University of Missouri

UNIVERSITY CATALOG 2017-18
### Table of Contents

**University of Missouri** ........................................................................................................... 17

**Degrees, Majors (Degree Programs), Emphasis Areas, Minors and Certificates** .................................. 17

**Major and Career Exploration** .................................................................................................. 31

**University Level Academic Degree Requirements** .................................................................... 32

**Undergraduate Requirements (University)** ............................................................................... 32

**Common Credit Limitations** .................................................................................................... 32

**General Education Requirements** ............................................................................................ 33

**Master's Requirements (University)** .......................................................................................... 34

**Educational Specialist Requirements** ......................................................................................... 38

**Doctoral Requirements (Graduate Studies)** .............................................................................. 39

**Doctoral Requirements (Law School)** ....................................................................................... 45

**Undergraduate & Graduate** .......................................................................................................... 46

**College of Agriculture, Food and Natural Resources** ............................................................... 47

- **Agribusiness Management** ...................................................................................................... 50
  - BS in Agribusiness Management ................................................................................................. 50

- **Agricultural and Applied Economics** ........................................................................................ 52
  - MS in Agricultural and Applied Economics ............................................................................... 53
  - PhD in Agricultural and Applied Economics .............................................................................. 54

- **Agricultural Economics** ........................................................................................................... 55
  - BS in Agricultural Economics .................................................................................................... 56

- **BS in Agricultural Economics with Emphasis in Public Policy** .............................................. 56

- **Minor in Agricultural Economics** ............................................................................................ 58

- **Agricultural Education** ............................................................................................................ 58
  - BS in Agricultural Education .................................................................................................... 58

- **BS in Agricultural Education with Emphasis in Leadership** .................................................... 59

- **BS in Agricultural Education with Emphasis in Teacher Certification** .................................... 60

- **Minor in Agricultural Education** .............................................................................................. 61

- **PhD in Agricultural Education** ................................................................................................ 61

- **Agricultural Leadership, Communication and Education** ....................................................... 62

- **MS in Agricultural Leadership, Communication and Education** ........................................... 62

- **Agricultural Systems Management** .......................................................................................... 63

- **BS in Agricultural Systems Management** ................................................................................ 64

- **Minor in Agricultural Systems Management** ............................................................................ 65

- **Agriculture** ............................................................................................................................... 65

- **BS in Agriculture** ..................................................................................................................... 65

- **BS in Agriculture with Emphasis in Sustainable Agriculture** .................................................. 66

- **Animal Sciences** ........................................................................................................................ 67

- **BS in Animal Sciences** ............................................................................................................. 69

- **MS in Animal Sciences** ............................................................................................................. 70

- **Minor in Animal Sciences** ......................................................................................................... 71

- **PhD in Animal Sciences** ............................................................................................................ 71

- **Biochemistry** ............................................................................................................................ 71

- **BS in Biochemistry** .................................................................................................................. 72

- **MS in Biochemistry** .................................................................................................................. 74

- **PhD in Biochemistry** ................................................................................................................ 74

- **Environmental Sciences** ........................................................................................................... 75

- **BS in Environmental Sciences** ................................................................................................ 76

- **BS in Environmental Sciences with Emphasis in Atmosphere** ............................................ 77

- **BS in Environmental Sciences with Emphasis in Land and Soil** ........................................... 78

- **BS in Environmental Sciences with Emphasis in Outreach and Education** .......................... 79

- **BS in Environmental Sciences with Emphasis in Water** .......................................................... 80

- **Food Science and Nutrition** .................................................................................................... 81

- **BS in Food Science and Nutrition** ............................................................................................ 82

- **MS in Food Science** .................................................................................................................. 84

- **Minor in Food Science and Nutrition** ....................................................................................... 85

- **PhD in Food Science** ................................................................................................................ 86

- **Hospitality Management** .......................................................................................................... 87

- **BS in Hospitality Management** ................................................................................................ 89

- **BS in Hospitality Management with Emphasis in Conference and Event Planning Management** 90

- **BS in Hospitality Management with Emphasis in Food and Beverage Management** ............ 90

- **BS in Hospitality Management with Emphasis in Lodging Management** .............................. 91

- **BS in Hospitality Management with Emphasis in Sport Venue Management** .......................... 91

- **Minor in Hospitality Management** ........................................................................................... 91

- **Natural Resource Science and Management** .......................................................................... 92

- **BS in Natural Resource Science and Management** ................................................................. 92

- **BS in Natural Resource Science and Management with Emphasis in Forest Resources** .......... 93

- **BS in Natural Resource Science and Management with Emphasis in Fisheries and Wildlife Sciences** 94
MA in Psychology .......................................................... 273
MA in Psychology with Emphasis in Child Development and Developmental Psychology .................................................. 273
MA in Psychology with Emphasis in Clinical Psychology .......................................................... 273
MA in Psychology with Emphasis in Cognition and Neuroscience .......................................................... 273
MA in Psychology with Emphasis in Developmental Psychology .................................................. 273
MA in Psychology with Emphasis in Quantitative Psychometrics .......................................................... 273
MA in Psychology with Emphasis in Social/Personality Psychology .......................................................... 274
PhD in Psychology .......................................................... 274
PhD in Psychology with Emphasis in Child Clinical and Developmental Psychology .................................................. 274
PhD in Psychology with Emphasis in Clinical and Quantitative Psychology .................................................. 275
PhD in Psychology with Emphasis in Clinical Psychology .......................................................... 275
PhD in Psychology with Emphasis in Cognition and Neuroscience .................................................. 275
PhD in Psychology with Emphasis in Developmental Psychology .................................................. 276
PhD in Psychology with Emphasis in Quantitative Psychology .................................................. 276
PhD in Psychology with Emphasis in Social/Personality Psychology .................................................. 276
Religious Studies .......................................................... 277
BA in Religious Studies .......................................................... 277
Minor in Religious Studies .......................................................... 278
MA in Religious Studies .......................................................... 278
Romance Languages .......................................................... 278
BA in Romance Languages .......................................................... 279
BA in Romance Languages with Emphasis in French .... 280
BA in Romance Languages with Emphasis in Spanish ... 280
MA in Romance Languages .......................................................... 281
MA in Romance Languages with Emphasis in French .... 282
MA in Romance Languages with Emphasis in Language Teaching .......................................................... 283
MA in Romance Languages with Emphasis in Spanish .......................................................... 285
PhD in Romance Languages .......................................................... 286
Russian .......................................................... 289
BA in Russian .......................................................... 290
Minor in Russian .......................................................... 291
MA in Russian and Slavonic Studies .......................................................... 291
Sociology .......................................................... 292
BA in Sociology .......................................................... 292
Minor in Sociology .......................................................... 294
MA in Sociology .......................................................... 294
PhD in Sociology .......................................................... 294
Statistics .......................................................... 295
BA in Statistics .......................................................... 296
BS in Statistics .......................................................... 297
Minor in Statistics .......................................................... 298
MA in Statistics .......................................................... 298
MA in Statistics with Emphasis in Biostatistics .......................................................... 300
MA in Statistics with Emphasis in Data Analytics .......................................................... 300
PhD in Statistics .......................................................... 300
Graduate Minor in Statistics .......................................................... 301
Theatre .......................................................... 301
BA in Theatre .......................................................... 303
BA in Theatre with Emphasis in Design/Technical .......................................................... 303
BA in Theatre with Emphasis in Performance .......................................................... 304
BA in Theatre with Emphasis in Writing for Performance .......................................................... 304
Minor in Theatre .......................................................... 305
MA in Theatre .......................................................... 305
PhD in Theatre .......................................................... 307
Additional Minors and Certifications .......................................................... 309
Certificate in American Constitutional Democracy .......................................................... 310
Certificate in Jazz Studies .......................................................... 311
Certificate in Multicultural Studies .......................................................... 311
Certificate in Music Entrepreneurship .......................................................... 311
Minor in Aerospace Studies .......................................................... 312
Minor in Afro-Romance Literatures in Translation .......................................................... 312
Minor in American Constitutional Democracy .......................................................... 312
Minor in Astronomy .......................................................... 313
Minor in Black Studies .......................................................... 313
Minor in Canadian Studies .......................................................... 313
Minor in Chinese Studies .......................................................... 314
Minor in East Asian Studies .......................................................... 314
Minor in French .......................................................... 315
Minor in Italian Area Studies .......................................................... 315
Minor in Japanese Studies .......................................................... 315
Minor in Jazz Studies ....................................................... 315
Minor in Korean Studies .................................................. 316
Minor in Latin American Studies ................................. 316
Minor in Leadership and Public Service ........................... 316
Minor in Luso-Brazilian Area Studies .............................. 316
Minor in Medieval and Renaissance Studies ..................... 316
Minor in Middle East Studies .......................................... 317
Minor in Military Science ............................................... 318
Minor in Peace Studies .................................................... 318
Minor in Romance Literatures in Translation ................... 318
Minor in South Asian Studies ......................................... 319
Minor in Spanish ............................................................ 319
Minor in Strategic Studies .............................................. 319
Minor in Women's and Gender Studies ........................... 319
Graduate Certificate in Geospatial Intelligence ............... 320
Graduate Certificate in Jazz Studies ................................. 320
Graduate Certificate in Lifespan Development .................. 320
Graduate Certificate in Music Entrepreneurship ............. 322
Graduate Certificate in Science Outreach ....................... 322
Graduate Minor in Black Studies .................................... 322
Graduate Minor in Medieval and Renaissance Studies ....... 323
Graduate Minor in Museum Studies ................................ 323
Graduate Minor in Psychological Statistics and Methods .... 323
Graduate Minor in Women's and Gender Studies .......... 324
College of Business ......................................................... 325
Accountancy ..................................................................... 328
BSAcc in Accountancy .................................................... 329
MAcc in Accountancy ...................................................... 331
PhD in Accountancy ......................................................... 332
Business Administration ....................................................... 333
BSBA in Business Administration ....................................... 336
BSBA in Business Administration with Emphasis in Economics ......................................................... 338
BSBA in Business Administration with Emphasis in Finance and Banking .......................................................... 339
BSBA in Business Administration with Emphasis in International Business - Economics ............................... 340
BSBA in Business Administration with Emphasis in International Business - Finance ................................... 341
BSBA in Business Administration with Emphasis in International Business - Management ............................. 343
BSBA in Business Administration with Emphasis in International Business - Marketing ........................................... 344
BSBA in Business Administration with Emphasis in Management ............................................................ 345
BSBA in Business Administration with Emphasis in Marketing ......................................................................... 347
BSBA in Business Administration with Emphasis in Real Estate .......................................................................... 349
Minor in Business .............................................................. 350
MBA in Business Administration ........................................ 350
PhD in Business Administration with Emphasis in Business .............................................................................. 352
Additional Minors and Certificates ..................................... 357
Certificate in Human Resource Management .................... 357
Certificate in Risk Management and Insurance ................ 357
Certificate in Sales and Customer Development ............... 357
Graduate Certificate in Accounting Information Systems .......................................................................................... 358
Graduate Certificate in Assurance ...................................... 358
Graduate Certificate in Marketing Analytics ..................... 358
Graduate Certificate in Taxation ......................................... 358
College of Education .............................................................. 360
Career and Technical Education ............................................. 364
EdD in Career and Technical Education ................................. 365
EdD in Career and Technical Education with Emphasis in Business and Marketing Education .............................................. 365
EdD in Career and Technical Education with Emphasis in Human Resources Education ........................................... 365
EdD in Career and Technical Education with Emphasis in Vocational Technical Education ........................................ 365
EdSp in Career and Technical Education ....................................... 365
EdSp in Career and Technical Education with Emphasis in Business and Marketing Education ............................. 365
EdSp in Career and Technical Education with Emphasis in Vocational Technical Education ........................................ 365
MEd in Career and Technical Education ................................. 365
MEd in Career and Technical Education with Emphasis in Business and Marketing Education .............................................. 366
MEd in Career and Technical Education with Emphasis in Vocational Technical Education ........................................ 366
PhD in Career and Technical Education ................................. 367
PhD in Career and Technical Education with Emphasis in Business and Marketing Education .............................................. 367
PhD in Career and Technical Education with Emphasis in Human Resources Education ........................................... 367
Information Science and Learning Technologies ........................................... 407

Elementary Education ........................................................................ 406

Educational Studies ........................................................................... 405

Elementary Education ......................................................................... 406

BSEd in Elementary Education .......................................................... 407

BSEd in Elementary Education with Emphasis in Elementary Education .... 407

Information Science and Learning Technologies ..................................... 407

MA in Information Science and Learning Technologies ............................. 408

MA in Information Science and Learning Technologies with Emphasis in Library Media Specialist, Certification .......... 408

MA in Information Science and Learning Technologies with Emphasis in Library Science .................................................. 408

MEd in Information Science and Learning Technologies .......................... 409

MEd in Information Science and Learning Technologies with Emphasis in Online Educator ................................................... 410

MEd in Information Science and Learning Technologies with Emphasis in Technology in Schools .............................................. 411

EdSp in Information Science and Learning Technologies ......................... 411

EdSp in Information Science and Learning Technologies with Emphasis in Online Educator ......................................................... 412

EdSp in Information Science and Learning Technologies with Emphasis in Technology in Schools .................................................. 413

PhD in Information Science and Learning Technologies ............................ 414

Learning, Teaching and Curriculum ...................................................... 416

EdD in Learning, Teaching and Curriculum ........................................... 416

EdD in Learning, Teaching and Curriculum with Emphasis in Elementary Education ................................................................. 417

EdD in Learning, Teaching and Curriculum with Emphasis in General Education ................................................................. 418

EdD in Learning, Teaching and Curriculum with Emphasis in Literacy Education ................................................................. 419

EdD in Learning, Teaching and Curriculum with Emphasis in Mathematics Education ................................................................. 420

EdD in Learning, Teaching and Curriculum with Emphasis in Music Education ................................................................. 421

EdD in Learning, Teaching and Curriculum with Emphasis in Science Education ................................................................. 421

MA in Learning, Teaching and Curriculum ........................................... 422

MA in Learning, Teaching and Curriculum with Emphasis in Art Education ................................................................. 422

MA in Learning, Teaching and Curriculum with Emphasis in General Education ................................................................. 422

MA in Learning, Teaching and Curriculum with Emphasis in Music Education ................................................................. 423

MEd in Learning, Teaching and Curriculum ........................................... 423

MEd in Learning, Teaching and Curriculum with Emphasis in Art Education, Certification ................................................................. 423

MEd in Learning, Teaching and Curriculum with Emphasis in Early Childhood Education ................................................................. 424

MEd in Learning, Teaching and Curriculum with Emphasis in Early Childhood Education, Certification ................................................................. 425

MEd in Learning, Teaching and Curriculum with Emphasis in Elementary Education ................................................................. 425

MEd in Learning, Teaching and Curriculum with Emphasis in Elementary Education, Teaching Fellow ................................................................. 426

MEd in Learning, Teaching and Curriculum with Emphasis in English Education ................................................................. 426

Degrees, Majors (Degree Programs), Emphasis Areas, Minors and Certificates

Superscripts on emphasis areas correspond to superscripts on that degree program’s majors where the emphasis is applicable. See tables following the degree listing for Keys to the College and Degree abbreviations.

Major and Career Exploration

The University of Missouri has many resources to assist you in exploring majors and career possibilities. For guidance, visit the Majors and Careers (https://career.missouri.edu/majors-careers) website or view specific resources below.

- If you are considering a change of major or are exploring multiple majors, schedule an appointment with an advisor in Academic Exploration and Advising Services (AEAS) (http://aeas.missouri.edu) by calling (573)884-9700.

- If you would like to learn more about your career interests, abilities, values and talents, visit the MU Career Center (http://career.missouri.edu) in the lower level of the Student Success Center. No appointment is necessary to explore career options with one of our staff members.

- If you would like information about MU majors and degree programs, visit:
  - the Degrees, Majors (Degree Programs), Emphasis Areas, Minors and Certificates (p. 17) page in the catalog,
  - the MU Majors (https://majors.missouri.edu) website.

- If you want information on what you can do with a major, contact or visit:
  - Faculty or staff in the home academic department for that major,
  - the What Can I do With This Major (http://career.missouri.edu/index.php/majors-careers/explore-majors) website,
  - the LinkedIn Field of Study Explorer (https://www.linkedin.com/edu/fos). (LinkedIn account required for login)

- If you are interested in information about occupations you're considering, visit O*Net (https://www.onetonline.org) or the Occupational Outlook Handbook (http://www.bls.gov/ooh).

- If you are curious about employment opportunities including internships and after-graduation employment, contact or visit the appropriate MU Career Services Office (http://hiremizzoutigers.com/career-offices).
University Level Academic Degree Requirements

Undergraduate
Undergraduate Requirements (University) (p. 32)
Common Credit Limitations (p. 32)
General Education Requirements (p. 33)

Degree Audits for Undergraduates
The degree audit is an automated report reflecting a student’s academic progress toward the completion of a degree. Degree Audits are not available for all programs; however, please consult with the appropriate college or school for audit information.

MU students who have attended since August 2007 can request a degree audit by logging in to myZou (http://myzou.missouri.edu) and navigating to Self Service, then Student Center, and clicking on “Request Degree Audit.” The audit automatically pulls in the student’s MU course work, transfer courses and courses in progress.

MU students who have NOT attended since August 2007 can request a degree audit by contacting the Academic Advising Unit of the division in which they were last enrolled at MU. For contact information, go to http://advising.missouri.edu/contact/.

For newly admitted or prospective students, MU degree audits can be created at http://www.transfer.org. Information on the college credits already earned will have to be manually entered before it can be evaluated against current degree requirements.

For additional details on degree audits, go to http://registrar.missouri.edu/degree-audits/index.php.

Graduate and Professional
Master’s Requirements (University) (p. 34)
Educational Specialist Requirements (University) (p. 38)
Doctoral Requirements (Graduate School) (p. 39)
Doctoral Requirements (Law School) (p. 45)
Details on the academic requirements for medical students can be found at http://medicine.missouri.edu/education/curriculum.html.
Details on the academic requirements for veterinary medical students can be found at http://vetmed.missouri.edu/current.htm.

Undergraduate Requirements (University)
Undergraduate students must complete all University requirements as well as all requirements specified for the degree(s) and major(s), and requirements of the college or school, and department offering the degree. This would include the University general education requirements as well as the following:

- A second MU Writing Intensive course must be completed in a student’s major. It needs to be a 3000/4000 level MU WI course approved as part of the curriculum by the faculty of a student’s major.
- Complete an approved capstone course with MU course work in the student’s major.
- Complete 30 of the last 36 credits with MU authored courses.
- Complete no fewer than 120 credit hours of coursework.
- Students may transfer more than 64 credit hours for lower division courses from either Missouri associate degree-granting or baccalaureate degree-granting institutions. Any additional lower division course credits above 64 credit hours will be accepted in transfer if the credits are applicable to the baccalaureate degree or are prerequisites for an upper division course in the major.
- Complete all University, general-education requirements (See the University General Education Requirements section in the catalog.)
- Earn no less than a 2.00 GPA, as defined by the GPA of Record
- Complete any additional divisional, degree or major requirements as specified by the academic unit offering the degree.
- Must be completed with a grade of C- or better.

Common Credit Limitations
The following credit limitations are applicable to all undergraduate students, regardless of degree program. Please check with advisor for more information.

Chemistry
- A student can earn a maximum of 10 hours of credit towards graduation from the following courses: CHEM 1000 Introductory Chemistry, CHEM 1100 Atoms and Molecules with Lab, CHEM 1320 College Chemistry I, CHEM 1330 College Chemistry II. CHEM 1310 (General Chemistry I) is also included in this maximum if you took the course prior to Fall 2013.

Economics
- Students may not receive credit towards graduation for more than one of the following courses: ECONOM 1014 Principles of Microeconomics, ECONOM 1024 Fundamentals of Microeconomics, ECONOM 1051, or AG_EC 1041 Applied Microeconomics.
- Students may not receive credit towards graduation for more than one of the following courses: ECONOM 1015 Principles of Microeconomics, ECONOM 1051H, or ECONOM 1000 General Economics, or AG_EC 1042 Applied Microeconomics.

History
- Students may not earn credit towards graduation for both HIST 1100 Survey of American History to 1865 and HIST 1400 American History.
- Students may not earn credit towards graduation for both HIST 1200 Survey of American History Since 1865 and HIST 1400 American History.

Mathematics
- Students can only have a total of 5 hours of credit towards graduation from the following courses: MATH 1320 Elements of Calculus, MATH 1400 Calculus for Social and Life Sciences I, MATH 1500 Analytic Geometry and Calculus I.
- Students can only have a total of 5 hours of credit towards graduation from the following courses: MATH 1100 College Algebra,
MATH 1120, MATH 1140 Trigonometry, MATH 1160 Precalculus Mathematics.

- No hours for MATH 1050 MATH 1050 Quantitative Reasoning will count for credit if a student has already earned credit for MATH 1300 Finite Mathematics, MATH 1400 MATH 1400 Calculus for Social and Life Sciences I, or MATH 1500 MATH 1500 Analytic Geometry and Calculus I.

Physics

- Students may not earn credit towards graduation for both PHYSCS 1210 College Physics I and PHYSCS 2750 University Physics I.
- Students may not earn credit towards graduation for both PHYSCS 1220 College Physics II and PHYSCS 2760 University Physics II.

Psychology

- Students may not receive credit towards graduation for more than one of the following courses: PSYCH 2410 Developmental Psychology, H_D_FS 3420 Early and Middle Childhood, or ESC_PS 2500 Child Development.

Statistics

- Students may not receive credit towards graduation for more than one of the following courses: STAT 1200 Introductory Statistical Reasoning, STAT 1300 Elementary Statistics, or STAT 1400 Elementary Statistics for Life Sciences.
- Students may not receive credit towards graduation for more than one of the following courses: STAT 2500 Introduction to Probability and Statistics I or STAT 2530 Statistical Methods in Natural Resources.
- Students may only receive a maximum of 4 hours of credit towards graduation from the following courses: STAT 1200 Introductory Statistical Reasoning, STAT 1300 Elementary Statistics, STAT 1400 Elementary Statistics for Life Sciences, STAT 2200 Introductory Statistical Methods, STAT 2500 Introduction to Probability and Statistics I, or STAT 2530 Statistical Methods in Natural Resources.
- A student may not receive credit toward an undergraduate degree for any statistics course numbered 2999 or below if a statistics course numbered 4000 or above was successfully completed prior to or concurrent with the course in question. Exceptions may be approved at the discretion of the department.

General Education Requirements

General education requirements are the foundation of knowledge upon which all University of Missouri degrees are built. They are specifically intended to prepare students as citizens who must make informed judgments about issues that go beyond the narrow area of their academic specialization. Students must complete the University General Education Requirements listed below. With careful planning, some courses may be chosen to meet both University General Education Requirements and one or more of the divisional, degree and major requirements. Students are strongly encouraged (and in some divisions they are required) to meet with an academic advisor to ensure adequate progress towards the selected degree and major. More information can be found at: http://generaleducation.missouri.edu/.

Common University General Education Requirements for all MU degrees

- College Algebra (MATH 1100) or transferable equivalent¹ (3 credits). Students may satisfy this requirement by:
  - Completing an appropriate math course (MATH 1100 or MATH 1160),
  - Completing a calculus course at MU (MATH 1400, MATH 1500, MATH 1700, or MATH 2300)¹, which provides back-credit for MATH 1100 (or MATH 1160),
  - Passing the Proctored ALEKS Exam with a sufficient score, thereby demonstrating proficiency in College Algebra, or
  - Possessing the minimum ACT or SAT Math subscores, thereby providing an exemption (See mathplacement.missouri.edu for further details)

- English Exposition and Argumentation (ENGLSH 1000 or ENGLSH 1000H) or transferable equivalent¹ (3 credits)
  - This course in expository prose, which stresses writing as a process involving critical reading and thinking skills, should be taken during your freshman year.

- Writing Intensive course² (6 credits, 2 courses)
- American History or Government² (3 credits)
- Math Reasoning Proficiency Course² (these courses must state that College Algebra is a prerequisite)
- Complete an approved capstone course¹ with MU course work in the student’s major
- Distribution Requirement (27 credits) providing a breadth and depth of knowledge in three broad areas of study. The course work must include at least one course numbered 2000 or higher in two of the areas of distribution as described below.
  - Must include 9 credits in these sciences: biological science, physical science, and / or mathematical science⁶
  - including at least one biological or physical science and its related laboratory component⁶
  - representing two different areas of science
  - Must include 9 credits of behavioral and/or social science
  - Courses must be from at least two different departments in these areas
  - Must include 9 credits of humanities and/or fine arts
  - including courses from at least two different departments in these areas
  - Of special note related to the humanities and or fine arts distribution:
    - Only one course of specified of Humanities and Fine Arts courses can be counted.
    - For specified courses, the category will be designated per section per semester.
    - Students in CAFNR, Engineering, SHP, HES, SNR, and Nursing may use this course towards fulfillment of the humanities distribution requirement, but only if the entire 12-13 hour elementary language sequence is completed. This course may NOT be used to fulfill the humanities requirement in A&S, Business, Education, Journalism and Social Work.
    - For the full list of courses that fulfill this distribution and the noted exceptions, go to: http://generaleducation.missouri.edu/courses/

¹ For the full list of courses that fulfill this distribution and the noted exceptions, go to: http://generaleducation.missouri.edu/courses/

² Articulated as required by the Commonwealth of Pennsylvania

³ Articulated as required by the states of Ohio and Indiana

⁴ Articulated as required by the state of Illinois

⁵ Articulated as required by the state of Wisconsin

⁶ Articulated as required by the state of Michigan
Master’s Residency Requirements

The faculty of each graduate program determines its own residency requirements for master’s degrees, subject to initial review by the Graduate Faculty Senate. Consult with the academic program for requirements. For academic programs that choose to maintain the traditional regulation concerning residency for master’s students, the following applies: the student must complete a minimum of 24 semester hours of MU graduate courses which are taught by MU faculty and which are approved by the academic program and the Graduate School. Students who cannot fulfill residency requirements are encouraged to consider Mizzou Online for available degrees.

Graduation and Commencement Deadlines and Forms

It is recommended that students refer often to the Graduation & Commencement Deadlines for Master’s Students (http://gradstudies.missouri.edu/academics/graduation-commencement/timeline-deadlines/master-timeline.php) to avoid missing any important graduation or commencement deadlines. In addition to various deadlines, student must also submit a variety of necessary paperwork. By the end of the first year of master’s work at MU, a student must begin submitting degree program forms, which will aid the department and the Office of Graduate Studies in planning an academically appropriate course of study and in tracking the student’s progress toward degree completion. These forms include the following:

Program of Study. Outlines the course work to be included in the student’s degree program. Due in the Office of Graduate Studies by the end of the second semester unless the degree can be completed in two semesters. In that case, the form is due by the end of the first semester. Plan of Study (M1) form (pdf) (http://gradschool.missouri.edu/forms-downloads/repository/m1.pdf) Request for Thesis Committee (thesis option only). Is a membership proposal for the student’s thesis committee. Due in the Graduate School by the end of the second term. Request for Thesis Committee (M2) form (pdf) (http://gradschool.missouri.edu/forms-downloads/repository/m2.pdf)

Report of Master’s Examining Committee. Reports the results of the thesis defense, master’s comprehensive exam, project presentation, portfolio review, etc. Due in the Graduate Studies two weeks prior to graduation. Report of Master’s Examining Committee (M3) form (pdf) (http://gradschool.missouri.edu/forms-downloads/repository/m3.pdf).

Choosing an Advisor

Graduate Committee Membership for Jointly Appointed Faculty Chapter 320 of the Collected Rules and Regulations for the University of Missouri requires that all jointly appointed faculty members will have designated Primary Appointment and Primary Departments well as affiliation with one or more involved academic programs. These affiliations affect membership status of jointly appointed faculty on graduate student committees as follows:

• Faculty members may serve as advisor/committee chair when their Primary Appointment is in the graduate student’s home academic program.
• When the graduate student’s home academic program is the involved academic program for a jointly appointed faculty member, this
• person may serve as chair/advisor with the approval of the director of graduate studies from the student’s home academic department.
A faculty member can serve as an Internal Member only when their Primary Appointment is in the graduate student's home academic program.

When a graduate student's home academic program is the involved academic program for a jointly appointed faculty member, he or she may serve as either an Internal or External Member of the committee.

**Graduate Committee Membership for Adjunct Faculty**

Adjunct Faculty may serve as a Committee Chair or Committee Member only in academic programs in which they are appointed and approved for Graduate or Doctoral Faculty membership as appropriate for the student's degree (Master's or Doctoral). Service on graduate committees outside the academic program in which they are appointed requires a recommendation by the director of graduate studies from the student's home academic program and approval by the vice provost for advanced studies and dean of the Graduate Studies.

**Master's Plan of Study**

The Graduate Faculty Senate has established a campus wide minimum of 30 hours of graduate credit beyond the bachelor's degree (or its equivalent) for a master's degree. Fifteen of the 30-hour minimum must be selected from courses numbered at 8000 or 9000 level. No more than 40 percent of the 30-hour credit requirement can be satisfied by a combination of special investigations, Research, Readings and / or Problems courses. Master's Plan of study.

(http://gradschool.missouri.edu/academics/process/plan-of-study/masters.php)

**Completing a Plan of Study Form**

After performing satisfactorily for a minimum of one semester, the student, with the advisor's assistance, completes the Plan of Study form (pdf) that outlines the plan of study for the student's graduate program. The form is forwarded through the academic program's director of graduate studies to the Office of Graduate Studies for approval. The Plan of Study form must be filed with the Graduate Studies by the end of the student's second semester of enrollment or at least one semester prior to graduation. Upon approval of the program by the Office of Graduate Studies, the student is a candidate for the degree. If a change is necessary to a student's approved Plan of Study form, a Plan of Study Substitution form (pdf) must be used.

**Note:** An academic program may have additional credit hour (or other) requirements. Check with the program of interest to confirm degree requirements.

**Transfer Credit Toward a Master's Degree**

A maximum of 20 percent of the number of credit hours required for a student's degree may be graduate credits transferred from another university, including another campus of the University of Missouri system upon the recommendation of the advisor, the approval of the academic program director of graduate studies and the Office of Graduate Studies.

**Note:** the above represents a change in policy and becomes effective for graduate students beginning their master's programs during the fall semester 2001. Students who began their master's programs prior to the fall semester 2001 have the option of using the above regulation or the regulation in place at the time they began their degree program. The MU Office of Graduate Studies will review the transfer request to determine if the credit meets the minimum guidelines.

If so then the Office of Graduate Studies will process the request so that each transfer course will appear on the student's transcript.

**How to Request Transfer of Credit**

1. The request or transfer credit must first be approved by the student's advisor and the department's director of graduate studies.
2. Once approved the student submits his/her Plan of Study or Course Substitution form to add the transfer work to the Plan of Study along with an unopened, official transfer transcript if one is not currently on file with the Graduate School.
3. Once the Graduate School has received the request it will be reviewed to determine if minimum requirements have been met.
4. If approved then the Graduate School will process the request so that the transfer credit appears on the MU student record.

**Minimum Transfer Requirements**

Transfer course work:

- must be less than eight years old by the time the master's degree is conferred;
- was taken for graduate credit and clearly marked as such on the transfer transcript, complete with credit hours and a grade;
- is limited to no more than 20 percent of the total course work on the student's Plan of Study form;
- is from a regionally accredited institution in the U.S. or an overseas institution that is recognized by its country's Ministry of Education as a graduate degree granting institution; and
- is not extension or correspondence credit (see policy on correspondence credit above)

**Credit Toward a Second Master's Degree**

A student who has completed one master's degree at the University of Missouri or elsewhere may, upon recommendation of the advisor and approval by the academic program's director of graduate studies and the Office of Graduate Studies, present a maximum of eight hours of credit earned in the previous program toward a second master's degree.

**Forming a Master's Thesis Committee**

When a thesis is required for completion of a master's degree, the student is required to submit a Request for Thesis Committee (M2 form) for approval by the academic program's director of graduate studies and the Office of Graduate Studies. A thesis committee is composed of three members of the MU faculty: a major advisor from the academic program, a second reader from the academic program and an outside reader who is a member of the graduate faculty from a different MU graduate program.

After the Request for Thesis Committee form has been filed, any changes must be submitted through the Change of Committee form (http://gradschool.missouri.edu/forms-downloads/repository/ccform.pdf).

**Approval of a Non-MU Faculty Member**

Upon approval of the academic program's director of graduate studies, the student may petition the Office of Graduate Studies to allow a
person who is not a member of the MU graduate faculty to serve as the third reader. The petition should include a written justification for such a request and a copy of the person's curriculum vitae. The Office of Graduate Studies maintains copies of curricula vitae previously received and approved, and if such a request is anticipated, the student should contact the Office of Graduate Studies to see if the curriculum vitae of a particular person is already on file.

**The Thesis Process**

If a thesis is required, it must be the student's own work and must demonstrate a capacity for research and independent thought. A student writing a thesis should refer to the Graduate Studies Guidelines for Preparing Theses and Dissertations (http://gradschool.missouri.edu/forms-downloads/repository/etd-guidelines.pdf). Academic programs may have additional requirements. The Office of Graduate Studies sets deadlines for master's students (http://gradschool.missouri.edu/academics/graduation-commencement/timeline-deadlines/master-timeline.pdf) for completion and submission of the thesis.

**Thesis Acceptance**

A thesis must be approved by the major advisor, a second reader from the academic program and an outside reader who is a member of the graduate faculty from a different MU graduate program. Students need to supply committee members with copies for review/evaluation. After successfully defending the thesis, the student will make any needed adjustments in format and corrections, based on input from the committee. The thesis is then submitted as PDF file on a CD ROM or electronically to the Office of Graduate Studies by the established master's deadline.

A searchable thesis and dissertation archive is maintained by the MU Libraries.

**Grades at the Graduate Level-Graduation Requirement**

To become eligible for a master's degree, a student must have completed all MU graduate work attempted with a GPA of 3.0 (A=4.0) or higher. Review grading policies (p. 773) for more information.

**Examination Process**

**Thesis Option**

Where a thesis is presented in partial fulfillment of graduation requirements, students must form a thesis committee. In the final semester, the student must successfully present (defend) the thesis. Three members of the student's committee must sign the Report of the Master's Degree Examining Committee (pdf) (http://gradschool.missouri.edu/forms-downloads/repository/m3.pdf), which is then forwarded through the academic program's director of graduate studies to the Graduate School by the semester deadline.

**Non-Thesis Option**

Where no thesis is presented by the candidate, a final examination committee, composed of three members from the academic program, is designated by the academic program's director of graduate studies with the approval of the office of Graduate Studies. During the final semester, the Report of the Master's Examining Committee (pdf), signed by the director of graduate studies, is forwarded to the Office of Graduate Studies by the semester deadline. All candidates for the MA or MS degrees must complete either a thesis or a substantial independent project that cannot be coauthored.

**Enrollment at the Master's Level**

For general master's enrollment requirements go to the Office of Graduate Studies web page on master's enrollment requirements (http://gradschool.missouri.edu/academics/progress/graduate-stud-progress/master-stud-progress.php).

**Enrollment**

The master's candidate must be enrolled at the University during the semester or session in which a thesis is defended, a master's project is presented, or the completion of a master's comprehensive exam is certified.

**Scheduling Exams, etc.**

Comprehensive exams, thesis defenses, portfolio presentations and the like may be offered during the regular semester session. Dates that are excluded from graduation examinations include breaks between regular semester sessions, national holidays where the University is not in operation and weekends.

**Enrollment for Graduate Examination**

Master's and educational specialist degree candidates who have completed all requirements except the final examination or the defense of the thesis/project must be enrolled when the final examination is given or the thesis/project is defended. Students who do not wish to enroll in course work during this time can enroll in “Graduate Examination” hours only.

**Note:** Registration in the “Graduate Examination” does not count toward enrollment certification. Students enrolled in the “Graduate Examination” would not be considered full-time or part-time.

Graduate students must be enrolled in at least nine credit hours to be considered full-time students and at least four credit hours to be considered half-time students during fall and spring terms. For summer terms, graduate students must be enrolled in four hours to be considered full-time and two hours to be considered half-time students.

Students with financial aid or a visa should discuss plans with the Student Financial Aid (http://financialaid.missouri.edu) office before registering for Graduate Examination hours. International students with a visa should discuss plans with MU's International Center (http://international.missouri.edu) before registering for the Graduate Examination. Failure to do so could cause serious consequences for a student's financial aid or visa status.

**How Enrollment Status Affects Access to Campus Resources**

Students who enroll in the Graduate Examination will not have a valid student ID and thus will not have regular access to the Student Health Center, MU Libraries, the Student Recreation Center or campus computing centers. If a student needs to use any of these services, registration in a one-, two-, or three-hour course (including graduate research courses) is required. Extra fees apply for access too.
Time Limit for Master’s Degree Completion

The program for the master’s degree must be completed within a period of eight years beginning with the first semester of enrollment in which the student is accepted to a degree program or from the date of the oldest coursework used on the plan of study. Individual academic programs may stipulate a shorter time period. Time spent in the armed services will not count toward the eight-year limit (see also Active Duty Policy). For any extension of this time limitation, the student must petition the Office of Graduate Studies by submitting a request to the advisor who, in turn, submits a written recommendation to the Office of Graduate Studies that is endorsed by the academic program’s director of graduate studies. The Office of Graduate Studies will notify the advisor in writing of the final decision.

For academic advice or assistance with degree program planning, students should contact their advisors. See master’s graduation requirements. (http://gradschool.missouri.edu/academics/graduation-requirements/masters-grad-requirements.php)

Reasonable Rate of Progress for Master’s Students

Reasonable rate of progress is governed by both the campus-wide policies of the Office of Graduate Studies as well as academic program regulations which may be more restrictive. Failure to satisfy the Office of Graduate Studies rate of progress policies leading to dismissal is handled by the Request for Extension (http://gradschool.missouri.edu/academics/progress/requests-for-extensions-appeals.php) process.

Deadline for Submission of Thesis After Successful Defense

After successful defense of the thesis or dissertation, students must comply with their academic program’s and/or the International Center’s enrollment requirements. Students are required to submit their final dissertation or thesis by the end of the following semester after a successful defense unless a letter asking for an extension is submitted to the Graduate Dean by the student’s advisor and program’s DGS.

Extension Requests for Master’s Students

Extenuating circumstances that inhibit a student’s rate of progress are handled through the Request for Extension (http://gradschool.missouri.edu/academics/progress/requests-for-extensions-appeals.php) process.

Dismissal

Dismissals arising from violation of academic program policies may be appealed using the Appeals Process. For additional details, graduate students should refer to the Dismissal Policy (http://gradschool.missouri.edu/academics/progress/probation-termination.php) and the Extension Requests and Appeals Process (http://gradschool.missouri.edu/academics/progress/requests-for-extensions-appeals.php).

Dual Degrees: Master’s Students

As the US workforce becomes increasingly interdisciplinary, some master’s students elect to concurrently pursue two advanced study degrees. All dual-degree programs at the graduate level require Graduate Faculty Senate approval. Please refer to the A-Z list of graduate degree programs (http://gradschool.missouri.edu/academics/programs/a-z) to learn what is currently available.

The two types of dual master’s degrees are the dual master’s degree and the dual master’s-professional degree.

<table>
<thead>
<tr>
<th>Degree Type</th>
<th>Dual Master’s Degree</th>
<th>Dual Master’s-Professional Degree</th>
</tr>
</thead>
<tbody>
<tr>
<td>Description</td>
<td>This is a cooperative degree, arranged between two graduate degree granting programs and approved by the Graduate Faculty Senate.</td>
<td>This is a cooperative degree arranged between a graduate degree granting program and a professional degree granting program (e.g., law or medicine) and approved by the Graduate Faculty Senate.</td>
</tr>
<tr>
<td>Application Processes</td>
<td>Students must simultaneously submit a separate application to both degree programs to be considered for admittance. Because some students may not be aware of an approved dual-degree program before their arrival at MU, the option to participate in an approved dual-degree program may be postponed until no later than the end of a student’s second semester at MU.</td>
<td>The Office of Graduate Studies oversees the master’s degree portion of the dual master’s/professional degree. Students must apply to both the Office of Graduate Studies and the professional program, notifying both of their interest in the dual program. Start your online application process to the Graduate School at <a href="http://gradschool.missouri.edu/admissions/index.php">http://gradschool.missouri.edu/admissions/index.php</a>.</td>
</tr>
<tr>
<td>Forms and Policies</td>
<td>Students must fill out an Application for Dual Enrollment (pdf) no later than the end of a student’s second semester at MU.</td>
<td>For Graduate Studies policies and forms pertaining to the master’s portion of the dual master’s/professional degree, refer to the Master’s Degrees Requirements and Policies on the website.</td>
</tr>
</tbody>
</table>

Note on Dual Degrees for Law Students

Dual-degree programs with the Law School enable students to earn the Juris Doctor (JD) concurrently with a Master’s or PhD degree. Dual-degree students must fulfill entrance requirements for both schools, including the graduate school’s entrance exam (if required) and the LSAT. Contact the Law School (p. 736) for more information on their dual-degree programs.
Note on Dual Degrees for Medical Students

Additional information concerning medical dual degrees for both master's and doctoral students can be found on the doctoral dual degree (http://gradschool.missouri.edu/academics/graduation-requirements/dual-degree-requirements.php) page.

Counting Credits

A student must complete a minimum of 18 hours of graduate courses for each degree program respectively. A minimum of 3 hours must be 8000-level courses. Additionally, the student must complete 12 hours of shared 8000-level graduate credit, which can include thesis/project research credit, as applicable.

Thus, 18 + 18 + 12 = 48 hours of graduate credit which is the minimum total hours for a dual master’s degree program.

For example, for a dual master’s degree program in Applied Mathematics and Electrical Engineering, a student’s plan of study must show 18 hours of Applied Mathematics graduate course work that applies only to the Applied Mathematics degree and 18 hours of Electrical Engineering graduate course work that applies only to the Electrical Engineering degree. The additional 12 hours of shared 8000-level graduate credit brings the total earned graduate credit hours to 48.

Transfer Credit

Up to eight hours of transfer credit may be applied as follows: to one of the two degree programs, or divided between the two degree programs. The eight hours of transfer credit cannot be applied to each degree program separately.

Advising & Committees

There will be a separate advisor and committee for each degree program.

Dean’s Note: the option of a combined committee structure may be included in proposals for Graduate Faculty Senate consideration, e.g., co-advisors who would also serve as outside members, plus one additional member from each degree program, for a total of four committee members.

Dual Degree Progress Forms

Special dual master’s degree program forms will be used to certify plans of study, committee members and final defense/examinations. The forms are available from the Master’s Requirements Time Line (http://gradschool.missouri.edu/academics/graduation-commencement/timeline-deadlines/master-timeline.php).

Conferral of Dual Degrees

The Office of Graduate Studies will confer two separate diplomas upon completion of all degree program requirements.

Educational Specialist Requirements

This degree, offered through the College of Education, is a 30-hour program of specialization built upon the education specialist degree, of which 24 hours must be taken with MU faculty. Six semester hours must be completed within one semester or summer session to provide an in-residence experience. Students have eight years to complete the degree from the time they are first admitted to the degree program. A student is required to take a final examination, and the report of the results must be approved by a majority of the candidate’s advisory committee members and submitted to the Graduate School. For additional information on the Educational Specialist degree (http://gradschool.missouri.edu/academics/graduation-requirements/educ-spec-requirements.php), consult the College of Education’s site (http://education.missouri.edu).

Required Educational Specialist Forms

The Graduate School obtains students’ official academic records as soon as they complete their first terms of enrollment. Each of the following forms is completed at the departmental/program level, routed for required signatures and forwarded to the Graduate School in 210 Jesse Hall.

Forms are reviewed by staff in the Office of Graduate Studies, given the Associate Vice Chancellor for Graduate Studies’ signature if approved, and an electronic copy is made available to the academic program office. If changes/corrections are needed, or if any signatures are missing, the forms will be returned to the department for corrective measures. If any faculty signatures are illegible, we ask that departments print a correct spelling below any such signatures.

Request for the Educational Specialist Advisory Committee (http://gradschool.missouri.edu/forms-downloads/repository/s1.pdf) (S-1 form, PDF)

The S-1 form serves as official documentation of who serves on a student’s advisory committee. It should be submitted to the Office of Graduate Studies by the end of a student’s second semester or at least one semester prior to degree completion.

Plan of Study for the Educational Specialist Degree (http://gradschool.missouri.edu/forms-downloads/repository/s2.pdf) (S-2 form, PDF)

The S-2 form provides the student, academic program/department and the Office of Graduate Studies with a plan for all the course work that will comprise a plan of study. It serves as a general plan to follow. Changes on the plan of study can be made easily by submitting a Course Substitution form (http://gradschool.missouri.edu/forms-downloads/repository/subform.pdf). The S-2 form should be submitted to the Graduate School preferably by the end of a student’s second semester or at least one semester prior to degree completion.

Report of the Educational Specialist Examining Committee (http://gradschool.missouri.edu/forms-downloads/repository/s3.pdf) (S-3 form, PDF)

This form is submitted by the academic program/department and reports the final results of a student’s comprehensive examination. Students are encouraged to consult with their departments to make sure the departments submit the S-3 form shortly after the exam has been graded.

Transfer Credit Toward the Educational Specialist Degree

A maximum of 20 percent of the number of credit hours required for a student’s degree may be graduate credits transferred from another university, including another campus of the University of Missouri system upon the recommendation of the advisor, the approval of the academic program director of graduate studies and the Office of Graduate Studies.

Note: The above represents a change in policy and becomes effective for graduate students beginning their education specialist programs during the fall semester 2001. Students who began their education specialist programs prior to the fall semester 2001 have the option of using the above regulation or the regulation in place at the time they began their degree program. The MU Office of Graduate Studies will review the
transfer request to determine if the credit meets the minimum guidelines. If so then the Graduate School will process the request so that each transfer course will appear on the student’s transcript.

**How to Request Transfer of Credit**

1. The request or transfer credit must first be approved by the student’s advisor and the department’s director of graduate studies.
2. Once approved the student submits his/her Plan of Study or Course Substitution form to add the transfer work to the Plan of Study along with an unopened, official transfer transcript if one is not currently on file with the Office of Graduate Studies.
3. Once the Office of Graduate Studies has received the request it will be reviewed to determine if minimum requirements have been met.
4. If approved then the Office of Graduate Studies will process the request so that the transfer credit appears on the MU student record.

**Minimum Transfer Requirements**

Transfer course work:

- must be less than eight years old by the time the education specialist degree is conferred;
- was taken for graduate credit and clearly marked as such on the transfer transcript, complete with credit hours and a grade;
- is limited to no more than 20 percent of the total course work on the student’s Plan of Study form;
- is from a regionally accredited institution in the U.S. or an overseas institution that is recognized by its country’s Ministry of Education as a graduate degree granting institution.

**Special Types of Credit for the Educational Specialist Degree**

A maximum of six semester hours completed with a grade of B or better may be accepted in transfer from institutions accredited to offer doctoral degrees. Off-campus courses authorized for graduate credit and offered by MU faculty members and courses offered through MizzouOnline taught by MU faculty may be included in the program.

**Grades at the Graduate level-Graduation requirement**

To become eligible for a education specialist degree, a student must have completed all MU graduate work attempted with a GPA of 3.0 (A=4.0) or higher. Review grading policies (p. 773) for more information.

**Enrollment**

The educational specialist candidate must be enrolled at the University during the regular semester session in which comprehensive exams are taken, portfolio or project is presented, etc.

**Time Limit for Education Specialist Degree Completion**

The program for the education specialist degree must be completed within a period of eight years beginning with the first semester of enrollment in which the student is accepted to a degree program or from the date of the oldest coursework used on the plan of study. Individual academic programs may stipulate a shorter time period.

Time spent in the armed services will not count toward the eight-year limit (see Active Duty Policy (http://veterans.missouri.edu/forms/active-duty-duty.php)). For any extension of this time limitation, the student must petition the Office of Graduate Studies by submitting a request to the adviser who, in turn, submits a written recommendation to the Graduate School that is endorsed by the academic program’s director of graduate studies. The Office of Graduate Studies’ staff will notify the advisor in writing of the final decision.

For academic advice or assistance with degree program planning, students should contact their advisors.

**Reasonable Rate of Progress for Education Specialist Students**

Reasonable rate of progress is governed by both the campus wide policies of the Graduate School as well as academic program regulations which may be more restrictive. Failure to satisfy the Graduate School’s rate of progress policies leading to dismissal are handled by the Request for Extension process, and the decision of the Associate Vice Chancellor for Graduate Studies in these matters is binding.

**Extension Requests for Education Specialist Students**

Extenuating circumstances that inhibit a student’s rate of progress are handled through the Request for Extension (http://gradschool.missouri.edu/academics/progress/requests-for-extensions-appeals.php) process. The decision regarding an extension is made by the vice provost for advanced studies and dean of the Graduate School, and is binding.

**Dismissal**

Dismissals arising from violation of academic program policies may be appealed using the Appeals Process. For additional details, graduate students should refer to the Dismissal Policy (http://gradschool.missouri.edu/academics/progress/probation-termination.php) and the Extension Requests and Appeals Process (http://gradschool.missouri.edu/academics/progress/requests-for-extensions-appeals.php) pages on the Office of Graduate Studies website.

**Doctoral Requirements (Graduate Studies)**

The University of Missouri grants four types of doctoral degrees: the doctor of philosophy (PhD), the doctor of education (EdD), the doctor of physical therapy (DPT), and the doctor of nursing practice (DNP). Consult with individual departments to learn about the availability of degrees. To obtain a doctoral degree, a student must follow the general regulations of the Graduate Faculty Senate well as special requirements of the degree program. It is the student’s responsibility to adhere to all regulations and satisfy the graduation requirements of the Office of Graduate Studies and the degree program. An individual who has held, at any time, a regular tenure-track appointment in an MU academic program is not eligible for a doctoral degree from that department or the area program in which that department participates.
Doctoral Qualifying Examination or Process

Prior to official admission into a doctoral program, the student must pass a qualifying examination or process. A department or area program may limit the number of times this examination or process may be attempted. After the qualifying process is complete and the doctoral committee has been confirmed, the Qualifying Examination Results and Doctoral Committee Approval (D1) (http://gradstudies.missouri.edu/forms-downloads/repository/d1.pdf) form should be submitted to the Office of Graduate Studies, no later than the end of the second semester of enrollment.

Selecting a Doctoral Advisor

The student selects an advisor or co-advisors, by mutual consent, from doctoral faculty members who are dissertation supervisors in the department or area program in which the major work is planned. In the event that an advisor retires or leaves MU, he/she may continue to serve as a student’s advisor unless there is written academic program policy prohibiting such an arrangement. If an advisor is unable or unwilling to continue to serve, the academic program, with the leadership of the director of graduate studies, will assist to ensure that a replacement is found.

Forming a Doctoral Program Committee

The doctoral program committee must be recommended by the student’s advisor and approved by the academic program’s director of graduate studies and the Office of Graduate Studies before one year has elapsed following the student’s first registration as a doctoral student. The Qualifying Examination Results and Doctoral Committee Approval (D1) (http://gradstudies.missouri.edu/forms-downloads/repository/d1.pdf) form is due to the Graduate School office by the end of the student’s second semester.

Committee Changes

Changes to the committee must be submitted on the Change of Committee form.

Duties

All members of the doctoral program committee will be intimately involved and will actively participate in the activities of the doctoral student at all the stages of the student’s career at MU, except in some cases in the qualifying examination/process. The committee also may participate in the assessment of a student’s background and potential for success in the academic program’s doctoral program. Committee members may call a meeting of the full committee at any time to discuss the student’s progress.

Membership Requirements for Doctoral Committees

The doctoral program committee shall be composed of a minimum of four members of the MU graduate faculty and will include at least three members from the student’s doctoral degree program and an outside member from a different MU program. At least two of the doctoral committee members must be MU doctoral faculty. (Note: This policy is effective for students who begin their doctoral programs during the Fall 2005 Term. For students who began their doctoral programs before the fall 2005 semester, consult the appropriate catalog or the Office of Graduate Studies.)

Additional committee members with specialized expertise who do not meet the criteria for the MU graduate faculty or doctoral faculty may serve on a doctoral committees as a fifth or sixth member, with special permission of the Associate Vice Chancellor for Graduate Studies.

Graduate Committee Membership for Jointly Appointed Faculty

Chapter 320 of the Collected Rules and Regulations (http://www.umsystem.edu/ums/rules/collected_rules/personnel/ch320) for the University of Missouri requires that all jointly appointed faculty members will have a designated Primary Appointment and Primary Department as well as affiliation with one or more involved departments or units. These affiliations affect membership status of jointly appointed faculty on graduate student committees as follows:

Committee Chair/Advisor

A faculty member may serve as advisor/committee chair when his or her primary appointment is in the graduate student’s home academic program. When the graduate student’s home academic program is the involved academic program for a jointly appointed faculty member, the person may serve as chair/advisor with the approval of the director of graduate studies from the student’s home academic program.

Doctoral Committee Member

A faculty member can serve only as an Internal Member when his or her Primary Appointment is in the graduate student’s home academic program. When a graduate student’s home academic program is the involved academic program for a jointly appointed faculty member, he or she may serve as either an Internal or External Member of the committee.

Graduate Committee Membership for Adjunct Faculty

Adjunct faculty may serve as a committee chair or committee member only in academic programs in which they are appointed and approved for graduate or doctoral faculty membership as appropriate for the student’s degree (master’s or doctoral). Service on graduate committees outside the academic program in which an adjunct member is appointed requires a recommendation by the director of graduate studies from the student’s home academic program and approval by the Associate Vice Chancellor for Graduate Studies.

Doctoral Plan of Study & Degree Requirements

The doctoral program committee provides academic program approval of the student’s Plan of Study which will prepare the student for research or scholarly investigation in the chosen field of study. The plan of study includes a list of the courses and the credit to be earned. By successfully completing the plan by deadlines, a doctoral student will:

- Prepare the student for research or scholarly investigation in the chosen field of study.
- Satisfy the credit-hour and residency requirement of the academic program.
- Satisfy any special requirements (proficiency in foreign languages, collateral field, doctoral minor, other special research skills) imposed by the department or area program.
• Satisfy the requirement for a minimum of 15 hours of MU coursework at the 8000/9000 level (exclusive of research, readings, and problems).

The committee also recommends to the Associate Vice Chancellor for Graduate Studies, as part of the Plan of Study, any request for transfer of graduate credit. Changes to the plan of study should be submitted on the Plan of Study Course Substitution form (http://gradstudies.missouri.edu/forms-downloads/repository/subform.pdf).

**Doctoral Credit-Hour Requirement**

MU requires a minimum of 72 semester hours beyond the baccalaureate degree for the PhD and EdD degrees. The student’s doctoral program committee must approve all course work used to satisfy the credit-hour requirement and may require additional course work beyond these minimums.

**Transfer Credit**

The doctoral committee may recommend up to 30 hours of post-baccalaureate graduate credit from a regionally accredited university be transferred toward the total hours required for the doctoral degree. It is the responsibility of the doctoral committee to determine the appropriateness of course work for transfer credit. All requests for exceptions to this policy must be approved by the Associate Vice Chancellor for Graduate Studies.

Note: This policy applies to students who begin their enrollment during the Fall Term 2006 and subsequent semesters. For students who began their doctoral programs prior to the fall 2006 semester, consult the appropriate catalog or the Office of Graduate Studies for policies pertaining to transfer of credit.

**Extension & Correspondence Credit in Doctoral Programs**

The doctoral committee may recommend that courses taken through MU’s Extension division be counted toward the credit-hour requirement. Extension or correspondence course work from institutions other than MU may not be used to meet the total hours required for the doctoral degree.

**Time Limits on Transfer Credits**

All courses to be applied to the plan of study must be completed within eight years of filing the plan.

**Grades at the Graduate Level**

To become eligible for a degree, a doctoral student must have completed all MU graduate work attempted with a GPA of 3.0 (A=4.0) or higher. Review grading policies (p. 773) for more information.

**Foreign Language Proficiency**

In general, an English-speaking student may establish foreign language proficiency, if it is required, by demonstrating an ability to translate into English two foreign languages; or by demonstrating a high order of fluency in one language; that is the ability to read, write and converse in that language and to translate that language into English and English into that language.

**Plan of Study Completion Before Doctoral Comprehensive Exam**

The student must substantially complete the course work outlined in the Plan of Study to the satisfaction of the doctoral program committee and the Office of Graduate Studies before being declared ready for the comprehensive examination (http://gradstudies.missouri.edu/academics/process/doctoral-process/comprehensive-exam.php).

**Doctoral Comprehensive Examination**

The student must be enrolled to take the doctoral comprehensive examination (http://gradstudies.missouri.edu/academics/process/doctoral-process/comprehensive-exam.php). It is to be administered only when MU is officially in session. The comprehensive examination is the most advanced posed by MU. It consists of written and oral sections. It must be completed at least seven months before the final defense of the dissertation. The two sections of the examination must be completed within one month.

**Written Section**

The written section or sections of the examination may be conducted in one or both of the following two ways:

1. The written sections may be arranged and supervised by the major advisor, in which case questions are prepared and graded by the doctoral program committee.
2. The major advisor may delegate responsibility for arranging, preparing, supervising and grading the written sections of the examination to one or more departmental/program committees appointed for this purpose.

**Successful Completion**

For the comprehensive examination to be successfully completed, the doctoral program committee must vote to pass the student on the entire examination, both written and oral sections, with no more than one dissenting or abstaining vote. A report of examination results, carrying the signatures of all members of the committee, must be sent to the Office of Graduate Studies and the student no later than two weeks after the comprehensive examination is completed.

**Exam Failure**

A failure of either the written or oral section of the exam constitutes failure of the comprehensive exam. If a failure is reported, the committee also must include in the report an outline of the general weaknesses or deficiencies of the student’s work. The student and the committee members are encouraged to work together to identify steps the student might take to become fully prepared for the next examination.

**Request for Clarification**

If the student believes that the advice given by the committee is inadequate, the student may send a written request for clarification to the committee. A copy of this request should be sent to the Office of Graduate Studies as well. The committee must respond to this request in writing within two weeks and a copy must be filed with the Office of Graduate Studies.
Retaking the Comprehensive Examination

The student who fails may not take a second comprehensive examination for at least 12 weeks. Failure to pass two comprehensive examinations automatically prevents candidacy.

Doctoral Candidacy & Continuous Enrollment

Candidacy for a doctoral degree is established by passing the comprehensive examination. Status as a continuous enrollment doctoral student begins the term after the term in which the comprehensive exam was successfully completed. Students must maintain continuous enrollment during their candidacy (the period after successful completion of the comprehensive examination).

Procedure for Continuous Enrollment

Candidacy is maintained by enrolling in 9090 Research (or 9990 Research for some Engineering students) for two semester hours each fall and spring semester and for one semester hour each summer session, or an equivalent number of hours through enrollment in other coursework, up to and including the term in which the dissertation is defended. Continuous enrollment provides access to an advisor’s support, doctoral program committee guidance and university research facilities for completion of the dissertation. Failure to enroll continuously in the appropriate number of hours until the doctoral degree is awarded terminates candidacy.

Reestablishing Candidacy After Time Off

Candidacy may be reestablished by paying the registration and late fees owed and completing the requirements specified by the student’s doctoral program committee. Registration fees owed may not exceed the amount owed for seven terms, regardless of the number of terms beyond seven for which the student failed to continuously enroll. The committee’s requirements may include a second comprehensive examination or evidence of currency in the research field as suggested by publications in refereed journals. Candidacy is reestablished when the student’s advisor and the departmental, area program or divisional director of graduate studies submits a written request to the Office of Graduate Studies explaining the basis for the decision. Once approved, a Reactivation Form (http://gradstudies.missouri.edu/forms-downloads/repository/reactivation.pdf) must be completed by the student and sent to the department/program for processing.

The Doctoral Dissertation

The dissertation must be written on a subject approved by the candidate’s doctoral program committee, must embody the results of original and significant investigation and must be the candidate’s own work.

Enrollment Status and Reporting

The candidate must be continuously enrolled (http://gradstudies.missouri.edu/admissions/types-of-enrollment/continuous-enrollment.php) to defend the dissertation, which can only be defended when MU is officially in session. A report of the dissertation defense (http://gradstudies.missouri.edu/forms-downloads/repository/d4.pdf), carrying the signatures of all members of the committee (http://gradstudies.missouri.edu/academics/process/forming-committees/doctoral.php), is sent to the Office of Graduate Studies before the deadline preceding the anticipated date of graduation. For the dissertation to be successfully defended, the student’s doctoral committee must vote to pass the student on the defense with no more than one dissenting or abstaining vote.

Required Dissertation Format

Every doctoral candidate should review the Guidelines for Preparing Theses and Dissertations from Graduate Studies and should consult their director of graduate studies for academic program style requirements. All dissertation defenses shall be open to the general faculty. Academic programs are encouraged to announce dissertation defense dates to academic program colleagues.

Submission of Dissertation to the Office of Graduate Studies

The final copy of the dissertation must be submitted to the Office of Graduate Studies electronically or as a PDF file on a CD-ROM. Specific instructions are provided in the Guidelines for Preparing Theses and Dissertations.

Reasonable Rate of Progress

Reasonable rate of progress is governed by both the campus wide policies of the Graduate Faculty Senate listed below as well as academic program regulations which may be more restrictive. Failure to satisfy the Graduate Faculty Senate’s rate of progress policies leading to dismissal is handled by the Request for Extension process (http://gradstudies.missouri.edu/academics/progress/requests-for-extensions-appeals.php). For academic advice or assistance with degree program planning, students should contact their advisors. Dismissals arising from violation of academic program policies may be appealed using the Appeals Process (http://gradstudies.missouri.edu/academics/progress/requests-for-extensions-appeals.php). Students should also refer to the section on the Dismissal Policy (http://gradstudies.missouri.edu/academics/progress/probation-termination.php) for additional details.

Time Limits for Doctoral Degree Completion

Three Graduate Faculty Senate policies govern the Reasonable Rate of Progress established for doctoral students. To determine which is applicable to a particular student, see the policies below:

Students Who Began Their Program in Fall 2000 to the Present

Effective fall semester 2000, a doctoral student must successfully complete the comprehensive examination within a period of five years beginning with the first semester of enrollment as a PhD student. In addition, the program for the doctoral degree must be completed within five years of passing the comprehensive examination. Individual departments or area programs may stipulate a shorter time period. For an extension of this time the student must petition the Graduate School by submitting a request to the advisor who, in turn, submits a written recommendation to the Graduate School which has been endorsed by the department or area program director of graduate studies.

Doctoral Students Who Passed Comps Between Fall 1994 and Summer 2000

Doctoral candidates who passed their comprehensive examinations between the beginning of the fall semester 1994 through summer session
2000 will have no more than five years after passing the comprehensive examination to complete the doctoral degree.

**Doctoral Students who Passed Comps Before Fall 1994**

Doctoral candidates who passed their comprehensive examinations before fall semester 1994 must complete their degree programs within eight calendar years beginning with the first semester of enrollment as a doctoral student.

**Doctoral Degree Extension Request**

Regardless of when a student entered the program or passed the comprehensive exam, any candidate requiring additional time must submit a request for an extension. On petition of the candidate and the candidate's academic program, an extension of time may be granted by the Office of Graduate Studies. Academic programs specifically reserve the right to re-certify currency in the discipline. All requests for extensions should be endorsed by the academic program's director of graduate studies and accompanied by a description of the process whereby currency in the discipline is certified, if required by the academic programs. See also Active Duty Policy (http://veterans.missouri.edu/forms/active-duty.php).

**Doctorate of Education (EdD): Special Requirements and Policies**

**Admission**

To be admitted into a doctorate of education program, the student must have attained the degree of master of arts with a major in education, a degree of master of education, or the quantitative and qualitative equivalent of one of these degrees from an accredited college or university.

**EdD Qualifying Exam**

If required, the qualifying examination must be successfully completed before the plan of study is determined by the advisor and the student in cooperation with the doctoral advisory committee. This program must constitute a well organized plan of professional specialization in one of the major fields of education, with one or more supporting fields.

**EdD Plan of Study**

A minimum of 72 semester hours of graduate level course work beyond the bachelor's degree is required for the degree of doctor of education degree. The plan of study is specifically intended to meet the professional needs of the candidate. As well as pursuing course work in the professional areas of specialization, the student must take courses in educational statistics, advanced educational statistics, methods of educational research and one research elective course. Foreign languages are not required, except as may be determined by the student's doctoral advisory committee.

**EdD Advisory Committee**

The student's advisor officially recommends for the approval by the Graduate School a doctoral advisory committee of at least five members. For students admitted Fall 2006 and later, the requirement is at least four committee members. In addition to planning the doctoral program with the student, this committee may administer a qualifying examination, which helps to assess the student's general background and potential for the EdD degree. It also guides the planning of the plan of study.

**EdD Comprehensive Examination**

When the doctoral advisory committee determines that the needed course work has been completed with satisfactory grades, it plans the comprehensive examination (a written and oral examination that includes the candidate's major field of interest) for the degree. This examination must be taken no earlier than the second year of graduate work and be completed at least seven months before graduation. A student must be enrolled to take the comprehensive examination. It is not administered unless MU is officially in session.

For the comprehensive examination to be completed successfully, the committee must vote to pass the student with no more than one dissenting or abstaining vote. If failure is reported, the committee recommends suggested work or remedial measures. See Comprehensive Examination (http://gradstudies.missouri.edu/academics/process/doctoral-process/comprehensive-exam.php) under PhD Degree Regulations.

The student who fails may not take a second examination for at least 12 weeks. Failure on two comprehensive examinations automatically prevents candidacy.

**Continuous Enrollment**

EdD candidates are subject to the same policies and procedures as PhD candidates. See enrollment requirements (p. 769) for graduate studies.

**Dissertation Defense**

EdD candidates are subject to the same policies and procedures as PhD candidates. The dissertation must be reviewed and approved by the doctoral program committee (http://gradstudies.missouri.edu/academics/thesis-dissertation/dissertation-process.php).

**Time Limits for Doctoral Degree Completion**

Effective fall semester 2000, a doctoral student must successfully complete

- the comprehensive examination within a period of five years beginning with the first semester of enrollment as a PhD student.
- the doctoral degree within five years of passing the comprehensive examination.

Individual departments or area programs may stipulate a shorter time period.

For time limit policies prior to academic year 2000-2001, consult the Graduate School Catalog archive dissertation format EdD candidates are subject to the same dissertation formatting and submission requirements as PhD candidates. The dissertation must be reviewed and approved by the doctoral program committee. Policies can be found at http://gradstudies.missouri.edu/academics/graduation-requirements/doctoral-grad-requirements.php.

**Dissertation Submission**

The final copy of the EdD dissertation must be submitted to the Graduate School as a PDF file on a CD-ROM. Specific instructions are provided in the Guidelines for Preparing Theses and Dissertations (http://gradstudies.missouri.edu/forms-downloads/repository/etd-guidelines.pdf).
**Deadline for Submission of Dissertation/Thesis after Successful Defense**

After successful defense of the thesis or dissertation, students must comply with their academic program’s and/or the International Center’s enrollment requirements. Students are required to submit their final dissertation or thesis by the end of the following semester after a successful defense unless a letter asking for an extension is submitted to the Associate Vice Chancellor for Graduate Studies by the student’s advisor and program’s DGS.

**Doctoral Degree Extension Request**

Regardless of when a student entered the program or passed the comprehensive exam, any candidate requiring additional time must submit a request for an extension. On petition of the candidate and the candidate’s academic program, an extension of time may be granted by the Associate Vice Chancellor for Graduate Studies.

Academic programs specifically reserve the right to re-certify currency in the discipline. All requests for extensions should be endorsed by the academic program’s director of graduate studies and accompanied by a description of the process whereby currency in the discipline is certified, if required by the academic programs. (See also Active Duty Policy.)

**Doctoral Dual Degrees**

**Dual Doctoral-Professional Degrees**

As the US workforce becomes increasingly interdisciplinary, some graduate students elect to concurrently pursue a PhD (doctoral) degree in combination with a law or medical (professional) degree. Examples include the MD/PhD and the JD/PhD. Dual degrees are cooperatively arranged between a graduate degree granting program and a professional degree granting program. The Graduate School oversees the doctoral (PhD) degree portion of the dual doctoral/professional degree. Dual degrees are approved by the Graduate Faculty Senate.

Students must apply to both the Office of Graduate Studies and the professional degree program, notifying both of their interest in a dual program. Please refer to the A-Z list of graduate degree programs (http://gradstudies.missouri.edu/academics/programs/a-z) to learn what is currently available.

Because some students may not be aware of an approved dual-degree program before their arrival at MU, the option to participate in an approved dual-degree program may be postponed until no later than the end of a student’s second semester at MU.

The governing policies for dual degrees are the same for master’s and doctoral students. Please refer to the dual-degree information for master’s students (http://gradstudies.missouri.edu/academics/process/dual-masters-process) for more information.

**Dual Degrees for Medical Students**

The MD/PhD program is for the student seeking a biomedical research career. Additional years are integrated into the medical curriculum to satisfy requirements for the PhD. (A MD/MS dual degree is another option). The graduate degree (MS or PhD) is typically accomplished after completion of the MD program. PhD programs are available in diverse areas at MU.

Students are accepted to the joint program by a single committee. Students interested in this dual-degree program should inquire at the dean’s office in the School of Medicine.

**Financial Support**

Financial support may be provided for the graduate portion of the dual-degree program. Fellowship support may be provided for the PhD portion of this program, while loan and scholarship funds may be available for the MD curriculum.

**Applying Credit**

Students participating in the MD/PhD Program at the University of Missouri may apply up to 30 hours of credit for courses taken during the preclinical phase of the MD program towards the 72 hour requirement for the PhD degree. These MD courses, however, cannot be used to satisfy the requirement for 15 hours of 8000/9000 of graduate level course work.

The following table lists the distribution of credits for the preclinical courses among areas of study that can be used by the student and their committee in determining how many credit hours should be applied toward the PhD.

<table>

<td>3 hrs</td>
</tr>
</tbody>
</table>

**Advising & Committees**

There will be a separate advisor and committee for each degree program.

**Note:** The option of a combined committee structure may be included in proposals for Graduate Faculty Senate consideration, e.g., co-advisors who would also serve as outside members, plus one additional member from each degree program, for a total of four committee members.

**Dual Degree Progress Forms**

Special dual degree program forms will be used to certify plans of study, committee members and final defense/examinations.

**Timelines for PhD Completion**

Policies governing doctoral degree completion, including but not limited to examinations, forms, continuous enrollment, and dissertation format, defense and submission, are detailed in the doctoral degree requirements section of the Graduate Catalog and web site.

**Conferral of Dual Degrees**

Upon completion of all degree program requirements, the Graduate School and the professional school will confer separate diplomas.
Doctoral Requirements (School of Law)

The Juris Doctor (J.D.), or "law degree," is a three year post-baccalaureate program. Students must complete 89 credit hours of law courses roughly one-half of which are required courses.

View JD Degree Requirements Here (p. 737)

The wide variety of academic courses are complemented by a variety of clinics and skills courses designed to provide graduates with a solid foundation for the practice of law.
Undergraduate & Graduate

Information in the catalog is current as of May 2017. The next catalog will be published in May 2018. In the interim, new courses will be announced in myZou (https://myzou.missouri.edu) (MU's online student information system), and are usually available in October for the upcoming Spring semester, and in March for the upcoming Summer and Fall semesters. Mid year changes to current courses (titles, descriptions and credit hours) are not reflected here, and will only show in myZou.

Undergraduate Study

MU grants 25 percent of the bachelor's degrees from Missouri public universities, providing an intellectually diverse environment and 360-degree learning for students from every state in the nation and more than 120 countries.

MU offers more than 300 degree programs through 19 colleges and schools and is a member of the prestigious Association of American Universities. Ninety-two percent of full-time, ranked faculty hold doctorates or the highest degree in their field. A highly interdisciplinary campus, it's common for faculty and students from one school at Mizzou to collaborate on projects with those from other schools and colleges. For example, some courses in the sciences are taught in conjunction with MU's medical school, and humanities classes include such areas as music composition and creative writing.

MU also offers an honors college for high-achievers and unmatched real-world experiences, including managing a bed and breakfast (The Gathering Place), operating a floral shop (Tiger Garden), preparing income taxes for families, studying abroad, volunteering for credit, providing health care, working at the country's only university-owned TV network affiliate (KOMU), performing at Carnegie Hall and co-authoring articles in leading scientific journals. Mizzou students also hold patents and create startup companies.

For more information about undergraduate study, contact Undergraduate Admissions (http://admissions.missouri.edu).

Graduate Study

The University of Missouri Graduate Studies offers nearly 100 master's degree programs, over 70 doctoral degree programs, and 6 educational specialist degree programs; 13 graduate minors; and 40+ graduate certificates. Opportunities for e-learning, including online graduate degrees, are available. An A-Z list of graduate degrees is available in this catalog as part of a total MU degrees listing (p. 17). For more information, contact Graduate Admissions (http://gradschool.missouri.edu).

About the College

The mission of the College of Agriculture, Food and Natural Resources includes quality teaching, cutting-edge research and the extension of that research to the people of Missouri.

From entering freshmen to postdoctoral scientists, students prepare for a wide range of careers. Professional development through campus organizations and interaction with business and industry prepares our graduates to have an impact in the food system, business, government policy, environmental awareness, education, law, medicine and other areas.

The Missouri Agricultural Experiment Station develops new technology in animal, biochemical, plant, food and natural resource sciences to keep the state's agribusiness system competitive in world markets and to provide consumers with a safe, low-cost food supply.

Technology reaches the people through the college's Agriculture and Natural Resources Extension program. State specialists within the college and area specialists in county centers interact with the public for real-life application of research in solving problems.

Finally, the college helps developing nations become trading partners by improving their economies through better agriculture. This also provides a valuable exchange of knowledge and understanding with students, teachers and scientists from many cultures.

Undergraduate

• Admissions (p. 47)
• Special Programs (p. 47) (Pre-Veterinary Track and Pre-Medical Track)
• B.S. Degree Requirements (p. 48)
• University graduation and CAFNR Requirements (p. 48)
• CAFNR Honors Requirements (p. 48)
• Probation, Suspension and Dismissal (p. 49)
• Advising (p. 49)
• Career Development and Professional Opportunities (p. 49)
• Experiential Learning (p. 49)
• Study Abroad (p. 49)
• Student Activities (p. 49)

Admissions

Students admitted to the University of Missouri are encouraged to enter the College of Agriculture, Food and Natural Resources, including the School of Natural Resources, as freshmen. Current Mizzou students who are looking to transfer divisions to CAFNR need to contact the Office of Academic Programs first as some degree programs have specific GPA requirements.

Special Programs

Pre-Veterinary Track

Students wishing to prepare for application to the College of Veterinary Medicine may enroll in the College of Agriculture, Food and Natural Resources under programs that emphasize science, such as animal sciences or fisheries and wildlife. In satisfying the science program requirements, the requirements for entering veterinary medicine also may be satisfied.

A minimum of 60 credits is required for admission to the College of Veterinary Medicine. Before applying, a student should make certain that the requirements listed below have been satisfied. Questions concerning required admission credits should be directed to the College of Veterinary Medicine. (Note: Tracks are not listed on transcripts or diplomas.)

Composition or courses in communication skills such as Speech or Technical Writing
College Algebra or more advanced mathematics
Biochemistry (requires organic chemistry prerequisite)
Physics (comprehensive introductory course or courses)

Biological Science
Social Science and/or Humanistic Studies
Electives

Minimum Total Semester Credit Hours* 60

* Multiply quarter credits by 0.67 to convert to semester credits.
** 5 hrs. in only the first of a companion series in introductory physics will not suffice.

[Notes and requirements listed separately in the text, not included in the image]
A- Inorganic chemistry courses that prepare them for organic chemistry and, finally, biochemistry;

B- Biology Department courses that may be selected from zoology and botany or as required in foundation courses for a biology major.

NOTE: Whenever there is doubt as to whether a course will fulfill the requirements to apply, the applicant should contact the Admissions Advisor, MU College of Veterinary Medicine, as soon as possible. If the course is acceptable, the applicant is advised to produce a copy of the response letter when submitting their application.

Elective Courses

The faculty of the College of Veterinary Medicine strongly encourage applicants to include as many of the following courses as possible among their electives. We have found that anatomy and physiology are especially challenging for students lacking a background in those subjects.

- Animal Nutrition
- Animal Reproduction
- Anatomy
- Animal Husbandry
- Physiology
- Business or Accounting
- Genetics
- Microbiology
- Psychology
- Statistics
- Cell Biology
- Any Biomed 1000-4000 level course at MU.

Premedical Track

Students interested in a medical career may choose from a variety of science-based majors. The most common choice of students is biochemistry because it is a collaborative program between CAFNR and the School of Medicine. Questions concerning required admission credits should be directed to the School of Medicine. (Note: Tracks are not listed on transcripts or diplomas.) The following course work is required for admission:

<table>

Bachelor of Science (B.S.) Degree Requirements

Students should refer to degree program sections for course requirements and credit hour requirements.

University Graduation and CAFNR Requirements

- Students are required to meet all University graduation and degree program requirements to earn their degree. Refer to specific CAFNR degree programs to determine specific course requirements.
- Complete 30 of the last 36 hours with MU course work. Obtain approval of faculty advisor, degree program advisor chair, and associate dean prior to enrolling in courses at another institution.
- Earn no less than a 2.00 GPA, as defined by the GPA of Record (UM cumulative GPA).

Transfer Credits

- University general education requirements are considered completed for students transferring with an Associate of Arts (AA) degree from a regionally accredited Missouri institution.
- Transfer credit from a regionally accredited non-Missouri institution will be evaluated on a course by course basis.

CAFNR Honors Requirements

Students are eligible to enter the honors program when they have obtained a cumulative GPA of 3.3 or above based on 30 credits earned at the University of Missouri. Transfer students are eligible after completing 15 credits at MU with a cumulative GPA of 3.3 or higher.

Students must be admitted to the honors program prior to the first day of classes for the last semester they are enrolled in residence in CAFNR. No student is admitted retroactively. The student is officially admitted to the program upon approval of the associate dean of academic programs.

Eligible students should complete an application as early in their undergraduate degree program as possible. The honors program application should be signed by at least two faculty members and the undergraduate advisor chair before it can be approved. The faculty members co-signing the application will comprise the honor student's advisory committee.

An honors project (HP) is required and should be planned by the student and approved by the honor student's advisory committee. The honors project should involve a significant research effort by the honors student, culminating in a written and oral presentation of the results. Departmental HP requirements must be approved by the CAFNR Honors Program Oversight Committee.

Students are officially admitted to the CAFNR Honors Program when the application has been approved and signed by the CAFNR associate dean of academic programs. To remain in good standing in the CAFNR Honors Program, a student must maintain a cumulative GPA of 3.3 or more. A student whose GPA falls below 3.3 will be allowed a two-semester grace period to raise the GPA to the 3.3 level.

Dual Enrollment for Senior Undergraduates

Qualified undergraduate students are eligible to enroll in up to 12 hours of graduate credit during the last 30 hours of their undergraduate
program. Graduate credit cannot be counted toward undergraduate degree credit requirements. See the Office of Graduate Studies (http://gradstudies.missouri.edu) for additional details.

**Probation, Suspension and Dismissal**

In addition to the Academic Standing Policy (p. 760) of the University, CAFNR's academic policies can be located at https://cafnr.missouri.edu/current-students/ (http://CAFNR.missouri.edu)

**Advising**

When entering the college, each student is assigned a faculty advisor/mentor to assist in defining career goals and planning courses for a program of study that leads to graduation. The advisor also serves as a resource person for the student in a variety of academic and individual situations.

One of a student's first priorities is to meet and become acquainted with their advisor early in the semester. The student should consult with their advisor when planning or changing the academic program. The advisor and advisor chair must approve the program of study for graduation.

Questions dealing with advisement should be directed to Office of Academic Programs, 2-64 Agriculture Building, (573) 882-8301.

**Career Development and Professional Opportunities**

CAFNR believes in career development as a key part of the student experience. Our college provides career resources targeted specifically toward student interests and strengths. The CAFNR Career Services team focuses efforts to help educate, empower, and connect CAFNR students with their future careers. The resources in CAFNR expand beyond résumé reviews, mock interviews and one-on-one sessions to explore career possibilities. We focus on making valuable employer connections to help expand each student's professional network. Students also have access and are encouraged to use www.HireMizzouTigers.com (http://www.hiremizzoutigers.com) to search open job and internship postings.

CAFNR graduates find rewarding careers in a variety of career fields, including: private industry, state and federal agencies, start-ups, production agriculture, and more.

You can receive relevant career planning updates from CAFNR delivered directly to your social media newsfeed. Simply like us at www.Facebook.com/CAFNRcareers (https://www.facebook.com/CAFNRcareers) or link up with us at linkedin.in/12RIKRD (http://www.linkedin.com/groups/MU-College-Agriculture-Food-Natural-1208727/about).

We invite you to reach out in the traditional ways, too! Stop by our office in 2-64 Agriculture Building, call us at (573) 882-0088 or email CAFNRcareerservices@missouri.edu.

**Experiential Learning**

Employers want to hire students who have experience! CAFNR students have a variety of options when it comes to experiential learning. CAFNR's focus on internships, study abroad, industry tours, and student organizations help students gain relevant experience that employers want to see. Exploring these opportunities gives students the professional growth and network needed for career success after graduation.

Click here to check out some of the most recent student experiences (https://www.facebook.com/media/set/?set=a.631051863580078.1073741826.56519360832571&type=3) to see the kinds of opportunities CAFNR students explore. Interested in gaining your own experiences? We want to help you reach your goals! You can reach us in a variety of ways. Stop by our office in 2-64 Agriculture Building, call us at (573) 882-0088 or email CAFNRcareerservices@missouri.edu.

**Study Abroad**

CAFNR provides students with opportunities to study abroad on academic year, semester, summer, short term and winter break programs. Study Abroad complements and enhances a student's academic program. On these programs, students gain maturity and self-confidence, broaden their horizons to the larger world around them, and earn academic credit. Increasingly, employers are looking for students who have increased their skill set through study abroad.

For more information about CAFNR study abroad programs, contact the Shanon Dickerson, CAFNR Director of Study Abroad, Office of Academic Programs, 2-64 Agriculture Building, at dickersons.m@missouri.edu or (573) 882-8301.

**Student Activities**

CAFNR offers a variety of extracurricular student activities that contribute to a student’s education and professional development. Clubs and organizations sponsor activities related to professional interests as well as social events. Involvement in extracurricular activities fosters leadership development. Involvement in activities outside the classroom also may prove beneficial when applying for scholarships or jobs. Many organizations and companies look favorably on a student who has received good grades while being involved in clubs and other University organizations. Each class and club elects a representative to the CAFNR Student Council. More information can also be found at Fall Round-up each fall semester.

**Graduate**

Graduate studies in CAFNR are taking an innovative, high-tech approach to traditional agriculture, food and natural resources. Our students are highly engaged with expert faculty mentors who are impacting the future with findings on health breakthroughs, sustainable agriculture techniques and food safety. Prospective students are able to choose from a range of academic programs consistently recognized for excellence:

- Agricultural and Applied Economics
- Agricultural Education and Leadership
- Animal Sciences
- Biochemistry
- Biological Engineering
- Food Science
- Natural Resources
  - Fisheries and Wildlife
  - Forestry
  - Parks, Recreation and Tourism
- Soil, Environmental and Atmospheric Sciences
- Agroforestry
- Human Dimensions of Natural Resources
- Water Resources
• Plant Sciences  
  • Crop, Soil and Pest Management  
  • Entomology  
  • Horticulture  
  • Plant Breeding, Genetics, and Genomics  
  • Plant Stress Biology  
• Rural Sociology

Find CAFNR degree program descriptions by following the links in the left navigation column.

Note: Prospective graduate students must apply to both the degree program of interest and to the MU Graduate School. In most cases, the entire application process may be completed online. Find admission and application details by selecting the degree program of interest in the left navigation column.

Agribusiness Management

Harvey James, Chair
Agricultural and Applied Economics
College of Agriculture, Food and Natural Resources
146 Mumford Hall
(573) 884-9682
HJames@missouri.edu

The Department of Agricultural and Applied Economics offers a BS degree with a major in Agribusiness Management, a BS degree with a major in Agricultural Economics, and MS and PhD degrees with a major in Agricultural & Applied Economics. A minor in Agricultural Economics is also available. The Department is home to several programs and research centers where students can seek on-campus work experience.

• Agricultural Electronic Bulletin Board, a web-based clearinghouse for information related to farming and production agriculture  
• Center for Applied Research and Environmental Systems, a spatial economics and information research and education center  
• Commercial Agriculture Program, a multi-disciplinary approach to researching issues and incorporating innovation into production agriculture  
• Contracting and Organizations Research Institute, dedicated to enabling and encouraging interdisciplinary empirical research on contracting and organizational structure  
• Food Equation Institute, a research center with a focus on biotechnology and other agricultural and technologies relating to food production, distribution and consumption  
• Economics and Management of Agrobiotechnology Center, a research institute with a focus on applications of biotechnology on agriculture and food production and distribution  
• Food and Agricultural Policy Research Institute, a Congressionally-enacted center whose mission is to provide objective analysis of food, agricultural, nutritional and environmental issues  
• McQuinn Center for Entrepreneurial Leadership, promotes research, teaching, and outreach on the nature, causes, and consequences of entrepreneurship  
• Missouri Institute of Cooperatives, coordinates information and leadership training for cooperatives serving Missouri

Faculty

Associate Professor M. S. Kaylen*, M. J. Monson, K. C. Moore*, M. E. Sykuta**, W. Thompson, C. B. Valdivia**
Extension Professor R. Massey**
Extension Assistant Professor D. S. Brown**
Assistant Teaching Professor J. Palacios Rivera
Research Assistant Professor J. Binfield
Instructor J. Moreland, L. F. Sowers
Adjunct Faculty H. Gedikoglu, J. Kruse, D. Miller

* Graduate Faculty Member - membership is required to teach graduate-level courses, chair master’s thesis committees, and serve on doctoral examination and dissertation committees.
** Doctoral Faculty Member - membership is required to chair doctoral examination or dissertation committees. Graduate faculty membership is a prerequisite for Doctoral faculty membership.

Undergraduate

• BS in Agribusiness Management (p. 50)

The degree in agribusiness management offers the student a general business background while emphasizing applications to various types of food and agricultural businesses. This program prepares students to assume leadership roles in business. The broad background allows maximum flexibility when entering the job market.

Students transferring into agribusiness management from other departments at MU or from other colleges must have a 2.7 cumulative GPA for all work attempted.

Graduate

While MU does not offer graduate degrees specifically in agribusiness management, the University does offer post-baccalaureate opportunities in a number of related areas, both within the College of Agriculture, Food and Natural Resources, and in the other Schools and Colleges that make up the University. The catalog provides a complete list of these degree options (p. 17).

BS in Agribusiness Management

Degree Program Description

Agribusiness Management combines skills in management, finance, marketing and agriculture production. Students can address bottom-line questions about the production, distribution and use of the world’s agricultural resources and apply business concepts and problem-solving techniques to resource allocation and business decisions that affect the global food supply. The solid foundation of business skills and agricultural knowledge acquired prepares students for any number of careers, including Finance, Marketing and Management. In Finance graduates become a leader in both the public and private business and finance sectors. Whether making decisions about the daily operation...
of a small business or cooperative to the complex marketing issues of a
multi-national company or large agribusiness cooperative, the financial
services provided are in high demand at each stage of the supply chain –
from farm inputs to the supermarket. In Marketing, one of the key
competitive advantages of our students is the understanding of supply
chain management which is extremely important to grasp in marketing
food and biofuels. Agribusiness management graduates often are
employed in a wide variety of careers that involve the buying, selling,
distribution and promotion of agricultural food, fiber and biofuels products,
assisting an organization such as the National Corn Growers Association
with its promotion efforts or develop advertising strategies for a food-
processing company such as Nabisco. In Management, Agribusiness
Management majors take leadership roles in developing new companies
and leading existing corporations and cooperatives. These range from
small rural businesses to international powerhouses like Monsanto or
Land O’Lakes.

**Major Program Requirements**

Students earning a Bachelor of Science in Agribusiness Management are
required to complete all University general education (p. 33), University
undergraduate requirements (p. 32), degree, and major requirements,
including selected foundational courses, which may fulfill some University
general education requirements.

Agricultural and Applied Economics

Harvey James, Chair
Agricultural and Applied Economics
College of Agriculture, Food and Natural Resources
146 Mumford Hall
(573) 884-9682
Fax (573) 882-3958
HJames@missouri.edu

The Department of Agricultural and Applied Economics offers a BS degree with a major in Agribusiness Management and BS, MS and PhD degrees with a major in Agricultural Economics. A minor in Agricultural Economics is also available. The Department is home to several programs and research centers where students can seek on-campus work experience.

- Agricultural Electronic Bulletin Board, a web-based clearinghouse for information related to farming and production agriculture
- Center for Applied Research and Environmental Systems, a spatial economics and information research and education center
- Commercial Agriculture Program, a multi-disciplinary approach to researching issues and incorporating innovation into production agriculture
- Contracting and Organizations Research Institute, dedicated to enabling and encouraging interdisciplinary empirical research on contracting and organizational structure
- Food Equation Institute, a research center with a focus on biotechnology and other agricultural and technologies relating to food production, distribution and consumption
- Economics and Management of Agrobiotechnology Center, a research institute with a focus on applications of biotechnology on agriculture and food production and distribution
- Food and Agricultural Policy Research Institute, a Congressionally-enacted center whose mission is to provide objective analysis of food, agricultural, nutritional and environmental issues
- McQuinn Center for Entrepreneurial Leadership, promotes research, teaching, and outreach on the nature, causes, and consequences of entrepreneurship.
- Missouri Institute of Cooperatives, coordinates information and leadership training for cooperatives serving Missouri

Faculty

Associate Professor M. S. Kaylen*, M. J. Monson*, M. E. Sykuta**, W. Thompson**, C. B. Valdivia**

Extension Professor R. Massey**

Extension Assistant Professor D.S. Brown**

Assistant Teaching Professor J. Palacios Rivera
Undergraduate

While MU does not offer undergraduate degrees specifically in agricultural and applied economics, the University does offer bachelor's degrees in the closely related areas of Agricultural Economics (p. 55), and Agribusiness Management (p. 50), as well as other related areas both within the College of Agriculture, Food and Natural Resources, and in the other Schools and Colleges that make up the University. The catalog provides a complete list of these degree options (p. 17).

Graduate

- MS in Agricultural and Applied Economics (p. 53)
- PhD in Agricultural and Applied Economics (p. 54)

Degree Requirements

For the MS degree, students must complete a minimum of 30 hours selected from courses in one of three focus areas (Agricultural Economics and Policy Analysis; Environmental and Development Economics; Organizational Economics). Specific course requirements are determined by each focus area. All course work needs to be from courses numbered 7000-9000. The program includes graduate-level courses in microeconomic theory and quantitative methods. Students opting for the MS thesis must complete at least six credit hours of research as part of the minimum 30 hours. An alternative MS non-thesis program requires that additional course work be substituted for thesis research. Before admission to the MS program, a student should have completed at least nine hours of agricultural economics or economics, a course in calculus and one in statistics. Note: Focus areas do not appear on diplomas or transcripts.

Sample Plan of Study

- 9 hours designated as the MS focus area core
- 6 hours of AG_EC 8090 Masters Thesis Research
- 15 hours of Agricultural and Applied Economics courses and/or electives

Thesis/Non-Thesis Requirements

Students in the Thesis track are expected to produce a thesis with the organization, degree of analysis, and style of presentation that can be readily converted into a professional publication.

Students in the non-Thesis track substitute coursework for the Thesis hours. Students also write a technical paper that represents a collaborative research agenda with his/her advisor. A typical paper would analyze an issue or problem of mutual interest to the student and advisor, such as a phenomenon in local, regional, or national economy;
an analysis of a policy implementation or change; or a firm-level decision, such as a feasibility study or an organizational case study.

Admissions

The Department’s Graduate Studies Committee and Focus Area faculty oversee the admissions process. Admission into the MS program is determined by an assessment of program prerequisites and application materials. Domestic and international students are equally welcome to apply.

For More Information

For further information on admissions or financial assistance, write to Harvey James, director of graduate studies in agricultural economics, 200 Mumford Hall, Columbia, MO 65211, or hjames@missouri.edu.

PhD in Agricultural and Applied Economics

- Sample Plan of Study (p. 54)
- Qualifying Process (p. 55)
- Comprehensive Examination Progress (p. 55)
- Dissertation Requirements (p. 55)
- Admissions (p. 55)

Degree Requirements

The PhD program emphasizes preparation for research, teaching and extension work in academia, as well as for careers in agrifood business, government and international agriculture. The program usually requires about three years beyond the master’s program to complete. The size, quality and diversity of the faculty provide a broad choice of advisors and research topics. Students and their advisory committees have latitude in developing a plan of study.

Doctoral candidates will choose specialties from one of the following Focus Areas (FAs) (will not appear on transcripts or diplomas).

Agricultural Economics and Policy Analysis: This Focus Area seeks knowledge about how agricultural and food policy and innovation influence markets and, ultimately, human well-being. The program relies on a rigorous approach to agricultural economics that underpins applied analysis, including experimental and behavioral economic models, strategic interaction models, structural economic models, investment or firm models, systems simulation, mathematical programming and econometrics. The FA relies on coursework and research with widely recognized centers for agricultural economics, such as the Food and Agricultural Policy Research Institute (FAPRI), Agricultural Markets and Policy (AMAP) and the Economics and Management of Agrobiotechnology Center (EMAC).

Environmental and Development Economics: This Focus Area helps students develop skills and knowledge that can be used to address some of society’s most pressing problems. There are many linkages between environmental and natural resource issues and development, both in developed and developing economies. This is particularly true where agriculture plays a significant role in the livelihoods of people and rural communities, since soil and water resources are critical determinants of both agricultural productivity and human well-being. The importance of these linkages is evidenced by the emphasis on sustainable development in policy circles. Institutions affect environmental outcomes, economic development, and risk so comparing institutions across differing contexts can provide useful insights. An emerging research area is behavioral economics, which can be productively applied to environmental and development issues. Students will apply theory from economics and other social sciences using rigorous analytical tools to address real-world problems. We are interested in students who want to create knowledge that matters through translational research.

Organizational Economics: The Focus Area represents a coherent area of study for preparing students for academic careers in applied economics, management, and cognate fields, and for careers in government and industry. The program design is based upon a set of courses offered in the Department that support MS and PhD training in microeconomic theory, institutional and neo-institutional economics, and organizational economics. This set of courses is augmented by courses in qualitative and quantitative methods and a cognate area that supports the student’s research. The cognate area is chosen consultation with the major advisor and committee input.

The general course requirements for the PhD consist of theory and methods courses, followed by a well-balanced selection of elective and research courses in agricultural and applied economics and other disciplines at the graduate level. The course of study will prepare students for the qualifying exam taken after the first year of courses, the comprehensive exam assessing competency in his or her chosen fields of study, and independent research. A dissertation embodying the results of original research must be written on a subject approved by the program committee. An oral examination over the dissertation completes the degree requirements.

The minimum requirements for the PhD are as follows:

- 72 credit hours (minimum) from courses numbered 7000 – 9000, and within the 72 credit minimum are the following constraints:
  - No more than 30 credit hours can be transferred from an MS program
  - 15 credits must be from courses numbered 8000 – 9000, exclusive of dissertation research, problems or independent study
  - 6 credit hours designated as the PhD FA Theory core
  - 6 credit hours designated as the PhD FA Methods core (can be met from any combination of quantitative, qualitative, mixed or other methods courses)
  - 3 credit hours of AG_EC 8010 Research Methodology
  - 12 credit hours of AG_EC 9090 Doctoral Dissertation Research in Agricultural Economics
  - 45 credit hours designated as electives and/or additional required EA courses

Prerequisites for the PhD program include courses in intermediate microeconomics and macroeconomics; quantitative or mathematical economics; statistics, econometrics or regression and correlation analysis; and calculus. A master’s degree in economics, agricultural economics, or a related field, is preferred but not required for admittance into the PhD program. However, applicants to the PhD program without a master’s degree will be admitted initially into the MS program with the expectation that they complete the MS degree including MS thesis before continuing with their doctoral studies.

Sample Plan of Study

Fall semester, year 1: AG_EC 9040 Advanced Microeconomics Theory and Applications I; FA methods course; Elective
Spring semester, year 1: AG_EC 8010 Research Methodology; FA theory course; FA core course or Elective
Fall semester, year 2: FA field courses and/or Electives
Spring semester, year 2: FA field courses and/or Electives
Subsequent semesters: Field Courses and/or Electives; Research and Dissertation hours

Qualifying Process
After completing the first year sequence, students complete a qualifying exam process determined by the research Focus Area faculty. Examinations are completed in May with a retake, if needed, offered in August. Students must pass the qualifying exam process to continue in the PhD program.

Comprehensive Examination Process
Students take the Comprehensive Exam after passing the qualifying exam process and completing coursework, including core courses and field courses. The Comprehensive Exam consists of three parts: the written dissertation proposal, a written comprehensive exam, and an oral examination. The Comprehensive Exam is administered by the student’s Doctoral Program Committee.

Dissertation Requirements
Two types of dissertations are acceptable. The first type of dissertation is organized around a single topic and typically is a lengthy monograph of your research findings. The second type of dissertation is a compilation of three narrow-topic essays that are loosely related to a single, general theme or topic. Students select dissertation topics in consultation with their Doctoral Program Committee.

Admissions
The Department’s Graduate Studies Committee and Focus Area faculty oversee the admissions process. Admission into the PhD program is determined by an assessment of program prerequisites and application materials. Domestic and international students are equally welcome to apply.

For More Information

Undergraduate
• BS in Agricultural Economics (p. 56) • with emphasis in Public Policy (p. 56)
• Minor in Agricultural Economics (p. 58)

Programs in agricultural economics focus on understanding and solving problems in the production, distribution and use of agricultural goods, services and natural resources. The focus is on courses in management, marketing and production, as well as on courses covering economic principles and computer skills.
Substantial career opportunities exist in food processing and manufacturing, international production, development and trade, biotechnology, agricultural and natural resource management, risk management and merchandising, as well as aspects of agribusiness. 

Graduate

The last term in which a student could be admitted to the MS and PhD programs in Agricultural Economics was Fall 2013. Students pursuing the MS or PhD in Agricultural Economics should refer to a prior year’s edition in the Archived Catalogs (http://catalog.missouri.edu/archives) for their degree information.

Going forward, students are being admitted into the MS in Agricultural and Applied Economics (p. 53) and the PhD in Agricultural and Applied Economics (p. 54). Please refer to those pages within this catalog for details on the programs.

BS in Agricultural Economics

Degree Program Description

In the field or in public service, agricultural economists apply economic concepts and problem-solving skills to effectively and efficiently manage farm, environmental and commercial decisions. Agricultural Economics is for students interested in improving food production and processing, developing agricultural policy, helping rural communities preserve and develop their economic strengths, or protecting our natural resources.

The solid foundation of economic skills and agricultural knowledge acquired prepared students for any number of careers, including Policy Analysis, Farm and Ranch Management, Resource Economics and Management, and Business. In Policy Analysis, Agricultural economists often are employed by environmental groups, government agencies, commodity organizations and media to interpret how agricultural policies affect various interest groups. These policies include all aspects of agriculture, from water and soil use to technology adoption to international trade patterns. Such policies affect all of us through food and energy prices, the quality of our water and air, product development, and international trade and negotiations.

Major Program Requirements

Students earning a Bachelor of Science in Agricultural Economics are required to complete all University general education (p. 33), University undergraduate requirements (p. 32), degree, and major requirements, including selected foundational courses, which may fulfill some University general education requirements.

Students transferring into agricultural economics from other degree programs at MU or from other colleges or universities must have a 2.7 cumulative GPA for all work attempted.

Semester Plan

A semester plan is not currently available for this degree.

BS in Agricultural Economics with Emphasis in Public Policy

Degree Program Description

In the field or in public service, agricultural economists apply economic concepts and problem-solving skills to effectively and efficiently manage farm, environmental and commercial decisions. Agricultural Economics is for students interested in improving food production and processing,
developing agricultural policy, helping rural communities preserve and
develop their economic strengths, or protecting our natural resources.
This emphasis is for students specifically interested in public policy,
government, and pursuing graduate studies and/or law school. It
prepares students in focus areas such as environmental and natural
resource management, international economic development, and
international trade and agricultural policy. Many of these careers are
in the public sector or relate and work with public institutions. In Policy
Analysis, Agricultural economists often are employed by environmental
groups, government agencies, commodity organizations and media to
interpret how agricultural policies affect various interest groups. These
policies include all aspects of agriculture, from water and soil use to
technology adoption to international trade patterns. Such policies affect
all of us through food and energy prices, the quality of our water and air,
product development, and international trade and negotiations.

Major Program Requirements
In addition to the Bachelor of Science in Agricultural Economics degree
program requirements (p. 56), the following courses are required
within the public policy emphasis:

<table>

Total Credits: 120

The following foundational courses are included in the Semester
Plan above and are used by the Department to meet MU’s General
Education Requirements (p. 33) and University Undergraduate
Requirements (p. 32).

- ENGLISH 1000
- MATH 1100
- MATH 1400
- BIO_SC 1010 and BIO_SC 1020
- CHEM 1100
- AG_EC 1041
- AG_EC 1042
- POL_SC 1100, HIST 1100 or HIST 1200
- AG_ED_LD 2220 or COMMUN 1200
- PHIL 1200
Minor in Agricultural Economics

A minor in agricultural economics requires 18 credits in agricultural economics with at least 9 credits at the 3000 level or above. A student earning an agribusiness management major is not eligible for an agricultural economics minor.

Agricultural Education

Anna L. Ball, Professor and Department Chair
College of Agriculture, Food and Natural Resources
127 Gentry Hall
(573) 882-7451
Fax: (573) 884-4444
Administrative Assistant: swaimc@missouri.edu
http://aged.missouri.edu

The agricultural education degree program provides students with the opportunity to combine an interest in agriculture, food and natural resources with their enjoyment of working and communicating with people. A degree in agricultural education leads to careers in which students can influence the understanding of agriculture and its role in society and the global economy.

The department offers the BS with a major in Agricultural Education, as well as an MS and a PhD. A minor is also available.

Faculty

Professor A. L. Ball**, B. L. Garton**, L. G. Schumacher**
Associate Professor T. J. Kitchel**
Assistant Professor J. C. Simonsen**
Assistant Professor J. D. Tummons*
Professional Development R. Scheiderer
Professor Emeritus R. E. Linhardt, B. R. Stewart

*  Graduate Faculty Member - membership is required to teach graduate-level courses, chair master's thesis committees, and serve on doctoral examination and dissertation committees.
** Doctoral Faculty Member - membership is required to chair doctoral examination or dissertation committees. Graduate faculty membership is a prerequisite for Doctoral faculty membership.

Undergraduate

• BS in Agricultural Education (p. 58)
  • with emphasis in Leadership (p. 59)
  • with emphasis in Teacher Certification (p. 60)
• Minor in Agricultural Education (p. 61)

Students pursuing a degree in agricultural education choose between two emphasis areas. The leadership emphasis focuses on developing students' leadership, communication and human relation skills. Students learn how to plan, manage and disseminate information in educational and public settings. Teacher certification emphasis prepares students to meet state teacher licensure requirements and teach agriculture, food and natural resources to secondary and adult learners through Missouri public schools. Students in both the teacher certification and leadership emphasis areas have the opportunity to specialize in an area of interest by completing course work in one or more agriculture, food or natural resource disciplines.

Students transferring into agricultural education from other MU degree programs or from other institutions must have at least a 2.3 GPA for all course work attempted.

Major Core Requirements

See university general education and graduation requirements as well as the College of Agriculture, Food and Natural Resources listings. The requirements specific to agricultural education are also available at http://aged.missouri.edu.

Emphasis Areas

Students majoring in the agricultural education select the Teacher Certification emphasis or Leadership emphasis.

Graduate

• PhD in Agricultural Education (p. 61)

The department also offers a MS in Agricultural Leadership, Communication and Education (p. 62).

BS in Agricultural Education

Degree Program Description

Agricultural Education combines interests in agriculture, working with people, shaping the next generation's understanding of agriculture and its role in society, and using communication and human relation skills to obtain leadership roles in many agricultural industries. The degree program is individualized by choosing between two degree options – teaching or leadership. Some agricultural education careers include Agriculture teachers, Public Relations Specialist, and Youth Specialist. As an Agriculture teacher, graduates work for both public schools and adult education programs. They are responsible for teaching their students about the many facets of agriculture – from crops and livestock to economics and marketing – and how that system provides the food we eat. As Public relations specialists graduates work for a variety of private companies and non-profit organizations. They are responsible for communicating messages about their company's products or their organization's cause to the public. They utilize various media, such as radio, television and print publications, to accomplish their goals. As Youth specialists graduates work for non-profit groups such as 4-H, as well as outreach and extension services. They are responsible for developing educational programs for youth in their area.

Major Program Requirements

Students earning a Bachelor of Science in Agricultural Education are required to complete all University general education (p. 33), University undergraduate requirements (p. 32), degree, and major...
requirements, including selected foundational courses, which may fulfill some University general education requirements. Approximately one-third of the course work for the degree is completed in agricultural education or professionally related courses. In addition, the curriculum includes courses in agriculture, food and natural resource disciplines including agricultural economics, agricultural systems management, animal science, food science, horticulture, plant science and natural resources.

Students majoring in agricultural education select the Teacher Certification emphasis or Leadership emphasis. Please see the individual emphasis areas (p. 58) for degree and major requirements.

### Semester Plan

Below is a sample plan of study, semester by semester for a student that has selected the Teacher Certification emphasis area. A student's actual plan may vary based on course choices where options are available.

#### First Year

**Fall**

- AG_ED_LD 1000
- PLNT_S 2075
- AN_SCI 2165
- AG_EC 1041
- ENGLISH 1000

**Spring**

- 1 MATH 1100
- 3 AN_SCI 1065
- 3 HIST 1100
- 3 COMMUN 1200
- 3 BIO_SC 1020

Total Credits: 13

#### Second Year

**Fall**

- ESC_PS 2010
- AG_ED_LD 2220
- AG_S_M 1020
- THEATR 1400
- AG_ED_LD 2250

**Spring**

- 3 AG_ED_LD 2220
- 1 CHEM 1100
- 3 PLNT_S 2110
- 3 RU_SOC 1000
- 3 LTC 2040

Total Credits: 16

#### Third Year

**Fall**

- SPC_ED 4020
- AG_EC 2223
- AG_ED_LD 4310
- STAT 1400
- PLNT_S 3260

**Spring**

- 3 SCI_AG_J 3210
- 3 AG_ED_LD 2260
- 3 AG_ED_LD 4320
- 3 AG_ED_LD 4321
- 4 AG_EC 2183

Total Credits: 16

#### Fourth Year

^ Denotes Degree Program Requirements

### BS in Agricultural Education with Emphasis in Leadership

#### Degree Program Description

Agricultural Education combines interests in agriculture, working with people, shaping the next generation’s understanding of agriculture and its role in society, and using communication and human relation skills to obtain leadership roles in many agricultural industries. The degree in Agricultural Education with emphasis in Leadership focuses on the development of leadership and communication skills in agriculture, food and natural resources. Students are encouraged to develop a diverse background in agriculture with an emphasis on communication, leadership and human relations skills. Students have the opportunity to specialize in an area of interest by completing coursework in one or more agriculture, food or natural resource disciplines. In addition to agricultural education and leadership course requirements, students complete course work in agricultural economics, agricultural sales and marketing, plant science, agricultural systems management, natural resources and food science. The capstone experience involves a supervised educational internship with an agricultural business, public or private agency or commodity organization.

### Major Program Requirements

Students earning a Bachelor of Science in Agricultural Education are required to complete all University general education (p. 33), University undergraduate requirements (p. 32), degree, and major requirements, including selected foundational courses (p. 58), which may fulfill some University general education requirements.

### Leadership Emphasis

The leadership emphasis focuses on developing students’ leadership, communication and human relation skills. Students are encouraged to develop a diverse background by completing course work in a variety of disciplines in the College of Agriculture, Food and Natural Resources. Students also have the opportunity to specialize and earn minors in disciplines of interest. The capstone experience involves a supervised internship with an agricultural business, public or private agency, or commodity organization in the area of education, training, communication and/or development.

### Emphasis Core Requirements

- AN_SCi 2114
- Total Credits: 17-20
Degree Program Description

Agricultural Education combines interests in agriculture, working with people, shaping the next generation’s understanding of agriculture and its role in society, and using communication and human relation skills to obtain leadership roles in many agricultural industries. The degree in Agricultural Education with emphasis in Teacher Certification prepares students to meet state teacher certification requirements and teaches agriculture in public schools at the secondary and adult levels. In addition to courses in agricultural education, the teaching option curriculum includes courses in general education, technical agriculture (agricultural economics, agricultural business and management, animal science, plant and soil science, agricultural systems management, horticulture, natural resources and forestry) and professional teacher certification courses offered through the College of Education. The capstone experience involves a 16-week student teaching internship.

Major Program Requirements

Students earning a Bachelor of Science in Agricultural Education are required to complete all University general education (p. 33), University undergraduate requirements (p. 32), degree, and major requirements, including selected foundational courses (p. 58), which may fulfill some University general education requirements.

Teacher Certification Emphasis

The Teacher Certification emphasis prepares students to meet state teacher licensure requirements to teach agriculture in Missouri public schools at the secondary and adult levels. In addition to courses in agricultural education, the curriculum includes a diverse selection of courses in agriculture, food and natural resources and professional teacher certification courses offered through the College of Education. The capstone experience involves a semester-long teaching internship in a selected secondary agriculture program.

Semester Plan

Refer to the Semester Plan for the BS in Agricultural Education (p. 58) and visit with an advisor to discuss the differences in the Leadership emphasis area.

BS in Agricultural Education with Emphasis in Teacher Certification

Focus Area (minimum 9) (as approved by advisor) 9
Agricultural Economics 6
AG_EC 2223 Agricultural Sales 3
AG_EC 3241 Ethical Issues in Agriculture 3
AG_EC 2223 or AG_EC 3283 Fundamentals of Entrepreneurship 3
Animal Science 3
Animal Science Elective 3
Plant and Soil Science 3
Plant Science Elective 3
Natural Resources/Hospitality Management/Ag Systems Management 3
Natural Resources/Hospitality Management/Ag Systems Management Elective 3
Electives 29
CAFNR Electives 21
General Electives 9-13
### Minor in Agricultural Education

The Agricultural Education minor focuses on learning, teaching and the dissemination of information about agriculture, food and natural resource topics. The minor requires 15 credits of agricultural education course work with a minimum of 6 credits at the 3000 level or above.

### PhD in Agricultural Education

#### Degree Requirements

A total of 72 credit hours beyond the baccalaureate degree must be completed. The student's doctoral program committee must approve all course work used to satisfy the credit-hour requirement and may require additional course work beyond the minimum.

Within the 72 credit hour requirement, students should complete 12 credit hours of course work that focuses on developing an area of expertise. Concentrations may include, but are not limited to, Teacher Education, Extension Education, and Communication/Leadership. Electives, which are selected in consultation with the student's advisor, may require 27 credit hours beyond the minimum.

#### Qualifying Process

Details regarding the Qualifying Process can be found in the program's Graduate Handbook (http://dass.missouri.edu/aged/grad/grad-handbook.pdf).

#### Comprehensive Examination Process

Candidacy for a doctoral degree is established by passing the comprehensive examination. The comprehensive examination includes written and oral sections and is completed as the candidate is completing the prescribed coursework. Details regarding the examination process can be found in the program's Graduate Handbook (http://dass.missouri.edu/aged/grad/grad-handbook.pdf).

#### Dissertation Requirements

After passing the comprehensive examination, the program for the doctoral degree must be completed within five years. Upon completions of the dissertation research project, the candidate defends the dissertation before his/her doctoral research committee. Details regarding the dissertation process can be found in the program's Graduate Handbook (http://dass.missouri.edu/aged/grad/grad-handbook.pdf).

During the time when a student is working on the dissertation, candidacy is maintained by enrolling in AG_ED_LD 9090 Doctoral Research in Agricultural Education and Leadership for two credit hours each fall and spring semester, and for one credit hour each summer semester, up to and including the term in which the dissertation is defended. Continuous enrollment provides access to an advisor's support, doctoral program committee guidance, and University research facilities for completion of the dissertation. Failure to continuously enroll in AG_ED_LD 9090 until the doctoral degree is awarded terminates candidacy.

#### Admissions

Applicants are required to meet two sets of minimum qualifications for admission: the requirements of the PhD in Agricultural Education program (http://gradschool.missouri.edu/academics/programs/agricultural-education/doctorate.php) and the minimum requirements of the graduate faculty, enforced by the Office of Graduate Studies (http://gradstudies.missouri.edu/admissions/eligibility-process/minimum-requirements). Because requirements vary, you must refer to a degree program's graduate admission page to learn about specific admission criteria, application deadlines, eligibility and application process. Before official admission to the University of Missouri, your application materials...
will be reviewed by both the Graduate School and the degree program to which you've applied.

Agricultural Leadership, Communication and Education

Jon Simonsen, Associate Professor and Department Chair
College of Agriculture, Food and Natural Resources
126 Gentry Hall
(573) 884-7375
Fax: (573) 884-4444
Administrative Assistant: swaimc@missouri.edu
http://aged.missouri.edu

The agricultural education degree program provides students with the opportunity to combine an interest in agriculture, food and natural resources with their enjoyment of working and communicating with people. A degree in agricultural education leads to careers in which students can influence the understanding of agriculture and its role in society and the global economy.

The department offers the BS and PhD in Agricultural Education, as well as an MS in Agricultural Leadership, Communication and Education. A minor is also available.

Faculty

Professor A. L. Ball**, B. L. Garton**, L. G. Schumacher**
Associate Professor J. C. Simonsen**
Assistant Professor D. A. Cletzer*
Assistant Teaching Professor J. D. Tummons*
Assistant Teaching Professor S. Wood-Turley*
Professional Development C. Abbott
Professor Emeritus R. E. Linhardt, B. R. Stewart

* Graduate Faculty Member - membership is required to teach graduate-level courses, chair master's thesis committees, and serve on doctoral examination and dissertation committees.
** Doctoral Faculty Member - membership is required to chair doctoral examination or dissertation committees. Graduate faculty membership is a prerequisite for Doctoral faculty membership.

Undergraduate

While MU does not offer undergraduate degrees specifically in agricultural leadership, communication and education, the University does offer bachelor's degrees in the closely related areas of Agricultural Education (p. 58), as well as other related areas both within the College of Agriculture, Food and Natural Resources, and in the other Schools and Colleges that make up the University. The catalog provides a complete list of these degree options (p. 17).

Graduate

* MS in Agricultural Leadership, Communication and Education (p. 62)

The department also offers a BS (p. 58) and PhD (p. 58) in Agricultural Education.

MS in Agricultural Leadership, Communication and Education

Degree Requirements

The program consists of a minimum of 32 credits of graduate coursework beyond the bachelor's degree for the non-thesis/creative component option, and 30 credits for the thesis option. For a full explanation of the thesis/non-thesis options, see section below on Thesis/Non-Thesis Requirements (p. 63).

Sample Plan of Study

Because students in the M.S. program are from a wide variety of circumstances, and pursue the M.S. at all different paces, a sample plan of study is not easily produced. Students are encouraged to work out their plan of study with their advisor.

Thesis/Non-Thesis Requirements

The program offers students three options:

1. Creative Component Option
   This option is oriented toward improving a practitioner's professional proficiency in teaching, curriculum development, program planning and evaluations. The program of study should include courses and learning experiences that will develop the student's knowledge and skills in the processes of learning and teaching. The Creative Component option requires a minimum of 32 hours of graduate credit (to include a minimum of 29 hours of formal graduate courses, plus a maximum of 3 hours of 8080 Creative Component) with a minimum of 16 credit hours at the 8000 level and a minimum of 16 credit hours taken in Agricultural Education and Leadership. Candidates must also complete an approved creative component project.

2. Creative Component with Teacher Certification Option
   This option is designed for individuals who have earned a B.S. degree in an agricultural discipline and desire the initial teacher certification to teach agriculture at the secondary level. Included in the course work for this option are some of the classes needed for certification to teach secondary high school agriculture in Missouri.

3. Thesis Option
   This option is research-oriented, focusing on designing and conducting research in the social sciences. The program of study should include courses and learning experiences that will maximize a student's progress in developing skills that will enable the student to continue his/her education in a research-oriented area. The Thesis option requires a minimum of 30 hours of graduate credit (to include a minimum of 24 hours of formal graduate courses, plus a maximum of six hours of 8090 Research) with a minimum of 15 credit hours at the 8000 level and a minimum of 15 credit hours taken in Agricultural Education and Leadership. Candidates must also complete an approved thesis based on original research.

Admissions

Applicants are required to meet two sets of minimum qualifications for admission: the requirements of the MS in Agricultural Education program (http://gradschool.missouri.edu/academics/programs/agricultural-education/masters.php) and the minimum requirements of the Office of Graduate Studies (http://gradstudies.missouri.edu/academics/programs/graduate-studies/masters.php). Because requirements vary, you must refer to a degree program's graduate admission page to learn about specific admission criteria, application deadlines, eligibility and application process. Your application materials will be reviewed by both the Office of Graduate Studies and the degree program to which you've applied before official admission to the University of Missouri.

Agricultural Systems Management

Leon G. Schumacher, Chair
College of Agriculture, Food and Natural Resources
Division of Food Systems and Bioengineering
207 Agricultural Engineering Building
(573) 882-2731
ASM@missouri.edu

Agricultural systems management integrates physical systems with agricultural science and management skills to provide graduates with abilities to function in sales, service and maintenance management positions in agribusiness industries. The uniqueness of agricultural systems management graduates lies in their knowledge of the principles of physical systems that are the backbone of modern agricultural and food industries. The department offers the Bachelor of Science with a major in Agricultural Systems Management. A minor is also available.

Faculty

Professor D. Brune*, W. Downs, L. Schumacher*
Associate Professor D. Baker*, S. Borgelt*, K. Sudduth**, A. Thompson**
Assistant Professor B. Broz, B. Koc*, T. Lim*, J. Zulovich*
Research Associate K. Funkenbusch
Extension Associate D. Downing
Professor Emeritus D. Currence, J. Frisby, B. Hires, J. Hoehne, D. Pfoertner

* Graduate Faculty Member - membership is required to teach graduate-level courses, chair master's thesis committees, and serve on doctoral examination and dissertation committees.
** Doctoral Faculty Member - membership is required to chair doctoral examination or dissertation committees. Graduate faculty membership is a prerequisite for Doctoral faculty membership.

Undergraduate

- BS in Agricultural Systems Management (p. 64)
- Minor in Agricultural Systems Management (p. 65)

Graduate

While MU does not offer graduate degrees in ASM, the University does offer post-baccalaureate opportunities in a number of related areas, both
within the College of Agriculture, Food and Natural Resources, and in the other Schools and Colleges that make up the University. The catalog provides a complete list of these degree options (p. 17).

BS in Agricultural Systems Management

Degree Program Description
Agricultural Systems Management combines interests in machines and business. The business and technical skills acquired prepares students for any number of careers in many industries, including Agricultural and Power Equipment Manufacturing, Equipment Sales, Food Production and Processing, and Government. In Agricultural and Power Equipment Manufacturing, companies such as Caterpillar, Case IH and John Deere seek product developers, managers and supervisors trained in the latest in precision agriculture, hydraulics, electrical circuits, engines and machinery management. In Equipment Sales, local and regional dealerships who sell agricultural machinery to agricultural producers seek technical sales representatives who possess strong product knowledge and an understanding of business finance and marketing to provide producers with the equipment they need. In Food Production and Processing, companies such as Anheuser-Busch, Archer Daniels Midland, Frito-Lay, Pioneer Hi-Bred, Cargill and Purina Mills seek grain elevator and mill operators and managers to properly handle, store and process agricultural crops and materials. In Government, state and federal agencies such as the Missouri Department of Natural Resources, the U.S. Department of Agriculture and the Natural Resources Conservation Service seek consultants and specialists to oversee and regulate pesticide application, water handling and irrigation systems, animal waste management systems, and watershed management.

Major Program Requirements
Students earning a Bachelor of Science in Agricultural Systems Management are required to complete all University general education (p. 33), (p. 33) University undergraduate requirements (p. 32), degree, and major requirements, including selected foundational courses, which may fulfill some University general education requirements.

In consultation with their advisor, students may select elective courses to bring their total credit hours to the 120 hour minimum. Typically electives are chosen to provide emphasis in one of the following areas:

- Natural resource and environment
- Materials handling and crop processing
- Power and machinery systems
- Production agriculture

### Agricultural Equipment Dealership Management Program

Students who participate in the Agriculture Equipment Dealership Management program take a comprehensive sequence of courses in agricultural systems management and agricultural business management. Each student plans and completes an internship with a sponsoring dealer. Up to 6 credits may be earned through an Internship.

### Semester Plan

Below is a sample plan of study, semester by semester. A student's actual plan may vary based on course choices where options are available.

#### First Year

Total Credits: 120

### Minor in Agricultural Systems Management

15 hours of Agricultural Systems Management coursework. Of the 15 hours, 9 hours must be 3000 level or above.

### Faculty

See Listing for Faculty in areas of concentration by referring to the degree listings available under the College of Agriculture, Food and Natural Resources.

### Undergraduate

- BS in Agriculture (p. 65)
  - with emphasis in Sustainable Agriculture (p. 66)

Students may choose to get a BS in Agriculture without the emphasis.

### Graduate

While the College of Agriculture, Food and Natural Resources does not offer a graduate degree in Agriculture, the College does offer graduate degrees and certificates in a number of disciplinary areas. The catalog provides a complete list of these degree options (p. 17) for all Schools and Colleges that make up the University of Missouri.

### BS in Agriculture

#### Degree Program Description

The agriculture degree program is for students searching for a well-rounded education that builds on the diversity of the other degree programs in the College of Agriculture, Food and Natural Resources (CAFNR). The flexibility of agriculture degree enables students to tailor a...
Major Program Requirements

Students earning a Bachelor of Science in Agriculture are required to complete all University general education requirements, including selected foundational courses, which may fulfill some University general education requirements.

Degree and Major Courses

- Students in agriculture also must complete three areas of concentration from CAFNR programs that offer a major or a minor. The primary concentration area requires completion of 18 or more credits. Two additional concentration areas of at least 15 credits each are also required. (See below.)
- These courses shall not be used to fulfill the requirements of a minor.
- Within each concentration area, at least six credits must be at the 3000-level or above.
- Within each concentration area, at least 50 percent of the credits must be earned through MU courses.
- Credits used to meet the University general education requirements can be used to meet requirements in concentration areas.
- No more than six credits in the primary area and three credits in the secondary areas may consist of problems, readings, internships, travel courses and other non-structured courses.
- The capstone experience for agriculture majors can be a capstone course in a concentration area, an internship or capstone project. This capstone is in addition to credits in the concentration areas.

Areas of Concentration

- Agricultural Economics
- Agricultural Education
- Agricultural Leadership
- Agricultural Systems Management
- Animal Sciences
- Fisheries and Wildlife Sciences
- Food Science and Nutrition
- Forestry
- Hospitality Management

BS in Agriculture with Emphasis in Sustainable Agriculture

Degree Program Description

Sustainable agriculture meets the needs of both farmers and consumers by creating agricultural systems that produce food for a growing population in a way that protects the environment and supports healthy, ...)
dynamic communities. Increasingly, farmers are looking for creative ways to increase and diversify farm income, while consumers are seeking sustainably raised food produced close to home. A Bachelor of Science degree in Agriculture with an emphasis in Sustainable Agriculture provides the skills and knowledge to incorporate economic viability, environmental stewardship, and social responsibility in food and farming systems. Some of the areas studied include: theory and practice of environmental stewardship, and social responsibility in food and farming systems, and an introduction to soils. Some career opportunities include production, sales and marketing, government, and non-governmental organizations.

**Major Program Requirements**

CAFNR offers an emphasis area in Sustainable Agriculture as part of its Agriculture degree program. A minimum of 48 credits is required for the major program.

**Primary Concentration**

**Semester Plan**

A sample plan of study has not been designed for this major. Students should contact the academic department for assistance with academic planning.

**Animal Sciences**

Division of Animal Sciences
College of Agriculture, Food and Natural Resources
S102 Animal Sciences Center
(573) 882-7446
Fax: (573) 882-6827
http://animalsciences.missouri.edu

**Interim Division Director:** Dr. William Lamberson

Animal sciences is a broad field centered on the study of agriculturally important animals and their products. Graduates in animal sciences have employment opportunities in many areas including agribusiness (feed, pharmaceutical and meat industries; dairy and poultry products; public relations and research), production and management (farming/ranching; managers of livestock and poultry operations; zookeepers; consultants and technical service representatives), governmental agencies (USDA) and educational institutions (extension, teaching and research).
Students seeking admission into graduate and professional schools usually take more courses in the sciences than students in production and management, who select more business-related courses. Students and their faculty advisors select courses that fit the students’ needs, interests and objectives. The most specialization occurs at the graduate level.

The department offers BS, MS and PhD degrees with majors in Animal Sciences. A minor is also available.

Faculty

Associate Professor  C. Elsik**, J. A. Green**, R. Rivera**;  R. Schnabel*, K. Wells**
Assistant Professor  J. Decker**, A. Meyer**
Assistant Teaching Professor  T. Strauch*
Associate Research Professor  T. Ezashi*
Assistant Research Professor  A. Alexenko, D. Hagen*, J. Kim, E. Walters**
Adjunct Professor  D. Lubahn*
Instructor  M. Crosby, S. Hamilton

* Graduate Faculty Member - membership is required to teach graduate-level courses, chair master's thesis committees, and serve on doctoral examination and dissertation committees.
** Doctoral Faculty Member - membership is required to chair doctoral examination or dissertation committees. Graduate faculty membership is a prerequisite for Doctoral faculty membership.

Undergraduate

• BS in Animal Sciences (p. 69)
• Minor in Animal Sciences (p. 71)

Divisional Honors Program

In addition to the guidelines for the honors program in the College of Agriculture, Food and Natural Resources, students must meet the following requirements for the honors program in animal sciences. A student must be a junior or senior to participate in the honors program.

• Successful completion of either an internship or undergraduate research or a combination of both for 6 credits in animal sciences honors
• Program approval by a three-member departmental honors committee
• Submission of a written report plus an oral or poster presentation

Ag Scholars Program

This program provides early assurance of admission to the MU College of Veterinary Medicine for selected animal science majors on the University of Missouri campus.

High School seniors and MU freshman with an ACT composite score of 27 or more or an equivalent SAT score are eligible to apply for the Ag Scholars Program.

Students must have demonstrated experience or interest in livestock production and health. Examples of appropriate experience may include participation in a livestock enterprise as either a family member or an employee; enrollment in at least two years of high school agricultural coursework; and participation in FFA, 4H or equivalent organizations with projects directly related to livestock production or health; or completion of an internship of at least 250 supervised hours working in livestock production or a livestock health enterprise prior to applying for program admission.

Agreement with the College of Veterinary Medicine

The Division of Animal Sciences and the College of Veterinary Medicine have an articulation agreement which enables MU Animal Science majors who are admitted to the College of Veterinary Medicine before completing their B.S. degree to earn a B.S. degree in Animal Sciences during their days as a professional veterinary medicine student. In order to earn a B.S. degree in Animal Sciences the following requirements must be met:

• The student will successfully meet all General Education (p. 33) requirements established by the University of Missouri campus.
• The student will meet any additional college or divisional requirements.
• The student will be required to complete all MU Animal Sciences requirements except for 9 hours of Animal Science Senior electives.
• The student will also be able to substitute up to 20 hours completed in the College of Veterinary Medicine in lieu of general electives in order to complete the total number of student credit hours necessary for a B.S. degree in Animal Sciences.
• The B.S. degree in Animal Science will be granted after successful completion of the first year of Veterinary Medicine.

