- The course must be a graduate-level course and clearly marked as such on the transfer transcript complete with credit hours and a grade. If taken at the University of Missouri, it must be numbered 5000 or above.
- The transfer coursework is from a regionally-accredited institution in the U.S. or an overseas institution that is recognized by its country’s Ministry of Education as a graduate degree-granting institution.
- The course must involve at least 14 class hours per credit (based on 50-minute class hours).
- The course must be related to the student's program of study. Students must submit a copy of the course syllabus if possible.
- The semester hours of the non-law-school course will be counted in the student's total number for the semester.
- The grade must be B or higher.
- The transfer coursework is not online, extension or correspondence credit.

Normally, the Director of the LL.M. Program must approve the course in advance of the student's work. In unusual situations, the Director of the LL.M. Program may approve application of credits earned within four (4) years prior to initial enrollment in the LL.M. Program if the credits were for work closely related to the student's work in the LL.M. Program and were taken for graduate credit. Credits will not be applied from the student's J.D. degree program or equivalent. A written request must be submitted to the Director of the LL.M. Program and include the following:

- (a) Institution, course name, number, and instructor; and
- (b) Description of how the course relates to the student’s program of study.
MU Course Work Required

MU requires that 30 of a student’s last 36 credits must be MU course work. Mizzou Online-Self Paced courses authored by MU faculty are acceptable as are courses offered for credit through Mizzou Online. (NOTE: This policy has replaced the requirement for courses to be taken “in residence.”)

Visiting Graduate Student Program (G)

Effective Fall 2011, the UM Visiting Graduate Student Program replaces the UM Traveling Scholars Program. The UM Visiting Graduate Student Program offers eligible graduate students a streamlined process for applying and registering for graduate courses on other UM campuses.

To participate in the UM System Visiting Graduate Student Program, a graduate student must be a degree-seeking graduate student and in good-standing on the home campus and host campus.

To apply for this program, a “UM System Visiting Graduate Student Application (http://gradschool.missouri.edu/forms-downloads/repository/um-system-visiting-graduate-student-application.pdf)” should be completed and submitted to the home campus Graduate office for certification, at least two weeks before the beginning of the semester. The graduate student’s home campus Graduate office will review the form; if approved, the home campus Graduate office will transmit the approved form to the host campus Graduate office. The host campus will notify the student when they are eligible to register for courses.

All course fees are paid to the host campus. Graduate students should contact their home campus Financial Aid office for more information on financial aid.

International (non-U.S. citizen) students should consult the International student office on their home campus to determine eligibility for this program.

Important Points:

• No application fee is required for this program.
• The home campus determines maximum enrollment requirements and the transferability of courses taken at other UM campuses. At MU, all courses taken in UM Visiting Graduate Student Program will be considered “transfer courses” and are subject to MU’s graduate course transfer policies.
• Visiting UM Graduate Students are subject all host campus registration requirements and restrictions.
• To officially transfer courses from the host campus to the home campus, students must order an official transcript from the host campus and comply with the home campus’s transfer policies and processes.

Withdraw from the University

From the Term

A student who wishes to withdraw from the Term (University) must process the appropriate Term Withdraw Form (http://registrar.missouri.edu/policies-procedures/withdrawal-university.php) (PDF). Dropping all classes is considered a withdrawal from the Term (University) and must be initiated in the students academic school or college and completed by the end of the business day of the Monday of the last week of classes or prior to completing the final in a self-paced course. Finals are not included as part of the term for this purpose.

Withdrawal forms will normally be dated according to the date the request was first received with the following exception: When health or other critical circumstances constitute the reason for withdrawal, the dean may designate an earlier date to which academic rules will apply.

Withdraw from the University (L)

Formal withdrawal from MU is arranged through the Graduate School using a Notice of Withdrawal form that is signed by the Director of the LL.M. Program and the Dean of the Graduate School. If the student is making a C or better at withdrawal time, a grade of W is recorded. If the student is doing failing work at withdrawal time, a grade of F is recorded. Students are responsible for notifying their instructors of their intention to withdraw and for determining if their work qualifies for a W grade. Students who leave MU without filing a statement of formal withdrawal are given a grade of F in all courses. If the reason is so urgent that an official withdrawal cannot be obtained, the student should notify the LL.M. Program as soon as possible and officially request to be withdrawn.

or prior to completing the final in a self-paced course. See Academic Policies: Grades (p. 770) for more information on withdrawing from a course

NOTE: Students may not withdraw from all courses or their last course via myZou after the tenth day prior to the start of the semester or term. This must be done in the academic advising unit.

Withdraw from a Course

If a student wishes to drop a course after the last day to drop a course without a grade, the process is referred to as "withdrawing" from a course. To withdraw from a course, students must begin in their academic advising unit. Following the approval from the academic advising unit, the student takes the form for processing to the Office of the University Registrar, 125 Jesse Hall. The process must be completed by the end of the business day of the Monday of the last week of classes

<tr>
<td>Departmental Honors courses</td>
<td>4996-4999</td>
<td>Used only for departmental honors courses. Include Dept. Honors in title or course description. No “H” is listed after the catalog number.</td>
</tr>
<tr>
<td>Professional-level courses</td>
<td>5000-6999</td>
<td>Professional-level courses for Law, Vet. Med and Medicine. Generally, not for undergraduate credit. May be listed as cross-level with 4000-4999 courses.</td>
</tr>
<tr>
<td>Beginning Graduate courses</td>
<td>7000-7999</td>
<td>Graduate-level courses for beginning and mid-level graduate students primarily. Generally not for undergraduate credit, but may be listed as cross-level with 4000-4999 courses.</td>
</tr>
</tbody>
</table>
Mid-level Graduate courses  8000-8999  Graduate-level courses intended primarily for mid-and upper-level graduate students. Not for undergraduate credit. May NOT be listed as cross-level with 4000-4999 courses.

Upper-level Graduate courses  9000-9999  Graduate-level courses intended primarily for upper-level graduate students. Not for undergraduate credit. May NOT be listed as cross-level with 4000-4999 courses.

“H” after a number indicates that it is an Honors course, approved by the Honors College for use toward Honors Certificate or University Honors. Not applicable to courses only designated for departmental honors.

“W” after a number indicates that it is a Writing Intensive course, approved by the Campus Writing Board for use toward fulfilling MU’s writing requirement.

Guidelines for Cross-Listed and Cross-Level Courses

* Approved by Faculty Council February 13, 2003

Per the faculty approved policies, only 4000 and 7000 level courses may be cross-level listed. Courses that are cross-listed should be from different departments, but cover the same content, with matching course descriptions.

Cross-Listed Courses must:

- Be at the same level
- Cover the same content
- Not meet different general education requirements

Cross-Listed Courses may:

- Not have the exact same number, but it is preferred that they do
- Have different additional fees. However, students may need to enroll in a specific course to meet a requirement and may or may not be allowed to substitute the cross-listed course to avoid the fee. There are limits on enrollment and space may not be available in the non-fee course or section.

Accountancy Courses
ACCTCY 2010: Introduction to Accounting
Introduction to accounting for non-business majors. Emphasis on introducing students to business operations, as well as preparing and using management information and financial accounting information for business decisions (does not count as either ACCTCY 2036 or ACCTCY 2037).

Credit Hours: 3
Prerequisites: sophomore standing

ACCTCY 2026: Accounting I
An introduction to the field of accounting, this course covers the fundamentals of financial accounting. Business students at UMC must have advisor's approval. Credit may not be earned for both ACCTCY 2026 and ACCTCY 2036.

Credit Hours: 3
Prerequisites: Sophomore Standing

ACCTCY 2036: Accounting I
First half of two-part course focusing on the business environment and the use of managerial and financial accounting information for decision making in various business settings. Emphasizes the use of accounting information about a retail company (sole proprietorship) by internal and external users, followed by an introduction to other forms of business and, then, planning for corporate operations.

Credit Hours: 3
Prerequisites: Completion of 28 credit hours. May be restricted to lower-level business and lower- level accountancy students during early registration

ACCTCY 2037: Accounting II
Second half of two-part course focusing on the business environment and the use of managerial and financial accounting information for decision making in various business settings. This half emphasizes the use of accounting information about a manufacturing company (corporation) by internal and external users.

Credit Hours: 3
Prerequisites: ACCTCY 2036 or ACCTCY 2136H

ACCTCY 2136H: Honors Accounting I
First part of two-part course focusing on the nature and use of managerial and financial accounting information for decision making in various business settings. Emphasizes use of accounting information by internal and external users.

Credit Hours: 3
Prerequisites: sophomore standing in Accounting or Business, 3.3 or higher GPA. Honors eligibility required

ACCTCY 2137H: Honors Accounting II
Continuation of Accountancy 2136H.

Credit Hours: 3
Prerequisites: C or better ACCTCY 2136H. Honors eligibility required

ACCTCY 2258: Computer-Based Data Systems
Introduces the computer as a tool in the efficient operation of a business. Skills developed in the course include electronic information retrieval, information analysis using a spreadsheet, what-if analysis macro development, and information presentation. In addition, computer components, data storage, networks, and information technology are discussed.

Credit Hours: 3
Prerequisites: Sophomore standing

ACCTCY 3326: Financial Accounting Theory and Practice I
Institutional structure, conceptual framework, and reporting standards and practices of financial accounting, with special emphasis on accounting for assets.

Credit Hours: 3
Prerequisites: ACCTCY 2037 or ACCTCY 2137H or ACCTCY 2027.
Restricted to Accountancy Majors

ACCTCY 3328: Accounting Information Systems

Credit Hours: 3
Prerequisites: Restricted to Accountancy Majors

ACCTCY 3346: Financial Accounting Theory and Practice II
Continuation of Accountancy 3326, with special emphasis on income
recognition and accounting for liabilities and ownership equity.
Credit Hours: 3
Prerequisites: ACCTCY 3326. Restricted to Accountancy Majors

ACCTCY 3347: Cost and Managerial Accounting
Activity based and traditional job order and process cost systems for
service, merchandising, and multinational manufacturing companies;
Cost accounting techniques and procedures for financial reporting by
multinational companies. Strategic focus to management accounting
measurement and reporting. Standard costs and variances, capital
budgeting.
Credit Hours: 3
Prerequisites: ACCTCY 2037 or ACCTCY 2137H or ACCTCY 2027.
Restricted to Accountancy Majors

ACCTCY 4000: Accountancy Professional Speakers and Symposia
(cross-leveled with ACCTCY 7000). This non-credit course,
recommended for all accountancy majors, will provide exposure to issues
in the accounting profession through professional speaker series and
symposia. Components will include the Dawdy Speaker Series, Orin
Ethics Symposium, and Symposia delivered by accounting firms and/
or professional accounting organizations. This will be a non-credit, non-
billed, no hours course.
Credit Hours: 0
Prerequisites: Accountancy Majors

ACCTCY 4301: Topics in Accounting
Independent investigations, reports on approved topics.
Credit Hour: 1-3
Prerequisites: instructor's consent

ACCTCY 4353: Introduction to Taxation
(cross-leveled with ACCTCY 7353). Introduction to the structure and
conceptual foundation of the U.S. federal income tax system for individual
taxpayers. Topics include income recognition, deductions, property
transactions, trusts, and family wealth planning. This course also
introduces students to legal tax research and preparation of individual
income tax returns.
Credit Hours: 3
Prerequisites: ACCTCY 2037 or ACCTCY 2137H or ACCTCY 2027.
Restricted to accountancy majors only

ACCTCY 4356: Financial Accounting Concepts
(cross-leveled with ACCTCY 7356). Current issues in the financial
reporting of business corporations to external parties.
Credit Hours: 3
Prerequisites: ACCTCY 2037 or ACCTCY 2137H or ACCTCY 2027 or
ACCTCY 7310. Not open to accountancy majors

ACCTCY 4365: Governmental Accounting and Budgeting
(cross-leveled with ACCTCY 7365). Introduction to government and
not-for-profit accounting. Concepts and principles of fund accounting,
budgeting, auditing, and financial reporting in government and not-for-
profit entities.
Credit Hours: 3
Prerequisites: ACCTCY 3326. Restricted to Accountancy Majors

ACCTCY 4384: Auditing Theory and Practice I
(cross-leveled with ACCTCY 7384). Introduction to the auditing
profession, assurance function, and generally accepted standards for
conducting audits.
Credit Hours: 3
Prerequisites: ACCTCY 3328 and ACCTCY 3346. Restricted to
Accountancy Majors

ACCTCY 4940: Professional Accounting Internship
(cross-leveled with ACCTCY 7940). Provides full-time professional
accounting work experience of at least eight weeks duration. Graded on
S/U basis only.
Credit Hour: 3-6
Prerequisites: Accountancy Majors only and 105 credit hours completed
and ACCTCY 3326 and ACCTCY 3328 and ACCTCY 3346 and ACCTCY
3347 and ACCTCY 3453, and GPA of 3.0 or higher

ACCTCY 7000: Accountancy Professional Speakers and Symposia
(cross-leveled with ACCTCY 4000). This non-credit course,
recommended for all accountancy majors, will provide exposure to issues
in the accounting profession through professional speaker series and
symposia. Components will include the Dawdy Speaker Series, Orin
Ethics Symposium, and Symposia delivered by accounting firms and/
or professional accounting organizations. This will be a non-credit, non-
billed, no hours course. Graded on S/U basis only.
Credit Hour: 0
Prerequisites: Accountancy Majors

ACCTCY 7310: Accounting for Managers
Introduction to understanding how accounting information is used to
help make informed decisions in various business settings. Includes an
introduction to basic financial and management accounting concepts and
procedures.
Credit Hours: 3
Prerequisites: MBA or MSPA candidate, or departmental consent

ACCTCY 7353: Introduction to Taxation
(cross-leveled with ACCTCY 4353). Introduction to the structure and
conceptual foundation of the U.S. federal income tax system for individual
taxpayers. Topics include income recognition, deductions, property
transactions, trusts, and family wealth planning. This course also
introduces students to legal tax research and preparation of individual
income tax returns.
Credit Hours: 3
Prerequisites: ACCTCY 2037 or ACCTCY 2137H or ACCTCY 2027.
Restricted to accountancy majors only
### ACCTCY 7356: Financial Accounting Concepts
(cross-leveled with ACCTCY 4356). Current issues in the financial reporting of business corporations to external parties. Not open to accountancy majors.

**Credit Hours:** 3  
**Prerequisites:** ACCTCY 2037 or ACCTCY 2137H or ACCTCY 2027 or ACCTCY 7310

### ACCTCY 7365: Governmental Accounting and Budgeting
(cross-leveled with ACCTCY 4365). Introduction to government and not-for-profit accounting. Concepts and principles of fund accounting, budgeting, auditing, and financial reporting in government and not-for-profit entities.

**Credit Hours:** 3  
**Prerequisites:** ACCTCY 3326. Restricted to Accountancy Majors

### ACCTCY 7364: Auditing Theory and Practice I
(cross-leveled with ACCTCY 4384). Introduction to the auditing profession, assurance function, and generally accepted standards for conducting audits.

**Credit Hours:** 3  
**Prerequisites:** ACCTCY 3328 and ACCTCY 3346. Restricted to Accountancy Majors

### ACCTCY 7940: Professional Accounting Internship
(cross-leveled with ACCTCY 4940). Provides full-time professional accounting work experience of at least eight weeks duration. Graded on S/U basis only.

**Credit Hour:** 3-6  
**Prerequisites:** Completion of undergraduate portion of 150 hour program (or equivalent) and consent of Internship Coordinator

### ACCTCY 8358: Systems Analysis and Design
Modern information systems analysis and design, focusing on business process modeling.

**Credit Hours:** 3  
**Prerequisites:** ACCTCY 2258  
**Recommended:** CMP_SC 1001 or CMP_SC 1050

### ACCTCY 8363: Multi-Jurisdictional Tax
This course takes a practical approach to exploring multistate and international tax concepts by focusing on tax issues that can arise as a company expands from a single business location into a multinational corporation. Part 1 of this course focuses on the economic, political, and constitutional constraints imposed on state and local taxation, including the due process clause, the commerce clause and state uniformity and equality clauses. Part 2 of the course includes a survey of state and local tax laws, with a particular emphasis on the imposition of sales and use taxes and the allocation and apportionment of state income taxes. Part 3 of the course surveys principals of international taxation, including U.S. taxation of the foreign investments or activities of U.S. taxpayers (outbound) and U.S. taxation of the U.S. taxation of the U.S. activity or investments of foreign taxpayers (inbound).

**Credit Hours:** 3  
**Prerequisites:** ACCTCY 4353. Restricted to Accountancy Majors

### ACCTCY 8373: Taxation of Corporations and Shareholders
Life cycle of a corporation including formations, operations, distributions, and liquidations of corporations.

**Credit Hours:** 3  
**Prerequisites:** ACCTCY 4353 or ACCTCY 7353. Restricted to Accountancy Majors

### ACCTCY 8383: Taxation of Flow-Through Entities
This course covers formations, operations, distributions, and liquidations of partnerships and S-Corporations. Course graded on A-F basis only.

**Credit Hours:** 3  
**Prerequisites:** ACCTCY 4353 or ACCTCY 7353. Restricted to Accountancy Majors

### ACCTCY 8393: Taxation of Trust, Gifts and Estates
This course covers two main topics. Students are introduced to the construction, operation and income taxation of trusts. After this portion of the course students will learn about the gift tax consequences of completed exchanges. Finally, students will learn the basic rules regarding the estate tax. Graded on A-F basis only.

**Credit Hours:** 3  
**Prerequisites:** ACCTCY 4353 or ACCTCY 7353. Restricted to Accountancy Majors

### ACCTCY 8401: Topics in Accounting
Independent investigations, reports on approved topics.

**Credit Hour:** 1-3  
**Prerequisites:** instructor's consent

### ACCTCY 8404: Internal Auditing
This course covers the concepts, practices, and application of internal audit activities. The course will review the entire internal audit process including annual audit and engagement planning, fieldwork, reporting, and management communication. Other topics including internal controls, enterprise risk management, and key behavior skills will be discussed. The Professional Practices Framework and industry best practices will be incorporated throughout the semester. This course will prepare students for entry-level internal audit positions. Graded A-F only.

**Credit Hours:** 3  
**Prerequisites:** ACCTCY 4384 or ACCTCY 7384. Restricted to Accountancy Majors

### ACCTCY 8408: Advanced Accounting Information Systems
Emerging concepts and technologies in accounting information systems, with an emphasis on E-Business. Graded on A-F basis only.

**Credit Hours:** 3  
**Prerequisites:** ACCTCY 3328. Restricted to Accountancy Majors

### ACCTCY 8414: Audit of Internal Controls
A combination of control theory, concept application, demonstration of actual practice, and student research to develop an understanding of the concepts and practices used in the design, development or assurance of information systems (IS) controls. Graded on A-F basis only.
ACCTCY 8419: International Accounting
Introduction to accounting regulations and practices outside of the U.S., including foreign registrants on the NYSE and NASDAQ, international accounting standards, and international management control issues. Review of cultural frameworks; transfer pricing methods and international accounting standards.
Credit Hours: 3
Prerequisites: ACCTCY 3328, and ACCTCY 4384 or ACCTCY 7384. Restricted to Accountancy Majors

ACCTCY 8423: Tax Research and Planning
Applied tax research using print and electronic data bases; heuristic biases in tax judgments; responsibilities of professional tax practices.
Credit Hours: 3
Prerequisites or Corequisites: ACCTCY 8373
Prerequisites: ACCTCY 3346 and ACCTCY 3347. Restricted to Accountancy Majors

ACCTCY 8424: Fraud Examination
A study of the methods and techniques of fraud examination, particularly with regard to frauds perpetrated by the company against the public. The ethical and professional standards that underlie the accountant’s responsibility for fraud detection and prevention are emphasized. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: ACCTCY 4384 or ACCTCY 7384. Restricted to Accountancy Majors

ACCTCY 8425: Accounting for Governments and Other NonProfit Entities
Role of accounting information in planning, managing, and controlling nonbusiness organizations; reporting to external parties; concepts of governmental auditing. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: ACCTCY 3328 or ACCTCY 4384. Restricted to Accountancy Majors

ACCTCY 8428: Data Warehousing and Data Mining
Enterprise-wide view of data and transaction processing. Concepts and techniques of data warehousing and data mining of business-critical data. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: ACCTCY 3328 or departmental consent. Restricted to Accountancy Majors

ACCTCY 8433: Mergers and Acquisitions Taxation
This course covers the basic taxation of mergers and acquisitions, both taxable and tax-free acquisitions; issues in merger and acquisition deal making, such as due diligence and understanding contract tax provisions; and an overview of securities regulations with respect to publicly traded companies. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: ACCTCY 4384 or ACCTCY 7384. Restricted to Accountancy Majors

ACCTCY 8434: Applications of Auditing Concepts
Application of auditing concepts and techniques in various phases of audit engagements. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: ACCTCY 4384. Restricted to Accountancy Majors

ACCTCY 8436: Advanced Accounting
Continuation of ACCTCY 3346. Addresses a series of special financial accounting topics including income taxes, pensions, leases, business combinations, consolidated statements, and foreign currency translation. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: ACCTCY 3347, MATH 1320 and STAT 3500, or the equivalent. Restricted to Accountancy Majors

ACCTCY 8437: Strategic Cost Analysis
Analysis to support organizational strategy including cost management, performance evaluation, and control of responsibility centers. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: ACCTCY 3346. Restricted to Accountancy Majors

ACCTCY 8438: Forensic Accounting
Coverage of forensic accounting processes and tools used in the detection and prevention of fraud against the company. Topics include skimming, cash larceny, check tampering, billing schemes and others. An emphasis of the course will be upon the use of computer aids. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: ACCTCY 3328, ACCTCY 4384 or ACCTCY 7384. Restricted to Accountancy Majors

ACCTCY 8444: Advanced Audit
The Advanced Auditing course helps students develop a better understanding of the audit environment and gives them the opportunity to gain hands-on experience planning for an audit engagement, performing test work, and completing an audit engagement. The course also addresses additional topics not covered in detail in the Audit Theory and Practice I course, including inventory observation, legal liability issues faced by auditors today, the regulatory environment, professional responsibilities of auditors, preparing appropriate documentation for audit engagements, providing required communications to clients, performing Single Audits. The course is designed to encourage open discussions of cases and current issues and provide learning opportunities for the students. The class meetings and assignments are designed to improve the students’ critical thinking skills, communication skills, and team-building skills. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: ACCTCY 4384 or ACCTCY 7384. Restricted to Accountancy Majors

Aerospace Studies Courses

AERO 1100: The Foundations of the United States Air Force
Introduces the Air Force and Air Force ROTC. Topics include professional appearance, military customs and courtesies, core values, equal opportunity and treatment, officer opportunities, group leadership problems. Applies communicative skills. Leadership lab.
Credit Hours: 3

AERO 1200: The Foundations of the United States Air Force
Continues the introduction to the Air Force and Air Force ROTC. Topics include Air Force origins, organizations, major commands, installations, sister services (Army and Navy), group leadership problems. Applies communicative skills. Leadership lab.
Credit Hours: 2

AERO 2100: The Evolution of USAF Air and Space Power
A survey course designed to facilitate the transition from Air Force ROTC cadet to Air Force ROTC officer candidate. Explores Air Force heritage, Air Force leaders and Air Power doctrine. Applies communicative skills. Leadership lab.
Credit Hours: 2

AERO 2200: The Evolution of USAF Air and Space Power
Continues the examination of air and space power from the Vietnam era through the present. Topics include the Vietnam War, the Persian Gulf War, and overseas contingency operations. Applies communicative skills. Leadership lab.
Credit Hours: 2

AERO 3100: Air Force Leadership Studies
An integrated leadership and management survey course emphasizing development of the individual as an Air Force leader. Special topics include situational leadership, principle centered leadership, corrective supervision and counseling. Leadership lab.
Credit Hours: 3

AERO 3200: Air Force Leadership Studies
Air Force leadership principles are examined from the foundation developed in AERO 3100. Ethical decision making, personal core values, and character development are discussed. Military evaluation systems are outlined. Leadership lab.
Credit Hours: 3

AERO 4100: National Security Affairs/Preparation for Active Duty
Examines the national security process, regional studies, Air Force and joint doctrine. Special topics include the military as a profession and civilian control of the military. Continued emphasis on communicative skills. Leadership lab.
Credit Hours: 3

AERO 4200: National Security Affairs/Preparation for Active Duty
Examines civilian control of the military, officership, the military justice system, and current issues affecting military professionalism. Continued refinement of communicative skills. Leadership laboratory.
Credit Hours: 3

Agricultural Economics Courses

AG_EC 1010: Introduction to Agribusiness Management
Agribusiness and agricultural economics touches many parts of business, agriculture, the environment and other areas. This course is designed to help students successfully make the transition to college/MU, provide an overview of the Department of Agricultural and Applied Economics degree programs and, enhance professional and career development.
Credit Hours: 3

AG_EC 1011: Survey of Global Agribusiness
Economic, social and political forces and trends and the impact on U.S. and global agribusinesses. Global production, consumption trade, and investment patterns in agriculture-food sector. Developing management strategy in changing economic political environment.
Credit Hour: 1

AG_EC 1041: Applied Microeconomics
Introduction to the microeconomic principles and their application to decision-making in agribusinesses. Consumer decision analysis, producer goals and optimization and the market environment where they meet and trade. Applications to current issues. Students who complete AG_EC 1041 may not have credit for ECONOM 1014.
Credit Hours: 3

AG_EC 1042: Applied Macroeconomics
Introduction to the macroeconomic principles and their application to agriculture-food sector and natural resource issues. Using macroeconomic principles in decision making and in evaluating national and regional economic problems and issues. Students who complete AG_EC 1042 may not have credit for ECONOM 1015.
Credit Hours: 3

AG_EC 1200: Applied Computer Applications
This course is an applied problem based learning opportunity for students to gain Excel spreadsheet related skills critical to careers in agriculture, food and natural resources. Students will learn intermediate and advanced spreadsheet skills essential for problem solving and decision making in these biologically influenced fields.
Credit Hours: 3

AG_EC 2050: For the Love of Food: Global Food System Debate
This course is designed to develop students’ understanding of the food system from farm to plate and the consumer’s role in the global food system. Gaining a knowledge base on food system dynamics will allow students to better understand the societal and policy making processes behind food production. Each week we will discuss key topics and issues facing the food system today. This class will help students develop critical thinking skills to address challenges in the global food system.

</table>
environment, biotechnology, animal welfare, farm structure, the role of agribusiness, development, sustainability, and agriculture-related public policy. Course may be repeated once for credit.

Credit Hours: 3
Prerequisites: AG_EC 1041 or ECONOM 1014 and junior standing

AG_EC 3241W: Ethical Issues in Agriculture - Writing Intensive
The study of how economics, philosophy, and science inform on and impact important ethical problems in agriculture, such as the environment, biotechnology, animal welfare, farm structure, the role of agribusiness, development, sustainability, and agriculture-related public policy. Course may be repeated once for credit.

Credit Hours: 3
Prerequisites: AG_EC 1041 or ECONOM 1014 and junior standing

AG_EC 3256: Agribusiness and Biotechnology Law
Legal concepts applicable to agribusiness and biotech firms. To include contracts, torts, product liability, warranties, corporate farming laws, UCC, corporations/partnerships/limited liability companies, labor laws, patent copyrights/trademark laws, international and ethical perspectives.

Credit Hours: 3

AG_EC 3257: Rural and Agricultural Law
Everyday practical legal problems facing rural residents, farmers, agribusiness, and local government. Laws include statutes, common law (cases), customs, and administrative regulations. Topics include corporate/contract farming, right-to-farm, leases, fence laws, estate planning and water rights.

Credit Hours: 3

AG_EC 3260: General Farm Management
Economics and management principles applied to planning and operating farm businesses. Includes enterprise combination, resource acquisition, water management, profit maximizing techniques and annual adjustments to changing conditions.

Credit Hours: 3
Prerequisites: AG_EC 1041 or ECONOM 1014

AG_EC 3270: Conservation and Use of Protected Areas
Evaluation of socioeconomic, cultural and ecological values influencing the development and management of protected areas including parks, forests, wildlife refuges, wilderness and wild/scenic rivers.

Credit Hours: 3
Prerequisites: AG_EC 1041 or ECONOM 1014 and AG_EC 2070
Recommended: Introductory natural resources courses

AG_EC 3271: International Agricultural Development
Examines world food problem; analyzes its causes; economic and noneconomic policy alternatives for modernizing agriculture in less-developed countries.

Credit Hours: 3
Prerequisites: AG_EC 1041 or ECONOM 1014 and AG_EC 1042 or ECONOM 1015
Recommended: junior standing

AG_EC 3272: International Food Trade and Policy
Examines food trade; develops economic analyses of trade impacts on domestic agricultural policies; examines international trade agreements; and interface of trade and environment.

Credit Hours: 3
Prerequisites: AG_EC 1041 or ECONOM 1014 and AG_EC 1042 or ECONOM 1015

AG_EC 3282: Agribusiness Finance
Application of the concepts and methods of finance to the management of agribusiness firms, including cooperatives. Special attention is given to the working capital needs of agribusiness and to the specialized lending institutions in the agricultural economy.

Credit Hours: 3
Prerequisites: AG_EC 1041 or ECONOM 1014 and ACCTCY 2036 or ACCTCY 2026
Recommended: ACCTCY 2037 or ACCTCY 2027

AG_EC 3283: Fundamentals of Entrepreneurship
Introduce students to entrepreneurial way of thinking. Entrepreneurship is a way of thinking about identifying/creating opportunities and transforming those opportunities into new businesses, new institutions, or solutions to problems. Students will participate in the process of formulating and evaluating solutions to problems and identifying and exploiting opportunities.

Credit Hours: 3
Prerequisites: AG_EC 1041 or ECONOM 1014 and AG_EC 1042 or ECONOM 1015
Recommended: junior standing

AG_EC 3285: Problems in Agricultural Economics
Supervised study in a specialized phase of agricultural economics. Graded on S/U basis only.

Credit Hour: 1-3
Prerequisites: instructor's consent

AG_EC 3286: Economics of Managerial Decision Making
Introduces tools and concepts from price theory, game theory, industrial organization and organizational economics, and applies them to managerial decision making activities for businesses in the agrifood system and for natural resource and environmental management.

Credit Hours: 3
Prerequisites: AG_EC 2123 and AG_EC 2183

AG_EC 3294: Agricultural Marketing and Procurement
Content of course focuses on marketing issues in the agriculture supply chain. Topics covered include price discovery, basis, futures/options, contracting, logistics, and management decision making.

Credit Hours: 3
Prerequisites: AG_EC 2183
Recommended: AG_EC 2225 or STAT 2500
AG_EC 3295: Real Money: Speculative Trading for Beginners
Familiarize students with the learning components of commodity future/option trading. Students learn through involvement by investing in a commodity pool and trading futures/options. Students apply both fundamental and technical analysis. Students taking this course are required to invest from $200 to $600 in $200 increments. Students cannot lose more money than invested.
Credit Hours: 3
Prerequisites: AG_EC 2183
Recommended: AG_EC 3294

AG_EC 3296: In the Money with Options Trading
This online course focuses on learning the basics of trading options market contracts. Students will be investing/contributing members of the University of Missouri Educational Marketing Club. Students will be introduced to principles of price forecasting using technical and fundamental analysis and will study a variety of trading strategies.
Credit Hours: 2
Prerequisites: AG_EC 3295
Recommended: AG_EC 3294

AG_EC 3297: Technical Trading Tactics
Learn the tactics of technical trading through student investment and commodity futures contracts. Technical Trading Tactics will provide students with tools to support trade recommendations based on technical analysis. Each student invests real money as a learning incentive and will complete one trade recommendation during the course.
Credit Hour: 1
Prerequisites: AG_EC 3295
Recommended: AG_EC 3294

AG_EC 3321: Economic History of Agriculture
Emphasizes Europe and U.S. historical interpretation; usefulness in evaluating present and probable future developments in agriculture.
Credit Hours: 3
Prerequisites: AG_EC 1041 or ECONOM 1014

AG_EC 3363: Rural Entrepreneurship II
Rural Entrepreneurship II is designed for students that realize they may need to create their own career or opportunity if they want to return to their rural community and for students who would like to better understand how to create that option in their career choice set.
Credit Hours: 3
Prerequisites: AG_EC 3283

AG_EC 4110: In-Service Course in Agricultural Economics
(cross-leveled with AG_EC 7110). A. Profit Maximizing Principles B. Farm Planning C. Farm Records and Analysis D. Business Management E. Using Computers in Farm Management Decision Making. Basic principles of farm management. Applications of principles and subject matter in successful classroom presentation primarily for high school teachers. Course is offered in sections A-E as listed, for 2 hours each.
Credit Hour: 2-10
Prerequisites: instructor's consent. Recommended AG_EC 3260

AG_EC 4230: Understanding the Agricultural Policy Process
The goal of this course is to prepare students for a career in agricultural policy and will build the skill set needed in the agricultural policy environment.
Credit Hours: 3
Prerequisites: AG_EC 3230

AG_EC 4251: Agricultural Prices
(cross-leveled with AG_EC 7251). Variations in prices of agricultural products; underlying factors.
Credit Hours: 3
Prerequisites: AG_EC 2123 and AG_EC 2225 or STAT 2500

AG_EC 4295: Agricultural Risk Management
(cross-leveled with AG_EC 7295). This class will examine the range of risks business face and explore ways of characterizing and evaluating those risks.
Credit Hours: 3
Prerequisites: AG_EC 2183 and AG_EC 2225 or STAT 2500

AG_EC 4301: Topics in Agricultural Economics
Current and new topics not currently offered in applied and/or theoretical areas in Agricultural Economics.
Credit Hour: 1-6

AG_EC 4301H: Topics in Agricultural Economics
Current and new topics not currently offered in applied and/or theoretical areas in Agricultural Economics.
Credit Hour: 1-6
Prerequisites: honors eligibility required

AG_EC 4310: Local Economic Analysis
(cross-leveled with AG_EC 7310). Economic based theory, including multipliers and how local economies are affected by external events. Methods for local economic analysis: trends, location quotients, shift-share, and retail analyses.
Credit Hour: 1
Prerequisites: Instructor's consent

AG_EC 4340: Rural Real Estate Appraisal
Credit Hours: 3
Recommended: AG_EC 3260

AG_EC 4356: Environmental Law and Policy
(cross-leveled with AG_EC 7356). Legislative, administrative, and common law dealing with the environment. Introduces the fundamental concepts and classic issues underlying the body of law and policy dealing with the environment. Includes air and water quality, endangered species preservation, land use, and waste disposal.
Credit Hours: 3
Prerequisites: instructor's consent. Recommended AG_EC 3256, senior or graduate standing. For non-law students
AG_EC 4940: Internship Opportunities  
Combines study, observation, and employment in a public agency or private firm in marketing, farm management, or credit. Staff supervision and evaluation. Reports required.

Credit Hours: 1-3
Prerequisites: instructor's consent
Recommended: 75 hours completed

AG_EC 4962: Planning the Farm Business  
(cross-leveled with AG_EC 7962). Economic analysis and planning of the farm business and its organization. Applications of computerized management techniques to farm business including resource acquisition, tax management, enterprise analysis, and business analysis through farm records and budgets.

Credit Hours: 3
Prerequisites: AG_EC 3260

AG_EC 4971: Agribusiness Management Strategy  
(cross-leveled with AG_EC 7971). Analysis of industry forces in agriculture and food sector. Assessing risks and firms' capabilities. Development of firm's competitive strategy, including vertical integration, diversification, international business option, and financial planning and performance measurement.

Credit Hours: 3
Prerequisites: AG_EC 3282 or FINANC 3000 and AG_EC 3286 or MANGMT 3000

AG_EC 4971W: Agribusiness Management Strategy - Writing Intensive  
(cross-leveled with AG_EC 7971). Analysis of industry forces in agriculture and food sector. Assessing risks and firms' capabilities. Development of firm's competitive strategy, including vertical integration, diversification, international business option, and financial planning and performance measurement.

Credit Hours: 3
Prerequisites: AG_EC 3282 or FINANC 3000 and AG_EC 3286 or MANGMT 3000

AG_EC 4972: Agri-Food Business and Cooperative Management  
(cross-leveled with AG_EC 7972). Risk management in the global agrifood chain, including managing the unique uncertainties of biological production processes, global market analysis, and government intervention, of risk management tools and institutions unique to strategic decision making in agribusiness and cooperative firms.

Credit Hours: 3
Prerequisites: AG_EC 4971 and AG_EC 3286 or MANGMT 3000
Recommended: AG_EC 3256

AG_EC 4983: Strategic Entrepreneurship in Agri-Food  
Strategic entrepreneurship is the search for opportunities to generate income streams from innovation, development of new markets, and altering the rivalry positions in existing markets.

Credit Hours: 3
Prerequisites: AG_EC 3283 and AG_EC 3282 or FINANC 3000

Recommended: senior standing

AG_EC 4990: Economic Analysis of Policy and Regulation  
(cross-leveled with AG_EC 7990). Apply economic concepts and tools to analyze the policy-making process and the implications of policy for individuals, firms, markets and society. Policy topics include, among other things, agricultural support programs, environmental policy, international trade, international development, and agribusiness regulation.

Credit Hours: 3
Prerequisites: AG_EC 4940
Recommended: ECONOM 4351

AG_EC 4995: Economics of Agricultural Production and Distribution  
(cross-leveled with AG_EC 7995). Applies economic principles to agricultural production including price theory, linear programming and uncertainty.

Credit Hours: 3
Prerequisites: ECONOM 3251 and AG_EC 2225 or STAT 2500

AG_EC 7110: In-Service Course in Agricultural Economics  
(cross-leveled with AG_EC 4110). A. Profit Maximizing Principles B. Farm Planning C. Farm Records and Analysis D. Business Management E. Using Computers in Farm Management Decision Making. Basic principles of farm management. Applications of principles and subject matter in successful classroom presentation primarily for high school teachers. Course is offered in sections A-E as listed, for 2 hours each.

Prerequisites:
Credit Hour: 2-10
Prerequisites: instructor's consent. Recommended AG_EC 3260

AG_EC 7251: Agricultural Prices  
(cross-leveled with AG_EC 4251). Variations in prices of agricultural products; underlying factors.

Credit Hours: 3
Prerequisites: AG_EC 2123 and AG_EC 2225 or STAT 2500

AG_EC 7295: Agricultural Risk Management  
(cross-leveled with AG_EC 4295). This class will examine the range of risks businesses face and explore ways of characterizing and evaluating those risks.

Credit Hours: 3
Prerequisites: AG_EC 2183 and AG_EC 2225 or STAT 2500

AG_EC 7301: Topics in Agricultural Economics  
Current and new topics not currently offered in applied and/or theoretical areas in Agricultural Economics.

Credit Hour: 1-6

AG_EC 7310: Local Economics Analysis  
(cross-leveled with AG_EC 4310). Economic based theory, including multipliers and how local economies are affected by external events. Methods for local economic analysis: trends, location quotients, shift-share, and retail analyses. On-line course.

Credit Hour: 1
AG_EC 7340: Rural Real Estate Appraisal
(cross-leveled with AG_EC 4340). Principles, techniques, practices of rural real estate appraisal. Field trips.

Credit Hours: 3
Recommended: AG_EC 3260

AG_EC 7356: Environmental Law and Policy
(cross-leveled with AG_EC 4356). Legislative, administrative, and common law dealing with the environment. Introduces the fundamental concepts and classic issues underlying the body of law and policy dealing with the environment. Includes air and water quality, endangered species preservation, land use, and waste disposal.

Credit Hours: 3
Prerequisites: Instructor's consent. Recommended AG_EC 3256, senior or graduate standing. For non-law students

AG_EC 7940: Internship Experiences in Agricultural Economics
Combines study, observation, and employment in a public agency or private firm in marketing, farm management, or credit. Staff supervision and evaluation. Reports required. Graded on S/U basis only.

Credit Hours: 1-3
Prerequisites: 2.5 GPA; 75 hours of course work and instructor's consent

AG_EC 7962: Planning the Farm Business
(cross-leveled with AG_EC 4962). Economic analysis and planning of the farm business and its organization. Applications of computerized management techniques to farm business including resource acquisition, tax management, enterprise analysis, and business analysis through farm records and budgets.

Credit Hours: 3
Prerequisites: AG_EC 3260

AG_EC 7971: Agribusiness Management Strategy
(cross-leveled with AG_EC 4971). Analysis of industry forces in agriculture and food sector. Assessing risks and firms capabilities. Development of firm's competitive strategy, including vertical integration, diversification, international business option, and financial planning and performance measurement.

Credit Hours: 3
Prerequisites: AG_EC 3282 or FINANC 3000 and AG_EC 3286 or MANGMT 3000

AG_EC 7972: Agri-Food Business and Cooperative Management
(cross-leveled with AG_EC 4972). Risk management in the global agrifood chain, including managing the unique uncertainties of biological production processes, global market analysis, and government intervention, of risk management tools and institutions unique to strategic decision making in agribusiness and cooperative firms.

Credit Hours: 3
Prerequisites: AG_EC 4971 and AG_EC 3286 or MANGMT 3000
Recommended: AG_EC 3256

AG_EC 7990: Economic Analysis of Policy and Regulation
(cross-leveled with AG_EC 4990). Apply economic concepts and tools to analyze the policy-making process and the implications of policy for individuals, firms, markets and society. Policy topics include, among other things, agricultural support programs, environmental policy, international trade, international development, and agribusiness regulation.

Credit Hours: 3
Prerequisites: AG_EC 4251
Recommended: ECONOM 4351

AG_EC 7995: Economics of Agricultural Production and Distribution
(cross-leveled with AG_EC 4995). Applies economic principles to agricultural production including price theory, linear programming and uncertainty. Prerequisites:

Credit Hours: 3
Prerequisites: ECONOM 3251 and AG_EC 2225 or STAT 2500

AG_EC 8001: Advanced Topics in Economics

Credit Hours: 3

AG_EC 8010: Research Methodology
Students explore the roles of theory and methods in economics research, develop a program of research, and critique published research. Students also study the scientific methods and the research process, including problem definition, research design, data collection and analysis, and generalization.

Credit Hours: 3

AG_EC 8024: Advanced Production Economics
Production function analyses and advanced theory of the firm as applied to agricultural production problems. Concepts of input demand, production supply, quality, time and technology, dynamic analysis and production under uncertainty.

Credit Hours: 3
Prerequisites: MATH 1500, AG_EC 4995; ECONOM 8451; STAT 4510 or ECONOM 8472

AG_EC 8050: Economics of Institutions and Organizations
This course expands upon the fundamental principles of neo-classical economics by relaxing traditional behavioral and informational assumptions and by introducing the importance of transaction costs and institutions for economic analysis.

Credit Hours: 3

AG_EC 8060: Mathematical Modeling for Social Scientist
Introduction to mathematical programming, emphasizing problem formulation and solution interpretation. Computer applications are stressed.

Credit Hours: 3
Prerequisites: STAT 4510
AG_EC 8085: Masters Problems in Agricultural Economics
Supervised study, research in specialized phases of agricultural economics.
Credit Hour: 1-99

AG_EC 8087: Seminar in Agricultural Economics
Lectures, reports on economic problems in agriculture.
Credit Hour: 1

AG_EC 8090: Masters Thesis Research in Agricultural Economics
Independent investigation of advanced nature, leading to dissertation. Graded on a S/U basis only.
Credit Hour: 1-6

AG_EC 8210: Theory of Markets
Development of theories of monopolistic, monopolistic competition; application to agricultural markets. Market structure influence on price, nonprice competition in buying, selling of farm products and inputs.
Credit Hours: 3
Prerequisites: ECONOM 7351

AG_EC 8350: Regional Development Issues and Analysis
(same as PUB_AF 8350). Examines theories of regional growth and development and methods for analysis with applications to current policy issues. Topics include firm location, new economic geography and agglomeration theory, clusters, human capital, migration, social capital, tax and development incentives, and sustainable regional development.
Credit Hours: 3
Prerequisites: ECONOM 7351 or PUB_AF 8190 or equivalent

AG_EC 8410: Natural Resource and Environmental Economics
Contemporary natural resource/environmental problems; natural resource capacity, alternative economic theories, property rights, externalities, market failures, efficient use of exhaustible and renewable resources, and economics of environmental pollution.
Credit Hours: 3
Prerequisites: ECONOM 7351

AG_EC 8430: International Agricultural Development Policy
An analytical review of economic policies directed toward stimulating agricultural development in the world's low income countries.
Credit Hours: 3
Prerequisites: ECONOM 7351 and ECONOM 7353

AG_EC 8448: Society and Ecosystems Research Seminar
(same as RU_SOC 8448 and NAT_R 8448). This seminar, capstone for the Graduate Certificate Program in Society and Ecosystems, exposes students to interdisciplinary research on interactions between social, economic and ecological systems.
Credit Hours: 3

AG_EC 8450: Masters Non Thesis Research
Independent investigation of advanced nature. Report required.
Credit Hour: 1-99
Prerequisites: instructor's consent

AG_EC 8520: Economics of Transaction and Contracting
This course focuses on the economic incentives underlying transaction relationships and develops and implements a framework for analyzing contract documents governing various kinds of transactions.
Credit Hours: 3

AG_EC 8610: Economic and Sociological Approaches to Collective Action
(same as RU_SOC 8610). This course identifies analytical and methodological tools, including rational choice and social capital, to deal with practical problems of collective action in: agricultural cooperatives, rural community development, political interest groups and other mutuals.
Credit Hours: 3
Prerequisites: AG_EC 7972

AG_EC 8660: International Comparative Rural Policy
(same as PUB_AF 8860). Compares the rural policy objectives and implementation strategies of various countries, and assesses these policies in terms of economic, social, environmental outcomes and their implications for international relations. Includes 2-weeks of study Abroad. May be repeated for credit. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: instructor's consent

AG_EC 9001: Advanced Topics in Economics II
Credit Hours: 3

AG_EC 9040: Advanced Microeconomics Theory and Applications I
First semester course that rigorously examines the microeconomic theory of producer and consumer behavior, combined with applications of the theoretical concepts to empirical economic research on agricultural, business, development, and environmental issues. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: ECONOM 7351 or instructors consent

AG_EC 9042: Advanced Microeconomics Theory and Applications II
Second semester advanced micro theory covering choice under uncertainty, industry structure, game theory, information econ, and political economy of regulation. Includes applications of micro models to issues in agricultural, natural resource, and development sectors.
Credit Hours: 3
Prerequisites: AG_EC 9040

AG_EC 9085: Doctoral Problems in Agricultural Economics
Supervised study, research in specialized phases of agricultural economics.
Credit Hour: 1-99
Prerequisites: instructor's consent
AG_EC 9090: Doctoral Dissertation Research in Agricultural Economics
Independent investigation of advanced nature, leading to dissertation. Graded on a S/U basis only.
Credit Hour: 1-99

AG_EC 9220: Advanced Price Analysis
Applies economic theory and quantitative methods to analyze agricultural price issues. Examines problem formulation, estimation, and model evaluation applied to demand and supply situations.
Credit Hours: 3
Prerequisites: ECONOM 8451 or ECONOM 8472; STAT 4510

AG_EC 9230: Welfare and Consumption Economics
Introduces welfare economic principles; application to problems of resource allocation. Appraises economic policies, programs; consumers’ choice; measurement of consumption; living standards; household decisions and markets relation.
Credit Hours: 3
Prerequisites: ECONOM 8451 or instructor’s consent

AG_EC 9265: Food, Agricultural and Rural Policy
Application of welfare economics theory to food, agricultural and rural development policy analysis. Historical perspective and economics analysis of contemporary issues in national and international policy and institutions.
Credit Hours: 3
Prerequisites: ECONOM 7351 and AG_EC 9230

AG_EC 9320: Regional Economic Theory and Methods
Theory of spatial economics: Central place theory, spatial labor markets, location theory, social accounting matrices, input-output, computable general equilibrium, geographic information systems and regional econometric models.
Credit Hours: 3
Prerequisites: ECONOM 7351, ECONOM 7353, and matrix algebra

AG_EC 9475: Econometrics I
Emphasis is given to special estimation problems which occur in integrating the theory with various types of economic data.
Credit Hours: 3

AG_EC 9476: Econometrics II
(same as ECONOM 9476).
Credit Hours: 3

AG_EC 9510: Economics of Agribusiness Firm
This course builds on transaction cost-based theories and tools to study the economic underpinnings of intra-firm organization, firm boundaries, and the structure of inter-firm transactions.
Credit Hours: 3
Prerequisites: AG_EC 8050

AG_EC 9520: Economics of Agribusiness Markets
Relationships of neoclassical and new institutional economics to designing organizational strategy and structure. Internal coordination and structure, organizational boundaries, and competitiveness and sustainability of food system organizations.
Credit Hours: 3
Prerequisites: AG_EC 8050

Agricultural Education and Leadership Courses

AG_ED_LD 1000: Orientation to Agricultural Education and Leadership
Overview of the discipline of agricultural education including: career opportunities, certification requirements, professional development, and current issues.
Credit Hour: 1

AG_ED_LD 2220: Verbal Communication in Agriculture, Food and Natural Resources
Application of verbal communication skills used in the dissemination of information related to agriculture, food, and natural resource topics. Acquisition of interpersonal communication skills and small group, impromptu and professional presentation skills.
Credit Hours: 3
Prerequisites: Restricted to College of Agriculture, Food and Natural Resources students only during Early Registration

AG_ED_LD 2250: Introduction to Leadership
Overview of basic leadership principles and theories, including, but not limited to: personal leadership development, characteristics of effective leaders, leadership styles, ethics as a leader and leadership obstacles.
Credit Hours: 3

AG_ED_LD 2260: Team and Organizational Leadership
Principles and practices in planning, developing, conducting, and evaluating leadership programs for agricultural groups. The course focuses on helping students better understand themselves and others, improving group communications; becoming effective leaders and members of groups; improving leadership and personal development skills; assessing leadership situations, determining and administering appropriate leadership strategies, and evaluating results.
Credit Hours: 3

AG_ED_LD 2260W: Team and Organizational Leadership - Writing Intensive
Principles and practices in planning, developing, conducting, and evaluating leadership programs for agricultural groups. The course focuses on helping students better understand themselves and others, improving group communications; becoming effective leaders and members of groups; improving leadership and personal development skills; assessing leadership situations, determining and administering appropriate leadership strategies, and evaluating results.
Credit Hours: 3

<tbody>
<tr>
<td>AG_ED_LD 2270: Leadership Development in Youth Organizations</td>
<td>This course focuses on how to develop leadership in youth through participation in a youth organization. In particular, this course explores youth development, how to develop leadership through youth organizations and their activities, and organizational structures.</td>
<td></td>
<td>3</td>
</tr>
<tr>
<td>AG_ED_LD 2271: Early Field Experience</td>
<td>This field experience is designed for students to explore the role of being a school-based agricultural educator. In particular, students will experience the total agricultural education program with a focus on youth organizations.</td>
<td>AG_ED_LD 2270 or concurrent enrollment</td>
<td>1</td>
</tr>
<tr>
<td>AG_ED_LD 3085: Problems in Agricultural Education and Leadership</td>
<td>Supervised and independent study of problems and issues in Agricultural Education and Leadership at the undergraduate level.</td>
<td></td>
<td>1-99</td>
</tr>
<tr>
<td>AG_ED_LD 3320: Metal Fabrication and Laboratory Management</td>
<td>Application of metal fabrication skills, including cutting, bending, and welding, using a variety of processes. Operations of hand tools and power equipment used in project construction. Also includes laboratory management, instructional strategies, and assessment techniques related to secondary agriculture programs. Prerequisites: Agriculture Education Majors Only</td>
<td></td>
<td>3</td>
</tr>
<tr>
<td>AG_ED_LD 3776: Litton Leadership Scholars</td>
<td>The Litton Leadership Scholars class focuses on developing students as leaders. Through leadership coursework, field-based mentorship and self-reflection, students will practice and develop exemplary leadership skills. Students will have an opportunity to spend time with industry leaders, expand their personal growth boundaries and develop their unique leadership style. Students will engage in an interview process to be selected for the Litton Leadership Scholars program. Graded on A-F basis only.</td>
<td></td>
<td>1-2</td>
</tr>
<tr>
<td>AG_ED_LD 4001: Topics in Agricultural Education and Leadership</td>
<td>Courses on specialized topics offered on a trial basis until the course has been assigned a course number.</td>
<td></td>
<td>1-3</td>
</tr>
<tr>
<td>AG_ED_LD 4087: Internship Seminar in Agricultural Education and Leadership</td>
<td>Seminar focused on the problems of practice and developing skills needed for a career in teaching agriculture at the secondary level. The core of the seminar is on coordinating experiential learning and leadership development activities, managing the complete program, and professional development.</td>
<td></td>
<td>3</td>
</tr>
<tr>
<td>AG_ED_LD 4240: Leading Organizational and Community Change</td>
<td>(cross-leveled with AG_ED_LD 7240). This course provides the diagnostic and strategic foundations for students to enact leadership in organizational and community contexts. Designed for undergraduate students and graduate-level professionals alike, this course increases a student's capacity to lead with or without authority, and with or without a formal organizational or political position. The course is based heavily on Heifetz's Adaptive Leadership theory, which challenges individuals to think beyond individual, role-based leadership skills and behaviors when enacting change in systems, such as organizations and communities.</td>
<td>AG_ED_LD 4995</td>
<td>3</td>
</tr>
<tr>
<td>AG_ED_LD 4301: Intracurricular Program Management in Agricultural Education</td>
<td>This course explores the philosophical foundations and current structures of secondary Agricultural Education Programs. Students will learn how to plan, supervise, and evaluate the intracurricular components within Agricultural Education programs.</td>
<td></td>
<td>3</td>
</tr>
<tr>
<td>AG_ED_LD 4320: Methods of Teaching I</td>
<td>(cross-leveled with AG_ED_LD 7320). Investigations into the teaching and learning process which including lesson planning, direct instruction methods, and assessment. Enrollment limited to students accepted into Phase II of the Teacher Development Program.</td>
<td>AG_ED_LD 2250 and AG_ED_LD 2260</td>
<td>3</td>
</tr>
<tr>
<td>AG_ED_LD 4321: Field Experience I</td>
<td>A field-based experience that examines the integration of Supervised Agricultural Experience and Career Development Events into the secondary agriculture curriculum. Investigates the use of advisory committees and graduate follow-up data in curriculum planning. Graded on S/U basis only.</td>
<td></td>
<td>1</td>
</tr>
<tr>
<td>AG_ED_LD 4320: Methods of Teaching II</td>
<td>Further investigations into the teaching and learning process which includes methods beyond direct instruction, classroom and behavior management, and curricular design. Enrollment limited to students accepted into Phase II of Teacher Development Program.</td>
<td>AG_ED_LD 4320</td>
<td>3</td>
</tr>
<tr>
<td>AG_ED_LD 4330: Methods of Teaching II</td>

</tr>
</tbody>
</table>
AG_ED_LD 4340: Designing and Delivering Educational/Leadership Programs
Overview of theory and practice in communicating and facilitating adult and youth training/leadership programs in communities and organizations. Including: communicating program design, methods of communicating for different contexts, marketing programs, and evaluating programs.
Credit Hours: 3
Prerequisites: junior standing or instructor's consent

AG_ED_LD 4993: Internship in Agricultural Education and Leadership
Field-based learning experience that combines study, observation, and employment with an agricultural business, industry or government agency in the area of education, training, and development. Individual internship plans are developed by a student, faculty supervisor, and an industry cooperator.
Credit Hour: 1-4
Prerequisites: departmental consent

AG_ED_LD 4995: Student Teaching Internship in Agriculture
A field-based learning experience that combines observation and practice in a secondary/adult agriculture program. The purpose of the internship is to provide an opportunity to apply teaching and learning concepts in a practical context.
Credit Hour: 1-12
Prerequisites: departmental consent

AG_ED_LD 7087: Internship Seminar in Agricultural Education and Leadership
Seminar focused on the problems of practice and developing skills needed for a career in teaching agriculture at the secondary level. The core of the seminar is on coordinating experimental learning and leadership development activities, managing the complete program, and professional development.
Credit Hours: 3
Corequisites: AG_ED_LD 4995

AG_ED_LD 7240: Leading Organizational and Community Change (cross-leveled with AG_ED_LD 4240). This course provides the diagnostic and strategic foundations for students to enact leadership in organizational and community contexts. Designed for undergraduate students and graduate-level professionals alike, this course increases a student's capacity to lead with or without authority, and with or without a formal organizational or political position. The course is based heavily on Heifetz's Adaptive Leadership theory, which challenges individuals to think beyond individual, role-based leadership skills and behaviors when enacting change in systems, such as organizations and communities.
Credit Hours: 3
Prerequisites: instructor's consent

AG_ED_LD 7310: Intracurricular Program Management in Agricultural Education
This course explores the philosophical foundations and current structures of secondary Agricultural Education Programs. Students will learn how to plan, supervise and evaluate the intracurricular components within Agricultural Education Programs.
Credit Hours: 3

AG_ED_LD 7320: Methods of Teaching I (cross-leveled with AG_ED_LD 7320). Investigations into the teaching and learning process which includes lesson planning, direct instruction methods, and assessment.
Credit Hours: 3
Prerequisites: acceptance into the Teacher Certification option

AG_ED_LD 7330: Methods of Teaching II
Further investigations into the teaching and learning process which includes methods beyond direct instruction, classroom and behavior management, and curricular design.
Credit Hours: 3
Prerequisites: acceptance into Teacher Certification option and AG_ED_LD 4320 or AG_ED_LD 7320

AG_ED_LD 7340: Designing and Delivering Educational/Leadership Programs
Overview of theory and practice in communicating and facilitating adult and youth training/leadership programs in communities and organizations. Including: communicating program design, methods of communicating for different contexts, marketing programs, and evaluating programs.
Credit Hours: 3
Prerequisites: AG_ED_LD 2220 or equivalent

AG_ED_LD 7350: Inservice Course in Agricultural Education and Leadership
Professional development course which focuses on enhancing the technical, administrative, or management skills of agricultural educators.
Credit Hour: 1-99

AG_ED_LD 8080: Creative Component in Agricultural Education and Leadership
Independent original work that culminates in a scholarly project, document or presentation. Graded on S/U basis only.
Credit Hour: 1-3
Prerequisites: instructor's consent

AG_ED_LD 8085: Problems in Agricultural Education and Leadership
Credit Hour: 1-99
Prerequisites: instructor's consent

AG_ED_LD 8087: Seminar in Agricultural Education and Leadership
Seminar in Agricultural Education and Leadership.
Credit Hour: 1-99
AG_ED_LD 8090: Thesis Research in Agricultural Education and Leadership
Independent research activities by a master's student that culminates in a thesis. Graded on S/U basis only.
Credit Hour: 1-99
Prerequisites: instructor's consent

AG_ED_LD 8210: History and Leadership of the Land Grant University
Historical overview of the evolution and development of land-grant colleges. Students examine early public mandates and evaluate education, research, public service developments and new initiatives needed for Land Grant universities to effectively serve society.
Credit Hours: 2

AG_ED_LD 8250: Leadership Theory and Application
Survey of concepts, theories and practices of leadership, personal development and group dynamics. Exploration of leadership traits and models with a focus upon how they apply to Agricultural Education.
Credit Hours: 3

AG_ED_LD 8330: Advanced Methods of Teaching
Explores the principles and psychological aspects of teaching and learning; teaching strategies, methods, and techniques; evaluating student learning; motivating students; and personal teacher behaviors that influence learning.
Credit Hours: 3

AG_ED_LD 8340: Student and Teacher Development in Agricultural Education and Leadership
Examines planning and supervising career exploration, experiential learning, and leadership development activities of secondary agriculture students. The professional development of the secondary agriculture teacher is also examined.
Credit Hours: 3
Prerequisites: AG_ED_LD 4310 or equivalent

AG_ED_LD 8350: College Teaching of Agriculture, Food and Natural Resources
A course designed to assist current or future college faculty who wish to improve their teaching skills. Topics include theories, principles and practices associated with effective teaching and learning in higher education.
Credit Hours: 3

AG_ED_LD 8351: Induction Year Teaching I
Continuing education course for the professional development of first-year teachers of agriculture. The course focuses on the pedagogical knowledge, skills, and attitudes and managerial skills needed by beginning teachers of agriculture.
Credit Hour: 1-2

AG_ED_LD 8352: Induction Year Teaching II
Continuing education course for the professional development of second-year teachers of agriculture. The course is a continuation of AG_ED_LD 8351 and focuses on the pedagogical knowledge, skills, and attitudes and managerial skills needed by beginning teachers of agriculture.
Credit Hour: 1-2
Prerequisites: AG_ED_LD 8351

AG_ED_LD 8410: Philosophical Foundations of Agricultural Education and Leadership
Overview of the history and philosophical development of agricultural education and leadership as a discipline. Philosophers, policy makers, movements, trends, and legislation that has influenced agricultural education. Current issues and future trends impacting the field. Graded on A-F basis only.
Credit Hour: 1-3

AG_ED_LD 8430: Evaluation of Educational Programs (same as RU_SOC 8430). Examines program evaluation concepts, principles, and models; and identifies major steps in planning, conducting, and reporting results of evaluation objects.
Credit Hours: 3

AG_ED_LD 8510: Research Methods and Design (same as RU_SOC 8510). A foundations course on quantitative research methodology and design principles for investigating problems in social and behavioral sciences. A focus is on the language of research, purposes, validity threats, and data collection methods. Graded on A-F basis only.
Credit Hours: 3

AG_ED_LD 8520: Preparing Manuscripts for Publication
An introduction to planning, preparing, and submitting research based articles for publication in professional journals and research proceedings.
Credit Hour: 1

AG_ED_LD 8530: Grant Proposal Writing
Preparation of proposals designed to solicit grant funding to support teaching, research or outreach programs. Emphasis on proposal development, identifying funding sources, and proposal review processes.
Credit Hours: 2

AG_ED_LD 8540: Methods of Qualitative Research (same as RU_SOC 8540). Overview of philosophies, approaches toward, design, data collection, analysis and reporting of qualitative research.
Credit Hours: 3

AG_ED_LD 8995: College Teaching Practicum
Learning experience that combines the study, observation, and practice of teaching university-level courses in food, agriculture and/or natural resources under the supervision of teaching mentors. Graded on S/U basis only.
Credit Hours: 3
**AG_ED_LD 9090: Doctoral Research in Agricultural Education and Leadership**

Independent research activities by a doctoral student that culminates in a dissertation or other scholarly work. Graded on S/U basis only.

**Credit Hours:** 1-99

**Prerequisites:** instructor's consent

**AG_ED_LD 9410: Foundations and Practices of Teacher Education**

Foundations and practices of teacher preparation programs including student selection and advisement, licensure requirements, accreditation, curriculum, clinical and field experiences, supervision, evaluation and research.

**Credit Hours:** 3

**Prerequisites:** Doctoral student or instructor's consent

---

**Agricultural Systems Management Courses**

**AG_S_M 1002: Topics in Agricultural Systems Management-Biological/Physical/Math**

Current and new technical developments in agricultural systems management.

**Credit Hours:** 3

**Prerequisites:** Instructor's consent

**Recommended:** 6 hours in AG_S_M or instructor's consent

**AG_S_M 1020: Introduction to Agricultural Systems Management**

Introductory course that acquaints students with the general technical areas of Agricultural Systems Management. A systematic problem-solving approach is applied to problems derived from each of the technical areas within Agricultural Systems Management.

**Credit Hours:** 3

**AG_S_M 1040: Physical Principles for Agricultural Applications**

Introductory survey course to help students: formulate problems; understand units/accuracy; learn basic definitions; understand simple machines, power transmission, fluid statics, electricity, heat-flow, and temperature/moisture relationships.

**Credit Hours:** 3

**Prerequisites:** MATH 1100

---

**AG_S_M 1120: Agricultural/Industrial Materials and Processes**

Structure and properties of manufacturing materials; conditioning and machining materials; assembling processes; finishing processes; automation of manufacturing systems.

**Credit Hours:** 3

**AG_S_M 2002: Topics in Agricultural Systems Management-Biological/Physical/Math**

Current and new technical developments in agricultural systems management.

**Credit Hours:** 3

**Prerequisites:** Instructor's consent

**Recommended:** 6 hours in AG_S_M or instructor's consent

**AG_S_M 2020: Environmental Ethics in Agriculture**

**Credit Hours:** 3

**Prerequisites:** ENGLSH 1000

**AG_S_M 2199: Seminar in Professional Development**

This course is taught once a year in the Spring semester. The course explores the concept of what it means to be a professional in the field of Agricultural Systems Management. The course includes aspects of what it means to be a professional, such as resume writing, interviewing, finding a job, and building one's career. A second major aspect of the course is to explore the field of Agricultural Systems Management to gain a better understanding of various potential career paths available to students in Agricultural Systems Management. Graded on A-F basis only.

**Credit Hour:** 1

**Prerequisites:** ASM Freshman or Sophomores or instructor consent

**Recommended:** AG_S_M 1020

**AG_S_M 2220: Agricultural/Industrial Structures**

A building science course looking at construction materials, structural component selection, ventilation, moisture control and energy use. Math reasoning proficiency course.

**Credit Hours:** 3

**Prerequisites:** MATH 1100

**Recommended:** AG_S_M 1040

**AG_S_M 2320: Internal Combustion Power**

Basic internal combustion engine principles, mechanisms, combustion cycles, fuels, fuel injection, electrical systems, engine testing.

**Credit Hours:** 3

**Prerequisites:** MATH 1100

**Recommended:** AG_S_M 1040

**AG_S_M 2340: Pesticide Application Equipment**

Principles of pesticide application; sprayer hydraulics and spray atomization; calibration, mixing calculations and compatibility of tank mixes; personal and environmental protection; pesticide labels and regulations. Students earn their private applicators license.

**Credit Hours:** 3
AG_S_M 2345: Chemical Application Systems
Systems, components and operation practices used in the chemical application industry. Liquid and granular application systems and respective components will be studied along with procedures for minimizing drift, system calibration, recommended maintenance, and off-season storage procedures.
Credit Hours: 2-3
Prerequisites: MATH 1100 or equivalent

AG_S_M 2360: Fluid Power
Basic power hydraulic theory. Hydraulic systems, components and circuits. Math reasoning proficiency course.
Credit Hours: 3
Prerequisites: MATH 1100

AG_S_M 3350: Problems in Agricultural Systems Management
Supervised independent study at the undergraduate level.
Credit Hours: 1-5
Prerequisites: instructor's consent

AG_S_M 4020: Agricultural Safety and Health
(cross-leveled with AG_S_M 7020). Analysis, organization and implementation of agriculture safety and health programs. Physical and economic impact of accidents, standards and liabilities. Role of man in the man-machine system.
Credit Hours: 3
Prerequisites: junior or senior standing or instructor's consent

AG_S_M 4120: Advanced Agricultural/Industrial Materials and Processes
(cross-leveled with AG_S_M 7120). Primarily for students majoring in agricultural education. Applies shop principles to the design and construction of projects.
Credit Hours: 2-3
Prerequisites: instructor's consent

AG_S_M 4140: Electricity: Wiring and Equipment
(cross-leveled with AG_S_M 7140). Home and agricultural electricity; emphasis on proper selection and use of electrical wiring materials and equipment. Basic electrical theory.
Credit Hours: 3
Prerequisites: MATH 1100

AG_S_M 4145: Sensors and Control Systems for Agri-Industries
This course helps one understand sensors including performance, data acquisition systems and selection. In addition, introduction to programmable logic controllers, ladder-rung diagram programming, fluid flow rate, and associated analysis is discussed.
Credit Hours: 2
Prerequisites: AG_S_M 1040 and AG_S_M 4140

AG_S_M 4150: Biorenewable Systems Technology
Converting biorenewable resources into bioenergy and biobased products. Biorenewable concepts as they relate to drivers of change, feedstock production, processes, products, co-products, economics, transportation and logistics, and marketing.
Credit Hours: 3
Prerequisites: MATH 1100, CHEM 1100 and AG_EC 1041

AG_S_M 4220: Material Handling and Conditioning
(cross-leveled with AG_S_M 7220). Principles required for processing and handling food and feed materials; selection of machines; analysis and development of systems for processing and handling grain and bulk material.
Credit Hours: 3
Prerequisites: MATH 1100, AG_S_M 1040 and junior standing

AG_S_M 4225: Preservation of Grain Quality
Principles and management for grain quality preservation. Grain drying and grain storage. Psychrometrics. Fan and airflow. Grain handling methods and system planning. Grain quality measurement and end-use value analysis.
Credit Hours: 2
Prerequisites: MATH 1100. Recommended AG_S_M 1040 and AG_S_M 4220

AG_S_M 4320: Agricultural Equipment and Machinery
(cross-leveled with AG_S_M 7320). Operation of agricultural machinery. Selection and management of equipment.
Credit Hours: 3
Prerequisites: AG_S_M 1040

AG_S_M 4330: Principles for Food Processing
(same as F_S 4330; cross-leveled with AG_S_M 7330, F_S 7330). Introduction to basic engineering concepts used to process raw materials. Principle topics include energy and material balance, fluid flow, heat transfer, refrigeration and freezing, and preservation.
Credit Hours: 3
Prerequisites: MATH 1100, AG_S_M 1040 or PHYSCS 1210

AG_S_M 4350: Problems in Agricultural Systems Management
Supervised independent study at the undergraduate level.
Credit Hour: 1-5
Prerequisites: instructor's consent

AG_S_M 4360: Precision Agriculture Science and Technology
(same as PLNT_S 4360, SOIL 4360; cross-leveled with AG_S_M 7360, PLNT_S 7360, SOIL 7360). Precision agriculture is an information-based approach to farming whereby variability is managed to optimize crop production and reduce environmental pollution. This course provides an overview of precision agriculture technologies (like GIS, GPS, remote sensing), mapping methods, and case studies illustrating decisions and management.
Credit Hours: 3
Prerequisites: PLNT_S 2100 or SOIL 2100, or PLNT_S 2110
AG_S_M 4365: Machinery Management Using Precision Agriculture Technology
(cross-leveled with AG_S_M 7365). Planters, combines, fertilizer application equipment, and sprayer management along with GPS technologies are the focus of the course. One will learn how to manage these tools efficiently and accurately. Valuable precision agriculture management skills emphasized.

Credit Hours: 3
Prerequisites: MATH 1100
Recommended: AG_S_M 1040, and AG_S_M 4360

AG_S_M 4366: Data Management and Analysis Using Precision Agriculture Technology
(cross-leveled with AG_S_M 7366). Course begins with a section on how to minimize errors while collecting spatial datasets. Datasets may include yield data, soil chemical and physical properties with real-time sensors, and soil nutrient data from grids or management zones. The course then continues with a section regarding data analytical techniques such as interpolation. The second half of the course will focus on writing prescriptions based on actual data obtained from industry leader experts. This portion of the course will integrate industry experts as well as hardware/software tools. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: AG_S_M 4360 or PLNT_S 4360 or SOIL 4360 and AG_S_M 4365

AG_S_M 4368: Profit Strategies Using Precision Agriculture Technology
(cross-leveled with AG_S_M 7368). Course begins with a section on how Precision Agriculture Technology can be used to benefit a farm's financial sustainability. Discussion of various types of farm operations and currently available Precision Agriculture Technology that is already developed and in use will be examined. The course continues by considering cost factors that create barriers for farm operators to adopt Precision Agriculture. The second half of the course will focus on developing a plan to implement various technologies into an existing farm operation and draft a business plan for cost, equipment, and transition the farm into using the following types of technologies, GPS, GIS, VRA, RS, RTK and other types of tracking and monitoring systems. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: AG_S_M 4360 or PLNT_S 4360 or SOIL 4360 or instructor consent, or equivalent

AG_S_M 4370: In-Service Course Agriculture System Management - Farm Power and Machinery
A. Farm Power and Machinery
B. Farm Buildings and Conveniences
C. Soil and Water Management
D. Rural Electrification and Processing
E. Agricultural Construction and Maintenance
Basic principles relating to agricultural systems management. Applies principles and subject matter in successful classroom presentation at the high school level.

Credit Hour: 1-8
Prerequisites: Instructor's consent
Recommended: 10 credits from Agricultural System Management courses; a B.S. degree in Agriculture

AG_S_M 4390: Optimization and Management of Food and Agricultural Systems
(same as F_S 4390, HSP_MGMT 4390; cross-leveled with AG_S_M 7390, F_S 7390, HSP_MGMT 7390). This course is designed to introduce the student to the concept of layers and interacting systems within an operation and the analytical methods of modeling and simulation to make effective management decisions for optimal system design and function. Recommended AG_S_M 1040

Credit Hours: 3
Prerequisites: MATH 1100

AG_S_M 4420: Surface Water Management
(cross-leveled with AG_S_M 7420). Topics include hydrology; soil erosion precautions; elementary surveying; selection and layout of ponds, terraces and water control structures.

Credit Hours: 3
Prerequisites: MATH 1100 or higher

AG_S_M 4440: Water Quality and Pollution Control
(cross-leveled with AG_S_M 7440). Applies scientific principles to a variety of water quality problems arising from activities associated with nonpoint pollution, agricultural chemicals, land disposal of wastes, on-site sewage disposal and individual drinking water systems.

Credit Hours: 3
Prerequisites: MATH 1100
Recommended: AG_S_M 1040

AG_S_M 4460: Irrigation and Drainage
(cross-leveled with AG_S_M 7460). Soil, water, plant relationships. Selection and layout of irrigation and drainage systems. Recommended: AG_S_M 1040

Credit Hours: 3
Prerequisites: MATH 1100

AG_S_M 4940: Agricultural Systems Management Internship
Combines study, observation, and employment with industry or government agency in an area of Agricultural Systems Management. A special problem / learning experience is selected by internship company representative, faculty problem advisor and student. Written and oral reports evaluated by faculty.

Credit Hour: 2-5
Prerequisites: Instructor's consent
Recommended: Sophomore standing and minor or major in Agricultural Systems Management

AG_S_M 4970: Agricultural Systems Management - Capstone
Capstone course required of Agricultural Systems Management majors. Team project involving extensive use of the students education, oral presentations and comprehensive written reports are required. Class experiences include but may not be limited to system selection and comparison, replacement and operating cost calculations, life cycle costing, and business feasibility analysis.

Credit Hours: 3
Prerequisites: Senior Standing
AG_S_M 4970W: Agricultural Systems Management - Capstone - Writing Intensive
Capstone course required of Agricultural Systems Management majors. Team project involving extensive use of the students education, oral presentations and comprehensive written reports are required. Class experiences include but may not be limited to system selection and comparison, replacement and operating cost calculations, life cycle costing, and business feasibility analysis.
Credit Hours: 3
Prerequisites: Senior Standing

AG_S_M 7001: Topics in Agricultural Systems Management
Initial offering of a course in a specific subject matter area related to Agricultural Systems Management. The course is offered when proposed by a faculty member in that area of expertise.
Credit Hours: 3

AG_S_M 7020: Agricultural Safety and Health
(cross-leveled with AG_S_M 4020). Analysis, organization and implementation of agriculture safety and health programs. Physical and economic impacts of accidents, standards and liabilities. Role of man in the man-machine system.
Credit Hours: 3

AG_S_M 7085: Problems in Agricultural Systems Management
Supervised individual study at the graduate level.
Credit Hour: 1-99

AG_S_M 7120: Advanced Agricultural/Industrial Materials and Processes
(cross-leveled with AG_S_M 4120). Primarily for students majoring in agricultural education. Applies shop principles to the design and construction of projects.
Credit Hour: 2-3
Prerequisites: instructor's consent

AG_S_M 7140: Electricity: Wiring and Equipment
(cross-leveled with AG_S_M 4140). Home and agricultural electricity; emphasis on proper selection and use of electrical wiring materials and equipment. Basic electrical theory.
Credit Hours: 3

AG_S_M 7220: Material Handling and Conditioning
(cross-leveled with AG_S_M 4220). Principles required for processing and handling food and feed materials; selection of machines; analysis and development of systems for processing and handling grain and bulk materials.
Credit Hours: 3
Prerequisites: MATH 1100 and AG_S_M 1040

AG_S_M 7320: Agricultural Equipment and Machinery
(cross-leveled with AG_S_M 4320). Operation of agricultural machinery. Selection and management of equipment.

AG_S_M 7330: Principles for Food Processing
(same as F_S 7330; cross-leveled with AG_S_M 4330, F_S 4330). Introduction to basic engineering concepts used to process raw materials. Principle topics include energy and material balance, fluid flow, heat transfer, refrigeration and freezing, and preservation.
Credit Hours: 3
Prerequisites or Corequisites: Instructor's consent
Prerequisites: MATH 1100 and AG_S_M 1040 or PHYSCS 1210

AG_S_M 7340: Agricultural Mechanization Systems
Credit Hours: 3

AG_S_M 7360: Precision Agriculture Science and Technology
(same as PLNT_S 7360 and SOIL 7360; cross-leveled with AG_S_M 4360, PLNT_S 7360, SOIL 7360). Precision agriculture is an information-based approach to farming whereby viability is managed to optimize crop production and reduce environmental pollution. This course provides an overview of precision agriculture technologies (like GIS, GPS, remote sensing), mapping methods, and case studies illustrating decisions and management.
Credit Hours: 3
Prerequisites: SOIL 2100, PLNT_S 2110 or instructor's consent

AG_S_M 7365: Machinery Management Using Precision Agriculture Technology
(cross-leveled with AG_S_M 4365). This course focuses on agricultural equipment that is commonly used in conjunction with GPS technology. Planters, combines, fertilizer application equipment and sprayer application equipment are commonly equipped with GPS equipment to control and record operational parameters. These parameters focus around the equipment's geographic location and can be recorded simultaneously with the volume of product applied and weather information (wind, temperature, humidity, etc.). GPS guidance is one of the main technologies to be studied throughout this course. The management of this equipment and the GPS technologies used to control and record this information is the focus of the course.
Credit Hours: 3
Recommended: AG_S_M 7360

AG_S_M 7366: Data Management and Analysis Using Precision Agriculture Technology
(cross-leveled with AG_S_M 4366). Course begins with a section on how to minimize errors while collecting spatial datasets. Datasets may include yield data, soil chemical and physical properties with real-time sensors, and soil nutrient data from grids or management zones. The course then continues with a section regarding data analytical techniques such as interpolation. The second half of the course will focus on writing prescriptions based on actual data obtained from industry leader experts. This portion of the course will integrate industry experts as well as hardware/software tools. Graded on A-F basis only.
Credit Hours: 3
Ag_S_M 7368: Profit Strategies Using Precision Agriculture Technology
(cross-leveled with Ag_S_M 4368). Course begins with section on how Precision Agriculture Technology can be used to benefit a farm's financial sustainability. Discussion of various types of farm operations and currently available Precision Agriculture Technology that is already developed and in use will be examined. The course continues by considering cost factors that create barriers for farm operators to adopt Precision Agriculture. The second half of the course will focus on developing a plan to implement various technologies into an existing farm operation and draft a business plan for cost, equipment, and transition the farm into using the following types of technologies, GPS, GIS, VRA, RS, RTK and other types of tracking and monitoring systems. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: Ag_S_M 4360 or Plnt_S 4360 or Soil 4360 or instructor consent, or equivalent

Ag_S_M 7370: In-Service Course Agriculture Systems Management-Farm Power and Machinery
A. Farm Power and Machinery B. Farm Buildings and Conveniences C. Soil and Water Management D. Rural Electrification and Processing E. Agricultural Construction and Maintenance Basic principles relating to agricultural systems management. Applies principles and subject matter in successful classroom presentation at the high school level.
Credit Hour: 1-8
Prerequisites: 10 credits from Agricultural Systems Management courses; a B.S. degree in Agriculture or instructor's consent

Ag_S_M 7390: Optimization and Management of Food and Agriculture Systems
(same as F_S 7390, HSP_MGMT 7390; cross-leveled with Ag_S_M 4390, F_S 4390, HSP_MGMT 4390). This course is designed to introduce the student to the concept of layers and interacting systems within an operation and the analytical methods of modeling and simulation to make effective management decisions for optimal system design and function.
Credit Hours: 3
Prerequisites: instructor's consent

Ag_S_M 7420: Surface Water Management
(cross-leveled with Ag_S_M 4420). Topics include hydrology; soil erosion precautions; elementary surveying; selection and layout of ponds, terraces and water control structures.
Credit Hours: 3
Prerequisites: MATH 1100

Ag_S_M 7440: Water Quality and Pollution Control
(cross-leveled with Ag_S_M 4440). Applies scientific principles to a variety of water quality problems arising from activities associated with nonpoint pollution, agricultural chemicals, land disposal of wastes, on-site sewage disposal and individual drinking water systems.
Credit Hours: 3
Prerequisites: MATH 1100

Ag_S_M 7460: Irrigation and Drainage
(cross-leveled with Ag_S_M 4460). Soil, water, plant relationships. Selection and layout of irrigation and drainage systems.
Credit Hours: 3
Prerequisites: Ag_S_M 4420 or instructor's consent

Ag_S_M 8085: Problems in Agricultural Systems Management
Supervised individual study at the graduate level.
Credit Hours: 3

Ag_S_M 8090: Thesis Research in Agricultural Systems Management
Independent investigation to be presented as a thesis. Graded on a S/U basis only.
Credit Hour: 1-99

Ag_S_M 8142: Agricultural Energy Efficiency
The study of the efficient use of energy concerning the planning, economics, and finance of efficient technology for livestock, crops, farm buildings including alternative energy resources, and associated environmental systems.
Credit Hours: 3
Prerequisites: Ag_S_M 4140 or consent of instructor

Ag_S_M 8340: Agricultural Mechanization Systems
Credit Hours: 3

AFNR 1101: Special Topics in Agriculture
Selected topics not offered in other courses.
Credit Hour: 1-3
Prerequisites: instructor's consent

AFNR 1111: Computing and Information Systems I
Provide students with a basic understanding of microcomputer usage, electronic communications, and use of the internet. Topics include operating systems, word processing, database management systems, spreadsheets, electronic mail, online library searches, and the World Wide Web.
Credit Hours: 3
AFNR 1115: Foundations for College Success
An investigation of principles and practices associated with academic success and the interpersonal challenges encountered in collegiate life. Learning preferences, time investment, study skills, degree requirements, and personal development opportunities available in the College and across campus are explored. Graded on A-F basis only.
Credit Hour: 1
Prerequisites: Instructor's consent

AFNR 1120: Computing and Information Technology
Provides students with a basic understanding of computer usage, electronic communications and use of the internet. Topics include understanding of operating systems, word processing, and presentation media.
Credit Hours: 2
Prerequisites: Restricted to freshmen and sophomores

AFNR 2115: College to Career: Strategies for Success
Systematic approach to self-assessment, career research and exploration, goal-setting and implementation of a career development plan. Students will learn specific skills, research knowledge and lifelong career management techniques.
Credit Hour: 1

AFNR 2120: Working with Data Using Excel
Provide students with a basic understanding of computer usage and spreadsheet applications.
Credit Hour: 1

AFNR 2150: Agricultural Travel Course
General travel course designed to broaden the perspective of agricultural students. Cost of course is borne by the student.
Credit Hour: 1-99
Prerequisites: instructor's consent

AFNR 2190: International Agriculture and Natural Resources
This course is designed to provide students with an introduction into the agriculture/natural resources of the host country. Activities may include course work at an international institution, professional and personal development and special projects. Selected sections of this course may be graded either on A-F or S/U basis only.
Credit Hour: 1-15
Prerequisites: instructor's consent

AFNR 2191: International Agriculture and Natural Resources - Humanities
This course is designed to provide students with an introduction to valuing and appreciating the culture and philosophy entrenched in the host country's civilization through the examination of its arts, culture, language and history. May be repeated for credit. Selected sections of the course may be offered on A-F or S/U basis only.
Credit Hour: 1-6
Prerequisites: Instructor's consent

AFNR 2191W: International Agriculture and Natural Resources - Humanities - Writing Intensive
This course is designed to provide students with an introduction to valuing and appreciating the culture and philosophy entrenched in the host country's civilization through the examination of its arts, culture, language and history. May be repeated for credit. Selected sections of the course may be graded either on A-F or S/U basis only.
Credit Hour: 1-6
Prerequisites: Instructor's consent

AFNR 2192: International Agriculture/Natural Resources-Social Science
This course is designed to provide students with an examination of the social sciences of the host country; including the sociology, psychology, economics, government, and history of the country; including the dynamics of urban and rural communities. May be repeated for credit. Selected sections of this course may be graded either on A-F or S/U basis only.
Credit Hour: 1-6
Prerequisites: instructor's consent

AFNR 2215: Introduction to the Theory and Practice of Sustainable Agriculture
This experiential course provides an overview of the theoretical and practical principles of sustainable agriculture by exploring the holistic nature of sustainable agriculture, and analyzing agriculture systems based on their impact on the environment, economy and community.
Credit Hours: 3
Recommended: AFNR 2215; SOIL 2100

AFNR 3115: Lifelong Career Management and Success Strategies
Systematic approach to understanding the importance of effective leadership in the professional world, obtaining transferable skills necessary in the work force, and understanding important aspects that allow one's career to grow over the course of one's professional life. Graded on A-F basis only.
Credit Hour: 1
Prerequisites: junior standing or higher

AFNR 3215: Community Food Systems
Essential concepts in research, implementation and understanding of community food systems and macro-level global trends in food production and distribution will be discussed. Students will examine the social, economic and health implications of conventional and alternative food systems.
Credit Hours: 3
Recommended: AFNR 2215

AFNR 3315: Advanced Practices in Sustainable Agriculture
Course furthers students' understanding of sustainable production systems with an emphasis on stewarding natural resources (soil, water, biodiversity and energy) while maintaining and economically profitable enterprise that provides for a good quality of life.
Credit Hours: 3
Recommended: AFNR 2215; SOIL 2100
AFNR 4001: Topics in Agriculture-General  
Topics in Agriculture-General  
Credit Hour: 1-99

AFNR 4972: Capstone Project in Agriculture, Food and Natural Resources  
A culminating learning experience focused on student's area of concentration that requires the application of knowledge and skills taught in the undergraduate curriculum. The capstone project comprises independent, original work culminating in a scholarly project, written document, and/or presentation. Graded on S/U basis only.  
Credit Hour: 1-3  
Prerequisites: instructor's consent  
Recommended: junior or senior standing

AFNR 4993: Internship in Agriculture, Food and Natural Resources  
Field-based learning experience combining the study, observation, and employment with a business, organization, or governmental agency. The internship provides opportunities to apply skills, concepts and theories about agriculture, food and natural resources in a practical context. The student intern, internship supervisor, and university coordinator will develop an individualized internship plan. May be repeated for credit. Some sections may be graded on either an A-F or S/U basis only.  
Credit Hour: 1-6  
Prerequisites: instructor's consent  
Recommended: junior or senior standing

AFNR 7190: International Agriculture/Natural Resources  
This course is designed to provide students with an introduction into the agriculture/natural resources of the host country. Activities may include course work at an international institution, professional and personal development and special projects. Selected sections of the course may be offered on A-F or S/U basis only.  
Credit Hour: 1-9  
Prerequisites: advisor and instructor's consent

Anesthesiology Courses

ANESTH 6203: ABS Anesthesiology Research  
ABS Anesthesiology Research  
Credit Hour: 5-10

ANESTH 6205: ABS Anesthesiology Research and Review  
ABS Anesthesiology Research and Review  
Credit Hour: 5-10

ANESTH 6400: Anesthesiology  
Goals/Objectives: The goals are providing students with opportunities to: 1. Understand the anesthetic state (e.g. the inability of a person to protect themselves from the environment; concomitant and common depression of other systems of the body other than the nervous system). 2. Learn how to think and react quickly and correctly in times of stress. 3. Develop knowledge and skill at maintaining artificial ventilation and circulation. 4. Develop technical skills (e.g. insertion of endotracheal tubes, intravenous catheters). 5. Understand the rationale behind the choice of an anesthetic agent or technique. 6. Learn the function of an anesthesiologist as a perioperative physician and pain consultant. 7. Learn about the specialty of anesthesiology as a possible future career.  
Notes: Curriculum: Direct participation in anesthetic evaluation and administration for surgical procedures is combined with close individual supervision. Attendance at weekly teaching conferences is expected. Each student will follow a patient pre, intra, and post operatively and write a case presentation. Interblock: First consideration given to students interested in anesthesiology as a career choice; honors considered only with documentation of participation and completion of a research project related to anesthesiology. Evaluations: Evaluations are compiled from daily encounter cards completed by anesthesia providers, a written paper that discusses one patient's anesthetic, and a 50 question written examination at the end of the rotation.  
Credit Hours: 5

ANESTH 6927: Anesthesiology Two-Week  
Through daily participation, students will gain insight into the specialty of anesthesiology and will develop an appreciation for the integration of basic science knowledge (especially anatomy, physiology, and pharmacology) in the clinical care of patients.  
Credit Hours: 2  
Prerequisites: successful completion of the first two years of medical school

Animal Science Courses

AN_SCI 1001: Topics in Animal Science  
Various courses offered on a preliminary basis to determine need for such offering prior to submission as a numbered course. Various topics, credit arranged. There may be prerequisites enforced depending on the topic.  
Credit Hour: 1-4

AN_SCI 1011: Animal Science  
Principles of animal science including importance of animal agriculture, genetics, anatomy, physiology and nutrition.  
Credit Hours: 3

AN_SCI 1011H: Animal Science - Honors  
Principles of animal science including importance of animal agriculture, genetics, anatomy, physiology and nutrition.  
Credit Hours: 3  
Prerequisites: Honors eligibility required

AN_SCI 1012: Introduction to Captive Wild Animal Management  
(same as F_W 1012). General introduction to housing, husbandry, behavior, genetics, nutrition, reproduction, animal health, and disease control of native and exotic species in zoological parks and other animal conservation facilities; emphasizes the role of captive animals in wildlife conservation. Graded on A-F basis only.  
Credit Hours: 3
AN_SCI 1013: Biotechnology in Animal Agriculture
Concepts, discoveries, and applications of biotechnology ranging from the discovery of brewing and baking to animal cloning and genetic engineering are covered. Students will acquire a foundation to understand how biotechnology affects agriculture and our everyday lives. Graded on A-F basis only.

Credit Hours: 3

AN_SCI 1065: Animal Science Laboratory Practicum
An introductory course in skill, related to the care and management of livestock and poultry plus a section dealing with meats and a section dealing with research methods. Students will be expected to participate in hands-on learning development of fundamental skills and animal husbandry. This class will include one 3 hour lab and 1 hour DIS per week.

Credit Hours: 2

AN_SCI 2001: Topics in Animal Science
Various courses offered on a preliminary basis to determine need for such offering prior to submission as a numbered course. Various topics, credit arranged. There may be prerequisites enforced depending on the topic.

Credit Hour: 1-4

AN_SCI 2045: Equine Practicum
Focus on learning hands-on equine skills through the care of horses at the university’s equine facility. Experiential learning is emphasized. Skills include: how to identify the general health and well-being of horses, recognize early onset of illness or lameness, understand basic feeding, housing, and daily care, and demonstrate the ability to handle and feed horses in a safe manner. Monthly meetings, scheduled feed shifts, monthly journals, required skill assessments, and attendance at various educational activities are required. Feed shift scheduling is determined around individual availability and no equine or animal experience is required. To enroll, students should contact the instructor for an application. Graded on A-F basis only.

Credit Hour: 1-2
Prerequisites: Instructor consent required

AN_SCI 2085: Problems in Animal Science
Library and laboratory study of assigned problems in animal breeding, nutrition, physiology or production and management. Planning, conduction and reporting to be in consultation with instructor.

Credit Hour: 1-5
Prerequisites: instructor’s consent

AN_SCI 2095: Equine Behavior and Training
Students learn the psychology and ethology of equine behavior and how it relates to training. The use and proper fitting of equipment is taught and students learn to teach horses to perform the basic movements needed prior to advancing to specialized training.

Credit Hours: 3
Prerequisites: instructor’s consent

AN_SCI 2110: Global Animal Agriculture
Animal Agriculture as influenced globally by political, religious cultural, economic and climatic factors.

Credit Hours: 2
Prerequisites: sophomore standing

AN_SCI 2111: Sophomore Seminar: Societal Issues Facing Animal Agriculture
Course designed to introduce students to key issues facing animal agriculture. Assignments focus on reading current publications associated with issues affecting the animal agriculture industry. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: ENGLSH 1000

AN_SCI 2111W: Sophomore Seminar: Societal Issues Facing Animal Agriculture - Writing Intensive
Course designed to introduce students to key issues facing animal agriculture. Assignments focus on reading current publications associated with issues affecting the animal agriculture industry. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: ENGLSH 1000

AN_SCI 2114: Live Animal and Meat Evaluation
(same as F_S 2114). The composition and quality meat produced from food animals is the driving component of livestock economic value. This course will teach the principles and procedures involved in evaluation, grading, selection, and economic value of meat animals and poultry and the carcasses they produce. This course is an excellent introduction and/or prerequisite for all livestock production courses and will provide a baseline of information for students interested in livestock or meat judging.

Credit Hours: 3

AN_SCI 2115: Livestock Judging
Comparative judging and evaluation; various classes of farm animals; particular reference to utility. Reference reading; illustrated lectures.

Credit Hours: 3

AN_SCI 2116: Livestock Judging
Comparative judging and evaluation; various classes of farm animals; particular reference to utility. Reference reading; illustrated lectures.

Credit Hours: 3

AN_SCI 2131: Dairy Products Evaluation
(same as F_S 2131) Sensory Evaluation and judging of dairy products.

Credit Hours: 2

AN_SCI 2135: Horse Selection and Evaluation
Techniques of selecting and evaluating horses based on conformation and performance characteristics. Effects of conformation on soundness. Includes learning to organize observations on the relative merits of a group of horses into an oral presentation.

Credit Hours: 2
Recommended: AN_SCI 1065
AN_SCI 2140: Companion Animals
(same as BIOMED 2140). Focus on companion dog, cat, and horse owners concerns re: health zoonoses, legal responsibilities, inbreeding, choice of breeds, behavioral problems and loss of companion animals.
Credit Hours: 3
Recommended: sophomore standing

AN_SCI 2165: Introduction to Ruminant Livestock Production
This is an introductory theory course which provides fundamental understanding of ruminant livestock - beef cattle and diary cattle, production, management and associate industries. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: AN_SCI 1065

AN_SCI 2175: Introduction to Monogastric Production
Introductory course which provides fundamental understanding of hogs, horses and poultry. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: AN_SCI 1065

AN_SCI 2195: Equine Facility Management and Marketing
Focuses on learning equine facility management through student care and management of the University’s equine facility and breeding herd. Students also learn handling techniques for a wide variety of horses and gain experience in general equine facility maintenance. Students will be responsible for marketing horses sold in the annual MU online horse auction. Graded on A-F basis only.
Credit Hours: 3
Recommended: AN_SCI 2135 and instructor’s consent. Cannot be taken at the same time as AN_SCI 2095

AN_SCI 3001: Topics in Animal Science
Various courses offered on a preliminary basis to determine need for such offering prior to submission as a numbered course. Various topics, credit arranged. There may be prerequisites enforced depending on the topic.
Credit Hour: 1-4

AN_SCI 3085: Problems in Animal Science
Current problems in animal breeding, nutrition, livestock production and management, meats. Assigned topics. In some cases student may undertake a project by outlining objectives, planning work, keeping records and summarizing results in written report. Some sections may be graded either on S/U or A-F basis only.
Credit Hour: 1-6
Prerequisites: instructor’s consent

AN_SCI 3085W: Problems in Animal Science - Writing Intensive
Current problems in animal breeding, nutrition, livestock production and management, meats. Assigned topics. In some cases student may undertake a project by outlining objectives, planning work, keeping records and summarizing results in written report. Some sections may be graded either on S/U or A-F basis only.
Credit Hour: 1-6

Prerequisites: instructor’s consent

AN_SCI 3190: Study Abroad: International Meat, Dairy and Enology
(same as F_S 3190). This study abroad course introduces students to the meat, dairy and wine industries in Germany or in New Zealand (destinations are on a rotational basis). Students will visit small, medium and large-scale producers and learn about differences in comparisons to the US industries. May be repeated once for credit.
Credit Hours: 3
Prerequisites: instructor’s consent

AN_SCI 3212: Principles of Animal Nutrition
The purpose of this course is to teach students the essential nutrients for animal life and to understand the basic principles of nutrition. Graded on A-F basis only. Recommend: 1 course in biochemistry or at least 4 hours of chemistry and MATH 1100 or equivalent.
Credit Hours: 3

AN_SCI 3213: Genetics of Agricultural Plants and Animals
(same as PLNT_S 3213). Concepts of molecular, transmission, and population and quantitative genetics. Special emphasis given to breeding and biotechnological applications in plant and animal agriculture. Prerequisites: MATH 1100 and one of the following: BIO_SC 1100 (or F_W 1100) or BIO_SC 1200 or BIO_SC 1500.
Credit Hours: 3

AN_SCI 3214: Principles of Meat Science
(same as F_S 3214). Study of the principles involved in the conversion of living animals to meat and by-products; efficient utilization of meat as a food.
Credit Hours: 3
Recommended: one course in Biology

AN_SCI 3215: Principles of Dairy Foods Science
Description of feed ingredients, formulation of diets, and animal feeding management.
Credit Hours: 3
Recommended: One course in Chemistry or Biological Sciences

AN_SCI 3221: Animal Feeds and Feeding
Description of feed ingredients, formulation of diets, and animal feeding management.
Credit Hours: 3
Prerequisites: AN_SCI 3212 and MATH 1100 or equivalent

AN_SCI 3222: Animal Feeds and Feeding
Description of feed ingredients, formulation of diets, and animal feeding management.
Credit Hours: 3
Prerequisites: AN_SCI 3212 and MATH 1100 or equivalent

AN_SCI 3242: Principles and Applications of Animal Nutrition
Fundamentals of animal nutrition, including digestion, absorption, metabolism, and function of nutrients; nutrient and energy requirements; feedstuffs used in livestock and companion animal nutrition; and integration of these principles with nutrition-based calculations to make nutritional management decisions. Graded on A-F basis only.
Credit Hours: 4
Prerequisites: MATH 1100 or higher, CHEM 1320 or higher, Sophomore standing or higher

AN_SCI 3254: Physiology of Domestic Animals
A lecture and laboratory course that covers basic concepts of physiology and anatomy in vertebrate animals.
Credit Hours: 5
Prerequisites: F_W 1100 or BIO_SC 1100 or BIO_SC 1500; CHEM 1320; MATH 1100
Recommended: CHEM 1330; CHEM 2030 or CHEM 2100

AN_SCI 3254H: Physiology of Domestic Animals - Honors
Basic concepts of physiology and anatomy as related to domestic animals.
Credit Hours: 3
Prerequisites: BIO_SC 1010 and BIO_SC 1020 or BIO_SC 1500; CHEM 1310 and CHEM 1320; Honors eligibility required

AN_SCI 3255: Physiology of Domestic Animals Laboratory
This laboratory course covers the basic concepts of physiology as related to domestic animals.
Credit Hours: 2
Prerequisites: BIO_SC 1010 and BIO_SC 1020 or BIO_SC 1500; CHEM 1310 and CHEM 1320; AN_SCI 3254 or equivalent

AN_SCI 3257: Meat Animal Evaluation
Meat animal evaluation highlights the relationships and limitations that exist when evaluating market and breeding animals and develops an appreciation for carcass excellence as it relates to production, merchandising and consumption. Some travel time and commitments will be necessary.
Credit Hours: 2
Prerequisites: AN_SCI 2114 and AN_SCI 2115

AN_SCI 4001: Topics in Animal Science
Various courses offered on a preliminary basis to determine need for such offering prior to submission as a numbered course. Various topics, credit arranged.
Credit Hour: 1-4
Prerequisites: instructor's consent

AN_SCI 4001W: Topics in Animal Science - Writing Intensive
Various courses offered on a preliminary basis to determine need for such offering prior to submission as a numbered course. Various topics, credit arranged.
Credit Hour: 1-4
Prerequisites: instructor's consent

AN_SCI 4010: Pasture-Based Dairy Management
(cross-leveled with AN_SCI 7010). The objective of the class is to give a broad overview of pasture-based dairying and instill a confidence for students evaluating if this type of animal agriculture is an occupation they want to pursue after graduation. The class is taught by experts from various departments in CAFNR and covers elements of dairy and forage production needed to be successful. Materials from this class are also cross-species related where information can be used on other ruminant type operations. Graded on A-F basis only.
Credit Hours: 2
Prerequisites: restricted to Junior and Seniors
Recommended: Background in dairy production, nutrition and reproductive physiology for Animal Science students or plant physiology and forage production for Plant Science students

AN_SCI 4011: Pasture Based Dairy Management Lab
This course is a hands-on experience class taught over 4 days during spring break. The objective of the class is to give a broad overview of pasture-based dairying and instill a confidence for students evaluating if this type of animal agriculture is an occupation they want to pursue after graduation. The class is taught by experts from various departments in CAFNR and covers elements of dairy and forage production needed to be successful. Students will have the opportunity to interact with successful pasture-based dairy producers in Missouri and apply their experience from AN_SCI 4010 on real farm situations. Graded on A-F basis only.
Credit Hour: 1
Prerequisites or Corequisites: AN_SCI 4010

AN_SCI 4312: Monogastric Nutrition
(same as NEP 4020; cross-leveled with AN_SCI 7312 and NUTRIT 7020). Principles of nutrition, feed formulation and recent research in poultry feeding. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: AN_SCI 3212

AN_SCI 4314: Physiology of Reproduction
(cross-leveled with AN_SCI 7314). Principles of animal reproduction with emphasis on endocrine control of reproductive processes.
Credit Hours: 3
Prerequisites or Corequisites: AN_SCI 3254

AN_SCI 4323: Applied Livestock Genetics
Genetic principles applied to improvement of farm animals. Covers selection, prediction of genetic merit and mating systems. Math Reasoning Proficiency Course.
Credit Hours: 2
Prerequisites: BIO_SC 1010, BIO_SC 1020 or BIO_SC 1500 and MATH 1100

AN_SCI 4324: Genomics of Plants and Animals
(cross-leveled with AN_SCI 7324). Analysis of organisms at the level of the complete genome sequence. Covers genome sequencing, assembly and annotation, as well as functional, evolutionary and computational genomics.
AN_SCI 4332: Ruminant Nutrition
(cross-leveled with AN_SCI 7332). Physiology, chemistry, microbiology and pathology of ruminants. Emphasizes the digestion, absorption, metabolism and utilization of nutrients.

Credit Hours: 3
Prerequisites: AN_SCI 3212

AN_SCI 4344: Processing Muscle Foods
(same as F_S 4344; cross-leveled with AN_SCI 7344). Materials and technologies for the manufacture of muscle food products from red meats, poultry and seafood. Experience problem-solving through further processing of complex ingredients and develop skills by practicing operations in a pilot plant facility.

Credit Hours: 3
Recommended: One Chemistry course

AN_SCI 4354: Physiology and Biochemistry of Muscle as Food
(same as F_S 4354; cross-leveled with AN_SCI 7354). Basic concepts in muscle growth and development of livestock evaluating the effects of environment, welfare, nutrition and genetics regarding muscle metabolism, physiology, and the ultimate condition of muscle as food.

Credit Hours: 3
Prerequisites: BIO_SC 1010 or equivalent or AN_SCI 3214 or instructor's consent

AN_SCI 4384: Reproductive Management
Reproductive management of cattle, swine and sheep; estrous synchronization; artificial insemination; embryo development and transfer; assisted reproductive technologies.

Credit Hours: 3
Prerequisites: senior standing and AN_SCI 4314 and instructor's consent

AN_SCI 4386: Equine Reproduction
Focuses on reproductive management techniques and breeding in the horse. Topics include stallion collection and evaluation, artificial insemination, interpreting ultrasound images, teasing, parturition, and foal care. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: AN_SCI 3254 and AN_SCI 4314 or instructor's consent

AN_SCI 4387: Equine Breeding Management
Focuses on practical applications of reproductive management techniques and breeding in the horse. Topics include stallion collection and evaluation, artificial insemination, interpreting ultrasound images, teasing, parturition, and foal care. Students will gain hands-on experience in each of these areas.

Credit Hours: 5
Prerequisites: instructor's consent
Recommended: AN_SCI 2175 and AN_SCI 4314

AN_SCI 4437: Environmental Physiology
Principles of environmental physiology and animal adaptation with emphasis on mechanisms of temperature regulation and related nutritional and metabolic-hormonal functions.

Credit Hours: 3
Prerequisites: AN_SCI 3254

AN_SCI 4910: Senior Seminar in Captive Wild Animal Management
(same as F_W 4910). Investigates key issues in captive wild animal management, focusing on the role of animal caretakers in addressing the issues. Students are required to formulate informed opinions regarding these topics and communicate effectively about the subject matter. Graded A-F only.

Credit Hour: 1
Prerequisites: AN_SCI 1012 or F_W 1012 or instructor's consent; junior or senior standing

AN_SCI 4940: Internship in Animal Science & Technology
Off-campus training to develop technical skills and understanding of an area of animal science. Written reports required. Graded on an S/U basis only.

Credit Hour: 1-12
Prerequisites: instructor's consent

AN_SCI 4950: Undergraduate Research in Animal Science
Individually directed field or laboratory research culminating in a poster or oral presentation for upper-class students under faculty supervision.

Credit Hour: 1-3
Prerequisites: At least sophomore standing or instructor's consent

AN_SCI 4973: Molecular and Cellular Techniques in Animal Science
A directed research project that employs current molecular and cellular technologies. Students will generate experimental data, analyze the data and draft a research report in the format of a scientific paper.

Credit Hours: 4
Prerequisites: instructor's consent
Recommended: an introductory course in biology and a course in organic chemistry, at least junior standing

AN_SCI 4975: Beef Production and Management
(cross-leveled with AN_SIC 7975). Systems of beef production: breeding, feeding, management of commercial and purebred beef cattle.

Credit Hours: 3
Prerequisites: AN_SCI 1065, AN_SCI 2165 and AN_SCI 3212 or instructor's consent

AN_SCI 4975W: Beef Production and Management - Writing Intensive
(cross-leveled with AN_SIC 7975). Systems of beef production: breeding, feeding, management of commercial and purebred beef cattle.

Credit Hours: 3
Prerequisites: AN_SCI 1065, AN_SCI 2165 and AN_SCI 3212 or instructor's consent
AN_SCI 4976: Dairy Production
(cross-leveled with AN_SCI 7976). Applied dairy science; emphasis on nutrition and management; herd health, labor-saving equipment, buildings, quality products, organization of dairy enterprise, business and economic aspects.
Credit Hours: 3
Prerequisites: AN_SCI 1065, AN_SCI 2165, AN_SCI 3212, and AN_SCI 3232 or instructor's consent

AN_SCI 4976W: Dairy Production - Writing Intensive
(cross-leveled with AN_SCI 7976). Applied dairy science; emphasis on nutrition and management; herd health, labor-saving equipment, buildings, quality products, organization of dairy enterprise, business and economic aspects.
Credit Hours: 3
Prerequisites: AN_SCI 1065, AN_SCI 2165, AN_SCI 3212, and AN_SCI 3232 or instructor's consent

AN_SCI 4977: Horse Production
(cross-leveled with AN_SCI 7977). Systems of horse production: breeding, feeding and management of horses.
Credit Hours: 3
Prerequisites: AN_SCI 1065, AN_SCI 2175 and AN_SCI 3212 or instructor's consent

AN_SCI 4978: Swine Production
Systems of pork production: breeding, feeding, management of commercial and purebred swine.
Credit Hours: 3
Prerequisites: AN_SCI 1065, AN_SCI 2175 and AN_SCI 3212 or instructor's consent

AN_SCI 4978W: Swine Production - Writing Intensive
Systems of pork production: breeding, feeding, management of commercial and purebred swine.
Credit Hours: 3
Prerequisites: AN_SCI 1065, AN_SCI 2175 and AN_SCI 3212 or instructor's consent

AN_SCI 4979: Poultry Production
(cross-leveled with AN_SCI 7979). Principles of housing systems, nutrition, management, business and production of commercial chickens and turkeys.
Credit Hours: 3
Prerequisites: AN_SCI 1065, AN_SCI 2175 and AN_SCI 3212 or instructor's consent

AN_SCI 4979W: Poultry Production Writing Intensive
(cross-leveled with AN_SCI 7979). Principles of housing systems, nutrition, management, business and production of commercial chickens and turkeys.
Credit Hours: 3
Prerequisites: AN_SCI 1065, AN_SCI 2175 and AN_SCI 3212 or instructor's consent

AN_SCI 7001: Topics in Animal Science
Various courses offered on a preliminary basis to determine need for such offering prior to submission as a numbered course. Various topics, credit arranged.
Credit Hour: 1-4
Prerequisites: instructor's consent

AN_SCI 7010: Pasture-Based Dairy Management
(cross-leveled with AN_SCI 4010). The objective of the class is to give a broad overview of pasture-based dairying and instill a confidence for students evaluating if this type of animal agriculture is an occupation they want to pursue after graduation. The class is taught by experts from various departments in CAFNR and covers elements of dairy and forage production needed to be successful. Materials from this class are also cross-species related where information can be used on other ruminant type operations. Graded on A-F basis only.
Credit Hours: 2
Recommended: Background in dairy production, nutrition and reproductive physiology for Animal Science students or plant physiology and forage production for Plant Science students

AN_SCI 7312: Monogastric Nutrition
(same as NUTRIT 7020 and NEP 7020; cross-leveled with AN_SCI 4312 and NEP 4020). Principles of nutrition, feed formulation and recent research in poultry feeding. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: AN_SCI 3212

AN_SCI 7314: Physiology of Reproduction
(cross-leveled with AN_SCI 4314). Principles of animal reproduction with emphasis on endocrine control of reproductive processes.
Credit Hours: 3
Prerequisites: AN_SCI 3254 and BIO_SC 1500 or equivalent; or AN_SCI 3254 as a co-requisite and instructor's consent

AN_SCI 7323: Applied Livestock Genetics
(cross-leveled with AN_SCI 4323). Genetic principles applied to improvement of farm animals. Covers selection, prediction of genetic merit and mating systems.
Credit Hours: 2
Prerequisites: BIO_SC 1010, BIO_SC 1020 or BIO_SC 1500 and MATH 1100

AN_SCI 7324: Genomics of Plants and Animals
(cross-leveled with AN_SCI 4323). Analysis of organisms at the level of the complete genome sequence. Covers genome sequencing, assembly and annotation, as well as functional, evolutionary and computational genomics.
Credit Hours: 3
Prerequisites: BIO_SC 1010, BIO_SC 1020 or BIO_SC 1500, MATH 1100, AN_SCI 3213 / PLNT_S 3213 or equivalent; and instructor's consent
AN_SCI 7332: Ruminant Nutrition
(cross-leveled with AN_SCI 4332). Physiology, chemistry, microbiology and pathology of ruminants. Emphasizes the digestion, absorption, metabolism and utilization of nutrients.
Credit Hours: 3
Prerequisites: AN_SCI 3212

AN_SCI 7344: Processing Muscle Foods
(same as F_S 7344; cross-leveled with AN_SCI 4344, F_S 4344). Materials and technologies for the manufacture of muscle food products from red meats, poultry and seafood. Experience problem-solving through further processing of complex ingredients and develop skills by practicing operations in a pilot plant facility.
Credit Hours: 3
Prerequisites: one Chemistry course

AN_SCI 7354: Physiology and Biochemistry of Muscle as Food
(same as F_S 7354; cross-leveled with AN_SCI 4354, F_S 4354). Basic concepts in muscle growth and development of livestock evaluating the effects of environment, welfare, nutrition and genetics regarding muscle metabolism, physiology, and the ultimate condition of muscle as food.
Credit Hours: 3
Prerequisites: BIO_SC 1010 or equivalent or AN_SCI 3214 or instructor's consent

AN_SCI 7384: Reproductive Management
(cross-leveled with AN_SCI 4384). Reproductive management of cattle, swine and sheep; estrous synchronization; artificial insemination; embryo development and transfer; assisted reproductive technologies.
Credit Hours: 3
Prerequisites: AN_SCI 4314 and instructor's consent

AN_SCI 7437: Environmental Physiology
(cross-leveled with AN_SCI 4437). Principles of environmental physiology and animal adaptation with emphasis on mechanisms of temperature regulation and related nutritional and metabolic-hormonal functions.
Credit Hours: 3
Prerequisites: AN_SCI 3254 or equivalent

AN_SCI 7977: Horse Production
(cross-leveled with AN_SCI 4977). Systems of horse production: breeding, feeding and management of horses.
Credit Hours: 3
Prerequisites: AN_SCI 1065, AN_SCI 2175 and AN_SCI 3212 or instructor's consent

AN_SCI 7978: Swine Production
(same as AN_SCI 4978). Systems of pork production: breeding, feeding, management of commercial and purebred swine.
Credit Hours: 3
Prerequisites: AN_SCI 1065, AN_SCI 2175 and AN_SCI 3212 or instructor's consent

AN_SCI 7979: Poultry Production
(cross-leveled with AN_SCI 4979). Principles of housing systems, nutrition, management, business and production of commercial chickens and turkeys.
Credit Hours: 3
Prerequisites: AN_SCI 1065, AN_SCI 2175 and AN_SCI 3212 or instructor's consent

AN_SCI 8085: Problems in Animal Science
Advanced independent studies in fields not directly related to thesis or non-thesis degree research program. May be graded on S/U or A-F basis only.
Credit Hour: 1-6
Prerequisites: instructor's consent

AN_SCI 8087: Seminar in Animal Science
Critical consideration of research and other selected subjects in animal breeding, animal nutrition, reproductive physiology, growth and development and livestock production and management.
Credit Hour: 1

AN_SCI 8090: Thesis Research in Animal Science
Investigations in animal breeding, animal nutrition, reproduction physiology, growth and development livestock production and management. Graded on a S/U basis only.
Credit Hour: 1-99

AN_SCI 8413: Reproductive Biology Seminar
Presentation and discussion of selected topics from all phases of reproductive biology. Open to qualified students of graduate standing in the field of Reproductive Biology.
Credit Hour: 1

AN_SCI 8414: Meat Quality
(same as F_S 8414). Discussion of factors affecting meat quality in beef, pork, lamb and poultry. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: AN_SCI 3214 or equivalent
AN_SCI 8415: Survey of Epigenetics
This course will introduce graduate students to the basic concepts in epigenetics, including DNA methylation, histone modifications, epigenetic modifiers/transacting factors, non-coding RNAs, genomic imprinting, and dosage compensation. The course is designed to be a combination of lectures, paper discussions, and research talks by invited faculty speakers from across campus.
Credit Hours: 3
Prerequisites: Instructor’s consent

AN_SCI 8420: Endocrinology
Hormones of pituitary and endocrine glands; special reference to influence on growth, reproduction, milk secretion.
Credit Hours: 3
Prerequisites: AN_SCI 7314 or equivalent

AN_SCI 8424: Meat Investigations
(same as F_S 8424). Discussions of scientific literature and hands-on experimentation with research techniques customarily used in the field of meat science. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: F_S 3214 /AN_SCI 3214 or equivalent; instructor’s consent

AN_SCI 8430: Introduction to Bioinformatics Programming
(same as PLNT_S 8430). This course provides the basics of programming and database development to students in the life sciences who have little prior programming experience. It covers Unix/Linux, Perl, MySQL, the relational database design process, and common data formats used in genome informatics. Students will learn how programming skills can enhance their ability to analyze large biological datasets, and will gain hands on experience with examples focused on genomics and bioinformatics. Graded on A-F basis only.
Credit Hours: 4
Prerequisites: BIO_SC 4974 and BIO_SC 4374 or equivalent courses, Anova analysis course (STAT 7530) or equivalent experience in using Anova analysis

AN_SCI 8441: Livestock Production and Management Research Methods
Techniques of experimentation, with application to livestock production and management. Exercises in methods of planning, conducting, analyzing, evaluating and reporting research.
Credit Hours: 3
Prerequisites: STAT 4530/STAT 7530 or equivalent or instructor’s consent

AN_SCI 8443: Functional Genomics of Mammalian Genomes: Focus on Microarray
The curriculum covers methods for functional genomics. It explores experimental designs, data filtering, ANOVA analysis, power calculations, clustering and classification systems, and functional annotation of genes through lectures, and bioinformatics and regular laboratories. May be repeated for credit. Graded on A-F basis only.
Credit Hours: 4
Prerequisites: BIO_SC 4974 and BIO_SC 4374 or equivalent courses, Anova analysis course (STAT 7530) or equivalent experience in using Anova analysis

AN_SCI 8447: Recent Advances in Environmental and Endocrine Physiology
Seminar. Presentation, discussion, and critical evaluation of current status of selected topics in environmental and endocrine physiology.
Credit Hour: 1
Prerequisites: AN_SCI 3254 or equivalent

AN_SCI 8450: Research in Animal Science
Research in Animal Science
Credit Hour: 1-99

AN_SCI 8472: Amino Acid Metabolism
An in-depth study of amino acid metabolism and their relationship to animal nutrition.
Credit Hours: 2
Prerequisites: BIOCHM 4270 and BIOCHM 4272

AN_SCI 8633: Molecular and Network Evolution
(same as BIO_SC 8633). Evolution of biological macromolecules and networks, including sequence analysis algorithms and theory, phylogenetics, gene duplication, genome evolution, principles of biological networks. Development of computational skills emphasized.
Credit Hours: 3
Prerequisites: Instructor’s consent required

AN_SCI 8725: Science Outreach: Public Understanding of Science
(same as BIO_SC 8725, PHYSCS 8350 and LTC 8725). Development of presentations to adult audiences on the science underlying issues of current interest. May be repeated for credit.
Credit Hour: 1-2

AN_SCI 9001: Topics in Animal Science
Credit Hour: 1-99
Prerequisites: instructor's consent

AN_SCI 9090: Dissertation Research in Animal Science
Investigations in animal breeding, animal nutrition, livestock production and management. Dissertation required. Graded on a S/U basis only.
Credit Hour: 1-99

AN_SCI 9423: Genetics of Populations
Introduction to quantitative genetics with application to animal and plant breeding.
Credit Hours: 4
Prerequisites: STAT 4530 or STAT 7530

AN_SCI 9432: Ruminant Nutrition
(same as NUTRIT 8320). Physiology, chemistry, microbiology, pathology of ruminants. Emphasizes digestion, absorption, metabolism, utilization of nutrients. Lecture, laboratory, assigned readings.
Credit Hours: 3
Prerequisites: AN_SCI 4332/AN_SCI 7332 or equivalent and BIOCHM 4270

AN_SCI 9433: Gamete and Embryo Development
A classical and molecular approach to spermatogenesis, oogenesis, fertilization and preimplantation development in the domestic species.
Credit Hours: 3
Prerequisites: AN_SCI 4314/AN_SCI 7314 or BIO_SC 4984 or equivalent

AN_SCI 9434: Gonadal Function
(same as BIOMED 9434).
Credit Hours: 3
Prerequisites: AN_SCI 4314, biochemistry or cell biology and AN_SCI 8420

AN_SCI 9435: Placentation
Provide students with current and in-depth information about the mechanisms involved in placental development and how the placenta (and placental products) influence maternal physiology - both locally at the placenta-uterine interface and systemically. All course topics will be covered in a comparative cross-species approach whenever possible. Emphasis will be placed on the most recent literature regarding the interactions taking place between the placenta and maternal system and how these interactions lead to the eventual birth of live young.
Credit Hours: 3
Recommended: It is preferred that students take AN_SCI 9433 prior to this class, but this is not an absolute requirement

AN_SCI 9441: Bioenergetics
(same as NUTRIT 8400). Energetic interactions of animals and their physical and nutritional environments.
Credit Hours: 3
Prerequisites: instructor's consent

AN_SCI 9442: Vitamins and Minerals
Designed to provide students with an understanding of the chemical, metabolic, and functional role of vitamins and minerals in nutrition. While the primary focus will be on animals, comparative aspects to human nutrition will be discussed.
Credit Hours: 4
Prerequisites: AN_SCI 3212, BIOCHM 4270 or equivalent

AN_SCI 9452: Mycotoxins
Designed to provide students with an understanding of the occurrence of mycotoxins, mechanisms of toxicity, analytical methodology, and approaches for ameliorating the toxic effects of mycotoxin in animals.
Credit Hours: 3
Prerequisites: instructor's consent and courses in Nutrition and Biochemistry

Anthropology Courses
ANTHRO 1000: General Anthropology
General survey course in fields of anthropological concern: archaeology, cultural anthropology, physical anthropology, linguistics; emphasizes underlying concepts, principles. Examples from peoples of the world.
Credit Hours: 3

ANTHRO 1000H: General Anthropology - Honors
General survey course in fields of anthropological concern: archaeology, cultural anthropology, physical anthropology, linguistics; emphasizes underlying concepts, principles. Examples from peoples of the world.
Credit Hours: 3
Prerequisites: Honors eligibility required

ANTHRO 1001: Topics in Anthropology - General
Problems, topics, issues, or review of research in any areas of anthropology and/or experimental development of new content areas at a freshman level. Specific content will vary and will be announced in advance. May be repeated to a maximum of 9 hours.
Credit Hours: 3

ANTHRO 1002: Topics in Anthropology - Biological/Physical/Mathematics
Problems, topics, issues, or review of research in any areas of anthropology and/or experimental development of new content areas at a freshman level. Specific content will vary and will be announced in advance. May be repeated to a maximum of 9 hours.
Credit Hour: 1-3

ANTHRO 1003: Topics in Anthropology - Behavioral
Problems, topics, issues, or review of research in any areas of anthropology and/or experimental development of new content areas at a freshman level. Specific content will vary and will be announced in advance. May be repeated to a maximum of 9 hours.
Credit Hours: 3
ANTHRO 1004: Topics in Anthropology - Social Science
Problems, topics, issues, or review of research in any areas of anthropology and/or experimental development of new content areas at a freshman level. Specific content will vary and will be announced in advance. May be repeated to a maximum of 9 hours.

Credit Hours: 3

ANTHRO 1005: Topics in Anthropology - Humanities
Problems, topics, issues, or review of research in any areas of anthropology and/or experimental development of new content areas at a freshman level. Specific content will vary and will be announced in advance. May be repeated to a maximum of 9 hours.

Credit Hours: 3

ANTHRO 1060: Human Language
(same as LINGST 1060, C_S_D 1060 and ENGLSH 1060). General introduction to various aspects of linguistic study. Elementary analysis of language data with some attention to application of linguistic study to other disciplines.

Credit Hours: 3

ANTHRO 1150: Introduction to Folklore Genres
(same as ENGLSH 1700). Course focus is on genres of folklore in both historic and contemporary contexts, as well as in people's daily lives. Genres include narrative, proverbs, oral poetry and rhyme, riddles, jokes, legends, epics, material culture and intangible expressive culture. Graded on A-F basis only.

Credit Hours: 3

ANTHRO 1200: Significant Discoveries of Archaeology
Detailed consideration of approximately 20 archaeological discoveries and conclusions, from the field and the laboratory, which have been of surpassing importance for an understanding of human origins, behavior, culture and past experiences on earth.

Credit Hours: 3

ANTHRO 1300: Multiculturalism: An Introduction
Examines contemporary multiculturalism (and its origins) globally; introduces key concepts; uses diverse, extended cross-cultural and American examples; and emphasizes complexity of cultures, practicality of issues, and change.

Credit Hours: 3

ANTHRO 1350: Deviance: A Cross-Cultural Perspective
Cross-cultural studies of problem behavior with emphasis on violence, suicide, sexual misconduct, drug use and mental disorder.

Credit Hours: 3

ANTHRO 1500: Monkeys, Apes and Humans
For those with little or no background in anthropology. Surveys the ecology and behavior of major nonhuman primate groups, and how these relate to the evolution of human behavior.

Credit Hours: 3

ANTHRO 1500W: Monkeys, Apes and Humans - Writing Intensive
For those with little or no background in anthropology. Surveys the ecology and behavior of major nonhuman primate groups, and how these relate to the evolution of human behavior.

Credit Hours: 3

ANTHRO 2001: Topics in Anthropology-General
Problems, topics, issues or review of research in any area of anthropology (including its relationships with other areas) and/or experimental development of new content areas at an undergraduate level. Specific content will vary and will be announced in advance. May be repeated to a maximum of 9 hours.

Credit Hours: 1-3

ANTHRO 2002: Topics in Anthropology-Biological/Physical/Mathematics
Problems, topics, issues or review of research in any area of anthropology (including its relationships with other areas) and/or experimental development of new content areas at an undergraduate level. Specific content will vary and will be announced in advance. May be repeated to a maximum of 9 hours.

Credit Hours: 3

ANTHRO 2003: Topics in Anthropology - Behavioral
Problems, topics, issues or review of research in any area of anthropology (including its relationships with other areas) and/or experimental development of new content areas at an undergraduate level. Specific content will vary and will be announced in advance. May be repeated to a maximum of 9 hours.

Credit Hours: 3

ANTHRO 2004: Topics in Anthropology - Social Science
Problems, topics, issues or review of research in any area of anthropology (including its relationships with other areas) and/or experimental development of new content areas at an undergraduate level. Specific content will vary and will be announced in advance. May be repeated to a maximum of 9 hours.

Credit Hours: 3

ANTHRO 2005: Topics in Anthropology - Humanities
Problems, topics, issues or review of research in any area of anthropology (including its relationships with other areas) and/or experimental development of new content areas at an undergraduate level. Specific content will vary and will be announced in advance. May be repeated to a maximum of 9 hours.

Credit Hours: 1-3

ANTHRO 2020: Fundamentals of Archaeology with Laboratory
Introduces the methodological and theoretical underpinnings of archaeology. The goals of archaeological research, and the techniques used to extract data from the archaeological record are discussed. The lab involves hands-on experience with archaeological materials. No credit for both ANTHRO 2020 and ANTHRO 2021.

Credit Hours: 4
ANTHRO 2021: Fundamentals of Archaeology
Introduces the methodological and theoretical underpinnings of archaeology. The goals of archaeological research, and the techniques used to extract data from the archaeological record are discussed. No credit for both ANTHRO 2020 and ANTHRO 2021.

Credit Hours: 3

ANTHRO 2022: Fundamentals of Archaeology Lab
Involves hands-on experience with archaeological materials. No credit given to students who have taken ANTHRO 2020.

Credit Hour: 1
Prerequisites: must have completed ANTHRO 2021

ANTHRO 2030: Cultural Anthropology
Analysis of human cultures with emphasis on both constant and variable factors at different levels of social complexity; contact between cultures, and cultural influences on individual behavior.

Credit Hours: 3

ANTHRO 2030W: Cultural Anthropology - Writing Intensive
Analysis of human cultures with emphasis on both constant and variable factors at different levels of social complexity; contact between cultures, and cultural influences on individual behavior.

Credit Hours: 3

ANTHRO 2040: Anthropological Linguistics
(same as LINGST 2040). Language in relation to other aspects of human behavior. Introduction to description and analysis of the basic units of language. Emphasis on non-Indo-European and preliterate languages.

Credit Hours: 3

ANTHRO 2050: Introduction to Biological Anthropology with Laboratory
A survey of biological anthropology. Primary emphasis on the biological evidence for human evolution. Major topics include human paleontology, primate behavior and human variation. Three hours lecture and two hours lab. No credit for both ANTHRO 2050 and ANTHRO 2051. Math Reasoning Proficiency Course.

Credit Hours: 5
Prerequisites: MATH 1100 or MATH 1160

ANTHRO 2051: Introduction to Biological Anthropology
A survey of biological anthropology. Primary emphasis on the biological evidence for human evolution. Major topics include human paleontology, primate behavior and human variation. No credit for both ANTHRO 2050 and ANTHRO 2051.

Credit Hours: 3

ANTHRO 2052: Biological Anthropology Laboratory
Laboratory exercises dealing with human genetics, non-human primates, the human fossil record, and human variation. Credit not given for students who have taken ANTHRO 2050. Math Reasoning Proficiency Course.

Credit Hours: 3
Prerequisites: ANTHRO 2051 (or equivalent) and MATH 1100

ANTHRO 2100: Indigenous Religions
(same as REL_ST 2100). Explores the central aspects of religious life in indigenous communities. Focusing on specific native communities, it considers individual and group identity and the meaning of the sacred.

Credit Hours: 3

ANTHRO 2100H: Indigenous Religions - Honors
(same as REL_ST 2100H). Explores the central aspects of religious life in indigenous communities. Focusing on specific native communities, it considers individual and group identity and the meaning of the sacred.

Credit Hours: 3
Prerequisites: Honors eligibility required

ANTHRO 2150: World Archaeology
Major events in cultural evolution such as control of fire, invention of ceramic and metallurgical technologies, colonization of Australia and the Americas, development of agriculture, and emergence of complex sociopolitical organization are described in all regions of the world.

Credit Hours: 3

ANTHRO 2300: Anthropology of War
Anthropological approaches to tribal and modern war; theories of war's origins; relation to ecology, economy, gender, belief systems, politics; transformation of tribal warfare by state expansion; peace.

Credit Hours: 3

ANTHRO 2340: Hunters and Gatherers
Exploration of how different hunter-gatherer groups interact with their physical and social environment. Topics include food acquisition, allocation of labor, reproduction and family life, and deciding where to live and when to move.

Credit Hours: 3

ANTHRO 2500: Primate Anatomy and Evolution
This course will explore why primates (and humans) are built the way they are, how they evolved, and what their anatomy tells us about their biology. We will cover basic primate anatomy and ecology, and then survey the fossil record of primate evolution.

Credit Hours: 3

ANTHRO 2520: Forensic Anthropology
This course will introduce students to how biological anthropologists apply expertise in human osteology, skeletal variation and plasticity,
skeletal pathology, body decomposition, and archaeological recovery of
evidence to medicolegal investigations.

Credit Hours: 3

ANTHRO 2530: Human Evolution through Film and Literature
This course will use recent films and novels as starting points to
introduce students to concepts in human biology, history and evolution.
Topics will range broadly from genetics and mutation to primatology to
paleoanthropology and the human fossil record.

Credit Hour: 1-3

ANTHRO 2570: Parents and Offspring
A comparative investigation of the evolution of parental behaviors and
family interactions in humans and other primates.

Credit Hours: 3
Recommended: Sophomore standing

ANTHRO 2580: Evolution of Human Sexuality
Biological and cultural aspects of human reproduction are examined from
the perspective of evolutionary and ecological theory.

Credit Hours: 3
Recommended: Sophomore standing

ANTHRO 2580W: Evolution of Human Sexuality - Writing Intensive
Biological and cultural aspects of human reproduction are examined from
the perspective of evolutionary and ecological theory.

Credit Hours: 3
Recommended: Sophomore standing

ANTHRO 2800: Introduction to Field Methods in Archaeology
Techniques of field research and laboratory analysis through field
experience.

Credit Hour: 1-6
Prerequisites: ANTHRO 2020 or ANTHRO 2021 or instructor's consent

ANTHRO 2825: Analyzing Artifacts
A brief introduction to the main methods used to analyze artifacts.

Credit Hours: 3

ANTHRO 2950: Research Skills in Anthropology
Participation in faculty research activities. Course coordinator matches
students with participating faculty. Three hours of research activities per
week per credit hour. May be repeated to a maximum of nine hours.

Credit Hour: 1-3
Prerequisites: instructor's consent

ANTHRO 3001: Topics in Anthropology - General
Problems, topics, issues, or review of research in any area of
anthropology and/or experimental development of new content areas.
May be repeated to a maximum of 9 hours.

Credit Hours: 3

ANTHRO 3002: Topics in Anthropology-Biological/Physical/ Mathematics
Problems, topics, issues or review of research in any area of
anthropology and/or experimental development of new content areas.
May be repeated to a maximum of 9 hours.

Credit Hours: 3

ANTHRO 3003: Topics in Anthropology - Behavioral Science
Problems, topics, issues or review of research in any area of
anthropology and/or experimental development of new content areas.
May be repeated to a maximum of 9 hours.

Credit Hours: 3

ANTHRO 3004: Topics in Anthropology - Social Science
Problems, topics, issues or review of research in any area of
anthropology and/or experimental development of new content areas.
May be repeated to a maximum of 9 hours.

Credit Hours: 3

ANTHRO 3005: Topics in Anthropology - Humanities
Problems, topics, issues or review of research in any area of
anthropology and/or experimental development of new content areas.
May be repeated to a maximum of 9 hours.

Credit Hours: 3

ANTHRO 3150: American Folklore
(same as ENGLISH 3700). Regional and ethnic American folklore,
with emphasis on analysis of folklore in context. Book reports and two
analytical papers based on student field research required.

Credit Hours: 3

ANTHRO 3340: The Evolution of Human Nature
(same as ANTHRO 3340H, ANTHRO 3340HW, GN_HON 3241H). We
will investigate the topic of human nature, asking such questions as:
What are we like? Why do we behave the way we do? Are we inherently
selfish or social? Do we have a unitary “self” or are we made up of many
(and sometimes contradictory) selves? Is there a single “human” nature
or are there distinct “male” and “female” natures? Does human nature
vary across cultures? Insights come from fields ranging from genetics
to literature. The concept of “human nature” is fiercely contested and
debated both within and between academic disciplines. We will be
focusing on the scientific study of human nature, seeking naturalistic
explanations by formulating and testing hypotheses. In particular, we will
use evolutionary theory to unify explanations from disparate disciplines
like biology, psychology, and anthropology. In each class, we will discuss
one specific topic like sex or violence and seek to make sense of it from
both the proximate level (what triggers the behavior and how does it
develop?) and the ultimate level (why and how did our evolutionary
history imbue us with the capacity?). Graded on A-F basis only.

Credit Hours: 3

ANTHRO 3340H: The Evolution of Human Nature - Honors
(same as GN_HON 3241H, ANTHRO 3340, ANTHRO 3340HW). We
will investigate the topic of human nature, asking such questions as:
What are we like? Why do we behave the way we do? Are we inherently
selfish or social? Do we have a unitary "self" or are we made up of many (and sometimes contradictory) selves? Is there a single "human" nature or are there distinct "male" and "female" natures? Does human nature vary across cultures? Insights come from fields ranging from genetics to literature. The concept of "human nature" is fiercely contested and debated both within and between academic disciplines. We will use evolutionary theory to unify explanations from disparate disciplines like biology, psychology, and anthropology. In each class, we will discuss one specific topic like sex or violence and seek to make sense of it from both the proximate level (what triggers the behavior and how does it develop?) and the ultimate level (why and how did our evolutionary history imbue us with this capacity?). Graded on A-F basis only.

Credit Hours: 3
Prerequisites: Honors eligibility required

ANTHRO 3340HW: The Evolution of Human Nature - Honors/Writing Intensive
(same as ANTHRO 3340, ANTHRO 3340H GN_HON 3241H). We will investigate the topic of human nature, asking such questions as: What are we like? Why do we behave the way we do? Are we inherently selfish or social? Do we have a unitary "self" or are we made up of many (and sometimes contradictory) selves? Is there a single "human" nature or are there distinct "male" and "female" natures? Does human nature vary across cultures? Insights come from fields ranging from genetics to literature. The concept of "human nature" is fiercely contested and debated both within and between academic disciplines. We will be focusing on the scientific study of human nature, seeking naturalistic explanations by formulating and testing hypotheses. In particular, we will use evolutionary theory to unify explanations from disparate disciplines like biology, psychology, and anthropology. In each class, we will discuss one specific topic like sex or violence and seek to make sense of it from both the proximate level (what triggers the behavior and how does it develop?) and the ultimate level (why and how did our evolutionary history imbue us with this capacity?). Graded on A-F basis only.

Credit Hours: 3
Prerequisites: Honors Eligibility Required

ANTHRO 3380: Native American Religions
(same as REL_ST 3380). Investigation of religious lives of the native peoples of the Americas through cultural contact with modernity. Perspectives based on historical, anthropological and native texts.

Credit Hours: 3

ANTHRO 3380H: Native American Religions - Honors
(same as REL_ST 3380H). Investigation of religious lives of the native peoples of the Americas through cultural contact with modernity. Perspectives based on historical, anthropological and native texts.

Credit Hours: 3
Prerequisites: Honors eligibility required

ANTHRO 3470: Culture as Communication
(same as COMMUN 3470, LINGST 3470). Study of the influence of culture on communication processes. Examines topics such as the impact of values, languages, and nonverbal behavior on intercultural interaction.

Credit Hours: 3

ANTHRO 3490: Indian Cinema
(same as AR_H_A 3790, S_A_ST 3490 and FILM_S 3490). Indian Cinema provides an overview of the key genres and themes of Indian film, including Bollywood, art cinema/parallel cinema, Indian regional cinemas, and diasporic cinema. The course combines film studies, anthropological, historical, and visual culture analyses to provide a holistic view of Indian culture and society through cinema.

Credit Hours: 3
Recommended: Sophomore standing or higher

ANTHRO 3540: Human Biology and Life History
A general survey of human biology, focusing on the development of the individual from infancy to adulthood and the biology of human populations.

Credit Hours: 3

ANTHRO 3560: Plagues and Peoples
Overview of the ecology of human host-pathogen interactions and the influence of human culture on the transmission and spread of infectious diseases through time and in different environments.

Credit Hours: 3

ANTHRO 3560W: Plagues and Peoples - Writing Intensive
Overview of the ecology of human host-pathogen interactions and the influence of human culture on the transmission and spread of infectious diseases through time and in different environments.

Credit Hours: 3
Recommended: sophomore standing

ANTHRO 3600: North American Indian Culture
Comparative study of American Indians north of Mexico, emphasizes eastern United States.

Credit Hours: 3

ANTHRO 3610: Peoples of Canada
This course provides an anthropological approach to the culture and peoples of Canada. The course will include in depth studies of several First Nations People, Quebec, various recent immigrant populations, and the modern popular culture of Canada.

Credit Hours: 3

ANTHRO 3660: Peoples of the Andes
Archaeological and linguistic prehistory set the stage for the clash of Iberian and indigenous peoples whose descendants make up the Andean countries. Ethnographic studies provides a basis for their understanding.

Credit Hours: 3
ANTHRO 3680: Plants and People in Native America
Explores the present and past interactions between people and the plant world, covering use of plants as foods, medicines, and in rituals, and reviewing the origin of major food plants.
Credit Hours: 3
Recommended: sophomore standing

ANTHRO 3700: Cultures of Europe
Examines ethnic, linguistic, and folk cultural backgrounds of contemporary Europe and the articulation of local sociocultural units with national society and culture.
Credit Hours: 3
Recommended: sophomore standing

ANTHRO 3780: Cultures of Southeast Asia
Survey of peoples and cultures of Southeast Asia; topics include regional geography and prehistory, European colonialism, economic and social organization, religious practices, changing status of women, urban and rural poverty, and environmental transformations.
Credit Hours: 3

ANTHRO 4001: Topics in Anthropology-General
Problems, topics, issues, or review of research; experimental development of new content areas. Specific content varies depending on needs of faculty or students and will be announced in advance. May be repeated to a maximum of 9 hours.
Credit Hours: 3

ANTHRO 4002: Topics in Anthropology - Biological/Physical/Mathematics
Problems, topics, issues, or review of research; experimental development of new content areas. Specific content varies depending on needs of faculty or students and will be announced in advance. May be repeated to a maximum of 9 hours.
Credit Hours: 3

ANTHRO 4003: Topics in Anthropology - Behavioral Science
Problems, topics, issues, or review of research; experimental development of new content areas. Specific content varies depending on needs of faculty or students and will be announced in advance. May be repeated to a maximum of 9 hours.
Credit Hours: 3

ANTHRO 4004: Topics in Anthropology - Social Science
Problems, topics, issues, or review of research; experimental development of new content areas. Specific content varies depending on needs of faculty or students and will be announced in advance. May be repeated to a maximum of 9 hours.
Credit Hours: 3

ANTHRO 4005: Topics in Anthropology - Humanities
Problems, topics, issues, or review of research; experimental development of new content areas. Specific content varies depending on needs of faculty or students and will be announced in advance. May be repeated to a maximum of 9 hours.
Credit Hours: 3

ANTHRO 4150: Special Themes in Folklore
(same as ENGLISH 4700; cross-leveled with ANTHRO 7150 and ENGLISH 7700). Intensive study in a selected area of folklore: folk narrative, folk song, myth, proverb, etc., folklore and literature, or the folklore of a particular group. May be repeated for a maximum of six hours with department's consent.
Credit Hours: 3

ANTHRO 4160: Themes in African Diaspora Folklore
(same as ENGLISH 4710 and BL_STU 4710; cross-leveled with ENGLISH 7710 and BL_STU 7710). Intensive study in a selected area of African Diaspora Folklore: folk narrative, folk song, myth, proverb, etc., folklore and literature, or the folklore of a particular group. ANTHRO 4150 and ANTHRO 4160 may be repeated for a maximum of six hours with instructor's consent.
Credit Hours: 3
Recommended: junior standing

ANTHRO 4200: Environment and Archaeology
(cross-leveled with ANTHRO 7200). Study of Quaternary environments and cultural systems. Focuses on North American records emphasizing climate and biologic components of regional ecosystems; regional environmental reconstruction.
Credit Hours: 3
Recommended: ANTHRO 2020 or ANTHRO 2021

ANTHRO 4240: History of Archaeology
(cross-leveled with ANTHRO 7240). Growth of archaeology worldwide since AD 1700. Emphases include intellectual and theoretical developments, field and laboratory techniques, and major figures in the history of the discipline.
Credit Hours: 3
Prerequisites: ANTHRO 2020 or ANTHRO 2021 or instructor's consent

ANTHRO 4280: Archaeology of Religion
(same as REL_ST 4280; cross-leveled with ANTHRO 7280 and REL_ST 7280). Examines how anthropologists conceptualize religious behavior, and how archaeologists use material remains to examine past religious behavior, rituals, religious practitioners, cosmogonical constructs, worldview and ideology in the Americas.
Credit Hours: 3
Recommended: ANTHRO 2020 or REL_ST 2100

ANTHRO 4300: Comparative Social Organization
(cross-leveled with ANTHRO 7300). Cross-cultural comparison, analysis of social structures. Role of kinship, age, sex, locality, economics, religion and other factors in determining relationships between individuals and groups cross-culturally.
Credit Hours: 3
Prerequisites: ANTHRO 2030
ANTHRO 4320: Ecological and Environmental Anthropology
(cross-leveled with ANTHRO 7320). Cultural anthropological approaches to human-environment interaction; cultural adaptations to diverse environments; theoretical developments and current issues; cultural, social, and historical contexts of natural resource use.

Credit Hours: 3
Recommended: junior or senior standing

ANTHRO 4340: Cultural Evolution and Change
(cross-leveled with ANTHRO 7340). Alternative hypotheses about the relationship between culture and evolution are evaluated in light of ethnographic evidence.

Credit Hours: 3
Prerequisites: ANTHRO 2030 or instructor's consent

ANTHRO 4350: Psychological Anthropology
(cross-leveled with ANTHRO 4350). Examines cross-cultural approaches to the study of perception, cognition, and personality; methods for gathering and validating data; examples from non-Western societies.

Credit Hours: 3

ANTHRO 4360: Medical Anthropology
(cross-leveled with ANTHRO 7360). Cross-cultural study of belief systems concerning health and illness, practices of diagnosis and treatment, and roles of patients and practitioners. Several non-Western health care systems are studied in detail.

Credit Hours: 3

ANTHRO 4370: Anthropology of Gender
(same as WGST 4370; cross-leveled with ANTHRO 7370 and WGST 7370). The Anthropology of Gender introduces the student to the variation in the relationships between male and females; and between men, women, and other genders from around the world. The different approaches to understanding and modeling gender are discussed, as are specific case-studies from many different cultures.

Credit Hours: 3
Recommended: junior or senior standing

ANTHRO 4380: Anthropological Theories of Religion
(same as REL_ST 4380; cross-leveled with ANTHRO 7380 and REL_ST 7380). Course provides a critical evaluation of anthropological explanations of various forms of traditional religious behavior such as magic, shamanism, divination, ritual, mythology, and witchcraft. The anthropological explanations examined range from nineteenth century classics to the current approaches of today.

Credit Hours: 3

ANTHRO 4385: Anthropology of Shamanism
(cross-leveled with ANTHRO 7385). Shamans are considered to be intermediates between this world and the spiritual world because they possess the power to communicate with spiritual beings and seek such beings to ask for their help with a variety of tasks such as healing, killing enemies, and weather control. Shamans are also the earliest ritual practitioners. Ancient cave paintings depict men dressed in animal skins, holding objects resembling the rattles used by modern shamans among northern hunting peoples. The cave art also has entopic imagery that is seen in the shaman's mind during his shamanic rituals. In this course we will look at shamanism through time and in many cultures. We will also discuss the early accounts of shamanism by priests, explorers and adventurers, and how anthropology has come to understand and study this phenomenon. Particular topics to be discussed include biological explanations for shamanic trances and visions, mental health concerning shamans, gender issues, and how shamans fit in with societal development and complexity. Graded on A-F basis only.

Credit Hours: 3

ANTHRO 4380: Language and Culture
(same as LINGST 4400; cross-leveled with ANTHRO 7400 and LINGST 7400). Interrelations between language, thought, culture, and society; role of language in cognition; methods and concepts of linguistics in cultural analysis.

Credit Hours: 3

ANTHRO 4412: Gender, Language, and Communication
(same as COMMUN 4412 and LINGST 4412; cross-leveled with COMMUN 7412 and LINGST 7412). Relationship among gender, language, nonverbal communication, and culture.

Credit Hours: 3
Prerequisites: junior standing or departmental consent

ANTHRO 4420: Historical Linguistics
(same as LINGST 4420; cross-leveled with ANTHRO 7420 and LINGST 7420). Methods of tracing the history of languages by glottochronology, and by comparative and internal reconstructions; cultural and linguistic implications of such reconstructions and of areal linguistics.

Credit Hours: 3

ANTHRO 4500: Human Origins
(cross-leveled with ANTHRO 7500). History and theory in the study of human paleontology.

Credit Hours: 5
Prerequisites: ANTHRO 2050 or ANTHRO 2052 or instructor's consent

ANTHRO 4520: Functional Morphology of the Human Skeleton
(cross-leveled with ANTHRO 7520). This course will explore human functional morphology in a broad sense, i.e. will investigate how the form of various bodily systems influences their function and vice versa. In addition, the course is explicitly evolutionary in perspective; after the basic anatomy and function of a specific bodily region is introduced, we will cover how this functional unit has changed over the course of human evolutionary history. Lastly, we will be using the knowledge gained in lecture and from the text to critically analyze examples of research in human functional morphology. Graded on A-F basis only.

Credit Hours: 3
ANTHRO 4540: Human Biological Variation
(cross-leveled with ANTHRO 7540). Human biological variation both among and within living populations. Evolutionary, genetic, ecological, demographic and especially cultural factors which contribute to biological variation.

Credit Hours: 3
Prerequisites: ANTHRO 2050 or ANTHRO 2051 or BIO_SC 1010

ANTHRO 4580: Evolutionary Medicine
(cross-leveled with ANTHRO 7580). Principles of modern evolutionary theory are applied to medical problems. Topics include: function of symptoms (fever, nausea, etc.); strategies of pathogens; senescence; cancer; phylogenetic constraints; mental disorders. Ideas will be actively discussed in class.

Credit Hours: 3
Recommended: lower level course in Biology or Biological Anthropology, junior or senior standing

ANTHRO 4600: Ethnographic Studies of Selected Cultures
(cross-leveled with ANTHRO 7600). Specific content varies with student interest, faculty availability. Will concentrate on peoples and cultures of one area such as East Asia, South Asia, Africa, North America, Mesoamerica, Oceania, Europe. Amplifies ethnographic knowledge gained in lower-level survey courses.

Credit Hours: 3
Recommended: junior standing

ANTHRO 4620: North American Archaeology
(cross-leveled with ANTHRO 7620). Ancient peoples and development of American Indian culture.

Credit Hours: 3
Recommended: ANTHRO 2020 or ANTHRO 2021

ANTHRO 4640: Prehistory of the Greater Southwest
(cross-leveled with ANTHRO 7640). The course will introduce students to the archaeology of aboriginal peoples of the American Southwest and northwestern Mexico. The emphasis will be on prehistoric culture development from the Paleoindians to the arrival of the Spanish. Ethnographic and modern peoples will be discussed as well.

Credit Hours: 3
Recommended: ANTHRO 2020 or ANTHRO 2021

ANTHRO 4650: Prehistory of Mesoamerica
(cross-leveled with ANTHRO 7650). Archaeology and prehistory of Mesoamerica (Mexico and Northern Central America). Emphasis on archaeological evidence for development of human societies from late Pleistocene hunting bands to complex agricultural civilizations encountered by Europeans in 1500s.

Credit Hours: 3

ANTHRO 4670: Archaeology of South America
(cross-leveled with ANTHRO 7670). Development of culture in South America from the Pleistocene to European contact.

Credit Hours: 3
Recommended: ANTHRO 2020 or ANTHRO 2021

ANTHRO 4680: Cultures and Peoples of the Amazon
(cross-leveled with ANTHRO 7680). Ethnographic survey of indigenous Amazonian cultures.

Credit Hours: 3
Recommended: Junior standing required

ANTHRO 4700: Old World Prehistory
(cross-leveled with ANTHRO 7700). Beginnings of culture in the Old World through the early Iron Age.

Credit Hours: 3
Recommended: ANTHRO 2020 or ANTHRO 2021

ANTHRO 4720: Mesolithic, Neolithic, and Bronze Age Archaeology
(cross-leveled with ANTHRO 7720). Analysis of both hunter-gatherer and food-producing prehistoric sociocultural systems in western Eurasia and adjacent areas from the end of the Pleistocene until the development of iron metallurgy. Includes the symbolic material of these periods.

Credit Hours: 3
Recommended: junior or senior standing

ANTHRO 4740: Celtic and Iron Age Archaeology
(cross-leveled with ANTHRO 7740). Analysis of the pre- and protohistoric sociocultural systems of the Celts and other iron-using tribal cultures of western Eurasia from the inception of an iron based technology until the full historic period. Includes the symbolic material of these cultures.

Credit Hours: 3
Recommended: junior or senior standing

ANTHRO 4770: Asiatic Prehistory
(cross-leveled with ANTHRO 7770). Prehistory and early cultures of Asia excluding the Near East. Emphasis on Northern Asia, China, Japan, South and Southeast Asia and Oceania.

Credit Hours: 3
Recommended: junior or senior standing

ANTHRO 4790: Culture and Society in South Asia
(same as S_A_ST 4790; cross-leveled with ANTHRO 7790 and S_A_ST 7790). Survey of the cultures, social organizations, and lived experience of people from across the Indian subcontinent. Major topics include cast, kinship, gender, religion, village life, urbanization, public culture, popular culture, social change, and the South Asian diaspora.

Credit Hours: 3
Recommended: junior standing

ANTHRO 4800: Field Methods in Archaeology
(cross-leveled with ANTHRO 7800). Techniques of archaeological excavation; field surveying, recording, care and interpretation of materials.

Credit Hour: 1-8

ANTHRO 4810: Paleoethnobotany
(cross-leveled with ANTHRO 7810). Application of ethnobotanical approaches in archaeology; techniques to recover and interpret floral
remains (macroremains, phytoliths, pollen); research questions in ethno­botany; integration of ethnobiological and archaeological data. Critique of original works in the field emphasized.

**Credit Hours:** 3  
**Recommended:** junior or senior standing

**ANTHRO 4820:** Zooarchaeology  
(cross-leveled with ANTHRO 7820). Survey of specialized techniques for archaeological faunal analysis, including zooarchaeological sampling, taphonomy, study of paleoecology, and recognition of domestication.

**Credit Hours:** 3  
**Prerequisites:** ANTHRO 2020 or ANTHRO 2022 or instructor's consent

**ANTHRO 4826:** Stone Artifact Analysis  
(cross-leveled with ANTHRO 7826). Theory, methods, and techniques of studying lithic artifacts and deriving culturally meaningful interpretations. Emphasizes flaked artifacts. Includes physical examination, manufacture and experimentation with stone tools.

**Credit Hours:** 3  
**Prerequisites:** ANTHRO 2020 or ANTHRO 2022 or instructor's consent

**ANTHRO 4828:** Archaeological Analysis of Ceramics  
(cross-leveled with ANTHRO 7828). To introduce students to the basic methods and concepts used in the archaeological analysis of pottery. By the end of the semester students will understand the various ways that pottery is created and how archaeologists can use ceramics to gain insights into everything from the organization of craft production to trade to symbolism.

**Credit Hours:** 3  
**Prerequisites:** ANTHRO 2020 or ANTHRO 2022

**ANTHRO 4830:** Ethnographic Methods  
(cross-leveled ANTHRO 7830). Relation of problems to techniques; surveys techniques of gathering data; discusses their limitations and potentials.

**Credit Hours:** 3  
**Recommended:** ANTHRO 2030

**ANTHRO 4840:** The Comparative Method in Anthropology  
(cross-leveled with ANTHRO 7840). Comparative methods provide common ground for uniting bio-cultural anthropologists, archaeologists, and evolutionary biologists together in the investigation of human variation across time and space. It is an exciting time for comparative anthropology with the emergence of a large number of open-access databases covering many realms of biological, cultural, and linguistic variation. This class addresses many research opportunities that are opened up by these large collaborative efforts. Objectives are to develop research questions of interest to students, compile comparative databases necessary to answer those questions, and learn tools and software relevant for running analyses. Graded on A-F basis only.

**Credit Hours:** 3

**ANTHRO 4850:** Practical Phonetics for Fieldwork  
(same as LINGST 4850; cross-leveled with ANTHRO 7850 and LINGST 7850). Self-paced course using computer and tape recorded lessons from world's languages. Teaches practical articulatory and transcription phonetics. Weekly meeting with instructor to monitor progress, resolve questions.

**Credit Hours:** 3  
**Recommended:** junior standing

**ANTHRO 4860:** Techniques in Linguistic Analysis  
(same as LINGST 4860; cross-leveled with ANTHRO 7860 and LNGST 7860). Problems in analyzing data from various languages.

**Credit Hours:** 3  
**Recommended:** introductory course in Linguistics

**ANTHRO 4870:** Field Methods in Linguistics  
(same as LINGST 4870, ENGLISH 4670; cross-leveled with ANTHRO 7870, LINGST 7870, ENGLISH 7670). Intensive training in collection and analysis of data taken from a native speaker of non-Indo-European language.

**Credit Hours:** 4  
**Prerequisites:** instructor's consent  
**Recommended:** 9 hours of Linguistics

**ANTHRO 4870W:** Field Methods in Linguistics - Writing Intensive  
(same as LINGST 4870, ENGLISH 4670; cross-leveled with ANTHRO 7870, LINGST 7870, ENGLISH 7670). Intensive training in collection and analysis of data taken from a native speaker of non-Indo-European language.

**Credit Hours:** 4  
**Prerequisites:** instructor's consent  
**Recommended:** 9 hours of Linguistics

**ANTHRO 4880:** Demographic Anthropology  
(cross-leveled with ANTHRO 7880). The major topics considered in this course are basic demographic analysis, including life tables, models for population growth and stable population theory; fertility analysis; disease and fertility; disease in human populations; and paleodemography. Math Reasoning Proficiency Course.

**Credit Hours:** 3  
**Recommended:** junior or senior standing

**ANTHRO 4885:** Anthropological Genetics  
(cross-leveled with ANTHRO 7885). Population genetics theory and methods applied to human and primate evolution and variation.

**Credit Hours:** 3  
**Prerequisites:** ANTHRO 2050, or ANTHRO 2051 and ANTHRO 2052, or BIO_SC 1500, or instructor's consent

**ANTHRO 4890:** Human Skeletal Identification and Analysis  
(cross-leveled with ANTHRO 7890). Students interested in archaeology, physical anthropology, and law enforcement will learn human osteological methods of analysis applied to bioarchaeological problems and modern forensic techniques for personal identification.

**Credit Hours:** 5  
**Prerequisites:** ANTHRO 2050 or ANTHRO 2052 or instructor's consent
ANTHRO 4894: Skeletal Biology
(cross-leveled with ANTHRO 7894). This course is designed to provide students advanced and in-depth training in skeletal biology. Basic bone biology will be studied and advanced methods of skeletal analysis applicable to forensic anthropology and bioarchaeology will be explored.

Credit Hours: 3
Recommended: ANTHRO 4890 or equivalent background in osteology and/or anatomy

ANTHRO 4940: Internship in Anthropology
(cross-leveled with ANTHRO 7940). Students will work for a semester in a community-based organization (NGO, nonprofit, for profit, or governmental). They will conduct a research study in coordination with that agency. Upon completion of the research study, students will prepare a final report to be given to the agency and turned in for course credit. The course coordinator will help students identify and make contact with interested organization and oversee their progress during the internship. Graded on S/U basis only. Enrollment is limited to Anthropology Majors with Junior Standing or higher with a 3.5 GPA in Anthropology.

Credit Hours: 3-6
Prerequisites: coordinator's consent

ANTHRO 4950: Undergraduate Research in Anthropology
Advanced research approved by and under the direction of a departmental faculty member. Enrollment limited to Juniors and Seniors.

Credit Hours: 2-8
Prerequisites: instructor's consent

ANTHRO 4950H: Honors Research in Anthropology
Individual study and research leading to Honors in Anthropology. In consultation with instructor, student works on Honors Thesis. May be repeated for up to 6 credit hours. Enrollment is limited to Anthropology Majors with Junior Standing or higher, honors eligibility and a 3.5 GPA in Anthropology.

Credit Hours: 3
Prerequisites: instructor's consent

ANTHRO 4950HW: Undergraduate Research in Anthropology - Honors/Writing Intensive
Advanced research approved by and under the direction of a departmental faculty member. Enrollment limited to Juniors and Seniors with Honors Eligibility.

Credit Hours: 2-8
Prerequisites: instructor's consent

ANTHRO 4960: Undergraduate Readings in Anthropology
Directed readings in ethnology, linguistics, archaeology, or physical anthropology not leading to thesis.

Credit Hour: 1-99
Prerequisites: instructor's consent

ANTHRO 4990: Capstone Seminar in Anthropology
Readings, discussions, and problems in the integration of the subfields of anthropology through theory and examples. 

Credit Hours: 3
Prerequisites: Anthropology major and senior standing, or instructor's consent

ANTHRO 4990W: Capstone Seminar in Anthropology - Writing Intensive
Readings, discussions, and problems in the integration of the subfields of anthropology through theory and examples.

Credit Hours: 3
Prerequisites: Anthropology major and senior standing, or instructor's consent

ANTHRO 7001: Topics in Anthropology-General
Problems, topics, issues, or review of research; experimental development of new contact areas. Specific content varies depending on needs of faculty or students and will be announced in advance.

Credit Hours: 3

ANTHRO 7150: Special Themes in Folklore
(same as ENGLSH 7700; cross-leveled with ANTHRO 4150 and ENGLSH 4700). Intensive study in a selected area of folklore: folk narrative, folk song, myth, proverb, etc., folklore and literature, or the folklore of a particular group. May be repeated for a maximum of six hours. Instructor's consent for repetition.

Credit Hours: 3

ANTHRO 7160: Themes in African Diaspora Folklore
(same as ENGLSH 7710 and BL_STU 7710; cross-leveled with ANTHRO 4160, ENGLSH 4710 and BL_STU 4710). Intensive study in a selected area of African Diaspora folklore: folk narrative, folk song, myth, proverb, etc., folklore and literature; or the folklore of a particular group. ENGLSH 7700 and ENGLSH 7710 may be repeated for a maximum of six hours with instructor's consent.

Credit Hours: 3

ANTHRO 7200: Environment and Archaeology
(cross-leveled with ANTHRO 4200). Study of quaternary environments and cultural systems. Focuses on North American records emphasizing climate and biologic components of regional ecosystems; regional environmental reconstruction.

Credit Hours: 3

ANTHRO 7240: History of Archaeology
(cross-leveled with ANTHRO 4240). Growth of archaeology worldwide since AD 1700. Emphasis include intellectual and theoretical developments, field and laboratory techniques, and major figures in the history of the discipline.

Credit Hours: 3

ANTHRO 7280: Archaeology of Religion
(Same as REL_ST 7280; cross-leveled with ANTHRO 4280 and REL_ST 4280) This course examines how anthropologists conceptualize religious behavior, and how archaeologists use material remains to examine past
religious behavior, rituals, religious practitioners, cosmological constructs, worldview and ideology in the Americas.

Credit Hours: 3
Prerequisites: ANTHRO 2020 and/or REL_ST 2100

ANTHRO 7300: Comparative Social Organization
(cross-leveled with ANTHRO 4300). Cross-cultural comparison, analysis of social structures. Role of kinship, age, sex, locality, economics, religion and other factors in determining relationships between individuals and groups cross culturally.

Credit Hours: 3

ANTHRO 7320: Ecological and Environmental Anthropology
(cross-leveled with ANTHRO 4320). Cultural anthropological approaches to human-environment interaction; cultural adaptations to diverse environments; theoretical developments and current issues; cultural, social, and historical contexts of natural resource use.

Credit Hours: 3

ANTHRO 7340: Cultural Evolution and Change
(cross-leveled with ANTHRO 4340). Alternative hypotheses about the relationship between culture and evolution are evaluated in light of ethnographic evidence.

Credit Hours: 3

ANTHRO 7350: Psychological Anthropology
Examines cross-cultural approaches to the study of perception, cognition, and personality; methods for gathering and validating data; examples from non-Western societies.

Credit Hours: 3

ANTHRO 7360: Medical Anthropology
(cross-leveled with ANTHRO 4360). Cross-cultural study of belief systems concerning health and illness, practices of diagnosis and treatment, and roles of patients and practitioners. Several non-Western health care systems are studied in detail.

Credit Hours: 3

ANTHRO 7370: Anthropology of Gender
(same as WGST 7370; cross-leveled with ANTHRO 4370 and WGST 4370) The Anthropology of Gender introduces the student to the variation in the relationships between males and females; and between men, women, and other genders from around the world. The different approaches to understanding and modeling gender are discussed, as are specific case-studies from many different cultures.

Credit Hours: 3

ANTHRO 7380: Anthropological Theory of Religions
(same as REL_ST 7380; cross-leveled with ANTHRO 4380 and REL_ST 4380). Course provides a critical evaluation of anthropological explanations of various forms of traditional religious behavior such as magic, shamanism, divination, ritual, mythology and witchcraft. The anthropological explanations examined range from nineteenth century classics to the current approaches of today.

Credit Hours: 3

ANTHRO 7385: Anthropology of Shamanism
(cross-leveled with ANTHRO 4385). Shamans are considered to be intermediates between this world and the spiritual world because they possess the power to communicate with spiritual beings and seek such beings to ask for their help with a variety of tasks such as healing, killing enemies, and weather control. Shamans are also the earliest ritual practitioners. Ancient cave paintings depict men dressed in animal skins, holding objects resembling the rattles used by modern shamans among northern hunting peoples. The cave art also has entopic imagery that is seen in the shaman's mind during his shamanic rituals. In this course we will look at shamanism through time and in many cultures. We will also discuss the early accounts of shamanism by priests, explorers and adventurers, and how anthropology has come to understand and study this phenomenon. Particular topics to be discussed include biological explanations for shamanic trances and visions, mental health concerning shamans, gender issues, and how shamans fit in with societal development and complexity. Graded on A-F basis only.

Credit Hours: 3

ANTHRO 7400: Language and Culture
(same as LINGST 7400; cross-leveled with ANTHRO 4400 and LINGST 4400). Interrelations between language, thought, culture, and society; role of language in cognition; methods and concepts of linguistics in cultural analysis.

Credit Hours: 3

ANTHRO 7412: Gender, Language, and Communication
(same as COMMUN 7412 and LINGST 7412; cross-leveled with ANTHRO 4412, COMMUN 4412 and LINGST 4412). Relationship among gender, language, nonverbal communication, and culture.

Credit Hours: 3

ANTHRO 7420: Historical Linguistics
(same as LINGST 7420; cross-leveled with ANTHRO 4420 and LINGST 4420). Methods of tracing the history of languages by glottochronology, and by comparative and internal reconstructions; cultural and linguistic implications of such reconstructions and of areal linguistics.

Credit Hours: 3

ANTHRO 7500: Human Origins
(cross-leveled with ANTHRO 4500). History and theory in the study of human paleontology.

Credit Hours: 5

ANTHRO 7520: Functional Morphology of the Human Skeleton
(cross-leveled with ANTHRO 4520). This course will explore human functional morphology in a broad sense, i.e. will investigate how the form of various bodily systems influences their function and vice versa. In addition, the course is explicitly evolutionary in perspective; after the basic anatomy and function of a specific bodily region is introduced, we will cover how this functional unit has changed over the course of human evolutionary history. Lastly, we will be using the knowledge gained in lecture and from the text to critically analyze examples of research in human functional morphology. Graded on A-F basis only.
<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>ANTHRO 7540</td>
<td>Human Biological Variation</td>
<td>Human biological variation both among and within living populations. Evolutionary, genetic, ecological, demographic and especially cultural factors which contribute to biological variation. Credit Hours: 3</td>
</tr>
<tr>
<td>ANTHRO 7580</td>
<td>Evolutionary Medicine</td>
<td>Principles of modern evolutionary theory are applied to medical problems. Topics include: function of symptoms (fever, nausea, etc.); strategies of pathogens; senescence; cancer; phylogenetic constraints; mental disorders. Ideas will be actively discussed in class. Credit Hours: 3</td>
</tr>
<tr>
<td>ANTHRO 7600</td>
<td>Ethnographic Studies of Selected Cultures</td>
<td>Specific content varies with student interest, faculty availability. Will concentrate on peoples and cultures of one area such as East Asia, South Asia, Africa, North America, Mesoamerica, Oceania, Europe. Amplifies ethnographic knowledge gained in lower-level survey courses. Credit Hours: 3</td>
</tr>
<tr>
<td>ANTHRO 7620</td>
<td>North American Archaeology</td>
<td>Ancient peoples and development of American Indian culture. Credit Hours: 3</td>
</tr>
<tr>
<td>ANTHRO 7640</td>
<td>Prehistory of the Greater Southwest</td>
<td>The course will introduce students to the archaeology of aboriginal peoples of the American southwest and northwestern Mexico. The emphasis will be on prehistoric culture development from the Paleoindians to the arrival of the Spanish. Ethnographic and modern peoples will be discussed as well. Credit Hours: 3</td>
</tr>
<tr>
<td>ANTHRO 7650</td>
<td>Prehistory of Mesoamerica</td>
<td>Covers the archaeology and prehistory of Mesoamerica (Mexico and Northern Central America). Emphasis on archaeological evidence for development of human societies from late Pleistocene hunting bands to complex agricultural civilizations encountered by Europeans in 1500s. Credit Hours: 3</td>
</tr>
<tr>
<td>ANTHRO 7680</td>
<td>Cultures and Peoples of the Amazon</td>
<td>Ethnographic survey of indigenous Amazonian cultures. Credit Hours: 3</td>
</tr>
<tr>
<td>ANTHRO 7700</td>
<td>Old World Prehistory</td>
<td>Beginnings of culture in the old world through the early Iron Age. Credit Hours: 3</td>
</tr>
<tr>
<td>ANTHRO 7720</td>
<td>Mesolithic, Neolithic, and Bronze Age Archaeology</td>
<td>Analysis of both hunter-gatherer and food-producing prehistoric sociocultural systems in western Eurasia and adjacent areas from the end of the Pleistocene until the development of iron metallurgy. Includes the symbolic material of these periods. Credit Hours: 3</td>
</tr>
<tr>
<td>ANTHRO 7740</td>
<td>Celtic and Iron Age Archaeology</td>
<td>Analysis of the pre-and protohistoric sociocultural systems of the Celts and other iron-using tribal cultures of western Eurasia from the inception of an iron based technology until the full historic period. Includes the symbolic material of these cultures. Credit Hours: 3</td>
</tr>
<tr>
<td>ANTHRO 7760</td>
<td>Asiatric Prehistory</td>
<td>Survey of the prehistory and early cultures of Asia excluding the Near East. Emphasis on Northern Asia, China, Japan, South and Southeast Asia and Oceania. Credit Hours: 3</td>
</tr>
<tr>
<td>ANTHRO 7790</td>
<td>Cultures and Society in South Asia</td>
<td>Survey of the cultures, social organizations, and lived experience of people from across the Indian subcontinent. Major topics include cast, kinship, gender, religion, village life, urbanization, public culture, popular culture, social change, and the South Asian Diaspora. Credit Hours: 3</td>
</tr>
<tr>
<td>ANTHRO 7800</td>
<td>Field Methods in Archaeology</td>
<td>Techniques of archaeological excavation; field surveying, recording, care and interpretation of materials. Credit Hour: 1-8</td>
</tr>
<tr>
<td>ANTHRO 7810</td>
<td>Paleoethnobotany</td>
<td>Application of ethnobotanical approaches in archaeology; techniques to recover and interpret floral remains (macroremains, phytoliths, pollen); research questions in ethnobotany; integration of ethnobiological and archaeological data. Critique of original works in the field emphasized. Credit Hours: 3</td>
</tr>
<tr>
<td>ANTHRO 7820</td>
<td>Zooarchaeology</td>
<td>Survey of specialized techniques for archaeological/faunal analysis, including zoo archaeological sampling, taphonomy study of paleoecology, and recognition of domestication. Credit Hours: 3</td>
</tr>
</tbody>
</table>
ANTHRO 7826: Stone Artifact Analysis
(cross-leveled with ANTHRO 4826). Theory, methods, and techniques of studying lithic artifacts and deriving culturally meaningful interpretations. Emphasizes flaked artifacts. Includes physical examination, manufacture and experimentation with stone tools.
Credit Hours: 3

ANTHRO 7828: Archaeological Analysis of Ceramics
(cross-leveled with ANTHRO 4828). To introduce students to the basic methods and concepts used in the archaeological analysis of pottery. By the end of the semester students will understand the various ways that pottery is created and how archaeologists can use ceramics to gain insights into everything from the organization of craft production to trade to symbolism.
Credit Hours: 3
Prerequisites: ANTHRO 2020 and/or ANTHRO 2022

ANTHRO 7830: Ethnographic Methods
(cross-leveled with ANTHRO 4830). Relation of problems to techniques; surveys techniques of gathering data; discusses their limitations and potentials.
Credit Hours: 3

ANTHRO 7840: The Comparative Method in Anthropology
(cross-leveled with ANTHRO 4840). Comparative methods provide common ground for unifying bio-cultural anthropologists, archaeologists, and evolutionary biologists together in the investigation of human variation across time and space. It is an exciting time for comparative anthropology with the emergence of a large number of open-access databases covering many realms of biological, cultural, and linguistic variation. This class addresses many research opportunities that are opened up by these large collaborative efforts. Objectives are to develop research questions of interest to students, compile comparative databases necessary to answer those questions, and learn tools and software relevant for running analyses. Graded on A-F basis only.
Credit Hours: 3

ANTHRO 7850: Practical Phonetics for Fieldwork
(same as LINGST 7850; cross-leveled with ANTHRO 4850 and LINGST 4850). Self-paced course using computer and tape recorded lessons from world's languages. Teaches practical articulatory and transcription phonetics. Weekly meeting with instructor to monitor progress, resolve questions.
Credit Hours: 3

ANTHRO 7860: Techniques in Linguistic Analysis
(same as LINGST 7860; cross-leveled with ANTHRO 4860 and LINGST 4860). Problems in analyzing data from various languages.
Credit Hours: 3

ANTHRO 7870: Field Methods in Linguistics
(same as LINGST 7870 and ENGLSH 7670; cross-leveled with ANTHRO, LINGST 4870 and ENGLSH 4870). Intensive training in collection and analysis of data taken from a native speaker of non-Indo-European language.

ANTHRO 7880: Demographic Anthropology
(cross-leveled with ANTHRO 4880). The major topics considered in this course are basic demographic analysis, including life tables, models for population growth and stable population theory; fertility analysis; disease and fertility; disease in human populations; and paleodemography.
Credit Hours: 3

ANTHRO 7885: Anthropological Genetics
(cross-leveled with ANTHRO 4885). Population genetic theory and methods applied to human and primate evolution and variation.
Credit Hours: 3
Prerequisites: ANTHRO 2050 and ANTHRO 2052 or BIO_SC 1500

ANTHRO 7890: Human Skeletal Identification and Analysis
(cross-leveled with ANTHRO 4890). Students interested in archaeology, physical anthropology, and law enforcement will learn human osteological methods of analysis applied to bioarchaelogical problems and modern forensic techniques for personal identification.
Credit Hours: 5

ANTHRO 7894: Skeletal Biology
(cross-leveled with ANTHRO 4894). This course is designed to provide students advanced and in-depth training in skeletal biology. Basic bone biology will be studied and advanced methods of skeletal analysis applicable to forensic anthropology and bioarchaeology will be explored.
Credit Hours: 3

ANTHRO 7940: Internship in Anthropology
Students will work for a semester in a community-based organization (NGO, nonprofit, for profit, or governmental). They will conduct a research study in coordination with that agency. Upon completion of the research study, students will prepare a final report to be given to the agency and turned in for course credit. The course coordinator will help students identify and make contact with interested organization and oversee their progress during the internship. Graded on S/U basis only.
Credit Hour: 3-6
Prerequisites: coordinator's consent

ANTHRO 7950: Introduction to Post-Graduate Anthropology
How to succeed in graduate school and profession, and who is MU Anthropology. Introduces skills for success in graduate school, describes attributes of a professional anthropologist and how to find a job. Handouts and readings supplement discussions. Graded on S/U basis only.
Credit Hour: 1

ANTHRO 7960: Graduate Readings in Anthropology
Directed readings in ethnology, linguistics, archaeology, or physical anthropology not leading to thesis.
Credit Hour: 1-99
Prerequisites: instructor's consent
ANTHRO 7990: Non Thesis Research in Anthropology
Original research not leading to the preparation of a thesis or dissertation.

Credit Hour: 1-99
Prerequisites: instructor's consent

ANTHRO 8001: Topics in Anthropology-General
Problems, topics, issues, or review of research; experimental development of new content areas. Specific content varies depending on needs of faculty or students and is announced in advance. May be repeated to a maximum of 9 hours.

Credit Hours: 3

ANTHRO 8010: History of Anthropology I
Development of anthropological theories, methods, perspectives, major figures and contributions in cultural and linguistic subfields.

Credit Hours: 3

ANTHRO 8020: History of Anthropology II
Development of anthropological theories, methods, perspectives, major figures and contributions in archaeology and biological anthropology.

Credit Hours: 3

ANTHRO 8090: Masters Thesis Research in Anthropology
Advanced work leading to thesis. Graded on a S/U basis only.

Credit Hour: 1-99
Prerequisites: consent of major advisor

ANTHRO 8157: Seminar in Folklore
(same as ENGLISH 8700 and REL_ST 8700). Roots of folklore scholarship and methodology; their evolution in modern approaches to the study of oral, traditional, verbal genres; and their performance in natural folk groups. May repeat to twelve hours with departments consent.

Credit Hours: 3

ANTHRO 8187: Seminar in Ecological Adaptation
Relationships and interactions between humans and their environments, with emphasis on the physical and cultural adaptations to environment. May be repeated to 9 hours maximum.

Credit Hours: 3

ANTHRO 8257: Seminar in Ethnohistory
Introduction to the uses of historical documents and historical methods in anthropological research. May be repeated to 6 hours maximum.

Credit Hours: 3

ANTHRO 8287: Seminar in Theory and Methods in Archaeology
Application of theory and conceptual frameworks to archaeological studies drawn from both Old and New Worlds. May be repeated to 6 hours maximum.

Credit Hours: 3

ANTHRO 8357: Seminar in Psychological Anthropology
Focuses on developments in psychological anthropology, cross-cultural psychology. Special attention on cognition, perception, socialization, personality assessment, psycho-cultural change, psycho-linguistics, psychometrics, within cross-cultural contexts. May be repeated to 6 hours maximum.

Credit Hours: 3

ANTHRO 8387: Seminar in Health Anthropology
We survey the field of health behaviors from an anthropological perspective. We ask, what are health behaviors? and what models have social scientists proposed to account for such actions? May be repeated to 6 hours maximum.

Credit Hours: 3

ANTHRO 8487: Seminar in Anthropological Linguistics
(same as LINGST 8487). Topics: Ethnolinguistics, linguistic prehistory, pidgin and Creole languages, linguistic theories and cultural and cultural analysis. French structural anthropology. May be repeated for 9 hours maximum.

Credit Hours: 3

Prerequisites: instructor's consent

ANTHRO 8587: Seminar in Physical Anthropology
Readings and discussion concerning current problems in human and nonhuman primate evolution, with emphasis on taxonomy, morphology, and behavior. May be repeated to 9 hours maximum.

Credit Hours: 3

ANTHRO 8687: Seminar in Cultural Dynamics
Focuses on geographical, topical, and/or theoretical developments within cultural anthropology. May be repeated to 6 hours maximum.

Credit Hours: 3

ANTHRO 8787: Seminar in Old World Archaeology
Intensive studies in application of anthropological concepts to problems in Old World archaeology and prehistory. May be repeated to 9 hours maximum.

Credit Hours: 3

ANTHRO 8857: Scientific Writing in Anthropology
Students will be taught to construct research papers that reflect logic, organization, and clarity. Topics covered include outline preparation, syntax, punctuation, sentence construction, and correct reference citation.

Credit Hours: 3

ANTHRO 8887: Seminar in Anthropological Methods
Focuses on specific methods/techniques for collecting and analyzing data in archaeological, biological, linguistic, and/or cultural anthropology. May be repeated to 6 hours maximum.

Credit Hours: 3
ANTHRO 8888: Analyzing Anthropological Data I
Provides students with the conceptual and analytic tools necessary to conduct and evaluate the analysis of anthropological data. Examples gleaned from archaeology, bioanthropology, ethnography, and linguistics will provide a broad perspective of the application and utility of the various methods discussed.

Credit Hours: 3

ANTHRO 8889: Analyzing Anthropological Data II
This course introduces a variety of conceptual tools and advanced quantitative methods that anthropologists use to analyze their data. It includes an introduction of common software packages used to manipulate and analyze anthropological data.

Credit Hours: 3
Prerequisites: ANTHRO 8888 or grad-level intro stats or instructor's consent

ANTHRO 8960: Graduate Readings in Anthropology
Directed readings in ethnology, linguistics, archaeology, or physical anthropology not leading to thesis.

Credit Hour: 1-99
Prerequisites: instructor's consent

ANTHRO 8987: Seminar in Formal Anthropological Research Design
Methods of fitting statistical and formal research designs to quantitative and qualitative data discussed and illustrated, with research by participants. May be repeated to 9 hours maximum.

Credit Hours: 3
Prerequisites: introductory course in statistics

ANTHRO 8990: Non Thesis Research in Anthropology
Original research not leading to the preparation of a dissertation.

Credit Hour: 1-99
Prerequisites: consent of major advisor

ANTHRO 9090: Doctoral Dissertation Research in Anthropology
Advanced work leading to dissertation. Graded on a S/U basis only.

Credit Hour: 1-99
Prerequisites: consent of major advisor

Arabic Courses

ARABIC 1100: Elementary Arabic I
For beginners with no prior knowledge of Arabic. An elementary level course designed to facilitate student’s acquisition of basic proficiency in communication within culturally significant contexts. Students learn Modern Standard Arabic language skills in an environment integrating interactive video and classroom instruction.

Credit Hours: 6

ARABIC 1200: Elementary Arabic II
This course builds upon the foundation established in ARABIC 1100. Greater emphasis is placed on oral and written expression. Cultural issues are explored in an environment integrating interactive video and classroom instruction.

Credit Hours: 6
Prerequisites: C- or higher in ARABIC 1100, or instructor's permission

ARABIC 2005: Undergraduate Topics in Arabic - Humanities
Organized study of selected topics. Subjects and credits may vary from semester to semester. May be repeated with departmental consent.

Credit Hour: 1-3
Prerequisites: sophomore standing or instructor's consent

ARCHST 1005: Topics in Architectural Studies - Humanities
Organized study of selected topics in architectural studies. Particular topic and earnable credit may vary by semester. May be repeated for credit up to 6 credit hours.

Credit Hour: 1-99
Prerequisites: instructor's consent

ARCHST 1100: Visual Design
Design study as an introduction to basic design and visual composition with application to creating two- and three-dimensional abstract and/or functional design work. Studio exercises expressed through drawings and abstract models, using various media.

Credit Hours: 3

ARCHST 1200: Architectural Drafting and Working Drawings
Beginning drafting including equipment and materials; lettering; floor plans, sections, elevations; orthographic and axonometric drawings; working drawings; and details.

Credit Hours: 3

ARCHST 1600: Fundamentals of Environmental Design
Survey of the architectural environment emphasizing design fundamentals such as use, aesthetics, stability of structures and human relationships with places and time.

Credit Hours: 3
Prerequisites: ENGLSH 1000
ARCHST 1600W: Fundamentals of Environmental Design - Writing Intensive
Survey of the architectural environment emphasizing design fundamentals such as use, aesthetics, stability of structures and human relationships with places and time.

Credit Hours: 3
Prerequisites: ENGLSH 1000

ARCHST 2005: Topics in Architectural Studies - Humanities
Organized study of selected topics in architectural studies. Particular topic and earnable credit may vary by semester. May be repeated for credit up to 6 credit hours.

Credit Hour: 1-99
Prerequisites: instructor's consent

ARCHST 2085: Problems in Architectural Studies
Supervised independent work.

Credit Hours: 3
Prerequisites: instructor's consent

ARCHST 2100: Understanding Architecture and the American City
Multifaceted introduction to the architectural and social roots of urban form in the U.S.: historic precedents from around the world; growth, decline and revival of cities; rise of suburbia; tradition and transformation in campus communities; continuing housing challenges; sustainable design and the future of urbanism. Explores a diverse range of opportunities to improve communities available to professionals and general public.

Credit Hours: 3

ARCHST 2210: Understanding Visualization for Animated Films
Provides a critical overview of design and visualization techniques in animated film making. Emphasizes the role of built environment and spatial design features.

Credit Hours: 3

ARCHST 2220: Introduction to CAD
Introduction to computer-aided drafting and design with AutoCad software. Emphasis will be placed on development of skills and problem solving related to the professions of environmental and interior design.

Credit Hours: 3
Recommended: ARCHST 1200

ARCHST 2230: Design Communication I
Beginning studio course in techniques and conventions of graphic communication as an aid in the design process for interior designers.

Credit Hours: 3
Prerequisites: ARCHST 2811

ARCHST 2315: Introduction to Building Systems Laboratory
Building system renovations, materials, processes, finishes, and applications testing: furniture design, fabrication, finishing, lighting, concrete and masonry, wood and steel light framing construction, and mock-up fabrication and testing. All equipment training and safety is covered in this introductory course.

Credit Hours: 1

ARCHST 2316: Advanced Building Systems Lab
Advanced exposure to building system renovations, materials, processes, finishes, and applications testing: furniture design, fabrication, finishing, lighting, concrete and masonry, wood and steel light framing construction, and mock-up fabrication and testing. Graded on A-F basis only.

Credit Hours: 2
Prerequisites: ARCHST 2315

ARCHST 2323: Sustainable Building Design Fundamentals
Environmental concerns addressed by green building design practices for consumers and owners of homes and businesses. Overview of how green buildings improve prospects for ecology, economy, social equity, and human health. Hands-on lab experiments reference national performance standards for decision making in sustainable building projects. Emphasis on energy and water use, sustainable sites, environmentally friendly building products, indoor air quality, and design for sustainable behaviors. Graded on A-F basis only.

Credit Hours: 3

ARCHST 2620: People, Places and Design
Understanding human behavior and interaction with environments; the influence of architectural design on built places. Practical application for design.

Credit Hours: 3

ARCHST 2811: Studio I
Application of basic design and composition to built form. Studio exercises in two and three dimensions using various media relating to usable spaces. Formation of design concept, development of form and space, and application in built environment.

Credit Hours: 4
Prerequisites: instructor's consent

ARCHST 3100: Color and Light
The theory, application, and specification of color and light for interior and architectural design. Includes assigned lab exercises for color and light portfolio.

Credit Hours: 3

ARCHST 3182: Studio II
Application of basic design principles to built forms and functional spaces. Identification and manipulation of elements of design, understanding spatial relationships between human body and spatial enclosures related to built forms. Spatial organization and familiarity with role of immediate context.
ARCHST 3230: Advanced Design Communication Using BIM
Advanced course in techniques and conventions of computer aided design (CAD) and Building Information Modeling (BIM) for contemporary design process.

Credit Hours: 3
Prerequisites: ARCHST 2811

ARCHST 3371: Design Resource Management
Field experience (5 hours per week) in organization and management of resources used by interior designers, including references, product information, and samples of materials and finishes.

Credit Hour: 1

ARCHST 3600: Environmental Analysis
Discover through analytical methods of primary organizational factors which operate in a building and reveal the preoccupations of designer. Analytical approach investigates design principles by means of dissection.

Credit Hours: 3
Prerequisites: ARCHST 2811

ARCHST 3600W: Environmental Analysis - Writing Intensive
Discover through analytical methods of primary organizational factors which operate in a building and reveal the preoccupations of designer. Analytical approach investigates design principles by means of dissection.

Credit Hours: 3
Prerequisites: ARCHST 2811

ARCHST 3860: Human Factors Programming
Design Programming for Human Factors using a Case Study.

Credit Hours: 3
Recommended: ARCHST 1600

ARCHST 3860W: Human Factors Programming - Writing Intensive
Design Programming for Human Factors using a Case Study.

Credit Hours: 3
Recommended: ARCHST 1600

ARCHST 4001: Topics in Architectural Studies
Selected current topics in field of interest.

Credit Hour: 1-99

ARCHST 4085: Problems in Architectural Studies
Supervised independent work.

Credit Hour: 1-99
Prerequisites: instructor's consent

ARCHST 4230: Computer Graphic Application for Design I
Applications of computer graphics for design and art; includes visualization, animation and creative development. May repeat up to 12 credit hours maximum.

Credit Hours: 3
Recommended: junior standing

ARCHST 4320: Materials, Methods and Products
Inherent qualities of materials used in the design of interior environments. Manufacturing, application, and installation methods. Focus on environmentally sensitive materials.

Credit Hours: 3
Recommended: ARCHST 2310

ARCHST 4323: Sustainable Technologies and Systems
An in-depth study of ecologically-sensitive and energy-efficient strategies used in building and interiors.

Credit Hours: 3

ARCHST 4333: Compliance and Specifications
Application of laws, codes, regulations, standards in specifying for life safety, barrier-free and universal design, lighting, human factors, and contract documents.

Credit Hours: 3

ARCHST 4355: Recent Trends in Digital Media I
Recent Trends in Digital Media I

Credit Hour: 1-99

ARCHST 4411: Study Abroad in Architectural History
Discovery of historic architecture through on-site tour of timeless cities and places. May be repeated for credit.

Credit Hour: 1-3
Prerequisites: instructor's consent

ARCHST 4420: History of the Designed Environment after 1750
An in-depth study of the designed environment, including housing, interiors, and furniture of the major historical periods from the Industrial Revolution to today.

Credit Hours: 3

ARCHST 4430: Guiding Design with Historic Preservation
(cross-leveled with ARCHST 7430). Approaches to historic preservation; historic roots of architecture and interiors; regulations and design guidelines governing intervention; assessing significance of historic properties.

Credit Hours: 3
Recommended: American History or Government, or Art History

ARCHST 4435: History of the Designed Environment to 1750
An in-depth study of the designed environment including interiors, architecture, art, and the decorative arts within the major historical periods and cultural context from prehistory to the Industrial Revolution.
ARCHST 4440: Design Precedents: Architecture, Interiors and Furniture since the Industrial Revolution
(cross-leveled with ARCHST 7440). Analysis of historical exemplars of architecture, interiors and furniture design offering strategies for approaching contemporary design problems. Covers design precedents from industrial revolution to contemporary design.
Credit Hours: 3

ARCHST 4550: Visual Presentation for Design
Emphasizes principles and techniques for effective visual design presentation. Focuses on concepts of design, layout, storytelling, critiques, and hands on exercise.
Credit Hours: 3

ARCHST 4555: Recent Trends
Upper-division students seeking additional knowledge in specific subject matter areas including digital media software.
Credit Hour: 1-99

ARCHST 4630: Shaping Human Settlements
Review classic designs and designers, key concepts and enduring issues of community design within the overall framework of environmental design.
Credit Hours: 3

ARCHST 4660: Housing Concepts and Issues
Evaluate housing policies, regulations, codes, programs; global and ecological perspectives of environment and behavior; historic preservation; financial issues; trends and projections.
Credit Hours: 3

ARCHST 4700: Place-Making in Community Design
Ideologies, case studies and participatory methods on place-making in community design. Use processes to design a place-making scheme in actual community project.
Credit Hours: 3

ARCHST 4710: Design Business Practices
Analysis of the basic professional, human, and business skills necessary for the successful design practice.
Credit Hours: 3
Prerequisites: ARCHST 4814 or ARCHST 4824

ARCHST 4760: Healthcare Facilities Design
(cross-leveled with ARCHST 7760). Health care facilities design and planning course provides an in-depth investigation of best practice examples. Design and research methods include evidence-based design, simulation, and space syntax analysis leading to high-performance healthcare design. Graded on A-F basis only.
Credit Hours: 3
Recommended: senior standing

ARCHST 4813: Interiors Studio III
Spatial morphology, organization pattern, construction methods, materials, systems, and processes and integration with total design processes. Space planning and spatial manipulation in response to social, environmental, functional, and aesthetics specific to interiors.
Credit Hours: 4
Prerequisites: ARCHST 3182

ARCHST 4814: Interiors Studio IV
Continuation of ARCHST 4813. Manipulation of form and space responding to programmatic functions and activities, and constraints imposed by structure, building materials, spatial enclosure, and related factors. Projects may involve designing single-function space to multiple-function layered spaces—both vertically and horizontally.
Credit Hours: 4
Prerequisites: ARCHST 4813

ARCHST 4815: Construction Documents and Building Information Modeling Studio
Studio of how materials, systems, and assemblies reinforce and extend intentions of designers. Course teaches strategies and techniques for integration and coordination of the building components and details in construction documents and building information modeling.
Credit Hours: 4
Prerequisites or Corequisites: ARCHST 4814 or ARCHST 4824

ARCHST 4823: Architectural Studio III
Continuation of ARCHST 3182. Spatial morphology, organization pattern, construction methods, materials, systems, and processes and integration with total design process. Space planning and spatial manipulation in response to social, environmental, functional, and aesthetics specifics to architecture.
Credit Hours: 4
Prerequisites: ARCHST 3182

ARCHST 4824: Architectural Studio IV
Continuation of ARCHST 4823. Manipulation of form and space responding to programmatic functions and activities, and constraints imposed by structure, building materials, spatial enclosure, and related factors. Projects may involve designing single-function space to multiple-function layered spaces—both vertically and horizontally.
Credit Hours: 4
Prerequisites: ARCHST 4823

ARCHST 4860: Programming for Thesis Design Studio
Develop written comprehensive program for thesis design studio project. Supervised by student-selected committee -- one departmental thesis advisor and at least one additional faculty member.
Credit Hour: 0-1
Prerequisites: ARCHST 3860 and ARCHST 4814 or ARCHST 4824

ARCHST 4940: Internship in Environmental Design
Field experience in design under professional and educational supervision. Graded on S/U basis only.
ARCHST 4960: Readings in Architectural Studio
Readings in recent research materials.
Credit Hour: 1-99
Prerequisites: instructor's consent

ARCHST 4961: Design Research and Service Design
(cross-leveled with ARCHST 7961). Provides an overview of applied research methods for design and development of products, services and environments. Introduces human-centered approach to design research and Communication of research findings to informed design concepts.
Credit Hours: 3
Recommended: senior standing

ARCHST 4962: Information Visualization and Visual Analytics
(cross-leveled with ARCHST 7962). Foundation for information visualization and deals with external representation and interactive manipulation of information, data or artifacts using digital tools to enhance communication, analytical reasoning and decision-making.
Credit Hours: 3
Recommended: senior standing

ARCHST 4963: Human Factors Research for Design
(cross-leveled with ARCHST 7963). Investigate effect of people's physical psychological, social functions in environments of differing scales. Use research techniques of photo-interviewers, mapping, and user analysis to develop an appropriate program for redesign.
Credit Hours: 3
Recommended: ARCHST 3860

ARCHST 4964: Design Thinking and Creative Process
(cross-leveled with ARCHST 7964). Analysis of how designers think, solve design problems, and engage in the creative process. Includes design methods, design cognition computations, and design protocol studies.
Credit Hours: 3
Recommended: ARCHST 4813 or ARCHST 4823

ARCHST 4990: Thesis Design Studio
Capstone experience on a single comprehensive project. Objective is to enable synthesis of previous course work by addressing a design problem defined in ARCHST 4860.
Credit Hours: 4
Prerequisites: ARCHST 4860, ARCHST 4814 or ARCHST 4824

ARCHST 7001: Topics in Environmental Design
Selected current topics in field of interest.
Credit Hour: 1-99

ARCHST 7085: Problems in Environmental Design
Supervised independent work.
Credit Hour: 1-99

ARCHST 7100: Allied Architecture and Urban Design
Overview of the built environment in relation to architecture and allied design. Emphasis on architecture, interior, landscape and urban design studies.
Credit Hours: 3

ARCHST 7230: Computer Graphic Application for Design I
Applications of computer graphics for design and art; includes visualization, animation and creative development. May repeat up to 12 credit hours maximum.
Credit Hours: 3

ARCHST 7232: Graduate Design Communication I
Studio course in techniques and conventions of graphic communication as an aid in the design process of built forms.
Credit Hours: 3

ARCHST 7310: Graduate Building Systems
Integrated building systems; structure construction, technology, comfort; including voice-communications, safety, floor, wall, ceiling, mechanical, electrical, and plumbing systems, project estimating and management.
Credit Hours: 3
Prerequisites: MATH 1100 or MATH 1120

ARCHST 7315: Graduate Systems Laboratory
Experimental learning setting involving building construction systems, renovation, materials and finishes testing and experimentation. Focus on hands-on opportunities investigating building technology properties in detail. Laboratory 3 hrs/week.
Credit Hour: 1-9

ARCHST 7320: Materials, Methods and Products
Inherent qualities of materials used in the design of interior environments. Manufacturing, application, and installation methods. Focus on environmentally sensitive materials.
Credit Hours: 3
Prerequisites: MATH 1100 or MATH 1120

ARCHST 7323: Sustainable Technologies and Systems
An in-depth study of ecologically-sensitive and energy-efficient strategies used in buildings and interiors.
Credit Hours: 3

ARCHST 7325: Energy-Efficient Building Design
This course is a broad study of energy use and energy-efficient strategies for buildings. The course will cover the fundamentals of climate-based design, energy-efficient heating/cooling/daylighting strategies, alternative energy systems applicable to buildings, energy auditing/modeling/verification, applicable building energy codes, and high performance building technologies. Recommended for graduate students with
undergraduate degrees and experience in engineering, architecture, and/or building science.

