## Degrees, Majors (Degree Programs), Emphasis Areas, Minors and Certificates

Superscripts on emphasis areas correspond to superscripts on that degree program’s majors where the emphasis is applicable. See tables following the degree listing for Keys to the College and Degree abbreviations.

Major and Career Exploration

The University of Missouri has many resources to assist you in exploring majors and career possibilities. For guidance, visit the Majors and Careers (https://career.missouri.edu/majors-careers) website or view specific resources below.

- If you are considering a change of major or are exploring multiple majors, schedule an appointment with an advisor in Academic Exploration and Advising Services (AEAS) (http://aeas.missouri.edu) by calling (573)884-9700.

- If you would like to learn more about your career interests, abilities, values and talents, visit the MU Career Center (http://career.missouri.edu) in the lower level of the Student Success Center. No appointment is necessary to explore career options with one of our staff members.

- If you would like information about MU majors and degree programs, visit:
  - the Degrees, Majors (Degree Programs), Emphasis Areas, Minors and Certificates (p. 16) page in the catalog,
  - the MU Majors (https://majors.missouri.edu) website.

- If you want information on what you can do with a major, contact or visit:
  - Faculty or staff in the home academic department for that major,
  - the What Can I do With This Major (https://career.missouri.edu/majors-careers/explore-mu-majors) website

- If you are interested in information about occupations you're considering, visit O*Net (https://www.onetonline.org) or the Occupational Outlook Handbook (http://www.bls.gov/ooh).

- If you are curious about employment opportunities including internships and after-graduation employment, contact or visit the appropriate MU Career Services Office (http://hiremizzoutigers.com/career-offices).

- See MoScores (https://scorecard.mo.gov/scorecard/Search) for career and salary information for each credential offered by a public institution in higher education.
University Level Academic Degree Requirements

Undergraduate

Undergraduate Requirements (University) (p. 30)
Common Credit Limitations (p. 30)
General Education Requirements (p. 31)

Degree Audits for Undergraduates

The degree audit is an automated report reflecting a student’s academic progress toward the completion of a degree. Degree Audits are not available for all programs; however, please consult with the appropriate college or school for audit information.

MU students can request a degree audit by logging in to myDegreePlanner (https://mydegreeplanner.missouri.edu). Students may also access myDegreePlanner via myZou, in the Student Center, by clicking on the Request Degree Audit link. The audit automatically pulls in the student’s MU course work, transfer courses and courses in progress. This is available to current students, admitted students, and those who last attended less than three terms ago.

Past MU students can request a degree audit by contacting the Academic Advising Unit of the division in which they were last enrolled at MU. For contact information, go to http://advising.missouri.edu/contact/.

Prospective students can access a preliminary MU degree audit via https://www.transferology.com/index.htm. Information on the college credits already earned will have to be manually entered before it can be evaluated against current degree requirements.

For additional details on degree audits, go to http://registrar.missouri.edu/degree-audits/index.php.

Graduate and Professional

Master’s Requirements (University) (p. 32)
Educational Specialist Requirements (University) (p. 36)
Doctoral Requirements (Graduate School) (p. 38)
Doctoral Requirements (Law School) (p. 43)

Details on the academic requirements for medical students can be found at http://medicine.missouri.edu/education/curriculum.html.
Details on the academic requirements for veterinary medical students can be found at http://cvm.missouri.edu/about-the-college/.

Undergraduate Requirements (University)

Undergraduate students must complete all University requirements as well as all requirements specified for the degree(s) and major(s), and requirements of the college or school, and department offering the degree. This would include the University general education requirements as well as the following:

• A second MU Writing Intensive course must be completed in a student’s major. It needs to be a 3000/4000 level MU WI course approved as part of the curriculum by the faculty of a student’s major.

• Complete an approved capstone course with MU course work in the student’s major.

• Complete 30 of the last 36 credits with MU authored courses.

• Complete no fewer than 120 credit hours of coursework.

• Students may transfer more than 64 credit hours for lower division courses from either Missouri associate degree-granting or baccalaureate degree-granting institutions. Any additional lower division course credits above 64 credit hours will be accepted in transfer if the credits are applicable to the baccalaureate degree or are prerequisites for an upper division course in the major.

• Courses from a community college can account for six of the last 36 credits.

• Complete all University, general-education requirements (See the University General Education Requirements section in the catalog.)

• Earn no less than a 2.00 GPA, as defined by the GPA of Record.

• Pass the Missouri Higher Education Civics Achievement Examination with a score of seventy percent or greater.

• Complete any additional divisional, degree or major requirements as specified by the academic unit offering the degree.

• Must be completed with a grade of C- or better.

Common Credit Limitations

The following credit limitations are applicable to all undergraduate students, regardless of degree program. Please check with advisor for more information.

Chemistry

• A student can earn a maximum of 10 hours of credit towards graduation from the following courses: CHEM 1000 Introductory Chemistry, CHEM 1100 Atoms and Molecules with Lab CHEM 1320 College Chemistry I, CHEM 1330 College Chemistry II. CHEM 1310 (General Chemistry I) is also included in this maximum if you took the course prior to Fall 2013.

Economics

• Students may not receive credit towards graduation for more than one of the following courses: ECONOM 1014 Principles of Microeconomics, ECONOM 1024 Fundamentals of Microeconomics, ECONOM 1051, or ABM 1041 Applied Microeconomics.

• Students may not receive credit towards graduation for more than one of the following courses: ECONOM 1015 Principles of Macroeconomics, ECONOM 1051H General Economics - Honors or ECONOM 1000 General Economics, or ABM 1042 Applied Macroeconomics.

History

• Students may not earn credit towards graduation for both HIST 1100 Survey of American History to 1865 and HIST 1400 American History.

• Students may not earn credit towards graduation for both HIST 1200 Survey of American History Since 1865 and HIST 1400 American History.

Mathematics

• Students can only have a total of 5 hours of credit towards graduation from the following courses: MATH 1320 Elements of
General Education Requirements

General education requirements are the foundation of knowledge upon which all University of Missouri degrees are built. They are specifically intended to prepare students as citizens who must make informed judgments about issues that go beyond the narrow area of their academic specialization. Students must complete the University General Education Requirements listed below. With careful planning, some courses may be chosen to meet both University General Education Requirements and one or more of the divisional, degree and major requirements. Students are strongly encouraged (and in some divisions they are required) to meet with an academic advisor to ensure adequate progress towards the selected degree and major. More information can be found at: http://generaleducation.missouri.edu/.

Common University General Education Requirements for all MU degrees

- College Algebra (MATH 1100) or transferable equivalent\(^1\) (3 credits). Students may satisfy this requirement by:
  - Completing an appropriate math course (MATH 1100 or MATH 1160),
  - Completing a calculus course at MU (MATH 1400, MATH 1500, MATH 1700, or MATH 2300)\(^1\), which provides back-credit for MATH 1100 (or MATH 1160),
  - Passing the Proctored ALEKS Exam with a sufficient score, thereby demonstrating proficiency in College Algebra, or
  - Possessing the minimum ACT or SAT Math subscores, thereby providing an exemption (See mathplacement.missouri.edu for further details).

- English Exposition and Argumentation (ENGLSH 1000 or ENGLSH 1000H) or transferable equivalent\(^1\) (3 credits)
  - This course in expository prose, which stresses writing as a process involving critical reading and thinking skills, should be taken during your freshman year.

- Writing Intensive course\(^1\), \(^2\), \(^3\) (3 credits, 1 courses)
- American History or Government\(^2\), \(^5\) (3 credits)
- Math Reasoning Proficiency Course\(^1\), \(^2\) (these courses must state that College Algebra is a prerequisite)
- Complete an approved capstone course\(^1\) with MU course work in the student's major
- Distribution Requirement (27 credits) providing a breadth and depth of knowledge in three broad areas of study. The course work must include at least one course numbered 2000 or higher in two of the areas of distribution as described below.
  - Must include 9 credits in these sciences: biological science, physical science, and / or mathematical science\(^4\)
    - including at least one biological or physical science and its related laboratory component\(^5\)
    - representing two different areas of science
  - Must include 9 credits of behavioral and/or social science
  - Courses must be from at least two different departments in these areas
  - Must include 9 credits of humanities and/or fine arts
    - including courses from at least two different departments in these areas
  - For the full list of courses that fulfill this distribution and the noted exceptions, go to: http://generaleducation.missouri.edu/courses/

\(^1\) Must be completed with a grade of C- or better.
\(^2\) Designated courses may also be used toward the distribution requirement.
\(^3\) Course must be taken at MU unless requirement is waived via completion of an AA degree from a regionally-accredited, Missouri institution.
\(^4\) Must be courses in mathematics or statistics with College Algebra as a prerequisite.
\(^5\) Fulfills State Law Requirement.
The term “laboratory” is used in reference to courses or portions of courses that satisfy the following criteria:

- They provide students with an opportunity for the active collection and/or analysis of data from real-world observations and experiments. These activities need not take place in a conventional “laboratory” setting but may be undertaken anywhere that an appropriate experiment or observation can take place (e.g., in the field).
- They promote scientific literacy and critical thinking/problem solving skills.
- Whenever possible, they include opportunities for students to design experimental or observational protocols.
- If the laboratory is directly associated with a specific lecture course or is included as part of a course that also includes lecture, the laboratory activities promote understanding of the content presented in the lecture.

Transfer Students and University General Education Requirements

All University, general-education requirements are considered completed for students who transfer to MU with an AA degree from a regionally-accredited Missouri institution. Transfer credits for other students are evaluated on a course-by-course basis. All students must complete University graduation requirements beyond the University general education requirements.

CORE 42 Transfer Curriculum

The CORE 42 Transfer Curriculum is a block of at least 42 credit hours that will transfer as a block and be considered to have met all General Education requirements at all Missouri public colleges and universities. Students who complete the CORE 42 curriculum will meet the general education requirements.

To complete the curriculum, students must earn a minimum number of credit hours in five knowledge areas:

- Mathematical sciences – three credit hours
- Natural sciences – seven credit hours, including a course with a lab
- Humanities and fine arts – nine credit hours from at least two disciplines
- Social and behavioral sciences – nine credit hours, including a civics course
- Written and oral communications – nine credit hours (six in written communications and three in oral communications)

Credits earned beyond the minimum in each Knowledge area count toward the 42-hour minimum.

MOTR Course Equivalencies

Courses designated with a Missouri Transfer (MOTR) course number, guarantees the one-to-one transfer of these courses among all Missouri public institutions of higher education.

For more information about CORE 42 and MOTR Course Equivalencies, visit https://dhe.mo.gov/core42.php.

NOTE: Many departments, degrees and majors have more specific requirements for foundation course work in addition to the University, general-education requirement. However, the reverse is not true. Departments or academic units may not have fewer general education requirements than described by the University general education requirements. Careful planning will allow students to simultaneously meet University, general-education requirements and prepare for many of the more specific foundation courses required by their field of study.

Master's Requirements (University)

The purpose of this section is to provide an overview of the Graduate Schools policies. Students considering a master’s degree should read all of the information below to fully understand the requirements of advanced study (e.g., residency, plan of study and time lines for completion) at MU.

MU confers a variety of master’s, dual master’s degrees (http://gradschool.missouri.edu/academics/process/dual-masters-process) or dual master’s/ professional degrees to students who satisfy the general requirements of the Graduate School and the specific requirements of the degree-granting department or area program.

Designated graduate minors and certificates are available in some academic fields. Thesis and non-thesis options are available for select plans of study; students must consult with individual degree programs for more information.

Master’s Residency Requirements

The faculty of each graduate program determines its own residency requirements for master’s degrees, subject to initial review by the Graduate Faculty Senate. Consult with the academic program for requirements. For academic programs that choose to maintain the traditional regulation concerning residency for master’s students, the following applies: the student must complete a minimum of 24 semester hours of MU graduate courses which are taught by MU faculty and which are approved by the academic program and the Graduate School. Students who cannot fulfill residency requirements are encouraged to consider Mizzou Online for available degrees.

Graduation and Commencement Deadlines and Forms

It is recommended that students refer often to the Graduation & Commencement Deadlines for Master’s Students (http://gradstudies.missouri.edu/academics/graduation-commencement/timeline-deadlines/master-timeline.php) to avoid missing any important graduation or commencement deadlines. In addition to various deadlines, student must also submit a variety of necessary paperwork. By the end of the first year of master’s work at MU, a student must begin submitting degree program forms, which will aid the department and the Graduate School in planning an academically appropriate course of study and in tracking the student’s progress toward degree completion. These forms include the following:

Program of Study. Outlines the course work to be included in the student’s degree program. Due in the Office of Graduate Studies by the end of the second semester unless the degree can be completed in two semester. In that case, the form is due by the end of the first semester. Plan of Study (M1) form (pdf) (http://gradschool.missouri.edu/forms-downloads/repository/m1.pdf) Request for Thesis Committee (thesis option only). Is a membership proposal for the student’s thesis committee. Due in the Graduate School by the end of the second term. Request for Thesis Committee (M2) form (pdf) (http://gradschool.missouri.edu/forms-downloads/repository/m2.pdf)

Report of Master’s Examining Committee. Reports the results of the thesis defense, master’s comprehensive exam, project presentation, portfolio review, etc. Due in the Graduate School two weeks prior to
Choosing an Advisor

Graduate Committee Membership for Jointly Appointed Faculty Chapter 320 of the Collected Rules and Regulations for the University of Missouri requires that all jointly appointed faculty members will have designated Primary Appointment and Primary Departments as well as affiliation with one or more involved academic programs. These affiliations affect membership status of jointly appointed faculty on graduate student committees as follows:

- Faculty members may serve as advisor/committee chair when their Primary Appointment is in the graduate student’s home academic program.
- When the graduate student’s home academic program is the involved academic program for a jointly appointed faculty member, this person may serve as chair/advise with the approval of the director of graduate studies from the student’s home academic department.
- A faculty member can only serve as an Internal Member when their Primary Appointment is in the graduate student’s home academic program.
- When a graduate student’s academic program is not the home academic program for a jointly appointed faculty member, they may serve as either an internal or external member of the committee.

Graduate Committee Membership for Adjunct Faculty

Adjunct Faculty may serve as a Committee Chair or Committee Member only in academic programs in which they are appointed and approved for Graduate or Doctoral Faculty membership as appropriate for the student’s degree (Master’s or Doctoral). Service on graduate committees outside the academic program in which they are appointed requires a recommendation by the director of graduate studies from the student’s home academic program and approval by the vice provost for advanced studies and dean of the Graduate Studies.

Master’s Plan of Study

The Graduate Faculty Senate has established a campus-wide minimum of 30 hours of graduate credit beyond the bachelor’s degree (or its equivalent) for a master’s degree. Fifteen of the 30-hour minimum must be selected from courses numbered at 8000 or 9000 level. No more than 40 percent of the 30-hour credit requirement can be satisfied by a combination of special investigations, Research, Readings and/or Problems courses. Master’s Plan of study. (http://gradschool.missouri.edu/academics/process/plan-of-study/masters.php)

Completing a Plan of Study Form

After performing satisfactorily for a minimum of one semester, the student, with the advisor’s assistance, completes the Plan of Study form (pdf) that outlines the plan of study for the student’s graduate program. The form is forwarded through the academic program’s director of graduate studies to the Graduate School for approval. The Plan of Study form must be filed with Graduate School by the end of the student’s second semester of enrollment or at least one semester prior to graduation. Upon approval of the program by the Graduate School, the student is a candidate for the degree. If a change is necessary to a student’s approved Plan of Study form, a Plan of Study Substitution form must be used.

Note: An academic program may have additional credit hour (or other) requirements. Check with the program of interest to confirm degree requirements.

Transfer Credit Toward a Master’s Degree

A maximum of 20 percent of the number of credit hours required for a student’s degree may be graduate credits transferred from another university, including another campus of the University of Missouri system upon the recommendation of the advisor, the approval of the academic program director of graduate studies and the Office of Graduate Studies.

Note: the above represents a change in policy and becomes effective for graduate students beginning their master’s programs during the fall semester 2001. Students who began their master’s programs prior to the fall semester 2001 have the option of using the above regulation or the regulation in place at the time they began their degree program. The MU Graduate School will review the transfer request to determine if the credit meets the minimum guidelines.

If so then the Graduate School will process the request so that each transfer course will appear on the student’s transcript.

How to Request Transfer of Credit

1. The request or transfer credit must first be approved by the student’s advisor and the department’s director of graduate studies.
2. Once approved the student submits his/her Plan of Study or Course Substitution form to add the transfer work to the Plan of Study along with an unopened, official transfer transcript if one is not currently on file with the Graduate School.
3. Once the Office of Graduate Studies has received the request it will be reviewed to determine if minimum requirements have been met.
4. If approved then the Graduate School will process the request so that the transfer credit appears on the MU student record.

Minimum Transfer Requirements

Transfer course work:

- must be less than eight years old by the time the master’s degree is conferred;
- was taken for graduate credit and clearly marked as such on the transfer transcript, complete with credit hours and a grade;
- is limited to no more than 20 percent of the total course work on the student’s Plan of Study form;
- is from a regionally accredited institution in the U.S. or an overseas institution that is recognized by its country’s Ministry of Education as a graduate degree granting institution; and

Credit Toward a Second Master’s Degree

A student who has completed one master’s degree at the University of Missouri or elsewhere may, upon recommendation of the advisor and approval by the academic program’s director of graduate studies and the Graduate School, present a maximum of eight hours of credit earned in the previous program toward a second master’s degree.

Forming a Master’s Thesis Committee

When a thesis is required for completion of a master’s degree, the student is required to submit a Request for Thesis Committee (M2 form)
Review grading policies (p. 785) for more information.
Students with financial aid or a visa should discuss plans with the Student Financial Aid (http://financialaid.missouri.edu) office before registering for Graduate Examination hours. International students with a visa should discuss plans with MU’s International Center (http://international.missouri.edu) before registering for the Graduate Examination. Failure to do so could cause serious consequences for a student’s financial aid or visa status.

### How Enrollment Status Affects Access to Campus Resources

Students who enroll in the Graduate Examination will not have a valid student ID and thus will not have regular access to the Student Health Center, MU Libraries, the Student Recreation Center or campus computing centers. If a student needs to use any of these services, registration in a one-, two-, or three-hour course (including graduate research courses) is required. Extra fees apply for access too.

### Time Limit for Master’s Degree Completion

The program for the master’s degree must be completed within a period of eight years beginning with the first semester of enrollment in which the student is accepted to a degree program or from the date of the oldest coursework used on the plan of study. Individual academic programs may stipulate a shorter time period. Time spent in the armed services will not count toward the eight-year limit (see also Active Duty Policy). For any extension of this time limitation, the student must petition the Office of Graduate Studies by submitting a letter to the advisor who, in turn, submits a written recommendation to the Office of Graduate Studies that is endorsed by the academic program’s director of graduate studies. The Office of Graduate Studies will notify the advisor in writing of the final decision.

For academic advice or assistance with degree program planning, students should contact their advisors. See master’s graduation requirements. (http://gradschool.missouri.edu/academics/graduation-requirements/masters-grad-requirements.php)

### Reasonable Rate of Progress for Master’s Students

Reasonable rate of progress is governed by both the campus-wide policies of the Office of Graduate Studies as well as academic program regulations which may be more restrictive. Failure to satisfy the Office of Graduate Studies rate of progress policies leading to dismissal is handled by the Request for Extension (http://gradschool.missouri.edu/academics/progress/requests-for-extensions-appeals.php) process.

