Psychology (PSYCH)

PSYCH 1000: General Psychology
Survey of theories, principles, and methods in the study of human behavior.
Credit Hours: 3

PSYCH 1000H: General Psychology - Honors
Survey of theories, principles, and methods in the study of human behavior.
Credit Hours: 3
Prerequisites: Honors eligibility required

PSYCH 1003: Topics in Psychology - Behavioral Science
Organized study of selected topics in psychology. Particular topic and earnable credit may vary by semester. This course carries behavioral science distribution credit for non-psychology majors. Repeatable upon consent of department.
Credit Hour: 1-3

PSYCH 1003H: Topics in Psychology - Behavioral Science - Honors
Organized study of selected topics in psychology. Particular topic and earnable credit may vary by semester. This course carries behavioral science distribution credit for non-psychology majors. Repeatable upon consent of department.
Credit Hour: 1-3
Prerequisites: Honors eligibility required. This course may be restricted to Undergraduate Psychology Majors during Early Registration

PSYCH 1003HW: Topics in Psychology - Behavioral Science - Honors/Writing Intensive
Organized study of selected topics in psychology. Particular topic and earnable credit may vary by semester. This course carries behavioral science distribution credit for non-psychology majors. Repeatable upon consent of department.
Credit Hour: 1-3
Prerequisites: Honors eligibility required. This course may be restricted to Undergraduate Psychology Majors during Early Registration

PSYCH 1020: Applied Psychology
Surveys wide range of applications of psychology. Topics include social issues (prejudice and violence), applications to fields such as business and law, applications for personal improvement (improving memory), and others (sports, health, environment).
Credit Hours: 3

PSYCH 1030: Orientation to the Psychology Major
This course is intended to help students choose the best major for themselves and to provide information on careers available to psychology majors.
Credit Hour: 1

PSYCH 2001: Topics in Psychology-General
Organized study of selected topics in psychology. Particular topic and earnable credit may vary by semester. This course may not be used toward behavioral science distribution credit. Repeatable upon consent of department.
Credit Hour: 1-99
Prerequisites: May be restricted to Undergraduate Psychology Majors during Early Registration
Recommended: PSYCH 1000

PSYCH 2003: Topics in Psychology-Behavioral Science
Organized study of selected topics in psychology. Particular topic and earnable credit may vary by semester. This course carries behavioral science distribution credit for non-psychology majors. Repeatable upon consent of department.
Credit Hour: 1-99
Prerequisites: This course may be restricted to Undergraduate Psychology Majors during Early Registration
Recommended: PSYCH 1000

PSYCH 2110: Learning, Memory, and Cognition
Students will gain an understanding of the fundamental principles of learning, memory and cognition, and will be able to recognize important historical figures and their contributions. Students will also learn how the principles can be applied to their everyday lives.
Credit Hours: 3
Prerequisites: This course may be restricted to Undergraduate Psychology Majors during Early Registration
Recommended: PSYCH 1000

PSYCH 2210: Mind, Brain, and Behavior
Introduction to the structures and processes of the mind and the nervous system, including the psychobiology of eating, sleeping, emotion, stress and learning. No credit if taken after PSYCH 4210. Recommended: PSYCH 1000
Credit Hours: 3
Prerequisites: This course may be restricted to Undergraduate Psychology Majors during Early Registration

PSYCH 2220: Drugs and Behavior
Basic principles of drug action on the nervous system; the effects of important psychoactive drugs; drug use and society.
Credit Hours: 3
Prerequisites: This course may be restricted to Undergraduate Psychology Majors during Early Registration

PSYCH 2310: Social Psychology
An introduction to how people's thoughts, feelings and behaviors are influenced by the actual or imagined thoughts, feelings and behaviors of others.
Credit Hours: 3
Prerequisites: This course may be restricted to Undergraduate Psychology Majors during Early Registration
Recommended: PSYCH 1000
PSYCH 2320: Introduction to Personality
Personality is the scientific study of individual differences (e.g., traits, motives, abilities). This course reviews historical theoretical perspectives as well as current research. Students will have an opportunity to learn about on their own motives and traits.

Credit Hours: 3
Prerequisites: This course may be restricted to undergraduate psychology majors during Early Registration
Recommended: PSYCH 1000

PSYCH 2330: Consumer Psychology
This course surveys how and why we engage in consumer activities and how we are affected by them. We will survey many areas of psychology as they apply to influencing consumer purchase decisions. We will also survey research examining the consequences of our consumption behavior.

Credit Hours: 3
Prerequisites: This course may be restricted to undergraduate psychology majors
Recommended: PSYCH 1000

PSYCH 2410: Developmental Psychology
Origins and development of child behavior, emphasizing basic physical, cognitive, affective and social processes, and theory and research rather than application or guidance. Cannot receive credit for more than one of the following: PSYCH 2410, H_D_FS 2420 or H_D_FS 3420 or ESC_PS 2500.

Credit Hours: 3
Prerequisites: This course may be restricted to Undergraduate Psychology Majors during Early Registration
Recommended: PSYCH 1000

PSYCH 2410H: Developmental Psychology - Honors
Origins and development of child behavior, emphasizing basic physical, cognitive, affective and social processes, and theory and research rather than application or guidance. Cannot receive credit for more than one of the following: PSYCH 2410, H_D_FS 2420 or H_D_FS 3420 or ESC_PS 2500.

Credit Hours: 3
Prerequisites: Honors eligibility required. This course may be restricted to Undergraduate Psychology Majors during Early Registration
Recommended: PSYCH 1000

PSYCH 2510: Survey of Abnormal Psychology
Basic survey of maladaptive human behavior and experience, including personality disorders, alcohol and drug abuse, anxiety and mood disorders, sexual dysfunctions, and thought disorders.

Credit Hours: 3
Prerequisites: This course may be restricted to Undergraduate Psychology Majors during Early Registration
Recommended: PSYCH 1000

PSYCH 2810: Human Sexuality
Survey of research on sexual behavior including sex norms, gender identity, sexual dysfunctions, sexual deviation, homosexuality, and legal aspects of sexual behavior. Attendance at small group discussions may be required at the option of the instructor.

Credit Hours: 3
Prerequisites: This course may be restricted to Undergraduate Psychology Majors during Early Registration
Recommended: PSYCH 1000

PSYCH 2830: Human-Companion Animal Interaction
Exploration of historical and theoretical bases of human-companion animal interaction (HAI), the nature issues, and clinical applications of HAI. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: May be restricted to Undergraduate Psychology Majors during Early Registration
Recommended: PSYCH 1000

PSYCH 2940: Internship in Psychology
Work experience in an organization that is relevant to the psychology major.

Credit Hour: 3-6
Prerequisites: must be in good standing and have completed 9 credit hours in psychology; instructor's consent. Intended for students with freshman or sophomore standing
Recommended: PSYCH 1000

PSYCH 2950: Special Problems in Psychology
Research apprenticeship with a faculty member, assisting a faculty member in the development and execution of research. May be repeated to 6 hours maximum.

Credit Hour: 1-99
Prerequisites: instructor's consent
Recommended: PSYCH 1000

PSYCH 3001: Topics in Psychology-General
Organized study of selected topics in psychology. Particular topic and earnable credit may vary by semester. This course may not be used toward behavioral science distribution credit. Repeatable upon consent of department.

Credit Hour: 1-99
Prerequisites: PSYCH 1000. This course may be restricted to Undergraduate Psychology Majors during Early Registration

PSYCH 3003: Topics in Psychology-Behavioral Science
Organized study of selected topics in psychology. Particular topic and earnable credit may vary by semester. This course carries behavioral science distribution credit for non-psychology majors. Repeatable upon consent of department.