Credit Hours: 3

**ARCHST 7333: Compliance and Specifications**  
Application of laws, codes, regulations, standards in specifying for life safety, barrier-free and universal design, lighting, human factors, and contract documents.  

Credit Hours: 3  
Prerequisites: T_A_M 2100 and MATH 1100 or MATH 1120

**ARCHST 7355: Recent Trends in Digital Media I**  
Recent Trends in Digital Media I  

Credit Hour: 2-4

**ARCHST 7410: History of the Designed Environment to 1750**  
An in-depth study of the designed environment including housing interiors, and furniture of the major historical periods from prehistory to the Industrial Revolution.  

Credit Hours: 3  
Prerequisites: AR_H_A 1110 and AR_H_A 1120

**ARCHST 7411: Study Abroad in Architectural History**  
Discovery of historic architecture through on-site tour of timeless cities and places. May be repeated for credit.  

Credit Hour: 1-99  
Prerequisites: instructor's consent

**ARCHST 7420: History of the Designed Environment after 1750**  
An in-depth study of the designed environment, including housing, interiors, and furniture of the major historical periods from the Industrial Revolution to today.  

Credit Hours: 3  
Prerequisites: AR_H_A 1110 or AR_H_A 1120

**ARCHST 7430: Guiding Design with Historic Preservation**  
(cross-leveled with ARCHST 4430). Approaches to historic preservation; historic roots of architecture and interiors; regulations and design guidelines governing intervention; assessing significance of historic properties.  

Credit Hours: 3  
Prerequisites: American History or Government or Art History or instructor's consent

**ARCHST 7440: Design Precedents: Architecture, Interiors and Furniture since the Industrial Revolution**  
(cross-leveled with ARCHST 4440). Analysis of historical exemplars of architecture, interiors and furniture design offering strategies for approaching contemporary design problems. Covers design precedents from industrial revolution to contemporary design.  

Credit Hours: 3

**ARCHST 7550: Visual Presentation for Design**  
Emphasizes principles and techniques for effective visual design presentation. Focuses on concepts of design, layout storytelling, critiques and hands on exercises.  

Credit Hours: 3

**ARCHST 7555: Recent Trends in Environmental Design**  
Upper-division students seeking additional knowledge in specific subject matter areas including digital media software.  

Credit Hour: 1-99

**ARCHST 7620: Environment and Behavior**  
Evaluate relationships between human behavior and environmental design. Survey of environment and behavior theoretical foundations examining how these concepts translate into a more responsive theory of design.  

Credit Hours: 3

**ARCHST 7630: Shaping Human Settlements**  
Review classic designs and designers, key concepts and enduring issues of community design within the overall framework of environmental design.  

Credit Hours: 3

**ARCHST 7640: Physical Function and Older Adults**  
(same as F_C_MD 7750, HMI 7750, H_D_FS 7750, NURSE 7750, P_HLTH 7750, and SOC_WK 7752). This course takes an interdisciplinary approach to understanding and improving the physical function and independence of older adults and explores approaches to alleviate disabling conditions that interfere with physical function and quality of life in old age. Graded on A-F basis only.  

Credit Hours: 3

**ARCHST 7650: Psychosocial Function and Older Adults**  
(same as F_C_MD 7751, HMI 7751, H_D_FS 7751, NURSE 7751, P_HLTH 7751 and SOC_WK 7751). This course takes an interdisciplinary approach to understanding the psychosocial function of older adults and explores approaches to alleviate disabling conditions that interfere with psychosocial function and quality of life in old age. Graded on A-F basis only.  

Credit Hours: 3

**ARCHST 7660: Housing Concepts and Issues**  
Evaluate housing policies, regulations, codes, programs; global and ecological perspectives of environment and behavior; historic preservation; financial issues; trends and projections.  

Credit Hour: 1-12

**ARCHST 7700: Place-Making in Community Design**  
Ideologies, case studies and participatory methods on place-making in community design. Use processes to design a place-making scheme in actual community project.  

Credit Hours: 3
ARCHST 7710: Design Business Practices
Analysis of the basic professional, human, and business skills necessary for the successful design practice. Prerequisites or Corequisites of Studio IV and anticipated graduation during final academic year.
Credit Hours: 3

ARCHST 7760: Healthcare Facilities Design
(cross-leveled with ARCHST 4760). Health care facilities design and planning course provides an in-depth investigation of best practice examples. Design and research methods include evidence-based design, simulation, and space syntax analysis leading to high-performance healthcare design. Graded on A-F basis only.
Credit Hours: 3

ARCHST 7815: Studio V
A continuation of previous studio with emphasis on digital media.
Credit Hours: 4

ARCHST 7840: Graduate Design Studio
Advanced graduate level design experience emphasizing project complexity, design skill refinement, and optional development of thesis project strategies.
Credit Hours: 3
Prerequisites: instructor's consent

ARCHST 7940: Internship in Environmental Design
Field experience in design under professional and educational supervision. Graded on S/U basis only.
Credit Hour: 1-99
Prerequisites: instructor's consent

ARCHST 7960: Readings in Environmental Design
Readings in recent research materials.
Credit Hour: 1-99

ARCHST 7961: Design Research and Service Design
(cross-leveled with ARCHST 4961). Provides an overview of applied research methods for design and development of products, services and environments. Introduces human-centered approach to design research and communication of research findings to inform design concepts.
Credit Hours: 3

ARCHST 7962: Information Visualization and Visual Analytics
(cross-leveled with ARCHST 4962). Foundation for information visualization and deals with external representation and interactive manipulation of information, data or artifacts using digital tools to enhance communication, analytical reasoning and decision-making.
Credit Hours: 3

ARCHST 7963: Human Factors Research for Design
(cross-leveled with ARCHST 4963). Investigate effect of people’s physical psychological, social functions in environments of differing scales. Use research techniques of photo-interviewers, mapping, and user analysis to develop an appropriate program for redesign.

ARCHST 7964: Design Thinking and Creative Process
(cross-leveled with ARCHST 4964). Analysis of how designers think, solve design problems, and engage in the creative process. Includes design methods, design cognition and computations, and design protocol studies.
Credit Hours: 3

ARCHST 8001: Topics in Environmental Design
Selected current topics in field of interest.
Credit Hour: 1-99

ARCHST 8050: Research Methods in Environmental Design
A comparative study of quantitative and qualitative methods in environmental design with emphasis on research results and analyses. Lectures and seminar discussions.
Credit Hours: 3
Prerequisites: 12 hours advanced design

ARCHST 8085: Problems in Environmental Design
Credit Hour: 1-99
Prerequisites: 4000-level course in field of problem and instructor's consent

ARCHST 8090: Master’s Research in Environmental Design
Independent research leading to a creative project. Graded on S/U basis only.
Credit Hour: 1-99

ARCHST 8230: Computer Graphic Application for Design II
Creative computer graphic modeling, rendering and animation projects related to the academic background and interests of individual students. May be repeated to 6 hours maximum.
Credit Hours: 3

ARCHST 8233: Graduate Design Communication II
Advanced studio in techniques and conventions of graphic communication as aides in the design process.
Credit Hours: 3
Prerequisites: ARCHST 7232 or advisor's consent

ARCHST 8600: Graduate Environmental Analysis
Analysis of design principles and organizational factors operating in a building by means of dissection. Volumetric disposition, circulation pattern, axes, structural system, materials, purpose, and symbolism.
Credit Hours: 3

ARCHST 8630: Philosophy of Environmental Design Research
Formal environmental design theory concerning historical precedents, current aesthetic trends, and design processes. Assignments investigate philosophical influences, architectonic vocabularies, and communication of idea and artifact. May be repeated up to 12 credit hours.
**ARCHST 8633: Theoretical Perspectives of Design Computing**
Key theoretical ideas underlying the relationship between design and computing. Main research topics relevant to current discourse in design computing.

*Credit Hours: 3*

**ARCHST 8650: Theories in Architectural and Interior Design**
Architectural and interior design theory is explored as a field of inquiry. Students become familiar with a theoretical framework that is sensitive to the play between the principles of a building (what it is as a design) and the circumstances of a building (what it becomes to be).

*Credit Hours: 3*

**ARCHST 8820: Graduate Digital Design Studio**
Graduate level design experience emphasizing project complexity, design skill refinement, and use of digital media for design representation.

*Credit Hour: 1-99*

**ARCHST 8830: Digital Design Studio II**
Advanced graduate level design experience emphasizing design, documentation, and representation using digital media. Optional development of graduate thesis project may be scheduled in this studio.

*Credit Hours: 4*

**ARCHST 8840: Graduate Design Studio**
Advanced graduate level design experience emphasizing project complexity, design skill refinement, and optional development of thesis project strategies.

*Credit Hour: 1-99*

**ARCHST 8840: Graduate Design Studio**
Advanced graduate level design experience emphasizing project complexity, design skill refinement, and optional development of thesis project strategies.

*Credit Hour: 1-99*

**ARCHST 8850: Seminar in Environmental Design**
Reports, discussion of recent work in area of concentration.

*Credit Hour: 1-4*

**ARCHST 887: Environment and Behavior II**
Synthesis of environment and behavior themes in design research and application to professional practice. Research on socio-behavioral phenomena, user groups, places. Emphasis on integrated interactive character of elements.

*Credit Hours: 3*

**ARCHST 8950: Qualitative Research Methods**
Explores qualitative research methods as foundation for subsequent study. Focuses on qualitative research of the built environment. Course may be repeated for credit.

*Credit Hours: 3*

**ARCHST 8960: Readings in Environmental Design**
Readings in recent research materials.

*Credit Hour: 1-99*

**Prerequisites:** ARCHST 4960 or ARCHST 7960

**ARCHST 8990: Thesis Project Proposal**
The formal opportunity to express the intent and scope of the thesis project.

*Credit Hour: 1*

**Prerequisites:** instructor's consent

**ARCHST 9001: Topics in Environmental Design**
Selected current topics in field of interest.

*Credit Hour: 1-99*

**ARCHST 9085: Problems in Environmental Design**
Independent research leading to thesis or dissertation. Graded on a S/U basis only.

*Credit Hour: 1-99*

**ARCHST 9555: Recent Trends in Environmental Design**
For students seeking additional knowledge and understanding in specific subject matter areas.

*Credit Hour: 1-99*

**ARCHST 9990: Dissertation Proposal**
A formal dissertation proposal is written and presented to the dissertation committee for approval.

*Credit Hour: 1-9*

**Prerequisites:** instructor's consent

**ARCHST 9995: Pilot Project for Dissertation**
Working with advisor, student proposes, conducts, and reports the findings from a pilot study germane to the dissertation topic in preparation for the dissertation research.

*Credit Hour: 1-99*

**Prerequisites:** instructor's consent

---

**Art History And Archaeology Courses**

**AR_H_A 1005: Undergraduate Topics in Art History and Archaeology- Humanities**
Special studies in Art History and Archaeology.

*Credit Hour: 1*

**AR_H_A 1010: Introduction to Museum of Art and Archaeology, UMC**
This course is a brief introduction to the Museum of Art and Archaeology on Francis Quadrangle. Special attention will be given to the history of the Museum, to its operation and to its collection. Guest lecturers from the from the Museum will provide first hand accounts of their contributions.
to the day-to-day operations of the Museum and to the academic mission
of the University.

Credit Hour: 1

AR_H_A 1020: Giotto and the Arena Chapel
This course is a brief introduction to one of the major monuments of
western art, the Area (or Scrovegni) Chapel of Giotto di Bondone. Special
attention will be given to stories about him by Renaissance authors.

Credit Hour: 1

AR_H_A 1030: Early Works of Michelangelo
This course is a brief introduction to the life and work of Michelangelo.
Special attention will be given to his early works and to stories about him,
especially those by Giorgio Vasari in his Lives of the Artist, Florence,
1568.

Credit Hour: 1

AR_H_A 1040: Rembrandt
This course is a brief introduction to the life and work of the seventeenth-
century Dutch painter Rembrandt van Rijn. Special attention is give to the
appreciation of his art by his contemporaries.

Credit Hour: 1

AR_H_A 1105: Undergraduate Topics in Art History and
Archaeology
Special studies in Art History and Archaeology.

Credit Hours: 3

AR_H_A 1110: Ancient and Medieval Art
Introductory survey of the architecture, sculpture and painting of the
ancient Near East, Greece, Rome, Byzantium and Medieval Europe.

Credit Hours: 3

AR_H_A 1110H: Ancient & Medieval Art - Honors
Introductory survey of the architecture, sculpture and painting of the
ancient Near East, Greece, Rome, Byzantium and Medieval Europe.

Credit Hours: 3

AR_H_A 1110W: Ancient and Medieval Art - Writing Intensive
Introductory survey of the architecture, sculpture and painting of the
ancient Near East, Greece, Rome, Byzantium and Medieval Europe.

Credit Hours: 3

AR_H_A 1120: Renaissance through Modern Art
Introductory survey of architecture, sculpture and painting of Europe and
America from the Renaissance to Modern times.

Credit Hours: 3

AR_H_A 1120H: Renaissance through Modern Art - Honors
Introductory survey of architecture, sculpture and painting of Europe and
America from the Renaissance to Modern times.

Credit Hours: 3

AR_H_A 1120W: Renaissance through Modern Art - Writing Intensive
Introductory survey of architecture, sculpture and painting of Europe and
America from the Renaissance to Modern times.

Credit Hours: 3

AR_H_A 1123: Introduction to Asian Arts
(same as HIST 1820, REL_ST 1820, S_A_ST 1152). This course is an
introduction to the literature and visual arts of Asia through selected
master works. It focuses principally on India and China and investigates
the distinctive features of their cultures.

Credit Hours: 3

AR_H_A 1120: Renaissance through Modern Art - Writing Intensive
Introductory survey of architecture, sculpture and painting of Europe and
America from the Renaissance to Modern times.

Credit Hours: 3

AR_H_A 2005: Topics Art History and Archaeology - Humanities
Study of special topics in Art History and Archaeology.

Credit Hour: 1-3

AR_H_A 2150: The Art of the Book
Introduction to the illustrated book as a locus of artistic style, cultural
currency, and visual literacy.

Credit Hours: 3

AR_H_A 2150W: The Art of the Book - Writing Intensive
Introduction to the illustrated book as a locus of artistic style, cultural
currency, and visual literacy.

Credit Hours: 3

AR_H_A 2230: Introduction to the Arts of Islam
Architecture, decorative arts and painting of the Muslim world from
the seventh to the 19th century. The formation of Islamic art and its
relationships with religion, philosophy and symbolism.

Credit Hours: 3

AR_H_A 2230W: Introduction to the Arts of Islam - Writing Intensive
Architecture, decorative arts and painting of the Muslim world from
the seventh to the 19th century. The formation of Islamic art and its
relationships with religion, philosophy and symbolism.

Credit Hours: 3

AR_H_A 2410: Ancient Technology
Engineering, architecture, and military technology in the ancient world.

Credit Hours: 3

AR_H_A 2720: African-American Visual Culture
(same as BL_STU 2720) This course introduces students to African-
American art history, visual culture, and material culture in the cultural,
political, and historical contexts. Specific focuses may include Harlem
Renaissance, the Black Arts Movement, and other topics.

Credit Hours: 3
AR_H_A 2720W: African-American Visual Culture - Writing Intensive (same as BL_STU 2720) This course introduces students to African-American art history, visual culture, and material culture in the cultural, political, and historical contexts. Specific focuses may include Harlem Renaissance, the Black Arts Movement, and other topics.

Credit Hours: 3

AR_H_A 2830: American Art and Architecture
Architecture, sculpture, painting of America from 17th century to present day.

Credit Hours: 3

AR_H_A 2830W: American Art and Architecture - Writing Intensive
Architecture, sculpture, painting of America from 17th century to present day.

Credit Hours: 3

AR_H_A 2850: Introduction to Visual Culture
Introduction to the problems of understanding, analyzing, and writing about visual culture.

Credit Hours: 3

AR_H_A 2850W: Introduction to Visual Culture - Writing Intensive
Introduction to the problems of understanding, analyzing, and writing about visual culture.

Credit Hours: 3

AR_H_A 2860: The Lives of Objects
Introduction to the problems of understanding, analyzing and writing about decorative arts, design history, and material culture.

Credit Hours: 3

AR_H_A 2860W: The Lives of Objects - Writing Intensive
Introduction to the problems of understanding, analyzing and writing about decorative arts, design history, and material culture.

Credit Hours: 3

AR_H_A 2940: Archaeological Methods
Methods of excavating various types of sites; recording, preserving their materials.

Credit Hour: 2-6
Prerequisites: instructor's consent

AR_H_A 2960: Special Readings in Art History and Archeology
Independent readings and research selected in consultation with supervisory faculty.

Credit Hour: 1-3
Prerequisites: instructor's consent

AR_H_A 3005: Topics in Art History and Archaeology- Humanities
Selected studies in various facets of art history and archaeology.

Credit Hour: 1-3

AR_H_A 3005H: Topics in Art History and Archaeology- Humanities - Honors
Selected studies in various facets of art history and archaeology. Enrollment limited to students with Honor's eligibility.

Credit Hour: 1-3
Prerequisites: instructor's consent

AR_H_A 3010: Study Abroad in Art History and Archaeology
Instruction in art history, architecture, or archaeology takes place in a foreign country or countries. Trips are led and taught by University of Missouri faculty.

Credit Hour: 3-6
Prerequisites: departmental consent
Recommended: Sophomore standing or higher

AR_H_A 3120: Art and Gender in Antiquity
Comparative survey of Egypt, Greece, and Rome, focusing on gender construction and cultural perception through material resources.

Credit Hours: 3

AR_H_A 3210: Near Eastern and Egyptian Art and Archaeology
General survey of material culture of the Near East and Egypt from the earliest times to the early Iron Age.

Credit Hours: 3
Recommended: AR_H_A 1110 or equivalent

AR_H_A 3310: Greek Art and Archaeology
General survey of material culture in Greece from earliest times to the Hellenistic period.

Credit Hours: 3
Recommended: AR_H_A 1110 or equivalent

AR_H_A 3410: Roman Art and Archaeology
General survey of material culture in the Roman world from earliest times through the 3rd century.

Credit Hours: 3
Recommended: AR_H_A 1110 or equivalent

AR_H_A 3510: Byzantine and Islamic Art and Archaeology
General survey of the visual world of the Middle Ages in southwest Asia and the east Mediterranean, from late antiquity through the rise of the Ottoman empire.

Credit Hours: 3
Recommended: AR_H_A 1110 or equivalent

AR_H_A 3510W: Byzantine and Islamic Art and Archaeology - Writing Intensive
General survey of the visual world of the Middle Ages in southwest Asia and the east Mediterranean, from late antiquity through the rise of the Ottoman empire.

Credit Hours: 3
Recommended: AR_H_A 1110 or equivalent
**AR_H_A 3520: Early Medieval Art and Archaeology**  
An investigation of the arts of western Europe during the first millennium, when the unifying traditions of Rome were transformed by the diverse cultures of her Northern neighbors.  
**Credit Hours:** 3  
**Recommended:** AR_H_A 1110 or equivalent

**AR_H_A 3520W: Early Medieval Art and Archaeology - Writing Intensive**  
An investigation of the arts of western Europe during the first millennium, when the unifying traditions of Rome were transformed by the diverse cultures of her Northern neighbors.  
**Credit Hours:** 3  
**Recommended:** AR_H_A 1110 or equivalent

**AR_H_A 3530: Late Medieval Art**  
General survey of European art and architecture from the 11th through the 14th centuries.  
**Credit Hours:** 3  
**Recommended:** AR_H_A 1110 or equivalent

**AR_H_A 3530W: Late Medieval Art - Writing Intensive**  
General survey of European art and architecture from the 11th through the 14th centuries.  
**Credit Hours:** 3  
**Recommended:** AR_H_A 1110 or equivalent

**AR_H_A 3620: Italian Renaissance Art**  
General survey of the architecture, painting and sculpture of Italy from the 14th through the 16th century.  
**Credit Hours:** 3  
**Recommended:** AR_H_A 1110 or AR_H_A 1120 or equivalent

**AR_H_A 3630: Northern Renaissance Art**  
General survey of northern European art and architecture from the late 14th through the late 16th century.  
**Credit Hours:** 3  
**Recommended:** AR_H_A 1120 or equivalent

**AR_H_A 3640: Baroque Art**  
General survey of 17th century European architecture, painting and sculpture.  
**Credit Hours:** 3  
**Recommended:** AR_H_A 1120 or equivalent

**AR_H_A 3720: Cities in the Western Imagination**  
Interdisciplinary introduction to the forms, functions, and meanings of cities in Europe and the Americas from ancient to modern times; plans and predictions for the future also considered. Emphasis is placed on cities as fields for imaginative activity on the part of those who have designed, built, used, and interpreted them.  
**Credit Hours:** 3

**AR_H_A 3730: Eighteenth Century European Art**  
General survey of 18th-century European painting, sculpture and architecture.  
**Credit Hours:** 3  
**Recommended:** AR_H_A 1120 or equivalent

**AR_H_A 3730W: Eighteenth Century European Art - Writing Intensive**  
General survey of 18th-century European painting, sculpture and architecture.  
**Credit Hours:** 3  
**Recommended:** AR_H_A 1120 or equivalent

**AR_H_A 3740: Nineteenth Century European Art**  
General survey of 19th-century European painting, sculpture and architecture.  
**Credit Hours:** 3  
**Recommended:** AR_H_A 1120 or equivalent

**AR_H_A 3740W: Nineteenth Century European Art - Writing Intensive**  
General survey of 19th-century European painting, sculpture and architecture.  
**Credit Hours:** 3  
**Recommended:** AR_H_A 1120 or equivalent

**AR_H_A 3750: Modern Art in Europe and America**  
General survey of international directions in painting, sculpture, and architecture from 1885 to ca. 1940.  
**Credit Hours:** 3  
**Recommended:** AR_H_A 1120 or equivalent

**AR_H_A 3760: Contemporary Art**  
General survey of painting, sculpture, and architecture from the Second World War to the present.  
**Credit Hours:** 3  
**Recommended:** AR_H_A 1120 or equivalent

**AR_H_A 3775: The Ancient World on Film**  
(same as CL_HUM 3775 and FILM_S 3775) This course explores how classical antiquity has been represented in twentieth and twenty-first-century film, with particular emphasis on the ways in which ancient narratives and iconography have been appropriated by filmmakers to address contemporary cultural issues.  
**Credit Hours:** 3  
**Recommended:** Prior 2000 level coursework in Classical Humanities, Art History and Archaeology, or Film Studies

**AR_H_A 3780: Architecture in Film**  
(same as FILM_S 3780) Filmmakers use architecture to convey meaning on symbolic, psychological, and ideological levels. Using architectural history and theory, in conjunction with weekly film screenings from a
variety of genres, this course explores how architecture operates within film.

Credit Hours: 3

AR_H_A 3785: Arts and Artists on Film
(same as FILM_S 3785) This course explores representations of art and artists in film, including documentary films, fictionalized films, and films made by artists.

Credit Hours: 3

AR_H_A 3790: Indian Cinema
(same as ANTHRO 3490, S_A_ST 3490 and FILM_S 3490). Indian Cinema provides an overview of the key genres and themes of Indian film, including Bombay, art cinema/parallel cinema, Indian regional cinemas, and diasporan cinema. The course combines film studies, anthropological, historical, and visual culture analyses to provide a holistic view of Indian culture and society through cinema.

Credit Hours: 3
Recommended: Sophomore standing or higher

AR_H_A 3830: American Art and Culture, 1500-1820
General survey of American visual culture - painting, sculpture, architecture-between 1500 and 1820.

Credit Hours: 3
Recommended: AR_H_A 1120 or equivalent

AR_H_A 3840: American Art and Culture, 1820-1913
General survey of American visual culture - painting, sculpture, architecture, photography - between 1820-1913.

Credit Hours: 3
Recommended: AR_H_A 1120 or AR_H_A 2830 or equivalent

AR_H_A 3850: American Art and Culture, 1913-Present
General survey of American visual culture - painting, sculpture, architecture, photography, advertising, film, new media - between 1913 and the present.

Credit Hours: 3
Recommended: AR_H_A 1120 or AR_H_A 2830 or equivalent

AR_H_A 4005: Topics in Art History and Archaeology-Humanities
Special studies in art history/archaeology; covers subjects not included in regularly offered courses.

Credit Hour: 1-99
Prerequisites: instructor's consent

AR_H_A 4120: Gender and the Arts
(same as WGST 4120; cross-leveled with WGST 7120, AR_H_A 7120). Exploration of the relationship between the visual arts and constructions of gender and sexuality in selected eras.

Credit Hours: 3
Prerequisites: instructor's consent

AR_H_A 4230: Archaeology of the Aegean Bronze Age
(cross-leveled with AR_H_A 7320). Analysis of the material culture of Greek prehistoric civilizations from 3000 to 1000 B.C.

Credit Hours: 3
Prerequisites: instructor's consent

AR_H_A 4340: Greek Architecture
(cross-leveled with AR_H_A 7340). Survey of the art of building in the Aegean and Classical world from earliest times to the Hellenistic period.

Credit Hours: 3
Prerequisites: instructor's consent

AR_H_A 4350: Greek Pottery
(cross-leveled with AR_H_A 7350). Examination of pottery and vase painting with an emphasis on production, iconography, and social context.

Credit Hours: 3
Prerequisites: instructor's consent

AR_H_A 4360: Greek Sculpture
(cross-leveled with AR_H_A 7360). The origins and development of sculpture in the Roman Republic and the Roman Empire.

Credit Hours: 3
Prerequisites: instructor's consent

AR_H_A 4420: Minor Arts of Antiquity
(cross-leveled with AR_H_A 7420). Discussion of selected minor arts and crafts of the Greco-Roman world.

Credit Hours: 3
Prerequisites: instructor's consent

AR_H_A 4440: Roman Architecture
(cross_leveled with AR_H_A 7440). The history of Roman architecture, origin and development of forms and techniques, major monuments in Rome and its provinces through the 3rd century after Christ.

Credit Hours: 3
Prerequisites: instructor's consent

AR_H_A 4460: Roman Sculpture
(cross-leveled with AR_H_A 7460). The origins and development of sculpture in the Roman Republic and the Roman Empire.

Credit Hours: 3
Prerequisites: instructor's consent

AR_H_A 4490: Late Antique Art and Archaeology
(cross-leveled with AR_H_A 7490). Exploration of the material culture of the Mediterranean world from the 3rd century to Iconoclasm.

Credit Hours: 3
Prerequisites: instructor's consent

AR_H_A 4510: Byzantine Art and Archaeology
(cross-leveled with AR_H_A 7510). Exploration of the material culture of the east Mediterranean between the 6th and 15th centuries.

<tr>
<td>AR_H_A 4710</td>
<td>(cross-leveled with AR_H_A 7710). This course explores European Art from approximately 1710 to 1770, focusing on art associated with two different social sectors: The early modern aristocratic court culture whose artistic predilections had formed the European norm, and the increasingly powerful merchant classes whose newfound wealth enabled new artistic genres and styles to proliferate. Our inquiry begins with an exploration of the rococo as an ornamental style; we examine its origins in Italian garden architecture and subsequent transformation into a decoration for both French palatial interiors and German Churches. We then launch a succession of case studies of important artists, media, and objects in order to assess the varied ways that diverse social identities were deflected through the period's art and architecture. Students will pursue a research topic on rococo art for their semester project.</td>

---

**AR_H_A 7940: Archaeological Methods**  
(cross-leveled with AR_H_A 4940). Methods of excavating various types of sites; recording, preserving their materials.

**Credit Hour:** 2-6  
**Prerequisites:** instructor's consent

---

**AR_H_A 7960: Special Readings in Art History or Archaeology**  
Independent readings and research selected in consultation with supervisory faculty.

**Credit Hour:** 1-99  
**Prerequisites:** instructor's consent

---

**AR_H_A 7980: Internship in Art History and Archaeology**  
a one semester or full summer intensive internship with specific projects and responsibilities to be arranged by the student and the program director.

**Credit Hours:** 3  
**Prerequisites:** instructor's consent

---

**AR_H_A 8070: Master's Tutorial**  
Consultation with faculty advisory and preparation of a scholarly essay based on a graduate research paper. Graded on S/U basis only.

**Credit Hour:** 1  
**Prerequisites:** AR_H_A 8110, and other graduate courses in Art History & Archaeology

---

**AR_H_A 8080: Readings for MA Thesis in Art History and Archaeology**  
Reading, critical evaluation of literature of special fields of art history and/or archaeology.

**Credit Hour:** 1-99  
**Prerequisites:** instructor's consent

---

**AR_H_A 8090: Master's Thesis Research and Thesis**  
Individual research leading to preparation of the M.A. thesis Graded on a S/U basis only.

**Credit Hour:** 1-99  
**Prerequisites:** instructor's consent

---

**AR_H_A 8110: Introduction to Graduate Study**  
Research methods, bibliography, use and criticism of source material. Required of graduate students in Art History and Archaeology who have not had AR_H_A 4996.

**Credit Hours:** 3  
**Prerequisites:** departmental consent

---

**AR_H_A 8120: Theories and Methodologies in Art History and Archaeology**  
Literature of art and archaeology in terms of works of leading European and American art historians, archaeologists.

**Credit Hours:** 3  
**Prerequisites:** instructor's consent
AR_H_A 8130: Museum Studies Seminar
Appropriate means for care and display of artifacts. Topics include: accessioning, cataloging, retrieval of information, and laws and ethics of collecting; the museum environment and its monitoring; condition reports, shipping and storage, and conservation. Field trips.
Credit Hours: 3
Prerequisites: instructor's consent

AR_H_A 8140: Art Theory and Criticism
Theoretical and critical literature of art from earliest times to the present.
Credit Hours: 3
Prerequisites: instructor's consent

AR_H_A 8170: Historic Preservation Seminar
Research techniques to solve research problems and conduct field recording in historic preservation, material culture, historic architecture, and cultural heritage studies.
Credit Hours: 3
Prerequisites: instructor's consent

AR_H_A 8320: Seminar in Greek Art and Archaeology
Special subjects of study assigned for individual research; discussion of reports by seminar members.
Credit Hour: 1-99
Prerequisites: instructor's consent

AR_H_A 8420: Seminar in Roman Art and Archaeology
Special subjects of study assigned for individual research; discussion of reports by seminar members.
Credit Hour: 1-99
Prerequisites: instructor's consent

AR_H_A 8440: Ancient/Medieval Topography
(same as CLASS 8440). Descriptive and historical analysis of a selected city or site. Subject varies.
Credit Hour: 1-99
Prerequisites: instructor's consent

AR_H_A 8490: Seminar in Late Antique Art and Archaeology
Special subjects of study assigned for individual research; discussion of reports by seminar members.
Credit Hours: 3
Prerequisites: AR_H_A 7490 or equivalent

AR_H_A 8520: Seminar in Medieval Art and Archaeology
Specific subjects of study will be assigned to students for presentation in relation to broader questions of the cultural/historical phenomena of the time, from ca 700 to ca 1400.
Credit Hour: 1-99
Prerequisites: instructor's consent

AR_H_A 8620: Seminar in Renaissance Art
Special subjects of study assigned for Northern or Southern Renaissance for individual research, discussion of reports by seminar members.

Credit Hours: 3
Prerequisites: instructor's consent

AR_H_A 8710: Seminar in 18th Century Art
Special subjects of study in 18th century art assigned for individual research; reports to be presented and discussed by seminar members.
Credit Hour: 1-99
Prerequisites: instructor's consent

AR_H_A 8720: Seminar in 19th Century Art
Special subjects of study in 19th century art assigned for individual research; reports to be presented and discussed by seminar members.
Credit Hour: 1-99
Prerequisites: instructor's consent

AR_H_A 8740: Seminar in Modern Architecture
Special subjects of study assigned for individual research; discussion of reports by seminar members.
Credit Hour: 1-99
Prerequisites: instructor's consent

AR_H_A 8750: Seminar in Modern and Contemporary Art
Special subjects of study assigned for individual research; discussion of reports by seminar members.
Credit Hour: 1-99
Prerequisites: instructor's consent

AR_H_A 8800: Seminar in American Art
Special subjects of study assigned for individual research; discussion of reports by seminar members.
Credit Hour: 1-99
Prerequisites: instructor's consent

AR_H_A 9080: Readings for PhD Dissertation in Art History and Archaeology
Reading, critical evaluation of literature of special fields of art history and/or archaeology.
Credit Hour: 1-99
Prerequisites: instructor's consent

AR_H_A 9090: Doctoral Dissertation Research in Art History and Archaeology
Individual research leading to preparation of the Ph.D. dissertation. Graded on a S/U basis only.
Credit Hour: 1-99
Prerequisites: instructor's consent

Art-Ceramics Courses
ART_CERM 2100: Beginning Ceramics
Exploration of ceramic art as an expressive, communicative medium. Study of ceramic design, technique and historic and contemporary models within the context of the creative process. Group critiques, slides, demonstrations. Expendable materials fee.
**Credit Hours:** 3

**ART_CERM 3100: Intermediate Ceramics**  
Continuation of ART_CERM 2100 with emphasis on wheel throwing and the vessel format. Further exploration of glazing and firing techniques. Group and individual critiques, demonstrations, slide lectures and visiting artists. Expendable materials fee.

**Credit Hours:** 3  
**Prerequisites:** instructor's consent

**ART_CERM 4100: Advanced Ceramics**  
Continuation of ART_CERM 3100. Includes advanced problems in firing, clay and glaze technology, forming and ornamentation. Payment of expendable materials fee required. May be repeated to 15 hours maximum.

**Credit Hours:** 3  
**Prerequisites:** instructor's consent

**ART_CERM 4110: Ceramics Sculpture**  
Sculptural forms constructed of slabs, coils and wheel-thrown elements. Payment of expendable materials expense is required. May be repeated to 15 hours maximum.

**Credit Hours:** 3

**ART_CERM 4185: Problems in Ceramics**  
Problems in Ceramics.

**Credit Hours:** 1-3  
**Prerequisites:** departmental consent

**ART_CERM 7100: Graduate Ceramics**  
Advanced study of ceramic technology and design concepts with emphasis on directed development of individual work. Payment of expendable materials expense is required. May be repeated to 18 hours maximum.

**Credit Hours:** 3  
**Prerequisites:** ART_CERM 4100

**ART_CERM 7110: Graduate Ceramic Sculpture**  
Directed development of individual work. Payment of expendable materials expense is required. May be repeated to 18 hours maximum.

**Credit Hours:** 3  
**Prerequisites:** ART_CERM 4100

**ART_CERM 7185: Problems in Ceramics**  
Graduate level work in ceramics.

**Credit Hours:** 1-3  
**Prerequisites:** ART_CERM 7100 and ART_CERM 7110 and departmental consent

**ART_CERM 8100: Graduate Ceramics II**  
Continuation of ART_CERM 7100. Repeatable to 15 hours.

**Credit Hours:** 3  
**Prerequisites:** ART_CERM 7100 or equivalent

---

**Art-Drawing Courses**

**ART_DRAW 1050: Drawing I**  
An introduction to visual hierarchy, composition, and pictorial space in drawing. Emphasis on linear perspective and the language of light and shadow using black and white media (graphite, charcoal and/or conte crayon). Development of skills and concepts in drawing based on historical models, lectures, demonstrations and critiques. Expendable materials fee required.

**Credit Hours:** 3

**ART_DRAW 2200: Drawing II**  
An introduction to drawing systems, problem solving and study of the proportions of the human form. Development of skills and concepts in drawing based on historical and contemporary models, lectures, demonstrations and critiques. Expendable materials fee required.

**Credit Hours:** 3  
**Prerequisites:** ART_DRAW 1050

**ART_DRAW 2210: Beginning Color Drawing**  
Theory and practice in the use of pastel working from stilllife, landscape, and portrait. Expendable materials fee required.

**Credit Hours:** 3  
**Prerequisites:** ART_DRAW 1050 and ART_DRAW 2200

**ART_DRAW 3200: Drawing III**  
Development of drawing techniques with an emphasis on materials and methods. Emphasis in conceptual and formal skills based on contemporary and historical models. May be repeated to 15 hours maximum. Expendable materials fee required.

**Credit Hours:** 3  
**Prerequisites:** ART_DRAW 1050 and ART_DRAW 2200

**ART_DRAW 3210: Intermediate Color Drawing**  
Continuation of ART_DRAW 2210 with emphasis on design and organization. Expendable materials fee required.

**Credit Hours:** 3  
**Prerequisites:** ART_DRAW 1050, ART_DRAW 2200 and ART_DRAW 2210

**ART_DRAW 3220: Anatomical Drawing**  
Anatomical structure of human figure as it relates to art. Drawing from live model; emphasis on gross anatomy as defined by skeletal and muscular structure. Expendable materials fee required.

**Credit Hours:** 3  
**Prerequisites:** ART_DRAW 1050 and ART_DRAW 2200

**ART_DRAW 3230: Beginning Illustration**  
An introduction to visual problem solving from initial concept through final execution. Emphasis in drawing and painting skills and exploration of mixed media techniques including drawing from the model. Graded on A-F basis only. Expendable materials fee.

**Credit Hours:** 3  
**Prerequisites:** ART_DRAW 1050 and ART_DRAW 2200
ART_DRAW 4200: Drawing IV
This course will provide an intensive experience in the development of a portfolio of artwork. Students will explore the connections between their work and contemporary art. May be repeated 3 times. Expendable Materials Fee Required.
Credit Hours: 3
Prerequisites: ART_DRAW 1050, ART_DRAW 2200 and ART_DRAW 3200

ART_DRAW 4210: Advanced Color Drawing
Continuation of ART_DRAW 3210 with emphasis on the expressive properties of color in figural compositions. Repeatable to 15 hours. Expendable materials fee required.
Credit Hours: 3
Prerequisites: ART_DRAW 1050, ART_DRAW 2200, ART_DRAW 2210 and ART_DRAW 3210

ART_DRAW 4220: Advanced Anatomical Drawing
Continuation of ART_DRAW 3220 with and emphasis on formal analysis of the figure in drawing based on superficial and deep anatomical structure. May be repeated to 15 hour maximum. Expendable materials fee required.
Credit Hours: 3
Prerequisites: ART_DRAW 1050 and ART_DRAW 3220
Recommended: ART_DRAW 2200 and ART_DRAW 3200 before taking this class

ART_DRAW 4230: Advanced Illustration
Further development of conceptual problem solving skills and technical proficiency through self generated assignments. Emphasis is placed on portfolio development by exploring sequential and narrative themes. Topics include contract, copyrights, and the art of freelancing. Students are advised to take the course a minimum of two times. May be repeated to 15 hours maximum. Expendable materials fee required.
Credit Hours: 3
Prerequisites: ART_DRAW 1050 and ART_DRAW 2200
Recommended: ART_DRAW 2200 and ART_DRAW 3200

ART_DRAW 4285: Problems in Drawing
Problems in Drawing.
Credit Hour: 1-3
Prerequisites: departmental consent

ART_DRAW 7285: Problems in Drawing
Credit Hour: 1-3
Prerequisites: ART_DRAW 7200 and departmental consent

ART_DRAW 8200: Graduate Drawing: Advanced Studio Practice and Critique
Continuation of ART_DRAW 7200. Repeatable to 15 hours.
Credit Hours: 3
Prerequisites: ART_DRAW 7200 or equivalent

ART_DRAW 8210: Graduate Color Drawing II
Continuation of ART_DRAW 7210. Repeatable to 15 hours.
Credit Hours: 3
Prerequisites: ART_DRAW 7210 or equivalent

ART_DRAW 8270: Graduate Drawing - Theory and Context
Contextualizing artwork in culture, history, and theory, May be repeated to 18 hours for credit. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: Graduate Art Majors

ART_DRAW 8285: Problems in Drawing II
Advanced independent studio practice including critical evaluation of student's creative work. Individual study in drawing is to be proposed by the student and approved by the instructor. The student will meet on a regular basis with the instructor to review student progress. May be repeated for credit. Graded on A-F basis only.
Credit Hour: 1-3
Prerequisites: for students with strong preparation in Art; departmental consent; ART_DRAW 7285

Art-Fibers Courses
ART_FIBR 2300: Beginning Fibers
Exploration of various fiber and media including papermaking, weaving, surface design and sculptural techniques. Expendable materials fee required.
Credit Hours: 3

ART_FIBR 3300: Intermediate Fibers
Continuation of ART_FIBR 2300 with emphasis on utilizing acquired technical processes in loom and off weaving, paper making and surface design and a means of developing visual statements. Expendable materials fee required.
Credit Hours: 3
Prerequisites: ART_FIBR 2300

ART_FIBR 4300: Advanced Fibers
Exploration of aesthetic concepts, development of personal style and instruction in advanced fiber techniques within medium selected by student. Expendable materials fee required. May repeat to 15 hours maximum.
Credit Hours: 3
Prerequisites: ART_FIBR 3300 or approved equivalents

ART_FIBR 4385: Problems in Fibers
Problems in Fibers.
Credit Hour: 1-3
Prerequisites: departmental consent

ART_FIBR 7300: Graduate Fibers
Advanced technical and aesthetic study in medium of choice with emphasis on development of the individual student's ideas and goals. Expendable materials fee required. May repeat to 15 hours maximum.
Credit Hours: 3
Prerequisites: ART_FIBR 4300

ART_FIBR 7385: Problems in Fibers
Graduate level work in fibers.
Credit Hour: 1-3
Prerequisites: ART_FIBR 7300 and departmental consent

ART_FIBR 8300: Graduate Fibers II
Continuation of ART_FIBR 7300. Repeatable to 15 hours.
Credit Hours: 3
Prerequisites: ART_FIBR 7300 or equivalent

Art-General Courses

ART_GNRL 1010: Introduction to Art
Basic practice in drawing, painting, design. Exploratory course for beginners.
Credit Hours: 3
Prerequisites: Restricted to Non-majors only

ART_GNRL 1020: Appreciation of Art
Illustrated discussion with examples from varied historic and contemporary art fields on nature of art, functions, methods of creative expression. One section is writing intensive each semester and the other is NON writing intensive each semester.
Credit Hours: 3
Prerequisites: ENGLISH 1000 may be required on some sections

ART_GNRL 1020W: Appreciation of Art - Writing Intensive
Illustrated discussion with examples from varied historic and contemporary art fields on nature of art, functions, methods of creative expression. One section is writing intensive each semester and the other is NON writing intensive each semester.
Credit Hours: 3
Prerequisites: ENGLISH 1000

ART_GNRL 1030: Basic 2-D Design
(Art Foundations) Study of the basic principles and elements of two-dimensional composition in art. These principles of organization are the bases for expression and critical analysis of the visual arts. Students will create several studio projects exploring design variables, while employing a range of tools and materials from drawing to digital methods.
Credit Hours: 3

ART_GNRL 1040: Basic 3-D Design
A foundational course designed to familiarize students with the elements and principles of three-dimensional design as well as some of the materials, tools, processes and techniques used in the creation of sculptural art. Study and development of formal aesthetic ideas, conceptual vocabulary and technical skills is emphasized. Expendable materials fee required.
Credit Hours: 3

ART_GNRL 2000: Color Theory
An investigation of various color systems and their application to art.
Credit Hours: 3
Prerequisites: ART_GNRL 1030

ART_GNRL 2001: Topics in Art
Special studies in studio art; covers subjects not included in regularly offered courses. Topics course are repeatable for up to 6 credits per individual topic.
Credit Hour: 1-3
Prerequisites: instructor's consent

ART_GNRL 2001H: Topics in Art - Honors
Special studies in studio art; covers subjects not included in regularly offered courses. Topics courses are repeatable for up to six credits per individual topic. Enrollment limited to students with Honors Eligibility.
Credit Hour: 1-3
Prerequisites: instructor's consent

ART_GNRL 2005: Topics in Art - Humanities
Special studies in studio art; covers subjects not included in regularly offered courses. Topics courses are repeatable for up to six credits per individual topic.
Credit Hour: 1-3
Prerequisites: Instructor's consent

ART_GNRL 2005H: Topics in Art - Humanities - Honors
Special studies in studio art; covers subjects not included in regularly offered courses. Topics courses are repeatable for up to six credits per individual topic. Enrollment limited to students with Honors Eligibility.
Credit Hour: 1-3
Prerequisites: instructor's consent

ART_GNRL 2020: International Summer Study Abroad
A four-week study abroad in studio art with required participation in scheduled excursions to art-related sites. Students create original art for review at schedule critiques in 1) Florence, Italy and surrounding cities, or 2) The Netherlands and Belgium. May be repeated once for credit.
Credit Hours: 4
ART_GNRL 2030: Context and Culture
The purpose of this course is to give journalism students a framework for engaging with the visual arts, with a focus on the 20th century and today. Our goal is to conduct a foundation for thinking, talking and writing about the visual arts, especially works and movements that might be challenging for the novice to understand.
Credit Hours: 3

ART_GNRL 2030H: Context and Culture - Honors
The purpose of this course is to give journalism students a framework for engaging with the visual arts, with a focus on the 20th century and today. Our goal is to conduct a foundation for thinking, talking and writing about the visual arts, especially works and movements that might be challenging for the novice to understand.
Credit Hours: 3
Prerequisites: Honors eligibility required

ART_GNRL 2040: Sophomore Seminar
This course is a bridge between contemporary art practices and developing a strong independent studio practice. Students develop a foundational sense of being a visual artist from the perspective of studio practice, professional application and creating an artistic identity through contemporary theory and short critical writings. Students will learn how to document and create a digital platform for their work, as well as search for internships, residencies and other professional arts opportunities. Through lectures, demonstrations, student collaborations, and visits with the local arts community, students will create a sphere of professional influences. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: ART_GNRL 1030, ART_GNRL 1040 and ART_DRAW 1050

ART_GNRL 3001: Topics in Art
Special studies in studio art; covers subjects not included in regularly offered courses. Topics courses are repeatable for up to 6 credits per individual topic. Enrollment limited to students with junior standing.
Credit Hour: 1-3
Prerequisites: instructor's consent

ART_GNRL 3001H: Topics in Art - Honors
Special studies in studio art; covers subjects not included in regularly offered courses. Topics courses are repeatable for up to 6 credits per individual topic. Enrollment limited to students with Honors Eligibility.
Credit Hour: 1-3
Prerequisites: instructor's consent

ART_GNRL 3005: Topics in Art - Humanities
Special studies in studio art; covers subjects not included in regularly offered courses. Topics courses are repeatable for up to six credits per individual topic.
Credit Hour: 1-3
Prerequisites: Instructor's consent

ART_GNRL 3005H: Topics in Art - Humanities Honors
Special studies in studio art; covers subjects not included in regularly offered courses. Topics courses are repeatable for up to six credits per individual topic. Enrollment limited to students with Honors Eligibility.
Credit Hour: 1-3
Prerequisites: instructor's consent

ART_GNRL 4001: Topics in Art
Special studies in studio art; covers subjects not included in regularly offered courses. Topics courses are repeatable for up to 6 credits per individual topic.
Credit Hour: 1-3
Prerequisites: instructor's consent

ART_GNRL 4001H: Topics in Art - Honors
Special studies in studio art; covers subjects not included in regularly offered courses. Topics courses are repeatable for up to 6 credits per individual topic. Enrollment limited to students with Honors Eligibility.
Credit Hour: 1-3
Prerequisites: instructor's consent

ART_GNRL 4005: Topics in Art - Humanities
Special studies in studio art; covers subjects not included in regularly offered courses. Topics courses are repeatable for up to six credits per individual topic.
Credit Hour: 1-3
Prerequisites: Instructor's consent

ART_GNRL 4005H: Topics in Art - Humanities Honors
Special studies in studio art; covers subjects not included in regularly offered courses. Topics courses are repeatable for up to six credits per individual topic. Enrollment limited to students with Honors Eligibility.
Credit Hour: 1-3
Prerequisites: instructor's consent

ART_GNRL 4030: Video Art and the Moving Image
(same as FILM_S 4030; cross-leveled with ART_GNRL 7030). Video as a fine art form intersection sculpture, performing arts, doc filmmaking, pop culture and the Internet. Theoretical and historical knowledge is
integrated with studio practice. Students create video works in Final Cut Pro demonstrating technical ability and aesthetic vision. May be repeated for credit.

Credit Hours: 3

ART_GNRL 4040: 2-D Portfolio Development
This course will provide an intensive experience in the development of a portfolio of personal work outside the traditional media boundaries. Students will explore media relevant to their particular needs and begin to explore the connections between their work and contemporary art and culture through readings, discussions and critiques. Expendable Materials Fee Required. May be repeated t 6 credits. Enrollment limited to students with Junior Standing. Recommended: 3000-level or above course in one of the following media areas: Drawing, Painting or Printmaking.

Credit Hours: 3
Prerequisites: instructor's consent required

ART_GNRL 4050: Performance Art
(cross-leveled with ART_GNRL 7050). This studio art course will survey the practices in Performance Art and its intersections with visual and media-based art, experimental theater, music and dance. Modules will include performance and: the object, culture, the mediatized body and alternative spaces. Graded on A-F basis only. May be repeated up to 9 hours maximum.

Credit Hours: 3

ART_GNRL 4975: Senior Seminar in Art
A capstone course for the undergraduate art degree with emphasis on the production of a written statement relating to the students' visual research.

Credit Hours: 3
Prerequisites: senior standing and ENGLSH 1000

ART_GNRL 4975W: Senior Seminar in Art - Writing Intensive
A capstone course for the undergraduate art degree with emphasis on the production of a written statement relating to the students' visual research.

Credit Hours: 3
Prerequisites: senior standing and ENGLSH 1000

ART_GNRL 4976: Design - Senior Seminar
Capstone for undergraduate art students who are interested in graphic design. Emphasis placed on research and writing about the theory and practice of design. Students connect with Graphic Design Alumni who are working in the field of design. All students will participate in a final, formal portfolio review.

Credit Hours: 3
Prerequisites: senior standing and ENGLSH 1000

ART_GNRL 4976W: Design - Senior Seminar - Writing Intensive
Capstone for undergraduate art students who are interested in graphic design. Emphasis placed on research and writing about the theory and practice of design. Students connect with Graphic Design Alumni who are working in the field of design. All students will participate in a final, formal portfolio review.

Credit Hours: 3

ART_GNRL 7000: Graduate Art - Studio Practice and Critique
Art studio practice emphasis on individual creative expression. Course may be repeated for up to 15 credit hours. Expendable materials fee required. Graded on A-F basis only. Prerequisites: Graduate Art Major

Credit Hours: 3

ART_GNRL 7001: Topics in Art
Special studies in studio art at the graduate level; covers subjects not included in regularly offered courses. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: instructor's consent

ART_GNRL 7005: Topics in Art - Humanities
Special studies in graduate level studio art; covers subjects not included in regularly offered courses. Topics courses are repeatable for up to 6 credits per individual topics.

Credit Hour: 1-3
Prerequisites: instructor's consent

ART_GNRL 7020: International Summer Study Abroad
A four-week study abroad in studio art with required participation in scheduled excursions to art-related sites. Students create original art for review at scheduled critiques in 1) Florence, Italy and surrounding cities, or 2) The Netherlands and Belgium. May be repeated for credit.

Credit Hours: 4

ART_GNRL 7030: Video Art and the Moving Image
(cross-leveled with ART_GNRL 4030). Video as a fine art form intersecting sculpture, performing arts, doc filmmaking, pop culture and the Internet. Theoretical and historical knowledge is integrated with studio practice. Students create video works in final Cut Pro demonstrating technical ability and aesthetic vision. May be repeated for credit.

Credit Hours: 3

ART_GNRL 7050: Performance Art
(cross-leveled with ART_GNRL 4050) This studio art course will survey the practices in Performance Art and its intersections with visual and media-based art, experimental theater, music and dance. Modules will include performance and: the object, culture, the mediatized body body, culture and alternative spaces. Graded on A-F basis only.

Credit Hours: 3

ART_GNRL 7070: Problems in Art
Individual study in a subject area to be proposed by the student and approved by the instructor. The student will meet periodically on a regular basis with the instructor to review progress on the work assigned. May be repeated for credit. Graded on A-F basis only.

Credit Hour: 1-3
Prerequisites: for students with strong preparation in Art; departmental consent
ART_GNRL 8000: Graduate Art - Advanced Studio Practice and Critique
Continuation of ART_GNRL 7000. Art studio practice with emphasis on individual creative expression. Course may be repeated for up to 15 credit hours. Expendable materials fee required. Graded on A-F basis only. Prerequisites: Graduate Art Major
Credit Hours: 3

ART_GNRL 8001: Topics in Art
Special studies in graduate level studio art; covers subjects not included in regularly offered courses. Topics courses are repeatable for up to 6 credits per individual topic.
Credit Hour: 1-3
Prerequisites: instructor's consent

ART_GNRL 8005: Topics in Art - Humanities
Special studies in graduate level studio art; covers subjects not included in regularly offered courses. Topics courses are repeatable for up to 6 credits per individual topic.
Credit Hour: 1-3
Prerequisites: instructor's consent

ART_GNRL 8020: International Summer Study Abroad
A four week study abroad in studio art with required participation in scheduled excursion to art-related sites. Students create original art for review at schedule critiques in 1) Florence, Italy and surrounding cities, or 2) The Netherlands and Belgium. May be repeated once for credit. Graded on A-F basis only.
Credit Hours: 4

ART_GNRL 8070: Graduate Art - Theory and Context
Contextualizing artwork in culture, history, and theory. May be repeated up to 18 hours for credit. Graded on A-F basis only
Credit Hours: 3
Prerequisites: Graduate Art standing

ART_GNRL 8090: MFA Thesis Exhibition Documentation
Preparation of materials deemed necessary to document in a permanent form the thesis exhibition. Credit will be granted upon the satisfactory completion of the document, which will be retained by the Department of Art. Required of all MFA candidates. Graded on S/U basis only.
Credit Hour: 1

ART_GNRL 9010: Graduate Studio Seminar
Practical and philosophical concerns of the visual artist. Mandated for all MFA candidates.
Credit Hour: 1-2

Art-Graphic Design Courses
ART_GRDN 1400: Beginning Digital Imaging
Class will cover the basic tools used in digital imaging software. A variety of different software may be offered. Course may be repeated for up to 3 hours with the consent of instructor. Graded on S/U basis only.
Credit Hour: 1

ART_GRDN 2400: Advanced Digital Imaging
Class will cover the basic tools used in digital imaging software. A variety of different software may be offered. Course may be repeated for up to 3 hours with the consent of instructor. Graded on S/U basis only.
Credit Hour: 1
Prerequisites: ART_GRDN 1400

ART_GRDN 2410: Graphic Design I
Emphasis on developing a design language and vocabulary. Projects explore visual images in two-dimensional space, each one focusing on a specific set of relationships. Introduction to methodological and research practices for designers. Course concludes with portfolio review for admission to ART_GRDN 2420 and further Graphic Design Courses. Payment of expendable materials fee is required.
Credit Hours: 3
Prerequisites: ART_GNRL 1030, ART_DRAW 1050; restricted to BA/BFA art majors
Recommended: ART_GNRL 1040

ART_GRDN 2420: Graphic Design II
Introduction to the discipline, function and tradition of typography. Topics include communication, text intensive documents, legibility/readability, movement, language sequence and information hierarchy. Payment of expendable materials fee is required. Enrollment is limited to students who have completed ART_GRDN 2410 and successful completion of the graphic design portfolio review.
Credit Hours: 3
Prerequisites: consent of instructor

ART_GRDN 2430: Calligraphy and Hand Lettering
Technical and historical instruction on several calligraphic alphabets. Application of hand lettering to both two and three-dimensional design projects. Emphasis placed on both technical mastery of letters, development of personal style and creative expression in projects.
Credit Hours: 3
Prerequisites: ART_GNRL 1030, ART_DRAW 1050 or instructor's consent

ART_GRDN 3410: Graphic Design III
Digital media and motion graphics are explored through the development of interactive presentations and web site design. Students experiment with the computer as a medium for delivery of communication. New, practical and conceptual skills will be discussed in order to develop meaningful, interactive user experiences. Payment of expendable materials fees is required.
Credit Hours: 3
Prerequisites: ART_GRDN 2420

ART_GRDN 3420: Graphic Design IV
Goal directed graphic design problem solving stressing the integration of theory and practical applications while sharpening conceptual, computer, and research skills. Topics include current design theory, advanced typographic study, production methods and design/client interaction. Payment of expendable materials fee is required.
ART_GRDN 3430: Advanced Calligraphy and Hand Lettering  
Continuation of ART_GRDN 2430. Students will expand their skills including study of more complex alphabets and further their personal style. Emphasis placed on both mastery of letters and creative exploration in projects. Repeatable to 6 credits.

Credit Hours: 3  
Prerequisites: ART_GRDN 2430

ART_GRDN 3440: Packaging Design  
This course will look at the discipline of packaging design from a three-dimensional perspective. By gaining an understanding of the materials and processes that relate to packaging, students will develop a selection of packaging solutions for a variety of different clients. Payment of expendable material fee is required. Repeatable to 6 credits.

Credit Hours: 3  
Prerequisites: ART_GRDN 3410

ART_GRDN 3441: The History of Graphic Design  
Broad overview of the history of graphic design. Topics will range from the history of printing, the beginnings of the profession, major movements and developments to the practice of design. Also looks at how the history of design and printing apply to today's visual communication.

Credit Hours: 3  
Prerequisites: Instructor's consent

ART_GRDN 3442: Design for Corporate Identity and Branding  
Planning, strategy, and design of the visual components necessary to create a corporate identity. Course will focus on how cohesive design programs function across various mediums and engage specific audiences. Payment of expendable materials fees is required. Repeatable to 6 credits.

Credit Hours: 3  
Prerequisites: ART_GRDN 3410

ART_GRDN 3443: Letterpress  
This course is about creating conceptual design solutions using the letterpress printing process. Projects are very broad, conceptual and highly individual with the opportunity to explore letterpress printing processes using several different presses and printing techniques. Each project will require a limited edition print run. Repeatable to 9 hours.

Credit Hours: 3  
Prerequisites: Instructor's consent

ART_GRDN 4485: Problems in Graphic Design  
Problems in Graphic Design.

Credit Hour: 1-3  
Prerequisites: departmental consent

ART_GRDN 4996: Imprint - Design Practicum  
Class operates as professional design studio doing work for university, local and regional clients. Focus on client/designer relationships, contracts and teamwork. Students passing with grade in A range will graduate with departmental honors. May be repeated for credit. Admission based on GPA (3.3 in art courses) and portfolio review. Enrollment limited to students with junior standing or higher.

Credit Hours: 3  
Prerequisites: Instructor's consent required

ART_GRDN 7400: Graduate Graphic Design  
Graduate level work in graphic design. Emphasis on research, study and critical analysis in graphic design. Emphasis placed on research, writing, problem solving, aesthetic perception, conceptual thinking skills and technical proficiency. Students will focus on portfolio preparation and are advised to take the course a minimum of two times. May be repeated to 15 hours maximum. Payment of expendable materials fee is required.

Credit Hours: 3  
Prerequisites: ART_GRDN 4440 or equivalent

ART_GRDN 7485: Problems in Graphic Design  
Graduate level work in graphic design.

Credit Hour: 1-3  
Prerequisites: ART_GRDN 4410 and departmental consent

ART_PNT 2500: Beginning Painting  
Introduces primary techniques of painting. Emphasis on conceptualization of visual perception (understanding how we see) and the creative processes (understanding how we create). Sections either in oil or acrylic; contact instructor. Expendable material fee required.

Credit Hours: 3

ART_PNT 2510: Beginning Watercolor Painting  
Theory, practice of painting in water color from still life, landscape, figure. Expendable materials fee required.

Credit Hours: 3

ART_PNT 3500: Intermediate Painting  
Continuation of ART_PNT 2500 with the addition of portrait painting. Expendable materials fee required.

Credit Hours: 3  
Prerequisites: ART_PNT 2500
ART_PNT 3510: Intermediate Watercolor Painting
Continuation of ART_PNT 2510. Theory and practice of painting in watercolor. Expendable materials fee required.
Credit Hours: 3
Prerequisites: ART_PNT 2510

ART_PNT 4500: Advanced Painting
Advanced problems in oil and acrylic painting. May be repeated to 15 hours maximum. Expendable materials fee required.
Credit Hours: 3
Prerequisites: ART_PNT 3500

ART_PNT 4510: Advanced Watercolor Painting
(cross-leveled with ART_PNT 7510). Advanced problems in watercolor. May repeat to 15 hours maximum. Expendable materials fee required.
Credit Hours: 3
Prerequisites: ART_PNT 3510

ART_PNT 4585: Problems in Painting
Problems in Painting. Enrollment limited to students who have taken ART_PNT 4500.
Credit Hour: 1-3
Prerequisites: departmental consent

ART_PNT 7500: Graduate Painting: Studio Practice and Critique
Advanced study. Emphasis on individual creative expression. May repeat to 15 hours maximum. Expendable materials fee required.
Credit Hours: 3
Prerequisites: graduate Art major

ART_PNT 7510: Graduate Watercolor Painting
Credit Hours: 3
Prerequisites: ART_PNT 4510

ART_PNT 7585: Problems in Painting
Credit Hour: 1-3
Prerequisites: ART_PNT 7500 and departmental consent

ART_PNT 8500: Graduate Painting: Advanced Studio Practice and Critique
Continuation of ART_PNT 7500. Repeatable to 15 hours.
Credit Hours: 3
Prerequisites: ART_PNT 7500 or equivalent

ART_PNT 8510: Graduate Watercolor Painting
Continuation of ART_PNT 7510. Repeatable to 15 hours.
Credit Hours: 3
Prerequisites: ART_PNT 7510 or equivalent

ART_PNT 8570: Graduate Painting - Theory and Context
Contextualizing artwork in culture, history, and theory. Repeatable to 18 hours for credit. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: Graduate Art standing

ART_PNT 8585: Problems in Painting II
Advanced independent studio practice including critical evaluation of student's creative work. Individual study in painting is to be proposed by the student and approved by the instructor. The student will meet on a regular basis with the instructor to review student progress. May be repeated for credit. Graded on A-F basis only.
Credit Hour: 1-3
Prerequisites: For students with strong preparation in Art; departmental consent; ART_PNT 7585

Art-Photography Courses

ART_PHOT 2600: Beginning Photography
Introduction to photography within an art context; digital workflow including use of camera, software, and digital output methods; and a survey of both contemporary and historical topics related to visual and conceptual concerns. Digital camera with RAW capability and manual aperture + shutter controls required. DSLR recommended. Payment of expendable materials fee required.
Credit Hours: 3
Prerequisites: BA/BFA art majors only through early registration
Recommended: ART_GNRL 1030, ART_GNRL 1040, ART_DRAW 1050

ART_PHOT 3600: Intermediate Photography
Continuation of ART_PHOT 2600 with emphasis utilizing acquired technical process to facilitate use of the camera as a means of developing awareness of immediate environment and the capabilities of Photography as a communicative, documentary, and expressive medium. Payment of expendable materials fee is required.
Credit Hours: 3
Prerequisites: ART_PHOT 2600

ART_PHOT 4600: Advanced Photography
Exploration of aesthetic concepts, development of personal vision, and instruction in advanced technical process including fine B&W printing, negative and positive color, large format, zone system, and portfolios and book design to facilitate critical observation and personal expression through the medium of Photography. Payment of expendable materials fee is required. May repeat to 15 hours maximum.
Credit Hours: 3
Prerequisites: ART_PHOT 2600 and ART_PHOT 3600

ART_PHOT 4685: Problems in Photography
Supervised research in creative photography.
Credit Hour: 1-3
Prerequisites: departmental photography
ART_PHOT 7600: Graduate Photography
Advanced technical study with emphasis on development of the individual student's creative ideas. Payment of expendable materials expense is required. May repeat to 15 hours maximum.

Credit Hours: 3
Prerequisites: ART_PHOT 3600 and consent required

ART_PHOT 7685: Problems in Photography
Supervised research in creative photography.

Credit Hour: 1-3
Prerequisites: ART_PHOT 4410

ART_PHOT 8600: Graduate Photography II
Continuation of ART_PHOT 7600. Repeatable to 15 hours.

Credit Hours: 3
Prerequisites: ART_PHOT 7600 or equivalent

Art-Printmaking Courses
ART_PRNT 2700: Beginning Printmaking
Introductory Relief, Intaglio and Lithography techniques in color and black and white including woodcut, linocut reduction, etching; aquatint, dry point, photo mechanics and pronto plate lithography. May be repeated to six hours maximum. Expendable materials fee required.

Credit Hours: 3
Prerequisites: ART_GNRL 1030
Recommended: one semester of Drawing

ART_PRNT 2730: Serigraphy
Introduces methods, materials, and techniques of printmaking with the silk screen. Payment of expendable materials expense is required. May repeat to 6 hours maximum.

Credit Hours: 3
Prerequisites: ART_PRNT 2700

ART_PRNT 3700: Intermediate Printmaking
Continuing work in litho, intaglio, relief or serigraphy. Expendable materials fee required.

Credit Hours: 3
Prerequisites: ART_PRNT 2700

ART_PRNT 4700: Advanced Printmaking
Advanced study in relief, intaglio, lithographic and/or serigraphy printmaking with emphasis on individual creative expression. May be repeatable to 15 hours. Expendable materials fee required.

Credit Hours: 3
Prerequisites: BA/BFA Art majors only through early registration

ART_PRNT 4785: Problems in Printmaking
Problems in Printmaking.

Credit Hour: 1-3
Prerequisites: departmental consent

ART_PRNT 7700: Graduate Printmaking
Graduate level study in relief, intaglio or lithographic printmaking with emphasis on individual creative expression. May repeat to 15 hours maximum. Expendable materials fee required.

Credit Hours: 3
Prerequisites: ART_PRNT 4700

ART_PRNT 7785: Problems in Printmaking

Credit Hour: 1-3
Prerequisites: ART_PRNT 7700 and departmental consent

ART_PRNT 8700: Graduate Printmaking II
Continuation of ART_PRNT 7700. Repeatable to 15 hours.

Credit Hours: 3
Prerequisites: ART_PRNT 7700 or equivalent

Art-Sculpture Courses
ART_SCUL 2800: Beginning Sculpture
Principles of sculptural organization, figure studies, modeling techniques, simple plaster casting. Payment of expendable materials expense is required.

Credit Hours: 3
Prerequisites: BA/BFA Art majors only through early registration

ART_SCUL 2810: Experimental Media I
Ordering and structuring materials into compositional forms, using various media, traditional as well as new. Subject matter will vary each semester.

Credit Hours: 3
Prerequisites: permission of instructor

ART_SCUL 2820: Beginning Welding And Casting
This course is intended to foster critical thinking, creative problem solving, and cultural/visual literacy through the introduction of sculptural welding and metal casting techniques. Projects will address the sculptural methods of manipulation, addition, and substitution as well as the principles of three-dimensional design. Students will become conversant with MIG and gas welding as well as centrifugal and ceramic shell casting. The relationship of form and content will be discussed during class critiques. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: ART_SCUL 2800 or ART_SCUL 2820

ART_SCUL 3800: Intermediate Sculpture
Continuation of ART_SCUL 2800. This course is designed to allow the student to pursue self-initiated imagery and ideas through the manipulation of mass and volume in time/space. A wide range of materials and techniques are available including the following: substitution casting (resin or bronze), subtraction (stone or wood), manipulation (terra-cotta or plaster), addition (welding, mixed media or assemblage) and/or time (video or performance). The relationship of form and content will be discussed during class critiques.

Credit Hours: 3
Prerequisites: ART_SCUL 2800 or ART_SCUL 2820
ART_SCUL 3810: Experimental Media II  
Continuation of ART_SCUL 2810.  
Credit Hours: 3  
Prerequisites: ART_SCUL 2810

ART_SCUL 4800: Advanced Sculpture  
This course will build skills acquired in ART_SCUL 3800. Includes welding, casting, carving and assemblage with emphasis on the development of a personal visual language. May repeat to 15 hours maximum.  
Credit Hours: 3  
Prerequisites: ART_SCUL 3800

ART_SCUL 4810: Experimental Media III  
Continuation of ART_SCUL 3810. May repeat to 15 hours maximum.  
Credit Hours: 3  
Prerequisites: ART_SCUL 3810

ART_SCUL 4885: Problems in Sculpture  
Problems in Sculpture.  
Credit Hour: 1-3  
Prerequisites: departmental consent

ART_SCUL 7800: Graduate Sculpture  
Payment of expendable materials expense is required. May repeat to 15 hours maximum.  
Credit Hours: 3  
Prerequisites: ART_SCUL 7800 or equivalent

ART_SCUL 7810: Experimental Media IV  
Advanced study of compositional organization at the graduate level. May repeat to 9 hours maximum.  
Credit Hours: 3  
Prerequisites: ART_SCUL 4810

ART_SCUL 7885: Problems in Sculpture  
Credit Hour: 1-3  
Prerequisites: ART_SCUL 7800 and departmental consent

ASTRON 1020: Introduction to Laboratory Astronomy  
Laboratory supplement to Astronomy 1010. Satisfies physical science laboratory requirement. Survey of astronomical methods, instruments, observations and measurement techniques.  
Credit Hours: 2  
Recommended: MATH 1100 or MATH 1120

ASTRON 3010: Introduction to Modern Astrophysics  
(same as PHYSCS 3010). Elements of stellar, and galactic astrophysics. Interpretation of observations and physical conditions of various astronomical objects including stars, gaseous nebulae and, galaxies.  
Credit Hours: 3  
Prerequisites: PHYSCS 2760

ASTRON 4020: Astrophysical Techniques  
(same as PHYSCS 4020; cross-leveled with ASTRON 7020, PHYSCS 7020). Elements of modern astronomical instruments, observations and analysis, with the emphasis in the optical regime. Graded on A-F basis only.  
Credit Hours: 3  
Prerequisites: PHYSCS 2760

ASTRON 4180: Solar System Science  
(same as PHYSCS 4180, GEOL 4180; cross-leveled with ASTRON 7180, PHYSCS 7180, GEOL 7180). Investigates physical states, interior structures and comparative geology of solar systems bodies: planets, moons, asteroids, comets, sun. Solar system formation and evolution.  
Credit Hours: 3  
Prerequisites: PHYSCS 2760 or PHYSCS 1220 or instructor's consent  
Recommended: MATH 1700

ASTRON 4250: Stellar Astrophysics  
(same as PHYSCS 4250). Basic astrophysics of stable and unusual stars, stellar systems. Investigates stellar dimensions, radiation, spectra, energy, evolution, populations; interstellar medium, stellar motions and aggregation.  
Credit Hours: 3  
Prerequisites: PHYSCS 3150 or instructor's consent

ASTRON 4350: Galactic Astronomy  
(same as PHYSCS 4350). Observational properties of normal galaxies and clusters of galaxies, Seyfert and emission-line structure and dynamics of galaxies; interacting galaxies, quasi-stellar objects. Introduction to cosmology.  
Credit Hours: 3  
Prerequisites: PHYSCS 3150 or instructor's consent

ASTRON 4360: Extragalactic Astronomy  
(same as PHYSCS 4360; cross-leveled with ASTRON 7360). This course introduces students to the most basic knowledge of extragalactic astronomy, starting from Milky Way and extending to the most distant universe. Topics covered will include galaxy morphology and
ASTRON 460: Interstellar Medium
(same as PHYSCS 4660). The course discusses observational properties and physical and chemical processes occurring in the interstellar medium. Topics include interstellar diffuse and molecular clouds, HII regions, dust grains, interstellar chemistry, star formation, supernova remnants, and interstellar shock waves.
Credit Hours: 3
Prerequisites: PHYSCS 2760

ASTRON 4550: Cosmochemistry
(same as PHYSCS 4550; cross-leveled with ASTRON 7550, PHYSICS 4550). Chemistry of cosmic dust and molecules.
Credit Hours: 3
Prerequisites: PHYSCS 2760 or PHYSCS 1220; instructor's consent

ASTRON 4950: Undergraduate Research in Astronomy
Special studies in astronomy; covers subjects not included in courses regularly offered.
Credit Hour: 1-99
Prerequisites: instructor's consent

ASTRON 4960: Senior Thesis in Astronomy
Special studies for senior undergraduate students in astronomy. The course requires an oral or poster presentations, or faculty-guided writing of a senior thesis involving independent research. Departmental consent required for repetition. Enrollment limited to students who have completed 3 credit hours of ASTRON 4950 or PHYSCS 4950.
Credit Hours: 3
Prerequisites: instructor's consent

ASTRON 7020: Astrophysical Techniques
(same as PHYSCS 7020; cross-leveled with ASTRON 4020, PHYSCS 4020). Elements of modern astronomical instruments, observations and analysis, with the emphasis in the optical regime. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: PHYSCS 2760

ASTRON 7180: Solar System Science
(same as PHYSCS 7180, GEOL 7180; cross-leveled with ASTRON 4180, PHYSCS 4180, GEOL 4180). Investigates physical states, interior structures and comparative geology of solar systems bodies: planets, moons, asteroids, comets, sun. Solar system formation and evolution.
Credit Hours: 3
Prerequisites: PHYSCS 1220 or PHYSCS 2760 or instructor's consent

ASTRON 7360: Extragalactic Astronomy
(same as PHYCS 7360; cross-leveled with ASTRON 4360, PHYSICS 4360). This course introduces students to the most basic knowledge of extragalactic astronomy, starting from Milky Way and extending to the most distant universe. Topics covered will include galaxy morphology and classification, groups and clusters of galaxies, active galactic nuclei, and galaxy formation and evolution.
Credit Hours: 3
Prerequisites: PHYSCS 2760

ASTRON 7550: Cosmochemistry
(same as PHYSCS 7550; cross-leveled with ASTRON 4550, PHYSICS 4550). Chemistry of cosmic dust and molecules.
Credit Hours: 3
Prerequisites: PHYSCS 2760 or PHYSCS 1220; instructor's consent

ASTRON 7750: Interstellar Medium
(same as PHYSCS 7750; cross-leveled with ASTRON 4750, PHYSICS 4750). The course discusses observational properties and physical and chemical processes occurring in the interstellar medium. Topics include interstellar diffuse and molecular clouds, HII regions, dust grains, interstellar chemistry, star formation, supernova remnants, and interstellar shock waves.
Credit Hours: 3
Prerequisites: PHYSCS 1220 or PHYSCS 2760

ASTRON 8301: Topics in Astronomy and Astrophysics
(same as PHYSCS 8301). Selected topics from solar system, stellar galactic and extragalactic astronomy and astrophysics. May be repeated to a maximum of 6 hours.
Credit Hours: 3
Prerequisites: instructor's consent

ASTRON 8310: College Science Teaching
(same as PHYSCS 8310, BIO_SC 8724 and LTC 8724). Study of learner characteristics, teaching strategies, and research findings related to teaching science at the post-secondary level.
Credit Hours: 3

ASTRON 8550: Stellar Structure and Evolution
(same as PHYSCS 8550). Reviews of atomic and molecular spectra. Investigates quantum radiation law, emission and absorption processes, radiation transfer theory, continuous and discrete line spectra of stars, stellar composition.
Credit Hours: 3
Prerequisites: ASTRON 4250, PHYSCS 4800, or instructor's consent

Athletic Training Courses

ATHTRN 1100: Athletic Training Skills I
Introduction to athletic training skills. Clinical observation hours required. Graded on A-F basis only.
Credit Hours: 2
Prerequisites: Restricted to Pre-Athletic Training majors only
ATHTRN 1200: Athletic Training Skills II
Continuation of athletic training skills. Graded on A-F basis only.

Credit Hours: 2
Prerequisites: Pre-Athletic Training majors; Completion of ATHTRN 1100 with minimum grade of B-

ATHTRN 2001: Topics in Athletic Training
Organized study of selected topics in Athletic Training. Subjects and earnable credit may vary from semester to semester.

Credit Hour: 1-15
Prerequisites: Instructor's consent

ATHTRN 2100: Principles and Fundamentals of Athletic Training
Introduces students to the common principles and fundamentals associated with the profession of athletic training. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: Restricted to Pre-Athletic Training majors

ATHTRN 2150: Athletic Training Practicum I
The first in a sequence of practical/clinical experiences under the direct supervision of a Preceptor. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: Restricted to Athletic Training majors; ATHTRN 1100, ATHTRN 1200, and ATHTRN 2100

ATHTRN 2250: Athletic Training Practicum II
The second in a sequence of practical/clinical experiences under the direct supervision of a Preceptor. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: Restricted to Athletic Training majors; Completion of ATHTRN 2150 with minimum grade of B-

ATHTRN 2500: Elementary Human Anatomy
Analysis of the structure and function of cells, tissue, and organ systems. Emphasis is placed on the muscular, skeletal, and nervous systems as they relate to human movement. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: Restricted to Pre-Athletic Training majors only

ATHTRN 2550: Examination of Cadaveric Human Anatomy
Study of the human body utilizing cadaver specimens. Special emphasis will be placed upon the skeletal, muscular and nervous systems. Graded on A-F basis only.

Credit Hours: 4
Prerequisites: Restricted to Athletic Training majors; Completion of ATHTRN 2100 with a minimum grade of B-

ATHTRN 2500 with a minimum grade of C

ATHTRN 2600: Human Physiology
Investigation into the structure, function, physiology, and biochemistry of the cardiovascular, lymphatic, respiratory, digestive, urinary, endocrine, and reproductive systems. Graded on A-F basis only.

Credit Hours: 3

Prerequisites: Restricted to Athletic Training majors only; Completion of ATHTRN 2500 with a minimum grade of C

ATHTRN 3100: Mental Health in Athletic Training
Study of psychosocial strategies, mental health referral policies and clinical application to athletic training. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: Restricted to Athletic Training majors; PSYCH 1000

ATHTRN 3150: Athletic Training Practicum III
The third in a sequence of practical/clinical experiences under the direct supervision of a Preceptor. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: Restricted to Athletic Training majors only; Completion of ATHTRN 2250 with a minimum grade of B-

ATHTRN 3200: Therapeutic Modalities
Study of therapeutic modalities utilized in the treatment and rehabilitation of athletic injuries. Graded on A-F basis only.

Credit Hours: 4
Prerequisites: Restricted to Athletic Training majors; Completion of ATHTRN 2250 with a minimum grade of B-

ATHTRN 3250: Athletic Training Practicum IV
The fourth in a sequence of practical/clinical experiences under the direct supervision of a Preceptor. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: Restricted to Athletic Training majors; Completion of ATHTRN 3150 with a minimum grade of B-

ATHTRN 3300: Injury Assessment I
A systematic approach to injury evaluation of the lower extremity and spine. Graded on A-F basis only.

Credit Hours: 4
Prerequisites: Restricted to Athletic Training majors; Completion of ATHTRN 2100 with a minimum grade of B- and ATHTRN 2500 and ATHTRN 2550 with a minimum grade of C

ATHTRN 3400: Injury Assessment II
A systematic approach to injury evaluation of the upper extremity, spine and head. Graded on A-F basis only.

Credit Hours: 4
Prerequisites: Restricted to Athletic Training majors; Completion of ATHTRN 3300 with a minimum grade of B-

ATHTRN 3500: Rehabilitation of Athletic Injuries
Study of rehabilitation principles and techniques used to return active individuals to their sport/activity. Graded on A-F basis only.

Credit Hours: 4
Prerequisites: Restricted to Athletic Training majors; Completion of ATHTRN 3200 with a minimum grade of B-
ATHTRN 3600: Administration of Athletic Training
Examines the organizational and administrative aspects of Athletic Training. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: Restricted to Athletic Training majors

ATHTRN 3800: General Medical Conditions
Examination of illness and disease found within the athletic population. Course graded on A-F basis only.
Credit Hours: 3
Prerequisites: Restricted to Athletic Training majors only, Completion of ATHTRN 3150 with a minimum grade of B-

ATHTRN 4150: Athletic Training Practicum V
The fifth in a sequence of practical/clinical experiences under the direct supervision of a Preceptor. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: Restricted to Athletic Training majors only, Completion of ATHTRN 3150 with a minimum grade of B-

ATHTRN 4250: Athletic Training Practicum VI
The sixth in a sequence of practical/clinical experiences under the direct supervision of a Preceptor. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: Restricted to Athletic Training majors; Completion of ATHTRN 3250 with a minimum grade of B-

ATHTRN 4500: Nutrition for Athletic Performance and Rehabilitation
Nutritional study examining how nutrition impacts sports performance. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: Restricted to Athletic Training majors; PH_THR 4420

ATHTRN 4970: Seminar in Athletic Training
Capstone senior athletic training course. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: Restricted to Athletic Training majors; Completion of ATHTRN 3250 with a minimum grade of B-

ATHTRN 4970W: Seminar in Athletic Training - Writing Intensive
Capstone senior athletic training course. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: Restricted to Athletic Training majors; Completion of ATHTRN 3250 with a minimum grade of B-

Atmospheric Science Courses

ATM_SC 2100: Introduction to Atmospheric Science
Physical process of the atmospheric and climate system will be related to day-to-day weather changes. Students will be introduced to the laws of motion and thermodynamics that govern motions in geophysical fluid. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: MATH 1160 or concurrent enrollment in MATH 1500

ATM_SC 2150: Natural Hazards
A survey of natural hazards, including severe thunderstorms, tornadoes, flooding, tropical storms, ocean movements, earthquakes, tsunamis, volcanoes, asteroids, solar weather, managing risk and human impacts. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: ATM_SC 1050 or equivalent

ATM_SC 2720: Weather Briefing
Student participation in daily discussions of current weather patterns and forecasts and their applications to weather sensitive activities including aviation, agriculture and industry.
Credit Hour: 1
Prerequisites: ATM_SC 1050

ATM_SC 2792: Weather Communication
Methods of surface and upper air weather observation. How such data are distributed to users in the meteorological community is also addressed.
Credit Hour: 1
Prerequisites: ATM_SC 1050; sophomore standing

ATM_SC 3000: Independent Study in Atmospheric Science
Independent study of a topic dealing with meteorological theory or application of meteorological science to the solution of relevant problem.
Credit Hour: 1-3
Prerequisites: ATM_SC 1050; sophomore standing

ATM_SC 3600: Climates of the World
(same as GEOG 3600). A study of the world distribution of climates based on "cause and effect" relationships. Special attention is given to the impacts of climate on humanity.
Credit Hours: 3
Prerequisites: ATM_SC 1050 or graduate standing

ATM_SC 4001: Topics in Atmospheric Science
Development of theory and applications for selected topics in atmospheric science.
Credit Hour: 1-99
Prerequisites: junior standing and instructor's consent

ATM_SC 4110: Broadcast Meteorology I
An introduction to broadcast meteorology including the business of media, use of meteorological data to produce a forecast, and television and radio presentation skills. Graded on A-F basis only.
Credit Hours: 2
Prerequisites: ATM_SC 1110, ATM_SC 2720, or equivalents
Corequisites: ATM_SC 4710. Restricted to Atmospheric Science majors or instructor's consent

ATM_SC 4310: Atmospheric Thermodynamics
(cross-leveled with ATM_SC 7310). Thermodynamics of dry and moist air, atmospheric hydrostatics, convection, and development of the fundamental equations of geophysical fluid dynamics.
Credit Hours: 4
Prerequisites: ATM_SC 1050, MATH 1700 (C or better), and one physics course

ATM_SC 4320: Atmospheric Dynamics
Credit Hours: 4
Prerequisites: ATM_SC 4310 or ATM_SC 7310

ATM_SC 4350: Mesoscale Meteorology and Dynamics
(cross-leveled with ATM_SC 7350). Survey of mesoscale phenomena, observing systems, analysis techniques, and modeling. Topics include fronts, jet streaks, gravity waves, organized convection, tornadoes, and severe local storm forecasting and structure.
Credit Hours: 3
Prerequisites: ATM_SC 4720 or ATM_SC 7720 and MATH 2300

ATM_SC 4400: Micrometeorology
(cross-leveled with ATM_SC 7400). Study of transport processes in the surface boundary layer. Important applications in pollution will be discussed.
Credit Hours: 3
Prerequisites: ATM_SC 4310 or PHYSCS 2760, MATH 2300

ATM_SC 4500: Advanced Meteorological Observation and Instrumentation
Automated weather observation and instrumentation used in networks of remote automated weather stations. Emphasis on electronic instrumentation, datalogger programming, data collection and data management, generating dynamic reports on the World Wide Web. May be repeated for credit.
Credit Hours: 3
Prerequisites: ATM_SC 1050, MATH 1700 (C or better)

ATM_SC 4710: Synoptic Meteorology I
(cross-leveled with ATM_SC 7710). Meteorological Data. Basic techniques for surface and upper air analysis, using selected examples of weather patterns.
Credit Hours: 4
Prerequisites: ATM_SC 1110, MATH 1700, PHYSCS 2750

ATM_SC 4720: Synoptic Meteorology II
(cross-leveled with ATM_SC 7720). Graphical analysis and interpretation of physical, kinematical and dynamical properties of the atmosphere. Analysis techniques applicable to atmospheric research.
Credit Hours: 4
Prerequisites: ATM_SC 4710 or ATM_SC 7710

ATM_SC 4520: Environmental Biophysics
(same as GEOG 4520; cross-leveled with ATM_SC 7520, GEOG 7520). Students will learn techniques and principles used to describe the microenvironment of living organisms and use quantitative expressions to estimate missing values, and mass transfer laws to estimate flux of energy, water and gas.
Credit Hours: 3
Prerequisites: College Physics and Calculus I

ATM_SC 4550: Atmospheric Physics
(cross-leveled with ATM_SC 7550). Physics of atmospheric nucleation-condensation, cloud droplet and precipitation formation, associated electrical phenomena, radiation transfer and remote sensing. Recommended: 1 year of college Physics
Credit Hours: 3
Prerequisites: MATH 1700

ATM_SC 4590: Radar Meteorology
(cross-leveled with ATM_SC 7590). Course concerns the theory and application of radar in meteorology. May be repeated for credit.
Credit Hours: 3
Prerequisites: ATM_SC 1110, MATH 1700, PHYSCS 2750

ATM_SC 4650: Long-Range Forecasting
Credit Hours: 3
Prerequisites: ATM_SC 4050 or ATM_SC 7050 or ATM_SC 3600

ATM_SC 4710W: Synoptic Meteorology II - Writing Intensive
(cross-leveled with ATM_SC 7710). Graphical analysis and interpretation of physical, kinematical and dynamical properties of the atmosphere. Analysis techniques applicable to atmospheric research.
Credit Hours: 4
Prerequisites: ATM_SC 4710 or ATM_SC 7710

ATM_SC 4720W: Synoptic Meteorology II - Writing Intensive
(cross-leveled with ATM_SC 7720). Graphical analysis and interpretation of physical, kinematical and dynamical properties of the atmosphere. Analysis techniques applicable to atmospheric research.
Credit Hours: 4
Prerequisites: ATM_SC 4710 or ATM_SC 7710

| ATM_SC 7650 | Long-Range Forecasting                          | 3            | Physical-dynamical principles of long-range forecasting from a month to a year. Empirical and numerical approaches in forecast practice.  
Prerequisites: ATM_SC 4050 or ATM_SC 7050 or ATM_SC 3600 |
| ATM_SC 7710 | Synoptic Meteorology I                           | 4            | Meteorological Data. Basic techniques for surface and upper air analysis, using selected examples of weather patterns.  
Prerequisites or Corequisites: one physics course  
Prerequisites: ATM_SC 1050, MATH 1700 (C or better) |
| ATM_SC 7720 | Synoptic Meteorology II                          | 4            | Graphical analysis and interpretation of physical, kinematical and dynamical properties of the atmosphere. Analysis techniques applicable to atmospheric research.  
Prerequisites: ATM_SC 4710 or ATM_SC 7710 |
| ATM_SC 7800 | Numerical Methods in Atmospheric Science and     | 3            | Examines numerical methods used in solving differential equations, filtering data sets, and Fourier decomposition of discrete data sets.  
Prerequisites: Math through Calculus III |
| ATM_SC 8001 | Topics in Atmospheric Science                   | 3            | Development of the theory with its application for selected topics in atmospheric science.  
Credit Hours: 3 |
| ATM_SC 8085 | Problems in Atmospheric Science                  | 1-99         | Independent study by graduate students in atmospheric science.  
Credit Hour: 1-99 |
| ATM_SC 8090 | Masters Research in Atmospheric Science          | 1-99         | Original investigation in atmospheric science in support of a master's thesis. Graded on S/U basis only.  
Credit Hour: 1-99 |
| ATM_SC 8400 | Atmospheric General Circulation                  | 3            | Comprehensive review of dynamical theories of general circulation with intensive discussion of current problems.  
Credit Hours: 3  
Prerequisites: ATM_SC 4320 or ATM_SC 7320 |
| ATM_SC 8450 | Tropical Meteorology                            | 3            | Study of the synoptic and dynamic character of the atmosphere in the tropical regions, including an examination of the general circulation and tropical storms.  
Credit Hours: 3  
Prerequisites: ATM_SC 4710 or ATM_SC 7710, ATM_SC 4720 or ATM_SC 7720 and MATH 2300; instructor's consent. Graded on A-F basis only |
| ATM_SC 8500 | Radiation in the Atmosphere                     | 3            | Physics of solar and infrared radiative transfer in the atmosphere, including energy conversion effects, atmospheric optics, and photochemical processes.  
Credit Hours: 3  
Prerequisites: one year College Physics and MATH 1700 |
| ATM_SC 8550 | Nowcasting                                      | 3            | Students will learn the science of nowcasting through the study of the various methods used and apply their knowledge in the design of the elements of a nowcast system and practical nowcasting exercises.  
Credit Hours: 3  
Prerequisites: ATM_SC 8500, instructor's consent |
| ATM_SC 8600 | Advanced Climate Dynamics                       | 3            | Study of global climate; application of large scale atmospheric dynamics; conservation of various forms of energy, climatic evaluation, large scale climatic modification.  
Credit Hours: 3  
Prerequisites: ATM_SC 4320 or ATM_SC 7320 and ATM_SC 8400 or ATM_SC 3600 |
| ATM_SC 9001 | Topics in Atmospheric Science                   | 1-99         | Development of the theory with its application for selected topics in atmospheric science.  
Credit Hour: 1-99 |
| ATM_SC 9085 | Problems in Atmospheric Science                  | 1-99         | Independent study by graduate students in atmospheric science.  
Credit Hour: 1-99 |
| ATM_SC 9087 | Seminar in Atmospheric Science                  | 1-99         | Seminar in Atmospheric Science.  
Credit Hour: 1-99 |
| ATM_SC 9090 | Doctoral Research in Atmospheric Science         | 1-99         | Original investigation in atmospheric science in support of a doctoral dissertation. Graded on S/U basis only.  
Credit Hour: 1-99 |
| ATM_SC 9300 | Introduction to Chaos Theory                    | 3            | Atmospheric predictability and related topics are examined as they relate to governing equations of motion and their non-linear solutions.  
Credit Hours: 3 |
**Prerequisites:** ATM_SC 4320 or ATM_SC 7320, MATH 4100

**ATM_SC 9350: Advanced Dynamic Meteorology**  
Application of perturbation dynamics, advanced dynamics, and numerical methods to study of atmospheric circulations.  
**Credit Hours:** 3  
**Prerequisites:** ATM_SC 4320 or ATM_SC 7320

**ATM_SC 9590: Advanced Applications of Weather Radar**  
This course will investigate quantitative uses of weather radar data that go beyond standard reflectivity and velocity image interpretation, particularly those that use new techniques such as dual-polarization. Students will develop methods to analyze and display meteorological radar data. Graded on A-F basis only.  
**Credit Hours:** 3  
**Prerequisites:** Instructor's consent  
**Recommended:** MATH 1700, PHYSCS 2760, INFOTC 1040 or equivalent, ATM_SC 4590

**ATM_SC 9700: Advanced Synoptic Meteorology**  
Detailed examination of vertical motions, their forcing, and how each is diagnosed (quasigeostrophic theory, the Trenberth approximation, Q-vectors). Current issues in synoptic meteorology and operational forecasting are discussed.  
**Credit Hours:** 3  
**Prerequisites:** ATM_SC 4720 or ATM_SC 7720

**ATM_SC 9712: Convection and Lightning**  
Cumulus convection and cloud physics topics that will facilitate a deeper understanding of cloud electrification and lightning production are studied. Graded on A-F basis only.  
**Credit Hours:** 3  
**Prerequisites:** ATM_SC 4710 or ATM_SC 7710, ATM_SC 4720 or ATM_SC 7720, MATH 2300; instructor's consent

**ATM_SC 9800: Numerical Weather Prediction**  
Examination of finite difference and objective analysis techniques, basic physical concepts, and parameterization of physical processes. Experience with a range of models (1-D cloud to operational PE models) stressed.  
**Credit Hours:** 3  
**Prerequisites:** Instructor's consent

**Biochemistry Courses**

**BIOCHM 1094: Introductory Biochemistry Laboratory**  
Techniques course involving analytical experiments with carbohydrates, lipids, proteins, nucleic acids; use of instrumentation in biochemistry; purification and kinetics of enzymes, PCR and cloning. Graded on A-F basis only.  
**Credit Hours:** 2  
**Prerequisites:** BIOCHM 1090; Biochemistry majors only

**BIOCHM 2110: The Living World: Molecular Scale**  
Survey of modern biochemistry and biotechnology. Structure and function of DNA, proteins, lipids and carbohydrates. The role of biopolymers in life processes and everyday living is emphasized.  
**Credit Hours:** 3  
**Prerequisites:** for non-Biochemistry majors only

**BIOCHM 2112: Biotechnology in Society**  
Biotechnology in a social context covers three areas: introduction to terminology and concepts, specific biotechnological applications to modern problems, and ethical questions.  
**Credit Hours:** 3  
**Prerequisites:** for non-biochemistry majors only

**BIOCHM 2480: Introduction to Macromolecular Structure and Function**  
The function of biochemical macromolecules is directly related to their structure. The three-dimensional structures of proteins, nucleic acids, polysaccharides and membranes are each explored in the context of their functions and their microenvironments within living organisms. Graded on A-F basis only.  
**Credit Hours:** 2  
**Prerequisites:** C- or higher in BIOCHM 1090; CHEM 2100  
**Corequisites:** CHEM 2110

**BIOCHM 2484: Macromolecular Techniques Laboratory**  
The laboratory experiments include DNA isolation, DNA cloning, PCR, plasmid transformation, protein expression, affinity-tagged chromatography, SDS-polyacrylamide gel electrophoresis, enzyme isolation, enzyme assay, buffer preparation, and Michaelis-Menten kinetics. Graded on A-F basis only.  
**Credit Hours:** 2  
**Prerequisites:** sophomore standing; restricted to Biochemistry majors only

**BIOCHM 2484H: Macromolecular Techniques Laboratory - Honors**  
The laboratory experiments include DNA isolation, DNA cloning, PCR, plasmid transformation, protein expression, affinity-tagged chromatography, SDS-polyacrylamide gel electrophoresis, enzyme isolation, enzyme assay, buffer preparation, and Michaelis-Menten kinetics. Graded on A-F basis only.  
**Credit Hours:** 3  
**Prerequisites:** sophomore standing; Biochemistry majors only. Honors eligibility required
BIOCHM 2484HW: Macromolecular Techniques Laboratory - Honors/ Writing Intensive
The laboratory experiments include DNA isolation, DNA cloning, PCR, plasmid transformation, protein expression, affinity-tagged chromatography, SDS-polyacrylamide gel electrophoresis, enzyme isolation, enzyme assay, buffer preparation, and Michaelis-Menten kinetics. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: sophomore standing; Biochemistry majors only. Honors eligibility required

BIOCHM 2950: Undergraduate Research in Biochemistry
Research for students in which independent research is less than 50% of total. Graded on S/U basis only.
Credit Hour: 1-3
Prerequisites: departmental consent

BIOCHM 3630: General Biochemistry
Survey of biochemistry; static/dynamic aspects of carbohydrates, lipids, proteins, nucleic acid. Discussion of metabolic pathways, energy production, and metabolic regulatory mechanism.
Credit Hours: 3
Prerequisites: CHEM 2030 or CHEM 2100

BIOCHM 4001: Topics in Biochemistry
Experimental courses; highly specialized topics taught infrequently or courses taught by visiting professors.
Credit Hour: 1-99

BIOCHM 4120: Medicinal Plant Science
Presentation of core topics, including an overview of plant groups with medicinal properties, botanical nomenclature, important biochemical pathways, exposure to journals, texts, and online databases that facilitate evidence-based research involving medicinal plants. Content of worldwide application. Has an international flavor. The course facilitates students to be independent learners and critical thinkers in this important knowledge area (of value to diverse academic backgrounds). The important role of collaborative inter-disciplinary studies will also be emphasized. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: CHEM 1100 or CHEM 1320
Recommended: BIO_SC 1200 or BIO_SC 1500 or BIOCHM 1090

BIOCHM 4270: Biochemistry
(cross-leveled with BIOCHM 7270). First semester of comprehensive biochemistry course: metabolic pathways, amino acids/proteins, carbohydrates, lipids, nucleic acids, kinetics, energy requirements, metabolic regulation in living cells.
Credit Hours: 3
Prerequisites: CHEM 2110

BIOCHM 4272: Biochemistry
(cross-leveled with BIOCHM 7272). Second semester of a comprehensive biochemistry course, including metabolism of carbohydrates, fatty acids, steroids, amino acid synthesis and metabolism, molecular genetics, hormones, photosynthesis and integrated metabolism.
Credit Hours: 3
Prerequisites: C- or higher in BIOCHM 4270

BIOCHM 4300: Physical Chemistry of Biological Systems
To present fundamental principles of physical chemistry in the context of the structure and function of biological macromolecules. Graded on A-F basis only.
Credit Hours: 3
Prerequisites or Corequisites: BIOCHM 4270

BIOCHM 4376: Computer Assisted Sequence Analysis and Molecular Modeling
(cross-leveled with BIOCHM 7376). Employs the use of computer-based interactive molecular graphics and sequence analysis software to analyze the three dimensional structures of macromolecules.
Credit Hours: 3
Prerequisites: CHEM 2110

BIOCHM 4385: Problems in Biochemistry
Credit Hour: 1-3
Prerequisites: departmental consent

BIOCHM 4460: Cancer Biology
(same as BIO_SC 4460; cross-leveled with BIOCHM 7978, BIO_SC 7978). Cancer, cell biology, genetics, biochemistry.
Credit Hours: 3
Prerequisites: BIOCHM 4272, BIO_SC 2300 and BIO_SC 2200

BIOCHM 4510: Single Molecule Biophysics
(same as PHYSCS 4510; cross-leveled with BIOCHM 7510, PHYSCS 7510). The course provides an overview of the biophysics of enzymes, nucleic acids and the cytoskeleton. Topics covered will include diffusion, molecular motors, polymerization and the cytoskeleton and the polymer properties of nucleic acids and microtubules.
Credit Hours: 3
Prerequisites: PHYSCS 2760

BIOCHM 4940: Internship in Biochemistry
Field-based learning experience combining study, observation, and employment with a business, organization, or governmental agency. The internship provides opportunities to apply skills, concepts and theories about biochemistry in a practical context. The student intern, internship supervisor, and university coordinator will develop an individualized internship plan. Graded on S/U basis only.
Credit Hour: 1-6
Prerequisites: instructor’s consent
Recommended: junior standing

BIOCHM 4950: Advanced Undergraduate Research in Biochemistry
Research credit for students doing an independent research project under the guidance of a faculty member. Project must be arranged by student and faculty member prior to registration. Graded on A-F basis only.
BIOCHM 4904: Industrial Internship with ABC Laboratories
This 5-credit course is a school and field-based learning experience combining the study, observation, and employment with ABC Laboratories in Columbia, MO. The internship provides opportunities to apply skills, concepts and theories about biochemistry and analytical chemistry in a practical context. The purpose of the internship experience is to provide the intern with the opportunity to develop knowledge and skills deemed desirable for a career in the biotechnology industries. During the time indicated in this agreement for the internship experience, the intern is expected to become a productive employee of ABC Laboratories. This course will provide technical instruction on commonly used laboratory skills and instrumentation at the University of Missouri followed by technical instruction on software and instrumentation at ABC Laboratories. After the training period, the interns will have the opportunity to work at ABC Laboratories full time for the summer.

Credit Hours: 5
Prerequisites or Corequisites: BIOCHEM 4272, CHEM 3200
Prerequisites: BIOCHM 1090, BIOCHM 2484, BIOCHM 4270

BIOCHM 4970: Senior Capstone in Biochemistry
Problem-based course on fundamental concepts of biochemistry. Requires written and oral presentations. One of two capstone courses required for biochemistry majors. Graded on A-F basis only.

Credit Hours: 2
Prerequisites: Departmental consent required
Recommended: Corequisite of BIOCHM 4974

BIOCHM 4974: Biochemistry Laboratory
(cross-leveled with BIOCHM 7274). Techniques course involving analytical experiments with carbohydrates, lipids, proteins, nucleic acids; use of instrumentation in biochemistry; purification and kinetics of enzymes. One of two capstone courses required for biochemistry majors.

Credit Hours: 5
Prerequisites or Corequisites: BIOCHM 4272
Corequisites: BIOCHM 4970

BIOCHM 4974W: Biochemistry Laboratory - Writing Intensive
(cross-leveled with BIOCHM 7274). Techniques course involving analytical experiments with carbohydrates, lipids, proteins, nucleic acids; use of instrumentation in biochemistry; purification and kinetics of enzymes. One of two capstone courses required for biochemistry majors.

Credit Hours: 5
Prerequisites or Corequisites: BIOCHM 4272
Corequisites: BIOCHM 4970

BIOCHM 4996H: Honors Thesis Research in Biochemistry
Laboratory research for honors students doing an honors thesis research project in their final two semesters. Enrollment limited to Honors eligible students with senior standing who have CAFNR honors approval. Graded on A-F basis only.

Credit Hour: 1-3
Prerequisites: departmental consent

BIOCHM 7085: Problems in Biochemistry
Problems in Biochemistry.

Credit Hour: 1-6
Prerequisites: Consent of Director of Graduate Studies required

BIOCHM 7110: Maps in Medicine Summer Institute
Lab/lecture course in which high school teachers gain knowledge of two innovative, inquiry-based programs, Mapping Health and Mapping Cell Fate, that focus on influenza and developmental biology and Missouri science standards for biology and health. Graded on S/U basis only.

Credit Hours: 2
Prerequisites: departmental consent

BIOCHM 7270: Biochemistry
(cross-leveled with BIOCHM 4270). First semester of comprehensive biochemistry course: metabolic pathways, amino acids/proteins, carbohydrates, lipids, nucleic acids, kinetics, energy requirements, metabolic regulation in living cells.

Credit Hours: 3
Prerequisites: CHEM 2110

BIOCHM 7272: Biochemistry
(cross-leveled with BIOCHM 4272). Second semester of comprehensive biochemistry course, including metabolism of carbohydrates, fatty acids, steroids, amino acid synthesis and metabolism, molecular genetics, hormones, photosynthesis and integrated metabolism.

Credit Hours: 3
Prerequisites: BIOCHM 7270

BIOCHM 7274: Biochemistry Laboratory
Techniques course involving analytical experiments with carbohydrates, lipids, proteins, nucleic acids; use of instrumentation in biochemistry; radioisotope tracers in metabolism; isolation, purification and kinetics of enzymes.

Credit Hours: 5
Prerequisites or Corequisites: concurrent enrollment in BIOCHM 7270

BIOCHM 7376: Computer Assisted Sequence Analysis and Molecular Modeling
(cross-leveled with BIOCHM 4376). This course uses advanced computer graphics and computational techniques to analyze protein and nucleic acid sequences and their three-dimensional structures.

Credit Hours: 2
Prerequisites: CHEM 2110

BIOCHM 7510: Single Molecule Biophysics
(same as PHYSCS 7510; cross-leveled with BIOCHM 4510, PHYSCS 4510). The course provides an overview of the biophysics of enzymes, nucleic acids and the cytoskeleton. Topics covered will include diffusion, molecular motors, polymerization and the cytoskeleton and the polymer properties of nucleic acids and microtubules.

Credit Hours: 3
Prerequisites: PHYSICS 2760

BIOCHM 7978: Cancer Biology
(same as BIO_SC 7978). The course will cover major molecular and cellular aspects of cancer. Students will read original research articles, present overviews and lead class discussions.
Credit Hours: 3
Prerequisites: BIOCHM 4270, BIO_SC 2300 and BIO_SC 4976

BIOCHM 8060: Ethical Conduct of Research
(same as BIO_SC 8060). Discussion of ethical issues in biological research, including the rules and conventions for appropriate research conduct. Graded on S/U basis only.
Credit Hour: 1

BIOCHM 8090: Research in Biochemistry
Research in biochemistry for qualified students, with counsel of faculty. Includes preparation of dissertation. Graded on a S/U basis only.
Credit Hours: 1-99
Prerequisites: Consent of Director of Graduate Studies required

BIOCHM 8120: Advanced Medicinal Plant Science
Presentation of core topics in pharmacognosy, including an overview of plant groups with medicinal properties, essentials of botanical nomenclature, Overview of pharmacological activities of plant-sourced products and evidence-based research, phytochemical variation and significance, important biochemical pathways, origins of secondary metabolites, some major groups of phytochemicals, observations on economic and social trends in the use of medicinal plant products in developed and developing countries, overview of modern technology, high throughput screening, bioinformatics. Considerable exposure to key articles in journals, based on internationally accepted text (Trease & Evans), exposure to online databases - all sources of information that facilitate evidence-based research involving medicinal plants. Content of world-wide application. Has considerable international flavor and directly applicable to medicinal flora world-wide. The course facilitates students to be independent learners and critical thinkers in this important knowledge area (of value to diverse academic backgrounds). The important role of collaborative inter-disciplinary studies is also emphasized. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: CHEM 1100 or CHEM 1320 or BIOCHM 1090 and BIO_SC 1200 or BIO_SC 1500 or the equivalent of these courses for non-MU students
Recommended: A Freshman level course in the Life Sciences or General Botany will also be advantageous but not essential

BIOCHM 8240: Introduction to Graduate Biochemistry I
Introduction to biochemistry for life science graduate students. Core course for Biochemistry students. Structures and interactions of biological macromolecules including thermodynamics, binding, enzyme action and biological membranes as well as techniques of analysis and structure determination.
Credit Hours: 4
Prerequisites: Undergraduate organic chemistry plus undergraduate biochemistry or molecular biology, their equivalent or permission of instructor

BIOCHM 8260: Macromolecular Systems Integration
To introduce graduate students to biochemistry at the graduate level with particular emphasis on genomics/gene expression and replication; proteomics/cell signaling and metabolism. Course graded on A-F basis only.
Credit Hours: 4
Prerequisites: BIOCHM 8240

BIOCHM 8360: Nutritional Biochemistry of Carbohydrates
(same as NUTRIT 8360 and NEP 8360). Current concepts with in-depth coverage of selected examples of key regulatory steps controlling carbohydrate metabolism; emphasizing molecular mechanisms. Based entirely on research literature and taught in a tutorial format.
Credit Hours: 3
Prerequisites: BIOCHM 7272

BIOCHM 8365: Introduction to Molecular Cell Biology
(same as BIO_SC 8365 and PLNT_S 8365). This course is part of a series that aims to provide a solid conceptual foundation in interdisciplinary plant biology for graduate students with a research emphasis in plant biology. This course examines the basic concepts and techniques used to understand plant metabolism. Graded on A-F basis only.
Credit Hours: 2

BIOCHM 8390: Molecular Biology of Mineral Nutrition
(same as NUTRIT 8390 and NEP 8390). Current concepts of metal ion transport, intracellular metal trafficking and metal-dependent regulation of gene expression. Based entirely on research literature and taught in a tutorial format.
Credit Hours: 3
Prerequisites: BIOCHM 7272 and a 4000-level nutrition course

BIOCHM 8430: Physical Biochemistry
Physical concepts underlying a variety of physical chemical methods as they apply to biochemical research.
Credit Hours: 3
Prerequisites: BIOCHM 7272 and CHEM 3300
BIOCHM 8432: Enzymology and Metabolic Regulation
A basic introduction to the study of enzymes and their role in intermediary metabolism. Topics include enzyme kinetics, mechanisms of enzymatic catalysis and control of metabolic pathways.

Credit Hours: 3
Prerequisites: BIOCHM 7272

BIOCHM 8434: Signaling in Molecular Cell Biology
The objective of this course is to provide important foundations in cellular signaling in the context of biochemistry and cell biology for first and second year graduate students. The course focuses on cell-to-cell communication and intracellular signaling via different classes of cell surface receptors using specific receptor paradigms from human, other animals, plants, yeast and E.coli. Primary literature will be used for in-class discussions and homework assignments to highlight key experiments and introduce students to relevant experimental techniques. Graded on A-F basis only.

Credit Hours: 3
Recommended: BIO_SC 2300, BIOCHM 4270

BIOCHM 8438: Nutrient Regulation of Gene Expression
(same as AN_SCI 8438, NUTRIT 8438, and NEP 8438). Current concepts with in-depth coverage of several minerals that illustrate themes in molecular mineral nutrition. Based entirely on research literature and taught in a tutorial format.

Credit Hours: 3
Prerequisites: BIOCHM 7272 and a 4000-level nutrition course

BIOCHM 8450: Rotation Research
Introductory laboratory research. Graded on A-F basis only. Normally 1 hour per advisor per semester, two-1 hour sections can be taken per semester.

Credit Hour: 1-2

BIOCHM 9001: Topics in Biochemistry
Experimental courses, highly specialized topics taught infrequently or courses taught by visiting professors.

Credit Hour: 1-9

BIOCHM 9085: Problems in Biochemistry
Problems in Biochemistry
Credit Hour: 1-6

BIOCHM 9087: Seminar in Biochemistry
Review of current literature; individual presentation of research or classical science topics.

Credit Hour: 1

BIOCHM 9090: Research in Biochemistry
Research in biochemistry for qualified students, with counsel of faculty. Includes preparation of dissertation. Graded on a S/U basis only.

Credit Hour: 1-99

BIOCHM 9430: Molecular Biology I
(same as MICROB 9430). Detailed examination of current fundamental concepts of molecular genetics of bacteria, bacteriophages and yeast. Experimental approaches to analysis of the physical structures of genomic nucleic acids, the biochemistry and genetics of mutations, replication, gene transfer and gene expression will be examined in depth from reports in the current literature.

Credit Hours: 4

BIOCHM 9432: Molecular Biology II
(same as MICROB and BIO_SC 9432) Detailed experimental analysis of eukaryotic cellular and molecular biology relevant to cellular and viral gene expression, post-transcriptional and post-translational modifications and genome replication. Models for developmental genetic analysis and genetic determinants controlling developmental processes utilizing the current literature will be examined.

Credit Hours: 4

BIOCHM 9462: Hormone Action
A lecture course with weekly assigned readings. Topics will include: a description of selected polypeptide, steroid and other hormones and their biological effects; receptors; second messengers; protein phosphorylation in hormone mediation; growth factors; cellular oncogenes.

Credit Hours: 2
Prerequisites: BIOCHM 7272

BIOCHM 9466: Plant Biochemistry
Emphasizes biochemistry unique to plants; biochemical events plants share with other organisms discussed, compared. Photosynthesis, metabolism, composition, compartmentation, regulation of biochemical events included.

Credit Hours: 3
Prerequisites: BIOCHM 4270

BIOCHM 9468: Molecular Biology of Plant Growth and Development
(same as BIO_SC 9468). Molecular biology of plant hormones, signal transduction, environmental signals.

Credit Hours: 3

BIOCHM 9470: Analytical Biochemistry--Chromatography
Principles, experimental design, capabilities, limitations, and applications of the general field of chromatography of biologically important molecules. Eight (2-hour) lectures, eight (4-hour) labs. Four weeks.

Credit Hours: 2

BIOCHM 9472: Analytical Biochemistry--Mass Spectrometry
Instrumentation, fragmentation mechanisms, interpretation of spectra, combined gas chromatography--mass spectrometry. Eight (2-hour) lectures, eight (4-hour) labs.

Credit Hours: 2
## Biological Engineering Courses

### BIOL_EN 1000: Introduction to Biological Engineering
For first semester engineering students. Develop appreciation for professional engineering. Students will participate with senior design students to conceptualize a case-study problem.

**Credit Hours:** 1-2

### BIOL_EN 2000: Professional Development in Engineering
A review of professional opportunities, registration, ethics, and societies.

**Credit Hours:** 1-2  
**Prerequisites:** sophomore standing

### BIOL_EN 2080: Introduction to Programming for Engineers
This course teaches how to write scientific programs for analysis of data and simulation of physical phenomena using Matlab. Graded on A-F basis only.

**Credit Hours:** 3  
**Prerequisites:** MATH 1500

### BIOL_EN 2180: Engineering Analysis of Bioprocesses
Material and Energy Balances. Integrating principles of physics, chemistry and mathematics to analyze steady state and transient biological/biomedical processes. Graded on A-F basis only.

**Credit Hours:** 3  
**Prerequisites:** MATH 1700, CHEM 1320, PHYSICS 2750. Restricted to Biological Engineering students only  
**Recommended:** BIOL_EN 2080

### BIOL_EN 3001: Topics in Biological Engineering
Current and new technical developments in biological engineering.

**Credit Hours:** 3  
**Prerequisites:** instructor's consent

### BIOL_EN 3050: Environmental Control for Biological Systems
Systems for controlling the physical environments (heat, moisture, light, contaminating organism, chemicals) for plant and animal systems including livestock, aquacultures, crops and agricultural products.

**Credit Hours:** 3  
**Prerequisites:** ENGINR 2300 and MATH 4100

### BIOL_EN 3070: Biological Fluid Mechanics
Basic principles of fluid mechanics applied to transport processes in biological systems. Graded on A-F basis only.

**Credit Hours:** 3  
**Prerequisites:** PHYSICS 2750 and MATH 1700

### BIOL_EN 3075: Introduction to Materials Engineering
Course covers concepts and techniques in materials engineering from an engineering design perspective, materials requirements for design, and fundamentals intended for undergraduate engineering students. Graded on A-F basis only.

**Credit Hours:** 3  
**Prerequisites:** MATH 2300, ENGINR 1200

### BIOL_EN 3170: Biomaterials
Engineering sciences and design will leverage for the study and design of biomaterials. Understanding the structure-property relationship between biomaterials and tissue will be addressed for implant design.

**Credit Hours:** 3  
**Corequisites:** BIOL_EN 2180, ENGINR 2200 or instructor's consent

### BIOL_EN 3170W: Biomaterials - Writing Intensive
Engineering sciences and design will leverage for the study and design of biomaterials. Understanding the structure-property relationship between biomaterials and tissue will be addressed for implant design.

**Credit Hours:** 3  
**Corequisites:** BIOL_EN 2180, ENGINR 2200 or instructor's consent

### BIOL_EN 3180: Heat and Mass Transfer in Biological Systems
Principles of heat and mass transfer and their applications in biomedical, bioenvironmental, and bioprocessing engineering.

**Credit Hours:** 3  
**Prerequisites or Corequisites:** ENGINR 2300 or CH_ENG 3261  
**Prerequisites:** BIOL_EN 2180 or CH_ENG 2225

### BIOL_EN 4001: Topics in Biological Engineering
Current and new technical developments in biological engineering.

**Credit Hours:** 3  
**Prerequisites:** instructor's consent

### BIOL_EN 4070: Bioelectricity
(cross-leveled with BIOL_EN 7070). Application of engineering approaches to understand bioelectricity at the cellular level including the equivalent circuit of cell membranes and the electronic design of patch-clamp amplifiers.

**Credit Hours:** 3  
**Prerequisites:** PHYSICS 2760 and BIOL_EN 3180

### BIOL_EN 4080: Engineering Computation
(cross-leveled with BIOL_EN 7080). An introduction to numerical methods relevant to biological engineering in the context of scientific computing. Graded on A-F basis only.

**Credit Hours:** 3  
**Prerequisites:** MATH 4100

### BIOL_EN 4085: Problems in Biological Engineering
Supervised independent study at the undergraduate level.

**Credit Hours:** 1-5  
**Prerequisites:** instructor's consent

### BIOL_EN 4150: Soil and Water Conservation Engineering
(same as CV_ENG 4710; cross-leveled with BIOL_EN 7150, CV_ENG 7710). Urban and rural run-off and erosion analysis. Design and layout of erosion control structures.

**Credit Hours:** 3
Recommended: BIOL_EN 2180 or CV_ENG 3200

BIOL_EN 4160: Food Process Engineering
(cross-leveled with BIOL_EN 7160). Study of transport phenomena and unit operations in food processing systems. Emphasis on fluid flow and heat transfer in food processing, preservation processes, refrigeration, freezing, psychrometrics, and dehydration.
Credit Hours: 3
Prerequisites: BIOL_EN 3180

BIOL_EN 4170: Biomaterials Interfaces of Implantable Devices
(cross-leveled with BIOL_EN 7170). Surface structures and properties to improve biocompatibility will be studied. Engineering sciences and design will be leverage in the design of an improved biocompatible surface.
Credit Hours: 3
Prerequisites: BIOL_EN 3170

BIOL_EN 4231: Transport Phenomena in Materials Processing
(same as MAE 4231; cross-leveled with BIOL_EN 7231, MAE 7231). Applications of fluid flow, heat transfer, and mass transfer in steady-state and unsteady-state materials processing with applications to metals, polymers, and ceramics. Graded on A-F basis only.
Credit Hours: 3
Prerequisites or Corequisites: MAE 4300
Prerequisites: C- or better in Math 4100

BIOL_EN 4250: Irrigation and Drainage Engineering
(cross-leveled with BIOL_EN 7250). Soil, water, plant relationships. Water supplies and design of surface, sprinkler and drip irrigation systems. Surface and tile drainage.
Credit Hours: 3
Prerequisites: CV_ENG 3700 or MAE 3400 or BIOL_EN 2180

BIOL_EN 4260: Food Process Engineering II
(cross-leveled with BIOL_EN 7260). Continuing study of transport phenomena and unit operations in food processing systems. Emphasis on fluid food evaporation concentration food dehydration, contact equilibrium processes and mechanical separation processes.
Credit Hours: 3
Prerequisites: BIOL_EN 4160

BIOL_EN 4270: Design of Experiments and Statistical Quality Control for Process Engineers
(same as CH_ENG 4270; cross-leveled with BIOL_EN 7270, CH_ENG 7270). A practical statistical tool box for experimenter including comparison of process means, effects of variables, design and interpretation of factorial experiments, and statistical quality control.
Credit Hours: 3
Recommended: experience with Excel or instructor's consent

BIOL_EN 4280: Survey of Bioengineering Techniques
Laboratory techniques to train students in Bioelectricity, Biomechantronics, Bio-environment, Biomaterials, Biophotonics, Bioprocessing. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: senior standing

BIOL_EN 4310: Feedback Control Systems
(same as ECE 4310, MAE 4750; cross-leveled with BIOL_EN 7310, ECE 7310, MAE 7750). System modeling and transfer function, closed loop control, stability, continuous system design, introduction to discrete time control, software and hardware experiments on compensator design and PID control. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: MATH 4100 and junior/senior standing

BIOL_EN 4315: Introduction to Bioprocess Engineering
(same as CH_ENG 4315; cross-leveled with BIOL_EN 7315, CH_ENG 7315). This general introduction to bioprocess engineering covers the fundamentals of microbiology and biochemistry in the context of a biomass refinery. Analyses proceed through the use of mass balances, energy balances, and empirical or theoretical models.
Credit Hours: 3
Recommended: BIOL_EN 2180 (for Biological Engineering students) or CH_ENG 2225 (for Chemical Engineering students)

BIOL_EN 4316: Biomass Refinery Operations
(same as CH_ENG 4316; cross-leveled with BIOL_EN 7316, CH_ENG 7316). Design and operation of processes for conversion and/or fractionation of biomass and associated upstream and downstream unit operations. Emphasis on separations and product recovery.
Credit Hours: 3
Recommended: BIOL_EN 2180 or CH_ENG 2225 (for Chemical Engineering students) or instructor's consent

BIOL_EN 4350: Watershed Modeling Using GIS
(same as CV_ENG 4720; cross-leveled with BIOL_EN 7350, CV_ENG 7720). Watershed evaluation using AVSWAT for hydrology, sediment yield, water quality; includes USLE, MUSLE, WEPP. Procedures for model calibration/sensitivity data analysis.
Credit Hours: 3
Recommended: BIOL_EN 2180 or CV_ENG 3200 or instructor's consent

BIOL_EN 4370: Orthopaedic Biomechanics
(cross-leveled with BIOL_EN 7370, V_M_S 7370). Engineering sciences will be leverage to create a comprehensive study of orthopaedic biomechanics. The tissue mechanics of bone and soft tissue will be studied along with applying structural analysis of the musculoskeletal system. Graded on A-F basis only.
Credit Hours: 3
Recommended: ENGINR 1200 and BIOL_EN 3170

BIOL_EN 4380: Applied Electronic Instrumentation
(cross-leveled with BIOL_EN 7380). Fundamental concepts and theories, basic electronics, analog and digital circuits, signal conditioning, computer interfacing, measurement principles and techniques used in developing computer-based instrumentation systems.
Credit Hours: 4
Prerequisites: BIOL_EN 2080 and PHYSCS 2760
BIOL_EN 4420: Introduction to Biomedical Imaging
(same as PHYSCS 4420; cross-leveled with BIOL_EN 7420, PHYSCS 7420). This course offers a broad introduction to medical imaging. Topics to be covered include the physics basics and instrumentation of X-ray CT, PET, SPECT, ultrasound, MRI and Optical Imaging, as well as recent developments in biomedical imaging.

Credit Hours: 3
Prerequisites: PHYSICS 2760

BIOL_EN 4470: Biomolecular Engineering and Nanobiotechnology
(cross-leveled with BIOL_EN 7470). Generation of biotechnological products, devices through integration of engineering approaches with contemporary biology, chemistry and nanotechnology starting at the molecular level. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: MATH 1700, PHYSICS 2760, CHEM 2100

BIOL_EN 4480: Physics and Chemistry of Materials
(same as PHYSICS 4190, CHEM 4490, NU_ENG 4319; cross-leveled with BIOL_EN 7480, PHYSICS 7190, CHEM 7490, NU_ENG 7319). Physics and Chemistry of Materials is a 3 credit hours undergraduate/graduate level course offered every spring semester for students from Physics, Chemistry, Engineering and Medical Departments and consists of lectures, laboratory demonstrations, two mid term and one final exam. Graduate students will submit a term paper.

Credit Hours: 3
Recommended: PHYSICS 2760 or CHEM 1320 or equivalent

BIOL_EN 4550: Design of Livestock Waste Management Systems
(cross-leveled with BIOL_EN 7550). Development and application of design criteria to the design of agricultural waste management facilities.

Credit Hours: 3
Prerequisites: CHEM 1310 and CV_ENG 3700, MAE 3400 or instructor's consent

BIOL_EN 4570: Fluorescent Imaging
(cross-leveled with BIOL_EN 7570). Principles and applications of fluorescent imaging. The course covers: Image formation in microscope; Fundamentals of fluorescence and fluorescent microscopy; molecular and cellular fluorescent imaging.

Credit Hours: 3
Prerequisites: BIO_SC 1500 and BIOL_EN 2180 or instructor's consent

BIOL_EN 4575: Computational Neuroscience
(same as BIO_SC 4580, ECE 4580; cross-leveled with BIOL_EN 7575, BIO_SC 7580, ECE 7580). An interdisciplinary course with a strong foundation in quantitative science for students in biological-behavioral sciences. Graded on A-F basis only.

Credit Hours: 4
Prerequisites: BIO_SC 1010, BIO_SC 1500, MATH 1500

BIOL_EN 4580: Mechanical Systems Engineering
(cross-leveled with BIOL_EN 7580). Fundamentals and applications of prime movers and power transmissions for the design of engineering systems.

Credit Hours: 3
Corequisites: ENGINR 2100 or BIOL_EN 4380 or instructor's consent
Recommended: Thermodynamics course, Fluid Mechanics course

BIOL_EN 4670: Photonics and Nanotechnologies in Optical Biosensors
(cross-leveled with BIOL_EN 7670). Latest applications of photonics and nanotechnologies in optical bio-chemical sensors will be reviewed. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: PHYSICS 2760

BIOL_EN 4770: Biomedical Optics
(cross-leveled with BIOL_EN 7770). Essential concepts and methods for applying optical techniques to biomedical diagnosis and therapy will be covered with major application examples being discussed.

Credit Hours: 3
Prerequisites: PHYSICS 2760

BIOL_EN 4870: Molecular and Cell Mechanics
Application of mechanics and engineering principles to biological systems at the cellular and molecular levels. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: ENGINR 2200

BIOL_EN 4940: Engineering Internship
Problem course following prior approved work experience. Problem selected by internship company representative, faculty problem adviser and student. Supervised by faculty problem advisor and presented in engineering report form. Graded on S/U basis only.

Credit Hour: 1-3
Prerequisites: advisor's consent

BIOL_EN 4980: Biological Engineering Design
Capstone design course for the Biological Engineering major. Design of biological system devices or processes.

Credit Hours: 3
Prerequisites: senior standing or instructor's consent

BIOL_EN 4990: Undergraduate Research in Biological Engineering
Supervised independent study at the undergraduate level.

Credit Hour: 1-5
Prerequisites: instructor's consent
BIOL_EN 4995: Undergraduate Honors Research in Biological Engineering
Open only to honor students in Biological Engineering. Independent investigation in biological engineering to be presented as a thesis.
Credit Hour: 1-5
Prerequisites: advisor's consent

BIOL_EN 7001: Topics in Biological Engineering
Study of advanced developments in biological engineering.
Credit Hour: 1-3

BIOL_EN 7070: Bioelectricity
(cross-levelled with BIOL_EN 4070). Application of engineering approaches to understand bioelectricity at the cellular level including the equivalent circuit of cell membranes and the electronic design of patch-clamp amplifiers. Prerequisites: PHYSCS 2760 and BIOL_EN 3180 or instructor's consent
Credit Hours: 3

BIOL_EN 7080: Engineering Computation
(cross-levelled with BIOL_EN 4080). An introduction to numerical methods relevant to biological engineering in the context of scientific computing.
Credit Hours: 3
Prerequisites: MATH 4100

BIOL_EN 7150: Soil and Water Conservation Engineering
(same as CV_ENG 7710; cross-levelled with BIOL_EN 4150, CV_ENG 4150). Urban and rural run-off and erosion analysis. Design and layout of erosion control structures.
Credit Hours: 3
Prerequisites: BIOL_EN 2180 or CV_ENG 3200, or instructor's consent

BIOL_EN 7160: Food Process Engineering
(cross-level with BIOL_EN 4160). Study of transport phenomena and unit operations in food processing systems. Emphasis on fluid flow and heat transfer in food processing, preservation processes, refrigeration, freezing, psychrometrics, and dehydration.
Credit Hours: 3
Prerequisites: BIOL_EN 3180 or instructor's consent

BIOL_EN 7170: Biomaterials Interfaces of Implantable Devices
(cross-levelled with BIOL_EN 4170). Surface structures and properties to improve biocompatibility will be studied. Engineering sciences and design will be leverage in the design of an improved biocompatible surface.
Credit Hours: 3
Prerequisites: BIOL_EN 3170 or instructor's consent

BIOL_EN 7231: Transport Phenomena in Materials Processing
(same as MAE 7231; cross-levelled with BIOL_EN 4231, MAE 4231). Applications of fluid flow, heat transfer, and mass transfer in steady-state and unsteady-state materials processing with applications to metals, polymers, and ceramics. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: MAE 3200, MAE 3400, MAE 4300 or equivalent; and MATH 4100

BIOL_EN 7250: Irrigation and Drainage Engineering
(cross-levelled with BIOL_EN 4250). Soil, water, plant relationships. Water supplies and design of surface, sprinkler and drip irrigation systems. Surface and tile drainage.
Credit Hours: 3
Prerequisites: CV_ENG 3700 or MAE 3400 or BIOL_EN 2180

BIOL_EN 7260: Food Process Engineering II
(cross-levelled with BIOL_EN 4260). Continuing study of transport phenomena and unit operations in food processing systems. Emphasis on fluid food evaporation concentration food dehydration, contact equilibrium processes and mechanical separation processes.
Credit Hours: 3
Prerequisites: BIOL_EN 7160 or instructor's consent

BIOL_EN 7270: Design of Experiments and Statistical Quality Control for Process Engineers
(same as CH_ENG 7270; cross-levelled with BIOL_EN 4270, CH_ENG 4270). A practical statistical tool box for experimenters including comparison of process means, effects of variables, design and interpretation of factorial experiments, and statistical quality control.
Credit Hours: 3
Prerequisites: experience with Excel or instructor's consent

BIOL_EN 7310: Feedback Control Systems
(same as ECE 7310, MAE 4310; cross-levelled with ECE 4310, BIOL_EN 4310, MAE 4750). System modeling and time and frequency response, closed loop control, stability, continuous system design, introduction to discrete time control, software and hardware experiments on compensator design and PID control. Graded A-F only. May be repeated for credit.
Credit Hours: 3
Prerequisites: MATH 4100

BIOL_EN 7315: Introduction to Bioprocess Engineering
(same as CH_ENG 7315; cross-levelled with BIOL_EN 4315, CH_ENG 4315). This general introduction to bioprocess engineering covers the fundamentals of microbiology and biochemistry in the context of a biomass refinery. Analysis proceed through the use of mass balances, energy balances, and empirical or theoretical models.
Credit Hours: 3
Prerequisites: BIOL_EN 2180 (for biological engineering students) or CH_ENG 2225 (for chemical engineering students) or instructor's consent

BIOL_EN 7316: Biomass Refinery Operation
(same as CH_ENG 7316; cross-levelled with BIOL_EN 4316, CH_ENG 4316). Design and operation of processes for conversion and/or fractionation of biomass and associated upstream and downstream unit operations. Emphasis on separations and product recovery.
Credit Hours: 3
Prerequisites: BIOL_EN 2180 or CH_ENG 2225 or instructor's consent

</table>
from initial discovery concepts to first-in-human studies, clinical trials, healthcare guidelines and policy to product development. We will provide an introduction to essential disciplines and interactions that enable scientific discoveries to move forward into novel device and drug therapies. Participants will come away with a very complete picture of how medical research happens, including: how it is funded; what is required to make discoveries and record and protect intellectual property that is created; how to advance innovations to clinical practice, how to navigate the regulatory and bioethical environment, and how discoveries reach practitioners and benefit patients. The Course is the first in a three course sequence leading to a Graduate Certificate in Life Science Innovation and Entrepreneurship. Graded on A-F basis only.

**Credit Hours:** 3  
**Prerequisites:** Must be Graduate Standing or receive certificate program director's approval

---

**BIOL_EN 8001: Advanced Topics in Biological Engineering**  
Study of advanced developments in biological engineering.  
**Credit Hour:** 1-3

**BIOL_EN 8085: Problems in Biological Engineering**  
Supervised individual study at the graduate level.  
**Credit Hour:** 1-99  
**Prerequisites:** departmental consent

**BIOL_EN 8087: Seminar in Biological Engineering**  
Recent investigations in biological engineering and related fields. Discussion of current literature; preparation and presentation of papers.  
**Credit Hour:** 1

**BIOL_EN 8088: Advanced Seminar in Biological Engineering**  
Student presentation and discussion of topical research. May be repeated for credit.  
**Credit Hour:** 1  
**Prerequisites:** BIOL_EN 8087 and BIOL_EN 8402 or instructor's consent

**BIOL_EN 8100: Design and Development of Biomedical Innovations**  
(same as ENGINR 8100). This course takes students through the process of brainstorming and working out a solution to a medical need, and then producing a product. Outputs may include the development of a physical prototype through interactions with the College of Engineering rapid prototype facility. The course is one of a three-course set leading to a Graduate Certificate in Translational Science and Entrepreneurship. Graded on A-F basis only.  
**Credit Hours:** 3  
**Prerequisites:** Student must be enrolled in a graduate degree program and enrolled in a sequenced cohort group beginning with MPP 8000/BIOL_EN 8000 then MPP 8100/BIOL_EN 8100 then MANGMT 8200

**BIOL_EN 8150: Natural Systems for Wastewater Treatment**  
Emphasis is on the design, management and biological performance of lagoons, overland flow systems and constructed wetland.  
**Credit Hours:** 3  
**Prerequisites:** CV_ENG 7230 and BIOL_EN 7150 or instructor's consent

---

**BIOL_EN 8170: Sensors and Biosensors**  
The course covers basic principles of chemical and biological sensors, such as immobilization techniques, transducers (optical, electrical, etc.) and performance factors.  
**Credit Hours:** 3

**BIOL_EN 8180: Numerical Methods in Engineering Research**  
Numerical techniques and case studies in Biological Engineering. Topics include basic numerical methods, mathematical representation of data, matrix algebra, ordinary and partial differential equations.  
**Credit Hours:** 3  
**Prerequisites:** MATH 4100

**BIOL_EN 8230: Advanced Ceramic Materials**  
(same as CH_ENG 8230, MAE 8230). To provide an advanced level understanding between processing, properties, and microstructure of ceramic materials. Topics include crystallography, defect chemistry, transport properties, microstructure, and forming methods. Graded on A-F basis only.  
**Credit Hours:** 3

**BIOL_EN 8250: Water Management Theory**  
Advanced studies in erosion control, irrigation, and drainage. Water resources engineering.  
**Credit Hours:** 3  
**Prerequisites:** MATH 1500, Computer Engineering and Computer Science course, SOIL 4307 or SOIL 7307 and Soil Conservation course

---

**BIOL_EN 8280: Advanced Biological Transport Processes**  
Principles of fluid flow, heat transfer, and mass transfer applied to (a) understanding of how the human body functions (from the cellular up to the system level) and (b) designing biomedical devices. An independent project/case-study of a relevant research topic also required.  
**Credit Hours:** 3

**BIOL_EN 8360: Food Extrusion**  
Engineering principles and applications of single and twin screw food cooking extrusion systems. Modeling, control and optimization of extrusion systems. Dough rheology.  
**Credit Hours:** 2  
**Prerequisites:** BIOL_EN 7260

---

**BIOL_EN 8370: Materials Characterization Techniques**  
Concepts and techniques in characterizing materials, including bulk and surface analyses. Techniques are presented in terms of use, sample requirements, and the engineering principles. Topics include: contact
angle measurement, XPS, SEM, TEM, STM, AFM, XRD, and thermal analyses.

Credit Hours: 3  
Prerequisites: at least one undergraduate course in material science, engineer, or design

BIOL_EN 8380: Modeling and Identification of Engineering Systems
Generalized description of engineering systems, bond graph modeling, system identification techniques, and neural network approaches.

Credit Hours: 3  
Prerequisites: MATH 4100

BIOL_EN 8402: Research Methods
(same as F_S 8402). Review of literature; planning research projects; publication procedures.

Credit Hours: 2

BIOL_EN 8470: Ultrasensitive Biodetection
Multiplexing single-molecule, single-cell, nanobiotech analytical techniques to improve disease diagnosis, treatment, and understanding of biophenomena (membrane transport, gene expression, enzyme activities, cell communications). Graded A-F only.

Credit Hours: 3  
Prerequisites: Instructor's consent required

BIOL_EN 8570: Microscopic Imaging
Advanced topics in microscopic imaging with focus on applications of molecular and cellular imaging using fluorescent microscopy.

Credit Hours: 3  
Prerequisites: BIOL_EN 7570 or instructor's consent

BIOL_EN 8670: Orthopaedic Failure Modes and Effect Analysis
Engineering sciences will be leveraged provide a comprehensive study of failure modes and related effects for orthopaedic devices, orthopaedic tissue repair, and surgical interventions. Clinical case studies will be analyzed to introduce real world problems of orthopaedic failures. Graded on A-F basis only.

Credit Hours: 3  
Prerequisites: BIOL_EN 3170 or ENGINR 1200, BIOL_EN 4370 or BIOL_EN 7370 or instructor consent  
Recommended: For department majors

BIOL_EN 8770: Photon Migration and Optical Imaging in Turbid Media
The essential concepts and techniques in optical imaging in turbid media will be covered including both forward problems and inverse reconstruction theories. Graded on A-F basis only.

Credit Hours: 3  
Prerequisites: instructor's consent

BIOL_EN 8870: Molecular and Cell Mechanics
Application of mechanics and engineering principles to biological systems at the cellular and molecular levels. Graded on A-F basis only.

Credit Hours: 3  
Prerequisites: ENGINR 2200

BIOL_EN 8990: Masters Thesis Research in Biological Engineering
Independent investigation to be presented as a thesis. Graded on S/U basis only.

Credit Hour: 1-99

BIOL_EN 9990: Doctoral Dissertation Research in Biological Engineering
Independent investigation to be presented as a thesis. Graded on S/U basis only.

Credit Hour: 1-99

Biological Sciences Courses

BIO_SC 1001: Topics in Biological Science - General
Selected topics not covered in current offerings. May not be used in partial fulfillment of requirements for a biological science in general education. May be graded on A-F or S/U basis.

Credit Hour: 1-3

BIO_SC 1002: Topics in Biological Sciences - Biological/Physical/Mathematics
Selected topics not in regularly offered courses. Selected sections of this course may be graded either on A-F or S/U basis only.

Credit Hour: 1-3

BIO_SC 1010: General Principles and Concepts of Biology
Emphasizes connections and applications to society and the human condition, science literacy, and critical thinking skills. A discussion of general principles and fundamental concepts of living things. This course is intended for non-science majors. No more than 5 credits for BIO_SC 1010, BIO_SC 1020, and BIO_SC 1030.

Credit Hours: 3  
Recommended: MATH 1100

BIO_SC 1020: General Biology Laboratory
Laboratory exercises dealing with representative organisms and methods of modern biological sciences. This course is intended for non-science majors. No more than 5 credits for BIO_SC 1010, BIO_SC 1020, and BIO_SC 1030.

Credit Hours: 2  
Prerequisites: BIO_SC 1010 or BIO_SC 1400 or BIO_SC 1010 concurrently

BIO_SC 1030: General Principles and Concepts of Biology with Laboratory
Survey of general principles and basic concepts of life science, emphasizing applications to society and the human condition. Lectures address science literacy and critical thinking and laboratory exercises use representative organisms to complement lecture topics. This course is intended for non-science majors. No more than 5 credits for BIO_SC 1010, BIO_SC 1020, and BIO_SC 1030.

Credit Hours: 5  
Recommended: MATH 1100 or concurrent enrollment
BIO_SC 1060: Basic Environmental Studies
Considers the ecosystem, energy and biogeochemical cycles and population dynamics; relation of the environment to agriculture and technology, pollution, power and food production; politico-economic considerations; moral and ethical issues. For non-science majors.
Credit Hours: 3

BIO_SC 1100: Introductory Zoology with Laboratory
(same as F_W 1100). Introduces important principles and concepts of zoology. Emphasizes cell biology; evolution; genetics; ecology; structure, function, development of the organism.
Credit Hours: 5

BIO_SC 1200: General Botany with Laboratory
Introduction to study of plants. Emphasis on structure, growth, physiology, genetics and reproduction of plants.
Credit Hours: 5

BIO_SC 1400: Evolution for Everyone
This course will explore the application of evolutionary theory to modern human affairs. We will study the processes involved in evolution and investigate evolutionary interpretations of human social behavior (e.g., psychology, mate choice, economics, religion, and morality). No credit if student has received credit for BIO_SC 2060 or BIO_SC 4600.
Credit Hours: 3

BIO_SC 1500: Introduction to Biological Systems with Laboratory
Basic concepts and principles of the structure and function of living systems, from cells to populations. Foundation course for science students intending to complete a 3-semester sequence that also includes genetics and cell biology.
Credit Hours: 5
Recommended: MATH 1100 or sufficient ALEKS score

BIO_SC 1500H: Introduction to Biological Systems with Laboratory - Honors
Basic concepts and principles of the structure and function of living systems, from cells to populations. Foundation course for science students intending to complete a 3-semester sequence that also includes genetics and cell biology.
Credit Hours: 3-5
Prerequisites: MATH 1100 and high school chemistry. Honors eligibility required

BIO_SC 2001: Topics in Biological Sciences - General
Selected topics not covered in current offerings. May not be used in partial fulfillment of requirements for a biological science in general education. May be graded on A-F or S/U basis.
Credit Hours: 1-3
Recommended: One course in Biology

BIO_SC 2002: Topics in Biological Sciences- Biological/Physical/Mathematics
Selected topics not covered in regularly offered courses. Selected sections of this course may be graded either on A-F or S/U basis only.
Credit Hour: 1-3
Recommended: a course in general biology

BIO_SC 2002H: Topics in Biological Sciences- Biological/Physical/Mathematics - Honors
Selected topics not covered in regularly offered courses. Recommended: a course in biology
Credit Hour: 1-3
Prerequisites: Honors eligibility required

BIO_SC 2010: Undergraduate Seminar in Biological Sciences
Discussion and critical evaluation of current topics in biological sciences for intermediate-level students. Some sections may be graded on either A-F or S/U basis only.
Credit Hour: 1-3
Prerequisites: Departmental consent
Recommended: Sophomore standing

BIO_SC 2015: Biological Career Explorations
Students will learn about career options and choices, construct career portfolios, and interact with current biological professionals. Graded on S/U basis only.
Credit Hour: 1
Prerequisites: Departmental consent
Recommended: Sophomore standing

BIO_SC 2020: How the Brain Works
Basic structure and function of the brain; left and right brain studies; gender differences; learning and memory; brain disorders.
Credit Hour: 1
Prerequisites: C- or above in BIO_SC 1010 or BIO_SC 1500

BIO_SC 2030: Life of the Cell
This course will help students understand basic concepts of biomolecular structure, cell organization, cell membranes, energy and metabolism, cellular communication, and cell division. This course is intended for non-science majors and may not be used to satisfy requirements for either a major or a minor in biological sciences.
Credit Hours: 3
Prerequisites: BIO_SC 1010

BIO_SC 2060: Community Biology
Principles of population biology, ecology, and evolution, including consideration of human impacts on biological communities and ecosystems.
Credit Hours: 3
Prerequisites: BIO_SC 1010 or equivalent. Not open to biology majors
BIO_SC 2100: Infectious Diseases
An introduction to the basic science of bacterial, viral, protozoan, fungal and helminth infections, including discussions of how illness has influenced or been affected by public policy and culture.
Credit Hours: 3
Prerequisites: BIO_SC 1010. Not open to Biology Majors

BIO_SC 2150: Genetic Diseases
This course will discuss the biological basis for genetic diseases, including inherited diseases and non-inherited diseases such as cancer. The units will include an introduction providing necessary background information, as section studying the technology used to study genetic diseases and several units discussing specific diseases and their impact on history and society. This course is intended for non-science majors. Cannot be used to satisfy degree requirements for biology major or biology minor.
Credit Hours: 3
Prerequisites: BIO_SC 1010

BIO_SC 2200: General Genetics
Principles of inheritance in plants and animals; structure and use of genetic material, transmission of genetic information, linkage, modification of genetic information, regulation of genetic activity, population genetics.
Credit Hours: 4
Prerequisites: BIO_SC 1500 and CHEM 1320 (or concurrent enrollment)

BIO_SC 2300: Introduction to Cell Biology
Analysis of cellular organization and function at the molecular level. The mechanisms underlying cellular trafficking, cell motility, and signaling within cells and between cells and their environment will be emphasized.
Credit Hours: 4
Prerequisites: BIO_SC 2200

BIO_SC 2300H: Introduction to Cell Biology- Honors
Analysis of cellular organization and function at the molecular level. The mechanisms underlying cellular trafficking, cell motility, and signaling within cells and between cells and their environment will be emphasized.
Credit Hours: 4
Prerequisites: BIO_SC 2200. Honors eligibility required

BIO_SC 2300HW: Introduction to Cell Biology - Honors/Writing Intensive
Analysis of cellular organization and function at the molecular level. The mechanisms underlying cellular trafficking, cell motility, and signaling within cells and between cells and their environment will be emphasized.
Credit Hours: 4
Prerequisites: BIO_SC 2200. Honors eligibility required

BIO_SC 2600: Ornithology
(same as F_W 2600). Structure, identification, habits, importance of regional birds. Field work, lectures, lab.
Credit Hours: 4
Recommended: 5 hours of Biological Sciences

BIO_SC 2700: Ichthyology
(same as F_W 2700). A broad introduction to the biology and ecology of fishes. Emphasis will be placed on understanding the adaptations fishes exhibit to aspects of their environment. Includes lab.
Credit Hours: 4
Recommended: 8 hours biology or equivalent

BIO_SC 2940: Internship in Biological Science
Work experience in a non-profit, for profit, or governmental organization relevant to the biological sciences. Intended for students doing internships in which independent research is less than 50% of the experience. Graded on S/U basis only.
Credit Hour: 1-3
Prerequisites: Instructor's consent
Recommended: junior standing, 12 hours of biological science and 2.70 GPA

BIO_SC 2950: Directed Independent Research
Participation in faculty research activities. May not be used to satisfy degree requirements for BA or BS in biological sciences or the minor in biological sciences.
Credit Hour: 1-3
Prerequisites: Departmental consent

BIO_SC 2960: Readings in Biological Science
Supervised reading in biological literature. May be repeated up to six hours total credit. Selected sections of this course may be graded either on A-F or S/U basis only. May not be used in partial fulfillment of Arts and Science foundation requirement.
Credit Hour: 1-3
Prerequisites: Instructor's consent

BIO_SC 2965H: Honors Readings in Biological Literature
Selected readings in biological literature for Honors, in consultation with instructor. May not be used in partial fulfillment of Arts and Science foundation requirement.
Credit Hour: 1-3
Prerequisites: overall 3.3 GPA; instructor's consent. Honors eligibility required

BIO_SC 2992: Topics in Biological Sciences- Biological/Physical/Mathematics
Selected topics not in regularly offered courses. Selected sections of this course may be graded either on A-F or S/U basis only.
Credit Hour: 1-3
Recommended: Junior Standing

BIO_SC 2996: Topics in Biological Sciences- Biological/Physical/Mathematics - Honors
Selected topics not offered in regular curriculum.
Credit Hour: 1-3
Prerequisites: Honors eligibility required
BIO_SC 3002W: Topics in Biological Sciences - Biological/Physical/Mathematics - Writing Intensive
Selected topics not in regularly offered courses. Selected sections of this course may be graded either on A-F or S/U basis only.

Credit Hours: 1-3
Recommended: Junior Standing

BIO_SC 3010: Professional Skills
This course will focus on application and interview skills for students interested in medical school. Graded on S/U basis only.

Credit Hour: 1
Prerequisites: instructor's consent
Recommended: junior standing; 3.4 GPA, and biological sciences majors

BIO_SC 3050: Genetics and Society
Introduction to genetics, emphasizing the impact of genetics on human society. Human evolution, molecular genetics, genetic engineering in medicine and agriculture. An intensive writing course.

Credit Hours: 3

BIO_SC 3050W: Genetics and Society - Writing Intensive
Introduction to genetics, emphasizing the impact of genetics on human society. Human evolution, molecular genetics, genetic engineering in medicine and agriculture. An intensive writing course.

Credit Hours: 3

BIO_SC 3075: The Human Microbiome
This course examines the astonishing diversity and medical significance of the microbes that inhabit our bodies. Interactive discussions explore scientific and ethical dimensions of topics ranging from probiotics and "poop transplants" to the role of microbes in asthma and obesity.

Credit Hours: 3
Prerequisites: BIO_SC 2200

BIO_SC 3075W: The Human Microbiome - Writing Intensive
This course examines the astonishing diversity and medical significance of the microbes that inhabit our bodies. Interactive discussions explore scientific and ethical dimensions of topics ranging from probiotics and "poop transplants" to the role of microbes in asthma and obesity.

Credit Hours: 3
Prerequisites: BIO_SC 2200

BIO_SC 3070: Plant Systematics
Principles of classification of plants; survey of diversity in flowering plant families; identification of local flora; use of keys. Includes lab.

Credit Hours: 4
Recommended: 8 hours of Biological Sciences

BIO_SC 3210: Plant Systematics
Principles of classification of plants; survey of diversity in flowering plant families; identification of local flora; use of keys. Includes lab.

Credit Hours: 4
Prerequisites: BIO_SC 2200

BIO_SC 3250: Parasitology
(same as BIOMED 3250). Parasitism is considered as a fundamental type of interspecies interaction. Principles of parasitism as they apply to animals are presented with emphasis on parasite morphology, biology and host parasite relationships. Includes lab. Recommend: 8 hours of biology.

Credit Hours: 4

BIO_SC 3260: Invertebrate Zoology
Structure, ecology and phylogeny of the invertebrate phyla. Includes lab.

Credit Hours: 4
Prerequisites: BIO_SC 1100 or BIO_SC 1500
Recommended: Junior Standing

BIO_SC 3260W: Invertebrate Zoology - Writing Intensive
Structure, ecology and phylogeny of the invertebrate phyla. Includes lab.

Credit Hours: 4
Prerequisites: BIO_SC 1100 or BIO_SC 1500
Recommended: Junior Standing

BIO_SC 3360: Herpetology
The biology, ecology, taxonomy, and distribution of amphibians and reptiles. Some Saturday field trips.

Credit Hours: 4
Recommended: 8 hours Biological Sciences or equivalent

BIO_SC 3400: Evolution and Ecology
Introduction to principles of evolution and ecology. Topics include natural selection, adaptation, phylogenetic analysis, human evolution, population growth and regulation, population interactions, ecosystem ecology, and human impacts on ecological processes. No credit for this course if either BIO_SC 3850 or BIO_SC 4600 already completed; may not co-enroll in this course and BIO_SC 4600.

Credit Hours: 3
Prerequisites: BIO_SC 2200

BIO_SC 3510: Biology of Fungi
(same as PLNT_S 3510). The diverse roles of fungi in the biosphere will be explored by considering fungi we eat, fungi which destroy our food, fungi in folklore and fungi as global nutrient recyclers. Includes lab.

Credit Hours: 3
Prerequisites: BIO_SC 1200 or BIO_SC 1500 or equivalent

BIO_SC 3650: General Ecology
Principles of populations, coevolution, density factors, competition; physical environment; concept of community, trophic structure, biotic succession; characterization of biomes, man in ecosystem. Biology majors having completed BIO_SC 3100: 2 hours credit.

Credit Hours: 5
Prerequisites: junior standing
Recommended: 10 hours in Biology

BIO_SC 3650W: General Ecology - Writing Intensive
Principles of populations, coevolution, density factors, competition; physical environment; concept of community, trophic structure, biotic succession; characterization of biomes, man in ecosystem. Biology majors having completed BIO_SC 3100: 2 hours credit.

Credit Hours: 5
**Prerequisites:** junior standing  
**Recommended:** 10 hours in Biology

**BIO_SC 3655: Tropical Ecology: Methods and Applications**  
Field study of tropical community; additional fee for transportation and accommodations required.  
**Credit Hours:** 3  
**Prerequisites:** BIO_SC 3650 or BIO_SC 4600 or BIO_SC 4660

**BIO_SC 3660: Mammalogy**  
(same as F_W 3660). Taxonomy, distribution, structure, habits, importance of mammals; emphasizes those of central United States. Includes lab.  
**Credit Hours:** 4  
**Recommended:** Junior Standing or instructor's consent

**BIO_SC 3700: Animal Physiology**  
Introduces concepts of vertebrate organ function and homeostatic control emphasizing mammalian physiology. Some comparisons to function in other vertebrates and strategies for coping with environmental stresses introduced. Includes lab.  
**Credit Hours:** 5  
**Prerequisites:** BIO_SC 2300

**BIO_SC 3710: Introductory Entomology**  
(same as PLNT_S 3710). Emphasizes the role insects play in the scheme of life. Topics include insect structure, development, diversity, ecology, communication and behavior, and management. Prerequisites: Completion of 60 credit hours and one of the following: BIO_SC 1100 (or F_W 1100) or BIO_SC 1200, or BIO_SC 1500.  
**Credit Hours:** 3

**BIO_SC 3715: Insect Diversity**  
(same as PLNT_S 3715). Laboratory exercises emphasizing external insect anatomy, classification, and identification (to family level). Preparation of an insect collection is required.  
**Credit Hours:** 2  
**Prerequisites:** PLNT_S 3710 (or BIO_SC 3710) or concurrent registration

**BIO_SC 3750: General Microbiology**  
Principles of microbiology. Includes lab.  
**Credit Hour:** 3-4  
**Prerequisites:** BIO_SC 2200 and BIO_SC 2300  
**Recommended:** grades in C range for prerequisites

**BIO_SC 3780: Genetics Laboratory**  
Experimental genetic studies of Drosophila, corn and microorganisms.  
**Credit Hours:** 2  
**Prerequisites:** C range grade or better in BIO_SC 2200 or instructor's consent

**BIO_SC 3790: Developmental Biology Laboratory**  
Laboratory studies of development in sea urchin, chicken and roundworm.  
**Credit Hours:** 2  
**Prerequisites:** BIO_SC 3800 or co-enrollment in BIO_SC 3800

**BIO_SC 4002: Topics in Biological Science - Biological/Physical/ Mathematics**  
Selected topics not in regularly offered courses. May be repeated up to 2 times for credit.  
**Credit Hour:** 1-3  
**Prerequisites:** senior standing

**BIO_SC 4085: Problems in Biological Sciences**  
Individual supervised work to supplement regularly organized courses in biology; introduction to research. Selected sections of this course may be graded either on A-F or S/U basis only.  
**Credit Hour:** 1-3  
**Prerequisites:** instructor's consent  
**Recommended:** Junior Standing

**BIO_SC 4100: Limnology**  
(same as F_W 4100; cross-leveled with BIO_SC 7100, F_W 7100). (lecture/lab: 4 hrs.; lecture only: 3 hrs.) Ecology of inland waters with emphasis on productivity.  
**Credit Hour:** 3-4  
**Prerequisites:** senior standing

**BIO_SC 4300: Analysis of Biological Macromolecules**  
cross-leveled with BIO_SC 7300). Theory/application of techniques used for characterization of proteins, nucleic acids; topics: sedimentation velocity; equilibrium; sucrose density gradients; electrophoresis; spectrophotometry.  
**Credit Hours:** 3  
**Prerequisites:** BIO_SC 2300 or BIOCHM 4270, and MATH 1500  
**Recommended:** one year Physics

**BIO_SC 4310: Physics in Cell and Developmental Biology**  
(same as PHYSCS 4310; cross-leveled with BIO_SC 7310, PHYSCS 7310, MPP 7300). Discusses the role of physical mechanisms in specific cellular and developmental processes and phenomena, in particular those characterizing the embryonic stage of multicellular organisms. Each process and phenomenon is first described in biological terms and then within a physical model, with special emphasis on the interplay between the two descriptions.  
**Credit Hours:** 3  
**Prerequisites:** PHYSCS 1220 or PHYSCS 2760 and BIO_SC 2300, or instructor's consent

**BIO_SC 4320: Molecular Plant Physiology**  
(same as PLNT_S 4320; cross-leveled with BIO_SC 7320, PLNT_S 7320). Modern physiology of higher plants using common cultivated plants as examples.  
**Credit Hours:** 3  
**Prerequisites:** BIO_SC 1200 or BIO_SC 1500 and CHEM 1320
**BIO_SC 4328: Introductory Radiation Biology**
(same as NU_ENG 4328, RADIOL 4328; cross-leveled with BIO_SC 7328, NU_ENG 7328, RADIOL 7328). Concepts of ionizing radiations, their actions on matter through effects on simple chemical systems, biological molecules, cell, organisms, man.

**Credit Hours:** 3  
**Prerequisites:** junior standing, Sciences/Engineering; one course in Biological Sciences and Physics/Chemistry; or instructor's consent

**BIO_SC 4400: Plant Anatomy**
(same as PLNT_S 4400; cross-leveled with BIO_SC 7400, PLNT_S 7400). Comparative structure, growth of meristems; development, structure of important cell types, tissues, tissue systems; comparative anatomy of stem, root, leaf. Emphasizes anatomy of gymnosperms, angiosperms. Includes lab.

**Credit Hours:** 4  
**Prerequisites:** BIO_SC 1200 or BIO_SC 1500

**BIO_SC 4500: Neurobiology**
(cross-leveled with BIO_SC 7500). Vertebrate and invertebrate neurobiology, including cell and molecular biology of the neuron, neurophysiology, neuroanatomy, neuroethology and developmental neurobiology.

**Credit Hours:** 3  
**Prerequisites:** BIO_SC 2300 or instructor's consent  
**Recommended:** BIO_SC 3700

**BIO_SC 4560: Sensory Physiology and Behavior**
(cross-leveled with BIO_SC 7560). Basic principles of coding and integration of sensory stimuli; neural correlates of animal behavior; environmental influences on postnatal sensory development. Graded on A-F basis only.

**Credit Hours:** 3  
**Prerequisites:** BIO_SC 4500

**BIO_SC 4580: Computational Neuroscience**
(same as ECE 4580, BIOL_EN 4575; cross-leveled with BIO_SC 7580, ECE 7580, BIOL_EN 7575). An interdisciplinary course with a strong foundation in quantitative sciences for students in biological and behavioral science and an introduction to experimental methods for students from quantitative sciences.

**Credit Hours:** 4  
**Prerequisites:** BIO_SC 1010 or BIO_SC 1500; MATH 1500

**BIO_SC 4600: Evolution**
Surveys various processes in organic evolution and underlying genetic mechanisms.

**Credit Hours:** 3  
**Prerequisites:** BIO_SC 2200

**BIO_SC 4640: Behavioral Biology**
(cross-level with BIO_SC 7640). Comparative study of animal ethology. Principles of animal ethology illustrated in different animal phyla. May be taken with Laboratory for 4 credits.

**Credit Hour:** 3-4  
**Prerequisites:** BIO_SC 1500  
**Recommended:** one additional upper-level course in Biological Sciences or Psychology

**BIO_SC 4642: Animal Communication**
Physical properties of sensory stimuli, receptor mechanisms, functional significance of communication behavior, and multidisciplinary and experimental approaches to current research in animal communication.

**Credit Hours:** 3  
**Prerequisites:** BIO_SC 3400 or BIO_SC 4600

**BIO_SC 4660: Plant Population Biology**
(cross-leveled with BIO_SC 7660). Covers the ecological and evolutionary processes that influence the distribution and abundance of plant species. Topics include evolution of life history schedules, gender evolution, population growth and demography, competition, herbivory, plant-pollinator interactions, clonal growth, and plant community structure. Includes lab.

**Credit Hours:** 4  
**Recommended:** 2 courses in Biological Sciences

**BIO_SC 4670: Avian Ecology**
(cross-level with BIO_SC 7670). Advanced examination of ecological patterns in birds. Explores the environmental factors affecting the evolution of avian behavior, morphology, community structure and distribution.

**Credit Hours:** 3  
**Prerequisites:** BIO_SC 2600 or BIO_SC 3650

**BIO_SC 4950: Undergraduate Research in Biology**
Individually directed field or laboratory research for upperclass students under faculty supervision. Project must be arranged by student and faculty member prior to registration. May be repeated to a maximum of 6 hours.

**Credit Hour:** 1-3  
**Prerequisites:** instructor's consent  
**Recommended:** Overall GPA 2.75; 20 hours of Biological Sciences and/ or Chemistry

**BIO_SC 4950H: Honors Research in Biology**
Individually directed field or laboratory research for upper-level Honors students, in consultation with a faculty member. Project must be arranged by student and faculty member prior to registration. May be repeated for credit. Graded on A-F basis only.

**Credit Hour:** 1-3  
**Prerequisites:** overall GPA 3.3; instructor's consent; biology or microbiology major. Honors eligibility required

**BIO_SC 4952: Undergraduate Research in Biology**
Individually directed field or laboratory research for upperclass students under faculty supervision. Project must be arranged by student and faculty member prior to registration. May be repeated to a maximum of 6 hours.

**Credit Hour:** 1-3
**Prerequisites:** BIO_SC 4950; overall GPA 2.75; instructor's consent

**BIO_SC 4952H: Honors Research in Biology**
Continuation of research program. Successful completion requires public presentation and leads to degree with Honors in biological sciences. May be repeated for credit for maximum of 6 hours. Graded on A-F basis only.

**Credit Hours:** 1-3

**Prerequisites:** BIO_SC 4950H; overall GPA 3.3; instructor's consent. Honors eligibility required

**BIO_SC 4960: Special Readings in Biological Sciences**
Independent readings and discussions of topics in biology selected in consultation with supervising faculty member. Selected sections of this course may be graded either on A-F or S/U basis only.

**Credit Hours:** 1-3

**Prerequisites:** senior standing in Biological Sciences and instructor's consent

**BIO_SC 4970: Neurobiology Laboratory**
Laboratory experience with experimental neurobiology, with emphasis on neural networks, motor systems, and developmental neurobiology.

**Credit Hours:** 3

**Prerequisites:** BIO_SC 3700 or BIO_SC 4500 or instructor's consent

**BIO_SC 4972: Developmental Biology**
Analysis of the molecular, genetic, cellular, and morphological processes responsible for phenotypic changes in developing organisms. A variety of experimental systems are discussed to identify common mechanisms used by developing organisms.

**Credit Hours:** 3

**Prerequisites:** BIO_SC 2200, BIO_SC 2300, CHEM 2100

**BIO_SC 4972W: Developmental Biology**
Analysis of the molecular, genetic, cellular, and morphological processes responsible for phenotypic changes in developing organisms. A variety of experimental systems are discussed to identify common mechanisms used by developing organisms.

**Credit Hours:** 3

**Prerequisites:** BIO_SC 2200, BIO_SC 2300, CHEM 2100

**BIO_SC 4974: Molecular Biology Laboratory**
Emphasizes recently developed genetic and biochemical techniques; illustrates how they apply to contemporary problems in biological research. Prerequisites: BIO_SC 2200 or BIOCHM 4272 or

**Credit Hours:** 3

**Corequisites:** BIO_SC 4976

**BIO_SC 4976: Molecular Biology**
(cross-leveled with BIO_SC 7976). Molecular mechanisms of DNA replication, mutation, recombination and gene expression in prokaryotes, eukaryotes, and their viruses; gene fine structure; genetic engineering.

**Credit Hours:** 3

**Prerequisites:** BIO_SC 2200 and BIO_SC 2300

**BIO_SC 4978: Cancer Biology**
(same as BIOCHM 4978; cross-leveled with BIO_SC 7978, BIOCHM 7978). The cellular and molecular basis of cancer, with emphasis on the application of genomics, proteomics, and genetic manipulations in model organisms to the study of cancer biology.

**Credit Hours:** 3

**Prerequisites:** BIO_SC 2200 and BIO_SC 2300

**Recommended:** BIO_SC 4976 or BIOCHM 4270 and BIOCHM 4272

**BIO_SC 4980: Cellular Interactions in Health and Disease**
(cross-leveled with BIO_SC 7980). The cell as a functional unit.

**Credit Hours:** 3

**Prerequisites:** 10 hours Biological Sciences and 5 hours Physics and 5 hours Organic Chemistry

**Recommended:** some background in Biochemistry and/or Molecular Biology

**BIO_SC 4982: Human Inherited Diseases**
(cross-leveled with BIO_SC 7982). Analysis of the molecular and cellular mechanisms underlying inherited diseases in humans. Topics include genetics of sex determination, metabolic disorders, cancer, blood groups, transplantation, AIDS.

**Credit Hours:** 3

**Prerequisites:** BIO_SC 2200 and BIO_SC 2300

**BIO_SC 4982W: Human Inherited Diseases - Writing Intensive**
(cross-leveled with BIO_SC 7982). Analysis of the molecular and cellular mechanisms underlying inherited diseases in humans. Topics include genetics of sex determination, metabolic disorders, cancer, blood groups, transplantation, AIDS.

**Credit Hours:** 3

**Prerequisites:** BIO_SC 2200 and BIO_SC 2300

**BIO_SC 4983: Molecular Ecology**
Application of molecular genetic techniques to topics in ecology and population biology such as sex ratios, dispersal, mating systems, biogeography and conservation genetics.

**Credit Hours:** 4

**Prerequisites:** BIO_SC 3400 or BIO_SC 2200 and BIO_SC 3650

**BIO_SC 4984: Mammalian Reproductive Biology**
Adult reproductive anatomy, physiology and behavior; gametogenesis and fertilization; placentation; sexual differentiation; parturition; maternal behavior and lactation; puberty; reproductive aging; reproductive ecology.

**Credit Hours:** 3

**Prerequisites:** junior standing

**Recommended:** 15 hours of Biological Sciences

**BIO_SC 4986: Neurology of Motor Systems**
(cross-leveled with BIO_SC 7986). Examination of the function of neural networks at all levels, from properties of single neurons to large collections of neural elements.

**Credit Hours:** 3

**Prerequisites:** BIO_SC 3700 or instructor's consent
**BIO_SC 4988: Nerve Cells and Behavior**
The cellular basis of behavior. Molecular and cellular properties of nerve cells, as related to behavior, will be represented and discussed.

**Credit Hours:** 3  
**Prerequisites:** BIO_SC 3700 or instructor's consent

**BIO_SC 4990: Vertebrate Histology and Microscopic Anatomy**
Microscopic anatomy of vertebrate tissues and organs. Includes lab.

**Credit Hours:** 5  
**Prerequisites:** junior standing  
**Recommended:** BIO_SC 3700, or equivalent

**BIO_SC 4994: Senior Seminar**
Readings and critical evaluation of selected problems and theories in biology. Offered in one or more sections, with specialized subdisciplinary emphasis.

**Credit Hour:** 1-3  
**Prerequisites:** Biological Sciences major, senior standing

**BIO_SC 4994H: Senior Seminar - Honors**
Readings and critical evaluation of selected problems and theories in biology. Offered in one or more sections, with specialized subdisciplinary emphasis.

**Credit Hour:** 1-3  
**Prerequisites:** Biological Sciences major, senior standing; Honors eligibility required

**BIO_SC 4994HW: Senior Seminar - Honors/Writing Intensive**
Readings and critical evaluation of selected problems and theories in biology. Offered in one or more sections, with specialized subdisciplinary emphasis.

**Credit Hour:** 1-3  
**Prerequisites:** Biological Sciences major, senior standing; Honors eligibility required

**BIO_SC 4994W: Senior Seminar - Writing Intensive**
Readings and critical evaluation of selected problems and theories in biology. Offered in one or more sections, with specialized subdisciplinary emphasis.

**Credit Hour:** 1-3  
**Prerequisites:** Biological Sciences major, senior standing

**BIO_SC 7002: Topics in Biological Sciences**
Advanced topics not in regularly offered courses. May be repeated for credit. Graded on A-F basis only.

**Credit Hour:** 1-99  
**Prerequisites:** instructor's consent

**BIO_SC 7100: Limnology**
(same as F_W 7100; cross-leveled with BIO_SC 4100, F_W 4100).  
(lecture/lab: 4 hrs.; lecture only: 3 hrs.) Ecology of inland waters with emphasis on productivity.

**Credit Hour:** 3-4  
**Prerequisites:** graduate standing or BIO_SC 3650

**BIO_SC 7300: Analysis of Biological Macromolecules**
(cross-leveled with BIO_SC 4300) Theory/application of techniques used for characterization of proteins and nucleic acids. Topics include sedimentation velocity; equilibrium; sucrose density gradients; electrophoresis; spectrophotometry. Graded on A-F basis only.

**Credit Hours:** 3  
**Prerequisites:** BIO_SC 2300; BIOCHM 4270; MATH 1500; 1 year of physics

**BIO_SC 7310: Physics in Cell and Developmental Biology**
(same as PHYSCS 7310 and MPP 7300; cross-level with BIO_SC 4310, PHYSCS 4310). Discusses the role of physical mechanisms in specific cellular and developmental processes and phenomena, in particular those characterizing the embryonic stage of multicellular organisms. Each process and phenomenon is first described in biological terms and then within a physical model, with special emphasis on the interplay between the two descriptions.

**Credit Hours:** 3  
**Prerequisites:** instructor's consent or PHYSCS 1220 or PHYSCS 2760 and BIO_SC 2300

**BIO_SC 7320: Molecular Plant Physiology**
(same as PLNT_S 7320; cross-leveled with BIO_SC 4320, PLNT_S 4320). Modern physiology of higher plants using common cultivated plants as examples. May be taken with or without laboratory.

**Credit Hours:** 3  
**Prerequisites:** BIO_SC 1200 or BIO_SC 1500 and 5 hours Chemistry

**BIO_SC 7328: Introductory Radiation Biology**
(same as NU_ENG 7328, RADIOL 7328, V_M_S 7328; cross-leveled with BIO_SC 4328, NU_ENG 4328, RADIOL 4328). Concepts of ionizing radiations, their actions on matter through effects on simple chemical systems, biological molecules, cell, organisms, man.

**Credit Hours:** 3  
**Prerequisites:** Sciences/Engineering; one course in Biological Sciences and Physics/Chemistry; or instructor's consent

**BIO_SC 7350: Summer Institute in Biotechnology**
Development of experiments in molecular genetics for use in high school biology laboratories. May be repeated for credit.

**Credit Hours:** 3  
**Prerequisites:** instructor's consent

**BIO_SC 7374: Molecular Biology Laboratory**
Emphasizes recently developed genetic and biochemical techniques; illustrates how they apply to contemporary problems in biological research.

**Credit Hours:** 3  
**Prerequisites:** BIO_SC 2200, BIOCHM 4272 or concurrent registration in BIO_SC 4976

<th>Course Code</th>
<th>Course Title</th>
<th>Description</th>
<th>Credit Hours</th>
<th>Prerequisites</th>
</tr>
</thead>
<tbody>
<tr>
<td>BIO_SC 7400</td>
<td>Plant Anatomy</td>
<td>(same as PLNT_S 7400; cross-leveled with BIO_SC 4400, PLNT_S 4400). Comparative study, growth of meristems; development, structure of important cell types, tissues systems; comparative anatomy of stem root, leaf. Emphasizes anatomy of gymnosperms, angiosperms. Includes lab. Graded on A-F basis only.</td>
<td>4</td>
<td>BIO_SC 1200 or equivalent</td>
</tr>
<tr>
<td>BIO_SC 7490</td>
<td>Vertebrate Histology and Microscopic Anatomy</td>
<td>Microscopic anatomy of vertebrate tissues and organs. Graded on A-F basis only.</td>
<td>5</td>
<td>BIO_SC 2300 and BIO_SC 3700, or equivalent</td>
</tr>
<tr>
<td>BIO_SC 7500</td>
<td>Neurobiology</td>
<td>(cross-leveled with BIO_SC 4500). Vertebrate and invertebrate neurobiology, including cell and molecular biology of the neuron, neurophysiology, neuranatomy, neurothology and developmental biology. Graded on A-F basis only.</td>
<td>3</td>
<td>BIO_SC 2300 or BIO_SC 3700</td>
</tr>
<tr>
<td>BIO_SC 7560</td>
<td>Sensory Physiology and Behavior</td>
<td>(cross-leveled with BIO_SC 4560). Basic principles of coding and integration of sensory stimuli; neural correlates of animal behavior; environmental influences on postnatal sensory development.</td>
<td>3</td>
<td>BIO_SC 4500 or equivalent</td>
</tr>
<tr>
<td>BIO_SC 7580</td>
<td>Computational Neuroscience</td>
<td>(Same as BIOL_EN 7575, ECE 7580; cross-leveled with BIO_SC 4580, BIOL_EN 4575, ECE 4580). An interdisciplinary course with a strong foundation in quantitative sciences for students in biological and behavioral sciences and an introduction to experimental methods for students from quantitative sciences.</td>
<td>3</td>
<td>BIO_SC 1010 or BIO_SC 1500, MATH 1500</td>
</tr>
<tr>
<td>BIO_SC 7640</td>
<td>Behavioral Biology</td>
<td>(cross-leveled with BIO_SC 4640). Comparative study of animal ethology. Principles of animal ethology illustrated in different animal phyla.</td>
<td>3</td>
<td>BIO_SC 1500 and one additional upper-level course in Biological Sciences or Psychology</td>
</tr>
<tr>
<td>BIO_SC 7660</td>
<td>Plant Population Biology</td>
<td>(cross-leveled with BIO_SC 4660). Covers the ecological and evolutionary processes that influence the distribution and abundance of plant species. Topics include evolution of life history schedules, gender evolution, population growth and demography, competition, herbivory, plant-pollinator interactions, clonal growth, and plant community structure.</td>
<td>4</td>
<td>2 courses in Biological Sciences</td>
</tr>
<tr>
<td>BIO_SC 7670</td>
<td>Avian Ecology</td>
<td>(cross-leveled with BIO_SC 4670). Advanced examination of ecological patterns in birds. Explores the environmental factors affecting the evolution of avian behavior, morphology, community structure and distribution.</td>
<td>3</td>
<td>BIO_SC 2060 or BIO_SC 3650; BIO_SC 2600</td>
</tr>
<tr>
<td>BIO_SC 7967</td>
<td>Molecular Biology</td>
<td>(cross-leveled with BIO_SC 4976). Molecular mechanisms of DNA replication, mutation, recombination and gene expression in prokaryotes, eukaryotes, and their viruses; gene fine structure; genetic engineering.</td>
<td>3</td>
<td>BIO_SC 2200 and BIO_SC 2300</td>
</tr>
<tr>
<td>BIO_SC 7976</td>
<td>Cancer Biology</td>
<td>(same as BIOCHM 7978; cross-leveled with BIO_SC 4978, BIOCHM 4978). The course will cover major molecular and cellular aspects of cancer. Students will read original research articles, present overviews and lead class discussions.</td>
<td>3</td>
<td>BIOCHM 4270, BIO_SC 2300 and BIO_SC 4976 or equivalent</td>
</tr>
<tr>
<td>BIO_SC 7980</td>
<td>Cellular Interactions in Health and Disease</td>
<td>(cross-leveled with BIO_SC 4980). Advanced discussion of topics in cell biology and genetics as they relate to health and disease. Graded on A-F basis only.</td>
<td>3</td>
<td>BIO_SC 2200 and instructor's consent</td>
</tr>
<tr>
<td>BIO_SC 7982</td>
<td>Human Inherited Diseases</td>
<td>Advanced analysis of the molecular basis for genetic disorders in humans. Topics will include both Mendelian and complex traits with readings from the primary literature. Graded on A-F basis only.</td>
<td>3</td>
<td>BIO_SC 2200 and instructor's consent</td>
</tr>
<tr>
<td>BIO_SC 7986</td>
<td>Neurology of Motor Systems</td>
<td>(cross-leveled with BIO_SC 4986). Examination of the function of neural networks at all levels, from properties of single neurons to large collections of neural elements. Graded on A-F basis only.</td>
<td>3</td>
<td>BIO_SC 3700</td>
</tr>
<tr>
<td>BIO_SC 7990</td>
<td>Non-thesis Research</td>
<td>Independent research not leading to a thesis. Some sections may be offered on either A-F or S/U grading basis.</td>
<td>1-99</td>
<td>instructor's consent</td>
</tr>
</tbody>
</table>
BIO_SC 8002: Topics in Biological Sciences- Biological/Physical/Mathematics
Advanced topics not in regularly offered courses.
Credit Hour: 1-99
Prerequisites: instructor's consent

BIO_SC 8050: Professional Survival Skills
Introduction to resources, facilities, and communication skills for professional careers in biological sciences. Topics include computer resources, accessing scientific literature, making slides and figures, grantsmanship, resume preparation, manuscript review, and research presentation.
Credit Hours: 2

BIO_SC 8060: Ethical Conduct of Research
(same as BIOCHM 8060). Discussion of ethical issues in biological research, including the rules and conventions for appropriate research conduct. Graded on S/U basis only.
Credit Hour: 1

BIO_SC 8070: Professional Communication Development
The purpose of this course is to develop professional communication skills in students that are planning to attend (or are in their first year of) graduate training. Some sections may be offered with A-F or S/U grading option.
Credit Hour: 1-2

BIO_SC 8080: Workshop in Area of Specialization
Intensive course in the theory and methodology of biological investigation. Conducted by visiting scientists. Offered in one or more specialized sections. May be repeated for credit.
Credit Hour: 1
Prerequisites: graduate standing or instructor's consent

BIO_SC 8085: Problems in Biological Sciences
Research not expected to terminate in thesis, or individual advanced study in special subjects.
Credit Hour: 1-99
Prerequisites: instructor's consent

BIO_SC 8087: Seminar
Current topics in the biological sciences. Open to all graduate students. Graded S/U basis only.
Credit Hour: 1

BIO_SC 8090: Research in Biological Sciences
Research leading to thesis. Graded on S/U basis only.
Credit Hour: 1-99
Prerequisites: instructor's consent

BIO_SC 8187: Seminar in Areas of Specialization
Offered each semester in one or more specialized sections followed by the topic title of the seminar. Graded on S/U basis only.

BIO_SC 8300: Advanced Plant Genetics
Genetic approaches to molecular and biochemical studies in maize, wheat, and Arabidopsis.
Credit Hours: 3
Prerequisites: General Genetics and course in Cell Biology or Plant Physiology

BIO_SC 8310: Fungal Genetics and Biology
Introduction to fungal research, with an emphasis on genetics, biochemistry, cell and molecular biology, and pathogenicity of fungi. Graded A-F only.
Credit Hours: 3

BIO_SC 8320: Developmental Genetics
An overview of various developing systems amenable to classical and molecular genetic analysis. Specific developmental phenomena will be introduced in particular model systems, with an emphasis on experimental approaches used to address the underlying mechanisms.
Credit Hours: 3
Prerequisites: BIO_SC 2200 and BIOCHM 7270, BIOCHM 7272, or equivalent

BIO_SC 8330: Stem Cell Biology
A comparative approach to stem cell biology, with emphasis on embryonic, neural and bone marrow-derived stem cells in rodents and humans. Ethical considerations associated with the use of stem cells to study development and repair mechanisms will also be addressed. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: BIO_SC 2300

BIO_SC 8340: Advanced Microscopy Techniques
Electron microscopy and modern light microscopy techniques including epifluorescence, confocal fluorescence microscopy, low light video microscopy, differential interference optics, and computerized image analysis.
Credit Hours: 3
Prerequisites: BIO_SC 4990 or BIO_SC 8350 and instructor's consent

BIO_SC 8350: Advanced Cell Biology
Structure and function of membranes; cell ultrastructure; organelar function; cellular movement; microtubules; microfilaments; mitosis and meiosis.
Credit Hours: 3
Prerequisites: BIO_SC 2300; instructor's consent

BIO_SC 8362: Introduction to Plant Metabolism
(same as PLNT_S 8362, BIOCHM 8362). This course is part of a series that aims to provide a solid conceptual foundation in interdisciplinary plant biology for graduate students with a research emphasis in plant biology. This course examines the basic concepts and techniques used to understand plant metabolism. Graded on A-F basis only.
BIO_SC 8365: Introduction to Molecular Cell Biology
(same as BIOCHM 8365, PLNT_S 8365). This course is part of a series that aims to provide a solid conceptual foundation in interdisciplinary plant biology for graduate students with a research emphasis on plant biology. This course examines the basic concepts and techniques used to understand molecular cell biology. Graded on A-F basis only.

Credit Hours: 2

BIO_SC 8370: Plant Developmental Biology
Critical discussions of recent publications in plant development, with particular focus on developmental genetics.

Credit Hours: 3

BIO_SC 8440: Integrative Neuroscience I
(same as NEUROSCI 8440). Organization, development and function of the nervous system focusing on cellular and molecular processes. Graded on A-F basis only.

Credit Hours: 3

BIO_SC 8442: Integrative Neuroscience II
(same as NEUROSCI 8442). Organization and function of the nervous system at the systems level to examine processes of behavior and cognition. Graded on A-F basis only.

Credit Hours: 3

BIO_SC 8450: Developmental Neurobiology

Credit Hours: 3

Prerequisites: BIO_SC 4500 or equivalent

BIO_SC 8460: Advanced Cancer Biology
A study of the molecular basis of cancer, including topics in tumor cell biology, interactions between cancer cells and normal cells, mechanisms of metastasis, and novel approaches to development of new chemotherapies.

Credit Hours: 3

Prerequisites: BIO_SC 2200, BIO_SC 3100 or BIO_SC 3650, and STAT 1400 or equivalent

BIO_SC 8505: Introduction to Plant Stress Biology
(same as PLNT_S 8505). This course is part of a series that aims to provide a solid conceptual foundation to interdisciplinary plant biology for graduate students with a research emphasis in plant biology. This course examines the basic concepts and techniques used to understand plant stress biology. Graded on A-F basis only.

Credit Hours: 2

BIO_SC 8520: Sensory Ecology
A study of information exchange and acquisition in organisms, with an emphasis on communication, orientation, and predator detection. The course will also examine the effects of biotic and abiotic factors on sensory systems.

Credit Hours: 3

BIO_SC 8600: Design of Ecological Experiments
Principles of experimental design in the context of ecological, behavioral, and evolutionary research.

Credit Hours: 2

Prerequisites: STAT 1400

BIO_SC 8610: Current Concepts in Conservation Biology
Survey of current concepts in conservation biology literature. Discussions will provide students with an appreciation of the historical development of concepts, the interdisciplinary nature of conservation problems, and the research required for effective solutions.

Credit Hours: 2

BIO_SC 8620: Phylogenetic Methods and Applications
A review of principles for constructing and testing phylogenies followed by a survey of methods for inferring ancestral characteristics and adaptive features in living species.

Credit Hours: 4

BIO_SC 8633: Molecular and Network Evolution
(same as AN_SCI 8633). Evolution of biological macromolecules and networks, including sequence analysis algorithms and theory, phylogenetics, gene duplication, genome evolution, principles of biological networks. Development of computational skills emphasized.

Credit Hours: 3

Prerequisites: Instructor's consent required

BIO_SC 8650: Ecological and Evolutionary Genomics
(same as PLNT_S 8650). This course is designed to give a background in evolution and then explore an exciting new field: Ecological and evolutionary genomics. We will study genes that affect fitness and how whole genomes evolve. Graded on A-F basis only.

Credit Hours: 2

BIO_SC 8700: Ecological Genetics
Population genetics and evolutionary theory, with emphasis on studies of natural populations.

Credit Hours: 3

Prerequisites: BIO_SC 2200, BIO_SC 3100 or BIO_SC 3650, and STAT 1400 or equivalent

BIO_SC 8720: Speciation
Advanced discussion of species concepts and the processes of formation of species.

Credit Hours: 3

Prerequisites: BIO_SC 2200 and BIO_SC 4600

BIO_SC 8724: College Science Teaching
(same as LTC 8724, PHYSCS 8310, ASTRON 8310). Study of learner characteristics, teaching strategies, and research findings related to teaching science at the post-secondary level.

Credit Hours: 3
**BIO_SC 8725: Science Outreach: Public Understanding of Science**  
(same as AN_SC 8725, PHYSCS 8350, LTC 8725). Development of presentations to adult audiences on the science underlying issues of current interest. May be repeated for credit.  
**Credit Hour:** 1-2

**BIO_SC 8726: Integrating Science with Outreach**  
(same as LTC 8726). This course provides an opportunity for students to earn credit for outreach activities in the community. Students will capitalize on their area of study and scientific expertise in developing, implementing, and evaluating related outreach activities. May be repeated for credit.  
**Credit Hour:** 1-6

**BIO_SC 8730: Advanced Community Ecology**  
Detailed examination of new happenings in population and community ecology. Topics vary but will include species interactions, community structure, reproductive strategies.  
**Credit Hours:** 3  
**Prerequisites:** BIO_SC 3650 or instructor's consent

**BIO_SC 8740: Plant/Animal Interactions**  
Discussion and lectures on herbivory, pollination biology, and dynamics of fruit and seed dispersal from ecological and evolutionary perspectives.  
**Credit Hours:** 3  
**Prerequisites:** BIO_SC 3650 or BIO_SC 4660 or equivalent

**BIO_SC 8982: Advances in Human Genetic Disorders**  
Critical review of recent publications describing the molecular and cellular processes underlying genetic disorders in humans. Graded on A-F basis only.  
**Credit Hour:** 1  
**Prerequisites:** BIO_SC 4982 or concurrent enrollment in BIO_SC 7982

**BIO_SC 9090: Research in Biological Sciences**  
Research leading to dissertation. Graded on S/U basis only.  
**Credit Hour:** 1-99  
**Prerequisites:** instructor's consent

**BIO_SC 9432: Molecular Biology II**  
(same as MICROB 9432, BIOCHM 9432) Detailed experimental analysis of eukaryotic cellular and molecular biology relevant to cellular and viral gene expression, post-transcriptional and post-translational modifications and genome replication. Models for developmental genetic analysis and genetic determinants controlling processes utilizing the current literature will be examined.  
**Credit Hours:** 4  
**Prerequisites:** MICROB 9430

**BIO_SC 9468: Molecular Biology of Plant Growth and Development**  
(same as BIOCHM 9468). Molecular biology of plant hormones, signal transduction, environmental signals.  
**Credit Hours:** 3

**Prerequisites:** BIO_SC 4976

---

**Biomedical Sciences Courses**

**BIOMED 1010: Biomedical Career Explorations**  
An introduction to the variety of career possibilities within the growing field of biomedical sciences. Graded on S/U basis only.  
**Credit Hour:** 1

**BIOMED 2001: Topics in Veterinary Biomedical Science**  
May be repeated 2 times for credit. Graded on A-F basis only.  
**Prerequisites:** instructor's consent  
**Credit Hour:** 1-99

**BIOMED 2085: Problems in Biomedical Research**  
Assignment of special Topics for Research training in biomedical research.  
**Credit Hour:** 1-99  
**Prerequisites:** instructor's consent

**BIOMED 2110: Biomedical Terminology**  
Life science etymology (Greek for "true meaning", means the study of word derivation) taught by classroom presentation and discussion. The course organization is based primarily on common themes of Greek and Latin terms along with historical reasons for current usage. The application of these terms is for all biomedical sciences and life sciences. Graded on A-F basis only.  
**Credit Hours:** 3

**BIOMED 2111: Veterinary Medical Terminology**  
Veterinary Medical Terminology is an extension of Biomedical Sciences 2110, Biomedical Terminology. The course organization is lecture, based primarily on domestic species and common themes of Greek and Latin terms. In addition, major veterinary medical eponyms, acronyms, and medical and surgical instruments are included. Graded on A-F basis only.  
**Credit Hour:** 1  
**Prerequisites:** BIOMED 2110 or instructor's consent

**BIOMED 2120: Essentials of Animal Handling and Physical Restraint**  
Fundamentals of handling and physical restraint of domestic large and small animals, laboratory animals, and common non-domestic pets. Graded on A-F basis only.  
**Credit Hours:** 2

**BIOMED 2140: Companion Animals**  
(same as AN_SC 2140). Companion animals form an important part of our society. They serve us, provide companionship and many become members of our families. This class focuses primarily on dogs, cats, and horses. Topics covered include: the pet industry, breeds, wellness, management, care, training, zoonotic diseases, evolution and domestication, toxicology, nutrition, reproduction, genetics, human animal interactions, companion animal enterprise, and biomedical research. Students may enroll in one of two sections: service learning section or traditional course section.  
**Credit Hours:** 3
Recommended: sophomore standing

BIOMED 2210: Microbiology for the Health Sciences
Introductory course for students in the applied health curricula. Presents biomolecules of life, enzyme interaction, physiology and structure of representative organisms. Emphasizes bacteria, viruses, fungi and protoza of health significance. Graded on A-F basis only.
Credit Hours: 5
Prerequisites: CHEM 1100 or equivalent and instructor's consent

BIOMED 2230: Animal Sanitation and Disease Prevention
Preventative measures for diseases and parasites of farm animals.
Credit Hours: 3

BIOMED 2235: Domestic Animal Behavior
An examination of the effects of domestication on the behavior of companion and food animal species. Comparisons to similar animals in feral or wild conditions will be made. The causes, development and potential treatments of abnormal behavior will also be examined. Graded on A-F basis only.
Credit Hours: 3

BIOMED 2420: Biology of Healthy Living
(same as PH_THR 2420 and NEP 2420). Biology of inactivity as a casual factor in chronic disease.
Credit Hours: 2

BIOMED 2940: Internship in Biomedical Sciences
Supervised work experience to develop technical skills and enhance student knowledge in an area of biomedical science. Not intended for more than 50% independent research. Graded on S/U basis only.
Credit Hours: 1-6
Prerequisites: sophomore standing and instructor's consent

BIOMED 3000: Specialty Careers for Veterinary Technicians
Specialty careers for veterinary technicians are jobs which required knowledge and skills beyond those needed in primary care clinical veterinary practice. This course will explore veterinary technician specialties, the education required, and the advantages of advanced academic training. Course graded on A-F basis only.
Credit Hour: 1
Prerequisites: AAS degree in veterinary technology or instructor's consent required

BIOMED 3001: Topics in Biomedical Sciences
Topics in Biomedical Sciences.
Credit Hour: 1-99

BIOMED 3085: Problems in Biomedical Science
Assignment of special topics for research training in biomedical research.
Credit Hour: 1-99
Prerequisites: DVM degree and instructor's consent

BIOMED 3100: Biomedical Pathophysiology
Pathophysiology is the study of changes in the body resulting from disease. This course requires knowledge of normal anatomy and physiology. A comparative approach is used involving both domestic animal and human examples. Course graded on A-F basis only.
Credit Hours: 3
Prerequisites: AN_SCI 3254 or BIO_SC 3700 or equivalent, AAS or equivalent degree from AVMA-accredited program or instructor's consent

BIOMED 3200: Comparative Hematology
Hematology is the study of blood cells in health and disease. Emphasis in this course is placed on the changes associated with disease. Transfusion medicine and coagulation disorders will also be included. Course graded on A-F basis only.
Credit Hours: 3
Prerequisites: AN_SCI 3254 or BIO_SC 3700 or equivalent, AAS or equivalent degree from AVMA-accredited program or instructor's consent

BIOMED 3219: Elements of Comparative Anatomy
This course is designed to give students an introduction to and appreciation for comparative anatomy of various species encountered in animal science, veterinary technology and veterinary medicine. Detailed and labeled photos of dissected specimens are used to aid instruction. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: five hours of biological science or zoology or equivalent or instructor's consent or an AAS degree in veterinary technology

BIOMED 3250: Parasitology
(same as BIO_SC 3250) Parasitism is considered as a fundamental type of interspecies interaction. Identifying characteristics, life cycle, and resulting disease caused by the common parasites of domestic animals, common laboratory animals, selected wildlife, and humans are described. Special emphasis is given to parasites that can be transmitted from animals to man.
Credit Hours: 3
Prerequisites: 8 hours of biology or instructor's consent

BIOMED 3300: Animal Welfare and Ethics
An introductory examination of ethical issues related to animal welfare, including animal use for food, research, and companionship, plus contemporary issues affecting companion animals, farm animals, and horses. Topics related to animal pain and legal status will also be discussed. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: 8 hours of biology or instructor's consent

BIOMED 3310: Equine Health Topics
An in-depth examination of equine disease and health topics that are pertinent to today's horse owner and veterinarian. The course will integrate horse management practices with disease recognition, control and prevention. Students will learn how to recognize problems and when to call a veterinarian. Emerging disease problems such as West Nile Virus will be examined as well as topics of continuing concern. Graded on A-F basis only.
Credit Hours: 3
BIOMED 3320: Comparative Microscopic Anatomy
The course will provide students with a background in the structure of body organs at the microscopic level. The material will emphasize structure-function relationship of cells and organs using material from diverse animal species, including human, that exemplify unique adaptations to environmental or physiological requirements.

Credit Hours: 3
Prerequisites: AN_SCI 4977 or equivalent or instructor's consent

BIOMED 3326: Comparative Pharmacology
An introduction to terminology used in pharmacology. Mechanisms of drug administration, absorption, distribution, metabolism, and excretion are described. Treatment modalities in animals and humans are compared. Basics of drug actions and the medicolegal aspects of pharmacology are discussed.

Credit Hours: 3
Prerequisites: an AAS degree in veterinary technology or AN_SCI 3254 or BIO_SC 3700, or equivalent, or instructor's consent

BIOMED 4001: Topics in Biomedical Sciences
Topics in Biomedical Sciences.

Credit Hour: 1-99

BIOMED 4010: Life Sciences Research: Models and Methods (cross-leveled with BIOMED 7010, V_BSCI 7010). A review of basic laboratory animal and non-animal research models and procedures commonly used in the life sciences area in academia and drug/chemical industry. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: Biology or Cell Biology; junior standing required

BIOMED 4100: Veterinary Clinical Chemistry (cross-leveled with V_PBIO 7109). This course is designed to hone the skills of the practicing veterinary technician, veterinary student, or veterinarian and assumes some basic knowledge of normal serum chemistry and urinalysis results. The review of normal will be minimal and emphasis will be placed on clinical serum chemistry and urinalysis findings associated with diseases. The graduate level course will include discussion of ancillary tests and more extensive case interpretations.

