Comprehensive Exam, Internship, or Project Options

Master of Arts students may complete a comprehensive exam, an internship, (H_D_FS 8972), for up to six credit hours, or, for on-campus students only, a project, (H_D_FS 8090), for up to six credit hours. The project option is no less scholarly than a thesis, but usually has an applied focus. For instance, a project may involve designing a program and developing curriculum materials (e.g., instructional videotapes, websites, resource manuals). Internships are often conducted off-campus and must be negotiated with the student’s advisor and approved by the student’s faculty committee. Students completing the comprehensive exam option must take additional elective course credit. For more detailed information, please refer to the HDFS Graduate Handbook found on the HDFS website (http://hdfs.missouri.edu/).

Satisfactory Progress

Satisfactory progress is based on the student maintaining a sufficient GPA according to the student’s program or funding guidelines and completing all degree forms and milestones according to departmental timelines. For a detailed description of the department’s description of a satisfactory rate of academic progress, please refer to the HDFS Graduate Handbook found on the HDFS website (http://hdfs.missouri.edu/).

Time Limits for Masters' Degree Completion

Students working toward the master's degree have 5 years from the semester the first course is taken in which to complete all degree requirements. Extensions for one additional year to complete the degree may be granted with submission of a detailed plan for completion, including a timetable. Students must be making progress toward completion when they apply for the extension. A maximum of two extensions may be granted.

Background Checks, Health Screenings and Other Required Elements

It is essential that HDFS majors develop professional relationships with vulnerable populations, thus during the course of the degree program and prior to beginning any practical or clinical education experience, students are required to:

- pass multiple criminal background checks
- pass mandatory drug screens
- pass other qualification checks required by the practical or clinical education sites
- provide proof of health insurance coverage
- provide proof of required immunizations
- provide proof of student professional liability insurance coverage

The student is responsible for all costs incurred with these requirements. Failure to provide appropriate documentation, or pass required checks prior to the beginning of practical or clinical experiences may result in dismissal from the degree program in HDFS.