### Deadline for Submission of Thesis After Successful Defense

After successful defense of the thesis or dissertation, students must comply with their academic program’s and/or the International Center’s enrollment requirements. Students are required to submit their final dissertation or thesis by the end of the following semester after a successful defense unless a letter asking for an extension is submitted to the Graduate Dean by the student’s advisor and program’s DGS.

### Extension Requests for Master’s Students

Extenuating circumstances that inhibit a student’s rate of progress are handled through the Request for Extension (http://gradschool.missouri.edu/academics/progress/requests-for-extensions-appeals.php) process.

### Dismissal

Dismissals arising from violation of academic program policies may be appealed using the Appeals Process. For additional details, graduate students should refer to the Dismissal Policy (http://gradschool.missouri.edu/academics/progress/probation-termination.php) and the Extension Requests and Appeals Process (http://gradschool.missouri.edu/academics/progress/requests-for-extensions-appeals.php).

### Dual Degrees: Master’s Students

As the US workforce becomes increasingly interdisciplinary, some master’s students elect to concurrently pursue two advanced study degrees. All dual-degree programs at the graduate level require Graduate Faculty Senate approval. Please refer to the A-Z list of graduate degree programs (http://gradschool.missouri.edu/academics/programs/a-z) to learn what is currently available.

The two types of dual master’s degrees are the dual master’s degree and the dual master’s-professional degree.

<table>
<thead>
<tr>
<th>Degree Type</th>
<th>Dual Master’s Degree</th>
<th>Dual Master’s-Professional Degree</th>
</tr>
</thead>
<tbody>
<tr>
<td>Description</td>
<td>This is a cooperative degree, arranged between two graduate degree granting programs and approved by the Graduate Faculty Senate.</td>
<td>This is a cooperative degree arranged between a graduate degree granting program (e.g., law or medicine) and approved by the Graduate Faculty Senate.</td>
</tr>
<tr>
<td>Application Processes</td>
<td>Students must simultaneously submit a separate application to both degree programs to be considered for admittance. Because some students may not be aware of an approved dual-degree program before their arrival at MU, the option to participate in an approved dual-degree program may be postponed until no later than the end of a student’s second semester at MU. Start your online application process at <a href="http://gradschool.missouri.edu/admissions/index.php">http://gradschool.missouri.edu/admissions/index.php</a></td>
<td>The Office of Graduate Studies oversees the master’s degree portion of the dual master’s/professional degree. Students must apply to both the Office of Graduate Studies and the professional program, notifying both of their interest in the dual program. Start your online application process to the Graduate Studies at <a href="http://gradschool.missouri.edu/admissions/index.php">http://gradschool.missouri.edu/admissions/index.php</a></td>
</tr>
</tbody>
</table>
Forms and Policies

Students must fill out an Application for Dual Enrollment (pdf) no later than the end of a student’s second semester at MU.

For Graduate Studies policies and forms pertaining to the master’s portion of the dual master’s/doctoral degree, refer to the Master’s Degrees Requirements and Policies on the website.

Note on Dual Degrees for Law Students

Dual-degree programs with the Law School enable students to earn the Juris Doctor (JD) concurrently with a Master’s or PhD degree. Dual-degree students must fulfill entrance requirements for both schools, including the graduate studies’s entrance exam (if required) and the LSAT. Contact the Law School (p. 741) for more information on their dual-degree programs.

Note on Dual Degrees for Medical Students

Additional information concerning medical dual degrees for both master’s and doctoral students can be found on the doctoral dual degree (http://gradschool.missouri.edu/academics/graduation-requirements/dual-degree-requirements.php) page.

Counting Credits

A student must complete a minimum of 18 hours of graduate courses for each degree program respectively. A minimum of 3 hours must be 8000-level courses. Additionally, the student must complete 12 hours of shared 8000-level graduate credit, which can include thesis/project research credit, as applicable.

Thus, $18 + 12 = 48$ hours of graduate credit which is the minimum total hours for a dual master’s degree program.

For example, for a dual master’s degree program in Applied Mathematics and Electrical Engineering, a student’s plan of study must show 18 hours of Applied Mathematics graduate course work that applies only to the Applied Mathematics degree and 18 hours of Electrical Engineering graduate course work that applies only to the Electrical Engineering degree. The additional 12 hours of shared 8000-level graduate credit brings the total earned graduate credit hours to 48.

Transfer Credit

Up to eight hours of transfer credit may be applied as follows: to one of the two degree programs, or divided between the two degree programs. The eight hours of transfer credit cannot be applied to each degree program separately.

Advising & Committees

There will be a separate advisor and committee for each degree program.

Dean’s Note: the option of a combined committee structure may be included in proposals for Graduate Faculty Senate consideration, e.g., co-advisors who would also serve as outside members, plus one additional member from each degree program, for a total of four committee members.

Dual Degree Progress Forms

Special dual master’s degree program forms will be used to certify plans of study, committee members and final defense/examinations. The forms are available from the Master’s Requirements Time Line (http://gradschool.missouri.edu/academics/graduation-commencement/timeline-deadlines/master-timeline.php).

Conferral of Dual Degrees

The Office of Graduate Studies will confer two separate diplomas upon completion of all degree program requirements.

Educational Specialist Requirements

This degree, offered through the College of Education, is a 30-hour program of specialization built upon the education specialist degree, of which 24 hours must be taken with MU faculty. Six semester hours must be completed within one semester or summer session to provide an in-residence experience. Students have eight years to complete the degree from the time they are first admitted to the degree program. A student is required to take a final examination, and the report of the results must be approved by a majority of the candidate’s advisory committee members and submitted to the Graduate School. For additional information on the Educational Specialist degree (http://gradschool.missouri.edu/academics/graduation-requirements/educ-spec-requirements.php), consult the College of Education’s site (http://education.missouri.edu).

Required Educational Specialist Forms

The Graduate School obtains students’ official academic records as soon as they complete their first terms of enrollment. Each of the following forms is completed at the departmental/program level, routed for required signatures and forwarded to the Graduate School in 210 Jesse Hall.

Forms are reviewed by staff in the Office of Graduate Studies, given the Associate Vice Chancellor for Graduate Studies’ signature if approved, and an electronic copy is made available to the academic program office. If changes/corrections are needed, or if any signatures are missing, the forms will be returned to the department for corrective measures. If any faculty signatures are illegible, we ask that departments print a correct spelling below any such signatures.

Request for the Educational Specialist Advisory Committee (http://gradschool.missouri.edu/forms-downloads/repository/s1.pdf) (S-1 form, PDF)

The S-1 form serves as official documentation of who serves on a student’s advisory committee. It should be submitted to the Office of Graduate Studies by the end of a student’s second semester or at least one semester prior to degree completion.

Plan of Study for the Educational Specialist Degree (http://gradschool.missouri.edu/forms-downloads/repository/s2.pdf) (S-2 form, PDF)

The S-2 form provides the student, academic program/department and the Office of Graduate Studies with a plan for all the course work that will comprise a plan of study. It serves as a general plan to follow. Changes on the plan of study can be made easily by submitting a Course Substitution form (http://gradschool.missouri.edu/forms-downloads/repository/subform.pdf). The S-2 form should be submitted to the Graduate School preferably by the end of a student’s second semester or at least one semester prior to degree completion.

Report of the Educational Specialist Examining Committee (http://gradschool.missouri.edu/forms-downloads/repository/s3.pdf) (S-3 form, PDF)
This form is submitted by the academic program/department and reports the final results of a student’s comprehensive examination. Students are encouraged to consult with their departments to make sure the departments submit the S-3 form shortly after the exam has been graded.

**Transfer Credit Toward the Educational Specialist Degree**

A maximum of 20 percent of the number of credit hours required for a student’s degree may be graduate credits transferred from another university, including another campus of the University of Missouri system upon the recommendation of the advisor, the approval of the academic program director of graduate studies and the Office of Graduate Studies.

**Note:** The above represents a change in policy and becomes effective for graduate students beginning their education specialist programs during the fall semester 2001. Students who began their education specialist programs prior to the fall semester 2001 have the option of using the above regulation or the regulation in place at the time they began their degree program. The MU Office of Graduate Studies will review the transfer request to determine if the credit meets the minimum guidelines. If so then the Graduate School will process the request so that each transfer course will appear on the student’s transcript.

**How to Request Transfer of Credit**

1. The request or transfer credit must first be approved by the student’s advisor and the department’s director of graduate studies.
2. Once approved the student submits his/her Plan of Study or Course Substitution form to add the transfer work to the Plan of Study along with an unopened, official transfer transcript if one is not currently on file with the Office of Graduate Studies.
3. Once the Office of Graduate Studies has received the request it will be reviewed to determine if minimum requirements have been met.
4. If approved then the Office of Graduate Studies will process the request so that the transfer credit appears on the MU student record.

**Minimum Transfer Requirements**

Transfer course work:

- must be less than eight years old by the time the education specialist degree is conferred;
- was taken for graduate credit and clearly marked as such on the transfer transcript, complete with credit hours and a grade;
- is limited to no more than 20 percent of the total course work on the student’s Plan of Study form;
- is from a regionally accredited institution in the U.S. or an overseas institution that is recognized by its country’s Ministry of Education as a graduate degree granting institution.

**Special Types of Credit for the Educational Specialist Degree**

A maximum of six semester hours completed with a grade of B or better may be accepted in transfer from institutions accredited to offer doctoral degrees. Off-campus courses authorized for graduate credit and offered by MU faculty members and courses offered through MizzouOnline taught by MU faculty may be included in the program.

**Grades at the Graduate level-Graduation requirement**

To become eligible for a education specialist degree, a student must have completed all MU graduate work attempted with a GPA of 3.0 (A=4.0) or higher. Review grading policies (p. 785) for more information.

**Enrollment**

The educational specialist candidate must be enrolled at the University during the regular semester session in which comprehensive exams are taken, portfolio or project is presented, etc.

**Time Limit for Education Specialist Degree Completion**

The program for the education specialist degree must be completed within a period of eight years beginning with the first semester of enrollment in which the student is accepted to a degree program or from the date of the oldest coursework used on the plan of study. Individual academic programs may stipulate a shorter time period.

Time spent in the armed services will not count toward the eight-year limit (see Active Duty Policy [http://veterans.missouri.edu/forms/active-duty.php]). For any extension of this time limitation, the student must petition the Office of Graduate Studies by submitting a request to the advisor who, in turn, submits a written recommendation to the Graduate School that is endorsed by the academic program’s director of graduate studies. The Office of Graduate Studies’ staff will notify the advisor in writing of the final decision.

For academic advice or assistance with degree program planning, students should contact their advisors.

**Reasonable Rate of Progress for Education Specialist Students**

Reasonable rate of progress is governed by both the campus wide policies of the Graduate School as well as academic program regulations which may be more restrictive. Failure to satisfy the Graduate School’s rate of progress policies leading to dismissal are handled by the Request for Extension process, and the decision of the Associate Vice Chancellor for Graduate Studies in these matters is binding.

**Extension Requests for Education Specialist Students**

Extenuating circumstances that inhibit a student’s rate of progress are handled through the Request for Extension ([http://gradschool.missouri.edu/academics/progress/requests-for-extensions-appeals.php](http://gradschool.missouri.edu/academics/progress/requests-for-extensions-appeals.php)) process. The decision regarding an extension is made by the vice provost for advanced studies and dean of the Graduate School, and is binding.

**Dismissal**

Dismissals arising from violation of academic program policies may be appealed using the Appeals Process. For additional details, graduate students should refer to the Dismissal Policy ([http://gradschool.missouri.edu/academics/progress/probation-termination.php](http://gradschool.missouri.edu/academics/progress/probation-termination.php)) and the Extension Requests and Appeals Process ([http://gradschool.missouri.edu/academics/progress/requests-for-extensions-appeals.php](http://gradschool.missouri.edu/academics/progress/requests-for-extensions-appeals.php)).
Doctoral Requirements (Graduate Studies)

The University of Missouri grants four types of doctoral degrees: the doctor of philosophy (PhD), the doctor of education (EdD), the doctor of physical therapy (DPT), and the doctor of nursing practice (DNP). Consult with individual departments to learn about the availability of degrees. To obtain a doctoral degree, a student must follow the general regulations of the Graduate Faculty Senate as well as special requirements of the degree program. It is the student’s responsibility to adhere to all regulations and satisfy the graduation requirements of the Office of Graduate Studies and the degree program. An individual who has held, at any time, a regular tenure-track appointment in an MU academic program is not eligible for a doctoral degree from that department or the area program in which that department participates.

Doctoral Qualifying Examination or Process

Prior to official admission into a doctoral program, the student must pass a qualifying examination or process. A department or area program may limit the number of times this examination or process may be attempted. After the qualifying process is complete and the doctoral committee has been confirmed, the Qualifying Examination Results and Doctoral Committee Approval (D1) form should be submitted to the Office of Graduate Studies, no later than the end of the second semester of enrollment.

Selecting a Doctoral Advisor

The student selects an advisor or co-advisors, by mutual consent, from doctoral faculty members who are dissertation supervisors in the department or area program in which the major work is planned. In the event that an advisor retires or leaves MU, he/she may continue to serve as a student’s advisor unless there is written academic program policy prohibiting such an arrangement. If an advisor is unable or unwilling to continue to serve, the academic program, with the leadership of the director of graduate studies, will assist to ensure that a replacement is found.

Forming a Doctoral Program Committee

The doctoral program committee must be recommended by the student’s advisor and approved by the academic program’s director of graduate studies and the Office of Graduate Studies before one year has elapsed following the student’s first registration as a doctoral student. The Qualifying Examination Results and Doctoral Committee Approval (D1) form is due to the Graduate School office by the end of the student’s second semester.

Committee Changes

Changes to the committee must be submitted on the Change of Committee form.

Duties

All members of the doctoral program committee will be intimately involved and will actively participate in the activities of the doctoral student at all the stages of the student’s career at MU, except in some cases in the qualifying examination/process. The committee also may participate in the assessment of a student’s background and potential for success in the academic program’s doctoral program. Committee members may call a meeting of the full committee at any time to discuss the student’s progress.

Membership Requirements for Doctoral Committees

The doctoral program committee shall be composed of a minimum of four members of the MU graduate faculty and will include at least three members from the student’s doctoral degree program and an outside member from a different MU program. At least two of the doctoral committee members must be MU doctoral faculty. (Note: This policy is effective for students who begin their doctoral programs during the Fall 2005 Term. For students who began their doctoral programs before the fall 2005 semester, consult the appropriate catalog or the Office of Graduate Studies.)

Additional committee members with specialized expertise who do not meet the criteria for the MU graduate faculty or doctoral faculty may serve on a doctoral committees as a fifth or sixth member, with special permission of the Associate Vice Chancellor for Graduate Studies.

Graduate Committee Membership for Jointly Appointed Faculty

Chapter 320 of the Collected Rules and Regulations for the University of Missouri requires that all jointly appointed faculty members will have a designated Primary Appointment and Primary Department as well as affiliation with one or more involved departments or units. These affiliations affect membership status of jointly appointed faculty on graduate student committees as follows:

Committee Chair/Advisor

A faculty member may serve as advisor/committee chair when his or her primary appointment is in the graduate student’s home academic program. When the graduate student’s home academic program is the involved academic program for a jointly appointed faculty member, the person may serve as chair/advisor with the approval of the director of graduate studies from the student’s home academic program.

Doctoral Committee Member

A faculty member can serve only as an Internal Member when his or her Primary Appointment is in the graduate student’s home academic program. When a graduate student’s home academic program is the involved academic program for a jointly appointed faculty member, he or she may serve as either an Internal or External Member of the committee.

Graduate Committee Membership for Adjunct Faculty

Adjunct faculty may serve as a committee chair or committee member only in academic programs in which they are appointed and approved for graduate or doctoral faculty membership as appropriate for the student’s degree (master’s or doctoral). Service on graduate committees outside the academic program in which an adjunct member is appointed requires
a recommendation by the director of graduate studies from the student’s
home academic program and approval by the Associate Vice Chancellor
for Graduate Studies.

**Doctoral Plan of Study & Degree Requirements**

The doctoral program committee provides academic program approval
of the student’s Plan of Study which will prepare the student for research
or scholarly investigation in the chosen field of study. The plan of study
includes a list of the courses and the credit to be earned. By successfully
completing the plan by deadlines, a doctoral student will:

- Prepare the student for research or scholarly investigation in the
  chosen field of study.
- Satisfy the credit-hour and residency requirement of the academic
  program.
- Satisfy any special requirements (proficiency in foreign languages,
  collateral field, doctoral minor, other special research skills) imposed
  by the department or area program.
- Satisfy the requirement for a minimum of 15 hours of MU coursework
  at the 8000/9000 level (exclusive of research, readings, and
  problems).

The committee also recommends to the Associate Vice Chancellor for
Graduate Studies, as part of the Plan of Study, any request for transfer of
graduate credit. Changes to the plan of study should be submitted on the
Plan of Study Course Substitution form (http://gradstudies.missouri.edu/
forms-downloads/repository/subform.pdf).

**Doctoral Credit-Hour Requirement**

MU requires a minimum of 72 semester hours beyond the baccalaureate
degree for the PhD and EdD degrees. The student’s doctoral program
committee must approve all course work used to satisfy the credit-hour
requirement and may require additional course work beyond these
minimums.

**Transfer Credit**

The doctoral committee may recommend up to 30 hours of post-
baccalaureate graduate credit from a regionally accredited university
be transferred toward the total hours required for the doctoral degree.
It is the responsibility of the doctoral committee to determine the
appropriateness of course work for transfer credit. All requests for
exceptions to this policy must be approved by the Associate Vice
Chancellor for Graduate Studies.

*Note:* This policy applies to students who begin their enrollment during
the Fall Term 2006 and subsequent semesters. For students who
began their doctoral programs prior to the fall 2006 semester, consult
the appropriate catalog or the Office of Graduate Studies for policies
pertaining to transfer of credit.

**Extension & Correspondence Credit in Doctoral Programs**

The doctoral committee may recommend that courses taken through
MU’s Extension division be counted toward the credit-hour requirement.
Extension or correspondence course work from institutions other than MU
may not be used to meet the total hours required for the doctoral degree.

**Time Limits on Transfer Credits**

All courses to be applied to the plan of study must be completed within
eight years of filing the plan.

**Grades at the Graduate Level**

To become eligible for a degree, a doctoral student must have completed
all MU graduate work attempted with a GPA of 3.0 (A=4.0) or higher.
Review grading policies (p. 785) for more information.

**Foreign Language Proficiency**

In general, an English-speaking student may establish foreign language
proficiency, if it is required, by demonstrating an ability to translate into
English two foreign languages; or by demonstrating a high order of
fluency in one language; that is the ability to read, write and converse in
that language and to translate that language into English and English into
that language.