Graduate

• MS in Animal Sciences (p. 70)
• PhD in Animal Sciences (p. 71)

Division of Animal Sciences
920 E. Campus Drive, Columbia, MO 65211
(573) 882-8336

Director of Graduate Studies: William Lamberson

About Animal Sciences Graduate Programs

The Division of Animal Sciences has a broad-based teaching program, and our faculty members are noted for teaching and mentoring excellence. Our PhD program was recently ranked among the best in
the country by the National Research Council and our research program among the best in the world by Reuters. Our graduate program has maintained or increased numbers, support, and placement rates over the past five years. The Division strives to maintain a diverse faculty qualified to teach relevant courses in five discipline areas (reproductive and environmental physiology, ruminant and monogastric nutrition, genetics/genomics, meat science and livestock production) and across six species (swine, dairy cattle, beef cattle, poultry, companion animals and horses) to serve the demand for graduates to be employed nationwide in research, teaching and industry.

BS in Animal Sciences

Degree Program Description

Humans have been improving the value of animals as companions, transportation, laborers and food since the first dogs, horses, donkeys and cattle were domesticated. Animal science provides an in-depth focus on whole-animal biology and contributes to advances in livestock production, animal health and human health through cutting-edge research and direct application of that new knowledge. Animal Scientists apply the latest in genetics, physiology and nutrition to any of these diverse fields. By employing a whole-animal approach to science, this degree prepares students for any number of careers, including Agribusiness, Livestock Production, Research, Veterinarians, Captive Wild Animal Management, Animal Products and Equine Industry. In Agribusiness, our graduates are in demand to fill sales and management positions with feed and pharmaceutical companies such as Land O'Lakes, MFA, Zoetis and Elanco. In Livestock Production, graduates who prefer to work directly with animals find rewarding positions as managers of various farm companies, such as Tyson Foods, Smithfield, Cargill and other private companies. In Research, graduates with a passion for research are needed as lead scientists and laboratory technicians in industry and academia. As a Veterinarian, an animal sciences degree is often the starting point for the study of veterinary medicine. Some vets specialize in care for companion animals, such as dogs and cats, while others focus on livestock, horses or wildlife. In Captive Wild Animal Management, zoological parks hire animal sciences graduates to manage the care and well-being of the park’s collection. In addition to animal care, zookeepers also can be involved with research and conservation efforts. In Animal Products, students with a specific interest in meat, dairy products and eggs are in high demand for positions with companies such as Farmland, Hormel, Hy-Vee and Sam’s Club. Opportunities abound in procurement, sales, quality assurance and food safety. In Equine Industry, the degree focuses on the science behind equine management and as such students are placed in positions at prominent equine breeding, sales or training facilities throughout the U.S. Students have multiple opportunities to gain hands-on experience by using horses in the MU Quarter Horse Program.

Major Program Requirements

Students earning a Bachelor of Science in Animal Sciences are required to complete all University undergraduate general education requirements (p. 33), and divisional major requirements, including selected foundational courses, which may fulfill some University general education requirements.

Total Credits: 120

MS in Animal Sciences

Degree Requirements

You and your committee develop a program of study cooperatively. An official form or letter must accompany any change in a program. A satisfactory scholastic standard must be maintained. All courses taken for graduate credit must have a cumulative average of 3.0 or higher. If the GPA falls below 3.0 cumulative, you will be placed on academic probation. There will be no waiver of fees during this probationary period.

You must regain a 3.0 level at the end of the following semester or become subject to dismissal. This GPA must be maintained exclusive of problems, research and departmental seminars.

Graduate students taking 7000 level courses should expect course requirements beyond those of undergraduate students in order to warrant receiving graduate credit for those courses. The Division of Animal Sciences allows no more than two 7000 level Animal Science courses in a graduate program.

Seminars

Two credit hours in seminar are required for the Master of Science degree. To meet the seminar requirement courses must require presentations of technical information. Seminars provide an opportunity to develop skills in presenting technical information to a group of peers and permit you to become acquainted with specialists in the area of animal and biological sciences.

Responsible Conduct of Research

M.S. students are encouraged to take a course in “Responsible Conduct of Research”. This requirement can be met by taking either:

- BIOCHM/BIO_SC 8060 Ethical Conduct of Research 1
- V_PBIO 8641 Introduction to Research Ethics 1
- Other Responsible Conduct of Research course approved by the Director of Graduate Studies 1

Sample Plan of Study

Because students in the M.S. program are from a wide variety of circumstances, and pursue the M.S. at all different paces, a sample plan of study is not easily produced. Students are encouraged to work out their plan of study with their advisor.

Thesis/Non-Thesis Requirements

Thesis Option Requirements

Course Work 24
(15 hours must be at 8000-level)
8090 research 6
Seminars 2
Approved Thesis
Total Minimum Hours 30

Non-Thesis Option Requirements

Non-Thesis M.S. program does not serve in preparing a student for candidacy for a Ph.D. program.

Course Work 36
including 3 hours of 8450 research
Total Minimum Hours 36

Admissions

Admission Contact Information:
Gloria Johnson
920 E. Campus Drive
Columbia, MO 65211
(573) 882-8336
http://animalsciences.missouri.edu/academics/graduates.php

Applicants are required to meet two sets of minimum qualifications for admission: the requirements of the MS in Animal Science program (http://gradstudies.missouri.edu/academics/programs/animal-sciences/masters.php) and the minimum requirements of the Office of Graduate Studies (http://gradstudies.missouri.edu/admissions/eligibility-process/minimum-requirements). Because requirements vary, you must refer to a degree program's graduate admission page to learn about specific admission criteria, application deadlines, eligibility and application process. Your application materials will be reviewed by both the Office of Graduate Studies and the degree program to which you've applied before official admission to the University of Missouri.

Minor in Animal Sciences

To earn a minor in animal sciences, a student must meet the following requirements.

- A minimum of 15 hours of course credit in Animal Sciences
- A minimum of 9 hours of course work in Animal Sciences courses numbered 3000 or above.

- Students may select any combination of animal sciences courses excluding problems and internships to meet the above requirements; however, all students will be expected to meet prerequisites of animal sciences courses.
- Up to six transfer credits can be applied toward the minor; however, these transfer credits can only apply toward the lower level courses. Hence, a student must complete nine credit hours of Animal Science credits at MU that are 3000 level or higher.

PhD in Animal Sciences

Degree Requirements

Graduate students taking 7000 level courses should expect course requirements beyond those of undergraduate students in order to warrant receiving graduate credit for those courses. The Division of Animal Sciences allows no more than two 7000 level Animal Science courses in a graduate program.

The number of credit hours in formal course work and in research varies with the student's background, training, interests, and the nature of the research. At least 4 hours of seminar and a responsible conduct of research course are required. A dissertation based on original research is required of each candidate. Completion of requirements for a doctoral degree is generally expected within three years (five years without prior MS) after admission to the PhD program.

Seminars

Four credit hours in seminar are required for the PhD degree. To meet the seminar requirement courses must require presentations of technical information. Seminars provide an opportunity to develop skills in presenting technical information to a group of peers and permit you to become acquainted with specialists in the area of animal and biological sciences.

Responsible Conduct of Research

PhD students are required to take a course in “Responsible Conduct of Research”. This requirement can be met by taking either:

Dissertation Requirements

Admissions

Graduation Contact Information
Gloria Johnson
920 E. Campus Drive
Columbia, MO 65211
(573) 882-8336
http://animalsciences.missouri.edu/academics/graduates.php

Applicants are required to meet two sets of minimum qualifications for admission: the requirements of the PhD in Animal Sciences program (http://gradstudies.missouri.edu/academics/programs/animal-sciences/doctorate.php) and the minimum requirements of the Graduate School (http://gradschool.missouri.edu/admissions/eligibility-process/minimum-requirements.php). Because requirements vary, you must refer to a degree program's graduate admission page to learn about specific admission criteria, application deadlines, eligibility and application process. Before official admission to the University of Missouri, your application materials will be reviewed by both the Graduate School and the degree program to which you've applied.

Biochemistry

Gerald Hazelbauer, Chair
College of Agriculture, Food and Natural Resources
117 Schweitzer Hall
Phone: (573) 882-4845
Fax: (573) 882-5635
A course of study in the Department of Biochemistry emphasizes the application of chemical principles to biological systems and leads to the Bachelor of Science in Biochemistry. The program requires rigorous course work in the basic sciences, culminating with a two course capstone experience of discipline specific problems and laboratory techniques. Students are encouraged to gain research experience through independent projects in faculty labs. The biochemistry degree prepares students for further study in graduate or professional school or for a career in biochemistry, biotechnology or the biological, chemical or medical sciences.

Faculty

Assistant Professor X. Heng**, A. Koo**
Biochemistry at the University of Missouri is a division of the College of Agriculture, Food and Natural Resources and a department of the School of Medicine. As a nationally ranked top 10 biochemistry department among public medical schools, we offer outstanding training that helps students achieve their goals. We have 39 core faculty members and approximately 10 additional members, all of whom are available to mentor students in biochemistry. Nearly all facets of contemporary biochemical research are represented in their collective research interests. Our highly interactive program is an integral part of a campus-wide network of research programs including life sciences, genetics, nutrition, plant biochemistry and structural biology.

### Interdisciplinary Area Programs

- PhD in Nutrition Area Program (p. 714)
- PhD in Genetics Area Program (p. 691)
- Minors in Business (p. 350), and College Teaching (p. 732)

The graduate programs of the Department of Biochemistry prepare students for professional careers in academic institutions, industry and government. The Department of Biochemistry is administered by the College of Agriculture, Food and Natural Resources and the School of Medicine. It provides a great range of opportunities for multidisciplinary study in plant, animal and microbial biochemistry, molecular biology, structural biology, and chemical biology.

### Faculty Research

Virtually every important area of biochemistry and molecular biology is represented among the research interests of the faculty. These interests focus on plant biochemistry, hormonal control of plant and animal-cell metabolism, growth-factor structure and function, enzyme reaction mechanisms, biochemistry of development, biochemistry of human disease, lipid and carbohydrate metabolism, molecular biology, analytical biochemistry, proteomics, systems biochemistry, and structural biochemistry.

### Facilities

The department has modern, well-equipped laboratories in the Life Sciences Center, Schweitzer Hall, Schlundt Annex, and Stephens Hall. Additional faculty are housed in the Animal Sciences Research Center, Chemistry Building, Dalton Cardiovascular Research Center, Mason Eye Institute, and the Truman Veterans Hospital.

### Plans of Study

All students participate in individually planned research programs and have a supervised teaching experience along with course work. Students are expected to complete a program of courses in biochemistry and selected courses in modern biology and chemistry.

### Careers

Biochemistry at the University of Missouri provides world-class training that opens the door to a wide variety of career opportunities in the life sciences. Our graduates have career opportunities available in academia, industry, agriculture or medicine.

### Required Application Materials

All pre-requisites and application materials must be submitted by the annual deadline.

### MD/PhD in Biochemistry Dual Degree Program

Students already accepted into the School of Medicine at MU may apply to the Department for acceptance into the MD/PhD program. Students matriculating in the MD/PhD degree program must complete degree requirements of both the School of Medicine and the Graduate School. For information and for application forms, email gradprogram@missouri.edu or write the Director of Graduate Admissions in Biochemistry, 117 Schweitzer Hall, Columbia, MO 65211, or visit the website http://www.biochem.missouri.edu.

### BS in Biochemistry

**Degree Program Description**

Biochemists are the locksmiths of life science. They use their imagination, ingenuity and understanding of the basics of living processes to unlock life's mysteries. By unraveling the complexities of nature, they improve the quality of life. Biochemistry combines the tools of biology, chemistry and genetics to fight human disease, increase the production and quality of food, and protect the environment. The knowledge acquired through the program prepares students for careers in many areas, including Medicine, Biotechnology, Agriculture and Government. For Medicine, the degree provides excellent preparation for the intellectual demands of the medical profession. This training includes, as part of the degree requirements, all of the science courses necessary for application to medical school or related professional fields. Many graduates of this program matriculate at medical, dental, veterinary, pharmacy or optometry schools. In Biotechnology, some of the nation's largest and most respected private biotechnology companies, such as Bayer, Johnson & Johnson and Pfizer, employ biochemists in a wide range of specialties, including molecular biology, genetics engineering, pharmaceutical development and microbiology. Many graduates have chosen to pursue Masters or Doctoral degrees at major research institutions across the country. Some have been selected
for internships at National Institute of Health and others have earned National Science Foundation Pre- Doctoral Awards. In Agriculture, biochemists find employment with agricultural industry companies such as Cargill, Monsanto and Novartis. They may work on projects to develop new varieties of crops that resist drought and insects, produce pharmaceutical compounds, or tolerate herbicide application. In Government, state and federal agencies such as the U.S. Food and Drug Administration, U.S. Department of Energy and the Missouri Department of Agriculture employ biochemists in many fields. They might research biological alternatives for reclaiming sites contaminated with radioactive material or search for ways to protect against food-borne pathogens.

**Major Program Requirements**

Students earning a Bachelor of Science in Biochemistry are required to complete all University general education (p. 33), University undergraduate requirements (p. 32), and degree requirements, including selected foundational courses, which may fulfill some University general education requirements.

### Degree and Major Courses

#### Major core requirements

- **Biochemistry**: 24 CR
- BIOCHM 1090: Introduction to Biochemistry 3 CR
- BIOCHM 1094: Introductory Biochemistry Laboratory (Spring semester only) 2 CR
- BIOCHM 2480: Introduction to Macromolecular Structure and Function (Spring semester only) 2 CR
- BIOCHM 2484: Macromolecular Techniques Laboratory (Fall semester only) 2-3 CR
  - or BIOCHM 2484HW: Macromolecular Techniques Laboratory - Honors/Intensive 2 CR
- BIOCHM 4270: Biochemistry (I: First semester of two semester sequence) 3 CR
- BIOCHM 4272: Biochemistry (II: Continuation of BIOCHM 4270) 3 CR
- BIOCHM 4300: Physical Chemistry of Biological Systems 3 CR
- BIOCHM 4974W: Biochemistry Laboratory - Writing Intensive 5 CR
- BIOCHM 4970: Senior Capstone in Biochemistry (Capstone) 2 CR
- **Biology**: 4 CR
- BIO_SC 2200: General Genetics 4 CR
  - or AN_SC 3213: Genetics of Agricultural Plants and Animals 4 CR
  - or PLNT_S 3213: Genetics of Agricultural Plants and Animals 4 CR
- **Chemistry**: 12 CR
- CHEM 1330: College Chemistry II 4 CR
- CHEM 2100: Organic Chemistry I 3 CR
- CHEM 2110: Organic Chemistry II 3 CR
- CHEM 2130: Organic Laboratory I (Concurrent with CHEM 2110) 2 CR

MS in Biochemistry

Contact Information:
gradprogram@missouri.edu
117 Schweitzer Hall
Columbia, MO 65211
(573) 882-4846

Information regarding the MS in Biochemistry is available only upon written request.

PhD in Biochemistry

Degree Requirements

Along with courses and seminars, students embark on lab rotations, dissertation research, qualifying and comprehensive exams and committee meetings, culminating in the dissertation defense. Prior to successfully completing the comprehensive examination, a student must complete nine credit hours per semester, or four per summer, to remain a full-time graduate student. Following successful completion of both parts of the comprehensive exam, each student should register for a minimum of two hours of thesis/dissertation research per semester (or one in summer) to maintain continuous enrollment. More than the minimum may be needed to obtain the 72 credit hours required by the MU Graduate School (http://gradschool.missouri.edu) for completion of the PhD.

Core Course Work

</thead>
<tbody>
<tr>
<td>BIOCHM 8060</td>
<td>Ethical Conduct of Research</td>
<td>1</td>
</tr>
</tbody>
</table>

* All graduate students are required to earn a grade of B or better.
# A student who earns a grade of C or lower in any of these courses must retake the course.

Department Seminars

Students are expected to attend all department seminars (http://www.biochem.missouri.edu/news-events/seminars).

Teaching Experience

An important part of graduate education is learning to communicate effectively as a teacher. Two semesters enrolled in BIOCHM 9001 helps prepare the students for their teaching assistant experience which consists of one semester in an undergraduate laboratory or lecture venue. This is a required component of PhD degrees and typically is performed in the second year of graduate study. Students must satisfy this teaching experience requirement with a grade of B or better to remain in good standing as a graduate student in Biochemistry. This teaching experience usually involves assisting a faculty member in one of several courses and interacting with the students fairly extensively. The Biochemistry Department also offers a Zahler Fellowship for graduate students interested in teaching as a career. Missouri requires that students whose first language is not English demonstrate adequate oral proficiency before assisting in teaching.

Qualifying Process

Students who have earned grades of B or better in the required courses of BIOCHM 8240 Introduction to Graduate Biochemistry I and BIOCHM 8260 Macromolecular Systems Integration and are in good standing academically (cumulative GPA 3.0) should take the oral qualifying exam in May after their second semester. Failure to complete the oral qualifying exam by June of the second year will result in dismissal from the PhD program. Students who have received a C in a core course must retake the course and receive a grade of B or better to remain in the PhD program, even after passing the oral qualifying exam.

Comprehensive Examination Process

Students who have passed the qualifying exam should complete the written comprehensive exam within the next one to two semesters (by May of their second year). This examination involves writing a proposal for doctoral research in the format of a federal postdoctoral fellowship application. The student must then orally defend the proposal before his/her doctoral program committee plus a member of the graduate education committee. This is designed to assess the student’s ability to think critically about science and to communicate effectively both in writing and in an oral presentation.

Dissertation Requirements

BIOCHM 9087

Students should enroll in the first round of the one-hour seminar BIOCHM 9087 during the first semester. BIOCHM 9087 in the fall semester is designed to teach the fundamental techniques of oral presentation of scientific information, slide preparation, computer graphics, overhead preparation, etc., as well as research-compliance training. Students should complete three additional semesters of BIOCHM 9087 in spring semesters for a total of four credit hours. A student's first spring BIOCHM 9087 seminar is devoted to a presentation of the proposed dissertation research. The second should provide an update of research progress or a review of major journal papers in the student's research area. The third should be a practice for the dissertation defense. The student's thesis committee is expected to attend these presentations at the invitation of the student. A meeting with the doctoral program committee (DPC) can be arranged after the seminar presentation and may serve as the required annual meeting.

Thesis/Dissertation Research

BIOCHM 9090

Prior to successfully completing the comprehensive examination, a student must complete nine credit hours per semester, or four per summer, to remain a full-time graduate student. Following successful completion of both parts of the comprehensive exam, each student should register for a minimum of two hours of thesis/dissertation research per semester (or one in summer) to maintain continuous enrollment. More than the minimum may be needed to obtain the 72 credit hours required by the MU Graduate School (http://gradschool.missouri.edu) for completion of the Ph.D.

Research Rotations

Starting in the fall semester of the first year, each student completes three laboratory rotations with the aim of identifying a lab in which to
conduct PhD thesis research. By the end of the second semester, most students have chosen their labs. Each rotation should be conducted for a period of at least eight weeks. Two rotations are performed in the first semester, with the second rotation ending Dec. 31. The third rotation begins Jan. 1 or soon after. One-half of the student’s time and effort should be directed toward the rotation project and the other half toward course work. The rotation laboratory should serve as an academic home, and the student should participate in all usual laboratory activities, including weekly group meetings.

Admissions
Biochemistry Graduate Admissions Support
117 Schweitzer Hall
Columbia, MO 65211
(573) 882-4846, (800) 647-2414
ggradprogram@missouri.edu

Applicants are required to meet two sets of minimum qualifications for admission: the requirements of the PhD in Biochemistry program (http://gradstudies.missouri.edu/academics/programs/biochemistry/doctorate.php) and the minimum requirements of the Graduate School (http://gradschool.missouri.edu/admissions/eligibility-process/minimum-requirements.php). Because requirements vary, you must refer to a degree program’s graduate admission page to learn about specific admission criteria, application deadlines, eligibility and application process. Before official admission to the University of Missouri, your application materials will be reviewed by both the Graduate School and the degree program to which you’ve applied.

Environmental Sciences

Patrick S. Market, Degree Program Coordinator
Environmental Sciences
School of Natural Resources
College of Agriculture, Food, and Natural Resources
331 Anheuser-Busch Natural Resources Building
(573) 882-7045

Earth’s environment provides conditions conducive for life: an oxygenated atmosphere; water resources; and soil as a medium for plant growth. Environmental processes occurring on the planet govern the movement of air, energy, matter, and water. Through the study of Environmental Sciences, students will learn the science and experience the beauty of the outdoor environment. This degree program addresses how human activities can adversely alter some environmental processes and environmental quality, techniques to improve environmental quality, and practices that minimize human impacts on the environment.

The Environmental Sciences degree provides a strong science foundation through general science coursework and specialized studies of the atmosphere, land and soil, water, and environmental outreach and education. The degree combines interests in predicting and understanding weather patterns, monitoring environmental change, conserving and managing soil and biological organisms, assuring healthy streams and adequate water supplies, and improving environmental quality with the shaping of new policies and educating others about the natural environment and environmental issues. Example careers include Atmospheric Scientist, Climatologist, Environmental Specialist, Environmental Technician, Hydrologist, Land Manager, Meteorologist, Soil Scientist, and Water Quality Specialist. Employment may occur in a variety of sectors, including federal, state, county and city government agencies, non-government agencies (NGOs), and private consulting firms.

Adjunct Associate Professor C. Bafaut*, F. Eivazi*, R. N. Lerch**, I. I. Mokhov, J. Yang*
Adjunct Assistant Professor J. O. Adegoke*, T. Eichler, S. Lack, B. Myers, M. Nathan, B. Pettegrew, F. J. Young*
Associate Research Professor R. P. Udawatta**
Assistant Professor A. Argerich, C. J. Li, R. North
Instructor E. Aldrich, D. Freeman, P. Quackenbush
Extension Assistant Professor P. E. Guinan**

• Graduate Faculty Member - membership is required to teach graduate-level courses, chair master’s thesis committees, and serve on doctoral examination and dissertation committees.
• Doctoral Faculty Member - membership is required to chair doctoral examination or dissertation committees. Graduate faculty membership is a prerequisite for Doctoral faculty membership.

Undergraduate

• BS in Environmental Sciences (p. 76)
  • with emphasis in Atmosphere (p. 77)
  • with emphasis in Land and Soil (p. 78)
  • with emphasis in Outreach and Education (p. 79)
  • with emphasis in Water (p. 80)

Dual Degree - Geological Sciences and Environmental Sciences

The Department of Soil, Environmental and Atmospheric Sciences and the Department of Geological Sciences offer a dual BS in Geological Sciences and in Environmental Sciences. The dual degree program requires 132 credits for graduation. For more information on the dual degree program, contact an advisor in the Department of Soil, Environmental and Atmospheric Sciences or the Department of Geological Sciences.

Dual Degree - Biochemistry and Environmental Sciences

The Department of Soil, Environmental and Atmospheric Sciences and the Division of Biochemistry offer a dual BS degree in Biochemistry and in Environmental Sciences. The dual degree program requires 134 credits for graduation. For more information on the dual degree program, contact an advisor in the Department of Soil, Environmental and Atmospheric Sciences or the Division of Biochemistry.

Dual Degree - Forestry and Environmental Sciences

The Department of Soil, Environmental and Atmospheric Sciences and the Department of Forestry offer a dual degree in Forestry and
in Environmental Sciences. The dual degree requires 136 credits for graduation. For more information on the dual degree program, contact an advisor in the Department of Soil, Environmental and Atmospheric Sciences or the Department of Forestry.

Graduate study at the University of Missouri (MU) in soil, environmental, and atmospheric sciences is designed to prepare students for professional careers in research, teaching or practical application of the principles of soil, environmental and atmospheric sciences (SEAS).

As of the fall 2013 semester, options for graduate study in SEAS will be offered through the MS in Natural Resources with an emphasis in SEAS (p. 102) and the PhD in Natural Resources with an emphasis in SEAS (p. 109). Focus areas in soil science, environmental science or atmospheric science are available through these options. Details on both degree programs, including recommended preparation, admission criteria, required application materials, degree requirements and financial aid, are provided in the graduate tab of the Natural Resources section (p. 97) of the catalog under the College of Agriculture, Food and Natural Resources.

Graduate Focus Areas

Atmospheric Science

Atmospheric science students participate in an area of research such as dynamic and physical meteorology, general circulation, global climate change, severe storms, remote sensing and applied climatology with emphasis on environmental and socioeconomic impacts.

The program has a specialized computer laboratory that includes significant hardware and software to support thesis and dissertation research. There are also occasional opportunities for joint research programs with the National Center for Atmospheric Research.

Environmental Science

Environmental science students may participate in environmental quality, hydrology, watershed management, and water quality focus areas. State-of-the-art equipment for chemical, biological and physical analysis of water and earth materials is available for use in laboratories maintained by the SEAS Department in the School of Natural Resources.

The program has a working scale-nested watershed study spanning native lands as well as agricultural, and urban environments, thus supplying an excellent outdoor teaching and research laboratory.

Soil Science

Soil science students may participate in one of the following focus areas: environmental quality, pedology, soil chemistry and biochemistry, soil microbiology, soil physics and conservation, soil management, or soil fertility and plant nutrition.

State-of-the-art equipment for chemical, biological and physical analysis of soils is available for use in laboratories maintained by the SEAS Department in the School of Natural Resources. Access to additional chemical analysis equipment, computing facilities, digital imaging equipment, field facilities, greenhouse space, radiochemistry and scanning electron microscopes is available within the University of Missouri.

Financial Aid from the Program

Check the program website (http://www.snr.missouri.edu/seas/academics/graduate-program.php) or contact the program for details on scholarships or graduate assistantships that may be available.

BS in Environmental Sciences

Degree Program Description

Earth’s environment provides conditions conducive for life: an oxygenated atmosphere; water resources; and soil as a medium for plant growth. Environmental processes occurring on the planet govern the movement of air, energy, matter, and water. Through the study of Environmental Sciences, students will learn the science and experience the beauty of the outdoor environment. This degree program addresses how human activities can adversely alter some environmental processes and environmental quality, techniques to improve environmental quality, and practices that minimize human impacts on the environment.

The Environmental Sciences degree provides a strong science foundation through general science coursework and specialized studies of the atmosphere, land and soil, water, and environmental outreach and education. The degree combines interests in predicting and understanding weather patterns, monitoring environmental change, conserving and managing soil and biological organisms, assuring healthy streams and adequate water supplies, and improving environmental quality with the shaping of new policies and educating others about the natural environment and environmental issues. Example careers include Atmospheric Scientist, Climatologist, Environmental Specialist, Environmental Technician, Hydrologist, Land Manager, Meteorologist, Soil Scientist, and Water Quality Specialist. Employment may occur in a variety of sectors, including federal, state, county and city government agencies, non-government agencies (NGOs), and private consulting firms.

Degree Program Description

Earth’s environment provides conditions conducive for life: an oxygenated atmosphere; water resources; and soil as a medium for plant growth. Environmental processes occurring on the planet govern the movement of air, energy, matter, and water. Through the study of Environmental Sciences, students will learn the science and experience the beauty of the outdoor environment. This degree program addresses how human activities can adversely alter some environmental processes and environmental quality, techniques to improve environmental quality, and practices that minimize human impacts on the environment.

The Environmental Sciences degree provides a strong science foundation through general science coursework and specialized studies of the atmosphere, land and soil, water, and environmental outreach and education. The degree combines interests in predicting and understanding weather patterns, monitoring environmental change, conserving and managing soil and biological organisms, assuring healthy streams and adequate water supplies, and improving environmental quality with the shaping of new policies and educating others about the natural environment and environmental issues. Example careers include Atmospheric Scientist, Climatologist, Environmental Specialist, Environmental Technician, Hydrologist, Land Manager, Meteorologist, Soil Scientist, and Water Quality Specialist. Employment may occur in a variety of sectors, including federal, state, county and city government agencies, non-government agencies (NGOs), and private consulting firms.

### Total Credits: 125

### BS in Environmental Sciences with Emphasis in Water

#### Degree Program Description

Earth’s environment provides conditions conducive for life: an oxygenated atmosphere; water resources; and soil as a medium for plant growth. Environmental processes occurring on the planet govern the movement of air, energy, matter, and water. Through the study of Environmental Sciences, students will learn the science and experience the beauty of the outdoor environment. This degree program addresses how human activities can adversely alter some environmental processes and environmental quality, techniques to improve environmental quality, and practices that minimize human impacts on the environment.

The Environmental Sciences degree provides a strong science foundation through general science coursework and specialized studies of the atmosphere, land and soil, water, and environmental outreach and education. The degree combines interests in predicting and understanding weather patterns, monitoring environmental change, conserving and managing soil and biological organisms, assuring healthy streams and adequate water supplies, and improving environmental quality with the shaping of new policies and educating others about the natural environment and environmental issues. Example careers include Atmospheric Scientist, Climatologist, Environmental Specialist, Environmental Technician, Hydrologist, Land Manager, Meteorologist, Soil Scientist, and Water Quality Specialist. Employment may occur in a variety of sectors, including federal, state, county and city government agencies, non-government agencies (NGOs), and private consulting firms.

#### Major Program Requirements

In addition to university general education (p. 33) requirements, students must meet school requirements as well as the degree requirements below:

### Water Emphasis Area

#### Biological Science

- BIO_SC 1200: General Botany with Laboratory
- BIO_SC 1500: Introduction to Biological Systems with Laboratory
- BIO_SC 3650: General Ecology
- BIO_SC 3620: Principles of Geology with Laboratory
- GEOI 1100: Environmental Geology with Laboratory
- GEOI 2200: Oceanography
- GEOI 2450: Global Water Cycle
- CV_ENG 4250: Environmental Regulatory Compliance
- CV_ENG 4250: Environmental Regulatory Compliance

**Total Credits:** 3

**Recommended Elective:**

- F_W 2700: Ichthyology
- CHEM 1330: College Chemistry II
- CHEM 1330: College Chemistry II
- Geology
- Geology
- Policy/Regulation
- Policy/Regulation
- Natural Resource Policy/Administration
- Natural Resource Policy/Administration
- Environmental Regulatory Compliance
- Environmental Regulatory Compliance

**Total Credits:** 15
Society, Agriculture and Natural Resources

**Soil Science**
- SOIL 2100: Introduction to Soils 3
- SOIL 2106: Soil Science Laboratory 2

**Additional Emphasis Area Requirements**
- ENV_SC 3250: Pollutant Fate and Transport 3
- ENV_SC 3290: Soils and the Environment 3
- ENV_SC 4940: Environmental Science Internship 1-99
- F_W 3400: Water Quality and Natural Resource Management 3

or
- FOREST 4390: Watershed Management and Water Quality
- AG_S_M 4420: Surface Water Management

**Hydrology Track**
- AG_S_M 4420: Surface Water Management 3
- ATM_SC 3600: Climates of the World 3
- ATM_SC 4400: Micrometeorology 3
- ATM_SC 4590: Radar Meteorology 3
- BIOL_EN 4150: Soil and Water Conservation Engineering 3
- CV_ENG 3700: Fluid Mechanics 3
- CV_ENG 3702: Hydrology 3
- ENV_SC 4305: Environmental Soil Physics 3
- ENV_SC 4306: Environmental Soil Physics Laboratory 2
- ENV_SC 4318: Environmental Soil Chemistry 3
- F_W 3400: Water Quality and Natural Resource Management 3
- FOREST 4390: Watershed Management and Water Quality 3
- GEOG 4630: River and Stream Dynamics 3
- GEOL 4100: Groundwater Hydrology 3

**Water Quality Track**
- AG_S_M 4420: Surface Water Management 3
- BIOL_EN 4150: Soil and Water Conservation Engineering 3
- ENV_SC 4305: Environmental Soil Physics 3
- ENV_SC 4306: Environmental Soil Physics Laboratory 2
- ENV_SC 4312: Environmental Soil Microbiology 3
- ENV_SC 4318: Environmental Soil Chemistry 3
- F_W 3400: Water Quality and Natural Resource Management 3
- F_W 3900: Ecology of Fishes 3
- F_W 4100: Limnology 3
- F_W 4800: Environmental Toxicology 3
- FOREST 4390: Watershed Management and Water Quality 3
- GEOL 4300: Introduction to Low-Temperature Geochemistry 3
- PLNT_S 4720: Aquatic Entomology 3
- SOIL 4313: Soil Fertility and Plant Nutrition 3

**Capstone Experience**
- ENV_SC 4320: Hydrologic and Water Quality Modeling 3

**Electives approved by faculty or professional advisor to complete 125 credits**

---

**Semester Plan**

Below is a sample plan of study, semester by semester. A student’s actual plan may vary based on course choices where options are available.

**Food Science and Nutrition**

Food Science
256 William Stringer Wing
(573) 882-4113
Fax:(573) 884-0104
Ingolf Gruen, Program Chair
(573) 882-6746
grueni@missouri.edu
http://foodscience.missouri.edu

Andrew Clarke, Undergraduate Advisor Chair
(573) 882-2610
Typical employment areas for graduates of the food science program include quality assurance, quality control, product development, sensory science and flavor chemistry. The food science curriculum meets the standards established by the Institute of Food Technologists.

Faculty
Professor F. H. Hsieh**, A. Mustapha**
Associate Professor A. D. Clarke**, I. U. Gruen**, M. Lin**
Assistant Professor M. Kwasniowski*, B. Vardhanabhuti*
Adjunct Associate Professor L. Occena-Po*
Adjunct Assistant Professor G. Zheng*
Research Professor Emeritus M. Ellersieck*
Professor Emeritus R. T. Marshall*, N. Unklesbay*
Adjunct Instructor J. Elmore, M. Jones

* Graduate Faculty Member - membership is required to teach graduate-level courses, chair master's thesis committees, and serve on doctoral examination and dissertation committees.
** Doctoral Faculty Member - membership is required to chair doctoral examination or dissertation committees. Graduate faculty membership is a prerequisite for Doctoral faculty membership.

Undergraduate
• BS in Food Science and Nutrition (p. 82)
• Minor in Food Science and Nutrition (p. 85)

The department offers the Bachelor of Science degree with a major in Food Science and Nutrition within four tracks, namely Food Science, Food Business, Enology and Culinary Sciences. A minor is available.

Note: Tracks do not appear on transcripts or diplomas.

Graduate
• MS in Food Science (p. 84)
• PhD in Food Science (p. 86)

College of Agriculture, Food and Natural Resources
256 William Stringer Wing
(573) 882-4113
http://foodscience.missouri.edu

Director of Graduate Studies: Azlin Mustapha

About Food Science
Candidates are prepared for careers in research or advanced professional careers in the food industry, teaching positions in community and junior colleges, 4-year colleges and in supporting roles in academics or industry. Graduates also may play leadership roles in extension or other adult education programs, food production and quality assurance, or government agencies. Selected careers include research and development for private industry or the federal government, food plant supervision, technical operation, product development, nutrition, distribution, food service and food regulatory work.

Facilities and Resources
Departmental cooperation with the food industry is excellent. Special facilities for food science study and research include chemical, microbiological and analytical laboratories, as well as pilot plants to study food processing.

Funding
Assistantships are available on a competitive basis to qualified students from funds provided by the Agricultural Experiment Station, research contracts and grants. Fellowships supported by industry and professional societies, based on national competition, are also available.

BS in Food Science and Nutrition

Degree Program Description
From creating low-fat ice cream flavors that don’t taste low-fat, to developing packaging that protects food from E. coli and other pathogens, food scientists work to ensure the foods that fill your shopping cart are safe, nutritious and delicious. Food Science and Nutrition uses the latest in food manufacturing to turn agricultural commodities into products that consumers want to buy. A degree in food science and nutrition provides the skills needed to succeed in a variety of food science careers. The degree can be individualized by choosing between four degree tracks: Food Science, Food Business, Enology (Winemaking), Culinary Science. Some careers include Food technologist, product developers and quality assurance supervisors. Food technologists are employed by some of the world’s largest and most respected private industry companies, including Del Monte Foods, General Mills, H.J. Heinz and Kellogg. They apply the principles of many scientific disciplines, such as biology, chemistry, engineering, physics, molecular biology, nutrition and microbiology to the challenges of food production. Product developers find employment with many of the same companies as food technologists. Their job, however, focuses more on other aspects of food manufacturing such as consumer acceptability, economics, production feasibility and marketing. Developers also explore new ways to enhance nutritional value and health benefits. Quality assurance supervisors work in private industry but also are employed by government agencies such as the U.S. Department of Agriculture and the Food and Drug Administration. They are responsible for reviewing safety and manufacturing protocol to ensure that the food you eat is safe and of the highest quality.

Major Program Requirements
Students earning a Bachelor of Science in Food Science and Nutrition are required to complete all University general education (p. 33), University undergraduate requirements (p. 32), degree, and major requirements, including foundational courses, which may fulfill some University general education requirements.

MS in Food Science

Degree Requirements
- Minimum of 30 hours of graduate-level coursework.
- 15 hours must be at the 8000-level or above.
- Maximum of 40% of coursework can be F_S 8090 or F_S 8085 hours.

While a basic goal of the M.S. program is to provide students with specialized skills and training in research methods, the Food Science graduate faculty (including faculty from Food Science, Hospitality Management and Agricultural Systems Management) believe that it is important for M.S. students to understand something of the breadth of the discipline as well.

There are three tracks in the Food Science M.S. program: Food Science, Hospitality Management and Agricultural Systems Management. Each track includes specific required courses.

Food Science Track Required Courses:

- **Chemistry and Analysis**: 3-4
  - F_S 7310 | Food Chemistry and Analysis | 4
  - or F_S 7311 | Investigation of Food Properties | 4
  - or F_S 7315 | Food Chemistry and Analysis Laboratory | 4

- **Engineering/Processing**: 3-4
  - F_S 7330 | Principles of Food Processing | 4
  - or BIOL_EN 7160 | Food Process Engineering | 4

- **Microbiology**: 3-5
is officially in session and has to be announced at least two weeks prior to the scheduled date. The exit seminar is open to the general university audience. All members of the M.S. Program Committee will attend.

Final Examination
After the student’s exit seminar has been presented, the M.S. Program Committee will conduct a final oral examination. The candidate should be prepared to defend his/her research and discuss any related areas.

A report of the examination, carrying the signatures of at least three members of the committee, must be sent to the MU Office of Graduate Studies before the deadline preceding the anticipated date of graduation. For the thesis to be considered successfully defended, the student’s M.S. Program Committee must vote to pass the student on the defense with no more than one dissenting or abstaining vote.

All exit seminars are open to the general faculty. The Food Science program will announce exit seminars to appropriate colleagues within and outside the program. The final examination must take place when MU is officially in session and the candidate must be enrolled at MU at the time of the examination.

A final copy of the thesis must be submitted to the MU Office of Graduate Studies electronically. A final bound copy of the thesis and at least one manuscript suitable for publication must be submitted to the department.

Admissions
Applicants are required to meet two sets of minimum qualifications for admission: the requirements of the MS in Food Science program (http://gradstudies.missouri.edu/academics/programs/food-science/master-of-science-in-food-science.php) and the minimum requirements of the Office of Graduate Studies (http://gradstudies.missouri.edu/admissions/eligibility-process/minimum-requirements). Because requirements vary, you must refer to a degree program’s graduate admission page to learn about specific admission criteria, application deadlines, eligibility and application process. Your application materials will be reviewed by both the Office of Graduate Studies and the degree program to which you’ve applied before official admission to the University of Missouri.

Minor in Food Science and Nutrition

<table>

<tr>
<th>Food Science Courses (minimum)</th>
<th>15</th>
</tr>
</thead>
<tbody>
<tr>
<td>F_S 1030 Food Science and Nutrition</td>
<td>3</td>
</tr>
</tbody>
</table>

One of the following disciplinary courses: 3-4

| F_S 4310 Food Chemistry and Analysis |
| F_S 4311 Investigation of Food Properties |
| F_S 4315 Food Chemistry and Analysis Laboratory |
| F_S 4330 Principles of Food Processing |
| F_S 4370 Food Microbiology |
| F_S 4380 Sensory Analysis of Food and Beverages |

One of the following capstone courses: 3

| F_S 4970 Food Product Development |
| F_S 4980 Food Quality Assurance |

Two other Elective Courses in Food Science 5-6

9 of the 15 credits need to be fulfilled with 3000-level or higher Food Science courses.
Cross-listed courses can be taken in either the home program or the cross-listed program.

**PhD in Food Science**

**Degree Requirements**

- Minimum of 72 hours of graduate level coursework beyond the Bachelor's degree.
- 15 hours must be at the 8000-level or above, exclusive of readings, research, problems and independent study hours.
- Maximum of 30 hours of post-baccalaureate graduate credits (exclusive of readings, research, problems and independent study hours) from a regionally accredited university may be transferred in.

While a basic goal of the Ph.D. program is to provide students with highly specialized research skills and knowledge in a particular subdivision of Food Science, the faculty believe that it is important for Ph.D. students to understand the breadth of the discipline as well.

There are three tracks in the Food Science Ph.D. program: Food Science, Hospitality Management and Agricultural Systems Management. Courses required for all three tracks and those required for each track, respectively, are listed below.

**Required Courses for Food Science, Hospitality and Agricultural Systems Management Tracks:**

The plan of study, completed under the guidance of a Doctoral Degree Program Committee, consists of a list of formal courses and research or problems hours.

**Minimum Requirements**

- Hours beyond the baccalaureate degree: 72
- Graduate level courses (excluding Problems, Research or Independent Study): 15
- F_S 9087 Seminar in Food Science (2 cr of F_S 8087 may be transferred in. F_S 9087 repeated for a total of 4 credit hours) 1
- F_S 9090 Research in Foods Science 6
- F_S 8090 Research in Food Science 6

**Dissertation Requirements**

### Engineering/Processing

- **F_S 7330** Principles of Food Processing 4
- **or BIOL_EN 7160** Food Process Engineering 4

### Microbiology

- **F_S 7370** Food Microbiology 3
- **F_S 7375** Food Microbiology Laboratory 2

### Quality Assurance

- **F_S 7360** Food Quality Assurance 3

### Commodity Groups

- **F_S 7331** Technology of Dairy Products and Ingredients 3
- **or F_S 7344** Processing Muscle Foods 3
- **or F_S 7440** Principles of Winemaking and Wine Chemical Analysis 3

### Hospitality Management Track Required Courses:

- HSP_MGMT 7100 Hospitality Human Resources Management 3
- HSP_MGMT 7110 Hospitality Sales and Marketing 3
- HSP_MGMT 7180 Strategic Management in the Hospitality Industry 3
- HSP_MGMT 7200 Destination Management 3
- HSP_MGMT 7400 Hospitality Finance Management 3

### Agricultural Systems Management Track Required Courses:

- AG_S_M 7020 Agricultural Safety and Health 3
- **or AG_S_M 7140** Electricity: Wiring and Equipment 3
- AG_S_M 7220 Material Handling and Conditioning 3
- **or AG_S_M 7320** Agricultural Equipment and Machinry 3
- **or AG_S_M 7360** Precision Agriculture Science and Technology 3
- AG_S_M 7390 Optimization and Management of Food and Agriculture Systems 3
- **or AG_S_M 7420** Surface Water Management 3
- **or AG_S_M 7460** Irrigation and Drainage 3

### Sample Plan of Study

The Doctoral Degree Program Committee must be identified by the end of the student's second semester. This committee must include at least four MU graduate faculty members, three of whom must be from the Food Science Program (according to the chosen track), including the advisor. The advisor chair and at least one other committee member must also be members of MU Doctoral Faculty. At least one committee member must be a graduate faculty member from MU but outside the chosen track in the Food Science Program.
Qualifying Exam
To fulfill the Ph.D. Qualifying Exam, a proposal of the Ph.D. dissertation research must be presented to and approved by the student's Doctoral Degree Program Committee by the end of the student's second semester. The D1 form must be submitted to the Office of Graduate Studies by the end of the second semester to indicate the results of this Qualifying Exam. The D2 form must also be submitted by the end of the second semester. The student's Doctoral Degree Program Committee shall determine the course of action for students who do not pass the Qualifying Exam.

Research
Students are expected to begin their research once their proposal has been approved by the Doctoral Degree Program Committee during their Qualifying Exam. Students are required to conduct periodic committee meetings to update the Doctoral Degree Program Committee on his/her research progress throughout the Ph.D. program. Significant modifications of the research studies following initial approval of the proposed Ph.D. research during the Qualifying Exam must be approved by the student's Doctoral Degree Program Committee. Upon completion of the research, a dissertation based on original research must be reviewed and approved by the student's Doctoral Degree Program Committee. All Ph.D. candidates are required to prepare at least one manuscript, judged acceptable by the major advisor and at least one additional member of the student's Doctoral Degree Program Committee, for submission to a refereed journal, prior to the final dissertation defense.

Exit Seminar
Immediately before the defense of the dissertation, the student must present a formal seminar on his/her research. The seminar must take place when MU is officially in session, must be announced at least two weeks prior to the scheduled date and is open to the general university audience.

Final Examination
After the seminar has been presented, a final defense oral examination will be conducted by the Doctoral Degree Program Committee. The candidate should be prepared to defend his/her research and to discuss any related areas.

A report of the examination (D4 form), carrying the signatures of all members of the committee, must be sent to the MU Office of Graduate Studies before the deadline preceding the anticipated date of graduation. For the dissertation to be considered successfully defended, the student's Doctoral Degree Program Committee must vote to pass the student on the defense with no more than one dissenting or abstaining vote. All dissertation exit seminars are open to the public. The Food Science Program will announce dissertation exit seminar dates to appropriate colleagues within and outside the Food Science Program. The dissertation defense must take place when MU is officially in session and the candidate must be enrolled at MU at the time.

A final copy of the dissertation must be submitted to the MU Office of Graduate Studies electronically.

Comprehensive Examination Process
The comprehensive examination must be completed at least seven months prior to the dissertation research defense. Students must be enrolled in order to take this exam and MU must officially be in session. This examination is designed to measure the student's knowledge of food science and related areas. In addition, students are expected to demonstrate the ability to think clearly and critically and to express themselves adequately in both written and spoken English. After completion of the written exam, the student, in consultation with their major advisor and Doctoral Degree Program Committee should schedule the oral exam. The oral exam is designed to determine whether the student can think clearly on their feet and express themselves well in English. The student will be expected to defend their answers on the written portion of the comprehensive exam as well as any other areas the committee wishes to explore. Both the written and oral sections of the Comprehensive Exam must be completed within one month. For the Comprehensive Exam to be completed successfully, the student's Doctoral Degree Program Committee must vote to pass the student on both the written and oral sections of the exam with no more than one dissenting or abstaining vote. Students who fail the Comprehensive Exam may not retake the exam for at least 12 weeks. Failure to pass two Comprehensive Exam automatically prevents candidacy. Results of the Comprehensive Exam (D3 form) with signatures from all committee members must be submitted to the Office of Graduate Studies.

Admissions
Applicants are required to meet two sets of minimum qualifications for admission: the requirements of the PhD in Food Science program (http://gradstudies.missouri.edu/academics/programs/food-science/dissertation) and the minimum requirements of the Office of Graduate Studies (http://gradstudies.missouri.edu/admissions/eligibility-process/minimum-requirements). Because requirements vary, you must refer to a degree program's graduate admission page to learn about specific admission criteria, application deadlines, eligibility and application process. Your application materials will be reviewed by both the Office of Graduate Studies and the degree program to which you’ve applied before official admission to the University of Missouri.
anchored in theories of business education and develop skills and competencies that are essential to hospitality operations. Students in the major have the option to specialize in one for four emphasis areas: Conference & Event Planning Management (C&E), Food & Beverage Management (F&B), Lodging Management (LM), and Sport Venue Management (SVM). You may also obtain your BS in Hospitality Management online, where students have the flexibility to study anywhere and anytime. (http://online.missouri.edu/degreeprograms/ cafnr/hospitality-management/bachelors/admissions.aspx).

One of the unique features of the program is the exposure of students to the hospitality industry in the form of hands-on learning. In HSP_MGMT 4993 Internship in Hospitality Management course, students will have the opportunity to apply management concepts and theories from their coursework to practical work experiences in industry, under the direction of faculty mentors and industry professionals.

The program has a state-of-the art food-service facility that houses a food production laboratory, a commercial kitchen and a multi-purpose dining establishment that plays host to the student-run Café at Eckles Hall, a catering and fine dining evening experience. The facility provides a practice laboratory for food and consumer based research opportunities as well. In addition, the program leverages the concept of “living laboratories” by partnering with University of Missouri facilities like the University Club (http://uclub.missouri.edu/home) and Campus Dining Services (http://dining.missouri.edu). Sport and entertainment organizations like Mizzou Athletics and MU Event Production Services also provide students learning experience beyond classroom setting.

Strong support from the hospitality industry to the HM program is evident in the form of scholarship. Each year students received scholarship awards from industry associations such as the American Hotel & Lodging Education Foundation, National Restaurant Association, Hotel and Lodging Association of Greater Kansas City, Missouri Restaurant Education Foundation, National Restaurant Association, Hotel and Lodging Association, as well as other endowed scholarships. In addition, CAFNR also awards one of the strongest scholarship programs at MU, with more than $1.3 million annually. These scholarships are available to incoming freshmen, transfer and continuing students.

**Faculty**

**Professor E. Tse**

**Associate Professor** S. Cho*, D. Kim*

**Associate Teaching Professor** H. L. Marshall

**Assistant Professor** P. Liu

**Assistant Teaching Professor** A. Alexander*, M. Palmero

**Instructor** B. Langford

* Graduate Faculty Member - membership is required to teach graduate-level courses, chair master's thesis committees, and serve on doctoral examination and dissertation committees.

** Doctoral Faculty Member - membership is required to chair doctoral examination or dissertation committees. Graduate faculty membership is a prerequisite for Doctoral faculty membership.

**Undergraduate**

- BS in Hospitality Management (p. 89)
  - with emphasis in Conference and Event Planning Management (p. 90)
  - with emphasis in Food and Beverage Management (p. 90)
  - with emphasis in Lodging Management (p. 91)
  - with emphasis in Sport Venue Management (p. 91)

**Department Level Requirements**

Students earning a Bachelor of Science in Hospitality Management are required to complete all University general education (p. 33), University undergraduate requirements (p. 32), as well as departmental and emphasis area requirements, including the following selected foundational courses, which may fulfill some University general education requirements.

**Foundational Courses**

Students transferring into Hospitality Management from other MU degree programs or from other institutions must have both a term and cumulative GPA of 2.25.

A grade of C- or higher is required for all business core, hospitality core, emphasis area, and professional elective courses. Please see the BS in Hospitality Management (p. 89) page for the major program requirements.

**Career Opportunities with a B.S. degree in Hospitality Management**

A Bachelor of Science degree in Hospitality Management (HM) will equip students with management skills to succeed in a variety of industry careers as well as transferrable skills to make them a life-long learners. The curriculum is designed to give students a set of applied management skills through a wide variety of courses that provide a theoretical knowledge of human understanding and business principles as applied in the hospitality industry. According to their interest, students also have a choice to select an emphasis area to specialize in, which provides them more in-depth knowledge of leadership application within a hospitality career. In addition, each student completes a 15 hour block of professional electives which allows them to gain additional expertise towards their career objectives.

The four emphasis areas in Hospitality Management are: Conference & Event Planning Management, Food & Beverage Management, Lodging Management, or Sport Venue Management.

In the Conference & Event Planning Management emphasis, students develop knowledge and skills in planning and conducting a large variety of events from business meetings, social functions, to festivals and mega events and get the opportunity to practice those skills through hands-on experience. Students with this emphasis find employment in a variety of businesses, hotels, convention and conference centers, associations, private event companies as well as non-profit organizations.
Students choosing the Food & Beverage Management emphasis acquire skills and knowledge in managing a variety of commercial and noncommercial food and beverage operations, both front and back of the house. These students find employment in a variety of restaurants, lodging food operations, institutional food service operations, managed-service companies (such as business and industry, college and university), airline, military, casino, cruise ship and catering venues. Many students with entrepreneurial spirit in this area strive to own their own restaurant operations one day.

Students choosing the Lodging Management emphasis acquire skills and knowledge in assuming leadership positions in a variety and size of lodging operations from budget to luxury hotels, motels, inns, resort, and bed and breakfast establishments. They find employment in various functional areas, such as front office, food & beverage, event, banquet & catering, sales and marketing, public relations, revenue management, and human resources of the lodging operations.

Students choosing the Sport Venue Management emphasis acquire skills and knowledge in managing various types of venues, such as stadiums, arenas, ballparks, clubs, conference and events centers that cater to sports and games, concerts, live entertainment, exhibitions, trade shows and other functions. Students pursue their careers in venue and event marketing, box office operations, guest services and community relations.

Graduate Study in Hospitality Management

The graduate program, Masters and Ph.D., is jointly offered with the Food Science Program as one of the three tracks: Food Science, Hospitality Management and Agricultural Systems Management. It is established with the objectives for the generation of new knowledge and intellectual curiosity through research. The program provides an understanding of the body of knowledge in the discipline of hospitality and develops abilities to achieve scholarly success. These abilities include competency in research, teaching/communication, problem solving and critical reasoning skills.

After graduation, it is likely that a Masters student will advance their careers in the hospitality industry or continue their Ph.D. study. Ph.D. graduates will likely join the faculty of a college or university that will require research and publication as part of the promotion and tenure process. This goal is accomplished by creating a scholarly research environment, which expose students the learning opportunity and train them for teaching, research, writing, publishing, and consulting. The atmosphere is interdisciplinary and incorporates a number of opportunities for students to engage in a variety of types of information exchange and growth.

For additional information regarding Masters and Ph.D. study, please visit the Food Science Graduate Program (p. 82) Overview and choose Hospitality Management track.

BS in Hospitality Management

Degree Program Description

A degree in Hospitality Management (HM) provides students with all the business and managerial skills needed to succeed in a wide variety of hospitality and venue management careers. The curriculum includes core business principles, core hospitality management concepts and advanced skills in one of the emphasis areas: Conference & Events Planning Management, Food & Beverage Management, Lodging Management, and Sport Venue Management. In Conference & Events Planning Management area, whether planning a wedding, small dinner party, business meeting, festivals or mega-event, and non-profit fundraising functions, students learn the basics of planning and executing an event and get the opportunity to practice those skills through hands-on experience. In Food & Beverage Management area, whether in the back of the house helping to prepare the gourmet meals or in the front of the house entertaining guests, the HM degree provides the business tools and skills to successfully manage a restaurant, an institutional food service establishment, or a full service catering business. In Lodging Management area, graduates manage and operate a hotel, lodge, motel, bed & breakfast or resort that serves a specific audience or the general public. Graduates use their business and entrepreneurial skills to set their establishment apart from the competition by becoming the destination everyone wants to go for those memorable family vacations, romantic weekend getaways or business retreats. In Sport Venue Management area, students will receive specialized instruction and develop competencies in the management and operation of sport venues in addition to the business of live entertainment including sports games, tournaments, concerts and event production. Upon successful completion of the curriculum, students will be prepared to assume leadership positions in the dynamic and ever growing hospitality industry.

BS in Hospitality Management with Emphasis in Conference and Event Planning Management

Degree Program Description

The hospitality industry plays a vital role in U.S. economic development and employment, as well as in the global community. While running a business requires strong marketing, finance and communication skills, the hospitality industry requires all this and more. Hospitality managers must create an experience for guests so unique and memorable that they will exceed their expectations and spread positive word-of-mouth to their friends and acquaintances. A B.S. in Hospitality Management provides students with all the business and managerial skills needed to succeed in a wide variety of hospitality and sport management careers. The curriculum includes core business skills and core Hospitality Management skills. In the B.S. in Hospitality Management with emphasis in Conference and Event Planning Management, students learn the basics of planning and running an event and get the opportunity to practice those skills through hands-on experience, whether planning a wedding, small dinner party, business meeting, fund-raising function, community event, festival or mega-event.

Major Program Requirements

Conference & Event Planning Management Emphasis Requirements

Students must complete all University general education (p. 33) requirements and degree requirements (p. 47), in addition to the Conference & Event Planning Management emphasis requirements below:

HSP_MGMT 2200 Fundamentals of Conference and Events Industry 3
HSP_MGMT 3200 Conference and Meeting Management 3
HSP_MGMT 3310 Food Service Budgeting and Controls or HSP_MGMT 4400 Hospitality Finance Management 3
HSP_MGMT 4200 Destination Management 3
HSP_MGMT 4280W Special Events Management - Writing Intensive 3
Hospitality Professional Electives 15

Total Credits: 30

Semester Plan

Refer to the Semester Plan for the BS in Hospitality Management (p. 89).

BS in Hospitality Management with Emphasis in Food and Beverage Management

Degree Program Description

The hospitality industry plays a vital role in U.S. economic development and employment, as well as in the global community. While running a business requires strong marketing, finance and communication skills, the hospitality industry requires all this and more. Hospitality managers must create an experience for guests so unique and memorable that they are satisfied and want to return repeatedly. A B.S. in Hospitality Management provides students with all the business and managerial skills needed to succeed in a wide variety of hospitality and sport management careers. The curriculum includes core business skills and core Hospitality Management skills. In the B.S. in Hospitality Management with emphasis in Food and Beverage Management, whether in the kitchen supervising the production of a variety of food, managing inventory and controlling costs, or in the dining room entertaining guests and delivering quality service, students are provided the business tools to successfully manage a restaurant. Those same tools can also be used to operate a full service catering business and other food service establishments.

Major Program Requirements

Food & Beverage Management Requirements

Students must complete all University general education (p. 33) requirements and degree requirements (p. 47) in addition to the Food & Beverage Management emphasis requirements below:

**Natural Resource Science and Management**

Charles Nilon, Degree Program Coordinator
School of Natural Resources
302 Anheuser-Busch Natural Resources Building
Phone: (573) 882-3738
Fax: (573) 882-9526
nilonc@missouri.edu
https://cafnr.missouri.edu/degrees-and-programs/

The Natural Resource Science and Management degree addresses the science, art, and craft of creating, managing, using, conserving, and repairing natural and human-dominated ecosystems. The degree will allow students to apply biological, physical, social, political and managerial sciences to the conservation of plant and animal species in forests, grasslands, rivers and streams, and urban areas. The degree also develops students' skills in working with diverse groups of people. Students with degrees in Natural Resource Science and Management work as fisheries biologists, foresters, interpreters, naturalists, and wildlife biologists for state and federal agencies, nature centers and museums, and consulting firms. Four emphasis areas are offered: Fisheries and Wildlife Sciences, Forest Resources, Human Dimensions, and Terrestrial Ecosystems. All students are encouraged to integrate their classroom learning experiences with research and internship experiences, while students in the Forest Resources and Human Dimensions emphasis areas are required to complete an internship.

**Faculty**

**Associate Professor**  F. X. Aguilar**, M. Morgan**, D. B. Noltie*, S. Wilhelm-Stanis**, H. E. Stelzer**

**Assistant Professor**  A. Argerich*, M. Byrne*, B. O. Knapp**, J. Li*, R. North*, M. Weegman*

**Extension Associate Professor**  R. A. Pierce II*

Teaching Associate Professor  D. Vaught
Teaching Assistant Professor  T. Strauch
Research Professor  M. A. Gold**
Research Assistant Professor  J. Whittier*
Curators' Emeritus Professor  J. R. Jones**
Adjunct Assistant Professor  J. Kabrick**, E. Kurzejieski, M. Kruse, D. Tillitt*, L. Vangilder, M. Wildhaber**

- Graduate Faculty Member - membership is required to teach graduate-level courses, chair master's thesis committees, and serve on doctoral examination and dissertation committees.
- **Doctoral Faculty Member - membership is required to chair doctoral examination or dissertation committees. Graduate faculty membership is a prerequisite for Doctoral faculty membership.

**Undergraduate**

- BS in Natural Resource Science and Management (p. 92)
  - with emphasis in Fisheries and Wildlife Sciences (p. 94)
  - with emphasis in Forest Resources (p. 93)
  - with emphasis in Human Dimensions (p. 95)
  - with emphasis in Terrestrial Ecosystems (p. 95)

**Graduate**

While the College of Agriculture, Food and Natural Resources does not offer a graduate degree specifically in Natural Resource Science Management, there are many options available for graduate studies in Natural Resources. Please refer to the list of graduate degrees on the Natural Resources (p. 97) section of the catalog for more information.

**BS in Natural Resource Science and Management**

The Natural Resource Science and Management degree addresses the science, art, and craft of creating, managing, using, conserving, and repairing natural and human-dominated ecosystems, in a sustainable manner, to meet desired societal goals. The degree has elements that belong to the biological, physical, social, political and managerial sciences that are applied to conserving plant and animal species in forests, grasslands, rivers and streams, and urban areas. The degree also develops students' skills in working with diverse groups of people. Students with degrees in Natural Resource Science and Management work as fisheries biologists, foresters, interpreters, naturalists, and wildlife biologists for state and federal agencies, nature centers and museums, and consulting firms.

**Major Program Requirements**

Students must also complete emphasis area requirements. Students must have 120 credits to graduate. The last 45 credit hours must be completed at the University of Missouri.

**General Education**

**BS in Natural Resource Science and Management with Emphasis in Forest Resources**

**Degree Program Description**

The Natural Resource Science and Management degree with an emphasis in Forest Resources expands the knowledge base in fire ecology, silviculture, and forest stand dynamics in order for graduates to better address the challenges of managing forest resources in the 21st Century. The degree addresses the science, art, and craft of creating, managing, using, conserving, and repairing natural and human-dominated ecosystems, in a sustainable manner, to meet desired societal goals. The degree has elements that belong to the biological, physical, social, political and managerial sciences that are applied to conserving plant and animal species in forests, grasslands, rivers and streams, and urban areas. The degree also develops students' skills in working with diverse groups of people. Students with degrees in Natural Resource Science and Management with an emphasis in Forest Resources can find employment as community foresters, consulting foresters, ecologists, and resource foresters.

**Semester Plan**

Refer to the sample semester plans for the emphasis areas.

BS in Natural Resource Science and Management with Emphasis in Fisheries and Wildlife Sciences

Degree Program Description

The Natural Resource Science and Management degree with an emphasis in Fisheries and Wildlife Sciences has a strong focus on taxonomy and adds additional required courses on research and management techniques. The degree addresses the science, art, and craft of creating, managing, using, conserving, and repairing natural and human-dominated ecosystems, in a sustainable manner, to meet desired societal goals. The degree has elements that belong to the biological, physical, social, political and managerial sciences that are applied to conserving plant and animal species in forests, grasslands, rivers and streams, and urban areas. The degree also develops students’ skills in working with diverse groups of people. Students with degrees in Natural Resource Science and Management with an emphasis in Fisheries and Wildlife work as conservation biologists, ecologists, fisheries biologists, ornithologists, and wildlife biologists.

Emphasis Area Requirement

In addition to completing major program requirements (p. 92), students must complete the following additional requirements (44 credit hours):

- F_W 1100 Introductory Zoology with Laboratory 5
- F_W 2500 Introduction to Genetics and Evolution for Conservation 3
- or BIO_SC 2200 General Genetics
- F_W 4500 Animal Population Dynamics and Management 3

BS in Natural Resource Science and Management with Emphasis in Human Dimensions

Degree Program Description

The Natural Resource Science and Management degree with an emphasis in Human Dimensions targets students who wish to link a solid background in taxonomy and ecology with social sciences. Students may focus on outdoor interpretation, natural resources economics, and resource policy. The degree addresses the science, art, and craft of creating, managing, using, conserving, and repairing natural and human-dominated ecosystems, in a sustainable manner, to meet desired societal goals. The degree has elements that belong to the biological, physical, social, political and managerial sciences that are applied to conserving plant and animal species in forests, grasslands, rivers and streams, and urban areas. The degree also develops students' skills in working with diverse groups of people. Students with degrees in Natural Resource Science and Management with an emphasis in Human Dimensions can find employment as interpretive naturalists, natural resource educators.

Emphasis Area Requirements

In addition to completing major program requirements (p. 92), students must complete the following additional requirements (46 credit hours):

- AG_EC 2070 Environmental Economics and Policy 3
- P_R_TR 3230 Introduction to Parks and Outdoor Recreation Services 3
- F_W 3400 or FOREST 4390 Water Quality and Natural Resource Management or Watershed Management and Water Quality 3
- 4000-level Environmental Education (NAT_R 4024 still in development) 3
- F_W 4220 Human Dimensions of Fish and Wildlife Conservation 3
- P_R_TR 4340 Advanced Recreation Land Management 3
- F_W 4400 or F_W 4700 Techniques for Fisheries Management and Conservation or Wildlife Research and Management Evaluation Methods 4
- Choose three courses from group with no more than 5 credits from BIO_SC 12-13
  - F_W 2600 Ornithology
  - F_W 2700 Ichthyology
  - F_W 3660 Mammalogy
  - BIO_SC 3710 Introductory Entomology & BIO_SC 3715 Insect Diversity
  - BIO_SC 3260 Invertebrate Zoology
- Choose from group: 9-11
  - NAT_R 2080 Outdoor Recreation Consortium
  - SOCIOL 3330 Environmental Justice
  - RU_SOC 3310 Society, Agriculture and Natural Resources
  - FOREST 4350 Forest Economics
  - RU_SOC 4370 Environmental Sociology

BS in Natural Resource Science and Management with Emphasis in Terrestrial Ecosystems
Degree Program Description

The Natural Resource Science and Management degree with an emphasis in Terrestrial Ecosystems combines interests in wildlife management and conservation and forestry focusing on basic and applied concepts important in land management and species conservation. The degree addresses the science, art, and craft of creating, managing, using, conserving, and repairing natural and human-dominated ecosystems, in a sustainable manner, to meet desired societal goals. The degree has elements that belong to the biological, physical, social, political and managerial sciences that are applied to conserving plant and animal species in forests, grasslands, rivers and streams, and urban areas. The degree also develops students’ skills in working with diverse groups of people. Students with degrees in Natural Resource Science and Management with an emphasis in Terrestrial Ecosystems can find employment as conservation biologists, ecologists, land stewards, and resource foresters.

Emphasis Area Requirements

In addition to completing major program requirements (p. 92), students must complete the following additional requirements (48 credit hours):

- F_W 1100: Introductory Zoology with Laboratory (5 credit hours)
- F_W 2600: Ornithology (4 credit hours)
- or F_W 3660: Mammalogy (5 credit hours)
- FOREST 2542: Forest Measurement and Inventory (1 credit hour)
- FOREST 2543: Forest Ecology Field Studies (1 credit hour)
- FOREST 2544: Introduction to Silviculture and Management (1 credit hour)
- F_W 2900: Principles of Wildlife Management (4 credit hours)
- FOREST 3207: Forest Fire Control and Use (2 credit hours)
- FOREST 3212: Forest Health and Protection (4 credit hours)
- FOREST 4360: Photogrammetry, Inventory and Models (3 credit hours)
- FOREST 4330: Practice of Silviculture (3 credit hours)
- F_W 4600: Ecosystem Management (4 credit hours)
- FOREST 4390: Watershed Management and Water Quality (3 credit hours)
- or F_W 3400: Water Quality and Natural Resource Management (3 credit hours)
- FOREST 4350: Forest Economics (3 credit hours)
- FOREST 4375: Forest Stand Dynamics (3 credit hours)
- PLNT_S 4400: Plant Anatomy (4 credit hours)
- Choose from group:
  - ENV_SC 3250: Pollutant Fate and Transport (3 credit hours)
  - F_W 4220: Human Dimensions of Fish and Wildlife Conservation (3 credit hours)
  - F_W 4810: Wildlife Disease Ecology (3 credit hours)

Semester Plan

Below is a sample semester plan for the Terrestrial Ecosystems Emphasis Area. Please consult with your advisor prior to registering for courses.

School of Natural Resources

The School of Natural Resources is one of six Divisions in the College of Agriculture, Food and Natural Resources. It is Missouri’s and the Midwest’s only school with comprehensive academic and research
programs focused on biological, physical, and social aspects of natural resources science and management. The School encompasses the fields of: Environmental Sciences; Natural Resource Science and Management; and Parks, Recreation and Sport. The School applies an integrated, scientific approach to develop sustainable solutions to environmental challenges and to train the next generation of natural resources professionals and leaders. This integrated approach results in creative course offerings, enhanced educational opportunities, stimulation of novel research, advanced understanding of natural systems, and expanded knowledge and management of human interactions with the environment. The School is housed in the Anheuser-Busch Natural Resources Building containing state-of-the-art teaching, research and outreach extension facilities.

Faculty

Faculty members within the School of Natural Resources have their appointments through the following degree programs; Environmental Sciences; Natural Resources Science and Management; and Parks, Recreation and Sport. Their faculty listing can be found on those degree pages.

Undergraduate

Admissions

In addition to requirements listed below, students admitted to the University of Missouri may enter The School of Natural Resources as freshmen or as transfer students.

Transfer Students

Previous college work is carefully evaluated by The School of Natural Resources. Courses are readily accepted if they are satisfactory substitutes for required University of Missouri courses. Lists of acceptable substitute courses offered at many other institutions are maintained and are available to prospective transfer students on request.

Major Program Requirements

Students must meet all emphasis, major, degree, department, college and university graduation requirements (p. 32), including the university general education requirements (p. 33). See the appropriate sections of this catalog.

Academic Assessment

Credits by Examination

A total of 21 credits in CLEP (College Level Entrance Program) is accepted in the following areas: English, mathematics, social sciences and humanities. The school does not accept natural science CLEP credit.

Student Services

Advising

Personalized advisement and counseling is available from the school’s faculty members. An open-door policy by advisors is emphasized and the school is noted for excellent student/faculty relations. Undergraduate advisement in The School of Natural Resources (SNR) is undertaken by those faculty and staff who advise with the attitude of fostering academic and professional development and success. The faculty members recognize the importance of establishing a trust relationship with students that will extend through their academic years at MU into their careers.

Career Placement

Students in The School of Natural Resources are provided various types of employment assistance through the College of Agriculture, Food and Natural Resources Career Services Office (2-64 Agriculture Building). Resource materials on potential employers are available for student use. Instructions regarding federal, state and industrial employment procedures and assistance in the preparation of résumés and applications also are available. Notices of available positions are posted, and interviews are arranged with visiting organizations. Employment assistance also is given to alumni of the school on request.

Freshman Interest Groups

Freshman Interest Groups (FI�Gs) are sponsored by the school in the areas of atmospheric sciences (“Storm Chasers”), natural resources and sport management. A learning community is also sponsored, comprised of members of the two FI�Gs and other students who live on the same dormitory floor. The FIG experience promotes a sense of community among students that increases the quality of all aspects of university life for incoming students.

Transfer Student Interest Groups

TRIGs, or Transfer Interest Groups, involve activities that are specifically designed to help transfer students make a smooth transition to the MU campus. The School of Natural Resources TRIG is composed of transfer students with common interests and majors. In addition to other activities, members of each TRIG take a 1 credit hour proseminar together during their first semester at MU. You do not need to live on campus to participate in a TRIG program. TRIGs are only open to transfer students who have completed 24 or more hours at their previous institution. There is no additional cost for participating in a TRIG, and they are a great way to get to know campus and meet other students who are also making the same transition. TRIGs are available only for students planning to start at MU in the fall term.

Graduate

• MS in Natural Resources (p. 98)
  • with emphasis in Agroforestry (p. 98)
  • with emphasis in Fisheries & Wildlife Sciences (p. 99)
  • with emphasis in Forestry (p. 100)
  • with emphasis in Human Dimensions of Natural Resources (p. 100)
  • with emphasis in Parks, Recreation and Tourism (p. 101)
  • with emphasis in Soil, Environmental and Atmospheric Sciences (p. 102)
  • with emphasis in Water Resources (p. 104)

• PhD in Natural Resources (p. 106)
  • with emphasis in Fisheries & Wildlife Sciences (p. 106)
  • with emphasis in Forestry (p. 107)
  • with emphasis in Human Dimensions of Natural Resources (p. 108)
  • with emphasis in Soil, Environmental and Atmospheric Sciences (p. 109)
  • with emphasis in Water Resources (p. 109)
MS in Natural Resources

The MS in Natural Resources has emphasis areas in Agroforestry (p. 98), Fisheries & Wildlife Science (p. 99), Forestry (p. 100), Human Dimensions of Natural Resources (p. 100), Parks Recreation and Tourism (p. 101), Soil, Environmental and Atmospheric Sciences (p. 102), and Water Resources (p. 104). Please see the individual emphasis area pages for degree requirements and admissions information.

MS in Natural Resources with Emphasis in Agroforestry

Dr. Shibu Jose
203 Anheuser-Busch Natural Resources Building
Columbia, MO 65211
joses@missouri.edu
(573) 882-0240

Emphasis Area Focus

Agroforestry, as a farming system that integrates crops and/or livestock with trees and shrubs, has a long history of interdisciplinary research at the University of Missouri. The interdisciplinary emphasis area capitalizes on existing agroforestry research collaborations across The School of Natural Resources (SNR) departments in building an academic program that could attract and serve quality graduate students from Missouri, the nation and the world. The agroforestry emphasis area offers both a thesis and non-thesis option. The program also offers an online option designed for professionals working in natural resources around the globe who already have an undergraduate degree in a related field. Please visit the online webpage for more information: http://online.missouri.edu/degreeprograms/agroforestry/index.aspx

Admission Requirements

- Bachelor's degree in a relevant discipline from an accredited institution
- Undergraduate GPA: 3.0 on a scale of 4.0
- Graduate Record Exam score (GRE)*: verbal plus quantitative total of at least 1100 (300 on the new GRE)
- Students whose GPAs and GRE scores do not meet the requirements will be evaluated individually

*The GRE requirement may be waived under exceptional circumstances. Applicants will be reviewed on a case-by-case basis.

How to Apply

To the Graduate School:

- All application materials must be submitted to the Apply Yourself online application system.
- Statement of interest
- Résumé or CV
- GRE scores
- TOEFL scores (if applicable)
- A minimum of three letters of recommendation and the accompanying evaluation sheets from people who can attest to the candidate’s scholastic ability and experience relevant to graduate study.

Application Deadlines

Applications must be received by the following dates:

- March 15 for the summer semester
- May 15 for the fall semester
- Oct. 15 for the spring semester

Thesis option:

Students in the thesis option will complete 30 credit hours of course work with no more than 12 credits for thesis research. Students choosing the M.S. thesis option will prepare a written research proposal and make an oral defense of that proposal within 12 months of their initial enrollment in the program. Students in the thesis option will write a thesis based on their research and participate in a public oral defense of their thesis announced at least two weeks prior to the defense date.

Non-Thesis option:

Students in the non-thesis option will complete 30 credit hours of course work with no more than 6 credits for a project. Students choosing the non-thesis option will be required to write a project plan and to make an oral defense of that plan within the first year following their initial enrollment in the program. Students choosing the non-thesis option will write a technical report based on their project and participate in a public oral defense of their report to be announced at least two weeks prior to the defense.

Timeline Requirements:

1. Within six month of initial enrollment in the emphasis area, students must submit a plan of study.
2. Within one year of initial enrollment in the emphasis area, students must present a written proposal of their research or project proposal to be reviewed and approved by members of the students’ Masters Committee.
3. Students will submit a written thesis or project report following the guidelines specified by the Graduate School. All students must present a public oral defense of their dissertation or project announced at least two weeks prior to the defense date. Electronic media may be used to facilitate the defense for online/distance education students when appropriate.
4. All students will submit an annual report of their progress as required by the MU Graduate School.

Agroforestry Emphasis Area Coursework Requirements

Students seeking the agroforestry graduate emphasis will develop their course of study to incorporate 12 hours of a core curriculum of designated courses. This has been designed to include theoretical foundations in both the biophysical and socioeconomic components of agroforestry. The curriculum leads the student through a progression of learning and applying concepts related to (A) Agroforestry Fundamentals; (B) Biophysical Foundation; and (C) Socio-economic Foundation (Table 1).

Each student's coursework requirements, including the selection of specific courses in the above categories, will be listed in the student's plan of study and approved by their graduate committee.
Table 1. The 12-cr core curriculum for the Agroforestry Emphasis M.S. program

| A. Agroforestry Fundamentals |  |
| FOREST 4385/7385 | Agroforestry I: Theory, Practice and Adoption | 3 |

| B. Biophysical Foundation |
|--------------------------|------------------|---|
| Choose Two |
| FOREST 8385 | Ecological Principles of Agroforestry | 3 |
| ENV_SC 4396/7396 | Agroforestry for Watershed Restoration | 3 |
| NAT_R 7325 | Introduction to Geographic Information Systems | 3 |
| FOREST 4390/7390 | Watershed Management and Water Quality | 3 |
| SOIL 4313/7313 | Soil Fertility and Plant Nutrition | 3 |
| ENV_SC 7320 | Hydrologic and Water Quality Modeling | 3 |
| FOREST 8401 | Topics in Forestry | 1-99 |

| C. Sociol-economic Foundation |
|-----------------------------|------------------|---|
| Choose one |
| FOREST 4387 | Agroforestry Economics and Policy | 3 |
| NAT_R 4353/7353 | Natural Resource Policy/Administration | 3 |

</tr>
</tbody>
</table>

- Minimum GPA: 3.2 in last 60 hours of undergraduate coursework.
- Experience in research or management of natural resources. Practical skills are strongly considered.

Required Application Materials

To the Graduate School:

- All application materials must be submitted to the Apply Yourself online application system
- All required Graduate School documents
- A minimum of three letters of recommendation and the accompanying evaluation sheets from people who can attest to the candidate’s scholastic and conservation field work abilities
- Departmental application
- Written response to 1 of 5 questions listed on the Fisheries and Wildlife Sciences Graduate Program Admissions page
- GRE scores
- TOEFL scores (when applicable)
- Publications (optional)
- Résumé or CV

We require applicants to contact specific faculty to determine the availability of research assistantships prior to applying to the program.

An applicant contemplating graduate work in fisheries, limnology, conservation biology, or wildlife should have a strong background in biological and physical sciences, including biology, botany, zoology, ecology, physiology, and genetics. In addition, such taxonomic courses as plant taxonomy, invertebrate zoology, ichthyology, ornithology, and mammalogy are highly desirable, as is a background in chemistry, mathematics, statistics, and physics.

A background of 25 to 30 hours in biological sciences courses is desirable. Minor deficiencies may be remedied during the graduate program; major deficiencies may require preparatory coursework prior to consideration for admission.

Fisheries and Wildlife Sciences degrees emphasize resource management at organismal, population, or ecosystem scales. An emphasis on resource management helps distinguish our program from basic biology; therefore, course work in fisheries or wildlife management, environmental science, resource policy, or other applied ecology fields is advantageous.
Degree Completion Requirements

Master’s students must complete, with a B average or better, a minimum of 30 hours of course work (15 hours or more at the 8000 course level). Research, problems, special investigations, and special readings courses shall not exceed 12 of the 30 hours.

Plan of Study

Candidates are expected to design and have approved by their committee a plan of study during their first semester in residence and a thesis proposal by their second semester.

Thesis & Oral Examination

A thesis acceptable to the student’s graduate committee shall be completed and defended in a final oral examination; all candidates must complete the oral examination and a final thesis seminar before the degree is conferred.

MS in Natural Resources with Emphasis in Forestry

Graduate research programs leading to the M.S. or Ph.D. in Natural Resources with an emphasis in Forestry are designed to prepare students for careers in academic institutions, consulting firms, industry, and state and federal agencies.

Forestry graduates interested in research or teaching may concentrate much of their course work in one or more of the related sciences with a thesis appropriate to forestry. Dissertation research may be directed toward the solution of problems faced by the practicing forester or may consist of fundamental investigations pertinent to the solution of such problems.

Specialized graduate education is available in agroforestry, biometrics, community and landscape ecology, economics, entomology, fire ecology, hydrology, geographic information systems, physiological ecology, physiology, policy, silviculture, soils, forest management, stand dynamics, water quality, wood quality and tree-ring analysis.

Students often conduct joint research with natural resource specialists at the Northern Research Station (U.S. Forest Service), the Missouri Department of Conservation, the Missouri Department of Natural Resources, the National Park Service, and the U.S. Fish and Wildlife Service.

Degree Requirements

To attain the master’s degree:

• 30 hours of course work must be completed.
• 15 hours or more must be 8000+ level.
• Research, problems, special investigations and special readings courses must not exceed 12 of the 30 hours.
• The GPA of all course work submitted for the degree must be 3.0 or better.

Graduate students typically enroll in courses from across campus. For graduate students of Forestry emphasis area who lack academic or experiential background in forestry, the graduate committee may recommend several courses to compensate for that deficiency. Forestry graduate students commonly enroll in dual undergraduate / graduate courses at the 7000 level, FOREST 7330, FOREST 7375, FOREST 7320, FOREST 7390.

For a graduate students emphasizing forestry, Forestry Seminar (FOREST 9087) is the only required course in the graduate student’s program of study. All Ph.D. students must enroll in Forestry Seminar (FOREST 9410) at least twice during the student’s graduate program. All graduate students are expected to attend all forestry seminars regardless of whether the student is enrolled in the seminar course.

Thesis Requirements

A master’s thesis, or a minimum of 5 semester hours of non-thesis research acceptable to the student’s committee, shall be completed before the final examination. Research toward a thesis normally shall not exceed 8 hours. Thesis requirements and defense are as defined by the MU Graduate School. A final oral examination is given to all candidates before completion of the degree.

Admissions

Admission Contact Information
Dr. Stephen G. Pallardy
203 ABNR Bldg.
PallardyS@missouri.edu

Applications are required to meet two sets of minimum qualifications for admission: the requirements of the MS in Natural Resources with emphasis in Forestry (http://gradstudies.missouri.edu/academics/programs/natural-resources/ms-forestry-emphasis.php) program and the minimum requirements of the Office of Graduate Studies (http://gradstudies.missouri.edu/admissions/eligibility-process/minimum-requirements). Because requirements vary, you must refer to a degree program's graduate admission page to learn about specific admission criteria, application deadlines, eligibility and application process. Your application materials will be reviewed by both the Office of Graduate Studies and the degree program to which you've applied before official admission to the University of Missouri.

Students without a Forestry Undergraduate Degree

Those without a baccalaureate degree in forestry may wish to further their education in forest science or to attain professional competence by completing course work in forestry. Work required of students without a forestry degree who want a professional forestry education includes courses in dendrology, utilization of forest resources, resource measurements, forest inventory, forest fire control and use, forest ecology, silviculture, forest information systems, watershed management, forest management, forest economics, and public resource policy. Some of these courses do not carry graduate credit.

MS in Natural Resources with Emphasis in Human Dimensions of Natural Resources

Application and Admission Information
Dr. Charles Nilon
302 Anheuser-Busch Natural Resources Building
Columbia, MO 65211
nilonc@missouri.edu; (573) 882-3738
Emphasis Area Focus

The Human Dimensions of Natural Resources Emphasis Area (HDNR) addresses research and management questions including peoples' attitudes, knowledge, values, perceptions, and behaviors associated with natural resources. As an interdisciplinary emphasis area, HDNR considers applicants with backgrounds in social sciences, environmental education, natural resources management and conservation, or related disciplines.

The MS is a research-based degree. The student is expected to work closely with a faculty advisor to develop a research topic and a program of study. Students who complete a thesis are expected to publish their findings in peer-reviewed journals. A non-thesis option is also available that requires additional coursework and a research project.

Admission Criteria

- Minimum GPA: 3.0 in last 60 hours
- Minimum TOEFL scores:
  - Internet-based test (iBT): 80
  - Paper-based test (PBT): 550
- GRE Required

Required Application Materials

To the Graduate School:

- All application materials must be submitted to the Apply Yourself online application system
- Statement of interest
- Résumé or CV
- GRE scores
- TOEFL scores (if applicable)
- A minimum of three letters of recommendation and the accompanying evaluation sheets from people who can attest to the candidate's scholastic ability and experience relevant to graduate study
- Publications (optional)

Coursework Requirements

All students in the HDNR Emphasis Area will be required to take at least one course from each of three categories:

1. Social science research methods
2. Quantitative and/or qualitative data analysis
3. Social science theory

Each student's coursework requirements, including the selection of specific courses in the above categories, will be listed in the student's plan of study and approved by their graduate committee.

Thesis Option

Students in the thesis option will complete 30 credit hours of coursework with no more than 12 credits for thesis research. Students choosing the thesis option will prepare a written research proposal and make an oral defense of that proposal within 12 months of their initial enrollment in the program. Students in the thesis option will write a thesis based on their research and participate in a public oral defense of their thesis announced at least two weeks prior to the defense date.

Non-Thesis Option

Students in the non-thesis option will complete 36 credit hours of coursework with no more than 12 credits for project research. Students choosing the non-thesis option will be required to write a project plan and to make an oral defense of that plan within the first year following their initial enrollment in the program. Students choosing the non-thesis option will write a technical report based on their project and participate in a public oral defense of their report to be announced at least two weeks prior to the defense.

MS in Natural Resources with Emphasis in Parks, Recreation and Tourism

About the Emphasis

Since virtually everyone participates in some form of leisure, the primary benefit of Parks, Recreation and Tourism (PRT) is to address quality of life issues. The unique interaction of people, places, and activities establish our profession as one of the world's largest industries. Students learn how to manage leisure service delivery systems by combining theory with practice. This degree is designed to prepare students for advanced positions in the parks, recreation, tourism and sport profession or admission into doctoral programs.

Degree Requirements

The program consists of a minimum of 30 credits for the thesis option and 39 credits for the non-thesis option. For a full explanation of the thesis/non-thesis options, see section below on Thesis/Non-Thesis Requirements (p. 101).

Students are required to take four 8000 level courses in the PRT curriculum: all students must take P_R_TR 8400 Constructs of Leisure and P_R_TR 8430 Research Methods in Parks, Recreation and Tourism; students then choose two courses from P_R_TR 8436 Visitor Behavior and Policy, P_R_TR 8450 Administration in Leisure Service Delivery, P_R_TR 8460 Financial Operations in Leisure Service Delivery, P_R_TR 8080 Foundations of Sport, and P_R_TR 8088 Sport and Leisure Economics.

All students must take a graduate level analysis course (i.e., statistics, qualitative analysis, or mixed analysis).

Sample Plan of Study

Because students in the M.S. program are from a wide variety of circumstances, and pursue the M.S. at all different paces, a sample plan of study is not easily produced. Students work closely with their advisor to select appropriate coursework.

Thesis/Non-Thesis Requirements

The program offers students two options:

1. Thesis Option

The thesis option is most appropriate for M.S. candidates who aspire to pursue doctoral education in the future, desire distinct research training and experience, and/or desire research or technical writing experience. Students who complete a thesis are encouraged to publish their findings in peer-reviewed journals.
Credit Hour Requirements: The thesis option requires a minimum of 30 credit hours, which includes: a minimum of 15 hours at the 8000/9000 level; a minimum of 12 hours of 8000 level theory-based contact courses within the PRT curriculum; a graduate level analysis course; minimum 3 credits thesis research; and up to a maximum of 12 credits of independent study (Thesis Research, Guided Readings, Problems, or Independent Work).

Thesis Research Boundaries: The thesis endeavor engages content of a solid academic/theoretical need that adds to or extends the knowledge base. It typically requires the student to display original scholarship or application of an existing theory to solve a specific problem. The rigor of the thesis challenges the student to address and engage the scientific process, which includes an evaluative component of peer and academic review.

Thesis Committee: The thesis committee consists of a minimum of three graduate faculty members: two within the PRT department, and one outside the department. Emeritus and/or adjunct faculty members are eligible to serve on student committees, provided they have graduate faculty status.

Procedures: The student develops the thesis proposal with primary guidance of the committee chair. The proposal is defended in a scheduled open forum followed by committee approval or disapproval. Following proposal approval by the committee, the student conducts the research and completes the thesis paper. The student then defends the completed study in a scheduled open forum, followed by committee action to pass or fail the thesis defense. Students must submit the M-1 and M-2 forms by the end of their second semester. The M-3 form should be submitted shortly after the thesis defense.

2. Non-Thesis (Project) Option

A non-thesis option is also available that requires additional coursework and a research project. The non-thesis option is most appropriate for M.S. candidates who view the Master's Degree as the terminal degree, aspire for practitioner work within the profession, and/or desire additional course work to balance their program of study.

Credit Hour Requirements: The non-thesis option requires a minimum of 39 credit hours, which includes: a minimum of 15 hours at the 8000/9000 level; a minimum of 12 hours of 8000 level theory-based contact courses within the PRT curriculum; a graduate level analysis course; 3-6 credits of P_R_TR 8090 Thesis Research in Parks, Recreation and Tourism (Research Project); and up to a maximum of 12 credits of independent study (Thesis Research, Guided Readings, Problems, or Independent Work).

Non-Thesis Boundaries: The non-thesis option engages content of an academic/professional practice need that addresses issues or problems. It requires the student to display independent scholarship in the definition, review and analysis of a problem or issue under study. The rigor of the project challenges the student to engage content to professional standards, which include the evaluative component of peer and professional review.

Project Committee: The project committee consists of a minimum of three graduate faculty members (one maybe be from outside the PRT department, but not a requirement). Emeritus and/or adjunct faculty members are eligible to serve on student committees, provided they have graduate faculty status.

Procedures: The student develops the project proposal with primary guidance of the committee chair. The committee chair approves the proposal. Following approval, the student completes the project. The student then defends the completed project in a scheduled open forum, followed by committee action to pass or fail the project defense. Students must submit the M-1 form by the end of their second semester. The M-3 form should be submitted shortly after the project defense.

Admissions

Admission Contact Information

Dr. Sonja A. Wilhelm Stanis
Department of Parks, Recreation and Tourism (http://snr.missouri.edu/prt)
105 Anheuser-Busch Natural Resources Building
Columbia, MO 65211
sonjaws@missouri.edu; 573-882-9524

Applicants are required to meet two sets of minimum qualifications for admission: the requirements of the MS in Natural Resources with emphasis in Parks, Recreation and Tourism (http://gradstudies.missouri.edu/academics/programs/natural-resources/ms-parks-rec-tourism-emphasis.php) program and the minimum requirements of the Office of Graduate Studies (http://gradstudies.missouri.edu/admissions/eligibility-process/minimum-requirements). Because requirements vary, you must refer to a degree program's graduate admission page to learn about specific admission criteria, application deadlines, eligibility and application process. Your application materials will be reviewed by both the Office of Graduate Studies and the degree program to which you've applied before official admission to the University of Missouri.

Financial Aid from the Program

Funding is available, but assistantships are highly competitive. Prospective students must complete all the necessary application requirements to be considered for departmental funding. Contact the graduate program emphasis coordinator for more details. Applicants should also contact the faculty they want to work with to determine the availability of possible graduate assistantship positions.

MS in Natural Resources with Emphasis in Soil, Environmental and Atmospheric Sciences

Degree Requirements

The degree program with emphasis in SEAS must include:

- 30 hours of graduate credit, with at least 15 hours comprised of 8000- or 9000-level courses.
- Not more than 12 hours of the minimum 30 hours are permitted for research, problems, special investigations and special readings.
- A minimum of one credit hour of graduate seminar must be included in each student's graduate program.
- All students enrolled in graduate programs are required to participate in a supervised teaching activity.
- All students are required to attend a workshop on ethics and professionalism.
- Students must maintain a GPA of 3.0 (A=4.0) in all course work presented for the degree.
For an atmospheric science focus area, appropriate atmospheric science courses must be selected and approved in consultation with the student’s advisor and graduate committee.

For a soil science focus area, at least 12 credit hours of soil science courses at the 7000, 8000, and 9000 levels, exclusive of problems and thesis research, must be included in the student’s graduate program.

For an environmental science focus area, at least six credit hours of environmental science courses at the 7000, 8000, and 9000 levels, exclusive of problems and thesis research, must be included in the student’s graduate program. To meet the six credit hour requirement, courses must be selected from the following list of approved environmental science courses:

- ATM_SC 7520 Environmental Biophysics 3
- ENV_SC 7305 Environmental Soil Physics 3
- ENV_SC 7306 Environmental Soil Physics Laboratory 2
- ENV_SC 7312 Environmental Soil Microbiology 3
- ENV_SC 7318 Environmental Soil Chemistry 3
- ENV_SC 7320 Hydrologic and Water Quality Modeling 3
- ENV_SC 8400 Solute Transport in the Vadose Zone 3
- ENV_SC 8500 Chemistry of the Vadose Zone 3
- FOREST 7390 Watershed Management and Water Quality 3
- FOREST 8390 Physical Hydrology 3
- SOIL 7308 Soil Conservation 3
- SOIL 7313 Soil Fertility and Plant Nutrition 3
- SOIL 7314 Soil Fertility and Plant Nutrition Laboratory 2
- SOIL 7320 Genesis of Soil Landscape 4
- SOIL 9414 Advanced Soil Fertility 3
- SOIL 9422 Pedology 3

Total Credits 47

To complete the environmental science focus area, an additional six credit hours must be selected from courses listed above or from the following departments: biochemistry, biological engineering, biological sciences, chemical engineering, chemistry, civil and environmental engineering, fisheries and wildlife sciences, forestry, geography, geological sciences, and natural resources. Selection of these courses will be determined in consultation with faculty members serving on a student’s thesis committee.

Integrated B.S./M.S. Program

Undergraduate students enrolled in the Department of Soil, Environmental and Atmospheric Sciences (SEAS) are eligible to apply for the integrated degree program in soil, environmental and atmospheric sciences that will enable outstanding undergraduates to obtain a B.S. and a M.S. (thesis required) after the successful completion of both degree requirements in five years. The program provides a challenging curriculum that will include opportunities and training in undergraduate and graduate-level research and prepare the student for a successful professional career. Increasingly, employers in competitive technical fields are looking for highly-motivated students with graduate training and professional skills. A student in the non-thesis option must form a graduate advisory committee and have that committee approve of the student’s thesis. An additional six hours of the minimum 30 hours are permitted for non-thesis research, problems, special investigations and special readings. At least 15 hours of the minimum 30 hours must be 8000- or 9000-level courses. A minimum of one credit hour of graduate seminar must be included in each student’s graduate program. The student is required to participate in a supervised teaching activity and attend a workshop on ethics and professionalism. A student in the non-thesis option may present a research report of original research on a specialized soil, environmental or atmospheric science problem conducted by the student, must be presented to the student’s graduate committee and successfully defended.

Non-Thesis Option

Under special circumstances, a non-thesis program in the soil science, environmental science or atmospheric science focus area may be approved by the student’s advisory committee, the SEAS Emphasis Area Coordinator and the Director of Graduate Studies. Not more than 6 hours of the minimum 30 hours are permitted for non-thesis research, problems, special investigations and special readings. At least 15 hours of the minimum 30 hours must be 8000- or 9000-level courses. A minimum of one credit hour of graduate seminar must be included in each student’s graduate program. The student is required to participate in a supervised teaching activity and attend a workshop on ethics and professionalism. A student in the non-thesis option must form a graduate advisory committee and have that committee approve of the student’s thesis. A student in the non-thesis option may present a research report of original research on a specialized soil, environmental or atmospheric science problem conducted by the student, must be presented to the student’s graduate committee and successfully defended.

Admissions

Admission Contact Information

Dr. Stephen Anderson, emphasis area coordinator (andersons@missouri.edu)
Department of Soil, Environmental and Atmospheric Sciences
University of Missouri
302 Anheuser-Busch Natural Resources Building
Columbia, MO 65211 USA
(573) 882-6303

Applicants are required to meet two sets of minimum qualifications for admission: the requirements of the MS in Natural Resources with emphasis in Soil, Environmental and Atmospheric Sciences (http://gradstudies.missouri.edu/academics/programs/natural-resources/ms-seas-emphasis.php) and the minimum requirements of the Office of Graduate Studies (http://gradstudies.missouri.edu/admissions/eligibility-
process/minimum-requirements). Because requirements vary, you must refer to a degree program's graduate admission page to learn about specific admission criteria, application deadlines, eligibility and application process. Your application materials will be reviewed by both the Office of Graduate Studies and the degree program to which you've applied before official admission to the University of Missouri.

**Recommended Preparation**

Appropriate undergraduate majors in preparation for graduate studies in the soil, environmental and atmospheric sciences emphasis area include: agronomy, atmospheric science, biochemistry, biology, biogeochemistry, botany, chemistry, earth science, civil and environmental engineering, environmental science, forestry, geosciences, hydrology, mathematics, microbiology, physics, soil science, and watershed management. Check with the Emphasis Area Coordinator for specific recommendations for preparation for each graduate focus area.

**Completion of a BS Degree**

Undergraduate GPA of 3.0 for the last 60 hours of coursework

- **Atmospheric science focus area applicants**: undergraduate program should include integral calculus and one year of college physics.
- **Environmental science focus area applicants**: undergraduate program should include general and organic chemistry, introductory biology, calculus, geology, physics, and ecology.
- **Soil science focus area applicants**: completed courses in general and organic chemistry, calculus, geology and physics. Inadequacies in courses must be remedied through additional course work immediately after admission.

**Financial Aid from the Program**

Check the program website (http://www.snr.missouri.edu/seas/academics/graduate-program.php) or contact the program for details on scholarships or graduate assistantships that may be available.

**Admission Procedures for the Integrated BS/MS**

Students seeking admission into the program should submit an application to the SEAS Emphasis Area Coordinator at the beginning (i.e., January 30th) of the Spring semester of their junior year. A faculty committee will consider several criteria for admission into the Integrated B.S./M.S. Program including:

1. the student’s undergraduate GPA (60 or more credits; minimum GPA of 3.5 at the time of enrollment)
2. a formal statement of interest indicating the intended emphasis area (i.e., soil science, environmental science or atmospheric science)
3. three letters of recommendation with one letter being a formal nomination letter from a SEAS Department faculty member

A student who meets the eligibility requirements will be extended an offer of admission by the middle of the Spring semester. All students must select a faculty mentor/advisor after admission to the program. A faculty advisory committee will be selected for each student and they will meet during the semester to approve a course of study and assist the student in designing and conducting their research program. Students will prepare a research proposal to be reviewed and accepted by their advisory committee. After approval of the research proposal, students will initiate their research during the summer of their junior year. Formal application of the student into the Graduate School will take place during the final semester of the student’s senior year and is contingent on the student’s successful completion of B.S. degree requirements and meeting eligibility requirements for the graduate program. Students will be required to maintain a cumulative 3.0 GPA during the program, write an M.S. thesis and meet other M.S. degree requirements.

**MS in Natural Resources with Emphasis in Water Resources**

The Water Resources emphasis area is an interdisciplinary graduate degree program encompassing all fields of natural sciences and, through collaboration, involves expertise from throughout the University of Missouri (MU). The geographic location of MU allows directed research to better understand water movement, biogeochemical cycling, biological and ecohydrological processes of flowing and impounded waters in forested, prairie, agricultural and urban landscapes of the midcontinent.

The Water Resources graduate emphasis area offers an M.S. degree program specializing in the occurrence, circulation, distribution, chemical and physical properties, and environmental interaction of atmospheric, surface and subsurface waters. Specific areas of investigation often include (but are not limited to) precipitation floods and drought regimes, lakes and reservoirs, groundwater, water use, water quality, water contamination, plant water use, environmental measurement methods, hydrologic modeling and International water resources.

Participating faculty in the Water Resources emphasis area are engaged in both scientific understanding of water resources (physical, chemical and biological) and its management, and the decision-making processes used to address competing societal values (social, economic and legal). The program has no geographic boundaries but benefits from a distinct midcontinent climate, and physiography. Multi-use watersheds (e.g. forest, agriculture, urban), streams, lakes, rivers, wetlands and subsurface waters are ideal areas for basic and applied research that is easily transferable to other regions. The program provides Global impact by graduating highly qualified internationally aware water resource professionals.
Water Resources program applicants must meet the program requirements of the University of Missouri Graduate School for MS programs and meet any additional application criteria of the Water Resources graduate emphasis area. Water Resources graduate students are often supported by grant-funded research assistantships, scholarships or fellowships, teaching assistantships, or are self-funded. Other opportunities may be available to eligible students.

Upon successful completion of the School of Natural Resources Water Resources graduate program, students will possess strong technical skills in water resources and related sub-disciplines. Graduates will have developed a holistic understanding of the hydrologic cycle related to ecosystem processes and the interdisciplinary background necessary to understand and address contemporary water resources problems.

**Degree Requirements**

- 30 hours of course work must be completed
- 15 hours or more shall be 8000 level.
- Not more than 40 percent of the 30 hour credit requirement can be satisfied by a combination of special investigations, Research, Readings and/or Problems courses.
- The GPA of all course work submitted for the degree must be 3.0 or better.
- M.S. Students are required to publish at least one article in the primary literature stemming from their master’s thesis. In most cases, the article should be submitted to a peer reviewed journal prior to graduation.

**Must take at least 6 credit hours from the following:**

**Aquatic Ecosystem Science**
- F_W 8460 Wetland Ecology 3
- F_W 8520 Stream Ecology 3
- F_W 7400 Techniques for Fisheries Management and Conservation 3
- F_W 7100 Limnology 3-4
- F_W 8450 Advanced Limnology 3
- F_W 8550 Advanced Waterfowl Ecology 3

**Climate and Climatology**
- ATM_SC 7400 Micrometeorology 3
- ATM_SC 7520 Environmental Biophysics 3
- ATM_SC 7590 Radar Meteorology 3
- ATM_SC 8400 Atmospheric General Circulation 3
- ATM_SC 8600 Advanced Climate Dynamics 3

**Environmental Chemistry**
- ENV_SC 7318 Environmental Soil Chemistry 3
- ENV_SC 8500 Chemistry of the Vadose Zone 3
- F_W 7800 Environmental Toxicology 3

**Hydrologic Science and Water Quality**
- ATM_SC 7520 Environmental Biophysics 3
- ATM_SC 7550 Atmospheric Physics 3
- FOREST 8390 Physical Hydrology 3
- ENV_SC 7320 Hydrologic and Water Quality Modeling 3
- ENV_SC 7305 Environmental Soil Physics 3
- ENV_SC 7306 Environmental Soil Physics Laboratory 2
- ENV_SC 8400 Solute Transport in the Vadose Zone 3

**Water Management Technology**
- NAT_R 8290 Hydrologic Measurement and Synthesis 2
- ATM_SC 7510 Remote Sensing for Meteorology and Natural Resources 3
- ATM_SC 7590 Radar Meteorology 3

**Watershed Science and Management**
- FOREST 7390 Watershed Management and Water Quality 3
- FOREST 8620 Plant-Water Relations 3
- FOREST 8625 Plant-Water Relations Laboratory 2

**Elective Courses**
- AG_EC 7356 Environmental Law and Policy 3
- AG_S_M 7420 Surface Water Management 3
- AG_S_M 7440 Water Quality and Pollution Control 3
- AG_S_M 7460 Irrigation and Drainage 3
- BIOL_EN 8150 Natural Systems for Wastewater Treatment 3
- BIOL_EN 8250 Water Management Theory 3
- CV_ENG 7230 Introduction to Water Quality 3
- CV_ENG 7240 Water Quality Analysis 3
- CV_ENG 7290 Wastewater Treatment and Process Design 3
- CV_ENG 7700 Hydraulics of Open Channels 3
- CV_ENG 7703 Applied Hydrology 3
- CV_ENG 7710 Soil and Water Conservation Engineering 3
- CV_ENG 7720 Watershed Modeling Using GIS 3
- CV_ENG 7792 Analysis of Water-Resource Systems 3
- CV_ENG 8200 Water Quality Modeling 3
- CV_ENG 8210 Groundwater Pollution Evaluation and Modeling 3
- CV_ENG 8215 Environmental Transport Phenomena 3
- CV_ENG 8225 Aquatic Chemistry 3
- CV_ENG 8270 Design of Water and Wastewater Treatment Facilities 3
- CV_ENG 8280 Engineering Aspects of Water Quality 3
- CV_ENG 8740 Hydrodynamics 3
- GEOG 7630 River and Stream Dynamics 3
- GEOL 7100 Groundwater Hydrology 3
- GEOL 7110 Karst Hydrology 3
- GEOL 7130 Groundwater Modeling 3
- GEOL 7210 Marine Geology 3
- GEOL 7300 Introduction to Low-Temperature Geochemistry 3
- GEOL 7318 Environmental Soil Chemistry 3
- GEOL 7400 Geomicrobiology and Microbial Biogeochemistry 3
- GEOL 7500 Organic Geochemistry 3
- GEOL 8210 Advanced Aquatic Geochemistry 3
- GEOL 8230 Groundwater and Subsurface Geomicrobiology 3
- GEOL 8240 Hydrogeologic Processes 3
- GEOL 8400 Ancient Greenhouse Climate 3
- GEOL 8550 Stable Isotope Geochemistry 3
- PLNT_S 7720 Aquatic Entomology 3

**Thesis Requirements**

A thesis shall be completed before the final examination. Research credits toward a thesis normally shall not exceed eight hours. A final oral examination is provided by all candidates before completion of the degree.
Every candidate should review the "Guidelines for Preparing Theses and Dissertations" from the Graduate School and should consult the Water Resources Director of Graduate Studies for academic program style requirements.

**Thesis defense seminar**

All students must present a defense seminar in advance of his/her final examination. The seminar must be publicized and the Director of Graduate Studies needs to be informed of the date as soon as the student arranges it, at least two weeks before the seminar. If the seminar is not appropriated announced, it may be considered invalid.

**Admissions**

**Admission Contact Information**

School of Natural Resources  
Water Resources Emphasis Area  
203-Q Anheuser-Busch Natural Resources Building  
(573) 884-7732

**Director of Graduate Studies:**

Dr. Jason A. Hubbart  
203-Q ABNR Building  
(573) 884-7732  
HubbartJ@missouri.edu

Applicants are required to meet two sets of minimum qualifications for admission: the requirements of the MS in Natural Resources with emphasis in Water Resources (http://gradstudies.missouri.edu/academics/programs/natural-resources/ms-water-resources-emphasis.php) program and the minimum requirements of the Office of Graduate Studies (http://gradstudies.missouri.edu/admissions/eligibility-process/minimum-requirements). Because requirements vary, you must refer to a degree program's graduate admission page to learn about specific admission criteria, application deadlines, eligibility and application process. Your application materials will be reviewed by both the Office of Graduate Studies and the degree program to which you've applied before official admission to the University of Missouri.

**PhD in Natural Resources**

The PhD in Natural Resources has emphasis areas in Fisheries & Wildlife Sciences (p. 106), Forestry (p. 107), Human Dimensions of Natural Resources (p. 108), Soil, Environmental & Atmospheric Sciences (p. 109), and Water Resources (p. 109). Please see the individual emphasis area pages for degree requirements and admissions information.

**PhD in Natural Resources with Emphasis in Fisheries and Wildlife Sciences**

Admission Contact Information  
Graduate Secretary  
302 Anheuser-Busch Natural Resources Building; Columbia, MO 65211  
Janice Faaborg; faaborgje@missouri.edu; (573) 882-9422 or  
Karen Decker; deckerkf@missouri.edu; (573) 882-3436

---

**Admission Criteria**

**Fall deadline:** Rolling  
- Minimum TOEFL scores:
  - Internet-based test (iBT) 79
  - Paper-based test (PBT) 550
- Minimum GRE scores:
  - Verbal + Quantitative Prior to August 1, 2011 1100  
  - On or After August 1, 2011 1100 equivalent scores
- Minimum GPA: 3.2 in last 60 hours of undergraduate coursework.  
- Experience in research or management of natural resources. Practical skills are strongly considered. Admission Criteria

**Required Application Materials**

**To the Graduate School:**

- All application materials must be submitted to the Apply Yourself online application system  
- All required Graduate School documents  
- A minimum of three letters of recommendation and the accompanying evaluation sheets from people who can attest to the candidate’s scholastic and conservation field work abilities  
- Departmental application  
- Written response to 1 of 5 questions listed on the Fisheries and Wildlife Sciences Graduate Program Admissions page  
- GRE scores  
- TOEFL scores (when applicable)  
- Publications (optional)  
- Résumé or CV

We require applicants to contact specific faculty to determine the availability of research assistantships prior to applying to the program.

An applicant contemplating graduate work in fisheries, limnology, conservation biology, or wildlife should have a strong background in biological and physical sciences, including biology, botany, zoology, ecology, physiology, and genetics. In addition, such taxonomic courses as plant taxonomy, invertebrate zoology, ichthyology, ornithology, and mammalogy are highly desirable, as is a background in chemistry, mathematics, statistics, and physics.

A background of 25 to 30 hours in biological sciences courses is desirable. Minor deficiencies may be remedied during the graduate program; major deficiencies may require preparatory coursework prior to consideration for admission.

Fisheries and Wildlife Sciences degrees emphasize resource management at organismal, population, or ecosystem scales. An emphasis on resource management helps distinguish our program from basic biology; therefore, course work in fisheries or wildlife management, environmental science, resource policy, or other applied ecology fields is advantageous.
PhD Degree Completion Requirements

The PhD degree is conferred only upon those students who, after extensive study, have demonstrated a high level of achievement in their particular specialization in fisheries and wildlife and have completed independent research contributing to knowledge in the field.

Doctoral Committee

A student pursuing a PhD is expected to pass qualifying, comprehensive, and final examinations administered by the student’s doctoral committee. The committee shall be composed of a minimum of 4 members of the MU graduate faculty and will include at least 3 members from the student’s doctoral degree program and 1 outside member from a different MU program. At least 2 of the committee members must be MU doctoral faculty.

Qualifying Examination

The qualifying examination includes a general knowledge examination and is designed to evaluate the student’s background and determine areas that require further course work.

Plan of Study

The doctoral plan of study requires a minimum of 72 hours of graduate credit from courses taken at MU, transfer credits, and research hours. This program must include at least 15 hours of 8000- and 9000-level course work exclusive of problems, readings, and research credits. Up to 30 hours from an accredited master’s program may be applied to the plan of study, subject to committee approval.

Residency Requirement

Students enrolled in the PhD program must also satisfy a residency requirement of at least 3 consecutive semesters in which the student is in residence on the MU campus and enrolled for 6 or more credit hours, unless a prior exception is approved by the director of graduate studies.

PhD in Natural Resources with Emphasis in Forestry

Admission Contact Information

Dr. Stephen G. Pallardy
203 ABNR Bldg.
Columbia, MO 65211
pallardys@missouri.edu

Doctorate in Forestry

The PhD degree in forestry is designed to prepare students for academic careers in research and teaching or other advanced scientific or professional careers. Students entering the PhD program will often have a master’s degree, but this is not an absolute requirement.

PhD candidates conduct original research under the supervision of a faculty advisor or advisors and with the participation of a doctoral committee. Students are expected to engage in coursework to prepare for careers in research, industry or academia. The Department of Forestry expects students to take part in professional and educational activities by giving presentations at conferences and presenting seminars. Ph.D. candidates complete a dissertation and are expected to publish their research results in peer-reviewed scientific journals.

Admission Criteria

Fall deadline: May 15
Spring deadline: October 15
Summer deadline: March 15

- Minimum GPA: 3.0 in last 60 hours
- Minimum TOEFL scores:
  - Internet-based test (iBT) 80
  - Paper-based test (PBT) 550
- Minimum GRE scores:
  - Prior to August 1, 2011 1100
  - On or After August 1, 2011 300

50th percentile or higher preferred in each category.

Particular attention is given to the record of the last 2 years of undergraduate study, and/or the type and quality of professional experience since completion of the undergraduate degree. Doctoral candidates must demonstrate a higher level of achievement in each of these criteria.

Required Application Materials

To the Graduate School:

- All required Graduate School documents
- 3 letters of recommendation from individuals qualified to evaluate scholarly capacity and professional qualities
- Letter of intent

To the Program:

- Departmental application (use form)
- GRE scores

Doctoral Committee in Forestry

The student pursuing the doctoral program is expected to pass qualifying, comprehensive and final examinations administered by the student’s doctoral committee. This committee is structured as defined by the MU Graduate School and must have a minimum of 4 members, at least 3 members must be from the student’s doctoral degree program and 1 outside member from a different MU program. The Forestry Department strongly recommends a 5-person committee for Ph.D. students. At least 2 of the committee members must be MU doctoral faculty.

Doctoral Qualifying Examination

The qualifying examination determines whether the student’s background is adequate to enter the PhD program. It also is intended to ascertain if there are areas of weakness in which a candidate will be required to gain background through appropriate course work or areas that prohibit entry into the program.

Doctoral Comprehensive Examination

The objectives of the comprehensive examination are twofold: 1. to determine if a student has acquired sufficient depth and breadth of knowledge in selected areas of concentration
2. to evaluate the candidate’s capacity to apply that knowledge in solving applied or theoretical problems.

**Final Examination**

The final examination is directed primarily toward exploration of the dissertation research project.

**Foreign Language Requirements**

Requirements for foreign language and a collateral field, if any, are determined by the student’s doctoral committee. The doctoral committee is expected to make an assessment of the student’s needs as they relate to the student’s background and educational objectives.

**Dissertation**

An independent scholarly dissertation approved by the student’s advisor and doctoral committee must be completed.

**Graduation Requirements**

The PhD degree is conferred only upon those students who, after extensive study, have demonstrated a high level of achievement in their particular specialization in forestry and have completed significant independent research in their field.

**PhD in Natural Resources with Emphasis in Human Dimensions of Natural Resources**

**Application and Admission Information**

Dr. Charles Nilon
302 Anheuser-Busch Natural Resources Building
Columbia, MO 65211
nilonc@missouri.edu; (573) 882-3738

**Emphasis Area Focus**

The Human Dimensions of Natural Resources Emphasis Area (HDNR) addresses research and management questions including peoples’ attitudes, knowledge, values, perceptions, and behaviors associated with natural resources. As an interdisciplinary emphasis area, HDNR considers applicants with backgrounds in social sciences, environmental education, natural resources management and conservation, or related disciplines.

The Ph.D. degree in HDNR is designed to prepare students for careers in academic research and teaching, or advanced scientific professions. The Ph.D. degree is conferred upon students who have demonstrated a high level of achievement in their particular specialization and have completed independent research contributing to knowledge in their respective field.

**Admission Criteria**

- Minimum GPA: 3.0 in last 60 hours
- Minimum TOEFL scores:
  - Internet-based test (iBT) 80
  - Paper-based test (PBT) 550
- GRE Required
- Students are expected to have completed a Master’s or equivalent degree at the time they start their doctoral program

**Required Application Materials**

*To the Graduate School:*

- All application materials must be submitted to the Apply Yourself online application system
- Statement of interest
- Résumé or CV
- GRE scores
- TOEFL scores (if applicable)
- A minimum of three letters of recommendation and the accompanying evaluation sheets from people who can attest to the candidate’s scholastic ability and experience relevant to graduate study
- Publications (optional)

**Coursework Requirements**

All students in the HDNR Emphasis Area will be required to take at least one course from each of three categories:

1. Social science research methods
2. Quantitative and/or qualitative data analysis
3. Social science theory

Each student’s coursework requirements, including the selection of specific courses in the above categories, will be listed in the student’s plan of study and approved by their graduate committee.

**Doctoral Degree Requirements**

The HDNR doctoral program of study requires a minimum of 72 hours of graduate credit from courses taken at MU, transfer credit from a Masters or equivalent degree, and research hours. Doctoral students will be expected to follow a timeline toward completion of their degree:

1. Within one year of initial enrollment in the emphasis area, doctoral students must pass a qualifying examination. The qualifying exam will include a presentation by the student of his/her course of study. The course of study shall be approved by the student’s graduate committee. The graduate committee may also request a demonstration of the student's research aptitude, competencies in subject matter, and communication skills.

2. Within three years of initial enrollment in the emphasis area, doctoral students must present a written proposal of their research and an oral defense of that proposal to be reviewed and approved by members of the students' doctoral committee.

3. Within three years of initial enrollment in the emphasis area, doctoral students must pass a comprehensive examination. The PhD comprehensive exam will be a written examination with questions from each of the graduate committee members followed by an oral examination. The format of each set of questions will be determined by the graduate committee members. The oral portion of the comprehensive examination may be combined with the research proposal oral defense.

4. Doctoral students will submit a written dissertation following the guidelines specified by the Graduate School. All doctoral students must present a public oral defense of their dissertation announced at least two weeks prior to the defense date.
PhD in Natural Resources with Emphasis in Soil, Environmental and Atmospheric Sciences

Degree Requirements

- The curriculum is developed by a doctoral program committee and requires a minimum of 72 semester hours beyond the baccalaureate degree.
- At least 15 hours of course work in the degree program must be at the 8000 and 9000 levels, exclusive of research, problems and independent study experiences.
- A minimum of two credit hours of graduate seminar must be included in each student’s graduate program.
- At least 12 credit hours of soil science courses at the 7000, 8000, and 9000 levels, exclusive of problems and thesis research, must be included in the student’s graduate program in the soil science focus area.
- All students are required to attend a workshop on ethics and professionalism.
- All students enrolled in graduate programs are required to participate in a supervised teaching activity.

Qualifying Process

The student should take the qualifying examination soon after admission into the PhD program and submit an approved plan of study to the Office of Graduate Studies. It is departmental policy that a student is only allowed one opportunity to pass the qualifying exam.

Comprehensive Examination Process

After successfully completing the required course work with a GPA of 3.0 (A=4.0) or better, students must pass a written and oral comprehensive examination administered by their doctoral program committee.

Dissertation Requirements

A dissertation, which is a comprehensive report of original research on a specialized soil or atmospheric science problem conducted by the student, must be presented to the student’s graduate committee and successfully defended.

Admissions

Admission Contact Information

Dr. Stephen Anderson, Emphasis Area Coordinator
andersons@missouri.edu
302 Anheuser-Busch Natural Resources Building
Columbia, MO 65211 USA
(573) 882-6303

Applicants are required to meet two sets of minimum qualifications for admission: the requirements of the PhD in Natural Resources with emphasis in Soil, Environmental and Atmospheric Sciences (http://gradstudies.missouri.edu/academics/programs/natural-resources/phd-seas-emphasis.php) and the minimum requirements of the Office of Graduate Studies (http://gradstudies.missouri.edu/admissions/eligibility-process/minimum-requirements). Because requirements vary, you must refer to a degree program’s graduate admission page to learn about specific admission criteria, application deadlines, eligibility and application process. Your application materials will be reviewed by both the Office of Graduate Studies and the degree program to which you’ve applied before official admission to the University of Missouri.

Financial Aid from the Program

Check the program website (http://www.snr.missouri.edu/seas/academics/graduate-program.php) or contact the program for details on scholarships or graduate assistantships that may be available.

PhD in Natural Resources with Emphasis in Water Resources

The Water Resources emphasis area is a multidisciplinary graduate degree program encompassing all fields of natural sciences and, through collaboration, involves expertise from throughout the University of Missouri (MU). The geographic location of MU allows directed research to better understand water movement, biogeochemical cycling, biological and ecohydrological processes of flowing and impounded waters in forested, prairie, agricultural and urban landscapes of the midcontinent.

The Water Resources graduate emphasis area offers a Ph.D. degree program specializing in the occurrence, circulation, distribution, chemical and physical properties, and environmental interaction of atmospheric, surface and subsurface waters. Specific areas of investigation often include (but are not limited to) precipitation floods and drought regimes, lakes and reservoirs, groundwater, water use, water quality, water contamination, plant water use, environmental measurement methods, hydrologic modeling and international water resources.

Participating faculty in the Water Resources emphasis area are engaged in both scientific understanding of water resources (physical, chemical and biological) and its management, and the decision-making processes used to address competing societal values (social, economic and legal). The program has no geographic boundaries but benefits from a distinct midcontinent climate, and physiography. Multi-use watersheds (e.g. forest, agriculture, urban), streams, lakes, rivers, wetlands and subsurface waters are ideal areas for basic and applied research that is easily transferable to other regions. The program provides Global impact by graduating highly qualified internationally aware water resource professionals.

Water Resources program applicants must meet the program requirements of the University of Missouri Graduate School for Ph.D. programs and meet any additional application criteria of the Water Resources graduate emphasis area. Water Resources graduate students are often supported by grant-funded research assistantships, scholarships or fellowships, teaching assistantships, or are self-funded. Other opportunities may be available to eligible students.

Upon successful completion of the School of Natural Resources Water Resources graduate program, students will possess strong technical skills in water resources and related sub-disciplines. Graduates will have developed a holistic understanding of the hydrologic cycle related to ecosystem processes and the interdisciplinary background necessary to understand and address contemporary water resources problems.

Degree Requirements

- A minimum of 72 hrs beyond the Baccalaureate degree for the Ph.D.
University of Missouri

• A maximum of 30 hours of post baccalaureate graduate credit from an accredited university can be transferred toward the Ph.D. degree program.
• The program must include a minimum of 15 hours of 8000 level course work, exclusive of problems, readings and research.
• Ph.D. students are required to publish at least three articles in the primary literature stemming from their dissertation; at least one prior to graduation (requirements may vary by advisor).
• Ph.D. students are required to present their research at two or more professional conferences during matriculation.

Must take at least 9 credit hours from the following:

Aquatic Ecosystem Science
F_W 8460 Wetland Ecology 3
F_W 8520 Stream Ecology 3
F_W 7400 Techniques for Fisheries Management and Conservation 3
F_W 7100 Limnology 3-4
F_W 8450 Advanced Limnology 3
F_W 8550 Advanced Waterfowl Ecology 3

Climate and Climatology
ATM_SC 7400 Micrometeorology 3
ATM_SC 7520 Environmental Biophysics 3
ATM_SC 7590 Radar Meteorology 3
ATM_SC 8400 Atmospheric General Circulation 3
ATM_SC 8600 Advanced Climate Dynamics 3

Environmental Chemistry

GEOL 7500 Organic Geochemistry 3
GEOL 8210 Advanced Aquatic Geochemistry 3
GEOL 8230 Groundwater and Subsurface Geomicrobiology 3
GEOL 8240 Hydrogeologic Processes 3
GEOL 8400 Ancient Greenhouse Climate 3
GEOL 8550 Stable Isotope Geochemistry 3
PLNT_S 7720 Aquatic Entomology 3

Qualifying Process
The qualifying examination determines whether the student's background is adequate to enter the Ph.D. program, as a candidate. It also is intended to ascertain if there are areas of weakness in which a candidate will be required to gain background through appropriate course work. Therefore, it is advisable that the student work with their advisor to select a committee and complete the qualifying exam within the first 2 semesters of matriculation.

Comprehensive Examination Process
The comprehensive examination is taken following the completion of most if not all, the course work requirements established by the graduate committee.

The objectives of the comprehensive examination are twofold:
1. To determine if a student has acquired sufficient depth and breadth of knowledge in selected areas of concentration; and
2. to evaluate the candidate's capacity to apply that knowledge in solving applied or theoretical problems.

Dissertation Requirements
Every candidate should review the Dissertation & Thesis Guidelines (http://gradschool.missouri.edu/academics/thesis-dissertation/diss-thesis-
guideline) from the Graduate School and should consult the Director of Graduate Studies for academic program style requirements.

**Dissertation Defense Seminar**

The DGS must be informed of the dissertation defense seminar at least two weeks in advance of the seminar. It must be well advertised and open to the public.

**Ph.D. Committee Meeting Minimum Requirements**

Ph.D. Students must meet with their committee at least three times during their degree seeking program.

- First Meeting: Present a written research proposal, provide a proposal presentation to the committee and present the D1 and D2 for approval and signing.
- Second Meeting: Comprehensive exam committee meeting.

**Admissions**

**Admission Contact Information**

School of Natural Resources
Water Resources Emphasis Area
203-Q Anheuser-Busch Natural Resources Building
(573) 884-7732

Director of Graduate Studies:
Dr. Jason A. Hubbart
203-Q ABNR Building
(573) 884-7732
HubbartJ@missouri.edu

Applicants are required to meet two sets of minimum qualifications for admission: the requirements of the PhD in Natural Resources with emphasis in Water Resources (http://gradstudies.missouri.edu/academics/programs/natural-resources/phd-water-resources-emphasis.php) program and the minimum requirements of the Office of Graduate Studies (http://gradstudies.missouri.edu/admissions/eligibility-process/minimum-requirements). Because requirements vary, you must refer to a degree program's graduate admission page to learn about specific admission criteria, application deadlines, eligibility and application process. Your application materials will be reviewed by both the Office of Graduate Studies and the degree program to which you've applied before official admission to the University of Missouri.

**Parks, Recreation and Sport**

D. R. Vaught, Degree Program Coordinator
School of Natural Resources
105 Anheuser-Busch Natural Resources Building
Phone: (573) 882-7086
Fax: (573) 882-9526
vaughtdr@missouri.edu
https://cafnr.missouri.edu/degrees-and-programs/parks-rec-sport/

Parks, Recreation and Sport is among the oldest nationally accredited programs in the United States. Emphasis areas include: Recreation Administration, Natural Resource Recreation Management, Tourism Development, and Sport Management. The program integrates classroom learning with applied research and internship experiences and is a leader in technology infusion.

All students are required to complete an internship placement, normally taken during the last year of study and after completing all core courses. The semester-long internship is with an on or off-campus agency or organization chosen by the student and faculty. Regional, national and international internship placements are possible. Students may receive direct financial assistance from the agency or organization during the internship. Internships outside the state of Missouri require a 2.5 GPA.

The program offers BS in Parks, Recreation and Sport and MS in Natural Resources.

**Admission**

It is possible for students who have a broad, liberal education to transfer into the department without a significant time penalty toward graduation. CLEP credits are accepted and evaluated on an individual basis. Minimum GPA of 2.0 required.

**Faculty**

**Associate Professor** S. A. Wilhelm-Stanis**
**Assistant Professor** J. Li*
**Associate Teaching Professor** D. R. Vaught*
**Assistant Teaching Professor** J. R. Upah*, J. Wartella
**Adjunct Professor** D. Eiken*
**Director of Internships** J. R. Upah*

* Graduate Faculty Member - membership is required to teach graduate-level courses, chair master's thesis committees, and serve on doctoral examination and dissertation committees.
** Doctoral Faculty Member - membership is required to chair doctoral examination or dissertation committees. Graduate faculty membership is a prerequisite for Doctoral faculty membership.

**Undergraduate**

- BS in Parks, Recreation and Sport (p. 112)
  - with emphasis in Natural Resource Recreation Management (p. 113)
  - with emphasis in Recreation Administration (p. 114)
  - with emphasis in Sport Management (p. 114)
  - with emphasis in Tourism Development (p. 115)

**Honors**

Students who graduate with the following cumulative GPA values are awarded the baccalaureate degree accordingly:

<table>
<thead>
<tr>
<th>GPA</th>
<th>Degree</th>
</tr>
</thead>
<tbody>
<tr>
<td>3.50-3.69</td>
<td>cum laude</td>
</tr>
<tr>
<td>3.70-3.89</td>
<td>magna cum laude</td>
</tr>
<tr>
<td>3.90 +</td>
<td>summa cum laude</td>
</tr>
</tbody>
</table>

**Graduate**

School of Natural Resources
105 Anheuser-Busch Natural Resources Building
(573) 882-7086
Parks, Recreation and Tourism's graduate program is housed under the MS in Natural Resources with emphasis in Parks, Recreation and Tourism (p. 101). Please visit their page for more information.

**Director of Graduate Studies:** Dr. Sonja Wilhelm Stanis

**About Parks, Recreation & Tourism**

Since virtually everyone participates in some form of leisure, the primary benefit of Parks, Recreation and Tourism (PRT) is to address quality of life issues. The unique interaction of people, places, and activities establish our profession as one of the world's largest industries. Students learn how to manage service delivery systems by combining theory with practice.

