the University of Missouri).
- Three letters of recommendation from three of your professors who are familiar with you and your work.
- Official transcripts from all undergraduate and graduate institutions applicant has attended.

**Admission Criteria**

Fall deadline: March 1
Spring deadline: Rolling (target date: October 1)
Minimum GRE score: none set
International applicants must submit results of the TOEFL test.

<table>
<thead>
<tr>
<th>Internet-based test (iBT)</th>
<th>Paper-based test (PBT)</th>
</tr>
</thead>
<tbody>
<tr>
<td>80</td>
<td>550</td>
</tr>
</tbody>
</table>

- MU institutional code for GRE and TOEFL: 6875
- GRE department code: 0808
- TOEFL department code: 76

**Degree Requirements**

In general, students must present at least 30 credit hours for the MS degree, including at least 15 hours in courses at the 8000 level. The program must include at least 15 hours of physics courses. There is no foreign language requirement.

**Physical Science Option**

The master of science (physical science) degree is designed for those preparing to teach more than one science or for those broadening their foundation in science before proceeding to the doctoral degree. It emphasizes broad training in physics, chemistry and mathematics. No thesis is required.

**Sample Plan of Study**

The MS Degree requires completion of a minimum of 30 course hours beyond the Bachelor's Degree (at least 15 hours of those in 8000 level courses) with a grade of 3.0 (B) or better, and completion of the Departmental Qualifying Examination at least at the MS pass level. The basic residency requirement stipulates that 24 hours of this work be courses taken at MU (i.e., no more than 6 hours may be transfer credits). In a normal
program, this requirement is met by the end of the second year at MU. The required courses for a Master’s Degree are:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Credit</th>
</tr>
</thead>
<tbody>
<tr>
<td>PHYSCS 8610</td>
<td>Classical Mechanics</td>
<td>3</td>
</tr>
<tr>
<td>PHYSCS 8620</td>
<td>Electrodynamics I</td>
<td>3</td>
</tr>
<tr>
<td>PHYSCS 8660</td>
<td>Methods in Mathematical Physics</td>
<td>3</td>
</tr>
<tr>
<td>PHYSCS 8680</td>
<td>Thermodynamics and Statistical Mechanics</td>
<td>3</td>
</tr>
<tr>
<td>PHYSCS 8710</td>
<td>Quantum Mechanics I</td>
<td>3</td>
</tr>
</tbody>
</table>

Other additional courses may be taken from 7000 and 8000 level courses in astronomy, mathematics, chemistry, biology, engineering, and physics to make a total of 30 hours of course work In some cases, a student who is a transfer graduate student or who has a particularly strong undergraduate background may have had course work which satisfies the requirement of one or more of these core courses. Exemption from taking these courses at MU may be granted upon written application to the Departmental Graduate Studies Committee.

Research

It is essential for the MS degree that the students carry out some research. Three hours of research, PHYSCS 8990, should be taken, but not more than nine hours of reading and research courses may be included in the 30 hour requirement. (Note: This 9 hour limitation is a departmental requirement and is more restrictive than the Office of Graduate Studies requirement.) A formal MS thesis is not required in Physics. The student, in consultation with his/her advisor, can choose to write an MS thesis as an option (MU Graduate Studies thesis guidelines [http://gradschool.missouri.edu/academics/thesis-dissertation/diss-thesis-guideline]).

Qualifying Examination

The student must pass the Departmental Qualifying Examination at least at the MS pass level. Upon completion of the qualifying examination, the student fills out the form M3, “Report of the Master’s Examining Committee” and gathers the signatures of the Qualifying Examination Committee members. This form is then signed by the Director of Graduate Studies and forwarded to the Office of Graduate Studies Dean. Graduation Requirements

After performing satisfactory work for the first year, the student with the advisor’s assistance completes the form M1, “Plan of Study for the Master’s Degree,” as the basis of the course of study for the student’s graduate program, and forwards the application through the Departmental Graduate Studies Committee to the Dean of the Graduate Studies. The plan of study form must be filed no later than the session preceding the session in which the student expects to receive the degree. Upon approval of the M1 form by the Dean of the Graduate Studies, the student is a candidate for the degree.

The program for the Master’s Degree must be completed within a period of eight years beginning with the first semester of enrollment, not including time spent in the armed services. For any extension of this time limitation, the student must petition the Graduate Studies Dean. Such petitions must be received in the Graduate School Office prior to the expiration of the normal period and must be approved by the advisor, the Departmental Director of Graduate Studies, and the Graduate Studies Dean. The Office of Graduate Studies will notify the advisor in writing of the final decision.

The candidate must be enrolled at the MU campus during the semester in which the program of study, outlined in the “Plan of Study for the Master’s Degree”, is expected to be completed. During the first six weeks of this semester, the candidate must personally confirm with the Office of Graduate Studies for all graduation arrangements.

PhD in Physics

The doctor of philosophy degree is designed to educate scientists to be capable of independently formulating and solving problems of fundamental scientific importance. Detailed policies for the PhD degree are listed at the MU Graduate Studies. Here we give details specific to the Physics program.

Application Process

Applications for admission for graduate study in physics have to be completed online. Your online application should include the following material (to be uploaded in electronic format):

- University of Missouri Graduate Studies Application. Use the online application system (https://applygrad.missouri.edu/apply) to fill out the application form and upload the required documents.
- The results of the general GRE Test (required). MU institutional code for GRE: 6875  GRE department code: 0808
- The results of the GRE Advanced Physics Test, if available (not mandatory, but strongly recommended).
- For international applicants, the results of the TOEFL Test. A minimum test score of 80 is required. The IELTS test with a minimum score of 6.5 is an acceptable alternative to the TOEFL.
- A statement of purpose, in which you tell us a bit about yourself (e.g. your motivations, career goals, and research interests, and why you chose to apply at the University of Missouri).
- Three letters of recommendation.
- Your official transcripts from all undergraduate and graduate institutions attended.

Admission Criteria

- Fall deadline: March 1
- Spring deadline: Rolling (target date: October 1)
- Minimum GRE score: none set
- Minimum TOEFL scores (international applicants only):

<table>

Note: MU institutional code for TOEFL: 6875. TOEFL department code: 76

Degree Completion Requirements

A Ph.D. Degree requires completion of a minimum of 18 hours beyond the Master’s Degree, with a grade of 3.0 (B) or better, and completion of the Department Qualifying Examination at the PhD pass level. The degree candidate must also meet the residency requirements. There is no foreign language requirement.

The required courses for a PhD Degree (in addition to those for the MS Degree in physics) are as follows:

- PHYSCS 8640 Electrodynamics II (3)
- PHYSCS 8720 Quantum Mechanics II (3)
- Two graduate-level (>8000) courses in the student’s area of specialization (6)
• A graduate-level (>8000) course in an area other than the student’s area of specialization (3)

Additional graduate-level courses to make a total of 18 hours beyond the Master’s Degree are required. See the graduate courses in Physics and Astronomy for electives. In addition, students can choose selected 7000 and 8000 level courses in Mathematics, Chemistry, Biology and Engineering.

A student is required to have taken a minimum of three full years of graduate work beyond the Bachelor’s Degree. All acceptable graduate work, including one year’s residence for a Master’s Degree, is used to compute the three-year requirement for the PhD Degree. It is important to note that this is not a requirement for three calendar years of work, but rather a three-year’s equivalent of full time study. When this three-year residency requirement is satisfied, a student should have finished a minimum of 72 credit hours of graduate work.

Within the three-year residence, each doctoral student must successfully complete at least two 12-hour semesters or three 8-hour semesters of graduate level program within a period of 18 calendar months. During this period, the student must be fully involved in academic pursuit, be it study, teaching, or research. This period of full-time reading, reflection, study, teaching, and research is considered necessary to give the student’s program continuity and to fulfill the spirit and special demands of the doctoral program.

A student who is a graduate assistant, or who is engaged in other activities that reduce the time available for graduate study, may need more than the anticipated time to meet course and dissertation requirements. Nonetheless, a reasonable rate of progress is required.

A PhD student must successfully complete the comprehensive examination within a period of five years beginning with the first semester of enrollment as a PhD student. In addition, the program for the doctoral degree must be completed within five years of passing the comprehensive examination.

For an extension of this time, the student must, before the expiration of the normal period, petition the Office of Graduate Studies by submitting a request to the advisor who, in turn, submits a written recommendation to the Graduate Studies which has been endorsed by the departmental Director of Graduate Studies. An extension, if granted, may entail a revision of the candidate’s program to update course work and research.

Transfer of Credit
A student who has completed a master’s degree at the University of Missouri-Columbia or elsewhere may, upon recommendation of the advisor and approval by the departmental Director of Graduate Studies and the Office of Graduate Studies, transfer a maximum of 36 credit hours toward the total hours required for the doctoral degree. Transfer credit for doctoral students who do no have an earned master’s degree is limited to a maximum of 12 hours of graduate credit.

Degree Completion Requirements
In general, a PhD requires completion of a minimum of 18 hours beyond the master’s degree, with a grade of 3.0 (B) or better, and completion of the department qualifying examination at the PhD pass level. The degree candidate must also meet the residency requirement. For more details, please consult the department’s website or ask the director of graduate studies.

Plan of Study
The doctoral program committee guides the student in planning a program of study. The Chair of the Doctoral Program Committee, after conferring with the student and the Doctoral Program Committee, submits to the Graduate School a report, including a copy of the proposed course of study and any request for transfer of graduate credit. This plan of study will, when completed,

• prepare the student for research in the chosen field of Physics or Astronomy,
• satisfy the credit-hour and residency requirements.

The student must substantially complete the course work outlined in the “Plan of Study for the Doctoral Degree” form (Form D2), to the satisfaction of the Doctoral Program Committee and the Dean before being considered for the Comprehensive Examination.

Comprehensive Examination
To be an official candidate, the student must pass the Doctoral Comprehensive Examination, which is based upon graduate coursework in the Department (PHYSCS 8610, PHYSCS 8620, PHYSCS 8660, PHYSCS 8710, PHYSCS 8720, and other optional courses). The student must be enrolled to take this examination. It is to be administered only when MU is officially in session. The major advisor applies to the Dean for the Doctoral Program Committee to administer the Comprehensive Examination when the doctoral student has

• passed the Qualifying Examination,
• substantially completed the planned course work, and
• completed two years of the residence requirement.

The Comprehensive Examination is the most advanced general exam posed by MU. It may consist of both written and oral sections. It must be completed at least seven months before the final Dissertation Defense. The two sections of the examination must be completed within one month.

The written segment of the Comprehensive Examination is arranged and supervised by the major advisor. It consists of either (1) written questions prepared and graded by members of the Doctoral Program Committee, or (2) a research proposal on the work to be done for the PhD. Normally, the student will have two weeks to answer eight questions. Upon satisfactory completion of the written examination (or research proposal), the student is then given an oral examination by the committee.

For the Comprehensive Examination to be successfully completed, all or all but one of the committee, must vote to pass the student on the entire examination, both written and oral. A report of this examination, as in the “Doctoral Comprehensive Examination Results Form” (Form D3), carrying the signatures of all members of the committee, must be sent to the Graduate School and the student no later than two weeks after the completion of the examination.

A failure of either the written or oral section of the examination constitutes failure of the comprehensive examination. If a failure is reported, the committee will include in the report an outline of the general weaknesses of deficiencies of the student’s work. The student and the committee will work together to identify steps the student might take to become fully prepared for the next examination. If at any time the student believes that the advice given by the committee is inadequate, the student may send a written request for clarification to the committee. A copy of this request should be sent to the Office of Graduate Studies as well. The
committee must respond to this request in writing within two weeks and a copy must be filed with the Office of Graduate Studies. A student who fails may not take a second examination for 12 weeks. Failure to pass two Comprehensive Examinations automatically prevents candidacy.

Doctoral Candidacy and Continuous Enrollment

Candidacy for a doctoral degree is established by passing the comprehensive examination. Status as a continuous enrollment doctoral student begins the term after the term in which the comprehensive exam was successfully completed. Candidacy is maintained by enrolling in PHYSCS 9090 research for two semester hours each fall and winter semester and for one semester hour each summer session up to and including the term in which the dissertation is defended. Continuous enrollment provides access to an advisor’s support, doctoral program committee guidance and University research facilities for completion of the dissertation. Failure to continuously enroll in PHYSCS 9090 research until the doctoral degree is awarded terminates candidacy.

Candidacy may be reestablished by paying the registration and late fees owed and completing the requirements specified by the student’s doctoral program committee. Registration fees owed may not exceed the amount owed for seven terms, regardless of the number of terms beyond seven for which the student failed to continuously enroll. The committee’s requirements may include a second comprehensive examination of evidence of currency in the research field as suggested by publications in refereed journals. Candidacy is reestablished when the student’s advisor and the departmental Director of Graduate Studies submit a written request to the Office of Graduate Studies explaining the basis of the decision. Once approved, a Request to Re-enroll form must be completed by the student and sent to the department for processing.

Dissertation and Defense

The dissertation must be written on a subject approved by the candidate’s Doctoral Program Committee, must embody the results of original and significant investigation, and must be the candidate’s own work. Candidates should consult the Graduate Studies’ Theses and Dissertations Guidelines.

All dissertation defenses shall be open to all Physics and Astronomy faculty and graduate students. Dissertation defense dates should be publicly announced in advance. The candidate must be enrolled to defend the dissertation, which is administered when MU is officially in session. A report of the dissertation defense form (Form D4), carrying the signatures of all members of the committee, is sent to the Graduate School before the deadline preceding the anticipated date of graduation. For the dissertation to be successfully defended, the student’s doctoral committee must vote to pass the student on the defense with no more than one dissenting or abstaining vote.

Graduate Certificate in Teaching High School Physics

Through this project, participants gain an expanded range of leadership expertise, content knowledge and pedagogical proficiency to share with others, as they become resources and catalysts for reform in science education at the secondary and post-secondary institutional levels. Ultimately, the overall goal is a significant increase in student achievement in science and science coursework.

For more information please visit the A TIME for Physics First website: http://www.physicsfirstmo.org/# or contact the Department of Physics by calling 573-882-7997 or emailing hillsar@missouri.edu

Federal Gainful Employment disclosure information for this Graduate Certificate is available at https://gradstudies.missouri.edu/fged/40.0801-Gedt-Teaching_Physics.html.

Political Science

Moises E. Arce, Chair
College of Arts and Science
113 Professional Building
(573) 882-2843
arcem@missouri.edu

Political science is concerned with government, politics and public policies. In political science courses, students learn how government operates and how to analyze and evaluate public policies and political ideas. This training can help students be more effective as active citizens, as political leaders and as government administrators.

Many political science graduates attend law school or graduate school in political science, public administration, business administration, the social sciences, and other subjects. Others are employed in governmental or political jobs as legislative assistants, military officers or lobbyists, and more go into business or private employment. Many public officials and government administrators have political science degrees.

Courses in political science help students learn to think critically, analyze complex material and communicate effectively. Political science classes require extensive writing assignments, and majors are given many opportunities to hone their writing skills.

The department offers BA, MA and PhD degrees with majors in Political Science.

Faculty

Affiliate Professors C. N. Conklin*, L. R. Keiser*, J. D. Milyo*, M. A. Stegmaier*

** Graduate Faculty Member - membership is required to teach graduate-level courses, chair master’s thesis committees, and serve on doctoral examination and dissertation committees.

* Doctoral Faculty Member - membership is required to chair doctoral examination or dissertation committees. Graduate faculty membership is a prerequisite for Doctoral faculty membership.

Undergraduate

• BA in Political Science (p. 282)
• Minor in Political Science (p. 284)

Departmental Requirements

Students complete a graduation plan, usually at the end of the sophomore year or beginning of the junior year. They should prepare for political science courses by completing university (p. 33) and College of
Arts and Science foundation requirements, including university general education (p. 34).

Students must complete the following classes with letter grades in the C range or better to file a graduation plan:
- POL_SC 1100 or an equivalent course
- ENGLISH 1000 or an equivalent course
- MATH 1100 followed by a mathematics or statistics course (STAT 1200 will count)
- An analytical course e.g. SOCIOL 1000, PSYCH 1000, ECONOM 1014, PHIL 1000 or PHIL 1200
- POL_SC 3000

Students are required to complete 30 credits in political science. Fifteen of the 30 must be numbered 4000 or above.

Internships
The Political Science Department offers internship course credit for work in a variety of governmental settings, including work with state legislators, administrative agencies, lobbyists, members of Congress, statewide elected officials, and state political parties. Seniors in good standing with a GPA of 2.67 and juniors in good standing with a GPA of 3.0 who have completed appropriate coursework are eligible to apply. No more than 3 internship credit hours may be included in the 30 hours required for the major.

Departmental Honors
Students who have honors eligibility and a 3.5 GPA may enter the departmental honors program. Students who successfully complete a senior honors paper with a letter grade in the “B” range or better will have the phrase “with Honors in Political Science” added to their diplomas. Each year many political science honors students are selected for Phi Beta Kappa, Mortar Board, Golden Key and other scholastic honoraries.

Students who plan to enter graduate school are encouraged to enter the departmental honors program and to speak with a faculty member early in their academic career. Some areas of graduate study require significant preparation in language, statistics and methodology.

Graduate
- MA in Political Science (p. 284)
  - with emphasis in Public Policy (p. 284)
- PhD in Political Science (p. 284)

College of Arts and Science
113 Professional Building
(573) 882-2062
gradpolscl@missouri.edu
http://politicscience.missouri.edu/

Director of Graduate Studies: Stephen Quackenbush

The department emphasizes both quality teaching and research. Several faculty members have received awards and prizes for teaching excellence and innovative research. The department aims to train people as experts in the study of politics and government, while encouraging students to acquire a sufficient background in other disciplines to enable them to correlate their specialized knowledge with all aspects of modern life.

Careers
The MA can serve multiple career goals: community-college teaching, continuation of studies to the PhD, entrance into and advancement in public service, or acquisition of skills for a position in the private sector.

Alumni with PhDs have received teaching appointments at public and private colleges as well as positions of responsibility in state and national government in the United States and in many foreign countries. In recent years, an average of five students a year entered the PhD job market. Approximately eighty percent of the PhD graduates became college teachers. Most of the remainder went into public service and a few into the private sector. Six departmental alumni have become college presidents.

Financial Aid from the Program
Applications for admission and financial aid are considered on the basis of the entire packet submitted. Students may apply for departmental teaching and research assistantships and fellowships, as well as university scholarships and fellowships. Many of our students are supported by departmental assistantships providing a stipend and course tuition waivers. Consult the program website or ask the program contact for details.

Satisfactory Progress
A graduate student must maintain a minimum 3.0 GPA after the first semester of graduate study and a 3.4 cumulative GPA in all subsequent semesters. A student should complete and pass required courses, activities, and examinations on schedule. The student’s advisor and the director of graduate studies will monitor and provide an annual assessment of a student’s progress. Failure to maintain satisfactory progress can have serious consequences, including dismissal from the program.

BA in Political Science

Degree Program Description
Political science is concerned with government, politics and public policies. In political science students learn how government operates and how to analyze and evaluate public policies and political ideas. This training can help students be more effective as active citizens, as political leaders and as government administrators. The curriculum offers opportunities to link academic study with internships and study abroad. Political Science graduates pursue many careers, some related to politics, but many others pursue other paths in a wide variety of areas such as: law, business and finance, consulting, government, public relations, media, advertising, lobbying, and international relations.

Major Program Requirements
Students must complete the University of Missouri’s general education requirements, University graduation requirements (p. 33) and the Departmental Requirements (p. 281), in addition to the degree requirements below.

All majors must take:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>POL_SC 1100</td>
<td>American Government</td>
</tr>
<tr>
<td>POL_SC 3000</td>
<td>Introduction to Political Research</td>
</tr>
</tbody>
</table>
American politics/public policy (at least two courses required)

- POL_SC 2600 Canadian Politics and Government
- POL_SC 2700 Comparative Political Systems
- POL_SC 2720 European Democracies
- POL_SC 4600 Latin American Politics
- POL_SC 4610 European Political Systems
- POL_SC 4670 The Political System of the European Union
- POL_SC 4680 Chinese Politics and Foreign Policy
- POL_SC 4720 Politics of Development
- POL_SC 4730 Women and Politics
- POL_SC 4750 Power and Money
- POL_SC 4770 Comparative Political Behavior
- POL_SC 4780 Dictatorship and Democracy

International affairs (at least one course required)

- POL_SC 1400 International Relations
- POL_SC 4410 Politics and War
- POL_SC 4411 Genocide, Terrorism and Civil War
- POL_SC 4412 Strategy and Warfare
- POL_SC 4420 Politics of International Economic Relations
- POL_SC 4440 International Organization
- POL_SC 4540 American Foreign Policies

Political theory/methodology (one course highly recommended, but not required)

- POL_SC 2800 Liberty, Justice and the Common Good
- POL_SC 2860 American Political Thought
- POL_SC 4000 Introductory Statistics for Political Science
- POL_SC 4010 Computing Methods
- POL_SC 4800 Classical Political Theory
- POL_SC 4830 Democracy in America (and Elsewhere)

American politics/public policy (at least two courses required)

- POL_SC 2100 State Government
- POL_SC 2200 The Judicial Process
- POL_SC 4100 Political Parties and Election Campaigns
- POL_SC 4110 Political Behavior
- POL_SC 4120 Politics and the Media
- POL_SC 4130 African-American Politics
- POL_SC 4140 Congress and Legislative Policy
- POL_SC 4150 The American Presidency
- POL_SC 4160 Interest Groups
- POL_SC 4170 Politics of the American South
- POL_SC 4180 Politics and Hollywood
- POL_SC 4200 The American Constitution
- POL_SC 4210 Constitutional Rights
- POL_SC 4230 Constitution and Civil Liberties
- POL_SC 4310 Comparative State Politics
- POL_SC 4320 Public Policy
- POL_SC 4370 The Administrative State, Public Policy and Constitutional Democracy
- POL_SC 4380 Politics of Criminal Justice

---

**Options**

For students who want to concentrate on a specific area, suggestions for a course of study are available from the academic advisor. These include:

- Government service for students who want to become government administrators
- Public information and reporting for students who plan to be governmental press secretaries, public information specialists, interest group lobbyists or government reporters
- International relations for students who want to work for multinational corporations or international agencies
- Graduate school preparation
- Law school preparation

**Semester Plan**

Below is a sample plan of study, semester by semester. A student's actual plan may vary based on course choices where options are available.

**First Year**

*Course meets degree program requirements
Course meets University general education and/or campus graduation requirements

**Minor in Political Science**

To earn a minor in political science, students must complete 15 credits, including the following:

- **POL_SC 1100**, American Government (3) or an equivalent course
- Additional political science courses totaling 12 credits with at least 6 at the 4000 level
- No more than 3 internship credits may be included and will not count as a 4000 level
- Nine credits must be in residence including 6 at the 4000 level
- A grade of C- or better is required of all political science classes in either a minor or a major with an overall GPA of 2.0 or greater.

**MA in Political Science**

**Admission Contact Information**

Graduate Studies Office  
113 Professional Bldg.  
Columbia, MO 65211  
(573) 882-2062  
gradpolsci@missouri.edu

**Admission Criteria**

Admission into the MA program is determined by the graduate committee’s consideration of the applicant’s academic record, personal statement, letters of recommendation, and the GRE general test.

Fall deadline: December 15
- Minimum TOEFL scores for international applicants: 89
- Minimum GPA: 3.0 overall, in last 60 hours, and in political science courses.
- 12 hours of upper-division course work in political science is recommended.
- An undergraduate major in an area other than political science may be acceptable.

**Required Application Materials**

- Office of Graduate Studies online application
- One to two page statement of purpose, describing interests and goals in graduate study in Political Science
- Three letters of recommendation
- Unofficial transcripts from all universities from which degrees were earned (official transcripts required upon admission)
- Official results from the Graduate Record Examination (GRE)
- Academic writing sample
- Test of English as a Foreign Language (TOEFL) scores (for international students)

**MA Degree Completion Requirements**

All MA students must complete POL_SC 7000, POL_SC 7010, and POL_SC 9030. Each candidate must take one graduate seminar (8000 level or above) in each of two fields. Fields include: American political institutions and behavior, comparative politics and government, international relations, and public policy and administration.

The master’s degree program culminates in a comprehensive oral examination and defense of the research project. The Master of Arts degree may be earned by completing either the thesis or the non-thesis program.

**Thesis Option**

Students wishing to advance from the master’s program to the PhD program at MU must take the thesis option. The thesis program requires 30 hours of academic credit (at least 18 in 8000-level or above Political Science seminars) and an acceptable thesis for which up to six semester hours of credit must be earned (POL_SC 8090).

**Non-Thesis Option**

The non-thesis program is a 30-hour generalist master of arts. It requires a student to take at least 30 hours of academic credit (at least 18 in 8000-level or above Political Science seminars) and to write a master’s paper for which up to three hours of credit must be earned (POL_SC 8085).

**Satisfactory Progress**

A master’s student should maintain a minimum 3.0 GPA after the first semester and a 3.4 cumulative GPA in subsequent semesters. The MA program must be completed within five years of the first semester of enrollment. Most students complete the master’s program within two years.

**MA in Political Science with Emphasis in Public Policy**

The Department of Political Science is no longer accepting applications to the MA with emphasis in Public Policy degree program. We are accepting applications to the MA in Political Science program (p. 284).

**PhD in Political Science**

**Admission Contact Information**

Graduate Studies Office  
113 Professional Bldg.  
Columbia, MO 65211  
(573) 882-2062  
gradpolsci@missouri.edu

**Admission**

Admission into the PhD program is determined by the graduate studies committee’s consideration of the applicant’s academic record, personal statement, letters of recommendation, and the GRE.

**Admission Criteria**

Fall deadline: December 15
- Minimum TOEFL score for international students: 89
- Minimum GPA: 3.0 overall, in last 60 hours, and in political science courses
- 12 hours of upper-division course work in political science is recommended.
Required Application Materials

- Office of Graduate Studies online application
- One to two page statement of purpose, describing interests and goals in graduate study in Political Science
- Three letters of recommendation
- Unofficial transcripts from all universities from which degrees were earned (official transcripts required upon admission)
- Official results from the Graduate Record Examination (GRE)
- Academic writing sample
- Test of English as a Foreign Language (TOEFL) scores (for international students)

PhD Degree Completion Requirements

A student's doctoral program must include at least 45 hours of graduate seminars, exclusive of comprehensive exams and dissertation research. At the discretion of the student's doctoral program committee, up to 30 hours of an MA program may be included in the PhD program.

Plan of Study

Students choose a primary and secondary field from the four doctoral fields: American political institutions and behavior, comparative politics and government, international relations, and public policy and administration. Graduate courses must include:

- A minimum of 12 seminar hours in the primary (research) field
- A minimum of nine seminar hours in a secondary field supporting the primary field
- A minimum of 13 hours in a methodology or research tool field. Required courses include POL_SC 7000, POL_SC 7010, and POL_SC 9030.
- The remaining six hours in the methodology field may be in advanced formal or quantitative methods, advanced foreign language, or a combination of the two.

Besides completing the necessary course work, the candidate must demonstrate the capacity to use a research tool (such as a foreign language or statistics), should obtain some teaching experience in political science (for academic careers), must pass written and oral comprehensive examinations, must submit and defend a dissertation proposal, and must submit and defend a dissertation.

Length of Study

All required courses and the comprehensive examination must be completed within five years of the first semester in the graduate program. The dissertation must be completed and defended within five years of passing the comprehensive examination.

The PhD usually requires five years full time or the equivalent in part-time work beyond the bachelor's degree and four years beyond the master's degree. Full-time students (including teaching and research assistants) must carry a minimum of nine credit hours of courses per semester (except for students conducting dissertation research).

Timeline

The first five semesters of doctoral study typically include course work and preparation for the comprehensive examinations. Comprehensive exams (POL_SC 9970) are typically taken in the spring of the third year.

A proposal for dissertation research is defended within a few months of the comprehensive exams. The remaining time is devoted to dissertation research (POL_SC 9090).

Satisfactory Progress

A doctoral student must maintain a minimum 3.0 GPA after the first semester and a 3.4 cumulative GPA in subsequent semesters. Comprehensive exams and dissertation proposal must be completed within a timely fashion. Most students complete the doctoral program within five years.

Psychology

Dr. Jamie Arndt
College of Arts and Science
210 McAlester Hall
(573) 882-6860
http://psychology.missouri.edu

The faculty and staff of the Department of Psychological Sciences are committed to providing students with a high quality, broadly-based undergraduate education. Understanding that undergraduate students use the psychology major as preparation for a variety of postbaccalaureate experiences, the department is dedicated to offering a wide range of courses and services to students. While some students are interested in pursuing psychology-related interests in graduate school, most are interested in pursuing careers after graduating with a Bachelor of Arts (BA).

Regardless of a student’s ultimate goals, faculty members believe that students will be best served by completing a rigorous research-oriented program of study. Therefore, students should expect instructors to take a scientific approach to the psychological content of each course.

The department offers the BA and BS degrees with a major in Psychology, and the MA and PhD degrees with an emphasis in Clinical Psychology, Cognition & Neuroscience, Developmental Psychology, Quantitative Psychology, and Social & Personality Psychology. A minor in Quantitative Methods is also available.

Faculty

Assistant Professor, J. Craggs**, A. Groh**, L. Scherer**
Assistant Research Professor J. Bohaneck
Clinical Professor N. Presser*
Associate Clinical Professor M. Klein-Trull*, S. O’Neill*, J. Skinner*, E. Waller*
Associate Teaching Professor I. Segert*
Assistant Teaching Professor L. Bauer*, E. Naveh-Benjamin, M. Skaggs Sheldon,
Professor Emeritus W. Anderson, B. Biddle, R. Geen, J. LoPiccolo, D. Wright
Graduate Faculty Member - membership is required to teach graduate-level courses, chair master's thesis committees, and serve on doctoral examination and dissertation committees.

Doctoral Faculty Member - membership is required to chair doctoral examination or dissertation committees. Graduate faculty membership is a prerequisite for Doctoral faculty membership.

Undergraduate

- BA in Psychology (p. 286)
- BS in Psychology (p. 288)
- Minor in Psychology (p. 291)

Graduate

- MA in Psychology (p. 291)
- PhD in Psychology (p. 292)

* Please refer to the corresponding PhD programs for the MA emphasis areas indicated above. Students are only accepted for the PhD in Psychology and the MA is earned as a secondary degree en route to the PhD.

https://psychology.missouri.edu/grad/graduate-program

Director of Graduate Studies: Dennis K. Miller

About Psychological Sciences' Degrees

Most students accepted have an undergraduate major in psychology or its equivalent. Acceptance is based on training, quality of work, recommendations, GRE scores and other information. For additional information on admission requirements, consult Graduate Study in Psychology and Associated Fields, published annually by the American Psychological Association and available in most libraries.

More Information about Emphasis Areas

These programs and others are more fully described at the departmental website at http://psychology.missouri.edu.

Dual Emphases: Child Clinical and Developmental Psychology

Students in the Dual Emphasis Program pursue a graduate degree with training in both clinical (child track) and developmental psychology. Students in this program are involved in training that bridges the two areas of developmental psychology and child-clinical psychology.

BA in Psychology

Degree Program Description

The study of Psychology aims to understand the mind, behavior, and mental health. The Bachelor of Arts in Psychology (BA) degree is for students interested in studying human behavior in preparation for either employment after completion of the undergraduate psychology degree, or in preparation for applied psychology and other related graduate programs (e.g., counseling, social work, management). Regardless of a student’s ultimate goals, our faculty members believe that students will be best served by completing a rigorous research-oriented program of study. Therefore, students should expect their instructors to take a scientific approach to the particular psychological content of each course. Psychology majors work in diverse fields such as community and social services, human resources, management and business, health care, student affairs and services, law enforcement, education, and scientific research.

Major Program Requirements

To graduate with a Bachelor of Arts in Psychology in the College of Arts and Science, a student must complete all degree, college, and university graduation requirements (p. 33), including university general education (p. 34) as well as all degree and college or school requirements. Students are reminded to check the Undergraduate Catalog for course descriptions and prerequisite information.

Major Core Requirements

- The psychology major requires 30 credit hours in psychology coursework.
- All courses that count toward the psychology major requirements must be completed with a grade of C or better. Grades of C- or below will not be accepted. This includes STAT 1200 or its equivalent (a required course for all psychology majors).
- Students must complete MATH 1050 or MATH 1100 before STAT 1200 and PSYCH 3010, before PSYCH 3020, before the capstone lab. We make no exceptions to the research methods sequence requirements.
• Students must complete at least two psychology courses numbered 4000 or above. The Psychology capstone lab will meet one of these 4000-level courses.
• Students must complete at least one psychology course numbered 3000 or above that is designated Writing Intensive. The psychology capstone lab will meet the WI requirement if completed during the fall or spring semesters. Capstones are not WI in the summer sessions.
• No more than 43 psychology credits may count toward the required 120 credits to graduate. Students enrolled in the two-semester Honors Capstone only may use up to 49 psychology credits toward graduation.
• Students may use no more than 12 hours of Special Problems Courses, Special Readings Courses, or Internship Courses (PSYCH 2950, PSYCH 4940, PSYCH 4950 & PSYCH 4960 toward graduation. Within the 12 hours, no more than 9 hours may be Special Problems Courses. (i.e., psychology research credit hours). A student may complete either 6 hours of PSYCH 2950 and 3 hours of PSYCH 4950, or they may complete 3 hours of PSYCH 2950 and 6 hours of PSYCH 4950.
• Psych majors may have up to a total of 6 hours of PSYCH 4940.

Required courses
PSYCH 1000 General Psychology 3
STAT 1200 Introductory Statistical Reasoning 3

Research Methods sequence
PSYCH 3010 Research Methods in Psychology I 3
PSYCH 3020 Research Methods in Psychology II 3
Capstone course (psychology lab course) 3-6

Distribution Areas
Psychology majors are required to take one course from four of the five distribution areas. This ensures that students will have exposure to a wide range of psychological theory and research. In addition, students choose two additional Psychology courses to receive further education according to their interests. Although the distribution areas are presented below as distinct areas of study, a great deal of overlap exists among them. Students should understand the ways in which the various areas complement one another and gain the ability to integrate information learned in the different areas.

Learning/Cognition
This distribution area studies the mechanisms of the mind and how they are altered by experience. Courses in this distribution area include:

PSYCH 2110 Learning, Memory, and Cognition 3
PSYCH 3110 Theories of Learning 3
PSYCH 3140 Cognitive Psychology 3
PSYCH 3150 Human Memory 3
PSYCH 3160 Perception and Thought 3
PSYCH 4110 Perception 3

Biological/Neuroscience
This distribution area studies the biological basis of the behavior of humans and other animals. Courses in this distribution area include:

PSYCH 2210 Mind, Brain, and Behavior 3
PSYCH 2220 Drugs and Behavior 3
PSYCH 2810 Human Sexuality 3
PSYCH 3830 Health Psychology 3

PSYCH 4210 Physiological Psychology 3
PSYCH 4240 Cognitive Neuroscience 3

Note: A student may not receive credit for PSYCH 2210 if it is completed after PSYCH 4210.

Social/Personality
This distribution area employs scientific methods to understand the nature and causes of individuals’ thoughts, feelings and behavior in social situations. Courses in this distribution area include:

PSYCH 2310 Social Psychology 3
PSYCH 2320 Introduction to Personality 3
PSYCH 3350 Positive Psychology 3
PSYCH 3370 The Science of Mindfulness (Psych 3010 prerequisite) 3
PSYCH 4815 Cross-Cultural Psychology 3

Note: Due to overlap in content, a student may not receive credit for both PSYCH 3350 AND ESC_PS 4200.

Developmental
This distribution area studies the cultural and biological influences on age-related changes in cognition, emotion and social behavior that take place throughout an individual’s lifespan. Courses in this distribution area include:

PSYCH 2410 Developmental Psychology 3
PSYCH 3420 Cognitive Development in Childhood 3
PSYCH 3430 Social Development in Childhood 3
PSYCH 4440 Sex Differences 3

Note: Due to overlap in course content, a student may receive credit for only one of the following three courses: PSYCH 2410, H_D_FS 3420 or ESC_PS 2500.

Clinical/Abnormal
This distribution area focuses on scientific study of the causes of mental disorders as well as methods for assessing and alleviating mental health problems and related types of maladjustment. It also is concerned with the study of mental health and wellness, including strategies for preventing the development of mental disorders. Courses in this area include:

PSYCH 2510 Survey of Abnormal Psychology 3
PSYCH 2830 Human-Companion Animal Interaction 3
PSYCH 3510 Introduction to Clinical Psychology 3
PSYCH 4520 Behavior Genetics (Prerequisite of Psych 3010 and Stat 1200 with a C or better) 3
PSYCH 4530 Research in Psychopathology 3
PSYCH 4540 Emotional Disorders in Childhood and Adolescence 3
PSYCH 4560 Schizophrenia 3
PSYCH 4570 Pediatric Neuropsychology 3
PSYCH 4580 Externalizing Spectrum Disorders 3

Psychology Electives (2000-level) 6 credit hours
Students must complete two psychology elective courses numbered 2000 or above, excluding Special Problems/Readings (i.e., PSYCH 2950,
PSYCH 4950, PSYCH 4960), Internship PSYCH 4940, and Capstone Labs.

### Semester Plan

Below is a sample plan of study, semester by semester. A student’s actual plan may vary based on course choices where options are available. Psychology majors are required to earn a C or higher (no C- or below) in all Psychology courses and STAT 1200.

#### First Year

* Course meets degree program requirements
+ Course meets University general education and/or campus graduation requirements

### Degree Program Description

The study of Psychology aims to understand the mind, behavior, and mental health. The Bachelor of Science in Psychology (BS) degree is for students interested in a more science-oriented curriculum to better prepare them for further study in science-oriented psychology graduate programs (e.g., neuroscience, quantitative psychology), or medical school (e.g., Doctor of Medicine/MD, psychiatry), or other health-related graduate programs (e.g., pharmacy, physical therapy). The required science track is not noted on the BS diploma or transcripts, but students can indicate the science track on resumes and/or graduate school application forms. Regardless of a student’s ultimate goals, our faculty members believe that students will be best served by completing a rigorous research-oriented program of study. Therefore, students should expect their instructors to take a scientific approach to the particular psychological content of each course. While most psychology majors plan to find employment upon graduation with the undergraduate psychology degree, some psychology majors plan to pursue further study in psychology-related graduate or professional programs. Psychology majors work in diverse fields such as community and social services, human resources, management and business, health care, student affairs and services, law enforcement, education, and scientific research.

### Major Program Requirements

To graduate with a Bachelor of Science in Psychology from the College of Arts and Science, a student must complete all degree, college and university graduation requirements (p. 33), including university general education (p. 34) as well as all degree and college or school requirements. Students are reminded to check the Undergraduate Catalog for course descriptions and prerequisite information.

### Major Core Requirements

- The psychology major requires 30 credit hours in psychology coursework.
- All courses that count toward the psychology major requirements must be completed with a grade of C or better. Grades of C- or below will not be accepted. This includes STAT 2500 and the required science track.
- The statistics requirement is fulfilled by taking either (a) STAT 1200 and STAT 2200 or (b) STAT 2500.
- Students must complete MATH 1100 before STAT 1200. Students taking STAT 2500 must complete an additional pre-requisite math course of MATH 1300, MATH 1400 or MATH 1500.
- Students must complete STAT 1200 or STAT 2500 before or during the same semester as PSYCH 3010.
- Students must complete PSYCH 3010 before PSYCH 3020 which must be completed before the Psych Capstone Lab course. We do not make exceptions to the research methods sequence requirements.
- Students must complete at least two psychology courses numbered 4000 or above. The Psychology Capstone Lab will meet one of these 4000-level courses.
- Students must complete at least one psychology course numbered 3000 or above that is designated Writing Intensive (WI). The
Psychology Capstone Lab will meet the WI requirement if completed during the fall or spring semesters. Capstones are not WI in the summer sessions.

- Students may use no more than 12 hours of Special Problems Courses, Special Readings Courses, or Internship Courses (PSYCH 2950, PSYCH 4940, PSYCH 4950, & PSYCH 4960) toward graduation. Within the 12 hours, no more than 9 hours may be Special Problems Courses (i.e., psychology research credit hours). A student may complete either 6 hours of PSYCH 2950 and 3 hours of PSYCH 4950, or they may complete 3 hours of PSYCH 2950 and 6 hours of PSYCH 4950.
- Psych majors may have up to a total of 6 hours of PSYCH 4940.
- Other than the 12 hour limit of Special Problems Courses, Special Readings Courses, and Internship hours described above, there is no limit to the number of psychology credits that may count toward the required 120 credits to graduate with the Bachelor of Science.

Total Credits: 120-126

^ Course meets degree program requirement.
* Course meets University General Education and/or campus graduation requirement.
+ Course meets College of Arts & Science foundation (Basic Skills)

MA in Psychology

Our department is admitting students who are seeking a terminal master's degree only for our MA with an emphasis in Quantitative Psychometrics (p. 292). All other students are only accepted for the PhD in psychology and the MA is earned as a secondary degree en route to the PhD.

Please see the admission criteria for our doctoral degree program.

Admissions

Please refer to the admission requirements for the PhD program with an Emphasis in Child Development and Developmental Psychology. (p. 293) Students are only accepted for the PhD in Psychology and the MA is earned as a secondary degree en route to the PhD.

MA in Psychology with Emphasis in Child Development and Developmental Psychology

Please refer to the PhD program with an Emphasis in Child Development and Developmental Psychology. (p. 293) Students are only accepted for the PhD in Psychology and the MA is earned as a secondary degree en route to the PhD.

MA in Psychology with Emphasis in Clinical Psychology

Please refer to the PhD program with an Emphasis in Clinical Psychology. (p. 293) Students are only accepted for the PhD in Psychology and the MA is earned as a secondary degree en route to the PhD.
Admissions

Please refer to the admission requirements for the PhD program with an Emphasis in Clinical Psychology (p. 293). Students are accepted for the PhD in Psychology and the MA is earned as a secondary degree en route to the PhD.

MA in Psychology with Emphasis in Cognition and Neuroscience

Please refer to the PhD program with an Emphasis in Cognition and Neuroscience (p. 294). Students are only accepted for the PhD in Psychology and the MA is earned as a secondary degree en route to the PhD.