Credit Hours: 3
Prerequisites: An AAS or equivalent degree in veterinary technology from an American Veterinary Medical Association accredited program; Undergraduate physiology on mammals (AN_SCI 3254, BIO_SC 3700, or equivalent
Recommended: BIOMED 2110 and BIOMED 3200 or instructor's consent

BIOMED 4110: Veterinary Cytology (cross-leveled with V_PBIO 7110). This course of Veterinary Cytology is designed to hone the skills of the practicing Veterinary Technician, Veterinary Student, or Veterinarian and assumes some basic knowledge of microscope usage and normal hematology. The review of normal cells will be minimal and emphasis will be placed on findings associated with inflammatory and neoplastic diseases. The graduate level course will include discussion of ancillary tests, special stains and treatment alternatives. The focus will be on canine and feline diseases but some common equine and bovine disease. Prerequisites: An AAS or equivalent degree in veterinary technology from an American Veterinary Medical Association-accredited program, or instructor’s consent

Credit Hours: 2
Recommended: BIOMED 3200 and BIOMED 2110

BIOMED 4120: Principles of Toxicology (cross-leveled with V_PBIO 7120). This course will provide an introduction to the general principles of toxicology, including the history and scope of the field; risk assessment and management; mechanisms of toxicology; the disposition of toxicants; non-target organ-directed toxicity; toxic responses of specific target organs; and various toxicological application, such as environmental toxicology.

Credit Hours: 3
Prerequisites: one year of college chemistry and biology, each or instructor's consent

BIOMED 4200: Veterinary Public Health and Community Practice Veterinary Public Health is the field of veterinary medicine that deals with food production and safety, zoonosis (animal to human) disease control, prevent and control of environmental contamination, and the role of animals in society. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: AN_SCI 3254 or BIO_SC 3700 or equivalent, AAS or equivalent degree from AVMA-accredited program or instructors consent

BIOMED 4210: Animal Issues in Disasters (cross-leveled with V_PBIO 7210). This course describes the various aspects of responding to disasters that involve animals. Government involvement, legal requirements, effects on the human-animal bond, preparation for disasters of different kinds, and impacts on animal-related businesses will be discussed.

Credit Hour: 1
Prerequisites: an AAS in veterinary technology from an American Veterinary Medical Association accredited program, or equivalent training, or instructor's consent

BIOMED 4300: Clinical Veterinary Neurology
Clinical veterinary neurology will review the neurologic examination, common neurologic diseases and techniques to properly care for the neurologic patient. The course organization is based primarily on neuroanatomic localization of disease. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: AAS in Veterinary Technology or BIOMED 3219 and 3100 or instructor's consent; junior or senior standing

BIOMED 4320: Fundamentals of Small Animal Emergency and Critical Care (cross-leveled with V_BSCI 7320). This course will provide students with the knowledge and skills to assist in small animal medical emergency and critical care facilities.

Credit Hours: 3
Prerequisites: An AAS in veterinary technology from an American Veterinary Medical Association accredited program, or equivalent training, or Instructor's consent

**BIOMED 4333: Veterinary Cell Biology**
(same as V_BSCI 5506). Course material stresses cell biology as related to animal health and medical issues. A comprehensive course overviewing molecular and biochemical issues of cell function especially as related to medicine and the underlying molecular causes of disease.

Credit Hours: 4
Prerequisites: BIO_SC 1500, or equivalent, 1 course in biochemistry or 4 credit hours in chemistry; or instructor's consent

**BIOMED 4400: Veterinary Surgical Nursing**
Veterinary Surgical Nursing will enable the student to properly identify, care for, and maintain surgical equipment. The course will also prepare the student to learn surgical anatomy as well as the potential complications of common clinical setting surgeries. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: BIOMED 2111, BIOMED 3219, and BIOMED 3100, or instructor's consent

**BIOMED 4410: Small Animal Physical Rehabilitation**
This course will review the science of veterinary rehabilitation, assessment of rehabilitation patients, and the techniques used to treat these patients. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: AAS degree in veterinary technology or BIOMED 2110 or HTH_PR 2190 or equivalent, plus BIOMED 3219 or PTH_AS 2201 or equivalent, or instructor's permission

**BIOMED 4500: Equine Critical Care and Nursing**
This course provides advanced information for veterinary technicians, veterinary assistants, and pre-veterinary students wishing to enhance and focus their understanding of equine critical care and nursing concepts. Course graded on A-F basis only.

Credit Hours: 3
Prerequisites: AN_SCI 2095 and AN_SCI 3254 or BIO_SC 3700 or equivalents, AAS or equivalent degree from AVMA-accredited program or instructor's consent

**BIOMED 4510: Equine Clinical Anatomy: Forelimbs**
(cross-leveled with V_BSCI 7510). Basic foundation in selected aspects of equine clinical anatomy from veterinary technicians, pre-veterinary students, and other students wishing to enhance their understanding of anatomical structures of the horse's forelimbs.

Credit Hour: 1
Prerequisites: five hours of biologic science or zoology, or equivalent, or instructor's consent, or an AAS or equivalent degree in veterinary technology from an American Veterinary Medical Association accredited program

**BIOMED 4520: Equine Clinical Practice**
This course is an introduction to a common medical conditions of the horse. Emphasis will be placed on the presenting complaint and the veterinarians approach to diagnosis, treatment, and prognosis.

Credit Hour: 1
Prerequisites: BIOMED 2110, BIOMED 2111 and AN_SCI 4977 or their equivalents, or an associate's degree in veterinary technology, or instructor's consent

**BIOMED 4993: Internship in Veterinary Medical Technical Specialties**
Supervised work experience in the MU Veterinary Medical Teaching Hospital of affiliated veterinary medical specialty practices or in MU laboratory animal facilities to develop technical skills and knowledge relevant to becoming a specialist in veterinary medical technology. A written report and oral presentation are required. Graded on S/U basis only.

Credit Hour: 1-6
Prerequisites: junior standing, an AAS degree from an AVMA accredited veterinary technical program or its equivalent, and instructor's consent

**BIOMED 7010: Life Sciences Research: Models and Methods**
(same as V_BSCI 7010; cross-leveled with BIOMED 4010). A review of basic laboratory animal and non-animal research models and procedures commonly used in the life sciences area in academia and drug/chemical industry. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: Biology or Cell Biology

**BIOMED 9090: Research - Biomedical Sciences**
Research hours for BMS doctoral students continuous enrollment. Graded on S/U basis only.

Credit Hour: 1-99
Prerequisites: instructor's consent

**BIOMED 9434: Gonadal Function**
(same as AN_SCI 9434). Survey of current and in-depth mechanisms involved in ovarian, testicular, and epididymal function. Emphasis will be given to comparative differences in gonadal functions among domestic animals.

Credit Hours: 3
Prerequisites: AN_SCI 4314 or equivalent, a course in endocrinology, and biochemistry or cell biology

**Black Studies Courses**

**BL_STU 1100: Introduction to Swahili and African Culture**
Introduction to Swahili and African Culture is a three credit hour course, which serves as a survey of an indigenous African language and the culture of East Africa. There are no prior requirements.

Credit Hours: 3

**BL_STU 1250: World Theatre Workshop**
(same as THEATR 1250). Provides a diverse ensemble of student performers, writers, and technicians with an intensive immersion in
the process of theatrical production through the public presentation of dramatic literature that focuses on global issues of ethnicity and culture.

Credit Hours: 2

**BL_STU 1335: Introduction to Soul and Country**  
(same as MUSIC_NM 1335). Examination of musical cultures signified by "soul" and "country". Study of the evolution and aesthetics of these genres and how they deal with concepts like identity, class, race, and ethnicity; gender and sexuality; politics and patriotism.

Credit Hours: 3

**BL_STU 1410: African American History**  
(same as HIST 1410). Survey of social, political and economic development to the African American people in American life from 1619 to the present.

Credit Hours: 3

**BL_STU 1500: The Black Woman in America**  
(same as WGST 1500). Review and critiques of a variety of materials about Black women from slavery to present. The course allows students to generate their own view about psychological, social and philosophical impact of the Black women's struggle on all women.

Recommended: sophomore standing

**BL_STU 1705: Introduction to Black Studies in Culture**  
Introduction to the concepts, terms, themes, and practices in the study of the African diaspora cultures, through readings in literature, music, and the arts that demonstrate concepts, terms, themes, and practices. Recommended for prospective Black Studies Majors. Program consent for repetition.

Credit Hours: 3

**BL_STU 1720: African-American Theatre History**  
(same as THEATR 1720). A historical and critical analysis of the evolution of African American cultural performance in the American theatre and entertainment industry.

Credit Hours: 3

**BL_STU 1790: History of Early Africa**  
(same as HIST 1790). This course introduces students to the early history of Africa. It focuses on political, social, economic and cultural developments based on primary and secondary sources available in print and online.

Credit Hours: 3

**BL_STU 1800: History of Modern Africa**  
(same as HIST 1800). This course introduces students to the recent history of Africa. It provides them with an opportunity to understand the main challenges Africans faced since colonial times based on primary and secondary sources.

Credit Hours: 3

**BL_STU 1810: History of South Africa**  
(same as HIST 1810). South African Society from the 16th century to the present with an emphasis on the last two centuries and the consolidation of the apartheid state.

Credit Hours: 3

**BL_STU 2000: Black Studies**  
An interdisciplinary introduction to the basic concepts and literature in the disciplines covered by African-American studies. The role of historical, political, social, and economic forces in shaping cultural expression will be stressed.

Credit Hours: 3

**BL_STU 2001: Undergraduate Topics in Black Studies-General**  
Organized study of selected topics. Subjects and credits may vary from semester to semester. Program consent for repetition.

Credit Hour: 1-3

**BL_STU 2003: Undergraduate Topics in Black Studies-Behavioral Science**  
Organized study of selected topics. Subjects, specific content, and credits may vary from semester to semester. Repeatable up to 6 hours with program consent.

Credit Hours: 3

**BL_STU 2003W: Undergraduate Topics in Black Studies-Behavioral Science - Writing Intensive**  
Organized study of selected topics. Subjects, specific content, and credits may vary from semester to semester. Repeatable up to 6 hours with program consent.

Credit Hours: 3

**BL_STU 2004: Topics in Black Studies-Social Science**  
Organized study of selected topics. Subjects, specific content, and credits may vary from semester to semester. Repeatable up to 6 hours with departmental consent.

Credit Hours: 3

**BL_STU 2005: Topics in Black Studies - Humanities**  
Organized study of selected topics focusing on Black history and culture. Specific content may vary from semester to semester and will be announced in advance.

Credit Hours: 3

**BL_STU 2150: African-American Cinema**  
(same as THEATR 2150). Study of the impact of cinema and the entertainment industry on the social perceptions of African-Americans and on African-American culture.

Credit Hours: 3

**BL_STU 2200: Social Inequalities**  
(same as SOCIOL 2200). Survey of inequalities based upon criteria such as race, ethnicity, sex, age, religion and social class in contemporary
societies. Focus on dynamics by which privilege and inequality are structured.

Credit Hours: 3

**BL_STU 2210: The Black Americans**  
(same as SOCIOL 2210.) Analysis of history of blacks in the United States. Assessment of contemporary black community in terms of its institutions, style of life, patterns of work and intergroup relations.

Credit Hours: 3  
Prerequisites: SOCIOL 1000 or equivalent or instructor's consent

**BL_STU 2303: Studies in Black Relationships**  
This course examines constructions of Black American coupling and therefore, gender, race, sexuality, and class in the 20th and 21st centuries. Blackness has been and continues to be reconstructed via marriage, dating, and other forms of coupling. Emphasis will be placed on the role of socialization, institutions, mass media, myth, and individual and group practices. Students will have the opportunity to explore their own socialization and personal construction through assigned readings, self-reflection, experiential activities, and small group presentations.

Credit Hours: 3

**BL_STU 2310: Literature of the African Diaspora**  
(Same as RM_LAN 2310) A postcolonial analysis of selected literary texts interpreting the African diaspora in the Americas.

Credit Hours: 3

**BL_STU 2400: Introduction to African Diaspora Literature**  
(same as ENGLISH 2400). Introduces students to African Diaspora literature with an emphasis on literature written originally in English. No more than six hours may be taken in the Introduction to African Diaspora Literature series.

Credit Hours: 3  
Recommended: ENGLISH 1000

**BL_STU 2407: Introduction to African Diaspora Literature, 1603-17**  
(same as ENGLISH 2407). See BL_STU 2400 for course description.

Credit Hours: 3

**BL_STU 2408: Introduction to African Diaspora Literature, 1789-1890**  
(same as ENGLISH 2408). See BL_STU 2400 for course description.

Credit Hours: 3

**BL_STU 2409: Introduction to African Diaspora Literature, 1890-Present**  
(same as ENGLISH 2409). See BL_STU 2400 for course description.

Credit Hours: 3

**BL_STU 2410: African American Women in History**  
(same as HIST 2410 and WGST 2410). African American Women in history is a topics course covering major issues affecting black women since their introduction into English-speaking North America to the present.

Credit Hours: 3

**BL_STU 2450: Themes in the Geography of Africa South of the Sahara**  
(same as GEOG 2450). Major concepts of African geography in current and historical perspective. Case studies of major African countries.

Credit Hours: 3  
Prerequisites: sophomore standing or one introductory Geography course

**BL_STU 2500: Special Problems in Black Studies**  
Research apprenticeship with faculty member, assisting a faculty member in the development and execution of a research project. May be repeated for a maximum of six hours.

Credit Hour: 1-99  
Recommended: sophomore standing, instructor's consent

**BL_STU 2501: Undergraduate Topics in Black Studies**  
Organized study of selected topics. Subjects and credit may vary from semester to semester. Program consent for repetition.

Credit Hour: 1-3  
Recommended: sophomore standing

**BL_STU 2570: Black Religion**  
A history of religion approach to the study of black religion which takes into consideration the unique past experiences of the African American community as it underwent the terror of forced migration, slavery, segregation, and discrimination.

Credit Hours: 3

**BL_STU 2601: Languages of Africa**  
(same as ENGLISH 2601 and LINGST 2601). Introduction to the diversity of the 2000+ African languages, including first-hand experience exploring a few in detail with native speakers. Features of African languages are compared with others of the world. Political and social aspects of language in Africa are discussed.

Credit Hours: 3

**BL_STU 2610: Islam and Black America**  
A historical survey of the origins, development and impact of the Black Islamic tradition.

Credit Hours: 3

**BL_STU 2715: Studies in Black Culture**  
This course will survey selected forms of black cultural expression, from a range of U.S., Africa, and the African Diaspora cultures in various media including literature, music, film studies, as well as other related disciplines. Program consent for repetition.

Credit Hours: 3

**BL_STU 2720: African-American Visual Culture**  
(Same as AR_H_A 2720) This course introduces students to African-American art history, visual culture, and material culture in their cultural,
political, and historical contexts. Specific focuses may include the Harlem Renaissance, the Black Arts Movement, and other topics.

**Credit Hours: 3**

**BL_STU 2904: Black Studies in Slavery and Freedom**
(same as HIST 2904). This course provides study of historical background, economic, political and social implications of slavery and freedom in the African Diaspora (Americas, Africa, Europe, Asia) as well as the legal and extralegal struggles for and meaning of (global, local, and national) freedom.

**Credit Hours: 3**

**BL_STU 2940: African Religions**
(same as REL_ST 2940). This course will serve as an introduction to various forms of religiosity in sub-Saharan Africa. Greater emphasis will be devoted to the indigenous religious traditions of the continent, but we will also examine Christianity and Islam as they are practiced on the continent. The aim of this class is to help students to better understand various aspects of African cultures by dismantling stereotypes and assumptions that have long characterized the study of religions in Africa. The readings and lectures will be drawn from historical, anthropological, sociological, and literary sources. Graded on A-F basis only.

**Credit Hours: 3**

**BL_STU 2975: Theoretical Traditions in Blacks Studies - Culture**
This course provides a broad understanding of the diverse theoretical traditions within the field of Black Studies, through a comparative examination of concepts, developments, and debates in humanities, including literature, languages, and music. Course graded on A-F basis only.

**Credit Hours: 3**

**BL_STU 3001: Undergraduate Topics in Black Studies - General**
Organized study of selected topics. Subjects, specific content, and credits may vary from semester to semester. Repeatable up to 6 hours with program consent.

**Credit Hours: 3**

**BL_STU 3003: Undergraduate Topics in Black Studies - Behavioral Sciences**
Organized study of selected topics focusing on Black history, culture, or other relevant disciplines. Subjects, specific content, and credits may vary from semester to semester. Repeatable up to 6 hours with program consent.

**Credit Hour: 1-3**

**BL_STU 3004: Undergraduate Topics in Black Studies - Social Science**
Organized study of selected topics focusing on Black history, culture, or other relevant disciplines. Subjects, specific content, and credits may vary from semester to semester. Repeatable up to 6 hours with program consent.

**Credit Hour: 1-3**

**BL_STU 3004W: Undergraduate Topics in Black Studies - Social Science - Writing Intensive**
Organized study of selected topics focusing on Black history, culture, or other relevant disciplines. Subjects, specific content, and credits may vary from semester to semester. Repeatable up to 6 hours with program consent.

**Credit Hour: 1-3**

**BL_STU 3005: Undergraduate Topics in Black Studies - Humanities**
Organized study of selected topics focusing on Black history, culture, or other relevant disciplines. Subjects, specific content, and credits may vary from semester to semester. Repeatable up to six credit hours with program consent.

**Credit Hours: 3**

**BL_STU 3005H: Undergraduate Topics in Black Studies - Humanities - Honors**
Organized study of selected topics focusing on Black history, culture, or other relevant disciplines. Subjects, specific content, and credits may vary from semester to semester. Repeatable up to six credit hours with program consent.

**Credit Hours: 3**

**Prerequisites:** Honors eligibility required

**BL_STU 3100: African American Psychology**
(same as ESC_PS 3100 and PSYCH 3880). The research, theories, and paradigms developed to understand the attitudes, behaviors, and psychosocial realities of African-Americans are discussed.

**Credit Hours: 3**

**Recommended:** PSYCH 1000

(same as HIST 3200). Examines the dismantling of American apartheid and its transformation into a new racial control system. It also explores how and why the Civil Rights Movement was converted into a struggle for Black Power.

**Credit Hours: 3**

**BL_STU 3230: Studies in Black Sexual Politics**
Course explores Black transnational politics of sex/sexuality and examines the theoretical, historical, and socio-cultural context that race, gender, and sexuality are used as analytical concepts. Students learn a transdisciplinary approach and apply this newly acquired information to analyze shifts in the field of Black sexuality studies. May be repeated for credit.

**Credit Hours: 3**

**Recommended:** sophomore standing required

**BL_STU 3303: Black Athletes**
This course examines Black Athletes in the 20th and 21st centuries. Emphasis will be placed on how Blacks entered competitive athletics and the role of racism and power, socialization, institutions, mass media, myth, and individual and group practices. Students will have the opportunity to explore their own socialization and personal construction
through assigned readings, self-reflection, experiential activities, and small group presentations.

**Credit Hours:** 3

**BL_STU 3400: Survey of African American Literature, Beginnings to 1900**
(same as ENGLSH 3400). A survey of major authors and movements in African American literature from its beginnings to 1900.

**Credit Hours:** 3

**Prerequisites:** ENGLSH 1000

**BL_STU 3400W: Survey of African American Literature, Beginnings to 1900 - Writing Intensive**
(same as ENGLSH 3400). A survey of major authors and movements in African American literature from its beginnings to 1900.

**Credit Hours:** 3

**Prerequisites:** ENGLSH 1000

**BL_STU 3410: Survey of African American Literature, 1900-Present**
(same as ENGLSH 3410). A survey of major authors and movements in African American literature from 1900 to the present.

**Credit Hours:** 3

**Prerequisites:** ENGLSH 1000

**BL_STU 3420: Periods and Genres in African Diaspora Literature**
(same as ENGLSH 3420). Topic (e.g. Harlem Renaissance, African Diaspora Poetry) Announced at time of registration. No more than 6 hours may be taken in the Periods and Genres in African Diaspora Literature series.

**Credit Hours:** 3

**Prerequisites:** ENGLSH 1000

**BL_STU 3427: Periods and Genres in African Diaspora Literature, 1603-1789**
(same as ENGLSH 3427). See BL_STU 3420 for course description.

**Credit Hours:** 3

**BL_STU 3428: Periods and Genres in African Diaspora Literature, 1789-1890**
(same as ENGLSH 3428). See BL_STU 3420 for course description.

**Credit Hours:** 3

**BL_STU 3429: Periods and Genres in African Diaspora Literature, 1890-Present**
(same as ENGLSH 3429). See BL_STU 3420 for course description.

**Credit Hours:** 3

**BL_STU 3590: Religious Biography: Black Religion**
(same as HIST 3400). Studies black American religion through the biographies of representative and influential figures of the nineteenth and twentieth centuries, including Nat Turner, W.E.B Dubois, Marcus Garvey, M.L. King, and Malcolm X.

**Credit Hours:** 3

**BL_STU 3605: The History of Blacks in Germany**
(same as GERMAN 3605). This course investigates the history of Africans and African Americans in Germany and Central Europe, from Antiquity to today. Special focus on Medieval Africans in Europe, travelling African American intellectuals around 1900, and African American GIs in occupied Germany. This course will challenge your understanding of race and racism.

**Credit Hours:** 3

**BL_STU 3624: Comparative Approaches to Black Studies in History - Writing Intensive**
(same as HIST 3624). Comparative approach to the study of Black Diaspora history that focuses on the theory, method, structure, and application of modes of cultural production within the history of Black Diaspora cultures. Recommended for students with an interest in Black Studies or majors in the Humanities field. Program consent for repetition.

**Credit Hours:** 3

**BL_STU 3624W: Comparative Approaches to Black Studies in History - Writing Intensive**
(same as HIST 3624). Comparative approach to the study of Black Diaspora history that focuses on the theory, method, structure, and application of modes of cultural production within the history of Black Diaspora cultures. Recommended for students with an interest in Black Studies or majors in the Humanities field. Program consent for repetition.

**Credit Hours:** 3

**BL_STU 3625: Comparative Approaches to Black Studies in Culture**
Comparative approach to the study of Black Diaspora cultures that focus on the theory, method, structure, and application of modes of cultural production within Black Diaspora cultures. Recommended for students with an interest in Black Studies or majors in the Humanities field. Course may be repeated for credit with consent of program.

**Credit Hours:** 3

**BL_STU 3670: History of Black Nationalism in the United States**
(same as HIST 3410). Examines the struggle of African Americans to construct autonomous institutions, to build all Black communities or to acquire an independent nation-state. We will study the ideology, structure, strategy and tactics.

**Credit Hours:** 3

**Prerequisites:** HIST 1410 or SOCIOL 2210

**BL_STU 3703: Themes in Black Society**
Examines various themes, issues, and perspectives in political science, psychology, sociology, and other related disciplines related to social and historical institutions in the U.S., Africa, and the African Diaspora. Recommended for Black Studies or Behavioral Science Majors. Program consent for repetition.

**Credit Hours:** 3

**BL_STU 3705: Themes in Black Culture**
Examines various themes, issues and perspective in literature, music, the arts, and other related disciplines related to social and historical institutions

**Credit Hours:** 3

**BL_STU 3800: Women in African History**
(same as HIST 3800). Focuses on the varied and changing roles of women in sub-Saharan Africa from pre-colonial times to the present.

**Credit Hours:** 3  
**Prerequisites:** sophomore standing or instructor's consent

**BL_STU 3850: Gender, Hip Hop, and the Politics of Representation**
This class will examine gender in hip hop while exploring the intra- and interracial politics of representation among those of the hip hop generation.

**Credit Hours:** 3

**BL_STU 3977: Black Studies Methodologies**
Advanced research, writing, and application of knowledge and critical paradigms in Black Studies, through study of such topics as slavery, colonialism, urbanization and migration, environment, gender, race, identity, intellectual movements, cultural studies and popular culture. Graded on A-F basis only.

**Credit Hours:** 3  
**Recommended:** BL_STU 2975

**BL_STU 4000: Special Problems in Black Studies**
Independent investigation leading to a paper or a project.

**Credit Hour:** 1-99  
**Prerequisites:** junior standing, instructor's consent

**BL_STU 4000W: Special Problems in Black Studies - Writing Intensive**
Independent investigation leading to a paper or a project.

**Credit Hour:** 1-99  
**Prerequisites:** junior standing, instructor's consent

**BL_STU 4001: Undergraduate Topics in Black Studies-General**
Organized study of selected topics. Subjects and credit may vary from semester to semester. Program consent for repetition.

**Credit Hour:** 1-3  
**Prerequisites:** junior standing

**BL_STU 4001W: Undergraduate Topics in Black Studies-General - Writing Intensive**
Organized study of selected topics. Subjects and credit may vary from semester to semester. Program consent for repetition.

**Credit Hour:** 1-3  
**Prerequisites:** junior standing

**BL_STU 4003: Topics in Black Studies-Behavioral Science**
Organized study of selected topics. Subjects, specific content, and credits may vary from semester to semester. Repeatable up to 6 hours with departmental consent.

**Credit Hours:** 3

**BL_STU 4004: Topics in Black Studies-Social Science**
Organized study of selected topics. Subjects, specific content, and credits may vary from semester to semester. Repeatable up to 6 hours with departmental consent.

**Credit Hours:** 3

**BL_STU 4005: Topics in Black Studies-Humanities**
Organized study of selected topics. Subjects, specific content, and credits may vary from semester to semester. Repeatable up to 6 hours with departmental consent.

**Credit Hours:** 3

**BL_STU 4020: Studies in Black Feminist Thought**
(same as WGST 4020; cross-leveled with BL_STU 7020, WGST 7020). Examines recent problems and critical debates within black feminist theory.

**Credit Hours:** 3  
**Prerequisites:** WGST 2020

**BL_STU 4040: Slavery and the Crisis of the Union: The American Civil War Era**
(same as HIST 4040). This class explores the history of the Civil War era, a transformative moment in both U.S. and world history. Our goal is to explore and answer a number of questions of great historical significance: How and why did slavery persist in an age of liberal democracy? Why did the pre-war Union prove unable to tolerate the plural visions and diverse institutions of its people? Was the descent into war more a measure of institutional weakness than of the intensity of moral conflict? What were the constituent elements of the competing wartime 'nationalisms' that evolved in both north and south? How and why did a war that began to restore the Union become one for emancipation? How was it the forerunner of modern, 'total' warfare? Did the governmental, socio-economic and racial changes wrought by war constitute a 'second American revolution'? Were the limits or the achievements of post-war Reconstruction more notable? And, last but certainly not least, how did the triumph of the Union condition the political and economic development of a rapidly globalizing world?

**Credit Hours:** 3

**BL_STU 4130: African-American Politics**
(same as POL_SC 4130). Surveys political participation of African-Americans in American politics. Analyzes their public lives in the context of elections, behavior of political organizations, social movements, parties, and level of government.

**Credit Hours:** 3  
**Prerequisites:** POL_SC 1100 and junior standing

**BL_STU 4181: Themes in Literature by Women**
(same as WGST 4181 and ENGLSH 4181). Examines works by a number of women writers with particular attention to their sociopolitical context. May repeat to six hours with department's consent.

**Credit Hours:** 3

**Recommended:** junior standing
### BL_STU 4210: African-American Religion
(same as REL_ST 4210). Examines the organization of major African American Christian denominations, Islam and religious movements. Twentieth century issues will be discussed, including sexism, classism and homophobia in church communities.

**Credit Hours:** 3  
**Prerequisites:** junior standing

### BL_STU 4220: Religion in Afro-American Literature
(same as REL_ST 4220). Examination of Afro-American fiction, poetry and drama which present significant racial attitudes toward the Christian religion.

**Credit Hours:** 3  
**Prerequisites:** sophomore standing

### BL_STU 4230: Women, Development, and Globalization
(same as SOCIOL 4230, WGST 4230, PEA_ST 4230; cross-leveled with BL_STU 7230, SOCIOL 7230, WGST 7230). Examines the history and structure of "development" discourse and practices. Stresses the interconnections and impact on women globally. Reviews women's strategies in defining and instituting programs to improve quality of life in communities.

**Credit Hours:** 3  
**Prerequisites:** BL_STU 1332, BL_STU 2200; SOCIOL 2200, WGST 1332 or WGST 2010

### BL_STU 4235: Social Perspectives on Gender and Emotion
(same as SOCIOL 4235, WGST 4235; cross-leveled with BL_STU 7235, SOCIOL 7235, WGST 7235). Examines theories of affect and emotions, the social contexts and the implications for human development and behavior, with special emphasis on sex, gender, race, class and culture. Graded on A-F basis only.

**Credit Hours:** 3  
**Prerequisites:** WGST 1332 or WGST 1360; SOCIOL 1360 or SOCIOL 2300; BL_STU 1332 or BL_STU 2200; junior standing

### BL_STU 4240: The Black Family: Past, Present & Future
(same as H_D_FS 4300; cross-leveled with BL_STU 7300, H_D_FS 7300). Emphasis is on the unique social, economic, religious, educational and political environments that have affected the structure and function of the black family.

**Credit Hours:** 3  
**Prerequisites:** junior standing

### BL_STU 4230: Race, Class, Gender and U.S. Social Policy
Examines the causes and effects of the vast social and economic inequalities that exist between blacks and whites in US society, including the role federal, state and local government plays in creating and addressing these inequalities.

**Credit Hours:** 3

### BL_STU 4335: The Wire: Race, Urban Inequality, and the "Crisis" of the American City
(same as HIST 4235; cross-leveled with BL_STU 7335, HIST 7235). The HBO series "The Wire", a crime drama based on the border city of Baltimore, exposed the interlocking, structural realities giving shape to the landscapes, neighborhoods, and lived experiences of urban America during the early twenty-first century. Through vivid storytelling, "The Wire" complicates understandings of the "urban crisis" through a focus on the inner workings of major institutions such as the media, public schools, politics, underground economies, public housing, and the criminal justice system and on the ways in which poor and working-class black residents negotiate power and survival. Using the cable series as a lens, this class offers students the opportunity to critically examine the historical, economic, social, and political dimensions of urban inequality.

**Credit Hours:** 3

### BL_STU 4352: Historical Studies in African Music
(same as MUS_H_LI 4352). Ethnomusicological introduction to the music and culture of countries and ethnic groups in Africa. Traditional and contemporary popular styles are explored, and influences of Islamic invasions, missionary arrivals, colonial conquests, neo-colonial trends, and globalization.

**Credit Hours:** 3

### BL_STU 4360: Working with Minority Youth
(same as SOC_WK 4360). Develops awareness and understanding of social/psychological/ cognitive realities influencing the behavior of black youth. Content draws upon theories, research, and practice skills relevant to understanding black youth. Minority groups included.

**Credit Hours:** 3  
**Prerequisites:** junior standing or instructor's consent

(same as SOC_WK 4380). Provides students with an appreciation of the black experience in the United States on a knowledge and feeling level.

**Credit Hours:** 3

### BL_STU 4400: Studies in African Diaspora Literature
(same as ENGLISH 4400; cross-leveled with BL_STU 7400, ENGLISH 7400). Topics (e.g., African American Poetry, African Diaspora Drama) announced at time of registration. No more than six hours may be taken in the Studies in African Diaspora Literature series.

**Credit Hours:** 3

### BL_STU 4407: Studies in African Diaspora Literature, 1603 to 1789
(same as ENGLISH 4407; cross-leveled with BL_STU 7407, ENGLISH 7407). See BL_STU 4400 for course description.
Credit Hours: 3

BL_STU 4408: Studies in African Diaspora Literature, 1789 to 1890
(same as ENGLISH 4408; cross-leveled with BL_STU 7408, ENGLISH 7408). See BL_STU 4400 for course description.

Credit Hours: 3

BL_STU 4409: Studies in African Diaspora Literature, 1890 to Present
(same as ENGLISH 4409; cross-leveled with BL_STU 7409, ENGLISH 7409). See BL_STU 4400 for course description.

Credit Hours: 3

BL_STU 4410: Major Africana Diaspora Writers
(same as ENGLISH 4410; cross-leveled with BL_STU 7410, ENGLISH 7410). An intensive study of selected writers of African Diaspora literature focusing on texts original in English. No more than six hours may be taken in the Major African Diaspora Writers series.

Credit Hours: 3
Prerequisites: junior standing or instructor's consent

BL_STU 4415: African Americans and American Justice
(same as HIST 4415; cross-leveled with BL_STU 7415, HIST 7415). This course provides opportunities to review and discuss selected court cases and legislation in which black men, women, or children were plaintiffs and defendants or affected by the laws.

Credit Hours: 3
Prerequisites: senior standing required

BL_STU 4415W: African Americans and American Justice - Writing Intensive
(same as HIST 4415; cross-leveled with BL_STU 7415, HIST 7415). This course provides opportunities to review and discuss selected court cases and legislation in which black men, women, or children were plaintiffs and defendants or affected by the laws.

Credit Hours: 3
Prerequisites: senior standing required

BL_STU 4417: Major African Diaspora Writers, 1603 to 1789
(same as ENGLISH 4417, BL_STU 7417, ENGLISH 7417). See BL_STU 4410 for course description.

Credit Hours: 3

BL_STU 4418: Major African Diaspora Writers, 1789 to 1890
(same as ENGLISH 4418, BL_STU 7418, ENGLISH 7418). See BL_STU 4410 for course description.

Credit Hours: 3

BL_STU 4419: Major African Diaspora Writers, 1890-Present
(same as ENGLISH 4419; cross-leveled with BL_STU 7419, ENGLISH 7419). See BL_STU 4410 for course description.

Credit Hours: 3

BL_STU 4420: Africana Womanism
(same as ENGLISH 4420; cross-leveled with BL_STU 7420, ENGLISH 7420). An intensive study of Africana Womanism, focusing on selected Africana women writers. May be repeated to six hours with departmental consent.

Credit Hours: 3

BL_STU 4480: Major African Diaspora Women Writers
(same as WGST 4480, ENGLISH 4480; cross-leveled with BL_STU 7480, WGST 7480, ENGLISH 7480). Study of selected Africana Diaspora women writers, focusing on texts originally in English. Repeatable with department's consent. Maximum of 6 hours for Black Studies 4180 and 4480.

Credit Hours: 3

BL_STU 4487: Major African Diaspora Women Writers, 1603 to 1789
(same as WGST 4487, ENGLISH 4487; cross-leveled with BL_STU 7487, WGST 7487, ENGLISH 7487). See BL_STU 4480 for course description.

Credit Hours: 3

BL_STU 4488: Major African Diaspora Women Writers, 1789 to 1890
(same as WGST 4488, ENGLISH 4488; cross-leveled with BL_STU 7488, WGST 7488, ENGLISH 7488). See BL_STU 4480 for course description.

Credit Hours: 3

BL_STU 4489: Major African Diaspora Women Writers, 1890 to Present
(same as WGST 4489, ENGLISH 4489; cross-leveled with BL_STU 7489, WGST 7489, ENGLISH 7489). See BL_STU 4480 for course description.

Credit Hours: 3

BL_STU 4500: Special Problems in Black Studies
Independent project or paper, not leading to dissertation.

Credit Hour: 1-99
Prerequisites: instructor's consent

BL_STU 4530: Caribbean Women Writers
Examines representative works by female authors from the Caribbean; primarily the English speaking islands. The depiction of Caribbean women will be a major consideration, as well as the unique qualities of Caribbean literature.

Credit Hours: 3

BL_STU 4640: African Politics
(same as POL_SC 4640). A general comparative course focusing on post-independent Africa. Theories and concepts related to decolonization, nationalism, democratization, and ethnicity; also institutional forms and organizations: political parties, parliaments, and executives.

Credit Hours: 3
Prerequisites: POL_SC 1100 and junior standing
BL_STU 4700: Race, Gender and Ethnicity in Higher Education
Historical relationships of race, gender, and ethnic issues in United States higher education. Issues include: theory and research of curriculum and teaching, diversity within the academy, and leadership, governance, and policy.

Credit Hours: 3

BL_STU 4710: Themes in African Diaspora Folklore
(same as ANTHRO 4160 and ENGLISH 4710.) Intensive study in a selected area of African Diaspora Folklore: folk narrative, folk song, myth, proverb, etc., folklore and literature, or the folklore of a particular group. 4710 may be repeated for a maximum of six hours with instructor's consent.

Credit Hours: 3

Recommended: junior standing

BL_STU 4720: Third World Politics
(same as POL_SC 4720). Comparative, interdisciplinary analysis of the politics of selected states in Southeast Asia, Africa, and Latin America. Special attention given to the problems of political and socioeconomic development.

Credit Hours: 3

Recommended: junior standing

BL_STU 4804: Historical Studies of Black Women
This course offers a comprehensive examination of the origins, developments, and productions of the specified time period with emphases on black women as creative artists, activists, performers, musicians, and writers.

Credit Hours: 3

BL_STU 4872: Undergrad. Seminar in Black Studies: History of Race in the U.S.
Readings on problems in American history with reports and discussion on selected topics. Departmental consent for repetition up to a maximum of 6 hours.

Credit Hours: 3

Recommended: junior standing

BL_STU 4977: Black Studies Capstone
This course is designed to permit students to integrate general and specialized knowledge within the three Black Studies tracks (History, Society, Culture) using an interdisciplinary approach. Topics vary according to instructor and core discipline. Graded on A-F basis only.

Credit Hours: 3

Prerequisites: Junior standing

BL_STU 7004: Topics in Black Studies
Organized study of selected topics in Black Studies. Subjects and earnable credit may vary from semester to semester. Graded on A-F basis only.

Credit Hour: 1-99

Prerequisites: instructor's consent

BL_STU 7020: Studies in Black Feminist Thought
(same as WGST 7020; cross-leveled with BL_STU 4020 and WGST 4020). Examines recent problems and critical debates within black feminist theory.

Credit Hours: 3

Prerequisites: Junior standing

BL_STU 7230: Women, Development, and Globalization
(same as SOCIOL 7230; cross-leveled with BL_STU 4230). Examines the history and structure of "development" discourse and practices. Stresses the interconnections and impact on women globally. Reviews women's strategies in defining and instituting programs to improve quality of life in communities.

Credit Hours: 3

BL_STU 7235: Social Perspectives on Gender and Emotion
(same as SOCIOL 7235 and WGST 7235; cross-leveled with BL_STU 4235, SOCIOL 4235, WGST 4235). Examines theories of affect and emotions, the social contexts and the implications for human development and behavior, with special emphasis on sex, gender, race, class and culture. Graded on A-F basis only.

Credit Hours: 3

BL_STU 7270: African-Americans in the Twentieth Century
(same as HIST 7270). Surveys the African-American experience from 1900 to the present. Attention is given to economic, political, social, and cultural trends.

Credit Hours: 3
BL_STU 7300: The Black Family: Past, Present & Future  
(same as H_D_FS 7300). Emphasis is on the unique social, economic, religious, educational and political environments that have affected the structure and function of the black family.  
Credit Hours: 3

BL_STU 7335: The Wire: Race, Urban Inequality, and the "Crisis" of the American City  
(same as HIST 7235; cross-leveled with HIST 4235, BL_STU 4335). The HBO series "The Wire", a crime drama based on the border city of Baltimore, exposed the interlocking, structural realities giving shape to the landscapes, neighborhoods, and lived experiences of urban America during the early twenty-first century. Through vivid storytelling, "The Wire" complicates understandings of the "urban crisis" through a focus on the inner workings of major institutions such as the media, public schools, politics, underground economies, public housing, and the criminal justice system and on the ways in which poor and working-class black residents negotiate power and survival. Using the cable series as a lens, this class offers students the opportunity to critically examine the historical, economic, social, and political dimensions of urban inequality.  
Credit Hours: 3

BL_STU 7400: Studies in African Diaspora Literature  
(same as ENGLSH 7400). Topics (e.g., African American Poetry, African Diaspora Drama) announced at time of registration. No more than six hours may be taken in the Studies in African Diaspora Literature series.  
Credit Hours: 3

BL_STU 7410: Major Africana Diaspora Writers  
(same as ENGLSH 7410). An intensive study of selected writers of African Diaspora literature focusing on texts originally in English. No more than six hours may be taken in the Major Anglophone African Diaspora Writers series.  
Credit Hours: 3

BL_STU 7417: Major African Diaspora Writers, 1603 to 1789  
(same as ENGLSH 7417). See BL_STU 7410 for course description.  
Credit Hours: 3

BL_STU 7418: Major Anglophone African Diaspora, 1789 to 1890  
(same as ENGLSH 7418). See BL_STU 7410 for course description.  
Credit Hours: 3

BL_STU 7419: Major African Diaspora Writers, 1890 to Present  
(same as ENGLSH 7419). See BL_STU 7410 for course description.  
Credit Hours: 3

BL_STU 7420: Africana Womanism  
(same as ENGLSH 7420). An intensive study of Africana Womanism, focusing on selected Africana women writers. May be repeated to six hours with departmental consent.  
Credit Hours: 3

BL_STU 7460: Economic Characteristics of the African American Experience  
(same as HIST 4460). Examines how economic considerations have influenced African American history from the transatlantic slave trade to the present.  
Credit Hour: 1
Prerequisites: junior standing or instructor's consent

BL_STU 7480: Major African Diaspora Women Writers  
(same as WGST 7480 and ENGLSH 7480). Study of selected African Diaspora women writers, focusing on texts originally in English. May be repeated for credit with departmental consent. Maximum of 6 hours for Black Studies 7180 and 7480.  
Credit Hours: 3

BL_STU 7487: Major African Diaspora Women Writers, 1603 to 1789  
(same as WGST 7487 and ENGLSH 7487). See BL_STU 7480 for course description.  
Credit Hours: 3

BL_STU 7488: Major African Diaspora Women Writers, 1789 to 1890  
(same as WGST 7488 and ENGLSH 7488). See BL_STU 7480 for course description.  
Credit Hours: 3

BL_STU 7489: Major African Diaspora Women Writers, 1890 to Present  
(same as WGST 7488 and ENGLSH 7488). See BL_STU 7480 for course description.
Credit Hours: 3

**BL_STU 7710: Themes in African Diaspora Folklore**  
(same as ANTHRO 7160 and ENGLSH 7710.) Intensive study in a selected area of African Diaspora Folklore: folk narrative, folk song, myth, proverb, etc., folklore and literature, or the folklore of a particular group. ENGLSH 7700 and ENGLSH 7710 may be repeated for a maximum of six hours with instructor's consent.

Credit Hours: 3

**BL_STU 7810: African-American Religion**  
(same as REL_ST 7810). Examines the organization of major African American Christian denominations, Islam and religious movements. Twentieth century issues will be discussed, including sexism, classism and homophobia in church communities.

Credit Hours: 3

**BL_STU 7877: Black Studies Abroad**  
This interdisciplinary study abroad course provides students with global experience within the African Diaspora, the opportunity to study in a foreign culture and augment their "global competencies" and course of study across the three Black Studies tracks: History, Culture, and Society - as well support their study and/or career development. Graded on A-F basis only.

Credit Hours: 3

**BL_STU 8000: Independent Readings in Black Studies**  
Readings on selected topics in Black Studies, with emphasis on the implications of the interdisciplinary and intersecting areas of History, Society, and Culture. May be repeated to a maximum of six hours.

Credit Hours: 3  
Prerequisites: Department Consent Required

**BL_STU 8277: Race, Ethnicity, and Transnational Inequalities**  
(same as SOCIOL 8277). This graduate seminar examines the global contest of our radicalized modern world system. How do people develop and give meaning to race/ethnicity in different regions? Focus on the construction of bodies Creole identities, gender, sexualities, citizenships and immigration. Graded on A-F basis only.

Credit Hours: 3

**BL_STU 8415: Readings in African-American History**  
(Same as HIST 8415). Readings on selected topics in African-American history from 1619 to the present, with emphasis on conflicting interpretations. May be repeated to a maximum of six hours.

Credit Hours: 3

**BL_STU 8416: Seminar in African-American History**  
(Same as HIST 8416). Directed research in selected topics in African-American history. May be repeated to a maximum of six hours.

Credit Hours: 3

**BL_STU 8510: Ecology, Conservation, and Environmental Justice**  
(same as F_W 8510). The goal of this course is to introduce graduate students in natural resource management and conservation biology to the ecological and management concepts that underlie environmental justice issues, and to explain how broader environmental justice concepts are relevant to natural resource and conservation fields. Graded on A-F basis only. Prerequisites: One undergraduate course from the following list of disciplines: ecology, natural resource management, conservation biology, sociology or equivalent.

Credit Hours: 3

**BL_STU 8901: Graduate Topics in Black Studies**  
Graduate seminar arranged by topics or themes related to Black Studies. Graded on A-F basis only.

Credit Hours: 3

---

**Business Administration Courses**

**BUS_AD _0585: Placeholder for TCoB S.America Intersession study abroad program**  
Place holder Course for required per-departure on campus information sessions. Zero credit and billing hours. No Term Finalization.

Credit Hours: 0

**BUS_AD _0591: Bergamo Study Abroad Pre-departure required on-Campus Information Session (GRAD)**  
Place holder Course for Pre-departure required on-Campus Information Session Zero credit and billing hours No Term Finalization

Credit Hours: 0

**BUS_AD _0592: Alicante Study Abroad Pre-departure required on-Campus Information Session (GRAD)**  
Place holder Course for Pre-departure required on-Campus Information Session Zero credit and billing hours No Term Finalization

Credit Hours: 0

**BUS_AD _0593: Prague Study Abroad Pre-departure required on-Campus Information Session (GRAD)**  
Place holder Course for Pre-departure required on-Campus Information Session Zero credit and billing hours No Term Finalization

Credit Hours: 0

---

**BL_STU 8400: Seminar in African Diaspora Literature**  
(same as ENGLISH 8400). Topic (e.g., Autobiography, Black Women Writers) announced at time of registration. May be repeated to 12 hours with departmental consent.

Credit Hours: 3

**BL_STU 8410: Seminar in African Diaspora Theory and Literature Criticism**  
(same as ENGLISH 8410). Modern and contemporary African Diaspora criticism and theory including diverse approaches to literary and cultural studies. May be repeated to 12 hours with departmental consent.

Credit Hours: 3
BUS_AD 1500: Foundations of Business and Professional Development Principles
This course will provide students the opportunity to learn how to be successful in the Trulaske College of Business (TCoB) as they prepare for a career in business. Students will be led through an exploration of opportunities in our college as well as their personal strengths and how those strengths match with various business academic and career paths. Further, students will learn competencies that are necessary for both academic and professional success. This course is offered as a component of the college's unique Professional Development Program. Graded on A-F basis only.

Credit Hours: 2

BUS_AD 2500: Intermediate Professional Development Principles
Introduction to Professional Development in Business, will provide students the opportunity to learn about professional interpersonal dynamics - understanding and working with others. Students will learn skills imperative to forming and nurturing professional relationships and will have the opportunity to practice these skills via field experience. Throughout the course, students will continue to develop the professional competencies necessary for career success. This course is offered as a component of the college's unique Professional Development Program. Graded on A-F basis only.

Credit Hours: 2
Prerequisites: 27 credit hours
Corequisites: BUS_AD 1500

BUS_AD 3500: Advanced Professional Development Principles
Provides an introduction to professional competencies important for success as a business professional. Includes the assessment, communication and development of competencies valued by employers. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: Must be a BSBA or ACCT_BSACC major

BUS_AD 4500: Professional Development Program - Internship
This course is designed to help students practice professional core competencies in the workplace. Students will secure a professional-level work experience and apply classroom knowledge and interpersonal skills. This course is a graduation requirement for students seeking the BSBA degree. Graded on S/U basis only.

Credit Hours: 3
Prerequisites: BUS_AD 3500; Restricted to Upper Level Business Majors who have had their internship approved by the Professional Development Program

BUS_AD 7050: MBA Communications Practice
Special laboratory instruction in oral and written communication skills with an emphasis on business communications.

Credit Hour: 1-3

BUS_AD 7330: Business Law/Regulation
Legal aspects of employment, administrative regulation, corporate and noncorporate ownership structures, and legal issues involving business transactions.

Credit Hour: 2-3

BUS_AD 7340: Business Ethics and Leadership
Case studies, discussion, and readings used to integrate critical thinking about ethical issues into business decision. Development and application of ethical decision making frameworks.

Credit Hour: 1-3

BUS_AD 8001: Topics in Business Administration
Selected topics in administration offered on experimental basis.

Credit Hour: 1-99
Prerequisites: instructor's consent

BUS_AD 8010: MBA Seminar
Integration of business executives and real world problem solving, career preparation, and professional growth activities. Assignments emphasize teamwork and group productivity. May be repeated. Some sections may be graded on A-F or S/U basis.

Credit Hour: 1-3
Prerequisites: MBA students only

BUS_AD 8020: MBA Seminar
Integration of business executives and real world problem solving, career preparation, and professional growth activities. Assignments emphasize teamwork and group productivity. May be repeated. Some sections may be graded on A-F or S/U basis.

Credit Hour: 1-3
Prerequisites: MBA students only

BUS_AD 8030: MBA Seminar
Integration of business executives and real world problem solving, career preparation, and professional growth activities. Assignments emphasize teamwork and group productivity. Some sections may be graded A-F or S/U only. May be repeated.

Credit Hour: 1-3
Prerequisites: MBA students only

BUS_AD 8500: Business Problem Analysis: Field Project
Application of functional areas of business to real-world cases in business planning. Students will prepare and present business plan for an organization as a team project in a supervised experience.

Credit Hour: 1-3

BUS_AD 8600: Business Consulting
Students work in a team consulting capacity, with medium to large organizations, identifying and defining relatively complex and often ambiguous business problems such as needs assessment, quality management, systems management, policy/strategy formulation and similar areas.

Credit Hour: 2-3

BUS_AD 8730: International Study Abroad
Study abroad opportunities in one or more countries. Focuses on selected international business issues, cultural differences, and visiting
businesses on-site. Some sections may be graded on A-F or S/U basis only.

Credit Hour: 1-6
Prerequisites: consent required

Chemical Engineering Courses

CH_ENG 1000: Introduction to Chemical Engineering
Orientation course for freshmen-level students. Introduction to careers and opportunities in chemical engineering, basic engineering principles, simple calculations.

Credit Hours: 2
Prerequisites or Corequisites: MATH 1500, CHEM 1320

CH_ENG 1000H: Introduction to Chemical Engineering - Honors
Orientation course for freshmen-level students. Introduction to careers and opportunities in chemical engineering, basic engineering principles, simple calculations.

Credit Hours: 2
Prerequisites or Corequisites: MATH 1500, CHEM 1320. Honors eligibility required

CH_ENG 1320: Chemistry and Chemical Technology I
Covers fundamental principals of chemistry, gases, engineering materials, electrochemistry, and applications with instruction including numerical modeling. Graded on A/F basis only. May be repeated for credit.

Credit Hours: 3
Prerequisites or Corequisites: MATH 1500

CH_ENG 1330: Chemistry and Chemical Technology II
Covers fundamentals principals of chemistry, gases, engineering materials, electrochemistry, and applications with instruction including numerical modeling. May be repeated for credit. Graded on A/F basis only.

Credit Hours: 3
Prerequisites or Corequisites: CH_ENG 1320 or CHEM 1320 and MATH 1500
Corequisites: MATH 1500

CH_ENG 2001: Advanced Experimental Course
Content and number of credit hours to be listed in Schedule of Courses.

Credit Hour: 1-99
Prerequisites: sophomore standing

CH_ENG 2118: Introduction to Energy Technology and Sustainability
An introductory course on energy technology and those resources and practices that allow for sustainable commercialization. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: sophomore standing in engineering

CH_ENG 2225: Mass and Energy Balance
Industrial stoichiometry, material and energy balances, thermophysics, thermochemistry; related topics.

Credit Hours: 3
Prerequisites or Corequisites: CHEM 2110

CH_ENG 2226: Engineering Process Computations and Laboratory
Introduction to the effective use of computer software with emphasis on chemical engineering applications, which include solutions for systems of algebraic equations using matrix methods; solutions of ordinary differential equations and partial differential equations and visualization of those solutions; linear, multilinear, and nonlinear regression for data analysis; 2D and 3D plotting, symbolic calculations, process control simulations, and text processing.

Credit Hours: 4
Prerequisites: grade of C- or better in CH_ENG 2225

CH_ENG 3234: Principles of Chemical Engineering I
Fluid flow, heat and mass transfer. A comprehensive treatment of the transport processes related to chemical engineering operations, with focus on both theory and applications.

Credit Hours: 3
Prerequisites: CH_ENG 3234

CH_ENG 3235: Principles of Chemical Engineering II
Separation processes in chemical engineering, including: Evaporation, absorption, distillation, extraction, leaching, membrane separation, and drying.

Credit Hours: 3
Prerequisites: CH_ENG 3235

CH_ENG 3243: Chemical Engineering Laboratory I
Laboratory study of some principal unit operations of chemical engineering.

Credit Hours: 3
Prerequisites or Corequisites: CH_ENG 2226 and CH_ENG 3235

CH_ENG 3243W: Chemical Engineering Laboratory I - Writing Intensive
Laboratory study of some principal unit operations of chemical engineering.

Credit Hours: 3
Prerequisites or Corequisites: CH_ENG 2226 and CH_ENG 3235

CH_ENG 3261: Chemical Engineering Thermodynamics I
Study of thermodynamics, with particular reference to chemical engineering applications.

Credit Hours: 3
Prerequisites: grade of C or better in CH_ENG 2225

CH_ENG 3262: Chemical Engineering Thermodynamics II
Chemical thermodynamics, with emphasis on mixtures. Multicomponent systems and phase diagrams; excess properties; chemical potential, fugacity, and activity; models of non-ideal mixtures; phase and surface equilibria; chemical reaction equilibria.

Credit Hours: 3
Prerequisites or Corequisites: CHEM 2110
Prerequisites: CH_ENG 3261, MATH 2300

CH_ENG 3307: Chemical Process Safety and Professional Ethics
A course focused on important technical fundamentals of chemical process safety and their application including professional ethics considerations. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: CH_ENG 3234, CH_ENG 3261 or instructor's consent

CH_ENG 4001: Topics in Chemical Engineering
Current and new technical developments in chemical engineering.

Credit Hours: 3
Prerequisites: instructor's consent

CH_ENG 4085: Problems in Chemical Engineering
Directed study of chemical engineering problems.

Credit Hour: 2-4
Prerequisites: instructor's consent

CH_ENG 4220: Hazardous Waste Management
(same as CV_ENG 4220; cross-leveled with CH_ENG 7220, CV_ENG 7220). Engineering principles involved in handling, collection, transportation, processing and disposal of hazardous waste, waste minimization, legislation on hazardous wastes and groundwater contamination.

Credit Hours: 3
Prerequisites: junior standing

CH_ENG 4226: Engineering Research Calculations and Reporting
(cross-leveled with CH_ENG 7226). Application and analysis of engineering calculations in MS Excel, Matlab, and project-specific software including applications of calculus, experiential learning, and supervised research. Must have research advisor define at least one experiment and review at least one report. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: MATH 4100

CH_ENG 4270: Design of Experiments and Statistical Quality Control for Process Engineers
(same as BIOL_EN 4270; cross-leveled with CH_ENG 7270, BIOL_EN 7270). A practical statistical tool box for experimenters: process means, effects of variables, factorial experiments, and statistical quality control.

Credit Hours: 3
Recommended: experience with Excel or instructor's consent

CH_ENG 4285: Pollution Prevention
Identify, analyze, and solve energy, water, and raw materials inefficiencies common to industrial processes and facilities. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: CHEM 1320, ENGINR 2300 or CH_ENG 3261, MATH 2300, and PHYSCS 2760

CH_ENG 4306: Advanced Engineering Math
(same as NU_ENG 4306). Applies ordinary and partial differential equations to engineering problems; Fourier's series; determinants and matrices; Laplace transforms; analog computer techniques.

Credit Hours: 3
Prerequisites: MATH 4100

CH_ENG 4311: Chemodynamics
(cross-leveled with CH_ENG 7311). Environmental movement of chemicals in air, water, and soil; designed to introduce students to the basic principles and techniques useful for the prediction of the movement and fate chemicals in ecosystems.

Credit Hours: 3
Prerequisites: CH_ENG 3234 or instructor's consent

CH_ENG 4312: Air Pollution Control
(cross-leveled with CH_ENG 7312). Modeling of urban air pollution and control techniques. Topics treated are plume dispersion theories, photochemistry, methods of monitoring, methods of industrial abatement and legal aspects.

Credit Hours: 3
Prerequisites: CH_ENG 3234 or instructor's consent

CH_ENG 4315: Introduction to Bioprocess Engineering
(same as BIOL_EN 4315; cross-leveled with CH_ENG 7315, BIOL_EN 7315). This general introduction to bioprocess engineering covers the fundamentals of microbiology and biochemistry in the context of a biomass refinery. Analyses proceed through the use of mass balances, energy balances, and empirical or theoretical models.

Credit Hours: 3
Prerequisites: BIOL_EN 2180 (for Biological Engineering students) or CH_ENG 2225 (for Chemical Engineering students) or instructor's consent

CH_ENG 4316: Biomass Refinery Operations
(same as BIOL_EN 4316; cross-leveled with CH_ENG 7316, BIOL_EN 4316). Design and operation of processes for conversion and/or fractionation of biomass and associated upstream and downstream unit operations. Emphasis on separations and product recovery.

Credit Hours: 3
Prerequisites: BIOL_EN 2180 (for Biological Engineering students) or CH_ENG 2225 (for Chemical Engineering students) or instructor's consent

CH_ENG 4317: Chemical Processing in Semiconductor Device
(cross-leveled with CH_ENG 7317). This course covers the current plasma processing methods used to produce semiconductor devices with emphasis on memory devices. The physics and chemistry of how plasmas are formed, sustained and interact with the semiconductor wafers being processed. Plasma chemistry and the chemical reactions used in plasma etching are discussed.

Credit Hours: 3
Prerequisites: MATH 4100 or MATH 7100
CH_ENG 4318: Energy Technology and Sustainability
An introductory course on energy technology, resources, practices, and common calculations used for energy analysis. May be repeated for credit.

Credit Hours: 3
Recommended: at least one engineering thermodynamics course or a Physical Chemistry course or instructor's consent

CH_ENG 4319: Introduction to Polymer Materials
(cross-leveled with CH_ENG 7319). An introduction to the structure and properties of polymers. Solution properties, molecular weight determination and rheological behavior are studied. Manufacturing and processing techniques are considered.

Credit Hours: 3
Prerequisites: CH_ENG 3262 and CHEM 2110

CH_ENG 4321: Introduction to Ceramics
(cross-leveled with CH_ENG 7321). Introductory course in ceramics materials, crystal structure, processes and properties. The course content and level of presentation would allow an entry level engineering to be conversant with the terminology and concepts of ceramic science and engineering.

Credit Hours: 3
Recommended: Chemistry and Physics

CH_ENG 4335: Transport Phenomena
(cross-leveled with CH_ENG 7335). Integrated study of momentum, heat and mass transport.

Credit Hours: 3
Prerequisites: CH_ENG 3235, and MATH 4100 or MATH 7100

CH_ENG 4345: Special Reading in Chemical Engineering
Individually supervised special reading leading to an engineering report.

Credit Hour: 2-5
Prerequisites: senior standing

CH_ENG 4363: Chemical Reaction Engineering and Technology
Reactor design and optimization; rate equations; thermal effects in reactor.

Credit Hours: 3
Prerequisites: CH_ENG 2226, CH_ENG 3262, or instructor's consent

CH_ENG 4370: Process Control Methods and Laboratory
State-space modeling, simulation, and experimental validation; stability analysis; feedback design and experimental studies; methods for disturbance rejection.

Credit Hours: 3
Prerequisites: CH_ENG 2226

CH_ENG 4385: Chemical Engineering Design I
The course presents optimum design methods, cost estimation, material selection and other relevant areas for the design of chemical plants. In addition, chemical safety and risk assessment will be covered.

Credit Hours: 3

Prerequisites: CH_ENG 2226, CH_ENG 3235, CH_ENG 3262, PHYSCS 2760, CHEM 2110

CH_ENG 4464: Electrochemical Reaction Engineering Science
(cross-leveled with CH_ENG 7464). Phenomenological behavior of electrochemical processes (battery emphasis). Theoretical interpretations of diffusion and reaction processes including system modeling. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: CH_ENG 3261 or MAE 2300 or CHEM 3310 or instructor's consent

Recommended: A course in thermodynamics or physical chemistry

CH_ENG 4980: Process Synthesis and Design
(cross-leveled with CH_ENG 7980). Continuation of CH_ENG 4385: application of chemical analysis and modeling to a capstone design project.

Credit Hours: 3
Prerequisites: CH_ENG 4363, CH_ENG 4385

CH_ENG 4980W: Process Synthesis and Design - Writing Intensive
(cross-leveled with CH_ENG 7980). Continuation of CH_ENG 4385: application of chemical analysis and modeling to a capstone design project.

Credit Hours: 3
Prerequisites: CH_ENG 4363, CH_ENG 4385

CH_ENG 4990: Undergraduate Research in Chemical Engineering
Directed study of chemical engineering problems.

Credit Hour: 2-4
Prerequisites: instructor's consent

CH_ENG 4995: Undergraduate Research in Chemical Engineering - Honors
Individual research for a senior thesis; research is supervised by the chemical engineering faculty. The thesis is to be defended before the departmental Honors committee.

Credit Hour: 3-6
Prerequisites: senior standing

CH_ENG 7001: Topics in Chemical Engineering
Current and new technical developments in chemical engineering.

Credit Hours: 3
Prerequisites: instructor's consent

CH_ENG 7220: Hazardous Waste Management
(same as CV_ENG 7220; cross-leveled with CH_ENG 4220, CV_ENG 4220). Engineering principles involved in handling, collection transportation, processing and disposal of hazardous waste minimization, legislation on hazardous wastes and groundwater contamination.

Credit Hours: 3
CH_ENG 7226: Engineering Research Calculations and Reporting
(cross-leveled with CH_ENG 4226). Application and analysis of engineering calculations in MS Excel, Matlab, and project-specific software including applications of calculus, experiential learning, and supervised research. Must have research advisor define at least one experiment and review at least one report. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: MATH 4100

CH_ENG 7270: Design of Experiments and Statistical Quality Control for Process Engineers
(same as BIOL_EN 7270; cross-leveled with CH_ENG 4270, BIOL_EN 4270). A practical statistical tool box for experimenters: process means, effects of variables, factorial experiments, and statistical quality control.

Credit Hours: 3
Prerequisites: experience with Excel or instructor's consent

CH_ENG 7311: Chemodynamics
(cross-leveled with CH_ENG 4311). Environmental movement of chemicals in air, water, and soil; designed to introduce students to the basic principles and techniques useful for the prediction of the movement and fate chemicals in ecosystems.

Credit Hours: 3
Prerequisites: CH_ENG 3234 or instructor's consent

CH_ENG 7312: Air Pollution Control
(cross-leveled with CH_ENG 4312). Modeling of urban air pollution and control techniques. Topics treated are plume dispersion theories, photochemistry, methods of monitoring, methods of industrial abatement and legal aspects.

Credit Hours: 3
Prerequisites: CH_ENG 3234 or instructor's consent

CH_ENG 7315: Introduction to Bioprocess Engineering
(same as BIOL_EN 7315; cross-leveled with CH_ENG 4315, BIOL_EN 4315). This General introduction to bioprocess engineering covers the fundamentals of microbiology and biochemistry in the context of a biomass refinery. Analysis proceed through the use of mass balances, energy balances, and empirical or theoretical models.

Credit Hours: 3
Prerequisites: BIOL_EN 2180 (for biological engineering students) or CH_ENG 2225 (for chemical engineering students) or instructor's consent

CH_ENG 7316: Biomass Refinery Operation
(same as BIOL_EN 7316; cross-leveled with CH_ENG 4316, BIOL_EN 4316). Design and operation of processes for conversion and/or fractionation of biomass and associated upstream and downstream unit operations. Emphasis on separations and product recovery.

Credit Hours: 3
Prerequisites: BIOL_EN 2180 or CH_ENG 2225 or instructor's consent

CH_ENG 7317: Chemical Processing in Semiconductor Device
(cross-leveled with CH_ENG 4317). This course covers the current plasma processing methods used to produce semiconductor devices with emphasis on memory devices. The physics and chemistry of how plasmas are formed, sustained and interact with the semiconductor wafers being processed. Plasma chemistry and the chemical reactions used in plasma etching are discussed.

Credit Hours: 3
Prerequisites: MATH 4100 or MATH 7100

CH_ENG 7319: Introduction to Polymer Materials
(cross-leveled with CH_ENG 7319). An introduction to the structure and properties of polymers. Solution properties, molecular weight determination and rheological behavior are studied. Manufacturing and processing techniques are considered.

Credit Hours: 3
Prerequisites: CH_ENG 3262 and CHEM 2110

CH_ENG 7321: Introduction to Ceramic Material
(cross-leveled with CH_ENG 4321). Introductory course in ceramics materials, crystal structure, processes and properties. The course content and level of presentation would allow an entry-level engineer to be conversant with the terminology and concepts of ceramics science and engineering.

Credit Hours: 3
Recommended: Chemistry and Physics

CH_ENG 7335: Transport Phenomena
(cross-leveled with CH_ENG 4335). Integrated study of momentum, heat and mass transport.

Credit Hours: 3
Prerequisites: CH_ENG 3235, and MATH 4100 or MATH 7100

CH_ENG 7464: Electrochemical Reaction Engineering Science
(cross-leveled with CH_ENG 4464). Phenomenological behavior of electrochemical processes (battery emphasis). Theoretical interpretations of diffusion and reaction processes including system modeling. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: CH_ENG 3261 or MAE 2300 or CHEM 3310 or instructor's consent
Recommended: A course in thermodynamics or physical chemistry

CH_ENG 7980: Synthesis and Design of Chemical Process
(cross-leveled with CH_ENG 4980). This is a heuristics-based design course intended to assist students in bringing together capabilities from previous course. An emphasis is placed on the creation process of design. Graded on A-F basis only. Prerequisites: CH_ENG 4363, CH_ENG 4385

Credit Hours: 3

CH_ENG 8001: Advanced Topics in Chemical Engineering
Credit Hours: 3
Prerequisites: instructor's consent

CH_ENG 8029: Advanced Plasma Processing
Concepts and techniques in novel plasma processing: plasma characteristics, plasma sputtering, plasma enhanced chemical vapor deposition (PECVD), plasma etching, plasma treatment, plasma
fabrication of nano-structured materials and diamondlike films, biomedical applications.

Credit Hours: 3

CH_ENG 8085: Problems in Chemical Engineering
Supervised investigation in chemical engineering to be presented in the form of a report.
Credit Hour: 1-5
Prerequisites: instructor's consent

CH_ENG 8087: Seminar in Chemical Engineering
Reviews investigations and projects of importance in chemical engineering.
Credit Hour: 1

CH_ENG 8230: Advanced Ceramic Materials
(same as BIOL_EN 8230 and MAE 8230). To provide an advanced level understanding between processing, properties, and microstructure of ceramic materials. Topics include crystallography, defect chemistry, transport properties, microstructure, and forming methods. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: CH_ENG 4319 or instructor's consent

CH_ENG 8320: Plasma Polymerization
Fundamental aspects of polymer formation in plasma state: gas ionization, reaction kinetics, plasma characteristics and operational parameters of plasma reactors. Properties of plasma - synthesized ultrathin films and their utilization also discussed.
Credit Hours: 3
Prerequisites: CH_ENG 4319 or instructor's consent

CH_ENG 8336: Advanced Heat and Momentum Transfer
Advanced study of these transport phenomena.
Credit Hours: 3
Prerequisites: CH_ENG 3235 or instructor's consent

CH_ENG 8337: Advanced Mass Transfer
Advanced study of mass transfer.
Credit Hours: 3
Prerequisites: CH_ENG 4336 or instructor's consent

CH_ENG 8338: Analysis of Equilibrium Stage Processes
Advanced study of stage processes.
Credit Hours: 3
Prerequisites: CH_ENG 2226, CH_ENG 3235 and CH_ENG 3262

CH_ENG 8429: Membranes and Membrane Processes
Thermodynamics and mass transfer of membrane separation processes; Concentration-Driven Processes; Pressure-Driven Processes; Electromembrane Processes; Biological Membrane Processes; Membrane Polymers; Preparation of Membranes; Membrane Separation Application (potable and ultrapure water, effluent treatment, gas separations, electrochemistry, dialysis therapeutic, and other applications).
Credit Hours: 3

CH_ENG 8451: Advanced Chemical Engineering Thermodynamics I
Advanced thermodynamics; particular reference to its application to chemical engineering.
Credit Hours: 3
Prerequisites: CH_ENG 3262 or instructor's consent

CH_ENG 8452: Advanced Chemical Engineering Thermodynamics II
Introduction to the methods of statistical thermodynamics and statistical mechanics. The method of ensembles, Maxwell-Boltzmann statistics, the kinetic theory of gases, and theories of liquids. Applications of statistical mechanics to the prediction of physical and chemical properties such as rate coefficients, diffusion coefficients, and conductivities. Graded A-F only.
Credit Hours: 3
Prerequisites: CH_ENG 8451 or instructor's consent

CH_ENG 8463: Chemical Reaction Engineering Science
Phenomenological behavior of catalysts. Theoretical interpretations for heterogeneous and homogeneous catalysts.
Credit Hours: 3
Prerequisites: CH_ENG 4363

CH_ENG 8471: Process Optimization Methods in Chemical Engineering
Steady-state and unsteady-state optimization techniques applied to chemical processes.
Credit Hours: 3
Prerequisites: CH_ENG 2226

CH_ENG 8990: Research-Masters Thesis in Chemical Engineering
Independent investigation in chemical engineering, to be presented as a thesis. Graded on a S/U basis only.
Credit Hour: 1-99
Prerequisites: Masters candidate

CH_ENG 9990: Research-Doctoral Dissertation in Chemical Engineering
Independent investigation in chemical engineering, to be presented as a thesis. Graded on a S/U basis only.
Credit Hour: 1-99
Prerequisites: Ph.D

Chemistry Courses

CHEM 1000: Introductory Chemistry
Introductory course for students with no high school background in chemistry. Covers fundamental principles of scientific measurement, stoichiometry, solutions, basic atomic structure, gases. No credit if taken after CHEM 1100.
Credit Hours: 2
Prerequisites or Corequisites: MATH 1100 or MATH 1120
CHEM 1100: Atoms and Molecules with Lab
One-semester introduction for non-science majors to the basic concepts and important applications of chemistry. Satisfies A&S requirement for a laboratory science. No credit if taken after CHEM 1310.

Credit Hours: 3

CHEM 1100H: Atoms and Molecules with Laboratory - Honors
One-semester introduction for non-science majors to the basic concepts and important applications of chemistry. Satisfies A&S requirement for a laboratory science. No credit if taken after CHEM 1310.

Credit Hours: 3

Prerequisites: Honors eligibility required

CHEM 1320: College Chemistry I
First of two-course sequence emphasizing principles and applications of modern chemical sciences. Covers chemical nomenclature, stoichiometry, kinetic molecular theory, atomic structure, periodic properties, and molecular structure and bonding. Satisfies laboratory science requirement. Math Reasoning Proficiency Course.

Credit Hours: 4

Prerequisites: MATH 1100 or MATH 1120 or equivalent

CHEM 1320H: College Chemistry I - Honors
First of a two-course sequence emphasizing principles and applications of modern chemical sciences. Covers chemical nomenclature, stoichiometry, kinetic molecular theory, atomic structure, periodic properties, and molecular structure and bonding. Satisfies laboratory science requirement. Math Reasoning Proficiency Course.

Credit Hours: 4

Prerequisites: MATH 1100 or MATH 1120 or equivalent. Honors eligibility required

CHEM 1330: College Chemistry II
Continuation of CHEM 1320. Covers intermolecular forces, solutions, kinetics, acid-base chemistry, electrochemistry, nuclear chemistry, thermodynamics. Satisfies requirement for a laboratory science. May be taken concurrently with CHEM 2030 or CHEM 2100.

Credit Hours: 4

Prerequisites: grade of C- or better in CHEM 1320 or CHEM 1320H

CHEM 1330H: College Chemistry II- Honors
Continuation of CHEM 1320H. Covers equilibria, kinetics, electrochemistry, nuclear chemistry, thermodynamics. Satisfies requirement for a laboratory science. May be taken concurrently with CHEM 2030 or CHEM 2100.

Credit Hours: 4

Prerequisites: grade of C- or better in CHEM 1320 or CHEM 1320H. Honors eligibility required

CHEM 1500H: Honors Intensive General Chemistry with Lab - Honors
A one-semester, intensive introduction to chemistry for honors-eligible students that takes the place of CHEM 1320, CHEM 1330. Four lectures and one 3-hour lab period per week. Math Reasoning Proficiency Course.

Credit Hours: 5

Prerequisites: honors eligibility, college algebra and one year of high school chemistry or instructor's consent

CHEM 2030: Survey of Organic Chemistry
One-semester introduction to structure and bonding, functional group chemistry, principles of reactivity, reaction mechanisms, the molecules of life.

Credit Hours: 3

Prerequisites: Grade of C or better in CHEM 1320 or CHEM 1320H or equivalent. Recommended CHEM 1330, or CHEM 1330 concurrently

CHEM 2100: Organic Chemistry I
First course of a two-semester sequence. Structure and bonding; chemistry of hydrocarbons, alkyl halides, alcohols and ethers; reaction mechanisms; principles of reactivity and synthesis; IR and NMR spectroscopy. Only 1 hour credit if taken after CHEM 2030 or equivalent.

Prerequisites: grade of C or better in CHEM 1320 or equivalent or CHEM 1330 concurrently.

Credit Hours: 3

Recommended: CHEM 1330

CHEM 2110: Organic Chemistry II
Continuation of CHEM 2100. Aromatic hydrocarbons, carbonyls, amines; chemistry of carbanions; reactions of polar double bonds; nucleic acids, proteins, carbohydrates and fats.

Credit Hours: 3

Prerequisites: grade of C or better in CHEM 2100 or equivalent, or departmental consent

CHEM 2130: Organic Laboratory I
Basic lab techniques, functional group manipulations, and short syntheses. Pre-lab and post-lab writing assignments. 1 hour recitation, 3 hours lab per week.

Credit Hours: 2

Recommended: Concurrent enrollment in CHEM 2110 or CHEM 2030.

No credit for students who have previous organic laboratory credit

CHEM 2140: Organic Laboratory II
Continuation of CHEM 2130. Preparation and identification of organic compounds; application of instrumental techniques. 2 lab sessions, 1 recitation session per week.

Credit Hours: 2

Prerequisites: grade of C or better in CHEM 2110 and CHEM 2130 or equivalent

CHEM 2160H: Honors Organic Chemistry I - Honors
First course of a two-semester sequence. Similar to CHEM 2100 but with increased depth and breadth; emphasis on preparing science students for research and professional careers. 3 lectures, 1 discussion session per week.

Credit Hours: 4

Prerequisites: honors eligibility, grade of B or better in CHEM 1320 or equivalent
CHEM 2170H: Honors Organic Chemistry II with Lab - Honors
Continuation of CHEM 2160H; includes laboratory. Content and structure similar to CHEM 2110, but with increased depth and breadth.

Credit Hours: 5
Prerequisites: honors eligibility, grade of B or better in CHEM 2160H or
instructor's permission

CHEM 2190H: Honors Organic Chemistry Laboratory - Honors
Preparation and identification of organic compounds; multistep syntheses; application of instrumental techniques, including NMR, FTIR, MS and HPLC. 2 lab sessions, 1 discussion session per week.

Credit Hours: 2
Prerequisites: honors eligibility, grade of C or better in CHEM 2170H or equivalent

CHEM 2400: Fundamentals of Inorganic Chemistry with Lab
A systematic introduction with laboratory to inorganic and organometallic compounds, reactions, and periodic properties.

Credit Hours: 3
Prerequisites: grade of C or better in CHEM 1330

CHEM 2950: Undergraduate Research in Chemistry
A laboratory research project and/or preparation of compounds with a written final report. Cannot be substituted for other chemistry courses required for a B.S. or B.A. degree. No more than 6 hrs. total credit.

Credit Hour: 1-3
Prerequisites: sophomore standing, 2.75 GPA and/or instructor's consent

CHEM 3200: Quantitative Methods of Analysis with Lab
Principles and practice of quantitative analysis, including the basic principles of modern instrumental methods.

Credit Hours: 4
Prerequisites: CHEM 1330 or CHEM 1500H

CHEM 3300: Fundamentals of Physical Chemistry
Survey of physical chemistry. Satisfies physical chemistry prerequisite for BIOMCH 8430.

Credit Hours: 3
Prerequisites: MATH 1700, a course in organic chemistry; PHYSCS 1210 and PHYSCS 1220 or PHYSCS 2175, or PHYSCS 2176 concurrently

CHEM 3310: Physical Chemistry I
Lecture only. Topics include the kinetic theory of gases, chemical kinetics, thermodynamics and chemical equilibrium.

Credit Hours: 3
Prerequisites: one semester organic chemistry and PHYSCS 2175, PHYSCS 2176 and MATH 2300, or MATH 2300 concurrently

CHEM 3330: Physical Chemistry II
Continuation of CHEM 3310. Lecture only. Covers mechanics, bonding, molecular spectroscopy and statistical mechanics.

Credit Hours: 3
Prerequisites: CHEM 2100 or CHEM 2160H

CHEM 3700: Undergraduate Seminar in Chemistry
Methods for locating and presenting chemical information, data analysis techniques, professional issues.

Credit Hours: 3
Prerequisites: CHEM 1330 or CHEM 1500H; CHEM 2100 or CHEM 2160H

CHEM 3700W: Undergraduate Seminar in Chemistry - Writing Intensive
Methods for locating and presenting chemical information, data analysis techniques, professional issues.

Credit Hours: 3
Prerequisites: CHEM 1330 or CHEM 1500H; CHEM 2100 or CHEM 2160H

CHEM 3800: Internship in Chemistry
Cannot be substituted for other chemistry courses required for B.S. or B.A. degree.

Credit Hour: 1-6
Prerequisites: departmental consent

CHEM 3940: Service-Learning in Chemistry
A service-learning community outreach program affording chemistry students with an opportunity to enhance their problem-solving skills. May be repeated once for credit. Satisfies no specific chemistry degree requirements, nor Arts and Science general education requirements. Graded on a S/U basis only.

Credit Hours: 2
Prerequisites: departmental consent

CHEM 4001: Topics in Chemistry - General
Organized study designed to broaden the knowledge base of students. Subjects on analytical, inorganic, organic and physical chemistry covered.

Credit Hour: 1-99
Prerequisites: departmental consent

CHEM 4003: Topics in Chemistry- Natural Science
Organized study designed to broaden the knowledge base of students. Subjects on analytical, inorganic, organic and physical chemistry covered.

Credit Hour: 1-99
Prerequisites: departmental consent

CHEM 4100: Advanced Chemistry Laboratory
Advanced methods for the synthesis and characterization of organic, inorganic, and organometallic compounds.

Credit Hours: 3
Prerequisites: CHEM 2400, CHEM 2140, or CHEM 2190H, CHEM 3200, CHEM 3330 (or CHEM 3330 corequisite)
CHEM 4050: Problems in Chemistry
Individual study under the direction of a faculty member that supplements regular course work.
Credit Hours: 1-99
Prerequisites: instructor's consent

CHEM 4160: Intermediate Organic Chemistry
Stresses synthetic organic chemistry at an intermediate level.
Credit Hours: 3
Prerequisites: at least one year organic chemistry

CHEM 4170: Medicinal Chemistry
Chemical mechanisms of drug action. Topics include drug metabolism and action, chemical toxicology and medicines, enzyme activity, and specific drug case studies.
Credit Hours: 3
Prerequisites: CHEM 2110, or CHEM 2170H, CHEM 3300 or CHEM 3310 or instructor's consent

CHEM 4200: Instrumental Methods of Analysis with Lab (cross-leveled with CHEM 7200). Chemical instrumentation methods including electrochemistry, spectroscopy, and advanced separations techniques.
Credit Hours: 3
Prerequisites: CHEM 3200, a semester of physical chemistry

CHEM 4280: Environmental Chemistry
Surveys the chemistry of air and water environments; discusses the chemistry of waste treatment.
Credit Hours: 3
Prerequisites: 8 hours chemistry including organic and analytical

CHEM 4290: Environmental-Toxicological Chemistry
In-depth study of the chemical aspects of current issues dealing with environmental pollutants and toxic chemical substances.
Credit Hours: 3
Prerequisites: CHEM 4280

CHEM 4400: Inorganic Chemistry (cross-leveled with CHEM 7400). Atomic and molecular structure, bonding, kinetics and mechanism, ligand field theory, coordination compounds, acids and bases.
Credit Hours: 3
Prerequisites: one semester Physical Chemistry, second semester concurrently

CHEM 4490: Physics and Chemistry of Materials (same as NU_ENG 4319, PHYSCS 4190 and BIOL_EN 4480; cross-leveled with CHEM 7490, NU_ENG 7319, PHYSCS 7190, BIOL_EN 7480). Undergraduate/graduate level course offered every spring semester for students from Physics, Chemistry, Engineering and Medical Departments and consists of lectures, laboratory demonstrations, two midterm and one final exam. Graduate students will submit a term paper.
Credit Hours: 3
Prerequisites: PHYSCS 2760 and CHEM 1320

CHEM 4600: Introduction to Radiochemistry with Lab (same as NU_ENG 4391). Introduces application of radio-tracer techniques to chemical research.
Credit Hours: 3
Prerequisites: CHEM 1300 or CHEM 1500H; and one semester of physical chemistry, or instructor's consent

CHEM 4800: Chemistry Teaching Practicum
Provides practical experience teaching introductory chemistry in discussion and laboratory settings. For students pursuing dual degrees in chemistry and secondary education. For students pursuing simultaneous dual degrees in chemistry and secondary education. Graded on S/U basis only.
Credit Hours: 3
Prerequisites: senior standing; departmental consent required

CHEM 4950: Senior Research
A laboratory research project with approved written goals and a final written report. It may be taken twice.
Credit Hours: 3
Prerequisites: a 2.75 GPA, departmental consent

CHEM 4990H: Senior Honors Research I
A laboratory research experience with a student-instructor prepared outline approved by the Honors Director, a final written report and a final oral presentation and examination.
Credit Hours: 3
Prerequisites: a 3.33 GPA, departmental consent, and approval of project outline. Honors eligibility required

CHEM 4991H: Senior Honors Research II
A laboratory research experience with a student-instructor prepared outline approved by the Honors Director, a final written report and a final oral presentation and examination.
Credit Hours: 3
Prerequisites: a 3.33 GPA, departmental consent, approval of project outline. Honors eligibility required

CHEM 7087: Seminar in Chemistry for Beginning Graduate Students
Seminar in Chemistry for Beginning Graduate Students
Credit Hour: 1

CHEM 7200: Instrumental Methods of Analysis with Lab (cross-leveled with CHEM 4200). Chemical instrumentation methods including electrochemistry, spectroscopy, and advanced separations techniques.
Credit Hours: 3
Prerequisites: CHEM 3200, a semester of physical chemistry
CHEM 7300: Intermediate Physical Chemistry
Treatment of atomic and molecular, structure and spectroscopy based on quantum concepts. Designed to provide a broad base of knowledge in these fundamental areas to beginning graduate students in chemistry.
Credit Hours: 3
Prerequisites: departmental consent

CHEM 7400: Inorganic Chemistry
(cross-leveled with CHEM 4400). Atomic and molecular structure, bonding, kinetics and mechanism, ligand field theory, coordination compounds, acids and bases.
Credit Hours: 3
Prerequisites: one semester Physical Chemistry, second semester concurrently

CHEM 7490: Physics and Chemistry of Materials
(same as NU_ENG 7319, PHYSCS 7190, BIOL_EN 7480; cross-leveled with CHEM 4490, NU_ENG 4319, PHYSCS 4190, BIOL_EN 4480). Undergraduate/graduate level course offered every winter semester for students from Physics, Chemistry, Engineering and Medical Departments and consists of lectures, laboratory demonstrations, two midterm and one final exam. Graduate students will submit a term paper.
Credit Hours: 3
Prerequisites: PHYSCS 2760 and CHEM 1320 or equivalent and instructor's consent

CHEM 8003: Topics in Chemistry - Natural Science
Organized study of selected topics. Subjects and earned credit may vary from semester to semester. Repeatable upon consent of department.
Credit Hour: 1-99
Prerequisites: instructor's consent

CHEM 8020: Introduction to X-ray Crystallography
Designed for students in chemistry and related fields. Aimed at offering a practical understanding of single-crystal x-ray structural studies. Includes hands-on laboratory work (data collection and analysis).
Credit Hours: 3
Prerequisites: instructor's consent

CHEM 8050: Non-Thesis Research in Chemistry
Does not lead to dissertation.
Credit Hour: 1-99

CHEM 8085: Topics in Chemistry
Organized study of selected topics. Subjects and earned credit may vary from semester to semester. Repeatable upon consent of department.
Credit Hour: 1-99
Prerequisites: instructor's consent

CHEM 8120: Physical Organic Chemistry I
Bonding theory, physical methods, absorption spectroscopy, conformational analysis, mechanism of reactions.
Credit Hours: 3

CHEM 8130: Physical Organic Chemistry II
Case studies and methods for determining organic reaction mechanisms.
Credit Hours: 3

CHEM 8150: Organic Reaction Mechanisms
Organic reaction mechanisms are discussed within a framework of structure-reactivity relationships. Particular attention directed to the chemistry of reactive intermediates and the application of stereochemical and molecular orbital concepts.
Credit Hours: 3
Prerequisites: 1 year of Organic Chemistry and Physical Chemistry

CHEM 8160: Organic Spectroscopy
Structural analysis of organic compounds involving problem solving using modern NMR, IR, UV-VIS, MS CD/ORD and other spectroscopic techniques.
Credit Hours: 3
Prerequisites: CHEM 3330 or equivalent or instructor's consent

CHEM 8170: Applications of the Reactions of Organic Chemistry
Credit Hours: 3
Prerequisites: CHEM 8150

CHEM 8210: Analytical Measurement
Fundamental and applied aspects of scientific measurements. Topics include: Statistics, signal-to-noise, frequency analysis, sources of noise, digital and analog filtering, time vs. frequency domain measurements, Fourier transformation, sampling, convolution/deconvolution, autocorrelation and cross-correlation. Directed toward entering graduate students.
Credit Hours: 3

CHEM 8230: Separations and Chromatography
Classical and instrumental methods of separation: gas, paper, thin film, and column chromatography; ion exchange.
Credit Hours: 3

CHEM 8240: Mass Spectrometry
This course will cover various aspects of modern mass spectrometry. Topics will include instrumentation, theory, uses and interfaces to mass spectrometry. Graded on A-F basis only.
Credit Hours: 3
CHEM 8250: Analytical Spectroscopy
Selected topics dealing with recent advances in analytical chemistry.
Credit Hours: 3

CHEM 8260: Surface Analysis and Characterization
Covers various aspects of modern methods of surface analysis and characterization. Topics include instrumentation, theory, and data reduction methods. Major sections include electron spectroscopy, microscopy, and vibrational spectroscopy as applied to surfaces. Graded on A-F basis only.
Credit Hours: 3

CHEM 8265: Fluorescence Spectroscopy
Advanced analytical chemistry course that explores the fundamental principles and uses of modern fluorescence spectroscopy in biology, materials science, chemistry, physics and engineering. Special emphasis is placed on the methodologies used to obtain specific information about a particular chemical system. Graded on A-F basis only.
Credit Hours: 3

CHEM 8270: Advanced Analytical Chemistry
Continuation of CHEM 8250.
Credit Hours: 3

CHEM 8280: Bioanalytical Chemistry
This course is aimed at introducing students to the instrumental and theoretical principles by which biological molecules are measured in vivo and in vitro. The course explores how protein, DNA and metabolite structures and quantities are determined in the laboratory with an emphasis on understanding historical methods up through cutting edge approaches in each field. The theory of measurement techniques, separation techniques and related instrumentation are explored in the context of understanding the chemical equilibria that govern each instance. Students will leave this course with a broad understanding for how many biological molecules are measured and what the limitations of various techniques may be. Graded on A-F basis only.
Credit Hours: 3

CHEM 8285: Nanochemistry
Covers various aspects of nanochemistry. Topics include synthesis and characterization of nonmaterial, nanotoxicity, and catalysis. Graded on A-F basis only.
Credit Hours: 3

CHEM 8300: Advanced Physical Chemistry
Advanced Physical Chemistry
Credit Hours: 3

CHEM 8310: Quantum Chemistry
Introduction to formal quantum mechanical theory, quantum measurement, simple model problems having exact solutions, angular momenta, approximation methods (perturbation theory, variation principle, WKB), and the structure of many-electron atoms.
Credit Hours: 3

Prerequisites: CHEM 3330 or equivalent or instructor's consent

CHEM 8320: Chemical Kinetics
Factors affecting rates, orders and mechanisms of chemical reactions, with emphasis on current theories and experimental techniques.
Credit Hours: 3
Prerequisites: CHEM 3330 or equivalent or instructor's consent

CHEM 8330: Computational Chemistry
Theory and application of modern computational techniques (molecular mechanics, ab initio and semiempirical molecular orbital methods) for predicting the structures, energies, and properties of molecules and molecular systems.
Credit Hours: 3
Prerequisites: CHEM 3300 or equivalent or instructor's consent

CHEM 8340: Statistical Mechanics
Principles of statistical mechanics and their application to chemical systems; ensemble theory; condensed phases.
Credit Hours: 3
Prerequisites: CHEM 3330 or equivalent or instructor's consent

CHEM 8350: Magnetic Resonance
Basic principles of nuclear magnetic resonance (NMR) and electron spin resonance (ESR), nuclear spin relaxation, current experimental techniques and the application to studies of structures, dynamics and chemical analysis.
Credit Hours: 3
Prerequisites: One year of organic chemistry, CHEM 3300 or equivalent

CHEM 8400: Inorganic Mechanisms
Experimental stoichiometry and rate law determination. Isotopic applications. Methods and results of fast reaction studies. Basic known inorganic mechanisms. Experimental methods of establishing mechanisms of reaction.
Credit Hours: 3

CHEM 8410: Chemistry of the Main Group Elements
Descriptive inorganic chemistry of the main group elements. Textbook material extensively supplemented with information from the current chemical literature.
Credit Hours: 3

CHEM 8420: Supramolecular Chemistry
The basics of supramolecular chemistry will be covered, including host-guest complexes, reorganization, complementarily, thermodynamic interactions, self assembly and biochemical, molecular device and crystal engineering applications. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: BS in Chemistry, Biochemistry or Chemical Engineering
CHEM 8430: Coordination Chemistry and Reactivity
The chemistry of the transition elements (d-block) and their reactivity will be discussed, including bonding, coordination numbers, oxidation states, and reactivity (kinetics). Graded on A-F basis only.

Credit Hours: 3
Prerequisites: CHEM 4400 or equivalent; graduate standing in chemistry or instructor's consent

CHEM 8440: Inorganic Structural Methods
Chemical bonding, application of group theory, spectroscopy; diffraction as applied to structure determination; structural implications of dipole moment and magnetic susceptibility measurements.

Credit Hours: 3

CHEM 8450: Organometallics
Condensations effected by organometallics; dissolving metal reductions; sandwich compounds and related organotransition metal derivatives.

Credit Hours: 3

CHEM 8460: Solid State Chemistry

Credit Hours: 3

CHEM 8470: Actinide Chemistry
The course covers the inorganic and organometallic chemistry of the actinides. Graded on A-F basis only.

Credit Hours: 3

CHEM 8480: Chemistry of Nanomaterials
This course will cover several aspects of nanomaterials including synthesis and processing of small particles, as well as their characterization by crystallography, scanning tunneling microscopy magnetism, and other optical properties. Also studied will be the application of quantum confinement to the electronic and optical properties of nanomaterials and the development of photonic materials. The nanostructure of organic polymers, micelles, and the process of biomineralization to make organic-inorganic hybrid materials will also be discussed.

Credit Hours: 3

CHEM 8600: Radiochemistry and Detection with Lab
An introductory course in the applications of radionuclides in chemistry. Topics include radioactive decay, interactions of radiation with matter, radioactive tracers, and nuclear methods of analysis. Directed towards entering graduate students.

Credit Hours: 3

CHEM 8610: Advanced Radiochemistry
Reviews current advances in radiochemistry, hot atom chemistry, radiation chemistry, nuclear spectrometry.

Credit Hours: 3

CHEM 8620: Nuclear Chemistry
Designed for graduate students in chemistry and related fields. Studies nuclear reaction and nuclear properties.

Credit Hours: 3
Prerequisites: CHEM 3300, MATH 2300 or instructor's consent

CHEM 8630: Radiopharmaceutical Chemistry
The radiotracer concept, history of nuclear medicine, radionuclide production, organic and inorganic chemistry of radiopharmaceutical chemistry, and applications will be discussed. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: undergraduate organic and inorganic chemistry; graduate standing in chemistry or instructor's consent

CHEM 8640: Biological Radiochemistry
Covers the interaction of radiation on biological material. The effects of radiation overdose is discussed along with the use of radiation in therapy. Graded on A-F basis only.

Credit Hours: 3

CHEM 8650: Post-candidacy Dissertation Research in Chemistry
Research leading to Ph.D. dissertation. Graded on a S/U basis only.

Credit Hour: 1-99

Child Health Courses

CH_HTH 6000: Child Health Clerkship
Students have the opportunity to learn about common illnesses and abnormalities in children. Emphasis also is placed on the importance of preventive and developmental aspects of child care. Lectures and case presentations correlate with the clinical experiences.

Credit Hours: 8

CH_HTH 6010: Rural Child Health Clerkship
Rural Child Health Clerkship

Credit Hours: 8

CH_HTH 6020: Springfield Child Health Clerkship
Students have the opportunity to learn about common illnesses and abnormalities in children. Emphasis also is placed on the importance of preventive and developmental aspects of child care. Lectures and case presentations correlate with the clinical experiences.

Credit Hours: 8

CH_HTH 6037: SCC Pediatric Intensive Care
Student will learn the initial approach and daily management of children requiring care in the Pediatric Intensive Care Unit. Students will learn the evaluation of and the management of critically ill or injured children focusing on airway and pulmonary physiology, cardiac physiology,
neurological diseases, traumatic injuries, acute overdoses, endocrine emergencies, basic fluid management, and the medically complex child. Pharmacologic and nutritional management of the critically ill or injured child will also be reviewed.

**Credit Hours**: 5  
**Prerequisites**: Successful completion of 5 of the 7 core clerkships. One of the 5 must be the Child Health clerkship. CH_HTH 6000, 6010, 6020, or 6100

**CH_HTH 6434: Child Adolescent Medicine**

Goals/Objectives: To teach 4th year students the intricacies of care of the adolescent patient. Specifically, the rotation will address the adolescent interview, important considerations in the adolescent “check-up”, and managing the varied problems in adolescents, from attention deficit disorder to eating disorders and gynecological issues. The student will leave the rotation with a better understanding of the care of adolescents. CURRICULUM: These objectives will be met in the following manner: 1) Student will actively participate in adolescent medicine clinic with both clinical attendings. He/she will be responsible for the initial evaluation of the patients in the clinic, will actively participate in clinical decision-making, and will be responsible for helping with patient write-ups and referral letters (at the discretion of the attending). The student will be expected to function on an extern level, following up on laboratory evaluations and checking in with patients seen, when needed. 2) The student will participate in the adolescent interview practice sessions with the interact teen theatre with the residents on the rotation. This process will help to improve interviewing skills with adolescents. 3) The student will be responsible for helping with any inpatient care, including consultations and/or admissions. 4) The student will be asked to identify particular areas of interest to be used as topics for interactive discussion with one of the attendings or for a short paper.

Credit Hours: 5
Prerequisites: Child Health Clerkship

---

**CH_HTH 6435: Ped Renal and Rheumatology**

4th year elective for renal/rheumatology rotation, four weeks.

Credit Hours: 5
Prerequisites: 3rd year Pediatrics/Child Health or Internal Medicine rotation

---

**CH_HTH 6706: Internal Medicine Hematology and Medical Oncology**

Rural Elective

The student will work as part of a team providing hands-on clinical services in a rural outpatient setting. Students will participate in daily morning report and other didactic sessions provided by the rotation site. Students will learn using a variety of evidence-based resources, direct observations and demonstration.

Credit Hours: 5
Prerequisites: CH_HTH 6002; restricted to medical students only

---

**CH_HTH 6725: Developmental Pediatrics - Rural**

Rural developmental pediatrics general elective.

Credit Hours: 5
Prerequisites: CH_HTH 6000; Restricted to fourth year medical students

---

**CH_HTH 6726: Child Health Rural Elective**

Students will enhance their knowledge about patient-centered care of children through active participation in a primarily outpatient clinical experience. Limited inpatient experience may be offered as well.

Credit Hours: 5
Prerequisites: CH_HTH 6000; restricted to medical students only

---

**CH_HTH 6825: General Child Health - Inpatient**

Goals/Objectives: To provide additional experience in general pediatrics in inpatient care. CURRICULUM: The student will function as a member of the house staff team assuming many of the roles of the first year resident in patient care. This includes working up of patient’s management plans, rounding, staffing, conferences, etc. Night coverage with supervision is included.

Credit Hours: 5
Prerequisites: Child Health Clerkship

---

**CH_HTH 6826: General Child Health - Outpatient**

Goals/Objectives: To provide additional experience in general pediatrics in outpatient care. CURRICULUM: The student will function as a member of the healthcare team. This includes taking histories, performing physical exams, and working up patient management plans. This may require working evening clinic and Saturday clinic in addition to regular daytime clinics.

Credit Hours: 5
Prerequisites: Child Health Clerkship

---

**CH_HTH 6827: Neonatology/Neonatal Intensive Care Unit**

Goals/Objectives: To gain experience: 1) in the evaluation, diagnosis, and management of sick newborns, and 2) in the performance of specialized procedures necessary for ICU care. CURRICULUM: The student will function as a first-year house officer, with his/her own neonatal ICU patients for initial work-up and management, under the supervision of the PL-2 or PL-3 and attending staff. (rotation at Columbia Regional Hospital)

Credit Hours: 5
Prerequisites: Child Health Clerkship

---

**CH_HTH 6828: Pediatric Intensive Care Unit**

Goals/Objectives: 1) To provide the student with the initial approach and management of children requiring care in the Pediatric Intensive Care Unit. 2) To provide the student with the basics of airway management in children. 3) To provide the student with an understanding of the preoperative assessment with preparation of pediatric patients. 4) To provide the student with an introduction to the perioperative management of common pediatric surgical problems. CURRICULUM: Students in this elective will spend time in both the Pediatric ICU and the operating rooms. They will be required to participate in daily rounds in the PICU and follow the medical/surgical patients admitted to the PICU.

Credit Hours: 5
Prerequisites: Child Health Clerkship

---

**CH_HTH 6829: Pediatric Neurology**

Pediatric Neurology

Credit Hours: 5

---

**CH_HTH 6912: Introduction to Adolescent Medicine**

The rotation is primarily an outpatient experience, though the student may be asked to do inpatient consultations with the attending physician on service. In addition to learning and practicing primary care of adolescent patients the elective will present an in-depth experience of adolescent medicine as a subspecialty, including, but not limited to, conditions such as eating disorders, disorders of puberty and menstruation, obesity, ADHD, and substance abuse. Additional teaching methods used include a pre-post test, lectures, and readings relevant to
adolescent medicine. Completion of the Child Health Clerkship: CH_HTH 6000 and CH_HTH 6010.

**Credit Hours:** 2  
**Prerequisites:** Successful completion of the first two years of medical school

**CH_HTH 6913: Introduction to Pediatric Endocrinology**
The rotation is primarily an outpatient experience, though the student may be asked to do inpatient consultations with the attending physician on service. The elective will present an in-depth experience of diabetes/endocrinology as a subspecialty, including, but not limited to, exposure to disorders in growth and puberty, obesity, abnormalities in thyroid function and managing blood glucose levels in patients with type 1 diabetes. Additional teaching methods used may include lectures and readings relevant to this subspecialty.

**Credit Hours:** 2  
**Prerequisites:** Successful completion of the first two years of medical school  
**Recommended:** Completion of the Child Health Clerkship (CH_HTH 6000 or CH_HTH 6010) is suggested but not required

---

**Chinese Courses**

**CHINSE 1100: Elementary Chinese I**  
For beginners with no prior knowledge of Chinese. Five hours of classroom instruction, with one hour lab work weekly.

**Credit Hours:** 6

**CHINSE 1200: Elementary Chinese II**  
Five hours of classroom instruction, with one hour lab work weekly.

**Credit Hours:** 6  
**Prerequisites:** C- or better in CHINSE 1100 or equivalent

**CHINSE 2001: Undergraduate Topics in Chinese-General**  
Organized study of selected topics. Subjects and credits may vary from semester to semester.

**Credit Hour:** 1-3

**CHINSE 2005: Undergraduate Topics in Chinese - Humanities**  
Organized study of selected topics. Subjects and credits may vary from semester to semester. No knowledge of Chinese required. No language credit.

**Credit Hour:** 1-3  
**Prerequisites:** Sophomore standing and instructor's consent  
**CHINSE 3005H: Topics in Chinese - Humanities - Honors**  
Organized study of selected topics. Subjects and earnable credit may vary from semester to semester. Some sections may be graded on A-F or S/U basis only.  
**Credit Hour:** 1-3  
**Prerequisites:** Sophomore standing and instructor's consent, Honors eligibility required

**CHINSE 3001: Topics in Chinese - General**  
Organized study of selected topics. Subjects and earnable credit may vary from semester to semester. May be repeated to a maximum of 6 hours with departmental consent. Graded on A-F basis only.

**Credit Hour:** 1-3  
**Prerequisites:** Sophomore standing and instructor consent

**CHINSE 3005: Topics in Chinese - Humanities**  
Organized study of selected topics. Subjects and earnable credit may vary from semester to semester. Some sections may be graded on A-F or S/U basis only.

**Credit Hour:** 1-3  
**Prerequisites:** Sophomore standing and instructor’s consent

**CHINSE 3085: Problems in Chinese**  
Supervised study in Chinese language and/or culture.

**Credit Hour:** 1-3  
**Prerequisites:** Instructor's consent

**CHINSE 3160: Intermediate Chinese II Conversation and Composition**  
Continuation of CHINSE 2160. Introduces more complex grammatical constructions and extends ability to use those constructions for written and oral communication. Successful completion of course will enable students to communicate in Mandarin Chinese regarding everyday topics, with a vocabulary of just over 1900 words, and about 380 sentence patterns.

**Credit Hours:** 3
Prerequisites: C- or higher in CHINSE 2160

CHINSE 3170: Everyday Spoken Chinese Level II
For students who have completed 18 credits college-level Chinese. Reinforces and extends ability to use Chinese language for spoken communication. Class-time spent studying situation-specific Chinese in real-life situations. Intended to supplement, not replace, Chinese language courses taught on UMC campus. Students must be enrolled in MU China Study Abroad.
Credit Hours: 3
Prerequisites: C- or better in CHINSE 3160 or consent of instructor

CHINSE 3180: Advanced Chinese I
Improves vocabulary, listening, spoken and written Chinese skills. Discusses basic cultural ideas. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: C- or higher in CHINSE 3160, or equivalent

CHINSE 3300: Chinese Traditions and Global Integration
Focuses on developments in China's International relations that have led to prominence on world stage, and the impact of modernization and integration into world community on China's sense of national identity, shape of Chinese culture, and lives of the people. Visits to cultural and business sites, guest lectures, and conversations with Chinese people.
Credit Hours: 3
Prerequisites: Must be enrolled in MU China Study Abroad; sophomore standing required

CHINSE 3300H: Chinese Traditions and Global Integration - Honors
Focuses on developments in China's International relations that have led to prominence on world stage, and the impact of modernization and integration into world community on China's sense of national identity, shape of Chinese culture, and lives of the people. Visits to cultural and business sites, guest lectures, and conversations with Chinese people.
Credit Hours: 3
Prerequisites: Must be enrolled in MU China Study Abroad; sophomore standing required. Honors eligibility required

CHINSE 3310: Chinese Poetry
This is an introductory course to Chinese poetry, both classical and contemporary, in English. It will explore issues in the intercultural and interlingual interpretation of foreign literature through the study of Western translations of and scholarship on selected Chinese poets.
Credit Hours: 3
Prerequisites: sophomore standing

CHINSE 3320: Modern and Contemporary Chinese Fiction (in translation)
Studies Chinese fiction from 1920s to 1990s. Preceded by a brief historical survey of Chinese literature. Analyzes works by authors like Lu Xun, Ba Jin, Lao She, Wang Meng and many others of the younger generation. Readings and lectures in English.
Credit Hours: 3
Prerequisites: Sophomore standing

CHINSE 3400: Negotiating Chinese Culture
As political, business, religious, and personal encounters between Chinese and Americans increase, so also does the need for competence in negotiating these cross-cultural interactions. Whether hosting Chinese guests, visiting China for business or as a scholar, or simply trying to understand current events, a clear understanding of cultural differences and similarities can be quite valuable. Students will be introduced to multiple perspectives on American and Chinese cultural differences along with narratives of cross-cultural experiences. Course addresses issues related to American and Chinese cross-cultural communication in five spheres of interaction: political, religious, business, interpersonal, education. Through related readings, discussions, and structured conversations with Chinese, students will explore how this information and a deeper understanding of Chinese and American culture can be applied to more fruitful and positive cross-cultural interactions in multiple contexts.
Credit Hours: 3
Prerequisites: sophomore standing

CHINSE 3880: Contemporary Chinese Film
(same as FILM_S 3880). Introduces development of 20th century Chinese film and popular genres, including review of earlier times. Explores how present day Chinese understand their own history, and issues they face in drive toward modernization in a global context. Films and readings in English or with English subtitles. No previous knowledge of the culture or language required.
Credit Hours: 3
Prerequisites: sophomore standing

Civil Engineering Courses
CV_ENG 1000: Introduction to Civil Engineering
Introduces various aspects of Civil Engineering practice. May be repeated one time for credit.
Credit Hour: 1

CV_ENG 1001: Experimental Course
For freshman-level students. Content and number of credit hours to be listed in Schedule of Courses.
Credit Hour: 1-99

CV_ENG 2001: Experimental Course
For sophomore-level students. Content and number of credit hours to be listed in Schedule of Courses.
Credit Hour: 1-99

CV_ENG 2080: Introduction to Dynamics
Basic fundamentals of particle and rigid body dynamics; energy and momentum methods.
Credit Hours: 3
Prerequisites: ENGINR 1200

CV_ENG 3001: Fundamental Topics in Civil Engineering
Special engineering topics for undergraduate students.
Credit Hour: 1-3
Prerequisites: instructor's consent

CV_ENG 3010: Decision Methods for Civil Engineering Design
Essential features of civil engineering including the design process, design teams, experimental and computational tools, engineering economy, communication skills, and ethical considerations.

Credit Hours: 3
Prerequisites or Corequisites: ENGINR 1200
Prerequisites: grade of C- or better in ENGLSH 1000

CV_ENG 3010W: Decision Methods for Civil Engineering Design - Writing Intensive
Essential features of civil engineering including the design process, design teams, experimental and computational tools, engineering economy, communication skills, and ethical considerations.

Credit Hours: 3
Prerequisites: grade of C- or better in ENGLSH 1000
Corequisites: ENGINR 1200

CV_ENG 3050: Introduction to Geographic Information Systems GIS
(same as GEOG 3040) Introduces theory, concepts and techniques related to the creation, manipulation, processing, and basic analysis of spatial data using GIS. Data management, current data models, GIS applications and course topics are reinforced through hands-on computer laboratory exercises.

Credit Hours: 3
Prerequisites: sophomore standing

CV_ENG 3100: Fundamentals of Transportation Engineering
Covers fundamentals of transportation engineering including geometric design, traffic engineering, pavements, and planning.

Credit Hours: 4
Prerequisites or Corequisites: CV_ENG 3010
Prerequisites: grade of C- or better in ENGINR 1100

CV_ENG 3200: Fundamentals of Environmental Engineering
Fundamentals of water quality engineering and water resources, water and wastewater treatment, solid and hazardous and radioactive waste management, air pollution, environmental regulation, and environmental ethics.

Credit Hours: 4
Prerequisites or Corequisites: CV_ENG 3010
Prerequisites: grade of C- or better in CHEM 1320 or equivalent

CV_ENG 3250: Pollutant Fate and Transport
(same as ENV_SC 3250). Introduction to concepts governing pollutant fate and transport in the environment, including pollutant interactions within and migration through environmental systems, as well as analytical techniques and tools necessary to quantify conditions and movement.

Credit Hours: 3
Prerequisites: ENV_SC 1100 or SOIL 2100 or CV_ENG 3200; and CHEM 1320; or instructor's permission

CV_ENG 3300: Structural Analysis I
Analysis of statically determinate beams, frames; shear and moment diagrams; influence line diagrams; beam deflections. Analysis of statically indeterminate structures; moment distribution; energy methods. Introduction to matrix analysis.

Credit Hours: 4
Prerequisites: grade of C- or better in ENGINR 1200 and ENGINR 2200

CV_ENG 3300H: Structural Analysis I - Honors
Analysis of statically determinate beams, frames; shear and moment diagrams; influence line diagrams; beam deflections. Analysis of statically indeterminate structures; moment distribution; energy methods. Introduction to matrix analysis.

Credit Hours: 4
Prerequisites: grade of C- or better in ENGINR 1200 and ENGINR 2200.
Honors Eligibility required

CV_ENG 3312: Reinforced Concrete Design
Basic principles of reinforced concrete design. Design of beams for flexure and shear; design of short and slender columns. Prerequisites: CV_ENG 3300;

Credit Hours: 3
Prerequisites or Corequisites: CV_ENG 3600

CV_ENG 3313: Structural Steel Design
Basic principles of structural steel design. Design of beams, axially loaded members, columns, and bolted and welded connections.

Credit Hours: 3
Corequisites: CV_ENG 3300 and CV_ENG 3600

CV_ENG 3340: Fundamentals of Geotechnical Engineering
Detailed study of physical and mechanical properties of soil governing its behavior as an engineering material.

Credit Hours: 4
Prerequisites: grade of C- or better in ENGINR 2200 and GEOL 1150

CV_ENG 3360: Civil Engineering Materials
Introduces composition, structure, properties, behavior, and selection of civil engineering materials. Prerequisites: grade of C- or better in ENGINR 2200 or instructor's consent;

Credit Hours: 4
Prerequisites or Corequisites: CV_ENG 3010

CV_ENG 3370: Fluid Mechanics
Statics and dynamics of fluids, principles of continuity, momentum and energy, pipe flow.

Credit Hours: 3
Prerequisites: grade of C- or better PHYSCS 2750

CV_ENG 3372: Hydrology
Fundamental concepts of hydrology in engineering; quantitative estimation of stream-flow magnitude and frequency; and open channel flow considerations from stream-flow. Fluid Mechanics lab with lab reports.
CV_ENG 4001: Topics in Civil Engineering
Study of current and new technical developments in civil engineering.
Credit Hours: 1-3
Prerequisites: instructor's consent

CV_ENG 4006: Digital Computer Applications in Engineering
(cross-leveled with CV_ENG 7006). Use of digital computer for solution of engineering problems involving roots of equations, simultaneous equations, curve fitting, integration, differentiation, and differential equations. Prerequisites: MATH 2300
Credit Hours: 3

CV_ENG 4008: Risk and Reliability for Civil Engineers
(cross-leveled with CV_ENG 7008). This course focuses on how to use probability and statistics to quantify uncertainties and consider risks when making civil engineering decisions and designing civil engineering systems.
Credit Hours: 3
Prerequisites: grade of C- or better in CV_ENG 3010 or other introductory probability/statistics course

CV_ENG 4080: Advanced Surveying
(cross-leveled with CV_ENG 7080). Celestial observations for determination of position; state coordinate systems, precise surveys, introduction to geodetic surveys, principles of photogrammetry. Theory of optical surveying instruments.
Credit Hours: 3
Prerequisites: MATH 1500

CV_ENG 4085: Problems in Civil and Environmental Engineering
Directed investigation of civil engineering.
Credit Hour: 2-4
Prerequisites: instructor's consent

CV_ENG 4100: Traffic Engineering
(cross-leveled with CV_ENG 7100). Characteristics and studies associated with highway traffic. Capacity analysis and evaluation of freeways, rural highways, and urban streets. Traffic signal control and coordination.
Credit Hours: 3
Prerequisites: grade of C- or better in CV_ENG 3100

CV_ENG 4102: Infrastructure Management
(cross-leveled with CV_ENG 7102). Civil infrastructure condition assessment, performance modeling, deterioration processes and models, maintenance and rehabilitation strategies, management techniques, data analysis, management systems, financing, case studies, emerging technologies.
Credit Hours: 3
Prerequisites: grade of C- or better in CV_ENG 3100

CV_ENG 4103: Planning and Geometric Design of Highways
(cross-leveled with CV_ENG 7103). Techniques of highway planning in rural and urban areas. Design of the visible elements of highways.
Credit Hours: 3
Prerequisites: grade of C- or better in CV_ENG 3100

CV_ENG 4104: Pavement Materials and Design
Credit Hours: 3
Prerequisites: grade of C- or better in ENGINR 2200

CV_ENG 4106: Intelligent Transportation Systems
(cross-leveled with CV_ENG 7106). This is an introductory course in Intelligent Transportation Systems (ITS). Topics include the theory of transportation networks and systems optimization, current implementations of ITS, and practical issues and implications of ITS.
Credit Hours: 3
Prerequisites: grade of C- or better in CV_ENG 3100

CV_ENG 4108: Bicycle and Pedestrian Transportation
(cross-leveled with CV_ENG 7108). This course teaches how to integrate pedestrian and bicyclist accommodations into the planning and design of transportation facilities. Topics include bicyclist safety, accommodation at intersections, traffic calming techniques and facility design.
Credit Hours: 3
Prerequisites: grade of C- or better in CV_ENG 3100

CV_ENG 4110: Transportation Simulation
(cross-leveled with CV_ENG 7110). Theory and application of simulation in transportation engineering.
Credit Hours: 3
Prerequisites: grade of C- or better in CV_ENG 3100

CV_ENG 4120: Airport Engineering
(cross-leveled with CV_ENG 7120). Airport systems planning, design, and management.
Credit Hours: 3
Prerequisites: grade of C- or better in CV_ENG 3010

CV_ENG 4125: Transportation Legal Issues
(cross-leveled with CV_ENG 7125). This course discusses some of the legal issues that transportation engineers encounter throughout the course of their careers.
Credit Hours: 3
Prerequisites: CV_ENG 3010

CV_ENG 4130: Transportation Safety
(cross-leveled with CV_ENG 7130). This course is an introduction to transportation safety. The focus will be on surface transportation. The student is expected to analyze safety data and to devise engineering solutions to safety problems.
Credit Hours: 3
Prerequisites: CV_ENG 3010

CV_ENG 4145: Civil and Environmental Engineering Legal Issues
(cross-leveled with CV_ENG 7145). Discussion of legal issues facing civil
engineers including right of way, risk and liability, environment, financing
public works, contracting and ethics.
Credit Hours: 3
Prerequisites: CV_ENG 3010

CV_ENG 4155: Transportation Geography
(same as GEOG 4850; cross-leveled with CV_ENG 7155; GEOG 7850).
Introduction to fundamental concepts and modes of analysis in
transportation geography. Focus on descriptive, explanatory, as well as
normative approaches. Topics reviewed include spatial organization,
transportation economics, spatial interaction, network analysis, location/ allocation, and urban transportation planning.
Credit Hours: 3

CV_ENG 4175: The Geospatial Science in National Security
(Same as GEOG 4130; cross-leveled with CV_ENG 4175, GEOG 7130).
This course explores the critical contribution of the geospatial sciences
in the collection processing, visualization and analysis of geospatial
information related to national security. May be repeated for credit.
Credit Hours: 3
Prerequisites: instructor's consent
Recommended: junior standing

CV_ENG 4185: Location Analysis/Site Selection
(same as GEOG 4740; cross-leveled with CV_ENG 7185; GEOG 7740).
An overview of location analysis in regional planning and spatial decision
support, this course focuses on the use of Geographic Information Science (GIS) and location analysis methods in addressing regional
service needs. Maybe be repeated for credit.
Credit Hours: 3

CV_ENG 4190: Infrastructure Project Development
(cross-leveled with CV_ENG 7190). Students will learn how the key
elements of major civil engineering infrastructure projects fit together.
The course will focus on the horizontal integration of: financing - planning - environment - right of way - design - construction - operations - maintenance. Engineering is important but so are a lot of other things.
Graded on A-F basis only. Prerequisites: junior standing

CV_ENG 4200: Remote Sensing of the Environment
(cross-leveled with CV_ENG 7200). Principles, characteristics and
applications of remote sensing in engineering, geosciences, agriculture
and environmental projects. Topics: basic concepts, photographic,
thermal multispectral and microwave systems, satellite remote sensing and
digital image processing.
Credit Hours: 3
Prerequisites: junior standing

CV_ENG 4210: Solid Waste Management
(cross-leveled with CV_ENG 7210). Engineering principles involved in
generation, handling, collection, transport, processing, and disposal of
solid wastes, resource recovery and reuse, legislation on solid wastes
and groundwater contamination problems.
Credit Hours: 3
Prerequisites: junior standing

CV_ENG 4220: Hazardous Waste Management
(same as CH_ENG 4220; cross-leveled with CV_ENG 7220, CH_ENG
7220). Engineering principles involved in handling, collection,
transportation, processing and disposal of hazardous wastes, waste
minimization, legislation on hazardous wastes and groundwater
contamination.
Credit Hours: 3

CV_ENG 4230: Introduction to Water Quality
(cross-leveled with CV_ENG 7230). Methods for determining and
characterizing water quality, effects of pollution on streams and lakes, and
an introduction to engineered systems for the distribution, collection and
treatment of water and wastewater.
Credit Hours: 3
Prerequisites: junior standing

CV_ENG 4232: Water and Wastewater Treatment Facilities
(cross-leveled with CV_ENG 7232). Physical, chemical, and biochemical
processes for treating drinking water supplies and wastewaters (domestic and industrial), with emphasis on planning and design of such facilities.
Credit Hours: 3
Prerequisites: CV_ENG 4230 or CV_ENG 7230 or instructor's consent

CV_ENG 4240: Water Quality Analysis
(cross-leveled with CV_ENG 7240). Chemical, physical and biological
methods for analysis of streams, lakes, wastewaters and water supplies and
their use in water quality management.
Credit Hours: 3
Prerequisites: grade of C- or better in CV_ENG 4230 or instructor's consent

CV_ENG 4245: Environmental Chemistry for Engineers
(cross-leveled with CV_ENG 7245). This course will cover the fundamentals of environmental chemistry. Physical, equilibrium, organic and colloid chemistry topics will be presented from an environmental perspective with a focus on their relevant engineering applications.
Credit Hours: 3
Prerequisites: CHEM 1320 or CV_ENG 3200

CV_ENG 4250: Environmental Regulatory Compliance
(cross-leveled with CV_ENG 4250). Systems of water law; provisions of
major federal environmental laws and regulations; development of
regulations at the federal, state, and local levels; regulatory frameworks;
permits; and enforcement.
Credit Hours: 3
CV_ENG 4260: Environmental Public Policy
(cross-leveled with CV_ENG 7260). Engineering and economic aspects of environmental policy. Basic understanding of environmental statutes and case law.

Credit Hours: 3

CV_ENG 4270: Environmental Engineering Microbiology
(cross-leveled with CV_ENG 7270). Theory and application of fundamental principles of microbiology, ecology, and aquatic biology of the microorganisms of importance to sanitary engineers.

Credit Hours: 3

CV_ENG 4280: Environmental Engineering Microbiology
(cross-leveled with CV_ENG 7280). Theory and application of fundamental principles of microbiology, ecology, and aquatic biology of the microorganisms of importance to sanitary engineers.

Credit Hours: 3

CV_ENG 4290: Wastewater Treatment and Process Design
(cross-leveled with CV_ENG 7290). Selection and use of wastewater and sludge treatment processes, disposal methods, sustainable wastewater treatment including anaerobic treatment of wastewater reuse.

Credit Hours: 3

CV_ENG 4300: Advanced Structural Steel Design
(cross-leveled with CV_ENG 7300). Design of steel structures and bridges. Topics include composite beams, plate girder design, and moment resistant connections.

Credit Hours: 3

CV_ENG 4302: Prestressed/Advanced Reinforced Concrete

Credit Hours: 3

CV_ENG 4310: Structural Design and Analysis

Credit Hours: 3

CV_ENG 4312: Energy Methods in Mechanics
(cross-leveled with CV_ENG 7312). Variational mechanics including practical examples. Topics include calculus of variation of boundary value problems, energy methods such as Ritz and Galerkin methods, approximate solutions methods such as the finite element and finite difference, and eigenvalue problems.

Credit Hours: 3

CV_ENG 4320: Energy Methods in Mechanics
(cross-leveled with CV_ENG 7320). Variational mechanics including practical examples. Topics include calculus of variation of boundary value problems, energy methods such as Ritz and Galerkin methods, approximate solutions methods such as the finite element and finite difference, and eigenvalue problems.

Credit Hours: 3

CV_ENG 4330: Structural System Design
(cross-leveled with CV_ENG 7330). Design of buildings in steel and reinforced concrete, including estimation of loads and design of gravity and lateral force resisting systems.

Credit Hours: 3

CV_ENG 4350: Matrix Methods of Structural Analysis
(cross-leveled with CV_ENG 7350). An introduction to the fundamentals of stiffness and flexibility methods for analysis of truss and frame structures. Application of the STRUDL and NASTRAN programs to three dimensional structures.

Credit Hours: 3

CV_ENG 4360: Bridge Engineering

Credit Hours: 3

CV_ENG 4370: Geotechnical Earthquake Engineering
(cross-leveled with CV_ENG 7370). This course provides an introduction to geotechnical aspects of earthquake engineering. Topics include: basic seismology, seismic hazard analysis, dynamic soil properties, site response analysis and soil liquefaction.

Credit Hours: 3

CV_ENG 4380: Geotechnics of Landfill Design
(cross-leveled with CV_ENG 7380). This course will focus on geotechnical and construction aspects in the analysis, design and construction of waste containment facilities (landfills) including expansions of existing facilities.

Credit Hours: 3

CV_ENG 4390: Geotechnical Earthquake Engineering
(cross-leveled with CV_ENG 7390). This course will focus on geotechnical and construction aspects in the analysis, design and construction of waste containment facilities (landfills) including expansions of existing facilities.

Credit Hours: 3

CV_ENG 4404: Geotechnical Earthquake Engineering
(cross-leveled with CV_ENG 7404). This course provides an introduction to geotechnical aspects of earthquake engineering. Topics include: basic seismology, seismic hazard analysis, dynamic soil properties, site response analysis and soil liquefaction.

Credit Hours: 3

CV_ENG 4406: Geotechnics of Landfill Design
(cross-leveled with CV_ENG 7406). This course will focus on geotechnical and construction aspects in the analysis, design and construction of waste containment facilities (landfills) including expansions of existing facilities.

Credit Hours: 3

CV_ENG 4410: Foundation Engineering
(cross-leveled with CV_ENG 7410). Subsurface exploration. Design of basic foundation structures, shallow foundations, retaining walls, deep foundations.

Credit Hours: 3

CV_ENG 4412: Applied Geotechnical Engineering
(cross-leveled with CV_ENG 7412). Study of concepts, theories, and design procedures for modern earthwork engineering including: compaction and densification of soils and soil improvement, seepage and drainage, slope stability and performance, and earth retaining structures.

Credit Hours: 3
Prerequisites: grade of C- or better in CV_ENG 3400

CV_ENG 4500: Introduction to Construction Management
(cross-leveled with CV_ENG 7500). Structure of the construction industry; construction drawings and specifications; estimating and bidding; construction contracts, bonds and insurance; planning and scheduling of construction operations; project management; computer techniques.

Credit Hours: 3
Prerequisites: junior standing

CV_ENG 4600: Advanced Mechanics of Materials
(same as MAE 4600; cross-leveled with CV_ENG 7600 and MAE 7600). Analysis of more complicated problems in stresses, strains.

Credit Hours: 3
Prerequisites: grade of C- or better in ENGINR 2200

CV_ENG 4610: Sensors and Experimental Stress Analysis
(cross-leveled with CV_ENG 7610). Sensors and instrumentation for stress analysis, mechanical measurement and health monitoring of civil structures. Application and design of data acquisition systems, basic digital signal processing. Electronics and instrumentation circuits.

Credit Hours: 3
Prerequisites: grade of C- or better in ENGINR 2200 and PHYSCS 2760

CV_ENG 4660: Vibration Analysis
(same as MAE 4660; cross-leveled with CV_ENG 7600, MAE 7600). Vibration theory with application to mechanical systems.

Credit Hours: 3
Prerequisites: grade of C- or better in CV_ENG 2080 and MATH 4100

CV_ENG 4692: Introduction to Structural Dynamics
Theory of structural response to dynamic loads. Computation of dynamic response of structures to dynamic loads like blast and earthquake. Modal analysis and single degree of freedom methods will be covered.

Credit Hours: 3
Prerequisites: grade of C- or better in CV_ENG 3300

CV_ENG 4700: Hydraulics of Open Channels
(cross-leveled with CV_ENG 7700). Gradually varied flow and theory of the hydraulic jump. Slowly varied flow involving storage; rating curves.

Credit Hours: 3
Prerequisites: grade of C- or better in CV_ENG 3700

CV_ENG 4703: Applied Hydrology
(cross-leveled with CV_ENG 7703). Modern methods of applied hydrologic analysis and synthesis of hydrologic records.

Credit Hours: 3
Prerequisites: grade of C- or better in CV_ENG 3700 and CV_ENG 3702 or instructor's consent

CV_ENG 4710: Soil and Water Conservation Engineering
(same as BIOL_EN 4150; cross-leveled with CV_ENG 7710, BIOL_EN 7150). Urban and rural run-off and erosion analysis. Design and layout of erosion control structures.

Credit Hours: 3
Prerequisites: BIOL_EN 2180 or CV_ENG 3200

CV_ENG 4720: Watershed Modeling Using GIS
(same as BIOL_EN 4350). Watershed evaluation using AVSWAT for hydrology, sediment yield, water quality; includes USLE, MUSLE, WEPP, Procedures for model calibration/sensitivity data analysis.

Credit Hours: 3
Prerequisites: BIOL_EN 2180 or CV_ENG 3200

CV_ENG 4730: Hydraulic Design
(cross-leveled with CV_ENG 7730). Design of hydraulic infrastructure utilizing principles of both pressure conduits and open channels. Hand calculations and use of commercial design software for water distribution (quantity and quality), stormwater collection and sanitary sewer systems, and detention basins. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: CV_ENG 3700 or equivalent

CV_ENG 4792: Analysis of Water-Resource Systems
(cross-leveled with CV_ENG 7792). Applies hydrology, hydraulic and sanitary engineering, and economics to water-resource design problems considering man and his environment. Uses methods of systems analysis.

Credit Hours: 3
Prerequisites: instructor's consent

CV_ENG 4980: Civil Engineering Systems Design
Design of civil engineering systems.

Credit Hours: 3
Prerequisites: senior standing in Civil Engineering at the University of Missouri-Columbia or written consent of Chairman

CV_ENG 4980W: Civil Engineering Systems Design - Writing Intensive
Design of civil engineering systems.

Credit Hours: 3
Prerequisites: senior standing in Civil Engineering at the University of Missouri-Columbia or written consent of Chairman

CV_ENG 4990: Undergraduate Research in Civil and Environmental Engineering
Independent investigation or project in Civil Engineering. May be repeated to 6 hours. Enrollment limited to seniors in Civil and Environmental Engineering.

Credit Hour: 1-4
Prerequisites: instructor's consent

CV_ENG 4995: Research in Civil & Environmental Engineering-Undergraduate Honors
Independent project, supervised by the honors advisor, to be presented as a formal written report.

Credit Hour: 1-3
Prerequisites: Civil Engineering students only
**Recommended:** participation in the Civil and Environmental Engineering Departmental Honors Program

**CV_ENG 7001: Topics in Civil Engineering**
Study of current and new technical developments in civil engineering.
**Credit Hours:** 1-3
**Prerequisites:** instructor's consent

**CV_ENG 7002: Analysis of Civil Engineering Decisions**
Formulates and analyzes probabilistic models of civil engineering systems and their environment. Elementary theory of decision making under uncertainty. Application to selected civil engineering problems.
**Credit Hours:** 3

**CV_ENG 7003: Optimization of Civil Engineering Systems**
Automated design techniques such as linear, nonlinear, and dynamic programming; gradient and random searching. Civil engineering applications emphasized throughout.
**Credit Hours:** 3

**CV_ENG 7004: Engineering Administration**
Cash flow analysis, financial analysis, managerial accounting and cost control, budgeting, organizational structure and behavior.
**Credit Hours:** 3
**Prerequisites:** MATH 1300 or MATH 1500, or instructor's consent

**CV_ENG 7006: Digital Computer Applications in Engineering**
**Credit Hours:** 3
**Prerequisites:** MATH 2300

**CV_ENG 7007: Quality Management in Civil Engineering**
Quantitative and qualitative quality planning and analysis concepts, including statistical tools and total quality management techniques, control, measurement and assessment. Graded on A-F basis only.
**Credit Hours:** 3
**Prerequisites:** MATH 2300

**CV_ENG 7008: Risk and Reliability for Civil Engineers**
(cross-leveled with CV_ENG 4008). This course focuses on how to use probability and statistics to quantify uncertainties and consider risks when making civil engineering decisions and designing civil engineering systems.
**Credit Hours:** 3
**Prerequisites:** grade of C- or better in CV_ENG 3010 or other introductory probability/statistics course

**CV_ENG 7080: Advanced Surveying**
(cross-leveled with CV_ENG 4080). Celestial observations for determination of position; state coordinate systems, precise surveys, introduction to geodetic surveys, principles of photogrammetry. Theory of optical surveying instruments.

**Credit Hours:** 3
**Prerequisites:** CV_ENG 2090 and MATH 1500

**CV_ENG 7082: Property Boundary Location**
Principles of real property ownership, deeds, property boundary surveying, legal principles of original and retracement surveys Missouri statutes and regulations affecting surveying, GLO corner restoration and re-establishment.
**Credit Hours:** 3
**Prerequisites:** ENGINR 1500 and CV_ENG 2090

**CV_ENG 7100: Traffic Engineering**
(cross-leveled with CV_ENG 4100). Characteristics and studies associated with highway traffic. Capacity analysis and evaluation of freeways, rural highways, and urban streets. Traffic signal control and coordination.
**Credit Hours:** 3
**Prerequisites:** grade of C- or better in CV_ENG 3100

**CV_ENG 7102: Infrastructure Management**
(cross-leveled with CV_ENG 4102). Civil infrastructure condition assessment, performance modeling, deterioration processes and models, maintenance and rehabilitation strategies, management techniques, data analysis, management systems, financing, case studies, emerging technologies.
**Credit Hours:** 3
**Prerequisites:** grade of C- or better in CV_ENG 3100

**CV_ENG 7103: Planning and Geometric Design of Highways**
(cross-leveled with CV_ENG 4103). Techniques of highway planning in rural and urban areas. Design of the visible elements of highways.
**Credit Hours:** 3
**Prerequisites:** grade of C- or better in CV_ENG 3100

**CV_ENG 7104: Pavement Materials and Design**
**Credit Hours:** 3
**Prerequisites:** grade of C- or better in ENGINR 2200

**CV_ENG 7106: Intelligent Transportation Systems**
(cross-leveled with CV_ENG 4106). This is an introductory course in Intelligent Transportation Systems (ITS). Topics include the theory of transportation networks and systems optimization, current implementations of ITS, and its practical issues and implications of ITS.
**Credit Hours:** 3
**Prerequisites:** grade of C- or better in CV_ENG 3100

**CV_ENG 7108: Bicycle and Pedestrian Transportation**
(cross-leveled with CV_ENG 4108). This course teaches how to integrate pedestrian and bicyclists accommodations into the planning and design of transportation facilities. Topics include, including pedestrian and bicyclist safety, accommodation at intersections, traffic calming techniques and facility design.
<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>CV_ENG 7109: Urban Development and Planning</td>
<td>Introduction to planning processes; procedures and forces that shape urbanization.</td>
<td>Credit Hours: 3</td>
</tr>
<tr>
<td>CV_ENG 7110: Transportation Simulation</td>
<td>Theory and application of simulation in transportation engineering. (cross-leveled with CV_ENG 7110).</td>
<td>Credit Hours: 3</td>
</tr>
<tr>
<td>CV_ENG 7112: Airport Engineering</td>
<td>Airport systems planning, design, and management. (cross-leveled with CV_ENG 4120).</td>
<td>Credit Hours: 3</td>
</tr>
<tr>
<td>CV_ENG 7115: Transportation Legal Issues</td>
<td>This course discusses some of the legal issues that transportation engineers encounter throughout the course of their careers. (cross-leveled with CV_ENG 4125).</td>
<td>Credit Hours: 3</td>
</tr>
<tr>
<td>CV_ENG 7130: Transportation Safety</td>
<td>This course is an introduction to transportation safety. The focus will be on surface transportation. The student is expected to analyze safety data and to devise engineering solutions to safety problems. (cross-leveled with CV_ENG 4130).</td>
<td>Credit Hours: 3</td>
</tr>
<tr>
<td>CV_ENG 7145: Civil and Environmental Engineering Legal Issues</td>
<td>Discussion of legal issues facing civil engineers including right of way, risk and liability, environment, financing public works, contracting and ethics. (cross-leveled with CV_ENG 4125).</td>
<td>Credit Hours: 3</td>
</tr>
<tr>
<td>CV_ENG 7155: Transportation Geography</td>
<td>Introduction to fundamental concepts and modes of analysis in transportation geography. Focus on descriptive, explanatory, as well as normative approaches. Topics reviewed include spatial organization, transportation economics, spatial interaction, network analysis, location/allocation, and urban transportation planning. (same as GEOG 7850; cross-leveled with CV_ENG 4155, GEOG 4850).</td>
<td>Credit Hours: 3</td>
</tr>
<tr>
<td>CV ENG 7165: Geographic Information Systems I</td>
<td>Introduces concepts of computer analysis of geographic data and emphasizes the techniques for handling geographic data. Application of computer-based GIS systems in coursework.</td>
<td>Credit Hours: 3</td>
</tr>
<tr>
<td>CV_ENG 7175: The Geospatial Sciences in National Security</td>
<td>This course explores the critical contribution of the geospatial sciences in the collection, processing, visualization and analysis of geospatial information related to national security. May be repeated for credit. (Same as GEOG 7130; cross-leveled with CV_ENG 4175, GEOG 4130).</td>
<td>Credit Hours: 3</td>
</tr>
<tr>
<td>CV_ENG 7185: Location Analysis/Site Selection</td>
<td>An overview of location analysis in regional planning and spatial decision support, this course focuses on the use of Geographic Information Science (GIS) and location analysis methods in addressing regional service needs. May be repeated for credit. (same as GEOG 7740; cross-leveled with CV_ENG 4185, GEOG 4740).</td>
<td>Credit Hours: 3</td>
</tr>
<tr>
<td>CV_ENG 7190: Infrastructure Project Development</td>
<td>Students will learn how the key elements of major civil engineering infrastructure projects fit together. The course will focus on the horizontal integration of: financing - planning - environment - right of way - design - construction - operations - maintenance. Engineering is important but so are a lot of other things. Graded on A-F basis only. (cross-leveled with CV_ENG 4190).</td>
<td>Credit Hours: 3</td>
</tr>
<tr>
<td>CV_ENG 7200: Remote Sensing of the Environment</td>
<td>Principles, characteristics and applications of remote sensing in engineering, geosciences, agriculture and environmental projects. Topics: basic concepts, photographic, thermal multispectral and microwave systems, satellite remote sensing and digital image processing. (cross-leveled with CV_ENG 4200).</td>
<td>Credit Hours: 3</td>
</tr>
<tr>
<td>CV_ENG 7210: Solid Waste Management</td>
<td>Engineering principles involved in generation, handling, collection, transport, processing, and disposal of solid wastes, resource recovery and reuse, legislation on solid wastes and groundwater contamination problems. (cross-leveled with CV_ENG 4210).</td>
<td>Credit Hours: 3</td>
</tr>
<tr>
<td>CV_ENG 7220: Hazardous Waste Management</td>
<td>Engineering principles involved in handling, collection, transportation, processing and disposal of hazardous wastes, waste minimization, legislation on hazardous wastes and groundwater contamination. (same as CH_ENG 7220; cross-leveled with CV_ENG 4220, CH_ENG 4220).</td>
<td>Credit Hours: 3</td>
</tr>
</tbody>
</table>
CV_ENG 7230: Introduction to Water Quality
(cross-leveled with CV_ENG 4230). Methods for determining and characterizing water quality, effects of pollution on streams and lakes, and an introduction to engineered systems for the distribution, collection and treatment of water and wastewater.

Credit Hours: 3

CV_ENG 7232: Water and Wastewater Treatment Facilities
(cross-leveled with CV_ENG 4232). Physical, chemical, and biochemical processes for treating drinking water supplies and wastewaters (domestic and industrial), with emphasis on planning and design of such facilities.

Credit Hours: 3
Prerequisites: CV_ENG 4230 or CV_ENG 7230 or instructor's consent

CV_ENG 7240: Water Quality Analysis
Chemical, physical and biological methods for analysis of streams, lakes, wastewaters and water supplies and their use in water quality management.

Credit Hours: 3
Prerequisites: C- or better in CV_ENG 4230 or instructor's consent

CV_ENG 7245: Environmental Chemistry for Engineers
(cross-leveled with CV_ENG 4245). This course will cover the fundamentals of environmental chemistry. Physical, equilibrium, organic and colloid chemistry topics will be presented from an environmental perspective with a focus on their relevant engineering applications. Graded on A-F basis only.

Credit Hours: 3

CV_ENG 7250: Environmental Regulatory Compliance
(cross-leveled with CV_ENG 4250). Systems of water law; provisions of major federal environmental laws and regulations; development or regulations at the federal, state, and local levels; regulatory frameworks; permits; and enforcement.

Credit Hours: 3

CV_ENG 7260: Environmental Public Policy
(cross-leveled with CV_ENG 4260). Engineering and economic aspects of environmental policy. Basic understanding of environmental statutes and case law. Graded on A-F basis.

Credit Hours: 3

CV_ENG 7270: Environmental Engineering Microbiology
(cross-leveled with CV_ENG 4270). Theory and application of fundamental principles of microbiology, ecology, and aquatic biology of the microorganisms of importance to sanitary engineers.

Credit Hours: 3

CV_ENG 7290: Wastewater Treatment and Process Design
(cross-leveled with CV_ENG 4290). Selection and use of wastewater and sludge treatment processes, disposal methods, leading to rational design of overall wastewater treatment systems. Sustainable wastewater treatment including advanced processes in nutrient removal, anaerobic treatment for wastewater reuse. Graded on A-F basis only.

Credit Hours: 3

CV_ENG 7300: Advanced Structural Steel Design
(cross-leveled with CV_ENG 4300). Design of steel structures and bridges. Topics include composite beams, plate girder design, and moment resistant connections.

Credit Hours: 3

CV_ENG 7310: Structural Design and Analysis

Credit Hours: 3
Prerequisites: grade of C- or better in CV_ENG 4312

CV_ENG 7320: Energy Methods in Mechanics
(cross-leveled with CV_ENG 4320). Variational mechanics including practical examples. Topics include calculus of variation of boundary value problems, energy methods such as Ritz and Galerkin methods, approximate solutions methods such as the finite element and finite difference, and eigenvalue problems.

Credit Hours: 3

CV_ENG 7330: Structural System Design
(cross-leveled with CV_ENG 4330). Design of buildings in steel and reinforced concrete, including estimation of loads and design of gravity and lateral force resisting systems.

Credit Hours: 3
Prerequisites: grade of C- or better in CV_ENG 3312 and CV_ENG 3313

CV_ENG 7350: Matrix Methods of Structural Analysis
(cross-leveled with CV_ENG 4350). An introduction to the fundamentals of stiffness and flexibility methods for analysis of truss and frame structures. Application of the STRUDL and NASTRAN programs to three dimensional structures.

Credit Hours: 3
Prerequisites: grade of C- or better in CV_ENG 3300
CV_ENG 7360: Bridge Engineering

Credit Hours: 3
Prerequisites: Grade of C- or better in CV_ENG 3312 and CV_ENG 3313

CV_ENG 7404: Geotechnical Earthquake Engineering
(cross-leveled with CV_ENG 4404). This course will provide an introduction to topics relating to geotechnical aspects of earthquake engineering. Topics to be covered include: basic seismology, seismic hazard analysis, dynamic soil properties, site response analysis and soil properties, site response analysis and soil liquefaction. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: Grade of C- or better in CV_ENG 3400 or instructor's consent

CV_ENG 7406: Geotechnics of Landfill Design
(cross-leveled with CV_ENG 4406). This course will focus on geotechnical and construction aspects in the analysis, design and construction of waste containment facilities (landfills) including expansions of existing facilities.

Credit Hours: 3
Prerequisites: Grade of C- or better in CV_ENG 3400 or instructor's consent

CV_ENG 7410: Foundation Engineering
(cross-leveled with CV_ENG 4410). Subsurface exploration. Design of basic foundation structures: shallow foundations, retaining walls, deep foundations.

Credit Hours: 3
Prerequisites: Grade of C- or better in CV_ENG 3400

CV_ENG 7412: Applied Geotechnical Engineering
(cross-leveled with CV_ENG 4412). Study of concepts, theories, and design procedures for modern earthwork engineering including: compaction and densification of soils and soil improvement, seepage and drainage, slope stability and performance, and earth retaining structures.

Credit Hours: 3
Prerequisites: grade or C- or better in CV_ENG 3400

CV_ENG 7500: Introduction to Construction Management
(cross-leveled with CV_ENG 4500). Structure of the construction industry; construction drawings and specifications; estimating and bidding; construction contracts, bonds and insurance; planning and scheduling of construction operations; project management; computer techniques.

Credit Hours: 3

CV_ENG 7510: Construction Methods and Equipment
Selection and use of construction equipment, planning construction operations, equipment economics and operations analyses.

Credit Hours: 3
Prerequisites: MATH 1300 or MATH 1500, or instructor's consent

CV_ENG 7600: Advanced Mechanics of Materials
(same as MAE 7600; cross-leveled with CV_ENG 4600 and MAE 4600). Analysis of more complicated problems in stresses, strains.

Credit Hours: 3
Prerequisites: grade of C- or better in ENGINR 2200

CV_ENG 7610: Sensors and Experimental Stress Analysis
(cross-leveled with CV_ENG 4610). Sensors and instrumentation for stress analysis, mechanical measurement and health monitoring of civil structures. Application and design of data acquisition systems, digital signals and basic digital signal processing. Electronics and instrumentation circuits.

Credit Hours: 3
Prerequisites: Grade of C- or better in ENGINR 2200 and PHYSCS 2760

CV_ENG 7660: Vibration Analysis
(same as MAE 7660; cross-leveled with CV_ENG 4660, MAE 4660). Vibration theory with application to mechanical systems.

Credit Hours: 3
Prerequisites: grade of C- or better in CV_ENG 2080 and MATH 4100

CV_ENG 7692: Introduction to Structural Dynamics
(cross-leveled with CV_ENG 4692). Theory of structural response to dynamic loads. Computation of dynamic response of structures to dynamic loads like blast and earthquake. Modal analysis and single degree of freedom methods will be covered. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: Grade of C- or better in CV_ENG 3300

CV_ENG 7700: Hydraulics of Open Channels
(cross-leveled with CV_ENG 4700). Gradually varied flow and theory of the hydraulic jump. Slowly varied flow involving storage; rating curves.

Credit Hours: 3
Prerequisites: Graduate standing and Grade of C- or better in CV_ENG 3700

CV_ENG 7702: Pipeline Engineering
Theoretical and practical aspects of pipeline engineering including pipeline transport of natural gas and various solids such as coal, sand and solid wastes.

Credit Hours: 3
Prerequisites: CV_ENG 3700 and MAE 3400

CV_ENG 7703: Applied Hydrology
(cross-leveled with CV_ENG 4703). Modern methods of applied hydrologic analysis and synthesis of hydrologic records.

Credit Hours: 3
Prerequisites: grade of C- or better in CV_ENG 3700 and CV_ENG 3702, or instructor's consent
CV_ENG 7710: Soil and Water Conservation Engineering  
(same as BIOL_EN 7150; cross-leveled with CV_ENG 4710, BIOL_EN 4150). Urban and rural run-off and erosion analysis. Design and layout of erosion control structures.  
**Credit Hours:** 3  
**Prerequisites:** BIOL_EN 3200 or CV_ENG 3200 or instructor's consent

CV_ENG 7720: Watershed Modeling Using GIS  
(same as BIOL_EN 7350). Watershed evaluation using AVSWAT for hydrology, sediment yield, water quality; includes USLE, MUSLE, WEPP. Procedures for model calibration/sensitivity data analysis.  
**Credit Hours:** 3  
**Prerequisites:** BIOL_EN 2180 or CV_ENG 3200 or instructor's consent

CV_ENG 7730: Hydraulic Design  
(cross-leveled with CV_ENG 4730). Design of hydraulic infrastructure utilizing principles of both pressure conduits and open channels. Hand calculations and use of commercial design software for water distribution (quantity and quality), stormwater collection and sanitary sewer systems, and detention basins. Graded on A-F basis only.  
**Credit Hours:** 3  
**Prerequisites:** CV_ENG 3700 or equivalent

CV_ENG 7792: Analysis of Water-Resource Systems  
(cross-leveled with CV_ENG 4792). Applies hydrology, hydraulic and sanitary engineering, and economics to water-resource design problems considering man and his environment. Uses methods of systems analysis.  
**Credit Hours:** 3  
**Prerequisites:** instructor's consent

CV_ENG 8001: Advanced Topics in Civil Engineering  
New and current technical developments in civil engineering.  
**Credit Hour:** 1-3  
**Prerequisites:** CV_ENG 4006 or equivalent

CV_ENG 8002: Directed Reading In Civil Engineering  
Faculty supervised readings course.  
**Credit Hour:** 1-3

CV_ENG 8005: Problems in Civil Engineering  
Supervised investigation in civil engineering to be presented in the form of a report.  
**Credit Hour:** 1-6

CV_ENG 8007: Seminar in Civil Engineering  
Review of research in progress. Research techniques.  
**Credit Hour:** 1

CV_ENG 8101: Transportation Planning and Models  
Regional and metropolitan transportation studies; land use, traffic generation, distribution and assignment models.  
**Credit Hours:** 3

CV_ENG 8106: Advanced Intelligent Transportation Systems  
This course is intended to be an introductory course in Intelligent Transportation Systems (ITS). This course includes the background of ITS, current implementations, sample deployments, and practical issues and implications.  
**Credit Hours:** 3

CV_ENG 8110: Theory of Traffic Flow  
Scientific approach to study of traffic phenomena with emphasis on applications. Deterministic and stochastic models of traffic flow; optimization of intersection controls; computer simulation of traffic problems.  
**Credit Hours:** 3  
**Prerequisites:** CV_ENG 4002 or instructor's consent

CV_ENG 8120: Traffic Control Engineering  
Information retrieval and analysis of human and vehicular characteristics; roadway element; system control and optimization of highways, intersections; planning and design of new traffic facilities including ways, terminals.  
**Credit Hours:** 3  
**Prerequisites:** CV_ENG 4002 or instructor's consent

CV_ENG 8130: Land Use Planning  
Case study of site planning using systems analysis; feasibility for development or redevelopment; restraints imposed by political, social and economic conditions on land use activity as related to urban and regional relationships.  
**Credit Hours:** 3  
**Prerequisites:** CV_ENG 4106

CV_ENG 8140: Highway Transportation  
Economics of transportation on highways. Comparison of vehicle operation costs. Project studies of highway problems in general.  
**Credit Hours:** 3  
**Prerequisites:** CV_ENG 4103 or equivalent

CV_ENG 8150: Transportation Networks  
This course presents techniques used in equilibrium analysis of transportation networks. The details of traffic assignment algorithms will be discussed along with theory and practical algorithms.  
**Credit Hours:** 3

CV_ENG 8160: Advanced Research Methods in Transportation Engineering  
This course will cover advanced research methods used in transportation. A special focus will be on the state-of-art approaches in traffic engineering. Mathematical and analytical models will be reviewed in detail. This is a reading intensive course where students are expected to review research articles on various topics. The methods used in the articles and a critical review of the article findings will be discussed in an interactive manner in the class. Graded on A-F basis only.
Credit Hours: 3

**CV_ENG 8187: Seminar in Transportation Engineering**
Review of research in progress in the area of transportation engineering.

Credit Hours: 1

**CV_ENG 8200: Water Quality Modeling**
Derivation and application of models for describing oxygen budget, nutrient exchange, and biological productivity in streams, lakes and estuaries.

Credit Hours: 3

Prerequisites: CV_ENG 7230

**CV_ENG 8208: Finite Element Methods**
(same as MAE 8280). The concepts and fundamentals of the finite element method with applications to problems in solid and fluid mechanics.

Credit Hours: 3

Prerequisites: MAE 4280

**CV_ENG 8209: Groundwater Pollution Evaluation and Modeling**
Fundamentals of groundwater hydraulics and groundwater contamination. Use and development of computer models to simulate flow and pollutant transport.

Credit Hours: 3

Prerequisites: CV_ENG 3700, MATH 4100, or instructor's consent

**CV_ENG 8210: Environmental Transport Phenomena**
Fundamental processes that control the transport of constituents substances in fluids, and the implications of these processes for a variety of important applications in natural and engineered systems.

Credit Hours: 3

**CV_ENG 8215: Environmental Biotechnology**
Major biochemical reactions relevant to environmental engineering. Theory and application of fundamental principles of attached and suspended microbial growth and process engineering for sanitary engineering and biodegradation.

Credit Hours: 3

Prerequisites: CV_ENG 8250 or instructor's consent

**CV_ENG 8220: Advanced Hazardous Waste Treatment Processes**
Course includes some introductory materials about hazardous waste regulations followed by advanced treatment methods such as air stripping, soil-vapor extraction, chemical oxidation, membrane processes, in-situ and ex-situ biotreatment methods, solidification and thermal processes.

Credit Hours: 3

Prerequisites: CV_ENG 4220

**CV_ENG 8225: Aquatic Chemistry**
Principles of chemical thermodynamics and equilibrium applied to processes in natural water and water and wastewater treatment systems. Emphasis on quantitative analyses of acid/base, complexation/dissociation, precipitation/dissolution, and reduction/oxidation reactions. Graded on A-F basis only.

Credit Hours: 3

**CV_ENG 8230: Unit Process Laboratory**
Studies chemical and physical relationships as applied to unit processes of water and wastewater.

Credit Hours: 3

**CV_ENG 8240: Physiochemical Treatment Processes**
Fundamental principles, analysis and modeling of physical and chemical processes for water and wastewater treatment.

Credit Hours: 3

**CV_ENG 8245: Particles in the Environment**
This course is an introduction to interfacial and colloid science, with an emphasis on aqueous systems of natural colloids and engineered nanomaterials. Graded on A-F basis only.

Credit Hours: 3

**CV_ENG 8250: Biochemical Treatment Processes**
Biochemical principles, kinetic models and energy considerations in the design of biological wastewater treatment processes.

Credit Hours: 3

**CV_ENG 8260: Environmental Biotechnology**
Major biochemical reactions relevant to environmental engineering. Theory and application of fundamental principles of attached and suspended microbial growth and process engineering for sanitary engineering and biodegradation.

Credit Hours: 3

Prerequisites: CV_ENG 8250 or instructor's consent

**CV_ENG 8270: Design of Water and Wastewater Treatment Facilities**
Development of design criteria and their application to the design of water and wastewater treatment facilities.

Credit Hours: 3

**CV_ENG 8280: Engineering Aspects of Water Quality**
Theoretical aspects of biological, chemical, physical processes; applications in water, wastewater, industrial-waste treatment processes, natural water systems; chemical equilibria, flow models; reaction kinetics on process design, pollutants.

Credit Hours: 3

Prerequisites: CV_ENG 4230 or instructor's consent

**CV_ENG 8287: Seminar in Environmental Engineering**
Review of research in progress in the area of environmental engineering.

Credit Hour: 1

**CV_ENG 8290: Environmental Practicum**
Application of advanced analysis and design techniques to practical problems in environmental engineering. Collaborative group investigations that may include experimental and computer-aided studies. No more than 6 practicum hours may be applied toward the MS degree. Graded on A-F basis only.

Credit Hour: 2-4

Prerequisites: graduate standing in Civil Engineering
CV_ENG 8295: Environmental Regulatory Policy
Discussion of the various policy aspects of environmental regulation:
economic and non-economic impacts of degradation; risk assessment
and management; distribution of environmental risks; regulatory tools;
federal vs. state; disclosure; enforcement. Relation to environmental
laws. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: CV_ENG 4250 or CV_ENG 7250 or equivalent

CV_ENG 8303: Behavior of Reinforced Concrete Members
The design philosophy, constitutive laws, creep rate sensitivity and
Deflection computation and control. Bond and anchorage.
Credit Hours: 3
Prerequisites: CV_ENG 3312

CV_ENG 8311: Nondestructive Evaluation Engineering
This course will present the interaction of nondestructive evaluation
(NDE) technologies and engineering decision-making. Theory and
application NDE technologies will be presented in the context of the
engineering analysis required to effectively utilize the technologies.
Graded on A-F basis only.
Credit Hours: 3
Prerequisites: PHYSCS 2760, ENGINR 1200, MATH 4100

CV_ENG 8312: Advanced Structural Analysis
Current trends in structural analysis. Elastic analysis of curved beams,
arches and suspensions. Finite element and nonlinear methods of
analysis.
Credit Hours: 3

CV_ENG 8313: Random Vibration
Analysis of random vibrations including topics in stationary, ergodic and
nonstationary random processes, with application to single-degree of
freedom, discrete and continuous mechanical systems.
Credit Hours: 3
Prerequisites: CV_ENG 4606

CV_ENG 8314: Numerical Methods in Engineering
Classification and numerical solution of engineering problems--ordinary
and partial differential equations, algebraic equations. Includes initial,
boundary, eigen- and characteristic-value problems. Prerequisites: MATH
4100
Credit Hours: 3

CV_ENG 8320: Continuum Mechanics
(same as MAE 8320). Introductory course in the mechanics of continuous
media. Basic concepts of stress, strain, constitutive relationships;
conservation laws are treated using Cartesian tensor notation. Examples
from both solid and fluid mechanics investigated.
Credit Hours: 3
Prerequisites: CV_ENG 3700, MATH 7100, ENGINR 2200

CV_ENG 8322: Structural Analysis
Classical and modern methods for elastic analysis. Influence line, Miller-
Breslau principle. Introduction to force and displacement methods using
matrix analysis. Application to continuous beams, grids, plane and space
frames and trusses.
Credit Hours: 3

CV_ENG 8330: Theory of Elasticity
(same as MAE 8330). Stress and strain at a point. General equations of
elasticity. Plane stress, plain strain problems; torsion of prismatic bars.
Energy methods.
Credit Hours: 3

CV_ENG 8332: Design of Special Structures Systems
Reviews current trends in design of structural systems and components.
Critical evaluation of recent code modifications. Application to design of
light gauge metal structures, lateral bracing systems, curved beams and
panel systems.
Credit Hours: 3
Prerequisites: CV_ENG 4310 or CV_ENG 4330

CV_ENG 8340: Theory of Plates and Shells
(same as MAE 8340). Rectangular and circular plates. Variational
methods in the analysis of plates and shells. Plates of unusual shape.
Shear deformation effects. Large deformation analysis. Analysis of
cylindrical shells.
Credit Hours: 3

CV_ENG 8342: Space Mechanics
Rigid body dynamics analysis of satellites, space vehicles. Trajectories,
time of flight optimization.
Credit Hours: 3
Prerequisites: MAE 3600 or equivalent, and MATH 4100

CV_ENG 8350: Theory of Elastic Stability
(Same as MAE 8350). Buckling of Columns, frames, arches and other
structural systems. Kinematic approach to stability. Large deflections.
Energy approach to buckling. Plate and shell buckling. Inelastic buckling
of columns. Creep buckling.
Credit Hours: 3

CV_ENG 8360: Theory of Plasticity
(same as MAE 8360). Plastic yield conditions and stress-strain relations.
Behavior of elastic-perfectly plastic members. Plain strain in plastic
members.
Credit Hours: 3
Prerequisites: CV_ENG 8330 or instructor's consent

CV_ENG 8372: Reinforced Concrete Theory and Design
Advanced design of reinforced concrete structures; review of standard
codes and specifications and their influence.
Credit Hours: 3
Prerequisites: CV_ENG 4350 or equivalent

</table>
CV_ENG 8510: Construction Engineering
Selection and layout of construction plant. Design and construction of formwork, falsework, cofferdams, conveyors and other temporary structures used by contractors.
Credit Hours: 3
Prerequisites: CV_ENG 4510 or equivalent

CV_ENG 8520: Construction Productivity
Work improvement techniques in the construction industry reviewed and applied to local construction site. Construction safety influenced by supervisors and managers studied in detail. Declining productivity in the construction industry evaluated and solutions considered.
Credit Hours: 3
Prerequisites: CV_ENG 4500

CV_ENG 8530: Construction Project Management
Credit Hours: 3

CV_ENG 8540: Construction Administration
Organization, management, engineering, business, and legal problems in the construction industry. Purchasing, bonding, insurance, financing, labor relations, and contract administration.
Credit Hours: 3
Prerequisites: CV_ENG 4500

CV_ENG 8610: Materials and Measurement
About 25% of the course is devoted to the physical measurement of strain, force, displacement and motion. Remainder of course is devoted to advanced study of the behavior of steel and concrete with emphasis on brittle fracture in steel.
Credit Hours: 3
Prerequisites: CV_ENG 3600 or equivalent

CV_ENG 8620: Advanced Dynamics
(same as MAE 8620). Fundamental principles of advanced rigid body dynamics with applications. Special mathematical techniques including Lagrangian and Hamiltonian methods.
Credit Hours: 3
Prerequisites: CV_ENG 2080 and MATH 4100

CV_ENG 8630: Vibrations of Distributed Parameter Systems
(same as MAE 8630). Vibration analysis of strings, cables, bars, rods, shafts, beams, membranes, plates, circular rings, frames; free and forced oscillation; miscellaneous loading; various boundary conditions; effect of damping; energy methods; method of difference equations.
Credit Hours: 3
Prerequisites: CV_ENG 4660

CV_ENG 8710: Advanced Hydraulic Engineering
Unsteady flow in pipes and open channels is studied using the method of characteristics and finite difference equations. Hydraulic transient in pipe networks due to valve adjustments, pump startup and pump power failure are analyzed. Control of transient using surge tanks and air chambers is included.
Credit Hours: 3
Prerequisites: CV_ENG 3720

CV_ENG 8720: Hydrotechnical Practicum
Application of advanced analysis and design techniques to practical problems in hydrotechnical engineering. Collaborative group investigations that may include experimental and computer aided studies. No more than 6 practicum hours may be applied toward the MS degree. Graded on A-F basis only.
Credit Hour: 2-4
Prerequisites: graduate standing in Civil Engineering

CV_ENG 8730: Fundamentals of Fluid Mechanics
Treatment of fundamental concepts and theories in fluid mechanics at a level suitable for beginning graduate students.
Credit Hours: 3
Prerequisites: CV_ENG 3700 or equivalent

CV_ENG 8740: Hydrodynamics
Special topics in potential theory and conformal mapping.
Credit Hours: 3

CV_ENG 8750: Wind Engineering
Study of wind effects on the safety of engineering structures, air pollution and building energy consumption, and the use of wind.
Credit Hours: 3
Prerequisites: CV_ENG 3700

CV_ENG 8990: Research-Masters Thesis in Civil & Environmental Engineering
Independent investigation in the field of civil engineering to be presented in the form of a thesis. Graded on a S/U basis only.
Credit Hour: 1-99

CV_ENG 9001: Advanced Topics in Civil Engineering - PhD
New and current technical developments in civil engineering. For PhD students.
Credit Hour: 1-4

CV_ENG 9990: Research-Doctoral Dissertation Civil & Environmental Engineering
Independent investigation in the field of civil engineering to be presented in the form of a thesis. Graded on a S/U basis only.
Credit Hour: 1-99
Classical Humanities Courses

CL_HUM 1050: Greek and Latin in English
A survey of the influence of Greek and Latin upon English literary, scientific, technical, legal and medical vocabulary. Emphasis is upon building competency with complex English words while studying the cultural influence of the classical languages on modern vocabulary.

Credit Hours: 3

CL_HUM 1060: Classical Mythology
Myths of Greece and Rome in literature and art.

Credit Hours: 3

CL_HUM 1060H: Classical Mythology - Honors
Myths of Greece and Rome in literature and art.

Credit Hours: 3
Prerequisites: Honors eligibility required

CL_HUM 1060HW: Classical Mythology - Honors/Writing Intensive
Myths of Greece and Rome in literature and art.

Credit Hours: 3
Prerequisites: Honors eligibility required

CL_HUM 1060W: Classical Mythology - Writing Intensive
Myths of Greece and Rome in literature and art.

Credit Hours: 3

CL_HUM 2005: Topics in Classical Humanities
Organized study of selected topics. Subjects and earnable credit may vary from semester to semester.

Credit Hour: 1-99

CL_HUM 2100: Greek Culture
Survey of Greek life and thought. Principal developments in literature, the arts, politics, religion and philosophy, and their influence on Western civilization.

Credit Hours: 3

CL_HUM 2100H: Greek Culture - Honors
Survey of Greek life and thought. Principal developments in literature, the arts, politics, religion and philosophy, and their influence on Western civilization.

Credit Hours: 3
Prerequisites: Honors eligibility required

CL_HUM 2200: Roman Culture
Survey of Roman life and thought. Principal developments in literature, the arts, politics, religion, philosophy, and private life, and their influence on Western Civilization.

Credit Hours: 3

CL_HUM 2300: Greek Classics in Translation
Reading in translation and critical study of the most important literary works of the ancient Greek World.

Credit Hours: 3

CL_HUM 2300H: Greek Classics in Translation
Reading in translation and critical study of the most important literary works of the ancient Greek world.

Credit Hours: 3
Prerequisites: Honors eligibility required

CL_HUM 2400: Roman Classics in Translation
Reading in translation and critical study of the most important literary works of the ancient Roman world.

Credit Hours: 3

CL_HUM 2500: The Origins of Music in the Ancient World
Explores the use of music in the earliest historical societies, from the earliest evidence up to the fall of the Roman empire. Topics will include the history of musical instruments, the earliest scores, the development of music theory, the origins of melody, rhythm, and harmony, and the relationship between music, politics, and religion. Graded on A-F basis only.

Credit Hours: 3

Recommended: CL_HUM 1060; CL_HUM 2100; CL_HUM 2200

CL_HUM 2940: Service Learning in Classical Studies
Students provide enrichment programming on the Ancient World at various Columbia Public School sites. Participants must be Classical Studies majors or minors. Graded on A/F basis only. Does not meet Arts and Science general education requirements.

Credit Hour: 1
Prerequisites: instructor's consent required

CL_HUM 3000: Foreigners and Dangerous Women in Greek and Latin Literature
(same as PEA_ST 3130). The study of how Greek and Roman writers depicted and reacted to other races and cultures, compared them with their own, and thereby revealed their own values and prejudices.

Credit Hours: 3
Recommended: CL_HUM 1060

CL_HUM 3000H: Foreigners and Dangerous Women in Greek and Latin Literature - Honors
(same as PEA_ST 3130). The study of how Greek and Roman writers depicted and reacted to other races and cultures, compared them with their own, and thereby revealed their own values and prejudices.

Credit Hours: 3
Prerequisites: Honors eligibility required
Recommended: CL_HUM 1060
CL_HUM 3000W: Foreigners and Dangerous Women in Greek and Latin Literature - Writing Intensive
(same as PEA_ST 3130). The study of how Greek and Roman writers depicted and reacted to other races and cultures, compared them with their own, and thereby revealed their own values and prejudices.

Credit Hours: 3
Recommended: CL_HUM 1060

CL_HUM 3005: Topics in Classical Humanities
Organized study of selected topics. Subjects and earnable credit may vary from semester to semester.

Credit Hour: 1-99
Recommended: CL_HUM 1060

CL_HUM 3005H: Topics in Classical Humanities - Honors
Organized study of selected topics. Subjects and earnable credit may vary from semester to semester.

Credit Hour: 1-99
Prerequisites: Honors eligibility required
Recommended: CL_HUM 1060

CL_HUM 3025: Ancient Western Philosophy
(same as PHIL 3000). Philosophical thought on nature, knowledge, the gods, human life and society, from Thales to Augustine. Emphasis on Plato and Aristotle. The relevance of the ancients to contemporary life.

Credit Hours: 3
Recommended: CL_HUM 1060

CL_HUM 3050: Philosophy Before Socrates
A study of the origin of philosophical thinking in the Ancient Greek world. Topics to be explored include the nature of reality and our knowledge of it, the structure and constituents of the cosmos, human excellence and its relation to morality, political power, and happiness.

Credit Hours: 3
Recommended: CL_HUM 1060

CL_HUM 3050H: Philosophy Before Socrates - Honors
A study of the origin of philosophical thinking in the Ancient Greek world. Topics to be explored include the nature of reality and our knowledge of it, the structure and constituents of the cosmos, human excellence and its relation to morality, political power, and happiness.

Credit Hours: 3
Prerequisites: Honors eligibility required
Recommended: CL_HUM 1060

CL_HUM 3100: The Age of Pericles
A study of the literature and culture of the 5th and early 4th centuries B.C. in Athens. Authors will include Thucydides, Herodotus, Xenophon, Plato, Aristotle, the tragedians and Aristophanes.

Credit Hours: 3
Recommended: CL_HUM 1060

CL_HUM 3100H: The Age of Pericles - Honors
A study of the literature and culture of the 5th and early 4th centuries B.C. in Athens. Authors will include Thucydides, Herodotus, Xenophon, Plato, Aristotle, the tragedians and Aristophanes.

Credit Hours: 3
Prerequisites: Honors eligibility required
Recommended: CL_HUM 1060

CL_HUM 3150: The Age of Augustus
Study of the literature of the Age of Augustus; Vergil, Ovid, Horace, Livy, and Propertius.

Credit Hours: 3
Recommended: CL_HUM 1060

CL_HUM 3150H: The Age of Augustus - Honors
Study of the literature of the Age of Augustus; Vergil, Ovid, Horace, Livy, and Propertius.

Credit Hours: 3
Prerequisites: Honors eligibility required
Recommended: CL_HUM 1060

CL_HUM 3200: Power and Oratory in Ancient Greece
Concentrates on the rise of oratory in Greece and how oratory was exploited for political ends. Special attention will be paid to the Athenian Democracy in the fifth and fourth centuries BC.

Credit Hours: 3
Recommended: CL_HUM 1060

CL_HUM 3200H: Power and Oratory in Ancient Greece - Honors
Concentrates on the rise of oratory in Greece and how oratory was exploited for political ends. Special attention will be paid to the Athenian Democracy in the fifth and fourth centuries BC.

Credit Hours: 3
Prerequisites: Honors eligibility required
Recommended: CL_HUM 1060

CL_HUM 3225: Roman Comedy, Wit and Humor
Study of works illustrating the comedy, wit and humor of the Romans: readings in comedies of Plautus and Terence, Catullus, Ovid’s Metamorphoses, Petronius’ Satyricon, Martial, Juvenal and Macrobius.

Credit Hours: 3
Recommended: CL_HUM 1060

CL_HUM 3250: Greek and Roman Epic
A study of the major representatives of the ancient epic genre. Readings will include Homer's Iliad and Odyssey, Apollonius’ Argonautica, Vergil's Aeneid.
CL_HUM 3250H: Greek and Roman Epic - Honors
A study of the major representatives of the ancient epic genre. Readings will include Homer's Iliad and Odyssey, Apollonius' Argonautica, Vergil's Aeneid.

Credit Hours: 3
Recommended: CL_HUM 1060

CL_HUM 3300: Greek Drama
Reading and interpretation of Greek tragedies and comedies in translation.

Credit Hours: 3
Recommended: CL_HUM 1060

CL_HUM 3300H: Greek Drama - Honors
Reading and interpretation of Greek tragedies and comedies in translation.

Credit Hours: 3
Prerequisites: Honors eligibility required
Recommended: CL_HUM 1060

CL_HUM 3350: Advanced Mythology
Interpretation of selected classical myths and their influence on later literature and art.

Credit Hours: 3
Recommended: CL_HUM 1060

CL_HUM 3350H: Advanced Mythology - Honors
Interpretation of selected classical myths and their influence on later literature and art.

Credit Hours: 3
Prerequisites: Honors eligibility required
Recommended: CL_HUM 1060

CL_HUM 3400: Murder and Mayhem: Images of Justice in Classical Antiquity
Ideas of justice from Homer through the early Roman Empire; personal vengeance, law courts and trials, philosophical attitudes, women and courts, techniques of persuasion.

Credit Hours: 3
Recommended: CL_HUM 1060

CL_HUM 3400W: Murder and Mayhem: Images of Justice in Classical Antiquity - Writing Intensive
Ideas of justice from Homer through the early Roman Empire; personal vengeance, law courts and trials, philosophical attitudes, women and courts, techniques of persuasion.

Credit Hours: 3
Recommended: CL_HUM 1060

CL_HUM 3450: Greek and Roman Characters and Ideals
Study of selected types of characters admired and imitated or hated and rejected in classical antiquity; heroes, philosophers, women.

Credit Hours: 3
Recommended: CL_HUM 1060

CL_HUM 3450H: Greek and Roman Characters and Ideals - Honors
Study of selected types of characters admired and imitated or hated and rejected in classical antiquity; heroes, philosophers, women.

Credit Hours: 3
Prerequisites: Honors eligibility required
Recommended: CL_HUM 1060

CL_HUM 3450W: Murder and Mayhem: Images of Justice in Classical Antiquity - Writing Intensive
Ideas of justice from Homer through the early Roman Empire; personal vengeance, law courts and trials, philosophical attitudes, women and courts, techniques of persuasion.

Credit Hours: 3
Recommended: CL_HUM 1060

CL_HUM 3460: The Ancient Novel
Reading and analysis of Greek and Latin prose fiction: ideal and comic romance, fantasy, romantic biography; Hellenistic background.

Credit Hours: 3
Recommended: CL_HUM 1060

CL_HUM 3600: The Ancient Novel - Honors
Reading and analysis of Greek and Latin prose fiction: ideal and comic romance, fantasy, romantic biography; Hellenistic background.

Credit Hours: 3
Prerequisites: Honors eligibility required
Recommended: CL_HUM 1060

CL_HUM 3650: Paganism and Christianity
A study of the transition from Paganism to Christianity in the Roman Empire, as seen by observers contemporary with the events.

Credit Hours: 3
Recommended: CL_HUM 1060

CL_HUM 3650H: Paganism and Christianity - Honors
A study of the transition from Paganism to Christianity in the Roman Empire, as seen by observers contemporary with the events.

Credit Hours: 3
Prerequisites: Honors eligibility required
Recommended: CL_HUM 1060

<td>CL_HUM 4550</td>
<td>Literature and Culture of the Hellenistic Age</td>
<td>(cross-leveled with CL_HUM 7550). A survey of the literature and culture of the Hellenistic Age. Credit Hours: 3 Recommended: CL_HUM 1060 and junior standing</td>
</tr>
</tbody>
</table>
CL_HUM 4550H: Literature and Culture of the Hellenistic Age - Honors
A survey of the literature and culture of the Hellenistic Age.

Credit Hours: 3
Prerequisites: Honors eligibility required
Recommended: CL_HUM 1060 and junior standing

CL_HUM 4600: The Classical Tradition
Selected studies in continuity and influence of Greek and Roman culture on Middle Ages, Renaissance, and modern times.

Credit Hours: 3
Recommended: CL_HUM 1060 and junior standing

CL_HUM 4600H: The Classical Tradition - Honors
Selected studies in continuity and influence of Greek and Roman culture on Middle Ages, Renaissance, and modern times.

Credit Hours: 3
Prerequisites: Honors eligibility required
Recommended: CL_HUM 1060 and junior standing

CL_HUM 4600HW: The Classical Tradition - Honors/Writing Intensive
Selected studies in continuity and influence of Greek and Roman culture on Middle Ages, Renaissance, and modern times.

Credit Hours: 3
Recommended: CL_HUM 1060 and junior standing

CL_HUM 4600W: The Classical Tradition - Writing Intensive
Selected studies in continuity and influence of Greek and Roman culture on Middle Ages, Renaissance, and modern times.

Credit Hours: 3
Recommended: CL_HUM 1060 and junior standing

CL_HUM 4650: The World of Late Antiquity
(cross-leveled with CL_HUM 7650). A survey of the literature, culture, and history of the late Roman and early Byzantine periods. Attention to Christianity’s development and the transformation of the classical heritage.

Credit Hours: 3
Recommended: CL_HUM 1060 and junior standing

CL_HUM 4650H: The World of Late Antiquity - Honors
A survey of the literature, culture, and history of the late Roman and early Byzantine periods. Attention to Christianity’s development and the transformation of the classical heritage.

Credit Hours: 3
Prerequisites: Honors eligibility required
Recommended: CL_HUM 1060 and junior standing

CL_HUM 4770: Oral Tradition
(same as ENGLISH 4770). Study of verbal art from living oral traditions (e.g. Native American and African American) and important literary works with roots in oral tradition (e.g. the Bible, the Iliad and Odyssey, and Beowulf).

Credit Hours: 3
Recommended: CL_HUM 1060 and junior standing

CL_HUM 4770H: Oral Tradition - Honors
(same as ENGLISH 4770). Study of verbal art from living oral traditions (e.g. Native American and African American) and important literary works with roots in oral tradition (e.g. the Bible, the Iliad and Odyssey, and Beowulf).

Credit Hours: 3
Prerequisites: Honors eligibility required
Recommended: CL_HUM 1060 and junior standing

CL_HUM 4800: Political Thought in Classical and Christian Antiquity
(same as POL_SC 4800). Reading and discussion of Greek, Roman, and Early Christian treatises on politics and political life. Survey of the political institutions and procedures of the Greek city states and Roman Republic and Empire. Examination of contemporary Christian responses and adaptations.

Credit Hours: 3
Prerequisites: Honors eligibility required
Recommended: CL_HUM 1060 and junior standing

CL_HUM 4970: Capstone in Classical Humanities
Culminating course in the study of Greek and Roman literature and Classical Culture. Required for Classical Humanities majors in first term of senior year.

Credit Hours: 3
Prerequisites: instructor's consent

CL_HUM 4970H: Capstone in Classical Humanities- Honors
Culminating course in the study of Greek and Roman literature and Classical Culture. Required for Classical Humanities majors in first term of senior year.

Credit Hours: 3
Prerequisites: instructor's consent; Honors eligibility required
Recommended: for Classical Humanities double-majors

CL_HUM 7005: Topics in Classical Humanities
Subjects and earnable credit may vary from semester to semester.

Credit Hour: 1-99
Prerequisites: any Classical Humanities 3000 level course or instructor's consent

CL_HUM 7550: Literature and Culture of the Hellenistic Age
(cross-leveled with CL_HUM 7550). A survey of the literature and culture of the Hellenistic Age. Graded on A-F basis only.

Credit Hours: 3

CL_HUM 7650: The World of Late Antiquity
(cross-leveled with CL_HUM 4650). A survey of the literature, culture, and history of the late Roman and early Byzantine periods. Attention to Christianity's development and the transformation of the classical heritage.

Credit Hours: 3

</table>
CLASS 8440: Ancient/Medieval Topography
(same as AR_H_A 8440). Descriptive and historical analysis of selected city or site. Subject varies.
Credit Hour: 1-99
Prerequisites: instructor's consent

CLASS 9090: PhD Research and Thesis
Individual research in preparation for writing thesis and/or dissertation. Graded on a S/U basis only.
Credit Hour: 1-8

CLASS 9187: Seminar in Classical Mythology
Intensive study of classical mythology in origin, development, meaning and influence.
Credit Hours: 3
Prerequisites: instructor's consent

CLASS 9287: Seminar in the Hellenistic Age
Seminar in the Hellenistic Age
Credit Hour: 3-6

CLASS 9387: Seminar in Ancient Rhetoric and Oratory
Seminar in Ancient Rhetoric and Oratory
Credit Hours: 3

CLASS 9487: Seminar in Ancient Literary Criticism
Principles and theories of ancient Greek and Latin literary criticism, as developed in significant works on the subject.
Credit Hours: 3

CLASS 9587: Greco-Roman Didactic
Critical and comparative study of Greek and Latin didactic poetry with emphasis on major authors from Hesiod through the Augustan Age.
Credit Hour: 3-6

CLASS 9687: Seminar in Greco-Roman Religion
Seminar in Greco-Roman Religion
Credit Hours: 3

CLASS 9787: Seminar in Greco-Roman Satire and Social Criticism
Seminar in Greco-Roman Satire and Social Criticism
Credit Hours: 3

CLASS 9887: Seminar in the Age of the Antonines
Seminar in the Age of the Antonines
Credit Hour: 3-6

Clinical & Diagnostic Sciences Courses

CDS 2190: Medical Terminology
Medical terminology based on a word building system. This course is intended for students majoring in health professions, nursing and other helping professions, pre-med and biology.
Credit Hours: 3
Prerequisites: sophomore standing

CDS 3200: Essentials of Pathology
Provides basic foundation for understanding etiology of disease with emphasis on systemic pathology for non-medical students.
Credit Hours: 2
Recommended: general biology and one course in either physiology or anatomy

CDS 3460: Cardiovascular and Pulmonary Diagnostic Applications I
(same as RA_SCI 3460). Interdisciplinary small group, case-based study of common cardiovascular, pulmonary and other diseases. Pathophysiology, diagnosis and treatment from the perspective of allied health professionals. Emphasis on critical thinking, teamwork skills.
Credit Hours: 3
Prerequisites: Acceptance into Radiologic Sciences, Radiography Program

CDS 3460W: Cardiovascular and Pulmonary Diagnostic Applications I - Writing Intensive
(same as RA_SCI 3460). Interdisciplinary small group, case-based study of common cardiovascular, pulmonary and other diseases. Pathophysiology, diagnosis and treatment from the perspective of allied health professionals. Emphasis on critical thinking, teamwork skills.
Credit Hours: 3
Prerequisites: Acceptance into Radiologic Sciences, Radiography Program

CDS 4001: Topics in Clinical and Diagnostic Science
Organized study of selected topics in Clinical & Diagnostic Sciences. Topics may vary. Graded on A-F basis only.
Credit Hour: 1-99

CDS 4085: Problems in Clinical and Diagnostic Sciences
Supervised investigation in an aspect of Clinical and Diagnostic Sciences usually culminating in a written report.
Credit Hour: 1-5
Prerequisites: instructor's consent

CDS 4328: Radiation Safety and Biology
Regulations and procedures for safe uses of radiation to heighten student understanding of radiation physics, radiation biology, and radiation safety. Graded on A-F basis only.
Credit Hours: 4
Prerequisites: Junior standing
Recommended: One course in Biological Sciences and Physics/Chemistry
CDS 4440: Organization and Administration  
(same as RA_SCI 4440 and RS_THR 4440). Examines design and operation of allied health service departments and educational programs, including facilities, personnel procedures, record systems, ethics, medical-legal aspects, interdepartmental relations and curriculum development.  
Credit Hours: 3

CDS 4460: Cardiovascular and Pulmonary Diagnostic Applications II  
Interdisciplinary study of cardiac dysrhythmias, MI, stroke. Application of current American Heart Association Advanced Cardiac Life Support (AHA ACLS) algorithms. Successful completion of this course fulfills AHA ACLS Provider requirements.  
Credit Hours: 3

CDS 4480: Clinical Ethics  
Exploration of bioethics issues in health care with emphasis on issues related to patient choice and provider responsibility. Topics include philosophical theories, principles and models for ethical and lawful decision making in healthcare.  
Credit Hours: 3

CDS 4480W: Clinical Ethics - Writing Intensive  
Exploration of bioethics issues in health care with emphasis on issues related to patient choice and provider responsibility. Topics include philosophical theories, principles and models for ethical and lawful decision making in healthcare.  
Credit Hours: 3

CDS 4500: Emergency and Disaster Management in Healthcare  
This course will provide the student with an orientation the principles of disaster management in the community (both state and federal levels) and the acute care facility. Topics include biological agents, allocation of resources and ethical considerations.  
Credit Hour: 1

CDS 4840: Asthma Education  
This course will provide the student with a multi-faceted approach to caring for the patient with asthma. Topics include pathophysiology, pharmacology, patient/family education, patient assessment and management. Assists students to take the Asthma Educator Credentialing Exam. Graded on A-F basis only.  
Credit Hours: 2  
Prerequisites: instructor's consent

CDS 4955W: Introduction to Research - Writing Intensive  
(same as RS_THR 4955). An interdisciplinary course designed to promote undergraduate allied health research. Includes identifying and designing research problems through formulating relevant questions, learning to systematically search for answers, and methods for searching the literature.  
Credit Hours: 3

CDS 4955: Introduction to Research  
(same as RS_THR 4955). An interdisciplinary course designed to promote undergraduate allied health research. Includes identifying and designing research problems through formulating relevant questions, learning to systematically search for answers, and methods for searching the literature.  
Credit Hours: 3

CDS 4955W: Introduction to Research - Writing Intensive  
(same as RS_THR 4955). An interdisciplinary course designed to promote undergraduate allied health research. Includes identifying and designing research problems through formulating relevant questions, learning to systematically search for answers, and methods for searching the literature.  
Credit Hours: 3

CDS 4985: Healthcare Organization and Leadership  
(same as HLTH_SCI 4985). In this course, students will explore leadership principles as they relate to the student's focus area, combining previous expertise in the field with an interdisciplinary perspective within the healthcare community. Graded on A-F basis only.  
Credit Hours: 3  
Prerequisites: HLTH_SC 2100; Senior standing

CDS 4985W: Healthcare Organization and Leadership - Writing Intensive  
In this course, students will explore leadership principles as they relate to the student's focus area, combining previous expertise in the field with an interdisciplinary perspective within the healthcare community. Graded on A-F basis only.  
Credit Hours: 3  
Prerequisites: Senior standing

CDS 7025: CDS Electronic Communication and Informatics  
The course presents an overview of healthcare informatics pertaining to all clinical and diagnostic sciences (CDS) constituent programs and of medical informatics. The course introduces all possible electronic communication avenues and methods used in clinical and diagnostic sciences. It provides a comprehensive introduction to the applications of information systems in a range of healthcare environments including clinical and diagnostic sciences education, clinical research, and diverse clinical settings where students will be employed upon graduation. It includes extensive readings and critical discussions of relevant professional research literature. Graded on A-F basis only.  
Credit Hours: 3

CDS 7027: Techniques for Teaching CDS Courses Traditionally or Online  
Clinical and Diagnostic Sciences (CDS) is a new model that integrates multiple dissimilar programs in the allied health and medical fields. This course is designed to prepare CDS professionals to design, organize, conduct and evaluate professional educational offerings, including pre-professional didactic and clinical coursework, in-service trainings, and continuing professional education sessions conducted through traditional and/or online formats. The course will guide the student in developing critical thinking and problem solving strategies necessary in the clinical, therapeutic and diagnostic imaging modalities, as well as the relationship between theoretical and practical aspects of teaching techniques specific to CDS. Graded on A-F basis only.  
Credit Hours: 3  
Prerequisites: Program and instructor's consent
CDS 7110: Management Approaches in CDS
Clinical and Diagnostic Sciences (CDS) is a multiple discipline program in allied health sciences and medical fields. This course is designed to prepare CDS professionals to effectively explore the variety of styles and effective approaches of management. The course will guide the student in developing critical thinking and problem solving strategies necessary in the clear understanding of the strategic avenues required by the appropriate management methods that lead to a harmonious decorum of integration between multiple programs and departments in CDS. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: Program and instructor's consent

CDS 7112: Leadership Styles in CDS
The course is designed to prepare clinical and diagnostic sciences (CDS) professionals from various integrated programs of CDS fields to understand and apply effective leadership styles and methods in order to be efficient, dynamic, and successful leader. The course will guide the students in developing critical thinking and problem solving strategies necessary to expand their strategic leadership knowledge and skills to function in diverse environments of the CDS fields as integrated units or separately. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: Program and instructor's consent

CDS 7113: Practical Multidiscipline Laboratory Organization in CDS
The course is designed to prepare clinical and diagnostic sciences (CDS) professionals from various integrated programs of CDS fields to understand and effectively apply practical organizational skills when dealing with multidisciplinary clinical laboratory settings. The course will guide the students to explore all available practical methods in order to construct an efficient, dynamic, and flowchart accessible laboratory within the CDS department and the fields. The outcome of this course will augment the student's abilities to develop critical thinking and problem solving strategies necessary to function in diverse laboratory environments within the CDS integrated fields. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: Program and instructor's consent

CDS 7114: Organizational Design and Dynamics in CDS
The course is designed to prepare clinical and diagnostic sciences (CDS) professionals from various integrated programs of CDS fields to understand and conceptualize the most appropriate model of structure design of an organization as part of the CDS constituent fields and holistically integrated CDS organization as a whole. Students will learn and be instructed to understand the dynamics that occur within the CDS organizational design. The course will guide the students as they explore various examples available for designs of a CDS organization. The outcome of this course will enhance the student's abilities to develop critical thinking and problem solving strategies necessary to function in diverse clinical and diagnostic environments within the CDS integrated fields. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: Program and instructor's consent

CDS 7116: Administration of Educational Programs in CDS
Clinical and Diagnostic Sciences (CDS) is a new model that integrates multiple dissimilar programs in the allied health and medical fields. This course is designed to prepare CDS professionals to effectively administer and articulate with educational programs. The course will guide the student in developing critical thinking and problem solving strategies necessary to implement strategic plans, institute clinical affiliation agreements, establish thoughtful and consistent policies and procedures, evaluate student selection criteria and pursue accreditation for education programs in CDS. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: Program and instructor's consent

CDS 7118: Telecommunication and Reporting in CDS
Clinical and Diagnostic Sciences (CDS) is a new model that integrates multiple dissimilar programs in the allied health and medical fields. This course will introduce and prepare CDS professionals to telecommunication avenues of interacting, transmitting, and mobilizing the data and pertinent information to the countless outlets of information distribution areas. The course will provide the professional student with the tools and means to understand how to report all the relevant data and information essential to the process to interact and disseminate significant events and results used within the CDS constituent programs. The course will guide the student in developing critical thinking and problem solving strategies necessary in the clinical, therapeutic, and diagnostic imaging modalities in the process of telecommunication skills and reporting methods among all the CDS fields. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: Program and instructor's consent

CDS 7840: Asthma Education
This course will provide the student with a multi-faceted approach to caring for the patient with asthma. Topics include pathophysiology, pharmacology, patient/family education, patient assessment and management. Assists students to take the Asthma Educator Credentialing Exam. Graded on A-F basis only.
Credit Hours: 2
Prerequisites: Program and instructor's consent

CDS 8001: Topics in Clinical and Diagnostic Sciences
This course is designed to explore, through selected themes assigned by the instructor, advanced clinical and diagnostic sciences (CDS) topics in psychosocial, professional, educational, and technical areas. The organized study of a specific CDS topic will be conducted in a holistic manner. Graded on A-F basis only.
Credit Hour: 1-3

CDS 8050: Research in Clinical and Diagnostic Sciences
This course is designed for the clinical and diagnostic sciences (CDS) programs' graduates and health science degree holders who wish to explore advanced opportunities in CDS through a research component and scientific investigations. It will allow the students to formulate appropriate reasons for pursuing a specific area of interest. The course will provide knowledge about research methodology in CDS, the operation of, and how to conduct a research in a CDS department and in a clinical setting. It will guide the student to develop appropriate research
qualities associated with the CDS constituent programs. The course
guides the students in developing independent study and scientific
investigation skills. The course does not lead to a thesis or dissertation.
Graded on A-F basis only.

Credit Hour: 1-3
Prerequisites: Program and instructor's consent

CDS 8085: Problems in Clinical and Diagnostic Sciences
Clinical and Diagnostic Sciences (CDS) field is still an emerging
profession in the medical field. This course is designed to provide a
broad overview of multiple "problems" faced by CDS in the health care
context. Through a variety of themes exploring theoretical and clinical
aspects of the constituent professions, the course will guide the student
in developing critical thinking and problem solving strategies necessary
in the analysis of the controversial aspects of a chosen subject. Issues
will include, but not limited to the role and function of CDS in health care
general and clinical and diagnostic imaging in special, the relationship
between theoretical and practical aspects of the imaging modality and
clinical aspects (fast pace of advancing technology versus slow pace
of clinical application, education, literature of specialty, etc.), ethical
and legal issues in the CDS constituent professions, problems faced
by a clinical and diagnostic educational program, CDS graduates’ role
in diagnosis, education, management, and CDS clinical applications.
Graded on A-F basis only.

Credit Hour: 1-3
Prerequisites: Program and instructor's consent

CDS 8090: Research in Clinical and Diagnostic Sciences
This course is designed for the clinical and diagnostic sciences (CDS)
constituents programs and health science graduates who wish to explore
through the methods of scientific research any area of interest in CDS
fields. It leads to a thesis or dissertation. Graded on A-F basis only.

Credit Hour: 1-3
Prerequisites: Program and instructor's consent

CDS 8920: Applied Research Methodologies in Clinical and
Diagnostic Sciences
Practical research application of clinical and diagnostic sciences (CDS)
in a real time clinical environment: exploring the various methods of
applied clinical research and how they relate to decision making, patient
handling, technical applications, instrumentation and image processing.
Graded on A-F basis only.

Credit Hours: 3
Prerequisites: BHS degree in CDS and or allied health professions, and
Program and instructor's consent

Clinical Laboratory Sciences Courses

CL_L_S 1000: Orientation to Clinical Laboratory Science
The class is designed to give prospective Clinical Laboratory Science
students clinical experience in the field of Clinical Laboratory Science.
Graded on S/U basis only.

Credit Hour: 1
Prerequisites: HLTH_SCI 1000

CL_L_S 4407: Clinical Laboratory Operations
This course provides a basic introduction to the theory, practical
application, technical performance and evaluation of laboratory skills
specific to the practice of clinical laboratory science. Laboratory safety;
microscopy; pipetting; general laboratory equipment; quality control;
mathematics; phlebotomy; pre-analytic, analytic and post-analytic
processes, including specimen collection, processing and transport to
maintain test result integrity, will be addressed. Graded on A-F basis only.

Credit Hour: 1-4
Prerequisites: Restricted to Clinical Laboratory Students only

CL_L_S 4408: Introduction to Clinical Hematology
This course introduces the theory, practical application, technical
performance and evaluation of hematological and hemostasis
procedures. Correlation of laboratory data with the diagnosis of
erthocyte, leukocyte and bleeding/clotting disorders will be introduced.
Graded on A-F basis only.

Credit Hour: 1-4
Prerequisites: Restricted to Clinical Laboratory Students only

CL_L_S 4409: Introduction to Clinical Microbiology
This course introduces the theory, practical application, technical
performance and evaluation of procedures for isolation, identification
and susceptibility testing of infectious disease organisms in humans. The
course primarily focuses on bacteriology, but will include introductory
coverage of parasitology, mycology and virology. Graded on A-F basis
only.

Credit Hour: 1-4
Prerequisites: Restricted to Clinical Laboratory Students only

CL_L_S 4410: Introduction to Clinical Chemistry and Urinalysis
This course introduces the theory, practical application, technical
performance and evaluation of basic laboratory skills and methods in
clinical chemistry and urinalysis. The course focuses on the correlation
of laboratory data with the diagnosis of renal conditions, but will include
introductory coverage of carbohydrate, liver and protein conditions, as
well as enzymes. Graded on A-F basis only.

Credit Hour: 1-4
Prerequisites: Restricted to Clinical Laboratory Students only

CL_L_S 4411: Introduction to Clinical Immunohematology
This course introduces the theory, practical application, technical
performance and evaluation of immunohematology procedures required
to provide compatible blood components for transfusion. Methods for
collection, processing, storage and transfusion of blood and blood
components will be presented. Immunohematology procedures that
assist in the diagnosis and management of hemolytic conditions will be
introduced. Graded on A-F basis only.

Credit Hour: 1-4
Prerequisites: Restricted to Clinical Laboratory Students only

CL_L_S 4412: Clinical Laboratory Science Theory, Application and
Correlation
Application, evaluation and correlation of laboratory procedures used in
the diagnosis and treatment of common disease states. Opportunities
for building critical thinking, problem solving, and leadership skills
are provided in small group clinical case discussions. Course may be repeated for credit. Graded on A-F basis only.

**Credit Hours**: 5  
**Prerequisites**: departmental consent, accepted into the Medical Technology Program

---

**CL_L_S 4413: Clinical Endocrinology and Toxicology**  
This course introduces the theory, practical application, and evaluation of clinical chemistry laboratory procedures. Correlation of clinical laboratory data with the diagnosis and treatment of endocrine disorders, toxicology disturbances and therapeutic drug monitoring is emphasized. Graded on A-F basis only.

**Credit Hour**: 1-4  
**Prerequisites**: Restricted to Clinical Laboratory Students only

---

**CL_L_S 4414: Chemistry I**  
Introduction to theory, practical application, technical performance and evaluation of clinical chemistry laboratory procedures.

**Credit Hour**: 1-4  
**Prerequisites**: departmental consent, accepted into the Medical Technology Program. May be repeated for credit. Graded on A-F basis only

---

**CL_L_S 4415: Chemistry II**  
Advanced theory, practical application, technical performance and evaluation of clinical chemistry laboratory procedures. May be repeated for credit. Graded on A-F basis only.