Credit Hour: 1-99
Prerequisites: PSYCH 1000

PSYCH 3003H: Topics in Psychology-Behavioral Science
Organized study of selected topics in psychology. Particular topic and earnable credit may vary by semester. This course carries behavioral science distribution credit for non-psychology majors. Repeatable upon consent of department.
Psychology (PSYCH)

Credit Hour: 1-99
Prerequisites: PSYCH 1000. This course may be restricted to Undergraduate Psychology Majors during Early Registration. Honors eligibility required

PSYCH 3003W: Topics in Psychology-Behavioral Science - Writing Intensive
Organized study of selected topics in psychology. Particular topic and earnable credit may vary by semester. This course carries behavioral science distribution credit for non-psychology majors. Repeatable upon consent of department.

Credit Hour: 1-99
Prerequisites: PSYCH 1000. This course may be restricted to Undergraduate Psychology Majors during Early Registration

PSYCH 3010: Research Methods in Psychology I
Introduction to scientific reasoning, assessing validity and reliability in research, and basic research methods.

Credit Hours: 3
Prerequisites or Corequisites: concurrent enrollment in STAT 1200 or a grade of C or better in STAT 1200 (or its equivalent)
Prerequisites: PSYCH 1000. This course is restricted to psychology majors with sophomore standing and above

PSYCH 3010H: Research Methods in Psychology I - Honors
Introduction to scientific reasoning, assessing validity and reliability in research, and basic research methods.

Credit Hours: 3
Prerequisites or Corequisites: Concurrent enrollment in STAT 1200 or a grade of C or better in STAT 1200 (or its equivalent)
Prerequisites: PSYCH 1000; Honors eligibility required. This course is restricted to psychology majors with sophomore standing and above

PSYCH 3020: Research Methods in Psychology II
Continuation of PSYCH 3010 and required for all further labs in psychology.

Credit Hours: 3
Prerequisites: MATH 1100 with a grade of C- or better or exemption, and PSYCH 1000, and a grade of C or better in PSYCH 3010 and STAT 1200 or exemption. This course is restricted to junior and senior psychology majors

PSYCH 3020H: Research Methods in Psychology II - Honors
Continuation of PSYCH 3010 and required for all further labs in psychology.

Credit Hours: 3
Prerequisites: grade of C or better in PSYCH 3010 and STAT 1200 (or its equivalent), Honors eligibility required. This course is restricted to junior and senior Psychology majors

PSYCH 3110: Theories of Learning
Discusses classical issues and theories in learning and conditioning, and considers them in contemporary form.

Credit Hours: 3
Prerequisites: PSYCH 1000. This course may be restricted to Undergraduate Psychology Majors during Early Registration

PSYCH 3110W: Theories of Learning - Writing Intensive
Discusses classical issues and theories in learning and conditioning, and considers them in contemporary form.

PSYCH 3130: Decisions, Values and Choice
Survey of factors influencing choices and decisions. Topics include cause and effect decisions, values and ethical considerations, outcome likelihood, biases and heuristics, concept formation, self-control and impulsiveness, and social factors.

Credit Hours: 3
Prerequisites: PSYCH 1000. This course may be restricted to Undergraduate Psychology Majors during Early Registration

PSYCH 3140: Cognitive Psychology
A survey of psychological theory and research on human cognition.

Credit Hours: 3
Prerequisites: PSYCH 1000. This course may be restricted to Undergraduate Psychology Majors during Early Registration

PSYCH 3150: Human Memory
Surveys research on human memory, including basic laboratory studies with normal subjects as well as research on amnesia and other memory impairments, life-span memory development, and the cognitive neuroscience of memory.

Credit Hours: 3
Prerequisites: PSYCH 1000. This course may be restricted to Undergraduate Psychology Majors during Early Registration

PSYCH 3160: Perception and Thought
Covers research on various aspects of mental life: language, problem-solving, decision-making, sensory perception.

Credit Hours: 3
Prerequisites: PSYCH 1000. This course may be restricted to Undergraduate Psychology Majors during Early Registration

PSYCH 3310: Intergroup Relations
Provides an overview of the social psychological literature on stereotyping, prejudice, discrimination, and intergroup relations. Students learn theoretical frameworks and research findings regarding the development and maintenance of intergroup conflict.

Credit Hours: 3
Prerequisites: PSYCH 1000. This course may be restricted to Undergraduate Psychology Majors during Early Registration

PSYCH 3350: Positive Psychology
This course introduces students to the science of positive psychology, including its origin and the historical imbalances it addresses within the broader field of psychology. A wide variety of topics are covered, including happiness, materialism, purpose, flow, courage, humility,
positive emotions, curiosity, mindfulness, savoring, gratitude, forgiveness, 
personal strengths, resilience, and compassion. Psychology majors 
cannot receive credit for both PSYCH 3350 and ESC_PS 4200.
Credit Hours: 3
Prerequisites: PSYCH 1000. This course may be restricted to 
Undergraduate Psychology Majors during early registration

PSYCH 3360: Automatic Social Judgments
In this course we will survey the area of social psychology dealing 
with automatic social judgments, including an introduction to the topic, 
review of techniques used to measure automatic social judgments, and 
discussion of applications of automatic social judgment research. Graded 
on A-F basis only.
Credit Hours: 3
Prerequisites: PSYCH 1000. This course may be restricted to 
Psychology majors through early registration

PSYCH 3370: The Science of Mindfulness
To gain breadth and depth in understanding the empirical research 
on mindfulness and contemplative practices. To do well in the 
course, students must master the substantive content, psychological 
methodology, APA-style writing, peer-review, and presentation skills. Graded 
on A-F basis only.
Credit Hours: 3
Prerequisites: PSYCH 1000 and a grade of C or better in PSYCH 
3010. This course may be restricted to psychology majors through early 
registration

PSYCH 3370W: The Science of Mindfulness - Writing Intensive
To gain breadth and depth in understanding the empirical research 
on mindfulness and contemplative practices. To do well in the 
course, students must master the substantive content, psychological 
methodology, APA-style writing, peer-review, and presentation skills. Graded 
on A-F basis only.
Credit Hours: 3
Prerequisites: PSYCH 1000 and a grade of C or better in PSYCH 
3010. This course may be restricted to psychology majors through early 
registration

PSYCH 3420: Cognitive Development in Childhood
Theories and research on cognitive development in childhood.
Credit Hours: 3
Prerequisites: PSYCH 1000. This course may be restricted to 
Undergraduate Psychology Majors during Early Registration

PSYCH 3430: Social Development in Childhood
Overview of children's social and emotional development (infancy-
adolescence), includes changes in social domains, impact of social 
functioning on subsequent development, and influence of interpersonal 
contexts (e.g., family, peers, community) on children's development.
Credit Hours: 3
Prerequisites: PSYCH 1000. This course may be restricted to 
Undergraduate Psychology Majors during Early Registration

PSYCH 3350W: Social Development in Childhood - Writing Intensive
Overview of children's social and emotional development (infancy-
adolescence), includes changes in social domains, impact of social 
functioning on subsequent development, and influence of interpersonal 
contexts (e.g., family, peers, community) on children's development.
Credit Hours: 3
Prerequisites: PSYCH 1000. This course may be restricted to 
Undergraduate Psychology Majors during Early Registration

PSYCH 3440: Women's Professional Development
This class takes a lifespan developmental perspective in regards to 
understanding challenges in women's professional development. Topics 
include: perceptions and stereotypes of successful women, division of 
labor in families (housework versus paid work), motherhood and the 
workplace, social policies for working parents, girls' and boys' interests 
in STEM professions, and gender and workplace economics (starting 
salaries, negotiation, the gender pay gap). Graded on A-F basis only.
Credit Hours: 3
Prerequisites: PSYCH 1000. This course may be restricted to 
undergraduate psychology majors through early registration

PSYCH 3440H: Women's Professional Development - Honors
This class takes a lifespan developmental perspective in regards to 
understanding challenges in women's professional development. Topics 
include: perceptions and stereotypes of successful women, division of 
labor in families (housework versus paid work), motherhood and the 
workplace, social policies for working parents, girls' and boys' interests 
in STEM professions, and gender and workplace economics (starting 
salaries, negotiation, the gender pay gap). Graded on A-F basis only.
Credit Hours: 3
Prerequisites: PSYCH 1000; Honors eligibility required. This course 
may be restricted to undergraduate psychology majors through early 
registration

