

# BA in Theatre

## **Degree Program Description**

The study of Theatre focuses upon the produced play, past, present, and future. The BA in Theatre offers students an appreciation of theatre as a fine art, sharpens the talents of those who seek careers in theatre and provides students with methods of stimulating and using their imagination and intensifying their communication skills. Students must choose from one of three emphasis areas: Design/Technical, Performance, and Writing for Performance. The curriculum includes: examining the heritage of theatre through dramatic literature and theatre history, exercises in theatrical skills, artistic training in design and performance, and theory and criticism of theatre. The Rhynsburger Theatre, the Corner Playhouse, and outreach programs serve as laboratories for ongoing examination of theatre in society, responsive to social issues. Working with faculty and staff of professionally trained actors, directors, and designers, students focus on performance, writing for performance, and theatre design and technology. MU undergraduate theatre students have taken their work to the Kennedy Center American College Theatre Festival, winning awards in acting, playwriting, design, and dramaturgy. After graduation, many of our students find work in film, television, and the professional theatre as actors, directors, designers, stage managers, artists, and technicians, or go on to graduate school to further their theatre education.