Admissions

Please refer to the admission requirements for the PhD program with an Emphasis in Cognition and Neuroscience (p. 294). Students are only accepted for the PhD in Psychology and the MA is earned as a secondary degree en route to the PhD.

MA in Psychology with Emphasis in Developmental Psychology

Please refer to the PhD program with an Emphasis in Developmental Psychology (p. 294). Students are only accepted for the PhD in Psychology and the MA is earned as a secondary degree en route to the PhD.

Admissions

Please refer to the admission requirements for the PhD program with an Emphasis in Developmental Psychology (p. 294). Students are only accepted for the PhD in Psychology and the MA is earned as a secondary degree en route to the PhD.

MA in Psychology with Emphasis in Quantitative Psychometrics

A minimum of 35 hours of graduate-level courses is required for the M.A. in Psychology with an emphasis in Quantitative Psychometrics. Students must complete 30 hours of advanced study at the University of Missouri to receive the degree. This means that a maximum of six hours of graduate coursework taken elsewhere can count toward the master’s degree. Such transfer of credit must be recommended by the student's advisor and approved by the director of graduate studies.

Admissions

Applicants are required to meet two sets of minimum qualifications for admission: the requirements of the MA in Psychology program with an emphasis in Quantitative Psychometrics (https://gradstudies.missouri.edu/degreecategory/psychology) and the minimum requirements of the Office of Graduate Studies (https://gradstudies.missouri.edu/admissions/eligibility-process). Because requirements vary, you must refer to a degree program’s graduate admission page to learn about specific admission criteria, application deadlines, eligibility and application process. Before official admissions to the University of Missouri, your application materials will be reviewed by both the Office of Graduate Studies and the degree program to which you’ve applied.

MA in Psychology with Emphasis in Social/Personality Psychology

Please refer to the PhD program with an Emphasis in Social & Personality Psychology (p. 295). Students are only accepted for the PhD in Psychology and the MA is earned as a secondary degree en route to the PhD.

Admissions

Please refer to the admission requirements for the PhD program with an Emphasis in Social & Personality Psychology (p. 295). Students are only accepted for the PhD in Psychology and the MA is earned as a secondary degree en route to the PhD.

Admission Criteria
Fall deadline: December 1

• Minimum GPA: 3.0
• Minimum GRE score: no minimum, subject test is strongly recommended
• Minimum TOEFL scores:

<table>
<thead>
<tr>
<th>Internet-based test (iBT)</th>
<th>Paper-based test (PBT)</th>
</tr>
</thead>
<tbody>
<tr>
<td>Effective July 1, 2015 must have a score of 80</td>
<td>Effective July 1, 2015 must have a score of 550</td>
</tr>
</tbody>
</table>

An interview is required for admission. Students earn an MA en route to the PhD, but we do not admit students seeking a terminal master’s degree.

Most students accepted have an undergraduate major in psychology or its equivalent. Acceptance is based on training, quality of work, recommendations, GRE scores and other information. For additional information on admission requirements, consult Graduate Study in Psychology and Associated Fields, published annually by the American Psychological Association and available in most libraries.

Required Application Materials

Note: Submit all application materials directly to the Office of Graduate Studies

• Graduate School online application including:
  • Faculty interest document (available at department website)
  • Statement of purpose
  • Writing sample
  • Three letters of recommendation
PhD Degree Completion Requirements

The PhD qualifying examination requirement is satisfied by successful completion of the MA degree. A master’s degree with an empirical thesis is required for doctoral study. The master’s with thesis is typically completed as part of a student’s normal progress through the doctoral program.

Students with Degrees from Other Universities

Students who enter the doctoral program with a master’s (thesis) degree from another university can satisfy the MA requirement at this university by having their thesis and course work approved by a three-member thesis committee. The committee must be composed of one faculty member from the student’s training area, one faculty member from another training area, and one MU faculty member from outside the department. Those entering the department with a master’s degree obtained without an empirical thesis may meet this requirement by conducting an investigation under the supervision of their advisor and having the resulting thesis approved by a three-member committee with the composition identified above.

Plan of Study

General requirements for the PhD include nine hours of distribution courses, 11 hours in statistics, 24 hours in the area of concentration, other elective courses, and research. Students must earn 83 hours to graduate with the PhD. Practica, internship and additional course work are required for the clinical program. Other requirements include a dissertation and comprehensive and final oral examinations. More detailed information about the rules and regulations for degree completion can be found in the Department of Psychological Sciences Graduate Student Handbook.

Financial Aid from the Program

Financial aid is available through departmental research and teaching assistantships and from university fellowships.

PhD in Psychology with Emphasis in Clinical and Developmental Psychology

Students in the Dual Emphasis Program pursue a graduate degree with training in both clinical (child track) and developmental psychology. This program provides training in the area of developmental psychopathology, which bridges the two areas of developmental psychology and child-clinical psychology. To pursue the joint program, students must be officially admitted into both the clinical and developmental training areas within the Department of Psychological Sciences and complete requirements for both areas. Students should initially apply and be admitted to just one training area, either the clinical or developmental area. Once they have successfully completed the first year in that training area, they may apply to the second area.

Admissions

Applicants are required to meet two sets of minimum qualifications for admission: the requirements of the PhD in Psychology program (https://gradstudies.missouri.edu/degreecategory/psychology) and the minimum requirements of the Office of Graduate Studies (http://gradstudies.missouri.edu/admissions/eligibility-process/minimum-requirements.php). Because requirements vary, you must refer to a degree program’s graduate admission page to learn about specific admission criteria, application deadlines, eligibility and application process. Your application materials will be reviewed by both the Office of Graduate Studies and the degree program to which you’ve applied before official admission to the University of Missouri.

PhD in Psychology with Emphasis in Clinical and Quantitative Psychology

Students in the Dual Emphasis Program pursue a graduate degree with training in both clinical and quantitative psychology. This program bridges the two training areas, combining intensive training in the area of quantitative psychology with the added benefit of intensive training in the research and practice of clinical psychology. To pursue the joint program, students must be officially admitted into both the clinical and quantitative training areas within the Department of Psychological Sciences and complete the requirements for both areas.

Admissions

Applicants are required to meet two sets of minimum qualifications for admission: the requirements of the PhD in Psychology program (https://gradstudies.missouri.edu/degreecategory/psychology) and the minimum requirements of the Office of Graduate Studies (http://gradstudies.missouri.edu/admissions/eligibility-process/minimum-requirements.php). Because requirements vary, you must refer to a degree program’s graduate admission page to learn about specific admission criteria, application deadlines, eligibility and application process. Before official admissions to the University of Missouri, your application materials will be reviewed by both the Office of Graduate Studies and the degree program to which you’ve applied.
prevention of many of our nation’s most distressing and impairing mental/behavioral health issues (e.g., addictions, anxiety, developmental disorders, juvenile delinquency, mood instability and disorders, schizophrenia) in youth and adults. Students work primarily with core clinical faculty, but may also collaborate with researchers throughout the department and in other campus and community units (e.g., health psychology, Psychiatry, engineering, Thompson Center for Autism and Developmental Disabilities, Fulton State Hospital, Psychological Services Clinic).

Students also develop clinical skills in empirically supported approaches to assessment, prevention and intervention. The Clinical program maintains its own community-based outpatient clinic (the Psychological Services Clinic or PSC) as the primary practicum training site for students in the clinical program. The PSC is staffed by doctoral-level clinical psychologists and clinical graduate students, and it serves a broad range of clients through individual, couple, family, and group assessment and therapy services. The PSC also offers training in specialty services through it’s Dialectical Behavior Therapy program, Strategies Targeting Alcohol Responsibility program, and MU Center for Evidence-Based Youth Mental Health and Multisystemic Therapy program. Additional clinical experiences are available through paid or volunteer positions at institutions such as Fulton State Hospital, University Hospitals and Clinics, and the Thompson Center.

After completing high quality internships, typically at medical centers, VAs, or university research centers, graduates are employed in positions that involve research, teaching and service in universities, medical centers, clinics, hospitals and similar agencies.

Admissions

Applicants are required to meet two sets of minimum qualifications for admission: the requirements of the PhD in Psychology program (https://gradstudies.missouri.edu/degrecategory/psychology) and the minimum requirements of the Office of Graduate Studies (http://gradstudies.missouri.edu/admissions/eligibility-process/minimum-requirements.php). Because requirements vary, you must refer to a degree program’s graduate admission page to learn about specific admission criteria, application deadlines, eligibility and application process. Before official admissions to the University of Missouri, your application materials will be reviewed by both the Graduate School and the degree program to which you’ve applied.

PhD in Psychology with Emphasis in Cognition and Neuroscience

The faculty and students in the Cognition and Neuroscience Training Area explore the interactions among mind, brain and behavior from individual and biological levels of analysis. Graduate training provides students with a thorough background in psychology, statistics and scientific methodology, through course work and participation in ongoing research. Students are expected to be actively engaged in faculty-mentored and independent research projects throughout their training.

Faculty and students in cognition and neuroscience investigate a variety of topics in human cognition, cognitive neuroscience, learning and memory, and behavioral neuroscience and use human and animal models. Our researchers investigate the structure and function of the nervous system and its impact on behavior in brain imaging, psychophysiology and neuropharmacology experiments. Studies survey human memory, intelligence and sensorimotor function across the lifespan and the impact of physical and psychological disorders on these processes. Animal research examines motivation, learning and the biological basis of human psychopathologies.

Admissions

Applicants are required to meet two sets of minimum qualifications for admission: the requirements of the PhD in Psychology program (https://gradstudies.missouri.edu/degrecategory/psychology) and the minimum requirements of the Graduate School (http://gradschool.missouri.edu/admissions/eligibility-process/minimum-requirements.php). Because requirements vary, you must refer to a degree program’s graduate admission page to learn about specific admission criteria, application deadlines, eligibility and application process. Before official admissions to the University of Missouri, your application materials will be reviewed by both the Graduate School and the degree program to which you’ve applied.

PhD in Psychology with Emphasis in Developmental Psychology

Developmental psychology is the scientific study of social, cognitive, and physical development over time. The Developmental Psychology doctoral program offers a strong background in statistics and research methodology and intensive research mentoring. Graduate students engage in research with their primary advisor beginning in their first semester in the program and take supporting coursework.

Admissions

Applicants are required to meet two sets of minimum qualifications for admission: the requirements of the PhD in Psychology program (https://gradstudies.missouri.edu/degrecategory/psychology) and the minimum requirements of the Graduate School (http://gradschool.missouri.edu/admissions/eligibility-process/minimum-requirements.php). Because requirements vary, you must refer to a degree program’s graduate admission page to learn about specific admission criteria, application deadlines, eligibility and application process. Before official admissions to the University of Missouri, your application materials will be reviewed by both the Graduate School and the degree program to which you’ve applied.

PhD in Psychology with Emphasis in Quantitative Psychology

The goal of the PhD program with emphasis in quantitative psychology is to produce researchers who are able to develop, evaluate, and apply advanced methodological techniques to psychological research questions. The program offers considerable diversity in faculty research and coursework offerings; our substantive interests span clinical, social, health, developmental, and cognitive psychology. Quantitative areas of expertise cover a range of linear and non-linear approaches to modeling, as well as meta-analysis, time series, state-space models, and issues in large-scale data management.
Students in quantitative psychology complete coursework in mathematical statistics, experimental design, and measurement, as well as courses in quantitative methods. Students can acquire extensive experience as statistical consultants through specific coursework in statistical consultation. Program requirements are fairly flexible, and students with particular interests in a substantive area of psychology are encouraged to take advanced courses in that area. Quantitative course offerings focus both on classic analytic methods as well as advanced techniques such as structural equation modeling, multilevel modeling, and meta-analysis.

Strong ties exist between the Department of Psychological Sciences and the Department of Statistics, and students may opt to complete a master’s degree in statistics as they progress through the PhD program. In addition, students have the opportunity to gain experience as statistical consultants through specific coursework in this area.

On-going projects conducted by the faculty include research in meta-analytic and secondary analysis techniques, structural equation modeling, particularly as applied to longitudinal models of change and growth, multilevel modeling, and mathematical and statistical models of cognition and perception.

Admissions

Applicants are required to meet two sets of minimum qualifications for admission: the requirements of the PhD in Psychology program (https://gradstudies.missouri.edu/degreecategory/psychology) and the minimum requirements of the Graduate School (http://gradschool.missouri.edu/admissions/eligibility-process/minimum-requirements.php). Because requirements vary, you must refer to a degree program’s graduate admission page to learn about specific admission criteria, application deadlines, eligibility and application process. Before official admissions to the University of Missouri, your application materials will be reviewed by both the Graduate School and the degree program to which you’ve applied.

PhD in Psychology with Emphasis in Social/Personality Psychology

Social/Personality psychology offers training in the traditional areas of social and personality psychology, as well as their relevance for several applied areas including health psychology. This Social/Personality area integrates the psychology of the person and the situation, with the goal of understanding the psychological processes that underlie people’s emotions, motivations, beliefs, actions, and decisions.

Training focuses on the multi-faceted view of social behavior from three levels:

1. the individual level;
2. the contextual level (or social level); and
3. the interaction of the individual and the contextual levels.

All three levels are vital to fully understanding human psychology. Particular research foci in the area include the sources of motivation, both individual and social; the nature of meaning-making, both existential and interpersonal; the determinants of optimal and destructive functioning, both within and between groups and in relationships; and the causes and consequences of psychological well-being, growth, and defense.

Public Affairs

Public Affairs Graduate Programs
Harry S Truman School of Public Affairs
101 Middlebush Hall, Columbia, Missouri 65211

Email: truman@missouri.edu
Website: truman.missouri.edu

Established by the University of Missouri Board of Curators in May 2001, the Harry S Truman School of Public Affairs is dedicated to the advancement of study and practice of governance in the state, nation and world. The School offers graduate degrees and certificates in the theory and practice of public and nonprofit management, public policy, and organizational change.

In keeping with Harry S Truman’s legacy, TSPA has numerous international linkages. Truman School students and alumni have served as Peace Corps volunteers, United Nations internships, in the US State Department, other national consulates or embassies in Washington, and international non-government organizations (NGOs) such as the Red Cross/Red Crescent. Truman School faculty members participate in international projects in Europe, Asia, Africa, and South America. Scholars from Europe, Asia, and other parts of the world regularly visit the Truman School, helping to inform curriculum and classroom discussions.

About the Study of Public Affairs

The Harry S Truman School of Public Affairs offers certificates, master’s and doctoral degrees in the theory and practice of public and nonprofit management, public policy, and organizational change. MPA students are prepared for careers in a new public service that spans government, nonprofit, and private sectors. PhD students are trained for careers in academic and research institutions.

Faculty

Associate Professor: B. Curs**, S. Diem*, J. Kapp*, C. Koedel**, B. Naughton*
Associate Professor Emeritus: C. Sampson
Associate Research Professor: J. Scott*
Assistant Research Professor: C. Fulcher*
Assistant Teaching Professor: A. Hull*, K. Miller*
Visiting Assistant Teaching Professor: C. Duncan*
Assistant Extension Professor: R. Russell*

* Graduate Faculty Member - membership is required to teach graduate-level courses, chair master's thesis committees, and serve on doctoral examination and dissertation committees.
** Doctoral Faculty Member - membership is required to chair doctoral examination or dissertation committees. Graduate faculty membership is a prerequisite for Doctoral faculty membership.

Undergraduate
While MU does not offer undergraduate degrees specifically in public affairs, the University does offer baccalaureate opportunities in a number of related areas in the other Schools and Colleges that make up the University. The catalog provides a complete list of these degree options (p. 18).

Public Management Graduate Certificate (p. 346)
Public Policy Graduate Certificate (p. 346)

MPA in Public Affairs
MU Truman School of Public Affairs students study with outstanding faculty, who are talented teachers as well as active, nationally recognized scholars. Policy forums, round-tables with policy makers, lectures by distinguished visiting scholars, and research symposia also enrich student learning. Small classes taught both on campus and in Jefferson City, the state’s capital, make for a lively learning environment. The Truman School MPA program provides a balance of public service values, interpersonal and analytic skills, and a thorough knowledge of administrative and policy processes.

Degree Requirements
Consisting of 45 hours of graduate work, the MPA program includes a core (27 hours), an area of specialization (15 hours) and an internship (3 hours). The areas of specialization are Nonprofit and Public Management, and Public Policy.

Students with significant public service experience may have some courses waived, making the MPA program 33 hours for them. The MPA’s Mid-Career option is available to students with 3-5 years of public service experience.

Internship
During the summer after their first year in the program, students without significant public sector work experience are required to complete a public service internship. Interns apply what they have learned during the first year in the program, plus they gain practical experience that enables deeper learning during second-year classes.

Application and Admission Information
Admission to the Master of Public Affairs Program
101 Middlebush Hall, Columbia, Missouri 65211
573-884-1656
Truman@missouri.edu

Admission Criteria
Fall deadline: Applications are reviewed on a rolling basis, with priority funding consideration given to those applications received by January 15.
Spring deadline: Priority admission consideration is given to applications received by November 15

- Minimum GPA: 3.0 in last 60 hours
- Minimum TOEFL scores:
  - iBT: 80
  - CBT: 213
  - PBT: 550
- Minimum preferred GRE scores:
  - Prior to August 2012: 1000 (combined)
  - After August 2012: 300 (combined)

Admission to the MPA program is competitive and open to students holding baccalaureate degrees from accredited institutions and meeting admissions standards of the Truman School of Public Affairs and the Graduate School.

Required Application Materials

To the Office of Graduate Studies:
- All required Graduate Admissions documents (http://gradstudies.missouri.edu/admissions/eligibility-process)

To the Truman School MPA Program:
- 3 letters of recommendation (at least two academic-focused)
- GRE score report (GRE alternatives accepted: LSAT and GMAT scores will be considered). Not required for Mid-Career applicants
- Résumé
- Statement of Interest
- Statement of Career Eligibility (required for Mid-Career and Mid-Career Online applicants only)
- Unofficial transcripts

Financial Aid From the Program

To be considered for funding from the Truman School (including a Graduate Research Assistantship and scholarships), please arrange to have all of your application materials submitted by the January 15 deadline and include a GRA application (https://truman.missouri.edu/degrees-programs/funding/graduate-research-assistantships) in your supplemental application materials. Contact the Truman School at (573) 884-1656 or visit truman.missouri.edu/degrees-programs/funding for more details.

PhD in Public Affairs

PhD Contact: Dr. Irma Arteaga
(573) 882-2718
ArteagaI@missouri.edu

About the PhD Program in Public Affairs

The Harry S Truman School of Public Affairs at the University of Missouri offers an interdisciplinary PhD in Public Affairs that prepares graduates for careers in universities, colleges and applied research settings in the public, private and nonprofit sectors. Students complete core sequences in public policy and management as well as research methods, and specializations tailored to students’ research interests.

Acceptance Criteria

In making its decision, the PhD committee considers:

- The applicant’s record of academic achievement (Applicants typically have undergraduate GPAs higher than 3.0, and graduate GPAs higher than 3.5.)
- The quality of the written statement explaining why the applicant wants to pursue the degree
- The quality of the applicant’s writing sample
- Evaluations contained in letters of recommendation
- Acceptable performance on the Graduate Record Examination (GRE). Applicants typically have combined scores of 310 or higher
- Results of a personal interview with the applicant in person or by telephone
- Other factors bearing upon the candidate’s potential for success

Application Procedure

1. Applications for the PhD program are accepted for fall entrance only. For a prospective student’s application to be complete, the Truman School must receive all required materials by January 4.
2. Applicants are required to upload application materials to the MU Graduate School Application for Admission.
3. Official transcripts must be mailed to the Graduate School and GRE/TOEFL scores directed to institution code 6875, department code 2204.

Required Application Materials

A student’s application is complete when all of the following materials have been received. The Truman School’s downloadable checklist contains more information on the following required application materials:

- University of Missouri Office of Graduate Studies application (application fee required)
- Statement of interest
- Curriculum vitae/Résumé
- Writing sample
- Personal data sheet
- Three letters of recommendation
- Unofficial undergraduate and graduate transcripts
- Official Graduate Record Examination (GRE) score report (must be sent by ETS)
- Official TOEFL score report (must be sent by ETS; required of applicants whose native language is not English)

Entrance Exams

- The Graduate Record Examination (GRE) is required of all applicants.
- Applicants whose native language is not English must achieve a score of 625 (107 iBT) in the Test of English as a Foreign Language (TOEFL).
- Use the following codes to submit test scores to the Truman School:
  - University of Missouri-Columbia Institution Code: 6875
  - Truman School Department Code: 2204
Cost of Attendance and Financial Aid
Prospective students should visit the Office of Graduate Studies’ financial information and support web page for current information about tuition and fees. The University’s Office of Student Financial Aid provides information about other types of aid students can obtain, including federally financed student loans.

• Graduate Faculty Member - membership is required to teach graduate-level courses, chair master’s thesis committees, and serve on doctoral examination and dissertation committees.
• Doctoral Faculty Member - membership is required to chair doctoral examination or dissertation committees. Graduate faculty membership is a prerequisite for Doctoral faculty membership.

Undergraduate
• BA in Religious Studies (p. 298)
• Minor in Religious Studies (p. 299)

The department’s field of study includes religious expressions from many cultures and in every period of history. Systematic study of this rich world of expression employs the widest range of academic tools and competencies, from the skills of the literary critic and historian to the analytic abilities of the social scientist and anthropologist. Because of this broad base, study in the department promotes fundamental academic skills and critical judgment and provides deeper understanding of national and international cultures. Thus, the religious studies major provides students with a foundation to pursue careers in business, government, counseling, law, medicine and journalism, as well as advanced professional study in religion. The department offers BA and MA degrees with majors in Religious Studies. A minor is also available.

Double Majors
Students are encouraged to pursue dual majors that combine religion with other interests.

Graduate
• MA in Religious Studies (p. 299)

About the Religious Studies MA Program
The master’s program in religious studies at the University of Missouri is a two-year stand-alone graduate program in the academic study of religion. Many of the program’s alumni have gone on to PhD programs in religious studies or related disciplines, while others have completed the master’s degree in order to enrich their educational lives or to prepare for work in journalism, education, law, or other fields that demand critical thinking and analytical skills.

The master’s program offers training in the academic study of religion, with particular emphasis on theory and methods in religious studies. Students work closely with their advisors and mentors in order to develop and grow as scholars of the discipline. The department offers courses in the areas of Biblical Studies, History of Christianity, Religion in America, Islam, Judaism, Indigenous Religions, Hinduism, Buddhism, Women and Religion, and Religion and Neuroscience.

Students must complete a total of 30 credit hours at the graduate level, pass comprehensive exams in theory and methods in the academic study of religion, and complete a Master’s thesis or portfolio.

BA in Religious Studies
Degree Program Description
What do shamans, politicians, nurses, prophets, intellectuals, nuns, slaves, and soldiers have in common? They are all part of the Religious Studies curriculum at MU, which studies religion as a powerful influence in human life and history, shaping global cultures, national identities, and the values of individuals. Religious Studies majors explore the roles religion plays in societies, the ways that religious institutions grow and change, the meanings of scriptures from around the world, the extraordinary experiences of religious specialists, and much more.

Graduates of the major pursue a variety of employment and graduate school opportunities.

Major Program Requirements
Students must earn a minimum GPA of 2.0 or higher in order to have the credit applied. In addition, students must complete all degree, college and university graduation requirements (p. 33), including university general education (p. 34).

Minor in Religious Studies

A minor in religious studies is available with the following requirements: a minimum of 15 credits (at least one course each in Asian, Western, and Indigenous Religions), including 6 in courses numbered 2000 or above. A minimum 2.0 MU GPA is required in all courses toward the minor.

MA in Religious Studies

Admission Contact Information
Prof. Signe Cohen
221 Arts & Science Bldg
Columbia, MO 65211
(573) 882-4760 or cohens@missouri.edu

Admission Criteria

- Fall deadline:
  - February 1 (for consideration of financial aid)
  - April 1 (for students not seeking financial aid)
- Spring deadline: October 15
- Minimum GPA: 3.0
- Minimum GRE score: none set
- Minimum TOEFL scores:

Required Application Materials

To the Office of Graduate Studies
All required Graduate Studies documents, including transcripts

To the Religious Studies MA Program
Departmental application and writing sample
3 letters of recommendation (use departmental form)
GRE score report

Additional Information

The match between the interests of applicants and the areas of emphasis offered in the program will be an important consideration in the evaluation of applications.

All application materials are available online, and applications should be submitted electronically. Application information can be found at https://religiousstudies.missouri.edu/grad/applying-graduate-program.

Although electronic applications are preferred, a student may also print out the application materials and mail them to the Religious Studies Department at the following address:

The Director of Graduate Studies
The Department of Religious Studies
221 Arts & Science Bldg
The University of Missouri
Columbia, MO 65211

International students should contact the Office for International Admissions. Students whose native language is not English should achieve a score of 550 or more on the TOEFL exam for admission to the program.

Applications must be completed at least six weeks before the start of graduate studies. Applicants seeking teaching assistantships or fellowships must submit applications no later that February 1. Notification of admission and awards will be made no later than April 1. Applicants who wish to enter the program in January of an academic year must submit materials no later than October 15.

Romance Languages

Department of Romance Languages and Literature
143 Arts and Science Building
(573) 882-4874
Fax: (573) 884-8171

The study of a foreign language allows for the development and refinement of communication, listening and speaking skills. Such study also endows students with a concern for world affairs and an appreciation of and respect for individual differences.

The Department of Romance Languages and Literatures offers language and literature courses in French, Italian, Portuguese and Spanish. Students may elect a major in Romance Languages with an emphasis in French or Spanish. Minors are also available in Afro-Romance literatures in Translation, French, Italian Area Studies, Luso-Brazilian Area Studies, Romance Literatures in Translation, and Spanish. The department also participates in the interdepartmental minor in film studies.
Double majors within the College of Arts and Science, as well as dual degree programs outside of the College of Arts and Science, can be arranged if the second degree is identified early. Combined programs with journalism, political science, agriculture, education and business are among the possibilities.

The department offers BA and MA degrees in Romance Languages with major emphasis in French and Spanish; an MA with a major in French Language Teaching or Spanish Language Teaching, and a PhD in Romance Languages. Minors are also available.

Director of Graduate Studies: Mamadou Badiane

About the Department of Romance Languages and Literatures

The Department of Romance Languages and Literatures offers graduate degree programs with an emphasis in Spanish (p. 305), and French (p. 302), both with the option of an emphasis in foreign language teaching. The department's faculty and graduate student seminars are an interdisciplinary, interdepartmental series seeking to provide a collegial atmosphere in which scholars can present their recent work. The department strongly encourages study abroad as a way to reinforce language skills, broaden one's horizons, and add an unforgettable experience to a meaningful university education.

The Department of Romance Languages and Literatures at the University of Missouri has the country's only focus area in the field of Afro-Romance Studies. In order to facilitate research collaboration between our faculty members working in this field and scholars outside our institution, we have established the Institute for Languages and Literatures of the African Diaspora. The Institute serves first and foremost to expose black writers of French, Portuguese and Spanish expression to a wider audience.

Specialization

The Department of Romance Languages and Literatures offers four fields of specialization at the doctoral level: French Literature, Francophone Literature, Spanish Literature or Spanish American Literature.

Financial Aid from the Program

Contact the Director of Graduate Studies for details.

BA in Romance Languages

Degree Program Description

Romance Languages is the study of language and literature in French, Italian, Portuguese, and Spanish. The study of a foreign language allows for the development and refinement of communication, listening and speaking skills. Such study also endows students with a concern for world affairs and an appreciation of and respect for individual differences. The Bachelor of Arts degree in Romance Languages is offered in two emphasis areas: French and Spanish. Students must choose one of the emphasis areas to earn the BA in Romance Languages. Given the liberal arts foundation of a degree in Romance Languages students pursue careers in a variety of fields or continue their studies. Graduates have pursued careers in journalism, tourism, diplomacy, and education.

Students must choose a BA in Romance Languages with an emphasis in French (p. 300), or a BA in Romance Languages with an emphasis in Spanish (p. 301). There is no offering for a BA in Romance Languages without an emphasis.

In addition, students must complete all College of Arts and Sciences and University graduation requirements (p. 33), including University general education (p. 34).

Major Program Requirements

The bachelor of arts degree in Romance Languages is offered in two emphasis areas: French (p. 300) and Spanish (p. 301). Students must choose one of the emphasis areas to earn the BA in Romance Languages. Details on the requirements for the programs are listed under each emphasis.

Semester Plan

A sample plan of study has not been designed for this major, as students are required to select an emphasis. Refer to the semester plans designed for the emphasis in French (p. 300) or Spanish (p. 301).

BA in Romance Languages with Emphasis in French
Degree Program Description

The BA in Romance Languages with an emphasis in French is the exploration of the language, literature, and culture of French-speaking countries. The degree requires a minimum of 30 hours of French beyond FRENCH 2100. Faculty strongly encourages all majors to spend at least one semester (or summer) studying abroad, preferably after their second year of the language. Given the liberal arts foundation of a degree in French students pursue careers in a variety of fields or continue their studies. Graduates have pursued careers in journalism, tourism, diplomacy, and education.

Major Program Requirements

Students who have not satisfied the requirement of the elementary sequence (four years of foreign language in high school) may take the Foreign Language Placement exam, https://romancelanguages.missouri.edu/undergrad/undergraduate-program, to place them in an upper level language course. Once the upper level course is completed on campus, with a grade in the C range or better the student can apply for Advanced Standing.

For the major, course work must be completed with a grade in the C range or higher in each of the required courses and students must maintain a 2.0 GPA in the major. Students must meet all major requirements listed below, as well as all College of Arts and Science and University graduation requirements (p. 33), including University general education (p. 34).

Students who work toward a double major (two degrees within the College of Arts and Science) may be able to complete the majors with a minimum of 120 credits. Students who are considering a dual degree program (in Arts and Science and in another school or college) are advised that a minimum of 132 credits are necessary.

To obtain the BA degree in Romance Languages with an emphasis in French, the following courses, or their equivalents, must be included in the graduation plan (numbers in parentheses indicate prerequisite courses).

Major core requirements

- FRENCH 2160 Intermediate French Composition and Conversation 3
- FRENCH 3160 Advanced French Composition and Conversation I 3
- or FRENCH 3280 Commercial French
- FRENCH 3410 Introduction to Literary Analysis 3
- FRENCH 3420 Introduction to French Literature I 3
- FRENCH 3430 Introduction to French Literature II 3

Additional Requirements

- Students must complete five additional 4000-level courses. We encourage students to take Stylistics as one of these.
- Students beginning at a level higher than FRENCH 2160 due to placement testing must still complete 30 credits in order to receive the major.
- In addition, the student is required to take a Writing Intensive course in the major, normally designated sections of FRENCH 3420 or FRENCH 3430.
- It is highly recommended that students take FRENCH 2310: French Civilization as an elective and, if at all possible, study for a summer, a semester or a full year in a French-speaking country.

BA in Romance Languages with Emphasis in Spanish

Degree Program Requirements

The BA in Romance Languages with an emphasis in Spanish is the exploration of the language, literature, and culture of Spanish-speaking countries. The degree requires a minimum of 30 hours of Spanish beyond SPAN 2100. Faculty strongly encourages all majors to spend at least one semester (or summer) studying abroad, preferably after their second year of the language. Given the liberal arts foundation of a degree in Spanish students pursue careers in a variety of fields or
continue their studies. Graduates have pursued careers in journalism, tourism, diplomacy, and education.

Major Program Requirements

Course work must be completed with a grade in the C range or higher in each of the required courses and students must maintain a 2.0 GPA in the major. Students must meet all major requirements listed below, as well as all College of Arts and Science and University graduation requirements (p. 33), including University general education (p. 34).

Students who work toward a double major (two degrees within the College of Arts and Science) may be able to complete the majors with a minimum of 120 credits. Students who are considering a dual degree program (in Arts and Science and in another school or college) are advised that a minimum of 132 credits are necessary.

Additional Requirements

Students must complete five 4000-level courses selected with the advisor’s approval.

- Required courses: one peninsular lit., one Spanish-American lit., three courses of choice.

It should be noted that SPAN 4960 Special Readings in Spanish cannot be used to fulfill this requirement except by permission of the department chair. Students who plan to teach at any level should include courses SPAN 3160 and SPAN 3721, rather than their alternates.

- Students beginning at a level higher than SPAN 2160 due to placement testing must still complete 30 credits in order to receive the major.

- In addition, the student is required to take a Writing Intensive course in the major, normally designated sections of SPAN 3420 or SPAN 3430, and must complete a minor.

<tr>
<td>must have score of 80</td>
<td>must have score of 550</td>
</tr>
</tbody>
</table>

Note: Applicants must also demonstrate adequate preparation in advanced language and literature courses. This will require their having completed at least four courses equivalent to a 4000-level course for masters applicants or a 7000 level course for doctoral applicants at the University of Missouri. At a minimum, three of these courses must be in literature. If the faculty determines a deficiency, they will require that the student complete remedial course work in literature during the first year of enrollment. The director of graduate studies will inform students of these additional requirements at the time of their admission.

Required Application Materials

To the Office of Graduate Studies

- All required Graduate Studies documents
- Official Transcript
- 10-15 page writing sample in language of desired degree program, must be uploaded to the online application
- 500-word Personal Statement, uploaded to the online application
- 3 letters of recommendation (submitted through Apply Yourself or mailed to the Romance Languages Department, 143 Arts & Science, University of Missouri, Columbia, MO 65211)
- Résumé or CV

Choosing an Advisor

All graduate students in the department may choose, or the director of graduate studies will assign them, an academic advisor at the start of their first semester of graduate study. Students must choose an academic advisor by the end of their first semester of graduate study.

MA Degree Requirements

Students must complete a total of 30 credit hours at the graduate-level to earn their MA degree. At least 15 hours must be in courses at the 8000 level or above. The plan of study for the MA with an emphasis in Spanish must include a minimum of nine hours of course work in Spanish peninsular literature and a minimum of nine hours of course work in Spanish-American literature. The plan of study for an MA with an emphasis in Spanish must also include three credit hours in the history of the Spanish language (completeness of or the equivalent).

For the MA with an emphasis in either French or Spanish, the total number of credit hours in special readings (7960), problems (8085) or any combination of both may not exceed twelve. The number of credit hours in special readings (7960) within the student’s major field may not exceed three per semester. Graduate Instructors with no pedagogical experience or those who have completed no graduate course in foreign language teaching methodology will be required to take FRENCH 7120/SPAN 7120, Foreign Language Teaching Methodology.

Non-native speakers will be required to complete an online proficiency assessment with the appropriate course coordinator before a decision on their admission status is finalized by the department.

Plan of Study

The department offers MA degrees with an emphasis in both French and Spanish (Peninsular or Spanish-American literature).

MA candidates must submit a completed M-1 Plan of Study form to the Graduate School at least one semester before taking their MA examinations.

Minors

Students may also elect a minor field of study, which requires a minimum of 9 hours of course work completed in another department or other departments. Students interested in such minors should consult the section titled Plan of Study in the Graduate Catalog. These minor fields appear on students’ plan of study, but not on their transcript. Students selecting minors must complete the standard MA examination in their major field of emphasis (French or Spanish).

Funding Through Graduate Instructorships

MA candidates normally receive 4 semesters of financial support from the University while completing their degree. This support will customarily take the form of a graduate instructorship, though it may take the form of either a research or teaching assistantship.

Possible Fifth Semester of Support

In exceptional cases, students in good standing — with no grades of Incomplete and unproblematic teaching — may receive a fifth semester of support, at the discretion of the faculty. Faculty will award a fifth semester of support according to the department’s need for instructors. Students must submit all requests for a fifth semester of support in writing to the director of graduate studies. No student will receive more than five semesters of support.

Normal Teaching Load vs. Course Load

The minimum teaching assignment for MA candidates holding instructorships is 1 course per semester, although there may be an opportunity for two. International students may never teach more than 2 hours of course work in the history of the Spanish language (completeness of or the equivalent).

Annual Review

The faculty and course directors in both major languages meet during the fall and spring semesters to evaluate the teaching and academic performance of all graduate students. The director of graduate studies informs all students in writing of their status at the end of each semester. Students who fail to remove a grade of Incomplete will be limited to teaching one course per semester for as long that grade of Incomplete remains on their academic record.
Master’s Thesis

The writing of a thesis is optional. A minimum of 4 hours and a maximum of 6 hours of 8090 Research will be allowed for the thesis. Students are urged to obtain the Graduate School’s guidelines for thesis/dissertation writing as the thesis must conform to the Office of Graduate Studies’ formatting and style specifications.

Thesis Committee

Students choosing to write a thesis must name a thesis committee consisting of no fewer than three members of the doctoral faculty at the University of Missouri, one of whom should be from a department other than the Department of Romance Languages and Literatures.

Comprehensive Examination for the MA degree

All candidates for the Master of Arts degree must pass a 6-hour written examination based on the MA reading list. The examination is given twice a year, generally in late October and late March.

The French Master’s examination consists of six 1-hour parts covering literature of the Middle Ages/Renaissance, 17th, 18th, and 19th centuries, and two of the following three periods in the contemporary period: twentieth century French Literature, twentieth century Francophone Literature, contemporary literary theory.

The Spanish examination consists of two 3-hour examinations. The first component covers Peninsular Spanish literature from the Middle Ages to the present and the second component covers Spanish American literature from the Colonial period to the present.

At least half the examination must be written in the candidate’s language of specialization.

Grading of the Comprehensive Exam

The MA examination is graded as follows: High Pass, Pass, and Fail. In order to receive a passing grade on any section of the examination, a student must receive passing grades from two thirds of the examining committee. To pass the entire examination, students must receive passing grades on all sections. With permission from the examining committee, students who fail part of the examination may retake only the failed section or sections of the examination. Two failures of the examination, in whole or in part, will terminate candidacy for the degree and result in dismissal from the program.

MA in Romance Languages with Emphasis in Language Teaching

Admission

Students desiring to work for the degree of Master of Arts, Emphasis on Language Teaching (MALT) should apply directly online to the Graduate School. Applicants can find links for information, instructions for applying and the online application form on the Graduate School’s site (http://gradschool.missouri.edu/admissions). This online form is submitted electronically to the Graduate School, along with the application fee.

Additionally, the following materials submitted via the Graduate School’s Apply Yourself (https://applygrad.missouri.edu/apply) system:

- Official transcripts from the institution(s) previously attended
- TOEFL scores (international applicants only)

In addition, our department requires the following materials from all applicants:

- Departmental Graduate Studies Application
- Three Letters of Reference
- A 10-15 page-writing sample
- 500-word personal statement detailing the applicant’s reasons for selecting the University of Missouri for graduate studies and academic/career goals. Applicants may also send other supporting materials, such as a résumé, if desired.

The application form and the form for reference letters are available on the Department’s page (http://romancelanguages.missouri.edu).

Eligibility

Candidates for the MA must hold a Bachelor’s degree (or equivalent) with a grade point average of 3.0 or better in their major field of study. They must also demonstrate adequate preparation in advanced language and literature courses for admission. This will normally be four courses equivalent to a 4000-level course at the University of Missouri. At least three of these courses must be in literature or linguistics. If the Admissions Committee believes that a deficiency exists, it will prescribe additional course work (during the first year of enrollment) beyond the 30 credit hours necessary for the MALT degree. The Director of Graduate Studies will inform students of these additional requirements at the time of admission.

All non-native speakers of French/Spanish will be required to complete an online proficiency assessment prior to admission. Applicants will be contacted by the appropriate course coordinators to schedule this assessment. Students who are judged deficient in any of these areas are required to do remedial work. New graduate students who are required to do remedial work because of the departmental language proficiency examination will be retested within one year. Students must receive a passing score, or their candidacy will be terminated.

All graduate students will be assigned an advisor by the Director of Graduate Studies at the start of their first semester of graduate study.

MALT Program of Study

A total of 30 hours selected from courses receiving graduate credit must be completed for the MALT (Master of Arts in Language Teaching). A minimum of 21 of the 30 hours must be taken in either French or Spanish. At least 15 hours must be in courses at the 8000 level or above. Of these 8000-level courses, six hours must be in the Department of Romance Languages. The remaining 9 hours may be taken from course work outside the department with the approval of the student’s academic advisor.

Note: The College of Education no longer offers a certification program in the field of foreign language education. However, students who do not have a teaching certificate and who are interested in completing relevant courses in the field of education while working on their MALT will need to contact the professional advisors in the School of Education. These students, with advisor’s consent, could use their 9 hours allowed outside the department-provided that they are graduate-level courses toward courses in education. At the completion of their MA, students can work directly with the Missouri Department of Elementary and Secondary Education to see how they can be certified in the State of Missouri.
Please note also that the number of hours of credit allowed for Special Readings (7960) and Problems (8085) may not exceed twelve. MA candidates may not take more than one of these two independent readings course per semester.

Students wishing to transfer MA credits from another university may transfer up to six hours, provided these courses were taken within the last eight years.

MALT candidates must submit a completed M-1 Program of Study to the Graduate School at least one semester before completing their comprehensive examinations.

Teaching Assistants

MALT students normally have 4 semesters of support in which to complete their degree. This support will customarily take the form of a Graduate Instructorship. MA students may not teach more than ten hours per semester. A fifth and final semester may be granted in exceptional circumstances to students in good standing (i.e., no incompletes, history of good teaching, etc.). This extra semester will be awarded on the basis of departmental need and will be granted only if a request is made formally and in writing to the Graduate Studies Committee, which will make its recommendation to the entire faculty. No student will receive support beyond the fifth semester.

The normal course load for MALT candidates holding teaching assistantships is 9 hours. All MALT candidates must register for a minimum of 6 hours of graded courses included in the Master’s program in every semester in which they hold a teaching assistantship. Exceptions to this regulation must have the approval of the Graduate Studies Committee prior to registration. International students must not fall below six hours or they will lose their student status. Students who have completed all coursework may enroll in up to 6 hours per semester of 8080 (Readings) in order to prepare for the MALT exam.

The faculty and the course directors in each of the major languages will meet during the fall and winter semesters to evaluate the performance of all graduate students as students and as teaching assistants. The Director of Graduate Studies will inform all students in writing of their status following this formal performance review.

Any student who fails to have an incomplete removed within one year of its issuance will be limited to teaching one class per semester until the incomplete grade is removed. This excludes Dissertation/Thesis (9090) courses.