**Career Preparation**

The purpose of graduate study is to promote research and scholarship as the foundation of professional excellence, thus preparing candidates for management-level positions or admission to doctoral programs.

**BS in Parks, Recreation and Sport**

**Degree Program Description**

The field of parks, recreation and sport is a multi-billion dollar industry, which encompasses important environmental and social issues such as conservation, community building, human development, health and well-being, and the quality of life. The Parks, Recreation and Sport program provides students with opportunities to develop knowledge and skills for designing, managing, and evaluating various leisure services across a variety of user groups. The undergraduate degree program is comprehensive, yet tailored to meet the needs of students based on current job requirements and professional trends including leadership, communication, problem solving, accounting, and economics. All of our areas of emphasis are accredited with eligibility to sit for the Certified Park and Recreation Professional certification. A wide range of careers in Parks, Recreation and Sport include: outdoor education, park management, park ranger, resource manager, back country guide, visitor relations, recreation supervisors, facility managers, health and fitness, golf course management, park planner, cultural arts, aquatics, account executives, customer relations, game-day operations, compliance, fund raising, sales, and marketing.

**Major Program Requirements**

Satisfactory completion of 120 credits is required: a minimum of 108 credits in course work and a 12-credit internship with a cumulative GPA of 2.0. Professional preparation includes course work in a professional core, professional option requirements and electives, and an internship. Students must also complete all degree, department, college and university graduation requirements, including university general education (p. 33).

Students transferring into Parks, Recreation and Sport from other MU degree programs or from other institutions must have a 2.0 GPA (past term and cumulative) for all work attempted.

**Major core requirements (minimum grade of C- in core)**

**Total Credits: 120-121**

### BS in Parks, Recreation and Sport with Emphasis in Natural Resource Recreation Management

#### Degree Program Description

The public’s desire for quality of life, the pursuit of happiness and for well organized leisure activities drives a $600 billion marketplace supporting parks and recreation, more than $152 billion in sport management, and a $1.3 trillion investment in tourism. Students interested in Parks Recreation and Sport are individuals who are active, involved in sports and the great outdoors, and enjoy travel. The BS in Parks, Recreation & Sport with an emphasis in Natural Resource Recreation Management focuses on the combination of natural and social sciences, and the management of people and natural resources in parks, forests, refuges, and reservoirs. Areas of study include outdoor recreation, methods of interpretation, and land management. Professionals in natural resource recreation management hold integral roles in operations, visitor management, protection and administration of our federal,
state, and local outdoor recreation resources. Outdoor and natural resource recreation managers are employed by local, state, and federal agencies such as state and federal park systems. Responsibilities include managing natural and cultural resources, providing information and education, park operations, planning and design, and outdoor programming. Possible careers include ranger, education/outreach, naturalist, outdoor skills specialist, landscape maintenance, program supervisor, and grants/contract administrator.

**Major Program Requirements**

Students must complete all university, college, and degree requirements (p. 112), including university general education (p. 33), in addition to the requirements below:

Professional Electives related to emphasis 15

Total Credits 27

**Semester Plan**

Refer to the Semester Plan for the BS in Parks, Recreation and Sport (p. 112).

**BS in Parks, Recreation and Sport with Emphasis in Recreation Administration**

**Degree Program Description**

The public’s desire for quality of life, the pursuit of happiness and for well organized leisure activities drives a $600 billion marketplace supporting parks, recreation, more than $152 billion in sport management, and a $1.3 trillion investment in tourism. Students interested in Parks Recreation and Sport are individuals who are active, involved in sports, the great outdoors, and enjoy travel. The BS in Parks, Recreation & Sport with an emphasis in Sport Management specializes in the business aspects of sport and recreation. Areas of study include governance and policy in sport and leisure, sport economics and finance, business of sport, and legal aspects of sport. In Sport Management, economics drive a wide variety of opportunities including professional and collegiate sport, professional management, sporting goods, media, administration and finance. Sport managers are hired by professional sport team’s organizations and associations as well as collegiate athletics, sport facilities, in addition to positions in sporting goods, media, administration, and finance. Possible careers include sport brand manager, marketing manager, athletic director, sport agent, media relations director, and ticket sales representative. This emphasis is preparatory for post-baccalaureate and graduate work in law, business, or sport.

**Major Program Requirements**

Students must complete all university, college and degree requirements (p. 112), including university general education (p. 33), in addition to the requirements below:

BS in Parks, Recreation and Sport with Emphasis in Tourism Development

Degree Program Description

The public’s desire for quality of life, the pursuit of happiness, and for well organized leisure activities drives a $600 billion marketplace supporting parks and recreation, more than $152 billion in sport management, and a $1.3 trillion investment in tourism. Students interested in Parks, Recreation and Sport are individuals who are active, involved in sports, the great outdoors, and enjoy travel. The BS in Parks, Recreation & Sport with emphasis in Tourism Development offers students 12-week hands-on training in the area of interest. Students gain experience through coursework and internships. Tourism development, marketing and event specialists grow in careers associated with tourism venues and enterprises; resorts; local, state and regional economic development agencies; and visitor and convention services. They are responsible for promoting their clients throughout the broadly defined tourism industry. This includes organizing promotional and profitable events for venues and communities, developing public relations materials or establishing relationships with various local interest groups. Sport managers are hired by professional sport team's organizations and associations as well as collegiate athletics, sport facilities, in addition to positions in sporting goods, media, administration, and finance.

Major Program Requirements

Students must complete all university, college and degree requirements (p. 112), including university general education (p. 33), in addition to the requirements below:

Semester Plan

Refer to the Semester Plan for the BS in Parks, Recreation and Sport (p. 113).

Plant Sciences

Division of Plant Sciences
College of Agriculture, Food and Natural Resources
52 Agriculture Laboratory
(573) 882-3001
Fax: (573) 882-2699

Division Director: James English

The Division of Plant Sciences is a consolidation of the disciplines of Agronomy, Entomology, Horticulture, Plant Microbiology and Pathology. Containing both a vibrant and diversified undergraduate and graduate education program, students completing B.S., M.S. or Ph.D. programs are highly competitive for the strong job market in basic or applied careers. In addition to education, the Division of Plant Sciences also provides leadership for plant, insect and microbe-based research, education and Extension programs in the college.

The division is the sole academic program in the state to address issues related to plant production, plant protection and plant biology from the laboratory to the field. We intend to be at the national and international forefront of disciplinary and interdisciplinary research, Extension and education in applied and basic aspects of plant sciences.

Division faculty contribute to advances in conventional, sustainable and alternative production systems, plant biology, genetics and breeding, plant protection and pest management, plant-insect/pathogen interactions, and plant-soil relationships.

Faculty

Endowed Professors P. Chen**, H. T. Nguyen**, G. Stacey**

Assistant Professors D. Mendoza-Cozatl**, H. Naumann*

Research Professors K. A. Nelson**, Z. Zhang**

Distinguished Research Professor J. Boyer*

Assistant Research Professors M. Jones*, A. Scaboo**, M. Stacey*, A. Thomas*

Extension Professors W. E. Stevens*

Associate Extension Professors J. A. Lory*, M. Nathan*

Assistant Extension Professors B. Fresenburg*, D. Volenberg

Assistant Teaching Professor M. A. Gowdy*

Research Associate Professor Emeritus J. Bruhn

Associate Professor Emeritus W. C. Bailey**, B. Pultter

Curators’ Professor Emeritus C. J. Nelson*

Endowed Professor Emeritus J. G. Shannon**

* Graduate Faculty Member - membership is required to teach graduate-level courses, chair master's thesis committees, and serve on doctoral examination and dissertation committees.

** Doctoral Faculty Member - membership is required to chair doctoral examination or dissertation committees. Graduate faculty membership is a prerequisite for Doctoral faculty membership.

Undergraduate

• BS in Plant Sciences (p. 116)
• with emphasis in Breeding, Biology and Biotechnology (p. 117)
• with emphasis in Crop Management (p. 118)
• with emphasis in Horticultural Science and Design (p. 118)
• with emphasis in Turfgrass Science (p. 119)
• Minor in Plant Sciences (p. 121)

Director for Undergraduate Programs
Reid J. Smeda
204 Waters
(573) 882-1329
Fax: (573) 882-1467
smedar@missouri.edu

The Plant Sciences undergraduate major is a joint contribution of the disciplines of Agronomy, Entomology, Horticulture and Plant Microbiology and Pathology. From the manipulation of genes to increasing crop productivity to improving the quality of life by enhancing the landscape, plant science students are engaged in the science and art of working with plants. Educational opportunities in plant science range from basic (genetics, biotechnology and physiology) to applied (crop production and protection, landscape design and turfgrass).

The division offers the BS degree with a major in Plant Sciences. Students in plant science initially receive a broad education in agriculture, the basic sciences and business. Later, they elect to enroll in a specific emphasis area designed to empower them to be competitive in career opportunities in that area. The emphasis areas are a series of interwoven courses in:
• Crop Management
• Horticultural Science and Design
• Breeding, Biology and Biotechnology
• Turfgrass Science

Graduate
• MS in Plant, Insect and Microbial Sciences (p. 119)
• PhD in Plant, Insect and Microbial Sciences (p. 121)

Division of Plant Sciences
52 Agriculture Laboratory
(573) 882-3001
(573) 882-2699
http://plantsci.missouri.edu/graduate

Director of Graduate Studies: James Schoelz

The Division of Plant Sciences offers graduate programs leading to master of science and doctor of philosophy degrees in Plant, Insect and Microbial Sciences. A student can select training from a wide range of courses and research programs to prepare for a career in research, teaching, industry and extension work.

The Division of Plant Sciences maintains excellent graduate programs with classroom instruction and research supervision provided by leading scientists in the field. A student can select training in one of several Graduate Program Areas. Students can follow a traditional curriculum or take advantage of the cross-disciplinary expertise that exists within the Division.

Programmatic Interactions

Students also benefit from interaction with closely allied academic units on and off campus. Students work with scientists in two campus-based USDA research units associated with the division: the Plant Genetics Unit and the Biological Control of Insects Research Laboratory. Additional opportunities exist for interaction with scientists at the Donald Danforth Plant Science Center in St. Louis. Numerous USDA and Danforth Center scientists hold adjunct appointments in the DPS. Students in the DPS are encouraged to interact with interdisciplinary programs on campus such as the Interdisciplinary Plant Group, the Molecular Biology Program, the Genetics Area Program, the Center for Agroforestry and the Missouri Precision Agriculture Center.

Areas of Study

A student can select training from a wide range of courses and research programs to prepare for a career in research, teaching, industry and extension work. Students may complete their graduate degrees through any of the Graduate Program Areas:
• Crop, Soil and Pest Management
• Entomology
• Horticulture
• Plant Breeding, Genetics and Genomics
• Plant Stress Biology

BS in Plant Sciences

Degree Program Description

From the food on our plates to the homes we live in to the fuel in our vehicles, plants impact all aspects of our daily lives. As an ever-growing human population continues to increase the demand for crops and other plant products, so too does the demand for plant scientists. Plant Sciences addresses the challenges from the field to the laboratory. Students enroll in a generalized core curriculum, then further refine their expertise by choosing among a variety of emphasis areas including: Breeding, Biology & Biotechnology; Crop Management; Horticultural Science and Design; and Turfgrass Science. A few of the plant sciences careers include Crop management specialists, horticulturists, plant geneticists, biotechnologists, plant protection specialists, and turfgrass scientists.

Major Program Requirements

Students earning a Bachelor of Science in Plant Sciences are required to complete all University general education (p. 33), University undergraduate requirements (p. 32), degree, and major requirements, including selected foundational courses, which may fulfill some University general education requirements. Students earning a degree in Plant Sciences must also select one emphasis area.

BS in Plant Sciences with Emphasis in Breeding, Biology and Biotechnology

Degree Program Description

From the food on our plates to the homes we live in to the fuel in our vehicles, plants impact all aspects of our daily lives. As an ever-growing human population continues to increase the demand for crops and other plant products, so too does the demand for plant scientists. Plant Sciences addresses the challenges from the field to the laboratory. Students enroll in a generalized core curriculum, then further refine their expertise in the Breeding, Biology & Biotechnology emphasis area. Plants are an integral component of the food, fiber, and medicinal components necessary to meet current and future population demands. Manipulation of plants at the cellular level can improve yields, pest resistance, and enhance nutritional value. Students in this emphasis area will gain classroom and real world experience (research opportunities in labs; internships with industry partners) to prepare for challenging careers or advanced education. From commercial plant breeders to lab managers, trained students are in high demand for rewarding opportunities.

Major Program Requirements

Emphasis Area Requirements

Manipulation of plants at the cellular and genetic level can lead to improvements in crop performance and resistance to pests, as well as increase plant users. Job opportunities from the laboratory to the field are widespread in seed and chemical industries around the world.

Breeding, Biology and Biotechnology Emphasis Area Requirements

BS in Plant Sciences with Emphasis in Crop Management

Degree Program Description

From the food on our plates to the homes we live in to the fuel in our vehicles, plants impact all aspects of our daily lives. As an ever-growing human population continues to increase the demand for crops and other plant products, so too does the demand for plant scientists. Plant Sciences addresses the challenges from the field to the laboratory. Students enroll in a generalized core curriculum, then further refine their expertise in the Crop Management emphasis area. Whether from a farm or urban background, developing technology in the husbandry and protection of agronomic or horticultural crops has created this productive career track. Students utilize a combination of classroom and outdoor experiences to prepare for one of many opportunities: crop consultant; agronomist; crop sales representative; pest management specialist; farmer or entrepreneur; and advanced education. Many positions are applied; the participation in crop growth and protection careers will be in demand well into the future. Crop management specialists find employment with universities, the USDA Agricultural Research Service or private companies. They answer agronomic questions specific to their region, study major field and forage crops, and examine the feasibility of growing alternative crops for niche markets.

Major Program Requirements

Emphasis Requirements

The management of food and fiber crops is key to meeting the global demands for food and energy. There are many opportunities to improve plant growth by manipulating production practices and improving control of disease, insect, and weed pests.

BS in Plant Sciences with Emphasis in Horticultural Science and Design

Degree Program Description

From the food on our plates to the homes we live in to the fuel in our vehicles, plants impact all aspects of our daily lives. As an ever-growing human population continues to increase the demand for crops and other plant products, so too does the demand for plant scientists. Plant Sciences addresses the challenges from the field to the laboratory. Students enroll in a generalized core curriculum, then further refine their expertise in the Horticultural Science and Design emphasis area. The beauty of attractive indoor plant displays or ornamental species in landscapes adds value and satisfaction. Appreciating the plants around us and designing new ways to present them can lead to careers in nursery management, landscape designer, zoo groundskeeper, or botanic gardener. Students in this area learn the basics in the classroom and advance their skills working locally (greenhouses, landscape firms) or abroad (Epcot Center, MO Botanical Gardens). Horticulturists use their knowledge of plant growth to sustainably produce flowers, vegetables and ornamental plants to enhance the environment. Careers include botanical gardens, commercial greenhouses and nurseries, landscape design firms, or life science companies.

Major Program Requirements

Emphasis Area Requirements

Trees, flowers and other ornamental plants add beauty to our landscape, preserve green space, and reduce the negative impacts of climate change. Other plants such as vegetables and fruits enhance human health. Career opportunities exist to design landscapes, improve the value and beauty of homes and businesses, as well as commercially grow horticultural crops in greenhouses and other settings.

**Semester Plan**

Refer to the Semester Plan for the BS in Plant Sciences (p. 116).

**BS in Plant Sciences with Emphasis in Turfgrass Science**

**Degree Program Description**

From the food on our plates to the homes we live in to the fuel in our vehicles, plants impact all aspects of our daily lives. As an ever-growing human population continues to increase the demand for crops and other plant products, so too does the demand for plant scientists. Plant Sciences addresses the challenges from the field to the laboratory. Students enroll in a generalized core curriculum, then further refine their expertise in the Turfgrass Science emphasis area. From observing sporting events to participation in recreational or professional sports, turf serves as the platform upon which outdoor sports are played. The basics of turfgrass selection, production, and protection offer diverse careers where the outdoors is your office: golf course superintendent, lawn technician, city park management, and sports complex turf manager. For those that enjoy the outdoors and green backgrounds, opportunities abound to work in low profile (parks and recreation) or high profile (Busch Stadium) venues. Turfgrass scientists strive to improve the ability of turfgrass to withstand the demands of drought, weeds, pest invasions and foot traffic. Professional sports teams, golf courses, cities and school systems all offer careers in turfgrass management.

**Major Program Requirements**

**Emphasis Area Requirements**

Creation and maintenance of high quality turf areas for sporting activities, home lawns, and utility areas are important. Careers are available to protect turf from pests and optimize growth; integrated strategies emphasize conservation of water and other natural resources.

**Turfgrass Science Emphasis Area Requirements**

**Semester Plan**

Refer to the Semester Plan for the BS in Plant Sciences (p. 116).

**MS in Plant, Insect and Microbial Sciences**

**Degree Requirements**

To satisfy the course requirements for a master’s degree, a student must complete:

- A minimum of 30 credit hours from courses numbered 7000 - 9000
- 15 credit hours (towards the 30 credit hour requirement) must be from courses numbered at the 8000 or 9000 level
- 12 credit hours (towards the 30 credit hour requirement) can be satisfied by research, readings and problems courses
- For the Horticulture Program Area, at least 6 credits must be from formal courses, excluding Problems and other independent study courses and only 6 credit hours of research (PLNT_S 8090) can count towards the 30 credit hour requirement, even though additional hours of research can be taken.

The division-wide course requirements for the master’s degree are:

<table>

</tbody>
</table>

**Teaching Requirement**

With the exception of the Entomology Program Area, all students must participate in an approved teaching opportunity or an approved extension program.

**Satisfactory Rate of Progress**

A student shall maintain a minimum grade point average of 3.0. All divisional course requirements (and any additional requirements set by the student’s examination committee) shall be completed in a timely manner. All advisors will meet annually with each of their graduate advisees. They will discuss the student’s performance, any problems that exist and any suggestions for improvement. The advisor will provide the student and the director of graduate studies with a written summary of the meeting as part of the annual program assessment process.

**Sample Plan of Study**

There are several areas of study within the MS in Plant, Insect and Microbial Sciences degree. A student can select training from a wide range of courses and research programs to prepare for a career in research, teaching, industry and extension work. Note: Areas of Study will not appear on transcripts or diplomas. Each program area emphasizes a customized approach towards the course of study. Each student will work with their advisor and graduate committee to develop a course of study best suited to the student’s educational and career goals.

**Crop, Soil and Pest Management**

**Core Requirements:**

### Entomology

**Core Requirements:**
- PLNT_S 7710  
  Systematic Entomology  
  PLNT_S 8720  
  Principles of Insect Physiology  
  PLNT_S 8010  
  Professionalism and Ethics  
  PLNT_S 9087  
  Seminar in Plant Science  
  PLNT_S 7087  
  Seminar (must take twice)  
  PLNT_S 8090  
  Thesis Research  
  PLNT_S 9810  
  Insect Ecology  

One Elective formal Entomology course

### Horticulture

**Core Requirements:**
- PLNT_S 8010  
  Professionalism and Ethics  
  PLNT_S 9087  
  Seminar in Plant Science  
  PLNT_S 7087  
  Seminar (must take twice)  
  PLNT_S 8090  
  Thesis Research  

### Plant Breeding, Genetics and Genomics

**Core Requirements:**
- PLNT_S 8010  
  Professionalism and Ethics  
  PLNT_S 9087  
  Seminar in Plant Science  
  PLNT_S 7087  
  Seminar (must take twice)  
  PLNT_S 8090  
  Thesis Research  

### Elective Courses

**Bridging Courses to Expand Your Background in Plant Biology**
- PLNT_S 7315  
  Crop Physiology  
  PLNT_S 7320  
  Molecular Plant Physiology  
  PLNT_S 7500  
  Biology and Pathogenesis of Plant-Associated Microbes  

**Elective Courses to Fulfill the Requirement for 15 Credit Hours at the 8000 or 9000 Level**
- AN_SC 8430  
  Introduction to Bioinformatics Programming  
  BIO_SC 8310  
  Fungal Genetics and Biology  
  PLNT_S 8330  
  Molecular Breeding  
  PLNT_S 8362  
  Introduction to Plant Metabolism  
  PLNT_S 8365  
  Introduction to Molecular Cell Biology  
  PLNT_S 8650  
  Ecological and Evolutionary Genomics  
  PLNT_S 9415  
  Advanced Plant Physiology  
  PLNT_S 9440  
  Applied Quantitative and Statistical Genetics  
  PLNT_S 9540  
  Genetics of Plant-Microorganism Interaction  
  PLNT_S 9810  
  Insect Ecology  

### Plant Stress Biology

**Core Requirements:**
Choose one course:
- PLNT_S 7315  
  Crop Physiology  
- PLNT_S 7320  
  Molecular Plant Physiology  

**Elective Courses to Fulfill the 30 Credit Hour Minimum**

**Additional Entry Level Courses**
- PLNT_S 7950  
  Plant Biotechnology  
- PLNT_S 7400  
  Plant Anatomy  

**Thesis Requirements**

A thesis is required for the M.S. degree in Plant, Insect and Microbial Sciences. The thesis must demonstrate the student's capacity for research and independent thought. Organization of the thesis is subject to approval of the Master's Committee.

The Thesis Defense will consist of a research seminar and final examination, the latter to demonstrate the student's mastery of the academic focus of the chosen Graduate Program Area. It is the student's responsibility to check the Graduate Studies Office's graduation deadlines when scheduling the exam. The candidate must be enrolled to defend the thesis. The examination cannot be administered when MU is not officially in session.

The seminar will be presented by the student for division faculty, staff, students, committee members, and other interested persons. It must summarize the thesis research conducted by the student during the Master's program. The seminar will be followed by the final, oral examination administered by the Master's Committee. Although the general protocol followed during the oral examination shall be at the discretion of the Major Advisor, a typical oral examination lasts about 2 hours and is divided between defense of the thesis and non-thesis subject matter. The research seminar should be scheduled the same day (preferably) or during the week preceding the remainder of the final examination.
Admissions

Admission Contact Information
Ms. Christa Smith
52 Agriculture Lab; Columbia, MO 65211
(573) 882-3001

Applicants are required to meet two sets of minimum qualifications for admission: the requirements of the MS in Plant, Insect, and Microbial Sciences (http://gradstudies.missouri.edu/academics/programs/plant-insect-microbial-sciences/masters.php) and the minimum requirements of the Office of Graduate Studies (http://gradstudies.missouri.edu/admissions/eligibility-process/minimum-requirements). Because requirements vary, you must refer to a degree program’s graduate admission page to learn about specific admission criteria, application deadlines, eligibility and application process. Your application materials will be reviewed by both the Office of Graduate Studies and the degree program to which you’ve applied before official admission to the University of Missouri.

Financial Aid from the Program

Financial assistance is available to qualified students at both the MS and PhD levels, as either fellowships or research assistantships. Some programs require an extra form or statement from those who wish to be considered for internal assistantships, fellowships or other funding packages. Check the program website (http://plantsci.missouri.edu/graduate) or ask the program contact for details.

Minor in Plant Sciences

A minor in Plant Sciences shall consist of a minimum of 15 hours of formal coursework in Plant Sciences (PS) designated courses. Of the 15 hours selected, a minimum of 12 hours must be numbered 2000 or above, of which at least 9 hours must be numbered 3000 or above.

Note: Problems courses, Readings courses, Internship courses and Undergraduate Research courses are not acceptable courses for the Plant Sciences minor, unless approved by the Director for Undergraduate Programs.

PhD in Plant, Insect and Microbial Sciences

Degree Requirements

To satisfy the course requirements for a doctoral degree, a student must complete:

- A minimum of 72 credit hours from courses numbered 7000-9000 (this includes dissertation research credit hours - i.e. PLNT_S 9090),
- 15 credit hours (towards the 72 hour requirement) must be from courses numbered at the 8000 or 9000 level, exclusive of dissertation research, problems or independent study.
- For the Horticulture Program Area, all Doctoral students will have successfully completed the requirements for a master’s degree before beginning a doctoral program and no more than 30 hours of dissertation research may be counted towards the 72 hr minimum.

- Two semesters of PLNT_S 9087.
- Three semesters of PLNT_S 7087.

Teaching Requirement

With the exception of the Entomology Program Area, all students must participate in an approved teaching opportunity or an approved extension program.

Reasonable Rate of Progress

A reasonable rate of progress toward the degree is required. A Ph.D. student must successfully complete the comprehensive exam within 5 years of their first semester of enrollment as a Ph.D. student. In addition, the remaining program for the doctoral degree must be completed within 5 more years after passing the Comprehensive Exam.

Sample Plan of Study

There are several areas of study within the PhD in Plant, Insect and Microbial Sciences degree. A student can select training from a wide range of courses and research programs to prepare for a career in research, teaching, industry and extension work. Note: Areas of Study will not appear on transcripts or diplomas. Each program area emphasizes a customized approach towards the course of study. Each student will work with their advisor and graduate committee to develop a course of study best suited to the student's educational and career goals.

Comprehensive Examination Process

The Comprehensive Examination is a major milestone in the Ph.D. candidate's progress towards completion of the degree requirements. The candidate is expected to clearly demonstrate his/her knowledge and understanding of the principles and concepts of the chosen Graduate Program Area, related biological sciences, and the scientific method. The Comprehensive Exam should be scheduled when the student has essentially completed the required plan of study. The Comprehensive Exam must be completed at least seven months before the final examination (defense). The Comprehensive Exam Committee is the same as the Doctoral Committee.

The Comprehensive Exam requires both written and oral performance by the student to achieve candidacy. The student's advisor will select either Track I or Track II for the format of the exam. The student arranges the written and oral portion of the Comprehensive Exam with each member of the Committee.

Dissertation Defense

A dissertation is required of every Ph.D. Candidate in the Division of Plant Sciences. This is to be a substantial scholarly manuscript of original research conducted by the student. The dissertation should reflect the depth of understanding, independent thought, and original work worthy of a Ph.D.

The Dissertation Defense consists of a research seminar and final examination. It is the student's responsibility to check the Graduate School's graduation deadlines when scheduling the exam. The seminar will be presented by the student for division faculty, staff, students, committee members, and other interested persons. The student may choose to present the seminar as part of the Division Seminar Series. It must summarize the dissertation research conducted by the student during the Doctoral program. The seminar will be followed by the final, oral examination administered by the Doctoral Committee. Although the general protocol followed during the oral examination shall be at the discretion of the Major Advisor, a typical oral examination lasts about 2 hours and is divided between discussion of the dissertation and related, dissertation subject matter. The research seminar should be scheduled the same day (preferably) or during the week preceding the remainder of the final examination.

Admissions

Applicants are required to meet two sets of minimum qualifications for admission: the requirements of the PhD in Plant, Insect, and Microbial Sciences (http://gradstudies.missouri.edu/academics/programs/plant-insect-microbial-sciences/doctorate.php) and the minimum requirements of the Office of Graduate Studies (http://gradstudies.missouri.edu/admissions/eligibility-process/minimum-requirements). Because requirements vary, you must refer to a degree program's graduate admission page to learn about specific admission criteria, application deadlines, eligibility and application process. Your application materials will be reviewed by both the Office of Graduate Studies and the degree
program to which you’ve applied before official admission to the University of Missouri.

Financial Aid from the Program

Financial assistance is available to qualified students at both the MS and PhD levels, as either fellowships or research assistantships. Some programs require an extra form or statement from those who wish to be considered for internal assistantships, fellowships or other funding packages. Check the program website (http://plantsci.missouri.edu/graduate) or ask the program contact for details.

Rural Sociology

College of Agriculture, Food and Natural Resources
David O’Brien, Chair

(573) 882-7451
swaimc@missouri.edu

The Department of Rural Sociology participates in the Bachelor of Science in Agriculture degree offered by the College of Agriculture, Food and Natural Resources and offers a minor in rural sociology. For information about the agriculture degree, see the Agriculture degree page. The Department of Rural Sociology also offers graduate degrees.

Faculty

**Associate Professor** J. L. Gilles**
**Assistant Professor** M. Hendrickson**, H. Qin**
**Teaching Assistant Professor (NTT)** C. Brock*
**Extension Assistant Professor** J. Adams*
**Associate Extension Professor** S. Jeanetta**, M. S. Leuci**
**Research Assistant Professor** C. Fulcher*
**Associate Professor Emeritus** K. E. Pigg*
**Professor Emeritus** R. R. Campbell*, M. Grigsby**, M. F. Nolan*

* Graduate Faculty Member - membership is required to teach graduate-level courses, chair master’s thesis committees, and serve on doctoral examination and dissertation committees.

** Doctoral Faculty Member - membership is required to chair doctoral examination or dissertation committees. Graduate faculty membership is a prerequisite for Doctoral faculty membership.

Undergraduate

• Minor in Rural Sociology (p. 124)

Graduate

• MS in Rural Sociology (p. 123)
• PhD in Rural Sociology (p. 124)

121 Gentry Hall
(573) 882-7451
http://dass.missouri.edu/ruralsoc/

**Director of Graduate Studies:** Jere Gilles

The Department of Rural Sociology offers the MS and PhD degrees. The program consists of broad training in sociological theory and methodology with attention to application and policy issues.

Students entering with a bachelor’s degree normally are admitted into the master’s program even if they are going on to a PhD, except for students may be admitted to the Masters/PhD program. Up to 12 hours of makeup work may be required for students who have less than adequate undergraduate preparation in the social sciences.

Specializations

Areas of specialization in the department are: sustainable development, community facilitation, and analytical processes.

Financial Aid from the Program

Request for financial support is made by the student at the time of application. Most of the financial support is for research assistantships. Some programs require an extra form or statement from those who wish to be considered for internal assistantships, fellowships or other funding packages. Check the program website or ask the program contact for details.

MS in Rural Sociology

Degree Requirements

Professional Master’s Degree

The principal master’s degree in rural sociology is the 39-credit-hour professional master’s degree. The program is designed to prepare students for positions in the public and private sectors, and it is particularly useful for positions that include applied research, policy analysis or community development. Students who wish to complete a master’s degree in rural sociology followed by a doctoral degree in the program also are encouraged to pursue the degree.

The professional master’s degree has two options:

1. The community facilitation option for individuals interested in working for government, extension and non-governmental agencies in the field of community development.
2. The analytical processes option for students wishing to do policy analysis for government agencies.

Students must have a grade point average of 3.0 or greater and must have completed at least 15 hours of coursework at or above the 8000 level. Both programs require an internship.

Traditional Master’s Degree

A 30-credit-hour traditional master’s degree, requiring a thesis, is also offered. The degree primarily is intended for those who intend to pursue doctoral studies or who have a special reason for wanting a thesis degree. Although it requires fewer credit hours, a thesis degree normally
requires one semester longer to complete than the professional master's degree.

Thesis/Non-Thesis Requirements

Non-Thesis Requirements

The Professional Master of Science degree does not require a thesis. Instead students are required to complete an internship.

Thesis Requirements

Students pursuing the Traditional Master of Science degree must complete a thesis. The thesis take approximately 1-3 semesters to complete.

Admissions

Admission Contact: Carol Swaim
Department of Rural Sociology
121 Gentry Hall; Columbia, MO 65211
573-882-7451

Applicants are required to meet two sets of minimum qualifications for admission: the requirements of the MS in Rural Sociology program (http://gradstudies.missouri.edu/academics/programs/rural-sociology/masters.php) and the minimum requirements of the Office of Graduate Studies (http://gradstudies.missouri.edu/admissions/eligibility-process/minimum-requirements). Because requirements vary, you must refer to a degree program’s graduate admission page to learn about specific admission criteria, application deadlines, eligibility and application process. Your application materials will be reviewed by both the Office of Graduate Studies and the degree program to which you’ve applied before official admission to the University of Missouri.

Minor in Rural Sociology

The rural sociology undergraduate minor requires 15 credits in rural sociology courses. Nine credits must be above the 2000 level. The specific combination of courses must be approved by a department advisor.

PhD in Rural Sociology

Degree Requirements

The PhD is a 72 credit hour minimum with no more than 6 hours of readings or problems courses, and a maximum of 12 dissertation research hours toward the 72 hour requirement. Coursework taken toward a master’s degree in the social sciences may count toward these requirements. A student must complete thirty hours of coursework beyond the master’s degree.

Areas of Professional Expertise

In addition to the required core, every PhD student will be required to complete an “area” of concentration” comprised of a minimum of 12 credits (in the case of a minor or certificate requiring less than 12 hours, a
student must complete an additional 3 hours of coursework related to this area of concentration.

Students should select from the following options:
1. An existing Graduate Certificate Program
2. An existing Graduate Minor in a substantive Area
3. Development of an individualized "Area of Concentration".

**Qualifying Process**

To qualify for continuation in the Ph.D. program students must complete two full enrollment semesters at the start of their program in which they take core sequence courses and make a B or above in all courses taken. (The qualifying requirement must be met. In some cases waivers may be given within one year of enrollment in the Ph.D. program.)

**Comprehensive Examination Process**

To be an official candidate for a doctoral degree the student must have passed a comprehensive examination for admission to doctoral study. This is the major examination in the doctoral training program, and must be passed BEFORE FORMAL WORK ON THE DISSERTATION IS BEGUN. It is administered by the Doctoral Program Committee.

Successful completion of a comprehensive examination must occur within five years of beginning the doctoral program. A student is ready to take the comprehensive examination when he/she has:

- Completed all of the courses listed in his/her Plan of Study with satisfactory grades.
- If they entered the program with a Masters degree that did not require a thesis, they must have written and submitted a paper for review in a scholarly journal. A copy of the paper as well as information as to where it was submitted must be in a student’s file.
- Submitted and received approval from their advisory committee for their dissertation research proposal.
- Submitted an approved copy of the dissertation proposal to be kept in the student’s departmental file until the dissertation is actually completed.

The comprehensive examination consists of both a written and an oral examination.

- These are designed and administered by the advisory committee of the Ph.D. student.
- The comprehensive examination is designed to evaluate a student’s preparedness to proceed with the dissertation.
- Students are normally given two opportunities to pass this examination.
- A copy of the completed comprehensive examination will be filed with the director of graduate studies and kept in the departmental student record.

**Written Comprehensive:** The written portion of the examination will evaluate competency in theory and methods in the student’s specialty area, as well as their readiness to conduct their dissertation research. After the advisory committee indicates that a student has passed the written portion of the comprehensive examination, the oral examination will be given.

**Oral Comprehensive:** The oral portion of the examination will address issues raised on the written examination and in the student’s dissertation plans. This exam is open to faculty and students; the location and time must be publicly announced a minimum of two weeks before the examination takes place. The public part of the examination will be limited to the presentation of the student’s research proposal followed by questions about the proposal. Following the public oral examination the student’s advisory committee will complete the examination in private.

**Dissertation Requirements**

Successful completion of a dissertation or a research monograph, according to the regulations of the Office of Graduate Studies is required.

- The dissertation must be completed within five years of the completion of the comprehensive examination.
- All members of the committee are expected to take an active part in the preparation of the dissertation.
- The student’s committee is to conduct an oral final examination (“defense”) of the dissertation/monograph.
- This examination cannot be scheduled until the advisory committee members have received a completed draft copy of the dissertation.
- This examination is to be open to faculty and students and must be publicly announced at least two weeks before the exam. Candidates should provide the Rural Sociology Department Office with an announcement including (a) the title of the dissertation, (b) the date and location of the orals, and (c) the advisor’s name.
- Faculty and students may attend orals and question candidates, but cannot be present when the vote on the result of the examination is taken.
- At least four committee members must vote to pass a dissertation in order for the degree to be completed.
- The candidate must be enrolled to defend their dissertation.
- The defense must be scheduled when MU is officially in session.
- The Report of the Dissertation Defense form (D-4) and the Approval Page, which must be signed by all members of the approved committee, should be sent to the Office of Graduate Studies after the
defense has been completed and must include an electronic copy as specified by the Office of Graduate Studies.

Admissions

Admission Contact: Carol Swaim
121 Gentry Hall; Columbia, MO 65211
(573) 882-7451
Fax: (573) 884-4444
swt@missouri.edu

Applicants are required to meet two sets of minimum qualifications for admission: the requirements of the PhD in Rural Sociology program (http://gradstudies.missouri.edu/academics/programs/rural-sociology/doctorate.php) and the minimum requirements of the Graduate School (http://gradschool.missouri.edu/admissions/eligibility-process/minimum-requirements.php). Because requirements vary, you must refer to a degree program's graduate admission page to learn about specific admission criteria, application deadlines, eligibility and application process. Before official admission to the University of Missouri, your application materials will be reviewed by both the Graduate School and the degree program to which you've applied.

Science and Agricultural Journalism

Sharon Wood-Turley, Program Chair
112 Gentry Hall
(573) 882-7645
Fax: (573) 884-4444
swt@missouri.edu

The College of Agriculture, Food and Natural Resources, in cooperation with the Missouri School of Journalism, offers a degree program in Science and Agricultural Journalism (http://dass.missouri.edu/agj). This curriculum prepares students to communicate about issues related to science and agriculture, including: the food system (including everything from traditional production agriculture to grape and wine production), natural resources, the life sciences, the environment, and medical and agricultural biotechnology.

Graduates are prepared to enter a wide variety of media professions including: public relations, marketing, multimedia/web production, photography, magazine writing, reporting and broadcast.

Students must meet all GPA requirements of the Missouri School of Journalism. Check with your advisor for details. The department offers the Bachelor of Science with a major in Science and Agricultural Journalism.

Faculty

Assistant Teaching Professor W. Allen*, S. Wood-Turley*
Instructor L. Sowers, N. Furstenau

* Graduate Faculty Member - membership is required to teach graduate-level courses, chair master's thesis committees, and serve on doctoral examination and dissertation committees.
** Doctoral Faculty Member - membership is required to chair doctoral examination or dissertation committees. Graduate faculty membership is a prerequisite for Doctoral faculty membership.

Undergraduate

• BS in Science and Agricultural Journalism (p. 127)

Major Program Requirements and Options in Science and Agricultural Journalism

When you major in science and agricultural journalism (http://dass.missouri.edu/agj), you gain access to the strengths of two nationally renowned programs: the Missouri School of Journalism and the MU College of Agriculture, Food and Natural Resources. Students combine courses in a subject area related to agriculture and the food system with a specialization in a specific medium/communications focus in the School of Journalism.

The Science and Agricultural Journalism Program provides you with five subject matter tracks to select from:

(Note: Tracks do not appear on transcripts or diplomas.)
- Agricultural Marketing
- Agricultural Science
- Conservation and Environmental Sciences
- Food and Wine
- Science

In addition, you can focus on one of the following media emphasis areas in the Journalism School, or select courses from a combination of:

- Convergence Journalism (a combination of media skills)
- Magazine Journalism
- Photojournalism
- Print and Digital News
- Radio-Television Journalism
- Strategic Communications (Advertising and Public Relations)

Agricultural Marketing Track

The Agricultural Marketing Track prepares students for careers in the agribusiness, government and other sectors where the specialized skills of writing, multimedia, marketing and strategic communications are in high demand. This track includes courses within the College of Agriculture, Food and Natural Resources in the Ag Marketing System, Ag Sales, Fundamentals of Entrepreneurship, New Products Marketing, International Food Trade and Policy, Agribusiness Finance and Agribusiness Management Strategy.

Agricultural Science Track

The Agricultural Science Track prepares students for careers in the news media, agricultural industry, government and other sectors where an in-depth knowledge of plant, animal and food science is in high demand along with specialized skills in writing, multimedia and other forms of communication. This track includes courses within the College of Agriculture, Food and Natural Resources in Plant Growth and Culture; Genetics of Ag Plants and Animals; Animal Science; Global Animal Agriculture; Food Science and Nutrition; Meat Classification, Grading and Judging; Elements of Food Microbiology; and Principles of Meat Science.

Conservation and Environmental Sciences Track

The Conservation and Environmental Sciences Track prepares students for careers writing about the environment, energy, conservation and nature. From climate change, endangered species and clean water to
wildlife, forestry and outdoor activities - students in this track will gain an understanding of the complex issues on these beats and the complex job of communicating about them. This track includes a specialized course in Field Reporting and can include a trip to the annual national meeting of the Society of Environmental Journalists, a non-advocacy group. Other courses within the College of Agriculture, Food and Natural Resources in this track include Introduction to Environmental Science, Ecology and Renewable Resource Management; Introduction to Meteorology; Climates of the World; Soils and the Environment, Environmental Economics and Policy; and Water Quality and Natural Resources Management.

Food and Wine Track
Interest in food and wine is growing among consumers and the news media industry. Also, dairy, meat and wine are major industries in Missouri. This track prepares students for journalism and strategic communications careers in this increasingly important sector. The Food and Wine Track includes a specialized course in covering food and wine. Other courses within the College of Agriculture, Food and Natural Resources include Introduction to Food Science, Elements of Food Microbiology, Introduction to Viticulture (grape production) and Enology (wine production), Grapes and Wines of the World, Principles of Wine Production and Principles of Wine Cellar Operation.

Science Track
The Science Journalism Track prepares students for careers covering news and information on the frontiers of science - from biotechnology and nanotechnology to astronomy, climate, geology and the human brain. Students in this track will gain an understanding of the scientific, social, political and economic forces that shape the world of science and technology today, a world that increasingly affects the way we live and learn. This track includes such courses as Explaining Research: Earth Systems and Global Change; Introduction to Meteorology; Physics for Poets; Mind, Brain and Behavior; Science, Technology and Society; and Readings in Science Journalism. This track will enable excellent preparation for students in both journalism and strategic communications.

Graduate
While the College of Agriculture, Food and Natural Resources does not offer a graduate degree in science and agricultural journalism, the College does offer graduate degrees and certificates in a number of disciplinary areas. The catalog provides a complete list of these degree options (p. 17) at the University of Missouri, including the School of Journalism (p. 636).

BS in Science and Agricultural Journalism

Degree Program Description
Science and Agricultural Journalism involves communicating about agriculture, the life sciences, the environment, food, natural resources, and medical and agricultural biotechnology. This degree prepares students to succeed in a wide variety of careers in science and agricultural journalism, advertising and public relations, by combining the strengths of the MU School of Journalism and the MU College of Agriculture, Food and Natural Resources (CAFNR). The program allows students to pick one of five tracks, Agricultural Marketing, Agricultural Science, Conservation and Environment, Food and Wine, Science. In addition, students can focus on one of 30 interest areas in the School of Journalism, or pick courses from any combination. Interest areas include: Print and Digital News, Radio and Television Journalism, Magazine Journalism, Strategic Communications (advertising and public relations), Photojournalism, Convergence Journalism (multimedia). Possible careers with a degree in Science and Agricultural Journalism: Online/multimedia editors and reporters use their skills to tell stories using the richness of text, audio, photography, video and animation. Public relations specialists work in agencies, corporate communications, educational institutions, commodity groups and nonprofit agencies. Photojournalists use the power of visual media to communicate about agriculture, technological advances, people, social issues and natural disasters. Social media specialists know how to use new communication tools such as Facebook, Twitter and blogs to communicate directly to individuals. Science/environment writers take the complex topics the world faces today (global warming, food security, sustainable living, energy creation) and use their reporting skills to present unbiased information for the general public in a variety of media outlets.

Major Program Requirements
Students earning a Bachelor of Science in Science and Agricultural Journalism are required to complete all University general education (p. 33), University undergraduate requirements (p. 32), degree and major requirements including selected foundational courses, which may fulfill some University general education requirements. In addition, all students must complete 42 hours of Journalism coursework, 6 hours of Science and Agricultural Journalism courses, and 18 hours in one of the Science and Agricultural Journalism tracks (Agricultural Marketing, Agricultural Science, Conservation and Environment, Food and Wine, and Science). In addition, internship experience is strongly encouraged. A minimum of 120 credit hours is required for a B.S. in Science and Agricultural Journalism. Students must meet all GPA requirements for Journalism courses.

Total Credits: 120

Additional Minors and Certificates  - CAFNR

Undergraduate Certificates
- Certificate in Precision Agriculture Technology (p. 130)

Undergraduate Minors
- Minor in Agricultural Leadership (p. 128)
- Minor in Captive Wild Animal Management (p. 128)
- Minor in Forestry (p. 129)
- Minor in International Agriculture, Food & Natural Resources (p. 129)
- Minor in Soil, Environmental and Atmospheric Sciences (p. 129)
- Minor in Sustainable Agriculture (p. 130)
- Minor in Viticulture & Enology (p. 130)

Graduate Certificates
- Certificate in Agroforestry (p. 131)
- Certificate in Analysis of Institutions and Organizations (p. 131)
- Certificate in Food Safety and Defense (p. 132)

Minor in Agricultural Leadership
The minor in Agricultural Leadership is for students interested in enhancing their public speaking, analytical reasoning, critical thinking, effective writing and teamwork skills. A student must complete 15 credits of coursework related to leadership and personal development from the list of approved courses. The coordinator of the minor must approve courses not on the list. With appropriate approval, an internship with a focus upon providing the student practical experiences in leadership and supervisory roles can be counted toward the 15 credit requirement.

Approved Courses
AG_ED_LD 2220  Verbal Communication in Agriculture, Food and Natural Resources  3
AG_ED_LD 2250  Introduction to Leadership  3
AG_ED_LD 2260  Team and Organizational Leadership  3
AG_ED_LD 2270  Leadership Development in Youth Organizations  3
AG_ED_LD 4340  Designing and Delivering Educational/Leadership Programs  3
AG_EC 2223  Agricultural Sales  3
AG_EC 3241  Ethical Issues in Agriculture  3
AG_EC 3283  Fundamentals of Entrepreneurship  3
P_R_TR 3210  Personnel Management and Leadership in Leisure Services  3
RU_SOC 2010  Leadership in Today's World  3

Minor in Captive Wild Animal Management
Students majoring in Animal Science can obtain a minor in captive wild animal management by taking courses in Animal Science, Natural Resources, and Fisheries and Wildlife that focus on captive wild animals.

Core Courses
AN_SCI 1012  Introduction to Captive Wild Animal Management  3
or F_W 1012  Introduction to Captive Wild Animal Management
F_W 3600  Introduction to Conservation Biology  3
AN_SCI 3242  Principles and Applications of Animal Nutrition  4
AN_SCI 3254  Physiology of Domestic Animals  5
and cooperation are affected by societies, languages, cultures, and markets, natural resources, food production, and international trade. Every category of human endeavor. An understanding of how global environmental science, and soil science.

The world is becoming increasingly complex and integrated in nearly all aspects. To gain a competitive advantage for employment, and to advance their careers, students are strongly encouraged to invest in language to make themselves more competent in the international arena, to gain a competitive advantage for employment, and to advance their careers overall. Although the focus of this minor is not to add foreign language skills, students are strongly encouraged to invest in language to make themselves more competent in the international arena, to gain a competitive advantage for employment, and to advance their careers overall.

Coursework

- Fifteen credit hours, selected from the course list below, are required for the minor.
- At least 9 of the 15 hours must be approved CAFNR courses at the 3000 or 4000 level.
- There is flexibility in choice of the remaining 6 credit hours.
- These can be (1) approved CAFNR elective courses, including study abroad, and (2) other MU courses of international focus, including foreign language, as approved by the International Education Committee.
- Questions should be directed to the Office of Academic Programs (cafnradvising@missouri.edu).
- Students interested in this minor should complete the online CAFNR minor form located at cafnr.missouri.edu.

Although the focus of this minor is not to add foreign language skills, students are strongly encouraged to invest in language to make themselves more competent in the international arena, to gain a competitive advantage for employment, and to advance their careers overall.

Minor in International Agriculture, Food & Natural Resources

The world is becoming increasingly complex and integrated in nearly every category of human endeavor. An understanding of how global markets, natural resources, food production, and international trade and cooperation are affected by societies, languages, cultures, and governments is an essential component of a well-rounded 21st century education in AFNR. To facilitate these studies, the multidisciplinary International AFNR Minor offers academic recognition for achieving a level of expertise in coursework of international focus.

Coursework

- Fifteen credit hours, selected from the course list below, are required for the minor.
- At least 9 of the 15 hours must be approved CAFNR courses at the 3000 or 4000 level.
- There is flexibility in choice of the remaining 6 credit hours.
- These can be (1) approved CAFNR elective courses, including study abroad, and (2) other MU courses of international focus, including foreign language, as approved by the International Education Committee.
- Questions should be directed to the Office of Academic Programs (cafnradvising@missouri.edu).
- Students interested in this minor should complete the online CAFNR minor form located at cafnr.missouri.edu.

Although the focus of this minor is not to add foreign language skills, students are strongly encouraged to invest in language to make themselves more competent in the international arena, to gain a competitive advantage for employment, and to advance their careers overall.

</tr>
</tbody>
</table>

Total Credits: 15

The minor in soil, environmental and atmospheric sciences with an option in environmental science requires a minimum of 15 credit hours in environmental science courses with at least 9 credit hours at the 3000 level or above. This minor provides students an opportunity to enhance their understanding of the environment, interrelationships between various components of the environment, and a firm understanding of environmental issues. Selection of courses should be made in consultation with an advisor in environmental science. The following courses are required:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>

Additional credits in environmental science as recommended by the advisor: 3

Total Credits: 15

The minor in soil, environmental and atmospheric sciences with an option in soil science requires a minimum of 15 credits in soil science. Selection of courses should be made in consultation with an advisor in soil science. Students with the following majors often choose minors with an option in soil science: forestry, fisheries and wildlife, plant science, and geological sciences. This minor also provides assistance with meeting certification as a waste water specialist. The following courses are required:

<table>

Additional credits at the 3000 level or higher in soil science as recommended by the minor advisor: 6

Total Credits: 15

## Minor in Sustainable Agriculture

The minor in sustainable agriculture is for students interested in exploring agriculture and food systems that promote profit-ability, steward our natural resources, and provide enhanced quality of life for farmers, citizens and communities. A student must complete 15 credits of coursework that introduces concepts of sustainable agriculture, provides practical information on natural resources and food production, and investigates the impact of different philosophical and scientific frameworks on food and agriculture.

### Required coursework includes:

- **AFNR 2215** Introduction to the Theory and Practice of Sustainable Agriculture (3)
- **AFNR 3215** Community Food Systems (3)
- **AFNR 3315** Advanced Practices in Sustainable Agriculture (3)
- **SOIL 2100** Introduction to Soils (3)
- **AG_EC 3241** Ethical Issues in Agriculture (3)
  or **BIOCHM 2112** Biotechnology in Society

Total Credits: 15

## Minor in Viticulture & Enology

The Viticulture and Enology Minor is for students interested in pursuing the broad career options available in the rapidly growing Midwest grape and wine industry. The curriculum consists of a diverse mixture of foundational and specialized courses from both Plant Sciences and Food Science. Students will learn skills from establishment of grape vines, culturing, and wine making. This integrated minor will benefit students seeking career options as well as the novice pursuing a hobby.

### Curriculum requirements

Requirements of the Minor in V&E consist of seven (7) courses, which are divided into four core courses and three elective courses (from a selection of five courses). Required core and elective courses are described in Table 1. A total of 21-22 credit hours are required to complete the Minor in V&E. For students currently pursuing a B.S. in Food Science or Plant Sciences, six and five credit hours, respectively, over and above current requirements would be necessary. This is achievable within the elective hours in both degree programs.

### Core Courses (15 credits)

- **PLNT_S 2100** Introduction to Soils
- **PLNT_S 2110** Plants and their Cultivation
  or **PLNT_S 2125** Plant Structure and Function
- **PLNT_S/F_S 3240** Principles of Viticulture I
- **F_S 4440** Principles of Winemaking and Wine Chemical Analysis

### Electives; select 9 credits

- **F_S/PLNT_S 2195** Grapes and Wines of the World
- **F_S/PLNT_S 4340** Principles of Viticulture II
- **F_S 4441** Cellar Operations and Special Vinifications
- **PLNT_S 3225** Plant Breeding and Genetics
- **PLNT_S 4313** Soil Fertility and Plant Nutrition

### Certificate in Precision Agriculture Technology

The Precision Agriculture Technology certificate provides students with the knowledge and skills to address a growing industry need in the technology of precision agriculture. The certificate program will prepare and/or enhance students’ knowledge of the industry thru two key areas:

1. Coursework and intensive on-site labs that focus on precision agriculture technologies utilized by professionals in the field of precision agriculture.
2. Beneficial supporting courses including statistical analysis courses, Plant Science courses, Communications courses, and Agricultural Economics courses.

The certificate is composed of 12 required courses listed below:

**Required Courses**

<table>

**Graduate Certificate in Agroforestry**

Agroforestry is intensive land-use management combining trees and/or shrubs with crops and/or livestock. It also is new market opportunities. Sustainable agriculture. Land stewardship. Habitat for wildlife. Improved water quality. Diversified farm income.

This 12-hour online graduate certificate, from the Center for Agroforestry at the University of Missouri, provides students with agroforestry fundamentals as well as theoretical foundations in both the biophysical and socioeconomic components of agroforestry.

Designed for individuals with years of experience in agroforestry but lacking a formal credential, it is a perfect fit for those interested in or involved with the Peace Corps, or possessing a bachelor's degree in a related area but no formal training in agroforestry.

Holders of this certificate generally work as professional and consulting foresters, certified crop or horticulture advisors, extension agents, international development experts, soil and plant scientists, forestry and conservation science teachers and educators, and as forestry or soil and water conservation agents.

This online graduate certificate program is unique and fills a void worldwide. To the best of our knowledge, there are no similar programs in agroforestry elsewhere in the United States or abroad.

**Graduate Certificate in Analysis of Institutions and Organizations**

The Certificate Program focuses on the structures and processes of Institutions and Organizations in changing environments. Institutions are the "rules of the game" that shape human interaction and consist of both formal rules (e.g. legal-contractual) and informal structures (norms, values and beliefs). Organizations are the concrete, humanly devised entities in which people interact and pursue goals, ranging from families to private and nonprofit firms and public agencies. This certificate emphasizes the common foundations of institutional analysis across academic disciplines including economics, sociology, political science, psychology, anthropology, geography, and law, as well as the ways that multidisciplinary perspectives can inform each other.

**Graduate Certificate in Food Safety and Defense**

By providing a distance education Food Safety and Defense Graduate Certificate program, we will serve the needs of industry and agencies that must protect the human food supply from accidental or deliberate contamination with pathogenic microbes and/or toxicants. In an era of terrorism and global food systems, effective control of foodborne hazards requires advanced education. There is a need for online education for food industry personnel who, while working full time, would like to pursue more in-depth specialized training in food safety and defense that is pertinent to their job.

Kansas State University, Iowa State University, University of Nebraska-Lincoln and the University of Missouri, Columbia have developed pertinent food safety and defense distance education courses and have established a multi-state agricultural consortium to develop and deliver high-priority collaborative distance education programs in the food and agricultural sciences.

**Food Safety and Defense Graduate Certificate Learning Outcomes**

1. Synthesize a current and multi-faceted picture of key food safety and security issues.
2. Apply in real-world situations the scientific principles of microbial and chemical risk assessment and analysis related to food safety and defense issues.
3. Analyze and apply the concepts of HACCP (Hazard Analysis and Critical Control Point) programs, as well as other safety and defense approaches, in the management of food safety and defense in food systems.
4. Evaluate food safety and defense issues in the food industry using the perspectives of sound science, critical thinking and ethical reasoning.

**Food Safety and Defense Certificate Requirements**

The online certificate includes a minimum of 12 credits, 8-9 credits in core courses and at least 3 elective credits, on topics including food microbiology, foodborne toxicants, HACCP, food safety and security overview, food laws, risk assessment, food biotechnology, rapid food microbiological methods, and food fermentations with each participating university offering at least one course on a regular basis, and each university cross-listing all courses.

Students must meet admissions requirements as outlined for this program: http://online.missouri.edu/degreeprograms/cafnr/food-safety-defense/grad-cert/admissions.aspx#howtoapply or equivalent degree at their respective universities. A tuition disbursement framework as in operation for the Great Plains Interactive Distance Education Alliance (IDEA) consortium will be used. Certificate enrollments of 20-25 students per year are anticipated, with time to completion of 2-3 years (1-2 courses per semester). See the Great Plains IDEA (http://www.gpidea.org) for further information.

**Admission standards and prerequisites for the certificate program.**

Successful applicants must be a graduate of an accredited institution and normally must rank in the upper quartile (3.0 grade point average) of their class to gain admission. Undergraduate preparation should include emphasis in chemistry and biology or food science.

**Course Requirements**

Courses required for the Food Safety and Defense Graduate Certificate belong to Kansas State University, Iowa State University, University of Nebraska and the University of Missouri. For more information refer to the Food Safety and Defense Graduate Certificate website: http://foodscience.missouri.edu/graduate/foodsafetycert.php

**For additional information contact:**

- Azlin Mustapha, Ph.D., Professor and Director of Graduate & Certificate Programs
- E-mail: MustaphaA@missouri.edu
- Telephone: 573-882-2649
- Address: 246 William Stringer Wing, University of Missouri, Columbia, MO 65211

umcasadvising@missouri.edu

The College of Arts and Science, established in 1841, is the oldest and largest academic division in the university. The majority of MU undergraduates are enrolled in the college, which provides undergraduate and graduate programs in humanities, fine and performing arts, and social, behavioral and natural sciences. It also offers a solid foundation in basic studies for students in professional and specialized programs in other colleges. In addition to offering degrees in a wide range of academic disciplines, the College also allows creative and useful combinations of disciplines in both the Interdisciplinary Studies and General Studies baccalaureate degrees.

A liberal education is the foundation of study in many disciplines. It enables students to serve roles in society or to continue their education with advanced academic study. To these ends, the college encourages excellence in teaching and scholarship among its faculty and provides both traditional and innovative undergraduate curricula. Degree programs allow flexibility in individual courses of study.

Many students who enroll in the college during their first two years at the University have not yet decided upon a major field of study. The structure of the college is such that students generally need not commit themselves to a major until the beginning of the junior year. This allows students time to explore possibilities and to consider their likes and dislikes and their personal and professional objectives. Students are encouraged to work closely with academic advisors while deciding on a program of study.

Students planning to enter the schools of Journalism, Law, Medicine or Veterinary Medicine often spend their first two or four years in the College of Arts and Science in preparation for professional training. Most students, realizing the increased necessity for a broad background in the liberal arts for all professions, earn an undergraduate degree in the college before enrolling in the schools of Law or Medicine. Preprofessional study for veterinary medicine may be completed either in the College of Agriculture, Food and Natural Resources or in the College of Arts and Science.

**Undergraduate**
- College of Arts and Science Requirements (p. 133)
- Credit Restrictions (p. 133)
- Departmental Examinations (p. 134)
- Maximum Credits Enrolled (p. 134)

- Graduation with Latin Honors (p. 134)
- Probation and Dismissal (p. 135)
- Degree Requirements (p. 135)
- Major Program Requirements (p. 137)
- Requirements for Optional Minor (p. 137)
- Requirements for Optional Certificate (p. 137)
- Internships (p. 137)
- Dual Degrees (p. 137)
- Second Degrees (p. 137)
- Double Majors (p. 138)
- Graduate Dual Enrollment (p. 138)
- Advising (p. 138)
- Career Placement (p. 138)
- Air Force Reserve Officer Training Corps (AFROTC) (p. 138)
- Army Reserve Officer Training Corps (AROTC) (p. 138)

**College of Arts and Science Requirements**

To earn any degree from the College of Arts and Science, in addition to the university requirements a candidate must fulfill each of the following:
- Complete all course work required for the Arts and Science Foundation Requirements.
- Basic Skills, Breadth of Study and Depth of Study requirements
- Sufficient elective credits to bring the total earned credits to 120
- Earn a GPA of 2.0 in the following categories:
  - A minimum 2.0 cumulative MU GPA
  - A minimum 2.0 MU GPA in all courses taken in the major
  - A minimum 2.0 MU GPA in all courses taken in the minor, if student is completing one
- Attain grades of C- or higher in the major and optional minor. Some departments of the college have higher minimum grade requirements in specified courses.
- Earn a minimum of 30 credits in courses numbered 3000 or above, which may include courses in the major. These courses must be regularly accepted for credit in the College of Arts and Science. A few specifically identified math, science, and music courses numbered at the 2000-level may be used to meet this requirement. Additional information is available in appropriate advising offices
- Completion of a course that meets the college’s diversity (DI) requirement.

**Credit Restrictions**

**Time Limit on Credits Earned**

Credit that is applied toward a degree is considered valid for eight years. After that time, the validity of credit already on the transcript will be reevaluated. Departments of the college have the right to accept or to reject credit earned after eight years have passed.

**Credit Toward Degree**

Some courses are not accepted toward a degree in the College of Arts and Science. They are:
- MIL_SC 1100, MIL_SC 1130, MIL_SC 2210 and MIL_SC 2230
- Vocational courses, such as radio repair or keyboarding
• Developmental courses, such as MATH_0110, English Language Support Program courses, spelling and grammar

Sequence
Credit for a more advanced course within a sequence will not apply toward graduation if a student subsequently completes a less advanced course. (For example: completion of FRENCH 1200 after FRENCH 2100 or completion of MATH 1100 after MATH 1300.)

Maximum Credit Policies
• With the exception of MATH 1100, MATH 1120 (or equivalent), ENGLISH 1000 (or equivalent), and the elementary sequence in a foreign language, the maximum number of credits from a single department that may apply toward graduation is 40 for the BA and the BGS, 70 for the BFA, and 90 for the BM.
• A maximum of 5 credits for BIO_SC 2060 (or BIO_SC 3100) and BIO_SC 3650 may apply toward graduation.
• A maximum of 5 credits for MATH 1100, MATH 1120, MATH 1140, MATH 1160 and MATH 1180 may apply toward graduation.
• A maximum of 5 credits for MATH 1320, MATH 1400 and MATH 1500 may apply toward graduation.
• A maximum of 10 credits for introductory chemistry, which includes CHEM 1310 (or CHEM 1100), CHEM 1320, CHEM 1330 and CHEM 1500H, may apply toward graduation.
• A maximum of 1 credit for AG_EC 3285 may apply toward graduation.
• A maximum of 3 credits for any combination of the following may apply toward graduation: LTC_V 1210; LTC_V 4550; CMP_SC 1020.
• For non-music majors, a maximum of 6 credits for music ensemble courses, which include MUS_ENS 1841, MUS_ENS 1842, MUS_ENS 1846, MUS_ENS 1865 and MUS_ENS 2843, may apply toward graduation.
• For non-music majors, a maximum of 12 credits for applied music courses, which include MUS_APSM 1435, MUSIC_NM 1445, MUSIC_NM 2445, MUSIC_NM 2455, MUS_APSM 3455, MUS_APSM 3970, MUSIC_NM 4445 and MUSIC_NM 4445, may apply toward graduation.
• For non-art majors, a maximum of 12 credits for studio art courses may apply toward graduation. For interdisciplinary studies majors, the maximum is 18 credits, and for general studies majors, the maximum is 21 credits.
• A maximum of 2 credits for physical education activity courses may apply toward graduation.
• A maximum of 6 credits for orientation courses may apply toward graduation. Orientation courses can include topics such as life skills, orientation to college life, and introduction to a particular major. Additional information is available in the appropriate advising offices.

Students may not earn credit for introductory foreign language courses in their native language.

• Chemistry: Apply to the Department of Chemistry, 125 Chemistry Building, for an examination to earn credits in chemistry.
• French: Apply to the Department of Romance Languages, 143 Arts and Science Building, for an examination for 3 credits equivalent to the completion of FRENCH 2100. Upon successful completion of this test, a student will be awarded 10 credits of advanced standing for FRENCH 1100 and FRENCH 1200 in addition to the 3 credits indicated.
• Italian: Apply to the Department of Romance Languages, 143 Arts and Science Building.
• Latin: Apply to the Department of Classical Studies, 405 Strickland Hall.
• Mathematics: To earn 3 credits in College Algebra, students may take the proctored ALEKS Exam through the Office of Testing Services. (mathplacement.missouri.edu)
• Political Science: Contact the group testing program in the Testing Services Office for information on the 3-credit group test.
• Spanish: Apply to the Department of Romance Languages, 143 Arts and Science Building, for an examination to earn credits equivalent to the completion of SPAN 2100. Upon successful completion of this test, a student will be awarded 10 credits of advanced standing for SPAN 1100 and SPAN 1200 in addition to the 3 credits indicated.
• Statistics: Apply to the Department of Statistics, 146 Middlebush Hall, for an examination to earn 3 credits for STAT 1300 Elementary Statistics.

Maximum Credits Enrolled
With the consent of the dean, students with superior scholastic records may be allowed to register for more than 18 credits during a fall or spring semester. During the summer sessions, a student may not ordinarily be enrolled for more than 9 credits during the two four-week sessions combined and/or the eight-week session.

Enrolling at Other Institutions
Students within the College of Arts & Science are allowed to enroll in another institution, while being simultaneously enrolled at MU. Students are strongly encouraged to speak with an advisor to verify course transfer credit, degree applicability and other academic ramifications. Students, however, bear the ultimate responsibility for checking course equivalencies and requesting official transcripts be sent to the MU Office of Admissions (230 Jesse Hall). Similarly, A&S students who are likely to qualify for Latin honors are advised not to risk their eligibility for this distinction because of simultaneous enrollment at another institution (see information on Latin honors). Students who receive financial aid are advised to check with a financial aid officer to learn the implications, if any, of simultaneous enrollment in a non-MU course.

Graduation with Latin Honors
Regulations of the college regarding the awarding of Latin honors require that 54 of the final 60 credits are completed in MU course work for a letter grade (A-F). Awarding of Latin Honors is based on the cumulative GPA. The local chapter of Phi Beta Kappa requires completion of a minimum of 60 credits of course work on the MU campus, usually during the last two years of study. Exceptions to this latter expectation may be made...
for students who study abroad in an approved program during their final semesters of study.

**Probation and Dismissal**

**Academic (Scholastic) Standing**

In addition to University requirements defined in the Academic Standing (p. 760) section of this catalog and in the Faculty Handbook (http://facycouncil.missouri.edu/handbook/article-8.html), academic status of Arts and Science students is determined in accordance with the following faculty guidelines. The word “term” in these regulations applies to semester, summer session or intersession. Course work completed by correspondence or through extension also has a bearing on academic status.

- Students on scholastic probation have two terms, (as long as each term GPA is no lower than 1.0), in which to attain good academic standing (2.0 minimum term and cumulative GPA) or be subject to dismissal. A student will not be eligible for removal from probation if he or she does not complete in residence (MU course work) during these two terms at least 12 graded credits acceptable by the student’s advisor and in accordance with college policy for credit in the College of Arts and Science. To complete a course, the student must earn a grade in the A, B, C or D range.
- A student on probation may not be allowed to participate in a study abroad program or internship opportunities.
- In the application of these rules, the dean will determine how an incomplete grade in a course will be considered in determining a student’s academic standing.
- The dean may, in extenuating circumstances, waive any of the foregoing regulations governing eligibility to re-enroll for an individual student.

**Degree Requirements**

**Arts and Science Foundation Requirements**

The purpose of the Arts and Science Foundation Requirements is to assure that students fulfill the common educational objectives of the College of Arts and Science. Courses satisfying these requirements impart specialized knowledge and help students fulfill the broader objectives of a liberal education. Thus, these courses help students develop the following abilities:

- To communicate clearly and effectively in both writing and speech
- To generate and test hypotheses
- To locate and develop information needed to solve problems
- To think critically and use analytic skills effectively
- To examine their lives critically and objectively
- To enrich their lives through appreciation of present and past cultural achievements

Foundation requirements include three categories:

- **Basic Skills** requirements ensure competency in composition and communication, mathematics and analytic reasoning, awareness of American history and government, and where applicable, foreign language.
- **Breadth of Study** requirements are met by completing course work from a wide array of disciplines to ensure that graduates are broadly educated.
- **Depth of Study** requirements are met by completing advanced course work that allows for fuller understanding of a discipline than can be gained in introductory course work alone.

All students must complete all Arts and Science Foundation Requirements in order to earn a degree, regardless of prior baccalaureate degrees earned. Course work will be evaluated on a course-by-course basis. For students who earn an Associates of Arts degree from a Regionally accredited Missouri institution all Breadth of Education requirements will be considered to be met. Students will be required to complete at least one Depth of Education class with MU course work. In all cases, completion of the basic English and Mathematics requirements will be evaluated on a course-by-course basis.

**Basic Skills**

MATH 1100, MATH 1160, MATH 1120 or transferable equivalent with grade of C- or higher

- Required for BA, BFA, BGS, BM and BS degrees.

ENGLISH 1000 or transferable equivalent with grade of C- or higher

- Required for BA, BFA, BGS, BM and BS degrees.

One Math Reasoning Proficiency course with grade of C- or higher

- Required for BA, BFA, BGS, BM and BS degrees.
- May also apply toward other degree program requirements.
- Must be chosen from the list of MRP courses designated each semester in the online Schedule of Courses.

One course in American government or history

- Required for BA, BFA, BGS, BM and BS degrees.
- May also apply as a social science toward the behavioral and social science requirement.
- Should be chosen from the list of MU courses approved to meet Arts and Science Foundation Requirements.

**Foreign language**

- Each student is required to attain the degree of proficiency equivalent to the completion of at least 12 hours of college-level work in a single foreign language. All MU foreign language departments require a grade in the C range or higher in level I or a language and level II of a language as prerequisites for level II and III, respectively.
- Alternative for selected BS degrees: 12 credits numbered 2000 or above in an area approved by the major department substituted with the concurrence of the dean’s office. Courses used for a minor cannot be used to meet this requirement.
- The foreign language requirements can be waived if a student has completed four units of a single foreign language in high school. If a student chooses to meet the requirement by using high school units, any college credit for that same introductory language will not count towards graduation hours (i.e., a student who has completed 4 units high school Spanish and has credit for SPAN 1100 will not have the SPAN 1100 count towards graduation hours). If a student wants to have the introductory college credit count towards graduation, the student must complete the language sequence.
- International students whose native language is other than English are exempt from the foreign language requirements but may not receive credit for basic skills courses in their native languages. Others with native competence in one or more foreign language offered by MU may have a foreign language requirement waived.
by passing an exam given by a faculty member who is fluent in the language. The faculty member need not be a member of the MU faculty, but must be approved by the dean’s office. The exam tests the student’s ability to read, write, and speak the language at the level broadly described as “intermediate.” Results of the examination are forwarded to the dean’s office for evaluation. Students in this situation do not receive advanced-standing credit for their foreign language knowledge.

Breadth of Study

Breadth of Study requirements include course work distributed among the following categories: biological, physical and mathematical sciences; behavioral and social sciences; humanities and fine arts.

1. Biological, physical and mathematical sciences
   9 credits required for BA, BFA, BGS, BM and BS degrees.
   • Must include course work from at least two of three areas.
   • Must include at least one biological or physical science laboratory course.

2. Behavioral and social sciences
   9 credits required for BFA, BGS, BM and BS degrees (except for the BS degree with majors in Biological Sciences and Psychology).
   • Must include course work from both the behavioral and social sciences.
   • 14-15 credits required for all BA degrees and the BS degree with majors in Biological Sciences and Psychology.
   • Must include 5-6 credits of behavioral science.
   • Must include 9 credits of social science, including course work from at least two different areas.

3. Humanities and fine arts
   9 credits required for the BFA, BGS, BM and BS degrees (except for the BS degree with majors in Biological Sciences and Psychology).
   • Must include course work from at least two different areas.
   • 12 credits required for the BA degree, and the BS degree with majors in Biological Sciences and Psychology.
   • Must include course work from at least three different areas.

4. Additional breadth requirement for the BGS degree
   3 credits from course work chosen from any of the following four categories: biological, physical and mathematical sciences; behavioral sciences; social sciences; humanities and fine arts.

Parameters for meeting Breadth of Study requirements:

• Courses must be chosen from the Distribution of Content List on the web site of the General Education Program. (http://generaleducation.missouri.edu)
• Courses used to meet breadth requirements may also be used to meet depth requirements (see below).
• Problems, research, readings, and internship courses may not be used for breadth requirements.

Depth of Study

Depth of Study requirements include at least 6 hours of course work numbered 2000 or above, distributed as follows:

BFA in Art

• 6 credits required (minimum of 2 courses).
• Must include course work from at least two of the following four breadth categories: biological, physical, mathematical sciences; behavioral sciences; social sciences; humanities and fine arts.

BGS in General Studies, all BA degrees, and BS with majors in Biological Sciences and Psychology

• 9 credits required (minimum of 3 courses).
• Must include course work from at least two of the following four breadth categories: biological, physical, and mathematical sciences; behavioral sciences; social sciences; humanities and fine arts.

BS with majors in Chemistry, Geological Science, Mathematics, Physics and Statistics

• 6 credits required (minimum of 2 courses).
• Must include course work from at least two of the following three breadth categories: behavioral sciences; social sciences; humanities and fine arts.

BS with a major in Economics

• 6 credits required (minimum of 2 courses).
• Must include course work from at least two of the following four breadth categories: biological, physical, and mathematical sciences; behavioral sciences; social sciences; humanities and fine arts.

BS with a major in Philosophy

• 6 credits required (minimum of 2 courses).
• Must include course work from at least two of the following three breadth categories: biological, physical, and mathematical sciences; behavioral sciences; social sciences.

BM with a major in Music

• 6 credits required (minimum of 2 courses).
• Must include course work from at least one of the following three breadth categories: biological, physical, and mathematical sciences; behavioral sciences; social sciences.
• 3 credit hours in Music (see below).

Parameters for Meeting Depth of Study Requirements

• All courses must be numbered 2000 or above.
• At least 3 credits must be completed with MU course work.
A student who elects 1-credit topics courses must complete a minimum of three courses in that breadth category as partial fulfillment of the depth of study requirement.

Courses from the major department may not be used, except for the BM with a major in Music.

Students earning degrees in special degree programs (where the courses in the major represent multiple departments) may use courses from their major departments to meet depth requirements, but not the specific courses used in the major.

Courses from outside the major department, but required for the major, may not be used to meet depth requirements in the BFA or BA with a major in Art, the BA or BS with a major in Biology, or the BA with a major in Chemistry, Geological Science, Mathematics, Physics, or Statistics.

Three hours (one course) of non-Arts and Science coursework may be used towards partial fulfillment of the depth of study requirement.

Courses must be chosen from the Distribution of Content List (http://generaleducation.missouri.edu/requirements/distribution.php) on the website of the General Education Program.

Courses used to meet depth requirements may also be used to meet breadth requirements.

Problems, research, readings, and internship courses may not be used.

**Major Program Requirements**

A major consists of at least 21 credits, including at least 15 credits in courses numbered 2000 or above, 12 of which must be taken in MU course work. See detailed departmental information for additional requirements for specific majors.

All Arts and Science majors require an MU Writing Intensive course numbered 3000 or above and an MU capstone course with grades of C- or higher. In addition, some majors require course work outside the major department.

Each student must declare and receive official approval for a major by submitting a graduation plan no later than the semester after completion of 60 credits. The purpose of the graduation plan is to acquaint students with all requirements that must be met prior to graduation and to plan for the timely completion of these requirements. Departments and programs approve the graduation plan only when the student has met the following criteria:

- Completion of ENGLSH 1000 and MATH 1100 or MATH 1120 (or their equivalents) with grades of C- or higher
- Completion of any additional departmental requirements

**Requirements for an Optional Minor**

A minor consists of at least 15 credits, including at least 6 credits numbered 2000 or above, within a department or program that offers a minor; 9 of the required credits must be taken in MU course work. See detailed departmental information for additional requirements for specific minors. Courses outside the major department but required for the major may be used towards a minor. In addition, courses required in the minor may be used to meet Foundation requirements.

The College of Arts and Science awards minors only to undergraduate students who are simultaneous recipients of bachelor’s degrees. Students may not earn a major and a minor in the same field.

**Requirements for an Optional Certificate**

A certificate consists of at least 12 credits which must be taken in MU course work. See detailed information for additional requirements for specific certificates. Courses required for the certificate may be used to meet major, optional minor or Foundation requirements.

The College of Arts and Science awards certificates only to undergraduate students who are simultaneous recipients of bachelor’s degrees. Student may not earn a certificate and a minor in the same field.

**Internships**

In order to participate in an internship, a student must be in good academic standing (not on probation) and have completed at least one semester of college coursework after graduation from high school.

**Dual Degrees**

In order to receive two bachelor’s degrees, a student must complete a minimum of 132 credits and complete all of the specific requirements for both degrees. Normally, a minimum of one additional semester is required to earn both degrees. Each candidate for a dual degree is assigned advisors as appropriate.

The College of Arts and Science maintains dual-degree programs with the schools of Law, Medicine and Veterinary Medicine. To enroll in these programs, the student must have completed all of the specific course requirements for the bachelor’s degree prior to admission to the professional school and also must have completed the junior year in residence in the College of Arts and Science. Under certain circumstances, Arts and Science undergraduates may be assured admission to MU’s schools of Law or Medicine.

**Second Degrees**

The faculty of the college has approved the following guidelines for students wishing to obtain a second undergraduate degree after completion of a bachelor’s degree, in addition to any university requirements that may apply:

- Unless both degrees are earned at MU in successive semesters, a student pursuing a second undergraduate degree will ordinarily be required to complete a minimum of 30 credits in residence (MU course work) in the College of Arts and Science after completion of the first undergraduate degree.
- A student must complete any college, general education or department requirements that are unique to the new degree program. Requirements that are in effect at the time a student begins work toward the second degree are applicable.
- Students applying for second-degree status will be considered only if they have completed (with grades C- or higher) ENGLSH 1000 and MATH 1100 or MATH 1120 (or equivalents) and have final term and cumulative GPAs no less than 2.0.
- The student must submit a graduation plan in consultation with an advisor in an appropriate department or program before the dean’s office will approve a request from the student to enroll as a candidate for a second degree.
- With the exception of Interdisciplinary Studies majors with an emphasis in Black Studies, Peace Studies, or Women’s and Gender Studies, the college does not approve applications for a second undergraduate degree in General Studies or Interdisciplinary Studies.
• Once enrolled for a second degree, a student is committed to enrolling in course work required for completion of that degree. A student will not be allowed to continue as a candidate for a second undergraduate degree if not enrolled in courses required for the second bachelor’s degree.

Double Majors

A number of Arts and Science students choose to complete multiple majors while earning one degree. The requirements of each major, along with requirements for the degree, must be completed. Often, this does not result in the addition of hours to the degree program.

Graduate Dual Enrollment

A final-semester senior may dually enroll in the College of Arts and Science and the Office of Graduate Studies with permission of the deans of both divisions. This enables the student to complete some graduate course work prior to receiving the bachelor’s degree.

The student must be within 15 credits of completion of the bachelor’s degree and must rank in the upper half of the class.

Application forms for dual enrollment in these two schools may be obtained from the Office of Graduate Studies in 210 Jesse Hall.

Advising

Students who have declared a major are assigned an advisor in that department. Students who have not yet decided on a major are assigned to a professional advisor in the Student Success Center.

Career Placement

Employment opportunities in the various disciplines of the liberal arts vary greatly. Most departments in the college have printed information available describing employment opportunities. The MU Career Center in the Student Success Center offers students a variety of career planning services.

Air Force Reserve Officer Training Corps (AFROTC)

The AFROTC provides the opportunity to become a United States Air Force officer while completing a college degree. The program combines traditional undergraduate education with military instruction in preparation for Air Force leadership challenges. Each semester academic AFROTC classes will build a foundation for application to a two-hour Leadership Lab. Scholarships are available. Visit www.afrotc.com (http://www.afrotc.com) for the most current information.

After graduating from college and successfully completing all AFROTC requirements, cadets receive a commission as as second lieutenant with an obligation of four years of service in the active duty Air Force. Pilots incur a ten-year commitment from the date of graduation from pilot training. A few additional career fields require a six or eight year commitment.

MU also offers a Minor in Aerospace Studies (p. 312).

For additional information contact:
Department of Aerospace Studies
217 Crowder Hall
(573) 882-7621
airforce.missouri.edu

Army Reserve Officer Training Corps (AROTC)

Army ROTC is a college elective program that teaches the skills needed to succeed in the Army or the corporate world. Students combine classroom time with hands-on experience and learn leadership and management skills. The experience of Army ROTC provides the confidence needed to excel in college and beyond. The Army ROTC program can be completed through a two- to four-year program designed to develop young men and women into junior commissioned officers in the Active Army, Army Reserve, or Army National Guard. In addition to traditional combat roles, Army officers serve in such professional fields as aviation, medical service, finance, personnel management, communications and engineering. MU also offers a Minor in Military Science (p. 318).

For additional information contact:
Department of Military Science and Leadership
202 Crowder Hall
(573)-882-7721
http://armyrotc.missouri.edu/

Graduate

College of Arts & Science
107 Lowry Hall
(573) 882-6411
http://coas.missouri.edu/

The College of Arts and Science is home to a broad spectrum of disciplines that prepare graduate students for challenging and rewarding careers. Our faculty mentors are known for both research and teaching excellence and many have received national acclaim for discoveries, disciplinary leadership, creative works and music or theater performance.

The School of Music (p. 232), housed within the College, offers masters degrees, a doctoral degrees and a graduate certificate in jazz studies. Music education degrees are offered in conjunction with the College of Education, Department of Learning, Teaching and Curriculum.

Note: Prospective graduate students must apply to both the degree program of interest and to the Office of Graduate Studies. In most cases, the entire application process may be completed online. Find admission and application details by selecting the degree program of interest in the left navigation column.

Anthropology

Lisa Sattenspiel, Chair
Department of Anthropology
College of Arts & Science

Mailing Address:
112 Swallow Hall
Columbia, MO 65211
(573) 882-4731
muasanthropology@missouri.edu
http://anthropology.missouri.edu
Welcome to the Department of Anthropology at the University of Missouri! Our University is the oldest public land grant institution west of the Mississippi, a member of the AAU and the highest category of research universities. We are a small department with an emphasis on scientific approaches to the study of human biology, behavior, culture, and evolution. MU students study the whole of humanity: its history, variability, artifacts, customs, beliefs and value systems which produces sophisticated problem solvers for today’s complex and conflict-prone world.

Faculty

Professor: M. V. Flinn (https://anthropology.missouri.edu/?q=people/flinn)**, L. Sattenspiel (https://anthropology.missouri.edu/?q=people/sattenspiel)**

Assistant Professor: K. Panchanathan (https://anthropology.missouri.edu/?q=people/panchanathan)**

Research Professor: N. A. Chagnon** (https://anthropology.missouri.edu/?q=people/chagnon)

Post Doctoral Research Fellow: M. J. Hamilton (https://anthropology.missouri.edu/people/hamilton)

Note: All permanent regular faculty members in the department serve as undergraduate mentors for anthropology majors.

* Graduate Faculty Member - membership is required to teach graduate-level courses, chair master’s thesis committees, and serve on doctoral examination and dissertation committees.

** Doctoral Faculty Member - membership is required to chair doctoral examination or dissertation committees. Graduate faculty membership is a prerequisite for Doctoral faculty membership.

Undergraduate

- BA in Anthropology (p. 141)
- Minor in Anthropology (p. 142)

Advising Contact

Academic Advisor
M110 Student Success Center
schafferjm@missouri.edu
(573) 884-9700

Director of Undergraduate Studies: Dr. Greg Blomquist (https://anthropology.missouri.edu/people/blomquist) - blomquistg@missouri.edu

The University of Missouri Department of Anthropology offers a BA in Anthropology. Students may also earn Departmental Honors, as outlined in the next section.

Within this program, a student may select a subfield of focus (Note: Subfields will not show on transcripts or diplomas):

- Archaeology (https://anthropology.missouri.edu/?q=research/archaeology)
- Biological anthropology (https://anthropology.missouri.edu/?q=research/biological)
- Cultural anthropology (https://anthropology.missouri.edu/?q=research/cultural-anthropology)
- Some combination of the above, or
- An interdisciplinary focus combining anthropology with some other area(s).

An undergraduate major in anthropology provides a broad educational base that can be the core of a liberal arts education or the background for specific vocational or professional goals of a student. Anthropology is of particular value to students planning professional careers in a world of cultural and ethnic diversity. Anthropology majors are required to take core courses in all three focal areas of the discipline, but may emphasize one or more of them in their remaining courses. Students may also develop an interdisciplinary program in cooperation with other departments or schools. In addition, the department offers an anthropology minor to students who are majoring in other departments and who will profit by more formal training in the discipline.

The Anthropology Department provides many opportunities for students to become involved in research and encourages all students to do so. Such experiences help a student develop creativity, critical thinking skills, and skills in problem solving and writing. Students who are interested in doing anthropological research have several options, including working in close conjunction with a faculty member or working on an independent project under faculty supervision. An independent research experience may lead to an honors degree for eligible students.

Undergraduate training in anthropology prepares students for work in government agencies (both in the United States and overseas), museum positions, field positions in, for example, archaeology, ethnography, or human paleontology, and for graduate study leading toward college or university teaching of anthropology. An anthropology degree also provides good background for careers in business, journalism, health care, law, and many other fields.

The Department of Anthropology has a number of special facilities that are available for use in classes, for individual research opportunities, and in some cases, for the general public to visit. The list is included below. Students interested in additional information are encouraged to consult the following web site: https://anthropology.missouri.edu/links. (http://web.coas.missouri.edu/~anthro/?q=node/107)

These special facilities include:

- The Museum of Anthropology (https://anthromuseum.missouri.edu) & Museum Support Center
- The Archaeology Laboratory
- The Skeletal Laboratory
- The Fossil Cast Collection
- MURR (http://www.murr.missouri.edu) (University of Missouri Research Reactor)

Departmental Honors

The Honors Program is organized under the Honors College (http://honors.missouri.edu) of the College of Arts and Science within the University of Missouri. To be accepted in the Honors Program, the student must achieve and maintain a minimum cumulative Grade Point Average (GPA) of 3.3 in all course work. In addition, to be accepted, and remain eligible for the honors program in the Department of Anthropology, the student must maintain a GPA of 3.5 in all anthropology courses.
The University of Missouri grants three types of Honors degrees to students in the College of Arts and Science:

1. General Honors, which is administered by the Honors College and which is obtained by completion of a suitable number of honors courses (see the Honors College for details).
2. Latin Honors (e.g., cum laude), which are conferred on students whose GPAs meet specified minimum requirements, and
3. Departmental Honors, which is administered by the Department of Anthropology.

The departmental program leading to the BA degree with Honors in Anthropology is designed for students who desire a more intensive experience in anthropology and who wish to work closely with a particular faculty member in the anthropology department on an independent research or scholarly project. A student wishing to graduate with departmental honors must fulfill the basic course requirements for the BA in Anthropology. In addition, the student, with the assistance of his/her honors advisor, is expected to develop, plan, and conduct research on an independent project. It is recommended that students in the honors program enroll in ANTHRO 4950H Honors Research in Anthropology, although projects initiated in other courses or through independent, noncredit research experiences may also be honors eligible. To complete the Honors degree, a student must submit the results of the research project as a formal honors thesis that the student defends during an oral examination conducted by an examining committee. The committee consists of three faculty members: the advisor, another faculty member, and the departmental Honors Director. The examination is scheduled no later than the thirteenth week of the term during which the student expects to graduate. Each member of the committee is furnished with a copy of the student’s thesis or evidence of scholarly activity at least ten days before the examination. After the oral defense the student furnishes the department with one final copy of the thesis or evidence of scholarly achievement (e.g., photographs) suitable for preservation by the Department. Upon completion of the program, the examining committee recommends to the Dean of the College of Arts and Science that the student be awarded a BA with Honors in Anthropology.

Goals of the Anthropology Curriculum

Students completing an anthropology degree are awarded a BA degree with a major in Anthropology or a BA degree with Honors in Anthropology. The undergraduate program is designed to help students develop an appreciation of other cultures and other world views and to gain an understanding of how and why the diversity in human culture and biology came about. Several goals help faculty teach undergraduates about the nature of the discipline and how to think critically about what it is, what it means and how it is useful in today’s society. These goals include:

• To recognize the broad, cross-cultural generalizations that characterize anthropology
• To recognize the value of a cross-cultural, comparative perspective
• To acquire an understanding of the basic concepts in the subfields of anthropology
• To acquire advanced knowledge in one or more of the subfields
• To acquire an awareness of the interrelationship of the subfields
• To think critically about the nature and content of anthropological questions
• To assess the structure of an argument and evaluate it and its supporting information

• To communicate effectively in writing or through oral presentation
• To strive for innovative and creative thinking
• To think independently both within and outside anthropology

Students are also encouraged to acquire experience in research design and methods (e.g., using the library and internet effectively to gather information on a problem, or understanding and using the methods of one or more subfields). To this end, the department provides abundant opportunities for students to work with faculty members on independent research projects.

GPA Requirements

The College of Arts and Science requires that students attain a minimum GPA of 2.0 in all courses in their major department and in courses that comprise the related field. In addition, all core courses in anthropology (ANTHRO 2020 or ANTHRO 2021/ANTHRO 2022, ANTHRO 2030, ANTHRO 2050 or ANTHRO 2051/ANTHRO 2052, ANTHRO 4990) must be completed with a grade of C- or higher and students may receive a grade below C- in no more than one other course used to satisfy the major.

Graduate

• MA in Anthropology (p. 143)
• PhD in Anthropology (p. 143)

Department of Anthropology

Dr. Robert Walker (https://anthropology.missouri.edu/?q=people/walker), Director of Graduate Studies
walkerro@missouri.edu
Main Office: (573) 882-4731
Fax: (573) 884-5450
http://anthropology.missouri.edu
muasanthropology@missouri.edu

The Department of Anthropology offers graduate work leading to the degrees of Master of Arts (MA) and Doctor of Philosophy (PhD) with a current enrollment of about 80 graduate students. Our department has a broad scientific approach to understanding human biology and behavior, both past and present, that is grounded in ecological and evolutionary theory. The graduate program provides rigorous coursework with a rich combination of hands-on field and laboratory research experiences. Students work closely with a faculty advisor who helps them pursue fellowships/grants and to develop collaborative research projects.

Active areas of research by our regular professors include:

• Archaeology (https://anthropology.missouri.edu/?q=research/archaeology): archaeological theory, evolutionary archaeology, zooarchaeology, lithic artifact analysis, ceramic analysis, and material sourcing studies with regional foci in the American Southwest
• Biological anthropology (https://anthropology.missouri.edu/?q=research/biological): skeletal biology, functional anatomy, human osteology, Neanderthals, demography, epidemiology, life history, and primate genetics
• Cultural anthropology (https://anthropology.missouri.edu/?q=research/cultural-anthropology): human behavioral ecology, cultural evolution, medical anthropology, and biocultural anthropology with regional foci in Amazonia, Canada, and the Caribbean

Incoming graduate students are admitted into one of three tracks:
Track 1: MA students

Students admitted to Track 1 will be classified as MA seeking students with the office of Graduate Studies (http://gradstudies.missouri.edu). These students will complete all requirements for the MA degree as currently outlined in our Graduate Students Handbook (https://anthropology.missouri.edu/sites/default/files/content/graduate_student_handbook_0.pdf), including the MA exam and completing a thesis (not a proposal or publication as for Track 2, see below, although eventual publication of the thesis is encouraged). Upon completion, the student can, if eligible, apply to the Anthropology program for acceptance as a PhD seeking student.

Track 2: PhD students required to complete MA requirements

Students admitted to this track will be classified as PhD seeking students with the office of Graduate Studies (http://gradstudies.missouri.edu). These students will complete all course requirements for the MA, including the MA exam. With the consent of the student’s committee, a Track 2 student will complete either a thesis OR a proposal formatted for a major granting agency that will serve as the student’s PhD dissertation proposal, OR a primary-authored paper submitted for publication. In each of these cases, the student will orally defend the work. Upon successful completion of these requirements, the student will be awarded an MA, and will then be eligible to continue work towards a PhD without the need to reapply to the program or change student status.

Track 3: PhD students with MA in hand

Students admitted to this track will be classified as PhD seeking students with the office of Graduate Studies (http://gradstudies.missouri.edu). They will not be required to complete the MA requirements and will not earn an MA during their graduate work at MU. Upon completion of the requirements currently listed for the PhD program, including coursework, qualifying examination, comprehensive examination, teaching, and dissertation, the student will be awarded a PhD.

Facilities and Collections

Departmental research facilities/collections include a ceramic analysis laboratory, a stone artifact analysis laboratory, a comparative faunal collection, and a skeletal biology laboratory. The Museum of Anthropology (https://anthromuseum.missouri.edu) houses extensive holdings of New World (especially Missouri) archaeological and skeletal materials and ethnographic specimens from many parts of the world, and provides opportunities for museum-oriented studies (see also the Museum Studies Graduate Minor (p. 323)). The Museum Support Center, an archaeological research and curation facility is located on the edge of campus. The University of Missouri Research Reactor provides opportunities for students interested in archaeometry. Resources in other departments or research units available by arrangement include the Archaeometrics Laboratory of the Research Reactor, the Electron Microscopy Facility, and the Stable Isotope Laboratory of the Department of Geological Sciences.

Research by Location

Regular faculty members of the department conduct research in the following geographical areas, beyond Missouri: the Northwest (archaeology), Canada (biological anthropology), Dominica and Amazonia (biological & cultural anthropology), and the North American Southwest (archaeology). Refer to the faculty list for interests of faculty (https://anthropology.missouri.edu/people/faculty) and emeritus faculty (https://anthropology.missouri.edu/?q=people/emeritus).

Financial Assistance

Financial assistance packages are usually granted on a competitive basis for students who enter the program in the Fall semester. This assistance comes in the form of tuition waivers and stipends provided by Life Science Fellowships, Graduate Studies Fellowships, teaching assistantships, or graduate instructorships. Applications for teaching assistantships and graduate instructorships for both presently enrolled and prospective graduate students must be received by March 1st of the academic year preceding the academic year for which assistance is sought. Applications will be emailed to existing and incoming student prior to the deadline.

BA in Anthropology

Degree Program Description

Anthropology is the study of humans and human experience, past and present. Anthropology at MU emphasizes scientific approaches to the study of human biology, behavior, culture, and evolution. Anthropology majors are required to take core courses in all three focal areas of the discipline (archaeology, biological anthropology, and cultural anthropology) but may concentrate in one or more of these fields. Students have opportunities to become involved in research, helping them develop creativity, enhance critical thinking skills, solve problems and improve their writing. Undergraduate training in anthropology also prepares students for work in government (both in the United States and abroad), museum positions, and field positions in archaeology, ethnography, human paleontology, or forensics. It may also provide students with the opportunity to enter graduate school leading towards an academic career teaching and conducting anthropological research at a college or university. A degree in anthropology also provides students with the background to pursue careers in business, journalism, health care, law, and many other fields.

Major Program Requirements

In addition to college foundation requirements and University graduation requirements, such as general education (p. 33), all anthropology students are required to complete the following core courses (15 credits):

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>ANTHRO 2020</td>
<td>Fundamentals of Archaeology with Laboratory</td>
<td>4</td>
</tr>
<tr>
<td>or ANTHRO 2021 &amp; ANTHRO 2022</td>
<td>Fundamentals of Archaeology and Fundamentals of Archaeology Lab</td>
<td>4</td>
</tr>
<tr>
<td>ANTHRO 2030</td>
<td>Cultural Anthropology</td>
<td>3</td>
</tr>
<tr>
<td>ANTHRO 2050</td>
<td>Introduction to Biological Anthropology with Laboratory</td>
<td>5</td>
</tr>
<tr>
<td>or ANTHRO 2051 &amp; ANTHRO 2052</td>
<td>Introduction to Biological Anthropology and Biological Anthropology Laboratory</td>
<td>5</td>
</tr>
<tr>
<td>ANTHRO 4990</td>
<td>Capstone Seminar in Anthropology</td>
<td>3</td>
</tr>
</tbody>
</table>

Total Credits: 15

ANTHRO 4990 Capstone Seminar in Anthropology must be completed even if a student completes an additional major in another department. Some departments waive this requirement for students completing a double major. Students with second majors should check with the other department to see if they are required to complete both capstone courses.
Electives

A minimum of 15 additional Anthropology credits (usually 5 courses) are required for the major. These courses must be distributed as follows:

<table>
<thead>
<tr>
<th>Topical/theoretical</th>
<th>Area</th>
<th>Methods</th>
<th>Additional courses of student's choice to bring total to 15 credit hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>1 course</td>
<td>1 course</td>
<td>1 course</td>
<td>1-2 courses or more.</td>
</tr>
</tbody>
</table>

Explanation about the distribution of departmental courses among these three categories is available at https://anthropology.missouri.edu/sites/default/files/undergrad-files/undergrad_brochure_2015.pdf

The choice of area, topical-theoretical and methods courses is guided by the student's individual interests and goals, and is selected in consultation with their departmental mentor. With the consent of the student's mentor and the director of undergraduate studies, the methods/techniques or area requirements may be fulfilled by suitable courses outside anthropology. If this requirement is satisfied by a course outside anthropology, an additional anthropology course is selected to complete the 30 credits required in anthropology.

Students may also complete the methods requirement by gaining hands-on experience doing anthropological research. This experience will normally begin with ANTHRO 2950 Research Skills in Anthropology, an introduction to the methods used by one or more faculty members. This course will satisfy the methods requirement if a student enrolls in it for at least 3 credits. A student may independently choose a faculty mentor and arrange for course credit or can work with the department's undergraduate research coordinator, who will match the student's interests with those of one or more faculty members.

Students wishing to continue doing research of an independent nature may register for ANTHRO 4950 Research in Anthropology. Prior approval by the director of undergraduate studies is required to use these courses to satisfy the departmental methods requirement. Honors Research ANTHRO 4950H Honors Research in Anthropology may be used to satisfy the requirements for an Honors BA with a major in Anthropology, but the course is not required for that degree. Specific requirements for the Honors BA are described below.

Related Courses

Because of the interdisciplinary nature of anthropology, the Department of Anthropology strongly recommends that all students complete a cluster of at least two or three courses that complement chosen courses within the major.

These courses may be offered by a single department or may be a related set of courses from several departments (e.g., courses in ancient history from both the Art History and Archaeology and the History departments). The courses should be chosen with their mentor and are intended to provide background in the content of other disciplines related to the student's anthropological focus. Fulfillment of a formal minor (15 credits in another department as approved by that department) or a second major (at least 30 credits in another department as approved by that department) can also be an effective way to gain expertise in related areas.

Semester Plan

Below is a sample plan of study, semester by semester. A student's actual plan may vary based on course choices where options are available.

<table>

Total Credits: 121-125

* Course meets University general education and/or campus graduation requirements.

^ Course meets degree program requirements.

Minor in Anthropology

A student wishing to minor in anthropology should contact the Anthropology advisor for an appointment. The requirements for a minor in anthropology are:

1. A total of 15 hours of course credits in anthropology approved by the Director of Undergraduate Studies. At least 9 hours must be completed at MU.
2. No more than 6 hours of the 15 hours required for the minor may be drawn from courses numbered below 2000. In addition, a minimum of 3 hours must be in courses numbered 3000 or above.
3. Readings, research, or problems courses shall constitute no more than 6 of the required 15 hours.

4. Anthropology Minor Form (https://anthropology.missouri.edu/sites/default/files/undergrad-files/minor_form.pdf) filled out and signed

These procedures and requirements were approved March 17, 2004. This Program is effective for all students who file initial anthropology graduation plans after this date.

MA in Anthropology

Admission Criteria (Track One, MA Applicants)

Students admitted to this track will be classified as MA seeking students with the graduate school. These students will complete all requirements for the MA degree as currently outlined in the Anthropology Graduate Handbook (https://anthropology.missouri.edu/sites/default/files/gradfiles/graduate_student_handbook_0.pdf), including the MA exam and completing a thesis. Upon completion, the student can, if eligible, apply to the Anthropology program for acceptance as a PhD seeking student.

Fall deadline: January 10
Spring deadline: October 15 (no departmental financial support available this term)

• Minimum TOEFL scores:

Minimum GPA: 3.25 in last 60 hours and in all anthropology courses
Acceptance into the graduate program in anthropology is not limited to students with undergraduate degrees in anthropology.

Required Application Materials

To Graduate Studies (https://applygrad.missouri.edu/apply):

• All required Graduate Studies documents
• 3 letters of recommendation (through online application)
• GRE scores
• Statement of purpose
• Unofficial transcripts
• Writing Sample

Graduation Requirements

Students are expected to gain advanced knowledge in the three subfields represented in our program (archaeology, biological anthropology, cultural anthropology). Anthropology faculty members work closely with graduate students to conduct collaborative research as an integral component of the graduate program. Opportunities for specialization are provided through research courses leading to a thesis. A program tailored to each student’s educational objectives is planned by the student and the advisory committee of at least three members, one of whom is a non-anthropology faculty member.

Credit Hours Required for Master’s Degree

MA graduate students must complete a minimum of 30 credit hours beyond the Bachelor of Arts degree. At least 9 of the required hours must be 8000-level anthropology courses and seminars, and must include at least one content course (i.e., not a readings or research course). In addition to the 8000-level requirement, all students must take (ANTHRO 8010). Students must also take one (1) course of their choosing in archaeology and one (1) course of their choosing in biological anthropology. Students lacking a basic course in statistics are required to take at least one course, preferably during the first year of graduate work. A maximum of 12 hours may be in non-thesis research (ANTHRO 7990/ANTHRO 8990) or reading courses (ANTHRO 7960).

MA Thesis

Students enrolled in Track 1 must complete the MA thesis requirement. Successful completion of the thesis will be determined by the student’s advisory committee. The advisory committee for the thesis consists of at least 3 faculty members, including the advisor, another member of the anthropology department, and one member of the graduate faculty from another MU department and who generally holds a doctorate degree in another subject.

PhD in Anthropology

Admission Criteria - Track Two (ONLY): PhD Students Required to Complete MA Requirements

Track 2 students will be classified as PhD seeking students with Graduate Studies. These students will complete all course requirements for the MA, including the MA exam. With the consent of the student’s committee, a Track 2 student will complete either a thesis OR a proposal formatted for a major granting agency that will serve as the student’s PhD dissertation proposal, OR a primary-authored paper submitted for publication. In each of these cases, the student will orally defend the work. Upon successful completion of these requirements, the student will be awarded an MA, and will then be eligible to continue work towards a PhD without the need to reapply to the program or change student status.

Minimum TOEFL scores:

**Credit Hours Required for Master’s Degree (Track Two Applicants Only)**

All MA students must complete a minimum of 30 credit hours beyond the Bachelor of Arts degree. At least 9 of the required hours must be 8000-level anthropology courses and seminars, and must include at least one content course (i.e., not a readings or research course). In addition to the 8000-level requirement, all students must take (ANTHRO 8010). Students must also take one (1) course of their choosing in archaeology and one (1) course of their choosing in biological anthropology. Students lacking a basic course in statistics are required to take at least one course, preferably during the first year of graduate work. A maximum of 12 hours may be in non-thesis research (ANTHRO 7990/ANTHRO 8990) or reading courses (ANTHRO 7960).

**Admission Criteria - Track Three: PhD Students with MA in Hand**

Students admitted to this track will be classified as PhD seeking students with Graduate Studies. They will not be required to complete the MA requirements and will not earn an MA during their graduate work at MU. Upon completion of the requirements currently listed for the PhD program, including coursework, qualifying examination, comprehensive examination, teaching, and dissertation, the student will be awarded a PhD.

- Minimum GPA: 3.5 in previous graduate work
- Master’s degree

**Note:** A faculty member who is on the doctoral faculty must agree, as a condition of admission, to accept the student as a PhD advisee. These qualifications apply to all applicants, including those with an MA degree from this department. Applicants whose MA is in a field other than anthropology will be considered under the policies for individuals holding the baccalaureate degree except that the quality of graduate work will be taken into consideration.

**Required Application Materials for Track Three Applicants**

**Art**

Jo Stealey, Chair
College of Arts and Science
A126 Fine Arts Building
(573) 882-3638
http://art.missouri.edu
umcart@missouri.edu

The Department of Art is housed principally within the Fine Arts Building. Founded in 1877, the Art Department faculty consists of 18 full-time faculty, 11 adjunct instructors, and 25 graduate teaching assistants. Our faculty members, many of whom are nationally and internationally renowned, are well-established professional artists and designers with numerous exhibitions, commissions, and awards to their credit.

Our studio/laboratory spaces for each media area have impressive features that include a fully-equipped printmaking studio, photography labs for digital and traditional processes, a papermaking/fiber facility, an anagama kiln, a bronze casting facility, and three state-of-the-art digital labs housing over 65 up-to-date Macintosh computers with large 27-inch monitors, three 44” large-format Epson printers, and a variety of video equipment. The Department of Art also operates the George Caleb Bingham Gallery ([https://art.missouri.edu/bingham-gallery-exhibitions.html](https://art.missouri.edu/bingham-gallery-exhibitions.html)) in the Fine Arts Building, which showcases art exhibitions from students, faculty, and visiting artists year-round. A popular Visiting Artists Lecture Series is presented on late Wednesday afternoons during the Fall and Spring semesters and is open to the public. A popular summer experience sponsored by the Department in partnership with the International Center is the Summer Study Abroad Program ([http://art.missouri.edu/undergraduate/study-abroad.html](http://art.missouri.edu/undergraduate/study-abroad.html)) that takes place in summers in Italy on odd-numbered years and in the Netherlands and Belgium in even-numbered years. In both countries, students will have the opportunity to study firsthand many of the most important masterpieces in Western art history.

Faculty and students have access to many other resources on the University campus, including the Museum of Art and Archaeology ([http://maa.missouri.edu](http://maa.missouri.edu)), the State Historical Society of Missouri ([http://shs.umsystem.edu](http://shs.umsystem.edu)), the Craft Studio Gallery ([https://craftstudio.missouri.edu](https://craftstudio.missouri.edu)), extensive collections of Ellis Library ([http://library.missouri.edu/libraries](http://library.missouri.edu/libraries)), and the image database on ArtStor ([http://www.artstor.org](http://www.artstor.org)).

You should not be surprised to find the works of MU art faculty and alumni in major museums, galleries, exhibitions, and collections around
the world, from New York to Barcelona, and from Africa to China. The work of our faculty and alumni exemplifies the caliber of teaching and creativity that students experience in the MU Art Department. We are dedicated to providing our students with the best quality education possible and helping them to develop and nurture their artistic pursuits.

**Faculty**

Professor J. M. Brueggenjohann*, R. B. Clarke*, L. Leong*, J. Stealey*

Department of Art
A126 Fine Arts Building
Columbia, MO 65211-6090
(573) 882-3255
http://art.missouri.edu/mfa-program.html

**Director of Graduate Studies:** J. Brett Grill

**Admission Contact:**
Brenda J. Warren, Graduate Student Coordinator
warrenb@missouri.edu

The Department of Art offers a Master of Fine Arts (MFA) program that focuses on the creative goals of the individual. Our aim is to guide each student to finding and developing a particular direction and language as demonstrated by a coherent and conceptually unified body of artwork. Through an intense studio-based practice, our graduates develop into professional artists and college level educators who will successfully contribute to the culture on a local, national and global scale through different fields in the visual arts.

The University of Missouri has been a leader in the visual arts since 1877 when the renowned painter George Caleb Bingham began teaching the first studio courses in the newly formed School of Art. Current faculty members follow in that tradition through their creative work that is nationally and internationally recognized. Their artwork encompasses: abstract and figurative painting and drawing, ceramics, sculpture, ceramics sculpture, as well as bronze cast sculpture, traditional and digital photography, all media of printmaking, surface design, illustration, papermaking and book arts, mixed-media, video, installation and performance art plus intermedia and intradmedia approaches. They are all eager to mentor young artists who share the passion for creativity, critical thinking and the arts.

Laboratory facilities are available in all media areas that are continually updated to coincide with technological advancements. The Department of Art is home to the George Caleb Bingham Gallery with monthly exhibitions highlight artwork by students, local, regional and national artists. Our yearly Florence Summer Study Abroad Program places students in Italy where students have a month to study firsthand many of the most important masterpieces in Western art history. More about the MFA program. (http://art.missouri.edu/mfa-program.html)

**Study Areas**

Applicants typically study within a particular art medium. Applicants declare a media emphasis of their choice at the time of application to the program. Media areas for selection include ceramics, drawing, fibers, graphic design, painting, photography, printmaking, and sculpture. Aspects of new media (2D and 3D computer imaging and animation, video production, web publishing and other digital media) are also integrated into the curriculum of many of the listed traditional media.

**Financial Aid**

Fellowships, scholarships, and tuition waivers, along with graduate teaching assistantships and graduate research assistantships with stipends are available to qualified graduate students. Assistantships include stipends. Some aid is awarded upon acceptance into the program, while others may be awarded later as the student develops within the program. Applications for graduate teaching assistantships
should be submitted along with the application portfolio to the director of graduate studies. Application instructions follow later in this document. For a list of scholarships within the Department of Art, please visit the departmental website at: http://art.missouri.edu/mfa-program/scholarships.html

Some campus-wide opportunities are available, too. Most prominent would be the Mizzou Graduate Fellowship that is available for applicants for the fall semester (submitting deadline on January 1st each year) only.

**Advising**

Upon admission to the program, a candidate is assigned a graduate thesis committee chair/major advisor. This person will mentor the student throughout the student’s tenure and help the student to establish the three-member graduate thesis committee. By the second semester the student will select another committee member from the Graduate Faculty to serve as the student’s second advisor. The chair/major advisor will also help the graduate student to select an outside member who is from the graduate faculty of another department. In addition, students have access to all the art department faculty members for consultation throughout the duration of their studies.

**BA in Art**

**Degree Program Description**

The Department of Art offers opportunities for creative development, provides instruction in visual literacy, and trains students in the necessary technical and conceptual skills needed to pursue a lifetime of creative activity. Through a variety of studio art courses, students learn critical thinking skills, creative problem solving, and become life-long learners. The Department of Art offers courses in ceramics, drawing, fibers, graphic design, painting, photography, printmaking, and sculpture. The BA degree is a liberal arts degree in which students complete 30 - 40 hours of studio art courses and 9 hours of courses in Art History. Starting Fall 2015, all students wishing to pursue a BA degree in art must pass the Art Department BA/BFA Portfolio Review. Students that earn a degree in art pursue a variety of careers, including artists; art educators; commercial and studio designers; and graphic, web, print and packaging designers.

**Major Program Requirements**

Art majors earning a BA degree complete art foundations courses, art core requirements, and art studio electives. No more than 40 credits in studio art may be included in the BA curriculum. Students enrolled in the BA degree program may not include art or art history courses with a grade of D.

All art majors must complete a minimum of 12 credit hours of MU art coursework numbered 2000 or above. In addition, 9 hours of Art History and Archaeology courses, including two 3-hour classes numbered 2000 or above, are required.

In addition, students must complete all College of Arts and Sciences and University graduation requirements (p. 32), including University general education (p. 33).

Starting Fall 2015, all students wishing to pursue a BA or BFA degree in art will need to pass the Art Department BA/BFA Portfolio Review. A student will need to have completed six (6) courses in art before submitting a portfolio for either the BA or BFA. Those courses are ART_GNRL 1030, ART_GNRL 1040, ART_DRAW 1050; then three of the following courses: ART_CERM 2100, ART_DRAW 2200, ART_FIBR 2300, ART_GRDN 2410, ART_PNT 2500, ART_PNT 2510, ART_PHOT 2600, ART_PRNT 2700, ART_SCUL 2800. For more detailed information on the portfolio, please refer to the Art Department website (http://art.missouri.edu).

BFA in Art

Degree Program Description

The Department of Art offers opportunities for creative development, provides instruction in visual literacy, and trains students in the necessary technical and conceptual skills needed to pursue a lifetime of creative activity. Through a variety of studio art courses, students learn critical thinking skills, creative problem solving, and become life-long learners. The Department of Art offers courses in ceramics, drawing, fibers, graphic design, painting, photography, printmaking, and sculpture. The BFA is considered a professional degree intended to provide a solid foundation for a career in visual art. Students in the BFA program must complete 60-70 hours of studio art and 12 hours of Art History. Starting Fall 2015, all students wishing to pursue a BA or BFA degree in art must pass the Art Department BA/BFA Portfolio Review. Students that earn a degree in art pursue a variety of careers, including artists; art educators; commercial and studio designers; and graphic, web, print and packaging designers.

Major Program Requirements

Art majors earning a BFA degree complete art foundations courses, art core requirements, and art studio electives with 15 credits in one specific media area. Students enrolled in the BFA degree program may not include art or art history courses with a grade of D.

All art students are assigned a departmental faculty advisor. Students are encouraged to meet with the advisor to plan a program of study with a focus in one particular media area.

BFA students complete 60 to 70 credits in studio art, including a minimum of 15 credits in one specific media area, and 12 credits of art history, including at least two 3-hour Art History & Archaeology courses numbered 2000 or above. A minimum of 35 credit hours of studio art coursework must be taken at MU.

In addition, students must complete all College of Arts and Science and University graduation requirements (p. 32), including University general education. (p. 33)

Starting Fall 2015, all students wishing to pursue a BA or BFA degree in art will need to pass the Art Department BA/BFA Portfolio Review. A student will need to have completed six (6) courses in art before submitting a portfolio for either the BA or BFA. Those courses are ART_GNRL 1030, ART_GNRL 1040, ART_DRAW 1050; then three of the following courses: ART_CERM 2100, ART_DRAW 2200, ART_FIBR 2300, ART_GRDN 2410, ART_PNT 2500, ART_PNT 2510, ART_PHOT 2600, ART_PRNT 2700, ART_SCUL 2800. For more detailed information on the portfolio, please refer to the Art Department website (http://art.missouri.edu).

Minor in Art

The minor in art requires a total of 18 credits, including 15 credits in studio art and 3 credits from the Department of Art History & Archaeology. Six credits must be studio art courses numbered 2000 or above. At least 9 of these hours must be taken while in residence at the University of Missouri. An Art Minor may not include art or art history courses with a grade of D.

MFA in Art

Admission Contact:
Brenda J. Warren, Graduate Student Coordinator
warrenb@missouri.edu

Department of Art
A126 Fine Arts Building
University of Missouri
Columbia, MO 65211-6090, USA
573-882-4037

Admission Criteria

Fall semester deadline (priority for campus scholarships):
• January 1 if seeking nomination for Mizzou Graduate Fellowship

Spring semester deadline:
• September 1

Minimum TOEFL scores:

<table>
<thead>
<tr>
<th>Internet-based test (iBT)</th>
<th>Paper-based test (PBT)</th>
</tr>
</thead>
<tbody>
<tr>
<td>80</td>
<td>550</td>
</tr>
</tbody>
</table>

• Minimum GPA: 3.0

The preferred undergraduate degree for admission to the graduate program in visual art is the Bachelor of Fine Arts degree (BFA). However, applicants holding the BA, BS or other bachelor’s degrees are eligible to apply if they have a minimum of 40 hours of undergraduate studio credits or an equivalent commensurate professional experience. Applicants for the Graphic Design Area are required to have a minimum of 2 years professional experience before applying.

Application materials are evaluated to determine if the applicant has the preparation and ability to pursue an advanced degree. Admission is based on the recommendations from the art department graduate faculty members representing each of the media areas. Some applicants, may be placed on a waiting list as alternates, then accepted if others decline their admission offers.

Required Application Materials

Submit to the Graduate School:

• All required Graduate School documents
• Cover Letter of Intent (stating the goals for pursuing the MFA degree)
• A Digital Assets Sheet (defining the image and video files).
• Current Résumé (exhibition, award, publications, artistic experience, etc.)
• An artist’s statement
• Three (3) letters of recommendation
• Official transcripts from each college attended
• Application for G.T.A. (optional but necessary for tuition waiver)

Application Materials Submit to the Art Department

• The application process requires a digital portfolio documenting 20 separate pieces of the applicant’s artwork. Applicants can document these works using twenty (20) to forty (40) digital still images and/or moving image files. Please limit submissions to a maximum of 2 images for any one piece of artwork. The artwork in the portfolio should represent your most recent and most accomplished body of work. The work should indicate your major artistic interests and creative direction. The work should demonstrate your creative ability and media competence. If you are requesting consideration for a teaching assistantship, a few of the images could be works that demonstrate your foundational mastery of a specific media area. Portfolios must be submitted in digital form on CD only. Please follow closely the instructions for the submission of images available on the department website:

MFA Degree Completion Requirements

The MFA program consists of 60-70 credit hours.

The degree includes:

• 30 hours in the major area
• 9 hours in a minor area
• 3 hours of Graduate Studio Seminar
• A minimum of 1 hour of MFA Research Hours
• 11 hours of electives
• 6 hours of Art History

Graduate-Level Course work

Graduate level courses are at the 7000/8000/9000 level. A minimum of 15 of the 30 hours must be selected from courses numbered at 8000 and/or 9000 levels; no more than 40 percent of the 30 hours credit requirement can be satisfied by Research, Readings and Problems courses. No credit is given for courses at the 4000 or below levels.

Residency Requirement

A minimum residency of two years is required for the degree. However, mere completion of the prescribed number of credit hours and the residency requirement is insufficient, rather the degree will be granted
upon the student’s high level of creative achievement as determined by
the student’s graduate thesis committee.

Regular Student Evaluation
The full graduate faculty of the art department reviews every MFA
candidate once each year to determine the rate of progress. If the
candidate fails to receive a passing evaluation during the review, the
student is placed on probation for one semester and is required to be
reviewed the following semester. If two consecutive unsatisfactory
reviews occur, the student is dismissed from the MFA program.

Clearance
During the semester prior to graduation, the graduate thesis committee
will approve the student to proceed with the final steps toward graduation,
composing the written thesis and mounting the thesis exhibition.

Thesis Acceptance
The graduate thesis committee approves the thesis exhibition and
written thesis. The final semester, the MFA candidate installs a thesis
exhibition to display visual, artistic and professional achievement. The
candidate thereafter presents a final draft of the written thesis that
defends the conceptual and philosophical ideas of the final body of
artwork. Photographic record of the pieces discussed must be included in
the written thesis.

Each degree candidate must pass a two-hour oral final examination
conducted by the graduate thesis committee. The presentation must
focus on the aspects of the academic study related to the written thesis
and visual work. Following final approval of the thesis exhibition and the
written thesis, the graduate will officially submit documentation of the
theses to the graduate school. The thesis is submitted as a PDF file on a
CD-ROM to the Graduate School by the established deadline.

Time Limit and Extensions
The time limit for completion of the MFA degree is 5 years. Time spent
in military service is excluded. For an extension for other reasons the
student must petition the Graduate School through his/her chair/major
advisor. The five-year period will extend from the beginning of the first
semester of enrollment in which the student is accepted to the MFA
program to the date of his/her clearance to graduate.

Art History and Archaeology

Michael Yonan, Chair
College of Arts and Science
102 Swallow Hall
(573) 882-6711
aha@missouri.edu
http://aha.missouri.edu

The development of European and American art in its historic and cultural
context is the subject of study in the Department of Art History and
Archaeology.

The department offers BA, MA and PhD degrees with a major in Art
History and Archaeology.

Faculty
Professor S. H. Langdon**, M. L. Rautman**
Associate Professor K. A. Schwain**, A. R. Stanton**, J. A. van Dyke**, M. E. Yonan**

Assistant Professor M. Mogetta*
Assistant Teaching Professor E. J. Hornbeck
Professor Emeritus: W. R. Biers, N. E. Land Jr., H. W. Marshall
Professor Emerita: P. D. Crown, K. W. Slane**

- Graduate Faculty Member - membership is required to teach
  graduate-level courses, chair master's thesis committees, and serve
  on doctoral examination and dissertation committees.
- Doctoral Faculty Member - membership is required to chair
  doctoral examination or dissertation committees. Graduate faculty
  membership is a prerequisite for Doctoral faculty membership.

Undergraduate
- BA in Art History and Archaeology (p. 150)
- Minor in Art History and Archaeology (p. 152)

Director of Undergraduate Studies: James van Dyke

Double Majors and Dual Degrees
Students may combine a major in art history and archaeology with a
major in another department in the College of Arts and Science such as
Art or Classical Studies (a double major), or with a major in another
college such as Business or Journalism (a dual major). Students who
graduate with dual majors will be awarded two degrees; their program
of study will include an additional 12 credits. Students who plan to
pursue double or dual majors should complete graduation plans in both
departments.

Departmental Honors
Departmental Honors recognizes students who have demonstrated a
commitment to future professional study in art history and archaeology,
wish for more substantial research experience, and have built a record of
excellence in departmental coursework.

Requirements:
- 3.3 Cumulative GPA
- 3.6 Departmental GPA
- Successful completion of one 4000-level AR_H_A course as a
  prerequisite
- Completion of a senior honors essay, AR_H_A 4999

Students apply for departmental honors the semester prior to taking
AR_H_A 4999 by writing a proposal on the subject of their essay. The
proposal is submitted in duplicate to the faculty member whom the
student would like to have serve as the project’s supervisor and to the
Director of Undergraduate Studies, but shall be considered and must
be approved by the faculty as a whole. The essay’s topic should reflect
both the student’s interests and the expertise of the faculty supervisor.
The honors essay should be of substantial length, incorporate significant
individual research, and engage with theoretical, historiographical, and
methodological perspectives appropriate to the topic at hand. Completing
these requirements to the faculty’s satisfaction will earn the student
departmental honors.

Graduate
- MA in Art History and Archaeology (p. 152)
- PhD in Art History and Archaeology (p. 153)

Art History & Archaeology Graduate Programs
College of Arts and Sciences
The University of Missouri has played a prominent role in the teaching of the visual arts in North America since Walter Miller and John Pickard first began lecturing on campus in the 1890s. Our faculty and staff reflect the widening scope of our discipline with particular strengths in the areas of classical Mediterranean archaeology, medieval and Renaissance art, and the art and architecture of modern Europe and the Americas. Current faculty research interests range from early Greece and Rome to modern architecture and contemporary painting. Resources available to faculty and students include the department’s Visual Resources Center and the Museum of Art and Archaeology, as well as the extensive collections of Ellis Library.

Degrees Offered

The Department of Art History and Archaeology offers the MA and the PhD degrees in Art History and Archaeology. The department participates in interdisciplinary graduate minors in Ancient Studies, Medieval and Renaissance Studies, Museum Studies, and Women’s and Gender Studies.

Funding: Internal and External

The Department of Art History and Archaeology offers two forms of graduate support: teaching assistantships in introductory and upper-level courses; and research assistantships in the Visual Resources Center, which provides students with the opportunity to learn a variety of skills vital to the field in the digital age. In addition, the Museum of Art and Archaeology provides research assistantships that allow students to work closely with curators in various departments of the Museum.

Generally, the department and the museum offer .25 FTE (full time equivalent) assistantships that require approximately ten hours of work per week. These provide a nine-month stipend; a tuition waiver that covers resident educational and non-resident fees; and a 50% medical insurance subsidy if you enroll in “Student Accident and Sickness Insurance” program. In special circumstances, the Department and the Museum will offer a .5 FTE to advanced students.

Incoming students are considered for funding when they apply to the program. Returning students submit applications for continued funding in the spring semester. The Department follows the rules set by the Graduate School regarding tuition waiver limits.

In addition to teaching and research assistantships, the department may award departmental fellowships to advanced students: the Herbert Schooling Fellowship; the John Pickard Fellowship; and the Charles D. Folse Fellowship for students in classical archaeology. Holders of these fellowships may, with proper consent, hold additional grants not to exceed $1000 or may hold teaching assistantships.

Finally, the department offers a number of fellowships and travel awards:

- The Edzard Baumann Traveling Fellowship in European Art
- The Irina Hans Fellowship in Art History
- The Osmund Overby Fund for research in American art, architecture, and historic preservation
- The Saul and Gladys Weinberg Traveling Fellowship for advanced students in classical archaeology

Students interested in these awards should contact the director of graduate studies and their advisors for application instructions.

In addition, the University of Missouri Graduate School sponsors two major fellowship programs: a spring competition and a Supplemental Graduate Fellowship Program. Applicants in both art history and archaeology are eligible for these fellowships, which are awarded to entering students through a campus-wide competition. Nominations for both are completed by the director of graduate studies in consultation with the entire faculty. Students in the Department of Art History and Archaeology have held a number of these awards, including the G. Ellsworth Huggins Scholarship, the Gus T. Ridgel Fellowship, and the Robert E. Waterston Award.

Students enrolled in MA and PhD programs are also eligible for awards from The Graduate Professional Council (GPC), which are designed to assist students who are traveling to present research papers, posters or creative works at conferences or symposia. The Graduate Student Association (GSA) also awards travel grants to students who are presenting a paper or poster, or chairing a plenary session or roundtable discussion, at an academic conference.

Finally, the department encourages graduate students to apply for internships, study abroad programs, grants, and fellowships that support their programs of study. An excellent place to initiate this search is Resources in Art History for Graduate Students: A Newsletter of Fellowships and other Opportunities for Art History Graduate Students (http://www.efn.org/~acd/resources.html).

BA in Art History and Archaeology

Degree Program Description

Art historians and archaeologists seek to understand different cultures by studying their artistic monuments and other material remains. By looking closely at objects within their historical, social, and technological contexts, students develop skills of visual perception and analysis as ways of exploring how images can express identity, share information, and shape everyday life. This integrative approach to cultural traditions draws readily on other disciplines like art, anthropology, classics, film studies, gender studies, history, languages, literature, music, philosophy, and religion. While the BA is not a vocational or professional degree, undergraduate majors gain a broad foundation in the liberal arts that is readily adapted to future goals. Recent graduates of the program have gone on to careers in art galleries, civic arts organizations, cultural heritage offices, historical archives and museums, journalism, library and information sciences, secondary education, and fine arts conservation. Students wishing to pursue specialized research and college-level teaching continue their studies at the masters and doctoral levels.

Major Program Requirements

Students may elect a broad program in Art History or a more narrowly focused one in Classical Archaeology. Those who are planning to focus in either program should begin foreign language study as early as possible.
In addition to University general education (p. 33) requirements and other college and University graduation requirements (p. 32), students must meet the following requirements:

### Course requirements

- **Students must take 1110 and 1120:**
  - AR_H_A 1110 Ancient and Medieval Art
  - AR_H_A 1120 and Renaissance through Modern Art

- **OR**
  - The General Honors Humanities Sequence (GN_HON 2111H, GN_HON 2112H, GN_HON 2113H, GN_HON 2114H)

- **AND**
  - At least six AR_H_A courses at the 3000 level or above, including at least one course in each of the following three distribution areas and at least two courses at the 4000 level:
    - Art History option: Ancient, Medieval-Baroque, and Modern
    - Archaeology option: Greek, Roman, and Post-Classical

### Language Requirement

The Art History option requires study through the reading level (i.e., 12 or 13 credits) in one modern language, such as French, German, Italian, or Spanish. The Archaeology option requires study through the reading level (i.e., 13 credits) in Greek or Latin. Students who plan to attend graduate school are strongly urged to begin study of one or more additional languages.

### Courses Recommended for a Well-Rounded Degree

Art History students should take additional courses in the Humanities, including anthropology, classical humanities, film studies, history, literature, religious studies, and philosophy, and at least one course in studio art or environmental design. Students pursuing the Archaeology option should take related courses in anthropology, classical humanities, geology, history, religious studies, and philosophy.

### Semester Plan: Art History Track

Below is a sample plan of study, semester by semester. A student's actual plan may vary based on course choices where options are available.

Minor in Art History and Archaeology

A minor in Art History and Archaeology requires 15 credits within the department. Nine of the 15 credits must be at the 3000-level or above.

MA in Art History and Archaeology

Admission Contact Information

Michael Yonan (YonanM@missouri.edu)
365 McReynolds Hall
Columbia, MO 65211
(573) 882-6711

About the Master’s

The MA program in the Department of Art History and Archaeology has two primary goals: to provide graduate students with a strong background in the history of art, from antiquity to the present; and to introduce them to the methods and theories of material and visual analysis, as well as the practices of critical writing and reading. Students who pursue the thesis option have the opportunity to specialize at that stage.