**Credit Hours**: 3  
**Prerequisites**: departmental consent, accepted into the Medical Technology Program

---

**CL_L_S 4416: Clinical Hematology I**  
Introduction to the theory, practical application, technical performance and evaluation of hematological and coagulation procedures. Emphasis on correlations of clinical laboratory data with the diagnosis and treatment of anemia, leukemia, and bleeding/clotting disorders. May be repeated for credit. Graded on A-F basis only.

**Credit Hour**: 1-4  
**Prerequisites**: departmental consent, accepted into the Medical Technology Program

---

**CL_L_S 4417: Clinical Hematology II**  
Advanced theory, practical application, technical performance and evaluation of hematological and coagulation procedures. Emphasis on the correlation of clinical laboratory data with the diagnosis and treatment of anemia, leukemia, and bleeding/clotting disorders. May be repeated for credit. Graded on A-F basis only.

**Credit Hours**: 3  
**Prerequisites**: departmental consent, accepted into the Medical Technology Program

---

**CL_L_S 4418: Clinical Microbiology I**  
Introduction to the theory, practical application, technical performance and evaluation of procedures for isolation, identification and susceptibility testing of infectious disease organisms in humans. May be repeated for credit. Graded on A-F basis only.

**Credit Hour**: 1-4  
**Prerequisites**: departmental approval, accepted into the Medical Technology Program

---

**CL_L_S 4419: Clinical Microbiology II**  
Advanced theory, practical application, technical performance and evaluation procedures for isolation, identification and susceptibility testing of infectious disease in humans; bacteriology, mycology, parasitology, virology and serology and correlation of data with diagnosis and treatment. May be repeated for credit. Graded on A-F basis only.

**Credit Hours**: 3  
**Prerequisites**: departmental approval, accepted into the Medical Technology Program

---

**CL_L_S 4420: Clinical Immunology**  
Theory, practical application, and evaluation of immunological components; principles and methods used to assess immunologically-related disorders, including hypersensitivity reactions, autoimmune, immunoproliferative and immunodeficiency disorders, tumors and transplantations. May be repeated for credit. Graded on A-F basis only.

**Credit Hour**: 1  
**Prerequisites**: departmental approval, accepted into the Medical Technology Program

---

**CL_L_S 4421: Immunohematology I**  
Introduction to the theory, practical application, technical performance and evaluation of blood bank procedures required for transfusion of blood and blood components and for handling and storage of blood and blood components. May be repeated for credit. Graded on A-F basis only.

**Credit Hours**: 2  
**Prerequisites**: departmental approval, accepted into the Medical Terminology Program

---

**CL_L_S 4422: Immunohematology II**  
Advanced theory, practical application, technical performance and evaluation of blood bank procedures required for transfusion of blood and blood components and for handling and storage of blood and blood components. May be repeated for credit. Graded on A-F basis only.

**Credit Hours**: 2  
**Prerequisites**: departmental approval, accepted into the Medical Terminology Program

---

**CL_L_S 4423: Phlebotomy**  
Theory, practical application, technical performance and evaluation of procedures used in collecting, handling and processing blood specimens. May be repeated for credit. Graded on S/U basis only.

**Credit Hour**: 1  
**Prerequisites**: departmental approval, accepted into the Medical Technology Program

---

**CL_L_S 4424: Clinical Microbiology I**  
Theory, practical application, technical performance and evaluation of procedures used in the analysis of urine and other body fluids, including
cerebrospinal, synovial, serous, seminal, amniotic and feces. May be repeated for credit. Graded on A-F basis only.

Credit Hour: 1
Prerequisites: departmental consent, accepted into the Medical Technology Program

CL_L_S 4442: Clinical Immunohematology Laboratory Practicum I
This course provides practical application in a clinical laboratory setting for the technical performance and evaluation of clinical immunohematology procedures and preparation of blood components. Course content will include new skills and procedures, in addition to the skills and procedures presented in CL_L_S 4407 Clinical Laboratory Operations and CL_L_S 4411 Introduction to Clinical Immunohematology. Graded on A-F basis only.

Credit Hour: 1-4
Prerequisites: Restricted to Clinical Laboratory Students only

CL_L_S 4443: Clinical Immunohematology Laboratory Practicum II
This course provides practical application in a clinical laboratory setting for the technical performance and evaluation of clinical immunohematology procedures and preparation of blood components. Course content will include new skills procedures, in addition to the skills and procedures presented in CL_L_S 4442 Clinical Immunohematology Laboratory Practicum I. Graded on A-F basis only.

Credit Hour: 1-4
Prerequisites: Restricted to Clinical Laboratory Students only

CL_L_S 4444: Clinical Core Laboratory Practicum
This course provides practical application in a clinical laboratory setting for the technical performance and evaluation of clinical hematology/ hemostasis, chemistry and urinalysis procedures. Course content will include new skills and procedures and the application of automation and automatic verification techniques, building on the skills and procedures presented in CL_L_S 4407 Clinical Laboratory Operations, CL_L_S 4408 Introduction to Clinical Hematology and CL_L_S 4410 Introduction to Clinical Chemistry and Urinalysis. Graded on A-F basis only.

Credit Hour: 1-4
Prerequisites: Restricted to Clinical Laboratory Students only

CL_L_S 4445: Clinical Core Laboratory Practicum II
This course provides practical application in a clinical laboratory setting for the technical performance and evaluation of clinical hematology/ hemostasis, chemistry and urinalysis procedures. Course content will include new skills and procedures, in addition to the skills and procedures presented in CL_L_S 4444 Clinical Core Laboratory Practicum. Graded on A-F basis only.

Credit Hour: 1-4
Prerequisites: Restricted to Clinical Laboratory Students only

CL_L_S 4448: Clinical Microbiology Laboratory Practicum I
This course provides practical application in a clinical laboratory setting for the technical performance and evaluation of clinical microbiology procedures. Course content will include new skills and procedures, in addition to the skills and procedures presented in CL_L_S 4407 Clinical Laboratory Operations and CL_L_S 4409 Introduction to Clinical Microbiology. Graded on A-F basis only.

Credit Hour: 1-4
Prerequisites: Restricted to Clinical Laboratory Students only

CL_L_S 4449: Clinical Microbiology Laboratory Practicum II
This course provides practical application in a clinical laboratory setting for the technical performance and evaluation of clinical microbiology procedures. Course content will include new skills and procedures, in addition to the skills and procedures presented in CL_L_S 4448 Clinical Microbiology Laboratory Practicum I. Graded on A-F basis only.

Credit Hour: 1-4
Prerequisites: Restricted to Clinical Laboratory Students only

CL_L_S 4970: Clinical Laboratory Management I
Theory, practical application and evaluation of laboratory management principles and associated models in communication, educational methodology, healthcare systems and financial resources. Opportunities for building critical thinking, problem-solving, and management/ professional leadership skills are provided. May be repeated for credit. Graded on A-F basis only.

Credit Hours: 2
Prerequisites: departmental approval, accepted into the Medical Technology Program

CL_L_S 4980: Clinical Lab Management II
Continuation of Clinical Lab Management I. Theory, practical application, and evaluation of laboratory management principles and associated models in compliance and regulatory issues, human resource management, method evaluation, professionalism and laboratory quality. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: CL_L_S 4970 or departmental consent

CL_L_S 4980W: Clinical Lab Management II - Writing Intensive
Continuation of Clinical Lab Management I. Theory, practical application, and evaluation of laboratory management principles and associated models in compliance and regulatory issues, human resource management, method evaluation, professionalism and laboratory quality. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: CL_L_S 4970 or departmental consent

Communication Courses
COMMUN 1200: Public Speaking
Principles, process of speech communication in small group and public speaking situations.

Credit Hours: 3

COMMUN 1200H: Public Speaking - Honors
Principles, process of speech communication in small group and public speaking situations.

Credit Hours: 3
Prerequisites: Honors eligibility required
COMMUN 2100: Media Communication in Society
An introduction to the development and impact of media communications and its technologies on American society. Emphasis on contemporary industry developments, their historical antecedents, as well as contemporary issues related to the influence and impact of media communication on society.
Credit Hours: 3
Prerequisites: freshman, sophomore or junior standing only

COMMUN 2100H: Media Communication in Society - Honors
An introduction to the development and impact of media communications and its technologies on American society. Emphasis on contemporary industry developments, their historical antecedents, as well as contemporary issues related to the influence and impact of media communication on society.
Credit Hours: 3
Prerequisites: freshman, sophomore or junior standing only. Honors eligibility required

COMMUN 2200: Video Workshop: Mizzou Network
A hands-on workshop; students will participate in all phases of video production (camera operations, directing, graphics, video replay, and live audio production and digital editing) in a variety of live sports Projects. There is no requirement of previous production experience or course work. Course may be repeated an additional two times for credit. Graded on S/U basis only.
Credit Hour: 1
Prerequisites: restricted to Communication majors

COMMUN 2315: Basic Audio Production and Performance
Radio speaking in varied types of programs; console operations, tape editing, microphone techniques.
Credit Hours: 3
Prerequisites: may be restricted to Communication majors only during early registration

COMMUN 2701: Topics in Communication - General
Topics in Communication - General.
Credit Hours: 3
Prerequisites: may be restricted to Communication majors only during early registration

COMMUN 2703: Topics in Communication - Behavioral Science
Topics in Communication - Behavioral Science.
Credit Hours: 3
Prerequisites: may be restricted to Communication majors only during early registration

COMMUN 2705: Topics in Communication - Humanities/Fine Arts
Topics in Communication - Humanities/Fine Arts.
Credit Hours: 3
Prerequisites: may be restricted to Communication majors only during early registration

COMMUN 3050: Survey of Communication Studies
A survey of four main areas of the field communication, interpersonal, organizational, political, and mass communication.
Credit Hours: 3
Prerequisites: May be restricted to Communications majors through early registration

COMMUN 3050W: Survey of Communication Studies - Writing Intensive
A survey of four main areas of the field communication, interpersonal, organizational, political, and mass communication.
Credit Hours: 3
Prerequisites: May be restricted to Communications majors through early registration

COMMUN 3310: Message Design and Writing for the Media
This course introduces students to writing for the media in various contexts including television, film and new media (e.g., websites and social media).
Credit Hours: 3
Prerequisites: COMMUN 2100. May be restricted to Communication majors only during early registration

COMMUN 3315: Advanced Audio Production
The study and application of techniques applicable to radio, television, and multimedia production with an emphasis on digital audio workstation systems.
Credit Hours: 3
Prerequisites: COMMUN 2315. May be restricted to Communication majors only during early registration

COMMUN 3390: Digital Production I
Focus on building familiarity with video cameras, microphones, lighting, editing as well as the fundamentals of visual composition, (framing, camera angles, story boards, and ways to visualize information) and processes and procedures for producing and directing.
Credit Hours: 3
Prerequisites: sophomore standing. May be restricted to Communication majors only during early registration

COMMUN 3395: Digital Production II
Focus on advanced production work; more elaborate projects including digital shorts, music videos, and short documentaries; advanced editing, storyboards, and emphasis on developing narrative structure.
Credit Hours: 3
Prerequisites: COMMUN 3390 or instructor's consent. May be restricted to Communication majors only during early registration

COMMUN 3422: Communication Research Methods
Focuses on writing and administering surveys, conducting field research, and designing experimental studies.
Credit Hours: 3
Prerequisites: sophomore standing and COMMUN 1200. May be restricted to Communication majors only during early registration

<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Description</th>
<th>Credit Hours</th>
<th>Prerequisites</th>
</tr>
</thead>
<tbody>
<tr>
<td>COMMUN 3441</td>
<td>Nonverbal Communication</td>
<td>Analysis of form and content of nonverbal communication. Emphasis on role of nonverbal cues in interpersonal communication.</td>
<td>3</td>
<td>sophomore standing and COMMUN 1200. May be restricted to Communication majors only during early registration</td>
</tr>
<tr>
<td>COMMUN 3460</td>
<td>Organizational Advocacy</td>
<td>Theory and analysis of communication to promote organizational culture and image.</td>
<td>3</td>
<td>sophomore standing. May be restricted to Communication majors only during early registration</td>
</tr>
<tr>
<td>COMMUN 3470</td>
<td>Culture as Communication</td>
<td>(same as ANTHRO 3470, LINGST 3470). Study of the influence of culture on communication processes. Examines topics such as the impact of values, languages, and nonverbal behavior on intercultural interaction.</td>
<td>3</td>
<td>sophomore standing. May be restricted to Communication majors only during early registration</td>
</tr>
<tr>
<td>COMMUN 3490</td>
<td>Mass Media Theory</td>
<td>Survey of the theories of mass communication.</td>
<td>3</td>
<td>COMMUN 2100 or senior standing. May be restricted to Communication majors only during early registration</td>
</tr>
<tr>
<td>COMMUN 3525</td>
<td>Conflict and Communication</td>
<td>Theory and analysis of communication in conflict situations across a variety of contexts.</td>
<td>3</td>
<td>sophomore standing required. May be restricted to Communication majors only during early registration</td>
</tr>
<tr>
<td>COMMUN 3561</td>
<td>Relational Communication</td>
<td>Analysis of communication influences on relational identities and development.</td>
<td>3</td>
<td>sophomore standing and COMMUN 1200. May be restricted to Communication majors only during early registration</td>
</tr>
<tr>
<td>COMMUN 3570</td>
<td>Performance of Literature</td>
<td>(same as ENGLISH 3570 and THEATR 3200). Analysis and oral interpretation of literary works. Graded on A-F basis only.</td>
<td>3</td>
<td>sophomore standing</td>
</tr>
<tr>
<td>COMMUN 3571</td>
<td>Group Decision Making Processes</td>
<td>(same as PEA_ST 3521). Procedures and techniques for interpersonal communication and decision making in small groups.</td>
<td>3</td>
<td></td>
</tr>
<tr>
<td>COMMUN 3572</td>
<td>Argument and Advocacy</td>
<td>Critical analysis and production of argument emphasizing evidence, reasoning, and refutation.</td>
<td>3</td>
<td>COMMUN 1200. May be restricted to Communication majors only during early registration</td>
</tr>
<tr>
<td>COMMUN 3575</td>
<td>Business and Professional Communication</td>
<td>Principles and practice of speech communication in business and professional settings. Emphasis on interviews, group conferences and personal presentations.</td>
<td>3</td>
<td>sophomore standing. May be restricted to Communication majors only during early registration</td>
</tr>
<tr>
<td>COMMUN 3576</td>
<td>Crisis Communication</td>
<td>The theory and practice of corporate and political communication responses to crisis situations.</td>
<td>3</td>
<td>sophomore standing. May be restricted to Communication majors only during early registration</td>
</tr>
<tr>
<td>COMMUN 3578</td>
<td>Contemporary Issues in Mass Communication</td>
<td>Introduction to current issues and trends and relationship among the new technologies, policies, and potential impact on society.</td>
<td>3</td>
<td>sophomore standing and COMMUN 1200. May be restricted to Communication majors only during early registration</td>
</tr>
<tr>
<td>COMMUN 3701</td>
<td>Topics in Communication-General</td>
<td>Organized study of selected topics. Subjects and earnable credit may vary from semester to semester. Departmental consent required for repetition.</td>

</tbody>
</table>
**Prerequisites:** junior standing and instructor's consent. May be restricted to Communications majors only during early registration

**COMMUN 3705H: Topics in Communication-Humanities - Honors**  
Organized study of selected topics. Subjects and earnable credit may vary from semester to semester.  
**Credit Hour:** 1-99

**Prerequisites:** junior standing and instructor's consent, departmental consent for repetition. May be restricted to Communications majors only during early registration. Honors eligibility required

**COMMUN 4395: Professional Seminar in Television Production**  
Application of principles to advanced television production, direction.  
**Credit Hours:** 3

**Prerequisites:** COMMUN 3390 and instructor's consent. May be restricted to Communication majors only during early registration

**COMMUN 4412: Gender, Language, and Communication**  
(same as LINGST 4412, ANTHRO 4412; cross-leveled with COMMUN 7412, LINGST 7412, ANTHRO 7412). Relationship among gender, language, nonverbal communication, and culture.  
**Credit Hours:** 3

**Prerequisites:** junior standing or departmental consent. May be restricted to Communication majors only during early registration

**COMMUN 4415: Language and Discourse**  
(same as LINGST 4415; cross-leveled with COMMUN 7415, LINGST 7415). Analysis of the rules of social interaction and the functions of language in discourse.  
**Credit Hours:** 3

**Prerequisites:** junior standing and departmental consent. May be restricted to Communication majors only during early registration

**COMMUN 4440: Ethical Issues in Communication**  
(same as PEA_ST 4440; cross-leveled with COMMUN 7440). Exploration and analysis of ethical dimensions intrinsic to human communication.  
**Credit Hours:** 3

**Prerequisites:** junior standing or departmental consent. May be restricted to Communication majors only during early registration

**COMMUN 4473: Political Communication**  
(cross-leveled with COMMUN 7473). Study of role and impact of communication in political campaigns; historical and contemporary study of influence by communication; case studies and practicum.  
**Credit Hours:** 3

**Prerequisites:** junior standing or departmental consent. May be restricted to Communication majors only during early registration

**COMMUN 4474: Theory and Research in Persuasion**  
(cross-leveled with COMMUN 7474). Studies the persuasive process, attitude formation, modification.  
**Credit Hours:** 3

**Prerequisites:** junior standing and COMMUN 1200. May be restricted to Communication majors only during early registration

**COMMUN 4476: Organizational Communication**  
(cross-leveled with COMMUN 7476). Theories of communication systems and processes in organizational structures; study of communication behavior in formal and informal organizational settings.  
**Credit Hours:** 3

**Prerequisites:** junior standing and COMMUN 1200. May be restricted to Communication majors only during early registration

**COMMUN 4481: Principles of Rhetoric**  
(cross-leveled with COMMUN 7481). Development of rhetoric from time of Corax with emphasis on Aristotle; derivation, application of standards for judging effectiveness in communication.  
**Credit Hours:** 3

**Prerequisites:** junior standing or departmental consent. May be restricted to Communication majors only during early registration

**COMMUN 4520: Family Communication**  
(same as H_D_FS 4680; cross-leveled with COMMUN 7520, H_D_FS 7680). Analysis of the functions and processes of communication within families.  
**Credit Hours:** 3

**Prerequisites:** junior standing or departmental consent. May be restricted to Communication majors only during early registration

**COMMUN 4530: Health Communication**  
A general overview of the impact of communication on health, including doctor/patient communication and health campaigns. Graded on A-F basis only.  
**Credit Hours:** 3

**Commun 4618: Television Program Analysis and Criticism**  
Development of critical viewing skills including analysis of program conventions, genres, and television aesthetics.  
**Credit Hours:** 3

**Prerequisites:** junior standing required

**COMMUN 4628: Children, Adolescents and the Media**  
Focus on social scientific research concerning the mass media in the lives of children and adolescents. The course centers on media effects literature and controversies relevant to child and adolescent media users. Course involves readings, lectures, discussions of theories, concepts, methods, and finding. We will also consider social implication and personal choices in media use. Graded on A-F basis only.  
**Credit Hours:** 3

**Prerequisites:** junior standing required

**COMMUN 4638: New Technologies and Communication**  
Explores the social implications of new technologies designed for communication. Assumes basic computer knowledge.  
**Credit Hours:** 3
**Prerequisites:** junior standing or instructor's consent. May be restricted to Communication Majors only during early registration

**COMMUN 4701: Topics in Communication-General**
Organized study of selected topics. Subjects and earnable credit may vary from semester to semester. Departmental consent required for repetition.

**Credit Hours:** 1-99

**Prerequisites:** junior standing and instructor's consent. May be restricted to Communication majors only during early registration

**COMMUN 4703: Topics in Communication-Behavioral Science**
Organized study of selected topics. Subjects and earnable credit may vary from semester to semester. Departmental consent for repetition.

**Credit Hours:** 1-99

**Prerequisites:** junior standing and instructor's consent. May be restricted to Communication majors only during early registration

**COMMUN 4705: Topics in Communication-Humanities**
Organized study of selected topics. Subjects and earnable credit may vary from semester to semester. Departmental consent for repetition.

**Credit Hours:** 1-99

**Prerequisites:** junior standing and instructor's consent. May be restricted to Communication majors only during early registration

**COMMUN 4940: Internship**
Directed professional experience within and outside the University in communication-related fields or organizations. Graded on S/U basis only.

**Credit Hours:** 1-99

**Prerequisites:** Admission to department, junior standing, instructor's consent, 2.5 GPA

**COMMUN 4950: Research Project**
Student contributes to a research project with approved goals and a final written report. As part of the project, student will read articles in the communication research literature. Project can be independent or in conjunction with a faculty research project. Course may be repeated once for credit. Graded on A-F basis only

**Credit Hours:** 1-3

**Prerequisites:** COMMUN 3050; junior standing and instructor's consent. Approval by a faculty member who will serve as project supervisor

**COMMUN 4960: Directed Reading**
Independent reading, reports.

**Credit Hours:** 1-99

**Prerequisites:** junior standing or instructor's consent

**COMMUN 4974: Senior Project**
Integration and adaptation of communication theories to an applied communication problem. Required for all majors.

**Credit Hours:** 3

**Prerequisites:** admission to department, senior standing, and departmental consent

**COMMUN 4975: Visual Literacy**
Integration of theory and practice. The theoretical component of the class is grounded in the study of visual literacy and the practice component will focus on documentary filmmaking. May not be taken by graduate students. It is a capstone course for undergraduate students only.

**Credit Hours:** 3

**Prerequisites:** COMMUN 3390, senior standing: Admission to the department

**COMMUN 4996H: Honors in Communication**
Special work for Honors candidates in communication.

**Credit Hours:** 1-2

**Prerequisites:** instructor's consent. Honors eligibility required

**COMMUN 4997: Honors in Communication**
Special work for Honors candidates in communication.

**Credit Hours:** 2

**COMMUN 4997H: Honors in Communication**
Special work for Honors candidates in communication.

**Credit Hours:** 1-2

**Prerequisites:** instructor's consent. Honors eligibility required

**COMMUN 7412: Gender, Language, and Communication**
(same as LINGST 7412, ANTHRO 7412; cross-leveled with COMMUN 4412, LINGST 4412, ANTHRO 4412). Relationship among gender, language, nonverbal communication, and culture.

**Credit Hours:** 3

**COMMUN 7415: Language and Discourse**
(same as LINGST 7415; cross-leveled with COMMUN 4415, LINGST 4415). Analysis of the rules of social interaction and the functions of language in discourse.

**Credit Hours:** 3

**COMMUN 7440: Ethical Issues in Communication**
(cross-leveled with COMMUN 4400, PEA_ST 4440). Exploration and analysis of ethical dimensions intrinsic to human communication.

**Credit Hours:** 3

**Prerequisites:** departmental consent

**COMMUN 7473: Political Communication**
(cross-leveled with COMMUN 4473). Study of role and impact of communication in political campaigns; historical and contemporary study of influence by communication; case studies and practicum.

**Credit Hours:** 3

**Prerequisites:** graduate standing or departmental consent

**COMMUN 7474: Theory and Research in Persuasion**
(cross-leveled with COMMUN 4474). Studies the persuasive process, attitude formation, modification.

**Credit Hours:** 3
Prerequisites: COMMUN 3576 and departmental consent

COMMUN 7476: Organizational Communication
(cross-leveled with COMMUN 4476). Theories of communication systems and processes in organizational structures; study of communication behavior in formal and informal organizational settings.
Credit Hours: 3
Prerequisites: COMMUN 3571 or departmental consent

COMMUN 7481: Principles of Rhetoric
(cross-leveled with COMMUN 4481). Development of rhetoric from time of Corax with emphasis on Aristotle; derivation, application of standards for judging effectiveness in communication.
Credit Hours: 3
Prerequisites: COMMUN 1200, and departmental consent

COMMUN 7520: Family Communication
(same as H_D_FS 7680; cross-leveled with COMMUN 4520, H_D_FS 4680). Analysis of the functions and processes of communication within families.
Credit Hours: 3

COMMUN 7530: Health Communication
A general overview of the impact of communication on health, including doctor/patient communication and health campaigns. Graded on A-F basis only.
Credit Hours: 3

COMMUN 7618: Television Program Analysis and Criticism
Development of critical viewing skills including analysis of program conventions, genres, and television aesthetics.
Credit Hours: 3
Prerequisites: instructor's consent

COMMUN 7638: New Technologies and Communication
Explores the social implications of new technologies designed for communication. Assumes basic computer knowledge.
Credit Hours: 3

COMMUN 8001: Topics in Communication-General
Study of selected topics in Communication. Topic and credit may vary semester to semester. Repeatable upon consent of department.
Credit Hours: 3
Prerequisites: instructor's consent

COMMUN 8085: Problems
Individual study not leading to thesis or dissertation.
Credit Hour: 1-99
Prerequisites: instructor's consent

COMMUN 8090: Master’s Thesis Research in Communication
Research leading to thesis or dissertation. Graded on a S/U basis only.
Credit Hour: 1-99
COMMUN 8420: Seminar in Small Group Communication
Identifies and analyzes theories and variables which explain, predict, and/or influence small group communication.
Credit Hours: 3

COMMUN 8510: Seminar in Mass Communication Theory
This course will offer graduate students a broad overview of extant theories employed in the study of mass communication and mass media effects. The class will focus on theories of society, theories of media, and the relationships between mass communication and culture. It will also focus on theories of media structures, media organizations, media content, audiences, and media effects.
Credit Hours: 3
Prerequisites: instructor's consent

COMMUN 8610: Survey of Political Communication
Survey of theory and research on political communication; emphasis on messages and audience responses to messages.
Credit Hours: 3

COMMUN 9050: Research
Completes comprehensive exams and writes a literature review.
Credit Hour: 1-9

COMMUN 9090: Doctoral Dissertation Research in Communication
Research leading to thesis or dissertation. Graded on a S/U basis only.
Credit Hour: 1-99
Prerequisites: instructor's consent

COMMUN 9170: Research Practicum
Student conducts research under close supervision of faculty mentor. Goal: produce research report suitable for submission as convention paper, article, or book chapter. May be repeated once for credit.
Credit Hours: 3
Prerequisites: consent of mentor required; for advanced graduate students

COMMUN 9280: Seminar in Communication Theory
Examines the nature of theory, the assumptions underlying theoretical approaches to communication, and surveys themes in contemporary communication theories.
Credit Hours: 3

COMMUN 9310: Seminar in Family Communication
Examines research and theory of family communication; focus on family communication patterns and processes, emphasis on key conceptual, methodological and theoretical aspects of family communication scholarship and research on family forms, processes and outcomes. Graded on A-F basis only.
Credit Hours: 3

COMMUN 9330: Topics in Interpersonal Communication
The course will review theory and research on topics related to the study of communication and interpersonal relationships. Subjects will rotate and include areas such as relational conflict, gender communication, nonverbal communication, intercultural communication, or interpersonal violence and communication.
Credit Hours: 3
Prerequisites: instructor's consent

COMMUN 9430: Seminar in Mass Media Effects
Explores current research in the processes and effects of mass communication. Readings pertain to the current social and psychological effects of media on viewers.
Credit Hours: 3

COMMUN 9460: Topics in Organizational Communication
Examination of theory and research in selected areas of organizational communication. Topics vary by semester. Topics may include socialization, power, gender, emotions, and others. May be repeated for credit.
Credit Hours: 3

COMMUN 9520: Seminar in Mass Media Effects
Examines research in the processes and effects of mass communication. Readings pertain to the current social and psychological effects of media on viewers.
Credit Hours: 3

COMMUN 9530: Topics in Mass Communication
Examination of theory and research in selected areas of media communication. Topics vary by semester. May be repeated for credit.
Credit Hours: 3

COMMUN 9610: Seminar in Disaster, Crisis, and Risk
This course examines several lines of research from multiple disciplines that influence communication during disasters, crises, and emergencies. The course takes a phased approach to disasters, covers Federal government paradigms for disaster communication; crisis communication from an organizational and public relations perspective, risk perception, role of social media and emerging technologies in disasters, media coverage of disasters, and communication and recovery, resilience, and growth.
Credit Hours: 3

COMMUN 9620: Political Campaign Debates
Theory and research on political campaign debates applied to analyses of candidate debates. Focus on primary and general presidential debates.
Credit Hours: 3
COMMUN 9630: Political Advertising
Theory and research on political advertising applied to analyses of candidate advertisements. Focus on primary and general presidential television spots and web pages.
Credit Hours: 3

COMMUN 9720: Seminar in Theories of Rhetoric and Criticism
Directed research on selected topics in rhetorical theory and criticism.
Credit Hour: 1-6
Prerequisites: instructor's consent

Communication Science And Disorders Courses

C_S_D 1000: Introduction to Communication Science and Disorders
Nature of communication and its development; types of speech, language and hearing disorders; professional preparation, settings, and work of speech-language pathologists and audiologists. Course graded on S/U basis only.
Credit Hour: 1

C_S_D 1050: Signed English
Introduction to the English-based sign system, Signed English, a system that has been developed to bridge the gap between English and American Sign Language. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: Restricted to Communication, Science and Disorder majors only during Early Registration

C_S_D 1060: Human Language
(same as ANTHRO 1060, LINGST 1060 and ENGLSH 1060). General introduction to various aspects of linguistic study. Elementary analysis of language data with some attention to application of linguistic study to other disciplines.
Credit Hours: 3

C_S_D 1100: American Sign Language I
Introduction to American Sign Language (ASL). Development of basic expressive and receptive skills in ASL, the manual alphabet, numbers, and signed vocabulary. Includes an overview of ASL syntax and grammar. Course graded on A-F basis only.
Credit Hours: 5

C_S_D 1200: American Sign Language II
This course is designed to increase students' understanding of American Sign Language. Students will increase their sign vocabulary, expressive and receptive skills, an understanding of ASL syntax and grammar. Graded on A-F basis only.
Credit Hours: 5
Prerequisites: C_S_D 1100 or equivalent

C_S_D 2120: Survey of Communication Disorders
Systematic survey of the disorders of speech, language and hearing.
Credit Hours: 3

C_S_D 2150: American Sign Language III
This course expands on vocabulary and signing skills developed in ASL II. Includes review of ASL grammar and extensive discussions of ASL linguistic structure and Deaf culture. Class is conducted entirely in ASL. Course graded on A-F basis only.
Credit Hours: 3
Prerequisites: C_S_D 1200 with minimum grade of C or instructor's consent

C_S_D 3010: American Phonetics
(same as LINGST 3010). Analysis of production and acoustics of the sounds of speech with an emphasis on American English; practice in broad and narrow transcription using the International Phonetic Alphabet.
Credit Hours: 3
Prerequisites: Restricted to Communication Science and Disorders majors only

C_S_D 3020: Normal Language Development
Language development in children and changes in language processing during normal aging. Cognition and language; language learning processes; language sample analysis; relationship between spoken and written language.
Credit Hours: 3
Prerequisites: Communication Science and Disorders majors only

C_S_D 3020W: Normal Language Development - Writing Intensive
Language development in children and changes in language processing during normal aging. Cognition and language; language learning processes; language sample analysis; relationship between spoken and written language.
Credit Hours: 3
Prerequisites: Communication Science and Disorders majors only

C_S_D 3210: Anatomy and Physiology of the Speech Mechanism
(same as LINGST 3210). Introduction to anatomical and functional aspects of the speech mechanism.
Credit Hours: 3
Prerequisites: Communication Science and Disorders majors only

C_S_D 3220: Speech Acoustics
(same as LINGST 3220). An introduction to the acoustic aspects of speech as they relate to the respiratory, phonatory, resonatory, and articulatory systems.
Credit Hours: 2
Prerequisites: Communication Science and Disorders majors only or instructor's consent

C_S_D 3230: Hearing Science
Introduction to the nature of sound and its measurement; anatomy and physiology of the auditory and vestibular systems; psychoacoustic methods and phenomena.
Credit Hours: 3
C_S_D 4001: Topics in Communication Science and Disorders
Organized study of selected topics. Subjects and earnable credit may vary from semester to semester. May be repeated with program consent.

Credit Hour: 1-99
Prerequisites: junior standing and instructor's consent

C_S_D 4020: Language Disorders in Children
Overview of language disorders from early childhood through adolescence. Includes language disorders as primary disability and as secondary to other disabilities. Introduction to assessment and intervention.

Credit Hours: 3
Prerequisites: Communication Science and Disorders majors only

C_S_D 4020W: Language Disorders in Children - Writing Intensive
Overview of language disorders from early childhood through adolescence. Includes language disorders as primary disability and as secondary to other disabilities. Introduction to assessment and intervention.

Credit Hours: 3
Prerequisites: Communication Science and Disorder majors only

C_S_D 4030: Language Disorders of Adults
Introduction to acquired adult language disorders. Review of neuroanatomy/physiology, etiology and symptomatology, with introduction to assessment and treatment procedures.

Credit Hours: 2
Prerequisites: Communication Science and Disorders majors only

C_S_D 4050: Clinical Applications of Sign Language
(cross-leveled with C_S_D 7050). This course covers research, theory, and methods of using sign language to assist the communication of the Deaf, individuals with disabilities, and hearing learners. Use of sign language to improve literacy and classroom management will also be targeted. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: Instructor's consent required
Recommended: C_S_D 1050 or C_S_D 1100 or equivalent

C_S_D 4210: Fluency Disorders

Credit Hours: 2
Prerequisites: Communication Science and Disorders majors only

C_S_D 4220: Voice Disorders
Introduction to voice disorders in children and adults. Includes overview of perceptual and instrumental assessment procedures and selected treatment approaches.

Credit Hour: 1
Prerequisites: Communication Science and Disorders majors only

C_S_D 4230: Disorders of Phonology and Articulation
Overview of disorders of use and production of speech sounds with an emphasis on developmental disorders. Introduction to assessment and treatment.

Credit Hours: 3
Prerequisites: Communication Science and Disorders majors only

C_S_D 4300: Introduction to Audiology
Principles and techniques of audiological testing; etiologies of hearing impairment; current technologies in rehabilitation.

Credit Hours: 3
Prerequisites: C_S_D 3230; Communication Science and Disorders majors only or instructor's consent

C_S_D 4340: Aural Rehabilitation
(cross-leveled with C_S_D 7340). Identification, evaluation, and management of problems associated with hearing impairment in both children and adults. Includes issues related to speech/language development, communication, education, and social factors.

Credit Hours: 3
Prerequisites: Communication Science and Disorders majors only

C_S_D 4350: Neurophysiology for Speech, Language, and Hearing
(cross-leveled with C_S_D 7430). Principles of basic neurophysiology, emphasizing correlation of structure and function of the nervous system.

Credit Hours: 3
Prerequisites: Communications Science and Disorders majors only

C_S_D 4810: Psycholinguistics
(same as LINGST 4810; cross-leveled with C_S_D 7810, LINGST 7810). Examination of the knowledge and processes that underlie the human ability to produce and understand language.

Credit Hours: 3
Prerequisites: instructor's consent

C_S_D 4820: Speech Perception
(same as LINGST 4820; cross-leveled with C_S_D 7820, LINGST 7820). Selected topics in the perceptual processing of speech sounds and spoken language.

Credit Hours: 3
Prerequisites: instructor's consent

C_S_D 4830: Individual Differences in Language Processing
(cross-leveled with C_S_D 7830). Examination of the normal variations exhibited across individuals in the acquisition, use, and representation of language. Also considered are individual differences seen in second language learning, the aging process, and language disorders.

Credit Hours: 2
Prerequisites: instructor's consent

C_S_D 4840: Language and Development in Infancy
(cross-leveled with C_S_D 7840). Overview of theory and research on the foundations and development of language in infancy (0 to 2
years), with an emphasis on relevant, interrelated areas of development, individual differences, early recognition of delay, and assessment.

**Credit Hours:** 3
**Prerequisites:** senior standing required. Instructor's consent required

**C_S_D 4900: Clinical Observation in Communication Disorders**
Directed clinical observations designed to prepare the student for clinical practicum. Required for professional certification. Graded on a S/U basis only.

**Credit Hours:** 2
**Prerequisites:** Communication Science and Disorders majors only

**C_S_D 4945: Clinical Apprenticeship in Communication Disorders**
Supervised observation and clinical experience in speech-language pathology for undergraduates.

**Credit Hours:** 1-3
**Prerequisites:** senior standing and departmental consent.

**C_S_D 4950: Research Apprenticeship**
Research apprenticeship with a faculty member, assisting in the development and execution of research in communication processes and disorders. May be repeated to 6 hrs. maximum.

**Credit Hours:** 1-99
**Prerequisites:** instructor's consent

**C_S_D 4960: Directed Reading in Communication Science and Disorders**
Independent reading; reports.

**Credit Hours:** 1-3
**Prerequisites:** instructor’s consent

**C_S_D 4990: Honors Thesis**
Individual honors thesis on a topic selected with a faculty advisor. Requires planning, conducting, and writing up research project under the guidance of a faculty member. Successful completion of thesis and maintenance of 3.3 GPA, leads to degree with departmental honors. Graded on A-F basis only.

**Credit Hours:** 3
**Prerequisites:** Senior standing; 3.3 GPA; 3.5 GPA in Communication Science and Disorders courses; instructor's consent. Restricted to Communication Science and Disorders students only

**C_S_D 7001: Topics in Communication Science and Disorders**
Study of selected topics in speech pathology/audiology. Topic and credit may vary from semester to semester. May be repeated for credit with instructor and departmental consent.

**Credit Hours:** 1-99
**Prerequisites:** instructor's consent

**C_S_D 7050: Clinical Applications of Sign Language**
(cross-leveled with C_S_D 4050). This course covers research, theory, and methods of using sign language to assist the communication of the Deaf, individuals with disabilities, and hearing learners. Use of sign language to improve literacy and classroom management will also be targeted. Graded on A-F basis only.

**Credit Hours:** 3
**Prerequisites:** Instructor's consent required
**Recommended:** C_S_D 1050 or C_S_D 1100 or equivalent

**C_S_D 7085: Problems in Communication Science and Disorders**
Individual study not leading to thesis or dissertation.

**Credit Hour:** 1-99
**Prerequisites:** instructor's consent

**C_S_D 7340: Aural Rehabilitation**
(cross-leveled with C_S_D 4340). Identification, evaluation, and management of problems associated with hearing impairment in both children and adults. Includes issues related to speech/language development, communication, education, and social factors.

**Credit Hours:** 3
**Prerequisites:** Communication Science and Disorders majors only

**C_S_D 7430: Neurophysiology for Speech, Language, and Hearing**
(cross-leveled with C_S_D 4430). Principles of basic neurophysiology, emphasizing correlation of structure and function of the nervous system.

**Credit Hours:** 3
**Prerequisites:** Communication Science and Disorders majors or instructor's consent

**C_S_D 7810: Psycholinguistics**
(same as LINGST 7810; cross-leveled with C_S_D 4810, LINGST 4810). Examination of the knowledge and processes that underlie the human ability to produce and understand language.

**Credit Hours:** 3
**Prerequisites:** instructor's consent

**C_S_D 7820: Speech Perception**
(same as LINGST 7820; cross-leveled with C_S_D 4820, LINGST 4820). Selected topics in the perceptual processing of speech sounds and spoken language.

**Credit Hours:** 3
**Prerequisites:** instructor's consent

**C_S_D 7830: Individual Differences in Language Processing**
(cross-leveled with C_S_D 7830). Examination of the normal variations exhibited across individuals in the acquisition, use, and representation of language. Also considered are individual differences seen in second language learning, the aging process, and language disorders.

**Credit Hours:** 2
**Prerequisites:** instructor's consent

**C_S_D 7840: Language and Development in Infancy**
(cross-leveled with C_S_D 4840). Overview of theory and research on the foundations and development of language in infancy (0 to 2 years), with an emphasis on relevant, interrelated areas of development, individual differences, early recognition of delay, and assessment.

Prerequisites for these courses vary. Please consult the course catalog for specific details.
Credit Hours: 3
Prerequisites: Communication Science and Disorders students only

C_S_D 8420: Reading and Language Disabilities in School-Age Children
Theories, research, and practice in reading development and disorders. Assessment and remediation of reading disabilities related to language disorders of various etiologies including developmental language disorders and head injury.
Credit Hours: 2
Prerequisites: C_S_D 8420 or C_S_D 8020

C_S_D 8430: Augmentative and Alternative Communication
Students will learn the principles of AAC assessment, methods of intervention, and types of technology available for individuals unable to communicate fully through speech. Graded on A-F basis only.
Credit Hours: 2
Prerequisites: Communication Science and Disorders students only

C_S_D 8500: Issues in Professional Practice
Organizational, inter-professional, economic, legal, and ethical aspects of delivering speech, language, and hearing services. Graded on A/F basis only.
Credit Hours: 2
Prerequisites: Communication Science and Disorders students only

C_S_D 8600: Clinical Language Analysis
This course provides a theoretical framework for understanding the morphology, semantics, syntax, and pragmatics of English as well as practice in the analysis of typical and atypical language samples. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: Communication Science and Disorders students only

C_S_D 8935: Clinical Practice in Audiology
Supervised practice in hearing screening, hearing conservation, and aural re/habilitation. May be repeated for credit. Graded on S/U basis only.
Credit Hour: 1

C_S_D 8945: Clinical Practice in Speech-Language Pathology
Supervised clinical practice in speech pathology for graduate students. May be repeated for credit.
Credit Hours: 1-10
Prerequisites: Communication Science and Disorders students only

C_S_D 8960: Directed Reading in Communication Science and Disorders
Independent reading; reports.
Credit Hour: 1-3
Prerequisites: instructor's consent

C_S_D 9050: Research in Communication Science and Disorders
Independent research leading to a report but not to a thesis or dissertation.
Credit Hour: 1-99
Prerequisites: instructor's consent

C_S_D 9087: Seminar: Contemporary Topics in Speech-Language Pathology
Advanced study involving critical literature review and research on selected topics in speech and language. May be repeated for up to 6 credits.
Credit Hour: 1-3
Prerequisites: instructor's consent

Computer Science Courses

CMP_SC 1000: Introduction to Computer Science
This course introduces the Computer Science field, including the history of computers, career opportunities, and ethical/social issues. There will be lectures given by MU Computer Science faculty to discuss exciting fields as well as career advisement given by Computer Science industry representatives. Prerequisites: Restricted to freshman/sophomore students who are BS Computer Science, BS Information Technology and Undeclared Engineering or Pre-Engineering may enroll in the class without permission
Credit Hour: 1

CMP_SC 1001: Topics in Computer Science
Topic and credit may vary from semester to semester. May be repeated upon consent of department.
Credit Hour: 1-99

CMP_SC 1050: Algorithm Design and Programming I
This course provides experience in developing algorithms, designing, implementing programs. Topics include syntax/semantics, flow control, loops, recursion, I/O, arrays, strings and pointers.
Credit Hours: 3
Prerequisites: C- or higher in MATH 1100 or MATH 1160 or MATH 1500. May be restricted to Engineering majors only

CMP_SC 2001: Topics in Computer Science
Topic and credit may vary from semester to semester. May be repeated upon consent of department.
Credit Hour: 1-99

CMP_SC 2050: Algorithm Design and Programming II
A study of fundamental techniques and algorithms for representing and manipulating data structures. Topics include data abstraction, recursion,
stacks, queues, linked lists, trees, efficient methods of sorting and searching, and Big-O analysis.

**Credit Hours:** 3  
**Prerequisites:** C- or higher in CMP_SC 1050. May be restricted to Engineering majors only

---

**CMP_SC 2111: Production Languages**  
The study of the syntax, semantics, and applications of one programming language suitable for large scale scientific or commercial projects, such as FORTRAN, COBOL, PL/1, C, or ADA. May be taken more than once for credit.

**Credit Hours:** 1-3  
**Prerequisites:** C- or higher in CMP_SC 2050

---

**CMP_SC 2270: Introduction to Digital Logic**  
Basic tools, methods and procedures to design combinational and sequential digital circuits and systems, including number systems, boolean algebra, logic minimization, adder design, memory elements, and finite state machine design.

**Credit Hours:** 3  
**Prerequisites:** C- or higher in CMP_SC 1050

---

**CMP_SC 2830: Introduction to the Internet, WWW and Multimedia Systems**  
This course will attempt to provide a comprehensive understanding of the evolution, the technologies, and the tools of the Internet. In particular, issues pertaining to the World Wide Web and Multimedia (HTML, CGI, Web based applications) will be discussed in detail.

**Credit Hours:** 3  
**Prerequisites:** C- or higher in CMP_SC 2050

---

**CMP_SC 3001: Topics in Computer Science**  
Current and new technical developments in computer science. May be repeated for 6 hours credit.

**Credit Hour:** 1-99  
**Prerequisites:** departmental consent. For juniors and seniors

---

**CMP_SC 3050: Advanced Algorithm Design**  
This class surveys fundamental algorithms and data structures that have wide practical applicability, including search trees and graph algorithms. Emphasis is placed on techniques for efficient implementation and good software development methodologies.

**Credit Hours:** 3  
**Prerequisites:** CMP_SC 2050 with a C or higher

---

**CMP_SC 3280: Computer Organization and Assembly Language**  
Introduces computer architectures, programming concepts including parameter passing, I/O, interrupt handling, DMA, memory systems, cache, and virtual memory. Graded of A-F basis only.

**Credit Hours:** 3  
**Prerequisites:** C- or higher in CMP_SC 2270 or ECE 1210

---

**CMP_SC 3330: Object Oriented Programming**  
This course focuses on object-oriented programming concepts: abstraction, polymorphism, encapsulation, inheritance, interfaces, abstract classes, files, streams, and object serialization. Topics such as GUI and event-driven programming are also tackled.

**Credit Hours:** 3  
**Prerequisites:** CMP_SC 2050 with a C or higher grade

---

**CMP_SC 3380: Database Applications and Information Systems**  
Covers fundamental topics of database management systems (DBMS) and database-enabled applications. Topics include a brief history of secondary storage and databases, data modeling, introductory SQL, an overview of current database trends, and current popular database systems. Graded on A-F basis only.

**Credit Hours:** 3  
**Prerequisites:** C- or higher in CMP_SC 2050

---

**CMP_SC 3530: UNIX Operating System**  
Introduction to the UNIX operating system and its interfaces including the file system, shell, editors, pipes and filters, input/output system, shell programming, program development including C, and document preparation.

**Credit Hours:** 3  
**Prerequisites:** C- or higher in CMP_SC 2050

---

**CMP_SC 3940: Internship in Computer Science**  
Computer-related experience in business or industry jointly supervised by faculty and computer professionals. Students should apply one semester in advance for consent of the supervising professor. Graded on a S/U basis only.

**Credit Hour:** 1-3  
**Prerequisites:** CMP_SC 2050

---

**CMP_SC 4001: Topics in Computer Science**  
Topic and credit may vary from semester to semester. May be repeated upon consent of department.

**Credit Hour:** 1-99

---

**CMP_SC 4050: Design and Analysis of Algorithms I**  
(cross-leveled with CMP_SC 7050). This course reviews and extends earlier work with linked structures, sorting and searching algorithms, and recursion. Graph algorithms, string matching, combinatorial search, geometrical algorithms and related topics are also studied.

**Credit Hours:** 3  
**Prerequisites:** C- or higher in CMP_SC 3050 and MATH 2320

---

**CMP_SC 4060: String Algorithms**  
(cross-leveled with CMP_SC 7060). This course provides an introduction to algorithms that efficiently compute patterns in strings. Topics covered include basic properties of strings, data structures for processing strings, string decomposition, exact and approximate string matching algorithms.

**Credit Hours:** 3  
**Prerequisites:** C- or higher in CMP_SC 4050
CMP_SC 4070: Numerical Methods for Science and Engineering  
(cross-leveled with CMP_SC 7070). Introduces basic numerical methods widely used by computer scientists/engineers. Students will use the MATLAB platform to computationally solve problems, such as finding roots of nonlinear equations, solving systems of equations, fitting curves, solving ODEs, finding eigenvalues, etc. Graded on A-F basis only.  
**Credit Hours:** 3  
**Prerequisites:** C- or higher in CMP_SC 2050 and junior standing or instructor’s consent

CMP_SC 4080: Parallel Programming for High Performance Computing  
(cross-leveled with CMP_SC 7080) This course will provide in-depth treatment of the evolution high performance computing architectures and parallel programming techniques for those architectures. We will cover topics such as: multi-process and multi-threaded programming; multi-node system architectures (clusters, grids, and clouds) and distributed programming; and general purpose GPU programming. To reinforce lecture topics, programming projects will be completed using multi-process and multi-threaded techniques for modern multicore, multiprocessor workstations; parallel and distributed programming techniques for modern multi-node systems; and general purpose GPU programming. Parallel algorithms will be investigated, selected, and then developed for various scientific data processing problems. Programming projects will be completed using C and C++ APIs and language extensions, e.g. threads (pthreads, Boost/C++), TBB, CILK, OpenMP, OpenMPI, CUDA and OpenCL.  
**Credit Hours:** 3  
**Prerequisites:** C- or higher in CMP_SC 3280 or ECE 3210 and C- or higher in CMP_SC 2050 or ECE 3220

CMP_SC 4085: Problems in Computer Science  
Independent investigation or project in Computer Science. May be repeated to up 6 hours.  
**Credit Hour:** 1-6  
**Prerequisites:** senior standing in Computer Science

CMP_SC 4270: Computer Architecture I  
(cross-leveled with CMP_SC 7270). Architectural features of high-performance computer systems including hierarchical and virtual memory, pipelining, vector processing and an introduction to multiple-processor systems.  
**Credit Hours:** 3  
**Prerequisites:** C- or higher in CMP_SC 2270 and CMP_SC 2050

CMP_SC 4280: Network Systems Architecture  
(same as ECE 4280; cross-leveled with CMP_SC 7280, ECE 7280). The course covers network systems (interconnects and switch fabrics, network considerations) and relevant networking applications at the network, transport and application layer.  
**Credit Hours:** 4  
**Prerequisites:** C- or higher in CMP_SC 2050 or ECE 3220 and C- or higher in CMP_SC 3280 or ECE 3210

CMP_SC 4320: Software Engineering I  
(cross-leveled with CMP_SC 7320). Overview of software life cycle, including topics in systems analysis and requirements specification, design, implementation testing and maintenance. Uses modeling techniques, project management, peer review, quality assurance, and system acquisition.  
**Credit Hours:** 3  
**Prerequisites:** C- or higher in CMP_SC 3380

CMP_SC 4320W: Software Engineering I - Writing Intensive  
(cross-leveled with CMP_SC 7320). Overview of software life cycle, including topics in systems analysis and requirements specification, design, implementation testing and maintenance. Uses modeling techniques, project management, peer review, quality assurance, and system acquisition.  
**Credit Hours:** 3  
**Prerequisites:** CMP_SC 3380

CMP_SC 4330: Object Oriented Design I  
(cross-leveled with CMP_SC 7330). Fundamental concepts of current database systems with emphasis on the relational model. Topics include entity-relationship model, relational algebra, query by example, indexing, query optimization, normal forms, crash recovery, web-based database access, and case studies. Project work involves a modern DBMS, such as Oracle, using SQL.  
**Credit Hours:** 3  
**Prerequisites:** C- or higher in CMP_SC 3330

CMP_SC 4350: Big Data Analytics  
(cross-leveled with CMP_SC 7350). Big Data Analytics represents a new era of computing, where data in any format maybe processed and exploited to extract insights for industries and organizations to make informed decisions, whether that data is in-place, in-motion or at-rest, in large volume, structured or unstructured. More and more companies are embracing open source Big Data technologies, such as Hadoop and extending it into an enterprise ready Big Data Platform. This course will cover advanced analytics technologies and techniques that enable industries to extract insights from data with sophistication, speed and accuracy. You will learn practical industry best practices to bridge the gap between classroom learning and real world; and have access to cloud services for labs/projects.  
**Credit Hours:** 3  
**Prerequisites:** C- or higher in CMP_SC 3330 and CMP_SC 3380

CMP_SC 4380: Database Management Systems I  
(cross-leveled with CMP_SC 7380). Fundamental concepts of current database systems with emphasis on the relational model. Topics include entity-relationship model, relational algebra, query by example, indexing, query optimization, normal forms, crash recovery, web-based database access, and case studies. Project work involves a modern DBMS, such as Oracle, using SQL.  
**Credit Hours:** 3  
**Prerequisites:** C- or higher in CMP_SC 3380

CMP_SC 4410: Theory of Computation I  
(cross-leveled with CMP_SC 7410). An introductory study of computation and formal languages by means of automata and related grammars. The
theory and applications of finite automata, regular expressions, context free grammars, pushdown automata and Turing machines are examined. May not be counted toward Computer Science MS/PHD.

**Credit Hours:** 3  
**Prerequisites:** C- or higher in MATH 2320

**CMP_SC 4430: Compilers I**  
(cross-leveled with CMP_SC 7430). Introduction to the translation of programming languages by means of interpreters and compilers. Lexical analysis, syntax specification, parsing, error-recovery, syntax-directed translation, semantic analysis, symbol tables for block structured languages, and run-time storage organization. May not be counted toward Computer Science MS/PHD.

**Credit Hours:** 3  
**Prerequisites:** C- or higher in MATH 2320, CMP_SC 3280 and CMP_SC 4450

**CMP_SC 4440: Malware Analysis and Defense**  
(cross-leveled with CMP_SC 7440). Malicious software or “malware” is a security threat. This course teaches students to understand the nature and types of viruses and how they are threats; teaches techniques used to prevent, detect, repair and defend against viruses and worms; teaches program binary examination tools to detect malicious code; and teaches ethical issues surrounding computer security violations.

**Credit Hours:** 3  
**Prerequisites:** C- or higher in CMP_SC 3280 or ECE 3210

**CMP_SC 4450: Principles of Programming Languages**  
(cross-leveled with CMP_SC 7450). An introduction to the structure, design and implementation of programming languages. Topics include syntax, semantics, data types, control structures, parameter passing, run-time structures, and functional and logic programming. May not be counted toward Computer Science MS/PHD.

**Credit Hours:** 3  
**Prerequisites:** C- or higher in CMP_SC 2050

**CMP_SC 4460: Introduction to Cryptography**  
(cross-leveled with CMP_SC 7460). Cryptography is an important technique used to achieve security goals in an untrusted and possibly adversarial environment. The goals of this course are: (1) to provide students with a solid background with basic cryptographic techniques and their applications, (2) to impart knowledge of standard cryptographic algorithms and (3) to foster understanding of the correct use of cryptographic techniques.

**Credit Hours:** 3  
**Prerequisites:** C- or higher in CMP_SC 3050 and MATH 2320

**CMP_SC 4520: Operating Systems I**  
(cross-leveled with CMP_SC 7520). Basic concepts, theories and implementation of modern operating systems including process and memory management, synchronization, CPU and disk scheduling, file systems, I/O systems, security and protection, and distributed operating systems.

**Credit Hours:** 3  
**Prerequisites:** C- or higher in CMP_SC 3050 and MATH 1700

**CMP_SC 4530: Cloud Computing**  
(cross-leveled with CMP_SC 7530). This course covers principles that integrate computing theories and information technologies with the design, programming and application of distributed systems. The course topics will familiarize students with distributed system models and enabling technologies; virtual machines and virtualization of clusters, networks and data centers; cloud platform architecture with security over virtualized data centers; service-oriented architectures for distributed computing; and cloud programming and software environments. Additionally, students will learn how to conduct some parallel and distributed programming and performance evaluation experiments on applications within available cloud platforms. Finally we will survey research literature and latest technology trends that are shaping the future of high performance, distributed and cloud computing.

**Credit Hours:** 3  
**Prerequisites:** C- or higher in CMP_SC 3330 or instructor's consent

**CMP_SC 4610: Computer Graphics I**  
(cross-leveled with CMP_SC 7610). Basic concepts and techniques of interactive computer graphics including hardware, software, data structures, mathematical manipulation of graphical objects, the user interface, and fundamental implementation algorithms.

**Credit Hours:** 3  
**Prerequisites:** C- or higher in CMP_SC 3050 and MATH 1500 or C- or higher in CMP_SC 3050 and MATH 1300 and MATH 1400

**CMP_SC 4620: Physically Based Modeling and Animation**  
(cross-leveled with CMP_SC 7620). This course introduces students to physically based modeling and animation methodology for computer graphics and related fields such as computer vision, visualization, biomedical imaging and virtual reality. We will explore current research issues and will cover associated computational methods for simulating various visually interesting physical phenomena. This course should be appropriate for graduate students in all areas as well as advanced undergraduate students.

**Credit Hours:** 3  
**Prerequisites:** C- or higher in CMP_SC 4610  
**Recommended:** Good knowledge of C or C++ programming, no physics background necessary

**CMP_SC 4650: Digital Image Compression**  
(same as ECE 4675; cross-leveled with CMP_SC 7650, ECE 7655). Fundamentals of digital image processing hardware and software including digital image acquisition, image display, image enhancement, image transforms and segmentation.

**Credit Hours:** 3  
**Prerequisites:** C- or higher in CMP_SC 2050 and STAT 4710 or instructor's consent

**CMP_SC 4670: Digital Image Processing**  
(same as ECE 4675; cross-leveled with ECE 7675, CMP_SC 7670). Covers digital image formation, information theory concepts, and fundamental lossless and lossy image compression techniques including bit plane encoding, predictive coding, transform coding, block truncation coding, vector quantization, subband coding and hierarchical coding.
Credit Hours: 3  
Prerequisites: C- or higher in CMP_SC 2050

**CMP_SC 4720: Introduction to Machine Learning and Pattern Recognition**  
(same as ECE 4720; cross-leveled with ECE 7720, CMP_SC 7720)  
This course provides foundations and methods in machine learning and pattern recognition that address the problem of programming computers to optimize performance by learning from example data or expert knowledge. Graded on A-F basis only.  

Credit Hours: 3  
Prerequisites: C- or higher in CMP_SC 2050 and STAT 4710 or instructor consent

**CMP_SC 4730: Building Intelligent Robots**  
(same as ECE 4340; cross-leveled with CMP_SC 7340, ECE 7340)  
Covers the design and development of intelligent machines, emphasizing topics related to sensor-based control of mobile robots. Includes mechanics and motor control, sensor characterization, reactive behaviors and control architectures.  

Credit Hours: 4  
Prerequisites: junior standing  
Recommended: programming experience in one of the following programming languages - Basic, C, C++, or Java

**CMP_SC 4740: Interdisciplinary Introduction to NLP**  
(same as LINGST 4740; cross-leveled with CMP_SC 7740; LINGST 7740)  
The goal of this course is to enable students to develop substantive NLP applications. Focus on current structural and statistical techniques for the parsing and interpretation of texts.  

Credit Hours: 3  
Prerequisites: senior standing

**CMP_SC 4750: Artificial Intelligence I**  
(cross-leveled with CMP_SC 7750)  
Introduction to the concepts and theories of intelligent systems. Various approaches to creating intelligent systems, including symbolic and computational approaches, insight into the philosophical debates important to understanding AI.  

Credit Hours: 3  
Prerequisites: C- or higher in CMP_SC 3050 and junior standing

**CMP_SC 4770: Introduction to Computational Intelligence**  
(same as ECE 4870; cross-leveled with CMP_SC 7770, ECE 7870)  
Introduction to the concepts, models and algorithms for the development of intelligent systems from the standpoint of the computational paradigms of neural networks, fuzzy set theory and fuzzy logic, evolutionary computation and swarm optimization.  

Credit Hours: 3

**CMP_SC 4830: Science and Engineering of the World Wide Web**  
(cross-leveled with CMP_SC 7830)  
This course will study the science and engineering of the World Wide Web. We will study the languages, protocols, services and tools that enable the web. Emphasis will be placed on basics and technologies.  

Credit Hours: 3

**CMP_SC 4850: Computer Networks I**  
(cross-leveled with CMP_SC 7850)  
Introduction to concepts and terminology of data communications and computer networking. Basic protocols and standards, applications of networking, routing algorithms, congestion avoidance, long-haul and local networks.  

Credit Hours: 3  
Prerequisites: C- or higher in CMP_SC 2270 or ECE 1210 and C- or higher in MATH 2320

**CMP_SC 4860: Network Security**  
(cross-leveled with CMP_SC 7860)  
Principles and practice of cryptography, network security, and computer system security. It includes symmetric and asymmetric cryptography, authentication, security applications such as secure email, IP security, Web security, and system security issues such as intruders, viruses, worms, Trojan horses, and firewalls. Graded on A-F basis only.  

Credit Hours: 3  
Prerequisites: C- or higher in CMP_SC 4850

**CMP_SC 4870: Wireless and Mobile Networks**  
(cross-leveled with CMP_SC 7870)  
Concepts and techniques in wireless and mobile networks: cellular concepts, wireless physical layer, wireless MAC protocol, mobility management, power management, wireless network security, wireless telecommunication system, wireless LAN, wireless ad hoc networking, wireless personal area network. Graded on A-F basis only.  

Credit Hours: 3  
Prerequisites: C- or higher in CMP_SC 4850

**CMP_SC 4970: Senior Capstone Design I**  
Communication skills, and prototyping. Covers professional ethics, intellectual property/patenting, knowledge of engineering literature, safety, economic and environmental impact of technology. Essays, oral and written reports.  

Credit Hours: 3  
Prerequisites: C- or higher in CMP_SC 4320 and senior standing

**CMP_SC 4970W: Senior Capstone Design I - Writing Intensive**  
Communication skills, and prototyping. Covers professional ethics, intellectual property/patenting, knowledge of engineering literature, safety, economic and environmental impact of technology. Essays, oral and written reports.  

Credit Hours: 3  
Prerequisites: C- or higher in CMP_SC 4320 and senior standing

**CMP_SC 4980: Senior Capstone Design II**  
Course entails completion of CMP_SC 4970 design project. Design prototyping, testing, evaluation, presentation, and preparation of documentation.  

Credit Hours: 3  
Prerequisites: C- or higher in CMP_SC 4970
CMP_SC 4990: Undergraduate Research in Computer Science
Independent investigation or project in Computer Science. May be repeated to 6 hours.

Credit Hour: 0-6
Prerequisites: senior standing in Computer Science

CMP_SC 4995: Undergraduate Research in Computer Science - Honors
Independent investigation to be presented as an undergraduate honors thesis.

Credit Hour: 1-6
Prerequisites: honors student in Computer Science

CMP_SC 7001: Topics in Computer Science
Topic and credit may vary from semester to semester. May be repeated upon consent of department.

Credit Hours: 1-99

CMP_SC 7010: Computational Methods in Bioinformatics
(same as INFOINST 7010) Introduces the fundamental concepts and basic computational techniques for mainstream bioinformatics problems. Emphasis will be placed on the computational aspect of bioinformatics, including formulation of a biological problem in a computable problem, design of scoring functions and algorithms, confidence assessment of prediction results and software development.

Credit Hours: 3
Prerequisites: CMP_SC 4050 and STAT 4710

CMP_SC 7050: Design and Analysis of Algorithms I
(cross-leveled with CMP_SC 4050). This course reviews and extends earlier work with linked structures, sorting and searching algorithms, and recursion. Graph algorithms, string matching, combinatorial search, geometrical algorithms and related topics are also studied. Cannot be counted toward CS MS/PHD.

Credit Hours: 3
Prerequisites: CMP_SC 3050 and MATH 2320

CMP_SC 7060: String Algorithms
(cross-leveled with CMP_SC 4060). This course provides an introduction to algorithms that efficiently compute patterns in strings. Topics covered include basic properties of strings, data structures for processing strings, string decomposition, exact and approximate string matching algorithms.

Credit Hours: 3
Prerequisites: CMP_SC 4050

CMP_SC 7070: Numerical Methods for Science and Engineering
(cross-leveled with CMP_SC 4070). Introduces basic numerical methods widely used by computer scientists/engineers. Students will use the MATLAB platform to computationally solve problems, such as finding roots of nonlinear equations, solving systems of equations, fitting curves, solving ODEs, finding eigenvalues, etc. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: CMP_SC 2050 or instructor's consent

CMP_SC 7080: Parallel Programming for High Performance Computing
(cross-leveled with CMP_SC 4080). This course will provide in-depth treatment of the evolution high performance computing architectures and parallel programming techniques for those architectures. We will cover topics such as: multi-process and multi-threaded programming; multi-node system architectures (clusters, grids, and clouds) and distributed programming; and general purpose GPU programming. To reinforce lecture topics, programming projects will be completed using multi-process and multi-threaded techniques for modern multicore, multiprocessor workstations; parallel and distributed programming techniques for modern multi-node systems; and general purpose GPU programming. Parallel algorithms will be investigated, selected, and then developed for various scientific data processing problems. Programming projects will be completed using C and C++ APIs and language extensions, e.g. threads (pthreads, Boost/C++), TBB, CILK, OpenMP, OpenMPI, CUDA and OpenCL.

Credit Hours: 3
Prerequisites: CMP_SC 3280 or ECE 3210 and CMP_SC 3050 or ECE 3220

CMP_SC 7087: Seminar in Computer Science
Reviews of recent investigations, projects of major importance.

Credit Hour: 1

CMP_SC 7270: Computer Architecture I
(cross-leveled with CMP_SC 4270). Architectural features of high-performance computer systems including hierarchical and virtual memory, pipelining, vector processing and an introduction to multiple-processor systems.

Credit Hours: 3
Prerequisites: CMP_SC 2270 and CMP_SC 2050

CMP_SC 7280: Network Systems Architecture
(same as ECE 7280; Cross-leveled with CMP_SC 4280). The course covers network systems (interconnects and switch fabrics, network considerations) and relevant networking applications at the network, transport and application layer.

Credit Hours: 4
Prerequisites: CMP_SC 2050 or ECE 3200 and CMP_SC 3280 or ECE 3210

CMP_SC 7320: Software Engineering I
(cross-leveled with CMP_SC 4320). Overview of software life cycle, including topics in systems analysis and requirements specification, design, implementation testing and maintenance. Uses modeling techniques, project management, peer review, quality assurance, and system acquisition. May not be counted toward CS MS/PHD.

Credit Hours: 3
Prerequisites: CMP_SC 3380

CMP_SC 7330: Object Oriented Design I
(cross-leveled with CMP_SC 4330). Building on a prior knowledge of program design and data structures, this course covers object-oriented design, including classes, objects, inheritance, polymorphism, and
information hiding. Students will apply techniques using a modern object-oriented implementation language.

**Credit Hours:** 3  
**Prerequisites:** CMP_SC 3330

---

**CMP_SC 7350: Big Data Analytics**  
(cross-leveled with CMP_SC 4350). Big Data Analytics represents a new era of computing, where data in any format maybe processed and exploited to extract insights for industries and organizations to make informed decisions, whether that data is in-place, in-motion or at-rest, in large volume, structured or unstructured. More and more companies are embracing open source Big Data technologies, such as Hadoop and extending it into an enterprise ready Big Data Platform. This course will cover advanced analytics technologies and techniques that enable industries to extract insights from data with sophistication, speed and accuracy. You will learn practical industry best practices to bridge the gap between classroom learning and real world; and have access to cloud services for labs/projects.

**Credit Hours:** 3  
**Prerequisites:** CMP_SC 3330 and CMP_SC 3380

---

**CMP_SC 7380: Database Management Systems I**  
(cross-leveled with CMP_SC 4380). Fundamental concepts of current database systems with emphasis on the relational model. Topics include entity-relationship model, relational algebra, query by example, indexing, query optimization, normal forms, crash recovery, web-based database access, and case studies. Project work involves a modern DBMS, such as Oracle, using SQL.

**Credit Hours:** 3  
**Prerequisites:** CMP_SC 2050

---

**CMP_SC 7410: Theory of Computation I**  
(cross-leveled with CMP_SC 4410). An introductory study of computation and formal languages by means of automata and related grammars. The theory and applications of finite automata, regular expressions, context free grammars, pushdown automata and Turing machines are examined. May not be counted toward CS MS/PHD.

**Credit Hours:** 3  
**Prerequisites:** MATH 2320

---

**CMP_SC 7430: Compilers I**  
(cross-leveled with CMP_SC 4430). Introduction to the translation of programming languages by means of interpreters and compilers. Lexical analysis, syntax specification, parsing, error-recovery, syntax-directed translation, semantic analysis, symbol tables for blockstructured languages, and run-time storage organization. May not be counted toward CS MS/PHD.

**Credit Hours:** 3  
**Prerequisites:** MATH 2320 and CMP_SC 3280 and CMP_SC 4450

---

**CMP_SC 7440: Malware Analysis and Defense**  
(cross-leveled with CMP_SC 4440). Malicious software or "malware" is a security threat. This course teaches students to understand the nature and types of viruses and how they are threats; teaches techniques used to prevent, detect, repair and defend against viruses and worms; teaches program binary examination tools to detect malicious code; and ethical issues surround computer security violations.

**Credit Hours:** 3  
**Prerequisites:** CMP_SC 3280, ECE 3210 or equivalent

---

**CMP_SC 7450: Principles of Programming Languages**  
(cross-leveled with CMP_SC 4450). An introduction to the structure, design and implementation of programming languages. Topics include syntax, semantics, data types, control structures, parameter passing, run-time structures, and functional and logic programming. May not be counted toward CS MS/PHD.

**Credit Hours:** 3  
**Prerequisites:** CMP_SC 2050

---

**CMP_SC 7460: Introduction to Cryptography**  
(cross-leveled with CMP_SC 4460). Cryptography is an important technique used to achieve security goals in an untrusted and (possibly) adversarial environment. The goals of this course are: (1) to provide students with a solid back-ground with basic cryptographic techniques and their applications, (2) impart knowledge of standard cryptographic algorithms and (3) foster understanding of the correct use of cryptographic techniques.

**Credit Hours:** 3  
**Prerequisites:** CMP_SC 3050 and MATH 2320

---

**CMP_SC 7470: Operating Systems I**  
(cross-leveled with CMP_SC 4520). Basic concepts, theories and implementation of modern operating systems including process and memory management, synchronization, CPU and disk scheduling, file systems, I/O systems, security and protection, and distributed operating systems. Cannot be counted toward CS MS/PHD.

**Credit Hours:** 3  
**Prerequisites:** CMP_SC 3050 and MATH 1700

---

**CMP_SC 7530: Cloud Computing**  
(cross-leveled with CMP_SC 4530). This course covers principles that integrate computing theories and information technologies with the design, programming and application of distributed systems. The course topics will familiarize students with distributed system models and enabling technologies; virtual machines and virtualization of clusters, networks and data centers; cloud platform architecture with security over virtualized data centers; service-oriented architectures for distributed computing; and cloud programming and software environments. Additionally, students will learn how to conduct some parallel and distributed programming and performance evaluation experiments on applications within available cloud platforms. Finally we will survey research literature and latest technology trends that are shaping the future of high performance, distributed and cloud computing.

**Credit Hours:** 3  
**Prerequisites:** CMP_SC 3330 or instructor's consent

---

**CMP_SC 7610: Computer Graphics I**  
(cross-leveled with CMP_SC 4610). Basic concepts and techniques of interactive computer graphics including hardware, software, data structures, mathematical manipulation of graphical objects, the user interface, and fundamental implementation algorithms.
Credit Hours: 3  
Prerequisites: CMP_SC 3050 and either MATH 1500 or MATH 1300 and MATH 1400

CMP_SC 7620: Physically Based Modeling and Animation  
(cross-leveled with CMP_SC 4620). Introduces fundamental algorithms and techniques including interpolation, quaternions, rigid body dynamics, kinematics, particle systems, free form and dynamic deformations, spring and damper systems and computational natural phenomena simulation.

Credit Hours: 3  
Prerequisites: CMP_SC 4610 or CMP_SC 7610  
Recommended: Good knowledge of C or C++ programming, no physics background necessary

CMP_SC 7650: Digital Image Processing  
(same as ECE 7655; cross-leveled with CMP_SC 4650, ECE 4655). Fundamentals of digital image processing hardware and software including digital image acquisition, image display, image enhancement, image transforms and segmentation.

Credit Hours: 3  
Prerequisites: CMP_SC 2050, STAT 7710 or instructor's consent

CMP_SC 7670: Digital Image Compression  
(same as ECE 7675; cross-leveled with CMP_SC 4670, ECE 4675). Covers digital image formation, information theory concepts, and fundamental lossless and lossy image compression techniques including bit plane encoding, predictive coding, transform coding, block truncation coding, vector quantization, subband coding and hierarchical coding.

Credit Hours: 3  
Prerequisites: CMP_SC 2050

CMP_SC 7720: Introduction to Machine Learning and Pattern Recognition  
(same as ECE 7720; cross-level CMP 4720, ECE 4720). This course provides foundation knowledge and methods in machine learning and pattern recognition that address the problem of programming computers to optimize performance by learning from example data or expert knowledge. Graded on A-F basis only.

Credit Hours: 3  
Prerequisites: CMP_SC 2050 and STAT 4710 or instructor's consent

CMP_SC 7730: Building Intelligent Robots  
(same as ECE 7340; cross-leveled with CMP_SC 4730, ECE 4730). Covers the design and development of intelligent machines, emphasizing topics related to sensor-based control of mobile robots. Includes mechanics and motor control, sensor characterization, reactive behaviors and control architectures. Prerequisites: programming experience in one of the following programming languages: Basic, C, C++, or Java.

Credit Hours: 4

CMP_SC 7740: Interdisciplinary Introduction to Natural Language Processing  
(same as LINGST 7740; cross-leveled with CMP_SC 4740; LINGST 4740). The goal of this course is to enable students to develop substantive NLP applications. Focus on current structural and statistical techniques for the parsing and interpretation of text.

Credit Hours: 3

CMP_SC 7750: Artificial Intelligence I  
(cross-leveled with CMP_SC 4750). Introduction to the concepts and theories of intelligent systems. Various approaches to creating intelligent systems, including symbolic and computational approaches, insight into the philosophical debates important to understanding AI.

Credit Hours: 3  
Prerequisites: CMP_SC 3050

CMP_SC 7770: Introduction to Computational Intelligence  
(same as ECE 7870; cross-leveled with CMP_SC 4770, ECE 4870). Introduction to the concepts, models and algorithms for the development of intelligent systems from the standpoint of the computational paradigms of neural networks, fuzzy set theory and fuzzy logic, evolutionary computation and swarm optimization.

Credit Hours: 3

CMP_SC 7830: Science and Engineering of the World Wide Web  
(cross-leveled with CMP_SC 4830). This course will study the science and engineering of the World Wide Web. We will study the languages, protocols, services and tools that enable the web. Emphasis will be placed on basics and technologies.

Credit Hours: 3  
Prerequisites: CMP_SC 3330 and CMP_SC 2830

CMP_SC 7850: Computer Networks I  
(cross-leveled with CMP_SC 4850). Introduction to concepts and terminology of data communications and computer networking. Basic protocols and standards, applications of networking, routing algorithms, congestion avoidance, long-haul and local networks.

Credit Hours: 3  
Prerequisites: CMP_SC 7850 or CMP_SC 4850

CMP_SC 7860: Network Security  
Principles and practice of cryptography, network security, and computer system security. It includes symmetric and asymmetric cryptography, authentication, security applications such as secure email, IP security, Web security, and system security issues such as intruders, viruses, worms, Trojan horses, and firewalls.

Credit Hours: 3  
Prerequisites: CMP_SC 7850 or CMP_SC 4850

CMP_SC 7870: Wireless and Mobile Networks  
(cross-leveled with CMP_SC 4870). Concepts and techniques in wireless and mobile networks: cellular concepts, wireless physical layer, wireless MAC protocol, mobility management, power management, wireless network security, wireless telecommunication system, wireless LAN, wireless ad hoc networking, wireless personal area network. Prerequisites: CMP_SC 7850 or CMP_SC 4850

Credit Hours: 3
CMP_SC 8001: Advanced Topics in Computer Science  
Topic may vary from semester to semester. May be repeated upon consent of department.  
Credit Hours: 3  
Prerequisites: varies by topic

CMP_SC 8050: Design and Analysis of Algorithms II  
Techniques for the design and analysis of correct, efficient algorithms. Topics include graph, geometric, and algebraic/numeric algorithms, NP-completeness, and parallel algorithms.  
Credit Hours: 3  
Prerequisites: CMP_SC 4050

CMP_SC 8060: Survey of Advanced Algorithm Techniques  
This class provides a survey of important algorithmic techniques, some of which are emerging right now, and show that they are much easier to understand than they first appear. The class will create a renewed appreciation for what makes Computer Science such a fun/interesting discipline.  
Credit Hours: 3  
Prerequisites: CMP_SC 4050

CMP_SC 8070: Computational Optimization Methods  
The course covers typical computational optimization methods widely used in many computing domains, such as data mining, machine learning and bioinformatics. The theoretical foundation of each optimization method is rigorously studied, followed by typical real-world applications. An active, problem-solving based teaching/learning format will be applied to help students develop various skills including research, teaching, reading, communication, algorithms, programming, teamwork, collaboration, leadership, planning, project management, and presentation.  
Credit Hours: 3  
Prerequisites: CMP_SC 7050 or instructor's approval

CMP_SC 8085: Problems in Computer Science  
Independent study project work with a professor in computer science.  
Credit Hour: 1-4  
Prerequisites: instructor consent

CMP_SC 8090: Computational Geometry  
Studies fundamental geometric problems within the framework of analysis of algorithms: convex hull algorithms in the plane and in general dimension, Voronoi diagram construction and applications to the solution of proximity problems, intersection problems, and geometric searching problems.  
Credit Hours: 3  
Prerequisites: CMP_SC 4050 and MATH 2300, or instructor's consent

CMP_SC 8110: Problem Solving in Bioinformatics  
(same as INFOINST 8010). The course covers a variety of bioinformatics research topics such as biological sequence comparison, protein structure prediction, protein and gene function prediction, and inference and modeling of biological networks. Graded on A-F basis only.  
Credit Hours: 3

CMP_SC 8120: Structural Bioinformatics of Proteins, Complexes, System  
(same as INFOINST 8210). Main course objective is to provide an introduction to the state-of-the-art methods in structural bioinformatics. The course will cover the methods that are applied to a wide range of biomolecular objects from protein domains and small proteins to large biological systems. Graded on A-F basis only.  
Credit Hours: 3  
Prerequisites: INFOINST 7010 or CMP_SC 7010

CMP_SC 8130: Computational Genomics  
(same as INFOINST 8310). This course introduces computational concepts and methods of genomics to students. The course covers genome structure, database, sequencing, assembly, annotation, gene and RNA finding, motif and repeats identification, single nucleotide polymorphism, and epigenomics. Graded on A-F basis only.  
Credit Hours: 3  
Prerequisites: INFOINST 7010 or CMP_SC 7010

CMP_SC 8150: Integrative Methods in Bioinformatics  
(same as INFOINST 8150), Introduces the most popular experimental methods from the point of view of the information sources that can be used. Students will use data obtained directly from biological experiments and learn how to suggest new experiments to improve results. Graded on A-F basis only.  
Credit Hours: 3  
Prerequisites: INFOINST 7010 or CMP_SC 7010

CMP_SC 8160: Content Management in Biomedical Informatics  
(same as INFOINST 8860). This course introduces theory and techniques for content extraction, indexing, and retrieval of biomedical media databases. Topics include biomedical media databases, feature extraction methods, advanced database indexing structures, query methods, and result visualization. Graded on A-F basis only.  
Credit Hours: 3  
Prerequisites: CMP_SC 7380, INFOINST 7010

CMP_SC 8170: Computational Modeling of Molecular Structures  
This course uses a problem solving paradigm to investigate common principles, data structures, algorithms, challenges, and solutions in computationally modeling (constructing) 3D structures of proteins, RNAs, chromosomes, and genomes.  
Credit Hours: 3  
Prerequisites: CMP_SC 7010

CMP_SC 8180: Machine Learning Methods for Biomedical Informatics  
(same as INFOINST 8880). Teaches statistical machine learning methods and applications in biomedical informatics. Covers theories of advanced statistical machine learning methods and how to develop machine learning methods to solve biomedical problems. Graded on A-F basis only.  
Credit Hours: 3
CMP_SC 7050 and INFOINST 7010 or CMP_SC 7010 or CMP_SC 7005

**CMP_SC 8190: Computational Systems Biology**

(same as INFOINST 8390). This course covers current theories and methods in the modeling and analysis of high-throughput experiments such as microarrays, proteomics, and metabolomics. Topics include the inference of causal relations from experimental data and reverse engineering of cellular systems. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: CMP_SC 7050 and INFOINST 7010 or CMP_SC 7010 or CMP_SC 7005

**CMP_SC 8270: Computer Architecture II**

Study of array processors, multiprocessors, multicomputers, and networked computing systems. Topics include architectures, interconnection networks, communication mechanisms, distributed memories and security. Introduction to parallel algorithm design.

Credit Hours: 3
Prerequisites: CMP_SC 4210 or ECE 4270

**CMP_SC 8320: Software Engineering II**

Further discussion of software development methodology.

Credit Hours: 3
Prerequisites: CMP_SC 4320

**CMP_SC 8330: Object Oriented Design II**

Software system design using classes and their properties of abstraction, inheritance, dynamic binding, and polymorphism. Focus on object-oriented design of systems such as windows, graphics systems, and operating system.

Credit Hours: 3
Prerequisites: CMP_SC 4330

**CMP_SC 8370: Data Mining and Knowledge Discovery**

Course topics include an introduction to fundamental concepts, data mining techniques from machine learning and pattern recognition areas, association rules, web mining, spatial mining, temporal mining, multimedia/multimodal database mining, and database mining, and geospatial information mining.

Credit Hours: 3
Prerequisites: CMP_SC 7380

**CMP_SC 8380: Database Management Systems II**

Further study in the theory, design, organization and implementation of databases and database management systems. Topics include: high-dimensional database indexing, content-based retrieval from image and video databases, object-relational databases, object-oriented databases, and data mining.

Credit Hours: 3
Prerequisites: CMP_SC 7380

**CMP_SC 8390: Information Indexing and Retrieval**

Theory and techniques for the modeling, indexing, and retrieval of text-based and multimedia databases. Topics include introduction to different information retrieval models, retrieval evaluation, query languages, query operations, and indexing/searching methods.

Credit Hours: 3
Prerequisites: CMP_SC 2050 and CMP_SC 2110

**CMP_SC 8410: Theory of Computation II**

An advanced study of computational and formal languages by means of automata and related grammars. Turing machines, decidability, computability, computational complexity, language translation, and recent trends in automata theory.

Credit Hours: 3
Prerequisites: CMP_SC 7410

**CMP_SC 8430: Compilers II**

Further study of the compilation process. Compiler generation tools, parsing methods, code generation, data-flow analysis, code optimization, error handling, discussion of programming language features and their relationship to the compilation process.

Credit Hours: 3
Prerequisites: CMP_SC 7430

**CMP_SC 8440: Information Security: A Language-Based Approach**

This course focuses on language-based techniques for information flow security. Students will gain a solid background in information security, be encouraged to do further research and be exposed to important/promising trends in state-of-the-art computer security. Prerequisites: CMP_SC 4450 or CMP_SC 7450

Credit Hours: 3
Prerequisites: CMP_SC 7430

Designing scalable exhaustive methods to ensure reliability of computer systems is an important challenge in computer science as even simple errors can have serious socio-economic-political consequences. This challenge is the focus of the field of automated verification techniques which draws techniques from complexity theory, automata theory, programming languages and logic, and provides tools to ensure that the computer systems are reliable. Computer-assisted techniques for verifying hardware implementations are regularly employed in the industry, and are also being increasingly adopted in the software industry as the costs of software bugs and security flaws escalate. The goals of this course are: (1) to provide students with a solid back-ground in the fundamental techniques used in this field, (2) to encourage further research in software and security verification, and (3) to introduce students to important upcoming trends in verifying security protocols. The students will get theoretical background as well as learn to use some standard tools in this field. Students will also explore topics of particular interest to them through the performance of a significant semester project.

Credit Hours: 3
Prerequisites: CMP_SC 4450 or CMP_SC 7450 or CMP_SC 4430 or CMP_SC 7430 or instructor's consent. A reasonable level of mathematical maturity and significant programming experience is expected.

**CMP_SC 8470: Theory of Computation IV**

Advanced study of modern logic, automata theory, and structural complexity. Prerequisites: CMP_SC 7470

Credit Hours: 3
Prerequisites: CMP_SC 7470
CMP_SC 8520: Operating Systems II
Discusses concurrent processes, distributed/network operating systems; models of processor scheduling, memory management and resource allocation, performance measurement, evaluation and simulation methodology; queuing models; security and reliability.
Credit Hours: 3
Prerequisites: CMP_SC 4520

CMP_SC 8610: Computer Graphics II
Further study of computer graphics, focused on 3-D graphics, transformations, geometric and surface modeling, color models, visible surface determination, lighting and shading, standard graphics software (Phigs/OpenGL). Selected current topics in graphics such as visualization, animation and realism.
Credit Hours: 3
Prerequisites: CMP_SC 7610

CMP_SC 8620: Physically Based Modeling and Animation II
This course introduces students to physical based modeling and animation methodology for computer graphics and related fields such as computer vision, visualization, biomedical imaging and virtual reality. We will explore current research issues and will cover associated computational methods for simulating various visually interesting physical phenomena. This course should be appropriate for graduate students in all areas as well as advanced undergraduate students.
Credit Hours: 3
Prerequisites: CMP_SC 4610 or CMP_SC 7610 or instructor's consent

CMP_SC 8630: Data Visualization
Data visualization broadly covers transforming multidimensional and timevarying datasets to dynamic visual representations and encodings that facilitate exploratory data mining, knowledge discovery, improved understanding, summarization, structural modeling, collaboration and decision making using interactive methods.
Credit Hours: 3
Prerequisites: CMP_SC 4610 or CMP_SC 7610 or instructor's consent

CMP_SC 8650: Advanced Image Processing
(same as ECE 8855). This course covers advanced topics in image understanding including multispectral multimodal imaging, motion estimation, texture analysis, geometric level set methods.
Credit Hours: 3
Prerequisites: CMP_SC 4650 or CMP_SC 7650 or instructor's consent

CMP_SC 8660: Multimedia Security
This course offers a comprehensive coverage of the theoretical foundation of multimedia security technologies, including encryption, authentication, digital watermarking, key management, copy control, fingerprinting/tracing, digital media forensics, and biometrics, provides an in-depth study of the state-of-the-art digital rights management systems and the underlying security technologies. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: CMP_SC 4670 or CMP_SC 4650; instructor's consent

CMP_SC 8670: Multimedia Communication
Topics covered may include multimedia networking and network technologies as pertaining to multimedia communications; multimedia applications such as video conferencing, video-on-demand broadcasting, and web-based distance learning; wireless video and future generation wireless video communication systems.
Credit Hours: 3
Prerequisites: CMP_SC 4670 and CMP_SC 4850 or instructor's consent

CMP_SC 8680: 3-D Computer Vision
The main focus is on developing a unified framework for studying the geometry of multiple images of a 3-D scene and reconstructing geometric models from those images. The course also covers relevant aspects of image formation, basic image processing, and feature extraction.
Credit Hours: 3
Prerequisites: CMP_SC 4650 or CMP_SC 7650
Recommended: Good knowledge of C or C++ programming, linear algebra and data structures

CMP_SC 8690: Computer Vision
(same as ECE 8690). This course introduces students to the fundamental problems of computer vision, the main concepts and the techniques used to solve such problems. It will enable graduate and advanced undergraduate students to solve complex problems and make sense of the literature in the area. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: ECE 4655 or ECE 7655 or CMP_SC 4650 or CMP_SC 7650 or instructor's consent

CMP_SC 8725: Supervised Learning
(same as ECE 8725). This course introduces the theories and applications of advanced supervised machine learning methods. It covers hidden Markov model and expectation maximization (EM) algorithms, probabilistic graphical models, non-linear support vector machine and kernel methods. The course emphasizes both the theoretical underpinnings of the advanced supervised learning methods and their applications in the real world. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: CMP_SC 4720 or CMP_SC 7720 or ECE 4720 or ECE 7720 or instructor's consent

CMP_SC 8735: Unsupervised Learning
(same as ECE 8735). Theoretical and practical aspects of unsupervised learning including topics of expectation maximization (EM), mixture decomposition, clustering algorithms, cluster visualization, and cluster validity. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: CMP_SC 4720 or CMP_SC 7720 or ECE 4720 or ECE 7720 or instructor's consent

CMP_SC 8740: Advanced Natural Language Processing
What do Google, the New York Times, Facebook, Cerner, and other big companies know that you don't? Natural language processing.
This course considers open and compelling problems in contemporary research in the processing and analysis of text, focusing on both the underlying theory and its practical application. The goal is to help students understand the nature of these problems, the current approaches to them, the strengths and weaknesses of those approaches, and other possible ways forward.

**Credit Hours:** 3  
**Prerequisites:** CMP_SC 4740 or CMP_SC 7740  
**Recommended:** CMP_SC 2050; students should be facile in programming at least one high-level language. Good knowledge of univariate, parametric statistics

**CMP_SC 8750: Artificial Intelligence II**  
Further discussion of theories and techniques of artificial intelligence. Investigating state-of-the-art systems with capabilities to perceive, reason, learn and react intelligently to their environment.  
**Credit Hours:** 3  
**Prerequisites:** CMP_SC 4750 or CMP_SC 7750 or instructor's consent

**CMP_SC 8760: Pattern Recognition**  
(same as ECE 8820). Decision functions, crisp and fuzzy clustering methods, statistical pattern recognition methods, Bayesian classifiers, error probabilities, estimation of density functions, perceptrons, least-mean-square algorithms, feature selection, dimensionality reduction and syntactic pattern recognition.  
**Credit Hours:** 3  
**Prerequisites:** CMP_SC 4050, STAT 4710

**CMP_SC 8770: Neural Networks**  
(same as ECE 8890). The course will consider computing systems based on neural networks and learning models along with implementations and applications of such systems.  
**Credit Hours:** 3  
**Prerequisites:** CMP_SC 4870 or CMP_SC 7780 or instructor's consent

**CMP_SC 8780: Advanced Topics in Computational Intelligence**  
(same as ECE 8875). This course is a continuation of ECE 7870/ CMP_SC 7770 Introduction to Computational Intelligence in the concepts, models, and algorithms for the development of intelligent systems from the standpoint of the computational paradigms of neural networks, fuzzy set theory and fuzzy logic, evolutionary computation, and swarm intelligence. Advanced topics in these areas will be discussed with a focus on applications of these technologies.  
**Credit Hours:** 3  
**Prerequisites:** ECE 4870 or ECE 7870 or CMP_SC 4770 or CMP_SC 7770

**CMP_SC 8790: Filtering, Tracking and Data Fusion**  
This course will cover theory and applications of rigorous and efficient techniques for determining the state of an observed system from a series of imperfect observations or measurements. Specific topics to be covered include semidefinite matrix theory, the Kalman filter, the Unscented Transform, Covariance Intersection and related techniques. Applications of these techniques include head and hand tracking in virtual reality systems, robotics, and distributed information fusion.  
**Credit Hours:** 3  
**Prerequisites:** CMP_SC 2050, MATH 2300 or Linear Algebra or Matrix Theory

**CMP_SC 8850: Computer Networks II**  
In-depth analysis and evaluation of computer networking architectures, protocols and algorithms, network security, distributed database and computational networks, routing and congestion control, domains and internetworking.  
**Credit Hours:** 3  
**Prerequisites:** CMP_SC 7850

**CMP_SC 8860: Parallel and Distributed Processing**  
This course covers basic issues of parallel and distributed processing, including parallel and distributed architectures and models, parallel programming, and parallel algorithms and applications.  
**Credit Hours:** 3  
**Prerequisites:** CMP_SC 4050

**CMP_SC 8870: Modeling and Management of Uncertainty**  
(same as ECE 8870). Theoretical and practical issues in the modeling and management of uncertainty. Topics include probabilistic uncertainty, belief theory and fuzzy set theory. Applications to computer vision, pattern recognition and expert systems. Graded on A-F basis only.  
**Credit Hours:** 3  
**Prerequisites:** ECE 4870 or ECE 7870 or CMP_SC 4770 or CMP_SC 7770 or instructor's consent

**CMP_SC 8880: Wireless Embedded Systems**  
This course introduces wireless embedded systems and focuses on the nature of computation and communication needed to design large-scale, distributed, and wirelessly connected embedded systems. We will study emerging technology and standards by reading papers and doing projects on real systems.  
**Credit Hours:** 3  
**Prerequisites:** CMP_SC 4050 and CMP_SC 4850 or instructor's consent

**CMP_SC 8890: Research Masters Project in Computer Science**  
Investigation and research of a topic, not leading to a thesis. Graded on S/U basis only.  
**Credit Hour:** 1-99  
**Prerequisites:** departmental consent

**CMP_SC 8900: Research-Masters Thesis Computer Science**  
Graded on S/U basis only.  
**Credit Hour:** 1-99  
**Prerequisites:** advisor's consent

**CMP_SC 9001: Advanced Topics in Computer Science - PhD**  
New and current technical developments in computer science. For PhD students.  
**Credit Hour:** 1-4

**CMP_SC 9990: Research-Doctoral Dissertation Computer Science**  
Graded on S/U basis only.
Data Science Courses

**DATA_SCI 7600: Introduction to Data Science and Analytics**
An introductory course in data science and analytics. The objective of the course is to give students a broad overview of the various aspects of data analytics such as accessing, cleansing, modeling, visualizing, and interpreting data. Students will perform hands-on learning of data analytic topics, using technologies such as Python, R, and open source analytic tools. Two Big Data cyberinfrastructure platforms will be introduced through case studies, allowing students to perform data analytical learning modules on modern cloud infrastructure and other relevant technologies. Graded on A-F basis only.

**Credit Hours:** 3
**Recommended:** Basic programming experience and Basic database experience

**DATA_SCI 7601: Introduction to Data Science**
This course is an introduction to the NGA Program of Study in Data Science (PSDS), the concentration areas, and the role of each concentration area in data science. Participants will learn how to receive, if desired, an accredited Graduate Certificate and/or a Master of Science degree in Data Science and Analytics from the University of Missouri. Participants will receive an introduction to software, tools, and resources to be utilized throughout the program. Participants will learn of systematic methodologies for data science projects and the data science pipeline through review of case studies. Graded on S/U basis only.

**Credit Hours:** 2
**Recommended:** Enrollment in NGA Training Program or instructor consent

**DATA_SCI 7610: Python Programming Boot Camp**
This course teaches students how to program in Python, including use of auxiliary libraries in various Python ecosystems. Students are introduced to the iPython notebooks from the SciPy ecosystem, as well Python's use across the spectrum of Data Science courses and topics. Many activities focus on data ingestion, cleaning, manipulation, and restructuring (e.g., ETL). Graded on A-F basis only.

**Credit Hours:** 1
**Recommended:** Enrollment in NGA Training Program or instructor consent

**DATA_SCI 7620: Database Basics and SQL Boot Camp**
This course covers a core concepts to heterogeneous data management, including relational databases, NoSQL databases, and other data storage systems. The focus is on making students quickly productive in the use of multiple types of database management systems available on the market for data science work. This includes traditional relational databases, NoSQL databases and graph databases. This course is a 1 credit hour / 5 day course. This course is delivered in an asynchronous online mode. The instructor virtually kicks off the course on day-one, then four additional days over a two week period are used for self-paced, online activities using the JupiterHub learning environment. Graded on A-F basis only.

**Credit Hours:** 1

**DATA_SCI 7630: Introductory Probability and Statistics for Data Analytics**
This course explores the use of inferential and predictive statistics for data modeling and analytics. Single--variate and multivariate statistical concepts are discussed, as well as intermediate exposure to statistical modeling. Students learn to evaluate model effectiveness and conduct results driven model selection. Statistical and modeling techniques focus on high dimensional data analytics. Topics related to dimensionality reduction are also covered, such as principal component analysis and factor analysis. Graded on A-F basis only.

**Credit Hours:** 2
**Recommended:** Enrollment in NGA Training Program or instructor consent

**DATA_SCI 7640: R Statistical Programming Boot Camp**
This course teaches students how to program in R, including use of auxiliary libraries in R focused on various statistical and visualization oriented techniques. Students are introduced to R's use across the spectrum of Data Science courses and topics. Many activities focus on the development of statistical tests, and the use of R for statistical exploration. This course teaches students how to program in R, including use of auxiliary libraries in R focused on various statistical and visualization oriented techniques. Students are introduced to R's use across the spectrum of Data Science courses and topics. Many activities focus on the development of statistical tests, and the use of R for statistical exploration. Graded on A-F basis only.

**Credit Hour:** 1
**Recommended:** Enrollment in NGA Training Program or instructor consent

**DATA_SCI 8610: Statistical and Mathematical Foundations for Data Analytics**
An intermediate statistics class designed to build the mathematical foundation for students dealing with Big Data phenomena. Topics include discussions of probability, data sampling, data summarization, sampling distributions, statistical inference, statistical pattern analysis, hypothesis testing, regression, and nonparametric inference over multidimensional data collections. Students will engage in Big Data projects using various publicly available data sets and leveraging modern Data Science tools, techniques, and cyberinfrastructure. Graded on A-F basis only.

**Credit Hours:** 2
**Recommended:** Basic understanding of mathematical principles of vectors and matrices, and Basic course in probability and statistics

**DATA_SCI 8612: Spatial and Geostatistical Analysis**
This course will provide a practical overview of key issues encountered when working with and analyzing spatial data as well as an overview of major spatial analysis approaches. Discussions and laboratory work will focus on implementation, analysis, and interpretive issues given constraining factors that commonly arise in practice. Graded on A-F basis only.

**Credit Hours:** 3
**Recommended:** Enrollment in NGA Training Program or instructor consent
DATA_SCI 8614: Data Analytics from Applied Machine Learning
This course leverages the foundations in statistics and modeling to teach
applied concepts in machine learning. Participants will learn various
classes of machine learning and modeling techniques, and gain an in-
depth understanding how to select appropriate techniques for various
data science tasks. Topics cover a spectrum from simple Bayesian
modeling to more advanced algorithms such as support vector machines,
decision trees/forests, and neural networks. Students learn to incorporate
machine learning workflows into data-intensive analytical processes.
Graded on A-F basis only.

Credit Hours: 3
Recommended: Enrollment in NGA Training Program or instructor
consent

DATA_SCI 8620: Database and Analytics
Covers the Fundamental concepts of current database systems and
query methods with emphasis on relational model and non-relational
techniques in Big Data environments. Topics include entity-relationship
model, relational algebra, indexing, query optimization, normal forms,
tuning, security, NoSQL, and data analytics skills in both relational and
non-relational environments. Project work involves modern relational
DBMS systems and NoSQL environments. Graded on A-F basis only.

Credit Hours: 3
Recommended: Basic understanding of mathematical principles of
vectors and matrices, and Basic course in probability and statistics

DATA_SCI 8630: Data Mining and Information Retrieval
The course introduces the main concepts and techniques of data
mining and information retrieval. It covers a variety of data mining
topics and methods to extract hidden and predictive patterns from
large data collections. Furthermore, theory and techniques for the
modeling, indexing, and retrieval of relational, nonrelational, text-based
and multimedia databases is covered. Topics include introduction to data
mining process, mining frequent patterns, and pattern analysis, as well
as different information retrieval models and evaluation, query languages
and operations, and indexing/searching methods. Graded on A-F basis
only.

Credit Hours: 3
Prerequisites: DATA_SCI 7600 and DATA_SCI 8620
Recommended: Basic understanding of mathematical principles of
vectors and matrices; Basic course in probability and statistics; Basic
course in databases and data analytics

DATA_SCI 8635: Cloud Computing for Data Analytics
This course introduces students to cluster and cloud computing big data
ecosystems. Topics include a survey of cloud computing platforms,
arichitectures, and use-cases. Students will examine scaling data science
techniques and algorithms using a variety of cluster and cloud paradigms,
such as those built atop Hadoop (Map-Reduce) concepts, and others.
Graded on A-F basis only.

Credit Hours: 3
Recommended: Enrollment in NGA Training Program or instructor
consent

DATA_SCI 8640: Big Data Security
This course provides an overview of state-of-the-art topics in Big Data
Security, looking at data collection (smartphones, sensors, the Web),
data storage and processing (scalable relational databases, Hadoop,
Spark, etc.), extracting structured data from unstructured data, systems
issues (exploiting multicore, security). Securing sensitive data, personal
data and behavioral data while ensuring a respect for privacy will be a
focus point in the course Graded on A-F only.

Credit Hours: 3
Prerequisites: DATA_SCI 7600 and DATA_SCI 8620

DATA_SCI 8650: Big Data Visualization
Covers the Fundamental concepts of current visualization concepts and
technologies. Unlike many data visualization courses, this one focuses
on principles of visualization design and the grammar of graphics. These
principles are then implemented in popular contemporary visualization
technologies. Students will develop an advanced knowledge of the
appropriate selection, modeling, and evaluation of data visualizations.
Graded on A-F basis only.

Credit Hours: 3
Prerequisites: DATA_SCI 7600 and DATA_SCI 8620
Recommended: Basic understanding of mathematical principles of
vectors and matrices; Basic course in probability and statistics; Basic
course in databases and data analytics

DATA_SCI 8654: Advanced Visualization and Communication I
Covers the Fundamental concepts of current visualization concepts and
 technologies, adding in Infographic and Interactive Visualization
Design. Unlike many data visualization courses, this one focuses on
principles of visualization design and the grammar of graphics as they
can be applied to combining art and technology to tell data stories. These
principles are then implemented in popular contemporary visualization
technologies. Students will develop an advanced knowledge of the
appropriate selection, modeling, and evaluation of data visualizations.
Graded on A-F basis only.

Credit Hours: 3
Recommended: Enrollment in NGA Training Program or instructor
consent

DATA_SCI 8656: Advanced Visualization and Communication II
Covers the Fundamental concepts of current visualization concepts and
 technologies, adding in Infographic and Interactive Visualization
Design. Unlike many data visualization courses, this one focuses on
principles of visualization design and the grammar of graphics as they
can be applied to combining art & technology to tell data stories. These
principles are then implemented in popular contemporary visualization
technologies. Students will develop an advanced knowledge of the
appropriate selection, modeling, and evaluation of data visualizations.
Graded on A-F basis only.

Credit Hours: 3
Recommended: Enrollment in NGA Training Program or instructor
consent

DATA_SCI 8660: Data and Information Ethics
Introduces the ethics related to Big Data in industry, business, academia,
and research settings. Students will learn the social, ethical, legal and
policy issues that underpin the big data phenomenon. Discussions and
case studies will help guard against the repetition of known mistakes and inadequate preparation. The course content will follow the guidelines to be developed by the Council for Big Data, Ethics, and Society. Graded on A-F basis only.

Credit Hour: 1
Prerequisites: DATA_SCI 7600 and DATA_SCI 8650

DATA_SCI 8680: Big Data Analysis Case Study
Using a case-study approach, students will engage in discussions on a variety of big data topics relevant to their emphasis area and the realm of Big Data. This course will help students generate ideas and prepare them for the Big Data Capstone. Course work will be performed in small teams, mentored by faculty and/or industry advisors. Teams will research, cultivate, curate, and leverage large data sets. Students will gain hands-on experience applying relevant data science and analytical technology and techniques to gain insight and information from these real-world data sets. Graded on A-F basis only.

Credit Hours: 5
Prerequisites: DATA_SCI 8630, DATA_SCI 8640, DATA_SCI 8650

DATA_SCI 8750: Parallel Computing for Data Science
This course will provide in-depth treatment of the evolution of high performance, parallel computing architectures and how these architectures and computational ecosystems support data science. We will cover topics such as: parallel algorithms for numerical processing, parallel data search, and other parallel computing algorithms which facilitate advanced analytics. To reinforce lecture topics, learning activities will be completed using parallel computing techniques for modern multicore and multi-node systems. Parallel algorithms will be investigated, selected, and then developed for various scientific data analytics problems. Programming projects will be completed using Python and R, leveraging various parallel and distributed computing infrastructure such as AWS Elastic Map Reduce and Google Big Query. Students will research emerging parallel and scalable architectures for data analytics. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: DATA_SCI 8610, DATA_SCI 8620

Dermatology Courses
DERM 6233: ABS Dermatology Research
ABS Dermatology Research
Credit Hours: 5

DERM 6235: ABS Dermatology Research and Review
ABS Dermatology Research and Review
Credit Hour: 5-10

DERM 6450: Dermatology I
The Dermatology rotation is designed to provide the medical student with a broad general base in clinical dermatology for the non-dermatologist. During the rotation the student should: Enhance the visual diagnostic skills and related reasoning used in dermatology; Become familiar with a select list of dermatologic conditions commonly seen and best treated by the non-dermatologist; Gain familiarity with certain dermatologic conditions which require a high index of suspicion by all physicians because of their danger to life or risks to public health; Become familiar with dermatologic treatment regimens for the non-dermatologist and guidelines for appropriate referral of cases; Learn appropriate use of both systemic and topical dermatologic medications; Learn basic punch, shave, and excisional biopsy techniques; Become proficient in skin surveillance, especially early detection of skin cancer. Students are evaluated using a standard evaluation. The student's knowledge of subject matter is evaluated in the following settings: informal discussion during clinics, ward rounds, inpatient consultation rounds and scheduled conferences.

Credit Hours: 5
Prerequisites: Internal Medicine Clerkship

DERM 6750: Dermatology I - Rural
The Dermatology rotation is designed to provide the medical student with a broad general base in clinical dermatology for the non-dermatologist. During the rotation the student should: Enhance the visual diagnostic skills and related reasoning used in dermatology. Become familiar with a select list of dermatologic conditions commonly seen and best treated by the non-dermatologist. Gain familiarity with certain dermatologic conditions which require a high index of suspicion by all physicians because of their danger to life or risks to public health. Become familiar with dermatologic treatment regimens for the non-dermatologist and guidelines for appropriate referral of cases. Learn appropriate use of both systemic and topical dermatologic medications. Learn basic punch, shave, and excisional biopsy techniques. Become proficient in skin surveillance, especially early detection of skin cancer.

Credit Hours: 5

DERM 6856: Dermatology II
This elective rotation is an expansion of the objective goals outlined for Dermatology I. The student is expected to expand the depth and breadth of his/her dermatology experiences and knowledge. Enhance the visual diagnostic skills and related reasoning used in dermatology. Become familiar with a select list of dermatologic conditions commonly seen and best treated by the non-dermatologist. Gain familiarity with certain dermatologic conditions which require a high index of suspicion by all physicians because of their danger to life or risks to public health. Become familiar with dermatologic treatment regimens for the non-dermatologist and guidelines for appropriate referral of cases. Learn appropriate use of both systemic and topical dermatologic medications. Learn basic punch, shave, and excisional biopsy techniques. Become proficient in skin surveillance, especially early detection of skin cancer. As Dermatology II is an extension of the Dermatology I curriculum, Dermatology II students are expected to master the above objectives. In addition, they are expected to expand their clinical skills related to the diagnosis and treatment of dermatologic diseases and they will have increased responsibilities for patient education. It is expected that they will further their surgical skills including biopsies, simple excisions, and basic cryotherapy. They will also become proficient in basic laboratory procedures including KOH and scabies prep.

Credit Hours: 5

DERM 6910: Clinical Dermatology Elective
The 2 week elective in Dermatology will allow students to participate in a wide breadth of general, pediatric, and surgical dermatology. Students will participate in clinics and in weekly didactic sessions. Students will
also complete the American Academy of Dermatology online student modules and the self-evaluation that is provided.

Credit Hours: 2
Prerequisites: Successful completion of the first two years of medical school. Must have completed at least 1 core clinical rotation

---

### Diagnostic Medical Ultrasound Courses

#### DMU 1000: Introduction to Diagnostic Medical Ultrasound

Introduction to the profession of diagnostic medical ultrasound. Imaging characteristics, educational requirements, professional trends. Observation opportunities. Graded on S/U basis only.

Credit Hour: 1
Prerequisites: Departmental consent required

#### DMU 4001: Topics in Diagnostic Medical Ultrasound

Organized study of selected topics in medical ultrasound. Topics may vary. May be repeated for credit. Graded on A-F basis only.

Credit Hour: 1-99
Prerequisites: restricted to Diagnostic Medical Ultrasound undergraduate students; program director's consent

#### DMU 4001W: Topics in Diagnostic Medical Ultrasound - Writing Intensive

Organized study of selected topics in medical ultrasound. Topics may vary. May be repeated for credit. Graded on A-F basis only.

Credit Hour: 1-99
Prerequisites: restricted to Diagnostic Medical Ultrasound undergraduate students; program director's consent

#### DMU 4085: Problems in Diagnostic Medical Ultrasound

Independent study leading to a special project or paper. May be repeated for credit. Graded on A-F basis only.

Credit Hour: 1-99
Prerequisites: restricted to Diagnostic Medical Ultrasound undergraduate students only; program director's consent

#### DMU 4085W: Problems in Diagnostic Medical Ultrasound - Writing Intensive

Independent study leading to a special project or paper. May be repeated for credit. Graded on A-F basis only.

Credit Hour: 1-99
Prerequisites: restricted to Diagnostic Medical Ultrasound undergraduate students only; program director's consent

#### DMU 4200: Principles of Diagnostic Medical Ultrasound

Principles and history of ultrasound, ultrasound equipment, sonographic techniques, aspects of patient care.

Credit Hours: 3
Prerequisites: departmental consent

#### DMU 4234: Clinical Pathophysiology

(cross-leveled with DMU 7234). Abnormal function of organ systems in the presence of disease; clinical manifestations and medical management.

Credit Hours: 3
Prerequisites: DMU 4200; instructor's consent

---

#### DMU 4234W: Clinical Pathophysiology - Writing Intensive

Abnormal function of organ systems in the presence of disease; clinical manifestations and medical management.

Credit Hours: 3

#### DMU 4309: Normal Ultrasound Clinical

(cross-leveled with DMU 7309). Integration of ultrasound instrumentation and clinical practice in a laboratory setting. Interaction between the sonographer, equipment and patient.

Credit Hours: 5
Prerequisites: DMU 4312 and instructor's consent

#### DMU 4311: Pathological Images of Ultrasound

(cross-leveled with DMU 7311). Disease presentation in ultrasound imaging. Practical aspects of ultrasound scanning techniques in pathology.

Credit Hours: 3
Prerequisites: DMU 4200, DMU 4312 and instructor's consent

#### DMU 4312: Sectional Anatomy

(same as RA_SCI 4110; cross-leveled with DMU 7312, RA_SCI 7110). A study of human anatomy using the sectional approach; anatomical structures will be related to modern medical imaging techniques. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: Restricted to Diagnostic Medical Ultrasound students

#### DMU 4313: Ultrasound Physics

(cross-leveled with DMU 7313). Principles of diagnostic ultrasound physics. Sound wave characteristics, tissue interaction, power intensity, and Doppler physics.

Credit Hours: 3
Prerequisites: MATH 1100, CHEM 1100 or CHEM 1320, PHYSCS 1210, and departmental consent

#### DMU 4314: Abdominal Ultrasound

(cross-leveled with DMU 7314). Differentiation between normal and pathological ultrasound studies of the abdomen. Differential diagnosis of pathological states.

Credit Hours: 5
Prerequisites: DMU 4312, DMU 4309 and DMU 4311; instructor's consent

#### DMU 4315: Ultrasound Instrumentation

(cross-leveled with DMU 7315). Integration of ultrasound physics and instrumentation components in a laboratory setting. Practice in modes of operation and safety.

Credit Hours: 3
Prerequisites: DMU 4200; instructor's consent
DMU 4318: Gynecology Ultrasound  
Credit Hours: 3  
Prerequisites: DMU 4312, DMU 4309 and DMU 4311

DMU 4320: Obstetrics Ultrasound  
(cross-leveled with DMU 7320). Study of normal and abnormal obstetrical ultrasound anatomy. Distinction between normal and pathological OB ultrasound studies with emphasis on differential diagnosis.  
Credit Hours: 3  
Prerequisites: DMU 4312, DMU 4309 and DMU 4311; instructor's consent

DMU 4322: Superficial Organs Ultrasound  
(cross-leveled with DMU 7322). Ultrasound evaluation and diagnosis of normal and abnormal superficial organs; thyroid gland, testes, breasts, soft tissues and musculoskeletal.  
Credit Hours: 3  
Prerequisites: DMU 4312, DMU 4309 and DMU 4311; instructor's consent

DMU 4325: Ultrasound Clinical Pharmacology and Contrast Agents  
(cross-leveled with DMU 7325). Study of the biophysical, biochemical and complete action of ultrasound contrast agents and other drugs used in Diagnostic Medical Ultrasound and their pharmacodynamics.  
Credit Hours: 3  
Prerequisites: Restricted to Diagnostic Medical Ultrasound

DMU 4326: Vascular Ultrasound Physics, Instrumentation and Hemodynamics  
(cross-leveled with DMU 7326). Study of vascular principles and fundamentals including physics and instrumentation. Emphasis on ultrasound wave characteristics, Doppler principles, tissue interaction and hemodynamics.  
Credit Hours: 3  
Prerequisites: DMU 4313 and DMU 4315; instructor's consent

DMU 4330: Vascular Ultrasound Lab  
Credit Hours: 3  
Prerequisites: DMU 4312, and DMU 4326; instructor's consent

DMU 4332: Vascular Ultrasound  
(cross-leveled with DMU 7332). Vascular ultrasound for normal and pathological processes: study of disease, correlation of patients’ clinical data and ultrasound findings used in differential diagnosis.  
Credit Hours: 4  
Prerequisites: DMU 4312, DMU 4311, DMU 4322, and DMU 4326

DMU 4338: Cardiac Ultrasound, Principles and Hemodynamics  
(cross-leveled with DMU 7338). Study of cardiac ultrasound fundamentals including: wave characteristics, principles of 2-D/3-D/4-D imaging, M-mode, and Doppler, cardiac anatomy and physiology, embryology, evaluation methods and hemodynamics. Graded on A-F basis only.  
Credit Hours: 3  
Prerequisites: DMU 4313 and DMU 4315; instructor's consent

DMU 4342: Adult Cardiac Ultrasound  
(cross-leveled with DMU 7342). Provides principles of diagnostic adult cardiac ultrasound in relation to pathology, further presenting the practical aspects of scanning techniques, exam critique, patient care in relation to cardiac US exams. Graded on A-F basis only.  
Credit Hours: 5  
Prerequisites: DMU 4313, DMU 4315 and DMU 4338; instructor’s consent

DMU 4941: Ultrasound Clinical I  
Credit Hours: 7  
Prerequisites: DMU 4312, DMU 4309 and DMU 4311

DMU 4943: Ultrasound Clinical III  
(cross-leveled with DMU 7943). Final clinical application of general medical ultrasound practicum in supervised clinical settings. Further enhancement of practice, decision making, patient handling, image processing and case studies.  
Credit Hours: 6  
Prerequisites: DMU 4993 and instructor's consent

DMU 4944: Vascular Ultrasound Clinical IV  
(cross-leveled with DMU 7944). Application of diagnostic vascular ultrasound in supervised clinical settings: practice, decision making, patient handling and image processing.  
Credit Hours: 7  
Prerequisites: DMU 4326 and instructor's consent

DMU 4945: Cardiac Ultrasound Clinical V  
(cross-leveled with DMU 7945). Application of ultrasonography in real clinical settings for learning, practicing and decision making regarding, patient handling and imaging process with students supervised in a clinical setting. Graded on A-F basis only.  
Credit Hours: 6  
Prerequisites: DMU 4313, DMU 4315, and DMU 4944. Instructor and Departmental permission required

DMU 4946: Cardiac Ultrasound Clinical VI  
(cross-leveled with DMU 7946). Further application of ultrasonography for continuation of learning, practicing and decision making, patient handling and imaging process with students supervised in a clinical setting. Graded on A-F basis only.  
Credit Hours: 6
Prerequisites: DMU 4313, DMU 4315, DMU 4338 and DMU 4945. Instructor and Departmental permission required

DMU 4993: Ultrasound Clinical II
(cross-leveled with DMU 7993). Application of medical ultrasound in supervised clinical settings with practice and decision making related to ultrasound diagnosis, patient handling and image processing.
Credit Hours: 8
Prerequisites: DMU 4941; instructor's consent

DMU 7200: Diagnostic Medical Ultrasound Principles and Patient Care
Introduction diagnostic medical ultrasound principles including history, development, ultrasound physics - equipment fundamentals. Provides introduction to concepts of sonographic techniques, positioning, image critique, aspects of patient care and professional organizations. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: DMU 1000. Restricted to Graduate Diagnostic Medical Ultrasound students

DMU 7234: Clinical Pathophysiology
(cross-leveled with DMU 4234). Abnormal function of organ systems in the presence of disease; clinical manifestations and medical management.
Credit Hours: 3

DMU 7309: Normal Ultrasound Clinical
(cross-leveled with DMU 4309). Integration of ultrasound instrumentation and clinical practice in a laboratory setting. Interaction between the sonographer, equipment and patient.
Credit Hours: 5
Prerequisites: DMU 7312, DMU 7313 and DMU 7315

DMU 7311: Pathological Images Ultrasound
(cross-leveled with DMU 4311), Disease presentation in ultrasound imaging. Practical aspects of ultrasound scanning techniques in pathology.
Credit Hours: 3
Prerequisites: DMU 4200, DMU 7312 and DMU 7315; instructor's consent

DMU 7312: Sectional Anatomy
(same as RA_SCI 7110; cross-leveled with DMU 4312, RA_SCI 4110). A study of human anatomy using the sectional approach; anatomical structures will be related to modern medical imaging techniques. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: Restricted to Graduate Diagnostic Medical Ultrasound students

DMU 7313: Ultrasound Physics
(cross-leveled with DMU 4313). Principles of diagnostic ultrasound physics. Sound wave characteristics, tissue interaction, power intensity, and Doppler physics.

Credit Hours: 3
Prerequisites: MATH 1100, CHEM 1100 or CHEM 1320, PHYSICS 1210, and departmental consent

DMU 7314: Abdominal Ultrasound
(cross-leveled with DMU 4314). Differentiation between normal and pathological ultrasound studies of the abdomen. Differential diagnosis of pathological states.
Credit Hours: 5
Prerequisites: DMU 7312, DMU 7309 and DMU 7311; instructor's consent

DMU 7315: Ultrasound Instrumentation
(cross-leveled with DMU 4315). Integration of ultrasound physics and instrumentation components in a laboratory setting. Practice in modes of operation and safety.
Credit Hours: 3
Prerequisites: DMU 4200; instructor's consent

DMU 7318: Gynecology Ultrasound
Credit Hours: 3
Prerequisites: DMU 7312, DMU 7309 and DMU 7311

DMU 7320: Obstetrics Ultrasound
(cross-leveled with DMU 4320). Study of normal and abnormal obstetrical ultrasound anatomy. Distinction between normal and pathological OB ultrasound studies with emphasis on differential diagnosis.
Credit Hours: 3
Prerequisites: DMU 7312, DMU 7309 and DMU 7311

DMU 7322: Superficial Organs Ultrasound
(cross-leveled with DMU 4322). Ultrasound evaluation and diagnosis of normal and abnormal superficial organs; thyroid gland, testes, breasts, soft tissues and musculoskeletal.
Credit Hours: 3
Prerequisites: DMU 7312, DMU 7309 and DMU 7311

DMU 7325: Ultrasound Clinical Pharmacology and Contrast Agents
(cross-leveled with DMU 4325). Study of the biophysical, biochemical and complete action of ultrasound contrast agents and other drugs used in DMU and their pharmacodynamics.
Credit Hours: 3
Prerequisites: Restricted to Graduate Diagnostic Medical Ultrasound majors

DMU 7326: Vascular Ultrasound Physics, Instrumentation and Hemodynamics
(cross-leveled with DMU 4326). Study of vascular principles and fundamentals including physics and instrumentation. Emphasis on
ultrasound wave characteristics, Doppler principles, tissue interaction and hemodynamics.

Credit Hours: 3
Prerequisites: DMU 7313 and DMU 7315; instructor's consent

DMU 7330: Vascular Ultrasound Lab

Credit Hours: 3
Prerequisites: DMU 7312, and DMU 7326; instructor's consent

DMU 7332: Vascular Ultrasound
(cross-leveled with DMU 4332). Vascular ultrasound for normal and pathological processes: study of disease, correlation of patients' clinical data and ultrasound findings used in differential diagnosis.

Credit Hours: 4
Prerequisites: DMU 7312, DMU 7311, DMU 7322, and DMU 7326 or instructor's consent

DMU 7338: Cardiac Ultrasound, Principles and Hemodynamics
(cross-leveled with DMU 4338). Study of cardiac ultrasound fundamentals including: wave characteristics, principles of 2-D/3-D/4-D imaging, M-mode, and Doppler, cardiac anatomy and physiology, embryology, evaluation methods and hemodynamics. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: DMU 7313, DMU 7315

DMU 7342: Adult Cardiac Ultrasound
(cross-leveled with DMU 4342). Study of adult cardiac ultrasound for normal and pathological processes. Differential diagnosis of cardiac disease through correlation of patients' clinical data and ultrasound findings.

Credit Hours: 5
Prerequisites: DMU 7312, DMU 7313 and DMU 7315 and instructor's consent

DMU 7941: Ultrasound Clinical I

Credit Hours: 7
Prerequisites: DMU 7312, DMU 7309 and DMU 7311

DMU 7943: Ultrasound Clinical III
(cross-leveled with DMU 4943). Final clinical application of general medical ultrasound practicum in supervised clinical settings. Further enhancement of practice, decision making, patient handling, image processing and case studies.

Credit Hours: 6
Prerequisites: DMU 7993 and instructor's consent; Restricted to DMU students only

DMU 7944: Vascular Ultrasound Clinical IV
(cross-leveled with DMU 4944). Application of diagnostic vascular ultrasound in supervised clinical settings: practice, decision making, patient handling and image processing.

Credit Hours: 7
Prerequisites: DMU 7326 and instructor's consent

DMU 7945: Cardiac Ultrasound Clinical V
(cross-leveled with DMU 4945). Application of diagnostic cardiac ultrasound in supervised clinical settings: practice and decision making regarding echocardiography, patient handling and image processing.

Credit Hours: 6
Prerequisites: DMU 7313 and DMU 7315

DMU 7946: Cardiac Ultrasound Clinical VI
(cross-leveled with DMU 4946). Further enhancement of diagnostic cardiac ultrasound in supervised clinical settings: practice and decision making regarding echocardiography, patient handling and image processing.

Credit Hours: 6
Prerequisites: DMU 7945

DMU 7947: Cardiac Ultrasound Clinical V
(cross-leveled with DMU 4947). Application of diagnostic vascular ultrasound in supervised clinical settings: practice, decision making and hemodynamics.

Credit Hours: 6
Prerequisites: DMU 7313 and DMU 7315

DMU 7948: Cardiac Ultrasound Clinical VI
(cross-leveled with DMU 4948). Further enhancement of diagnostic cardiac ultrasound in supervised clinical settings: practice and decision making regarding echocardiography, patient handling and image processing.

Credit Hours: 6
Prerequisites: DMU 7945

DMU 7949: Cardiac Ultrasound Clinical VII
(cross-leveled with DMU 4949). Application of diagnostic vascular ultrasound in supervised clinical settings: practice, decision making and hemodynamics.

Credit Hours: 6
Prerequisites: DMU 7945

DMU 7993: Ultrasound Clinical II
(cross-leveled with DMU 4993). Application of medical ultrasound in supervised clinical settings with practice and decision making related to ultrasound diagnosis, patient handling and image processing.

Credit Hours: 8
Prerequisites: DMU 7941. Restricted to Graduate Diagnostic Medical Ultrasound students

DMU 8001: Topics in Diagnostic Medical Ultrasound
Organized study of selected topics. Topic may vary.

Credit Hour: 1-3
Prerequisites: restricted to students enrolled in the Diagnostic Medical Ultrasound program only

DMU 8050: Research in Diagnostic Medical Ultrasound
Research not leading to a thesis or dissertation. Graded on an A-F basis only.

Credit Hour: 1-99
Prerequisites: restricted to students enrolled in the Diagnostic Medical Ultrasound program only

DMU 8085: Problems in Diagnostic Medical Ultrasound
Independent study of a special project involving clinical applications or research. Topic may vary.

Credit Hour: 1-99
Prerequisites: restricted to students enrolled in the Diagnostic Medical Ultrasound program only

DMU 8090: Research in Diagnostic Medical Ultrasound
Research leading to a thesis or dissertation. Graded on an S/U basis only.

Credit Hour: 1-99
Prerequisites: restricted to students enrolled in the Diagnostic Medical Ultrasound program only

DMU 8346: Pediatric Cardiac Ultrasound
Study of pediatric cardiac ultrasound for normal and pathological processes. Differential diagnosis of cardiac disease through correlation of patients’ clinical data and ultrasound findings.
Credit Hours: 4
Prerequisites: DMU 7342 and instructor's consent

DMU 8947: Applied Clinical Research & Practicum
Clinical research application of cardiovascular & general ultrasound in clinical environment: clinical research, practicum, decision making, patient handling, and image processing. No credit for students who have completed FILM_S 2810. Graded on A-F basis only.
Credit Hour: 5-8
Prerequisites: DMU 7944, DMU 7946, instructor's consent

Digital Storytelling Courses

DST 1800: Introduction to Film Studies
(same as FILM_S 1800, ENGLSH 1800). Introduction to terms and concepts for film analysis, including mise-en-scene, cinematography, editing, sound, narrative, genre, and other elements. No credit for students who have completed FILM_S 2810. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: Freshmen and sophomores only or instructor's consent

DST 1880: Introduction to Digital Storytelling
(same as ENGLSH 1880; FILM_S 1880). Introduction to concepts and skills for Digital Storytelling, including media literacy and forms of narrative manifested historically and currently across a range of media. This course focuses on theories and concepts that support the critical analysis and creation of contemporary narrative in digital form with particular attention to audio, visual and written communication. Graded on A-F basis only.
Credit Hours: 3

DST 2001: Topics in Digital Storytelling
Organized study of selected topics in Digital Storytelling. Subject may vary from semester to semester. May be repeated with consent of instructor. Graded on A-F basis only.
Credit Hours: 3

DST 2005: Topics in Digital Storytelling
Organized study of selected topics in Digital Storytelling. Subject may vary from semester to semester. May be repeated with consent of instructor. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: Sophomore standing

DST 2860: Film Themes and Genres
(same as ENGLISH 2860, FILM_S 2860). Topics (e.g. film noir, African-American filmmakers, food and film, the western) announced at time of registration.
Credit Hours: 3
Prerequisites: ENGLISH 1800 or FILM_S 1800

Recommended: ENGLISH 1000

DST 2880: Digital Storytelling Production I
(same as ENGLISH 2880). Digital Storytelling Production I teaches agility with digital video technology through applied experiences. Assignments in digital video production emphasize how video narratives are created and how images and audio enhance the structure, mood, and theme of the narrative. Instruction will focus on planning a video production and developing the tools and practices in lighting, sound recording, image capturing, and editing. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: DST 1880/ENGLISH 1880 or consent of instructor
Recommended: ENGLISH 1000

DST 2885: Digital Storytelling Animation Production I
(same as ENGLISH 2885). Introduction to all aspects of digital animation and elements of the 3D computer animation production pipeline, including story drafting and production planning, polygonal modeling and texturing, rigging, key framing, lighting, compositing rendered images, and editing into a short finished film. Graded on A-F basis only.
Credit Hours: 3
Recommended: ENGLISH 1000

DST 3001: Topics in Digital Storytelling
Organized study of selected topics in Digital Storytelling. Subject may vary from semester to semester. May be repeated with consent of instructor. Graded on A-F basis only.
Credit Hours: 3
Recommended: ENGLISH 1000

DST 3005: Topics in Digital Storytelling
Organized study of selected topics in Digital Storytelling. Subject may vary from semester to semester. May be repeated with consent of instructor. Graded on A-F basis only.
Credit Hours: 3
Recommended: Sophomore standing

DST 3005H: Topics in Digital Storytelling
Organized study of selected topics in Digital Storytelling. Subject may vary from semester to semester. May be repeated with consent of instructor. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: Sophomore standing. Honors eligibility required

DST 3005W: Topics in Digital Storytelling
Organized study of selected topics in Digital Storytelling. Subject may vary from semester to semester. May be repeated with consent of instructor. Graded on A-F basis only.
Credit Hours: 3
Recommended: Sophomore standing

DST 3510: Think Global: Fundamentals of Globalization and Digital Technology
(same as GERMAN 3510, JOURN 3510, PEA_ST 2810, T_A_M 3010). This interdepartmental course serves as one of the core seminars
for students pursuing the undergraduate Certificate in Digital Global Studies. The course focuses on the impact of technological change and globalization on cultures around the world from various interdisciplinary perspectives. The course is open to students in any discipline. Graded on A-F basis only.

**Credit Hours:** 3

(same as GERMAN 3510H, JOURN 3510H, PEA_ST 2810H, T_A_M 3010H). This interdepartmental course serves as one of the core seminars for students pursuing the undergraduate Certificate in Digital Global Studies. The course focuses on the impact of technological change and globalization on cultures around the world from various interdisciplinary perspectives. The course is open to students in any discipline. Graded on A-F basis only.

**Credit Hours:** 3

**Prerequisites:** Sophomore standing; 2.75 GPA or instructor's consent. Honors eligibility required

**DST 3510W: Think Global: Fundamentals of Globalization and Digital Technology - Writing Intensive**
(same as GERMAN 3510W, JOURN 3510W, PEA_ST 2810W, T_A_M 3010W). This interdepartmental course serves as one of the core seminars for students pursuing the undergraduate Certificate in Digital Global Studies. The course focuses on the impact of technological change and globalization on cultures around the world from various interdisciplinary perspectives. The course is open to students in any discipline. Graded on A-F basis only.

**Credit Hours:** 3

**DST 3855: Documentary Film**
(same as ENGLISH 3855, FILM_S 3855). Surveys the history of documentary film including the development of subgenres, sound and voice over in documentary, re-enactment, ethical issues in documentary film production, and more. Graded on A-F basis only.

**Credit Hours:** 3

**Prerequisites:** ENGLISH 1000

**DST 3860: Special Themes in Digital Storytelling**
Themes (e.g., Indigenous digital studies, folklore and the internet) announced at time of registration. No more than six hours may be taken in the Special Themes in Digital Storytelling. Graded on A-F basis only.

**Credit Hours:** 3

**Prerequisites:** ENGLISH 1000

**DST 3880: Writing and Theory for Digital Media**
(same as ENGLISH 3880). Writing and Theory for Digital Media teaches the skills, methods and theoretical frameworks needed to write for new media. Students will study and practice writing for web-based and digital media platforms, including short-form modes such as Twitter and various social media sites; longer-form modes such as blogs, vlogs and podcasts; and the emerging possibilities of locative and interactive media. Assignments emphasize the professional and creative possibilities of new media production. In addition to the hands-on creation for audio, screen-based, networked, and hybrid forms of digital media, students will also read, discuss, and write about work by new media theorists. Graded on A-F basis only.

**Credit Hours:** 3

**Recommended:** Sophomore standing or above; ENGLISH 1000 and DST 1880

**DST 3885W: Audio Storytelling - Writing Intensive**
(same as ENGLISH 3885). Writing and Theory for Digital Media teaches the skills, methods and theoretical frameworks needed to write for new media. Students will study and practice writing for web-based and digital media platforms, including short-form modes such as Twitter and various social media sites; longer-form modes such as blogs, vlogs and podcasts; and the emerging possibilities of locative and interactive media. Assignments emphasize the professional and creative possibilities of new media production. In addition to the hands-on creation for audio, screen-based, networked, and hybrid forms of digital media, students will also read, discuss, and write about work by new media theorists. Graded on A-F basis only.

**Credit Hours:** 3

**Recommended:** Sophomore standing or above; ENGLISH 1000 and DST 1880

**DST 3885W: Audio Storytelling - Writing Intensive**
Students in this course explore the skills, methods and theoretical frameworks needed to produce audio for new media and to understand the relationship between audio and digital culture. Students will study and practice writing and producing for web-based and digital media platforms. Assignments emphasize the professional and creative possibilities of new media production with an emphasis on audio. In addition to the hands-on creation of audio for radio, podcast, as well as screen-based, networked, and hybrid forms of digital media, students will also read, discuss, and write about work by producers and radio historians and theorists. Graded on A-F basis only.

**Credit Hours:** 3

**Prerequisites:** DST 1880/ENGLISH 1880 or consent of instructor

**DST 3888: Audio Storytelling**
Students in this course explore the skills, methods and theoretical frameworks needed to produce audio for new media and to understand the relationship between audio and digital culture. Students will study and practice writing and producing for web-based and digital media platforms. Assignments emphasize the professional and creative possibilities of new media production with an emphasis on audio. In addition to the hands-on creation of audio for radio, podcast, as well as screen-based, networked, and hybrid forms of digital media, students will also read, discuss, and write about work by producers and radio historians and theorists. Graded on A-F basis only.

**Credit Hours:** 3

**Prerequisites:** DST 1880/ENGLISH 1880 or consent of instructor

**DST 4001: Topics in Digital Storytelling**
Advanced study of selected topics in Digital Storytelling. Subject may vary from semester to semester. May be repeated with consent of instructor. Graded on A-F basis only.

**Credit Hours:** 3

**Recommended:** Sophomore standing
DST 4005: Topics in Digital Storytelling
Advanced study of selected topics in Digital Storytelling. Subject may vary from semester to semester. May be repeated with consent of instructor. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: English 1000, DST 1880/ENGLISH 1880, and sophomore standing, or instructor’s consent

DST 4805: Case Studies in an Inter/Multicultural World
(same as GERMAN 4810, PEA_ST 4810, T_A_M 4810). This inter-departmental course examines the ways in which people across the globe are affected every day by an unprecedented array of linkages that defy geographic and political boundaries. Also serves as one of the seminars for the certificate in Digital Global Studies. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: Sophomore standing

DST 4810: Film Theory
(same as ENGLISH 4810, FILM_S 4810). This course explores contemporary trends in film theory. Topics may include: psychoanalysis, feminism, Marxism, cultural studies, queer theory, audience and star studies, post colonialism, among others.

Credit Hours: 3
Prerequisites: English 1000 and English 1800 or FILM_S 1800; junior standing

DST 4840: Culture and Media
(same as ENGLISH 4840, FILM_S 4840). Topics (e.g. Cinema and Imperialism, Indigenous Media, Ethnographic Documentary) announced at time of registration.

Credit Hours: 3
Prerequisites: English 1000 and English 1800 or FILM_S 1800; junior standing or instructor’s consent required

DST 4880: Digital Storytelling Production II
(same as ENGLISH 4880). Digital Storytelling Production II introduces students to advanced techniques in digital storytelling production, while further developing skills in script writing, storyboarding, Adobe Premiere Pro, and video production with DSLR cameras. Assignments in digital video production emphasize how video narratives are created and how images and audio enhance the structure, mood, and theme of the narrative. Instruction will focus on planning a video production and developing the tools and practices in lighting, sound recording, image capturing, and editing. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: English 1000, DST 1880/ENGLISH 1880, and sophomore standing, or consent of instructor

DST 4885: Digital Storytelling Animation Production II
Advanced instruction in various aspects of digital animation and elements of the 3D computer animation production pipeline, including story drafting and production planning, polygonal modeling and texturing, rigging, key framing, lighting, compositing rendered images, and editing into a short finished film. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: English 1000, DST 1880/ENGLISH 1880, and sophomore standing, or instructor’s consent

DST 4930: Digital Storytelling Practicum
This course provides an opportunity for experiential learning in digital storytelling practice. Students will receive hands-on training through an intensive master class. Graded on S/U basis only.

Credit Hour: 1-6
Prerequisites: Instructor’s consent

DST 4940: Digital Storytelling Internship
Students work in an agency or institution using their digital storytelling skills for one to three credit hours. Graded on an S/U basis only.

Credit Hour: 1-3
Prerequisites: Program consent

DST 4955: Independent Research in Digital Storytelling
Development of a carefully considered research project under close supervision of a faculty member. Open to undergraduate students only. Graded on A-F basis only.

Credit Hour: 1-3
Prerequisites: Instructor consent required

DST 4970: Capstone Experience
For students in their senior year who have completed the core requirements for the Digital Storytelling program, this course focuses on advanced studies in the field and a major project involving the processes of selection, research, and production or writing leading to its completion. May include a professional component. Graded on A-F basis only.

Credit Hours: 3

Economics Courses

ECONOM 1000: General Economics
One semester course covering similar material as covered in ECONOM 1014 and ECONOM 1015. Topics include opportunity costs, gains from trade, efficiency and markets, non-competitive markets, game theory, government spending and taxation, economic growth, monetary and fiscal policy, unemployment and inflation, exchange rates. Includes applications for Journalism students. Not open to students who have completed ECONOM 1014 or ECONOM 1024 and, ECONOM 1015 or AG_EC 1041 and AG_EC 1042. Graded on A-F basis only.

Credit Hours: 5
Prerequisites: Open only to pre-Journalism and Journalism majors; departmental consent required

ECONOM 1014: Principles of Microeconomics
A basic examination of the economy at the individual consumer, firm and market level. Simple economic models used to analyze the workings of the economy. Topics include opportunity costs, gains from trade, efficiency and markets, non-competitive markets, game theory, the importance of free trade, the markets response to economic shocks and the effect of government intervention. Not open to students who have completed ECONOM 1024, ECONOM 1051, or AG_EC 1041.
ECONOM 1015: Principles of Macroeconomics
Macroeconomics generally refers to a collection of questions about how scarcity affects a collection of people interacting with one another. In this course, our focus is on understanding how scarcity affects welfare of a nation. Topics include Gross Domestic Product, government spending and taxation, economic growth, monetary and fiscal policy, unemployment and inflation, and exchange rates. Not open to students who have completed ECONOM 1051 or AG_EC 1042.

Credit Hours: 3
Prerequisites: ECONOM 1014 or ECONOM 1024

ECONOM 1024: Fundamentals of Microeconomics
This course uses mathematical reasoning to provide an elementary quantitative introduction to fundamental concepts in microeconomics. It uses college algebra and simple geometric concepts to describe the behavior of economic units, such as consumers, firms and resource owners, and to depict their interaction through production and exchange in perfect and imperfect markets. Not open to students who have completed ECONOM 1014, ECONOM 1051, or AG_EC 1041. Math Reasoning Proficiency Course.

Credit Hours: 3
Prerequisites: MATH 1100 or MATH 1120 or equivalent with grade of C or better

ECONOM 1051H: General Economics - Honors
One semester course covering similar material as covered in ECONOM 1014 and ECONOM 1015. Topics include opportunity costs, gains from trade, efficiency and markets, non-competitive markets, game theory, government spending and taxation, economic growth, monetary and fiscal policy, unemployment and inflation, exchange rates. Not open to students who have completed ECONOM 1014 or ECONOM 1024 and ECONOM 1015. Math Reasoning Proficiency Course.

Credit Hours: 5
Prerequisites: Honors eligibility required

ECONOM 2004: Undergraduate Topics in Economics - Social Science
Organized study of selected topics in Economics; applied or theoretical economics; covers subjects not included in regularly offered courses.

Credit Hour: 1-3
Prerequisites: instructor's consent

ECONOM 3004: Topics in Economics - Social Science
Study in applied or theoretical economics; covers subjects not included in regularly offered courses.

Credit Hour: 1-3
Prerequisites: instructor's consent

ECONOM 3224: Introduction to International Economics
A topical course which emphasizes the application of basic economic analysis to real and current international economic issues. Topics include free trade, protectionism, free trade areas, multilateral trade negotiations, trade and development, exchange rates, the International Monetary System, and economic integration.

Credit Hours: 3
Prerequisites: ECONOM 1014 or ECONOM 1024 or ECONOM 1051

ECONOM 3229: Money, Banking and Financial Markets
Operation of the U.S. financial and economic system. Covers interest rates, banking regulation, the money supply process and the conduct of the Federal Reserve, inflation and the macroeconomy, exchange rates and the international financial system, rational expectations, and efficient markets.

Credit Hours: 3
Prerequisites: (ECONOM 1014 or ECONOM 1024) and ECONOM 1051, or AG ECON 1041 with a minimum grade of C-

ECONOM 3229H: Money, Banking and Financial Markets - Honors
Operation of the U.S. financial and economic system. Covers interest rates, banking regulation, the money supply process and the conduct of the Federal Reserve, inflation and the macroeconomy, exchange rates and the international financial system, rational expectations, and efficient markets.

Credit Hours: 3
Prerequisites: ECONOM 1014 or ECONOM 1024 and ECONOM 1051.
Honors eligibility required

ECONOM 3251: Theory of the Firm
Theory of rational behavior in consumption, production, and pricing decisions of households and firms. Topics include the economics of the firm in the context of partial equilibria in product and factor markets under competition, monopoly, oligopoly and monopolistic competition as well as game theory. No credit for students who have completed ECONOM 4351.

Credit Hours: 3
Prerequisites: (ECONOM 1014 or ECONOM 1024 or ECONOM 1051) and MATH 1400, or equivalent. Not open to economics majors

ECONOM 3271: Introduction to Applied Econometric Practice
Introduction to the use of regression analysis of economic data, including simple and multiple regression, dummy variables. Econometric problems considered include heteroscedasticity, autocorrelation, multicollinearity and simultaneous equation issues.

Credit Hours: 3
Prerequisites: ECONOM 1014 or ECONOM 1024 and ECONOM 1051, or AG ECON 1041 with a minimum grade of C-

ECONOM 3323: Capitalism, Democracy and Society
This is a one-credit seminar course for students interested in careers involving social science research and analysis; topics covered will be a selection of classic and contemporary debates in the social sciences.

Credit Hour: 1
Prerequisites: ECONOM 1014 and ECONOM 1015, or ECONOM 1051

ECONOM 3940: Internship
Internship experience for students interested in economics. Supervised internship work with approval of Director of Undergraduate Studies and academic adviser. Graded on S/U basis only.

Credit Hour: 1-3
Prerequisites: ECONOM 1014 or ECONOM 1051
ECONOM 3950: Practicum in Economics
Practical experience in consulting, teaching or research guided by faculty advisor. Graded on S/U basis only.
Credit Hour: 1-3
Prerequisites: consent of Director of Undergraduate Studies and faculty advisor
Recommended: Grade of B or higher in ECONOM 4351 and ECONOM 4371

ECONOM 4004: Topics in Economics - Social Science
Study in applied or theoretical economics; covers subjects not included in regularly offered courses.
Credit Hour: 1-3
Prerequisites: instructor’s consent

ECONOM 4004W: Topics in Economics - Social Science - Writing Intensive
Study in applied or theoretical economics; covers subjects not included in regularly offered courses.
Credit Hour: 1-3
Prerequisites: instructor’s consent

ECONOM 4011: Labor Economics
(cross-leveled with ECONOM 7311). Surveys theoretical explanations of wage and employment determination in contemporary labor markets.
Credit Hours: 3
Prerequisites: ECONOM 3251 or ECONOM 4351

ECONOM 4311W: Labor Economics - Writing Intensive
Surveys theoretical explanations of wage and employment determination in contemporary labor markets.
Credit Hours: 3
Prerequisites: ECONOM 3251 or ECONOM 4351

ECONOM 4315: Public Economics
(cross-leveled with ECONOM 7315). Analyzes economic effects of government expenditures, taxes and debt. Expenditure and taxation principles, tax reform, cost-benefit analysis, fiscal policy.
Credit Hours: 3
Prerequisites: ECONOM 3251 or ECONOM 4351

ECONOM 4315W: Public Economics - Writing Intensive
Analyzes economic effects of government expenditures, taxes and debt. Expenditure and taxation principles, tax reform, cost-benefit analysis, fiscal policy.
Credit Hours: 3
Prerequisites: ECONOM 3251 or ECONOM 4351

ECONOM 4320: History of Economic Thought
(cross-leveled with ECONOM 7320). Origins of modern economic thought in the context of social and intellectual environment of the time in which they originated, their contribution to their period and to modern thought.
Credit Hours: 3
Prerequisites: (ECONOM 1014 or ECONOM 1024) and ECONOM 1015, or ECONOM 1051

ECONOM 4320W: History of Economic Thought
Origins of modern economic thought in the context of social and intellectual environment of the time in which they originated, their contribution to their period and to modern thought.
Credit Hours: 3
Prerequisites: (ECONOM 1014 or ECONOM 1024) and ECONOM 1015, or ECONOM 1051

ECONOM 4322: Economics of Regulation and Antitrust
(cross-leveled with ECONOM 7322). Economic issues concerning the role of government regulation. The course examines the rationale for and effects of regulatory policies in public utilities, transportation, and communications industries.
Credit Hours: 3
Prerequisites: (ECONOM 1014 or ECONOM 1024) and ECONOM 1015, or ECONOM 1051

ECONOM 4325: The International Monetary System
(cross-leveled with ECONOM 7325). Study of macroeconomic and monetary relationships between the U.S. and the world. Topics include balance of payments, foreign exchange rates, history of the international monetary system.
Credit Hours: 3
Prerequisites: ECONOM 3229

ECONOM 4326: Economics of International Trade
(cross-leveled with ECONOM 7326). The microeconomic theory of international trade. Topics include comparative advantage, the theory of commercial policy, economic integration, trade with less developed countries and the trade effects of economic growth.
Credit Hours: 3
Prerequisites: ECONOM 3251 or ECONOM 4351

ECONOM 4329: The Banking System and the Money Market
(cross-leveled with ECONOM 7329). Organization of the money market; credit control procedures and aims, effect of bank expansion and contraction on money market and national income deregulation.
Credit Hours: 3
Prerequisites: ECONOM 1015 or ECONOM 1051

ECONOM 4329W: The Banking System and the Money Market - Writing Intensive
Organization of the money market; credit control procedures and aims, effect of bank expansion and contraction on money market and national income deregulation.
Credit Hours: 3
Prerequisites: ECONOM 1015 or ECONOM 1051

ECONOM 4340: Introduction to Game Theory
(cross-leveled with ECONOM 7340). An introduction to the theory of games, viewed as a set of tools used widely in economics to study situations in which decision-makers (consumers, firms, governments,
ECONOM 4345: Economics of Education
(cross-leveled with ECONOM 7345). Economic theory is used to analyze the market for educational services and education policy. Topics include: human capital theory, cost and performance measures for public and private schools, market based approaches to school reform, school finance, higher education cost and access.

Credit Hours: 3
Prerequisites: ECONOM 1014 or ECONOM 1024 or ECONOM 1051, and STAT 2500 or equivalent

ECONOM 4345W: Economics of Education - Writing Intensive
Economic theory is used to analyze the market for educational services and education policy. Topics include: human capital theory, cost and performance measures for public and private schools, market based approaches to school reform, school finance, higher education cost and access.

Credit Hours: 3
Prerequisites: ECONOM 1014 or ECONOM 1024 or ECONOM 1051, and STAT 2500 or equivalent

ECONOM 4351: Intermediate Microeconomics
(cross-leveled with ECONOM 7351). Theory of rational behavior in consumption, production, and pricing decisions of households and firms. Partial equilibria in product and factor markets under competition, monopoly, oligopoly and monopolistic competition. A brief introduction to general equilibrium and welfare economics is provided. Calculus is employed. No credit for students who have completed ECONOM 3251.

Credit Hours: 3
Prerequisites: ECONOM 1014 or ECONOM 1024 or ECONOM 1051, and MATH 1400 or equivalent

ECONOM 4351H: Intermediate Microeconomics - Honors
Theory of rational behavior in consumption, production, and pricing decisions of households and firms. Partial equilibria in product and factor markets under competition, monopoly, oligopoly and monopolistic competition. A brief introduction to general equilibrium and welfare economics is provided. Calculus is employed. No credit for students who have completed ECONOM 3251.

Credit Hours: 3
Prerequisites: ECONOM 1014 or ECONOM 1024 or ECONOM 1051, and MATH 1400, or equivalent. Honors eligibility required

ECONOM 4353: Intermediate Macroeconomics
(cross-leveled with ECONOM 7353). The study of the structure and performance of national economics. Topics include: long-term economic growth, aggregate economic fluctuations, unemployment, and inflation; consequences for national economies of being part of the global economic system; government policies and macroeconomic performance.

Credit Hours: 3
Prerequisites: ECONOM 1015 or ECONOM 1051, and MATH 1400 or equivalent

ECONOM 4355: Industrial Organization and Competitive Strategy
(cross-leveled with ECONOM 7355). Analyzes the structure of industry, its impact on the operations of the firm and significance for public policy. The focus is on strategic interaction among firms with market power. Topics include oligopoly, competition, collusion, price discrimination, product differentiation, advertising, entry and exit.

Credit Hours: 3
Prerequisites: ECONOM 3251 or ECONOM 4351

ECONOM 4355W: Industrial Organization and Competitive Strategy - Writing Intensive
Analyzes the structure of industry, its impact on the operations of the firm and significance for public policy. The focus is on strategic interaction among firms with market power. Topics include oligopoly, competition, collusion, price discrimination, product differentiation, advertising, entry and exit.

Credit Hours: 3
Prerequisites: ECONOM 3251 or ECONOM 4351

ECONOM 4357: Health Economics
(cross-leveled with ECONOM 4357, PUB_AF 4357). Analyzes the economics of health care in the United States with particular attention paid to the role of government. It examines the demand for health care and the structure and consequences of public and private health insurance; the supply of health care, including professional training, licensure, specialization and compensation, hospital competition and finance, and the determinants and consequences of technical change in medicine and health care reform.

Credit Hours: 3
Prerequisites: ECONOM 3251 or ECONOM 4351 and STAT 2500, or equivalent

ECONOM 4357W: Health Economics - Writing Intensive
Analyzes the economics of health care in the United States with particular attention paid to the role of government. It examines the demand for health care and the structure and consequences of public and private health insurance; the supply of health care, including professional training, licensure, specialization and compensation, hospital competition and finance, and the determinants and consequences of technical change in medicine and health care reform.

Credit Hours: 3
Prerequisites: ECONOM 3251 or ECONOM 4351 and STAT 2500, or equivalent

ECONOM 4360: Economic Development
(same as PEA_ST 4360; cross-leveled with ECONOM 7360). The study of less-developed countries including problems of measuring economic growth, analysis of sources of economic growth, causes of changes in economic and structure, development and trade policies. The consequences of goals and assumptions for development policy are analyzed.

Credit Hours: 3
Prerequisites: ECONOM 3229, and ECONOM 3251 or ECONOM 4351
ECONOM 4361: Comparative Economic Systems
(cross-leveled with ECONOM 4361). Study of capitalism, market socialism, and central planning.
Credit Hours: 3
Prerequisites: ECONOM 3229, and ECONOM 3251 or ECONOM 4351

ECONOM 4367: Law and Economics
(cross-leveled with ECONOM 7367I PUB_AF 7367). This course is a survey of economic analyses of American legal institutions. Students will apply basic microeconomics, game theoretic and statistical concepts to the study of property, contracts, torts, the legal process, crime, and the judiciary.
Credit Hours: 3
Prerequisites: ECONOM 3251 or ECONOM 4351, and STAT 2500, or equivalent

ECONOM 4367W: Law and Economics - Writing Intensive
This course is a survey of economic analyses of American legal institutions. Students will apply basic microeconomics, game theoretic and statistical concepts to the study of property, contracts, torts, the legal process, crime, and the judiciary.
Credit Hours: 3
Prerequisites: ECONOM 3251 or ECONOM 4351, and STAT 2500, or equivalent

ECONOM 4370: Quantitative Economics
(cross-leveled with ECONOM 7370). The aim of this course is to provide an introduction to the mathematical language of economic theory. Topics include linear models, matrix algebra, rules of differentiation and comparative static analysis, optimization.
Credit Hours: 3
Prerequisites: MATH 1500 or equivalent

ECONOM 4371: Introductory Econometrics
(cross-leveled with ECONOM 7371). Study methods for quantitative analysis of economic data. Estimation techniques, tests of significance, prediction and forecasting reviewed with respect to problems presented by economic data and information demands of economic decision models.
Credit Hours: 3
Prerequisites: ECONOM 3251 or ECONOM 4351, and STAT 2500, or equivalent

ECONOM 4384: Structural Change in Economic History
(cross-leveled with ECONOM 7384). Explores changes in the structure of the American economy from its earliest colonial beginnings. Structural change, an integral part of growth, is related to technical change, population growth and to the content and form of economic theory.
Credit Hours: 3
Prerequisites: ECONOM 1014 or ECONOM 1024 and ECONOM 1015, or ECONOM 1051

ECONOM 4385: Problems in Economics
Development of a carefully considered research project under close supervision of a faculty member. Credit arranged by instructor.

Credit Hours: 3
Prerequisites: ECONOM 3229, and ECONOM 3251 or ECONOM 4351

ECONOM 4775: Dynamic Optimization and its Applications to the Natural Sciences and Economics
Credit Hours: 1-3
Prerequisites: ECONOM 4370 or instructor's consent

ECONOM 4940: Internship in Economics
Internship experience for Economics majors. 40 hours of supervised internship work with approval of Director of Undergraduate Studies and academic advisor. Graded on S/U basis only.
Credit Hours: 1-3
Prerequisites: C or higher in ECONOM 4351 and ECONOM 4371; Declared economics majors who have a minimum overall CUM GPA of 2.75 and have junior or senior standing
Recommended: Students must have completed at least 15 credit hours at MU

ECONOM 4965: Independent Study in Economics
Individual work, with conferences adjusted to needs of student.
Credit Hours: 1-3
Prerequisites: instructor's consent

ECONOM 4970: Senior Seminar in Economics
Seminar for graduating seniors who are majoring in economics. Multiple writing assignments will emphasize synthesis of theoretical, empirical, and institutional economics. Not open to non-majors.
Credit Hours: 3

ECONOM 4971: Supplemental Senior Seminar in Economics
Content description is the same as ECONOM 4970. Required for Economics honors students and double majors in Economics who take a capstone course in another major. No credit for students who have completed ECONOM 4970. Not open to non-majors. Graded on A-F basis only.
Credit Hours: 1

ECONOM 4995: Honors Thesis
Not open to non-majors. Capstone course required for Economics honors students.
Credit Hours: 3
Prerequisites: ECONOM 4351

ECONOM 7001: Topics in Economics - General
Study in applied or theoretical economics. Subjects and earnable credit may vary from semester to semester.
Credit Hours: 1-99
Prerequisites: instructor's consent
ECONOM 7085: Problems in Economics
Individual study in Economics.
Credit Hours: 1-99
Prerequisites: instructor's consent

ECONOM 7311: Labor Economics
(cross-leveled with ECONOM 4311). Surveys theoretical explanations of wage and employment determination in contemporary labor markets.
Credit Hours: 3
Prerequisites: ECONOM 3251 or ECONOM 7351

ECONOM 7315: Public Economics
(cross-leveled with ECONOM 4315). Analyzes economic effects of government expenditures, taxes and debt. Expenditure and taxation principles, tax reform, cost-benefit analysis, fiscal policy.
Credit Hours: 3
Prerequisites: ECONOM 3251 or ECONOM 4351

ECONOM 7320: History of Economic Thought
(cross-leveled with ECONOM 4320). Origins of modern economic thought in the context of social and intellectual environment of the time in which they originated, their contribution to their period and to modern thought.
Credit Hours: 3
Prerequisites: ECONOM 1014 or ECONOM 1024 or ECONOM 1051 or ECONOM 1051H

ECONOM 7322: Economics of Regulation and Antitrust
(cross-leveled with ECONOM 4322). Economic issues concerning the role of government regulation. The course examines the rationale for and effects of regulatory policies in public utilities, transportation, and communications industries.
Credit Hours: 3
Prerequisites: ECONOM 3251 or ECONOM 7351

ECONOM 7325: The International Monetary System
(cross-leveled with ECONOM 4325). Study of macroeconomic and monetary relationships between the US and the world. Topics include balance of payments, foreign exchange rates, history of the international monetary system.
Credit Hours: 3
Prerequisites: ECONOM 3229

ECONOM 7326: Economics of International Trade
(cross-leveled with ECONOM 4326). The microeconomic theory of international trade. Topics include comparative advantage, the theory of commercial policy, economic integration, trade with LDC's and the trade effects of economic growth.
Credit Hours: 3
Prerequisites: ECONOM 7351 or instructor's consent

ECONOM 7329: The Banking System and the Money Market
(cross-leveled with ECONOM 4329) Organization of the money market; credit control procedures and aims, effect of bank expansion and contraction on money market and national income deregulation.

ECONOM 7332: Microeconomics for Managers
(cross-leveled with ECONOM 4332). Microeconomic concepts presented at the intermediate level, graphic treatment with limited calculus, managerial issues presented at the MBA level. (Not open to economics majors).
Credit Hours: 3
Prerequisites: ECONOM 1014 or ECONOM 1024, MATH 1300; permission required for MBA program

ECONOM 7340: Introduction to Game Theory
(cross-leveled with ECONOM 4340). An introduction to the theory of games, viewed as a set of tools used widely in economics to study situations in which decision-makers (consumers, firms, governments, etc.) interact. The course introduces the basic theory, emphasizing the concepts and their economic applications.
Credit Hours: 3
Prerequisites: ECONOM 3251 or ECONOM 7351 or instructor's consent

ECONOM 7345: Economics of Education
(cross-leveled with ECONOM 4345). Economic theory is used to analyze the market for educational services and education policy. Topics include: human capital theory, cost and performance measures for public and private schools, market based approaches to school reform, school finance, higher education cost and access.
Credit Hours: 3
Prerequisites: ECONOM 1014 or ECONOM 1024, or ECONOM 1051H and ECONOM 4371 or equivalent

ECONOM 7351: Intermediate Microeconomics
(cross-leveled with ECONOM 4351). Theory of rational behavior in consumption, production, and pricing decisions of households and firms. Partial equilibria in product and factor markets under competition, monopoly, oligopoly and monopolistic competition. A brief introduction to general equilibrium and welfare economics is provided. Calculus is employed. No credit for students who have completed 3251.
Credit Hours: 3
Prerequisites: (ECONOM 1014 or ECONOM 1024 or ECONOM 1051) and MATH 1400 or equivalent

ECONOM 7353: Intermediate Macroeconomics
(cross-leveled with ECONOM 4353). The study of the structure and performance of national economics. Topics include: long-term economic growth, aggregate economic fluctuations, unemployment, and inflation; consequences for national economies of being part of the global economic system; government policies and macroeconomic performance.
Credit Hours: 3
Prerequisites: ECONOM 1015 or ECONOM 1051 and MATH 1400 or equivalent

ECONOM 7355: Industrial Organization and Competitive Strategy
(cross-leveled with ECONOM 4355). Analyzes the structure of industry, its impact on the operations of the firm and significance for public policy. The focus is on strategic interaction among firms with market power.
Topics include oligopoly, competition, collusion, price discrimination, product differentiation, advertising, entry and exit.

**Credit Hours:** 3  
**Prerequisites:** ECONOM 3251 or ECONOM 7351

---

**ECONOM 7357:** Health Economics  
(same as PUB_AF 7357; cross-leveled with ECONOM 4357). Analyzes the economics of health care in the United States with particular attention paid to the role of government. It examines the demand for health care and the structure and consequences of public and private health insurance; the supply of health care, including professional training, licensure, specialization and compensation, hospital competition and finance, and the determinants and consequences of technical change in medicine; and examination of recent proposals and initiatives for health care reform.

**Credit Hours:** 3  
**Prerequisites:** ECONOM 3251 or ECONOM 7351

---

**ECONOM 7360:** Economic Development  
(cross-leveled with ECONOM 4360, PEA_ST 4360). The study of less-developed countries including problems of measuring economic growth, analysis of sources of economic growth, causes of changes in economic and structure, development and trade policies. The consequences of goals and assumptions for development policy are analyzed.

**Credit Hours:** 3  
**Prerequisites:** ECONOM 3229 and ECONOM 3251 or ECONOM 4351.; graduate standing required

---

**ECONOM 7361:** Comparative Economic Systems  
(cross-leveled with Econom 4361). Study of capitalism, market socialism, and central planning.

**Credit Hours:** 3  
**Prerequisites:** ECONOM 3229 and ECONOM 3251 or ECONOM 4351

---

**ECONOM 7367:** Law and Economics  
(same as PUB_AF 7367; cross-leveled with ECONOM 4367). This course is a survey of economic analyses of American legal institutions. Students will apply basic microeconomic, game theoretic and statistical concepts to the study of property, contracts, torts, the legal process, crime and the judiciary.

**Credit Hours:** 3  
**Prerequisites:** [ECONOM 4351 or ECONOM 3251, and STAT 2500, or equivalent]

---

**ECONOM 7370:** Quantitative Economics  
(cross-leveled with ECONOM 4370). The aim of this course is to provide an introduction to the mathematical language of economic theory. Topics include linear models, matrix algebra, rules of differentiation and comparative static analysis, optimization.

**Credit Hours:** 3  
**Prerequisites:** MATH 1500 or equivalent

---

**ECONOM 7371:** Introductory Econometrics  
(cross-leveled with ECONOM 4371). Study methods for quantitative analysis of economic data. Estimating techniques, tests of significance, prediction and forecasting reviewed with respect to problems presented by economic data and information demands of economic decision models.

**Credit Hours:** 3  
**Prerequisites:** ECONOM 3251 or ECONOM 4351 and STAT 2500 and MATH 1320 or instructor's consent

---

**ECONOM 7384:** Structural Change in Economic History  
(cross-leveled with ECONOM 4384). Explores changes in the structure of the American economy from its earliest colonial beginnings. Structural change, an integral part of growth, is related to technical change, population growth and to the content and form of economic theory.

**Credit Hours:** 3  
**Prerequisites:** ECONOM 1014 or ECONOM 1024 and ECONOM 1015, or ECONOM 1051H or instructor's consent

---

**ECONOM 7775:** Dynamic Optimization and its Applications to the Natural Sciences and Economics  

**Credit Hour:** 1-3  
**Prerequisites:** ECONOM 7370 or instructor's consent

---

**ECONOM 8001:** Topics in Economics- General  
Organized study of selected topics. Subjects and earnable credit may vary from semester to semester.

**Credit Hours:** 3  
**Prerequisites:** instructor's consent

---

**ECONOM 8085:** Problems in Economics  
Graduate students may select topics for study and investigation subject to approval by supervising faculty.

**Credit Hour:** 1-99

---

**ECONOM 8090:** Research in Economics  
Thesis research for M.A. degree. Graded on a S/U basis only.

**Credit Hour:** 1-99

---

**ECONOM 8340:** Game Theory  
Game theory is the study of strategic behavior by agents who perceive themselves as "large" relative to the market and who therefore consider the effect of their behavior on others. This course examines the rigorous theory of strategic interaction of rational agents. May be repeated for credit.

**Credit Hours:** 3  
**Prerequisites:** ECONOM 4351 or equivalent; MATH 1320 or equivalent. Graded on A-F basis only

---

**ECONOM 8370:** Mathematics for Economics  
The aim of this course is to cover essential mathematics used in economics. Topics include introductory linear algebra, multivariate calculus, comparative statics analysis, unconstrained optimization, and equality constrained optimization. May be repeated for credit.
ECONOM 8413: Research Workshop I
Required course for economics MA students. Combines instruction, student presentations, and seminar participation to introduce research methods and practice. A major research paper is required.

Prerequisites: ECONOM 8451, ECONOM 8453, and ECONOM 8472 or instructor's consent

Credit Hours: 3

ECONOM 8414: Econometric Methods I
Familiarizes students with fundamental techniques found and used in applied economic research. Topics include: ordinary least squares, generalized least square, instrumental variables, maximum likelihood estimation, and generalized methods of moments.

Prerequisites: ECONOM 7370

Credit Hours: 3

ECONOM 8415: Topics in Economics
Selected current topics in economics.

Credit Hours: 3

ECONOM 8416: Advanced Public Economics I
Tax incidence and optimal taxation in static economies and issues of taxation in dynamic economies.

Prerequisites: ECONOM 9452 or instructor's consent

Credit Hours: 3

ECONOM 8417: International Trade
Pure theory of international trade and commercial policy.

Prerequisites: ECONOM 9452 or instructor's consent

Credit Hours: 3

ECONOM 8418: Dynamic Optimization
Topics to be covered include calculus of variations, optimal control theory, dynamic programming in discrete time variables, and economic modeling. The Euler’s Equation, the Transversally Condition and the Bellman Equation will also be covered.

Prerequisites: ECONOM 7370

Credit Hours: 3

ECONOM 8419: Macroeconomic Theory
Basic models in macroeconomics will be covered with emphasis on assumptions and on how hypotheses can be tested. Course is an introductory survey for students intending to develop ability for research in macroeconomics.

Prerequisites: ECONOM 4353 or equivalent; at least concurrent enrollment in ECONOM 8451. Instructor's consent required for non graduate level students

Credit Hours: 3

ECONOM 8420: Advanced Labor Economics I
Analysis of the determination of wages and employment and the relation of trade unionism to the economy.

Prerequisites: ECONOM 9452 or instructor's consent

Credit Hours: 3

ECONOM 8421: Advanced Labor Economics II
Applications of contemporary analytical techniques to labor market topics chosen by the instructor.

Prerequisites: ECONOM 9411 and ECONOM 9452 or instructor's consent

Credit Hours: 3

ECONOM 8422: Research Workshop II
Introduces doctoral students to practices of preparing scholarly economic research by moving through the process of selecting a topic, identifying relevant literature, and communicating results. Graded on A-F basis only.

Prerequisites: ECONOM 9452, ECONOM 9454 and ECONOM 9474; PhD standing

Credit Hours: 1-3

ECONOM 8423: Advanced Public Economics II
Macroeconomic issues of government finance. Theoretical and empirical analysis of Ricardian equivalence.

Prerequisites: ECONOM 9452 or instructor's consent

Credit Hours: 3

ECONOM 8424: International Trade
Pure theory of international trade and commercial policy.

Prerequisites: ECONOM 9452 or instructor's consent

Credit Hours: 3
ECONOM 9427: Topics in International Trade
The course will cover recent research in International Trade and important issues related to the impact of trade on economic growth and development. Topics include the relationship between trade and growth, the impact of international trade on firms, households and economic growth. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: ECONOM 9452 or instructor's consent

ECONOM 9430: Advanced Money and Banking
The working and structure of institutional arrangements, welfare aspects of structural policies, operation of money and credit markets, and behavior of returns on assets.
Credit Hours: 3
Prerequisites: ECONOM 9452 or instructor's consent

ECONOM 9431: Central Banking Policies
Examines central banking procedures, policies and the role they play in maintaining economic stability. Special attention to connection of Federal Reserve System with money and capital markets.
Credit Hours: 3
Prerequisites: ECONOM 9452 or instructor's consent

ECONOM 9446: Advanced Empirical Methods
Empirical and modeling techniques for evaluation of microeconomic policy questions.
Credit Hours: 3
Prerequisites: ECONOM 8451, ECONOM 8472
Recommended: Concurrent enrollment in ECONOM 8473 or ECONOM 9473

ECONOM 9447: Topics in Microeconomic Policy Analysis
(same as PUB_AF 9447). Applies the methods and techniques of microeconomics and to specific timely policy questions. Taught by applied-microeconomics faculty and focuses on current topics in labor economics, public economics, the economics of education, health economics, and other applied areas of microeconomics.
Credit Hours: 3
Prerequisites: ECONOM 8451, ECONOM 8472, ECONOM 9446
Recommended: Concurrent enrollment in ECONOM 8473 or ECONOM 9473

ECONOM 9451: Advanced Microeconomic Theory I
The theory of rational behavior and partial equilibrium in markets. Topics include consumer behavior, theory of the firm, decisions making under uncertainty, perfect competition, monopoly and monopsony, and imperfect competition. Graded on A/F basis only.
Credit Hours: 3
Prerequisites: ECONOM 9451 or instructor's consent; PhD standing

ECONOM 9452: Advanced Microeconomic Theory II
Survey of equilibrium theory and market failures in economics. Topics include the structure and modeling of games, and cooperative and non-cooperative equilibrium concepts.
Credit Hours: 3

ECONOM 9453: Advanced Macroeconomic Theory I
Aggregate models of life-cycle microfoundations, of macroeconomics fluctuations and growth. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: departmental consent; PhD standing

ECONOM 9454: Advanced Macroeconomic Theory II
Analyzes topics in income analysis, including capital theory and economic dynamics.
Credit Hours: 3
Prerequisites: ECONOM 9453 or instructor's consent

ECONOM 9455: Monopoly and Competition
A survey of the theoretical and empirical literature on the organization of industries. Includes study of monopolized markets, competitive markets, and strategic interaction among firms in imperfectly competitive markets. Both the rationale and practice of anti-trust policy are studied.
Credit Hours: 3
Prerequisites: ECONOM 9452 and ECONOM 9471 or instructor's consent

ECONOM 9457: Computational Economics
Covers numerical and computational methods to solve economic models at the research frontier. Emphasis is on practical applications to prepare students for independent research. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: ECONOM 8451 and ECONOM 8453 and ECONOM 8472

ECONOM 9460: Development Economics
Theories of economic development critically examined. Sources and consequences of growth processes analyzed in context of economic theory and historical occurrence.
Credit Hours: 3
Prerequisites: ECONOM 8451 and ECONOM 8472

ECONOM 9471: Advanced Game Theory
Presents core concepts in game theory and illustrates their uses with a range of applications.
Credit Hours: 3
Prerequisites: ECONOM 9452 or instructor's consent

ECONOM 9472: Econometric Theory I
Analysis of linear regression models from an advanced statistical perspective.
Credit Hours: 3
Prerequisites: Department consent required

ECONOM 9473: Econometric Theory II
Analysis of nonlinear regression models and other essential econometric tools not covered in ECONOM 9472 from an advanced statistical perspective.
Credit Hours: 3
Prerequisites: ECONOM 9472 or instructor's consent

ECONOM 9474: Advanced Topics in Econometrics I
Equips students with some essential tools for conducting publishable econometric research. Topics at the discretion of the instructor - typically time series analysis. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: ECONOM 9473 or instructor's consent

ECONOM 9476: Advanced Topics in Econometrics II
Equips students with some essential tools for conducting publishable econometric research. Topics at the discretion of the instructor - typically microeconometrics.
Credit Hours: 3
Prerequisites: ECONOM 9473 or instructor's consent

ECONOM 9477: Advanced Topics in Econometrics III
Equips students with some essential tools for conducting publishable econometric research. Topics at the discretion of the instructor - typically the second semester of a two-semester time series sequence beginning with ECONOM 9474 or a two-semester microeconometrics sequence beginning with ECONOM 9476.
Credit Hours: 3
Prerequisites: ECONOM 9473 or instructor's consent

ECONOM 9480: Independent Readings for Ph.D. Comprehensive Examinations
Independent Readings for Ph.D. Comprehensive Exam. Graded on S/U basis only.
Credit Hour: 1-6

ECONOM 9484: Economic History
Techniques of the new economic history are explored in the context of European economic development.
Credit Hours: 3
Prerequisites: ECONOM 8451

Education Honors Courses
EDUC_H 3050H: Special Readings in Education Honors
Directed study of literature and research reports in education.
Credit Hour: 1-4
Prerequisites: Honors eligibility required

EDUC_H 3060H: Honors Seminar in Education Honors
Credit Hour: 1-2
Prerequisites: Honors eligibility required

EDUC_H 3070H: Special Practicum in Education Honors
Directed practicum experience with students in educational settings.
Credit Hour: 1-4
Prerequisites: Honors eligibility required

EDUC_H 3080H: Honors Research in Education Honors
Joint research in education with a member of the education faculty.
Credit Hour: 1-4
Prerequisites: Honors eligibility required

EDUC_H 4996H: Undergraduate Reading Honors
This course is designed to introduce students to a variety of readings from a broad array of research, historical, contemporary and philosophical documents and writings. Selection of topics and additional readings are determined by the faculty instructor for the course. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: instructor's consent; Honors eligibility required

EDUC_H 4997H: Honors Undergraduate Seminar I
This class will consist of a 1 credit hour seminar. The class is designed to allow undergraduates to develop the skills necessary to engage in practical research for application within the field of teaching and education. The cumulating assignment for the class is a proposal for a research poster or presentation to be presented at the undergraduate research fair held each year in May. Graded on A-F basis only.
Credit Hour: 1
Prerequisites: instructor's consent; Honors eligibility required

EDUC_H 4998H: Honors Undergraduate Seminar II
The class will consist of a 1 credit hour seminar. The class is designed to allow undergraduates to develop the skills necessary to engage in practical research for application within the field of teaching and education. The cumulating assignment for the class is the production of a research poster or presentation at the undergraduate research fair held each year in May. Graded on A-F basis only.
Credit Hour: 1
Prerequisites: instructor's consent; GPA of 3.5 or higher. Honors eligibility required

EDUC_H 4999H: Honors Undergraduate Research Seminar
This class will be offered over 2 academic semesters and will consist of a 1-2 credit hour lab each semester with a College of Education faculty member working on an undergraduate research project. This course is designed as part of the Honors sequence. Graded on A-F only.
Corequisites: EDUC_H 4997H and EDUC_H 4998H
Credit Hour: 1-2
Prerequisites: instructor's consent; Honors eligibility required

EDUC_H 4999H: Honors Undergraduate Research Seminar
This class will be offered over 2 academic semesters and will consist of a 1-2 credit hour lab each semester with a College of Education faculty member working on an undergraduate research project. This course is designed as part of the Honors sequence. Graded on A-F only.
Corequisites: EDUC_H 4997H and EDUC_H 4998H
Credit Hour: 1-2
Prerequisites: instructor's consent; Honors eligibility required

Educational Leadership and Policy Analysis Courses
ED_LPA 3100: Foundations of Education
Focus on developing a theoretical and conceptual knowledge of leadership. In addition, skill building-exercises will take place through group case studies and role playing exercises allowing each student to identify and achieve methods for personal development.
Credit Hour: 1-3
ED_LPA 4060: Inquiring into Schools, Community and Society II
(same as ED_LPA 7060). Required 3 hour course for students pursuing teacher certification. Designed to transition students into the teaching internship through study of teacher roles, school organizations and cultures, and community contexts.

Credit Hours: 3
Prerequisites: LTC 2040

ED_LPA 7060: Inquiring into Schools, Community and Society II
(same as ED_LPA 4060). Required 3 hours course for students pursuing teacher certification. Designed to transition students into the teaching internship through study of teacher roles, school organizations and cultures, and community contexts. Prerequisites: LTC 2040 and LTC 7040

Credit Hours: 3

ED_LPA 7085: Problems in Educational Leadership and Policy Analysis
Problems in Educational Leadership and Policy Analysis
Credit Hour: 1-99

ED_LPA 7301: Topics in Educational Leadership and Policy Analysis
Group study of topics in educational leadership, policy analysis, and higher and continuing education.
Credit Hour: 1-99

ED_LPA 7458: Sociology of Education
(same as SOCIOL 7410; cross-leveled with SOCIOL 4410). Contexts, structures and processes of schooling; effects on class, race, ethnicity and gender; social change, educational policy, and organizational dynamics; higher education and the economy.
Credit Hours: 3
Prerequisites: SOCIOL 1000 or equivalent

ED_LPA 7822: College Teaching with Technology I
Examines the use of educational technologies, both class room based (e.g., student response systems) and online (e.g., course management’s systems), to assist in the dissemination of course resources and the facilitation of student interaction.
Credit Hour: 1

ED_LPA 7823: College Teaching with Technology II
Integrates learning technologies into the traditional framework of a face-to-face course by creating a course website and developing technical proficiency with relevant educational technologies.
Credit Hour: 1
Prerequisites: College Teaching I or instructor's consent

ED_LPA 8409: Learning, Curriculum and Assessment for School Leaders
Addresses assessment, learning and curriculum and the integration of the instructional and assessment processes. Topics include authentic assessment, curriculum alignment, cognition and learning, instructional approaches, and application of student learning theory to the curriculum.

Credit Hours: 3

ED_LPA 8410: Learning Cultures
Integrates the themes of building a common purpose to enhance school culture, empowering teachers and students, and diversity. Topics include importance of shared mission and vision, the use of group processes and collaboration, the intricacies of school culture, and ethical and moral leadership.

Credit Hours: 3

ED_LPA 8411: Professional Development for Learning
Focuses on the professional development and reflection on practice. Topics include organizational actions and personal responsibility, life-long learning, and public education in a democratic society.

Credit Hours: 3

ED_LPA 8412: School Improvement
This course addresses the topics of organizational management and personal inquiry. It covers issues such as organizational effectiveness, organizing for an effective school environment, legal and fiscal decision-making and responsibilities of school leaders, creating an environment where stakeholders acquire and utilized data to inform decisions and practice, and where action research methods are utilized to evaluate and inform practice.

Credit Hours: 3

ED_LPA 8413: Internship
The internship experience provides the opportunity for the student to assume a leadership role associated with instructional improvement. Graded on S/U basis only.

Credit Hour: 1-11

ED_LPA 8414: Current Issues in Site-Level Leadership
This course is designed to introduce students to the rigors of the principalship. Topics will include issues affecting beginning principals, school cultures, and the use of technology for communication and research.

Credit Hours: 3

ED_LPA 8415: Leadership for Collaborative Cultures
This course will instill an understanding of major components of purposeful, systemic change, interpersonal relationships, communication and organizational management. The development of an appreciation of diversity, equity, and democracy for all students will be an ongoing theme of the course.

Credit Hours: 3

ED_LPA 8416: Foundations of School Leadership
School leader knowledge of student learning theory and related instructional practices is the focus of this course. The problem-based learning format will include topics on school culture, leadership
communication, technology, and conflict resolution. Issues concerning professional relationships are also addressed.

Credit Hours: 3

ED_LPA 8417: Site-Level Organization and Leadership
Student will study state and national regulations that affect Missouri school policies. The student will develop a database on various legal issues. A study of middle level education will conclude with on-site evaluation of a local middle school.

Credit Hours: 3

ED_LPA 8418: Supervision for Learning Environments
Students are prepared to articulate, recognize, and support classroom practices that reflect the most current principles of learning. Effective instructional strategies that link this knowledge to practice will be entered into a computer database.

Credit Hours: 3

ED_LPA 8419: Structures and Processes for Effective Schools
Emphasis is placed on the Missouri Comprehensive Guidance Program and positive strategies for working with challenging students. A continuation of the study of state and national legal and policy issues will focus on special programs and services.

Credit Hours: 3

ED_LPA 8420: Curriculum for Site-Level Leadership
Student and program assessment are the primary topics for this course on curriculum leadership. Class participants are engaged in the development of authentic experiences using technology to develop and apply the testing and assessment knowledge appropriate to school leaders.

Credit Hours: 3

ED_LPA 8421: Action Research in School Leadership
Databases on legal and policy issues are completed and merged into a single database and placed on the specialist program web site. Site and classroom level action research is investigated, concluding with an assessment of local action research efforts in area schools.

Credit Hours: 3

ED_LPA 8422: Advanced Problems of Leadership Practice
This pre-internship course is a study of team building, program assessment, and site-based management. Addressing problems through a comprehensive school improvement approach with practicing principal will serve to prepare the students for internship experiences.

Credit Hours: 3

ED_LPA 8423: Advanced Leadership for Learning Environments
Students will demonstrate their understanding of instructional improvement for all teachers and students by designing and defending a comprehensive strategy for instructional changes in a simulated school. The ongoing study of learning principles and effective instructional practices will be concluded.

Credit Hours: 3

ED_LPA 8424: Education Politics and Policymaking
This course examines the politics and policymaking process of education in the United States, paying particular attention to the influence of various institutions and actors at local, state, and federal levels. Graded on A-F basis only.

Credit Hours: 3

ED_LPA 8428: Curriculum Leadership
A study of research, theory, and skills necessary for curriculum leadership in educational organizations. Course includes generic curriculum management processes, design trends, controversial issues multi-media, innovative instructional techniques, and program evaluation.

Credit Hours: 3

ED_LPA 8430: School Law and Finance for Principal Leadership
Designed to engage learners in examination of the legal (judicial and legislative)system, school law, and finance policies that govern public schools and their fiscal resources in the United States and the State of Missouri. Graded on A-F basis only.

Credit Hours: 3

ED_LPA 8431: Leadership for Data-Driven Change
This course instructs school leaders on how to use data for school improvement. Students will: identify reliable sources of data; develop, implement, and monitor strategic School Improvement Plans using data; analyze data using technology; and describe evidence-based strategies that respond to data analysis. Graded on A-F basis only.

Credit Hours: 3

ED_LPA 8432: Introduction to Improvement Systems in Education
This course explores tools and techniques of comprehensive school improvement systems, including theoretical, historical, and empirical frameworks in the field. Intended for school administrators, board members, and teacher-leaders involved in school improvement.

Credit Hours: 3

ED_LPA 8433: Education Toward Bi/Multilingualism: Theory, Policy, and Practice
(same as LTC 8653). Overview of the theory, policy, and practice of using at least two languages in education to develop children's bi/multilingualism. Key topics include: (1) models of bilingual/multilingual education; (2) policy and politics of language education in the U.S. and international contexts; (3) psycholinguistic and sociocultural perspectives on bi/multilingual language development, as related to schooling; and (4) evaluation and assessment issues in bi/multilingual education.

Credit Hours: 3

ED_LPA 8955: Discourse Analysis in Education
(same as LTC 8955). This course introduces the theories and methods of discourse analysis, including conversation, critical discourse, and multimodal. Students will analyze the role of context and ethics, as they transcribe and analyze discourse, especially from analytical settings. Graded on A-F basis only.
ED_LPA 8957: Qualitative Methods in Educational Research I
(same as LTC 8957 and ESC_PS 8957). This course provides a practical introduction to qualitative research and its applications in education and social sciences. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: ESC_PS 8957 and ESC_PS 9620

ED_LPA 9090: Research in Educational Leadership and Policy Analysis
Graded on a S/U basis only.

Credit Hour: 1-99
Prerequisites: departmental consent

ED_LPA 9095: Problems in Educational Leadership and Policy Analysis
Credit Hour: 1-99
Prerequisites: instructor's consent

ED_LPA 9400: Social Theory in Education
Students will examine the relationship of society and education through a variety of theoretical perspectives and empirical studies. These theories deal with the relation of education to society as a whole, and the relation between education and the state. Graded on A-F basis only.

Credit Hours: 3

ED_LPA 9401: Educational Leadership
Critical examination of key leadership theories and their application to various educational contexts. Includes consideration of research methods and designs appropriate for the study of leadership and the spectrum of lenses through which educational leadership is studied.

Credit Hours: 3

ED_LPA 9402: Educational Policy Analysis
Course centers on developing multiple understandings of the education policy making process. Theoretical constructs used to advance those understandings are eclectic in nature, drawing from the fields of political science, history, sociology and economics.

Credit Hours: 3

ED_LPA 9403: Organizational Analysis
Analysis of organizational characteristics and principles in educational organizations. Topics include: Organizational theories and models, organizational culture, communication, innovation, planning, leadership, power and influence, and external environment influences.

Credit Hours: 3

ED_LPA 9404: Inquiry into Educational Leadership and Policy Analysis
A critical overview of theory development, research paradigms, and research ethics in the department of Educational Leadership and Policy Analysis. Required for all ELPA Ph.D. students.

Credit Hours: 3

Recommended: for students who have completed at least 2 semesters of coursework

ED_LPA 9405: Seminar in Educational Leadership and Policy Analysis
Seminar in Educational Leadership and Policy Analysis

Credit Hour: 1-99

ED_LPA 9406: Seminar in Educational Administration
Seminar in Educational Administration

Credit Hour: 1-99

ED_LPA 9407: Seminar in Educational Policy
Seminar in Educational Policy

Credit Hour: 1-99

ED_LPA 9408: Seminar in Higher Education
Seminar in Higher Education

Credit Hour: 1-99

ED_LPA 9409: Introduction to Research Design
This course provides an introduction to quantitative, qualitative, and mixed methods research, with an emphasis on the epistemological and ontological issues that inform our choice of research methods. This course is intended for first year doctoral students. Graded on A-F basis only.

Credit Hours: 3

ED_LPA 9424: Superintendent: Instructional Leadership
Effective superintendents understand educational core knowledge of curriculum, instructional and assessment. They establish an exception for the use of best instructional practices for all students among both the educational and public communities. Graded on A-F basis only.

Credit Hours: 3

ED_LPA 9427: School Budget Development and Fiscal Management
This course includes an overview of school finance programs of the 50 states, including special funds for exceptional children and compensatory education. Various aspects of planning, accounting, auditing, and reporting related to budget development and fiscal management are covered.

Credit Hours: 3

ED_LPA 9429: Superintendent: Communication, Team Leadership
Effective superintendents negotiate political and cultural challenges to lead diverse, socially-just school systems. Reflective practices that enhance competence in public board member, and district personnel relationships are essential skills. Graded on A-F basis only.

Credit Hours: 3

ED_LPA 9430: Superintendent: Fiscal, Legal Leadership
Effective superintendents efficiently manage finances and ensure that rules, regulations, and policies adhere to statutory/case law. Fiscal and
ED_LPA 9437: Topics in Educational Leadership and Policy Analysis
Topics in Educational Leadership and Policy Analysis
Credit Hours: 1-99

ED_LPA 9439: Applying Higher Education Research to Practice
This course introduces quantitative, qualitative, and mixed within a student affairs context. Students will become familiar with, and able to critique research. Course graded on A-F basis only.
Credit Hours: 3

ED_LPA 9440: Race, Gender, and Ethnicity in Higher Education
(same as WGST 9440). Historical and current issues of race, gender, and ethnicity in colleges and universities in the U.S. Issues include: students, faculty, and staff experiences of diversity, access and equity, and salience of diversity in a higher education setting.
Credit Hours: 3

ED_LPA 9441: The Adult Learner
The identification of learning, motivation and participation patterns among adults will be examined. Learning theories and adult development life-cycle and stage research data will be explored as well as their implications for practice.
Credit Hours: 3

ED_LPA 9442: Curriculum Philosophy and Development in Higher Education
A study of the philosophical foundations of postsecondary curricula, current trends and issues, and approaches to curriculum reforms and revisions.
Credit Hours: 3

ED_LPA 9444: Program Planning in Higher Education
Analysis of program planning and evaluation in higher education. Topics include: conceptualizations of program planning, situational analysis, needs assessment, priority setting, marketing and promotion, and program evaluation.
Credit Hours: 3

ED_LPA 9445: College Student Development
Emphasis on college student development theory and its application in student affairs work.
Credit Hours: 3

ED_LPA 9446: Student Affairs Administration
History, philosophy, theory, and issues pertinent to student affairs work.
Credit Hours: 3

ED_LPA 9447: College Student Culture and Environment
This course examines the characteristics and outcomes of American undergraduates, and the aspects of the college environment the differentially influence students. Topics include: theoretical models of students change, campus climate and cultures, learning communities, institutional differences, and conditions for success.
Credit Hours: 3

ED_LPA 9448: College Teaching
Designed to introduce students to theories and practices central to teaching in a higher education setting. Teaching related to institutional contexts and disciplines will be considered. Teaching and learning theories will be introduced.
Credit Hours: 3

ED_LPA 9449: History of Higher Education in the United States
A study of the transformation of the English college tradition to what higher education is currently in the United States. The emphasis is on how institutions of higher learning changed to meet the needs of the nation or failed to do so.
Credit Hours: 3

ED_LPA 9450: Administration and Governance of Higher Education
Principles of administration, academic culture and environment, and structures of governance of higher education will be explored.
Credit Hours: 3

ED_LPA 9451: Higher Education Finance
How students pay for college and how institutions finance their operations is explored through the lens of economics. Topics include: Theories of student access, tuition and financial aid policy, institutional costs and revenue patterns, and resource allocation models.
Credit Hours: 3

ED_LPA 9452: Overview of Higher Education
This course provides an overview of American Higher education. Emphasis is placed on how these institutions currently operate and what issues dominate current discussions of academe.
Credit Hours: 3

ED_LPA 9453: Continuing Education for the Professions
Comparative study of education for the professions. Examination of professions as occupations, approaches and goals of preparatory and continuing education, professionals as adult learners and influence of intra-profession issues and societal exchange on education.
Credit Hours: 3

ED_LPA 9454: Introduction to Post-Secondary Law
Examination of the legal structure within which higher education operates. Includes consideration of legal analysis of case law, institutional responsibilities under the law, and analysis of legal issues within postsecondary education.
Credit Hours: 3
ED_LPA 9455: The Community College
An overview of the community college. Topics include historical roots and development of the community college, organization and governance, finance, students, faculty, administrators, curriculum, social role, and recurring and emerging issues.
Credit Hours: 3

ED_LPA 9456: The Professoriate
Overview of faculty roles and work in U.S. colleges and universities. Explores institutional and disciplinary differences and seeks to prepare future faculty for academic life.
Credit Hours: 3

ED_LPA 9457: Higher Education Policy
An overview of current higher education policy issues facing governmental bodies and institutions. An emphasis is placed on investigating both the policy-making and policy-evaluation processes through multiple theoretical lenses. Specific topics explored include access, equity, and accountability within the higher education setting.
Credit Hours: 3

ED_LPA 9459: Comparative and International Education
Theories, methods and issues in the field of comparative and international education. Topics cover PK-16 education and include globalization, centralization and decentralization, equity and equity, teaching and student learning, and social context of education.
Credit Hours: 3

ED_LPA 9460: Philosophic Theory in Education
Examines major ideological movements in modern education; their social antecedents and philosophic underpinnings.
Credit Hours: 3

ED_LPA 9461: Ethics in Education
Explores the ethical dimensions of work within and related to educational settings focusing on dilemmas that occur in professional practice, theories that inform thinking about ethical issues, and frameworks that guide ethical decision making.
Credit Hours: 3

ED_LPA 9462: History of U.S. Education Policy
Provides overview of major US education issues (primary K-12), explores analytic tools for studying history of education and introduces multiple ways of constructing the history of a particular movement reform or era in education.
Credit Hours: 3

ED_LPA 9463: Politics of Education
Focuses on politics of education in the United States, attending to the influence of various institutions and actors at local, state, and federal levels. Students will examine current reforms in PK-12 education and their impact on the future of education.
Credit Hours: 3

ED_LPA 9464: Theory and Practice in Multicultural Education
Designed to give educational professionals a better understanding of the theoretical foundations of multicultural education as well as current practices in this field.
Credit Hours: 3

ED_LPA 9465: Policy Analysis Using Large Data Bases
Intends to develop students' capacity to process national level large databases and to conduct policy-related research.
Credit Hours: 3
Prerequisites: an understanding of inferential statistics and experience with SPSS and SAS program

ED_LPA 9469: Education Leadership Inquiry IV
Developing and writing research proposals and conducting pilot studies. Knowledge and skills in writing the research report and sharing research with others.
Credit Hour: 1
Prerequisites: ED_LPA 9471, ED_LPA 9472 and ED_LPA 9473. Open only to students in Ed.D. Program in Educational Leadership

ED_LPA 9470: Organizational Analysis for Educational Leadership
Schools of organizational theory, six frames to analyze organizations and their underlying concepts, organizational change and leadership for change, and rationale for reframing organizations.
Credit Hours: 4
Prerequisites: Open only to students in Ed.D. program in Educational Leadership

ED_LPA 9471: Educational Leadership Inquiry I
Introductory seminar on evaluating research using, APA Publication guidelines, writing scholarly publications, and using computer technology for literature searches.
Credit Hours: 2
Prerequisites: Open only to students in Ed.D. Program in Educational Leadership

ED_LPA 9472: Educational Leadership Inquiry II
MU Graduate School policies related to doctoral research, use of multiple search sources, human subjects review process, and research ethics.
Credit Hour: 1
Prerequisites: Open only to students in Ed.D. program in Educational Leadership

ED_LPA 9473: Educational Leadership Inquiry III
Knowledge and skills in applying planning procedures for development and implementation of future dissertation research.
Credit Hour: 1
Prerequisites: Open only to students in Ed.D. Program in Educational Leadership

ED_LPA 9474: Professional Seminar I
Focuses on diversity and ethics in educational leadership and educational organizations. Students learn about professional
development, professional practice, and professional service. May be repeated for credit.

**Credit Hour:** 1  
**Prerequisites:** Open only to students in Ed.D. Program in Educational Leadership

**ED_LPA 9475: Professional Seminar II**  
Problem-based learning via the Internet to make decisions involving professional practice and problem solving. The UCEA Internet program, Information Environment for School Leader Preparation, is used. May be repeated for credit.

**Credit Hour:** 1  
**Prerequisites:** Open only to students in Ed.D. Program in Educational Leadership

**ED_LPA 9476: Leadership Theory and Practice**  
An advanced study of leadership theories, concepts, and inquiry as applied to educational organizations. Explores power and authority in organizations, leader effectiveness, and organizational reform.

**Credit Hours:** 3  
**Prerequisites:** Open only to students in Ed.D. Program in Educational Leadership

**ED_LPA 9477: Leadership Theory and Practice Application**  
Focuses on building understanding of the conduct of leadership in organizations through application and extension of leadership theories in practice.

**Credit Hour:** 1  
**Prerequisites:** Open only to students in Ed.D. Program in Educational Leadership

**ED_LPA 9478: Policy Analysis for Educational Leadership**  
Analysis and investigation of educational policy utilizing various knowledge bases; organizational politics and culture’s impact on policy processes; interpretation and application of policy-making activities.

**Credit Hours:** 4  
**Prerequisites:** Open only to students in Ed.D. Program in Educational Leadership

**ED_LPA 9479: Content and Context of Learning**  
Students develop the knowledge and skills for examining designing, and implementing organizational, classroom, and training conditions that support quality learning experiences for learners.

**Credit Hours:** 3  
**Prerequisites:** Open only to students in Ed.D. Program in Educational Leadership

**ED_LPA 9480: Team Building and Group Dynamics**  
Stages of group development, team building and maintenance, team/group structures, team performance, problem-based learning as team process, and empowerment through development of self-managed teams.

**Credit Hour:** 1  
**Prerequisites:** Open only to students in Ed.D. Program in Educational Leadership

**ED_LPA 9481: Internship in Educational Leadership and Policy Analysis**  
Some sections may be graded on A-F or S/U basis only.

