Pathology & Anatomical Science (PTH_AS)

**PTH_AS 2201: Human Anatomy Lecture**
A systems-based survey of human gross anatomy including structure, function and history. Internet access required: lectures and assignments will be online. Graded on A-F basis only.

**Credit Hours:** 3  
**Recommended:** Minimum cumulative MU GPA of 2.5 required

**PTH_AS 2203: Human Anatomy Laboratory**
A systems-based survey of human gross anatomy. Internet access required: most materials will be online. One on-campus laboratory meeting per week. Graded A-F only. Recommend: Minimum cumulative MU GPA of 2.5 and completed or currently enrolled in PTH_AS 2201.

**Credit Hours:** 2

**PTH_AS 3460: Research and Instructional Techniques**
Involves library and laboratory research. Includes development of oral and written communications skills.

**Credit Hours:** 3

**PTH_AS 4210: Seminar in Pathology and Anatomical Sciences**
Presentation and discussion of original investigations and current literature.

**Credit Hour:** 1

**PTH_AS 4220: Forensic Pathology and Death Investigation**
Forensic Pathology and Death Investigation.

**Credit Hours:** 2

**PTH_AS 4220W: Forensic Pathology and Death Investigation - Writing Intensive**
Forensic Pathology and Death Investigation.

**Credit Hours:** 2

**PTH_AS 4222: Gross Human Anatomy (The Health Professions)**
Gross structure and neuroanatomy of the human body; dissection of extremities, back, head, neck abdomen and thorax.

**Credit Hours:** 7  
**Prerequisites:** instructor's consent

**PTH_AS 6033: SCC ABS Surgical Anatomy**
The 4th year anatomy student will work independently or as a team to dissect and explore regions of cadavers particular to their interests. We generally offer the following regions (Lower Limb, Upper Limb, Pelvis, Thorax, Abdomen, Head & Neck). Students will improve their anatomical knowledge and learn using hands-on experiences and a variety of evidence-based resources while exploring the human body. Requirements: A) Complete a dissection relevant to your interests of the following regions: brain, head and neck, thorax, abdomen, pelvis, upper limb (one side), lower limb (one side). B) Give a 15-minute presentation to Occupational Therapy or Physician Assistant class about the anatomy of your region behind clinical practice. Schedule this presentation with the course coordinator and/or the course director within two months of the scheduled block. However, presentation slides must be given to the course faculty leader by the end of the block. C) Prepare 5 PowerPoint slides for use in Occupational Therapy or Physician Assistant courses on clinically-relevant anatomy for the audience by the end of the block. After review by course faculty the slides will also be sent to Columbia for consideration of use in M1 classes. D) Complete an exit interview with a faculty member to discuss the student's experience during the course.

**Credit Hours:** 5  
**Prerequisites:** Successful completion of the first 2 years of medical school and 5 of the 7 core clerkships

**PTH_AS 6333: ABS Pathology/Anatomical Science Research**
ABS Pathology/Anatomical Science Research

**Credit Hours:** 5

**PTH_AS 6341: ABS Science Anatomical Science Teaching**
ABS Science Anatomical Science Teaching

**Credit Hours:** 5

**PTH_AS 6343: ABS Surgical Anatomy**
ABS Surgical Anatomy

**Credit Hours:** 5

**PTH_AS 6345: ABS Surgical Anatomy of the Head and Neck**
ABS Surgical Anatomy of the Head and Neck

**Credit Hours:** 5

**PTH_AS 6347: ABS Surgical Anatomy of the Back and Limbs**
ABS Surgical Anatomy of the Back and Limbs

**Credit Hours:** 5

**PTH_AS 6600: Anatomic Pathology**
Anatomic Pathology

**Credit Hours:** 5

**PTH_AS 6602: Clinical Pathology**
Clinical Pathology

**Credit Hours:** 5

**PTH_AS 6604: Forensic Pathology**
Forensic Pathology

**Credit Hours:** 5

**PTH_AS 6606: Anatomic/Clinical Pathology**
Anatomic/Clinical Pathology

**Credit Hours:** 5

**PTH_AS 6608: Anatomy Elective**
Anatomy Elective
PTH_AS 7020: Forensic Pathology and Death Investigation
Summary of Forensic Death Investigation from beginning to end. Will include some of the current laboratory techniques seen on "CSI" Team taught by experts in the fields including medical examiners, death investigators, forensic anthropologists, police CSI teams, lawyers and others.
Credit Hours: 2
Prerequisites: Basic Biology

PTH_AS 7222: Gross Human Anatomy (The Health Professions)
Gross/human structure through dissection. Graded on A-F basis only.
Credit Hours: 7
Prerequisites: Acceptance into Physical Therapy Programs or instructor's consent

PTH_AS 7400: Seminars in Translational Medicine
Students participate in regular seminars and discussion groups with other students interested in clinical and translational sciences. Students, working together with faculty in biomedical sciences and those working in clinical and translational fields, identify seminar topics. Learning objectives and written assignments are arranged on an individual basis. The course is open to all graduate level students and students enrolled in professional schools, for 0-5 credit hours, with instructor's approval. Graded on S/U basis only.
Credit Hour: 0-5