**Plan of Study Completion Before Doctoral Comprehensive Exam**

The student must substantially complete the course work outlined in
the Plan of Study to the satisfaction of the doctoral program committee
and the Office of Graduate Studies before being declared ready for the
comprehensive examination (https://gradstudies.missouri.edu/wp-content/

**Doctoral Comprehensive Examination**

The student must be enrolled to take the doctoral comprehensive
examination (https://gradstudies.missouri.edu/wp-content/
uploads/2018/03/d3.pdf). It is to be administered only when MU is
officially in session. The comprehensive examination is the most
advanced posed by MU. It consists of written and oral sections. It must
be completed at least seven months before the final defense of the
dissertation. The two sections of the examination must be completed
within one month.

**Written Section**

The written section or sections of the examination may be conducted in
one or both of the following two ways:

1. The written sections may be arranged and supervised by the major
   advisor, in which case questions are prepared and graded by the
   doctoral program committee.

2. The major advisor may delegate responsibility for arranging,
   preparing, supervising and grading the written sections of the
   examination to one or more departmental/program committees
   appointed for this purpose.

**Successful Completion**

For the comprehensive examination to be successfully completed, the
doctoral program committee must vote to pass the student on the entire
examination, both written and oral sections, with no more than one
dissenting or abstaining vote. A report of examination results, carrying the
signatures of all members of the committee, must be sent to the Office
of Graduate Studies and the student no later than two weeks after the
comprehensive examination is completed.
Exam Failure
A failure of either the written or oral section of the exam constitutes failure of the comprehensive exam. If a failure is reported, the committee also must include in the report an outline of the general weaknesses or deficiencies of the student’s work. The student and the committee members are encouraged to work together to identify steps the student might take to become fully prepared for the next examination.

Request for Clarification
If the student believes that the advice given by the committee is inadequate, the student may send a written request for clarification to the committee. A copy of this request should be sent to the Office of Graduate Studies as well. The committee must respond to this request in writing within two weeks and a copy must be filed with the Office of Graduate Studies.

Retaking the Comprehensive Examination
The student who fails may not take a second comprehensive examination for at least 12 weeks. Failure to pass two comprehensive examinations automatically prevents candidacy.

Doctoral Candidacy & Continuous Enrollment
Candidacy for a doctoral degree is established by passing the comprehensive examination. Status as a continuous enrollment doctoral student begins the term after the term in which the comprehensive exam was successfully completed. Students must maintain continuous enrollment during their candidacy (the period after successful completion of the comprehensive examination).

Procedure for Continuous Enrollment
Candidacy is maintained by enrolling in 9090 Research (or 9990 Research for some Engineering students) for two semester hours each fall and spring semester and for one semester hour each summer session, or an equivalent number of hours through enrollment in other coursework, up to and including the term in which the dissertation is defended. Continuous enrollment provides access to an advisor’s support, doctoral program committee guidance and university research facilities for completion of the dissertation. Failure to enroll continuously in the appropriate number of hours until the doctoral degree is awarded terminates candidacy.

Reestablishing Candidacy After Time Off
Candidacy may be reestablished by paying the registration and late fees owed and completing the requirements specified by the student’s doctoral program committee. Registration fees owed may not exceed the amount owed for seven terms, regardless of the number of terms beyond seven for which the student failed to continuously enroll. The committee’s requirements may include a second comprehensive examination or evidence of currency in the research field as suggested by publications in refereed journals. Candidacy is reestablished when the student’s advisor and the departmental, area program or divisional director of graduate studies submits a written request to the Office of Graduate Studies explaining the basis for the decision. Once approved, a Reactivation Form (http://gradstudies.missouri.edu/forms-downloads/repository/reactivation.pdf) must be completed by the student and sent to the department/program for processing.

The Doctoral Dissertation
The dissertation must be written on a subject approved by the candidate’s doctoral program committee, must embody the results of original and significant investigation and must be the candidate’s own work.

Enrollment Status and Reporting
The candidate must be continuously enrolled (http://gradstudies.missouri.edu/admissions/types-of-enrollment/continuous-enrollment.php) to defend the dissertation, which can only be defended when MU is officially in session. A report of the dissertation defense (http://gradstudies.missouri.edu/forms-downloads/repository/d4.pdf), carrying the signatures of all members of the committee (http://gradstudies.missouri.edu/academics/process/forming-committees/doctoral.php), is sent to the Office of Graduate Studies before the deadline preceding the anticipated date of graduation. For the dissertation to be successfully defended, the student’s doctoral committee must vote to pass the student on the defense with no more than one dissenting or abstaining vote.

Required Dissertation Format
Every doctoral candidate should review the Guidelines for Preparing Theses and Dissertations from Graduate Studies and should consult their director of graduate studies for academic program style requirements. All dissertation defenses shall be open to the general faculty. Academic programs are encouraged to announce dissertation defense dates to academic program colleagues.

Submission of Dissertation to the Office of Graduate Studies
The final copy of the dissertation must be submitted to the Office of Graduate Studies electronically or as a PDF file on a CD-ROM. Specific instructions are provided in the Guidelines for Preparing Theses and Dissertations.

Reasonable Rate of Progress
Reasonable rate of progress is governed by both the campus wide policies of the Graduate Faculty Senate listed below as well as academic program regulations which may be more restrictive. Failure to satisfy the Graduate Faculty Senate’s rate of progress policies leading to dismissal is handled by the Request for Extension process (http://gradstudies.missouri.edu/academics/progress/requests-for-extensions-appeals.php). For academic advice or assistance with degree program planning, students should contact their advisors. Dismissals arising from violation of academic program policies may be appealed using the Appeals Process (http://gradstudies.missouri.edu/academics/progress/requests-for-extensions-appeals.php). Students should also refer to the section on the Dismissal Policy (http://gradstudies.missouri.edu/academics/progress/probation-termination.php) for additional details.

Time Limits for Doctoral Degree Completion
Three Graduate Faculty Senate policies govern the Reasonable Rate of Progress established for doctoral students. To determine which is applicable to a particular student, see the policies below:
Students Who Began Their Program in Fall 2000 to the Present

Effective fall semester 2000, a doctoral student must successfully complete the comprehensive examination within a period of five years beginning with the first semester of enrollment as a PhD student. In addition, the program for the doctoral degree must be completed within five years of passing the comprehensive examination. Individual departments or area programs may stipulate a shorter time period. For an extension of this time the student must petition the Graduate School by submitting a request to the advisor who, in turn, submits a written recommendation to the Graduate School which has been endorsed by the department or area program director of graduate studies.

Doctoral Students Who Passed Comps Between Fall 1994 and Summer 2000

Doctoral candidates who passed their comprehensive examinations between the beginning of the fall semester 1994 through summer session 2000 will have no more than five years after passing the comprehensive examination to complete the doctoral degree.

Doctoral Students who Passed Comps Before Fall 1994

Doctoral candidates who passed their comprehensive examinations before fall semester 1994 must complete their degree programs within eight calendar years beginning with the first semester of enrollment as a doctoral student.

Doctoral Degree Extension Request

Regardless of when a student entered the program or passed the comprehensive exam, any candidate requiring additional time must submit a request for an extension. On petition of the candidate and the candidate’s academic program, an extension of time may be granted by the Office of Graduate Studies. Academic programs specifically reserve the right to re-certify currency in the discipline. All requests for extensions should be endorsed by the academic program’s director of graduate studies and accompanied by a description of the process whereby currency in the discipline is certified, if required by the academic programs. See also Active Duty Policy (http://veterans.missouri.edu/forms/active-duty.php).

Doctorate of Education (EdD): Special Requirements and Policies

Admission

To be admitted into a doctorate of education program, the student must have attained the degree of master of arts with a major in education, a degree of master of education, or the quantitative and qualitative equivalent of one of these degrees from an accredited college or university.

EdD Qualifying Exam

If required, the qualifying examination must be successfully completed before the plan of study is determined by the advisor and the student in cooperation with the doctoral advisory committee. This program must constitute a well organized plan of professional specialization in one of the major fields of education, with one or more supporting fields.

EdD Plan of Study

A minimum of 72 semester hours of graduate level course work beyond the bachelor’s degree is required for the degree of doctor of education degree. The plan of study is specifically intended to meet the professional needs of the candidate. As well as pursuing course work in the professional areas of specialization, the student must take courses in educational statistics, advanced educational statistics, methods of educational research and one research elective course. Foreign languages are not required, except as may be determined by the student’s doctoral advisory committee.

EdD Advisory Committee

The student’s advisor officially recommends for the approval by the Graduate School a doctoral advisory committee of at least five members. For students admitted Fall 2006 and later, the requirement is at least four committee members. In addition to planning the doctoral program with the student, this committee may administer a qualifying examination, which helps to assess the student’s general background and potential for the EdD degree. It also guides the planning of the plan of study.

EdD Comprehensive Examination

When the doctoral advisory committee determines that the needed course work has been completed with satisfactory grades, it plans the comprehensive examination (a written and oral examination that includes the candidate’s major field of interest) for the degree. This examination must be taken no earlier than the second year of graduate work and be completed at least seven months before graduation. A student must be enrolled to take the comprehensive examination. It is not administered unless MU is officially in session.

For the comprehensive examination to be completed successfully, the committee must vote to pass the student with no more than one dissenting or abstaining vote. If failure is reported, the committee recommends suggested work or remedial measures. See Comprehensive Examination (https://gradstudies.missouri.edu/wp-content/uploads/2018/03/d3.pdf) under PhD Degree Regulations.

The student who fails may not take a second examination for at least 12 weeks. Failure on two comprehensive examinations automatically prevents candidacy.

Continuous Enrollment

EdD candidates are subject to the same policies and procedures as PhD candidates. See enrollment requirements (p. 780) for graduate studies.

Dissertation Defense

EdD candidates are subject to the same policies and procedures as PhD candidates. The dissertation must be reviewed and approved by the doctoral program committee (http://gradstudies.missouri.edu/academics/thesis-dissertation/dissertation-process.php).

Time Limits for Doctoral Degree Completion

Effective fall semester 2000, a doctoral student must successfully complete

- the comprehensive examination within a period of five years beginning with the first semester of enrollment as a PhD student.
- the doctoral degree within five years of passing the comprehensive examination.
Individual departments or area programs may stipulate a shorter time period.

For time limit policies prior to academic year 2000-2001, consult the Graduate School Catalog archive dissertation format EdD candidates are subject to the same dissertation formatting and submission requirements as PhD candidates. The dissertation must be reviewed and approved by the doctoral program committee. Policies can be found at http://gradstudies.missouri.edu/academics/graduation-requirements/doctoral-grad-requirements.php.

**Dissertation Submission**

The final copy of the EdD dissertation must be submitted to the Graduate School as a PDF file on a CD-ROM. Specific instructions are provided in the Guidelines for Preparing Theses and Dissertations (https://gradstudies.missouri.edu/current-students/thesis-dissertation/thesis-dissertation-guidelines).

**Deadline for Submission of Dissertation/Thesis after Successful Defense**

After successful defense of the thesis or dissertation, students must comply with their academic program’s and/or the International Center’s enrollment requirements. Students are required to submit their final dissertation or thesis by the end of the following semester after a successful defense unless a letter asking for an extension is submitted to the Associate Vice Chancellor for Graduate Studies by the student’s advisor and program’s DGS.

**Doctoral Degree Extension Request**

Regardless of when a student entered the program or passed the comprehensive exam, any candidate requiring additional time must submit a request for an extension. On petition of the candidate and the candidate’s academic program, an extension of time may be granted by the Associate Vice Chancellor for Graduate Studies.

Academic programs specifically reserve the right to re-certify currency in the discipline. All requests for extensions should be endorsed by the academic program’s director of graduate studies and accompanied by a description of the process whereby currency in the discipline is certified, if required by the academic programs. (See also Active Duty Policy.)

**Doctoral Dual Degrees**

**Dual Doctoral-Professional Degrees**

As the US workforce becomes increasingly interdisciplinary, some graduate students elect to concurrently pursue a PhD (doctoral) degree in combination with a law or medical (professional) degree. Examples include the MD/PhD and the JD/PhD. Dual degrees are cooperatively arranged between a graduate degree granting program and a professional degree granting program. The Graduate School oversees the doctoral (PhD) degree portion of the dual doctoral/professional degree. Dual degrees are approved by the Graduate Faculty Senate.

Students must apply to both the Office of Graduate Studies and the professional degree program, notifying both of their interest in a dual program. Please refer to the A-Z list of graduate degree programs (http://gradstudies.missouri.edu/academics/programs/a-z) to learn what is currently available.

Because some students may not be aware of an approved dual-degree program before their arrival at MU, the option to participate in an approved dual-degree program may be postponed until no later than the end of a student’s second semester at MU.

The governing policies for dual degrees are the same for master’s and doctoral students. Please refer to the dual-degree information for master’s students (http://gradstudies.missouri.edu/academics/process/dual-masters-process) for more information.

**Dual Degrees for Medical Students**

The MD/PhD program is for the student seeking a biomedical research career. Additional years are integrated into the medical curriculum to satisfy requirements for the PhD. (A MD/MS dual degree is another option). The graduate degree (MS or PhD) is typically accomplished after completion of the MD program. PhD programs are available in diverse areas at MU.

Students are accepted to the joint program by a single committee. Students interested in this dual-degree program should inquire at the dean’s office in the School of Medicine.

**Financial Support**

Financial support may be provided for the graduate portion of the dual-degree program. Fellowship support may be provided for the PhD portion of this program, while loan and scholarship funds may be available for the MD curriculum.

**Applying Credit**

Students participating in the MD/PhD Program at the University of Missouri may apply up to 30 hours of credit for courses taken during the preclinical phase of the MD program towards the 72 hour requirement for the PhD degree. These MD courses, however, cannot be used to satisfy the requirement for 15 hours of 8000/9000 of graduate level course work.

The following table lists the distribution of credits for the preclinical courses among areas of study that can be used by the student and their committee in determining how many credit hours should be applied toward the PhD.

<table>
<thead>

</tbody>
</table>

**Advising & Committees**

There will be a separate advisor and committee for each degree program.

*Note:* The option of a combined committee structure may be included in proposals for Graduate Faculty Senate consideration, e.g., co-advisors who would also serve as outside members, plus one additional member from each degree program, for a total of four committee members.

**Dual Degree Progress Forms**

Special dual degree program forms will be used to certify plans of study, committee members and final defense/examinations.
Timelines for PhD Completion

Policies governing doctoral degree completion, including but not limited to examinations, forms, continuous enrollment, and dissertation format, defense and submission, are detailed in the doctoral degree requirements section of the Graduate Catalog and web site.

Conferral of Dual Degrees

Upon completion of all degree program requirements, the Graduate School and the professional school will confer separate diplomas.

Doctoral Requirements (School of Law)

The Juris Doctor (J.D.), or “law degree,” is a three year post-baccalaureate program. Students must complete 89 credit hours of law courses roughly one-half of which are required courses.

View JD Degree Requirements Here (p. 743)

The wide variety of academic courses are complemented by a variety of clinics and skills courses designed to provide graduates with a solid foundation for the practice of law.
Undergraduate & Graduate

Information in the catalog is current as of May 2019. The next catalog will be published in May 2020. In the interim, new courses will be announced in myZou (https://myzou.missouri.edu), MU’s online student information system. Courses are usually available in October for the spring semester and in March for the summer and fall semesters. Midyear changes to current courses (titles, descriptions and credit hours) are not reflected here and can only be viewed in myZou.

Undergraduate Study

MU grants 25 percent of the bachelor’s degrees from Missouri public universities. Mizzou provides an intellectually diverse environment with 360-degree learning for students from every state in the nation and more than 120 countries.

Offering more than 300 degree programs through 19 colleges and schools, MU is a member of the prestigious Association of American Universities. Ninety-two percent of full-time, ranked faculty members have doctorates or the highest degree in their field. Dedicated to interdisciplinary education, MU faculty and students from different schools and colleges often collaborate. For example, some courses in the sciences are taught in conjunction with MU’s medical school, and humanities classes include areas such as music composition and creative writing.

MU is also dedicated to the Missouri Method, a philosophy of hands-on learning that includes operating a floral shop (Tiger Garden), preparing income taxes for families, studying abroad, volunteering for credit, providing health care, working at the country’s only university-owned TV network affiliate (KOMU), performing at Carnegie Hall and co-authoring articles in leading scientific journals. Mizzou students also hold patents and create startup companies.

For more information about undergraduate study, contact the MU Office of Admissions (https://admissions.missouri.edu).

Graduate Study

MU Graduate Studies offers nearly 100 master’s degree programs, more than 70 doctoral degree programs, six educational specialist degree programs, 13 graduate minors and 40-plus graduate certificates. Opportunities for e-learning, including online graduate degrees, are available. An alphabetical list of graduate degrees is available in this catalog as part of comprehensive degree list (p. 16). For more information, contact the MU Office of Graduate Studies (https://gradstudies.missouri.edu).

About the College
The mission of the College of Agriculture, Food and Natural Resources includes quality teaching, cutting-edge research and the extension of that research to the people of Missouri.

From entering freshmen to postdoctoral scientists, students prepare for a wide range of careers. Professional development through campus organizations and interaction with business and industry prepares our graduates to have an impact in the food system, business, government policy, environmental awareness, education, law, medicine and other areas.

The Missouri Agricultural Experiment Station develops new technology in animal, biochemical, plant, food and natural resource sciences to keep the state’s agribusiness system competitive in world markets and to provide consumers with a safe, low-cost food supply.

Technology reaches the people through the college’s Agriculture and Natural Resources Extension program. State specialists within the college and area specialists in county centers interact with the public for real-life application of research in solving problems.

Finally, the college helps developing nations become trading partners by improving their economies through better agriculture. This also provides a valuable exchange of knowledge and understanding with students, teachers and scientists from many cultures.

Undergraduate
• Admissions (p. 45)
• Special Programs (Pre-Veterinary Track and Pre-Medical Track)
• B.S. Degree Requirements (p. 45)
• University graduation and CAFNR Requirements (p. 45)
• CAFNR Honors Requirements (p. 45)
• Probation, Suspension and Dismissal (p. 46)
• Advising (p. 46)
• Career Development and Professional Opportunities (p. 46)
• Experiential Learning (p. 46)
• Study Abroad (p. 46)
• Student Activities (p. 46)

Admissions
Students admitted to the University of Missouri are encouraged to enter the College of Agriculture, Food and Natural Resources as freshmen. Current Mizzou students who are looking to transfer divisions into CAFNR need to contact the Office of Academic Programs first as some degree programs have specific GPA requirements.

Bachelor of Science (B.S.) Degree Requirements
Students should refer to degree program sections for course requirements and credit hour requirements. There are no specific CAFNR degree requirements.

University Graduation and CAFNR Requirements
• Students are required to meet all University graduation and degree program requirements to earn their degree. Refer to specific CAFNR degree programs to determine specific course requirements.
• Complete 30 of the last 36 hours with MU course work. Obtain approval of advisor, degree program advisor chair, and associate dean prior to enrolling in courses at another institution.
• Earn no less than a 2.00 GPA, as defined by the GPA of Record (UM cumulative GPA).

Transfer Credits
• University general education requirements are considered completed for students transferring with completed CORE42 or an Associate of Arts (AA) degree from a regionally accredited Missouri institution. Some programs will require specific courses to meet degree requirements, which may also count towards University general education requirements.
• Transfer credit from a regionally accredited non-Missouri institution will be evaluated on a course by course basis.