Admission Criteria

Admission to the department on the graduate level is granted yearly to a small number of candidates who hold recognized BA or MA degrees in art history, classical archaeology, classics, or related fields of the humanities and social sciences. In addition to the 3.0 GPA required by the Graduate School, the department requires: a GPA of 3.3 in the major field; minimum GRE score (below) and at least three semesters of a single appropriate foreign language (normally German, French or Italian). Minimum GRE scores:

<table>
<thead>
<tr>
<th>When did you take the GRE?</th>
<th>Verbal + Quantitative</th>
<th>Analytical</th>
</tr>
</thead>
<tbody>
<tr>
<td>Prior to August 1, 2011</td>
<td>1000</td>
<td>4.5</td>
</tr>
<tr>
<td>On or After August 1, 2011</td>
<td>300</td>
<td>4.5</td>
</tr>
</tbody>
</table>

Required Application Materials

All application materials must be submitted directly to the Graduate School through its Apply Yourself (https://app.applyyourself.com/AYApplicantLogin/1_ApplicantLogin.asp?id=umc-grad) online application system. Applications will not be considered complete until we receive the following:

- Official transcripts or mark sheets from each university or college you have attended
- GRE scores
- Three letters of recommendation concerning academic qualifications to undertake graduate work
- A short statement of the applicant’s professional goals and reasons for applying to do graduate work in art history or archaeology
- A copy of a recent term paper as a sample of the applicant’s scholarship and writing
- Curriculum vitae

Financial Aid from the Program

Incoming students are considered for funding when they apply to the program. Returning students submit applications for continued funding in the spring semester.

Graduation Requirements

Course Requirements

The successful completion of the MA requires at least thirty hours of coursework that must include: AR_H_A 8110 Introduction to Graduate Study; AR_H_A 8120 Theories and Methodologies in Art History and Archaeology; four distribution requirements that cover four broad periods of study: Ancient, Medieval and Renaissance, 1500-1850, and 1850-Present; and AR_H_A 8070 Master's Tutorial. If students are invited to pursue the thesis option, they must enroll in AR_H_A 8080 Readings for MA Thesis in Art History and Archaeology and AR_H_A 8090 Master's Thesis Research and Thesis in place of AR_H_A 8070. Courses for an interdisciplinary minor field will be in addition to these minimums.

Language Requirements

All students must demonstrate reading knowledge of one foreign language, usually German or a Romance language. Departmental language exams are offered in the fall semester of each year, although students can request an examination in the spring semester. Language requirements may be satisfied also by achieving a grade of B or better in a course approved by the Director of Graduate Studies. The department expects that the modern language requirement will be met by the end of the third semester for use in advanced coursework as well as thesis research and writing. In addition to the modern language, students in Classical Archaeology also must have reading knowledge of either Greek or Latin. Students who pursue the thesis option must have reading knowledge of two modern languages: German and a Romance language.

Master’s Essay

To complete the degree, students must complete a scholarly essay under the guidance of a faculty advisor. It will most likely be a revision of a research paper from a graduate course taken in the Department of Art History and Archaeology.

Master’s Essay Oral Examination

In consultation with the faculty advisor, students will select two additional members of the department faculty to read the essay. Students will discuss their essays in a meeting chaired by their advisor.

Master’s Thesis Option

Graduate students who intend to pursue doctoral work should complete the thesis option. This decision is made during the student’s second or
third semester in residence in consultation with the Director of Graduate Studies and three faculty members in the student’s area of interest.

**Master’s Thesis Committee**

The master’s thesis committee consists of at least three people: the student’s thesis advisor, a second member from within the department, and a third member from outside the department. The student should invite the latter two in consultation with his or her thesis advisor.

The committee must approve the thesis topic in the semester before the student plans to defend the thesis; often, this is accomplished during an interview for candidacy.

**Master’s Thesis**

The master’s thesis enables graduate students to engage in independent and thorough research in a specific area of study. While the thesis need not be an original contribution, neither can it be an uncritical compilation of published facts. A successful thesis will demonstrate the student’s ability to use bibliography in the field; effectively utilize research tools and techniques; synthesize a variety of types of sources; and sustain an argument.

**Master’s Thesis Defense**

The defense of the master’s thesis is an oral examination, chaired by the student’s advisor, which focuses specifically on the MA thesis. The student should submit a complete draft of the thesis to the advisor at least two months before the intended defense date and a final draft, approved by the advisor, to the entire committee 30 days before the defense. Any changes recommended by the committee during the defense must be made before the finished thesis can be submitted to the Graduate School.

**More Information**

Further guidelines are included in the department’s graduate programs brochure or on the website.

**PhD in Art History and Archaeology**

**Admission Contact Information**

Michael Yonan (YonanM@missouri.edu)
365 McReynolds Hall
Columbia, MO 65211
(573) 882-6711

**About the PhD**

In the Doctoral Program, students deepen their exploration of art history or classical archaeology and demonstrate their ability to carry out original scholarship.

The department advises doctoral students in the following areas of study:

- Greek Art and Archaeology
- Roman and Late Antique Art and Archaeology
- Early Medieval Art and Archaeology
- Late Medieval Art
- Renaissance and Baroque Art
- 19 th Century Art
- 20-21 st Century Art
- American Art
- Architectural History

**Admission Criteria**

The department accepts as candidates for the PhD students who have earned an MA or its equivalent in art history or classical archaeology, either from the University of Missouri or from an institution recognized by the university. An MA thesis is a prerequisite for the PhD in both art history and classical archaeology. The Doctoral Program Committee (see below) determines the acceptability of work completed elsewhere.

Students completing an M.A. degree in the Department of Art History and Archaeology at the University of Missouri-Columbia who want to continue for the Ph.D. must be accepted for advising by a faculty member who is a member of the doctoral faculty. Such students should submit a statement of purpose and a current CV to the department by the January 18 deadline. After they are accepted for advising, they need to submit a “Change of Program, Degree, Emphasis or Advisor Form” to the Graduate School.

**Required Application Materials**

All application materials must be submitted directly to the Graduate School through its Apply Yourself (https://app.applyyourself.com/AYApplicantLogin/fl_ApplicantLogin.asp?id=umc-grad) online application system. Applications will not be considered complete until we receive the following:

- Official transcripts or mark sheets from each university or college you have attended
- GRE scores
- Three letters of recommendation concerning academic qualifications to undertake graduate work
- A short statement of the applicant’s professional goals and reasons for applying to do graduate work in art history or archaeology
- A copy of a recent term paper as a sample of the applicant’s scholarship and writing, and
- Curriculum vitae

**Financial Aid from the Program**

Incoming students are considered for funding when they apply to the program. Returning students submit applications for continued funding in the spring semester.

**Graduation Requirements**

**Coursework**

The Graduate School requires a minimum of 72 hours for the PhD. At least 42 of those hours must be completed after the receipt of MA. Up to 30 hours from a previous institution can count toward the total of 72 hours. Most students will take more than the minimum number of courses and requirements.

The 42 hours must include:

- At least one course from the following four areas—Ancient, Medieval and Renaissance, 1500-1850, and 1850-Present—unless students have taken an equivalent at the MA level.
• 27 hours of courses in the major areas. At least 12 of the 27 hours must be seminars at the 8000 level.
• 15 hours of coursework in the minor areas. At least 6 of the 15 hours must be taken at the 8000-level.

The student’s program of study is determined in consultation with the Doctoral Program Committee. The Doctoral Program Committee is constituted in October during the first year of study. It consists of at least four people: the student’s advisor; two additional scholars from within the department; and an outside committee member. The committee:
1. Reviews the student’s MA thesis and determines it equivalency;
2. Accepts any transfer of credit from previous institutions;
3. Approves the plan of study;
4. Determines the major and minor areas as well as the scheduling of the comprehensive exams;
5. Approves the subject of the student’s dissertation;
6. Examines the student’s dissertation.

Languages
All students must demonstrate reading knowledge of two foreign languages, usually German and a Romance language relevant to their area. Departmental language exams are offered in the fall semester of each year, although students can request an examination in the spring semester. Language requirements may be satisfied also by achieving a grade of B or better in a course approved by the Director of Graduate Studies.

In addition to the modern languages, students in classical archaeology must demonstrate reading knowledge of both Greek and Latin. This requirement may be satisfied by passing with a grade of B or better in a course numbered 7500 or higher in both Greek and Latin and by taking a second course at this level (7500 or higher) in the language more closely related to the major field of study. Equivalent courses taken at other institutions must be approved by the Director of Graduate Studies.

Comprehensive Examination
The comprehensive examination in the major and minor areas of art history and archaeology, determined by the student and the doctoral program committee, consists of both written and oral examinations.

Dissertation
The dissertation is expected to be an original, scholarly contribution to the discipline. The topic must be approved by the advisor and the Doctoral Program Committee. A dissertation proposal should be filed with members of the committee within two months of passing the comprehensive exams. A proposal for a dissertation fellowship will satisfy this requirement.

Individual chapters are generally submitted to the advisor as they are written. Other members of the Doctoral Program Committee may also criticize them in draft form. A complete, revised draft of the dissertation must be approved by the advisor at least two months before the defense. Students should distribute the final draft to each member of the committee at least one month before the defense.

Students maintain continuous enrollment by registering for 9080 or 9090 and by submitting a progress report to the Graduate Student Progress System and their advisor each term. Dissertation advising is not normally available during the summer unless previous arrangements have been made.

Further guidelines, including available areas of doctoral study, are included in the department’s website.

Dissertation Defense
The final examination will be in the form of an oral defense of the dissertation. It must take place on or before the penultimate Friday of classes. Any changes recommended by the committee during the defense must be made and approved before the finished thesis can be submitted to the Graduate School. Students are responsible for ensuring they meet the deadlines and guidelines established by the Graduate School for dissertation submission and graduation.

Biological Sciences
J. Walker, Director
College of Arts and Science
105 Tucker Hall
(573) 882-6659

The Division of Biological Sciences offers both a Bachelor of Arts and a Bachelor of Science with a major in Biological Sciences, in addition to a minor in biological sciences for students majoring in other departments. The department also offers MA and PhD degrees in Biological Sciences.

Faculty
Curators Professor J. A. Birchler**, J. C. Walker**
Research Assistant Professor R. Bhandari, J. Taylor
Teaching Professor S. L. Bush*, B. Stone*
Teaching Associate Professor A. Durbak, T. Gibson, R. D. Hurst
Curators Professor Emeritus H. C. Gerhardt**, G. P. Smith**, F. S. Vom Saal**
Distinguished Teaching-Professor Emeritus J. E. Carrel**

* Graduate Faculty Member - membership is required to teach graduate-level courses, chair master's thesis committees, and serve on doctoral examination and dissertation committees.
** Doctoral Faculty Member - membership is required to chair doctoral examination or dissertation committees. Graduate faculty membership is a prerequisite for Doctoral faculty membership.

Undergraduate
• Department Level Requirements (p. 156)
• BA in Biological Sciences (p. 156)
• BS in Biological Sciences (p. 157)
• Minor in Biological Sciences (p. 158)

Undergraduate Advising Center
Even more important than the quantitative Grade Point Average and GRE scores, we are interested in evidence of critical qualitative characteristics including: undergraduate research experiences and presentation of research results; ability to face and overcome obstacles; exceptional motivation, work ethic, intellectual vitality, initiative, creativity, critical thinking ability and leadership ability.

Areas of Study
The division offers primarily PhD degrees. General areas of research emphasis within the division include evolutionary biology, ecology and behavior; genetic, cellular, molecular and developmental biology; neurobiology and behavior; and plant sciences. Within these general areas, students may devise more specific graduate programs in, for example, plant genetics, invertebrate chemical communication or neurophysiology.

Interdisciplinary Research
Several students are currently involved in interdepartmental programs in neurosciences, genetics, plant biochemistry and physiology, cellular and molecular biology, the Conservation Biology Program, microbiology, and physiology. In addition, the presence on this campus of a School of Medicine, College of Agriculture, Food and Natural Resources and College of Veterinary Medicine provides opportunities for direct interaction with a variety of established research scientists. Faculty in the division also participate in the Genetics Area Program, the Pathobiology Area Program, the Molecular Biology Program, the Interdisciplinary Program in Plant Biochemistry and Physiology, the Interdisciplinary Neuroscience Program and the Conservation Biology Program.

All entering graduate students should have a broad background in biology and should have completed courses in mathematics through integral calculus, chemistry through organic chemistry and a year of physics. Exceptions may be made for individual students. Outstanding students with undergraduate degrees in areas other than biology (such as biochemistry, chemistry, physics, engineering, mathematics or psychology) are encouraged to apply with the understanding that subject matter in biology will be addressed in the first year of graduate study.

Research Facilities and Resources
Divisional faculty have ready access to the campus computing network and microcomputers in their laboratories. Beyond the specialized equipment in each faculty research laboratory, departmental and campus equipment and facilities available to graduate students include:

- molecular and cellular biology core facilities, including DNA (with Next Generation Sequencing), Electron Microscopy, Cell and Immunobiology, Informatics, Nuclear Magnetic Resonance, Molecular Cytology, Proteomics, Structural Biology, and Transgenic Animal;
- a 15,000-square-foot greenhouse complex;
- animal-care facilities suitable for mice, bats, rats, rabbits and amphibians;
- a 14-acre botany preserve on the campus and a 146-acre prairie research station;
- 24 walk-in plant growth chambers with regulated light, temperature and humidity controls;
- cell and tissue culture facilities;
- growth chambers;
- scanning spectrophotometers and kinetic fluorometers;
- ultracentrifuges and scintillation counters;
- HPLC facilities;
Studies and all alternatives must be approved by the Director of Undergraduate Office to insure that alternative courses meet departmental requirements in another department. Students should confer with the Biology Advising Office to insure that alternative courses meet departmental requirements and may not be used to fulfill a minor in other degree requirements. These courses may not be used to satisfy university general education requirements.

All courses in the major (including ancillary sciences) must be completed with a grade of C- or higher with a cumulative GPA of 2.0 or higher. (Satisfactory/Unsatisfactory grading is not acceptable for courses in the major.) At least 12 hours of biology coursework must be taken in residence at MU.

Foreign Language Alternative for students pursuing a BS degree in biological sciences

Students who are pursuing a BS degree with a major in biological sciences may opt to satisfy the foreign language requirement through alternative coursework consisting of at least 12 credits in courses numbered 2000 or above. These courses may not be used to satisfy other degree requirements and may not be used to fulfill a minor in another department. Students should confer with the Biology Advising Office to insure that alternative courses meet departmental requirements and all alternatives must be approved by the Director of Undergraduate Studies.

Electives

All biology majors must take additional biology courses to total at least 29 credits for the BA degree or 33 credits for the BS degree. Elective credits must be in formal courses numbered above 2000 and must include at least one 3000- or 4000-level laboratory course, one 4000-level course, and one WI course at the 3000 or 4000 level in a natural science. BIO_SC 2940, BIO_SC 2960, BIO_SC 2965H, BIO_SC 2990, and BIO_SC 4950 may not be used to satisfy this requirement. MICROB 3200 may not be used to satisfy the laboratory course requirement.

Independent readings, internships, problems and seminar courses do not apply (i.e., BIO_SC 2940, BIO_SC 2960, BIO_SC 2965H, BIO_SC 4950, and BIO_SC 4960).

Students completing research courses BIO_SC 4950, BIO_SC 4952, BIO_SC 4952H for 6 credits may apply 3 credits toward fulfillment of biology elective hours for the BA or BS degree.

Students may repeat research courses for a total of 12 hours. Any credits remaining after 3 hours are used as a capstone or an elective in biology will be applied toward total hours to graduate. A maximum of 12 credit hours from the following courses (BIO_SC 2940, BIO_SC 2960, BIO_SC 2965H, BIO_SC 4085, BIO_SC 4950, BIO_SC 4950H, BIO_SC 4952 and BIO_SC 4952H) can be counted toward graduation.

BIOCHM 4270 and BIOCHM 4272 may apply toward fulfillment of biology elective hours for the BA or BS degree.

BA in Biological Sciences

Degree Program Description

Biology is a broad field centered on the study of living organisms and processes. While the degree program requires general education courses in behavioral sciences, social sciences, and the humanities, students can specialize their curriculum through their course selections. The main difference between the BS degree and the BA degree is that the BS degree requires more credit hours in biology, chemistry, physics, and math than the BA degree. Some of the knowledge that students
acquire includes basic sciences necessary for upper-level biological science coursework (i.e., mathematics, statistics, physics, general and organic chemistry), how biologists use mathematical modeling and simulation to describe living systems, and arguments employed by scientists and others in key ethical controversies in biological science and research (for example, stem cell research). This degree is designed to prepare students for graduate study, professional schools, or direct entry into the workplace. Undergraduates majoring in biological sciences go on to careers in a wide range of fields, including medicine and other health professions, biotechnology, industry, government service, conservation and ecology, and secondary and higher education.

**Major Program Requirements**

Department Level Requirements (p. 156) must be completed in addition to all university requirements (p. 32), including general education (p. 33), and the degree requirements below.

**BS in Biological Sciences**

**Degree Program Description**

Biology is a broad field centered on the study of living organisms and processes. While the degree program requires general education courses in behavioral sciences, social sciences, and the humanities, students can specialize their curriculum through their course selections. The main difference between the BS degree and the BA degree is that the BS degree requires more credit hours in biology, chemistry, physics, and math than the BA degree. The curriculum for the BS degree currently has the option of completing a foreign language sequence or substituting one of three tracks for the foreign language requirement. Some of the knowledge that students acquire includes basic sciences necessary for upper-level biological science coursework (i.e., mathematics, statistics, physics, general and organic chemistry), how biologists use mathematical modeling and simulation to describe living systems, and arguments employed by scientists and others in key ethical controversies in biological science and research (for example,
stem cell research). This degree is designed to prepare students for graduate study, professional schools, or direct entry into the workplace. Undergraduates majoring in biological sciences go on to careers in a wide range of fields, including medicine and other health professions, biotechnology, industry, government service, conservation and ecology, and secondary and higher education.

**Major Program Requirements**

</table>
At least one of the additional courses must include a laboratory. Courses designed for non-biology majors, problems, internships, readings and research (i.e., BIO_SC 2010, BIO_SC 2015, BIO_SC 2030, BIO_SC 2060, BIO_SC 2100, BIO_SC 2150, BIO_SC 2940, BIO_SC 2960, BIO_SC 2965H, BIO_SC 4085, BIO_SC 4950, BIO_SC 4952, BIO_SC 4952H, and BIO_SC 4960) may not be used to fulfill requirements for the minor. MICROB 3200 may not be used to satisfy the laboratory course requirement.

All courses in the minor must have a grade of C- or higher with a cumulative GPA of 2.0 or higher in the minor. (Satisfactory/Unsatisfactory grading is not acceptable for courses in the minor.) At least nine of the 15 credits in the minor must be taken in residence at MU.

MA in Biological Sciences

Areas of Study

The division offers primarily the PhD degree (p. 159).

PhD in Biological Sciences

Admission Contact Information

College of Arts and Science
218 Tucker Hall
Columbia, MO 65211
1-800-553-5698
(573) 882-1847

The Division of Biological Sciences actively recruits outstanding graduate students from both national and international pools. Selected candidates are interviewed. The best are admitted to the division for graduate study. Even more important than the quantitative Grade Point Average and GRE scores, we are interested in evidence of critical qualitative characteristics including: undergraduate research experiences and presentation of research results; ability to face and overcome obstacles; exceptional motivation, work ethic, intellectual vitality, initiative, creativity, critical thinking ability and leadership ability.

Eligibility

All entering graduate students should have a broad background in biology and should have completed courses in mathematics through integral calculus, chemistry through organic chemistry and a year of physics. Exceptions may be made for individual students. Outstanding students with undergraduate degrees in areas other than biology (such as biochemistry, chemistry, physics, engineering, mathematics or psychology) are encouraged to apply with the understanding that subject matter in biology will be addressed in the first year of graduate study.

Admission Criteria

• Fall deadline: December 15
• Minimum TOEFL scores:
  - Internet-based test (iBT) 250
  - Paper-based test (PBT) 608
• Minimum IELTS score: 7

Minimum GRE scores:

- PhD in Chemistry (p. 163)

College of Arts and Science
125 Chemistry Building
(573) 882-8374
http://chemistry.missouri.edu/

Director of Graduate Studies: Kent Gates

The Department of Chemistry offers graduate degrees in all areas of modern chemistry, including analytical, biological, computational, inorganic, organic, physical and radiochemistry.

Resources and Facilities

The department has well-equipped laboratories that contain state-of-the-art instrumentation and computing facilities for research. Major instrumentation includes NMR, X-ray diffraction and mass spectrometry centers, as well as a nuclear/radiochemistry lab. Other campus facilities widely used by the department include a central instrument shop, electronics shop, campus computing center and a 10-megawatt nuclear reactor. The latter provides a high neutron flux for radioisotope production, neutron activation analysis and neutron diffraction studies.

Internal Funding

Fellowships and teaching and research assistantships are available for highly qualified applicants. Application forms are available on the department’s website and should be submitted by February 1.

Graduate Degree Requirements

Students are strongly encouraged to visit the Department of Chemistry site (http://chemistry.missouri.edu) for the most up-to-date information.

Entrance Criteria

An applicant for graduate work in chemistry should have either a Bachelor of Arts or Bachelor of Science degree in chemistry, essentially equivalent to those awarded at MU, with at least a B average or a score at the 70th percentile on the GRE general test.

Examinations

All new graduate students in chemistry are required to take Departmental placement/qualifying examinations in all core areas (analytical, inorganic, organic and physical) prior to registration. Students must qualify in two areas. A student who performs well on an exam, as determined by the department’s Graduate Program Committee, will be considered to have qualified in that area. Students who do not qualify in particular areas, via the placement examinations, must pass appropriate advanced-level courses in those areas to qualify. An A or B grade is required in these courses for qualification.

Research, Advising, and the Committee

Affiliation with research advisor must be made by the end of the first semester through a formal process that is part of CHEM 7087. Student progress in the degree program is evaluated annually in May, using the Graduate Student Progress System through the Graduate School. In addition, the student’s Graduate Program Committee meets with the student and their research advisor after their first summer of research to review degree progress. At this time the student will have submitted a formal Research Progress Report to their committee for consideration. All students are expected to attend Departmental Colloquium and Organic/DyNAMITE seminars.

Department Level Requirements - Chemistry

Requirements - BA or BS students

Students should consult with a chemistry advisor to schedule science and mathematics requirements in the appropriate order. Note that for a number of chemistry courses there is a prerequisite of a grade of C or better in a previous course. Please see the Associate Chair for Undergraduate Studies for assignment of an advisor.

Students also must complete all applicable College of Arts and Sciences and University graduation requirements (p. 133), including University general education (p. 33). Note that students pursuing a BS degree with a major in Chemistry may opt to satisfy the foreign language requirement through alternative coursework consisting of no fewer than 12 credits numbered 2000 or above.

Degree Tracks

Beyond the major core requirements, each student must select a degree track. There is one track for students pursuing a BA degree and three for those pursuing a BS. The BA degree is designed to meet the needs of students who wish to gain a strong chemistry background but who may have goals other than employment as a chemist or graduate work in chemistry. The American Chemical Society certification track is recommended for BS students who desire professional employment as chemists or who plan to pursue graduate education in chemistry. A medicinal chemistry track is available to BS students who plan careers in the health professions or in pharmaceutical, clinical or medicinal chemistry. The third BS track, leading to simultaneous completion of a BS in Chemistry and a BS in Education, is appropriate for those students who wish to teach chemistry in secondary schools. More information about this third degree track is available from the Chemistry Associate Chair for Undergraduate Studies.

Note: "Track" designations do not appear on transcripts or diplomas.
Double Majors

No specific programs (other than the dual degree program with the College of Education noted above) are offered, although it is possible to combine a chemistry major (BS or BA) with a variety of other majors, including biological sciences, mathematics and physics.

Departmental Honors

A BS with Honors in Chemistry is available to honors-eligible BS students who complete CHEM 490H and CHEM 491H as well as all of the requirements for the ACS Certification Track. (These courses replace CHEM 4950). Please see the Chemistry Honors Coordinator, for more specific details about the Honors in Chemistry program.

BA in Chemistry

Degree Program Description

Chemistry is the study of matter and substances in order to understand, explain and predict how substances change. The BA degree is designed for those students who desire a more general education than that provided by the BS degree, but nonetheless are seeking a degree in chemistry. Most chemistry majors continue their education in graduate school or professional school. Many of our graduates are now physicians or have teaching and research careers at universities and colleges. Other graduates are managers in industry and specialists in their fields. This degree also may be appropriate for students in pre-professional programs (pre-medicine, pre-dentistry, pre-pharmacy, and pre-law).

Major Program Requirements

Department Level Requirements (p. 160) must be completed in addition to all university requirements, including general education (p. 33), and the degree requirements below.

* Courses satisfy certain University general education (p. 33) requirements.

BS in Chemistry

Degree Program Description

Chemistry is the study of matter and substances in order to understand, explain and predict how substances change. The BS degree is designed for those students who desire a more focused education in Chemistry and related Sciences than that provided by the BA degree, which is more general. There are three degree tracks for those who are pursuing a BS. The American Chemical Society certification track is recommended for BS students who desire professional employment as chemists or who plan to pursue graduate education in chemistry. A medicinal chemistry track is available to BS students who plan careers in the health professions or in pharmaceutical, clinical or medicinal chemistry. The third BS track, leading to simultaneous completion of a BS in Chemistry and a BS in Education, is appropriate for those students who wish to teach chemistry in secondary schools. Most chemistry majors continue their education in the best graduate schools or professional schools in the country. Many of our graduates are now physicians or have teaching and research careers at universities and colleges. Other graduates are managers in industry and specialists in their fields.

Major Program Requirements

Department Level Requirements (p. 160) must be completed in addition to all university requirements, including general education (p. 33), and the degree requirements below.
Chemistry Major with BS Degree American Chemical Society Certification Track

CHEM 3310  Physical Chemistry I  3  
CHEM 3330  Physical Chemistry II  3  
CHEM 3340  Physical Chemistry Laboratory  3  
CHEM 3700W  Undergraduate Seminar in Chemistry - Writing Intensive  3  
CHEM 4200  Instrumental Methods of Analysis with Lab  3  
CHEM 4400  Inorganic Chemistry  3  
CHEM 4950  Senior Research  3  
BIOCHM 4270  Biochemistry  3  
PHYSCS 2750  University Physics I  5  
PHYSCS 2760  University Physics II  5

Minor in Chemistry

A minor in chemistry is awarded for the completion of:

<table>
<thead>
<tr>
<th>Course</th>
<th>Credit</th>
</tr>
</thead>
<tbody>
<tr>
<td>CHEM 1320 College Chemistry I</td>
<td>4</td>
</tr>
<tr>
<td>CHEM 1330 College Chemistry II</td>
<td>4</td>
</tr>
<tr>
<td>CHEM 2100 Organic Chemistry I</td>
<td>3</td>
</tr>
<tr>
<td>CHEM 2110 Organic Chemistry II</td>
<td>3</td>
</tr>
<tr>
<td>CHEM 2130 Organic Laboratory I</td>
<td>2</td>
</tr>
<tr>
<td>CHEM 3200 Quantitative Methods of Analysis with Lab</td>
<td>4</td>
</tr>
</tbody>
</table>

Total Credits 20

If a student’s major already requires all of these courses, then an additional elective course not included in that major must be included in the chemistry minor. At least 9 hours of this course work must be taken at MU.

On-line application form for the Minor in Chemistry (http://backup.coas.missouri.edu/UGForms/minor.html)

MS in Chemistry

At this time, the Department of Chemistry is not accepting students into the Master of Science program. Please see admission information on our PhD Program (p. 163).

PhD in Chemistry

Admission Contact Information

Jerry Brightwell (gradchem@missouri.edu)
125 Chemistry
Columbia, MO 65211
(573) 884-6832

Admission Criteria

Fall deadline: February 1
Spring deadline: October 15
• Minimum TOEFL scores:
  - Internet-based test (IBT) 100
  - Paper-based test (PBT) 600
• Minimum GRE scores:
  - Verbal 450
  - Quantitative 600
  - Analytical 3.0-4.0

When did you take the GRE?

<table>
<thead>
<tr>
<th>Prior to August 1, 2011</th>
<th>450</th>
<th>600</th>
<th>3.0-4.0</th>
</tr>
</thead>
<tbody>
<tr>
<td>On or After August 1, 2011</td>
<td>150</td>
<td>150</td>
<td>3.0-4.0</td>
</tr>
</tbody>
</table>

Required Application Materials

To the Graduate School:
• All required Graduate School documents

To the Chemistry Program (https://chemistry.missouri.edu):
• Departmental Application (PDF)
• GRE scores
• 3 letters of recommendation
• Transcripts from each college and university you have attended
• Statement of Purpose, which should include a summary of why you are interested in pursuing an advanced chemistry degree, a brief description of your previous research experiences, the specific area of chemistry you are interested in pursuing, and your future career goals and plans in the chemistry field.

Financial Aid from the Program

Some programs require an extra form or statement from those who wish to be considered for internal assistantships, fellowships or other funding packages. Check the program website or ask the program contact for details.

Doctoral Degree Requirements

The following is a brief synopsis of the general degree requirements; please see the Department of Chemistry website for complete details:

1. Students must take at least 5 8000-level courses outside their own research concentration.
2. Students must pass 5 written cumulative exams within a specific time frame.
3. Students must present at least one departmental seminar.
4. Students are required to complete a comprehensive exam, which includes written and oral elements, within a specific time frame.
5. Students must submit and defend a dissertation describing the results of successful and original research in one of the branches of chemistry.

Classics

D. Schenker, Chair
College of Arts and Science
408 Strickland Hall
(573) 882-0679

The Classical Studies Department offers courses in the life, languages, cultures, and thought of the ancient Greeks and Romans.

The department offers a BA degree with a major in Classics and emphasis areas in Classical Humanities, Greek, Latin, and Classical Languages; MA degrees in Classical Languages and PhD degrees in Classical Studies. Minors are also available.
Faculty

**Professor** T. A. Tarkow**, D. Trout**
**Associate Professor** R. F. Foley*, S. Gurd **, R. D. Marks**, A. Mori**, D. J. Schenker**, B. P. Wallach*
**Assistant Professor** M. Farmer*, S. Yona
**Associate Teaching Professor** M. H. Barnes*
**Professor Emeritus** D. M. Hooley**, C. Saylor**

- Graduate Faculty Member - membership is required to teach graduate-level courses, chair master’s thesis committees, and serve on doctoral examination and dissertation committees.
- Doctoral Faculty Member - membership is required to chair doctoral examination or dissertation committees. Graduate faculty membership is a prerequisite for Doctoral faculty membership.

Undergraduate

- BA in Classics (p. 164)
  - with emphasis in Classical Humanities (p. 165)
  - with emphasis in Classical Languages (p. 165)
  - with emphasis in Greek (p. 166)
  - with emphasis in Latin (p. 166)
- Minor in Classics with emphasis in Classical Humanities or Greek or Latin (p. 166)

Major with Honors

The undergraduate program can also include 3-6 credits in an honors thesis course (CL_HUM 4970H or CLASS 4970H). These credits, in addition to major requirements and a 3.5 GPA in all classical studies courses (as well as a 3.3 overall GPA), lead to a BA degree with a major in Classics with Honors.

Double Majors

A double major is a good way of integrating two related areas of interest, such as Classics and Archaeology or English and Philosophy. Students looking forward to a career in medicine or the sciences may use a double major (Classics and Biology or Chemistry, for instance) to ensure a thorough background in the humanities to balance their scientific studies. Usually minor or related field requirements for each major are satisfied by major courses in the other department. Consult with departmental advisors about specifics.

Graduate

- MA in Classical Languages (p. 167)
- PhD in Classical Studies (p. 167)

Graduate Studies
405 Strickland Hall
(573) 882-0679
http://classics.missouri.edu/

**Director of Graduate Studies:** Raymond Marks

The Department of Classical Studies offers graduate work leading to the degrees of Master of Arts and Doctor of Philosophy. The graduate faculty encourages applications from talented and committed students, whose undergraduate careers have given them an appreciation of the rich, many-faceted nature of classical studies and an interest in discovering a place of their own in it. Solid experience in Latin and Greek is of course desirable, but Missouri’s MA program is specifically designed for students whose study in one or both of the languages may have come late and who need help getting up to speed rapidly.

Career Preparation

Graduate programs in classical studies are designed to prepare students for professional careers as teachers and scholars of classical literature and ancient civilization. Besides acquiring expertise in the traditional classical disciplines, students are encouraged to become familiar with other areas, such as later literatures and cultures, on which the classical tradition has exercised a decided effect.

Facilities and Resources

Because MU is a contributing member of the American Academy in Rome and the American School of Classical Studies in Athens, the facilities of those organizations are available to graduate students from Missouri. Study in Athens or Rome is often feasible after the completion of a master’s degree. On campus, students have at their disposal the resources of Ellis Library, which are excellent in the major fields of Greek and Latin languages and literatures, and in ancillary fields. This collection is supplemented by the department’s Walter Miller Collection. The Museum of Art and Archaeology contains many items of interest to classicists.

BA in Classics

Degree Program Description

The Classics major is a broad study of literature, covering a deep knowledge of the elements of language, grammar, and syntax, writing and reading skills, vocabulary building and experience with the foundational texts of the Western literary tradition that have influenced most all of subsequent literary and philosophical thought. The degree has four emphasis areas for students interested in the mythology, literature, history, and culture of ancient Greece and Rome. Three of these emphasis areas — Latin, Greek, and Classical Languages — focus on learning the ancient languages and introduce students to advanced readings in ancient Greek and Latin texts. A fourth emphasis area, Classical Humanities, is available to those students who would like to study the Greek and Latin Classics in translation. In the course of their degree, all classics majors achieve an integrated knowledge of the primary political, social, and military events and developments in the ancient Greek and Roman world. Students completing these majors will be well prepared for a variety of careers and for further study in graduate or other professional schools.

Major Program Requirements

BA major requirements are specified in the four major emphasis areas: Latin, Greek, Classical Languages, and Classical Humanities. These must be met in addition to college and university requirements (p. 133), including University general education (p. 33).

Semester Plan

A sample plan of study has not been designed for this major. Students should contact the academic department for assistance with academic planning.
BA in Classics with Emphasis in Classical Humanities

Degree Program Description

The Classics major is a broad study of literature, covering a deep knowledge of the elements of language, grammar, and syntax, writing and reading skills, vocabulary building and experience with the foundational texts. The emphasis in Classical Humanities consists of a structured sequence of classes, all using texts in English translation, that guides students through a broad introduction to Classical literature and culture (e.g., Classical Mythology, Greek Culture, and Roman Culture) into more specialized study of some of the most important literary works and cultural traditions of the western world. The Classical Humanities emphasis area offers a thorough course of study to any student broadly interested in ancient culture as well as a sound pre-professional education. Students completing the major will be well prepared for a variety of careers and for further study in graduate or other professional schools.

Major Program Requirements

Below are the degree requirements. These must be met in addition to college and university requirements (p. 133), including University general education (p. 33).

BA in Classics with Emphasis in Classical Languages

Degree Program Description

The Classics major is a broad study of literature, covering a deep knowledge of the elements of language, grammar, and syntax, writing and reading skills, vocabulary building and experience with the foundational texts. Students pursuing Classics with an emphasis in Classical Languages will have a combination of Latin and Greek courses. Students master the grammar, syntax, and vocabulary of the Greek and/or Latin languages, for reading and writing; the distinguishing characteristics of the various styles of the poets and prose writers active during various literary periods; and the fundamental structural elements common to all languages. In addition, students learn to read and translate central Greek and Latin texts, and to identify the resources that will help them read other texts. Students completing the major will be well prepared for a variety of careers and for further study in graduate or other professional schools.

Major Program Requirements

Below are the degree requirements. These must be met in addition to college and university requirements (p. 133), including University general education (p. 33).

BA in Classics with Emphasis in Greek

Degree Program Description
The Classics major is a broad study of literature, covering a deep knowledge of the elements of language, grammar, and syntax, writing and reading skills, vocabulary building and experience with the foundational texts. Students pursuing Classics with an emphasis in Greek will have coursework that is Greek centered. Students master the grammar, syntax, and vocabulary of the Greek and/or Latin languages, reading and writing; the distinguishing characteristics of the various styles of the poets and prose writers active during various literary periods; and the fundamental structural elements common to all languages. In addition, students learn to read and translate central Greek and Latin texts, and to identify the resources that will help them read other texts. Students completing the major will be well prepared for a variety of careers and for further study in graduate or other professional schools.

Major Program Requirements
Below are the degree requirements. These must be met in addition to college and university requirements (p. 133), including University general education (p. 33).

GREEK 1100  & GREEK 1200  & GREEK 2000  Elementary Ancient Greek I and Elementary Ancient Greek II and Greek Reading  13
& GREEK 1200  & GREEK 2000  Honors Elementary Ancient Greek I and Honors Greek Reading  16
4000-level course in Greek or Latin  3
CL HUM courses at the 2000-level or higher  9

Semester Plan
A sample plan of study has not been designed for this major. Students should contact the academic department for assistance with academic planning.

BA in Classics with Emphasis in Latin

Degree Program Description
The Classics major is a broad study of literature, covering a deep knowledge of the elements of language, grammar, and syntax, writing and reading skills, vocabulary building and experience with the foundational texts. Students pursuing Classics with an emphasis in Latin will have coursework that is Latin centered. Students master the grammar, syntax, and vocabulary of the Greek and/or Latin languages, reading and writing; the distinguishing characteristics of the various styles of the poets and prose writers active during various literary periods; and the fundamental structural elements common to all languages. In addition, students learn to read and translate central Greek and Latin texts, and to identify the resources that will help them read other texts. Students completing the major will be well prepared for a variety of careers and for further study in graduate or other professional schools.

Major Program Requirements
Below are the degree requirements. These must be met in addition to college and university requirements (p. 133), including University general education (p. 33).

LATIN 1100  & LATIN 1200  & LATIN 2000  Elementary Latin I and Elementary Latin II and Latin Reading  13
or LATIN 1100H  & LATIN 1200H  & LATIN 2000H  Honors Elementary Latin I and Honors Latin Reading - Honors  16
4000-level course in Latin or Greek  3
CL HUM courses at the 2000-level or higher  9

Semester Plan
A sample plan of study has not been designed for this major. Students should contact the academic department for assistance with academic planning.

Minor in Classics

Minor in Classics with Emphasis in Classical Humanities
Minor requires 15 credit hours
1000 through 2000-level  3-6
3000 through 4000-level  9-12
(3 credits in Greek or Latin language at the 4300-level or above may substitute for equivalent credits)
Total Credits  15

Minor in Classics with Emphasis in Greek
Minor requires 15 credit hours.
GREEK 4300  Intermediate Readings  3
One 4350-level or higher Greek course  3
CL_HUM courses at the 2000-level or higher  9
Total Credits  15

Minor in Classics with Emphasis in Latin
Minor requires 15 credit hours.
LATIN 4300  Latin Poetry  3
One 4350-level or higher Latin course  3
MA in Classical Studies

Admission Contact Information
Sean Gurd (gurds@missouri.edu)
405 Strickland Hall, Columbia, MO 65211
(573) 882-0679

Admission Criteria
Fall deadline: April 1
NOTE: Deadline for teaching assistantship applicants: January 15
Spring deadline: November 1
• Minimum GPA: 3.0 during last 2 years
• Bachelor of arts degree from an accredited college or university
• Reading knowledge of Greek and/or Latin
• GPA of at least 3.0 in Greek and/or Latin courses
• Minimum GRE score: no minimum
• Minimum TOEFL scores:
  - Internet-based test (IBT)
    - 61 Effective July 1, 2015 must have score of 80
  - Paper-based test (PBT)
    - 500 Effective July 1, 2015 must have score of 550

Required Application Materials
To the Office of Graduate Studies
• 3 letters of recommendation
• Statement of interest
• 10-20 pp. writing sample
• Transcripts
• GRE scores

Application materials that cannot be submitted directly to the Office of Graduate Studies may be sent to the Classical Studies program.

Financial Aid from the Program
Some programs require an extra form or statement from those who wish to be considered for internal assistantships, fellowships or other funding packages. Check the program website or ask the program contact for details.

Plan of Study
The minimum course of study is 30 semester hours. Of these, at least 12 hours in Greek, Latin, classics and related fields must be at the 8000/9000 level or above, and at least six hours must be in courses in other departments. At least 21 of the 30 hours must be completed in Greek, Latin or classics in the department. CLASS 7000 is required of all students during their first year of graduate study. Students who wish to have a minor may take 10-12 hours in another department or complete an ancient studies minor.

Languages
Some command of German and French (or Italian) is helpful from the outset, and MA candidates are required to have demonstrated proficiency in one of the languages by the time they begin their second year of graduate study. Degree candidates take MA language tests (Latin and/or Greek) in the 2nd or 3rd year of graduate studies.

Written Works and Oral Examination
A final oral examination is given by a faculty committee selected by the student in consultation with the advisor. This examination will include defense of either the thesis or a compiled portfolio of seminar papers. If the former option is elected, the thesis will account for six credit hours.

PhD in Classical Studies

Admission Contact Information
Sean Gurd (gurds@missouri.edu)
405 Strickland Hall, Columbia, MO 65211
(573) 882-0679

Admission Criteria
Fall deadline: April 1, Deadline for teaching assistantship applicants: January 15
Spring deadline: November 1
• MA with a major in Greek, Latin or classics, or the equivalent of a minimum of 21 hours of graduate work in the language(s). Reading knowledge of Greek and Latin and a reading knowledge of German and French (or Italian)
• Minimum GRE score: no minimum
• Minimum TOEFL scores:
  - Internet-based test (IBT)
    - 61
  - Paper-based test (PBT)
    - 500

Required Application Materials
To the Office of Graduate Studies
• 3 letters of recommendation
• Statement of interest
• 10-20 pp. writing sample
• Transcripts
• GRE scores

Application materials that cannot be submitted directly to the Office of Graduate Studies may be sent to the Classical Studies program.

Financial Aid from the Program
Some programs require an extra form or statement from those who wish to be considered for internal assistantships, fellowships or other funding packages. Check the program website or ask the program contact for details.

Language Requirements
Proficiency in one of the modern foreign languages (i.e., French, German, or Italian) must be demonstrated by the time of registration for the second year of graduate study; proficiency in the second language must be demonstrated by the time of registration for the third year.

Plan of Study
A minimum of 72 hours of graduate credit is required for the PhD degree. A maximum of 30 hours of this total may consist of hours transferred.
from the MA degree. At least 21 additional hours must be taken in the department at the graduate level. A minimum of eight hours of dissertation credit is required. At least two courses in related ancient fields, one of which must be in ancient history or classical archaeology, must be taken at the graduate level. Proficiency in Greek and Latin composition must be demonstrated at some point by course work or examination.

Minors and Areas of Concentration

All candidates must include in their plan of study a minor or area of concentration consisting of at least 12 hours at the graduate level outside the department. Suggested areas include ancient history, classical archaeology, the classical tradition, late antiquity, the oral tradition, rhetoric, or romance languages. A structured minor in ancient studies also is available.

Examinations

All candidates are required to complete two four-hour qualifying examinations, one in Greek and one in Latin.

Comprehensive: Written

After completing residency, language, and course requirements, PhD candidates must pass the comprehensive examination consisting of four written examinations in the following fields: Greek literature, Latin literature, special author or topic, and area of concentration or minor field. With the approval of the advisor and the candidate’s committee, extra course work beyond the required 12 hours may be substituted for the written examination in the area of concentration or minor field. Ancient Studies minors are automatically excused from the examination in the minor field.

Comprehensive: Oral

The oral comprehensive examination is taken only after the candidate successfully passes the written examinations.

Dissertation

Within one month of completion of both written and oral comprehensive exams, or at the beginning of the Fall term if the exams are taken in May, the candidate must meet with the doctoral program committee to obtain formal approval of the dissertation topic. Continuous enrollment must be maintained while the candidate completes the dissertation. At least eight hours of dissertation credit are required. A final oral defense of the dissertation is held upon completion of the dissertation.

Communication

The department offers BA, MA and PhD degrees with majors in Communication.

Faculty

Associate Professor D. S. Dougherty**, M. S. McKinney**, R. Meisenbach**
Assistant Professor L. Behm-Morawitz**, M. Click**, C. Colaner**, K. Harris, J. B. Houston**, B. Warner*
Assistant Teaching Professor A. Villamil
Associate Professor Emeritus M. J. Porter, M. J. Smythe
Adjunct Professor D. Dunkin, M. W. Dunn*, R. Karwoski
Professor Emeritus L. Reid

• Graduate Faculty Member - membership is required to teach graduate-level courses, chair master's thesis committees, and serve on doctoral examination and dissertation committees.

• Doctoral Faculty Member - membership is required to chair doctoral examination or dissertation committees. Graduate faculty membership is a prerequisite for Doctoral faculty membership.

Undergraduate

• BA in Communication (p. 169)

Admission

Because of student interest in communication programs, admission is restricted. Students must apply for admission no earlier than the first semester of their sophomore year, or during the semester in which they will complete 45 credits. A copy of the admission procedures and policies is available in the department office or at http://communication.missouri.edu.

The student's grade point average from the MU system as adjusted by the MU grade repeat policy and the grade point averages in completed communication courses at MU are the primary criteria used to determine admission to the program.

Transfer Student Admission

Transfer students are not eligible for admission until they have completed at least one semester in residence (12 credits) and a communication course in residence. Students who are not admitted may reapply for consideration in subsequent terms.

Departmental Honors

To receive departmental honors, a student must earn a minimum overall MU GPA of 3.3 and a minimum GPA of 3.5 in courses in communication completed at the University of Missouri. Students must a research project for a minimum of 3 credits with a faculty member, or a creative project completed for a minimum of 3 credits with a faculty member.

Graduate

• MA in Communication (p. 170)

PhD in Communication (p. 171)

Communication Graduate Programs
College of Arts and Science
108 Switzler Hall
(573) 882-4431
http://communication.missouri.edu/

Director of Graduate Studies: Mitchell McKinney
About the Program

The program takes a theoretical, critical, and experimental approach to the study of communication. The MA program is designed to further enhance the understanding of the communication process by allowing students to study various aspects of communication in greater depth. Graduates are employed in corporate communication, educational and instructional media, sales, research and consulting. The doctoral program is designed for those interested in an academic career of college or university teaching and research. Doctoral students graduate with a strong theoretical background in interpersonal, mass media, organizational, or political communication.

Funding

Graduate students are eligible to apply for fellowships and graduate teaching assistantships. Funding is normally limited to doctoral students.

Degree in Communication

Degree Program Description

Communication students navigate rich environments using communication theories and models, critically evaluate messages and arguments, and effectively advocate their values, beliefs, and opinions using communication principles. Graduates are able to create persuasive messages for a variety of contexts using verbal and nonverbal, written, and mediated communication. The curriculum for the degree covers four main areas: interpersonal, mass media, organizational, and political communication. Students are asked to specialize in one area but are required to explore two additional areas. Interpersonal and family communication focuses on communication processes in family and personal relationships. The mass media area studies theory and research related to media content and use, media effects, and audience reception. Students in this area have the opportunity to gain valuable hands-on experience in digital production. Organizational communication focuses on the various ways in which we produce, enact, and generally conduct our lives in various organizational contexts. Political communication studies the communicative activity of citizens, political figures and campaigns, government institutions, and social movements. Professional internships and two undergraduate organizations are offered and student participation is strongly encouraged. A degree in Communication is not intended to provide specific vocational training, but to prepare students for professional opportunities requiring active communication skills. Recent graduates have found careers in sales, public relations, marketing, advertising, promotions, political consulting, corporate communications, event planning, social media, media production, law, education, and public policy.

Major Program Requirements

The major in communication includes a minimum of 30 hours and a maximum of 40 hours in communication courses. Each course is 3 credits unless otherwise noted. Students must also complete College of Arts and Sciences and University requirements (p. 133), including University general education requirements (p. 33).

Major core requirements
COMMUN 1200 Public Speaking 3
COMMUN 3050 Survey of Communication Studies 3

Total Credits 6

Areas of Focus

In addition to required courses, a student must select one of four areas of focus. Students must complete 12-18 hours in one area of focus including one of the core courses in that area (*). The student must take one course in two of the three other areas of focus. A course may only count once toward meeting these requirements. Students must have at least one 4000+ level course in the major. (Areas of Focus will not appear on transcripts or diplomas.)

Interpersonal Focus:
COMMUN 3422 Communication Research Methods 3
COMMUN 3441 Nonverbal Communication 3
COMMUN 3470 Culture as Communication 3
COMMUN 3525 Conflict and Communication 3
COMMUN 3561 Relational Communication * 3
COMMUN 3571 Group Decision Making Processes 3
COMMUN 4412 Gender, Language, and Communication 3
COMMUN 4415 Language and Discourse 3
COMMUN 4440 Ethical Issues in Communication 3
COMMUN 4520 Family Communication 3
COMMUN 4530 Health Communication 3
COMMUN 4474 Theory and Research in Persuasion 3

Organizational Communication Focus:
COMMUN 3422 Communication Research Methods 3
COMMUN 3460 Organizational Advocacy 3
COMMUN 3470 Culture as Communication 3
COMMUN 3525 Conflict and Communication 3
COMMUN 3571 Group Decision Making Processes 3
COMMUN 3575 Business and Professional Communication 3
COMMUN 3580 Crisis Communication 3
COMMUN 4412 Gender, Language, and Communication 3
COMMUN 4440 Ethical Issues in Communication 3
COMMUN 4474 Theory and Research in Persuasion 3
COMMUN 4476 Organizational Communication * 3

Mass Media Focus:
COMMUN 2100 Media Communication in Society * 3
COMMUN 3310 Message Design and Writing for the Media 3
COMMUN 3390 Digital Production I 3
COMMUN 3395 Digital Production II 3
COMMUN 3422 Communication Research Methods 3
COMMUN 3490 Mass Media Theory 3
COMMUN 3636 Contemporary Issues in Mass Communication 3
COMMUN 4473 Political Communication * 3
COMMUN 4474 Theory and Research in Persuasion 3
COMMUN 4618 Television Program Analysis and Criticism 3
COMMUN 4628 Children, Adolescents and the Media 3
COMMUN 4658 New Technologies and Communication 3

Political Communication:
COMMUN 3422 Communication Research Methods 3
COMMUN 3470 Culture as Communication 3
COMMUN 3572 Argument and Advocacy 3
COMMUN 3575 Business and Professional Communication 3
COMMUN 3580 Crisis Communication 3
COMMUN 4412 Gender, Language, and Communication 3
COMMUN 4440 Ethical Issues in Communication 3
Semester Plan

### Total Credits: 120-126

** One Communication course must be COMMUN 3050, writing intensive.

*** May not exceed 40 hours in the major.

### MA in Communication

#### Admission Contact Information

Martha Crump (crumpm@missouri.edu)
108 Switzler Hall; Columbia, MO 65211
(573) 882-4432

#### Admission Criteria

Fall deadline: January 15

- Minimum GPA: 3.0
- Minimum TOEFL scores:

  - Internet-based test (iBT): 61 Effective July 1, 2015 must have a score of 80
  - Paper-based test (PBT): 600

- Minimum GRE scores:

  - Prior to August 1, 2011: Verbal 500, Quantitative 500, Analytical 4.0
  - On or After August 1, 2011: Verbal 153, Quantitative 144, Analytical 4.0

Students who do not have an undergraduate degree in communication may be required to take course work beyond the required 30 hours to provide necessary background.

#### Required Application Materials

To the Office of Graduate Studies:

- All required Graduate Admissions documents

To the Communication Program (http://communication.missouri.edu/?q=grad/admissions)
• Departmental application
• 3 letters of recommendation
• Example of scholarly writing (no more than 25 pages)
• Transcripts
• Statement of purpose (no more than 500 words) explaining the student’s intended field of study, professional goals and other reasons for wishing to enter the graduate program
• GRE scores
• Résumé

Financial Aid from the Program
Some programs require an extra form or statement from those who wish to be considered for internal assistantships, fellowships or other funding packages. Check the program website or ask the program contact for details.

Plan of Study
Not more than 6 semester hours of the required 30 hours of credit may be transferred from another university or campus of the University of Missouri System. There is no language requirement. For the assignment of advisors, students should see the director of graduate studies.

Thesis and Non-thesis Options
The master of arts degree may be completed under either a thesis option, approved by an advisory committee, or a non-thesis option (with a comprehensive examination and project). Both plans require a minimum of 30 hours of graduate credit, including at least 15 hours of course work at the 8000/9000 level. MA candidates may take up to 6 hours of credit for their MA project for the non-thesis option. MA candidates take a minimum of 6 hours in 9090 Thesis Research for the thesis option.

Credit Hours for Production
No more than 9 hours of course work or independent study in television production or scriptwriting will be accepted for the MA degree. Students may opt to take more production hours but they may not be included in the candidate’s plan of study.

Length of Study
The MA must be completed in 8 years.

PhD in Communication

Admission Contact Information
Martha Crump (crumpm@missouri.edu)
108 Switzler Hall; Columbia, MO 65211
(573) 882-4432

</tr>
</tbody>
</table>

Admission procedures for students who have completed the MA degree elsewhere and wish to become PhD candidates are identical to the departmental requirements outlined for MA candidates. Only those applicants who show evidence of a clear likelihood of successful doctoral work are admitted.

Required Application Materials
To the Graduate School
All required Graduate School documents
To the Communication Program
• GRE scores
• Departmental Application
• 3 letters of recommendation
• Example of scholarly writing (no more than 25 pages)
• Transcripts
• Statement of Interest
• Résumé

Financial Aid from the Program
Some programs require an extra form or statement from those who wish to be considered for internal assistantships, fellowships or other funding packages. Check the program website or ask the program contact for details.

Plan of Study
Before registering for courses, the student must confer with their temporary advisor until a permanent advisor is assigned.

Committee and Qualifying Requirements
A doctoral program committee approves the student’s course of study and determines if the student has passed the qualifying requirements during the spring semester of the first year. Only after passing the qualifying requirements will the student be admitted to candidacy for the PhD degree in communication.

For a student whose MA program was done at MU, the six-hour comprehensive examination or the MA thesis defense constitutes the qualifying process. The student may proceed beyond the MA degree only upon the recommendation of the MA examining committee.

Courses
The PhD candidate must take at least 48 hours of course work beyond the MA. Students with an MA degree in another discipline may be required by their doctoral program committee to complete additional course work. Course work will include 36 hours within the department. The following courses are required:

Undergraduate

• BA in Digital Storytelling (p. 172)

Graduate
There currently is not a degree in Digital Storytelling offered at the graduate level.

BA in Digital Storytelling

Degree Program Description
Combining the ancient practices of narrative with new and emerging tools of multimedia environments, Digital Storytelling emphasizes skills in writing, digital media production, and design. Like other forms of storytelling, digital storytelling reaches audiences for artistic, educational, and commercial purposes, translating human knowledge and experience into multimedia spaces. Training in the field requires literacy in narrative, new media, and networked communication, as well as all elements of digital production (including audio, video and animation). A degree in Digital Storytelling prepares graduates to create multimedia narratives using a wide range of computer-based images, text, and audio and video technologies. Coursework in the major is interdisciplinary and draws on the disciplines of Art, Communication, English, Film Studies, Journalism, and many more. Coursework will provide ample opportunities for students to develop the collaborative skills they will need in professional settings, and will also offer experiential learning opportunities both on campus and through internships in the marketplace. A degree in Digital Storytelling prepares students for careers in business, marketing, public relations, film, multimedia art, and web development.

Comprehensive Examination

The comprehensive examination, including a 30-page literature review, a 15-hour written exam and an oral defense, will cover all areas of studies in the field. During the semester students take comprehensive exams they enroll in.

Dissertation
The doctoral dissertation is written under the direction of the candidate's advisor. The dissertation and the final oral examination on the dissertation complete the requirements for the PhD in communication. Students take a minimum of six hours of.

Length of Study
Course work and comprehensive exams for the PhD must be completed in five years. The dissertation must be completed within five years of completing comprehensive examinations. Satisfactory rate of progress means making adequate progress to meet these time requirements. Students working at a typical pace should be able to complete the doctorate in 4 years beyond their master’s.

Digital Storytelling

Combining the ancient practices of narrative with new and emerging tools of multimedia environments, Digital Storytelling emphasizes skills in writing, visual communication and design, and production. Like other forms of storytelling, digital storytelling reaches audiences for artistic, educational, and commercial purposes, translating human knowledge and experience into multimedia spaces. In an age of big data and rapidly changing communication environments, translational skills to connect audiences with interdisciplinary knowledge and expressive arts—from public health to climate science to campaigns to video games—are in high demand across business, government, nonprofit and research sectors. Training in the field requires literacy in narrative, multimedia and networked communication, as well as all elements of digital production, including writing, audio and visual production, and design.

Faculty
Faculty for Digital Storytelling teach across multiple disciplines. A complete listing of faculty can be found here (p. 2335).

The Department of Economics takes a global view of economics, with an emphasis on applied problems. An economics major prepares students for careers in business and government and for graduate work in areas such as economics, business and law. A basic understanding of economics develops insight into the many issues facing contemporary society, such as corporate downsizing, environmental pollution, urban decay, poverty, international trade, health care, educational reform, politics and sports deals.

In addition to the BA and the BS degree in the College of Arts and Science, the Department of Economics offers an emphasis area within the Bachelor of Science in Business Administration (BSBA) degree in the Trulaske College of Business. The department also offers MA and PhD degrees in Economics as well as a minor.

Director of Graduate Studies: Xinghe Wang

About the Program

The Department of Economics offers graduate work leading to the master of arts and the doctor of philosophy degrees. The program prepares students for careers in government and private enterprises, colleges, universities and research institutions through training in the techniques and applications of economic analysis, interpretation of data and the formulation and appraisal of public policy. Admission may be granted at any time to qualified students.

Degrees Offered

• MA and PhD in Economics
• Cooperative Dual Degrees: MS in Applied Mathematics and MA in Economics, MA in Economics and MA in Statistics, MA in Economics and JD in law

Specializations

The department offers fields of specialization in monetary economics, international economics, econometrics, public economics, industrial organization, labor economics, and quantitative microeconomic policy analysis.

Dual Degrees

The Departments of Mathematics and Economics offer selected students the option of obtaining dual degrees: an MS degree in Applied Mathematics and an MA degree in Economics. The Departments of Economics and Statistics offer selected students the option of obtaining dual degrees: an MA degree in Statistics and an MA degree in Economics within an integrated program. Whereas obtaining separate master’s degrees would nominally require a minimum of 60 credit hours of course work, students enrolled in the dual master’s degree program may obtain degrees based on 48 credit hours of course work. Students may be able to complete degree requirements within 2½ years.

Financial Support

Student financial support is available to graduate students as teaching and research assistantships, allocated based on promise and performance in the program. In addition, direct fellowship support may
also be available to selected candidates. Tuition is waived for students who receive assistantship or fellowship support. February 1 is the deadline for applications for assistantships for the school year beginning in August, but earlier submissions are desirable. Late applications will be accepted subject to the availability of openings and funds.

**BA in Economics**

**Degree Program Description**

Economics is a broad discipline that explores the factors that determine production, distribution, and consumption of resources. An Economics degree provides a good foundation on how the economy and the world works and an understanding of the effects of policy issues. The BA degree is designed for students who plan to continue their education in non-economics fields and for students who plan to seek employment after graduation. Post-graduate educational alternatives include law school or programs in the business school, political science and journalism. Graduates in Economics enter a diverse field of jobs in government, banking, insurance or other financial sectors, private sector businesses or even open their own businesses. Frequently, students in humanities or fine arts complete a BA in Economics as a second major in order to increase their employment potential.

**Major Program Requirements**

In addition to the major core requirements, students must complete college and University graduation requirements (p. 32) including University general education requirements (p. 33).

**Options**

Students majoring in economics may earn either a BS or a BA degree. The last 21 credit hours in Economics must be completed in residence. Depending upon which degree is sought; students must choose one of the options below:

**BA with a major in Economics**

The BA degree is designed for students who plan to continue their education in non-economics fields and for students who plan to seek employment after graduation. Post-graduate educational alternatives include law school or programs in the business school, political science and journalism. Post-graduate employment opportunities include positions in state government, banking, insurance or other financial sectors, and private sector businesses. Frequently, students in humanities or fine arts complete a BA in Economics as a second major in order to increase their employment potential.

**Major Core Requirements for BA Economics**

(for dual majors with a concentration in Journalism. Students completing ECONOM 1000 are required to complete an additional 4000-level Economics elective.

**General Principles**

ECONOM 4385 Problems in Economics 1-3
ECONOM 4775 Dynamic Optimization and its Applications to the Natural Sciences and Economics 1-3
ECONOM 4965 Independent Study in Economics 1-3

NOTE:
Any two of ECONOM 3224, ECONOM 4325 and ECONOM 4326 may be taken for credit. But if all three are taken, ECONOM 3224 will not count towards an economics degree.

No more than 3 total credit hours of ECONOM 4385 and ECONOM 4965 will count as elective credits toward an economics degree, unless approved by the Director of Undergraduate Studies.

ECONOM 3004 and ECONOM 4004 may be approved by the Director of Undergraduate Studies to count as elective credits toward an economics degree or minor.

### BS in Economics

#### Degree Program Description

Economics is a broad discipline that explores the factors that determine production, distribution, and consumption of resources. An Economics degree provides a good foundation on how the economy and the world works and an understanding of the effects of policy issues. The BS degree in Economics is a challenging degree program specifically designed for students who plan to attend graduate school in Economics, Finance, or related fields. The curriculum includes more quantitative coursework than the BA degree, but still allows students to take electives that focus on various aspects of economics, such as labor, law, and education. Graduates in Economics enter a diverse field of jobs in government, banking, insurance or other financial sectors, private sector businesses or even open their own businesses. Often students pursuing a BS degree double major with Mathematics or Statistics and look at employment positions in actuarial science or more analytical fields.

#### Major Program Requirements

In addition to the major core requirements, students must complete college and University graduation requirements (p. 32) including University general education requirements (p. 33).

#### BS with a Major in Economics

The BS degree is for students who plan to attend graduate school in economics or finance.

---

**Major Core Requirements for BS Economics**

(must earn a grade of C or above; grades of C- or below will not be accepted)

**General Principles**

ECONOM 1014 Principles of Microeconomics 5-6
ECONOM 1015 and Principles of Macroeconomics
or ECONOM 1000 General Economics
or ECONOM 1051H General Economics - Honors

**ECONOM 1000 is only acceptable for dual majors with Journalism. Students completing ECONOM 1000 are required to complete an additional 4000-level Economics elective.**

- ECONOM 3224 Introduction to International Economics 3
- ECONOM 3229 Money, Banking and Financial Markets 3
- ECONOM 4311 Labor Economics 3
- ECONOM 4315 Public Economics 3
- ECONOM 4320 History of Economic Thought 3
- ECONOM 4325 The International Monetary System 3
- ECONOM 4326 Economics of International Trade 3
- ECONOM 4329 The Banking System and the Money Market 3
- ECONOM 4340 Introduction to Game Theory 3
- ECONOM 4345 Economics of Education 3
- ECONOM 4355 Industrial Organization and Competitive Strategy 3
- ECONOM 4357 Health Economics 3

**Mathematics and Statistics (C- grades will be accepted)**

- MATH 1500 Analytic Geometry and Calculus I 5
- MATH 1700 Calculus I 5
- MATH 2300 Calculus III 3
- MATH 4140 Matrix Theory 3
- STAT 4750 Introduction to Probability Theory 6
- & STAT 4760 and Statistical Inference
- or STAT 4771 Introduction to Mathematical Statistics 3
- & STAT 4510 and Applied Statistical Models I 3
- MATH 3000 Introduction to Advanced Mathematics 3
- or MATH 4100 Differential Equations 3
- or STAT 4000+ (course approved by Dept. of Economics)

**Foreign Language Alternative (for BS degree)**

The student may elect to fulfill a special option area instead of taking a foreign language. This area consists of at least 12 credits numbered 2000 or above that are not from the parent department, are not normally required of all departmental majors and do not appear elsewhere in the area of concentration. The foreign language alternative is planned by the student with the Economics Academic Advisor and must be approved by the Director of Undergraduate Studies.

**Electives**

At least four (for the BA) or three (for the BS) of the following, with not more than one at the 3000 level, selected with the advisor and completed with a grade of C or above; grades of C- or below will not be accepted:

- ECONOM 3224 Introduction to International Economics 3
- ECONOM 3229 Money, Banking and Financial Markets 3
- ECONOM 4311 Labor Economics 3
- ECONOM 4315 Public Economics 3
- ECONOM 4320 History of Economic Thought 3
- ECONOM 4325 The International Monetary System 3
- ECONOM 4326 Economics of International Trade 3
- ECONOM 4329 The Banking System and the Money Market 3
- ECONOM 4340 Introduction to Game Theory 3
- ECONOM 4345 Economics of Education 3
- ECONOM 4355 Industrial Organization and Competitive Strategy 3
- ECONOM 4357 Health Economics 3

### Minor in Economics

Students wishing to minor in economics must take a minimum of 18 credits in economics and the last 12 credit hours in residence. Courses must include ECONOM 1014 and ECONOM 1015 (or ECONOM 1000 or ECONOM 1051H instead of the previous two courses*) and ECONOM 3251 or ECONOM 4351 plus three economics electives, including at least one at the 4000 level. All required courses must be completed with a grade of C or above; grades of C- or below will not be accepted. Students who take both ECONOM 3251 and ECONOM 4351 will receive credit for only one of these courses.

Students pursuing the Bachelor of Science in Business Administration with an emphasis in Economics are not eligible to earn the Economics minor.

- A minor may be earned with 17 credits in economics by students who take ECONOM 1051H rather than ECONOM 1014 (ECONOM 1024) and ECONOM 1015; students who complete ECONOM 1000 must complete at least 18 hours in economics to earn the minor.

### MA in Economics

#### Degree Requirements

To fulfill requirements for the MA degree, a candidate must complete a 30-hour approved program of study. This includes 21 credit hours of core courses:

- ECONOM 7370 Quantitative Economics 3
- ECONOM 7371 Introductory Econometrics 3
- ECONOM 8451 Microeconomic Theory 3
- ECONOM 8453 Macroeconomic Theory 3
- ECONOM 8473 Applied Econometrics 3
- ECONOM 8413 Research Workshop I 3

* ECONOM 9451 may be substituted for ECONOM 8451, ECONOM 9453 may be substituted for ECONOM 8453, ECONOM 9473 may be substituted for ECONOM 8473, and enrollment in 9000-level courses may require consent of the department and/or the instructor.

#### PhD Track

Students can also earn an MA while working toward a PhD by passing the comprehensive examination.

#### Admissions

Applicants are required to meet two sets of minimum qualifications for admission: the requirements of the MA in the Economics program (http://gradstudies.missouri.edu/academics/programs/economics/master-of-arts-in-economics.php) and the minimum requirements of the Office of Graduate Studies (http://gradstudies.missouri.edu/admissions/eligibility-
process/minimum-requirements.php). Because requirements vary, you must refer to a degree program’s graduate admission page to learn about specific admission criteria, application deadlines, eligibility and application process. Before official admissions to the University of Missouri, your application materials will be reviewed by both the Office of Graduate Studies and the degree program to which you’ve applied.

Admission Contact Information
Lynne Riddell riddell@missouri.edu
118 Professional Bldg.
Columbia, MO 65211
(573) 884-7989

Admission Criteria
Fall deadline: Open
Spring deadline: Open

Bachelor’s degree in any field
Minimum GRE scores: Quantitative = 155
Minimum TOEFL scores:

<table>
<thead>
<tr>
<th>Test Type</th>
<th>Minimum Score</th>
</tr>

</table>

Minimum Academic IELTS scores:

<table>
<thead>
<tr>
<th>Item</th>
<th>Score</th>
</tr>
</thead>
<tbody>
<tr>
<td>Overall score</td>
<td>6.5</td>
</tr>
</tbody>
</table>

Students with a bachelor’s degree in any field may apply for admission into the master’s program. Applicants are admitted on the basis of an undergraduate record, with particular emphasis on performance in economics, mathematics, and statistics courses, performance on the GRE, and letters of recommendation. Although the graduate program assumes mathematical background through calculus, as well as undergraduate economics training, applicants with more limited backgrounds may be accepted into the program. Such individuals will be assigned supporting course work, some or all of which may be counted toward fulfilling requirements.

Required Application Materials
To be uploaded to the MU Online Graduate Application for Admission:
• Your transcript from every college or university you have attended
• Your résumé
• Your personal statement
• Two letters of recommendation
• A copy of your official TOEFL or IELTS score. Your official TOEFL or IELTS scores (sent directly from the Educational Testing Service) must be submitted directly to the Graduate Admission Office (210 Jesse Hall, Columbia, MO 65211) * International Applicants only.

To the Economics Program:
• Your official GRE scores (sent directly from the Educational Testing Service)

MA in Economics with Emphasis in Econometrics and Quantitative Economics

All MA students in Economics with good academic standing may apply to add the emphasis in Econometrics and Quantitative Economics to their program. The emphasis area requires 9 credit hours. Students may satisfy the requirements for the MA and the emphasis area at the same time.

Required Courses: (must have 3.0 GPA average)

<table>
<thead>

Total Credits 9

PhD in Economics

Degree Requirements

The PhD program is designed to encompass training in economic theory and quantitative methods, as well as flexibility for students in choosing course work to suit their interests and intended careers.

For those entering the program with a bachelor’s degree, the following courses are required:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>ECONOM 8370</td>

</tbody>
</table>

Two 9000-level economics courses in one area of specialization 6
Four other 9000-level economics courses (excluding ECONOM 9090 and ECONOM 9480) 12
15 credit hours of ECONOM 9085, ECONOM 9480 or other electives 15
Dissertation research 12

Total Credits 72

Courses taken to satisfy these requirements (except dissertation research) may be taken while earning an MA at MU, or, as with students entering the program with prior graduate coursework, at other accredited colleges and universities as recommended by the Graduate Studies Committee.

Qualifying Process

Students pursuing the PhD degree must pass a qualifying examination. Upon completion of relevant required courses in the first year, students take the qualifying examination, which covers microeconomics, macroeconomics and econometrics. The exam is 6 hours in length; it is administered in parts with two-hours devoted to each of the three core subjects. The first offering of the exam is in late May. Students who fail to pass all three parts of the exam the first time may retake the failed part(s) the following July/August. Students who fail the exam may continue in the MA program.
Comprehensive Examination Process

Students pursuing the PhD degree must pass a comprehensive examination. The comprehensive exam has a written section and an oral section, both administered by the student's dissertation committee. The oral section of the comprehensive exam is part of the dissertation proposal defense.

Dissertation Requirements

The dissertation must make a substantial contribution to knowledge. Upon completion of the dissertation, students pursuing the Ph.D. degree must pass a final oral examination. This exam can include an evaluation of the dissertation, the student's defense of the dissertation, and the student's general comprehension of economics, and is open to the academic community.

Admissions

Admission Contact Information
Lynne Riddell riddell@missouri.edu
118 Professional Bldg.
Columbia, MO 65211
(573) 884-7989

Admission Criteria

Fall deadline: February 1

The minimum requirements for admission into the PhD program are
Undergraduate GPA 3.0
Minimum GRE scores: Quantitative = 155
Minimum TOEFL scores:

<table>
<thead>
<tr>
<th>Test</th>
<th>Score</th>
</tr>
</thead>
<tbody>
<tr>
<td>Internet-based test (IBT)</td>

Minimum Academic IELTS scores:

<table>
<thead>
<tr>
<th>Item</th>
<th>Score</th>
</tr>
</thead>
<tbody>
<tr>
<td>Overall Score</td>
<td>6.5</td>
</tr>
</tbody>
</table>

Ordinarily, to be accepted for advisement in the PhD program, a student must have a master's degree in economics, or, alternatively, the student must meet the requirements for admission to the MA program, together with the requirement of an adequate background in economics, mathematics and statistics.

Required Application Materials

The following items are required to be uploaded to the MU online Graduate Application for Admission:

- Your transcript from every college or university you have attended
- Your résumé
- Your personal statement
- Three letters of recommendation
- A copy of your official TOEFL or IELTS score. Your official TOEFL or IELTS scores (sent directly from the Educational Testing Service) must be submitted directly to the Graduate Admission Office (210 Jesse Hall, Columbia, MO 65211) * International applicants only

To the Economics Program (https://economics.missouri.edu):

- Your official GRE scores (sent directly from the Educational Testing Service)

Specialization

Fields

Students are required to complete one area of specialization consisting of two courses and a field paper. It is expected that this area will be related to the objectives of the student’s dissertation. The instructors of the field courses will provide written guidance about field papers and oversee the content of the research paper, and the instructor of the PhD research workshop (ECONOM 9413) oversees the mechanics of the paper. Field requirement is satisfied after both courses have been passed and the instructor(s) of both field courses as well as ECONOM 9413 approve the field paper. The areas of specialization from which the student can choose are listed below. The department commits itself to offering a second course in any field to all students who have completed an initial course in the field, within two semesters of the student completing the initial course (not counting the summer semester). This course may consist of a readings course with one of the faculty members in the field in lieu of a regular course. If a readings course is provided, then the faculty member is required to provide the department with the reading list for the course.

Statement on Satisfactory Progress
1. Taking and completing required course work on schedule and maintaining a GPA of at least 3.0.
2. Enrollment in a full-time program of study, i.e., completion of at least 9 credit hours per semester.
3. Taking and passing qualifying and comprehensive examinations on schedule.
4. Completing the field requirement on schedule.

PhD in Economics with Emphasis in Econometrics and Quantitative Economics

All PhD students in Economics with good academic standing may apply to add the emphasis in Econometrics and Quantitative Economics to their program. The emphasis area requires 12 credit hours. Students may satisfy the requirements for the PhD and the emphasis area at the same time.

Required Courses: (must have 3.0 GPA average)

English

Alexandra Socarides, Chair
Steve Karian, Associate Chair
College of Arts and Science
114 Tate Hall
(573) 882-6421

The English Department provides a major that not only grants a broad introduction to a range of literary and cultural study and creative activities, but also allows students to work more intensely in particular subfields of the discipline, including literary history, critical theory, film and cultural studies, linguistics, and creative writing. A major in English develops skills in reading, critical thinking, and writing. A degree in English is not intended to provide specific vocational training but rather to give a broad education that can lead to many different careers, especially those requiring excellent communication skills and analytical thinking.

Recent graduates have gone on to careers in teaching, publishing, television, film, advertising, public relations, insurance, and government. In addition, English is excellent preparation for graduate or professional schools such as law and business.

The department offers BA, MA, and PhD degrees with majors in English. Two minors are also available, the English minor and the English writing minor.

Faculty

Assistant Professor R. Grollemund, L. Manion**, J. Sukys**
Associate Professor Emeritus H. Hinkel*, D. G. Hunt*, M. Patton*, G. Swan
Curators’ Professor Emeritus E. Lawless*

Undergraduate

• BA in English (p. 181)
• Minor in English (p. 182)
• Minor in English Writing (p. 182)

Director of Undergraduate Studies: Samuel Cohen

Departmental Honors

To graduate with honors in English, students must have a cumulative GPA of 3.3 and a GPA of 3.5 in English courses and successfully complete ENGLSH 4996 and ENGLSH 4995. Students wishing to enroll in these courses must complete an application process in January of their junior year. More information is available from the Director of Undergraduate Studies or the department’s Academic Advisor.

Director of Graduate Studies for Advising and Admissions: Emma Lipton

About the Program

With more than one hundred M.A. and Ph.D students and about 500 undergraduates, we are one of the largest and most diverse departments on the Columbia campus. We offer a wide range of courses in British and American literature and creative writing, as well as special emphases in African Diaspora Studies, Critical Theory, English Language and Linguistics, and Rhetoric and Composition.

Subject Areas

Lecture courses, seminars and directed research are available in British and American language and literature, creative writing, critical theory, rhetoric and composition, language and linguistics, and African diaspora studies.
Funding

Students admitted to the graduate program usually receive a fellowship or teaching assistantship. Outstanding applicants will also be eligible to compete for a variety of college and university fellowships. The deadline for applications to both the MA and PhD programs is January 1. Announcements of awards are made by early April.

Publications Experience

Students will also have the opportunity to assist faculty in editing The Missouri Review, a nationally recognized journal of fiction, poetry and essays, and Oral Tradition, the only journal involved in the comparative study of oral traditions.

BA in English

Degree Program Description

English majors are asked to think in terms of both the breadth and depth of their knowledge, studying a wide variety of topics, periods and methods; developing skills in reading, critical thinking, and writing; and delving deeply into a particular area of interest. Students study literature from around the world and from all historical periods, learn about the theory and practice of writing through the study of rhetoric and composition, and acquire skills as writers of fiction, poetry, and nonfiction. The BA in English requires the following types of courses: period studies and surveys, author studies, genre/thematic studies, and theory/method studies. Students must also take several courses in an area of specialization such as Medieval Literature; Renaissance/Early Modern Literature; 18th and 19th Century Literature; 20th and 21st Century Literature; African Diaspora Studies; Post-Colonial Literature; Literary, Critical or Rhetorical Theory; Creative Writing; Composition; English Language and Linguistics; Folklore Studies; Film and Digital Studies; or Gender and Sexuality Studies. A degree in English is intended to provide a broad, open-ended education that can lead to many different careers, especially those requiring excellent communication skills and analytical thinking. Recent graduates have gone on to careers in teaching, publishing, television, film, advertising, public relations, insurance, government, public service, management, and law.

Major Program Requirements

English majors must complete a minimum of 30 credit hours in English. At least 24 credit hours in the major must be at the 3000-level or above. At least 9 hours of internship or independent research will count towards the major's 4000-level requirement or towards the 24 hours at the 3000-level or above.

Major Core Requirements

Introduction

ENGLSH 2100 Writing About Literature

Body of Major

- At least 30 credit hours in English (including 3 hours of ENGLSH 2100) satisfying requirements listed below.
- Courses may count for 1, 2, or 3 of the three requirements for Breadth of Study, Historical Coverage and Depth of Study.
- At least one course must meet the Diversity Requirement.
- At least 24 hours must be at the 3000-level or above. At least 9 hours must be at the 4000-level.

Breadth of Study

Students take at least 1 course from each of the following areas (3000-level and above).

a. Period Studies and Surveys

Courses in this area examine texts in their historical context, and consider how historical events and developments shape culture and texts.

b. Author Studies

Courses in this area focus on an individual or several authors or artists.

c. Genre Studies; Thematic Studies

Genre Studies introduces students to a textual kind (e.g. the novel, poetry, drama, the essay, etc.), its conventions, and its history. Thematic Studies explores a shared theme among works that may or may not belong to the same period.

d. Theory and Methods

Courses in this category give primary attention to the frame of inquiry and/or the method by which knowledge-making takes place.

Historical Coverage

Students take 3 courses that focus on literature written prior to 1890. One or these must focus on literature written prior to 1603.

Depth of Study

Students must take 3 courses in a single area of specialization listed below.

a. Medieval Literature

b. Renaissance/Early Modern Literature

c. 18th and 19th Century Literature

d. 20th and 21st Century Literature
e. African Diaspora Studies  
f. Postcolonial & Global Literatures  
g. Literary, Critical, or Rhetorical Theory  
h. Creative Writing  
i. Composition & Studies in Writing  
j. English Language and Linguistics  
k. Folklore Studies  
l. Film & Digital Studies  
m. Gender and Sexuality Studies  
n. Other (subject to English Department Advisor approval)

**Diversity Requirement**

Enrollment majors must take one 3-hour course that focuses on issues such as race, ethnicity, gender, or sexuality. Each semester a list of approved courses will be made available to students.

**Culmination**

**ENGLSH 4970 Capstone Experience** (or ENGLSH 4996 Honors Seminar in English if choosing the honors sequence)

**Semester Plan**

Below is a sample plan of study, semester by semester. A student's actual plan may vary based on course choices where options are available.

Total: 15 Hours

**Total Credits: 121**

* Course concurrently meets University General Education, Arts and Science Foundation and/or campus graduation requirements.

^ Course meets degree requirements or major requirements.

**Depth Areas are courses that are 2000 level or above chosen from four areas: the sciences, social sciences, behavioral sciences, or humanities and fine arts. Arts and Science students are required to complete 9 hours in at least 2 of the four areas.**

**Minor in English**

The English minor consists of 15 credit hours of coursework beyond ENGLSH 1000 (or its equivalent). It must include at least 6 credit hours in courses numbered 3000 or above and must include at least 3 credit hours at the 4000 level. It may include no more than 3 credit hours from amongst ENGLSH 4940, ENGLSH 4950, ENGLSH 4955, and ENGLSH 4960. A grade of C- or above must be earned in all minor course work and a minimum GPA of 2.0 achieved in the minor. A minimum of 9 credit hours must be completed in MU coursework.

**Minor in English Writing**

The English Writing minor consists of 15 credit hours of coursework beyond ENGLSH 1000 (or its equivalent), and is designed to help students in all majors and colleges improve their writing and critical thinking skills. Students must take at least 3 credit hours of a composition course (ENGLSH 2010, ENGLSH 2030, ENGLSH 3010); at least 6 credit hours of a nonfiction creative writing course (ENGLSH 1520, ENGLSH 2520, ENGLSH 4520) or ENGLSH 4040; and at least 3 credit hours of any English Writing Intensive course beyond those WI courses required for graduation. The remaining 3 credit hours can be taken in any of the above 3 categories (composition, nonfiction creative writing or ENGLSH 4040, and English WI) and can include any creative writing course. A grade of C- or above must be earned in all minor course work and a minimum GPA of 2.0 achieved in the minor. A minimum of 9 credit hours must be completed in MU coursework.

<table>
<thead>
<tr>
<th>Internet-based test (iBT)</th>
<th>Paper-based test (PBT)</th>
</tr>
</thead>
<tbody>
<tr>
<td>80</td>
<td>550</td>
</tr>
</tbody>
</table>

- Minimum GRE score: not set
- Minimum GPA: 3.0 overall, higher in courses in major
- Majored in English as an undergraduate, with at least 18 hours in upper division courses in literature or linguistics. Students with other undergraduate majors may be admitted provided their background in English studies is suitable and provided they complete an appropriate course of preliminary study. Promising students who do not meet one or more of these criteria may at the discretion of the director of graduate studies be encouraged to enroll as non-degree graduate students.

Required Application Materials

To the Office of Graduate Studies:

- All required documents

To the English Program (https://english.missouri.edu/grad/admissions):

- English Department application form
- GRE scores: The general test is required. Students are also welcome to submit subject test scores, and strongly encouraged to do so if their previous work is in a field other than English.
- 3 letters of recommendation (use departmental form)
- Official transcripts
- Statement of purpose
- 2 10-20 page critical/scholarly papers (1 for creative writing applicants)
- Creative writing applicants: also submit a sample of your fiction (30 pages) and/or poetry (20 pages) or a one-act play
- Supplementary information sheet (for MA/PhD and PhD track applicants only)

Financial Aid from the Program

Some programs require an extra form or statement from those who wish to be considered for internal assistantships, fellowships or other funding packages. Check the program website or ask the program contact for details.

Plan of Study

The MA is a 4-semester (2-year) program with 30 hours of course work (at least 15 hours at the 8000-level) in English.

- MA students may take up to 6 hours (7000-level or above) outside the English department.
- In addition to literary study, students may also select from among the 6 emphasis areas to accompany the program in British and American Literature: African Diaspora Studies, Creative Writing, Critical Theory, Folklore and Oral Tradition, Language and Linguistics, and Rhetoric and Composition.
- A foreign language is not required for the master's degree.

Final Assessment Options

A student may elect to write an MA thesis (while taking 6 hours of ENGLSH 8090), to present a portfolio and take an oral exam, or to take a written comprehensive exam based on a reading list.

Thesis

Students who choose the MA thesis (50-75 pages) should, at the outset of master’s work, discuss possible thesis topics with the faculty member or members who seem most likely to constitute the student’s MA Thesis Committee (two English department members and one outside member). Students present and defend their theses to this committee in an oral examination.

Portfolio/Oral Exam

Students electing this option will chose two faculty members to work with in revising two essays previously written during their M.A. work. The Director of Graduate Studies, in consultation with the student, will chose a third faculty member to serve on the student’s portfolio committee. Students will defend the two revised essays, as well as those not chosen for revision, in a two-hour oral exam. The committee may pass or fail the examinee on any part(s) of the portfolio. In the case of partial or total failure, the student will retake the oral portions that were failed and may need to revise further one or both of the revised essays.

Written Exam Based on Reading List

The exam consists of three questions answered over a four-hour time period. Students in Literature and in Literature with a Creative Writing Emphasis are assigned to a three-member M.A. Comprehensive Exam Committee and write on three literature-based questions. Students with emphases in African Diaspora, Critical Theory, English Language & Linguistics, Folklore & Oral Tradition, or Rhetoric & Composition are assigned to a committee that includes two members from literature and one member from the emphasis area. They write two literature-based questions and one emphasis-area-based question.

Satisfactory Progress

The Department of English expects all candidates to make satisfactory progress toward completing their graduate degrees. The MA should be completed within three calendar years after matriculation. No grades of C will be counted toward the completion of the required number of hours for the MA.

MA/PhD Track

The department also offers an MA in an MA/PhD program intended for especially well-prepared students who have BA degrees and know they wish to pursue the PhD. It offers enhanced financial aid and an accelerated time to degree. Students complete MA requirements and begin taking PhD course work in their second year in the program. Academic requirements for the two degrees are identical with the academic requirements for the separate MA and PhD degrees.

PhD in English

  - Supplementary information sheet

Financial Aid from the Program

Some programs require an extra form or statement from those who wish to be considered for internal assistantships, fellowships or other funding packages. Check the program website or ask the program contact for details.

Plan of Study

The PhD is a 5-year program with 30 hours of course work beyond the MA. At least 18 hours in English must be taken at the 8000-level (ENGLISH 8095 and ENGLISH 9090 do not count toward the 18-hour requirement). Candidates with insufficient background in English may be required to take additional hours upon the recommendation of the advisory committee.

A student may elect one English 8000 problems course (a maximum of three hours of credit), with the prior consent of the director of graduate studies. A minimum of 18 hours of course work beyond the MA (excluding research hours) must be taken in residence at the Columbia campus in order for the candidate to be eligible for a PhD from the University.

Language Requirement

All PhD students must fulfill a foreign language requirement to ensure that all students have familiarity with a language and a literature other than English. All of our students, regardless of specialty, gain substantially by situating their work globally. A student may satisfy the foreign language requirement for the PhD in English by demonstrating either 1) advanced proficiency in one foreign language or 2) basic proficiency in two foreign languages.

PhD students should determine how they will fulfill the departmental language requirement in consultation with their faculty advisor and other committee members, since different projects and different areas of study will require different levels of language proficiency. A student's committee can always recommend that the student pursue language study above and beyond the level required by the departmental language requirement for the purpose of their chosen dissertation project.

To obtain advanced proficiency, the student has several options. One is to pass with a grade of B or better two upper-class undergraduate courses (3000- or 4000-level, or the equivalent elsewhere, taken within the seven years prior to the candidate's enrollment in the Ph.D program at the University of Missouri) in the literature of the language chosen. A second is to pass with a grade of B or better one graduate class (7000- or 8000-level, or the equivalent elsewhere, taken within the same time period as above) in the literature of the language chosen. These courses may not be in translation, and any graduate course in a modern language must be taught in that language. A third option is to demonstrate advanced proficiency in a manner approved by the student's advisor and the director of graduate studies; the mechanism for doing so will be proposed by the student and advisor, and is subject to the approval of the director of graduate studies. One example of that third option is to take the Sixteen-Point Exam from the NYU School of Professional Studies, and achieve a score of at least fourteen. Advanced proficiency does not require fluency; it requires advanced reading knowledge of and extended engagement with another culture's language and literature.

To demonstrate basic proficiency the student must pass with a grade of B or better a) the intensive introduction to a language or b) the three-semester introductory sequence or c) one course at or beyond the third semester level in the language chosen, or the equivalent of these courses elsewhere. The courses must have been completed or the examinations taken not more than seven years prior to the candidate's enrollment in the PhD program. Because not all languages are taught using this format at the University of Missouri, students have the option to demonstrate basic proficiency in one of their two chosen languages by taking an introductory course in any language that is relevant to their research. The Director of Graduate Studies will work with students to try to arrange for testing for students with proficiency but without coursework in any language (for instance, those who have lived in another country for an extended period of time). In these cases, one option is to take the Twelve-Point Exam from the NYU School of Professional Studies, and achieve a score of at least ten.

Overall, the department recommends students pursue advanced proficiency in one language, a language that will enrich their work. All of our students, regardless of specialty, will gain by making meaningful and extended connections between their own work and a non-English speaking culture.

Doctoral Committee

By the end of the first year, doctoral students must meet with their advisors to organize a doctoral committee. Students meet with this committee to plan course work and define their primary and secondary fields of study. This meeting satisfies the graduate school requirement for a PhD qualifying examination.
Comprehensive Examination

After the coursework and foreign language requirement have been completed, the student takes the PhD comprehensive examination. This exam consists of a written section (the Preparatory Essay) and a two-and-a-half hour oral exam. Guidelines for the PhD comprehensive examination are as follows:

1. Committee and Reading List

Students will choose a faculty committee consisting of a chair, two additional department members, and an external member from another department.

In consultation with her or his committee, the student will specify reading lists made up of one major field, one minor field, and one field in criticism and theory.

The major field list should reflect the student's area of professional specialization (poetry, 16th-century British literature, 20th-century American fiction, rhetoric and composition, folklore) and should take account of both the student's interests and job market categories. If a candidate chooses a major field that is a single genre (or has an otherwise delimited focus), then the candidate's committee may mandate that the area should extend over at least three centuries.

The minor field list might be a related field (for instance, a student with a major list in African American literature might have a minor list in twentieth-century American fiction, or one studying Romanticism might have a minor list in transatlantic colonial literature), a secondary field (film or linguistics if the student is studying a literary field; a literary field if the student is studying rhetoric or folklore), a genre or sub-genre (creative non-fiction, the sonnet, etc.), or an area of thematic focus (Transcendentalism, nature poetry, etc.).

The criticism and theory list will vary depending on the topics of the major and minor lists. In cases where the major and minor lists consist primarily of literary works, the criticism and theory list must include sections covering the major works of criticism and/or theory in those fields. The remainder of the criticism and theory list, up to its entirety in cases where both the major and minor list include substantial secondary reading, can be organized around a major subfield of criticism or theory (poetics, psychoanalysis, the history of the novel) or a particular theme (Theories of the Middle Class; The Role of Religion in Contemporary Fiction; Medieval Conceptions of Gender).

All three lists together should comprise approximately 100 -120 book length works or the equivalent in scholarly articles or works in other media (as decided in consultation with the committee), with the major list roughly equivalent in size to the combined minor and criticism/theory lists. Where linguistics constitutes one of the fields, the relevant committee member or members will assign, in addition to reading materials, other materials intended to ensure competence in carrying out analyses in phonology, phonetics, syntax, and other areas appropriate to the student's background and interests.

During the semester in which the student begins drafting her or his reading lists (ideally the second semester of PhD study), the faculty chair will convene a meeting with the entire committee, during which the student will present and defend her or his program of study and draft reading lists. This meeting is known as the Qualifying Examination. During this meeting the committee members will sign the D-1 form; after the meeting the student will prepare the D-2 form for program of study and have it signed by the committee members.

2. Preparatory Essay/Written Comprehensive Exam

During the time a student is preparing for her or his exam, he or she will write a Preparatory Essay of at least twenty-five pages. These essays must not be more than fifty pages. This Preparatory Essay constitutes the written portion of the comprehensive exam, and is designed to give the student the opportunity to demonstrate broad knowledge of her or his fields, deep interest in specific topics relevant to those fields, and initial plans for the dissertation (or, in the case of creative writers, the critical introduction).

This is a highly individualized process, designed to encourage students to shape this process to serve their research needs.

Students will write and submit two different drafts. They will submit a preliminary draft of the essay to committee members for feedback; this must be done the semester before submitting the final draft and taking the exam. When the student submits the final version to the committee, committee members will evaluate it for range and depth of coverage, specificity of references to the works discussed, theoretical grasp of the material and clarity of organization and style. A student should consider the Preparatory Essay an opportunity to address what he or she has learned in the preparation process, and to indicate what questions most interest him or her about the works on her or his lists. The Preparatory Essay is designed to be flexible, but each essay should include the following, in a form agreed upon by the student and the committee:

- Brief overviews of each of the fields represented by the lists, discussing major issues raised by the three lists, and, where relevant, connections among them; these overviews may preface the body of the essay or be folded into it
- Answers to three or four substantive questions about the fields or, where relevant, problems in linguistic analysis that were developed in consultation with the committee, and that are meant to serve as talking points for the oral exams
- A preliminary description of the dissertation or, for creative writers, the critical introduction that demonstrates how it will be informed by the student's reading

In order to pass the written portion of the exam the student must receive no more than one dissenting or abstaining vote on the Preparatory Essay. To submit the final version of the preparatory essay, a student should send the essay to the Graduate Secretary who will distribute the exam to the student's committee. Within a week of receiving a copy of the exam, committee members will submit evaluations discussing strengths and weaknesses of the Preparatory Essay to the Graduate Studies Secretary, who will forward them to the student and also place copies in the student's file.

If the student does not pass, the committee will offer advice on rewriting and resubmitting the Preparatory Essay. If the student does pass, the chair of the exam committee, in conjunction with other members of the committee, will schedule the student's oral examination for no earlier than one week, and no later than one month, following committee members' reports on the Preparatory Essay. The Graduate Secretary should be informed of the time and place of the oral examination. Students must be enrolled during the term in which they take their oral exam (to be administered only when MU is officially in session). The oral exam must be completed at least seven months before the final defense of the dissertation.

3. Oral Exam
While discussion will be guided by the writing students have done in the Preparatory Essay, the examinee should be prepared for questions on any item on their list, in order to demonstrate a breadth of training beyond that displayed in the essays. Exams are commonly structured in two parts, with discussion of the essay in the first hour and discussion of the lists more broadly in the second.

The oral exam will be scheduled for two and half hours and will consist of:

- Two hours of questions, with format and time allotted to committee members arranged beforehand by the chair of the student’s committee
- Fifteen minutes during which the committee deliberates about the exam
- Fifteen minutes during which the committee informs the student whether he or she has passed or failed, and discusses the exam with the student

During the fifteen-minute faculty deliberation period the chair of the committee is responsible for taking notes, which will form the basis of a 1-2 page document discussing the exam—things the student did well on, and things he or she might improve. The chair should give a copy of this document to the Graduate Secretary, who will forward it to the student and also place a copy in the student's file.

In order to pass the student must receive no more than one dissenting or abstaining vote on the oral exam. Students who fail the oral examination will be allowed to retake it, but cannot do so sooner than 12 weeks after, or later than the end of the semester following, the initial examination. If the student passes the oral examination, all members of the committee must sign the D-3 form. The chair of the committee is responsible for submitting the D-3 form to the graduate studies office, and the form must be filed with the graduate school within two weeks after the final completion of the exams. Per graduate school rules, failure to pass two comprehensive examinations automatically prevents candidacy.

Dissertation

As soon as possible after passing the comprehensive examination, a student should explore a dissertation topic under the guidance of the student’s advisor. The doctoral dissertation is written under the direction of a member of the doctoral faculty at MU.

Creative Dissertation Option

The PhD candidate may choose to write a creative dissertation, which may take the form of a novel, a novella, a book-length collection of short fiction or a collection of poetry. To exercise this option, the candidate must have taken 9 to 12 hours of creative writing seminars as part of the PhD course work.

In addition to the “creative” part of the dissertation, the candidate will compose a prose introduction (2,500- word minimum), to be written after completion of the creative project, to demonstrate the correspondence between the candidate’s academic studies and the creative project. The overall length required would be comparable with that of other dissertations approved by the department.

Satisfactory Progress

The Department of English expects all candidates to make satisfactory progress toward completing their graduate degrees. The comprehensive exam should be completed within five calendar years after matriculation, and the PhD should be completed within five calendar years after passing the comprehensive exam. No grades of C will be counted toward the completion of the required number of hours for the PhD.

Film Studies

Roger Cook, Program Director
Interdepartmental Program in the College of Arts and Science
451 Strickland
(573) 882-9452
cookef@missouri.edu
filmstud@missouri.edu

The Film Studies Program offers a major that focuses on film analysis and covers the history of cinema, national and global cinemas, film theory and genres, documentary film, and contemporary visual culture. As a classic liberal arts discipline, film studies teaches the fundamental skills that make a college degree essential in career-oriented jobs: research, information management, critical analysis, cogent development of ideas, developing and testing of hypotheses, and writing and communication. It combines an emphasis on critical thinking, research, problem-solving, written expression, and cultural literacy with the discipline’s unique attention to visual analysis. Students emerge with a greater degree of visual literacy at a time when our culture is becoming increasingly dependent upon visual communication. As a complement to the main focus on the critical study of film, the program also offers some production courses and occasional opportunities to participate in filmmaking projects. For those who want to pursue a career in the TV/ motion picture or the fast-growing digital media industry the major provides a strong foundation that can be combined with the learning of specific industry skills.

The program offers a BA degree in film studies as well as an undergraduate minor.

Faculty

**Professor** G. Barabtarlo*, R. F. Cook*, R. N. Johnson*, J. M. Miller, A. Prahlad*, C. Strathausen* · N. M. West*
*Associate Teaching Professor* M. H. Barnes*, N. Monnier*
*Assistant Teaching Professor* E. Hornbeck, B. Maurer, E. Naveh-Benjamin, L. Roth, M. Volz

**Instructor** L. Dickinson, C. Gubera, R. Wise

- Graduate Faculty Member - membership is required to teach graduate-level courses, chair master’s thesis committees, and serve on doctoral examination and dissertation committees.
- Doctoral Faculty Member - membership is required to chair doctoral examination or dissertation committees. Graduate faculty membership is a prerequisite for Doctoral faculty membership.

Undergraduate

- BA in Film Studies (p. 187)
  - with emphasis in Film Production (p. 188)
- Minor in Film Studies (p. 188)

Double and Dual Majors

A film studies major can be paired with a major in another department. Students must meet the requirements of both departments. The program...
for each major must be approved by the advisor in the degree-granting department.

**Departmental Honors**

To receive departmental honors, a student must earn a minimum overall MU GPA of 3.3 and a minimum GPA of 3.5 in courses in film studies completed at the University of Missouri. In addition, with the assistance of an honors thesis advisor, the student must develop, plan and conduct research on an independent project, normally while enrolled in FILM_S 4995.

**Graduate**

While MU does not offer graduate degrees specifically in film studies, the University does offer post-baccalaureate opportunities in a number of related areas, both within the College of Arts and Science, and in the other Schools and Colleges that make up the University. The catalog provides a complete list of these degree options (p. 17).

**BA in Film Studies**

**Degree Program Description**

From academic study to production principles, the Film Studies program provides guidance to our students from accomplished research faculty, real world experience through hands-on internship practicums, and opportunities for success beyond the program for our graduates. The Film Studies Program offers a major that focuses on film analysis and covers the history of cinema, national and global cinemas, film theory and genres, documentary film, and contemporary visual culture. It combines an emphasis on critical thinking, research, problem-solving, written expression, and cultural literacy with the discipline’s unique attention to visual analysis. Students emerge with a greater degree of visual literacy at a time when our culture is becoming increasingly dependent upon visual communication. Graduates have pursued careers in film, art education, journalism, and writing.

**Major Program Requirements**

Film Studies majors must complete 30 credits in film studies, with a grade of C- or above in every course. A minor is recommended. At least 15 hours in the major must be in courses at the 3000 level or above. Students must also complete College of Arts and Sciences and University requirements, including University general education (p. 33) requirements. No more than 40 credits in Film Studies may be counted toward graduation.

The 30 hours of Film Studies courses for the major must meet the following requirements:

**Major core requirements**

| UNIT I: | FILM_S 1800 | Introduction to Film Studies | 3 |
| UNIT II: | FILM_S 2820 | Trends in World Cinema | 3 |
| | Select one of the following: | | 3 |
| | FILM_S 2830 | American Film History I, 1895-1950 | |
| | FILM_S 2840 | American Film History II, 1950-Present | |
| UNIT III: | Electives | 18 |

At least six of the elective hours must come from one of the following national cinema courses:

- FILM_S 2850: Italian Cinema
- FILM_S 2865: The Art of Soviet and Russian Cinema
- FILM_S 3830: History of German Film
- FILM_S 3840: German Film After 1945
- FILM_S 3845: Modern Israeli Film
- FILM_S 3870: Russian Women and Film
- FILM_S 3875: Brazilian Cinema
- FILM_S 3880: Contemporary Chinese Film
- FILM_S 3890: Russian and Soviet Film
- FILM_S 3895: Korean Society Through Cinema

At least six of the elective hours must come from one of the following courses on theory and method:

- FILM_S 2860: Film Themes and Genres
- FILM_S 2870: Film and Literature
- FILM_S 3775: The Ancient World on Film
- FILM_S 3780: Architecture in Film
- FILM_S 3785: Art and Artists on Film
- FILM_S 3820: Major Directors
- FILM_S 3850: Studies in Film History
- FILM_S 3855: Documentary Film
- FILM_S 3861: Film Themes and Genres
- FILM_S 4810: Film Theory
- FILM_S 4820: Studies in Film Genre
- FILM_S 4840: Culture and Media
- FILM_S 4860: Film Themes and Genres
- FILM_S 4935: Adaptation of Literature for Film

**UNIT IV:**

| Select one of the following: | 3 |
| FILM_S 4880: Capstone Experience | |
| One 4000-level FILM_S course of at least 3 credits | |

**Total Credits**

30

**Semester Plan**

Below is a sample plan of study, semester by semester. A student’s actual plan may vary based on course choices where options are available.
Major Program Requirements

Education, journalism, and writing. Graduates have pursued careers in film, art at a time when our culture is becoming increasingly dependent upon visual analysis. Semester Plan

There is currently not a semester plan available for this emphasis area.

Minor in Film Studies

To earn a minor in Film Studies, students must earn 15 credits in film studies. Required courses include FILM_S 1800, and either FILM_S 2830 or FILM_S 2840. At least two courses must be at the 3000 level or above. The minor is a flexible and varied program that can be tailored to individual students’ needs. Students wishing to minor in film studies should consult the film studies advisor.

General Studies

Office of Multidisciplinary Degrees
College of Arts and Science
114 Switzler Hall
(573) 882-6060
omd.missouri.edu

Faculty

Faculty members are housed in departments and schools throughout the University of Missouri.

- Graduate Faculty Member - membership is required to teach graduate-level courses, chair master’s thesis committees, and serve on doctoral examination and dissertation committees.
- Doctoral Faculty Member - membership is required to chair doctoral examination or dissertation committees. Graduate faculty membership is a prerequisite for Doctoral faculty membership.

Undergraduate

- BGS in General Studies (p. 189)

The Bachelor of General Studies (BGS) is designed for students who want a multidisciplinary major to meet educational and career objectives. Students who pursue the BGS need a high degree of motivation and independence. The BGS degree is intended for students pursuing a first bachelor’s degree and will not be approved as a second bachelor’s degree.

The BGS degree requires a minimum of 120 credit hours with a minimum of 30 credit hours numbered 3000 or above. Students meet with the academic advisor to create a graduation plan after completing 60 credit hours, MATH 1100 or an equivalent with a C- grade or higher, ENGLSH 1000 with a C- grade or higher and maintaining a 2.0 cumulative GPA.

BGS students are required to complete 24 credit hours as declared BGS majors and this may include credit for the semester in which the student declares the BGS major. In exceptional circumstances (and in most cases, only following an absence from MU of 4 or more years), students who need fewer than 24 credit hours to complete all their BGS, A&S and
MU requirements must take a minimum 3 credit hour BGS approved upper-level course.

omd.missouri.edu

Graduate

While the College of Arts & Science does not offer a graduate degree in general studies, the College does offer graduate degrees, certificates and minors in a number of multidisciplinary areas. The catalog provides a complete list of these degree options (p. 17) for all Schools and Colleges at the University of Missouri.

BGS in General Studies

Degree Program Description

The Bachelor of General Studies (BGS) is designed for students who want a multidisciplinary major to meet educational and career objectives. Students who pursue the BGS need a high degree of motivation and independence. Students design their curriculum across three main components. Components may be made up of courses from a single department or from a single theme. These degree requirements allow students to build an individualized major that reflects their personal academic interests. Careers options are as varied as the combination of curricula.

Major Program Requirements

Students must complete the Department Requirements (p. 188) as well as those required for the degree listed below:

The BGS major requires 45 credit hours, including a capstone. These 45 credit hours are evenly distributed among three areas of study called components. A component may be made up of courses from a single department or may be made up of courses from multiple departments that relate thematically. Component courses may be selected from any department or program at MU (if the department permits), but at least 18 credit hours must be made of courses from an A&S department. Of the 15 credit hours required for each component, 6 credit hours in each of the components must be numbered 3000 or higher. Students must maintain a GPA of 2.0 in each component area and grades of D are not acceptable. A student may include one component made entirely of transfer coursework if the other two components each contain 9 credit hours of coursework numbered 3000 or above. BGS students are required to include a minimum of 12 credit hours of MU coursework numbered 3000 level or above in their three components.

- 30 of the last 36 hours a student completes must be taken at MU.
- In order to graduate, students must have the following GPAs:
  - 2.0 cumulative GPA (the GPA for all coursework taken at MU)
  - 2.0 major GPA (the GPA for all courses taken to fulfill requirements in the major)
  - 2.0 minor GPA (the GPA for all courses taken to fulfill requirements for a minor)
  - 2.0 GPA in the final 60 hours
  - 2.0 GPA in the final 30 hours
- A maximum of 6 hours of Internship may apply to graduation
- A maximum of 12 hours of Internship, Readings and/or Special Problems may apply to graduation

Semester Plan

Below is a sample plan of study, semester by semester. A student’s actual plan may vary based on course choices where options are available.

Geography

Michael Urban, Chair
College of Arts and Science
303 Stewart Hall
(573) 882-8370
geog@missouri.edu

Faculty

Professor J. J. Hobbs
Associate Professor M. W. Foulkes*, S. C. Larsen*, T. Matiszw*, M. Palmer, M. A. Urban*
Assistant Professor G. Elliott
degree, a geography major provides marketable skills and the broad undergraduate degree program on their own personal interests in geography.

Four different emphasis areas allow students to further focus the Bachelor of Arts with a major in Geography:

- **Human-Regional-cultural geography** helps students develop a fuller sense of geographic analysis and better understanding of the human and physical characteristics of major regions and settlement patterns of the world.
- **Physical-environmental systems** emphasize the complex interactions between biophysical systems and human behavior in the areas of geomorphology and biogeography, as well as our role in managing applied environmental problems.
- **Geographic information sciences** addresses the variety of technologies revolutionizing geographic analysis such as GIS, GPS, remote sensing, computer assisted cartography and spatial statistics.
- **General geography** is designed for the student with broad interests in geography that overlap with other emphasis areas.

For students planning to end their formal education with the bachelor's degree, a geography major provides marketable skills and the broad perspectives on environment, society and international affairs that enable graduates to move beyond entry-level positions. Geography also provides a sound foundation for students who plan to enter graduate work in a variety of fields, from geography to business, land use planning, law and medicine. Although positions are not often designated with the title of geographer, geography graduates' employment has grown substantially in private enterprise and in all levels of government in recent years. The Department offers BA and MA degrees with majors in geography as well as undergraduate and graduate certificates in Geographic Information Science and Geospatial Intelligence. Two minors are also available.

**Departmental Honors**

The geography honors program requires independent research during the senior year, usually under GEOG 4996H or GEOG 4997H. Consult the geography honors director for further information.

**Graduate**

- MA in Geography (p. 193)
- Graduate Certificate in Geographical Information Science - Interdisciplinary (p. 194)

College of Arts and Sciences
303 Stewart Hall
(573) 882-8370
http://www.geog.missouri.edu/

**Director of Graduate Studies:** Matthew Foulkes

**About Geography**

The Department of Geography offers a Master of Arts degree that prepares students for a variety of professions, including careers in academics, research, public service, and the private sector. The MA program has a high success rate of preparing students for doctoral study in top-tier geography departments across the United States.

A primary strength of the department is the blending of major research facilities and opportunities with individual student-faculty interaction to build a strong sense of community. Students interested in questions of human geography, the physical environment, or geographic information sciences will find that the department has facilities and faculty expertise to build a successful plan of study.

Core areas of study in the department include human geography, nature/society relationships, physical-environmental systems, and application of geographic information sciences. The faculty has an active program of research and field work in North America, Middle America, the Middle East and Southeast Asia. They pride themselves on a creative instructional and interdisciplinary pattern of activity. The department emphasizes close contact between faculty and graduate students.

Individualized graduate programs allow latitude in areas of specialization such as regional, cultural, and physical geography, as well as geographic information sciences, remote sensing, environmental studies and geographic education. Strong collateral course work in such fields as anthropology, soil and atmospheric science, economics, geology, political science, forestry, computer science and history meets the special interests of many graduate students.
Facilities and Resources

An exceptional departmental collection of reference materials, including maps, journals and books, is available to graduate students in the department’s Wheeler Library and Seminar Room. The holdings of Ellis Library in geography and related fields are extensive and MU’s computer facilities are readily available. In addition, the department is home to the Geographic Resources Center (GRC), the Missouri Spatial Data Information Service and the Spatial Analysis and Modeling teaching laboratory. These facilities serve as an interdisciplinary center for GIS, remote sensing, cartography, computer graphics and digital spatial databases of enormous variety.

Financial Aid from the Program

Some programs require an extra form or statement from those who wish to be considered for internal assistantships, fellowships or other funding packages. Check the program website or ask the program contact for details. In Geography, a total of approximately 6 graduate teaching and research assistantships are awarded on a competitive basis annually. Applicants desiring consideration for one of these positions should indicate this in their application to the department.

BA in Geography

Director of Undergraduate Studies: Douglas Hurt

Degree Program Description

Geographers are interested in a wide range of topics and often work in interdisciplinary teams that analyze challenges like environmental change, resource use, and economic issues in an increasingly interdependent world. Geography majors receive marketable skills during their undergraduate experience. All majors must select one of the four emphasis areas: General Geography, Geographic Information Sciences, Physical/Environmental, Regional/Cultural, or Urban/Population. Geography prepares students for a variety of professions including careers in environmental impact assessment, mapping, remote sensing, geographic information analysis, government service, military intelligence, as well as education.

Major Program Requirements

Students majoring in geography are required to take a total of 33 credits in geography and 3 in statistics. The geography major consists of 21 core credits and at least 15 credits in one of the four geography emphasis areas. In addition, students must complete all degree, College of Arts and Sciences and University requirements (p. 32) including University general education (p. 33).

Major core requirements

- GEOG 1100 Regions and Nations of the World I 3
- or GEOG 1200 Regions and Nations of the World II 3
- GEOG 1550 Introduction to the Humanized Earth 3
- GEOG 1800 Digital Earth: Introduction to the Geospatial Technologies 3
- GEOG 2610 Climate, Landforms and Vegetation: Introduction to Physical Geography 3
- GEOG 3840 Cartography 3
- or GEOG 3040 Introduction to Geographic Information Systems GIS 3
- GEOG 4990 Senior Seminar in Geography 3
- Statistics: Select one of the following
- STAT 1200 Introductory Statistical Reasoning
- or STAT 1300 Elementary Statistics

BA in Geography with Emphasis in General Geography

Degree Program Description
Geographers are interested in a wide range of topics and often work in interdisciplinary teams that analyze challenges like environmental change, resource use, and economic issues in an increasingly interdependent world. Students who select the general geography track plan their own upper-division coursework in order to receive a very broadly-structured education, typically selecting courses from all three of the GIS, physical geography, and human geography emphasis areas. Geography prepares students for a variety of professions including careers in environmental impact assessment, mapping, remote sensing, geographic information analysis, government service, military intelligence, as well as education. Geographers are interested in a wide range of topics and often work in interdisciplinary teams that analyze challenges like environmental change, resource use, and economic issues in an increasingly interdependent world. Geography majors receive marketable skills during their undergraduate experience. Recent graduates work for companies such as ESRI and Garmin. MU geography graduates have also found employment with government agencies, including the National Park Service, National Geospatial-Intelligence Agency, U.S. Geological Survey, Missouri Department of Natural Resources, and Missouri Department of Transportation.

Major Program Requirements
This area is designed for students with a broad interest in geographical studies. Due to the general nature of this emphasis area, students must develop in consultation with their advisor a personal plan of study outlining specific goals and course requirements. Four geography courses are required.

Semester Plan
A sample plan of study has not been designed for this major. Students should contact the academic department for assistance with academic planning.

BA in Geography with Emphasis in Geographic Information Sciences

Degree Program Description
Geographers are interested in a wide range of topics and often work in interdisciplinary teams that analyze challenges like environmental change, resource use, and economic issues in an increasingly interdependent world. The study of Geographic Information Systems trains students to address the variety of technologies revolutionizing geographic analysis such as GIS, Global Positioning Systems, remote sensing, computer assisted cartography and spatial statistics. Geography prepares students for a variety of professions including careers in environmental impact assessment, mapping, remote sensing, geographic information analysis, government service, military intelligence, as well as education. Geographers are interested in a wide range of topics and often work in interdisciplinary teams that analyze challenges like environmental change, resource use, and economic issues in an increasingly interdependent world. Geography majors receive marketable skills during their undergraduate experience. Recent graduates work for companies such as ESRI and Garmin. MU geography graduates have also found employment with government agencies, including the National Park Service, National Geospatial-Intelligence Agency, U.S. Geological Survey, Missouri Department of Natural Resources, and Missouri Department of Transportation.

Semester Plan
Refer to the Semester Plan for the BA in Geography (p. 191).

BA in Geography with Emphasis in Physical/Environmental

Degree Program Description
Geographers are interested in a wide range of topics and often work in interdisciplinary teams that analyze challenges like environmental change, resource use, and economic issues in an increasingly interdependent world. Physical and environmental geography emphasizes the complex interactions between the natural world and human behavior. Students learn to identify, delineate and manage a range of environmental problems facing society from climate and vegetation change to river management. Geography prepares students for a variety of professions including careers in environmental impact assessment, mapping, remote sensing, geographic information analysis, government service, military intelligence, as well as education. Geographers are interested in a wide range of topics and often work in interdisciplinary teams that analyze challenges like environmental change, resource use, and economic issues in an increasingly interdependent world. Geography majors receive marketable skills during their undergraduate experience. Recent graduates work for companies such as ESRI and Garmin. MU geography graduates have also found employment with government agencies, including the National Park Service, National Geospatial-Intelligence Agency, U.S. Geological Survey, Missouri Department of Natural Resources, and Missouri Department of Transportation.
Major Program Requirements

Physical and environmental geography emphasizes the complex interactions between the natural world and human behavior. Students learn to identify, delineate, and manage a range of environmental problems facing society from climate and vegetation change to river management. Students must take three of the following courses:

- GEOG 3600 Climates of the World (3)
- GEOG 3610 Physical Geography of the United States (3)
- GEOG 3630 Earth Surface Systems (3)
- GEOG 4620 Biogeography: Global Patterns of Life (3)
- GEOG 4630 River and Stream Dynamics (3)
- GEOG 4810 Landscape Ecology and GIS Analysis I (3)

Semester Plan

Refer to the Semester Plan for the BA in Geography (p. 191).

BA in Geography with Emphasis in Regional/ Cultural

Degree Program Descriptions

Geographers are interested in a wide range of topics and often work in interdisciplinary teams that analyze challenges like environmental change, resource use, and economic issues in an increasingly interdependent world. Students studying human geography are trained to understand and analyze the social and cultural elements which generate regional differences. Assessing population patterns, political activity, urban planning, and linguistic distributions are included in this area. Geography prepares students for a variety of professions including careers in environmental impact assessment, mapping, remote sensing, geographic information analysis, government service, military intelligence, as well as education. Geographers are interested in a wide range of topics and often work in interdisciplinary teams that analyze challenges like environmental change, resource use, and economic issues in an increasingly interdependent world. Geography majors receive marketable skills during their undergraduate experience. Recent graduates work for companies such as ESRI and Garmin. MU geography graduates have also found employment with government agencies, including the National Park Service, National Geospatial-Intelligence Agency, U.S. Geological Survey, Missouri Department of Natural Resources, and Missouri Department of Transportation.

Major Program Requirements

Students studying human geography are trained to understand and analyze the social and cultural elements which generate regional differences. Assessing population patterns, political activity, urban planning, and linguistic distributions are included in this area. Students must take three of the following courses:

- GEOG 3140 Mexico, Central America, and the Caribbean (3)
- GEOG 3270 Geography of the Middle East (3)
- GEOG 3290 Geography of Russia and the Newly Independent States of Eurasia (3)
- GEOG 3450 Geography of Africa (3)
- GEOG 3510 Historical Geography of North America (3)
- GEOG 3560 Native American Geographies (3)
- GEOG 3760 Geography of the World’s Religions (3)

- GEOG 3780 World Political Geography: Patterns and Processes (3)
- GEOG 4560 Resources and Indigenous Peoples (3)
- GEOG 4770 Migration and Immigration (3)
- GEOG 4850 Transportation Geography (3)

Semester Plan

Refer to the Semester Plan for the BA in Geography (p. 191).

Minor in Geography

Minor Program Requirements

Fifteen credits are required for a minor in geography, nine of them numbered 2000 and above.

Certificate in Geographical Information Science - Interdisciplinary

Certificate description: Students from a wide range of disciplines will benefit from students with the theoretical, practical and technical skills that are essential for the analysis of spatial data. Learners become proficient in the use and application of GIS technologies through a flexible set of courses and hands-on experiences. The program offers the training and experience necessary to prepare for the rapidly expanding professional opportunities available in the diverse set of fields that depend on geographic information.

MA in Geography

Application and Admission Information

Admission Contact Information
Dr. Soren Larsen
Geography admission page: https://geography.missouri.edu/grad/graduate-studies

Admission Criteria
Fall deadline: January 15

- Minimum GPA: 3.0
- Minimum TOEFL scores:
  - Internet-based test (iBT)
    - 61 Effective July 1, 2015 must have score of 80
  - Paper-based test (PBT)
    - 500 Effective July 1, 2015 must have score of 550
- Minimum GRE scores:
  - When did you take the GRE?
    - Prior to August 1, 2011
      - Verbal + Quantitative: 1000
    - On or After August 1, 2011
      - 297

Preparation for graduate work in geography should include undergraduate courses in geography. Upon consultation with their advisor, students with insufficient background work in geography may be required to take additional undergraduate courses.
Required Application Materials
All elements of the application including those required by the department are submitted through the Graduate School online application. For complete instructions, see https://geography.missouri.edu/graduate-studies.

To the Office of Graduate Studies:
• All required Graduate Admissions documents
• 3 letters of recommendation (submitted through the online application) GRE scores
• Supplemental department application (with Statement of Purpose)

Plan of Study MA in Geography
The Master of Arts degree requires completion of 32 semester hours of course work. Two research options are available: a thesis and a non-thesis option. The non-thesis option requires the completion of a research paper. 15 or more of the 32 hours must be in courses at the 8000 level. Non-thesis candidates may take no more than 6 hours of special problems, special readings, special investigations, or research.

Every student must take GEOG 8750 and GEOG 8760, 6 additional hours of seminar-structured course work and 6 hours of course work in geographic methods.

A student’s specific program of courses is selected jointly by the student and the graduate advisor, designated during the first semester in residence. All students of either option must pass a comprehensive oral examination at the end of their graduate work.

Graduate Certificate in Geographical Information Science - Interdisciplinary
Certificate description: Students from a wide range of disciplines will benefit from students with the theoretical, practical and technical skills that are essential for the analysis of spatial data. Learners become proficient in the use and application of GIS technologies through a flexible set of courses and hands-on experiences. The program offers the training and experience necessary to prepare for the rapidly expanding professional opportunities available in the diverse set of fields that depend on geographic information.

Faculty
Associate Professor M. Appold**, F. G. Gomez**
Assistant Professor N.M. Bartlow*, J. W. Huntley**, J. Schiffbauer**
Director, Geology Field Program M. Barquero-Molina*

Undergraduate
• BA in Geological Sciences (p. 195)
• BS in Geological Sciences (p. 196)
• Minor in Geological Sciences (p. 197)

The Department of Geological Sciences offers two undergraduate degree programs, a Bachelor of Arts with a major in Environmental Geology and a Bachelor of Science with major in Geological Sciences. The BA is geared to those students interested in environmental concerns, while the BS is geared toward the traditional fields of geology. Both degrees provide a rigorous background in earth sciences. In addition, students majoring in other departments can minor in geological sciences.

Departmental Honors
Departmental honors can be achieved by students who maintain a cumulative GPA of 3.0, departmental GPA of 3.2, and who complete a senior thesis.

Dual Degrees
The Department of Geological Sciences offers dual degree programs with the Department of Soil, Environmental and Atmospheric Science in their emphasis area of Environmental Soil Science and with the Department of Civil and Environmental Engineering and with the College of Education in the Bachelor of Science in Education, emphasis in Earth Science Education. For more information, contact an advisor in the department.

Graduate
• MS in Geology (p. 197)
• PhD in Geology (p. 197)

Department of Geological Sciences
101 Geological Sciences Building
(573) 882-6785
https://geology.missouri.edu/grad/graduate-program

Director of Graduate Studies: Francisco Gomez

About the Geological Sciences Program
The areas of research covered by faculty are broad and diverse, with strong research expertise in the general areas of geochemistry, petrology, paleontology, and geophysics-tectonics. These strengths allow us to focus on problems identified by the National Research Council to be socially relevant and to be fundamental to an understanding of earth processes. Dynamic faculty, along with their students, are making significant contributions to numerous areas of basic and applied
research. This research is supported by excellent, state-of-the-art analytical facilities in the department and on campus. Our graduate program prepares students for a wide range of professions within the geological sciences; students have been placed in private, federal, state, and academic institutions. Prospective students are encouraged to contact any faculty member directly for additional information.

**Areas of Specialization**

The areas of specialization are aqueous geochemistry, biogeochemistry, invertebrate paleontology, isotope geochemistry, geophysics, hydrogeology, igneous petrology, metamorphic petrology, paleontology, ore deposits, paleoclimatology, paleoecology, sedimentation, stratigraphy, structural geology, tectonics, and volcanology.

**Facilities and Resources**

The Geological Sciences Building houses many different research laboratories, as well as classrooms and an excellent geology library. Equipment is available for supervised student use in many fields. The Geology Field Camp is in the Wind River Mountains near Lander, Wyoming. See the Department website at https://geology.missouri.edu/grad/graduate-program.

**About the Degrees**

The master’s degree program includes a thesis and a non-thesis option, both of which require 30 credit hours beyond the bachelor’s degree. The thesis option is accomplished by taking 18 to 21 graduate course credits and preparing a written thesis involving 9-12 credits of research or problems credits. Students have until the middle of their second semester in residence at the university to choose a supervisor and a thesis topic. The non-thesis track requires 27 hours of graduate course credits plus 3 hours of research credit leading to completion of a smaller-scope research project.

The doctoral degree requires 72 hours beyond a bachelor’s degree, and may include as many as 24 hours credit from a prior master’s degree. Doctoral candidates must pass a qualifying exam during their first year in residence to assess their general background so that a meaningful program of study can be constructed. The usual doctoral program involves courses within and outside the department, and researching the dissertation topic prior to taking the comprehensive examination by the end of the second year. The results of the dissertation research are presented to the faculty and graduate students when the student has completed the project.

**Financial Aid from the Program**

Some programs require an extra form or statement from those who wish to be considered for internal assistantships, fellowships or other funding packages. Check the program website or ask the program contact for details.

**BA in Geological Sciences**

**Degree Program Description**

The Bachelor of Arts in Geological Sciences is a liberal arts degree for students interested in earth science. The curriculum provides an overview of several subdisciplines within Geology, including paleontology and hydrogeology. The degree is designed for students interested in careers in science journalism, environmental law, and urban design and planning. The degree can easily be combined with other BA degrees in the College of Arts and Science.

**Major Program Requirements**

The B.A. Curriculum is designed as a degree through which the student wishes to eventually pursue a career in teaching, journalism, law, etc. In addition to the major core requirements, students must complete all university graduation requirements including university general education (p. 33), as well as all degree and college or school requirements.

Total Credits: 126-128

**BS in Geological Sciences**

**Degree Program Description**

A Bachelor of Science degree in Geological Sciences provides students with the quantitative and conceptual skills they need to succeed in graduate work and a career as a professional geologist in industry, government or academia. The curriculum provides flexibility for students who seek to focus on a specific subdiscipline in the geosciences. Students interested in geophysics, for example, should use their electives to expand their background in math and to develop a broad knowledge of geology and geophysics. In addition, students must meet all degree, college, and university graduation requirements (p. 32) including university general education (p. 33).

**Major Program Requirements**

Majoring in geological sciences and earning a Bachelor of Science degree prepares the student for graduate work and a career as a professional geologist in industry, research or academia. The curriculum provides flexibility for students who seek to focus on a specific subdiscipline in the geosciences. Students interested in geophysics,
Minor in Geological Sciences

A minor in geological sciences consists of 15 credits in the geological sciences with 9 or more at the 2000-level or above. All courses must be taken for a letter grade, and a grade of C- or better must be earned in each course. The courses must be selected in consultation with an advisor in the department.

MS in Geology

https://geology.missouri.edu/

The master’s degree program includes a thesis and a non-thesis option, both of which require 30 credit hours beyond the bachelor’s degree. The thesis option is accomplished by taking 18 to 21 graduate course credits and preparing a written thesis involving 9-12 credits of research or problems credits. Students have until the middle of their second semester in residence at the university to choose a thesis or a research project. The non-thesis track requires 27 hours of graduate course credits plus 3 hours of research credit leading to completion of a smaller-scope research project.

PhD in Geology

Contact: Dr. Francisco Gomez
101 Geological Sciences Building
(573) 882-9744
https://geology.missouri.edu/

The doctoral degree requires 72 hours beyond a bachelor’s degree, and may include as many as 24 hours credit from a prior master’s degree. Doctoral candidates must pass a qualifying exam during their first year in residence to assess their general background so that a meaningful program of study can be constructed. The usual doctoral program involves courses within and outside the department, and researching the dissertation topic prior to taking the comprehensive examination by the end of the second year. The results of the dissertation research are presented to the faculty and graduate students when the student has completed the project.

Admission Criteria

Fall deadline: none set, but January 31st for guaranteed consideration for departmental financial aid

- Minimum TOEFL scores:
  - Internet-based test (iBT) 80
  - Paper-based test (PBT) 530

- Minimum Academic IELTS scores:
  - OVERALL 5.5

**Note on GRE Scores and GPA**: Our quantitative assessment of applicants uses a combination of GPA for the last 60 hours and the student’s GRE verbal, quantitative and analytical writing scores. We have a formula that weights the GPA and total GRE scores equally. Applicants with a GPA less than 3.0 may be considered, but their acceptance would require very strong GRE scores or exceptional circumstances.

**Required Application Materials**

To the Office of Graduate Studies:
- All required Graduate Admissions documents. We require applicants to submit applications through our online system.

To the Geological Sciences Program:
- 3 letters of recommendation (submitted through the Graduate School’s online application system)
- Personal statement (uploaded into Graduate School application online)
- GRE scores

**Financial Aid from the Program**

Some programs require an extra form or statement from those who wish to be considered for internal assistantships, fellowships or other funding packages. Check the program website or ask the program contact for details.