**Credit Hour:** 1-99  
**Prerequisites:** departmental consent

General introduction to quantitative methods of data analysis. Develop concepts of measurement, design, and analysis. The focus is on data driven decision making and using various quantitative methods to investigate problems of educational leadership practice. Graded on A-F basis only.

**Credit Hours:** 3  
**Prerequisites:** Only students in the Statewide Cooperative Ed.D. program in Educational Leadership can enroll

**ED_LPA 9483: Qualitative Tools for Applied Research in Educational Leadership**  
Students will learn about a number of qualitative research designs that leaders can use to critically examine research questions in their practice. They will also learn to analyze educational issues and execute processes to effectively explore those issues. Graded on A-F basis only.

**Credit Hours:** 3  
**Prerequisites:** Restricted to students in the Statewide Cooperative Ed.D. Program in Educational Leadership

**ED_LPA 9484: Program Evaluation and Planning for Educational Leaders**  
Participants develop thorough knowledge of theoretical underpinnings of selected approaches to program planning and evaluation and their necessary integration. Affords participants the opportunity to plan, conduct and deliver the results of a program evaluation to actual client. Graded on A-F basis only.

**Credit Hours:** 3  
**Prerequisites:** Only students in the Statewide Cooperative Ed.D. Program in Educational Leadership can enroll

**ED_LPA 9620: Qualitative Methods in Educational Research II**  
(same as ESC_PS 9620 and LTC 9620). This course constructs a conceptual and methodological bridge between the understandings of qualitative research developed in Qualitative Methods I and more advanced study of theories, designs, and methods. The focus is on theory, approaches to data analysis, and interpretation. Graded on A-F basis only.

**Credit Hours:** 3  
**Prerequisites:** ESC_PS 8957

---

**Educational, School and Counseling Psychology Courses**

**ESC_PS 1901: Topics in Educational School, and Counseling Psychology - General**  
Topics place holder for lower division courses.
ESC_PS 2000: Experiencing Cultural Diversity in the United States
The purpose of this course is to examine cultural diversity in U.S. Society, to increase self-awareness related to worldviews and beliefs about diversity issues, and to increase understanding of the intersections of multiple group identities. Graded on A-F basis only.
Credit Hours: 3

ESC_PS 2010: Inquiry Into Learning I
This course is designed to focus students on the central themes of learning and teaching. Emphasis will be placed on the interaction of theory, philosophy and practice as related to the field of education. Required for Phase II of the certification program.
Credit Hours: 3

ESC_PS 2014: Inquiry into Learning I - Field Experience
This field experience course supports the Inquiry into Learning I, component of Phase I. Graded on S/U basis only.
Credit Hour: 1
Recommended: departmental consent

ESC_PS 2014H: Inquiry into Learning I - Field Experience - Honors
This field experience course supports the Inquiry into Learning I, component of Phase I. Graded on S/U basis only.
Credit Hour: 1
Prerequisites: Honors eligibility required
Recommended: Departmental consent

ESC_PS 2100: Career Explorations
Contribution of career development theory to choice of career and/or major. Exploration of personal and social determinants of career choice. Class consists of lecture, laboratory experiences, and use of facilities at the Career Planning and Placement Center. Some sections may be graded on either A-F basis or S/U basis only.
Credit Hour: 1-3

ESC_PS 2350: Transforming Stress: Heart Rate Variability Biofeedback
This course will offer an in-depth opportunity to learn the philosophy and management of stress through a computer-based biofeedback system. Students will develop a personal practice, track their progress and learn skills in using this technology for a range of concerns.
Credit Hour: 1

ESC_PS 2400: Learning and Instruction
The nature of human learning processes with implications for instruction. Emphasis on bases of and readiness for learning, types of learning, memory forgetting and transfer, and related topics.
Credit Hours: 2

ESC_PS 2500: Child Development
The psychological, intellectual, social, and physical development of children.

ESC_PS 2700: Psychological Perspectives in Sport
Survey of sport psychology literature with focus upon such topics as personality, positive and negative affect, cognitive and behavioral intervention, motivation, aggression, audience effects, team cohesion, team building, leadership, exercise, and multicultural issues.
Credit Hours: 3

ESC_PS 2901: Topics in Educational School, and Counseling Psychology - General
Topics place holder for lower division courses.
Credit Hour: 1-3

ESC_PS 3085: Problems in Educational, School, and Counseling Psychology
Credit Hour: 1-3
Recommended: instructor's consent

ESC_PS 3100: African-American Psychology
(same as BL_STU 3100 and PSYCH 3880). The research, theories and paradigms developed to understand the attitudes, behaviors and psychosocial realities of African-Americans are discussed.
Credit Hours: 3
Prerequisites: PSYCH 1000

ESC_PS 3200: Black Feminism
This course outlines the basic principles and practices of Black feminism in the United States. Examination of the multiple systems of oppression on Black women's lives and Black women's collective actions against social structures will occur.
Credit Hours: 3
Recommended: PSYCH 1000 or instructor's consent

ESC_PS 3901: Topics in Educational School, and Counseling Psychology - General
Topics place holder for lower division courses.
Credit Hour: 1-3

ESC_PS 4087: Seminar in Educational, School, and Counseling Psychology
Credit Hour: 1-3
Recommended: instructor's consent

ESC_PS 4115: Human Learning
An introduction to the basic principles of learning. Focus is on principles of learning which have the greatest utility for professional educators. This course provides a foundation for more advanced courses in human learning.
Credit Hours: 3
ESC_PS 4120: Foundations of Counseling Psychology
Survey of contemporary theories underlying individual feminist, family systems, and multicultural approaches to counseling. Introduction to professional and ethical issues in Counseling Psychology.
Credit Hours: 3
Recommended: departmental consent

ESC_PS 4160: Developmental Aspects of Human Learning
Investigates aspects of human development that affect classroom learning. Topics include parenting style, divorce, friendship, mental health, attachment, play, aggression, culture, and media.
Credit Hours: 3

ESC_PS 4170: Introduction to Applied Statistics
Introduces statistical techniques including descriptive statistics, correlation, simple regression and hypothesis testing. Math Reasoning Proficiency Course.
Credit Hours: 3
Recommended: College Algebra or equivalent

ESC_PS 4185: Health Behavior: Drug and Sexuality Education
Psychological, social, and physical factors related to drug taking and sexuality behaviors.
Credit Hours: 3
Recommended: instructor's consent

ESC_PS 4200: Positive Psychology
Using self-actualization and self-determination theory, the course builds on identifying personal strengths in people. An emphasis is placed on developing interventions that promote positive thinking. Some sections graded on either A-F or S/U basis only.
Credit Hours: 3

ESC_PS 4460: Exploring Mental Health Issues in Schools
This course is an introduction to the mental health challenges found in schools. It provides education professionals with the knowledge and basic skills to promote positive mental health practices in the schools.
Credit Hours: 3

ESC_PS 4901: Topics in Educational School, and Counseling Psychology - General
Topics place holder for lower division courses.
Credit Hour: 1-3

ESC_PS 4960: Readings in Educational, School, and Counseling Psychology
Credit Hour: 1-3
Recommended: instructor's consent

ESC_PS 7000: Foundation of Teacher Prep I
Designed for graduate students seeking teacher certification, this course addresses content and application in comprehensive classroom management, development, behavior management, and diversity. Field work is required and integrated with course content.
Credit Hours: 3
Prerequisites: PSYCH 1000

ESC_PS 7087: Seminar in Educational, School, and Counseling Psychology
Credit Hour: 1-3
Prerequisites: instructor's consent

ESC_PS 7100: Theories and Applications of Educational Psychology
An introduction into the ideas and purpose of Educational Psychology in human development, learning, assessment/measurement and education.
Credit Hours: 3
Prerequisites: PSYCH 1000

ESC_PS 7115: Human Learning
An introduction to the basic principles of learning. Focus is on principles of learning which have the greatest utility for professional educators. This course provides a foundation for more advanced courses in human learning. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: ESC_PS 4100 or ESC_PS 7100

ESC_PS 7120: Foundations of Counseling Psychology
Survey of contemporary theories underlying individual, feminist, family systems, and multicultural approaches to counseling. Introduction to professional and ethical issues in Counseling Psychology.
Credit Hours: 3
Prerequisites: departmental consent

ESC_PS 7130: Parent Counseling and Consultation
For personnel working with parents in professional settings. Examines current family needs and child-rearing practices. Basic skills in diagnosis, counseling, consultation, parent education are developed.
Credit Hours: 3
Prerequisites: ESC_PS 4120 or ESC_PS 7120
ESC_PS 7150: Interviewing and Counseling
Study of beginning interviewing and counseling skills applied to helping relationships in human services professions. Emphasis placed on learning helping skills in small group format. Lab required.

Credit Hours: 3
Prerequisites: PSYCH 1000 or PSYCH 1010

ESC_PS 7160: Developmental Aspects of Human Learning
Investigates aspects of human development that affect classroom learning. Topics include parenting style, divorce, friendship, mental health, attachment, play aggression, culture, and media. Graded on A-F basis only.

Credit Hours: 3

ESC_PS 7170: Introduction to Applied Statistics
Introduces statistical techniques including descriptive statistics, correlation, simple regression and hypothesis testing. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: College Algebra or equivalent

ESC_PS 7180: Foundations of Rehabilitation
The vocational and independent living rehabilitation system for disabled persons. Concept of disability, its social psychological implications, and techniques of preparing disabled persons for adult adjustment.

Credit Hours: 3
Prerequisites: PSYCH 1000

ESC_PS 7185: Health Behaviors: Drug and Sexuality Education
Psychological, social and physical factors related to drug taking and sexuality behaviors.

Credit Hours: 3
Prerequisites: LTC 1310 or equivalent or instructor's consent

ESC_PS 7190: Alcohol Abuse and Rehabilitation I
Covers historical perspective, definition and measurement of the problem, classifications and theories about the etiology of alcoholism.

Credit Hours: 3
Prerequisites: ESC_PS 4120 or ESC_PS 7120 or ESC_PS 4180 or ESC_PS 7180 or instructor's consent

ESC_PS 7195: Sport and Applied Coaching Psychology
Sport and Applied Coaching Psychology is a fusion of positive psychology and sport psychology. Positive psychology teaches coaches a healthy approach based in positive motivation and behavior modeling. Sport psychology helps coaches identify with the mental training of athletes and its role in delivering maximum performance. Course focus is on helping coaches maximize the potential of their athletes and teams, while also building upon their emotional and psychological wellbeing.

Credit Hours: 3

ESC_PS 7200: Positive Psychology
Positive psychology explores what is positive, creative, and fulfilling in human behavior. It is the scientific study of well-being and flourishing: what people do right. This course will examine cornerstones and key concepts such as emotions, engagement, relationships, strengths, virtues, meaning, and purpose. Proven as a very effective application in the realms of organizations, governments, businesses, education, counseling, etc., it is best originally understood by applying it to oneself.

Credit Hours: 3

ESC_PS 7220: Measurement of Cognitive Abilities
Analysis of the function of psychological testing and a critical examination of various achievement, aptitude, and intelligence assessment instruments.

Credit Hours: 3

ESC_PS 7260: Development of Character and Talent Strengths
This course will explore the development and application of psychological strengths through the lens of positive psychology theory, research, and intervention. Lessons feature strengths topics including identification, leadership, flow and engagement, regulation, goal-setting and motivation. At the end of the course, students will be proficient in the languages of the StrengthsFinder and VIA Character Strengths assessments, exploration and development oriented activities, and basic facilitator techniques. Graded on A-F basis only.

Credit Hour: 1

ESC_PS 7270: Motivation and Positive Psychology
This course is designed to give you a better understanding of your own motivation and the motivations of others. We will explore the whether, the what, the why, and the how of motivation through the study of Attribution and Achievement goal theories. In addition to conceptual knowledge, it is our hope that you broaden your personal knowledge, such as gain new insights on how to set and select self-appropriate goals. Additionally, we will explore techniques and recommendations for motivating others towards better performance, learning, and development. Graded on A-F basis only.

Credit Hour: 1

ESC_PS 7280: Mindfulness, Meditation and Wellbeing
This class explores both the historical roots and contemporary research related to mindfulness, meditation, and their impacts on wellbeing. Through readings, video presentations and applied practices students will expand their knowledge of meditation and Eastern influences on psychology. Students will also be encouraged to increase their personal awareness of the relationships between stress reduction, present moment and mind/ body awareness, and mindfulness practices. Students will be challenged to integrate a regular meditation practice into their daily routine and, through diverse readings, be introduced to cross-cultural perspectives on human health, psychology, and wellbeing. Graded on A-F basis only.

Credit Hour: 1

ESC_PS 7460: Foundations of School Mental Health
Study of beginning interviewing and counseling skills applied to helping relationships in human services professions. Emphasis placed on learning helping skills in small group format. Lab required.

Credit Hours: 3
Prerequisites: PSYCH 1000 or PSYCH 1010

ESC_PS 7720: Positive Psychology
Positive psychology explores what is positive, creative, and fulfilling in human behavior. It is the scientific study of well-being and flourishing: what people do right. This course will examine cornerstones and key concepts such as emotions, engagement, relationships, strengths, virtues, meaning, and purpose. Proven as a very effective application in the realms of organizations, governments, businesses, education, counseling, etc., it is best originally understood by applying it to oneself.

Credit Hours: 3

ESC_PS 7780: Measurement of Cognitive Abilities
Analysis of the function of psychological testing and a critical examination of various achievement, aptitude, and intelligence assessment instruments.

Credit Hours: 3

ESC_PS 7760: Development of Character and Talent Strengths
This course will explore the development and application of psychological strengths through the lens of positive psychology theory, research, and intervention. Lessons feature strengths topics including identification, leadership, flow and engagement, regulation, goal-setting and motivation. At the end of the course, students will be proficient in the languages of the StrengthsFinder and VIA Character Strengths assessments, exploration and development oriented activities, and basic facilitator techniques. Graded on A-F basis only.

Credit Hour: 1

ESC_PS 7770: Motivation and Positive Psychology
This course is designed to give you a better understanding of your own motivation and the motivations of others. We will explore the whether, the what, the why, and the how of motivation through the study of Attribution and Achievement goal theories. In addition to conceptual knowledge, it is our hope that you broaden your personal knowledge, such as gain new insights on how to set and select self-appropriate goals. Additionally, we will explore techniques and recommendations for motivating others towards better performance, learning, and development. Graded on A-F basis only.

Credit Hours: 3

ESC_PS 7780: Measurement of Cognitive Abilities
Analysis of the function of psychological testing and a critical examination of various achievement, aptitude, and intelligence assessment instruments.

Credit Hours: 3
to the school mental health framework emphasizing a behavioral health continuum of care, links between mental health and academic performance, a comprehensive system of learning supports, and data-based decision-making.

Credit Hours: 3

ESC_PS 7575: MU Youth Development Academy: Positive Youth Development in Practice
(cross-leveled with ESC_PS 4575). This course prepares students to apply principles of positive youth development to practice, including leading youth programs, developing organizational and community systems that support youth, and engaging others to create positive environments in which youth ages 5-19 grow, thrive, and make successful transitions to adulthood. Course topics include ages and stages of development, experiential learning, program planning, diversity and inclusion, youth/adult partnerships, volunteer systems, risk management, community partnerships, and creating environments for healthy relationships. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: restricted to graduate students (Master's and PhD)
Recommended: Prior course work in education, human development, family studies, sociology, social work, or other child and youth-related programs is highly preferred

ESC_PS 8000: Advanced Child Development
Psychological development from birth to adolescence. Examines the influence of maturation and learning upon the acquisition of normal development tasks. Emphasizes the application of current research and theory with the school-age child.

Credit Hours: 3
Prerequisites: ESC_PS 4100 or ESC_PS 7100

ESC_PS 8010: Advanced Adolescent Development
Analysis of normal adolescent psychological development, including the cognitive, affective, academic, physiological, moral and social parameters. Applications with typical adolescent problems are emphasized.

Credit Hours: 3
Prerequisites: ESC_PS 4100 or ESC_PS 7100

ESC_PS 8015: Child and Adolescent Development
A comprehensive analysis of normal development across the lifespan with a primary focus on children and adolescents. Will investigate the cognitive, affective, academic, physical, moral and social/cultural/racial domains. Examples of atypical development will be discussed. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: ESC_PS 4100 or equivalent

ESC_PS 8020: Overview of Research Methods
Survey of research design and methods of data collection for masters, educational specialists, and doctoral students.

Credit Hours: 3
Prerequisites: ESC_PS 7170 or instructor's consent

ESC_PS 8030: Role and Function of the School Psychologist
Introduction to major helping relationship approached in School Psychology, applied to various professional settings. History, current issues, trends, professional organizations, legal/ethical standards, discussed.

Credit Hours: 3
Prerequisites: enrollment in Educational School, and Counseling Psychology Program

ESC_PS 8040: Counseling Methods and Practices
Introduction to counseling microskills and techniques, with attention to case conceptualization, therapeutic alliance, and counseling process. Laboratory experience in demonstrating skills and the ability to form an effective counseling relationship is required.

Credit Hours: 3

ESC_PS 8050: Marriage and Family Counseling
Appropriate for students who work with couples and families in a professional setting. Examines major family and marriage theories and research, counseling, skill development communication, and marital/family enrichment.

Credit Hours: 3
Prerequisites: ESC_PS 8040

ESC_PS 8060: Lifespan Development
A comprehensive analysis of normal development across the lifespan with a primary focus on children and adolescents. Will investigate the cognitive, affective, academic, physical, moral, social/cultural/racial, religious/spiritual and sexual domains. Examples of atypical development will be discussed.

Credit Hours: 3
Prerequisites: ESC_PS 4100 or equivalent. Consent of instructor required

ESC_PS 8070: Ethical and Legal Issues in Psychological Practice
Legal and ethical concepts and issues relevant to the practice of psychology and student personnel services.

Credit Hours: 3
Prerequisites: ESC_PS 4120 or ESC_PS 7120 or instructor's consent

ESC_PS 8082: Foundations of Educational and Psychological Measurement
Basic principles of educational and psychological measurement including test construction, validity, reliability, item analysis, and derived scores.

Credit Hours: 3
Prerequisites: ESC_PS 4170 or ESC_PS 7170 or instructor's consent

ESC_PS 8085: Problems in Educational, School, and Counseling Psychology

Credit Hour: 1-3
Prerequisites: instructor's consent

ESC_PS 8087: Seminar in Educational, School, and Counseling Psychology
Graded on A-F basis only.
Credit Hour: 1-3
Prerequisites: instructor's consent

ESC_PS 8090: Master's Thesis in Educational, School, and Counseling Psychology
Independent research leading to Master's Thesis. Graded on S/U basis only. Prerequisites: advisor's consent
Credit Hour: 3-6

ESC_PS 8095: Research in Educational, School, and Counseling Psychology
Supervised research that is independent of master's thesis or doctoral dissertation. Graded on S/U basis only.
Credit Hour: 1-6
Prerequisites: advisor's consent

ESC_PS 8100: Psychological Assessment of Children and Adolescents: Cognitive Assessment
Basic principles in intelligence theory and intermediate measurement concepts. Practice in administering, scoring, and interpretation of data from individually administered intelligence tests with school aged children and adolescents. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: ESC_PS 8040, demonstrated knowledge of ethical principles and departmental consent

ESC_PS 8110: Methods in Group Counseling
Study of group counseling methods and techniques. Participation in a group is required.
Credit Hours: 3
Prerequisites: ESC_PS 8040

ESC_PS 8120: Psychological Assessment of Children and Adolescents: Psychoeducational Assessment
Practice in administering, scoring, and interpretation of data from academic achievement, nonverbal intelligence, memory, adaptive behavior, and perceptual/motor assessments with school-age youth and adolescents.
Credit Hours: 3
Prerequisites: ESC_PS 8100 and instructor's consent

ESC_PS 8125: Professional Iss. in Sch. Psych. I:Hist., Trends & Ethical Pract.
For first-year doctoral students in school psychology. History, current issues, trends, professional organizations, legal-ethical standards of doctoral level school psychology are discussed. The scientist-practitioner model and scientific reasoning process as they apply to both science and practice are reviewed.
Credit Hours: 3
Prerequisites: Must be admitted to school psychology program

ESC_PS 8130: Psychological Assessment of Adults
Students develop and practice skills in writing psychological reports with special emphasis on assessing psychological social-vocational functioning.
Credit Hours: 3
Prerequisites: ESC_PS 8100

ESC_PS 8135: Foundations of Career Psychology
Theoretical orientations to counseling for career development; nature and structure of work, education, and leisure; work and family issues; career concerns of special populations; use of career information in counseling.
Credit Hours: 3
Prerequisites: PSYCH 1000

ESC_PS 8140: Psychological Assessment in Children and Adolescents: Behavior and Social Emotional Assessment
This course introduces behavior theory, behavioral and social-emotional assessment techniques (including observations, interviewing, rating scales, and projective techniques) and their link to relevant interventions, with a primary focus on school-age youth and adolescents.
Credit Hours: 3

ESC_PS 8145: Psychological Interventions with Children and Adolescents: Behavioral Intervention
This course will emphasize behavioral theory, assessment, and intervention, including functional behavior assessment, positive behavior supports, and the conceptualization from an individual, systems, and public health perspective. Graded on A-F basis only
Credit Hours: 3

ESC_PS 8160: Psychological Interventions with Children and Adolescents: Educational Instruction
This course investigates models of school instruction in both general and special education, and how instruction can be adapted for learners who exhibit a range of academic and psychological problems and disabling conditions.
Credit Hours: 3
Prerequisites: ESC_PS 8100, ESC_PS 8120 and instructor's consent

ESC_PS 8165: Psychological Interventions with Children and Adolescents: Evidence- Based Therapies
An introduction to evidence-based child and adolescent psychotherapies, including individual and group interventions. Various aspects will be considered including assessment, diagnosis, and treatment planning. Graded on A-F basis only.
Credit Hours: 3

ESC_PS 8170: Career Resources in Business and Industry
Personnel practices, occupational requirements, and career opportunities and resources in business and industry. Applications are emphasized through on-site visits and use of business-industry-labor personnel. Graded on S/U basis only.
Credit Hour: 2-4
Prerequisites: ESC_PS 8135 or instructor's consent
ESC_PS 8180: Theory and Practice in Career Psychology
Methods and programs for facilitating the career development of individuals over the life span. Organization and development of activities and programs for all ages emphasized.

Credit Hours: 3
Prerequisites: ESC_PS 8135

ESC_PS 8185: Health Promotion
An overview of the important concepts of health promotion. Emphasis on specific health-related problems and issues, health behavior change, and the design, development implementation, and evaluation of comprehensive health promotion programs.

Credit Hours: 3
Prerequisites: LTC 1310 or equivalent or instructor's consent

ESC_PS 8195: Applied Positive Coaching
Explores concepts of sport, coaching and positive psychology, particularly the interventions and applications designed to further develop a coach's philosophy, communication skills, understanding of motivation, leadership skills, and the coach's and athlete's well-being. Prerequisites: ESC_PS 7195

Credit Hours: 3

ESC_PS 8200: Applied Positive Psychology
This course will require students to implement positive psychology concepts from the introductory course into their personal, professional, and/or social lives. We will also study specific ways in which these concepts and theories are being applied throughout various realms of well-being. Among the topics in this course are therapeutic lifestyles, goal-setting and attainment, self-care, meaning making, transformational leadership, influence and sustainable happiness theory. Prerequisites: ESC_PS 7200

Credit Hours: 3

ESC_PS 8210: Projective Assessment of Adults
Assessment of personality functioning using projective and inferential testing procedures. Rudimentary skills in using the Rorschach method.

Credit Hours: 3
Prerequisites: ESC_PS 8000 or ESC_PS 8100

ESC_PS 8220: Vocational Assessment of Individuals with Disabilities
This course is an overview of the philosophy of vocational assessment of individuals with disabilities. The course also emphasizes to positive integration of vocational assessment into the rehabilitation counseling process. Assessment practice included.

Credit Hours: 3
Prerequisites: ESC_PS 7180 and ESC_PS 8082

ESC_PS 8232: Foundations of Sport Performance
Focuses on principles and methods to become an effective sport performance coach. Examines the development of athletes and education of basic sports nutrition, strength, and conditioning.

Credit Hours: 3

ESC_PS 8240: Sport in America
Sociological perspectives of sport in America. Attention given to the influence of society on sport as in institution, and the role of sport as an agent of social change.

Credit Hours: 3
Prerequisites: SOCIOL 1000 or PSYCH 1000

ESC_PS 8250: School Psychology Practicum: Introduction to School Services
This course is an intro practicum that exposes students to the organization and functions of schools. Students work with psychologists and other school personnel on academic and behavioral interventions to learn how schools serve children and their families. May be repeated for credit.

Credit Hour: 1-6
Prerequisites: instructor's consent

ESC_PS 8255: Legal Aspects of Sport and Coaching
Emphasis is to provide insight about how the law is applied in sport settings, the types of litigation involved, and the standard of care required. Fundamental terminology and concepts, and contemporary issues in sport law will be addressed.

Credit Hours: 3

ESC_PS 8260: School Psychology Practicum: School-Based
Level II School Psychology Practicum provides students with experience in school-based psychological service delivery. Students gain experience with psychoeducational assessment and diagnosis, intervention planning and delivery, consultation, and serving on multidisciplinary teams. May be repeated for credit.

Credit Hour: 1-6
Prerequisites: instructor's consent

ESC_PS 8265: Administration of Athletic Programs
Examines methods, principles, and roles of athletic administrators. Also, examines the job responsibilities and competencies required of sport leaders in athletic administration.

Credit Hours: 3

ESC_PS 8270: Student-Athlete Wellbeing
As a positive coach and career educator, your knowledge of student wellbeing is critical to support your students' physical, mental, and social health alongside their academic success and development beyond sport. Although our semester will focus largely on the most critical components of student welfare, we will also frame our study of student wellbeing using the tenets of Positive Psychology, a discipline that champions a strengths-based approach to guide positive behaviors associated with health and wellbeing. Health promotion theory will also guide our course of study as we examine: (a) individual student-athlete wellbeing with a focus on physical, mental, and social health (b) wellbeing in the context of student services provided by the school or organization, and (c) program evaluation methodology to identify strengths and opportunities for program improvement to enhance wellbeing and welfare for all student-athletes. Graded on A-F basis only.
ESC_PS 820: Gender Issues in Sport
Through a study of theory and applied practice, students will explore personal biases, understand intersecting identities and explore privilege and oppression at the individual, interpersonal, structural, and cultural level when considering gender awareness in sport.
Credit Hours: 3

ESC_PS 8290: Multicultural Issues in Sport
The purpose of this course is to increase the level of multicultural awareness, knowledge, skills, and relationship of athletic coaches working with diverse student populations. Activities and assignments are designed to assist, encourage, and challenge each student to more fully develop awareness and knowledge of self, and to use this information to improve intercultural interactions with others in professional settings as well as other settings.
Credit Hours: 3

ESC_PS 8300: Positive Leadership in Sport
A Positive Leadership philosophy requires Positive Leadership delivery. Course is designed to prepare leaders to bridge content knowledge to practical application. Students will use core competencies learned throughout their program to develop their leadership approach.
Credit Hours: 3

ESC_PS 8310: Colloquium in Educational Psychology
A course that covers current topics in learning, development, and schooling. Topics include cognitive, affective, academic, physical, moral ethnic/cultural domains. May be repeated for credit.
Credit Hour: 1
Prerequisites: Instructor's consent required

ESC_PS 8320: Advanced Human Learning
A study of behavioral and cognitive theories of learning with an emphasis on those greatest utility for educators. Experimental evidence forming the theoretical base for educational practice is examined.
Credit Hours: 3

ESC_PS 8330: Motivating At-Risk and Diverse Students
This course examines motivational concepts that apply to students of all ages. The course is designed to help teachers design classrooms and assignments that would improve the motivation of students, especially at-risk students. The course pays special attention to issues of diversity relevant to motivation. Graded on A-F basis only.
Credit Hours: 3

ESC_PS 8340: Cultural Backgrounds and Learning
The course explores the influence of culture on the process of learning. Topics and discussions will center on learning within the K-12 classroom. Readings and assignments are tailored to engage students in practical classroom applications of the information and discussions within the course. At the conclusion of the course students will have a deep understanding of how culture shapes thinking, learning, behavior, and the classroom environment. Graded on A-F basis only.
Credit Hours: 3

ESC_PS 8350: Cognition, Learning and Instruction
Examines the topics of memory and cognition as they apply to the process of learning and instruction.
Credit Hours: 3
Prerequisites: ESC_PS 8320 or instructor's consent

ESC_PS 8355: Cognition and Emotion
This course looks at human cognition and emotions and their influence on learning, self-control, motivation, executive processes, and behavior change. Graded on A-F basis only.
Credit Hours: 3

ESC_PS 8360: Advanced Counseling Theories and Interventions
Contemporary theories and interventions of counseling. Advanced study of efficacious techniques. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: ESC_PS 8040 or ESC_PS 8342

ESC_PS 8380: Data-Driven Instructional Decisions
This course explores the uses of assessments and evaluation techniques for practical applications within the classroom. Focus is on use of data gathering techniques to increase student academic performance and inform classroom instruction. Graded on A-F basis only.
Credit Hours: 3

ESC_PS 8400: Analysis of Research in Career Psychology
Examination of career development theories, the research supporting the theories, and the practical application of these ideas in career counseling and career programs.
Credit Hours: 3
Prerequisites: ESC_PS 8135

ESC_PS 8410: School Guidance Programs
Provides knowledge and skills in the development and management of school guidance programs including program planning, structuring, implementing, and evaluating.
Credit Hours: 3
Prerequisites: ESC_PS 7120

ESC_PS 8415: Program Evaluation for School Counselors
Program Evaluation is a graduate seminar intended to provide students with the skills needed to evaluate comprehensive guidance and counseling programs. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: ESC_PS 7120
ESC_PS 8425: Effects of Maltreatment on Child and Adolescent Development
Course topics to be covered include 1) definitions of child maltreatment, 2) incidence and prevalence rates, 3) possible causes and consequences associated with child maltreatment, 4) treatment of survivors and perpetrators, and 5) prevention efforts. Important legal and ethical issues will be discussed, such as children's competence and eyewitness abilities, false allegations of abuse, mandated reporting, and investigative interviewing of children. Graded on A-F basis only.
Credit Hours: 3

ESC_PS 8430: Mental, Emotional, and Behavioral Disorders in Youth
The course will include an overview of normal development and an investigation into specific deviations in intensity, frequency, and/or duration of normal development which impact the individual in his or her home, school, and community.
Credit Hours: 3

ESC_PS 8435: Wellness Management for School Personnel
The current climate in schools places considerable demands on teachers and other school personnel. Often, those working in schools find themselves under enormous stress and pressure. In this course, school personnel will examine a variety of topics related to both identifying and effectively dealing with these pressures. Topics include communication skills, dealing with challenging individuals in the school system, recognizing and effectively managing stress, and recognizing burnout and re-energizing. The course will provide an overview of the research on these topics, as well as numerous effective strategies to deal with these pressures. Students in the course will have opportunities to apply learned strategies to real-life situations in the schools. Graded on A-F basis only.
Credit Hours: 3

ESC_PS 8440: School Mental Health: Policy, Law and Ethics
This course is designed to familiarize school-based professionals with policies, laws and ethics associated with children and youth and schools.
Credit Hours: 3

ESC_PS 8445: Building Resiliency and Optimism in Youth
Examines risk and resiliency processes during childhood and adolescence. Focuses on defining resilience; sources of risks and protective factors within families, schools, and communities; prevention programs targeting early, middle childhood and adolescence. Promotion of one's own resilience and well-being are discussed. Special topics include strengths-based models of resiliency, resilience and family difficulties, violence and maltreatment, poverty, dropout, and school/community-based prevention and intervention.
Credit Hours: 3

ESC_PS 8450: Diversity Issues in School Mental Health
The purpose of this course is to increase the level of multicultural awareness, knowledge, skills, and relationship of school personnel working with diverse student populations.
Credit Hours: 3

ESC_PS 8455: Bully and Youth Violence: Prevention and Reduction
This course is a survey of current issues in bullying and youth violence with an emphasis on applications in the school environment. The course will present effective strategies for bullying and violence prevention within the school and in collaboration with the community at large. Students are encouraged to apply the course concepts to their work environment and develop tools for future practice in schools and other youth-serving settings. Graded on A-F basis only.
Credit Hours: 3

ESC_PS 8460: Communication and Collaboration with Children and Families
This course will provide education professionals with the knowledge and basic skills to address common mental health issues through positive and solution focused communication and collaboration.
Credit Hours: 3

ESC_PS 8465: Vital Issues in School Mental Health
The course is highly individualized in that students, as a group, will choose the specific topics to be covered. Readings and assignments have three foci: 1) improve understanding of each issue within a broader context of public mental health policy, prevention, intervention, and maintenance; 2) deepen student knowledge of the topic from practice and research-based sources; and 3) enable students to deal more effectively with those issues within relevant settings. Topics may include, but are not limited to: school dropout, substance use, self-injury/cutting, relational aggression, management of extreme behaviors, homelessness, divorce/death, eating disorders, pregnancy, ADHD, and many others. Graded on A-F basis only.
Credit Hours: 3

ESC_PS 8470: Preventions and Interventions in School Mental Health
This course explores the role that educators and school mental health professionals play in promoting, prevention and early intervention practices for mental, emotional, and behavioral disorders in youth and considers the basic steps for designing, implementing and evaluating evidence based interventions.
Credit Hours: 3

ESC_PS 8475: Proactive Behavior Management
This course provides a framework to a prevention-focused model of classroom support and behavior management. Prevention is less time-consuming in the long run and leads to more opportunities for learning and social engagement because discipline problems are not interfering with teaching. This course will include evidence based strategies to structure proactive learning environments that promote students' academic skills and competencies as well as their social and emotional development. Graded on A-F basis only.
Credit Hours: 3

ESC_PS 8490: Mental Health in Schools Capstone Paper
Course focuses on writing a capstone integration paper that is intended to be a culminating experience. Allows students to reflect on the content of their course work, evaluate the knowledge and skills acquired.
and apply what they have learned into their professional practice.
Prerequisites: instructor's consent
Credit Hours: 1

ESC_PS 8500: Rehabilitation Counseling
A study of the history and current status of rehabilitation counseling, and the role, theory, and practice of counseling in rehabilitation settings with persons with disabilities.
Credit Hours: 3

ESC_PS 8510: Medical and Psychological Aspects of Disability
Presentation of medical aspects of major disabilities and their effects upon social, vocational, personal, and economic adjustment. Study of basic restoration and accommodating services.
Credit Hours: 3

ESC_PS 8515: Sport Psychology
Current topics of research in sport psychology are examined. Topics include: sport personality, attention, activation and anxiety intervention, motivation, sport aggression, audience effects, team cohesion, leadership, and health psychology.
Credit Hours: 3
Prerequisites: PSYCH 1000

ESC_PS 8520: Job Acquisition for Individuals with Disabilities
Techniques of job development, placement, job analyses of the individual's skill and abilities and the employer's needs, and how to build professional relationships with employers.
Credit Hours: 3
Prerequisites: ESC_PS 7180

ESC_PS 8530: Developmental Psychopathology and Exceptionality
An investigation into the presentation, diagnosis, and treatment of psychopathologies in individuals, emphasizing causal pathways, risks/resiliency, prevalence, incidence, and continuity/discontinuity of the disorders from research in the field of developmental psychopathology. Graded on A-F basis only.
Credit Hours: 3

ESC_PS 8540: Theory and Practice in Feminist Therapy
Theory, research, practice standards and current debates within feminist therapy. Includes both examination of topical areas in a seminar format and live observation of feminist therapy.
Credit Hours: 3
Prerequisites: ESC_PS 8940 or instructor's consent

ESC_PS 8550: Diversity and Multiculturalism II - Practical Application
This course is part two in the Multicultural Education Certificate series of online courses designed for students working in a broad range of professions, such as health care, social work, education, school counseling, administration, etc. Students will examine various topics on diversity and multiculturalism to enhance their personal and professional development. To this end, the milieu of this course will be a safe online environment that is conducive to open dialogue, self-reflection, critical thinking, and questioning, and one in which students can actively engage in the learning process through affective and cognitive approaches. Postings, along with relevant readings and assignments, will be used as the primary tools and resources for this collective learning experience. Graded on A-F basis only.
Credit Hours: 3
Recommended: ESC_PS 8450

ESC_PS 8555: African American Education - Historic and Current Issues
Critical examination of the deculturalization of American educational system. Concepts of race, culture, and "post racial society" are juxtaposed with social and systemic trends impacting African American students both in and out of the classroom. Pedagogical strategies are discussed. Graded on A-F basis only.
Credit Hours: 3
Recommended: ESC_PS 8450

ESC_PS 8560: Immigrant Issues in Education
The purpose of this course is to increase the level of cross-cultural awareness, knowledge, and skills of school personnel working with students who are immigrants. It is designed to be practically and experientially oriented. Activities and assignments in the class are designed to assist, encourage, and challenge each student to more fully develop awareness and knowledge of self, and to use this information to improve intercultural interactions with others in professional settings as well as other settings. The anticipated outcome includes improved skills in conceptualizing the unique needs of and responding with appropriate approaches to effectively assist students who are immigrants. Graded on A-F basis only.
Credit Hours: 3
Recommended: ESC_PS 8450

ESC_PS 8565: Gay, Lesbian and Bisexual Issues in the Schools
This online course seeks to expand your perspective, worldview, and knowledge of GLB individuals and in your work environments as well as an invitation to promote social justice to make positive changes for the benefit of GLB individuals. Individuals who identify as GLB face many unique experiences, challenges, and opportunities during their developmental life span including issues related to coming out, psychological well-being and mental health development, heterosexism and homophobia, stereotypes and myths, and sexual identity. These issues and more are discussed in the course. Graded on A-F basis only.
Credit Hours: 3
Recommended: ESC_PS 8450

ESC_PS 8585: Gender Issues in Counseling and Education
Topics include conceptions of gender roles, measurement of gender-related constructs, gender role socialization process, high incidence
gender-related problems, and psychoeducational and counseling interventions.

**Credit Hours:** 3  
**Prerequisites:** instructor's consent

---

**ESC_PS 8590: Multicultural Counseling Competencies: Theory and Research**  
This course will introduce students to the current status of multicultural counseling theories and research issues and help students to increase their knowledge of cultural differences in counseling and psychology. Graded on A-F basis only.

**Credit Hours:** 3

---

**ESC_PS 8640: Interviewing, Diagnosis, and Assessment**  
Introduction to clinical, psychometric assessment, and diagnosis. Data-gathering methods include interviews and tests/inventories of intellectual functioning, abilities, personality, and interests. Students utilize psychological reports to inform assessment, diagnosis and treatment.

**Credit Hours:** 3  
**Prerequisites or Corequisites:** ESC_PS 8082

---

**ESC_PS 8655: Item Response Theory**  
Introduces modern scaling with Item Response Theory, and includes how it can be used to statistically specify information about latent variables and the stimuli (e.g., tests) used to represent them.

**Credit Hours:** 3  
**Prerequisites:** ESC_PS 9640 and ESC_PS 9650

---

**ESC_PS 8690: Educational Planning and Evaluation**  
This course addresses major issues and models used in educational program planning and evaluation, including the appropriate use of various evaluation models and different types of data.

**Credit Hours:** 3  
**Prerequisites:** departmental inquiry course, ESC_PS 8830 and/or ESC_PS 8957

---

**ESC_PS 8700: Life/Career Coaching and Development**  
Designed to teach life and career coaching strategies with roots in career psychology and positive psychology. It provides the tools and knowledge on how to coach people to achieve their personal and professional goals.

**Credit Hours:** 3  
**Prerequisites:** ESC_PS 7200

---

**ESC_PS 8710: Meaning In Work**  
Covers a broad look at meaning and vocation using theoretical and empirical frameworks. Also explores the influence of culture, environment, relationships and personal values on meaning development while providing a framework for working from a coaching/counseling standpoint to help others identify or develop meaningful vocations. Graded on A-F basis only.

**Credit Hours:** 3  
**Prerequisites:** ESC_PS 7200

---

**ESC_PS 8720: Community and Stewardship**  
Examines the concepts of community and stewardship, explores the literal roots of the word (common-unity) and our ability to respond (responsibility) to and build our communities. Also explores the connections between altruism, personal well-being, and social stewardship.

**Credit Hours:** 3  
**Prerequisites:** ESC_PS 7200

---

**ESC_PS 8730: Positive Organizational Psychology**  
Surveys the impact of positive organizational psychology research throughout professional organizations. Students will learn empirically defined elements of positive work environments and learn the building blocks associated with this field including: Appreciative Inquiry, the Abundance Approach, Strengths-Based Organizations, Positive Work Environments, and Employee Engagement and Satisfaction.

**Credit Hours:** 3  
**Prerequisites:** ESC_PS 7200

---

**ESC_PS 8830: Quantitative Analysis in Educational Research I**  
This is the first course in the sequence of statistical analysis methods. Topics covered in this course include statistical inference, simple regression, multiple regression, regression assumptions, regression with categorical predictors, model selection methods polynomial regression, and model validation.

**Credit Hours:** 3

---

**ESC_PS 8840: Quantitative Analysis in Educational Research II**  
This is the second course in the sequence of statistical analysis methods. Topics extend those covered in Quantitative Analysis I and include hypothesis testing, ANOVA, ANCOVA, repeated measures design, random-effects ANOVA, introduction to logistic regression, polytomous and ordinal regression and linear mixed models (if time permits).

**Credit Hours:** 3  
**Prerequisites:** ESC_PS 7170 and ESC_PS 8830

---

**ESC_PS 8850: Quantitative Foundations in Educational Research**  
This course is designed to provide students the fundamental and necessary quantitative methods skills in educational research. Topics include one-way and factorial analysis of variance (ANOVA), analysis of covariance (ANCOVA), repeated measures ANOVA, random-effects ANOVA, simple linear regression, multiple regression, regression diagnostics, introduction to logistic regression, and statistical power analysis. Graded on A-F basis only.

**Credit Hours:** 3  
**Prerequisites:** ESC_PS 7170

---

**ESC_PS 8870: Public Health Psychology**  
Study of applications of psychology to behavior, environment, and policy to promote health and prevent disease. The course gives particular attention to behavioral epidemiology and risk/resiliency factors associated with negative outcomes of childhood and adolescents.

**Credit Hours:** 3
ESC_PS 8900: Topics in Education, School and Counseling Psychology
Topics placeholder for upper division courses.
Credit Hours: 1-3

ESC_PS 8940: Counseling Psychology Practicum
Supervised practice of counseling in an approved counseling setting. May be repeated. Graded on S/U basis only.
Credit Hour: 3-9
Prerequisites: ESC_PS 8040, ESC_PS 8135, and ESC_PS 8640 and consent of counseling area faculty

ESC_PS 8941: Practicum and Theory in Group Counseling I
Supervised practice of group facilitation in an approved setting. Formal study of contemporary theories and advanced techniques is integrated with the practice of group facilitation. Graded on S/U basis only.
Credit Hours: 4
Prerequisites: ESC_PS 8110 and instructor's consent

ESC_PS 8942: Practicum and Theory in Group Counseling II
A continuation of Educational School, and Counseling Psychology 8200. Graded on S/U basis only.
Credit Hours: 4
Prerequisites: ESC_PS 8200 and instructor's consent

ESC_PS 8943: Practicum in Multicultural Counseling Interventions
Supervised practice of applied multicultural counseling interventions in a wide variety of approved community and university settings. Graded on S/U basis only.
Credit Hour: 1-6
Prerequisites: ESC_PS 8040 and either ESC_PS 8570 or ESC_PS 8590

ESC_PS 8944: School Psychology Practicum
Supervised practice of psychological assessment, intervention and remediation strategies. May be repeated. Graded on A-F basis only.
Credit Hour: 1-6
Prerequisites: departmental consent

ESC_PS 8945: Practicum in Marriage and Family Counseling
Supervised practice in marriage and family counseling conducted in appropriate laboratories and agencies. Graded on S/U basis only.
Credit Hour: 3-6
Prerequisites: ESC_PS 8040, ESC_PS 8342, ESC_PS 8160 or ESC_PS 8050 and departmental consent

ESC_PS 8946: Rehabilitation Counseling Internship
Field-based counseling internship in a community setting serving individuals with disabilities. 600 hour supervised experience designed to combine theoretical and applied program training aspects. Graded on S/U basis only.
Credit Hour: 3-9
Prerequisites: ESC_PS 8040, ESC_PS 8520, and ESC_PS 8220

ESC_PS 8947: Practicum in Student Development Programs
Supervised practice in student personnel services in an approved agency. Graded on S/U basis only.
Credit Hours: 3
Prerequisites: ESC_PS 8080

ESC_PS 8948: Field Placement in Counseling/Supervision
Students will conduct counseling and/or supervision in approved community agencies under the supervision of licensed practitioners. Graded on S/U basis only.
Credit Hour: 1-12
Prerequisites: completion of 9 credit hours of ESC_PS 8040, and consent of the Counseling Area Faculty

ESC_PS 8950: Prevention Science Practicum: School and Family Centered Interventions
Prevention Science Practicum is an advanced graduate level practicum intended to provide students with the theoretical and practice skills needed to provide effective prevention services to children and families across multiple contexts. An emphasis is placed on school and family centered supports that prevent emotional and behavior problems in children. Graded on S/U basis only.
Credit Hour: 3-6
Prerequisites: instructor's consent required

ESC_PS 8957: Qualitative Methods in Educational Research I
(same as LTC 8957 and ED_LPA 8957). This course provides a practical introduction to qualitative research and its applications in education and social sciences. Graded on A-F basis only.
Credit Hours: 3

ESC_PS 8960: Interdisciplinary Child and Family Practicum
This class includes a focus on child/family services with a systems/interdisciplinary approach. Students provide services via a mentorship model (strong supervision initially moving toward autonomy). Services include evaluations, therapy, consultation, psychiatric cross-training, and others. Graded on S/U basis only.
Credit Hour: 1-6
Prerequisites: ESC_PS 8040 and instructor's consent

ESC_PS 8980: Field Experience in Counseling
Graded on S/U basis only.
Credit Hour: 3-9
Prerequisites: instructor's consent

ESC_PS 8990: Career Development Theory for Women
Consideration of the relevance of theories of career development for women, and their application to the counseling of women. Supervised clinical experience in the application of theories to counseling high school age women.
Credit Hours: 3
ESC_PS 9000: Multicultural Issues in Counseling
This course covers the research and theories of counseling racial/ethnic minorities and gays, lesbians, and bisexuals in the U.S. Examination of personal values and education about the interrelationship between race, class, gender, and sexuality are accomplished via structured activities.
Credit Hours: 3
Recommended: ESC_PS 8340

ESC_PS 9010: Building Cross-Cultural Competencies: Taiwan Up Close
The primary purpose of the course is to promote the development of cross-cultural knowledge, awareness, and skills for applied psychologists. The first part of the course occurs at MU in preparation for part two, a 10-day professional cultural immersion in Taiwan.
Credit Hours: 3
Prerequisites: ESC_PS 9000 preferred; instructor's consent

ESC_PS 9020: Psychology of Crossing Cultural Borders
The primary purpose of the course is to promote the development of cross-cultural knowledge, awareness, and skills for applied psychologists. Students acquire knowledge of psychological processes associated with crossing cultural borders, and translate that knowledge into practical applications. Graded on A-F basis only.
Credit Hours: 3

ESC_PS 9040: Cross-Cultural Issues in Counseling: International Focus
This course focuses on developing students' awareness, knowledge, and skills in cross-national counseling and research in equipping the next generation of counseling psychologists' competencies related to the globalization trend of counseling psychology. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: ESC_PS 9000

ESC_PS 9050: Biofeedback in Psychological Practice
Use of biofeedback in achieving voluntary self-regulation and control of stress related behaviors.
Credit Hours: 3
Prerequisites: ESC_PS 8040 or ESC_PS 8342 and instructor's consent

ESC_PS 9078: Advisor's Seminar
Credit Hour: 1
Prerequisites: departmental consent

ESC_PS 9087: Advisor's Seminar
Credit Hour: 1
Prerequisites: departmental consent

ESC_PS 9090: Doctoral Dissertation Educational School & Counseling Psychology
Independent research leading to dissertation. Graded on S/U basis only.
Credit Hour: 1-12
Prerequisites: departmental consent

ESC_PS 9091: Internship in Counseling Psychology
Supervised experience in counseling psychology on half- or full-time basis in approved internship station. May be repeated. Graded on S/U basis only.
Credit Hour: 1-6
Prerequisites: instructor's consent

ESC_PS 9094: Internship in School Psychology
Supervised practice in school psychology in an educational setting. May be repeated. Graded on S/U basis only.
Credit Hour: 1-6
Prerequisites: departmental consent

ESC_PS 9095: Doctoral Internship in School Psychology
Supervised practice in doctoral-level school psychology in an institutional or applied setting. May be repeated. Graded on S/U basis only.
Credit Hour: 1-6
Prerequisites: departmental consent

ESC_PS 9090: Advanced Psychological Measurement and Assessment
Introduction to the scientific and psychometric foundations of clinical assessment, including measurement theory, reliability, validity, and scale/test construction. Primary focus on the development and validation of evidence-based, psychometrically-sound assessment tools. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: Instructor consent

ESC_PS 9105: Professional Iss. in Sch. Psych. II: Rsrch. Design & Application
For first-year doctoral students in school psychology. Includes study of research design and methodological issues in the field of school psychology.
Credit Hours: 3
Prerequisites: Must be admitted to school psychology doctoral program

ESC_PS 9125: Professional Iss. in Sch. Psych. II: Rsrch. Design & Application
Prevention Science Research is a graduate seminar intended to provide students with the theoretical and empirical foundations of prevention science. In particular, students will learn how to conceptualize problems from a prevention science perspective and design and evaluate preventive interventions using advanced methodologies. Opportunities for community based participatory research including research design and analysis, papers and briefs, grantwriting, and community collaborations regarding prevention programming particularly pertaining to children's mental health.
Credit Hour: 1-3
Prerequisites: instructor's consent

ESC_PS 9126: Prevention Science Research Design and Analysis
Prevention Science Research is a graduate seminar intended to provide students with the theoretical and empirical foundations of prevention science. In particular, students will learn how to conceptualize problems from a prevention science perspective and design and evaluate preventive interventions using advanced methodologies. Opportunities for community based participatory research including research design and analysis, papers and briefs, grantwriting, and community collaborations regarding prevention programming particularly pertaining to children's mental health.
Credit Hour: 1-3
Prerequisites: instructor's consent

ESC_PS 9250: School Psychology Practicum: Community-Based
This course is an advanced practicum for students providing school psychology services in non-school settings. Students develop higher-level skills in the areas of case coordination, diagnostic decision-making, intervention, and systems change. May be repeated for credit.
Credit Hour: 1-6
Prerequisites: instructor's consent
ESC_PS 9260: Policy Practicum in Professional Psychology
Policy Practicum is an advanced practicum focused on macro level skills for shaping policy and systems-level intervention. Students work within agencies that establish policy for special education, mental health, and other education/psychology-related issues. May be repeated for credit.
Credit Hour: 1-3
Prerequisites: instructor's consent

ESC_PS 9300: Psychoanalytic Counseling
A study of the contribution of classical and contemporary psychoanalysis to counseling theory, research and practice. Examination of theoretical and clinical material in a seminar format.
Credit Hours: 3
Prerequisites: ESC_PS 8040, ESC_PS 8342 and instructor's consent

ESC_PS 9400: Theories and Practices in Supervision
Instruction and practice in the supervision of psychological services conducted in appropriate laboratories and agencies. Sections titled Counseling Psychology are graded on S/U basis only. Sections titled School Psychology are on A-F basis only.
Credit Hours: 3
Prerequisites: ESC_PS 8940 or ESC_PS 8944 and instructor's consent

ESC_PS 9445: College Student Development
Emphasis on college student development theory and its application in student affairs work.
Credit Hours: 3

ESC_PS 9446: Student Affairs Administration
History, philosophy, theory, and issues pertinent to student affairs work.
Credit Hours: 3

ESC_PS 9450: Motivation
Investigates human motivation applied to performance in schools, athletics, and personal life. Topics include goals, attributions, self-efficacy, interest, cultural differences, and rewards. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: ESC_PS 8320 or equivalent

ESC_PS 9460: Health Behavior Change Research
(Same as NURSE 9460). Doctoral seminar focusing on theories, measurement, and methods for conducting health behavior change research. Prerequisites: NURSE 9120.
Credit Hours: 3
Prerequisites or Corequisites: NURSE 9410, or faculty consent

ESC_PS 9530: Scientific Fdns of Counseling Psych I: Prof Iss &
For first-year doctoral students in counseling psychology. This course focuses on the history of counseling psychology, in and scientific reasoning processes as they apply to both science and practice.
Credit Hours: 3

ESC_PS 9540: Scientific Foundations of Counseling Psych II: Rsrch, Dsgn & Appl
For first-year doctoral students in applied psychology. Includes study of research design and methodological issues in the field of counseling psychology.
Credit Hours: 3
Prerequisites: ESC_PS 9530

ESC_PS 9550: Scientific Writing in Counseling Psychology
This course focuses on the technical skills needed for developing a scientific research proposal in counseling psychology.
Credit Hours: 3
Prerequisites: ESC_PS 9530 and ESC_PS 9540 and instructor's consent

ESC_PS 9560: Psychological Consultation: Schools
The individual psychological consultation process between the mental health professional and school personnel. Techniques, models, research roles, and responsibilities are discussed. Graded on A-F basis only.
Credit Hours: 3

ESC_PS 9570: Psychological Consultation: Organizations
This course provides an introduction to the theory and practical skills required to effectively consult at the organizational level in a variety of settings and contexts. Graded on A-F basis only.
Credit Hours: 3

ESC_PS 9610: Applied Sport Psychology
Building upon the knowledge base of sport psychology, this course integrates and synthesizes student’s understandings of the wide array of concepts and theories of the field into meaningful applications and strategies aimed at enhancing the sport experience of others. A case study approach will be employed.
Credit Hours: 3
Prerequisites: ESC_PS 8515

ESC_PS 9620: Qualitative Methods in Educational Research II
(same as ED_LPA 9620 and LTC 9620). This course constructs a conceptual and methodological bridge between the understandings of qualitative research developed in Qualitative Methods I and more advanced study of theories, designs, and methods. The focus is on theory, approaches to data analysis, and interpretation. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: ESC_PS 8957

ESC_PS 9640: Introduction to Theory of Educational Measurement
Classical and modern test theory, including IRT, generalizability theory and test bias. Also covered are advanced strategies for investigating reliability and validity.
Credit Hours: 3
Prerequisites: ESC_PS 7170 and ESC_PS 8082
ESC_PS 9650: Application of Multivariate Analysis in Educational Research
The focus of this course will be on applications of multivariate analysis in educational research.
Credit Hours: 3
Prerequisites: ESC_PS 8830 and ESC_PS 8840 or equivalent and instructor's consent

ESC_PS 9710: Structural Equation Modeling
Simultaneous analysis of relationships among variables. Topics included are path analysis, confirmatory factor analysis, hybrid models, and special types of structural models involving longitudinal data, multiple groups and analysis of means. May be repeated for credit.
Credit Hours: 3
Prerequisites: ESC_PS 7170, ESC_PS 8830, ESC_PS 8840, ESC_PS 9650

ESC_PS 9720: Hierarchical Linear Modeling
Hierarchical Linear Modeling (HLM), including multilevel and longitudinal approaches, in applied research settings for the social, educational psychological, and health-related sciences. May be repeated for credit.
Credit Hours: 3
Prerequisites: ESC_PS 7170, ESC_PS 8830, ESC_PS 8840, ESC_PS 9650; consent required

ESC_PS 9900: Topics in Educational Leadership and Policy Analysis
Topics placeholder for upper division courses.
Credit Hour: 1-3

Electrical And Computer Engineering Courses

ECE 1000: Introduction to Electrical and Computer Engineering
Introduction to the basic principles of electrical and computer engineering through hands-on activity. Course includes fundamentals of programming using Matlab, applied to electrical and computer engineering problems.
Credit Hours: 2

ECE 1001: Experimental Course
For freshman-level students. Content and number of credit hours to be listed in Schedule of Courses.
Credit Hour: 1-99

ECE 1210: Introduction to Logic Systems
Introduces basic tools, methods and procedures to design combinational and sequential digital circuits and systems. Topics include number systems, Boolean algebra, logic minimization, circuit design, memory elements, and finite state machine design. Graded on A-F basis only.
Credit Hours: 3

ECE 2001: Experimental Course
For sophomore-level students. Content and number of credit hours to be listed in Schedule of Courses.

ECE 2100: Circuit Theory I
DC circuit analysis, inductors and capacitors, first order response, AC circuit analysis, single-phase AC power. Graded on A-F basis only.
Credit Hours: 4
Prerequisites: A grade of C- or better in MATH 1700

ECE 3110: Electrical and Computer Engineering Projects
Open-ended design projects which encourage innovative solutions to design and measurement problems. Students teams complete several projects from different areas. Both oral and written presentations emphasized. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: A grade of C or better in ECE 3210 and ECE 3410 and a grade of C- or better in Stat 4710. Restricted to Electrical and Computer Engineering students only or instructor's consent

ECE 3210: Microprocessor Engineering
Introduction to microprocessor architectures and programming; memory, memory management and cache organizations, bus configurations and timing implications; parallel I/O and serial communication interfaces.
Credit Hours: 4
Prerequisites: A grade of C or better in ECE 1210 and CMP_SC 1050

ECE 3220: Software Design in C and C++
Software/Hardware development for embedded systems, including memory, I/O and interrupts; an overview of C and C++, class structures in object oriented programming; software development with UML and testing and debugging strategies. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: ECE 3210

ECE 3410: Electronic Circuits and Signals I
Electron Devices, modeling and applications to basic electronic circuits, including RC amplifiers and power supplies.
Credit Hours: 4
Corequisites: ECE 3810

ECE 3510: Electromagnetic Fields
Elements of vector analysis, transmission line theory, electrostatics, magnetostatics, time varying fields and plane waves. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: A grade of C- or better in PHYSCS 2760
Corequisites: MATH 4100

ECE 3610: Semiconductors and Devices
Crystal structure; quantum aspects of energy, radiation and matter; quantum mechanics and energy bands in solids; electronic and optical properties of semiconductors; p-n junctions and diodes; bipolar and field-effect transistors.
Credit Hours: 3
Prerequisites: A grade of C or better in ECE 3510
ECE 3810: Circuit Theory II
Impulse and step responses, RLC circuits, classical differential equations solutions, complex plane stability, frequency and Bode Analysis, Resonance, Laplace transforms, two-port networks, mutual inductance and transformers. Graded on A-F basis only.

Credit Hours: 4
Prerequisites: A grade of C or better in ECE 2100
Corequisites: MATH 4100

ECE 3830: Signals and Linear Systems
Transform Analysis of Signals and Linear Systems. Laplace transforms, z-transforms, Fourier series and transforms.

Credit Hours: 3
Prerequisites: A grade of C or better in ECE 3810

ECE 4001: Topics in Electrical and Computer Engineering
Current and new technical developments in electrical engineering.

Credit Hour: 3-4
Prerequisites: senior standing

ECE 4020: Energy Systems and Resources
(same as NU_ENG 4315; cross-leveled with ECE 7020, NU_ENG 7315). Analysis of present energy usage in Missouri, USA and the world, evaluation of emerging energy technologies and trends for the future. Economics and environmental impact of the developed technologies.

Credit Hours: 3
Prerequisites: ENGINR 2300

ECE 4030: Introduction to Nuclear Reactor Engineering
(same as NU_ENG 4346; cross-leveled with ECE 7030, NU_ENG 7346). Engineering principles of nuclear power systems, primarily for the production of electrical energy.

Credit Hours: 3
Prerequisites: ENGINR 1200, ENGINR 2300

ECE 4040: Introduction to Nuclear Physics
(cross-leveled with ECE 7040). Introduction of Quantum mechanics for non-physics majors. Course topics include nuclear properties; alpha, beta and gamma radioactive decay; and nuclear reactions. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: senior standing or graduate standing in engineering or equivalent mathematical preparation

ECE 4085: Problems in Electrical and Computer Engineering
Analytical or experimental problems pertaining to electric circuits, machines, fields or electronics.

Credit Hour: 1-3
Recommended: 12 hours Electrical and Computer Engineering credit or instructor's consent

ECE 4220: Real Time Embedded Computing
(cross-leveled with ECE 7220). Embedded systems development with real time constraints including RTOS, task management and synchronization, real time scheduling algorithms, deadlocks, performance analysis and optimization, interfacing to external devices, and device drivers. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: ECE 3220

ECE 4250: VHDL and Programmable Logic Devices
(cross-leveled with ECE 7250). Design techniques including module definition, functional partitioning, hardware design language descriptions and microprogramming; design examples include arithmetic units, programmable controllers, and microprocessors.

Credit Hours: 4
Prerequisites: ECE 3210

ECE 4270: Computer Organization
(cross-leveled with ECE 7270). Advanced computer architectures and programming; memory, memory management and cache organizations, parallel processing, graphical processor units for general programming.

Credit Hours: 4
Prerequisites: ECE 3210 and ECE 4220

ECE 4280: Network Systems Architecture
(same as CMP_SC 4280; cross-leveled with ECE 7280, CMP_SC 7280). The course covers network systems interconnects and switch fabrics, network considerations: and relevant networking applications at the network, transport and application layer. Graded on A-F basis only.

Credit Hours: 4
Prerequisites: C- or higher in CMP_SC 2050 or ECE 3220 and C- or higher in CMP_SC 3280 or ECE 3210

ECE 4310: Feedback Control Systems
(same as BIOL_EN 4310, MAE 4750; cross-leveled with BIOL_EN 7310, ECE 7310, MAE 7750). System modeling and time and frequency response, closed loop control, stability, continuous system design, introduction to discrete time control, software and hardware experiments on compensator design and PID control. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: MATH 4100

ECE 4320: Architectural Robotics
(cross-leveled with ECE 7320). Architectural robotics has been defined as "intelligent and adaptable built environments (featuring embedded robotic components) that sense, plan, and act". This course will cover the basic concepts required for understanding, developing, and testing embedded robotic systems for the built environment. Students will work together in teams in a studio-style format which emphasizes hands-on projects to develop working prototypes. The goal is to offer students an opportunity for creativity in an interdisciplinary setting. Graded on A-F basis only.

Credit Hours: 4
Prerequisites: junior or senior standing
ECE 4330: Introduction to Mechatronics and Robotic Vision  
(cross-leveled with ECE 7330). Covers 1) mechatronic systems; 2) the mathematical tools used to model industrial and mobile robots; and 3) vision sensors, their underlying models and algorithms that allow us to control and interact with robots.

**Credit Hours:** 4  
**Prerequisites:** ECE 3220 or ECE 4220  
**Recommended:** a C/C++ languages

ECE 4340: Building Intelligent Robots  
(same as CMP_SC 4730; cross-leveled with ECE 7340, CMP_SC 7740). Covers the design and development of intelligent machines, emphasizing topics related to sensor-based control of mobile robots. Includes mechanics and motor control, sensor characterization, reactive behaviors and control architectures. Recommended: programming experience in one of the following programming languages: Basic, C, C++, or Java.

**Credit Hours:** 4  
**Prerequisites:** junior standing

ECE 4350: Programmable Logic Controllers  
(cross-leveled with ECE 7350). Hardware and software aspects of PLC's; computer/PLC Communications; developing ladder logic programs; interfacing I/O devices, including sensors, to the PLC; labeling and documentation; using analog capabilities; applications; developing Supervisory Control and Data Acquisitions (SCADA) applications.

**Credit Hours:** 4  
**Prerequisites:** junior standing

ECE 4370: Automatic Control System Design  
(cross-leveled with ECE 7370). Techniques for feedback system design and analysis; compensation using root locus and frequency-domain methods; state-variable design methods; techniques for nonlinear systems analysis and design; sample-data control systems.

**Credit Hours:** 3  
**Prerequisites:** ECE 4310

ECE 4410: Power Electronics I  
(cross-leveled with ECE 7410). Power electronic device characteristics, important circuit and component concepts, loss mechanisms and thermal analysis, phase controlled rectifiers, dc-dc converters, and dc-ac inverters. Includes laboratory projects.

**Credit Hours:** 4  
**Prerequisites:** ECE 3410

ECE 4430: Electronic Circuits and Signals II  
(cross-leveled with ECE 7430). Advanced study of electronic devices including frequency response of amplifiers, nonlinear effects in transistor amplifiers, oscillators, and feedback amplifiers.

**Credit Hours:** 3  
**Prerequisites:** ECE 3830 and ECE 3410

ECE 4440: Power Systems Analysis  
(cross-leveled with ECE 7440). Selected topics related to modern power system analysis. Single and three-phase balanced power; Transformers and the per unit concept; Properties and analysis of transmission lines; power flow analysis; symmetrical and asymmetrical faults; system stability; power distribution; use of Powerworld software. Graded on A-F basis only.

**Credit Hours:** 3  
**Prerequisites:** ECE 3810 and MATH 4100 or instructor's consent

ECE 4460: Energy and Machines  

**Credit Hours:** 3  
**Prerequisites:** ECE 3510

ECE 4465: Energy and Machines Lab  
Electrical safety, magnetic and poly-phase circuits, synchronous and induction machines laboratory.

**Credit Hour:** 1  
**Prerequisites or Corequisites:** ECE 4460

ECE 4470: Sustainable Electrical Energy Resources  
(cross-leveled with ECE 7470). Analysis of renewable electrical energy resources from both the utility and distributed resource perspective. Covers safety, metering and power quality issues associated with coupling distributed resources to the utility grid.

**Credit Hours:** 3  
**Prerequisites:** ECE 2100 or ENGINR 2100

ECE 4480: Test and Evaluation of Electrochemical Devices  
(cross-leveled with ECE 7480). This combined undergraduate/graduate introductory course will introduce the student to the testing and evaluation of electrochemical cells and batteries. Included with an introduction to battery technology is material emphasizing test safety and operational hazards. Graded on A-F basis only. Recommended: at least 3 college credit hours of chemistry.

**Credit Hours:** 3  
**Prerequisites:** senior standing in Electrical Engineering or major with equivalent mathematical preparation

ECE 4510: Pulsed Power Engineering  
(cross-leveled with ECE 7510). Concepts of energy generation and storage systems used in pulse power engineering, high power opening and closing switches, high voltage engineering, grounding and shielding, high voltage safety.

**Credit Hours:** 3  
**Prerequisites:** ECE 3510

ECE 4550: Introduction to Plasmas  
(same as NU_ENG 4375; cross-leveled with ECE 7550, NU_ENG 7375). Equations of plasma physics, interaction of waves and plasmas; plasma sheaths and oscillations; measurements and applications.

**Credit Hours:** 3  
**Prerequisites:** ECE 3510
ECE 4570: Lasers and Their Applications
(same as NU_ENG 4382; cross-leveled with ECE 7570, NU_ENG 7382). An introductory course in lasers. The course treats the subject from both a conceptual viewpoint and from the application of Maxwell's equations, to develop the optical theory for lasers. The course includes approximately 10 classroom hours of laboratory work with lasers.
Credit Hours: 3
Prerequisites: PHYSCS 2760 and MATH 4110

ECE 4580: Computational Neuroscience
(same as BIO_SC 4580, BIOL_EN 4575; cross-leveled with ECE 7580, BIO_SC 7580, BIOL_EN 7575). Interdisciplinary course in biology and quantitative sciences with laboratory and modeling components. Explores basic computational and neurobiological concepts at the cellular and network level. Introduction to neuronal processing and experimental methods in neurobiology; modeling of neurons and neuron-networks. Graded on A-F basis only.
Credit Hours: 4
Prerequisites: MATH 1500 or equivalent

ECE 4610: Physical Electronics
(cross-leveled with ECE 7610). Introduction to physical principles of semiconductors and semiconductor devices; gas, solid state, and semiconductors lasers; electro-optics; plasma physics and gaseous electronics; materials interaction with electric and magnetic fields.
Credit Hours: 3
Prerequisites: ECE 3510

ECE 4620: Introduction to BioMEMS
(cross-leveled with ECE 7620). Study of BioMEMS devices and applications. Topics cover BioMEMS including overview of microfabrication techniques, common bioMEMS material, microfluidic principles, microfluidic devices, drug delivery, biomedical microdevices for neural implants, patch-clamping and single cell based analysis systems, microelectroporation, DNA microarrays, Plymerase Chain Reaction and biopolymers, chemical and gas sensors and biosensors. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: ECE 3610

ECE 4630: Introduction to Optical Electronics
Credit Hours: 3
Prerequisites: ECE 3610

ECE 4640: MEMS Laboratory
(cross-leveled with ECE 7640). The main objective of this course is to provide hands-on skills for the interdisciplinary Microelectromechanical Systems (MEMS). It puts emphasis on the practical aspects of design, fabrication, test, and characterization of micro/nano devices and systems. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: ECE 3830

ECE 4650: Semiconductor Device Theory
(cross-leveled with ECE 7650). Band theory, equilibrium and non-equilibrium semiconductor electronics, junction theory, p-n junction devices, bipolar and field effect transistors including SPICE simulation.
Credit Hours: 3
Prerequisites: ECE 3610

ECE 4655: Digital Image Processing
(same as CMP_SC 4650; cross-leveled with ECE 7655, CMP_SC 7650). This course provides fundamentals of digital image processing hardware and software including digital image acquisition, image display, image enhancement, image transforms and segmentation.
Credit Hours: 3
Prerequisites: C- or higher in CMP_SC 2050 and STAT 4710 or instructor's consent

ECE 4660: Microelectronic Fabrication
(cross-leveled with ECE 7670). Basic silicon integrated circuit fabrication processes, basic techniques of wafer processing, economics of fabrication and resulting devices properties, interdependence of process flow and device design. Accompanying laboratory.
Credit Hours: 4
Prerequisites: ECE 3610

ECE 4670: Microelectronic Fabrication
(cross-leveled with ECE 7670). Basic silicon integrated circuit fabrication processes, basic techniques of wafer processing, economics of fabrication and resulting devices properties, interdependence of process flow and device design. Accompanying laboratory.
Credit Hours: 4
Prerequisites: ECE 3610

ECE 4690: Design and Simulation of VLSI Circuits
(cross-leveled with ECE 7690). Design of CMOS integrated circuits with emphasis on analog applications. Device models are developed for circuit simulation. Lecture and laboratory.
Credit Hours: 4
Prerequisites: ECE 4670

ECE 4710: Communications Systems
(cross-leveled with ECE 7710). Concepts of communication systems, signal analysis and power spectrum density, signal transmission and filtering, linear modulation, exponential modulation, sampling, baseband digital communication, modulated digital communication, spread spectrum communication.
Credit Hours: 3
Prerequisites: ECE 3830
ECE 4720: Introduction to Machine Learning and Pattern Recognition
(Same as CMP_SC 4720; cross-leveled with ECE 7720, CMP_SC 7720)
This course provides foundation knowledge to the basic methods in machine learning and pattern recognition (MLPR). MLPR addresses the problems of programming computers to optimize certain performance criteria by using example data or expert knowledge and it has wide applications.

Credit Hours: 4
Prerequisites: ECE 3510

ECE 4730: Introduction to Wireless Communication System
(cross-leveled with ECE 7730). Principles of wireless communication analysis and design. Digital communication basics, cellular radio, wireless PCS communications, multiple access techniques, channel coding and equalization, and standards of digital cellular/PCS systems.

Credit Hours: 3

ECE 4830: Introduction to Digital Signal Processing
(cross-leveled with ECE 7830). Concepts, analytical tools, design techniques used in computer processing of signals; signal representation, sampling, discrete-time systems analysis, recursive and non-recursive filters, design/implementation, discrete Fourier transform.

Credit Hours: 4
Prerequisites: ECE 1210, ECE 3830

ECE 4870: Introduction to Computational Intelligence
(same as CMP_SC 4770; cross-leveled with ECE 7870, CMP_SC 7770). Introduction to the concepts, models, and algorithms for the development of intelligent systems from the standpoint of the computational paradigms of neural networks, fuzzy set theory and fuzzy logic, evolutionary computation and swarm optimization. Graded on A-F basis only.

Credit Hours: 3
Recommended: some exposure to rigorous axiomatic mathematical development of a topic (as can be found in most senior/graduate level math or statistics courses) is needed to appreciate some of the development of the theory. Also, the ability to program (well) in some high level language is essential to perform the computer projects

ECE 4880: Micro/Nano Systems
(cross-leveled with ECE 7880). Micro/nano systems covers various micro/nanotechnologies, micro sensors and actuators including digital light processors, accelerometers, gyroscopes, micro optical switches and components, micro speakers, RF switches, inertial/mechanical and acoustic M/NEMS and M/Nanofluidic systems. Major mechanisms/principles for micro/Nano devices and systems are also covered. The Micro/Nano Systems focuses on the miniaturization technologies that have important roles in materials, mechanical, and biomedical engineering practice. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: ECE 3610 or instructor's consent

ECE 4930: Intermediate Electromagnetics
(cross-leveled with ECE 7930). Course covers transmission lines, waveguides, microstrip electromagnetic circuits, and radiating systems.

ECE 4940: Antenna Theory, Design and Laboratory
(cross-leveled with ECE 7940). Introduction to antenna theory, design and laboratory. Emphasis on engineering aspects of antenna systems, transmitting and receiving antenna parameters, various antennas.

Credit Hours: 4
Prerequisites: ECE 3510

ECE 4950: Microwave Principles
(cross-leveled with ECE 7950). Maxwell's Equations, transmission lines, plane wave propagation and reflection, waveguides, resonant cavities, microwave devices and components, radiation, radio wave propagation. Lecture and laboratory.

Credit Hours: 4
Prerequisites: ECE 3510 and ECE 3410

ECE 4970: Senior Capstone Design

Credit Hours: 3
Prerequisites: A grade of C or better in ECE 3110 and senior standing. Restricted to Electrical and Computer Engineering students only or instructor's consent

ECE 4970W: Senior Capstone Design - WI

Credit Hours: 3
Prerequisites: A grade of C or better in ECE 3110 and senior standing. Restricted to Electrical and Computer Engineering students only or instructor's consent

ECE 4980: Micro/Nano Systems
(cross-leveled with ECE 7880). Micro/nano systems covers various micro/nanotechnologies, micro sensors and actuators including digital light processors, accelerometers, gyroscopes, micro optical switches and components, micro speakers, RF switches, inertial/mechanical and acoustic M/NEMS and M/Nanofluidic systems. Major mechanisms/principles for micro/Nano devices and systems are also covered. The Micro/Nano Systems focuses on the miniaturization technologies that have important roles in materials, mechanical, and biomedical engineering practice. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: ECE 3610 or instructor's consent

ECE 4990: Undergraduate Research in Electrical Computer Engineering
Supervised independent study or project in electrical or computer engineering, culminating in a written report.

Credit Hours: 1-3
Prerequisites: Undergraduate Program Director's consent
ECE 4995: Undergraduate Honors Research in Electrical Computer Engineering
Independent investigation or project in electrical or computer engineering to be presented as an undergraduate honors thesis. Enrollment is limited to students participation in the Electrical and Computer Engineering Honors Program.
Credit Hours: 1-3

ECE 7001: Advanced Topics in Electrical and Computer Engineering
Current and new technical developments in electrical engineering.
Credit Hour: 3-4

ECE 7010: Digital Computer Applications in Engineering
Use of digital computer for solution of engineering problems involving roots of equations, simultaneous equations, curve fitting, integration, differentiation and differential equations.
Credit Hours: 3
Prerequisites: MATH 2300

ECE 7020: Energy Systems and Resources
(same as NU_ENG 7315; cross-leveled with ECE 4020, NU_ENG 4315). Analysis of present energy usage in Missouri, USA and the world, evaluation of emerging energy technologies and trends for the future. Economics and environmental impact of the developed technologies.
Credit Hours: 3
Prerequisites: ENGINR 2300

ECE 7030: Introduction to Nuclear Reactor Engineering
(same as NU ENG 7346; cross-leveled with ECE 4030, NU ENG 4346). Engineering principles of nuclear power systems, primarily for the production of electrical energy.
Credit Hours: 3
Prerequisites: graduate ENGINR 1200, ENGINR 2300

ECE 7040: Introduction to Nuclear Physics
(cross-leveled with ECE 4040). Introduction of Quantum mechanics for non-physics majors. Course topics include nuclear properties; alpha, beta and gamma radioactive decay; and nuclear reactions. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: senior standing or graduate standing in engineering or equivalent mathematical preparation

ECE 7220: Real Time Embedded Computing
(cross-level with ECE 4220). Embedded systems development with real time constraints including RTOS, task management and synchronization, realtime scheduling algorithms, deadlocks, performance analysis and optimization, interfacing to external devices, and device drivers. Graded A-F basis only.
Credit Hours: 3
Prerequisites: ECE 3220

ECE 7250: VDHL and Programmable Logic Devices
(cross-leveled with ECE 4250). Design techniques including module definition, functional partitioning, hardware design language descriptions and microprogramming; design examples include arithmetic units, programmable controllers, and microprocessors.
Credit Hours: 4
Prerequisites: ECE 3210

ECE 7270: Computer Organization
(cross-leveled with ECE 4270). Advanced computer architectures and programming; memory, memory management and cache organizations, parallel processing, graphical processor units for general programming.
Credit Hours: 4
Prerequisites: ECE 3210

ECE 7280: Network Systems Architecture
(same as CMP_SC 7280; cross-leveled with ECE 4280, CMP_SC 4280). The course covers network systems interconnects and switch fabrics, network considerations and relevant networking applications at the network, transport and application layer. Graded on A-F basis only.
Credit Hours: 4
Prerequisites: CMP_SC 2050 or ECE 3200 and CMP_SC 3280 or ECE 3210

ECE 7310: Feedback Control Systems
(same as BIOL_EN 7310, MAE 7750; cross-leveled with ECE 4310, BIOL_EN 4310, MAE 4750). System modeling and time and frequency response, closed loop control, stability, continuous system design, introduction to discrete time control, software and hardware experiments on compensator design and PID control.
Credit Hours: 3
Prerequisites: MATH 4100

ECE 7320: Architectural Robotics
(cross-leveled with ECE 4320). Architectural robotics has been defined as “intelligent and adaptable built environments (featuring embedded robotic components) that sense, plan, and act”. This course will cover the basic concepts required for understanding, developing, and testing embedded robotic systems for the built environment. Students will work together in teams in a studio-style format which emphasizes hands-on projects to develop working prototypes. The goal is to offer students an opportunity for creativity in an interdisciplinary setting. Graded on A-F basis only.
Credit Hours: 4
Prerequisites: ECE 4970 or equivalent

ECE 7330: Introduction to Mechatronics and Robotic Vision
(cross-leveled with ECE 4330). Introduces robotics; robot system characteristics; robot motive power systems; geometric structure of robots; sensors and feedback; control applications and algorithms; data acquisition and output actuation function; robots and AI; microprocessor applications. Lecture and Laboratory. Recommended: a C/C++ Language course.
Credit Hours: 4
Prerequisites: ECE 3220 or ECE 4220
ECE 7335: Nuclear Safeguards Science and Technology
(same as NU_ENG 7335). This course provides an overview of nuclear materials management and safeguards, including physical protection systems, material accounting and control, monitoring, and regulatory issues.

Credit Hours: 3
Prerequisites: NU_ENG 4303 or NU_ENG 7303

---

ECE 7340: Building Intelligent Robots
(same as CMP_SC 7730; cross-leveled with ECE 4340, CMP_SC 4730) Covers the design and development of intelligent machines, emphasizing topics related to sensor-based control of mobile robots. Includes mechanics and motor control, sensor characterization, reactive behaviors and control architectures.

Credit Hours: 4
Recommended: some programming experience

---

ECE 7350: Programmable Logic Controllers
(cross-leveled with ECE 4350). Hardware and software aspects of PLC's; computer/PLC Communications; developing ladder logic programs; interfacing I/O devices, including sensors, to the PLC; labeling and documentation; utilizing analog capabilities; applications; developing Supervisory Control and Data Acquisitions (SCADA) applications.

Credit Hours: 4

---

ECE 7370: Automatic Control System Design
(cross-leveled with ECE 4370). Techniques for feedback system design and analysis; compensation using root locus and frequency-domain methods; state-variable design methods; techniques for nonlinear systems analysis and design; sample-data control systems.

Credit Hours: 3
Prerequisites: ECE 4310

---

ECE 7410: Power Electronics I
(cross-leveled with ECE 4410). Power electronic device characteristics, important circuit and component concepts, loss mechanisms and thermal analysis, phase controlled rectifiers, dc-dc converters, and dc-ac inverters. Includes laboratory projects.

Credit Hours: 4
Prerequisites: ECE 3410

---

ECE 7430: Electronic Circuits and Signals II
(cross-leveled with ECE 4430). Advanced study of electronic devices including frequency response of amplifiers, nonlinear effects in transistor amplifiers, oscillators, and feedback amplifiers.

Credit Hours: 3
Prerequisites: ECE 3830 and ECE 3410

---

ECE 7440: Power Systems Analysis
(cross-leveled with ECE 4440). Selected Topics related to modern power system analysis. Single and three-phase balanced power; Transformers and the per unit concept; Properties and analysis of transmission lines; power flow analysis; symmetrical and asymmetrical faults; system stability; power distribution; use of Powerworld software. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: ECE 3810 and MATH 4100 or instructor's consent

---

ECE 7450: Energy and Machines

Credit Hours: 3
Prerequisites: ECE 3510

---

ECE 7460: Sustainable Electrical Energy Resources
(cross-leveled with ECE 4460). Analysis of renewable electrical energy resources from both the utility and distributed resource perspective. Covers safety, metering and power quality issues associated with coupling distributed resources to the utility grid.

Credit Hours: 3
Prerequisites: ECE 2100 or ENGINR 2100

---

ECE 7470: Test and Evaluation of Electrochemical Devices
(cross-leveled with ECE 4470). This combined undergraduate/graduate introductory course will introduce the student to the testing and evaluation of electrochemical cells and batteries. Included with an introduction to battery technology is material emphasizing test safety and operational hazards. Graded on A-F basis only. Recommended: at least 3 college credit hours of chemistry.

Credit Hours: 3
Prerequisites: graduate standing in Electrical Engineering or major with equivalent mathematical preparation

---

ECE 7510: Pulsed Power Engineering
(cross-leveled with ECE 4510). Concepts of energy generation and storage systems used in pulse power engineering, high power opening and closing switches, high voltage engineering, grounding and shielding, high voltage safety.

Credit Hours: 3
Prerequisites: ECE 3510

---

ECE 7550: Introduction to Plasmas
(same as NU_ENG 7375; cross-leveled with ECE 4550, NU_ENG 4375). Equations of plasma physics, interaction of waves and plasmas; plasma sheaths and oscillations; measurements and applications.

Credit Hours: 3
Prerequisites: ECE 4930

---

ECE 7570: Lasers and Their Applications
(same as NU_ENG 7382; cross-leveled with ECE 4570, NU_ENG 4382). An introductory course in lasers. The course treats the subject from both a conceptual viewpoint and from the application of Maxwell's equations, to develop the optical theory for lasers. The course includes approximately 10 classroom hours of laboratory work with lasers.

Credit Hours: 3
Prerequisites: PHYSCS 2760 and MATH 4110
ECE 7580: Computational Neuroscience
(same as BIO_SC 7580, BIOL_EN 7575; cross-leveled with ECE 4580, BIO_SC 4580, BIOL_EN 4575). Interdisciplinary course in biology and quantitative sciences with laboratory and modeling components. Explores basic computational and neurobiological concepts at the cellular and network level. Introduction to neuronal processing and experimental methods in neurobiology; modeling of neurons and neuron-networks. Graded on A-F basis only.

Credit Hours: 4
Prerequisites: MATH 1500 or equivalent

ECE 7610: Physical Electronics
(cross-leveled with ECE 4610). Introduction to physical principles of semiconductors and semiconductor devices; gas, solid state, and semiconductors lasers; electro-optics; plasma physics and gaseous electronics; materials interaction with electric and magnetic fields.

Credit Hours: 4
Prerequisites: ECE 3510

ECE 7620: Introduction to BioMEMS

Credit Hours: 3
Prerequisites: ECE 3610

ECE 7630: Introduction to Optical Electronics

Credit Hours: 3
Prerequisites: ECE 3610

ECE 7640: MEMS Laboratory
(cross-leveled with ECE 4640). The main objective of this course is to provide hands-on skills for the interdisciplinary Microelectromechanical systems (MEMS). It puts emphasis on the practical aspects of design, fabrication, test, and characterization of micro/nano devices and systems. Graded on A-F basis only.

Credit Hours: 4
Prerequisites: PHYSCS 2760, CHEM 1320 or ECE 2100; instructor's consent

ECE 7650: Semiconductor Device Theory
(cross-leveled with ECE 7650). Band theory, equilibrium and non-equilibrium semiconductor electronics, junction theory, p-n junction devices, bipolar and field effect transistors including SPICE simulation.

Credit Hours: 3
Prerequisites: ECE 3610

ECE 7655: Digital Image Processing
(same as CMP_SC 7650; cross-leveled with ECE 4655, CMP_SC 4650). The course provides fundamentals of digital image processing hardware and software including digital image acquisition, image display, image enhancement, image transforms and segmentation.

Credit Hours: 3
Prerequisites: STAT 4710 and CMP_SC 2050 or instructor's consent

ECE 7670: Microelectronic Fabrication
(cross-leveled with ECE 4670). Basic silicon integrated circuit fabrication processes, basic techniques of wafer processing, economics of fabrication and resulting devices properties, interdependence of process flow and device design. Accompanying laboratory.

Credit Hours: 4
Prerequisites: ECE 3610

ECE 7675: Digital Image Compression
(same as CMP_SC 7670; cross-leveled with ECE 4675, CMP_SC 4670). This course provides basic concepts and theorems in information theory, discrete cosine transform, discrete wavelet transform, quantizer design, bit allocation, and rate-distortion analysis and practical coding and communication system design, (such as Huffman coding, arithmetic coding, variable length coding, motion estimation, JPEG.)

Credit Hours: 3
Prerequisites: CMP_SC 2050

ECE 7690: Design and Simulation of VLSI Circuits
(cross-leveled with ECE 4690). Design of CMOS integrated circuits with emphasis on analog applications. Device models are developed for circuit simulation. Lecture and laboratory.

Credit Hours: 4
Prerequisites: ECE 4670

ECE 7710: Communications Systems
(cross-leveled with ECE 4710). Concepts of communication systems, signal analysis and power spectrum density, signal transmission and filtering, linear modulation, exponential modulation, sampling, baseband digital communication, modulated digital communication, spread spectrum communication.

Credit Hours: 3
Prerequisites: ECE 3830

ECE 7720: Introduction to Machine Learning and Pattern Recognition
(same as CMP_SC 7720; cross-leveled with ECE 4720, CMP_SC 4720). This course provides foundation knowledge to the basic methods in machine learning and pattern recognition (MLPR). MLPR addresses the problem of programming computers to optimize certain performance criteria by using example data or expert knowledge and it has wide applications.

Credit Hours: 3
Prerequisites: CMP_SC 2050 and STAT 4710 or instructor's consent
ECE 7730: Introduction to Wireless Communication System
(cross-leveled with ECE 4730). Principles of wireless communication analysis and design. Digital communication basics, cellular radio, wireless PCS communications, multiple access techniques, channel coding and equalization, and standards of digital cellular/PCS systems.
Credit Hours: 4

ECE 7810: Multimedia Engineering and Technology
(same as CMP_SC 7810). Survey of multimedia applications. Capture, coding, storage, transmission, and software tools for developing productions involving text, graphics, images, animation, sound and video. Term projects. Lecture and laboratory.
Credit Hours: 4
Prerequisites: ECE 3210 and ECE 3830

ECE 7830: Introduction to Digital Signal Processing
(cross-leveled with ECE 4830). Concepts, analytical tools, design techniques used in computer processing of signals; signal representation, sampling, discrete-time systems analysis, recursive and non-recursive filters, design/implementation, discrete Fourier transform.
Credit Hours: 4
Prerequisites: ECE 1210, ECE 3830

ECE 7870: Introduction to Computational Intelligence
(same as CMP_SC 7770; cross-leveled with ECE 4870, CMP_SC 4770). Introduction to the concepts, models, and algorithms for the development of intelligent systems from the standpoint of the computational paradigms of neural networks, fuzzy set theory and fuzzy logic, evolutionary computation and swarm optimization. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: some exposure to rigorous axiomatic mathematical development of a topic (as can be found in most senior/graduate level math or statistics courses) is needed to appreciate some of the development of the theory. Also, the ability to program (well) in some high level language is essential to perform the computer projects

ECE 7880: Micro/Nano Systems
(cross-leveled with ECE 4880). Micro/Nano systems covers various micro/nanotechnologies, micro sensors and actuators including digital light processors, accelerometers, gyroscopes, micro optical switches and components, micro speakers, RF switches, inertial/mechanical and acoustic M/NEMS and M/Nanofluidic systems. Major mechanisms/principles for micro/Nano devices and systems are also covered. The Micro/Nano Systems focuses on the miniaturization technologies that have important roles in materials, mechanical, and biomedical engineering practice. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: ECE 3610 or instructor's approval

ECE 7930: Intermediate Electromagnetics
(cross-leveled with ECE 4930). Course covers transmission lines, waveguides, microstrip electromagnetic circuits, and radiating systems.
Credit Hours: 4
Prerequisites: ECE 3510

ECE 7940: Antenna Theory, Design and Laboratory
(cross-leveled with ECE 4940). Introduction to antenna theory, design and laboratory. Emphasis on engineering aspects of antenna systems, transmitting and receiving antenna parameters, and various wire antennas.
Credit Hours: 4
Prerequisites: ECE 3510

ECE 7950: Microwave Principles
(cross-leveled with ECE 4950). Maxwell's Equations, transmission lines, plane wave propagation and reflection, waveguides, resonant cavities, microwave devices and components, radiation, radio wave propagation. Lecture and laboratory.
Credit Hours: 4
Prerequisites: ECE 3510 and ECE 3410

ECE 8001: Advanced Topics in Electrical and Computer Engineering
Advanced Topics in Electrical and Computer Engineering
Credit Hours: 3

ECE 8010: Supervised Study in Electrical Engineering
Supervised individual study at the graduate level to be completed within the course of one semester in the form of a brief report. Graded on S/U basis only
Credit Hour: 1-3

ECE 8020: Superconductivity and its Applications
(same as NU_ENG 8450). Phenomenology and theory of superconductivity, cryogenic practice, metallurgy of superconducting elements, alloys and compounds. Present and prospective applications.
Credit Hours: 3

ECE 8085: Problems in Electrical and Computer Engineering
Supervised investigation of an electrical engineering problem for an MS project. Study culminates in a project report. Graded on a S/U basis only.
Credit Hour: 2-5

ECE 8110: Preparing Advanced Professionals - I
Discussions on a variety of topics: Pedagogy - latest from cognitive science and learning theory, effective teaching, how a university functions, engineering teaching and research; how leading industries perform research and the importance of soft skills, etc. Graded on A-F basis only.
Credit Hour: 1
Prerequisites: restricted to graduate Engineering majors only

ECE 8120: Preparing Advanced Professionals - II
Continues format of ECE 8110 with group discussions and seminars by experts on how to write an effective proposal, including a review of model proposals, model proposal reviews, and a 'hands-on' proposal writing followed by globalization and its effects on professionals. Graded on A-F only.
Credit Hour: 1
Prerequisites: graduate engineering majors only
ECE 8250: Digital Hardware Systems Design
Characteristics and parameters of various hardware subsystems including main memory, auxiliary memory, arithmetic units, card equipment, etc., and principles of organization into efficient system.
Credit Hours: 3
Prerequisites: ECE 4250

ECE 8260: Computer Networks
Concepts and goals of computer networking, structure of computer networks, OSI model and layers, network control, analysis, design, and management, data communication techniques including fiber optics, WAN, MAN and LAN architectures and protocols, inter-networking, case studies, and hands-on studying the performance by analytic modeling and computer simulation.
Credit Hours: 3
Prerequisites: CMP_SC 4270

ECE 8270: Parallel Computer Architecture
The course covers parallel computer architecture (general purpose multi-core and many-core processors, shared and distributed memory systems, clusters). Emphasis will be given to both architectural and programmability aspects. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: ECE 4270 or ECE 7270, ECE 4220 or ECE 7220 or CMP_SC 4250 or CMP_SC 7250

ECE 8320: Nonlinear Systems
Nonlinear systems including topics such as limit cycles, phase plane analysis, bifurcation, Lyapunov stability, input-output stability, passivity. Topics from control such as feedback linearization, sliding control, and Lyapunov redesign. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: ECE 4310

ECE 8330: Neural Networks for Learning Control
Neurocomputing techniques and structures for modeling, learning control, control stabilization, and optimization of performance over time.
Credit Hours: 3
Prerequisites: at least on 4000, 7000 or 8000- level control course

ECE 8340: Multivariable Control System Design
This course will cover techniques in multivariable control system design and analysis, including LOG H-2 design, H-oo design, LTR, robust performance, and selected adaptive and learning control techniques for nonlinear control.
Credit Hours: 3
Prerequisites: ECE 8310 or acceptable equivalent

ECE 8350: Optimal Control Theory
Analysis and design of dynamic systems using optimal control theory: parameter optimization, dynamic optimization, computational methods, differential games.
Credit Hours: 3
Prerequisites: ECE 4690

ECE 8360: Stochastic Optimal Estimation and Control
Surveys random process theory; stochastic control and optimization; estimation and filtering based on Kalman-Bucy techniques; stochastic stability; adaptive and learning control systems.
Credit Hours: 3
Prerequisites: ECE 8310

ECE 8370: Digital and Sample-Data Systems
Introduces sampling and quantization, design of digital and sample-data systems, digital filters, adaptive sampling and quantization.
Credit Hours: 3
Prerequisites: ECE 8310 and STAT 4710

ECE 8410: Power Electronics II
Circuit concepts and analysis techniques for transistor switching regulators, thyristor choppers, transistor inverters, self-commutated thyristor inverters and cycloconverters.
Credit Hours: 3
Prerequisites: ECE 4410

ECE 8420: Power Electronic Drives
Advanced study of DC and AC motor drives controlled by power electronic methods, including phase controlled rectifier, DC chopper, cycloconverter, variable frequency inverters.
Credit Hours: 3
Prerequisites: ECE 8410, ECE 8310

ECE 8430: Digital Electronics
Electronic hardware aspects of digital systems. Includes state-of-the-art information on integrated-circuit logic devices and their applications.
Credit Hours: 3
Prerequisites: ECE 4690

ECE 8510: Advanced Electromagnetics
Advanced theoretical electromagnetic theory. Investigation of summation problems with general boundary conditions, time varying fields, and time harmonic currents. Basic applications and relationships in classical and relativistic physics.
Credit Hours: 3
Prerequisites: ECE 3510

ECE 8520: Direct Energy Conversion Technologies
Study of direct energy conversion technology and research trends in this area. Topics include energy storage techniques (mechanical, chemical, thermal, inductive, capacitive), thermoelectric generators, photovoltaic generators, thermionic generators, magnetohydrodynamic generators, piezoelectric generators, wind generators, fuel cells. Current research trends in this area will also be examined. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: ECE Majors or instructors consent
ECE 8530: Advanced Photonics
Concentrated study of optical system design, including integrated optics, semiconductor lasers, quantum wells, optical materials, and electro-optical effects used in modern optical systems.
Credit Hours: 3
Prerequisites: ECE 4530

ECE 8540: Advanced Network Theory and Applications
Advanced study of network theorems including compensation, reciprocity, duality, and maximum power. Theory and application of N-port parameters. Analysis of ordinary and partial differential equations to develop electrical analogs for mechanical, pneumatic, thermal, hydraulic systems. Study of non-linear circuit analysis and modeling techniques. Current research trends in this area will also be examined. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: ECE Majors or instructors consent

ECE 8570: Theoretical Neuroscience I
Properties of nerve cells including membrane potential, action potential, ion channel dynamics, GHK equation, dynamical properties of excitable membranes. Equilibria, stability, eigenvalues and phase portraits. Conductance based models, bifurcations, excitability. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: ECE 4310

ECE 8580: Theoretical Neuroscience II
Neural encoding and decoding including firing rate and spike statistics, reverse correlation and visual receptive fields. Cellular and synaptic biophysics. Adaptation and learning including plasticity, classical conditioning, reinforcement learning and representational learning. Graded on A-F basis.
Credit Hours: 3
Prerequisites: ECE 8570

ECE 8590: Computer Vision
(same as CMP_SC 8690). This course introduces students to the fundamental problems of computer vision, the main concepts and the techniques used to solve such problems. It will enable graduate and advanced undergraduate students to solve complex problems and make sense of the literature in the area. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: ECE 4655 or ECE 7655 or CMP_SC 4650 or CMP_SC 7650 or instructor's consent

ECE 8610: Power Semiconductor Devices
A study of the semiconductor devices used in switch-mode power converter circuits. Course surveys the field and discusses selected devices in depth.
Credit Hours: 3
Prerequisites: ECE 3610, ECE 4630 and ECE 4650

ECE 8620: Advanced Microelectromechanical Systems
MEMS development cycle, overview of microfabrication, microsystem modeling, mechanical analysis, thermal analysis, transduction mechanism, case studies; Micromirror, accelerometers, pressure sensors, force sensors, RF MEMS switches, Infrared sensors, and Microsystem packaging.
Credit Hours: 3

ECE 8630: Numerical Analysis of Semiconductor Devices
Basic equations of semiconductor device analysis, associated boundary conditions, and physical models; discretization schemes and numerical solution methods; application to one and two dimensional bipolar and field effect device structures in thermal equilibrium and under DC steady state and transient operating conditions.
Credit Hours: 3
Prerequisites: ECE 4630 and ECE 4650

ECE 8640: Advanced Integrated Circuits
Fundamentals of advanced integrated circuit design; diffusion, ion implantation and epitaxy; MOS and bipolar techniques; survey of current LSI design, fabrication and testing.
Credit Hours: 3

ECE 8650: Solid State Theory I
Principles of quantum and wave mechanics as applied to solid state; Boltzman and Fermi statistics; energy band theory of crystals; electrons, holes in semiconductors. Current flow in P-N junctions, semiconductor devices.
Credit Hours: 3

ECE 8660: Solid State Theory II
Fundamentals of crystallography; application of X-ray analysis to the study of crystallinity. Quantum mechanical solution for the wave function of an electron in a solid; concepts of reciprocal space.
Credit Hours: 3
Prerequisites: ECE 8650 or PHYSCS 8150

ECE 8680: Computer Vision
Credit Hours: 3
Prerequisites: PHYSCS 3150

ECE 8695: Cognitive Computer Vision
One of the more recent trends in computer vision research in the pursuit of human-like capability is the coupling of cognition and vision into cognitive computer vision. This course will emphasize the advanced topics in applying machine learning techniques in computer vision.
Credit Hours: 3
Prerequisites: ECE 4850 or ECE 7850 or CMP_SC 4650 or CMP_SC 7650 or instructor's consent

ECE 8720: Microwave and RF Design of Wireless Systems
Introduces fundamentals of Microwave/RF design and analysis of modern wireless systems. Topics include the following: wireless system
components, receiver design, performance issues, noise, distortion, measurement techniques and computer-aided design techniques.

Credit Hours: 3

ECE 8725: Supervised Learning
(same as CMP_SC 8725). This course introduces the theories and applications of advanced supervised machine learning methods. It covers hidden Markov model and expectation maximization (EM) algorithms, probabilistic graphical models, non-linear support vector machine and kernel methods. The course emphasizes both the theoretical underpinnings of the advanced supervised learning methods and their applications in the real world. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: CMP_SC 4720 or CMP_SC 7720 or ECE 4720 or ECE 7720 or instructor's consent

ECE 8730: Fundamentals of Radar Signal Processing
Study of radar signal processing fundamentals. Topics include radar systems, signal models, sampling and quantization of radar signals, radar waveforms, Doppler processing, detection fundamentals, radar imaging.

Credit Hours: 3

ECE 8735: Unsupervised Learning
(same as CMP_SC 8735). Theoretical and practical aspects of unsupervised learning including topics of expectation maximization (EM), mixture decomposition, clustering algorithms, cluster visualization, and cluster validity. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: CMP_SC 4720 or CMP_SC 7720 or ECE 4720 or ECE 7720 or instructor's consent

ECE 8740: Digital Signal Processing in Remote Sensing
Study of digital signal processing in remote sensing applications. Investigation of digital signal processing methods for visible, near infrared, thermal infrared, and microwave wavelength sensors.

Credit Hours: 3

ECE 8750: Digital Signal Processing in Telecommunications
Applications of digital signal processing in telecommunication systems; oversampling and quantizations, Delta-Sigma modulation, linear predictive speech coding, adaptive filtering, echo canceller, adaptive receivers and equalizers for wireless communication, digital cellular, CDMA.

Credit Hours: 3
Prerequisites: ECE 4830 and ECE 4710

ECE 8770: Advanced Mobile Communication Systems
Channel extimation and equalization, multi-user detection, diversity combining, multi-carrier and OFDM, Standards of 3G Wireless Communication Systems such as EDGE, CDMA 2000 and UMTS.

Credit Hours: 3

ECE 8780: State Variable Methods in Automatic Control
(same as CH_ENG 8780, MAE 8780, NU_ENG 8408). State variables for continuous and discrete-time dynamic control systems; controllability and observability; optimal control of linear systems.

Credit Hours: 3
Prerequisites: CH_ENG 4370, ECE 4310, MAE 4703 or instructor's consent

ECE 8790: Digital Processing of SAR Data
Study of digital processing of synthetic aperture radar (SAR) data. Topics cover SAR data fundamentals including concepts, signal processing, pulse compression, signal properties, processing algorithms, and image processing.

Credit Hours: 3

ECE 8800: Sensor Array and Statistical Signal Processing
Introduce the basics on sensor array processing, signal detection and parameter estimation, with their applications in communications and signal processing. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: ECE 7830 and ECE 8860 or with instructor consent

ECE 8810: Advanced Digital Signal Processing
Topics in digital signal analysis and filtering. Including hardware implementation, speech synthesis and recognition, multi-dimensional transforms, random-signal concepts, design methods and computer aids to analysis and design.

Credit Hours: 3
Prerequisites: ECE 4830

ECE 8820: Pattern Recognition
(same as CMP_SC 8760). Decision functions, crisp and fuzzy clustering methods, statistical pattern recognition methods, Bayesian classifiers, error probabilities, estimation of density functions, perceptrons, least-mean-square algorithms, feature selection, dimensionality reduction and syntactic pattern recognition.

Credit Hours: 3
Prerequisites: CMP_SC 4050, STAT 4710

ECE 8830: Visual Signal Processing and Communications
Threats visual digital signal processing and network communications covering both theory and application of coding, compression and communications via the web. Covers such standards as JPEG, MPEG-2 and MPEG-4 as well as motion detection. Graded on A-F basis only.

Credit Hours: 3

ECE 8840: Artificial Intelligence
Concepts, theories, and models pertaining to neural nets, pattern recognition, learning systems, and programmed problem solving.

Credit Hours: 3

ECE 8850: Digital Image Processing
Image processing methods for segmentation, object representation, scene description and scene interpretation.
ECE 8850: Advanced Image Processing
Point and aperture sources; simple antennas; antenna array; data-processing antennas; and other broadband and directive antennas.
Credit Hours: 3
Prerequisites: ECE 4850
ECE 8890: Research-Master Thesis in Electrical and Computer Engineering
Independent investigation in a field of electrical engineering to be presented as thesis or dissertation. Graded on a S/U basis only.
Credit Hour: 1-99
ECE 8870: Modeling and Management of Uncertainty
Introduction to probability, multidimensional complex (phasor) random variables and stochastic processes in electrical engineering.
Credit Hours: 3
Prerequisites: ECE 4830, ECE 4710, or ECE 8620
ECE 8875: Advanced Topics in Computational Intelligence
This course is a continuation of ECE 7870 in the concepts, models, and algorithms for the development of intelligent systems from the standpoint of the computational paradigms of neural networks, fuzzy set theory and fuzzy logic, evolutionary computation, and swarm intelligence. Advanced topics in these areas will be discussed with a focus on applications of these technologies.
Credit Hours: 3
Prerequisites: ECE 4870 or ECE 7870 or instructor's consent
ECE 8878: System Modeling
System performance requires the assessment of its delay and throughput. Markov theory provides the theoretical basis for such assessment. More general methods describe queues including open and closed queuing networks. Includes performance assessment of computer processors.
Credit Hours: 3
Prerequisites: STAT 4710
ECE 8890: Neural Networks
The course will consider computing systems based on neural networks and learning models along with implementations and applications of such systems.
Credit Hours: 3
Prerequisites: ECE 4870 or ECE 7870 or instructor's consent
ECE 8910: High Frequency Transmission and Radiation
Skin effect; theory of transmission lines, wave guides, resonators.
Credit Hours: 3
ECE 8920: Antennas
Credit Hours: 3
Prerequisites: ECE 4850
ECE 8990: Research-Doctoral Dissertation Electrical & Computer Engineering
Independent investigation in a field of electrical engineering to be presented as thesis or dissertation. Graded on a S/U basis only.
Credit Hour: 1-99
EMR_ME 6034: SCC Emergency Medicine Selective
This selective is designed to offer an introductory experience in Emergency Medicine, including all levels of acuity and pre-hospital emergency care. The student will work 15-16 (~140 hours) rotating shifts in the Emergency Department. During that time, the student will have free access to all patient care activities. The student will assist with patient evaluations and procedures under the close supervision of the Emergency attending physicians, residents, or physician assistants. Specific time will be devoted to learning basic skills needed in emergency medicine. An orientation skills lab will be provided early in the rotation to cover suturing, splinting, etc. Teaching will be primarily a one-on-one exchange with the residents and PA's/Attendings. There are night shifts in this rotation.
Credit Hours: 5
Prerequisites: Successful completion of the first two years of medical school. Successful completion of 5 of the 7 core clerkships. Three of the 5 must be the Surgery Clerkship, Internal Medicine Clerkship, and either the Pediatrics or Family Medicine Clerkship
EMR_ME 6243: ABS Emergency Medicine Research
Credit Hour: 5-10
EMR_ME 6245: ABS Emergency Medicine Research and Review
Credit Hour: 5-10
EMR_ME 6460: Emergency Medicine
Credit Hours: 5
EMR_ME 6760: Emergency Medicine - Rural
Emergency Medicine - Rural
Credit Hours: 5

EMR_ME 6860: Emergency Medicine
Credit Hours: 5

EMR_ME 6919: Introduction to Emergency Medicine
This elective is designed to offer an introductory experience in Emergency Medicine, including all levels of acuity and pre-hospital emergency care.
Credit Hours: 2
Prerequisites: Successful completion of the first two years of medical school

EMR_ME 6920: Introduction to Pediatric Emergency Medicine
This elective is designed to offer an introductory experience in Pediatric Emergency Medicine (PEM) including all levels of acuity and pre-hospital emergency care.
Credit Hours: 2
Prerequisites: Successful completion of the first two years of medical school

Engineering Courses

ENGINR 1000: Introduction to Engineering
This course will help students identify a field of engineering that they will pursue during the remainder of their studies at MU. This objective will be achieved by exposing students to the history of our engineering disciplines, and by giving an overview of the individual departments within the college of engineering. Guest lecturers from industry will make presentations on what it’s like to be an engineer. Other lectures will be given to help acclimate students to university life. Graded on A-F basis only.
Credit Hour: 1

ENGINR 1001: Experimental Course
For freshman-level students. Content and number of credit hours to be listed in Schedule of Courses.
Credit Hour: 1-99

ENGINR 1100: Engineering Graphics Fundamentals
Introduction to computer-aided design and drafting. Topics include visualization methods and standards techniques for communication and presenting engineering design graphics information.
Credit Hours: 2
Prerequisites or Corequisites: MATH 1500
Prerequisites: Restricted to Engineering Students only, or by departmental consent

ENGINR 1110: Solid Modeling for Engineering Design
Introduction to 3D (three dimensional) modeling techniques using computer aided design software. Topics include model creation techniques and advanced graphical presentation practices. Graded on A-F basis only.
Credit Hour: 1
Prerequisites: ENGINR 1100 or instructor's consent. Restricted to Engineering Students Only or by departmental consent

ENGINR 1200: Statics and Elementary Strength of Materials
Fundamentals of statics; static equilibrium and introduction to elements of mechanics of elastic materials.
Credit Hours: 3
Prerequisites or Corequisites: PHYSCS 2750. Restricted to Engineering Students only or with departmental consent
Prerequisites: MATH 1500

ENGINR 2001: Experimental Course
For sophomore-level students. Content and number of credit hours to be listed in Schedule of Courses.
Credit Hour: 1-99

ENGINR 2001W: Experimental Course - Writing Intensive
For sophomore-level students. Content and number of credit hours to be listed in Schedule of Courses.
Credit Hour: 1-99

ENGINR 2010: Women in Engineering Leadership
This is a course focused on women in leadership, leadership development and leadership in engineering. Through experiential learning, empowering examples, group discussion, written reflections, attendance at three conferences, one retreat and completion of two short papers and one major project, you will develop the self-knowledge and skills to practice leadership for a changing world, explore your own potential for leadership, explore the context for the practice of leadership and learn to make a difference through leadership. Beginning in August and working through May, you will work individually and in teams to produce a final project that shows how your own skills and knowledge about leadership can you help you use your passion and engineering degree to impact the world around you.
Credit Hours: 3
Recommended: First Year Students (transfers, first time college, etc)

ENGINR 2100: Circuit Theory for Engineers
DC circuit analysis, inductors and capacitors, first-order response, AC circuit analysis, single-phase AC power and three-phase, transformers.
Credit Hours: 3
Prerequisites: MATH 1700. For Non-Electrical and Computer Engineering Majors. Restricted to Engineering Students only or with departmental consent

ENGINR 2100H: Circuit Theory for Engineers - Honors
DC circuit analysis, inductors and capacitors, first order response, AC circuit analysis, single-phase AC power.
Credit Hours: 3
Prerequisites: MATH 1700. Honors eligibility required
ENGINR 2200: Intermediate Strength of Materials
Elements of mechanics of elastic materials.
Credit Hours: 3
Prerequisites: ENGINR 1200. Restricted to Engineering Students only or with departmental consent

ENGINR 2300: Engineering Thermodynamics
(same as MAE 2300). Fluid properties, work and heat, first law, second law, entropy, applications to vapor and ideal gas processes.
Credit Hours: 3
Prerequisites: PHYSCS 2750. Restricted to Engineering Students Only or departmental consent

ENGINR 2500: A History of Modern Engineering
This course will introduce the student to significant engineering events that have shaped the late modern-area from the French Revolution to the end of World War II (1789-1945). Radical inventions and their dates will be used as historical landmarks throughout the course. Graded on A-F basis only.
Credit Hours: 3

ENGINR 2500H: A History of Modern Engineering - Honors
This course will introduce the student to significant engineering events that have shaped the late modern-area from the French Revolution to the end of the World War II (1789-1945). Radical inventions and their dates will be used as historical landmarks throughout the course. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: Honors eligibility required

ENGINR 2600: History of Human Spaceflight
This course will provide an overview of the history of human spaceflight, including early efforts up through the present for the three countries that have flown humans in space (U.S., Russian, and China). Special topics will include a discussion of the major space accidents. Finally, the future of human space exploration will be discussed. May be repeated for credit. Graded on A-F basis only.
Credit Hours: 3

ENGINR 2600H: History of Human Spaceflight - Honors
This course will provide an overview of the history of human spaceflight, including early efforts up through the present for the three countries that have flown humans in space (U.S., Russian, and China). Special topics will include a discussion of the major space accidents. Finally, the future of human space exploration will be discussed. May be repeated for credit. Graded on A-F basis only. Prerequisites: Honors eligibility required
Credit Hours: 3

ENGINR 2600HW: History of Human Spaceflight - Honors/ Writing Intensive
This course will provide an overview of the history of human spaceflight, including early efforts up through the present for the three countries that have flown humans in space (U.S., Russian, and China). Special topics will include a discussion of the major space accidents. Finally, the future of human space exploration will be discussed. May be repeated for credit. Graded on A-F basis only. Prerequisites: Honors eligibility required
Credit Hours: 3

ENGINR 3000: Short Term Education Abroad
Introduction to history and culture of country and/or cities in specified country. Students will make engineering profession and corporate site visits. Lecture activities will focus on industry and society, with country and/or cities compared and contrasted to U.S. engineering. Graded A-F only.

ENGINR 3000H: Short Term Education Abroad - Honors
Introduction to history and culture of country and/or cities in specified country. Students will make engineering profession and corporate site visits. Lecture activities will focus on industry and society, with country and/or cities compared and contrasted to U.S. engineering. Graded A-F only.
Credit Hours: 3
Prerequisites: Instructor's consent required. Students must be in Academic Good Standing

ENGINR 4000: Study Abroad Technical Elective
This course is designed to provide students with an international experience while also potentially fulfilling a required engineering technical elective course. Engineering technical electives are courses that are relevant or related to engineering from a broad range of fields including math and science as well as the various engineering departments. This course will be used as the umbrella course for all Engineering Technical Elective Study Abroad Opportunities and each course will provide a separate section number.
Credit Hour: 3-6

ENGINR 4085: Problems in Engineering
Special design, experimental or analytical problems in engineering. May be repeated to 6 hours.
Credit Hour: 0-6

ENGINR 4890: Multi-disciplinary Senior Engineering Capstone Design
Engineering design and prototyping including reliability, testing, evaluation, preparation of documentation, safety, ethics, manufacturing, intellectual property, economic and environmental constraints. Oral and written reports. Graded A-F only.
Credit Hours: 3
Prerequisites: Instructor's consent. Student's department consent also required
Recommended: Senior standing

ENGINR 4890W: Multi-disciplinary Senior Engineering Capstone Design - Writing Intensive
Engineering design and prototyping including reliability, testing, evaluation, preparation of documentation, safety, ethics, manufacturing, intellectual property, economic and environmental constraints. Oral and written reports. Graded A-F only.
Credit Hours: 3
Prerequisites: Instructor's consent. Student's department consent also required
Recommended: Senior standing

ENGINR 8100: Design and Development of Biomedical Innovations
(same as BIOL_EN 8100). This course takes students through the process of brainstorming and working out a solution to a medical need, and then producing a product. Outputs may include the development of
a physical prototype through interactions with the College of Engineering rapid prototype facility. May be repeated for credit. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: Must be enrolled in a graduate degree program

English Courses

ENGLSH 1000: Exposition and Argumentation
Stresses writing as a process, with due attention given to critical reading and thinking skills applicable to all college classes, as well as to invention, drafting, revising, and rewriting. English 1000 is a prerequisite for any Writing Intensive course.

Credit Hours: 3

ENGLSH 1000H: Honors Exposition English
Stresses writing as a process, with due attention given to critical reading and thinking skills applicable to all college classes, as well as to invention, drafting, revising, and rewriting. English 1000 is a prerequisite for any Writing Intensive course.

Credit Hours: 3
Prerequisites: Honors eligibility required

ENGLSH 1060: Human Language
(same as ANTHRO 1060, C_S_D 1060 and LINGST 1060). General introduction of various aspects of linguistic study. Elementary analysis of language data, with some attention to application of linguistic study to other disciplines.

Credit Hours: 3

ENGLSH 1100: Reading Literature
Introduces the student to the values, rigors, and pleasures of reading literature. Intended for first-year, non-English majors. No more than six hours may be taken in the Reading Literature Series.

Credit Hours: 3

ENGLSH 1106: Reading Literature, Beginnings to 1603
See ENGLSH 1100 course for description.

Credit Hours: 3

ENGLSH 1107: Reading Literature, 1603 to 1789
See ENGLSH 1100 course for description.

Credit Hours: 3

ENGLSH 1108: Reading Literature, 1789-1890
See ENGLSH 1100 course for description.

Credit Hours: 3

ENGLSH 1109: Reading Literature, 1890 to Present
See ENGLSH 1100 course for description.

Credit Hours: 3

ENGLSH 1160: Themes in Literature
Topics (e.g., The Idea of Progress, Images of Women) announced at time of registration. No more than six hours may be taken in the Themes in Literature series.

Credit Hours: 3

ENGLSH 1166: Themes in Literature, Beginnings to 1603
See ENGLSH 1160 for course description.

Credit Hours: 3

ENGLSH 1167: Themes in Literature, 1603 to 1789
See ENGLSH 1160 for course description.

Credit Hours: 3

ENGLSH 1168: Themes in Literature, 1789 to 1890
See ENGLSH 1160 for course description.

Credit Hours: 3

ENGLSH 1169: Themes in Literature, 1890 to Present
See ENGLSH 1160 for course description.

Credit Hours: 3

ENGLSH 1200: Readings in British Literature
Focuses on reading and interpreting selected texts in British literature. No more than six hours may be taken in Readings in British Literature Series.

Credit Hours: 3

ENGLSH 1206: Readings in British Literature, Beginning to 1603
See ENGLSH 1200 for course description.

Credit Hours: 3

ENGLSH 1207: Readings in British Literature, 1603 to 1789
See ENGLSH 1200 for course description.

Credit Hours: 3

ENGLSH 1208: Readings in British Literature, 1789 to 1890
See ENGLSH 1200 for course description.

Credit Hours: 3

ENGLSH 1209: Readings in British Literature, 1890 to Present
See ENGLSH 1200 for course description.

Credit Hours: 3

ENGLSH 1210: Introduction to British Literature
A basic introduction to the concepts, terms, and practices commonly encountered in literary study, presented by way of texts from the history of British literature that appropriately demonstrate such concepts, terms, and practices. Graded on A-F basis only.

Credit Hours: 3
ENGLSH 1210H: Introduction to British Literature
A basic introduction to the concepts, terms, and practices commonly encountered in literary study, presented by way of texts from the history of British literature that appropriately demonstrate such concepts, terms, and practices. This course is recommended for prospective majors. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: honors eligibility required

ENGLSH 1300: Readings in American Literature
Focused on reading and interpreting selected texts in American literature. No more than six hours may be taken in the Readings in American Literature series.
Credit Hours: 3

ENGLSH 1307: Readings in American Literature, 1603 to 1789
See ENGLSH 1300 for course description.
Credit Hours: 3

ENGLSH 1308: Readings in American Literature, 1789 to 1890
See ENGLSH 1300 for course description.
Credit Hours: 3

ENGLSH 1309: Readings in American Literature, 1890 to Present
See ENGLSH 1300 for course description.
Credit Hours: 3

ENGLSH 1310: Introduction to American Literature
A basic introduction to the concepts, terms, and practices commonly encountered in literary study, presented by way of texts from the history of American literature that appropriately demonstrate such concepts, terms, and practices. Graded on A/F basis only.
Credit Hours: 3

ENGLSH 1310H: Introduction to American Literature - Honors
A basic introduction to the concepts, terms, and practices commonly encountered in literary study, presented by way of texts from the history of American literature that appropriately demonstrate such concepts, terms, and practices. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: Honors eligibility required

ENGLSH 1510: Creative Writing: Introduction to Fiction
Introduces basic narrative techniques, including writing original stories.
Credit Hours: 3

ENGLSH 1520: Creative Writing: Introduction to Nonfiction Prose
Introduces the range and basic techniques of creative nonfiction, including composing original work in the genre.
Credit Hours: 3

ENGLSH 1530: Creative Writing: Introduction to Poetry
Introduces basic poetic techniques, including writing original poems.

ENGLSH 1700: Introduction to Folklore Genres
(same as ANTHRO 1150). Course focus is on genres of folklore in both historic and contemporary contexts, as well as in people's daily lives. Genres include narrative, proverbs, oral poetry and rime, riddles, jokes, legends, epics, material culture and intangible expressive culture. Graded on A/F basis only.
Credit Hours: 3

ENGLSH 1700W: Introduction to Folklore Genres - Writing Intensive
(same as ANTHRO 1150). Course focus is on genres of folklore in both historic and contemporary contexts, as well as in people's daily lives. Genres include narrative, proverbs, oral poetry and rime, riddles, jokes, legends, epics, material culture and intangible expressive culture. Graded on A/F basis only.
Credit Hours: 3

ENGLSH 1800: Introduction to Film Studies
(same as FILM_S 1800, DST 1800). Introduction to terms and concepts for film analysis, including mise-en-scene, cinematography, editing, sound narrative, genre, and other elements. No credit for students who have completed FILM_S 2810. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: freshman and sophomores only or instructor's consent

ENGLSH 1880: Introduction to Digital Media Production
(same as DST 1880; FILM_S 1880). Introduction to concepts and skills for Digital Storytelling, including media literacy and forms of narrative manifested historically and currently across a range of media. This course focuses on theories and concepts that support the critical analysis and creation of contemporary narrative in digital form with particular attention to audio, visual and written communication. Graded on A-F basis only.
Credit Hours: 3

ENGLSH 2000: Studies in English
Underclass topics. Subjects vary from semester to semester. No more than six hours may be taken in the Topics in English Studies series.
Credit Hour: 1-3

ENGLSH 2000H: Studies in English - Honors
Underclass topics. Subjects vary from semester to semester. No more than six hours may be taken in the Topics in English Studies series.
Credit Hour: 1-3
Prerequisites: Honors eligibility required

ENGLSH 2005: Topics in English - Humanities
Underclass topics. Subjects vary from semester to semester. May be repeated to 6 hours maximum.
ENGLSH 2006: Studies in English, Beginning to 1603
See ENGLSH 2000 for course description.
Credit Hour: 1-3

ENGLSH 2006W: Studies in English, Beginning to 1603 - Writing Intensive
See ENGLSH 2000 for course description.
Credit Hour: 1-3

ENGLSH 2007: Studies in English, 1603 to 1789
See ENGLSH 2000 for course description.
Credit Hour: 1-3

ENGLSH 2008: Studies in English, 1789 to 1890
See ENGLSH 2000 for course description.
Credit Hour: 1-3

ENGLSH 2009: Studies in English, 1890 to Present
See ENGLSH 2000 for course description.
Credit Hour: 1-3

ENGLSH 2010: Intermediate Composition
Provides intensive guided practice in expository and persuasive writing.
Credit Hours: 3
Prerequisites: ENGLSH 1000

ENGLSH 2015H: Theory and Practice of Tutoring Writing Seminar - Honors
(same as GN_HON 2015H). Addresses both the theory and practice of tutoring and the foundations of good writing. This course also qualifies students for a part-time job working as Writing Lab/Online Writyer tutors in future semester.
Credit Hours: 3
Prerequisites: ENGLSH 1000; instructor's consent. Honors eligibility required

ENGLSH 2015HW: Theory and Practice of Tutoring Writing Seminar - Honors/Writing Intensive
(same as GN_HON 2015H). Addresses both the theory and practice of tutoring and the foundations of good writing. This course also qualifies students for a part-time job working as Writing Lab/Online Writyer tutors in future semester.
Credit Hours: 3
Prerequisites: ENGLSH 1000; instructor's consent. Honors eligibility required

ENGLSH 2030: Professional Writing
Introduction to the communication required in any professional field, including basic letters and resumes, reviews, reports, and electronic networking, culminating in an extensive report and a related oral presentation.

ENGLSH 2100: Writing About Literature
Introduces the student to reading in three or four genres (fiction, poetry, drama, and non-fiction) and to literary concepts and terms and their application in literary analysis.
Credit Hours: 3
Prerequisites: ENGLSH 1000

ENGLSH 2100H: Writing About Literature - Honors
Introduces the student to reading in three or four genres (fiction, poetry, drama, and non-fiction) and to literary concepts and terms and their application in literary analysis.
Credit Hours: 3
Prerequisites: ENGLSH 1000. Honors eligibility required

ENGLSH 2140: Twentieth-Century Literature
A multi-genre survey emphasizing American and British works within the intellectual and cultural context of our time.
Credit Hours: 3
Recommended: ENGLSH 1000

ENGLSH 2140W: Twentieth-Century Literature - Writing Intensive
A multi-genre survey emphasizing American and British works within the intellectual and cultural context of our time.
Credit Hours: 3
Recommended: ENGLSH 1000

ENGLSH 2150: Popular Literature
Study of literary genres, such as science fiction and the detective novel, that may be overlooked in traditional literature classes.
Credit Hours: 3
Recommended: ENGLSH 1000

ENGLSH 2150W: Popular Literature - Writing Intensive
Study of literary genres, such as science fiction and the detective novel, that may be overlooked in traditional literature classes.
Credit Hours: 3
Recommended: ENGLSH 1000

ENGLSH 2155: Introduction to World Literatures
Presents and puts into context works by writers from different nations or ethnic backgrounds; includes works in two or more literary genres. No more than six hours may be taken in the Introduction to World Literature series.
Credit Hours: 3

ENGLSH 2156: Introduction to World Literatures, Beginnings to 1603
See ENGLSH 2155 for course description.
Credit Hours: 3

ENGLSH 2309W: Studies in American Literature, 1890 to Present - Writing Intensive
See ENGLSH 2300 for course description.
Credit Hours: 3

ENGLSH 2400: Introduction to African Diaspora Literature
(same as BL_STU 2400). Introduces students to African Diaspora literature with an emphasis on literature written originally in English. No more than six hours may be taken in the Introduction to African Diaspora Literature series.
Credit Hours: 3
Recommended: ENGLSH 1000

ENGLSH 2407: Introduction to African Diaspora Literature, 1603 to 1789
(same as BL_STU 2407). See ENGLSH 2400 for course description.
Credit Hours: 3

ENGLSH 2408: Introduction to African Diaspora Literature, 1789 to 1890
(same as BL_STU 2408). See ENGLSH 2400 for course description.
Credit Hours: 3

ENGLSH 2409: Introduction to African Diaspora Literature, 1890 to Present
(same as BL_STU 2409). See ENGLSH 2400 for course description.
Credit Hours: 3

ENGLSH 2407: Introduction to African Diaspora Literature, 1603 to 1789
(same as BL_STU 2407). See ENGLSH 2400 for course description.
Credit Hours: 3

ENGLSH 2408: Introduction to African Diaspora Literature, 1789 to 1890
(same as BL_STU 2408). See ENGLSH 2400 for course description.
Credit Hours: 3

ENGLSH 2409: Introduction to African Diaspora Literature, 1890 to Present
(same as BL_STU 2409). See ENGLSH 2400 for course description.
Credit Hours: 3

ENGLSH 2490: Introduction to Native Studies
(same as PEA_ST 2490). Introduction to the field of Native Studies. Topics include indigenous knowledge, culture change and continuity, history and misrepresentation, politics and political history, and global indigenous relationships. Graded on A-F basis only.
Credit Hours: 3

ENGLSH 2510: Creative Writing: Intermediate Fiction
Provides intensive guided practice in the writing of short fiction.
Credit Hours: 3
Prerequisites: ENGLSH 1510 or equivalent

ENGLSH 2520: Creative Writing: Intermediate Nonfiction Prose
Provides guided practice in the writing of creative nonfiction.
Credit Hours: 3
Prerequisites: ENGLSH 1520 or equivalent

ENGLSH 2530: Creative Writing: Intermediate Poetry
Provides intensive guided practice in the writing of poetry.
Credit Hours: 3
Prerequisites: ENGLSH 1530 or equivalent

ENGLSH 2560: Beginning Playwriting
(same as THEATR 2920). Study and practice of playwriting fundamentals; emphasizes the one-act play.
Credit Hours: 3

ENGLSH 2601: Languages of Africa
(same as BL_STU 2601, LINGST 2601). Introduction to the diversity of the 2000+ African languages, including first-hand experience exploring a few in detail with native speakers. Features of African languages are compared with others of the world. Political and social aspects of language in Africa are discussed.
Credit Hours: 3

ENGLSH 2700: Introduction to Folklore Field Research
(same as ANTHRO 2150). Course will focus on the specifics of how to identify, collect, preserve and document folklore within communities.
ENGLSH 2770: Introduction to Oral Literature
An introduction to works of verbal art from living oral tradition (e.g., Native American and African-American) and to some of our most important literary works with roots in oral tradition (e.g., the Bible, the Iliad, and the Odyssey, and Beowulf).
Credit Hours: 3
Recommended: ENGLSH 1000

ENGLSH 2830: American Film History I, 1895-1950
(same as FILM_S 2830). Examines the development of American cinema in relation to other national cinemas, from 1895-1950. No credit for students who have completed ENGLSH 1810 or FILM_S 1810.
Credit Hours: 3
Prerequisites: ENGLSH 1800 or FILM_S 1800
Recommended: ENGLSH 1000

ENGLSH 2840: American Film History II, 1950-Present
(same as FILM_S 2840). Examines American film history in an international context, from 1950-present. No credit for students who have completed ENGLSH 1820 or FILM_S 1820.
Credit Hours: 3
Prerequisites: ENGLSH 1800 or FILM_S 1800

ENGLSH 2860: Film Themes and Genres
(same as FILM_S 2860, DST 2860). Topics (e.g. Film noir, African-American filmmakers, Food and Film, The Western) announced at time of registration. No more than six hours may be taken in ENGLSH 2680.
Credit Hours: 3
Recommended: ENGLSH 1000

ENGLSH 2870: Film and Literature
(same as FILM_S 2870). Explores the complex interplay between film and literature in order to gain an understanding of the possibilities - and problems - involved in the transposition from literature to film. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: ENGLSH 1000

ENGLSH 2880: Digital Storytelling Production I
(same as DST 2880). Digital Storytelling Production I teaches agility with digital video technology through applied experiences. Assignments in digital video production emphasize how video narratives are created and how images and audio enhance the structure, mood, and theme of the narrative. Instruction will focus on planning a video production and developing the tools and practices in lighting, sound recording, image capturing, and editing. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: ENGLSH 1880/DST 1880
Recommended: ENGLSH 1000

ENGLSH 2885: Digital Storytelling Animation Production I
(same as DST 2885). Introduction to all aspects of digital animation and elements of the 3D computer animation production pipeline, including story drafting and production planning, polygonal modeling and texturing, rigging, key framing, lighting, compositing rendered images, and editing into a short finished film. Graded on A-F basis only.
Credit Hours: 3

ENGLSH 2945: Service Learning in English
Students perform volunteer service and complete course requirements, which may include class meetings and written and oral assignments. May be repeated with departmental consent. Graded on a S/U basis only. Does not meet A&S general education requirements.
Credit Hours: 1-3
Prerequisites: instructor's consent

ENGLSH 3010: Advanced Composition
An intensive writing workshop in which student essays and related texts receive close reading and analysis. Focus (e.g. The Essay, The Research Paper) announced at time of registration.
Credit Hours: 3

ENGLSH 3080: Sexuality and Gender Theory
(same as [WGST] 3080). Examination of major theoretical approaches and debates in the study of gender and sexuality, with particular attention to the intersection of culture, representation, and identity. May be repeated to 6 hours with department consent.
Credit Hours: 3

ENGLSH 3100: Introduction to Literary Theory
Introduction to the range of theoretical approaches to the study of literature; intended as a broad survey of literary theory, whether from the Classical era onward or 20th century literary theory and beyond.
Credit Hours: 3

ENGLSH 3110: Special Themes in Literature
Topics (e.g., Postmodernism, Representations of Nature) announced at time of registration. No more than six hours may be taken in the Special Themes in Literature series.
Credit Hour: 1-3
Prerequisites: ENGLSH 1000

ENGLSH 3110H: Special Themes in Literature - Honors
Topics (e.g., Postmodernism, Representations of Nature) announced at time of registration. No more than six hours may be taken in the Special Themes in Literature series.
Credit Hour: 1-3
Prerequisites: ENGLSH 1000, Honors eligibility required

ENGLSH 3110W: Special Themes in Literature - Writing Intensive
Topics (e.g., Postmodernism, Representations of Nature) announced at time of registration. No more than six hours may be taken in the Special Themes in Literature series.

</table>
ENGLSH 3400: Survey of African American Literature, Beginnings to 1900
(same as BL_STU 3400). A survey of major authors and movements in African American literature from its beginnings to 1900.
Credit Hours: 3
Prerequisites: ENGLSH 1000

ENGLSH 3400W: Survey of African American Literature, Beginnings to 1900 - Writing Intensive
(same as BL_STU 3400). A survey of major authors and movements in African American literature from its beginnings to 1900.
Credit Hours: 3
Prerequisites: ENGLSH 1000

ENGLSH 3410: Survey of African American Literature, 1900-Present
(same as BL_STU 3410). A survey of major authors and movements in African American literature from 1900 to the present.
Credit Hours: 3
Prerequisites: ENGLSH 1000

ENGLSH 3420: Periods and Genres in African Diaspora Literature
(same as BL_STU 3420). Topic (e.g. Harlem Renaissance African Diaspora Poetry) Announced at time of registration. No more than six hours may be taken in the Periods and Genres in African Diaspora Literature series.
Credit Hours: 3
Prerequisites: ENGLSH 1000

ENGLSH 3427: Periods and Genres in African Diaspora Literature, 1603 to 1789
(same as BL_STU 3427). See ENGLSH 3420 for course description.
Credit Hours: 3
Prerequisites: ENGLSH 1000

ENGLSH 3428: Periods and Genres in African Diaspora Literature, 1789 to 1890
(same as BL_STU 3428). See ENGLSH 3420 for course description.
Credit Hours: 3

ENGLSH 3429: Periods and Genres in African Diaspora Literature, 1890 to Present
(same as BL_STU 3429). See ENGLSH 3420 for course description.
Credit Hours: 3

ENGLSH 3430: Introduction to African Diaspora Literary Theory
(same as BL_STU 3705). Introduction to the range of theoretical approaches to the study of African Diaspora literature, with particular attention to the diverse socio-political contexts that undergird range of literary, historical, and cultural theories; intended as a broad survey of African Diaspora literary theory, whether from the Slavery era onward or 20th century literary theory and beyond. May be repeated for credit with consent.
Credit Hours: 3
Prerequisites: ENGLSH 1000

ENGLSH 3490: Native Writing and Representation
(same as PEA_ST 3490). Survey of native writing and representation from the late eighteenth century to the present, encompassing a diverse range of tribes and forms. Material will be drawn from tribes inhabiting the North American continent, but global indigenous relationships will also be addressed. Graded on A-F basis only.
Credit Hours: 3

ENGLSH 3560: Intermediate Playwriting
(same as THEATR 3920). Intermediate study of the writing process as applied to theatre, leading to the creation of a full-length play to be considered for production.
Credit Hours: 3
Prerequisites: ENGLSH 2560

ENGLSH 3570: Performance of Literature
(same as COMMUN 3570 and THEATR 3200). Analysis and oral interpretation of literary works. Graded on A-F basis only.
Credit Hours: 3
Recommended: sophomore standing

ENGLSH 3700: American Folklore
(same as ANTHRO 3150). Focus on regional and ethnic folklore; emphasis on analysis of folklore in context. Requirements include book reports and two analytical papers based on student field research.
Credit Hours: 3

ENGLSH 3820: Major Directors
(same as FILM_S 3820, RM_LAN 3820). Topics (e.g. Hitchcock, Kubrick, Fellini, Allen, Kurosawa, Wilder) announced at time of registration. Only 6 hours may be taken for credit toward major. Graded on A/F basis only.
Credit Hours: 3
Prerequisites: ENGLSH 1000

ENGLSH 3850: Studies in Film History
(same as FILM_S 3850). Topics (e.g. Classical Period of Hollywood cinema, silent era, Post-WWII American film, German Weimar cinema, French New Wave) announced at time of registration. Only 6 hours count as credit toward major.
Credit Hours: 3
Prerequisites: ENGLSH 1000

ENGLSH 3855: Documentary Film
(same as FILM_S 3855, DST 3855). Surveys the history of documentary film including the development of subgenres, sound and voice over in documentary, re-enactment, ethical issues in documentary film production, and more. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: ENGLSH 1000

ENGLSH 3880: Writing and Theory for Digital Media
(same as DST 3880). Writing and Theory for Digital Media teaches the skills, methods and theoretical frameworks needed to write for
new media. Students will study and practice writing for web-based and
digital media platforms, including short-form modes such as Twitter and
various social media sites; longer-form modes such as blogs, vlogs and
podcasts; and the emerging possibilities of locative and interactive media.
Assignments emphasize the professional and creative possibilities of new
media production. In addition to the hands-on creation for audio, screen-
based, networked, and hybrid forms of digital media, students will also
read, discuss, and write about work by new media theorists. Graded on
A-F basis only.

**Credit Hours:** 3

**Prerequisites:** ENGLSH 1000

ENGLSH 4180: Major Women Writers
(same as WGST 4180). Study of a limited number (1-3) of significant writers to be read intensively using contemporary feminist critical theory. No more than six hours may be taken in the Major Women Writers series.
Credit Hours: 3

ENGLSH 4181: Themes in Literature by Women
(same as WGST 4181 and BL_STU 4181). Examines works by a number of women writers with particular attention to their socio-political context. May repeated to six hours with department's consent.
Credit Hours: 3
Recommended: junior standing

ENGLSH 4186: Major Women Writers, Beginning to 1603
(same as WGST 4186). See ENGLSH 4180 for course description.
Credit Hours: 3

ENGLSH 4187: Major Women Writers, 1603-1789
(same as WGST 4187). See ENGLSH 4180 for course description.
Credit Hours: 3

ENGLSH 4188: Major Women Writers, 1789-1890
(same as WGST 4188). See ENGLSH 4180 for course description.
Credit Hours: 3

ENGLSH 4189: Major Women Writers, 1890-Present
(same as WGST 4189). See ENGLSH 4180 for course description.
Credit Hours: 3

ENGLSH 4200: Introduction to Old English
(same as LINGST 4200). A beginning study of the Old English or Anglo-Saxon language in its cultural context, with emphasis on gaining a reading knowledge.
Credit Hours: 3
Recommended: junior standing

ENGLSH 4206: Anglo-Saxon Literature
(cross-leveled with ENGLSH 7206). Readings in the literature of Anglo-Saxon England (ca.500-ca.1100 C.E.). Specific topics (e.g., Women in
the Early Middle Ages, Beowulf, Old English Heroic Poetry) announced at time of registration. May repeat to six hours with department's consent.

Credit Hours: 3
Prerequisites: Junior standing

ENGLSH 4210: Medieval Literature
(cross-leveled with ENGLSH 7210). Topics (e.g., Age of Chaucer, Chivalry and Courtly Love, Allegory and Satire) announced at time of registration. May repeat to six hours with department's consent.

Credit Hours: 3
Recommended: Junior standing

ENGLSH 4220: Renaissance and Seventeenth Century Literature, Beginning to 1603
Topics (e.g., The Metaphysical Poets, Themes in Shakespeare) announced at time of registration. No more than six hours may be taken in the Renaissance and Seventeenth Century Literature.

Credit Hours: 3
Recommended: Junior standing

ENGLSH 4226: Renaissance and Seventeenth Century Literature, 1603 to 1789
See ENGLSH 4220 for course description.

Credit Hours: 3

ENGLSH 4240: Restoration and 18th-Century English Literature
Topics (e.g., Restoration Drama, Johnson and his Circle) announced at time of registration. May repeat to six hours with department's consent.

Credit Hours: 3
Recommended: Junior standing

ENGLSH 4250: 19th-Century English Literature
(cross-leveled with ENGLSH 7250). Topics (e.g., Victorian Poetry, Non-Fiction Prose) announced at time of registration. May repeat to six hours with department's consent.

Credit Hours: 3
Recommended: Junior standing

ENGLSH 4250W: 19th-Century English Literature - Writing Intensive
(cross-leveled with ENGLSH 7250). Topics (e.g., Victorian Poetry, Non-Fiction Prose) announced at time of registration. May repeat to six hours with department's consent.

Credit Hours: 3
Recommended: Junior standing

ENGLSH 4260: 20th-Century British Literature
(cross-leveled with ENGLSH 7260). Topics (e.g. Contemporary British Poets, The Post-War Novel) announced at time of registration. May repeat to six hours with department's consent.

Credit Hours: 3
Recommended: Junior standing

ENGLSH 4260H: 20th-Century British Literature - Honors
Topics (e.g. Contemporary British Poets, The Post-War Novel) announced at time of registration. May repeat to six hours with department's consent.

Credit Hours: 3
Prerequisites: Honors eligibility required
Recommended: Junior standing

ENGLSH 4260HW: 20th-Century British Literature - Honors/Writing Intensive
Topics (e.g. Contemporary British Poets, The Post-War Novel) announced at time of registration. May repeat to six hours with department's consent.

Credit Hours: 3
Prerequisites: Honors eligibility required
Recommended: Junior standing

<tr>
<td>ENGLSH 4700</td>
<td>Special Themes in Folklore</td>
<td>(same as ANTHRO 4150). Intensive study in a selected area of folklore: folk narrative, folk song, myth, proverb, etc., folklore of a particular group. May be repeated for a maximum of six hours with department's consent.</td>
<td>3</td>
<td></td>
</tr>
</tbody>
</table>
ENGLSH 4710: Themes in African Diaspora Folklore
(same as ANTHRO 4160 and BL_STU 4710). Intensive study in a selected area of African Diaspora folklore: folk narrative, folk song, myth, proverb, etc., folklore and literature; or the folklore of a particular group. ENGLSH 4700 and ENGLSH 4710 may be repeated for a maximum of six hours with instructor's consent.

Credit Hours: 3
Recommended: junior standing

ENGLSH 4770: Oral Tradition
(same as CL_HUM 4770). Study of verbal art from living oral traditions (e.g., Native American and African American) and important literary works with roots in oral tradition (e.g., the Bible, the Iliad, the Odyssey, and Beowulf).

Credit Hours: 3
Recommended: junior standing

ENGLSH 4780: Women's Folklore and Feminist Theory
(same as WGST 4780). Examines folklore and artistic expression of women in relation to feminist theory and in multicultural contexts. Includes verbal genres (narrative/song) as well as material genres (quilting/arts).

Credit Hours: 3
Recommended: junior standing

ENGLSH 4810: Film Theory
(same as FILM_S 4810, DST 4810). This course explores contemporary trends in film theory. Topics may include: psychoanalysis, feminism, Marxism, cultural studies, queer theory, audience and star studies, postcolonialism, among others.

Credit Hours: 3
Prerequisites: ENGLSH 1000
Recommended: Junior standing

ENGLSH 4820: Studies in Film Genre
(same as FILM_S 4820). Topics (e.g., The Western, Film Noir) announced at time of registration. No more than six hours may be taken for credit toward the major.

Credit Hours: 3
Prerequisites: ENGLSH 1000
Recommended: Junior standing

ENGLSH 4840: Culture and Media
(same as FILM_S 4840, DST 4840). Topics (e.g. Cinema and Imperialism, Indigenous Media, Ethnographic Documentary) announced at time of registration. No more than six hours may be taken for credit toward the major.

Credit Hours: 3
Prerequisites: ENGLSH 1000
Recommended: Junior standing

ENGLSH 4880: Digital Storytelling Production II
(same as DST 4880). Digital Storytelling Production II introduces students to advanced techniques in digital storytelling production, while further developing skills in script writing, storyboarding, Adobe Premiere Pro, and video production with DSLR cameras. Assignments in digital video production emphasize how video narratives are created and how images and audio enhance the structure, mood, and theme of the narrative. Instruction will focus on planning a video production and developing the tools and practices in lighting, sound recording, image capturing, and editing. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: ENGLSH 1000, ENGLSH 1880/DST 1880, and sophomore standing, or consent of instructor

ENGLSH 4935: Adaptation of Literature for Film
(same as FILM_S 4935 and THEATR 4935; cross-leveled with ENGLSH 7580, FILM_S 7935 and THEATR 7935). This upper-division course will explore adaptation principles and practices with a variety of forms of literature that were not originally written for film.

Credit Hours: 3

ENGLSH 4938: Advanced Screenwriting: Styles
(same as THEATR 4938; cross-leveled with ENGLSH 7938, THEATR 7938). Students develop advanced skills of screenwriting through a focus on non-realistic, non-linear dramatic writing styles in development of a full-length screenplay. Areas of study will include techniques of magic realism, symbolism, expressionism, absurdism, surrealism/dada, mythic/fantasy, musicals, political docudrama, and science fiction.

Credit Hours: 3
Prerequisites: THEATR 2920 or ENGLSH 2560
Recommended: THEATR 3930

ENGLSH 4940: Internship in English
Students work in an agency or institution using their English-related skills for one to three credit hours. Graded on an S/U basis only.

Credit Hour: 1-3
Prerequisites: Department consent

ENGLSH 4950: Internship in Publishing
Offers practical experience working with a literary or scholarly publication edited or sponsored by faculty members. Graduate students in English must take the course two semesters in order to count three hours toward the completion of their program.

Credit Hours: 3
Prerequisites: instructor's consent

ENGLSH 4955: Independent Research in English
Development of a carefully considered research project under close supervision of a faculty member. Open to undergraduate students only.

Credit Hour: 1-3
Prerequisites: junior standing and departmental consent

ENGLSH 4960: Special Readings in English
Individual work with conferences adjusted to needs of student.

Credit Hour: 1-99
Prerequisites: Consent of instructor

ENGLSH 7189: Major Women Writers, 1890-Present
(same as WGST 7189). See ENGLSH 7180 for course description.
Credit Hours: 3
ENGLSH 7188: Major Women Writers, 1789-1890
(same as WGST 7188). See ENGLSH 7180 for course description.
Credit Hours: 3

ENGLSH 7189: Major Women Writers, 1890-Present
(same as WGST 7189). See ENGLSH 7180 for course description.
Credit Hours: 3

ENGLSH 7200: Introduction to Old English
(same as LINGST 7200). A beginning study of the Old English or Anglo-Saxon language in its cultural context, with emphasis on gaining a reading knowledge.
Credit Hours: 3

ENGLSH 7206: Anglo-Saxon Literature
(cross-leveled with ENGLSH 4206). Readings in the literature of Anglo-Saxon England (ca.500-ca.1100 C.E.). Specific topics (e.g., Women in the Early Middle Ages, Beowulf, Old English Heroic Poetry) announced at time of registration. May repeat to six hours with department's consent.
Credit Hours: 3

ENGLSH 7210: Medieval Literature
(cross-leveled with ENGLSH 4210). Topics (e.g., Age of Chaucer, Chivalry and Courtly Love, Allegory and Satire) announced at time of registration. May repeat to six hours with department's consent.
Credit Hours: 3

ENGLSH 7220: Renaissance and 17th-Century English Literature
Topics (e.g., The Metaphysical Poets, Themes in Shakespeare) announced at time of registration. No more than six hours may be taken in the Renaissance and Seventeenth Century Literature series.
Credit Hours: 3

ENGLSH 7226: Renaissance and Seventeenth Century Literature, Beginning to 1603
See ENGLSH 7220 for course description.
Credit Hours: 3

ENGLSH 7227: Renaissance and Seventeenth Century Literature, 1603-1789
See ENGLSH 7220 for course description.
Credit Hours: 3

ENGLSH 7240: Restoration and 18th-Century English Literature
Topics (e.g., Restoration Drama, Johnson and his Circle) announced at time of registration. May repeat to six hours with department's consent.
Credit Hours: 3

ENGLSH 7250: 19th-Century English Literature
(cross-leveled with ENGLSH 4250). Topics (e.g., Victorian Poetry, Non-Fiction Prose) announced at time of registration. May repeat to six hours with department's consent.
Credit Hours: 3

ENGLSH 7260: 20th-Century British Literature
(cross-leveled with ENGLSH 4260). Topics (e.g. Contemporary British Poets, The Post-War Novel) announced at time of registration. May repeat to six hours with department's consent.
Credit Hours: 3

ENGLSH 7300: Early American Literature
Topics (e.g., Narratives of Discovery and Exploration, The Puritan Heritage) announced at time of registration. May repeat to six hours with department's consent.
Credit Hours: 3

ENGLSH 7310: 19th-Century American Literature
(cross-leveled with ENGLSH 4310). Topics (e.g., American Romanticism, Regionalism) announced at time of registration. May repeat to six hours with department's consent.
Credit Hours: 3

ENGLSH 7320: 20th-Century American Literature
(cross-leveled with ENGLSH 4320). Topics (e.g., American Poetry since T. S. Eliot, The Short Story) announced at time of registration. May repeat to six hours with department's consent.
Credit Hours: 3

ENGLSH 7400: Studies in African Diaspora Literature
(same as BL_STU 7400). Topics (e.g., African American Poetry, African Diaspora Drama) announced at time of registration. No more than six hours may be taken in the Studies in African Diaspora Literature series.
Credit Hours: 3

ENGLSH 7407: Studies in African Diaspora Literature, 1603 to 1789
(same as BL_STU 7407). See ENGLSH 7400 for course description.
Credit Hours: 3

ENGLSH 7408: Studies in African Diaspora Literature, 1603 to 1789
(same as BL_STU 7408). See ENGLSH 7400 for course description.
Credit Hours: 3

ENGLSH 7409: Studies in African Diaspora Literature, 1890-to Present
(same as BL_STU 7407). See ENGLSH 7400 for course description.
Credit Hours: 3

ENGLSH 7410: Major African Diaspora Writers
(same as BL_STU 7410). An intensive study of selected writers of African Diaspora literature, focusing on texts originally in English. No more than six hours may be taken in the Major African Diaspora Writers series.
ENGLISH 7417: Major African Diaspora Writers, 1603 to 1789  
(same as BL_STU 7417). See ENGLSH 7410 for course description.

Credit Hours: 3

ENGLISH 7418: Major African Diaspora Writers, 1789 to 1890  
(same as BL_STU 7418). See ENGLSH 7410 for course description.

Credit Hours: 3

ENGLISH 7419: Major African Diaspora Writers, 1890 to Present  
(same as BL_STU 7419). See ENGLSH 7410 for course description.

Credit Hours: 3

ENGLISH 7420: Africana Womanism  
(same as BL_STU 7420). An intensive study of Africana Womanism,  
focusing on selected Africana women writers.

Credit Hours: 3  
Prerequisites: graduate standing or instructor's consent. May be  
repeated to six hours with departmental consent

ENGLISH 7480: Major African Diaspora Women Writers  
(same as WGST 7480 and BL_STU 7480). Study of selected African  
Diaspora women writers, focusing on texts originally in English. May be  
repeated for credit with departmental consent. Maximum of 6 hours for  
ENGLISH 7180 and ENGLISH 7480

Credit Hours: 3

ENGLISH 7487: Major African Diaspora Women Writers, 1603 to 1789  
(same as WGST 7487 and BL_STU 7487). See ENGLISH 7480 for  
course description.

Credit Hours: 3

ENGLISH 7488: Major African Diaspora Women Writers, 1789 to 1890  
(same as WGST 7488 and BL_STU 7488). See ENGLISH 7480 for  
course description.

Credit Hours: 3

ENGLISH 7489: Major African Diaspora Women Writers, 1789 to 1890  
(same as WGST 7489 and BL_STU 7489). See ENGLISH 7480 for  
course description.

Credit Hours: 3

ENGLISH 7490: Native Studies  
In-depth study of topics in Native writing and representation, such as  
tribal intellectual histories, defined historical periods, or specific genres or  
media. Examples of course titles include Ojibwe Writing, Native Film and  
Video, and Contemporary Native Literature.

Credit Hours: 3

ENGLISH 7510: Creative Writing: Advanced Fiction  
An intensive writing workshop in which student stories and related literary  
texts receive close reading and analysis.

Credit Hours: 3  
Prerequisites: ENGLISH 2510 or equivalent

ENGLISH 7520: Creative Writing: Advanced Nonfiction Prose  
An intensive writing workshop in which a student's creative nonfiction receives  
close reading and analysis.

Credit Hours: 3  
Prerequisites: ENGLISH 2520 or equivalent

ENGLISH 7530: Creative Writing: Advanced Poetry  
Poetry regarded as a mode of understanding. Poetic values related to  
other values. Practical consideration of verse techniques.

Credit Hours: 3  
Prerequisites: ENGLISH 2530 or equivalent

ENGLISH 7560: Advanced Playwriting: Problems  
(same as THEATR 7920; cross-leveled with ENGLISH 4650 and  
THEATR 4920). Advanced study of the writing process as applied to  
theatre, including theory and practice. Special playwriting problems and  
techniques.

Credit Hours: 3  
Prerequisites: ENGLISH 3560

ENGLISH 7570: Adaptation of Literature for the Stage  
(same as THEATR 7930; cross-leveled with ENGLISH 4570). Explores  
adaptation principles and practices with a variety of forms of literature that  
were not originally written for the stage.

Credit Hours: 3  
Prerequisites: instructor's consent

ENGLISH 7580: Adaptation of Literature for Film  
(same as FILM_S 7935 and THEATR 7935; cross-leveled with ENGLISH  
4935, FILM_S 4935 and THEATR 4935). This upper division course will  
explain adaptation principles and practices with a variety of forms of  
literature that were not originally written for film.

Credit Hours: 3

ENGLISH 7600: Structure of American English  
(same as LINGST 7600). Introduction to English linguistics. Study of  
the grammar and pronunciation of contemporary English, with the major  
focus on syntax.

Credit Hours: 3

ENGLISH 7610: History of the English Language  
(same as LINGST 7610). Historical changes in the grammar and  
pronunciation of the English language from Old English to the present.  
Introduction to Indo-European origins of English.

Credit Hours: 3
ENGLSH 7620: Regional and Social Dialects of American English  
(same as LINGST 7620). The study of regional and social variation in pronunciation, vocabulary, and grammar of American English.  
Credit Hours: 3  
Prerequisites: ENGLSH 4600 and ENGLSH 4610 or equivalent

ENGLSH 7630: Phonology  
(same as LINGST 7630). Survey of the sound patterns of English, with some comparison to other languages.  
Credit Hours: 3  
Prerequisites: ENGLSH 4600 or another introductory course in linguistics or phonetics

ENGLSH 7640: Syntax  
(same as LINGST 7640). Study of the properties of phrase-and sentence-level grammar, emphasizing English, with some comparison to other languages.  
Credit Hours: 3  
Prerequisites: ENGLSH 4600 or another comparable linguistics course

ENGLSH 7670: Field Methods in Linguistics  
(same as LINGST 7870 and ANTHRO 7870). Provides training in the methods of constructing a detailed linguistic description and analysis of a wholly unfamililiar language, based on interviews with a native speaker. Graded on A-F basis only.  
Credit Hours: 3  
Prerequisites: LINGST 1060, LINGST 7600, LINGST 7630 and LINGST 7640  
Corequisites: LINGST 7630 or LINGST 7640

ENGLSH 7700: Special Themes in Folklore  
(same as ANTHRO 7150). Intensive study in a selected area of folklore: folk narrative, folk song, myth, proverb, etc., folklore of a particular group. May be repeated for a maximum of six hours with department's consent.  
Credit Hours: 3

ENGLSH 7710: Themes in African Diaspora Folklore  
(same as ANTHRO 7100). Intensive study in a selected area of African Diaspora folklore: folk narrative, folk song, myth, proverb, etc., folklore and literature; or the folklore of a particular group. ENGLSH 7700 and ENGLSH 7710 may be repeated for a maximum of six hours with instructor's consent.  
Credit Hours: 3

ENGLSH 7770: Oral Tradition  
(same as CL_HUM 4770). Study of verbal art from living oral traditions (e.g., Native American and African American) and important literary works with roots in oral tradition (e.g., the Bible, the Iliad the Odyssey, and Beowulf).  
Credit Hours: 3  
Prerequisites: instructor's consent

ENGLSH 7780: Women's Folklife and Feminist Theory  
(same as WGST 7780). Examines folklore and artistic expression of women in relation to feminist theory and in multicultural contexts. Includes verbal genres (narrative/song) as well as material genres (quilting/arts).  
Credit Hours: 3

ENGLSH 7810: Film Theory  
(same as FILM_S 7810). This course explore contemporary trends in film theory. Topics may include: psychoanalysis, feminism, Marxism, cultural studies, queer theory, audience and star studies, postcolonialism, among others. Graded on A-F basis only.  
Credit Hours: 3

ENGLSH 7840: Culture and Media  
(same as FILM_S 7840). Topics (e.g. Cinema and Imperialism, Indigenous Media, Ethnographic Documentary) announced at time of registration. No more than six hours may be taken for credit toward the major.  
Credit Hours: 3

ENGLSH 7938: Advanced Screenwriting: Styles  
(same as THEATR 7938; cross-leveled with ENGLSH 4938, THEATR 4938). Students develop advanced skills of screenwriting through a focus on non-realistic, non-linear dramatic writing styles in development of a full-length screenplay. Areas of study will include techniques of magic realism, symbolism, expressionism, absurdism, surrealism/dada, mythic/fantasy, musicals, political docudrama, and science fiction.  
Credit Hours: 3

ENGLSH 7950: Internship in Publishing  
Offers practical experience working with a literary or scholarly publication edited or sponsored by faculty members. Graduate students in English must take the course two semesters in order to count three hours toward the completion of their program.  
Credit Hours: 3  
Prerequisites: instructor's consent

ENGLSH 8001: Topics in English-General  
Organized study of selected topics. Subjects and earnable credit may vary from semester to semester.  
Credit Hour: 1-99

ENGLSH 8005: Introduction to Graduate Study  
Introduces entering MA and PhD students to the profession of English and the intellectual resources needed to complete their degrees successfully.  
Credit Hour: 1

ENGLSH 8006: Professional Issues in English Studies  
Introduces advanced graduate students to issues relevant to their professional training, including entering the job market and preparing work for publication. May be repeated for credit.  
Credit Hour: 1-3
ENGLISH 8010: Theory and Practice of Composition
Current and historical theories of rhetoric and composition as applied to the teaching of college composition.

Credit Hours: 3
Prerequisites: department's consent

ENGLISH 8040: Seminar in Rhetoric and Composition
Topics (e.g., The Institutionalization of Rhetoric, Writing Across the Curriculum) announced at time of registration. May repeat to twelve hours with department's approval.

Credit Hours: 3

ENGLISH 8050: Contemporary Critical Approaches
A survey of contemporary professional critical methods, such as formalism, poststructuralism, feminism, Marxism, new historicism, psychoanalysis, identity studies, and cultural studies.

Credit Hours: 3

ENGLISH 8060: Seminar in Criticism and Theory
Principles and practices of selected critics. May repeat to twelve hours with department's consent.

Credit Hours: 3

ENGLISH 8070: History of Criticism and Theory
A survey of the history of literary criticism and theory. While comprehensive in scope, the course might focus on specific topics in the history of criticism, such as the dialectic between rhetoric and poetics, the rise of aesthetics, or the relation of art and culture to society. Figures studied will extend from early philosophers such as Plato and Aristotle, through eighteenth-century thinkers such as Kant and Johnson, up to present theorists such as Derrida and Butler.

Credit Hours: 3

ENGLISH 8090: Masters Thesis Research
Leads to preparation of masters thesis. Graded on S/U basis only.

Credit Hour: 1-99

ENGLISH 8095: Problems in English
Individual work not leading to preparation of dissertation.

Credit Hour: 1-99
Prerequisites: departmental consent

ENGLISH 8110: Forms
Topics (e.g., The Epic, The Epistolary Novel) announced at time of registration. May repeat to twelve hours with department's approval.

Credit Hours: 3
Prerequisites: ENGLISH 4200 or equivalent

ENGLISH 8210: Seminar in Middle English Literature
Topics (e.g., Medieval Drama, Chaucer) announced at time of registration. May repeat to twelve hours with department's approval.

Credit Hours: 3

ENGLISH 8220: Seminar in Renaissance British Literature
Topics (e.g., Tudor and Stuart Drama, Shakespearean Tragedy) announced at time of registration. May repeat to twelve hours with department's approval.

Credit Hours: 3

ENGLISH 8230: Seminar in 17th-Century British Literature
Topics (e.g., The Metaphysical Poets, Restoration Drama) announced at time of registration. May repeat to twelve hours with department's approval.

Credit Hours: 3

ENGLISH 8240: Seminar in 18th-Century British Literature
Topics (e.g., The 18th-Century Novel, Historical and Biographical Prose) announced at time of registration. May repeat to twelve hours with department's approval.

Credit Hours: 3

ENGLISH 8250: Seminar in 19th-Century British Literature
Topics (e.g., The Later Romantics, Victorian Poetry) announced at time of registration. May repeat to twelve hours with department's approval.

Credit Hours: 3

ENGLISH 8260: Seminar in 20th-Century British Literature
Topics (e.g., Chief Contemporary Poets, Modernism and the Novel) announced at time of registration. May repeat to twelve hours with department's approval.

Credit Hours: 3

ENGLISH 8300: Seminar in Early American Literature
Topics (e.g., Religious and Philosophical Writings, The Revolutionary Period) announced at time of registration. May repeat to twelve hours with department's approval.

Credit Hours: 3

ENGLISH 8310: Seminar in 19th Century American Literature
Topics (e.g., The Transcendentalists, American Realism) announced at time of registration. May repeat to twelve hours with department's consent.

Credit Hours: 3

ENGLISH 8320: Seminar in 20th-Century American Literature
Topics (e.g., The African-American Novel, Chief Contemporary Poets) announced at time of registration. May repeat to twelve hours with department's consent.

Credit Hours: 3
ENGLISH 8400: Seminar in African Diaspora Literature (same as BL_STU 8400). Topic (e.g., Autobiography, Black Women Writers) announced at time of registration. May be repeated to 12 hours with departmental consent. 
Credit Hours: 3

ENGLISH 8410: Seminar in African Diaspora Theory and Literature Criticism (same as BL_STU 8410). Modern and contemporary African Diaspora criticism and theory including the diverse approaches to literary and cultural studies. May be repeated to 12 hours with departmental consent. 
Credit Hours: 3

ENGLISH 8510: Advanced Writing of Fiction Advanced fiction writing designed primarily for graduate students, with the intention of producing work of professional quality. May repeat to twelve hours with consent of instructor. 
Credit Hours: 3
Prerequisites: instructor's consent and ENGLSH 4510

ENGLISH 8520: Advanced Writing of Nonfiction Prose Advanced workshop in nonfiction prose primarily for graduate students intending to produce professional quality work. 
Credit Hours: 3
Prerequisites: instructor's consent

ENGLISH 8530: Advanced Writing of Poetry Advanced poetry writing designed primarily for graduate students with the intention of producing work of professional quality. May repeat to twelve hours with consent of instructor. 
Credit Hours: 3
Prerequisites: instructor's consent and ENGLSH 4530

ENGLISH 8560: Graduate Seminar in Playwriting (same as THEATR 8920). Seminar in theory, practice, and pedagogy of playwriting, students a mid-term in playwriting theory, a full-length play, a research paper, and a syllabus and lesson plans for an undergraduate playwriting course. 
Credit Hours: 3

ENGLISH 8600: Seminar in the English Language (same as LINGST 8600). Descriptive and historical studies of the English language. Topics (e.g., The Germanic Origins, Modern Syntactic Analysis) announced at time of registration. May repeat to twelve hours with department's approval. 
Credit Hours: 3

ENGLISH 8700: Seminar in Folklore (same as ANTHRO 8157 and REL_ST 8700). Focus on the roots of folklore scholarship and methodology and their evolution in modern approaches to the study of oral, traditional verbal genres and their performance in natural folk groups. May repeat to twelve hours with department's consent.

Credit Hours: 3

ENGLISH 8770: Seminar in Oral Tradition Theoretical and interpretive perspectives on works of verbal art that have roots in oral tradition. Emphasis on the variety of approaches employed (performance theory, oral theory, ethnopoetics, ethnography of speaking, comparative structural studies, etc.) May repeat to twelve hours with department's consent. 
Credit Hours: 3

Credit Hour: 1-12

English Language Support Program Courses

ELSP _0100: Grammar and Composition I Grammar and Composition I. Graded S/U only. 
Credit Hours: 3

ELSP _0200: Reading and Vocabulary Reading and Vocabulary. Graded on S/U basis only. 
Credit Hours: 3

ELSP _0300: Grammar and Composition II Grammar and Composition II. Graded S/U Only. 
Credit Hours: 3

Credit Hours: 3

Environmental Science Courses

ENV_SC 1001: Topics in Environmental Science - General Organized study of selected topics in environmental science. 
Credit Hour: 1-99

ENV_SC 1100: Introduction to Environmental Science This class provides an opportunity to develop an understanding of environment, physical and social causes of environmental problems, their impacts, and strategies to manage these issues. 
Credit Hours: 3
Prerequisites: Enrollment restricted to College of Agriculture, Food and Natural Resources undergraduates and students minoring in Environmental Science

ENV_SC 2001: Topics in Environmental Science - General Organized study of selected topics in environmental science. 
Credit Hour: 1-99
ENV_SC 2002: Topics in Environmental Science- Biological/Physical/Mathematical
Organized study of selected topics. Subjects and credit may vary from semester to semester.
Credit Hour: 1-99

ENV_SC 3001: Topics in Environmental Science - General
Organized study of selected topics in environmental science.
Credit Hour: 1-99

ENV_SC 3085: Problems in Environmental Science
Special individualized projects or readings in environmental science.
Credit Hour: 1-99

ENV_SC 3250: Pollutant Fate and Transport
(same as CV_ENG 3250). Introduction to concepts governing pollutant fate and transport in the environment, including pollutant interactions within and migration through environmental systems, as well as analytical techniques and tools necessary to quantify conditions and movement.
Credit Hours: 3
Prerequisites: ENV_SC 1100 or SOIL 2100 or CV_ENG 3200; and CHEM 1320

ENV_SC 3290: Soils and the Environment
(same as SOIL 3290). Addresses the role of soils and soil properties on environmental pollution and management. Emphasis will be placed on carbon, nitrogen, phosphorus, and sulfur transformations and transport in natural and disturbed ecosystems and soil management practices and technology to prevent or remediate environmental pollution.
Credit Hours: 3
Prerequisites: SOIL 2100, ENGLISH 1000. Recommended 3 hours of CHEM courses

ENV_SC 3290W: Soils and the Environment - Writing Intensive
(same as SOIL 3290). Addresses the role of soils and soil properties on environmental pollution and management. Emphasis will be placed on carbon, nitrogen, phosphorus, and sulfur transformations and transport in natural and disturbed ecosystems and soil management practices and technology to prevent or remediate environmental pollution.
Credit Hours: 3
Prerequisites: SOIL 2100, ENGLISH 1000. Recommended 3 hours of CHEM courses

ENV_SC 3330: Environmental Land Use Management
An introduction to environmentally sustainable use and management of land.
Credit Hours: 3

ENV_SC 3500: Pollutant Fate and Transport
This course introduces students to concepts governing pollutant fate and transport in the environment, and it provides students with the quantitative tools necessary to estimate the fate and transport of pollutants in the environment.
Credit Hours: 3

ENV_SC 4001: Topics in Environmental Science - General
Organized study of selected topics in environmental science.
Credit Hour: 1-99

ENV_SC 4024: Foundations of Environmental Education
(same as NAT_R 4024; cross-leveled with NAT_R 7024) This course provides a theoretical foundation to environmental education (EE). The purpose of this course is to develop the knowledge and skills for developing quality, age-appropriate EE for students in both formal and non-formal education setting. The emphasis is on EE curriculum materials, resources, and programs that can be used with students in settings at classrooms, nature centers, museums, and parks. This course involves training in the Missouri Department of Conservation Discover Nature School educational materials, and in observing and teaching EE lessons in a local nature center. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: BIO_SC 1010 or ENV_SC 1100 or NAT_R 1060 or NAT_R 1070 or NAT_R 2160 or Instructor's consent

ENV_SC 4085: Problems in Environmental Science
Special individualized research projects or readings in environmental science.
Credit Hour: 1-99

ENV_SC 4305: Environmental Soil Physics
(same as SOIL 4305). Study of soil physical properties and processes important in solving environmental problems. Topics include soil solids, water content and energy, and transport of water, solutes, gas and heat.
Credit Hours: 3
Prerequisites: SOIL 2100
Recommended: PHYSCS 1210 or equivalent

ENV_SC 4306: Environmental Soil Physics Laboratory
(same as SOIL 4306). Introduction to the methodology and equipment for measurement of soil physical properties and processes.
Credit Hours: 2
Prerequisites or Corequisites: ENV_SC 4305

ENV_SC 4312: Environmental Soil Microbiology
(same as SOIL 4312). Microbiology/ecology of life in the soil ecosystem. Emphasis is placed on the role of microbes in nutrient cycling, microbial pesticide/xenobiotic transformation bioremediation, etc.
Credit Hours: 3
Prerequisites: SOIL 2100
Recommended: general microbiology

ENV_SC 4318: Environmental Soil Chemistry
(same as SOIL 4318 and GEOL 4318). Study of chemical constituents and processes occurring in soils. Topics include soil minerals and weathering processes, organic matter, solution chemistry, oxidation-reduction reactions and adsorption processes.
Credit Hours: 3
**Prerequisites:** SOIL 2100 or GEOL 2400, CHEM 1320 and CHEM 1330; junior standing or instructor's consent

**ENV_SC 4320: Hydrologic and Water Quality Modeling**  
(same as NAT_R 4320). Introduction to models for simulating hydrologic and water quality processes. Emphasis is placed on watersheds to provide experience with the use of simulation models for natural resource decision making.  
**Credit Hours:** 3  
**Prerequisites:** ENV_SC 1100 or SOIL 2100

**ENV_SC 4940: Environmental Science Internship**  
Supervised professional experience with an approved public or private organization. Graded on S/U basis only.  
**Credit Hour:** 1-99

**ENV_SC 4950: Undergraduate Research in Environmental Science**  
Research apprenticeship with a faculty mentor. Students are expected to develop initial concept for the research, design experiments, collect data, and analyze data with faculty input, oversight, and guidance.  
**Prerequisites:** ENV_SC 1100, STAT 2530  
**Credit Hour:** 1-4  
**Recommended:** 9 hours of Environmental Science with at least 3 hours above the 3000-level

**ENV_SC 7001: Topics in Environmental Science**  
Organized study of selected topics in environmental science. Intended for graduate students.  
**Credit Hour:** 1-99

**ENV_SC 7085: Problems in Environmental Science**  
Special individualized non-thesis research projects or readings in environmental science.  
**Credit Hour:** 1-99

**ENV_SC 7305: Environmental Soil Physics**  
(same as SOIL 7305). Study of soil physical properties and processes important in solving environmental problems. Topics include soil solids, water content and energy, and transport of water, solutes, gas and heat.  
**Credit Hours:** 3  
**Prerequisites:** SOIL 2100, PHYSCS 1210 or equivalent

**ENV_SC 7306: Environmental Soil Physics Laboratory**  
(same as SOIL 7306). Introduction to the methodology and equipment for measurement of soil physical properties and properties and processes.  
**Prerequisites or Corequisites:** SOIL 4305  
**Credit Hours:** 2

**ENV_SC 7312: Environmental Soil Microbiology**  
(same as SOIL 7312). Microbiology/ecology of life in the soil ecosystem. Emphasis is placed on the role of microbes in nutrient cycling, microbial pesticide/xenobiotic degradation and bioremediation, soil quality and pathogen regulation in the environment. Nitrogen fixation, mycorrhizal processes are discussed.  
**Credit Hours:** 3

**ENV_SC 7318: Environmental Soil Chemistry**  
(same as SOIL 7318 and GEOL 7318). Study of chemical constituents and processes occurring in soils. Topics include soil minerals, and weathering processes, organic matter, solution chemistry, oxidation-reduction reactions and adsorption processes.  
**Credit Hours:** 3

**ENV_SC 7396: Agroforestry for Watershed Restoration**  
Agroforestry for watershed restoration will focus on integrated approaches for improved water quality, soil health, and economic benefits. Students will learn principles and practices, critical analysis and application of agroforestry practices to improve overall environmental quality. May be repeated for credit. Graded on A-F basis only.  
**Credit Hours:** 3  
**Prerequisites:** FOREST 4385 or FOREST 7385

**ENV_SC 8001: Topics in Environmental Science**  
Organized study of selected topics in environmental science. Intended for graduate students.  
**Credit Hour:** 1-99

**ENV_SC 8085: Problems in Environmental Science**  
Special individualized non-thesis research projects or readings in environmental science.  
**Credit Hour:** 1-99

**ENV_SC 8090: Masters Research in Environmental Science**  
Original investigations in environmental science for presentation in a thesis. Graded on S/U basis only.  
**Credit Hour:** 1-10
ENV_SC 8400: Solute Transport in the Vadose Zone
(same as SOIL 8400). Transport of water and solutes in geomedia with emphasis on development of the equations of flow. Evaluation of analytical and numerical solutions to equations describing transport phenomena.

Credit Hours: 3
Prerequisites: ENV_SC 7305 or SOIL 7305

ENV_SC 8500: Chemistry of the Vadose Zone
(same as SOIL 8500). Chemical reactions occurring in geomedia with emphasis on understanding molecular scale processes occurring at the solid-water interface, aqueous geochemistry, and soil organic matter.

Credit Hours: 3
Prerequisites: SOIL 7318 or GEOL 7300 or instructor's consent

ENV_SC 9001: Topics in Environmental Science
Organized study of selected topics in environmental science. Intended for graduate students.

Credit Hour: 1-99

ENV_SC 9085: Problems in Environmental Science
Special individualized non-thesis research projects or readings in environmental science.

Credit Hour: 1-99

ENV_SC 9087: Seminar in Environmental Science
In-depth development of advanced aspects of environmental science through reviews of results of research in progress and current scientific publications.

Credit Hour: 1

ENV_SC 9090: Doctoral Research in Environmental Science
Original investigations in environmental science for presentation in a dissertation. Graded on S/U basis only. Prerequisites: MATH 1100 and ENGLSH 1000

Credit Hours: 2

ENV_SC 9407: Advanced Environmental Soil Physics
(same as SOIL 9407). Transport of mass and energy through soil with emphasis on development of the equations of flow. Evaluation of analytical and numerical solutions to differential equations describing transport phenomena.

Credit Hours: 3
Prerequisites: SOIL 7305, MATH 4100 or MATH 7100, or equivalent

ENV_SC 9418: Advanced Environmental Soil Chemistry
(same as SOIL 9418). Linking molecular-scale solution-phase and surface reactions with macroscopic chemical processes. Fundamentals of aqueous surface and colloid chemistry will be discussed.

Credit Hours: 3
Prerequisites: SOIL 7318 or GEOL 7300, and CHEM 3300

Environmental Studies Courses

ENV_ST 2070: Introduction to Ecological Economics
(same as AG_EC 2070). Examines current environmental and natural resource issues using a systems perspective and key economic concepts. Explores connections between the environment and the economy based on problems at the local, national, and international levels.

Credit Hours: 3
Prerequisites: ENGLSH 1000 and sophomore standing

ENV_ST 2101: Topics in Environmental Sciences
Selected topics not in regularly offered courses.

Credit Hour: 1-3

ENV_ST 2110: Environmental Sustainability
Students will assess availability of key resources, estimate sustainable rates of use and develop plans for aligning current and sustainable rates of use using personal, business and government strategies. Graded A-F only.

Credit Hours: 3
Prerequisites: ENGLSH 1000 and one introductory environmental course

ENV_ST 2150: Directed Independent Study
Working with Environmental Studies you will find and develop a research project or an internship with the university, a government agency, a business or a non-profit agency. The project will be directed towards solving an environmental problem.

Credit Hour: 1-3
Prerequisites: instructor's consent

ENV_ST 3000: Natural History of Missouri
This class deals with the characteristics of natural ecological communities of Missouri and with the skills needed to observe, record and interpret those characteristics. Graded on A-F basis only. Prerequisites: MATH 1100 and ENGLSH 1000

Credit Hours: 2

ENV_ST 4310: Topics in Environmental Studies
This course covers topics not covered in regularly offered courses. Students are expected to combine skills, knowledge and perspectives from the natural and social science to analyze selected environmental problems.

Credit Hour: 1-3

ENV_ST 4350: Modeling Environmental Problems
This course covers modeling environmental problems as systems. Modeling incorporates rates of changes, feedback loops, short/long term signals, inertia, upstream causes, interventions, implementing interventions and unintended consequences. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: 9 hours natural science courses and junior standing
Family And Community Medicine Courses

F_C_MD 6001: Family Medicine Clerkship
Core learning experiences take place in ambulatory clinic settings. Students work with experienced clinicians and senior residents, spending time in University teaching practices and in community-based practices. Students also may spend time seeing patients in emergency room, hospital, nursing home settings and taking call with residents and practicing physicians. A high volume of patients of all ages with a wide range of problems is encountered. Many patients will have undifferentiated problems.

Credit Hours: 8
Prerequisites: successful completion of the first two years of medical school

F_C_MD 6011: Rural Family Medicine Clerkship
Rural Family Medicine Clerkship

Credit Hours: 8

F_C_MD 6021: Springfield Family Medicine Clerkship
Core learning experiences take place in ambulatory clinic settings. Students work with experienced clinicians and senior residents, spending time in University teaching practices and in community-based practices. Students also may spend time seeing patients in emergency room, hospital, nursing home settings and taking call with residents and practicing physicians. A high volume of patients of all ages with a wide range of problems is encountered. Many patients will have undifferentiated problems.

Credit Hours: 8
Prerequisites: successful completion of the first two years of medical school

F_C_MD 6036: SCC Palliative Care Elective
Students will learn a multidisciplinary approach to the care of the palliative care patient while working in a variety of clinical settings. This is an inpatient and outpatient experience in a variety of settings that represent different levels and types of care available to people with a terminal condition. Each week students will work with palliative care physicians at either Cox or Mercy Palliative Care Service and/or a Hospice agency. Students will have the opportunity to see patients undergoing palliative care assessment and observe nursing staff and professional therapy staff in their work with patients and families. Students will participate in various palliative care-related conferences. Students will participate in inpatient palliative care services as well as outpatient palliative care clinics. The student will work with faculty in the Departments of Family and Community Medicine as well as Internal Medicine.

Credit Hours: 5

Prerequisites: Successful completion of 5 of 7 core clerkships, one of which must be either Family Medicine or Internal Medicine. IN_MED 6002, 6012, 6022, or 6102. F_C_MD 6001, 6011, 6021, or 6101

F_C_MD 6101: Remediation Family Medicine Clerkship
Enrolled students are those who received an unsatisfactory grade in a Family Medicine Clerkship at any Mizzou Med location or site. This course allows them the opportunity to rectify a deficiency.

Credit Hours: 8
Prerequisites: F_C_MD 6001 Family Medicine Clerkship, received unsatisfactory grade

F_C_MD 6251: ABS Evidence Based Medicine
ABS Evidence Based Medicine

Credit Hours: 5

F_C_MD 6253: ABS Family and Community Medicine Research
ABS Family and Community Medicine Research

Credit Hour: 5-10

F_C_MD 6255: ABS Family and Community Medicine Research and Review
ABS Family and Community Medicine Research and Review

Credit Hours: 5

F_C_MD 6475: Family Medicine Elective (FP Orientation)
This elective is for Integrated Residents in the Department of Family and Community Medicine only. Two core clinical rotations are required, including Family Medicine Clerkship. During this one year longitudinal experience, Integrated Residents will work closely with senior residents and faculty members to enhance the knowledge and skills needed to care for patients in a comprehensive family medicine continuity clinic. Integrated Residents are required to attend orientation activities during 15A. Regular attendance to Wednesday departmental Grand Rounds and Tuesday afternoon Resident Seminars is also expected.

Credit Hours: 5

F_C_MD 6477: Family Medicine Elective Preceptorship
May be available as a rural offsite elective: contact the MU-AHEC Coordinator. Goals/Objectives: During this elective the student works closely with a family physician in private practice. Students both observe the preceptor's patient encounters and take primary responsibility for several patients each day, discussing diagnosis and formulating management plans with supervision by the preceptor. The Preceptorship also provides opportunities not available elsewhere in the medical school curriculum, including seeing the patient's illness in its context, assessing a community's health care system, and learning about practice management. Evaluations: Evaluation of the student is based on the preceptor's evaluation and comments. Notes: Site must be pre-approved by the Course Director.

Credit Hours: 5
Prerequisites: Students should have completed at least two clinical blocks, plus the Family Practice Clerkship
F_C_MD 6479: Family and Community Medicine Research
Family and Community Medicine Research
Credit Hours: 5

F_C_MD 6481: Clinical Nutrition
Clinical Nutrition
Credit Hours: 5

F_C_MD 6483: Preventive/Community Medicine
Preventive/Community Medicine
Credit Hours: 5

F_C_MD 6485: Geriatrics-Family and Community Medicine Elective
Goals/Objectives: This is an outpatient experience in a variety of settings. Each week students will: 1. Work with Dr. David Cravens and other health care providers at Lenoir Village, Lenoir Manor, Lenoir Health Care and Maplewood Apartments. These all represent different levels and types of care available to elders. a. Students will develop an understanding of the available care and residential options that elders utilize. 2. Work with several geriatricians in the SAGE Clinic and/or Geriatrics Clinic at Green Meadows. a. Students will improve their understanding of care of elders in the outpatient setting. b. Students will also see patients undergoing geriatric assessment and thus develop a better understanding of the multidisciplinary approach to geriatric assessment. 3. Additional experiences may be arranged depending on the student's interests. 4. Participate in the various conferences related to geriatrics. Evaluations: Final evaluation will be determined by the attending physicians supervising the student during the block.
Credit Hours: 5
Prerequisites: Must have completed all core clerkships

F_C_MD 6486: Evidence Based Medical Writing in Family Medicine
Student will co-author a draft of an evidence-based article under the supervision of FCM faculty with evidence-based writing experience. Before writing begins, students complete an evidence-based medicine curriculum using online modules. FCM integrated residents will also participate in a departmental editorial review session.
Credit Hours: 5
Prerequisites: restricted to 4th year medical students

F_C_MD 6487: Family and Community Medicine Palliative Care Elective
This is an inpatient and outpatient experience in a variety of settings that represent different levels and types of care available to people with terminal condition.
Credit Hours: 5
Prerequisites: F_C_MD 6001; restricted to 4th year medical students

F_C_MD 6775: Family Medicine Preceptorship - Rural
Family Medicine Preceptorship - Rural
Credit Hours: 5

F_C_MD 6776: RURAL FAMILY MED ELECT
Rural Family Medicine Elective
Credit Hours: 5

F_C_MD 6777: Rural Health Policy and Legislative Advocacy
Elective content will focus on the intersection of rural medicine, health policy, and legislative advocacy. Course Goals: 1) To inform and educate students about rural health policy issues at the local, state, and national levels. 2) To train medical students to be informed advocates of rural health policy issues at the local, state, and national levels. To apply, medical students must complete the Rural Track Elective Application posted on the MU AHEC website http://medicine.missouri.edu/ahec/rural-track-elective.html. In the notes section of the application, the student must document a rationale for applying for this course. (Maximum length - 1 paragraph).
Credit Hours: 5
Prerequisites: M4 status. Applicants must complete either the Rural Track Summer Community Program or the Rural Track Clerkship Program prior to enrollment. Students will share first-hand experiences from rural track placement(s) with legislators to advocate for the MU Rural Track Pipeline Program and to influence rural health policy in Missouri

F_C_MD 6875: Family Medicine Onsite Externship
Goals/Objectives: The student who is on the onsite track of the externship will be a member of the Family Practice Inpatient Team that is responsible for providing care to Family Practice patients in the hospital. The team consists of an attending, physician, two third-year residents, and two or three first-year residents. The student will be expected to function as a member of the team, attending rounds on a daily basis and assuming responsibility, under supervision, for the care of some of the patients. Each student will have 4-5 nights of call including weekend days. Students will be responsible for providing care, with supervision, to those patients admitted while they are on call. Students will also be expected to follow their patients after discharge, making home visits or nursing home visits and seeing them in follow-up at the clinic as indicated. Students will also have exposure to ambulatory family medicine. Each student will work closely in the clinic with one of the third-year residents assigned to the inpatient team. The student will attend each of the resident's clinics whether they are at Green Meadows, Fulton, or Fayette.
Credit Hours: 5
Prerequisites: Students should have completed at least two clinical blocks, plus the Family Practice Clerkship

F_C_MD 6876: Family Medicine Offsite Externship
Several different types of experiences are available for the offsite track of the externship. Students have the opportunity to work at selected Indian Health Service sites that provide the appropriate mix of inpatient and outpatient experiences. A list of these IHS sites and the students' evaluations are available in the course office. These offer high volume and high levels of responsibility. Planning needs to begin early in the third year. Offsite externship experiences are also available in certain community-based family practices and in certain family practice residency programs. A list of pre-approved sites is available in the course office. All of the sites available for the offsite experience have been carefully selected by the faculty based on previous experiences of fourth-year students. These sites offer an appropriate level of patient care responsibility with supervision. Offsite practices need to be approved in advance by the course director and often require planning 6 to 12 months
in advance. Students considering offsite rotations will be expected to have a clear idea of how these experiences will offer unique advantages to their personal and professional development, and how they will meet the course criteria. Many offsite locations used in the past for the Family Medicine Clerkship will not satisfy the externship requirement. They still offer excellent experiences and could be taken as electives. Students on the offsite track will be evaluated with respect to their ability to collect, process, and analyze information, engage in clinical reasoning, and formulate appropriate diagnoses and treatment plans. Sites must be pre-approved by the Course director.

Credit Hours: 5

**F_C_MD 6877: Rural Family Medicine Elective**
Rural Family Medicine Elective
Credit Hours: 5

**F_C_MD 6878: Family Medicine Maternity Care-Advanced Selective**
Family Medicine Maternity Care-Advanced Selective
Credit Hours: 5

**F_C_MD 6879: Palliative Care Selective**
This is an inpatient and outpatient experience in a variety of settings that represent different levels and types of care available to people with a terminal condition. Each day the student will work directly with palliative care physicians, as well as the rest of the multidisciplinary team, as part of the University Hospital Supportive and Palliative Care Service. They will also have the opportunity to work with a medical director of a local Hospice agency, who is a faculty member of the University of Missouri. Students will be expected to function as a member of the Palliative Care Team. Students will have the opportunity to actively participate in the assessment and care of patients under the direction of the Palliative Care Interdisciplinary team. Students will work alongside palliative care attending physicians, nursing staff, social workers, and pastoral care team members in their work with patients and families. Students will participate in various palliative care-related conferences including Interdisciplinary Team Meetings, didactics, patient remembrance and memorial services, self-care rounds, monthly team business meetings and the monthly Palliative Care hospital committee meeting. Additional experiences will include outpatient palliative care clinics at Ellis Fischel, bi-weekly community Hospice Interdisciplinary team meetings, patient home assessments and nursing visits with hospice staff, and completion of an oral presentation to the Palliative Care Team as part of their assessment and evidence of mastery of course objectives.

Credit Hours: 5
Prerequisites: Fourth year medical student. Must have completed 6 of the 7 core clerkships

**F_C_MD 6828: Primary Care Sports Medicine Elective**
Students will work with a multi-disciplinary sports medicine team, providing hands on clinical services in an outpatient setting. Participants will gain experience working with primary care sports medicine physicians, orthopedic surgeons, physical therapists and cast technicians.

Credit Hours: 2
Prerequisites: successful completion of the first two years of medical school

---

**F_C_MD 6929: Rural Family Medicine Elective Two-Week**
The student will work with Callaway Physicians attending and resident physicians primarily in the clinic setting to experience primary care delivered in the rural setting. During this time the students will have opportunities to participate in patient care in the clinic, procedures including minor dermatologic procedures, colposcopy, splinting, OB non stress testing and fetal heart monitoring, cardiac treadmill stress testing, and other procedures as available. Rotation length is two weeks.

Credit Hours: 2
Prerequisites: successful completion of the first two years of medical school

**F_C_MD 7001: Topics in Family and Community Medicine**
Selected topics of interest related to family and community medicine.

Credit Hours: 3
Prerequisites: Understanding of research methods, statistics (basic) and graduate, post graduate or instructor' consent

**F_C_MD 7300: Problems Community Health Medicine Practice**
Directed exploration of community health problems.

Credit Hour: 1-3
Prerequisites: instructor's consent

**F_C_MD 7310: The Health Care System**
Overview of health care system and relationship between its components. Focuses on changing nature of the system and issues confronting the future health care system.

Credit Hours: 3
Prerequisites: instructor's consent

**F_C_MD 7350: Special Readings in Community Health**
Extensive reading and critical analysis of classical and current studies in selected areas of community health.

Credit Hour: 1-3
Prerequisites: instructor's consent

**F_C_MD 7400: Problems Community Health Medicine Practice**
Directed exploration of a community health problem.

Credit Hour: 1-3
Prerequisites: instructor's consent

**F_C_MD 7490: Research in Community Health**
Independent investigation of some problem in community health to be presented as a thesis. Graded on a S/U basis only.

Credit Hour: 1-99

**F_C_MD 7492: Field Experience in Community Health Education**
Field practice in a selected community setting under faculty or other competent supervision.

Credit Hour: 1-99
Prerequisites: Restricted to students specializing in community health education; consent of community health education faculty
F_C_MD 7750: Physical Function and Older Adults
(same as ARCHST 7640, HMI 7750, H_D_FS 7750, NURSE 7750, P_HLTH 7750, and SOC_WK 7752). This course takes an interdisciplinary approach to understanding and improving the physical function and independence of older adults and explores approaches to alleviate disabling conditions that interfere with physical function and quality of life in old age. Graded on A-F basis only.

Credit Hours: 3

F_C_MD 7751: Psychosocial Function and Older Adults
(same as ARCHST 7650, HMI 7751, H_D_FS 7751, NURSE 7751, P_HLTH 7751, and SOC_WK 7751). This course takes an interdisciplinary approach to understanding the psychosocial function of older adults and explores approaches to alleviate disabling conditions that interfere with psychosocial function and quality of life in old age. Graded on A/F basis only.

Credit Hours: 3

F_C_MD 8330: Statistical Aspects of Public Health
Classification and summarization of data used in public health practice and research. Probability, sampling, hypothesis testing. Correct and incorrect use of statistics in the literature.

Credit Hours: 3

Corequisites: concurrent registration in F_C_MD 8420 or instructor's consent

F_C_MD 8410: Principles and Practices in Medical Education
An examination of the past and present influences on the education of physicians, the application of adult education principles and the future approaches to medical education.

Credit Hours: 3

Prerequisites: instructor's consent

F_C_MD 8411: Learning Strategies in Preclinical & Clinical Educ. of Physicians
Examination of curricular strategies in preclinical and clinical education of medical students and graduate medical education. Emphasis will be placed on different types of instructional strategies.

Credit Hours: 3

Prerequisites: instructor's consent

F_C_MD 8420: Principles of Epidemiology
Examines methods of study of disease frequency and distribution in populations. Utilizes small group discussions for understanding of current medical literature.

Credit Hours: 3

Prerequisites: instructor's consent

F_C_MD 8421: Clinical Epidemiology/Evidence Based Medicine
(same as V_PBIO 8421). Advanced epidemiologic theory and methods in the study and control of infectious and noninfectious diseases.

Credit Hours: 3

Prerequisites: instructor's consent

F_C_MD 8422: Clinical Research Methods I
Principles of designing, implementing and reviewing research in the health sciences.

Credit Hours: 3

F_C_MD 8423: Clinical Research Methods II
This is a continuation of the Clinical Research Methods I (CRM_I) introductory course on the multi-method approach to clinical research. Similar to the previous course, it covers both quantitative and qualitative research methods, but includes advanced applications.

Credit Hours: 3

F_C_MD 8424: Comparative Effectiveness Research
Advanced research class that presents a framework for analyzing observational studies and randomized trials for comparative effectiveness. Graded on A-F basis only.

Credit Hours: 3

Prerequisites: Two recent semester-length courses in statistics such as NURSE 8020 or STAT 2500 or above; Working knowledge of managing and analyzing data in SPSS or SAS; Research methods; or consent of instructor

Recommended: One semester of epidemiology is strongly recommended

F_C_MD 8425: Participatory Approaches for Health and Health Systems
(same as NURSE 8425). Focuses on the use of participatory approaches for the design of health and health-system interventions. Graded on A-F basis only.

Credit Hours: 3

Prerequisites: NURSE 8100 or F_C_MD 8420 or instructor consent

F_C_MD 8430: Applications of Evidence-Based Medicine I
Students will participate in editing, presentation and publication of evidence-based reviews of current medical literature.

Credit Hours: 3

Prerequisites: instructor's consent

F_C_MD 8431: Applications of Evidence-Based Medicine II
Students will participate in editing, presentation and publication of evidence-based reviews of current medical literature.

Credit Hours: 3

Prerequisites: instructor's consent

F_C_MD 8450: Research in Community Health
Original research in community health not leading to a thesis but requiring a formal research report.

Credit Hour: 1-99

F_C_MD 8491: Field Experience in Family and Community Medicine
Supervised teaching experience in the preclinical, clinical, and residency programs.

Credit Hour: 1-6
Film Studies Courses

**FILM_S 1000: Introduction to Film for Non-Majors**
Introduction to terms and concepts for film analysis, including mise-en-scene, cinematography, editing, sound narrative, genre, and other elements. No credit for students who have completed FILM_S 1800. No credit for film majors or minors. Graded on A-F basis only.

**Credit Hours:** 3

**FILM_S 1800: Introduction to Film Studies**
(same as ENGLISH 1800, DST 1800). Introduction to terms and concepts for film analysis, including mise-en-scene, cinematography, editing, sound narrative, genre, and other elements. No credit for students who have completed FILM_S 2810. Graded on A-F basis only.

**Credit Hours:** 3

**Prerequisites:** Freshmen and Sophomores only or instructor's consent

**FILM_S 1880: Introduction to Digital Media Production**
(same as DST 1880; ENGLISH 1880). Introduction to concepts and skills for film making, video art, and digital storytelling, including media literacy and forms of narrative manifested historically and currently across a range of media. This course focuses on theories and concepts that support the critical analysis and creation of contemporary narrative in digital form with particular attention to audio, visual and written communication. Graded on A-F basis only.

**Credit Hours:** 3

**FILM_S 2001: Topics in Film Studies-General**
Organized study of selected topics. Subject may vary from semester to semester. May be repeated with consent of instructor.