CAFNR Honors Requirements
Students are eligible to enter the honors program when they have obtained a cumulative GPA of 3.3 or above based on 30 credits earned at the University of Missouri. Transfer students are eligible after completing 15 credits at MU with a cumulative GPA of 3.3 or higher.
Students must be admitted to the honors program prior to the first day of classes for the last semester they are enrolled in residence in CAFNR. No student is admitted retroactively. The student is officially admitted to the program upon approval of the associate dean of academic programs.

Eligible students should complete an application as early in their undergraduate degree program as possible. The honors program application should be signed by at least two faculty members and the undergraduate advisor chair before it can be approved. The faculty members co-signing the application will comprise the honor student's advisory committee.

An honors project is required and should be planned by the student and approved by the honor student’s advisory committee. The honors project should involve a significant research effort by the honors student, culminating in a written and oral presentation of the results. Departmental honors program requirements must be approved by the CAFNR Honors Program Oversight Committee (Office of Academic Programs).

Students are officially admitted to the CAFNR Honors Program when the application has been approved and signed by the CAFNR associate dean of academic programs. To remain in good standing in the CAFNR Honors Program, a student must maintain a cumulative GPA of 3.3 or more. A student whose GPA falls below 3.3 will be allowed a two-semester grace period to raise the GPA to the 3.3 level.

**Dual Enrollment for Senior Undergraduates**

Qualified undergraduate students are eligible to enroll in up to 12 hours of graduate credit during the last 30 hours of their undergraduate program. Graduate credit cannot be counted toward undergraduate degree credit requirements. See the Office of Graduate Studies (http://gradstudies.missouri.edu) for additional details.

**Probation, Suspension and Dismissal**

In addition to the Academic Standing Policy (p. 771) of the University, CAFNR's academic standing policies can be located at: https://cafnr.missouri.edu/current-students/academic-standing/. (http://CAFRN.missouri.edu)

**Advising**

When entering the college, each student is assigned a faculty advisor/mentor to assist in defining career goals and planning courses for a program of study that leads to graduation. The advisor also serves as a resource person for the student in a variety of academic and individual situations.

One of a student’s first priorities is to meet and become acquainted with their advisor early in the semester. The student should consult with their advisor when planning or changing the academic program. The advisor and advisor chair must approve the program of study for graduation.

Questions dealing with advising should be directed to Office of Academic Programs, 2-64 Agriculture Building, (573) 882-8301.

**Career Development and Professional Opportunities**

CAFRN believes in career development as a key part of the student experience. Our college provides career resources targeted specifically toward student interests and strengths. The CAFNR Career Services team focuses efforts to help educate, empower, and connect CAFNR students with their future careers. The resources in CAFNR expand beyond résumé reviews, mock interviews and one-on-one sessions to explore career possibilities. We focus on making valuable employer connections to help expand each student's professional network. Students also have access and are encouraged to use www.HireMizzouTigers.com (http://www.hiremizzoutigers.com) to search open job and internship postings.

CAFRN graduates find rewarding careers in a variety of career fields, including: private industry, state and federal agencies, start-ups, production agriculture, and more.

You can receive relevant career planning updates from CAFNR delivered directly to your social media newsfeed. Simply like us at www.facebook.com/CAFRNcareers (https://www.facebook.com/CAFRNcareers).

We invite you to reach out in the traditional ways, too! Stop by our office in 2-64 Agriculture Building, call us at (573) 882-0088 or email CAFNRcareerservices@missouri.edu.

**Experiential Learning**

Employers want to hire students who have experience! CAFNR students have a variety of options when it comes to experiential learning. CAFNR’s focus on internships, study abroad, industry tours, and student organizations help students gain relevant experience that employers want to see. Exploring these opportunities gives students the professional growth and network needed for career success after graduation.

Click here to check out some of the most recent student experiences (https://www.facebook.com/media/set/?set=a.631051863580078.1073741826.565193606832571&type=3) to see the kinds of opportunities CAFNR students explore. Interested in gaining your own experiences? We want to help you reach your goals! You can reach us in a variety of ways. Stop by our office in 2-64 Agriculture Building, call us at (573) 882-0088 or email CAFNRcareerservices@missouri.edu.

**Study Abroad**

CAFRN provides students with opportunities to study abroad on semester, summer, spring break and winter break programs. Study Abroad complements and enhances a student’s academic program by helping students gain independence and self-confidence, better understand new cultures and the world around them, and enhance their résumé. Study abroad experiences increase a student’s skill-set and add the valuable international dimension to their degree that employers seek.

For more information about CAFNR study abroad programs, contact Shanon Dickerson, CAFNR Director of Study Abroad, Office of Academic Programs, 2-64 Agriculture Building, at dickersonsm@missouri.edu or (573) 882-8301.

**Student Activities**

CAFRN offers a variety of extracurricular student activities that contribute to a student’s education and professional development. Clubs and organizations sponsor activities related to professional interests as well as social events. Involvement in extracurricular activities fosters leadership development. Involvement in activities outside the classroom also may prove beneficial when applying for scholarships or jobs. Many organizations and companies look favorably on a student who has received good grades while being involved in clubs and other University
organizations. Each class and club elects a representative to the CAFNR Student Council. More information can also be found at Fall Round-up each fall semester.

Graduate

Graduate studies in CAFNR are taking an innovative, high-tech approach to traditional agriculture, food and natural resources. Our students are highly engaged with expert faculty mentors who are impacting the future with findings on health breakthroughs, sustainable agriculture techniques and food safety. Prospective students are able to choose from a range of academic programs consistently recognized for excellence:

- Animal Sciences
- Applied Social Sciences
  - Agricultural Leadership, Communication and Education
  - Agricultural and Applied Economics
  - Rural Sociology
- Biochemistry
- Biological Engineering
- Food and Hospitality Systems
- Natural Resources
  - Agroforestry
  - Fisheries and Wildlife
- Forestry
- Human Dimensions of Natural Resources
- Parks, Recreation and Tourism
- Soil, Environmental and Atmospheric Sciences
- Water Resources
- Plant, Insect and Microbial Sciences
  - Crop, Soil and Pest Management
  - Entomology
  - Horticulture
  - Plant Breeding, Genetics and Genomics
  - Plant Stress Biology

Find CAFNR degree program descriptions by following the links in the left navigation column.

Note: Prospective graduate students must apply to both the degree program of interest and to the MU Graduate School. In most cases, the entire application process may be completed online. Find admission and application details by selecting the degree program of interest in the left navigation column.

Agribusiness Management

Harvey James, Chair
Agricultural and Applied Economics
College of Agriculture, Food and Natural Resources
146 Mumford Hall
(573) 884-9682
HJames@missouri.edu

The Division of Applied Social Sciences offers a Bachelor of Science degree in Agribusiness Management. The degree program trains students in business, management, economics, entrepreneurship, policy, finance and marketing. Agribusiness Management courses stress management topics, so students gain a strong understanding of how firms operate and how to manage people and businesses working throughout the agrifood value chain. Additionally, to tailor the learning experience to areas that most interest them, Agribusiness Management students may choose from one of three specializations: management, farm and ranch management or public policy.

Through coursework and real-world experiences, the Agribusiness Management program encourages students to develop quantitative, analytical and critical thinking skills. With this preparation, Agribusiness Management graduates have the knowledge they need to succeed as managers, leaders and decision-makers in food and agriculture firms, natural resources organizations and the policy arena.

Our faculty conduct research in diverse disciplines, including communication, governance, management, operations and policy, and they incorporate their insights into their teaching. Plus, faculty work to share their research findings in ways that those insights can be applied to help people in the food and agriculture system do their jobs better, lead better, communicate better and ultimately enable our world's food and agriculture system to function better.

Faculty

Associate Professor S.A. Low**, M. J. Monson*, K. C. Moore*, M. E. Sykuta**, W. Thompson**
Assistant Professor M Segovia*, T. Skevas**
Extension Professor R. Massey**
Extension Associate Professor D. S. Brown**, J. Kruse
Assistant Teaching Professor J. Palacios Rivera
Research Assistant Professor J. Binfield, J. Grashuis
Instructor M. Foreman, J. Moreland, L. F. Sowers
Adjunct Faculty H. Gedikoglu, D. Miller

- Graduate Faculty Member - membership is required to teach graduate-level courses, chair master's thesis committees, and serve on doctoral examination and dissertation committees.
- ** Doctoral Faculty Member - membership is required to chair doctoral examination or dissertation committees. Graduate faculty membership is a prerequisite for Doctoral faculty membership.

Undergraduate

- BS in Agribusiness Management (p. 48)

The Agribusiness Management program uniquely equips students with the quantitative, analytical and critical thinking skills that are necessary for succeeding in their careers. Our faculty teach business, economics, entrepreneurship, finance, marketing and management concepts in the context of production agriculture and the global food system.

Combined with stressing conceptual understanding, the program immerses students in opportunities to apply their skills and experience real-world problem-solving. With this preparation, our graduates are equipped to help the food and agriculture industry in increasing food, fiber...
and biofuel production; meeting the world's growing needs; and acting as good stewards toward our natural resources.

Students transferring into Agribusiness Management from other degree programs at MU or from other colleges or universities must have a 2.7 cumulative GPA.

**Graduate**

While MU does not offer graduate degrees specifically in agribusiness management, the University does offer post-baccalaureate opportunities in a number of related areas, both within the College of Agriculture, Food and Natural Resources, and in the other Schools and Colleges that make up the University. The catalog provides a complete list of these degree options (p. 16).

**BS in Agribusiness Management**

**Degree Program Description**

Earning an Agribusiness Management degree will equip you with the necessary quantitative, analytical and critical thinking skills to help you succeed as a leader and decision-maker in the global agri-food system. Our faculty teach business, economics, entrepreneurship, finance, marketing and management concepts in the context of production agriculture and the global food system. While stressing conceptual understanding, the program immerses you in opportunities to apply your skills and experience real-world problem-solving.

Agribusiness Management career opportunities include agribusiness and food industry sales, commodity and food product marketing, entrepreneurial endeavors, farm management and production, financial management and analysis, human and public relations, policy and law and supply chain management.

**Major Program Requirements**

Students earning a Bachelor of Science in Agribusiness Management are required to complete all University general education (p. 31), University undergraduate requirements (p. 30), degree, and major requirements, including selected foundational courses, which may fulfill some University general education requirements.

Students transferring into agribusiness management from other degree programs at MU or from other colleges or universities must have a 2.7 cumulative GPA.

Total Credits: 120

The following foundational courses are included in the Semester Plan above and are used by the Program to meet MU’s General Education Requirements (p. 31) and University Undergraduate Requirements (p. 30).

- ENGLISH 1000
- MATH 1100
- MATH 1400
- BIO_SC 1010 and BIO_SC 1020
- CHEM 1100 or BIOCHM 2110 or BIOCHM 2112
- ABM 1041
- ABM 1042
- POL_SC 1100, HIST 1100 or HIST 1200
- AG_ED_LD 2220 or COMMUN 1200
- PHIL 1200

### Agricultural and Applied Economics

Harvey James, Chair
Agricultural and Applied Economics
College of Agriculture, Food and Natural Resources
146 Mumford Hall
(573) 884-9682
Fax (573) 882-3958
HJames@missouri.edu

The Agricultural and Applied Economics Program offers a BS degree with a major in Agribusiness Management and MS and PhD degrees with a major in Agricultural and Applied Economics. A minor in Agricultural Economics is also available. Agricultural and Applied Economics is home to several programs and research centers where students can seek on-campus work experience.

- Contracting and Organizations Research Institute (CORI): An interdisciplinary research institute, CORI is dedicated to studying how economic enterprises organize and structure themselves and determining the effects of legal, political, social and economic institutions on the structure and performance of economic organizations.
- Food Equation Institute (FEI): The Food Equation Institute formed to determine how data collected throughout the food and agricultural products value chain and related innovation make the greatest impact on society.
- Economics and Management of Agrobiotechnology Center (EMAC): A research institute devoted to studying the effects of biotechnology on agriculture, food production and value chains, EMAC provides rigorous, data-based analysis of economic, management and policy issues affecting decision-making in agricultural biotechnology.
- Food and Agricultural Policy Research Institute (FAPRI): To estimate how different policy options affect prices and quantities, producers, consumers and government costs, FAPRI staff use economic models of key commodity markets. FAPRI works with collaborators at MU and other institutions so that the analysis can estimate impacts on crop, livestock and biofuel markets in the U.S. and other countries.
- McQuinn Center for Entrepreneurial Leadership (MCEL): The center dedicates its focus to researching and promoting entrepreneurship in the food and agriculture sector.
Graduate

• MS in Agricultural and Applied Economics (p. 51)
• PhD in Agricultural and Applied Economics (p. 52)

Agricultural and Applied Economics

http://dass.missouri.edu/agecon/

Director of Graduate Studies: Harvey James (hjames@missouri.edu)

The graduate program of the Division of Applied Social Sciences (DASS) at the University of Missouri (MU) is recognized for its innovative approach to graduate training. As a graduate student, you will have the opportunity of working with leading scholars engaged in a diverse range of challenging research projects.

We offer MS (http://catalog.missouri.edu/undergraduategraduate/ collegeofagriculturefoodandnaturalresources/agappliedeconomics/ ms-ag-applied-economics) and PhD (http://catalog.missouri.edu/ undergraduategraduatecollegeofagriculturefoodandnaturalresources/ agappliedeconomics/phd-ag-applied-economics) programs in Agricultural and Applied Economics with three focus areas, MS (http://catalog.missouri.edu/undergraduategraduatecollegeofagriculturefoodandnaturalresources/ ruralso ciology) and PhD (http://catalog.missouri.edu/ undergraduategraduatecollegeofagriculturefoodandnaturalresources/ ruralso ciology/phd-rural-sociology) programs in Rural Sociology, and MS (http://catalog.missouri.edu/ undergraduategraduatecollegeofagriculturefoodandnaturalresources/ agriculturalleadershipcommuned/ms-ag-lead-commun ed) and PhD (http://catalog.missouri.edu/undergraduategraduate/ collegeofagriculturefoodandnaturalresources/agriculturaleducation/ phd-agricultural-education) programs in Agricultural Education and Leadership.

Agricultural and Applied Economics Focus Areas

Agribusiness and Organizational Economics (MS, PhD)

The Agribusiness and Organizational Economics (https:// dass.missouri.edu/graduate-studies/agribusiness-and-organizational- economics) area provides a coherent area of study for preparing students for academic careers in applied economics, management, and related cognate fields; and for careers in government and industry. The program is based upon a set of courses offered in the division that support MS and PhD training in microeconomic theory, institutional and neo-institutional economics, and organizational economics. These core courses are augmented by courses in qualitative and quantitative methods and a cognate area that supports your student research. The cognate area is chosen in consultation with the major advisor and committee input.

Environmental and Development Economics (MS, PhD)

In the Environmental and Development Economics (https:// dass.missouri.edu/graduate-studies/environmental-and-development- economics) area, you will develop skills and knowledge to address some of society’s most pressing problems. There are many linkages among development and environmental and natural resource policy issues, both in developed and developing economies. This is especially true where agriculture plays a significant role in the livelihoods of people and rural communities, because soil and water resources are critical determinants.

Undergraduate

While MU does not offer an undergraduate degree specifically in agricultural and applied economics, the University does offer a bachelor’s degree in the closely related area of Agribusiness Management (p. 47), as well as other related areas both within the College of Agriculture, Food and Natural Resources, and in the other Schools and Colleges that make up the University. The catalog provides a complete list of these degree options (p. 16).
of both agricultural productivity and human well-being, but also because of the importance of agriculture and resources for the quality of life of all humans. The importance of these linkages is evidenced by the emphasis on sustainable development in policy circles. Because institutions affect environmental outcomes, risk, and economic development, comparing institutions across differing contexts can provide useful insights for policy. Behavioral economics is an emerging research area that can be applied productively to environmental and development issues. You will apply theory from economics and other social sciences, use rigorous analytical tools for translational research to analyze real-world problems and policies that can address them.

Public Policy Analysis (MS, PhD)
The Public Policy Analysis (https://dass.missouri.edu/graduate-studies/public-policy-analysis) area seeks knowledge about how agricultural and food policy and innovation influence markets and, ultimately, human well-being. The program relies on a rigorous approach to agricultural economics that underpins applied analysis, including experimental and behavioral economic models, strategic interaction models, structural economic models, investment or firm models, systems simulation, mathematical programing and econometrics. It relies on coursework and research with widely recognized centers for agricultural economics, such as the Food and Agricultural Policy Research Institute (FAPRI) (https://www.fapri.missouri.edu), Agricultural Markets and Policy (AMAP) (https://amap.missouri.edu), the Economics and Management of Agrobiotechnology Center (EMAC) (https://emac.missouri.edu) and the Food Equation Institute (FEI).

Application Process
You need to submit the following to the Division of Applied Social Sciences:

- Application for Admissions Form (https://dass.missouri.edu/wp-content/uploads/sites/20/2019/02/Grad_AppForm.pdf) (PDF)
- Recommendation Form
- Short essay explaining why you want to study at the University of Missouri
- Official transcripts
- GRE score report (required for Agricultural and Applied Economics)
- TOEFL score, if applicable

Apply online through the University of Missouri Graduate School:

- Online University of Missouri graduate studies application (https://gradschool.missouri.edu/admissions/apply)

Application Deadlines
For priority consideration for assistantships, fellowships and scholarships, applications should be submitted by Jan. 15 for Fall enrollment and Sept. 1 for Spring enrollment.

Financial Assistance
Requests for financial assistance should be made at the time students apply for admittance into the program.
For More Information
For further information on admissions or financial assistance, write to Harvey James, director of graduate studies, 146 Mumford Hall, Columbia, MO 65211, or hjames@missouri.edu.

PhD in Agricultural and Applied Economics

Degree Requirements
The PhD program emphasizes preparation for research, teaching and extension work in academia, as well as for careers in agri-food business, government and international agriculture. The program usually requires about three years beyond the master’s program to complete. The size, quality and diversity of the faculty provide a broad choice of advisors and research topics. Students and their advisory committees have latitude in developing a plan of study.

Doctoral candidates will choose specialties from one of the following Focus Areas (FAs) (will not appear on transcripts or diplomas).

Agribusiness and Organizational Economics: The Focus Area provides a coherent area of study for preparing students for academic careers in applied economics, management, and related cognate fields; and for careers in government and industry. The program is based upon a set of courses offered in the division that support MS and PhD training in microeconomic theory, institutional and neo-institutional economics, and organizational economics. These core courses are augmented by courses in qualitative and quantitative methods and a cognate area that supports your student research. The cognate area is chosen in consultation with the major advisor and committee input.

Environmental and Development Economics: In this Focus Area, students will develop skills and knowledge to address some of society’s most pressing problems. There are many linkages among development and environmental and natural resource policy issues, both in developed and developing economies. This is especially true where agriculture plays a significant role in the livelihoods of people and rural communities, because soil and water resources are critical determinants of both agricultural productivity and human well-being, but also because of the importance of agriculture and resources for the quality of life of all humans. The importance of these linkages is evidenced by the emphasis on sustainable development in policy circles. Because institutions affect environmental outcomes, risk, and economic development, comparing institutions across differing contexts can provide useful insights for policy. Behavioral economics is an emerging research area that can be applied productively to environmental and development issues. Students will apply theory from economics and other social sciences, use rigorous analytical tools for translational research to analyze real-world problems and policies that can address them.

