

BM in Music with Emphasis in Music Education

Degree Program Description

The music education degree program is designed for students who wish to become school music teachers. Graduates will be certified to teach music to children in kindergarten through twelfth grade, including elementary general music and either secondary instrumental or vocal music. MU music education students become successful teachers and performers who are sought after by schools in Missouri and beyond, as well as by prestigious graduate programs. Students enhance their musicianship by taking private lessons and participating in ensembles, and acquire a breadth of knowledge through coursework in general education, professional education and core music areas. They develop skills related to music teaching and rehearsing in their music education classes, which are accompanied by observing, interacting with, and instructing students in the public schools. This allows for important hands-on experience prior to the full semester of student teaching. The faculty members who teach music education courses are active professionals who publish research in prestigious journals, and play leadership roles in international and national organizations devoted to improving prekindergarten through college-level music instruction.

Major Program Requirements

In addition to University (<http://catalog.missouri.edu/academicdegreerequirements/universityrequirements/>), general education (<http://catalog.missouri.edu/academicdegreerequirements/generaleducationrequirements/>), and College of Arts and Science (<http://catalog.missouri.edu/collegeofartsandscience/#undergraduatetext>) requirements, students must also meet the following major program requirements. All major requirements in the College of Arts and Science must be completed with grades of C- or higher unless otherwise indicated. Please meet with a music education faculty member and/or professional advisor to discuss degree requirements and to create a semester plan.

Curriculum changes mandated by the Department of Elementary and Secondary Education (DESE) that must be met in order to complete your degree and earn teacher certification may become effective at any point during your academic program. Therefore, it is extremely important that you DO NOT SELF ADVISE.

The lists below are provided as an overview of the degree requirements. Because this degree program is highly sequenced, and includes requirements leading to state certification including specified content, education, and overall grade point averages, students should not use this list to self advise but must work closely with their music education advisors to plan their coursework.

MU General Education Requirements - Students will plan for this coursework with their Music Education Advisors. Note: Students must complete one general education course in the humanities/fine arts area from a department other than Music.

Note: Options do not appear on transcripts or diplomas. Emphasis areas appear on transcripts.