German

Tim Langen, Chair
College of Arts and Science
451 Strickland Hall
(573) 882-4328
grs@missouri.edu

The Department of German and Russian Studies offers courses in German and Russian language, literature, film and civilization. It also offers instruction in Arabic, Chinese, Japanese, Hebrew and Korean. Many courses, such as civilization, culture, literature in translation and film courses, do not require knowledge of a foreign language.

The department offers the Bachelor of Arts with majors in German and in Russian, and the Master of Arts in German, and in Russian and Slavonic Studies. The department also offers minors in German, Russian, Chinese Studies, Japanese Studies, and Korean Studies. Many courses in the minor in East Asian Studies are taught in the Department of German and Russian Studies. The Film Studies program is also housed in the department.

Faculty

Associate Professor S. Engelstein*, S. Franzel*, S. Ireton*, K. Kopp*
Assistant Professor S. Howes*

Associate Teaching Professor M. Fischer*
Assistant Teaching Professor M. McKinstry, O. Schmidt

• Graduate Faculty Member - membership is required to teach graduate-level courses, chair master's thesis committees, and serve on doctoral examination and dissertation committees.

** Doctoral Faculty Member - membership is required to chair doctoral examination or dissertation committees. Graduate faculty membership is a prerequisite for Doctoral faculty membership.

Undergraduate

• BA in German (p. 199)
• Minor in German (p. 199)

Dual Degrees and Double Majors

As a double major or a dual degree has become an ever more popular choice, an increasing number of students choose German or Russian as one of their majors. Students looking forward to a career in medicine or in the sciences use a double major to ensure a thorough background in the humanities to balance their scientific studies. Double majors within the College of Arts and Science can be arranged and, if the second degree program is identified early, dual degree programs outside the college are also possible. Combined programs with journalism, international studies, education and business are frequent choices. Within the college, combinations with political science, history, philosophy, art history, and the sciences are popular dual major programs.

Departmental Honors - German

Departmental honors are available for students majoring in German with a minimum 3.3 GPA. At least two literature courses must be taken at the 4000-level, with no grades below B. The equivalent of one of the courses may be completed in study abroad. Alternately, at the discretion of the department, a paper written within the capstone course may be substituted.

Graduate

• MA in German (p. 200)

College of Arts and Science
451 Strickland Hall
(573) 882-4328
https://grs.missouri.edu/german/german-graduate-program

Director of Graduate Studies: Sean Ireton

The German and Russian Studies Department offers BA and MA degrees in two cultures and languages of critical significance in the world today - German and Russian. The German program prepares students for admission to PhD programs and for professional language careers in a number of fields. Courses in language, literature, teaching techniques and skills, seminars in various specialized aspects of German studies, and directed study and research provide candidates with opportunities to acquire a comprehensive background in German studies. Teaching assistants receive training in pedagogy.

Resources and Facilities

Resources include extensive library holdings in German literature, cultural studies, and teaching methodology, and an electronically equipped audiovisual laboratory for language training.
**Financial Aid from the Program**

Some programs require an extra form or statement from those who wish to be considered for internal assistantships, fellowships or other funding packages. Check the program website or ask the program contact for details.

**BA in German**

**Degree Program Description**

The German degree is the exploration of the language, literature and culture of German-speaking countries (Germany, Austria, and Switzerland). Many of the greatest thinkers and artists of the modern era - e.g. Einstein, Freud, Nietzsche, Kant, Beethoven, Marx, Kafka, Goethe - came from these regions, while almost every discipline in the humanities, sciences, and social sciences has a strong German tradition. In addition, Germany plays a crucial role in the European Union, on the world political stage, and in economic dealings with the United States and around the world. The BA in German offers you the possibility of participating in this vibrant cultural tradition first-hand. MU German majors have successfully pursued careers in business, engineering, finance, law, journalism, government service, teaching, medicine, and the sciences, as well as in art, literature, philosophy, music, and film.

**Major Program Requirements**

The major in German consists of 27 credits in German beyond GERMAN 2100. The German faculty strongly encourages all majors to spend at least one semester studying abroad at a German university. Equivalents to all the required courses for the major are available through study abroad. In addition, students must meet all degree, college and university graduation requirements including university general education.

**Major core requirements (beyond the A&S language requirement)**

* GERMAN 2310 and GERMAN 2320 are Writing Intensive German civilization courses. Versions of both GERMAN 2310 and GERMAN 2320 taken online do NOT count towards the major or minor requirements.

**Semester Plan**

Below is a sample plan of study, semester by semester. A student’s actual plan may vary based on course choices where options are available.
MA in German

Application and Admission Information

Admission Contact Information
Dr. Kristin Kopp
koppkr@missouri.edu
218A Strickland
Columbia, MO 65211
(573) 882-3367

Admission Criteria

Fall deadline: First preference given to applications received by January 15, subsequent applications welcomed
Note: Applications received by January 15 receive first consideration

Spring deadline: August 1
Note: Applications to begin Spring semester are not encouraged. Assistantships are typically not available for graduate students beginning Spring semester.

• Minimum TOEFL scores:
  - Internet-based test (iBT)
    - 61 Effective July 1, 2015 must have score of 80
  - Paper-based test (PBT)
    - 500 Effective July 1, 2015 must have score of 550

• Minimum GPA: 3.0
• Undergraduate major in German or equivalent

Note: The department reserves the right to evaluate the work presented for admission and to determine how the student may make up for background deficiencies.

Required Application Materials

To the Office of Graduate Studies:
• All required documents

To the Program:
• Departmental application
• 3 letters of recommendation

Degree Requirements

Students must complete a minimum of 30 hours of graduate-level courses with a GPA of B or higher. No fewer than 24 hours are to be earned in German courses at the 7000 or 8000 level and at least 15 hours must be taken in German courses at the 8000 level. A thesis, with a maximum of 6 hours of credit, or a critical essay, with a maximum of 3 hours credit, are optional. Courses taken outside the department must complement the student's plan of study and require the approval of the departmental advisor. No languages other than German and English are required. Information regarding specific course requirements can be obtained by writing to the director of graduate studies.

Comprehensive Examinations

Candidates for the MA degree must pass comprehensive written and oral final examinations based on coursework and a cumulatively prepared reading list.

History

Director of Graduate Studies: Robert Smale

By any measure one might choose, the History Department at the University of Missouri is an outstanding one. Our faculty has compiled a distinguished record of scholarship, receiving major awards to support their research from the National Endowment for the Humanities, the National Science Foundation, the John Simon Guggenheim Foundation and many other sponsors of cutting edge scholarship. Their books have won prizes from the American Historical Association, the Organization
of American Historians and other national and regional scholarly organizations.

The department’s teaching record is every bit as distinguished as its record of scholarly accomplishment. Graduate students work closely with professors in advanced seminars and write theses and dissertations on a wide variety of topics. The teaching opportunities the department offers graduate students prepare them well for dealing with the difficult job market for new history Ph.Ds. Over the last ten years, University of Missouri history Ph.Ds have found positions at more than forty different colleges and universities across the United States.

Areas of Study

Lecture courses, seminars and directed research projects are available on the histories of Western Europe, East Asia, Latin America, and the United States. While students are expected to get specialized training in the fields of their choice, they are also urged to develop a broad historical background.

Facilities and Resources

Ellis Library has substantial research materials in all fields of graduate study, including an unusual collection of more than 5,000 pamphlets on 17th- and 18th-century British history and 18th- and 19th-century British and continental journals, including publications of all the major academies. The Health Sciences Library has excellent publications on the history of medicine. An additional resource is the Western Historical Manuscript Collection, a unique repository of material for regional studies in political, social and economic history. The State Historical Society of Missouri has an outstanding library of finding aids and primary and secondary works dealing with Missouri history. The graduate program also has available the resources of the Truman Library at Independence, Missouri.

Internal Funding

Applicants may compete for Office of Graduate Studies fellowships for entering students. Office of Graduate Studies fellowships require departmental nomination. Interested students should consult with the director of graduate studies for further details. The department provides qualified students the opportunity to gain college-level teaching experience as teaching assistants who conduct discussion sections in American and European history. Pending administrative approval and availability of funding, they earn at least $18,000 an academic year at the PhD level and carry nine semester hours. Each appointment is subject to annual review and may be renewed up to a maximum of six years.

BA in History

Degree Program Description

History is the chronicle of humanity’s activities throughout the ages. The study of history offers a means of understanding the present by investigating and analyzing the past. Students can choose from a wide selection of course work including courses in the history of the United States, Latin America, Europe (from ancient Greece to the present), Africa and East Asia. The curriculum provides course work in political, cultural, social, intellectual, environmental and diplomatic history. Beyond the classroom students gain hands-on experience by working as interns at sites such as the University of Missouri Archives the Boone County Historical Society and The Museum of Missouri Military History. Students skilled in research, analysis and writing are attractive to graduate schools in history, museum studies, and public affairs as well as law schools, and business schools. Many history majors obtain their teaching certificate to allow them to teach in public schools. History majors are highly recruited in many fields of business, including management, marketing and finance. Libraries, museums, archives, publishing companies, and local history and preservation projects all offer careers with the possibility of continued specialization in history. A number of our majors have also found rewarding work in city, state and federal government, including city planning, historic preservation, and working on political campaigns locally and in Washington DC.

Major Program Requirements

A student majoring in history must complete a total of 33 history credits. A grade of C- or better is required for all courses taken for the major. In addition, students must complete all university graduation requirements and Arts and Science Foundation Requirements.

<table>
<thead>
<tr>
<th>Major core requirements</th>
<th>33</th>
</tr>
</thead>
</table>

I. Introductory Courses. Choose 1 course in at least 3 of the following 5 areas. At least one course must be a “Pre-modern/Early Modern” course and one course must be a “Modern” course. (Please contact the department for a list of approved courses)

| Areas: |  |
| U. S. History, Africa/Middle East, Latin America, Europe, Asia |

II. Research Skills: HIST 2950 Sophomore Seminar

III. Area Specific Courses

Choose 3 courses, 1000 level or above, from 3 of the 5 areas listed (not to include HIST 1100, HIST 1200, HIST 1500, HIST 1510)

| Areas: | United States, Europe, Africa/Middle East, Asia, Latin America |

One course must be a 3000 level or above

IV. History Electives

Choose any 2 history courses, 3000 level or above

V. Capstone (Required Prerequisite: HIST 2950) Choose one option

| A. | One seminar (HIST 4970, HIST 4971, HIST 4972) and one 4000 level history course |
| B. | Undergraduate Thesis: HIST 4970, HIST 4971, HIST 4972 & HIST 4981 OR HIST 4980 & HIST 4981 |
| C. | Honors Thesis: HIST 4970, HIST 4971, HIST 4972 & HIST 4996 OR HIST 4995 & HIST 4996 |

VI. U.S. History Requirement

All students are required to take at least one 3 credit course in U.S. history (excluding HIST 1100 & HIST 1200). This course can be used to fulfill one of the requirements above.

Semester Plan

Below is a sample plan of study, semester by semester. A student's actual plan will vary based on course choices where options are available.
### Semester Plan

The semester plan will be similar to the plan for the BA in History (p. 201) degree.

### Minor in History

A minimum of 15 credits is required for a minor in history. At least 9 of the 15 must be in courses numbered 2000 or above. A minimum of 9 credits must be in residence, of which must be in courses numbered 2000 or above. A grade of C- or better is required for all history courses taken for the minor. However, a cumulative GPA in your minor must be at least a 2.0. The selection and mix of courses is left to the discretion of the student.

You cannot use minor coursework in your major. You cannot use the same coursework for multiple A&S minors. Once an A&S minor is awarded, a student cannot return to MU to complete a major in the same department. A minor must be posted at the same time as the major degree is posted, you cannot return after you have graduated to obtain a minor.

### MA in History

#### Admission Contact Information

Nancy Taube (tauben@missouri.edu)
101 Read Hall; Columbia, MO 65211
(573) 882-9461

#### Admission Criteria

Fall deadline: Mid-January (see departmental website for specific date)
- Minimum GPA: 3.0 in last 60 hours
- BA or BS degree
- GPA of 3.3 in undergraduate history courses, and at least 18 hours in history
- Official GRE score report, recommended but not required
- Minimum TOEFL scores (international applicants only):
  - Internet-based test (iBT): 61
  - Paper-based test (PBT): 500

Effective July 1, 2015 must have score of 80
Effective July 1, 2015 must have score of 550

Candidates who lack the necessary undergraduate hours in history must take graduate-level classes in history to remedy that deficiency before they can be considered for admission. They should consult with the director of graduate studies about appropriate classes. Graduate School regulations prohibit a non-degree student from taking more than twelve hours of course work.

Candidates must achieve a grade point average in these classes of at least 3.3 on a 4.0 scale to be considered for admission. A 3.3 GPA or higher does not guarantee admission. Course work taken as a non-degree student to remedy a deficiency in prerequisites ordinarily will not count toward the MA degree.

### Required Application Materials

To the Office of Graduate Studies:
- All required documents, including online application

---

**BA in History with Emphasis in Public History**

**Degree Program Description**

The Public History emphasis is intended for history majors interested in the application of historical studies in public settings. The course of study encompasses historical work outside of the university setting, including, museums, heritage sites, national parks, archives, public agencies, private corporations and non-profit organizations. The emphasis is designed to prepare students for graduate programs in public history, museum studies, or careers in public service.

**Major Program Requirements**

| I. Introductory Courses (same as BA degree) | 9 |
| II. Research Skills (same as BA degree) | 3 |
| III. Area Specific Courses (same as BA degree) | 9 |
| IV. History Electives | 6 |
| HIST 4910: History in the Public + 1 history course at the 3000 level or above | |
| V. Capstone (Two Internships, HIST 4940) | 6 |
| At least one internship must involve some sort of public presentation (poster session, conference presentation, museum display or digital exhibit) based on original research | |
| VI. Public History Component | |
| Two courses from above, (not to include HIST 4910 or HIST 4940) must include a digital or public history component. | |
| VI. U.S. History Requirement (same as BA degree) | |

Total Credits: 121
Mizzou
University of Missouri

- One uploaded copy of each college transcript where a degree was earned or is pending (official transcripts will be required upon admission)
- Short essay explaining goals and expectations in graduate study, including the fields in which the student plans to specialize (upload to the online application)
- Substantial writing sample, such as a final research paper from a course (upload to the online application)
- 3 letters of recommendation (submission through the online application system strongly preferred, but postal mail submission directly to the department allowed)
- Official GRE score report, recommended but not required
- Official TOEFL score for international students

Note: Incomplete applications will not be considered. It is the applicant's responsibility to ensure that all required documents have been received by the January deadline.

Financial Aid from the Program

In this department, all applicants are considered for financial aid unless they indicate otherwise. Announcements of awards are made no later than April 1. Applicants may compete for fellowships for entering students. Fellowships require departmental nomination. Interested students should consult with the director of graduate studies for further details.

The department provides qualified students the opportunity to gain college-level teaching experience as graders who grade exams and papers in American and European history. Pending administrative approval and availability of funding, they earn at least $8,000 an academic year and carry nine semester hours.

Each appointment is subject to annual review and may be renewed up to a maximum of two years.

Requirements for the Degree Residency

A minimum of two semesters of full-time enrollment (9 hours each semester) or three semesters of part-time enrollment (6 hours each semester). Enrollment in all graduate courses requires the consent of the student's advisor and the instructor(s) of the class.

Hours

Thirty semester hours of graduate credit are required by the Office of Graduate Studies for the MA degree. The Office of Graduate Studies also mandates that at least fifteen of these hours be in courses numbered 8000 or above, and will not count more than twelve hours of individually directed studies toward the thirty hours necessary to earn the degree. The department requires that at least twenty of these hours be in history. For students of United States history, at least fifteen hours must be in formally constituted US history courses. For students in the non-United States history program, at least twelve hours must be in formally constituted non-US history courses. Independently directed work does not count toward fulfilling this requirement in either category.

Required Courses

A studies course in every semester in which as many as nine credit hours are carried, unless the student is granted an exemption by the director of graduate studies. Every master's student must take HIST 8480 Historiography unless excused by the director of graduate studies. HIST 8480 is offered regularly.

Every student who is a non-thesis candidate must complete at least two research seminars before receiving the MA degree. No master's candidates in US or non-US history are required by the department to demonstrate reading proficiency in any foreign languages or to develop research skills before receiving the MA degree. Individual advisors, however, can require MA candidates to become proficient in reading foreign languages and/or develop specific research skills if they determine such knowledge is essential for the successful completion of a student's master's program. As soon as any such determination is made, students will be informed by their advisors. The advisors will also discuss with them processes for achieving and demonstrating those proficiencies.

Master's candidates in Ancient History must demonstrate proficiency in at least one ancient language (Greek or Latin) and at least one modern language (generally, either French or German) before they begin work on their theses, if they choose that alternative, or before they take the non-thesis MA examination, if they are seeking a terminal master's degree. These students should also be aware that ancient history graduate courses can include readings in Greek and Latin. For directions on how to demonstrate proficiency in these ancient and modern languages, students should talk with their advisors and obtain a written description of this process from them.

Special Note: No student will receive graduate credit for any course in which s/he earns a grade below B. The grade of C in a graduate class is the equivalent of an F in an undergraduate course.

Satisfactory Progress and Annual Review

At the beginning of every Spring semester, students must complete a “Progress Report” on the Office of Graduate Studies’ Graduate Student Progress System (sometimes referred to as “online assessment”). This report will be read by the student’s faculty advisor, who will then submit an “Advisor Response.” In addition, the student and advisor should meet to discuss the student’s progress, confirm expectations for the coming year, and address any concerns either may have regarding the report.

This is an extremely important process for two reasons. First, the advisor determines whether the student is making satisfactory progress toward a degree. If s/he is not, the advisor informs the student what needs to be done to rectify the situation. The student then usually has a year to return to making satisfactory progress. Failure to do so may result in loss of financial aid or dismissal from the program. Second, the student is making satisfactory progress, the advisor and s/he decide together on what reasonable goals are for the next twelve months. These goals will define “satisfactory progress” at the next assessment meeting.

Appeals

The student may appeal any assessment to the director of graduate studies. If not satisfied, s/he may seek the remedies described in the Graduate School catalog.

Effect of Progress Report Completion on Funding

Completion of the Graduate Student Progress System forms by both student (Progress Report) and faculty (Advisor Response) is mandatory to maintain eligibility for any form of financial aid from the department. Receipt of financial aid requires confirmation by a student’s advisor that s/he is making satisfactory progress. No student in the program who applies for or who is seeking renewal of financial aid will be eligible for aid without a complete and up-to-date Graduate Student Progress System Report on file.
Plans for MA Degrees: Thesis plan

All students who wish to apply for admission to doctoral programs in history either at the University of Missouri or at other institutions must write a thesis. A thesis involves an original and extended analysis of an historical issue that requires substantial research. The topic of the thesis must be approved in advance by the student’s faculty director and the thesis committee, which is composed of the director, at least one other member of the history faculty, and one faculty member from outside the department.

The Office of Graduate Studies regulations require that there be an outside faculty person on each thesis committee. At the discretion of the director, additional faculty members may be added to the committee. The appropriate forms, signed by the advisor and the director of graduate studies, will be submitted to the Office of Graduate Studies.

Students will take HIST 8090, Thesis Research, during those semesters they are actually engaged in writing their thesis. N.B.: The Office of Graduate Studies only permits six hours of HIST 8090 to count toward the 30 hours necessary to earn a master’s degree. Students should also note that hours earned in HIST 8090 do count toward the maximum of 12 hours of independent study, i.e., HIST 8085 (Problems), HIST 8089 (Research), and HIST 8090 (Thesis Research), the Office of Graduate Studies will accept as credit for this degree.

Plans for MA Degrees: Non-thesis plan

Students may earn a master’s degree without writing a thesis. A non-thesis MA is a terminal degree. Those who receive it will not be considered for admission to the doctoral program. These students must successfully complete two research seminars in history. These seminars will count toward the thirty hours required for an MA degree. One of the seminar papers must be submitted to the department to fulfill the Office of Graduate Studies requirement for a substantial effort reflecting creativity or originality.

Examination for the MA degree: For Thesis Plan

The student must defend her/his thesis before a committee of at least three faculty members, one of whom must be the thesis director. Another must be from a department other than History. The committee is appointed by the Office of Graduate Studies upon recommendation from the Department of History. The examining committee decides:

1. whether to recommend the awarding of the MA degree to the student
2. for prospective doctoral candidates, whether the student shall be permitted to enter the doctoral program.

This latter action constitutes a decision on the qualifying examination required in the doctoral program. Afterwards, the appropriate form(s) will be signed by the advisor, committee members, and the director of graduate studies, then sent to the Office of Graduate Studies.

Graduate School Deadlines for receipt of the MA degree

Students must meet the Office of Graduate Studies’ deadlines for the awarding of degrees and the submission of theses. The final form of the thesis must be in conformity with the Office of Graduate Studies requirements.

PhD in History

Admission Contact Information
Nancy Taube (tauben@missouri.edu)
101 Read Hall; Columbia, MO 65211
(573) 882-9461

Application Deadline
Fall deadline: Mid-January (see departmental website for specific date)

Admission Criteria

• MA in history strongly preferred
• Quality of master’s thesis or research seminar paper submission
• Official GRE score report, recommended but not required
• Minimum TOEFL scores (international applicants only):

<table>
<thead>
<tr>
<th>Internet-based test (iBT)</th>
<th>Paper-based test (PBT)</th>
</tr>
</thead>
<tbody>
<tr>
<td>61</td>
<td>500</td>
</tr>
</tbody>
</table>

Students who do not meet one or more of these criteria may enroll as non-degree graduate students. Contact the director of graduate studies for further details. All admissions of doctoral candidates who did not receive the MA degree from the department are provisional. These students must pass a qualifying examination. See below for information about the qualifying examination.

Required Application Materials

To the Office of Graduate Studies:

• All required Office of Graduate Studies documents, including Office of Graduate Studies online application
• One uploaded copy of each college transcript where a degree was earned or is pending (official transcripts required upon admission)
• Short essay explaining goals and expectations in graduate study, including the fields in which the student plans to specialize (upload to the online application)
• Substantial writing sample, such as a final research paper from a course (upload to the online application)
• 3 letters of recommendation (submission through the online application system strongly preferred, but postal mail submission directly to the department allowed)
• Official GRE score report, recommended but not required
• Official TOEFL score for international students

Note: Incomplete applications will not be considered. It is the applicant’s responsibility to ensure that all required documents have been received by the January deadline.
**Financial Aid from the Program**

In this department, all applicants are considered for financial aid unless they indicate otherwise. Announcements of awards are made no later than April 1. Applicants may compete for Office of Graduate Studies fellowships for entering students. Office of Graduate Studies fellowships require departmental nomination. Interested students should consult with the director of graduate studies for further details.

The department provides qualified students the opportunity to gain college-level teaching experience as teaching assistants who conduct discussion sections in American and European history. Pending administrative approval and availability of funding, they earn at least $18,000 an academic year and carry nine semester hours. Each appointment is subject to annual review and may be renewed up to a maximum of six years.

**Qualifying Examination**

To be admitted to candidacy for a PhD in history, a student must have earned an MA in history or a related discipline and have passed a qualifying examination.

Students with an MA from the University of Missouri

Students earning their MA in history at this university may, with the approval of their advisory committee, combine their qualifying examination with their MA thesis defense. Other students must take their qualifying examination no later than the beginning of their third semester in the graduate program at the University of Missouri-Columbia.

Students Who Earned Degrees at Other Institution

All admissions of doctoral candidates who did not receive the MA degree from the department are provisional. These students must pass a qualifying examination no later than the beginning of their third semester of residence at MU. The exam will focus on a research paper the student wrote at MU.

**About the Exam**

The examining committee will be composed of the student’s advisor and at least two other history faculty members. During the consideration of prospective students, the committee on graduate admissions will consult closely with faculty best suited to advise them.

The basis for the examination will be a substantial research-based seminar paper written here. The exam will be oral, approximately one hour in length; the examiners will include the student’s advisor and at least two other members of the department. It is designed to ascertain the candidate’s intellectual capacity, aptitude, and preparation for PhD level work in history.

The committee reserves the right to reject otherwise qualified students if:

1. this department cannot provide the applicant with an adequate program in his/her area of interest
2. no faculty member is willing to supervise his/her work.

**PhD Program Overview**

The PhD program in history at the University of Missouri-Columbia is governed by a number of rules, regulations, and expectations. What follows is an explanation of these elements of the program.

**Advisor and Advisory Committee**

A student will meet with his/her advisor no later than the semester following passage of the qualifying examination for students who earn their MA in history at the University of Missouri and prior to the qualifying examination for other students. The advisor and student together will plan the student’s class work up to the comprehensive exams. They will also choose other members of the student’s doctoral committee. That committee will ordinarily consist of the advisor, three members of the history department who are on the graduate faculty, and one graduate faculty member from outside the department. The advisory committee must be approved by the dean of the Graduate School.

**Developing a PhD Plan of Study**

The committee will meet formally with the student to help the student to develop a major field, two broad historical fields, a historical field outside his/her area of major emphasis, and one field in a discipline other than history for the comprehensive examination. How s/he will meet the foreign language and/or historical research technique requirement (see below) will be defined and approved by the advisor and the committee. Members of the advisory committee shall meet regularly with the student to ensure he/she is making satisfactory progress.

**PhD Degree Requirements**

To obtain a PhD in history at the University of Missouri, a student must fulfill the following requirements:

1. residency
2. course work
3. foreign language and/or historical/research technique
4. comprehensive examination
5. dissertation and oral defense

**Residency**

A minimum of two semesters of full-time enrollment (9 hours each semester) or three semesters of part-time enrollment (6 hours each semester). Enrollment in all graduate courses requires the consent of the student’s advisor and the instructor(s) of the class.

**Course Work**

The minimum requirement for the PhD degree at the University of Missouri is 72 hours of graduate credit beyond the baccalaureate degree. A student’s advisor and committee may require more. Customarily, students in history have more than 72 hours when they defend their dissertations. If a student has earned an MA degree at another institution, with the approval of her/his advisor and committee, s/he may receive up to 30 hours of credit toward the 72 necessary for the PhD. If a student took additional courses beyond his/her MA degree at another institution, with the approval of her/his advisor and committee, s/he may receive up to a maximum of six hours of credit toward the PhD.

Graduate School regulations forbid the awarding of more than six hours. Two-thirds of the courses taken by a PhD candidate within the department prior to the comprehensive examination must be at the 8000 or 9000 level. These may, and probably will, include History 8085 (Problems), HIST 8410 (Independent Readings PhD Exam), HIST 9089 (Research), but not HIST 9090 (Dissertation Research).
Every doctoral student who earned his/her master’s degree at another institution must take HIST 8480, Historiography, unless excused by the director of graduate studies. History 8480 is offered regularly.

Foreign Languages and Historical Research Techniques

PhD candidates must demonstrate abilities in foreign languages and/or historical research skills appropriate to the completion of a doctoral dissertation in their proposed field of research. There are four different ways a student may fulfill this requirement. Which one is chosen depends on the area of his/her research interest. The advisor and committee must approve the method for fulfilling this requirement.

**PhD Focus Areas**

**Ancient History Focus**

Candidates planning to write a doctoral dissertation in ancient history must demonstrate their competence in Greek and Latin, together with at least two modern languages (usually French and German).

For the ancient language, competence will be shown either by the successful completion of a translation examination designed by a history department faculty member with knowledge of the relevant language, or by the completion of upper-level courses in the department of classical studies, or by other such proof as the advisor and other members of the advisory committee deem appropriate.

Competence in the modern languages will be shown either by the successful completion of a translation examination designed by a history department faculty member with knowledge of the relevant language, or by passing the ETS language examination with a minimum score of 500, or by the successful completion of an upper-level language course in any modern language department of the university.

**European History Focus**

Candidates planning to write a doctoral dissertation in European history must be competent in two foreign languages.

Competence may be demonstrated either by successful completion of a research paper, the sources for which are predominantly in the foreign language under consideration, or by successful completion of a translation examination designed by a history department faculty member with knowledge of the relevant language, or by passing an ETS language examination with a minimum score of 500. A candidate’s advisory committee may also require him/her to show competence in historical research technique. An historical research technique is a specialized field of study which provides a student with additional skills for research. Quantitative methods/statistics or techniques of historical exhibition, museum work, and the analysis of material culture are some examples. Competence will be demonstrated by satisfactory completion of a substantial research paper or other historical project for which the technique is necessary.

Students who take foreign language courses should keep in mind that all classes below 7000 may not be taken for graduate credit and do not count toward the 9 hours per semester required for those receiving financial aid.

**American History Focus**

Candidates planning to write a doctoral dissertation in American history shall have a competent reading knowledge of one foreign language.

Competence in a foreign language shall be demonstrated in the ways described above for candidates in European history.

Asian or Latin American History Focus

Candidates planning to write a dissertation in Asian or Latin American history shall demonstrate a competence in such languages as their advisory committee requires for their research. In addition, a candidate’s advisory committee may require the candidate to demonstrate competence in an historical/research technique, as defined above in the American History section (3).

**Preparation for the Comprehensive Examination**

In the department of history, each doctoral student must prepare five fields for the comprehensive examinations. The selection of those fields and the faculty who will be the examiners in each should be begun by the doctoral candidate and her/his advisor during her/his first semester at MU. The advisor will help the student prepare for examination in her/his major field. This will cover significant historical themes and historiographical trends in the specific period and area of the student’s prospective dissertation topic.

Two other members of the history faculty will help the student prepare for examinations in two chronological and/or geographical areas of historical study that are appropriate for his/her dissertation topic. A fourth member of the history faculty will prepare the student for an examination in a chronological, geographical, and/or thematic area of historical study that is not directly related to his/her dissertation topic. A fifth faculty member from a department other than history will prepare the student for examination in an outside field. This will cover the methodologies and research findings of another academic discipline.

**Areas of Study and Dissertation Topics**

What the student learns in this discipline should assist his/her understanding of and research on her/his dissertation topic. The student’s choice of a discipline to work in for his/her outside field is potentially as wide as the number of programs and departments in the university. That choice is not confined merely to departments in the College of Arts and Science. The student must have his/her advisor’s approval of the discipline and the outside faculty member. The Graduate School must approve these selections as well. Within the department of history there are seven broad areas of historical study.

- US history to 1865 (including the colonial period)
- US history since 1865
- Ancient history
- European history from the fall of Rome through the Reformation
- European history since the Reformation
- Latin American history
- Asian history

The three history faculty who, together with the advisor, will help the student prepare for the comprehensive examinations, must each test him/her on material in a different broad area. Thus the student will be working on three different broad areas, plus the dissertation field. The three faculty members may, in consultation with the student, define the broad area as narrowly or as widely as they choose.

**Documenting Exam Preparation**

The advisor and the four other faculty members must explain how they want the student to prepare, what they want the student to master, and which criteria they will use to assess the examinations in their particular
field. These explanations must be in writing, and copies of each placed in the student's permanent file.

**Comprehensive Examination Requirement**

Students may take a comprehensive examination only after fulfilling their residency, course work and foreign language and/or historical research technique requirements. It will be administered by a committee consisting of the student's advisor and four other faculty members, one from a discipline other than history. These should be the faculty members who helped the student prepare for the examinations. Sometimes it may be necessary to find substitutes. The director of graduate studies and the Graduate School must approve any substitutions, and new committee members must describe their expectations in writing for the student and for his/her permanent file.

**Comprehensive Exams Processes**

The comprehensive exams are given in two stages. The first is a series of at least three written exams. The second is an oral examination, which is conducted if the student passes the written portion. A report of the decision, signed by all members of the committee, must be sent to the Graduate School and the student no later than two weeks after the comprehensive exam is completed. One of the written exams must be in the major field; the committee will determine the subjects of the other exams, and their number.

Special Note: All members can require the student to write on their areas of expertise. Therefore the written examinations could cover all five areas.

All members of the committee will read the written exams and discuss them within two weeks after their completion. If they determine the student has not successfully completed the exam, they will inform him/her immediately and discuss the results. Failure ends the comprehensive exam at this point. The committee must provide the student with an outline in writing of the weaknesses and deficiencies of his/her work.

A copy of this must be placed in the student's permanent file. If at any time the student believes that parts of the exam are unclear, or the decision of the committee is incorrect, or the advice given by the committee is inadequate, s/he may send a written request for clarification and rectification to the committee. A copy of this request should be sent to the Graduate School as well. The committee must respond to this request in writing within two weeks and a copy must be filed with the department and the Graduate School.

At least 12 weeks must pass before a student who failed can take the comprehensive exams again.

If the committee determines that the student did satisfactory work on the written examinations, they will schedule an oral examination. This second stage of the comprehensive exams will cover all five fields. Each member of the committee will test the student. At the end of the oral examinations, the committee discusses the student's performance on each field and on the entire examination. This discussion includes both the written and the oral parts of the whole process. Then they vote pass, fail, or abstain on the student's total performance on the exam.

**Criteria for Successful Completion of the Comprehensive Exam**

To complete the comprehensive exams successfully, the student must receive a vote of pass from at least four of the five examiners. Should two or more votes be negative or abstentions, the committee follows the same procedure outlined above for failure to pass the written part. These students must repeat the entire examination, not just the fields failed, and not just the oral portion. If the candidate fails the second examination, the examining committee must enter on its report to the dean of the Graduate School a recommendation to prevent the student's further candidacy.

**Dissertation and Oral Defense**

Soon after successful completion of the comprehensive examination, the student and advisor will form a dissertation committee of five faculty members. One member of the committee must be from outside the department. The student shall develop a dissertation topic and a plan of research. S/he should keep in regular contact with the advisor. Together they shall decide when written work will be read by other members of the committee.

**Travel Funding**

When students begin work on their doctoral dissertations, they may apply for departmental fellowships and travel grants to assist their research and writing.

**Satisfactory Progress**

The department requires PhD candidates to make satisfactory progress towards completion of their degree.

**Annual Review**

At the beginning of every Spring Semester, students must complete a “Progress Report” on the Graduate School’s Graduate Student Progress System. This report will be read by the student’s faculty advisor, who will then submit an “advisor Response.” In addition, the student and advisor should meet to discuss the student’s progress, confirm expectations for the coming year, and address any concerns either may have regarding the report.

This is an extremely important process for two reasons. First, the advisor determines whether the student is making satisfactory progress toward a degree. If s/he is not, the advisor informs the student what needs to be done to rectify the situation. The student then usually has a year to return to making satisfactory progress.

Failure to do so may result in loss of financial aid or dismissal from the program. Second, if the student is making satisfactory progress, the advisor and s/he decide together on what reasonable goals are for the next twelve months. These goals will define “satisfactory progress” at the next assessment meeting.

**Appeals**

The student may appeal any assessment to the director of graduate studies. If not satisfied, s/he may seek the remedies described in the Graduate School catalog.

**Funding Impact of Incomplete Reports**

Completion of the Graduate Student Progress System forms by both student (Progress Report) and faculty (Advisor Response) is mandatory.
to maintain eligibility for any form of financial aid from the department. Receipt of financial aid requires confirmation by a student’s advisor that s/he is making satisfactory progress. No student in the program who applies for or who is seeking renewal of financial aid will be eligible for aid without a complete and up-to-date Graduate Student Progress Report on file.

Rate of Completion
A PhD student must successfully complete the comprehensive examination within a period of five years beginning with the first semester of enrollment as a PhD student. For an extension of this the student must petition the Graduate School by submitting a request to the advisor who, in turn, submits a written recommendation to the Graduate School. The director of graduate studies will also make a written recommendation. In addition, the dissertation must be successfully defended within five years of passing the comprehensive examination. On petition of the candidate and the candidate’s department, an extension of time may be granted by the Graduate School.

Interdisciplinary
Office of Multidisciplinary Degrees
College of Arts and Science
114 Switzler Hall
(573) 882-6060
omd.missouri.edu

Faculty
Faculty members are housed in departments and schools throughout the University of Missouri.

* Graduate Faculty Member - membership is required to teach graduate-level courses, chair master’s thesis committees, and serve on doctoral examination and dissertation committees.

** Doctoral Faculty Member - membership is required to chair doctoral examination or dissertation committees. Graduate faculty membership is a prerequisite for Doctoral faculty membership.

Undergraduate
• BA in Interdisciplinary (p. 208)
  • with emphasis in Black Studies (p. 209)
  • with emphasis in Environmental Studies (p. 210)
  • with emphasis in Peace Studies (p. 211)
  • with emphasis in Women’s and Gender Studies (p. 212)

Interdisciplinary Studies provides for the needs and interests of individual students who are not being served by one of the existing majors. The Office of Multidisciplinary Degrees is responsible for a variety of multidisciplinary majors, including Interdisciplinary Studies, International Studies, and General Studies. The website is omd.missouri.edu.

Graduate
While MU does not offer graduate degrees specifically in interdisciplinary, the University does offer post-baccalaureate opportunities in a number of related areas, both within the College of Arts and Science, and in the other Schools and Colleges that make up the University. The catalog provides a complete list of these degree options (p. 17).

---

**BA in Interdisciplinary**

**Degree Program Description**

The Bachelor of Arts in Interdisciplinary Studies (IDS) degree in the College of Arts and Science is available to students who have explored various departments at MU and discovered that their academic interests and goals are not easily accommodated in any one major. IDS degree requirements allow students to build an individualized major that is integrative, multidisciplinary, and reflects their personal academic interests and career goals. Students are attracted to IDS for various reasons: a desire to create a unique degree, broad interests, a need for flexibility, timely degree completion, or preparation for further study at the graduate level. Career options are as varied as the combination of curricula.

**Major Program Requirements**

Students majoring in Interdisciplinary Studies may design an individual course of study. Students with very specific career plans and goals not easily accommodated in any one department may find this program suited for their needs. Others may find that this option permits a broader approach than the major found in a single department.

The Interdisciplinary Studies major is comprised of two or three components to total 36 credits. A component consists of course work from a single department or area, which may include programs outside the College of Arts and Science (e.g., Journalism, Business or Social Work). At least 18 hours must come from the College of Arts and Science. In addition to the 36 hours required in the major components, Interdisciplinary Studies students must also complete a 3-credit capstone.

Interdisciplinary Studies candidates must earn no less than a 2.0 GPA in each component. They are bound by rules and practices of the College of Arts and Science that pertain to admission to degree programs, the awarding of credit, and the awarding of degrees. Students must complete college as well as University requirements (p. 32), including University general education (p. 33).

**Major Core Requirements**

Area of concentration (select one option) 36

- Three components of 12 credits each
- Three components, one of 15, one of 12 and one of 9 credits
- Two components of 18 credits each
- Two components, one of 21 and one of 15 credits

All courses in the major must be at the 2000 level, and at least 15 credits must be 3000 level or above.

A minimum of 12 credit hours within all components must be MU courses.

A maximum of 6 hours of Internship may apply to graduation.

A maximum of 12 hours of Internship, Readings and/or Special Problems may apply to graduation.

**Capstone requirement** (to be completed during final 45 hours of course work)

There are several ways a student can complete the capstone experience in Interdisciplinary Studies.

1. Special Readings project: With this option, the student completes an independent research project under the supervision of a faculty...

BA in Interdisciplinary with Emphasis in Black Studies

Degree Program Description

Students in Black Studies learn about the varied experiences of people of African descent from various fields including arts and the humanities, the social sciences, the hard sciences, public policy, education, and law, to name a few. This interdisciplinary field of study focuses on African Americans, Africans, and other people in the African Diaspora. A BA in Interdisciplinary with an emphasis in Black Studies challenges students to learn about and critically analyze the global experiences of people of African descent, including conditions that have shaped their past, as well as their present lives. The degree provides knowledge in the following: critical thinking skills to understand and effectively articulate experiences and contributions of the people who share a common heritage; ability to critically think, research, write, and analyze the black experience; communication (both oral and written), problem solving, strategic planning and a range of research skills. Students acquire such skills while they develop in-depth knowledge that is beneficial to careers in multicultural, cross-cultural, and diversity consulting, all of which are critical in 21st century employment. In addition, graduates of the degree often pursue employment or graduate studies in academic fields such as Social and Intellectual Movements, Politics, Sociology, Literature, Psychology, Music, Art, History, and many others.

Major Program Requirements

Emphasis in Black Studies - Coordinated with the Department of Black Studies, an academic department in the College of Arts and Science

Stephanie Shonekan, Chair
311 Gentry Hall
(573) 882-4326

The Department of Black Studies offers an interdisciplinary curriculum leading to a dual major or minor in the College of Arts and Science.

Emphasis core requirements

• Completion of an area of concentration in another Arts and Science program or department
• Completion of an interdisciplinary area of concentration of at least 32 credits in Black Studies and related courses

In selecting a language to meet general education requirements in the College of Arts and Science, students are encouraged to consider Spanish, Portuguese or French.
Semester Plan
Refer to the Semester Plan for the BA in Interdisciplinary Studies (p. 208).

BA in Interdisciplinary with Emphasis in Environmental Studies

Degree Program Description
The Bachelor of Arts in Interdisciplinary Studies with an emphasis in Environmental Studies is an individually-designed major for students interested in acquiring a broad understanding of environmental issues and the complex causes underlying them. Students design their major to reflect their own interests and goals in the field. Individualized majors of this kind require a higher level of commitment than is typical of traditional majors because students must do the work of building their own degree. The program prepares students for graduate study and careers in education, law, business, public policy, humanitarian aid, non-profit organizations, and government. The majority of students with the degree work in areas such as advocacy and outreach as well as policy and regulation.

Major Program Requirements
The Bachelor of Arts in Interdisciplinary Studies with an emphasis in Environmental Studies is an individually-designed major for students interested in acquiring a broad understanding of environmental issues and the complex causes underlying them. Students design their major to reflect their own interests and goals in the field. Individualized majors of this kind require a higher level of commitment than is typical of traditional majors because students MUST do the work of building their own degree. The program prepares students for graduate study and careers in education, law, business, public policy, humanitarian aid, non-profit organizations, and government. The majority of students with the degree work in areas such as advocacy and outreach as well as policy and regulation. Find additional information and course options at https://omd.missouri.edu/?q=env-st/index.

Students in this major must complete 5 specified Core courses to fulfill College of Arts and Science Foundation Requirements and an additional 39 hours minimum for the major. D-range grades are not allowed in the major. In addition, students must complete all university graduation requirements and Arts and Science Foundation Requirements.

Required Core Coursework
Math Reasoning Proficiency (MRP)
- Complete a statistics course designated as MRP with a C- grade or higher.
- MRP courses are listed at the MU General Education website (http://generaleducation.missouri.edu/requirements/math).
- Recommended course options are STAT 1200, STAT 1300 or STAT 1400.

Biological, Physical, and Mathematical Sciences
- Complete a general education approved Biological Sciences course. BIO_SC 1010, BIO_SC 1060, BIO_SC 1200, or BIO_SC 1500 are recommended course options.
- Complete a general education approved Geology course. GEOL 1100 or GEOL 1200 are the recommended course options.
- Complete a general education approved Chemistry course. CHEM 1100, CHEM 1320 and CHEM 1330 are recommended course options.
- One lecture with a corresponding laboratory must be completed.
- Laboratories should be taken with the corresponding lecture or after the lecture course is completed, but not before completing the corresponding lecture course.

Social Sciences
- Complete a general education approved Economics or Agricultural Economics course. ECONOM 1014, ECONOM 1015, AG_EC 1041, or AG_EC 1042 are recommended.

Major Requirements
Policies
- A total of 39 hours is required for the major.
- Students must complete 30 hours numbered 2000 or higher in the major.
- 18 hours numbered 3000 level or higher are required in the major.
- D-range grades are not allowed in the major.

Natural Dimensions
- Complete 15 hours of coursework in this section.
- The course levels will be determined by the academic advisor.
- Refer to the list of Natural Dimensions (https://omd.missouri.edu/?q=env-st/courses/natural-dimensions) courses to find options.

Social Dimensions
- Complete 15 hours of coursework in this section.
- The course levels will be determined by the academic advisor.
- Refer to the list of Social Dimensions (https://omd.missouri.edu/?q=env-st/courses/social-dimensions) courses to find options.

Practicum Core
- Complete AG_EC 2070 or NAT_R 2160.
- Complete 3 hours of Service Learning, Internships, or Readings.
- Complete an additional 3 hours of Service Learning, Internships, or Readings.
- Service Learning, Internship, or Readings can be taken as a single course for 6 hours.

Service Learning, Internships, & Readings
Policies
- The Capstone must be completed in the final 45 hours of coursework.
- Students must earn a C- or higher to fulfill the Capstone requirement.
- Students must have a Capstone approved by their academic advisor.
- Students may complete an Internship or Readings that is not used as a Capstone.
- Students may not earn retroactive credit for internships.

Internships 4940
- Students must have a 2.0 cumulative GPA to apply for approval of an internship project.
• Students must not have any active Student Conduct holds.
• Students may not complete an internship at an existing position.
• Students must work 50 hours for each credit hour earned.
• Only internships in the United States can be approved.
• During the Internship period, students must submit the following assignments:
  a. a well-written proposal outlining the details of the internship must accompany the application
  b. a carefully-prepared factual report about the internship which addresses the questions outlined in the student’s internship proposal
  c. a résumé which includes the student’s internship experience and documents the tangible skills they attained while working
  d. an interpretative essay in which students connect what they have learned from their internship experience with their academic work in their individualized major
• Internship supervisors must submit a performance evaluation.
• Internships receive a grade of S or U (pass/fail).
• The Office of Multidisciplinary Degrees reserves the right to deny internship project approval to any student it believes will not be a good representative of the University.

Readings 4960

Students work independently with MU faculty on research and/or professional projects. A student finds a campus professor with whom to work. Together, they create concrete objectives for a meaningful project. The professor guides and supervises the student towards completion of the project and is responsible for awarding a letter grade for the course.

Service-Learning 4970

Service-Learning provides hands-on experience in service experiences that are coordinated in collaboration with MU and the community. Service-Learning experiences create valuable learning environments for students as they connect with the community in partnerships that provide effective and far-reaching assistance to those in need. To apply, students must have a 2.5 GPA or higher.

BA in Interdisciplinary with Emphasis in Peace Studies

Degree Program Description

Peace Studies is offered as an emphasis area in the BA in Interdisciplinary Studies. Students with this emphasis examine issues related to global peace and social justice. The emphasis in Peace Studies helps prepare students for employment, volunteer assignments, and graduate study in such areas as conflict resolution, human rights, humanitarian assistance, sustainable development, social justice, nonviolent social change, and the understanding of global cultural diversity.

Major Program Requirements

Clarence Lo, Ph.D, Director
326 Middlebush Hall
(573) 882-1736
loc@missouri.edu

The peace studies emphasis area addresses a wide range of issues concerning peace and justice, including international and civil war and peace; global social and environmental justice; nonviolent social movements, process, and change; cultures, intellectuals, and war and peace; and indigenous peoples and the imperial state. Our courses provide a liberal arts foundation: students explore values to set goals; they evaluate evidence to assess alternate means to achieve goals. Some courses focus on practical issues of community organization (PEA_ST 4341), sustainable development (PEA_ST 1120) and construction, and public health (PEA_ST 3401), that students are likely to encounter in work, internship, or volunteer positions. Study abroad
Courses taught by MU faculty are regularly offered. Since issues of peace and conflict cut across disciplines, the curriculum includes courses offered by both the program itself and cross listed between Peace Studies and other programs and departments of the University.

Other Peace Studies courses counted toward the emphasis requirements 15

**Semester Plan**

Refer to the Semester Plan for the BA in Interdisciplinary Studies (p. 208).

**BA in Interdisciplinary with Emphasis in Women's and Gender Studies**

**Degree Program Description**

Women's and Gender Studies is the interdisciplinary, feminist study of the social, cultural, and historical processes that effect gender human identity. The BA in Interdisciplinary with an emphasis in Women's and Gender Studies combines a broad range of approaches and methods with innovative classroom experiences and teaching. Students learn to integrate women's, gender, and/or queer studies with analyses of race, ethnicity, religion, spirituality, nationality, and class, and to think critically and synthetically about the multiple axes of power through which sexual and gendered identities are constructed. Courses encourage students to analyze the world in which they live, in order that they might act to transform it. An emphasis in Women's and Gender Studies prepares students for many different employment opportunities. Some fields include arts, business, education, healthcare, media, politics, law, social work and social services.

**Major Program Requirements**

Interdepartmental Program in the College of Arts and Science
Joan Hermson, Chair
Mary Jo Neitz, Director of Undergraduate Studies
325 Strickland Hall
(573) 882-2703

Students may earn a Bachelor of Arts in the College of Arts and Science with an Interdisciplinary Studies major and an emphasis in Women's and Gender Studies. A minor is also available as are departmental honors. Please consult the Women's and Gender Studies department for more information.

Advising of students and assistance in designing student-tailored academic plans is available from the Women's and Gender Studies department office.

The curriculum includes Women's and Gender Studies core courses as well as cross-listed courses from several departments throughout
the University. These courses assume that knowledge cannot be separated from the study of women and gender, and that gender and sexuality are fundamental categories of analysis in all disciplines. The department stresses interdisciplinary scholarship and teaching that are broadly comparative and range across multiple cultures, national and transnational contexts, and historical periods. Its faculty employ a broad range of theoretical approaches and methods.

When students graduate with an emphasis in Women's and Gender Studies, they should be able to:

- Apply cross-cultural and global awareness to "big questions" about women and gender
- Have a comprehensive grasp of intersectionality and matrices of domination
- Think critically: i.e. consider an issue from multiple perspectives; locate, evaluate and interpret diverse sources, including statistics; engage in critical self-reflection
- Construct arguments with evidence obtained from research
- Work collaboratively
- Recognize sexist/racist writing and thinking
- Connect knowledge and experience, theory and activism, Women's and Gender Studies materials with other courses
- Communicate effectively in writing and speech
- Apply knowledge for social transformation, citizenship
- Use gender (and other identity categories) as a category/ies for analysis

An emphasis in Women's and Gender Studies prepares students for many different employment opportunities. Some fields include arts, business, education, healthcare, policy, media, politics, law, social work and social services. Because of the diversity of Women's and Gender Studies, the WGST emphasis can be combined with a number of other potential majors to create a dual degree. Many students choose to combine two areas of study, such as Women's and Gender Studies and Sociology, or Women's and Gender Studies and Journalism. This results in a student receiving one degree with two areas of specialization that reflect the student's unique academic interests and his/her individually-designed course of study.

Thirty hours are required in Women's and Gender Studies. In addition to degree requirements, college and university requirements (p. 32), including university general education requirements (p. 33), must be met.

### Required Core Courses

### Additional Courses

Students take an additional 15 hours selected from the lists of courses below. Students are encouraged to select the bulk of their elective coursework from the first list, Emphasis Core Courses, and must take a minimum of 9 hours from this list. Courses from the third list, Special Semester Topics Courses, may be either Emphasis Core Courses or Cross-listed Courses. Please seek advise from the department on which requirement these courses fulfill. 12 hours must be at 2000 level or above.

**International Studies**

Office of Multidisciplinary Degrees  
College of Arts and Science  
114 Switzler Hall  
(573) 882-6060

[International Studies](https://omd.missouri.edu/?q=intl-st/index)

The Bachelor of Arts in International Studies is an individually designed major with a strong multicultural and global focus. Students in the major have the opportunity to design a major that reflects their own interests and goals. The increased level of flexibility requires a higher level of commitment than is typical of traditional majors because students MUST do the work of building their own degree.

International Studies majors acquire analytical skills and knowledge that will enable them to understand and contribute to shaping the quickly evolving global community. The program prepares students for graduate study and careers in academia, teaching, law, business, public policy, humanitarian aid, non-profit organizations, government, and diplomacy. Students in the program will study advanced foreign language and participate in a study abroad experience to fulfill degree requirements.

[International Business](https://omd.missouri.edu/?q=intl-bus/index)

The dual degree program in International Business leads to the BS in Business Administration from the Trulaske College of Business and the BA in International Studies from the College of Arts & Science. This degree typically takes 4 1/2 to 5 years to complete. Students in the program will study advanced foreign language and participate in a study abroad experience to fulfill degree requirements.
International Studies majors acquire analytical skills and knowledge that will enable them to understand and contribute to shaping the quickly evolving global community. The program prepares students for graduate study and careers in academia, teaching, law, business, public policy, humanitarian aid, non-profit organizations, government, and diplomacy.

Faculty

Faculty for International Studies are housed within other departments.

Undergraduate

• BA in International Studies (p. 215)
  • with emphasis in East Asian Studies (p. 217)
  • with emphasis in Environmental Studies (p. 217)
  • with emphasis in European Studies (p. 217)
  • with emphasis in International Business (p. 218)
  • with emphasis in Latin American Studies (p. 218)
  • with emphasis in Peace Studies (p. 218)
  • with emphasis in South Asian Studies (p. 219)

Graduate

While the College does not offer a graduate degree specific to international studies, the Office of Graduate Studies does offer a graduate academic Minor in International Development (p. 733).

This catalog provides a complete list of graduate degree options (p. 17) for all Schools and Colleges at the University of Missouri.

BA in International Studies

Degree Program Description

The Bachelor of Arts in International Studies is an individually designed major with a strong multicultural and global focus. Students in the major have the opportunity to design a major that reflects their own interests and goals. The increased level of flexibility requires a higher level of commitment than is typical of traditional majors because students MUST do the work of building their own degree. International Studies majors acquire analytical skills and knowledge that will enable them to understand and contribute to shaping the quickly evolving global community. The program prepares students for graduate study and careers in academia, teaching, law, business, public policy, humanitarian aid, non-profit organizations, government, and diplomacy. Students in the program will study advanced foreign language and participate in a study abroad experience to fulfill degree requirements.

Major Program Requirements

A student majoring in the BA in International Studies must complete 18 hours of specified Core coursework to fulfill Arts and Science Foundation Requirements, an additional 42 hours minimum for the major, and a study abroad experience. D-range grades are not allowed in the major. In addition, students must complete all university graduation requirements and Arts and Science Foundation Requirements. The information below pertains to the BA in International Studies and additional information can be found at https://omd.missouri.edu/?q=intl-st/index. Students interested in the dual degree in International Business, which is a different major, should find additional information at https://omd.missouri.edu/?q=intl-bus/index.

Required Core Coursework

Complete the following courses:

- ANTHRO 2030 Cultural Anthropology 3
- GEOG 1100 Regions and Nations of the World I 3
  or GEOG 1200 Regions and Nations of the World II 3
- POL_SC 1400 International Relations 3
  or POL_SC 2700 Comparative Political Systems 3

In addition, complete 3 of the following courses and at least one of the courses completed must come from the Humanities section:

- ANTHRO 2050 Introduction to Biological Anthropology with Laboratory 5
- ANTHRO 2051 Introduction to Biological Anthropology 3
- ATM_SC 1050 Introductory Meteorology 3
- ATM_SC 2150 Natural Hazards 3
- ATM_SC 3600 Climates of the World 3
- BIO_SC 1060 Basic Environmental Studies 3
- BIO_SC 1400 Evolution for Everyone 3
- GEOL 1050 Planet Earth 3
- GEOL 1100 Principles of Geology with Laboratory 4
- GEOL 1200 Environmental Geology with Laboratory 4
- GEOL 1250 The World's Oceans 3

Behavioral Sciences Core Courses

- ANTHRO 1000 General Anthropology 3
- PEA_ST 2000 Exploration in Social and Economic Justice 3
- SOCIOL 1000 Introduction to Sociology 1-3
  or RU_SOC 1000 Rural Sociology 3
- SOCIOL 2200 Social Inequalities 3
- WGST 2040 Perspectives on Empowerment 3
- WGST 2250 Perspectives on Gender, Race, Class and Sexuality in the Americas 3

Social Sciences Core Courses

- ECONOM 1014 Principles of Microeconomics 3
  or AG_EC 1041 Applied Microeconomics 3
- ECONOM 1015 Principles of Macroeconomics 3
  or AG_EC 1042 Applied Macroeconomics 3
- PEA_ST 1050 Introduction to Peace Studies 3
- WGST 1120 Introduction to Women's and Gender Studies 3

Humanities Core Courses (at least one course from the list below is required)

- ARCHST 1600 Fundamentals of Environmental Design 3
- AR_H_A 1110 Ancient and Medieval Art 3
- AR_H_A 1120 Renaissance through Modern Art 3
- ENGLISH 2155 Introduction to World Literatures 3
- ENGLISH 2156 Introduction to World Literatures, Beginnings to 1603 3
- ENGLISH 2157 Introduction to World Literatures, 1603 to 1789 3
- ENGLISH 2158 Introduction to World Literatures, 1789 to 1890 3
- ENGLISH 2159 Introduction to World Literatures, 1890 to Present 3
- FILM_S 2820 Trends in World Cinema 3
- GN_HON 2112H The Middle Ages and the Renaissance 3
Major Requirements (42 hours minimum)

**Language Requirements (6 hours minimum)**

For the major, students must complete 6 hours minimum of conversation and/or composition courses in a single foreign language, beyond the elementary level.

**Regional/Cultural Area (12 hours minimum)**

Could include additional language and literature courses from the language of major study, as well as coursework with an international focus from Philosophy, Religious Studies, Art History, Film Studies, and Civilization courses.

**Social/Behavioral Sciences Area (12 hours minimum)**

Could include coursework with an international focus from Geography, History, Political Science, Economics, Anthropology, Sociology, Rural Sociology, Women's and Gender Studies and Peace Studies.

**Focus Area (12 hours minimum)**

Course work with an international focus from an area of the student’s choice allowing the study of one area in depth. The focus area must be related to the foreign language the student is studying. Students are encouraged to take 9 credits from a single department or area. The 3-credit capstone experience will equal 12 hrs. of credit. See information on the capstone options below. The focus area options are: East Asian Studies, Environmental Studies, European Studies, Latin American Studies, Peace Studies, or South Asian Studies.

**Capstone Options**

**Policies**

- The Capstone must be completed in the final 45 hours of coursework.
- Students must earn a C- or higher to fulfill the Capstone requirement.
- Students must have a Capstone approved by their academic advisor.
- Students may complete an Internship or Readings that is not used as a Capstone.
- Students may not earn retroactive credit for internships.

**Internships 4940**

- Students must have a 2.0 cumulative GPA to apply for approval of an internship project.

BA in International Studies with Emphasis in East Asian Studies

Degree Program Description

The Bachelor of Arts in International Studies is an individually designed major with a strong multicultural and global focus. The emphasis in East Asian Studies focuses on creating an understanding and awareness of the culture, history, politics, geography and languages of the East Asian countries, with an emphasis in China, Japan or Korea. The program is multidisciplinary, encompassing course work from the departments of Geography, History, Anthropology, Religious Studies, Political Science and Philosophy, as well as in Chinese, Japanese and Korean. Students are encouraged to begin study of their foreign language no later than the sophomore year. The program prepares students for graduate study and careers in academia, teaching, law, business, public policy, humanitarian aid, non-profit organizations, government, and diplomacy.

Major Program Requirements

Refer to the program requirements for the BA in International Studies (p. 215). East Asian Studies is one of the emphasis areas in the International Studies major. The program is multidisciplinary, encompassing course work from the departments of Geography, History, Anthropology, Religious Studies, Political Science and Philosophy, as well as in Chinese, Japanese and Korean. The program focuses on creating an understanding and awareness of the culture, history, politics, geography and languages of the East Asian countries, with an emphasis in China, Japan or Korea. Students are encouraged to begin study of their foreign language no later than the sophomore year. Students should consult with the International Center about appropriate locations for their study abroad experience.

Semester Plan

Refer to the program requirements for the BA in International Studies (p. 215).

BA in International Studies with Emphasis in Environmental Studies

Degree Program Description

The Bachelor of Arts in International Studies is an individually designed major with a strong multicultural and global focus. The Environmental Studies emphasis is for students interested in developing a broad understanding of environmental problems and their underlying causes so they can work effectively in the areas of environmental advocacy, outreach, policy, and regulation. The program prepares students for graduate study and careers in academia, teaching, law, business, public policy, humanitarian aid, non-profit organizations, government, and diplomacy.

Major Program Requirements

Refer to the program requirements for the BA in International Studies (p. 215). The Environmental Studies emphasis is for students interested in developing a broad understanding of environmental problems and their underlying causes so they can work effectively in the areas of environmental advocacy, outreach, policy, and regulation.

Semester Plan

Refer to the program requirements for the BA in International Studies (p. 215).

BA in International Studies with Emphasis in European Studies

Degree Program Description

European studies is an emphasis area in the International Studies major. Students who are studying French, Spanish, German, Italian or Russian may wish to select European studies as their emphasis area. The student examines the politics, culture, history and geography of the European...
continent, with a focus on the country whose native language is being studied by the student. Given the multidisciplinary approach to this degree, students take courses that are specifically geared to a better understanding of the culture, history, and language of a given country, as well as a better understanding of the entire continent of Europe. The program prepares students for graduate study and careers in academia, teaching, law, business, public policy, humanitarian aid, non-profit organizations, government, and diplomacy.

**Major Program Requirements**

Refer to the program requirements for the BA in International Studies (p. 215). European studies is an emphasis area in the International Studies major. Students who are studying French, Spanish, German, Italian or Russian may wish to select European studies as their emphasis area. The student examines the politics, culture, history and geography of the European continent, with a focus on the country whose native language is being studied by the student. Given the multidisciplinary approach to this degree, students take courses that are specifically geared to a better understanding of the culture, history, and language of a given country, as well as a better understanding of the entire continent of Europe.

**Semester Plan**

Refer to the program requirements for the BA in International Studies (p. 215).

**BA in International Studies with Emphasis in International Business**

**Degree Program Description**

The dual degree program leads to the BS in Business Administration with emphasis in one of the four International Business areas and the BA in International Studies with emphasis in International Business. This dual degree typically takes 4 1/2 to 5 years to complete. Students in the program will study advanced foreign language and participate in a study abroad experience to fulfill degree requirements. International Business majors acquire analytical skills and knowledge that will enable them to understand and contribute to shaping the quickly evolving global community. The program prepares students for graduate study and careers in academia, teaching, law, business, public policy, humanitarian aid, non-profit organizations, government, and diplomacy.

**Major Program Requirements**

Refer to the website at https://omd.missouri.edu/?q=intl-bus/index. The dual degree program in International Business leads to the BS in Business Administration from the Trulaske College of Business and the BA in International Studies from the College of Arts & Science. This degree typically takes 4 1/2 to 5 years to complete. Students in the program will study advanced foreign language and participate in a study abroad experience to fulfill degree requirements.

International Business majors acquire analytical skills and knowledge that will enable them to understand and contribute to shaping the quickly evolving global community. The program prepares students for graduate study and careers in academia, teaching, law, business, public policy, humanitarian aid, non-profit organizations, government, and diplomacy.

**Semester Plan**

Refer to the program requirements for the BA in International Studies (p. 215).

**BA in International Studies with Emphasis in Latin American Studies**

**Degree Program Description**

Latin American Studies is offered as an emphasis area for the BA in International Studies. The Latin American Studies emphasis is designed to offer, in addition to linguistic competency in Spanish or Portuguese, a broad base of knowledge about Latin American politics, literature, economics and culture. This field of inquiry, alone or in combination with another discipline, is in high demand throughout the world and can provide students with an indisputable competitive edge in the contemporary professional arena. Students who graduate with an emphasis in Latin American Studies will be fully prepared to pursue graduate study in Latin American Studies programs offered around the country. Students are encouraged to study abroad in one of many program opportunities in Spain, Mexico, Central and South America, Brazil or the Caribbean.

**Major Program Requirements**

Refer to the program requirements for the BA in International Studies (p. 215). Latin American Studies is offered as an emphasis area for the BA in International Studies. The Latin American Studies option is designed to offer, in addition to linguistic competency in Spanish or Portuguese, a broad base of knowledge about Latin American politics, literature, economics and culture.

This field of inquiry, alone or in combination with another discipline, is in high demand throughout the world and can provide students with an indisputable competitive edge in the contemporary professional arena. Students who graduate with an emphasis in Latin American Studies will be fully prepared to pursue graduate study in Latin American Studies programs offered around the country.

Students are encouraged to study abroad in one of many program opportunities in Spain, Mexico, Central and South America, Brazil or the Caribbean.

**Semester Plan**

Refer to the program requirements for the BA in International Studies (p. 215).

**BA in International Studies with Emphasis in Peace Studies**

**Degree Program Description**

Peace Studies is offered as an emphasis area for the BA in International Studies. Students with this emphasis examine issues related to global peace and social justice - in the international arena. The emphasis in Peace Studies helps prepare students for employment, volunteer assignments, and graduate study in such areas as conflict resolution, human rights, humanitarian assistance, sustainable development,
Refer to the program requirements for the BA in International Studies (p. 215). Students may opt for an emphasis in Peace Studies. Students with this emphasis examine issues related to global peace and social justice - in the international arena. The emphasis in Peace Studies helps prepare students for employment, volunteer assignments, and graduate study in such areas as conflict resolution, human rights, humanitarian assistance, sustainable development, social justice, nonviolent social change, indigenous peoples, and the understanding of global cultural diversity. The courses for the emphasis in Peace Studies center on those offered through the Peace Studies program, many of which are cross-listed with other departments. In addition, students can count towards the Peace Studies emphasis other courses from departments such as Black Studies, English, Geography, History, Political Science, Religious Studies, Romance Languages, and Women's and Gender Studies. Peace Studies courses counting for the emphasis can be drawn from the list shown on the Peace Studies minor page (p. 318).

Semester Plan
Refer to the program requirements for the BA in International Studies (p. 215).

BA in International Studies with Emphasis in South Asian Studies

Degree Program Description
The South Asian Studies emphasis offers courses in history, politics, philosophy, religion, culture, social life and languages of India. It thus provides the opportunity for study of an ancient and extensive civilization with a significant role in human history. An emphasis in South Asian Studies prepares students to enter MA and PhD programs in this area of specialization, which often provide intensive summer language programs. An advanced degree opens a variety of professional and job opportunities for those planning to work in such fields as international business, trade and diplomacy, international law or agricultural development, among others.

Major Program Requirements
Refer to the program requirements for the BA in International Studies (p. 215). The South Asian Studies emphasis offers courses in history, politics, philosophy, religion, culture, social life and languages of India. It thus provides the opportunity for study of an ancient and extensive civilization with a significant role in human history.

An emphasis in South Asian Studies prepares students to enter MA and PhD programs in this area of specialization, which often provide intensive summer language programs. Semester Plan
Refer to the program requirements for the BA in International Studies (p. 215).
** Doctoral Faculty Member - membership is required to chair doctoral examination or dissertation committees. Graduate faculty membership is a prerequisite for Doctoral faculty membership.

**Undergraduate**

- BA in Linguistics (p. 220)
- Minor in Linguistics (p. 221)

**Departmental Honors**

A student wishing to graduate with honors in Linguistics must earn a 3.3 GPA in all courses and complete all the requirements for the BA in Linguistics. In addition, with the assistance of his/her honors thesis advisor, the student must develop, plan and conduct research on an independent project, normally while enrolled in LINGST 4991. A committee consisting of the thesis advisor and a second reader, to be selected by the advisor and the program chair, will examine the student on the resulting thesis of 25-40 pages in an oral exam held no later than the thirteenth week of the term during which the student expects to graduate. The second reader will be provided with a copy of the thesis at least two weeks before the examination. After completing any revisions that the exam committee recommends, the student will submit a final version of the thesis for linguistics program records and will then be recommended to the college of Arts and Science for a BA with Honors in Linguistics.

**Graduate**

- Graduate Minor in Linguistics (p. 221)

Interdepartmental Program in the College of Arts and Science
224 Tate Hall
(573) 882-8814

**Chair of Linguistics:** Matthew Gordon

In the Department of Communication, students learn to apply the study of communication to their professional and personal lives. Students may receive a MA, or PhD through this department.

**Communication Science and Disorders (p. 551)**

The discipline of Communication Science and Disorders encompasses the field of speech, language, and hearing science and the distinct but related professions of Speech-Language Pathology and Audiology. Students may receive a MA, or PhD through this department.

**English (p. 180)**

The English department offers MA and PhD degrees with an emphasis in English Language and Linguistics.

**Philosophy (p. 249)**

Linguistics majors benefit by taking courses offered by the Philosophy Department and can focus on issues at the intersection of philosophy and linguistics.

**Romance Languages and Literatures (p. 279)**

The Department of Romance Languages and Literatures offers the MA with an emphasis on Language Teaching (MALT).

**BA in Linguistics**

**Degree Program Description**

The study of linguistics offers students a liberal education and a window into the fascinating human linguistic capacity. Students can obtain a BA in linguistics, and many students double-major in linguistics and another field. The BA prepares students for graduate study in linguistics and related fields. It also develops analytical and verbal skills that are valuable in a wide variety of professional careers.

In the range of units including Anthropology, Black Studies, Classical Studies, Communication, Communication Science and Disorders, the College of Education, English, German and Russian Studies, Psychology, Philosophy, Romance Languages and Literatures, and South Asian Studies.

**Financial aid, when available, is arranged through the participating departments.**

**Cooperating Graduate Degree Programs**

Anthropology (p. 140)

Interested Anthropology and other graduate students may minor in Linguistics. Linguistics is a integral component of ethnographic research.

Communication (p. 168)
### Minor in Linguistics

The minor in linguistics requires at least 15 credits of linguistic courses. They may be drawn from any part of the linguistics curriculum.

### Graduate Minor in Linguistics

A graduate minor field in linguistics is available to graduate students. It is comprised of 12 hours, two courses of which are required and two are to be selected from a list of upper level linguistics classes:

#### Required:
- LINGST 7630 Phonology 3
- LINGST 7640 Syntax 3

#### Sample list from which two additional courses will be selected (appropriate substitutes may be accepted at the discretion of the chair):

### Mathematics

Nakhle Asmar, Chair
College of Arts and Science
224 Math Sciences Building
(573) 882-6221
asmarn@missouri.edu

### Faculty

Requirements

To graduate with departmental honors in mathematics, a student must satisfy the regular BA or BS degree requirements and must have a GPA of 3.5 or higher in all Mathematics Department courses. In addition, the student must have at least 26 credits in mathematics courses numbered 4000 or above. Furthermore, the student must complete one of the two options listed below.

Option 1: Honors Thesis

The student must write an honors thesis in conjunction with a mentorship or in conjunction with MATH 4996. This option requires that the student enroll in MATH 4996.

Option 2:

The student’s program of study must include MATH 4700, MATH 4900, MATH 4720 and MATH 4920.

Graduate

- MA in Mathematics (p. 225)
- MS in Applied Mathematics (p. 227)
- MST in Mathematics (p. 228)
- PhD in Mathematics (p. 229)

College of Arts and Science
202 Mathematical Sciences Building
(573) 882-6221
https://www.math.missouri.edu/grad/index

Director of Graduate Studies: Stephen Montgomery-Smith

About Mathematics

The Graduate Program in Mathematics is large enough to encompass research and courses in many areas, yet small enough to remain responsive to the needs of individual students. There are approximately 80 graduate students, 40 professors, and 15 postdoctoral and visiting researchers. The active areas of research include: algebraic geometry, analysis (real, complex, functional and harmonic), analytic functions, applied mathematics, financial mathematics and mathematics of insurance, commutative rings, scattering theory, differential equations (ordinary and partial), differential geometry, dynamical systems, general relativity, mathematical physics, number theory, probabilistic analysis and topology.

The Mathematical Sciences Building houses a library with more than 34,000 volumes and 430 journal titles. MU students have access to an extensive array of computing resources.

Admission Notice

Applicants for any graduate degree in mathematics should submit an application for graduate study. Admission to the graduate program does NOT guarantee admission to the Ph.D. program. International Applicants applying from outside North America who seek financial support from the Department will only be considered for the PhD program.

Financial Aid from the Program

All domestic applications for admission are automatically considered for financial support, in most cases by Teaching Assistantships. Virtually all
current students are supported financially. Scholarships, assistantships, fellowships and other sources of aid are available.

The Department Research Fellowship, the Blumenthal Scholarship and the McFarlan Fellowship are administered by the department, while the Huggins Scholarship, Gregory Fellowship and Ridgel Fellowship are administered by the university.

International applications with TOEFL of 85 or higher (or equivalent) will also be automatically considered for departmental financial support.

Department Level Requirements - Mathematics

Students may apply to be Math majors upon meeting the following criteria:

- Completion of ENGLSH 1000 and MATH 2300
- Both cumulative GPA and GPA in Math courses numbered 1500 and above (expect for 2100) of 2.5 or above.

All math courses required for the degree must be passed with a grade of C- or above.

BA in Mathematics

Degree Program Requirements

Mathematics is part of the foundation of all the sciences, engineering, statistics, and many social sciences. A degree in mathematics provides one with both the applied mathematics knowledge necessary to engage in these disciplines, and formal reasoning skills that can be applied in any area. The major is well suited for those interested in mathematics alone, or for those looking to supplement another major. Our students go on to jobs or further study in all the above disciplines, as well as many others (medical school or law school, for instance).

Major Program Requirements

All MU General Education (p. 33) and Arts and Science Breadth and Depth requirements (for the BA) must be satisfied, in addition to the Department Level Requirements (p. 223). The foreign language requirement must be satisfied either by taking a foreign language for 4 years in high school or by completing a language sequence at MU.

Additional requirements for the BA degree

- MATH 4700 Advanced Calculus of One Real Variable I
- MATH 4720 Introduction to Abstract Algebra I
- Four approved 4000 level Math electives

Semester Plan

Below is a sample plan of study, semester by semester. A student's actual plan may vary based on course choices where options are available.

BS in Mathematics

Degree Program Description

Mathematics is part of the foundation of all the sciences, engineering, statistics, and many social sciences. A degree in mathematics provides one with both the applied mathematics knowledge necessary to engage in these disciplines, and formal reasoning skills that can be applied in any area. The major is well suited for those interested in mathematics alone,
Major Program Requirements

The Mathematics Department offers a "Standard" BS, a BS with emphasis in Actuarial Science and Mathematical Finance, and a Dual Degree in Mathematics and Mathematics Education. In each case all MU General Education (p. 33) and Arts and Science Breadth and Depth requirements (for the BS) must be satisfied, in addition to the Department Level Requirements (p. 223). Note that the courses accepted for the science requirement by the Mathematics department are more restrictive than the Arts and Science requirement.

All BS degrees require completion of the Foreign Language requirement by one of: four years of a language in high school, completion of a foreign language sequence at MU, or a Foreign Language Alternative (12 credits at the 2000 level or above in an area, or related areas, approved by the Director of Undergraduate Studies).

Additional requirements for the BS degree

- MATH 4700
- MATH 4720
- Four approved 4000 level Math electives
- Science Requirement: 13 or more credits from the two groups below. Both groups must be represented.

Group II: Any 4000 level courses in Statistics or Computer Science.

Additional requirements for the BS Degree (Dual degree for Math and Math Ed majors)

- One of: MATH 4300, MATH 4500, or MATH 4700
- One of MATH 4510 or MATH 4720
- Four approved 4000 level Math electives
- Science Requirement: 10 or more credits from the two groups from the Course List above. Both groups must be represented.

BS in Mathematics with Emphasis in Actuarial Science and Mathematical Finance

Degree Program Description

Actuarial science applies mathematical and statistical methods to finance and insurance, particularly to the assessment of risk. Actuarial science includes a number of interrelating disciplines, in particular the mathematics of probability and statistics. In the life insurance industry, traditional actuarial science focuses on the analysis of mortality and the production of life tables, and the application of compound interest. More recently, actuarial science has come to embrace more sophisticated mathematical modeling of finance. Ideas from financial economics are also becoming increasingly influential in actuarial thinking.
Major Program Requirements

Students must complete the MU general education requirements (p. 33) and the Department Level Requirements (p. 223) in addition to the degree requirements listed below.

This emphasis area will serve those who want to pursue a career in the financial and insurance industries. It will also help BS students to prepare for their first actuarial exams. Those students considering further graduate work in Mathematics should also take

Total Credits: 120

Minor in Mathematics

To minor in mathematics, a student must satisfactorily complete the following requirements.

- The equivalents of MATH 1500, MATH 1700 and MATH 2300
- 9 additional credits in approved math courses (students not taking MATH 2320 or MATH 3000, must take all 9 credits at the 4000 level; students taking MATH 2320 or MATH 3000, need an additional 6 credits at the 4000 level)
- All courses completed with grades in C range or higher
- At least 9 credits used to satisfy the minor requirements taken in residence (College of Arts and Science requirement)

MA in Mathematics

Admission Contact Information
Stephen Montgomery-Smith, Director of Graduate Studies
222 Mathematical Sciences Building
Columbia, MO 65211
(573) 882-6221
e-mail: muasmathdgs@missouri.edu

Admission Criteria

Notes: Applicants for any graduate degree in mathematics should submit an application for graduate study. Admission to the graduate program does NOT guarantee admission to the Ph.D. program. International Applicants applying from outside North America who seek financial support from the Department will only be considered for the PhD program.

Fall deadline: January 15

- While a bachelor’s degree from an accredited institution is required, the undergraduate major need not be mathematics as long as applicants have had sufficient mathematics training to qualify for 8000-level courses during the first three semesters of graduate work.
- Minimum TOEFL scores:
  - Internet-based test (IBT) 80
  - Paper-based test (PBT) 550

Important Notes: International applicants seeking departmental support are required to have a minimum TOEFL score of 85 (Internet-based...
Supplemental Information:

- Application:
  - US for Non-Resident International applicants.
  - payment $55.00 US for U.S. Citizens and Permanent Residents, $75.00

Required Application Materials

- 3 or more letters of recommendation from your professors or persons who assess in detail your academic performance and potential.
- Transcripts
- Personal Statement
- GRE scores (required for PhD application, strongly recommended for Masters application)
- TOEFL or IELTS (International students only)

Note: The application is submitted through the Office of Graduate Studies’ ApplyYourself system. This includes the online credit card payment $55.00 US for U.S. Citizens and Permanent Residents, $75.00 US for Non-Resident International applicants.

Completing the ApplyYourself Application:

This section consists of four subsections.

- Personal Information: Complete all information as requested.
- Application Information: Applications are considered only starting Fall Semester, and only for Full-time study. Select a degree from the Graduate Degrees offered by the MU Mathematics Department.
- Indicate your selection for the Mathematics Master of Arts (MA)
  - Admissions Category: Graduate Degree Sought at MU: Master's
  - Graduate Program to which you are seeking admissions: Mathematics Master of Arts (MA)
- Educational History: Complete all information as requested.
- Test Information:
  - The GRE General Test is required for application to the PhD program in Mathematics, and are strongly recommended for Masters applicants. GRE General Test scores sent directly from the ETS will be considered as part of an application if available. The GRE Subject Test is not required, will be considered if submitted.
  - MU's Institutional Code for the GRE is: 6875.
  - MU's Institutional Code for the TOEFL is: 6875.

Supplemental Information:

- (required) Upload your Personal Statement, Statement of Goals or Statement of Purpose.
- Please indicate the specific degree for which you are applying, any additional degrees for which you may later apply, and explain your reasons for choosing to pursue these degrees at the University of Missouri. Note that admissions criteria for the PhD are more stringent than for the Master's. MU PhD students can later add a Master’s degree to their program of study without requiring departmental approval. MU Master's students who wish to later add the PhD to their program of study require departmental evaluation and approval.
- (optional) Upload your résumé or curriculum vita.
- (optional) Upload your writing sample.
- You may submit samples of your mathematical writings, publications, or pre-prints. Please limit to 10 pages.
- (optional) Upload any other supporting documents.
- Unofficial copies of transcripts uploaded by applicant can be used for initial evaluation- official transcripts sent directly to the Graduate Admissions Office will still be required to finalize admission.
- Unofficial copies of GRE reports uploaded by applicant can be used for initial evaluation.

RECOMMENDATIONS: The ApplyYourself (https://app.applyyourself.com/AYApplicantLogin/fl_ApplicantConnectLogin.asp?id=umc-grad) system will let you request confidential online recommendation letters from your recommendation providers. You need to provide the names and email addresses of recommendation providers who have agreed in advance to write letters for you. The Mathematics Department application requires at least three recommendation letters from your professors (or persons who assess in detail your academic performance and potential).

International Applicants Only

- Unofficial copies of TOEFL/IETS reports uploaded by applicant can be used for initial evaluation - official reports sent directly to the Graduate Admissions Office will still be required to finalize admission.
- Affidavit of Support for International Applicants: It is not necessary to complete this form. International applicants are required to complete the Affidavit of Support OR provide a letter of support from a University of Missouri graduate degree program before immigration documents can be issued. All international admissions to the Mathematics graduate program come with financial support which suffices to meet this requirement.

The following (paper) application materials must be on file at the Graduate Admissions office before an admission offer can be finalized:

- Official transcripts/mark sheets from each college or university you have attended (sent directly from the college or university). Applicants with degrees from outside the United States must provide academic credentials in both the native language and in English.
- Official TOEFL or IELTS scores (sent directly from the testing service). Please review the Graduate School’s policy regarding proof of English Language proficiency.

Please arrange to have these materials mailed to the following address:

University of Missouri-Columbia
Graduate Admissions
210 Jesse Hall
Columbia, MO 65211
800-877-6312
573-884-8488

MA Degree Completion Requirements

The degree requirements include the satisfactory completion of 30 hours of approved course work, of which at least 18 hours must be at the 8000 level.

Required

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Hours</th>
</tr>

**MST Degree Completion Requirements**

This degree is designed primarily for those who want to teach mathematics at the secondary school level. A candidate for the degree must have a valid teaching certificate before entering the program and must satisfactorily complete 30 hours of approved course work. MATH 8190 or MATH 8090 is required. At least 15 hours must be in 8000-level courses, of which at least 9 hours must be courses from the Mathematics Department. At least two courses are required in the fields of algebra, analysis, and geometry/topology. The successful completion of a Master’s Project (MATH 8190) or Master’s Thesis (MATH 8090) must be certified by a Master’s Committee consisting of three members of the Mathematics regular faculty.

Note: The MU College of Education at the University of Missouri is a separate academic unit offering graduate degrees in Mathematics Education, with an emphasis on learning, teaching, and curriculum development.

- You may submit samples of your mathematical writings, publications, or pre-prints. Please limit to 10 pages.
- (optional) Upload any other supporting documents.
- Unofficial copies of transcripts uploaded by applicant can be used for initial evaluation. Official transcripts sent directly to the Graduate Admissions Office will still be required to finalize admission.
- Unofficial copies of GRE reports uploaded by applicant can be used for initial evaluation.

**RECOMMENDATIONS:** The ApplyYourself (https://app.applyyourself.com/AYApplicantLogin/Fl_ApplicantConnectLogin.asp?id=umc-grad) system will let you request confidential online recommendation letters from your recommendation providers. You need to provide the names and email addresses of recommendation providers who have agreed in advance to write letters for you. The Mathematics Department application requires at least three recommendation letters from your professors (or persons who assess in detail your academic performance and potential).
• GRE scores (required for PhD application, strongly recommended for Masters application)
• TOEFL or IELTS (International students only)

Note: The application is submitted through the Office of Graduate Studies' ApplyYourself (http://gradschool.missouri.edu/admissions) system. This includes the online credit card payment $55.00 US for U.S. Citizens and Permanent Residents, $75.00 US for Non-Resident International applicants.

**Completing the ApplyYourself Application:**

The application consists of four subsections.

• Personal Information: Complete all information as requested.
• Application Information: Applications are considered only starting Fall Semester, and only for Full-time study. Select a degree from the Graduate Degrees offered by the MU Mathematics Department.
• Indicate your selection for the Mathematics Doctor of Philosophy (PhD)
• Admissions Category: Graduate Degree Sought at MU: Doctorate
• Graduate Program to which you are seeking admissions: Mathematics Doctor of Philosophy (PhD)
• Educational History: Complete all information as requested.

**Test Information:**

• The GRE General Test is required for application to the PhD program in Mathematics, and are strongly recommended for Masters applicants. GRE General Test scores sent directly from the ETS will be considered as part of an application if available. The GRE Subject Test is not required, will be considered if submitted.
• MU's Institutional Code for the GRE is: 6875.
• MU's Institutional Code for the TOEFL is: 6875.

**Supplemental Information:**

• (required) Upload your Personal Statement, Statement of Goals or Statement of Purpose.
• Please indicate the specific degree for which you are applying, any additional degrees for which you may later apply, and explain your reasons for choosing to pursue these degrees at the University of Missouri. Note that admissions criteria for the PhD are more stringent than for the Master's. MU PhD students can later add a Master’s degree to their program of study without requiring departmental approval. MU Master’s students who wish to later add the PhD to their program of study require departmental evaluation and approval.
• (optional) Upload your résumé or curriculum vita.
• (optional) Upload your writing sample.
• You may submit samples of your mathematical writings, publications, or pre-prints. Please limit to 10 pages.
• (optional) Upload any other supporting documents
• Unofficial copies of transcripts uploaded by applicant can be used for initial evaluation- official transcripts sent directly to the Graduate Admissions Office will still be required to finalize admission
• Unofficial copies of GRE reports uploaded by applicant can be used for initial evaluation

**RECOMMENDATIONS:** The ApplyYourself system will let you request confidential online recommendation letters from your recommendation providers. You need to provide the names and email addresses of recommendation providers who have agreed in advance to write letters for you. The Mathematics Department application requires at least three recommendation letters from your professors (or persons who assess in detail your academic performance and potential).

**International Applicants Only**

• Unofficial copies of TOEFL/IELTS reports uploaded by applicant can be used for initial evaluation - official reports sent directly to the Graduate Admissions Office will still be required to finalize admission
• Affidavit of Support for International Applicants: It is not necessary to complete this form. International applicants are required to complete the Affidavit of Support OR provide a letter of support from a University of Missouri graduate degree program before immigration documents can be issued. All international admissions to the Mathematics graduate program come with financial support which suffices to meet this requirement.

The following (paper) application materials must be on file at the Graduate Admissions office before an admission offer can be finalized:

• Official transcripts/mark sheets from each college or university you have attended (sent directly from the college or university). Applicants with degrees from outside the United States must provide academic credentials in both the native language and in English.
• Official TOEFL or IELTS scores (sent directly from the testing service). Please review the Graduate School's policy regarding proof of English Language proficiency.

Please arrange to have these materials mailed to the following address:

University of Missouri-Columbia
Graduate Admissions
210 Jesse Hall
Columbia, MO 65211
1-800-877-6312
(573) 884-8488

**PhD Degree Completion Requirements**

This is a professional research degree designed to prepare students for various advanced professional careers, including college teaching and research. Before formally becoming a candidate, a student must have training equivalent to that required for a master’s degree.

Year 0 courses include basic advanced undergraduate material, which incoming Ph.D. students are required to master before engaging in graduate coursework. Well prepared incoming students can petition to skip some or all of the Year 0 courses. The Director of Graduate Studies will administer an informal exam to see if the students are sufficiently ready to skip Year 0 courses.

Total Credits: 18

Year 1 courses will train students to develop a common solid foundation on basic graduate mathematics. The Ph.D. student is required to pass all 6 courses, and to pass qualifying exams in Algebra and Real Analysis. The qualifying exams will be given in May of each year, shortly after finals week. There will be an opportunity to retake a qualifying exam in August.
just before the beginning of the Fall semester. The Analysis qualifying exams will be from topics from Real Analysis I and Real Analysis II. The Algebra qualifying exams will be from topics from Algebra I and Algebra II.

Extremely well prepared students, with the permission of their initial advisor and the Director of Graduate studies, may take one or both qualifying exams in August before they start their first semester. If they pass, then with the permission of their initial advisor and the Director of Graduate studies they may skip the corresponding courses in Year 1.

Year 1: Take All 6

† Here, and elsewhere in this document, the number after the period refers to the section number.

Year 2 and above are the post-qual core courses. Every Ph.D. student must complete at least six of the post-qual core courses. (Note that the parity of the year is determined by the beginning of the AY. For example, Spring 2016 occurs in the beginning of AY 2015, and so would be considered to be in an odd year.)

Year 2 and above: Minimum 6 classes

Some of the above courses are listed in the catalog under different names. Others are new courses, and are currently listed as topics courses until we are able to add them to the catalog.

The candidate must further complete a course of study approved by the doctoral program committee and pass a comprehensive examination. The active areas of research interest of the current members of the staff are: algebraic geometry, analysis (real, complex, functional and harmonic), analytic functions, applied mathematics, financial mathematics and mathematics of insurance, commutative rings, scattering theory, differential equations (ordinary and partial), differential geometry, dynamical systems, general relativity, mathematical physics, number theory, probabilistic analysis and topology.

Note: Effective at the start of Winter Semester 2007, there is NO foreign language proficiency requirement for the Mathematics PhD. However, a student’s Doctoral Committee still retains the discretion to impose a foreign language proficiency requirement.

Music

Julia Gaines, Director
140 Fine Arts Bldg.
(573) 882-2606

The School of Music is a department in the College of Arts and Sciences that offers instruction to those who want professional training in music as well as those who wish to pursue music as a vocation. Applied music instruction in piano, voice, string, woodwind, brass and percussion instruments is offered for beginning and advanced students. Elementary and advanced courses are given in music theory and composition. The appreciation, literature and history of music are covered by survey and specialized courses. The school has been an accredited member of the National Association of Schools of Music since 1933.

The School of Music also offers opportunities for all students of the university to participate in various performing groups. Regular programs are presented on campus and throughout the state by groups such as The University Philharmonic Orchestra, University Wind Ensemble, Marching Mizzou, Symphonic Band, University Band, Jazz Ensembles, Choral Union, University Singers, Chamber Singers, Concert Chorale, Hitt Street Harmony, Women's Choir, Opera Workshop and many vocal, string, percussion and wind chamber ensembles. Membership in these groups is open to interested students by audition, except University Choral Union and University Band, which do not require an audition.

The department offers BA, MA and MM degrees majors in Music and BA degrees in Music and Music Education. MA, MEd, EdSP and PhD degrees with majors in Music Education are offered through the Department of Learning, Teaching and Curriculum. A minor in Music and a minor and certificate in Jazz Studies are also available. A certificate in Music Entrepreneurship is also available.

Faculty

Curators’ Teaching Professor M. Budds*
About the School of Music

Founded in 1907, the School of Music is one of the larger academic units in the College of Arts and Science. Comprised of 38 full-time faculty members and approximately 260 music majors, it is small enough to permit close, personal interaction between students and faculty, but large enough to provide many wonderful opportunities for talented students to excel. Our primary mission is to prepare students to become professional musicians and music educators. The School of Music is widely known for its scholarship in the field, and it is an important cultural resource for the profession, the campus community, and the people of Missouri.

Performance

At MU a student of music has the opportunity to hear many concerts or to participate in a variety of performing organizations. Many recitals are given by students, faculty and visiting artists. Among the student ensembles that give several concerts during the year are the University Philharmonic, University Wind Ensemble and other concert bands, jazz ensembles, University Singers and other choral ensembles, Show-Me Opera, and chamber music groups. Faculty ensembles that present recitals regularly include the Esterhazy String Quartet, the Missouri Woodwind Quintet and the MU Faculty Brass Quintet.

Resources and Facilities

The music section of the Fine Arts Building contains a recital hall, classrooms, studios and practice facilities. The music holdings in Ellis Library, both printed and recorded materials, constitute a substantial research and reference collection. The School of Music maintains a digital piano and MIDI laboratory, analog and digital music studios, and access to a listening laboratory for history and theory courses.

Additional Degree Options

Graduate Certificate in Jazz Studies (p. 320)

Music Education Degrees

These are degrees offered by the Department of Learning, Teaching, and Curriculum in the College of Education (p. 416) in conjunction with the School of Music. These degrees include

- Master of Arts (MA) (p. 423)
- Master of Education (M Ed) (p. 423)
- Educational Specialist (EdSp) (p. 421)
- Doctor of Philosophy (PhD) (p. 439)

BA in Music

Degree Program Description

The Bachelor of Arts (BA) in Music is a 120-hour degree in which the number of courses in music is less than in the professionally-oriented BM degree, thereby making more hours available for non-music courses. The degree does, however, require a well-rounded set of courses that will leave the student with excellent musical understanding and performance skills. In addition, the student has the freedom to pursue a secondary area of interest, which might form the basis of a specific kind of professional training. Most students pursuing a double major (music and another field) choose the BA degree.
Major Program Requirements

Students who elect to earn a Bachelor of Arts with a major in Music will complete a general, liberal arts degree with a strong music emphasis. Students must also complete all degree, college and university graduation requirements, including Arts & Science Foundation Requirements.

Courses completed in the D range may not fulfill music course requirements without the approval of the advisor and the dean, and the student must achieve an overall average of at least C (2.0) in all of the courses attempted in the School of Music.

Major Core Requirements

- MUS_THRY 1230 Aural Training and Sight Singing I 2
- MUS_THRY 1231 Aural Training and Sight Singing II 2
- MUS_THRY 2230 Aural Training and Sight Singing III 2
- MUS_THRY 2231 Aural Training and Sight Singing IV 2
- MUS_THRY 1220 Syntax, Structure and Style of Music I 2
- MUS_THRY 1221 Syntax, Structure and Style of Music II 2
- MUS_THRY 2220 Syntax, Structure and Style of Music III 2
- MUS_THRY 2221 Syntax, Structure and Style of Music IV 2
- MUS_H_LI 1322 Introduction to Music in the United States 2
- MUS_H_LI 2307 History of Western Music I 2
- MUS_H_LI 2308 History of Western Music II 2
- MUSIC 4300 level History Elective (Writing Intensive) 3
- MUS GENL 3085 Problems in Music (Capstone Experience) 1
- MUS GENL 1091 Recital Attendance for Undergraduate Music Majors (7 semesters) 0
- MUS APMS 2455 Studio Instruction (Total of 8 credit hours) 8
- MUS APMS 3455 Studio Instruction 2
- MUS ENS 1841 or MUS ENS 1842 Instrumental Ensemble (Total of 4 credit hours) 4
- or MUS ENS 1842 Choral Ensemble

Total Credits: 40

BM in Music

Degree Program Description

The Bachelor of Music (BM) degree is a program of 123-143 hours that may be earned with an emphasis in Performance (brass, classical guitar, percussion, piano, strings, voice, or woodwinds), Music History, Music Theory, Composition, or Music Education. It is designed for the student who intends to pursue a career as a composer, performer, or college teacher, as well as the student who plans to enter graduate school to pursue further study in one of these areas. Students must audition to be admitted into the program.

Major Program Requirements

The Bachelor of Music (BM) is a professional degree that offers the maximum concentration in music. The student may focus on instrumental, keyboard or vocal performance; music theory; composition; music history or music education by choosing an emphasis area. In addition, students must complete degree, college and university requirements, including Arts & Science Foundation Requirements.

Foreign Language Requirement:

- Woodwind or Percussion Performance: 12-13 hours of any foreign language
- Theory, Composition, or Piano or Brass Performance: 12-13 hours of French, Italian, or German
- Music History: 10 hours of German + 5-6 hours of second language, approved by advisor (15-16 total)
- String Performance: 12-13 hours of French, Italian, German or Spanish
- Vocal Performance: GERMAN 1100 Elementary German I (5 hours), FRENCH 1100 Elementary French I (5 hours), and ITAL 1100 Elementary Italian I (6 hours); and one additional course in German (5 hours), French (5 hours), or Italian (6 hours) (21-22 hours total). In addition, one hour each in Italian, French, and German diction (music courses; 3 hours total)
- Music Education: Foreign language is not required

Candidates must pass an examination administered by the applied faculty in the area of performance at the completion of their sophomore year before entrance is approved to studio instruction at the 4455-level.
A music degree may be admitted to the emphasis area, typically toward (normally on one of the Mizzou Music Days). Students already pursuing of sample compositions and an interview with the composition faculty Missouri may be admitted to the BM composition major after a review or samples of work. Incoming freshmen accepted to the University of composition emphasis area requires an application, examination, and/or the student who intends to pursue a career as a composer, performer, theory, music history, studio instruction, and ensembles. It is designed for the student who focuses on music theory, methodology, composition of music, and music history. The program requires 123-143 hours, including courses in music theory, music history, studio instruction, and ensembles. It is designed for the student who intends to pursue a career as a composer, performer, or college teacher, as well as the student who plans to enter graduate school to pursue further study in one of these areas. Admission to the composition emphasis area requires an application, examination, and/or samples of work. Incoming freshmen accepted to the University of Missouri may be admitted to the BM composition major after a review of sample compositions and an interview with the composition faculty (normally on one of the Mizzou Music Days). Students already pursuing a music degree may be admitted to the emphasis area, typically toward the end of the sophomore year of study, through an application and examination process.

Major Program Requirements

In addition to the list of required courses below for the emphasis in Composition, students must complete the bachelor of music (p. 233), college and university requirements (p. 32), including Arts & Science Foundation Requirements (p. 133).

Semester Plan

Below is a sample plan of study, semester by semester. A student's actual plan may vary based on course choices where options are available.
**Degree Program Description**

The music education degree program is designed for students who wish to become school music teachers. Graduates will be certified to teach music to children in kindergarten through twelfth grade, including elementary general music and either secondary instrumental or vocal music. MU music education students become successful teachers and performers who are sought after by schools in Missouri and beyond, as well as by prestigious graduate programs. Students enhance their musicianship by taking private lessons and participating in ensembles, and acquire a breadth of knowledge through coursework in general education, professional education and core music areas. They develop skills related to music teaching and rehearsing in their music education classes, which are accompanied by observing, interacting with, and instructing students in the public schools. This allows for important hands-on experience prior to the full semester of student teaching.

The faculty members who teach music education courses are active professionals who publish research in prestigious journals, and play leadership roles in international and national organizations devoted to improving prekindergarten through college-level music instruction.

**Major Program Requirements**

Students must complete all university (p. 32), general education (p. 33), and content requirements, in addition to degree requirements. Please meet with an Academic Advisor to discuss degree requirements and to create a semester plan.

As we continue to implement the new Missouri Standards for the Preparation of Educators mandated by the Department of Elementary and Secondary Education (DESE), curriculum changes will be required that must be met in order to complete your degree and earn teacher certification. Those changes may become effective at any point during your academic program. Therefore, it is extremely important that you DO NOT SELF ADVISE.

The lists below are provided as an overview of the degree requirements. Because this degree program is highly sequenced, and includes requirements leading to state certification including specified content, education, and overall grade point averages, students should not use this list to self advise but must work closely with their music education advisors to plan their coursework.

**MU General Education Requirements** - Students will plan for this coursework with their Music Education Advisors.

**Music and Education Requirements for All Music Education Students**

BM in Music with Emphasis in Music History

Degree Program Description

The Bachelor of Music (BM) degree with an emphasis in Music History focuses on the history and significance of musical traditions. The program requires 123-143 hours, including courses in music theory, music history, studio instruction, and ensembles. It is designed for the student who intends to pursue a career as a composer, performer, or college teacher, as well as the student who plans to enter graduate school to pursue further study in one of these areas. In addition to audition on the major instrument or voice, students must be approved for admission by the music history faculty.

Major Program Requirements

In addition to the list of required courses below for the emphasis in History, students must complete the bachelor of music (p. 233), college and university requirements (p. 32), including Arts & Science Foundation Requirements (p. 133).

### BM in Music with Emphasis in Music Theory

#### Degree Program Description

The Bachelor of Music (BM) degree with an emphasis in Music Theory teaches students how music works, critical listening, technical performance, and composition. The program requires 123-143 hours, including courses in music theory, music history, studio instruction, and ensembles. It is designed for the student who intends to pursue a career as a composer, performer, or college teacher, as well as the student who plans to enter graduate school to pursue further study in one of these areas. In addition to audition on the major instrument or voice, admission into the emphasis area requires an application and examination.

#### Major Program Requirements

In addition to the list of required courses below for the emphasis in Music Theory, students must complete the bachelor of music (p. 233), college and university requirements (p. 32), including Arts & Science Foundation Requirements (p. 133).

BM in Music with Emphasis in Performance

Degree Program Description

The Bachelor of Music (BM) degree with an emphasis in Performance focuses on studio instruction, pedagogy, and literature for instrumental or vocal performance. Students select brass, classical guitar, percussion, piano, strings, voice, or woodwinds as a primary instrument. The program requires 123-143 hours, including courses in music theory, music history, studio instruction, and ensembles. It is designed for the student who intends to pursue a career as a composer, performer, or college teacher, as well as the student who plans to enter graduate school to pursue further study in one of these areas. Students must audition to be admitted into the emphasis area.

Major Program Requirements

In addition to the list of required courses below for the emphasis in Performance for each track (piano, string performance, vocal performance, wind or percussion performance), students must complete the bachelor of music (p. 233), college and university requirements (p. 32), including Arts & Science Foundation Requirements (p. 133).

### Minor in Music

Students who have chosen a major in another field but who wish to continue their musical growth may wish to pursue a music minor. Approval for declaration of the Minor in Music must be received from the Associate Director in Music. A minimum of 18 credits is required, including least 6 at the 2000-level or higher:

**Music Theory**
- MUS_THRY 1220 Syntax, Structure and Style of Music I 2
- MUS_THRY 1221 Syntax, Structure and Style of Music II 2

**Music History**
- MUS_H_LI 1322 Introduction to Music in the United States 2
- MUS_H_LI 2307 History of Western Music I 2
- MUS_H_LI 2308 History of Western Music II 2

**Ensembles/Applied Music**
Any combination of MUSIC 1841, 1842, 2445 (must all be in one area) 4
MA in Music

About the MA
The MA in Music provides opportunities for continued development of musical insights, scholarly competencies, and the enhancement of interests in musical and related non-musical areas. This liberal graduate education is designed to prepare a student to pursue a career in college teaching, especially as preparation for doctoral studies in music history or musicology.

Prerequisites
Completion of a bachelor’s degree in music (or demonstrated equivalent), with a GPA of 3.0 in the last 60 credit-hours, is required. Additional prerequisites listed below. In the event that a candidate does not meet the required prerequisites, appropriate additional course(s) will be added as requirements to the degree program.

- Keyboard competency as is typically developed in an undergraduate music degree program
- 4 semesters of languages: 2 semesters each of French, Italian, or German
- 3 courses beyond the core music history courses (MUS_H_LI 2307, MUS_H_LI 2308 at MU)
- Freshman/sophomore music theory courses
- 1 semester of orchestration
- 1 course in counterpoint (3 credits or equivalent)
- 1 course in Western civilization
- 1 course in European history prior to 1800

Priority Application Deadline
All graduate applicants are expected to submit required application materials (for both the School of Music and the Office of Graduate Studies) by January 15 for fall semester matriculation, in order to receive full consideration for admission and assistantship or scholarship support. Applications submitted after January 15 will be considered as space permits on a rolling basis. Applicants interested in spring semester matriculation should contact the Associate Director of the School of Music (see below).

Application Process
Apply online via Graduate Admissions Slate (https://applygrad.missouri.edu/apply) system, which will prompt you to complete the following:

- Register for an interview during a Graduate Audition/Interview day.
- Submit samples of written scholarly work.
- Submit your unofficial transcript.
- Submit an essay explaining professional goals.
- Request three references to submit letters of recommendation.

Note: The School of Music does not require GRE scores.

International Student Information
Strong English reading, writing, and speaking abilities are necessary for success in the graduate programs in the School of Music. The following scores are required for admission to a graduate degree program in the School of Music:

- Minimum TOEFL scores:
  - Internet-based test (IBT) 80
  - Paper-based test (PBT) 550

Note: No TOEFL subscores below 50 (paper) or 15 (internet), or IELTS 5

- Minimum Academic IELTS scores:

Additional Requirements:

- Comprehensive Exam.
- MA degree candidates must satisfactorily complete a Thesis on an approved topic and must pass a final oral examination, administered by a faculty committee, about their projects.

MA in Music with Emphasis in Musicology

This liberal degree is designed to prepare a student to pursue a career in college teaching, or doctoral studies in music history or musicology. Opportunities are provided for continued development of musical insights, scholarly competencies, and the enhancement of interests in musical and related non-musical areas.
Prerequisites

- Bachelor's degree in music (or demonstrated equivalent)
- GPA of 3.0 in the last 60 hours
- Keyboard competency as is typically developed in an undergraduate music degree program
- 4 semesters of languages: 2 semesters each of French, Italian, or German
- 3 courses beyond the core music history courses (MUS_H_LI 2307, MUS_H_LI 2308 at MU)
- Freshman/sophomore music theory courses
- 1 semester of orchestration
- 1 course in counterpoint (3 credits or equivalent)
- 1 course in Western civilization
- 1 course in European history prior to 1800

If an applicant does not meet the required prerequisites, then appropriate course(s) may be added to the degree requirements.

Required Courses (Only one course grade below B- allowed; at least 12 credits must be at the 8000 level)

Admissions

For admission requirements, refer to the Graduate Studies' website for the minimum qualifications for the MA in Music (http://gradstudies.missouri.edu/academics/programs/music) and the Graduate Studies (http://gradstudies.missouri.edu/academics/programs/music).

Because requirements vary, you must refer to a degree program's graduate admission page to learn about specific admission criteria, application deadlines, eligibility, and application process. Before official admissions to the University of Missouri, your application materials will be reviewed by both the Office of Graduate Studies and the degree program to which you've applied.

MM in Music

About the Music

The principal function of the MM program is to provide students with opportunities for continued development of their musical talents--in a specific area--and overall musicianship. This degree is designed to prepare the graduate for a career in performance or composition, teaching, or continued graduate studies toward a doctoral degree.

Prerequisites

Completion of a Bachelor of Music degree (or demonstrated equivalent) is required, normally with the same major as that to be pursued at the graduate level, and a GPA of 3.0 in the last 60 credit-hours. In the event that a candidate does not meet the required prerequisites for a specific curriculum (listed below), then appropriate course(s) may be added to the degree program as additional requirements.

PIANO PERFORMANCE

- Senior recital
- 1 upper-level music history course
- 3 credits of 18th-century counterpoint

COLLABORATIVE PIANO

- Senior recital
- 2 courses in either French or German
- 2 courses in French, German, or Italian diction
- 1 upper-level music history course
- 3 credits in 18th-century counterpoint

PIANO PEDAGOGY

- 1 upper-level music history course
- 3 credits in 18th-century counterpoint
- A senior recital and undergraduate courses in piano pedagogy or teaching experience are desirable, but not required for admission.

JAZZ PERFORMANCE AND PEDAGOGY

- Senior recital

THEORY

- 3 credits of 18th- or 16th-century counterpoint
- 2 credits of orchestration
- 2 credits of a theory elective
- 4 credits of music history (equivalent study to MUS_H_LI 2307-MUS_H_LI 2308)
- 16 credits of applied instruction (or equivalent)

COMPOSITION

- 3 credits of 18th- or 16th-century counterpoint
- 2 credits of orchestration
- 8 credits of composition
- 4 credits of music history (equivalent study to MUS_H_LI 2307-MUS_H_LI 2308)
- 16 credits of applied instruction (or equivalent)

CONDUCTING (Choral, Orchestral, or Wind Ensemble)

- 2 undergraduate conducting courses
- Previous conducting experience
- Proficiency in French, Italian, and German diction (Choral Conducting only)
- Proficiency in vocal pedagogy (Choral Conducting only)

Priority Application Deadline

All graduate applicants are expected to submit required application materials (for both the School of Music and the Office of Graduate Studies) by January 15 for fall semester matriculation, in order to receive full consideration for admission and assistantship or scholarship support. Applications submitted after January 15 will be considered as space permits on a rolling basis. Applicants interested in spring semester matriculation should contact the Admissions Coordinator of the School of Music (see below).
Application Process

Apply online through Graduate Admission's (http://gradstudies.missouri.edu/admissions/apply) Slate system, which will prompt you to complete the following:

- Register for an audition or interview during a Graduate Audition/Interview day.
- Submit an essay explaining professional goals.
- Submit an unofficial transcript.
- Request three references to submit letters of recommendation.
- For performance areas, a recording will be required.

Notes: The School of Music does not require GRE scores.

International Student Information

Strong English reading, writing, and speaking abilities are necessary for success in the graduate programs in the School of Music. The following scores are required for admission to a graduate degree program in the School of Music:

- Minimum TOEFL scores:
  - Internet-based test (iBT) 80
  - Paper-based test (PBT) 550

  Note: No TOEFL subscores below 5 (paper) or 15 (internet), or IELTS 5

- Minimum Academic IELTS scores:
  - Overall 6.5

  Note: No IELTS subscores below 5

Note: the University of Missouri’s institutional code for the TOEFL is 6875.

Audition Information

A visit to the School of Music and in-person audition are strongly encouraged for applicants planning to major in an applied area (brass, classical guitar, jazz, percussion, piano, strings, voice, woodwinds), either on one of the graduation audition days or at another arranged time. In-person auditions are required for all conducting applicants. MM jazz performance and pedagogy applicants should contact the Director of Jazz Studies to confirm the audition repertoire for video submissions. Applicants who audition initially by recording may be required to participate in a video conference interview (Skype, iChat, etc.) or to audition on campus at a later time. Please visit the School of Music website, music.missouri.edu, for more information regarding graduate audition days.

CONTACT INFORMATION:
Ben Harting, Admissions Coordinator
School of Music
150 Fine Arts Building
Columbia, MO 65211-6120
HartingB@missouri.edu
(573) 882-4471

Audition/Interview Information by Area

Piano: click here for detailed audition requirements for all MM piano programs (collaborative, pedagogy, and performance).

Voice: eight selections required, including at least one operatic aria and selections in French, Italian, German, and English.

Jazz Performance and Pedagogy: Please see the audition requirements for the Graduate Certificate in Jazz Studies and contact the Director of Jazz Studies for more information.

Other Applied Areas: contact the appropriate applied faculty member for information about audition repertoire and procedures.

Composition: submit representative original compositions and register for an interview. Portfolio materials are due by the Priority Application Deadline.

Theory: submit examples of written scholarly work and register for an interview. Portfolio materials are due by the Priority Application Deadline.

Conducting applicants should arrange an audition and interview with the appropriate faculty member:

- Dr. R. Paul Crabb, Choral Conducting
- Professor Edward Dolbashian, Orchestral Conducting
- Dr. D. Bradley Snow, Wind Ensemble Conducting

Additional information for Choral Conducting applicants: Students applying for MM in Choral Conducting or PhD in Music Education with choral emphasis will rehearse one MU choir for 15-20 minutes (music will be assigned and sent to you before the audition); take a short conducting lesson on the same music; sing a prepared aria or art song; demonstrate proficiency in sight-reading and ear-training; demonstrate basic piano proficiency.

Degree Completion Requirements

See Courses of Study (https://music.missouri.edu/grad/master-music). In addition, students must complete the following:

- Comprehensive Exam.
- Music Theory majors must satisfactorily complete a Thesis on an approved topic, and Composition majors must complete a substantial compositional project. Both Music Theory and Composition majors must pass a final oral examination, administered by a faculty committee, about their projects.

MM in Music with Emphasis in Collaborative Piano

Through continued development of performance skills and overall musicianship, this degree is designed to prepare the graduate for a career in performance or teaching, or doctoral study.

Repertoire and performance are emphasized, with three required degree recitals. Extensive experiences in chamber music are provided with both vocal and instrumental students, and potentially in opera, choral, orchestra, and wind ensembles. All master’s students meet weekly in piano performance classes with faculty. MU enjoys a wealth of carefully maintained grand pianos as well as a digital piano lab, two harpsichords and a fortepiano. Annually, distinguished pianists provide masterclasses to MU piano students, including recent guests Boris Berman, Malcolm Bilson, Anne Epperson, Claude Frank, Peter Frankl, Ian Hobson, and Ralph Votapek.

Prerequisites

- Bachelors degree in Piano (or demonstrated equivalent)
If an applicant does not meet the required prerequisites, then appropriate course(s) may be added to the degree requirements.

Admissions

For admission requirements, refer to the Graduate Studies’ website for the minimum qualifications for the MM in Music (http://gradstudies.missouri.edu/academics/programs/music) and the Graduate Studies (http://gradschool.missouri.edu/admissions/eligibility-process/minimum-requirements.php). Because requirements vary, you must refer to a degree program’s graduate admission page to learn about specific admission criteria, application deadlines, eligibility, and application process. Before official admissions to the University of Missouri, your application materials will be reviewed by both the Graduate Studies and the degree program to which you’ve applied.

MM in Music with Emphasis in Composition

This degree is designed to prepare the graduate for a career in composition, college teaching, or doctoral study.

MU offers numerous opportunities for collaboration with artists various mediums, community engagement in the creative process, and performance of works on and off campus. The graduate New Music Ensemble is dedicated to performing works of student composers studying at MU. Our annual Sinquefield Composition Prize gives one of our students the opportunity to have a work for large ensemble performed at the annual Chancellor's Concert. In addition we host a Student Composers Concert each spring, a Composers Forum, and a student chapter of Society of Composers, Inc. Our graduates have been admitted to some of the most prestigious doctoral programs in the country, and our students have won many competitions of the Music Teachers National Association, the Music Educators National Conference, and the prestigious Broadcast Music Incorporated (BMI) Student Composers.

Prerequisites

• Bachelors degree in music (or demonstrated equivalent)
• GPA of 3.0 in the last 60 hours
• Basic keyboard skills
• Two undergraduate conducting courses
• Previous conducting experience
• Proficiency in French, Italian, and German diction
• Proficiency in vocal pedagogy

If an applicant does not meet the required prerequisites, then appropriate course(s) may be added to the degree requirements.

Admissions

For admission requirements, refer to the Graduate Studies’ website for the minimum qualifications for the MM in Music (http://gradstudies.missouri.edu/academics/programs/music) and the Graduate...

MM in Music with Emphasis in Conducting

CHORAL CONDUCTING:

Through focus on practical conducting skills while integrating the academic areas of theory, history and pedagogy, this degree is designed to prepare the graduate for a career in conducting or teaching, or doctoral study. Conducting opportunities include conducting labs, ad hoc ensembles, and five regular ensembles. We also regularly offer opportunities to study with national and international figures. Recent guests include Peter Phillips, Joseph Flummerfelt, Erwin Ortner, Amy Kaiser, Simon Carrington and Charles Bruffy.

Prerequisites

• Bachelors degree in music (or demonstrated equivalent)
• GPA of 3.0 in the last 60 hours
• Two undergraduate conducting courses
• Basic keyboard skills
• Previous conducting experience
• Proficiency in vocal pedagogy

If an applicant does not meet the required prerequisites, then appropriate course(s) may be added to the degree requirements.

ORCHESTRAL CONDUCTING:

Through continued development of performance skills and overall musicianship, this degree is designed to prepare the graduate for a career in conducting or teaching, or doctoral study. Students receive individual conducting lessons and regular podium time with the orchestra.

Prerequisites

• Bachelors degree in music (or demonstrated equivalent)
• GPA of 3.0 in the last 60 hours
• Two undergraduate conducting courses
• Previous conducting experience

If an applicant does not meet the required prerequisites, then appropriate course(s) may be added to the degree requirements.

WIND CONDUCTING:

Through focus on practical conducting skills while integrating the academic areas of theory, history and pedagogy, this degree is designed to prepare the graduate for a career in conducting or teaching, or doctoral study. Conducting and teaching opportunities include three concert ensembles, assisting with courses in basic conducting, score reading, and rehearsal techniques, and working and traveling with athletic bands, including Marching Mizzou.

Prerequisites

• Bachelors degree in music (or demonstrated equivalent)
• GPA of 3.0 in the last 60 hours
• Two undergraduate conducting courses
• Previous conducting experience

If an applicant does not meet the required prerequisites, then appropriate course(s) may be added to the degree requirements.

Admissions

For admission requirements, refer to the Graduate School’s website for the minimum qualifications for the MM in Music (http://gradschool.missouri.edu/academics/programs/music) and the Graduate Studies (http://gradstudies.missouri.edu/academics/programs/music) and the Graduate Studies (http://gradstudies.missouri.edu/admissions/eligibility-process/minimum-requirements.php). Because requirements vary, you must refer to a degree program’s graduate admission page to learn about specific admission criteria, application deadlines, eligibility, and application process. Before official admissions to the University of Missouri, your application materials will be reviewed by both the Graduate School and the application materials will be reviewed by both the Graduate School and the degree program to which you’ve applied.

MM in Music with Emphasis in Jazz Performance and Pedagogy

Through continued development of performance skills and overall musicianship, this degree is designed to prepare the graduate for a career in jazz performance, conducting, teaching, or doctoral study.

Students regularly conduct and coach MU jazz ensembles.

Prerequisites

• Bachelors degree in music (or demonstrated equivalent)
• GPA of 3.0 in the last 60 hours
• Previous jazz teaching and conducting experience

If an applicant does not meet the required prerequisites, then appropriate course(s) may be added to the degree requirements.

Admissions

For admission requirements, refer to the Graduate School’s website for the minimum qualifications for the MM in Music (http://gradschool.missouri.edu/academics/programs/music) and the Graduate Studies (http://gradstudies.missouri.edu/academics/programs/music) and the Graduate Studies (http://gradstudies.missouri.edu/admissions/eligibility-process/minimum-requirements.php). Because requirements vary, you must refer to a degree program’s graduate admission page to learn about specific admission criteria, application deadlines, eligibility, and application process. Before official admissions to the University of Missouri, your application materials will be reviewed by both the Graduate School and the degree program to which you’ve applied.

MM in Music with Emphasis in Music Theory

This degree is designed to prepare the graduate for college-level teaching or doctoral study.

The program includes in-class teaching experience, study and survey of a wide variety of theory texts, and collaboration with a faculty advisor/mentor. Applicants are encouraged to consider studying music theory pedagogy paired with another area (i.e. performance, musicology, conducting, composition, or piano pedagogy).

Active listening, a skill necessary for understanding music and cultivating musical thought, requires musical proficiency: playing an instrument at a moderately accomplished level, score reading, and fluency in keyboard harmony. A theorist must hear what one sees in a score and see in a score what one hears.

Prerequisites

• Bachelors degree in music (or demonstrated equivalent)
• GPA of 3.0 in the last 60 hours
• 3 credits of 18th- or 16th-century counterpoint
• 2 credits of orchestration
• 2 credits of a theory elective
• 4 credits of music history (equivalent study to MUS_H_LI 2307, MUS_H_LI 2308)
• 16 credits of applied instruction (or equivalent)

If an applicant does not meet the required prerequisites, then appropriate course(s) may be added to the degree requirements.

Admissions

For admission requirements, refer to the Graduate School’s website for the minimum qualifications for the MM in Music (http://gradschool.missouri.edu/academics/programs/music) and the Graduate Studies (http://gradstudies.missouri.edu/admissions/eligibility-process/minimum-requirements.php). Because requirements vary, you must refer to a degree program’s graduate admission page to learn about specific admission criteria, application deadlines, eligibility, and application process. Before official admissions to the University of Missouri, your application materials will be reviewed by both the Graduate School and the degree program to which you’ve applied.

MM in Music with Emphasis in Performance

BRASS:

Through continued development of performance skills and overall musicianship, this degree is designed to prepare the graduate for a career in performance or teaching, or doctoral study.

Performance opportunities include large ensembles, mixed chamber ensembles, and faculty-directed chamber ensembles (brass quintets, brass choirs, the MU Trumpet Ensemble, the Mizzou Horn Choir, the MU Trombone Choir, and the MU Tuba/Euphonium Ensemble).

Prerequisites

• Bachelors degree in music (or demonstrated equivalent)
• GPA of 3.0 in the last 60 hours
• Senior recital

If an applicant does not meet the required prerequisites, then appropriate course(s) may be added to the degree requirements.

GUITAR:

Through continued development of performance skills and overall musicianship, this degree is designed to prepare the graduate for a career in performance or teaching, or doctoral study.
Performance opportunities include large ensembles, mixed chamber ensembles, and faculty-directed chamber ensembles (brass quintets, brass choirs, the MU Trumpet Ensemble, the Mizzou Horn Choir, the MU Trombone Choir, and the MU Tuba/Euphonium Ensemble).

**Prerequisites**
- Bachelors degree in music (or demonstrated equivalent)
- GPA of 3.0 in the last 60 hours
- Senior recital

*If an applicant does not meet the required prerequisites, then appropriate course(s) may be added to the degree requirements.*

**PERCUSSION:**

Through continued development of performance skills and overall musicianship, this degree is designed to prepare the graduate for a career in performance or teaching, or doctoral study.

Performing opportunities include large ensembles, Marching Mizzou Drumline, jazz ensembles and three different percussion ensembles (University Percussion Ensemble, World Percussion Ensemble, and the Graduate Percussion Ensemble). MU has a large inventory of world percussion instruments including a full traditional steel pan band.

**Prerequisites**
- Bachelors degree in music (or demonstrated equivalent)
- GPA of 3.0 in the last 60 hours
- Senior recital

*If an applicant does not meet the required prerequisites, then appropriate course(s) may be added to the degree requirements.*

**PIANO:**

Through continued development of performance skills and overall musicianship, this degree is designed to prepare the graduate for a career in performance or teaching, or doctoral study.

Performance opportunities include recitals, weekly studio class, and chamber music. Most student elect to take courses in pedagogy and qualify to teach in the Community Music Program. The program is supported by a wealth of carefully maintained grand pianos as well as a digital piano lab, two harpsichords and a fortepiano. Annually, distinguished pianists provide masterclasses to MU piano students, including recent guests Boris Berman, Malcolm Bilson, Anne Epperson, Claude Frank, Peter Frankl, Ian Hobson, and Ralph Votapek.

**Prerequisites**
- Bachelors degree in Piano (or demonstrated equivalent)
- GPA of 3.0 in the last 60 hours
- Senior recital

*If an applicant does not meet the required prerequisites, then appropriate course(s) may be added to the degree requirements.*

**WOODWINDS:**

Through continued development of performance skills and overall musicianship, this degree is designed to prepare the graduate for a career in performance or teaching, or doctoral study.

Performance opportunities include large ensembles, mixed chamber ensembles, and faculty-directed chamber ensembles (flute choir, clarinet choir, bassoon ensemble, saxophones quartets and choir).

**Prerequisites**
- Bachelors degree in music (or demonstrated equivalent)
- GPA of 3.0 in the last 60 hours
- Senior recital

*If an applicant does not meet the required prerequisites, then appropriate course(s) may be added to the degree requirements.*

**VOICE:**

Through continued development of performance skills and overall musicianship, this degree is designed to prepare the graduate for a career in performance or teaching, or doctoral study.

Performance opportunities include choral ensembles, opera workshop, and chamber ensembles with instrumentalists. The Opera Workshop presents scenes every fall semester and a fully staged production each spring semester. In Spring 2015, the Show-Me Opera is presented a production of Puccini's *Suor Angelica* and *Gianni Schicchi*. Other recent opera productions include Robert Ward's *The Crucible*, Mozart's *Così fan tutte* and *The Magic Flute*, Rossini's *La Cenerentola*, Lehár's *The Merry Widow*, and Puccini's *Gianni Schicchi* paired with Act II of *La bohème*.

**Prerequisites**
- Bachelors degree in music (or demonstrated equivalent)
- GPA of 3.0 in the last 60 hours
- Senior recital
- Proficiency in French, Italian, and German languages and diction.

*If an applicant does not meet the required prerequisites, then appropriate course(s) may be added to the degree requirements.*

**Admissions**

For admission requirements, refer to the Graduate Studies'website for the minimum qualifications for the MM in Music (http://gradstudies.missouri.edu/academics/programs/music) and the Graduate Studies (http://gradschool.missouri.edu/admissions/eligibility-process/minimum-requirements.php). Because requirements vary, you must refer to a degree program's graduate admission page to learn about specific admission criteria, application deadlines, eligibility, and application process. Before official admissions to the University of Missouri, your
application materials will be reviewed by both the Graduate Studies and the degree program to which you've applied.

**MM in Music with Emphasis in Piano Pedagogy**

Through coursework, practical teaching experiences, and performances, this degree prepares students for teaching at all levels—with a focus on promoting wellness, creativity, and injury prevention—or doctoral study. Practical experiences include teaching group classes and private lessons for children and adults through the Experiencing Piano program, the Community Music Program, and the Group Piano program. MU enjoys a wealth of carefully maintained grand pianos as well as a digital piano lab, two harpsichords, and a fortepiano. Annually, distinguished pianists and pedagogues provide masterclasses to MU piano students, including recent guests Boris Berman, Martha Hilley, Claude Frank, Peter Frankl, Ian Hobson, and Ralph Votapek.

**Prerequisites**

- Bachelors degree in Piano (or demonstrated equivalent)
- GPA of 3.0 in the last 60 hours
- 1 upper-level music history course
- 3 credits of 18th-century counterpoint

*If an applicant does not meet the required prerequisites, then appropriate course(s) may be added to the degree requirements.*

Note: a senior recital and undergraduate courses in piano pedagogy or teaching experience are desirable, but not required for admission.

**Admissions**

For admission requirements, refer to the Graduate Studies' website for the minimum qualifications for the MM in Music (http://gradstudies.missouri.edu/academics/programs/music) and the Graduate Studies (http://gradschool.missouri.edu/admissions/eligibility-process/minimum-requirements.php). Because requirements vary, you must refer to a degree program's graduate admission page to learn about specific admission criteria, application deadlines, eligibility, and application process. Before official admissions to the University of Missouri, your application materials will be reviewed by both the Graduate Studies and the degree program to which you've applied.

**Philosophy**

Matthew S. McGrath, Chair
College of Arts and Science
438 Strickland Hall
(573) 882-2871
Fax: (573) 884-8949
philosophy@missouri.edu
http://philosophy.missouri.edu/

The Department of Philosophy offers a wide variety of undergraduate and graduate courses, including courses on applied ethics, ethical theory, epistemology, logic, metaphysics, philosophy of mind, philosophy of language, philosophy of religion, philosophy of science, philosophy of biology, decision theory, political philosophy, non-Western philosophy, and the history of philosophy. The study of philosophy is not only fascinating in its own right but practical too, since it encourages the development of marketable intellectual abilities. These include the abilities to read, think, and write about conceptually complex and abstract material, and to construct and analyze elaborate chains of reasoning. Philosophy majors go on to pursue careers in such fields as law, medicine, business, the non-profit sector, the church, and academia.

The department offers BA, BS, MA, and PhD degrees in philosophy, as well as an undergraduate minor.

**Faculty**

- **Associate Professor** A. Ariew**, C. S. Horisk**, P. Robbins**
- **Assistant Professor** K. Boyce*, M. Folescu*, A. Radulescu*
- **Professor Emeritus** J. J. Bien*, W. B. Bondeson*, B. Gupta**, J. H. Kultgen*
- **Associate Professor Emeritus** A. von Schönborn*

**Undergraduate**

- **BA in Philosophy** (p. 250)
- **BS in Philosophy** (p. 251)
- **Minor in Philosophy** (p. 252)

**Double and Dual Majors**

A philosophy major can be paired with a major in another department in the College of Arts and Science (double major) or in some other College (dual major). Students must meet the major requirements of both departments. The program for each department must be approved by the advisor for that department.

**Departmental Honors**

To earn a BA (or BS) with Departmental Honors in philosophy, a student must achieve at least a 3.3 GPA in all courses, and a 3.7 GPA in all philosophy courses; meet all the standard requirements for the regular philosophy BA (or BS); take PHIL 4998 Honors I in Philosophy, and PHIL 4999 Honors II in Philosophy, writing a satisfactory senior thesis normally of 3,000 to 9,000 words under the guidance of a faculty member who has consented to work with the student; and pass an oral examination on the thesis before a committee of three members of the philosophy faculty.

**Graduate**

- **MA in Philosophy** (p. 252)
- **PhD in Philosophy** (p. 252)

Director of Graduate Studies: André Ariew
About the Program

The Department of Philosophy provides excellent training in both research and teaching. The nationally and internationally renowned faculty have expertise in the core areas of philosophy, with particular strengths in epistemology, ethics, philosophy of mind, and political philosophy, and also in various specialties, including philosophy of biology, experimental philosophy, and the foundations of decision and game theory. With 13 full time faculty and around 25 graduate students, we offer a supportive community for pursuit of the MA and the PhD, with a broad range of courses, rigorous training, attentive, high-quality advising, the opportunity to develop a professional network through our series of colloquia and conferences, and help in every aspect of job seeking. We give students the advice and support they need to present their work at regional and national conferences, and to publish in professional journals, before they begin to look for jobs. We also give our students extensive training and experience in teaching, including assistantships with award-winning teachers.