Public Policy Analysis: This Focus Area seeks knowledge about how agricultural and food policy and innovation influence markets and, ultimately, human well-being. The program relies on a rigorous approach to agricultural economics that underpins applied analysis, including experimental and behavioral economic models, strategic interaction models, structural economic models, investment or firm models, systems simulation, mathematical programing and econometrics. It relies on coursework and research with widely recognized centers for agricultural economics, such as the Food and Agricultural Policy Research Institute (FAPRI) (https://www.fapri.missouri.edu), Agricultural Markets and Policy (AMAP) (https://amap.missouri.edu), the Economics and Management of Agrobiotechnology Center (EMAC) (https://emac.missouri.edu) and the Food Equation Institute (FEI).

The general course requirements for the PhD consist of theory and methods courses, followed by a well-balanced selection of elective and research courses in agricultural and applied economics and other disciplines at the graduate level. The course of study will prepare students for the qualifying exam taken after the first year of courses, the comprehensive exam assessing competency in his or her chosen fields of study, and independent research. A dissertation embodying the results of original research must be written on a subject approved by the program committee. An oral examination over the dissertation completes the degree requirements.

The minimum requirements for the PhD are as follows:

- 72 credit hours (minimum) from courses numbered 7000 – 9000, and within the 72 credit minimum are the following constraints:
  - No more than 30 credit hours can be transferred from an MS program
  - 15 credits must be from courses numbered 8000 – 9000, exclusive of dissertation research, problems or independent study
  - 6 credit hours designated as the PhD Focus Area Theory core
  - 6 credit hours designated as the PhD Focus Area Methods core (can be met from any combination of quantitative, qualitative, mixed or other methods courses)
  - 3 credit hours of AAE 8510 Research Methods and Design
  - 12 credit hours of AAE 9090 Doctoral Dissertation Research in Agricultural and Applied Economics
  - 45 credit hours designated as electives and/or additional required Focus Area courses

Sample Plan of Study
Fall semester, year 1: AAE 9040 Advanced Microeconomics Theory and Applications I; Focus Area theory or methods course; Elective
Spring semester, year 1: Focus Area theory or methods courses
Fall semester, year 2: Focus Area field courses and/or Electives
Spring semester, year 2: AAE 8510 Research Methods and Design; Focus Area field courses and/or Electives
Subsequent semesters: Field Courses and/or Electives; Research and Dissertation hours

Qualifying Process
After completing the first year sequence, students complete a qualifying exam process determined by the research Focus Area faculty. Examinations are completed in May with a retake, if needed, offered in August. Students must pass the qualifying exam process to continue in the PhD program.

Comprehensive Examination Process
Students take the Comprehensive Exam after passing the qualifying exam process and completing coursework, including core courses and field courses. The Comprehensive Exam consists of three parts: the written dissertation proposal, a written comprehensive exam, and an oral examination. The Comprehensive Exam is administered by the student’s Doctoral Program Committee.
Dissertation Requirements

Two types of dissertations are acceptable. The first type of dissertation is organized around a single topic and typically is a lengthy monograph of your research findings. The second type of dissertation is a compilation of three narrow-topic essays that are loosely related to a single, general theme or topic. Students select dissertation topics in consultation with their Doctoral Program Committee.

Admissions

The Division’s Graduate Studies Committee and Focus Area faculty oversee the admissions process. Admission into the PhD program is determined by an assessment of program prerequisites and application materials. Domestic and international students are equally welcome to apply.

Prerequisites for the PhD program include courses in intermediate microeconomics; intermediate macroeconomics; econometrics or regression and correlation analysis; differential calculus; and statistics. Applicants who have not met these prerequisites or have limited background in economics may be required to correct these deficiencies or take certain courses without graduate credit before being formally admitted into the PhD program. Minimum requirements for admission into the PhD program are a Bachelor’s degree (BA or BS) or equivalent and undergraduate GPA 3.0. The Test of English as a Foreign Language (TOEFL) or an equivalent English competency test is required of applicants whose first language is not English, with minimum TOEFL scores of 80 if internet-based. Applicants should also take the GRE or GMAT exams.

For Further Information

For further information on admissions or financial assistance, write to Harvey James, director of graduate studies, 146 Mumford Hall, Columbia, MO 65211, or hjames@missouri.edu.

Agricultural Education

Jon C. Simonsen, Associate Professor & Department Chair
College of Agriculture, Food and Natural Resources
126 Gentry Hall
(573) 882-7451
Fax: (573) 884-4444

Administrative Assistant: swaimc@missouri.edu
http://aged.missouri.edu

The agricultural education degree program provides students with the opportunity to combine an interest in agriculture, food and natural resources with their enjoyment of working and communicating with people. A degree in agricultural education leads to careers in which students can influence the understanding of agriculture and its role in society and the global economy.

The department offers the BS with a major in Agricultural Education, as well as an MS and a PhD. A minor is also available.

Faculty

Professor A. L. Ball** B. L Garton** L. G. Schumacher**
Associate Professor J.C. Simonsen**
Assistant Professor D. A. Cletzer**

Assistant Teaching Professor J. D. Tummons*
Assistant Teaching Professor S. Wood-Turley*
Professional Development C.M. Abbott
Professor Emeritus R. E. Linhardt, B. R. Stewart

Undergraduate

• BS in Agricultural Education (p. 54)
  • with emphasis in Communications and Leadership
    (http://catalog.missouri.edu/undergraduategraduate/colleges/collegeofagriculturefoodandnaturalresources/agricultureeducation/bs-agricultural-education-emphasis-communication-leadership/)
  • with emphasis in Teacher Certification (p. 54)
  • Minor in Agricultural Education (p. 57)

Students pursuing a degree in agricultural education choose between two emphasis areas. The communications and leadership emphasis focuses on developing students’ leadership, communication and human relation skills. Students learn how to plan, manage and disseminate information in educational and public settings. Teacher certification emphasis prepares students to meet state teacher licensure requirements and teach agriculture, food and natural resources to secondary and adult learners through Missouri public schools. Students in both the teacher certification and communications and leadership emphasis areas have the opportunity to specialize in an area of interest by completing course work in one or more agriculture, food or natural resource disciplines.

Students transferring into agricultural education from other MU degree programs or from other institutions must have at least a 2.3 GPA for all course work attempted.

Major Core Requirements

See university general education and graduation requirements as well as the College of Agriculture, Food and Natural Resources listings. The requirements specific to agricultural education are also available at http://aged.missouri.edu.

Emphasis Areas

Students majoring in the agricultural education select the Teacher Certification emphasis or Communications and Leadership emphasis.

Graduate

• PhD in Agricultural Education (p. 57)

Department of Agricultural Education and Leadership
121 Gentry Hall, Columbia, MO 65211
(573) 882-7451
aged@missouri.edu
http://dass.missouri.edu/aged/grad/

The agricultural education programs are designed for students with interests in agricultural education and leadership development. Coursework includes program and professional development, evaluation, teaching and learning theories and practices, social sciences
research methods, organization and administration, leadership and communication.

The department also offers a MS in Agricultural Leadership, Communication and Education (p. 58).

**BS in Agricultural Education**

**Degree Program Description**

Agricultural Education combines interests in agriculture, working with people, shaping the next generation’s understanding of agriculture and its role in society, and using communication and human relation skills to obtain leadership roles in many agricultural industries. The degree program is individualized by choosing between two degree options – teaching or leadership. Some agricultural education careers include Agriculture teachers, Public Relations Specialist, and Youth Specialist. As an Agriculture teacher, graduates work for both public schools and adult education programs. They are responsible for teaching their students about the many facets of agriculture – from crops and livestock to economics and marketing – and how that system provides the food we eat. As Public relations specialists graduates work for a variety of private companies and non-profit organizations. They are responsible for communicating messages about their company’s products or their organization’s cause to the public. They utilize various media, such as radio, television and print publications, to accomplish their goals. As Youth specialists graduates work for non-profit groups such as 4-H, as well as outreach and extension services. They are responsible for developing educational programs for youth in their area.

**Major Program Requirements**

Students earning a Bachelor of Science in Agricultural Education are required to complete all University general education (p. 31), University undergraduate requirements (p. 30), degree, and major requirements, including selected foundational courses, which may fulfill some University general education requirements. Approximately one-third of the course work for the degree is completed in agricultural education or professionally related courses. In addition, the curriculum includes courses in agriculture, food and natural resource disciplines including agricultural economics, agricultural systems management, animal science, food science, horticulture, plant science and natural resources.

Students majoring in agricultural education select the Teacher Certification emphasis or Leadership emphasis. Please see the individual emphasis areas (p. 53) for degree and major requirements.

**BS in Agricultural Education with Emphasis in Teacher Certification**

**Degree Program Description**

Agricultural Education combines interests in agriculture, working with people, shaping the next generation’s understanding of agriculture and its role in society, and using communication and human relation skills to obtain leadership roles in many agricultural industries. The degree in Agricultural Education with emphasis in Teacher Certification prepares students to meet state teacher certification requirements and teach agriculture in public schools at the secondary and adult levels. In addition to courses in agricultural education, the teaching option curriculum includes courses in general education, technical agriculture (agricultural economics, agricultural business and management, animal science, plant and soil science, agricultural systems management, horticulture, natural resources and forestry) and professional teacher certification courses offered through the College of Education. The capstone experience involves a 16-week student teaching internship.

**Major Program Requirements**

Students earning a Bachelor of Science in Agricultural Education are required to complete all University general education (p. 31), University undergraduate requirements (p. 30), degree, and major requirements, including selected foundational courses (p. 54), which may fulfill some University general education requirements.

**Teacher Certification Emphasis**

The Teacher Certification emphasis prepares students to meet state teacher licensure requirements to teach agriculture in Missouri public schools at the secondary and adult levels. In addition to courses in agricultural education, the curriculum includes a diverse selection of courses in agriculture, food and natural resources and professional teacher certification courses offered through the College of Education. The capstone experience involves a semester-long teaching internship in a selected secondary agriculture program.

* Denotes University General Education Requirements
^ Denotes Degree Program Requirements

Teacher Education Courses

Students proceed through three phases as they complete the baccalaureate program. Each phase includes training in technology as well as clinical experience. University general education and content requirements are completed each semester in addition to the required program area courses. A student admitted to a professional program (Phase II) must maintain the standards met at the time of admission.

The Director of Teacher Certification will monitor student GPAs each semester. Students must maintain the following minimum GPA (UM and overall) to maintain in good standing.

<table>
<thead>
<tr>
<th>Phases</th>
<th>Minimum cumulative GPA (UM and overall)</th>
<th>Minimum professional (education) GPA</th>
<th>Minimum ag Content GPA</th>
</tr>
</thead>
<tbody>
<tr>
<td>Phase I</td>
<td>2.000</td>
<td>2.000</td>
<td>2.000</td>
</tr>
<tr>
<td>Phase II</td>
<td>2.750</td>
<td>3.000</td>
<td>3.000</td>
</tr>
<tr>
<td>Phase III</td>
<td>2.750</td>
<td>3.000</td>
<td>3.000</td>
</tr>
</tbody>
</table>

Students in Phase II or III must maintain the minimum GPA for their phase to be considered in good standing. If a student in Phase II or III is determined to not be in good standing, the Director of Teacher Certification will change the student to Phase I status and will notify the
Phase II

Students are automatically enrolled into Phase I upon entering the degree program. This phase provides students with an immersion into the discipline and culture of teaching and learning before focusing on a teaching specialty. Phase I coursework includes the following courses: ESC_PS 2010, LTC 2040, AG_ED_LD 2270, AG_ED_LD 2271, and AG_ED_LD 4310.

Phase II

This phase occurs over a three-semester sequence and focuses increasingly on a chosen teaching emphasis and on interdisciplinary teaching. Experiences in this phase focus on instructional strategies, human development, classroom and behavior management and educational measurement. This phase provides students with experience in the methods of teaching in a specific subject area as well as emerging problems and practices within the field of education.

- Application to Phase II is required. Students become eligible for consideration for admittance to Phase II after meeting the following criteria:
  - Current enrollment in the Agricultural Education program
  - Minimum 2.750 UM GPA of record and overall GPA (on a 4.000 scale)
  - Content GPA of 3.000 (on a 4.000 scale)
  - Professional (education) GPA of 3.000 (on a 4.000 scale)
  - Passing score on the Missouri General Education Assessment (or acceptable ACT as identified by DESE)
  - Completion of the Missouri Educator Profile (or other required dispositions instrument as identified by DESE)
  - ENGLISH 1000 (http://catalog.missouri.edu/search/?P=ENGLISH%201000) with a “C” range grade or higher
  - MATH 1100 (http://catalog.missouri.edu/search/?P=MATH%201100) with a “C” range grade or higher
  - Demonstration of competence of Phase I learning markers as demonstrated by satisfactory completion of Phase I courses (ESC_PS 2010, LTC 2040, AG_ED_LD 2270, AG_ED_LD 2271, AG_ED_LD 4310, AG_ED_LD 4320, and AG_ED_LD 4320 with a grade of “S” (satisfactory), or “C” (2.00) or higher in each course.
  - Demonstrated competence of Phase I mid-preparation benchmarks (as documented by Phase I instructors)
  - Possession of characteristics associated with effective performance in a professional role at the level(s) and in the major(s) selected
  - Completion of application for progression

Decisions regarding Phase II admission are made by the Director of Teacher Certification. Meeting minimum requirements for admission to Phase II does not guarantee admission to Phase II. Students may be allowed to take Phase II courses if conditionally admitted into Phase II by faculty. Faculty will consider conditional Phase II admits on a case-by-case basis and can re-approve conditional status so long as students submit an approved plan for meeting Phase II requirements to the College of Education each semester. However, conditionally admitted students will not be fully admitted until they meet all listed requirements. Students are not eligible for Phase III admittance until fully admitted into Phase II.

Phase III

Phase III occurs during the last year, including student placement in a public school district for the entire semester, for approximately 16 weeks (12 credit hours).

Application for Phase III is required. To qualify for the teaching internship, applicants must meet the following requirements:

- Admission to Phase III in the program area
- Successful completion of all Phase II requirements
- Demonstration of competence of Phase II learning markers as demonstrated by satisfactory completion of Phase II courses (AG_ED_LD 4320, AG_ED_LD 4330, AG_ED_LD 4331, SPC_ED 4020, LTC 4460, LTC 4560, LTC 4565) with a grade of “S” (satisfactory), or “C” (2.00) or higher in each course.
- A minimum of 90 completed credit hours
- Completion of at least the preceding semester in residence
- A minimum 2.750 UM GPA of record and an overall GPA of 2.750 (on a 4.000 scale)
- Content GPA of 3.000 (on a 4.000 scale)
- Professional (education) GPA of 3.000 (on a 4.000 scale)
- Completion of specific prerequisite professional education and subject area course requirements for the level at which the teaching internship is to be accomplished

Teaching internship placements are available in several districts across the State of Missouri. Applications are accepted approximately a year preceding internship. More information concerning student teaching internships may be obtained from John Tummons, Director of Teacher Certification. 123 Gentry Hall.

Teacher Certification

Licensures

Completion of the bachelor’s degree and any additional requirements for certification must be completed before the graduate is eligible for an Initial Professional Certificate from the Department of Elementary and Secondary Education in the State of Missouri.

- Recommendation for initial certification after graduation requires:
  - Passing score on the Content Area Exam (and official scores submitted to the University of Missouri)
  - Passing score on the Missouri Pre-Service Teacher Assessment
  - Official transcripts with the degree posted submitted to Office of Assessment in 2 Hill Hall.
  - Submission of an IPC application from the DESE web application website (https://apps.dese.mo.gov/weblogin/login.aspx) to MU
  - The Department of Elementary and Secondary Education also requires that students seeking additional certification in other teaching subjects take the Content Area Exam in those additional subjects in order to be considered a Highly Qualified Teacher

A student recommended for teacher certification must meet the following criteria:

- Cumulative UM GPA of record of 2.750
- Overall GPA of 2.750 for all college course work completed
- Cumulative GPA of 3.000 in all content area course work
2.000 in each professional education course with overall 3.000 GPA on all professional education course work
- Satisfactory score on the Missouri Pre-Service Teacher Assessment
- Satisfactory score on the Content Area Exam required by the State of Missouri
- Satisfactory completion of minimum required professional and technical agriculture coursework
- An official copy of the student’s transcript with baccalaureate degree posted submitted to the Office of Assessment in 2 Hill Hall.
- Complete online application for an Initial Professional Certificate through the Department of Elementary and Secondary Education (DESE) web application

### Minor in Agricultural Education

The Agricultural Education minor focuses on learning, teaching and the dissemination of information about agriculture, food and natural resource topics. The minor requires 15 credits of agricultural education coursework with a minimum of 6 credits at the 3000 level or above.

### PhD in Agricultural Education

#### Degree Requirements

A total of 72 credit hours beyond the baccalaureate degree must be completed. The student's doctoral program committee must approve all course work used to satisfy the credit-hour requirement and may require additional course work beyond the minimum.

Within the 72 credit hour requirement, students should complete 12 credit hours of course work that focuses on developing an area of expertise. The student's doctoral program committee will approve the area and content of the concentration. Concentrations may include, but are not limited to, Teacher Education, Extension Education, and Communication/Journalism.

| Electives - should be selected in consultation of the student's advisor and must be approved by the student's committee, and should total 27 credit or more. |
| Concentrations - should total at least 12 credits and are counted as part of the electives, should focus on developing an area of expertise such as Teacher Education, Adult Education, Journalism, Educational Leadership, etc. |

#### Concentrations - should total at least 12 credits and are counted as part of the electives, should focus on developing an area of expertise such as Teacher Education, Adult Education, Journalism, Educational Leadership, etc.

- AG_ED_LD 8410 Advanced Studies in Methods/Analysis - examples include but not limited to: AG_ED_LD 8250 Leadership Theory and Application
- AG_ED_LD 8330 Advanced Methods in Teaching Education and Leadership
- AG_ED_LD 8350 Foundations and Practices of Teacher Education
- AG_ED_LD 8430 Evaluation of Educational Programs
- AG_ED_LD 8540 Methods of Qualitative Research
- AG_ED_LD 9090 Doctoral Research in Agricultural Education and Leadership
- AG_ED_LD 9410 Seminar in Qualitative Methods in Sociology
- AG_ED_LD 9640 Qualitative Methods in Educational Research II
- AG_ED_LD 9620 Seminar in Qualitative Methods in Sociology

#### Qualifying Process

Details regarding the Qualifying Process can be found in the program's Graduate Handbook (http://dass.missouri.edu/aged/grad/grad-handbook.pdf).

#### Comprehensive Examination Process

Candidacy for a doctoral degree is established by passing the comprehensive examination. The comprehensive examination includes written and oral sections and is completed as the candidate is completing the prescribed coursework. Details regarding the examination process can be found in the program's Graduate Handbook (http://dass.missouri.edu/aged/grad/grad-handbook.pdf).

#### Dissertation Requirements

After passing the comprehensive examination, the program for the doctoral degree must be completed within five years. Upon completions of the dissertation research project, the candidate defends the dissertation before his/her doctoral research committee. Details regarding the dissertation process can be found in the program's Graduate Handbook (http://dass.missouri.edu/aged/grad/grad-handbook.pdf).