PSYCH 3510: Introduction to Clinical Psychology
Comprehensive survey of the field's historical roots, research methods, 
concepts of abnormality, assessment and intervention methods; also 
specialties that constitute clinical psychology.
Credit Hours: 3
Prerequisites: PSYCH 1000. This course may be restricted to 
Undergraduate Psychology Majors during Early Registration

PSYCH 3510W: Introduction to Clinical Psychology - Writing 
Intensive
Comprehensive survey of the field's historical roots, research methods, 
concepts of abnormality, assessment and intervention methods; also 
specialties that constitute clinical psychology.
Credit Hours: 3
Prerequisites: PSYCH 1000. This course may be restricted to 
Undergraduate Psychology Majors during Early Registration

PSYCH 3830: Health Psychology
A hands-on approach to the study of health psychology including 
research on a topic of current relevance to the field.
Credit Hours: 3
Prerequisites: PSYCH 1000. This course may be restricted to Undergraduate Psychology Majors during Early Registration

PSYCH 3840: Individual Differences
Surveys individual and group differences. Contributions of various factors to variations in behavior.
Credit Hours: 3
Prerequisites: PSYCH 1000

PSYCH 3860: Law and Psychological Science
This survey course examines the interactions of law and psychology across the justice system. Emphasis is placed on how psychological research does (and does not) inform important legal issues. Requirements may include an in-class team debate of relevant controversy in law.
Credit Hours: 3
Prerequisites: PSYCH 1000

PSYCH 3870: Sleep and Sleep Disorders
This course provides a critical review of the current research on both normal sleep and sleep disorders.
Credit Hours: 3

PSYCH 3880: African-American Psychology
(Same as BL_STU 3100 and ESC_PS 3100). The research, theories and paradigms developed to understand the attitudes, behaviors and psychosocial realities of African-Americans are discussed. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: PSYCH 1000. This course may be restricted to Undergraduate Psychology Majors through Early Registration

PSYCH 4001: Topics in Psychology-General
Organized study of selected topics in psychology. Particular topic and earnable credit may vary by semester. This course may not be used toward behavioral science distribution credit. Repeatable upon consent of department. Enrollment limited to students who have completed PSYCH 1000.
Credit Hours: 1-99
Prerequisites: Instructor's consent

PSYCH 4003: Topics in Psychology-Behavioral Science
Organized study of selected topics in psychology. Particular topic and earnable credit may vary by semester. This course carries behavioral science distribution credit for non-psychology majors. Repeatable upon consent of department.
Credit Hours: 1-99
Prerequisites: PSYCH 1000. This course may be restricted to Undergraduate Psychology Majors during Early Registration

PSYCH 4003W: Topics in Psychology-Behavioral Science - Writing Intensive
Organized study of selected topics in psychology. Particular topic and earnable credit may vary by semester. This course carries behavioral science distribution credit for non-psychology majors. Repeatable upon consent of department.
Credit Hours: 1-99
Prerequisites: PSYCH 1000. This course may be restricted to Undergraduate Psychology Majors during Early Registration

PSYCH 4010: Topics in Psychology Capstone
Students review, evaluate and conduct research on selected topics in psychology. The particular topic will vary by semester and instructor. Enrollment limited to psychology majors with senior standing who have a grade of C or better in PSYCH 3020. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: Instructor's consent required

PSYCH 4010W: Topics in Psychology Capstone - Writing Intensive
Students review, evaluate and conduct research on selected topics in psychology. The particular topic will vary by semester and instructor. Enrollment limited to psychology majors with senior standing who have a grade of C or better in PSYCH 3020. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: Instructor's consent required

PSYCH 4110: Perception
Data and contemporary theories of perception in all of the senses, with emphasis on visual and auditory perception.
Credit Hours: 3
Prerequisites: PSYCH 1000. This course may be restricted to Undergraduate Psychology Majors during Early Registration

PSYCH 4210: Physiological Psychology
An introduction to neuroscience with an overview of the relation between the brain and behavior. Topics include intercellular communication, drugs and reward, emotions and stress psychoimmunology, psychopathology, nervous system development and repair, perception, cognition, learning and memory.
Credit Hours: 3
Prerequisites: PSYCH 1000. This course may be restricted to Undergraduate Psychology Majors during Early Registration

PSYCH 4220: Animal Learning and Behavior
Survey of animal behavior and learning abilities, including topics such as learning, habitat selection, foraging, problem solving, mating, communication, conditioning and memory.
Credit Hours: 3
Prerequisites: PSYCH 1000. This course may be restricted to Undergraduate Psychology Majors during Early Registration

PSYCH 4240: Cognitive Neuroscience
The neural basis of human information processing in memory, attention, perception, imagery, movement, and language.
Credit Hours: 3
Prerequisites: PSYCH 1000. This course may be restricted to Undergraduate Psychology Majors during Early Registration

Recommend: PSYCH 2210 and PSYCH 4210
PSYCH 4340: Attitude Change
Theories, methods, and experimental findings in attitude change research.

Credit Hours: 3
Prerequisites: PSYCH 1000. This course may be restricted to Undergraduate Psychology Majors during Early Registration

PSYCH 4350: Stereotypes and Prejudice
This course provides an overview of theory and research on stereotypes, prejudice, and discrimination from a social-psychological perspective. Course material comes primarily from textbook and supplementary readings, in addition to videos related to these topics.

Credit Hours: 3
Prerequisites: PSYCH 1000. This course may be restricted to Undergraduate Psychology Majors during Early Registration

PSYCH 4360: Social Cognition
The overarching goal of this course is to provide an overview of current research and theory in social cognition. If there is a running theme to this course, it is in the use of “top down” processes in how we construct an understanding of the world around us. That is, we use our past experiences and memories to interpret new experiences, people and behavior. This fact does not dictate whether that understanding is accurate or not. However, social psychologists have historically been interested in the ways that this process leads to errors or biases in a vast array of human endeavors. This perspective has had a strong impact on the trajectory of social cognition. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: PSYCH 1000. This course may be restricted to undergraduate Psychology majors during early registration

PSYCH 4420: Personality Development
This course covers the topic of temperament and personality development through the lifespan with particular focus on infancy, childhood, and adolescence. Coverage includes classic and contemporary theories and classic and contemporary research.

Credit Hours: 3
Prerequisites: PSYCH 1000. This course may be restricted to Undergraduate Psychology Majors during Early Registration

PSYCH 4440: Sex Differences
This course covers the evolution of sex differences and hormonal and environmental influences on their expressions in nonhuman species. These insights are used to understand human sex differences in mate choices, emotions, development, brain and cognition, and in modern societies.

Credit Hours: 3
Prerequisites: PSYCH 1000. This course may be restricted to Undergraduate Psychology Majors during Early Registration

PSYCH 4520: Behavior Genetics
(cross-leveled with PSYCH 7520). The study of genetic influences on behavioral traits such as mood, personality, intelligence, mental health, or activity level.

Credit Hours: 3
Prerequisites: PSYCH 1000. This course may be restricted to Undergraduate Psychology Majors during Early Registration

PSYCH 4530: Research in Psychopathology
Intensive survey and evaluation of the psychological literature on abnormal behavior, emphasizes experimental and explanatory approaches.

Credit Hours: 3
Prerequisites: PSYCH 1000. This course may be restricted to Undergraduate Psychology Majors during Early Registration

PSYCH 4540: Emotional Disorders in Childhood and Adolescence
Surveys disturbed behavioral development during childhood and adolescence, emphasizing factors that produce deviation from normal developmental patterns.

Credit Hours: 3
Prerequisites: PSYCH 1000. This course may be restricted to Undergraduate Psychology Majors during Early Registration

PSYCH 4550: Schizophrenia
This course will examine one of the most severe, debilitating, and complex mental disorders. We will review the major symptoms and clinical features of schizophrenia, explore possible causes of Psychology disorder, and critically assess treatments for the disorder.