Although we award an MA degree, we only admit students to our PhD program (with the MA obtained in the process).

We receive about 50 applications per year and offer funding to about 10-15% of these. The normal ranges of scores for students we admit are: GRE Verbal 158-170, GRE Quantitative 147-166, and GPA in the major (normally philosophy) 3.9. Of course, our decisions are also based on the writing sample, letters of reference, and other factors, such as degree of fit with the Department.

Professional Development

Presentation of research at professional meetings and publication by graduate students is strongly encouraged. Prominent philosophers from other institutions visit the Department yearly for talks and symposia. Twice yearly, the Florence G. Kline endowment sponsors an intensive workshop at which papers on a special topic are presented by several leading figures in philosophy.

Financial Aid from the Program

Fellowships and teaching assistantships are available to qualified students. Applications for fellowships must meet the Office of Graduate Studies deadlines, usually in January. Applications for teaching assistantships must meet the Department deadline of January 15.

BA in Philosophy

Degree Program Description

Philosophy is the search for reasoned answers to certain fundamental questions about the nature of the universe and the place of humans in it, questions that science seems unable to answer. To do philosophy is to construct and evaluate the best arguments for and against the various answers to the questions that philosophy seeks to answer. The Bachelor of Arts is broader in scope than the Bachelor of Science, and is the better choice for most students. The practical value of studying philosophy lies in the intellectual training that it provides. Successful study of philosophy requires, and helps develop, several intellectual abilities: the ability to grasp the big picture as well as fine details; the ability to think, speak, and write about highly abstract and conceptually demanding questions; the ability to identify key assumptions made in arguments; the ability to make relevant conceptual distinctions; and the ability to assess the pros and cons of proposed solutions. These abilities are highly prized in a wide variety of careers, and philosophy majors go on to successful careers in a wide range of fields, including law, medicine, and business.

Major Program Requirements

Undergraduates pursuing a BA degree in philosophy must meet all the non-philosophy requirements for a BA degree in the College of Arts and Science, including university general education requirements (p. 33).

In addition, they are recommended, but not required, to pursue a minor in another field. Finally, they must earn 30 credits in philosophy, with a grade of "C-" or above in every course, distributed as follows:

Required Courses: Twelve Credits

BS in Philosophy

Degree Program Description

Philosophy is the search for reasoned answers to certain fundamental questions about the nature of the universe and the place of humans in it, questions that science seems unable to answer. To do philosophy is to construct and evaluate the best arguments for and against the various answers to the questions that philosophy seeks to answer. The Bachelor of Science emphasizes the formal aspects of philosophy and its many connections with the sciences. It may be a better choice for those wishing to double major in philosophy and a science. The practical value of studying philosophy lies in the intellectual training that it provides. Successful study of philosophy requires, and helps develop, several intellectual abilities: the ability to grasp the big picture as well as fine details; the ability to think, speak, and write about highly abstract and conceptually demanding questions; the ability to identify key assumptions made in arguments; the ability to make relevant conceptual distinctions; and the ability to assess the pros and cons of proposed solutions. These abilities are highly prized in a wide variety of careers, and philosophy majors go on to successful careers in a wide range of fields, including law, medicine, and business.

Major Program Requirements

Undergraduates pursuing a BS degree in philosophy must meet all the non-philosophy requirements for a BS degree in the College of Arts and Science, including university general education (p. 33) requirements. In addition, they are recommended, but not required, to pursue a minor in another field. Finally, they must earn 42 credits in philosophy, with a grade of "C-" or above in every course, distributed as follows:

Minor in Philosophy

A minor in philosophy requires 15 credits in philosophy, including at least 3 credits at the 4000-level and a further 3 credits at the 3000-level or 4000-level.

The remaining credits may be earned in any philosophy courses, except for PHIL 4998 and PHIL 4999.

Of the 15 credits required, 9 must be taken in MU course work.

Students considering a minor might want to consult the requirements for the philosophy major before selecting their courses, so as to leave open the option of upgrading to a major at some later date.

Prospective philosophy minors must get the permission of their academic unit.

MA in Philosophy

About the Master of Arts in Philosophy

At this time, our Department is not admitting students who are seeking a terminal master’s degree. However, our doctoral students earn an MA degree en route to the PhD.

Please see the admission criteria for our doctoral degree program (p. 252).

Admission Contact Information
Paul Weirich
College of Arts and Science
Department of Philosophy
415 Strickland Hall
(573) 882-6760

Master of Arts Degree Completion Requirements

- 30 semester hours of graduate work, 15 of which must be at the 8000 level.
- At least 80 percent of the hours submitted for the master’s program must be completed with a grade of A or B.
- A distribution of graduate courses including a proseminar for all first year students, one course in the history of philosophy and one course in either ethics, political philosophy, metaphysics, or epistemology.

- A thesis or two papers of format and topic appropriate for a refereed paper in a major journal, displaying sustained research and philosophical analysis, and an oral defense of the thesis or papers.

PhD in Philosophy

Admission Contact Information
Paul Weirich
College of Arts and Science
Department of Philosophy
415 Strickland Hall
(573) 882-6760

Note: Although we award the MA degree, we only admit students to our PhD program (with the MA obtained in the process). Any unusual circumstances regarding failure to meet the minimum requirements should be called to the attention of the director of graduate admissions.

Admission Process

In order to be considered for our graduate program, the following steps need to be completed (including receipt of transcripts and test scores) by January 15th:

1. Arrange for all relevant official transcripts to be sent directly to the Office of Graduate Studies by your college or university (student copies are not acceptable).
2. Arrange with Educational Testing Services for your GRE scores to be sent directly to the Office of Graduate Studies (MU’s school code is 6875; philosophy’s department code is 2801). Only electronic scores are acceptable.
3. International students also should arrange for their TOEFL scores to be sent directly to the Office of Graduate Studies (MU’s school code is 6875; philosophy’s department code is 2801). The minimum required scores are 100 (internet) total with a speaking score of at least 23 (internet). (For more information about scores, see the Office of Graduate Studies’ TOEFL policy.)
4. Complete the basic information in online Graduate Studies application.
5. Upload a 750-word Statement of Interest to the Supplemental Information section of the on-line Graduate Studies application form. It should explain why you are interested in graduate study in philosophy at the University of Missouri. We encourage you to address, if you wish, how you can advance the department’s commitment to diversity.
6. Upload a sample of your 15-25 page philosophical writing (e.g., a paper or thesis chapter) to the Supplemental Information section of the on-line Graduate Studies application form. For the sake of blind evaluation, do not include your name on the sample you upload.
7. In the Recommendation section of the on-line Graduate Studies application form, enter the information for three letters of recommendation regarding your academic potential. You should first obtain agreement from the professors writing these letters. They will be contacted by e-mail to submit their letters electronically. If a professor is unable to send his/her letters electronically, you should still enter all his/her information in the Recommendation section, but you should write “(off-line)” immediately after her name.
8. A hardcopy of the recommendation should then be sent to the Director of Graduate Studies, Department of Philosophy University of Missouri, Columbia, MO 65211-4160. Because all other materials...
are electronic, hardcopies often do not receive the same attention. It is thus in your strong interest to have your letters submitted electronically.

9. Complete the Department Philosophy application form (https://philosophy.missouri.edu/grad/graduate-program).

**Admission Criteria**

**Fall deadline: January 15**

- Minimum TOEFL scores:
  - Internet-based test (iBT): 100
  - Paper-based test (PBT): 600
  - Speaking score of at least 23
- Average GRE scores:
  - Verbal: 650
  - Quantitative: 700
  - Prior to August 1, 2011: 163
  - On or After August 1, 2011: 155

- Eligibility for any graduate work in philosophy requires the equivalent of the following six undergraduate courses in philosophy: formal logic, ethics, ancient philosophy, modern philosophy, epistemology, and metaphysics.
- Deficiencies may be made up after the student is enrolled at MU.
- Average GPA in the major: 3.9

**Required Application Materials**

*To the Office of Graduate Studies*

- All required Graduate Studies documents
- 3 letters of recommendation (submission through the online application system strongly preferred, but postal mail submission directly to the department allowed)
- Statement of interest (upload to the online application)
- Writing sample (upload to the online application)
- Departmental application (download this from https://philosophy.missouri.edu/grad/graduate-program and then upload to the online application).

*To the Philosophy Program*

- GRE score report (electronic only)

**Qualifying Exam**

Qualification for the PhD program is established by a qualifying examination (typically by superior performance on the MA research requirement).

**Graduation Requirements for the PhD**

- 72 hours of course work in philosophy, with at least 42 hours of regular course work.
- A distribution of graduate courses including an introductory seminar for all first year students, two advanced courses in logic, two courses in the history of philosophy, and one course in each of ethics, epistemology, and metaphysics.
- A written and oral dissertation proposal requirement designed to ensure the student’s familiarity with the relevant philosophical literature and ability to analyze philosophical issues. A dissertation and a final oral examination on the dissertation.

### Physics

Sashi Satpathy, Chair
College of Arts and Science
223 Physics Building
(573) 882-3335
Fax: (573) 882-4195
https://physics.missouri.edu/

Physics is the science that studies the structure and properties of matter and transformations of energy. With math as the language and experimental verification as a guide, physical study has established the fundamental laws of nature that are the foundation of all natural science and technology. The study of physics includes learning the general principles and the phenomena that have been discovered and developing the skills that enable such knowledge to be advanced through research.

The Department of Physics and Astronomy offers a major in physics with either a Bachelor of Arts or a Bachelor of Science Degree. The BA degree provides a broad coverage of classical and modern physics while permitting a broader liberal arts education. It is normally selected by students who do not envision a professional career in physics, but plan to enter a professional school later in their academic career, e.g. medicine, dentistry or law, or who desire to pursue a teaching certificate. The BS degree in Physics is designed to prepare students for scientific careers immediately upon graduation, for further training in graduate school, or for teaching high school physics. A minor in physics or astronomy is also available.

Physics education plays a pivotal role in such areas of burgeoning and societal importance as biomedical optical imaging/biomedicine, materials science, and homeland security. Therefore, the Department of Physics has introduced several new courses and electives to train undergraduate students in optical sciences, biological physics, materials sciences and nanotechnology.

**Faculty**

**Associate Professor** G. King**, W. T. Montfrooij**, H. Yan**

**Assistant Professor** G. Bian**, D. Singh**

**Teaching Professor** D. Kosztin*

**Associate Teaching Professor** Y. Zhang*

**Assistant Teaching Professor** S. Bompadre*, K. King*

**Adjunct Professor** S. M. Badalyan, S. Balasubramanian, C. Chicone*, P. Cornish*, F. Y. Hansen, F. Hehl, A. Helfer*, H. Kaiser, A. Neagu, Z. S. Popovic, W. Yelon*

**Adjunct Associate Professor** X. Fan, J. Farmer**

**Associate Professor Emeritus** C. J. Peterson
** Doctoral Faculty Member • membership is required to chair doctoral examination or dissertation committees. Graduate faculty membership is a prerequisite for Doctoral faculty membership.

** Undergraduate **

- BA in Physics (p. 255)
- BS in Physics (p. 256)
  - with emphasis in Astronomy (p. 257)
  - with emphasis in Biological Physics (p. 257)
  - with emphasis in Materials Science (p. 258)
- Minor in Physics (p. 259)

Candidates for both degrees must complete 120 credits with an average grade of C or better. For the BA in physics degree, students must complete 30 credits in physics and 19 credits in math and chemistry. For the BS in physics degree, students must complete 45 credits in physics and 25 credits in math and chemistry. Students pursuing a Bachelor of Science in Secondary Education, emphasis in Physics, have the option of receiving a BS in physics degree by completing 33 credits in physics and 19 hours in math and chemistry. In addition, students must meet all degree, college, and university requirements including University general education. All students who complete the BS degree in Physics automatically also complete a minor in Mathematics.

** Departmental Honors **

The departmental honors program in physics provides exceptional students with an opportunity to develop skills beyond the normal course work. It also acknowledges those students who have attained a level of achievement beyond what is normally expected of an undergraduate physics major.

To receive an honors degree with a major in physics, a student must meet the following criteria:

- Satisfy the BA or BS degree requirements
- Cumulative GPA of at least 3.30 and minimum GPA of 3.50 in Physics Department courses
- Complete a six credit hours research sequence, by signing up for PHYSCS 4950/ASTRON 4950 Undergraduate Research in Physics/Astronomy in the first (second) semester junior year and for PHYSCS 4950/ASTRON 4960 Senior Thesis (or PHYSCS 4950/ASTRON 4950 again) in the first (second) semester senior year. In PHYSCS 4950/ASTRON 4950 students will work on a research project, either by doing research in a lab or by doing reading research and completing specific readings under the supervision of a faculty advisor.
- Present the results of the research project in a poster or in a paper prepared in the form of a scientific journal article at a regional or national meeting, to a faculty panel that will consist of no fewer than three Physics Department faculty members, or in a physics seminar.

In order to receive departmental honors recognition, the student must be recommended by the director of undergraduate studies. Upon recommendation, the Office of the University Registrar will be notified that the candidate has earned departmental honors recognition. This acknowledgement will appear on the student’s diploma as well as on the transcript.

** Elective Tracks **

Students have available a variety of courses from which they may select the required credits of physics electives for the BS or BA degree. The department offers tracks that allow students to specialize in astronomy, biological physics, condensed matter physics, energy storage, materials science, nanomaterials, or optoelectronics. Students may wish to pursue one of these tracks, or follow a general track in which they can choose any of the courses that are listed and are not required courses.

Note: Tracks are not indicated on the diploma.

** Foreign Language Alternative (BS) **

Students who elect an undergraduate program leading to the BS degree with a major in Physics have an option regarding the College of Arts and Science foreign language requirement. This requirement of 12 or 13 credits (depending on the language studied) may be satisfied alternatively by the substitution of an approved specialization. This consists of a minimum of 12 credits at the 2000/3000 level or above and may not include courses normally required of all physics majors. It is to be selected from an area with special relevance to physics and to the student’s own interests and future plans.

Students have selected options in aerospace engineering, atmospheric science/geophysical fluid dynamics, radiation biology, chemistry, computer science, electrical engineering (circuits or computer hardware option), geology, nuclear engineering, material science, math and other areas. The choice and planning of an option must be done under the direction of the departmental undergraduate advisor.

** Dual Degrees and Double Majors **

Students may wish to pursue two baccalaureate dual degrees simultaneously. For example, this might include a BS in Physics and a BS in Engineering, which is the most common choice. In order to receive two baccalaureate degrees, a student must complete a minimum of 132 credits and complete all the specified requirements for both degrees.

Another degree option is a single baccalaureate degree with two majors (double majors), which may be developed with the concurrence of appropriate advisors in the two departments. A notation of the successful completion of the two areas appears on the student’s transcript. Both departments must be in the College of Arts and Sciences. Double major options often chosen by a physics major are chemistry, mathematics or geology. Mathematics is a particularly viable double major because the extensive mathematics component normally required in the BS degree with a major in physics, if coupled with a specialization area chosen from mathematics, nearly completes the BS degree with a major in mathematics.

Careful planning, started early in the academic career, is required to meet the conditions of dual majors or dual degrees. Students who complete such programs obtain the maximum from their undergraduate experience.

** Graduate **

- MS in Physics (p. 259)
- PhD in Physics (p. 260)
- Graduate Certificate in Teaching High School Physics (p. 262)

Department of Physics & Astronomy
223 Physics Building
(573) 882-3335
developing the skills that enable such knowledge to be advanced through general principles and the phenomena that have been discovered and explained. The study of physics includes learning the fundamental laws of nature that are the foundation of all natural science and technology. With math as the language and experimental verification as a guide, physical study has established the structure and properties of matter and transformations of energy. Physics is the science that studies the fundamental laws of nature.

### About Physics

At the University of Missouri, the physics degrees are offered by the Department of Physics and Astronomy. Because the Department has a moderate size, graduate students are better able to maintain a close relationship with the faculty. Our facilities include various laboratories within the Physics Building as well as the Research Reactor. In certain cases, a student’s work may be done in collaboration with other science and engineering departments.

The largest research area is in experimental and theoretical condensed-matter physics. Graduates in these fields have been very successful in continuing their careers in industry and academics. Other research programs in which thesis work may be accomplished are biological physics and astronomy/astrophysics.

### Research Resources

The Department of Physics and Astronomy offers many opportunities for scientific research in internationally recognized programs, some of which are unique at a university and at a level expected only in much larger departments. The main focus of research is in the areas of theoretical and experimental condensed matter physics, biological physics, astrophysics, and alternative energy. These research efforts are fostered by the existence of the University of Missouri Research Reactor (MURR), a 10 MW light-water moderated reactor that is the highest-power university research reactor in the country. Furthermore, many research activities involve facilities at National Laboratories such as Argonne, Oak Ridge, or NIST.

### Financial Aid from the Program

Some programs require an extra form or statement from those who wish to be considered for internal assistantships, fellowships or other funding packages. Check the program website or ask the program contact for details.

### More Details

For more details on the Physics graduate program please consult the departmental web site: https://physics.missouri.edu/grad/graduate-program.

In particular, details about degree requirements, rules and regulations can be found in the Physics graduate handbook (https://physics.missouri.edu/sites/default/files/grad-files/graduatehandbook10-02-14.pdf).

### BA in Physics

#### Degree Program Description

Physics is the science that studies the structure and properties of matter and transformations of energy. With math as the language and experimental verification as a guide, physical study has established the fundamental laws of nature that are the foundation of all natural science and technology. The study of physics includes learning the general principles and the phenomena that have been discovered and developing the skills that enable such knowledge to be advanced through research. The BA degree provides a broad coverage of classical and modern physics while permitting a broader liberal arts education. It is normally selected by students who plan to enter a professional school later in their academic career, e.g. medicine, dentistry or law, or who desire to pursue a teaching certificate. Physics plays a pivotal role in such areas of expanding and societal importance as biomedical optical imaging/biomedicine, materials science, and homeland security, and as such, courses are offered in optical sciences, biological physics, materials sciences and nanotechnology.

### Major Program Requirements

Students must complete the University of Missouri's general education requirements in addition to the Major Program Requirements below.

Degree Program Description

Physics is the science that studies the structure and properties of matter and transformations of energy. With math as the language and experimental verification as a guide, physical study has established the fundamental laws of nature that are the foundation of all natural science and technology. The study of physics includes learning the general principles and the phenomena that have been discovered and developing the skills that enable such knowledge to be advanced through research. The BS degree in Physics is designed to prepare students for scientific careers immediately upon graduation, for further training in graduate school, or for teaching high school physics. Physics plays a pivotal role in such areas of expanding and societal importance as biomedical optical imaging/biomedicine, materials science, and homeland security, and as such, courses are offered in optical sciences, biological physics, materials sciences and nanotechnology. Students can specialize by pursuing a BS in physics with an emphasis in astronomy or materials science.

Major Program Requirements

Students must complete the University general education (p. 33) requirements in addition to the Major Program Requirements below.

BS in Physics with Emphasis in Astronomy

Degree Program Description

Physics is the science that studies the structure and properties of matter and transformations of energy. With math as the language and experimental verification as a guide, physical study has established the fundamental laws of nature that are the foundation of all natural science and technology. The study of physics includes learning the general principles and the phenomena that have been discovered and developing the skills that enable such knowledge to be advanced through research. An emphasis area in astronomy is excellent preparation also for science teachers, laboratory technicians, computer programmers, and science journalists. It can also serve as the basis for graduate degrees in other fields, such as law or medical school. People with a degree (or background) in Physics with an emphasis in astronomy find jobs in planetariums, science museums, national observatories, national laboratories, federal agencies, universities, business or private industry.

Major Program Requirements

Students interested in astronomy may pursue a BS in Physics with an Emphasis in Astronomy. For this option, students must take the same required courses as the students pursuing a regular BS degree and take all their physics electives in astronomy. One of the 4 required astronomy electives is ASTRON 3010 Introduction to Modern Astrophysics. If successfully completed, the emphasis in Astronomy will be recorded on the student’s diploma.

BS in Physics with Emphasis in Biological Physics
**Degree Program Description**

Physics is the science that studies the structure and properties of matter and transformations of energy. With math as the language and experimental verification as a guide, physical study has established the fundamental laws of nature that are the foundation of all natural science and technology. The study of physics includes learning the general principles and the phenomena that have been discovered and developing the skills that enable such knowledge to be advanced through research. Biological physics is an interdisciplinary area that employs and develops theories and methods of the physical sciences for the investigation of biological systems. There is a long history of the quantitative tools and techniques originally developed within the physics community finding critical applications in biology. Examples range from the first visualization of the DNA double helix via X-ray diffraction to the widespread use of magnetic resonance imaging in hospitals throughout the world. Currently, biological physics is one of the fastest growing physics research areas and technology. The study of physics includes learning the general principles and the phenomena that have been discovered and developing the skills that enable such knowledge to be advanced through research. Biological physics is an interdisciplinary area that employs and develops theories and methods of the physical sciences for the investigation of biological systems. There is a long history of the quantitative tools and techniques originally developed within the physics community finding critical applications in biology. Examples range from the first visualization of the DNA double helix via X-ray diffraction to the widespread use of magnetic resonance imaging in hospitals throughout the world. Currently, biological physics is one of the fastest growing physics research areas.

**Major Program Requirements**

Students interested in biological physics may choose to pursue a BS in Physics with an Emphasis in Biological Physics. For this option, students must take the same required courses as the students pursuing a regular BS degree, take PHYSCS 4520 Introduction to Biophysics, and three additional physics electives (3 courses) from the list below:

- PHYSCS 4190: Physics and Chemistry of Materials (3)
- PHYSCS 4310: Physics in Cell and Developmental Biology (3)
- PHYSCS 4410: Analysis of Biological Macromolecules and Biomaterials (3)
- PHYSCS 4420: Introduction to Biomedical Imaging (3)
- PHYSCS 4500: Computational Biological Physics (3)
- PHYSCS 4510: Single Molecule Biophysics (3)
- PHYSCS 4520: Introduction to Biophysics (3)
- PHYSCS 4950: Undergraduate Research in Physics (1-3)
- PHYSCS 4960: Senior Thesis in Physics (3)

Only courses with a grade of C- or above will be counted toward the emphasis area.

**Required Courses**

- PHYSCS 2800: Undergraduate Seminar in Physics (2)
- PHYSCS 2750: University Physics I & PHYSCS 2760: University Physics II (10)
- PHYSCS 3150: Introduction to Modern Physics (3)
- PHYSCS 4060: Advanced Physics Laboratory I (3)
- PHYSCS 4100: Electricity and Magnetism I (3)
- PHYSCS 4120: Introduction to Thermodynamics (3)
- PHYSCS 4140: Mechanics (3)
- PHYSCS 4800: Introduction to Quantum Mechanics I (3)
- One Physics Elective (3)

**Choose 4 electives:**

- PHYSCS 4190: Physics and Chemistry of Materials (3)
- PHYSCS 4310: Physics in Cell and Developmental Biology (3)
- PHYSCS 4410: Analysis of Biological Macromolecules and Biomaterials (3)
- PHYSCS 4420: Introduction to Biomedical Imaging (3)

**BS in Physics with Emphasis in Materials Science**

**Degree Program Description**

Physics is the science that studies the structure and properties of matter and transformations of energy. With math as the language and experimental verification as a guide, physical study has established the fundamental laws of nature that are the foundation of all natural science and technology. The study of physics includes learning the general principles and the phenomena that have been discovered and developing the skills that enable such knowledge to be advanced through research.
The emphasis area in materials science prepares students in areas of nanotechnology and energy-related issues.

**Major Program Requirements**

Students interested in materials science may choose to pursue a BS in Physics with an Emphasis in Materials Science. For this option, students must take the same required courses as the students pursuing a regular BS degree, take PHYSCS 4620 Introduction to Materials Science, and three additional physics electives (3 courses) from the list below:

- PHYSCS 4190 Physics and Chemistry of Materials 3
- PHYSCS 4230 Scanning and Transmission Electron Microscopy and Microanalysis 3
- PHYSCS 4400 The Physics of Electronic Devices 3
- PHYSCS 4410 Analysis of Biological Macromolecules and Biomaterials 3
- PHYSCS 4600 Semiconductor Optics 3
- PHYSCS 4620 Introduction to Materials Science 3
- PHYSCS 4650 Modern Condensed Matter Physics 3
- PHYSCS 4950 Undergraduate Research in Physics 1-3
- PHYSCS 4960 Senior Thesis in Physics 3

With approval, one materials science related course may be taken from outside the physics program. Only courses in which a grade of C- or above will be counted toward the emphasis area.

Total Credits: 113

^ Course meets degree program requirements.
* Course meets University General Education and/or campus graduation requirements.

**Minor in Physics**

A student whose area of concentration is in another department may receive a minor in physics with the completion of the following courses with grades of C or better: PHYSCS 2750, PHYSCS 2760, PHYSCS 3150, plus two additional physics courses at the 4000 level or above. In order to complete these requirements, the student must complete mathematics through MATH 4100 Differential Equations.

Conversely, a student whose area of concentration is physics may pursue a minor in another department in the College of Arts and Sciences.

**MS in Physics**

**About the Master of Science**

The master of science degree in physics prepares students for a variety of scientific careers. Since physics is the most fundamental of the physical sciences, graduate-level studies in the field provide essential knowledge for application in many areas. Students with strong backgrounds in physics, as well as in areas ranging from biology to engineering, are encouraged to consider a personalized MS program in physics. Graduates have many job opportunities in a variety of areas.

**Application Process**

We welcome applications from students who have successfully completed a 4-year undergraduate degree in physics or closely related fields. International students who have gone through a 3-year undergraduate degree program need to have an MS degree to become eligible for admission.

Applications for admission for graduate study in physics have to be completed online. Your online application should include the following material (to be uploaded in electronic format):

- University of Missouri Graduate School Application. Use the online application system to fill out the application form and upload the required documents.
- The results of the general GRE Test (required).
- The results of the GRE Advanced Physics Test, if available (not mandatory, but strongly recommended).
- For international applicants, the results of the TOEFL Test. The minimum total TOEFL scores for graduate admission into the MU
Physics program are 550 (paper-based), 213 (computer-based) or 80 (internet-based). The IELTS test with a minimum score of 6.5 is an acceptable alternative to the TOEFL.

- A statement of purpose, in which you tell us a bit about yourself (e.g. your motivations, career goals, and research interests, and why you chose to apply at the University of Missouri).
- Three letters of recommendation from three of your professors who are familiar with you and your work.
- Official transcripts from all undergraduate and graduate institutions applicant has attended.

**Admission Criteria**

Fall deadline: March 1  
Spring deadline: Rolling (target date: October 1)

Minimum GRE score: none set

International applicants must submit results of the TOEFL test.

<table>
<thead>
<tr>

</tr>
</thead>
<tbody>
<tr>
<td>80</td>
<td>550</td>
</tr>
</tbody>
</table>

- MU institutional code for GRE and TOEFL: 6875  
- GRE department code: 0808  
- TOEFL department code: 76

**Degree Completion Requirements**

In general, students must present at least 30 credit hours for the MS degree, including at least 15 hours in courses at the 8000 level. The program must include at least 15 hours of physics courses. There is no foreign language requirement.

**Physical Science Option**

The master of science (physical science) degree is designed for those preparing to teach more than one science or for those broadening their foundation in science before proceeding to the doctoral degree. It emphasizes broad training in physics, chemistry and mathematics. No thesis is required.

**Plan of Study**

The MS Degree requires completion of a minimum of 30 course hours beyond the Bachelor’s Degree (at least 15 hours of those in 8000 level courses) with a grade of 3.0 (B) or better, and completion of the Departmental Qualifying Examination at least at the MS pass level. The basic residency requirement stipulates that 24 hours of this work be courses taken at MU (i.e., no more than 6 hours may be transfer credits). In a normal program, this requirement is met by the end of the second year at MU. The required courses for a Master’s Degree are:

- PHYSCS 8610 Classical Mechanics 3
- PHYSCS 8620 Electrodynamics I 3
- PHYSCS 8660 Methods in Mathematical Physics 3
- PHYSCS 8680 Thermodynamics and Statistical Mechanics 3
- PHYSCS 8710 Quantum Mechanics I 3

Other additional courses may be taken from 7000 and 8000 level courses in astronomy, mathematics, chemistry, biology, engineering, and physics to make a total of 30 hours of course work. In some cases, a student who is a transfer graduate student or who has a particularly strong undergraduate background may have had course work which satisfies the requirement of one or more of these core courses. Exemption from taking these courses at MU may be granted upon written application to the Departmental Graduate Studies Committee.

**Research**

It is essential for the MS degree that the students carry out some research. Three hours of research, PHYSCS 8090, should be taken, but not more than nine hours of reading and research courses may be included in the 30 hour requirement. (Note: This 9 hour limitation is a departmental requirement and is more restrictive than the Office of Graduate Studies requirement.) A formal MS thesis is not required in Physics. The student, in consultation with his/her advisor, can choose to write an MS thesis as an option (MU Graduate Studies thesis guidelines). The student has to submit a research statement in which he/she describes the thesis work to be completed.

**Qualifying Examination**

The student must pass the Departmental Qualifying Examination at least at the MS pass level. Upon completion of the qualifying examination, the student fills out the form M3, “Report of the Master’s Examining Committee” and gathers the signatures of the Qualifying Examination Committee members. This form is then signed by the Director of Graduate Studies and forwarded to the Office of Graduate Studies Dean.

**Graduation Requirements**

After performing satisfactory work for the first year, the student with the advisor’s assistance completes the form M1, “Plan of Study for the Master’s Degree,” an outline of the course of study for the student’s graduate program, and forwards the application through the Departmental Graduate Studies Committee to the Dean of the Graduate Studies. The plan of study form must be filed no later than the session preceding the session in which the student expects to receive the degree. Upon approval of the M1 form by the Dean of the Graduate Studies, the student is a candidate for the degree.

The program for the Master’s Degree must be completed within a period of eight years beginning with the first semester of enrollment, not including time spent in the armed services. For any extension of this time limitation, the student must petition the Graduate Studies Dean. Such petitions must be received in the Graduate School Office prior to the expiration of the normal period and must be approved by the advisor, the Departmental Director of Graduate Studies, and the Graduate Studies Dean. The Office of Graduate Studies will notify the advisor in writing of the final decision.

The candidate must be enrolled at the MU campus during the semester in which the program of study, outlined in the “Plan of Study for the Master’s Degree”, is expected to be completed. During the first six weeks of this semester, the candidate must personally confirm with the Office of Graduate Studies for all graduation arrangements.

**PhD in Physics**

The doctor of philosophy degree is designed to educate scientists to be capable of independently formulating and solving problems of fundamental scientific importance. Detailed policies for the PhD degree are listed at the MU Graduate Studies. Here we give details specific to the Physics program.
Application Process

Applications for admission for graduate study in physics have to be completed online. Your online application should include the following material (to be uploaded in electronic format):

- University of Missouri Graduate Studies Application. Use the online application system (https://app.applyyourself.com/AYApplicantLogin/fl_ApplicantLogin.asp?id=umc-grad) to fill out the application form and upload the required documents.
- The results of the general GRE Test (required). MU institutional code for GRE: 6875  GRE department code: 0808
- The results of the GRE Advanced Physics Test, if available (not mandatory, but strongly recommended).
- For international applicants, the results of the TOEFL Test. A minimum test score of 80 is required. The IELTS test with a minimum score of 6.5 is an acceptable alternative to the TOEFL.
- A statement of purpose, in which you tell us a bit about yourself (e.g. your motivations, career goals, and research interests, and why you chose to apply at the University of Missouri).
- Three letters of recommendation.
- Your official transcripts from all undergraduate and graduate institutions attended.

Admission Criteria

- Fall deadline: March 1
- Spring deadline: Rolling (target date: October 1)
- Minimum GRE score: none set
- Minimum TOEFL scores (international applicants only):

<table>
<thead>
<tr>
<th>Internet-based test (iBT)</th>
<th>Paper-based test (PBT)</th>
</tr>
</thead>
<tbody>
<tr>
<td>80</td>
<td>550</td>
</tr>
</tbody>
</table>

Note: MU institutional code for TOEFL: 6875. TOEFL department code: 76

Degree Completion Requirements

A Ph.D. Degree requires completion of a minimum of 18 hours beyond the Master’s Degree, with a grade of 3.0 (B) or better, and completion of the Department Qualifying Examination at the PhD pass level. The degree candidate must also meet the residency requirements. There is no foreign language requirement.

The required courses for a PhD Degree (in addition to those for the MS Degree in physics) are as follows:

- PHYSCS 8640 Electrodynamics II (3)
- PHYSCS 8720 Quantum Mechanics II (3)
- Two graduate-level (>8000) courses in the student’s area of specialization (6)
- A graduate-level (>8000) course in an area other than the student’s area of specialization (3)

Additional graduate-level courses to make a total of 18 hours beyond the Master’s Degree are required. See the graduate courses in Physics and Astronomy for electives. In addition, students can choose selected 7000 and 8000 level courses in Mathematics, Chemistry, Biology and Engineering.

A student is required to have taken a minimum of three full years of graduate work beyond the Bachelor’s Degree. All acceptable graduate work, including one year’s residence for a Master’s Degree, is used to compute the three-year requirement for the PhD Degree. It is important to note that this is not a requirement for three calendar years of work, but rather a three-year’s equivalent of full time study. When this three-year residency requirement is satisfied, a student should have finished a minimum of 72 credit hours of graduate work.

Within the three-year residence, each doctoral student must successfully complete at least two 12-hour semesters or three 8-hour semesters of graduate level program within a period of 18 calendar months. During this period, the student must be fully involved in academic pursuit, be it study, teaching, or research. This period of full-time reading, reflection, study, teaching, and research is considered necessary to give the student’s program continuity and to fulfill the spirit and special demands of the doctoral program.

A student who is a graduate assistant, or who is engaged in other activities that reduce the time available for graduate study, may need more than the anticipated time to meet course and dissertation requirements. Nonetheless, a reasonable rate of progress is required. A PhD student must successfully complete the comprehensive examination within a period of five years beginning with the first semester of enrollment as a PhD student. In addition, the program for the doctoral degree must be completed within five years of passing the comprehensive examination.

For an extension of this time, the student must, before the expiration of the normal period, petition the Office of Graduate Studies by submitting a request to the advisor who, in turn, submits a written recommendation to the Graduate Studies which has been endorsed by the departmental Director of Graduate Studies. An extension, if granted, may entail a revision of the candidate’s program to update course work and research.

Transfer of Credit

A student who has completed a master’s degree at the University of Missouri-Columbia or elsewhere may, upon recommendation of the advisor and approval by the departmental Director of Graduate Studies and the Office of Graduate Studies, transfer a maximum of 36 credit hours toward the total hours required for the doctoral degree. Transfer credit for doctoral students who do not have an earned master’s degree is limited to a maximum of 12 hours of graduate credit.

Degree Completion Requirements

In general, a PhD requires completion of a minimum of 18 hours beyond the master’s degree, with a grade of 3.0 (B) or better, and completion of the department qualifying examination at the PhD pass level. The degree candidate must also meet the residency requirement. For more details, please consult the department’s website or ask the director of graduate studies.

Plan of Study

The doctoral program committee guides the student in planning a program of study. The Chair of the Doctoral Program Committee, after conferring with the student and the Doctoral Program Committee, submits to the Graduate School a report, including a copy of the proposed course of study and any request for transfer of graduate credit. This plan of study will, when completed,

- prepare the student for research in the chosen field of Physics or Astronomy,
- satisfy the credit-hour and residency requirements.
The student must substantially complete the course work outlined in the "Plan of Study for the Doctoral Degree" form (Form D2), to the satisfaction of the Doctoral Program Committee and the Dean before being considered for the Comprehensive Examination.

**Comprehensive Examination**

To be an official candidate, the student must pass the Doctoral Comprehensive Examination, which is based upon graduate coursework in the Department (PHYSCS 8610, PHYSCS 8620, PHYSCS 8660, PHYSCS 8710, PHYSCS 8720, and other optional courses). The student must be enrolled to take this examination. It is to be administered only when MU is officially in session. The major advisor applies to the Dean for the Doctoral Program Committee to administer the Comprehensive Examination when the doctoral student has

- passed the Qualifying Examination,
- substantially completed the planned course work, and
- completed two years of the residence requirement.

The Comprehensive Examination is the most advanced general exam posed by MU. It may consist of both written and oral sections. It must be completed at least seven months before the final Dissertation Defense. The two sections of the examination must be completed within one month.

The written segment of the Comprehensive Examination is arranged and supervised by the major advisor. It consists of either (1) written questions prepared and graded by members of the Doctoral Program Committee, or (2) a research proposal on the work to be done for the PhD. Normally, the student will have two weeks to answer eight questions. Upon satisfactory completion of the written examination (or research proposal), the student is then given an oral examination by the committee.

For the Comprehensive Examination to be successfully completed, all or all but one of the committee, must vote to pass the student on the entire examination, both written and oral. A report of this examination, as in the "Doctoral Comprehensive Examination Results Form" (Form D3), carrying the signatures of all members of the committee, must be sent to the Graduate School and the student no later than two weeks after the completion of the examination.

A failure of either the written or oral section of the examination constitutes failure of the comprehensive examination. If a failure is reported, the committee will include in the report an outline of the general weaknesses of deficiencies of the student's work. The student and the committee will work together to identify steps the student might take to become fully prepared for the next examination. If at any time the student believes that the advice given by the committee is inadequate, the student may send a written request for clarification to the committee. A copy of this request should be sent to the Office of Graduate Studies as well. The committee must respond to this request in writing within two weeks and a copy must be filed with the Office of Graduate Studies. A student who fails may not take a second examination for 12 weeks. Failure to pass two Comprehensive Examinations automatically prevents candidacy.

**Doctoral Candidacy and Continuous Enrollment**

Candidacy for a doctoral degree is established by passing the comprehensive examination. Status as a continuous enrollment doctoral student begins the term after the term in which the comprehensive exam was successfully completed. Candidacy is maintained by enrolling in PHYSCS 9090 research for two semester hours each fall and winter semester and for one semester hour each summer session up to and including the term in which the dissertation is defended. Continuous enrollment provides access to an advisor's support, doctoral program committee guidance and University research facilities for completion of the dissertation. Failure to continuously enroll in PHYSCS 9090 research until the doctoral degree is awarded terminates candidacy. Candidacy may be reestablished by paying the registration and late fees owed and completing the requirements specified by the student's doctoral program committee. Registration fees owed may not exceed the amount owed for seven terms, regardless of the number of terms beyond seven for which the student failed to continuously enroll. The committee's requirements may include a second comprehensive examination of evidence of currency in the research field as suggested by publications in refereed journals. Candidacy is reestablished when the student's advisor and the departmental Director of Graduate Studies submit a written request to the Office of Graduate Studies explaining the basis of the decision. Once approved, a Request to Re-enroll form must be completed by the student and sent to the department for processing.

**Dissertation and Defense**

The dissertation must be written on a subject approved by the candidate's Doctoral Program Committee, must embody the results of original and significant investigation, and must be the candidate's own work. Candidates should consult the Graduate Studies' Theses and Dissertations Guidelines.

All dissertation defenses shall be open to all Physics and Astronomy faculty and graduate students. Dissertation defense dates should be publicly announced in advance. The candidate must be enrolled to defend the dissertation, which is administered when MU is officially in session. A report of the dissertation defense form (Form D4), carrying the signatures of all members of the committee, is sent to the Graduate School before the deadline preceding the anticipated date of graduation. For the dissertation to be successfully defended, the student's doctoral committee must vote to pass the student on the defense with no more than one dissenting or abstaining vote.

**Graduate Certificate in Teaching High School Physics**

Through this project, participants gain an expanded range of leadership expertise, content knowledge and pedagogical proficiency to share with others, as they become resources and catalysts for reform in science education at the secondary and post-secondary institutional levels. Ultimately, the overall goal is a significant increase in student achievement in science and science coursework.

For more information please visit the A TIME for Physics First website: http://www.physicsfirstmo.org/# or contact the Department of Physics by calling 573-882-7997 or emailing hillsar@missouri.edu

Federal Gainful Employment disclosure information for this Graduate Certificate is available at http://gradstudies.missouri.edu/academics/programs/teaching-high-school-physics-graduate-certificate/teach_hs_ge/Gedt.html.

**Political Science**

Moises E. Arce, Chair
College of Arts and Science
113 Professional Building
(573) 882-2843
arcem@missouri.edu

Political science is concerned with government, politics and public policies. In political science courses, students learn how government operates and how to analyze and evaluate public policies and political ideas. This training can help students be more effective as active citizens, as political leaders and as government administrators.

Many political science graduates attend law school or graduate school in political science, public administration, business administration, the social sciences, and other subjects. Others are employed in governmental or political jobs as legislative assistants, military officers or lobbyists, and more go into business or private employment. Many public officials and government administrators have political science degrees.

Courses in political science help students learn to think critically, analyze complex material and communicate effectively. Political science classes require extensive writing assignments, and majors are given many opportunities to hone their writing skills.

The department offers BA, MA and PhD degrees with majors in Political Science.

Faculty

Assistant Professor A. Benjamin, S. E. Greitens**, J. B. Haselswerdt**, B. W. Reeder**, J. L. Selin, M. B. Wahman**
Adjunct Professor C. N. Conklin*, J. D. Milyo*, M. A. Stegmaier*

* Graduate Faculty Member - membership is required to teach graduate-level courses, chair master's thesis committees, and serve on doctoral examination and dissertation committees.
** Doctoral Faculty Member - membership is required to chair doctoral examination or dissertation committees. Graduate faculty membership is a prerequisite for Doctoral faculty membership.

Undergraduate

- BA in Political Science (p. 264)
- Minor in Political Science (p. 265)

Departmental Requirements

Students complete a graduation plan, usually at the end of the sophomore year or beginning of the junior year. They should prepare for political science courses by completing university (p. 32) and College of Arts and Science foundation requirements, including university general education (p. 33).

Students must complete the following classes with letter grades in the C range or better to file a graduation plan:

- POL.SC 1100 or an equivalent course
- ENGLISH 1000 or an equivalent course
- MATH 1100 followed by a mathematics or statistics course (STAT 1200 will count)
- An analytical course e.g. SOCIOL 1000, PSYCH 1000, ECONOM 1014, PHIL 1000 or PHIL 1200
- POL.SC 3000

Students are required to complete 30 credits in political science. Fifteen of the 30 must be numbered 4000 or above.

Internships

The Political Science Department offers internship course credit for work in a variety of governmental settings, including work with state legislators, administrative agencies, lobbyists, members of Congress, statewide elected officials, and state political parties. Seniors in good standing with a GPA of 2.67 and juniors in good standing with a GPA of 3.0 who have completed appropriate coursework are eligible to apply. No more than 3 internship credit hours may be included in the 30 hours required for the major.

Departmental Honors

Students who have honors eligibility and a 3.5 GPA may enter the departmental honors program. Students who successfully complete a senior honors paper with a letter grade in the "B" range or better will have the phrase “with Honors in Political Science” added to their diplomas. Each year many political science honors students are selected for Phi Beta Kappa, Mortar Board, Golden Key and other scholastic honors.

Students who plan to enter graduate school are encouraged to enter the departmental honors program and to speak with a faculty member early in their academic career. Some areas of graduate study require significant preparation in language, statistics and methodology.

Graduate

- MA in Political Science (p. 265)
  - with emphasis in Public Policy (p. 266)
- PhD in Political Science (p. 266)

College of Arts and Science
113 Professional Building
(573) 882-2062
gradpolsci@missouri.edu
http://politicalscience.missouri.edu/

Director of Graduate Studies: Stephen Quackenbush

The department emphasizes both quality teaching and research. Several faculty members have received awards and prizes for teaching excellence and innovative research. The department aims to train people as experts in the study of politics and government, while encouraging students to acquire a sufficient background in other disciplines to enable them to correlate their specialized knowledge with all aspects of modern life.

Careers

The MA can serve multiple career goals: community-college teaching, continuation of studies to the PhD, entrance into and advancement in public service, or acquisition of skills for a position in the private sector. Alumni with PhDs have received teaching appointments at public and private colleges as well as positions of responsibility in state and national government in the United States and in many foreign countries. In recent years, an average of five students a year entered the PhD job market. Approximately eighty percent of the PhD graduates became college teachers. Most of the remainder went into public service and a few
into the private sector. Six departmental alumni have become college presidents.

Financial Aid from the Program

Applications for admission and financial aid are considered on the basis of the entire packet submitted. Students may apply for departmental teaching and research assistantships and fellowships, as well as university scholarships and fellowships. Many of our students are supported by departmental assistantships providing a stipend and course tuition waivers. Consult the program website or ask the program contact for details.

Satisfactory Progress

A graduate student must maintain a minimum 3.0 GPA after the first semester of graduate study and a 3.4 cumulative GPA in all subsequent semesters. A student should complete and pass required courses, activities, and examinations on schedule. The student's advisor and the director of graduate studies will monitor and provide an annual assessment of a student's progress. Failure to maintain satisfactory progress can have serious consequences, including dismissal from the program.

BA in Political Science

Degree Program Description

Political science is concerned with government, politics and public policies. In political science students learn how government operates and how to analyze and evaluate public policies and political ideas. This training can help students be more effective as active citizens, as political leaders and as government administrators. The curriculum offers opportunities to link academic study with internships and study abroad. Political Science graduates pursue many careers, some related to politics, but many others pursue other paths in a wide variety of areas such as: law, business and finance, consulting, government, public relations, media, advertising, lobbying, and international relations.

Major Program Requirements

Students must complete the University of Missouri’s general education requirements and the Departmental Requirements (p. 263), in addition to the degree requirements below.

All majors must take:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>POL_SC 1100</td>
<td>American Government</td>
</tr>
<tr>
<td>POL_SC 3000</td>
<td>Introduction to Political Research</td>
</tr>
</tbody>
</table>

*POL SC 3000 should be taken as a sophomore. It introduces majors to the systematic study of political phenomenon and prepares students for upper-class courses. A grade of C- or higher is required.

Comparative government (at least one course required)

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>POL_SC 2600</td>
<td>Canadian Politics and Government</td>
</tr>
<tr>
<td>POL_SC 2700</td>
<td>Comparative Political Systems</td>
</tr>
<tr>
<td>POL_SC 2720</td>
<td>European Democracies</td>
</tr>
<tr>
<td>POL_SC 4500</td>
<td>The European Union in the Global System</td>
</tr>
<tr>
<td>POL_SC 4600</td>
<td>Latin American Politics</td>
</tr>
<tr>
<td>POL_SC 4605</td>
<td>Latin American Politics through Film</td>
</tr>
<tr>
<td>POL_SC 4610</td>
<td>European Political Systems</td>
</tr>
<tr>
<td>POL_SC 4670</td>
<td>The Political System of the European Union</td>
</tr>
<tr>
<td>POL_SC 4680</td>
<td>Chinese Politics and Foreign Policy</td>
</tr>
<tr>
<td>POL_SC 4720</td>
<td>Politics of Development</td>
</tr>
</tbody>
</table>

Options

For students who want to concentrate on a specific area, suggestions for a course of study are available from the academic advisor. These include:

- Government service for students who want to become government administrators
- Public information and reporting for students who plan to be governmental press secretaries, public information specialists, interest group lobbyists or government reporters
- International relations for students who want to work for multinational corporations or international agencies
- Graduate school preparation
Semester Plan

Below is a sample plan of study, semester by semester. A student’s actual plan may vary based on course choices where options are available.

**First Year**

<table>

Total Credits: 120

- Course meets degree program requirements
- Course meets University general education and/or campus graduation requirements

**Minor in Political Science**

To earn a minor in political science, students must complete 15 credits, including the following:

- POL_SC 1100, American Government (3) or an equivalent course
- Additional political science courses totaling 12 credits with at least 6 at the 4000 level
- No more than 3 internship credits may be included and will not count as a 4000 level
- Nine credits must be in residence including 6 at the 4000 level

- A grade of C- or better is required of all political science classes in either a minor or a major with an overall GPA of 2.0 or greater.

**MA in Political Science**

**Admission Contact Information**

Graduate Studies Office  
113 Professional Bldg.  
Columbia, MO 65211  
(573) 882-2062  
grdpolscl@missouri.edu

**Admission Criteria**

Admission into the MA program is determined by the graduate committee’s consideration of the applicant’s performance on the applicant’s academic record, personal statement, letters of recommendation, and the GRE general test.

Fall deadline: December 15

- Minimum TOEFL scores for international applicants: 89
- Minimum GPA: 3.0 overall, in last 60 hours, and in political science courses.
- 12 hours of upper-division course work in political science is recommended.
- An undergraduate major in an area other than political science may be acceptable.

**Required Application Materials**

- Graduate Studies online application form
- one to two page statement of purpose, describing interests and goals in graduate study in Political Science
- three letters of recommendation
- transcripts from all universities attended [official transcripts upon admission]
- official results from the Graduate Record Examination (GRE)
- writing sample
- Test of English as a Foreign Language (TOEFL) scores (for International students)

**MA Degree Completion Requirements**

All MA students must complete POL_SC 7000, POL_SC 7010, and POL_SC 9030. Each candidate must take one graduate seminar (8000 level) in each of two fields. Fields include: American political institutions and behavior, comparative politics and government, international relations, and public policy and administration.

The master’s degree program culminates in a comprehensive oral examination and defense of the research project. The Master of Arts degree may be earned by completing either the thesis or the non-thesis program.

**Thesis Option**

Students wishing to advance from the master’s program to the PhD program at MU must take the thesis option. The thesis program requires 30 hours of academic credit (at least 18 in 8000-level Political Science
seminars) and an acceptable thesis for which up to six semester hours of
credit must be earned (POL_SC 8090).

Non-Thesis Option
The non-thesis program is a 30-hour generalist master of arts. It requires
a student to take at least 30 hours of academic credit (at least 18 in 8000-
level Political Science seminars) and to write a master’s paper for which
up to three hours of credit must be earned (POL_SC 8085).

Satisfactory Progress
A master’s student should maintain a minimum 3.0 GPA after the first
semester and a 3.4 cumulative GPA in subsequent semesters. The MA
program must be completed within five years of the first semester of
enrollment. Most students complete the master’s program within two
years.

MA in Political Science with
Emphasis in Public Policy
The Department of Political Science is no longer accepting applications to
the MA with emphasis in Public Policy degree program. We are accepting
applications to the regular MA in Political Science program (p. 265).
Please see their page for more information.

Admissions
Applicants are required to meet two sets of minimum qualifications for
admission: the requirements of the MA in Political Science program
(http://gradschool.missouri.edu/academics/programs/political-science/
masters.php) and the minimum requirements of the Graduate School
(http://gradschool.missouri.edu/admissions/eligibility-process/minimum-
requirements.php). Because requirements vary, you must refer to a
degree program’s graduate admission page to learn about specific
admission criteria, application deadlines, eligibility and application
process. Before official admissions to the University of Missouri, your
application materials will be reviewed by both the Graduate School and
the degree program to which you’ve applied.

PhD in Political Science

Admission Contact Information
Graduate Studies Office
113 Professional Bldg.
Columbia, MO 65211
(573) 882-2062
gradpolsci@missouri.edu

Admission
Admission into the PhD program is determined by the graduate
studies committee’s consideration of the applicant’s performance
on the applicant's academic record, personal statement, letters of
recommendation, and the GRE general test.

Admission Criteria
Fall deadline: December 15
• Minimum TOEFL score for international students: 89
• Minimum GPA: 3.0 overall, in last 60 hours, and in political science
courses
• 12 hours of upper-division course work in political science is
recommended.

Required Application Materials
• Graduate Studies online application form
• one to two page statement of purpose, describing interests and goals
in graduate study in Political Science
• three letters of recommendation
• transcripts from all universities attended (official transcripts required
upon admission)
• official results from the Graduate Record Examination (GRE)
• writing sample
• Test of English as a Foreign Language (TOEFL) scores (for
International students)

PhD Degree Completion Requirements
A student’s doctoral program must include at least 45 hours of graduate
seminars, exclusive of comprehensives and dissertation research. At the
discretion of the student’s doctoral program committee, up to 30 hours of
an MA program may be included in the PhD program.

Plan of Study
Students choose a primary and secondary field from the four doctoral
fields: American political institutions and behavior, comparative
politics and government, international relations, and public policy and
administration.

Graduate courses must include:
• A minimum of 12 seminar hours in the primary (research) field
• A minimum of nine seminar hours in a secondary field supporting the
primary field
• A minimum of 13 hours in a methodology or research tool field.
Required courses include POL_SC 7000, POL_SC 7010, and
POL_SC 9030.
• The remaining six hours in the methodology field may be in advanced
formal or quantitative methods, advanced foreign language, or a
combination of the two.

Besides completing the necessary course work, the candidate must
demonstrate the capacity to use a research tool (such as a foreign
language or statistics), should obtain some teaching experience in
political science (for academic careers), must pass written and oral
comprehensive examinations, must submit and defend a dissertation
proposal, and must submit and defend a dissertation.

Length of Study
All required courses and the comprehensive examination must be
completed within five years of the first semester in the graduate program.
The dissertation must be completed and defended within five years of
passing the comprehensive examination.

The PhD usually requires five years full time or the equivalent in part-time
work beyond the bachelor’s degree and four years beyond the master’s
degree. Full-time students (including teaching and research assistants)
must carry a minimum of nine credit hours of courses per semester
(except for students conducting dissertation research).
The faculty and staff of the Department of Psychological Sciences are committed to providing students with a high quality, broadly-based undergraduate education. Understanding that undergraduate students use the psychology major as preparation for a variety of postbaccalaureate experiences, the department is dedicated to offering a wide range of courses and services to students. While some students are interested in pursuing psychology-related interests in graduate school, most are interested in pursuing careers after graduating with a Bachelor of Arts (BA).

Regardless of a student’s ultimate goals, faculty members believe that students will be best served by completing a rigorous research-oriented program of study. Therefore, students should expect instructors to take a scientific approach to the psychological content of each course.

The department offers the BA and BS degrees with a major in Psychology, and the MA and PhD degrees with an emphasis in Clinical Psychology, Cognition & Neuroscience, Developmental Psychology, Quantitative Psychology, and Social & Personality Psychology. A minor in Quantitative Methods is also available.

**Faculty**

**Clinical Professor** N. Presser

**Clinical Associate Professor** M. Klein-Trull, S. O’Neill, J. Skinner, E. Waller

Assistant Teaching Professor L. Bauer, J. Ludlam, E. Naveh-Benjamin, I. Segert, M. Skaggs Sheldon, I. Zimmerman

Professor Emeritus W. Anderson, B. Biddle, R. Geen, J. LoPiccolo, A. Strathman, M. Thelen, D. Wright

- Graduate Faculty Member - membership is required to teach graduate-level courses, chair master's thesis committees, and serve on doctoral examination and dissertation committees.
- Doctoral Faculty Member - membership is required to chair doctoral examination or dissertation committees. Graduate faculty membership is a prerequisite for Doctoral faculty membership.

**Undergraduate**

- BA in Psychology (p. 268)
- BS in Psychology (p. 270)
- Minor in Psychology (p. 273)

**Graduate**

- MA in Psychology (p. 273)
  - emphasis in Child Development and Developmental Psychology (p. 273)
  - emphasis in Clinical Psychology (p. 273)
  - emphasis in Cognition and Neuroscience (p. 273)
  - emphasis in Developmental Psychology (p. 273)
  - emphasis in Quantitative Psychometrics (p. 273)
  - emphasis in Social/Personality Psychology (p. 274)

- PhD in Psychology (p. 274)
  - emphasis in Child Clinical and Developmental Psychology (p. 274)
  - emphasis in Clinical and Quantitative Psychology (p. 275)
  - emphasis in Clinical Psychology (p. 275)
  - emphasis in Cognition and Neuroscience (p. 275)
  - emphasis in Developmental Psychology (p. 276)
  - emphasis in Quantitative Psychology (p. 276)
  - emphasis in Social/Personality Psychology (p. 276)

- Please refer to the corresponding PhD programs for the MA emphasis areas indicated above. Students are only accepted for the PhD in Psychology and the MA is earned as a secondary degree en route to the PhD.

College of Arts and Science
210 McAlester Hall

**Director of Graduate Studies:** Dennis K. Miller

**About Psychological Sciences' Degrees**

Most students accepted have an undergraduate major in psychology or its equivalent. Acceptance is based on training, quality of work, recommendations, GRE scores and other information. For additional information on admission requirements, consult Graduate Study in Psychology and Associated Fields, published annually by the American Psychological Association and available in most libraries.
More Information about Emphasis Areas

These programs and others are more fully described at the departmental website at http://psychology.missouri.edu.

Dual Emphases: Child Clinical and Developmental Psychology

Students in the Dual Emphasis Program pursue a graduate degree with training in both clinical (child track) and developmental psychology. Students in this program are involved in training that bridges the two areas of developmental psychology and child-clinical psychology.

Dual Emphases: Clinical and Quantitative Psychology

Students in the Dual Emphasis Program pursue a graduate degree with training in both clinical and quantitative psychology. Students in this program are involved in training that bridges the two training areas. This program provides intensive training in the area of quantitative psychology with the added benefit of training in the research and practice of clinical psychology.

For more information on dual emphases degrees: https://psychology.missouri.edu/area/dual-degree-clinical-and-developmentalk- psychology

BA in Psychology

Degree Program Description

The study of Psychology aims to understand the mind, behavior, and mental health. The Bachelor of Arts in Psychology (BA) degree is for students interested in studying human behavior in preparation for either employment after completion of the undergraduate psychology degree, or in preparation for applied psychology and other related graduate programs (e.g., counseling, social work, management). Regardless of a student’s ultimate goals, our faculty members believe that students will be best served by completing a rigorous research-oriented program of study. Therefore, students should expect their instructors to take a scientific approach to the particular psychological content of each course. Psychology majors work in diverse fields such as community and social services, human resources, management and business, health care, student affairs and services, law enforcement, education, and scientific research.

Major Program Requirements

To graduate with a Bachelor of Arts in Psychology in the College of Arts and Science, a student must complete all degree, college, and university graduation requirements, including university general education (p. 33) as well as all degree and college or school requirements. Students are reminded to check the Undergraduate Catalog for course descriptions and prerequisite information.

Major Core Requirements

- The psychology major requires 30 credit hours.
- All courses that count toward the psychology major requirements must be completed with a grade of C or better. Grades of C- or below will not be accepted. This includes STAT 1200 or its equivalent (a required course for all psychology majors).
- Students must complete MATH 1100 before STAT 1200 and PSYCH 3010, before PSYCH 3020, before the capstone lab.

We make no exceptions to the research methods sequence requirements.
- Students must complete at least two psychology courses numbered 4000 or above. The Psychology capstone lab will meet one of these 4000-level courses.
- Students must complete at least one psychology course numbered 3000 or above that is designated Writing Intensive. The psychology capstone lab will meet the WI requirement if completed during the fall or spring semesters. Capstones are not WI in the summer sessions.
- No more than 43 psychology credits may count toward the required 120 credits to graduate. Students enrolled in the two-semester Honors Capstone only may use up to 49 psychology credits toward graduation.
- Students may use no more than 12 hours of Special Problems Courses, Special Readings Courses, or Internship Courses (PSYCH 2950, PSYCH 4940, PSYCH 4950 & PSYCH 4960) toward graduation. Within the 12 hours, no more than 9 hours may be Special Problems Courses. (i.e., psychology research credit hours). A student may complete either 6 hours of PSYCH 2950 and 3 hours of PSYCH 4950, or they may complete 3 hours of PSYCH 2950 and 6 hours of PSYCH 4950.
- Psych majors may have up to a total of 6 hours of PSYCH 4940.

Distribution Areas

Psychology majors are required to take one course from four of the five distribution areas. This ensures that students will have exposure to a wide range of psychological theory and research. In addition, students choose two additional Psychology courses to receive further education according to their interests. Although the distribution areas are presented below as distinct areas of study, a great deal of overlap exists among them. Students should understand the ways in which the various areas complement one another and gain the ability to integrate information learned in the different areas.

Learning/Cognition

This distribution area studies the mechanisms of the mind and how they are altered by experience. Courses in this distribution area include:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>PSYCH 2110</td>
<td>Learning, Memory, and Cognition</td>
<td>3</td>
</tr>
<tr>

<td>Theories of Learning</td>
<td>3</td>
</tr>
<tr>
<td>PSYCH 3140</td>
<td>Cognitive Psychology</td>
<td>3</td>
</tr>
<tr>
<td>PSYCH 3150</td>
<td>Human Memory</td>
<td>3</td>
</tr>
<tr>
<td>PSYCH 3160</td>
<td>Perception and Thought</td>
<td>3</td>
</tr>
<tr>
<td>PSYCH 4110</td>
<td>Perception</td>
<td>3</td>
</tr>
</tbody>
</table>

Biological/Neuroscience

This distribution area studies the biological basis of the behavior of humans and other animals. Courses in this distribution area include:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>PSYCH 2210</td>
<td>Mind, Brain, and Behavior</td>
<td>3</td>
</tr>
<tr>
<td>PSYCH 2220</td>
<td>Drugs and Behavior</td>
<td>3</td>
</tr>
</tbody>
</table>
PSYCH 2810  Human Sexuality 3
PSYCH 3830  Health Psychology 3
PSYCH 4210  Physiological Psychology 3
PSYCH 4240  Cognitive Neuroscience 3

Note: A student may not receive credit for PSYCH 2210 if it is completed after PSYCH 4210.

### Social/P person

This distribution area employs scientific methods to understand the nature and causes of individuals' thoughts, feelings and behavior in social situations. Courses in this distribution area include:

- PSYCH 2310  Social Psychology 3
- PSYCH 2320  Introduction to Personality 3
- PSYCH 2330  Consumer Psychology 3
- PSYCH 3350  Positive Psychology 3
- PSYCH 3360  Automatic Social Judgments 3
- PSYCH 3370  The Science of Mindfulness (Psych 3010 prerequisite) 3
- PSYCH 4815  Cross-Cultural Psychology 3

Note: Due to overlap in content, a student may not receive credit for both PSYCH 3350 AND ESC_PS 4200.

### Developmental

This distribution area studies the cultural and biological influences on age-related changes in cognition, emotion and social behavior that take place throughout an individual’s lifespan. Courses in this distribution area include:

- PSYCH 2410  Developmental Psychology 3
- PSYCH 3420  Cognitive Development in Childhood 3
- PSYCH 3430  Social Development in Childhood 3
- PSYCH 4440  Sex Differences 3

Note: Due to the overlap in course content, a student may receive credit for only one of the following three courses: PSYCH 2410, H_D_FS 3420 or ESC_PS 2500.

### Clinical/Abnormal

This distribution area focuses on scientific study of the causes of mental disorders as well as methods for assessing and alleviating mental health problems and related types of maladjustment. It also is concerned with the study of mental health and wellness, including strategies for preventing the development of mental disorders. Courses in this area include:

- PSYCH 2510  Survey of Abnormal Psychology 3
- PSYCH 2830  Human-Companion Animal Interaction 3
- PSYCH 3510  Introduction to Clinical Psychology 3
- PSYCH 4520  Behavior Genetics (Prerequisite of Psych 3010 and Stat 1200 with a C or better) 3
- PSYCH 4530  Research in Psychopathology 3
- PSYCH 4540  Emotional Disorders in Childhood and Adolescence 3
- PSYCH 4560  Schizophrenia 3
- PSYCH 4570  Pediatric Neuropsychology 3
- PSYCH 4580  Externalizing Spectrum Disorders 3

### Psychology Electives (2000-level) 6 credit hours

Students must complete two psychology elective courses numbered 2000 or above, excluding Special Problems/Readings (i.e., PSYCH 2950, PSYCH 4950, PSYCH 4960), Internship PSYCH 4940, and Capstone Labs.

### Semester Plan

Below is a sample plan of study, semester by semester. A student’s actual plan may vary based on course choices where options are available. Psychology majors are required to earn a C or higher (no C- or below) in all Psychology courses and STAT 1200.

BS in Psychology

Degree Program Description
The study of Psychology aims to understand the mind, behavior, and mental health. The Bachelor of Science in Psychology (BS) degree is for students interested in a more science-oriented curriculum. To better prepare them for further study in science-oriented psychology graduate programs (e.g., neuroscience, quantitative psychology), or medical school (e.g., Doctor of Medicine/MD, psychiatry), or other health-related graduate programs (e.g., pharmacy, physical therapy). The required science track is not noted on the BS diploma or transcripts, but students can indicate the science track on resumes and/or graduate school application forms. Regardless of a student’s ultimate goals, our faculty members believe that students will be best served by completing a rigorous research-oriented program of study. Therefore, students should expect their instructors to take a scientific approach to the particular psychological content of each course. While most psychology majors plan to find employment upon graduation with the undergraduate psychology degree, some psychology majors plan to pursue further study in psychology-related graduate or professional programs. Psychology majors work in diverse fields such as community and social services, human resources, management and business, health care, student affairs and services, law enforcement, education, and scientific research.

Major Program Requirements
To graduate with a Bachelor of Science in Psychology from the College of Arts and Science, a student must complete all degree, college and university graduation requirements (p. 32), including university general education (p. 33) as well as all degree and college or school requirements. Students are reminded to check the Undergraduate Catalog for course descriptions and prerequisite information.

Major Core Requirements

- The psychology major requires 36 credit hours.
- All courses that count toward the psychology major requirements must be completed with a grade of C or better. Grades of C- or below will not be accepted. This includes STAT 2500 and the required science track.
- A required statistics course (STAT 2500 or higher, or STAT 1200 and STAT 2200).
- Students must complete MATH 1100 before STAT 2500 and PSYCH 3010, before PSYCH 3020, before the capstone lab. We make no exceptions to the research methods sequence requirements.
- Students must complete at least two psychology courses numbered 4000 or above. The Psychology capstone lab will meet one of these 4000-level courses.

- Students must complete at least one psychology course numbered 3000 or above that is designated Writing Intensive. The psychology capstone lab will meet the WI requirement if completed during the fall or spring semesters. Capstones are not WI in the summer sessions.
- Students may use no more than 12 hours of Special Problems Courses, Special Readings Courses, or Internship Courses (PSYCH 2950, PSYCH 4940, PSYCH 4950, & PSYCH 4960) toward graduation. Within the 12 hours, no more than 9 hours may be Special Problems Courses (i.e., psychology research credit hours). A student may complete either 6 hours of PSYCH 2950 and 3 hours of PSYCH 4950, or they may complete 3 hours of PSYCH 2950 and 6 hours of PSYCH 4950.
- Psych majors may have up to a total of 6 hours of PSYCH 4940.
- Other than the 12 hour limit of Special Problems Courses, Special Readings Courses, and Internship hours described above, there is no limit to the number of psychology credits that may count toward the required 120 credits to graduate with the Bachelor of Science.

Required Courses

| PSYCH 1000 | General Psychology | 3 |
| STAT 2500 | Introduction to Probability and Statistics I | 3 |
| OR | STAT 1200 & STAT 2200 | 4 |
| | Introductory Statistical Reasoning and Introductory Statistical Methods | |

Research Methods Sequence

| PSYCH 3010 | Research Methods in Psychology I | 3 |
| PSYCH 3020 | Research Methods in Psychology II | 3 |
| | Capstone course (psychology lab course) | 3-6 |

Distribution Areas

Psychology majors are required to take one course from four of the five distribution areas. This ensures that students will have exposure to a wide range of psychological theory and research. In addition, students choose two additional Psychology courses to receive further education according to their interests. Although the distribution areas are presented below as distinct areas of study, a great deal of overlap exists among them. Students should understand the ways in which the various areas complement one another and gain the ability to integrate information learned in the different areas.

Learning/Cognition

This distribution area studies the mechanisms of the mind and how they are altered by experience. Courses in this distribution area include:

| PSYCH 2110 | Learning, Memory, and Cognition | 3 |
| PSYCH 3110 | Theories of Learning | 3 |
| PSYCH 3140 | Cognitive Psychology | 3 |
| PSYCH 3150 | Human Memory | 3 |
| PSYCH 3160 | Perception and Thought | 3 |
| PSYCH 4110 | Perception | 3 |

Biological/Neuroscience

This distribution area studies the biological basis of the behavior of humans and other animals. Courses in this distribution area include:

| PSYCH 2210 | Mind, Brain, and Behavior | 3 |
| PSYCH 2220 | Drugs and Behavior | 3 |
| PSYCH 2810 | Human Sexuality | 3 |
| PSYCH 3830 | Health Psychology | 3 |
Note: A student may not receive credit for PSYCH 2210 if it is taken after PSYCH 2310.

**Social/Personality**
This distribution area employs scientific methods to understand the nature and causes of individual's thoughts, feelings and behavior in social situations. Courses in this distribution area include:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>PSYCH 2310</td>
<td>Social Psychology</td>
<td>3</td>

Total Credits: 120-126

^ Course meets degree program requirement.
* Course meets University General Education and/or campus graduation requirement.
+ Course meets College of Arts & Science foundation (Basic Skills)

**Minor in Psychology**

The psychology minor requires 15 credits, distributed as shown below.

<table>
<thead>
<tr>
<th>Course</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>PSYCH 1000 (General Psychology)</td>
<td>3</td>
</tr>
<tr>
<td>Four regularly-scheduled psychology courses</td>
<td>12</td>
</tr>
<tr>
<td>Total Credits</td>
<td>15</td>
</tr>
</tbody>
</table>

At least two of these courses must be numbered 3000 or above.

“Regularly-scheduled” includes all on-campus and online MU courses offered via Mizzou Online, except special problems courses (i.e., psychology research credit hours), which are PSYCH 4950 and PSYCH 4960: Readings.

Students must receive a grade of C or better in all courses required for the minor. Grades of C- will not be accepted.

Only 6 credits in transfer courses will be accepted toward the minor.

AP credit for PSYCH 1000 is considered a transfer course.

Online MU courses offered by Mizzou Online are considered “regularly-scheduled courses”.

**MA in Psychology**

Our department is admitting students who are seeking a terminal master's degree.

All other students are only accepted for the PhD in psychology and the MA is earned as a secondary degree en route to the PhD.

Please see the admission criteria for our doctoral degree program.

**Admissions**

Admission Contact Information
Graduate Student Services
gradpsych@missouri.edu
210 McAlester Hall
Columbia, MO 65211
(573) 882-0838
(573) 882-7710 (fax)

**MA in Psychology with Emphasis in Clinical Psychology**

Please refer to the PhD program with an Emphasis in Clinical Psychology. (p. 275) Students are only accepted for the PhD in Psychology and the MA is earned as a secondary degree en route to the PhD.

**Admissions**

Please refer to the admission requirements for the PhD program with an Emphasis in Clinical Psychology (p. 275). Students are accepted for the PhD in Psychology and the MA is earned as a secondary degree en route to the PhD.

**MA in Psychology with Emphasis in Cognition and Neuroscience**

Please refer to the PhD program with an Emphasis in Cognition and Neuroscience (p. 275). Students are only accepted for the PhD in Psychology and the MA is earned as a secondary degree en route to the PhD.

**MA in Psychology with Emphasis in Developmental Psychology**

Please refer to the PhD program with an Emphasis in Developmental Psychology (p. 276). Students are only accepted for the PhD in Psychology and the MA is earned as a secondary degree en route to the PhD.

**MA in Psychology with Emphasis in Quantitative Psychometrics**

A minimum of 35 hours of graduate-level courses is required for the MA in Psychology with an emphasis in Quantitative Psychometrics. Students must complete 30 hours of advanced study at the University of Missouri to receive the degree. This means that a maximum of six hours of graduate coursework taken elsewhere can count toward the master’s degree. Such transfer of credit must be recommended by the student's advisor and approved by the director of graduate studies.

Admissions

Applicants are required to meet two sets of minimum qualifications for admission: the requirements of the MA in Psychology program with an
emphasis in Quantitative Psychometrics (http://gradstudies.missouri.edu/academics/programs/psychology) and the minimum requirements of the Office of Graduate Studies (http://gradstudies.missouri.edu/admissions/eligibility-process/minimum-requirements.php). Because requirements vary, you must refer to a degree program’s graduate admission page to learn about specific admission criteria, application deadlines, eligibility and application process. Before official admissions to the University of Missouri, your application materials will be reviewed by both the Office of Graduate Studies and the degree program to which you’ve applied.

MA in Psychology with Emphasis in Social/Personality Psychology

Please refer to the PhD program with an Emphasis in Social & Personality Psychology (p. 276). Students are only accepted for the PhD in Psychology and the MA is earned as a secondary degree en route to the PhD.

Admissions

Please refer to the admission requirements for the PhD program with an Emphasis in Social & Personality Psychology (p. 276). Students are only accepted for the PhD in Psychology and the MA is earned as a secondary degree en route to the PhD.

(573) 882-7710 (fax)

Admission Criteria

Fall deadline: December 1

• Minimum GPA: 3.0
• Minimum GRE score: no minimum, subject test is strongly recommended
• Minimum TOEFL scores:

<table>
<thead>
<tr>
<th>Internet-based test (iBT)</th>
<th>Paper-based test (PBT)</th>
</tr>
</thead>
<tbody>
<tr>
<td>61 Effective July 1, 2015 must have score of 80</td>
<td>500 Effective July 1, 2015 must have score of 550</td>
</tr>
</tbody>
</table>

An interview is required for admission. Students earn an MA en route to the PhD, but we do not admit students seeking a terminal master’s degree.

Most students accepted have an undergraduate major in psychology or its equivalent. Acceptance is based on training, quality of work, recommendations, GRE scores and other information. For additional information on admission requirements, consult Graduate Study in Psychology and Associated Fields, published annually by the American Psychological Association and available in most libraries.

Required Application Materials

Note: Submit all application materials directly to the Office of Graduate Studies

• Graduate School online application including:
• Faculty interest document (available at department website)
• Statement of purpose
• Writing sample
• Three letters of recommendation
• One unofficial copy of each college transcript where a degree was earned or is pending
• Official GRE score report (subject test report recommended)
• Official TOEFL score (if applicable)

PhD Degree Completion Requirements

The PhD qualifying examination requirement is satisfied by successful completion of the MA degree. A master’s degree with an empirical thesis is required for doctoral study. The master’s with thesis is typically completed as part of a student’s normal progress through the doctoral program.

Students with Degrees from Other Universities

Students who enter the doctoral program with a master’s (thesis) degree from another university can satisfy the MA requirement at this university by having their thesis and course work approved by a three-member thesis committee. The committee must be composed of one faculty member from the student’s training area, one faculty member from another training area, and one MU faculty member from outside the department. Those entering the department with a master’s degree obtained without an empirical thesis may meet this requirement by conducting an investigation under the supervision of their advisor and having the resulting thesis approved by a three-member committee with the composition identified above.

Plan of Study

General requirements for the PhD include nine hours of distribution courses, 11 hours in statistics, 24 hours in the area of concentration, other elective courses, and research. Students must earn 83 hours to graduate with the PhD. Practica, internship and additional course work are required for the clinical program. Other requirements include a dissertation and comprehensive and final oral examinations. More detailed information about the rules and regulations for degree completion can be found in the Department of Psychological Sciences Graduate Student Handbook.

Financial Aid from the Program

Financial aid is available through departmental research and teaching assistantships and from university fellowships.

PhD in Psychology with Emphasis in Child Clinical and Developmental Psychology

Students in the Dual Emphasis Program pursue a graduate degree with training in both clinical (child track) and developmental psychology. This program provides training in the area of developmental psychopathology, which bridges the two areas of developmental psychology and child-clinical psychology. To pursue the joint program, students must be officially admitted into both the clinical and developmental training
areas within the Department of Psychological Sciences and complete requirements for both areas. Students should initially apply and be admitted to just one training area, either the clinical or developmental area. Once they have successfully completed the first year in that training area, they may apply to the second area.

Admissions

Applicants are required to meet two sets of minimum qualifications for admission: the requirements of the PhD in Psychology program (http://gradstudies.missouri.edu/academics/programs/psychology/doctorate.php) and the minimum requirements of the Office of Graduate Studies (http://gradstudies.missouri.edu/admissions/eligibility-process/minimum-requirements.php). Because requirements vary, you must refer to a degree program’s graduate admission page to learn about specific admission criteria, application deadlines, eligibility and application process. Your application materials will be reviewed by both the Office of Graduate Studies and the degree program to which you’ve applied before official admission to the University of Missouri.

PhD in Psychology with Emphasis in Clinical and Quantitative Psychology

Students in the Dual Emphasis Program pursue a graduate degree with training in both clinical and quantitative psychology. This program bridges the two training areas, combining intensive training in the area of quantitative psychology with the added benefit of intensive training in the research and practice of clinical psychology. To pursue the joint program, students must be officially admitted into both the clinical and quantitative training areas within the Department of Psychological Sciences and complete the requirements for both areas.

Admissions

Applicants are required to meet two sets of minimum qualifications for admission: the requirements of the PhD in Psychology program (http://gradstudies.missouri.edu/academics/programs/psychology/doctorate.php) and the minimum requirements of the Office of Graduate Studies (http://gradstudies.missouri.edu/admissions/eligibility-process/minimum-requirements.php). Because requirements vary, you must refer to a degree program’s graduate admission page to learn about specific admission criteria, application deadlines, eligibility and application process. Before official admissions to the University of Missouri, your application materials will be reviewed by both the Office of Graduate Studies and the degree program to which you’ve applied.

PhD in Psychology with Emphasis in Clinical Psychology

The Clinical Psychology program is accredited by the American Psychological Association and by the Psychological Clinical Science Accreditation System, and is a member of the Academy of Psychological Clinical Science. The Clinical program follows a clinical science model of training. Central to this model is a commitment:

1. to using an empirical approach to understand, ameliorate, and prevent human problems in behavior, affect, cognition, and health;
2. to promoting adaptive human functioning; and
3. to disseminating and applying knowledge in ways consistent with scientific evidence.

The Clinical program prepares students for careers involving production, dissemination and support of clinical science research. Clinical faculty and students are active in research and scholarship that advances understanding of the symptoms, causes, course, treatment, and prevention of many of our nation’s most distressing and impairing mental/behavioral health issues (e.g., addictions, anxiety, developmental disorders, juvenile delinquency, mood instability and disorders, schizophrenia) in youth and adults. Students work primarily with core clinical faculty, but may also collaborate with researchers throughout the department and in other campus and community units (e.g., health psychology, Psychiatry, engineering, Thompson Center for Autism and Developmental Disabilities, Fulton State Hospital, Psychological Services Clinic).

Students also develop clinical skills in empirically supported approaches to assessment, prevention and intervention. The Clinical program maintains its own community-based outpatient clinic (the Psychological Services Clinic or PSC) as the primary practicum training site for students in the clinical program. The PSC is staffed by doctoral-level clinical psychologists and clinical graduate students, and it serves a broad range of clients through individual, couple, family, and group assessment and therapy services. The PSC also offers training in specialty services through its Dialectical Behavior Therapy program, Strategies Targeting Alcohol Responsibility program, and MU Center for Evidence-Based Youth Mental Health and Multisystemic Therapy program. Additional clinical experiences are available through paid or volunteer positions at institutions such as Fulton State Hospital, University Hospitals and Clinics, and the Thompson Center.

After completing high quality internships, typically at medical centers, VAs, or university research centers, graduates are employed in positions that involve research, teaching and service in universities, medical centers, clinics, hospitals and similar agencies.

Admissions

Applicants are required to meet two sets of minimum qualifications for admission: the requirements of the PhD in Psychology program (http://gradstudies.missouri.edu/academics/programs/psychology/doctorate.php) and the minimum requirements of the Office of Graduate Studies (http://gradstudies.missouri.edu/admissions/eligibility-process/minimum-requirements.php). Because requirements vary, you must refer to a degree program’s graduate admission page to learn about specific admission criteria, application deadlines, eligibility and application process. Before official admissions to the University of Missouri, your application materials will be reviewed by both the Office of Graduate Studies and the degree program to which you’ve applied.

PhD in Psychology with Emphasis in Cognition and Neuroscience

The faculty and students in the Cognition and Neuroscience Training Area explore the interactions among mind, brain and behavior from individual and biological levels of analysis. Graduate training provides students with a thorough background in psychology, statistics and scientific methodology, through course work and participation in ongoing
research. Students are expected to be actively engaged in faculty-mentored and independent research projects throughout their training. Faculty and students in cognition and neuroscience investigate a variety of topics in human cognition, cognitive neuroscience, learning and memory, and behavioral neuroscience and use human and animal models. Our researchers investigate the structure and function of the nervous system and its impact on behavior in brain imaging, psychophysiology and neuropharmacology experiments. Studies survey human memory, intelligence and sensorimotor function across the lifespan and the impact of physical and psychological disorders on these processes. Animal research examines motivation, learning and the biological basis of human psychopathologies.

Admissions

Applicants are required to meet two sets of minimum qualifications for admission: the requirements of the PhD in Psychology program (http://gradschool.missouri.edu/academics/programs/psychology/doctorate.php) and the minimum requirements of the Graduate School (http://gradschool.missouri.edu/admissions/eligibility-process/minimum-requirements.php). Because requirements vary, you must refer to a degree program’s graduate admission page to learn about specific admission criteria, application deadlines, eligibility and application process. Before official admissions to the University of Missouri, your application materials will be reviewed by both the Graduate School and the degree program to which you’ve applied.

PhD in Psychology with Emphasis in Developmental Psychology

Developmental psychology is the scientific study of social, cognitive, and physical development over time. The Developmental Psychology doctoral program offers a strong background in statistics and research methodology and intensive research mentoring. Graduate students engage in research with their primary advisor beginning in their first semester in the program and take supporting coursework.

Admissions

Applicants are required to meet two sets of minimum qualifications for admission: the requirements of the PhD in Psychology program (http://gradschool.missouri.edu/academics/programs/psychology/doctorate.php) and the minimum requirements of the Graduate School (http://gradschool.missouri.edu/admissions/eligibility-process/minimum-requirements.php). Because requirements vary, you must refer to a degree program’s graduate admission page to learn about specific admission criteria, application deadlines, eligibility and application process. Before official admissions to the University of Missouri, your application materials will be reviewed by both the Graduate School and the degree program to which you’ve applied.

PhD in Psychology with Emphasis in Quantitative Psychology

The goal of the PhD program with emphasis in quantitative psychology is to produce researchers who are able to develop, evaluate, and apply advanced methodological techniques to psychological research questions. The program offers considerable diversity in faculty research and coursework offerings; our substantive interests span clinical, social, health, developmental, and cognitive psychology. Quantitative areas of expertise cover a range of linear and non-linear approaches to modeling, as well as meta-analysis, time series, state-space models, and issues in large-scale data management. Students in quantitative psychology complete course work in mathematical statistics, experimental design, and measurement, as well as courses in quantitative methods. Students can acquire extensive experience as statistical consultants through specific coursework in statistical consultation. Program requirements are fairly flexible, and students with particular interests in a substantive area of psychology are encouraged to take advanced courses in that area. Quantitative course offerings focus both on classic analytic methods as well as advanced techniques such as structural equation modeling, multilevel modeling, and meta-analysis.

Strong ties exist between the Department of Psychological Sciences and the Department of Statistics, and students may opt to complete a master’s degree in statistics as they progress through the PhD program. In addition, students have the opportunity to gain experience as statistical consultants through specific coursework in this area.

On-going projects conducted by the faculty include research in meta-analytic and secondary analysis techniques, structural equation modeling, particularly as applied to longitudinal models of change and growth, multilevel modeling, and mathematical and statistical models of cognition and perception.

Admissions

Applicants are required to meet two sets of minimum qualifications for admission: the requirements of the PhD in Psychology program (http://gradschool.missouri.edu/academics/programs/psychology/doctorate.php) and the minimum requirements of the Graduate School (http://gradschool.missouri.edu/admissions/eligibility-process/minimum-requirements.php). Because requirements vary, you must refer to a degree program’s graduate admission page to learn about specific admission criteria, application deadlines, eligibility and application process. Before official admissions to the University of Missouri, your application materials will be reviewed by both the Graduate School and the degree program to which you’ve applied.

PhD in Psychology with Emphasis in Social/Personality Psychology

Social/Personality psychology offers training in the traditional areas of social and personality psychology, as well as their relevance for several applied areas including health psychology. This Social/Personality area integrates the psychology of the person and the situation, with the goal of understanding the psychological processes that underlie people’s emotions, motivations, beliefs, actions, and decisions.

Training focuses on the multi-faceted view of social behavior from three levels:

1. the individual level;
2. the contextual level (or social level); and
3. the interaction of the individual and the contextual levels.

All three levels are vital to fully understanding human psychology. Particular research foci in the area include the sources of motivation, both individual and social; the nature of meaning-making, both existential and interpersonal; the determinants of optimal and destructive functioning, both within and between groups and in relationships; and the causes and consequences of psychological well-being, growth, and defense.

Admissions

Applicants are required to meet two sets of minimum qualifications for admission: the requirements of the PhD in Psychology program (http://gradschool.missouri.edu/academics/programs/psychology/doctorate.php) and the minimum requirements of the Graduate School (http://gradschool.missouri.edu/admissions/eligibility-process/minimum-requirements.php). Because requirements vary, you must refer to a degree program's graduate admission page to learn about specific admission criteria, application deadlines, eligibility and application process. Before official admissions to the University of Missouri, your application materials will be reviewed by both the Graduate School and the degree program to which you’ve applied.

Religious Studies

rsinfo@missouri.edu
http://ReligiousStudies.missouri.edu

Faculty

Associate Professors R. J. Callahan*, S. M. Cohen*
Assistant Professors D. Amponsah*, C. Duncan*, R. Gregory*, N. Hofer*, D. Kelley*
Teaching Assistant Professors D. Cohen*, J. Flanagan*

* Graduate Faculty Member - membership is required to teach graduate-level courses, chair master's thesis committees, and serve on doctoral examination and dissertation committees.
** Doctoral Faculty Member - membership is required to chair doctoral examination or dissertation committees. Graduate faculty membership is a prerequisite for Doctoral faculty membership.

Undergraduate

• BA in Religious Studies (p. 277)
• Minor in Religious Studies (p. 278)

The department’s field of study includes religious expressions from many cultures and in every period of history. Systematic study of this rich world of expression employs the widest range of academic tools and competencies, from the skills of the literary critic and historian to the analytic abilities of the social scientist and anthropologist. Because of this broad base, study in the department promotes fundamental academic skills and critical judgment and provides deeper understanding of national and international cultures. Thus, the religious studies major provides students with a foundation to pursue careers in business, government, counseling, law, medicine and journalism, as well as advanced professional study in religion. The department offers BA and MA degrees with majors in Religious Studies. A minor is also available.

Double Majors

Students are encouraged to pursue dual majors that combine religion with other interests.

Director of Graduate Studies: Dennis Kelley

About the Religious Studies MA Program

The master's program in religious studies at the University of Missouri is a two-year stand-alone graduate program in the academic study of religion. Many of the program's alumni have gone on to PhD programs in religious studies or related disciplines, while others have completed the master's degree in order to enrich their educational lives or to prepare for work in journalism, education, law, or other fields that demand critical thinking and analytical skills.

The master's program offers training in the academic study of religion, with particular emphasis on theory and methods in religious studies. Students work closely with their advisors and mentors in order to develop and grow as scholars of the discipline. The department offers courses in the areas of Biblical Studies, History of Christianity, Religion in America, Islam, Judaism, Indigenous Religions, Hinduism, Buddhism, Women and Religion, and Religion and Neuroscience. Students must complete a total of 30 credit hours at the graduate level, pass comprehensive exams in theory and methods in the academic study of religion, and complete a Master's thesis or portfolio.

BA in Religious Studies

Degree Program Description

What do shamans, politicians, nurses, prophets, intellectuals, nuns, slaves, and soldiers have in common? They are all part of the Religious Studies curriculum at MU, which studies religion as a powerful influence in human life and history, shaping global cultures, national identities, and the values of individuals. Religious Studies majors explore the roles religion plays in societies, the ways that religious institutions grow and change, the meanings of scriptures from around the world, the extraordinary experiences of religious specialists, and much more. Graduates of the major pursue a variety of employment and graduate school opportunities.

Major Program Requirements

Students must earn a minimum GPA of 2.0 or higher in order to have the credit applied. In addition, students must complete all degree, college and university graduation requirements, including university general education (p. 33).

Minor in Religious Studies
A minor in religious studies is available with the following requirements: a minimum of 15 credits (at least one course each in Asian, Western, and Indigenous Religions), including 6 in courses numbered 2000 or above. A minimum 2.0 MU GPA is required in all courses toward the minor.

MA in Religious Studies

Required Application Materials
To the Office of Graduate Studies
All required Graduate Studies documents, including transcripts

To the Religious Studies MA Program
Departmental application and writing sample
3 letters of recommendation (use departmental form)
GRE score report

Additional Information
The match between the interests of applicants and the areas of emphasis offered in the program will be an important consideration in the evaluation of applications.

All application materials are available online, and applications should be submitted electronically at https://app.applyyourself.com/?id=umc-grad
Although electronic applications are preferred, a student may also print out the application materials and mail them to the Religious Studies Department at the following address:
The Director of Graduate Studies
The Department of Religious Studies
221 Arts & Science Bldg
The University of Missouri
Columbia, MO 65211

International students should contact the Office for International Admissions. Students whose native language is not English should achieve a score of 550 or more on the TOEFL exam for admission to the program.

Applications must be completed at least six weeks before the start of graduate studies. Applicants seeking teaching assistantships or fellowships must submit applications no later that February 1. Notification of admission and awards will be made no later than April 1. Applicants who wish to enter the program in January of an academic year must submit materials no later than October 15.

Romance Languages

Charles Presberg, Chair
Department of Romance Languages and Literature
143 Arts and Science Building
(573) 882-4874
Fax: (573) 884-8171

The study of a foreign language allows for the development and refinement of communication, listening and speaking skills. Such study
also endows students with a concern for world affairs and an appreciation of and respect for individual differences.

The Department of Romance Languages and Literatures offers language and literature courses in French, Italian, Portuguese and Spanish. Students may elect a major in Romance Languages with an emphasis in French or Spanish. Minors are also available in Afro-Romance literatures in Translation, French, Italian Area Studies, Luso-Brazilian Area Studies, Romance Literatures in Translation, and Spanish. The department also participates in the interdepartmental minor in film studies.

Double majors within the College of Arts and Science, as well as dual degree programs outside of the College of Arts and Science, can be arranged if the second degree is identified early. Combined programs with journalism, political science, agriculture, education and business are among the possibilities.

The department offers BA and MA degrees in Romance Languages with major emphasis in French and Spanish; an MA with a major in French Language Teaching or Spanish Language Teaching, and a PhD in Romance Languages. Minors are also available.

Faculty

Assistant Professor M. Moore**, G. Pérez-Anzaldo**, M. Soria-López*
Teaching Associate Professor D. Anzaldo-González*, M. Marcos-Llajas, I. Otabela-Mewolo*
Teaching Assistant Professor A. Aviles-Quinones*, K. Fleak*, D. M. Heston, J. Sandone
Instructor L. McCune, A. Wetzel

* Graduate Faculty Member - membership is required to teach graduate-level courses, chair master's thesis committees, and serve on doctoral examination and dissertation committees.
** Doctoral Faculty Member - membership is required to chair doctoral examination or dissertation committees. Graduate faculty membership is a prerequisite for Doctoral faculty membership.

Undergraduate

• BA in Romance Languages (p. 279)
  • with emphasis in French (p. 280)
  • with emphasis in Spanish (p. 280)

Graduate

• MA in Romance Languages (p. 281)
  • with emphasis in French (p. 282)
  • with emphasis in Language Teaching (p. 283)
  • with emphasis in Spanish (p. 285)

  • PhD in Romance Languages (p. 286)

Director of Graduate Studies: Charles Presberg

About the Department of Romance Languages and Literatures

The Department of Romance Languages and Literatures offers graduate degree programs with an emphasis in Spanish (p. 285), and French (p. 282), both with the option of an emphasis in foreign language teaching. The department’s faculty and graduate student seminars are an interdisciplinary, interdepartmental series seeking to provide a collegial atmosphere in which scholars can present their recent work. The department strongly encourages study abroad as a way to reinforce language skills, broaden one’s horizons, and add an unforgettable experience to a meaningful university education.

The Department of Romance Languages and Literatures at the University of Missouri has the country’s only focus area in the field of Afro-Romance Studies. In order to facilitate research collaboration between our faculty members working in this field and scholars outside our institution, we have established the Institute for Languages and Literatures of the African Diaspora. The Institute serves first and foremost to expose black writers of French, Portuguese and Spanish expression to a wider audience.

Specialization

The Department of Romance Languages and Literatures offers four fields of specialization at the doctoral level: French Literature, Francophone Literature, Spanish Literature or Spanish American Literature.

Financial Aid from the Program

Some programs require an extra form or statement from those who wish to be considered for internal assistantships, fellowships or other funding packages. Check the program website or ask the program contact for details.

BA in Romance Languages

Degree Program Description

Romance Languages is the study of language and literature in French, Italian, Portuguese, and Spanish. The study of a foreign language allows for the development and refinement of communication, listening and speaking skills. Such study also endows students with a concern for world affairs and an appreciation of and respect for individual differences. The Bachelor of Arts degree in Romance Languages is offered in two emphasis areas: French and Spanish. Students must choose one of the emphasis areas to earn the BA in Romance Languages. Given the liberal arts foundation of a degree in Romance Languages students pursue careers in a variety of fields or continue their studies. Graduates have pursued careers in journalism, tourism, diplomacy, and education.

Major Program Requirements

The bachelor of arts degree in Romance Languages is offered in two emphasis areas: French (p. 280) and Spanish (p. 280). Students must choose one of the emphasis areas to earn the BA in Romance Languages. Details on the requirements for the programs are listed under each emphasis.
**Semester Plan**

A sample plan of study has not been designed for this major, as students are required to select an emphasis. Refer to the semester plans designed for the emphasis in French (p. 280) or Spanish (p. 280).

**BA in Romance Languages with Emphasis in French**

**Degree Program Description**

The BA in Romance Languages with an emphasis in French is the exploration of the language, literature, and culture of French-speaking countries. The degree requires a minimum of 30 hours of French beyond FRENCH 2100. Faculty strongly encourages all majors to spend at least one semester (or summer) studying abroad, preferably after their second year of the language. Given the liberal arts foundation of a degree in French students pursue careers in a variety of fields or continue their studies. Graduates have pursued careers in journalism, tourism, diplomacy, and education.

**Major Program Requirements**

Course work must be completed with a grade in the C range or higher in each of the required courses and students must maintain a 2.0 GPA in the major. Students must meet all major requirements listed below, as well as all College of Arts and Science and University graduation requirements (p. 32), including University general education (p. 33).

Students who work toward a double major (two degrees within the College of Arts and Science) may be able to complete the majors with a minimum of 120 credits. Students who are considering a dual degree (double/dual major or a minor) are advised that a minimum of 132 credits are necessary.

To obtain the BA degree in Romance Languages with an emphasis in French, the following courses, or their equivalents, must be included in the graduation plan (numbers in parentheses indicate prerequisite courses).

**Additional Requirements**

- Students must complete five additional 4000-level courses (one of which must be stylistics and one must be a capstone) selected with the advisor’s approval. FRENCH 4960: Special Readings in French cannot be used to fulfill this requirement except by permission of the department chair.
- Students beginning at a level higher than FRENCH 2160 due to placement testing must still complete 30 credits in order to receive the major.
- In addition, the student is required to take a Writing Intensive course in the major, normally designated sections of FRENCH 3400 or FRENCH 3430, and must complete a minor.
- It is highly recommended that students take FRENCH 2310: French Civilization as an elective and, if at all possible, study for a summer, a semester or a full year in a French-speaking country.

**Semester Plan**

**Total Credits: 110**

^ Course meets degree program requirements

^ Course meets University general education and/or campus requirements

Electives may be replaced by courses that fulfill requirements for a double/dual major or a minor.

**BA in Romance Languages with Emphasis in Spanish**
Degree Program Requirements

The BA in Romance Languages with an emphasis in Spanish is the exploration of the language, literature, and culture of Spanish-speaking countries. The degree requires a minimum of 30 hours of Spanish beyond SPAN 2100. Faculty strongly encourages all majors to spend at least one semester (or summer) studying abroad, preferably after their second year of the language. Given the liberal arts foundation of a degree in Spanish students pursue careers in a variety of fields or continue their studies. Graduates have pursued careers in journalism, tourism, diplomacy, and education.

Major Program Requirements

Course work must be completed with a grade in the C range or higher in each of the required courses and students must maintain a 2.0 GPA in the major. Students must meet all major requirements listed below, as well as all College of Arts and Science, and University graduation requirements, including University general education (p. 33).

Students who work toward a double major (two degrees within the College of Arts and Science) may be able to complete the majors with a minimum of 120 credits. Students who are considering a dual degree program (in Arts and Science and in another school or college) are advised that a minimum of 132 credits are necessary.

To obtain the BA degree in Romance Languages with an emphasis in Spanish, the following courses, or their equivalents, must be included in the graduation plan (numbers in parentheses indicate prerequisite courses):

**Major core requirements**

<table>

</tr>
</tbody>
</table>

**Additional Requirements**

Students must complete five 4000-level courses selected with the advisor’s approval.

- Required courses: one peninsular lit., one Spanish-American lit., three courses of choice.

It should be noted that SPAN 4960 Special Readings in Spanish cannot be used to fulfill this requirement except by permission of the department chair. Students who plan to teach at any level should include courses SPAN 3160 and SPAN 3721, rather than their alternates.

- Students beginning at a level higher than SPAN 2160 due to placement testing must still complete 30 credits in order to receive the major.

- In addition, the student is required to take a Writing Intensive course in the major, normally designated sections of SPAN 3420 or SPAN 3430, and must complete a minor.

- It is highly recommended that students take SPAN 2310 Spanish Civilization as an elective and, if at all possible, study for a summer, a semester or a full year in a Spanish-speaking country.

^ Course meets University general education and/or campus requirements

Electives may be replaced by courses that fulfill requirements for a double/dual major or a minor.

**MA in Romance Languages**

The master of arts degree in Romance Languages is offered in three emphasis areas. Students must choose one of the emphasis areas listed below:

- French (p. 282)
- Spanish (p. 285)
- Language Teaching (p. 283)
Details on the requirements for the programs are listed under each emphasis.

**MA in Romance Languages with Emphasis in French**

Admission Contact Information
Mary Harris
143 Arts and Science
Columbia, MO 65211
(573) 882-5039
http://romancelanguages.missouri.edu/grad.shtml

**Admission Criteria**

Fall deadline: February 15
Spring deadline: October 15

- Minimum GPA: 3.0 in field of major
- Masters applicants must have a bachelor’s degree
- Minimum TOEFL scores (international applicants):

<table>
<thead>
<tr>
<th>Internet-based test (iBT)</th>
<th>Paper-based test (PBT)</th>
</tr>
</thead>
<tbody>
<tr>
<td>Effective July 1, 2015 must have score of 80</td>
<td>Effective July 1, 2015 must have score of 550</td>
</tr>
</tbody>
</table>

Note: Applicants must also demonstrate adequate preparation in advanced language and literature courses. This will require their having completed at least four courses equivalent to a 4000-level course for masters applicants or a 7000 level course for doctoral applicants at the University of Missouri. At a minimum, three of these courses must be in literature. If the faculty determines a deficiency, they will require that the student complete remedial course work in literature during the first year of enrollment. The director of graduate studies will inform students of these additional requirements at the time of their admission.

**Required Application Materials**

To the Office of Graduate Studies

- All required Graduate Studies documents
- Official Transcript
- 10-15 page writing sample in language of desired degree program, must be uploaded to the online application
- 500-word Personal Statement, uploaded to the online application
- 3 letters of recommendation (submitted through Apply Yourself or mailed to the Romance Languages Department, 143 Arts & Science, University of Missouri, Columbia, MO 65211)
- Résumé or CV

**Choosing an Advisor**

All graduate students in the department may choose, or the director of graduate studies will assign them, an academic advisor at the start of their first semester of graduate study. Students must choose an academic advisor by the end of their first semester of graduate study.

**Plan of Study**

The department offers MA degrees with an emphasis in both French and Spanish (Peninsular or Spanish-American literature).

**Minors**

Students may also elect a minor field of study, which requires a minimum of 9 hours of course work completed in another department or other departments. Students interested in such minors should consult the section titled Plan of Study in the Graduate Catalog. These minor fields appear on students’ plan of study, but not on their transcript. Students electing minors must complete the standard MA examination in their major field of emphasis (French or Spanish).

**MA Degree Requirements**

Students must complete a total of 30 credit hours at the graduate-level to earn their MA degree. At least 15 hours must be in courses at the 8000 level or above. The plan of study for the MA with an emphasis in Spanish must include a minimum of nine hours of course work in Spanish peninsular literature and a minimum of nine hours of course work in Spanish-American literature. The plan of study for an MA with an emphasis in Spanish must also include three credit hours in the history of the Spanish language (completion of or the equivalent).

For the MA with an emphasis in either French or Spanish, the total number of credit hours in special readings (7960), problems (8085) or any combination of both may not exceed twelve. The number of credit hours in special readings (7960) within the student’s major field may not exceed three per semester. Graduate Instructors with no pedagogical experience or those who have completed no graduate course in foreign language teaching methodology will be required to take FRENCH 7120/SPAN 7120, Foreign Language Teaching Methodology.

Non-native speakers will be required to complete an online proficiency assessment with the appropriate course coordinator before a decision on their admission status is finalized by the department.

**Submitting Your Plan of Study to the Graduate School Office**

MA candidates must submit a completed M-1 Plan of Study form to the Graduate School at least one semester before taking their MA examinations.

**Funding Through Graduate Instructorships**

MA candidates normally receive 4 semesters of financial support from the University while completing their degree. This support will customarily take the form of a graduate instructorship, though it may take the form of either a research or teaching assistantship.

**Possible Fifth Semester of Support**

In exceptional cases, students in good standing — with no grades of incomplete and unproblematic teaching — may receive a fifth semester of support, at the discretion of the faculty. Faculty will award a fifth semester of support according to the department’s need for instructors. Students must submit all requests for a fifth semester of support in writing to the director of graduate studies. No student will receive more than five semesters of support.

**Normal Teaching Load vs. Course Load**

The minimum teaching assignment for MA candidates holding instructorships is 1 course per semester, although there may be an opportunity for two. International students may never teach more than 2 courses per semester owing to visa restrictions. All MA candidates must be registered in a minimum of 6 hours of course work for each semester.
in which they hold an instructorship. Students may enroll in up to 6 hours per semester of 8080 (Readings) if they have completed all their coursework and are preparing for their MA exams.

**Annual Review**

The faculty and course directors in both major languages meet during the fall and spring semesters to evaluate the teaching and academic performance of all graduate students. The director of graduate studies informs all students in writing of their status at the end of each semester. Students who fail to remove a grade of Incomplete will be limited to teaching one course per semester for as long that grade of Incomplete remains on their academic record.

**Master’s Thesis**

The writing of a thesis is optional. A minimum of 4 hours and a maximum of 6 hours of 8090 Research will be allowed for the thesis. Students are urged to obtain the Graduate School’s guidelines for thesis/dissertation writing as the thesis must conform to the Office of Graduate Studies’ formatting and style specifications.

**Thesis Committee**

Students choosing to write a thesis must name a thesis committee consisting of no fewer than three members of the doctoral faculty at the University of Missouri, one of whom should be from a department other than the Department of Romance Languages and Literatures.

**Comprehensive Examination for the MA degree**

All candidates for the Master of Arts degree must pass a 6-hour written examination based on the MA reading list. The examination is given twice a year, generally in late October and late March.

The French Master’s examination consists of six 1-hour parts covering literature of the Middle Ages/Renaissance, 17th, 18th, and 19th centuries, and two of the following three periods in the contemporary period: twentieth century French Literature, twentieth century Francophone Literature, contemporary literary theory.

The Spanish examination consists of two 3-hour examinations. The first component covers Peninsular Spanish literature from the Middle Ages to the present and the second component covers Spanish American literature from the Colonial period to the present.

At least half the examination must be written in the candidate’s language of specialization.

**Grading of the Comprehensive Exam**

The MA examination is graded as follows: High Pass, Pass, and Fail. In order to receive a passing grade on any section of the examination, a student must receive passing grades from two thirds of the examining committee. To pass the entire examination, students must receive passing grades on all sections. With permission from the examining committee, students who fail part of the examination may retake only the failed section or sections of the examination. Two failures of the examination, in whole or in part, will terminate candidacy for the degree and result in dismissal from the program.

**MA in Romance Languages with Emphasis in Language Teaching**

**Admission**

Students desiring to work for the degree of Master of Arts, Emphasis on Language Teaching (MALT) should apply directly online to the Graduate School. Applicants can find links for information, instructions for applying and the online application form on the Graduate School’s site (http://gradschool.missouri.edu/admissions). This online form is submitted electronically to the Graduate School, along with the application fee.

Additionally, the following materials submitted via the Graduate School’s Apply Yourself (https://app.applyyourself.com/AY ApplicantLogin/fl_ApplicantLogin.asp?id=umc-grad) system:

- Official transcripts from the institution(s) previously attended
- TOEFL scores (international applicants only)
- Photocopies of diplomas earned at colleges/universities outside the US (international applicants only)

In addition, our department requires the following materials from all applicants:

- Departmental Graduate Studies Application
- Three Letters of Reference
- A 10-15 page-writing sample
- 500-word personal statement detailing the applicant’s reasons for selecting the University of Missouri for graduate studies and academic/career goals. Applicants may also send other supporting materials, such as a résumé, if desired.

The application form and the form for reference letters are available on the Department’s page (http://romancelanguages.missouri.edu).

**Eligibility**

Candidates for the MA must hold a Bachelor’s degree (or equivalent) with a grade point average of 3.0 or better in their major field of study. They must also demonstrate adequate preparation in advanced language and literature courses for admission. This will normally be four courses equivalent to a 4000-level course at the University of Missouri. At least three of these courses must be in literature or linguistics. If the Admissions Committee believes that a deficiency exists, it will prescribe additional course work (during the first year of enrollment) beyond the 30 credit hours necessary for the MALT degree. The Director of Graduate Studies will inform students of these additional requirements at the time of admission.

All non-native speakers of French/Spanish will be required to complete an online proficiency assessment prior to admission. Applicants will be contacted by the appropriate course coordinators to schedule this assessment. Students who are judged deficient in any of these areas are required to do remedial work. New graduate students who are required to do remedial work because of the departmental language proficiency examination will be retested within one year. Students must receive a passing score, or their candidacy will be terminated.

All graduate students will be assigned an advisor by the Director of Graduate Studies at the start of their first semester of graduate study.
MALT Program of Study

A total of 30 hours selected from courses receiving graduate credit must be completed for the MALT (Master of Arts in Language Teaching). A minimum of 21 of the 30 hours must be taken in either French or Spanish. At least 15 hours must be in courses at the 8000 level or above. Of these 8000-level courses, six hours must be in the Department of Romance Languages. The remaining 9 hours may be taken from course work outside the department with the approval of the student’s academic advisor.

Note: The College of Education no longer offers a certification program in the field of foreign language education. However, students who do not have a teaching certificate and who are interested in completing relevant courses in the field of education while working on their MALT will need to contact the professional advisors in the School of Education. Students, with advisor’s consent, could use their 9 hours allowed outside the department-provided that they are graduate-level courses toward courses in education. At the completion of their MA, students can work directly with the Missouri Department of Elementary and Secondary Education to see how they can be certified in the State of Missouri.

Please note also that the number of hours of credit allowed for Special Readings (7960) and Problems (8085) may not exceed twelve. MA candidates may not take more than one of these two independent readings course per semester.

Students wishing to transfer MA credits from another university may transfer up to six hours, provided these courses were taken within the last eight years.

MALT candidates must submit a completed M-1 Program of Study to the Graduate School at least one semester before completing their comprehensive examinations.

Teaching Assistants

MALT students normally have 4 semesters of support in which to complete their degree. This support will customarily take the form of a Graduate Instructorship. MA students may not teach more than ten hours per semester. A fifth and final semester may be granted in exceptional circumstances to students in good standing (i.e., no incompletes, history of good teaching, etc.). This extra semester will be awarded on the basis of departmental need and will be granted only if a request is made formally and in writing to the Graduate Studies Committee, which will make its recommendation to the entire faculty. No student will receive support beyond the fifth semester.

The normal course load for MALT candidates holding teaching assistantships is 9 hours. All MALT candidates must register for a minimum of 6 hours of graded courses included in the Master’s program in every semester in which they hold a teaching assistantship. Exceptions to this regulation must have the approval of the Graduate Studies Committee prior to registration. International students must not fall below six hours or they will lose their student status. Students who have completed all coursework may enroll in up to 6 hours per semester of 8080 (Readings) in order to prepare for the MALT exam.

The faculty and the course directors in each of the major languages will meet during the fall and winter semesters to evaluate the performance of all graduate students as students and as teaching assistants. The Director of Graduate Studies will inform all students in writing of their status following this formal performance review.

Any student who fails to have an incomplete removed within one year of its issuance will be limited to teaching one class per semester until the incomplete grade is removed. This excludes Dissertation/Thesis (9090) courses.

Course Distribution

The course distribution for the MALT program is as follows:

**OUTSIDE THE DEPARTMENT (UP TO 9 HRS)**

* For students interested in education, suggested courses from the College of Education can include:
  * ESC_PS 7000 Foundation of Teacher Prep I
  * SPC_ED 7020 Teaching the Exceptional Learner

Preparation II (4)

* For students interested in ESL, courses can include:
  * Structure of American English (3)
  * History of the English Language (3)
  * Regional and Social Dialects of English (3)

Please Note: Courses taken outside the department must be approved by the student’s academic advisor.

Comprehensive Examination for the MALT degree

All graduate students in Language Teaching are required to pass a series of examinations in order to fulfill degree requirements.

Written Examination

All students take a six-hour written examination, which consists of three two-hour components. Two of the components include: a) Foreign Language Methodology and Second Language Acquisition; b) Applied Linguistics. In addition, each candidate will be examined in a third field of...
Admission Contact Information

Mary Harris
143 Arts and Science
Columbia, MO 65211
(573) 882-5039
http://romancelanguages.missouri.edu/grad.shtml

Admission Criteria

Fall deadline: February 15
Spring deadline: October 15

- Minimum GPA: 3.0 in field of major
- Masters applicants must have a bachelor’s degree
- Minimum TOEFL scores (international applicants):
  - Internet-based test (iBT) 61 Effective July 1, 2015 must have score of 80
  - Paper-based test (PBT) 500 Effective July 1, 2015 must have score of 550

Applicants must also demonstrate adequate preparation in advanced language and literature courses. This will require their having completed at least four courses equivalent to a 4000-level course for masters applicants or a 7000 level course for doctoral applicants at the University of Missouri. At a minimum, three of these courses must be in literature. If the faculty determines a deficiency, they will require that the student complete remedial course work in literature during the first year of enrollment. The director of graduate studies will inform students of these additional requirements at the time of their admission.

Required Application Materials

To the Office of Graduate Studies

- All required Graduate Studies documents
- Official Transcript
- 10-15 page writing sample in language of desired degree program, must be uploaded to the online application
- 500-word Personal Statement, uploaded to the online application
- 3 letters of recommendation (submitted through Apply Yourself (https://app.applyyourself.com/AYApplicantLogin/fl_ApplicantLogin.asp?id=umc-grad) or mailed to the Romance Languages Department, 143 Arts & Science, University of Missouri, Columbia, MO 65211)

- Résumé or CV

Choosing an Advisor

All graduate students in the department may choose, or the director of graduate studies will assign them, an academic advisor at the start of their first semester of graduate study. Students must choose an academic advisor by the end of their first semester of graduate study.

Plan of Study

The department offers MA degrees with an emphasis in both French and Spanish (Peninsular or Spanish-American literature).

Minors

Students may also elect a minor field of study, which requires a minimum of 9 hours of course work completed in another department or other departments. Students interested in such minors should consult the section titled Plan of Study in the Graduate Catalog. These minor fields appear on students’ plan of study, but not on their transcript. Students electing minors must complete the standard MA examination in their major field of emphasis (French or Spanish).

MA Degree Requirements

Students must complete a total of 30 credit hours at the graduate-level to earn their MA degree. At least 15 hours must be in courses at the 8000 level or above. The plan of study for the MA with an emphasis in Spanish must include a minimum of nine hours of course work in Spanish peninsular literature and a minimum of nine hours of course work in Spanish-American literature. The plan of study for an MA with an emphasis in Spanish must also include three credit hours in the history of the Spanish language (completion of or the equivalent).

For the MA with an emphasis in either French or Spanish, the total number of credit hours in special readings (7960), problems (8085) or any combination of both may not exceed twelve. The number of credit hours in special readings (7960) within the student’s major field may not exceed three per semester. Graduate Instructors with no pedagogical experience or those who have completed no graduate course in foreign language teaching methodology will be required to take FRENCH 7120/SPAN 7120, Foreign Language Teaching Methodology.

Non-native speakers will be required to complete an online proficiency assessment with the appropriate course coordinator before a decision on their admission status is finalized by the department.

Submitting Your Plan of Study to the Office of Graduate Studies

MA candidates must submit a completed M-1 Plan of Study form to the Office of Graduate Studies at least one semester before taking their MA examinations.

Funding Through Graduate Instructorships

MA candidates normally receive 4 semesters of financial support from the University while completing their degree. This support will customarily take the form of a graduate instructorship, though it may take the form of either a research or teaching assistantship.

Possible Fifth Semester of Support

In exceptional cases, students in good standing — with no grades of incomplete and unproblematic teaching — may receive a fifth semester of support, at the discretion of the faculty. Faculty will award a fifth semester
of support according to the department’s need for instructors. Students must submit all requests for a fifth semester of support in writing to the director of graduate studies. No student will receive more than five semesters of support.

Normal Teaching Load vs. Course Load

The minimum teaching assignment for MA candidates holding instructorships is 1 course per semester, although there may be an opportunity for two. International students may never teach more than 2 courses per semester owing to visa restrictions. All MA candidates must be registered in a minimum of 6 hours of course work for each semester in which they hold an instructorship. Students may enroll in up to 6 hours per semester of 8080 (Readings) if they have completed all their course work and are preparing for their MA exams.

Annual Review

The faculty and course directors in both major languages meet during the fall and spring semesters to evaluate the teaching and academic performance of all graduate students. The director of graduate studies informs all students in writing of their status at the end of each semester. Students who fail to remove a grade of Incomplete will be limited to teaching one course per semester for as long that grade of Incomplete remains on their academic record.

Master’s Thesis

The writing of a thesis is optional. A minimum of 4 hours and a maximum of 6 hours of 8090 Research will be allowed for the thesis. Students are urged to obtain the Graduate School’s guidelines for thesis/dissertation writing as the thesis must conform to the Graduate School’s formatting and style specifications.

Thesis Committee

Students choosing to write a thesis must name a thesis committee consisting of no fewer than three members of the doctoral faculty at the University of Missouri, one of whom should be from a department other than the Department of Romance Languages and Literatures.

Comprehensive Examination for the MA degree

All candidates for the Master of Arts degree must pass a 6-hour written examination based on the MA reading list. The examination is given twice a year, generally in late October and late March.

The French Master’s examination consists of six 1-hour parts covering literature of the Middle Ages/Renaissance, 17th, 18th, and 19th centuries, and two of the following three periods in the contemporary period: twentieth century French Literature, twentieth century Francophone Literature, contemporary literary theory.

The Spanish examination consists of two 3-hour examinations. The first component covers Peninsular Spanish literature from the Middle Ages to the present and the second component covers Spanish American literature from the Colonial period to the present.

At least half the examination must be written in the candidate’s language of specialization.

Grading of the Comprehensive Exam

The MA examination is graded as follows: High Pass, Pass, and Fail. In order to receive a passing grade on any section of the examination, a student must receive passing grades from two thirds of the examining committee. To pass the entire examination, students must receive passing grades on all sections. With permission from the examining committee, students who fail part of the examination may retake only the failed section or sections of the examination. Two failures of the examination, in whole or in part, will terminate candidacy for the degree and result in dismissal from the program.

PhD in Romance Languages

Note to Internal Doctoral Applicants

Students who wish to advance to the doctoral program after completing their MA degree in the Department of Romance Languages and Literatures may do so only after receiving written approval from the MA examining committee. Alternatively, candidates may not advance to the doctoral program if the examining committee determines, after the MA examination, that their degree is terminal.

Students advancing directly from the MA to the PhD program need to complete only a Change of Degree Program form, which the department submits to the Office of Graduate Studies.

Students who apply to the doctoral program one semester or more after completing their MA examinations must complete a Request to Re-enroll form and reapply to the doctoral program. They must submit a new departmental application and reference letters. They need not submit a new application to the Office of Graduate Studies.

Applicants must also demonstrate adequate preparation in advanced language and literature courses. This will require their having completed at least four courses equivalent to a 4000-level course for masters applicants or a 7000 level course for doctoral applicants at the University of Missouri. At a minimum, three of these courses must be in literature. If the faculty determines a deficiency, they will require that the student complete remedial course work in literature during the first year of enrollment. The director of graduate studies will inform students of these additional requirements at the time of their admission.

Required Application Materials

Submit to the Office of Graduate Studies using the online application system:
All required Graduate Studies documents
• Official Transcript (send to Graduate School at 210 Jesse Hall, University of Missouri, Columbia, MO 65211-1160)
• 10-15 page writing sample in language of desired degree program, must be uploaded to the online application
• 500-word Personal Statement, uploaded to the online application
• 3 letters of recommendation (submitted through Apply Yourself or mailed to the Romance Languages Department, 143 Arts & Science, University of Missouri, Columbia, MO 65211)
• Résumé or CV

Note: All application forms are on the Graduate School site

Specialization
The Department of Romance Languages and Literatures offers four fields of specialization at the doctoral level: French Literature, Francophone Literature, Spanish Literature or Spanish American Literature.

Candidates may elect a secondary field, which entails a minimum of 9 hours of course work within another department, in consultation with their doctoral program committee. This secondary field appears on students’ plan of study, but not on their transcript. Students electing a secondary field must complete a PhD examination that will include at least one question devoted to their secondary field.

Choosing an Advisor
All graduate students in the department may choose, or the director of graduate studies will assign them, an academic advisor at the start of their first semester of graduate study. Students must choose an academic advisor by the end of their first semester of graduate study.

Qualifying Examination
All PhD candidates must complete a qualifying examination during their first year in the program to determine their fitness for doctoral study.

Exemptions
The faculty may excuse students from this requirement if those students received their MA degree from this department, earned a grade of High Pass on all sections of their MA examination, and enrolled in the PhD program the semester after fulfilling all requirements for the MA degree.

Purpose and Questions
The qualifying examination provides an opportunity for the faculty to evaluate candidates and advise their future course of study in the program. The examination consists of two questions related to the candidate’s course work during the previous and current semester: one question requires analysis of a text; the other, discussion of a general topic (e.g., a literary genre, a particular author, a critical or artistic movement, and so on). The candidate’s academic advisor delivers both questions to the candidate three days before a meeting with the examining committee.

Exam Meeting with the Committee
At this meeting, the candidate offers two oral presentations of 20-25 minutes each, based on the two questions. Following these presentations, the candidate responds to comments and questions from the examining committee. At the close of this meeting, the examining committee determines whether the candidate’s performance warrants a grade of Pass or Fail. The examining committee communicates these results to the Graduate School in writing, on a D-1 form bearing the signatures of the candidate and all members of the committee. Students who receive a failing grade must retake this examination before the end of the following semester. A second failure on this examination terminates eligibility for the PhD degree and will result in dismissal from the graduate program.

Arranging the Committee
All arrangements for the qualifying examination are the joint responsibility of the candidate and the candidate’s academic advisor. Any tenured or tenure-track member of the faculty may act as academic advisor to students during their first year of doctoral study. The academic advisor need not act as the director of that student’s PhD examination or dissertation committee.

Submitting Results
Students who earn a passing grade on their qualifying examination submit the D-1 form to the Office of Graduate Studies, communicating the results of the examination and formally naming their doctoral committee.

Plan of Study & Degree Requirements
After the qualifying exam, students and their doctoral committee meet to devise a plan of study. The doctoral committee signs and submits this plan of study with the D-2 form to the Graduate School. Students in the PhD program must complete a minimum of 72 hours of course work, which includes a maximum of 30 credit hours earned as part of their MA degree. These credit hours must include course work in language teaching methodology (FRENCH 7120/SPAN 7120 or the equivalent) and, if applicable, the candidate’s secondary field. Spanish doctoral candidates must also complete course work in Old Spanish.

Foreign Language Requirements
PhD candidates must demonstrate reading proficiency in 2 languages other than English and their language of specialization (French or Spanish). They may satisfy this requirement, at a minimum, by completing intensive beginning courses in the required languages (4070 or the equivalent) with a grade of B- or better, or by passing written examinations administered by departments at the University of Missouri offering courses in those languages. Students choosing Latin as one of their foreign languages may satisfy this requirement by completing with a grade of B- or better, a beginning honors class (LATIN 1100H, or the equivalent). Students also fulfill this requirement if they demonstrate proficiency by objective measures (courses, examinations) that exceed this minimum standard, as approved by the Director of Graduate Studies.

Students must satisfy the foreign language requirement before they take their Comprehensive Examination for the PhD. Basic language courses carry no credit toward the PhD and are therefore not included in the Plan of Study.

Latin Requirements for Students of Medieval and Renaissance Literatures
Students specializing in literature of either the Middle Ages or the Renaissance-literature produced within the period from the rise of the vernacular to the end of the seventeenth century- must demonstrate reading proficiency in Latin. In doing so, they fulfill half their foreign language requirement. They demonstrate proficiency in Latin according to the standard explained in the previous paragraph: by means of a beginning Honors course (LATIN 1100H), a written examination administered by the Classics Department, or equivalents of these.
Language Requirements for Students With Secondary Field in Non-English Literature

Students pursuing a secondary field in a non-English literature different from that of their major field must complete with a final grade of B- or better at least three 7000-level courses (or the equivalent) in literature of their secondary field. Competing these courses fulfills half the foreign language requirement.

For example, a student specializing in French literature of the Romantic period may choose a secondary field of German literature of the Romantic period. That student must complete 3 courses in German literature at the 7000 level (or the equivalent). Completing these courses satisfies half the foreign language requirement.

Financial Support: Graduate Instructorships

PhD candidates normally receive 6 semesters of financial support from the university while completing their plan of study and 4 additional semesters of support after completing their PhD examination. This support will customarily take the form of a Graduate Instructorship, though it may take the form of either a Research or Teaching Assistantship.

The minimum teaching assignment for PhD candidates holding instructorships is one course during their first semester of study. Depending on staffing needs, there may be an opportunity to teach two courses per semester. Students writing their dissertation may teach an additional course. International students may never teach more than 2 courses per semester owing to visa restrictions. All PhD candidates must be registered in a minimum of 6 hours of course work for each semester in which they hold an instructorship.

Students may enroll in a maximum of 6 hours per semester of 9080 (Readings) if they have completed all their course work and are preparing for their PhD exams. Students may enroll in a maximum of 12 hours of 9080 (Readings) over the course of their doctoral studies, provided this occurs within their first six semesters of financial support. After passing their PhD examination, students may retain their Instructorships if they enroll in Research (9090) for a minimum of 5 credit hours per year (2 in fall; 2 in spring; 1 in summer).

Annual Review

The faculty and course directors in both major languages meet during the fall and spring semesters to evaluate the teaching and academic performance of all graduate students. The director of graduate studies informs all students in writing of their status at the end of each semester. Students who fail to remove a grade of Incomplete will be limited to teaching one course per semester as long that grade of Incomplete remains on their academic record. This restriction applies to courses other than Research (9090).

The PhD Comprehensive Examination

Reading List, Examining Committee, and Faculty Preparing Questions

Each candidate will name a PhD Examining Committee and, as necessary, other faculty members who will prepare examination questions relating to their respective periods of expertise. The Examining Committee consists of at least 4 members: 3 members of the regular (tenured or tenure-track) faculty from the Department of Romance Languages and Literatures, including the student's academic advisor, 1 outside member from a different department. All of them must belong to the graduate faculty at the University of Missouri. Beyond this minimum, candidates may name other members to the committee - recognized experts in the candidates field - from either the University of Missouri or another institution, with the approval of both the student's academic advisor and the Director of Graduate Studies.

A member of the regular faculty in the Department of Romance Languages and Literatures who is an expert in literature pertaining to each part of the PhD examination will prepare questions for that part. If there is only one available expert in a specific field (for example, only one regular faculty member who is an experts in Medieval literature of either France or Spain), that faculty member must prepare and grade examination questions relating to that field. If there is more than one expert available in a particular field (for example, more than one member of the regular faculty who is an expert in contemporary French literature, contemporary Spanish literature, or contemporary Spanish-American literature), the student may choose one of those faculty members to prepare and grade questions in that field.

All questions on the PhD Examination derive from a reading list that the candidate compiles with the collaboration and approval of the Doctoral Committee and of all other faculty preparing questions. This list aims at both breadth and depth, but mainly depth. It should include texts of literature, criticism, and history that are indispensable for an expert in the candidate's specialized field. Yet, in the non-specialized fields, this list should include a solid literary history of all genres in the period (drama, fiction, lyric, essay), while also including literary texts that would prove indispensable only for an undergraduate survey course that the candidate might teach on works of all periods and all genres over a span of two semesters. In other words, readings from this list should yield both a generalist and a specialist - an instructor who can both design and teach a survey course, and an expert who can produce original scholarship.

Timetable of the PhD Comprehensive Examination in French and Spanish

The candidate and the academic advisor set both the dates and the order for all parts of the Comprehensive Examination, in consultation with the Director of Graduate Studies. The Comprehensive Examination in French or Spanish consists of a written and an oral section. The written section comprises 4 parts of 3 hours per part. Candidates complete the written examination on 4 separate days - 1 part per day - within a period of 14 days. They complete the oral examination no later than five weeks after earning a passing grade on all parts of the written examination. This allows candidates to complete the written examination at the end of the fall semester and to complete the oral examination at the start of the spring semester of the same scholastic year.

Either the Director of Graduate Studies or someone delegated by the Director of Graduate Studies will administer the written part of the PhD Examination. Only members of the department faculty of departmental staff may administer the examination.

Oral Examination

Students complete the oral examination after receiving a passing grade on all sections of the written examination. The oral examination will last 1-2 hours, part of which must be in the language of the candidate's specialized field. The oral exam allows candidates to clarify, strengthen or amplify the answers of the written exam. Only members of the Doctoral Committee must attend the oral examination.

With permission from the Doctoral Committee, students who fail part of the written or oral examination may retake only the failed part of parts.
minimum of 14 days must elapse before a student retakes a failed part or failed parts of the examination. Two failures of the examination, in whole or in part, will terminate candidacy for the degree and result in dismissal from the program.

Prospectus
After passing both the written and oral parts of the PhD Examination, doctoral students present a prospectus of the dissertation. This presentation occurs immediately after completing and passing the oral part of the Examination. Candidates prepare the prospectus in consultation with the academic advisor and deliver it in writing at least one week before the date of the oral examination to all members of the Doctoral Committee. The Prospectus requires approval by all members of the Doctoral Committee.

The prospectus presents a working outline, with a working bibliography, of the proposed project - its topic, organization, and critical method. Just as important, the prospectus should present a line of inquiry that promises to contribute to human knowledge - a thesis, or a position that warrants defending by means of both critical analysis and empirical evidence.