During the time when a student is working on the dissertation, candidacy is maintained by enrolling in AG_ED_LD 9090 Doctoral Research in Agricultural Education and Leadership for two credit hours each fall and spring semester, and for one credit hour each summer semester, up to and including the term in which the dissertation is defended. Continuous enrollment provides access to an advisor's support, doctoral program committee guidance, and University research facilities for completion of the dissertation. Failure to continuously enroll in AG_ED_LD 9090 until the doctoral degree is awarded terminates candidacy.

#### Admissions

Applicants are required to meet two sets of minimum qualifications for admission: the requirements of the PhD in Agricultural Education program (https://gradstudies.missouri.edu/degreecategory/agricultural-education) and the minimum requirements of the graduate faculty, enforced by the Office of Graduate Studies (https://gradstudies.missouri.edu/admissions/eligibility-process). Because requirements vary, you must refer to a degree program's graduate admission page to learn about specific admission criteria, application deadlines, eligibility and application process. Before official admission to the University of Missouri, your application materials will be reviewed by both the Graduate School and the degree program to which you've applied.

#### Agricultural Leadership, Communication and Education

Jon Simonsen, Associate Professor and Department Chair
College of Agriculture, Food and Natural Resources
The agricultural education degree program provides students with the opportunity to combine an interest in agriculture, food and natural resources with their enjoyment of working and communicating with people. A degree in agricultural education leads to careers in which students can influence the understanding of agriculture and its role in society and the global economy.

The department offers the BS and PhD in Agricultural Education, as well as an MS in Agricultural Leadership, Communication and Education. A minor is also available.

Faculty

Professor A. L. Ball**, B. L. Garton**, L. G. Schumacher**
Associate Professor J. C. Simonsen**
Assistant Professor D. A. Cletzer*
Assistant Teaching Professor J. D. Tummons*
Assistant Teaching Professor S. Wood-Turley*
Professional Development C. M. Abbott
Professor Emeritus R. E. Linhardt, B. R. Stewart

* Graduate Faculty Member - membership is required to teach graduate-level courses, chair master's thesis committees, and serve on doctoral examination and dissertation committees.
** Doctoral Faculty Member - membership is required to chair doctoral examination or dissertation committees. Graduate faculty membership is a prerequisite for Doctoral faculty membership.

Undergraduate

While MU does not offer undergraduate degrees specifically in agricultural leadership, communication and education, the University does offer bachelor's degrees in the closely related areas of Agricultural Education (p. 53), as well as other related areas both within the College of Agriculture, Food and Natural Resources, and in the other Schools and Colleges that make up the University. The catalog provides a complete list of these degree options (p. 16).

Graduate

- MS in Agricultural Leadership, Communication and Education (p. 58)

The department also offers a BS (p. 53) and PhD (p. 53) in Agricultural Education.

MS in Agricultural Leadership, Communication and Education

Degree Requirements

The program consists of a minimum of 32 credits of graduate coursework beyond the bachelor's degree for the non-thesis/creative component option, and 30 credits for the thesis option. For a full explanation of the thesis/non-thesis options, see section below on Thesis/Non-Thesis Requirements (p. 59).

Sample Plan of Study

Because students in the M.S. program are from a wide variety of circumstances, and pursue the M.S. at different paces, a sample plan of study is not easily produced. Students are encouraged to work out their plan of study with their advisor.

Thesis/Non-Thesis Requirements

The program offers students three options:

1. Creative Component Option
   This option is oriented toward improving a practitioner's professional proficiency in teaching, curriculum development, program planning and evaluations. The program of study should include courses and learning experiences that will develop the student's knowledge and skills in the processes of learning and teaching. The Creative Component option requires a minimum of 32 hours of graduate credit (to include a minimum of 29 hours of formal graduate courses, plus a maximum of 3 hours of 8080 Creative Component) with a minimum of 16 credit hours at the 8000 level and a minimum of 16 credit hours taken in Agricultural Education and Leadership. Candidates must also complete an approved creative component project.

2. Creative Component with Teacher Certification Option
   This option is designed for individuals who have earned a B.S. degree in an agricultural discipline and desire the initial teacher certification to teach agriculture at the secondary level. Included in the course work for this option are some of the classes needed for certification to teach secondary high school agriculture in Missouri.

3. Thesis Option
   This option is research-oriented, focusing on designing and conducting research in the social sciences. The program of study should include courses and learning experiences that will maximize a student's progress in developing skills that will enable the student to continue his/her education in a research-oriented area. The Thesis option requires a minimum of 30 hours of graduate credit (to include a minimum of 24 hours of formal graduate courses, plus a maximum of six hours of 8090 Research) with a minimum of 15 credit hours at the 8000 level and a minimum of 15 credit hours taken in Agricultural Education and Leadership. Candidates must also complete an approved thesis based on original research.

Admissions

Applicants are required to meet two sets of minimum qualifications for admission: the requirements of the MS in Agricultural Education program (https://gradstudies.missouri.edu/degreecategory/agricultural-education) and the minimum requirements of the Office of Graduate Studies (https://gradstudies.missouri.edu/admissions/eligibility-process). Because requirements vary, you must refer to a degree program's graduate admission page to learn about specific admission criteria, application deadlines, eligibility and application process. Your application materials will be reviewed by both the Office of Graduate Studies and the degree program to which you've applied before official admission to the University of Missouri.

Agricultural Systems Management

Leon G. Schumacher, Chair
College of Agriculture, Food and Natural Resources
Division of Food Systems and Bioengineering
207 Agricultural Engineering Building
(573) 882-2731
ASM@missouri.edu

Agricultural systems management integrates physical systems with agricultural science and management skills to provide graduates with abilities to function in sales, service and maintenance management positions in agribusiness industries. The uniqueness of agricultural systems management graduates lies in their knowledge of the principles of physical systems that are the backbone of modern agricultural and food industries. The department offers the Bachelor of Science with a major in Agricultural Systems Management. A minor is also available.

Faculty

Professor D. Brune*, W. Downs, L. Schumacher*
Associate Professor D. Baker*, S. Borgelt*, K. Sudduth**, A. Thompson**
Assistant Professor B. Broz, B. Koc*, T. Lim*, J. Zulovich*
Research Associate K. Funkenbusch
Extension Associate D. Downing
Professor Emeritus D. Currence, J. Frisby, B. Hires, J. Hoehne, D. Pfost

* Graduate Faculty Member - membership is required to teach graduate-level courses, chair master's thesis committees, and serve on doctoral examination and dissertation committees.
** Doctoral Faculty Member - membership is required to chair doctoral examination or dissertation committees. Graduate faculty membership is a prerequisite for Doctoral faculty membership.

Undergraduate

- BS in Agricultural Systems Management (p. 59)
- Minor in Agricultural Systems Management (p. 61)

Graduate

While MU does not offer graduate degrees in ASM, the University does offer post-baccalaureate opportunities in a number of related areas, both within the College of Agriculture, Food and Natural Resources, and in the other Schools and Colleges that make up the University. The catalog provides a complete list of these degree options (p. 16).

BS in Agricultural Systems Management

Degree Program Description

Agricultural Systems Management combines interests in machines and business. The business and technical skills acquired prepares students for any number of careers in many industries, including Agricultural and Power Equipment Manufacturing, Equipment Sales,
Food Production and Processing, and Government. In Agricultural and Power Equipment Manufacturing, companies such as Caterpillar, Case IH and John Deere seek product developers, managers and supervisors trained in the latest in precision agriculture, hydraulics, electrical circuits, engines and machinery management. In Equipment Sales, local and regional dealerships who sell agricultural machinery to agricultural producers seek technical sales representatives who possess strong product knowledge and an understanding of business finance and marketing to provide producers with the equipment they need. In Food Production and Processing, companies such as Anheuser-Busch, Archer Daniels Midland, Frito-Lay, Pioneer Hi-Bred, Cargill and Purina Mills seek grain elevator and mill operators and managers to properly handle, store and process agricultural crops and materials. In Government, state and federal agencies such as the Missouri Department of Natural Resources, the U.S. Department of Agriculture and the Natural Resources Conservation Service seek consultants and specialists to oversee and regulate pesticide application, water handling and irrigation systems, animal waste management systems, and watershed management.

Major Program Requirements

Students earning a Bachelor of Science in Agricultural Systems Management are required to complete all University general education (p. 31), University undergraduate requirements (p. 30), degree, and major requirements, including selected foundational courses, which may fulfill some University general education requirements.

Agri-Business/Electives (12 credit hours)

Students are expected to take 3 classes that are 3000 level or above in Agribusiness Management.

ABM minor is recommended: 1- 2000 level course and 3- 3000 level courses fulfill this requirement

Electives

Please see your advisor for approval list of agribusiness electives.

In consultation with their advisor, students may select elective courses to bring their total credit hours to the 120 hour minimum. Typically electives are chosen to provide emphasis in one of the following areas:

- Natural resource and environment
- Materials handling and crop processing
- Power and machinery systems
- Production agriculture

Agricultural Equipment Dealership Management Program

Students who participate in the Agriculture Equipment Dealership Management program take a comprehensive sequence of courses in agricultural systems management and agricultural business management. Each student plans and completes an internship with a sponsoring dealer. Up to 6 credits may be earned through an Internship.
Semester Plan

Below is a sample plan of study, semester by semester. A student's actual plan may vary based on course choices where options are available.

Total Credits: 120-121

Minor in Agricultural Systems Management

15 hours of Agricultural Systems Management coursework. Of the 15 hours, 9 hours must be 3000 level or above.

Agriculture

The agriculture degree program is for students searching for a well-rounded education that builds on the diversity of the other degree programs in the College of Agriculture, Food and Natural Resources (CAFNR). The flexibility of the agriculture degree enables students to tailor a program to fit their individual interests and career goals. Students earn a Bachelor of Science in Agriculture. This major offers an emphasis in Sustainable Agriculture (https://majors.missouri.edu/agriculture-sustainable-agriculture-bs).

Sustainable agriculture meets the needs of both farmers and consumers by creating agricultural systems that produce food for a growing population in a way that protects the environment and supports healthy, dynamic communities. Increasingly, farmers are looking for creative ways to increase and diversify farm income, while consumers are seeking sustainably raised food produced close to home. A Bachelor of Science degree in Agriculture with an emphasis in Sustainable Agriculture provides the skills and knowledge to incorporate economic viability, environmental stewardship, and social responsibility in food and farming systems. Some of the areas studied include: theory and practice of sustainable agriculture, community food systems, advanced sustainable production systems, and an introduction to soils.

Some career opportunities include production, sales and marketing, government, and non-governmental organizations.

Faculty

See Listing for Faculty in areas of concentration by referring to the degree listings available under the College of Agriculture, Food and Natural Resources.

Undergraduate

- BS in Agriculture (p. 61)
  - with emphasis in Sustainable Agriculture (p. 63)

Students may choose to get a BS in Agriculture without the emphasis.

Dickinson Student Achievement Center
2-64 Agriculture Building
(573) 882-8301
www.cafnr.missouri.edu

The agriculture degree program is for students searching for a well-rounded education that builds on the diversity of the other degree programs in the College of Agriculture, Food and Natural Resources (CAFNR). The flexibility of the agriculture degree enables students to tailor a program to fit their individual interests and career goals. Students earn a Bachelor of Science in Agriculture.

Students choose agriculture for a variety of reasons. Some may enter the program with a specific career goal in mind, while others may choose agriculture to obtain a broader education that will give them more flexibility.

Graduate

While the College of Agriculture, Food and Natural Resources does not offer a graduate degree in Agriculture, the College does offer graduate degrees and certificates in a number of disciplinary areas. The catalog provides a complete list of these degree options (p. 16) for all Schools and Colleges that make up the University of Missouri.

BS in Agriculture

Degree Program Description

The agriculture degree program is for students searching for a well-rounded education that builds on the diversity of the other degree programs in the College of Agriculture, Food and Natural Resources
(CAFNR). The flexibility of the agriculture degree enables students to tailor a program to fit their individual interests and career goals.

**Major Program Requirements**

Students earning a Bachelor of Science in Agriculture are required to complete all University general education requirements, University undergraduate requirements, degree, and major requirements, including selected foundational courses, which may fulfill some University general education requirements.

**Degree and Major Courses**

- Students in agriculture also must complete three areas of concentration from CAFNR programs that offer a major or a minor. The primary concentration area requires completion of 18 or more credits. Two additional concentration areas of at least 15 credits each are also required. (See below.)
- These courses shall not be used to fulfill the requirements of a minor.
- Within each concentration area, at least six credits must be at the 3000-level or above.
- Within each concentration area, at least 50 percent of the credits must be earned through MU courses.
- Credits used to meet the University general education requirements can be used to meet requirements in concentration areas.
- No more than six credits in the primary area and three credits in the secondary areas may consist of problems, readings, internships, travel courses, and other non-structured courses.
- The capstone experience for agriculture majors can be a capstone course in a concentration area, an internship, or capstone project. This capstone is in addition to credits in the concentration areas.

**Areas of Concentration**

Agribusiness Management  
Agricultural Economics  
Agricultural Education  
Agricultural Leadership  
Agricultural Systems Management  
Animal Sciences  
Biochemistry  
Captive Wild Animal Management  

**Environmental Sciences**  
**Environmental Studies**

BS in Agriculture with Emphasis in Sustainable Agriculture

Degree Program Description

Sustainable agriculture meets the needs of both farmers and consumers by creating agricultural systems that produce food for a growing population in a way that protects the environment and supports healthy, dynamic communities. Increasingly, farmers are looking for creative ways to increase and diversify farm income, while consumers are seeking sustainably raised food produced close to home. A Bachelor of Science degree in Agriculture with an emphasis in Sustainable Agriculture provides the skills and knowledge to incorporate economic viability, environmental stewardship, and social responsibility in food and farming systems. Some of the areas studied include: theory and practice of sustainable agriculture, community food systems, advanced sustainable production systems, and an introduction to soils. Some career opportunities include production, sales and marketing, government, and non-governmental organizations.

Major Program Requirements

CAFNR offers an emphasis area in Sustainable Agriculture as part of its Agriculture degree program. A minimum of 48 credits is required for the emphasis area (major) degree.

Semester Plan

A sample plan of study has not been designed for this major. Students should contact the academic department for assistance with academic planning.

Animal Sciences

Division of Animal Sciences
College of Agriculture, Food and Natural Resources
S102 Animal Science Research Center
(573) 882-7446
Fax: (573) 882-6827
http://animalsciences.missouri.edu

Division Director: Dr. William Lamberson

Animal sciences is a broad field centered on the study of agriculturally important animals and their products. Graduates in animal sciences have employment opportunities in many areas including agribusiness (feed,
pharmaceutical and meat industries; dairy and poultry products; public relations and research), production and management (farming/ranching; managers of livestock and poultry operations; zokeepers; consultants and technical service representatives), governmental agencies (USDA) and educational institutions (extension, teaching and research).

Students seeking admission into graduate and professional schools usually take more courses in the sciences than students in production and management, who select more business-related courses. Students and their faculty advisors select courses that fit the students’ needs, interests and objectives. The most specialization occurs at the graduate level.

The department offers BS, MS and PhD degrees with majors in Animal Sciences. A minor is also available.

Faculty

Curators Professor R. S. Prather**, M. F. Smith**, T. E. Spencer**
Chancellor's Professor R. M. Roberts**, J. F. Taylor**
Assistant Professor E. Bailey**, A. Balboula*, D. Brake**, S. Ortega*, A. Patterson*
Assistant Extension Professor C. Bromfield, J. Thomas*
Assistant Teaching Professor N. Anderson, T. Strauch*
Research Professor T. Ezashi*
Assistant Research Professor S. Behura*, P. Dhakal, J. Kim
Adjunct Professor D. Lubahn*, L. Lyons*
Instructor A. Byrne, M. Crosby, S. Hamilton, H. Twenter

* Graduate Faculty Member - membership is required to teach graduate-level courses, chair master's thesis committees, and serve on doctoral examination and dissertation committees.
** Doctoral Faculty Member - membership is required to chair doctoral examination or dissertation committees. Graduate faculty membership is a prerequisite for Doctoral faculty membership.

Undergraduate

• BS in Animal Sciences (p. 65)
• Minor in Animal Sciences (p. 66)

Divisional Honors Program

In addition to the guidelines for the honors program in the College of Agriculture, Food and Natural Resources, students must meet the following requirements for the honors program in animal sciences. A student must be a junior or senior to participate in the honors program.

• Successful completion of either an internship or undergraduate research or a combination of both for 6 credits in animal sciences honors
• Program approval by a three-member departmental honors committee
• Submission of a written report plus an oral or poster presentation

Ag Scholars Program

This program provides early assurance of admission to the MU College of Veterinary Medicine to selected students pursuing undergraduate animal science studies at the University of Missouri.

High School seniors and MU freshman with an ACT composite score of 27 or more or an equivalent SAT score are eligible to apply for the Ag Scholars Program.

Applicants must have demonstrated experience in livestock production and health. Examples of appropriate experience may include participation in a livestock enterprise as either a family member or employee; enrollment in at least two years of high school agricultural coursework; and participation in FFA, 4H or equivalent organizations with projects directly related to livestock production or health; or completion of an internship of at least 250 supervised hours working in livestock production or a livestock health enterprise prior to applying for program admission.

For additional information, contact:

Preveterinary Medical Scholars and Ag Scholars Programs
W-203 Veterinary Medicine Bldg.
College of Veterinary Medicine
University of Missouri
Columbia, Missouri 65211
(573) 884-3341

Agreement with the College of Veterinary Medicine

The Division of Animal Sciences and the College of Veterinary Medicine have an articulation agreement which enables MU Animal Sciences majors who are admitted to the College of Veterinary Medicine before completing their B.S. degree to earn a B.S. degree in Animal Sciences while working toward their DVM. In order to earn a B.S. degree in Animal Sciences the following requirements must be met:

• All General Education (p. 31) requirements established by the University of Missouri campus.
• All MU Animal Sciences requirements except for Animal Science senior electives; courses from the College of Veterinary Medicine will substitute for the Animal Sciences senior electives.

The student may also substitute up to 20 hours completed in the College of Veterinary Medicine in lieu of general electives in order to complete the total number of student credit hours necessary for a B.S. degree in Animal Sciences.

The B.S. degree in Animal Sciences will be granted after meeting the requirements listed above and earning a total of 120 credits.

Graduate

• MS in Animal Sciences (p. 66)
• PhD in Animal Sciences (p. 67)

Division of Animal Sciences
920 E. Campus Drive, Columbia, MO 65211

Director of Graduate Studies: William Lamberson
About Animal Sciences Graduate Programs

The Division of Animal Sciences has a broad-based teaching program, and our faculty members are noted for teaching and mentoring excellence. Our PhD program was recently ranked among the best in the country by the National Research Council and our research program among the best in the world by Reuters. Our graduate program has maintained or increased numbers, support, and placement rates over the past five years. The Division strives to maintain a diverse faculty qualified to teach relevant courses in five discipline areas (reproductive and environmental physiology, ruminant and monogastric nutrition, genetics/genomics, meat science and livestock production) and across six species (swine, dairy cattle, beef cattle, poultry, companion animals and horses) to serve the demand for graduates to be employed nationwide in research, teaching and industry.