**Credit Hour:** 1-3

**FILM_S 2005: Topics in Film Studies- Humanities**
Organized study of selected topics. Subject may vary from semester to semester. May be repeated with consent of instructor.

**Credit Hour:** 1-3

**FILM_S 2010: The Philosophy of Film**
(same as PHIL 2010). Philosophical problems having to do with film. Topic may include the nature of films, the differences between fiction and documentary film, ethical issues with film and filmmaking.

**Credit Hours:** 3

**FILM_S 2020: World Cinema for Non-Majors**
World Cinema introduces students to the history of international cinema. The course focuses on particular cinematic movements and national cinemas as case studies for trends and trajectories that also characterize the national and non-Hollywood cinemas not covered in the course. Examines the relationship of form and genre to individual national, or localized, cultural contexts. No credit for students who have completed FILM_S 2820. No credit for film majors or minors. Graded on A-F basis only.

**Credit Hours:** 3

**FILM_S 2025: World Cinema for Majors**
Examines the relationship of form and genre to individual national, or localized, cultural contexts. No credit for students who have completed FILM_S 2820. No credit for film majors or minors. Graded on A-F basis only.

**Credit Hours:** 3

**FILM_S 2030: Introduction to Film Management**
Film Production Management is a hands-on exploration of the roles of feature film executive producers, producers and unit production managers. Creating balanced budgets, hiring personnel, creating meaningful business relationships, and managing post-production responsibilities are investigated. The feature film budget will be examined in each phase of the production; creating a sales pitch for a film, and developing a detailed approach to distribution is explored. Graded on A-F basis only.

**Credit Hours:** 3

**FILM_S 2050: Italian Cinema**
(same as ITAL 2850). A course which concentrates on the development of Italian Cinema, primarily since the Post-WWII era, and the ways in which it reflects major economic, social and political events occurring in Italy. No knowledge of Italian required.

**Credit Hours:** 3

**Prerequisites:** Sophomore standing, ENGLISH 1800 or FILM_S 1800

**FILM_S 2060: Film Adaptation of Shakespeare - Non Majors**
This course serves as an introduction to the problems and complexities that arise when adapting William Shakespeare’s plays to contemporary film. One basic task of the course is to develop students’ ideas about adaptation, especially with reference to contemporary adaptation theory. This course hopes both to explain and discredit the value of “fidelity discourse,” students should be liberated from the notion of “faithfulness” to the texts. No credit for film majors or minors. Graded on A-F basis only.

**Credit Hours:** 3

**FILM_S 2160: Film Adaptation of Shakespeare - Majors**
This course serves as an introduction to the problems and complexities that arise when adapting William Shakespeare’s plays to contemporary film. One basic task of the course is to develop students’ ideas about adaptation, especially with reference to contemporary adaptation theory. This course hopes both to explain and discredit the value of “fidelity discourse,” students should be liberated from the notion of “faithfulness” to the texts. No credit for film majors or minors. Graded on A-F basis only.

**Credit Hours:** 3

**FILM_S 2180: Trends in World Cinema**
(same as GERMAN 2820 and RM_LAN 2820). This course is a historical overview of the major trends in international cinema. It focuses on the intersection of aesthetics, industry, and ideological and social concerns in cinematic production.

**Credit Hours:** 3

**FILM_S 2200: Introduction to Film for Majors**
This course serves as an introduction to the problems and complexities that arise when adapting William Shakespeare’s plays to contemporary film. One basic task of the course is to develop students’ ideas about adaptation, especially with reference to contemporary adaptation theory. This course hopes both to explain and discredit the value of “fidelity discourse,” students should be liberated from the notion of “faithfulness” to the texts. No credit for film majors or minors. Graded on A-F basis only.

**Credit Hours:** 3

**FILM_S 2300: American Film History I, 1895-1950**
(same as ENGLISH 2830). Examines the development of American cinema in relation to other national cinemas, from 1895-1950. No credit for students who have completed ENGLISH or FILM_S 1810.

**Credit Hours:** 3

**Prerequisites:** ENGLISH 1000 and ENGLISH 1800 or FILM_S 1800

**FILM_S 2400: American Film History II, 1950-Present**
(same as ENGLISH 2840). Examines American film history in an international context, from 1950-present. No credit for students who have completed ENGLISH or FILM_S 1820.

**Credit Hours:** 3

**Prerequisites:** ENGLISH 1000 and ENGLISH 1800 or FILM_S 1800

**FILM_S 2450: Introduction to Film Management**
Film Production Management is a hands-on exploration of the roles of feature film executive producers, producers and unit production managers. Creating balanced budgets, hiring personnel, creating meaningful business relationships, and managing post-production responsibilities are investigated. The feature film budget will be examined in each phase of the production; creating a sales pitch for a film, and developing a detailed approach to distribution is explored. Graded on A-F basis only.

**Credit Hours:** 3

**FILM_S 2460: Film Adaptation of Shakespeare - Majors**
This course serves as an introduction to the problems and complexities that arise when adapting William Shakespeare’s plays to contemporary film. One basic task of the course is to develop students’ ideas about adaptation, especially with reference to contemporary adaptation theory. This course hopes both to explain and discredit the value of “fidelity discourse,” students should be liberated from the notion of “faithfulness” to the texts. No credit for film majors or minors. Graded on A-F basis only.

**Credit Hours:** 3

**FILM_S 2500: Italian Cinema**
(same as ITAL 2850). A course which concentrates on the development of Italian Cinema, primarily since the Post-WWII era, and the ways in which it reflects major economic, social and political events occurring in Italy. No knowledge of Italian required.

**Credit Hours:** 3

**Prerequisites:** Sophomore standing
FILM_S 2860: Film Themes and Genres  
(same as ENGLSH 2860, DST 2860) Topics (e.g. Film noir, African-American filmmakers, Food and Film, The Western) announced at time of registration. No more than six hours may be taken in Film Themes and Genres 2680.  
Credit Hours: 3  
Prerequisites: ENGLISH 1000 and ENGLISH 1800 or FILM_S 1800

FILM_S 2865: The Art of Soviet and Russian Cinema  
(Same as RUSS 2865) Topics (e.g. Distorted Picture: Post-War Cinema in a Soviet State, Cinema in the Soviet Times and Beyond, etc.) announced at time of registration. Only 6 hours may be taken toward major.  
Credit Hours: 3

FILM_S 2865W: The Art of Soviet and Russian Cinema - Writing Intensive  
(Same as RUSS 2865) Topics (e.g. Distorted Picture: Post-War Cinema in a Soviet State, Cinema in the Soviet Times and Beyond, etc.) announced at time of registration. Only 6 hours may be taken toward major.  
Credit Hours: 3

FILM_S 2870: Film and Literature  
(same as ENGLISH 2870) Explores the complex interplay between film and literature in order to gain an understanding of the possibilities - and problems - involved in the transposition from literature to film. Graded A-F basis only  
Credit Hours: 3  
Prerequisites: ENGLISH 1000 and ENGLISH 1800 or FILM_S 1800

FILM_S 3001: Topics in Film- General  
Organized study of selected topics. Subjects and earnable credit may vary from semester to semester.  
Credit Hour: 1-3  
Prerequisites: Sophomore standing

FILM_S 3005: Topics in Film Studies - Humanities  
Organized study of selected topics. Subjects and earnable credit may vary from semester to semester.  
Credit Hour: 1-3  
Prerequisites: Sophomore standing

FILM_S 3005H: Topics in Film Studies - Humanities - Honors  
Organized study of selected topics. Subjects and earnable credit may vary from semester to semester.  
Credit Hour: 1-3  
Prerequisites: Sophomore standing or instructor's consent. Honors eligibility required

FILM_S 3005W: Topics in Film Studies - Humanities - Writing Intensive  
Organized study of selected topics. Subjects and earnable credit may vary from semester to semester.

FILM_S 3050: Introduction to Field Production  
Provides a comprehensive overview of pre-production and production involved in the development of a film. Students will receive hands-on experience in lighting design, camera operation, grip and electrical, producing, directing, sound capture and design, and fundraising. Students will ultimately be responsible for the production of a commercially viable, competition grade short film at the end of the semester. Some outside class commitments are required.  
Credit Hours: 3  
Prerequisites: FILM_S 1800 or ENGLISH 1800 and FILM_S 3540

FILM_S 3490: Indian Cinema  
(same as S_A_ST 3490, AR_H_A 3790 and ANTHRO 3490). Indian Cinema provides an overview of the key genres and themes of Indian film, including Bollywood, art cinema/parallel cinema, Indian regional cinemas, and diasporan cinema. The course combines film studies, anthropological, historical, and visual culture analyses to provide a holistic view of Indian culture and society through cinema.  
Credit Hours: 3  
Prerequisites: Sophomore standing or higher

FILM_S 3530: Crafting Character and Story for Screen  
Analyze various script formats and apply different writing techniques and styles to create screenplays and teleplays. Work inside a creative critique environment to craft vivid storytelling and character elements while developing viable loglines and pitches for their stories. Screenwriting concepts include the three-act structure and the timing and placement of plot points. Graded on A-F basis only. May be restricted to Film Studies majors and minors during early registration  
Credit Hours: 3  
Prerequisites: FILM_S 1800 or ENGLISH 1800; sophomore standing or higher

FILM_S 3540: Principles of Cinematography  
An exploration of the principles and techniques of cinematography that includes shot composition lighting styles, and storytelling, using the moving image. Students will examine historical and contemporary approaches to cinematography used in Hollywood, foreign and independent films. Analyzing cinematographic approaches of a wide range of work will help the students discriminate the quality of their own creative work. Graded on A-F basis only.  
Credit Hours: 3  
Prerequisites: FILM_S 1800 or ENGLISH 1800; Sophomore standing or higher. May be restricted to Film Studies majors and minors during early registration

FILM_S 3550: Introduction to Field Production  
Provides a comprehensive overview of pre-production and production involved in the development of a film. Students will receive hands-on experience in lighting design, camera operation, grip and electrical, producing, directing, sound capture and design, and fundraising. Students will ultimately be responsible for the production of a commercially viable, competition grade short film at the end of the semester. Some outside class commitments are required.  
Credit Hours: 3  
Prerequisites: FILM_S 1800 or ENGLISH 1800 and FILM_S 3540

FILM_S 3555: Directing for the Screen  
Directing for the Screen combines previous knowledge of the cinematic frame with the power of communication. This course focuses on developing the student's ability to effectively communicate to actors, cinematographers, and art departments, while also commanding a film crew and managing relationships with producers. Students develop
concise personal vision and aesthetics with respect to scripts, and will work directly with actors to achieve performances that suit the project.

Credit Hours: 3

FILM_S 3560: Audio Engineering for the Screen
This course is an intensive study of the techniques and science behind the use of audio in today's cinema. The course will focus on four major areas of study: sound in cinema, sound creation, sound manipulation, and environmental sound layering.

Credit Hours: 3
Prerequisites: FILM_S 1800 or ENGLSH 1800, Sophomore standing. May be restricted to Film Studies majors and minors during early registration

FILM_S 3775: The Ancient World on Film
(Same as CL_HUM 3775 and AR_H_A 3775) This course explores how classical antiquity has been represented in twentieth and twenty-first-century film, with particular emphasis on the ways in which ancient narratives and iconography have been appropriated by filmmakers to address contemporary cultural issues.

Credit Hours: 3
Prerequisites: Prior 2000 level coursework in CL_HUM, AR_H_A, or FILM_S. Instructors consent required

FILM_S 3780: Architecture in Film
(same as AR_H_A 3780) Filmmakers use architecture to convey meaning on symbolic, psychological, and ideological levels. Using architectural history and theory, in conjunction with weekly film screenings from a variety of genres, this course explores how architecture operates within film.

Credit Hours: 3

FILM_S 3785: Art and Artists on Film
(same as AR_H_A 3785) This course explores representations of art and artists in film, including documentary films, fictionalized films, and films made by artists.

Credit Hours: 3

FILM_S 3820: Major Directors
(same as ENGLISH 3820 and RM_LAN 3820). Topics (e.g. Hitchcock, Kubrick, Fellini, Allen, Kurosawa, Wilder) announced at time of registration. Only 6 hours may be taken for credit toward major. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: ENGLISH 1000 and ENGLISH 1800 or FILM_S 1800

FILM_S 3830: History of German Film
(same as GERMAN 3830). Introduction to the development of the German film. Old and recent films are viewed and discussed in terms of techniques, artistry, psychology and social impact. English dubbing or subtitles. No foreign language credit.

Credit Hours: 3
Prerequisites: Sophomore standing or instructor's consent

FILM_S 3840: German Film After 1945
(same as GERMAN 3840). Examines a selection of post-War films by German directors, as well as historical, literary, and theoretical texts.

Credit Hours: 3
Prerequisites: Sophomore standing, or instructor's consent

FILM_S 3845: Modern Israeli Film
(same as HEBREW 3845). Examines the modern film of developing Israel. Discusses complex social relationships. Introduces concepts of Hebrew language and its use in the arts world-wide. Discusses varied communities in Israel, and universal themes such as democracy and social justice. Provides introduction to Israel culture.

Credit Hours: 3
Prerequisites: Sophomore standing or consent of instructor required

FILM_S 3850: Studies in Film History
(same as ENGLISH 3850). Topics (e.g. Classical Period of Hollywood cinema, silent era, Post-WWII American film, German Weimar cinema, French New Wave) announced at time of registration. Only 6 hours count as credit toward major.

Credit Hours: 3
Prerequisites: ENGLISH 1000 and ENGLISH 1800 or FILM_S 1800

FILM_S 3855: Documentary Film
(same as ENGLISH 3855; DST 3855). Surveys the history of documentary film including the development of subgenres, sound and voice over in documentary, re-enactment, ethical issues in documentary film production, and more. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: ENGLISH 1000

FILM_S 3861: Film Themes and Genres
Topics (e.g. Film noir, African-American filmmakers, Food and Film, The Western) announced at time of registration. No more than six hours may be taken in Film Themes and Genres 3861.

Credit Hours: 3
Prerequisites: ENGLISH 1000 or ENGLISH 1800 or FILM_S 1800

FILM_S 3865: The Holocaust on Screen
(same as GERMAN 3865). This course explores how the Holocaust has been depicted on film in a variety of national and historical contexts. Drawing on films from 1945 to the present, from the U.S., Germany, Poland, France, and Italy, we will consider to what end images of the Holocaust have been used. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: Sophomore standing

FILM_S 3870: Russian Women and Film
(same as RUSS 3870, WGST 3870) Traces image(s) of the Russian woman in 20th-century Russia as constructed in Russian, Soviet and late-Soviet film. Discusses heroines of pre-revolutionary melodrama and "new Soviet man and woman" of the 20s. Considers war-time realignment of gender roles in defense of motherland and their subtle revamping in post-war and post-Stalinist period, and the shifting relations between women and men, women and women, and women and the
### FILM_S 3875: Brazilian Cinema
(same as PORT 3875). An introduction to Brazilian cinema, culture, and society through the study of contemporary cinematic productions. Topics include: Hollywood perceptions of Brazil; redefinition of national identity and history, representations of race and gender.

**Credit Hours:** 3  
**Prerequisites:** Sophomore standing or instructor's consent

### FILM_S 3885: Twenty-First Century South American Cinema
(same as SPAN 3885, PORT 3885). Broad overview of the major national cinemas of the 21st century in South America. Approximately 14 feature films screened from Argentina, Brazil, Chile and other nations of the region. Instructor provides a thematic framework for films within the context of film theory, Latin American cinematic history and cultural studies. Course taught in English. Graded on A-F basis only.

**Credit Hours:** 3  
**Prerequisites:** ENGLSH 1000 or ENGLSH 1000H

### FILM_S 3880: Contemporary Chinese Film
(same as CHINSE 3880). Introduces development of 20th century Chinese film and popular genres, including review of earlier times. Explores how present day Chinese understand their own history, and issues they face in drive toward modernization in a global context. Films and readings in English or with English subtitles. No previous knowledge of the culture or language required. 

**Credit Hours:** 3  
**Prerequisites:** Sophomore standing or instructor's consent

### FILM_S 3885: Twenty-First Century South American Cinema
(same as SPAN 3885, PORT 3885). Broad overview of the major national cinemas of the 21st century in South America. Approximately 14 feature films screened from Argentina, Brazil, Chile and other nations of the region. Instructor provides a thematic framework for films within the context of film theory, Latin American cinematic history and cultural studies. Course taught in English. Graded on A-F basis only. 

**Credit Hours:** 3  
**Prerequisites:** ENGLSH 1000 or ENGLSH 1000H

### FILM_S 3930: Screenwriting for Television and Film
(same as THEATR 3930). Fundamentals of storytelling utilizing tools and structure used by television and film. 

**Credit Hours:** 3  
**Prerequisites:** ENGLSH 1000

### FILM_S 4001: Topics in Film-General
Organized study of selected topics. Subjects and earnable credit may vary from semester to semester. 

**Credit Hour:** 1-3  
**Prerequisites:** Sophomore standing

### FILM_S 4005: Topics in Film Studies - Humanities
Organized study of selected topics. Subjects and earnable credit may vary from semester to semester. 

**Credit Hour:** 1-3  
**Prerequisites:** Sophomore standing

### FILM_S 4005W: Topics in Film Studies - Humanities - Writing Intensive
Organized study of selected topics. Subjects and earnable credit may vary from semester to semester. 

**Credit Hour:** 1-3  
**Prerequisites:** Sophomore standing

### FILM_S 4030: Video Art and the Moving Image
(same as ART_GNRL 4030; cross-leveled with ART_GNRL 7030). Video as a fine art form intersection sculpture, performing arts, doc filmmaking, pop culture and the Internet. Theoretical and historical knowledge is integrated with studio practice. Students create video works in Final Cut Pro demonstrating technical ability and aesthetic vision. 

**Credit Hours:** 3

### FILM_S 4130: Advanced Character Voice and Dialogue
Builds upon principles of story arc and screenwriting techniques, while providing an in-depth study of character psyche and unique voice. Students will master the skills necessary to create vibrant, memorable characters through the exploration and development of unique character traits, physical imagery development and distinctive voice. Students will analyze dialog traits of scripts and films of industry professionals, and will craft their own characters using industry standard technology, adhering to the principles of industry standard formatting. Graded on A-F basis only. 

**Credit Hours:** 3  
**Prerequisites:** Sophomore standing

### FILM_S 4370: Film Studies: The Intersection of Documentary Film and Journalism
(same as JOURN 4370; cross-leveled with FILM_S 7370, JOURN 7370). The popularity of documentary film in the past ten years has skyrocketed, and recent award-winning documentaries such as Inside Job (2010), Blackfish (2013), and The Invisible War (2012) are simultaneously entertaining audiences and investigating serious issues like the financial collapse, killer whale captivity, and sex crimes in the military--issues that in the past might have been covered exclusively by
investigative journalism. What explains the public's growing fascination with documentary? How is documentary film reacting to recent transformations in the media landscape? Is it filling a critical need that journalism is no longer willing or able to meet? This course will explore the intersection of these two nonfiction storytelling forms—documentary film and journalism—and examine the role played by advocacy in both modes, as well as the cultural and ethical implications of the convergence between journalism and documentary film. In that it is centered on contemporary documentary film culture, the course also takes advantage of the True/False Film Festival, and will be host to a conference during Week 6, featuring a number of major visiting filmmakers and film critics. Attendance at some sessions is required. Graded on A-F basis only.

Credit Hours: 3

**FILM_S 4540: Advanced Cinematography**

Cinematography is an art based on control of light, motion, and the frame. Introduction to Cinematography gave students a basic understanding of the fundamental principles of cinematography. Advanced Cinematography builds upon these principles, placing students in a collaborative studio environment, focusing on application of advanced techniques and storytelling as an element of meaning within the frame. Students will utilize advanced camera systems, cinema grade lenses, and lab facilities to integrate contemporary post production techniques to alter their footage, creating highly stylized imagery.

Credit Hours: 4

Prerequisites: FILM_S 1800 or ENGLSH 1800; FILM_S 3540; sophomore standing or higher

**FILM_S 4550: Introduction to Post Production**

Introduction to the Post Production explores traditional and current audio and video post-production concepts, techniques and technology. Using non-linear editing and audio post-production software students develop techniques in video and audio editing, and investigate the post production concepts of color correction, audio mixing, and motion graphics. Using media encoding software, students examine exporting and compressing footage to a wide range of digital delivery formats. Graded on A-F basis only.

Credit Hours: 3

Prerequisites: FILM_S 1800 or ENGLSH 1800; sophomore standing or higher

**FILM_S 4580: Production Practicum**

Provides an intensive, comprehensive experience in film production. Students will receive hands-on experience in lightning and set design, camera operation, grip/electrical and sound capture. The course pits students against a rigorous industry standard shooting schedule - long hours are to be expected each day. Graded on A-F basis only.

Credit Hours: 3

Prerequisites: FILM_S 3540

**FILM_S 4810: Film Theory**

(same as ENGLSH 4810, DST 4810). This course explores contemporary trends in film theory. Topics may include: psychoanalysis, feminism, Marxism, cultural studies, queer theory, audience and star studies, postcolonialism, among others.

Credit Hours: 3

Prerequisites: ENGLISH 1000 and ENGLISH 1800 or FILM_S 1800. Junior standing or above required

**FILM_S 4820: Studies in Film Genre**

(Same as ENGLSH 4820) Topics (e.g. The Western, film noir) announced at time of registration. No more than six hours may be taken toward the major.

Credit Hours: 3

Prerequisites: ENGLISH 1000 and ENGLISH 1800 or FILM_S 1800; Junior Standing or instructor's consent required

**FILM_S 4840: Culture and Media**

(Same as ENGLSH 4840, DST 4840). Topics (e.g. Cinema and Imperialism, Indigenous Media, Ethnographic Documentary) announced at time of registration. No more than six hours may be taken for credit toward the major.

Credit Hours: 3

Prerequisites: ENGLISH 1000 and ENGLISH 1800 or FILM_S 1800. Junior standing or instructor's consent required

**FILM_S 4860: Film Themes and Genres**

Topics (e.g. Film noir, African-American filmmakers, Food and Film, The Western) announced at time of registration. No more than six hours may be taken in Film Themes and Genres 4860.

Credit Hours: 3

Prerequisites: ENGLISH 1000 and ENGLISH 1800 or FILM_S 1800

**FILM_S 4880: Capstone Experience**

This course is for Film Studies students who have completed their concentration requirements. The main objective is to help students independently create and complete a capstone project. The project should allow you to conceptualize and enter professional life after commencement.

Credit Hours: 3

Prerequisites: Film Studies majors only. Consent of instructor required

**FILM_S 4935: Adaptation of Literature for Film**

(same as ENGLISH 4935 and THEATR 4935; cross-leveled with FILM_S 7935, ENGLISH 7580 and THEATR 7935). This upper-division course will explore adaptation principles and practices with a variety of forms of literature that were not originally written for film.

Credit Hours: 3

**FILM_S 4940: Internship**

This course is for Film Studies students who have the opportunity to work in an internship position in a related industry or at a government agency where they can gain valuable on the job experience and knowledge. The student must register for the Internship course in the semester in which the work takes place. Graded S/U basis only.

Credit Hours: 1-3

Prerequisites: ENGLISH 1000 and ENGLISH 1800 or FILM_S 1800. Must have at least 15 hours of Films Studies credit. Online courses do not count for the 15 hours of Film Credit
FILM_S 4960: Special Readings in Film Studies
Arranged. Individual work with conferences adjusted to needs of student.
Credit Hour: 1-3
Prerequisites: ENGLISH 1000 and ENGLISH 1800 or FILM_S 1800.
Consent of instructor required. Restricted to Film Studies majors in their final year.

FILM_S 4963: Latin American Cinema (in Spanish)
(same as SPAN 4960). Subject varies according to instructor.
Credit Hour: 2-3
Prerequisites: SPAN 3420 and SPAN 3430

FILM_S 4995: Senior Honors Thesis
Independent honors research under direction of faculty. Graded on S/U basis only.
Credit Hour: 1-3
Prerequisites: Senior standing required, consent of instructor required, Honors eligibility required

FILM_S 7001: Topics in Film Studies-General
Topics in Film Studies-General
Credit Hour: 1-3

FILM_S 7370: The Intersections of Documentary Film and Journalism
(same as JOURN 7370). (cross-leveled with JOURN 4370 and FILM_S 4370). The popularity of documentary film in the past ten years has skyrocketed, and recent award-winning documentaries such as Inside Job (2010), Blackfish (2013), and The Invisible War (2012) are simultaneously entertaining audiences and investigating serious issues like the financial collapse, killer whale captivity, and sex crimes in the military–issues that in the past might have been covered exclusively by investigative journalism. What explains the public’s growing fascination with documentary? How is documentary film reacting to recent transformations in the media landscape? Is it filling a critical need that journalism is no longer willing or able to meet? This course will explore the intersection of these two nonfiction storytelling forms--documentary film and journalism--and examine the role played by advocacy in both modes, as well as the cultural and ethical implications of the convergence between journalism and documentary film. In that it is centered on contemporary documentary film culture, the course also takes advantage of the True/False Film Festival, and will be host to a conference during Week 6, featuring a number of major visiting filmmakers and film critics. Attendance at some sessions is required. Graded on A-F basis only.
Credit Hour: 1-3
Prerequisites: instructor's consent

FILM_S 7840: Culture and Media
(same as ENGLISH 7840). Topics (e.g. Cinema and Imperialism, Indigenous Media, Ethnographic Documentary) announced at time of registration. No more than six hours may be taken for credit toward the major.
Credit Hours: 3

FILM_S 7935: Adaptation of Literature for Film
(same as THEATR 7935 and ENGLISH 7580; cross-leveled with FILM_S 4935, ENGLISH 4935 and THEATR 4935). This upper-division course will explore adaptation principles and practices with a variety of forms of literature that were not originally written for film.
Credit Hours: 3

FILM_S 7975: Distorted Picture: Post-War Cinema in a Police State
(Same as RUSS 7975) Considers strategies and stylistic devices employed by East European & Soviet directors to produce artistically worthy films under censorship. Discusses how artists adapted methods, boldness of expression, thematic content, and technical sophistication. Attention paid to production techniques.
Credit Hours: 3

FILM_S 8005: Topics in Film Studies - Humanities
Organized study of selected topics. Subjects and earnable credit may vary from semester to semester. May be repeated to a maximum of 6 hours with departmental consent.
Credit Hour: 1-3
Prerequisites: instructor's consent

Finance Courses
FINANC 1000: Principles of Finance
Financing business, consumer, and government activity; stocks, bonds, real estate, and financial markets; risk; insurance; inflation; cash and income management; capital accumulation and appreciation.
Credit Hours: 3
Prerequisites: Students admitted to COB upper level degree program cannot enroll

FINANC 2000: Survey of Business Finance
An overview of the global financial system, financial markets, financial institutions, and principles of financial management.
Credit Hours: 3
Prerequisites: Students admitted to COB upper level degree program cannot enroll

FINANC 3000: Corporate Finance
Financial decision-making in a corporate environment. Time value of money, capital budgeting, cost of capital, working capital management and financial instruments issued by the firm.
Credit Hours: 3
Prerequisites: Completed 45 semester hours; Stat 2500 (or Stat 2200 and Stat 1200 or Stat 1300 or Stat 1400); Acctcy 2027 or Acctcy 2037 or Acctcy 2137H; Econom 1014 or Econom 1024; Econom 1015 or Econom 1051 or 1051H
FINANC 3300: Personal Risk Management and Insurance
Teaches the importance of risk in personal endeavors and the intelligent handling of such risk. Life, health, auto, homeowner and liability risks are treated.

Credit Hours: 3
Prerequisites: sophomore standing

FINANC 4010: Financial Management
Theory and techniques of financial management, study of firm valuation, dividend policy, capital budgeting and capital asset pricing.

Credit Hours: 3
Prerequisites: FINANC 3000

FINANC 4020: Investments
Security valuation and analysis, formulation of personal and professional investment programs.

Credit Hours: 3
Prerequisites: FINANC 3000

FINANC 4020H: Investments - Honors
Security valuation and analysis, formulation of personal and professional investment programs.

Credit Hours: 3
Prerequisites: FINANC 3000. Honors eligibility required

FINANC 4030: Financial Intermediaries and Markets
Functions of intermediaries in the aggregation and allocation of funds, creation and transfer of assets, and distribution of risks. Regulation of financial institutions; financial institutions as instruments of public policy.

Credit Hours: 3
Prerequisites: FINANC 3000 and ECONOM 3229

FINANC 4110: Financial Management Policy
Application of the concepts and tools of finance to cases in working capital management, capital budgeting analysis and capital structure decisions.

Credit Hours: 3
Prerequisites: FINANC 4010

FINANC 4120: Security Analysis
Classifies and analyzes securities, markets, industries. Formulation of investment policy for institutions, aggressive personal investors.

Credit Hours: 3
Prerequisites: FINANC 4020

FINANC 4130: Management of Financial Institutions
Operating principles of major financial intermediaries, including commercial banking, savings, insuring, lending and investing institutions. Analysis of cases; study of current problems. Some sections of the course may be graded on A-F or S/U graded basis only.

Credit Hours: 3
Prerequisites: FINANC 4030

FINANC 4185: Problems in Finance
Independent study, reports on selected topics. Some sections of this course may be offered A-F only or S/U only.

Credit Hour: 1-99

FINANC 4201: Topics in Finance
Selected topics in finance, insurance or real estate. Offered on an experimental basis. Some sections of this course may be offered A-F only or S/U only.

Credit Hours: 3

FINANC 4220: Portfolio Management
Development and application of the principles of modern portfolio theory to financial assets. Analysis of the concepts of diversification, portfolio construction, portfolio revision, and use of types of financial assets in effective portfolio management.

Credit Hours: 3
Prerequisites: FINANC 4020

FINANC 4310: Financial Modeling and Databases
Financial modeling and using online databases to retrieve data, data analysis, spreadsheet design, excel VBA programming, interpreting results. Graded on A-F basis only.

Credit Hours: 3

FINANC 4320: Financial Futures and Options
A basic overview of financial futures and options markets. Topics include: theoretical pricing of financial futures contracts and stock options, institutional aspects of these markets, hedging, and speculative strategies.

Credit Hours: 3
Prerequisites: FINANC 4020

FINANC 4450: Financial Ethics and Professional Standards
The course comprises an intensive study of the CFA Institute Code of Ethics and Standards of Professional Conduct and Global Investment Performance Standards. It also includes a review of corporate governance issues.

Credit Hours: 3
Recommended: FINANC 4010 or departmental consent

FINANC 4500: Principles of Real Estate
Principle factors influencing land use, practices in real estate business.

Credit Hours: 3
Recommended: FINANC 3000

FINANC 4510: Real Estate Appraisal
Procedures for valuing industrial, commercial, residential realty by market, income, replacement cost approaches. Case method, field investigations.

Credit Hours: 3
Prerequisites: FINANC 4500
FINANC 4520: Real Estate Finance and Investment
Financing of residential, commercial, and industrial real estate and real estate development. Instruments, institutions, and markets; role of government agencies; investment qualities of real estate.
Credit Hours: 3
Prerequisites: FINANC 4500

FINANC 4530: Real Estate Portfolio Analysis and REITs
Management of real estate portfolios and analysis of real estate investment trusts including financial statement analysis, cash flows, and valuation techniques.
Credit Hours: 3
Prerequisites: FINANC 3000

FINANC 4620: Investment Strategy of Warren Buffett
Survey and application of the investment philosophy and valuation methods of Warren Buffett. Prerequisites: FINANC 3000;
Credit Hours: 3
Corequisites: FINANC 4020

FINANC 4630: Introduction to Risk Management and Insurance
Basic principles of risk management and insurance focusing on operational risks faced by organizations. Covers terminology, sources, dimensions, characteristics, measurement, and assessment of risk along with design and implementation of techniques to mitigate and control risk.
Credit Hours: 3
Prerequisites or Corequisites: FINANC 2000 or FINANC 3000

FINANC 4632: Principles of Commercial Property and Liability Insurance
The objective of this course is to examine the principles and key elements of commercial property and liability insurance. The primary emphasis will be on the property and liability loss exposures faced by organizations and the corresponding types of insurance for covering those loss exposures. This course qualifies students who make a “B” or better to receive credit for CPCU 552 Commercial Liability Risk Management and Insurance.
Credit Hours: 3
Prerequisites: FINANC 2000 or FINANC 3000 or FINANC 4630, or permission of the instructor

FINANC 4640: Enterprise Risk Management
This course addresses the principles, concepts, key elements and applications of Enterprise Risk Management (ERM) to businesses and other organizations. The principal objective of this course is to prepare students to understand the principles of ERM and to be able to integrate sound risk management principles into their work.
Credit Hours: 3
Prerequisites: FINANC 4630, or permission of instructor

FINANC 4710: Topics in International Finance
Available during study abroad session. Emphasis is on international corporate governance, foreign exchange risk management, international capital markets, balance of payments, international monetary system, and exchange rate determination. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: FINANC 3000

FINANC 4720: International Finance
Application of domestic corporate finance to the international arena. Emphasis on international capital budgeting, working capital management, foreign exchange risk management, international capital markets, balance of payments, international monetary system, and exchange rate determination.
Credit Hours: 3

FINANC 4820: Investment Fund Management
Analysis and management of securities and markets by participation in the management of a student-run portfolio of publicly traded stocks and bonds. May be repeated once for credit for a total of six credits.
Credit Hours: 3
Prerequisites: FINANC 3000, FINANC 4120 or FINANC 4620, instructor's consent required each enrollment

FINANC 4830: Chartered Financial Analyst Exam Review Course
(cross-leveled with FINANC 7830). A review of the content and format of the chartered financial analyst (CFA) examination. Students need to be registered for the CFA exam to enroll in the class.
Credit Hours: 3
Prerequisites: Instructor's consent

FINANC 4840: Angel Capital Education Program
(cross-leveled with FINANC 7840). In depth understanding of investing in start up enterprises, including structuring investment deals, doing due diligence, and monitoring of prior investments. Graded on A-F basis only.
Credit Hours: 1-3
Prerequisites: Instructor's consent

FINANC 4940: Professional Finance Internship
Provides students experience with financial activities in business organizations (or, occasionally, in a governmental or not-for-profit setting). Students are required to prepare and execute a plan of study approved by the instructor and the complete written assignments detailed in the plan.
Credit Hours: 3
Prerequisites: FINANC 3000, College of Business students with a finance concentration or international business students with a finance emphasis, and instructor's consent

FINANC 7010: Financial Management
Theory and techniques of financial management, study of firm valuation, dividend policy, capital budgeting and capital asset pricing.
Credit Hours: 3
Prerequisites: FINANC 3000

FINANC 7020: Investments
Security valuation and analysis, formulation of personal and professional investment programs.
Credit Hours: 3
Prerequisites: FINANC 3000
FINANC 7201: Special Topics in Finance
Selected topics in Finance, insurance, or real estate. Offered on an experimental basis.
Credit Hour: 1-3
Prerequisites: instructor's consent

FINANC 7210: Microeconomics for Business
Examination of how the behavior or consumers and the business decisions of firms affect supply, demand, and the resulting prices of goods and services in the market.
Credit Hour: 1-3

FINANC 7220: Economics for Managers
Applies the concepts and tools of economics to management issues and problems.
Credit Hour: 1.5-3
Prerequisites: FINANC 7210 or equivalent

FINANC 7410: Managerial Finance I
Introduction to financial management including the time value of money capital budgeting techniques, risk measurement, and the valuation of financial securities.
Credit Hour: 1-3
Prerequisites: ACCTCY 7310

FINANC 7420: Managerial Finance II
Continuation of the study of financial management with focus on the risk-return tradeoff, capital structure, corporate layout polices, long-term financing, elementary options pricing, and mergers and acquisitions.
Credit Hour: 1-3
Prerequisites: FINANC 7410

FINANC 7440: Managerial Finance
Analyzes financial information relative to acquisition, management of assets; costs of alternative financial contracts; effect of mix of outstanding securities on entity's cost of capital; interaction between funding/investment decisions.
Credit Hours: 3
Prerequisites: ACCTCY 7310 or departmental consent

FINANC 7620: Investment Strategy of Warren Buffett
Survey and application of the investment philosophy and valuation methods of Warren Buffett.
Credit Hour: 1-3
Prerequisites: FINANC 3000 or FINANC 7440

FINANC 7820: Investment Fund Management
(cross-leveled with FINANC 4820). Analysis and management of securities and markets by participation in the management of a student-run portfolio of publicly traded stocks and bonds. May be repeated 1 time for credit.
Credit Hour: 1-3
Prerequisites: FINANC 3000 or FINANC 7440; instructor's consent

FINANC 7830: Chartered Financial Analyst Exam Review Course
(cross-leveled with FINANC 4830). A review of the content and format of the chartered financial analyst (CFA) examination. Students need to be registered for the CFA exam to enroll in the class.
Credit Hour: 1-3
Prerequisites: Instructor's consent

FINANC 7840: Angel Capital Education Program
(cross-leveled with FINANC 4840). In depth understanding of investing in start up enterprises, including structuring investment deals, doing due diligence, and monitoring of prior investments. Graded on A-F basis only.
Credit Hour: 1-3
Prerequisites: Instructor's consent

FINANC 8010: Multicultural and Global Finance Study Abroad
International topical issues in finance including cultural difference, corporate governance, differential approaches to regulation across countries, and cross-risk. Includes a study abroad component with on-site visits to businesses and other organizations. May be repeated as venues change.
Credit Hour: 1-3
Prerequisites: Consent required

FINANC 8012: International Financial Markets
International capital, foreign exchange, money markets, and financial institutions including exchange rates, instruments and securities, and multinational risk exposure. May include a study-abroad component with on-site visits to businesses and other organizations. May be repeated as venues change. Graded on A-F basis only.
Credit Hour: 1-3
Prerequisites: Consent required

FINANC 8070: Security Markets and Investments
Valuation of securities including stocks, bonds, options and futures; risk-return analysis of financial assets.
Credit Hour: 1-3
Prerequisites: FINANC 7440 or equivalent

FINANC 8085: Problems in Finance
For independent investigation and analysis, graduate students select topics suggested by the foregoing undergraduate courses.
Credit Hour: 1-3

FINANC 8090: Master's Thesis Research
Advanced research leading to thesis. Graded on S/U basis only.
Credit Hour: 1-6
Prerequisites: Consent required
FINANC 8310: Financial Databases and Analysis
Financial modeling and using online databases to retrieve data, data analysis, spreadsheet design, Excel VBA programming, interpreting results. Graded on A-F basis only.

Credit Hour: 1-3

FINANC 8312: Financial Modeling
Financial modeling using Excel spreadsheet design and VBA programming. Includes alternative computational methods, simulation and the use of information retrieved from financial databases. Graded on A-F basis only.

Credit Hour: 1-3
Prerequisites: FINANC 8310

FINANC 8320: Financial Markets
Operation and structure of money markets and capital markets, including markets for stocks, bonds and derivatives securities. Study of the securities that trade in those markets including characteristics, valuation and diversification.

Credit Hour: 1-3
Prerequisites: BUS_AD 7440

FINANC 8330: Investment Policy and Portfolio Management
Study of investment policies and the effects of risk and diversification on investment management including measurement of risk, identification of investment policy, and construction and maintenance of investment portfolios. Prerequisites: FINANC 8320

Credit Hour: 1-3

FINANC 8340: Derivative Financial Securities
Comprehensive overview of derivative securities including financial futures and options, swaps, and financial engineering. Major topics: institutional aspects of these markets, advanced pricing models, pricing relationships among derivative securities, and risk shifting.

Credit Hour: 1-3
Prerequisites: FINANC 8070

FINANC 8350: Financial Statement Analysis I
An introduction to financial statement analysis with emphasis on interpretation and understanding of the balance sheet income statement, and statement of cash flows.

Credit Hour: 1-3
Prerequisites: ACCTCY 7310

FINANC 8352: Financial Statement Analysis II
Analysis of company financial statements and related accounting information with emphasis on investors' decisions to invest in the company.

Credit Hour: 1.5-3
Prerequisites: FINANC 8350

FINANC 8360: Equity Securities Analysis
Theory and application of models and methods for valuing common stocks.

Credit Hour: 1-3
Prerequisites: FINANC 7420

FINANC 8370: Fixed-Income Securities Analysis
Markets for fixed-income securities and theory and application of models for valuing bonds and other fixed-income securities. Prerequisites: FINANC 7420

Credit Hour: 1-3

FINANC 8380: Investment Banking
Topics in investment banking including types of offerings and securities, analysis of comparable companies and transactions, valuation methods, and hedge funds and private equity. Graded on A-F basis only.

Credit Hour: 1-3
Prerequisites: FINANC 7420

FINANC 8400: Investment Banking
Topics in investment banking including types of offerings and securities, analysis of comparable companies and transactions, valuation methods, and hedge funds and private equity. Graded on A-F basis only.

Credit Hour: 1-3
Prerequisites: FINANC 8380

FINANC 8410: Advanced Financial Management
Examination of the modern theory of finance. Capital budgeting capital structure, dividend theory and valuation.

Credit Hour: 1-3
Prerequisites: FINANC 7440

FINANC 8420: Working Capital Management
Financial planning and short-term financial management: integration of quantitative techniques, microeconomics, and financial decisions; analysis of decisions about profit planning, financial forecasting, accounts receivable, cash management, and financial short-term assets.

Credit Hour: 1-3
Prerequisites: FINANC 8410

FINANC 8430: Capital Budgeting
An investigation of long-term financial decisions. Topics include capital budgeting, leasing, long-term financing. Extensive use of cases.

Credit Hour: 1-3
Prerequisites: FINANC 8410

FINANC 8440: Financing Multinational Business
Study of foreign exchange markets, currency derivatives, global capital budgeting, and international financial decision strategy. Some sections of this course may be offered on an A-F or S/U basis only.

Credit Hour: 1-3
Prerequisites: FINANC 7420

FINANC 8450: Ethics and Standards of Financial Practice
Study of financial ethics with particular focus on standards of practice for investment performance standards. Recommended for students planning to take the CFA exam. Prerequisites: FINANC 7420

Credit Hour: 1-3

FINANC 9100: Seminar in Corporate Finance
Advanced theory, investigation of current research in financial management.
Credit Hours: 3

FINANC 9101: Topics Seminar in Finance
Reading and critical evaluation of selected current finance literature and research. Departmental consent. May be repeated. Graded on S/U basis only. students only
Credit Hour: 1-3
Prerequisites: Ph.D

FINANC 9200: Research in Corporate Finance
Advanced topics in corporate finance.
Credit Hours: 3
Prerequisites: Finance [FINANC] 9100

FINANC 9300: Financial Economics
Utility analysis, efficient frontier mathematics, asset pricing and related topics.
Credit Hours: 3
Prerequisites: instructor's consent

FINANC 9400: Seminar in Investment Analysis
Develops integrated theory and analytic techniques for evaluating investment potential of financial instruments. Emphasizes corporate securities. Selected cases and readings.
Credit Hours: 3
Prerequisites: Finance [FINANC] 9100

Fisheries And Wildlife Courses
F_W 1002: Topics in Fisheries and Wildlife
Organized study of selected topics intended primarily for lower-level students in Fisheries and Wildlife Sciences.
Credit Hour: 1-99

F_W 1012: Introduction to Captive Wild Animal Management
(same as AN_SCI 1012). General introduction to housing, husbandry, behavior, genetics, nutrition, reproduction, animal health, and disease control of native and exotic species in zoological parks and other animal conservation facilities; emphasizes the role of captive animals in wildlife conservation. Graded on A-F basis only.
Credit Hours: 3

F_W 1100: Introductory Zoology with Laboratory
(same as BIO_SC 1100). Introduces important principles and concepts of zoology. Emphasizes cell biology; evolution; genetics; ecology; structure, function, development of the organism.
Credit Hours: 5

F_W 2002: Topics in Fisheries and Wildlife-Biological/Physical/Mathematics
Organized study of selected topics. Intended for lower division Fisheries and Wildlife students. Subjects may vary from semester to semester.
Credit Hour: 1-99

F_W 2500: Introduction to Genetics and Evolution for Conservation
Basic principles and processes of genetics and evolution and their importance for management and conservation. Graded on A-F basis only.
Credit Hours: 3
Recommended: NAT_R 1070, BIO_SC 1500, CHEM 1310, and MATH 1100

F_W 2600: Ornithology
(same as BIO_SC 2600). Structure, identification, habits, importance of regional birds. Field work, lectures, lab.
Credit Hours: 4
Recommended: 5 hours Biological Sciences

F_W 2700: Ichthyology
(same as BIO_SC 2700). A broad introduction to the biology and ecology of fishes. Emphasis will be placed on understanding the adaptations fishes exhibit to aspects of their environment.
Credit Hours: 4
Recommended: 8 hours Biological Sciences

F_W 2800: Principles of Wildlife Management
Expose students to the principles of wildlife management with emphasis on current issues faced by wildlife researchers and managers in the field. Graded on A-F basis only.
Credit Hours: 4
Recommended: NAT_R 1070 and one other course in biological or environmental science; sophomore standing or higher

F_W 3002: Topics in Fisheries and Wildlife-Biological/Physical/Mathematics
Organized study of selected topics. Intended for upper division students. Subjects and credit may vary from semester to semester.
Credit Hour: 1-99

F_W 3085: Problems in Fisheries and Wildlife
Individual problems studies to supplement regularly organized undergraduate courses in Fisheries and Wildlife. Proposal for problems study must be arranged by student and supervising faculty member prior to registration.
Credit Hour: 1-99
Prerequisites: consent of supervising faculty member

F_W 3090: International Studies in Conservation
International study abroad that enhances and expands conservation knowledge and experience. May be repeated for credit.
Credit Hour: 1-5
Prerequisites: 12 hours biological science and/or conservation-related coursework. Restricted to Fisheries and Wildlife majors only
Recommended: 12 hours biological science and/or conservation-related coursework. Must complete a Study Abroad Proposal prior to attending the course
F_W 3200: Aquaculture
This course aims to develop an understanding of key aspects of the practice of fish culture, an awareness of aquatic species being cultured worldwide, and an appreciation of why aquaculture is expanding so rapidly on a global basis and the emerging environmental concerns associated with aquaculture growth. Graded on A-F basis only.

Credit Hours: 3

F_W 3300: Wildlife Damage Management
To explore wildlife damage conflicts involving human health and safety, agricultural resources, economics and natural resources. The course studies damage caused by wildlife species and methods to alleviate damage. Covers wildlife diseases, human dimensions and wildlife policies. Graded on A-F basis only.

Credit Hours: 3

F_W 3350: Wildlife Damage Management Lab
To explore wildlife damage management techniques in a field setting. To gain knowledge in assessing wildlife damage and the responsible species and determine the best approach to reduce that damage. Graded on A-F basis only. Prerequisites or

Credit Hour: 1
Corequisites: F_W 3300

F_W 3400: Water Quality and Natural Resource Management
Introduction to broad aspects of water quality science, management and policy. Topics include aquatic ecology, eutrophication, lake and coastal management, water supply and treatment, watershed management with respect to agriculture and urban development, and toxicology.

Credit Hours: 3
Recommended: CHEM 1000 or CHEM 1320 and ENV SC 1100 or NAT_R 1070

F_W 3500: Wildlife Conservation in British Cities
Five week study abroad course focusing on approaches to wildlife conservation in London, Birmingham, Manchester, Liverpool and Edinburgh. Students will learn how managers blend ecology, conservation, and participatory approaches to management to conserve species in a human dominated landscape. Hands on involvement with conservation projects included.

Credit Hour: 3-6
Recommended: NAT_R 1060 or NAT_R 1070, and Management course in SNR

F_W 3600: Introduction to Conservation Biology
Introduction to principles of conservation biology. Application of ecological concepts and conservation biology principles to management of endangered species, biodiversity and threatened ecosystems.

Credit Hours: 3
Prerequisites: BIO_SC 3650

F_W 3660: Mammalogy
(same as BIO_SC 3660). Taxonomy, distribution, structure, habits, importance of mammals; emphasizes those of central United States.

Credit Hours: 4

F_W 3700: Animal Behavior
Behavior allows animals to react promptly to environmental changes, and is how they interact with others and their surroundings. Because behaving is central to an animal's life, knowing about behavior is fundamental to understanding animal ecology and to conservation efforts. Graded on A-F basis only.

Credit Hours: 3
Recommended: F_W 1100

F_W 3900: Ecology of Fishes
This course considers fishes' interactions with their environments in relation to survival, growth and population processes. The course is for mid- to upper-level undergraduates interested in fisheries science, management and fish conservation. May be repeated once for credit. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: STAT 2530 or STAT 1400; BIO_SC 1500 or F_W 1100; sophomore standing

F_W 4002: Topics in Fisheries and Wildlife-Biological/Physical/Mathematics
Organized study of selected topics intended primarily for senior-level students in Fisheries and Wildlife Sciences.

Credit Hour: 1-99

F_W 4100: Limnology
(same as BIO_SC 4100). (lecture/lab: 4 hrs.; lecture only: 3 hrs.). Ecology of inland waters with emphasis on productivity.

Credit Hour: 3-4
Recommended: senior standing or BIO_SC 3650

F_W 4200: Urban Wildlife Conservation
Reviewing the theory and practice of applying ecological concepts to the management of wildlife species in urban areas.

Credit Hours: 3
Prerequisites: BIO_SC 3650

F_W 4200W: Urban Wildlife Conservation - Writing Intensive
Reviewing the theory and practice of applying ecological concepts to the management of wildlife species in urban areas.

Credit Hours: 3
Prerequisites: BIO_SC 3650

F_W 4220: Human Dimensions of Fish and Wildlife Conservation
Overview of human dimensions approaches and methods as they are applied to issues in fish and wildlife conservation.

Credit Hours: 3
Recommended: One 3000-level or above professional Fisheries and Wildlife management or techniques course

F_W 4230: Human Dimensions of Fish and Wildlife Conservation
Overview of human dimensions approaches and methods as they are applied to issues in fish and wildlife conservation.

Credit Hours: 3
Recommended: One 3000-level or above professional Fisheries and Wildlife management or techniques course
F_W 4300: Fisheries Management
Introduction to the scientific principles and techniques of fishery management. Integrates ecological principles with social, economic and legal considerations.

Credit Hours: 3
Recommended: BIO_SC 3650 and STAT 2530

F_W 4400: Techniques for Fisheries Management and Conservation
Introduction to techniques (field and analytical/quantitative) used by fisheries and conservation biologists. Fosters understanding of techniques uses, advantages, limitations biases, and data interpretation. Extended weekly field outings require chest waders and life jackets. Graded on A-F basis only.

Credit Hours: 4
Recommended: BIO_SC 3650 and STAT 2530 or NAT_R 3110 and F_W 2700 or F_W 4300

F_W 4400W: Techniques for Fisheries Management and Conservation - Writing Intensive
Introduction to techniques (field and analytical/quantitative) used by fisheries and conservation biologists. Fosters understanding of techniques uses, advantages, limitations biases, and data interpretation. Extended weekly field outings require chest waders and life jackets. Graded on A-F basis only.

Credit Hours: 4
Recommended: BIO_SC 3650 and STAT 2530 or NAT_R 3110 and F_W 2700 or F_W 4300

F_W 4500: Animal Population Dynamics and Management
Quantitative modeling approach to examining principles and analysis techniques of fish and wildlife population dynamics. Emphasis on approaches useful in the management of exploited species.

Credit Hours: 3
Prerequisites: MATH 1400, STAT and BIO_SC 3650

F_W 4600: Ecosystem Management
Explores the development and implementation of large-scale approaches to restoring and maintaining ecosystems for sustainability. Incorporates ecological, socio-economic, and institutional factors that influence natural management agencies. Graded on A-F basis only.

Credit Hours: 4
Prerequisites: BIO_SC 3650

F_W 4600W: Ecosystem Management - Writing Intensive
Explores the development and implementation of large-scale approaches to restoring and maintaining ecosystems for sustainability. Incorporates ecological, socio-economic, and institutional factors that influence natural management agencies. Graded on A-F basis only.

Credit Hours: 4
Prerequisites: BIO_SC 3650

F_W 4650: Wildlife Management Planning
Students will be exposed to various wildlife planning tools. Student teams will develop wildlife management plans with strategic and operational components for current conservation issues in Missouri. Plans will be critiqued by peers and outside professionals. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: BIO_SC 3650 and senior standing
Recommended: F_W 2900

F_W 4700: Wildlife Research and Management Evaluation Methods
Techniques for conducting wildlife research and evaluating wildlife management practices.

Credit Hours: 4
Recommended: BIO_SC 3650 or F_W 2900 or STAT

F_W 4700W: Wildlife Research and Management Evaluation Methods - Writing Intensive
Techniques for conducting wildlife research and evaluating wildlife management practices.

Credit Hours: 4
Recommended: BIO_SC 3650 or F_W 2900 or STAT

F_W 4800: Environmental Toxicology
Introduction to classes of chemicals, tools, methods, and approaches used in environmental toxicology. Emphasizes fundamentals of toxicology, dose-response relationships, evaluation of contaminant issues, strategies, and exposure analysis/toxicity assessment strategies in a risk assessment.

Credit Hours: 3
Prerequisites: CHEM 1320 and F_W 3400

F_W 4810: Wildlife Disease Ecology
An introduction to the ecology of wildlife diseases. Topics include the definition of a disease, how to measure diseases, impacts on individuals and populations, and the role of disease in wildlife management and conservation.

Credit Hours: 3
Prerequisites: BIO_SC 3650

F_W 4880: Waterfowl Ecology and Management
Ecology and management of North American waterfowl and their habitats. Laboratory exercises focus on identification, life histories, sex and age determination, and survey methods. Lectures cover taxonomy, ecology, behavior, population dynamics, harvest management, and habitat management and conservation. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: BIO_SC 3650

F_W 4910: Senior Seminar in Captive Wild Animal Management (same as AN_SCI 4910)
Investigates key issues in captive wild animal management, focusing on the role of animal caretakers in addressing the issues. Students are required to formulate informed opinions regarding these topics and communicate effectively about the subject matter. Graded on A-F basis only.

Credit Hours: 1
Prerequisites: AN_SCI 1012 or F_W 1012; junior or senior standing
F_W 4940: Fisheries and Wildlife Internship
Supervised professional experience with an approval public or private organization. May be repeated for credit. Graded on S/U basis only.
Credit Hour: 1-12
Prerequisites: Fisheries and Wildlife majors only

F_W 4950: Undergraduate Research in Fisheries and Wildlife
Individually directed field or laboratory research for students under faculty supervision. Project must be arranged by student and faculty member prior to registration.
Credit Hour: 1-99
Prerequisites: consent of supervising faculty member

F_W 4960: Special Readings in Fisheries and Wildlife
Critical review of current literature and research in fisheries and wildlife sciences. Project must be arranged by student and faculty supervisor prior to registration.
Credit Hour: 1-99
Prerequisites: supervising faculty member's consent required

F_W 7002: Graduate Topics in Fisheries and Wildlife
Organized study of selected topics intended primarily for graduate students in Fisheries and Wildlife Sciences. Graded on A-F basis only.
Credit Hour: 1-99

F_W 7100: Limnology
(same as BIO_SC 7100). (lecture/lab: 4 hrs.; lecture only: 3 hrs.) Ecology of inland waters with emphasis on productivity.
Credit Hour: 3-4
Prerequisites: BIO_SC 3650

F_W 7200: Urban Wildlife Conservation
Reviewing the theory and practice of applying ecological concepts to the management of wildlife species in urban areas.
Credit Hours: 3
Corequisites: BIO SC 3650 or instructor’s consent

F_W 7202: Human Dimensions of Fish and Wildlife Conservation
Overview of human dimensions approaches and methods as they are applied to issues in fish and wildlife conservation.
Credit Hours: 3
Prerequisites: One 3000-level or above professional management or techniques course or instructor consent

F_W 7300: Fisheries Management
Introduction to the scientific principles and techniques of fishery management. Integrates ecological principles with social, economic, and legal considerations.
Credit Hours: 3
Prerequisites: BIO_SC 3650 and STAT 2530

F_W 7400: Techniques for Fisheries Management and Conservation
Introduction to techniques (field and analytical/quantitative) used by fisheries and conservation biologists. Fosters understanding of techniques uses, advantages, limitations biases, and data interpretation. Extended weekly field outings require chest waders and life jackets.
Credit Hours: 3
Prerequisites: BIO_SC 3650 and STAT 2530 or NAT_R 3110 and F_W 2700 or F_W 4300

F_W 7500: Animal Population Dynamics and Management
Quantitative modeling approach to examining principles and analysis techniques of fish and wildlife population dynamics. Emphasis on approaches useful in the management of exploited species. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: MATH 1400, BIO_SC 3650, Statistics

F_W 7600: Ecosystem Management
Explores the development and implementation of large-scale approaches to restoring and maintaining ecosystems for sustainability. Incorporates ecological, social-economic, and institutional factors that influence natural resource management agencies. Graded on A-F basis only.
Credit Hours: 4

F_W 7700: Wildlife Research and Management Techniques
Research and Management methods for wildlife populations and habitats.
Credit Hours: 4
Prerequisites: BIO_SC 3650 and STAT 2530 or NAT_R 3110. One-week pre-semester field session required

F_W 7800: Environmental Toxicology
Introduction to classes of chemicals, tools, methods, and approaches used in environmental toxicology. Emphasizes fundamentals of toxicology, dose-response relationships, evaluation of contaminant issues, strategies, and exposure analysis/toxicity assessment strategies in a risk assessment.
Credit Hours: 3
Prerequisites: CHEM 1320 and F_W 3400 or instructor’s consent

F_W 7810: Wildlife Disease Ecology
An introduction to the ecology of wildlife diseases. Topics include the definition of a disease, how to measure diseases, impacts on individuals and populations, and the role of disease in wildlife management and conservation.
Credit Hours: 3
Prerequisites: instructor’s consent

F_W 7880: Waterfowl Ecology and Management
Credit Hours: 3
Prerequisites: F_W 2600; BIO_SC 3650; instructor's consent
F_W 8001: Topics in Fisheries and Wildlife
Organized study of selected topics. Subjects and credit may vary from semester to semester.
Credit Hour: 1-99
Prerequisites: instructor's consent

F_W 8050: Non-Thesis Research in Fisheries and Wildlife
Independent research not leading to a thesis.
Credit Hour: 1-99

F_W 8085: Graduate Problems in Fisheries and Wildlife
Individualized problems studies to supplement regularly organized graduate courses in Fisheries and Wildlife.
Credit Hour: 1-5
Prerequisites: consent of supervising faculty member

F_W 8087: Masters Seminar in Fisheries and Wildlife
Discussions of current developments in forestry, fisheries and wildlife, and critical study of research programs.
Credit Hour: 1

F_W 8090: Masters Thesis Research in Fisheries and Wildlife
Research leading to a thesis or dissertation. Graded on a S/U basis only.
Credit Hour: 1-99

F_W 8300: Professional Development and Communications
Intended to foster professional growth and development of graduate students. The course will present a rigorous introduction to professionalism, ethics, career development, and professional communications skills and techniques. Graded on A-F basis only.
Credit Hour: 1-3

F_W 8440: Fish Ecology
Advanced study of the interactions between fish and their environment. Topics include behavioral, physiological, population and community ecology of fishes, with emphasis on development and application of ecological theory in fishery management.
Credit Hours: 3
Prerequisites: F_W 2700, F_W 4100, BIO_SC 3650 or equivalent

F_W 8450: Advanced Limnology
Physical, chemical and biological processes of lakes and streams emphasizing biological production, water quality and modern problems. Field, laboratory techniques in limnology research.
Credit Hours: 3
Prerequisites: F_W 4100, BIO_SC 3650, BIO_SC 3510 or equivalent

F_W 8460: Wetland Ecology
A survey of the wetlands of North America; emphasis on nutrient dynamics, habitat structure, management, legislation and regulations, and man's impacts.
Credit Hours: 3
Prerequisites: F_W 4100, BIO_SC 3650 and instructor's consent

F_W 8470: Fish Bioenergetics: Concepts and Applications
Key concepts of fish bioenergetics are treated by readings, discussions of articles and lectures by the instructor. Concepts are applied through modeling. Novel applications, shortcomings and benefits of bioenergetics models are treated. The course applies to graduate students seeking careers in fisheries management, aquatic ecology, fish conservation and aquaculture. Graded on A-F basis only.
Credit Hours: 2
Prerequisites: instructor's consent

F_W 8510: Ecology, Conservation, and Environmental Justice
The goal of this course is to introduce graduate students in natural resource management and conservation biology to the ecological and management concepts that underlie environmental justice issues, and to explain how broader environmental justice concepts are relevant to natural resource and conservation fields. Graded on A-F basis only. Prerequisites: one undergraduate course from the following list of disciplines: ecology, natural resource management, conservation biology, sociology or equivalent.
Credit Hours: 2

F_W 8520: Stream Ecology
Ecological principles applied to flowing waters. Emphasis on ecological processes within algal, invertebrate and fish communities. The influence of geomorphic processes, hydrologic principles and physical-chemical factors on the biota.
Credit Hours: 3

F_W 8530: Quantitative Fish and Wildlife Assessment
Methods to assess space use patterns, animal abundance and population status are drawn into quantitative framework for making inferences to wild populations. Practical application and limitations of techniques are emphasized through analysis and interpretation of field data.
Credit Hours: 4
Prerequisites: NAT_R 3110 or equivalent

F_W 8540: Wildlife Nutritional Ecology
A comprehensive and comparative treatment of vertebrates interact with their environment to satisfy nutrient and energy requirements. Emphasis on nutrient requirements, food processing, bioenergetics and foraging strategies.
Credit Hours: 3
Prerequisites: BIO_SC 3650 or instructor's consent

F_W 8550: Advanced Waterfowl Ecology
Advance studies of waterfowl ecology. Emphasis on mating systems, foraging ecology, energetics, and post-breeding and wintering ecology.
Credit Hours: 3
Prerequisites: F_W 2600, F_W 3800 and BIO_SC 3650 or instructor's consent
### Food Science Courses

**F_S 1010: Introduction to Viticulture and Enology**  
This course will give a general overview of growing grapes (viticulture) and winemaking (enology) with an emphasis on Missouri wines and wineries. This course is the first course in a sequence of courses in the viticulture and enology track of the food science degree program.  
**Credit Hours:** 1

**F_S 1030: Food Science and Nutrition**  
Basic principles of science and technology as applied to the problem of providing safe, nutritious, and desirable food for man.  
**Credit Hours:** 3

**F_S 2114: Live Animal and Meat Evaluation**  
(same as AN_SCI 2114). The composition and quality meat produced from food animals is the driving component of livestock economic value. This course will teach the principles and procedures involved in evaluation, grading, selection, and economic value of meat animals and poultry and the carcasses they produce. This course is an excellent introduction and (or) prerequisite for all livestock production courses and will provide a baseline of information for students interested in livestock or meat judging.  
**Credit Hours:** 3

**F_S 2131: Dairy Products Evaluation**  
(same as AN_SCI 2131). Sensory Evaluation and judging of dairy products.  
**Credit Hours:** 2

**F_S 2172: Elements of Food Microbiology**  
Introductory microbiology course stressing basic principles as related to foods.  
**Credit Hours:** 3

**F_S 2195: Grapes and Wines of the World**  
(same as PLNT_S 2195). Explores the world of wine through study of viticultural principles and practices, wine styles, classifying wine, the winemaking process and New World and Old World wine regions. Learn wine tasting skills and experience wines from around the world. World wine consumption, social and physical health benefits of moderate wine consumption.  
**Credit Hours:** 3

**F_S 2199: Seminar in Professional Development**  
Readings and discussion related to professional development for the industry.  
**Credit Hours:** 1

**F_S 3190: Study Abroad: International Meat, Dairy and Enology**  
(same as AN_SCI 3190). This study abroad course introduces students to the meat, dairy and wine industries in Germany or in New Zealand (destinations are on a rotational basis). Students will visit small, medium and large-scale producers and learn about differences in comparison to the US industries. May be repeated once for credit. Prerequisites: instructor's consent  
**Credit Hours:** 3

**F_S 3190H: Study Abroad: International Meat, Dairy and Enology - Honors**  
(same as AN_SCI 3190). This study abroad course introduces students to the meat, dairy and wine industries in Germany or in New Zealand (destinations are on a rotational basis). Students will visit small, medium and large-scale producers and learn about differences in comparison to the US industries. May be repeated once for credit. Enrollment is limited to Honors eligible students. Prerequisites: instructor's consent  
**Credit Hours:** 3

**F_S 3210: Kitchen Chemistry**  
This course is targeted at current Food Science, Hospitality Management, Nutrition or Biochemistry students who wish to study the application of scientific principles to the practice of cooking. This on-line summer class assumes students have access to a working kitchen. Video cooking projects are submitted weekly. Graded on A-F basis only.  
**Credit Hours:** 3

**F_S 3214: Principles of Meat Science**  
(same as AN_SCI 3214). Study of the principles involved in the conversion of living animals to meat and by-products; efficient utilization of meat as a food.  
**Credit Hours:** 3

**F_S 3231: Principles of Dairy Foods Science**  
(same as AN_SCI 3231). Technology, chemistry and microbiology related to milk and its transformation into fluid milk products, fermented dairy foods and spreads. (2 hours of lecture and two hours of laboratory per week.)
F_S 3240: Principles of Viticulture I
(same as PLNT_S 3240). Grapevine growth, development, selection, propagation, training systems, pruning, and harvesting; vineyard site selection, design, and development. Graded on A-F basis only.
Prerequisites: F_S 1010 and one of the following: F_S 2195 or PLNT_S 2195 or PLNT_S 2100 or SOIL 2100 or PLNT_S 2110 or PLNT_S 2125.
Credit Hours: 3

F_S 3250: Physical Principles for Food Processing
Introduction to basic engineering concepts used to process raw materials: Energy balance, Pipe flow, Viscosity, Heat exchange, Refrigeration.
Credit Hours: 3

F_S 3385: Problems in Food Science
Supervised study in a specialized phase of food science and nutrition.
Credit Hour: 1-99

F_S 4199: Food Industry Senior Seminar
The course explores the structure and the various branches of the food industry. Emphasis is placed on industry trends and the manufacture of specific selected food products and their ingredients. Graded on A-F basis only.
Credit Hour: 1
Prerequisites: F_S 1030 or equivalent, F_S 2199 or equivalent; junior or senior standing

F_S 4301: Topics in Food Science
Instruction in specific subject matter areas in the field of food science and nutrition.
Credit Hour: 1-99

F_S 4310: Food Chemistry and Analysis
(cross-leveled with F_S 7310). Structure, composition and chemical properties of food.
Credit Hours: 4
Recommended: 5 hours Chemistry or Biochemistry

F_S 4311: Investigation of Food Properties
(cross-leveled with F_S 7311). Study of the chemical and physical properties of foods and the interaction of food components.
Credit Hours: 3
Recommended: F_S 4310 or equivalent, or instructor's consent

F_S 4315: Food Chemistry and Analysis Laboratory
(cross-leveled with F_S 7315). The quantitative determination of the constituents of food.
Credit Hours: 3

F_S 4315W: Food Chemistry and Analysis Laboratory - Writing Intensive
(cross-leveled with F_S 7315). The quantitative determination of the constituents of food.
Credit Hours: 3

F_S 4330: Principles of Food Processing
(same as AG_S_M 4330; cross-leveled with F_S 7330, AG_S_M 7330). Introduction to basic engineering concepts used to process raw materials. Principle topics include energy, material balance, fluid flow, heat transfer, refrigeration and freezing, and preservation.
Credit Hours: 3
Prerequisites: MATH 1100 and AG_S_M 1040 or PHYSCS 1210

F_S 4331: Technology of Dairy Products and Ingredients
(cross-leveled with F_S 7331). Technology, chemistry, and nutrition of dairy foods as well as functional properties of dairy ingredients.
Credit Hours: 3
Prerequisites: F_S 3231 or equivalent
Recommended: one Chemistry course

F_S 4340: Principles of Viticulture II
(same as PLNT_S 4340). Environmental and biological factors influencing vine physiology and winegrape quality. Irrigation, canopy management, pest and disease control, budgets and current trends in viticulture. Graded on A-F basis only.
Credit Hours: 4
Prerequisites: F_S 3240 or PLNT_S 3240

F_S 4344: Processing Muscle Foods
(same as AN_SCI 4344; cross-leveled with F_S 7344, AN_SCI 7344). Materials and technologies for the manufacture of muscle food products from red meats, poultry and seafood. Experience problem-solving through further processing of complex ingredients and develop skills by practicing operations in a pilot plant facility.
Credit Hours: 3
Recommended: One Chemistry course

F_S 4345: Principles of Viticulture and Winemaking
(same as PLNT_S 4345; cross-leveled with PLNT_S 7345, F_S 7345). This course will cover the basics needed by viticulturists and winemakers to understand grape vine growth and vineyard considerations along with winemaking principles. Viticultural topics will include grapevine growth and development, vineyard design and development, cultivar selection, grapevine propagation, training systems, and harvest and pruning. Winemaking topics will include sensory analysis of grapes, chemical, microbiological and technological aspects of winemaking, and the analytical methods used for juice and wine analysis. Graded on A-F basis only.
Credit Hours: 3

F_S 4354: Physiology and Biochemistry of Muscle as Food
(same as AN_SCI 4354; F_S 7354, AN_SCI 7354). Basic concepts in muscle growth and development of livestock evaluating the effects
of environment, welfare, nutrition and genetics regarding muscle metabolism, physiology, and the ultimate condition of muscle as food.

**Credit Hours:** 3  
**Prerequisites:** BIO_SC 1010 or equivalent or F_S 3214 or instructor's consent

---

**F_S 4370: Food Microbiology**  
(cross-leveled with F_S 7370). Study of bacteria, yeast and molds. Includes dominant flora, public health significance, characterization of organisms, examination of foods representative of major food groups, spoilage, preservation, food fermentations and physiological groups.

**Credit Hours:** 3  
**Prerequisites:** F_S 2172  
**Recommended:** one Biochemistry course

---

**F_S 4375: Food Microbiology Laboratory**  
(cross-leveled with F_S 7375). Examination of foods for microorganisms and characterization of major species.

**Credit Hours:** 2  
**Prerequisites or Corequisites:** F_S 4370

---

**F_S 4380: Sensory Analysis of Food and Beverages**  
(cross-leveled with F_S 7380). Methodological principles of the sensory analysis of food and beverages.

**Credit Hours:** 3  
**Prerequisites:** F_S 1030; junior or senior standing  
**Recommended:** one statistics course

---

**F_S 4385: Problems in Food Science**  
Advanced problems in a selected field of food science and nutrition.

**Credit Hour:** 1-99

---

**F_S 4390: Optimization and Management of Food and Agricultural Systems**  
(same as AG_S_M 4390, HSP_MGMT 4390; cross-leveled with F_S 7390; AG_S_M 7390, HSP_MGMT 7390). This course is designed to introduce the student to the concept of layers and interacting systems within an operation and the analytical methods of modeling and simulation to make effective management decisions for optimal system design and function.

**Credit Hours:** 3  
**Prerequisites:** MATH 1100

---

**F_S 4440: Principles of Winemaking and Wine Chemical Analysis**  
(cross-leveled with F_S 7440). The theoretical and practical basics needed by enologists/winemakers including sensory analysis of grapes; chemical, microbiological and technological aspects of winemaking; and the analytical methods used for juice and wine analysis. Graded on A-F basis only.

**Credit Hours:** 4  
**Recommended:** 5 credit hours inorganic chemistry and organic chemistry or concurrent, or instructors consent

---

**F_S 4441: Cellar Operations and Special Vinifications**  
(cross-leveled with F_S 7441). The theoretical and practical basics needed by winemakers to supervise the operations of the winemaking, wine stabilization and packaging equipment. The theoretical and practical basics needed by winemakers to make special wines including rose, dessert, carbonic maceration, and sparkling wines. Graded on A-F basis only.

**Credit Hours:** 3  
**Prerequisites:** F_S 4440  
**Recommended:** 5 credit hours inorganic chemistry and organic chemistry or instructor's consent

---

**F_S 4940: Field Training**  
**Credit Hour:** 1-99  
**Prerequisites:** instructor's consent  
**Recommended:** junior or senior standing

---

**F_S 4941: Internship in Food Science**  
Combines study, observation and employment in an area of food science and nutrition. Written reports, faculty evaluation.

**Credit Hour:** 1-6  
**Prerequisites:** instructor's consent  
**Recommended:** one Food Science course

---

**F_S 4970: Food Product Development**  
(cross-leveled with F_S 7970). Capstone course integrating the various disciplines of food science to create new food products.

**Credit Hours:** 3  
**Prerequisites:** Junior or Senior standing; or instructor's consent  
**ENGLISH 1000 required if course is taught Writing Intensive  
**Recommended:** 9 credit hours of Food Science

---

**F_S 4970W: Food Product Development - Writing Intensive**  
Capstone course integrating the various disciplines of food science to create new food products.  
**Credit Hours:** 3  
**Prerequisites:** Junior or Senior standing; or instructor's consent  
**ENGLISH 1000 required if course is taught Writing Intensive  
**Recommended:** 9 credit hours of Food Science

---

**F_S 4980: Food Quality Assurance**  
(cross-leveled with F_S 7360). Capstone course integrating various food science disciplines to comply with regulations concerned with protection of the nation's food supply. Applies practices to insure consumers of healthful foods.

**Credit Hours:** 3  
**Prerequisites:** Junior or Senior standing; or instructor's consent  
**ENGLISH 1000 required if course is taught Writing Intensive  
**Recommended:** 9 credit hours of Food Science

---

**F_S 7310: Food Chemistry and Analysis**  
(cross-leveled with F_S 4310). Structure, composition and chemical properties of food.

**Credit Hours:** 4  
**Prerequisites:** 5 hours Chemistry or Biochemistry
F_S 7311: Investigation of Food Properties  
(cross-leveled with F_S 4311). Study of the chemical and physical properties of foods and the interaction of food components. Lecture.  
Credit Hours: 3  
Prerequisites: F_S 4310 or F_S 7310 or equivalent, or instructor's consent

F_S 7315: Food Chemistry and Analysis Laboratory  
(cross-leveled with F_S 4315). The quantitative determination of the constituents of food.  
Credit Hours: 3  
Prerequisites: F_S 4310 or concurrent enrollment

F_S 7330: Principles of Food Processing  
(same as AG_S_M 7330; cross-leveled with F_S 4330, AG_S_M 4330). Basic principles of food processing, with emphasis on blanching, pasteurization, commercial sterilization, refrigeration, freezing, concentration, dehydration and packing. Impacts of processing on product quality are evaluated.  
Credit Hours: 4

F_S 7331: Technology of Dairy Products and Ingredients  
(cross-leveled with F_S 4331). Technology, chemistry, and nutrition of dairy foods as well as functional properties of dairy ingredients.  
Credit Hours: 3  
Prerequisites: one Chemistry course and F_S 3231 or equivalent

F_S 7344: Processing Muscle Foods  
(same as AN_SCI 7344; cross-leveled with F_S 4344, AN_SCI 4344). Materials and technologies for the manufacture of muscle food products from red meats, poultry and seafood. Experience problem-solving through further processing of complex ingredients and develop skills by practicing operations in a pilot plant facility.  
Credit Hours: 3  
Prerequisites: one Chemistry course

F_S 7345: Principles of Viticulture and Winemaking  
(same as PLNT_S 7345; cross-leveled with PLNT_S 4345, F_S 4345). This course will cover the basics needed by viticulturists and winemakers to understand grape vine growth and vineyard considerations along with winemaking principles. Viticultural topics will include grapevine growth and development, vineyard design and development, cultivar selection, grapevine propagation, training systems, and harvest and pruning. Winemaking topics will include sensory analysis of grapes, chemical, microbiological and technological aspects of winemaking, and the analytical methods used for juice and wine analysis. Graded on A-F basis only.  
Credit Hours: 3

F_S 7354: Physiology and Biochemistry of Muscle as Food  
(same as AN_SCI 7354; cross-leveled with F_S 4354, AN_SCI 4354). Basic concepts in muscle growth and development of livestock evaluating the effects of environment, welfare, nutrition and genetics regarding muscle metabolism, physiology, and the ultimate condition of muscle as food.  
Credit Hours: 4  
Prerequisites: 5 hours inorganic chemistry and organic chemistry or concurrent, or instructor's consent

F_S 7360: Food Quality Assurance  
(cross-leveled with F_S 4980). Capstone course integrating various food science disciplines to comply with regulations concerned with protection of the nation's food supply. Applies practices to insure consumers of healthful foods.  
Credit Hours: 3

F_S 7370: Food Microbiology  
(cross-leveled with F_S 4370). Study of bacteria, yeast and molds. Includes dominant flora, public health significance, characterization of organisms, examination of foods representative of major food groups, spoilage, preservation, food fermentations and physiological groups.  
Credit Hours: 3  
Prerequisites: F_S 2172 and one Biochemistry course or concurrent enrollment

F_S 7375: Food Microbiology Laboratory  
(cross-leveled with F_S 4375). Examination of foods for microorganisms and characterization of major species.  
Credit Hours: 2  
Prerequisites: F_S 4370 or concurrent enrollment

F_S 7380: Sensory Analysis of Food and Beverages  
(cross-leveled with F_S 4380). Methodological principles of the sensory analysis of food and beverages.  
Credit Hours: 3  
Prerequisites: F_S 1030; junior or senior standing  
Recommended: one statistics course

F_S 7390: Optimization and Management of Food and Agriculture Systems  
(same as AG_S_M 7390, HSP_MGMT 7390; cross-leveled with F_S 4390, AG_S_M 4390, HSP_MGMT 4390). This course is designed to introduce the student to the concept of layers and interacting systems within an operation and the analytical methods of modeling and simulation to make effective management decisions for optimal system design and function.  
Credit Hours: 3  
Prerequisites: instructor's consent

F_S 7440: Principles of Winemaking and Wine Chemical Analysis  
(cross-leveled with F_S 4440). The theoretical and practical basics needed by enologist/winemakers including sensory analysis of grapes; chemical, microbiological and technological aspects of winemaking; and the analytical methods used for juice and wine analysis. Graded on A-F basis only.  
Credit Hours: 4  
Prerequisites: BIO_SC 1010 or equivalent or F_S 3214 or instructor's consent
F_S 7441: Cellar Operations and Special Vinifications
(cross-leveled with F_S 4441). The theoretical and practical basics needed by winemakers to supervise the operations of the winemaking, wine stabilization and packaging equipment. The theoretical and practical basics needed by winemakers to make special wines including rose, dessert, carbonic maceration, and sparkling wines. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: 5 credit hours inorganic chemistry and organic chemistry and F_S 4440 or instructor's consent

F_S 7941: Internship in Food Science
Combines study, observation and employment in an area of food science and nutrition. Written reports, faculty evaluation.

Credit Hours: 1-6
Prerequisites: One Food Science course and instructor's consent

F_S 7970: Food Product Development
Capstone course integrating the various disciplines of food science to create new food products.

Credit Hours: 3
Prerequisites: ENGLSH 1000, and instructor's consent

F_S 8050: Non-Thesis Research in Food Science
Original investigations, usually in connection with one of the research projects of Agricultural Experiment Station. Written report required.

Credit Hours: 1-99
Prerequisites: Restricted to Food Science MS Students Only

F_S 8085: Problems in Food Science
Individual studies include a minor research problems.

Credit Hours: 1-99
Prerequisites: Restricted to Food Science MS Students only

F_S 8087: Seminar in Food Science
Provides students with opportunities for development in depth of advanced aspects of food science through reviews of research in progress and of current scientific publications. Prerequisites: Masters standing

Credit Hour: 1

F_S 8090: Research in Food Science
Original investigations, usually in connection with one of the research projects of Agricultural Experiment Station. Written report required. Graded on S/U basis only.

Credit Hours: 1-99
Prerequisites: Restricted to Food Science MS Students Only

F_S 8253: Strategic Human Resource Management in Hospitality
This course is designed to help graduate students pursuing a managerial position in the Hospitality Industry to understand the value and the competitive advantage that strategic human resource management provide.

Credit Hours: 3

F_S 8263: Service Operations Management: Revenue Management
This course offers an opportunity for students to learn the theory, concepts, and knowledge applied in service operations management. Students will find them useful in trying to cope with the dilemmas faced by operating managers in the hospitality industry. Especially, the course focuses on revenue management.

Credit Hours: 3
Prerequisites: HSP MGMT 4253 or equivalent and instructor's consent

F_S 8273: Advanced Hospitality Marketing
This course provides students with an advanced-level view of marketing strategies in the hospitality. The course encompasses analytical readings on segmentation and positioning, relationship marketing, marketing-mix development, and other strategic approaches applicable to hospitality industries.

Credit Hours: 3
Prerequisites: HSP_MGMT 3153 or instructor's consent

F_S 8401: Topics in Food Science
Specialized topics in the area of food science and nutrition.

Credit Hour: 1-99
Prerequisites: instructor's consent

F_S 8402: Research Methods in Food Science
(same as BIOL_EN 8402). Introduction to research. Defining research problems, developing hypotheses, searching scientific literature, designing experiments, presenting data, writing scientific papers and theses, making oral presentations.

Credit Hours: 2

F_S 8404: Advanced Food Microbiology and Biotechnology
Covers basic principles in biotechnology and applied food microbiology, including current topics of interest in food biotechnology. May be repeated for credit. Graded on A-F basis only.

Credit Hours: 2

F_S 8405: Advanced Microbiology of Foods
Principles of microbial physiology, taxonomy, analytical methods applied to study of microorganisms added to foods and those causing food spoilage or food-borne illness. Roles of microorganisms in manufacture/distribution of foods.

Credit Hours: 3
Prerequisites: F_S 4370 or equivalent

F_S 8410: Food Chemistry II
Study of chemical content of food, emphasizing aspects that exist uniquely in food.

Credit Hours: 4
Prerequisites: F_S 4310 or equivalent
F_S 8414: Meat Quality
(same as AN_SCI 8414). Discussion of factors affecting meat quality in beef, pork, lamb and poultry. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: F_S 3214 or equivalent

F_S 8419: Field Training in Food Science
Internships and/or field experiences under supervision.
Credit Hour: 1-99
Prerequisites: instructor's consent

F_S 8424: Meat Investigations
(same as AN_SCI 8424). Discussion of literature, special reports, assigned readings, techniques, interpretation of results.
Credit Hours: 3
Prerequisites: F_S 4344 and F_S 4310 or equivalent

F_S 8440: Functional Foods and Nutraceuticals
Principles and challenges involved in developing foods with health benefits beyond basic nutrition; efficacy, safety, regulatory and marketing aspects of functional foods and nutraceutical; current controversies and evidence of therapeutic properties of functional foods and Dietary supplements. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: BIOCHM 3630 or equivalent and F_S 4310 or equivalent, or instructor's consent

F_S 8460: Food Biopolymers
Study of physical, chemical, and functional properties of food biopolymers and their applications in food and other industries. Graded on A-F basis only.
Credit Hours: 3
Recommended: Organic chemistry and food chemistry

F_S 9085: Problems in Food Science
Individual studies includes minor research problems.
Credit Hour: 1-99
Prerequisites: Food Science PhD students

F_S 9087: Seminar in Food Science
Provides students with opportunities for development in depth of advanced aspects of food science through reviews of research in progress and of current scientific publications. Prerequisites: PhD standing
Credit Hour: 1

F_S 9090: Research in Foods Science
Original investigation of advanced nature, leading to dissertation. Graded on a S/U basis only.
Credit Hour: 1-99
Prerequisites: Food Science PhD students

F_S 9402: Advanced Research Methods in Food and Hospitality Systems
This course provides doctoral students with introduction and review of research methods available for use in the study of food science, hospitality management and agricultural system management. Hence, the emphasis of this course is on empirical studies in the field, and will examine research conducted by scholars in the academic area. This course assists as baseline preparation for graduate students' continuing work in the graduate program. Specifically, the course provides students with knowledge and research experience in regard to 1) research fundamentals and backgrounds, 2) types of research, and 3) data analysis.
Credit Hours: 3
Prerequisites: Introductory research method course or statistics course; instructor's consent required

F_S 9460: Advanced Food Quality Assurance
Analyzes concepts of integrating laws, TQM and statistical process control into HACCP and ISO systems required for the quality of the global food industry.
Credit Hours: 3
Prerequisites: F_S 4980 or equivalent and one Statistics course

F_S 9470: Advanced Food Technology
To understand the physical and chemical changes that occur during the processing and storage of food; study the quality and safety issues of foods and learn traditional and recent advances in food science and technology.
Credit Hours: 3
Prerequisites: F_S 4310, or equivalent or instructor's consent

Forestry Courses
FOREST 1102: Topics in Forestry - Biological/Physical/Mathematical
Organized study of selected topics in forestry. Intended for undergraduate students.
Credit Hour: 1-3

FOREST 1104: Topics in Forestry - Social Science
Organized study of selected topics in forestry. Intended for undergraduate students.
Credit Hour: 1-3

FOREST 2151: Dendrology
An introduction to the biology of trees, emphasizing identification in the field, taxonomy, ecology, geographic distribution and economic significance of forest species.
Credit Hours: 4
Prerequisites: BIO_SC 1200 or PLNT_S 2120 and PLNT_S 3130

FOREST 2540: Forest Hydrology Field Studies
Introduction to forest hydrology, watershed management, water quantity and quality, climate and biophysical relationships.
Credit Hour: 1
Prerequisites: SOIL 2100, FOREST 2151
<table>

</tr>
<tr>
<td>FOREST 4320</td>
<td>Forest Ecology</td>
<td>Principles of community, ecosystem, and population ecology and examination of the influence of environmental factors and human activity on forest dynamics, composition, structure and function.</td>
<td>5</td>
<td>Recommended FOREST 2151</td>
</tr>
</tbody>
</table>
FOREST 4320W: Forest Ecology - Writing Intensive
Principles of community, ecosystem, and population ecology and examination of the influence of environmental factors and human activity on forest dynamics, composition, structure and function.
Credit Hours: 5
Prerequisites: Senior standing only. Recommended FOREST 2151

FOREST 4330: Practice of Silviculture
Applied ecological principles, cultural practices, tree improvement techniques and treatments to forest stands and other lands for systematic production of goods and services.
Credit Hours: 3
Prerequisites: FOREST 4320; Senior standing only

FOREST 4340: Tree Physiology
Lectures on physical and chemical phenomena involved in the functions and activities of trees.
Credit Hours: 3
Prerequisites: BIOCHM 2110, BIO_SC 1200, CHEM 1100; or instructor's consent

FOREST 4350: Forest Economics
Economic principles applied to production/marketing of goods and services from forest land: emphasizes capital and land factors and investment alternatives related to time.
Credit Hours: 3
Prerequisites: AG_EC 1042 or AG_EC 2070

FOREST 4360: Photogrammetry, Inventory and Models
Applied course in the area of aerial photogrammetry, forest inventory, and forest growth models for developing, maintaining, and utilizing these tools in a forest management.
Credit Hours: 3
Prerequisites: FOREST 4320 and AG_EC 1042 or AG_EC 2070

FOREST 4365: Logging Systems: Operations and Analyses
A systems approach to timber harvesting from acquisition through engineering to log transport. Regional aspects and influences will be considered.
Credit Hours: 3
Prerequisites: FOREST 2540 and FOREST 2541

FOREST 4370: Wildland Fire Management
Management, administration, and organization of wildland and prescribed fires and other natural and man-made disasters. Emphasis placed on organizational arrangements of incidents rather than on either strategy or tactics.
Credit Hours: 3
Prerequisites: FOREST 3207

FOREST 4375: Forest Stand Dynamics
Examines the development of forest structure, the role of disturbance on forest change and the use of this knowledge in applying silvicultural systems. Both forest stand dynamics theories, structure diagrams, forest growth models, and long term data sets are used to understand stand dynamics.
Credit Hours: 3
Prerequisites: FOREST 4330

FOREST 4380: Forest Resource Management
Teaches resource managers how to develop a plan for the management of forest resources using managerial, economic, silvical and wildlife techniques for its enhancement and to meet the landowner's objectives.
Credit Hours: 3
Prerequisites: FOREST 4330 and FOREST 4350; Senior Standing only

FOREST 4385: Agroforestry I: Theory, Practice and Adoption
Understand biophysical, ecological, social and economic features of temperate and tropical agroforestry. Covers the basics of design, planning and implementation of agroforestry practices.
Credit Hours: 3
Prerequisites: junior standing

FOREST 4387: Agroforestry Economics and Policy
This course focuses on economic principles applied to the adoption and management of agroforestry practices at both the micro and macro scale. This includes cost and benefits analysis of ecosystem services and marketing of goods and services from agroforestry. More specifically, this course emphasizes both market and nonmarket valuation of managed tree and crop/livestock interactions; investment alternatives related to economics and natural resources; and decision making with relation to financial principles, environmental principles, and social principles. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: FOREST 4385 or FOREST 7385, AG_EC 1041 or permission of instructor

Credit Hours: 3
Prerequisites: MATH 1400; Senior standing only

FOREST 4940: Forestry Internship
Supervised professional experience with an approved public or private organization. May be repeated for credit. Graded on S/U basis only.
Credit Hour: 1-12
Prerequisites: Instructor's consent required

FOREST 4950: Forestry Undergraduate Research
Research apprenticeship with a faculty mentor. Students are expected to develop initial concept for the research, design experiments, collect data, and analyze data with faculty input, oversight, and guidance. Graded on A-F basis only.
Credit Hour: 1-4
Prerequisites: Senior standing, STAT 2530
FOREST 4960: Special Readings in Forestry
Individualized study on particular topic in forestry. Graded on A-F basis only.
Credit Hour: 1-4
Prerequisites: Senior standing required

FOREST 4994: Senior Honors Research in Forestry
Credit Hour: 1-3
Prerequisites: Instructor Consent Required

FOREST 4995: Senior Honors Research in Forestry
Credit Hour: 1-3
Prerequisites: instructor's consent

FOREST 7301: Topics in Forestry
Organized study of selected topics. Intended for upper-division and graduate students. Subjects and credit may vary from semester to semester.
Credit Hour: 1-99

FOREST 7320: Forest Ecology
Principles of community, ecosystem, and population ecology and examination of the influence of environmental factors and human activity on forest dynamics, composition, structure and function.
Credit Hours: 5
Prerequisites: FOREST 2151 or BIO_SC 3210 or instructor's consent

FOREST 7330: Practice of Silviculture
Applied ecological principles, cultural practices, tree improvement techniques and treatments to forest stands and other lands for systematic production of goods and services.
Credit Hours: 3
Prerequisites: FOREST 4320

FOREST 7340: Tree Physiology
Lectures on physical and chemical phenomena involved in the functions and activities of trees.
Credit Hours: 3
Prerequisites: BIOCHM 2110; BIO_SC 1200; CHEM 1100; or instructor's consent

FOREST 7350: Forest Economics
Economic principles applied to production/marketing of goods and services from forest land: emphasizes capital and land factors and investment alternatives related to time.
Credit Hours: 3
Prerequisites: Mathematics requirement completed; AG_EC 1041, or AG_EC 3080

FOREST 7360: Photogrammetry, Inventory and Models
Applied course in the area of aerial photogrammetry, forest inventory, and forest growth models for developing, maintaining, and utilizing these tools in a forest management.
Credit Hours: 3

FOREST 7365: Logging Systems: Operations and Analysis
A systems approach to timber harvesting from acquisition through engineering to log transport. Regional aspects and influences will be considered.
Credit Hours: 3
Prerequisites: FOREST 2543 and FOREST 2544

FOREST 7370: Wildland Fire Management
Management, administration, and organization of wildland and prescribed fires and other natural and man-made disasters. Emphasis placed on organizational arrangements of incidents rather than on either strategy or tactics.
Credit Hours: 3
Prerequisites: FOREST 3207 or equivalent

FOREST 7375: Forest Stand Dynamics
Examines the development of forest structure, the role of disturbance on forest change and the use of this knowledge in applying silvicultural systems. Both forest stand dynamics theories, structure diagrams, forest growth models, and long term data sets are used to understand stand dynamics.
Credit Hours: 3
Prerequisites: FOREST 4330 or instructor's consent

FOREST 7380: Forest Resource Management
Teaches resource managers how to develop a plan for the management of forest resources using managerial, economic, silvical and wildlife techniques for its enhancement and to meet the landowner's objectives.
Credit Hours: 3
Prerequisites: FOREST 4330 and FOREST 4350

FOREST 7385: Agroforestry I: Theory, Practice and Adoption
Understand biophysical, ecological social and economic features of temperate and tropical agroforestry. Covers the basics of design, planning and implementation of agroforestry practices.
Credit Hours: 3

FOREST 7390: Watershed Management and Water Quality
Hydrologic processes on wildland watersheds. Effects of forest land management on streamflow, erosion and water quality.
Credit Hours: 3
Prerequisites: MATH 1400 or instructor's consent

FOREST 8050: Research in Forestry
Original research not leading to preparation of dissertation.
Credit Hour: 1-99

FOREST 8090: Masters Thesis Research in Forestry
Original investigation for presentation in a M.S. thesis. Graded on a S/U basis only.
Credit Hour: 1-10
FOREST 8385: Ecological Principles of Agroforestry
The course prepares students to develop an understanding of the complexity of agroforestry. Students will critically analyze classical and contemporary ecological theories and apply them in designing agroforestry practices to solve complex production and environmental issues. May be repeated for credit. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: FOREST 4385 or FOREST 7385 or permission of instructor

FOREST 8390: Physical Hydrology
Students will obtain an understanding of hydrologic processes in terms of the occurrence, distribution and movement of water spanning the atmosphere and lithosphere. Students will have an opportunity to develop an understanding of physical processes governing mass and energy flux in wildland and anthropogenic systems. May be repeated for credit. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: College Physics and Calculus I

FOREST 8401: Topics in Forestry
Organized study of selected topics. Subjects and credit may vary from semester to semester.
Credit Hour: 1-99
Prerequisites: instructor's consent

FOREST 8430: Applied Silviculture
Ecological and economic factors affecting application of silviculture in each of eighteen forest regions in United States.
Credit Hours: 3
Prerequisites: FOREST 4330

FOREST 8450: Forest Soils
Physical, chemical and biological properties of forest soils in relation to tree growth.
Credit Hours: 3
Prerequisites: FOREST 4330 or instructor's consent

FOREST 8460: Advanced Forest Ecology
Lecture/discussion based course emphasizing contemporary and classic ecological studies and concepts in the context of current forest ecology issues and research. Prerequisites: undergraduate ecology course
Credit Hours: 3

FOREST 8490: Advanced Forest Management
Modern quantitative methods to facilitate decision-making in harvest scheduling and regulation, land use allocation, and production planning in natural resource management.
Credit Hours: 3
Prerequisites: FOREST 4380

FOREST 8515: Advanced Forest Biometrics
An introduction to the topics and philosophy of ecological modeling. The course will guide students through the process of developing a conceptual model, formalizing the model, formulating, parameterizing, and running the model as well as analyzing the results.
Credit Hours: 3
Prerequisites: STAT 7070 or instructor's consent

FOREST 8520: Social Forestry
Issues with using forestry as an international development tool; planning, implementing and evaluating farm and community forestry projects.
Credit Hours: 3
Prerequisites: FOREST 4350, or AG_EC 3270, or equivalent and instructor's consent

FOREST 8530: Ecosystem Management: The Human Dimension
Overview of cultural, social, political and economic dimensions of natural resource problems and issues from an ecologically grounded management perspective.
Credit Hours: 3
Prerequisites: NAT_R 4353 or equivalent

FOREST 8540: Tree Growth-Quality Relationships
Response of tree growth (wood formation) to such environmental influences fertilization, moisture, nutrient supply, wounding pruning, etc.
Credit Hours: 3

FOREST 8620: Plant-Water Relations
Credit Hours: 3

FOREST 8625: Plant-Water Relations Laboratory
Introduction to techniques and instrumentation used in studies of plant-water relations.
Credit Hours: 2
Corequisites: FOREST 8620

FOREST 8650: Forest Soils
Physical, chemical and biological properties of forest soils in relation to tree growth.
Credit Hours: 3
Prerequisites: FOREST 4330 or instructor's consent

FOREST 8910: Seminar in Forestry
Discussions of current developments in Forestry, and critical study of research programs. Graded on S/U basis only.
Credit Hour: 1

FOREST 8970: Seminar in Forestry
Discussions of current developments in Forestry, and critical study of research programs.
Credit Hour: 1
French Courses

FRENCH 1100: Elementary French I
An introductory course for students who wish to begin their study of French. It teaches the four skills—listening, speaking, reading, and writing. The class meets four days a week and one day in the lab. Class time is used to practice the structures and vocabulary.

Credit Hours: 4

FRENCH 1100H: Elementary French I - Honors
This course is designed for Honors students with 2-3 years of high school French. It focuses on the four skills, speaking, listening, reading, and writing, and offers enriched cultural opportunities in and out of the classroom, such as movies, guest lectures, art exhibits, and plays. Students practice those skills, using authentic materials in real-life situations. Graded on A-F basis only.

Credit Hours: 4
Prerequisites: 2 years high school French; Honors eligibility required

FRENCH 1200: Elementary French II
The second course of the beginning language sequence is the continuation of FRENCH 1100. It places equal emphasis on the four skills; listening, speaking, reading, and writing. Students who have prior knowledge of French are encouraged to take this course. NO credit for both FRENCH 1200 and FRENCH 1250.

Credit Hours: 4
Prerequisites: grade of C or better in FRENCH 1100 or equivalent

FRENCH 1250: Accelerated Beginning French
Course is designed for students who have taken more than two years of High School French. It offers a reinforcement of the beginning concepts of the French language and the many cultures it encompasses. Course allows students to further develop all language skills. NO credit for both FRENCH 1200 and FRENCH 1250.

Credit Hours: 4

FRENCH 2001: Undergraduate Topics in French-General
Organized study of selected topics. Subjects may vary from semester to semester. May be repeated with consent of department.

Credit Hour: 1-3
Prerequisites: FRENCH 1200 with a grade of C or better

FRENCH 2004: Undergraduate Topics in French-Social Science
Organized study of selected topics. Subjects may vary from semester to semester. May be repeated with departmental consent.

Credit Hour: 1-3
Prerequisites: FRENCH 1200 with a grade of C or better

FRENCH 2005: Undergraduate Topics in French-Humanities/Fine Arts
Organized study of selected topics. Subjects may vary from semester to semester. May be repeated with departmental consent.

Credit Hour: 1-3
Prerequisites: FRENCH 1200 with a grade of C or better

FRENCH 2005H: Undergraduate Topics in French-Humanities/Fine Arts - Honors
Organized study of selected topics. Subjects may vary from semester to semester. May be repeated with departmental consent.

Credit Hour: 1-3
Prerequisites: FRENCH 1200 with a grade of C or better. Honors eligibility required

FRENCH 2100: Elementary French III
A multi-skill course following FRENCH 1200, centering on cultural/literary reading, and including a grammar review, practice of the spoken language, as well as some practice in written expression.

Credit Hours: 4
Prerequisites: grade of C or better in FRENCH 1200 or FRENCH 1250, or their equivalent courses

FRENCH 2100H: Elementary French III - Honors
A multi-skill course following FRENCH 1200, centering on cultural/literary reading, and including a grammar review, practice of the spoken language, as well as some practice in written expression.

Credit Hours: 4
Prerequisites: grade of C or better in FRENCH 1200 or FRENCH 1250, or their equivalent courses. Honors eligibility required

FRENCH 2160: Intermediate French Composition and Conversation
A course designed to develop the ability to speak, read, and write in French via the reading of French short stories and/or a short novel. Grammar review.

Credit Hours: 3
Prerequisites: FRENCH 2100

FRENCH 2310: French Civilization
Open to any student interested. No knowledge of French required. May not be included in area of concentration in French.

Credit Hours: 3
Prerequisites: sophomore standing

FRENCH 2310W: French Civilization - Writing Intensive
Open to any student interested. No knowledge of French required. May not be included in area of concentration in French.

Credit Hours: 3
Prerequisites: sophomore standing

FRENCH 2320: French Literature and Thought in English Translation
This course examines how the masterworks of French literature, from the Middle Ages to the eighteenth century, have influenced Western literary, cultural and philosophical traditions.

Credit Hours: 3
Prerequisites: sophomore standing or instructor's consent
FRENCH 2330: French Literature in Translation II
This course examines how the masterworks of French literature of the nineteenth and twentieth centuries have influenced Western literary, cultural and philosophical traditions.

Credit Hours: 3
Prerequisites: sophomore standing or instructor's consent

FRENCH 2350: New World Francophone Literature in Translation

Credit Hours: 3
Prerequisites: ENGLSH 1000

FRENCH 2370: French Women Writers (in translation)
Survey of texts and contributions of French women writers from the medieval period to the 20th century.

Credit Hours: 3
Prerequisites: sophomore standing

FRENCH 3001: Topics in French-General
Organized study of selected topics. Subjects and earnable credit may vary from semester to semester.

Credit Hour: 1-3
Prerequisites: sophomore standing, departmental consent for repetition

FRENCH 3004: Topics in French-Social Science
Organized study of selected topics. Subjects and earnable credit may vary from semester to semester.

Credit Hour: 1-3
Prerequisites: sophomore standing, departmental consent for repetition

FRENCH 3005: Topics in French-Humanities/Fine Arts
Organized study of selected topics. Subjects and earnable credit may vary from semester to semester. Departmental consent for repetition. Prerequisites: sophomore standing

Credit Hour: 1-3

FRENCH 3005H: Topics in French-Humanities/Fine Arts - Honors
Organized study of selected topics. Subjects and earnable credit may vary from semester to semester. Honors eligibility required

Credit Hours: 1-3
Prerequisites: sophomore standing, departmental consent for repetition. Honors eligibility required

FRENCH 3160: Advanced French Composition and Conversation I
Development of more sophisticated skills of written and oral expression.

Credit Hours: 3
Prerequisites: FRENCH 2160 or equivalent

FRENCH 3180: Les Fondations de la Civilisation Francaise
Overview of French civilization from its origins to French Revolution. Studies will examine key cultural objects from art, literature, and popular culture as well as political and historical movements that have shaped development of French civilization. Ideal for students interested in engaging with issues, debates, and problems that helped to define the nascent French state.

Credit Hours: 3
Prerequisites: FRENCH 2160

FRENCH 3280: Commercial French
Composition and Conversation course based on materials related to the French business world. Acquisition of business-related vocabulary. Introduction to French business operations and correspondence.

Credit Hours: 3
Prerequisites: FRENCH 2160 or equivalent

FRENCH 3410: Introduction to Literary Analysis
Will acquaint students with vocabulary required for analysis of literary texts. Along with the traditional French method of poetry explication, students will learn to analyze the major literary genres (poetry, theatre, prose).

Credit Hours: 3
Prerequisites: FRENCH 3160

FRENCH 3420: Introduction to French Literature I
Study of selected masterpieces of French literature from the Middle Ages through the 18th century.

Credit Hours: 3
Prerequisites: FRENCH 3160
Recommended: FRENCH 3410

FRENCH 3420W: Introduction to French Literature I - Writing Intensive
Study of selected masterpieces of French literature from the Middle Ages through the 18th century.

Credit Hours: 3
Prerequisites: FRENCH 3160
Recommended: FRENCH 3410

FRENCH 3430: Introduction to French Literature II
Study of selected masterpieces of French literature of the 19th and 20th centuries.

Credit Hours: 3
Prerequisites: FRENCH 3160
Recommended: FRENCH 3410

FRENCH 3430W: Introduction to French Literature II - Writing Intensive
Study of selected masterpieces of French literature of the 19th and 20th centuries.

Credit Hours: 3
Prerequisites: FRENCH 3160
Recommended: FRENCH 3410

FRENCH 3440: Francophone Literature of North America
A survey course of Francophone literature of New France, Louisiana territory and the French West Indies from its beginnings in the
seventeenth century to the late twentieth century. Selected novels, poems and plays will be studied in their historical and social context.

**Credit Hours:** 3  
**Prerequisites:** FRENCH 2160

**FRENCH 3710: Survey of Minority and Creole Languages of the U.S. and the Caribbean**  
(same as SPAN 3710 and LINGST 3710). Analysis of the state of the minority languages of the U.S. and the Creole languages of the Caribbean with particular attention to the social status of these languages and speakers' attitudes toward them in the context of ethnic, cultural and national identity (taught in English).

**Credit Hours:** 3  
**Prerequisites:** sophomore standing

**FRENCH 4004: Topics in French-Social Science**  
Organized study of selected topics. Subjects and earnable credit may vary from semester to semester.

**Credit Hour:** 1-3  
**Prerequisites:** junior standing, departmental consent for repetition

**FRENCH 4070: Intensive Beginning French**  
Rapid acquisition of a reading knowledge of French. Cannot be taken to fulfill undergraduate language requirement.

**Credit Hours:** 3  
**Prerequisites:** instructor's consent

**FRENCH 4120: Foreign Language Teaching Methodology**  
(same as SPAN 4120). Theory and techniques of current foreign language methodology and their application in the classroom. Presentation of instructional projects, classroom observations, and strategies for classroom management. May not be used toward Arts and Science major.

**Credit Hours:** 3  
**Prerequisites:** departmental consent

**FRENCH 4130: Stylistics**  
A technical study of French as a means of communication and of self-expression, involving levels of meaning, rhetorical structure, and textual analysis.

**Credit Hours:** 3  
**Prerequisites:** FRENCH 3160 or FRENCH 3280  
**Recommended:** FRENCH 3420, FRENCH 3430 or FRENCH 3410

**FRENCH 4130W: Stylistics - Writing Intensive**  
A technical study of French as a means of communication and of self-expression, involving levels of meaning, rhetorical structure, and textual analysis.

**Credit Hours:** 3  
**Prerequisites:** FRENCH 3160 or FRENCH 3280  
**Recommended:** FRENCH 3420, FRENCH 3430 or FRENCH 3410

**FRENCH 4140: French Medieval Literature**  
Survey of representative works from the principal literary genres of the Middle Ages: epic (La Chanson de Roland), courtly romance (Chretien de Troyes), chantefable (Aucassin et Nicolette), short story (lai, fabliau), theatre, and lyric poetry.

**Credit Hours:** 3  
**Prerequisites:** FRENCH 3420 and FRENCH 3430

**FRENCH 4141: French Renaissance**  
Survey of prose and poetry of the sixteenth century with significant emphasis on Montaigne, Rabelais, and the poetry of the Pleiade.

**Credit Hours:** 3  
**Prerequisites:** FRENCH 3420 and FRENCH 3430

**FRENCH 4142: Seventeenth-Century French Literature**  
(cross-leveled with FRENCH 7430). Survey of major writers of the seventeenth century. The principal currents of the century as well as the Baroque and the classical movements are discussed. Authors include Corneille, Moliere, Racine, Descartes, Pascal, La Bruyere, La Rochefoucauld, and Madame de Lafayette.

**Credit Hours:** 3  
**Prerequisites:** FRENCH 3420 and FRENCH 3430

**FRENCH 4143: Eighteenth-Century French Literature**  
(cross-leveled with FRENCH 7440). Through systematic and representative readings, this course familiarizes students with the literary trends and intellectual currents of 18th century France. The course includes works by Montesquieu, Voltaire, Rousseau, Laclos, Diderot, Marivaux, Prevost, and Beaumarchais.

**Credit Hours:** 3  
**Prerequisites:** FRENCH 3420 and FRENCH 3430

**FRENCH 4144: Nineteenth-Century French Literature**  
(cross-leveled with FRENCH 7450). Selected readings from poetry and theatre with an emphasis on the various manifestations of Romanticism throughout the century. Works by Lamartine, Hugo, Vigny, Musset, Gautier, Nerval, Baudelaire, Verlaine, and Mallarme are included.

**Credit Hours:** 3  
**Prerequisites:** FRENCH 3420 and FRENCH 3430

**FRENCH 4145: Twentieth-Century French Novel**  
(cross-leveled with FRENCH 7460). The course is a historical survey that deals with three topics: the modernist writings of the early twentieth century, (Proust, Gide, and Colette), existentialism of the mid-century (Sartre, Camus), and contemporary forms of writing (Beckett, Robbe-Grillet, Sarraute, among others).

**Credit Hours:** 3  
**Prerequisites:** FRENCH 3420 and FRENCH 3430

**FRENCH 4146: Introduction to the Contemporary French Theatre**  
Survey of twentieth-century French drama. Students read plays by Claudel, Giraudoux, Sartre, Anouilh, Beckett, Ionesco, Genet, and others. Strong emphasis is placed on class discussions. Written analyses of two plays are assigned, and there is an hourly exam and a final.

**Credit Hours:** 3
What is common or popular right now in other cultures? And how do new social networks amplify or alter certain features or culture across national and international contests?

Credit Hours: 3
Prerequisites: sophomore standing required

FRENCH 4820W: Blogging the World: The Web in Cultural Context - Writing Intensive
(same as GERMAN 4820 and RUSS 4820). Innovative interdisciplinary course addresses issues of access to international news and specific cultural context working in cross-disciplinary teams. Students in journalism, foreign language, international studies, political science and various other disciplines track cultural developments and information on non-US Web sites, blogs and digital social networks along with exploring various historical forms of communication that preceded the digital era of the Web. Students analyze the potential and limitations/ effects of blogs and the web in specific contemporary cultural contexts and as part of the broader historical evolution of the web. The course is taught in English. The goal of this course is two-fold; students learn the particulars of web blogging, explore various features of the contemporary social network landscape while focusing on the concept of culture, in particular the cultures of Europe and the US. Questions asked are: what is culture? What is common or popular right now in other cultures? And how do new social networks amplify or alter certain features or culture across national and international contests?

Credit Hours: 3
Prerequisites: sophmore standing required

FRENCH 4993H: The Capstone Experience in French - Honors
This course is required of all majors. Topics vary but all courses synthesize and review essential components of the major: speaking, writing, reading in French, and the ability to think critically and analytically.

Credit Hours: 3
writing, reading in French, and the ability to think critically and analytically.

Credit Hours: 3
Prerequisites: Honors eligibility required

FRENCH 4996: Honors Reading in French
Directed readings in area of honors thesis.
Credit Hour: 1
Prerequisites: admission to departmental Honors program

FRENCH 7004: Topics in French-Social Science
Organized study of selected topics. Subjects and earnable credit may vary from semester to semester. Departmental consent for repetition.
Credit Hour: 1-99

FRENCH 7110: Advanced oral French for Teachers
Advanced speaking practice primarily for teachers with emphasis on pronunciation, syntactical accuracy and vocabulary expansion. May not be used toward Arts and Science Major. May be repeated for a maximum of 12 hours credit.
Credit Hour: 1-99
Prerequisites: FRENCH 3160 or equivalent

FRENCH 7120: Foreign Language Teaching Methodology
(same as SPAN 7120). Theory and techniques of current foreign language methodology and their application in the classroom. Presentation of instructional projects, classroom observations, and strategies for classroom management. May not be used toward Arts and Science major.
Credit Hours: 3

FRENCH 7130: Stylistics
A technical study of French as a means of communication and of self-expression, involving levels of meaning, rhetorical structure, and textual analysis.
Credit Hours: 3
Prerequisites: FRENCH 3160 or FRENCH 3280 and FRENCH 3420 or FRENCH 3430

FRENCH 7410: French Medieval Literature
Credit Hours: 3
Prerequisites: FRENCH 3420 and FRENCH 3430

FRENCH 7420: French Renaissance
Credit Hours: 3
Prerequisites: FRENCH 3420 and FRENCH 3430

FRENCH 7430: Seventeenth-Century French Literature
(cross-leveled with FRENCH 4430). Survey of major writers of the seventeenth century. The principal currents of the century as well as the Baroque and the classical movements are discussed. Authors include Corneille, Moliere, Racine, Descartes, Pascal, La Bruyere, La Rochefoucauld, and Madame de Lafayette.
Credit Hours: 3

Prerequisites: FRENCH 3420 and FRENCH 3430

FRENCH 7440: Eighteenth-Century French Literature
(cross-leveled with FRENCH 4440). Through systematic and representative readings, this course familiarizes students with the literary trends and intellectual currents of 18th century France. The course includes works by Montesquieu, Voltaire, Rousseau, Laclos, Diderot, Marivaux, Prevost, and Beaumarchais.
Credit Hours: 3
Prerequisites: FRENCH 3420 and FRENCH 3430

FRENCH 7450: Nineteenth-Century French Literature
(cross-leveled with FRENCH 4450). Selected readings from poetry and theatre with an emphasis on the various manifestations of Romanticism throughout the century. Works by Lamartine, Hugo, Vigny, Musset, Gautier, Nerval, Baudelaire, Verlaine, and Mallarme are included.
Credit Hours: 3
Prerequisites: FRENCH 3420 and FRENCH 3430

FRENCH 7460: Twentieth-Century French Novel
(cross-leveled with FRENCH 4460). The course is a historical survey that deals with three topics: the modernist writings of the early twentieth century. (Proust, Gide, and Colette), existentialism of the mid-century (Sartre, Camus), and contemporary forms of writing (Beckett, Robbe-Grillet, Sarrute, among others).
Credit Hours: 3
Prerequisites: FRENCH 3420 and FRENCH 3430

FRENCH 7470: Introduction to the Contemporary French Theatre
Credit Hours: 3
Prerequisites: FRENCH 3420 and FRENCH 3430

FRENCH 7480: Introduction to Modern French Poetry
Introduction to major currents of French poetry from beginning of the 19th century to the present. Students will write explications of poems, present oral analyses and will be tested on poetic terms and poetic content/styles of various poems and poets.
Credit Hours: 3
Prerequisites: FRENCH 3420 and FRENCH 3430

FRENCH 7490: Nineteenth-Century French Novel
(cross-leveled with FRENCH 4490). Study of the three major currents in prose fiction: romanticism, realism, and naturalism. Representative readings from Chateaubriand, Balzac, Stendhal, Flaubert, and Zola are included.
Credit Hours: 3
Prerequisites: FRENCH 3420 and FRENCH 3430

FRENCH 7510: African Francophone Literature
Course introduces contemporary African Literature to students via readings and detailed analysis of literary texts by Francophone African writers.
Credit Hours: 3
Prerequisites: FRENCH 3420 and FRENCH 3430
FRENCH 7710: History of the French Language
(same as LINGST 7710). Required of M.A. candidates.
Credit Hours: 3
Prerequisites: FRENCH 3420 and FRENCH 3430

FRENCH 7720: Structure of Modern French
(same as LINGST 7720). An introductory presentation of the phonological
and syntactic systems of contemporary standard French.
Credit Hours: 3
Prerequisites: FRENCH 3160 or equivalent or instructor's consent

FRENCH 7820: Blogging the World: The Web in Cultural Context
(same as RUSS 7820 and GERMAN 7820). Innovative interdisciplinary
course addresses issues of access to international news and specific
-cultural context. Working in cross-disciplinary teams, students in
journalism, foreign language, international studies, political science and
various other disciplines track cultural developments and information on
non-US Web sites, blogs and digital social networks along with exploring
various historical forms of communication that preceded the digital era of
the Web. Students analyze the potential and limitations/effects of blogs
and the web in specific contemporary cultural contexts and as part of the
broader historical evolution of the web. The course is taught in English.
The goal of this course is two-fold: students learn the particulars of web
blogging, explore various features of the contemporary social network
landscape while focusing on the concepts of culture, in particular the
cultures of Europe and the US. Questions asked are: what is culture?
What is common or popular right now in other cultures? And how do new
social networks amplify or alter certain features or culture across national
and international contexts?
Credit Hours: 3

FRENCH 7960: Special Readings in French
Independent study through readings, conferences, reports.
Credit Hour: 1-3
Prerequisites: departmental consent

FRENCH 7980: Special Themes in French
Subject varies according to instructor.
Credit Hours: 3

FRENCH 7993: The Capstone Experience in French
This course is required of all majors. Topics vary but all courses
synthesize and review essential components of the major: speaking,
writing, reading in French, and the ability to think critically and
analytically.
Credit Hours: 3

FRENCH 8080: Readings in French
Independent readings in preparation for MA or MALT comprehensive
examination in French. Graded on A-F basis only.
Credit Hour: 1-3

FRENCH 8085: Problems in French
Problems in French.
Credit Hour: 1-99

FRENCH 8087: Seminar in French
Subject varies according to instructor.
Credit Hour: 2-3

FRENCH 8090: Research in French
Leads to preparation of MA or MALT thesis. Graded on S/U basis only.
Credit Hour: 1-99

FRENCH 8120: Bilingualism and Language Contact
(same as SPAN 8120 and LINGST 8120). Global analysis of the study
of Bilingualism from a combined sociocultural, sociolinguistic and
psycholinguistic perspective based on current research and examination
of various phenomena of language contact (taught in English).
Credit Hours: 3

FRENCH 8411: Old French
Old French.
Credit Hours: 3
Recommended: FRENCH 4710 or FRENCH 7710 and some knowledge
of Latin

FRENCH 8412: Studies in French Medieval Literature
Studies in French Medieval Literature.
Credit Hours: 3
Recommended: FRENCH 4410 or FRENCH 7710

FRENCH 8416: Studies in the French Renaissance
Studies in the French Renaissance.
Credit Hours: 3
Recommended: FRENCH 4420 or FRENCH 7420

FRENCH 8417: Studies in Seventeenth-Century French Literature
Credit Hours: 3
Recommended: FRENCH 4430 or FRENCH 7430

FRENCH 8418: Studies in Eighteenth-Century French Literature
Credit Hours: 3
Recommended: FRENCH 4440 or FRENCH 7440

FRENCH 8419: Studies in Nineteenth-Century French Literature
Credit Hours: 3
Recommended: FRENCH 4450 or FRENCH 7450; or FRENCH 4490 or
FRENCH 7490

FRENCH 8420: Studies in Twentieth-Century French Literature
Credit Hours: 3
Recommended: FRENCH 4460 or FRENCH 7460, FRENCH 4470 or FRENCH 7470 or FRENCH 4480 or FRENCH 7480

FRENCH 9080: Readings in French
Independent readings in preparation for the PhD comprehensive examination in French.
Credit Hour: 3-6

FRENCH 9090: Research in French
Leads to preparation of PhD dissertation in French. Graded on S/U basis only.
Credit Hour: 1-99

General Human Environmental Sciences Courses

GN_HES 1100: Introduction to Human Environmental Sciences
Introduction to Human Environmental Sciences
Credit Hour: 1

General Studies Courses

G_STDY 3301: Topics in General Studies
Experimental and/or interdisciplinary. Subjects and earnable credit may vary from semester to semester.
Credit Hour: 1-99

G_STDY 4940: Internship in General Studies
Internship limited to students pursuing the Bachelor of General Studies degree. Graded on S/U basis only.
Credit Hour: 1-6

G_STDY 4950: Special Project in General Studies
With advisor's approval, student works with a faculty member on a major reading, research, or creative project, usually of interdisciplinary nature.
Credit Hour: 1-6

G_STDY 4960: Readings in General Studies
Independent readings with supervisory faculty member. May be repeated to a maximum of six hours.
Credit Hour: 1-6
Prerequisites: Open only to General Studies majors

G_STDY 4970: Directed Readings in General Studies
Independent readings with supervisory faculty member; this course serves as the student's capstone experience.
Credit Hour: 1-6
Prerequisites: Open only to General Studies majors only

G_STDY 4971: Internship in General Studies
Internship experience which serves as the student's capstone experience. Program advisor must approve internship. Section 2 of this course will be designated for Service Learning Capstone experience. Graded on S/U basis only.
Credit Hour: 1-6

Geography Courses

GEOG 1050: Introductory Meteorology
(same as ATM_SC 1050). Physical processes of atmosphere in relation to day-to-day changes in weather.
Credit Hours: 3

GEOG 1100: Regions and Nations of the World I
Introductory analysis for general education. Regional character, spatial relationships, major problems of Europe, North America (United States and Canada) and Latin America. Organized around basic concepts in field of geography.
Credit Hours: 3

GEOG 1100H: Regions and Nations of the World I - Honors
Introductory analysis for general education. Regional character, spatial relationships, major problems of Europe, North America (United States and Canada) and Latin America. Organized around basic concepts in field of geography.
Credit Hours: 3
Prerequisites: Honors eligibility required

GEOG 1200: Regions and Nations of the World II
Introductory analysis for general education. Regional character, spatial relationships, problems of environment and development of the former Soviet Union, Pacific World, South and East Asia, Africa and Middle East. Organized around basic concepts in the field of geography. May be taken independently of GEOG 1100.
Credit Hours: 3

GEOG 1205H: Regions and Nations General Honors
Credit Hours: 3
Prerequisites: Honors eligibility required

GEOG 1550: Introduction to the Humanized Earth
Examines human culture as a geographical element; the power of culture and human institutions in human-environmental interaction and the creation of agriculture, folk culture, popular culture, cities, and a broad range of cultural landscapes.
Credit Hours: 3

GEOG 1600: Climate Change: Science and Public Policy
This course will explore the role of physical science, environmental politics and public policy in shaping contemporary debate concerning climate change, mitigation, and adaptation strategies. We will examine the scientific rationale and statistical basis underwriting the concept of climate change, why aspects of the science remain controversial, the prospects of institutional action and the difficulties inherent in developing
public policies targeting mitigation and adaptation. Course includes a role-playing simulation where students will play roles based on 2009 climate negations in Copenhagen, Denmark. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: freshman and sophomores only

GEOG 1800: Digital Earth: Introduction to the Geospatial Technologies
Introduction to technologies used to map a changing world, with an emphasis on digital mapping explorations of human and environmental interactions on Earth. Course includes lab and fieldwork to introduce geographic information data collection and analysis techniques. Graded on A/F basis only. May be repeated for credit.

Credit Hours: 3
Prerequisites: Freshman and sophomore standing or instructor's consent

GEOG 1840: Global Environmental Change
Course uses a geographic framework to study patterns and processes related to global environmental change. Topics include environmental reconstruction, water resources, human-environment interactions, glaciers, fire, and climate.

Credit Hours: 3

GEOG 1900: Our Dynamic Planet in Film
This course focuses on using documentary films (e.g., Planet Earth) as a medium for studying how global environmental change is impacting all spheres of our dynamic planet. To ensure a more complete understanding of course material, films are supplemented with active lectures and discussions of assigned readings from both periodicals and peer-reviewed literature that emphasize key points illustrated in the films. In doing so, this course synthesizes material from numerous fields of study that fall under the burgeoning umbrella field of global change ecology. This synthetic approach is used to highlight the formidable linkages on Earth between the non-living and living, thus permitting students to gain an appreciation and holistic understanding of how global environmental change is impacting Earth processes responsible for creating both our current landscapes and the remarkable diversity of life that inhabit them.

Credit Hours: 3

GEOG 2010: Exploring Geography
We are all explorers. As children, we grew up testing the boundaries of our known worlds and trying to understand what was beyond. Geography gives us the means to formalize this impulse to explore the world around us, both local and distant. It allows us to make sense of the ways in which space and relationships between objects drives much of human, social, and environmental interaction. In this course, we will illustrate some of the principle ways in which Geographers investigate, explain, and map meaning, pushing the boundaries of what we know as individuals and society. Using a combination of discussion and field exercises, students will be asked to engage with a number of critical societal issues that have geographical elements at their core. Examples include the Geography of crime, imagining place, the city of the future, environmental change, terrorism, human trafficking, drones, and sustainability.

Credit Hour: 1

GEOG 2120: United States and Canada
Intensive examination of selected areas and distributions. Regional systems, problems and planning.

Credit Hours: 3
Prerequisites: GEOG 1100

GEOG 2130: Geography of Missouri
Physical, human, economic, and political geography of Missouri; regions of the state; geography applied to current state issues.

Credit Hours: 3
Prerequisites: GEOG 1100

GEOG 2210: Geography of Europe
Survey of Europe's lands and peoples; emphasis on historical areal relationships as reflected in Europe's changing economic and political organization.

Credit Hours: 3
Prerequisites: sophomore standing

GEOG 2220: Geography of East Asia
Cultural, physical and economic geography of China, Japan, and Korea, with emphasis on China. Landscape analysis, determination of regional identities, and study of political forces evident in the development of the contemporary scene are stressed.

Credit Hours: 3
Prerequisites: GEOG 1200

GEOG 2270: Geography of Asia
(same as S_A_ST 2270). An introductory survey of the geography of Asia from India through Southeast Asia to China and Japan, emphasizing factors contributing to cultural similarities and variations, conflicts of interest, and current development.

Credit Hours: 3

GEOG 2280: Race, Democracy, and Violence in Cuba and Haiti
(same as PEA_ST 2280, SOCIOL 2280). A sociological approach to understand race/ethnicity, identity, citizenship, human rights, violence, and political and economic systems in the Caribbean. Comparisons of the culture, politics, and historical trajectories of Cuba and Haiti using Post-Colonial and Feminist theories. Graded on A-F basis only.

Credit Hours: 3

GEOG 2280W: Race, Democracy, and Violence in Cuba and Haiti - Writing Intensive
(same as PEA_ST 2280W, SOCIOL 2280W). A sociological approach to understand race/ethnicity, identity, citizenship, human rights, violence, and political and economic systems in the Caribbean. Comparisons of the culture, politics, and historical trajectories of Cuba and Haiti using Post-Colonial and Feminist theories. Graded on A-F basis only.

Credit Hours: 3
GEOG 2340: South America
Physical environment and culture in the regional development of South America.
Credit Hours: 3
Prerequisites: one course in Geography or instructor's consent

GEOG 2450: Themes in the Geography of Africa South of the Sahara (same as BL_STU 2450).
Major concepts of African geography in current and historical perspective. Case studies of major African countries.
Credit Hours: 3

GEOG 2580: Geography of Cemeteries
Cemeteries have a discernible spatial and temporal pattern providing a foundation for geographical study. Migration, demographics, spatial analysis and basic mapping skills will be used to investigate cemeteries and their pattern.
Credit Hours: 3
Prerequisites: freshman and sophomores only

GEOG 2610: Climate, Landforms and Vegetation: Introduction to Physical Geography
Examination of the interacting natural systems that comprise the Earth's physical environment, including the atmosphere, biosphere, and landforms. Focus on relating fundamental physical, chemical and ecological processes to the global geographic patterns they produce.
Credit Hours: 3

GEOG 2660: Environmental Geography
Historical perspectives on the human agency in transforming the earth, with emphasis on international environmental problems. Topics include basic biogeography; environmental impacts of population growth, underdevelopment and overdevelopment; and new approaches to management of global resources.
Credit Hours: 3

GEOG 2710: Economic Geography
Geographical location and organization of world's major economic activities. Emphasizes agricultural and industrial patterns, commodity flows, transport networks, geographical principles of market and industrial location, internal spatial organization of cities, land-use models, geographic aspects of economics growth.
Credit Hours: 3
Prerequisites: GEOG 1100 or GEOG 1200 or sophomore standing

GEOG 2720: The City
Study of cities: origin, development, distribution; social, economic, and demographic significance. Consideration of theories of structure, urban hierarchies, and land use planning.
Credit Hours: 3

GEOG 2904: Topics in Geography-Social Science
Organized study of selected topics. Subjects and earnable credit may vary from semester to semester.
Credit Hour: 1-3
Prerequisites: sophomore standing, departmental consent for repetition

GEOG 2904W: Topics in Geography-Social Science - Writing Intensive
Organized study of selected topics. Subjects and earnable credit may vary from semester to semester.
Credit Hour: 1-3
Prerequisites: sophomore standing, departmental consent for repetition

GEOG 2910: Introduction to Geographic Information Systems GIS (same as CV_ENG 3050).
Introduces theory, concepts and techniques related to the creation, manipulation, processing, and basic analysis of spatial data using GIS. Data management, current data models, GIS applications and course topics are reinforced through hands-on computer laboratory exercises.
Credit Hours: 3
Prerequisites: sophomore standing or instructor's consent

GEOG 3040: Mexico, Central America, and the Caribbean
Physical environment and culture in the regional development of Mexico, Central America, and the Caribbean.
Credit Hours: 3

GEOG 3140: Mexico, Central America, and the Caribbean
Physical environment and culture in the regional development of Mexico, Central America, and the Caribbean.
Credit Hours: 3

GEOG 3260: Southeast Asia (same as S_A_ST 3260).
Physical, cultural, historical and regional geography of Southeast Asia, with an introduction to East Asian geography. Emphasizes the problems of tradition and development.
Credit Hours: 3

GEOG 3270: Geography of the Middle East
Cultural, physical and historical geography of Middle East, with emphasis on cultural adaptations to environments and conflicts over the resources.
Credit Hours: 3

GEOG 3280: Geography of South Asia (same as S_A_ST 3280).
Topical and regional analysis of India, Pakistan, Sri Lanka. Historical development of distinctive cultural regions. Relations with neighboring areas. Impact of Westernization on economic activities, settlements, population.
Credit Hours: 3

GEOG 3290: Geography of Russia and the Newly Independent States of Eurasia
Geographic analysis of social, economic and political issues confronting Russia and the NIS, including environmental problems, economic interdependence and prospects for regional economic development, population change and migration, inter-ethnic relations and ethno-territorial conflict.
Credit Hours: 3

GEOG 3385: Special Problems in Geography
Independent investigation leading to a paper or project. May be repeated to a maximum of 6 hours.
Credit Hour: 1-3
**GEOG 3450: Geography of Africa**
Major concepts of African geography in current and historical perspective.

**Credit Hours:** 3

---

**GEOG 3496: Digital Indigenous Studies**
(same as PEA_ST 3496). This course introduces students to Indigenous studies in a digital world. The course begins with study of Indigenous sovereignty and representation, and moves quickly to critical and theoretical readings in new media, tracing both the historical impact of digital technologies (such as GIS) on Native communities, and the ways that both urban and rural Native communities have engaged in innovative digital projects that expand the way we understand information and storytelling in digital environments. The course materials will cover a wide range of platforms and audio-visual genres, from documentary, community video, and animation productions, to GIS, video games, and social media sites. Students will engage with both scholars and artists working with new media through a program of public lectures, classroom visits, and Skype interviews. All interview will be archived as podcasts from the course website. Students will write weekly short response papers and produce independent audio-visual projects over the course of the semester, with opportunities to revise their work leading up to substantial final projects. The course will also integrate community outreach into the curriculum through online participation of students from the Kiowa Kids, an Indigenous language immersion and storytelling program.

**Credit Hours:** 3

---

**GEOG 3496H: Digital Indigenous Studies - Honors**
(same as PEA_ST 3496). This course introduces students to Indigenous studies in a digital world. The course begins with study of Indigenous sovereignty and representation, and moves quickly to critical and theoretical readings in new media, tracing both the historical impact of digital technologies (such as GIS) on Native communities, and the ways that both urban and rural Native communities have engaged in innovative digital projects that expand the way we understand information and storytelling in digital environments. The course materials will cover a wide range of platforms and audio-visual genres, from documentary, community video, and animation productions, to GIS, video games, and social media sites. Students will engage with both scholars and artists working with new media through a program of public lectures, classroom visits, and Skype interviews. All interview will be archived as podcasts from the course website. Students will write weekly short response papers and produce independent audio-visual projects over the course of the semester, with opportunities to revise their work leading up to substantial final projects. The course will also integrate community outreach into the curriculum through online participation of students from the Kiowa Kids, an Indigenous language immersion and storytelling program.

**Credit Hours:** 3

---

**GEOG 3540: Geographies of Sexualities**
(Same as WGST 3540) This class will explore the relationship of sexuality and space. The class will focus on the ways that sexuality creates particular spaces, and the ways that sexuality and space shape one another in the midst of nation, gender, religion, race, class, and generation.

**Prerequisites:** Sophomore standing required

**Credit Hours:** 3

---

**GEOG 3560: Native American Geographies**
A survey of the Native American geographies in the United States. Historical and contemporary topics are covered employing cross-cultural perspectives including some philosophical views of the Earth and society, sense of place, memory, sacred land, colonialism and GIS representations, and natural resources.

**Credit Hours:** 3

---

**GEOG 3560W: Native American Geographies - Writing Intensive**
A survey of the Native American geographies in the United States. Historical and contemporary topics are covered employing cross-cultural perspectives including some philosophical views of the Earth and society, sense of place, memory, sacred land, colonialism and GIS representations, and natural resources.

**Credit Hours:** 3

---

**GEOG 3600: Climates of the World**
(same as ATM_SC 3600). A study of the world distribution of climates based on "cause and effect" relationships. Special attention is given to the impacts of climate on humanity.

**Credit Hours:** 3
Prerequisites: GEOG 1050 or equivalent or graduate standing

GEOG 3610: Physical Geography of the United States
Study of natural regions of the United States by integrating topics from landforms, geology, climate, soils, vegetation, resources, and land use.
Credit Hours: 3
Prerequisites: GEOG 2610

GEOG 3630: Earth Surface Systems
Systematic study of landforms geomorphic processes governing them. Provides a foundation for the theoretical, technical, and practical understanding of environmental systems.
Credit Hours: 3

GEOG 3740: Geography and Planning
Emphasis on geographic techniques for gathering and generating environmental information for planners. Principles of land use planning will be applied to selected regions.
Credit Hour: 1-3

GEOG 3760: Geography of the World’s Religions
(same as REL_ST 3760). Explores the significance of place in the origin, diffusion, distribution and practice of religions, emphasizing imprints of religion on the cultural landscape and connections between culture, politics, economics, and religion.
Credit Hours: 3

GEOG 3760W: Geography of the World’s Religions - Writing Intensive
(same as REL_ST 3760). Explores the significance of place in the origin, diffusion, distribution and practice of religions, emphasizing imprints of religion on the cultural landscape and connections between culture, politics, economics, and religion.
Credit Hours: 3

GEOG 3780: World Political Geography: Patterns and Processes
(same as PEA_ST 3780). Geographic factors in the development of political boundaries traditions, and societal perspectives. Spatial patterns and geopolitical processes are explored in selected regions of the world.
Credit Hours: 3

GEOG 3800: Geography of Travel and Tourism
This course examines the fundamentals of the geography of tourism and travel in both foreign and domestic contexts. During the past few decades, tourism has been a fast growing industry around the world, although tourism can easily be negatively influenced by terrorism, natural disasters, and economic downturns. During the semester we'll look at several common types of tourism and focus on the positive and negative impacts of tourism upon local cultures, the environment, and economic development. Graded on A-F basis only.
Credit Hours: 3
Recommended: GEOG 1100 or GEOG 1200 or sophomore standing

GEOG 3830: Remote Sensing
Introduction to the principles of remote sensing of the environment. Digital imagery from spacecraft, conventional and high-altitude aerial photography, thermal imaging, and microwave remote sensing.
Credit Hours: 3
Recommended: GEOG 2840

GEOG 3840: Cartography
Principles of computer-assisted cartography. Automated cartographic display. "Hands on" experience with computer-mapping software and hardware systems. Role of computers in map design. Digital encoding of geographic data.
Credit Hours: 3
Prerequisites: GEOG 2840

GEOG 3904: Topics in Geography - Social Science
Organized study of selected topics. Subjects and earnable credit may vary from semester to semester. May be repeated up to 6 hours credit with departmental consent.
Credit Hour: 1-12
Prerequisites: sophomore standing

GEOG 4130: The Geospatial Sciences in National Security
(Same as CV_ENG 4175). This course explores the critical contribution of the geospatial sciences in the collection, processing, visualization and analysis of geospatial information related to national security. May be repeated for credit.
Credit Hours: 3
Prerequisites: junior standing or above required

GEOG 4390: Special Readings in Geography
Independent readings selected in consultation with supervisory faculty member. May be repeated to a maximum of 6 hours.
Credit Hour: 1-3
Prerequisites: instructor's consent and independent study contract

GEOG 4520: Environmental Biophysics
(Same as ATM_SC 4520). Students will learn techniques and principles used to describe the microenvironment of living organisms and use quantitative expressions to estimate missing values, and mass transfer laws to estimate flux of energy, water and gas.
Credit Hours: 3
Prerequisites: College Physics and Calculus I

GEOG 4550: Selected Themes in Cultural Geography
Case studies in the patterns and processes of human-environmental interactions. Study of the cultural forces responsible for the continual transformation of the earth's cultural landscapes.
Credit Hours: 3

GEOG 4560: Resources and Indigenous Peoples
This is a survey of indigenous peoples’ struggle to control and use natural resources, to have a say in determining the path of economic
development, and to restrain the destructive tendencies of colonialism and capitalism, challenging traditional state-to-state relations.

**Credit Hours:** 3  
**Prerequisites:** Junior standing required

---

**GEOG 4620: Biogeography: Global Patterns of Life**  
Analysis of the patterns and processes of plant distribution in the contemporary landscape, stressing environmental influences and vegetation dynamics, particularly as they relate to North American vegetation.

**Credit Hours:** 3  
**Recommended:** GEOG 2610

---

**GEOG 4630: River and Stream Dynamics**  
Systematic study of river mechanics, stream-channel form, river management and restoration. Provides a theoretical and practical understanding of stream systems.

**Credit Hours:** 3  
**Prerequisites:** GEOG 2610 and GEOG 3630, or instructor’s consent

---

**GEOG 4710: Spatial Analysis in Geography**  
Application of statistical methods to geographic research. Prepares students to utilize advanced methodologies and models in spatial analysis. Includes computer analysis of geographical data. Math Reasoning Proficiency Course

**Credit Hours:** 3  
**Prerequisites:** MATH 1100 or MATH 1120

---

**GEOG 4720: Seminar in Geography Education**  
Study and research on fundamental themes in geography. Integration of these themes into regional and systematic approaches to the teaching of geography. Enrollment is restricted to students pursuing or considering careers in teaching.

**Credit Hours:** 3  
**Prerequisites:** junior standing and instructor’s consent

---

**GEOG 4740: Location Analysis and Site Selection**  
(same as CV_ENG 4185). An overview of location analysis in regional planning and spatial decision support, this course focuses on the use of Geographic Information Science (GIS) and location analysis methods in addressing regional service needs. May be repeated for credit.

**Credit Hours:** 3

---

**GEOG 4770: Migration and Immigration**  
Explores demographic, economic, and social issues surrounding immigration and migration. The course focuses on the global labor migration system, immigration to the United States, and internal migration within the US, as well as the linkages between these systems.

**Credit Hours:** 3

---

**GEOG 4780: Selected Themes in Political Geography**  
Study of basic writing, dominant geographers, case studies, bibliographies and development of research methods.

**Credit Hours:** 3

---

**GEOG 4790: Geographic Information Systems for the Social Sciences**  
Designed for social science students interested in learning about the tools available in GIS for linking to and analyzing spatial qualitative data. Uses multiple data sources (qualitative and quantitative), applied within a social context, using spatial investigation procedures to detect geographical trends in data sets. Primary focus is on how GIS can enhance social science research.

**Credit Hours:** 3  
**Prerequisites:** juniors and seniors only

---

**GEOG 4810: Landscape Ecology and GIS Analysis I**  
(same as NAT_R 4385). Examination of the landscape-scale approach to biodiversity, ecosystem dynamics, and habitat management. Particular emphasis on the use of Geographic Information Systems to analyze the spatial dimension of ecological patterns and processes.

**Credit Hours:** 3  
**Prerequisites:** GEOG 3040, or instructor’s consent

---

**GEOG 4850: Transportation Geography**  
(same as CV_ENG 4155). Introduction to fundamental concepts and modes of analysis in transportation geography. Focus on descriptive, explanatory, as well as normative approaches. Topics reviewed include spatial organization, transportation economics, spatial interaction, network analysis, location/allocation, and urban transportation planning.

**Credit Hours:** 3

---

**GEOG 4860: Advanced Remote Sensing**  
Advanced remote sensing to provide digital image processing techniques for satellite and airborne imagery; emphasis on spatial/spectral analysis, image classification and land use/land cover change detection. Class project heavily involved.

**Credit Hours:** 3  
**Prerequisites:** GEOG 3830

---

**GEOG 4904: Topics in Geography-Social Science**  
Organized study of selected topics. Subjects and earnable credit may vary from semester to semester. Must get departmental Consent for repetition.

**Credit Hour:** 1-12  
**Prerequisites:** junior standing

---

**GEOG 4904W: Topics in Geography-Social Science - Writing Intensive**  
Organized study of selected topics. Subjects and earnable credit may vary from semester to semester. Must get departmental Consent for repetition.

**Credit Hour:** 1-12  
**Prerequisites:** junior standing

---

**GEOG 4940: Advanced Geographic Information Systems (GIS II)**  
(cross-levelled with GEOG 7940). Advanced study of geographic and spatial analysis and modeling utilizing Geographic Information Systems
technology. Focus on project management, research applications, and
geostatistical analysis through independent research projects.

Credit Hours: 3
Prerequisites: GEOG 3040 or instructor's permission

GEOG 4945: Internship in Applied Geography and Cartography
Regularized individual work experience with local, regional, state or
national agencies, with guidance and readings supplied by faculty
coordinator. May repeat to maximum of 6 hours.

Credit Hour: 1-3
Prerequisites: Departmental consent required

GEOG 4990: Senior Seminar in Geography
A seminar in selected themes in Geography. Class will focus on research,
writing, presenting, and discussing themes in contemporary geography.
Required of all majors prior to graduation.

Credit Hours: 3
Prerequisites: 5 courses in geography or instructor's consent

GEOG 4996H: Honors in Geography
Special work for Honors candidates in geography. Prerequisites: Honors
eligibility required

Credit Hours: 3

GEOG 4996HW: Honors in Geography - Honors/Writing Intensive
Special work for Honors candidates in geography. Prerequisites: Honors
eligibility required

Credit Hours: 3

GEOG 7130: The Geospatial Sciences in National Security
(Same as CV_ENG 7175). This course explores the critical contribution
of the geospatial sciences in the collection, processing, visualization and
analysis of geospatial information related to national security. May be
repeated for credit.

Credit Hours: 3
Prerequisites: junior standing or above required; instructor's consent

GEOG 7150: Meteorology of the Biosphere
(same as ATM_SC 7520). Energy balance and mass transfer
microenvironment of plants and animals. Effects of weather events on
plants and animal production discussed.

Credit Hours: 3
Prerequisites: graduate standing and MATH 1400 or equivalent; one
year of college physics; or instructor's consent

GEOG 7550: Selected Themes in Cultural Geography
Case studies in the patterns and processes of human-environmental
interactions. Study of the cultural forces responsible for the continual
transformation of the earth's cultural landscapes.

Credit Hours: 3

GEOG 7560: Resources and Indigenous Peoples
This is a survey of indigenous peoples' struggle to control and use
natural resources, to have a say in determining the path of economic
development, and to restrain the destructive tendencies of colonialism
and capitalism, challenging traditional state-to-state relations.

Credit Hours: 3

GEOG 7620: Biogeography: Global Patterns of Life
Analysis of the patterns and processes of plant distribution in the
contemporary landscape, stressing environmental influences and
vegetation dynamics, particularly as they relate to North American
vegetation.

Credit Hours: 3
Prerequisites: GEOG 2610 or instructor's consent

GEOG 7630: River and Stream Dynamics
Systematic study of river mechanics, stream-channel form, river
management and restoration. Provides a theoretical and practical
understanding of stream systems.

Credit Hours: 3
Prerequisites: GEOG 2610 and GEOG 3630, or instructor's consent

GEOG 7710: Spatial Analysis in Geography
Application of statistical methods to geographic research. Prepares
students to utilize advanced methodologies and models in spatial
analysis. Includes computer analysis of geographical data.

Credit Hours: 3

GEOG 7720: Seminar in Geography Education
Study and research on fundamental themes in geography. Integration of
these themes into regional and systematic approaches to the teaching of
geography. Enrollment is restricted to students pursuing or considering
careers in teaching.

Credit Hours: 3
Prerequisites: instructor's consent

GEOG 7740: Location Analysis and Site Selection
(Same as CV_ENG 7185). An overview of location analysis in regional
planning and spatial decision support, this course focuses on the use of
Geographic Information Science (GIS) and location analysis methods in
addressing regional service needs. May be repeated for credit.

Credit Hours: 3

GEOG 7770: Migration and Immigration
As fertility and mortality decline to record low levels, immigration
and migration have become the primary components of population
change. Changes brought on by immigration to a country and the
internal redistribution of population via migration pose challenges to
governments, economic development, social and cultural relations, and
environmental sustainability. This course explores issues surrounding
immigration and migration. Beginning with the demographic overview of
immigration, it focuses on the challenges faced by immigrant, sending, and receiving nations in the global migration system. The second part of the course focuses on the array of issues surrounding immigration to the United States, including the socio-economic adaptation of immigrants, the economic and cultural impacts of immigration, and illegal immigration. The third part of the course focuses on internal migration within migration within the US, discussing topics such as migration to the Sunbelt, Great Plains depopulation, poverty migration, migration to the suburbs, and migration's impact on community. Linkages between domestic migration and immigration will also be explored.

Credit Hours: 3

**GEOG 7780: Selected Themes in Political Geography**
Study of basic writing, dominant geographers, case studies, bibliographies and development of research methods.
Credit Hours: 3

**GEOG 7790: Geographic Information Systems for the Social Sciences**
Designed for social science students interested in learning about the tools available in GIS for linking to an analyzing spatial qualitative data. Uses multiple data sources (qualitative and quantitative), applied within a social context, using spatial investigation procedures to detect geographical trends in data sets. Primary focus is on how GIS can enhance social science research.
Credit Hours: 3

**GEOG 7810: Landscape Ecology and GIS Analysis I**
(same as NAT_R 7385). Examination of the landscape-scale approach to biodiversity, ecosystem dynamics, and habitat management. Particular emphasis on the use of Geographic Information Systems to analyze the spatial dimension of ecological patterns and processes.
Credit Hours: 3
Prerequisites: instructor's consent

**GEOG 7840: Geographic Information Systems I**
Introductory study of theory, concepts and techniques related to basic analysis, creation and processing of geographic and spatial data using Geographic Information Systems (GIS). Independent learning and computer-based laboratory exercises supplement theoretical lectures and discussion.
Credit Hours: 3

**GEOG 7850: Transportation Geography**
(same as CV_ENG 7155). Introduction to fundamental concepts and modes of analysis in transportation geography. Focus on descriptive, explanatory, as well as normative approaches. Topics reviewed include spatial organization, transportation economics, spatial interaction, network analysis, location/allocation, and urban transportation planning.
Credit Hours: 3

**GEOG 7860: Advanced Remote Sensing**
Advanced remote sensing to provide digital image processing techniques for satellite and airborne imagery; emphasis on spatial/spectral analysis, image classification and land use/land cover change detection. Class project heavily involved.
Credit Hours: 3
Prerequisites: GEOG 3830

**GEOG 7904: Topics in Geography-Social Science**
Organized study of selected topics. Subjects and earnable credit may vary from semester to semester. May be repeated for credit with departmental consent.
Credit Hour: 1-12
Prerequisites: instructor's consent

**GEOG 7940: Advanced Geographic Information Systems (GIS II)**
(cross-leveled with GEOG 4940). Advanced study of geographic and spatial analysis and modeling utilizing Geographic Information Systems technology. Focus on project management, research applications, and geostatistical analysis through independent research projects.
Credit Hours: 3
Prerequisites: GEOG 7840 or instructor's consent

**GEOG 8080: Research in Geography**
Research not leading to a thesis. May be repeated to a maximum of 6 hours. Graded on S/U basis only.
Credit Hour: 1-6
Prerequisites: instructor's consent

**GEOG 8085: Special Investigations in Geography**
Advanced studies to meet the needs of the individual student. May be repeated to a maximum of 6 hours.
Credit Hour: 1-3
Prerequisites: instructor's consent and independent study contract

**GEOG 8090: Research in Geography**
Research leading to a thesis. May be repeated to a maximum of 8 hours. Graded on S/U basis only.
Credit Hour: 1-8
Prerequisites: instructor's consent and independent study contract

**GEOG 8100: Seminar in World Regional Geography I**
Problems in the teaching of world regional geography on college level.
Credit Hour: 1
Prerequisites: instructor's consent

**GEOG 8120: Seminar in the Geography of Anglo-America**
Readings and research on problems in the geography of the United States and Canada.
Credit Hour: 1-3
Prerequisites: restricted to graduate Geography majors or instructor's consent

**GEOG 8200: Seminar in World Regional Geography II**
Continuation of course GEOG 8100.
Credit Hour: 1

</table>
GEOL 2100: Independent Study in Geology
Directed Library research in geological topics, under the supervision of faculty sponsor. May be repeated for a maximum of 3 hours credit.

Credit Hours: 1-3
Prerequisites: instructor's consent

GEOL 2110: Introduction to Soil Science with Laboratory (same as SOIL 2110). Introduction to Soil Science with emphasis placed on physical, biological, and chemical properties and applications to land use, plant growth, and environmental problems with laboratory application of these concepts.

Credit Hours: 5
Prerequisites: CHEM 1320

GEOL 2120H: Faults and Earthquakes: Past, Present, and Future
Seminar in science and societal ramifications of earthquakes. Geologic background includes causes, behavior, and distribution of faults. Student-led discussions cover historical disasters, economic, political, psychological, and cultural perspectives.

Credit Hours: 3
Prerequisites: ENGLSH 1000
Recommended: Honors eligibility

GEOL 2150: The Age of the Dinosaurs
Study of the evolution of dinosaurs during the Mesozoic Era. New information on dinosaur life habits, food resources, dispersal by plate tectonics, and theories of extinction will be covered.

Credit Hours: 3
Prerequisites: 1000-level science course

GEOL 2160H: Volcanoes and the Human Environment - Honors (same as GN_HON 2450H). This course gives students an understanding of how volcanoes work, how they are studied, and how they have impacted human cultures. Students will gain appreciation of volcanology as a broad scientific discipline within geology and the role that science plays in public policy. Graded on A/F basis only.

Credit Hours: 3
Prerequisites: ENGLISH 1000
Recommended: Honors eligibility required

GEOL 2200: Oceanography
Topics include: history and methods of marine research, properties of seawater, ocean circulation, biological productivity and zonation, origin and classification of marine sediments, character of major coastal and open-ocean environments, economic resources and environmental hazards. Math Reasoning Proficiency Course.

Credit Hours: 3
Prerequisites: MATH 1100 or equivalent

GEOL 2220H: Honors Seminar: Headline Topics in the Geological Science
Seminar organized around a central theme that is the focus of intense ongoing research and public debate.

Credit Hours: 3

GEOL 2300: Earth Systems and Global Change
Study of the earth as a whole, taking into account the many interwoven components of the geosphere, hydrosphere, atmosphere and biosphere.

Credit Hours: 3
Recommended: 1000-level Science course

GEOL 2350: Historical Geology
Summary of principles and techniques used in reconstructing Earth's history. Survey of major events that have affected Earth and its inhabitants. Review of geologic history of North America.

Credit Hours: 3
Prerequisites: GEOL 1100 or GEOL 1150 or GEOL 1200 and ENGLISH 1000

GEOL 2360: Historical Geology Laboratory
A laboratory course designed to improve understanding of Earth History by examination of maps and mineral, rock, sediment and fossil samples.

Credit Hour: 1
Prerequisites: GEOL 1100 or GEOL 1150 or GEOL 1200
Corequisites: GEOL 2350

GEOL 2400: Surficial Earth Processes and Products with Laboratory
Semiquantitative analysis of geologic processes that shape the earth's surface. Includes topics in sedimentation and geomorphology.

Credit Hours: 4
Prerequisites: GEOL 1100 or GEOL 1150 or GEOL 1200, and MATH 1100

GEOL 2450: Global Water Cycle
Study of environmental geochemical factors controlling the composition of natural waters, and sources of water's constituents (natural or human-produced). Math Reasoning Proficiency Course.

Credit Hours: 3
Prerequisites: MATH 1100
Recommended: 1000-level science course

GEOL 2500: Regional Geology Field Trip
Field based study of a particular geologic region, including classroom preparation prior to the field trip. The trip will last 7-10 days, either during Spring Break or immediately after finals week. May be repeated for credit.

Credit Hours: 3
Prerequisites: GEOL 1100 or GEOL 1150 or GEOL 1200

GEOL 2600: Mineral and Energy Resources of the Earth
This course examines the geology of Earth's major mineral and energy resources—their origin, distribution, and characteristics—and societal implications of their use and abundance. Major topics: fossil fuels, nuclear energy, base & precious metals, non-metallic minerals, water.

Credit Hours: 3
Prerequisites: GEOL 1100 or GEOL 1150 or GEOL 1200
GEOL 3085: Problems in Geological Sciences
Problems in Geological Sciences.
Credit Hour: 1-5
Prerequisites: instructor's consent

GEOL 3110: Geology of Missouri
The physical, historical, and environmental geology of Missouri are described, discussed and interpreted.
Credit Hours: 3
Prerequisites: ENGLISH 1000 and either GEOL 1100 or GEOL 1200

GEOL 3115: Geology of Missouri Laboratory
A field based and laboratory based course that uses standard geological techniques to interpret the rock record of Boone County and Missouri.
Credit Hour: 1
Corequisites: GEOL 3110

GEOL 3200: Rocks and Rock-Forming Minerals: Identification, Occurrence and Origin
Introduction to the classification, occurrence, and origin of rocks and rock-forming minerals.
Credit Hours: 3
Prerequisites: GEOL 1100 or GEOL 1200 and CHEM 1310

GEOL 3210: Rocks and Rock-Forming Minerals Laboratory
Identification of rock-forming minerals and rocks in hand specimen by their physical properties.
Credit Hour: 1
Corequisites: GEOL 3200

GEOL 3250: Mineralogy
Introduction to crystallography, crystal chemistry and crystal structures. Systematic study of mineral groups. Includes identification of minerals by physical, chemical and optical properties.
Credit Hours: 5

GEOL 3300: Introduction to Geochemistry
Credit Hours: 3
Prerequisites or Corequisites: CHEM 1330
Prerequisites: MATH 1400 or MATH 1500, and GEOL 1100 or GEOL 1150 or GEOL 1200

GEOL 3550: Introduction to Paleontology with Laboratory
Study of the morphology, paleontology, patterns of evolution, and causes of extinction in geologically important groups of invertebrate and vertebrate fossils. Lab concentrates on identification of biostratigraphically important fossils (mostly invertebrates). Several half-day field trips.
Credit Hours: 4
Prerequisites: GEOL 1100 or GEOL 1150 or GEOL 1200

GEOL 3650: Structural Geology
The mechanical behavior of earth materials. Analysis of the geometry and mechanics of faults, fractures, and folds. Laboratory includes problems on stresses and strains associated with deformation, geometric analysis of deformation structures, and interpretation of geologic maps.
Credit Hours: 4
Prerequisites: GEOL 1100 or GEOL 1150 or GEOL 1200 and MATH 1140 or MATH 1160 or MATH 1500

GEOL 3800: Sedimentology and Stratigraphy with Lab
Mechanics of sediment transport by fluid flow and gravity flow, origins of stratification and sedimentary structures, facies characteristics depositional environments.
Credit Hours: 4
Prerequisites: GEOL 3250

GEOL 4002: Topics in Geological Sciences-Biological/Physical/Mathematics
Organized study of selected topics. Subjects and earnable credit may vary. May be repeated with departmental consent.
Credit Hour: 1-99
Prerequisites: instructor's consent

GEOL 4100: Groundwater Hydrology
(cross-leveled with GEOL 7100). Analysis of groundwater occurrence, flow, recovery, and solute transport within shallow levels of the Earth's crust.
Credit Hours: 3
Prerequisites: GEOL 1100 or GEOL 1150 or GEOL 1200, and PHYSCS 1210 or PHYSCS 2750, and MATH 1400 or MATH 1500

GEOL 4110: Karst Hydrology
The hydrology of karst terrains is taught from the perspective of integrated drainage basins. Discussion addresses the origin and hydrogeology of karst aquifers and the biology of the animals that live in karstic aquifers.
Credit Hours: 3
Prerequisites: instructor's consent

GEOL 4120: Engineering Geology
(cross-leveled with GEOL 7120). Fundamentals of earth materials and geological processes and their applications in engineering works and environmental sciences. Includes properties of minerals and rocks, rock and soil mechanics, surficial geological processes, and practice of engineering.
Credit Hours: 3
Prerequisites: GEOL 1100 or GEOL 1150 or GEOL 1200, and MATH 1500, or instructor's consent

GEOL 4130: Groundwater Modeling
Use of leading groundwater flow and contamination modeling software. Theory of groundwater flow, solute transport, and selected numerical solution techniques. Applications to water resource, environmental, and geological problems.

<tr>
<td>GEOL 4100</td>
<td><strong>Solar System Science</strong> (same as PHYSCS 4180 and ASTRON 4180). Investigates physical states, interior structures and comparative geology of solar systems bodies: planets, moons, asteroids, comets, sun. Solar system formation and evolution.</td>
<td>3</td>
<td>GEOL 4100 or equivalent</td>
</tr>
<tr>
<td>GEOL 4200</td>
<td>Economic Geology with Laboratory Geochemistry of ore deposits. Introduction to types of mineral deposits, genesis of ore, and current areas of research. Laboratory emphasizes hand-specimen and polished-section studies of a wide variety of ore deposit types.</td>
<td>4</td>
<td>GEOL 4200 or equivalent</td>
</tr>
<tr>
<td>GEOL 4210</td>
<td>Marine Geology Comprehensive examination of the geology of the oceans. Topics include techniques of data collection and interpretation, physical oceanography, origin of marine sediments, marine tectonics, and ocean history.</td>
<td>3</td>
<td>GEOL 4210 or equivalent</td>
</tr>
<tr>
<td>GEOL 4300</td>
<td>Introduction to Low-Temperature Geochemistry Introduction to the chemical alteration of rock-forming minerals in weathering environments and to factors controlling the chemical composition of subsurface water.</td>
<td>3</td>
<td>GEOL 4300 or equivalent</td>
</tr>
<tr>
<td>GEOL 4318</td>
<td>Environmental Soil Chemistry (same as SOIL 4318 and ENV_SC 4318). Study of chemical constituents and processes occurring in soils. Topics include soil minerals and weathering processes, organic matter, solution chemistry, oxidation-reduction reactions and adsorption processes.</td>
<td>3</td>
<td>GEOL 4318 or equivalent</td>
</tr>
<tr>
<td>GEOL 4350</td>
<td>Patterns and Processes in the Fossil Record (cross-leveled with GEOL 7350). The purposes of this course are to 1) analyze patterns in the history of life and 2) to recognize the biased processes that led to its preservation. We will accomplish these goals by examining two disparate fossil preservation pathways: 1) Konservat lagerstätten: fossil deposits that are notorious for the exceptional and rare preservation of soft tissues and 2) Konzentrat lagerstätten: fossil deposits that are exceptional for the enormous amount of fossilized skeletal material they contain. Through careful examination of both the rare and the hyper-abundant, we can address the fundamental question of paleobiology: how literally can the fossil record be read as the history of life? Graded on A-F basis only.</td>
<td>3</td>
<td>GEOL 4350 or equivalent</td>

<td>GEOL 4700 or equivalent</td>
</tr>
<tr>
<td>GEOL 4800</td>
<td>Introduction to Geophysics Introduction to the fundamentals of geophysical methods and their applications in geology, environmental studies, and exploration. Topics include seismic, gravity, magnetic, and electric methods.</td>
<td>3</td>
<td>GEOL 4800 or equivalent</td>
</tr>
</tbody>
</table>
GEOL 4900: Igneous and Metamorphic Petrology with Laboratory
Introduction to igneous and metamorphic rock associations and rock-forming processes. Emphasis on understanding the evolution of the Earth in view of igneous and metamorphic rock petrogenesis.

Credit Hours: 3
Prerequisites: GEOL 1100 or GEOL 1150 or GEOL 1200 and MATH 1700 or instructor's consent

GEOL 4950: Senior Thesis
Research conducted in an area of the Geological Sciences under the auspices of a member of the faculty. Under normal circumstances, this research should be completed over two semesters. May be repeated for a maximum of 3 hours credit.

Credit Hour: 1-3

GEOL 4990: Communicating in the Earth Sciences
Synthesis of Geology curriculum through study of classic Earth Science papers. Emphasizes critical analysis of scientific papers, data interpretation, science writing and oral presentations. Satisfies Capstone for BA in Environmental Geology.

Credit Hours: 3
Prerequisites: instructors consent

GEOL 4991: Capstone in Environmental Geology
Readings and discussions in selected areas of environmental geology. Subject depends on instructor. 3 credit hour Capstone must be completed unless student completes a Senior Thesis. In that case, Capstone + Senior Thesis credit hours must equal 3.

Credit Hour: 1-3

GEOL 4992: Geology Field Camp

Credit Hours: 6
Recommended: GEOL 2350, GEOL 3650, and GEOL 3800

GEOL 7002: Topics in Geological Sciences-Biological/Physical/Mathematics
Organized study of selected topics. Subjects and earnable credit may vary. May be repeated with departmental consent.

Credit Hour: 1-99
Prerequisites: instructor's consent

GEOL 7085: Problems in Geological Sciences
Credit Hour: 1-8
Prerequisites: instructor's consent

GEOL 7100: Groundwater Hydrology
(cross-leveled with GEOL 4100). Analysis of groundwater occurrence, flow, recovery, and solute transport within shallow levels of the Earth's crust.

Credit Hours: 3
Prerequisites: GEOL 1100 or GEOL 1150 or GEOL 1200, and PHYSCS 1210 or PHYSCS 2750, and MATH 1400 or MATH 1500

GEOL 7110: Karst Hydrology
Study of the mechanisms of groundwater flow in Karst terrains. Emphasizing several scales including that of a conduit, a catchment, and regional framework.

Credit Hours: 3
Prerequisites: instructor's consent

GEOL 7120: Engineering Geology
(cross-leveled with GEOL 4120). Fundamentals of earth materials and geological processes and their applications in engineering works and environmental sciences. Includes properties of minerals and rocks, rock and soil mechanics, surficial geological processes, and practice of engineering.

Credit Hours: 3
Prerequisites: GEOL 1100 or GEOL 1150 or GEOL 1200 and MATH 1500, or instructor's consent

GEOL 7130: Groundwater Modeling
Use of leading groundwater flow and contamination modeling software. Theory of groundwater flow, solute transport, and selected numerical solution techniques. Applications to water resource, environmental, and geological problems.

Credit Hours: 3
Prerequisites: GEOL 4100 or equivalent

GEOL 7180: Solar System Science
(same as PHYSCS 7180 and ASTRON 7180). Investigates physical states, interior structures and comparative geology of solar systems bodies: planets, moons, asteroids, comets, sun. Solar system formation and evolution.

Credit Hours: 3
Prerequisites: MATH 1700 and PHYSCS 1220 or PHYSCS 2760 or instructor's consent

GEOL 7200: Economic Geology with Laboratory
Geochemistry of ore deposits. Introduction to types of mineral deposits, genesis of ore, and current areas of research. Laboratory emphasizes hand-specimen and polished-section studies of a wide variety of ore deposit types.

Credit Hours: 4
Prerequisites: GEOL 4900

GEOL 7210: Marine Geology
Comprehensive examination of the geology of the oceans. Topics includes techniques of data collection and interpretation, physical oceanography, origin of marine sediments, marine tectonics, and ocean history.
GEOL 3250: Introduction to Low-Temperature Geochemistry
Introduction to the chemical alteration of rock-forming minerals in weathering environments and to factors controlling the chemical composition of subsurface water.

Credit Hours: 3
Prerequisites: GEOL 3800 CHEM 1330 and PHYSCS 1220

GEOL 7300: Introduction to Low-Temperature Geochemistry
Introduction to the chemical alteration of rock-forming minerals in weathering environments and to factors controlling the chemical composition of subsurface water.

Credit Hours: 3
Prerequisites: GEOL 3250, GEOL 3650 or instructor's consent

GEOL 7318: Environmental Soil Chemistry
(same as SOIL 7318 and ENV_SC 7318). Study of chemical constituents and processes occurring in soils. Topics include soil minerals, and weathering processes organic matter, solution chemistry, oxidation-reduction reactions and adsorption processes.

Credit Hours: 3
Prerequisites: SOIL 2100 or GEOL 2400, CHEM 1320 and CHEM 1330 or instructor's consent

GEOL 7350: Patterns and Processes in the Fossil Record
(cross-leveled with GEOL 4350). The purposes of this course are to 1) analyze patterns in the history of life and 2) to recognize the biased processes that led to its preservation. We will accomplish these goals by examining two disparate fossil preservation pathways: 1) Konservat lagerstätten: fossil deposits that are notorious for the exceptional and rare preservation of soft tissues and 2) Konzentrat lagerstätten: fossil deposits that are exceptional for the enormous amount of fossilized skeletal material they contain. Through careful examination of both the rare and hyper-abundant we can address the fundamental question of paleobiology: how literally can the fossil record be read as the history of life? Graded on A-F basis only.

Credit Hours: 3
Prerequisites: GEOL 3650 or GEOL 4650

GEOL 7400: Geomicrobiology and Microbial Biogeochemistry
Roles of microbes in a variety of geological settings through time. Microbial roles in degradation of organic pollutants and transformation of toxic metals and radionuclides in contaminated environments.

Credit Hours: 3
Prerequisites: GEOL 3300 or instructor's consent

GEOL 7500: Organic Geochemistry
Topics include chemistry of petroleum-forming reactions and their kinetic parameters; use of organic-chemical criteria in source-rock evaluation; carbon isotope fractionation in organic precursors of biological molecules; early history of earth's atmosphere.

Credit Hours: 3
Prerequisites: instructor's consent

GEOL 7560: Plate Tectonics
(cross-leveled with GEOL 4650). Formation, evolution, and structure of the earth. Rules, causes, and implications of plate tectonics with emphasis on present-day features.

Credit Hours: 3
Prerequisites: GEOL 3250, GEOL 3650 or instructor's consent

GEOL 7680: Neotectonics and Earthquake Geology
(cross-leveled with GEOL 4680). Introduction to techniques and concepts of active crustal deformation from the geological and geodetic perspectives. Topics include tectonic geomorphology, paleoseismology, Quaternary dating, tectonic geodesy, numerical models of faults, and earthquake hazard assessment.

Credit Hours: 3
Prerequisites: GEOL 3650 or GEOL 4650

GEOL 7700: Theoretical Geochemistry
Introduction to theoretical concepts in low and high temperature geochemistry. Topics include thermodynamics of fluids, gases and solids in geological materials, phase diagrams, equilibrium constants, electrolyte theory, oxidation-reduction reactions.

Credit Hours: 3
Prerequisites: GEOL 3250, CHEM 1330 and MATH 1700

GEOL 7750: Microanalysis for Geological Sciences
(cross-leveled with GEOL 4750). This course is intended to provide a working knowledge of electron and X-ray microbeam analytical instruments - both in principle and in practice. Lectures will focus on the physics of how these instruments collect data, and how these data can be interpreted. In addition, students will gain hands-on experience with operating these instruments, specifically on their own samples, as well as preparing their samples for microanalysis and interpreting/manipulating the resulting data. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: Instructor's consent (Instrument time is limited; graduate students who will use the instruments in their research will have priority)

GEOL 7800: Introduction to Geophysics
(cross-leveled with GEOL 4800). Introduction to the fundamentals of geophysical methods and their applications in geology, environmental studies, and exploration. Topics include seismic, gravity, magnetic, and electric methods.

Credit Hours: 3
Prerequisites: GEOL 1100 or GEOL 1150 or GEOL 1200 and MATH 1700 or instructor's consent

GEOL 7990: Research in Geological Sciences-Masters
Does not lead to dissertation.

Credit Hour: 1-8

GEOL 7991: Investigation of Earth Materials
Hands-on experience in all facets of quantitative field and laboratory analyses of near-surface earth materials.

Credit Hours: 3
Prerequisites: GEOL 2350, GEOL 4100, and GEOL 3800

GEOL 8002: Topics in Geological Sciences
Organized study of selected topics. May be repeated with departmental consent.

Credit Hours: 3
Prerequisites: PhD standing, instructor's consent
GEOL 8050: Research in Geological Sciences-Masters Non-Thesis  
Research leading to a non-thesis Masters project. Graded on S/U basis only.  
Credit Hour: 1-3

GEOL 8085: Problems in Geological Sciences  
Credit Hour: 1-8  
Prerequisites: instructor's consent

GEOL 8090: Research in Geological Sciences-Masters Thesis  
Preparation of dissertation. Graded on a S/U basis only.  
Credit Hour: 1-99

GEOL 8100: Continental Tectonics  
The structural, metamorphic, and igneous evolution of mountain belts and continental rifts with emphasis on convergent margin settings and terrane accretion processes and products. Case studies are considered from the Precambrian to the recent.  
Credit Hours: 3  
Prerequisites: GEOL 3650 and GEOL 4900

GEOL 8140: Metamorphic Petrology  
Petrography and petrology of metamorphic rocks. Emphasis on textures, mineral assemblages, and mineral chemistry in order to determine the physico-chemical condition of metamorphism.  
Credit Hours: 3  
Prerequisites: GEOL 3250 and GEOL 4900

GEOL 8150: Earthquake Seismology  
Credit Hours: 3  
Prerequisites: GEOL 8320

GEOL 8160: Igneous Petrology  
Studies of the origin and evolution of magmas with use of phase equilibria, physical properties, and kinetics.  
Credit Hours: 3  
Prerequisites: GEOL 3250 and GEOL 4900

GEOL 8170: Radiogenic Isotope Geochemistry  
Studies of the application of trace element and radiogenic isotope systematics to petrogenesis of rocks.  
Credit Hours: 3  
Prerequisites: GEOL 4900

GEOL 8190: Advanced Paleontology  
Principles of taxonomy, biostratigraphy, functional morphology and paleoecology are illustrated by individual projects that combine field collecting, laboratory examination and literature research.  
Credit Hours: 3  
Prerequisites: GEOL 4550

GEOL 8200: Advanced Structural Geology  
Credit Hours: 3  
Prerequisites: GEOL 3650

GEOL 8210: Advanced Aqueous Geochemistry  
Study of mineral-water interface geochemistry. Course will cover dissolution and precipitation kinetics, sorption reactions, and current theories.  
Credit Hours: 3  
Prerequisites: GEOL 4300 or GEOL 7300 or instructor's consent

GEOL 8230: Groundwater and Subsurface Geomicrobiology  
Distribution of microorganisms in subsurface environments and the effects of microbial activity on groundwater chemistry. In situ bioremediation of contaminated aquifers by subsurface microorganisms.  
Credit Hours: 3  
Prerequisites: GEOL 4400

GEOL 8240: Hydrolgeologic Processes  
Quantitative analysis of role of groundwater in major geologic processes. Theory review of fluid flow, heat transport, reactive solute transport in porous media. Applications to sedimentary diagenesis, hydrothermal ore deposits, petroleum migration, earthquakes, magmatism, metamorphism.  
Credit Hours: 3  
Prerequisites: GEOL 4100 or GEOL 7100 or equivalent

GEOL 8300: Precambrian History  
Coupled evolution of the biosphere, lithosphere, hydrosphere, and atmosphere over the span of Precambrian history. Topics will be discussed largely in the context of biological evolutionary events and the fossil record, as well as with a focus on geochemical records.  
Credit Hours: 3

GEOL 8320: Introduction to Seismology  
Credit Hours: 3  
Prerequisites: PHYSCS 2760, MATH 4500 and CMP_SC 1050

GEOL 8350: Marine Chemistry  
Survey of biogeochemical processes in shallow and deep marine settings. Topics include sediment diagenesis, geochemical tracers, nutrient patterns and pathways, global biogeochemical cycles, paleoceanographic proxy records, and integrated paleoenvironmental reconstructions of ancient marine sequences.  
Credit Hours: 3
GEOL 8400: Ancient Greenhouse Climate
Will explore a wide range of data concerning greenhouse climates and different techniques used in paleoclimatology. Graded on A/F basis only.
Credit Hours: 3
Prerequisites: GEOL 3800, GEOL 3500 and GEOL 4300

GEOL 8450: Tectonics and Sedimentation
Global survey of modern and ancient convergent plate boundaries with an emphasis on sedimentary facies and structural styles.
Credit Hours: 3
Prerequisites: GEOL 3650, GEOL 3800 and instructor's consent

GEOL 8510: Geodynamics
This course is designed to cover the fundamentals of the quantitative aspects of Plate Tectonics. The study of these subjects is generally referred to as Geodynamics or Geodynamic Theory. This theory revolutionized the earth sciences and the way people think of earth processes. By definition Geodynamics is an interdisciplinary paradigm therefore it is necessary to cover a wide range of topics from heat transfer to gravity. This course will overlap with subjects covered in both Plate Tectonics and Geophysics but we will emphasize the quantitative aspects of this theory in this course.
Credit Hours: 3
Prerequisites: MATH 1700, PHYSCS 2760

GEOL 8550: Stable Isotope Geochemistry
Mechanisms and fundamental concepts of fractionation of light stable isotopes in nature. Emphasizes application of hydrogen, carbon, oxygen and sulfur isotopes to igneous, metamorphic and sedimentary rocks, metallic ore deposits, and to natural waters.
Credit Hours: 3
Prerequisites: instructor's consent

GEOL 8600: Quaternary Environments
Study of the Earth's most recent glacial/interglacial cycles.
Credit Hours: 3
Prerequisites: instructor's consent

GEOL 8650: Thermal Processes in the Solid Earth
Principles of heat transfer in solid earth by conduction, advection and convection. Basic analytic and numerical solutions. Application in Earth's dynamic system, environmental sciences, and geological problems.
Credit Hours: 3
Prerequisites: MATH 1700, PHYSCS 1220 or PHYSCS 2760

GEOL 8750: Silicate Glasses, Liquids and Magmas
Theory of silicate liquid viscosity, heat capacity and configurational entropy, emphasizing the role of volatile components. Applications to magma rheology and eruptive behavior. Lab instruction in viscometry techniques.
Credit Hours: 3
Prerequisites: GEOL 4900 and GEOL 4700, or instructor's consent

GEOL 8800: Applied Numerical Analysis
A study of applied mathematical analysis of spatial and temporal data as applied in the geosciences.
Credit Hours: 3
Prerequisites: MATH 1700 or MATH 2300, PHYSCS 1220 or PHYSCS 2760

German Courses

GERMAN 1100: Elementary German I
For beginners with no prior knowledge of German. This course helps learners develop the skills they need to use German as a means of communication in their personal and professional life. It covers a wide variety of vocabulary pertaining to everyday life; emphasis is on all types of communication--oral and listening skills, reading and writing.
Credit Hours: 5

GERMAN 1100H: Elementary German I - Honors
This course is designed for Honors students with little or no German language background and will provide students with a foundation in vocabulary and grammar in order to develop communication proficiency in German. Students will be trained using the five skills: listening, speaking, writing, reading and cultural knowledge. The course will be taught as a total immersion class and thus differs from the standard elementary German sequence. Furthermore, students will be required to complete lengthier reading and writing tasks as well as present a final oral multimedia project at the end of the semester.
Credit Hours: 5
Prerequisites: Honors eligibility required

GERMAN 1150: Freshman Introduction to German Studies
Introduction to German Studies as academic field. Small seminar setting with senior faculty, their favorite texts, and questions pursued in the research and teaching. Recommended for all students interested in integrating German studies into their academic career, conducted in English.
Credit Hour: 1
Prerequisites: Restricted to Freshman students only

GERMAN 1200: Elementary German II
A continuation of GERMAN 1100. This course helps learners develop the skills they need to use German as a means of communication in their personal and professional life. It covers a wide variety of vocabulary pertaining to everyday life; emphasis is on all types of communication - oral and listening skills, reading and writing.
Credit Hours: 5
Prerequisites: C- or better in GERMAN 1100, or equivalent
### GERMAN 1200H: Elementary German II - Honors
This course is designed for Honors students who either took the GERMAN 1100H section or are placing into GERMAN 1200 as honors eligible students. The main focus of this course is on further development of basic communication skills in speaking, listening, reading, and writing in German adding more nuanced cultural and sociolinguistic competencies in a total immersion environment.

**Credit Hours:** 5  
**Prerequisites:** Honors eligibility required

---

### GERMAN 2001: Undergraduate Topics in German-General
Organized study of selected topics. Subjects and credits may vary from semester to semester. May be repeated with departmental consent.

**Credit Hour:** 1-3

---

### GERMAN 2005: Undergraduate Topics in German-Humanities
Organized study of selected topics. Subjects and credits may vary from semester to semester. May be repeated with departmental consent. No language credit.

**Credit Hour:** 1-3

---

### GERMAN 2005H: Undergraduate Topics in German-Humanities - Honors
Organized study of selected topics. Subjects and credits may vary from semester to semester. May be repeated with departmental consent. No language credit.

**Credit Hour:** 1-3  
**Prerequisites:** Honors eligibility required

---

### GERMAN 2100: Intermediate German I
A continuation of GERMAN 1200. This course helps learners develop the skills they need to use German as a means of communication in their personal and professional life. It covers a wide variety of vocabulary pertaining to everyday life; emphasis is on all types of communication - oral and listening skills, reading and writing.

**Credit Hours:** 3  
**Prerequisites:** C- or better in GERMAN 1200, or equivalent

---

### GERMAN 2260: Intermediate German II: Language and Culture
This course continues to help learners develop the necessary communicative skills in German. The particular emphasis is on oral and writing skills, and texts that provide insight into contemporary German culture and social life.

**Credit Hours:** 3  
**Prerequisites:** C- in GERMAN 2100 or equivalent

---

### GERMAN 2310: German Civilization: Beginning to 1850
Major historical, social, artistic, literary themes from beginnings to end of Revolution of 1848. Films and recordings. May be taken independently of GERMAN 2320. No foreign language credit. Some sections may enforce prerequisite of ENGLISH 1000.

**Credit Hours:** 3

---

### GERMAN 2310W: German Civilization: Beginning to 1850 - Writing Intensive
Major historical, social, artistic, literary themes from beginnings to end of Revolution of 1848. Films and recordings. May be taken independently of GERMAN 2320. No foreign language credit. Some sections may enforce prerequisite of ENGLISH 1000.

**Credit Hours:** 3

---

### GERMAN 2320: German Civilization: 1850 to Present
Second Empire, Weimar Republic, Nazi era, two Germanies after 1949. Historical, social, artistic, literary themes. Films and recordings. May be taken independently of GERMAN 2310. No foreign language credit.

**Credit Hours:** 3  
**Prerequisites:** some sections may enforce prerequisite of ENGLISH 1000

---

### GERMAN 2320W: German Civilization: 1850 to Present - Writing Intensive
Second Empire, Weimar Republic, Nazi era, two Germanies after 1949. Historical, social, artistic, literary themes. Films and recordings. May be taken independently of GERMAN 2310. No foreign language credit.

**Credit Hours:** 3  
**Prerequisites:** some sections may enforce prerequisite of ENGLISH 1000

---

### GERMAN 2480: Monstrous Births: Tales of Creation in 19th Century Literature
Examines literary and other cultural works which explore the creation of human beings by traditional, technological, or magical means. Course and readings in English translation.

**Credit Hours:** 3  
**Prerequisites:** ENGLSH 1000 or equivalent

---

### GERMAN 2820: Trends in World Cinema
(same as FILM_S 2820 and RM_LAN 2820). This course is a historical overview of the major trends in international cinema. It focuses on the intersection of aesthetics, industry, and ideological and social concerns in cinematic production.

**Credit Hours:** 3  
**Prerequisites:** sophomore standing, ENGLISH 1800 or FILM_S 1800 or instructor's consent

---

### GERMAN 3001: Topics in German-General
Organized study of selected topics. Subjects and earnable credit may vary from semester to semester. May be repeated to a maximum of 6 hours with departmental consent.

**Credit Hour:** 1-3  
**Prerequisites:** instructor's consent

**Recommended:** sophomore standing

---

### GERMAN 3005: Topics in German-Humanities
Organized study of selected topics. Subjects and earnable credit may vary from semester to semester. May be repeated to a maximum of 6 hours with departmental consent.

**Credit Hour:** 1-3  
**Prerequisites:** instructor's consent

**Recommended:** sophomore standing
GERMAN 3160: German Conversation and Composition
This course expands communicative competence in German and provides a review of advanced grammar concepts. Primary emphasis is on the further development of oral and written skills, reading comprehension, vocabulary expansion, and a broad exposure to relevant topics of contemporary German culture and society. Conducted in German.
Credit Hours: 3
Prerequisites: GERMAN 2260 or equivalent

GERMAN 3180: Business German
Examines language within the economic and professional context of German-speaking countries. Introduces different economic concepts of Germany's turbulent 20th century, modern-day business systems and everyday commercial activities such as job applications, professional routines, capital investment and banking. Provides students with vocabulary, cultural knowledge and communicative abilities in order to participate in the professional German-speaking world using linguistically-solid and stylistically-persuasive writing and speaking skills.
Credit Hours: 3
Prerequisites: GERMAN 2260 or equivalent

GERMAN 3190: Contemporary German Culture
This content-driven course provides insights into essential subjects of 20th century German history and contemporary society, using a variety of literature, journalistic sources and film. The course will improve German conversation and literacy skills, and will strengthen critical reading and writing, as well as interpretative abilities. Significant grammatical concepts will be thoroughly reviewed throughout the semester. Conducted in German.
Credit Hours: 3
Prerequisites: GERMAN 2260 or instructor's consent

GERMAN 3230: Introduction to German Literature
This course introduces students to German-language literary texts, images, and films in their cultural and historical context through exposure to major genres (poetry, drama, short stories, and the novel). It further builds their vocabulary and teaches them critical interpretive skills as preparation for the analysis of literary texts in upper-division courses and life.
Credit Hours: 3
Prerequisites: GERMAN 2260 or C- or better in GERMAN 3160 or GERMAN 3190

GERMAN 3320: Readings in German Literature
Readings in English of selected works of German literature from Goethe to the present, with a particular emphasis on writers and texts that have had a strong influence on European thought and culture.
Credit Hours: 3
Prerequisites: sophomore standing, ENGLISH 1000

GERMAN 3440: After the Fact: Holocaust in Contemporary History, Art & Literature
(same as PEA_ST 3440). Explores responses to the Holocaust from numerous perspectives. Considers how the Holocaust is remembered, memorialized, and debated in a variety of national contexts. Touches on historical, philosophical, and aesthetic points of view.
Credit Hours: 3
Prerequisites: sophomore standing or instructor’s consent

GERMAN 3460: Marx & Nietzsche: Labor, Power, and the German Mind of 19th Century
Examines writings of Germany’s two most radical nineteenth-century thinkers. Explores key terms of political economy and philosophy developed by Marx and Nietzsche. Journal and three papers.
Credit Hours: 3
Prerequisites: sophomore standing, ENGLISH 1000

GERMAN 3510: Think Global: Fundamentals of Globalization and Digital Technologies
(same as T_A_M 2810, PEA_ST 2810, JOURN 3510, DST 3510). This interdepartmental course serves as one of the core seminars for students pursuing the undergraduate Certificate in Digital Global Studies. The course focuses on the impact of technological change and globalization on cultures around the world from various interdisciplinary perspectives. The course is open to students in any discipline. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: Sophomore standing or instructor's consent

(same as JOURN 3510H, PEA_ST 2810H, T_A_M 3010H, DST 3510H). This interdepartmental course serves as one of the core seminars for students pursuing the undergraduate Certificate in Digital Global Studies. The course focuses on the impact of technological change and globalization on cultures around the world from various interdisciplinary perspectives. The course is open to students in any discipline. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: Sophomore standing; 2.75 GPA or instructor's consent. Honors eligibility required

(same as JOURN 3510HW, T_A_M 3010HW, PEA_ST 2810HW). This interdepartmental course serves as one of the core seminars for students pursuing the undergraduate Certificate in Digital Global Studies. The course focuses on the impact of technological change and globalization on cultures around the world from various interdisciplinary perspectives. The course is open to students in any discipline. Graded on A-F basis only.

Global Studies. The course focuses on the impact of technological change and globalization on cultures around the world from various interdisciplinary perspectives. The course is open to students in any discipline. Graded on A-F basis only.

**Credit Hours:** 3  
**Prerequisites:** Sophomore standing or instructor's consent

---

**GERMAN 3520: Folk and Fairytales in a Global Context**  
Analyzes the most famous European collection of fairytales, namely the Kinder-und Hausmarchen (Children's and Household Tales) by the Brothers Grimm and juxtaposes them to folktales from other cultures. Looks at the genre of fairytales, studies the historical context of the genesis of the collection of tales, and modern versions of the tales. Compares and contrasts Grimm's fairytales with folktales of different cultural traditions, analyzes and identifies the formal structure of fairytales and motifs, discusses various interpretive models/perspectives and juxtaposes several historical and contemporary literary fairytales and fairytale adaptations. Cultural unit examples will be on Mongolian culture and history and the Maori culture of New Zealand. Students are expected to create their own cultural unit based on the course's units. Course is taught in English.

**Credit Hours:** 3  
**Prerequisites:** Sophomore standing required

---

**GERMAN 3520W: Folk and Fairytales in a Global Context - Writing Intensive**  
Analyzes the most famous European collection of fairytales, namely the Kinder-und Hausmarchen (Children's and Household Tales) by the Brothers Grimm and juxtaposes them to folktales from other cultures. Looks at the genre of fairytales, studies the historical context of the genesis of the collection of tales, and modern versions of the tales. Compares and contrasts Grimm's fairytales with folktales of different cultural traditions, analyzes and identifies the formal structure of fairytales and motifs, discusses various interpretive models/perspectives and juxtaposes several historical and contemporary literary fairytales and fairytale adaptations. Course is taught in English.

**Credit Hours:** 3  
**Prerequisites:** Sophomore standing required

---

**GERMAN 3550: Resistance is Futile: The Advance of the Cyborg**  
Contemporary culture is haunted by the image of artificial killing machine as metaphor for technology run rampant. Fears may be prompted by feelings of alienation in automated society and underlying suspicion that humans may be nothing more than sophisticated machines. Course maps history of l'homme machine, focusing on fictional representation of creatures that consist of both human and technological "parts." Goal is to discern source of fascination and sociopolitical mechanism behind evocation of "human machine."

**Credit Hours:** 3  
**Prerequisites:** Sophomore standing or consent of instructor

---

**GERMAN 3605: The History of Blacks in Germany**  
(same as BL_STU 3605). This course investigates the history of Africans and African Americans in Germany and Central Europe, from Antiquity to today. Special focus on Medieval Africans in Europe, traveling African American intellectuals around 1900, and African American GIs in occupied Germany. This course will challenge your understanding of race and racism.

**Credit Hours:** 3

---

**GERMAN 3830: History of the German Film**  
(same as FILM_S 3830). Introduction to the development of the German film. Old and recent films are viewed and discussed in terms of techniques, artistry, psychology and social impact. English dubbing or subtitles. No foreign language credit.

**Credit Hours:** 3  
**Prerequisites:** Sophomore standing or instructor's consent

---

**GERMAN 3840: German Film After 1945**  
(same as FILM_S 3840). Examines a selection of post-War films by German directors, as well as historical, literary, and theoretical texts.

**Credit Hours:** 3  
**Prerequisites:** Sophomore standing, or instructor's consent

GERMAN 4530: The German Novelle
The German Novelle.
Credit Hours: 3
Prerequisites: GERMAN 4230 or equivalent

GERMAN 4650: Faust
(cross-leveled with GERMAN 7650). Faust.
Credit Hours: 3
Prerequisites: GERMAN 4230 or equivalent

GERMAN 4670: Medieval German Literature 1170-1210
(cross-leveled with GERMAN 7670). Analysis of major narrative and lyric poetry of the Age of Chivalry.
Credit Hours: 3
Prerequisites: GERMAN 4230 or equivalent

GERMAN 4730: German Internship and Methods
(cross-leveled with GERMAN 7730). Supervised introduction to the methodology of the teaching of elementary German; conducted in a classroom environment.
Credit Hours: 3
Prerequisites: junior standing, GERMAN 4230, or instructor's consent

GERMAN 4810: Case Studies in an Inter/Multicultural World
(same as T_A_M 4810, PEA_ST 4810, DST 4805). This interdepartmental course examines the ways in which people across the globe are affected every day by an unprecedented array of linkages that defy geographic and political boundaries. Also serves as one of the seminars for the certificate in Digital Global Studies. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: Sophomore standing; 2.75 GPA or instructor's consent

GERMAN 4820: Blogging the World: The Web in Cultural Context
(same as FRENCH 4820 and RUSS 4820). Innovative interdisciplinary course addresses issues of access to international news and specific cultural context working in cross-disciplinary teams. Students in journalism, foreign language, international studies, political science and various other disciplines track cultural developments and information on non-US Web sites, blogs and digital social networks along with exploring various historical forms of communication that preceded the digital era of the Web. Students analyze the potential and limitations/effects of blogs and the web in specific contemporary cultural contexts and as part of the broader historical evolution of the web. The course is taught in English. The goal of this course is two-fold; students learn the particulars of web blogging, explore various features of the contemporary social network landscape while focusing on the concept of culture, in particular the cultures of Europe and the US. Questions asked are: what is culture? What is common or popular right now in other cultures? And how do new social networks amplify or alter certain features or culture across national and international contests?
Credit Hours: 3

Graduate School Courses

GRAD 4010: Preparing To Be A Graduate Teaching Assistant
Provides an understanding of the roles and responsibilities of teaching assistants to prepare students for graduate school. Learning will take place through observation, lecture, reading and discussion. Graded on S/U basis only.
Credit Hour: 1

GRAD 7010: Preparing To Be A Graduate Teaching Assistant
Provides an understanding of the roles and responsibilities of teaching assistants to prepare students for graduate school. Learning will take place through observation, lecture, reading and discussion. Graded on S/U basis only.
Credit Hour: 1
Prerequisites: graduate standing

GRAD 7020: Learning Across Borders Seminar
Social, cultural, and economic problems--and their solutions--are increasingly global and interdisciplinary. Global awareness is essential, therefore, in order to compete in the increasing global marketplace. Coupling professional knowledge and skills with international experience gives graduates a competitive advantage, as employers look beyond the academic transcript for additional skills. The Learning Across Borders seminar (LAB) creates opportunities for graduate students to work across cultures and disciplines. Throughout the academic year students will participate in a series of Think Tanks (interactive discussions facilitated by MU faculty and special guests) and LAB-approved events. Graded on S/U basis only.
Credit Hour: 1
Prerequisites: Students must register for both semesters

GRAD 7070: Academic Interactions in the American University
This course is designed to give graduate students new to the western academic environment an overview of classroom and departmental activities and expectations. Specifically, it will give students cultural insight into academic tasks and some of the linguistic tools necessary to accomplish those tasks.
Credit Hours: 3
Prerequisites: ibt TOEFL of 60
Recommended: for any students who have not previously studied in a western academic environment and strongly recommended for students with an overall TOEFL score of 80 or below or sub-scores in listening and/or speaking of 20 or less

GRAD 7302: Tools for Teaching American Students
Emphasis on advanced academic listening, discrete pronunciation skills, techniques for laboratory teaching and one-to-one interactions. Integrated with a general overview of American classroom culture.
Credit Hours: 3

GRAD 7303: Communication and Culture for American College Teaching
This class will focus on the linguistic aspects of teaching, as well as specific pedagogical; and cultural aspects of the American classroom. It will emphasize fluency development at the suprasegmental level, and interactive teaching skills, like organizational, questioning and compensation strategies.
Credit Hours: 3

GRAD 9001: Topics in Graduate School
Organized study of selected professional and career development topics. Subjects and course credit may vary from semester to semester.
Credit Hour: 1-99
Prerequisites: instructor's and academic advisor's consent

GRAD 9010: Preparing Future Faculty I
First course in a two-semester Preparing Future Faculty program that introduces Ph.D. students to a variety of faculty roles and work environments. Graded on S/U basis only.
Credit Hour: 1
Prerequisites: instructor's consent

GRAD 9020: Preparing Future Faculty II
Second course in a two-semester Preparing Future Faculty program that introduces Ph.D. students to a variety of faculty roles and work environments. Topics build upon those presented in GRAD 9010 and focus on the job search and career development processes. Graded on S/U basis only.

Credit Hour: 1
Prerequisites: GRAD 9010

GRAD 9030: Teaching with Technology-Strategies for Your Online Classroom
(same as IS_LT 9477). Designed to assist current and future course instructors to integrate learning technologies into a traditional face-to-face course. Graded on A-F basis only.

Credit Hour: 1

GRAD 9050: Building Leadership Potential with Transferable Skills
Specialized leadership and transferable skills course that helps students recognize their potential and versatility for careers within and beyond the academy. Beyond leadership theory, the course is framed by 4 competency areas: 1) Analytic competencies; 2) Personal competencies; 3) Communication competencies and 4) Organizational competencies. Learning is enhanced with short text readings and videos in the course management system. Guest speakers. To pass the course, students must attend class; complete a self-assessment; complete an informational interview or job shadow with a leader of choice; and submit 3 short assignments including an Individual Development Plan with goals. Graded on S/U basis only.

Credit Hour: 1

GRAD 9072: Science Policy and Public Engagement
It is important the STEM professionals to understand the intersections between science, politics, and society to understand how the decisions that affect them are made. Junior scholars who understand the goals and implications of publicly funded science will likely have an advantage when seeking jobs and funding. This program also will explore numerous careers in the science policy realm.

Credit Hours: 3

GRAD 9080: Essentials for Public Engagement
This course will focus on understanding the role of scholarship and research in society and how to integrate public needs with research, ways to the public engages with scholarly research and how researchers can effectively engage individuals and groups. Topics covered include: different types of public engagement, public policy, ethics, broader impacts of research, extension education, public communication, theoretical rationale for engagement, historical trends in public engagement.

Credit Hour: 1

GRAD 9082: Science Policy and Public Engagement
It is important the STEM professionals to understand the intersections between science, politics, and society to understand how the decisions that affect them are made. Junior scholars who understand the goals and implications of publicly funded science will likely have an advantage when seeking jobs and funding. This program also will explore numerous careers in the science policy realm.