Course Distribution

The course distribution for the MALT program is as follows:

<table>
<thead>
<tr>
<th>* Language/Linguistics</th>
<th>6</th>
</tr>
</thead>
<tbody>
<tr>
<td>FRENCH 7710 History of the French Language</td>
<td>3</td>
</tr>
<tr>

| FRENCH 8120 Bilingualism and Language Contact | 3 |
| or SPAN 8120 Bilingualism and Language Contact | |

OUTSIDE THE DEPARTMENT (UP TO 9 HRS)

For students interested in education, suggested courses from the College of Education can include:

- ESC_PS 7000 Foundation of Teacher Prep I
- SPC_ED 7020 Teaching the Exceptional Learner

Preparation II (4)

For students interested in ESL, courses can include:

- Structure of American English (3)
- History of the English Language (3)
- Regional and Social Dialects of English (3)

Please Note: Courses taken outside the department must be approved by the student’s academic advisor.

Comprehensive Examination for the MALT degree

All graduate students in Language Teaching are required to pass a series of examinations in order to fulfill degree requirements.

Written Examination

All students take a six-hour written examination, which consists of three two-hour components. Two of the components include: a) Foreign Language Methodology and Second Language Acquisition; b) Applied Linguistics. In addition, each candidate will be examined in a third field of their choice, either civilization/culture or literature. The two-hour written questions will reflect the coursework completed by each candidate and appropriate texts suggested by faculty represented on the examination committee. These examinations are generally given in November and March.

The MALT examination is graded as follows: High Pass, Pass, and Fail. In order to receive a passing grade, the candidate must attain a Pass in all fields of the written examination. Should a candidate fail any part of the exam and wish second consideration for the degree (s)he must retake the failed section(s). Two failures eliminate the candidate from consideration for the MA in language teaching.

MA in Romance Languages with Emphasis in Spanish

Admission Contact Information

143 Arts and Science
Columbia, MO 65211
(573) 882-5039
Admission Criteria

Fall deadline: February 15
Spring deadline: October 15

- Minimum GPA: 3.0 in field of major
- Masters applicants must have a bachelor’s degree
- Minimum TOEFL scores (international applicants):

<table>
<thead>
<tr>
<th>Internet-based test (iBT)</th>
<th>Paper-based test (PBT)</th>
</tr>
</thead>
<tbody>
<tr>
<td>61 Effective July 1, 2015 must have score of 80</td>
<td>500 Effective July 1, 2015 must have score of 550</td>
</tr>
</tbody>
</table>

Applicants must also demonstrate adequate preparation in advanced language and literature courses. This will require their having completed at least four courses equivalent to a 4000-level course for masters applicants or a 7000 level course for doctoral applicants at the University of Missouri. At a minimum, three of these courses must be in literature. If the faculty determines a deficiency, they will require that the student complete remedial course work in literature during the first year of enrollment. The director of graduate studies will inform students of these additional requirements at the time of their admission.

Required Application Materials

To the Office of Graduate Studies

- All required Graduate Studies documents
- Official Transcript
- 10-15 page writing sample in language of desired degree program, must be uploaded to the online application
- 500-word Personal Statement, uploaded to the online application
- 3 letters of recommendation (submitted through Apply Yourself (https://applygrad.missouri.edu/apply) or mailed to the Romance Languages Department, 143 Arts & Science, University of Missouri, Columbia, MO 65211)
- Résumé or CV

Choosing an Advisor

All graduate students in the department may choose, or the director of graduate studies will assign them, an academic advisor at the start of their first semester of graduate study. Students must choose an academic advisor by the end of their first semester of graduate study.

Plan of Study

The department offers MA degrees with an emphasis in both French and Spanish (Peninsular or Spanish-American literature).

Minors

Students may also elect a minor field of study, which requires a minimum of 9 hours of course work completed in another department or other departments. Students interested in such minors should consult the section titled Plan of Study in the Graduate Catalog. These minor fields appear on students’ plan of study, but not on their transcript. Students electing minors must complete the standard MA examination in their major field of emphasis (French or Spanish).

MA Degree Requirements

Students must complete a total of 30 credit hours at the graduate-level to earn their MA degree. At least 15 hours must be in courses at the 8000 level or above. The plan of study for the MA with an emphasis in Spanish must include a minimum of nine hours of course work in Spanish peninsular literature and a minimum of nine hours of course work in Spanish-American literature. The plan of study for an MA with an emphasis in Spanish must also include three credit hours in the history of the Spanish language (completion of or the equivalent).

For the MA with an emphasis in either French or Spanish, the total number of credit hours in special readings (7960), problems (8085) or any combination of both may not exceed twelve. The number of credit hours in special readings (7960) within the student’s major field may not exceed three per semester. Graduate Instructors with no pedagogical experience or those who have completed no graduate course in foreign language teaching methodology will be required to take FRENCH 7120/SPAN 7120, Foreign Language Teaching Methodology.

Non-native speakers will be required to complete an online proficiency assessment with the appropriate course coordinator before a decision on their admission status is finalized by the department.

Submitting Your Plan of Study to the Office of Graduate Studies

MA candidates must submit a completed M-1 Plan of Study form to the Office of Graduate Studies at least one semester before taking their MA examinations.

Funding Through Graduate Instructorships

MA candidates normally receive 4 semesters of financial support from the University while completing their degree. This support will customarily take the form of a graduate instructorship, though it may take the form of either a research or teaching assistantship.

Possible Fifth Semester of Support

In exceptional cases, students in good standing — with no grades of Incomplete and unproblematic teaching — may receive a fifth semester of support, at the discretion of the faculty. Faculty will award a fifth semester of support according to the department’s need for instructors. Students must submit all requests for a fifth semester of support in writing to the director of graduate studies. No student will receive more than five semesters of support.

Normal Teaching Load vs. Course Load

The minimum teaching assignment for MA candidates holding instructorships is 1 course per semester, although there may be an opportunity for two. International students may never teach more than 2 courses per semester owing to visa restrictions. All MA candidates must be registered in a minimum of 6 hours of course work for each semester in which they hold an instructorship. Students may enroll in up to 6 hours per semester of 8080 (Readings) if they have completed all their course work and are preparing for their MA exams.

Annual Review

The faculty and course directors in both major languages meet during the fall and spring semesters to evaluate the teaching and academic performance of all graduate students. The director of graduate studies informs all students in writing of their status at the end of each semester. Students who fail to remove a grade of Incomplete will be limited to
teaching one course per semester for as long that grade of Incomplete remains on their academic record.

**Master’s Thesis**

The writing of a thesis is optional. A minimum of 4 hours and a maximum of 6 hours of 8090 Research will be allowed for the thesis. Students are urged to obtain the Graduate School’s guidelines for thesis/dissertation writing as the thesis must conform to the Graduate School’s formatting and style specifications.

**Thesis Committee**

Students choosing to write a thesis must name a thesis committee consisting of no fewer than three members of the doctoral faculty at the University of Missouri, one of whom should be from a department other than the Department of Romance Languages and Literatures.

**Comprehensive Examination for the MA degree**

All candidates for the Master of Arts degree must pass a 6-hour written examination based on the MA reading list. The examination is given twice a year, generally in late October and late March.

The French Master’s examination consists of six 1-hour parts covering literature of the Middle Ages/Renaissance, 17th, 18th, and 19th centuries, and two of the following three periods in the contemporary period: twentieth century French Literature, twentieth century Francophone Literature, contemporary literary theory.

The Spanish examination consists of two 3-hour examinations. The first component covers Peninsular Spanish literature from the Middle Ages to the present and the second component covers Spanish American literature from the Colonial period to the present.

At least half the examination must be written in the candidate’s language of specialization.

**Grading of the Comprehensive Exam**

The MA examination is graded as follows: High Pass, Pass, and Fail. In order to receive a passing grade on any section of the examination, a student must receive passing grades from two thirds of the examining committee. To pass the entire examination, students must receive passing grades on all sections. With permission from the examining committee, students who fail part of the examination may retake only the failed section or sections of the examination. Two failures of the examination, in whole or in part, will terminate candidacy for the degree and result in dismissal from the program.

**PhD in Romance Languages**

**Note to Internal Doctoral Applicants**

Students who wish to advance to the doctoral program after completing their MA degree in the Department of Romance Languages and Literatures may do so only after receiving written approval from the MA examining committee. Alternatively, candidates may not advance to the doctoral program if the examining committee determines, after the MA examination, that their degree is terminal.

Students advancing directly from the MA to the PhD program need to complete only a Change of Degree Program form, which the department submits to the Office of Graduate Studies.

Students who apply to the doctoral program one semester or more after completing their MA examinations must complete a Request to Re-enroll form and reapply to the doctoral program. They must submit a new departmental application and reference letters. They need not submit a new application to the Office of Graduate Studies.

**Application and Admission Information**

**Admission Contact Information**

143 Arts and Science

Columbia, MO 65211

(573) 882-5039

https://romancelanguages.missouri.edu/grad/graduate-program

**PhD Admission Criteria**

**Fall deadline:** February 15

**Spring deadline:** October 15

- Minimum GPA: 3.0 in field of major
- Doctoral applicants must have a master’s degree.
- Minimum TOEFL scores (international applicants):
  - Internet-based test (iBT)
    - 61 Effective July 1, 2015 must have score of 80
  - Paper-based test (PBT)
    - 500 Effective July 1, 2015 must have score of 550

Applicants must also demonstrate adequate preparation in advanced language and literature courses. This will require their having completed at least four courses equivalent to a 4000-level course for masters applicants or a 7000 level course for doctoral applicants at the University of Missouri. At a minimum, three of these courses must be in literature. If the faculty determines a deficiency, they will require that the student complete remedial course work in literature during the first year of enrollment. The director of graduate studies will inform students of these additional requirements at the time of their admission.

**Required Application Materials**

**Submit to the Office of Graduate Studies using the online application system:**

- All required Graduate Studies documents
- Official Transcript (send to Graduate School at 210 Jesse Hall, University of Missouri, Columbia, MO 65211-1160)
- 10-15 page writing sample in language of desired degree program, must be uploaded to the online application
- 500-word Personal Statement, uploaded to the online application
- 3 letters of recommendation (submitted through Apply Yourself or mailed to the Romance Languages Department, 143 Arts & Science, University of Missouri, Columbia, MO 65211)
- Résumé or CV

**Note:** All application forms are on the Graduate School site

**Specialization**

The Department of Romance Languages and Literatures offers four fields of specialization at the doctoral level: French Literature, Francophone Literature, Spanish Literature or Spanish American Literature.

Candidates may elect a secondary field, which entails a minimum of 9 hours of course work within another department, in consultation with their doctoral program committee. This secondary field appears on students’ plan of study, but not on their transcript. Students electing a secondary
field must complete a PhD examination that will include at least one question devoted to their secondary field.

Choosing an Advisor

All graduate students in the department may choose, or the director of graduate studies will assign them, an academic advisor at the start of their first semester of graduate study. Students must choose an academic advisor by the end of their first semester of graduate study.

Qualifying Examination

All PhD candidates must complete a qualifying examination during their first year in the program to determine their fitness for doctoral study.

Exemptions

The faculty may excuse students from this requirement if those students received their MA degree from this department, earned a grade of High Pass on all sections of their MA examination, and enrolled in the PhD program the semester after fulfilling all requirements for the MA degree.

Purpose and Questions

The qualifying examination provides an opportunity for the faculty to evaluate candidates and advise their future course of study in the program. The examination consists of two questions related to the candidate’s course work during the previous and current semester: one question requires analysis of a text; the other, discussion of a general topic (e.g., a literary genre, a particular author, a critical or artistic movement, and so on). The candidate’s academic advisor delivers both questions to the candidate three days before a meeting with the examining committee.

Exam Meeting with the Committee

At this meeting, the candidate offers two oral presentations of 20-25 minutes each, based on the two questions. Following these presentations, the candidate responds to comments and questions from the examining committee. At the close of this meeting, the examining committee determines whether the candidate’s performance warrants a grade of Pass or Fail. The examining committee communicates these results to the Graduate School in writing, on a D-1 form bearing the signatures of the candidate and all members of the committee. Students who receive a failing grade must retake this examination before the end of the following semester. A second failure on this examination terminates eligibility for the PhD degree and will result in dismissal from the graduate program.

Arranging the Committee

All arrangements for the qualifying examination are the joint responsibility of the candidate and the candidate’s academic advisor. Any tenured or tenure-track member of the faculty may act as academic advisor to students during their first year of doctoral study. The academic advisor need not act as the director of that student’s PhD examination or dissertation committee.

Submitting Results

Students who earn a passing grade on their qualifying examination submit the D-1 form to the Office of Graduate Studies, communicating the results of the examination and formally naming their doctoral committee.

Plan of Study & Degree Requirements

After the qualifying exam, students and their doctoral committee meet to devise a plan of study. The doctoral committee signs and submits this plan of study with the D-2 form to the Graduate School. Students in the PhD program must complete a minimum of 72 hours of course work, which includes a maximum of 30 credit hours earned as part of their MA degree. These credit hours must include course work in language teaching methodology (FRENCH 7120/SPAN 7120 or the equivalent) and, if applicable, the candidate’s secondary field. Spanish doctoral candidates must also complete course work in Old Spanish.

Foreign Language Requirements

PhD candidates must demonstrate reading proficiency in 2 languages other than English and their language of specialization (French or Spanish). They may satisfy this requirement, at a minimum, by completing intensive beginning courses in the required languages (4070 or the equivalent) with a grade of B- or better, or by passing written examinations administered by departments at the University of Missouri offering courses in those languages. Students choosing Latin as one of their foreign languages may satisfy this requirement by completing with a grade of B- or better, a beginning honors class (LATIN 1100H, or the equivalent). Students also fulfill this requirement if they demonstrate proficiency by objective measures (courses, examinations) that exceed this minimum standard, as approved by the Director of Graduate Studies.

Students must satisfy the foreign language requirement before they take their Comprehensive Examination for the PhD. Basic language courses carry no credit toward the PhD and are therefore not included in the Plan of Study.

Latin Requirements for Students of Medieval and Renaissance Literatures

Students specializing in literature of either the Middle Ages or the Renaissance- literature produced within the period from the rise of the vernacular to the end of the seventeenth century—must demonstrate reading proficiency in Latin. In doing so, they fulfill half their foreign language requirement. They demonstrate proficiency in Latin according to the standard explained in the previous paragraph: by means of a beginning Honors course (LATIN 1100H), a written examination administered by the Classics Department, or equivalents of these.

Language Requirements for Students With Secondary Field in Non-English Literature

Students pursuing a secondary field in a non-English literature different from that of their major field must complete with a final grade of B- or better at least three 7000-level courses (or the equivalent) in literature of their secondary field. Completing these courses fulfills half the foreign language requirement.

For example, a student specializing in French literature of the Romantic period may choose a secondary field of German literature of the Romantic period. That student must complete 3 courses in German literature at the 7000 level (or the equivalent). Completing these courses satisfies half the foreign language requirement.

Financial Support: Graduate Instructorships

PhD candidates normally receive 6 semesters of financial support from the university while completing their plan of study and 4 additional semesters of support after completing their PhD examination. This support will customarily take the form of a Graduate Instructorship,
though it may take the form of either a Research or Teaching Assistantship.

The minimum teaching assignment for PhD candidates holding instructorships is one course during their first semester of study. Depending on staffing needs, there may be an opportunity to teach two courses per semester. Students writing their dissertation may teach an additional course. International students may never teach more than 2 courses per semester owing to visa restrictions. All PhD candidates must be registered in a minimum of 6 hours of course work for each semester in which they hold an instructorship.

Students may enroll in a maximum of 6 hours per semester of 9080 (Readings) if they have completed all their course work and are preparing for their PhD exams. Students may enroll in a maximum of 12 hours of 9080 (Readings) over the course of their doctoral studies, provided this occurs within their first six semesters of financial support. After passing their PhD examination, students may retain their Instructurships if they enroll in Research (9090) for a minimum of 5 credit hours per year (2 in fall; 2 in spring; 1 in summer).

Annual Review

The faculty and course directors in both major languages meet during the fall and spring semesters to evaluate the teaching and academic performance of all graduate students. The director of graduate studies informs all students in writing of their status at the end of each semester. Students who fail to remove a grade of Incomplete will be limited to teaching one course per semester as long that grade of Incomplete remains on their academic record. This restriction applies to courses other than Research (9090).

The PhD Comprehensive Examination

Reading List, Examining Committee, and Faculty Preparing Questions

Each candidate will name a PhD Examining Committee and, as necessary, other faculty members who will prepare examination questions relating to their respective periods of expertise. The Examining Committee consists of at least 4 members: 3 members of the regular (tenured or tenure-track) faculty from the Department of Romance Languages and Literatures, including the student’s academic advisor, 1 outside member from a different department. All of them must belong to the graduate faculty at the University of Missouri. Beyond this minimum, candidates may name other members to the committee - recognized experts in the candidates field - from either the University of Missouri or another institution, with the approval of both the student’s academic advisor and the Director of Graduate Studies.

A member of the regular faculty in the Department of Romance Languages and Literatures who is an expert in literature pertaining to each part of the PhD examination will prepare questions for that part. If there is only one available expert in a specific field (for example, only one regular faculty member who is an expert in Medieval literature of either France or Spain), that faculty member must prepare and grade examination questions relating to that field. If there is more than one expert available in a particular field (for example, more than one member of the regular faculty who is an expert in contemporary French literature, contemporary Spanish literature, or contemporary Spanish-American literature), the student may choose one of those faculty members to prepare and grade questions in that field.

All questions on the PhD Examination derive from a reading list that the candidate compiles with the collaboration and approval of the Doctoral Committee and of all other faculty preparing questions. This list aims at both breadth and depth, but mainly depth. It should include texts of literature, criticism, and history that are indispensable for an expert in the candidate’s specialized field. Yet, in the non-specialized fields, this list should include a solid literary history of all genres in the period (drama, fiction, lyric, essay), while also including literary texts that would prove indispensable only for an undergraduate survey course that the candidate might teach on works of all periods and all genres over a span of two semesters. In other words, readings from this list should yield both a generalist and a specialist - an instructor who can both design and teach a survey course, and an expert who can produce original scholarship.

Timetable of the PhD Comprehensive Examination in French and Spanish

The candidate and the academic advisor set both the dates and the order for all parts of the Comprehensive Examination, in consultation with the Director of Graduate Studies. The Comprehensive Examination in French or Spanish consists of a written and an oral section. The written section comprises 4 parts of 3 hours per part. Candidates complete the written examination on 4 separate days - 1 part per day - within a period of 14 days. They complete the oral examination no later than five weeks after earning a passing grade on all parts of the written examination. This allows candidates to complete the written examination at the end of the fall semester and to complete the oral examination at the start of the spring semester of the same scholastic year.

Either the Director of Graduate Studies or someone delegated by the Director of Graduate Studies will administer the written part of the PhD Examination. Only members of the department faculty of departmental staff may administer the examination.

Oral Examination

Students complete the oral examination after receiving a passing grade on all sections of the written examination. The oral examination will last 1-2 hours, part of which must be in the language of the candidate’s specialized field. The oral exam allows candidates to clarify, strengthen or amplify the answers of the written exam. Only members of the Doctoral Committee must attend the oral examination.

With permission from the Doctoral Committee, students who fail part of the written or oral examination may retake only the failed part of parts. A minimum of 14 days must elapse before a student retakes a failed part or failed parts of the examination. Two failures of the examination, in whole or in part, will terminate candidacy for the degree and result in dismissal from the program.

Prospectus

After passing both the written and oral parts of the PhD Examination, doctoral students present a prospectus of the dissertation. This presentation occurs immediately after completing and passing the oral part of the Examination. Candidates prepare the prospectus in consultation with the academic advisor and deliver it in writing at least one week before the date of the oral examination to all members of the Doctoral Committee. The Prospectus requires approval by all members of the Doctoral Committee.

The prospectus presents a working outline, with a working bibliography, of the proposed project - Its topic, organization, and critical method. Just as important, the prospectus should present a line of inquiry that promises to contribute to human knowledge - a thesis, or a position
that warrants defending by means of both critical analysis and empirical evidence.

Research and Dissertation

Doctoral students register in 9090 (Research) once they have passed their PhD examinations. They will need to enroll for a minimum of 2 credit hours of 9090 during the fall and spring semesters and 1 hour during the summer semester in order to complete the 12 hours of dissertation credits required for graduation. In addition, the program for the doctoral degree must be completed within five years of passing the comprehensive examination. Individual departments or area programs may stipulate a shorter time period. Doctoral students should complete all requirements for the degree, including the dissertation, within five years of passing the comprehensive examination. The Office of Graduate Studies extends this deadline in extenuating circumstances. Nonetheless, students must request additional time in writing from the director of graduate studies. Failure to show sufficient progress on the dissertation may result in dismissal from the graduate program. Students should obtain the Graduate Studies’ guidelines for thesis/dissertation writing since the dissertation must conform to the formatting and style specifications established by the Office of Graduate Studies.

Defense

Candidates and their directors schedule a formal defense of a dissertation after its acceptance by all members of the doctoral committee. This oral defense, conducted by members of the doctoral committee, is open to the public. For additional information, contact the Director of Graduate Studies in the Department of Romance Languages and Literatures.

Russian

Tim Langen, Chair
College of Arts and Science
451 Strickland Hall
(573) 882-4328
grs@missouri.edu

The Department of German and Russian Studies offers courses in German and Russian language, literature, film and civilization. It also offers instruction in Arabic, Chinese, Japanese, Hebrew and Korean. Many courses, such as civilization, culture, literature in translation and film courses, do not require knowledge of a foreign language. The department offers the Bachelor of Arts with majors in German, and in Russian, and the Master of Arts in German, and in Russian and Slavonic Studies. The department also offers minors in German, Russian, Chinese, Japanese, and Korean. Many courses in the minor in East Asian Studies are taught in the Department of German and Russian Studies. The Film Studies program is also housed in the department.

Faculty

Professor G. Barabtarlo*
Associate Professor T. Langen*
Assistant Professor M. Kelly*
Associate Teaching Professor N. Monnier*

* Graduate Faculty Member - membership is required to teach graduate-level courses, chair master’s thesis committees, and serve on doctoral examination and dissertation committees.

** Doctoral Faculty Member - membership is required to chair doctoral examination or dissertation committees. Graduate faculty membership is a prerequisite for Doctoral faculty membership.

• BA in Russian (p. 311)
• Minor in Russian (p. 312)

Dual Degrees and Double Majors

As a double major or a dual degree has become an ever more popular choice, an increasing number of students choose German or Russian as one of their majors. Students looking forward to a career in medicine or in the sciences use a double major to ensure a thorough background in the humanities to balance their scientific studies. Double majors within the College of Arts and Science can be arranged and, if the second degree program is identified early, dual degree programs outside the college are also possible. Combined programs with journalism, international studies, education and business are frequent choices. Within the college, combinations with political science, history, philosophy, art history, and the sciences are popular double major programs.

Departmental Honors - Russian

Departmental honors are available for students majoring in Russian with a minimum 3.3 GPA. A three-course literature sequence must be completed with no grades below B or, at the discretion of the department, a thesis paper may be written.

Beginning Fall 2013: Departmental Honors are available for student majoring in Russian with a minimum 3.5 GPA in the Russian major and 3.3 GPA overall. Students must complete a minimum of three literature courses, two of which must be at the 4000 level, with no grades below a B. At the discretion of the department, students may write a thesis paper in lieu of one of the 4000 level literature courses.

Graduate

• MA in Russian and Slavonic Studies (p. 312)

College of Arts and Science
451 Strickland Hall
(573) 882-4328
https://grs.missouri.edu/

Director of Graduate Studies: Gene Barabtarlo

The Master of Arts program in Russian and Slavonic Studies offers advanced study in the literature and culture of Russia. Course offerings are primarily in literature, but reflect a variety of interrelated fields, including religion, philology, intellectual history, and philosophy. In two years of coursework students receive training in the theory and history of Russian literature and culture in general, as well as an introduction to the history of the language.

Careers

Students may go on to careers in a number of fields, including government work and international business; they will also be prepared to continue their studies at the doctoral level.

Facilities and Resources

The library of the University of Missouri is particularly strong in Russian history and literature. We are also part of a consortium that provides
Financial Support

In this program, qualified graduate students may have the opportunity to work as teaching assistants in language, literature or civilization courses. Incoming graduate students are normally offered paid positions as Teaching Assistants. To be eligible for a teaching assistantship, your application must be received by March 1. Teaching assistants (TAs) are normally appointed for one academic year (two semesters / nine months). The Fall Semester runs from late August to mid-December; the Spring Semester from mid-January to mid-May. TA appointments are normally renewed for the second year of study when teaching and progress toward the degree are satisfactory. Appointments after the second year may be available in special cases, depending upon departmental needs and resources. At present the TA position provides a stipend of approximately $1,000 per month. In addition, tuition for courses taken toward the MA are waived for TAs. Some programs require an extra form or statement from those who wish to be considered for internal assistantships, fellowships or other funding packages. Check the program website or ask the program contact for details. The Graduate School offers several valuable fellowships for which the department may nominate incoming students.

BA in Russian

Degree Program Description

The Russian degree is the exploration of the language, literature, and culture of Russian-speaking countries. The BA in Russian offers you the possibility of participating in this vibrant cultural tradition first hand. The major in Russian consists of 27 credits in Russian beyond RUSS 1200. Within these 27 hours, students must meet minimum requirements within three categories: language, literature, and culture. The Russian faculty strongly encourages all majors to spend at least one semester (or summer) studying abroad, preferably after their second year of the language. Given the liberal arts foundation of a degree in Russian, students pursue careers in a variety of fields or continue their studies. Graduates have pursued careers in journalism, tourism, diplomacy, and education.

Major Program Requirements

The major in Russian consists of 27 credits in Russian beyond RUSS 1200. Within these 27 hours, students must meet minimum requirements within three categories: language, literature, and culture (see below). The Russian faculty strongly encourages all majors to spend at least one semester (or summer) studying abroad, preferably after their second year of the language. In addition, students must meet all degree, college and university graduation requirements (p. 33), including those for university general education (p. 34).

Major core requirements (beyond the A&S language requirement)

Four of the following courses in language or their equivalents (minimum of two at the 3000-plus level) must be included:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>RUSS 2130</td>
<td>Second-Year Russian I</td>
</tr>
<tr>
<td>RUSS 2160</td>
<td>Second-Year Russian II</td>
</tr>
<tr>
<td>RUSS 3001</td>
<td>Topics in Russian-General</td>
</tr>
<tr>
<td>RUSS 3130</td>
<td>Intermediate Russian</td>
</tr>
<tr>
<td>or RUSS 3160</td>
<td>Intermediate Conversation and Composition</td>
</tr>
<tr>
<td>RUSS 3630</td>
<td>Russian Classics I</td>
</tr>
</tbody>
</table>

Three literature or culture courses, chosen from the following, and to include at least one at the 4000-level:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>RUSS 2100</td>
<td>Classics and Iconoclasts: An Introduction to Russian Literature</td>
</tr>
<tr>
<td>RUSS 3005</td>
<td>Topics in Russian-Humanities</td>
</tr>
<tr>
<td>RUSS 3380</td>
<td>Sinners, Saints, and Madmen: 19th Century Russian Literature</td>
</tr>
<tr>
<td>RUSS 3390</td>
<td>True Fictions: Russian Prose since 1900</td>
</tr>
<tr>
<td>RUSS 4005</td>
<td>Topics in Russian-Humanities</td>
</tr>

### Minor in Russian

The department offers a minor in Russian, consisting of 15 credits beyond RUSS 1200. A minimum of 6 of these 15 credits must be in Russian courses numbered 3000 or above. In addition, a minimum of 9 of the 15 credits must be completed in residence.

### MA in Russian and Slavonic Studies

#### Admission Contact Information

Professor Gene Barabtarlo

Send email to Dr. Barabtarlo: barabtarlog@missouri.edu

451 Strickland Hall

Columbia, MO 65211

(573) 882-4328

#### Admission Information

Before applying, please send an informal letter of intent or inquiry to Dr. Barabtarlo at either the physical address or e-mail address above.

#### Admission Criteria

Fall deadline: January 1 (domestic); December 15 (international)

- **Note:** to be eligible for a teaching assistantship, application must be received by March 1

Spring deadline: September 1 (domestic); May 1 (international)

Minimum GPA: 3.0 in last 60 hours

Undergraduate major or minor in Russian or equivalent

Minimum TOEFL scores:

<table>
<thead>
<tr>
<th>Internet-based test (iBT)</th>
<th>Paper-based test (PBT)</th>
</tr>
</thead>
<tbody>
<tr>
<td>61 Effective July 1, 2015 must have score of 80</td>
<td>500 Effective July 1, 2015 must have score of 550</td>
</tr>
</tbody>
</table>

Note: No language other than English and Russian is required for admission.

#### Required Application Materials

- **To the Office of Graduate Studies:**
  - All required Graduate Studies documents

- **To the Program:**
  - 2 letters of recommendation

#### Degree Requirements

Students must complete a minimum of 30 hours of graduate-level courses with a GPA of B or higher. In accordance with the Office of Graduate Studies policy, no fewer than 24 of these must be Russian and Slavonic Studies courses at the 7000 or 8000 level, with at least 12 at the 8000 level. In addition, students must demonstrate adequate language skills in English and Russian.

#### Thesis

A master’s thesis is optional.

### Sociology

Edward E. Brent, Chair
College of Arts and Science
312 Middlebush Hall
brent@missouri.edu

573) 882-9172

Sociology is a discipline founded over 100 years ago to bring the scientific method to the study of human societies. It has pioneered in the development of methods and techniques designed to provide accurate and verifiable information about contemporary societies. It is the inventor of survey research and a host of statistical measures. The techniques created by sociologists are now used in all disciplines concerned with human behavior.

Sociologists today conduct research and reason from research findings to generate deeper understandings of how societies work. The generation of theoretical statements and the testing of those statements in a wide variety of social settings is the core of sociological work. Sociologists are knowledge builders, rather than change agents, although there is an emergent group of scholars who apply sociological knowledge to create changes in organizations, individuals and communities. Sociology contributes to human improvement by seeing that change can be based on credible information and reasoned understanding of how humans work together in groups or larger aggregates.

#### Faculty

- **Professor W. Brekus**, **E. E. Brent Jr.**
- **Assistant Professor** T. Ivory*, N. Jones*
** Doctoral Faculty Member - membership is required to chair doctoral examination or dissertation committees. Graduate faculty membership is a prerequisite for Doctoral faculty membership.

** Undergraduate
• BA in Sociology (p. 313)
• Minor in Sociology (p. 315)

** Departmental Honors
Students with a cumulative GPA of at least 3.3 are eligible for departmental honors in sociology. Qualified students who seek this option must write an honors thesis under the supervision of a sociology faculty member. Students who take the honors thesis option are not required to take SOCIOL 4970. Students enroll in SOCIOL 4995 for 3 credits each semester of the senior year for a total of 6 credits.

** Graduate
• MA in Sociology (p. 315)
• PhD in Sociology (p. 315)

Department of Sociology
312 Middlebush Hall
(573) 882-8331
http://sociology.missouri.edu/grad/graduate-program

** Director of Graduate Studies: Eileen Bjornstrom

** About the Program
The Department of Sociology engages students in research, utilizing qualitative and quantitative research methodologies, in order to analyze issues and problems affecting societies. The core of doctoral training is in classical and contemporary theory, and research methods including quantitative, historical, and feminist methodologies, and interviews and field work.

** Specializations
Students may focus their studies on any two of the following graduate program areas:
• Culture and Identity
• Health, Aging, and Environment
• Political Economy, Power, and Movements
• Social Inequalities

Within these program areas, students conduct research on such topics as gender, health-care policy, popular culture, hunger, race, criminology, sexualities, and elites and protest movements in the global economy.

** Financial Aid from the Program
Financial support for students includes teaching and research assistantships, both of which include remission of educational fees. International students cannot be awarded teaching assistantships until they have completed one semester of residence at MU and pass a test of spoken English.

** BA in Sociology

** Degree Program Description
Sociology is a discipline founded about 100 years ago to bring the scientific method to the study of human societies. It has pioneered in the development of methods and techniques designed to provide accurate and verifiable information about contemporary societies. It is the inventor of survey research and a host of statistical measures. The techniques created by sociologists are now used in all disciplines concerned with human behavior. A Bachelor of Arts with a major in Sociology consists of 33 credits organized to provide progressively more sophisticated levels of sociological analysis culminating in a capstone experience. The degree offers five tracks of study for students who want a closer fit between the major and future employment: Law, Justice and Society; Power, Inequalities and Social Change; Sexuality, Health and the Life Course; Culture, Identity and the Media; Organizations, Work, Technology and the Economy. Sociologists today conduct research and reason from research findings to generate deeper understandings of how societies work. The generation of theoretical statements and the testing of those statements in a wide variety of social settings is the core of sociological work. We are knowledge builders, rather than change agents, although there is an emergent group of "applied sociologists" who use sociological knowledge to create changes in organizations, individuals, and communities. We contribute to human improvement by seeing that change can be based on good information and reasoned understanding of how humans work together in groups or larger aggregates.

** Major Program Requirements
A Bachelor of Arts with a major in Sociology consists of 33 credits organized to provide progressively more sophisticated levels of sociological analysis culminating in a capstone experience or other advanced 4000 level course. It is expected that students start with entry courses, progress to basic courses and then to upper-level electives. In addition, students must complete all degree, College of Arts and Sciences and University graduation requirements (p. 33), including University General Education (p. 34).

** Major core requirements

<table>
<thead>
<tr>

Total Credits 30
Minor in Sociology

To minor in sociology, a student must complete a total of 15 credits of sociology coursework as follows:

- SOCIOL 1000 Introduction to Sociology 3
- SOCIOL 2200 Social Inequalities 3
- Two courses at the 3000-level or above 6
- One other sociology course at any level 3

Total Credits 15

At least nine credit hours for the minor must be from MU courses.

MA in Sociology

About the Master of Arts in Sociology

At this time, our Department is not admitting students who are seeking a terminal master’s degree. However, our doctoral students earn an MA degree en route to the PhD.

Please see the admission criteria for our doctoral degree program (p. 315).

PhD in Sociology

Admission Contact Information

Graduate Admissions Coordinator
Holli Carr (carrh@missouri.edu)
312 Middlebush Hall
Columbia, MO 65211
(573) 882-8331

Admission Criteria

Fall deadline: January 15
- Minimum TOEFL scores:
  - Internet-based test (iBT) 61 Effective July 1, 2015 must have score of 80
  - Paper-based test (PBT) 500 Effective July 1, 2015 must have score of 550
- Minimum GRE score: case-by-case
- 15 hours of undergraduate sociology with a grade of B or better, including one course in sociological theory and a basic statistics course

Required Application Materials

To the Office of Graduate Studies:

- All required Graduate Studies documents
- To the Sociology Program: http://sociology.missouri.edu/grad/admission-and-application-forms
  - GRE score report
  - Departmental application
  - 3 letters of recommendation
  - Statement of research interests
  - Copy of Graduate Studies application (needs to be printed out when done online)
  - Copies of transcripts (it is helpful to have unofficial copies sent to the department)
  - One page Application for Financial Support

PhD Plan of Study

The PhD program requires a minimum of 30 hours of course work including:

- SOCIOL 9187 Seminar in Sociological Theory I 3
- SOCIOL 9487 Seminar in Sociological Theory II 3
- SOCIOL 8120 The Logic of Social Research 3
- SOCIOL 7120 Social Statistics (or its equivalent) 3
- SOCIOL 8130 Advanced Social Statistics 3
- Two seminars in sociological research methods:
  - SOCIOL 7110 Feminist Research and Criticism 3
  - SOCIOL 8187 Seminar on Interview Theory and Technique 3
  - SOCIOL 9287 Seminar in Qualitative Methods in Sociology 3
  - SOCIOL 9288 Ethnographic Fieldwork 3
  - SOCIOL 9687 Topical Seminar in Historical Sociology 3

plus six courses targeted to the student’s specialty interests.

Exams and Research

All students are required to submit a research paper no later than their fourth semester of residence. Students with a Master’s Thesis in sociology can fulfill this requirement as early as their first semester. At least eight months before the date on which they expect to complete the degree, candidates must pass a comprehensive examination centered on two of the five graduate program areas. Students must prepare and successfully defend a dissertation that makes an original contribution to the discipline.

Statistics

Dongchu Sun, Chair
College of Arts and Science
146 Middlebush Hall
(573) 882-6376
www.stat.missouri.edu
umcasstat@missouri.edu

Information is needed to solve the many problems of today’s world. How much information? What kind? After it is obtained, what must be done with it? Statisticians are trained to help answer these questions. Early admission into the Statistics Department will allow students to plan their
programs so that the math and statistics prerequisites can be taken in the most efficient sequence.

The department offers BA, BS, MA and PhD degrees with a major in Statistics. A minor is also available.

**Faculty**

- **Professor** Z. He**, S. Holan**, D. Sun**, J. Sun**, C. K. Wikle**
- **Teaching Professor** S. Lee*, L. D. Ries*
- **Associate Professor** S. Chakraborty**, S. Guha**, A. Micheas**, L. A. Thomsb**
- **Assistant Professor** H. Cao*, T. Ji*, E. Schliep*, X. Zhang*
- **Assistant Teaching Professor** J. Shows*, I. Zaniletti*

- **Graduate Faculty Member - membership is required to teach graduate-level courses, chair master's thesis committees, and serve on doctoral examination and dissertation committees.**
- **Doctoral Faculty Member - membership is required to chair doctoral examination or dissertation committees.** Graduate faculty membership is a prerequisite for Doctoral faculty membership.

**Undergraduate**

- BA in Statistics (p. 317)
- BS in Statistics (p. 318)
- Minor in Statistics (p. 319)

**Credit for Beginning Courses**

(Applies to all students and all majors)

- A student may not receive credit toward an undergraduate degree for more than one of STAT 1200, STAT 1300 and STAT 1400.
- A student may not receive credit toward an undergraduate degree for more than one of STAT 2500 and STAT 2530.
- Subject to the above restrictions, a student may receive a maximum of 4 credits toward an undergraduate degree for any combination of STAT 1200, STAT 1300, STAT 1400, STAT 2200, STAT 2500 and STAT 2530.
- A student may not receive credit toward an undergraduate degree for any statistics course numbered 2999 or below if a statistics course numbered 4000 or above was successfully completed prior to or concurrent with the course in question. Exceptions may be approved at the discretion of the department.

**Department Degree Requirements - Statistics**

The Department of Statistics approves majors in statistics only for students who have met the following criteria:

- Completion of at least one statistics course at the 3000-level or above (or equivalent)
- Cumulative GPA of at least 2.50 overall
- Have earned a grade of C or higher in each statistics course completed

Students are encouraged to supplement their work in statistics with courses from areas such as economics, biology, accounting, finance, marketing, management, psychology, sociology, engineering, agriculture and atmospheric science. In addition, students must complete all degree, college and university graduation requirements (p. 33), including university general education (p. 34).

**Options**

Students may pursue either a BA or a BS degree. For both degrees, students may pursue either a traditional track or an applied track. Students who are interested in graduate study in statistics are strongly encouraged to follow the traditional track.

**Departmental Honors**

To be admitted to the undergraduate honors program in the Department of Statistics, a student must have completed at least 12 of the 21 credits of statistics courses required for the major, have a grade-point average of at least 3.25 in all completed statistics courses, and identify a faculty member from the department who agrees to supervise the student's honors research project.

In order to receive the departmental honors designation, students who have been accepted into the program must graduate with a grade-point average of at least 3.25 in statistics courses, prepare a senior thesis based on their honors project, and present the results of the thesis in a departmental colloquium or other public forum approved by their mentor. They also must earn a grade of "B" or better in 3 credits of STAT 4999.

**Graduate**

- MA in Statistics (p. 319)
  - with emphasis in Biostatistics (p. 320)
  - with emphasis in Data Analytics (p. 321)
- PhD in Statistics (p. 321)
- Graduate Minor in Statistics (p. 322)

Kathleen Maurer, Coordinator of Graduate Studies
146 Middlebush
Columbia, MO 65211

http://www.stat.missouri.edu/

**Director of Graduate Studies:** Athanasios Micheas

**About Statistics**

The statistics department faculty is known for both cutting edge methodological and collaborative research and for outstanding teaching. Faculty members are currently investigating statistical problems in the fields of ecology, genetics, economics, meteorology, wildlife management, epidemiology, AIDS research, geophysics, and climatology. The program's faculty members have ongoing collaborative programs across disciplines such as biostatistics, bioinformatics, economics, atmospheric science, psychology and with the Missouri Department of Conservation.

The graduate program provides opportunities for graduate study and thesis direction in various areas of probability and statistics, both theoretical and applied. A variety of consulting and collaborative opportunities allow both faculty and graduate students to conduct cooperative and interdisciplinary research. Regular statistics colloquia provide opportunities for faculty and outside speakers to present the results of their research. Faculty and graduate students also participate in weekly seminar series in Bayesian statistics, bioinformatics, and biostatistics.
Dual Master’s Degree in Economics and Statistics

The department offers a cooperative MA degree with the Economics Department. Students may obtain MA degrees in economics and statistics with 48 hours of course work numbered 7000 or higher from the University of Missouri instead of the 52 or more required for separate degrees. (These 48 hours may not include any of the following: ECONOM 7351, ECONOM 7353, or STAT 7510, STAT 7530, STAT 7710.) Eighteen or more hours are required from the Department of Economics. At least 15 hours must be numbered 8000 or higher with no more than four hours of 8090. Students must take the core economics courses ECONOM 8451 and ECONOM 8453 and research workshop ECONOM 8413 (2 credit hours). Eighteen or more hours are required from the Department of Statistics. At least 15 hours must be numbered 8000 or higher with no more than three hours of 8090. STAT 7750 and STAT 7760 and MATH 7140 are required if equivalent courses were not taken as an undergraduate.

All candidates must submit a thesis or written project demonstrating an independent effort towards producing original work satisfactory for each degree. The candidate may complete separate theses/projects for both economics and statistics or a single joint thesis/project satisfying both requirements.

Career Opportunities

Statisticians are in demand in education, medicine, government, business and industry as well as in the biological, social and physical sciences.

Facilities & Resources

The Department of Statistics maintains a state-of-the-art computer network with Linux workstations and servers for research and personal productivity software on PCs. Students have access to the network through PCs in student offices and through the statistics department computer laboratory. An extensive library of software including R, SAS, and common programming languages is maintained. Students also have access to the campus computing network. The statistics department is located in newly renovated space in Middlebush, with easy access to the main library’s outstanding collection of books and journals in statistics.