Credit Hours: 3
Prerequisites: PSYCH 1000. This course may be restricted to Undergraduate Psychology Majors during Early Registration

PSYCH 4560: Pediatric Neuropsychology
Introduction to the field of pediatric neuropsychology and the study of individuals with early brain dysfunction. Common central nervous system disorders of childhood (e.g. autism, ADHD, epilepsy) will be discussed.

Credit Hours: 3
Prerequisites: This course may be restricted to Undergraduate Psychology Majors during Early Registration
Recommended: PSYCH 2410

PSYCH 4570: Internalizing Spectrum Disorders
The purpose of this course is to provide an overview of the symptoms, etiology, and treatment of psychiatric disorders that fall within the externalizing spectrum, including Attention-Deficit Hyperactivity Disorder, Oppositional Defiant Disorder, Conduct Disorder, Alcohol and other Substance Use Disorders, and Antisocial Personality Disorder. This course will attempt to provide an overview of key issues and topics related to the classification of psychiatric disorders and how research in this area has led to current conceptualizations of the externalizing spectrum. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: PSYCH 1000, PSYCH 2210 or PSYCH 4240

PSYCH 4580: Externalizing Spectrum Disorders
The purpose of this course is to provide an overview of the symptoms, etiology, and treatment of psychiatric disorders that fall within the externalizing spectrum, including Attention-Deficit Hyperactivity Disorder, Oppositional Defiant Disorder, Conduct Disorder, Alcohol and other Substance Use Disorders, and Antisocial Personality Disorder. This course will attempt to provide an overview of key issues and topics related to the classification of psychiatric disorders and how research in this area has led to current conceptualizations of the externalizing spectrum. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: PSYCH 1000. This course may be restricted to Undergraduate Psychology Majors during Early Registration
PSYCH 4590: Autism Mentor Program
The Autism Mentor Program and its accompanying course are designed to educate and train student mentors to be of assistance to their peers on the autism spectrum. The student will have an opportunity to participate in class and interact weekly with their mentee in a practical learning environment. Graded on A-F basis only.

Credit Hours: 1-2
Prerequisites: PSYCH 1000 or PSYCH 2510

PSYCH 4815: Cross-Cultural Psychology
This course aims to explore relationships between cultural variables and human behavior, and to look at recent attempts by cross-cultural psychologists to devise theories that reflect the cultural, social and developmental perspectives on behavior.

Credit Hours: 3
Prerequisites: PSYCH 1000. This course is restricted to juniors and seniors

PSYCH 4815H: Cross-Cultural Psychology - Honors
The Cross-cultural Psychology course aims to explore relationships between cultural variables and human behavior, and to look at recent attempts by cross-cultural psychologists to devise theories that reflect the cultural, social and developmental perspectives on behavior.

Credit Hours: 3
Prerequisites: PSYCH 1000; Honors eligibility required. Restricted to sophomores and above

PSYCH 4825: Psychology at the Movies
In this course we watch and discuss films from multiple psychological perspectives. Connections are made between cinematic content and contemporary psychological research on culture and diversity. Race, Gender, Disability, Class, and LGBT issues in movies are explored.

Credit Hours: 3
Prerequisites: PSYCH 1000. Restricted to juniors and seniors

PSYCH 4830: Psychology of Women
(same as WGST 4830). Overview of current theories and research relating to the psychology of women. Topics include gender stereotyping, psychological sex differences, achievement motivation in women, and women and mental health.

Credit Hours: 3
Prerequisites: PSYCH 1000

PSYCH 4840: The History of Psychology
Historical foundations of contemporary psychology.

Credit Hours: 3
Prerequisites: PSYCH 1000. This course may be restricted to Undergraduate Psychology Majors during Early Registration

PSYCH 4940: Internship in Psychology - Writing Intensive
Work experience in an organization that is relevant to the psychology major. Enrollment limited to students who are in good standing and have completed 9 credit hours in psychology. Intended for students with junior or senior standing.

Credit Hours: 3-6
Prerequisites: Instructor's consent required

PSYCH 4940W: Internship in Psychology - Writing Intensive
Work experience in an organization that is relevant to the psychology major. Enrollment limited to students who are in good standing and have completed 9 credit hours in psychology. Intended for students with junior or senior standing.

Credit Hours: 3-6
Prerequisites: Instructor's consent required

PSYCH 4950: Special Problems in Psychology
Independent investigation leading to a project or paper. Repeatable upon consent of department.

Credit Hours: 1-99
Prerequisites: Instructor's consent

PSYCH 4960: Special Readings in Psychology
Independent readings selected in consultation with supervisory faculty member. Repeatable upon consent of department.

Credit Hours: 1-99
Prerequisites: Instructor's consent

PSYCH 4970: Psychological Measurement Capstone
Survey of theories and methods of psychological test construction, focusing on measures of intelligence and personality. Lab component involves experimental training in test construction and test evaluation.

Credit Hours: 3
Prerequisites: Grade of C or better in PSYCH 3020. This course is restricted to psychology majors with senior standing. Consent required

PSYCH 4971: Developmental Psychology Capstone
Introduces students to developmental research methods through relevant readings and by students conducting original research. Enrollment limited to psychology majors with senior standing who have a grade of C or better in PSYCH 3020.

Credit Hours: 3
Prerequisites: consent required

PSYCH 4971W: Developmental Psychology Capstone - Writing Intensive
Introduces students to developmental research methods through relevant readings and by students conducting original research. Enrollment limited to psychology majors with senior standing who have a grade of C or better in PSYCH 3020.

Credit Hours: 3
Prerequisites: consent required

PSYCH 4972: Animal Learning Capstone
Survey of principles of animal behavior and animal learning and cognition. The course includes laboratory projects on research in animal behavior and animal learning. Enrollment limited to psychology majors with senior standing who have a grade of C or better in PSYCH 3020.

Credit Hours: 3
Prerequisites: Department consent required
PSYCH 4972W: Animal Learning Capstone - Writing Intensive
Survey of principles of animal behavior and animal learning and cognition. The course includes laboratory projects on research in animal behavior and animal learning. Enrollment limited to psychology majors with senior standing who have a grade of C or better in PSYCH 3020.

Credit Hours: 3
Prerequisites: consent required

PSYCH 4973: Human Cognition Capstone
Students review, evaluate and conduct research on various aspects of human cognition. Enrollment limited to psychology majors with senior standing who have a grade of C or better in PSYCH 3020.

Credit Hours: 3
Prerequisites: Department consent required

PSYCH 4973W: Human Cognition Capstone - Writing Intensive
Students review, evaluate and conduct research on various aspects of human cognition. Enrollment limited to psychology majors with senior standing who have a grade of C or better in PSYCH 3020.

Credit Hours: 3
Prerequisites: consent required

PSYCH 4974: The Human Senses Capstone
Psychophysical data, sense organs, psychological attributes, and theories of vision, hearing, and the vestibular (motion) senses. Elementary aspects of psychophysics.

Credit Hours: 3
Prerequisites: grade of C better in PSYCH 3020. This course is restricted to psychology majors with senior standing. Department Consent

PSYCH 4974W: The Human Senses Capstone - Writing Intensive
Psychophysical data, sense organs, psychological attributes, and theories of vision, hearing, and the vestibular (motion) senses. Elementary aspects of psychophysics.

Credit Hours: 3
Prerequisites: grade of C better in PSYCH 3020. This course is restricted to psychology majors with senior standing. Consent required

PSYCH 4975: Social/Personality Capstone
Experimental methods course emphasizing research in social psychology. Enrollment limited to psychology majors with senior standing who have a grade of C or better in PSYCH 3020.

Credit Hours: 3
Prerequisites: Consent required

PSYCH 4975W: Social/Personality Capstone - Writing Intensive
Experimental methods course emphasizing research in social psychology. Enrollment limited to psychology majors with senior standing who have a grade of C or better in PSYCH 3020.