Credit Hour: 1

GRAD 9304: Instructional and Communication Strategies for Effective College Teaching
This class will focus on teaching and presentation strategies such as lesson design, using case studies and problem based learning, interactive learning, and classroom and course management. The linguistic emphasis will be on reduction, linking and speech patterns as well as pragmatic issues of organizing, clarifying and emphasizing ideas. Requires an MU Oral Language Proficiency Assessment score of 3 and course consent. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: ITAP language level 3P or GRAD 7303 and level 2; consent required

Grammar (Intensive English Program)
Courses

IEPG _0001: Grammar with Writing I
Students will learn to recognize and use basic grammatical structures. Students will use these structures to produce basic sentences and short paragraphs on topics from daily life. Not open to native speakers of English. No college credit.

Credit Hours: 3
Prerequisites: must be admitted to the IEP program and placed into the course by the IEP; consent of department required

IEPG _0002: Grammar II
Students will learn low-intermediate grammatical structures including modals, simple and progressive verb tenses, and expressions of quantity. Not open to native speakers of English. No college credit.

Credit Hours: 3
Prerequisites: must be admitted to the IEP program and placed into the course by the IEP; consent of department required

IEPG _0030: Grammar for Academic Purposes III
Students will learn intermediate grammatical structures including present perfect tense, simple gerunds and infinitives, comparatives and superlatives, and restrictive adjective clauses. Not open to native speakers of English. No college credit.

Credit Hours: 3
Prerequisites: must be admitted to the IEP program and placed into the course by the IEP; consent of department required

IEPG _0040: Grammar for Academic Purposes IV
Students will learn high-intermediate grammatical structures including past perfect tense, passive voice, noun clauses, adjective clauses, and adverb clauses. Not open to native speakers of English. No college credit.

Credit Hours: 3
Prerequisites: must be admitted to the IEP program and placed into the course by the IEP; consent of department required

</tbody>
</table>
GREEK 4560: Greek Historians
Reading and analysis of selected texts of major Greek historians.
Credit Hours: 3
Recommended: GREEK 4300

GREEK 4570: Greek Epigraphy
Introduction to study of Greek inscriptions and their contribution to the understanding of other aspects of ancient culture.
Credit Hours: 3
Recommended: GREEK 4300

GREEK 4700: Survey of Greek Literature
Greek literature from origins to end of Roman period; emphasis on authors not covered in other courses, to provide general view of styles and genres.
Credit Hours: 3
Recommended: GREEK 4300

GREEK 4960: Special Readings in Greek
Readings in authors and texts not covered in other courses.
Credit Hours: 3
Recommended: GREEK 4300

GREEK 7300: Intermediate Readings in Greek
Selected advanced readings in prose and poetry. Introduction to Homer.
Credit Hours: 3
Prerequisites: GREEK 2000 or equivalent. Available to students for graduate credit in departments other than Classical Studies

GREEK 7350: The Greek New Testament
(same as REL_ST 7650). Readings in the Greek New Testament and similar literature, e.g., the Septuagint. Graduate students read significantly more Greek than do undergraduates and testing is accordingly more rigorous. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: GREEK 4300 or instructor's consent

GREEK 7400: Homer
Reading, discussion, and literary analysis of Iliad and Odyssey.
Credit Hours: 3
Prerequisites: two years Classical Greek or equivalent

GREEK 7500: Greek Stylistics
Study and practice of general Greek prose tendencies, with special consideration to basic problems: abstract expression, word order, sentence structure and use of common rhetorical devices.
Credit Hours: 3

GREEK 7505: Topics in Greek
Organized study of selected authors or eras. Subject and earnable credit vary from semester to semester.
Credit Hour: 1-99

GREEK 7510: Greek Tragedy
Selected works of Aeschylus, Sophocles, Euripides, with special attention to language, style, ideas, and dramatic techniques.
Credit Hours: 3
Prerequisites: two years Classical Greek or equivalent

GREEK 7520: Greek Comedy
Selected plays of Aristophanes and Menander, with special attention to cultural contexts.
Credit Hours: 3
Prerequisites: two years Classical Greek or equivalent

GREEK 7530: Greek Lyric Poetry
Selected readings from lyric poets, with attention to verse forms, and dialects.
Credit Hours: 3
Prerequisites: two years Classical Greek or equivalent

GREEK 7540: Greek Oratory
Selections from Greek orators, with emphasis on Lysias and Demosthenes.
Credit Hours: 3
Prerequisites: two years Classical Greek or equivalent

GREEK 7550: Greek Philosophers
Emphasis on readings and analysis of selected texts of major Greek philosophers.
Credit Hours: 3
Prerequisites: two years Classical Greek or equivalent

GREEK 7560: Greek Historians
Reading and analysis of selected texts of major Greek historians.
Credit Hours: 3
Prerequisites: two years Classical Greek or equivalent

GREEK 7570: Greek Epigraphy
Introduction to study of Greek inscriptions and their contribution to the understanding of other aspects of ancient culture.
Credit Hours: 3
Prerequisites: GREEK 2000

GREEK 7700: Survey of Greek Literature
Greek literature from origins to end of Roman period; emphasis on authors not covered in other courses, to provide general view of styles and genres.
Credit Hours: 3
Prerequisites: two years Classical Greek or equivalent

GREEK 7960: Special Readings in Greek
Readings in authors and texts not covered in other courses.
Credit Hour: 1-3
Prerequisites: departmental consent and two years Classical Greek or equivalent

GREEK 8000: Proseminar in Greek Texts
This is a seminar-level introduction to Greek literary and historical texts. The emphasis in this course will be on wide and intensive reading, with the objective of helping the new graduate student quickly develop a sound literary and linguistic competence.
Credit Hours: 3

GREEK 8010: Greek Rough Guide
Intensive exploration of Greek Literature from its earliest appearance through the Roman period. Emphasis upon texts as both literary and cultural artifacts whose interpretation requires familiarity with the historical and archaeological legacy of antiquity as well as modern exegetical strategies. Graded on A-F basis only.
Credit Hours: 3

GREEK 8100: Greek Historiography
(same as HIST 8500). Study of the major contemporary historians of Classical Greece and their methodology. Differential readings available to both students with a reading knowledge of Greek and also those without Greek.
Credit Hours: 3

GREEK 8200: Greek Historiography
May be repeated to a maximum of 6 hours.
Credit Hours: 3

GREEK 9287: Seminar in Greek Drama
May be repeated to a maximum of 6 hours.
Credit Hours: 3

GREEK 9387: Seminar in Greek Lyric Poetry
Seminar in Greek Lyric Poetry.
Credit Hour: 1-99

GREEK 9487: Seminar in the Greek Philosophers
Seminar in the Greek Philosophers.
Credit Hours: 3

GREEK 9587: Seminar in the Greek Historians
Seminar in the Greek Historians.
Credit Hours: 3

GREEK 9687: Seminar in Greek Epic Poetry
Seminar in Greek Epic Poetry.
Credit Hours: 3

GREEK 9787: Seminar on the Age of Pericles
Study of Greek culture of mid-fifth century B.C., including law, religion, art, philosophy, science, and other aspects of the culture, to give students an integrated view of life of the period.
Credit Hours: 3

GREEK 9887: Seminar in Special Fields
Seminar in Special Fields.
Credit Hours: 3

Health Management and Informatics Courses

HMI 4420: Fundamentals of Bioinformatics
(cross-leveled with HMI 7420). The purpose of this course is to provide perspective on the fundamentals of exploration of biological knowledge using computers. As technologies such as microarray, sequencing, and biomarkers become more pervasive, they are impacting not only the development of science, but also domains such as health care, nutrition, and ethics. This course provides a description of fundamental bioinformatics concepts such as sequencing, proteomics, metabolomics, and biological pathways, and illustrates them with short informatics experiments. Mainly online resources will be used, so no programming is necessary. Also, the course includes a short primer of molecular biology, so background in molecular biology is not required.
Credit Hours: 3
Prerequisites: Departmental consent required

HMI 4440: Health Information Technology
(1) the visual basic programming language and how to design a visual basic application 2) the SQL database language and how to design and operate a database, and 3) HTML, HTML5, javascript and vbscript languages and how to design a client-server database application using Visual Basic and a web database application. Applications will be healthcare focused.
Credit Hours: 3
Prerequisites: Departmental consent required

HMI 6495: Health Care Management
Health Care Management
Credit Hours: 5

HMI 6935: Healthcare Ethics for Physicians
Students will participate in 8-two hour lecture-discussion sessions over the 2-week period. In each session, the instructor lectures for one hour and then the class discusses concepts and cases for one hour. Topics may include ethical theories and frameworks, decision-making capacity, informed consent, truth-telling and deception, medical errors, confidentiality, surrogate decision-making, medical futility, end-of-life care and euthanasia, the physician-patient relationship, paternalism, vaccinations, newborn screening, gene therapy, treating minors, treating individuals with disabilities, deception of third-party payers, problematic documentation techniques, sexual harassment and discrimination, and conflicts of interest. When not participating in the lecture-discussion session, students will use their time reading the assigned material. This should take about two hours per day. There are no required student presentations but a high level of participation in discussion is expected. Two take-home exams will be given.
Credit Hours: 2
Prerequisites: Successful completion of the first two years of medical school
HMI 6938: Biomedical Informatics
Students will participate in 10-two hour lecture-discussion sessions over the 2-week period. These sessions will cover current and future developments in biomedical informatics. Selected topics include: electronic health records; public health informatics; imaging; practice management systems; information exchanges; data standards; privacy and security; consumer informatics; mobile technology; search engines; telehealth; bioinformatics databases; next generation sequencing; regulatory pathways; emerging trends.
Credit Hours: 3
Prerequisites: Successful completion of the first two years of medical school

HMI 7410: Introduction to the US Health Care System
This is a survey course about the American health system, meant to provide a conceptual foundation for students to think critically about the US health system and to build upon in their future related courses. It includes concepts and language in health care, public health, and personal health and provides an understanding of how these domains of health interrelate. Particular focus is given to health care delivery, including how health care services are organized, delivered, paid for, and measured. Selected key, forward-looking issues are covered. The roles of management, leadership, and physicians are highlighted. A resource bank and regular flow of good information sources is developed. Business writing skills are emphasized.
Credit Hours: 3

HMI 7420: Fundamentals of Bioinformatics
(cross-leveled with HMI 4420). The purpose of this course is to provide perspective on the fundamentals of exploration of biological knowledge using computers. As technologies such as microarray, sequencing, and biomarkers become more pervasive, they are impacting not only the development of science, but also domains such as health care, nutrition, and ethics. This course provides a description of fundamental bioinformatics concepts such as sequencing, proteomics, metabolomics, and biological pathways, and illustrates them with short informatics experiments. Mainly online resources will be used, so no programming is necessary. Also, the course includes a short primer of molecular biology, so background in molecular biology is not required.
Credit Hours: 3
Prerequisites: Open to undergraduates with dual enrollment

HMI 7430: Introduction to Health Informatics
(same as INFOINST 7430). Introduction to the use of clinical information systems in healthcare. Topics include clinical data, standards, electronic medical records, computerized provider order entry, decision support, telemedicine, and consumer applications.
Credit Hours: 3
Prerequisites: departmental consent

HMI 7431: Foundation of Public Health Informatics
This course will cover foundational knowledge relevant to Public Health Informatics (PHI). The purpose of this course is to expose students to emerging research and application areas in the field of PHI. It will enhance abilities to know when and how to use theories, concepts, and tools of informatics applied to public health. The emphasis of the course is on the use of informatics tools and practices in public health and the existing and evolving relationship between clinical and public health systems. The focus is on PHI including topics such as data exchange and standards, interoperability, use of informatics tools, applying informatics to public health communication and dissemination, surveillance systems, public health policy and project management.
Credit Hours: 3

HMI 7432: Health Database Management and Public Health Data Systems
This course will cover foundational knowledge relevant to database management and public health data systems for Public Health Informatics (PHI). The purpose of this course is to provide students with concepts relevant to the effective use of data, information, and knowledge tools to build, manage, merge, retrieve, and analyze public health data from appropriate health data systems. The emphasis of the course is to use, develop and adapt public health information systems as needed to support public health efforts through use of public health informatics tools and practices to support existing and evolving relationships between clinical and public health systems. The focus is to plan, develop, implement, manage and evaluate database management systems and health data systems that meet the needs of public health practice through PHI.
Credit Hours: 3

HMI 7440: Health Information Technology
(cross-leveled with HMI 4440). In this course, the student will learn 1) the visual basic programming language and how to design a visual basic application 2) the SQL database language and how to design and operate a database, and 3) HTML, HTML5, javascript and vbscript languages and how to design a client-server database application using Visual Basic and a web database application. Applications will be healthcare focused.
Credit Hours: 3
Prerequisites: college algebra and statistics

HMI 7471: Introduction to Accounting and Finance in Health Care
This course introduces the current financial environment in which providers operate and the fundamentals of financial accounting, with an emphasis on accounting and financial management principles and concepts that are critical to decision making for department-level management of health services organizations. This course provides the foundation for the second healthcare financial management course offered in the second year of this program.
Credit Hours: 3
Prerequisites: Graduate standing or consent of instructor

HMI 7564: Health Ethics Theory
An introduction to health ethics theory and methodology. We discuss metaethics and normative ethics theories, normative ethics in health ethics and methods of ethics case work up.
Credit Hours: 3

HMI 7566: HIPAA, Social Media, and the Ethics of Health Information
An introduction to how the increasing use of distance-based technologies, computers, and online communications may impact the ethical delivery of health care. Examples of questions to be addressed: Is
it possible that the increasing use of computers in healthcare has made things worse? How should HIPAA be interpreted and why is there such confusion about it? Should patients be able to "post" negative comments about providers on social media sites? What should be done about the increasing amounts of personal information healthcare corporations are collecting on patients?

**Credit Hours:** 3

**HMI 7567: Health Organizational Ethics**
Examples of questions to be addressed: Should hospitals and doctors try to maximize profits? Do providers have a moral obligation to serve people who cannot pay? Is it okay to deceive an insurance company if it means better patient care? What should employees do if their employer is committing fraud? Is it ethical for hospitals to drug-test employees and investigate their private lives? What is the ethical way to hire and fire healthcare staff? What should you do if your supervisor is evil?

**Credit Hours:** 3

**Prerequisites:** HMI 7564 or equivalent course, or permission of instructor

**HMI 7750: Physical Function and Older Adults**
(same as F_C_MD 7750, ARCHST 7640, H_D_FS 7750, NURSE 7750, P_HLTH 7750, and SOC_WK 7752). This course takes an interdisciplinary approach to understanding and improving the physical function and independence of older adults and explores approaches to alleviate disabling conditions that interfere with physical function and quality of life in old age. Graded on A-F basis only.

**Credit Hours:** 3

**HMI 7751: Psychosocial Function and Older Adults**
(same as ARCHST 7650, F_C_MD 7751, H_D_FS 7751, NURSE 7751, P_HLTH 7751 and SOC_WK 7751). This course takes an interdisciplinary approach to understanding the psychosocial function of older adults and explores approaches to alleviate disabling conditions that interfere with psychosocial function and quality of life in old age. Graded on A- basis only.

**Credit Hours:** 3

**HMI 8090: Thesis Research in Health Management and Informatics**
Research leading to a thesis. May be repeated to maximum of 9 hours.

**Credit Hour:** 1-6

**Prerequisites:** Advisor's consent

**HMI 8401: Topics in Health Management and Informatics**
Organized study of selected topics. Subjects will vary from semester to semester. May be repeated for credit with departmental consent.

**Credit Hours:** 3

**HMI 8411: Data Warehousing and Data/Text Mining for Health Care**
An introduction to the basic concepts of data warehouse and data/text mining, creating an understanding of why we need those technologies and how they can be applied to healthcare problems.

**Credit Hours:** 3

**Prerequisites:** HMI 8441

**HMI 8441: Biomedical and Health Vocabularies and Ontologies**
Basic and advanced concepts of controlled terminologies and their use in the representation of biomedical information and knowledge, with emphasis on terminology management in the health care enterprise. Syntactic and semantic structure of controlled terminologies are examined and a number of representative terminologies are analyzed.

**Credit Hours:** 3

**HMI 8443: Enterprise Information Architecture for Knowledge Driven Healthcare Systems**
Organization and development of infrastructure necessary to support an enterprise information system for patient care. Components of architecture are introduced in a problem-based approach, case examples are presented as the basis for addressing specific attributes of the components, as well as problems facing the design of an enterprise information system for health care.

**Credit Hours:** 3

**HMI 8450: Methods of Health Services Research**
Writing intensive course provides students with basic understanding of literature search, experimental designs, evaluation methods, ethics, reporting and application of health services research. Practical research problems are discussed and students prepare a professional, managerially relevant research proposal.

**Credit Hours:** 3

**Prerequisites:** HMI 7410; Satisfactory completion of a college-level course in statistics

**HMI 8451: Individual Executive Management Studies**
Students will investigate and address important issues in their organizations. Students will use scientific evidence and techniques to solve applied problems. They will develop data collection protocols, collect and analyze data, draw conclusions, and develop recommendations using basic research methods tools. They will provide actionable and feasible recommendations based on their analysis.

**Credit Hours:** 3

**Prerequisites:** HMI 7410, HMI 8450 or permission of instructor

**HMI 8453: Executive Management Studies**
Students will use scientific evidence and techniques to solve applied problems in health care organizations. Students will serve as professional consultants, working within small teams to develop project specifications and plans in collaboration with their clients. They will develop data collection protocols, collect and analyze data, draw conclusions and develop recommendations using basic research methods tools. They will provide actionable, feasible recommendations to their clients based on their analysis. Graded on A/F basis only.

**Credit Hours:** 3
Prerequisites: HMI 7410; Graduate standing or permission of the instructor

HMI 8460: Administration of Health Care Organizations
Analyzes health care organizations, emphasizing organizational structure, and strategy, and managerial leadership. Topics include governance, adaptation, design, interorganizational networks, and organizational performance.
Credit Hours: 3

HMI 8461: Managing Human Resources in Health Care Organizations
Provides a framework for understanding and thinking strategically about employee relations and management of people in organizations, drawing on insights from social sciences to explore how psychological, economic, social, and cultural forces influence human resources management in health care.
Credit Hours: 3

Prerequisites: HMI 7410, and HMI 8524

HMI 8470: Strategic Planning and Marketing for Health Care Organizations
Analysis of strategic planning and services management and marketing concepts, techniques, and tools in the health care industry. Includes analyzing the environment, assessing the organization’s strengths and weaknesses, formulating strategy to achieve competitive advantage, and implementing strategy through service management and marketing.
Credit Hours: 3

HMI 8472: Financial Management for Health Care Organizations
Application of concepts, tools and techniques of financial management and their interrelationships as they apply to current and future operation of health care organizations. Prerequisites: For Residential students: HMI 7410, HMI 7471, HMI 8460, HMI 8524. For Executive students: HMI 7410, HMI 8460, HMI 8524, and satisfactory completion of college-level courses in managerial accounting and financial management or satisfactory completion of HMI’s online accounting and finance module.
Credit Hours: 3

Prerequisites: HMI 7410, and HMI 8524

HMI 8478: Knowledge Management in Health Care
Representing clinical terms, concepts and knowledge in a form for manipulation by intelligent systems. Theoretical formalisms and conceptual representations of medical information. Examination of knowledge engineering tools and decision support systems.
Credit Hours: 3

HMI 8485: Problems in Health Management and Informatics
Intensive study of an area of health services management.
Credit Hour: 1-6
Prerequisites: instructor’s consent

HMI 8515: Problems in Medical Ethics and Clinical Ethics Consultation Practicum
The Problems in Medical Ethics Course is a practicum based course with a hands-on clinical ethics consultation component. The course will provide the student with a tailored learning experience that will encourage and develop skills and a working knowledge about health care ethics, and the ability to respond effectively when confronted with the difficult ethical dilemmas that may be encountered at multiple levels in the complex arena of health care. Specifically students will cultivate skills which will optimize their ability to work as an ethics consultant in a multidimensional and diverse society as well as an inclusive health care environment. The course is designed with flexibility in mind, however there are mandatory onsite components which will require the student to attend structured meetings, consultations and presentations.
Credit Hours: 5
Prerequisites: M-4 status for medical students. For Graduate students, HMI 7564 - Health Ethics Theory and HMI 8565 - Health Care Ethics and permission of instructor

HMI 8524: Health Economics
Building upon previous knowledge of basic economic theories, concepts, and tools, the structure, organization, activities, functions, and problems of health and medical care are considered from an economics perspective.
Credit Hours: 3

Prerequisites: microeconomics

HMI 8544: Managerial Epidemiology (Population Health Management)
Examination of basic epidemiological concepts and methods as applied to health services management. Equal emphasis on applications of epidemiology to health services planning, quality monitoring, policy development, system development, and finance.
Credit Hours: 3

Prerequisites: Restricted to HMI students only

HMI 8545: Methods in Public Health Informatics/Biostatistics
This course will cover foundational statistical knowledge and methods relevant to Public Health Informatics (PHI). The purpose of this course is to teach students to identify and perform appropriate statistical methods for the data analysis of data from many commonly used experimental designs in the field of PHI. The emphasis of the course is on the understanding of theoretical assumptions underlying these statistical methods. The focus of this course is to perform selected statistical analyses using, SPSS and/or R and to interpret statistical results, in a manner relevant to public health informatics in the context of public health. This course builds upon previous knowledge of basic statistics, concepts, and tools by applying them specifically to the public health field.
Credit Hours: 3

Recommended: college algebra

HMI 8546: Public Health Information and Visualization (GIS) in Public Health
This course will cover foundational knowledge of Geographic Information Systems (GIS) relevant to Public Health Informatics (PHI). The purpose of this course is to learn basic descriptive and analytical functions of GIS for research and application areas in the field of PHI. The course emphasis is for students to gain hands-on experience in the use of GIS, mapping, and spatial data analysis software such as ArcGIS, R, and Instant Atlas. The focus is on the use of geographic information systems (GISs) in the analysis of public health data. No previous knowledge...
of mapping or GIS is required, but one is expected to have a working knowledge of MS Office, Windows operating systems, and Biostatistics (prerequisites Methods in Public Health Informatics/Biostatistics). This course builds upon previous knowledge of basic statistics, concepts, and tools by applying them in a GIS context specific to Public Health Informatics.

**Credit Hours:** 3  
**Prerequisites:** HMI 8545

---

**HMI 8550: Health Data Analytics**  
The purpose of this course is to provide you with an applied approach to analyze healthcare data. It will enhance abilities to know when and how to use theories, concepts, and tools of data analysis and statistics to evaluate and analyze health care data systematically. The emphasis of the course is on the use of data analysis in the health care field. The focus is on applying data analysis to health care data, problems and issues in the health care system, and on the data application necessary to make decisions based on the analysis. This course builds upon previous knowledge of basic statistics and analytics, concepts, and tools by applying them specifically to the health care system.

**Credit Hours:** 3  
**Prerequisites:** college algebra and statistics or permission of instructor

---

**HMI 8565: Health Care Ethics**  
Explores ethics issues and controversies facing clinicians and healthcare administrators. Topics may include end-of-life care, imperiled newborns, maternal-fetal conflict, procreative liberty, genetic screening and enhancement, organ procurement and allocation, rationing, public health, workplace relationships, and conflicts of interest.

**Credit Hours:** 3

---

**HMI 8571: Decision Support in Health Care Systems**  
Applies principles and techniques of computer-assisted decision making to solve health care problems. Clinical and managerial applications of artificial intelligence, including expert systems reviewed. Advantages of integrating decision support programs with databases are discussed.

**Credit Hours:** 3

---

**HMI 8573: Decision Making for Health Care Organizations**  
Applies and integrates data and decision making techniques with process analytic and improvement tools and techniques. Also includes applications of spread sheets and relational databases in healthcare settings.

**Credit Hours:** 3  
**Prerequisites:** Restricted to HMI students

---

**HMI 8574: Health Care Law**  
Survey of the function and methods of law as applied to health care administration and health care.

**Credit Hours:** 3  
**Prerequisites:** HMI 7410, HMI 7471, HMI 8460, HMI 8524. Non HMI students with a Graduate or professional school career may be able to take the course with instructor consent

---

**HMI 8575: Health Policy and Politics**  
Overview and critical analysis of health policy issues in the United States, including how the dynamics of the policy making process have shaped outcomes, successful and unsuccessful, of a number of important policy initiatives.

**Credit Hours:** 3

---

**HMI 8580: Project Management**  
This course is designed to provide an in-depth understanding of the fundamentals of project management and its application to the provision of health care. A problem-based approach is used to frame both the theoretical underpinnings of project management and hands-on practical application. Students will develop an understanding of the foundations of project management designed to enable them to successfully complete the certification exam to become a certified project manager. Course content includes project scope development, project work breakdown, financial control, and human resources management for projects.

**Credit Hours:** 3

---

**HMI 8610: Consumer Health Informatics**  
Consumer health informatics explores the branch of medical informatics that analyzes consumers' needs for information; studies and implements methods of making information accessible to consumers; and models and integrates consumers' preferences into medical information systems.

**Credit Hours:** 3  
**Prerequisites:** HMI 7430 or instructor's consent

---

**HMI 8689: Field Experience in Health Management and Informatics**  
Supervised field experience in approved health agencies and institutions. Opportunity for observation and service participation in various fields of health. Graded on an A-F basis only.

**Credit Hours:** 3

---

**HMI 8810: Research Methods in Informatics**  
(same as INFOINST 8810). Research Methods in Health and Bioinformatics is a writing intensive course that provides students with an understanding of research proposal development, literature searching, research synthesis, research designs, evaluation methods, and ethics. Graded on A-F basis only.

**Credit Hours:** 3  
**Prerequisites:** Second semester or later in PhD program or instructor's consent

---

**HMI 8870: Knowledge Representation in Biology and Medicine**  
(same as INFOINST 8870). The main topics presented in the course are: logic systems, knowledge representation methods, production systems and representation of statistical and uncertain knowledge. Graded on A-F basis only.

**Credit Hours:** 3

---

**HMI 9440: Technology Evaluation in Health Care Systems Research**  
(same as NURSE 9470). Examines technology applications and evaluator methods used to determine outcomes, efficiencies,
effectiveness, satisfaction, and cost of using technology. May be repeated for credit.

**Credit Hours:** 3  
**Prerequisites or Corequisites:** NURSE 9410 or faculty consent  
**Prerequisites:** 6.0 credit of graduate statistics

### Health Professions Courses

**HTH_PR 1001: Topics in Health Professions**  
Organized study of selected topics in Health Professions. Particular topics and credit may vary each semester.  
**Credit Hour:** 1-3  
**Prerequisites:** instructor's consent

**HTH_PR 2000: Leadership in Health Care**  
This course will cover a broad range of concepts in leadership and professional development. Focus will be placed on knowledge and skills necessary for effective leadership in the Health Professions. The first of two semesters series. Graded on S/U basis only.  
**Credit Hour:** 1  
**Prerequisites:** instructor's consent  
**Recommended:** to students in specified leadership programs

**HTH_PR 2001: Topics in Health Professions**  
Organized study of selected topics in health professions. Particular topics and earnable credit may vary from semester to semester.  
**Credit Hour:** 1-99  
**Prerequisites:** sophomore standing and instructor's consent

**HTH_PR 2960: Special Readings in Health Professions**  
Directed study of literature and research reports in the health-related professions.  
**Credit Hour:** 1-3  
**Prerequisites:** instructor's consent

**HTH_PR 4085: Problems in Health Professions**  
**Credit Hour:** 1-99  
**Prerequisites:** instructor's consent

**HTH_PR 4250: Human Kinesiology**  
(same as PH_THR 4250 and OC_THR 4250). Study of principles of physical laws, biomechanics and anatomic structure relative to human movement. Application through analysis of daily functional performance, exercise and sport.  
**Credit Hours:** 3  
**Prerequisites:** PTH_AS 2201

**HTH_PR 4310: Health Policy for the Health Professional**  
Seminar to facilitate understanding of health policy, the legislative process, and politics. Emphasis on health professions, including issues of workforce, funding, and advocacy in the context of current health policy issues.  
**Credit Hour:** 1-3

**HTH_PR 4950: Research Apprenticeship in Health Professions**  
This course provides undergraduate students in the health professions and related disciplines experience with research in the health professions and related disciplines experience with research in the health professions. Students will assist in the development and execution of research projects under the supervision of an SHP faculty member.  
**Credit Hour:** 1-3  
**Prerequisites:** instructor's consent

**HTH_PR 7001: Topics in Health Professions**  
Organized study of selected topics in health and/or healthcare. Topic and credit may vary from semester to semester.  
**Credit Hour:** 1-3  
**Prerequisites:** instructor's consent

**HTH_PR 7200: Health Care in the United States**  
Overview of financing, structure, and outcomes in the U.S. health care system. Contemporary health care issues, policy, and politics will be addressed. Graded on A-F basis only.  
**Credit Hours:** 3

**HTH_PR 7301: Health Policy for the Health Professional**  
Seminar to facilitate understanding of health policy, the legislative process, and politics. Emphasis on health professions, including issues of workforce, funding, and advocacy in the context of current health policy issues.  
**Credit Hour:** 1-3

**HTH_PR 8001: Topics in Health Professions**  
Organized study of selected topics in health and/or healthcare. Topic and credit may vary from semester to semester.  
**Credit Hour:** 1-3  
**Prerequisites:** instructor's consent

**HTH_PR 8085: Problems in Health Professions**  
Individual study not leading to thesis or dissertation.  
**Credit Hour:** 1-3  
**Prerequisites:** instructor's consent

**HTH_PR 8960: Directed Readings in Health Professions**  
Selected readings on specific topics.  
**Credit Hour:** 1-3  
**Prerequisites:** instructor's consent

### Health Psychology Courses

**HLTHPSYC 3100: Applied Behavior Analysis and Autism**  
Students will learn the behavioral principles and techniques currently employed to help children with autism acquire functional language, appropriate social behavior, and general academic and living skills as well as decrease problematic behaviors. The objectives of this course are to: 1) To identify and describe key features of applied behavior analysis (ABA), particularly as it applies to intervention for children with autism. 2) To identify and describe key issues in curricular design, program development, and evidence-based interventions in autism. 3) To become
familiar with key outcome research in behavioral interventions for children with autism. 4) To become familiar with key research on language, social skills, self-help skills, and problem behavior reduction as these areas relate to the behavioral treatment of autism. Graded on A-F basis only.

Credit Hours: 3

HLTHPSYC 3500: Research and Practice in Applied Behavior Analysis
Students will learn about the principles and procedures of applied behavior analysis through weekly reading assignments, discussions, and presentations. Student will gain experience applying this knowledge to improve behavior in a practical setting. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: HLTHPSYC 3100

HLTHPSYC 8100: Concepts and Principles in Behavior Analysis
This course will provide an overview of both classic and contemporary theory and research on nonhuman and human learning. We will focus on a behavior-analytic conceptualization of learning and the underlying research on basic processes and operations that result in learning. The readings and class discussions will provide you with a strong foundation in the psychology of learning from a behavioral orientation, with particular emphasis on the relation between biological and environmental contributions to selection of behavior. To effectively produce socially significant behavior change among members of clinical populations, we must approach the task with a thorough understanding of these basic principles. Graded on A-F basis only.

Credit Hours: 3
Prerequisites or Corequisites: Admission to the Graduate Certificate program in Applied Behavior Analysis

HLTHPSYC 8200: Advanced Applied Behavior Analysis
This course provides students with a basic understanding of the fundamentals of behavior analysis and behavioral interventions designed to establish, shape, strengthen and maintain desirable behavior and reduce aberrant behavior. The course focuses on the application of behavioral principles using procedures such as differential reinforcement, extinction, antecedent interventions, and punishment. Graded on A-F basis only.

Credit Hours: 3

HLTHPSYC 8300: Ethics in Applied Behavior Analysis
This course provides the student with an in-depth coverage of ethics and professional behavior in applied behavior analysis. This course will help the student become prepared to sit for the Behavior Analyst Certification Board exam. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: Student must be enrolled in the Graduate Certificate in ABA or Masters of Science in ABA program

HLTHPSYC 8400: Survey of Applied Behavior Analysis
This course builds upon the basic principles of learning and applied behavior analysis presented during previous courses in the Behavior Analysis core. The course will offer coverage of the many different applications of behavior analysis (e.g., behavioral medicine, behavioral gerontology, substance abuse, organizational behavior management, etc.). Finally, this class will cover topics related to professional development. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: HLTHPSYC 8100 OR HLTHPSYC 8200

HLTHPSYC 8800: Practicum in Applied Behavior Analysis
The Practicum in Applied Behavior Analysis provides practical training in ABA. Graduate students will participate in an intensive practicum that focuses on developing well-rounded training in ABA. Students will work hands on with children at the MU Thompson Center for Autism and Neurodevelopmental Disorders. By the completion of the practicum, students will be well versed in the development of skill building programs as well as behavioral reduction programs that focus on function-based interventions (e.g., functional analyses). Graded on S/U basis only.

Credit Hour: 1
Prerequisites: Students must be enrolled in the Graduate Certificate in ABA or Masters of Science in ABA programs

Health Sciences Courses

HLTH SCI 1000: Introduction to the Health Professions
Overview of clinical/non-clinical health careers; aptitudes/abilities needed for each; the history, current and future state of health care in the U.S.; introduction to diverse populations and patient/family issues; Assist with career planning/selection of appropriate majors. Graded on A-F basis only.

Credit Hours: 3

HLTH SCI 2100: Health Sciences Seminar
Professional Development course for Health Science Majors. Topics include resume development/ revision , interviewing skills, applying to graduate/professional programs and/or jobs, professional communication, etc. Graded on S/U basis only.

Credit Hour: 1
Prerequisites: sophomore standing required; restricted to Health Science majors only

HLTH SCI 2200: Nuclear Weapons: Environmental, Health and Social Effects
(same as SOCIOL 2281 and PEA_ST 2200). Environmental consequences of the nuclear arms race, "regional" nuclear war, and weapons testing for human health, agriculture, and society. Examining "a world without nuclear weapons"; political dialogue on proliferation; Iran, North Korea, and nuclear weapons conventions. Graded on A-F basis only.

Credit Hours: 3

HLTH SCI 2200W: Nuclear Weapons: Environmental, Health and Social Effects - Writing Intensive
(same as SOCIOL 2281 and PEA_ST 2200). Environmental consequences of the nuclear arms race, "regional" nuclear war, and weapons testing for human health, agriculture, and society. Examining "a world without nuclear weapons"; political dialogue on proliferation; Iran, North Korea, and nuclear weapons conventions. Graded on A-F basis only.

Credit Hours: 3
HLTH_SCI 3300: Public Health Principles, Practice, and Education
Public Health is the science and practice of protecting and improving the health of communities through education, promotion of healthy lifestyles, and research for disease and injury prevention. This course focuses on the basic structures of the Public Health system in the U.S. and provides an introduction to the factors that influence and shape that system. Among others, factors include socioeconomic, financing, politics and global issues. Students in this course will be challenged to consider the complex web of factors affecting the health of communities. The course will explore: health needs assessments, examining relationships among behavioral, environmental and genetic factors that enhance or compromise health, examining factors that influence the learning process, and examining factors that enhance or compromise the process of health education. Graded on an A-F basis only.

Credit Hours: 3
Prerequisites: Restricted to Health Sciences Majors during pre-registration

HLTH_SCI 3300H: Public Health Principles, Practice, & Education - Honors
Public Health is the science and practice of protecting and improving the health of communities through education, promotion of healthy lifestyles, and research for disease and injury prevention. This course focuses on the basic structures of the Public Health system in the U.S. and provides an introduction to the factors that influence and shape that system. Among others, factors include socioeconomic, financing, politics and global issues. Students in this course will be challenged to consider the complex web of factors affecting the health of communities. The course will explore: health needs assessments, examining relationships among behavioral, environmental and genetic factors that enhance or compromise health, examining factors that influence the learning process, and examining factors that enhance or compromise the process of health education. Graded on an A-F basis only.

Credit Hours: 3
Prerequisites: Honors eligibility required

HLTH_SCI 3300W: Public Health Principles and Practice - Writing Intensive
Public Health is the science and practice of protecting and improving the health of communities through education, promotion of healthy lifestyles, and research for disease and injury prevention. This course focuses on the basic structures of the Public Health system in the U.S. and provides an introduction to the factors that influence and shape that system. Among others, factors include socioeconomic, financing, politics and global issues. Students in this course will be challenged to consider the complex web of factors affecting the health of communities. The course will explore: health needs assessments, examining relationships among behavioral, environmental and genetic factors that enhance or compromise health, examining factors that influence the learning process, and examining factors that enhance or compromise the process of health education. Graded on an A-F basis only.

Credit Hours: 3
Prerequisites: Restricted to Health Sciences Majors during pre-registration

HLTH_SCI 3310: Social and Behavioral Health Theory and Practice
Social and Behavioral Health (SBH) is the core discipline of public health that focuses on the factors that influence individuals' and communities health actions and decisions. This course will take both a theoretical and a practical approach to understanding SBH. Students will gain an understanding of theory and develop practical skills to apply theories to real world health issues. Readings, assignments, and discussions will focus largely on ways to understand and change health behaviors and various individual, relational, community, and social-level influences on health. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: Restricted to Health Sciences Majors during pre-registration

HLTH_SCI 3400: Global Public Health and Health Care Systems
(same as PEA_ST 3401). An introduction to public health in a global context, with an emphasis on understanding how disparities in socioeconomic status, differences in political and national health care systems and the work of international organizations impact health in communities around the world. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: Restricted to Health Sciences Majors during preregistration

HLTH_SCI 3500: Mental Health
This course provides a look at mental health problems with regard to influences, etiology, diagnosis, and treatment. Students learn theories of mental health, diagnostic criteria, treatment modalities, and community issues concerning the mental health system. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: HLTH_SCI 2100

HLTH_SCI 3600: Health Promotion Programs I: Assessment and Planning
Health promotion planning is the development and implementation of a well-researched and tailored intervention to increase the health status of an individual and population. This course will provide a comprehensive introduction to health promotion planning and assessment by integrating a solid theoretical foundation of the discipline with hands-on experience in assessing needs, assets and capacity for health education, health education and project planning, funding, intervention development, implementation of health education projects, and evaluation. Special attention placed on implementing health education and promotion programs that are tailored to the particular population in need as well as specialized for the appropriate setting be it school, work, health care clinic, or the community. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: Restricted to Health Science majors during pre-registration

HLTH_SCI 3610: Health Promotion Programs II: Implementation, Evaluation, and Communication
This course builds on topics covered in Health Promotion Programs I: Assessment and Planning. It will provide a comprehensive introduction to the implementation, evaluation and communication required for successful health promotion programs by integrating a solid theoretical foundation of the discipline with hands-on experience in the
implementation of health promotion program, developing an evaluation
and communication strategies for successful health education and health
promotion programs in a variety of community-based settings. Graded on
A-F basis only.

Credit Hours: 3
Prerequisites: Restricted to Health Sciences Majors only
Corequisites: HLTH_SCI 3600

HLTH_SCI 3900: Introduction to The Research Process and
Evidence Base
This course provides an introduction to the basic quantitative and
qualitative research techniques used in public health, health education
and promotion, and the health professions. Conducting research,
making medical decisions based on research findings, and using and
interpreting research and evidence in practice settings all represent
potential outcomes for students selecting a career in public health or the
health professions. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: Restricted to Health Sciences Majors with junior or senior
standing

HLTH_SCI 3900W: Introduction to The Research Process and
Evidence Base - Writing Intensive
This course provides an introduction to the basic quantitative and
qualitative research techniques used in public health, health education
and promotion, and the health professions. Conducting research,
making medical decisions based on research findings, and using and
interpreting research and evidence in practice settings all represent
potential outcomes for students selecting a career in public health or the
health professions. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: Restricted to Health Sciences Majors with junior or senior
standing

HLTH_SCI 4001: Topics in Health Science
Organized study of selected topics. Subjects will vary from semester to
semester.

Credit Hour: 1-3
Prerequisites: Restricted to Health Sciences Majors during pre-registration

HLTH_SCI 4300: Health Care in the United States
Overview of financing, structure, and outcomes in the U.S. health care
system. Contemporary health care issues, policy, and politics will be
addressed. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: sophomore standing; Restricted to Health Sciences
Majors during pre-registration

HLTH_SCI 4300H: Health Care in the United States - Honors
Overview of financing, structure, and outcomes in the U.S. health care
system. Contemporary health care issues, policy, and politics will be
addressed. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: Honors eligibility required

HLTH_SCI 4400: Culture and Health Literacy for the Health
Professions
This course will explore differences and attitudes towards the health care
industry across various social, cultural and ability groups. This exploration
will result in more culturally competent health professionals by promoting
self-awareness and challenging the existing assumptions and biases of
the health care system.

Credit Hours: 3
Prerequisites: junior or senior standing or instructor's consent

HLTH_SCI 4410: Humanism and Health Literacy
This class will teach how the humanities can help students become better
health professionals. Topics include: spirituality and health; non-medical
factors that impact health; representation of disability in art history; and
literature and health. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: Restricted to Health Sciences Majors during pre-
registration

HLTH_SCI 4420: Health Literacy and Behavioral Compliance
Students will learn about the behavioral, psychological, and cognitive
factors that impact health literacy and the ability to follow healthcare
recommendations.

Credit Hours: 3
Prerequisites: Restricted to Health Sciences Majors during pre-
registration

HLTH_SCI 4480: Clinical Ethics
Exploration of bioethics issues in health care with emphasis on issues
related to patient choice and provider responsibility. Topics include
philosophical theories, principles and models for ethical and lawful
decision making in healthcare.

Credit Hours: 3
Prerequisites: junior or senior standing; Restricted to Health Science
majors only

HLTH_SCI 4480W: Clinical Ethics - Writing Intensive
Exploration of bioethics issues in health care with emphasis on issues
related to patient choice and provider responsibility. Topics include
philosophical theories, principles and models for ethical and lawful
decision making in healthcare.

Credit Hours: 3
Prerequisites: junior or senior standing; Restricted to Health Science
majors only

HLTH_SCI 4500: Health Care Management
Examines various management concepts as they relate to the unique
environment of health care. Concepts include planning, decision making,
budgeting, staffing, organizing, and motivating for working with individuals
or teams. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: HLTH_SCI 2100; junior standing
HLTH_SCI 4510: Essential Tools for the Health Care Leader: A Problem-Based Approach
This course is designed to increase students' ability to evaluate, synthesize, and perform tasks in the areas of business intelligence, business analysis, performance and process improvement, data management and mining, information security and privacy, and project management. Graded A-F basis only.
Credit Hours: 3
Prerequisites: Junior standing or above; HLTH_SCI 2100. Restricted to Health Sciences Majors Only
Recommended: Access to and experience using Microsoft Excel 2010

HLTH_SCI 4975: Internship in Health Sciences
Focuses on knowledge, skills and attitudes that enhance personal effectiveness and professional success. Opportunities to research selected career paths and related topics in health sciences and participate in directed service learning projects or internships in selected emphasis area. Graded on A-F basis only.
Credit Hour: 1-6
Prerequisites: HLTH_SCI 2100

HLTH_SCI 4985: Healthcare Organization and Leadership
(same as CDS 4985). In this course, students will explore leadership principles as they relate to the student's focus area, combining previous expertise in the field with an interdisciplinary perspective within the healthcare community. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: HLTH_SCI 2100; senior standing required

Hebrew Courses
HEBREW 1100: Elementary Hebrew I
For beginners with no prior knowledge of Hebrew. Five hours of classroom instruction, with one hour lab work weekly.
Credit Hours: 6

HEBREW 1200: Elementary Hebrew II
Five hours of classroom instruction, with one hour lab work weekly.
Credit Hours: 6
Prerequisites: C- or better in HEBREW 1100, or equivalent

HEBREW 2001: Topics in Hebrew-General
Organized study of selected topics. Subjects and topics may vary semester to semester. May be repeated with departmental consent.
Credit Hour: 1-3

HEBREW 2005: Topics in Hebrew - Humanities
Organized study of selected topics. Subjects and topics may vary semester to semester. May be repeated with departmental consent. No knowledge of Hebrew required. No language credit.
Credit Hour: 1-3

HEBREW 3085: Problems in Hebrew
Supervised study of Hebrew language and/or culture.
Credit Hour: 1-3
Prerequisites: Instructor's consent

HEBREW 3310: Introduction to Israeli Culture
Examines unique qualities that shape modern Israeli culture; looks at major social and political events that have shaped ethnicity, ideology, religion, identity, and diversity of the State of Israel. Discusses literature, the fine arts, language, and the mass media. No Foreign Language credit. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: sophomore standing or instructor's consent required

HEBREW 3845: Modern Israeli Film
(same as FILM_S 3845). Examines the modern film of developing Israel. Discusses complex social relationships. Introduces concepts of Hebrew language and its use in the arts world-wide. Discusses varied communities in Israel, and universal themes such as democracy and social justice. Provides introduction to Israeli culture. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: sophomore standing or instructor's consent required

History Courses
HIST 1004: Undergraduate Topics in History-Social Science
Organized study of selected topics. Subjects and credits may vary from semester to semester. May be repeated for credit with departmental consent.
Credit Hour: 1-3

HIST 1100: Survey of American History to 1865
Introduction to U.S. history through the Civil War, surveying political, economic, social and cultural development of the American people. No credit will be given to students who have received credit In HIST 1400 (AP credit for US History).
Credit Hours: 3

HIST 1100H: Survey of American History to 1865 - Honors
Introduction to U.S. history through the Civil War, surveying political, economic, social and cultural development of the American people. No credit will be given to students who have received credit In HIST 1400 (AP credit for US History).
Credit Hours: 3
Prerequisites: Honors eligibility required

HIST 1200: Survey of American History Since 1865
Introduction to U.S. history since 1865, surveying political, economic, social, and cultural development of the American people. No credit will be given to students who have received credit In HIST 1400 (AP credit for US History).
Credit Hours: 3

HIST 1200H: Survey of American History Since 1865 - Honors
Introduction to U.S. history since 1865, surveying political, economic, social, and cultural development of the American people. No credit will be
given to students who have received credit in HIST 1400 (AP credit for US History).

**Credit Hours:** 3

**Prerequisites:** Honors eligibility required

---

**HIST 1400: American History**

Broad survey of political, economic, social, intellectual, diplomatic and constitutional development of American people from first English settlements to present day; emphasizes evolution of American culture and institutions. Students may not receive additional credit for HIST 1100 and/or HIST 1200.

**Credit Hours:** 5

---

**HIST 1410: African American History**

(same as BL_STU 1410). Survey of social, political and economic development to the African American people in American life from 1619 to the present.

**Credit Hours:** 3

---

**HIST 1420: Globalization and History**

This course will explore the contemporary phenomenon of globalization in historical perspective. Our goal will be to help students come to terms with the origins and dynamics of this process, which is transforming our economy and society more rapidly and thoroughly than ever before.

**Credit Hours:** 3

---

**HIST 1500: Foundations of Western Civilization**

Development of characteristic ideas and institutions of Western cultural tradition, from origin of civilization in ancient Near East to beginning of rapid social, political, intellectual transformation of Europe in 18th century.

**Credit Hours:** 3

---

**HIST 1500H: Foundations of Western Civilization - Honors**

Development of characteristic ideas and institutions of Western cultural tradition, from origin of civilization in ancient Near East to beginning of rapid social, political, intellectual transformation of Europe in 18th century.

**Credit Hours:** 3

**Prerequisites:** Honors eligibility required

---

**HIST 1510: History of Modern Europe**

Selected major themes in European history from French Revolution to recent times. Breakdown of traditional institutions, ideas; political, social revolution; industrialization, nationalism, imperialism, world wars; democratic, totalitarian ideologies, movements; quest for international order, European unity.

**Credit Hours:** 3

---

**HIST 1510HW: History of Modern Europe - Honors/Writing Intensive**

Selected major themes in European history from French Revolution to recent times. Breakdown of traditional institutions, ideas; political, social revolution; industrialization, nationalism, imperialism, world wars; democratic, totalitarian ideologies, movements; quest for international order, European unity.

**Credit Hours:** 3

**Prerequisites:** Honors eligibility required

---

**HIST 1520: The Ancient World**

Survey of institutional and cultural development of ancient Near East, Greece, Rome, and Asia.

**Credit Hours:** 3

---

**HIST 1540: England Before the Glorious Revolution**

Survey of English institutions, culture and politics from the Roman invasion to the Revolution of 1688.

**Credit Hours:** 3

---

**HIST 1550: Britain 1688 to the Present**

Surveys British history from 1688 to present. Emphasizes social and economic change.

**Credit Hours:** 3

---

**HIST 1560: The World of the Middle Ages**

Survey of European development from the fall of Rome to the 16th century.

**Credit Hours:** 3

---

**HIST 1570: Survey of Early Modern Europe, 1350-1650**

Survey of Western and Central Europe (including Britain) from the Black Death to the end of the Thirty Years' War. This period comprises late medieval crises, the Renaissance, Reformation, Counter-Reformation, Exploration and the New World, the Confessional Age, early modern state-building, and the Thirty Years' War.

**Credit Hours:** 3

---

**HIST 1580: History of Christianity**

Origin, diffusion and development of Christianity, with special attention to its influence on Western civilization. Major emphasis on period up to French Revolution.

**Credit Hours:** 3

---

**HIST 1590: Women and the Family in the Pre-Modern West**

Examines the changing roles of women and familial structures from the Ancient Mediterranean World to the Protestant Reformation and the effects of religious, political and economic change on the family.

**Credit Hours:** 3
HIST 1600: Foundations of Russian History  
A survey of the Kievan and Muscovite period to the end of the 17th century.  
Credit Hours: 3

HIST 1610: Russia in Modern Times  
(same as PEA_ST 1610). Survey of Russian history from 1801 to present.  
Credit Hours: 3

HIST 1790: History of Early Africa  
(same as BL_STU 1790). This course introduces students to the early history of Africa. It focuses on political, social, economic and cultural developments based on primary and secondary sources available in print and online.  
Credit Hours: 3

HIST 1800: History of Modern Africa  
(same as BL_STU 1800). This course introduces students to the recent history of Africa. It provides them with an opportunity to understand the main challenges Africans faced since colonial times based on primary and secondary sources.  
Credit Hours: 3

HIST 1810: History of South Africa  
(same as BL_STU 1810). Surveys the social, cultural and economic dynamics of South African society from the 16th century to the present with an emphasis on the last two centuries and the consolidation of the apartheid state.  
Credit Hours: 3

HIST 1820: Asian Humanities  
(same as REL_ST 1820, AR_H_A 1230 and S_A_ST 1152). This course introduces the literature and visual arts of Asia through selected master works. It focuses principally on India and China and investigates the distinctive features of their cultures.  
Credit Hours: 3

HIST 1830: Survey of East Asian History  
(same as KOREAN 1830). Introductory survey of the history of East Asian countries (China, Korea, Vietnam, and Japan) in the past two thousand years, focusing on their cultural, economic, and political traditions as well as their transformations in the modern era.  
Credit Hours: 3

HIST 1840: Colonial Latin America  
Survey of Latin America, 1492-1825; Exploration and conquest; European settlement; colonial government and institutions; economy and society; cultural and intellectual life, independence movements.  
Credit Hours: 3

HIST 1850: Latin America Since Independence  
Political, social and economic developments; nationalism; revolutionary movements; U.S. influence.  
Credit Hours: 3

HIST 1860: History of Ancient India  
(same as S_A_ST 1860). This course surveys the history of South Asian history. The course begins with the Indus Valley Civilization (fl. 2600-1900 B.C.) and ends with an analysis of Islamic impact on India culture around 1200-1350. Emphasis will be placed on cultural and social history, religion, arts and literature, and the sources used for the study of premodern civilizations. Students will develop a basic knowledge and vocabulary necessary to pursue additional South Asian courses.  
Credit Hours: 3

HIST 1870: Imperial China: China to 1600  
This course offers a broad introduction to Chinese history and culture from antiquity up to the later imperial period (around 1600). It is designed to provide the student with an understanding of the historical development of China's culture, economic, political, and intellectual traditions.  
Credit Hours: 3

HIST 1871: History of China in Modern Times  
This is a lecture course designed to introduce to beginning level students the epic journey of China's historical transformation since c. 1600. This survey provides a basis for understanding the painstaking transition from "tradition" to "modernity" in China.  
Credit Hours: 3

HIST 1872: Mao's China and Beyond: China Since 1949  
Through a series of readings, images, and film we will look at the dramatic cultural, economic, social and intellectual changes the People's Republic of China has experienced since 1949, and look at the interrelated, yet often contradictory, challenges facing Beijing in regards to the task of furthering economic prosperity while promoting policies of integrating with the international society.

<td>Honors eligibility required.</td>
</tr>
<tr>
<td>HIST 2100H</td>
<td>The Revolutionary Transformation of America - Honors</td>
<td>In the broadest of terms, this is a course on origins. On one hand, we will devote significant class time to discussing &quot;the causes which impelled&quot; the colonies to throw off the yoke of British rule. We will examine this on both a practical and a more abstract level, focusing first on writings that delineate why colonists grew to perceive the economic, social, and political conditions of British rule as insufferable, and then on how they translated these practical concerns into a more ideological justification of violent revolution.</td>
<td>3</td>
<td>Honors eligibility required.</td>
</tr>
<tr>
<td>HIST 2100H</td>
<td>The Young Republic - Honors</td>
<td>This course examines the early years of the United States under the (then) new Constitution, an important historical period with which present-day Americans are increasingly unfamiliar. Our focus will be on abandoning our preconceptions about the nation's early history and thoroughly understanding the choices that were posed and made in the years after 1789 and that would determine what type of nation the U.S. would become.</td>
<td>3</td>
<td>Honors eligibility required.</td>
</tr>
<tr>
<td>HIST 2150</td>
<td>The American Civil War: A Global History</td>
<td>In this class students will study the American Civil War from the perspective of global history. The familiar actors and events will be covered - the debate over slavery, the secession of the South, the rise of Abraham Lincoln, the great battles and generals, etc. But these familiar episodes will take on different meanings when viewed in relation to global structures of politics, economics, social relations, and ideology. The 1860s was at once a formative moment in the history of globalization and the key decade for the formation and consolidation of modern nations.</td>
<td>3</td>
<td>Sophomore standing.</td>
</tr>
<tr>
<td>HIST 2210</td>
<td>Twentieth Century America</td>
<td>Survey of American development from 1900 to present. For students who have not taken advanced courses in American history, especially HIST 4210, HIST 4220, or HIST 4230.</td>
<td>3</td>
<td></td>

</table>
economic events. A second emphasis is on the nature and character of the American democratic system. Graded on A-F basis only.

**Credit Hours:** 3

**HIST 2520: From Waterloo to Sarajevo: European History, 1815-1914**
Political, social, economic, and cultural development of Europe from French Revolution to outbreak of World War I.

**Credit Hours:** 3

**Prerequisites:** sophomore standing required

**HIST 2520W: From Waterloo to Sarajevo: European History, 1815-1914 - Writing Intensive**
Political, social, economic, and cultural development of Europe from French Revolution to outbreak of World War I.

**Credit Hours:** 3

**Prerequisites:** sophomore standing required

**HIST 2530: Ukrainian History from Medieval to Modern Times**
A successor state of the former Soviet Union, Ukraine occupies a strategic position in Eastern Europe. The course will trace the long, turbulent history of this East Slavic nation, culminating the independence in 1991.

**Credit Hours:** 3

**HIST 2531: Women in Russian History**
This is a survey course which is designed for students who have not previously taken in course in Russian history, and who are interested in how women experienced the period from the formation of the Kievan state in the ninth century to the fall of the Soviet Union in 1991.

**Credit Hours:** 3

**HIST 2580: Mafia Myth and Reality: The Italian Mafia and the Nation-State, 1860 to the Present**
This course explores contemporary cultural representations of the Mafia in film and literature and grounds these fictional representations in the history of modern Italy. We trace the emergence of the various Mafia networks during the wars of the Risorgimento and the construction of the "southern problem", and the impact transnational Italian migration, the rise of Fascism and the postwar reconstruction had on the form and function of these networks.

**Credit Hours:** 3

**HIST 2600: Early Christianity**
(same as REL_ST 2600). History of Christian practices and teachings from Christian origins through the 8th century, including Eastern Orthodoxy Syrian Christianity, Roman Catholicism. Themes such as interpretation and creation of Scriptures, worship style, central rituals, debates about right teaching (orthodoxy) mysticism and developing lifestyles both in and apart from the world.

**Credit Hours:** 3

**Prerequisites:** sophomore standing

**HIST 2610: Medieval Christianity**
(same as REL_ST 2610). Study of the doctrinal developments, major theologians and schools, institutional formation and dissolution, mysticism, and liturgical expression within the context of cultural and political history. Beginning with Augustine and concluding with the 15th century. **Prerequisites:** REL_ST 2600

**Credit Hours:** 3

**HIST 2620: History of Christianity, 1500-Present**
(same as REL_ST 2620). Protestant and Catholic Christianity in age of European expansion; enlightenment; 19th and 20th-century challenges and responses.

**Credit Hours:** 3

**Prerequisites:** REL_ST 2600 and REL_ST 2610

**HIST 2630: History of Christian Traditions**
(same as REL_ST 2630). An overview of the origins and development of Christianities from the first century of the Common Era to the present day. Topics will include competing Christian theologies, colonialism, conversion narratives, globalization, religious violence, and heresy.

**Credit Hours:** 3

**HIST 2640: Women in Indian History**
This course examines the role of women in Indian (South Asian) history, focusing on women in British Indian from the eighteenth century up to the Partition of 1947. While previous knowledge of South Asian history may be beneficial, it is not required for this course.

**Credit Hours:** 3

**HIST 2650: Korea: The First Chinese Democracy**
This course is an introduction to the history of Taiwan, from the seventeenth century to the present day. This course examines historical development leading to the contemporary situation. It problematizes the notion that "democracy is not suitable for Chinese society."

**Credit Hours:** 3

**HIST 2660: Black Studies in Slavery and Freedom**
(same as BL_STU 2904). This course provides study of historical background, economic, political and social implications of slavery and freedom in the African Diaspora (Americas, Africa, Europe, Asia) as well as the legal and extralegal struggles for and meaning of (global, local, and national) freedom.

**Credit Hours:** 3
HIST 2950: Sophomore Seminar
This course is designed to introduce history majors to the experience of doing original research early in their undergraduate career. Topic will vary.

Credit Hours: 3
Prerequisites: departmental consent required

HIST 2950W: Sophomore Seminar - Writing Intensive
This course is designed to introduce history majors to the experience of doing original research early in their undergraduate career. Topic will vary.

Credit Hours: 3
Prerequisites: departmental consent required

HIST 3000: History of Religion in America to the Civil War
(same as REL_ST 3000). Studies major American religious traditions from the Age of Discovery to the Civil War, especially the evolution of religious practices and institutions and their influence upon American social, intellectual and political developments.

Credit Hours: 3
Prerequisites: sophomore standing

HIST 3010: Colonial America
This course will examine major colonial American events from a cultural history standpoint. We will explore the ways in which the famous and not so famous shaped and were shaped by events of the seventeenth and eighteenth centuries and how these people understood the changing meaning of American liberty.

Credit Hours: 3

(same as BL_STU 3200). Examines the dismantling of American apartheid and its transformation into a new racial control system. It also explores how and why the Civil Rights Movement was converted into a struggle for Black Power.

Credit Hours: 3

HIST 3210: History of Religion in Post-Civil War America
(same as REL_ST 3210). Surveys major American religious traditions from 1865 to the present. Focuses on the evaluation of religious practices and institutions and their interaction with and influence upon American social, intellectual and political developments.

Credit Hours: 3

HIST 3220: U.S. Women's Political History, 1880-Present
(same as WGST 3220). This course explores American women's engagement with American politics (broadly defined) over the course of the twentieth century. It addresses issues of political identity, organization, ideology, and division.

Credit Hours: 3
Prerequisites: sophomore standing

HIST 3230: Individualism and Success in Modern America, 1830-Present
This course explores changing notions of individualism and success in American culture during the 19th and 20th centuries. Standards defining achievement, gain, and happiness for the individual citizen have evolved over time, and we will examine a wide variety of sources - advice literature, essays, novels, historical texts, plays and movies, political and religious texts, social criticism - to analyze this broad evolution. The resulting insights into a variety of historical issues and values, problems and possibilities, promise to forge a deeper understanding of what it has meant to be a successful individual in the United States over the last two hundred years.

Credit Hours: 3

HIST 3240: Religious Biography: Black Religion
(same as BL_STU 3590). Studies black American religion through the biographies of representative and influential figures of the 19th and 20th centuries, including Nat Turner, W.E.B. Du Bois, and Marcus Garvey, M.L. King, Malcolm X.

Credit Hours: 3

HIST 3245: The United States and the Middle East
This course will explore the history of American relations with the Middle East. How have U.S. Policy-makers defined American interests in this region? How have they sought to protect and advance those interests? We will consider the cultural stereotypes and assumptions Americans have brought to their relations with the Middle East, and the images of the Middle East that have been projected in American popular culture. Finally, we will explore the ways in which the current political situations in the Middle East reflects the results of past U.S.

Credit Hours: 3

HIST 3400: Religious Biography: Black Religion
(same as BL_STU 3590). Studies black American religion through the biographies of representative and influential figures of the 19th and 20th centuries, including Nat Turner, W.E.B. Du Bois, and Marcus Garvey, M.L. King, Malcolm X.

Credit Hours: 3

HIST 3420: America's Environmental Experience
(same as PEA_ST 3420). Team-taught analysis of American thought and action on physical environment during 19th-20th centuries. Relation between politics, economics, technological change, environmental quality; roles of science, law, regulatory agencies, grassroots action.

Credit Hours: 3

HIST 3430: Sex Radicals in U. S History
(same as WGST 3430). Survey of the history of sexuality in the United States.

Credit Hours: 3
Prerequisites: sophomore standing

HIST 3485: The United States and the Middle East
This course will explore the history of American relations with the Middle East. How have U.S. Policy-makers defined American interests in this region? How have they sought to protect and advance those interests? We will consider the cultural stereotypes and assumptions Americans have brought to their relations with the Middle East, and the images of the Middle East that have been projected in American popular culture. Finally, we will explore the ways in which the current political situations in the Middle East reflects the results of past U.S.

Credit Hours: 3

HIST 3510: The Ancient Greek World
Political and social institutions, intellectual life of Greek city-states to time of Alexander.

Credit Hours: 3

HIST 3515: Egypt From Alexander the Great to Cleopatra
This course deals with the history of Egypt under the Ptolemaic dynasty (323-30 BC) of the Hellenistic period. Its main focus is political and military history, but various social and economic aspects of Egyptian society, as well as the infamous Ptolemaic bureaucracy, are considered,
as well as the literary and scientific output of scholars at Alexandria, the intellectual center of the Hellenistic world.

**Credit Hours: 3**

**HIST 3520: The Roman World**
Rise and development of Roman institutions, Rome's imperialism and culture through reign of Marcus Aurelius.

**Credit Hours: 3**

**HIST 3530: The Hellenistic World: From Alexander to Rome**
The achievements of Alexander the Great; political, social, economic development of Hellenistic kingdoms from his death to 31 B.C.

**Credit Hours: 3**

**HIST 3540: 20th Century Europe**
Political, social, and economic development of Europe from 1900 to the present, with emphasis on the period between the two world wars.

**Credit Hours: 3**

**HIST 3540W: 20th Century Europe - Writing Intensive**
Political, social, and economic development of Europe from 1900 to the present, with emphasis on the period between the two world wars.

**Credit Hours: 3**

**HIST 3550: The Origins of Scientific Thought**
This course will trace the evolution of Western science from its Egyptian-Babylonian roots to the "Copernican Revolution" of the mid-sixteenth century.

**Credit Hours: 3**

**Prerequisites:** sophomore standing

**HIST 3555: Galileo and His World**
(same as GN_HON 3230H). The purpose of this course is to evaluate Galileo's contribution to modern science on the basis, primarily, of his actual writings. In the process, we will examine the "Galileo Myth", focusing on the problem of scientific truth and freedom of thought.

**Credit Hours: 3**

**HIST 3560: The Scientific Revolution: 1550-1800**
This course covers the history of science, or natural philosophy, from late Renaissance to the beginnings of the "Darwinian Revolution."

**Credit Hours: 3**

**Prerequisites:** sophomore standing

**HIST 3570: European Women in the 19th Century**
(same as WGST 3570). Examines the history of European women from 1750 to 1900. The course focuses on how industrialization, the French Revolution and nation-formation changed women's roles in the family, workplace and the state. Grading: exams, papers and discussions.

**Credit Hours: 3**

**Prerequisites:** sophomore standing

**HIST 3580: Modern Italy, 1815 to the Present**
Political, cultural and social history of Italy since 1815. Looks at how Unification, World War, Fascism, the Cold War, Student protests, the women's movement and the end of the USSR shaped contemporary Italy.

**Credit Hours: 3**

**HIST 3590: The Early Middle Ages**
This course will focus on the social, political, economic, and cultural development of Europe from roughly 300 to 1050.

**Credit Hours: 3**

**Prerequisites:** sophomore standing

**HIST 3600: The Later Middle Ages**
This course will focus on the social, political, economic, and cultural development of Europe from roughly 1050 to 1500. Prerequisites: sophomore standing

**Credit Hours: 3**

**HIST 3610: Ireland, 1100s to 1850**
(same as PEA_ST 3610). Ireland, from Conquest to Famine: Ireland's history as the first British Colony, from the conquests of the 1100s and 1500s-1600s to the Irish rebellion of 1798 and the Great Famine and mass emigration of 1845-50.

**Credit Hours: 3**

**HIST 3611: Ireland, 1850-1923**
(same as PEA_ST 3611). Ireland, from Famine to Partition: Irish history from the Great Famine of 1845-50 to the revolutions of 1916-23 that brought partial independence from Britain but partitioned Ireland into two hostile and trouble states.

**Credit Hours: 3**

**HIST 3612: Ireland, 1920-Present**
(same as PEA_ST 3612). Ireland, from Partition to the Present: After surveying the conflicts that led to Irish revolution and partition in 1916-23, the course focuses on the development of post partition Ireland and Northern Ireland, and on the violence that has scarred Northern Ireland since the 1960s.

**Credit Hours: 3**

**Prerequisites:** May be restricted to History majors only during preregistration

**Recommended:** HIST 3610 and/or HIST 3611

**HIST 3624: Comparative Approaches to Black Studies in History**
(same as BL_STU 3624). Comparative approach to the study of Black Diaspora history that focuses on the theory, method, structure, and application of modes of cultural production within the history of Black Diaspora cultures. Program consent for repetition.

**Credit Hours: 3**
HIST 3624W: Comparative Approaches to Black Studies in History - Writing Intensive
(same as BL_STU 3624). Comparative approach to the study of Black Diaspora history that focuses on the theory, method, structure, and application of modes of cultural production within the history of Black Diaspora cultures. Program consent for repetition.

Credit Hours: 3

HIST 3820: Twentieth Century China
History of China from Nationalist Revolution of 1911 to present. A problem-oriented course: special emphasis on Mao and Maoist ideology, social, literary and cultural history also receive attention.

Credit Hours: 3

HIST 3830: Chinese Women’s History
Historical analysis of Chinese women in family, community, ideology, and national politics from the Late Imperial period to the present.

Credit Hours: 3

HIST 3850: Islam and the West
(same as PEA_ST 3850). This course provides a historical intellectual context for the raging debate on Islam and the West. It will discuss how Muslims conceived and reacted variously to the political and cultural challenge the West posed in the nineteenth and twentieth century. It will focus on the discourse on the reception of modernization in Islam. It will highlight the political and cultural energies invested by various Muslim elite communities to distinguish between modernization and Westernization. Islamic fundamentalism, the dominant Islamic expression of our time, will be usefully discussed in the context of this debate and praxis about modernization, authenticity, and Westernization.

Credit Hours: 3
Prerequisites: junior/senior standing

HIST 3860: History of Mexico
Survey of Mexican history from Cortes to present day.

Credit Hours: 3

HIST 3870: Social Revolution in Latin America
(same as PEA_ST 3870 and SOCIOL 3870). Twentieth century social revolutions in selected Latin American countries.

Credit Hours: 3

HIST 3880: History of Caribbean America
Comparative regional study of insular and mainland Caribbean nations. Emphasis on modern period. Independence; abolition of slavery; U.S. hegemony; economic, social, and political upheaval.

Credit Hours: 3

HIST 4000: Age of Jefferson
Political, constitutional, cultural, and economic developments in United States during formative period of Republic, 1787-1828. Special attention to Constitutional Convention, formation of national political institutions.

Credit Hours: 3

HIST 4001: Topics in History-General
Organized study of selected topics. Subjects and earnable credit may vary from semester to semester. May be repeated for credit with departmental consent.

Credit Hour: 1-99

HIST 4004: Topics in History-Social Science
Organized study of selected topics. Subjects and earnable credit may vary from semester to semester. May be repeated for credit with departmental consent.

Credit Hour: 1-99

HIST 4004H: Topics in History-Social Science - Honors
Organized study of selected topics. Subjects and earnable credit may vary from semester to semester. May be repeated for credit with departmental consent.

Credit Hour: 1-99
Prerequisites: Honors eligibility required

HIST 4004W: Topics in History-Social Science - Writing Intensive
Organized study of selected topics. Subjects and earnable credit may vary from semester to semester. May be repeated for credit with departmental consent.

Credit Hour: 1-99

HIST 4010: The Age of Jackson
This course will examine American Politics, society and culture in the 1820's, 1830's, and 1840's. Considerable attention will be devoted to Andrew Jackson himself, as a figure who both shaped and represented his era, for better or worse.

Credit Hours: 3

HIST 4030: History of the Old South
Study of the South to 1860.

Credit Hours: 3

HIST 4040: Slavery and the Crisis of the Union: The American Civil War Era
(same as BL_STU 4040; cross-leveled with HIST 7040). This class explores the history of the Civil War era, a transformative moment in both U.S. and world history. Our goal is to explore and answer a number of questions of great historical significance: How and why did slavery persist in an age of liberal democracy? Why did the pre-war Union prove unable to tolerate the plural visions and diverse institutions of its people? Was the descent into war more a measure of institutional weakness than of the intensity of moral conflict? What were the constituent elements of the competing wartime 'nationalisms' that evolved in both north and south? How and why did a war that began to restore the Union become one for emancipation? How was it the forerunner of modern, 'total' warfare? Did the governmental, socio-economic and racial changes wrought by war constitute a 'second American revolution'? Were the limits or the achievements of post-war Reconstruction more notable? And, last but certainly not least, how did the triumph of the Union condition the political and economic development of a rapidly globalizing world?

Credit Hours: 3

HIST 4040W: Topics in History-Social Science - Writing Intensive
Organized study of selected topics. Subjects and earnable credit may vary from semester to semester. May be repeated for credit with departmental consent.

Credit Hour: 1-99

HIST 4040W: Topics in History-Social Science - Honors
Organized study of selected topics. Subjects and earnable credit may vary from semester to semester. May be repeated for credit with departmental consent.

Credit Hour: 1-99
Prerequisites: Honors eligibility required

HIST 4060: History of Mexico
Survey of Mexican history from Cortes to present day.

Credit Hours: 3

HIST 4070: History of the Old South
Study of the South to 1860.

**Prerequisites:**

- HIST 1100 or equivalent
- Sophomore standing
- Department consent required
- Honors eligibility required
HIST 4270: African-Americans in the Twentieth Century
(same as BL_STU 4270) Surveys the African-American experience from 1900 to the present. Attention is given to economic, political, social, and cultural trends.
Credit Hours: 3

HIST 4280: America in the Reagan Years
Examines the major political, economic, social, and cultural currents and developments of the "Long Eighties," from Jimmy Carter's "malaise speech" of July 1979 to Bill Clinton's mid-1990s embrace of welfare reform and pronouncement that the era of big government was over.
Credit Hours: 3

HIST 4310: Adoption, Child Welfare and the Family, 1850-Present
(same as WGST 4310; cross-leveled with HIST 7310 and WGST 7310). This interdisciplinary U.S. history course will address topics such as: changing legal and social meaning of adoption since 1850; historical connections between adoption and poverty, family, gender race, sexuality, class, fertility, identity; and more recent issues such as transnational adoption.
Credit Hours: 3

HIST 4410: History of the American Law
American law from English origins to present. Reviews common law, codification, legal reform movements, slavery law, administrative state, formalism, legal realism, jurisprudential questions concerning rule of law.
Credit Hours: 3
Recommended: HIST 1100, HIST 1200, or HIST 1400

HIST 4410: Introduction to U.S. Social History
Study of daily life and the ways ordinary Americans experienced historical change. Considers such topics as work, leisure, family and community. Compares how people's experiences varied by region, class, gender, ethnicity, and race.
Credit Hours: 3

HIST 4415: African Americans and American Justice
(same as BL_STU 4415) This course provides opportunities to review and discuss selected court cases and legislation in which black men, women, or children were plaintiffs and defendants or affected by the laws.
Credit Hours: 3

HIST 4415W: African Americans and American Justice - Writing Intensive
(same as BL_STU 4415) This course provides opportunities to review and discuss selected court cases and legislation in which black men, women, or children were plaintiffs and defendants or affected by the laws.
Credit Hours: 3

HIST 4420: American Urban History
Growth, development and implications of the city in American history; historical analysis of urban problems.
Credit Hours: 3

HIST 4425: The Superhero in American Culture From Washington to Wolverine
This course aims to help students become better informed and more critical consumers of popular culture by situating a selection of important American works and genres within the historical context of their creation, and in the history of American culture. Students will be challenged to look for historical patterns in popular culture and to consider the particular habits of thought and action that American popular culture seems to reinforce.
Credit Hours: 3
Prerequisites: HIST 1100 or HIST 1200 or HIST 1400 or HIST 2210

HIST 4430: The Great West in American History
Historical development of major regions, with emphasis on response to environment, public land policy, role of government in economic and resource development, citizen action, and cultural pluralism.
Credit Hours: 3

HIST 4440: History of the American Environment
A reading and discussion course exploring diverse responses to the changing American environment from early man to the present, including ecological, institutional, and philosophical aspects.
Credit Hours: 3

HIST 4445: American Political Economy from the Commerce Clause to the Great Recession
This course examines the history of the American political economy from the founding of the United States to the recent Great Recession. Scholars of political economy explore the ways in which politics and public policy intersect with economics, such as the operation of the institutions like the tax system, the first and second Banks of the United States in the late 18th and early 19th centuries, and the Federal Reserve after 1913. We will focus on efforts by the U.S. federal government to regulate the American economy and bring economic affairs under the control of the American people and their representatives through a wide variety of political, legal, and institutional mechanisms. A specialized knowledge of economics is not required for this course.
Credit Hours: 3

HIST 4445W: American Political Economy from the Commerce Clause to the Great Recession - Writing Intensive
This course examines the history of the American political economy from the founding of the United States to the recent Great Recession. Scholars of political economy explore the ways in which politics and public policy intersect with economics, such as the operation of the institutions like the tax system, the first and second Banks of the United States in the late 18th and early 19th centuries, and the Federal Reserve after 1913. We will focus on efforts by the U.S. federal government to regulate the American economy and bring economic affairs under the control of the American people and their representatives through a wide variety of political, legal, and institutional mechanisms. A specialized knowledge of economics is not required for this course.
Credit Hours: 3
HIST 4470: Quantitative Methods in Historical Study
Introduces quantitative approaches to the study of history. Emphasizes opportunities, limitations, and dangers involved in several common forms of quantitative study. Math Reasoning Proficiency Course.
Credit Hours: 3

HIST 4480: War Crimes and Genocide
(same as PEA_ST 4480). This course will explore the development of international law, international consciousness, and U.S. Foreign policy on the two distinct but often related issues of war crimes and genocide during the late 19th and throughout the 20th centuries.
Credit Hours: 3

HIST 4500: Philip II and Alexander the Great of Macadonia
Concentrates on the history and politics of Greece during reigns of these two kings along with Alexander's military conquests and various controversies from the period.
Credit Hours: 3

HIST 4510: Crime and Punishment: Law in Classical Athens
Examines the main principles of Athenian law and judicial procedures including history of law code and study of actual speeches from a variety of law suits and procedures.
Credit Hours: 3

HIST 4515: Power and Oratory in Ancient Greece
Concentrates on the rise of oratory in Greece and how oratory was exploited for political ends. Special attention will be paid to the Athenian Democracy in the fifth and fourth centuries BC.
Credit Hours: 3

HIST 4520: The Rise and Fall of the Roman Republic
(cross-leveled with HIST 7520). Analysis of the downfall of Republican institutions and the origins of autocracy, from the Gracchi to the death of Augustus in A.D. 14.
Credit Hours: 3

HIST 4530: The Roman Empire
Roman imperialism; management of, and rebellion in, the Empire; cultural exchange between Rome and its provinces.
Credit Hours: 3

HIST 4535: Monastic Worlds
(same as REL_ST 4535, MDVL_REN 4535; cross-leveled with REL_ST 7535, MDVL_REN 7535). Monastic Worlds is an experiential learning course designed to serve as a Humanities Field School in medieval and early modern studies. It will be taught by faculty from UMKC and UMC through the Intercampus Course Sharing initiative. The class introduces students to humanities research methodology and the religious history and culture of premodern Europe and the contemporary Midwest by using the monastic communities as a focal point to learn about musicology, history, art history, literature, and religion. Following two weeks of online course modules, students will travel to the Benedictine communities of Conception Abbey in Conception, Missouri and Mount Saint Scholastica's in Atchison, Kansas, for additional face-to-face classes and research projects. On-site, students will participate in communal living and attend face-to-face classes on the historical and cultural worlds of medieval and early modern Europe. They will practice ethnography through observation of and participation in communal life of prayer, study, book production, and labor. Students will also have the opportunity to work with the manuscripts and rare books owned by these communities and visit the largest reliquary collection in North America, housed at the nearby Benedictine community of the Sisters of Perpetual Adoration in Clyde, MO. This course has an associated fee. Contact teaching faculty for this year's fee details. Graded on A/F basis only.
Credit Hours: 3

HIST 4540: The Later Roman Empire
Political, religious and cultural life in Late Antiquity, from the "soldier emperors," to the barbarian kingdoms and early Byzantium.
Credit Hours: 3

HIST 4550: Age of the Vikings
Scandinavia and Scandinavian expansion in the Central Middle Ages. Covers political, economic, religious, and cultural effects of the Viking movement.
Credit Hours: 3

HIST 4550W: Age of the Vikings - Writing Intensive
Scandinavia and Scandinavian expansion in the Central Middle Ages. Covers political, economic, religious, and cultural effects of the Viking movement.
Credit Hours: 3

HIST 4555: Medieval France
(cross-leveled with HIST 7555). This course covers the area that became the kingdom of France from the end of the Roman era until the end of the Hundred Years War; emphasis on political and cultural developments.
Credit Hours: 3

HIST 4555W: Medieval France - Writing Intensive
(cross-leveled with HIST 7555). This course covers the area that became the kingdom of France from the end of the Roman era until the end of the Hundred Years War; emphasis on political and cultural developments.
Credit Hours: 3

HIST 4560: The Crusades
Survey of the European crusading movement from its inception in the late eleventh century to its decline during the later Middle Ages.
Credit Hours: 3

Prerequisites: junior standing
HIST 4570: Intellectual History of Europe, 17th and 18th Centuries
The Enlightenment's attack on traditional Christian thought and values.

Credit Hours: 3
Prerequisites: junior standing

HIST 4580: The "Making" of Modern Europe: Identity, Culture, Empire
(cross-leveled with HIST 7580). This course will explore some of the ideas, institutions and events that shaped modern Western civilization and thought, focusing on Western Europe, but also giving attention to the relationship between the West and the rest of the world. The course will introduce topics such as the rise of, nationalism, the cult of science, scientific racism and sexism, consumer mass culture, fascist ideology, existentialism, psychoanalysis, the modern city, gender and sexuality.

Credit Hours: 3
Prerequisites: junior standing

HIST 4585: Rome from Fascism to Liberation, 1922-1944
In this course we will explore the history of Fascism and German occupation in Italy through the city of Rome. We will study how fascism remade Rome, the arrival of the Germans, the history of the Jewish community and the deportations and the resistance.

Credit Hours: 3

HIST 4610: Early Modern Britain, 1450-1688
Study of English politics, society, economy, culture, and religion during primarily the Tudor and Stuart eras, from the establishment of the Tudor dynasty (1485) through the Glorious Revolution. Emphasis on social and religious history.

Credit Hours: 3
Prerequisites: sophomore standing

HIST 4620: Modern England
Surveys British history in the 18th and 19th centuries. Emphasizes social and economic change.

Credit Hours: 3

HIST 4625: Nature vs. Nurture: The History of a Debate
(cross-leveled with HIST 7625). The purpose of this course is to explore the debate on nature vs. nurture in human society from the late eighteenth century to the present. The goal of this course is to give biology, history, and social science (including journalism) majors a better understanding of how this debate between nature and culture has played out over the past 250 years, and what impact it has left on biology, the social sciences, and public discourse today.

Credit Hours: 3

HIST 4630: The Age of the Renaissance
Major changes in European economic, social, political, religious, and intellectual life between 1250-1500. Humanism and Renaissance. The "Renaissance problem".

Credit Hours: 3

HIST 4640: The Age of the Reformation
State of Europe about 1500. Political, diplomatic, social, and intellectual changes to 1648. Humanistic reform movements. Protestant-Catholic Reformation. Development of the modern state and international relations.

Credit Hours: 3

HIST 4645: Witchcraft and Witch Hunting in Pre-Modern Europe
(cross-leveled with HIST 7645). The surviving evidence indicates that between 1400 and 1700, at least 50,000 women, men, and children were executed for practicing witchcraft. Is there an explanation for this? Does it make any sense in terms of the intellectual, religious, social, political, and economic contexts of this period in European history? Fundamental to this course are the assumptions that there are many, not one, reasonable explanations for witchcraft beliefs and persecutions, and that when studied in terms of the various historical contexts this phenomenon must be understood as an integral part of European society during these centuries.

Credit Hours: 3

HIST 4650: Revolutionary France, 1789-1815
Revolutionary upheavals of the revolutionary-Napoleonic era, which destroyed traditional French society and laid the basis for modern France.

Credit Hours: 3
Prerequisites: junior standing

HIST 4660: European Women in the 20th Century
(same as WGST 4660). Examines the history of European women from World War I to the present. The course focuses on wars, migration, and the changing nature of family, work and community.

Credit Hours: 3
Prerequisites: junior standing

HIST 4670: From the Holy Roman Empire to the First World War: German History, 1750-1918
(cross-leveled with HIST 7670). Cultural, social and political history of Central Europe from 1800 to 1914. A case study in incomplete modernization, focused on industrialization, unification, cultural crisis and imperialism.

Credit Hours: 3

HIST 4670W: From the Holy Roman Empire to the First World War: German History, 1750-1918 - Writing Intensive
(cross-leveled with HIST 7670). Cultural, social and political history of Central Europe from 1800 to 1914. A case study in incomplete modernization, focused on industrialization, unification, cultural crisis and imperialism.

Credit Hours: 3

HIST 4680: From the Rise of the Nazis to the Fall of the Wall: German History in the Twentieth Century
(cross-leveled with HIST 7680). Cultural, social and political history from 1914 to present day. Focus on world wars, national socialism, the holocaust, the cold war and the emergence of East and West Germany.

Credit Hours: 3

HIST 4690: From the Rise of the Nazis to the Fall of the Wall: German History in the Twentieth Century
(cross-leveled with HIST 7690). Cultural, social and political history from 1914 to present day. Focus on world wars, national socialism, the holocaust, the cold war and the emergence of East and West Germany.

Credit Hours: 3

HIST 4690W: From the Rise of the Nazis to the Fall of the Wall: German History in the Twentieth Century - Writing Intensive
(cross-leveled with HIST 7690). Cultural, social and political history from 1914 to present day. Focus on world wars, national socialism, the holocaust, the cold war and the emergence of East and West Germany.

Credit Hours: 3
HIST 4700: Imperial Russia, 1682-1825
Russia in the 18th and early 19th centuries, with special emphasis on the reigns of Peter I, Catherine II, and Alexander I.

Credit Hours: 3

HIST 4710: The Russian Revolution
Analyzes the transformation of Russian society that produced the collapse of autocracy, efforts to create a parliamentary government, the Bolshevik seizure of power in 1917, and the civil war that followed.

Credit Hours: 3

HIST 4800: Modern China and Japan: War, Imperialism and Memory
(cross-leveled with HIST 7800). This course examines the interaction between Japan and China since the late nineteenth century in an effort to understand deeper historical reasons behind the rising tension in East Asia at the present time.

Credit Hours: 3

HIST 4815: African History Through the Digital Medium
(cross-leveled with HIST 7815). This course invites students to explore the history of Africa through the digital medium. It offers a hands-on approach to understand how knowledge about African history, culture, and society is produced and disseminated over the World Wide Web.

Credit Hours: 3

HIST 4840: History of the Mongols
In the 13th century, the Mongols went from warring tribes to the largest Eurasian empire in history. This course examines the Mongol tribes, Chinggis Khan's unification of the tribes, the Mongols rapid military victories across Eurasian and their equally rapid decline.

Credit Hours: 3

HIST 4850: Traversing the Muslim World
(same as S_A_ST 4850). The traveler's tale formed an important part of the medieval world's system of knowledge. This writing intensive seminar-style course examines a wide array of the most influential travelers in Muslim lands such as Ibn Fadlan, Ibn Battuta, Benjamin of Tudela and Marco Polo.

Credit Hours: 3

Prerequisites: junior standing

HIST 4850W: Traversing the Muslim World - Writing Intensive
(same as S_A_ST 4850). The traveler's tale formed an important part of the medieval world's system of knowledge. This writing intensive seminar-style course examines a wide array of the most influential

Credit Hours: 3

Prerequisites: junior standing

HIST 4860: Colonial Masculinity/Colonial Frontier
(same as S_A_ST 4860). This writing intensive seminar-style course examines how the Indian Army acted as a colonial army in the British Empire, including Africa, the Boxer Rebellion, and the World Wars. Focus is on the role of the Indian Army, impact of the Sepoy Mutiny, and martial race ideology.

Credit Hours: 3

HIST 4865: Buying Desire: History of Consumption
(cross-leveled with HIST 7865). This course explores the history of consumption practice in various cultural contexts. The course is divided into four parts: "Masses As Consumers", "Selling/Consuming Cultures", "Consumption as (Postcolonial) Modernity", and "Consumption and the Nation". Under each section are thematically related texts on particular cultural contexts. The reading of ethnographic texts on consumption is to be accompanied by critical discussions that locate consumption within the practices of the nation-state-making and global product-marketing.

Credit Hours: 3

HIST 4867: North Korea: History, Political Economy, Culture
(same as KOREAN 4867; cross-leveled with HIST 7867). The aim of this course is to survey North Korea's history, especially in terms of political economy and culture. Through several themes, we will examine the historical situations of North Korea from its beginnings in the postliberation period to the present, as North Korea undergoes monumental changes.

Credit Hours: 3

HIST 4870: Southeast Asia Since the Eighteenth Century
The general objective of this course is to introduce students to the fascinating world of Southeast Asia. We will look at the shared history of commodity, cultural, and religious exchanges that gave this region a collective character, as well as explore the historical conditions from which individual modern Southeast Asian state emerged.

Credit Hours: 3

HIST 4880: Chinese Migration: From Yellow Peril to Model Minority
(cross-leveled with HIST 7880). This course surveys Chinese emigration in the global context over the span of five centuries. We will pay special attention to the changing relationships between China and Chinese migrants. Our emphasis will be on history as a process of negotiation and contestation of heterogeneous groups or individuals through creative and selective actives.

Credit Hours: 3

HIST 4900: Beltway History: American Constitutional Democracy in Theory and Practice
(same as POL_SC 4900). This course is an experiential overview of American political history for students participating in the Kinder
Forum's Washington internship program, showing how American constitutional democracy was developed and implemented right here on the Potomac, as much as possible in the actual places where the events occurred. Emphasis will be placed on the interplay between constitutional theory and actual political experience over time, and the tensions and institutional changes that emerged as Americans and their government coped with cataclysmic social changes, unparalleled economic development, and fearsome international challenges.

Credit Hours: 3

HIST 4904: Historical and Contemporary Slavery
(same as BL_STU 4904). An exploration of slavery in both its historical and contemporary context, focusing on the origins, characteristics, and struggles to abolish the practice. Historical slavery examined using African enslavement in the Americas, and contemporary slavery using human trafficking and forced labor in the developed and developing world.

Credit Hours: 3

HIST 4910: History in the Public: An Introduction to the Theory and Practice of Public History
(cross-leveled with HIST 7910). The purpose of this course is to introduce students to the world of public history, the central questions and debates in the field, and to offer students the opportunity to practice public history.

Credit Hours: 3

HIST 4910W: History in the Public An Introduction to the Theory & Practice of Public History - Writing Intensive
(cross-leveled with HIST 7910). The purpose of this course is to introduce students to the world of public history, the central questions and debates in the field, and to offer students the opportunity to practice public history.

Credit Hours: 3

HIST 4940: Internship in History
Professional training in history and archive-related fields. Graded on S/U basis only.

Credit Hours: 3
Prerequisites: departmental consent

HIST 4960: Special Readings in History
Individual work, with conferences adjusted to needs of student.

Credit Hour: 1-6
Prerequisites: Department consent required

HIST 4970: Undergraduate Seminar in Third World History
Readings in selected problems in the history of Africa, Asia or Latin America with reports and discussion.

Credit Hours: 3
Prerequisites: departmental consent

HIST 4970W: Undergraduate Seminar in Third World History - Writing Intensive
Readings in selected problems in the history of Africa, Asia or Latin America with reports and discussion.

Credit Hours: 3
Prerequisites: departmental consent

HIST 4971: Undergraduate Seminar in European History
Readings in problems in European history with reports and discussion.

Credit Hours: 3
Prerequisites: departmental consent

HIST 4971W: Undergraduate Seminar in European History - Writing Intensive
Readings in problems in European history with reports and discussion.

Credit Hours: 3
Prerequisites: departmental consent

HIST 4972: Undergraduate Seminar in American History
Readings in selected problems in American history with reports and discussion on selected topics.

Credit Hours: 3
Prerequisites: departmental consent

HIST 4972W: Undergraduate Seminar in American History - Writing Intensive
Readings in selected problems in American history with reports and discussion on selected topics.

Credit Hours: 3
Prerequisites: departmental consent

HIST 4975: Journal on Constitutional Democracy
(same as POL_SC 4975). The Journal is sponsored by the Kinder Institute on Constitutional Democracy and staffed by current and former participants in the Institute's undergraduate Society of Fellows program. Each volume of the Journal is organized around a student-selected idea or era central to the historical development and philosophical foundations of constitutional democracy in the United States. Student-authored essays address this theme via arguments and historical overviews crafted from the close reading and analysis of primary source documents, with the exception being that participating in the Journal will relate back to and advance students’ study of American political thought and history.

Credit Hour: 1-3

HIST 4980: Undergraduate Thesis in History
Individually directed research leading to a senior thesis.

Credit Hours: 3
Prerequisites: departmental consent

HIST 4981: Undergraduate Thesis in History
Continuation of HIST 4980.

Credit Hours: 3
Prerequisites: departmental consent

HIST 4981W: Undergraduate Thesis in History - Writing Intensive
Continuation of HIST 4980.

Credit Hours: 3
Prerequisites: departmental consent

<td>HIST 7040</td>
<td>Slavery and the Crisis of the Union: The American Civil War Era</td>
<td>(cross-leveled with HIST 4040). This class explores the history of the Civil War era, a transformative moment in both U.S. and world history. Our goal is to explore and answer a number of questions of great historical significance: How and why did slavery persist in an age of liberal democracy? Why did the pre-war Union prove unable to tolerate the plural visions and diverse institutions of its people? Was the descent into war more a measure of institutional weakness than of the intensity of moral conflict? What were the constituent elements of the competing wartime 'nationalisms' that evolved in both north and south? How and why did a war that began to restore the Union become one for emancipation? How was it the forerunner of modern, 'total' warfare? Did the governmental, socio-economic and racial changes wrought by war constitute a 'second American revolution'? Were the limits or the achievements of post-war Reconstruction more notable? And, last but certainly not least, how did the triumph of the Union condition the political and economic development of a rapidly globalizing world? Graded on A-F basis only.</td>

</table>
HIST 7100: American Cultural and Intellectual History to 1865
Origins and growth of American values and ideas considered in their social context. Topics include: the work ethic, republican politics, revivalism, reform movements, sexual attitudes, literature in the marketplace, Afro-American and slave-holding subcultures.
Credit Hours: 3

HIST 7200: American Cultural and Intellectual History Since 1865
Tensions and transformations in American culture to the present. Topics include: spiritual crisis in Christianity; rise of welfare state liberalism; socialist and feminist alternatives; literature and the arts.
Credit Hours: 3

HIST 7210: Origins of Modern America, 1877-1919
Political, social, economic, and intellectual evolution of America into a modern society, 1877-1918.
Credit Hours: 3

HIST 7220: U.S. Society Between the Wars 1918-1945
Detailed examination of American history from end of World War I to end of World War II.
Credit Hours: 3

HIST 7230: Our Times: United States Since 1945
Detailed examination of American history from end of World War II to the present.
Credit Hours: 3

HIST 7235: The Wire: Race, Urban Inequality, and the "Crisis" of the American City (cross-leveled with HIST 4235). The HBO series “The Wire”, a crime drama based on the border city of Baltimore, exposed the interlocking, structural realities giving shape to the landscapes, neighborhoods, and lived experiences of urban America during the early twenty-first century. Through vivid storytelling, “The Wire” complicates understandings of the “urban crisis” through a focus on the inner workings of major institutions such as the media, public schools, politics, underground economies, public housing, and the criminal justice system and on the ways in which poor and working-class black residents negotiate power and survival. Using the cable series as a lens, this class offers students the opportunity to critically examine the historical, economic, social, and political dimensions of urban inequality. Graded on A-F basis only.
Credit Hours: 3

HIST 7240: History of the New South
Study of the South since 1860.
Credit Hours: 3

HIST 7250: U.S. Foreign Relations, 1898-1945
A history of American Foreign Policy from the Spanish American War to the end of World War II.
Credit Hours: 3

HIST 7260: The Age of Ascendancy: U.S. Foreign Relations, 1945-Present (same as PEA_ST 7260). Surveys the Cold War in Europe and Asia, the Korean and Vietnam Wars, and Middle East policy.
Credit Hours: 3

HIST 7270: African-Americans in the Twentieth Century (same as BL_STU 7270). Surveys the African-American experience from 1900 to the present. Attention is given to economic, political, social, and cultural trends.
Credit Hours: 3

HIST 7280: America in the Reagan Years
Examines the major political, economic, social, and cultural currents and developments of the "Long Eighties," from Jimmy Carter's "malaise speech" of July 1979 to Bill Clinton's mid-1990s embrace of welfare reform and pronouncement that the era of big government was over.
Credit Hours: 3

HIST 7310: Adoption Child Welfare and the Family, 1850-present (same as WGST 7310; cross-leveled with HIST 4310, WGST 4310). This interdisciplinary U.S. history course will address topics such as: changing legal and social meanings of adoption since 1850; historical connections between adoption and poverty, family, gender, race, sexuality, class, fertility, identity; and more recent issues such as transnational adoption.
Credit Hours: 3

HIST 7410: Introduction to U.S. Social History
Study of daily life and the ways ordinary Americans experienced historical change. Considers such topics as work, leisure, family and community. Compares how people's experiences varied by region, class, gender, ethnicity, and race.
Credit Hours: 3

HIST 7415: African Americans and American Justice (same as BL_STU 7415) This course provides opportunities to review and discuss selected court cases and legislation in which black men, women, or children were plaintiffs and defendants or affected by the laws.
Credit Hours: 3

HIST 7420: American Urban History
Growth, development and implications of the city in American history; historical analysis of urban problems.
Credit Hours: 3

HIST 7430: The Great West in American History
Historical development of major regions, with emphasis on response to environment, public land policy, role of government in economic and resource development, citizen action, and cultural pluralism.
Credit Hours: 3
**HIST 7440: History of the American Environment**  
A reading and discussion course exploring diverse responses to the changing American environment from early man to the present, including ecological, institutional, and philosophical aspects.  
*Credit Hours: 3*

**HIST 7470: Quantitative Methods in Historical Study**  
Introduces quantitative approaches to the study of history. Emphasizes opportunities, limitations, and dangers involved in several common forms of quantitative study.  
*Credit Hours: 3*

**HIST 7480: War Crimes and Genocide**  
This course will explore the development of international law, international consciousness, and U.S. foreign policy on the two distinct but often related issues of war crimes and genocide during the late 19th and throughout the 20th centuries.  
*Credit Hours: 3*

**HIST 7500: Philip II and Alexander the Great of Macedonia**  
Concentrates on the history and politics of Greece during reigns of these two kings along with Alexander's military conquests and various controversies from the period.  
*Credit Hours: 3*

**HIST 7510: Crime and Punishment: Law in Classical Athens**  
Examines the main principles of Athenian law and judicial procedures including history of law code and study of actual speeches from a variety of law suits and procedures.  
*Credit Hours: 3*

**HIST 7515: Power and Oratory in Ancient Greece**  
Concentrates on the rise of oratory in Greece and how oratory was exploited for political ends. Special attention will be paid to the Athenian Democracy in the fifth and fourth centuries BC.  
*Credit Hours: 3*  
*Prerequisites: instructor's consent*

**HIST 7520: The Rise and Fall of the Roman Republic**  
(cross-leveled with HIST 7520). Analysis of the downfall of Republican institutions and the origins of autocracy, from the Gracchi to the death of Augustus in A.D. 14.  
*Credit Hours: 3*

**HIST 7530: The Roman Empire**  
Roman imperialism; management of, and rebellion in, the Empire; cultural exchange between Rome and its provinces.  
*Credit Hours: 3*

**HIST 7540: The Later Roman Empire**  
Political, religious and cultural life in Late Antiquity, from the "soldier emperors," to the barbarian kingdoms and early Byzantium.  
*Credit Hours: 3*

**HIST 7550: Age of the Vikings**  
Scandinavia and Scandinavian expansion in the Central Middle Ages. Covers political, economic, religious, and cultural effects of the Viking movement.  
*Credit Hours: 3*  
*Prerequisites: consent required*  
*Recommended: HIST 1500, HIST 1540, HIST 1600 or HIST 2560*

**HIST 7555: Medieval France**  
(cross-leveled with HIST 4555). This course covers the area that became the kingdom of France from the end of the Roman era until the end of the Hundred Years War; emphasize on political and cultural developments.  
*Credit Hours: 3*  
*Prerequisites: instructor's consent*

**HIST 7560: The Crusades**  
Survey of the European crusading movement from its inception in the late eleventh century to its decline during the later Middle Ages.  
*Credit Hours: 3*

**HIST 7570: Intellectual History of Europe, 17th and 18th Centuries**  
The Enlightenment's attack on traditional Christian thought and values.  
*Credit Hours: 3*  
*Recommended: HIST 1500, HIST 1540, HIST 1600 or HIST 2560*

**HIST 7580: The "Making" of Modern Europe: Identity, Culture, Empire**  
(cross-leveled with HIST 4580). This course will explore some of the ideas, institutions and events that shaped modern Western civilization and thought, focusing on Western Europe, but also giving attention to the relationship between the West and the rest of the world. The course will introduce topics such as the rise of, nationalism, the cult of science, scientific racism and sexism, consumer mass culture, fascist ideology, existentialism, psychoanalysis, the modern city, gender and sexuality. Graded on A-F basis only.  
*Credit Hours: 3*

**HIST 7610: Early Modern Britain, 1450-1688**  
Study of English politics, society, economy, culture, and religion during primarily the Tudor and Stuart eras, from the establishment of the Tudor dynasty (1485) through the Glorious Revolution. Emphasis on social and religious history.  
*Credit Hours: 3*

**HIST 7620: Modern England**  
Surveys British history in the 18th and 19th centuries. Emphasizes social and economic change.  
*Credit Hours: 3*

**HIST 7625: Nature vs. Nurture: The History of a Debate**  
(cross-leveled with HIST 4625). The purpose of this course is to explore the debate on nature vs. nurture in human society from the late eighteenth century to the present. The goal of the course is to give biology, history, and social science (including journalism) majors a better
understanding of how this debate between nature and culture has played out over the past 250 years, and what impact it has left on biology, the social sciences, and public discourse today. Graded on A-F basis only.

Credit Hours: 3

HIST 7630: The Age of the Renaissance
Major changes in European economic, social, political, religious, and intellectual life between 1250-1500. Humanism and Renaissance. The “Renaissance problem.”

Credit Hours: 3

HIST 7640: The Age of the Reformation
State of Europe about 1500. Political, diplomatic, social, and intellectual changes to 1648. Humanistic reform movements. Protestant-Catholic Reformation. Development of the modern state and international relations.

Credit Hours: 3

HIST 7645: Witchcraft and Witch Hunting in Pre-Modern Europe
(cross-leveled with HIST 4645). The surviving evidence indicates that between 1400 and 1700, at least 50,000 women, men, and children were executed for practicing witchcraft. Is there an explanation for this? Does it make any sense in terms of the intellectual, religious, social, political, and economic contexts of this period in European history? Fundamental to this course are the assumptions that there are many, not one, reasonable explanations for witchcraft beliefs and persecutions, and that when studied in terms of the various historical contexts this phenomenon must be understood as an integral part of European society during these centuries. Graded on A-F basis only.

Credit Hours: 3

HIST 7650: Revolutionary France, 1789-1851
Revolutionary upheavals of the revolutionary-Napoleonic era, which destroyed traditional French society and laid the basis for modern France.

Credit Hours: 3

HIST 7660: European Women in the 20th Century
(same as WGST 7660). Examines the history of European women from World War I to the present. The course focuses on wars, migration, and the changing nature of family, work and community.

Credit Hours: 3

HIST 7670: From the Holy Roman Empire to the First World War: German History, 1750-1918
(cross-leveled with HIST 4670). Cultural, social and political history of Central Europe from 1800 to 1914. A case study in incomplete modernization, focused on industrialization, unification, cultural crisis and imperialism.

Credit Hours: 3

HIST 7680: From the Rise of the Nazis to the Fall of the Wall: German History in the Twentieth Century
(cross-leveled with HIST 4680). Cultural, social and political history from 1914 to present day. Focus on world wars, national socialism, the holocaust, the cold war and the emergence of East and West Germany.

Credit Hours: 3

HIST 7700: Imperial Russia, 1682-1825
Russia in the 18th and early 19th centuries, with special emphasis on the reigns of Peter I, Catherine II, and Alexander I.

Credit Hours: 3

HIST 7710: The Russian Revolution
Analyzes the transformation of Russian society that produced the collapse of autocracy, efforts to create a parliamentary government, the Bolshevik seizure of power in 1917, and the civil war that followed.

Credit Hours: 3

HIST 7800: Modern China and Japan: War, Imperialism and Memory
(cross-leveled with HIST 4800). This course examines the interaction between Japan and China since the late nineteenth century in an effort to understand deeper historical reasons behind the rising tension in East Asia at the present time.

Credit Hours: 3

HIST 7815: African History Through the Digital Medium
(cross-leveled with HIST 4815). This course invites students to explore the history of Africa through the digital medium. It offers a hands-on approach to understand how knowledge about African history, culture, and society is produced and disseminated over the World Wide Web. Prerequisites: Consent of department

Credit Hours: 3

HIST 7840: History of the Mongols
In the 13th century, the Mongols went from warring tribes to the largest Eurasian empire in history. This course examines the Mongol tribes, Chinggis Khan's unification of the tribes, the Mongols rapid military victories across Eurasia and their equally rapid decline.

Credit Hours: 3

HIST 7850: Traversing the Muslim World
The traveler's tale formed an important part of the medieval world's system of knowledge. This writing intensive discussion-based course examines a wide array of the most influential travelers in Muslim lands such as Ibn Fadlan, Ibn Battuta, Benjamin of Tudela and Marco Polo.

Credit Hours: 3

HIST 7860: Colonial Masculinity/Colonial Frontier
The traveler's tale formed an important part of the medieval world's system of knowledge. This writing intensive discussion-based course examines the role of the Indian Army, impact of the Sepoy Mutiny, and martial race ideology.

Credit Hours: 3
HIST 7865: Buying Desire: History of Consumption
(cross-leveled with HIST 4865). This course explores the history of consumption practice in various cultural contexts. The course is divided into four parts: "Masses As Consumers", "Selling/Consuming Cultures", "Consumption as (Postcolonial) Modernity", and "Consumption and the Nation". Under each section are thematically related texts on particular cultural contexts. The reading of ethnographic texts on consumption is to be accompanied by critical discussions that locate consumption within the practices of the nation-state-making and global product-marketing. Graded on A-F basis only.

Credit Hours: 3

HIST 7867: North Korea: History, Political Economy, Culture
(cross-leveled with HIST 4867). The aim of this course is to survey North Korea's history, especially in terms of political economy and culture. Through several themes, we will examine the historical situations of North Korea from its beginnings in the postliberation period to the present, as North Korea undergoes monumental changes. Graded on A-F basis only.

Credit Hours: 3

HIST 7870: Southeast Asia Since the Eighteenth Century
The general objective of this course is to introduce students to the fascinating world of Southeast Asia. We will look at the shared history of commodity, cultural, and religious exchanges that gave this region a collective character, as well as explore the historical conditions from which individual modern Southeast Asian state emerged.

Credit Hours: 3

HIST 7880: Chinese Migration: From Yellow Peril to Model Minority
(cross-leveled with HIST 4880). This course surveys Chinese emigration in the global context over the span of five centuries. We will pay special attention to the changing relationships between China and Chinese migrants. Our emphasis will be on history as a process of negotiation and contestation of heterogeneous groups or individuals through creative and selective activities.

Credit Hours: 3

HIST 7910: History in the Public: An Introduction to the Theory and Practice of Public History
(cross-leveled with HIST 4910). The purpose of this course is to introduce students to the world of public history, the central questions and debates in the field, and to offer students the opportunity to practice public history. Graded on A-F basis only.

Credit Hours: 3

HIST 7990: Economic Analysis of Policy & Regulation
(cross-leveled with AG_EC 4990). Apply economic concepts and tools to analyze the policy-making process and the implications of policy for individuals, firms, markets and society. Policy topics include, among other things, agricultural support programs, environmental policy, international trade, international development, and agribusiness regulation.

Credit Hours: 3

Recommended: Graduate students should have previous coursework in basic econometrics and at least intermediate-level micro economic theory

HIST 8000: Studies in American Colonial History
Readings in American history from beginning of English settlements to adoption of the Constitution. May be repeated to a maximum of 6 hours.

Credit Hours: 3

HIST 8001: Seminar in the History of Colonial America
Directed research in the colonial and revolutionary period of American history. May be repeated to a maximum of 6 hours.

Credit Hours: 3

HIST 8004: Topics in History-General
Organized study of selected topics. Subjects and earnable credit may vary from semester to semester. May be repeated to maximum of 6 hours.

Credit Hour: 1-99

Prerequisites: department consent

HIST 8010: Studies in American Religious History, 1750-1850
This class will examine important ideas and trends in the field, with an emphasis on popular religious movements. This is a reading-based seminar, revolving around discussion of influential recent books. May be repeated to a maximum of 6 hours.

Credit Hours: 3

HIST 8015: Seminar in American Religious History
The purpose of this course is for students to write an original work of scholarship, such as might be publishable in an academic journal or serve as a dissertation or book chapter. The field is open to topics in American religious history, including the social, cultural, political and intellectual history of American religion. Graded on A-F basis only.

Credit Hours: 3

HIST 8020: Seminar in the Early American Republic
Directed research in the period 1787-1861. May be repeated to a maximum of 6 hours.

Credit Hours: 3

HIST 8021: Studies in the Early American Republic
This is an intense reading and discussion course designed to give students a crash course in the historiography of this period (emphasizing political culture) as well as practical experience in assimilating themselves quickly to a field. Students must attend and be prepared to participate knowledgeably in each class section. Graded on A-F basis only.

Credit Hours: 3

HIST 8022: Studies in the Age of Jackson 1824-1850
Continuation of HIST 8021, from election of Jackson to Civil War. May be repeated to a maximum of 6 hours.

Credit Hours: 3
HIST 8030: Studies in Sectional Controversy, Civil War and Reconstruction
Directed readings and discussions of major issues in the period of national unification of the United States, from 1850 through 1877. May be repeated to a maximum of 6 hours.
Credit Hours: 3

HIST 8031: Seminar in United States Sectionalism, Civil War & Reconstruction
Directed original research on political and related topics of the period 1848-1877. May be repeated to a maximum of 6 hours.
Credit Hour: 3-12

HIST 8040: Seminar in Imperial History
Empires have been the predominant organizing political structure in modern world history (c. 1500-2000). Yet historians mostly structure historical inquiry around nations. This graduate class seeks to redress this imbalance by acquainting students with a diverse selection of the modern Anglophone historiography on empire, as well as giving them the opportunity to develop their own research project on an aspect of imperial history of their choosing. This class is reading and writing intensive, as should be expected of graduate students. Graded on A-F basis only.
Credit Hours: 3

HIST 8085: Problems in History
Individual work not leading to dissertation.
Credit Hour: 1-99
Prerequisites: instructor's consent

HIST 8089: Masters Research in History
Work equal to research done for a dissertation, but not leading to thesis.
Credit Hour: 1-99
Prerequisites: instructor's consent

HIST 8090: Masters Research in History
Graded on a S/U basis only.
Credit Hour: 1-99
Prerequisites: Open only to graduate students formally admitted to candidacy for Ph.D. in history

HIST 8210: Studies in Recent United States History
Critical evaluation of writing in American history in period 1929-present. May be repeated to a maximum of 6 hours.
Credit Hours: 3

HIST 8211: Seminar in Recent United States History
Advanced seminar in American history from 1929 to present. May be repeated to a maximum of 12 hours.
Credit Hour: 1-12

The purpose of this course is to discuss important ideas and trends in the history of American religion from about 1850-2000. This period is currently one of the richest fields in American historical scholarship, and this is particularly the case for American religious history. Graded on A-F basis only.
Credit Hours: 3

HIST 8400: Studies in U.S. Women's History
Reading, discussion, and analysis of the historiography of the field. May be repeated to a maximum of 6 hours.
Credit Hours: 3

HIST 8401: Seminar in U.S. Women's History
Directed research and writing in American women's history. May be repeated to a maximum of 6 hours.
Credit Hours: 3

HIST 8405: Studies in Gender
Studies in recent research material focused on the analysis of the intersections of gender, race and class in particular times and places. May be repeated to a maximum of 6 hours.
Credit Hours: 3

HIST 8406: The Politics of the Body in Historical Perspective
This graduate seminar will launch an investigative inquiry into how the body has been conceptualized in the historical past and how it continues to serve as a site of contention. This course will offer an opportunity to introduce students to the major intellectual debates that guide the study of the body and body-related processes in current scholarship. Graded on A-F basis only.
Credit Hours: 3

HIST 8410: Independent Readings for History Ph.D. Comprehensive Examination
Independent readings for Ph.D. Comprehensives.
Credit Hour: 1-99
Prerequisites: Open only to graduate students formally admitted to candidacy for Ph.D. in history

HIST 8415: Studies in African-American History
(same as BL_STU 8415). Readings on selected topics in African-American history from 1619 to the present, with emphasis on conflicting interpretations. May be repeated to a maximum of 6 hours.
Credit Hours: 3

HIST 8416: Seminar in African-American History
(same as BL_STU 8416). Directed research in selected topics in African-American history. May be repeated to a maximum of 6 hours.
Credit Hours: 3

HIST 8425: Seminar in United States Immigration History
The course will focus on historiography of American immigration, Mainly European immigrants during 1820-1920. Special attention given to books and articles published in the past 25 years. May be repeated to a maximum of 6 hours.
Credit Hours: 3

</tbody>
</table>
**Prerequisites:** departmental consent and competence in Latin grammar required

**HIST 8550: Seminar in the Renaissance and Reformation**
Analyzes problems of the period 1300-1600; emphasizes intellectual history. May be repeated to a maximum of 6 hours.

**Credit Hours:** 3

**HIST 8551: Studies in Early Modern European History**
Readings in historical classics and current scholarship on Renaissance, Reformation, Baroque, and Enlightenment periods. Problem of modernity. May be repeated to a maximum of 6 hours.

**Credit Hours:** 3

**HIST 8552: Studies in Modern European History**
Readings in recent research material on selected topics. May be repeated to a maximum of 6 hours.

**Credit Hours:** 3

**HIST 8570: Studies in Modern European History**
Readings in recent research material on selected topics. May be repeated to a maximum of 6 hours.

**Credit Hours:** 3

**Honors-General Courses**

**GN_HON 1010H: Career Explorations**
Colloquia in which experts from both the University and the Columbia communities discuss their specialties and answer students' questions on the nature and current status of their disciplines. Open primarily to freshmen. Graded on an S/U basis only.

**Credit Hours:** 1

**Prerequisites:** Honors eligibility required

**GN_HON 1030H: Honors Discussion Groups**
Informal discussion between students and faculty on various academic topics. Graded S/U only.

**Credit Hours:** 1-2

**Prerequisites:** Honors eligibility required

**GN_HON 1050H: Honors Seminar**
Freshman-sophomore seminar offering a small group opportunity to write about and discuss basic works chosen by instructor.

**Credit Hours:** 1-3

**Prerequisites:** Honors eligibility required

**GN_HON 1070H: Honors Elective Colloquium**

**Credit Hours:** 2-3

**Prerequisites:** Honors eligibility required

**GN_HON 1080H: Honors Internship**
Independent study under the supervision of a regular faculty member. Graded on an S/U basis only.

**Credit Hours:** 1-3

**Prerequisites:** written proposal with professor's approval submitted in advance to Director of the Honors College. Honors eligibility required

**GN_HON 2010H: Honors Tutorial**
Small group of students (2-5) engage in collaborative work under faculty guidance. The focus is determined in advance by a faculty member and shaped through discussion with the enrolled students. Course may be repeated for credit. Honors eligibility required

**Credit Hours:** 1-3

**Prerequisites:** instructor's consent

**GN_HON 2015H: Theory and Practice of Tutoring Writing Seminar**
(same as ENGLSH 2015H). Addresses both the theory and practice of tutoring and the foundations of good writing. This course also qualifies students for a part-time job working as Writing Lab/Online Writing tutors in future semesters.

**Credit Hours:** 3

**GN_HON 2015HW: Theory and Practice of Tutoring Writing Seminar - Honors/Writing Intensive**
(same as ENGLSH 2015H). Addresses both the theory and practice of tutoring and the foundations of good writing. This course also qualifies students for a part-time job working as Writing Lab/Online Writing tutors in future semesters.

**Credit Hours:** 3

**GN_HON 2016H: Honors College Seminar**
Course designed to introduce graduate students to major themes and figures in English and American literature. Graded on an S/U basis only.

**Credit Hours:** 3

**Prerequisites:** departmental consent
Prerequisites: ENGLISH 1000; instructor's consent

GN_HON 2085H: Honors Problems
Independent study under the supervision of a regular faculty member.

Credit Hour: 1-3
Prerequisites: written proposal with professor's approval submitted in advance to Director of the Honors College. Honors eligibility required.

GN_HON 2111H: The Ancient World
The reading list is comprised of the great writers of classical Greece and Rome such as Homer, Sophocles, Plato, Aristotle, Virgil and Apuleius, and of the biblical period, the authors of the Book of Job and the Gospel of Mark.

Credit Hours: 3
Prerequisites: Honors eligibility required.

GN_HON 2111HW: The Ancient World - Honors/Writing Intensive
The reading list is comprised of the great writers of classical Greece and Rome such as Homer, Sophocles, Plato, Aristotle, Virgil and Apuleius, and of the biblical period, the authors of the Book of Job and the Gospel of Mark.

Credit Hours: 3
Prerequisites: Honors eligibility required.

GN_HON 2112H: The Middle Ages and the Renaissance
The literature, art and philosophy which reflect the interaction of biblical thought with the classical past, and ultimately an emerging humanism, form the contents of the second semester. Readings include selections from such central figures as Aquinas, Chaucer, Dante, and Shakespeare. Special lectures are presented on the art, architecture and music of these eras.

Credit Hours: 3
Prerequisites: Honors eligibility required.

GN_HON 2112HW: The Middle Ages and the Renaissance - Honors/Writing Intensive
The literature, art and philosophy which reflect the interaction of biblical thought with the classical past, and ultimately an emerging humanism, form the contents of the second semester. Readings include selections from such central figures as Aquinas, Chaucer, Dante, and Shakespeare. Special lectures are presented on the art, architecture and music of these eras.

Credit Hours: 3
Prerequisites: Honors eligibility required.

GN_HON 2113H: The Early Modern World: The 17th-19th Centuries Enlightenment
The third segment of the Sequence treats the cultural developments in the West from the Baroque to the Enlightenment through Romanticism. The works of Cervantes, Descartes, Milton, Voltaire, Kant, Austen, Goethe, and Dickinson are among those studied. The music and visual arts of these periods are also included.

Credit Hours: 3
Prerequisites: Honors eligibility required.

GN_HON 2114H: The Modern Era
The final semester of the Humanities Sequence deals with the intellectual and cultural developments from the mid-nineteenth to the late twentieth century. Lectures and discussions will be held on the philosophy of Marx, Nietzsche, Sartre and Hannah Arendt; on the literary works of Dickens, Dostoevsky, James Joyce, Virginia Woolf, T.S. Eliot, and Toni Morrison. Special lectures are presented on the music of the period.

Credit Hours: 3
Prerequisites: Honors eligibility required.

GN_HON 2114HW: The Modern Era - Honors/Writing Intensive
The final semester of the Humanities Sequence deals with the intellectual and cultural developments from the mid-nineteenth to the late twentieth century. Lectures and discussions will be held on the philosophy of Marx, Nietzsche, Sartre and Hannah Arendt; on the literary works of Dickens, Dostoevsky, James Joyce, Virginia Woolf, T.S. Eliot, and Toni Morrison. Special lectures are presented on the music of the period.

Credit Hours: 3
Prerequisites: Honors eligibility required.

GN_HON 2120H: Honors Humanities Colloquium
Credit Hour: 2-3
Prerequisites: Honors eligibility required.

GN_HON 2230H: Honors Social Science Colloquium
Credit Hour: 2-3
Prerequisites: Honors eligibility required.

GN_HON 2230HW: Honors Social Science Colloquium - Honors/Writing Intensive
Credit Hour: 2-3
Prerequisites: Honors eligibility required.

GN_HON 2243H: Human Sciences Sequence I: Personal Identity
This interdisciplinary course approached the perennial but fascinating question of how we define, develop, and present ourselves. It considers this question from a range of disciplinary, regional, and thematic perspectives.

Credit Hours: 3
Prerequisites: Honors eligibility required.

GN_HON 2244H: Social Relations
This interdisciplinary course explores the construction of human identity as it related to social groups (these groups might include anything from the family to fan clubs, sports teams to college students).

Credit Hours: 3
Prerequisites: Honors eligibility required.

GN_HON 2245H: Social Organization
This course examines various forms of social organization from an interdisciplinary perspective. The course will examine small organizations (such as families and kin networks) that are grounded in face-to-face relationships and then consider the impact of large-scale organizations (such as markets and states). The class will also explore how these larger organizations can hold together in the absence of direct personal connections between members.
Credit Hours: 3  
Prerequisites: Honors eligibility required

**GN_HON 2246H: Global Citizenship**  
This course continues our introduction to the fundamental problems and concepts of social science by concentrating on today's emerging global society and the ways in which it shapes social identity. The course also aims at encouraging students to think of themselves as global citizens - people who possess a sense of their own role as citizens of the world.

Credit Hours: 3  
Prerequisites: Honors eligibility required

**GN_HON 2246HW: Global Citizenship - Honors/Writing Intensive**  
This course continues our introduction to the fundamental problems and concepts of social science by concentrating on today's emerging global society and the ways in which it shapes social identity. The course also aims at encouraging students to think of themselves as global citizens - people who possess a sense of their own role as citizens of the world.

Credit Hours: 3  
Prerequisites: Honors eligibility required

**GN_HON 2310H: Honors Behavioral Science Colloquium**  
Credit Hour: 2-3  
Prerequisites: Honors eligibility required

**GN_HON 2450H: Honors Biological, Physical, Math (Computer Science) Science Colloquium**  
Open to all honors-eligible students. These courses may be cross-listed with Biological, Physical or Mathematical Science Departments. Interdisciplinary or experimental courses are encouraged.

Credit Hour: 1-3  
Prerequisites: Honors eligibility required

**GN_HON 2461H: Environment: From Molecules to the Cosmos**  
Inquiry-based exploration of how the world was made, environments formed, life evolved, and how it works together to sustain life on Earth. Graded on A-F basis only.

Credit Hours: 3  
Prerequisites: Honors eligibility required

**GN_HON 2462H: Energy: From Particles to Civilizations**  
Inquiry based exploration of energy, what it is, how it is used, and how it sustains our life on Earth. Graded on A-F basis only.

Credit Hours: 3  
Prerequisites: Honors eligibility required

**GN_HON 2950H: Honors Preceptorship**  
Active participation in a professor's research for up to six hours a week.

Credit Hour: 1-3  
Prerequisites: written description of the work with professor's approval submitted in advance to Director of the Honors College. Honors eligibility required

**GN_HON 3070H: Honors Electives Colloquium**  
Credit Hours: 2-3  
Prerequisites: Honors eligibility required

**GN_HON 3070HW: Honors Electives Colloquium - Honors/Writing Intensive**  
Honors Electives Colloquium - Honors/Writing Intensive.

Credit Hours: 2-3  
Prerequisites: Honors eligibility required

**GN_HON 3112H: Interdisciplinary Topics in the Humanities: Aesthetics and Performance**  
Aesthetics and Performance is the 2nd course offered in a four-semester, upper-level Humanities Series. It takes an Interdisciplinary approach to a variety of topics relevant to such disciplines as Art History, Art, Theater, English, and Film Studies. Students will be introduced to key figures, ideas, and texts in aesthetics and performance. The course format will be a combination of guest lectures, small-group discussion, and when possible, team-teaching. May be repeated for credit.

Credit Hours: 3  
Prerequisites: junior or senior standing. Honors eligibility required

**GN_HON 3113H: Interdisciplinary Topics in the Humanities: Big Ideas, Big Questions**  
Big Ideas, Big Questions is the third course offered in a four-semester, upper-level Humanities Series. It takes an interdisciplinary approach to concepts, theories, debates, and questions central to our understanding of the humanities.

Credit Hours: 3  
Prerequisites: upper-level standing or permission of instructor; Honors eligibility required

**GN_HON 3230HW: Honors Social Science Colloquium - Honors/Writing Intensive**
might help us manage global uncertainties and opportunities more effectively? What is your role in the global community of the twenty-first century? In exploring these questions through intensive reading, writing, research, and discussion, this course will help you develop a global consciousness that is sensitive to the lived textures and realities of places and peoples around the world. This course satisfies three credit hours of general education requirements in the behavioral and social sciences and is part of the Honors College's Interdisciplinary Topics in the Human Sciences series. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: Honors eligibility required

GN_HON 3242HW: Interdisciplinary Topics in the Human Sciences: The Nature of Humans - Honors/Writing Intensive

This course investigates the dynamic qualities of human experience in psychological, social, and environmental context with a focus on contemporary global issues. Course topics vary by semester but will bridge the social and behavioral sciences to address an overarching question: What makes us human? We will explore the social and behavioral factors that shape our shared human condition as well as those that contribute to diversity in the human experience. We will then investigate the complexities of what it means to be human within the globally interconnected societies we live in today. How do we deal creatively with human diversity in addressing the global problems and uncertainties that confront us? What attitudes, practices, and projects

Credit Hours: 3
Prerequisites: Honors eligibility required

GN_HON 3450H: Honors Biological, Physical, Math (Computer Sci.) Science Colloquium

These courses may be cross-listed with courses in graduate or professional programs or one-of-a-kind courses which may have no other more appropriate academic home. Interdisciplinary or experimental courses are encouraged.

Credit Hour: 2-3
Prerequisites: junior standing required. Honors eligibility required

GN_HON 4070H: Advanced Honors Elective Colloquium

These courses may be cross-listed with courses in graduate or professional programs or one-of-a-kind courses which may have no other more appropriate academic home. Interdisciplinary or experimental courses are encouraged.

Credit Hour: 1-3
Prerequisites: Restricted to juniors and seniors. Honors eligibility required

GN_HON 4070HW: Advanced Honors Elective Colloquium - Writing Intensive

These courses may be cross-listed with courses in graduate or professional programs or one-of-a-kind courses which may have no other more appropriate academic home. Interdisciplinary or experimental courses are encouraged.

Prerequisites: Restricted to juniors and seniors. Honors eligibility required

GN_HON 4950H: Honors Preceptorship
Active participation in a professor’s research for up to six hours a week.
Credit Hour: 2-3
Prerequisites: written description of the work with professor’s approval submitted in advance to Director of the Honors College. Junior standing required. Honors eligibility required

Hospitality Management Courses

HSP_MGMT 1100: Introduction to Hospitality Management
An overview of the size, scope, form, analysis and development of various sectors in the hospitality industry. These include hotel, tourism, food and beverage, convention and events, club, cruise, gaming, managed services, and sport venue management. Emphasis will be on the global nature of the industry and its impact on economy and employment. Students will be exposed to career opportunities, cultural diversity, ethical consideration and current trends facing industry. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: Restricted to freshman and sophomore students only

HSP_MGMT 2100: Hospitality Law
Provides an integrated analysis of the legal system as it applies to the hospitality industry. Topics include: theories of recover/liability; employment laws, property rights and contracts, lawsuits and their prevention; familiarization with legal arguments, ligation, ethical issues and the tort of negligence in professional context. Relevant federal and state cases, statutes, and regulations will be examined. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: HSP_MGMT 1100

HSP_MGMT 2115: Club Management and Operations
Examines aspects of club operations from a managerial perspective. Topics include: history, types of club and membership systems, club management structure, charter, by-laws; athletic activities, master and club calendars; unique features of club operations including food and beverage operations, human resources management, finances, building and facilities management, external and governmental factors, trends and the future of clubs. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: HSP_MGMT 1100

HSP_MGMT 2190: Seminar in Professional Development
A systematic approach to expose students to a journey of self assessment and to develop life-long skills for their careers in the hospitality industry. Using professionalism as a framework, students are made aware of the foundation of effective workplace relationship and how to appropriately manage these relationships toward career success. Topics include self management, workplace relationship, and career planning tools. Graded on A-F basis only.
Credit Hour: 1

Prerequisites: HSP_MGMT 1100; restricted to Hospitality Management majors only

HSP_MGMT 2200: Fundamentals of Conference and Events Industry
Overview of the Meeting, Incentive, Convention and Exhibition (MICE) management industry in hospitality and tourism from a macro perspective. The knowledge and information available to conference and meeting business are described and evaluated, including the trend and issues facing the industry, the characteristics of the size and scope of the market, key players, and different sectors in the meeting industry. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: HSP_MGMT 1100

HSP_MGMT 2210: Fundamentals of the Food and Beverage Industry
An introduction to the macro aspects and a comprehensive overview of the Food and Beverage industry. The course begins with a history of meals away from home and an overview of commercial versus noncommercial food and beverage operations. Detailed considerations are given to components of the food service businesses: size and scope of the industry, major classifications, ownership types, key players, consumer purchasing behavior, quality assurance, trends, challenges, cultural diversity, ethical consideration, and impact of globalization. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: HSP_MGMT 1100

HSP_MGMT 2300: Fundamentals of the Food and Beverage Industry
Explores the foundations of the global lodging industry. The history of the industry, relationship of tourism, size and scope, classification and types, major global players will be examined. Issues related to the impact of globalization, international hotel investment, development and operations, global competitions, political aspects, human resources and cultural diversity will be discussed. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: HSP_MGMT 1100

HSP_MGMT 2400: Fundamentals of Lodging Industry
Explores the foundations of the global lodging industry. The history of the industry, relationship of tourism, size and scope, classification and types, major global players will be examined. Issues related to the impact of globalization, international hotel investment, development and operations, global competitions, political aspects, human resources and cultural diversity will be discussed. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: HSP_MGMT 1100

HSP_MGMT 2500: Fundamentals of Sport Venue Industry
An overview of the Sport Venue Industry from a macro perspective. Students will be exposed to the major aspects regarding management of athletic and recreational facilities. Topics will include: history, trends and globalization of sport and venue development, types of sport facilities and major key players, construction and finance, facility systems and operations, sales and marketing, liability and risk management, ticket and box office operation, and event management. Cultural diversity, ethical issues and career opportunities in Sport Venue Management will also be explored. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: HSP_MGMT 1100

HSP_MGMT 3100: Service Management
Addresses the essence of delivering memorable guest experience through service management. Topics include concepts of service, guest behavior, perceptions and satisfaction, service compliance standards, assessment methods and service recovery strategies. Students will then learn how to leverage their understanding of these concepts to establish
service culture and strategies to meet organizational goals within the context of hospitality businesses. Graded on A-F basis only.

**Credit Hours:** 3  
**Prerequisites:** HSP_MGMT 1100; restricted to Hospitality Management junior and senior students only

---

**HSP_MGMT 3104: Topics in Hospitality Management**  
An examination of specific subject matter areas in the field of hospitality management will be addressed. Current issues, trends and challenges will also be discussed. Graded on A-F basis only.

**Credit Hours:** 1-3  
**Prerequisites:** HSP_MGMT 1100; Restricted to Hospitality Management junior and senior students

---

**HSP_MGMT 3105: Problems in Hospitality Management**  
Students develop problem solving, analytical skills by engaging in a supervised study of a selected field in the hospitality industry. Challenges and issues will be identified and probable solutions will be weighed and evaluated. Graded on A-F basis only.

**Credit Hours:** 3  
**Prerequisites:** instructor's consent required

---

**HSP_MGMT 3115: Management of Gaming Operations**  
An overview, analysis of gaming management and financial elements unique to operating gaming businesses. Topics include: History and development of gaming, economic relationships, social impact, legal and changing competitive environments, consumer behavior and psychological forces, corporate culture and technology, revenue control, and promotion and marketing. Graded on A-F basis only.

**Credit Hours:** 3  
**Prerequisites:** HSP_MGMT 1100; Restricted to Hospitality Management junior and senior students only

---

**HSP_MGMT 3200: Conference and Meeting Management**  
Addresses the different operational aspects regarding convention and meeting planning management. Students will be exposed to skill-based knowledge pertaining to meeting and event planning, implementation and management. Topics discussed to include group business market, the role of the event planner, the various techniques and services used to meet their needs. Food and beverage, technology used, legal issues, social responsibility, and international aspects in the convention and meeting industry will be addressed. Graded on A-F basis only.

**Credit Hours:** 3  
**Prerequisites:** HSP_MGMT 2200; Restricted to Hospitality Management junior and senior students only

---

**HSP_MGMT 3300: Food Production Management**  
Explore the production and service aspects of the food and beverage businesses. It will examine principles of concept development, menu planning, pricing and costing, forecasting, standardize recipe and testing, purchasing, food sanitation and safety, quantity food production, delivery of service, inventory control, quality assurance, professionalism and team work. Students will rotate through the different functions of the "front" and "back of the house" of a food facility. This supervised student-operated facility enables students to apply theories to the actual food service operation. Graded on A-F basis only.

**Credit Hours:** 3  
**Prerequisites:** HSP_MGMT 2400

---

**HSP_MGMT 3310: Food Service Budgeting and Controls**  
Examines management systems and techniques in the food and beverage industry. Topics include: effective use and control of food, beverage, and labor costs to manage a company's operations, with emphasis on computer applications, problems solving and analytical skills, making sound financial decisions, and excellence in customer service. This is a Math Reasoning Proficiency course. Graded on A-F basis only.

**Credit Hours:** 3  
**Prerequisites:** HSP_MGMT 1100, MATH 1100.; Restricted to Hospitality Management junior and senior students only

---

**HSP_MGMT 3315: Banquet and Catering Management**  
Engage in the management of service and production systems in catering operations and banquet facilities. An emphasis will be placed on the fundamentals of communication and planning with event coordinators, menu planning, sales and marketing, food and beverage cost control, guest service standards, quantity food productions, food safety, needs and challenges of catering both on and off premises. Graded on A-F basis only.

**Credit Hours:** 3  
**Prerequisites:** HSP_MGMT 2300; Restricted to Hospitality Management junior and senior students only

---

**HSP_MGMT 3320: Beverage Management**  
Explore and analyze operational and managerial elements of the bar and beverage industry. Topics include: alcoholic versus non-alcoholic beverage, beverage menu development, pricing strategy and costing, sensory evaluation, food and beverage pairing, marketing and promotion, inventory control, training of personnel, legal aspects of responsible service of alcohol. Graded on A-F basis only.

**Credit Hours:** 3  
**Prerequisites:** HSP_MGMT 2300; Restricted to Hospitality Management junior and senior students only

---

**HSP_MGMT 3400: Lodging Operations and Management**  
Exposes students to the principles of managing lodging businesses regarding the fundamental principles, hows and whys of management. Topics include: Analysis of the functions of each department, organization structure, inter-relationship among various departments of a lodging facility, property management system, safety and security, guest service and satisfaction, and total quality issues. Graded on A-F basis only.

**Credit Hours:** 3  
**Prerequisites:** HSP_MGMT 2300; Restricted to Hospitality Management junior and senior students only

---

**HSP_MGMT 3420: Technology Applications in the Lodging Industry**  
Survey of the technology applications, issues, and trends in the lodging industry. The role of technology in operations and as a strategic tool to achieve competitive advantage will be examined. Students will need to have a good grasp of how to best implement information technology that will impact the future of their organizations. Current technology issues of
interest and importance to the industry will also be explored. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: HSP_MGMT 2400. Open to Hospitality Management junior and senior students only

### HSP_MGMT 3500: Sport Venue Operation Management

Examines the various operational dynamics and management of sport venues and facilities. Topics such as public versus private ownership and governance structures, facility planning and feasibility study, design and construction, event planning, programming and execution, sales and marketing, box office operations, and financial management will be addressed. Ethical issues, legal responsibilities, risk and security management will also be discussed. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: HSP_MGMT 2500; Restricted to Hospitality Management junior and senior students only

### HSP_MGMT 3993: Field Training in Hospitality Management

Applies theories into actual industry setting. Aspects such as career paths, team work, inter-relationship in the workplace and professionalism are explored. Graded on A-F basis only.

Credit Hour: 1-3
Prerequisites: instructor's consent

### HSP_MGMT 4100: Hospitality Human Resources Management

(cross-leveled with HSP_MGMT 7100). Examines effective management of human resources issues in hospitality businesses. It addresses issues related to managing subordinates through hiring the right person for the position, training property, evaluating employees' performance accurately and promptly, rewarding good behaviors, and motivating and coaching them. Manpower planning, equal employment practices and employee relations, quality of work life, compensation and reward structure, and how to make sound human resource management decisions will also be discussed. This is a writing intensive course. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: HSP_MGMT 1100. Open to Hospitality Management junior and senior students only

### HSP_MGMT 4100W: Hospitality Human Resources Management - Writing Intensive

(cross-leveled with HSP_MGMT 7100). Examines effective management of human resources issues in hospitality businesses. It addresses issues related to managing subordinates through hiring the right person for the position, training property, evaluating employees' performance accurately and promptly, rewarding good behaviors, and motivating and coaching them. Manpower planning, equal employment practices and employee relations, quality of work life, compensation and reward structure, and how to make sound human resource management decisions will also be discussed. This is a writing intensive course. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: HSP_MGMT 1100. Open to Hospitality Management junior and senior students only

### HSP_MGMT 4110: Hospitality Sales and Marketing Management

(cross-leveled with HSP_MGMT 7110). Application of a customer-oriented approach to sales and marketing management in hospitality and tourism industry. The marketing techniques available to hospitality businesses are described and evaluated, including service marketing mix, packaging, travel trade, advertising, sales promotion, merchandising, and personal selling. Marketing of hospitality services regarding human factors, consumer demand, planning, professional considerations are also discussed. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: HSP_MGMT 1100. Open to Hospitality Management junior and senior students only

### HSP_MGMT 4180: Strategic Management in the Hospitality Industry

Focuses on developing conceptual skills and application of the principles of strategic management in the context of the hospitality industry. It involves handling and analyzing ambiguous facts as well as relevant industry problems and issues facing management personnel in the global hospitality markets. Topics include: Business environments, mission statement, corporate and business strategies, evaluation and control. It requires that students to apply functions of management, finance, human resources, and marketing, learn how to engage in planning by examining situations from the perspectives of customer, employee, and management. The ultimate goal is to encourage students to think "out-of-the-box" in order to find innovative solutions that will reshape the hospitality industry and define how the hospitality company of tomorrow will create value. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: HSP_MGMT 3100 and MANGMT 3000. Open to Hospitality Management junior and senior students only

### HSP_MGMT 4190: Trends in Hospitality Management

To keep abreast of the development that affects current managerial practices, this course is a survey of key trends and critical issues that impact the hospitality industry. Best practices, opportunities and challenges facing the industry will also be discussed. Graded on A-F basis only.

Credit Hour: 1
Prerequisites: HSP_MGMT 1100 and open to Hospitality Management students only

### HSP_MGMT 4200: Destination Management

(cross-leveled with HSP_MGMT 7200). An overview of hospitality and tourism destination management using a system approach that integrates a variety of hospitality and tourism organizations and businesses. Destination management will be examined from the perspectives of travelers and destination communities in the context of economic, socio-cultural, and environmental impacts. Optimal planning, development, marketing of destination image and position in the context of the overall management plan will be addressed. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: HSP_MGMT 2200. Open to Hospitality Management junior and senior students only

### HSP_MGMT 4280: Special Events Management

Synthesis of theories and a comprehensive guide in understanding, planning, promoting and producing and managing special events. Topics
include: Event design, feasibility studies, legal compliance, promotion, safety and security, logistics, staffing, financial control and technology. It is based on a systematic, step-by-step approach to event planning, implementation, and management. This course requires a considerable amount of teamwork. Graded on A-F basis only.

**Credit Hours:** 3  
**Prerequisites:** HSP_MGMT 3200. Open Hospitality Management senior students only

**HSP_MGMT 4280W: Special Events Management - Writing Intensive**  
Synthesis of theories and a comprehensive guide in understanding, planning, promoting and producing and managing special events. Topics include: Event design, feasibility studies, legal compliance, promotion, safety and security, logistics, staffing, financial control and technology. It is based on a systematic, step-by-step approach to event planning, implementation, and management. This course requires a considerable amount of teamwork. Graded on A-F basis only.

**Credit Hours:** 3  
**Prerequisites:** HSP_MGMT 3200. Open Hospitality Management senior students only

**HSP_MGMT 4380: Managing Food Service Businesses**  
Students explore the market positioning and the management of the student-run food service operation from concept development to execution. Students will apply knowledge gained from marketing, human resources and operational budgeting to develop their themes and execute their meals. Students will hone their problem solving, leadership and interpersonal skills while engaging in team building. Graded on A-F basis only.

**Credit Hours:** 3  
**Prerequisites:** HSP_MGMT 3300. Open to Hospitality Management senior students only

**HSP_MGMT 4380W: Managing Food Service Businesses - Writing Intensive**  
Students explore the market positioning and the management of the student-run food service operation from concept development to execution. Students will apply knowledge gained from marketing, human resources and operational budgeting to develop their themes and execute their meals. Students will hone their problem solving, leadership and interpersonal skills while engaging in team building. Graded on A-F basis only.

**Credit Hours:** 3  
**Prerequisites:** HSP_MGMT 3300. Open to Hospitality Management senior students only

**HSP_MGMT 4400: Hospitality Finance Management**  
(cross-leveled with HSP_MGMT 7400). Application of financial principles to the hospitality industry. The focus is to provide students a foundation on how to use numbers and fundamental financial analysis to operate a successful hospitality business. Topics include forecasting, profit and loss statement, balance sheet, capital budgeting, and revenue management related to the hospitality industry. Graded on A-F basis only.

**Credit Hours:** 3  
**Prerequisites:** HSP_MGMT 1100, FINANC 2000. Open to Hospitality Management junior and senior students only

**HSP_MGMT 4480: Advanced Lodging Management**  
Apply, integrate, and synthesize previously learned knowledge, skills, and experience to solve real problems that the lodging industry faces. Specifically, managerial responsibilities, organizational structures and current trends will be examined. Throughout the class students will develop their professional identity, leadership skills and confidence to participate in the workforce. Graded on A-F basis only.

**Credit Hours:** 3  
**Prerequisites:** HSP_MGMT 3400. Open to Hospitality Management senior students only

**HSP_MGMT 4480W: Advanced Lodging Management - Writing Intensive**  
Apply, integrate, and synthesize previously learned knowledge, skills, and experience to solve real problems that the lodging industry faces. Specifically, managerial responsibilities, organizational structures and current trends will be examined. Throughout the class students will develop their professional identity, leadership skills and confidence to participate in the workforce. Graded on A-F basis only.

**Credit Hours:** 3  
**Prerequisites:** HSP_MGMT 3400. Open to Hospitality Management senior students only

**HSP_MGMT 4500: Management and Promotion of Live Entertainment**  
Examines the various media used to promote venues, events and live entertainment. Topics include: Artist management, budgets and financial management, insurance, liabilities, contracts and riders, event production and tour scheduling, sport communication, and community relations. In particular, emphasis will be on the use of social media platforms in promotions, public relations, and other revenue generating activities of the industry. The principles of organizational advocacy, press conferences, and crisis communication plans will also be discussed. Graded on A-F basis only.

**Credit Hours:** 3  
**Prerequisites:** HSP_MGMT 2500, open to Hospitality Management students only

**HSP_MGMT 4515: The Business of Sport Venue Management**  
Focuses on the business aspects of managing athletic and recreational venues. The course examines the management and financial tools that managers use to run their sport venues and businesses. Traditional and innovative methods of revenue acquisition, financial business structure, sponsorship and forecasting processes as it pertains to the effective management of venues and sport organizations are discussed. Graded on A-F basis only.

**Credit Hours:** 3  
**Prerequisites:** HSP_MGMT 2500. Open to Hospitality Management junior and senior students only

**HSP_MGMT 4580: Sport Venue and Facility Management**  
Applies previously learned principles and concepts of sport venue management and develop critical planning and organizational skills required of sport venue managers. The course will address three main modules: Security and risk management, the sport venue, and the sport
event. The security and risk management module will examine efficient best practices and how they can significantly reduce the occurrence of injury and loss at sports venues and events. The sport venue and event modules will integrate concepts of venue planning, construction and operations; and event conception, planning, execution and reconciliation through case study analysis. Ethical considerations will also be stressed. Graded on A-F basis only.

Credit Hours: 3  
Prerequisites: HSP_MGMT 3500. Open to Hospitality Management seniors only

HSP_MGMT 4580W: Sport Venue and Facility Management - Writing Intensive  
Applies previously learned principles and concepts of sport venue management and develop critical planning and organizational skills required of sport venue managers. The course will address three main modules: Security and risk management, the sport venue, and the sport event. The security and risk management module will examine efficient best practices and how they can significantly reduce the occurrence of injury and loss at sports venues and events. The sport venue and event modules will integrate concepts of venue planning, construction and operations; and event conception, planning, execution and reconciliation through case study analysis. Ethical considerations will also be stressed. Graded on A-F basis only.

Credit Hours: 3  
Prerequisites: HSP_MGMT 3500. Open to Hospitality Management seniors only

HSP_MGMT 4993: Internship in Hospitality Management  
Students apply concepts and theories from their coursework to practical work experiences in the hospitality industry, under the direction of industry professionals and faculty evaluation. It is the student’s responsibility to secure an internship position and all internship experience must have prior approval from his/her advisor. In addition to the field experience, students will develop their problem solving and analytical skills through projects that are operational in nature. Graded on A-F basis only.

Credit Hours: 3  
Prerequisites: Instructor’s consent required

HSP_MGMT 7100: Hospitality Human Resources Management  
Examines effective management of human resources issues in hospitality businesses. It addresses issues related to managing subordinates through hiring the right person for the position, training properly, evaluating employees’ performance accurately and promptly, rewarding good behaviors, and motivating and coaching them. Manpower planning, equal employment practices and employee relations, quality of work life, compensation and reward structure, and how to make sound human resource management decisions will also be discussed. Graded on A-F basis only.

Credit Hours: 3  
Prerequisites: Instructor’s consent

HSP_MGMT 7110: Hospitality Sales and Marketing  
Application of a customer-oriented approach to sales and marketing management in hospitality and tourism industry. The marketing techniques available to hospitality businesses are described and evaluated, including service marketing mix, packaging, travel trade, advertising, sales promotion, merchandising, and personal selling. Marketing of hospitality services regarding human factors, consumer demand, planning, professional considerations are also discussed. Graded on A-F basis only.

Credit Hours: 3  
Prerequisites: Instructor’s consent

HSP_MGMT 7180: Strategic Management in the Hospitality Industry  
Focuses on developing conceptual skills and application of the principles of strategic management in the context of the hospitality industry. It involves handling and analyzing ambiguous facts as well as relevant industry problems and issues facing management personnel in the global hospitality markets. Topics include: Business environments, mission statement, corporate and business strategies, evaluation and control. It requires that students to apply functions of management, finance, human resources, and marketing, learn how to engage in planning by examining situations from the perspectives of customer, employee, and management. The ultimate goal is to encourage students to think "out-of-the-box" in order to find innovative solutions that will reshape the hospitality industry and define how the hospitality company of tomorrow will create value. Graded on A-F basis only.

Credit Hours: 3  
Prerequisites: Instructor’s consent

HSP_MGMT 7200: Destination Management  
An overview of hospitality and tourism destination management using a system approach that integrates a variety of hospitality and tourism organizations and businesses. Destination management will be examined from the perspectives of travelers and destination communities in the context of economic, socio-cultural, and environmental impacts. Optimal planning, development, marketing of destination image and position in the context of the overall management plan will be addressed. Graded on A-F basis only.

Credit Hours: 3  
Prerequisites: Instructor’s consent

HSP_MGMT 7390: Optimization and Management of Food and Agriculture Systems  
This course is designed to introduce the student to the concept of layers and interacting systems within an operation and the analytical methods of modeling and simulation to make effective management decisions for optimal system design and function.

Credit Hours: 3  
Prerequisites: Instructor’s consent

HSP_MGMT 7400: Hospitality Finance Management  
Application of financial principles to the hospitality industry. The focus is to provide students a foundation on how to use numbers and fundamental financial analysis to operate a successful hospitality business. Topics include forecasting, profit and loss statement, balance sheet, capital budgeting, and revenue management related to the hospitality industry. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: instructor's consent

Human Development And Family Studies Courses

H_D_FS 1520: Drop-In Child Care Programs
Examination of appropriate planning for and experience in a drop-in child care program.
Credit Hours: 3
Prerequisites: H_D_FS 3420 or equivalent and instructor's consent

H_D_FS 1600: Foundations of Family Science
Introduction to family studies discipline and profession. Introduces historical changes in families, diversity by race, ethnicity, class and sexual orientation, and interaction of families with neighborhoods, schools, the workplace, and larger systems.
Credit Hours: 3

Examination of issues pertaining to intimate and marital relationships such as relationship foundation and dissolution processes, love, sex, behavioral scripts, and conflict. Diversity related to race, ethnicity, gender, and sexual orientation is explored.
Credit Hours: 3

H_D_FS 2085: Problems in Human Development and Family Science
Graded on S/U basis only.
Credit Hour: 1-30

H_D_FS 2200: Research Methods in Human Development and Family Science
Introduction to research methods in the social sciences. Emphasis on both qualitative and quantitative methods, as well as applied research and program evaluation.
Credit Hours: 3
Prerequisites: sophomore standing

H_D_FS 2300: Multicultural Study of Children and Families
Study of cultural variation in family life around the world and within America (e.g.: African-American, Hispanic American). Attention is paid to the external conditions that affect the internal workings of these families.
Credit Hours: 3

H_D_FS 2400: Principles of Human Development
Concepts and principles basic to an understanding of human development and learning throughout the life span.
Credit Hours: 3

H_D_FS 2400H: Principles of Human Development - Honors
Concepts and principles basic to an understanding of human development and learning throughout the life span.
Credit Hours: 4
Prerequisites: ENGLSH 1000. Honors eligibility required

H_D_FS 2400HW: Principles of Human Development - Honors/ Writing Intensive
Concepts and principles basic to an understanding of human development and learning throughout the life span.
Credit Hours: 4
Prerequisites: ENGLSH 1000. Honors eligibility required

H_D_FS 2400W: Principles of Human Development - Writing Intensive
Concepts and principles basic to an understanding of human development and learning throughout the life span.
Credit Hours: 4
Prerequisites: ENGLSH 1000

H_D_FS 2450: Human Sexuality Across the Life Span
An introductory survey of human sexuality including gender, love and intimacy, sexual expression and variation, sexual orientation, contraception, pregnancy and birth, sexually transmitted infections, sexual coercion, and sex in society. Sexuality within the context of intimate relationships across the life course will be emphasized.
Credit Hours: 3

H_D_FS 2510: Observation, Assessment, and Curriculum Planning
This course is fundamental for students in the emphasis area Child Development and Education and for other students planning to engage in work that requires observing young children to plan curriculum and assess their development.
Credit Hours: 4
Prerequisites: H_D_FS 2400

H_D_FS 3050: Child Development: Birth to 3 (Infant/Toddler)
Child development from birth to age 3. Topics include growth patterns; influences of disabilities and risk factors; environmental factors and attachment; language acquisition; brain development; cognitive and social-emotional development; and perceptual and sensory motor skills. Some course content overlaps with H_D_FS 3500.
Credit Hours: 3
Prerequisites: Some sections may be restricted to students admitted to the Great Plains IDEA Early Childhood Education Program (GPI-ECE). Some sections may be restricted to HDFS, Pre-HDFS, and Education majors during Early Registration

H_D_FS 3085: Problems in Human Development and Family Science
Independent work on special problems in human development and family science. Graded on S/U basis only.
Credit Hour: 1-30
Prerequisites: instructor's consent

H_D_FS 3090: Research Experience in Human Development and Family Science
Student training and engagement in research with a H_D_FS faculty member. Students learn about the research process and methods, and develop research skills (e.g., data collection, entry, coding, analysis) through hands-on work. Graded on S/U basis only. May be repeated for credit.

Credit Hours: 1-30
Prerequisites: H_D_FS 2200; instructor's consent

H_D_FS 3150: Child Development 4-8 (Early Childhood)
Physical, cognitive, social/emotional and personality growth and development during early childhood. Topics include major theories of development and current research and ideas in conjunction with historical approaches to examining growth and development in ages 4-8.

Credit Hours: 3
Prerequisites: Some sections may be restricted to students admitted to the Great Plains IDEA Early Childhood Education Program (GPI-ECE). Some sections may be restricted to HDFS, Pre-HDFS, and Education majors during Early Registration

H_D_FS 3150W: Child Development 4-8 (Early Childhood) - Writing Intensive
Physical, cognitive, social/emotional and personality growth and development during early childhood. Topics include major theories of development and current research and ideas in conjunction with historical approaches to examining growth and development in ages 4-8.

Credit Hours: 3
Prerequisites: Some sections may be restricted to students admitted to the Great Plains IDEA Early Childhood Education Program (GPI-ECE). Some sections may be restricted to HDFS, Pre-HDFS, and Education majors during Early Registration

H_D_FS 3250: Introduction to Early Childhood Education in a Mobile Society
Role of a professional as a teacher, administrator, or advocate in early childhood programming. Topics include professionalism and ethics; identifying child abuse; the role of an early childhood educator; program models and working with children and professional colleagues.

Credit Hours: 3
Prerequisites: enrollment restricted to students admitted to the Great Plains IDEA Early Childhood Education Program (GPI_ECE)

H_D_FS 3350: Child Guidance and Classroom Environments
Examines developmentally appropriate practice in child guidance. Current guidance methods and programs will be covered. Students will develop their own approach to guidance based upon course content.

Credit Hours: 3
Prerequisites: enrollment is restricted to students admitted to the Great Plains IDEA Early Childhood Education Program (GPI_ECE)

H_D_FS 3420: Early and Middle Childhood
Emotional, cognitive, and physical development of the child before puberty. Observation is integral part of course. Cannot receive credit for more than one of the following: PSYCH 2410, H_D_FS 3420, or ESC_PS 2500.

Credit Hours: 3
Prerequisites: Restricted to Education, HDFS and Pre-HDFS majors during preregistration period

H_D_FS 3420W: Early and Middle Childhood - Writing Intensive
Emotional, cognitive, and physical development of the child before puberty. Observation is integral part of course. Cannot receive credit for more than one of the following: PSYCH 2410, H_D_FS 3420, or ESC_PS 2500.

Credit Hours: 3
Prerequisites: Restricted to Education, HDFS and Pre-HDFS majors during preregistration period

H_D_FS 3430: Adolescence and Young Adulthood
Physical, intellectual, and psychosocial maturation of adolescents and young adults within the context of life-long developmental sequelae.

Credit Hours: 3
Prerequisites: Restricted to HDFS and Pre-HDFS majors during preregistration period

H_D_FS 3440: Adulthood and Aging
Examination of biological, cognitive, psychological and social changes experienced across adulthood.

Credit Hours: 3

H_D_FS 3450: Health, Safety and Nutrition
Topics include planning, promoting, and maintaining health and safe learning/care environments; understanding childhood illnesses and establishing healthy lifestyles; performing first aid; and maintaining care providers' health and safe relationships with others; identifying and reporting child abuse; nutrients for life; and safe food preparations.

Credit Hours: 3
Prerequisites: enrollment is restricted to students admitted to the Great Plains Idea Early Childhood Education Program (GPI_ECE)

H_D_FS 3500: Infant-Toddler Practicum
Practical experience working with infants and toddlers, applying developmentally appropriate practice and theoretical perspectives. Emphasizes cognitive, social/emotional, creative and motor development; and staff and family relationships in child care settings. Graded on A-F basis only.

Credit Hours: 6
Prerequisites or Corequisites: H_D_FS 3050 or H_D_FS 3420 or instructor's consent

H_D_FS 3530: Foundations of Community-Based Programs for Children and Youth
Examines non-academic community-based programming for children and youth. Experience working with these age groups. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: H_D_FS 3420 or equivalent or instructor's consent
H_D_FS 3550: Technology and Young Children
Students will learn how electronic technology impacts the development of young children in educational, home and community environments, and how technology can be used to enhance teaching and learning.
Credit Hours: 3
Prerequisites: enrollment is restricted to students admitted to the Great Plains IDEA Early Childhood Education Program (GPI_ECE)

H_D_FS 3600: Partnering with Parents and Families
Examination of stages of parenthood, caregiving styles, and the impact of relationships and culture on caregiving and its challenges. Development of applied skills working with parents and families in a service learning experience. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: H_D_FS 1600 and H_D_FS 2400

H_D_FS 3650: Diversity in the Lives of Young Children and Families
In this course, students will explore cultural diversity in daily life and beliefs in families with young children. The focus is on U.S. families, with attention to the multiple cultures from which they come. Course content overlaps with H_D_FS 2300. Not recommended for students to enroll in both courses. Students may not receive credit for both H_D_FS 3650 and H_D_FS 2300.
Credit Hours: 3
Prerequisites: restricted to students admitted to the Great Plains IDEA Early Childhood Education Program (GPI-ECE)

H_D_FS 3700: Preschool Practicum
Practical experience working with children ages 2.5-5 years of age, applying developmentally appropriate practice and theoretical perspectives. Emphasizes cognitive, social and emotional, creative, and motor development, and family and staff relationships in a child care setting. Graded on A-F basis only.
Credit Hours: 6
Prerequisites or Corequisites: H_D_FS 3150 or H_D_FS 3420 or instructor's consent

H_D_FS 3720: Student Teaching Prekindergarten
Experience working with children (2-5 years), using general guidance principles and methods for fostering creativity.
Credit Hours: 6
Prerequisites: H_D_FS 3420 or equivalent and instructor's consent

H_D_FS 3730: Field Training Practicum
Field training experiences under supervision. May be repeated for credit. Graded on S/U basis only.
Credit Hours: 3
Prerequisites: advisor's consent

H_D_FS 3750: Working with Families
This course focuses on application of an ecological model to the understanding of variation in parental roles, perspectives, approaches, and challenges. The course also provides an overview of effective communication strategies and parent education programs. Course content overlaps with H_D_FS 3600. Not recommended for students to enroll in both courses. Students will not receive credit for both H_D_FS 3600 and H_D_FS 3750.
Credit Hours: 3
Prerequisites: restricted to students admitted to the Great Plains IDEA Early Childhood Education Program (GPI-ECE)

H_D_FS 3800: Children's Play
This course is an examination of the complex phenomenon of play in children's lives. Emphasis is placed on the value of play in developmental, social, and cultural contexts. Topics include the exploration of play theories and supporting empirical evidence, play materials, various environments, violence and conflict resolution, and therapeutic uses of play. Observation and assessment of children at play and analysis of play environments is required.
Credit Hours: 3
Prerequisites: H_D_FS 2400, H_D_FS 3420, PSYCH 2410 or ESC_PS 2500 or equivalent, junior standing. Enrollment is restricted to H_D_FS and Pre H_D_FS majors during preregistration period

H_D_FS 3950: Practicum I: Child Observations in Classroom Environment
Opportunity for Early Childhood Education teacher candidates to have a guided learning experience in a professional agency that provides services to children and families. Some course content overlaps with LTC 4110.
Credit Hours: 3
Prerequisites: restricted to students admitted to the Great Plains IDEA Early Childhood Education Program (GPI-ECE); H_D_FS 3050, H_D_FS 3150, H_D_FS 3250, H_D_FS 3350 and H_D_FS 3450

H_D_FS 3960: Readings in Human Development and Family Science
Readings in recent research; critical discussions.
Credit Hour: 1-30

H_D_FS 4001: Topics in Human Development and Family Science
Selected current topics in field of interest.
Credit Hour: 1-6

H_D_FS 4085: Problems in Human Development and Family Science
Independent work on special problems in human development and family science. Graded on S/U basis only.
Credit Hour: 1-30
Prerequisites: instructor's consent

H_D_FS 4090: Advanced Research in Human Development and Family Science
Advanced training and engagement in research with a H_D_FS faculty member. Student develops research skills (e.g., data collection, entry, coding, analysis) and works semi-independently on own research project. Graded on S/U basis only. May be repeated for credit.
Credit Hour: 1-30
Prerequisites: H_D_FS 2200 and H_D_FS 3090; instructor's consent
H_D_FS 4100: Children in Health Care Settings
Overview of the medical conditions and treatments commonly encountered by children and adolescents in health care settings and their typical reactions to them. Introduction to the philosophy and the role of the child life profession.
Credit Hours: 3
Prerequisites: H_D_FS 2200, H_D_FS 2400 and H_D_FS 3420, or equivalent. Restricted to Human Development and Family Studies and Pre-Human Development and Family Studies majors during pre-registration period

H_D_FS 4110: Child Life Theory and Practice
Focuses on theoretical foundations and principal intervention strategies used in Child Life professional practice.
Credit Hours: 3
Prerequisites: H_D_FS 2200, H_D_FS 3420, H_D_FS 3500 or H_D_FS 3700, and instructor's consent

H_D_FS 4130: Child Life Practicum
Observation of Child Life staff at Children's Hospital and experience helping children and adolescents cope with hospitalization.
Credit Hours: 3
Prerequisites: H_D_FS 3500 and H_D_FS 3700, consent required

H_D_FS 4150: Development of Curriculum for Children Ages Birth to 3
Students will learn and use assessment and documentation to inform curriculum; plan and evaluate developmentally appropriate activities; and learn about effective ways to share curriculum information with families. Focus is on children ages birth to 3.
Credit Hours: 3
Prerequisites: enrollment is restricted to students admitted to the Great Plains IDEA Early Childhood Education Program (GPI_ECE)

H_D_FS 4200: Latino/a Youth and Families
Current issues in theory, methods, and research in U.S. Latino/a youth and families are examined from a social and developmental psychological perspective. The course is an advanced level study, with a particular focus on history, theories, methods, research, and applied social issues. Topics will include, parenting, siblings, youth development and adjustment, stress, risky behaviors, gender issues, assessment, study design, cultural values, intervention programs, and immigration issues.
Credit Hours: 3
Prerequisites: Pre-H_D_FS and H_D_FS majors must complete H_D_FS 1600, H_D_FS 2200, H_D_FS 2300, H_D_FS 2400

H_D_FS 4250: Development of Curriculum for Children 4-8
Students will learn and use assessment and documentation to inform curriculum, plan and evaluate developmentally appropriate activities; and learn about effective ways to share curriculum information with families. Focus is on children ages 4-8.
Credit Hours: 3
Prerequisites: enrollment is restricted to students admitted to the Great Plains IDEA Early Childhood Education Program (GPI_ECE)

H_D_FS 4300: Black Families
(same as BL_STU 4300). Emphasis is on the unique social, economic, religious, educational, and political environments that have affected the structure and function of the Black family.
Credit Hours: 3
Prerequisites: H_D_FS 2200 or equivalent, and junior standing

H_D_FS 4350: Assessing Young Children and their Environments
Credit Hours: 3
Prerequisites: enrollment is restricted to students admitted to the Great Plains IDEA Early Childhood Education Program (GPI_ECE)

H_D_FS 4400: Childhood Death and Bereavement
An exploration of issues that arise for children and families when facing life-threatening illness and death. The course also includes an examination of coping and helping strategies for dying and grieving children.
Credit Hours: 3
Prerequisites: H_D_FS 2200, H_D_FS 2400, H_D_FS 3420 and instructor's consent. Restricted to HDFS and Pre-HDFS majors during pre-registration period

H_D_FS 4420: Environmental Influences on Lifespan Cognition
This course covers the change and growth of cognition through the lifespan with particular attention to how the environment influences cognition (including perception, language memory, attention executive functions, and problem solving).
Credit Hours: 3
Prerequisites: Pre-HDFS and HDFS Majors must complete H_D_FS 1600, H_D_FS 2200, H_D_FS 2300, H_D_FS 2400 and H_D_FS 3420

H_D_FS 4450: Understanding and Adapting for Developmental Differences
This course focuses on knowledge of disability conditions, assessment and identification, interventions in inclusive environments, and collaborations among service providers.
Credit Hours: 3
Prerequisites: enrollment is restricted to students admitted to the Great Plains IDEA Early Childhood Education Program (GPI_ECE)

H_D_FS 4550: Practicum II: Child Observations in Classroom Environments
Practicum in ECE is an opportunity for teacher candidates to have a guided learning experience in a professional agency that provides services to children and families, and allows teacher candidates to have the opportunity to use and implement theories and practices. Course content overlaps with LTC 4110. Not recommended for students to enroll in both courses.
Credit Hours: 3
Prerequisites: restricted to students admitted to the Great Plains IDEA Early Childhood Education Program (GPI-ECE)
H_D_FS 4570: Development and Administration of Child Services Programs
The development of leadership and management skills for administering community-and hospital-based programs for children. Includes an overview of office policy and procedure, staff and volunteer management, public relations, budgeting, accounts, accountability, and quality assurance.
Credit Hours: 3
Prerequisites: Restricted to Pre-HDFS and HDFS Majors. Must have also completed H_D_FS 1600, H_D_FS 2200, H_D_FS 2300, H_D_FS 2400 and H_D_FS 2700

H_D_FS 4610: Stress and Resilience in Families
Introduction to the study of stressor events in families, such as poverty, violence within families, substance abuse, and health problems. Emphasis is on both prevention and coping.
Credit Hours: 3
Prerequisites: Pre-HDFS and HDFS majors must complete H_D_FS 1600, H_D_FS 2200, H_D_FS 2300 and H_D_FS 2400

H_D_FS 4620: Family Interaction
Analysis of intrafamilial interaction from a systems perspective; includes comparative study of family paradigms, family subsystems, goals, and resources, boundaries, and patterns of feedback.
Credit Hours: 3
Prerequisites: Pre-HDFS and HDFS majors must complete H_D_FS 1600, H_D_FS 2200, H_D_FS 2300 and H_D_FS 2400

H_D_FS 4630: The Process of Divorce
Examination of theory and research related to marital dissolution. The impact of divorce on children and adults, and divorce intervention strategies are considered.
Credit Hours: 3
Prerequisites: Pre-HDFS and HDFS majors must complete H_D_FS 1600, H_D_FS 2200, H_D_FS 2300 and H_D_FS 2400

H_D_FS 4640: Interpersonal Relationships
In-depth examination of interpersonal relationships, including theoretical perspectives, research methods, relationship forms, relationship processes, and how context affects relationships. Students are introduced to the field of close relationships.
Credit Hours: 3
Prerequisites: Pre-HDFS and HDFS majors must complete H_D_FS 1600, H_D_FS 2200, H_D_FS 2300 and H_D_FS 2400

H_D_FS 4650: Administration/Supervision in Early Childhood Settings
Exploration of issues surrounding the administration of ECE programs including identification of community needs, analysis of business opportunities, evaluation and appropriate use of quality programming, consideration of policy and equal responsibilities, and professionalism. Course content overlaps with H_D_FS 4750. Not recommended for students to enroll in both courses. Students will not receive credit for both H_D_FS 4650 and H_D_FS 4750.

Credit Hours: 3
Prerequisites: restricted to students admitted to the Great Plains IDEA Early Childhood Education Program (GPI-ECE)

H_D_FS 4655: History of the Family in Russia
Survey of family relations in Russia from the Kievan period. Materials drawn from child development and family studies, education, history, sociology, and literature.
Credit Hours: 3
Prerequisites: 3 hours in Social/Behavioral Sciences

H_D_FS 4655H: History of the Family in Russia - Honors
Survey of family relations in Russia from the Kievan period. Materials drawn from child development and family studies, education, history, sociology, and literature.
Credit Hours: 3
Prerequisites: 3 hours in Social/Behavioral Sciences. Honor eligibility required

H_D_FS 4680: Family Communication
(same as COMMUN 4520). Analysis of the functions and processes of communication within families.
Credit Hours: 3
Prerequisites: junior standing or departmental consent. May be restricted to Communication majors only during early registration

H_D_FS 4700: Children and Families in Poverty
Study of the extent, distribution, and implications of poverty on children and families. Examination of myths and realities, social conditions, policies, and programs that contribute to or reduce poverty and its consequences.
Credit Hours: 3
Prerequisites: Pre-HDFS and HDFS majors must complete H_D_FS 1600, H_D_FS 2200, H_D_FS 2300 and H_D_FS 2400

H_D_FS 4720: Child and Family Advocacy
Study of the processes of social policies, legislation, and regulations affecting children and families at the local, state and federal levels. The course emphasizes current issues and need for citizen involvement. There will be sections restricted to H_D_FS majors and to Education majors. The H_D_FS section will be for 3 credits and the Education will be for 2 credits.
Credit Hours: 2-3
Prerequisites: Pre-HDFS and HDFS majors must complete H_D_FS 1600, H_D_FS 2200, H_D_FS 2300 and H_D_FS 2400

H_D_FS 4740: Parent-Child Relations Over the Life Course
Examines the development, continuities, transitions, and discontinuities of parent-child relationships over the life course. Considers the influence of parents on children and children on parents.
Credit Hours: 3
Prerequisites: H_D_FS 2200 or equivalent
H_D_FS 4750: Practicum III: Capstone Experience
This is a 15-week experience allowing the student to demonstrate practical application of developmentally appropriate early childhood teaching techniques and skills, teaching experience and developmental feedback. Includes observation and evaluation of classroom experience. Course content overlaps with H_D_FS 3700 and LTC 4170. Not recommended for students to enroll in both courses. Students will not receive credit for both H_D_FS 4750 and H_D_FS 3700 or H_D_FS 4750 and LTC 4170.

Credit Hours: 3
Prerequisites: restricted to students admitted to the Great Plains IDEA Early Childhood Education Program (GPI-ECE). H_D_FS 3950, H_D_FS 4150, H_D_FS 4250, H_D_FS 4350, H_D_FS 4450 and H_D_FS 4550

H_D_FS 4800: Program and Curriculum Design for FACS Education in Middle and Secondary Schools
What should a teacher do about planning for student learning in FACS? Includes objectives, lesson designs, resources, learner diversity, thinking skills, reasoning processes, articulation, legislation.

Credit Hours: 3
Prerequisites: admission into Phase II, and instructor's consent

H_D_FS 4820: Assessment in Family and Consumer Sciences Education
What should a teacher do to determine the extent to which program/lesson objectives have been achieved? Includes the selection, design, and use of a wide variety of assessment tools and techniques, and the impact of assessment on the evaluation of learners and program design.

Credit Hours: 2
Prerequisites: admission into Phase II, H_D_FS 4800, and instructor’s consent

H_D_FS 4830: Methods of Teaching FACS in Middle and Secondary Schools
What should a teacher do to help students achieve learner objectives? Includes classroom management strategies, choosing and using instructional methods to stimulate thinking skills and reasoning processes, communication skills, professionalism, and public relations.

Credit Hours: 3
Prerequisites: admission into Phase II, and instructor's consent

H_D_FS 4940: Field Experience in Family and Consumer Sciences
Students will observe and assist in FACS classroom.

Credit Hour: 1
Prerequisites: to be taken concurrently with H_D_FS 4800, and instructor's consent

H_D_FS 4941: Field Experience in Family and Consumer Sciences
Students will be involved in real-world experiences in a FACS classroom.

Credit Hour: 1
Prerequisites: to be taken concurrently with H_D_FS 4830; requires instructor's consent

H_D_FS 4942: Student Teaching FACS in Middle and Secondary Schools
What guided practicum experiences will directly contribute to success as a classroom teacher? Students will teach for sixteen weeks within the state of Missouri under the supervision of an experienced FACS teacher.

Credit Hour: 1-15
Prerequisites: H_D_FS 4800, H_D_FS 4820, H_D_FS 4830, ENGLSH 1000, admittance to Phase III, and instructor's consent

H_D_FS 4942W: Student Teaching FACS in Middle and Secondary Schools - Writing Intensive
What guided practicum experiences will directly contribute to success as a classroom teacher? Students will teach for sixteen weeks within the state of Missouri under the supervision of an experienced FACS teacher.

Credit Hour: 1-15
Prerequisites: H_D_FS 4800, H_D_FS 4820, H_D_FS 4830, ENGLSH 1000, admittance to Phase III, and instructor's consent

H_D_FS 4970: Families and Lifespan Development Capstone
Focus on integrating, extending, critiquing, and applying knowledge gained in the Families and Lifespan Development option within a family and lifespan development educational framework. Graded on A-F basis only.

Credit Hours: 4
Prerequisites: senior standing and instructor's consent

H_D_FS 4970W: Families and Lifespan Development Capstone - Writing Intensive
Focus on integrating, extending, critiquing, and applying knowledge gained in the Families and Lifespan Development option within a family and lifespan development educational framework. Graded on A-F basis only.

Credit Hours: 4
Prerequisites: senior standing and instructor's consent

H_D_FS 4971: Child Development and Education Capstone
Practical experience working with young children (up to 10) in out-of-home care facilities. Program planning for children and working with parents. Lab hours required.

Credit Hours: 9
Prerequisites: H_D_FS 2200, H_D_FS 3500 and H_D_FS 3700, or equivalent and instructor's consent

H_D_FS 4993: Internship in Human Development and Family Science
Internships or field training experiences under supervision. Graded on S/ U basis only.

Credit Hour: 1-30
Prerequisites: H_D_FS 2200 or equivalent and instructor's consent

H_D_FS 7001: Topics in Human Development and Family Science
Selected current topics in field of interest.

Credit Hour: 1-99
H_D_FS 7085: Problems
Independent work on special problems in human development and family studies. Graded on S/U basis only.
Credit Hour: 1-99
Prerequisites: instructor’s consent

H_D_FS 7100: Children in Health Care Settings
Overview of the medical conditions and treatments commonly encountered by children and adolescents in health care settings and their typical reactions to them. Introduction to the philosophy and role of the child life profession.
Credit Hours: 3
Prerequisites: H_D_FS 2400 and H_D_FS 2420 or equivalent

H_D_FS 7110: Child Life Theory and Practice
Focuses on theoretical foundations and principal intervention strategies used in Child Life professional practice.
Credit Hours: 3
Prerequisites: H_D_FS 3420 and H_D_FS 3500 and instructor’s consent

H_D_FS 7130: Child Life Practicum
Observation of Child Life staff at Children’s Hospital and experience helping children and adolescents cope with hospitalization.
Credit Hours: 3
Prerequisites: H_D_FS 3500 and H_D_FS 3700, consent required

H_D_FS 7200: Latino Families and Youth
This course will cover the critical integration of theoretical, methodological, and empirical issues in Latino psychology using a cross-cultural, cross-ethnic perspective, including the increased sensitivity to issues and challenges facing Latino families and youth from a social science perspective. There will be a particular focus on selected topics in social and developmental psychology, as well as, understanding the relevance to other areas of study, to policy contexts, and to applied settings. Students will provide a written, integrative literature review and research proposal related to the course topic. The course will consist primarily of seminar discussions based on the textbook and additional readings. Students will lead class discussions based on the readings and their QRCs. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: Instructor’s consent

H_D_FS 7223: Basic Grant Development and Management
This course introduces students to grant development and management. This short-course is not intended to cover all aspects of grant development and management, but it will help students gain confidence in their grant development abilities and inspire them to learn more. Priority given to students in the Great Plains Idea Group master’s and certificate programs.
Credit Hours: 3

H_D_FS 7231: Foundations of Youth Development
This course provides an introduction to the field of youth development and the professions that include youth work. This course is designed to provide a foundation of knowledge that students will need to begin any course in the Great Plains IDEA Youth Development programs. Priority given to students in the Great Plains Idea Group master’s and certificate programs.
Credit Hour: 1

H_D_FS 7232: Adult Development
This course presents a life-span, multidisciplinary developmental framework that considers sociohistorical influences, individual differences, and concern for promoting optimal functioning. Priority given to students in the Great Plains Idea Group master’s and certificate programs.
Credit Hours: 3

H_D_FS 7235: Physical Health and Aging
This course identifies the basic physiologic changes during aging and their effects on health and disease. The focus will be on successful aging with special emphasis on physical activity and nutrition. Practical application to community settings is addressed. Priority given to students in the Great Plains Idea Group master’s and certificate programs.
Credit Hours: 3

H_D_FS 7237: Mental Health and Aging
This course presents a life-span, multidisciplinary developmental framework that considers sociohistorical influences, individual differences, and concern for promoting optimal functioning. Priority given to students in the Great Plains Idea Group master’s and certificate programs.
Credit Hours: 3

H_D_FS 7252: Adult Development
This course presents a life-span, multidisciplinary developmental framework that considers sociohistorical influences, individual differences, and concern for promoting optimal functioning. Priority given to students in the Great Plains Idea Group master’s and certificate programs.
Credit Hours: 3

H_D_FS 7255: Aging Policy
Policy development in the context of the economic status of the elderly populations. Retirement planning and the retirement decision; Social Security and public transfer programs for the elderly; intrafamily transfers to/from the elderly; private pensions; financing medical care for the elderly; prospects and issues for the for the future. Priority given to students in the Great Plains Idea Group master’s and certificate programs.
Credit Hours: 3

H_D_FS 7256: Environments and Aging
Examination of attributes of physical environments that support special needs of older people and application of this knowledge to the design and management of housing, institutional settings, neighborhoods and communities. Priority given to students in the Great Plains Idea Group master’s and certificate programs.
Credit Hours: 3

H_D_FS 7257: Aging and the Family
Theories and research related to personal and family adjustments in later life affecting older persons and their inter-generational relationships. Related issues including demographics are also examined through the use of current literature. Priority given to students in the Great Plains Idea Group master’s and certificate programs.
Credit Hours: 3

H_D_FS 7259: Mental Health and Aging
Student is introduced to the range of issues utilizing several theoretical perspectives and the systems framework. Major mental, emotional, and psychiatric problems encountered in old age are examined, along with normal processes of aging individual’s personality, mental and brain functions. Priority given to students in the Great Plains Idea Group master’s and certificate programs.

<td>Black Families</td>
<td>(same as BL_STU 7300). Emphasis is on the unique social, economic, religious, educational, and political environments that have affected the structure and function of the black families.</td>
<td>3</td>
</tr>
<tr>
<td>H_D_FS 7400</td>
<td>Childhood Death and Bereavement</td>
<td>An exploration of issues that arise for children and families when families when facing terminal illness or death. The course also includes an examination of coping and helping strategies for dying and grieving children.</td>
<td>3</td>
</tr>
<tr>
<td>H_D_FS 7470</td>
<td>Problems of Development in Multicultural Context</td>
<td>Within the context of socio-cultural diversity, this course covers developmental problems from conception to early adulthood. Theoretical and empirical contributions to classification, assessment, intervention, and public policy are emphasized.</td>
<td>3</td>
</tr>
<tr>
<td>H_D_FS 7500</td>
<td>Developing Plans of Care for Community-Dwelling Older Adults</td>
<td>This applied course focuses on conducting geriatric assessments across multiple domains in order to develop holistic plans of care for older adults. Designed for students with some familiarity with the large age-graded income and health programs (e.g., Social Security, Medicare), the course examines the broad range of community resource programs designed to support more specific medical, psychosocial, and functional needs. Although service delivery varies by community, students will be trained to seek out those that are locally provided, up to and including resources providing a transitional bridge to respite and long-term care services. Graded on A-F basis only.</td>
<td>3</td>
</tr>
<tr>
<td>H_D_FS 7520</td>
<td>Ethical, Legal, and Business Considerations in Geriatric Care Management</td>
<td>This applied eight-week course addresses multiple issues that geriatric care managers must consider in their work with the vulnerable older population. Topics include the ethics of care management, developing cultural and spiritual competencies, legal requirements in both the fee-for-service and nonprofit settings, as well as business aspects for those considering independent practice in this growing field, including national certification. May be repeated for credit. Graded on A-F basis only.</td>
<td>3</td>
</tr>
<tr>
<td>H_D_FS 7570</td>
<td>Program Development and Administration</td>
<td>(cross-leveled with H_D_FS 4570). The development of leadership and management skills for administering community-based early childhood programs for children and their families. Includes an overview of early childhood standards; budgeting, funding and financial matters; developing, equipping, and staffing a center; recruiting children and families; curriculum; health, safety, and nutrition; volunteer and staff development, and program evaluation. Graded on A-F basis only.</td>
<td>3</td>
</tr>
<tr>
<td>H_D_FS 7583</td>
<td>Personal Financial Issues of Older Adults</td>
<td>(same as FINPLN 7583). Principles and practice of personal finance relevant to assessing and improving the financial security of older individuals. Topics covered include sources of income, management of cash flow, credit use and abuse, risk exposure, investment management, housing, and financial planning. Financial vulnerabilities of seniors will be explored. Graded on A-F basis only.</td>
<td>3</td>
</tr>

| H_D_FS 7600 | Resilience in Families                                                       | Exploration of the evolution of a resilience approach to the study of families and human development. Using a lifespan approach, students...
will explore resilience across time as well as within special populations such as families experiencing crisis and trauma, culturally diverse families, and military families. Graded on A-F basis only.

**Credit Hours**: 3

**H_D_FS 7610: Stress and Resilience in Families**  
Introduction to the study of stressor events in families, such as poverty, violence within families, substance abuse, and health problems. Emphasis is on both prevention and coping.

**Credit Hours**: 3

**H_D_FS 7630: The Process of Divorce**  
Examination of theory and research related to marital dissolution. The impact of divorce on children and adults, and divorce intervention strategies will be considered.

**Credit Hours**: 3  
**Prerequisites**: H_D_FS 1600, and H_D_FS 2200 or equivalent; or instructor's consent

**H_D_FS 7640: Interpersonal Relationships**  
In-depth examination of interpersonal relationships, including theoretical perspectives, research methods, relationship forms, relationship processes, and how context affects relationships. Students will also be introduced to the field of close relationships.

**Credit Hours**: 3

**H_D_FS 7650: Family Crisis Intervention**  
Individuals and families in crises are examined. Focus is on grief and loss, substance abuse, family violence, and suicidal ideation. Examination of evidence-based preventions and treatments and community resources for those affected by stress, trauma, and crises. Graded on A-F basis only.

**Credit Hours**: 3

**H_D_FS 7690: Family Resource Management**  
Survey course of personal finance and family resource management literature to provide an overview of how individual and family members develop and exercise their capacity to obtain and manage resources to meet life needs. Resources include the self, other people, time, money, energy, material assets, space, and environment. Graded on A-F basis only.

**Credit Hours**: 3

**H_D_FS 7720: Child and Family Advocacy**  
Study of the processes of social policies, legislation, and regulations affecting children and families at the local, state and federal levels. The course emphasizes current issues and need for citizen involvement. There will be sections restricted to Human Developmental and Family Studies majors and to Education majors. The Human Developmental and Family Studies section will be for 3 credits and Education will be for 2 credits.

**Credit Hour**: 2-3

**H_D_FS 7750: Physical Function and Older Adults**  
(same as F_C_MD 7750, ARCHST 7640, HMI 7750, NURSE 7750, P_HLTH 7750, and SOC_WK 7752). This course takes an interdisciplinary approach to understanding and improving the physical function and independence of older adults and explores approaches to alleviate disabling conditions that interfere with physical function and quality of life in old age. Graded on A-F basis only.

**Credit Hours**: 3

**H_D_FS 7751: Psychosocial Function and Older Adults**  
(same as ARCHST 7650, F_C_MD 7751, HMI 7751, NURSE 7751, P_HLTH 7751 and SOC_WK 7751). This course takes an interdisciplinary approach to understanding the psychosocial function of older adults and explores approaches to alleviate disabling conditions that interfere with psychosocial function and quality of life in old age. Graded on A-F basis only.

**Credit Hours**: 3

**H_D_FS 7750: Program and Curriculum Design for FACS Education in Middle and Secondary School**  
What should a teacher do about planning for student learning in FACS? Includes objectives, lesson designs, resources, learner diversity, thinking skills, reasoning processes, articulation, legislation.

**Credit Hours**: 3  
**Prerequisites**: ESC_PS 2010 and SPC_ED 4020 or equivalent.  
Admission to Phase II, and instructor's consent

**H_D_FS 7820: Assessment in Family and Consumer Sciences Education**  
What should a teacher do to determine the extent to which program/lesson objectives have been achieved? Includes the selection, design, and use of a wide variety of assessment tools and techniques, and the impact of assessment on the evaluation of learners and program design.

**Credit Hours**: 2  
**Prerequisites**: admission into Phase II, H_D_FS 4800, and instructor's consent

**H_D_FS 7830: Methods of Teaching FACS in Middle and Secondary Schools**  
What should a teacher do to help students achieve learner objectives? Includes classroom management strategies, choosing and using instructional methods to stimulate thinking skills and reasoning processes, communication skills, professionalism, and public relations.

**Credit Hours**: 3  
**Prerequisites**: admission into Phase II, and instructor's consent

**H_D_FS 7940: Field Experience in Family and Consumer Sciences Education**  
Students will observe and assist in FACS classroom.

**Credit Hour**: 1  
**Corequisites**: H_D_FS 4800, and instructor's consent

**H_D_FS 7941: Field Experience in Family and Consumer Sciences**  
Students will be involved in real-world experiences in a FACS classroom.

**Credit Hour**: 1
Corequisites: H_D_FS 4820, H_D_FS 4830, and instructor's consent

H_D_FS 7942: Student Teaching FACS in Middle and Secondary Schools
What guided practicum experiences will directly contribute to success as a classroom teacher? Students will teach for sixteen weeks within the state of Missouri under the supervision of an experienced FACS teacher.

Credit Hours: 15
Prerequisites: H_D_FS 4800, H_D_FS 4820, H_D_FS 4830, instructor's consent

H_D_FS 8001: Topics in Human Development and Family Science
Selected current topics in field of interest.

Credit Hour: 1-99

H_D_FS 8012: Family Dynamics and Intervention
(same as NURSE 8010). Theories of family function and dysfunction; techniques of assessment; models of family intervention. Practicum with selected families.

Credit Hours: 3
Prerequisites: NURSE 7100

H_D_FS 8085: Problems in Human Development and Family Science
Independent work on special problems in human development and family science. Graded on S/U basis only.

Credit Hour: 1-99
Prerequisites: instructor's consent

H_D_FS 8087: Seminar in Human Development and Family Science
Seminar in selected topics in human development and family science.

Credit Hour: 1-99

H_D_FS 8090: Research in Human Development and Family Science
Independent research not leading to a thesis. Report required. Graded on S/U basis only.

Credit Hour: 1-99
Prerequisites: instructor's consent

H_D_FS 8100: Foundations and Principles of Family and Community Services
This course provides an introduction to the field of family studies and related professions that involve working with individuals and families in communities. This course is designed to provide a foundation of knowledge that students will need in the Great Plains IDEA family and Community Services program. This course is organized around theory, research, and practice of Family Studies. Graded on A-F basis only.

Credit Hours: 3

H_D_FS 8110: Developmental Perspectives on Health and Illness
Seminar on child and adolescent development as applied to illness and hospitalization, with a focus on applying psychosocial research and theory in work with pediatric populations. Graded on A-F only. May be repeated for credit.

Credit Hours: 3

Prerequisites: instructor consent; coursework in human development and experience with pediatric populations

H_D_FS 8200: Research Methods in Human Development and Family Science
Examination of the rationale for conducting scientific research; various research methods pertinent to the study of individuals over the life span, close relationships, marriages, and families; hypothesis formulation; selection of appropriate designs, instrumentation, and analysis.

Credit Hours: 3
Prerequisites: instructor's consent

H_D_FS 8210: Theories of Human Development
Major theories of life span human development. Attention given to structure, content, and major research critiqued for theoretical strengths.

Credit Hours: 3
Prerequisites: 6 hours of 300-level Behavioral Sciences courses or instructor's consent

H_D_FS 8220: Family Theories
Reviews existing family theories, their assumptions, values, propositions, and applications. Examines processes of theory testing and construction and linkages between theory and research.

Credit Hours: 3
Prerequisites: instructor's consent

H_D_FS 8221: Gerontechnology
Population aging is combining with technological advancement to create and change the world of modern older people, their families, and their communities. This course takes an interdisciplinary approach to the understanding of the biological, environmental, and social spheres where technology and gerontology meet. Graded on A-F basis only.

Credit Hours: 3

H_D_FS 8222: Creativity and Aging
What happens to creativity as a person ages? This unique class will help students to understand developmental and pathological changes in the brain that can lead to changes in creative output over time. Through hands-on experiences and direct association with older adults, students will grow an appreciation for creativity produced and inspired by older people. This course is intended to provide experiences that will help the student to be able to create art programs for older adults. Graded on A-F basis only.

Credit Hours: 3

H_D_FS 8231: Management and Leadership
This course serves as an overview of management and leadership concepts related to the operational and administrative competencies necessary in effective community-based family and youth organizations and agencies. It is designed to provide students with foundational skills and knowledge to manage day-to-day functions related to organizational systems such as human resource management, financial management, risk management, strategic planning, governance and advisory structures, and marketing. Graded on A-F basis only.

Credit Hours: 3
H_D_FS 8232: Youth Professionals as Consumers of Research
This course will help youth development professionals understand and evaluate the quality of research reports. Students will learn the basics of quantitative and qualitative research approaches that will enable them to understand, evaluate, and critique research articles reported in newspaper, journals or other sources. Priority given to students in the Great Plains Idea Group master's and certificate programs.
Credit Hours: 3

H_D_FS 8234: Adolescents and their Families
This course explores adolescent development in the context of the family. The bi-directional influences between adolescents and their families will be examined. Implications for professionals working with youth and families will be explored and highlighted. Priority given to students in the Great Plains Idea Group master's and certificate programs.
Credit Hours: 3

H_D_FS 8235: Administration and Program Management
This course introduces students to the development, administration, and management of youth-serving organizations. Priority given to students in the Great Plains Idea Group master's and certificate programs.
Credit Hours: 3

H_D_FS 8236: Federal and State Policies that Impact Youth Development
This course examines various federal and state policies that effect developmental opportunities for youth. Course participants will also examine not only how policies are developed, but also why. Priority given to students in the Great Plains Idea Group master's and certificate programs.
Credit Hours: 3

H_D_FS 8237: Youth Cultures and the Cultures of Youth
This course examines the cultural contexts that affect youth from within and outside the family. Students will study social, ethnic, and educational processes that affect youth, and they will examine how history has shaped the current cultural climate of the U.S. Priority given to students in the Great Plains Idea Group master's and certificate programs.
Credit Hours: 3

H_D_FS 8238: Program Design, Implementation and Evaluation
The course will discuss program design, implementation, and outcome evaluation. This course will focus on planning, designing logic models, and evaluating program. Students will evaluate a community-based project.
Credit Hours: 3
Prerequisites: graduate standing required. Priority given to students in the Great Plains Idea Group master's and certificate programs

H_D_FS 8239: Community Youth Development
This course focuses on community youth development from a strength-based or developmental asset approach. This approach encompasses both individual development and interrelationships with social environments. Priority given to students in the Great Plains Idea Group master's and certificate programs.
Credit Hours: 3

H_D_FS 8240: Youth Development
This course introduces the developmental period of adolescence. Emphasis will be on developmental tasks of this life stage and influences of family and home, school, peers and other contextual forces. Priority given to students in the Great Plains Idea Group master's and certificate programs.
Credit Hours: 3

H_D_FS 8251: Perspectives in Gerontology
An overview of current aging issues including the prevailing focus of gerontology theory and research, critical social and political issues in aging, the interdisciplinary focus of gerontology, career opportunities, and aging in the future. Priority given to students in the Great Plains Idea Group master's and certificate programs.
Credit Hours: 3

H_D_FS 8253: Physical Health in Aging
This course identifies the basic physiologic changes during aging and their effects on health and disease. The focus will be on successful aging with special emphasis on physical activity and nutrition. Practical application to community settings is addressed. Priority given to students in the Great Plains Idea Group master's and certificate program.
Credit Hours: 3

H_D_FS 8254: Gerontology Research Methods and Program Evaluation
Overview of program evaluation, research methods and grant writing in gerontology. Includes application of quantitative and qualitative methods in professional settings. Priority given to students in the Great Plains Idea Group master's and certificate programs.
Credit Hours: 3

H_D_FS 8258: Professional Seminar in Gerontology
An integrative experience for gerontology students designed to be taken near the end of the degree program. By applying knowledge gained in earlier course work, students strengthen skills in ethical decision-making behavior, apply these skills in gerontology-related areas such as advocacy, professionalism, family and workplace issues.
Credit Hours: 3

H_D_FS 8300: Advanced Seminar on Multicultural Families
Advanced study of multicultural (racial, ethnic, social) families within American society. Attention is focused on each group's unique cultural heritage and social environment.
Credit Hours: 3
Prerequisites: instructor's consent
H_D_FS 8400: Programs for Young Children
An examination of program models that serve as a framework for curriculum in programs for children birth through age 5.
Credit Hours: 3

H_D_FS 8420: Cognitive Development
(same as PSYCH 8420). Study of the development of reasoning, perception and language.
Credit Hours: 3

H_D_FS 8430: Temperament and Personality Development
(same as PSYCH 8430). Intended for graduate students in psychology and related fields. This course is a survey of theory and research in the area of temperament and personality development, with emphasis on child development. Prerequisite: instructor's consent.
Credit Hours: 3

H_D_FS 8440: Social and Emotional Development
(same as PSYCH 8440). Seminar on emotional and social development in children, with focus on research and theory on the impact of various family, school, and societal factors.
Credit Hours: 3

H_D_FS 8450: Adolescence and Emerging Adulthood
Seminar on development during adolescence and emerging adulthood from biological, cognitive, psychosocial, and cultural perspectives, and with a focus on health-related attitudes and behaviors.
Credit Hours: 3

H_D_FS 8460: Life Course Perspective
Seminar on the life course perspective, an interdisciplinary approach to the study of lives over time and the interplay between human lives and social institutions. Deals with how individual lives are shaped by social change and social structure.
Credit Hours: 3

H_D_FS 8470: Identity Development
Uses an Eriksonian framework to explore research regarding developmental tasks related to identity, such as attachment, self-esteem, moral behavior, achievement, and the formation of an abstract sense of self. Also considers such issues as gender identity, ethnic identity, and sexual identity.
Credit Hours: 3

H_D_FS 8500: Prosocial and Moral Development
The course objective is to increase the understanding of the study of morality from psychological and developmental perspectives and the critical integration of theoretical, methodological, and empirical issues in moral psychology. It will also cover understanding the relevance of moral concepts and findings to other areas of study, policy contexts, and applied settings. Students will provide a written, integrative literature review and research proposal related to the course topic. Graded on A-F basis only.
Credit Hours: 3

Prerequisites: Instructor's consent

H_D_FS 8510: Parenting Education
Study of theories, models, research and skills regarding parenting effectiveness and parent-child relations in the context of Western and Eastern cultures. Included are comparisons of the relative strengths and weaknesses of various parenting approaches, historical perspective on parenthood and children, parenting roles, strategies for contemporary parenting, developmental interaction from infancy through adulthood and selected special concerns of parents. A Bio-Ecological Systems approach will be utilized in this course. Graded on A-F basis only.
Credit Hours: 3

H_D_FS 8520: Lifespan Development
This course covers the human development including the cognitive, social-emotional, motor, language, and moral domains from both a lifespan and a bio-ecological perspective. Course content focuses on the major theories of development as well as current research on the micro-macro interrelationship. Students who complete this course will have a better understanding of individual human developmental processes and their relationship with context and within family and community matters. Graded on A-F basis only.
Credit Hours: 3

H_D_FS 8610: Remarriage & Stepfamilies: Development, Dynamics, & Intervention
The processes of remarriage and reconstituted family dynamics; special developmental needs and intervention models will be studied. The impact on children is considered.
Credit Hours: 3
Prerequisites: instructor's consent

H_D_FS 8620: Work and Family
Study of the interaction between paid labor, unpaid labor, and the American family. Heavy concentration is placed on the roles gender, race, and history play in the workplace and in the home.
Credit Hours: 3
Prerequisites: instructor's consent

H_D_FS 8630: Gendered Relations in Families
(same as WGST 8630). From a feminist perspective, the roles of gender in shaping family life experience and of family life experience in shaping gender will be explored. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: instructor's consent

H_D_FS 8640: Family Interaction
Examination of intrafamilial interaction. Includes an overview of theories used to study family interaction, critical review of the assessment of family interaction; and examination of contemporary research on family interaction focusing on intra and inter-generational relationships.
Credit Hours: 3
Prerequisites: H_D_FS 1600 and H_D_FS 2200 or equivalent; or instructor's consent
H_D_FS 8710: Children, Families and Public Policy  
Seminar on societal issues relating to children and families, with focus on the development of public policies.  
Credit Hours: 3  
Prerequisites: instructor's consent

H_D_FS 8770: Poverty  
Implications of poverty for child, adult, and family functioning. Poverty-related policies and programs.  
Credit Hours: 3

H_D_FS 8960: Readings in Human Development and Family Science  
Readings in recent research; critical evaluation.  
Credit Hour(s): 1-99  
Prerequisites: instructor's consent

H_D_FS 8972: Internship in Human Development and Family Science  
Internships and/or field training experiences under supervision. Graded on S/U basis only.  
Credit Hour(s): 1-99  
Prerequisites: instructor's consent

H_D_FS 9090: Research in Human Development and Family Science  
Independent research leading to thesis or dissertation. Graded on S/U basis only.  
Credit Hour(s): 1-99  
Prerequisites: instructor's consent

H_D_FS 9100: Teaching Practicum  
Supervised experience in teaching various audiences, including college students, professionals, and community residents. Graded on S/U basis only.  
Credit Hours: 2-6  
Prerequisites: instructor's consent

H_D_FS 9130: Writing Research Proposals: Skill Building  
(same as NURSE 9132) This course teaches the components of writing a research proposal for external funding. Graded on S/U basis only  
Credit Hours: 3  
Prerequisites: H_D_FS 9200 and graduate level statistics course; instructor's consent; PhD Students only

H_D_FS 9131: Responsible Conduct of Research in Health and Social Sciences  
(same as NURSE 9131). This course examines professional research ethics including the rights of human subjects. Graded on an S/U basis only.  
Credit Hours: 1  
Prerequisites: instructor's consent

H_D_FS 9200: Advanced Research Methods in Human Development and Family Science  
(same as NURSE 9410). Examination of issues related to the study of individuals and their families: measurement, designs, and interpretation of statistical analyses. Statistics are placed in perspective through readings and discussions of the relationships between theory, research design, and data analyses.  
Credit Hours: 3  
Prerequisites: H_D_FS 8200 or instructor's consent

H_D_FS 9210: Research Practicum in Human Development and Family Science  
Independent research activities in conjunction with faculty. Graded on S/U basis only.  
Credit Hour(s): 2-6  
Prerequisites: instructor's consent

H_D_FS 9400: Macro Social Theory  
(same as SOC_WK 9400). An in-depth examination of human development and social environmental theories appropriate to social welfare practice in formal organizations, interorganizational combinations, communities, and larger political entities. Students may not receive credit for both H_D_FS 9400 and SOC_WK 9400.  
Credit Hours: 3

H_D_FS 9420: Qualitative Methods  
(same as NURSE 9420). Examines the following selected qualitative research approaches appropriate for the study of nursing phenomena and the extension or modification of scientific knowledge so as to be relevant to nursing: case study research methods, verbal qualitative approaches, and nonverbal qualitative approaches. Graded on A-F basis only.  
Credit Hours: 3  
Prerequisites: instructor's consent

H_D_FS 9550: Meta Analysis Research  
(same as NURSE 9550). Examines quantitative synthesis including research questions, search strategies, coding issues, meta-analysis statistical procedures, and interpretation of findings. Emphasizes conceptual understanding and practical methods. Graded on A-F only basis.  
Credit Hours: 3  
Prerequisites: H_D_FS 9200 or graduate level quantitative methods course

H_D_FS 9560: Qualitative Systematic Reviews  
(same as SOC_WK 9560 and NURSE 9560). Examine and carry out elements of qualitative systematic reviews: topic/problem identification, data collection, and analysis. Understand how to limit threats to validity and maximize generalizability.  
Credit Hours: 3  
Prerequisites: H_D_FS 9420 or equivalent

H_D_FS 9700: Social Welfare Policy Seminar  
(same as SOC_WK 9700) Critical examination of comparative models of social policy development; preparation of a professional social work policy analysis in the student's area of interest/specialization.  
Credit Hours: 3
**Industrial And Manufacturing Systems Courses**

**IMSE 1000: Introduction to Industrial Engineering**
Introduction to industrial engineering profession, the Industrial and Manufacturing Systems Engineering department, and the core topics of industrial engineering. Introduction to problem solving, ethics and industrial engineering design and analysis techniques.