Financial Aid from the Program

Fellowships and teaching and research assistantships are available to qualified graduate students. Some programs require an extra form or statement from those who wish to be considered for internal assistantships, fellowships or other funding packages. Check the program website or ask the program contact for details.

BA in Statistics

Degree Program Description

Statistics is a modern science concerned with making decisions and inferences from empirical data subject to random variability and error. It deals with designing experiments, sample surveys, summarizing numerical information, building and analyzing statistical models, prediction and choosing between alternate actions. Statistics can tell us how much safer it is to fly than drive, the odds of winning the lottery, our life expectancy and who is likely to win the next election. The BA in Statistics allows students to pursue either a traditional track or an applied track. Students who are interested in graduate study are strongly encouraged to follow the traditional track. All students are encouraged to supplement their work in statistics with courses from areas such as economics, biology, accounting, finance, marketing, management, psychology, sociology, engineering, agriculture and atmospheric science. Because of its importance as a scientific method, the demand for trained statisticians has grown in education, medicine, government, business and industry as well as in the biological, social and physical sciences. Students are trained to meet this demand and develop careers in teaching and research.

Major Program Requirements

Students must complete the university general education requirements (p. 34), university graduation requirements (p. 33), and the Department Degree Requirements (p. 316), in addition to the degree requirements below.

BS in Statistics

Degree Program Description

Statistics is a modern science concerned with making decisions and inferences from empirical data subject to random variability and error. It deals with designing experiments, sample surveys, summarizing numerical information, building and analyzing statistical models, prediction and choosing between alternate actions. Statistics can tell us how much safer it is to fly than drive, the odds of winning the lottery, our life expectancy and who is likely to win the next election. The BS in Statistics allows students to pursue either a traditional track or an applied track. Students who are interested in graduate study are strongly encouraged to follow the traditional track. All students are encouraged to supplement their work in statistics with courses from areas such as economics, biology, accounting, finance, marketing, management, psychology, sociology, engineering, agriculture and atmospheric science. Students pursuing the BS degree may elect to take an alternative to a foreign language. Because of its importance as a scientific method, the demand for trained statisticians has grown in education, medicine, government, business and industry as well as in the biological, social and physical sciences. Students are trained to meet this demand and develop careers in teaching and research.

Major Program Requirements

Students must complete the university general education requirements (p. 34), university graduation requirements (p. 33), and Department Degree Requirements (p. 316) in addition to the degree requirements below.

Mathematics courses

| Traditional track | MATH 1500: Analytic Geometry and Calculus I | 5 |
|                  | MATH 1700: Calculus II                      | 5 |
|                  | MATH 2300: Calculus III                     | 3 |
|                  | MATH 4140: Matrix Theory                    | 3 |

| Applied track    | MATH 1500: Analytic Geometry and Calculus I | 5-6 |
|                  | or MATH 1300: Finite Mathematics            |     |
|                  | and MATH 1400: Calculus for Social and Life Sciences I | |

6 additional credits in statistics courses (beyond those used to fulfill the statistics requirements of the degree) or approved statistically-oriented courses, must be numbered 4000 or above

Statistics courses

| Traditional Track     | STAT 4970W: Junior/Senior Seminar - Writing Intensive | 3 |
|                      | STAT 4710: Introduction to Mathematical Statistics  | 3 |
|                      | or STAT 4750: Introduction to Probability Theory    |     |
|                      | STAT 3500: Introduction to Probability and Statistics II | 3 |
|                      | or STAT 4760: Statistical Inference                |     |

12 additional credits offered by the department, at least 9 of which must be numbered 3000 or above and may not include STAT 4050: Connecting Statistics to Middle and Secondary Schools or more than 3 credits of STAT 4999: Departmental Honors in Statistics

Applied Track

| STAT 4970W: Junior/Senior Seminar - Writing Intensive | 3 |
| STAT 4710: Introduction to Mathematical Statistics  | 3 |
| or STAT 4750: Introduction to Probability Theory    | 3 |
| or STAT 3500: Statistical Inference                | 3 |

21 additional credits offered by the department, at least 18 of which must be numbered 3000 or above and may not include STAT 4050: Connecting Statistics to Middle and Secondary Schools or more than 3 credits of STAT 4999: Departmental Honors in Statistics

Computing courses

| Both tracks           | INFOTC 1040: Introduction to Problem Solving and Programming | 3 |
|                      | and 3 additional credits in computer science or other approved computing courses (STAT 4110: Statistical Software and Data Analysis may be used as part of this requirement if it is not counted in statistics group above.) |

Professional writing courses

| ENGLISH 2030: Professional Writing | 3 |
Foreign Language Option for Students Pursuing a BS Degree

Students pursuing the BS degree may elect to take an alternative to a foreign language. Such students must complete no fewer than 12 upper-class credits that are not from the parent department, are not normally required of departmental majors and do not appear elsewhere in the graduation plan. This program must be carefully planned to form a coherent unit and must be approved by the director of undergraduate studies.

The following are examples of foreign language alternatives:

- mathematical sciences
- biological sciences
- behavioral sciences
- physical sciences
- business
- engineering
- economics

+ Course meets University General Education and/or campus requirements

Minor in Statistics

A minor in statistics requires a minimum of 15 credits in statistics courses numbered 3000 or above. The courses used to complete the minor must be chosen in consultation with the director of undergraduate studies and must include at least one of the following:

- STAT 3500 Introduction to Probability and Statistics II 3
- STAT 4710 Introduction to Mathematical Statistics 3
- STAT 4750 Introduction to Probability Theory 3

A maximum of 3 of the 15 credits may be in:

- STAT 4002 Topics in Statistics-Biological/Physical/Mathematics 1-99
- or STAT 4085 Problems in Statistics for Undergraduates

MA in Statistics

Admission Criteria

Fall deadline for regular MA track: January 15
Fall deadline for applied MA track: March 30
Spring deadline: October 15

- Minimum TOEFL scores:
  - Internet-based test (iBT): 74
  - Paper-based test (PBT): 535

- Minimum GPA: 3.0 in math and statistics courses to enter master’s program
- Bachelor’s degree from accredited college or university in related area

Undergraduate courses in statistics are recommended but not required. Consideration also is given to rank in graduating class, trends in grade records, maturity and experience, and other criteria bearing on qualifications.

Before entering the graduate program, a student should have a background that includes three semesters of calculus (or equivalent), one semester of matrix theory, and at least one post-calculus course in probability and statistics. Some required courses at the 7000 level not taken as an undergraduate may be taken for graduate credit as part of the graduate program.

Required Application Materials

To the Office of Graduate Studies:

- All required Graduate Studies documents

To the Program:

- Departmental application
- 3 letters of recommendation (use departmental form)
- Letter of intent
- GRE score report

Degree Completion Requirements

The general requirements for receiving a master’s degree are at least 30 semester hours of course work at the 7000 level or higher, of which at
least 18 hours must be from the Department of Statistics at MU. The 30 hours may not include credit hours of

<table>

Remedial Courses

The following courses are required if equivalent courses were not taken as an undergraduate: MATH 7140, STAT 7750 and STAT 7760. These courses may not be used for more than six of the required 30 hours.

Applied Track Masters of Arts Degree

Required core courses

Students must complete the following six courses or equivalent.

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>STAT 7110</td>
<td>Statistical Software and Data Analysis</td>

<td>Data Analysis II</td>
<td>3</td>
</tr>
</tbody>
</table>

In addition, students must take four elective courses, at least three of which must be selected from the department of statistics course offerings numbered 8000 or above.

Examination

Students in the applied track must pass written and oral master’s exams administered by a departmental committee.

Regular Track Masters of Arts Degree

Original Written Work

All candidates must submit a written report on an independent effort toward producing original work. This report may, with the advisor’s consent, take the form of a thesis, a written review on a set of papers in statistics, or a written report on an independent study project, which may include an original application of statistics. For this work, a student must register for at least three semester hours of STAT 8090.

Presenting the Work

All candidates are required to present an open seminar on the results of the written report. The report should be made available for public review, through the Department of Statistics office, for at least one week before the examination.

Examination

The MA examination covers material presented in the written report and the seminar and may also cover course work.

Satisfactory Progress

Length of Study

A master’s candidate is expected to complete the master’s degree within three calendar years beginning with the first semester of enrollment unless approval is obtained from the graduate faculty of the Department of Statistics.

Grade Requirements

Any student, while a graduate student in this program, who receives a grade of C or lower in six or more hours of courses offered by the Department of Statistics or a grade of C or lower in nine or more hours of all courses taken will be dismissed from the graduate program unless contrary action is taken by the graduate faculty of the department.

For each credit hour over three hours with a grade of C or lower in courses offered by the Department of Statistics at the 7000 level and above, the student must receive a credit hour with a grade of A in courses offered by the department at the 7000 level and above.

MA in Statistics with Emphasis in Biostatistics

Students who wish to specialize in biostatistics may obtain a degree with special emphasis. The general requirements are the same as those for the MA degree in statistics (p. 319). In addition, students must satisfy the following:

1. Take STAT 7410 and either STAT 7420, STAT 8410 or STAT 9410 or the equivalent;

2. Submit a project or thesis related to biostatistics.
MA in Statistics with Emphasis in Data Analytics

Prerequisites
Three semesters of calculus (or equivalent), one semester of linear algebra, and at least one post-calculus course in probability and statistics. At least one course in applied linear models is recommended.

Degree Requirements
At least 30 hours of course work in the Department of Statistics; of these, at least 15 hours must be numbered 8000 or above.

Master’s Exam
All students must pass a written comprehensive exam on the core data analytics portion of the program: STAT 7750, STAT 7760, STAT 8310, STAT 8320. These exams will be administered at least twice per year and may be taken on campus or in testing centers in the United States or Internationally.

PhD in Statistics

Admission Criteria
Fall deadline: January 15
Spring deadline: October 15

• Minimum TOEFL scores:
  - Internet-based test (iBT) 80
  - Paper-based test (PBT) 535

• Minimum GPA: 3.5 in math and statistics to enter PhD program
• Master’s degree from accredited college or university in related area

Before entering the graduate program, a student should have a background that includes three semesters of calculus (or equivalent), one semester of matrix theory, and at least one post-calculus course in probability and statistics. Some required courses at the 7000 level not taken as an undergraduate may be taken for graduate credit as part of the graduate program.

Required Application Materials
To the Office of Graduate Studies:
• All required Graduate Studies documents

To the Program:
• Departmental application
• 3 letters of recommendation (use departmental form)
• Letter of intent
• GRE score report

Qualifying Examination
All doctoral students must pass the qualifying exam, which is offered in August and January of each year. The exam consists of two parts, one covering STAT 7750 and STAT 7760 (Statistical Inference), and a second part covering STAT 8310 and STAT 8320. All doctoral students must take the exams at the first opportunity after taking the required courses, usually in August at the start of the second year. Students have two attempts to pass each part.

Doctoral Committee
Within one semester of passing the qualifying examination, a student must choose a doctoral program committee in consultation with his or her advisor. This committee consists of at least five members, at least three of whom are members of the doctoral faculty in statistics and at least one from another MU doctoral program.

Preliminary Examination
The preliminary exam is a written exam offered in August and January of each year. Before taking the exam, the student is required to have passed the qualifying exams and chosen his/her major professor. The exam consists of two parts: Part one covering STAT 9710 and STAT 9720 and part two covering STAT 9310. Students have two attempts to pass each part. Students must take the preliminary exam at the earliest possible time after passing the qualifying exam and completing the courses required for the preliminary exam, normally the start of the third year of study.

Required Course Work
Before taking the comprehensive examination, students should complete six courses taken at MU or at comparable institutions.

Select six of the following:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>STAT 9100</td>
<td>Recent Developments in Statistics</td>
</tr>
<tr>
<td>STAT 9250</td>
<td>Statistical Computation and Simulation</td>
</tr>
<tr>
<td>STAT 9370</td>
<td>Multivariate Analysis</td>
</tr>
<tr>
<td>STAT 9410</td>
<td>Survival Analysis</td>
</tr>
<tr>
<td>STAT 9530</td>
<td>Data Mining and Machine Learning Methods</td>
</tr>
<tr>
<td>STAT 9640</td>
<td>Bayesian Analysis II</td>
</tr>
<tr>
<td>STAT 9810</td>
<td>Advanced Probability</td>
</tr>
<tr>
<td>STAT 9820</td>
<td>Stochastic Processes</td>
</tr>
</tbody>
</table>

(Different 9100s can be counted more than once.) Other courses may be substituted at the discretion of the student’s doctoral program committee.
Comprehensive Examination

After successfully completing the preliminary exam and the required coursework, the student is eligible to take the comprehensive examination. This examination consists of a written and oral section as specified in the Graduate Studies catalog. This examination must be completed at least seven months prior to the final defense of the dissertation.

Dissertation

A dissertation, prepared under the direction of a dissertation supervisor, is required. The dissertation should be presented in an open seminar as part of the final examination, which is conducted by the final examination committee. The dissertation should be made available for public review, through the Department of Statistics office, for at least one week before the examination.

Additional Requirements

Additional requirements for the PhD in statistics are determined by the student's program committee and the director of graduate studies.

Graduate Minor in Statistics

Master’s Minor

To receive a designated minor in statistics for a master's degree, at least 12 credit hours of course work at the 7000 level or higher must be completed from the Department of Statistics at MU. The courses should be unified in theme and must be approved by the Director of Graduate Studies of the Department of Statistics.

The courses must be completed with an average grade of B (3.0) or higher.

The courses may not include:

<table>
<thead>
<tr>
<th>Course</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>STAT 7002</td>
<td>Topics in Statistics-Biological/Physical/Mathematics</td>
</tr>
<tr>
<td>STAT 7070</td>
<td>Statistical Methods for Research</td>
</tr>
<tr>
<td>STAT 7085</td>
<td>Problems in Statistics for Non-majors</td>
</tr>
<tr>
<td>STAT 8085</td>
<td>Problems in Statistics for Majors - Masters</td>
</tr>
<tr>
<td>STAT 9085</td>
<td>Problems in Statistics for Majors - PhD</td>
</tr>
</tbody>
</table>

The courses may not include more than one course from:

<table>
<thead>
<tr>
<th>Course</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>STAT 7710</td>
<td>Introduction to Mathematical Statistics</td>
</tr>
<tr>
<td>STAT 7750</td>
<td>Introduction to Probability Theory</td>
</tr>
</tbody>
</table>

PhD Minor

To receive a designated minor in statistics for a PhD degree, at least 15 credit hours of course work at the 7000 level or higher must be completed from the Department of Statistics at MU.

Courses may not include:

<table>
<thead>
<tr>
<th>Course</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>STAT 7002</td>
<td>Topics in Statistics-Biological/Physical/Mathematics</td>
</tr>
<tr>
<td>STAT 7020</td>
<td>Statistical Methods in the Health Sciences</td>
</tr>
<tr>
<td>STAT 7050</td>
<td>Connecting Statistics to Middle and Secondary Schools</td>
</tr>
<tr>
<td>STAT 7070</td>
<td>Statistical Methods for Research</td>
</tr>
<tr>
<td>STAT 7085</td>
<td>Problems in Statistics for Non-majors</td>
</tr>
</tbody>
</table>

Students must have at least one course in calculus-based statistics and the equivalent of at least two courses in an applied statistics sequence. The calculus-based statistics requirement can be met by STAT 7710 or STAT 7760 or above, but no more than 6 hours of STAT 7710, STAT 7750, and STAT 7760 can be counted towards the 15 hours. The applied sequence requirement can be satisfied by either STAT 7510/STAT 8220 or STAT 8310/STAT 8320. At most one course from STAT 7510 and STAT 8310 can be counted and at most one course from STAT 8220 and STAT 8320 can be counted towards the 15 hours.

The plan of study must be approved by the Director of Graduate Studies of the Statistics Department and be completed with an average grade of B (3.0) or higher. Each student is encouraged to seek approval of his/her plan of study as soon as possible.

Theatre

Dr. Heather Carver, Chair
College of Arts and Science
Rhynsburger Theatre
129 Fine Arts Center
(573) 882-2021
http://theatre.missouri.edu

The Department of Theatre offers students an appreciation of theatre as a fine art, sharpens the talents of those who seek careers in theatre and provides students with methods of stimulating and using their imagination and intensifying their communication skills.

The department offers BA, MA and PhD degrees with a major in Theatre. A minor is also available.

Faculty

Associate Professor K. Brown**
Assistant Professor B. Carlson*, C. Syler**
Assistant Teaching Professor J. A. Drtina, C. Gleason*

* Graduate Faculty Member - membership is required to teach graduate-level courses, chair master's thesis committees, and serve on doctoral examination and dissertation committees.
** Doctoral Faculty Member - membership is required to chair doctoral examination or dissertation committees. Graduate faculty membership is a prerequisite for Doctoral faculty membership.

Undergraduate

- BA in Theatre (p. 323)
  - with emphasis in Design/Technical (p. 324)
  - with emphasis in Performance (p. 325)
  - with emphasis in Writing for Performance (p. 326)
- Minor in Theatre (p. 326)
**Departmental Honors**

To graduate with honors in theatre, a student must earn a minimum overall MU GPA of 3.3 and earn a minimum GPA of 3.5 in courses in theatre completed at the University of Missouri.

**Double Majors**

Many students in theatre choose either a double major or a minor in another area. In either case, the student must see a theatre advisor for approval.

**Graduate**

- MA in Theatre (p. 326)
- PhD in Theatre (p. 328)

Theatre Graduate Programs

**Director of Graduate Studies:** Cheryl Black

**About the Department of Theatre**

The MU Department of Theatre has a distinguished history that began shortly after 1900 when a small group of aspiring thespians resolved to enhance the cultural life of the campus by producing plays in an abandoned dining room in Lathrop Hall. In 1925, Professor Donovan Rhynsburger joined the MU faculty and established the Missouri Workshop Theatre. For over 85 years, the department has sustained a national and international reputation as a major center for theatre and performance scholarship and dramatic art production. In 2007 "Academic Analytics" ranked MU Department of Theatre #4 nationally for scholarly productivity in Theatre Literature, History, and Criticism (reported in Chronicle of Higher Education, November 11, 2007). MU Theatre offers graduate and undergraduate programs.

A professional faculty comprises internationally recognized scholars and artists who develop the talents, skills and knowledge of students by teaching them to combine scholarship with artistry. MU has consistently produced fine theatre and notable alumni, including Tennessee Williams, George C. Scott, Tom Berenger, Chris Cooper, Jon Hamm, Ethel Pitts Walker, and Barbara Molette. MU students have won the prestigious David Library Award seven times, several nationally coveted awards like the Mark Twain Comedy Prize, and departmental productions have been cited for national awards by the Kennedy Center American College Theater Festival, the National Communication Association, and the Association of Theatre in Higher Education. Graduate students in the department have won numerous campus, professional and national awards, fellowships and research grants for their scholarship and artistry. The department is proud of its legacy of artistic excellence and the enrichment it brings to the cultural life of the campus and community.

**Facilities**

Rhynsburger Theatre. Named after Donovan Rhynsburger, MU’s principal theatre for dramatic productions is in the Fine Arts Building, which also houses the music and art departments. The 278-seat proscenium theatre has a large stage and fly system with well-equipped costume and scenic shops located adjacent to the stage. The theatre houses faculty offices, classrooms, shops, dressing rooms and other production support spaces. Students interested in lighting and sound production will find a variety of equipment and modern control systems on which to learn their craft. We’re also thrilled to announce the addition of a new, state-of-the-art professional computer graphics lab in 2012.

Corner Playhouse. The Corner Playhouse provides an opportunity for students and faculty to present smaller, often more experimental productions in a flexible space. Seating up to 125, the theatre is designed to accommodate any stage configuration. Across the street from the Rhynsburger Theatre, the Corner Playhouse also houses dressing rooms, graduate student offices and classrooms.

**Satisfactory Progress: General Guidelines for MA and PhD in Theatre**

**Probationary Status**

The following constitute grounds for placing a student on departmental probation:

Earning a grade of C or below in any departmental course taken for graduate credit will result in probationary status. A grade of incomplete in any course will result in probationary status for the subsequent semester. Incomplete grades must be changed to a grade of A or B by the end of the probationary semester (dissertation research incompletes are evaluated as S/U until the dissertation is defended). Failure to comply in a satisfactory manner with all responsibilities related to graduate assistantships. Graduate students in our department are expected to conduct themselves in a manner reflecting the university’s commitment to professional integrity, collegiality, and good citizenship. Students who consistently fail to conduct themselves in this manner may be subject to probation or dismissal. In the case of each student on departmental probation, the director of graduate studies will confer with the advisor (in the case of an MA student), or the members of the program committee (in the case of a PhD student) to determine the grounds for removal of probation, and will communicate this decision to the student.

**Annual Review**

Each Fall semester the director of graduate studies convenes the Graduate Studies Committee to review the progress and performance of all graduate students.

Each graduate student in residence should meet with his or her advisor within the first two weeks of each semester to determine whether satisfactory progress has been maintained, and the advisor shall report the results of this meeting to the director of graduate studies.

**Losing & Regaining Financial Support**

Termination of departmental financial support will result if the student is considered to be making unsatisfactory progress and the student’s program may be terminated. Departmental financial support may be restored when the student has made satisfactory progress toward a graduate degree for one semester, has made an A or B in all incomplete courses, and is judged to be off probation by the director of graduate studies.

**BA in Theatre**

**Degree Program Description**

The study of Theatre focuses upon the produced play, past, present, and future. The BA in Theatre offers students an appreciation of theatre as a fine art, sharpens the talents of those who seek careers in theatre and
provides students with methods of stimulating and using their imagination and intensifying their communication skills. Students must choose from one of three emphasis areas: Design/Technical, Performance, and Writing for Performance. The curriculum includes: examining the heritage of theatre through dramatic literature and theatre history, exercises in theatrical skills, artistic training in design and performance, and theory and criticism of theatre. The Rhynsburger Theatre, the Corner Playhouse, and outreach programs serve as laboratories for ongoing examination of theatre in society, responsive to social issues. Working with faculty and staff of professionally trained actors, directors, and designers, students focus on performance, writing for performance, and theatre design and technology. MU undergraduate theatre students have taken their work to the Kennedy Center American College Theatre Festival, winning awards in acting, playwriting, design, and dramaturgy. After graduation, many of our students find work in film, television, and the professional theatre as actors, directors, designers, stage managers, artists, and technicians, or go on to graduate school to further their theatre education.

**Major Program Requirements**

The major in Theatre consists of core courses and an emphasis area. In addition, all students must complete all College of Arts and Sciences and University graduation requirements (p. 33), including University General Education (p. 34). All courses used to satisfy requirements for the major must be completed with a grade of C or higher.

**Emphasis Areas**

Theatre students must also complete an emphasis area in Performance (p. 325), Design/Technical (p. 324) or Writing for Performance (p. 326).

**Semester Plan**

Refer to the semester plan for the Performance (p. 325), Design/Technical (p. 324), and/or Writing for Performance (p. 326). Otherwise contact the academic departments for assistance with academic planning.

**BA in Theatre with Emphasis in Design/Technical**

**Degree Program Description**

Students in the BA in Theatre with emphasis in Design/Technical study scene design, lighting design, costume design, sound design, theatre technology, and stage management. They further their studies with additional classes in beginning and advanced scenic and costume construction, makeup, stagecraft, costume crafts, pattern making, scene painting, and theatre architecture. Theatre design students sketch design ideas with pencil and paper, and render those design ideas in 3-D in our computer labs, combine traditional stagecraft techniques with state of the art computer technology, digital image projection, and digital sound mixing. Students participate behind the scenes in a variety of productions -- from main stage faculty-directed musicals and plays, to student-directed shows, ensembles and workshops, take on major roles in our production program as scenic designers, lighting designers, costume designers, sound designers, projection designers, and makeup designers, work as stage managers, carpenters, electricians, riggers, stitchers, cutters, drapers, wardrobe supervisors, props supervisors, lighting and sound board operators, followspot operators, stagehands, and crew members. Graduates work in all areas of the entertainment industry as designers, technicians, directors, teachers, Broadway producers and stage managers, theatre managers, casting agents, box office managers, and scenic artists. We have a strong network of alumni who support one another as they design and build scenery, props, and costumes, mix sound, renovate historic theatres, and work professionally backstage, behind the scenes, and behind the camera in theatre, film, and television in New York, Chicago, Los Angeles, and across the country.

Total Credits: 119-120

emphasis for a sample semester plan.

### BA in Theatre with Emphasis in Performance

#### Degree Program Description

Students in the BA in Theatre with emphasis in Performance are offered a curriculum that includes a sequence of acting and performance classes, emphasizing scene study in comedy and drama, contemporary and period styles, stage movement, vocal performance, and musical theatre performance. But it’s more than just acting, singing, and dancing – our performance students take introductory and advanced classes in theatre history, script analysis, directing, stage combat, improvisation, American musicals, stage makeup, storytelling, folklore, performance art, performance of literature, and theatre of the oppressed. Students have the opportunity to put into practice what they learn in the classroom by performing in a variety of productions -- from main stage faculty-directed musicals and plays, to student-directed shows, ensembles and workshops. College credit can be earned during the academic year for performing in MU Theatre productions, as well as those of the World Theatre Workshop, the MU Center for Applied Theatre and Drama Research, the Missouri Playwrights Workshop, the Larry Clark Actor’s Workshop, and the Troubling Violence Performance Project, and during the summer as a member of our our professional Summer Repertory Theatre company. MU Theatre alumni are involved in theatre, film, and television in New York, Chicago, Los Angeles, and across the country. They are actors, singers, dancers, directors, stage managers, musicians, storytellers, and teachers, who share their love of theatre and the performing arts by entertaining and enlightening audiences everywhere.

Students must complete all College of Arts and Science and University graduation requirements (p. 33), including University general education (p. 34).

### BA in Theatre with Emphasis in Performance

#### Degree Program Description

Students in the BA in Theatre with emphasis in Performance are offered a curriculum that includes a sequence of acting and performance classes, emphasizing scene study in comedy and drama, contemporary and period styles, stage movement, vocal performance, and musical theatre performance. But it’s more than just acting, singing, and dancing – our performance students take introductory and advanced classes in theatre history, script analysis, directing, stage combat, improvisation, American musicals, stage makeup, storytelling, folklore, performance art, performance of literature, and theatre of the oppressed. Students have the opportunity to put into practice what they learn in the classroom by performing in a variety of productions -- from main stage faculty-directed musicals and plays, to student-directed shows, ensembles and workshops. College credit can be earned during the academic year for performing in MU Theatre productions, as well as those of the World Theatre Workshop, the MU Center for Applied Theatre and Drama Research, the Missouri Playwrights Workshop, the Larry Clark Actor’s Workshop, and the Troubling Violence Performance Project, and during the summer as a member of our our professional Summer Repertory Theatre company. MU Theatre alumni are involved in theatre, film, and television in New York, Chicago, Los Angeles, and across the country. They are actors, singers, dancers, directors, stage managers, musicians, storytellers, and teachers, who share their love of theatre and the performing arts by entertaining and enlightening audiences everywhere.

Students must complete all College of Arts and Science and University graduation requirements (p. 33), including University general education (p. 34).

129 Fine Arts Building; Columbia, MO 65211
(573) 882-2021
https://theatre.missouri.edu/grad/welcome-and-overview

### Degree Program Description

Student in the BA in Theatre with emphasis in Writing for Performance are offered a curriculum that includes a sequence of creative writing and literature classes, emphasizing the art and craft of writing as it applies to theatre and performance. MU student playwrights tell their stories through the words and actions of the characters they create. Students take a series of introductory and advanced classes in playwriting, acting, directing, dramaturgy, theatre history, script analysis, performance studies, world dramatic literature, adaptation of literature for stage and film, and screenwriting for film and television. They study dramatic structure, plot and story structure, complex character development, and special playwriting problems and techniques. Students participate in our annual Life and Literature Performance Series which is a celebration of original student plays, stories, poetry, and adaptations of literature, devised theatre, ethnography, performance art, music, and dance. Student playwrights have their new plays performed every week at our Missouri Playwrights Workshop, presented as concert readings during our annual Mizzou New Play Series and summer Comedies-in-Concert Series, and fully produced during our Academic Season as MU Theatre mainstage productions. Students are regularly invited to share their ten-minute plays, one-act plays, and full-length plays at local, regional, and national theatre events, including the annual Kennedy Center American College Theatre Festival. Graduates are involved in theatre, film, and television productions in New York, Chicago, Los Angeles, and across the country. They are playwrights, screenwriters, dramaturgs, editors, storytellers, and teachers, who share their imagery, creativity, and theatrical imagination with audiences everywhere.

Students must complete all College of Arts and Science and University graduation requirements (p. 33), including University general education (p. 34).

blackc@missouri.edu

**Admission Criteria**

https://theatre.missouri.edu/grad/application-process

Deadline: January 15 for the following fall semester admission. We only admit once a year, barring extraordinary circumstances.

- Minimum TOEFL scores:
  - Internet-based test (iBT) 112  
  - Paper-based test (PBT) 650

- Minimum GRE scores:

<table>
<thead>
<tr>
<th>When did you take the GRE?</th>
<th>Verbal</th>
<th>Quantitative</th>
<th>Analytical</th>
</tr>
</thead>
<tbody>
<tr>
<td>Prior to August 1, 2011</td>
<td>600</td>
<td>500</td>
<td>4.0</td>
</tr>
<tr>
<td>On or After August 1, 2011</td>
<td>160</td>
<td>146</td>
<td>4.0</td>
</tr>
</tbody>
</table>

- Minimum GPA: 3.0 in the last 60 hours

Probationary admission is possible. The director of graduate studies will advise the student in writing of what must be done to change the probationary admission to regular admission.

**Required Application Materials**

*To the Office of Graduate Studies:*
- All required Graduate Studies documents

*To the Theater Program:*
- 3 letters of recommendation  
- GRE score report  
- Statement of purpose  
- Scholarly writing sample

**Financial Aid from the Program**

Some programs require an extra form or statement from those who wish to be considered for internal assistantships, fellowships or other funding packages. Check the program Web site or ask the program contact for details.

**Curriculum Requirements**

The degree of Master of Arts in Theatre will be awarded upon completion of the curriculum outlined below with a GPA of 3.0 or better.

**Completed Undergraduate Curriculum**

Most students have completed this course of study before seeking admission to MU. However, applicants holding undergraduate degrees in disciplines other than theatre will be asked to complete those courses, which were not part of their undergraduate curriculum. In some cases professional theatre experience may substitute for certain courses. Twelve courses in the undergraduate curriculum should be distributed as follows:

Basic skills: at least one course in each of the following: voice and articulation, movement for the stage, script analysis, technical theatre; at least one upper-division course in each of the following: acting, directing, dramatic literature, theatre history; at least two upper-division courses in technical theatre; and two upper-division theatre electives.

**Graduate Curriculum**

The student must complete at least 24 graduate hours while in residence as a graduate student at MU. The academic program should be established in consultation with an advisor not later than the end of the first full semester of residence. No more than six semester hours of graduate work may be transferred from another university. The student submits Form M-1, Application for Degree of Master of Arts to the Graduate Studies listing the courses to be taken to complete the graduate curriculum.

**Independent Project**

Each candidate for the MA must complete an independent project, which should be specified on the M-1 form as part of the plan of study.

There are three options:
1. This may be a thesis, for which up to six semester hours of credit in Theatre Research may be earned.
2. Another option is to write an original performance/play, translate a play/Performance, or complete a project in acting, design, adaptation/devising, dramaturgy, solo performance or directing. Credit of up to three semester hours may be earned in a graduate problems course.
3. A student may create and successfully execute a research project to earn three semester hours in a graduate course in independent research.

**Satisfactory Progress: General Guidelines for MA in Theatre**

**Probationary Status**

The following constitute grounds for placing a student on departmental probation:

Earning a grade of C or below in any departmental course taken for graduate credit will result in probationary status. A grade of incomplete in any course will result in probationary status for the subsequent semester. Incomplete grades must be changed to a grade of A or B by the end of the probationary semester (dissertation research incompletes are evaluated as S/U until the dissertation is defended). Failure to comply in a satisfactory manner with all responsibilities related to graduate assistantships. Graduate students in our department are expected to conduct themselves in a manner reflecting the university’s commitment to professional integrity, collegiality, and good citizenship. Students who consistently fail to conduct themselves in this manner may be subject to probation or dismissal. In the case of each student on departmental probation, the director of graduate studies will confer with the advisor (in the case of an MA student), or the members of the program committee (in the case of a PhD student) to determine the grounds for removal of probation, and will communicate this decision to the student.
Annual Review
Each Fall semester the director of graduate studies convenes the Graduate Studies Committee to review the progress and performance of all graduate students.

Each graduate student in residence should meet with his or her advisor within the first two weeks of each semester to determine whether satisfactory progress has been maintained, and the advisor shall report the results of this meeting to the director of graduate studies.

Losing & Regaining Financial Support
Termination of departmental financial support will result if the student is considered to be making unsatisfactory progress and the student’s program may be terminated. Departmental financial support may be restored when the student has made satisfactory progress toward a graduate degree for one semester, has made an A or a B in all incomplete courses, and is judged to be off probation by the director of graduate studies.

Master’s Final Examination
Master’s degree students who have been maintaining satisfactory progress toward a degree for a period of 24 months are expected, barring unusual and extenuating circumstances, to be prepared to write the master’s final examination.

Each candidate for the MA is required to pass a final examination to demonstrate mastery of the fundamental principles of the work included in the course of study. An examining board consisting of at least three members of the faculty shall administer the examination.

In consultation with his or her advisor the student selects four areas for examination from among those listed below:

At least two but no more than three areas may be selected from among:
- Theatre History and Historiography
- Dramatic Literature and Criticism
- Dramatic and Performance Theory
- Performance Studies and Writing for Performance

At least one but no more than two areas must be selected from among:
- History, Theory or Pedagogy of Acting or Directing
- History, Theory or Pedagogy of Dramaturgy
- History, Theory or Pedagogy of Theatrical Design
- History, Theory or Pedagogy of Performance Studies
- History, Theory or Pedagogy of Playwriting/Writing for Performance

Length of Exam
Two hours are allotted for answering the question(s) for each area, making a total of eight hours for the examination.

Notifying the Graduate School of Results
As soon as the performance on the Master’s Final Examination has been evaluated, the student’s advisor informs the Graduate School, using the appropriate M-form.

If one area examination is unsatisfactory, the examining board will give the student an oral examination on that area, with special emphasis on the questions or questions missed. If two area examinations are unsatisfactory, the student is failed.

Financial Aid from the Program
Some programs require an extra form or statement from those who wish to be considered for internal assistantships, fellowships or other funding packages. Check the program website or ask the program contact for details.

Careers
The doctorate in theatre at MU aims to provide knowledge and research skills necessary to launch the successful student on a career of scholarly and artistic investigation of theatre history, performance theory and
criticism, performance studies, playwriting and other modes of writing for performance (such as adaptation and translation), dramaturgy, performance and theatre pedagogy.

Qualifying Examination
During the first semester of residence, the student completes a qualifying examination. The Graduate Affairs Committee of the Department of Theatre meets with the student to discuss the student’s academic background, career goals and research interests for an oral review and discussion of their proposed course of study. The advisor submits the D-1 form, Qualifying Process/Confirmation of Advisor, reporting on the departmental qualifying process.

Advisory Committee: Form D-1
Doctoral Program Committee asks the graduate dean to approve a committee of four graduate faculty members to help the student plan and carry out a program. One member of the Doctoral Program Committee must come from outside the Department of Theatre.

Program Planning
As early as is practical, usually in the student’s second semester on campus, the student should meet with the Doctoral Program Committee to plan a doctoral program. The student should prepare a trial plan in consultation with the faculty advisor who serves as chair of the Doctoral Program Committee and reports the approved plan of study to the graduate dean on Form D-2: Doctoral Plan of Study.

Theatre Department Course Work
Although the Graduate School requires no specific number of hours of class work, the Department of Theatre typically requires students entering the program with a master’s degree to complete about 40 semester hours of graduate level course work in the theatre department, including three semester hours of Dissertation Research, devoted to writing a dissertation prospectus.

Doctoral Minor
The department also requires the student to complete a doctoral minor, a nine-semester-hour unified area of study outside the Department of Theatre.

Research Tool Options
The PhD in Theatre also includes a research tool requirement that may be satisfied in several ways:

1. Option One: Present evidence of translation ability in each of two foreign languages in one of the following ways: by receiving an acceptable score on a GFSLT Humanities examination if the language is French, German or Spanish (Acceptable scores at this time are: French 570, German 560 and Spanish 540) by receiving certification of competence from a qualified examiner if other languages are presented by showing on one’s transcript a grade of B or better on a literature course at MU. (This course must require reading of works in the foreign language. The course may be taken during the doctoral program or within the five years prior to beginning the program.)
2. Option Two: Demonstrate a high degree of fluency in one foreign language by individual examination conducted by the appropriate language department at MU.
3. Option Three: Choose one language and one block of courses. Demonstrate translation ability for one language as in Option One. Complete with grades of B or better six semester hours in graduate courses taken outside of the department that represent a coherent unit of study, providing a research tool applicable to the candidate’s dissertation research.
4. Option Four: Choose two blocks of courses. Complete with grades of B or better two blocks of course work of six hours each in graduate level courses taken outside of the department that must represent to the candidate’s advisory committee a coherent unit of study. One or both blocks should provide a research tool for the candidate’s dissertation.

Participation in Productions
The doctoral student is encouraged to participate in University Theatre and studio theatre productions and may, in some cases, be required to do so. Academic credit is available.

Satisfactory Progress Guidelines for the PhD in Theatre

Probationary Status
The following constitute grounds for placing a student on departmental probation:

• Earning a grade of C or below in any departmental course taken for graduate credit will result in probationary status.
• A grade of incomplete in any course will result in probationary status for the subsequent semester. Incomplete grades must be changed to a grade of A or B by the end of the probationary semester (dissertation research incompletes are evaluated as S/U until the dissertation is defended).
• Failure to comply in a satisfactory manner with all responsibilities related to graduate assistantships. Graduate students in our department are expected to conduct themselves in a manner reflecting the university’s commitment to professional integrity, collegiality, and good citizenship.
• Students who consistently fail to conduct themselves in this manner may be subject to probation or dismissal. In the case of each student on departmental probation, the director of graduate studies will confer with the advisor (in the case of an MA student), or the members of the program committee (in the case of a PhD student) to determine the grounds for removal of probation, and will communicate this decision to the student.

Annual Review
Each Fall semester the director of graduate studies convenes the Graduate Studies Committee to review the progress and performance of all graduate students.

Each graduate student in residence should meet with his or her advisor within the first two weeks of each semester to determine whether satisfactory progress has been maintained, and the advisor shall report the results of this meeting to the director of graduate studies.

Losing & Regaining Financial Support
Termination of departmental financial support will result if the student is considered to be making unsatisfactory progress and the student’s program may be terminated. Departmental financial support may be restored when the student has made satisfactory progress toward
a graduate degree for one semester, has made an A or a B in all
incomplete courses, and is judged to be off probation by the director of
graduate studies.

Satisfactory Progress Before the Comprehensive Exam

Each semester prior to the semester in which comprehensive
examinations are taken, satisfactory progress is maintained when
a student completes nine semester hours of graduate level work
with a grade of B or above. Incomplete grades are given only under
extraordinary circumstances and with the approval of the graduate
faculty. Doctoral students who have been maintaining satisfactory
progress toward a degree for a period of 36 months are expected,
barring unusual and extenuating circumstances, to be prepared to write
comprehensive examinations.

Satisfactory Progress During and After Comps

For the semester in which comprehensive examinations are taken and in
semesters after comprehensive exams and orals are passed, satisfactory
progress is maintained when, in the judgment of the student’s dissertation
advisor, the student is making satisfactory progress toward completion of
the dissertation.

Students who leave MU having completed all but the dissertation must
maintain continuous enrollment by registering for two semester hours
of Dissertation Research each fall and spring term and one hour in the
summer term. Failure to register negates a student’s candidacy.

Graduate Studies Regulations on Satisfactory Progress

The Graduate Studies regulations regarding a reasonable rate of
progress for doctoral students enrolled during or after Fall 2000: Effective
for students beginning their doctoral studies during or after Fall Semester
2000, a PhD student must successfully complete the comprehensive
exam within a period of five years beginning with the first semester of
enrollment as a PhD student. For an extension of this time limit, the
student must petition the Office of Graduate Studies by submitting a
request to the advisor, who, in turn, submits, via the departmental
director of graduate studies, a written recommendation to the Office
of Graduate Studies. The Theatre Department recommends taking
comprehensive exams no later than the third year of consecutive full
enrollment. Only students who have taken and passed their exams by
May of their third year of assistantship will be considered for a fourth year
of assistantship with the department.

All requests for extensions should be endorsed by the departmental
director of graduate studies and should be accompanied by a description
of the process whereby currency in the discipline is certified, if required
by the department.

Dissertation Proposal/Prospectus

Before comprehensive exams may be scheduled, students will be
required to complete a 5-page Dissertation Proposal, concisely but clearly
expressing the purpose, justification, method and general organizational
plan for the dissertation. A bibliography is also required (bibliography
is not included in 5 pp. minimum). The theatre department faculty
members on student’s doctoral committee must approve this proposal.
After successful completion of comprehensive exams, the student will
expand the dissertation proposal into a Dissertation Prospectus —
work. The student and the committee members are encouraged to work together to identify steps the student might take to become fully prepared for the next examination. If at any time the student believes that the advice given by the committee is inadequate, the student may send a written request for clarification to the committee. A copy of this request should be sent to the Graduate School. The committee must respond to this request in writing within two weeks with a copy to the Graduate School. Failure to pass two comprehensive examinations automatically prevents candidacy for the doctorate in theatre at MU.

Completing the Dissertation

The final step is completion and approval of the doctoral dissertation. The director of graduate studies can provide the student a copy of Guidelines for Preparing Theses and Dissertations.

Formatting

Dissertations in the Department of Theatre should be formatted according to the latest edition of A Manual for Writers of Term Papers, Theses, and Dissertations, ed. Kate L. Turabian or the MLA Handbook; the chosen format must meet with the dissertation advisor's approval.

Graduate School Paperwork

Form D-4, Report of the Doctoral Dissertation Defense, indicates that the student has defended the dissertation at an oral examination.