PTH_AS 7450: Precision Medicine Informatics
This course will introduce students with the theoretical and practical aspects of precision medicine informatics. Topics include: complex diseases, computational genomics/proteomics, informatics of molecular interactions and biological pathways, somatic mutations, signal transduction and cancer, biomarker discovery, machine learning and data mining for PMI, networks methods for PMI, knowledge representation and reasoning for PMI. The course will consist of a set of didactic lectures, computational assignments, in-class demonstrations of PMI methods and discussions of recent publications. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: INFOINST 8005 with C or better or INFOINST 7010 with C or better or instructor's consent

PTH_AS 8010: Current Issues in Anatomical Sciences
Survey of the recent literature in integrative anatomy, including functional, evolutionary, developmental and translational anatomy, conducted through readings and discussion. Grade determined by participation and presentation of weekly readings. May be repeated for a maximum of 10 hours. Graded on S/U basis only.
Credit Hour: 1
Prerequisites: instructor's consent

PTH_AS 8090: Advanced Pathology
Open only to properly qualified graduate students, with counsel of faculty. Focus of MS-related research in evolutionary morphology, genomics, neuroscience, pathobiology or laboratory sciences. Graded on S/U basis only.
Credit Hour: 1-99

PTH_AS 8100: Fundamentals of Evolutionary Biology
Principles of modern evolutionary biology. Topics include: phylogeny, paleobiology, developmental processes, genetic and phenotypic variation, form and function, speculation, macroevolution, and molecular mechanisms.
Credit Hours: 3
Prerequisites: instructor's consent

PTH_AS 8150: Fundamentals of Evolutionary Morphology
This course is a survey of the fundamentals of modern evolutionary morphology. Topics will include: patterns of vertebrate evolution, comparative methods, development and ontogeny, constraint, functional morphology, evolutionary innovations, and experimental methods. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: instructor's consent required

PTH_AS 8201: Human Anatomy: Back and Upper Limb
Developmental, gross, and clinical anatomy of the human back and upper limb, including skeletal, muscular, nervous, and vascular tissues. Graded on A-F basis only.
Credit Hours: 2
Prerequisites: instructor's consent required

PTH_AS 8202: Human Anatomy: Thorax and Abdomen
Developmental, gross, and clinical anatomy of the human thorax and abdomen. Graded on A-F basis only.
Credit Hours: 2
Prerequisites: instructor's consent required

PTH_AS 8203: Human Anatomy: Head, Neck and Neuroanatomy
Developmental, gross and clinical anatomy of the human head, neck and neuroanatomy. Graded on A-F basis only.
Credit Hours: 2
Prerequisites: instructor's consent required

PTH_AS 8204: Human Anatomy: Pelvis and Lower Limb
Developmental, gross and clinical anatomy of the human pelvis and lower limb. Graded A-F basis only.
Credit Hours: 2
Prerequisites: instructor's consent required

PTH_AS 8285: Problems in Pathology and Anatomical Sciences
Regions or systems which may include developmental, microscopic, and gross anatomy.
Credit Hour: 1-99
Prerequisites: instructor's consent
**PTH AS 8290: Research in Pathology and Anatomical Sciences**
Research unrelated to thesis work in evolutionary morphology, genomics, neuroscience, pathobiology or laboratory sciences.

**Credit Hour:** 1-99  
**Prerequisites:** instructor's consent

---

**PTH AS 8450: Human Anatomy Teaching Practicum**
Provides practical experience teaching clinically oriented human anatomy in lecture and laboratory settings. For students pursuing doctoral degrees in Pathobiology. Enrollment is limited to students who have completed PTH AS 8201, PTH AS 8202, PTH AS 8203, and PTH AS 8204.
Graded on S/U basis only. May be repeated for credit.

**Credit Hour:** 1  
**Prerequisites:** instructor's consent

---

**PTH AS 8500: Seminar in Translational Neuroscience**
Students participate in seminars and discussion groups. Masters students identify seminar topics and present existing data with findings. PhD students identify seminar topics, conduct research and present findings. Learning objective and written assignments are arranged individually. May be repeated for credit. Graded on S/U basis only.

**Credit Hour:** 1-5

---

**PTH AS 9090: Research in Pathology and Anatomical Sciences**
Open only to properly qualified graduate students, with counsel of faculty. Focus of PhD-related research in evolutionary morphology, genomics, neuroscience or pathobiology. Graded on S/U basis only.

**Credit Hour:** 1-99

---

**PTH AS 9290: Research in Pathology and Anatomical Sciences**
Open only with instructor's consent. Courses with specialized lectures in various topics such as evolutionary morphology, genomics, neuroscience and pathobiology, depending on faculty expertise and student demand. Graded on S/U basis only.

**Credit Hour:** 1-99