**Credit Hours:** 1

**IMSE 1010: Experimental Course**
For freshman-level students. Content and credit to be listed in the Schedule of Courses.

**Credit Hours:** 1-99

**IMSE 1087: Undergraduate Seminar**
Seminars are held monthly to provide a forum for departmental communication of upcoming opportunities (jobs, speakers, deadlines, etc.), speakers from industry to provide educational context, and student interaction. Required every semester of enrollment for graduation. Graded on S/U basis only.

**Credit Hours:** 0

**IMSE 2030: Fundamentals of Systems Design and Analysis**
Develop an understanding of a systems approach to the design and operation of modern industrial organizations: systems structure and function, system specification, structured problem solving and system design methodology.

**Credit Hours:** 3

**IMSE 2110: Probability and Statistics for Engineers**
Introduction to data analysis, probability concepts, random variables, parameter estimation and hypothesis testing.

**Credit Hours:** 3

**Prerequisites:** MATH 1500. Restricted to Engineering Students who are non-IMSE majors

**IMSE 2210: Linear Algebra for Engineers**
Study of quantitative methods necessary for analysis, modeling and design of optimal industrial systems.

**Credit Hours:** 3

**Prerequisites:** MATH 1700

**IMSE 2410: Introduction to Information Technologies**
A survey of current technologies and their use. Different technologies will be reviewed. Examples: web search strategies, common application tools, searching and sorting on the WWW, upcoming trends and directions in information technologies. This is a web-based self-study course with instructor's guidance.

**Credit Hour:** 1

**IMSE 2710: Engineering Economic Analysis**
Fundamentals of engineering economic decision making. Includes time value of money, breakeven analysis, capital budgeting, replacement, after-tax analysis, inflation, risk, sensitivity analysis and multi-attribute analysis.

**Credit Hours:** 3

**Prerequisites:** sophomore standing

**IMSE 2810: Performance Measurement and Ergonomics**

**Credit Hours:** 3

**Prerequisites:** IMSE 2110

**IMSE 3001: Topics in Industrial and Manufacturing Systems Engineering**
Current and new technical developments in industrial engineering. May be repeated to 6 hours.

**Credit Hour:** 0-4

**Prerequisites:** instructor's consent

**IMSE 3030: Manufacturing and Supply Systems**
Provide a structured approach for the design and optimization of a system throughout its lifecycle: techniques following the logical sequence of strategic analysis, system design, implementation, and monitoring.

**Credit Hours:** 3

**Prerequisites:** IMSE 2030

**IMSE 3110: Probability Models for Engineers**
Introduction to probability concept and theory, random variables, discrete and continuous probability distributions, joint probability distributions.

**Credit Hours:** 3

**Prerequisites:** MATH 1500. Restricted to IMSE students only

**IMSE 3810: Ergonomics and Workstation Design**
Ergonomics and human factors theories applied to the design of man-machine systems. Discussion of ergonomic methods for measurement, assessment, and evaluation, with major topics including workstation design, environmental stresses, and workplace safety. Includes lab.

**Credit Hours:** 3

**Prerequisites:** Restricted to IMSE students and ENGINR 1200

**IMSE 3810W: Ergonomics and Workstation Design - Writing Intensive**
Ergonomics and human factors theories applied to the design of man-machine systems. Discussion of ergonomic methods for measurement, assessment, and evaluation, with major topics including workstation design, environmental stresses, and workplace safety. Includes lab.

**Credit Hours:** 3

**Prerequisites:** Restricted to IMSE students and ENGINR 1200
IMSE 4001: Topics in Industrial and Manufacturing Systems Engineering
Current and new technical developments in industrial engineering.
Credit Hours: 3

IMSE 4085: Problems in Industrial Engineering
Supervised investigation in industrial engineering presented in form of an engineering report.
Credit Hour: 1-4

IMSE 4110: Engineering Statistics
Understanding and application of statistical analysis techniques. Emphasis on hypothesis testing, regression analysis, analysis of variance (ANOVA) and design of experiments (DOE).
Credit Hours: 3
Prerequisites: Restricted to IMSE students or by Departmental consent. Grade of C- or better in IMSE 3110

IMSE 4210: Linear Optimization (cross-leveled with IMSE 7210). Theory and application of linear optimization.
Credit Hours: 3
Prerequisites: Restricted to IMSE students. Grade of C- or better in IMSE 2210

IMSE 4220: Optimization Modeling and Computational Methods (cross-leveled with IMSE 7220). Modeling and solution techniques for mathematical optimization, including linear, nonlinear, integer, and stochastic programming. Emphasis on formulation of models for most-efficient use of solution algorithms. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: IMSE 3110, IMSE 4210

IMSE 4230: Operations Research Models
Formulates probabilistic models and determines optimal control policies for queuing and inventory systems. Introduces Markov chains and dynamic programming.
Credit Hours: 3
Prerequisites: Restricted to IMSE students or by Departmental consent. Grade of C- or better in IMSE 2210 and IMSE 3110

IMSE 4280: Systems Simulation
Discrete-event stochastic systems modeling and experimentation using simulation software. Statistical design and analysis including distribution fitting and alternative comparison methodologies.
Credit Hours: 3
Prerequisites: Restricted to IMSE students. INFOTC 1040 or CMP_SC 1050. Grade of C- or better in IMSE 4110

IMSE 4310: Integrated Production Systems Design
Design and operation of production systems, including lean six sigma concepts, just-in-time/kanban, facility layout and material flow issues.
Credit Hours: 3

IMSE 4330: Material Flow and Logistics System Design
Modeling and analysis of structural and operational issues associated with material-flow system design including facility location, warehouse/inventory systems, and distribution/transportation systems.
Credit Hours: 3
Prerequisites: IMSE 4210 and IMSE 4280

IMSE 4350: Production and Operations Analysis
Quantitative methods for forecasting, scheduling, and production control in manufacturing and service systems. Use of Enterprise Resource Planning (ERP) systems.
Credit Hours: 3
Prerequisites: Restricted to IMSE students or by Departmental consent. IMSE 4210 and IMSE 4230

IMSE 4360: Supply Chain Engineering (cross-leveled with IMSE 7360). Modeling and analysis of supply chain network design and management issues including integration of production, inventory control, supplier selection, risk management and logistics network design. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: IMSE 4350

IMSE 4380: Six Sigma Methodology (cross-leveled with IMSE 7380). An overview of the Six Sigma DMAIC methodology for analyzing and improving processes. Requires completing a Six Sigma Green Belt project. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: Grade of C or better in IMSE 2110 or IMSE 4110 or STAT 4710

IMSE 4385: Lean Six Sigma Green Belt Project
Application of the Lean Six Sigma methodology in an industry-based project. Prerequisites: IMSE 4310
Credit Hour: 1

IMSE 4410: Management Information Systems Design
MIS concepts and management issues, HTML for web pages and eShop (front-office operations), back-office operations using relational databases, introduction to SQL.
Credit Hours: 3
Prerequisites: Restricted to IMSE students. INFOTC 1040 or CMP_SC 1050 and junior standing required

IMSE 4420: Web-Based Information Systems
Data models, design of databases using E-R, UML (Access/Oracle), web databases, web servers and interfaces (Visual Basic, JavaScript), E-commerce infrastructure (PDM, STEP, XML), data mining for management information and services.
Credit Hours: 3
Prerequisites: IMSE 4410 and instructor's consent
IMSE 4550: Computer Aided Design and Manufacturing
(cross-leveled with IMSE 7550). Product realization process from design, process planning, to manufacturing. Includes CE, DFS/DFM, CAD, CAPP, CNC, and survey of manufacturing methods.

Credit Hours: 4
Prerequisites: Restricted to IMSE students; Junior Standing

IMSE 4560: Introduction to Rapid Prototyping
(cross-leveled with IMSE 4560). Course covers all five MU systems: FDM, SLS, SLA, Polyjet, 3DP. Students will learn fundamental rapid prototyping and related concepts, and design and produce models from each system. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: Sophomore standing or higher

IMSE 4570: Computer Integrated Manufacturing Control
Implementation of computer integrated manufacturing (CIM) and automation at the shop floor level. Covers essential components of machine sensing and actuation (including programmable robots), information representation and processing, data communication and networking.

Credit Hours: 3
Prerequisites: Junior Standing

IMSE 4580: Industrial Energy Efficiency and Management
(cross-leveled with IMSE 7580). Introduction to the fundamentals of industrial energy efficiency and management. Covers the essential concepts, best practices, management systems and current standards to achieve and improve energy efficiency in industrial settings, and utilizes hands-on experiences involving real assessment and analysis of industrial site visits and projects.

Credit Hours: 3
Prerequisites: IMSE 2030 or instructor's consent

IMSE 4610: Engineering Quality Control
Analysis of quality in manufacturing including control charts, sampling plans, process capability, experimental design; introduction to system reliability. Overview of Six Sigma and DMAIC methodology.

Credit Hours: 3
Prerequisites: Restricted to IMSE students or by Departmental consent

IMSE 4755H: Entrepreneurial Innovation Management: Enterprise Conception-Honors
Develop a new business and technology plan including marketing, finance, engineering, manufacturing, and production concepts in this joint College of Engineering and College of Business course.

Credit Hours: 3
Prerequisites: sophomore standing. Honors eligibility required

IMSE 4760: Entrepreneurial Innovation Management: Enterprise Design
(same as MANGMT 4760). Expand on IMSE 4750 business/technology plan into an operations plan; advertising facilities layout, selling and distribution channels, product designs, accounting procedures, manufacturing processes, and prototypes.

Credit Hours: 3
Prerequisites: IMSE 4750

IMSE 4765H: Entrepreneurial Innovation Management: Enterprise Design-Honors
(same as MANGMT 4765H). Expand on IMSE 4755H business/technology plan into an operations plan; advertising facilities layout, selling and distribution channels, product designs, accounting procedures, manufacturing processes, and prototypes.

Credit Hours: 3
Prerequisites: IMSE 4755H. Honors eligibility required

IMSE 4770: Entrepreneurial Innovation Management: Enterprise Operations
(same as MANGMT 4770). Perform the day-to-day operations for an enterprise by managing all business processes including finance, manufacturing, sales and delivery. Prerequisites: Junior Standing

Credit Hours: 3

IMSE 4775H: Entrepreneurial Innovation Management: Enterprise Operations-Honors
Perform the day-to-day operations for an enterprise by managing all business processes including finance, manufacturing, sales and delivery.

Credit Hours: 3
Prerequisites: Junior Standing. Honors eligibility required

IMSE 4810: Cognitive Ergonomics
(cross-leveled with IMSE 7810). This course will cover the study of empirical research in Cognitive ergonomics and Human-Computer Interaction (HCI). Students will learn cognitive information processing, mental workload, human reliability, and empirical methods in HCI research. Graded on A-F basis only.

Credit Hours: 3
Recommended: Junior or senior level undergraduate students

IMSE 4910: Industrial Engineering Internship
An industry-based learning experience that provides opportunities to apply industrial engineering skills, concepts and theories in a practical context. Requires submission of an internship plan for prior approval and a final oral presentation / written report at the completion of the internship. Graded on A-F basis only.
IMSE 4920: Industrial Engineering COOP
An industry-based learning experience that provides opportunities to apply industrial engineering skills, concepts and theories in a practical context. Requires submission of a COOP plan for prior approval and a final oral presentation / written report at the completion of the COOP. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: instructor and departmental consent
Recommended: junior standing

IMSE 4970: Capstone Design I
Overview of professional engineering issues such as ethics, team dynamics, communication, and project management. Includes team-based industrial assessments to develop skills in problem/opportunity identification. Graded on A-F basis only.

Credit Hour: 1
Prerequisites: Restricted to IMSE students; Senior Standing, IMSE 2030; IMSE 2710

IMSE 4970W: Capstone Design I - Writing Intensive
Overview of professional engineering issues such as ethics, team dynamics, communication, and project management. Includes team-based industrial assessments to develop skills in problem/opportunity identification. Graded on A-F basis only.

Credit Hour: 1
Prerequisites: Restricted to IMSE students; Senior Standing, IMSE 2030; IMSE 2710

IMSE 4980: Capstone Design II
Industry-based team design experience structured to integrate material presented throughout the Industrial and Manufacturing Systems Engineering curriculum. Must immediately follow IMSE 4970.

Credit Hours: 3
Prerequisites: Restricted to IMSE student; IMSE 3810, IMSE 4310, and IMSE 4970

IMSE 4980W: Capstone Design II - Writing Intensive
Industry-based team design experience structured to integrate material presented throughout the Industrial and Manufacturing Systems Engineering curriculum. Must immediately follow IMSE 4970.

Credit Hours: 3
Prerequisites: Restricted to IMSE student; IMSE 3810, IMSE 4310, and IMSE 4970

IMSE 4990: Undergraduate Research in Industrial Engineering
Independent investigation or project in industrial engineering. May be repeated to 6 hours.

Credit Hour: 0-6

IMSE 4995: Undergraduate Research Industrial Engineering - Honors
Independent investigation or project in industrial engineering. May be repeated to 6 hours. Enrollment limited to receiving departmental honors.

Credit Hour: 0-6
Prerequisites: Restricted to IMSE students only

IMSE 7001: Topics in Industrial and Manufacturing Systems Engineering
Current and new technical developments in industrial engineering.

Credit Hours: 3

IMSE 7110: Engineering Statistics
Understanding and application of statistical analysis of techniques. Emphasis on hypothesis testing, regression analysis, analysis of variance (ANOVA) and design of experiments (DOE).

Credit Hours: 3
Prerequisites: grade of C- or better in IMSE 3110

IMSE 7210: Linear Optimization
(cross-leveled with IMSE 4210). Theory and application of linear optimization.

Credit Hours: 3
Prerequisites: IMSE 2210

IMSE 7220: Optimization Modeling and Computational Methods
(cross-leveled with IMSE 4220). Modeling and solution techniques for mathematical optimization, including linear, nonlinear, integer, and stochastic programming. Emphasis on formulation of models for most-efficient use of solution algorithms. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: IMSE 3110, IMSE 4210

IMSE 7230: Operations Research Models
Formulates probabilistic models and determines optimal control policies for queuing and inventory systems. Introduces Markov chains and dynamic programming.

Credit Hours: 3

IMSE 7280: Systems Simulation
Discrete-event stochastic systems modeling and experimentation using simulation software. Statistical design and analysis including distribution fitting and alternative comparison methodologies. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: grade of C- or better in IMSE 4110, INFOTC 1040 or CMP_SC 1050

IMSE 7310: Integrated Production Systems Design
Design and operation of production systems, including lean production concepts, just-in-time / kanban, facility layout and material flow issues.

Credit Hours: 3
Prerequisites: IMSE 4210, IMSE 4280
IMSE 7330: Material Flow and Logistics System Design
Modeling and analysis of structural and operational issues associated with material-flow system design including facility location, warehouse/inventory systems, and distribution/transportation systems.
Credit Hours: 3
Prerequisites: IMSE 4210, IMSE 4280

IMSE 7350: Production and Operations Analysis
Quantitative methods for forecasting, scheduling, and production control in manufacturing and service systems. Use of Enterprise Resource Planning (ERP) systems.
Credit Hours: 3
Prerequisites: IMSE 4210 and IMSE 4230

IMSE 7360: Supply Chain Engineering
(cross-leveled with IMSE 4360). Modeling and analysis of supply chain network design and management issues including integration of production, inventory control, supplier selection, risk management and logistics network design. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: IMSE 4350

IMSE 7380: Six Sigma Methodology
(cross-leveled with IMSE 4380). An overview of the Six Sigma DMAIC methodology for analyzing and improving processes. Requires completing a Six Sigma Green Belt project. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: Grade of C or better in IMSE 2110 or IMSE 4110 or STAT 4710

IMSE 7385: Lean Six Sigma Green Belt Project
Application of the Lean Six Sigma methodology in an industry-based project.
Credit Hour: 1
Prerequisites: IMSE 4310

IMSE 7410: Management Information Systems Design
MIS concepts and management issues, HTML for web pages and eShop (front office operation), back-office operations using relational databases, introduction for SQL. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: INFOTC 1040 or CMP_SC 1050

IMSE 7420: Web-Based Information Systems
Data models, design of databases using E-R, UML (Access/Oracle), web databases, web servers and interfaces (Visual Basic, JavaScript), e-commerce infrastructure (PDM, STEP, XML), data mining for management information and services.
Credit Hours: 3
Prerequisites: IMSE 4410 and instructor's consent

IMSE 7550: Computer Aided Design and Manufacturing
(cross-leveled with IMSE 4550). Product realization process from design, process planning, to manufacturing. Includes CE, DFS/DFM, CAD, CAPP, CNC, and survey of manufacturing methods.
Credit Hours: 4

IMSE 7560: Introduction to Rapid Prototyping
(cross-leveled with IMSE 4560). Course covers all five MU systems: FDM, SLS, SLA, Polyjet, 3D. Students will learn fundamental rapid prototyping and related concepts, and design and produce models from each system. Graded on A-F basis only.
Credit Hours: 3

IMSE 7570: Computer Integrated Manufacturing Control
Implementation of computer integrated manufacturing (CIM) and automation at the shop floor level. Covers essential components of machine sensing and actuation (including programmable robots), information representation and processing, data communication and networking.
Credit Hours: 3

IMSE 7580: Industrial Energy Efficiency and Management
(cross-leveled with IMSE 4580). Introduction to the fundamentals of industrial energy efficiency and management. Covers the essential concepts, best practices, management systems and current standards to achieve and improve energy efficiency in industrial settings, and utilizes hands-on experiences involving real assessment and analysis of industrial site visits and projects.
Credit Hours: 3
Prerequisites: IMSE 2030 or instructor's consent

IMSE 7610: Engineering Quality Control
Analysis of quality in manufacturing including control charts, sampling plans, process capability, experimental design; introduction to system reliability. Overview of Six Sigma and DMAIC methodology.
Credit Hours: 3
Prerequisites: IMSE 4110 or IMSE 7110

IMSE 7750: Entrepreneurial Innovation Management: Advanced Enterprise Conception
Develop a new business and technology plan (including marketing, finance, engineering, manufacturing, and production concepts) in this joint College of Engineering/College of Business course.
Credit Hours: 3

IMSE 7760: Entrepreneurial Innovation Management: Advanced Enterprise Design
Expand on IMSE 7750 business and technology plan into a business operation plan: advertising designs, facilities layout, selling and distribution channels, product designs, accounting procedures, manufacturing processes, and product prototypes.
Credit Hours: 3
Prerequisites: IMSE 7750

IMSE 7770: Entrepreneurial Innovation Management: Advanced Enterprise Execution

</table>

**IMSE 8220: Nonlinear Optimization**

Introduces computational non-linear mathematical programming procedures their use in solving complex industrial systems design problems.

**Credit Hours:** 3  
**Prerequisites:** IMSE 4210 or IMSE 7210

**IMSE 8230: Operations Research-Stochastic Models**

Theory and applications of stochastic processes; includes continuous time Markov chains, Markov decision process, queueing theory, and stochastic manufacturing systems.

**Credit Hours:** 3  
**Prerequisites:** IMSE 4210 or IMSE 7210

**IMSE 8280: Advanced Systems Simulation**

Theory and practice of dynamic modeling and statistical experimentation.

**Credit Hours:** 3  
**Prerequisites:** IMSE 4280

**IMSE 8310: Advanced Integrated Production Systems**

Advanced study of the design and operation of flow shop, job shop, and cell-based production systems, including scheduling, layout and material flow issues.

**Credit Hours:** 3  
**Prerequisites:** IMSE 4310 or IMSE 7310

**IMSE 8370: Supply Chain Modeling and Analysis**

Theory and application of supply chain networks, integration of production and inventory control methods.

**Credit Hours:** 3  
**Prerequisites:** IMSE 8210, IMSE 8230

**IMSE 8410: Advanced Management Information Systems Design**

Develops requirements for management information, staffing, cost estimating, evaluation, and the design of management communication systems; includes case studies.

**Credit Hours:** 3  
**Prerequisites:** IMSE 4410

**IMSE 8550: Advanced CAD/CAM**

Covers the state-of-the-art in CAD/CAM and explores the latest developments, residual problems, and new direction in CAD/CAM. Includes sculptured surface modeling, rapid prototyping and manufacturing, integrated process planning, shape analysis, machine intelligence.

**Credit Hours:** 3  
**Prerequisites:** IMSE 4550 or IMSE 7550

**IMSE 8610: Advanced Quality Systems**

Advanced process control charts, empirical model-building, fractional factorial designs and Taguchi techniques as tools for process and
product improvement, professional ethics in quality management; TQM and ISO 9000.

**Credit Hours:** 3  
**Prerequisites:** IMSE 4610, IMSE 8110

---

**IMSE 8730: Strategic Enterprise Management**  
Topics including enterprise strategies, process and content models, strategy implementation, value chain analysis, business processes, systems engineering approaches, business process reengineering, and dynamic systems modeling.  
**Credit Hours:** 3

---

**IMSE 8810: Human Factors**  
Human factors inputs, outputs and environment and their influence on design and evaluation of man and machine systems.  
**Credit Hours:** 3

---

**IMSE 8850: Health Care Systems Design and Analysis**  
Health care systems design principles and major problems, basic organization within health care system, alternative system design strategies, factors affecting design process success.  
**Credit Hours:** 3

---

**IMSE 8990: Research-Masters Thesis in Industrial Engineering**  
Independent investigation in field of industrial engineering to be presented as a thesis. Graded on S/U basis only.  
**Credit Hour:** 1-99

---

**Information Science And Learning Technologies Courses**

**IS_LT 1111: Information Use and Student Success**  
In this course, students will learn to frame meaningful questions, gain knowledge and skills to succeed academically, understand the structure and content of information resources, evaluate information, and use information resources as genuine learning tools.  
**Credit Hour:** 1

**IS_LT 1111H: Information Use and Student Success - Honors**  
In this course, students will learn to frame meaningful questions, gain knowledge and skills to succeed academically, understand the structure and content of information resources, evaluate information, and use information resources as genuine learning tools. Honors eligibility required  
**Credit Hour:** 1

---

**IS_LT 4310: Seminar in Information Science and Learning Technologies**  
Discussion and critical study of current developments in the field of information science and learning technologies.  
**Credit Hour:** 1-3

---

**IS_LT 4356: Interactive Web Design with JavaScript**  
(cross-leveled with IS_LT 7356). The purpose of this course is to provide students with opportunities to explore, use, and synthesize various JavaScript frameworks, user interface and visualization libraries, and plugins while creating interactive user experiences with HTML5, JavaScript animation, and mobile platforms. The course will cover topics like interactive photo galleries, mobile Web design, animation, user interactivity, jQuery, and development environments.  
**Credit Hours:** 3  
**Prerequisites:** IS_LT 4370

---

**IS_LT 4360: Introduction to Web Development**  
Basic web design and HTML. Covers file transfer and UNIX/LINUX servers management. Develops understanding of web graphic formats. Emphasizes user interface, navigation, and instructional design in building web sites. Online. Graded on A-F basis only.  
**Credit Hours:** 3

---

**IS_LT 4361: Introduction to Digital Media**  
(cross-leveled with IS_LT 7361). Hands-on approach to multimedia production techniques. Develops understanding of technical and conceptual tools for the basics of digital media, video editing, still image and audio file manipulation. Students create web portfolio to present their digital products. Graded on A-F basis only.  
**Credit Hours:** 3
students will obtain knowledge of mobile web app development including functions using HTML 5, JavaScript, and CSS3. Through this course, students with knowledge necessary to create a mobile app with basic components of Canvas from an instructor's perspective. Graded on A-F basis only.

Credit Hours: 1

IS_LT 4371: Exploring Sakai
(cross-leveled with IS_LT 7371). This course will prepare students to work within the Sakai Learning Management System (LMS) to set up and manage an online course. Students in this course will investigate and manipulate components of Sakai from an instructor's perspective. Graded on A-F basis only.

Credit Hours: 1

IS_LT 4372: Exploring Blackboard
(cross-leveled with IS_LT 7372). This course will prepare students to work within the Blackboard (BB) Learning Management System (LMS) to set up and manage an online course. Students in the course will investigate and manipulate components of Blackboard from an instructor's perspective. Graded on A-F basis only.

Credit Hours: 1

IS_LT 4373: Exploring Moodle
(cross-leveled with IS_LT 7373). This course will prepare students to work within the Moodle Learning Management System (LMS) to set up and manage an online course. Students in the course will investigate and manipulate components of Moodle from an instructor's perspective. Graded on A-F basis only.

Credit Hours: 1

IS_LT 4374: Exploring Canvas
(cross-leveled with IS_LT 7374). This course will prepare students to work within the Canvas Learning Management System (LMS) to set up and manage an online course. Students will investigate and manipulate components of Canvas from an instructor's perspective. Graded on A-F basis only.

Credit Hours: 1

IS_LT 4375: Mobile Web App Development
(cross-leveled with IS_LT 7375). The purpose of this course is to provide students with knowledge necessary to create a mobile app with basic functions using HTML 5, JavaScript, and CSS3. Through this course, students will obtain knowledge of mobile web app development including both design and development phases. Upon the completion of this course, students will produce a mobile web app that can be operated via a mobile device. Graded on A-F basis only. Recommended: Students must be able to hand code: html, Styling and positioning web pages using CSS & JavaScript, and JavaScript basic functions.

Credit Hours: 3
Prerequisites: IS_LT 4370 or permission of instructor

IS_LT 4384: Designing Games for Learning
(cross-leveled with IS_LT 7384). Learn why games can be useful in learning and how to design them. Play some exemplary games that will help you understand the mechanics of game design and work incrementally towards designing and developing your own educational game prototype via game modifications ("mods"), engaging in gaming communities, evaluating existing games, building learning plans using games and learning the basics of a simple gaming shell language. Graded on A-F basis only.

Credit Hours: 3

IS_LT 4467: Technology to Enhance Learning
This course is designed for undergraduates in the teacher education program. Emphasis is placed on strategies for integrating technology into the teaching and learning process, with a focus on enhancing how students think rather than what they think. Special attention given to supporting higher order thinking and problem solving with technology. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: Consent required (students must be admitted to College of Education's Teacher Education program)

IS_LT 7301: Introduction to Information Technology
The nature of information and information transfer in the institutional setting; covers the culture of information in society, standards for information processing and transfer, and networking in communications perspectives of information providing agencies.

Credit Hours: 3

IS_LT 7302: Organization of Information
An overview of the research that addresses information-seeking behavior and the history, background, and development of catalogs and indexes.

Credit Hours: 3

IS_LT 7305: Foundations of Library and Information Science
An introduction to the background, contexts, organizations, issues, ethics, values, and terms of information science, the information professions, and the library as an idea, space, institution, and repository of the cultural record.

Credit Hours: 3

IS_LT 7310: Seminar in Information Science and Learning Technology
Discussion and critical study of current developments in the field of information science and learning technologies.

Credit Hour: 1-3
**IS_LT 7312: Principles of Cataloging and Classification**

**Credit Hours:** 3  
**Prerequisites:** IS_LT 7305

---

**IS_LT 7313: Collection and Access Management**
Selection of materials for libraries and information agencies, policies for collection management, freedom and diversity of information, access to information and evaluation of collections and access.

**Credit Hours:** 3

---

**IS_LT 7314: Reference Sources and Services**
General reference sources with emphasis on print sources. Principles, developments and trends in reference services and reference service organization.

**Credit Hours:** 3

---

**IS_LT 7315: Management of Information Agencies**
Concepts of management applied to libraries and information systems; management tools, programming, models and simulation in an environment of an information producing or disseminating agency.

**Credit Hours:** 3

---

**IS_LT 7320: Emerging Technologies in Libraries**
Critically examines web technologies, devices, and methods used to access collections and services, promote social interaction, and facilitate communication. Focuses on new and emerging software, resources, and communication methods including their discovery and implementation. Graded on A-F basis only.

**Credit Hours:** 3

---

**IS_LT 7334: Library Information Systems**
Focuses on the automated library systems marketplace. Covers integrated online library systems from the systems, functional and user perspective. Includes management approaches for procurement and operation of such systems.

**Credit Hours:** 3

---

**IS_LT 7356: Interactive Web Design with JavaScript**
(cross-leveled with IS_LT 4356). The purpose of this course is to provide students with opportunities to explore, use, and synthesize various JavaScript frameworks, user interface and visualization libraries, and plugins while creating interactive user experiences with html5, JavaScript animation, and mobile platforms. The course will cover topics like interactive photo galleries, mobile Web design, animation, user interactivity, jQuery, and development environments.

**Credit Hours:** 3  
**Prerequisites:** IS_LT 4370 or IS_LT 7370

---

**IS_LT 7357: Web Application Development I**
Students learn to develop Web applications to support online learning and collaboration using ASP.Net, PHP, or Java. In this course students will learn fundamental Web programming principles and develop web applications. Specific concepts taught in this course include: reading and writing files to a server, interacting with users through web forms, storing and retrieving data in relational databases (MS SQL, MySQL, or Oracle), objected-oriented programming, and web application security.

**Credit Hours:** 3  
**Prerequisites:** Intermediate Web Development

---

**IS_LT 7358: Web Application Development II**
Building on Web Application Development I, this course covers advanced Web programming techniques and focuses on developing Web-based learning applications. With intensive programming, students will analyze and learn how the applications in existing learning environments operate and interact, and then develop learning applications of their own. Specific concepts covered in this course include task analysis, algorithms, APIs, user rights and permissions, data integrity, flexible design, code documentation, Web Services, Web for mobile handheld devices or Ajax.

**Credit Hours:** 3  
**Prerequisites:** Web Application Development I

---

**IS_LT 7360: Introduction to Web Development**
Basic web design and HTML. Covers file transfer and UNIX/LINUX servers management. Develops understanding of web graphic formats. Emphasizes user interface, navigation, and instructional design in building web sites. Online. Graded on A-F basis only.

**Credit Hours:** 3

---

**IS_LT 7361: Introduction to Digital Media**
(cross-leveled with IS_LT 4361). Hands-on approach to multimedia production techniques. Develops understanding of technical and conceptual tools for the basics of digital media, video editing, still image and audio file manipulation. Students create web portfolio to present their digital products. Graded on A-F basis only.

**Credit Hours:** 3

---

**IS_LT 7364: Flash Authoring**
Plan, develop, and evaluate a multimedia project using digital authoring software (Macromedia Flash). Emphasizes scripting and user interface issues for web-based animations. Course is production-based. Graded on A-F basis only.

**Credit Hours:** 3

---

**IS_LT 7366: Technology Leadership in Schools**
Develop skills, knowledge, and values needed to provide leadership in schools. Analyzes characteristics of effective leaders, focusing on staff development. Explores technology and school reform, technology integration, and current issues. Online. Graded on A-F basis only.

**Credit Hours:** 3

---

**IS_LT 7368: Technology Across the Curriculum**
The emphasis in this course is on using technologies to enhance and support student collaboration and learning in K-23 classrooms.
Credit Hours: 3
Prerequisites: admission to the Teaching Fellowship Program

**IS_LT 7370: Intermediate Web Development**
(cross-leveled with IS_LT 4370). Development of design and web authoring skills. Topics include CSS, HTML, web interactivity through the use of JavaScript, Dreamweaver and usability practices. Upon completion, students will be ready to create high-impact and highly functional web pages.

Credit Hours: 3
Prerequisites: IS_LT 7360 or instructor’s consent

**IS_LT 7371: Exploring Sakai**
(cross-leveled with IS_LT 4371). This course will prepare you to work within the Sakai Learning Management System (LMS) to set up and manage an online course. As a student in this course you will investigate and manipulate components of Sakai from an instructor's perspective. Graded on A-F basis only.

Credit Hour: 1

**IS_LT 7372: Exploring Blackboard**
(cross-leveled with IS_LT 4372). This course will prepare you to work within the Blackboard Learning Management System (LMS) to set up and manage an online course. As a student in the course, you will investigate and manipulate components of Blackboard from an instructor's perspective. Graded on A-F basis only.

Credit Hour: 1

**IS_LT 7373: Exploring Moodle**
(cross-leveled with IS_LT 4373). This course will prepare you to work within the Moodle Learning Management System (LMS) to set up and manage an online course. As a student in this course, you will investigate and manipulate components of Moodle from an instructor's perspective. Graded on A-F basis only.

Credit Hour: 1

**IS_LT 7374: Exploring Canvas**
(cross-leveled with IS_LT 4374). This course will prepare students to work within the Canvas Learning Management System (LMS) to set up and manage an online course. Students will investigate and manipulate components of Canvas from an instructor’s perspective. Graded on A-F basis only.

Credit Hour: 1

**IS_LT 7375: Mobile Web App Development**
(cross-leveled with IS_LT 4375). The purpose of this course is to provide students with knowledge necessary to create a mobile app with basic functions using HTML 5, JavaScript, and CSS3. Through this course, students will obtain knowledge of mobile web app development including both design and development phases. Upon the completion of this course, students will produce a mobile web app that can be operated via a mobile device. Graded on A-F basis only. Recommended: Students must be able to hand code: html, Styling and positioning web pages using CSS & JavaScript, and JavaScript basic functions.

Credit Hours: 3

**Prerequisites: IS_LT 4370 or IS_LT 7370 or permission of instructor**

**IS_LT 7378: Electronic Portfolio Development**
This course provides an overview of electronic portfolio development. Students will select, categorize and document their accomplishments in the Technology in Schools emphasis area for review and assessment. Students will demonstrate mastery of the ISTE Standards and commitment to ongoing learning. Web development skills are required.

Credit Hours: 3
Prerequisites: Restricted to students admitted into the Technology in Schools emphasis

**IS_LT 7380: School Library Practicum**
Directed, project-based experience in school libraries.

Credit Hour: 1-3
Prerequisites: admission to MA, initial certification or 24 completed LIS credit hours taken at MU; instructor’s consent

**IS_LT 7381: Practicum in Information Agencies**
Provides a supervised work experience for master's degree students in a public, academic, or special library. Graded on S/U basis only.

Credit Hour: 1-3
Prerequisites: IS_LT 7301, IS_LT 7302 or IS_LT 7312, IS_LT 7314, IS_LT 7315

**IS_LT 7383: Rapid Development Tools for Online Learning**
Students will apply principles of rapid development and use rapid development tools to create a prototype of an e-learning module that uses technology features that can enhance learning (e.g. learner interactions). Specific competencies include: Storyboard and “rapidly” develop an e-learning module using software designed to support this process; Use software tools that develop specific elements of e-learning (e.g. video, animation, gaming), and incorporate those elements into an e-learning module; Evaluate rapidly developed e-learning products; Compare and contrast features of rapid development software packages. Graded on A-F basis only.

Credit Hours: 3

**IS_LT 7384: Designing Games for Learning**
(cross-leveled with IS_LT 4384). Learn why games can be useful in learning and how to design them. Play some exemplary games that will help you understand the mechanics of game design and work incrementally towards designing and developing your own educational game prototype via game modifications (“mods”), engaging in gaming communities, evaluating existing games, building learning plans using games and learning the basics of a simple gaming shell language. Graded on A-F basis only.

Credit Hours: 3

**IS_LT 9085: Problems in Information Science and Learning Technology**
Independent, directed study on a topic in the areas of information science and learning technologies.

Credit Hour: 1-99
Prerequisites: departmental consent
IS_LT 9090: Research in Information Science and Learning Technologies
Dissertation research. Graded on S/U basis only.
Credit Hour: 1-99
Prerequisites: Doctoral Committee Chair's consent

IS_LT 9407: Intellectual Freedom and Its Discontents
The course examines principles and contradictions of intellectual freedom and their relation to librarianship. The nature of free speech, the First Amendment, sources of censorship, and professional disputes about intellectual freedom practice in libraries will be important topics.
Credit Hours: 3

IS_LT 9408: Information Policy
Examination of the roles of private and public sectors in information policy formation. Includes consideration of social, economic, political and technological issues.
Credit Hours: 3

IS_LT 9409: Seminar in Digital Libraries
This course is a project-based learning environment that combines Instructor-prepared content, group-based student projects, and threaded asynchronous discussions on selected topics relating to the design, development, and implementation of practical digital libraries. Research directives within the broad domain of digital library development are also covered.
Credit Hours: 3

IS_LT 9410: Seminar in Information Science and Learning Technology
Discussion and critical study of current developments in information science and learning technologies.
Credit Hour: 1-3

IS_LT 9411: Doctoral Seminar in Information Science and Learning Technologies
Discussion and critical study of current developments in information science and learning technologies. Graded on A-F basis only.
Credit Hour: 1-3

IS_LT 9412: Information Storage and Retrieval
Introduces students to concepts and terminology associated with the storage and retrieval of bibliographic information. Emphasizes design of applied database management systems.
Credit Hours: 3

IS_LT 9413: Electronic Resource Management
This course explores electronic resources (primarily subscription journals and databases) in terms of products, pricing, in-house management of resources, both technical and organizational, licensing, configuring databases and organizing websites for the end user, statistical reporting, and future trends.
Credit Hours: 3

IS_LT 9417: Technology Action Research
Study of concepts associated with action research; and the processes and procedures for conducting action research. Culminating project is the development of an action research project.
Credit Hours: 3
Prerequisites: 12 credit hours completed prior to enrolling

IS_LT 9419: American Library History
Students in this course will learn about the history of libraries in America, reading about and analyzing the political, cultural, and social roles of particular libraries and the library as an institution. Graded on A-F basis only.
Credit Hours: 3

IS_LT 9420: Scholarly Communication
Exploration of the production and communication of information and knowledge in the disciplines.
Credit Hours: 3

IS_LT 9421: Usability of Information Systems and Services
Introduction to concepts and methods of usability testing and research and user-centered design strategy. Course takes a process approach to define target audiences and usability problems, create and administer investigative procedures, analyze results, and report findings effectively. Graded on A-F basis only.
Credit Hours: 3

IS_LT 9423: Ethics, Data, and Information
Critical inquiry into perennial and emerging issues in the ethics of data and information.
Credit Hour: 1-3

IS_LT 9427: Social Constructs of Information
This course focuses on information as it is used, and defined, by society. The primary lens, or theoretical background, used in this investigation is the notion of "cultural hegemony," proposed by Antonio Gramsci. We will study the complex relationship between information and society, looking at how each is a reflection and shaper of the other. The relationship of libraries and other information agencies to the state, and the role of information professionals in the political and cultural spheres are central themes in the course. Graded on A-F basis only.
Credit Hours: 3

IS_LT 9428: History of Books and Media
Examines the history and philosophy of books and media from the beginnings of writing to the Internet, emphasizing the effects of changes in communication and information technologies. The focus is on the social, cultural, intellectual, scientific, and religious impacts of shifts in the media for preserving and transmitting information. Graded on A-F basis only.
Credit Hours: 3
IS_LT 9429: Metadata
Explores principles, standards, and schema for metadata in diverse online environments to facilitate information retrieval and use. Graded on A-F basis only.

Credit Hours: 3

IS_LT 9431: Children’s Library Materials
Evaluation and selection of materials for children birth-age 13 (Grade 6). Early literacy, emergent readers, reader response theory; social, cultural contexts of readers and reading, trends in publishing.

Credit Hours: 3

IS_LT 9432: Online Searching
Search strategies and techniques for commercial online databases. The course first covers the basic concepts of online information retrieval and then focuses on selection and online searching in the most prominent social science, science, humanities, and numerical databases.

Credit Hours: 3

Prerequisites: IS_LT 4301 or IS_LT 7301 and IS_LT 4314 OR IS_LT 7314

IS_LT 9433: Youth Services in Libraries
Examines physical, mental, and emotional development of youth birth through high school. Emphasis on community analysis, outreach services, program design and techniques. Graded on A-F basis only.

Credit Hours: 3

IS_LT 9434: Teen Library Materials
Evaluation, selection of print, alternate formats for teens, 13-18 (Grades 7-12). Personal, social, popular culture contexts of teen readers and texts; emphasizes reader response; challenges common assumptions about teens and reading.

Credit Hours: 3

IS_LT 9435: Adult Services in Libraries
Library services to adults, including special populations. Emphasis on information needs of adults, organization and management of adult services.

Credit Hours: 3

IS_LT 9437: Reader Advisory Services
Examination of value and role of leisure reading and leisure reading materials. Coverage of reader advisory techniques, support processes, and resources for providing reader advisory services to various audiences. Graded on A-F basis only.

Credit Hours: 3

IS_LT 9438: Marketing and Libraries
This course provides an introduction to marketing - concepts, planning, strategies and evaluation - as related to libraries and information agencies. Graded on A-F basis only.

Credit Hours: 3

IS_LT 9439: Digital Humanities and Information
This course on history, philosophy, and methods in the emerging field of 'digital humanities' focuses on topics at the nexus of information, the humanities disciplines, technology, and culture, as well as the contexts of the academy, libraries/archives, museums, and media. Graded on A-F basis only.

Credit Hours: 3

IS_LT 9440: Learning with Web-based Technologies
Explores the potential of the Internet to support inquiry-based learning through collaborative activities, research, and authoring/publishing. Investigates goals and methods of online learning. Examines learning theories and models of teaching/learning in relation to selected Internet activities for K-12, undergraduate students and learners in other fields outside education (e.g., work placed learning, non-formal learning).

Credit Hours: 3

IS_LT 9443: The Academic Library
Development, objectives, organization and structure, nature of the collections and responsibility for their development, philosophy of library services, measurement and standards of library effectiveness.

Credit Hours: 3

IS_LT 9444: The Public Library
An overview of public library history, missions, and societal roles. Includes public library funding, organization, and management.

Credit Hours: 3

IS_LT 9445: Special Libraries and Information Centers
Goals of special librarianship including information provision, management styles. Library functions as performed in special libraries. Contributions of special libraries, such as information analysis centers, information brokering, and accountability for and evaluation of services.

Credit Hours: 3

IS_LT 9446: International and Comparative Librarianship
International libraries, intercultural information concerns, how information agencies differ between nations and global information issues. Course presents various countries, their information infrastructures and the influence of information and communication technologies.

Credit Hours: 3

IS_LT 9447: Human Centered Design
This course provides an overview to the Human Computer Interaction (HCI) field while focusing on the use and adaptation of existing HCI theories and research to a range of interface design problems. The course points the way to acquiring continuing information on the field and also provides groundwork for understanding future applied research papers in the field. Graded on A-F basis only.

Credit Hours: 3

IS_LT 9449: Services for Business Communities and Entrepreneurs
The course covers the introduction to and application of basic concepts of business information in academic, public and special libraries.
environments, and the information searching techniques used for
specific business information needs (finding company information,
industry information, investment information, statistical information,
marketing information, etc.) Course includes service to entrepreneurs.
Content covers company, investment, industry, statistical and marketing
information and includes use of GIS systems.

**Credit Hours: 3**

**IS_LT 9450: Introduction to Research in Library and Information
Science**
Examination of the nature, utility, and methodologies of research in the
profession. Emphasis is on understanding and evaluating potential and
actual research.

**Credit Hours: 3**

**IS_LT 9452: Information Literacy and Instruction**
This course is designed to prepare Library Science students/Information
professionals for the variety of teaching situations they will encounter in
library and information agency settings. Students will consider learning
time, applicable and practical course covering the foundations of
copyright, fair use, e-reserves, related laws including DMCA and TEACH
and managing copyright in the public and school environments.

**Credit Hours: 3**

**IS_LT 9453: Planning and Evaluation of Information Services**
The course focuses on the complexity of the planning process in
libraries and other information agencies, including the influence of
external environments (upper administrations, user communities,
information producers) on planning. Internal elements of the organization
(staffing, services, finances) are discussed, as are external elements
(requirements of a parent organization, legal constraints, etc.). The role
of evaluation of personnel, budgets, facilities, access to information, and
services is integrated into the process of providing service.

**Credit Hours: 3**

**IS_LT 9454: Copyright in Libraries**
An introductory and practical course covering the foundations of
copyright, fair use, e-reserves, related laws including DMCA and TEACH
and managing copyright in the public and school environments.

**Credit Hours: 3**

**IS_LT 9455: Formative and Summative Evaluation**
Study of the process of gathering data and making judgments about the
effectiveness of instructional programs that uses technology. Covers
techniques of a formative evaluation process to revise instruction.
Culminating project is planning and conducting a portion of a summative
evaluation of instructional program.

**Credit Hours: 3**

**IS_LT 9456: Designing Computer Support for Collaborative Learning**
Students will examine the theoretical bases for using collaboration and
social interaction as methods for learning, and learn key methods and
approaches for designing computer supported collaborative learning.
Graded A-F only.

**Credit Hours: 3**

**IS_LT 9457: Designing Computer Support for Cooperative Work**
Study of the tools and methods of groupware and communities of
practice, including their psychological, social and organizational effects.
Students focus on designing and developing improved tools and
methods. Graded on A-F basis only.

**Credit Hours: 3**

**IS_LT 9458: Technology and Assessment**
Learn how to assess specific types of knowledge, using technology to
enhance the process. Topics include use of tools/strategies for data
collection to guide instructional decision-making and investigating
technologies to improve assessment of student learning. Emphasis on
aligning learning objectives, activities, and assessments and developing
performance assessments to measure higher-order thinking. Graded on
A-F basis only.

**Credit Hours: 3**

**IS_LT 9461: Interaction Design**
Students will learn the basic concepts of interaction design, then focus
on usability engineering and prototyping principles to support the design
process for learning and performance based technologies.

**Credit Hours: 3**

**IS_LT 9466: Learning Analytics**
Learning Analytics (LAK) addresses the questions of how people learn
together and how computers can participate with and augment that
learning. LAK researchers address the socio-technical aspects of how
technology mediates learning practices. Graded on A-F basis only.

**Credit Hours: 3**

**IS_LT 9467: Technology to Enhance Learning**
Strategies for integrating technology into the teaching and learning
process, with a focus on enhancing how students think rather than what
they think. Special attention given to supporting higher order thinking and
problem solving with technology.

**Credit Hours: 3**

**IS_LT 9468: Learning and Task Analysis**
Multiple methods for conducting task analysis for learning to identify
learning processes, learning topics, and learning experiences, including
procedural, prerequisites, cognitive simulations, case libraries,
environmental analysis, and decision making.

**Credit Hours: 3**

**IS_LT 9469: Designing Electronic Performance Support Systems**
Performance support systems (PSS) are technology systems that support
human activity within the complexities of organizational requirements and
processes. Students build competency for designing PSS.

**Credit Hours: 3**
IS_LT 9471: Instructional Systems Design
Develop knowledge and skills related to the systematic design of instruction. Learn to analyze, design, develop, implement, and evaluate learning systems and instruction. Identify appropriate technologies to support learning and explore alternative models of instructional design.
Credit Hours: 3
Prerequisites: instructor's consent
Recommended: course in Curriculum or Instruction

IS_LT 9472: Designing and Modeling Systems
Examination of living systems, general systems theory, and the art and practice of the learning organization.
Credit Hours: 3

IS_LT 9473: Project Management
This course introduces the learner to the necessary and practical project management concepts and skills that lead to reductions in project cycle time while maintaining control over budget, resources, risk, and delivered value. This course proposes to integrate practical project management skills within the project management lifecycle (i.e., initiating, planning, executing, controlling, and closing).
Credit Hours: 3

IS_LT 9474: Front End Analysis of Systems
Develop skills for systematically analyzing learning, or other types of systems, that need to be improved. Develop data collection instruments (e.g., surveys, observation protocols, interviews); analyze secondary data; analyze tasks or activities in the system, and interpret data to make recommendations for system improvement. Skills will be learned by doing and applying to real systems that need improvement.
Credit Hours: 3

IS_LT 9475: Diffusion of Educational Innovations
In-depth analysis of innovation development and adoption processes in educational organizations, including schools, universities, and training centers.
Credit Hours: 3

IS_LT 9478: Designing Problem-Based Learning Environments
Based on theories of situated learning, constructivism, everyday cognition, case-based reasoning, and activity theory, students will design and develop a learning environment that engages learners in constructive learning and problem solving with emphasis on assessing higher-order learning. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: Instructor consent

IS_LT 9483: Capstone: Online Educator Emphasis Area
Culminating course for Online Educator emphasis area in Information Science and Learning Technologies graduate degree. Design/develop/evaluate an online course or rework existing course. Analyze evaluation data from two external reviewers (novice/expert). Write paper describing results and modifications. To be taken during last semester of student's program. Graded on S/U basis only.
Credit Hour: 1

IS_LT 9484: Teaching Online Courses
Learn to be an effective online instructor! Examine issues in teaching and learning online; instructor and student roles; instructional strategies for supporting diverse learners; methods of student assessment; online communication; classroom management; characteristics of online learning management systems. Projects put you in the role of instructor to practice what you learn.
Credit Hours: 3

IS_LT 9485: Designing Online Learning
Online learning is everywhere! This online course will teach you how to leverage existing software tools to design and develop online learning activities in multiple domains that are grounded in sound learning principles. Course will focus on developing online learning for meaningful learning outcomes such as problem solving, building communities, and developing collaboration skills.
Credit Hours: 3
Prerequisites: Instructor consent

Information Technology Courses

INFOTC 1001: Topics in Information Technology
Topics may vary from semester to semester. May be repeated upon consent of department.
Credit Hours: 3

INFOTC 1040: Introduction to Problem Solving and Programming
An introduction to problem solving methods and programming concepts, providing experience in designing, developing, implementing, and testing programs. Cannot be taken for credit after CMP_SC 1050.
Credit Hours: 3

INFOTC 1610: Introduction to Entertainment Media
This course is an introduction to the basic fundamentals of entertainment products such as postproduction technology, camera and lighting technology, audio creation and mixing technology, and broadcast technology. Computer programs designed for visual special effects are used.
Credit Hours: 3
Prerequisites: May be restricted to Information Technology majors during early registration
INFOTC 2001: Topics in Information Technology
Topics may vary from semester to semester. May be repeated upon consent of department. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: May be restricted to Information Technology majors during early registration

INFOTC 2600: Digital Multimedia
This course introduces broad views of concepts, software, hardware, and solutions in entertainment media applications. It will examine career options in fields such as information technology, news, film production and postproduction, website design, advertising, or communication.

Credit Hours: 3
Prerequisites: May be restricted to Information Technology majors during early registration

INFOTC 2610: Audio/Video I
This is an introductory course on digital audio and video editing. Background presented in the course will include an overview of the techniques used in modern Non-Linear video editing, and understanding of block editing, and why it is essential when using modern digital technology. The course is hands-on with students at workstations, learning the software directly at the keyboard, and working on assignments in a lab context.

Credit Hours: 3
Prerequisites: May be restricted to Information Technology majors during early registration

INFOTC 2620: Computer Modeling and Animation I
Introduction to the field of computer modeling and animation with an emphasis on tools. Learn programming methods for developing customized modeling and animation algorithms. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: C- or higher in CMP_SC 1050. May be restricted to Information Technology majors during early registration

INFOTC 2810: Fundamentals of Network Technology
This course includes an overview of networking and the common wireless standards. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: CMP_SC 1050. May be restricted to Information Technology majors during early registration

INFOTC 2910: Cyber Security
This course covers numerous platform-independent security topics including threats, problem ports and services, theory and practice of defense in security, intrusion detection, data security, securing remote access, user education and support, designing a secure network and security management. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: CMP_SC 1050, INFOTC 2810. May be restricted to Information Technology majors during early registration

INFOTC 3001: Topics in Information Technology
Topics may vary from semester to semester. May be repeated upon consent of department. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: May be restricted to Information Technology majors during early registration

INFOTC 3610: Audio/Video II
This course presents broad professional techniques for completing an off-line edit and the progression to online and finishing, adding depth to topics introduced in A/V I. Students will gain experience in editing techniques involving dialogue, action, documentaries, music videos, and multi-camera projects. The course also introduces special effects, audio finishing, clip and media management, and use of various media formats.

Credit Hours: 3
Prerequisites: C- or higher in INFOTC 2610. May be restricted to Information Technology majors during early registration

INFOTC 3620: Computer Modeling and Animation II
This course covers advanced methods for modeling and animation with an emphasis on computer science theory and virtual reality. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: C- or higher in INFOTC 2620. May be restricted to Information Technology majors during early registration

INFOTC 3630: Introduction to Game Design
This class will focus on the theory, design, and implementation of games using the industry standard game development tools. Students will learn about the workflow for designing, creating and implementing vital components for modern games, with respect to data structures, algorithms, content, development tools and practice of game development. The final project is a fully functional, your own custom game.

Credit Hours: 3
Prerequisites: C- or higher in CMP_SC 1050. May be restricted to Information Technology majors during early registration

INFOTC 3640: Digital Effects
This course is an introduction to the fundamentals of digital motion picture effects technology. This course is designed for a student interested in pursuing a career in information technology, news, film production and film postproduction, website design, or communication.

Credit Hours: 3
Prerequisites: C- or higher in INFOTC 2610 or C- or higher in INFOTC 2610. May be restricted to Information Technology majors during early registration

INFOTC 3650: Computer System Administration
This course will cover network management tools, network maintenance, data management, remote access management, management tasks, responsibilities and ethics, required plans and policies, design of a well-managed network. Some work will be done in both Windows and Linux environments. Graded on A-F basis only.

Credit Hours: 3
**INFOTC 3940: Internship in Information Technology**
Information Technology-related experience in business or industry jointly supervised by faculty and IT professionals. Students should apply one semester in advance for consent of the supervising professor. Graded on an S/U basis only.

**Credit Hours:** 1-6
**Prerequisites:** Instructor Consent

**INFOTC 4001: Topics in Information Technology**
Topics may vary from semester to semester. May be repeated upon consent of department. Graded on A-F basis only.

**Credit Hours:** 3
**Prerequisites:** May be restricted to Information Technology majors during early registration

**INFOTC 4390: Database Administration**
This course is designed to give a firm foundation in Database Administrators' tasks. The primary goal is to give necessary knowledge and skills to setup, maintain and troubleshoot an Oracle database. This is an instructor-led course featuring lecture and hands-on exercises. Online demonstration and written practice sessions reinforce the concepts and skills introduced. The course defined objectives are designed to support preparation for the Oracle Certified Professional examination.

**Credit Hours:** 3
**Prerequisites:** CMP_SC 4380. May be restricted to Information Technology majors during early registration

**INFOTC 4400: C#/.NET Development**
Learn how to develop and debug multi-threaded Windows desktop applications based on the object-oriented (OO), Model-View-Controller (MVC), and Model View ViewModel (MVVM) paradigms using C#, .NET, Windows Presentation Foundations (WPF), and Visual Studio. Graded on A-F basis only.

**Credit Hours:** 3
**Prerequisites:** CMP_SC 2050. May be restricted to Information Technology majors during early registration

**INFOTC 4500: Team-Based Mobile Device Application Development**
(same as JOURN 4444). This is a multi-disciplinary, team-based course on developing applications for mobile devices. Teams will be comprised of students who are software developers and students who are designers. Graded on A-F basis only.

**Credit Hours:** 3
**Prerequisites:** for Journalism majors (Designers), instructor's consent; for Computer Science or Information Technology majors (Developers), CMP_SC 2050 or permission of instructor. May be restricted to Information Technology majors during early registration

**INFOTC 4630: Game Design II**
This course explores 1) the manual and procedural development of static and dynamic game content, 2) programming for gameplay, interactivity, UI, game Artificial Intelligence, and 3) algorithms, ADTs, and research vital to game design.

**Credit Hours:** 1-3
**Prerequisites:** instructor's consent required

**INFOTC 4650: Shader Programming**
The focus of this course is modern computer graphics algorithms and programming, with an emphasis on games, shader languages, (GLSL and Cg) and Graphical Processor Units (GPUs).

**Credit Hours:** 3
**Prerequisites:** INFOTC 3630. May be restricted to Information Technology majors during early registration

**INFOTC 4660: Digital Effects II**
This course builds on fundamentals of digital motion picture effects technology learned in Digital Effects I. Computer programs designed for digital visual special effects in film and broadcast are integrated throughout the course.

**Credit Hours:** 3
**Prerequisites:** C- or higher in INFOTC 3640. May be restricted to Information Technology majors during early registration

**INFOTC 4970: Senior Capstone Design**
This course is an opportunity for you to demonstrate that you have achieved the goals established by the Information Technology (IT) program. You will do this through a series of writing exercises, class activities, and a team-based project. You will demonstrate your ability to synthesize various methods and skills, apply them to new, novel, complex, and integrated project requirements in real-world IT problems. Graded on A-F basis only.

**Credit Hours:** 3
**Prerequisites:** C- or higher in CMP_SC 4320 and senior standing. Restricted to INFOTC majors

**INFOTC 4970W: Senior Capstone Design - Writing Intensive**
This course is an opportunity for you to demonstrate that you have achieved the goals established by the Information Technology (IT) program. You will do this through a series of writing exercises, class activities, and a team-based project. You will demonstrate your ability to synthesize various methods and skills, apply them to new, novel, complex, and integrated project requirements in real-world IT problems. Graded on A-F basis only.

**Credit Hours:** 3
**Prerequisites:** C- or higher in CMP_SC 4320 and senior standing. Restricted to INFOTC majors

**INFOTC 4970: Senior Capstone Design**
This course is an opportunity for you to demonstrate that you have achieved the goals established by the Information Technology (IT) program. You will do this through a series of writing exercises, class activities, and a team-based project. You will demonstrate your ability to synthesize various methods and skills, apply them to new, novel, complex, and integrated project requirements in real-world IT problems. Graded on A-F basis only.

**Credit Hours:** 3
**Prerequisites:** C- or higher in CMP_SC 4320 and senior standing. Restricted to INFOTC majors

**Integrative Neuroscience Courses**

**NEUROSCI 7990: Non-Thesis Research in Neuroscience**
The course is intended primarily for post-baccalaureate students who have not entered a formal graduate program but who are performing neuroscience research. Graded on A-F basis only.

**Credit Hours:** 1-3
**Prerequisites:** instructor's consent required
NEUROSCI 8020: Advances in Neuroscience and Neuropathology
In depth review of recent advances in basic neuroscience research as well as pathological conditions affecting nervous systems at the cellular and systems level, and the methods and techniques used to study the nervous system. Graded on A-F basis only.
Credit Hour: 1-3

NEUROSCI 8090: Thesis Research in Neuroscience
The course is intended primarily for graduate students who are working with mentors in departments that do not offer courses (e.g. Radiology). Graded on A-F basis only.
Credit Hour: 1-6
Prerequisites: instructor's consent required

NEUROSCI 8187: Neuroscience Journal Club
In depth readings and presentations/discussions of neuroscience journal articles including recent advances in basic neuroscience research, pathological conditions affecting nervous systems, and neuroscience techniques. Graded on S/U basis only. May be repeated for credit.
Credit Hour: 1

NEUROSCI 8440: Integrative Neuroscience 1
(same as BIO_SC 8440). Organization, development and function of the nervous system focusing on cellular and molecular processes. Graded on A-F basis only.
Credit Hours: 3

NEUROSCI 8442: Integrative Neuroscience II
(same as BIO_SC 8442). Organization and function of the nervous system at the systems level to examine processes of behavior and cognition. Graded on A-F basis only.
Credit Hours: 3

NEUROSCI 9090: Thesis Research in Neuroscience
The course is intended primarily for graduate students who are working with mentors in departments that do not offer courses (e.g. Radiology). Graded on A-F basis only.
Credit Hour: 1-6
Prerequisites: instructor's consent required

Interdisciplinary Studies Courses

INTDSC 1001: Proseminar in Interdisciplinary Studies
Lecture/discussion survey of time-management, note taking techniques, in the context of the three courses that are part of a Freshman Interest Group. Regular use of library, electronic mail and computing facilities is stressed. Elective credit only; students cannot receive credit for INTDSC 2001 and INTDSC 1001 or INTDSC 1150. Graded on S/U basis only.
Credit Hour: 1

INTDSC 1020: University Freshmen Seminar
(same as SSC 1020). To maximize student's potential to achieve academic success and to adjust responsibly to the individual and interpersonal challenges presented by collegiate life. Attainment of an appropriate balance between personal freedom and social responsibility underlies all seminar activities. No credit for students who have earned credit for AFNR 1115, INTDSC 1001, IS_LT 1110, ED_LPA 3100 or an equivalent first year orientation course at another institution. Credit restrictions that apply to orientation classes apply to this course. Students are not allowed to be enrolled in SSC 1020 and SSC 1150 in the same semester.
Credit Hour: 1
Prerequisites: Restricted to freshman only

INTDSC 1940: Internship
Limited to freshmen/sophomores who are "undecided" or otherwise not accepted into a major. Graded on S/U basis only.
Credit Hour: 0-1

INTDSC 2001: Proseminar in Interdisciplinary Studies
Lecture/discussion survey of a range of issues of special importance for transfer students new to the University. Elective credit only; no credit for INTDSC 1001 and/or SSC 1150. Graded on A-F basis only.
Credit Hour: 1

INTDSC 2940: Internship in Interdisciplinary Studies
Internship limited to students pursuing the BA in Interdisciplinary Studies degree. Graded on S/U basis only.
Credit Hour: 1-6

INTDSC 2960: Readings in Interdisciplinary Studies
Independent readings with supervisory faculty member. Open only to Interdisciplinary Studies majors. May be repeated up to a maximum of 6 hours.
Credit Hour: 1-6

INTDSC 4940: Internship in Interdisciplinary Studies
Internship limited to students pursuing the BA in Interdisciplinary Studies degree. Graded on S/U basis only.
Credit Hour: 1-6
Prerequisites: departmental Consent Required

INTDSC 4960: Readings in Interdisciplinary Studies
Independent readings with supervisory faculty member. Open only to Interdisciplinary Studies majors. May be repeated up to a maximum of 6 hours.
Credit Hour: 1-6

INTDSC 4970: Service Learning Project.
Independent readings with supervisory faculty member; Students will engage in service activities, directly relevant to their areas of academic emphasis, in community not-for-profit agencies. At the same time as participants work in the community, they will research their agency and organization, undergo mock employment interviews, create a cover letter and resume based on the professional skills they have gained through their service, and reflect on careers and leadership in public service. Graded on A-F basis only.
Credit Hour: 3-6

INTDSC 4970: Service Learning Project.
Prerequisites: restricted to Interdisciplinary, General Studies and International Studies students

INTDSC 4970W: Service Learning Project - Writing Intensive
Independent readings with supervisory faculty member; Students will engage in service activities, directly relevant to their areas of academic emphasis, in community not-for-profit agencies. At the same time as participants work in the community, they will research their agency and organization, undergo mock employment interviews, create a cover letter and resume based on the professional skills they have gained through their service, and reflect on careers and leadership in public service. Graded on A-F basis only.

Credit Hours: 3-6
Prerequisites: restricted to Interdisciplinary, General Studies and International Studies students

INTDSC 4971: Capstone Internship in Interdisciplinary Studies
Internship experience which serves as the student's capstone experience. Program advisor must approve internships. Section 2 of this course will be designated for Service Learning Capstone experience. Graded on S/U basis only.

Credit Hour: 1-6

Internal Medicine Courses

IN_MED 6002: Medicine Clerkship
Students spend eight weeks on the medicine inpatient service at University Hospital and Harry S. Truman Veterans Hospital where they learn to care for adult patients with acute and chronic illnesses. Teaching emphasizes the principles of differential diagnosis and problem solving as well as the integration of basic science information into the art of patient care. Students also gain clinical experience in medical interviewing and physical examination.

Credit Hours: 8

IN_MED 6012: Rural Medicine Clerkship
Rural Medicine Clerkship

Credit Hours: 8

IN_MED 6022: Springfield Medicine Clerkship
Students learn to care for adult patients with acute and chronic illnesses. Teaching emphasizes the principles of differential diagnosis and problem solving as well as the integration of basic science information into the art of patient care. Students also gain clinical experience in medical interviewing and physical examination.

Credit Hours: 8
Prerequisites: successful completion of the first two years of medical school

IN_MED 6035: SCC Medical Intensive Care
Internists and medical sub-specialists frequently encounter patients with critical conditions that require unique skills. During this rotation medicine students will: 1. Provide assessment, management and follow-up of critically ill patients under the supervision of the medical critical care attending. 2. Be intimately involved in this multidisciplinary approach to patient care. 3. Work collaborative with medical attending physicians, nurses, pharmacists, respiratory therapists and nutritional support staff.

4. Work in a coordinated fashion with consulting physicians and services, social services, physical therapy workers, and the radiology, pathology laboratory departments and chaplain services.

Credit Hours: 3-6
Prerequisites: Successful completion of IN_MED 6002 or IN_MED 6012 or IN_MED 6022 or IN_MED 6102

IN_MED 6102: Remediation Medicine Clerkship
Enrolled students are those who received an unsatisfactory grade in a Medicine Clerkship at any Mizzou Med location or site. This course allows them the opportunity to rectify a deficiency.

Credit Hours: 8
Prerequisites: IN_MED 6002 Medicine Clerkship, received unsatisfactory grade

IN_MED 6261: ABS Medicine Investigation
ABS Medicine Investigation

Credit Hours: 5

IN_MED 6263: ABS Internal Medicine Research
ABS Internal Medicine Research

Credit Hours: 5-10

IN_MED 6265: ABS IN MED RSCH/REVIEW
ABS in Medicine Research Review

Credit Hours: 5

IN_MED 6267: ABS Quality Improvement and Patient Safety
ABS Quality Improvement and Patient Safety

Credit Hours: 5

IN_MED 6365: ABS Internal Medicine Research and Review
ABS Internal Medicine Research and Review

Credit Hour: 5-10

IN_MED 6450: Dermatology I
The Dermatology rotation is designed to provide the medical student with a broad general base in clinical dermatology for the non-dermatologist. During the rotation the student should: Enhance the visual diagnostic skills and related reasoning used in dermatology; Become familiar with a select list of dermatologic conditions commonly seen and best treated by the non-dermatologist; Gain familiarity with certain dermatologic conditions which require a high index of suspicion by all physicians because of their danger to life or risks to public health; Become familiar with dermatologic treatment regimens for the non-dermatologist and guidelines for appropriate referral of cases; Learn appropriate use of both systemic and topical dermatologic medications; Learn basic punch, shave, and excisional biopsy techniques; Become proficient in skin surveillance, especially early detection of skin cancer. Students are evaluated using a standard evaluation. The student's knowledge of subject matter is evaluated in the following settings: informal discussion during clinics, ward rounds, inpatient consultation rounds and scheduled conferences. A slide (Kodachrome) practical and written examination at
the end of the block will be administered at UMC on the last day of the block. Material covered is from the student slide set given in CD format, the AAD Core Curriculum website (www.aad.org/education/titlepage.htm), weekly student lectures, and Unknowns Conference.

**Credit Hours: 5**

**IN_MED 6500: Cardiology Consultation Service**
On the inpatient cardiology consultation block, the senior student gains experience in cardiology consultation at either the University Hospital or the Harry S Truman VA Hospital. Through active participation in the consult service the student is provided the opportunity to acquire knowledge of cardiovascular anatomy, physiology, cardiovascular pharmacology, prevention of cardiovascular disease, risk factors for cardiac disease, lipid disorders, chronic coronary artery disease management and its complications, cardiac arrhythmias and conduction abnormalities, hypertension, valvular heart disease, cardiomyopathy, pericardial disease, pulmonary heart disease, peripheral vascular disease, cerebral vascular disease, adult congenital heart disease, and pre- and post-operative assessment of patients with or without cardiac problems. Students will be evaluated using the standard department student elective evaluation form submitted to the Internal Medicine Education Office. Each faculty working with the student will have the opportunity to contribute to the final grade. The final evaluation will be based on student performance on the cardiology consultation service and active participation in the cardiology conferences. Students’ skills in performing a history and physical exam, the quality of their presentation, the quality of their knowledge base, the quality of their interactions will constitute the basis of grade assignment.

**Credit Hours: 5**

**IN_MED 6507: Endocrinology/Metabolism**
The Endocrinology rotation is designed to enable the student to deal with clinical problems in Diabetes endocrinology and metabolism with particular emphasis on the more common problems in an ambulatory setting. During the rotation the student will have the opportunity to see patients with a wide range of endocrine disorders. These patients will be used as the focus for teaching with the emphasis placed on differential diagnosis, pathophysiology, management, and how the disorder affects the patient as a whole. By the end of the rotation the student should be able to evaluate and manage (with supervision) patients with: 1. Diabetes Mellitus 2. Hypoglycemia 3. Thyroid disorders including goiters, thyroid nodules, hyperthyroidism and hypothyroidism 4. Adrenal disorders including adrenal incidentalomas, Cushing and Hyperaldosteronism 5. Pituitary problems including hypopituitarism, conditions due to pituitary hormone excess that including Cushing’s disease, acromegaly and prolactinoma. 6. Calcium abnormalities including hyperparathyroidism, hypoparathyroidism, hypercalcemia, hypocalcaemia and osteoporosis. 7. Polycystic ovarian syndrome. Evaluations: The course grade will be based on students’ skill in performing a history and physical exam, the quality of the presentation, the quality of their knowledge base and the quality of their interactions.

**Credit Hours: 5**

**IN_MED 6508: General Internal Medicine Outpatient**
General Internal Medicine Outpatient

**Credit Hours: 5**

**IN_MED 6509: Internal Medicine Off-Site Elective**
Internal Medicine Off-Site Elective

**Credit Hours: 5**

**IN_MED 6511: Quality Improvement and Patient Safety**
Quality Improvement and Patient Safety

**Credit Hours: 5**

**IN_MED 6513: Infectious Diseases**
The goals of the Infectious Diseases elective will be to: 1. Teach the student how to be an effective consultant. 2. Assist the student in his/her knowledge of disease processes. 3. Help the student improve his/her history taking and physical examination skills. 4. Enhance the student’s knowledge regarding the use of antimicrobial agents. 5. Improve the student’s understanding of the diagnosis and management of commonly-encountered infectious diseases with attention to the use of the history and readily available laboratory tests.

**Credit Hours: 5**

**IN_MED 6515: Problems in Medical Ethics**
Problems in Medical Ethics

**Credit Hours: 5**

**IN_MED 6517: Geriatrics-Internal Medicine Elective**
Geriatrics-Internal Medicine Elective

**Credit Hours: 5**

**IN_MED 6671: General Medicine - Offsite**
This course was established to accommodate fourth year medical students who wish to take an elective at another medical institution. There is no specific maximum number of students who will be permitted to enroll in this course.

**Credit Hours: 5**

**IN_MED 6700: Cardiology Consultation Services - Rural**
Cardiology Consultation Services - Rural

**Credit Hours: 5**

**IN_MED 6702: Immunology/Rheumunology - Rural**
Immunology/Rheumunology - Rural

**Credit Hours: 5**

**IN_MED 6704: General Internal Medicine Outpatient - Rural**
General Internal Medicine Outpatient - Rural

**Credit Hours: 5**

**IN_MED 6705: Pulmonary Medicine - Rural**
Pulmonary Medicine general elective.

**Credit Hours: 5**

**Prerequisites:** IN_MED 6002. Restricted to fourth year medical student
**IN_MED 6707: General Internal Medicine Outpatient - Rural**
The 4th year medical student will work with an IM community-based faculty member at a rural training site. Students will see patients in clinic, perform the history and physical examination, and develop an assessment and plan for these patients on their own. They will then discuss with the community-based faculty member and see the patient together. The 4th year student will complete oral presentations and document encounters as directed by the community-based faculty member. Course may be repeated for credit.

**Credit Hours:** 5  
**Prerequisites:** IN_MED 6002, 4th year medical student

---

**IN_MED 6750: DERMATOLOGY 1-RURAL**
Dermatology 1 - Rural  

**Credit Hours:** 5

---

**IN_MED 6800: Coronary Care Unit**
During the Coronary Intensive Care Unit rotation, the medical student is provided the opportunity to acquire knowledge in the evaluation and management of acute and chronic coronary artery disease, life threatening cardiac arrhythmia's, acute severe congestive heart failure, acute valvular disease, acute infective endocarditis, hypertensive emergencies, cardiac tamponade, aortic dissection, aortic pulmonary embolism, life threatening complications of cardiac therapy, hypotension, and shock. The Coronary Intensive Care rotation allows the student to evaluate and treat these patients in close conjunction with medical residents, cardiology fellows and cardiology faculty. Students will be evaluated using the standard Department student elective evaluation form submitted to the Internal Medicine Education Office. Each faculty working with the student will have the opportunity to contribute to the final grade. The final evaluation will be based on student performance on the cardiology consultation service and active participation in the cardiology conferences. Students’ skills in performing a history and physical exam, the quality of their presentation, the quality of their knowledge base, the quality of their interactions will constitute the basis of grade assignment.

**Credit Hours:** 5

---

**IN_MED 6801: Diabetes Mellitus Externship**
Diabetes Mellitus Externship  

**Credit Hours:** 5

---

**IN_MED 6802: Gastroenterology**
Medical students will be assigned to the inpatient GI consultation service, where they will see and evaluate patients, read about their problems, and present them to the GI fellow and/or teaching attending. They should attend all endoscopic procedures on the patients they follow on the inpatient service. They should also attend a sampling of outpatient procedures each week in the Endoscopy Center. As time permits, they may be assigned to one or more GI clinics during the rotation as well. Medical students will be expected to attend all GI conferences during the rotation. Students are also encouraged to attend Internal Medicine Grand Rounds and Internal Medicine Morning Report. They may also be assigned to give one formal presentation during their rotation. It is recommended that they read the entire GI-Liver section of the Internal Medicine textbook that they used on their third-year Internal Medicine Clerkship. Ongoing feedback is provided to the student during the rotation. At the end of the rotation, a formal written evaluation will be prepared by the inpatient attending, in conjunction with the GI fellow with whom the resident/medical student worked with. Conference participation is factored in.

**Credit Hours:** 5

---

**IN_MED 6803: Subinternship in Internal Medicine**
The internal medicine subinternship builds on the skills begun during the internal medicine clerkship and prepares the student for the internship year. 1. Students will refine and further develop skills in: a. Physical exam, history taking, chart review, and written notes; b. Problem list development and management plan; data interpretation and synthesis; c. Oral presentation; d. Interpersonal relations with patients, families, staff and peers; e. Time management i. Self-directed learning ii. Evidence-based medicine 2. Expand knowledge base in internal medicine 3. Assume primary responsibility for inpatient care 4. Further develop in the role of primary care giver Patient management skills, medical record keeping, presentation skills, knowledge base, and ability to handle responsibility will be carefully observed by both the senior ward resident and the attending physician. Students will receive constructive feedback/suggestions for improvement throughout the rotation from both the attending and the senior ward resident. The attending, with input from the senior ward resident and the third year students, will report the final scores using the Department of Internal Medicine standard electives evaluation form. Students will meet with the attending physician at the end of the block to discuss their performance. Students will not receive elective credit for three weeks rotations.

**Credit Hours:** 5

---

**IN_MED 6804: Geriatrics - Internal Medicine @ VA**
Geriatrics - Internal Medicine @ VA  

**Credit Hours:** 5

---

**IN_MED 6805: Hematology and Medical Oncology Chronic Care**
The specific objective of the course is to assist the student in developing a greater understanding for the care of chronically ill patients with hematologic and neoplastic diseases. The student's evaluation is based predominantly on his/her performance in presentation and in written chart notes of patients under the student's care. This evaluation will be by the attending physician with whom the student has worked. The standard department student elective evaluation form will be used to document student performance.

**Credit Hours:** 5

---

**IN_MED 6806: Immunology/Rheumatology**
The overall curricular objectives of this elective include: 1. Basic Information. The student should be able to: a. Perform a medical history and screening physical examination with attention to symptoms and signs of rheumatic disease. b. Understand the basic pathophysiology and clinical diagnosis of common arthritic and musculoskeletal diseases in adults. c. Understand the short and long term management of rheumatic conditions and apply these principles together with overall clinical judgment in the management of individual patients. These therapeutic measures include: 1. drug therapy, 2. physical rehabilitative measures, and 3. surgical intervention. d. Learn the uses and pitfalls of laboratory tests in practice.

**Credit Hours:** 5
e. Formulate ways to approach the emotional problems of patients with chronic disease.

f. Understand the value of the comprehensive approach in arthritis treatment including patient education, the role of the allied health professional and community resources.

**Credit Hours:** 5

---

**IN_MED 6807: Medical Intensive Care**

Under the supervision of the medical critical care attending, the medical students are part of a team providing assessment, management, and follow-up of critically ill patients. Students will be intimately involved in this multidisciplinary approach to patient care. As a member of the ICU patient management team, the student will work collaboratively with residents, fellows, medical attendings, nurses, pharmacists, respiratory therapists and the nutritional support staff. The team will work in a coordinated fashion with consulting physicians and services, social services, physical therapy workers, and the radiology and pathology laboratory departments, and chaplain services.

**Credit Hours:** 5

---

**IN_MED 6808: Nephrology Advanced Elective**

This elective builds on the knowledge and skills students have acquired in the third year course in Internal Medicine. Students will have the opportunity to perform histories and physicals, participate in the decision-making process of patient management, and be responsible for daily follow-up in patients with fluid and electrolyte problems, acid-base disturbances, acute and chronic renal failure and a variety of renal diseases. The focus in these areas will be at a much higher level of responsibility and management than in the third-year course.

**Credit Hours:** 5

---

**IN_MED 6809: Pulmonary Medicine Diagnostic Services**

The Pulmonary Medicine Service is designed to allow students to participate in the diagnosis and care of hospitalized patients with an acute pulmonary problem as well as continuity follow-up of existing known disease processes. This service evaluates and assists in management of adult patients at the University or VA Medical Centers. Either rotation includes intensive care unit patients with primary surgical or cardiac diagnoses, the rotation at the VA Medical Center also includes intensive care unit patients with primary medical diagnoses. The rotation will introduce the student to major clinical entities including the diagnosis and management of infectious lung disorders, neoplasms of the lungs, chronic obstructive pulmonary disease, asthma, acute respiratory failure, occupational pulmonary disease and interstitial lung disorders. The student will be introduced to the variety of diagnostic tests including radiographic studies, fiberoptic bronchoscopy, pulmonary function testing, cardiopulmonary exercise testing, surgical lung biopsy, thoracentesis and pleural biopsy, and arterial blood sampling. Students also participate in consultation on patients requiring outpatient pulmonary clinical evaluation. Each student is encouraged to spend extra time in the pulmonary function lab, and have pulmonary function tests and cardiopulmonary exercise tests done on themselves, depending on available time. Each student rotating through the pulmonary service will be expected to evaluate and present patients fully on a daily basis to the pulmonary consult team, including the attending physician. The student will have an opportunity to assist fellows and faculty with procedures such as bronchoscopy and thoracentesis. Students will have the opportunity to interpret pulmonary function tests, chest radiographs and other radiographic studies such as computed tomography and nuclear medicine studies of the thorax.

**Credit Hours:** 5

---

**IN_MED 6820: General Medicine - Offsite**

This course was established to accommodate fourth year medical students who wish to take an elective at another medical institution. There is no specific maximum number of students who will be permitted to enroll in this course.

**Credit Hours:** 5

---

**IN_MED 6821: Internal Medicine Off-Site Selective**

**Internal Medicine Off-Site Selective**

**Credit Hours:** 5

---

**IN_MED 6850: DERMATOLOGY 2**

**DERMATOLOGY 2**

**Credit Hours:** 5

---

**IN_MED 6851: Cardiology Procedure Service**

The Cardiology Procedure Service is designed to allow students to participate in the cardiology procedures involved in the diagnosis and care of hospitalized patients with an acute cardiac problem as well as continuity follow-up of existing known disease processes. Sterile technique will be taught by the attending and students will demonstrate competence with sterile technique.

**Credit Hours:** 2

**Prerequisites:** Successful completion of the first two years of medical school

---

**IN_MED 6911: Cardiology Procedure Service**

The Pulmonary Medicine Procedure Service is designed to allow students to participate in the pulmonary procedures involved in the diagnosis and care of hospitalized patients with an acute pulmonary problem as well as continuity follow-up of existing known disease processes. Sterile technique will be taught by the attending and students will demonstrate competence with sterile technique.

**Credit Hours:** 2

**Prerequisites:** Successful completion of the first two years of medical school

---

**IN_MED 6932: Adult Diabetes and Endocrinology**

During the elective rotation, students will participate in clinical activities of the division-inpatient and outpatient. The Diabetes and Endocrine Service has a strong ambulatory curriculum with daily outpatient clinics held at the Cosmopolitan International Diabetes and Endocrinology Center. These clinics provide the student with the opportunity to evaluate patients with a wide variety of endocrine disorders. These patients will be used as the focus for teaching with the emphasis placed on differential diagnosis, pathophysiology, management, and how the disorder affects the patient as a whole. If interested, students can get involved in inpatient consultations in conjunction with the fellow on call and inpatient nurse practitioner. The student will participate in Tuesday afternoon endocrine conferences that include case conferences, basic science conferences, Journal clubs, Endocrine lectures, research conferences and Endocrine
board review sessions. Endocrine board review sessions will be optional for the students. In addition to this they will also participate in diabetes patient education session/sessions.

**Credit Hours:** 2

**Prerequisites:** successful completion of the first two years of medical school

**Recommended:** Completion of Medicine Clerkship

### International Studies Courses

**INTL_S 2940: Capstone Internship in International Studies**
Internship limited to students pursuing the AB in International Studies Degree. May be repeated to a maximum of six hours. Graded on S/U basis only.

**Credit Hour:** 1-6

**INTL_S 2960: Capstone Readings in International Studies**
Independent readings with supervisory faculty member. Open only to international studies majors. May be repeated up to a maximum of 6 hours.

**Credit Hour:** 1-6

**INTL_S 4290: Pre-Departure Seminar for the TaLK Program**
Prior to beginning the TaLK Program in Korea, students will explore Korean language, culture and educational system through seminars and workshops provided by the Asian Affairs Staff and guest speakers. Graded on A-F basis only.

**Credit Hours:** 3

**Prerequisites:** instructor's consent

**INTL_S 4940: Internship in International Studies**
Internship limited to students pursuing the AB in International Studies degree. May be repeated to a maximum of six hours. Graded on S/U basis only.

**Credit Hour:** 1-6

**INTL_S 4960: Readings in International Studies**
Independent readings with supervisory faculty member. Open only to International Studies majors. May be repeated up to a maximum of 6 hours.

**Credit Hour:** 1-6

**INTL_S 4970: Special Readings in International Studies**
Independent readings with supervisory faculty member; this course serves as the students' capstone experience. Open only to International studies majors.

**Credit Hour:** 1-6

**INTL_S 4971: Capstone Internship in International Studies**
Internship experience which serves as the student's capstone experience. Program advisor must approve internships. Section 2 of this course will be designated for Service Learning Capstone experience. Graded on S/U basis only.

**Credit Hour:** 1-6

### Italian Courses

**ITAL 1100: Elementary Italian I**
Intensive approach to beginning language. Designed to give students an overview of the grammar and syntax of Italian. Emphasis is on oral, with some reading and writing. The 5-hour option is open ONLY to Bachelor of Music students and only with override from the Department. The 5-hour option cannot be applied to meet Arts and Science or Journalism foreign language requirements.

**Credit Hour:** 5-6

**ITAL 1200: Elementary Italian II**
Continues basic grammar and syntax of Italian. Emphasis is on oral, with some reading and writing. The 5-hour option is open ONLY to Bachelor of Music students and only with override from the Department. The 5-hour option cannot be applied to meet Arts and Science or Journalism foreign language requirements.

**Credit Hour:** 5-6

**Prerequisites:** grade of C- or better in ITAL 1100 or its equivalent

**ITAL 1200H: Elementary Italian II - Honors**
Continues basic grammar and syntax of Italian. Emphasis is on oral, with some reading and writing. The 5-hour option is open ONLY to Bachelor of Music students and only with override from the Department. The 5-hour option cannot be applied to meet Arts & Science or Journalism foreign language requirements.

**Credit Hour:** 5-6

**Prerequisites:** grade of C- or better in ITAL 1100 or its equivalent. Honors eligibility required

**ITAL 2001: Undergraduate Topics in Italian-General**
Organized study of selected topics. Subjects and credits may vary from semester to semester. Departmental consent for repetition.

**Credit Hour:** 1-3

**ITAL 2004: Undergraduate Topics in Italian-Social Science**
Organized study of selected topics. Subjects and credits may vary from semester to semester. Departmental consent for repetition.

**Credit Hour:** 1-3

**ITAL 2005: Undergraduate Topics in Italian-Humanities/Fine Arts**
Organized study of selected topics. Subjects and credits may vary from semester to semester. Departmental consent for repetition.

**Credit Hour:** 1-3

**ITAL 2160: Intermediate Italian**
Continues development of language skills acquired in Elementary Italian. While learning new structures and new vocabulary, students also review basic grammar components. By the end of the course, students are able to understand (through reading and listening) and communicate (in writing and orally) in a variety of both formal and informal situations.

**Credit Hours:** 3

**Prerequisites:** ITAL 1200

**ITAL 2160H: Intermediate Italian - Honors**
Continues development of language skills acquired in Elementary Italian. While learning new structures and new vocabulary, students also review basic grammar components. By the end of the course, students are able to understand (through reading and listening) and communicate (in writing and orally) in a variety of both formal and informal situations.

**Credit Hours:** 3

**Prerequisites:** ITAL 1200
ITAL 2310: Italian Civilization
Open to any student interested. No knowledge of Italian required.
Credit Hours: 3
Prerequisites: sophomore standing

ITAL 2850: Italian Cinema
(same as FILM_S 2850). A course which concentrates on the development of Italian Cinema, primarily since the Post-WWII era, and the ways in which it reflects major economic, social and political events occurring in Italy. No knowledge of Italian required.
Credit Hours: 3
Prerequisites: sophomore standing

ITAL 3001: Topics in Italian-General
Organized study of selected topics. Subjects and earnable credit may vary from semester to semester. Departmental consent for repetition. No knowledge of Italian required.
Credit Hour: 1-3

ITAL 3005: Topics in Italian-Humanities/Fine Arts
Organized study of selected topics. Subjects and earnable credit may vary from semester to semester. Departmental consent for repetition. No knowledge of Italian required.
Credit Hour: 1-3

ITAL 3005H: Topics in Italian-Humanities/Fine Arts - Honors
Organized study of selected topics. Subjects and earnable credit may vary from semester to semester. Departmental consent for repetition. No knowledge of Italian required.
Credit Hour: 1-3
Prerequisites: Honors eligibility required

ITAL 3150: Post-Intermediate Italian
Gives emphasis on acquiring communicative multi-skills competence necessary to understand and discuss a variety of written and aural texts, from newspaper articles to brief literature excerpts. It offers students opportunity to review grammar components as well as learning more complex structures, to expand their vocabulary, and to use language in a variety of cultural contexts.
Credit Hours: 3
Prerequisites: ITAL 2160

ITAL 3160: Italian Composition
Continues the development of the language skills acquired in Intermediate and Post-Intermediate Italian. It offers students the opportunity to expand their vocabulary, to use the language in a variety of contexts prompted by cultural activities, and to acquire more complex grammatical structures. Emphasis is given on refining writing skills in connection with different text types.
Credit Hours: 3
Prerequisites: ITAL 3150

ITAL 3310: 20th Century Italian Fiction in Translation
This course is designed to present American students with a selection of Italian novels aimed at introducing them to some key issues in the historical, social, and literary developments of Italian life from the turn of the century to the 1960s.
Credit Hours: 3
Prerequisites: sophomore standing or ENGLSH 1000

ITAL 3420: Introduction to Italian Literature
This course introduces students to the literacy terminology that will enable them to study Italian literature.
Credit Hours: 3
Recommended: ITAL 2310 and basic reading knowledge of a Romance Language

ITAL 3430: Survey of Italian Literature
Designed to expose students to the rich variety of Italian letters. Emphasis will be placed on textual analysis as well as on authors, themes and stylistic features.
Credit Hours: 3
Recommended: ITAL 2310 and basic reading knowledge of a Romance Language

ITAL 3820: Films of Federico Fellini
(same as FILM_S 3820). In studying the filmic career of one of the supreme stylists of the cinematic world, students will view films from each phase of Fellini's career.
Credit Hours: 3
Prerequisites: ITAL 2850 or ENGLSH 1810 or ENGLSH 1820; instructor's consent

ITAL 4070: Intensive Beginning Italian
Designed for rapid acquisition of a reading knowledge of Italian. Cannot be taken to fulfill undergraduate language requirement.
Credit Hours: 3
Prerequisites: instructor's consent

ITAL 4960: Special Readings in Italian
Independent study through readings, conferences, reports.
Credit Hour: 1-3

Japanese Courses
JAPNSE 1100: Elementary Japanese I
For beginners with no prior knowledge of Japanese. Three hours of lecture instruction and three hours of practice/drill per week in small groups.
Credit Hours: 6

JAPNSE 1200: Elementary Japanese II
Three hours of lecture instruction and three hours of practice/drill per week in small groups.
Credit Hours: 6
Prerequisites: C- or better in JAPNSE 1100, or equivalent
JAPNSE 2001: Topics in Japanese-General
Organized study of selected topics. Subjects and credits may vary from semester to semester.
Credit Hours: 1-3

JAPNSE 2005: Topics in Japanese - Humanities
Organized study of selected topics. Subjects and credits may vary from semester to semester. No knowledge of Japanese required. No language credit.
Credit Hours: 1-3

JAPNSE 2160: Japanese Conversation and Composition
Credit Hours: 3
Prerequisites: C- or better in JAPNSE 1200, or equivalent

JAPNSE 2310: Japanese Civilization I
Survey of Japanese culture and arts before 1868. May be taken independently of JAPNSE 2320. No knowledge of Japanese required. No foreign language credit.
Credit Hours: 3

JAPNSE 2320: Japanese Civilization II
Credit Hours: 3

JAPNSE 2330: The World of Japanese Business
Designed to assist the student to achieve successful business contacts with Japanese counterparts by understanding the characteristics of Japanese business in cultural, economical, and practical contexts and by learning useful Japanese terms and expressions in business.
Credit Hours: 3
Recommended: sophomore standing

Supervised study in Japanese language and/or culture.
Credit Hour: 1-3
Prerequisites: instructor's consent

JAPNSE 3160: Intermediate Japanese Composition and Conversation
Further develops oral command of Japanese as well as listening comprehension and further essay writing skills.
Credit Hours: 3
Prerequisites: C- or better in JAPNSE 2160

JAPNSE 3320: Classical Japanese Literature (in translation)
Credit Hours: 3
Recommended: sophomore standing

JAPNSE 3360: Modern Japanese Literature (in Translation)
Surveys Japanese literature from 1868 to present. Analyzes works by such authors as Soseki, Tanizaki, Kawabata, Mishima, Oe, Murakami, and others. Readings and lectures in English.
Credit Hours: 3
Recommended: sophomore standing

JAPNSE 3370: Intermediate Readings in Japanese
Develops reading and speaking skills and acquisition of more Kanji, vocabulary, and complex structures.
Credit Hours: 3
Prerequisites: C- or better in JAPNSE 3160, or equivalent, or instructor's consent

JAPNSE 3380: Intermediate Japanese II
Continues development of intermediate reading, listening, speaking, and writing skills achieved in JAPNSE 3370, with attention to vocabulary acquisition, expansion of knowledge of kanji, and understanding of complex grammatical structures. Authentic readings in Japanese literature and exercises using authentic multi-media materials also help students gain greater familiarity with Japanese culture. Encourages development of student autonomy in language learning with the introduction and use of appropriate reference materials.
Credit Hours: 3
Prerequisites: JAPNSE 3370

JAPNSE 3850: Traditional Japanese Theatre
Study of the history, scripts, and performance techniques of Japanese theatre from 14th century through late 19th century. Examines major plays (in English translations) and the culture that created them. Looks at staging and performance techniques of traditional puppet theatre. Course included stage performances and performances on campus and/or in the community.
Credit Hours: 3
Prerequisites: sophomore standing or instructor's consent

JAPNSE 3880: Japan and its Cinema
Survey and analysis of selected Japanese films from the 1940s to present. Films will be viewed and discussed in terms of history, techniques, artistry, and social impact. English subtitles. No foreign language credit.
Credit Hours: 3
Prerequisites: sophomore standing or instructor's consent

JAPNSE 4005: Topics in Japanese - Humanities
Organized study of selected topics. Subjects and earnable credit may vary from semester to semester. Suitable for students who have taken JAPNSE 3370 or equivalent.
Credit Hour: 1-3
Prerequisites: instructor's consent, sophomore standing
JAPNSE 4005H: Topics in Japanese - Humanities - Honors
Organized study of selected topics. Subjects and earnable credit may vary from semester to semester. Suitable for students who have taken JAPNSE 3370 or equivalent.

Credit Hour: 1-3
Prerequisites: instructor's consent, sophomore standing; Honors eligibility required

JAPNSE 4160: Advanced Japanese I
Continues development of reading, listening, speaking, writing skills, with attention to vocabulary acquisition, expansion of knowledge of kanji, and understanding of complex grammatical structures. Authentic readings in Japanese literature, exercises using authentic multi-media materials. Encourages development of student autonomy in language learning with introduction and use of appropriate reference materials.

Credit Hours: 3
Prerequisites: JAPNSE 3380 or equivalent, or instructor's consent

JAPNSE 4180: Advanced Japanese II
This course continues the development of reading, listening, speaking, and writing skills, with attention to vocabulary acquisition, expansion of knowledge of kanji, and understanding of complex grammatical structures. Authentic readings in Japanese literature and exercises using authentic multimedia materials also help students gain greater familiarity with Japanese culture. The course encourages the development of student autonomy in language learning with the introduction and use of appropriate reference materials.

Credit Hours: 3
Prerequisites: JAPNSE 4160

Journalism Courses

JOURN 0900: News Practicum
Instruction in fundamentals of newswriting for students entering the graduate program without an undergraduate degree in journalism.

Credit Hours: 3

JOURN 1000: The News Media: Journalism and Advertising in a Democratic Society
This course surveys the fields of journalism and advertising and discusses their role in a democratic society. Pre-Journalism and Journalism Majors cannot count this course towards the Bachelor of Journalism.

Credit Hours: 3

JOURN 1010: Career Explorations in Journalism
Colloquium in which experts discuss their specialties and answer students' questions on the nature and current status of their disciplines. Graded on S/U basis only.

Credit Hour: 1
Prerequisites: Undeclared Journalism, Pre-Journalism, or Science and Agricultural Journalism majors only

JOURN 2100: News
Introduction to fundamentals of news writing. Lectures, discussions and laboratory work provide training under deadline pressure in writing basic news stories. Stories cover several "live" assignments. May not be taken concurrently with JOURN 2150.

Credit Hours: 3
Prerequisites: sophomore standing, C- or better in JOURN 1100; grade of "B-" or higher in ENGLSH 1000 and 2.8 UM GPA. Restricted to Undeclared Journalism, Pre-Journalism, Journalism and Science and Agricultural Journalism students only

JOURN 2100H: News
Introduction to fundamentals of news writing. Lectures, discussions and laboratory work provide training under deadline pressure in writing basic news stories. Stories cover several "live" assignments. May not be taken concurrently with JOURN 2150.

Credit Hours: 3
Prerequisites: sophomore standing, C- or higher in JOURN 1100; grade of "B-" or higher in ENGLSH 1000 and 2.8 UM GPA. Restricted to Pre-Journalism, Journalism and Science and Agricultural Journalism students. Honors eligibility required
JOURN 2100HW: News - Honors/Writing Intensive
Introduction to fundamentals of news writing. Lectures, discussions and laboratory work provide training under deadline pressure in writing basic news stories. Stories cover several "live" assignments. May not be taken concurrently with JOURN 2150.

Credit Hours: 3
Prerequisites: Sophomore standing, C- or higher in JOURN 1100; grade of "B-" or higher in ENGLISH 1000 and 2.8 UM GPA. Restricted to Pre-Journalism, Journalism and Science and Agricultural Journalism students. Honors eligibility required.

JOURN 2100W: News - Writing Intensive
Introduction to fundamentals of news writing. Lectures, discussions and laboratory work provide training under deadline pressure in writing basic news stories. Stories cover several "live" assignments. May not be taken concurrently with JOURN 2150.

Credit Hours: 3
Prerequisites: Sophomore standing, C- or better in JOURN 1100; grade of "B-" or higher in ENGLISH 1000 and 2.8 UM GPA. Restricted to Undeclared Journalism, Pre-Journalism, Journalism and Science and Agricultural Journalism students.

JOURN 2150: Fundamentals of Multimedia Journalism
This course deals with the challenges faced by journalists and other communicators working with still photos, audio, video and print. Students learn the basics and ethics of cross-platform, multimedia storytelling. May not be taken concurrently with JOURN 2100. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: C- or higher in JOURN 1100; sophomore standing and a UM GPA of 2.8. Restricted to Undeclared Journalism, Pre-Journalism, Journalism and Science and Agricultural Journalism students only.

JOURN 3000: History of American Journalism
American mass media from colonial days to present in the context of social, economic and political change.

Credit Hours: 3
Prerequisites: Junior Standing; Journalism or Science and Agricultural Journalism majors.

JOURN 3510: Think Global: Fundamentals of Globalization and Digital Technologies
(same as GERMAN 3510, T_A_M 2810, PEA_ST 2810, DST 3501H).
This interdepartmental course serves as one of the core seminars for students pursuing the undergraduate certificate in Digital Global Studies. The course focuses on the impact of technological change and globalization on cultures around the world from various interdisciplinary perspectives. The course is open to all undergraduate students in all disciplines. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: Junior standing; Journalism, Science and Agricultural Journalism majors only.

(same as GERMAN 3510H, PEA_ST 2810H, T_A_M 3010H, DST 3510H).
This interdepartmental course serves as one of the core seminars for students pursuing the undergraduate certificate in Digital Global Studies. The course focuses on the impact of technological change and globalization on cultures around the world from various interdisciplinary perspectives. The course is open to students in any discipline. Credit Hours: 3
Prerequisites: Sophomore standing; JOURN 1100 and a 2.75 GPA or instructor's consent. Restricted to Journalism majors only. Honors eligibility required.

JOURN 4000: Communications Law
Legal concepts, including prior restraint, libel, privacy, obscenity, contempt and access as they relate to print, broadcast, advertising and other areas.

Credit Hours: 3
Prerequisites: Junior Standing; Journalism and Science and Agricultural Journalism majors.

JOURN 4050: Communications Practice
Special instruction in the school's media as an extension of existing advanced media courses, or, in advertising, an extension of advertising creative courses. Contract must be approved by instructor and dean.

Credit Hour: 1-3
Prerequisites: Restricted to Journalism and Science and Agricultural Journalism majors only. Junior standing required.
JOURN 4050H: Communications Practice - Honors
Special instruction in the school's media as an extension of existing advanced media courses, or, in advertising, an extension of advertising creative courses.

Credit Hour: 1-3
Prerequisites: Consent from Independent Study Coordinator

JOURN 4050HW: Communications Practice - Honors/Writing Intensive
Special instruction in the school's media as an extension of existing advanced media courses, or, in advertising, an extension of advertising creative courses.

Credit Hour: 1-3
Prerequisites: Consent from Independent Study Coordinator

JOURN 4050W: Communications Practice - Writing Intensive
Special instruction in the school's media as an extension of existing advanced media courses, or, in advertising, an extension of advertising creative courses. Contract must be approved by instructor and dean.

Credit Hour: 1-3
Prerequisites: Restricted to Journalism and Science and Agricultural Journalism majors only. Junior standing required

JOURN 4056: Intersession Colloquium
Lecture portion of any course the student plans to take later during an intercession.

Credit Hour: 1
Prerequisites: Consent of Dean required. Restricted to Journalism and Science and Agricultural Journalism majors only

JOURN 4058: New York Program: Journalism Theory and Practice
Interdisciplinary course offering on-site study at national media venues in New York. Journalism alumni working in Manhattan provide weekly discussions on contemporary practices, job networks and work experiences.

Credit Hour: 2-3
Prerequisites: Restricted to Journalism and Science and Agricultural Journalism majors only

JOURN 4116: Managing and Leading People
Dramatic changes in technology and in the media's role in covering technologies requires new management and leadership techniques and paradigms based on new management theories. Students will write case studies examining these changes and applying these new theories.

Credit Hour: 1
Prerequisites: Restricted to Journalism and Science and Agricultural Journalism majors only. Junior standing required

JOURN 4120: New Media Basics
Students will learn how to use the Internet to communicate with others, find human and electronic sources for stories and publish on the World Wide Web.

Credit Hour: 1
Prerequisites: Restricted to Journalism and Science and Agricultural Journalism majors only. Junior standing required

JOURN 4122: Fundamentals of Data Reporting
(cross-leveled with JOURN 7122). Explores the importance to journalists of mining public records and data; reviews basic newsroom mathematics; teaches basic techniques for using Microsoft Excel to create and manipulate spreadsheets and to produce graphics. This course is not to be taken by students who have already completed JOURN 4430 or JOURN 7430. Graded on A-F basis only.

Credit Hour: 1
Prerequisites: Restricted to Journalism and Science and Agricultural Journalism Students and Junior standing

JOURN 4126: Digital Audio and Visual Basics for Journalists
Introduces journalism students to audio and video tools used in converged environments. Students will create news stories, ads or promos to meet journalistic or strategic communication goals.

Credit Hour: 1
Prerequisites: Restricted to Journalism and Agricultural Journalism majors only

JOURN 4130: Account Services
(cross-leveled with JOURN 7130). Designed for advanced strategic communication students preparing for careers in account services. Section topics vary. Graded on A-F basis only.

Credit Hour: 1
Prerequisites: Restricted to Journalism Strategic Communication and Science and Agricultural Journalism Majors

JOURN 4136: Creative Techniques
(cross-leveled with JOURN 7136). Designed for advanced strategic communication students preparing for careers in creative work. Section topics vary. Graded on A-F basis only.

Credit Hour: 1
Prerequisites: Restricted to Journalism Strategic Communication and Science and Agricultural Journalism Majors

JOURN 4138: Public Relations Techniques
(cross-leveled with JOURN 7138). Designed for advanced strategic communication students preparing for careers in public relations. Section topics vary. Graded on A-F basis only.

Credit Hour: 1
Prerequisites: JOURN 4200, JOURN 4204 and JOURN 4952

JOURN 4140: Interactive Techniques
(cross-leveled with JOURN 7140). Designed for advanced strategic communications students preparing for careers in interactive media. Section topics may vary. Graded on A-F basis only.

Credit Hour: 1
Prerequisites: JOURN 4200, JOURN 4204 and JOURN 4952

JOURN 4146: Strategic Communication Techniques
(cross-leveled with JOURN 7146). Designed for advanced strategic communication students. Section topics vary. Graded on A-F basis only.
JOURN 4148: Interviewing Essentials
(cross-leveled with JOURN 7148). This class focuses on the journalistic interviewing process, from identifying and gaining access to the best sources, setting ethical boundaries, asking the most effective questions and ensuring accuracy. It applies to the full range of story types, from breaking news to in-depth work in all coverage areas.
Credit Hour: 1
Prerequisites: Consent of instructor required

JOURN 4150: Using Infographics
An introduction to the various types of information graphics and how each can be used effectively to help explain the news. Additional emphasis on generating graphic ideas and on the specific challenges of gathering information for graphics.
Credit Hour: 1
Prerequisites: instructor's consent required. Restricted to Journalism and Science and Agricultural Journalism majors only

JOURN 4152: Concepts in Participatory Journalism
Journalists need to know how to be in conversation with their communities rather than lecture to them. In this course, we will look at how a collaborative culture is changing journalism, and how journalists can take advantage of the new landscape. Graded on A-F basis only.
Credit Hour: 1
Prerequisites: JOURN 2100, JOURN 2150. Journalism and Science and Agricultural Journalism majors and Junior Standing

JOURN 4198: Area Seminar
Special lectures, readings, discussions relating to the urban journalism, state government reporting or local public affairs reporting programs.
Credit Hours: 3
Prerequisites: Consent of Instructor required

JOURN 4200: Principles of Strategic Communication
(cross-leveled with JOURN 7200). Foundation course familiarizing students with an array of strategic communication tools and how they are used in the field.
Credit Hours: 3
Prerequisites: Restricted to Strategic Communication and Science and Agricultural Journalism Majors

JOURN 4204: Introduction to Strategic Writing and Design
This course will teach you about strategic writing and design, and then show you how to apply these skills to key communication platforms such as digital media, TV, radio, social media and others. Along the way, you will learn to think, write and design creatively and strategically. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: Restricted to Strategic Communication and Science and Agricultural Journalism Majors. Junior Standing Required

JOURN 4206: Strategic Writing I
(cross-leveled with JOURN 7206). Students learn strategic writing for a variety of media such as print, radio, television, outdoor, new media, news releases, pitch letters and other persuasive messages.
Credit Hours: 3
Prerequisites: JOURN 4200, JOURN 4226, JOURN 4952

JOURN 4208: Strategic Writing II
(cross-leveled with JOURN 7208). Advanced course in the creation of advertising and public relations materials with an emphasis on strategic planning, developing creative concepts, producing and polishing copy and visuals, execution of finished product and refining.
Credit Hours: 3
Prerequisites: Consent of instructor

JOURN 4212: Sports and Entertainment Promotion
(cross-leveled with JOURN 7212) Course focuses on the role that research, sponsorship, advertising, public relations, social media, positioning, target marketing, psychographics, and other strategic communication processes play in the promotion of the sports and entertainment industry. The course will critically analyze and examine how chief executive officers of sport and entertainment organizations choose, maintain, or redirect their promotion strategies and activities to help achieve organization missions, encourage tickets sales, and attract large audiences.
Credit Hours: 3
Prerequisites: Consent of instructor

JOURN 4213: Strategic Communication Mobile Sports Production
(cross-leveled with JOURN 7213) Course is designed to prepare Strategic Communication students for vital new positions in the world of sports marketing with the emphasis on video productions, strategic planning, and strategic dissemination of video content via multiple media, channels and platforms. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: JOURN 4200, JOURN 4204 and JOURN 4952. Restricted to Journalism Strategic Communication and Science and Agricultural Journalism Majors

JOURN 4214: Strategic Communication Integrated Sports Production
(cross-leveled with JOURN 7214). This course will prepare Strategic Communication students for vital new positions in the world of sports marketing with an emphasis on video productions, analytics, messaging management and strategic planning. Students will be taught basic information, techniques and strategies necessary for success in these fields. You will be working closely with the Mizzou Sports Network and Strategic Communication faculty from day one. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: JOURN 4200, JOURN 4204 and JOURN 4952

<td>Effective Job Search Strategies</td>
<td>Are you getting ready to apply for a job or internship? A resume is a brief written account of personal, educational, and professional qualifications and experience that you prepare as part of your application materials for a prospective job. To ensure that your resume is read by the recipient, you will need a cover letter that markets your unique qualifications for the specified job description. In the current global economy, it is essential for job seekers to optimize their chances of being considered and hired for positions that are well-suited to their qualifications and interests. This course will help you effectively develop employment application materials for today's job market by honing your resume writing skills, providing you with tools to create an impressive resume (or to improve the one you already have), and giving suggestions on developing an effective cover letter. You will study different types of resume and cover letter formats that can be applied to various prospective employment situations and your own personal career goals. You will undertake a critical assessment of the professional skills you already possess, brainstorm and apply the best ways to market these skills in your resume and cover letter, and enhance your application materials by using specific tips and techniques to make you more competitive for the job you seek. Special focus is placed on developing effective application correspondence, follow-up correspondence and interviewing techniques. Graded on A-F basis only.</td>

(cross-leveled with JOURN 7360). This is a beginning course in editorial design. We will study design history and learn basic design principles and concepts in both print and digital platforms. You will be introduced to software programs such as InDesign, Photoshops and Illustrator, as well as basic HTML coding.

Credit Hours: 2
Prerequisites: Consent of instructor required

Recommended: JOURN 2100 or JOURN 2150

JOURN 4370: Film Studies: The Intersections of Documentary Film and Journalism
(same as FILM_S 4370; cross-leveled with FILM_S 7370, JOURN 7370). The popularity of documentary film in the past ten years has skyrocketed, and recent award-winning documentaries such as Inside Job (2010), Blackfish (2013), and The Invisible War (2012) are simultaneously entertaining audiences and investigating serious issues like the financial collapse, killer whale captivity, and sex crimes in the military--issues that in the past might have been covered exclusively by investigative journalism. What explains the public's growing fascination with documentary? How is documentary film reacting to recent transformations in the media landscape? Is it filling a critical need that journalism is no longer willing or able to meet? This course will explore the intersection of these two nonfiction storytelling forms - documentary film and journalism - and examine the role played by advocacy in both modes, as well as the cultural and ethical implications of the convergence between journalism and documentary film. In that it is centered on contemporary documentary film culture, the course also takes advantage of the True/False Film Festival, and will be host to a conference during Week 6, featuring a number of major visiting filmmakers and film critics. Attendance at some sessions is required. Graded on A-F basis only.

Credit Hours: 3

JOURN 4371: Editing for Documentaries
(cross-leveled with JOURN 7371). Documentary and other long-form story telling methods involve a complex series of decisions made in the creation of the work that determines its style, length, direction, point of view and more. These and a thousand other editing decisions are the difference between a successful project that touches its audience and one that falls short. The focus of this course is on the craft of editing, as seen in a variety of documentary and other works and explained through the decisions made in and out of the editing room that lead to the final
product. The course will introduce important concepts of editing, the work of significant editors in both documentary and narrative fiction films, and seek to apply those techniques to the conceptualization of documentary work students will do as part of their degree. Students will understand the history of documentary editing as it evolved on its own and as influenced by narrative fiction films, the language of editing, the work of important editors and directors and how it influences today’s aesthetic and how to apply what they have learned to their own documentary projects at an advanced level. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: Consent of instructor required

JOURN 4372: Documentary Reporting
(cross-leveled with JOURN 7372). Students will learn elementary documentary reporting techniques by producing video and audio content in small group and individual projects. The course focuses on collection of content in the field, interviewing, research, story construction, editing and presentation. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: Instructor consent

JOURN 4373: Documentary Development
(cross-leveled with JOURN 7373). This course will concern itself primarily with the formation of projects: from theories behind different kinds of documentaries, through real world investigations and research into possible projects, into the pitching and writing stage and lastly to the final idea that will be the basis of students’ senior films. The ability to properly think of, clearly articulate, pitch and hone a project idea often makes the difference between a successful and unsuccessful final film. Still these ideas don’t materialize out of thin air; inspiration for great documentaries can come from many places. Understanding how to seize viable project ideas is a crucial skill for a documentary filmmaker. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: JOURN 4371

JOURN 4375: Documentary Business and the Public Sphere
(cross-leveled with JOURN 7375). Whether it be through contract employment, freelancing, or independent production, creating documentaries requires a knowledge of professional and business practices that differ from many other parts of journalism. The course will introduce important concepts related to the development and production of documentary work, as well as the public distribution of that work. Students will research the industry and develop skills to manage business and professional relationships with the documentary world. Students will build and maintain personal branding materials. Graded on A-F basis only.

Credit Hours: 2
Prerequisites: JOURN 4564

JOURN 4377: Documentary Senior Project
Students in this course will begin work on a yearlong documentary project to be the capstone of their work in the documentary journalism program. This course will concentrate on the research, reporting and field acquisition work for the senior documentary project. Students will show and discuss their work in group settings to share progress and report results. Each will also meet individually with the instructor to fine tune the direction and content of the project. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: JOURN 4377

JOURN 4379: Documentary Senior Capstone
Focus on the completion of a long-form documentary work and its place in current documentary programming. Students will apply knowledge from previous documentary courses in this capstone experience through writing, in-class presentations and their finished work.

Credit Hours: 3
Prerequisites: JOURN 4377

JOURN 4379W: Documentary Senior Capstone - Writing Intensive
Focus on the completion of a long-form documentary work and its place in current documentary programming. Students will apply knowledge from previous documentary courses in this capstone experience through writing, in-class presentations and their finished work.

Credit Hours: 3
Prerequisites: JOURN 4377

JOURN 4400: Introduction to News Editing
(cross-leveled with JOURN 7400). Introduces the fundamentals of editing stories and writing headlines for publication online and in print, including an emphasis on style and grammar. Emphasized editing for an online audience.

Credit Hour: 1-2
Prerequisites: Consent of instructor required
Recommended: JOURN 4450 or JOURN 4804

JOURN 4406: Digital News Editing
(cross-leveled with JOURN 7406). Real-world experience in digital editing and news decision-making coupled with newspaper production; emphasis on editing and headline writing across platforms, design for home page and mobile, social media, ethics and fundamentals of grammar. Lab work is hands-on experience at columbiamissourian.com and the Missourian newspaper.

Credit Hours: 3
Prerequisites: restricted to Journalism and Science and Agricultural Journalism Majors only

JOURN 4408: Magazine Editing
(cross-leveled with JOURN 7408). Lectures provide an introduction to the magazine industry, including types of publications, roles of an editor and skills needed for today’s magazine editor. Labs focus heavily on sentence structure, grammar, syntax, usage, punctuation and style.

Credit Hours: 3
Prerequisites: Consent of instructor required
Recommended: JOURN 4450 or JOURN 4804

JOURN 4410: Intermediate Writing
(cross-leveled with JOURN 7410). In-depth reporting, research, and writing techniques with a magazine focus. Students produce articles for Vox, the Missourian and other magazines, publications or digital outlets.

Credit Hours: 3
JOURN 4410W: Intermediate Writing - Writing Intensive
(cross-leveled with JOURN 7410). In-depth reporting, research, and writing techniques with a magazine focus. Students produce articles for Vox, the Missourian and other magazines, publications or digital outlets. This course can serve as a substitute for JOURN 4410 Intermediate Writing. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: Consent of instructor required
Recommended: JOURN 4450 or JOURN 4804

JOURN 4412: Lifestyle Journalism
(cross-leveled with JOURN 7412). In-depth reporting, research and writing techniques focused on lifestyle journalism. Students produce articles for Vox, the Missourian and other magazines, publications or digital outlets. This course can serve as a substitute for JOURN 4410 Intermediate Writing. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: JOURN 4450 or JOURN 4804. Restricted to Journalism and Science and Agricultural Journalism majors only

JOURN 4414: Field Reporting on the Food System and Environment
(same as SCI_AG_J 4414). Field reporting on the social, political, scientific, economic and ethical dimensions of the food system and environment, with emphasis on explanatory story-telling. Includes multi-day field trip. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: JOURN 4450 or JOURN 4804. Restricted to Journalism and Science and Agricultural Journalism majors only

JOURN 4415: Current Issues in Science Journalism
(same as SCI_AG_J 4415). Focuses on covering the interplay of one or more current issues of concern to journalists, scientists and society. The focus for any given semester may be biotechnology, climate change, energy, food safety, global population growth, wildlife or another issue. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: JOURN 2100 or instructor's consent

JOURN 4416: Science, Health and Environmental Writing
(cross-leveled with JOURN 7416). In this course students learn how to cover science, health and environmental topics by reporting and writing several stories for publication. Students can develop a marketable specialty or cover these angles in any beat. This course can serve as a substitute for JOURN 4410 Intermediate Writing.

Credit Hours: 3
Prerequisites: JOURN 4450 or JOURN 4804

JOURN 4416W: Science, Health and Environmental Writing - Writing Intensive
(cross-leveled with JOURN 7416). In this course students learn how to cover science, health and environmental topics by reporting and writing several stories for publication. Students can develop a marketable specialty or cover these angles in any beat. This course can serve as a substitute for JOURN 4410 Intermediate Writing.

Credit Hours: 3
Prerequisites: JOURN 4450 or JOURN 4804

JOURN 4418: Critical Reviewing
(cross-leveled with JOURN 7418). This course seeks to enrich students' understanding of the arts; support their attendance of concerts, plays, films, and exhibitions; sharpen their skills in critical thinking; and encourage the publication of their reviews in Vox as well as other outlets. Students will analyze the works of critics, gain a general appreciation of the ways to approach each art, and write reviews.

Credit Hours: 3
Prerequisites: JOURN _0900 or JOURN 2100. Restricted to Journalism and Science and Agricultural Journalism majors only

JOURN 4420: Editorial Writing

Credit Hours: 3
Prerequisites: Consent of instructor required

JOURN 4422: Sports Journalism
(cross-leveled with JOURN7422). A review of everything from "how to watch Sports" to the history of sports writing. Contact instructor for consent on this course. Priority will be given to Sports Journalism students. All other consent will be given on a first-come, first-serve basis as space allows. Course graded on A-F basis only.

Credit Hours: 3
Prerequisites: JOURN 2100 or JOURN 2100. Restricted to Journalism and Science and Agricultural Journalism majors only

JOURN 4424: Covering Traumatic Events
(cross-leveled with JOURN 7424). This course will prepare reporters and future newsroom managers across platforms for the ethical, practical and emotional challenges of reporting accurately and sensitively on traumatic events. It will give students a deeper understanding of the psychological impact of such events, including natural and man-made disasters, violent crime, accidents, terrorism and war. The course will explore how news coverage affects individuals and communities, and the psychological challenges and ethical hazards for the journalists who cover these events, with a focus on best newsroom practices for managing fast-breaking news stories and mitigating the effects on communities and
staffs. The course will also explore the challenges of technology in the context of traumatic events and how social media have affected coverage of and response to crime, war and disasters. Graded on A-F basis only.

Credit Hours: 3  
Prerequisites: JOURN 4450 or JOURN 7450; JOURN 4804 or JOURN 7804; or JOURN 4560 or JOURN 7560

JOURN 4426: Religion Reporting and Writing  
(same as REL_ST 4418). Advanced seminar in religion reporting and writing. Examines the role of religion journalism in faith, public life and culture.  

Credit Hours: 3  
Prerequisites: JOURN 4450 or JOURN 4804

JOURN 4428: Health Reporting Skills  
This course focuses on research and analysis techniques journalists use to understand and report on health policy, health-care quality, medical research and the business of health care. Graded on A-F basis only.  

Credit Hours: 2-3  
Prerequisites: Consent of Instructor required. Recommended JOURN 4450 or JOURN 4306 or JOURN 4804

JOURN 4430: Computer-Assisted Reporting  
How to negotiate for, transfer and process electronic information; the unique opportunities computers provide for analyzing information.  

Credit Hours: 3  
Prerequisites: Restricted to Journalism and Science and Agricultural Journalism majors only. Junior Standing

JOURN 4432: Advanced Data Journalism  
(cross-leveled with JOURN 7432). Teaches students how to creatively solve problems in journalism using computer programming. Students will learn how to code using the Python language, and how to apply those coding skills to perform real-world tasks. Students will learn the concepts, theory and practical programming skills needed to clean data, scrape web sites and turn databases into interactive online experiences. By the end of the semester, students will have learned the skills to create interactive database presentations, and will have created a functional web app that will serve as a portfolio piece. Graded on A-F basis only.  

Credit Hours: 3  
Prerequisites: JOURN 4430  
Recommended: JOURN 4502

JOURN 4434: The Art and Mechanics of the Business Story  
The purpose of this course is to give students a deep understanding of business journalism and for them to apply those skills in a real newsroom, Missouri Business Alert. The class will cover everything from audience to financials, and students will leave the class with several work samples to show potential employers.  

Credit Hours: 3  
Prerequisites: Journalism and Science and Agricultural Journalism majors only; JOURN 4450 or JOURN 7450, or JOURN 4306 or JOURN 7306, or JOURN 4804 or JOURN 7804, or JOURN 4556 or JOURN 7556

JOURN 4436: Investigative Reporting  
Advanced course designed to acquaint reporters with public issues. Students write two in-depth projects and other shorter assignments. Students meet weekly with instructor for editorial suggestions.  

Credit Hours: 3  
Prerequisites: Consent of instructor required

JOURN 4438: Business and Economics Reporting  
Advanced reporting course concentrating on writing and reporting about business and the economy. Emphasis on sources, records, documents and writing techniques.  

Credit Hours: 3  
Prerequisites: JOURN 4408 and JOURN 4410 or JOURN 4506

JOURN 4440: Mapping for Stories and Graphics  
Learn mapping software to discover information for news stories and lay the foundation for compelling news information graphics. Students will learn how to create maps for print, broadcast and online. Graded on A-F basis only.  

Credit Hours: 2  
Prerequisites: Consent of instructor required

JOURN 4444: Team-Based Mobile Device Application Development  
(same as INFOTC 4500). This is a multi-disciplinary, team-based course on developing applications for mobile devices. Teams will be comprised of students who are software developers and students who are designers. Graded on A-F basis only.  

Credit Hours: 3  
Prerequisites: JOURN 4804 or JOURN 4204 or JOURN 4306 or JOURN 4450

JOURN 4444: Team-Based Mobile Device Application Development (cross-leveled with JOURN 7440). Assignments to more difficult beat areas, team reporting and some investigative reporting for community newspaper. Individual conferences and weekly class sessions on contemporary reporting problems.  

Credit Hours: 3  
Prerequisites: JOURN 4450

JOURN 4450: News Reporting  
Assignments on a daily city newspaper covering community news, city, county and state affairs, sports and lifestyle issues. Experience in gathering and writing news, writing under deadline conditions.  

Credit Hours: 3  
Prerequisites: JOURN 2100

JOURN 4450W: News Reporting - Writing Intensive  
Assignments on a daily city newspaper covering community news, city, county and state affairs, sports and lifestyle issues. Experience in gathering and writing news, writing under deadline conditions.  

Credit Hours: 3  
Prerequisites: JOURN 2100

JOURN 4450: News Reporting  
Assignments on a daily city newspaper covering community news, city, county and state affairs, sports and lifestyle issues. Experience in gathering and writing news, writing under deadline conditions.  

Credit Hours: 3  
Prerequisites: JOURN 2100

JOURN 4460: Advanced News Reporting  
Assignments to more difficult beat areas, team reporting and some investigative reporting for community newspaper. Individual conferences and weekly class sessions on contemporary reporting problems.  

Credit Hours: 3  
Prerequisites: JOURN 4450
JOURN 4460W: Advanced News Reporting - Writing Intensive
(cross-leveled with JOURN 7460). Assignments to more difficult beat areas, team reporting and some investigative reporting for community newspaper. Individual conferences and weekly class sessions on contemporary reporting problems.

Credit Hours: 3
Prerequisites: JOURN 4450

JOURN 4462: Emerging Technologies in Journalism
This course quickly responds to technology developments in journalism through a combination of theory, practice and research. Students learn to use the developing technology and also strategies to manage its impact on media organizations while expanding academic discourse. May be repeated for credit. Graded on A-F basis only.

Credit Hours: 1-3
Prerequisites: junior standing; restricted to Journalism and Science and Agricultural Journalism students only

JOURN 4464: Magazines Across Platforms
(cross-leveled with JOURN 7464). As digital editors for Vox Magazine, students manage and create content for Vox’s digital platforms, including its WordPress website, blog, social media accounts and award-winning iPad app. Students also work with analytics, engagement and multimedia. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: Consent of instructor required
Recommended: JOURN 4450 or JOURN 4804

JOURN 4480: Will Write for Food (and Wine)
(same as SCI_AG_J 4480; cross-leveled with JOURN 7480). Course focuses on food and wine writing in current U.S. culture. Come ready to create mouthwatering narrative and actively seek publishing your finished work. An emphasis will be placed on class participation and written critiques of peer-reviewed articles in class. This course can serve as a substitute for JOURN 4410 Intermediate Writing. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: Consent of instructor required
Recommended: JOURN 4450 or JOURN 4804

JOURN 4480W: Will Write for Food (and Wine) - Writing Intensive
(same as SCI_AG_J 4480; cross-leveled with JOURN 7480). Course focuses on food and wine writing in current U.S. culture. Come ready to create mouthwatering narrative and actively seek publishing your finished work. An emphasis will be placed on class participation and written critiques of peer-reviewed articles in class. This course can serve as a substitute for JOURN 4410 Intermediate Writing. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: Consent of instructor required
Recommended: JOURN 4450 or JOURN 4804

JOURN 4482: Field Reporting: Wine Country Writing
(same as SCI_AG_J 4482). Students will examine wine culture, agricultural issues in the vineyard, wine trends, the historical context of wine and Missouri settlement, and more. Come ready to shape articles into sharp focus and make them fresh with input from fellow student critiques. Graded on A-F basis only. Prerequisites: JOURN 2100

Credit Hours: 3

JOURN 4482W: Field Reporting: Wine Country Writing - Writing Intensive
(same as SCI_AG_J 4482). Students will examine wine culture, agricultural issues in the vineyard, wine trends, the historical context of wine and Missouri settlement, and more. Come ready to shape articles into sharp focus and make them fresh with input from fellow student critiques. Graded on A-F basis only. Prerequisites: JOURN 2100

Credit Hours: 3

JOURN 4500: Publication Design
Intermediate design techniques and theories of editorial design. Students apply classroom teachings by designing pages for the Columbia Missourian and Vox Magazine. Students work under deadline and learn attention-to-detail through use and execution of design style guides. Recommended: JOURN 4380

Credit Hours: 3
Prerequisites: Consent of instructor required

JOURN 4502: Multimedia Planning and Design
Class covers the basics of web design - Storyboarding, navigation, information architecture, reader behavior, usability studies - as they relate to journalistic stories and persuasive messages.

Credit Hours: 3
Prerequisites: Consent of instructor required
Recommended: Completion of one of the following--JOURN 4804 or JOURN 4508 or JOURN 4406 or JOURN 4506 or JOURN 4204 or JOURN 4306 or OURN 4450 or JOURN 4560

JOURN 4506: Magazine Design
Introduction to typography of magazines from manuscript markup through layout to page proof. Extensions and limitations of typography are considered in light of current practice and economic possibilities.

Credit Hours: 3
Prerequisites: Restricted to Journalism and Science and Agricultural Journalism majors only

JOURN 4508: Information Graphics
Work as a news artist for a daily city newspaper graphically covering community news, sports and lifestyle issues. Emphasis on visual thinking and effective presentation. Experience with state-of-the-art software.

Credit Hours: 3
Prerequisites: JOURN 4450 or JOURN 4804

JOURN 4510: Visual Communication
How to communicate through pictures. Topics: visual perception, vocabulary, the role of words, picture editing, design and layout, printers, taste and judgment, camera mechanics. For journalism students who are not photographers.

Credit Hours: 3
Prerequisites: Restricted to Journalism and Science and Agricultural Journalism majors only with Junior standing

</tbody>
</table>
JOURN 4656: International News Media Systems
A comparative survey of current news media systems and how they affect the international flow of information. Newspapers, news agencies, broadcasting and satellite networks of the world are analyzed.
Credit Hours: 3
Prerequisites: junior standing in Journalism or Science and Agricultural Journalism

JOURN 4658: International Journalism
An examination of the gathering, editing and dissemination of international news. The impact of social, economic, cultural and political structures on news media performance is evaluated.
Credit Hours: 3
Prerequisites: junior standing. Restricted to Journalism and Science and Agricultural Journalism majors only

JOURN 4660: Media Forces Shaping the European Union
Seminar analyzes the role of media in shaping policies and actions of the European Union member nations and their people. Open to graduate students regardless of major and to undergraduates with instructor’s consent. Course qualifies for EU Certificate Program.
Credit Hours: 3
Prerequisites: Restricted to Journalism and Science and Agricultural Journalism majors only

JOURN 4662: Global News Across Platforms
(cross-leveled with JOURN 7662). Online, radio, and print production for a converged media enterprise, Global Journalist. Students report, write, plan, edit, design, and produce a video and radio program and website on international news while working under weekly deadlines.
Credit Hours: 3
Prerequisites: JOURN 4450 or JOURN 4804 or JOURN 4300 or JOURN 4372 or JOURN 4564

JOURN 4700: Participatory Journalism
An examination of how information is shared outside professional journalism, and how journalists can interact with communities. Topics will include community collaboration, social media, audience outreach and understanding, and an expanding definition of "news". Students will work with the community on behalf of the Missourian. All interest areas welcome.
Credit Hours: 3
Prerequisites: JOURN 4450 or JOURN 4804 or JOURN 4306 or JOURN 4206 or JOURN 4560

JOURN 4706: The Community Newspaper
The role of the newspaper in the community. Handling of news categories especially applicable to smaller newspaper. Field trips giving students experience in publishing newspapers in the state.
Credit Hours: 3
Prerequisites: JOURN 2100. Restricted to Journalism and Science and Agricultural Journalism majors only

JOURN 4710: Newspaper Management
Department-by-department organization, business practices, personnel, rate structures, equipment, production, laws and regulations of concern to newspaper management. Cases examine critical newspaper management issues.
Credit Hours: 3
Prerequisites: Journalism and Science and Agricultural Journalism majors with Junior standing

JOURN 4716: Women and the Media
(same as WGST 4716; cross-leveled with JOURN 7716, WGST 7716). Focus on portrayal of women in American mass media. Other goals: historical perspective on women as journalists; exposure to issues usually not covered by mass media; research and writing skills. Enrollment limited to Journalism and Science and Agricultural Journalism majors only with junior standing required.
Credit Hours: 3
Prerequisites: instructor's consent

JOURN 4718: Law and the Justice System
(cross-leveled with JOURN 7718). Lectures, readings, discussions, writing assignments relating to justice system reporting from the view of attorneys, prosecutors, judges, correction and probation officers with the cooperation of the Missouri Bar.
Credit Hours: 3
Prerequisites: Consent of instructor required

JOURN 4720: Internet Law
This course will focus on how to avoid legal pitfalls while doing e-mail or e-commerce or browsing the Web and how to use the law to your benefit.
Credit Hours: 3
Prerequisites: Restricted to Journalism and Science and Agricultural Journalism majors only

JOURN 4728: Confronting Controls on Information
A review of actions by government, society and the communications media calculated to limit or alter the content of information in the United States and elsewhere around the world.
Credit Hours: 3
Prerequisites: instructor's consent. Restricted to Journalism and Science and Agricultural Journalism majors only

JOURN 4730: Journalism and Conflict
(same as PEA_ST 4830). Introduction to the basic principles of conflict theory and negotiation, including the sources of conflict, why conflict escalates and what the conditions are for de-escalation, all with a special emphasis on the implications for the working journalist.
Credit Hours: 3

JOURN 4734: Journalism and Chaos: How to Understand and Cover 21st Century Business Models
The purpose of this class is to explore alternative business/journalism models that can be grown from the rib of the traditional newsroom. Graded on A-F basis only.
Credit Hours: 3
JOURN 4736: Changing Media Business Models
Analysis of the economic changes in news media industry. Explore concepts and theories of monetizing media. Hands-on experience in creating innovations in media business models.
Credit Hours: 3
Prerequisites: Restricted to Journalism and Science and Agricultural Journalism majors only

JOURN 4738: Thought, Language and Journalism
This seminar uses the methods of science to explore and better understand the biases and limitations of language, culture, technology and other factors shaping the semantic environment as applied to the practice of journalism and mass communications studies.
Credit Hour: 1-3
Prerequisites: Restricted to Journalism and Science and Agricultural Journalism majors only

JOURN 4802: Fundamentals of TV, Radio and Photojournalism
Skills, theory and ethics of broadcast news and photojournalism for non-broadcast majors. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: JOURN 2100 and instructor's consent required. Restricted to Journalism and Science and Agricultural Journalism majors only. Sophomore standing required

JOURN 4804: Convergence Reporting
(cross-leveled with JOURN 7804). Practice and theory of reporting for converged media. Students produce multimedia reports for traditional and converged media operations. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: Restricted to Convergence, Print and Digital, Photojournalism, and Magazine students, and Science and Agricultural Journalism students

JOURN 4804W: Convergence Reporting - Writing Intensive
(cross-leveled with JOURN 7804W). Practice and theory of reporting for converged media. Students produce multimedia reports for traditional and converged media operations. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: Restricted to Convergence, Print and Digital, Photojournalism, and Magazine students, and Science and Agricultural Journalism students

JOURN 4806: Convergence Editing and Producing
(cross-leveled with JOURN 7806). Practice and theory of editing and producing material for publication or broadcast in a converged environment. Students produce media for multiple outlets. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: JOURN 4306 or JOURN 4804 or JOURN 4450

JOURN 4810: Advanced Global Converged News
(cross-leveled with JOURN 7810). Internet news services offers real-world newsroom experience synthesizing worldwide news coverage and revealing alternative perspectives on current events. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: Instructor consent required

JOURN 4812: Online Audience Development
(cross-leveled with JOURN 7812). You're already using social media every day - but are you using it in the most effective way possible? In Online Audience Development students will explore, envision and evaluate the possibilities of social media integration in news production workflows. We'll experiment with emerging social platforms to see how they might fit in a newsroom's social media and branding playbook. You will also exercise, develop and improve on all the journalism skills practiced in previous classes: researching, reporting, editing, producing, proofreading, photo editing and design. The big difference? This time you'll be reporting on our newsrooms in order to help create deeper connections with the audience. Graded on A/F basis only.
Credit Hours: 3
Prerequisites: JOURN 4560 or JOURN 4804 or JOURN 4306 or JOURN 4450 or instructor consent. Restricted to Journalism and Science and Agricultural Journalism majors only

JOURN 4814: Multimedia Sports Journalism
(cross-leveled with JOURN 7814). Assignments on a daily regional website and radio station covering sports with converged media. Experience in reporting game and feature stories under deadline conditions. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: Instructor's consent required

JOURN 4940: Internship in Journalism
Credit for approved employment in journalism. Specifications for this course appear in the Undergraduate Catalog. Graded on S/U basis only.
Credit Hour: 1-6
Prerequisites: Consent from internship coordinator required

JOURN 4950: Understanding Audiences
Focuses on the recipients of journalistic efforts by teaching students to identify, analyze and address media audiences. Students will learn a variety of research methods and gain hands-on experience with audience analysis through team-based practical projects.
Credit Hours: 3
Prerequisites: JOURN 2000 and junior standing. Strategic Communication students may not enroll in this entry level research course

JOURN 4952: Strategic Communication Research I
(cross-leveled with JOURN 7952). Introduction to techniques and practice of strategic communication research. Emphasis on research techniques and use of research results, including consumer analysis, attitude measurement and evaluation of externally supplied research.
Credit Hours: 3
JOURN 4970: Strategic Campaigns
(cross-leveled with JOURN 7970). This capstone course, gives students a hands-on opportunity to use their skills and apply strategic communication learning to a real client situation. To be taken final semester. Application required for Mojo Ad section and will include additional leadership responsibilities.
Credit Hours: 3
Prerequisites: Consent of Instructor required

JOURN 4970W: Strategic Campaigns - Writing Intensive
(cross-leveled with JOURN 7970). This capstone course, gives students a hands-on opportunity to use their skills and apply strategic communication learning to a real client situation. To be taken final semester. Application required for Mojo Ad section and will include additional leadership responsibilities.
Credit Hours: 3
Prerequisites: Consent of Instructor required

JOURN 4972: Photo and Visual Editing
An advanced visual editing course. Primary work is as a photo/multimedia editor on the Columbia Missourian photo desk. You collaborate on daily and semester projects and are assigned specific leadership roles.
Credit Hours: 3
Prerequisites: JOURN 4408 or JOURN 4204 or JOURN 4500 or JOURN 4560

JOURN 4974: Advanced Internet Applications for Radio/TV News
Integration of advanced Internet research and publishing skills with production and management of the KOMU-TV/KBIA Radio World Wide Web news service.
Credit Hours: 3
Prerequisites: JOURN 4306

JOURN 4976: Seminar in Radio/TV News
Seminar in network and local news process, in coverage of major issues and social problems, in relationships of radio-TV news and government institutions.
Credit Hours: 3
Prerequisites: Consent of instructor required

JOURN 4978: Media Management and Leadership
Dramatic changes in technology and the media’s role in converging technologies require new management and leadership techniques and paradigms. Students will write case examining these changes.
Credit Hours: 3
Prerequisites: JOURN 4306 or JOURN 4804. Restricted to Journalism and Science and Agricultural Journalism majors only

JOURN 4980: The Picture Story and Photographic Essay
Production of photo stories/essays for newspapers, magazines and news media presentations. Research, photography, design and layout. Final portfolio will show journalistic strength and versatility in black and white, and color.
Credit Hours: 3
Prerequisites: JOURN 4560

JOURN 4982: Magazine Staff
(cross-leveled with JOURN 7982). This course provides hands-on experience serving as an editor on a magazine staff. Students are department editors for Vox Magazine and learn how to take a story from an idea through story creation and production and to the printed page, as well as best practices for executing that idea across multiple platforms. Students learn about pitching, working with writers, designers and photographers, editing for content and style, successful story packaging and team collaboration.
Credit Hours: 3
Prerequisites: Consent of instructor required

JOURN 4984: Advanced Writing
(cross-leveled with JOURN 7984). This course builds on the in-depth, reporting, research, and writing techniques of Intermediate Writing and other writing and reporting classes. It is designed for those who wish to pursue writing as a career. Students complete writing assignments and analyze the work of well-known magazine and book authors.
Credit Hours: 3
Prerequisites: Consent of instructor required
Recommended: JOURN 4408 and JOURN 4410 or JOURN 4412 or JOURN 4416 or JOURN 4480

JOURN 4986: Advanced Publication Design
(cross-leveled with JOURN 7986). Project-based capstone in which skills learned in previous courses are applied to professional-level design challenges, such as feature, cover or iPad designs; multimedia prototypes; special editions; or other applications for Vox Magazine, Columbia Missourian, or other outlets.
Credit Hours: 3
Prerequisites: Consent of instructor required
Recommended: JOURN 4408 and JOURN 4410 or JOURN 4412 or JOURN 4416 or JOURN 4480

JOURN 4988: Advanced Publication Design
(cross-leveled with JOURN 7988). Project-based capstone in which skills learned in previous courses are applied to professional-level design challenges, such as feature, cover or iPad designs; multimedia

JOURN 4986W: Advanced Writing - Writing Intensive
(cross-leveled with JOURN 7986). This course builds on the in-depth, reporting, research, and writing techniques of Intermediate Writing and other writing and reporting classes. It is designed for those who wish to pursue writing as a career. Students complete writing assignments and analyze the work of well-known magazine and book authors.
Credit Hours: 3
Prerequisites: Consent of instructor required
Recommended: JOURN 4408 and JOURN 4410 or JOURN 4412 or JOURN 4416 or JOURN 4480

JOURN 4988W: Advanced Publication Design
(cross-leveled with JOURN 7988). Project-based capstone in which skills learned in previous courses are applied to professional-level design challenges, such as feature, cover or iPad designs; multimedia
prototypes; special editions; or other applications for Vox Magazine, Columbia Missourian, or other outlets.

Credit Hours: 3
Prerequisites: Consent of instructor required
Recommended: JOURN 4450

JOURN 4990: Journalism and Democracy
This course seeks to cultivate critical-thinking skills by helping students synthesize and apply knowledge gained from a journalism education to the evaluation of news media performance in a democratic society.

Credit Hours: 3
Prerequisites: Consent of instructor required
Recommended: JOURN 4450

JOURN 4990W: Journalism and Democracy - Writing Intensive
This course seeks to cultivate critical-thinking skills by helping students synthesize and apply knowledge gained from a journalism education to the evaluation of news media performance in a democratic society.

Credit Hours: 3
Prerequisites: Consent of instructor required
Recommended: JOURN 4450

JOURN 4992: Reporting, Editing and Marketing of Converged Media
Capstone course brings together the reporting, editing, management and marketing skills gained in previous convergence courses. Students plan, produce, promote and evaluate journalistic content and applications. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: Consent of instructor required

JOURN 4992W: Reporting, Editing and Marketing of Converged Media - Writing Intensive
Capstone course brings together the reporting, editing, management and marketing skills gained in previous convergence courses. Students plan, produce, promote and evaluate journalistic content and applications. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: Consent of instructor required

JOURN 4994: Magazine Publishing
(cross-leveled with JOURN 7994). This capstone experience explores key components and recent trends in the magazine industry. The primary focus is creating a magazine prototype that includes conceptualizing ideas and editorial for new titles, as well as business plans for advertising, circulation, finance and production. The course follows a nuts and bolts, learn-by-doing approach to how these components work together and influence one another. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: JOURN 4408 and either JOURN 4410 or equivalent, or JOURN 4360 or 4500. Restricted to Journalism and Science and Agricultural Journalism majors only

JOURN 7000: Communications Law
Legal concepts, including prior restraint, libel, privacy, obscenity, contempt and access as they relate to print, broadcast, advertising and other areas.

Credit Hours: 3

JOURN 7050: Communications Practice
Special instruction in the school's media as an extension of existing advanced media courses, or, in advertising, an extension of advertising creative courses. Contract must be approved by instructor and dean. Some sections of the course may be offered on either A-F or S/U graded basis only.

Credit Hour: 1-3
Prerequisites: Study Abroad sections require consent by International Program. Obtain consent in 76 Gannett

JOURN 7056: Intersession Colloquium
Lecture portion of any course the student plans to take later during an intersession.

Credit Hour: 1
Prerequisites: Dean's consent

JOURN 7058: New York Program: Journalism Theory and Practice
Interdisciplinary course offering on-site study at national media venues in New York. Journalism alumni working in Manhattan provide weekly discussions on contemporary practices, job networks and work experiences.

Credit Hour: 2-3

JOURN 7120: New Media Basics
Students will learn how to use the Internet to communicate with others, find human and electronic sources for stories and publish on the World Wide Web.

Credit Hour: 1

JOURN 7122: Fundamentals of Data Reporting
(cross-leveled with JOURN 4122). Explores the importance to journalists of mining public records and data; reviews basic newsroom mathematics; teaches basic techniques for using Microsoft Excel to create and manipulate spreadsheets and to produce graphics. Graded on A-F basis only. This course is not to be taken by students who have already completed JOURN 4430 or JOURN 7430. Restricted to Graduate Journalism students.

Credit Hour: 1

JOURN 7126: Digital Audio and Visual Basics for Journalists
Introduces journalism students to audio and video tools used in converged environments. Students will create news stories, ads or promos to meet journalistic or strategic communication goals.

Credit Hour: 1
JOURN 7130: Account Services
(cross-leveled with JOURN 4130). Designed for advanced strategic communication students preparing for careers in account services. Section topics vary.
Credit Hour: 1

JOURN 7136: Creative Techniques
Designed for advanced Strategic Communication students preparing for careers in creative work. Section topics vary.
Credit Hour: 1

JOURN 7138: Public Relations Techniques
(cross-leveled with JOURN 4138). Designed for advanced strategic communication students preparing for careers in public relations. Section topics vary.
Credit Hour: 1

JOURN 7140: Interactive Techniques
(cross-leveled with JOURN 4140). Designed for advanced strategic communications students preparing for careers in interactive media. Section topics may vary.
Credit Hour: 1

JOURN 7146: Strategic Communication Techniques
(cross-leveled with JOURN 4146). Designed for advanced strategic communication students. Section topics vary. Graded on A-F basis only.
Credit Hour: 1

JOURN 7148: Interviewing Essentials
(cross-leveled with JOURN 4148). This class focuses on the journalistic interviewing process, from identifying and gaining access to the best sources, setting ethical boundaries, asking the most effective questions and ensuring accuracy. It applies to the full range of story types, from breaking news to in-depth work in all coverage areas.
Credit Hour: 1
Prerequisites: Consent of instructor required

JOURN 7150: Using Infographics
An introduction to the various types of information graphics and how each can be used effectively to help explain the news. Additional emphasis on generating graphic ideas and on the specific challenges of gathering information for graphics.
Credit Hour: 1
Prerequisites: instructor's consent required

JOURN 7152: Concepts in Participatory Journalism
Journalists need to know how to be in conversation with their communities rather than lecture to them. In this course, we will look at how a collaborative culture is changing journalism, and how journalists can take advantage of the new landscape. Graded on A-F basis only.
Credit Hour: 1
Prerequisites: JOURN 2100, JOURN 2150

JOURN 7198: Area Seminar
Special lectures, readings, discussions relating to the urban journalism, state government reporting or local public affairs reporting programs.
Credit Hours: 3

JOURN 7200: Principles of Strategic Communication
(cross-leveled with JOURN 4200). Foundation course familiarizing students with an array of strategic communication tools and how they are used in the field.
Credit Hours: 3

JOURN 7204: Introduction to Strategic Writing and Design
This course will teach you about strategic writing and design, and then show you how to apply these skills to key communication platforms such as digital media, TV, radio, social media and others. Along the way, you will learn to think, write and design creatively and strategically. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: Restricted to Journalism Strategic Communication and Science and Agriculture Journalism Majors

JOURN 7206: Strategic Writing I
(cross-leveled with JOURN 7206). Students learn strategic writing for a variety of media such as print, radio, television, outdoor, new media, news releases, pitch letters and other persuasive messages.
Credit Hours: 3
Prerequisites: JOURN 4200, JOURN 4226, JOURN 4952

JOURN 7208: Strategic Writing II
(cross-leveled with JOURN 4208). Advanced course in the creation of strategic communication materials with an emphasis on strategic planning, developing creative concepts, producing and polishing copy and visuals, execution of finished product and refining.
Credit Hours: 3
Prerequisites: JOURN 4204 or JOURN 7204

JOURN 7212: Sports and Entertainment Promotion
(cross-leveled with JOURN 4212). Course focuses on the role that research, sponsorship, advertising, public relations, social media, positioning, target marketing, psychographics, and other strategic communication processes play in the promotion of the sports and entertainment industry. The course will critically analyze and examine how chief executive officers of sport and entertainment organizations choose, maintain, or redirect their promotion strategies and activities to help achieve organization missions, encourage ticket sales, and attract large audiences.
Credit Hours: 3
Prerequisites: Consent of instructor

JOURN 7213: Strategic Communication Mobile Sports Production
(cross-leveled with JOURN 4213). This class is designed to prepare Strategic Communication students for vital new positions in the world of sports marketing with the emphasis on video productions, strategic planning, and strategic dissemination of video content via multiple media, channels and platforms. Graded on A-F basis only.
**JOURN 7214: Strategic Communication Integrated Sports Production**
(cross-leveled with JOURN 4214). This course will prepare Strategic Communication students for vital new positions in the world of sports marketing with an emphasis on video production, graphics, social media analytics, messaging management and strategic planning. Students will be taught basic information, techniques and strategies necessary for success in these fields. You will be working closely with the Mizzou Sports Network and Strategic Communication faculty from day one. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: Restricted to Journalism Graduate Students

**JOURN 7216: Media Sales**
(cross-leveled with JOURN 4216). Focus of this course is to familiarize students with how to sell a variety of media including newspaper, radio, television, outdoor, new media, and others.

Credit Hours: 3
Prerequisites: JOURN 4200, JOURN 4204 and JOURN 4952

**JOURN 7218: Mojo Ad Staff**
(cross-leveled with JOURN 4218). Application of strategic communication skills in a professional services agency specializing in the youth and young adult segment. Positions include management, planning, creative, media and research. Other electives required based on position. Application required.

Credit Hours: 3
Prerequisites: Restricted to Journalism Strategic Communication and Science and Agricultural Journalism Majors

**JOURN 7220: Creative Portfolio**
(cross-leveled with JOURN 4220). Students will produce a free-standing collection of outstanding, polished creative work to demonstrate his/her ability to perform at a high level of creativity.

Credit Hours: 3
Prerequisites: core courses and JOURN 4208 or JOURN 7208

**JOURN 7226: Strategic Design and Visuals I**
Course gives students a foundation in visual communication in areas such as typography, balance, eye flow and layouts.

Credit Hours: 3

Prerequisites: JOURN 4204 or JOURN 7204

**JOURN 7228: Strategic Design and Visuals II**
(cross-leveled with JOURN 4228). Advanced course in strategic design and visuals. Persuasive visual principles applied to variety of integrated media including print, broadcast and on-line.

Credit Hours: 3
Prerequisites: JOURN 4204 or JOURN 7204

**JOURN 7236: Psychology in Advertising**
(cross-leveled with JOURN 4236). Application of psychological principles, learning, perception, motivation, attitudes to advertising. Emphasis on the increasing use of psychographics (the "lifestyle" factor) to understand consumer wants and buying behavior.

Credit Hours: 3
Prerequisites: JOURN 4200 or JOURN 7200, JOURN 4952 or JOURN 7952, JOURN 4204 or JOURN 7204

**JOURN 7238: Broadcast Advertising**
(cross-leveled with JOURN 4238). Broadcast advertising production. Emphasis on equipment, directing, script/storyboard preparation and commercial analysis. Students become familiar with procedures, techniques and facilities used in basic radio and television production.

Credit Hours: 3
Prerequisites: JOURN 4206 or JOURN 7206

**JOURN 7248: Media Strategy and Planning**
(cross-leveled with JOURN 4248). Course deals with strategic planning and the selection and evaluation of appropriate media outlets. Students gain a clear understanding of the problems and issues involved in crafting effective media strategies, creative problem solving and selection of appropriate media.

Credit Hours: 3
Prerequisites: JOURN 4200 or JOURN 7200, JOURN 4952 or JOURN 7952, JOURN 4204 or JOURN 7204. Restricted to Journalism graduate students

**JOURN 7250: Management of Strategic Communication**
(cross-leveled with JOURN 4250). How to lead and contribute to strategically sound, highly creative and seamlessly integrated strategic communication on the agency or client side of the business. Directly relevant to agency account management and account planning, as well as client career paths.

Credit Hours: 3
Prerequisites: Consent of Instructor required

**JOURN 7252: Branded Strategic Storytelling**
(cross-leveled with JOURN 4252). This course for Strategic Communication students integrates digital and content marketing planning and operational methodologies designed to deepen students’ knowledge of content creation, distribution strategies and audience engagement. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: JOURN 4200/JOURN 7200, JOURN 4204/JOURN 7204 and JOURN 4952/JOURN 7952. Restricted to Journalism Strategic Communication and Science and Agricultural Journalism Majors

**JOURN 7256: Public Relations**
Current methods of communicating with constituents as practiced by agencies, corporations and government/not-for-profit organizations.

Credit Hours: 3
Prerequisites: JOURN 4200

**JOURN 7258: Global Communication**
Understanding global communication systems with an emphasis on planning and executing strategic communication campaigns. Particular attention will be paid to cultural,
political and economic differences as they affect marketing and development communication.

Credit Hours: 3
Prerequisites: JOURN 4200 or JOURN 7200, JOURN 4204 or JOURN 7204, JOURN 4952 or JOURN 7952

JOURN 7262: Digital Strategy I
(cross-leveled with JOURN 4262). Course covers every step from integrating Internet efforts into the overall strategic communication plan to building a website that works. Designed for those with an interest in interactive advertising. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: JOURN 7200, JOURN 7204 and JOURN 7952

JOURN 7263: Digital Strategy II
(cross-leveled with JOURN 4263). Course goes in-depth on top issues in the interactive process from video advertising to social networking sites and how to increase campaign performance with web analytics. Designed for those who want a career in interactive advertising. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: JOURN 7262. Restricted to Journalism Graduate students

JOURN 7268: Strategic Communication Practicum
(cross-leveled with JOURN 4268) Practical experience in public relations, corporate communications and strategic planning with the Missouri School of Journalism serving as client. Students from all journalism disciplines will apply knowledge and skills on a variety of platforms.

Credit Hours: 3
Prerequisites: JOURN 4200 or JOURN 7200, JOURN 4204 or JOURN 7204 and JOURN 4952 or JOURN 7952

JOURN 7270: Public Relations Writing
(cross-leveled with JOURN 4270). Develop skills and capabilities in strategic communication applications, including news releases, media advisories, pitch letters, video news releases, media relations techniques, writing for electronic and broadcast media, feature writing, brochures and speeches. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: Consent of instructor

JOURN 7300: Broadcast News I
Beginning reporting and news writing for radio, television and their online services. Introduction to use of audio and video recorders and editing systems in production of news stories. Consideration of ethical issues, economic factors, relationships with news sources and gender and ethnic diversity in the newsroom and in news stories.

Credit Hours: 3
Prerequisites: JOURN 2100

JOURN 7301: Topics in Journalism
Selected current topics in journalism. Specific topics to be announced at time of registration.

Credit Hour: 1-3

JOURN 7306: Broadcast News II
Introduction to general assignment reporting skills for the newsroom environment. Instruction in time management, writing, storytelling and performance. Team skills and ethnic diversity in the newsroom are discussed. Students begin work for broadcast newsrooms.

Credit Hours: 3
Prerequisites: JOURN 4300 or JOURN 7300

JOURN 7308: Broadcast News III
Intermediate reporting and news writing skills for radio and television. Advanced techniques in the use of video and sound in production of news stories.

Credit Hours: 3
Prerequisites: JOURN 4306 or JOURN 7306, instructor's consent required

JOURN 7310: News Producing

Credit Hour: 1-3
Prerequisites: JOURN 4308 or JOURN 7308

JOURN 7320: Advanced Broadcast Reporting
(cross-leveled with JOURN 4320). In-depth reporting and editing for radio or television; advanced production techniques; emphasis on writing, interviewing, effective use of audio or videotape at KOMU-TV or KBIA.

Credit Hours: 3
Prerequisites: JOURN 4308 or JOURN 7308

JOURN 7328: Advanced News Communication
(cross-leveled with JOURN 4328). This course will examine and practice the components of effective interviewing and on-set and live reporting for television news. Students will anchor KOMU-TV's morning newscasts.

Credit Hour: 1
Prerequisites: JOURN 4306 or JOURN 7306

JOURN 7340: Viewing Journalism Films: Images of the Reporter
(cross-leveled with JOURN 4340). The course will examine images of journalists in American films ranging from "Citizen Kane" to the present. Students will analyze award-winning movies that pose key questions about the professional responsibilities of journalists in all fields. Topics will include issues related to the practice of journalism as well as those triggered by the work of specific journalists, such as Woodward and Bernstein.

Credit Hours: 2
Prerequisites: Instructor's consent required

JOURN 7350: Problems in Journalism
Independent research arranged with individual faculty member. Contract must be approved by instructor and dean. Not accepted as a substitute for any regularly scheduled course. Some sections of the course may be graded on either A-F or S/U basis only.

Credit Hour: 1-3
JOURN 7360: Fundamentals of Design
(cross-leveled with JOURN 4360). This is a beginning course in editorial design. We will study design history and learn basic design principles and concepts in both print and digital platforms. You will be introduced to software programs such as InDesign, Photoshop and Illustrator, as well as basic HTML coding.

Credit Hours: 2
Prerequisites: Consent of instructor required
Recommended: JOURN 2100 or 2150

JOURN 7370: The Intersections of Documentary Film and Journalism
(same as FILM_S 7370; cross-leveled with JOURN 4370). The popularity of documentary film in the past ten years has skyrocketed, and recent award-winning documentaries such as Inside Job (2010), Blackfish (2013), and The Invisible War (2012) are simultaneously entertaining audiences and investigating serious issues like the financial collapse, killer whale captivity, and sex crimes in the military-issues that in the past might have been covered exclusively by investigative journalism. What explains the public's growing fascination with documentary? How is documentary film reacting to recent transformations in the media landscape? Is it filling a critical need that journalism is no longer willing or able to meet? This course will explore the intersection of these two nonfiction storytelling forms--documentary film and journalism--and examine the role played by advocacy in both modes, as well as the cultural and ethical implications of the convergence between journalism and documentary film. In that it is centered on contemporary documentary film culture, the course also takes advantage of the True/False Film Festival, and will be host to a conference during Week 6, featuring a number of major visiting filmmakers and film critics. Attendance at some sessions is required. Graded on A-F basis only.

Credit Hours: 3

JOURN 7371: Documentary Theory
(cross-leveled with JOURN 4371). Documentary and other long-form storytelling methods involve a complex series of decisions made in the creation of the work that determines its style, length, direction, point of view and more. These and a thousand other editing decisions are the difference between a successful project that touches its audience and one that falls short. The focus of this course is on the craft of editing, as seen in a variety of documentary and other works and explained through the decisions made in and out of the editing room that lead to the final product. The course will introduce important concepts of editing, by narrative fiction films, the language of editing, the work of important editors and directors and how it influences today's aesthetic and how to apply what they have learned to their own documentary projects at an advanced level. Graded on A-F basis only.

Credit Hours: 3
Corequisites: JOURN 7564
Recommended: JOURN 7370

JOURN 7372: Documentary Reporting
(cross-leveled with JOURN 4372). Students will learn elementary documentary reporting techniques by producing video and audio content in small group and individual projects. The course focuses on collection of content in the field, interviewing, research, story construction, editing and presentation. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: Instructor consent

JOURN 7373: Documentary Development
(cross-leveled with JOURN 4373). This course will concern itself primarily with the formation of projects: from theories behind different kinds of documentaries, through real world investigations and research into possible projects, into the pitching and writing stage and lastly to the final idea that will be the basis of students’ senior films. The ability to properly think of, clearly articulate, pitch and hone in on a project idea often makes the difference between a successful and unsuccessful final film. Still these ideas don’t materialize out of thin air; inspiration for great documentaries can come from many places. Understanding how to seize viable project ideas is a crucial skill for a documentary filmmaker. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: JOURN 7371

JOURN 7375: Documentary Business and the Public Sphere
(cross-leveled with JOURN 4375). Whether it be through contract employment, freelancing, or independent production, creating documentaries requires a knowledge of professional and business practices that differ from many other parts of journalism. The course will introduce important concepts related to the development and production of documentary work, as well as the public distribution of that work. Students will research the industry and develop skills to manage business and professional relationships with the documentary world. Students will build and maintain personal branding materials. Graded on A-F basis only.

Credit Hours: 2
Prerequisites: JOURN 7371

JOURN 7400: Introduction to News Editing
(cross-leveled with JOURN 4400). Introduces the fundamentals of editing of stories and writing headlines for publication online and in print, including an emphasis on style and grammar. Emphasized editing for an online audience.

Credit Hours: 3
Prerequisites: Consent of instructor required

JOURN 7406: Digital News Editing
(cross-leveled with JOURN 4406). Real-world experience in digital editing and news decision-making coupled with newspaper production; emphasis on editing and headline writing across platforms, design for home page and mobile, social media, ethics and fundamentals of grammar. Lab work is hands-on experience at columbia missourian.com and the Missourian newspaper.

Credit Hours: 3
JOURN 7408: Magazine Editing
(cross-leveled with JOURN 4408). Lectures provide an introduction to the magazine industry, including types of publications, roles of an editor and skills needed for today's magazine editor. Labs focus heavily on sentence structure, grammar, syntax, usage, punctuation and style.

Credit Hours: 3
Prerequisites: Consent of instructor required
Recommended: JOURN 4450 or JOURN 4804

JOURN 7410: Intermediate Writing
(cross-leveled with JOURN 4410). In-depth reporting, research, and writing techniques with a magazine focus. Students produce articles for Vox, the Missourian and other magazines, publications or digital outlets.

Credit Hours: 3
Prerequisites: JOURN 4450 or JOURN 4750 or JOURN 4804 or JOURN 7804. Restricted to Journalism majors only

JOURN 7412: Lifestyle Journalism
(cross-leveled with JOURN 4412). In-depth reporting, research and writing techniques focused on lifestyle journalism. Students produce articles for Vox, the Missourian and other magazines, publications or digital outlets. This course can serve as a substitute for JOURN 7410 Intermediate Writing. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: JOURN 4450 or JOURN 4750 or JOURN 4804 or JOURN 7804. Restricted to Journalism majors only

JOURN 7414: Field Reporting on the Food System and Environment
(same as SCI_AG_J 7414) Field reporting on the social, political, scientific, economic and ethical dimensions of the food system and environment, with emphasis on explanatory story-telling. Includes multi-day filed trip. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: instructor's consent required

JOURN 7416: Science, Health and Environmental Writing
(cross-leveled with JOURN 4416). In this course students learn how to cover science, health and environmental topics by reporting and writing several stories for publication. Students can develop a marketable specialty or cover these angles in any beat. This course can serve as a substitute for JOURN 7410 Intermediate Writing.

Credit Hours: 3
Prerequisites: JOURN 4450 or JOURN 4750 or JOURN 4804 or JOURN 7804

JOURN 7418: Critical Reviewing
(cross-leveled with JOURN 4418). This course seeks to enrich students' understanding of the arts; support their attendance of concerts, plays, films, and exhibitions; sharpen their skills in critical thinking; and encourage the publication of their reviews in Vox as well as other outlets. Students will analyze the works of critics, gain a general appreciation of the ways to approach each art, and write reviews.

Credit Hours: 3
Prerequisites: JOURN 0900 or JOURN 2100

JOURN 7420: Editorial Writing

Credit Hours: 3
Prerequisites: JOURN 4450

JOURN 7422: Sports Journalism
A review of everything from "How to Watch Sports" to the history of sports writing.

Credit Hours: 3
Prerequisites: JOURN 4450 or JOURN 7450, or JOURN 4804 or JOURN 7804, or JOURN 4306 or JOURN 7306. Restricted to Journalism and Science and Agricultural Journalism students only. Instructor's consent required. Priority will be given on first-come, first-served basis as space allows

JOURN 7424: Covering Traumatic Events
(cross-leveled with JOURN 4424). This course will prepare reporters and future newsroom managers across platforms for the ethical, practical and emotional challenges of reporting accurately and sensitively on traumatic events. It will give students a deeper understanding of the psychological impact of such events, including natural and man-made disasters, violent crime, accidents, terrorism and war. The course will explore how news coverage affects individuals and communities, and the psychological challenges and ethical hazards for the journalists who cover these events, with a focus on best newsroom practices for managing fast-breaking news stories and mitigating the effects on communities and staffs. The course will also explore the challenges of technology in the context of traumatic events and how social media have affected coverage of and response to crime, war and disasters. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: JOURN 4450 or JOURN 7450; JOURN 4804 or JOURN 7804; or JOURN 4560 or JOURN 7560

JOURN 7426: Religion Reporting and Writing
(same as REL_ST 7418). Advanced seminar in religion reporting and writing. Examines the role of religion journalism in faith, public life and culture.

Credit Hours: 3
Prerequisites: JOURN 4450 or JOURN 7450 or its equivalent in professional writing experience and instructor's consent

JOURN 7428: Health Reporting Skills
This course focuses on reporting, sourcing and analysis techniques journalists use to understand and report on health policy, health-care quality, medical research and the business of health care. Graded on A-F basis only.

Credit Hour: 2-3
Prerequisites: JOURN 4450 or JOURN 7450, JOURN 4306 or JOURN 7306, or JOURN 4804 or JOURN 7804 and instructor's consent

JOURN 7430: Computer-Assisted Reporting
How to negotiate for, transfer and process electronic information; the unique opportunities computers provide for analyzing information.

Credit Hours: 3
JOURN 7432: Advanced Data Journalism (cross-leveled with JOURN 4432). Teaches students how to creatively solve problems in journalism using computer programming. Students will learn how to code using the Python language, and how to apply those coding skills to perform real-world tasks. Students will learn the concepts, theory and practical programming skills needed to clean data, scrape web sites and turn databases into interactive online experiences. By the end of the semester, students will have learned the skills to create interactive database presentations, and will have created a functional web app that will serve as a portfolio piece.

Credit Hours: 3
Prerequisites: JOURN 4430
Recommended: JOURN 4502

JOURN 7434: The Art and Mechanics of the Business Story
The purpose of this course is to give students a deep understanding of business journalism and for them to apply those skills in a real newsroom, Missouri Business Alert. The class will cover everything from audience to financials, and students will leave the class with several work samples to show potential employers. Those classes include: JOURN 4450 or JOURN 7450; JOURN 4306 or JOURN 7306; JOURN 4804 or JOURN 7804; JOURN 4556 or JOURN 7556.

Credit Hours: 3
Prerequisites: Journalism Graduate students who have passes a newsroom reporting class (or its equivalent)

JOURN 7436: Investigative Reporting
Advanced course designed to acquaint reporters with public issues. Students write two in-depth projects and other shorter assignments. Students meet weekly with instructor for editorial suggestions.

Credit Hours: 3
Prerequisites: JOURN 4450 or JOURN 7450 and instructor's consent

JOURN 7438: Business and Economics Reporting
Advanced reporting course concentrating on writing and reporting about business and the economy. Emphasis on sources, records, documents and writing techniques.

Credit Hours: 3
Prerequisites: JOURN 4408 or JOURN 7408 and JOURN 4410 or JOURN 7410 or JOURN 4506 or JOURN 7506

JOURN 7440: Mapping for Stories and Graphics
Learn mapping software to discover information for news stories and lay the foundations for compelling news information graphics. Students will learn how to create maps for print, broadcast and online. Graded on A-F basis only.

Credit Hours: 2
Prerequisites: JOURN 2100 and instructor's consent

JOURN 7450: News Reporting
Assignments on a daily city newspaper covering community news, city, county and state affairs, sports and lifestyle issues. Experience in gathering and writing news, writing under deadline conditions.

Credit Hours: 3

JOURN 7460: Advanced News Reporting (cross-leveled with JOURN 7460). Assignments to more difficult beat areas, team reporting, and some investigative reporting for community newspaper. Individual conferences and weekly class sessions on contemporary reporting problems.

Credit Hours: 3
Prerequisites: JOURN 4450 or JOURN 7450

JOURN 7462: Emerging Technologies in Journalism
This course quickly responds to technology developments in journalism through a combination of theory, practice and research. Students learn to use the developing technology and also strategies to manage its impact on media organizations while expanding academic discourse. May be repeated for credit. Graded A-F basis only.

Credit Hour: 1-3

JOURN 7464: Magazines Across Platforms
(cross-leveled with JOURN 4464). As digital editors for Vox Magazine, students manage and create content for Vox's digital platforms, including its WordPress website, blog, social media accounts and award-winning iPad app. Students also work with analytics, engagement and multimedia. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: Consent of instructor required
Recommended: JOURN 4450 or JOURN 7450 or JOURN 4804 or JOURN 7804

JOURN 7480: Will Write for Food (and Wine)
(cross-leveled with SCI_AG_J 4480). Course focuses on food and wine writing in current U.S. culture. Come ready to create mouthwatering narrative and actively seek publishing your finished work. An emphasis will be placed on class participation and written critiques of peer-reviewed articles in class. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: Junior standing, instructor's consent and JOURN 4450. Restricted to Journalism and Science Agriculture Journalism students only

JOURN 7500: Publication Design
Intermediate design techniques and theories of editorial design. Students apply classroom teachings by designing pages for the Columbia Missourian and Vox Magazine. Students work under deadline and learn attention-to-detail through use of execution of design style guides.

Credit Hours: 3
Prerequisites: JOURN 4360 and instructor's consent. Restricted to Journalism Graduate students only

JOURN 7502: Multimedia Planning and Design
Class covers the basics of web design - Storyboarding, navigation, information architecture, reader behavior, usability studies - as they relate to journalistic stories and persuasive messages. Prerequisites: Completion of one of the following: JOURN 4804, JOURN 4508, JOURN 4406, JOURN 4506, JOURN 4204, JOURN 4306, JOURN 4450 or JOURN 4566; or by instructor's consent.

</tbody>
</table>
JOURN 7656: International News Media Systems
A comparative survey of current news media systems and how they affect the international flow of information. Newspapers, news agencies, broadcasting and satellite networks of the world are analyzed.

Credit Hours: 3

JOURN 7658: International Journalism
An examination of the gathering, editing and dissemination of international news. The impact of social, economic, cultural and political structures on news media performance is evaluated.

Credit Hours: 3

JOURN 7660: Media Forces Shaping the European Union
Seminar analyzes the role of media in shaping policies and actions of the European Union member nations and their people. Open to graduate students regardless of major and to undergraduates with instructor's consent. Course qualifies for EU Certificate Program.

Credit Hours: 3

JOURN 7662: Global News Across Platforms
(cross-leveled with JOURN 4662). Online, radio, and print production for a converged media enterprise, Global Journalist. Students report, write, plan, edit, design, and produce a video and radio program and website on international news while working under weekly deadlines.

Credit Hours: 3

JOURN 7700: Participatory Journalism
An examination of how information is shared outside professional journalism, and how journalists can interact with communities. Topics will include community collaboration, social media, audience outreach and understanding, and an expanding definition of "news." Students will work with the community on behalf of the Missourian. All interest areas welcome.

Credit Hours: 3

Prerequisites: instructor's consent

JOURN 7706: The Community Newspaper
The role of the newspaper in the community. Handling of news categories especially applicable to smaller newspaper. Field trips giving students experience in publishing newspapers in the state.

Credit Hours: 3

Prerequisites: JOURN _0900 and JOURN 2100

JOURN 7710: Newspaper Management
Department-by-department organization, business practices, personnel, rate structures, equipment, production, laws and regulations of concern to newspaper management. Cases examine critical newspaper management issues.

Credit Hours: 3

JOURN 7716: Women and the Media
(same as WGST 7716; cross-leveled with JOURN 4716, WGST 4716). Focus on portrayal of women in American mass media. Other goals: historical perspective on women as journalists; exposure to issues usually not covered by mass media; research and writing skills.

Credit Hours: 3

Prerequisites: instructor's consent required

JOURN 7718: Law and the Justice System
(cross-leveled with JOURN 4718). Lectures, readings, discussions, writing assignments relating to justice system reporting from the view of attorneys, prosecutors, judges, correction and probation officers, with the cooperation of the Missouri Bar.

Credit Hours: 3

Prerequisites: JOURN _0900 or JOURN 2100

JOURN 7720: Internet Law
This course will focus on how to avoid legal pitfall while doing e-mail or e-commerce or browsing the Web and how to use the law to your benefit.

Credit Hours: 3

JOURN 7728: Confronting Controls on Information
A review of actions by government, society and the communications media calculated to limit or alter the content of information in the United States and elsewhere around the world.

Credit Hours: 3

Prerequisites: instructor's consent required

JOURN 7730: Journalism and Conflict
Introduction to the basic principles of conflict theory and negotiation, including the sources of conflict, why conflict escalates and what the conditions are for de-escalation, all with a special emphasis on the implications for the working journalist.

Credit Hours: 3

JOURN 7734: Journalism and Chaos: How to Understand and Cover 21st Century Business Models
The purpose of this class is to explore alternative business/journalism models that can be grown from the rib of the traditional newsroom.

Credit Hours: 3

Prerequisites: Restricted to Journalism and Agricultural Journalism students only

JOURN 7736: Changing Media Business Models
Analysis of the economic changes in news media. Explore concepts and theories of monetizing media. Hands-on experience in creating innovations in media business models.

Credit Hours: 3

JOURN 7738: Thought, Language and Journalism
This seminar uses the methods of science to explore and better understand the biases and limitations of language, culture, technology and other factors shaping the semantic environment as applied to the practice of journalism and mass communications studies.

Credit Hour: 1-3

</tbody>
</table>
JOURN 7980: The Picture Story and Photographic Essay
Production of photo stories/essays for newspapers, magazines and news media presentations. Research, photography, design and layout. Final portfolio will show journalistic strength and versatility in black and white, and color.
Credit Hours: 3
Prerequisites: JOURN 4560 or JOURN 7560

JOURN 7984: Magazine Staff
(cross-leveled with JOURN 4984). This course provides hands-on experience serving as an editor on a magazine staff. Students are department editors for Vox Magazine and learn how to take a story from an idea through story creation and production and to the printed page, as well as best practices for executing that idea across multiple platforms. Students learn about pitching, working with writers, designers and photographers, editing for content and style, successful story packaging and team collaboration.
Credit Hours: 3
Prerequisites: JOURN 4410 or JOURN 7410, JOURN 4408 or JOURN 7408

JOURN 7986: Advanced Writing
(cross-leveled with JOURN 4986). This course builds on the in-depth, reporting, research, and writing techniques of Intermediate Writing and other writing and reporting classes. It is designed for those who wish to pursue writing as a career. Students complete writing assignments and analyze the work of well-known magazine and book authors.
Credit Hours: 3
Prerequisites: JOURN 4410 or JOURN 7410 or equivalent. Restricted to Journalism students only

JOURN 7988: Advanced Publication Design
(cross-leveled with JOURN 4988). Project-based capstone in which skills learned in previous courses are applied to professional-level design challenges, such as feature, cover or iPad designs; multimedia prototypes; special editions; or other applications for Vox Magazine, Columbia Missourian or other outlets.
Credit Hours: 3
Prerequisites: Consent of instructor required
Recommended: JOURN 4500 or JOURN 7500

JOURN 7992: Reporting, Editing and Marketing of Converged Media
Capstone course brings together the reporting, editing, management and marketing skills gained in previous convergence courses. Students plan, produce, promote and evaluate journalistic content and applications. Graded on A-F basis only.
Credit Hours: 3
Prerequisites: JOURN 4804, JOURN 4806 or equivalent level of multimedia experience; instructor's consent required

JOURN 7994: Magazine Publishing
(cross-leveled with JOURN 4994). This capstone experience explores key components and recent trends in the magazine industry. The primary focus is creating a magazine prototype that includes conceptualizing ideas and editorial for new titles, as well as business plans for advertising, circulation, finance and production. The course follows a nuts and bolts, learn-by-doing approach to how these components work together and influence one another.
Credit Hours: 3
Prerequisites: JOURN 4408 or JOURN 7408 and either JOURN 4410 or 7410 or equivalent, or JOURN 4360 or JOURN 7360 or JOURN 4500 or JOURN 7500. Restricted to Journalism students only

JOURN 8000: Mass Media Seminar
Concepts, functions and major problems of print and electronic media in the United States. Two hours lecture and one hour of discussion lab each week.
Credit Hours: 3

JOURN 8001: Seminar on Topics in Journalism
Problems, issues and approaches to research in selected topic areas. Specific content varies by needs of faculty and students and will be announced in advance.
Credit Hours: 3

JOURN 8006: Quantitative Research Methods in Journalism
Research methods of utility in journalism and philosophy of science. Emphasis on understanding common quantitative methods and tools.
Credit Hours: 3
Prerequisites: six hours of journalism or instructor's consent

JOURN 8008: Qualitative Research Methods in Journalism
Course is designed to introduce graduate students to common qualitative approaches applicable to the study of journalism and mass communication. Students will learn a variety of approaches, practical methodologies and tools that will help them conduct research.
Credit Hours: 3

JOURN 8010: Advanced Qualitative Methods in Journalism
Designed to familiarize doctoral students with qualitative approaches applicable to the study of journalism and mass communication. Students will be introduced to a variety of philosophical and conceptual approaches as well as to practical tools-oriented methodologies in four major areas of qualitative research.
Credit Hours: 3

JOURN 8016: Advanced Quantitative Research Methods
Experimental design, factor analysis, semantic differential and Q methodology as tools for the researcher in journalism, communication.
Credit Hours: 3

JOURN 8018: Strategic Communication Research II
Course reviews the latest principles of strategic communication with emphasis on the crucial role of research to develop informed strategy, monitor communication programs and evaluate overall campaign effectiveness.
Credit Hours: 3
JOURN 8020: Principles and Tools in Strategic Communication Planning
Introduces the latest principles of strategic communication and the importance of strategic planning in many contemporary communication fields. A significant operational component in the course introduces skills such as budgeting, scheduling objective-setting, organizing personal time, and managing people.
Credit Hours: 3

JOURN 8026: Philosophy of Journalism
Seminar deals with wide assortment of philosophical questions in journalism but concentrates on epistemology, political press theory and ethics. Such questions as “objectivity” in journalism, press responsibility, professionalism.
Credit Hours: 3

JOURN 8028: The Literature of Journalism
Reading of ten basic books about journalism. Several books are assigned to everyone; several are assigned on an individual basis, and several are electives. Oral reports, short papers, and class discussion.
Credit Hours: 3

JOURN 8030: History of Mass Media
American mass media from colonial days to present in the context of social, economic and political change. History research.
Credit Hours: 3

JOURN 8032: Media Sociology
This course examines the relationship between media (and journalism in particular) and society by addressing the impact of society on media and the impact of media on society. It connects media actors, organizations, and institutions to important sociological concepts, such as socialization, social interaction, social roles, and social structures, concerns, such as power, ideology, autonomy, and identity, and debates, such as agency-structure, subjectivity-objectivity, and stability-change. Graded on A-F basis only.
Credit Hours: 3

JOURN 8036: Historical Methods
Graduate seminar in research methods and theoretical approaches used by media historians, including oral history, biography, quantitative and archival research.
Credit Hours: 3

JOURN 8038: Seminar in Communications Law
A graduate-level survey of issues in media law, as well as an introduction to First Amendment theory and scholarship. The course familiarizes students with fundamental concepts of mass media law through exposure to primary materials and provides students with the opportunity to analyze the issues discussed in class through individual research projects.
Credit Hours: 3

JOURN 8042: Health News and Promotion
This is an advanced seminar that examines and critiques the literature on health communication in news about health and its impact and health promotion campaigns.
Credit Hours: 3

JOURN 8044: Strategic Conflict Management
Strategic conflict management is a cross-disciplinary study that integrated organizational behavior, crisis management, conflict resolution and image repair. This course melds theory with practice, and is for those venturing into media management, law, and strategic communication.
Credit Hours: 3
Prerequisites: graduate journalism standing required

JOURN 8046: Controls of Information
A detail of actions by government, largely the federal government, calculated to limit or alter the content of information in the United States.
Credit Hours: 3

JOURN 8052: Case Studies in the Digital Globe
This course seeks to broaden students perspective about how digital technology affects the world around us. Final course in the CDig certificate. Inter-departmental course.
Credit Hours: 3

JOURN 8054: Entrepreneurship and Media of the Future
This course will give students an intense hands-on experience in working with real entrepreneurs on complex business problems in the journalism field. Example companies are the Associated Press, Kachingle, the Chicago Sun-Times, Spot-Us and the Media Policy Center. The goal is to offer a solution or solutions to the stated problem, and to present these ideas in a competitive, symposium environment.
Credit Hours: 3
Prerequisites: Graduate standing in Journalism or MBA program

JOURN 8056: Theory of Mass Communication
Major communication theories and theorists. Interpersonal theories are included as they relate to mass communication.
Credit Hours: 3

JOURN 8058: Communication in Media Organizations
Covers key concepts in management and communication in media organizations, including print, broadcast, advertising and public relations. Topics include leadership, human resource management, managerial/employee communication, career success, financial decision-making, teambuilding and goal setting in media organizations.
Credit Hours: 3
Prerequisites: Open to students in the online master's program only

JOURN 8068: The Mass Media and the Presidency
This seminar examines that historical triad of the free expression clauses of the First Amendment, the presidency and the American mass media through readings, class assignments and a project.
Credit Hours: 3

KOREAN 2160: Intermediate Korean Language I
Intermediate Korean I continues to build on the skills students acquired in the first-year series with increasing work in authentic materials and situations in conversation and reading that encourage students to understand the use of language in its social and cultural context.

Credit Hours: 3
Prerequisites: KOREAN 1200

KOREAN 2310: Korean Civilization I
Focuses on understanding traditional Korean people and culture through examining social, political, economic, and belief systems. Considers literature, art, folklore, and history up to the late 19th century. May be taken independently of KOREAN 2320.

Credit Hours: 3

KOREAN 2320: Korean Civilization II
Considers the situation and culture of Korea at the end of the Chosun Kingdom, and the period of modernization beginning about 1876. Investigates how modernization has changed Korea by looking at attitudes, behaviors, values, philosophies, and trends of Korea in the 20th and 21st centuries. May be taken independently of KOREAN 2320.

Credit Hours: 3

KOREAN 2330: Study Tour of Korea
Study tour allows students to experience firsthand important cultural, historical, and education aspects of Korea. Visit key landmarks, museums, and other sites. Provides information and insight needed to cultivate greater understanding of Korea. Graded on A-F basis only.

Credit Hours: 3

KOREAN 2810: History of Korea: Premodern to Hypermodern
(same as HIST 2810). This course examines Korea historically. The area known as Korea and the people identified as Korean are considered temporally from the ancient times to the contemporary period. This course begins with the questions of what is Korea and when it became a distinct place in world history. More time is devoted to the contemporary period than other periods, and North Korea is equally considered with South Korea. This course is not only about what happened in Korea but also about how Korea's historical events are causally connected to world events, with the greater aim of universalizing Koreans' historical questions.

Credit Hours: 3

KOREAN 3001: Topics in Korean-General
Organized study of selected topics. Subjects and earnable credit may vary from semester to semester. May be repeated for credit with departmental consent. Prerequisites: sophomore standing and instructor's consent;

Credit Hour: 1-3

KOREAN 3005: Topics in Korean - Humanities
Organized study of selected topics. Subjects and earnable credit may vary from semester to semester. May be repeated for credit with departmental consent.

Credit Hours: 3
Prerequisites: sophomore standing and instructor's consent

KOREAN 3160: Intermediate Korean Language II
Continues to build on the skills students acquire in the third semester of Korean language with increasing work in authentic materials and situations in conversation and reading. Encourages students to understand the use of language in its social and cultural context.

Credit Hours: 3
Prerequisites: KOREAN 2160, or instructor's consent

KOREAN 3180: Advanced Korean I
The course is designed to advance students to greater strength in oral communication competence, reading skills, and socio-cultural knowledge of Korea. Graded on A-F basis only.

Credit Hours: 3
Prerequisites: C- or higher in KOREAN 3160, or equivalent

KOREAN 3650: The Korean Peninsula in World Affairs: Political, Economic, and Cultural Forces
Designed as interdisciplinary introduction to Korean politics, public policy, economics, and society, paying special attention to the government and politics of South Korea. The Korean peninsula (South and North Korea) has important implications for U.S. foreign policy toward East Asia. Surrounded by Russia, China, and Japan, the Korean peninsula long been regarded among social scientists as one of major regional cases that informs the broader theoretical debate on political and economic issues including democratization, civil society, economic development, and security. Course aims to provide students with the information necessary to understand and analyze modern South and North Korea, and discuss the future of the two Koreas as well as of U.S. foreign policy toward Korea.

Credit Hours: 3

KOREAN 3800: Korean Economic Development and US-Korean Free Trade Agreement
Covers introductory theories of economic development and overviews Korean historical economic development plans. Aids with understanding how South Korean achieved high levels of economic development and what policies the South Korean Government implemented to spur growth. US -Korea Free Trade Agreement is a good example of how trade promotes the achievement of development goals.

Credit Hours: 3

KOREAN 3850: Religion and Culture in Modern Korea
Survey of religious traditions and culture in Korea within a broader context of world religions: Shamanism, Buddhism, Confucianism, and Christianity, as well as new religions that have sprouted since the late nineteenth century. Intended to help students understand how religious values, ideas and practices have been integrated into the modern contemporary Korean society and culture. Discussion of how religious traditions in Korea have interacted with each other and culture. No knowledge of Korean language or culture or history required.

Credit Hours: 3
Prerequisites: sophomore standing or instructor's consent

KOREAN 3850: Religion and Culture in Modern Korea
Survey of religious traditions and culture in Korea within a broader context of world religions: Shamanism, Buddhism, Confucianism, and Christianity, as well as new religions that have sprouted since the late nineteenth century. Intended to help students understand how religious values, ideas and practices have been integrated into the modern contemporary Korean society and culture. Discussion of how religious traditions in Korea have interacted with each other and culture. No knowledge of Korean language or culture or history required.

Credit Hours: 3
Prerequisites: sophomore standing or instructor's consent
KOREAN 3890: Korean Society Through Cinema
(same as FILM_S 3895). Examines the way in which Korean film reveals the cultural, political, and ideological orientation of the society in which it is created and circulated. Compares films from North and South Korea, considering modernity, gender, nation-hood, and class. Graded on A/F basis only.

**Credit Hours:** 3
**Prerequisites:** sophomore standing

---

KOREAN 4001: Topics in Korean-General
Organized study of selected topics. Subjects and earnable credit may vary from semester to semester. May be repeated for credit with departmental consent.

**Credit Hour:** 1-3
**Prerequisites:** sophomore standing and instructor's consent

---

KOREAN 4005: Topics in Korean - Humanities
Organized study of selected topics. Subjects and earnable credit may vary from semester to semester. May be repeated for credit with departmental consent.

**Credit Hour:** 1-3
**Prerequisites:** sophomore standing and instructor's consent

---

KOREAN 4220: Korean Unification
Explores many different topics related to Korean Unification. Studies North Korean ideology, political system, economic system, military, and negotiating behavior. Examines Unification policies of Koreas as well as past efforts toward Unification. Considers various scenarios of unification. Studies unification attitudes and values of Korean people including anti-American values, and the roles of neighboring countries.

**Credit Hours:** 3
**Prerequisites:** junior standing required

---

KOREAN 4260: The Korean Diaspora in the U.S., Japan and China
Interdisciplinary course related to the phenomenon of migration and settlement from Korea. Course seeks to deepen understanding of the ways in which Korean immigrants have shaped and continue to shape social thought as well as institutions in the United States, Japan and China. Draws upon literature, history and cultural studies to examine experiences of Koreans living in the U.S., Japan and China. Through reading critical literatures, students address issues such as immigration history, race/ethnicity, racism and resistance, gender and sexuality, culture and identity, labor, migration and globalization, class, education, religion.

**Credit Hours:** 3
**Prerequisites:** sophomore standing or instructor's consent required

---

KOREAN 4867: North Korea: History, Political Economy, Culture
(same as HIST 4867). The aim of this course is to survey North Korea's history, especially in terms of political economy and culture. Through several themes, we will examine the historical situations of North Korea from its beginnings in the postliberation period to the present, as North Korea undergoes monumental changes. Graded on A-F basis only.

**Credit Hours:** 3
**Prerequisites:** sophomore standing, or instructor's consent

---

**Laboratory Animal Medicine Courses**

LAB_AN 8085: Problems in Laboratory Animal Medicine
Advanced studies not expected to terminate in a thesis.

**Credit Hour:** 1-99

---

LAB_AN 8090: Research in Laboratory Animal Medicine
Research expected to terminate in a thesis. Graded on a S/U basis only.

**Credit Hour:** 1-99

---

LAB_AN 8450: Research in Laboratory Animal Medicine
Research not expected to terminate in a thesis. Graded on S/U basis only.

**Credit Hour:** 1-99

---

LAB_AN 9085: Topics in Laboratory Animal Medicine
Courses on various specialized topics in laboratory animal medicine or comparative medicine given on an as needed basis; content depends on faculty expertise and student need.

**Credit Hour:** 1-99
**Prerequisites:** instructor's consent

---

LAB_AN 9087: Seminar in Laboratory Animal Medicine
Theme-oriented seminars and discussions in the field of laboratory animal medicine, comparative medicine or related areas. Graded on S/U basis only.

**Credit Hour:** 1
**Prerequisites:** departmental consent

---

LAB_AN 9437: Pathology of Laboratory Animals
Pathogenesis, pathology and diagnosis of naturally occurring diseases in animals used in research.

**Credit Hours:** 4
**Prerequisites:** departmental consent

---

LAB_AN 9468: Laboratory Animal Biology
Anatomy, taxonomy, reproduction, genetics, nutrition, and behavior of common laboratory animals. Emphasis is placed on mice and rats, including genetically-engineered models with comparative discussions on other laboratory animals. Prerequisites: departmental consent

**Credit Hours:** 4

---

LAB_AN 9469: Laboratory Animal Resource Management
Policies, standards and regulations in the care and use of laboratory animals, including colony management, animal procurement, cost accounting, facility design, and supervisory skills.

**Credit Hours:** 4
**Prerequisites:** departmental consent

---

LAB_AN 9475: Methodology of Animal Experimentation
Topics include experimental design, applied biostatistics, concepts of animal modeling.
### Credit Hours: 3
### Prerequisites: departmental consent

**LAB_AN 9476: Grant and Manuscript Writing for Biomedical Researchers**
Topics include experimental design, applied biostatistics, and writing effective grant proposals and scientific manuscripts. Methods include lecture, discussion, and assignments including an individual grant proposal which will be reviewed by a mock study section.

**Credit Hours: 3**
**Prerequisites:** LAB_AN 9475; instructor's consent

**LAB_AN 9477: Laboratory and Project Management**
This course will provide graduates with professional development skills and career guidance including instruction in laboratory and project management. Topics will include job searching, start-up considerations, equipping a lab, personnel management, and budget management. Graded on S/U basis only.

**Credit Hour: 1**
**Prerequisites:** enrollment in Comparative Medicine Area Program or approval of course coordinator

### Latin Courses

**LATIN 1100: Elementary Latin I**
Forms, grammar, syntax.

**Credit Hours: 5**

**LATIN 1100H: Honors Elementary Latin**
Beginning Latin for Honors Eligible students.

**Credit Hours: 5**
**Prerequisites:** Honors eligibility required

**LATIN 1200: Elementary Latin II**
Continuation of LATIN 1100.

**Credit Hours: 5**
**Prerequisites:** LATIN 1100

**LATIN 1200H: Honors Elementary Latin II**
Continuation of LATIN 1100H.

**Credit Hours: 5**
**Prerequisites:** LATIN 1100. Honors eligibility required

**LATIN 2000: Latin Reading**
Readings in Latin prose and poetry.

**Credit Hours: 3**
**Prerequisites:** LATIN 1200

**LATIN 2000H: Latin Reading - Honors**
Readings in Latin prose and poetry.

**Credit Hours: 3**
**Prerequisites:** LATIN 1200. Honors eligibility required

**LATIN 4300: Latin Poetry**
Readings in selections from the Latin poets.

**Credit Hours: 3**
**Prerequisites:** LATIN 2000

**LATIN 4350: Latin Prose**
Selections from various Latin prose writers; some composition at instructor's discretion.

**Credit Hours: 3**
**Prerequisites:** LATIN 2000

**LATIN 4350: Latin Prose**
Study and writing of connected prose compositions.