Research and Dissertation
Doctoral students register in 9090 (Research) once they have passed their PhD examinations. They will need to enroll for a minimum of 2 credit hours of 9090 during the fall and spring semesters and 1 hour during the summer semester in order to complete the 12 hours of dissertation credits required for graduation. In addition, the program for the doctoral degree must be completed within five years of passing the comprehensive examination. Individual departments or area programs may stipulate a shorter time period. Doctoral students should complete all requirements for the degree, including the dissertation, within five years of passing the comprehensive examination. The Office of Graduate Studies extends this deadline in extenuating circumstances. Nonetheless, students must request additional time in writing from the director of graduate studies. Failure to show sufficient progress on the dissertation may result in dismissal from the graduate program. Students should obtain the Graduate Studies’ guidelines for thesis/dissertation writing since the dissertation must conform to the formatting and style specifications established by the Office of Graduate Studies.

Defense
Candidates and their directors schedule a formal defense of a dissertation after its acceptance by all members of the doctoral committee. This oral defense, conducted by members of the doctoral committee, is open to the public. For additional information, contact the Director of Graduate Studies in the Department of Romance Languages and Literatures.

Russian

Tim Langen, Chair
College of Arts and Science
451 Strickland Hall
(573) 882-4328
grs@missouri.edu

The Department of German and Russian Studies offers courses in German and Russian language, literature, film and civilization. It also offers instruction in Arabic, Chinese, Japanese, Hebrew and Korean.

Many courses, such as civilization, culture, literature in translation and film courses, do not require knowledge of a foreign language.

The department offers the Bachelor of Arts with majors in German, and in Russian, and the Master of Arts in German, and in Russian and Slavonic Studies. The department also offers minors in German, Russian, Chinese, Japanese, and Korean. Many courses in the minor in East Asian Studies are taught in the Department of German and Russian Studies. The Film Studies program is also housed in the department.

Faculty
Professor G. Barabtario
Associate Professor T. Langen
Assistant Professor M. Kelly
Associate Teaching Professor N. Monnier

• Graduate Faculty Member - membership is required to teach graduate-level courses, chair master's thesis committees, and serve on doctoral examination and dissertation committees.
•** Doctoral Faculty Member - membership is required to chair doctoral examination or dissertation committees. Graduate faculty membership is a prerequisite for Doctoral faculty membership.

Undergraduate
• BA in Russian (p. 290)
• Minor in Russian (p. 291)

Dual Degrees and Double Majors
As a double major or a dual degree has become an ever more popular choice, an increasing number of students choose German or Russian as one of their majors. Students looking forward to a career in medicine or in the sciences use a double major to ensure a thorough background in the humanities to balance their scientific studies. Double majors within the College of Arts and Science can be arranged and, if the second degree program is identified early, dual degree programs outside the college are also possible. Combined programs with journalism, international studies, education and business are frequent choices. Within the college, combinations with political science, history, philosophy, art history, and the sciences are popular double major programs.

Departmental Honors - Russian

Departmental honors are available for students majoring in Russian with a minimum 3.3 GPA. A three-course literature sequence must be completed with no grades below B or, at the discretion of the department, a thesis paper may be written.

Beginning Fall 2013: Departmental Honors are available for student majoring in Russian with a minimum 3.5 GPA in the Russian major and 3.3 GPA overall. Students must complete a minimum of three literature courses, two of which must be at the 4000 level, with no grades below a B. At the discretion of the department, students may write a thesis paper in lieu of one of the 4000 level literature courses.

Graduate
• MA in Russian and Slavonic Studies (p. 291)

College of Arts and Science
451 Strickland Hall
(573) 882-4328
https://grs.missouri.edu/
Director of Graduate Studies: Gene Barabtarlo

The Master of Arts program in Russian and Slavonic Studies offers advanced study in the literature and culture of Russia. Course offerings are primarily in literature, but reflect a variety of interrelated fields, including religion, philology, intellectual history, and philosophy. In two years of coursework students receive training in the theory and history of Russian literature and culture in general, as well as an introduction to the history of the language.

Careers

Students may go on to careers in a number of fields, including government work and international business; they will also be prepared to continue their studies at the doctoral level.

Facilities and Resources

The library of the University of Missouri is particularly strong in Russian history and literature. We are also part of a consortium that provides quick access to the holdings of many other major academic and public libraries.

Financial Support

In this program, qualified graduate students may have the opportunity to work as teaching assistants in language, literature or civilization courses. Incoming graduate students are normally offered paid positions as Teaching Assistants. To be eligible for a teaching assistantship, your application must be received by March 1. Teaching assistants (TAs) are normally appointed for one academic year (two semesters / nine months). The Fall Semester runs from late August to mid-December; the Spring Semester from mid-January to mid-May. TA appointments are normally renewed for the second year of study when teaching and progress toward the degree are satisfactory. Appointments after the second year may be available in special cases, depending upon departmental needs and resources. At present the TA position provides a stipend of approximately $1,000 per month. In addition, tuition for courses taken toward the MA are waived for TAs. Some programs require an extra form or statement from those who wish to be considered for internal assistantships, fellowships or other funding packages. Check the program website or ask the program contact for details. The Graduate School offers several valuable fellowships for which the department may nominate incoming students.

BA in Russian

Degree Program Description

The Russian degree is the exploration of the language, literature, and culture of Russian-speaking countries. The BA in Russian offers you the possibility of participating in this vibrant cultural tradition first hand. The major in Russian consists of 27 credits in Russian beyond RUSS 1200. Within these 27 hours, students must meet minimum requirements within three categories: language, literature, and culture. The Russian faculty strongly encourages all majors to spend at least one semester (or summer) studying abroad, preferably after their second year of the language. Given the liberal arts foundation of a degree in Russian, students pursue careers in a variety of fields or continue their studies. Graduates have pursued careers in journalism, tourism, diplomacy, and education.

Major Program Requirements

The major in Russian consists of 27 credits in Russian beyond RUSS 1200. Within these 27 hours, students must meet minimum requirements within three categories: language, literature, and culture (see below). The Russian faculty strongly encourages all majors to spend at least one semester (or summer) studying abroad, preferably after their second year of the language. In addition, students must meet all degree, college and university graduation requirements, including those for university general education (p. 33).

Major core requirements (beyond the A&S language requirement)

Four of the following courses in language or their equivalents (minimum of two at the 3000-plus level) must be included:

- RUSS 2130 Second-Year Russian I
- RUSS 2160 Second-Year Russian II
- RUSS 3001 Topics in Russian-General
- RUSS 3130 Intermediate Russian
  or RUSS 3160 Intermediate Conversation and Composition
- RUSS 3630 Russian Classics I
- RUSS 3640 Russian Classics II
- RUSS 4160 Advanced Russian Conversation

Three literature or culture courses, chosen from the following, and to include at least one at the 4000-level:

- RUSS 2100 Classics and Iconoclasts: An Introduction to Russian Literature
- RUSS 3005 Topics in Russian-Humanities
- RUSS 3310 Heroes of Their Times: Individualism in Russian Literature
- RUSS 3320 Matters of Life and Death: The Fiction of Tolstoy and Dostoevsky
- RUSS 3330 Decline, Fall, and Resurrection in Modern Russian Literature
- RUSS 3350 The Split Tree of Russian Literature: Contemporary Russian Prose
- RUSS 3380 Sinners, Saints, and Madmen: 19th Century Russian Literature
- RUSS 3390 True Fictions: Russian Prose since 1900
- RUSS 4005 Topics in Russian-Humanities
- RUSS 4420 Russian Poetry
- RUSS 4430 Special Readings in Russian
- RUSS 4435 Russian Drama
- RUSS 4436 Russian Prose
- RUSS 4440 The Russian Novel
- RUSS 4510 The Art and Life of Pushkin
- RUSS 4520 Nikolai Gogol
- RUSS 4530 Dostoevsky
- RUSS 4540 Tolstoy's Fiction and Truth
- RUSS 4550 Nabokov's Russian Fiction
- RUSS 4820 Blogging the World: The Web in Cultural Context

One of the following two courses in culture:

- RUSS 2310 Between Heaven and Earth: Russian Civilization
- RUSS 2320 The Arts of Survival: Civilization in Soviet Times

Electives

- RUSS 4160 Advanced Russian Conversation

- RUSS 4430 Special Readings in Russian

- RUSS 4435 Russian Prose

- RUSS 4440 The Russian Novel

- RUSS 4510 The Art and Life of Pushkin

- RUSS 4520 Nikolai Gogol

- RUSS 4530 Dostoevsky

- RUSS 4540 Tolstoy's Fiction and Truth

- RUSS 4550 Nabokov's Russian Fiction

- RUSS 4820 Blogging the World: The Web in Cultural Context
Elective courses and equivalents to replace the required courses above should be selected in consultation with the advisor.

Total Credits: 27

* Both RUSS 2310 and RUSS 2320 are Writing Intensive Russian civilization courses.

**Semester Plan**

Below is a sample plan of study, semester by semester. A student's actual plan may vary based on course choices where options are available.

---

**Minor in Russian**

The department offers a minor in Russian, consisting of 15 credits beyond RUSS 1200. A minimum of 6 of these 15 credits must be in Russian courses numbered 3000 or above. In addition, a minimum of 9 of the 15 credits must be completed in residence.

**MA in Russian and Slavonic Studies**

**Admission Contact Information**

Professor Gene Barabtarlo
Send email to Dr. Barabtarlo: barabtarlog@missouri.edu
451 Strickland Hall
Columbia, MO 65211
(573) 882-4328

**Admission Information**

Before applying, please send an informal letter of intent or inquiry to Dr. Barabtarlo at either the physical address or e-mail address above.

**Admission Criteria**

Fall deadline: January 1 (domestic); December 15 (international)

Note: to be eligible for a teaching assistantship, application must be received by March 1

Spring deadline: September 1 (domestic); May 1 (international)

Minimum GPA: 3.0 in last 60 hours
Undergraduate major or minor in Russian or equivalent
Minimum TOEFL scores:

<table>
<thead>
<tr>
<th>Internet-based test (iBT)</th>
<th>Paper-based test (PBT)</th>
</tr>
</thead>
<tbody>
<tr>
<td>61 Effective July 1, 2015 must have score of 80</td>
<td>500 Effective July 1, 2015 must have score of 550</td>
</tr>
</tbody>
</table>

Note: No language other than English and Russian is required for admission.

**Required Application Materials**

To the Office of Graduate Studies:

- All required Graduate Studies documents

To the Program:

- 2 letters of recommendation

**Degree Requirements**

Students must complete a minimum of 30 hours of graduate-level courses with a GPA of B or higher. In accordance with the Office of Graduate Studies policy, no fewer than 24 of these must be Russian and Slavonic Studies courses at the 7000 or 8000 level, with at least 12 at the 8000 level. In addition, students must demonstrate adequate language skills in English and Russian.

**Thesis**

A master's thesis is optional.
Sociology

Edward E. Brent, Chair
College of Arts and Science
312 Middlebush Hall
brente@missouri.edu
573) 882-9172

Sociology is a discipline founded over 100 years ago to bring the scientific method to the study of human societies. It has pioneered in the development of methods and techniques designed to provide accurate and verifiable information about contemporary societies. It is the inventor of survey research and a host of statistical measures. The techniques created by sociologists are now used in all disciplines concerned with human behavior.

Sociologists today conduct research and reason from research findings to generate deeper understandings of how societies work. The generation of theoretical statements and the testing of those statements in a wide variety of social settings is the core of sociological work. Sociologists are knowledge builders, rather than change agents, although there is an emergent group of scholars who apply sociological knowledge to create changes in organizations, individuals and communities. Sociology contributes to human improvement by seeing that change can be based on credible information and reasoned understanding of how humans work together in groups or larger aggregates.

Faculty

Professor W. Brekhus**, E. E. Brent Jr.**
Assistant Professor T. Ivory
Postdoctoral Researcher N. Jones

* Graduate Faculty Member - membership is required to teach graduate-level courses, chair master's thesis committees, and serve on doctoral examination and dissertation committees.
** Doctoral Faculty Member - membership is required to chair doctoral examination or dissertation committees. Graduate faculty membership is a prerequisite for Doctoral faculty membership.

Undergraduate

• BA in Sociology (p. 292)
• Minor in Sociology (p. 294)

Departmental Honors

Students with a cumulative GPA of at least 3.3 are eligible for departmental honors in sociology. Qualified students who seek this option must write an honors thesis under the supervision of a sociology faculty member. Students who take the honors thesis option are not required to take SOCIOL 4970. Students enroll in SOCIOL 4995 for 3 credits each semester of the senior year for a total of 6 credits.

Graduate

• MA in Sociology (p. 294)
• PhD in Sociology (p. 294)

Degree Program Description

Sociology is a discipline founded about 100 years ago to bring the scientific method to the study of human societies. It has pioneered in the development of methods and techniques designed to provide accurate and verifiable information about contemporary societies. It is the inventor of survey research and a host of statistical measures. The techniques created by sociologists are now used in all disciplines concerned with human behavior. A Bachelor of Arts with a major in Sociology consists of 33 credits organized to provide progressively more sophisticated levels of sociological analysis culminating in a capstone experience. The degree offers five tracks of study for students who want a closer fit between the major and future employment: Law, Justice and Society; Power, Inequalities and Social Change; Sexuality, Health and the Life Course; Culture, Identity and the Media; Organizations, Work, Technology and the Economy. Sociologists today conduct research and reason from research findings to generate deeper understandings of how societies work. The generation of theoretical statements and the testing of those statements in a wide variety of social settings is the core of sociological work. We are knowledge builders, rather than change agents, although there is an emergent group of "applied sociologists" who use sociological knowledge to create changes in organizations, individuals, and communities. We contribute to human improvement by seeing that change can be based on good information.

Financial Aid from the Program

Financial support for students includes teaching and research assistantships, both of which include remission of educational fees. International students cannot be awarded teaching assistantships until they have completed one semester of residence at MU and pass a test of spoken English.

BA in Sociology

About the Program

The Department of Sociology engages students in research, utilizing qualitative and quantitative research methodologies, in order to analyze issues and problems affecting societies. The core of doctoral training is in classical and contemporary theory, and research methods including quantitative, historical, and feminist methodologies, and interviews and field work.

Specializations

Students may focus their studies on any two of the following graduate program areas:

• Culture and Identity
• Health, Aging, and Environment
• Political Economy, Power, and Movements
• Social Inequalities

Within these program areas, students conduct research on such topics as gender, health-care policy, popular culture, hunger, race, criminology, sexualities, and elites and protest movements in the global economy.

Director of Graduate Studies: Eileen Bjornstrom

312 Middlebush Hall
(573) 882-8331
http://sociology.missouri.edu/grad/graduate-program
and reasoned understanding of how humans work together in groups or larger aggregates.

**Major Program Requirements**

A Bachelor of Arts with a major in Sociology consists of 33 credits organized to provide progressively more sophisticated levels of sociological analysis culminating in a capstone experience or other advanced 4000 level course. It is expected that students start with entry courses, progress to basic courses and then to upper-level electives. In addition, students must complete all degree, College of Arts and Sciences and University graduation requirements (p. 32), including University General Education (p. 33).

**Total Credits** 30

**Optional Tracks**

The course work in sociology fits into five recommended tracks of study. Although sociology majors are not required to select a track, students who want a closer fit between the major and future employment are encouraged to do so. Each track has recommended courses in the major, complementary internships, and service learning opportunities. (Note: Tracks are not listed on transcripts or diplomas.) These tracks are outlined below.

**Track: Law, Justice and Society**

<table>

Minor in Sociology

To minor in sociology, a student must complete a total of 15 credits of sociology coursework as follows:

<table>
<thead>
<tr>
<th>Course</th>
<th>Credit</th>
</tr>
</thead>
<tbody>
<tr>
<td>SOCIOL 1000 Introduction to Sociology</td>
<td>3</td>
</tr>
<tr>
<td>SOCIOL 2200 Social Inequalities</td>
<td>3</td>
</tr>
<tr>
<td>Two courses at the 3000-level or above</td>
<td>6</td>
</tr>
<tr>
<td>One other sociology course at any level</td>
<td>3</td>
</tr>
<tr>
<td>Total Credits</td>
<td>15</td>
</tr>
</tbody>
</table>

At least nine credit hours for the minor must be from MU courses.

MA in Sociology

About the Master of Arts in Sociology

At this time, our Department is not admitting students who are seeking a terminal master’s degree. However, our doctoral students earn an MA degree en route to the PhD.

Please see the admission criteria for our doctoral degree program (p. 294).

PhD in Sociology

Admission Contact Information

Graduate Admissions Coordinator (oakesm@missouri.edu)
312 Middlebush Hall
Columbia, MO 65211
(573) 882-8331

Admission Criteria

Fall deadline: January 15

- Minimum TOEFL scores:
  - Internet-based test (iBT) 61 Effective July 1, 2015 must have score of 80
  - Paper-based test (PBT) 500 Effective July 1, 2015 must have score of 550
- Minimum GRE score: case-by-case
- 15 hours of undergraduate sociology with a grade of B or better, including one course in sociological theory and a basic statistics course

Required Application Materials

To the Office of Graduate Studies:

- All required Graduate Studies documents

To the Sociology Program: http://sociology.missouri.edu/grad/admission-and-application-forms

- GRE score report
- Departmental application
- 3 letters of recommendation
- Statement of research interests
- Copy of Graduate Studies application (needs to be printed out when done online)
- Copies of transcripts (it is helpful to have unofficial copies sent to the department)
- One page Application for Financial Support

PhD Plan of Study

The PhD program requires a minimum of 30 hours of course work including:

<table>
<thead>
<tr>
<th>Course</th>
<th>Credit</th>
</tr>
</thead>
<tbody>
<tr>
<td>SOCIOL 8100 Theoretical Thinking in Sociology</td>
<td>3</td>
</tr>
<tr>
<td>and two additional seminars in sociological theory:</td>
<td></td>
</tr>
<tr>
<td>SOCIOL 9187 Seminar in Sociological Theory I</td>
<td>3</td>
</tr>
</tbody>
</table>
Exams and Research

All students are required to submit a research paper no later than their fourth semester of residence. Students with a Master’s Thesis in sociology can fulfill this requirement as early as their first semester. At least eight months before the date on which they expect to complete the degree, candidates must pass a comprehensive examination centered on two of the five graduate program areas. Students must prepare and successfully defend a dissertation that makes an original contribution to the discipline.

Statistics

Dongchu Sun, Chair
College of Arts and Science
146 Middlebush Hall
(573) 882-6376
www.stat.missouri.edu
umcasstat@missouri.edu

Information is needed to solve the many problems of today’s world. How much information? What kind? After it is obtained, what must be done with it? Statisticians are trained to help answer these questions. Early admission into the Statistics Department will allow students to plan their programs so that the math and statistics prerequisites can be taken in the most efficient sequence.

The department offers BA, BS, MA and PhD degrees with a major in Statistics. A minor is also available.

Faculty

Associate Professor S. Chakraborty**, S. Guha**, A. Micheas**, L. A. Thombs**
Assistant Professor H. Cao*, T. Ji*, E. Schliep*, X. Zhang*
Associate Teaching Professor S. Lee*, L. D. Ries*
Assistant Teaching Professor J. Shows*, I. Zaniletti*

* Graduate Faculty Member - membership is required to teach graduate-level courses, chair master’s thesis committees, and serve on doctoral examination and dissertation committees.
** Doctoral Faculty Member - membership is required to chair doctoral examination or dissertation committees. Graduate faculty membership is a prerequisite for Doctoral faculty membership.

Undergraduate

• BA in Statistics (p. 296)
Graduate

- MA in Statistics (p. 298)
  - with emphasis in Biostatistics (p. 300)
  - with emphasis in Data Analytics (p. 300)
- PhD in Statistics (p. 300)
- Graduate Minor in Statistics (p. 301)

Kathleen Maurer, Coordinator of Graduate Studies
146 Middlebush
Columbia, MO 65211
(573) 882-6376
http://www.stat.missouri.edu/

Director of Graduate Studies: Athanasios Micheas

About Statistics

The statistics department faculty is known for both cutting edge methodological and collaborative research and for outstanding teaching. Faculty members are currently investigating statistical problems in the fields of ecology, genetics, economics, meteorology, wildlife management, epidemiology, AIDS research, geophysics, and climatology. The program’s faculty members have ongoing collaborative programs across disciplines such as biostatistics, bioinformatics, economics, atmospheric science, psychology and with the Missouri Department of Conservation.

The graduate program provides opportunities for graduate study and thesis direction in various areas of probability and statistics, both theoretical and applied. A variety of consulting and collaborative opportunities allow both faculty and graduate students to conduct cooperative and interdisciplinary research. Regular statistics colloquia provide opportunities for faculty and outside speakers to present the results of their research. Faculty and graduate students also participate in weekly seminar series in Bayesian statistics, bioinformatics, and biostatistics.

Dual Master’s Degree in Economics and Statistics

The department offers a cooperative MA degree with the Economics Department. Students may obtain MA degrees in economics and statistics with 48 hours of course work numbered 7000 or higher from the University of Missouri instead of the 52 or more required for separate degrees. (These 48 hours may not include any of the following: ECONOM 7351, ECONOM 7353, or STAT 7510, STAT 7530, STAT 7710.) Eighteen or more hours are required from the Department of Economics. At least 15 hours must be numbered 8000 or higher with no more than four hours of 8090. Students must take the core economics courses ECONOM 8451 and ECONOM 8453 and research workshop ECONOM 8413 (2 credit hours). Eighteen or more hours are required from the Department of Statistics. At least 15 hours must be numbered 8000 or higher with no more than three hours of 8090. STAT 7750 and STAT 7760 and MATH 7140 are required if equivalent courses were not taken as an undergraduate.

All candidates must submit a thesis or written project demonstrating an independent effort towards producing original work satisfactory for each degree. The candidate may complete separate theses/projects for both economics and statistics or a single joint thesis/project satisfying both requirements.

Career Opportunities

Statisticians are in demand in education, medicine, government, business and industry as well as in the biological, social and physical sciences.

Facilities & Resources

The Department of Statistics maintains a state-of-the-art computer network with Linux workstations and servers for research and personal productivity software on PCs. Students have access to the network through PCs in student offices and through the statistics department computer laboratory. An extensive library of software including R, SAS, and common programming languages is maintained. Students also have access to the campus computing network. The statistics department is located in newly renovated space in Middlebush, with easy access to the main library’s outstanding collection of books and journals in statistics.

Financial Aid from the Program

Fellowships and teaching and research assistantships are available to qualified graduate students. Some programs require an extra form or statement from those who wish to be considered for internal assistantships, fellowships or other funding packages. Check the program website or ask the program contact for details.

BA in Statistics

Degree Program Description

Statistics is a modern science concerned with making decisions and inferences from empirical data subject to random variability and error. It deals with designing experiments, sample surveys, summarizing numerical information, building and analyzing statistical models, prediction and choosing between alternate actions. Statistics can tell us how much safer it is to fly than drive, the odds of winning the lottery, our life expectancy and who is likely to win the next election. The BA in Statistics allows students to pursue either a traditional track or an applied track. Students who are interested in graduate study are strongly encouraged to follow the traditional track. All students are encouraged to supplement their work in statistics with courses from areas such as economics, biology, accounting, finance, marketing, management, psychology, sociology, engineering, agriculture and atmospheric science. Because of its importance as a scientific method, the demand for trained statisticians has grown in education, medicine, government, business and industry as well as in the biological, social and physical sciences. Students are trained to meet this demand and develop careers in teaching and research.

Major Program Requirements

Students must complete the university general education requirements (p. 33) and the Department Degree Requirements (p. 295), in addition to the degree requirements below.

Foreign Language Option for Students Pursuing a BS Degree

Students pursuing the BS degree may elect to take an alternative to a foreign language. Such students must complete no fewer than 12 upper-class credits that are not from the parent department, are not normally required of departmental majors and do not appear elsewhere in the graduation plan. This program must be carefully planned to form a coherent unit and must be approved by the director of undergraduate studies.

The following are examples of foreign language alternatives:
- mathematical sciences
- biological sciences
- behavioral sciences
- physical sciences
- business
- engineering
- economics

Major in Statistics

A minor in statistics requires a minimum of 15 credits in statistics courses numbered 3000 or above. The courses used to complete the minor must be chosen in consultation with the director of undergraduate studies and must include at least one of the following:

- STAT 3500 | Introduction to Probability and Statistics II | 3 |
- STAT 4710 | Introduction to Mathematical Statistics | 3 |
- STAT 4750 | Introduction to Probability Theory | 3 |

A maximum of 3 of the 15 credits may be in:
- STAT 4002 | Topics in Statistics-Biological/Physical/Mathematics | 1-99 |
- STAT 4085 | Problems in Statistics for Undergraduates | |

MA in Statistics

Admission Criteria

Fall deadline for regular MA track: January 15
Fall deadline for applied MA track: March 30
Spring deadline: October 15

- Minimum TOEFL scores:
Estimated GPA: 3.0 in math and statistics courses to enter master’s program

Bachelor’s degree from accredited college or university in related area

Undergraduate courses in statistics are recommended but not required. Consideration also is given to rank in graduating class, trends in grade records, maturity and experience, and other criteria bearing on qualifications.

Before entering the graduate program, a student should have a background that includes three semesters of calculus (or equivalent), one semester of matrix theory, and at least one post-calculus course in probability and statistics. Some required courses at the 7000 level not taken as an undergraduate may be taken for graduate credit as part of the graduate program.

**Required Application Materials**

To the Office of Graduate Studies:

- All required Graduate Studies documents

To the Program:

- Departmental application
- 3 letters of recommendation (use departmental form)
- Letter of intent
- GRE score report

**Degree Completion Requirements**

The general requirements for receiving a master’s degree are at least 30 semester hours of course work at the 7000 level or higher, of which at least 18 hours must be from the Department of Statistics at MU. The 30 hours may not include credit hours of

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>STAT 7020</td>
<td>Statistical Methods in the Health Sciences</td>
<td>3</td>

<td>Analysis of Variance</td>
<td>3</td>
</tr>
<tr>
<td>STAT 7710</td>
<td>Introduction to Mathematical Statistics</td>
<td>3</td>
</tr>
<tr>
<td>STAT 8090</td>
<td>Master’s Thesis Research in Statistics (more than a total of six hours of)</td>
<td>1-99</td>
</tr>
<tr>
<td>STAT 8220</td>
<td>Applied Statistical Models II</td>
<td>3</td>
</tr>
</tbody>
</table>

At least 15 semester hours of course work at the 8000 level or above must be taken from the Department of Statistics at MU. The 15 semester hours cannot include more than a total of three hours of STAT 8090.

Additional courses recommended but not required are:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>STAT 7110</td>
<td>Statistical Software and Data Analysis</td>
<td>3</td>
</tr>
<tr>

<tr>
<td>STAT 7810</td>
<td>Nonparametric Methods</td>
<td>3</td>
</tr>
<tr>
<td>STAT 7830</td>
<td>Categorical Data Analysis</td>
<td>3</td>
</tr>
</tbody>
</table>

**Remedial Courses**

The following courses are required if equivalent courses were not taken as an undergraduate: MATH 7140, STAT 7750 and STAT 7760. These courses may not be used for more than six of the required 30 hours.

**Applied Track Masters of Arts Degree**

**Required core courses**

Students must complete the following six courses or equivalent.

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>STAT 7110</td>
<td>Statistical Software and Data Analysis</td>
<td>3</td>
</tr>
<tr>
<td>STAT 7540</td>

<td>Statistical Inference</td>
<td>3</td>
</tr>
<tr>
<td>STAT 8310</td>
<td>Data Analysis I</td>
<td>3</td>
</tr>
<tr>
<td>STAT 8320</td>
<td>Data Analysis II</td>
<td>3</td>
</tr>
</tbody>
</table>

In addition, students must take four elective courses, at least three of which must be selected from the department of statistics course offerings numbered 8000 or above.

**Examination**

Students in the applied track must pass written and oral master’s exams administered by a departmental committee.

**Regular Track Masters of Arts Degree**

**Original Written Work**

All candidates must submit a written report on an independent effort toward producing original work. This report may, with the advisor’s consent, take the form of a thesis, a written review on a set of papers in statistics, or a written report on an independent study project, which may include an original application of statistics. For this work, a student must register for at least three semester hours of STAT 8090.

**Presenting the Work**

All candidates are required to present an open seminar on the results of the written report. The report should be made available for public review, through the Department of Statistics office, for at least one week before the examination.

**Examination**

The MA examination covers material presented in the written report and the seminar and may also cover course work.
Satisfactory Progress

Length of Study

A master's candidate is expected to complete the master's degree within three calendar years beginning with the first semester of enrollment unless approval is obtained from the graduate faculty of the Department of Statistics.

Grade Requirements

Any student, while a graduate student in this program, who receives a grade of C or lower in six or more hours of courses offered by the Department of Statistics or a grade of C or lower in nine or more hours of all courses taken will be dismissed from the graduate program unless contrary action is taken by the graduate faculty of the department.

For each credit hour over three hours with a grade of C or lower in courses offered by the Department of Statistics at the 7000 level and above, the student must receive a credit hour with a grade of A in courses offered by the department at the 7000 level and above.

MA in Statistics with Emphasis in Biostatistics

Students who wish to specialize in biostatistics may obtain a degree with special emphasis. The general requirements are the same as those for the MA degree in statistics (p. 298). In addition, students must satisfy the following:

1. Take STAT 7410 and either STAT 7420, STAT 8410 or STAT 9410 or the equivalent;
2. Submit a project or thesis related to biostatistics.

MA in Statistics with Emphasis in Data Analytics

Prerequisites

Three semesters of calculus (or equivalent), one semester of linear algebra, and at least one post-calculus course in probability and statistics. At least one course in applied linear models is recommended.

Degree Requirements

At least 30 hours of course work in the Department of Statistics; of these, at least 15 hours must be numbered 8000 or above.

Required Courses

<table>
<thead>
<tr>
<th>Course</th>

Master's Exam

All students must pass a written comprehensive exam on the core data analytics portion of the program: STAT 7750, STAT 7760, STAT 8310, STAT 8320. These exams will be administered at least twice per year and may be taken on campus or in testing centers in the United States or Internationally.

PhD in Statistics

Admission Criteria

Fall deadline: January 15
Spring deadline: October 15

- Minimum TOEFL scores:
  - Internet-based test (iBT) 80
  - Paper-based test (PBT) 535
- Minimum GPA: 3.5 in math and statistics to enter PhD program
- Master's degree from accredited college or university in related area

Before entering the graduate program, a student should have a background that includes three semesters of calculus (or equivalent), one semester of matrix theory, and at least one post-calculus course in probability and statistics. Some required courses at the 7000 level not taken as an undergraduate may be taken for graduate credit as part of the graduate program.

Required Application Materials

To the Office of Graduate Studies:
- All required Graduate Studies documents

To the Program:
- Departmental application
- 3 letters of recommendation (use departmental form)
- Letter of intent
- GRE score report

Qualifying Examination

All doctoral students must pass the qualifying exam, which is offered in August and January of each year. The exam consists of two parts, one covering STAT 7750 and STAT 7760 (Statistical Inference), and a second part covering STAT 8310 and STAT 8320. All doctoral students must take the exams at the first opportunity after taking the required courses, usually in August at the start of the second year. Students have two attempts to pass each part.

Doctoral Committee

Within one semester of passing the qualifying examination, a student must choose a doctoral program committee in consultation with his or her advisor. This committee consists of at least five members, at least three of whom are members of the doctoral faculty in statistics and at least one from another MU doctoral program.
Preliminary Examination

The preliminary exam is a written exam offered in August and January of each year. Before taking the exam, the student is required to have passed the qualifying exams and chosen his/her major professor. The exam consists of two parts: Part one covering STAT 9710 and STAT 9720 and part two covering STAT 9310. Students have two attempts to pass each part. Students must take the preliminary exam at the earliest possible time after passing the qualifying exam and completing the courses required for the preliminary exam, normally the start of the third year of study.

Required Course Work

Before taking the comprehensive examination, students should complete six courses taken at MU or at comparable institutions.

Select six of the following:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>STAT 9100</td>
<td>Recent Developments in Statistics</td>
</tr>
<tr>
<td>STAT 9250</td>
<td>Statistical Computation and Simulation</td>
</tr>
<tr>
<td>STAT 9320</td>
<td>Advanced Linear Models</td>
</tr>
<tr>
<td>STAT 9370</td>
<td>Multivariate Analysis</td>
</tr>
<tr>
<td>STAT 9410</td>
<td>Survival Analysis</td>
</tr>
<tr>
<td>STAT 9510</td>
<td>Theory of Nonparametric Statistics</td>
</tr>
<tr>
<td>STAT 9530</td>
<td>Data Mining and Machine Learning Methods</td>
</tr>
<tr>
<td>STAT 9640</td>
<td>Bayesian Analysis II</td>
</tr>
<tr>
<td>STAT 9810</td>
<td>Advanced Probability</td>
</tr>
<tr>
<td>STAT 9820</td>
<td>Stochastic Processes</td>
</tr>
</tbody>
</table>

(Different 9100s can be counted more than once.) Other courses may be substituted at the discretion of the student's doctoral program committee.

Comprehensive Examination

After successfully completing the preliminary exam and the required coursework, the student is eligible to take the comprehensive examination. This examination consists of a written and oral section as specified in the Graduate Studies catalog. This examination must be completed at least seven months prior to the final defense of the dissertation.

Dissertation

A dissertation, prepared under the direction of a dissertation supervisor, is required. The dissertation should be presented in an open seminar as part of the final examination, which is be conducted by the final examination committee. The dissertation should be made available for public review, through the Department of Statistics office, for at least one week before the examination.

Additional Requirements

Additional requirements for the PhD in statistics are determined by the student’s program committee and the director of graduate studies.

Graduate Minor in Statistics

Master’s Minor

To receive a designated minor in statistics for a master's degree, at least 12 credit hours of course work at the 7000 level or higher must be completed from the Department of Statistics at MU. The courses should be unified in theme and must be approved by the Director of Graduate Studies of the Department of Statistics.

The courses must be completed with an average grade of B (3.0) or higher.

The courses may not include:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>STAT 9085</td>
<td>Problems in Statistics for Majors - PhD</td>
</tr>
<tr>
<td>STAT 8085</td>
<td>Problems in Statistics for Majors - Masters</td>
</tr>
<tr>
<td>STAT 7710</td>
<td>Introduction to Mathematical Statistics</td>
</tr>
<tr>
<td>STAT 7750</td>
<td>Introduction to Probability Theory</td>
</tr>
</tbody>
</table>

PhD Minor

To receive a designated minor in statistics for a PhD degree, at least 15 credit hours of course work at the 7000 level or higher must be completed from the Department of Statistics at MU.

Courses may not include:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>STAT 7770</td>
<td>Topics in Statistics-Biological/Physical/</td>
</tr>
<tr>
<td></td>
<td>Mathematics</td>
</tr>
<tr>
<td>STAT 7050</td>
<td>Connecting Statistics to Middle and Secondary</td>
</tr>
<tr>
<td></td>
<td>Schools</td>
</tr>
<tr>
<td>STAT 7070</td>
<td>Statistical Methods in the Health Sciences</td>
</tr>
<tr>
<td>STAT 7085</td>
<td>Problems in Statistics for Non-majors</td>
</tr>
<tr>
<td>STAT 7530</td>
<td>Analysis of Variance</td>
</tr>
<tr>

</tr>
<tr>
<td>STAT 8090</td>
<td>Master's Thesis Research in Statistics</td>
</tr>
<tr>
<td>STAT 9085</td>
<td>Problems in Statistics for Majors - PhD</td>
</tr>
</tbody>
</table>

Students must have at least one course in calculus-based statistics and the equivalent of at least two courses in an applied statistics sequence. The calculus-based statistics requirement can be met by STAT 7710 or STAT 7760 or above, but no more than 6 hours of STAT 7710, STAT 7750, and STAT 7760 can be counted towards the 15 hours. The applied sequence requirement can be satisfied by either STAT 7510/STAT 8220 or STAT 8310/STAT 8320. At most one course from STAT 7510 and STAT 8310 can be counted and at most one course from STAT 8220 and STAT 8320 can be counted towards the 15 hours.

The plan of study must be approved by the Director of Graduate Studies of the Statistics Department and be completed with an average grade of B (3.0) or higher. Each student is encouraged to seek approval of his/her plan of study as soon as possible.

Theatre

Dr. Heather Carver, Chair
College of Arts and Science
Rhynsburger Theatre
129 Fine Arts Center
(573) 882-2021
http://theatre.missouri.edu

The Department of Theatre offers students an appreciation of theatre as a fine art, sharpens the talents of those who seek careers in theatre and
provides students with methods of stimulating and using their imagination and intensifying their communication skills.

The department offers BA, MA and PhD degrees with a major in Theatre. A minor is also available.

**Faculty**

**Professor** C. Black**, S. Burgoyne*, H. Carver*, D. A. Crespy**,
**Associate Professor** K. Brown**
**Assistant Professor** B. Carlson*, C. Syler**
**Assistant Teaching Professor** J. A. Drtina, C. Gleason*

* Graduate Faculty Member - membership is required to teach graduate-level courses, chair master's thesis committees, and serve on doctoral examination and dissertation committees.
** Doctoral Faculty Member - membership is required to chair doctoral examination or dissertation committees. Graduate faculty membership is a prerequisite for Doctoral faculty membership.

**Undergraduate**

- **BA in Theatre** (p. 303)
  - with emphasis in Design/Technical (p. 303)
  - with emphasis in Performance (p. 304)
  - with emphasis in Writing for Performance (p. 304)
- **Minor in Theatre** (p. 305)

**Departmental Honors**

To graduate with honors in theatre, a student must earn a minimum overall MU GPA of 3.3 and earn a minimum GPA of 3.5 in courses in theatre completed at the University of Missouri.

**Double Majors**

Many students in theatre choose either a double major or a minor in another area. In either case, the student must see a theatre advisor for approval.

**About the Department of Theatre**

The MU Department of Theatre has a distinguished history that began shortly after 1900 when a small group of aspiring thespians resolved to enhance the cultural life of the campus by producing plays in an abandoned dining room in Lathrop Hall. In 1925, Professor Donovan Rhynsburger joined the MU faculty and established the Missouri Workshop Theatre. For over 85 years, the department has sustained a national and international reputation as a major center for theatre and performance scholarship and dramatic art production. In 2007 “Academic Analytics” ranked MU Department of Theatre #4 nationally for scholarly productivity in Theatre Literature, History, and Criticism (reported in Chronicle of Higher Education, November 11, 2007). MU Theatre offers graduate and undergraduate programs.

A professional faculty comprises internationally recognized scholars and artists who develop the talents, skills and knowledge of students by teaching them to combine scholarship with artistry. MU has consistently produced fine theatre and notable alumni, including Tennessee Williams, George C. Scott, Tom Berenger, Chris Cooper, Jon Hamm, Ethel Pitts Walker, and Barbara Molette. MU students have won the prestigious David Library Award seven times, several nationally coveted awards like the Mark Twain Comedy Prize, and departmental productions have been cited for national awards by the Kennedy Center American College Theater Festival, the National Communication Association, and the Association of Theatre in Higher Education. Graduate students in the department have won numerous campus, professional and national awards, fellowships and research grants for their scholarship and artistry. The department is proud of its legacy of artistic excellence and the enrichment it brings to the cultural life of the campus and community.

**Facilities**

Rhynsburger Theatre. Named after Donovan Rhynsburger, MU’s principal theatre for dramatic productions is in the Fine Arts Building, which also houses the music and art departments. The 278-seat proscenium theatre has a large stage and fly system with well-equipped costume and scenic shops located adjacent to the stage. The theatre houses faculty offices, classrooms, shops, dressing rooms and other production support spaces. Students interested in lighting and sound production will find a variety of equipment and modern control systems on which to learn their craft.

We’re also thrilled to announce the addition of a new, state-of-the-art professional computer graphics lab in 2012.

Corner Playhouse. The Corner Playhouse provides an opportunity for students and faculty to present smaller, often more experimental productions in a flexible space. Seating up to 125, the theatre is designed to accommodate any stage configuration. Across the street from the Rhynsburger Theatre, the Corner Playhouse also houses dressing rooms, graduate student offices and classrooms.

**Satisfactory Progress: General Guidelines for MA and PhD in Theatre**

**Probationary Status**

The following constitute grounds for placing a student on departmental probation:

Earning a grade of C or below in any departmental course taken for graduate credit will result in probationary status. A grade of incomplete in any course will result in probationary status for the subsequent semester. Incomplete grades must be changed to a grade of A or B by the end of the probationary semester (dissertation research incompletes are evaluated as S/U until the dissertation is defended). Failure to comply in a satisfactory manner with all responsibilities related to graduate assistantships. Graduate students in our department are expected to conduct themselves in a manner reflecting the university’s commitment to professional integrity, collegiality, and good citizenship. Students who consistently fail to conduct themselves in this manner may be subject to probation or dismissal. In the case of each student on departmental probation, the director of graduate studies will confer with the advisor (in the case of an MA student), or the members of the program committee (in the case of a PhD student) to determine the grounds for removal of probation, and will communicate this decision to the student.
Annual Review

Each Fall semester the director of graduate studies convenes the Graduate Studies Committee to review the progress and performance of all graduate students.

Each graduate student in residence should meet with his or her advisor within the first two weeks of each semester to determine whether satisfactory progress has been maintained, and the advisor shall report the results of this meeting to the director of graduate studies.

Losing & Regaining Financial Support

Termination of departmental financial support will result if the student is considered to be making unsatisfactory progress and the student’s program may be terminated. Departmental financial support may be restored when the student has made satisfactory progress toward a graduate degree for one semester, has made an A or a B in all incomplete courses, and is judged to be off probation by the director of graduate studies.

BA in Theatre

Degree Program Description

The study of Theatre focuses upon the produced play, past, present, and future. The BA in Theatre offers students an appreciation of theatre as a fine art, sharpens the talents of those who seek careers in theatre and provides students with methods of stimulating and using their imagination and intensifying their communication skills. Students must choose from one of three emphasis areas: Design/Technical, Performance, and Writing for Performance. The curriculum includes: examining the heritage of theatre through dramatic literature and theatre history, exercises in theatrical skills, artistic training in design and performance, and theory and criticism of theatre. The Rhynsburger Theatre, the Corner Playhouse, and outreach programs serve as laboratories for ongoing examination of theatre in society, responsive to social issues. Working with faculty and staff of professionally trained actors, directors, and designers, students focus on performance, writing for performance, and theatre design and technology. MU undergraduate theatre students have taken their work to the Kennedy Center American College Theatre Festival, winning awards in acting, playwriting, design, and dramaturgy. After graduation, many of our students find work in film, television, and the professional theatre as actors, directors, designers, stage managers, artists, and technicians, or go on to graduate school to further their theatre education.

Major Program Requirements

The major in Theatre consists of core courses and an emphasis area. In addition, all students must complete all College of Arts and Sciences and University graduation requirements, including University General Education (p. 33). All courses used to satisfy requirements for the major must be completed with a grade of C or higher.

The requirements for the BA in Theatre are divided into four main sections: 15 credit hours of major core requirements, 15 credit hours of major program requirements, 15 credit hours of additional classes in beginning and advanced scenic and costume technology, and 9 credit hours of coursework in performance and theatre history, theory and criticism.

Emphasis Areas

Theatre students must also complete an emphasis area in Performance (p. 304), Design/Technical (p. 303) or Writing for Performance (p. 304).

Semester Plan

Refer to the semester plan for the Performance emphasis (p. 304), or contact the academic departments for assistance with academic planning.

BA in Theatre with Emphasis in Design/Technical

Degree Program Description

Students in the BA in Theatre with emphasis in Design/Technical study scene design, lighting design, costume design, sound design, theatre technology, and stage management. They further their studies with additional classes in beginning and advanced scenic and costume construction, makeup, stagecraft, costume crafts, pattern making, scene painting, and theatre architecture. Theatre design students sketch design ideas with pencil and paper, and render those design ideas in 3-D in our computer labs, combine traditional stagecraft techniques with state of the art computer technology, digital image projection, and digital sound mixing. Students participate behind the scenes in a variety of productions -- from main stage faculty-directed musicals and plays, to student-directed shows, ensembles and workshops, take on major roles in our production program as scenic designers, lighting designers, costume designers, sound designers, projection designers, and makeup designers, work as stage managers, carpenters, electricians, riggers, stitchers, cutters, drapers, wardrobe supervisors, props supervisors, lighting and sound board operators, followspot operators, stagehands, and crew members. Graduates work in all areas of the entertainment industry as designers, technicians, directors, teachers, Broadway producers and stage managers, theatre managers, casting agents, box office managers, and scenic artists. We have a strong network of alumni who support one another as they design and build scenery, props, and costumes, mix sound, renovate historic theatres, and work professionally backstage, behind the scenes, and behind the camera in theatre, film, and television in New York, Chicago, Los Angeles, and across the country.

BA in Theatre with Emphasis in Performance

Degree Program Description

Students in the BA in Theatre with emphasis in Performance are offered a curriculum that includes a sequence of acting and performance classes, emphasizing scene study in comedy and drama, contemporary and period styles, stage movement, vocal performance, and musical theatre performance. But it’s more than just acting, singing, and dancing – our performance students take introductory and advanced classes in theatre history, script analysis, directing, stage combat, improvisation, American musicals, stage makeup, storytelling, folklore, performance art, performance of literature, and theatre of the oppressed. Students have the opportunity to put into practice what they learn in the classroom by performing in a variety of productions -- from main stage faculty-directed musicals and plays, to student-directed shows, ensembles and workshops. College credit can be earned during the academic year for performing in MU Theatre productions, as well as those of the World Theatre Workshop, the MU Center for Applied Theatre and Drama Research, the Missouri Playwrights Workshop, the Larry Clark Actor’s Workshop, and the Troubling Violence Performance Project, and during the summer as a member of our professional Summer Repertory Theatre company. MU Theatre alumni are involved in theatre, film, and television in New York, Chicago, Los Angeles, and across the country. They are actors, singers, dancers, directors, stage managers, musicians, storytellers, and teachers, who share their love of theatre and the performing arts by entertaining and enlightening audiences everywhere.

BA in Theatre with Emphasis in Writing for Performance
Degree Program Description

Student in the BA in Theatre with emphasis in Writing for Performance are offered a curriculum that includes a sequence of creative writing and literature classes, emphasizing the art and craft of writing as it applies to theatre and performance. MU student playwrights tell their stories through the words and actions of the characters they create. Students take a series of introductory and advanced classes in playwriting, acting, directing, dramaturgy, theatre history, script analysis, performance studies, world dramatic literature, adaptation of literature for stage and film, and screenwriting for film and television. They study dramatic structure, plot and story structure, complex character development, and special playwriting problems and techniques. Students participate in our annual Life and Literature Performance Series which is a celebration of original student plays, stories, poetry, and adaptations of literature, devised theatre, ethnography, performance art, music, and dance. Student playwrights have their new plays performed every week at our Missouri Playwrights Workshop, presented as concert readings during our annual Mizzou New Play Series and summer Comedies-in-Concert Series, and fully produced during our Academic Season as MU Theatre mainstage productions. Students are regularly invited to share their ten-minute plays, one-act plays, and full-length plays at local, regional, and national theatre events, including the annual Kennedy Center American College Theatre Festival. Graduates are involved in theatre, film, and television productions in New York, Chicago, Los Angeles, and across the country. They are playwrights, screenwriters, dramaturgs, editors, storytellers, and teachers, who share their imagery, creativity, and theatrical imagination with audiences everywhere.

Admission Criteria

http://theatre.missouri.edu/gradprogram/index.html

Deadline: January 15 for the following fall semester admission. We only admit once a year, barring extraordinary circumstances.

- Minimum TOEFL scores:
  - Internet-based test (iBT) 112
  - Paper-based test (PBT) 650

- Minimum GRE scores:
  - Minimum GRE scores:
    - When did you take the GRE?
      - Prior to August 1, 2011
        - Verbal 600
        - Quantitative 500
        - Analytical 4.0
      - On or After August 1, 2011
        - Verbal 160
        - Quantitative 146
        - Analytical 4.0

- Minimum GPA: 3.0 in the last 60 hours

Probationary admission is possible. The director of graduate studies will advise the student in writing of what must be done to change the probationary admission to regular admission.

Required Application Materials

To the Office of Graduate Studies:
- All required Graduate Studies documents

To the Theater Program:
- 3 letters of recommendation
- GRE score report
- Statement of purpose
- Scholarly writing sample

Financial Aid from the Program

Some programs require an extra form or statement from those who wish to be considered for internal assistantships, fellowships or other funding packages. Check the program Web site or ask the program contact for details.

Curriculum Requirements

The degree of Master of Arts in Theatre will be awarded upon completion of the curriculum outlined below with a GPA of 3.0 or better.
Completed Undergraduate Curriculum

Most students have completed this course of study before seeking admission to MU. However, applicants holding undergraduate degrees in disciplines other than theatre will be asked to complete those courses, which were not part of their undergraduate curriculum. In some cases professional theatre experience may substitute for certain courses. Twelve courses in the undergraduate curriculum should be distributed as follows:

- Basic skills: at least one course in each of the following: voice and articulation, movement for the stage, script analysis, technical theatre;
- At least one upper-division course in each of the following: acting, directing, dramatic literature, theatre history;
- at least two upper-division courses in technical theatre; and two upper-division theatre electives.

Graduate Curriculum

The student must complete at least 24 graduate hours while in residence as a graduate student at MU. The academic program should be established in consultation with an advisor not later than the end of the first full semester of residence. No more than six semester hours of graduate work may be transferred from another university. The student submits Form M-1, Application for Degree of Master of Arts to the Graduate Studies listing the courses to be taken to complete the graduate curriculum.

Independent Project

Each candidate for the MA must complete an independent project, which should be specified on the M-1 form as part of the plan of study.

There are three options:
1. This may be a thesis, for which up to six semester hours of credit in Theatre Research may be earned.
2. Another option is to write an original performance/play, translate a play/performance, or complete a project in acting, design, adaptation/devising, dramaturgy, solo performance or directing. Credit of up to three semester hours may be earned in a graduate problems course.
3. A student may create and successfully execute a research project to earn three semester hours in a graduate course in independent research.

Satisfactory Progress: General Guidelines for MA in Theatre

Probationary Status

The following constitute grounds for placing a student on departmental probation:

Earning a grade of C or below in any departmental course taken for graduate credit will result in probationary status. A grade of incomplete in any course will result in probationary status for the subsequent semester. Incomplete grades must be changed to a grade of A or B by the end of the probationary semester (dissertation research incompletes are evaluated as S/U until the dissertation is defended). Failure to comply in a satisfactory manner with all responsibilities related to graduate assistantships. Graduate students in our department are expected to conduct themselves in a manner reflecting the university’s commitment to professional integrity, collegiality, and good citizenship. Students who consistently fail to conduct themselves in this manner may be subject to probation or dismissal. In the case of each student on departmental probation, the director of graduate studies will confer with the advisor (in the case of an MA student), or the members of the program committee (in the case of a PhD student) to determine the grounds for removal of probation, and will communicate this decision to the student.

Annual Review

Each Fall semester the director of graduate studies convenes the Graduate Studies Committee to review the progress and performance of all graduate students.

Each graduate student in residence should meet with his or her advisor within the first two weeks of each semester to determine whether satisfactory progress has been maintained, and the advisor shall report the results of this meeting to the director of graduate studies.

Losing & Regaining Financial Support

Termination of departmental financial support will result if the student is considered to be making unsatisfactory progress and the student’s program may be terminated. Departmental financial support may be restored when the student has made satisfactory progress toward a graduate degree for one semester, has made an A or a B in all incomplete courses, and is judged to be off probation by the director of graduate studies.

Master’s Final Examination

Master’s degree students who have been maintaining satisfactory progress toward a degree for a period of 24 months are expected, barring unusual and extenuating circumstances, to be prepared to write the master’s final examination.

Each candidate for the MA is required to pass a final examination to demonstrate mastery of the fundamental principles of the work included in the course of study. An examining board consisting of at least three members of the faculty shall administer the examination.

In consultation with his or her advisor the student selects four areas for examination from among those listed below:

1. At least two but no more than three areas may be selected from among:
   - Theatre History and Historiography
   - Dramatic Literature and Criticism
   - Dramatic and Performance Theory
   - Performance Studies and Writing for Performance

   At least one but no more than two areas must be selected from among:
   - History, Theory or Pedagogy of Acting or Directing
   - History, Theory or Pedagogy of Dramaturgy
   - History, Theory or Pedagogy of Theatrical Design
   - History, Theory or Pedagogy of Performance Studies
   - History, Theory or Pedagogy of Playwriting/Writing for Performance

Length of Exam

Two hours are allotted for answering the question(s) for each area, making a total of eight hours for the examination.

Notifying the Graduate School of Results

As soon as the performance on the Master’s Final Examination has been evaluated, the student’s advisor informs the Graduate School, using the appropriate M-form.
If one area examination is unsatisfactory, the examining board will give the student an oral examination on that area, with special emphasis on the questions or questions missed. If two area examinations are unsatisfactory, the student is failed.

- Professional résumé or portfolio
- Creative (dramatic) writing samples

Financial Aid from the Program
Some programs require an extra form or statement from those who wish to be considered for internal assistantships, fellowships or other funding packages. Check the program website or ask the program contact for details.

Careers
The doctorate in theatre at MU aims to provide knowledge and research skills necessary to launch the successful student on a career of scholarly and artistic investigation of theatre history, performance theory and criticism, performance studies, playwriting and other modes of writing for performance (such as adaptation and translation), dramaturgy, performance and theatre pedagogy.

Qualifying Examination
During the first semester of residence, the student completes a qualifying examination. The Graduate Affairs Committee of the Department of Theatre meets with the student to discuss the student’s academic background, career goals and research interests for an oral review and discussion of their proposed course of study. The advisor submits the D-1 form, Qualifying Process/Confirmation of Advisor, reporting on the departmental qualifying process.

Advisory Committee: Form D-1
Doctoral Program Committee asks the graduate dean to approve a committee of four graduate faculty members to help the student plan and carry out a program. One member of the Doctoral Program Committee must come from outside the Department of Theatre.

Program Planning
As early as is practical, usually in the student’s second semester on campus, the student should meet with the Doctoral Program Committee to plan a doctoral program. The student should prepare a triad plan in consultation with the faculty advisor who serves as chair of the Doctoral Program Committee and reports the approved plan of study to the graduate dean on Form D-2: Doctoral Plan of Study.

Theatre Department Course Work
Although the Graduate School requires no specific number of hours of class work, the Department of Theatre typically requires students entering the program with a master’s degree to complete about 40 semester hours of graduate level course work in the theatre department, including three semester hours of Dissertation Research, devoted to writing a dissertation prospectus. For more specific information regarding required coursework, see http://theatre.missouri.edu/gradprogram/index.html.

Doctoral Minor
The department also requires the student to complete a doctoral minor, a nine-semester-hour unified area of study outside the Department of Theatre.

Research Tool Options
The PhD in Theatre also includes a research tool requirement that may be satisfied in several ways:

1. Option One: Present evidence of translation ability in each of two foreign languages in one of the following ways: by receiving an acceptable score on a GFSLT Humanities examination if the language is French, German or Spanish (Acceptable scores at this time are: French 570, German 560 and Spanish 540) by receiving certification of competence from a qualified examiner if other languages are presented by showing on one’s transcript a grade of B or better on a literature course at MU. (This course must require reading of works in the foreign language. The course may be taken
during the doctoral program or within the five years prior to beginning the program.)

2. Option Two: Demonstrate a high degree of fluency in one foreign language by individual examination conducted by the appropriate language department at MU.

3. Option Three: Choose one language and one block of courses. Demonstrate translation ability for one language as in Option One. Complete with grades of B or better six semester hours in graduate courses taken outside of the department that represent a coherent unit of study, providing a research tool applicable to the candidate’s dissertation research.

4. Option Four: Choose two blocks of courses. Complete with grades of B or better two blocks of course work of six hours each in graduate level courses taken outside of the department that must represent to the candidate’s advisory committee a coherent unit of study. One or both blocks should provide a research tool for the candidate’s dissertation.

Participation in Productions

The doctoral student is encouraged to participate in University Theatre and studio theatre productions and may, in some cases, be required to do so. Academic credit is available.

Satisfactory Progress Guidelines for the PhD in Theatre

Probationary Status

The following constitute grounds for placing a student on departmental probation:

- Earning a grade of C or below in any departmental course taken for graduate credit will result in probationary status.
- A grade of incomplete in any course will result in probationary status for the subsequent semester. Incomplete grades must be changed to a grade of A or B by the end of the probationary semester (dissertation research incompletes are evaluated as S/U until the dissertation is defended).
- Failure to comply in a satisfactory manner with all responsibilities related to graduate assistantships. Graduate students in our department are expected to conduct themselves in a manner reflecting the university’s commitment to professional integrity, collegiality, and good citizenship.
- Students who consistently fail to conduct themselves in this manner may be subject to probation or dismissal. In the case of each student on departmental probation, the director of graduate studies will confer with the advisor (in the case of an MA student), or the members of the program committee (in the case of a PhD student) to determine the grounds for removal of probation, and will communicate this decision to the student.

Annual Review

Each fall semester the director of graduate studies convenes the Graduate Studies Committee to review the progress and performance of all graduate students.

Each graduate student in residence should meet with his or her advisor within the first two weeks of each semester to determine whether satisfactory progress has been maintained, and the advisor shall report the results of this meeting to the director of graduate studies.

Losing & Regaining Financial Support

Termination of departmental financial support will result if the student is considered to be making unsatisfactory progress and the student’s program may be terminated. Departmental financial support may be restored when the student has made satisfactory progress toward a graduate degree for one semester, has made an A or a B in all incomplete courses, and is judged to be off probation by the director of graduate studies.

Satisfactory Progress Before the Comprehensive Exam

Each semester prior to the semester in which comprehensive examinations are taken, satisfactory progress is maintained when a student completes nine semester hours of graduate level work with a grade of B or above. Incomplete grades are given only under extraordinary circumstances and with the approval of the graduate faculty. Doctoral students who have been maintaining satisfactory progress toward a degree for a period of 36 months are expected, barring unusual and extenuating circumstances, to be prepared to write comprehensive examinations.

Satisfactory Progress During and After Comps

For the semester in which comprehensive examinations are taken and in semesters after comprehensive exams and orals are passed, satisfactory progress is maintained when, in the judgment of the student’s dissertation advisor, the student is making satisfactory progress toward completion of the dissertation.

Students who leave MU having completed all but the dissertation must maintain continuous enrollment by registering for two semester hours of Dissertation Research each fall and spring term and one hour in the summer term. Failure to register negates a student’s candidacy.

Graduate Studies Regulations on Satisfactory Progress

The Graduate Studies regulations regarding a reasonable rate of progress for doctoral students enrolled during or after Fall 2000: Effective for students beginning their doctoral studies during or after Fall Semester 2000, a PhD student must successfully complete the comprehensive exam within a period of five years beginning with the first semester of enrollment as a PhD student. For an extension of this time limit, the student must petition the Office of Graduate Studies by submitting a request to the advisor, who, in turns, submits, via the departmental director of graduate studies, a written recommendation to the Office of Graduate Studies. The Theatre Department recommends taking comprehensive exams no later than the third year of consecutive full enrollment. Only students who have taken and passed their exams by May of their third year of assistantship will be considered for a fourth year of assistantship with the department.

All requests for extensions should be endorsed by the departmental director of graduate studies and should be accompanied by a description of the process whereby currency in the discipline is certified, if required by the department.

Dissertation Proposal/Prospectus

Before comprehensive exams may be scheduled, students will be required to complete a 5-page Dissertation Proposal, concisely but clearly
expressing the purpose, justification, method and general organizational plan for the dissertation. A bibliography is also required (bibliography is not included in 5 pp. minimum). The theatre department faculty members on student’s doctoral committee must approve this proposal. After successful completion of comprehensive exams, the student will expand the dissertation proposal into a Dissertation Prospectus — a more detailed and thorough description of the dissertation project. The prospectus should provide a clear statement of the purpose of the dissertation, describe the need for the knowledge the dissertation report will supply, outline the research questions and demonstrate the procedures by which the scholar will answer these questions. The candidate will present the prospectus to the Doctoral Program Committee and will be prepared to defend it.

**Comprehensive Examination**

After completing the research tool option, a substantial amount of the course work and after obtaining the approval of the 5-page proposal from the Doctoral Program Committee, the student takes the comprehensive examination. The comprehensive examination provides an opportunity for the student to demonstrate a thorough grasp of the history and principles of theatre. The examination provides the Doctoral Program Committee with a window looking back upon the student’s training as well as a chance to estimate the student’s potential as a problem solving scholar of theatre. Readers of the examination look for more than a reiteration of the content of standard sources of information about dramatic art. The examinee should demonstrate an ability to analyze problems and data, to formulate theses or points of view, and to locate, evaluate and organize evidence to support a contention—the essential skills of scholarship.

The comprehensive examination in theatre allows candidates not only to tell what they know but also to demonstrate what they can do with information. Comprehensive exams are scheduled once each semester, during the first third of the current semester.

**Stages of the Comprehensive Exam**

The examination is given in two stages.

- **Stage One** consists of a written examination, over the history of theatre, dramatic theory, criticism, writing for performance, performance studies, and theatre pedagogy, and an additional (written) examination consisting of one or two questions posed by the outside member of the Doctoral Program Committee. The examination is evaluated by the student’s Doctoral Program Committee, which decides whether or not the student should be advanced to the oral examination.

- **Stage Two** is the oral examination administered by the Doctoral Program Committee. This examination provides an opportunity for the student to correct, amend, or defend assertions made in the written examination, although the oral examination is not bound by any limits established by the written examination. Ordinarily of two hours duration, the oral is also an opportunity for the student to demonstrate skill in oral explanation and argument.

**Criteria for Passage of the Comprehensive Exam**

The result of the comprehensive examination shall be marked pass if all of the Doctoral Program Committee members recommend a pass on the entire examination, both written and oral sections. Should the examination be marked fail, the committee may recommend that the candidate retake the examination after a minimum period of 12 weeks. A report of the committee’s decision (Form D-3), carrying the signatures of all members of the committee, is sent to the Graduate School and to the student no later than two weeks after the comprehensive examination is terminated.

If a failure is reported, the committee also must include in the report an outline of the general weaknesses or deficiencies of the student’s work. The student and the committee members are encouraged to work together to identify steps the student might take to become fully prepared for the next examination. If at any time the student believes that the advice given by the committee is inadequate, the student may send a written request for clarification to the committee. A copy of this request should be sent to the Graduate School. The committee must respond to this request in writing within two weeks with a copy to the Graduate School. Failure to pass two comprehensive examinations automatically prevents candidacy for the doctorate in theatre at MU.

**Completing the Dissertation**

The final step is completion and approval of the doctoral dissertation. The director of graduate studies can provide the student a copy of Guidelines for Preparing Theses and Dissertations.

**Formatting**

Dissertations in the Department of Theatre should be formatted according to the latest edition of A Manual for Writers of Term Papers, Theses, and Dissertations, ed. Kate L. Turabian or the MLA Handbook; the chosen format must meet with the dissertation advisor’s approval.

**Graduate School Paperwork**

Form D-4, Report of the Doctoral Dissertation Defense, indicates that the student has defended the dissertation at an oral examination.

**Advisory and Committee Approval of the Dissertation**

No draft of the dissertation can be considered a final draft until the advisor (First Reader) has approved it. All dissertation committee members must have at least 10 days to read the dissertation before the last date for oral examination as published by the Office of Graduate Studies. Unanimous approval of the dissertation by four committee members constitutes satisfactory completion of this examination.

**Additional Minors and Certificates - A&S**

**Undergraduate Certificates**

- Certificate in American Constitutional Democracy (p. 310)
- Certificate in Jazz Studies (p. 311)
- Certificate in Multicultural Studies (p. 311)
- Certificate in Music Entrepreneurship (p. 311)

**Undergraduate Minors**

- Minor in Aerospace Studies (p. 312)
- Minor in Afro-Romance Literatures in Translation (p. 312)
- Minor in American Constitutional Democracy (p. 312)
- Minor in Astronomy (p. 313)
- Minor in Black Studies (p. 313)
- Minor in Canadian Studies (p. 313)
- Minor in Chinese Studies (p. 314)
Students may not receive credit for both the certificate and the minor in American Constitutional Democracy. However, courses used to satisfy a major requirement may also count toward a certificate.  

In contrast to the minor, students pursuing the certificate are not required to complete a study abroad course or internship. Note: courses used to satisfy a major requirement may also count toward a certificate. However, students may not receive credit for both the certificate and the minor in American Constitutional Democracy.

**Certificate in American Constitutional Democracy**

For general questions about the certificate, contact:
Justin Dyer, Program Director
(573) 882-3777
dyerjb@missouri.edu

Political Science Academic Advisor
(573) 882-2580
politicalscience@missouri.edu

The certificate in American Constitutional Democracy recognizes students who have completed twelve (12) hours of coursework on the history, theory, and practice of American constitutional self-government. In contrast to the minor, students pursuing the certificate are not required to complete a study abroad course or internship. Note: courses used to satisfy a major requirement may also count toward a certificate. However, students may not receive credit for both the certificate and the minor in American Constitutional Democracy.

**Must complete 12 hours from the following courses:**

Note: Students may petition the director of the certificate to include a maximum of three (3) hours from a related course outside the Departments of Political Science and History. Outside courses may have additional prerequisites.

Certificate in Multicultural Studies

The College of Arts and Sciences offers a Certificate in Multicultural Studies. Students earning the certificate will become familiar with multicultural and diversity issues. In an increasingly global environment, students earning this certificate will be better prepared to understand and to facilitate cross-cultural interactions in their future careers, as well as in their general life experiences.

Requirements

Students are required to complete a coherent program of 15 credit hours from a list of approved courses. Approved courses for the certificate critically evaluate and examine issues of social inequality and social stratification (e.g., gender, race, ethnicity, religion, region, sexuality, and/or class inequality) globally and in the United States. Courses must be chosen from at least 2 different departments/programs. At least 6 credits must be completed at the 3000 level or above. One course (up to 3 credit hours minimum and 6 credit hours maximum) may include an applied experience of cultural difference. Approved research-based undergraduate courses, transcripted Study Abroad and other experiences approved through the Center for International Programs and Studies, and transcript-designated “Service Learning” coursework are among the possibilities. Only coursework in foreign languages that is numbered above 2100 is applicable, and the maximum number of such credit hours is 6. A grade of C- or higher must be earned in each course, and students must maintain a cumulative GPA of 2.0 for overall coursework counting towards the certificate. Consistent with MU policy on certificates, an undergraduate degree and certificate must be awarded simultaneously.

Contact the Multicultural Certificate Program office, 58 McReynolds, for full details and an updated course list, or go to http://multicultural.missouri.edu/

Certificate in Music Entrepreneurship

The Undergraduate Music Entrepreneurship Certificate offers MU students an officially recognized core of courses dealing with the development, business, and publicity aspects of a musical career. In today’s fine arts economy, an increasingly viable and popular model is the “portfolio career,” in which a person incorporates multiple roles (e.g. performer, teacher, advocate, manager, publicist, composer/arranger, etc.) rather than pursuing one narrowly defined career path. Contextualizing the vision, skills, and networking activities needed to achieve a viable arts career, while offering a combination of theoretical and practical career preparation for Mizzou students, is the overarching aim of the Certificate.

Availability: Aimed primarily at degree-seeking students in music and music education, this certificate is also available to students in other majors with a commitment to pursuing a career in the music industries. All students who wish to declare the certificate must receive approval from our certificate director, Prof. Jonathan Kuuskoski (kuuskoskij@missouri.edu).

The minor must be completed with a grade in the C range or higher in each of the required courses and students must maintain a 2.0 GPA in the minor.

Minor in American Constitutional Democracy

For general questions about the minor, contact:

Justin Dyer, Program Director
(573) 882-3777
dyerjb@missouri.edu
Minor in Astronomy

A student whose major is in another department may receive a minor in astronomy with the completion of the following courses with grades of C- or better: PHYSICS 2750 University Physics I, PHYSICS 2760 University Physics II (10 credit hours), PHYSICS 3010 Introduction to Modern Astrophysics (3 credit hours), plus two additional astronomy courses at the 3000/4000 level or above.

A student must have a total of 19 credit hours to receive a minor in astronomy. At least nine of the 19 credit hours must be completed on-campus. A course in which a grade of D+ or below was received will not count towards the minor. To receive your minor in astronomy, you must print and fill out the minor form (https://physics.missouri.edu/sites/default/files/undergrad-grad/files/astronomyminorform.pdf), have it signed by the Director of Undergraduate Studies in the Physics Department, and then take it to 107 Lowry Hall.

Minor in Black Studies

Students seeking a minor in Black Studies must complete 15 credits, including those listed below.

- One course in each of three content areas (one must focus on gender) 9
- Social Science (includes History, Political Science, etc.)
- Behavioral Science (includes Sociology, Psychology, etc.)
- Humanities (includes English, Music, Religious Studies, etc.)
- One additional course in any of the three content areas 3

Total Credits 15

- Students are also encouraged to take a course in three regional areas of study: Africa, African America, and the Black Diaspora.
- A minimum of 6 credits numbered 2000 or above and at least one 3000-level course must be taken.
- At least 9 credits must be in courses other than readings, methods, techniques or problems.
- A maximum of 3 credits of the minor may be taken in Black Studies.

Minor in Canadian Studies

For general questions about the minor, contact:

James Endersby, Program Director
(573) 882-4238
A Minor in Canadian Studies allows you to

- participate in Study Abroad programs in Canada
- enhance your degree and career options
- learn about the culture, history, and politics of Canada

With a minor in Canadian Studies, students will be better equipped to deal with political, economic, social and even cultural issues that will arise vis-a-vis Canada, a close military ally and trading partner. In an era that features the internet, Free Trade, and most importantly, issues of border security and national defense, knowledge of Canada is particularly useful in a number of careers. The Canadian Studies Program is an interdisciplinary program which includes Political Science, Geography, Anthropology, Romance Languages, and Public Affairs. The minor concentration in Canadian Studies will require 15 hours of credits. Courses may be selected from at least two of the disciplines listed below. Any course qualifies for the Minor in Canadian Studies as long as it contains at least one-third content on Canada.

Minor in East Asian Studies

Office of Multidisciplinary Degrees
114 Switzler Hall
(573) 882-6060
https://omd.missouri.edu/?q=eas-minor/index

Requirements

- Complete 9 hours related to one cultural group and 6 hours related to a second cultural group. For example, a student can complete 9 hours related to Chinese studies and 6 hours related to Japanese studies. The cultural group options are Chinese, Japanese, and Korean.
- At least 6 credits must be numbered 2000 level or above.
- Nine of the required credits must be completed at MU.
- The elementary levels of language (Japanese, Chinese, and/or Korean) may NOT be used to fulfill minor requirements.
- Intermediate-level language courses may be used to meet minor requirements.

Policies

- Courses used to fulfill major requirements may NOT also fulfill minor requirements, or vice versa.
- Courses outside the major department, but required for the major, may be used to fulfill minor requirements.
• Courses required for the minor may also be used to meet the College of Arts & Science Foundation requirements.
• Minors are only awarded to undergraduate students who are simultaneous recipients of a Bachelor degree.
• Students may not earn a major and a minor in the same field.

For course options see https://omd.missouri.edu/?q=eas-minor/index.

**Faculty for East Asian Studies**

**Chinese**

Assistant Teaching Professor Michael Volz
Lecturer Huichung Liang

**Japanese**

Assistant Teaching Professor J. Martin Holman
Lecturer Chieko Kellar

**Korean**

Associate Teaching Professor Seungkwon You

**Minor in French**

Students may obtain a French minor by completing a minimum of 15 credits beyond FRENCH 2100, of which at least 6 credits must be in literature. Courses taught in English and cross-listed courses taught in English do not count toward the minor. The courses listed below are the most likely choice.

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>FRENCH 2160</td>
<td>Intermediate French Composition and Conversation</td>
<td>3</td>
</tr>
<tr>
<td>FRENCH 3160</td>
<td>Advanced French Composition and Conversation I</td>
<td>3</td>
</tr>
<tr>
<td>or FRENCH 3280</td>
<td>Commission French</td>
<td></td>
</tr>
<tr>
<td>FRENCH 3410</td>
<td>Introduction to Literary Analysis</td>
<td>3</td>
</tr>
<tr>
<td>FRENCH 3420</td>
<td>Introduction to French Literature I</td>
<td>3</td>
</tr>
<tr>
<td>FRENCH 3430</td>
<td>Introduction to French Literature II</td>
<td>3</td>
</tr>
</tbody>
</table>

Students beginning at a level higher than FRENCH 2160 due to placement testing must still complete the minimum of 15 additional credits in order to receive the minor. A minimum of 9 credits, including 3 in literature, must be taken in residence.

Additionally, course work must be completed with a grade in the C range or higher in each of the required courses and students must maintain a 2.0 GPA in the minor.

**Minor in Italian Area Studies**

Students may obtain a minor in Italian area studies by completing at least 9 credits in Italian language beyond ITAL 1200, e.g.: ITAL 2160, ITAL 3150 or ITAL 3160. An additional 6 credits must be chosen from the list below:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>ITAL 2001/2005</td>
<td>Undergraduate Topics in Italian-General</td>
<td>1-3</td>
</tr>
<tr>

<td>Italian Civilization</td>
<td>3</td>
</tr>
<tr>
<td>ITAL 3001/3005</td>
<td>Topics in Italian-General</td>
<td>1-3</td>
</tr>
<tr>
<td>ITAL 3310</td>
<td>20th Century Italian Fiction in Translation</td>
<td>3</td>
</tr>
</tbody>
</table>

Italian culture/topics emphasis courses offered by other programs/departments (e.g., History, Art History, Music or International Studies).

Normally, 9 credits must be completed in residence at MU. However, students are permitted to count 6 credits toward the minor from an officially sanctioned semester or year-long foreign study program in Italy. Six credits toward the minor can also be earned in summer programs abroad, such as the summer intensive language program offered by the University of Bergamo (near Milan) or by the Centro Fiorenza in Florence or on the Island of Elba.

Additionally, course work must be completed with a grade in the C range or higher in each of the required courses and students must maintain a 2.0 GPA in the minor.

**Minor in Japanese Studies**

Students may obtain a minor in Japanese Studies by completing at least 15 credits of Japanese courses. At least nine of these hours must be completed on campus. At least nine of these credit hours must be earned in Japanese language courses beyond the elementary level. The remaining six hours can be earned in non-language Japanese culture courses, or courses from other departments that relate to Japan.

**Minor in Jazz Studies**

Student who have chosen a major in a non-music field may complete a minor in jazz. The Minor is not intended for beginners, but for students with basic musical knowledge. Hence the prerequisites (MUSIC_NM 1211 or MUSIC_THRY 1220) for three of the required courses (MUS_I_VT 1620, MUS_I_VT 4645, and MUSIC_THRY 4210) and auditions required for Jazz Ensembles. Approval for declaration of the Jazz Minor must be received from the Director of Jazz Studies.

A minimum of 15 credits is required, including the following:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>MUS_THRY 4210</td>
<td>Jazz Harmony and Arranging I</td>

<td>3</td>
</tr>
</tbody>
</table>
Minor in Korean Studies

Students may obtain a minor in Korean Studies by completing at least 15 credits of Korean courses. At least nine of these hours must be completed on campus, or as part of an MU faculty-led study abroad program. At least six of these credit hours must be earned in Korean language courses beyond the elementary level. The remaining nine credit hours can be earned in non-language Korean culture courses, or courses from other departments that relate to Korea.

- KOREAN 2160 Intermediate Korean Language I 3
- KOREAN 3160 Intermediate Korean Language II 3
- KOREAN 2310 Korean Civilization I 3
- KOREAN 2320 Korean Civilization II 3
- KOREAN 3850 Religion and Culture in Modern Korea 3
- KOREAN 3890 Korean Society Through Cinema 3
- KOREAN 4220 Korean Unification 3
- KOREAN 4260 The Korean Diaspora in the U.S., Japan and China 3
- KOREAN 3001 Topics in Korean-General 1-3
- KOREAN 3005 Topics in Korean - Humanities 3
- KOREAN 4001 Topics in Korean-General 1-3
- KOREAN 4005 Topics in Korean - Humanities 1-3
- KOREAN 2330 Study Tour of Korea 3
- HIST 1830 Survey of East Asian History 3
- HIST 2810 History of Korea: Premodern to Hypermodern 3

Total Credits: 15

Minor in Leadership and Public Service

The Minor in Leadership and Public Service combines an academic component of courses in leadership, public policy, ethics, and social issues with a strong focus on service-learning, community service, and public service internships.

Consider this minor if you are:

- Interested in a self-crafted minor that provides a framework for your own leadership goals
- Set on developing the skills needed to succeed in both the non-profit sector and government
- Determined to give back on a local, national, and international level
- Looking for an opportunity to set yourself apart from the applicant pool for both graduate and professional school

For more information, contact:
Kirsten Pape
MU Office of Service Learning
208 Lowry Hall
Columbia, MO 65211
(573) 882-0227
servicelearning@missouri.edu

Minor in Luso-Brazilian Area Studies

Students may obtain a minor in Luso-Brazilian Area Studies by completing at least 9 credits in the Portuguese language beyond Portuguese 1200, e.g. PORT 2160, PORT 3160, and PORT 4960. An additional 6 credits may be chosen from the following list:

- PORT 2310 Brazilian Civilization 3
- PORT 3001/3005 Topics in Portuguese-General 1-3
- PORT 3420 Survey of Brazilian Literature 3
- PORT 3875 Brazilian Cinema 3
- SPAN 2330 Latin American Civilization 3

Luso-Brazilian culture/topics emphasis courses offered by other programs/departments (e.g. Anthropology, History, Music, Political Science).

Normally 9 credits must be completed in residence at MU. However, students are permitted to count 6 credits toward the minor from an officially sanctioned semester or year-long foreign study program in Brazil or Portugal. These include the MU in Rio de Janeiro program at the Pontificia Universidade Catolica and the CIEE Universidade Nova de Lisboa program.

Additionally, course work must be completed with a grade in the C range or higher in each of the required courses and students must maintain a minimum GPA of 2.0 in the minor.

Minor in Medieval and Renaissance Studies

Think dead languages, medieval literature, and old castles are cool? Love your Shakespeare or Art History class and interested in learning
more about the Middle Ages or the Renaissance? Then explore the possibility of a MARS undergraduate minor, in which students do coursework on medieval and Renaissance topics, receiving outstanding instruction from faculty in up to eleven different academic departments. For students interested in medieval and Renaissance history, art, literatures, religion, music, languages, and culture, the MARS minor offers the possibility of furthering interests while studying more broadly towards your major. Meet others interested in the same things as you, incorporate classwork you've already done, and learn new things about the Middle Ages and Renaissance, all while showing prospective employers or graduate schools the depth of your study with an official minor in MARS!

Requirements

- A minimum of fifteen (15) hours of approved coursework (see list below) in two different departments outside the student’s major department.
- At least nine (9) hours of the fifteen must be in courses numbered 2000 or above.
- At least three (3) hours of the fifteen must be taken in a course numbered 3000 or above.
- A minimum of nine (9) hours must be taken in residence.
- A minimum GPA of 2.0 is required in all courses in the minor.
- Only one course from Classics may count towards the minor.
- Students may specialize in either medieval or Renaissance, but must take at least one course in both.
- Students and their advisors may petition the Chair of MARS (Dr. Emma Lipton, English) to have coursework with relevant content counted. Students may count courses toward the minor that are also used to fulfill general education requirements in the College of Arts and Science. Many upper-level courses in European languages and literatures may be used to fulfill the minor requirements.

Departments keep a list of courses approved for the MARS minor on file for advisors. For a full description of the minor, including a list of all courses currently counted toward the minor, go to Medieval and Renaissance Studies (http://medren.missouri.edu/undergrad.shtml).

Minor in Middle East Studies

The minor in Middle East Studies is designed for those students who want to explore the art, history, politics, cultures, and religions of the Middle East in greater detail. For those looking beyond graduation, the minor provides a solid inter-disciplinary foundation and credential with which to pursue graduate work or careers in fields related to the Middle East. Students have the opportunity to take a variety of courses from eleven different departments in the College of Arts and Science. Furthermore, the minor allows students engaged in different disciplines and on different career tracks to engage with and learn from each other and a broad range of faculty. The courses that count toward the minor emphasize and promote critical historical thinking by providing students with the conceptual and analytical tools to think about the often overlooked religious, ethnic, and political diversity of the peoples of the Middle East, past and present.

Minor Requirements

The minor requires a minimum of fifteen (15) credit hours from at least three (3) different departments within the College. Students in the minor must maintain a 2.0 GPA for courses in the minor.

At least six (6) of the fifteen (15) required credits must be taken at the level of 2000 or above.

At least nine (9) hours must be completed at MU.

There are no prerequisites.

Advising and Support

For information, questions, and advising for the minor, contact:

Nathan Hofer (http://religiousstudies.missouri.edu/people/faculty/hofern.shtml), Assistant Professor of Religious Studies and Director of the Minor in Middle East Studies

221G Arts and Science Building

hofern@missouri.edu
**Minor in Military Science**

With departmental approval, students may earn a minor in military science and leadership by successfully completing the following courses:

- MIL_SC 3230 Leadership and Problem Solving 3
- MIL_SC 3240 Leadership and Ethics 3
- MIL_SC 3260 Officership 3
- MIL_SC 3250W Leadership and Management 3

Additionally, students must complete an approved course in American military history.

**Minor in Peace Studies**

A minor in peace studies requires a minimum of 15 credits. PEA_ST 1050 Introduction to Peace Studies is required, plus 12 additional credits. Online writing intensive versions of 1050 are available. It is recommended that the credits be distributed among the five areas on the following list:

**Area 1: International and Civil War and Peace**

- PEA_ST 2200 Nuclear Weapons: Environmental, Health and Social Effects (Section 2 is writing intensive, section 1 not) 3
- PEA_ST 2286 Technological Futures, National Security, and Civil Liberties 3
- PEA_ST 2410 Philosophies of War and Peace 3
- PEA_ST 2550 Human Rights, Law, War and Peace 3
- PEA_ST 3230H Terrorism and Conflict Resolution - Honors 3
- PEA_ST 3610 Ireland, 1100s to 1850 3
- PEA_ST 3611 Ireland, 1850-1923 3
- PEA_ST 3612 Ireland, 1920-Present 3
- PEA_ST 4331 Nonproliferation Issues for Weapons of Mass Destruction 3

**Area 2: Global Social and Environmental Justice**

- PEA_ST 1120 Population and Ecology 3
- PEA_ST 2000 Exploration in Social and Economic Justice 3
- PEA_ST 2284 Critical Dialogues: Global Environmental Policy Conflicts 3
- PEA_ST 2285 Large Corporations, Economic Crisis, Social Responsibility 3
- PEA_ST 3401 Global Public Health and Health Care Systems 3
- PEA_ST 3600 Criminology 3
- PEA_ST 3870 Social Revolution in Latin America 3
- PEA_ST 4230 Women, Development and Globalization 3
- PEA_ST 4520 Political Sociology 3

**Area 3: Nonviolent Social Movements, Process, and Change**

- PEA_ST 2182 Critical Dialogues: Nonviolence in Peace/Democracy Movements (Section 2 is writing intensive, section 1 not) 3
- PEA_ST 3520 Collective Behavior 3
- PEA_ST 3521 Group Decision Making Processes 3
- PEA_ST 3522 New Media, Conflict and Control 3
- PEA_ST 4341 Building Communities from the Grassroots 3

**Area 4: Cultures, Intellectuals, And Global Migration**

- PEA_ST 2255 Youth, Islam, and Global Cultures 3

**Minor in Romance Literatures in Translation**

To obtain a minor in Romance Literatures in Translation, students must complete the basic language sequence shown below.

- SPAN 1100 Elementary Spanish I 12
  - & SPAN 1200 and Elementary Spanish II 12
  - & SPAN 2100 and Elementary Spanish III 12
  - or FRENCH 1100 and Elementary French I 12
  - & FRENCH 1200 and Elementary French II 12
  - & FRENCH 2100 and Elementary French III 12
- ITAL 1100 Elementary Italian I 8-12
  - & ITAL 1200 and Elementary Italian II 8-12
  - or PORT 1100 and Elementary Portuguese I 8-12
  - & PORT 1200 and Elementary Portuguese II 8-12

Students must also complete three 2000-level literature-in-translation courses and two 3000-level literature-in-translation courses (one of which must be either ITAL 3310 or PORT 3001) chosen from the list below:

- FRENCH 2320 French Literature and Thought in English Translation I 3
- FRENCH 2330 French Literature in Translation II 3
- FRENCH 2350 New World Francophone Literature in Translation 3
- FRENCH 2370 French Women Writers (in translation) 3
- ITAL 2850 Italian Cinema 3
- ITAL 3310 20th Century Italian Fiction in Translation 3
- ITAL 3820 Films of Federico Fellini 3
- PORT 3001/3005 Topics in Portuguese-General 1-3
- SPAN 2320 Literature of Spanish Civil War 3
- SPAN 2340 Hispanic Minority Literature 3

Additionally, course work must be completed with a grade in the C range or higher in each of the required courses and students must maintain a 2.0 GPA in the minor.
Minor in South Asian Studies

The South Asian Studies minor is a course of study that allows a student to acquire specialized knowledge about South Asia in a variety of disciplines, e.g., anthropology, history, philosophy, religious studies, political science, sociology, women and gender studies and language studies.

To obtain a minor in South Asian Studies, a student must:

- Complete 15 hours of coursework relating to South Asia. The courses approved for the South Asian Studies minor are listed at http://southasia.missouri.edu/minor.html.
- At least nine of the 15 hours must be at the 2000 level or above.
- A student is required to take courses in two or more departments.
- A minimum of six hours must be taken in residence.
- A grade of C or better is required for all courses counting toward the South Asian Studies minor.

A minor in South Asian studies can easily be combined with a major in anthropology, philosophy, history, religious studies, political science, geography, journalism, sociology, women & gender studies, etc.

Minor in Spanish

Students may obtain a Spanish minor by completing a minimum of 15 credits beyond SPAN 2100, of which at least 6 credits must be in literature. Courses taught in English and cross-listed courses taught in English do not count toward the minor. The courses listed below are the most likely choice.

<table>
<thead>
<tr>
<th>Course Code</th>

<td>SPAN 3420</td>
<td>Introduction to Hispanic Literature I</td>
<td>3</td>
</tr>
<tr>
<td>SPAN 3430</td>
<td>Introduction to Hispanic Literature II</td>
<td>3</td>
</tr>
</tbody>
</table>

Students beginning at a level higher than SPAN 2160 due to placement testing must still complete the minimum of 15 additional credits to receive the minor. A minimum of 9 credits, including 3 in literature, must be taken in residence.

Additionally, course work must be completed with a grade in the C range or higher in each of the required courses and students must maintain a 2.0 GPA in the minor.

Minor in Strategic Studies

politicalscience@missouri.edu

The minor in Strategic Studies is designed for those students who wish to acquire the knowledge and analytical skills that are critical for working in a career field related to national security. The minor is appropriate for students of almost any major, particularly political science, economics, history, geography, journalism, and engineering. The program is also well suited for students in Army, Navy, or Air Force ROTC, providing a solid background for officers encountering the changing strategic environment of the twenty-first century.

The program affords students a unique opportunity to gain a broad perspective on security issues, allowing focus on areas where they may have additional educational requirements not offered in their chosen major field of study. Students may work for the defense department, national intelligence agencies, or other federal agencies, or any number of jobs related to security in the private and non-profit sectors.

Fifteen (15) credits are required for the minor in strategic studies, selected from the list below. Of these, six hours must be from political science. Students in the minor must maintain a B average (3.0 GPA) for courses in the minor.

Minor in Women's and Gender Studies

A Women's and Gender Studies minor can be a component of any undergraduate degree granted at MU.

The curriculum includes women's and gender studies core courses as well as cross-listed courses from several departments throughout the University. These courses assume that knowledge cannot be separated from the study of women and gender, and that gender and sexuality are fundamental categories of analysis in all disciplines. The department stresses interdisciplinary scholarship and teaching that are broadly comparative and range across multiple cultures, national and transnational contexts, and historical periods. Its faculty employ a broad range of theoretical approaches and methods.

When students graduate with a Women's and Gender Studies minor they should be able to:

- Apply cross-cultural and global awareness to “big questions” about women and gender
• Have a comprehensive grasp of intersectionality and matrices of domination
• Think critically: i.e. consider an issue from multiple perspectives; locate, evaluate and interpret diverse sources, including statistics; engage in critical self-reflection
• Construct arguments with evidence obtained from research
• Work collaboratively
• Recognize sexist/racist writing and thinking
• Connect knowledge and experience, theory and activism, Women’s and Gender Studies materials with other courses
• Communicate effectively in writing and speech
• Apply knowledge for social transformation, citizenship
• Use gender (and other identity categories) as a category/ies for analysis

A student minoring in Women’s and Gender Studies is required to fulfill all requirements for their major degree program, and in addition complete at least 15 credits of Women’s and Gender Studies courses, including:

- WGST 1120 Introduction to Women’s and Gender Studies 3
- WGST 2010 Gender and Identity: Understanding Intersectionality 3
- Additional WGST credits numbered 2000-level or above 6
- Additional WGST elective credits 3

Total Credits 13

Graduate Certificate in Geospatial Intelligence

The page for this program is still under construction and should be available in future editions of the catalog. For further information concerning this degree, contact the School or College offering this degree.

For admission requirements, refer to the Graduate School’s website for the minimum qualifications for the degree program (http://gradschool.missouri.edu/academics/programs/geospatial-intelligence-certificate) and the Graduate School (http://gradschool.missouri.edu/admissions/eligibility/minimum-requirements.php). Because requirements vary, you must refer to a degree program’s graduate admission page to learn about specific admission criteria, application deadlines, eligibility, and application process. Before official admissions to the University of Missouri, your application materials will be reviewed by both the Graduate School and the degree program to which you’ve applied.

Graduate Certificate in Jazz Studies

The Graduate Certificate in Jazz Studies is a one-year program that provides opportunities for continued development of skills in jazz-specific areas, such as improvisation, pedagogy, and arranging. The certificate is available to degree-seeking and non-degree seeking students alike, non-music as well as music majors, and is designed as an intensive introduction to jazz performance. The program will deepen the student’s preparation for a career in jazz performance or prepare the student for further study in jazz.

Federal Gainful Employment disclosure information for this Graduate Certificate is available at http://gradschool.missouri.edu/academics/programs/jazz-studies-certificate/jazz-studies-ge/Gedt.html

Prerequisites:
Enterance into the Graduate Certificate program requires a live audition (see below), though video-recorded auditions will be acceptable in rare cases, by permission of the Director of Jazz Studies. Entrance into the program also requires completion of a Bachelor of Music degree (or demonstrated equivalent), with a GPA of 3.0 in the last 60 credit hours. In the event that a candidate does not meet the required prerequisites for a specific curriculum, appropriate course(s) may be added as additional requirements.

Graduate Certificate in Lifespan Development

Dr. Nicole Campione-Barr, Coordinator
Lifespan Development Graduate Certificate Program
204D McAlester Hall
email: campionebarrn@missouri.edu
phone: (573) 884-1681

About the Certificate (Educational Objective)

Developmental psychology and lifespan developmental studies include the scientific study of psychological changes that occur over the life course. Therefore, developmental studies are inherently interested in many of the same questions of other areas of psychology, education, family studies, etc., but by investigating the ways in which particular psychological processes change and develop from infancy to adolescence, and through to adulthood. The purpose of the graduate certificate in lifespan development is to provide students in other areas of psychological study, or human behavior broadly defined, a better understanding of the ways in which psychological functions change with age, as well as the challenges and special considerations that are a part of research with children and adolescents and how they may be different from those of working with adults.
Plan of Study

The requirements for acceptance and completion of work for the certificate are as follows:

1. The student must be enrolled and in good standing in a doctoral-level program at MU (available to degree-seeking students only).
2. A request to be included in the certificate program must be made in advance of final completion of courses to Nicole Campione-Barr, Ph.D. This can be done via e-mail or hard copy, however, the request must also be approved by the student’s major advisor.
3. A formal plan of study must be submitted to the Office of Graduate Studies no later than the semester prior to graduation. This must be signed by the certificate coordinator (Nicole Campione-Barr) and the director of graduate studies of the student’s major department.
4. Students must complete a minimum of 15 credit hours to be awarded the certificate, following the below guidelines:

**Core Courses: students are required to take 3 core courses**

<table>

</tbody>
</table>

**Electives** 6

Options within the Department of Psychological Sciences, and Human Development and Family Studies are listed below. Other pre-approved options are listed and include courses in Communication Sciences and Disorders, Educational School and Counseling Psychology, Social Work, and Special Education. Courses other than those listed may be approved, but should be approved prior to registration.

- Developmental psychology such as PSYCH 7420
- PSYCH 9440 Studies in Developmental Psychology
- PSYCH 8050 Research in Psychology - Non-Thesis
- PSYCH 9050 Research in Psychology - Non-Dissertation
- H_D_FS 8012 Family Dynamics and Intervention
- H_D_FS 8110 Developmental Perspectives on Health and Illness
- H_D_FS 8220 Family Theories
- H_D_FS 8300 Advanced Seminar on Multicultural Families
- H_D_FS 8450 Adolescence and Emerging Adulthood
- H_D_FS 8460 Life Course Perspective
- H_D_FS 8470 Identity Development
- H_D_FS 8610 Remarriage & Stepfamilies: Development, Dynamics, & Intervention
- H_D_FS 8630 Gendered Relations in Families
- H_D_FS 8640 Family Interaction
- H_D_FS 8710 Children, Families and Public Policy
- H_D_FS 8770 Poverty
- H_D_FS 8085 Problems in Human Development and Family Science
- H_D_FS 8090 Research in Human Development and Family Science
- ESC_Ps 7160 Developmental Aspects of Human Learning
- ESC_Ps 8015 Child and Adolescent Development
- ESC_Ps 8580 Social and Cultural Identity Development
- ESC_Ps 8135 Foundations of Career Psychology
- C_S_D 7810 Psycholinguistics

When needed, advising will be provided to students by lifespan development certificate coordinator (Nicole Campione-Barr), in conjunction with the student’s major advisor.

**Need for Certificate Program**

For students within the child clinical psychology Ph.D. program of study there is a need for some students to gain greater exposure to developmental studies. Currently, the department of Psychological Sciences offers a dual child clinical and developmental psychology degree program. This program is extremely rigorous, however, and students and faculty within the Department of Psychological Sciences have identified a need for more in-depth study in developmental science without the commitment of a second degree. In creating the certificate program, however, it was determined that graduate students in other related fields may also wish to pursue further study in lifespan development. In particular, students in education, social work, communication science and disorders, and additional areas within psychology may benefit from greater understanding of developmental processes which could be gained through the required and elective course work outlined in this certificate program.

**Impact on Current Programs of Study**

The impact to current programs of study is expected to be relatively minimal other than the inclusion of potentially a few more students enrolled in the aforementioned classes.

**Advisory Committee Members**

Debi Bell, Psychological Sciences
Nicole Campione-Barr, Psychological Sciences
Marilyn Coleman, Human Development & Family Studies
Larry Ganong, Human Development & Family Studies
Jean Ispa, Human Development & Family Studies
Amanda Rose, Psychological Sciences

**Participating/Affiliated Faculty - Various faculty from the following departments:**

Psychological Sciences
Human Development and Family Studies
Communication Science and Disorders
Educational, School, and Counseling Psychology
Special Education
Social Work

Federal Gainful Employment disclosure information for this Graduate Certificate is available at [http://gradschool.missouri.edu/academics/programs/lifespan-development-graduate-certificate/lifespan-dev-ge/Gedt.html](http://gradschool.missouri.edu/academics/programs/lifespan-development-graduate-certificate/lifespan-dev-ge/Gedt.html)
Graduate Certificate in Music Entrepreneurship

The Graduate Music Entrepreneurship Certificate offers MU graduate students, as well as post-baccalaureate students in the MU community, an officially recognized core of courses dealing with the development, business, and publicity aspects of a musical career. In today's fine arts economy, an increasingly viable and popular model is the "portfolio career," in which a person incorporates multiple roles (e.g., performer, teacher, advocate, manager, publicist, composer/arranger, etc.) rather than pursuing one narrowly defined career path. Contextualizing the vision, skills, and networking activities needed to achieve a viable arts career, while offering a combination of theoretical and practical career preparation for Mizzou students, is the overarching aim of the Certificate.

Availability: Aimed primarily at degree-seeking students in music and music education, this certificate would be also be available to students as an add-on to a degree or as a stand-alone certificate. All students who wish to declare the certificate must receive approval from our certificate director, Prof. Jonathan Kuuskoski (kuuskoskij@missouri.edu).

Graduate Certificate in Science Outreach

The educational objectives of the Certificate in Science Outreach Program are to teach students how to integrate research and outreach, and how to facilitate a dialogue with the lay public. Course work will concentrate on increasing the ability of students to communicate science to broad audiences of different ages and different levels of education. Practice and application of outreach will develop the broader impacts component of the research, and will emphasize actual interaction with audiences, to promote understanding and appreciation of science, and support for scientific research.

Graduate Minor in Black Studies

Contact Information

Department of Black Studies
313 Gentry Hall
(573) 882-6229
http://blackstudies.missouri.edu/

About the Department of Black Studies

The central mission of Black Studies is to prepare students to critically understand, conduct research, and interpret the complex histories, societies, and cultures of people of African descent in the United States, Africa and the Diaspora.

The Department’s interdisciplinary design encourages specialization within the University of Missouri’s broad liberal arts curriculum. As a result, students and faculty may conduct research that develops new or builds upon existing concepts, theories, and approaches to the study of the evolving experiences and contributions of the African Diaspora. In so doing, Black Studies prepares students to participate competently in diverse and competitive global societies where they may contribute viable practical solutions to critical challenges on multiple levels.

Affiliates of the Black Studies

The Department of Black Studies encourages the use of diverse curricular offerings throughout many different departments. Faculty members and affiliates of the department design new ways to incorporate topics of Black Studies in their courses. Departments affiliating with Black Studies include art, educational leadership and policy analysis, English, history, human development and family studies, journalism, law, music, political science, religious studies, romance languages, sociology, theatre, and women and gender studies.

Resources

The Walter Daniel Resource Center is supported by an endowment set up by the estate of the late Dr. Walter C. Daniel. Dr. Daniel came to the University of Missouri in 1973 as its first vice chancellor. He was instrumental in helping to reorganize the University’s administration. However, his success as an administrator never overshadowed his love of teaching and working with students. Located in 328 Gentry Hall, the books, periodicals, reference materials and media resources in this center will supplement and complement existing library resources on the histories, cultures, and societies of people of African descent in Africa, the U.S., and throughout the Diaspora available to the University community. Additionally, the center houses Dr. Daniel’s extensive private library of African American literature, as well as an extensive collection of primary and secondary sources including numerous periodicals and scholarly journals. The library also offers a small video collection which can be viewed on site. At the present time the library is a read-only research facility.

Plan of Study

An individual program of specialization in Black Studies may be arranged within the framework of a conventional graduate degree in any one of several fields. The options within a regular degree program are employed to include maximum exposure to courses emphasizing the diverse
Graduate Minor in Medieval and Renaissance Studies

Considering a graduate MARS minor? While most students still choose to study in a traditional disciplinary framework, a MARS minor allows students to expand the breadth of their studies and research by taking coursework in over 11 different departments on campus. So much of the research on the Middle Ages and the Renaissance is interdisciplinary in nature, and the MARS minor helps students gain expertise in areas outside of their home discipline while simultaneously offering a quick and comprehensive way for prospective employers to understand their specialization and background.

Requirements: Courses that may be applied toward this minor are taught by faculty members from the departments of Art History and Archaeology, Classical Studies, English, Germanic and Russian Studies, History, Music, Philosophy, Religious Studies, and Romance Languages and Literatures. Under certain circumstances, a minor in Medieval or Renaissance studies may also be arranged for MA programs. A student must be accepted for advisement by the major department. Then, in consultation with the major advisor, who must be a specialist in the medieval or Renaissance period, an interdisciplinary curriculum for the minor is prepared and submitted to the Medieval and Renaissance Studies Committee for approval.

- A doctoral candidate in one of these departments offering a PhD may elect a minor concentration in interdisciplinary Medieval or Renaissance Studies by taking at least three appropriate courses outside the department, as well as all appropriate ones within it. Thus one earns, for example, a PhD in Art History and Archaeology with specialization in Medieval Studies, or a PhD in History with specialization in Renaissance Studies.
- At least nine (9) hours in relevant 7000 or 8000 level courses outside the major department are required to constitute the minor.
- Because the program places considerable emphasis on foreign languages, all doctoral candidates must study at least two languages.

Perks:
- The Newberry Library Center for Renaissance Studies consortium
- MU graduate Association for Medieval and Renaissance studies
- Renaissance reading group
- A listserv announcing campus-related activities for MARS members

For more information contact:
Dr. Emma Lipton
Chair of MARS
liptone@missouri.edu

Graduate Minor in Psychological Statistics and Methods

The Minor in Psychological Statistics and Methods is a joint program between the Department of Psychological Sciences and the Department of Statistics.

A total of seven courses at the 7000 level or above in statistics and methods is required. The course options are dependent on the doctoral program in which the student is admitted. More detailed specification of the courses required in the plan of study may be stipulated by the student's major department and the student should consult with them in this regard.

Doctoral students in the Department of Psychological Sciences or Statistics must take at least two of the seven required courses outside their major department.

A grade of B or better is required in the following courses:

- PSYCH 9710 Multivariate Statistics in Psychology 3
- PSYCH 9720 Latent Variable Models in Statistical Analysis 3
- PSYCH 9715 Multilevel Modeling 3

Quantitative Psychology - one of the following is required:
Two approved courses at the 7000 level or above in the Department of Statistics, Mathematics, or in other departments provided those courses are primarily statistics-oriented or methods-oriented. *

* The following courses cannot be used to fulfill minor requirements:
STAT 7050, STAT 7510, STAT 7530, STAT 7560, STAT 4970, STAT 7020, STAT 7070, STAT 8220, STAT 8370.

Doctoral students in other departments must take five courses within the Department of Psychological Sciences or the Department of Statistics, at least two of which are in statistics and two of which are in psychology.

Questions regarding the minor in Psychological Statistics and Methods should be directed to:
Phil Woods
Training Area Director
phillipkwood@gmail.com

Graduate Minor in Women's and Gender Studies

Contact Information:
Joan Hermsen, Chair
Mary Jo Neitz, Director of Graduate Studies
325 Strickland Hall
(573) 882-2703

Eligibility for Minor
The Women's and Gender Studies Graduate Minor is available to all students pursuing a graduate degree at MU.

Plan of Study
15 credit hours will be chosen to complement the student's main area of graduate study. Students may take up to six hours in their home department. Students will gain expertise in the methodologies and theories in Women's and Gender Studies.

The minor requires the following six credit hours:

<table>

The Robert J. Trulaske Sr., College of Business, established in 1914, educates students for professional opportunities and responsibilities in the private and public sectors. The college includes the School of Accountancy (the first established at a major public university) and the departments of Finance, Management and Marketing. The college offers an undergraduate degree in business administration, a combined bachelor’s and master’s degree program in accountancy, master’s degrees in business administration, and doctoral degrees in accountancy and business.

Students’ educational experiences are enhanced through the scholarly activities of the faculty, who conduct research on significant, timely issues. Students in the college are exposed to relevant theories and concepts applied to real-world operations of private and public enterprises. Students gain added practical insights through internships, field projects, guest speakers, and executives-in-residence. The college’s agencies provide information, research, continuing education, and managerial assistance to practitioners and organizations throughout Missouri and in other states.

The Trulaske College of Business accepts CLEP subject examinations, departmental exams, and Advanced Placement (College Board) credit. More information may be obtained from academic advisors in the Trulaske College of Business Undergraduate Advising Office and the Credit by Examination section in the beginning of this catalog.

Department of Finance

Through the study of finance, students learn to independently analyze security markets, understand basic valuation techniques and use their knowledge to make investment decisions. In addition, students learn basic theoretical concepts in corporate finance and their application to corporate financing and investment decisions. Coursework focuses on the areas of investments, portfolio management, real estate appraisal, financial institutions and corporate finance.

Department of Management

Management is defined by the Academy of Management as including “all processes, structures, and behaviors that are related to the work of organizations, as well as the dynamics of industries, economies, cultures, and other environmental forces that affect organizations and their employees.” Management coursework at MU is quite diverse, covering the areas of human resource management, human behavior in organizations, organization theory, strategic management, entrepreneurship, information systems, e-commerce, operations management, and business law.

Department of Marketing

Marketing focuses on creating and managing customers. It deals with the strategies, tactics, and business processes involved in researching markets, deciding which markets and segments to pursue, identifying what unique value to provide, and then assembling the products, services, people and partner firms needed to build, communicate and deliver that value.

Exploratory Course

Students wanting to explore business administration as a major should take BUS_AD 1500.

Double Emphasis

Students may have a dual emphasis of Finance and Real Estate, or may add on an economics emphasis to any other BSBA emphasis program.

Undergraduate

• Admissions (p. 325)
• Degree core Requirements (p. 326)
• Academic Regulations (p. 326)
• Enrolling in Other Institutions (p. 327)
• Advising (p. 327)
• Business Career Services (p. 327)
• Professional Development Programs (p. 326)

Admissions

Freshmen

Freshman applicants to the Robert J. Trulaske Sr., College of Business (students applying to MU from high school) will be admitted to the lower division if they meet campus admission requirements. Admission to the lower division does not guarantee admission to the BSBA degree program and emphasis areas or the Accountancy program. Admission to an upper-division emphasis area is based on the UM cumulative grade of record (minimum 2.6 GPA), successful completion of the business and professional core courses, and completion of the Professional Development Program requirements.

Transfer Students

Students in good standing in another school or college at MU must submit a Transfer of Division form to the Trulaske College of Business. Such students may be admitted to the lower division if they can complete degree-program admission requirements by the completion of 60 credits for Accountancy or Business students.

External transfer students who request admission to the Trulaske College of Business will be admitted to the lower division if they can complete degree-program admission requirements by the completion of 60 credits. Students are encouraged to have their transcripts evaluated by an academic advisor in the Trulaske College of Business prior to their enrollment at MU.

Coursework completed with a grade of D- or better at an accredited two- or four-year institution will be accepted if the courses are appropriate...
As a graduation requirement, the program is comprised of the following:

- Professional careers.

To develop core competencies and values necessary for success in their major, all BSBA and Accountancy students are required to meet the requirements of the Professional Development Program (PDP). The goal of the PDP is to offer opportunities to all BSBA and Accountancy students to develop core competencies and values necessary for success in their professional careers.

As a graduation requirement, the program is comprised of the following:

- Completion of designated professional activities to acquire points for admission to the upper division. Once admitted to the upper division, students will continue to earn points to meet the graduation requirements. Specific activities may be required.
- Completion of BUS_AD 3500 the semester immediately following admission to the upper division. This course is a pre-requisite to the completion of the required BUS_AD 4500. These two courses may not be taken out of sequence without prior approval. BUS_AD 3500 must be completed in residence.
- Completion of BUS_AD 4500 once admitted to the upper division. This will include completion of a professional level internship/practicum experience. Practicums can be completed over a summer or semester-long period of time (intersession assignments will not meet the PDP requirement). Students must seek final approval of their internship/practicum experience from the PDP Office before beginning the course. BUS_AD 4500 must be completed in residence.

If a student fails to meet the requirements of the PDP at either the lower or upper division, the student will not be allowed to continue in or graduate from the Trulaske College of Business.

Professional Development Graduation Requirement

- The student must earn a minimum of 70 PDP points (maximum of 100) at the lower division for official admittance to the upper division. Once admitted, students must earn a total of 200 PDP points to meet the requirement. Specific activities and workshops may be required.
- The student must earn a C- (or higher) in BUS_AD 3500 to satisfy the requirement.
- BUS_AD 4500 is graded as Satisfactory/Unsatisfactory. Students must complete practicum course to a satisfactory level of 70% or greater to receive a passing grade for the course.

Capstone

Students must complete MANGMT 4970 Strategic Management to meet the capstone requirement. Students must earn a C- or better to earn credit for this course in order to graduate.

Required Work in Residence

Students must complete 30 of the last 36 hours of courses in residence at MU, enrolled in the Trulaske College of Business.

Latin Honors

Graduation with Latin Honors is determined by grade point average from either the last 50 undergraduate credits in the UM system or overall UM System undergraduate credits, whichever is higher. Grade point average requirements for Latin Honors are 3.5 for cum laude; 3.7 for magna cum laude and 3.9 for summa cum laude.

Academic Assessment

Students are required to complete a college-wide assessment exam in addition to a University assessment exam during their capstone course.

Academic Regulations

Credits by Examination

The Trulaske College of Business accepts CLEP subject examinations, departmental exams and advanced placement (College Board) credit.
More information may be obtained from academic advisors in the Trulaske College of Business and the Credit by Examinations section (p. 760).

**Maximum Credits Enrolled**

A student may register for more than 18 credits for a fall or spring term, with permission of their academic advisor in the Trulaske College of Business.

**Probation, Suspension and Dismissal**

**Grade Point Average Requirements**

Minimum GPAs must be maintained in the following categories to remain in good standing with the Trulaske College of Business:

- Students in the Upper Division for Business must maintain a 2.50 GPA in all accounting and business courses in order to graduate. Students in the Upper Division Accountancy, must maintain a 3.0 GPA in order to graduate.
- All students must earn a 2.00 term and cumulative GPA on courses completed in the UM System.

**Probation**

See the Academic Standing (p. 760) section of this catalog.

- A student in good academic standing whose term GPA subsequently falls below 2.0 but is 1.0 or above is placed on academic probation.
- A student whose cumulative GPA for courses offered by the Trulaske College of Business is below a 2.0 is placed on probation. (Courses offered by the college are those with the curricular designations of ACCTCY, BUS AD, ECONOM, FINANC, MANGMT and MRKTNG.) This only applies to students admitted to an upper division BSBA emphasis.
- A student placed on academic probation must establish a 2.0 term GPA, a 2.0 UM System cumulative GPA, and a 2.0 MU Trulaske College of Business cumulative GPA within two successive terms of enrollment; otherwise, the student is ineligible to enroll.
- Students placed on probation may become ineligible to enroll in the Trulaske College of Business at the end of the first term of probation if they become subject to one or more of the first three dismissal provisions below.

**Dismissal**

See University requirements outlined in the Academic Standing (p. 760) section of this catalog.

Students become ineligible (dismissed) to enroll in the Trulaske College of Business if one or more of the following occurs:

- The fall or spring term GPA falls below 1.0.
- For a student who has been admitted to upper division, the cumulative GPA for courses offered by the Trulaske College of Business is below a 2.0 GPA. This includes all MU accountancy and business courses regardless of whether the courses are completed before or after admission to a BSBA emphasis area.
- The student fails to remove probationary status at the completion of the second successive term on probation (summer terms excluded).

A student who has been ineligible to enroll for a period of one year may be readmitted only on the approval of the Director of Undergraduate Advising. As a condition of readmission, the director may set forth stipulations about minimum standards of academic work that must be maintained by the student. After readmission, if the student again becomes ineligible to enroll, his or her ineligibility is considered permanent.

**Satisfactory/Unsatisfactory Grades**

The S/U grading system is limited to unrestricted elective courses or courses only offered with a S/U grade.

**Enrolling in Other Institutions**

The Trulaske College of Business has no restrictions on a student enrolling in another institution simultaneously as long as university residency requirements are met.

A student may take no more than six credit hours of transfer business coursework at the 3000-level or higher.

**Advising**

Undergraduate Advising Office
111 Cornell Hall
(573) 882-7073
umcbusadvisingdesk@missouri.edu

Students admitted to a degree program in the college are assigned an academic advisor. The academic advisor works with students in determining coursework needed to complete a degree. In addition, students are assigned a faculty advisor in their emphasis area who can assist with career planning and selection of professional electives and emphasis support courses. Students are responsible for determining an appropriate schedule of courses each semester and are encouraged to meet with their academic advisor for assistance.

**Business Career Services**

Business Career Services (BCS) is a valuable resource for all levels of TCoB students. BCS provides students individual career coaching, guidance and advice in areas such as résumé and cover letter construction/revision, mock interviews, interview preparation, salary negotiations, and much more. Business Career Services partners with numerous companies serving as a liaison to bridge employer with employee. BCS-sponsored events such as Corporate Visit Days and Emphasis Panels (Accountancy, Finance & Banking, Management, Marketing, Real Estate, Sales, Entrepreneurial, Consulting, Government, Health Care, and Human Resources) provide students with firsthand knowledge of what is required to be competitive in the job market upon graduation from the Trulaske College of Business. All students are encouraged to register with BCS and begin utilizing these services as early as freshman year. BCS hosts three career fairs annually.

**Professional Development Program**

The mission of the Professional Development Program is to provide every BSBA and lower division Accounting student with substantive professional development experiences during their degree program. Professional Development refers to activities, both inside and outside of the classroom, that provide students with the opportunity to develop and practice skills that are needed to perform successfully in professional roles after graduation. Students who graduate with a BSBA degree from the Robert J. Trulaske Sr., College of Business will have content knowledge and advanced professional competencies that are necessary for success in the business world.
Graduate

Founded in 1914, the Robert J. Trulaske, Sr. College of Business enrolls about 350 graduate students as well as 4,000 undergraduates. The primary mission of the college is to prepare students to succeed in the world of business and to advance the body of knowledge about the world of business. The college has four academic units – Accountancy, Finance, Management, and Marketing – with 64 full-time faculty members.

The Trulaske College offers PhD degrees in both accountancy and business administration, an MBA degree, a 150-hour program that confers both undergraduate and master’s degrees in accountancy, and an undergraduate degree in business administration. Over time, the college’s degree programs and faculty research productivity have earned national acclaim.

The college takes great pride in its graduates. More than 31,000 alumni are contributing their expertise to the public and private sectors in every state in the U.S. and in a host of foreign countries. The Trulaske College’s graduate-level degree programs, dual degrees, and certificates are described below.

Note: Prospective graduate students must apply to both the degree program of interest and to the MU Office of Graduate Studies. In most cases, the entire application process may be completed online. Find admission and application details by selecting the degree program of interest in the left navigation column.

The accountancy program at the University of Missouri has long been nationally recognized for its excellence. MU accountancy faculty have published leading textbooks and research articles and have served at high levels in numerous professional accounting associations. The school offers a combined BSAcc and MAcc degrees.

Students wanting to explore accountancy as a major should take ACCTCY 2036.

Admissions

Accountancy prepares students for the competitive field of accounting with a combination of classroom study, practical experience, and student organizations, all in a degree that is nationally recognized for its excellence. The bachelor of science and master of accountancy degree programs are merged into an integrated 150-hour curriculum to be entered into as a junior. A limited number of students may also be accepted into the MAcc-only program.

Admission decisions will be made at the end of the spring semester for fall admissions only. Meeting the minimum requirements does not guarantee admission. Admission cutoffs will be revised each year in order to control accountancy undergraduate enrollment at a limit that can be served with current authorized faculty staffing and still maintain program quality and meet accreditation guidelines. Students meeting the minimum requirements will be selected for admission based on their UM cumulative grade point average until the enrollment for that year is reached. A limited number of students may be selected by considering grades and other criteria such as demonstrated commitment, experience, leadership and other exceptional circumstances.

Students not admitted to the 150 credit hour degree program in the School of Accountancy may meet Trulaske College of Business admission requirements and transfer into a business administration emphasis area, depending on available space.

A student may take no more than six credit hours of 3000 or higher business courses through non-MU courses off campus, excluding ACCTCY 4940 and ACCTCY 7940. Study abroad courses are also excluded from this requirement.

Faculty

Associate Professor K. W. Shaw**
Associate Teaching Professor K. Hockman*, C. Prestigiacomo*
Assistant Teaching Professor E. Bartley, K. Gingrich, R. Wilson*

* Graduate Faculty Member - membership is required to teach graduate-level courses, chair master's thesis committees, and serve on doctoral examination and dissertation committees.

** Doctoral Faculty Member - membership is required to chair doctoral examination or dissertation committees. Graduate faculty membership is a prerequisite for Doctoral faculty membership.

Undergraduate

• BSAcc in Accountancy (p. 329)

Undergraduate Level

Information on students who are admitted to MU and who indicate an interest in becoming accountancy or business majors is subsequently forwarded to the Undergraduate Programs Office of the College of Business (111 Cornell Hall, 573-882-7073). Qualified applicants with less than 54 semester hours of college courses completed will be admitted to the lower (pre-professional) level of the Trulaske College of Business. Applicants with more than 54 semester hours of college credit may be admitted to a specific upper (professional) level college of business program, e.g., the 150-Hour Accountancy Program, if they meet the program’s admission requirements. Students who transfer into the Trulaske College of Business’ upper or lower levels from another Mizzou school or college must submit a Transfer of Division form in order to be considered for admission.
The combined BSAcc/MAcc (150-hour) program is open to qualified undergraduate students at Mizzou as well as qualified undergraduates who transfer to MU from other colleges and universities. Interested students not already admitted to Mizzou should visit the Office of Admissions website (http://admissions.missouri.edu/apply). Undergraduate students are also responsible for completing all Trulaske College of Business requirements. These requirements can be found here (p. 326).

**Admission to the Joint BSAcc and MAcc Degree Program**

In the School of Accountancy, the bachelor’s and master’s degree programs are merged into a 150-hour program. Students should be admitted to the BSAcc/MAcc degree program by the time they have completed 60 hours. Refer to the list of Pre-Accountancy (p. 329) courses in the BSAcc (p. 329) information which are required for admission.

Students must also complete the Professional Development Program (PDP) point requirement for admission to the School of Accountancy and for graduation. Students must earn a minimum of 70 PDP points (maximum of 100) at the lower division for official admittance to the upper division. Once admitted, students must earn a total of 200 PDP points for graduation.

**Academic Standing - School of Accountancy**

Accountancy students are in good academic standing if they maintain a cumulative UM grade point average of 3.0 or higher for all coursework subsequent to admission to the 150-hour Accountancy program. Failure to meet this requirement will result in a probationary semester, and if not rectified, dismissal from the program. Accountancy students are subject to the probation and dismissal policies (p. 325) set by the Trulaske College of Business. An undergraduate who has been ineligible to enroll for a period of one year may be readmitted only on the approval of the director of the 150-hour program in accountancy. As a condition of readmission, the director may set forth stipulations with regard to minimum standards of academic work that must be maintained by the student. After readmission, if the student again becomes ineligible to enroll, his or her ineligibility is considered permanent. Accountancy students entering the graduate portion of the 150-hour program should consult the Office of Graduate Studies (http://gradstudies.missouri.edu) for academic standing policies for graduate students.

**Graduate**

- MAcc in Accountancy (p. 331)
- PhD in Accountancy (p. 332)

**About Accountancy Graduate Programs**

The School of Accountancy offers graduate work leading to the master of accountancy and doctor of philosophy degrees. Graduate programs in accountancy prepare students for advanced professional careers in public, private and governmental accounting, and for careers in teaching and research.

Alert to change and recognizing that accounting education at the graduate level should be ahead of current practice, the School’s programs require course work stressing advanced knowledge in accounting theory and practice, quantitative methods, economics and business. Opportunities exist on and off campus for exchanging ideas with practicing accountants and for participating in the solution of their professional problems.

Among the school’s special facilities are a comprehensive collection of accounting and investment services, computer databases, technical journals and microfilm copies of annual reports, government documents and doctoral dissertations.

**Funding**

Fellowships, scholarships and teaching and research assistantships are available to qualified graduate students.

**BSAcc in Accountancy**

**Degree Program Description**

Students in the School of Accountancy acquire practical experience in the field of accounting. The curriculum provides students with a strong technical accountancy background, a broad advanced business background and professional skills such as public speaking and information systems skills. Accountants engage in a wide variety of activities including preparing financial statements, reconciling business transactions, performing audits of public companies, and developing and using information systems to track financial performance and strategy. The field is competitive and challenging, but worth it. Typical careers in accountancy include auditor, tax advisor, wealth manager, forensic accountant, corporate finance officer, and consultant. The undergraduate and master’s degree programs with a major in accountancy are merged into an integrated 150-credit curriculum to provide high-quality preparation for a career as a professional accountant in public accounting, business or government. Admission is competitive; students are required to have a minimum 3.000 GPA of record and at least 45 credit hours earned to apply during the Spring semester.

**Major Program Requirements**

The undergraduate and master’s degree programs with a major in accountancy are merged into an integrated 150-credit curriculum to provide high-quality preparation for a career as a professional accountant in public accounting, business or government.

The Bachelor of Science with a major in Accountancy is awarded along with the Master of Accountancy degree upon satisfactory completion of the 150-credit, integrated curriculum. In this integrated program, a minimum of 24 credits in accountancy courses at the 3000-level or above must be completed at MU.
Major Core Requirements

The following courses are degree specific major requirements for the 150-credit program in the School of Accountancy. Courses that satisfy University general education (p. 33) and core program prerequisite requirements are recommended for the freshman and sophomore years.

**Total Credits: 150**

# Internship

- ACCTCY 4940: Professional Accounting Internship | 3
- ACCTCY 4384: Auditing Theory and Practice I | 3
- Accountancy Elective | 3

**Total Credits:** 9

# Some students get an opportunity to do a spring internship for 3 hours during the 8th semester. Internships are normally the 1st 8 weeks and students take 6 hours during 2nd 8 weeks for a total of 9 hours. If students do a winter internship, they can normally only complete 12 hours by taking an independent study course. Students would need to complete the additional 3 hours prior to or during the summer following the internship.

- MATH 1300 must be taken. A grade of C- or better is required in MATH 1100 (counts in place of non-business elective), MATH 1300 or MATH 1400 and STAT 2500.

- Need grade of C- or better to fulfill requirement.

### Note:

MANGMT 3200HW OR MANGMT 4140W is a required course. ECONOM 1051H satisfies both ECONOM 1014 or ECONOM 1024 and ECONOM 1015 requirement.

One humanity or science must be 2000-level or above.

Professional electives can be non-business electives (2000+ courses) or Business electives (3000+ courses) approved by academic advisor.

Electives must be approved by advisor so that international studies component is met.

The growing scope and diversity of functions being performed by professional accountants has created a strong demand for individuals who have both a broader base of general and business education as well as more in-depth technical accounting education than can be obtained in a four-year.

#### Requirements for Master’s Degree Only

A student who has a degree in a different curricular area or a bachelor’s degree in accountancy from another college or university may earn a master’s degree from the School of Accountancy upon completion of the requirements for the degree. The student’s program must include a minimum of 30 credits beyond the bachelor’s degree (or its equivalent) selected from courses carrying graduate credit. In addition, the student must meet the following stipulations:

- At least 15 of the 30 credits must be completed in 8000-9000-level courses.
- A minimum of 24 credits of advanced study must be completed under MU faculty.
- A maximum of 6 graduate credits may be transferred from another college or university.
- All requirements must be completed within eight years from the time of initial enrollment.

MU’s MAcc program is designed especially to provide the additional breadth and depth of knowledge and skills required for success in contemporary accounting practice.

#### Core Business Education

Business electives: 9 hours

#### Professional Accountancy Education

Accounting Electives: 15 hours

#### Admission Criteria to the MAcc

- Fall deadline: March 15
- Minimum Test of English as a Foreign Language (TOEFL) scores:
  - Internet-based test (iBT) | 112
  - Paper-based test (PBT) | 630
The master of accountancy (MAcc) program encompasses the last 30 hours of MU’s 150-hour accountancy program and presumes students have completed the undergraduate portion of the program, or the equivalent. Students whose undergraduate education is not equivalent to the first 120 hours of the 150-hour program may overcome important deficiencies by taking additional courses approved by the program director.

To be considered for acceptance in the MAcc program candidates must have completed the first 120 hours of MU’s 150-hour program or received a baccalaureate degree from an accredited college or university with a major in accounting or the equivalent (students with bachelor’s degrees in non-accounting areas may enter the MAcc program after completing an appropriate set of “prerequisite” courses).

In addition to the requirements listed above, other factors such as the student’s statement of objectives and recommendation letters also may be considered to the extent that they provide indications of a student’s ability to be successful in the MAcc program.

The MAcc Admission Process

Generally, admission decisions for the MAcc program are made in the late spring and summer for fall admissions only, and this is on a highly competitive basis.

Graduation Requirements for the MAcc

The basic 30-hour MAcc curriculum requires a minimum of 15 hours of accountancy courses and a minimum of 15 hours of courses reserved exclusively for graduate students. A maximum of 6 semester hours of graduate level course work may be transferred from another accredited master’s program.

Through careful selection of electives, the MAcc program provides great flexibility to enable customized programs of study in specialty areas of particular interest to students. A couple of the most popular areas of specialization are taxation and assurance (where a “tax or assurance track” are available. Go the following link for more information about graduate accounting certificates: http://catalog.missouri.edu/undergraduategraduate/collegeofbusiness/additionalminorsandcertificates/.

Accountancy Electives:

Official GMAT scores
*Upload electronically through the Office of Graduate Studies application*

**Prerequisites for the Doctoral Degree in Accountancy**

International students should note that we rarely admit a student directly from outside the United States unless they have studied/worked in an English-language setting.

Prerequisites to undertaking doctoral course work include one, and preferably two, semesters of calculus; an introductory statistics course; and intermediate-level microeconomic theory. An undergraduate accounting major (or equivalent) is desirable but required. Prior graduate work is not required for admission to the program, but most successful applicants do have a master’s degree.

**Graduation Requirements for the Doctoral Degree in Accountancy**

The University requires 72 total hours beyond a baccalaureate degree for a PhD. In order to meet this requirement, the School of Accountancy requires the following program of course work and dissertation research:

- **Doctoral-level Accounting Research courses**
  - 15

- **Course Work in supporting theoretical fields (e.g. economics, finance, organizational theory and behavior)**
  - 15

- **Statistics and other research methods courses**
  - 18

- **Weekly Research Seminar (meeting one hour per semester for four years)**
  - 8

- **Dissertation Research**
  - 12-16

**Total Credits**

- 68-72

Course work is designed to be completed in five semesters (two and one-half years). Written and oral comprehensive examinations are then taken after completion of course work, and the remainder of years three and four is devoted to the completion of the research dissertation. Specializations are available in areas of faculty research interests.

**More Information about the Doctoral Degree in Accountancy**

For information about the doctoral degree in accountancy, visit our website or write to:

**Department of Finance**

Through the study of finance, students learn to independently analyze security markets, understand the basic valuation techniques, and use their knowledge to make investment decisions. In addition, students learn basic theoretical concepts in corporate finance and their application to corporate financing and investment decisions. Coursework focuses on the areas of investments, portfolio management, real estate appraisal, financial institutions, and corporate finance.

**Department of Management**

Management is defined by the Academy of Management as including “all processes, structures, and behaviors that are related to the work of organizations, as well as the dynamics of industries, economies, cultures, and other environmental forces that affect organizations and their employees.” Management coursework at MU is quite diverse, covering the areas of human resource management, human behavior in organizations, organization theory, strategic management, entrepreneurship, information systems, e-commerce, operations management, and business law.

**Department of Marketing**

Marketing focuses on creating and managing customers. It deals with the strategies, tactics, and business processes involved in researching markets, deciding which markets and segments to pursue, identifying what unique value to provide, and then assembling the products, services, people, and partner firms needed to build, communicate, and deliver that value.

**Exploratory Course**

Students wanting to explore business administration as a major should take BUS_AD 1500.
Double Emphasis

Students in the on campus program may have a dual emphasis of Finance and Real Estate, or may add on an Economics emphasis to any other BSBA emphasis program.