Credit Hours: 3
Prerequisites: Consent required

PSYCH 4976: Independent Research Capstone I
Individual thesis on a topic selected with a faculty advisor. Student projects are carried out over the course of two semesters (with PSYCH 4977) and presented as posters in a spring conference. Weekly class discussions of student progress. For students who plan to pursue a PhD in Psychology or Neuroscience. Enrollment limited to psychology majors with senior standing who have taken PSYCH 3020.

Credit Hours: 3
Prerequisites: Consent required

PSYCH 4976H: Honors Research Capstone I
Individual thesis on a topic selected with a faculty advisor. Student projects are carried out over the course of two semesters (with PSYCH 4977H) and presented as posters in a spring conference. Weekly class discussions of student progress. For students who plan to pursue a PhD in Psychology or Neuroscience. Enrollment limited to psychology majors with senior standing, honors eligibility, a cumulative GPA of 3.5, who have taken PSYCH 3020.

Credit Hours: 3
Prerequisites: Consent required

PSYCH 4976HW: Honors Research Capstone I - Honors/Writing Intensive
Individual thesis on a topic selected with a faculty advisor. Student projects are carried out over the course of two semesters (with PSYCH 4977HW) and presented as posters in a spring conference. Weekly class discussions of student progress. For students who plan to pursue a PhD in Psychology or Neuroscience. Enrollment limited to psychology majors with senior standing, honors eligibility, a cumulative GPA of 3.5, who have taken PSYCH 3020.

Credit Hours: 3
Prerequisites: Consent required

PSYCH 4976W: Independent Research Capstone I - Writing Intensive
Individual thesis on a topic selected with a faculty advisor. Student projects are carried out over the course of two semesters (with PSYCH 4977W) and presented as posters in a spring conference. Weekly class discussions of student progress. For students who plan to pursue a PhD in Psychology or Neuroscience. Enrollment limited to psychology majors with senior standing who have taken PSYCH 3020.

Credit Hours: 3
Prerequisites: Consent required

PSYCH 4977: Independent Research Capstone II
Continuation of PSYCH 4976. Completion of research project, presentation of poster in a spring conference. Weekly class discussions of student progress. Enrollment limited to psychology majors with senior standing who have completed PSYCH 4976.

Credit Hours: 3
Prerequisites: Consent required

PSYCH 4977H: Honors Research Capstone II
Continuation of PSYCH 4976H. Completion of research project, presentation of poster in a spring conference. Weekly class discussions of student progress. Enrollment limited to psychology majors with senior standing who have completed PSYCH 4976H.

Credit Hours: 3
Prerequisites: Consent required
standing, honors eligibility, a cumulative GPA of 3.5, who have completed
PSYCH 4976H.

Credit Hours: 3
Prerequisites: Consent required

PSYCH 4977HW: Honors Research Capstone II - Honors/Writing Intensive
Continuation of PSYCH 4976HW. Completion of research project, presentation of poster in a spring conference. Weekly class discussions of student progress. Enrollment limited to psychology majors with senior standing, honors eligibility, a cumulative GPA of 3.5, who have completed PSYCH 4976HW.

Credit Hours: 3
Prerequisites: Consent required. Honors Eligibility Required

PSYCH 4977W: Independent Research Capstone II - Writing Intensive
Continuation of PSYCH 4976W. Completion of research project, presentation of poster in a spring conference. Weekly class discussions of student progress. Enrollment limited to psychology majors with senior standing who have completed PSYCH 4976W.

Credit Hours: 3
Prerequisites: Consent required

PSYCH 4978: Clinical Psychology Capstone
Students work at assigned agencies to gain "real-world" experience in the practice of psychology and attend regularly scheduled class meetings in order to integrate their academic knowledge with their practical experience. Enrollment limited to psychology majors with senior standing who have a grade of C or better in PSYCH 3020.

Credit Hours: 3
Prerequisites: Departmental consent required

PSYCH 4978W: Clinical Psychology Capstone - Writing Intensive
Students work at assigned agencies to gain "real-world" experience in the practice of psychology and attend regularly scheduled class meetings in order to integrate their academic knowledge with their practical experience. Enrollment limited to psychology majors with senior standing who have a grade of C or better in PSYCH 3020.

Credit Hours: 3
Prerequisites: Departmental consent required

PSYCH 4979: Judgement and Decision Making Capstone
This course examines the psychology of human judgement and decision-making. We will discuss major theories, methods and basic experimental findings and identify how those findings are being used to develop public policy or in applied settings.

Credit Hours: 3
Prerequisites: grade of C or better in PSYCH 2030; This course is restricted to psychology majors with senior standing. Consent required

PSYCH 4979W: Judgement and Decision Making Capstone - Writing Intensive
This course examines the psychology of human judgement and decision-making. We will discuss major theories, methods and basic experimental findings and identify how those findings are being used to develop public policy or in applied settings.

Credit Hours: 3
Prerequisites: Departmental consent required

PSYCH 4980: Human Relationships Capstone
Students design a study, collect data, and describe their research on some aspect of human relationships. Emphasis on survey research techniques. Enrollment limited to psychology majors with senior standing, a grade of C or better in PSYCH 3020, PSYCH 2810 or two social/personality courses.

Credit Hours: 3
Prerequisites: Departmental consent required

PSYCH 4980W: Human Relationships Capstone - Writing Intensive
Students design a study, collect data, and describe their research on some aspect of human relationships. Emphasis on survey research techniques. Enrollment limited to psychology majors with senior standing, a grade of C or better in PSYCH 3020, PSYCH 2810 or two social/personality courses.

Credit Hours: 3
Prerequisites: Departmental consent required

PSYCH 4981: Advanced Developmental Psychology Capstone I
Students propose a study to be conducted with preschool children. The course teaches skills needed to develop research questions, develop a coding system, and write a research proposal that reviews past literature in a way that makes the case for the importance of the project. Graded on A-F basis only. Enrollment limited to psychology majors with senior standing and a grade of C or better in PSYCH 3020.

Credit Hours: 3
Prerequisites: Departmental consent required

PSYCH 4981W: Advanced Developmental Psychology Capstone I - Writing Intensive
Students propose a study to be conducted with preschool children. The course teaches skills needed to develop research questions, develop a coding system, and write a research proposal that reviews past literature in a way that makes the case for the importance of the project. Graded on A-F basis only. Enrollment limited to psychology majors with senior standing and a grade of C or better in PSYCH 3020.

Credit Hours: 3
Prerequisites: Departmental consent required

PSYCH 4982: Advanced Developmental Psychology II
Students conduct a research project involving observations of preschool children. The course teaches skills needed to collect data, analyze data, and write a research report. These skills provide excellent preparation for graduate school in psychology or a related field. Graded on A-F basis only. Enrollment limited to psychology majors with senior standing who have a grade of C or better in PSYCH 3020.

Credit Hours: 3
Prerequisites: Departmental consent required

PSYCH 4982W: Advanced Developmental Psychology II - Writing Intensive
Students conduct a research project involving observations of preschool children. The course teaches skills needed to collect data, analyze data, and write a research report. These skills provide excellent preparation for graduate school in psychology or a related field. Graded on A-F basis only. Enrollment limited to psychology majors with senior standing who have a grade of C or better in PSYCH 3020.

