

MA in Psychology

Degree Requirements

The MA in Psychology is typically completed as part of a student's normal progress through the doctoral program. Students are accepted into the MA program under the expectation that they will continue to doctoral study in our department. We do not admit students seeking a terminal master's degree, except for the MA with an emphasis in Quantitative Psychometrics (<http://catalog.missouri.edu/collegeofartsandscience/psychology/ma-psychology-emphasis-quantitative-psychometrics/>).

The MA in Psychology requirements are (1) 30 credit hours, including research credit and the student's distribution courses, (2) a thesis, and (3) a final oral examination on the thesis research. Although only 30 hours are required to earn the master's degree, MA students are expected to successfully complete a subset of courses that will meet the PhD requirements of 9 hours of distribution courses, 11 hours in statistics and 24 hours in the area of concentration.

More detailed information about the rules and regulations for degree completion can be found in the Department of Psychological Sciences Graduate Student Handbook (<https://psychology.missouri.edu/grad/handbooks-and-forms/>).

Financial Aid from the Program

Financial aid is available through departmental research and teaching assistantships and from university fellowships.