Advisory and Committee Approval of the Dissertation

No draft of the dissertation can be considered a final draft until the advisor (First Reader) has approved it. All dissertation committee members must have at least 10 days to read the dissertation before the last date for oral examination as published by the Office of Graduate Studies. Unanimous approval of the dissertation by four committee members constitutes satisfactory completion of this examination.

Additional Minors and Certificates

- A&S

Undergraduate Certificates

- Certificate in American Constitutional Democracy (p. 331)
- Certificate in Jazz Studies (p. 337)
- Certificate in Korean Studies (p. 337)
- Certificate in Latin American Studies (p. 337)
- Certificate in Leadership and Public Service (p. 338)
- Certificate in Luso-Brazilian Area Studies (p. 338)
- Certificate in Medieval and Renaissance Studies (p. 338)
- Certificate in Middle East Studies (p. 338)
- Certificate in Military Science (p. 339)

Certificate in American Constitutional Democracy

For general questions about the certificate, contact:
Justin Dyer, Program Director
(573) 882-3777
dyerjb@missouri.edu

Political Science Academic Advisor
(573) 882-2580
politicalscience@missouri.edu

The certificate in American Constitutional Democracy recognizes students who have completed twelve (12) hours of coursework on the history, theory, and practice of American constitutional self-government. In contrast to the minor, students pursuing the certificate are not required to complete a study abroad course or internship. Note: courses used to
satisfy a major requirement may also count toward a certificate. However, students may not receive credit for both the certificate and the minor in American Constitutional Democracy.

Students must maintain a “B” average (3.0 GPA) in all certificate coursework. All coursework must be completed at MU.

Must complete 12 hours from the following courses:

- **CL_HUM 3100** The Age of Pericles 3
- **CL_HUM 4800** Political Thought in Classical and Christian Antiquity 3
- **ECONOM 4004** Topics in Economics - Social Science (American Political Economics) 1-3
- **ECONOM 4320** History of Economic Thought 3
- **ECONOM 4367** Law and Economics 3
- **GN_HON 2010H** Honors Tutorial (The Affordable Care Act & the Constitutional Order) 1-3
- **GN_HON 2010H** Honors Tutorial (Arbitration and Liberty of Contract) 1-3
- **GN_HON 2010H** Honors Tutorial (Constitutional Interpretation) 1-3
- **GN_HON 2010H** Honors Tutorial (Crisis and Constitutional Government) 1-3
- **GN_HON 2010H** Honors Tutorial (Give Me Liberty or Give Me Arbitration) 1-3
- **GN_HON 2010H** Honors Tutorial (Hamilton and the Constitutional Foreign Affairs Powers) 1-3
- **GN_HON 2010H** Honors Tutorial (The Idea of Human Rights) 1-3
- **GN_HON 2010H** Honors Tutorial (The Impeachment Power & American Constitutional Balance) 1-3
- **GN_HON 2010H** Honors Tutorial (The Inalienable Right to the Pursuit of Happiness) 1-3
- **GN_HON 2010H** Honors Tutorial (Justice) 1-3
- **GN_HON 2010H** Honors Tutorial (Liberal Democratic Theory and Practice) 1-3
- **GN_HON 2010H** Honors Tutorial (An Overview of Liberal Democratic Theory and Practice) 1-3
- **GN_HON 2010H** Honors Tutorial (Whitman's Democratic Legacy) 1-3
- **GN_HON 2230H** Honors Social Science Colloquium (Race and Nationalism in American Political History) 2-3
- **HIST 1500** Foundations of Western Civilization 3
- **HIST 1540** England Before the Glorious Revolution 3
- **HIST 2100H** The Revolutionary Transformation of America - Honors 3
- **HIST 2120H** The Young Republic - Honors 3

- **POL_SC 4790** The Age of Democratization? 3
- **POL_SC 4800** Classical Political Theory 3
- **POL_SC 4810** Modern Political Theory 3
- **POL_SC 4830** Democracy in America (and Elsewhere) 3
- **POL_SC 4840** Developing Dynamics of Democracy 3
- **POL_SC 4850** Scots and the Making of America 3
- **POL_SC 4900** Beltway History and Politics: American Constitutional Democracy in Theory and Practice 3
- **POL_SC 4940** Political Science Internship 3-6
- **POL_SC 4975** Journal on Constitutional Democracy 1-3

Note: Students may petition the director of the certificate to include a maximum of three (3) hours from a related course outside the Departments of Political Science and History. Outside courses may have additional prerequisites.

---

**Certificate in Jazz Studies**

Undergraduate Music and Music Education Majors (BM, BA Music) may earn a Certificate in Jazz Studies by completing this core of courses in jazz. Approval for admission into the Certificate program must be received from the Director of Jazz Studies.
A minimum of 12 credits is required, including the following:

<table>

**Total Credits:** 12

---

**Certificate in Multicultural Studies**

The College of Arts and Sciences offers a Certificate in Multicultural Studies. Students earning the certificate will become familiar with multicultural and diversity issues. In an increasingly global environment, students earning this certificate will be better prepared to understand and to facilitate cross-cultural interactions in their future careers, as well as in their general life experiences.

**Requirements**

Students are required to complete a coherent program of 15 credit hours from a list of approved courses*. Approved courses for the certificate critically evaluate and examine issues of social inequality and social stratification (e.g., gender, race, ethnicity, religion, region, sexuality, and/or class inequality) globally and in the United States. Courses must be chosen from at least 2 different departments/programs. At least 6 credits must be completed at the 3000 level or above. One course (up to 3 credit hours minimum and 6 credit hours maximum) may include an applied experience of cultural difference*. Approved research-based undergraduate courses, transcripted Study Abroad and other experiences approved through the Center for International Programs and Studies, and transcript-designated “Service Learning” coursework are among the possibilities. Only coursework in foreign languages that is numbered above 2100 is applicable, and the maximum number of such credit hours is 6. A grade of C- or higher must be earned in each course, and students must maintain a cumulative GPA of 2.0 for overall coursework counting towards the certificate. Consistent with MU policy on certificates, an undergraduate degree and certificate must be awarded simultaneously.

* Contact the Multicultural Certificate Program office, 58 McReynolds, for full details and an updated course list, or go to http://multicultural.missouri.edu/

**Certificate in Music Entrepreneurship**

The Undergraduate Music Entrepreneurship Certificate offers MU students an officially recognized core of courses dealing with the development, business, and publicity aspects of a musical career. In today’s fine arts economy, an increasingly viable and popular model is the “portfolio career,” in which a person incorporates multiple roles (e.g., performer, teacher, advocate, manager, publicist, composer/arranger, etc.) rather than pursuing one narrowly defined career path. Contextualizing the vision, skills, and networking activities needed to achieve a viable arts career, while offering a combination of theoretical and practical career preparation for Mizzou students, is the overarching aim of the Certificate.

**Availability:** Aimed primarily at degree-seeking students in music and music education, this certificate is also available to students in other majors with a commitment to pursuing a career in the music industries. All students who wish to declare the certificate must receive approval from our certificate director, Prof. Jonathan Kuuskoski (kuuskoski@missouri.edu).

**Minor in Aerospace Studies**

A minor in Aerospace Studies is available upon the completion of 15 semester hours, of which 12 hours are taught by Aerospace Studies. The additional 3 hours must be approved by the Department of Aerospace Studies and be in the academic area of history, political science, sociology, military science disciplines, or peace studies.

**Minor in Afro-Romance Literatures in Translation**

The Minor in Afro-Romance Literatures in Translation is not currently accepting students as the minor is under revision.

**Minor in American Constitutional Democracy**

For general questions about the minor, contact:

Justin Dyer, Program Director  
(573) 882-3777  
dyerjb@missouri.edu

Political Science Academic Advisor  
(573) 882-2580  
politicalscience@missouri.edu

The minor in American Constitutional Democracy is designed for those students who wish to delve more deeply into the American experience with self government, exploring the development of the American state and the intellectual, political, historical, and cultural forces that contributed to this development. The minor is appropriate for students in many majors, particularly political science, economics, history, and journalism.

The minor affords students a unique opportunity to gain a broad perspective on issues of American political development, allowing focus on areas where they may have additional educational requirements not offered in their chosen major field of study. In addition, it contains an
“experiential” component that permits students to consider constitutional issues in practice and/or in comparative perspective.

**Minor Requirements**

A minimum of fifteen (15) credits are required for the minor. Students in the minor must maintain a B average (3.0 GPA) for courses in the minor.

A minimum of twelve (12) credits must come from the following courses. Additionally, a minimum of three (3) credits must come from an experiential component. The experiential component may be satisfied through participation in either an internship or study abroad program associated with the minor or approved by the director of the minor.

The minor must be completed with courses from at least two (2) subject areas.

Note: Students may petition the director of the minor to include a maximum of three (3) hours from a related course outside the
Departments of Political Science and History. Outside courses may have additional prerequisites.

**Minor in Astronomy**

A student whose major is in another department may receive a minor in astronomy with the completion of the following courses with grades of C- or better: PHYSCS 2750 University Physics I, PHYSCS 2760 University Physics II (10 credit hours), PHYSCS 3010 Introduction to Modern Astrophysics (3 credit hours), plus two additional astronomy courses at the 3000/4000 level or above.

A student must have a total of 19 credit hours to receive a minor in astronomy. At least nine of the 19 credit hours must be completed on-campus. A course in which a grade of D+ or below was received will not count towards the minor. To receive your minor in astronomy, you must print and fill out the minor form (https://physics.missouri.edu/sites/default/files/undergrad-files/fileastronomyminorform.pdf), have it signed by the Director of Undergraduate Studies in the Physics and Astronomy Department, and then take it to 107 Lowry Hall.

**Minor in Black Studies**

Students seeking a minor in Black Studies must complete 15 credits, including those listed below.

<table>
<thead>
<tr>
<th>BL_STU 2000</th>
<th>Black Studies</th>
<th>3</th>
</tr>
</thead>
<tbody>

</tbody>
</table>

- Students are also encouraged to take a course in three regional areas of study: Africa, African America, and the Black Diaspora.
- A minimum of 6 credits numbered 2000 or above and at least one 3000-level course must be taken.
- At least 9 credits must be in courses other than readings, methods, techniques or problems.
- A maximum of 3 credits of the minor may be taken in Black Studies courses outside the College of Arts & Science.

**Minor in Canadian Studies**

For general questions about the minor, contact:

James Endersby, Program Director  
(573) 882-4238  
dergsby@missouri.edu

Political Science Academic Advisor  
(573) 882-2580  
politicalscience@missouri.edu

A Minor in Canadian Studies allows you to

- participate in Study Abroad programs in Canada
- enhance your degree and career options
- learn about the culture, history, and politics of Canada

With a minor in Canadian Studies, students will be better equipped to deal with political, economic, social and even cultural issues that will arise vis-a-vis Canada, a close military ally and trading partner. In an era that features the internet, Free Trade, and most importantly, issues of border security and national defense, knowledge of Canada is particularly useful in a number of careers. The Canadian Studies Program is an interdisciplinary program which includes Political Science, Geography, Anthropology, Romance Languages, and Public Affairs. The minor concentration in Canadian Studies will require 15 hours of credits. Courses may be selected from at least two of the disciplines listed below. Any course qualifies for the Minor in Canadian Studies as long as it contains at least one-third content on Canada.

**Courses in Political Science**

| POL_SC 2600 | Canadian Politics and Government | 3 |
| POL_SC 4660 | Canada in North America | 3 |

| ANTHRO 4600 | Ethnographic Studies of Selected Cultures | 3 |

**Courses in Romance Languages and Literatures**

| FRENCH 3440 | Francophone Literature of North America | 3 |
| The French Novel of Quebec | |

**Courses in English**

| ENGLISH 4129 | Ethnic Literature, 1890 to Present | 3 |
| ENGLISH 3855 | Documentary Film | 3 |

**Minor in Chinese Studies**

Students may obtain a minor in Chinese Studies by completing at least 15 credits of Chinese courses. At least nine of these hours must be completed on campus, or as part of an MU faculty-led study abroad program. At least nine of these credit hours must be earned in Chinese language courses beyond the elementary level. The remaining six hours can be earned in non-language Chinese culture courses, or courses from other departments that relate to China.

The Chinese Minor form can be downloaded here (http://catalog.missouri.edu/undergraduategraduate/collegeofartsandscience/ 
additional-minors-certifications/minor-chinese-studies/ 
Chinese_Minor_Form.pdf) (links to PDF). To apply for a minor in Chinese, visit the Department of German & Russian Studies in 448 Strickland Hall.

### Minor in East Asian Studies

**Office of Multidisciplinary Degrees**  
114 Switzler Hall  
(573) 882-6060  
https://omd.missouri.edu/?q=eas-minor/index

**Requirements**

- Complete 9 hours related to one cultural group and 6 hours related to a second cultural group. For example, a student can complete 9 hours related to Chinese studies and 6 hours related to Japanese studies. The cultural group options are Chinese, Japanese, and Korean.
- At least 6 credits must be numbered 2000 level or above.
- Nine of the required credits must be completed at MU.
- The elementary levels of language (Japanese, Chinese, and/or Korean) may NOT be used to fulfill minor requirements.
- Intermediate-level language courses may be used to meet minor requirements.
- A minimum grade of C- is required for each course taken in the minor. A minimum cumulative GPA in all minor coursework is 2.0.

**Policies**

- Courses used to fulfill major requirements may NOT also fulfill minor requirements, or vice versa.
- Courses outside the major department, but required for the major, may be used to fulfill minor requirements.
- Courses required for the minor may also be used to meet the College of Arts & Science Foundation requirements.
- Minors are only awarded to undergraduate students who are simultaneous recipients of a Bachelor degree.
- Students may not earn a major and a minor in the same field.

- Students cannot use the same coursework for multiple minors.

For course options see https://omd.missouri.edu/?q=eas-minor/index.

### Faculty for East Asian Studies

**Chinese**

Associate Teaching Professor and Coordinator, Chinese  
Michael Volz  
Assistant Teaching Professor  
Huichung Liang

**Japanese**

Instructor  
Eric Lancaster

**Korean**

Associate Teaching Professor  
Seungkwon You

### Minor in French

Students may obtain a French minor by completing a minimum of 15 credits beyond FRENCH 2100, of which at least 6 credits must be in literature. Courses taught in English and cross-listed courses taught in English do not count toward the minor. The courses listed below are the most likely choice.

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Credit Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>FRENCH 2160</td>
<td>Intermediate French Composition and Conversation</td>
<td>3</td>
</tr>
<tr>
<td>FRENCH 3160</td>
<td>Advanced French Composition and Conversation I</td>
<td>3</td>
</tr>
<tr>
<td>or FRENCH 3280</td>
<td>Commercial French</td>
<td></td>
</tr>
<tr>
<td>FRENCH 3410</td>
<td>Introduction to Literary Analysis</td>
<td>3</td>
</tr>
<tr>
<td>FRENCH 3420</td>
<td>Introduction to French Literature I</td>
<td>3</td>
</tr>
<tr>
<td>FRENCH 3430</td>
<td>Introduction to French Literature II</td>
<td>3</td>
</tr>
</tbody>
</table>

Students beginning at a level higher than FRENCH 2160 due to placement testing must still complete the minimum of 15 additional credits in order to receive the minor. A minimum of 9 credits, including 3 in literature, must be taken in residence.

Additionally, course work must be completed with a grade in the C range or higher in each of the required courses and students must maintain a 2.0 GPA in the minor.

### Minor in Italian Area Studies

Students may obtain a minor in Italian area studies by completing at least 9 credits must be obtained through the mandatory course sequence: ITAL 2160, ITAL 3150, and ITAL 3160. The remaining 6 credits may be obtained by enrolling in two of our elective courses in English. Elective course offerings vary from year to year. Consult the current course offerings on myZou and/or in the Course Catalogue or contact an Italian faculty member for information for each academic year.

Students must complete 9 credits in residence at MU. However, students are permitted to count 6 credits toward the minor from an officially sanctioned semester or year-long foreign study program in Italy. Six credits toward the minor can also be earned in summer programs abroad, such as the summer intensive language program offered by the University of Bergamo (near Milan) or by the Centro Fiorenza in Florence or on the Island of Elba.
Additionally, course work must be completed with a grade of C- or higher in each of the required courses and students must maintain a 2.0 GPA in the minor.

Students coming from a different academic institution or students who took courses abroad should contact the Coordinator of Elementary Italian, Dr. Rita Cavigioli, an Italian faculty member before enrolling in any of their Minor courses taught in Italian. A placement exam may be administered in order to assess the student’s linguistic and cultural competence.

Elective courses may also be chosen among Italian-emphasis courses offered by other UMC Departments (e.g., Art History, History, Music) or other UMC programs. These courses are subject to approval by either Dr. Rita Cavigioli (cavigiolir@missouri.edu) or Dr. Roberta Tabanelli (tabanellir@missouri.edu).

**Minor in Japanese Studies**

Students may obtain a minor in Japanese Studies by completing at least 15 credits of Japanese courses. At least nine of these credit hours must be earned in Japanese language courses beyond the elementary level. The remaining six hours can be earned in non-language Japanese culture courses, or courses from other departments that relate to Japan.

- **JAPNSE 2160** Japanese Conversation and Composition 3
- **JAPNSE 3160** Intermediate Japanese Composition and Conversation 3
- **JAPNSE 3370** Intermediate Readings in Japanese 3
- **JAPNSE 3380** Intermediate Japanese II 3
- **JAPNSE 3085** Problems in Japanese 1-3
- **JAPNSE 4160** Advanced Japanese I 3
- **JAPNSE 4180** Advanced Japanese II 3
- **JAPNSE 2310** Japanese Civilization I 3
- **JAPNSE 3360** Modern Japanese Literature (in Translation) 3
- **JAPNSE 3850** Traditional Japanese Theatre 3
- **JAPNSE 3880** Japan and its Cinema 3
- **JAPNSE 4005** Topics in Japanese - Humanities 1-3
- **JAPNSE 4005H** Topics in Japanese - Humanities - Honors 1-3
- **HIST 1830** Survey of East Asian History 3
- **REL_ST 2310** Religions of China and Japan 3

**Minor in Jazz Studies**

Student who have chosen a major in a non-music field may complete a minor in jazz. The Minor is not intended for beginners, but for students with basic musical knowledge. Hence the prerequisites (MUSIC_NM 1211 or MUS_THRY 1220) for three of the required courses (MUS_I_VT 1620, MUS_I_VT 4645, and MUS_THRY 4210) and auditions required for Jazz Ensembles. Approval for declaration of the Jazz Minor must be received from the Director of Jazz Studies.

A minimum of 15 credits is required, including the following:

- **MUS_THRY 4210** Jazz Harmony and Arranging I 2
- **MUS_THRY 4211** Jazz Harmony and Arranging II 2
- **MUS_I_VT 1620** Jazz Piano Class 1
- **MUS_I_VT 4645** Jazz Improvisation 2

**Minor in Korean Studies**

Students may obtain a minor in Korean Studies by completing at least 15 credits of Korean courses. At least nine of these credit hours must be completed on campus, or as part of an MU faculty-led study abroad program. At least six of these credit hours must be earned in Korean language courses beyond the elementary level. The remaining nine credit hours can be earned in non-language Korean culture courses, or courses from other departments that relate to Korea.

- **KOREAN 2160** Intermediate Korean Language I 3
- **KOREAN 3160** Intermediate Korean Language II 3
- **KOREAN 2310** Korean Civilization I 3
- **KOREAN 2320** Korean Civilization II 3
- **KOREAN 3800** Korean Economic Development and US-Korean Free Trade Agreement 3
- **KOREAN 3890** Korean Society Through Cinema 3
- **KOREAN 4220** Korean Unification 3
- **KOREAN 4260** The Korean Diaspora in the U.S., Japan and China 3
- **KOREAN 3001** Topics in Korean-General 1-3
- **KOREAN 3005** Topics in Korean - Humanities 3
- **KOREAN 4001** Topics in Korean-General 1-3
- **KOREAN 4005** Topics in Korean - Humanities 1-3
- **HIST 1830** Survey of East Asian History 3
- **HIST 2810** History of Korea: Premodern to Hypermodern 3

**Minor in Latin American Studies**

Office of Multidisciplinary Degrees
114 Switzler Hall
(573) 882-6060
https://omd.missouri.edu/?q=las-minor/index

This is an interdisciplinary minor which allows students to take courses about Latin America from various departments. Find course options at the link above.

**Requirements**

- Complete 15 credit hours from at least two departments.
- At least 6 credits must be numbered 2000 level or above.
- Nine of the required credits must be completed at MU.
- The elementary levels of language may NOT be used to fulfill minor requirements.
- Intermediate-level language courses may be used to meet minor requirements.
- A minimum grade of C- is required for each course taken in the minor. A minimum cumulative GPA in all minor coursework is 2.0.
Policies

- Courses used to fulfill major requirements may NOT also fulfill minor requirements, or vice versa.
- Courses outside the major department, but required for the major, may be used to fulfill minor requirements.
- Courses required for the minor may also be used to meet the College of Arts & Science Foundation requirements.
- Minors are only awarded to undergraduate students who are simultaneous recipients of a Bachelor degree.
- Students may not earn a major and a minor in the same field.
- Students cannot use the same coursework for multiple minors.

Minor in Leadership and Public Service

The Minor in Leadership and Public Service combines an academic component of courses in leadership, public policy, ethics, and social issues with a strong focus on service-learning, community service, and public service internships.

Consider this minor if you are:

- Interested in a self-crafted minor that provides a framework for your own leadership goals
- Set on developing the skills needed to succeed in both the non-profit sector and government
- Determined to give back on a local, national, and international level
- Looking for an opportunity to set yourself apart from the applicant pool for both graduate and professional school

For more information, contact:
Kirsten Pape
MU Office of Service Learning
208 Lowry Hall
Columbia, MO 65211
(573) 882-0227
servicelearning@missouri.edu

Minor in Luso-Brazilian Area Studies

Students may obtain a minor in Luso-Brazilian Area Studies by completing at least 9 credits in the Portuguese language beyond Portuguese 1200, e.g., PORT 2160, PORT 3160 and PORT 3260.

An additional 6 credits may be chosen from the following list:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>PORT 2310</td>
<td>Brazilian Civilization</td>
<td>3</td>
</tr>
<tr>
<td>PORT 3001/3005</td>
<td>Topics in Portuguese-General</td>
<td>1-3</td>
</tr>
<tr>
<td>PORT 3420</td>
<td>Survey of Brazilian Literature</td>
<td>3</td>
</tr>
<tr>
<td>PORT 3875</td>
<td>Brazilian Cinema</td>
<td>3</td>
</tr>
<tr>
<td>SPAN 2330</td>
<td>Latin American Civilization</td>
<td>3</td>
</tr>
</tbody>
</table>

Luso-Brazilian culture/topics emphasis courses offered by other programs/departments (e.g., Anthropology, History, Music, Political Science).

Normally 9 credits must be completed in residence at MU. However, students are permitted to count 6 credits toward the minor from an officially sanctioned semester or year-long foreign study program in Brazil or Portugal. These include the MU in Rio de Janeiro program at the Pontificia Universidade Catolica and the CIEE Universidade Nova de Lisboa program.

Additionally, course work must be completed with a grade in the C range or higher in each of the required courses and students must maintain a minimum GPA of 2.0 in the minor.

Minor in Medieval and Renaissance Studies

Think dead languages, medieval literature, and old castles are cool? Love your Shakespeare or Art History class and interested in learning more about the Middle Ages or the Renaissance? Then explore the possibility of a MARS undergraduate minor, in which students do coursework on medieval and Renaissance topics, receiving outstanding instruction from faculty in up to eleven different academic departments. For students interested in medieval and Renaissance history, art, literatures, religion, music, languages, and culture, the MARS minor offers the possibility of furthering interests while studying more broadly towards your major. Meet others interested in the same things as you, incorporate classwork you’ve already done, and learn new things about the Middle Ages and Renaissance, all while showing prospective employers or graduate schools the depth of your study with an official minor in MARS!

Requirements

- A minimum of fifteen (15) hours of approved coursework (see list below) in two different departments outside the student’s major department.
- At least nine (9) hours of the fifteen must be courses numbered 2000 or above.
- At least three (3) hours of the fifteen must be courses numbered 3000 or above.
- A minimum of nine (9) hours must be taken in residence.
- A minimum GPA of 2.0 is required in all courses in the minor.
- Only one course from Classics may count towards the minor.
- Students may specialize in either medieval or Renaissance, but must take at least one course in both.
- Students and their advisors may petition the Chair of MARS (Dr. Emma Lipton, English) to have coursework with relevant content counted. Students may count courses toward the minor that are also used to fulfill general education requirements in the College of Arts and Science. Many upper-level courses in European languages and literatures may be used to fulfill the minor requirements.

Departments keep a list of courses approved for the MARS minor on file for advisors. For a full description of the minor, including a list of all courses currently counted toward the minor, go to Medieval and Renaissance Studies (http://medren.missouri.edu/undergrad.shtml).

Minor in Middle East Studies

The minor in Middle East Studies is designed for those students who want to explore the art, history, politics, cultures, and religions of the Middle East in greater detail. For those looking beyond graduation, the minor provides a solid inter-disciplinary foundation and credential with which to pursue graduate work or careers in fields related to the Middle East. Students have the opportunity to take a variety of courses in the region, including courses on the art, history, politics, cultures, and religions of the Middle East, as well as courses on the Middle East’s place in world history, politics, and culture.
from eleven different departments in the College of Arts and Science. Furthermore, the minor allows students engaged in different disciplines and on different career tracks to engage with and learn from each other and a broad range of faculty. The courses that count toward the minor emphasize and promote critical historical thinking by providing students with the conceptual and analytical tools to think about the often overlooked religious, ethnic, and political diversity of the peoples of the Middle East, past and present.

**Minor Requirements**

The minor requires a minimum of fifteen (15) credit hours from at least three (3) different departments within the College. Students in the minor must maintain a 2.0 GPA for courses in the minor.

At least six (6) of the fifteen (15) required credits must be taken at the level of 2000 or above.

At least nine (9) hours must be completed at MU.

There are no prerequisites.

**Advising and Support**

For information, questions, and advising for the minor, contact:

Nathan Hofer (http://religiousstudies.missouri.edu/people/faculty/hofern.shtml), Associate Professor of Religious Studies and Director of the Minor in Middle East Studies

221G Arts and Science Building
hofern@missouri.edu

For more resources, including an updated course list, see http://mes.missouri.edu/

**Minor in Military Science**

With departmental approval, students may earn a minor in military science and leadership by successfully completing the following courses:

<table>
<thead>
<tr>
<th>Code</th>
<th>Course Name</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>MIL_SC 3230</td>
<td>Leadership and Problem Solving</td>
<td>3</td>

<td>MIL_SC 3260</td>
<td>Officership</td>
<td>3</td>
</tr>
<tr>
<td>MIL_SC 3250W</td>
<td>Leadership and Management</td>
<td>3</td>
</tr>
</tbody>
</table>

Additionally, students must complete an approved course in American military history.

**Minor in Missouri Studies**

The Minor in Missouri Studies will provide crucial knowledge about Missouri’s diverse history, culture, resources, and policy challenges for college graduates entering various career tracks in politics, state and local government, education, journalism, agriculture, law, tourism and others- particularly for those intending to remain in the state after graduation.

- The minor will require a minimum of 15 credit hours.
- At least six of those hours must be taken from a list of core courses.
- At least nine of the 15 must be completed at the level of 2000 or above.
- Six of the nine must come from at least two of the three categories (Humanities/Fine Arts; Social Sciences; Environment and Resources).
- A minimum GPA of 2.00 is required for all courses that count towards the minor.
- Students will be encouraged, although not required, to take at least one course that includes a field component (an internship or travel across the state).

**Minor in Native American and Indigenous Studies**

The minor in Native American and Indigenous Studies requires a minimum of 15 credit hours. At least 9 of the 15 credit hours must be taken at the level of 2000 or above. A minimum GPA of 2.0 is required for all courses.

**Minor in Peace Studies**

A minor in peace studies requires a minimum of 15 credits. PEA_ST 1050 Introduction to Peace Studies is required, plus 12 additional credits. Online writing intensive versions of 1050 are available. It is recommended that the credits be distributed among the five areas on the following list:

**Area 1: International and Civil War and Peace**

- PEA_ST 2200 Nuclear Weapons: Environmental, Health and Social Effects (Section 2 is writing intensive, section 1 not)
- PEA_ST 2286 Technological Futures, National Security, and Civil Liberties
- PEA_ST 2410 Philosophies of War and Peace
- PEA_ST 2550 Human Rights, Law, War and Peace
- PEA_ST 3230H Terrorism and Conflict Resolution - Honors
- PEA_ST 3610 Ireland, 1100s to 1850
- PEA_ST 3611 Ireland, 1850-1923
- PEA_ST 3612 Ireland, 1920-Present
- PEA_ST 4331 Nonproliferation Issues for Weapons of Mass Destruction

**Area 2: Global Social and Environmental Justice**

- PEA_ST 1120 Population and Ecology
- PEA_ST 2000 Exploration in Social and Economic Justice
- PEA_ST 2285 Large Corporations, Economic Crisis, Social Responsibility
- PEA_ST 3401 Global Public Health and Health Care Systems
- PEA_ST 3600 Criminology
- PEA_ST 3870 Social Revolution in Latin America
- PEA_ST 4230 Women, Development and Globalization
- PEA_ST 4520 Political Sociology

**Area 3: Nonviolent Social Movements, Process, and Change**

- PEA_ST 2182 Critical Dialogues: Nonviolence in Peace/Democracy Movements (Section 2 is writing intensive, section 1 not)
- PEA_ST 3520 Collective Behavior
- PEA_ST 3521 Group Decision Making Processes
- PEA_ST 3522 New Media, Conflict and Control

**Area 4: Cultures, Intellectuals, And Global Migration**

- PEA_ST 2255 Youth, Islam, and Global Cultures

- PEA_ST 2280 Race, Democracy, and Violence in Cuba and Haiti (Section 2 is writing intensive, section 1 not)
- PEA_ST 2320 Literature of Spanish Civil War
- PEA_ST 2810 Think Global: Fundamentals of Globalization and Digital Technologies
- PEA_ST 3140 Art of War and Peace
- PEA_ST 3400 Politics of the Media
- PEA_ST 3780 World Political Geography
- PEA_ST 4600 Political and Social Philosophy

**Area 5: Indigenous Peoples, Human Rights, and The Imperial State**

- REL_ST 2100 Indigenous Religions
- ENGLISH 2490 Introduction to Native American and Indigenous Studies
- ENGLISH 3490 Special Themes in Native American and Indigenous Studies
- PEA_ST 3496 Digital Indigenous Studies
- PEA_ST 3496H Digital Indigenous Studies - Honors
- GEOG 3560 Native American Geographies
- PEA_ST 4550 Gender and Human Rights in Cross Cultural Perspective

**Minor in Romance Literatures in Translation**

**THE DEPARTMENT OF ROMANCE LANGUAGES AND LITERATURES IS NOT CURRENTLY ACCEPTING APPLICATIONS FOR THE "MINOR IN ROMANCE LITERATURES IN TRANSLATION" AT THIS TIME.**

To obtain a minor in Romance Literatures in Translation, students must complete the basic language sequence shown below.

- SPAN 1100 Elementary Spanish I 12
  & SPAN 1200 and Elementary Spanish II
  & SPAN 2100 and Elementary Spanish III
  or FRENCH 1100 Elementary French I
  & FRENCH 1200 and Elementary French II
  & FRENCH 2100 and Elementary French III
- ITAL 1100 Elementary Italian I 8-12
  & ITAL 1200 and Elementary Italian II
  or PORT 1100 Elementary Portuguese I
  & PORT 1200 and Elementary Portuguese II

Students must also complete three 2000-level literature-in-translation courses and two 3000-level literature-in-translation courses (one of which must be either ITAL 3310 or PORT 3001) chosen from the list below:

- FRENCH 2320 French Literature and Thought in English Translation I 3
- FRENCH 2330 French Literature in Translation II 3
- ITAL 2850 Italian Cinema 3
- PORT 3001/3005 Topics in Portuguese-General 1-3
- SPAN 2320 Literature of Spanish Civil War 3

Additionally, course work must be completed with a grade in the C range or higher in each of the required courses and students must maintain a 2.0 GPA in the minor.
**Minor in South Asian Studies**

The South Asian Studies minor is a course of study that allows a student to acquire specialized knowledge about South Asia in a variety of disciplines, e.g., anthropology, history, philosophy, religious studies, political science, sociology, women and gender studies and language studies.

To obtain a minor in South Asian Studies, a student must:

- Complete 15 hours of coursework relating to South Asia. The courses approved for the South Asian Studies minor are listed at [http://southasia.missouri.edu/minor.html](http://southasia.missouri.edu/minor.html).
- At least nine of the 15 hours must be at the 2000 level or above.
- A student is required to take courses in two or more departments.
- A minimum of six hours must be taken in residence.
- A grade of C or better is required for all courses counting toward the South Asian Studies minor.

A minor in South Asian studies can easily be combined with a major in anthropology, philosophy, history, religious studies, political science, geography, journalism, sociology, women & gender studies, etc.

**Minor in Spanish**

Students may obtain a Spanish minor by completing a minimum of 15 credits beyond SPAN 2100, of which at least 6 credits must be in literature. Courses taught in English and cross-listed courses taught in English do not count toward the minor. The courses listed below are the most likely choice.

Students beginning at a level higher than SPAN 2160 due to placement testing must still complete the minimum of 15 additional credits to receive the minor. A minimum of 9 credits, including 3 in literature, must be taken in residence.

Additionally, course work must be completed with a grade in the C range or higher in each of the required courses and students must maintain a 2.0 GPA in the minor.

**Minor in Strategic Studies**

For general questions about the minor, contact:

Stephen Quackenbush, Program Director
(573) 882-2082
quackenbushs@missouri.edu

Political Science Academic Advisor
(573) 882-2580
politicalscience@missouri.edu

The minor in Strategic Studies is designed for those students who wish to acquire the knowledge and analytical skills that are critical for working in a career field related to national security. The minor is appropriate for students of almost any major, particularly political science, economics, history, geography, journalism, and engineering. The program is also well suited for students in Army, Navy, or Air Force ROTC, providing a solid background for officers encountering the changing strategic environment of the twenty-first century.

The program affords students a unique opportunity to gain a broad perspective on security issues, allowing focus on areas where they may have additional educational requirements not offered in their chosen major field of study. Students may work for the defense department, national intelligence agencies, or other federal agencies, or any number of jobs related to security in the private and non-profit sectors.

Fifteen (15) credits are required for the minor in strategic studies, selected from the list below. Of these, six hours must be from political science. Students in the minor must maintain a B average (3.0 GPA) for courses in the minor.

**Minor in Women's and Gender Studies**

A Women's and Gender Studies minor can be a component of any undergraduate degree granted at MU.

The curriculum includes women's and gender studies core courses as well as cross-listed courses from several departments throughout the University. These courses assume that knowledge cannot be separated from the study of women and gender, and that gender and sexuality are fundamental categories of analysis in all disciplines. The department stresses interdisciplinary scholarship and teaching that are broadly comparative and range across multiple cultures, national and transnational contexts, and historical periods. Its faculty employ a broad range of theoretical approaches and methods.
When students graduate with a Women's and Gender Studies minor they should be able to:

- Apply cross-cultural and global awareness to "big questions" about women and gender
- Have a comprehensive grasp of intersectionality and matrices of domination
- Think critically: i.e. consider an issue from multiple perspectives; locate, evaluate and interpret diverse sources, including statistics; engage in critical self-reflection
- Construct arguments with evidence obtained from research
- Work collaboratively
- Recognize sexist/racist writing and thinking
- Connect knowledge and experience, theory and activism, Women's and Gender Studies materials with other courses
- Communicate effectively in writing and speech
- Apply knowledge for social transformation, citizenship
- Use gender (and other identity categories) as a category/ies for analysis

A student minoring in Women's and Gender Studies is required to fulfill all requirements for their major degree program, and in addition complete at least 15 credits of Women's and Gender Studies courses, including:

- WGST 1120 Introduction to Women's and Gender Studies 3
- WGST 2010 Gender and Identity: Understanding Intersectionality 3
- Additional WGST credits numbered 2000-level or above 6
- Additional WGST elective credits 3

### Graduate Certificate in Geospatial Intelligence

#### Graduate Certificate in Geospatial Intelligence

An education in geospatial intelligence theories, methods, and applications is central to many problem-solving tasks and as such, students with proficiency in these areas are well-suited for an array of employment positions in sectors such as academia, military, intelligence analysis, emergency response and disaster management, law enforcement, etc.

A student must complete a minimum of 21 hours of approved coursework and must earn a grade of at least B (3.0) in these courses. Seven courses must be successfully completed, with at least three courses selected from Group A – Technical Core Group; one course from Group B – Analytical Core Group; one course from Group C – Technical Elective Group; and one course from Group D – Analytic Electives. The final course must be a capstone experience in geospatial intelligence (GEOG 7130). A course may only count toward one of the coursework groups. It is important to note that for degree seeking students, courses can typically only be credited to one certificate program at MU (i.e., not counted as credit toward multiple certificates). The MU Graduate Certificate in Geospatial Intelligence will be awarded by MU after successful completion of the coursework and this accomplishment will appear in the student’s academic transcript. Successful completion of the MU Graduate Certificate in Geospatial Intelligence also meets the criteria of MU’s United States Geospatial Intelligence (USGIF) (http://usgif.org) accredited certificate program in geospatial intelligence. As such, upon the completion of the graduate certificate, the USGIF will be notified of the student’s accomplishment and will award the student their official certificate.

For admission requirements, refer to the Graduate School’s website for the minimum qualifications for the Graduate School (http://gradschool.missouri.edu/admissions/eligibility-process/minimum-requirements.php). Before official admissions to the University of Missouri, your application materials will be reviewed by both the Graduate School and the Geospatial Intelligence Certificate Program.

Students wishing to graduate Geospatial Intelligence Certificate should complete the program of study (http://catalog.missouri.edu/undergraduategraduate/collegeofartsandscience/ additional-minors-certifications/grad-certif-geospatial-intel/GeoINTProgramOfStudyForm.pdf). The program of study should be completed by the student at the time he/she begins the graduate certification program, and filed with the program Director (Dr. Matisziw).

Inquiries regarding this certificate program can be directed to:

Dr. Tim Matisziw (matisziwt@missouri.edu), Director MU Graduate Certificate in Geospatial Intelligence
Department of Geography, Department of Civil & Environmental Engineering, Informatics Institute

Graduate Certificate in Global Public Affairs

Note: The Truman School is temporarily not accepting applications for the certificate program in Global Public Affairs.

The graduate certificate in Global Public Affairs includes 12 credit hours of coursework plus an international public affairs experience. The required course provides students with the comparative institutional and economic foundations to understand the complexities of governance and policy making internationally. The three elective courses, selected in consultation with the director of the Global Public Affairs certificate, allow students to delve deeply into specific realms of global policy or governance. The international experience component can be satisfied through an approved public affairs related internship or study abroad course. Students with substantial international public affairs experience prior to entering the certificate program should consult with the certificate director. International students automatically satisfy this experiential requirement through their study in the U.S.

Required Course

Comparative and Global Governance (course in development)

Take three of the following:

- PUB_AF 8650 Organizational Change in a Community and Global Context
- PUB_AF 8850 Policies and Institutions of the European Union
- PUB_AF 8860 International Comparative Rural Policy

Total Credits 9

Global Intensive Public Affairs topics course(s)

Approved courses outside of Public Affairs

Total Credits 3

Eligibility

Students do not need to be enrolled in a graduate degree program at MU to participate in the program.

Plan of Study

Students must complete 12 credit hours to receive the certificate.

Graduate Certificate in Jazz Studies

The Graduate Certificate in Jazz Studies is a one-year program that provides opportunities for continued development of skills in jazz-specific areas, such as improvisation, pedagogy, and arranging. The certificate is available to degree-seeking and non-degree seeking students alike, non-music as well as music majors, and is designed as an intensive introduction to jazz performance. The program will deepen the student’s preparation for a career in jazz performance or prepare the student for further study in jazz.

Prerequisites:

Entrance into the Graduate Certificate program requires a live audition (see below), although video-recorded auditions will be acceptable in rare cases, by permission of the Director of Jazz Studies. Entrance into the program also requires completion of a Bachelor of Music degree (or demonstrated equivalent), with a GPA of 3.0 in the last 60 credit hours. In the event that a candidate does not meet the required prerequisites for a specific curriculum, appropriate course(s) may be added as additional requirements.

Requirements:

Graduate Certificate in Lifespan Development

Dr. Nicole Campione-Barr, Coordinator
Lifespan Development Graduate Certificate Program
204D McAlester Hall
email: campionebarr@missouri.edu
phone: (573) 884-1681

About the Certificate (Educational Objective)

Developmental psychology and lifespan developmental studies include the scientific study of psychological changes that occur over the life course. Therefore, developmental studies are inherently interested in many of the same questions of other areas of psychology, education, family studies, etc., but by investigating the ways in which particular psychological processes change and develop from infancy to adolescence, and through to adulthood. The purpose of the graduate certificate in lifespan development is to provide students in other areas of psychological study, or human behavior broadly defined, a better understanding of the ways in which psychological functions change with age, as well as the challenges and special considerations that are a part of research with children and adolescents and how they may be different from those of working with adults.

Plan of Study

The requirements for acceptance and completion of work for the certificate are as follows:

1. The student must be enrolled and in good standing in a doctoral-level program at MU (available to degree-seeking students only).
2. A request to be included in the certificate program must be made in advance of final completion of courses to Nicole Campione-Barr, PhD. This can be done via e-mail or hard copy, however, the request must also be approved by the student’s major advisor.
3. A formal plan of study must be submitted to the Office of Graduate Studies no later than the semester prior to graduation. This must be signed by the certificate coordinator (Nicole Campione-Barr) and the director of graduate studies of the student’s major department.
4. Students must complete a minimum of 15 credit hours to be awarded the certificate, following the below guidelines:

Core Courses: students are required to take 3 core courses

When needed, advising will be provided to students by lifespan development certificate coordinator (Nicole Campione-Barr), in conjunction with the student’s major advisor.
Need for Certificate Program

For students within the child clinical psychology Ph.D. program of study there is a need for some students to gain greater exposure to developmental studies. Currently, the department of Psychological Sciences offers a dual child clinical and developmental psychology degree program. This program is extremely rigorous, however, and students and faculty within the Department of Psychological Sciences have identified a need for more in-depth study in developmental science without the commitment of a second degree. In creating the certificate program, however, it was determined that graduate students in other related fields may also wish to pursue further study in lifespan development. In particular, students in education, social work, communication science and disorders, and additional areas within psychology may benefit from greater understanding of developmental processes which could be gained through the required and elective course work outlined in this certificate program.