Credit Hours: 3
Prerequisites: Departmental consent required
PSYCH 4982W: Advanced Developmental Psychology II - Writing Intensive
Students conduct a research project involving observations of preschool children. The course teaches skills needed to collect data, analyze data, and write a research report. These skills provide excellent preparation for graduate school in psychology or a related field. Graded on A-F basis only. Enrollment limited to psychology majors with senior standing who have a grade of C or better in PSYCH 3020.
Credit Hours: 3
Prerequisites: Departmental consent required

PSYCH 4983: Consumer Psychology Capstone
This course examines numerous social and psychological issues related to the area of consumer psychology. The course begins by examining how media exposure influences consumption, prejudice in marketing and advertising, and the question of whether children should be targets of marketing strategies. The second section examines how consumption can be influenced by unconscious and automatic factors. The third section examines unhealthy forms of consumption and consumption's relationship to well being. The fourth section focuses on ethical and social responsibility issues like consumption's impact on the environment and the voluntary simplicity movement. The last section of the course is devoted to student presentations of term papers. Graded on A-F basis only. Enrollment limited to psychology majors with senior standing who have a grade of C or better in PSYCH 3020.
Credit Hours: 3
Prerequisites: Consent required

PSYCH 4983W: Consumer Psychology Capstone - Writing Intensive
This course examines numerous social and psychological issues related to the area of consumer psychology. The course begins by examining how media exposure influences consumption, prejudice in marketing and advertising, and the question of whether children should be targets of marketing strategies. The second section examines how consumption can be influenced by unconscious and automatic factors. The third section examines unhealthy forms of consumption and consumption's relationship to well being. The fourth section focuses on ethical and social responsibility issues like consumption's impact on the environment and the voluntary simplicity movement. The last section of the course is devoted to student presentations of term papers. Graded on A-F basis only. Enrollment limited to psychology majors with senior standing who have a grade of C or better in PSYCH 3020.
Credit Hours: 3
Prerequisites: Consent required

PSYCH 4984: Promoting Social Justice, Diversity, and Inclusion Capstone
This course is an advanced exploration of diversity and social justice in the United States and provides students with a framework for understanding specific forms and the interlocking systems of oppression; a process to explore how oppression affects our lives; a pedagogical framework for teaching and training about concepts of oppression and diversity; and an application of these ideologies and skills in community settings. Enrollment limited to psychology majors with senior standing who have a grade of C or better in PSYCH 3020. Graded on A-F basis only.
Credit Hours: 3

PSYCH 7001: Topics in Psychology - General
Organized study of selected topics in psychology. Particular topic and earnable credit may vary by semester. Graduate credit will be earned through additional reading and assignments.
Credit Hour: 1-99
Prerequisites: Instructor's consent; departmental consent for repetition

PSYCH 7003: Topics in Psychology - Behavioral Science
Organized study of selected topics in psychology. Particular topic and earnable credit may vary by semester. Graduate credit will be earned through additional reading and assignments.
Credit Hour: 1-99
Prerequisites: Instructor's consent; departmental consent for repetition

PSYCH 7085: Problems in Psychology
Advanced studies to meet needs of individual student. Graded on S/U basis only.
Credit Hour: 1-99
Prerequisites: Instructor's consent

PSYCH 7110: Perception
(cross-leveled with PSYCH 4110). Data and contemporary theories of perception in all of the senses, with emphasis on visual and auditory perception.
Credit Hours: 3

PSYCH 7210: Physiological Psychology
An introduction to neuroscience giving an overview of the relation between the brain and behavior. Topics include intercellular communication, drugs and reward, emotions and stress psychoimmunology, psychopathology, nervous system development and repair, perception, cognition, learning and memory.
Credit Hours: 3
Prerequisites: PSYCH 1000

PSYCH 7340: Attitude Change
Theories, methods, and experimental findings in attitude change research.
Credit Hours: 3
Prerequisites: PSYCH 1000

PSYCH 7420: Personality Development
This course covers the topic of temperament and personality development through the lifespan with particular focus on infancy, childhood, and adolescence. Coverage includes classic and contemporary theories and classic and contemporary research.
Credit Hours: 3
Prerequisites: PSYCH 1000

<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Description</th>
<th>Credit Hours</th>
<th>Prerequisites</th>
</tr>
</thead>
<tbody>
<tr>
<td>PSYCH 7520</td>
<td>Behavior Genetics (cross-leveled with PSYCH 4520)</td>
<td>The study of genetic influences on behavioral traits such as mood, personality, intelligence, mental health, or activity level.</td>
<td>3</td>
<td>departmental consent required</td>
</tr>
<tr>
<td>PSYCH 7530</td>
<td>Research in Psychopathology</td>
<td>Intensive survey and evaluation of the psychological literature on abnormal behavior, emphasizes experimental and explanatory approaches.</td>
<td>3</td>
<td>PSYCH 1000</td>
</tr>
<tr>
<td>PSYCH 7550</td>
<td>Introduction to Clinical Psychology</td>
<td>Comprehensive survey of the field's historical roots, research methods, concepts of abnormality, assessment and intervention methods; also specialties that constitute clinical psychology.</td>
<td>3</td>
<td>PSYCH 1000</td>
</tr>
<tr>
<td>PSYCH 7560</td>
<td>Schizophrenia</td>
<td>Examines symptoms, possible causes, and treatments of schizophrenia. Goals include understanding psychopathology by examining one disorder and reviewing cutting edge psychology and clinical science research being used to understand schizophrenia.</td>
<td>3</td>
<td>PSYCH 1000</td>
</tr>
<tr>
<td>PSYCH 7810</td>
<td>Industrial/Organizational Psychology</td>
<td>Survey of basic and applied personnel and organizational psychology. Focus on the human relations field, job satisfaction, leadership, group dynamics and formal organizational structures within the realm of industry.</td>
<td>3</td>
<td>PSYCH 1000</td>
</tr>
<tr>
<td>PSYCH 7815</td>
<td>Cross-Cultural Psychology</td>
<td>This course aims to explore relationships between cultural variables and human behavior, and to look at recent attempts by cross-cultural psychologists to devise theories that reflect the cultural, social and developmental perspectives on behavior.</td>
<td>3</td>
<td>PSYCH 1000 and departmental consent</td>
</tr>
<tr>
<td>PSYCH 7830</td>
<td>Psychology of Women</td>
<td>Overview of current theories and research relating to the psychology of women. Topics include gender stereotyping, psychological sex differences, achievement motivation in women, and women and mental health.</td>
<td>3</td>
<td>PSYCH 1000</td>
</tr>
<tr>
<td>PSYCH 7840</td>
<td>The History of Psychology</td>
<td>Historical foundations of contemporary psychology.</td>
<td>3</td>
<td>PSYCH 1000</td>
</tr>
<tr>
<td>PSYCH 8001</td>
<td>Topics in Psychology-General</td>
<td>Organized study of selected topics in psychology. Particular topic and earnable credit may vary by semester.</td>
<td>1-99</td>
<td>instructor's consent, departmental consent for repetition</td>
</tr>
<tr>
<td>PSYCH 8050</td>
<td>Research in Psychology - Non-Thesis</td>
<td>Research in psychology not leading to thesis. Graded on S/U basis only.</td>
<td>1-99</td>
<td>instructor's consent</td>
</tr>
<tr>
<td>PSYCH 8085</td>
<td>Problems in Psychology</td>
<td>Advanced studies to meet needs of individual student. Graded on S/U basis only.</td>
<td>1-99</td>
<td>instructor's consent</td>
</tr>
<tr>
<td>PSYCH 8090</td>
<td>Research in Psychology - Thesis</td>
<td>Research in psychology leading to thesis. Graded on S/U basis only.</td>
<td>1-99</td>
<td>instructor's consent</td>
</tr>
<tr>
<td>PSYCH 8110</td>
<td>Cognitive Psychology</td>
<td>Focuses on basic research on human perception, memory, attention, language, and thought.</td>
<td>3</td>
<td>instructor's consent</td>
</tr>
<tr>
<td>PSYCH 8210</td>
<td>Functional Neuroscience</td>
<td>Basic techniques, data and theory in the neurosciences applied to the study of psychopathology, psychopharmacology, neural development, brain damage, memory and other areas of &quot;behavior.&quot;</td>
<td>3</td>
<td>instructor's consent</td>
</tr>
<tr>
<td>PSYCH 8310</td>
<td>Survey of Social Psychology</td>
<td>Survey of historical and contemporary theory and research in affiliation, attribution, social comparison, attitude change and group dynamics.</td>
<td>3</td>
<td>instructor's consent</td>
</tr>
<tr>
<td>PSYCH 8410</td>
<td>Psychology of Development</td>
<td>Principles, theories, research in normal human development.</td>
<td>3</td>
<td>instructor's consent</td>
</tr>
</tbody>
</table>
PSYCH 8420: Cognitive Development
(same as H D FS 8420). An introduction to central theories and issues in the study of cognitive development in infancy and childhood. Emphasis is on major theoretical frameworks for studying cognitive development, and topics such as perception, memory, language, categorization, and reasoning.
Credit Hours: 3
Prerequisites: instructor's consent