Preprofessional Information

To apply to the upper-level BSBA (and a related emphasis area program, if an on campus student), a student must have completed a minimum of 45 credits, have at least a UM Cumulative GPA of a 2.6 (minimum requirement and does not guarantee admission to Upper Level) and met the Professional Development Program requirements. A Trulaske College of Business student must be admitted by the semester after the 60th credit hour is earned. The following courses must be among the credits completed or in process at the time of application:

- Minor in Business (p. 350)

Professional Development Program

In addition to completing required coursework to earn a Bachelor of Science, Business Administration degree, students must fulfill the requirements of the Professional Development Program (PDP). The goal of the PDP is to offer opportunities to all BS BA and Accounting students to develop core competencies and values necessary for success in their professional careers.

As a graduation requirement, the program is comprised of the following:

- Completion of designated professional activities to acquire points for admission to the upper division. Once admitted to the upper division, students will continue to earn points to meet the graduation requirements. Specific activities may be required.
- Completion of BUS_AD 3500 the semester immediately following admission to the upper division. This course is a pre-requisite to the completion of the required BUS_AD 4500. These two courses may not be taken out of sequence without prior approval. BUS_AD 3500 must be completed in residence.
- Completion of BUS_AD 4500 once admitted to the upper division. This will include completion of a professional level internship/
practicum experience. Practicums can be completed over a summer or semester-long period of time (intersession assignments will not meet the PDP requirement). Students must seek final approval of their internship/practicum experience from the PDP Office before beginning the assignment. BUS_AD 4500 must be completed in residence.

If a student fails to meet the requirements of the PDP at either the lower or upper division, the student will not be allowed to continue in or graduate from the Trulaske College of Business.

Professional Development Graduation Requirement

- The student must earn a minimum of 70 PDP points (maximum of 100) at the lower division for official admittance to the upper division. Once admitted, students must earn a total of 200 PDP points to meet the requirement. Specific activities and workshops may be required.
- The student must earn a C- (or higher) in BUS_AD 3500 to satisfy the requirement.
- BUS_AD 4500 is graded as Satisfactory/Unsatisfactory. Students must complete practicum course to a satisfactory level of 70% or greater to receive a passing grade for the course.

Admission to the Business Administration Program

Capacity Limitations (On Campus Program Only)

Admission into the upper-level Bachelor of Science in Business Administration (BSBA), or International Business (BSBA) degree program is highly competitive, because enrollment is limited. Each of the individual emphasis areas (Economics, Finance and Banking, Management, Marketing or Real Estate) has its own capacity limitation. Students who have earned a 3.4 minimum UM cumulative GPA or higher will be guaranteed admission to the upper level emphasis area of their choice. Other students with at least a 2.6 minimum UM cumulative GPA will be admitted on a space available basis.

Preprofessional Information

To apply to the upper-level BSBA (and a related emphasis area program, if an on campus student), a student must have completed a minimum of 45 credits and met the Professional Development Program requirements. A TCOB student must be admitted by the semester after the 60th credit hour is earned. The following courses must be among the credits completed or in process at the time of application.

Admission to BSBA Degree and Emphasis Areas

In addition to meeting the previous requirements, students are admitted to an upper-level BSBA emphasis area based on UM cumulative grade point average. Students with exceptional circumstances may ask to be considered for admission based on both grades and other factors.

On Campus students request an emphasis area when applying to the upper-division BSBA degree program. If the requested emphasis area is at capacity, students who qualify for admission to the upper-division BSBA degree program are given the opportunity to choose another emphasis area. Online students do not select an emphasis area. Students are notified by email when they are eligible to apply for upper-level status. Students are admitted to upper level in February and September of each year.

Students who complete 60 credits without gaining admission to an upper-level BSBA emphasis area will not be eligible to re-enroll in the Trulaske College of Business, and should meet with an Academic Advisor in the Undergraduate Advising Office to discuss their options.

A student may take no more than six credit hours of 3000 or higher business courses off campus. University of Missouri sponsored study abroad courses are excluded from this requirement.

Graduate

- MBA in Business Administration (p. 350)
- PhD in Business Administration with emphasis in Business (p. 352)

About the Crosby MBA (traditional full-time program)

Crosby MBA candidates come from all backgrounds, including science, engineering, liberal arts, journalism, business and health-related fields. There are no prerequisite courses. Our admission standards are high and the curriculum is rigorous. The Crosby MBA program is AACSB accredited, nationally recognized and highly ranked by U.S. News America’s Best Graduate Schools, Forbes, Princeton Review, and The Wall Street Journal. Students attend full-time, although part-time is an option if the student is able to attend daytime classes.

Through the Crosby MBA program, highly capable graduate students gain real-world experience that prepares them for a wide variety of career paths. The program teaches skills necessary to compete in the global business environment, and helps you achieve a career path that will bring both personal fulfillment and professional success. We offer individual career counseling, an executive mentoring program, employer site visits,
and workshops focused on résumé writing, presentation skills, negotiation skills and business etiquette. Students obtain employment in fields such as financial analysis, investments, banking, human resources, project management, strategy, operations and logistics, marketing, marketing analytics, consulting, and non-profit management.

Factors considered in the admissions decision include post-graduation work experience, professional internships and/or co-ops, leadership, community involvement and service, quality of undergraduate work (GPA) and rigor of coursework, competitive score on the GMAT (http://www.mba.com/us) or the GRE (http://www.ets.org/gre), interview required for competitive applicants, career focus and self-awareness demonstrated in question responses and interview. A baccalaureate degree in any discipline from an accredited school is required. See the Crosby MBA website (https://business.missouri.edu/programs-and-admissions/crosby-mba/admissions/apply-now-crosby-mba-program) to apply.

### Cooperative Dual Degrees with the Crosby MBA Program
- MBA and Bachelor of Science in Industrial Engineering (BSIE)
- MBA and Bachelor of Science in Information Technology (BS)
- MBA and Master of Health Administration (MHA)
- MBA and Master of Science in Industrial Engineering (MS)
- MBA and Juris Doctor (JD)

### About the execMBA Program (for working professionals)
This innovative executive MBA is specifically designed for high achieving professionals seeking a first-rate MBA program that provides flexibility around their work schedules. This is the same renowned degree and the same renowned faculty offered with the Crosby MBA, but is specially designed for executives. Combining face-to-face class time with online delivery for professionals with substantive experience, the 21-month execMBA program will connect you with peers, challenge you in relevant ways, and develop the mind- and skill-set to match today’s marketplace.

All applicants to the MU execMBA must have a minimum of 5-7 years of professional work experience, as well as a letter of endorsement from their employer to participate in the program. Other factors considered in admission include undergraduate GPA (a bachelor’s degree in any discipline from an accredited school is required), demonstrated leadership experience and a personal statement addressing criteria outlined on the exec MBA website. Interviews by invitation will also be conducted.

### About the PhD Program
The PhD program (p. 352) is designed to prepare graduates for careers as effective university researchers and teachers or for senior research positions in business or government. Course work involves research activities such as literature review and critique, theoretical modeling, research design, computer-assisted empirical analysis and preparation of proposals and research papers. PhD candidates are provided the opportunity to teach undergraduate courses in their specialty area. In addition, students are expected to participate in national and regional academic conferences and are encouraged to work with faculty in developing individual research and teaching skills.

### Program Location: Cornell Hall
Cornell Hall, a state-of-the-art building, houses the Robert J. Trulaske, Sr. College of Business. It contains labs with over 230 computers with a variety of up-to-date software. The College subscribes to the following online services, databases and software packages: Wharton Research Data Services, Audit Analytics Compustat, CRSP, Datastream/Worldscope, Eventus, I/B/E/S, IRRC, ISSM, Mergent FISD, Mutual Fund Links, SDC Platinum, Thomson Reuters, Stock Trak, and Qualtrics (an online survey system).

### BSBA in Business Administration

#### Degree Program Description
In the Trulaske College of Business students are in either the lower level (undeclared) or the upper level (admitted to an emphasis area). Students entering the Trulaske College of Business usually enter the lower level while they take University general education and business preparation courses. The first two years of all business programs (except international business and accounting) involve the same course sequences. A student typically applies to the upper level at the end of the sophomore year or the beginning of the junior year.

#### On Campus - Major Program Requirements
A student may count a maximum of 30 credits in their emphasis area to meet the 120-credit requirement for the undergraduate degree.

Requirements above and beyond general education requirements are listed under upper level admission courses.

Students must complete all university requirements (p. 32), including general education (p. 33), and the degree requirements below.

#### On-Campus - Major Core Requirements
Course requirements ensure that 40 percent of a student’s course work is earned in divisions other than business.

Online - Major Program Requirements

The online BSBA program provides students flexible access to a highly competitive degree. Coursework provides students with the tools to be successful in careers in Banking and Finance, Business Management, Human Resources, Insurance or Marketing and Sales. The Online BSBA program is designed to be a degree completion program. Students must secure a minimum of 54 credit hours outside of this program to satisfy the 120 credit graduation requirement.

Students must complete all university requirements, including general education (p. 32), and Department Level Requirements (p. 334), in addition to the degree requirements below.

### BSBA in Business Administration with Emphasis in Economics

**Degree Program Description**

Students pursuing a degree in Business Administration will gain exposure to multiple areas of business including Accounting, Economics, Finance and Banking, Management, and Marketing. By choosing to study business administration with an emphasis in Economics, students ready themselves for business careers from the broad perspective of economics, developing expertise in topics such as economic forecasting, analysis of interest rates and financial markets, labor economics and international economics. Students typically prepare for careers in a range of industrial, commercial, and financial organizations as well as government agencies and political institutions. Typical careers include business economist, financial analyst, risk manager, or economic research analyst.

**Major Program Requirements**

Students must complete all university requirements (p. 32), including general education (p. 33), and the degree requirements below.

</tbody>
</table>

**Total** 120 credits

- 12 credits Emphasis Support Courses required if 12 credits in economics are taken (from required economics courses section); 15 credit emphasis support courses required if 9 credits in economics are taken (from required economics courses section).

A student may count a maximum of 30 credits in economics to meet the 120-credit requirement for the undergraduate degree.

**Semester Plan**

Below is a sample plan of study, semester by semester. A student's actual plan may vary based on course choices and where options are available.
BSBA in Business Administration with Emphasis in Finance and Banking

Degree Program Description

Students pursuing a degree in Business Administration will gain exposure to multiple areas of business including Accounting, Economics, Finance and Banking, Management, and Marketing. An emphasis in Finance and Banking prepares students for careers in commercial banking, corporate finance, financial planning, insurance, investment banking, or money management. Students learn how to independently analyze security markets, understand the basic valuation techniques and use their knowledge to make investment decisions. In addition, students learn basic theoretical concepts in corporate finance and their application to corporate financing and investment decisions.

Major Program Requirements

Students must complete all university requirements (p. 32), including general education (p. 33), and the degree requirements below.

General Education Requirements 27

**BSBA in Business Administration with Emphasis in International Business - Economics**

**Degree Program Description**

International Business is a joint degree program offered by the College of Arts and Science and the Trulaske College of Business. The program incorporates foreign language, geographic region and cultural environment courses with core and international business courses. Completion of this degree program requires 141-149 credits depending on emphasis.

**Major Program Requirements**

To complete this course of study, students must be accepted in both the Bachelor of Arts in International Studies program in the College of Arts and Science and the Bachelor of Science in Business Administration program in the Trulaske College of Business. Students must also complete all university requirements (p. 32), including general education (p. 33), and the degree requirements below.

**Social Sciences**

BSBA in Business Administration with Emphasis in International Business - Finance
Degree Program Description

International Business is a joint degree program offered by the College of Arts and Science and the Trulaske College of Business. The program incorporates foreign language, geographic region and cultural environment courses with core and international business courses. Completion of this degree program requires 144-149 credits depending on emphasis.

Major Program Requirements

To complete this course of study, students must be accepted in both the Bachelor of Arts in International Studies program in the College of Arts and Science and the Bachelor of Science in Business Administration program in the Trulaske College of Business. Students must also complete all university requirements, including general education (p. 32) and the degree requirements below.

BSBA in Business Administration with Emphasis in Marketing

Degree Program Description

Students pursuing a degree in Business Administration will gain exposure to multiple areas of business including Accounting, Economics, Finance and Banking, Management, and Marketing. An emphasis in Marketing focuses on creating and managing customers by studying business activities that connect consumers with goods. The degree deals with the strategies, tactics and business processes involved in researching markets, deciding which markets and segments to pursue, identifying what unique value to provide and then assembling the products, services, people and partner firms needed to build, communicate and deliver that value. Specializations in this area include sales, advertising, sales promotion, retail, brand management and distribution. The marketing major is designed for those students who are seeking an in-depth knowledge of the tools, concepts and practice of modern marketing. This program prepares students for a career in marketing, sales or distribution. It focuses on activities that direct the flow of goods and services to the consumer or user. Courses include marketing management, promotion, sales management and logistics management.

Major Program Requirements

Students must complete all university requirements (p. 32), including general education (p. 33), and the degree requirements below.

General Education Requirements 27

Upper Level Admission Courses 34

Required Core Courses 36

ECONOM 3229 Money, Banking and Financial Markets
or ECONOM 3251 Theory of the Firm

### BSBA in Business Administration with Emphasis in Real Estate

#### Degree Program Description

Students pursuing a degree in Business Administration will gain exposure to multiple areas of business including Accounting, Economics, Finance and Banking, Management, and Marketing. Students who pursue an emphasis in Finance and Banking can add on an emphasis in Real Estate. Real estate is an ideal field for those with an entrepreneurial spirit who seek career options around the globe. The Real Estate emphasis is for students contemplating a career in real estate investment, property management, mortgage banking, or associated field. Related careers include real estate investment analyst, property manager, mortgage banking officer, REIT (real estate investment fund) manager, and real estate valuation specialist.

#### Major Program Requirements

Students must complete all university requirements (p. 32), including general education (p. 33), and the degree requirements below.

Degree Requirements (Crosby MBA)

Total graduate course work necessary to qualify for the Crosby MBA degree is 57 credit hours; however, students who meet the criteria for waiving certain beginning level courses may substitute those courses with electives. For graduation, MBA students must earn a cumulative grade point average of 3.0 or better in the hours completed in the designated MBA plan of study and a minimum 3.0 cumulative MU graduate grade point average.

Required course work in Quantitative Analysis, Finance, Management, Marketing and Professional Development and Experiential Learning provides a comprehensive business education for Crosby MBA students. Our curriculum assures that graduates enter the 21st century business world with tools that will enable them to be successful. The program consists of 34.5 required credits, including foundational and advanced coursework, plus 22.5 elective credits.

The structure of the MU Crosby MBA allows students to concentrate in a specific area of business, develop a broad managerial focus, or complement business training with course work from other areas on campus. Areas of concentration are offered within the departments of finance, management, and marketing, including the marketing analytics certificate, or another field related to a student’s individual interests. The delivery format includes 1.5 credit hour, 8-week modules, to allow for more focused attention to a particular topic, as well as to provide a wider array of choices. 3 credit, 16 week courses are also available.

**Minor in Business**

The business minor has the same rigor and content as the fundamental courses taken by business students. It provides flexibility in undergraduate studies and better prepares students for jobs and for graduate school. The business minor includes courses that are highly complementary. For most students, the requirements for the business minor are far more valuable than a similar number of courses in one or two areas.

15 of the 18 hours must be taken in residence and a 2.0 GPA in all business courses and those required for the business minor is required. See a business advisor for questions regarding the business minor.

execmba@missouri.edu  
http://execmba.missouri.edu

### Degree Requirements (execMBA)

Total graduate course work necessary to qualify for the execMBA degree is 48 credit hours. For graduation, execMBA students must earn a cumulative grade point average of 3.0 or better.

The program curriculum, designed with executives in mind, is inventive, practical and market-facing. Students will build skills that increase self-and global-awareness, develop strategic risk-taking, and heighten influence. Delivery is a blend of approximately 75% online and 25% in-class coursework. Students will amplify global expertise and value in the marketplace with an 8- to 10-day international residency. This lock-step,
cohort program – meaning students will take the same classes together in the same order – is conducive to personal interactions with the other high-level professionals.

#### International Residency (execMBA)

The international residency is an 8-10 day immersion in a foreign culture and its business practices during the summer between the first and second year in the program. It serves as an opportunity to apply classroom education to an international setting. Students will consult with businesses on strategic issues, network with local businesses and government officials, and explore international culture.

### PhD in Business Administration with Emphasis in Business

#### About the Doctorate in Business Administration

The PhD program is designed to prepare graduates for careers as effective university researchers and teachers or for senior research positions in business or government. A primary objective of the program is to train PhD candidates to become proficient researchers. Therefore, course work involves research activities such as literature review and critique, theoretical modeling, research design, computer-assisted empirical analysis and preparation of proposals and research papers. Another objective is to train students to become high-quality teachers. PhD candidates are provided the opportunity to teach undergraduate courses in their specialty area. In addition, students are expected to participate in national and regional academic conferences and are encouraged to work with faculty in developing individual research and teaching skills. The PhD in Business Administration offers three concentration areas: Finance (https://business.missouri.edu/programs-and-admissions/phd/academics/business-administration/phd-concentration-finance), Management (https://business.missouri.edu/programs-and-admissions/phd/academics/business-administration/phd-concentration-management) and Marketing. (https://business.missouri.edu/programs-and-admissions/phd/academics/business-administration/phd-concentration-marketing) (Concentrations will not appear on diplomas or transcripts.)

#### Degree Requirements - all PhD students

1. Before enrolling in concentration area courses, all PhD students in Business Administration must take (or be able to have waived) the below general courses. Students with an MBA typically will have these requirements waived.

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>ACCTCY 7310</td>
<td>Accounting for Managers</td>
<td>3</td>
</tr>
<tr>

<td>Managerial Finance</td>
<td>3</td>
</tr>
<tr>
<td>MRKTNG 7460</td>
<td>Managerial Marketing</td>
<td>3</td>
</tr>
<tr>
<td>ECONOM 7332</td>
<td>Microeconomics for Managers</td>
<td>3</td>
</tr>
</tbody>
</table>

2. An in-depth major concentration in the area of finance, management (organizational sciences) or marketing (minimum of 15 hours of 8000/9000-level courses).

3. Two support areas of at least nine credit hours each, one of which must be taken outside the School of Business, or one support area of at least 12 credit hours. These supporting areas offer the student considerable latitude in identifying a course of study that can be tailored to the individual's interests and goals. If two support areas are selected, the student must also satisfy a 12-hour analytical tool requirement; if one support area is selected, the analytical tool requirement is 18 hours.

4. Collateral requirements emphasizing analytical tools (proficiency in a foreign language does not fulfill the collateral requirements). This is a research methods and analyses sequence of at least 12 hours (at least 6 credit hours in each of at least two courses).
18 if only one support area), including appropriate courses in economics, mathematics, psychology, sociology, statistics or other areas deemed appropriate by the program committee.

5. An ongoing seminar experience (each semester until successful completion of comprehensive examinations) that acquaints the student with current literature and research in his/her major area of interest. This seminar is in addition to other seminars offered departmentally (4 hours minimum).

6. Dissertation (minimum 12 hours of 9090 credit).

These requirements are independent of one another; courses taken to satisfy one requirement may not be used to satisfy any other requirement. Previous graduate work taken before admission to the PhD program may be used to satisfy these requirements if it is deemed appropriate by the student's program committee.

**Concentration in Finance**

The PhD program with a concentration in Finance emphasizes university level research and teaching skills. The program of study is flexible to meet individual needs and interests, but all students take advanced classes in Finance, Economics, and Statistics. Students are only admitted on a full-time basis and normally work as research or teaching assistants. Students must complete an on-campus interview before any decision can be made regarding their ultimate admission. The GMAT is strongly preferred with the GRE only considered in special circumstances.

**Degree Requirements - Finance Concentration**

**Prerequisites typically needed for Finance program of study:**

**Required courses:**

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Credit Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>ECONOM 7351</td>
<td>Intermediate Microeconomics</td>
<td>3</td>

<tr>
<td>STAT 7750</td>
<td>Introduction to Probability Theory</td>
<td>3</td>
</tr>
<tr>
<td>STAT 7760</td>
<td>Statistical Inference</td>
<td>3</td>
</tr>
</tbody>
</table>

**Support Areas - Finance Concentration**

PhD students must complete either two 9-hour Support Areas or one 12-hour Support Area to complement advanced training in Finance.

Successful completion of a Support Area may require a written examination covering course work applied to the Support Area. At least one Support Area must come from outside the College of Business. Most students choose Support Areas in Microeconomics and Statistics resembling the following examples:

**Example support area in Microeconomics:**

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Credit Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>ECONOM 7370</td>
<td>Quantitative Economics</td>
<td>3</td>
</tr>
<tr>
<td>ECONOM 8451</td>
<td>Microeconomic Theory</td>
<td>3</td>
</tr>
<tr>
<td>ECONOM 9452</td>
<td>Advanced Microeconomic Theory II</td>
<td>3</td>
</tr>
</tbody>
</table>

**Example support area in Statistics:**

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Credit Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>STAT 7510</td>
<td>Applied Statistical Models I</td>
<td>3</td>
</tr>
<tr>
<td>STAT 7750</td>
<td>Introduction to Probability Theory</td>
<td>3</td>
</tr>
<tr>
<td>STAT 7760</td>
<td>Statistical Inference</td>
<td>3</td>
</tr>
</tbody>
</table>

**Collateral Area - Finance Concentration**

PhD students must complete a 12-hour Collateral Area (if completing two 9-hour Support Areas) or an 18-hour Collateral Area (if completing one 12-hour Support Area) selected in cooperation with a student's program committee. Coursework applied to a Support Area cannot be applied to a Collateral Area. Recommended is a Collateral Area in Accounting, Econometrics, Economics, Mathematics, Statistics, or Corporate Law. The purpose of the collateral area for finance students is to provide them with the necessary quantitative skills to undertake original empirical research. Some representative examples include:

**Example collateral area in Econometrics:**

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Credit Hours</th>
</tr>
</thead>
<tbody>
<tr>

**Concentration in Management**

PhD students with a concentration in Management emphasize university level research and teaching skills. The program of study is flexible to allow students to focus on their personal interests. The program includes a business core of at least 15 hours, at least 15 hours of doctoral seminars in management, one 12-hour or two 9-hour support areas, and a minimum of 12 hours in research methods and statistics (18 hours with one 12-hour support area). Students typically work as research or teaching assistants and receive direct support, which includes a full tuition waiver. The PhD program in management is designed to provide students with a sound foundation for a productive career as an academic at a research-oriented university.

The Department of Management welcomes applications for entry into the PhD program for the fall semester (beginning in August). The application deadline for full consideration is February 1, but applications that arrive...
after that date may be considered. We encourage all applicants to consider making a visit to campus to meet departmental faculty and current management doctoral students. Please contact Dr. Karen Schnatterly (http://business.missouri.edu/people-directory/karen-schnatterly), PhD Coordinator, if you have any questions.

Degree Requirements - Management Concentration

Management Seminars

PhD students in the management track are required to take four core seminars, and 3 credits of additional seminars that will be offered to match the needs and interests of current students. The four core seminars are:

- **MANGMT 9040** Seminar in Human Resource Management 3
- **MANGMT 9080** Seminar in Entrepreneurship 3
- **MANGMT 9020** Seminar in Micro Organizational Behavior 3
- **MANGMT 9060** Seminar in Corporate Strategy 3

While pursuing required course work, all students participate in MGMT 9101 Topics Seminar in Management (1 hour per semester), which is taken on a Pass/Fail basis.

Support Areas - Management Concentration

PhD students must complete either two 9-hour Support Areas or one 12-hour Support Area. Support Areas are tailored to the research and teaching goals of the PhD candidate. Programs are highly individualized to reflect student interests and desired focus. The combination of courses in any Support Area and in the concentration core is flexible, with numerous combinations possible. Program design is subject to the approval of the student's program committee. Typical Support Areas include psychology, economics, research methods and statistics, career development, sociology, marketing, and communication. Listed below are examples of Support Areas that could be selected:

**Example Area I: Psychology:**
- **PSYCH 7340** Attitude Change 3
- **PSYCH 8310** Survey of Social Psychology 3
- **PSYCH 8610** Motivation 3
- **PSYCH 8620** Personality Psychology 3
- **ESC_PS 7200** Positive Psychology 3
- **PSYCH 9350** Studies in Social Psychology 1-99

**Example area II: Economics**
- **AG_EC 8050** Economics of Institutions and Organizations 3
- **AG_EC 9001** Advanced Topics in Economics II 3
- **FINANC 9001** Advanced Topics in Finance 3
- **ECONOM 7355** Industrial Organization and Competitive Strategy 3
- **ECONOM 8451** Microeconomic Theory 3

**Example Area III: Research Methods and Statistics:**
- **MRKTNG 9010** Introduction to Research Methods in Marketing 1-3
- **PSYCH 8710** General Linear Models in Psychology I 4
- **PSYCH 8730** Statistical Software Packages 1
- **PSYCH 9510** Studies in Clinical Psychology 1-99
- **ESC_PS 9650** Application of Multivariate Analysis in Educational Research 3
- **ESC_PS 9710** Structural Equation Modeling 3
- **ESC_PS 9720** Hierarchical Linear Modeling 3

**Research Methods & Analysis (RM&A) Area - Management Concentration**

PhD students must complete a 12-hour RM&A Area (if completing two 9-hour Support Areas) or an 18-hour RM&A Area (if completing one 12-hour Support Area). These courses, selected in cooperation with a student's program committee, will provide students with the tools and techniques necessary for conducting empirical research. Sample courses include those listed above in Support Area III. Coursework applied to a Support Area cannot be applied to a Collateral Area.

**PhD Thesis Credit (MANGMT 9090)**

Students enroll in MANGMT 9090 while they are working on their dissertation, typically in their last two years in the program. We require a minimum of 12 credit hours of MANGMT 9090.

Degree Requirements - Marketing

Students also gain professionals prepared for the market. In addition, the program offers meet individual needs and interests and graduates annually well-situated placement at a research-oriented university. The program is flexible to development of research and teaching skills needed to pursue career issues marketing are a great fit for this program. It emphasizes the Students with an interest in behavioral, strategic, or methodological Concentration in Marketing

Students with an interest in behavioral, strategic, or methodological issues marketing are a great fit for this program. It emphasizes the development of research and teaching skills needed to pursue career placement at a research-oriented university. The program is flexible to meet individual needs and interests and graduates annually well-situated professionals prepared for the market. In addition, the program offers small class sizes, a set of doctoral specific seminars, and a collaborative environment. Students develop research skills by working with faculty on research projects and from faculty mentoring. Students also gain valuable experience by teaching undergraduate courses.

Degree Requirements - Marketing Concentration

Prerequisites typically needed for Marketing Concentration

+ MATH 1320 Elements of Calculus 3
+ STAT 1400 Elementary Statistics for Life Sciences 3

Required courses:

<table>
<thead>
<tr>

</tbody>
</table>

Analytical Tools - Marketing Concentration

Courses in research methods and statistics are required to provide each doctoral student with a sound foundation in research skills. Two marketing seminars that focus on research methods are required, with additional courses chosen as appropriate for the student’s specific research emphasis. This includes a minimum of 12 hours for students with two support areas, or 18 hours for students with one support area. Students often take additional analytical tool courses to further develop the depth of knowledge in tools required for their specific research interests. Coursework in multiple regression, analysis of variance, and multivariate statistics is required.
Example analytical tools courses:

<table>

All Concentrations

Qualifying Process

Program Committee

During the first semester of course work, the PhD Coordinator, a member of the doctoral faculty from the major area of study (finance, management or marketing), serves as the student's faculty advisor.

By the end of the first year of course work, a student should make formal application for the doctoral degree and, after consultation with faculty, request appointment of a Doctoral Program Committee. This committee consists of at least three members from the student's major area of study and at least one member from each supporting area of study.

The Doctoral Program Committee conducts the qualifying examination and works with the student to design a plan of study.

Residency Requirement

In compliance with University regulations, the doctor of philosophy degree requires the completion of 72 semester hours of graduate work beyond the baccalaureate degree. Within the credit-hour requirement is the residency requirement. To satisfy the residency requirement, a student must complete at least 2 9-hour semesters or 3 6-hour semesters in an 18-month period at MU. All courses taken to satisfy the residency requirement must be MU courses approved for graduate credit and approved by the student’s doctoral program committee. Correspondence and off-campus courses may not be counted toward the residency requirement. This program is designed for full-time students and typically requires a 4-year on-campus commitment.

Qualifying Examination and First-Year Project

Every marketing doctoral student is required to pass the qualifying exam consisting of two major components. The first component is a comprehensive evaluation of overall performance in coursework and RA assignments and participation in formal and informal doctoral program elements. The second component is a first-year project addressing a scholarly research topic in marketing consisting of three major parts: a written outline, presentation, and paper suitable for submission to a conference or journal. The goal of this project is to promote early research engagement, interaction with faculty, and the development of communication and presentation skills that will enhance the overall experience of the student throughout the doctoral program.

Comprehensive Examination Process

Typically, after completion of the course work specified on the plan of study, the student’s doctoral program committee determines the student’s readiness to undertake the comprehensive examination. The student must be enrolled at MU the semester s/he takes this examination.

The comprehensive examination consists of written and oral sections. Both sections must be completed within one month of each other, and at least seven months before a final dissertation defense. Successful completion of the comprehensive examination requires that the student’s doctoral program committee vote to pass the student on the entire examination, both written and oral sections, with no more than one dissenting or abstaining vote. The student who fails this exam may not take a second comprehensive examination for at least 12 weeks. Failure to pass two successive comprehensive examinations automatically prevents candidacy.

Dissertation Requirements

A dissertation is required to complete the doctoral program. Each student, working under the supervision of the doctoral program committee chair, must propose an original scholarly research project. The dissertation proposal is normally defended at the end of the third year of the program in an oral presentation. The proposal must be approved formally by the student’s program committee. Following completion of the research, the written dissertation must be orally defended and approved by the student's program committee.
Additional Minors and Certificates
- Business

Undergraduate Certificates
- Certificate in Human Resource Management (p. 357)
- Certificate in Risk Management and Insurance (p. 357)
- Certificate in Sales and Consumer Development (p. 357)

Graduate Certificates
- Certificate in Accounting Information Systems (p. 358)
- Certificate in Assurance (p. 358)
- Certificate in Marketing Analytics (p. 358)
- Certificate in Taxation (p. 358)

Certificate in Human Resource Management

Required GPA: 3.0 or higher for these 15 credit hours

Note: for the purposes of this Certificate, a student can transfer in credit from another institution only for MANGMT 3000. Management 3000 is a prerequisite for all other Management courses.

Total hours: 15

Certificate in Risk Management and Insurance

Organizations that manage risk well are more likely to be successful than those that do not. Effective risk management requires a solid understanding of the sources, dimensions and qualities of risk, as well as the development and implementation of efficient techniques to mitigate, control or avoid those risks. Gain these skills and become competitive in the field of risk management and insurance. Students must have a 3.0 overall GPA.

Certificate in Sales and Customer Development

The Certificate in Sales and Customer Development prepares undergraduate students for careers in the highly professional and dynamic field of sales. Through the Certificate's required practices in the sales profession and sales management.

Students who finish the 13 credit-hour curriculum will receive the Certificate in Sales and Customer Development upon completion of their bachelor's degree, thereby offering to employers tangible evidence of a strong background in sales. To earn the Certificate in Sales and Customer Development students are required to maintain a 3.0 grade point average in all courses taken in fulfillment of the Certificate.

Required Courses - A minimum 3.20 GPA is needed in these three courses

Note: MRKTNG 3000 is prerequisite course for all other Marketing classes

Internship Requirement (Minimum 1 credit hour) * 1

Certificate Requirements and Curriculum 13

* Satisfactory completion of at least one credit hours for a supervised internship (summer or regular semester), with significant customer contract and a minimum of 120 hours on-the-job experience. This credit hour can be earned in any College at MU. Internships that qualify for this Certificate will need to be approved by the Program Coordinator as a part of the Certificate application process.

Note: Many Trulaske College of Business students will be able to satisfy the internship requirement by completing a suitable internship under the College's BUS_AD 4500 requirement. But if a student has already completed BUS_AD 4500 with an internship that does not meet the requirements of this Certificate program, that individual would be advised...
to register for one credit hour under MRKTNG 4185 for an internship that would qualify.

Non-business majors should contact the Program Coordinator, salescertificate@missouri.edu, regarding the internship component.

Graduate Certificate in Accounting Information Systems

The College of Business is not currently accepting applications for the Graduate Certificate in Accounting Information Systems.

Graduate Certificate in Assurance

The Assurance Certificate program will provide students with advanced skills necessary to succeed in Assurance Services-related careers. Through completion of the required coursework, students will be able to:

• Assess business and financial reporting risks
• Understand and apply auditing concepts and procedures
• Design and implement internal controls
• Understand the role of corporate governance in risk management
• Implement fraud prevention and detection procedures
• Understand how corporate taxes can impact a corporation’s financial statements
• Understand the basis of corporate taxation and book-to-tax differences (ASC 740)

School of Accountancy graduates with an Assurance Certificate will be prepared for a variety of careers including: external and internal auditor, risk management, fraud examination, and consulting on risk, assurance, and fraud prevention.

Students must be admitted to the MAcc program to pursue the Assurance Certificate. Courses will count towards the degree programs for School of Accountancy. Additional credit hours beyond those needed for the MAcc will not be required in most cases. Students must achieve an average of 3.0 GPA in the required courses.

Graduate Certificate in Marketing Analytics

The Graduate Certificate in Marketing Analytics is available to students in the Crosby MBA Program. Students must already be admitted to the Crosby MBA program. The certificate is designed to enhance the value of the MBA by providing students with the necessary knowledge and skills needed for entry-level as well as leadership positions in the fast-growing area of marketing analytics. The curriculum focuses on the development, implementation, and delivery of data-driven analytical solutions that assist in marketing strategies, tasks, and decisions.

To earn the Graduate Certificate in Marketing Analytics, students must fulfill the course requirements listed below. Students must also complete the SAS Base Programming Certification. A minimum GPA of 3.3 must be earned in the four Marketing Analytics courses.

Graduate Certificate in Taxation

School of Accountancy
303 Cornell Hall
573-882-4463

For more information, contact Koni Daws (dawsk@missouri.edu).

About the Certificate

Depending on the course configuration in the program, completion of the Certificate in Taxation indicates that a student has developed expertise in tax planning and preparation in regard to international, federal, state, or estate issues for corporations, partnerships, or individuals.
Eligibility

Students must be enrolled in the MAcc graduate degree program in the School of Accountancy at MU to be eligible for the certificate.

Plan of Study

Students are required to complete 15 credit hours to receive the certificate. Course options are listed below for the tax certificate.

College of Education

Administration
Kathryn Chval, Dean and Joanne H. Hook Dean's Chair in Educational Renewal
John Lannin, Interim Associate Dean, Academic Affairs
Matt Burns, Associate Dean, Research
(573) 882-7832
education.missouri.edu
MizzouEdCertification@missouri.edu
MizzouEdAdvising@missouri.edu (mizzouedadvising@missouri.edu)

The College of Education, established in 1868, is the oldest teacher preparation program west of the Mississippi River. Today’s graduates of the college are employed in a variety of educational institutions and non-school settings. The college serves the educational community through research-based professional practice and a variety of learning constructs applied to real-world experiences. The college is a member of the American Association of Colleges for Teacher Education and a candidate member of the Teacher Education Accreditation Council. All programs are fully accredited by the North Central Association of Secondary Schools and Colleges.

Admissions
Even for students meeting selective admission criteria, admission to program areas is dependent on capacity, resulting in the selection of the best-qualified applicants. In addition to meeting minimum Phase II criteria, the faculty may exercise professional judgment in the selection of students through personal interviews and program specific essays.

Admission to a specific program is a prerequisite to many upper-level education courses and associated field experiences (including the teaching internship). A student admitted to a professional program (Phase II) must maintain the standards met at the time of admission. Continued assessment will be made of the characteristics associated with effective performance in the role of a professional at each level and in the program. See specific requirements for admission to each of the three phases of the chosen major.

Freshmen
Undergraduate students may enter the College of Education as first-year students at MU.

Transfer Students
The College of Education accepts transfer students consistent with the transfer/articulation policy of the Missouri Department of Higher Education. The transfer policy does not waive or alter any course requirements for the Bachelor of Science in Education or the Bachelor of Educational Studies degrees. Grades received from other accredited institutions are recorded on the MU transcript as they were earned (A = A, etc.). Courses from other University of Missouri institutions are calculated into the UM GPA of Record and grades received from other accredited institutions are calculated into the overall grade point average for admission to the College of Education.

Students transferring to the College of Education with a completed Associate of Arts (AA) degree from a Missouri institution will be considered to have completed the first two years of university general education requirements. Students transferring with a completed Associate of Arts in Teaching (AAT) degree from a Missouri institution will be considered to have completed the first two years of university general education and lower division (Phase I) professional education coursework. Additional course work may be needed to satisfy prerequisites or degree requirements for Phase II and Phase III of the chosen program.

International Students
International students enrolled in the BSEd program must have earned a score of 600 (paper-based) or 100 (internet-based) on the TOEFL exam. International students enrolled in the BES program must have a score of 550 (paper-based) or 79 (internet-based) on the TOEFL exam.

Exploratory Courses
Students wishing to explore Teacher Education may enroll in LTC 11XX for 1 credit hour in the emphasis area of interest.

Preprofessional Information
Many of the program areas contain preprofessional course work that must be completed with specific course grades prior to the selective admission process for Phase II of the program or the teaching internship (Phase III). Contact the Academic Advising Services Office for the specific course work required for the area of interest.

Grade Point Average
The College of Education uses the UM GPA of record to assess students’ academic standing and progress. Both the UM GPA of record and overall grade point average at the level required are used to determine eligibility for admittance and progression. (see Calculation of Grade Point Averages below for levels)
Time Limits on Credits Earned

The Office of Admissions evaluates transfer credit. All course work must meet the current state minimum requirements for teacher certification. Course work completed in the discipline must be evaluated by faculty within that area to be applicable.

Academic Regulations

Calculation of Grade Point Averages (GPA)

To remain in good standing with the college, a student must earn a minimum UM term and cumulative GPA of record, as described below:

<table>
<thead>
<tr>
<th>Credits</th>
<th>BSEd GPA</th>
<th>BES GPA (Non-Certificate)</th>
</tr>
</thead>
<tbody>
<tr>
<td>0-29</td>
<td>2.600</td>
<td>2.500</td>
</tr>
<tr>
<td>30-59</td>
<td>2.700</td>
<td>2.500</td>
</tr>
<tr>
<td>60 credits and above</td>
<td>2.750</td>
<td>2.500</td>
</tr>
</tbody>
</table>

Satisfactory/Unsatisfactory Grades

In addition to University policies on S/U grading, professional education courses, excluding field experiences and orientation, may not be completed under the S/U grading system.

Advanced Standing

In addition to University standards for advanced-standing credit, content courses, as defined by teacher certification, must be completed with a UM cumulative GPA of record of 3.000 or better to satisfy Missouri requirements for certification. Advanced-standing credit includes course work used to satisfy degree requirements, including any elective portion of the degree program.

Courses taken from other institutions after students have matriculated to UM must have prior approval.

Probation, Suspension and Dismissal

A student in good standing (see Calculation of Grade Point Averages above) whose MU GPA of record and/or cumulative grade point average falls below the level outlined is placed on scholastic probation. In addition, any student admitted to the College of Education who does not meet the minimum entrance standards (e.g., admission due to extenuating circumstances or admission of a returning student) will enter on scholastic probation.

A student on scholastic probation whose MU term grade point average for a subsequent enrollment semester is at or above the level specified, but whose UM cumulative grade point average is below the level required for good standing is placed on conditional scholastic probation. A student may be on conditional scholastic probation for two enrollment semesters only. If the MU cumulative grade point average is not at the level required for the student’s classification at the conclusion of the period of conditional scholastic probation, the student is ineligible for continued enrollment in the College of Education.

A student whose MU term and cumulative GPA of record falls below 2.000 is ineligible for enrollment at MU. (Exception: a first-semester freshman whose UM term GPA is below 1.000 may, at the discretion of the associate/assistant dean for academic programs, be placed on conditional scholastic probation instead of being declared ineligible.)

Capstone Options

All students graduating from the College of Education are required to complete a capstone experience. For students completing a BSEd, the internship experience (Phase III) serves as the capstone. For the BES degree, a minimum two hour capstone is required in collaboration with a faculty member in the College of Education.

Graduation Requirements

University requirements state that students must earn 30 of the last 36 credits applicable to their degree in MU courses. For the BSEd, these courses must include the student teaching internship. For the BES, they must include an approved capstone course for a minimum of two semester hours.

Graduation with Departmental Honors

The College of Education maintains a Dean’s List that includes all College of Education undergraduates who are enrolled in 12 or more credits of graded (A-F) course work, and who have a 3.500 or higher UM term GPA.

In addition, College of Education students may participate in a University Honors Program. (See the Honors College (p. 733) information on this site).

Academic Affairs

The College of Education offers services to assist undergraduate students interested in pursuing a degree in Education.

Academic Advising

101/102 Hill Hall
573-882-5659
MizzouEdAdvising@missouri.edu

Academic Advising, located in 101/102 Hill Hall, is dedicated to the academic, professional and personal success of all students. The office is committed to building a one-on-one professional collaborative relationship that empowers students to explore opportunities and develop and implement individual academic and life goals. Meeting with a professional advisor early and regularly is a necessary component of this relationship. Degree choice and requirements, campus involvement, academic struggles, study abroad options, graduate school program and the certification process are just a few of the many topics that can be explored in working with a professional advisor.
Career Services

105 Hill Hall
573-882-5069
MizzouEdCareers@missouri.edu

The Education Career Services Office, located in 105 Hill Hall, specializes in the development of cover letters and résumés, preparation for interviews, and implementation of an effective job search. Students will find considerable support in building a professional, self-managed credential file needed for the field of education. In addition, this office provides information about job openings, school district contacts, and career fairs, as well as hosts on-campus interviews with potential employers.

Students will find additional assistance at www.hiremizzoutigers.com (http://www.hiremizzoutigers.com), but also the Education Career Services website at http://caps.missouri.edu, which contains extensive resources exclusively for the job seeker in the field of education.

Assessment and Certification

2 Hill Hall
573-884-9556
MizzouEdCertification@missouri.edu

Multiple data points will be collected throughout a student’s time in the College of Education to ensure University of Missouri and DESE certification standards are upheld. Assessment and Certification, located in 2 Hill Hall, will be the primary collection and reporting resource for this data. Assessment and Certification work very closely with the Office of Teacher Education, Academic Advising and the MU Registrar.

Recruitment and Retention Initiatives

104 Hill Hall
573-882-7772
MizzouEdRecruit@missouri.edu

The Office of Recruitment and Retention, located in 104 Hill Hall, serves as a welcome center for prospective and current students as well as their families. Through student tours and recruitment events, the staff showcase the College of Education and highlight opportunities and services provided to our students. The staff advise and assist prospective students in understanding College of Education degree programs, admission requirements, and financial assistance options. In addition, the office provides programs and initiatives tailored towards the recruitment, retention, and matriculation of underrepresented and/or first-generation student populations.

International and Intercultural Initiatives

218 Townsend Hall
573-882-0732

The Office of International and Intercultural Initiatives, located in 218 Townsend Hall, designs initiatives and supports undergraduates as they develop cultural competence and intercultural understanding through foreign and domestic experiences. These experiences include on campus multicultural events and activities, as well as study/teach abroad opportunities in Italy, Ghana, Tanzania, Australia/New Zealand, South Korea, India, South Africa, Jakarta, Thailand; and service learning opportunities in organizations such as Centro Latino, Columbia Public Schools and Granny’s House.

Office of Scholarship Services

121E Townsend Hall
573-884-7848
MizzouEdScholarships@missouri.edu

The Office of Scholarships helps students pursue scholarships and fellowships. This office disseminates information about scholarship opportunities and deadlines to current and potential students. Incoming Freshmen become eligible for College of Education scholarships when they submit their MU Annual Scholarship Application, due December 1st of each year. Returning and Transfer Students become eligible for College of Education scholarships when they submit their MU Annual Scholarship Application, due by February 1st each year. Students with renewable scholarships must reapply each year and continue to meet criteria to be eligible for renewable scholarships.

The Scholarship Coordinator then assists the Financial Awards Committee, which consists of College of Education faculty members, as they determine recipients based on the criteria for each scholarship. More information can be found on the College of Education website.

Teacher Education

Office of Teacher Education

202 Townsend Hall
573-882-0560
TeacherEducation@missouri.edu

The Office of Teacher Education is committed to supporting students as they progress through the phases of their academic career including answering general questions about all aspects of the program and making sure that you are enrolled in the appropriate education courses. This office works in conjunction with all MizzouEd departments in Academic Affairs, to provide the best educational experience for our students.

Field Experience

202 Townsend Hall
573-882-4364
MizzouEdFieldExp@missouri.edu

The Office of Field Experience supports students in all phases leading up to and including the student teaching internship. The professional staff makes regular contact with school district faculty and administrators in Columbia and around the state to assure that students encounter high-quality field experiences where they gain knowledge and assume progressive responsibilities within classroom settings. In addition, the office provides guidance to any student who requests additional help to prepare for student teaching.

Academic Programs

College of Education Requirements - BSEd

As Mizzou Ed continues to implement the new Missouri Standards for the Preparation of Educators mandated by the Department of Elementary and Secondary Education (DESE), curriculum changes will be required that must be met in order to complete your degree and earn teacher certification. Those changes may become effective at any point during your academic program. Therefore, it is extremely important that you DO NOT SELF ADVISE.
College of Education Requirements - BES

In addition to the University general education (p. 33) and graduation requirements (p. 32), students must complete the following degree requirements and additional major requirements:

- 24 hours of education coursework with a 2.500 cumulative and overall UM GPA
- Twenty-four hours of coursework focusing on a particular concentration
- Completion of a graduation check in collaboration with a professional advisor once 60 credit hours of coursework are completed
- Multicultural studies requirement; students address this requirement by demonstrating competence on diversity standards in their education coursework.
- Students will complete a two hour minimum capstone course in collaboration with a faculty member in the College of Education.

Professional Education

The College of Education professional education requirements include those that are common to all majors as well as requirements that are specific to each major. Students must meet the following requirements:

- Course GPA of 2.000 or better with an overall professional education GPA of at least 3.000 (required for Missouri Teacher Certification)
- UM GPA of record and overall GPA of 2.750
- GPA of 3.000 in the content area for students majoring in a degree leading to certification in a subject (K–12, 9–12, 5–9 or PK-3)

Teacher Education Courses

Students proceed through three phases as they complete the baccalaureate program. Each phase includes training in technology as well as clinical experience. University general education and content requirements are completed each semester in addition to the required program area courses.

Phase I

This phase provides students with an immersion into the discipline and culture of teaching and learning before focusing on a teaching specialty. It includes up to eight courses: LTC 11XX, ESC_PS 2010 and ESC_PS 2014, LTC 2040, LTC 2044, LTC 2200 and IS_LT 4467. Experiences in this phase incorporate the teacher’s roles in facilitating learning at all levels of development. Students also focus on how problems of schools, family, community and society affect educators.

The emphasis in Phase I is on career exploration and oral and written communication. All students in the BSEd degree program complete these courses regardless of major. Students majoring in Special Education complete an additional course in Phase I, SPC_ED 4300, for a total of 12 hours in Phase I. All College of Education students must complete ESC_PS 2000 Experiencing Cultural Diversity in the United States.

Phase II

This phase occurs over a three-semester sequence and focuses increasingly on a chosen teaching emphasis and on interdisciplinary teaching. Experiences in this phase focus on instructional strategies, human development, classroom and behavior management and educational measurement. This phase provides students with experience in the methods of teaching in a specific subject area as well as emerging problems and practices within the field of education. Certain degree programs have limited enrollments. The number of credits is dependent on the selected program. See specific majors for courses required in Phase II.

Application to Phase II is required. Students become eligible for consideration for admittance to Phase II in a specific program after meeting the following criteria:

- Current enrollment in the College of Education
- Minimum 2.750 UM GPA of record and overall GPA (on a 4.000 scale)
- Passing score on the Missouri General Education Assessment
- Completion of the Missouri Educator Profile
- ENGLSH 1000 with a “C” range grade or higher
- MATH 1100 with a “C” range grade or higher
- Demonstration of competence of Phase I learning markers as demonstrated by satisfactory completion of Phase I courses (LTC 11XX, grade of “S”; ESC_PS 2014 and LTC 2044, grade of “S” in each course; ESC_PS 2010 and LTC 2040, grade of “C” (2.00) or higher in each course)
- Demonstrated competence of Phase I mid-preparation benchmarks (as documented by Phase I instructors)
- Additional requirements as designated by the faculty
- Possession of characteristics associated with effective performance in a professional role at the level(s) and in the major(s) selected
- Completion of application for progression

Decisions regarding Phase II admission are made by program faculty. Meeting minimum requirements for admission to Phase II does not guarantee admission to Phase II.

Phase III

Phase III occurs during the last semester (or last year) with student placement in a public school district for the entire semester, for approximately 16 weeks (14 credit hours).

Application for Phase III is required. To qualify for the teaching internship, applicants must meet the following requirements:

- Admission to Phase III in the program area
- Successful completion of Phase II
- A minimum of 90 completed credit hours
- Completion of at least the preceding semester in residence
- A minimum 2.750 UM GPA of record and an overall GPA of 2.750 (on a 4.000 scale)
- Completion of specific prerequisite professional education and subject area course requirements for the level at which the teaching internship is to be accomplished

Teaching internship placements are available in several districts across the State of Missouri. Applications are accepted approximately a year preceding internship. More information concerning student teaching internships may be obtained from Field Experience Office, 202 Townsend Hall, in the College of Education.

Teacher Certification Licenses

Completion of the BSEd and any additional requirements for certification must be completed before the graduate is eligible for an Initial
Professional Certificate from the Department of Elementary and Secondary Education in the State of Missouri.

Recommendation for initial certification after graduation requires:
- Passing score on the Content Area Exam for each major (the examination should be taken during the last year of the program and official scores submitted to the University of Missouri)
- Passing score on the Missouri Pre-Service Teacher Assessment
- Official transcripts with the degree posted submitted to Office of Assessment in 2 Hill Hall.
- Submission of an IPC application from the DESE web application website (https://k12apps.dese.mo.gov/webLogin/login.aspx) to MU
- The Department of Elementary and Secondary Education also requires that students seeking additional certification in other teaching subjects take the Content Area Exam in those additional subjects in order to be considered a Highly Qualified Teacher.

A student recommended for teacher certification must meet the following criteria:
- Cumulative UM GPA of record of 2.750
- Overall GPA of 2.750 for all college course work completed
- Cumulative GPA of 3.000 in all content area course work
- 2.000 in each professional education course with overall 3.000 GPA on all professional education course work
- Satisfactory score on the Missouri Pre-Service Teacher Assessment
- Satisfactory score on the Content Area Exam required by the State of Missouri
- An official copy of the student’s transcript with baccalaureate degree posted submitted to the Office of Assessment in 2 Hill Hall.
- Complete online application for an Initial Professional Certificate through the Department of Elementary and Secondary Education (DESE) web application

Program coursework emphasizes a foundation in curriculum design, teaching methods, student assessment, instructional program design and management, educational philosophy, learner psychology, and educational technology.

For undergraduate students, the online Bachelor of Educational Studies degree program has numerous options that allow students to focus on any one of a variety of areas such as strategic human resource development, instructional design, health professions education, and youth development professions.

For individuals interested in graduate education, there are two emphasis options in the Master of Education in CTE:
- The Business & Marketing Education option is for those interested in teaching subjects such as Business Administration, Computer Information Systems, Administrative Office Systems, Personal Financial Planning, Advertising & Marketing, Retail Management & Sales, Accounting & Business Finance, and International Business.
- The Vocational Technical Education emphasis is designed for careers teaching in fields such as Allied Health Professions, Telecommunications and Electronic Technology, Construction Trades, Culinary Arts and Food Science, Automotive Technology, Small and Marine Engine Repair, and Industrial and Manufacturing Processes.

Faculty

Associate Teaching Professor  Anthony “Tony” Barbis *

* Graduate Faculty Member - membership is required to teach graduate-level courses, chair master's thesis committees, and serve on doctoral examination and dissertation committees.

** Doctoral Faculty Member - membership is required to chair doctoral examination or dissertation committees. Graduate faculty membership is a prerequisite for Doctoral faculty membership.

Undergraduate

The University does not offer an undergraduate degree in Career and Technical Education. Students interested in this field might want to consider the online Bachelor of Educational Studies (BES) degree program coordinated by the LTC program area is the undergraduate option for individuals who want to teach or work in workforce education. The degree program is designed for people who plan to work with adult learners at community colleges, workforce development programs, and continuing professional education programs. It is intended to prepare students to become effective educational professionals by providing not only the traditional broad-based education of a 4-year degree, but also a foundation in curriculum design, teaching methods, and other aspects of the field of adult education.

For information about the online BES program, contact the College of Education Advising Office:
- Phone: 573-882-5659
- Address: 101 Hill Hall
- email: education_advising@missouri.edu

Graduate

• MEd in Career and Technical Education (p. 365)
  • with emphasis in Business and Marketing Education (p. 366)
  • with emphasis in Vocational Technical Education (p. 366)
• EdSp in Career and Technical Education (p. 365)

Career and Technical Education

Career and Technical Education (CTE) is for people interested in a wide variety of possible careers related to education for employment. CTE programs are intended to prepare students to be effective instructors and workforce development professionals at community colleges, area vocational-technical career centers, or corporate training centers.
Applications are not currently being accepted for the EdSp, EdD or PhD in Career and Technical Education program.

**EdD in Career and Technical Education**

The EdD in Career and Technical Education program has been suspended.

**Admissions**

Applications for the program are not being accepted at this time.

**EdD in Career and Technical Education with Emphasis in Business and Marketing Education**

The EdD in Career and Technical Education program has been suspended.

**Admissions**

Applications for the program are not being accepted at this time.

**EdD in Career and Technical Education with Emphasis in Human Resources Education**

The EdD in Career and Technical Education program has been suspended.

**Admissions**

Applications for the program are not being accepted at this time.

**EdD in Career and Technical Education with Emphasis in Vocational Technical Education**

The EdD in Career and Technical Education program has been suspended.

**Admissions**

Applications for the program are not being accepted at this time.

**EdSp in Career and Technical Education**

The EdSp in Career and Technical Education program has been suspended.

**Admissions**

Applications for the program are not being accepted at this time.

**EdSp in Career and Technical Education with Emphasis in Business and Marketing Education**

The EdSp in Career and Technical Education program has been suspended.

**Admissions**

Applications for the program are not being accepted at this time.

**EdSp in Career and Technical Education with Emphasis in Vocational Technical Education**

The EdSp in Career and Technical Education program has been suspended.

**Admissions**

Applications for the program are not being accepted at this time.

**MEd in Career and Technical Education**

The Master of Education in Career and Technical Education (CTE) is a 33 credit-hour online degree program designed for people interested in a wide variety of possible careers related to education for employment. This program is intended to prepare students to be effective instructors and workforce development professionals at community colleges, area vocational-technical career centers, or corporate training centers. Program coursework emphasizes a foundation in curriculum design, teaching methods, student assessment, instructional program design and management, educational philosophy, learner psychology, and educational technology. There are two emphasis options in the CTE program.

The Business & Marketing Education option is for those interested in teaching subjects such as Business Administration, Computer Information Systems, Administrative Office Systems, Personal Financial Planning, Advertising & Marketing, Retail Management & Sales, Accounting & Business Finance, and International Business.
The Vocational Technical Education emphasis is designed for careers teaching in fields such as Allied Health Professions, Telecommunications and Electronic Technology, Construction Trades, Culinary Arts and Food Science, Automotive Technology, Small and Marine Engine Repair, and Industrial and Manufacturing Processes.

Admissions

Admission Deadlines

- May 1 for fall admission (classes beginning in August)
- October 1 for spring admission (classes beginning in January)
- March 1 for summer admission (classes beginning in June)

Applicants are encouraged to submit their applications as early in the process as possible. Applications can take 6-8 weeks to expedite completely. Every reasonable effort will be made to process the application for the semester requested.

Thesis/Non-Thesis Requirements

Students in the M.Ed. in CTE will create a portfolio that will serve as the summative capstone of the program of study in lieu of a thesis or comprehensive examination. Students build the portfolio as they progress through the program by adding material from the courses in the Plan of Study. Guidelines for the capstone portfolio project are provided to students early in the program.

Admission Requirements

- Completed bachelor's degree (from a regionally accredited institution) in education or a subject related to the applicant's teaching interest
- Undergraduate GPA of 3.0 on a 4.0 scale in the last 60 hours of course work
- Statement of purpose
- Résumé or curriculum vitae
- Two letters of recommendation (Letters should attest to applicant's professional competence, academic preparation and potential for graduate work.)
- If applicant's native language is not English, the Test of English as a Foreign Language (http://www.ets.org/toefl) (TOEFL) administered within the last two years, with a score of at least 500, is required.

The Graduate Record Examination (http://www.ets.org/gre) (GRE) is not required for consideration for admission. However, applicants with competitive GRE scores whose GPA is below 3.0 will be considered for acceptance by the Special Admissions Committee.

Applicants are required to meet two sets of minimum qualifications for admissions: the requirements of the MEd in Career and Technical Education program and the minimum requirements of the Office of Graduate Studies (http://gradstudies.missouri.edu/admissions/eligibility-process/minimum-requirements.php). Because requirements vary, you must refer to a degree program's graduate admission page to learn about specific admission criteria, application deadlines, eligibility, and application process. Your application materials will be reviewed by both the Office of Graduate Studies and the degree program to which you’ve applied before official admission to the University of Missouri.

MEd in Career and Technical Education with Emphasis in Vocational Technical Education

This online program is designed for certified secondary teachers, community college instructors, trade school facilitators, and corporate trainers. Courses in the degree program will support a graduate's ability to be an effective teacher by providing a foundation in curriculum design, teaching methods, student assessment, instructional program design and management, learner psychology, and educational technology.

The Business and Marketing Education emphasis is for those who teach:

- Business administration
- Computer information systems
- Personal financial planning
- Advertising and marketing
- Retail management and sales
- Accounting and business finance

Admissions

Applicants are required to meet two sets of minimum qualifications for admissions: the requirements of the MEd in Career and Technical Education program and the minimum requirements of the Office of Graduate Studies (http://gradstudies.missouri.edu/admissions/eligibility-process/minimum-requirements.php). Because requirements vary, you must refer to a degree program's graduate admission page to learn about specific admission criteria, application deadlines, eligibility, and application process. Early Childhood Education

Dr. Laurie Kingsley, Director of Teacher Education
Department of Learning, Teaching and Curriculum
202 Townsend Hall
573-882-0560
TeacherEducation@missouri.edu

Professional education coursework is delivered by four departments within the College of Education, namely, Learning, Teaching and Curriculum; Special Education; Educational Leadership and Policy Analysis; and Educational, School and Counseling Psychology.

Faculty

Professor E. A. Baker**, T. Sadler**, J. E. Tarr**
Associate Professor Emeritus M. Volkmann*
Emeritus Research Professor D. A. Grouws
Associate Teaching Professor A. Barbis*, L. Kingsley*, J. Ostrow*
Assistant Teaching Professor A. Ashcraft**, L. Neier*, R. Jackson
Assistant Clinical Professor A. Waldron*

* Graduate Faculty Member - membership is required to teach graduate-level courses, chair master's thesis committees, and serve on doctoral examination and dissertation committees.

** Doctoral Faculty Member - membership is required to chair doctoral examination or dissertation committees. Graduate faculty membership is a prerequisite for Doctoral faculty membership.

Undergraduate

• BSEd in Early Childhood Education (p. 367)

The requirements for the Bachelor of Science in Education are specified in three areas: University general education, professional education and a teaching major. All students preparing to be teachers in early childhood, elementary, special education, middle or secondary schools, regardless of the major field, are required to complete the University general education program. Students transferring from other institutions are required to fulfill the equivalencies of these courses.

Graduate

The Early Childhood Education Program at the University of Missouri includes degree programs that focus on preparing graduates to teach in grades Birth-3. The College of Education offers a Masters (M.Ed.) and a doctorate (Ph.D.) in Learning, Teaching and Curriculum with an emphasis in Early Childhood Education. You can find out more information about the graduate program at https://education.missouri.edu/learning-teaching-curriculum/degrees-programs/.

BSEd in Early Childhood Education

Degree Program Description

The Bachelor of Science in Education in Early Childhood will prepare you to work with children from birth through third grade in public, private, and alternative school systems. Students consider a degree in education if they enjoy working with children and/or adolescents, want to strengthen the future through education, and want to make a difference in the lives of others. MU Students work closely with mentors, practicing teachers, administrators, and university faculty to develop the knowledge and skills to enhance learning outcomes for children and youth. The
coursework through the College of Education focuses on teachers’ roles in facilitating learning at all levels of development and considers the influences of cultural, political, historical, and economic factors on students, teachers, and schools. Upon successful completion of the initial teacher certification process, the state grants you certification in early childhood education. Practical and rewarding clinical experience in schools and agencies, which will enhance your teaching abilities and confidence, begins during the sophomore year, and continues each semester, culminating in a senior-level teaching internship. Coursework within Early Childhood will challenge you to consider ways to support the development and learning of young children from birth through age eight.

Major Program Requirements

Students must complete all university (p. 32), general education (p. 33), and content requirements, in addition to degree requirements. Please meet with an Academic Advisor to discuss degree requirements and to create a semester plan.

As Mizzou Ed continues to implement the new Missouri Standards for the Preparation of Educators mandated by the Department of Elementary and Secondary Education (DESE), curriculum changes will be required that must be met in order to complete your degree and earn teacher certification. Those changes may become effective at any point during your academic program. Therefore, it is extremely important that you DO NOT SELF ADVISE.

Semester Plan

This degree does not currently have a sample semester plan. Please schedule an appointment with an academic advisor to discuss courses.

Educational, School, and Counseling Psychology

ESCP provides a diverse, supportive, and caring environment for students. Our faculty members create rich and stimulating learning opportunities through their teaching, research, and service. Our faculty are more than academic advisors and teachers - they are mentors providing students with role models featuring the scientist-practitioner model.

Faculty

Teaching Professor R. J. Scholes**
Associate Teaching Professor K. Boggs*, C. A. Oflutt**
Assistant Teaching Professor S. Dhaliwali**, M. Easter**, B. Orr**, K. Schieiltz**
Associate Clinical Professor A. J. Knoop**
Associate Research Professor L. Newcomer*
Dean of Education K. Chval

• Graduate Faculty Member - membership is required to teach graduate-level courses, chair master's thesis committees, and serve on doctoral examination and dissertation committees.
• Doctoral Faculty Member - membership is required to chair doctoral examination or dissertation committees. Graduate faculty membership is a prerequisite for Doctoral faculty membership.

Undergraduate

While MU does not offer undergraduate degrees specifically in educational and counseling psychology, the University does offer baccalaureate opportunities in a number of related areas, both within the College of Education, and in the other Schools and Colleges that make up the University. The catalog provides a complete list of these degree options (p. 17).

Graduate

• MA in Educational, School, and Counseling Psychology (p. 373)
  • with emphasis in Counseling Psychology (p. 369)
  • with emphasis in Educational Psychology (p. 370)
  • with emphasis in Educational Research Methods and Analysis (p. 371)
  • with emphasis in Health Education and Promotion (p. 372)

  • with emphasis in School Psychology, Certification (p. 387)
• PhD in Educational, School, and Counseling Psychology (p. 387)
  • with emphasis in Counseling Psychology (p. 388)
  • with emphasis in Educational Psychology (p. 389)
MA in Educational, School, and Counseling Psychology with Emphasis in Counseling Psychology

Degree Requirements

The MU Masters program in Counseling Psychology provides students training and education in the scientist-practitioner philosophy that is consistent with most Counseling Psychology Ph.D. programs, including the one at MU. Students will complete core coursework in counseling psychology and receive clinical training in the form of practicum experience and research training through faculty labs, research teams, and other research projects. They will also be required to complete an independent research manuscript during their second year in the program. This program has more of a research focus than most counseling masters programs. The program is not designed for students interested exclusively in practicing at the masters level, and students who graduate from this program will not yet be licensure-eligible for a LPC in the state of Missouri (this would require additional coursework and training).

### GENERAL PSYCHOLOGY CORE

- **ESC_PS 8040** Counseling Methods and Practices 3
- **ESC_PS 9000** Multicultural Issues in Counseling 3
- **ESC_PS 7120** Foundations of Counseling Psychology 3

Total Credits: 44-61

Thesis/Non-Thesis Requirements

The thesis/research manuscript is a project that the student completes with his or her advisor and receives advisor approval. This project will serve as the student’s comprehensive examination. Two additional committee members will be required to approve the project. The project can be either a comprehensive literature review (i.e., modeled after a review article one would see in a scholarly journal) or an independent research study written in manuscript form (i.e., introduction, method, results, discussion) or traditional thesis format. The topic of the project should be selected by the beginning of the student’s second year in the program. The project is to be completed by the deadline date for comprehensive examinations, dissertations, and thesis in April of the student’s second year.

Admissions

Applicants are required to meet two sets of minimum qualifications for admission: the requirements of the MA in Educational and Counseling Psychology program (http://gradstudies.missouri.edu/academics/programs/educational-school-and-counseling-psychology/mad-mned-or-edsp-in-educational-school-counseling-psychology.php) and the minimum requirements of the Office of Graduate Studies (http://gradstudies.missouri.edu/admissions/eligibility-process/minimum-requirements.php). Because requirements vary, you must refer to a degree program’s graduate admission page to learn about specific admission criteria, application deadlines, eligibility and application process. Your application materials will be reviewed by both the Office of Graduate Studies and the degree program to which you’ve applied before official admission to the University of Missouri.

MA in Educational, School, and Counseling Psychology with Emphasis in Educational Psychology

- Sample Plan of Study (p. 371)
- Thesis/Non-Thesis Requirements (p. 371)
- Admissions (p. 371)

Degree Requirements

The Educational Psychology program is committed to the dissemination and development of knowledge and skills in human learning and cognition, development, and motivation. We use quantitative and qualitative methods to study how people’s thinking, motivation, and behavior change across time. We study how different social settings like classroom, family, work, and peers affect people’s well-being, learning and behavior. The study of educational psychology is relevant to teachers, coaches, athletes, nurses, counselors, software developers, trainers, social workers, program evaluators, and administrators.

Educational psychologists attempt to understand how:

- how to improve learning, academic achievement, and motivation to improve human performance
- development influences learning and well being
- society influences learning and behavior
- school influences students’ development in other settings

The master’s degree program requires at least 33 credit hours. Students enrolled in the MA do a thesis or research manuscript that demonstrates research competence and includes an oral defense of the paper. The MA is the preferred degree for students who intend to pursue a PhD.

Master’s students must have completed or plan to complete 15 hours of prerequisite course work as listed below. The prerequisite coursework is over and above that required for the master’s degree itself, and thus cannot be counted on the Program of Study for the master’s degree. Many students will have completed these prerequisites in their undergraduate programs.

1. Statistics: A course in statistics covering descriptive statistics, correlation, t-tests, and chi-square. If undergraduate coursework does not include an introductory level course in statistics, ESC_PS 4170/ESC_PS 8850 must be taken to satisfy this prerequisite, but it then cannot count on the Program of Study.
2. Psychological Theory: Two courses in psychological theory (not including the introductory course in psychology), for example, personality, social, developmental, or learning.
3. Additional courses: Two additional courses in education, psychology, or sociology.

Human Diversity (Relative Course) 3

Relevant Course 12

General Electives 12
Sample Plan of Study

The plan of study will depend on the student’s career goals and research interests, and should be completed in consultation with the advisor.

Thesis/Non-Thesis Requirements

After working with the academic advisor on developing a thesis proposal, the student meets with the thesis committee to obtain approval. This happens before data collection begins. After the project is completed, the student submits a written thesis and defends the thesis to the committee. The defense can occur only when MU is officially in session.

Admissions

Applicants are required to meet two sets of minimum qualifications for admission: the requirements of the MA in Educational and Counseling Psychology program (http://gradstudies.missouri.edu/academics/programs/educational-school-and-counseling-psychology/ma,-med-or-edsp-in-educational-school-counseling-psychology.php) and the minimum requirements of the Office of Graduate Studies (http://gradstudies.missouri.edu/admissions/eligibility-process/minimum-requirements.php). Because requirements vary, you must refer to a degree program’s graduate admission page to learn about specific admission criteria, application deadlines, eligibility and application process. Your application materials will be reviewed by both the Office of Graduate Studies and the degree program to which you’ve applied before official admission to the University of Missouri.

MA in Educational, School, and Counseling Psychology with Emphasis in Educational Research Methods and Analysis

Degree Requirements

The Educational Research Methods and Analysis program provides rigorous training in statistical methods, educational measurement, and research methodologies. We offer several courses in applied statistics, from the quantitative foundations of educational research to advanced methods such as multivariate statistics, multilevel modeling, and latent variable modeling. We also offer a number of courses in educational measurement, covering topics such as classical test theory, item response theory, and generalizability theory. In addition, our students have the opportunity to take a wide range of advanced statistics and quantitative methods courses, from probability, sampling methodology, and categorical data analysis to stochastic theory, time series analysis, Bayesian statistics, and other cutting-edge quantitative techniques. We train our students in various statistical software programs including SPSS, SAS, R, Mplus, Amos, HLM, and BILOG-MG. Our students also take courses in learning theories, aspects of human development, and program evaluation. Graduates from our program are prepared to make scientific and systematic inquiries and to make data-driven decisions, typically attaining employment positions at universities, research centers, and testing organizations.

</tbody>
</table>

Selected graduate level courses in the Psychology Department with advisor approval (e.g. latent variable models in statistical analyses, categorical data analysis)

Selected graduate level courses from the Statistics Department with advisor approval (e.g. Bayesian statistics, nonparametric statistics). NOTE: MA with thesis or manuscript, 6 hours of these courses must be ESC_PS 8090.

Sample Plan of Study

The plan of study will depend on the student’s career goals and research interests, and should be completed in consultation with the Master’s Committee.

Thesis/Non-Thesis Requirements

The student will consult with the academic advisor and decide to complete a thesis or manuscript. After working with the academic advisor on developing a thesis or manuscript proposal, the student meets with the Master’s program committee to obtain approval of the written thesis or manuscript proposal. This happens before data collection begins. After the project is completed, the student submits a written thesis or manuscript and defends the thesis or manuscript to the Master’s program committee. The defense can occur only when MU is officially in session.

Admissions

Applicants are required to meet two sets of minimum qualifications for admission: the requirements of the MA in Educational and Counseling Psychology program (http://gradstudies.missouri.edu/academics/programs/educational-school-and-counseling-psychology/ma,-med-or-edsp-in-educational-school-counseling-psychology.php) and the minimum requirements of the Office of Graduate Studies. Because requirements vary, you must refer to a degree program’s graduate admission page to learn about specific admission criteria, application
deadlines, eligibility and application process. Your application materials will be reviewed by both the Office of the Graduate Studies and the degree program to which you’ve applied before official admission to the University of Missouri.

Apply online by submitting the following documents using the MU Office of Graduate Studies (http://gradstudies.missouri.edu/admissions/apply) application form by January 15th for the next Fall cohort.

- Three letters of recommendation
- Curriculum Vita
- Official academic transcripts of all previous undergraduate and graduate work
  a. Minimum undergraduate GPA of 3.0 from an accredited institution in psychology, education, statistics, or a related major.
- Statement of purpose addressing the following:
  a. Describe interests and/or experiences engaging in research, working with statistics, using measurement techniques and how these experiences have prepared you for graduate study. (500 word maximum)
  b. Describe (1) your research interests that you hope to pursue in graduate school; (2) how these interests match those of specific faculty; (3) your career objectives; and (4) how being accepted into MU’s program will benefit your career aspirations. (Please limit to 500 words)
- Official Graduate Record Examination (GRE) scores (preferred combined Verbal and Quantitative score of 300 or higher)
- TOEFL for international students (preferred score of 580 for paper test, 92 iBT, IELTS 6.5 or higher)

MA in Educational, School, and Counseling Psychology with Emphasis in Health Education and Promotion

Degree Requirements

Health Education is a strong graduate program within the Department of Educational and Counseling Psychology. The graduate program serves bachelors and masters degree students from the state of Missouri as well as from other states. Many of our graduate students are professionals practicing in the field and come to MU for graduate training. A number of our graduate students cross train in health related fields like athletics, nursing, nutrition, physical training, physical therapy, occupational therapy, and psychology.

Students who earned a bachelor's degree in a health-related program of study are qualified to enter the masters program in health education. A minimum of 30 credit hours are required for the M.A. M.A. students are required to write a thesis. Students who earn a master's degree are encouraged to take the CHES (Certified Health Education Specialist) examination for certification.

Total Credits: 18

Thesis/Non-Thesis Requirements

All MA students are required to complete a Thesis in the last semester of the program.

Admissions

This program is not accepting applications at this time.

MA in Educational, School, and Counseling Psychology with Emphasis in School Psychology

Degree Requirements

The Masters of Arts (M.A.) program in School Psychology is completed concurrently with the Doctoral (Ph.D.) program in School Psychology. The M.A. program itself is not a terminal degree program. Students admitted to the Doctoral program in School Psychology (Ph.D.) who have already completed an advanced degree in School Psychology or a related field, including completion of a data-based graduate level research project, may not be required to complete a Masters of Education (M.A.) program in School Psychology. Students admitted to the Ph.D. degree program typically complete degree requirements (coursework and comprehensive examination) for the Masters of Arts by the end of their second year in the program. Students admitted to the M.A./Ph.D. programs in School Psychology are prepared to support the learning, behavior, and mental health of youth and their families as well as support the enhancement of the educational and mental health systems that serve those children and families. Through coursework as well as research, clinical, and teaching experiences, graduates are prepared to serve as leaders in clinical settings as well as researcher/scholars in higher education settings. Completion of the M.A. program alone does not lead to licensure as a Psychologist nor state certification as a School Psychologist, however graduates of both the M.A. and Ph.D. programs are eligible for licensure as a Psychologist and state certification as a School Psychologist, pending completion of additional examinations specified in their intended jurisdiction.

Research in Educational, School, and Counseling Psychology
Thesis/Non-Thesis Requirements

Students are required to complete a data-based research project in order to earn their M.A. in School Psychology. Students have two options, the master’s thesis or the master’s manuscript, both requiring similar scholarly and scientific rigor to their project. The thesis option requires that students comply with the graduate school expectations for committee membership and formatting, while the manuscript option does not. Students taking the latter option often format their manuscript for publication in professional journals.

Admissions

Students are admitted concurrently to the M.A. and Ph.D. programs in School Psychology based on the admissions criteria identified below in the Doctoral program.

MA in Educational, School, and Counseling Psychology

Admission Contact Information

Christina Edholm (EdholmC@missouri.edu)
16 Hill Hall; Columbia, MO 65211
573-882-7738

Admission Criteria

- Minimum GPA: 3.0
- Minimum TOEFL scores:
  - Internet-based test (iBT)
    - 92
  - Paper-based test (PBT)
    - 580
- Recommended GRE scores:
  - When did you take the GRE?
    - On or After August 1, 2012
    - 300
    - Analytical
    - 4.0

Application Deadlines

- Fall deadline: December 1st for all programs except Educational Psychology and Educational Research Methods and Analysis, which is January 15th.
- M Ed, EdSp track in Mental Health Practices in Schools (online degrees) - rolling deadline Deadlines

Note: If an applicant is admitted but does not hold a bachelor’s degree in a related discipline or does not have relevant background course work, the applicant must complete prerequisite courses as specified by the faculty of the department.

Required Application Materials

To the Office of Graduate Studies:

- All required Graduate Studies documents
- Official transcripts
- GRE scores
- TOEFL scores
- 3 letters of recommendation via the online application
• Personal statement and vitae via online application per departmental requirements

**MEd in Educational, School, and Counseling Psychology**

**Admission Contact Information**

Christina Edholm (EdholmC@missouri.edu)
16 Hill Hall; Columbia, MO 65211

**Admission Criteria**

- Minimum GPA: 3.0
- Minimum TOEFL scores:
  - Internet-based test (iBT): 92
  - Paper-based test (PBT): 580
- Recommended GRE scores:
  - Verbal + Quantitative: 300
  - Analytical: 4.0

**Application Deadlines**

- Fall deadline: December 1st for most programs except Educational Psychology and Educational Research Methods and Analysis, which is January 15th
- M Ed, EdSp in Mental Health Practices in Schools (online degrees) - rolling admission
- M Ed in Positive Coaching (online degree) - rolling admission

**Note:** If an applicant is admitted but does not hold a bachelor’s degree in a related discipline or does not have relevant background course work, the applicant must complete prerequisite courses as specified by the faculty of the department.

**Required Application Materials**

*To the Office of Graduate Studies:*

- All required Graduate Studies documents
- Official transcripts
- GRE scores
- TOEFL scores
- 3 letters of recommendation via the online application
- Personal statement and vitae via online application per departmental requirements

**Note:** Online programs do NOT require GRE scores. Check individual online programs for required application materials.

---

**MEd in Educational, School, and Counseling Psychology with Emphasis in Career Counseling Psychology**

**Degree Requirements**

Career Psychology provides the theoretical basis for this program. It prepares one to practice in a variety of settings, most notably college career or advising centers, other student affairs settings, or business settings where there may be opportunity for defining or developing career roles for students or employees. MU's Career Center is where students practice what is learned in classes making this a strong scientific-practitioner model of training. This program was designed to move one toward qualifying a student to meet most but not all of the State of Missouri’s curricular requirements for Licensure as a Professional Counselor (LPC). In addition to completing course work beyond what is required for this degree, the graduate must also complete 3000 hours of supervised counseling and pass a licensure examination.

Applicants with a bachelor’s degree in a field not related to psychology will be required to complete 15 hours of prerequisite courses in the behavioral sciences (including an introductory statistics course) either prior to, or concurrently with, coursework in the program. This prerequisite coursework is over and above that required for the master’s degree itself and is not counted on the Program of Study for the master’s degree.

**MEd in Educational, School, and Counseling Psychology with Emphasis in Counseling Psychology**

**Degree Requirements**

The MU Masters program in Counseling Psychology provides students training and education in the scientist-practitioner philosophy that is consistent with most Counseling Psychology Ph.D. programs, including the one at MU. Students will complete core coursework in counseling psychology and receive clinical training in the form of practicum experience and research training through faculty labs, research teams, and other research projects. They will also be required to complete an independent research manuscript during their second year in the program. This program has more of a research focus than most counseling masters programs. The program is not designed for students interested exclusively in practicing at the masters level, and students who graduate from this program will not yet be license-eligible for a LPC in the state of Missouri (this would require additional coursework and training).

### Thesis/Non-Thesis Requirements

Students are required to pass the National Counselor Examination in Fall or Spring semester of the second year to demonstrate they have gained the requisite knowledge for the profession.

### Admissions

Applicants are required to meet two sets of minimum qualifications for admission: the requirements of the MEd in Educational, School & Counseling Psychology program (http://gradstudies.missouri.edu/academics/programs/educational-school-and-counseling-psychology/doctorate-in-educational-school-counseling-psychology.php) and the minimum requirements of the Office of Graduate Studies (http://gradstudies.missouri.edu/admissions/eligibility-process/minimum-requirements.php).

Apply online by submitting the following documents using the MU Office of Graduate Studies (https://applygrad.missouri.edu/apply) application form by December 1st for the next Fall cohort.

1. Three letters of recommendation
2. Curriculum Vita
3. Official academic transcripts of all previous undergraduate and graduate work
   a. Minimum undergraduate GPA of 3.0 from an accredited institution in psychology, education, or a related major.
4. Statement of purpose addressing the following:
   a. Describe interests and experiences working with people from diverse backgrounds (e.g. ethnic, cultural, socio-economic, religious, ability status, sexual orientation). How have these experiences influenced you? (250 word maximum).
   b. Describe experiences that demonstrate your potential for leadership that you believe distinguish you as a candidate for graduate study. (250 word maximum)
   c. Describe (1) your previous experience serving in a helping or counseling role, (2) your interests and career objectives, (3) how these interests and career objectives have developed, (4) how these interests match those of specific program faculty, and (5) how being accepted into the program of your choice will benefit your career aspirations and help you act upon your beliefs, goals, and philosophy. (Please limit to 1000 words)
5. Official Graduate Record Examination (GRE) scores for tests taken on or after August 1, 2012 should have a combined Verbal and Quantitative score of 305.
6. TOEFL for international students (preferred score of 580 for paper test, 92 IBT, IELTS 6.5 or higher)

**Degree Requirements**

December 1st for the next Fall cohort. Apply online by submitting the following documents using the MU Office requirements.php).

- Official Graduate Record Examination (GRE) scores for tests taken on or after August 1, 2012 should have a combined Verbal and Quantitative score of 305.
- TOEFL for international students (preferred score of 580 for paper test, 92 iBT, IELTS 6.5 or higher)

Applicants with a bachelor’s degree in a field not related to psychology will be required to complete 15 hours of prerequisite courses in the behavioral sciences (including an introductory statistics course) either prior to, or concurrently with, coursework in the program. This prerequisite coursework is over and above that required for the master’s degree itself and is not counted on the Program of Study for the master’s degree.

MEd in Educational, School, and Counseling Psychology with Emphasis in Educational Psychology

Degree Requirements

The Educational Psychology program is committed to the dissemination and development of knowledge and skills in human learning and cognition, development, and motivation. We use quantitative and qualitative methods to study how people's thinking, motivation, and behavior change across time. We study how different social settings like classroom, family, work, and peers affect people’s well-being, learning, and behavior. The study of educational psychology is relevant to teachers, coaches, athletes, nurses, counselors, software developers, trainers, social workers, program evaluators, and administrators.

Educational psychologists attempt to understand:
- how to improve learning, academic achievement, and motivation to improve human performance
- development influences learning and well being
- society influences learning and behavior
- school influences students' development in other settings

The master’s degree program requires at least 33 credit hours. Students enrolled in the MEd take a 4 hour comprehensive exam at the end of the program unless in the online program. Master’s students must have completed or plan to complete 15 hours of prerequisite coursework as listed below. The prerequisite coursework is over and above that required for the master’s degree itself, and thus cannot be counted on the Program of Study for the master’s degree. Many students will have completed these prerequisites in their undergraduate programs.

1. Statistics: A course in statistics covering descriptive statistics, correlation, t-tests, and chi-square. If undergraduate coursework

Human Diversity (Relevant Course) | 3 |

General Electives | 12 |

For MA with thesis or manuscript, 6 hours of these courses must be 8090. Elective courses can be taken from Educational, School, & Counseling Psychology or from other departments such as Human Development and Family Studies, Psychological Sciences, or Information Science and Learning Technology.

Student Learning and Well-being (online)

An online master's degree with a student learning and well-being focus is also available. The 33-hour program was developed with the working K-12 classroom teacher in mind. Course work is completely online and provides practical applications of learning theory, motivation, assessment of student well-being, mental health, issues of bullying, positive psychology, and the development of a safe and supportive school environment.

No GRE is required.

Complete program details (e.g., how to apply, course planner) are available at the Student Learning and Well-being website.

Sample Plan of Study

The plan of study will depend on the student's career goals and research interests, and should be completed in consultation with the advisor.

Thesis/Non-Thesis Requirements

After working with the academic advisor on developing a thesis or project proposal, the student meets with his or her committee to obtain approval. This happens before data collection begins. After the project is completed, the student submits a written thesis and defends the thesis to the committee. The defense can occur only when MU is officially in session.

Admissions

Applicants are required to meet two sets of minimum qualifications for admission: the requirements of the MEd in Educational, School & Counseling Psychology program (http://gradstudies.missouri.edu/academics/programs/educational-school-and-counseling-psychology/ma,-m-ed-or-edsp-in-educational-school-counseling-psychology.php) and the minimum requirements of the Office of Graduate Studies (http://gradstudies.missouri.edu/admissions/eligibility-process/minimum-requirements.php).

Apply online by submitting the following documents using the MU Office of Graduate Studies (https://applygrad.missouri.edu/apply) application form by January 15th for the next Fall cohort:

1. Three letters of recommendation
2. Curriculum Vita
3. Official academic transcripts of all previous undergraduate and graduate work
   a. Minimum undergraduate GPA of 3.0 from an accredited institution in psychology, education, or a related major.
4. Statement of purpose addressing the following:
   a. Describe experiences teaching, designing instruction, and engaging in research and how these experiences have prepared you for graduate study. (500 word maximum)
   b. Describe (1) your research interests that you hope to pursue in graduate school (2) how these interests match those of specific faculty (3) your career objectives, and (4) how being accepted into MU’s program will benefit your career aspirations. (Please limit to 500 words)
5. Official Graduate Record Examination (GRE) scores (preferred combined Verbal and Quantitative score of 1200 or higher)
6. TOEFL for international students (preferred score of 580 for paper test, 92 iBT, IELTS 6.5 or higher)

Applicants with a bachelor’s degree in a field not related to psychology will be required to complete 15 hours of prerequisite courses in the behavioral sciences (including an introductory statistics course) either prior to, or concurrently with, coursework in the program. This prerequisite coursework is over and above that required for the master’s degree itself and is not counted on the Program of Study for the master’s degree.

MEd in Educational, School, and Counseling Psychology with Emphasis in Educational Research Methods and Analysis

Degree Requirements

The Educational Research Methods and Analysis program provides rigorous training in statistical methods, educational measurement, and research methodologies. We offer several courses in applied statistics, from the quantitative foundations of educational research to advanced methods such as multivariate statistics, multilevel modeling, and latent variable modeling. We also offer a number of courses in educational measurement, covering topics such as classical test theory, item response theory, and generalizability theory. In addition, our students have the opportunity to take a wide range of advanced statistics and quantitative methods courses, from probability, sampling methodology, and categorical data analysis to stochastic theory, time series analysis, Bayesian statistics, and other cutting-edge quantitative techniques.

We train our students in various statistical software programs including SPSS, SAS, R, Mplus, Amos, HLM, and BILOG-MG. Our students also
take courses in learning theories, aspects of human development, and program evaluation. Graduates from our program are prepared to make scientific and systematic inquiries and to make data-driven decisions, typically attaining employment positions at universities, research centers, and testing organizations.

Research Methods Courses in this area may vary. Possible course selection includes:

- ESC_PS 9650 Application of Multivariate Analysis in Educational Research
- ESC_PS 9710 Structural Equation Modeling
- ESC_PS 9720 Hierarchical Linear Modeling
- ESC_PS 8655 Item Response Theory
- ESC_PS 8087 Seminar in Educational, School, and Counseling Psychology
- ESC_PS 8690 Educational Planning and Evaluation

Selected graduate level courses in the Psychology Department with advisor approval (e.g., latent variable models in statistical analyses, categorical data analysis).

Selected graduate level courses from the Statistics Department with advisor approval (e.g., Bayesian statistics, nonparametric statistics).

Sample Plan of Study

The plan of study will depend on the student’s career goals and research interests, and should be completed in consultation with the Master’s Committee.

Thesis/Non-Thesis Requirements

To complete the comprehensive exam, students must successfully complete a written comprehensive exam.

Admissions

Applicants are required to meet two sets of minimum qualifications for admission: the requirements of the MEd in Educational, School, and Counseling Psychology program and the minimum requirements of the Office of Graduate Studies (http://gradstudies.missouri.edu/admissions/eligibility-process/minimum-requirements.php).

1. Apply online by submitting the following documents using the MU Office of Graduate Studies (https://applygrad.missouri.edu/apply) application form by January 15th for the next Fall cohort.
2. The three letters of recommendation
3. Curriculum Vita
4. Official academic transcripts of all previous undergraduate and graduate work
   a. Minimum undergraduate GPA of 3.0 from an accredited institution in psychology, education, or a related major.

5. Statement of purpose addressing the following:
   a. Describe interests and experiences engaging in research, working with statistics, using measurement techniques and how these experiences have prepared you for graduate study. (500 word maximum)
   b. Describe (1) your research interests that you hope to pursue in graduate school; (2) how these interests match those of specific faculty; (3) your career objectives; and (4) how being accepted into MU’s program will benefit your career aspirations. (Please limit to 500 words)

6. Official Graduate Record Examination (GRE) scores for tests taken within the last 5 years should have a combined Verbal and Quantitative score of 305.
7. TOEFL for international students (preferred score of 580 for paper test, 92 iBT, IELTS 6.5 or higher)

MEd in Educational, School, and Counseling Psychology with Emphasis in Health Education and Promotion

Degree Requirements

Health Education is a strong graduate program within the Department of Educational and Counseling Psychology. The graduate program serves bachelors and masters degreed students from the state of Missouri as well as from other states. Many of our graduate students are professionals practicing in the field and come to MU for graduate training. A number of our graduate students cross train in health related fields like athletics, nursing, nutrition, physical training, physical therapy, occupational therapy, and psychology.

Students who earned a bachelor’s degree in a health-related program of study are qualified to enter the masters program in health education. A minimum of 30 credit hours are required for the MEd Students who earn a master's degree are encouraged to take the CHES (Certified Health Education Specialist) examination for certification.

Individual Studies

(Individual Studies are electives related to student’s area of expertise)
Sample Plan of Study

A student’s plan of study will vary depending on her/his program track and career goals and should be completed in consultation with her/his academic advisor.

Thesis/Non-Thesis Requirements

The M.Ed. student is required to take a comprehensive examination during the last semester in the program.

Admissions

This program is not accepting applications at this time.

MEd in Educational, School, and Counseling Psychology with Emphasis in Mental Health Practices in Schools

The online Mental Health Practices in Schools (http://online.missouri.edu/degreq/psychology-mh) program is intended for school personnel, educators and other community mental health professionals who work with children and adolescents in schools and community agencies. This includes elementary and secondary teachers, special education professionals, school counselors, school nurses, administrators, at-risk coordinators and resource officers, safety coordinators, substance abuse coordinators, speech/language pathologists, itinerant and migrant educators, and private practitioners.

Courses are designed to offer practical applications of psychological concepts and are taught by experts in the field. The program identifies and deals with issues that promote positive mental health of children and adolescents. Courses in the program provide a solid base to increase awareness, knowledge and skills in areas such as:

- Identifying and assessing evidence-based prevention and intervention strategies and programs
- Communicating effectively with parents, children and school personnel
- Building resiliency and optimism in children and adolescents
- Increasing awareness of multicultural and diversity issues
- Understanding mental, emotional, and behavioral factors in youth
- Managing crisis interventions
- Applying wellness management for self and others
- Implementing positive behavior support and strategies in the classroom
- Collaborating with families and other school personnel

Note: This program does not provide school counselor certification, nor any professional counseling licensure.

Website: Mental Health Practices in Schools (http://online.missouri.edu/degreq/psychology-mh).

Degree Requirements

This is a 34 credit hour program. Students take 25 hours of required course work and 9 hours of electives.

Required courses (25 credit hours)

Thesis/Non-Thesis Requirements

Capstone paper

The program requires a capstone integrative paper allowing students to demonstrate the knowledge, skills, and competencies acquired through the program’s course work.

Admissions

Applicants are required to meet two sets of minimum qualifications for admission: the requirements of the MEd in Educational and Counseling Psychology program (below) and the minimum requirements of the Office of Graduate Studies (http://gradstudies.missouri.edu/admissions/eligibility-process/minimum-requirements). Because requirements vary, you must refer to a degree program's graduate admission page to learn about specific admission criteria, application deadlines, eligibility and application process. Your application materials will be reviewed by both the Office of Graduate Studies and the degree program to which you’ve applied before official admission to the University of Missouri.

Admission criteria (M Ed)

1. Successful completion of the baccalaureate degree at an accredited college/university.
2. 3.0 or better grade point average in the last 60 hours of baccalaureate coursework
3. TOEFL score: Minimum 580 (paper) or 92 (ibt). Applies to non-native English speaking applicants only. If the non-native English speaking applicant has successfully completed one year of full-time post-secondary (college-level) study in a country where English is the native language within the past two years, then the TOEFL is waived.
4. GRE scores are NOT required.

Application Process:

1. Complete the online Graduate Admissions application (https://app.applyyourself.com/AYApplicantLogin/fi_ApplicantConnectLogin.asp?id=umc-grad).
2. As part of the submission process, applicants are required to upload UNOFFICIAL copies of all transcripts to the online application.

NOTE: If you are accepted by our academic program, you will then be asked to provide official copies of all transcripts to: Office of Graduate Studies, University of Missouri, 210 Jesse Hall, Columbia, Missouri 65211.

3. Three letters of recommendation will need to be submitted via the online application. Each recommender will receive directions on how to submit the recommendation once you have entered their contact information in the application system.

4. You must also provide the following supplementary materials:
   - Personal Statement and Vita/Résumé via the online online Graduate Admissions application (https://app.applyyourself.com/AYApplicantLogin/I. ApplicantConnectLogin.asp?id=umc-grad). In your statement describe:
     a. Your previous/current experience serving in a teaching, helping or counseling role,
     b. Your interests and career objectives,
     c. How these interests and career objectives have developed, and
     d. How being accepted into the program will benefit your career aspirations and help you act upon your beliefs, goals and philosophy. Include interests and experiences working with diverse groups (e.g. ethnic, cultural, socio-economic, religious, ability status, sexual orientation, grade levels, ages), leadership roles, or other skills or experiences (not previously mentioned) that you believe distinguish you as a candidate for graduate study. (Please limit to 1000 words).

5. If your native language is other than English, the Test of English as a Foreign Language (TOEFL (http://www.toefl.org)) is required. Please send this to the Office of Graduate Studies using school code 6875.

   • Please be sure to upload all supplemental materials BEFORE you submit the application.

For applicants currently enrolled as graduate students at MU:

1. Complete the Change of Degree (http://gradstudies.missouri.edu/forms-downloads/repository/change-degree.pdf) form.
2. Provide unofficial copies of your University of Missouri transcripts.
3. Provide 3 letters of recommendation.

Send application materials to Sandy Sites (SitesS@missouri.edu) or mail to the ESCP Dept., 16 Hill Hall, Columbia, MO 65211

Application deadline: None - rolling admission.

MEd in Educational, School, and Counseling Psychology with Emphasis in School Counselor, Elementary and Secondary, Certification

Degree Requirements

Students who select this specialty have an interest in working as elementary school, middle school, or high school counselors. The curriculum of this specialty is based on the scientist-practitioner model of training as well as the comprehensive school guidance and counseling program model, both of which emphasize the best in counseling psychology theory, research, and practice. The missions of the MU School Counseling Masters and Specialist degree programs are to prepare individuals to practice successfully as entry-level multiculturally sensitive professional school counselors in socially and economically diverse work settings.

The specific courses that meet these requirements are as follows (42 credit hours):

I. General Psychology Core

<table>
<thead>
<tr>

</tr>
</tbody>
</table>

III. Practicum

Secondary school counseling students must complete two practicums in a secondary school setting for a total of 9 semester hours. Elementary school counseling students must complete two practicums in an elementary school setting for a total of 9 semester hours. Students wishing all level certification are required to complete an additional 3 hours of practicum in the setting in which they did not previously complete a practicum plus complete all of the other coursework in both elementary and secondary school counseling.

VI. Credential Preparation
Candidates must apply for an official evaluation of their credentials in the Office of Certification, 102 Hill Hall prior to the completion of the last 15 hours of required course work.

**VII. Licensure, Certification and Registry**

The courses in this planner are designed to meet the requirements of the Department of Educational, School, and Counseling Psychology (42 hours), the College of Education, and the University of Missouri Graduate School. They also fulfill state certification requirements to become entry-level professional school counselors, but do not fulfill requirements for state licensure as a psychologist or counselor, for certification as a marriage and family therapist, alcoholism counselor or other specialties, or certification by the National Board of Certified Counselors. If you wish to fulfill the requirements for licensure, certification or registry, you will need to inform yourself accordingly and add to your M.Ed. degree planner the additional coursework necessary. Information about psychologist and counselor licensure, certification, and registry in Missouri is available in Room 16 Hill Hall.

**VIII. Prerequisites to Master's Programs**

In order to apply for any master’s degree program in the Department of Educational, School, & Counseling Psychology, an applicant either must have completed or plan to complete 15 hours of prerequisite course work as indicated below:

- **Statistics.** A course in statistics covering descriptive statistics, correlation, t-tests and Chi-square.
- **Psychological Theory.** Two courses in psychological theory (not including the introductory course in psychology) for example: personality, social, developmental or learning.
- **Additional Courses.** Two additional courses in education, psychology and/or sociology.

If you are deficient in one or more of these areas, you may still be admitted with the provision that you make up any prerequisites during your graduate enrollment. Such make-up work will not count toward the hours required for any degree.

**IV. Policy on Non-degree Graduate Students (NGS) for School Counseling**

If admitted to an ESCP program, a NGS may apply up to 12 hours. The ONLY courses a NGS may take to apply to the Elementary and Secondary School Counseling program are:

- **ESC_PS 8060** Lifespan Development
- **ESC_PS 8135** Foundations of Career Psychology
- **ESC_PS 8020** Overview of Research Methods
- **ESC_PS 8410** School Guidance Programs

### Thesis/Non-Thesis Requirements

Students will required to complete state requirements for licensure, including the Missouri State Performance Task Assessment for School counselors and the state licensure exam for school counselors.

### Admissions

Applicants are required to meet two sets of minimum qualifications for admission: the requirements of the MEd in Educational and Counseling Psychology program (http://gradstudies.missouri.edu/academics/programs/educational-school-and-counseling-psychology/ma-m- ed-or-edsp-in-educational-school-counseling-psychology.php) and the minimum requirements of the Office of Graduate Studies (http://gradstudies.missouri.edu/admissions/eligibility-process/minimum-requirements.php). Because requirements vary, you must refer to a degree program’s graduate admission page to learn about specific admission criteria, application deadlines, eligibility and application process. Your application materials will be reviewed by both the Office of Graduate Studies and the degree program to which you’ve applied before official admission to the University of Missouri.

### MEd in Educational, School, and Counseling Psychology with Emphasis in School Counselor, Secondary, Certification

#### Degree Requirements

Students who select this specialty have an interest in working as elementary school, middle school, or high school counselors. The curriculum of this specialty is based on the scientist-practitioner model of training as well as the comprehensive school guidance and counseling program model, both of which emphasize the best in counseling psychology theory, research, and practice. The missions of the MU School Counseling Masters and Specialist degree programs are to prepare individuals to practice successfully as entry-level multiculturally sensitive professional school counselors in socially and economically diverse work settings.

The specific courses that meet these requirements are as follows (42 credit hours):

**I. General Psychology Core**

- **ESC_PS 8060** Lifespan Development
- **ESC_PS 8070** Ethical and Legal Issues in Psychological Practice
- **ESC_PS 8082** Foundations of Educational and Psychological Measurement

VIII. Licensure, Certification and Registry

The courses in this planner are designed to meet the requirements of the Department of Educational, School, and Counseling Psychology (42 hours), the College of Education, and the University of Missouri Graduate School. They also fulfill state certification requirements to become entry-level professional school counselors, but do not fulfill requirements for state licensure as a psychologist or counselor, for certification as a marriage and family therapist, alcoholism counselor or other specialties, or certification by the National Board of Certified Counselors. If you wish to fulfill the requirements for licensure, certification or registry, you will need to inform yourself accordingly and add to your M.Ed. degree planner the additional coursework necessary. Information about psychologist and counselor licensure, certification, and registry in Missouri is available in Room 16 Hill Hall.
MEd in Educational, School, and Counseling Psychology with Emphasis in School Psychology

Degree Requirements

The Masters of Education (M.Ed.) program in School Psychology is completed concurrently with the Educational Specialist (Ed.S.) program in School Psychology. The M.Ed. program itself is not a terminal degree program. Students admitted to the Educational Specialist degree program will complete degree requirements (coursework and comprehensive examination) for the Masters in Education by the end of the Winter semester of their second year in the program. Students admitted to the M.Ed./Ed.S. programs in School Psychology are prepared to work with children, youth, families, and educators to promote effective functioning in the areas of learning, behavior, and mental health in schools. Operating from a problem solving framework, our focus is on preparing data-based decision makers capable of intervening to address both individual- and systems-level challenges. Students develop professional competencies in assessment, intervention, consultation, and research/evaluation. Completion of the M.Ed. program alone does not lead to state certification as a School Psychologist, however graduates of both the M.Ed. and Ed.S. programs are eligible for state certification as a School Psychologist in Missouri and in most other states, though additional requirements may need to be fulfilled per each state’s certification rules.

Thesis/Non-Thesis Requirements

No thesis is required from the Masters of Education program in school psychology.

Admissions

Students are admitted concurrently to the M.Ed. and Ed.S. programs in School Psychology based on the admissions criteria identified below in the Educational Specialist program.

MEd in Educational, School, and Counseling Psychology with Emphasis in Sport Psychology

Degree Requirements

This degree program provides a strong, fortified (51 credit hours) Masters Degree that blends the two fields of Sport Psychology and Career Counseling. Students who choose this specialty area have an interest in working with the careers of individuals in the world of sports (sport coaches, strength and conditioning coaches, athletic trainers, athletic academic counselors, Life Skills coordinators, athletic administrators, career coaches, life coaches, and the like). The curriculum is based on a scientist-practitioner model of training as well as a holistic view of how sport, career choice, and personal adjustment provide one with both an engaging and rewarding career and personal life. There is a strong emphasis on learning thru experience, where the experiences derived in and with athletic teams and with a college career center.

The Counseling Sport Psychology program was designed to move one toward qualifying a student to meet most but not all of the State of Missouri’s curricular requirements for Licensure as a Professional Counselor (LPC). In addition to required course work, the graduate must also complete 3000 hours of supervised counseling and pass a licensure examination. The Counseling Sport Psychology program was also designed to qualify a student to meet some of the Association for the Advancement of Applied Sport Psychology’s (AAASP) curricular requirements to become a Certified AAASP Consultant. Additional courses/experiences necessary for AAASP Certification are included in a separate Sport Psychology electives section.

EdSp in Educational, School, and Counseling Psychology with Emphasis in Counseling Psychology

Degree Requirements

The program of study outlined for the degree must contain a minimum of 30 semester hours of approved graduate credit beyond the master's degree. No more than 12 semester hours of non-degree seeking (NGS) course work may be used in a program. Evidence of proficiency in the areas of educational statistics and research methodology must be shown prior to the candidates’ taking the final comprehensive examination. This will normally be provided through satisfactory completion of ESC_PS 7170 Introduction to Applied Statistics and ESC_PS 8020 Overview of Research Methods or equivalent. If not completed as part of the master’s degree, the program must include a course in the behavioral, social, historical, or philosophic foundations of education. The program may consist entirely of courses in education or may be made up, in part, of courses from other disciplines selected to fit the candidate’s professional needs. A minimum of 15 semester hours of the program must be courses offered in the College of Education. A minimum of 15 semester hours of the program must also be courses numbered 8000 or above. To adhere to the concept of a planned program, at least eight semester hours of the program must be completed after the Program of Study has been filed with the Office of Graduate Studies.

Sample Plan of Study

The plan of study will depend on the student’s career goals and research interests, and should be completed in consultation with the student’s advisor.

Comprehensive Examination Process

The Comprehensive Exam is administered once a year in July or August. The Comprehensive Exam is administered as a take-home exam and follows an essay/long answer response format. It is expected that responses will not exceed 10 pages (double-spaced; not including references) in length and will adequately provide both breadth and depth on the topic. Appropriate citations are expected. Attention should also be paid to grammar, APA style, and overall professional writing conventions. Students will have two consecutive weekends to complete the exam. Students schedule an oral exam after successfully passing the written portion of the comprehensive exam.

The Comprehensive Exam is designed as an integrative, culminating assessment of foundational knowledge of (1) counseling theories, assessment and practice, (2) research design, measurement, and statistics, (3) multicultural and professional issues, and (4) career development. Thus, the exam is designed to assess students’ ability to (a) use counseling theories and appropriate assessment strategies to conceptualize clinical cases and to identify appropriate intervention strategies in clinical practice; (b) design research studies, including developing appropriate research questions, addressing issues related to a study’s internal and external validity, applying appropriate methods for the research methodology, and identifying appropriate statistical analyses; (c) understand multicultural, ethical and professional issues related to counseling psychology; and (d) apply appropriate vocational theories and assessment in practice.

Admissions

Applicants are required to meet two sets of minimum qualifications for admission: the requirements of the EdSp in Educational, School & Counseling Psychology program (http://gradstudies.missouri.edu/academics/programs/educational,-school-and-counseling-psychology/ma,-m-ed-or-edsp-in-educational,-school--counseling-psychology.php) and the minimum requirements of the Office of Graduate Studies (http://gradstudies.missouri.edu/admissions/eligibility-process/minimum-requirements). Because requirements vary, you must refer to a degree program’s graduate admission page to learn about specific admission criteria, application deadlines, eligibility and application process. Your application materials will be reviewed by both the Office of Graduate Studies and the degree program to which you’ve applied before official admission to the University of Missouri.

EdSp in Educational, School, and Counseling Psychology with Emphasis in Mental Health Practices in Schools

The online Mental Health Practices in Schools (http://online.missouri.edu/degreeprograms/education/mental-health-practices-in-schools/education-specialist) program is intended for school personnel, educators and other community mental health professionals who work with children and adolescents in schools and community agencies. This includes elementary and secondary teachers, special education professionals, school counselors, school nurses, administrators, at-risk coordinators and resource officers, safety coordinators, substance abuse coordinators, speech/language pathologists, itinerant and migrant educators, and private practitioners.

Courses are designed to offer practical applications of psychological concepts and are taught by experts in the field. The program identifies and deals with issues that promote positive mental health of children and adolescents. Courses in the program provide a solid base to increase awareness, knowledge and skills in areas such as:

- Identifying and assessing evidence-based prevention and intervention strategies and programs
- Communicating effectively with parents, children and school personnel
- Building resiliency and optimism in children and adolescents
- Increasing awareness of multicultural and diversity issues
- Understanding mental, emotional, and behavioral factors in youth
- Managing crisis interventions
- Applying wellness management for self and others
- Implementing positive behavior support and strategies in the classroom
- Collaborating with families and other school personnel

Note: This program does not provide school counselor certification, nor any professional counseling licensure.
Website: Mental Health Practices in Schools (http://online.missouri.edu/degreeprograms/education/mental-health-practices-in-schools/education-specialist).

**Degree Requirements**

The educational specialist degree is a 31-hour program of specialization built upon the master’s degree. To earn the Mental Health Practices in Schools educational specialist degree, students complete 31 credit hours from among the courses listed below. The only required courses are the research methods (ESC_PS 8020) and capstone (ESC_PS 8490). At least 5 courses must be at the 8000 level. Students can select the remaining courses that best fit their educational and professional experience and interests.

**Comprehensive Examination Process**

**Capstone paper**

The program requires a capstone integrative paper allowing students to demonstrate the knowledge, skills, and competencies acquired through the program's course work.

**Admissions**

Applicants are required to meet two sets of minimum qualifications for admission: the requirements of the EdSp in Educational and Counseling Psychology (http://gradstudies.missouri.edu/academics/programs/educational-school-and-counseling-psychology/ma-m-ed-or-edsp-in-educational-school-counseling-psychology.php) program and the minimum requirements of the Office of Graduate Studies (http://gradstudies.missouri.edu/admissions/eligibility-process/minimum-requirements). Because requirements vary, you must refer to a degree program’s graduate admission page to learn about specific admission criteria, application deadlines, eligibility and application process. Your application materials will be reviewed by both the Office of Graduate Studies and the degree program to which you’ve applied before official admission to the University of Missouri.

**Admission criteria (EdSp)**

1. Successful completion of the baccalaureate and master's degree at an accredited college/university.
2. 3.0 or better grade point average in the last 60 hours of baccalaureate coursework.
3. TOEFL score: Minimum 580 (paper) or 92 (ibt). Applies to non-native English speaking applicants only. If the non-native English-speaking applicant has successfully completed one year of full-time post-secondary (college-level) study in a country where English is the native language within the past two years, then the TOEFL is waived.
4. GRE scores are NOT required.

**Application Process:**

1. Complete the online Application to the Graduate School (https://app.applyyourself.com/?id=umc-grad).
2. As part of the submission process, applicants are required to upload UNOFFICIAL copies of all transcripts to the online application.
   **NOTE:** If you are accepted by our academic program, you will then be asked to provide official copies of all transcripts to: Office of Graduate Studies, University of Missouri, 210 Jesse Hall, Columbia, Missouri 65211.
3. Three letters of recommendation will need to be submitted via the online application. Each recommender will receive directions on how to submit the recommendation once you have entered their contact information in the application system.
4. You must also provide the following supplementary materials: Personal Statement and Vita/Résumé via the online Application to the Office of Graduate Studies (https://app.applyyourself.com/?id=umc-grad). In your statement describe:
   a. Your previous/current experience serving in a teaching, helping or counseling role,
   b. Your interests and career objectives,
   c. How these interests and career objectives have developed, and
   d. How being accepted into the program will benefit your career aspirations and help you act upon your beliefs, goals and philosophy. Include interests and experiences working with diverse groups (e.g. ethnic, cultural, socio-economic, religious, ability status, sexual orientation, grade levels, ages), leadership roles, or other skills or experiences (not previously mentioned) that you believe distinguish you as a candidate for graduate study. (Please limit to 1000 words).
5. If your native language is other than English, the Test of English as a Foreign Language (TOEFL (http://www.toefl.org)) is required. Please send this to the Office of Graduate Studies using school code 6875.
6. Please be sure to upload all supplemental materials BEFORE you submit the application.

**For applicants currently enrolled as graduate students at MU:**

1. Complete the Change of Degree (http://gradstudies.missouri.edu/forms-downloads/repository/change-degree.pdf) form.
2. Provide unoffcial copies of your University of Missouri transcripts.
3. Provide 3 letters of recommendation.
Send application materials to Sandy Sites (SitesS@missouri.edu) or mail to the ESCP Dept., 16 Hill Hall, Columbia, MO 65211

**Application deadline: None - rolling admission.**

### EdSp in Educational, School, and Counseling Psychology with Emphasis in School Psychology, Certification

#### Degree Requirements

Graduates of the Ed.S. program in School Psychology are prepared to work with children, youth, families, and educators to promote effective functioning in the areas of learning, behavior, and mental health in schools. Operating from a problem solving framework, our focus is on preparing data-based decision makers capable of intervening to address both individual- and systems-level challenges. Students develop professional competencies in assessment, intervention, consultation, and research/evaluation. Graduates of the Ed.S. program are eligible for state certification as a School Psychologist in Missouri and in most other states, though additional requirements may need to be fulfilled per each state’s certification rules.

#### Sample Plan of Study

Below is a sample plan of study for completion of the coursework requirements for the Ed.S. in school psychology, however each individual student’s plan of study varies depending on their pace in the program and individual choices when options are available. The Educational Specialist program in School Psychology is completed concurrently with the Masters in Education (M.Ed.) program in School Psychology. As a result, the first year after admission to the program is predominately focused on the M.Ed. coursework.

### Comprehensive Examination Process

The comprehensive examination for the Ed.S. in School Psychology includes two components: a portfolio documenting specific clinical experiences completed during the internship year and the Praxis II national School Psychology exam (administered by the Educational Testing Service).

### Admissions

Applicants are required to meet two sets of minimum qualifications for admission: the requirements of the EdSp in Educational, School & Counseling Psychology program (http://gradstudies.missouri.edu/academics/programs/educational-school-and-counseling-psychology/doctorate-in-educational-school-counseling-psychology.php) and the minimum requirements of the Office of Graduate Studies (http://gradstudies.missouri.edu/admissions/eligibility-process/minimum-requirements.php).

### PhD in Educational, School, and Counseling Psychology

**Admission Contact Information**
Christina Edholm (EdholmC@missouri.edu)
16 Hill Hall
Columbia, MO 65211
(573) 882-7738

**Admission Criteria**

- Fall deadline: December 1st for most programs except Educational Psychology and Educational Research Methods and Analysis, which is January 15th
Minimum TOEFL scores:
- Internet-based test (iBT): 92
- Paper-based test (PBT): 580

Recommended GRE scores:
When did you take the GRE? | Verbal + Quantitative | Analytical
---|---|---
On or After August 1, 2012 | 305 | 4.0

Required Application Materials
To the Office of Graduate Studies:
- All required Graduate Studies documents
- Official transcripts
- GRE scores
- TOEFL scores
- 3 letters of recommendation via the online application
- Personal statement and vitae via online application per departmental requirements

PhD in Educational, School, and Counseling Psychology with Emphasis in Counseling Psychology

Degree Requirements

I. GENERAL PSYCHOLOGY CORE* 36
Statistics and Research Methodology 12
Psychological Foundations 24

II. COUNSELING PSYCHOLOGY CORE 80
(Exclusive of and in addition to the General Psychology Core)
Historical and Research Foundations 6
Vocational Bases of Behavior 6
Human Diversity 5
Intervention Procedures 15
Assessment 9
Clinical 27
Dissertation 12

Sample Plan of Study
A student’s plan of study will vary depending on her/his program track and career goals and should be completed in consultation with her/his academic advisor.

Qualifying Process
The Graduate School requires that students pass a qualifying examination as a condition of official admittance to the PhD program. Acceptable performance on the Departmental Qualifying Examination is defined as a achieving a grade of “B” or better in each of the courses comprising the “core” courses for each of four emphasis areas. These courses are:
- ESC_PS 7120 Foundations of Counseling Psychology
- ESC_PS 8040 Counseling Methods and Practices

Comprehensive Examination Process
The Comprehensive Exam is administered once a year in July or August. The Comprehensive Exam is administered as a take-home exam and follows an essay/long answer response format. It is expected that responses will not exceed 10 pages (double-spaced; not including references) in length and will adequately provide both breadth and depth on the topic. Appropriate citations are expected. Attention should also be paid to grammar, APA style, and overall professional writing conventions. Students will have two consecutive weekends to complete the exam. Students schedule an oral exam after successfully passing the written portion of the comprehensive exam. The Comprehensive Exam is designed as an integrative, culminating assessment of foundational knowledge of (1) counseling theories, assessment and practice, (2) research design, measurement, and statistics, (3) multicultural and professional issues, and (4) career development. Thus, the exam is designed to assess students’ ability to (a) use counseling theories and appropriate assessment strategies to conceptualize clinical cases and to identify appropriate intervention strategies in clinical practice; (b) design research studies, including developing appropriate research questions, addressing issues related to a study’s internal and external validity, applying appropriate methods for the research methodology, and identifying appropriate statistical analyses; (c) understand multicultural, ethical and professional issues related to counseling psychology; and (d) apply appropriate vocational theories and assessment in practice.

Dissertation Requirements
After working with the academic advisor on developing a dissertation proposal, the student meets with her/his doctoral program committee to obtain approval of the written dissertation proposal. This happens before data collection begins. After the project is completed, the student submits a written dissertation and defends her/his dissertation project to the doctoral program committee.

Admissions
Applicants are required to meet two sets of minimum qualifications for admission: the requirements of the PhD in Educational, School & Counseling Psychology program (http://gradstudies.missouri.edu/academics/programs/educational,-school-and-counseling-psychology/doctorate-in-educational,-school--counseling-psychology.php) and the minimum requirements of the Office of Graduate Studies (http://gradstudies.missouri.edu/admissions/eligibility-process/minimum-requirements.php).

Apply online by submitting the following documents using the MU Office of Graduate Studies (https://app.applyyourself.com/AYApplicantLogin/fl_ApplicantConnectLogin.asp?id=umc-grad) application form by December 1st for the next Fall cohort.
- Three letters of recommendation
- Curriculum Vita
- Official academic transcripts of all previous undergraduate and graduate work
  - Minimum undergraduate GPA of 3.0 from an accredited institution in psychology, education, or a related major.
- Statement of purpose addressing the following:
The Ph.D. program focuses on generating original research and consists of a minimum of 72 semester hours of graduate credit beyond the bachelor's degree. The plan of study provides additional details about requirements. The following is a synopsis.

**PhD in Educational, School, and Counseling Psychology with Emphasis in Educational Psychology**

### Degree Requirements

The Educational Psychology program is committed to the dissemination and development of knowledge and skills in human learning and cognition, development, and motivation. We use quantitative and qualitative methods to study how people's thinking, motivation, and behavior change across time. We study how different social settings like classroom, family, work, and peers affect people's well-being, learning, and behavior. The study of educational psychology is relevant to teachers, coaches, athletes, nurses, counselors, software developers, trainers, social workers, program evaluators, and administrators.

Educational psychologists attempt to understand:

- how to improve learning, academic achievement, and motivation
- developmental influences on learning and well-being
- how society influences learning and behavior
- school influences on students' development in other settings
- improving human performance

The Ph.D. program focuses on generating original research and consists of a minimum of 72 semester hours of graduate credit beyond the bachelor's degree. The plan of study provides additional details about requirements. The following is a synopsis.

### I. Core Statistics and Research Courses

<table>
<thead>
<tr>

<td>3</td>
</tr>
<tr>
<td>ESC_PS 8082</td>
<td>Foundations of Educational and Psychological Measurement</td>
<td>3</td>
</tr>
<tr>
<td>ESC_PS 9650</td>
<td>Application of Multivariate Analysis in Educational Research</td>
<td>3</td>
</tr>
</tbody>
</table>

### Electives

- Official Graduate Record Examination (GRE) scores for tests taken on or after August 1, 2012 should have a combined Verbal and Quantitative score of 305.
- TOEFL for international students (preferred score of 580 for paper test, 92 iBT, IELTS 6.5 or higher)

Applicants with a bachelor's degree in a field not related to psychology will be required to complete 15 hours of prerequisite courses in the behavioral sciences (including an introductory statistics course) either prior to, or concurrently with, coursework in the program. This prerequisite coursework is over and above that required for the master's degree itself and is not counted on the Program of Study for the master's degree.

### Sample Plan of Study

The plan of study will depend on the student's career goals and research interests, and should be completed in consultation with the Doctoral Dissertation Committee.

### Qualifying Process

The Graduate School requires that students pass a qualifying examination as a condition of official admittance to the PhD program. Acceptable performance on the Departmental Qualifying Examination is defined as achieving a grade of “B” or better in each of the courses comprising the “core” courses. For educational psychology, these courses are the following:

- ESC_PS 8060 Lifespan Development
- ESC_PS 8320 Advanced Human Learning
- ESC_PS 8355 Cognition and Emotion
- ESC_PS 9450 Motivation
- Human Diversity (Relevant Course)

### Comprehensive Examination Process

To complete the comprehensive exam, students must complete evidence of professional activity, evidence of teaching, two assigned papers, and an oral exam. The two papers are administered as a take-home exam with one week for completion of each paper. The procedure is described in a separate document. The papers can be written during any semester. They must be scored as passing before the oral exam can be conducted. The oral exam must be scheduled during fall or spring semesters.

### Dissertation Requirements

After working with the academic advisor on developing a dissertation proposal, the student meets with the doctoral program committee to obtain approval of the written dissertation proposal. This happens before data collection begins. After the project is completed, the student submits a written dissertation and defends the dissertation to the doctoral
program committee. The defense can occur only when MU is officially in session.

Admissions

Applicants are required to meet two sets of minimum qualifications for admission: the requirements of the PhD in Educational, School & Counseling Psychology program (http://gradstudies.missouri.edu/academics/programs/educational-school-and-counseling-psychology/doctorate-in-educational-school-counseling-psychology.php) and the minimum requirements of the Office of Graduate Studies (http://gradstudies.missouri.edu/admissions/eligibility-process/minimum-requirements.php). Apply online by submitting the following documents using the MU Office of Graduate Studies (https://applygrad.missouri.edu/application form by January 15th for the next Fall cohort.

1. The three letters of recommendation
2. Curriculum Vita
3. Official academic transcripts of all previous undergraduate and graduate work
   a. Minimum undergraduate GPA of 3.0 from an accredited institution in psychology, education, or a related major.
4. Statement of purpose addressing the following:
   a. Describe experiences teaching, designing instruction, and engaging in research and how these experiences have prepared you for graduate study. (500 word maximum)
   b. Describe (1) your research interests that you hope to pursue in graduate school (2) how these interests match those of specific faculty (3) your career objectives, and (4) how being accepted into MU’s program will benefit your career aspirations. (Please limit to 500 words)
5. Official Graduate Record Examination (GRE) scores for tests taken on or after August 1, 2012 should have a combined Verbal and Quantitative score of 305.
6. TOEFL for international students (preferred score of 580 for paper test, 92 iBT, IELTS 6.5 or higher)

   a. Describe (1) your research interests that you hope to pursue in graduate school, (2) your career objectives, and (3) how being accepted into MU’s program will benefit your career aspirations.
   b. Describe interests and or experience in designing empirical studies and/or analyzing empirical data. Briefly describe why you have chosen particular research designs to answer the research questions. (2500 words max.).
   c. Describe interests and experience in analyzing empirical data. Briefly describe why you have chosen particular statistical models to answer the research questions. (250 words max.).
   d. Describe interest or experiences that demonstrate your potential in applied, theoretical, and/or computational statistics, that you believe distinguish you as a candidate for graduate study (250 words max.).
6. Official Graduate Record Examination (GRE) scores for tests taken on or after August 1, 2012 should have a combined Verbal and Quantitative score of 305.
7. TOEFL for international students (preferred score of 580 for paper test, 92 iBT, IELTS 6.5 or higher).

Sample Plan of Study

A student’s plan of study will vary depending on her/his program track and career goals and should be completed in consultation with her/his academic advisor.

Qualifying Process

The Graduate School requires that students pass a qualifying examination as a condition of official admittance to the PhD program.

Comprehensive Examination Process

The Comprehensive Exam is administered once a year.

Dissertation Requirements

After working with the academic advisor on developing a dissertation proposal, the student meets with her/his doctoral program committee to obtain approval of the written dissertation proposal. After the project is completed, the student submits a written dissertation and defends her/his dissertation project to the doctoral program committee.

Admissions

This program is not accepting admissions at this time.

Total Credits: 76-87

Qualifying Process

The qualifying examination for the Ph.D. in School Psychology includes a take-home written examination. It is typically completed at the start of the Fall semester of year 2 in the program, presuming successful completion of ESC_PS 8125, ESC_PS 9125, and ESC_PS 9100 (Clinical Methodology).

Comprehensive Examination Process

The comprehensive examination for the Ph.D. in School Psychology includes a take-home written examination followed by an oral examination with the doctoral committee. This examination process is typically completed at the beginning of the winter semester in year 3 or the start of the fall semester in year 4. Students jointly enrolled in the Masters of Arts program in School Psychology must have completed their master’s thesis/manuscript prior to sitting for their Doctoral Comprehensive exams.

Dissertation Requirements

After working with the academic advisor on developing a dissertation proposal, the student meets with her/his doctoral program committee to obtain approval of the written dissertation proposal. This happens before data collection begins. After the project is completed, the student submits a written dissertation and defends her/his dissertation project to the doctoral program committee. The dissertation proposal must be approved by committee prior to applying for terminal internships.

Admissions

Applicants are required to meet two sets of minimum qualifications for admission: the requirements of the PhD in Educational, School & Counseling Psychology program (http://gradstudies.missouri.edu/academics/programs/educational,-school-and-counseling-psychology/doctorate-in-educational,-school--counseling-psychology.php) and the minimum requirements of the Office of Graduate Studies (http://gradstudies.missouri.edu/admissions/eligibility-process/minimum-requirements.php).

Apply online by submitting the following documents using the MU Office of Graduate Studies (https://applygrad.missouri.edu/apply) application form by December 1 for the next Fall cohort.

1. Three letters of recommendation
2. Curriculum Vita
3. Official academic transcripts of all previous undergraduate and graduate work
   a. Minimum undergraduate GPA of 3.0 from an accredited institution in psychology, education, or a related major.
4. Statement of purpose addressing the following:
   a. Describe interests and experiences with working with people from diverse backgrounds (e.g. ethnic, cultural, socio-economic, religious, ability status, sexual orientation). How have these experiences influenced you? (250 word maximum)
   b. Describe experiences that demonstrate your potential for leadership that you believe distinguish you as a candidate for graduate study. (250 word maximum)
   c. Describe (1) your research interests that you hope to pursue in graduate school (2) how these interests match those of specific faculty. (Please limit to 500 words)
d. Describe (1) your career objectives (2) how these career objectives have developed, and (3) how being accepted into MU’s program will benefit your career aspirations and help you act upon your beliefs, goals, and philosophy. (Please limit to 500 words)

5. Official Graduate Record Examination (GRE) scores for tests taken on or after August 1, 2012 should have a combined Verbal and Quantitative score of 305.
6. TOEFL for international students (preferred score of 580 for paper test, 92 iBT, IELTS 6.5 or higher)

Internship Requirement

Students may become eligible for both elementary and secondary level principal certifications by completing two internships, but in three semesters (a total of 6 graduate hours and while within the program). To be eligible for PK-12 building level certifications, 600 internship hours must be completed. Specific activities and expectations are provided to students by their internship advisor.

A new cohort begins every summer.

Educational Leadership & Policy Analysis

ELPA - Our mission is to create knowledge while preparing leaders to critically shape and transform educational issues, policies, and practices.

Consider ELPA if you:
• Want to improve your organizational leadership skills and knowledge in elementary, secondary, or postsecondary settings
• Are interested in principal or superintendent certification
• Want to work in student affairs or higher education administration
• Want to become a scholar or researcher in an academic setting
• Desire to shape policy through legislative or research activity

Department of Educational Leadership and Policy Analysis

on doctoral examination and dissertation committees.
** Doctoral Faculty Member - membership is required to chair
doctoral examination or dissertation committees. Graduate faculty
membership is a prerequisite for Doctoral faculty membership.

Undergraduate

While MU does not offer undergraduate degrees specifically in educational leadership and policy analysis, the University does offer
baccalaureate opportunities in a number of related areas, both within the
College of Education, and in the other Schools and Colleges that make
up the University. The catalog provides a complete list of these degree
options (p. 17).

Director of Graduate Studies: Sarah Diem

About ELPA's Graduate Programs

The graduate programs in the Department of Educational Leadership and
Policy Analysis are designed to meet the specific educational needs of
the student in a particular area of emphasis. Graduates find employment
in a wide range of settings including colleges and universities, public
schools, policy agencies, professional associations, government and
business and industry.

The PhD Program in ELPA requires a minimum of 60 hours beyond
the master's degree. The goal of the PhD program is the preparation
of professional researchers and scholars who have high levels of
competence in conducting research that adds to the knowledge base.

The program also has a goal of meeting the student's individual career
goals and interests through the development of an appropriate plan
of study. Each emphasis area has slightly different requirements and
areas of focus; however, all 3 emphasis areas require a department-wide
core; emphasis area coursework; electives; a research core; and the completion of a minimum of 6 hours for the dissertation.

The Statewide Cooperative EdD Program in Educational Leadership is a cohort program designed for practicing educational leaders to enhance their knowledge and competencies so they provide optimal leadership in organizations that educate a wide range of learners from youth to adult. The program’s curriculum is designed to prepare leaders who are inquiring, reflective practitioners who are competent in defining and solving complex problems in education.

The Educational Specialist (EdSp) Program is designed to enhance the knowledge and competencies of K-12 educational administrators and to lead to advanced principal certification and/or superintendent certification. The program has a thematic, integrated, problem-based curriculum intended to prepare school and district leaders who are inquiring, reflective practitioners. The curriculum is aligned with state standards for certification.

The department’s Master’s Programs are intended to provide initial preparation for leaders in a variety of educational contexts, including higher education and PK-12 schools. Programs vary according to emphasis area and are designed to meet student’s individual career goals and interests — e.g., student affairs administration, initial principal certification and higher education administration.

A minimum of 33 credit hours is required for the M Ed or MA in Higher Education and a minimum of 30 hours is required for the M Ed in Educational Leadership.

Note: Per ELPA policy, students have 5 years to complete their MA or M Ed degree.

Graduate Certificates:
• Education Policy
• Higher and Continuing Education Administration

Satisfactory Rate of Progress