Impact on Current Programs of Study

The impact to current programs of study is expected to be relatively minimal other than the inclusion of potentially a few more students enrolled in the aforementioned classes.

Advisory Committee Members

Debi Bell, Psychological Sciences
Nicole Campione-Barr, Psychological Sciences
Marilyn Coleman, Human Development & Family Studies
Larry Ganong, Human Development & Family Studies
Jean Ispa, Human Development & Family Studies
Amanda Rose, Psychological Sciences

Participating/Affiliated Faculty - Various faculty from the following departments:

Psychological Sciences
Human Development and Family Studies
Communication Science and Disorders
Educational, School, and Counseling Psychology
Special Education
Social Work

Graduate Certificate in Music Entrepreneurship

The Graduate Music Entrepreneurship Certificate offers MU graduate students, as well as post-baccalaureate students in the MU community, an officially recognized core of courses dealing with the development, business, and publicity aspects of a musical career. In today's fine arts economy, an increasingly viable and popular model is the "portfolio career," in which a person incorporates multiple roles (e.g. performer, teacher, advocate, manager, publicist, composer/arranger, etc.) rather than pursuing one narrowly defined career path. Contextualizing the vision, skills, and networking activities needed to achieve a viable arts career, while offering a combination of theoretical and practical career preparation for Mizzou students, is the overarching aim of the Certificate.

Availability: Aimed primarily at degree-seeking students in music and music education, this certificate would also be available to students as an add-on to a degree or as a stand-alone certificate. All students who wish to declare the certificate must receive approval from our certificate director, Prof. Jonathan Kuuskoski (kuuskoski@missouri.edu).

Graduate Certificate in Nonprofit Management

Harry S Truman School of Public Affairs
101 Middlebush Hall
573-884-1656
truman.missouri.edu/degrees-programs/certificates

The graduate certificate in nonprofit management provides students with the managerial, fiduciary, and analytical tools necessary for leadership of nonprofit entities. The goal is to develop and hone skills that can be used to achieve organizational missions uniquely aimed at serving the interests of the community.

Eligibility

Students do not need to be enrolled in a graduate degree program at MU to participate.

Careers

As one of the fastest growing sectors in today's economy, nonprofit organizations have undergone a professionalization in management, with board members changing their orientation from one of personal networks to a bottom-line, information-based outlook. Successful nonprofit organizations today thrive on their ability to compete effectively in the marketplace, read community needs and priorities, and deliver appropriate services within budget.

Plan of Study for the Nonprofit Management Certificate

Students must complete 12 credit hours to receive the certificate.

Elective Course
The fourth course is an elective chosen in consultation with the certificate coordinator from among the courses offered by the Truman School or by another graduate unit at MU.

Federal Gainful Employment disclosure information for this Graduate Certificate is available at https://gradstudies.missouri.edu/fged/52.0206-Gedt-Nonprofit_Mgmt.html

Graduate Certificate in Organizational Consulting and Change

Harry S Truman School of Public Affairs
101 Middlebush Hall
573-884-1656
truman.missouri.edu/degrees-programs/certificates

Note: The Truman School is temporarily not accepting applications for the certificate program in Organization Consulting & Change.

The graduate certificate in organizational consulting and change is a multidisciplinary and multi-sector approach to the theory and practice of transforming organizations and communities in a technologically advanced and global economy. Students will have an opportunity to develop knowledge and competencies appropriate to the advanced study and diagnosis of evolving and emerging organizations and communities in the public, private, and nonprofit arena. They will find a curriculum supportive of careers in academics, management, and consulting.

Eligibility
Students do not need to be enrolled in a graduate degree program at MU to participate in the program.

Plan of Study
Students must complete 12 credit hours to receive the certificate.

Graduate Certificate in Public Management

Harry S Truman School of Public Affairs
101 Middlebush Hall
573-884-1656
truman.missouri.edu/degrees-programs/certificates

The graduate certificate in public management encompasses administrative skills for ethical, effective leadership and management roles in the public service. Students completing this graduate certificate will be well positioned to begin or advance a public service career with many expecting to pursue management careers in state and local governments.

Eligibility
Students do not need to be enrolled in a graduate degree program at MU to participate.

Plan of Study
Students must complete 12 credit hours to receive the certificate.

Required Public Management Certificate Courses

The first two courses are required along with one of the remaining two:

573-884-1656
truman.missouri.edu/degrees-programs/certificates/public-policy/

The public policy specialization offers students a strong foundation in the skills necessary to work effectively in the policy environment. Students in the public policy specialization learn theories of the policy process, quantitative and qualitative research methods to analyze policy, and program evaluation. Students also have the opportunity to gain expertise in specific policy areas including education policy, environmental policy, health policy, social policy, and regional development policy.

Eligibility
Students do not need to be enrolled in a graduate degree program at MU to participate in the program. Some prerequisite courses may be necessary for students without prior coursework in statistical or micro-economic analysis.
Plan of Study

Students must complete 12 credit hours to receive the certificate.

**Required Courses**

<table>

* (PUB_AF 8430 requires PUB_AF 8190 Economic Analysis for Public Affairs and PUB_AF 8181 Research Methods II as prerequisites, or equivalent. These courses may not be used as the additional courses for the certificate.)

**Elective Course**

The third and fourth courses are policy relevant electives chosen in consultation with the certificate coordinator from among the courses offered by the Truman School or by another graduate department at MU.

Federal Gainful Employment disclosure information for this Graduate Certificate is available at [https://gradstudies.missouri.edu/ged/44.0501-Gedt-Public_Policy.html](https://gradstudies.missouri.edu/ged/44.0501-Gedt-Public_Policy.html)

**Graduate Certificate in Science Outreach**

The educational objectives of the Certificate in Science Outreach Program are to teach students how to integrate research and outreach, and how to facilitate a dialogue with the lay public. Course work concentrates on increasing the ability of students to communicate science to broad audiences of different ages and different levels of education. Practice and application of outreach develops the "broader impacts" component of the research and emphasizes actual interaction with audiences, to promote understanding and appreciation of science, and support for scientific research.

Although this certificate is named "science outreach," other types of outreach in STEM (and STEAM!) disciplines are welcomed. Students from medicine, engineering, arts & sciences, education, and other fields participate in this program.

This is a 12-credit graduate certificate program. Each student will complete:

Science Outreach: Public Understanding of Science (3 credits total)

- 2 credits in spring, plus one additional credit in a subsequent semester
- Students learn how to share their research with the public.

Integrating Science with Outreach (6 credits total)

- Set up as an independent study style course, students design and implement outreach projects.
- Projects can range from after school programming to blogging--student creativity is welcomed.

College Science Teaching OR other pedagogical course (3 credits)

- The graduate certificate co-directors must approve the course if it is one other than College Science Teaching. Please consult with them prior to taking a different course.

**Graduate Minor in Black Studies**

**Contact Information**

Department of Black Studies
313 Gentry Hall
(573) 882-6229
http://blackstudies.missouri.edu/

**About the Department of Black Studies**

The central mission of Black Studies is to prepare students to critically understand, conduct research, and interpret the complex histories, societies, and cultures of people of African descent in the United States, Africa and the Diaspora.

The Department’s interdisciplinary design encourages specialization within the University of Missouri’s broad liberal arts curriculum. As a result, students and faculty may conduct research that develops new or builds upon existing concepts, theories, and approaches to the study of the evolving experiences and contributions of the African Diaspora. In so doing, Black Studies prepares students to participate competitively in diverse and competitive global societies where they may contribute viable practical solutions to critical challenges on multiple levels.

**Affiliates of the Black Studies**

The Department of Black Studies encourages the use of diverse curricular offerings throughout many different departments. Faculty members and affiliates of the department design new ways to incorporate topics of Black Studies in their courses. Departments affiliating with Black Studies include art, educational leadership and policy analysis, English, history, human development and family studies, journalism, law, music, political science, religious studies, romance languages, sociology, theatre, and women and gender studies.

**Resources**

The Walter Daniel Resource Center is supported by an endowment set up by the estate of the late Dr. Walter C. Daniel. Dr. Daniel came to the University of Missouri in 1973 as its first vice chancellor. He was instrumental in helping to reorganize the University’s administration. However, his success as an administrator never overshadowed his love of teaching and working with students. Located in 328 Gentry Hall, the books, periodicals, reference materials and media resources in this center will supplement and complement existing university resources on the histories, cultures, and societies of people of African descent in Africa, the U.S., and throughout the Diaspora available to the University.
community. Additionally, the center houses Dr. Daniel’s extensive private library of African American literature, as well as an extensive collection of primary and secondary sources including numerous periodicals and scholarly journals. The library also offers a small video collection which can be viewed on site. At the present time the library is a read-only research facility.

**Plan of Study**

An individual program of specialization in Black Studies may be arranged within the framework of a conventional graduate degree in any one of several fields. The options within a regular degree program are employed to include maximum exposure to courses emphasizing the diverse histories, cultures, and societies of people of African descent in Africa, the U.S., and throughout the Black Diaspora. Courses outside the major department, but in related fields, are incorporated into the student’s study plan. Students interested in pursuing a Black Studies specialty within their chosen fields should consult a departmental advisor, who is an affiliate of the Department of Black Studies, to assist in course selection. Lacking such an advisor, students should contact the Chair of the Department of Black Studies for assistance or send an email to Mary Beth Brown (bromary@missouri.edu) in the Department of Black Studies.

**Graduate Minor in Medieval and Renaissance Studies**

**Considering a graduate MARS minor?** While most students still choose to study in a traditional disciplinary framework, a MARS minor allows students to expand the breadth of their studies and research by taking coursework in over 11 different departments on campus. So much of the research on the Middle Ages and the Renaissance is interdisciplinary in nature, and the MARS minor helps students gain expertise in areas outside of their home discipline while simultaneously offering a quick and comprehensive way for prospective employers to understand their specialization and background.

**Requirements:** Courses that may be applied toward this minor are taught by faculty members from the departments of Art History and Archaeology, Classical Studies, English, Germanic and Russian Studies, History, Music, Philosophy, Religious Studies, and Romance Languages and Literatures. Under certain circumstances, a minor in Medieval or Renaissance studies may also be arranged for MA programs. A student must be accepted for advisement by the major department. Then, in consultation with the major advisor, who must be a specialist in the medieval or Renaissance period, an interdisciplinary curriculum for the minor is prepared and submitted to the Medieval and Renaissance Studies Committee for approval.

- A doctoral candidate in one of these departments offering a PhD may elect a minor concentration in interdisciplinary Medieval or Renaissance Studies by taking at least three appropriate courses outside the department, as well as all appropriate ones within it. Thus one earns, for example, a PhD in Art History and Archaeology with specialization in Medieval Studies, or a PhD in History with specialization in Renaissance Studies.
- At least nine (9) hours in relevant 7000 or 8000 level courses outside the major department are required to constitute the minor.
- Because the program places considerable emphasis on foreign languages, all doctoral candidates must study at least two languages.

**Perks:**

- The Newberry Library Center for Renaissance Studies consortium
- MU graduate Association for Medieval and Renaissance studies
- Renaissance reading group
- A listserv announcing campus-related activities for MARS members

For more information contact:
Dr. Emma Lipton  
Chair of MARS  
liptone@missouri.edu

**Graduate Minor in Museum Studies**

This minor, offered by the Museum of Art and Archaeology and the Department of Art History and Archaeology, provides students with a systematic introduction to the history, philosophy, and role of museums. The program blends academic theory with practical experience to provide students with an opportunity to build a foundation applicable for work in either university or public museums.

**Curriculum:** The program comprises six courses designed to introduce students to the history and role of museums in society; to the philosophical, legal and administrative issues that face the modern museum; and to the exhibition and preservation skills required of a museum curator. The emphasis of the program is on museum management, curatorial responsibilities (collections management and exhibition) and educational interpretation. Internships and field trips to local museums provide additional insight into the world of museum professionals.

- Individual courses are listed under the Department of Art History and Archaeology. Successful completion of the program is accomplished through 12 credit hours of required course work, including AR_H_A 7130, AR_H_A 8130 and AR_H_A 7980, and is recognized when the student successfully completes an M.A. in his or her academic field of study. An individual's course of study will be arranged with the program director.
- The minimum period required to complete the minor is four semesters, or three semesters and one summer. Courses are open to advanced undergraduate students, but admission to the program is open only to those who have completed a BA degree.

**Admissions:** Students who undertake the museum studies minor are normally already enrolled as graduate students in degree-granting academic departments. Students should apply at the beginning of the fall semester to the Director of Graduate Studies, 109 Pickard Hall, for admission to the program.

**Graduate Minor in Psychological Statistics and Methods**

The Minor in Psychological Statistics and Methods is a joint program between the Department of Psychological Sciences and the Department of Statistics. A total of seven courses at the 7000 level or above in statistics and methods is required. The course options are dependent on the doctoral program in which the student is admitted. More detailed specification of the courses required in the plan of study may be stipulated by the
Doctoral students in the Department of Psychological Sciences or Statistics must take at least two of the seven required courses outside their major department.

A grade of B or better is required in the following courses:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>PSYCH 9710</td>
<td>Multivariate Statistics in Psychology</td>
<td>3</td>

</tr>
</tbody>
</table>

Two approved courses at the 7000 level or above in the Department of Statistics, Mathematics, or in other departments provided those courses are primarily statistics-oriented or methods-oriented. *

* The following courses cannot be used to fulfill minor requirements:
  STAT 7050, STAT 7510, STAT 7560, STAT 4970, STAT 7020, STAT 7070, STAT 8220, STAT 8370.

Doctoral students in other departments must take five courses within the Department of Psychological Sciences or the Department of Statistics, at least two of which are in statistics and two of which are in psychology.

Questions regarding the minor in Psychological Statistics and Methods should be directed to:
Phil Woods
Training Area Director
phillipkwood@gmail.com

Graduate Minor in Women's and Gender Studies

Contact Information:
Joan Hermsen, Chair
Mary Jo Neltz, Director of Graduate Studies
325 Strickland Hall
(573) 882-2703

Eligibility for Minor
The Women's and Gender Studies Graduate Minor is available to all students pursuing a graduate degree at MU.

Plan of Study
15 credit hours will be chosen to complement the student’s main area of graduate study. Students may take up to six hours in their home department. Students will gain expertise in the methodologies and theories in Women's and Gender Studies.

The minor requires the following six credit hours:

<table>

The Robert J. Trulaske Sr., College of Business, established in 1914, educates students for professional opportunities and responsibilities in the private and public sectors. The college includes the School of Accountancy (the first established at a major public university) and the departments of Finance, Management and Marketing. The college offers an undergraduate degree in business administration, a combined bachelor’s and master’s degree program in accountancy, master’s degrees in business administration and finance, and doctoral degrees in accountancy and business.

Students’ educational experiences are enhanced through the scholarly activities of the faculty, who conduct research on significant, timely issues. Students in the college are exposed to relevant theories and concepts applied to real-world operations of private and public enterprises. Students gain added practical insights through internships, field projects, guest speakers, and executives-in-residence. The college’s agencies provide information, research, continuing education, and managerial assistance to practitioners and organizations throughout Missouri and in other states.

The Trulaske College of Business accepts CLEP subject examinations, departmental exams, and Advanced Placement (College Board) credit. More information may be obtained from academic advisors in the Trulaske College of Business Undergraduate Advising Office and the Credit by Examination section in the beginning of this catalog.

Department of Finance

Through the study of finance, students learn to independently analyze security markets, understand basic valuation techniques and use their knowledge to make investment decisions. In addition, students learn basic theoretical concepts in corporate finance and their application to corporate financing and investment decisions. Coursework focuses on the areas of investments, portfolio management, real estate appraisal, financial institutions and corporate finance.

Department of Management

Management is defined by the Academy of Management as including “all processes, structures, and behaviors that are related to the work of organizations, as well as the dynamics of industries, economies, cultures, and other environmental forces that affect organizations and their employees.” Management coursework at MU is quite diverse, covering the areas of human resource management, human behavior in organizations, organization theory, strategic management, supply chain management, entrepreneurship, information systems, e-commerce, operations management, and business law.

Department of Marketing

Marketing focuses on creating and managing customers. It deals with the strategies, tactics, and business processes involved in researching markets, deciding which markets and segments to pursue, identifying what unique value to provide, and then assembling the products, services, people and partner firms needed to build, communicate and deliver that value.

Exploratory Course

Students wanting to explore business administration as a major should take BUS_AD 1500.

Double Emphasis

Students may have a dual emphasis of Finance and Real Estate, or may add on an economics emphasis to any other BSBA emphasis program.

Undergraduate

- Admissions (p. 350)
- Degree core Requirements (p. 351)
- Academic Regulations (p. 351)
- Enrolling in Other Institutions (p. 352)
- Advising (p. 352)
- Business Career Services (p. 352)
- Professional Development Programs (p. 351)

Admissions

Freshmen

Freshman applicants to the Robert J. Trulaske Sr., College of Business (students applying to MU from high school) will be admitted to the lower division if they meet campus admission requirements. Admission to the lower division does not guarantee admission to the BSBA degree program and emphasis areas or the Accountancy program. Admission to an upper-division emphasis area is based on the UM cumulative grade of record (minimum 2.6 GPA), successful completion of the business and professional core courses, and completion of the Professional Development Program requirements.

Transfer Students

Students in good standing in another school or college at MU must submit a Transfer of Division form to the Trulaske College of Business. Such students may be admitted to the lower division if they can complete degree-program admission requirements by the completion of 60 credits for Accountancy or Business students. External transfer students who request admission to the Trulaske College of Business will be admitted to the lower division if they can complete degree-program admission requirements by the completion of 60 credits. Students are encouraged to have their transcripts evaluated by an academic advisor in the Trulaske College of Business prior to their enrollment at MU.

Coursework completed with a grade of D- or better at an accredited two- or four-year institution will be accepted if the courses are appropriate.
equivalents of the required MU courses, and if the equivalent MU courses do not require a grade in the C range. Only six hours of business coursework (Accounting, Business Administration, Economics, Finance, Management and Marketing) at the 3000-level or above can be transferred for the degree requirements. The college does not accept developmental or vocational/technical coursework.

Credits transferred from accredited community or junior colleges usually include general education, upper division or pre-accountancy admission requirements and unrestricted elective courses. The Trulaske College of Business accepts a maximum of 64 credits from a community or junior college toward the bachelor’s degree. When more than 64 credits have been completed, the additional courses are evaluated on a course-by-course basis for applicability to lower-division requirements.

A student holding an associate of arts degree from an accredited Missouri Community College will have fulfilled general education requirements (p. 34). However, this does not exempt the student from satisfying the specialized degree, major or emphasis prerequisites of the college in the areas of accounting, economics, math, and statistics.

Students transferring to the college without an associate of arts degree will have their transcripts evaluated on a course-by-course basis and must meet the entrance requirements of the college in the same way as other MU students. Students transferring to the Trulaske College of Business will be required to meet the Professional Development requirements based on the earliest semester of continuous enrollment in college after high school graduation.

**Professional Development Program**

In addition to completing required coursework to earn a Bachelor of Science, Business Administration degree, students must fulfill the requirements of the Professional Development Program (PDP). The goal of the PDP is to offer opportunities to all BSBA and Accountancy students to develop core competencies and values necessary for success in their professional careers.

As a graduation requirement, the program is comprised of the following:

- Completion of designated professional activities to acquire points for admission to the upper division. Once admitted to the upper division, students will continue to earn points to meet the graduation requirements. Specific activities may be required.
- Completion of BUS_AD 3500 the semester immediately following admission to the upper division. This course is a pre-requisite to the completion of the required BUS_AD 4500. These two courses may not be taken out of sequence without prior approval. BUS_AD 3500 must be completed in residence.
- Completion of BUS_AD 4500 once admitted to the upper division. This will include completion of a professional level internship/practicum experience. Practicums can be completed over a summer or semester-long period of time (intersession assignments will not meet the PDP requirement). Students must seek final approval of their internship/practicum experience from the PDP Office before beginning the course. BUS_AD 4500 must be completed in residence.

If a student fails to meet the requirements of the PDP at either the lower or upper division, the student will not be allowed to continue in or graduate from the Trulaske College of Business.

**Credit Hour Requirements**

In addition to University general education (p. 34) and graduation requirements, students must meet the following requirements:

- Students must complete a minimum of 120 credits from accredited colleges or universities for all BSBA emphasis areas except International Business, which requires 141-158 credits. (See separate section for international business major requirements.) Additionally, the joint BSAcc and the MAcc degree program requires students to complete a minimum of 150 credit hours.
- In completing the 120 credits for graduation, students may count no more than 40 credits within their emphasis area.

A student who has a degree in another curricular area may receive a Bachelor of Science in Business Administration degree upon completion of all requirements for the degree.

**Required Work in Residence**

Students must complete MANGMT 4970 Strategic Management to meet the capstone requirement. Students must earn a C- or better to earn credit for this course in order to graduate.

**Required Core Courses**

Students must complete 30 of the last 36 hours of courses in residence at MU.

**Latin Honors**

Graduation with Latin Honors is determined by grade point average from either the last 50 undergraduate credits in the UM system or overall UM System undergraduate credits, whichever is higher. Grade point average requirements for Latin Honors are 3.5 for *cum laude*, 3.7 for *magna cum laude* and 3.9 for *summa cum laude*.

**Academic Assessment**

Students are required to complete a college-wide assessment exam in addition to a University assessment exam during their capstone course.
Academic Regulations

Credits by Examination
The Trulaske College of Business accepts CLEP subject examinations, departmental exams and advanced placement (College Board) credit. More information may be obtained from academic advisors in the Trulaske College of Business and the Credit by Examinations section (p. 794).

Maximum Credits Enrolled
A student may register for more than 18 credits for a fall or spring term, with permission of their academic advisor in the Trulaske College of Business.

Probation, Suspension and Dismissal

Grade Point Average Requirements
Minimum GPAs must be maintained in the following categories to remain in good standing with the Trulaske College of Business:

- Students in the Upper Division for Business must maintain a 2.50 GPA in all MU accounting and business courses (Accounting, Business Administration, Economics, Finance, Management and Marketing) in order to graduate. Students in the Upper Division Accountancy, must maintain a 3.0 GPA in order to graduate.
- All students must earn a 2.00 term and cumulative GPA on courses completed in the UM System.

Probation
See the Academic Standing (p. 794) section of this catalog.

- A student in good academic standing whose term GPA subsequently falls below 2.0 but is 1.0 or above is placed on academic probation.
- A student whose cumulative GPA for courses offered by the Trulaske College of Business is below a 2.0 is placed on probation. (Courses offered by the college are those with the curricular designations of ACCCTY, BUS AD, ECONOM, FINANC, MANGMT and MRKTN.) This only applies to students admitted to an upper division BSBA emphasis.
- A student placed on academic probation must establish a 2.0 term GPA, a 2.0 UM System cumulative GPA, and a 2.0 MU Trulaske College of Business cumulative GPA within two successive terms of enrollment; otherwise, the student is ineligible to enroll.
- Students placed on probation may become ineligible to enroll in the Trulaske College of Business at the end of the first term of probation if they become subject to one or more of the first three dismissal provisions below.

Dismissal
See University requirements outlined in the Academic Standing (p. 794) section of this catalog.

Students become ineligible (dismissed) to enroll in the Trulaske College of Business if one or more of the following occurs:

- The fall or spring term GPA falls below 1.0.
- For a student who has been admitted to upper division, the cumulative GPA for courses offered by the Trulaske College of Business is below a 2.0 GPA. This includes all MU accountancy and business courses regardless of whether the courses are completed before or after admission to a BSBA emphasis area.
- The student fails to remove probationary status at the completion of the second successive term on probation (summer terms excluded).

A student who has been ineligible to enroll for a period of one year may be readmitted only on the approval of the Director of Undergraduate Advising. As a condition of readmission, the director may set forth stipulations about minimum standards of academic work that must be maintained by the student. After readmission, if the student again becomes ineligible to enroll, his or her ineligibility is considered permanent.

Satisfactory/Unsatisfactory Grades
The S/U grading system is limited to unrestricted elective courses or courses only offered with a S/U grade.

Enrolling in Other Institutions
The Trulaske College of Business has no restrictions on a student enrolling in another institution simultaneously as long as university residency requirements are met.

A student may take no more than six credit hours of transfer business coursework (Accounting, Business Administration, Economics, Finance, Management and Marketing) at the 3000-level or higher.

Advising
Undergraduate Advising Office
111 Cornell Hall
(573) 882-7073
umcbusadvisingdesk@missouri.edu

Students admitted to a degree program in the college are assigned an academic advisor. The academic advisor works with students in determining coursework needed to complete a degree. Students are responsible for determining an appropriate schedule of courses each semester and are encouraged to meet with their academic advisor for assistance.

Business Career Services
Business Career Services (BCS) is a valuable resource for all levels of TCoB students. BCS provides students individual career coaching, guidance and advice in areas such as résumé and cover letter construction/revision, mock interviews, interview preparation, salary negotiations, and much more. Business Career Services partners with numerous companies serving as a liaison to bridge employer with employee. BCS-sponsored events such as Corporate Visit Days and Emphasis Panels (Accountancy, Finance & Banking, Management, Marketing, Real Estate, Sales, Entrepreneurial, Consulting, Government, Health Care, and Human Resources) provide students with firsthand knowledge of what is required to be competitive in the job market upon graduation from the Trulaske College of Business. All students are encouraged to register with BCS and begin utilizing these services as early as freshman year. BCS hosts three career fairs annually.

Professional Development Program
The mission of the Professional Development Program is to provide every BSBA and Accounting student with substantive professional development experiences during their degree program. Professional Development refers to activities, both inside and outside of the classroom, that provide students with the opportunity to develop and practice skills that are needed to perform successfully in professional roles after graduation.
Students who graduate with a BSBA degree from the Robert J. Trulaske Sr., College of Business will have content knowledge and advanced professional competencies that are necessary for success in the business world.

Graduate

Founded in 1914, the Robert J. Trulaske, Sr. College of Business enrolls about 350 graduate students as well as 4,000 undergraduates. The primary mission of the college is to prepare students to succeed in the world of business and to advance the body of knowledge about the world of business. The college has four academic units – Accountancy, Finance, Management, and Marketing – with 64 full-time faculty members.

The Trulaske College offers PhD degrees in both accountancy and business administration, an MBA degree, a 150-hour program that confers both undergraduate and master’s degrees in accountancy, and an undergraduate degree in business administration. Over time, the college’s degree programs and faculty research productivity have earned national acclaim.

The college takes great pride in its graduates. More than 31,000 alumni are contributing their expertise to the public and private sectors in every state in the U.S. and in a host of foreign countries. The Trulaske College’s graduate-level degree programs, dual degrees, and certificates are described below.

Note: Prospective graduate students must apply to both the degree program of interest and to the MU Office of Graduate Studies. In most cases, the entire application process may be completed online. Find admission and application details by selecting the degree program of interest in the left navigation column.

The accountancy program at the University of Missouri has long been nationally recognized for its excellence. MU accountancy faculty have published leading textbooks and research articles and have served at high levels in numerous professional accounting associations. The school offers a combined BSAcc and MAcc degrees.

Students wanting to explore accountancy as a major should take ACCTCY 2036 or ACCTCY 2026.

Admissions

Accountancy prepares students for the competitive field of accounting with a combination of classroom study, practical experience, and student organizations, all in a degree that is nationally recognized for its excellence. The bachelor of science and master of accountancy degree programs are merged into an integrated 150-hour curriculum to be entered into as a junior. A limited number of students may also be accepted into the MAcc-only program.

Admission decisions will be made at the end of the spring semester for fall admissions only. Meeting the minimum requirements does not guarantee admission. Admission cutoffs will be revised each year in order to control accountancy undergraduate enrollment at a limit that can be served with current authorized faculty staffing and still maintain program quality and meet accreditation guidelines. Students meeting the minimum requirements will be selected for admission based on their UM cumulative grade point average until the enrollment for that year is reached. A limited number of students may be selected by considering grades and other criteria such as demonstrated commitment, experience, leadership and other exceptional circumstances.

Students not admitted to the 150 credit hour degree program in the School of Accountancy may meet Trulaske College of Business admission requirements and transfer into a business administration emphasis area, depending on available space.

A student may take no more than six credit hours of 3000 or higher business courses through non-MU courses off campus, excluding ACCTCY 4940 and ACCTCY 7940. Study abroad courses are also excluded from this requirement.

Faculty

Associate Professor K. W. Shaw**
Associate Teaching Professor K. Hockman*, C. Prestigiacomo*
Assistant Teaching Professor E. Bartley, K. Gingerich, R. Wilson*

* Graduate Faculty Member - membership is required to teach graduate-level courses, chair master's thesis committees, and serve on doctoral examination and dissertation committees.

** Doctoral Faculty Member - membership is required to chair doctoral examination or dissertation committees. Graduate faculty membership is a prerequisite for Doctoral faculty membership.

Undergraduate

- BSAcc in Accountancy (p. 354)

Undergraduate Level

Information on students who are admitted to MU and who indicate an interest in becoming accountancy or business majors is subsequently forwarded to the Undergraduate Programs Office of the College of Business (111 Cornell Hall, 573-882-7073). Qualified applicants with less than 54 semester hours of college courses completed will be admitted to the lower (pre-professional) level of the Trulaske College of Business. Applicants with more than 54 semester hours of college credit may be admitted to a specific upper (professional) level college of business program, e.g., the 150-Hour Accountancy Program, if they meet the
program’s admission requirements. Students who transfer into the Trulaske College of Business’ upper or lower levels from another Mizzou school or college must submit a Transfer of Division form in order to be considered for admission.

The combined BSAcc/MAcc (150-hour) program is open to qualified undergraduate students at Mizzou as well as qualified undergraduates who transfer to MU from other colleges and universities. Interested students not already admitted to Mizzou should visit the Office of Admissions website (http://admissions.missouri.edu/apply). Undergraduate students are also responsible for completing all Trulaske College of Business requirements. These requirements can be found here (p. 350).

**Admission to the Joint BSAcc and MAcc Degree Program**

In the School of Accountancy, the bachelor’s and master’s degree programs are merged into a 150-credit program. Students should be admitted to the BSAcc/MAcc degree program by the time they have completed 60 hours. Refer to the list of Pre-Accountancy (p. 354) courses in the BSAcc (p. 354) information which are required for admission.

Students must also complete the Professional Development Program (PDP) point requirement for admission to the School of Accountancy and for graduation. Students must earn a minimum of 70 PDP points (maximum of 100) at the lower division for official admittance to the upper division. Once admitted, students must earn a total of 200 PDP points for graduation.

**Academic Standing - School of Accountancy**

Accountancy students are in good academic standing if they maintain a cumulative UM grade point average of 3.0 or higher for all coursework subsequent to admission to the 150-hour Accountancy program. Failure to meet this requirement will result in a probationary semester, and if not rectified, dismissal from the program. Accountancy students are subject to the probation and dismissal policies (p. 350) set by the Trulaske College of Business. An undergraduate who has been ineligible to enroll for a period of one year may be readmitted only on the approval of the director of the 150-hour program in accountancy. As a condition of readmission, the director may set forth stipulations with regard to minimum standards of academic work that must be maintained by the student. After readmission, if the student again becomes ineligible to enroll, his or her ineligibility is considered permanent. Accountancy students entering the graduate portion of the 150-hour program should consult the Office of Graduate Studies (http://gradstudies.missouri.edu) for academic standing policies for graduate students.

**Graduate**

- MAcc in Accountancy (p. 356)
- PhD in Accountancy (p. 358)

Robert J. Trulaske, Sr. College of Business
School of Accountancy
303 Cornell Hall

**School of Accountancy Director:** Vairam Arunachalam

**Director of 150 Hour and Master of Accountancy Programs:** TBD

**Director of PhD Program:** Jere Francis

**About Accountancy Graduate Programs**

The School of Accountancy offers graduate work leading to the master of accountancy and doctor of philosophy degrees. Graduate programs in accountancy prepare students for advanced professional careers in public, private and governmental accounting, and for careers in teaching and research.

Alert to change and recognizing that accounting education at the graduate level should be ahead of current practice, the School’s programs require course work stressing advanced knowledge in accounting theory and practice, quantitative methods, economics and business. Opportunities exist on and off campus for exchanging ideas with practicing accountants and for participating in the solution of their professional problems.

Among the school’s special facilities are a comprehensive collection of accounting and investment services, computer databases, technical journals and microfilm copies of annual reports, government documents and doctoral dissertations.

**Funding**

Fellowships, scholarships and teaching and research assistantships are available to qualified graduate students.

**BSAcc in Accountancy**

**Degree Program Description**

Students in the School of Accountancy acquire practical experience in the field of accounting. The curriculum provides students with a strong technical accountancy background, a broad advanced business background and professional skills such as public speaking and information systems skills. Accountants engage in a wide variety of activities including preparing financial statements, reconciling business transactions, performing audits of public companies, and developing and using information systems to track financial performance and strategy. The field is competitive and challenging, but worth it. Typical careers in accountancy include auditor, tax advisor, wealth manager, forensic accountant, corporate finance officer, and consultant.

The undergraduate and master’s degree programs with a major in accountancy are merged into an integrated 150-credit curriculum to provide high-quality preparation for a career as a professional accountant or public accountant, business or government. Admission is competitive; students are required to have a minimum 3.000 GPA of record and at least 45 credit hours earned to apply during the Spring semester.

**Major Program Requirements**

The undergraduate and master’s degree programs with a major in accountancy are merged into an integrated 150-credit curriculum to provide high-quality preparation for a career as a professional accountant in public accounting, business or government.

The Bachelor of Science with a major in Accountancy is awarded along with the Master of Accountancy degree upon satisfactory completion of the 150-credit, integrated curriculum. In this integrated program, a minimum of 36 credits in accountancy courses at the 3000-level or above must be completed at MU.
### Major Core Requirements

The following courses are degree specific major requirements for the 150-credit program in the School of Accountancy. Courses that satisfy University general education (p. 34) and core program prerequisite requirements are recommended for the freshman and sophomore years.

**Accountancy Foundation Courses**

**Graduate Level Coursework**

Total Credits 130

- ECONOM 1051H may be taken in place of ECONOM 1014/ECONOM 1024 and ECONOM 1015.
- Requires a grade of C- or better.
- Requires a grade of B- or better for ACCTCY 2036 and ACCTCY 2037, ACCTCY 2136H or ACCTCY 2026, ACCTCY 2137H or ACCTCY 2027 (including grades from other institutions).
- Requires minimum 3.0 GPA (including grades from other institutions) for these Pre-Accountancy courses.
- Need grade of C- or better in MATH 1300 or MATH 1400.
- May take the graduate level course ACCTCY 7384 to fulfill this requirement.

### School of Accountancy Graduation Requirements

Course requirements ensure that at least 40 percent of a student’s course work is earned in divisions other than business. The merged BSAcc and MAcc degrees require 150 total credits.

### Total Credits: 150

# Internship

<table>
<thead>
<tr>
<th>Fall</th>
<th>CR</th>
</tr>
</thead>
<tbody>
<tr>
<td>ACCTCY 4940</td>
<td>Professional Accounting Internship</td>
</tr>
<tr>
<td>ACCTCY 4384</td>
<td>Auditing Theory and Practice I</td>
</tr>
<tr>
<td>Accountancy Elective</td>
<td>3</td>
</tr>
</tbody>
</table>

**Total Credits: 9**

Note:

- Some students get an opportunity to do a spring internship for 3 hours during the 8th semester. Internships are normally the 1st 8 weeks and students take 6 hours during 2nd 8 weeks for a total of 9 hours. If students do a winter internship, they can normally only complete 12 hours by taking an independent study course. Students would need to complete the additional 3 hours prior to or during the summer following the internship.

- MATH 1300 must be taken. A grade of C- or better is required in MATH 1100 (counts in place of non-business elective), MATH 1300 or MATH 1400 and STAT 2500.

** Need grade of C- or better to fulfill requirement.

*** Many students are dual-enrolled (taking undergraduate and graduate coursework) during the fourth year spring semester. Therefore, the graduate course load is reduced in their fifth year spring semester.

Macc in Accountancy

Admission Contact Information

303 Cornell Hall; Columbia, MO 65211
573-882-4463

The growing scope and diversity of functions being performed by professional accountants has created a strong demand for individuals who have a broader base of general and business education as well as more technical accounting education than can be obtained in a four-year.

Requirements for Master's Degree Only

A student who has a degree in a different curricular area or a bachelor's degree in accountancy from another college or university may earn a master's degree from the School of Accountancy upon completion of the requirements for the degree. The student's program must include the following stipulations:

- At least 15 of the 30 credits must be completed in 8000-9000-level courses.
- A minimum of 24 credits of advanced study must be completed under MU faculty.
- A maximum of 6 graduate credits may be transferred from another college or university.
- All requirements must be completed within eight years from the time of initial enrollment.
MU’s MAcc program is designed especially to provide the additional breadth and depth of knowledge and skills required for success in contemporary accounting practice.

**Core Business Education**

Business electives: 6-9 hours

**Professional Accountancy Education**

<table>
<thead>
<tr>

</tr>
</tbody>
</table>

Accounting Electives: 15-18 hours

### Admission Criteria to the MAcc

- Fall deadline: March 15
- Minimum Test of English as a Foreign Language (TOEFL) scores:
  - Internet-based test (iBT): 112
  - Paper-based test (PBT): 630

- Competitive GMAT score
- Minimum GPA: at least 3.5 for last 60 hours
- Bachelor’s degree from an accredited college or university, with a major in accountancy or equivalent
- A prior record of outstanding academic performance
- Strong letters of recommendation
- Work experience may be considered
- Interview may be required for admission
- A limited number of students may be selected by considering grades and other criteria such as demonstrated commitment, experience, leadership and other exceptional circumstances.

Note: Meeting the minimum requirements does not guarantee admission. Admission is competitive and based on space availability.

### Required Application Materials

**To the Office of Graduate Studies**

- All required Graduate Studies documents - online application, unofficial transcripts (official transcript required if accepted by the program)
- Statement of objectives, no more than 500 words (upload to the online Graduate Application)
- TOEFL score (if native language is not English)

**To the MAcc Program**

- GMAT score
- 2 Recommendation letters, upload to the online Graduate Application

### Prerequisites for the MAcc

The master of accountancy (MAcc) program encompasses the last 30 hours of MU’s 150-hour accountancy program and presumes students have completed the undergraduate portion of the program, or the equivalent. Students whose undergraduate education is not equivalent to the first 120 hours of the 150-hour program may overcome important deficiencies by taking additional courses approved by the program director.

To be considered for acceptance in the MAcc program candidates must have completed the first 120 hours of MU’s 150-hour program or received a baccalaureate degree from an accredited college or university with a major in accountancy or the equivalent (students with bachelor’s degrees in non-accounting areas may enter the MAcc program after completing an appropriate set of “prerequisite” courses).

In addition to the requirements listed above, other factors such as the student’s statement of objectives and recommendation letters also may be considered to the extent that they provide indications of a student’s ability to be successful in the MAcc program.

### The MAcc Admission Process

Generally, admission decisions for the MAcc program are made in the late spring and summer for fall admissions only, and this is on a highly competitive basis.

### Online Master of Accountancy (MAcc)

Students will be admitted to the Online Master of Accountancy based on a variety of key qualifications. Evaluation criteria will include not only academic success (as represented by a student’s GPA), but also other factors such as professional work experience, leadership experience, and academic aptitude (as displayed by GMAT or GRE scores). Future job potential will be evaluated through interviews by a panel of faculty, staff, and alumni representatives from the accounting profession. Additionally, student motivation and readiness will be assessed through review of their statement of objectives included in the application process.

### Online MAcc Degree Admission Requirements

The following are admissions requirements for the Online MAcc:

- Four-year accredited bachelor’s degree from a U.S. institution
- Competitive GMAT or GRE score
- Must meet the accounting prerequisites listed below:
  - Accounting I and II
  - Intermediate Financial Accounting I and II
  - Accounting Information Systems
  - Cost and Managerial Accounting
  - Introduction to Taxation
- Competitive undergraduate GPA
- Applicants may be required to interview

Work experience may be considered in lieu of some admittance requirements. Additionally, students that are employed or otherwise financially supported by an employer (i.e. an accounting firm or corporation) may receive a waiver of some admittance requirements.

The Online Master of Accountancy will require completion of 30 credit hours, 15 of which must be at the 8000 graduate level, during a minimum of three consecutive semesters (Fall, Spring and Summer). Students may take the coursework over multiple years to assist with professional and personal commitments. The Online MAcc consists of the following course requirements:

**Core Business Education**

Business electives: 6-9 hours

**Professional Accountancy Education**

<table>

</tr>
</tbody>
</table>

Accounting Electives: 15-18 hours
Graduation Requirements for the MAcc

The basic 30-hour MAcc curriculum requires a minimum of 15 hours of accountancy courses and a minimum of 15 hours of courses reserved exclusively for graduate students. A maximum of 6 semester hours of graduate level course work may be transferred from another accredited master’s program.

Through careful selection of electives, the MAcc program provides great flexibility to enable customized programs of study in specialty areas of particular interest to students. A couple of the most popular areas of specialization are taxation and assurance (where a “tax or assurance track” are available. Go the following link for more information about graduate accounting certificates: http://catalog.missouri.edu/undergraduategraduate/collegeofbusiness/additionalminorsandcertificates/.

Prerequisites for the Doctoral Degree in Accountancy

International students should note that we rarely admit a student directly from outside the United States unless they have studied/worked in an English-language setting.

Prerequisites to undertaking doctoral course work include one, and preferably two, semesters of calculus; an introductory statistics course; and intermediate-level microeconomic theory. An undergraduate accounting major (or equivalent) is desirable but required. Prior graduate work is not required for admission to the program, but most successful applicants do have a master’s degree.