PSYCH 8430: Temperament and Personality Development
(same as H D FS 8430). Intended for graduate students in psychology and related fields. This course is a survey of theory and research in the area of temperament and personality development, with emphasis on child development.
Credit Hours: 3
Prerequisites: instructor's consent

PSYCH 8440: Social and Emotional Development
(same as H D FS 8440). There are two major objectives for this course. The first is a “content” objective and involves familiarizing students with theory and research regarding social, emotional, and personality development in childhood and adolescence and also regarding the relationships in which such development takes place. The second objective is a “process” objective and involves enhancing students skills at interpreting empirical research, identifying gaps in the literature, and identifying research strategies for addressing those gaps.
Credit Hours: 3

PSYCH 8510: Developmental Psychopathology
Etiology, diagnosis, and treatment of disordered behavior from infancy through adolescence. Emphasizes contrasting theories and research issues.
Credit Hours: 3
Prerequisites: instructor's consent

PSYCH 8520: Adult Psychopathology
Problems of etiology, diagnosis, treatment in psychopathology. Considers theory, research, case histories.
Credit Hours: 3
Prerequisites: instructor's consent

PSYCH 8530: Experimental Psychopathology
Critical examination of current theories, with special emphasis on empirical studies in psychopathology including such topics as alcoholism, enuresis, sexual deviancy, drug addiction, mental retardation.
Credit Hours: 3
Prerequisites: instructor's consent

PSYCH 8601: Motivation
Survey of historical and contemporary theories and models of human motivation. Major emphasis on different levels of motivational analysis.
Credit Hours: 3
Prerequisites: instructor's consent

PSYCH 8620: Personality Psychology
Graduate-level introduction to the field of personality psychology, including readings and discussion of both classic and contemporary works.
Credit Hours: 3
Prerequisites: instructor's consent

PSYCH 8710: General Linear Models in Psychology I
Principles of interval estimation and hypothesis testing, scalar and matrix forms of simple and multiple regression with continuous and categorical predictors, regression diagnostics.
Credit Hours: 4
Prerequisites: undergraduate course in statistics; concurrent enrollment in PSYCH 8730; instructor's consent

PSYCH 8720: General Linear Models in Psychology II
Complex analysis of variance; experimental design.
Credit Hours: 4
Prerequisites: PSYCH 8710 or equivalent, concurrent enrollment in PSYCH 8730; instructor's consent

PSYCH 8730: Statistical Software Packages
Computer implementation of data management and statistical analysis. Covers elementary computer operations, data entry and quality control, and computer implementation of statistical models covered in PSYCH 8710 and PSYCH 8720.
Credit Hours: 1
Prerequisites: instructor's consent

PSYCH 8910: Responsible Conduct of Research
This course exposes students to important concepts in the responsible conduct of research. Graded on A-F basis only.
Credit Hour: 1

PSYCH 8920: Social and Behavioral Sciences in Public Health
(same as P HLTH 8920). This course will take both a theoretical and a practical approach to understanding health-related behavior and the field of public health. Students will gain an understanding of theory and empirical research in the social and behavioral sciences, as well as developing practical skills in critically evaluating research and in applying scientific evidence to address real world health concerns.
Credit Hours: 3

PSYCH 9001: Topics in Psychology-General
Organized study of selected topics in psychology. Particular topic and earnable credit may vary by semester.
Credit Hour: 1-99
Prerequisites: instructor's consent, departmental consent for repetition

PSYCH 9050: Research in Psychology - Non-Dissertation
Research in Psychology not leading to dissertation. Graded on S/U basis only.
Credit Hour: 1-99
Prerequisites: instructor's consent
PSYCH 9085: Problems in Psychology
Advanced studies to meet needs of individual student. Graded on S/U basis only.

Credit Hours: 1-99
Prerequisites: instructor's consent. Departmental consent for repetition

PSYCH 9090: Research in Psychology - Dissertation
Research in Psychology leading to dissertation. Graded on S/U basis only.

Credit Hours: 1-99
Prerequisites: instructor's consent

PSYCH 9110: Studies in Experimental Psychology
Critical consideration of selected research in neuroscience and cognitive psychology.

Credit Hours: 3
Prerequisites: PSYCH 4972 or PSYCH 4973; departmental consent for repetition; instructor's consent

PSYCH 9120: Studies in Physiological Psychology
Weekly seminars given by local and regional cognitive psychologists and cognitive neuroscientists. Graded on S/U basis only.

Credit Hour: 1
Prerequisites: PSYCH 7210, departmental consent for repetition, and instructor's consent

PSYCH 9150: Human Learning and Memory
Current theory and research in the area of human learning and memory will be investigated. A major component of the course will involve the critical review of existing literature in this area.

Credit Hours: 3
Prerequisites: instructor's consent

PSYCH 9210: Psychopharmacology
Basic principles of drug action on the nervous system, the theory and clinical use of the various psychotherapeutic drugs, drug abuse and its treatment.

Credit Hours: 3
Prerequisites: instructor's consent

PSYCH 9220: Clinical Neuropsychology Seminar
In this course students will analyze published cases in the neuropsychology literature. By studying how behavioral and mental processes break down, the supposition is that one can infer how intact processes must have been constructed, and how a brain supports them.

Credit Hours: 3
Prerequisites: Instructor's consent

PSYCH 9230: Seminar on fMRI
Fundamentals of MRI and its application to brain imaging, including experimental design, analysis and contemporary issues. During the lab component, students will use FSL and other software to analyze fMRI data and will design and implement their own fMRI experiments.

Credit Hours: 3
Prerequisites: instructor's consent

PSYCH 9240: Advanced Neural Systems
The course provides in-depth coverage of the neurophysiology, neuroanatomy, and function of the brain. Course lectures and discussions cover the brain and its systems in a “bottom-up” sequence starting with basic sensory pathways and concluding with higher cognitive functions. The course also includes hands-on laboratory sessions, which include dissection component. Graded on A-F basis only.

Credit Hours: 3

PSYCH 9310: Theories of Social Psychology
Intensive review of classic and contemporary concepts and theories of social psychology; emphasizes readings from primary sources. PhD candidates only. Required for all PhD candidates in social psychology.

Credit Hours: 3
Prerequisites: instructor's consent

PSYCH 9320: Social Psychology Methodology
Advanced study of experimental methods in social psychological research.

Credit Hours: 3
Prerequisites: instructor's consent

PSYCH 9330: Field Research Methods
Advanced course in research methods and designs commonly used in field settings; theoretical, ethical, and pragmatic issues that arise in field settings are considered; emphasis is on learning and skill acquisition through a series of hands-on assignments.

Credit Hours: 3
Prerequisites: instructor's consent

PSYCH 9350: Studies in Social Psychology
Critical coverage of selected research and theory in social psychology.

Credit Hour: 1-99
Prerequisites: instructor's consent, departmental consent for repetition

PSYCH 9360: Seminar in Social Psychology
Intensive review of concepts and theories of social psychology; emphasizes readings from primary sources. Ph.D. candidates only. Required for all Ph.D. candidates in social psychology program. Graded on S/U basis only.

Credit Hour: 1
Prerequisites: instructor's consent

PSYCH 9365: Positive Psychology
This seminar will discuss and critique modern research in positive psychology. Each chapter of the textbook provides overviews of positive psychology research topics at various levels of analysis, while providing suggestions for further research. Graded on A-F basis only.

Credit Hours: 3
PSYCH 9440: Studies in Developmental Psychology
Covers contemporary research and professional topics in developmental psychology. Graded on S/U basis only.