BS in Animal Sciences

Degree Program Description

Humans have been improving the value of animals as companions, transportation, laborers and food since the first dogs, horses, donkeys and cattle were domesticated. Animal Sciences provides an in-depth focus on whole-animal biology and contributes to advances in livestock production, animal health and human health through cutting-edge research and direct application of that new knowledge. Animal Scientists apply the latest in genetics, physiology and nutrition to all of these diverse fields. By employing a whole-animal approach to science, this degree prepares students for any number of careers, including agribusiness, livestock production, research, veterinarians, captive wild animal management, animal products and equine industry. In agribusiness, our graduates are in demand to fill sales and management positions with feed and pharmaceutical companies such as Land O'Lakes, MFA, Zoetis and Elanco. In livestock production, graduates who prefer to work directly with animals find rewarding positions as managers of various farm companies, such as Tyson Foods, Smithfield, Cargill and other private companies. In research, graduates with a passion for research are needed as lead scientists and laboratory technicians in industry and academia. As a veterinarian, an animal sciences degree provides a solid science and husbandry foundation for the study of veterinary medicine. Some vets specialize in care for companion animals, such as dogs and cats, while others focus on livestock, horses or wildlife. In captive wild animal management, zoological parks hire animal sciences graduates to manage the care and well-being of the park's collection. In addition to animal care, zookeepers also can be involved with research and conservation efforts. In animal products, students with a specific interest in meat, dairy products and eggs are in high demand for positions with companies such as Farmland, Hormel, Hy-Vee and Sam's Club. Opportunities abound in procurement, sales, quality assurance and food safety. In equine industry, the degree focuses on the science behind equine management and as such students are placed in positions at prominent equine breeding, sales or training facilities throughout the U.S. Students have multiple opportunities to gain hands-on experience by using horses in the MU Quarter Horse Program.

Major Program Requirements

Students earning a Bachelor of Science in Animal Sciences are required to complete all University undergraduate general education requirements (p. 31), and divisional major requirements, including selected foundational courses, which may fulfill some University general education requirements.

Total Credits: 120

Minor in Animal Sciences

To earn a minor in animal sciences, a student must meet the following requirements.

- A minimum of 15 hours of course credit in Animal Sciences
- A minimum of 9 hours of course work in Animal Sciences courses numbered 3000 or above.
- Students may select any combination of animal sciences courses excluding problems and internships to meet the above requirements; however, all students will be expected to meet prerequisites of animal sciences courses.
- Up to six transfer credits can be applied toward the minor; however, these transfer credits can only apply toward the lower level courses. Hence, a student must complete nine credit hours of Animal Science credits at MU that are 3000 level or higher.

MS in Animal Sciences

Degree Requirements

You and your committee develop a program of study cooperatively. An official form or letter must accompany any change in a program. A satisfactory scholastic standard must be maintained. All courses taken for graduate credit must have a cumulative average of 3.0 or higher. If the GPA falls below 3.0 cumulative, you will be placed on academic probation. There will be no waiver of fees during this probationary period. You must regain a 3.0 level at the end of the following semester or become subject to dismissal. This GPA must be maintained exclusive of problems, research and departmental seminars. Graduate students taking 7000 level courses should expect course requirements beyond those of undergraduate students in order to warrant receiving graduate credit for those courses. The Division of Animal Sciences allows no more than two 7000 level Animal Science courses in a graduate program.

Seminars

Two credit hours in seminar are required for the Master of Science degree. To meet the seminar requirement courses must require presentations of technical information. Seminars provide an opportunity to develop skills in presenting technical information to a group of peers and permit you to become acquainted with specialists in the area of animal and biological sciences.

Responsible Conduct of Research

M.S. students are encouraged to take a course in “Responsible Conduct of Research”. This requirement can be met by taking either:
Sample Plan of Study

Because students in the M.S. program are from a wide variety of circumstances, and pursue the M.S. at all different paces, a sample plan of study is not easily produced. Students are encouraged to work out their plan of study with their advisor.

Thesis/Non-Thesis Requirements

<table>

Admissions

Admission Contact Information:
Gloria Johnson
920 E. Campus Drive
Columbia, MO 65211
(573) 882-8336
http://animalsciences.missouri.edu/academics/graduates.php

Applicants are required to meet two sets of minimum qualifications for admission: the requirements of the MS in Animal Science program (https://gradstudies.missouri.edu/degreecategory/animal-sciences) and the minimum requirements of the Office of Graduate Studies (https://gradstudies.missouri.edu/admissions/eligibility-process). Because requirements vary, you must refer to a degree program’s graduate admission page to learn about specific admission criteria, application deadlines, eligibility and application process. Your application materials will be reviewed by both the Office of Graduate Studies and the degree program to which you’ve applied before official admission to the University of Missouri.

PhD in Animal Sciences

Degree Requirements

Graduate students taking 7000 level courses should expect course requirements beyond those of undergraduate students in order to warrant receiving graduate credit for those courses. The Division of Animal Sciences allows no more than two 7000 level Animal Science courses in a graduate program.

The number of credit hours in formal course work and in research varies with the student’s background, training, interests, and the nature of the research. At least 4 hours of seminar and a responsible conduct of research course are required. A dissertation based on original research is required of each candidate. Completion of requirements for a doctoral degree is generally expected within three years (five years without prior MS) after admission to the PhD program.

Seminars

Four credit hours in seminar are required for the PhD degree. To meet the seminar requirement courses must require presentations of technical information. Seminars provide an opportunity to develop skills in presenting technical information to a group of peers and permit you to become acquainted with specialists in the area of animal and biological sciences.

Responsible Conduct of Research

PhD students are required to take a course in “Responsible Conduct of Research”. This requirement can be met by taking either:

<table>

Applicants are required to meet two sets of minimum qualifications for admission: the requirements of the PhD in Animal Sciences program (https://gradstudies.missouri.edu/degreecategory/animal-sciences) and the minimum requirements of the Graduate School (http://gradschool.missouri.edu/admissions/eligibility-process/minimum-requirements.php). Because requirements vary, you must refer to a degree program’s graduate admission page to learn about specific admission criteria, application deadlines, eligibility and application process. Before official admission to the University of Missouri, your application materials will be reviewed by both the Graduate School and the degree program to which you’ve applied.

Biochemistry

Michael Chapman, Wurdack Professor & Chair
College of Agriculture, Food and Natural Resources
117 Schweitzer Hall
Phone: (573) 882-4845
Fax: (573) 882-5635
A course of study in the Department of Biochemistry emphasizes the application of chemical principles to biological systems and leads to the Bachelor of Science in Biochemistry. The program requires rigorous course work in the basic sciences, culminating with a two course capstone experience of discipline specific problems and laboratory techniques. Students are encouraged to gain research experience through independent projects in faculty labs. The biochemistry degree prepares students for further study in graduate or professional school or for a career in biochemistry, biotechnology or the biological, chemical or medical sciences.

Faculty

**Associate Professor** P. Cornish**, A. Heese**, G. King*, A. Koo**, M. Martin*, B. Peculis*, M. Siegel*, X. Zou**

**Assistant Professor** X. Heng**

**Research Professor** L. Erb*

**Associate Research Professor** B. Mooney

**Assistant Research Professor** Z. Lei, V. Mossine, T. White*

**Adjunct Professor** J. Miernyk**

**Associate Teaching Professor** S. Freyermuth

**Assistant Teaching Professor** R. Mehra-Chaudhary, T. Reilly

* Graduate Faculty Member - membership is required to teach graduate-level courses, chair master's thesis committees, and serve on doctoral examination and dissertation committees.

** Doctoral Faculty Member - membership is required to chair doctoral examination or dissertation committees. Graduate faculty membership is a prerequisite for Doctoral faculty membership.

Undergraduate

- BS in Biochemistry (p. 69)

Graduate

- MS in Biochemistry (p. 70)
- PhD in Biochemistry (p. 70)

College of Agriculture, Food and Natural Resources; School of Medicine
117 Schweitzer Hall
(573) 882-4846
http://www.biochem.missouri.edu/

Director of Graduate Studies: Charlotte Phillips

Biochemistry at the University of Missouri is a division of the College of Agriculture, Food and Natural Resources and a department of the School of Medicine. As a nationally ranked top 10 biochemistry department among public medical schools, we offer outstanding training that help students achieve their goals. We have 39 core faculty members and approximately 10 additional members, all of whom are available to mentor students in biochemistry. Nearly all facets of contemporary biochemical research are represented in their collective research interests. Our highly interactive program is an integral part of a campus-wide network of research programs including life sciences, genetics, nutrition, plant biochemistry and structural biology.

Interdisciplinary Area Programs

- PhD in Nutrition Area Program (p. 718)
- PhD in Genetics Area Program (p. 695)
- Minors in Business (p. 377), and College Teaching (p. 736)

The graduate programs of the Department of Biochemistry prepare students for professional careers in academic institutions, industry and government. The Department of Biochemistry is administered by the College of Agriculture, Food and Natural Resources and the School of Medicine. It provides a great range of opportunities for multidisciplinary study in plant, animal and microbial biochemistry, molecular biology, structural biology, and chemical biology.

Faculty Research

Virtually every important area of biochemistry and molecular biology is represented among the research interests of the faculty. These interests focus on plant biochemistry, hormonal control of plant and animal-cell metabolism, growth-factor structure and function, enzyme reaction mechanisms, biochemistry of development, biochemistry of human disease, lipid and carbohydrate metabolism, molecular biology, analytical biochemistry, proteomics, systems biochemistry, and structural biochemistry.

Facilities

The department has modern, well-equipped laboratories in the Life Sciences Center, Schweitzer Hall, Schlundt Annex, and Stephens Hall. Additional faculty are housed in the Animal Sciences Research Center, Chemistry Building, Dalton Cardiovascular Research Center, Mason Eye Institute, and the Truman Veterans Hospital.

Plans of Study

All students participate in individually planned research programs and have a supervised teaching experience along with course work. Students are expected to complete a program of courses in biochemistry and selected courses in modern biology and chemistry.

Careers

Biochemistry at the University of Missouri provides world-class training that can open the door to a wide variety of career opportunities in the life sciences. Our graduates have career opportunities available in academia, industry, agriculture or medicine.

Required Application Materials

All pre-requisites and application materials must be submitted by the annual deadline.

MD/PhD in Biochemistry Dual Degree Program

Students already accepted into the School of Medicine at MU may apply to the Department for acceptance into the MD/PhD program. Students matriculating in the MD/PhD degree program must complete degree requirements of both the School of Medicine and the Graduate School. For information and for application forms, email gradprogram@missouri.edu or write the Director of Graduate Admissions in Biochemistry, 117 Schweitzer Hall, Columbia, MO 65211, or visit the website http://www.biochem.missouri.edu.
## BS in Biochemistry

### Degree Program Description

Biochemists are the locksmiths of life science. They use their imagination, ingenuity and understanding of the basics of living processes to unlock life’s mysteries. By unraveling the complexities of nature, they improve the quality of life. Biochemistry combines the tools of biology, chemistry and genetics to fight human disease, increase the production and quality of food, and protect the environment. The knowledge acquired through the program prepares students for careers in many areas, including Medicine, Biotechnology, Agriculture and Government.

Premedical Track Students interested in a medical career may choose from a variety of science-based majors. The most common choice of students is biochemistry because it is a collaborative program between CAFNR and the School of Medicine. The Biochemistry degree provides excellent preparation for the intellectual demands of the medical profession. This training includes, as part of the degree requirements, all of the science courses necessary for application to medical school or related professional fields. Many graduates of this program matriculate at medical, dental, veterinary, pharmacy or optometry schools.

In Biotechnology, some of the nation’s largest and most respected private biotechnology companies, such as Bayer, Johnson & Johnson and Pfizer, employ biochemists in a wide range of specialties, including molecular biology, genetics engineering, pharmaceutical development and microbiology. Many graduates have chosen to pursue Masters or Doctoral degrees at major research institutions across the country. Some have been selected for internships at National Institute of Health and others have earned National Science Foundation Pre-Doctoral Awards.

In Agriculture, biochemists find employment with agricultural industry companies such as Cargill, Bayer (Monsanto), and Novartis. They may work on projects to develop new varieties of crops that resist drought and insects, produce pharmaceutical compounds, or tolerate herbicide application.

In Government, state and federal agencies such as the U.S. Food and Drug Administration, U.S. Department of Energy and the Missouri Department of Agriculture employ biochemists in many fields. They might research biological alternatives for reclaiming sites contaminated with radioactive material or search for ways to protect against food-borne pathogens.

### Major Program Requirements

Students earning a Bachelor of Science in Biochemistry are required to complete all University general education requirements (p. 31), University undergraduate requirements (p. 30), and degree requirements, including selected foundational courses, which may fulfill some University general education requirements.

**Advanced science**

- Science courses that are not used to fulfill other major requirements. For an approved list of courses email mubchemadvising@missouri.edu. 6 of the 9 credit hours must be 3000 level or above.

### Semester Plan

Below is a sample plan of study, semester by semester. A student’s actual plan may vary based on course choices where options are available.
Each student should register for a minimum of two courses and seminars, lab rotations, and committee meetings, culminating in the dissertation defense. Prior to thesis/dissertation research, qualifying and comprehensive exams and a full-time graduate student. Following successful completion of the comprehensive examination, a student must

complete nine credit hours per semester, or total required. The criteria and format of the QE component can range from basic gene expression. The decision of the timing and format of the QE is at the discretion of the students interested in teaching as a career. Missouri requires that a student who earns a grade of C or lower in any of these courses must retake the course.

All graduate students are required to earn a grade of B or better.

Department Seminars
Students are expected to attend all department seminars (http://www.biochem.missouri.edu/news-events/seminars).

Teaching Experience
An important part of graduate education is learning to communicate effectively as a teacher. Two semesters enrolled in BIOCHM 9001 helps prepare the students for their teaching assistant experience, which consists of one semester in an undergraduate laboratory or lecture venue. This is a required component of PhD degrees and typically is performed in the second year of graduate study. Students must satisfy this teaching experience requirement with a grade of B or better to remain in good standing as a graduate student in Biochemistry. This teaching experience usually involves assisting a faculty member in one of several courses and interacting with the students fairly extensively. The Biochemistry Department also offers a Zahler Fellowship for graduate students interested in teaching as a career. Missouri requires that students whose first language is not English demonstrate adequate oral proficiency before assisting in teaching.

PhD in Biochemistry

Degree Requirements
Along with courses and seminars, students embark on lab rotations, dissertation research, qualifying and comprehensive exams and committee meetings, culminating in the dissertation defense. Prior to successfully completing the comprehensive examination, a student must complete nine credit hours per semester, or four per summer, to remain a full-time graduate student. Following successful completion of the comprehensive exam, each student should register for a minimum of two
Comprehensive Examination Process

Students who have passed the qualifying exam should complete the Comprehensive Exam during the next two semesters following a satisfactory performance of the Qualifier Exam and in any case no later than five semesters following matriculation. This examination involves writing a proposal for doctoral research in the format of a federal postdoctoral fellowship application. The student must then orally defend the proposal before his/her doctoral program committee plus a member of the graduate education committee. This is designed to assess the student's ability to think critically about science and to communicate effectively both in writing and in an oral presentation.

Dissertation Requirements

BIOCHM 9087

Students should enroll in the first round of the one-hour seminar BIOCHM 9087 during the first semester. BIOCHM 9087 in the fall semester is designed to teach the fundamental techniques of oral presentation of scientific information, slide preparation, computer graphics, overhead preparation, etc., as well as research-compliance training. Students should complete three additional semesters of BIOCHM 9087 in spring semesters for a total of four credit hours. A student's first spring BIOCHM 9087 seminar is devoted to a presentation of the proposed dissertation research. The second should provide an update of research progress or a review of major journal papers in the student's research area. The third should be a practice for the dissertation defense. The student's thesis committee is expected to attend these presentations at the invitation of the student. A meeting with the doctoral program committee (DPC) can be arranged after the seminar presentation and may serve as the required annual meeting.

Thesis/Dissertation Research

BIOCHM 9090

Prior to successfully completing the comprehensive examination, a student must complete nine credit hours per semester, or four per summer, to remain a full-time graduate student. Following successful completion of both parts of the comprehensive exam, each student should register for a minimum of two hours of thesis/dissertation research per semester (or one in summer) to maintain continuous enrollment. More than the minimum may be needed to obtain the 72 credit hours required by the MU Graduate School (http://gradschool.missouri.edu) for completion of the Ph.D.

Research Rotations

Starting in the fall semester of the first year, each student completes three laboratory rotations with the aim of identifying a lab in which to conduct PhD thesis research. By the end of the second semester, most students have chosen their labs. Each rotation should be conducted for a period of at least eight weeks. Two rotations are performed in the first semester, with the second rotation ending Dec. 31. The third rotation begins Jan. 1 or soon after. One-half of the student's time and effort should be directed toward the rotation project and the other half toward course work. The rotation laboratory should serve as an academic home, and the student should participate in all usual laboratory activities, including weekly group meetings.

Admissions

Biochemistry Graduate Admissions Support
117 Schweitzer Hall

Columbia, MO 65211
(573) 882-4846, (800) 647-2414
gradprogram@missouri.edu

Applicants are required to meet two sets of minimum qualifications for admission: the requirements of the PhD in Biochemistry program (https://gradstudies.missouri.edu/ degreecategory/biochemistry) and the minimum requirements of the Graduate School (http://gradschool.missouri.edu/admissions/eligibility-process/minimum-requirements.php). Because requirements vary, you must refer to a degree program's graduate admission page to learn about specific admission criteria, application deadlines, eligibility and application process. Before official admission to the University of Missouri, your application materials will be reviewed by both the Graduate School and the degree program to which you've applied.

Environmental Sciences

Stephen H. Anderson, Degree Program Coordinator
Environmental Sciences
School of Natural Resources
College of Agriculture, Food, and Natural Resources
329 Anheuser-Busch Natural Resources Building
(573) 882-6303

Earth’s environment provides conditions conducive for life: an oxygenated atmosphere; water resources; and soil as a medium for plant growth. Environmental processes occurring on the planet govern the movement of air, energy, matter, and water. Through the study of Environmental Sciences, students will learn the science and experience the beauty of the outdoor environment. This degree program addresses how human activities can adversely alter some environmental processes and environmental quality, techniques to improve environmental quality, modeling of environmental processes and practices that minimize human impacts on the environment. The Environmental Sciences degree provides a strong science foundation through general science coursework and specialized studies of the atmosphere, land and soil, water, and environmental outreach and education. The degree combines interests in predicting and understanding weather patterns, monitoring environmental change, conserving and managing soil and biological organisms, assuring healthy streams and adequate water supplies, and improving environmental quality with the shaping of new policies and educating others about the natural environment and environmental issues. Example careers include Atmospheric Scientist, Climatologist, Environmental Specialist, Environmental Technician, Hydrologist, Land Manager, Meteorologist, Soil Scientist, and Water Quality Specialist. Employment may occur in a variety of sectors, including federal, state, county and city government agencies, non-government agencies (NGOs), and private consulting firms.