Graduation Requirements for the Doctoral Degree in Accountancy

The University requires 72 total hours beyond a baccalaureate degree for a PhD. In order to meet this requirement, the School of Accountancy requires the following program of course work and dissertation research:

| Course work is designed to be completed in five semesters (two and one-half years). Written and oral comprehensive examinations are then taken after completion of course work, and the remainder of years three and four is devoted to the completion of the research dissertation. Specializations are available in areas of faculty research interests. | Doctoral-level Accounting Research courses | 15 |
| Course Work in supporting theoretical fields (e.g. economics, finance, organizational theory and behavior) | 15 |
| Statistics and other research methods courses | 18 |
| Weekly Research Seminar (meeting one hour per semester for four years) | 8 |
| Dissertation Research | 12-16 |

Department of Marketing

Marketing focuses on creating and managing customers. It deals with the strategies, tactics, and business processes involved in researching markets, deciding which markets and segments to pursue, identifying what unique value to provide, and then assembling the products, services, people, and partner firms needed to build, communicate, and deliver that value.

Exploratory Course

Students wanting to explore business administration as a major should take BUS_AD 1500.

Double Emphasis

Students in the on campus program may have a dual emphasis of Finance and Real Estate, or may add on an Economics emphasis to any other BSBA emphasis program.

Preprofessional Information

To apply to the upper-level BSBA (and a related emphasis area program, if an on campus student), a student must have completed a minimum of 45 credits, have at least a UM Cumulative GPA of a 2.6 (minimum requirement and does not guarantee admission to Upper Level) and met the Professional Development Program requirements. A Trulaske College of Business student must be admitted by the semester after the 60th credit hour is earned. The following courses must be among the credits completed or in process at the time of application:

Department of Management

Management is defined by the Academy of Management as including “all processes, structures, and behaviors that are related to the work of organizations, as well as the dynamics of industries, economies, cultures, and other environmental forces that affect organizations and their employees.” Management coursework at MU is quite diverse, covering the areas of human resource management, human behavior in organizations, organization theory, strategic management, supply chain management, entrepreneurship, information systems, e-commerce, operations management, and business law.

• Graduate Faculty Member - membership is required to teach graduate-level courses, chair master's thesis committees, and serve on doctoral examination and dissertation committees.
• Doctoral Faculty Member - membership is required to chair doctoral examination or dissertation committees. Graduate faculty membership is a prerequisite for Doctoral faculty membership.

Undergraduate
• BSBA in Business Administration (p. 362)
  • with emphasis in Economics (p. 363)
  • with emphasis in Finance and Banking (p. 365)
  • with emphasis in Management (p. 371)
  • with emphasis in Marketing (p. 372)
  • with emphasis in Real Estate (p. 374)
  • with emphasis in International Business - Economics (p. 366)
  • with emphasis in International Business - Finance (p. 367)
  • with emphasis in International Business - Management (p. 369)
  • with emphasis in International Business - Marketing (p. 370)
• Minor in Business (p. 375)

Professional Development Program
In addition to completing required coursework to earn a Bachelor of Science, Business Administration degree, students must fulfill the requirements of the Professional Development Program (PDP). The goal of the PDP is to offer opportunities to all BS BA and Accounting students to develop core competencies and values necessary for success in their professional careers.

As a graduation requirement, the program is comprised of the following:
• Completion of designated professional activities to acquire points for admission to the upper division. Once admitted to the upper division, students will continue to earn points to meet the graduation requirements. Specific activities may be required.
• Completion of BUS_AD 3500 the semester immediately following admission to the upper division. This course is a pre-requisite to the completion of the required BUS_AD 4500. These two courses may not be taken out of sequence without prior approval. BUS_AD 3500 must be completed in residence.
• Completion of BUS_AD 4500 once admitted to the upper division. This will include completion of a professional level internship/practicum experience. Practicum can be completed over a summer or semester-long period of time (intersession assignments will not meet the PDP requirement). Students must seek final approval of their internship/practicum experience from the PDP Office before beginning the assignment. BUS_AD 4500 must be completed in residence.

If a student fails to meet the requirements of the PDP at either the lower or upper division, the student will not be allowed to continue in or graduate from the Trulaske College of Business.

Professional Development Graduation Requirement

• The student must earn a minimum of 70 PDP points (maximum of 100) at the lower division for official admittance to the upper division. Once admitted, students must earn a total of 200 PDP points to meet the graduation requirement. Specific activities and workshops may be required.
• The student must earn a C- (or higher) in BUS_AD 3500 to satisfy the requirement.
• BUS_AD 4500 is graded as Satisfactory/Unsatisfactory. Students must complete practicum course to a satisfactory level of 70% or greater to receive a passing grade for the course.

Admission to the Business Administration Program

Capacity Limitations (On Campus Program Only)
Admission into the upper-level Bachelor of Science in Business Administration (BSBA), or International Business (BSBA) degree program is highly competitive, because enrollment is limited. Each of the individual emphasis areas (Economics, Finance and Banking, Management, Marketing or Real Estate) has its own capacity limitation. Students who have earned a 3.4 minimum UM cumulative GPA or higher will be guaranteed admission to the upper level emphasis area of their choice. Other students with at least a 2.6 minimum UM cumulative GPA will be admitted on a space available basis.

Preprofessional Information
To apply to the upper-level BSBA (and a related emphasis area program, if an on campus student), a student must have completed a minimum of 45 credits and met the Professional Development Program requirements. A TCOB student must be admitted by the semester after the 60th credit hour is earned. The following courses must be among the credits completed or in process at the time of application.
Graduate

- MBA in Business Administration (p. 375)
- PhD in Business Administration with emphasis in Business (p. 377)

About the Crosby MBA (traditional full-time program)

Crosby MBA candidates come from all backgrounds, including science, engineering, liberal arts, journalism, business and health-related fields. There are no prerequisite courses. Our admission standards are high and the curriculum is rigorous. The Crosby MBA program is AACSB accredited, nationally recognized and highly ranked by U.S. News America’s Best Graduate Schools, Forbes, Princeton Review, and The Wall Street Journal. Students attend full-time, although part-time is an option if the student is able to attend daytime classes.

Through the Crosby MBA program, highly capable graduate students gain real-world experience that prepares them for a wide variety of career paths. The program teaches skills necessary to compete in the global business environment, and helps you achieve a career path that will bring both personal fulfillment and professional success. We offer individual career counseling, an executive mentoring program, employer site visits, and workshops focused on résumé writing, presentation skills, negotiation skills and business etiquette. Students obtain employment in fields such as financial analysis, investments, banking, human resources, project management, strategy, operations and logistics, marketing, marketing analytics, consulting, and non-profit management.

Factors considered in the admissions decision include post-graduation work experience, professional internships and/or co-ops, leadership, community involvement and service, quality of undergraduate work (GPA) and rigor of coursework, competitive score on the GMAT (http://www.mba.com/us) or the GRE (http://www.ets.org/gre), interview required for competitive applicants, career focus and self-awareness demonstrated in question responses and interview. A baccalaureate degree in any discipline from an accredited school is required. See the Crosby MBA website (https://business.missouri.edu/programs-and-admissions/crosby-mba/admissions/apply-now-crosby-mba-program) to apply.

Cooperative Dual Degrees with the Crosby MBA Program

- MBA and Bachelor of Science in Industrial Engineering (BSIE)
- MBA and Bachelor of Science in Information Technology (BS)
- MBA and Master of Health Administration (MHA)
- MBA and Master of Science in Industrial Engineering (MS)
- MBA and Juris Doctor (JD)

About the execMBA Program (for working professionals)

This innovative executive MBA is specifically designed for high achieving professionals seeking a first-rate MBA program that provides flexibility around their work schedules. This is the same renowned degree and the same renowned faculty offered with the Crosby MBA, but is specially designed for executives. Combining face-to-face class time with online delivery for professionals with substantive experience, the 21-month execMBA program will connect you with peers, challenge you in relevant ways, and develop the mind- and skill-set to match today’s marketplace.

All applicants to the MU execMBA must have a minimum of 5-7 years of professional work experience, as well as a letter of endorsement from their employer to participate in the program. Other factors considered in admission include undergraduate GPA (a bachelor’s degree in any discipline from an accredited school is required), demonstrated...
leadership experience and a personal statement addressing criteria outlined on the exec MBA website. Interviews by invitation will also be conducted.

About the PhD Program

The PhD program (p. 377) is designed to prepare graduates for careers as effective university researchers and teachers or for senior research positions in business or government. Course work involves research activities such as literature review and critique, theoretical modeling, research design, computer-assisted empirical analysis and preparation of proposals and research papers. PhD candidates are provided the opportunity to teach undergraduate courses in their specialty area. In addition, students are expected to participate in national and regional academic conferences and are encouraged to work with faculty in developing individual research and teaching skills.

Program Location: Cornell Hall

Cornell Hall, a state-of-the-art building, houses the Robert J. Trulaske, Sr. College of Business. It contains labs with over 230 computers with a variety of up-to-date software. The College subscribes to the following online services, databases and software packages: Wharton Research Data Services, Audit Analytics Compustat, CRSP, Datastream/Worldscope, Eventus, I/B/E/S, IRRC, ISSM, Mergent FISD, Mutual Fund Links, SDC Platinum, Thomson Reuters, Stock Trak, and Qualtrics (an online survey system).

BSBA in Business Administration

The BSBA in Business Administration is offered on campus as well as online. On campus students must choose an emphasis area (see emphasis areas for degree requirements). (p. 360)

Degree Program Description

In the Trulaske College of Business students are in either the lower level (undeclared) or the upper level (admitted to an emphasis area). Students entering the Trulaske College of Business usually enter the lower level while they take University general education and business preparation courses. The first two years of all business programs (except international business and accounting) involve the same course sequences. A student typically applies to the upper level at the end of the sophomore year or the beginning of the junior year.

On Campus - Major Program Requirements

A student may count a maximum of 40 credits in their emphasis area to meet the 120-credit requirement for the undergraduate degree.

Requirements above and beyond general education requirements are listed under upper level admission courses.

Students must complete all university requirements (p. 33), including general education (p. 34), and the degree requirements below.

On-Campus - Major Core Requirements

Course requirements ensure that 40 percent of a student's course work is earned in divisions other than business.

**BSBA in Business Administration with Emphasis in Economics**
Degree Program Description

Students pursuing a degree in Business Administration will gain exposure to multiple areas of business including Accounting, Economics, Finance and Banking, Management, and Marketing. By choosing to study business administration with an emphasis in Economics, students ready themselves for business careers from the broad perspective of economics, developing expertise in topics such as economic forecasting, analysis of interest rates and financial markets, labor economics and international economics. Students typically prepare for careers in a range of industrial, commercial, and financial organizations as well as government agencies and political institutions. Typical careers include business economist, financial analyst, risk manager, or economic research analyst.

Major Program Requirements

Students must complete all university requirements (p. 33), including general education (p. 34), and the degree requirements below.

BSBA in Business Administration with Emphasis in Finance and Banking

Degree Program Description

Students pursuing a degree in Business Administration will gain exposure to multiple areas of business including Accounting, Economics, Finance and Banking, Management, and Marketing. An emphasis in Finance and Banking prepares students for careers in commercial banking, corporate finance, financial planning, insurance, investment banking, or money management. Students learn how to independently analyze security markets, understand the basic valuation techniques and use their knowledge to make investment decisions. In addition, students learn basic theoretical concepts in corporate finance and their application to corporate financing and investment decisions.

Major Program Requirements

Students must complete all university requirements (p. 33), including general education (p. 34), and the degree requirements below

| General Education Requirements | 27 |
| Upper Level Admission Courses | 34 |
| Required Core Courses | 26 |

| BUS_AD 3500 | Professional Development Program - Internship | 15 |
| FINANC 4010 | Financial Management | |
| FINANC 4020 | Investments | |
| ECONOM 3251 | Theory of the Firm | |
| or ECONOM 4351 | Intermediate Microeconomics | |
| ACCTCY 4356 | Financial Accounting Concepts | |
| MANGMT 4101 | Operations Management | |

Additional Finance & Banking Courses | 9

Select 3 of the following

| FINANC 3300 | Personal Risk Management and Insurance | |
| FINANC 4030 | Financial Intermediaries and Markets | |
| FINANC 4110 | Financial Management Policy | |
| FINANC 4120 | Security Analysis | |
| FINANC 4130 | Management of Financial Institutions | |
| FINANC 4185 | Problems in Finance | |
| FINANC 4201 | Topics in Finance (with academic advisor consent) | |
| FINANC 4220 | Portfolio Management | |
| FINANC 4310 | Financial Modeling and Databases | |
| FINANC 4320 | Financial Futures and Options | |
| FINANC 4450 | Financial Ethics and Professional Standards | |
| FINANC 4500 | Principles of Real Estate | |
| FINANC 4510 | Real Estate Appraisal | |
| FINANC 4520 | Real Estate Finance and Investment | |
| FINANC 4530 | Real Estate Portfolio Analysis and REITs | |
| FINANC 4620 | Investment Strategy of Warren Buffett | |
| FINANC 4630 | Introduction to Risk Management and Insurance | |
| FINANC 4632 | Principles of Commercial Property and Liability Insurance | |
| FINANC 4640 | Enterprise Risk Management | |
| FINANC 4710 | Topics in International Finance | |
| FINANC 4720 | International Finance | |
| FINANC 4820 | Investment Fund Management | |
| FINANC 4830 | Chartered Financial Analyst Exam Review Course | |
| FINANC 4840 | Angel Capital Education Program | |

Emphasis Support Courses

Select two of the following: 6

Accountancy: Any 3000 or 4000 level class
COMMUN 1200 Public Speaking
CMP_SC 1050 Algorithm Design and Programming I (if not used in required core courses)
Economics: Any 4000 level class (if not used in required core courses)
CMP_SC 2050 Algorithm Design and Programming II
ENGLSH 2030 Professional Writing
Finance: Any 3000 or 4000 level class (if not used in required core courses)
Management: Any 3000 or 4000 level class (if not used in required core courses)
Marketing: Any 3000 or 4000 level class (if not used in required core courses)
Capstone course - Senior year (on campus) Minimum grade of C- required

BSBA in Business Administration with Emphasis in International Business - Management

Degree Program Description
International Business is a joint degree program offered by the College of Arts and Science and the Trulaske College of Business. The program incorporates foreign language, geographic region and cultural environment courses with core and international business courses. Completion of this degree program requires 141-153 credits depending on emphasis.

Major Program Requirements
To complete this course of study, students must be accepted in both the Bachelor of Arts in International Studies program in the College of Arts and Science and the Bachelor of Science in Business Administration program in the Trulaske College of Business. Students must also complete all university requirements (p. 33), including general education (p. 34), and the degree requirements below.

Social Sciences 6
- GEOG 1100 Regions and Nations of the World I
  or GEOG 1200 Regions and Nations of the World II
- POL_SCI 1400 International Relations
  or POL_SCI 2700 Comparative Political Systems

State Requirement 3
- ANTHRO 2030 Cultural Anthropology

Behavioral Sciences 6
- ANTHRO 2030 Cultural Anthropology
  The additional 3 hours can be any general education approved Behavioral Science from the list.

Humanities 12
- Civilization course in language studied
- Literature course in language studied
  Select one of the following:
  - ARCHST 1600 Fundamentals of Environmental Design
  - AR_H_A 1110 Ancient and Medieval Art
  - AR_H_A 1120 Renaissance through Modern Art
  - ENGLISH 2155 Introduction to World Literatures
  - ENGLISH 2159 Introduction to World Literatures, 1890 to Present
  - FILM_S 2820 Trends in World Cinema
  - GN_HON 2112H The Middle Ages and the Renaissance
  - GN_HON 2113H The Early Modern World: The 17th-19th Centuries Enlightenment
  - GN_HON 2114H The Modern Era
  - JOURN 1000 The News Media: Journalism and Advertising in a Democratic Society
  - MUSIC_NM 1310 Masterpieces of Western Music
  - MUSIC_NM 1313 Introduction to World Music
  - PEA_ST 2810 Think Global: Fundamentals of Globalization and Digital Technologies
  - PHIL 2100 Philosophy: East and West
  - PHIL 2410 Philosophies of War and Peace
  - PHIL 2430 Contemporary Moral Issues
  - REL_ST 1100 Introduction to Religion

Additional Humanities
- REL_ST 2100 Indigenous Religions
- REL_ST 2110 Religions of the World
- REL_ST 2310 Religions of China and Japan
- WGST 2080 Perspectives on Sexual and Gender Diversity

Biological & Physical Sciences 6-7
- One course must include a lab

Foreign Language 18-20
- All in the same language

Area Support 9
- To be selected with the A&S advisor. Coursework typically includes classes in Culture, Geography, Government, or History related to language studied.

Upper Level Admission Courses 34

Required Business Core Courses 26
- ECONOM 3229 Money, Banking and Financial Markets
  or ECONOM 3251 Theory of the Firm

**BSBA in Business Administration with Emphasis in International Business - Marketing**

### Degree Program Description

International Business is a joint degree program offered by the College of Arts and Science and the Trulaske College of Business. The program incorporates foreign language, geographic region and cultural environment courses with core and international business courses. Completion of this degree program requires 141-153 credits depending on emphasis.

### Major Program Requirements

To complete this course of study, students must be accepted in both the Bachelor of Arts in International Studies program in the College of Arts and Science and the Bachelor of Science in Business Administration program in the Trulaske College of Business. Students must also complete all university requirements (p. 33), including general education (p. 34), and the degree requirements below.

#### Social Sciences

- **GEOG 1100**: Regions and Nations of the World I
- **GEOG 1200**: Regions and Nations of the World II
- **POL_SC 1400**: International Relations

### BSBA in Business Administration with Emphasis in Management

#### Degree Program Description

Students pursuing a degree in Business Administration will gain exposure to multiple areas of business including Accounting, Economics, Finance and Banking, Management, and Marketing. By selecting an emphasis in management students will learn the tools needed for planning, organizing, staffing, motivating, and directing a business, project, or department. Management coursework is diverse, covering entrepreneurial strategy, human resource management, human behavior in organizations, information systems and analytics, operations management, business law, diversity and inclusion, and leadership and ethics. Careers in management include human resource director, hospital administrator, bank manager, industrial relations director, quality control analyst, systems analyst, and manager of diversity and inclusion.

#### Major Program Requirements

Students must complete all university requirements (p. 33), including general education (p. 34), and the degree requirements below.

### BSBA in Business Administration with Emphasis in Marketing

**Degree Program Description**

Students pursuing a degree in Business Administration will gain exposure to multiple areas of business including Accounting, Economics, Finance and Banking, Management, and Marketing. An emphasis in Marketing focuses on creating and managing customers by studying business

**Capstone Course - senior year (on campus) Minimum grade of C- required**

3
activities that connect consumers with goods. The degree deals with
the strategies, tactics and business processes involved in researching
markets, deciding which markets and segments to pursue, identifying
what unique value to provide and then assembling the products, services,
people and partner firms needed to build, communicate and deliver
that value. Specializations in this area include sales, advertising, sales
promotion, retail, brand management and distribution. The marketing
major is designed for those students who are seeking an in-depth
knowledge of the tools, concepts and practice of modern marketing. This
program prepares students for a career in marketing, sales or distribution.
It focuses on activities that direct the flow of goods and services to the
consumer or user. Courses include marketing management, promotion,
sales management and logistics management.

Major Program Requirements

Students must complete all university requirements (p. 33), including
general education (p. 34), and the degree requirements below.

BSBA in Business Administration with Emphasis in Real Estate

Degree Program Description

Students pursuing a degree in Business Administration will gain exposure to multiple areas of business including Accounting, Economics, Finance and Banking, Management, and Marketing. Students who pursue an emphasis in Finance and Banking can add on an emphasis in Real Estate. Real estate is an ideal field for those with an entrepreneurial spirit who seek career options around the globe. The Real Estate emphasis is for students contemplating a career in real estate investment, property management, mortgage banking, or associated field. Related careers include real estate investment analyst, property manager, mortgage banking officer, REIT (real estate investment fund) manager, and real estate valuation specialist.

Major Program Requirements

Students must complete all university requirements (p. 33), including general education (p. 34), and the degree requirements below.

General Education Requirements | 27
Upper Level Admissions Courses | 34
Required Core Courses | 26

- ECONOM 3229 Money, Banking and Financial Markets
- FINANC 3000 Corporate Finance
- MANGMT 3000 Principles of Management
- MANGMT 3300 Introduction to Business Processes and Technologies
- MANGMT 3540 Introduction to Business Law
- MRKTNG 3000 Principles of Marketing
- STAT 3500 Introduction to Probability and Statistics II
- BUS_AD 3500 Advanced Professional Development Principles
- BUS_AD 4500 Professional Development Program - Internship
- ACCTCY 4356 Financial Accounting Concepts
- FINANC 4500 Principles of Real Estate
- FINANC 4010 Financial Management
- FINANC 4020 Investments
- MANGMT 4010 Operations Management
- ECONOM 4351 Intermediate Microeconomics or ECONOM 3251 Theory of the Firm
- ACCTCY 4356 Financial Accounting Concepts
- FINANC 4500 Principles of Real Estate

Real Estate Required Courses

- FINANC 4010 Financial Management
- FINANC 4020 Investments
- MANGMT 4010 Operations Management
- ECONOM 4351 Intermediate Microeconomics or ECONOM 3251 Theory of the Firm
- ACCTCY 4356 Financial Accounting Concepts
- FINANC 4500 Principles of Real Estate

Additional Real Estate Courses

Select two of the following: 6

- FINANC 4510 Real Estate Appraisal
- FINANC 4520 Real Estate Finance and Investment
- FINANC 4530 Real Estate Portfolio Analysis and REITs

Emphasis Support Courses

Select two of the following: 6

- Accountancy Any 3000 or 4000 level class (if not used in required core courses)
- ACCTCY 2258 Computer-Based Data Systems (if not used in UL requirements)
- COMMUN 1200 Public Speaking
- CMP_SC 1050 Algorithm Design and Programming I
Semester Plan

Below is a sample plan of study, semester by semester. A student’s actual plan may vary based on course choices where options are available.

Total Credits: 120

Minor in Business

The business minor has the same rigor and content as the fundamental courses taken by business students. It provides flexibility in undergraduate studies and better prepares students for jobs and for graduate school. The business minor includes courses that are highly complementary. For most students, the requirements for the business minor are far more valuable than a similar number of courses in one or two areas.

15 of the 18 hours must be taken in residence and a 2.0 GPA in all business courses and those required for the business minor is required. See a business advisor for questions regarding the business minor.

MBA in Business Administration

Crosby MBA

Office of Admissions
306 Cornell Hall
Columbia, MO 65211
573-882-2750
mba@missouri.edu
http://mba.missouri.edu

Degree Requirements (Crosby MBA)

Total graduate course work necessary to qualify for the Crosby MBA degree is 57 credit hours; however, students who meet the criteria for waiving certain beginning level courses may substitute those courses with electives. For graduation, MBA students must earn a cumulative grade point average of 3.0 or better in the hours completed in the designated MBA plan of study and a minimum 3.0 cumulative MU graduate grade point average.

Required course work in Quantitative Analysis, Finance, Management, Marketing and Professional Development and Experiential Learning provides a comprehensive business education for Crosby MBA students. Our curriculum assures that graduates enter the 21st century business world with tools that will enable them to be successful. The program
consists of 34.5 required credits, including foundational and advanced coursework, plus 22.5 elective credits.

The structure of the MU Crosby MBA allows students to concentrate in a specific area of business, develop a broad managerial focus, or complement business training with course work from other areas on campus. Areas of concentration are offered within the departments of finance, management, and marketing, including the marketing analytics certificate, or another field related to a student’s individual interests. The delivery format includes 1.5 credit hour, 8-week modules, to allow for more focused attention to a particular topic, as well as to provide a wider array of choices. 3 credit, 16 week courses are also available.

### Degree Requirements (execMBA)

Total graduate course work necessary to qualify for the execMBA degree is 48 credit hours. For graduation, execMBA students must earn a cumulative grade point average of 3.0 or better.

The program curriculum, designed with executives in mind, is inventive, practical and market-facing. Students will build skills that increase self- and global-awareness, develop strategic risk-taking, and heighten influence. Delivery is a blend of approximately 75% online and 25% in-class coursework. Students will amplify global expertise and value in the marketplace with an 8- to 10-day international residency. This lock-step, cohort program – meaning students will take the same classes together in the same order – is conducive to personal interactions with the other high-level professionals.

Total Credits: 48

* Students are required to complete a minimum of 3 credit hours of Marketing electives and a minimum of 3 credit hours of Finance electives in addition to required coursework.

### International Residency (execMBA)

The international residency is an 8-10 day immersion in a foreign culture and its business practices during the summer between the first and second year in the program. It serves as an opportunity to apply classroom education to an international setting. Students will consult with businesses on strategic issues, network with local businesses and government officials, and explore international culture.
Degree Requirements - all PhD students

1. Before enrolling in concentration area courses, all PhD students in Business Administration must take (or be able to have waived) the below general courses. Students with an MBA typically will have these requirements waived.

   - ACCTCY 7310  Accounting for Managers  3
   - FINANC 7440  Managerial Finance  3
   - MRKTNG 7460  Managerial Marketing  3
   - FINANC 7210  Microeconomics for Business  3
   - MANGMT 7380  Organizational Behavior and Management: The Individual  3
   - MANGMT 7390  Organizational Behavior and Management: Dyadic, Group and Organizational Processes  3
   - MANGMT 7970  Introduction to Strategic Management  3

2. An in-depth major concentration in the area of finance, management (organizational sciences) or marketing (minimum of 15 hours of 8000/9000-level courses).

3. Two support areas of at least nine credit hours each, one of which must be taken outside the School of Business, or one support area of at least 12 credit hours. These supporting areas offer the student considerable latitude in identifying a course of study that can be tailored to the individual’s interests and goals. If two support areas are selected, the student must also satisfy a 12-hour analytical tool requirement; if one support area is selected, the analytical tool requirement is 18 hours.

4. Collateral requirements emphasizing analytical tools (proficiency in a foreign language does not fulfill the collateral requirements). This is a research methods and analyses sequence of at least 12 hours (at least 18 if only one support area), including appropriate courses in economics, mathematics, psychology, sociology, statistics or other areas deemed appropriate by the program committee.

5. An ongoing seminar experience (each semester until successful completion of comprehensive examinations) that acquaints the student with current literature and research in his/her major area of interest. This seminar is in addition to other seminars offered departmentally (4 hours minimum).

6. Dissertation (minimum 12 hours of 9990 credit).

These requirements are independent of one another; courses taken to satisfy one requirement may not be used to satisfy any other requirement. Previous graduate work taken before admission to the PhD program may be used to satisfy these requirements if it is deemed appropriate by the student’s program committee.

Concentration in Finance

The PhD program with a concentration in Finance emphasizes university level research and teaching skills. The program of study is flexible to meet individual needs and interests, but all students take advanced classes in Finance, Economics, and Statistics. Students are only admitted on a full-time basis and normally work as research or teaching assistants. Students must complete an on campus interview before any decision can be made regarding their ultimate admission. The GMAT is strongly preferred with the GRE only considered in special circumstances.

Degree Requirements - Finance Concentration

Prerequisites typically needed for Finance program of study:

- ECONOM 7351  Intermediate Microeconomics  3
- MATH 1500  Analytic Geometry and Calculus I  5
- MATH 1700  Calculus II  5
- STAT 2500  Introduction to Probability and Statistics I  3

Required courses:

- FINANC 9100  Seminar in Corporate Finance  3
- FINANC 9200  Research in Corporate Finance  3
- FINANC 9300  Financial Economics  3
- FINANC 9400  Seminar in Investment Analysis  3
- FINANC 9500  Advanced Topics in Finance  3
- FINANC 9111  Topics Seminar in Finance (taken for 1 credit hour each semester while taking other course work)  1-3

Support Areas - Finance Concentration

PhD students must complete either two 9-hour Support Areas or one 12-hour Support Area to complement advanced training in Finance. Successful completion of a Support Area may require a written examination covering course work applied to the Support Area. At least one Support Area must come from outside the College of Business. Most students choose Support Areas in Microeconomics and Statistics resembling the following examples:

Example support area in Microeconomics:

- ECONOM 7370  Quantitative Economics  3
- ECONOM 8451  Microeconomic Theory  3
- ECONOM 8472  Econometric Methods I  3
- ECONOM 9473  Econometric Theory II  3
- ECONOM 9452  Advanced Microeconomic Theory II  3
- STAT 7510  Applied Statistical Models I  3
  or MATH 7140  Matrix Theory  3
- STAT 7750  Introduction to Probability Theory  3
- STAT 7760  Statistical Inference  3

Collateral Area - Finance Concentration

PhD students must complete a 12-hour Collateral Area (if completing two 9-hour Support Areas) or an 18-hour Collateral Area (if completing one 12-hour Support Area) selected in cooperation with a student’s program committee. Coursework applied to a Support Area cannot be applied to a Collateral Area. Recommended is a Collateral Area in Accounting, Econometrics, Economics, Mathematics, Statistics, or Corporate Law. The purpose of the collateral area for finance students is to provide them...
with the necessary quantitative skills to undertake original empirical research. Some representative examples include:

**Example collateral area in Econometrics:**
- **ECONOM 8472** Econometric Methods I 3
- **ECONOM 9473** Econometric Theory II 3
- **ECONOM 9476** Advanced Topics in Econometrics II 3

**Example collateral area in Economics:**
- **ECONOM 8451** Microeconomic Theory 3
- **ECONOM 9452** Advanced Microeconomic Theory II 3

**Example collateral area in Corporate Law:**
- **LAW 5395** Business Organizations 1-4
- **LAW 5385** Bankruptcy 1-3
- **LAW 5470** Criminal Clinic 1-5

**Example collateral area in Statistics:**
- **STAT 7210** Applied Nonparametric Methods 3
- **STAT 7750** Introduction to Probability Theory 3
- **STAT 7760** Statistical Inference 3
- **STAT 7850** Introduction to Stochastic Processes 3

**Concentration in Management**

PhD students with a concentration in Management emphasize university level research and teaching skills. The program of study is flexible to allow students to focus on their personal interests. The program includes a business core of at least 15 hours, at least 15 hours of doctoral seminars in management, one 12-hour or two 9-hour support areas, and a minimum of 12 hours in research methods and statistics (18 hours with one 12-hour support area). Students typically work as research or teaching assistants and receive direct support, which includes a full tuition waiver. The PhD program in management is designed to provide students with a sound foundation for a productive career as an academic at a research-oriented university.

The Department of Management welcomes applications for entry into the PhD program for the fall semester (beginning in August). The application deadline for full consideration is February 1, but applications that arrive after that date may be considered. We encourage all applicants to consider making a visit to campus to meet departmental faculty and current management doctoral students. Please contact Dr. Karen Schnatterly (http://business.missouri.edu/people-directory/karen-schnatterly), PhD Coordinator, if you have any questions.

All doctoral students in the School of Business must take (or be able to waive) the following courses: A student with an MBA already will typically have these requirements waived.

**Degree Requirements - Management Concentration**

**Management Seminars**

PhD students in the management track are required to take four core seminars, and 3 credits of additional seminars that will be offered to match the needs and interests of current students. The four core seminars are:
- **MANGMT 9040** Seminar in Human Resource Management 3
- **MANGMT 9080** Seminar in Entrepreneurship 3
- **MANGMT 9060** Seminar in Corporate Strategy 3

While pursuing required course work, all students participate in MGMT 9101 Topics Seminar in Management (1 hour per semester), which is taken on a Pass/Fail basis.

**Support Areas - Management Concentration**

PhD students must complete either two 9-hour Support Areas or one 12-hour Support Area. Support Areas are tailored to the research and teaching goals of the PhD candidate. Programs are highly individualized to reflect student interests and desired focus. The combination of courses in any Support Area and in the concentration core is flexible, with numerous combinations possible. Program design is subject to the approval of the student’s program committee. Typical Support Areas include psychology, economics, research methods and statistics, career development, sociology, marketing, and communication. Listed below are examples of Support Areas that could be selected:

**Example Area I: Psychology**
- **PSYCH 8610** Motivation 3
- **PSYCH 8620** Personality Psychology 3
- **ESC_PS 7200** Positive Psychology 3
- **PSYCH 9350** Studies in Social Psychology 1-99

**Example area II: Economics**
- **AAE 8050** Economics of Institutions and Organizations 3
- **AAE 9001** Advanced Topics in Economics II 3
- **FINANC 9001** Advanced Topics in Finance 3
- **ECONOM 7355** Industrial Organization and Competitive Strategy 3
- **ECONOM 8451** Microeconomic Theory 3

**Example Area III: Research Methods and Statistics**
- **MRKTNG 9010** Introduction to Research Methods in Marketing 1-3
- **PSYCH 8710** General Linear Models in Psychology I 4
- **PSYCH 8730** Statistical Software Packages 1
- **PSYCH 9510** Studies in Clinical Psychology 1-99
- **ESC_PS 9650** Application of Multivariate Analysis in Educational Research 3
- **ESC_PS 9710** Structural Equation Modeling 3
- **ESC_PS 9720** Hierarchical Linear Modeling 3
- **SOCIOL 8120** The Logic of Social Research 3
- **ECONOM 7370** Quantitative Economics 3
- **ECONOM 8472** Econometric Methods I 3
- **ECONOM 8473** Applied Econometrics 3
- **SOCIOL 9288** Ethnographic Fieldwork 3
- **COMMUN 8130** Topics in Qualitative Research Methods 3
- **STAT 7110** Statistical Software and Data Analysis 3
- **STAT 7710** Introduction to Mathematical Statistics 3
- **STAT 7510** Applied Statistical Models I 3

**Research Methods & Analysis (RM&A) Area - Management Concentration**

PhD students must complete a 12-hour RM&A Area (if completing two 9-hour Support Areas) or an 18-hour RM&A Area (if completing one 12-hour Support Area). These courses, selected in cooperation with a student’s program committee, will provide students with the tools and techniques necessary for conducting empirical research. Sample courses include those listed above in Support Area III. Coursework applied to a Support Area cannot be applied to a Collateral Area.
PhD Thesis Credit (MANGMT 9090)

Students enroll in MANGMT 9090 while they are working on their dissertation, typically in their last two years in the program. We require a minimum of 12 credit hours of MANGMT 9090.

Concentration in Marketing

Students with an interest in behavioral, strategic, or methodological issues marketing are a great fit for this program. It emphasizes the development of research and teaching skills needed to pursue career placement at a research-oriented university. The program is flexible to meet individual needs and interests and graduates annually well-situated professionals prepared for the market. In addition, the program offers small class sizes, a set of doctoral specific seminars, and a collaborative environment. Students develop research skills by working with faculty on research projects and from faculty mentoring. Students also gain valuable experience by teaching undergraduate courses.

Support Areas - Marketing Concentration

PhD students must complete either two 9-hour Support Areas or one 12-hour Support Area. Support Areas should be selected to provide depth in theory and research appropriate for the particular research interests of the student. Typical Support Areas for students concentrating in marketing are social psychology, organizational behavior, economics, and statistics, but other areas may be appropriate. Below are examples:

Example support area in Psychology/Social Psychology:

<table>
<thead>
<tr>

</tr>
<tr>
<td>MANGMT 9087</td>
<td>Seminar in Management (Strategic Management I)</td>
<td>1-99</td>
</tr>
</tbody>
</table>
Analytical Tools - Marketing Concentration

Courses in research methods and statistics are required to provide each doctoral student with a sound foundation in research skills. Two marketing seminars that focus on research methods are required, with additional courses chosen as appropriate for the student’s specific research emphasis. This includes a minimum of 12 hours for students with two support areas, or 18 hours for students with one support area. Students often take additional analytical tool courses to further develop the depth of knowledge in tools required for their specific research interests. Coursework in multiple regression, analysis of variance, and multivariate statistics is required.

Example analytical tools courses:

- **MRKTNG 9010**  Introduction to Research Methods in Marketing  1-3
- **MRKTNG 9030**  Seminar in Applied Multivariate Analysis in Marketing  1-3
- **ECONOM 7340**  Introduction to Game Theory  3
- **ECONOM 7351**  Intermediate Microeconomics  3
- **ECONOM 8472**  Econometric Methods I  3
- **PSYCH 8710**  General Linear Models in Psychology I  4
- **PSYCH 8720**  General Linear Models in Psychology II  4
- **PSYCH 9320**  Social Psychology Methodology  3
- **PSYCH 9330**  Field Research Methods  3
- **PSYCH 9520**  Psychometrics  3
- **PSYCH 9710**  Multivariate Statistics in Psychology  3
- **SOCIOL 7120**  Social Statistics  3
- **SOCIOL 8130**  Advanced Social Statistics  3
- **SOCIOL 8120**  The Logic of Social Research  3
- **SOCIOL 9287**  Seminar in Qualitative Methods in Sociology  3
- **STAT 7210**  Applied Nonparametric Methods  3
- **STAT 7310**  Sampling Techniques  3
- **STAT 7510**  Applied Statistical Models I  3
- **STAT 7530**  Analysis of Variance  3
- **STAT 7540**  Experimental Design  3
- **STAT 7750**  Introduction to Probability Theory  3
- **STAT 7760**  Statistical Inference  3
- **STAT 7830**  Categorical Data Analysis  3
- **STAT 7850**  Introduction to Stochastic Processes  3
- **STAT 8640**  Bayesian Analysis I  3
- **STAT 9710**  Advanced Mathematical Statistics I  3
- **STAT 9720**  Advanced Mathematical Statistics II  3

**Marketing PhD Seminars**

- **MRKTNG 9010**  Introduction to Research Methods in Marketing  1-3
- **MRKTNG 9020**  Seminar in Advanced Research Methods in Marketing  1-3
- **MRKTNG 9030**  Seminar in Applied Multivariate Analysis in Marketing  1-3
- **MRKTNG 9210**  Seminar in Marketing Strategy  1-3
- **MRKTNG 9220**  Seminar Marketing Models  1-3
- **MRKTNG 9230**  Seminar in Consumer Behavior  1-3

**All Concentrations Qualifying Process**

**Program Committee**

During the first semester of course work, the PhD Coordinator, a member of the doctoral faculty from the major area of study (finance, management or marketing), serves as the student’s faculty advisor.

By the end of the first year of course work, a student should make formal application for the doctoral degree and, after consultation with faculty, request appointment of a Doctoral Program Committee. This committee consists of at least three members from the student’s major area of study and at least one member from each supporting area of study.

The Doctoral Program Committee conducts the qualifying examination and works with the student to design a plan of study.

**Residency Requirement**

In compliance with University regulations, the doctor of philosophy degree requires the completion of 72 semester hours of graduate work beyond the baccalaureate degree. Within the credit-hour requirement is the residency requirement. To satisfy the residency requirement, a student must complete at least 2 9-hour semesters or 3 6-hour semesters in an 18-month period at MU. All courses taken to satisfy the residency requirement must be MU courses approved for graduate credit and approved by the student’s doctoral program committee. Correspondence and off-campus courses may not be counted toward the residency requirement. This program is designed for full-time students and typically requires a 4-year on-campus commitment.

**Qualifying Examination and First-Year Project**

Every marketing doctoral student is required to pass the qualifying exam consisting of two major components. The first component is a comprehensive evaluation of overall performance in coursework and RA assignments and participation in formal and informal doctoral program elements. The second component is a first-year project addressing a scholarly research topic in marketing consisting of three major parts:
a written outline, presentation, and paper suitable for submission to a conference or journal. The goal of this project is to promote early research engagement, interaction with faculty, and the development of communication and presentation skills that will enhance the overall experience of the student throughout the doctoral program.

Comprehensive Examination Process

Typically, after completion of the course work specified on the plan of study, the student’s doctoral program committee determines the student’s readiness to undertake the comprehensive examination. The student must be enrolled at MU the semester s/he takes this examination.

The comprehensive examination consists of written and oral sections. Both sections must be completed within one month of each other, and at least seven months before a final dissertation defense. Successful completion of the comprehensive examination requires that the student’s doctoral program committee vote to pass the student on the entire examination, both written and oral sections, with no more than one dissenting or abstaining vote. The student who fails this exam may not take a second comprehensive examination for at least 12 weeks. Failure to pass two successive comprehensive examinations automatically prevents candidacy.

Dissertation Requirements

A dissertation is required to complete the doctoral program. Each student, working under the supervision of the doctoral program committee chair, must propose an original scholarly research project. The dissertation proposal is normally defended at the end of the third year of the program in an oral presentation. The proposal must be approved formally by the student’s program committee. Following completion of the research, the written dissertation must be orally defended and approved by the student’s program committee.

Admissions

MUBusPhDAplicants@missouri.edu
407 Cornell Hall
Columbia, MO 65211
573-882-0181
http://business.missouri.edu/programs-and-admissions/phd

Finance

Through the study of finance, students learn to independently analyze security markets, understand basic valuation techniques and use their knowledge to make investment decisions. In addition, students learn basic theoretical concepts in corporate finance and their application to corporate financing and investment decisions. Coursework focuses on the areas of investments, portfolio management, real estate appraisal, financial institutions and corporate finance.

Faculty

Professor D. French**, J. Howe**, X. Yan**
Associate Professor M. O’Doherty**, K. Pukhuanthong**
Assistant Professor D. Badoer*, M. Souther*, A. Yore
Associate Teaching Professor J. Stansfield
Assistant Teaching Professor F. Bereskin, J. Hegger, S. Jannati, A. Kern, G. McCormick, M. Qiu,

Undergraduate

While the Trulaske College of Business does not offer an undergraduate degree in Finance, we do offer the BSBA (Bachelor of Science in Business Administration) (p. 360) or BSAcc (Bachelor of Science in Accountancy) (p. 353).

Graduate

- MS in Finance (p. 382)
  - with emphasis in Financial Management (p. 382)
  - with emphasis in Investments (p. 383)
  - with emphasis in Real Estate (p. 383)

MS in Finance

Finance Department
401 Cornell Hall
573-882-5573
business.missouri.edu/programs-and-admissions/online-ms-finance

Mizzou’s online MS Finance is the degree for individuals who want to advance their knowledge of finance in our global business environment and enhance their analytical and financial decision skills. The design of the program fits career objectives of:

- Working finance professionals who seek to enhance their professional opportunities by gaining additional financial skills and knowledge
- Recent degree recipients looking to strengthen their career prospects by furthering their financial training
- University of Missouri undergraduate senior-level students wanting to jump-start their career by continuing their financial education (https://business.missouri.edu/programs-and-admissions/412-program) and receiving their master’s degree in as little as six months following the bachelor’s degree.