Credit Hour: 1-99
Prerequisites: instructor's consent

PSYCH 9460: Studies in Evolution and Behavior
Reading and discussion of classic and contemporary works in evolution.

Credit Hour: 1
Prerequisites: instructor's consent

PSYCH 9470: Women's Professional Development
This class takes a lifespan developmental perspective in regards to understanding challenges in women's professional development. Topics include: perceptions and stereotypes of successful women, division of labor in families (housework versus paid work), motherhood and the workplace, social policies for working parents, girls’ and boys’ interests in STEM professions, and gender and workplace economics (starting salaries, negotiation, the gender pay gap). Graded on A-F basis only.

Credit Hours: 3
Prerequisites: Instructor Consent Required

PSYCH 9510: Studies in Clinical Psychology
Contemporary research and theory for advanced graduate students in clinical psychology. Graded on S/U basis only.

Credit Hour: 1-99
Prerequisites: instructor's consent, departmental consent for repetition

PSYCH 9515: Orientations in Psychotherapy
The introductory psychotherapy course for students in the clinical psychology doctoral program. The focus of the course is on development of knowledge and skills in the following four areas: (1) Theory and practice of contemporary (brief) psychotherapy; (2) Basic interviewing skills; (3) Psychotherapy research and empirically supported treatments; and (4) The role and impact of managed care in contemporary psychotherapy.

Credit Hours: 3
Prerequisites: instructor's consent

PSYCH 9520: Psychometrics
Introduction to concepts and issues essential to psychological assessment including psychometrics, test construction, controversies in psychological testing, behavioral assessment, and structured interviewing.

Credit Hours: 3
Prerequisites: instructor's consent

PSYCH 9525: Orientations to Clinical Assessment
Topics include psychometric principles, intelligence testing, objective and projective personality testing and behavioral assessment.

Credit Hours: 3
Prerequisites: PSYCH 9520 and instructor's consent

PSYCH 9530: Clinical Child Assessment
Introduction to clinical instruments, techniques and problems in the psychological assessment of children.

Credit Hours: 3
Prerequisites: instructor's consent

PSYCH 9540: Ethical and Professional Issues II
Legal issues, state and national codes, ethical decision-making, dangerousness, ethical clinical treatment issues, mandated reporting, and ethics in specialized clinical settings. This course is the second in a sequence for clinical psychology doctoral students.

Credit Hours: 3
Prerequisites: instructor's consent

PSYCH 9545: Clinical Practicum
Intensive supervised training in use and interpretation of psychological techniques and in psychotherapy. Graded on S/U basis only.

Credit Hour: 1-99
Prerequisites: instructor's consent and professional liability insurance

PSYCH 9550: Clinical Intervention with Children
Introduction to theory, research and practice in the area of behavior change with children and adolescents.

Credit Hours: 3
Prerequisites: instructor's consent

PSYCH 9560: Family and Group Process
Theory, intervention, and research in the areas of family and group dynamics. Emphasis on family therapy approaches.

Credit Hours: 3
Prerequisites: instructor's consent

PSYCH 9570: Assessment and Treatment of Sexual Problems
Background information for and methods and techniques of dealing with a variety of sexual problems that clients bring to therapists. Sexual dysfunction, homosexuality, sexual aberrations and sex crimes covered.

Credit Hours: 3
Prerequisites: instructor's consent

PSYCH 9575: Clinical Research Methods
Focus on research design with emphasis on active critique of methodological challenges (e.g., subject selection, control groups, multimodal measures, and treatment issues), includes lecture and active review or research.

Credit Hours: 3
Prerequisites: instructor's consent

PSYCH 9580: Seminar in Clinical Psychology
Critical coverage of selected research and theory in clinical psychology.

Credit Hours: 3
Prerequisites: instructor's consent, departmental consent for repetition
PSYCH 9585: Introduction to Alcohol Studies
Intensive seminar on alcohol research primarily intended for alcohol research training fellows. Covers a range of topics of interest to psychologist, including pharmacology, research methods, genetics, diagnosis, expectancies, and treatment.
Credit Hours: 3
Prerequisites: instructor's consent

PSYCH 9590: Clinical Pediatric Neuropsychology
The goal of this course is to provide an in-depth introduction to the field of clinical pediatric neuropsychology. Particular emphasis will be placed on how we can increase our understanding of development through the study of individuals with early brain dysfunction.
Credit Hours: 3
Prerequisites: instructor's consent

PSYCH 9710: Multivariate Statistics in Psychology
Multivariate statistical methods, including multivariate analysis of variance, discriminant analysis, principal component analysis, and elements of matrix algebra, as applied to problems in psychology.
Credit Hours: 3
Prerequisites: PSCYH 8710 and PSYCH 8720; instructor's consent

PSYCH 9715: Multilevel Modeling
Introduction to random coefficient multilevel modeling of clustered data. Topics include two- and three-level models, estimation techniques, computing options, model fitting issues, advanced model applications, and growth modeling.
Credit Hours: 3
Prerequisites: instructor's consent, a graduate course in regression analysis

PSYCH 9720: Latent Variable Models in Statistical Analysis
Covers Matrix Algebra fundamentals, Factor Rotation, Communalty Estimation techniques, High Order and Dynamic Factor Models, Path Analysis, Use of computer programs.
Credit Hours: 3
Prerequisites: instructor's consent and PSYCH 8720

PSYCH 9725: The Literature Review
Focuses on methods for gathering, summarizing, integrating and interpreting research on a particular research issue. Topics include searching the literature, evaluating research quality and synthesizing statistical results across separate studies.
Credit Hours: 3
Prerequisites: PSYCH 8710 and instructor's consent

PSYCH 9730: Psychological Process Models
Examines mathematical and statistical models of cognition and perception. Emphasis on modeling basics such as estimation, hypothesis testing, and assessment of fit.
Credit Hours: 3
Prerequisites: PSYCH 8710 and PSYCH 8720 or instructor's consent

PSYCH 9740: Statistical Consulting for Psychologists
Provision of statistical consulting to individuals working with psychological data. Graded on S/U basis only.
Credit Hour: 1-99
Prerequisites: graduate standing in Psychological Sciences and instructor's consent

PSYCH 9750: Advanced Structural Equation Modeling
Growth Mixture Models, Dynamic Factor models, and nonlinear structural models.
Credit Hours: 3
Prerequisites: PSYCH 8710 or departmental consent

PSYCH 9755: Quantitative Psychology Seminar
Quantitative Psychology Topics Seminar. Graded on S/U basis only.
Credit Hour: 1
Prerequisites: departmental consent required

PSYCH 9760: Categorical Data Analysis
This course will provide an applied introduction to the most important methods for analyzing categorical data. Topics include; logistic regression modeling Poisson regression modeling, multinomial sampling, and classic analysis of contingency tables.
Credit Hours: 3
Prerequisites: PSYCH 8710 and PSYCH 8720; instructor's consent

PSYCH 9765: Cluster Analysis and Network Analysis
The course covers traditional and modern clustering techniques (hierarchical, partitioning, and mixture modeling), both from an algorithmic and modeling perspective. Several types of data types are explored, including traditional two-mode data sets and network structures.
Credit Hours: 3
Prerequisites: instructor's consent required

PSYCH 9780: Item Response Theory I
Introduction to item response theory, including classical test theory, popular item response models, model estimation, software considerations, and application. Graded on A-F basis only.
Credit Hours: 3
Corequisites: PSYCH 8710

PSYCH 9900: Teaching of Psychology Practicum
Focuses on development and enhancement of teaching skills for graduate students in psychology who are primary instructors of undergraduate psychology courses. Graded on a S/U basis only.
Credit Hour: 1-99
Prerequisites: instructor's consent

PSYCH 9990: Advanced History of Psychology
Advanced course in history of psychology designed to show how general philosophical models of mind and behavior have been linked to doctrines of mental health and pathology and to theories of social behavior.
Credit Hours: 3
Prerequisites: instructor's consent