MS in Finance with Emphasis in Financial Management

Degree Requirements

- 30 credit hours – finish in 1 year (full-time) or 2 years (part-time)
- Fully online or a combination of online and on-campus classes
- One-week study-abroad experience with costs covered by the program
- CFA Institute Affiliated University
- The Trulaske College of Business is accredited by AACSB

**Required GPA:** 3.0 or higher for these 15 credit hours

Note: for the purposes of this Certificate, a student can transfer in credit from another institution only for MANGMT 3000. Management 3000 is a prerequisite for all other Management courses.

**Total hours:** 15

Certificate in Risk Management and Insurance

Organizations that manage risk well are more likely to be successful than those that do not. Effective risk management requires a solid understanding of the sources, dimensions and qualities of risk, as well as the development and implementation of efficient techniques to mitigate, control or avoid those risks. Gain these skills and become competitive in the field of risk management and insurance. Students must have a 3.0 overall GPA.

Note: MRKTNG 3000 is prerequisite course for all other Marketing classes.

* Satisfactory completion of at least one credit hours for a supervised internship (summer or regular semester), with significant customer contract and a minimum of 120 hours on-the-job experience. This credit hour can be earned in any College at MU. Internships that qualify for this Certificate will need to be approved by the Program Coordinator as a part of the Certificate application process.

Note: Many Trulaske College of Business students will be able to satisfy the internship requirement by completing a suitable internship under the College's BUS_AD 4500 requirement. But if a student has already completed BUS_AD 4500 with an internship that does not meet the requirements of this Certificate program, that individual would be advised to register for one credit hour under MRKTNG 4185 for an internship that would qualify.

Non-business majors should contact the Program Coordinator, salescertificate@missouri.edu, regarding the internship component.

Certificate in Sales and Customer Development

The Certificate in Sales and Customer Development prepares undergraduate students for careers in the highly professional and dynamic field of sales. Through the Certificate's required practices in the sales profession and sales management.

Students who finish the 13 credit-hour curriculum will receive the Certificate in Sales and Customer Development upon completion of their bachelor's degree, thereby offering to employers tangible evidence of a strong background in sales. To earn the Certificate in Sales and Customer Development students are required to maintain a 3.0 grade point average in all courses taken in fulfillment of the Certificate.

**Required Courses**

- A minimum 3.20 GPA is needed in these three courses

Graduate Certificate in Accounting Information Systems

The College of Business is not currently accepting applications for the Graduate Certificate in Accounting Information Systems.

Graduate Certificate in Assurance

The Assurance Certificate program will provide students with advanced skills necessary to succeed in Assurance Services-related careers. Through completion of the required coursework, students will be able to:
• Assess business and financial reporting risks
• Understand and apply auditing concepts and procedures
• Design and implement internal controls
• Understand the role of corporate governance in risk management
• Implement fraud prevention and detection procedures
• Understand how corporate taxes can impact a corporation’s financial statements
• Understand the basis of corporate taxation and book-to-tax differences (ASC 740)

School of Accountancy graduates with an Assurance Certificate will be prepared for a variety of careers including: external and internal auditor, risk management, fraud examination, and consulting on risk, assurance, and fraud prevention.

Students must be admitted to the MAcc program to pursue the Assurance Certificate. Courses will count towards the degree programs for School of Accountancy. Additional credit hours beyond those needed for the MAcc will not be required in most cases. Students must achieve an average of 3.0 GPA in the required courses.

Required:
ACCTCY 4384/7384  Auditing Theory and Practice I 3

Elective:
ACCTCY 8373  Taxation of Corporations and Shareholders 3
ACCTCY 8404  Internal Auditing 3
ACCTCY 8414  Audit of Internal Controls 3
ACCTCY 8424 or ACCTCY 8438  Fraud Examination or Forensic Accounting 3
ACCTCY 8436  Advanced Accounting 3
ACCTCY 8444  Advanced Audit 3
ACCTCY 8456  Corporate Governance 3

Total Hours: (12 of 15 credit hours must be graduate credit) 15

Below is a sample semester plan. Please consult with your advisor.

Total Credits: 30

Graduate Certificate in Marketing Analytics

The Graduate Certificate in Marketing Analytics is focused on the development, implementation, and delivery of data-driven solutions that assist in marketing strategies, tasks, and decisions. The certificate can either be completed as a stand-alone credential or in conjunction with another masters degree.

For those applying to complete the coursework as a stand-alone certificate, a GMAT/GRE score is optional. However, in addition to undergoing the typical application process through the Graduate Studies Office, students will be required to provide a statement showcasing their abilities and knowledge in math or statistics. Prerequisites for the certificate include certificate include basic statistical knowledge, which can be demonstrated by completion of appropriate undergraduate, graduate, or online coursework; MRKTNG 8180, Applied Statistics in Marketing Analytics; MRKTNG 7460, Managerial Marketing; and MRKTNG 7470, Advanced Marketing Management. Students must meet the basic statistical knowledge requirement before admission. The remaining prerequisites can be completed either before or after admission. All prerequisites except MRKTNG 8180. Applied Statistics in Marketing Analytics, may be considered for a waiver with previous equivalent coursework and/or relevant work experience.

To earn the Graduate Certificate in Marketing Analytics, students must fulfill the course requirements listed below. Students must also complete one of the following certifications: SAS Base Programming Certification, Python, or Big Data. A minimum GPA of 3.3 must be earned in the five Marketing Analytics courses.

Graduate Certificate in Taxation

School of Accountancy
303 Cornell Hall
573-882-4463

For more information, contact Koni Daws (dawsk@missouri.edu).

About the Certificate

Depending on the course configuration in the program, completion of the Certificate in Taxation indicates that a student has developed expertise in tax planning and preparation in regard to international, federal, state, or estate issues for corporations, partnerships, or individuals.

Eligibility

Students must be enrolled in the MAcc graduate degree program in the School of Accountancy at MU to be eligible for the certificate.
Plan of Study

Students are required to complete 15 credit hours to receive the certificate. Course options are listed below for the tax certificate.

College of Education

Administration

Kathryn Chval, Dean and Joanne H. Hook Dean’s Chair in Educational Renewal
John Lannin, Associate Dean, Academic Affairs
Christi Bergin, Associate Dean, Research
(573) 882-7832
education.missouri.edu
MizzouEdCertification@missouri.edu
MizzouEdAdvising@missouri.edu

The College of Education, established in 1868, is the oldest teacher preparation program west of the Mississippi River. Today’s graduates of the college are employed in a variety of educational institutions and non-school settings. The college serves the educational community through research-based professional practice and a variety of learning constructs applied to real-world experiences. The college is a member of the American Association of Colleges for Teacher Education and a candidate member of the Teacher Education Accreditation Council. All programs are fully accredited by the North Central Association of Secondary Schools and Colleges.

All programs that lead to earning a certificate by the Missouri Department of Elementary and Secondary Education (DESE) are fully approved by the State Board of Education. DESE accredits all teacher certification programs at MU. The Office of Educator Quality at DESE is working with representative stakeholder groups to redesign the standards for educator preparation including certification requirements. These changes and implementation schedule will be communicated to students through individual advising sessions, meetings, and/or other university communications.

Undergraduate

- Admissions (p. 387)
- Academic Regulations (p. 388)
- Academic Affairs (p. 388)
- Teacher Education (p. 389)
- Academic Programs (p. 389)
- Teacher Certification (p. 390)

The Bachelor of Science in Education (BSEd) degree offers programs with the following certification levels:

- Early Childhood Education (Birth-Grade 3)
- Elementary Education (Grades 1-6)
- Middle School Education (Grades 5 - 9)
- Secondary Education (Grades 9-12)
- Special Education (Grades K-12)

Admissions

Even for students meeting selective admission criteria, admission to program areas is dependent on capacity, resulting in the selection of the best-qualified applicants. In addition to meeting minimum Phase II criteria, the faculty may exercise professional judgment in the selection of students through personal interviews and program specific essays.

Admission to a specific program is a prerequisite to many upper-level education courses and associated field experiences (including the teaching internship). A student admitted to a professional program (Phase II) must maintain the standards met at the time of admission. Continued assessment will be made of the characteristics associated with effective performance in the role of a professional at each level and in the program. See specific requirements for admission to each of the three phases of the chosen major.

Freshmen

Undergraduate students may enter the College of Education as first-year students at MU.

Transfer Students

The College of Education accepts transfer students consistent with the transfer/articulation policy of the Missouri Department of Higher Education. The transfer policy does not waive or alter any course requirements for the Bachelor of Science in Education or the Bachelor of Educational Studies degrees. Grades received from other accredited institutions are recorded on the MU transcript as they were earned (A = A, etc.). Courses from other University of Missouri institutions are calculated into the UM GPA of Record and grades received from other accredited institutions are calculated into the overall grade point average for admission to the College of Education.

Students transferring to the College of Education with a completed Associate of Arts (AA) degree from a Missouri institution will be considered to have completed the first two years of university general education requirements. Students transferring with a completed Associate of Arts in Teaching (AAT) degree from a Missouri institution will be considered to have completed the first two years of university general education and lower division (Phase I) professional education coursework. Additional course work may be needed to satisfy prerequisites or degree requirements for Phase II and Phase III of the chosen program.

International Students

International students enrolled in the BSEd program must have earned a score of 600 (paper-based) or 100 (internet-based) on the TOEFL exam. International students enrolled in the BSEd program must have earned a score of 550 (paper-based) or 79 (internet-based) on the TOEFL exam.

Exploratory Courses

Students wishing to explore Teacher Education may enroll in LTC 11XX for 1 credit hour in the emphasis area of interest.

Preprofessional Information

Many of the program areas contain preprofessional course work that must be completed with specific course grades prior to the selective admission process for Phase II of the program or the teaching internship (Phase III). Contact the Academic Advising Services Office for the specific course work required for the area of interest.

Grade Point Average

The College of Education uses the UM GPA of record to assess students’ academic standing and progress. Both the UM GPA of record and overall grade point average at the level required are used to determine eligibility for admittance and progression. (see Calculation of Grade Point Averages below for levels)
Time Limits on Credits Earned
The Office of Admissions evaluates transfer credit. All course work must meet the current state minimum requirements for teacher certification. Course work completed in the discipline must be evaluated by faculty within that area to be applicable.

Academic Regulations

Calculation of Grade Point Averages (GPA)
To remain in good standing with the college, a student must earn a minimum UM term and cumulative GPA of record, as described below:

<table>
<thead>
<tr>
<th>Credits</th>
<th>BSEd GPA</th>
<th>BES GPA (Non-Certificate)</th>
</tr>
</thead>
<tbody>
<tr>
<td>0-29</td>
<td>2.600</td>
<td>2.500</td>
</tr>
<tr>
<td>30-59</td>
<td>2.700</td>
<td>2.500</td>
</tr>
<tr>
<td>60 credits and above</td>
<td>2.750</td>
<td>2.500</td>
</tr>
</tbody>
</table>

Satisfactory/Unsatisfactory Grades
In addition to University policies on S/U grading, professional education courses, excluding field experiences and orientation, may not be completed under the S/U grading system.

Advanced Standing
In addition to University standards for advanced-standing credit, content courses, as defined by teacher certification, must be completed with a UM cumulative GPA of record of 3.000 or better to satisfy Missouri requirements for certification. Advanced-standing credit includes course work used to satisfy degree requirements, including any elective portion of the degree program.

Courses taken from other institutions after students have matriculated to UM must have prior approval.

Probation, Suspension and Dismissal
A student in good standing (see Calculation of Grade Point Averages above) whose MU GPA of record and/or cumulative grade point average falls below the level outlined is placed on scholastic probation. In addition, any student admitted to the College of Education who does not meet the minimum entrance standards (e.g., admission due to extenuating circumstances or admission of a returning student) will enter on scholastic probation.

A student on scholastic probation whose MU term grade point average for a subsequent enrollment semester is at or above the level specified, but whose UM cumulative grade point average is below the level required for good standing is placed on conditional scholastic probation. A student may be on conditional scholastic probation for two enrollment semesters only. If the MU cumulative grade point average is not at the level required for the student’s classification at the conclusion of the period of conditional scholastic probation, the student is ineligible for continued enrollment in the College of Education.

A student whose MU term and cumulative GPA of record falls below 2.000 is ineligible for enrollment at MU. (Exception: a first-semester freshman whose UM term GPA is below 1.000 may, at the discretion of the associate/assistant dean for academic programs, be placed on conditional scholastic probation instead of being declared ineligible.)

Capstone Options
All students graduating from the College of Education are required to complete a capstone experience. For students completing a BSEd, the internship experience (Phase III) serves as the capstone. For the BES degree, a minimum two hour capstone is required in collaboration with a faculty member in the College of Education.

Graduation Requirements
University requirements state that students must earn 30 of the last 36 credits applicable to their degree in MU courses. For the BSEd, these courses must include the student teaching internship. For the BES, they must include an approved capstone course for a minimum of two semester hours.

Graduation with Departmental Honors
The College of Education maintains a Dean’s List that includes all College of Education undergraduates who are enrolled in 12 or more credits of graded (A-F) course work, and who have a 3.500 or higher UM term GPA.

The College of Education awards Latin Honors designations will be based on the Spring graduates each year, and those GPAs will determine the levels that will be applied to Summer and Fall graduates during that calendar year. The top 5% will receive Summa Cum Laude distinction, the next 10% Magna Cum Laude, and the remaining 15% Cum Laude for each of the program area categories (Early Childhood and Elementary, Middle School, Secondary/K12, and Special Education).

Students must earn a minimum of 60 credits on the MU campus to be eligible for Latin Honors designation. Determination of eligibility is will be based on either the cumulative MU GPA of record, or the MU GPA for the last 60 hours of credits, whichever is greater.

In no case will a Latin Honors designation be conferred for an individual whose overall MU GPA is less than 3.6.

In addition, College of Education students may participate in a University Honors Program. (See the Honors College (p. 763) information on this site).

Academic Affairs
The College of Education offers services to assist undergraduate students interested in pursuing a degree in Education.

Academic Advising
101/102 Hill Hall
573-882-5659
MizzouEdAdvising@missouri.edu

Academic Advising, located in 101/102 Hill Hall, is dedicated to the academic, professional and personal success of all students. The office is committed to building a one-on-one professional collaborative relationship that empowers students to explore opportunities and develop and implement individual academic and life goals. Meeting with a professional advisor early and regularly is a necessary component of this relationship. Degree choice and requirements, campus involvement, academic struggles, study abroad options, graduate school program and the certification process are just a few of the many topics that can be explored in working with a professional advisor.
Career Services
105 Hill Hall
573-882-9556
MizzouEdCareers@missouri.edu

The Education Career Services Office, located in 105 Hill Hall, specializes in the development of cover letters and résumés, preparation for interviews, and implementation of an effective job search. Students will find considerable support in building a professional, self-managed credential file needed for the field of education. In addition, this office provides information about job openings, school district contacts, and career fairs, as well as hosts on-campus interviews with potential employers.

Students will find additional assistance at www.hiremizzoutigers.com (http://www.hiremizzoutigers.com), but also the Education Career Services website at http://caps.missouri.edu, which contains extensive resources exclusively for the job seeker in the field of education.

Assessment and Certification
2 Hill Hall
573-884-9556
MizzouEdCertification@missouri.edu

Multiple data points will be collected throughout a student’s time in the College of Education to ensure University of Missouri and DESE certification standards are upheld. Assessment and Certification, located in 2 Hill Hall, will be the primary collection and reporting resource for this data. Assessment and Certification work very closely with the Office of Teacher Education, Academic Advising and the MU Registrar.

Recruitment and Retention Initiatives
104 Hill Hall
573-882-7772
MizzouEdRecruit@missouri.edu

The Office of Recruitment and Retention, located in 104 Hill Hall, serves as a welcome center for prospective and current students as well as their families. Through student tours and recruitment events, the staff showcase the College of Education and highlight opportunities and services provided to our students. The staff advise and assist prospective students in understanding College of Education degree programs, admission requirements, and financial assistance options. In addition, the office provides programs and initiatives tailored towards the recruitment, retention, and matriculation of underrepresented and/or first-generation student populations.

International and Intercultural Initiatives
218 Townsend Hall
573-882-0732

The Office of International and Intercultural Initiatives, located in 218 Townsend Hall, designs initiatives and supports undergraduates as they develop cultural competence and intercultural understanding through foreign and domestic experiences. These experiences include on-campus multicultural events and activities, as well as study/teach abroad opportunities in Italy, Ghana, Tanzania, Australia/New Zealand, South Korea, India, South Africa, Jakarta, Thailand; and service learning opportunities in organizations such as Centro Latino, Columbia Public Schools and Granny’s House.

Office of Scholarship Services
121E Townsend Hall
573-884-7848
MizzouEdScholarships@missouri.edu

The Office of Scholarships helps students pursue scholarships and fellowships. This office disseminates information about scholarship opportunities and deadlines to current and potential students. Incoming Freshmen become eligible for College of Education scholarships when they submit their MU Annual Scholarship Application, due December 1st of each year. Returning and Transfer Students become eligible for College of Education scholarships when they submit their MU Annual Scholarship Application, due by February 1st each year. Students with renewable scholarships must reapply each year and continue to meet criteria to be eligible for renewable scholarships.

The Scholarship Coordinator then assists the Financial Awards Committee, which consists of College of Education faculty members, as they determine recipients based on the criteria for each scholarship. More information can be found on the College of Education website.

Teacher Education

Office of Teacher Education
202 Townsend Hall
573-882-0560
TeacherEducation@missouri.edu

The Office of Teacher Education is committed to supporting students as they progress through the phases of their academic career including answering general questions about all aspects of the program and making sure that you are enrolled in the appropriate education courses. This office works in conjunction with all MizzouEd departments in Academic Affairs, to provide the best educational experience for our students.

Field Experience

202 Townsend Hall
573-882-4364
MizzouEdFieldExp@missouri.edu

The Office of Field Experience supports students in all phases leading up to and including the student teaching internship. The professional staff makes regular contact with school district faculty and administrators in Columbia and around the state to assure that students encounter high-quality field experiences where they gain knowledge and assume progressive responsibilities within classroom settings. In addition, the office provides guidance to any student who requests additional help to prepare for student teaching.

Academic Programs

College of Education Requirements - BSEd

As Mizzou Ed continues to implement the new Missouri Standards for the Preparation of Educators mandated by the Department of Elementary and Secondary Education (DESE), curriculum changes will be required that must be met in order to complete your degree and earn teacher certification. Those changes may become effective at any point during your academic program. Therefore, it is extremely important that you DO NOT SELF ADVISE.
College of Education Requirements - BES

In addition to the University general education (p. 34) and graduation requirements (p. 33), students must complete the following degree requirements and additional major requirements:

- 24 hours of education coursework with a 2.500 cumulative and overall UM GPA
- Twenty-four hours of coursework focusing on a particular concentration
- Completion of a graduation check in collaboration with a professional advisor once 60 credit hours of coursework are completed
- Multicultural studies requirement; students address this requirement by demonstrating competence on diversity standards in their education coursework.
- Students will complete a two hour minimum capstone course in collaboration with a faculty member in the College of Education.

Professional Education

The College of Education professional education requirements include those that are common to all majors as well as requirements that are specific to each major. Students must meet the following requirements:

- Course GPA of 2.000 or better with an overall professional education GPA of at least 3.000 (required for Missouri Teacher Certification)
- UM GPA of record and overall GPA of 2.750
- GPA of 3.000 in the content area for students majoring in a degree leading to certification in a subject (K–12, 9–12, 5–9 or PK-3)

Teacher Education Courses

Students proceed through three phases as they complete the baccalaureate program. Each phase includes training in technology as well as clinical experience. University general education and content requirements are completed each semester in addition to the required program area courses.

Phase I

This phase provides students with an immersion into the discipline and culture of teaching and learning before focusing on a teaching specialty. It includes up to eight courses: LTC 11XX, ESC_PS 2010 and ESC_PS 2014, LTC 2040, LTC 2044, LTC 2200 and IS_LT 4467. Experiences in this phase incorporate the teacher’s roles in facilitating learning at all levels of development. Students also focus on how problems of schools, family, community and society affect educators. The emphasis in Phase I is on career exploration and oral and written communication. All students in the BSEd degree program complete these courses regardless of major. Students majoring in Special Education complete an additional course in Phase I, SPC_ED 4300, for a total of 12 hours in Phase I. All College of Education students must complete ESC_PS 2000 Experiencing Cultural Diversity in the United States.

Phase II

This phase occurs over a three-semester sequence and focuses increasingly on a chosen teaching emphasis and on interdisciplinary teaching. Experiences in this phase focus on instructional strategies, human development, classroom and behavior management and educational measurement. This phase provides students with experience in the methods of teaching in a specific subject area as well as emerging problems and practices within the field of education. Certain degree programs have limited enrollments. The number of credits is dependent on the selected program. See specific majors for courses required in Phase II.

Application to Phase II is required. Students become eligible for consideration for admittance to Phase II in a specific program after meeting the following criteria:

- Current enrollment in the College of Education
- Minimum 2.750 UM GPA of record and overall GPA (on a 4.000 scale)
- Passing score on the Missouri General Education Assessment
- Completion of the Missouri Educator Profile
- ENGLISH 1000 with a “C” range grade or higher
- MATH 1100 with a “C” range grade or higher
- Demonstration of competence of Phase I learning markers as demonstrated by satisfactory completion of Phase I courses (LTC 11XX, grade of “S”; ESC_PS 2014 and LTC 2044, grade of “S” in each course; ESC_PS 2010 and LTC 2040, grade of “C” (2.00) or higher in each course)
- Demonstrated competence of Phase I mid-preparation benchmarks (as documented by Phase I instructors)
- Additional requirements as designated by the faculty
- Possession of characteristics associated with effective performance in a professional role at the level(s) and in the major(s) selected
- Completion of application for progression

Decisions regarding Phase II admission are made by program faculty. Meeting minimum requirements for admission to Phase II does not guarantee admission to Phase II.

Phase III

Phase III occurs during the last semester (or last year) with student placement in a public school district for the entire semester, for approximately 16 weeks (14 credit hours).

Application for Phase III is required. To qualify for the teaching internship, applicants must meet the following requirements:

- Admission to Phase III in the program area
- Successful completion of Phase II
- A minimum of 90 completed credit hours
- Completion of at least the preceding semester in residence
- A minimum 2.750 UM GPA of record and an overall GPA of 2.750 (on a 4.000 scale)
- Completion of specific prerequisite professional education and subject area course requirements for the level at which the teaching internship is to be accomplished

Teaching internship placements are available in several districts across the State of Missouri. Applications are accepted approximately a year preceding internship. More information concerning student teaching internships may be obtained from Field Experience Office, 202 Townsend Hall, in the College of Education.

Teacher Certification

Licensures

Completion of the BSEd and any additional requirements for certification must be completed before the graduate is eligible for an Initial
Professional Certificate from the Department of Elementary and Secondary Education in the State of Missouri.

Recommendation for initial certification after graduation requires:

- Passing score on the Content Area Exam for each major (the examination should be taken during the last year of the program and official scores submitted to the University of Missouri)
- Passing score on the Missouri Pre-Service Teacher Assessment
- Official transcripts with the degree posted submitted to Office of Assessment in 2 Hill Hall.
- Submission of an IPC application from the DESE web application website (https://apps.dese.mo.gov/weblogin/login.aspx) to MU
- The Department of Elementary and Secondary Education also requires that students seeking additional certification in other teaching subjects take the Content Area Exam in those additional subjects in order to be considered a Highly Qualified Teacher.

A student recommended for teacher certification must meet the following criteria:

- Cumulative UM GPA of record of 2.750
- Overall GPA of 2.750 for all college course work completed
- Cumulative GPA of 3.000 in all content area course work
- 2.000 in each professional education course with overall 3.000 GPA on all professional education course work
- Satisfactory score on the Missouri Pre-Service Teacher Assessment
- Satisfactory score on the Content Area Exam required by the State of Missouri
- An official copy of the student’s transcript with baccalaureate degree posted submitted to the Office of Assessment in 2 Hill Hall.
- Complete online application for an Initial Professional Certificate through the Department of Elementary and Secondary Education (DESE) web application

**Graduate**

Now is an exciting time to pursue graduate studies in the College of Education. A range of professional and continuing education degrees are available, many with specializations.

Our faculty mentors create a rich environment as they are not only involved in teaching, but also heavily invested in research programs and centers. Faculty members balance their research efforts with student coordination and guidance. Choosing the right college for graduate studies is not an easy or simple decision. We welcome you to visit the MU Columbia campus and meet with our faculty and current students to find out more about life in the College of Education.

**Note:** Prospective graduate students must apply to both the degree program of interest and to the Office of Graduate Studies. In most cases, the entire application process may be completed online. Find admission and application details by selecting the degree program of interest in the left navigation column.

**Career and Technical Education**

Career and Technical Education (CTE) is for people interested in a wide variety of possible careers related to education for employment. CTE programs are intended to prepare students to be effective instructors and workforce development professionals at community colleges, area vocational-technical career centers, or corporate training centers.

Program coursework emphasizes a foundation in curriculum design, teaching methods, student assessment, instructional program design and management, educational philosophy, learner psychology, and educational technology.

For undergraduate students, the online Bachelor of Educational Studies degree program has numerous options that allow students to focus on any one of a variety of areas such as strategic human resource development, instructional design, health professions education, and youth development professions.

For individuals interested in graduate education, there are two emphasis options in the Master of Education in CTE:

- The Business & Marketing Education option is for those interested in teaching subjects such as Business Administration, Computer Information Systems, Administrative Office Systems, Personal Financial Planning, Advertising & Marketing, Retail Management & Sales, Accounting & Business Finance, and International Business.
- The Vocational Technical Education emphasis is designed for careers teaching in fields such as Allied Health Professions, Telecommunications and Electronic Technology, Construction Trades, Culinary Arts and Food Science, Automotive Technology, Small and Marine Engine Repair, and Industrial and Manufacturing Processes.

**Faculty**

**Associate Teaching Professor** A. Barbis *

**Graduate Faculty Member - membership is required to teach graduate-level courses, chair master's thesis committees, and serve on doctoral examination and dissertation committees.**

**Doctoral Faculty Member - membership is required to chair doctoral examination or dissertation committees. Graduate faculty membership is a prerequisite for Doctoral faculty membership.**

**Undergraduate**

The University does not offer an undergraduate degree in Career and Technical Education. Students interested in this field might want to consider the online Bachelor of Educational Studies (BES) degree program coordinated by the LTC program area is the undergraduate option for individuals who want to teach or work in workforce education. The degree program is designed for people who plan to work with adult learners at community colleges, workforce development programs, and continuing professional education programs. It is intended to prepare students to become effective educational professionals by providing not only the traditional broad-based education of a 4-year degree, but also a foundation in curriculum design, teaching methods, and other aspects of the field of adult education.

For information about the online BES program, contact the College of Education Advising Office:

Phone: 573-882-5659
Address: 101 Hill Hall
email: education_advising@missouri.edu

**Graduate**

- MEd in Career and Technical Education (p. 392)
  - with emphasis in Business and Marketing Education (p. 392)
  - with emphasis in Vocational Technical Education (p. 393)
- EdSp in Career and Technical Education (p. 393)
  - with emphasis in Business and Marketing Education (p. 393)
The Master of Education in Career and Technical Education (CTE) is a 33 credit-hour online degree program designed for people interested in a wide variety of possible careers related to education for employment. This program is intended to prepare students to be effective instructors and workforce development professionals at community colleges, area vocational-technical career centers, or corporate training centers. Program coursework emphasizes a foundation in curriculum design, teaching methods, student assessment, instructional program design and management, educational philosophy, learner psychology, and educational technology. There are two emphasis options in the CTE program.

The Business & Marketing Education option is for those interested in teaching subjects such as Business Administration, Computer Information Systems, Administrative Office Systems, Personal Financial Planning, Advertising & Marketing, Retail Management & Sales, Accounting & Business Finance, and International Business.

The Vocational Technical Education emphasis is designed for careers teaching in fields such as Allied Health Professions, Telecommunications and Electronic Technology, Construction Trades, Culinary Arts and Food Science, Automotive Technology, Small and Marine Engine Repair, and Industrial and Manufacturing Processes.

Admissions

**Admission Deadlines**

- May 1 for fall admission (classes beginning in August)
- October 1 for spring admission (classes beginning in January)
- March 1 for summer admission (classes beginning in June)

Applicants are encouraged to submit their applications as early in the process as possible. Applications can take 6-8 weeks to expedite completely. Every reasonable effort will be made to process the application for the semester requested.

**Thesis/Non-Thesis Requirements**

Students in the M.Ed. in CTE will create a portfolio that will serve as the summative capstone of the program of study in lieu of a thesis or comprehensive examination. Students build the portfolio as they progress through the program by adding material from the courses in the Plan of Study. Guidelines for the capstone portfolio project are provided to students early in the program.

**Admission Requirements**

- Completed bachelor’s degree (from a regionally accredited institution) in education or a subject related to the applicant’s teaching interest
- Undergraduate GPA of 3.0 on a 4.0 scale in the last 60 hours of course work
- Statement of purpose
- Résumé or curriculum vitae
- Two letters of recommendation (Letters should attest to applicant’s professional competence, academic preparation and potential for graduate work.)
- If applicant’s native language is not English, the Test of English as a Foreign Language (http://www.ets.org/toefl) (TOEFL) administered within the last two years, with a score of at least 500, is required.
- The Graduate Record Examination (http://www.ets.org/gre) (GRE) is not required for consideration for admission. However, applicants with competitive GRE scores whose GPA is below 3.0 will be considered for acceptance by the Special Admissions Committee.

Applicants are required to meet two sets of minimum qualifications for admissions: the requirements of the MEd in Career and Technical Education program and the minimum requirements of the Office of Graduate Studies (http://gradstudies.missouri.edu/admissions/eligibility-process/minimum-requirements.php).

**MEd in Career and Technical Education with Emphasis in Business and Marketing Education**

This online program is designed for certified secondary teachers, community college instructors, trade school facilitators, and corporate trainers. Courses in the degree program will support a graduate’s ability to be an effective teacher by providing a foundation in curriculum design, teaching methods, student assessment, instructional program design and management, learner psychology, and educational technology.

The Business and Marketing Education emphasis is for those who teach:

- Business administration
- Computer information systems
- Personal financial planning
- Advertising and marketing
- Retail management and sales
- Accounting and business finance

**Admissions**

Applicants are required to meet two sets of minimum qualifications for admissions: the requirements of the MEd in Career and Technical Education program and the minimum requirements of the Office of Graduate Studies (http://gradstudies.missouri.edu/admissions/eligibility-process/minimum-requirements.php). Because requirements vary, you must refer to a degree program’s graduate admission page to learn about specific admission criteria, application deadlines, eligibility, and application process. Your application materials will be reviewed by both the Office of Graduate Studies and the degree program to which you’ve applied before official admission to the University of Missouri.
MEd in Career and Technical Education with Emphasis in Vocational Technical Education

This online program is designed for certified secondary teachers, community college instructors, trade school facilitators, and corporate trainers. Courses in the degree program will support a graduate's ability to be an effective teacher by providing a foundation in curriculum design, teaching methods, student assessment, instructional program design and management, learner psychology, and educational technology.

The Vocational Technical Instruction emphasis is for those who teach:
- Allied health science professions
- Telecommunications and electronic technology
- Construction trades
- Culinary arts and food science
- Automotive technology
- Small and marine engine repair

Early Childhood Education

Dr. Laurie Kingsley, Director of Teacher Education
Department of Learning, Teaching and Curriculum
202 Townsend Hall
573-882-0560
TeacherEducation@missouri.edu

Professional education coursework is delivered by four departments within the College of Education, namely, Learning, Teaching and Curriculum; Special Education; Educational Leadership and Policy Analysis; and Educational, School and Counseling Psychology.

Faculty

Associate Professor Emeritus L. Bennett*, C. Gilles*, M. Volkmann*
Assistant Professor M. Metz, C. Munter, A. Woodson, L. Zangori**, A. Zapata**
Emeritus Research Professor D. A. Grouws
Associate Teaching Professor N. Ashcraft*, L. Kingsley*, L. Neier*, J. Ostrow*
Assistant Teaching Professor L. Arend, R. Metro, V. Spain
* Graduate Faculty Member - membership is required to teach graduate-level courses, chair master's thesis committees, and serve on doctoral examination and dissertation committees.
** Doctoral Faculty Member - membership is required to chair doctoral examination or dissertation committees. Graduate faculty membership is a prerequisite for Doctoral faculty membership.

Undergraduate

- BSEd in Early Childhood Education (p. 394)

The requirements for the Bachelor of Science in Education are specified in three areas: University general education, professional education and a teaching major. All students preparing to be teachers in early childhood, elementary, special education, middle or secondary schools, regardless of the major field, are required to complete the University general education program. Students transferring from other institutions are required to fulfill the equivalencies of these courses.

Graduate

The Early Childhood Education Program at the University of Missouri includes degree programs that focus on preparing graduates to teach in grades Birth-3. The College of Education offers a Masters (M.Ed.) and a doctorate (Ph.D.) in Learning, Teaching and Curriculum with an emphasis in Early Childhood Education. You can find out more information about the graduate program at https://education.missouri.edu/learning-teaching-curriculum/degrees-programs/.

BSEd in Early Childhood Education

Degree Program Description

The Bachelor of Science in Education in Early Childhood will prepare you to work with children from birth through third grade in public, private, and alternative school systems. Students consider a degree in education if they enjoy working with children and/or adolescents, want to strengthen the future through education, and want to make a difference in the lives of others. MU Students work closely with mentors, practicing teachers, administrators, and university faculty to develop the knowledge and skills to enhance learning outcomes for children and youth. The coursework through the College of Education focuses on teachers' roles in facilitating learning at all levels of development and considers the influences of cultural, political, historical, and economic factors on students, teachers, and schools. Upon successful completion of the initial teacher certification process, the state grants you certification in early childhood education. Practical and rewarding clinical experience in schools and agencies, which will enhance your teaching abilities and confidence, begins during the sophomore year, and continues each semester, culminating in a senior-level teaching internship. Coursework within Early Childhood will challenge you to consider ways to support the development and learning of young children from birth through age eight.

Major Program Requirements

Students must complete all university (p. 33), general education (p. 34), and content requirements, in addition to degree requirements. Please meet with an Academic Advisor to discuss degree requirements and to create a semester plan.

As Mizzou Ed continues to implement the new Missouri Standards for the Preparation of Educators mandated by the Department of Elementary and Secondary Education (DESE), curriculum changes will be required that must be met in order to complete your degree and earn teacher certification. Those changes may become effective at any point during your academic program. Therefore, it is extremely important that you DO NOT SELF ADVISE.

Semester Plan

Below is a sample plan of study, semester by semester. A student's actual plan may vary based on course choices and where options are available.

Total Credits: 120

*Must have a Minimum of 56 credit hours outside of Phase II and Phase III requirements to meet 120 minimum credit hours.

** Doctoral Faculty Member - membership is required to chair doctoral examination or dissertation committees. Graduate faculty membership is a prerequisite for Doctoral faculty membership.

### Undergraduate

While MU does not offer undergraduate degrees specifically in educational and counseling psychology, the University does offer baccalaureate opportunities in a number of related areas, both within the College of Education, and in the other Schools and Colleges that make up the University. The catalog provides a complete list of these degree options (p. 18).

### Graduate

* MA in Educational, School, and Counseling Psychology (p. 396)
  * with emphasis in Counseling Psychology (p. 396)
  * with emphasis in Educational Psychology (p. 397)
  * with emphasis in Health Education and Promotion (p. 398)
  * with emphasis in School Psychology (p. 399)
  * with emphasis in Statistics, Measurement, and Evaluation in Education (p. 399)

* MEd in Educational, School, and Counseling Psychology (p. 400)
  * with emphasis in Career Counseling Psychology (p. 401)
  * with emphasis in Counseling Psychology (p. 402)

### Educational, School, and Counseling Psychology

ESCP provides a diverse, supportive, and caring environment for students. Our faculty members create rich and stimulating learning opportunities through their teaching, research, and service. Our faculty are more than academic advisors and teachers - they are mentors providing students with role models featuring the scientist-practitioner model.

### Faculty

**Associate Professor** C. Frisby**, P. Rottinghaus**, Z. Wang**, S. Whitney**

**Assistant Professor** W. Bonifay**, F. Huang**, F. Sanchez**, C. Slaten**, W. Wiedermann**

**Teaching Professor** R. J. Scholes**

**Associate Teaching Professor** K. Boggs*, C. A. Offutt**

**Assistant Teaching Professor** M. Easter**, B. Orr**

**Associate Clinical Professor** A. J. Knoop**

**Associate Research Professor** L. Newcomer*

**Dean of Education** K. Chval

* Graduate Faculty Member - membership is required to teach graduate-level courses, chair master's thesis committees, and serve on doctoral examination and dissertation committees.

College of Education

**Chair:** David Bergin, Ph.D.
About the Program

The PhD programs in counseling psychology and school psychology is accredited by the American Psychological Association. The 2005 Faculty Scholarly Productivity Index ranked MU’s graduate program in counseling psychology 4th in the nation and the 2018 U.S. News & World Report ranked it 3rd nationally.

Our faculty members create a rich and stimulating learning environment for students through their teaching, research, and service. ESCP has centers that provide students and faculty with many opportunities to collaborate on research and service-related projects while focusing on improving the quality of life for learners in all environments.

Career Opportunities

Our graduates find employment in a wide range of settings, including colleges and universities, public schools, agencies, clinics, hospitals, business and industry, research laboratories and government service. Occupations include, but are not limited to, school counselors, licensed professional counselors, faculty members, school psychologists, psychometricians, health educators and educational researchers.

Application Deadlines

• Fall Deadline: December 1st for Counseling and School Psychology
• Fall Deadline: January 15th for Educational Psychology and Statistics, Measurement, and Evaluation in Education (SMEE)
• M Ed in Ed Psych/Student Learning and Well-being focus (online degree) - rolling admission
• M Ed, EdSp in Mental Health Practices in Schools (online degrees) - rolling admission
• M Ed in Positive Coaching (online degree) - rolling admission
• Graduate Certificate in Multicultural Education - rolling admission
• Graduate Certificate in Quantitative Research - rolling admission

Financial Aid from the Program

Some programs require an extra form or statement from those who wish to be considered for internal assistantships, fellowships or other funding packages. Check the program Web site or ask the program contact for details.

When did you take the GRE?

Application Deadlines

• Fall deadline: December 1st for all programs except Educational Psychology and Statistics, Measurement, and Evaluation in Education (SMEE), which is January 15th.
• M Ed, EdSp track in Mental Health Practices in Schools (online degrees) - rolling deadline

Note: If an applicant is admitted but does not hold a bachelor’s degree in a related discipline or does not have relevant background course work, the applicant must complete prerequisite courses as specified by the faculty of the department.

Required Application Materials

To the Office of Graduate Studies:

• All required Graduate Studies documents
• Official transcripts
• GRE scores
• TOEFL scores
• 3 letters of recommendation via the online application
• Personal statement and vitae via online application per departmental requirements

MA in Educational, School, and Counseling Psychology with Emphasis in Counseling Psychology

Degree Requirements

The MU Masters program in Counseling Psychology provides students training and education in the scientist-practitioner philosophy that is consistent with most Counseling Psychology Ph.D. programs, including the one at MU. Students will complete core coursework in counseling psychology and receive clinical training in the form of practicum experience and research training through faculty labs, research teams, and other research projects. They will also be required to complete an independent research manuscript during their second year in the program. This program has more of a research focus than most counseling masters programs. The program is not designed for students interested exclusively in practicing at the masters level, and students who graduate from this program will not yet be license-eligible for a LPC in the state of Missouri (this would require additional coursework and training).

The program. The project is to be completed by the deadline for
results, discussion) or traditional thesis format. The topic of the project
research study written in manuscript form (i.e., introduction, method,
review article one would see in a scholarly journal) or an independent
thesis/research manuscript is a project that the student completes
undergraduate programs.

Thesis/Non-Thesis Requirements

The thesis/research manuscript is a project that the student completes
with his or her advisor and receives advisor approval. This project will
serve as the student’s comprehensive examination. Two additional
committee members will be required to approve the project. The project
can be either a comprehensive literature review (i.e., modeled after a
review article one would see in a scholarly journal) or an independent
research study written in manuscript form (i.e., introduction, method,
results, discussion) or traditional thesis format. The topic of the project
should be selected by the beginning of the student’s second year in
the program. The project is to be completed by the deadline date for
comprehensive examinations, dissertations, and thesis in April of the
student’s second year.

Admissions

Applicants are required to meet two sets of minimum qualifications
for admission: the requirements of the MA in Educational and
Counseling Psychology program (https://gradstudies.missouri.edu/
degreecategory/educational-school-and-counseling-psychology) and
the minimum requirements of the Office of Graduate Studies (http://
graddocs.missouri.edu/gradadmissions/eligibility-process/minimum-
requirements.php). Because requirements vary, you must refer to a
degree program’s graduate admission page to learn about specific
admission criteria, application deadlines, eligibility and application
process. Your application materials will be reviewed by both the Office
of Graduate Studies and the degree program to which you’ve applied before
official admission to the University of Missouri.

MA in Educational, School, and Counseling Psychology
with Emphasis in Educational Psychology

Degree Requirements

The Educational Psychology program is committed to the dissemination
and development of knowledge and skills in human learning and
cognition, development, and motivation. We use quantitative and
qualitative methods to study how people’s thinking, motivation, and
behavior change across time. We study how different social settings
like classroom, family, work, and peers affect people’s well-being,
learning, and behavior. The study of educational psychology is relevant
to teachers, coaches, athletes, nurses, counselors, software developers,
trainers, social workers, program evaluators, and administrators.

Educational psychologists attempt to understand how:

• to improve learning, academic achievement, and motivation to
  improve human performance
• development influences learning and well-being
• society influences learning and behavior
• school influences students’ development in other settings

The master’s degree program requires at least 33 credit hours. Students
enrolled in the MA do a thesis or research manuscript that demonstrates
research competence and includes an oral defense of the paper. The MA
is the preferred degree for students who intend to pursue a PhD.

Master’s students must have completed or plan to complete 15 hours of
prerequisite course work as listed below. The prerequisite coursework
is over and above that required for the master’s degree itself, and
thus cannot be counted on the Program of Study for the master’s
degree. Many students will have completed these prerequisites in their
undergraduate programs.

1. Statistics: A course in statistics covering descriptive statistics,
correlation, t-tests, and chi-square. If undergraduate coursework
does not include an introductory level course in statistics,
ESC_PS 4170/ESC_PS 7170 must be taken to satisfy this
prerequisite, but it then cannot count on the Program of Study.