Faculty

Professor Emeritus C. J. Gantzner
Assistant Professor N. Aloyisius, A. Argerich, D. Hall, C.J. Li, R. North, R. Rotman
Associate Professor Emeritus R. J. Miles, S.E. Mudrick
Extension Associate Professor P. E. Guinan*
Instructor E. Aldrich, P. Quackenbush
Research Professor R. P. Udawatta **
Research Assistant Professor S. Bardhan*, J. D. Wood*

Employment may occur in a variety of sectors, including federal, state, county and city government agencies, non-government agencies (NGOs), and private consulting firms.
Adjunct Assistant Professor  K.S. Veum*
Adjunct Associate Professor  C. Baffaut*,  F. Eivazi*,  R. N. Lerch**,  M. Nathan,  J. Yang*

*  Graduate Faculty Member - membership is required to teach graduate-level courses, chair master's thesis committees, and serve on doctoral examination and dissertation committees.
**  Doctoral Faculty Member - membership is required to chair doctoral examination or dissertation committees. Graduate faculty membership is a prerequisite for Doctoral faculty membership.

Undergraduate

- BS in Environmental Sciences (p. 72)
  - with emphasis in Atmosphere (p. 73)
  - with emphasis in Land and Soil (p. 74)
  - with emphasis in Outreach and Education (p. 75)
  - with emphasis in Water (p. 76)
- Minor in Environmental Sciences (p. 78)

Dual Degree - Geological Sciences and Environmental Sciences

The School of Natural Resources and the Department of Geological Sciences offer a dual BS in Geological Sciences and in Environmental Sciences. The dual degree program requires 132 credits for graduation. For more information on the dual degree program, contact an advisor in the School of Natural Resources or the Department of Geological Sciences.

Dual Degree - Biochemistry and Environmental Sciences

The School of Natural Resources and the Division of Biochemistry offer a dual BS degree in Biochemistry and in Environmental Sciences. The dual degree program requires 134 credits for graduation. For more information on the dual degree program, contact an advisor in the School of Natural Resources or the Division of Biochemistry.

Tel. no. (573) 884-6303
Email: andersons@missouri.edu

Graduate study at the University of Missouri (MU) in soil, environmental, and atmospheric sciences is designed to prepare students for professional careers in research, teaching or practical application of the principles of soil, environmental and atmospheric sciences (SEAS).

Options for graduate study in SEAS will be offered through the MS in Natural Resources with an emphasis in SEAS (p. 100) and the PhD in Natural Resources with an emphasis in SEAS (p. 107). Focus areas in soil science, environmental science or atmospheric science are available through these options. Details on both degree programs, including recommended preparation, admission criteria, required application materials, degree requirements and financial aid, are provided in the graduate tab of the Natural Resources section (p. 95) of the catalog under the College of Agriculture, Food and Natural Resources.

Graduate Focus Areas

Atmospheric Science

Atmospheric science students participate in an area of research such as dynamic and physical meteorology, general circulation, global climate change, severe storms, remote sensing and applied climatology with emphasis on environmental and socioeconomic impacts.

The program has a specialized computer laboratory that includes significant hardware and software to support thesis and dissertation research. There are also occasional opportunities for joint research programs with the National Center for Atmospheric Research.

Environmental Science

Environmental science students may participate in environmental quality, hydrology, watershed management, and water quality focus areas. State-of-the-art equipment for chemical, biological and physical analysis of water and earth materials is available for use in laboratories maintained by the SEAS Department in the School of Natural Resources.

The program has a working scale-nested watershed study spanning native lands as well as agricultural, and urban environments, thus supplying an excellent outdoor teaching and research laboratory.

Soil Science

Soil science students may participate in one of the following focus areas: environmental quality, pedology, soil chemistry and biochemistry, soil microbiology, soil physics and conservation, soil management, or soil fertility and plant nutrition.

State-of-the-art equipment for chemical, biological and physical analysis of soils is available for use in laboratories maintained by the SEAS Department in the School of Natural Resources. Access to additional chemical analysis equipment, computing facilities, digital imaging equipment, field facilities, greenhouse space, radiochemistry and scanning electron microscopes is available within the University of Missouri.

Financial Aid from the Program

Check the program website (http://www.snr.missouri.edu/seas/academics/graduate-program.php) or contact the program for details on scholarships or graduate assistantships that may be available.

Students may identify a specific track and select from the following classes or courses approved by an academic advisor to achieve an additional 15 credit hours at the 3000/4000 levels (must take at least one Atmospheric, Environmental or Soil Science course).

Students not wishing to work in a specific track may select from either list to achieve an additional 15 credit hours at the 3000/4000 levels and at least one course must be in Atmospheric, Environmental, or Soil Science.

(Tracks do not appear on transcripts or diplomas)

Hydrology Track

| AG_S_M 4420 | Surface Water Management | 3 |
| ATM_SC 3600 | Climates of the World    | 3 |
| ATM_SC 4400 | Micrometeorology         | 3 |
| ATM_SC 4590 | Radar Meteorology        | 3 |
| BIOL_EN 4150| Soil and Water Conservation Engineering | 3 |
| CV_ENG 3700 | Fluid Mechanics          | 3 |
| CV_ENG 3702 | Hydrology                | 4 |
| ENV_SC 4305 | Environmental Soil Physics | 3 |
| ENV_SC 4306 | Environmental Soil Physics Laboratory | 2 |
| ENV_SC 4318 | Environmental Soil Chemistry | 3 |
| FOREST 4390 | Watershed Management and Water Quality | 3 |
| NAT_R 3400 | Water Quality and Natural Resource Management | 3 |
| GEOL 4100 | Groundwater Hydrology     | 3 |

Water Quality Track

| AG_S_M 4420 | Surface Water Management | 3 |
| BIOL_EN 4150| Soil and Water Conservation Engineering | 3 |
| ENV_SC 4305 | Environmental Soil Physics | 3 |
| ENV_SC 4306 | Environmental Soil Physics Laboratory | 2 |
| ENV_SC 4312 | Environmental Soil Microbiology | 3 |
| ENV_SC 4318 | Environmental Soil Chemistry | 3 |
| F_W 3900   | Ecology of Fishes        | 3 |
| F_W 4800   | Environmental Toxicology | 3 |
| FOREST 4390| Watershed Management and Water Quality | 3 |
| GEOL 4300 | Introduction to Low-Temperature Geochemistry | 3 |
| NAT_R 3400 | Water Quality and Natural Resource Management | 3 |
| PLNT_S 4720| Aquatic Entomology      | 3 |
| SOIL 4313  | Soil Fertility and Plant Nutrition | 3 |
| Capstone Experience | 3 |
| ENV_SC 4320 | Hydrologic and Water Quality Modeling | 3 |

Electives approved by faculty or professional advisor to complete 125 credits

Semester Plan

Minor in Environmental Sciences

A minor in Environmental Sciences provides students an opportunity to enhance their understanding of environmental processes, interrelationships between various components of the environment, and environmental issues. The breadth of knowledge and skills acquired can complement other degrees (i.e., biology, geography, geological sciences, natural resource science and management, and plant science) and enhance employment opportunities.

The minor in Environmental Sciences with a focus on atmospheric science prepares students for jobs in broadcast meteorology as well as for certification required by government agencies.

The minor in Environmental Sciences with a focus on soil science prepares students for employment in government regulatory and management agencies conducting soil science research or managing soil resources, environmental and agricultural consulting firms providing clients with soil assessments and testing services, and agricultural research and development.

The minor in Environmental Sciences with a focus on water science prepares students for positions in local, state, and federal agencies managing and monitoring water resources, environmental consulting firms that help clients solve water quality and quantity challenges, and water testing laboratories.

Requirements

• 12 credit hours completed under the curriculum designators: ATM_SC, ENV_SC, and/or SOIL.
• 9 credit hours at the 3000-level or above

Students may choose to complete a broad range of environmental sciences coursework or gain greater depth of knowledge through a focused study of atmospheric science, soil science, or water science. All coursework must be approved by an academic advisor within the Environmental Sciences degree program.

Typical employment areas for graduates of the food and hospitality program include quality assurance, quality control, product development, sensory science, flavor chemistry, higher education, hospitality management, and agricultural systems management.

Faculty

Food Science Faculty:
Professor M. Lin**, A. Mustapha**
Associate Professor A. D. Clarke**, I. U. Gruen**, B. Vardhanabhuti**
Assistant Professor K. Krishnaswamy*, M. Kwasniewski**
Adjunct Associate Professor L. Occena-Po*
Adjunct Assistant Professor G. Zheng*
Research Professor Emeritus M. Ellersiek*
Professor Emeritus F. H. Hsieh*, R. T. Marshall*, N. Unklesbay*

Hospitality Management Faculty:
Professor E. C. Tse*
Associate Professor S. Cho**, D.-Y. Kim**, H. L. Marshall*
Assistant Professor A. Alexander*, P. Liu*, M. Palmero*

Agricultural Systems Management Faculty:
Professor L. Schumacher*
Assistant Professor J. Zhou*

• Graduate Faculty Member - membership is required to teach graduate-level courses, chair master's thesis committees, and serve on doctoral examination and dissertation committees.

** Doctoral Faculty Member - membership is required to chair doctoral examination or dissertation committees. Graduate faculty membership is a prerequisite for Doctoral faculty membership.

Undergraduate

While MU does not offer undergraduate degrees specifically in Food and Hospitality Systems, the University does offer undergraduate opportunities in a number of related areas, both within the College of Agriculture, Food and Natural Resources, and in the other Schools and Colleges that make up the University. Undergraduate degrees related to Food and Hospitality Systems are Food Science and Nutrition, Hospitality Management and Agricultural Systems Management. The catalog provides a complete list of these degree options (p. 16).

Graduate

• MS in Food and Hospitality Systems (p. 79)
• PhD in Food and Hospitality Systems (p. 80)

College of Agriculture, Food and Natural Resources
246 William Stringer Wing
About Food Science

Candidates are prepared for careers in research or advanced professional careers in the food industry, academia in junior and 4-year colleges, and in supporting roles in academics or industry. Graduates also may play leadership roles in extension, food production, marketing, regulation and quality assurance, or government agencies. Selected careers include research and development for private industry or the federal government, food plant supervision, technical operation, product development, nutrition, distribution, food safety and regulatory work, and higher education.

Facilities and Resources

Departmental cooperation with the food industry is excellent. Special facilities for food science study and research include chemical, microbiological and analytical laboratories, as well as pilot plants to study food processing.

About Hospitality Management

Graduates will have an understanding of hospitality management concepts as well as core concepts in individual and organizational behaviors, and be able to relate them to real problems of marketing, human resource management, strategic management, and financial planning at the levels of the organization and the industry. The goal of the HM track of the FHS graduate program is to produce preeminent scholars who can contribute to research and industry sectors in hospitality and tourism. Graduates will be marketable to academic programs in hospitality and tourism management, business, park and leisure or consumer and retailing, as well as to industry or government, depending on the student’s specific choice of cognate area and research.

About Agricultural Systems Management

Agricultural Systems Management program is striving to advance agricultural production and management by adopting the emerging technologies, including smart sensing, internet of things, drones (UAS), and artificial intelligence. Students are heavily exposed to the research and teaching environments in smart technologies and gain hands-on experiences in areas of precision agriculture, smart/digital agriculture, plant high-throughput phenotyping, and agricultural mechanization (such as planting, irrigation, spray, harvesting). Candidates are prepared for careers in research or advanced professional careers in agricultural equipment, grain handling, and farm management industries. They are also trained for positions in higher education, research institutes, and industry. Graduates also may have leadership roles in extension, food production, marketing, regulation and quality assurance, or government agencies. Selected careers include research and development for private industry or the federal government, plant supervision, technical operation, product development, product testing, distribution, agricultural safety and regulatory work, and higher education.

Facilities and Resources

Departmental cooperation with the agricultural industry is excellent. Special facilities for study and research include electrical and mechanical engineering/processing, microbiology and analytical laboratories, as well as pilot plants to study food processing.

About Hospitality Management

Graduates will have an understanding of hospitality management concepts as well as core concepts in individual and organizational behaviors, and be able to relate them to real problems of marketing, human resource management, strategic management, and financial planning at the levels of the organization and the industry. The goal of the HM track of the FHS graduate program is to produce preeminent scholars who can contribute to research and industry sectors in hospitality and tourism. Graduates will be marketable to academic programs in hospitality and tourism management, business, park and leisure or consumer and retailing, as well as to industry or government, depending on the student’s specific choice of cognate area and research.

About Agricultural Systems Management

Agricultural Systems Management program is striving to advance agricultural production and management by adopting the emerging technologies, including smart sensing, internet of things, drones (UAS), and artificial intelligence. Students are heavily exposed to the research and teaching environments in smart technologies and gain hands-on experiences in areas of precision agriculture, smart/digital agriculture, plant high-throughput phenotyping, and agricultural mechanization (such as planting, irrigation, spray, harvesting). Candidates are prepared for careers in research or advanced professional careers in agricultural equipment, grain handling, and farm management industries. They are also trained for positions in higher education, research institutes, and industry. Graduates also may have leadership roles in extension, food production, marketing, regulation and quality assurance, or government agencies. Selected careers include research and development for private industry or the federal government, plant supervision, technical operation, product development, product testing, distribution, agricultural safety and regulatory work, and higher education.

Facilities and Resources

Departmental cooperation with the agricultural industry is excellent. Special facilities for study and research include electrical and mechanical engineering/processing, microbiology and analytical laboratories, as well as pilot plants to study food processing.

Funding

Assistantships are available on a competitive basis to qualified students from funds provided by the Agricultural Experiment Station, research contracts and grants. Fellowships supported by industry and professional societies, based on national competition, are also available.

MS in Food and Hospitality Systems

Degree Requirements

• Minimum of 30 hours of graduate-level coursework.
• 15 hours must be at the 8000-level or above.
• Maximum of 40% of coursework can be F_S 8090 or F_S 8085 hours.

While a basic goal of the M.S. program is to provide students with specialized skills and training in research methods, the Food and Hospitality Systems graduate faculty (including faculty from Food Science, Hospitality Management and Agricultural Systems Management) believe that it is important for M.S. students to understand something of the breadth of the discipline as well.

There are three tracks in the Food and Hospitality Systems M.S. program: Food Science, Hospitality Management and Agricultural Systems Management. Each track includes specific required courses.

Note: Tracks do not appear on transcripts or diplomas. Emphasis areas appear on transcripts.

Food Science Track Required Courses:

<table>

</table>
Plan of Study

The student and the major advisor, in consultation with the FHS M.S. Program Committee will prepare a plan of study (M1 form). The plan of study includes a list of the formal courses, readings, problems, research hours and seminars that the students will use to fulfill the requirements for the M.S. degree. The M1 form must be turned in to the FHS Graduate Program Coordinator by the end of the second semester of the student's graduate program for submission to the Graduate School.

Thesis Requirements

A FHS Masters Degree Program Committee must be identified prior to approval of the research topic for the M.S. thesis and no later than the end of the second semester. An acceptable FHS M.S. Program Committee must include at least three graduate faculty members, at least two of whom must be from the Food and Hospitality Systems Graduate Program, including the advisor chair who must be a faculty in the track the student is in. At least one committee member must be a graduate faculty member from MU, but outside of the Food and Hospitality Systems Graduate Program. A signed M2 form which lists the names and academic programs of the committee members must be turned in to the FHS Graduate Program Coordinator by the end of the second semester of the student's graduate program for submission to the Graduate School.

The defense for the M.S. degree program will include the following components:

1. Exit seminar presented to the M.S. graduate program committee and the public.
2. Oral examination to demonstrate mastery of the course of study.

In addition to the departmental requirements, the Graduate School is requiring that all graduating students include a public abstract. The public abstract will be used by the MU Graduate School to record and track graduate student's research interests.

Exit Seminar

Immediately before the final examination, the M.S. student must present a seminar on his or her research. The seminar must take place when MU is officially in session and has to be announced at least two weeks prior to the scheduled date. The exit seminar is open to the general university audience. All members of the M.S. Program Committee will attend.

Final Examination

After the student's exit seminar has been presented, the M.S. Program Committee will conduct a final oral examination. The candidate should be prepared to defend his/her research and discuss any related areas. A report of the examination, carrying the signatures of at least three members of the committee, must be sent to the Graduate School before the deadline preceding the anticipated date of graduation. For the thesis to be considered successfully defended, the student's M.S. Program Committee must vote to pass the student on the defense with no more than one dissenting or abstaining vote. The signed M3 form which shows the results of the student's final exam must be turned in to the FHS Graduate Program Coordinator for submission to the MU Graduate School.

All exit seminars are open to the general faculty. The Food and Hospitality Systems Graduate Program will announce exit seminars to appropriate colleagues within and outside the program. The final examination must take place when MU is officially in session and the candidate must be enrolled at MU at the time of the examination.

A final copy of the thesis must be submitted to the Graduate School electronically. A final bound copy of the thesis and at least one manuscript suitable for publication must be turned in to the Food and Hospitality Systems Graduate Program.

Admissions

Applicants are required to meet two sets of minimum qualifications for admission: the requirements of the MS in the Food and Hospitality Systems Graduate Program (https://gradschool.missouri.edu/degreecategory/food-and-hospitality-systems) and the minimum requirements of the MU Graduate School (https://gradschool.missouri.edu/admissions/eligibility-process). Because requirements vary, you must refer to a degree program's graduate admissions page to learn about specific admission criteria, application deadlines, eligibility and application process. Your application materials will be reviewed by both the Graduate School and the degree program to which you've applied before official admission to the University of Missouri.

PhD in Food and Hospitality Systems

Degree Requirements

- Minimum of 72 hours of graduate level coursework beyond the Bachelor’s degree.
- 15 hours must be at the 8000-level or above, exclusive of readings, research, problems and independent study hours.
- Maximum of 30 hours of post-baccalaureate graduate credits (exclusive of readings, research, problems and independent study hours) from a regionally accredited university may be transferred in.

While a basic goal of the Ph.D. program is to provide students with highly specialized research skills and knowledge in a particular subdivision of Food and Hospitality Systems, the faculty believe that it is important for Ph.D. students to understand the breadth of the discipline as well.
There are three tracks in the Food and Hospitality Systems (FHS) Ph.D. program: Food Science, Hospitality Management, and Agricultural Systems Management. Courses required for all three tracks and those required for each track, respectively, are listed below.

Note: Tracks do not appear on transcripts or diplomas. Emphasis areas appear on transcripts.

### Required Courses for Food Science, Hospitality and Agricultural Systems Management Tracks:

#### Statistics
- STAT 7110: Statistical Software and Data Analysis (6-9 credits)
- or STAT 7150: Applied Categorical Data Analysis (3 credits)
- or STAT 7210: Applied Nonparametric Methods (3 credits)
- or STAT 7310: Sampling Techniques (3 credits)
- or STAT 7410: Biostatistics and Clinical Trials (3 credits)
- or STAT 7510: Applied Statistical Models I (3 credits)
- or STAT 7530: Analysis of Variance (3 credits)
- or STAT 7540: Experimental Design (3 credits)
- or STAT 7560: Applied Multivariate Data Analysis (3 credits)

#### Ethics
- PLNT_S 8010: Professionalism and Ethics (1-2 credits)
- or BIO_SC 8060: Ethical Conduct of Research (2 credits)
- or V_PBIO 8641: Introduction to Research Ethics (1-2 credits)
- or MPP 8415: Responsible Conduct of Research thru Engagement, Enactment and Empowerment NIH and other Federal Age (3 credits)
- or PSYCH 8910: Responsible Conduct of Research (3 credits)

#### Career Development
- AG_ED_LD 8350: College Teaching of Agriculture, Food and Natural Resources (1-4 credits)
  - or GRAD 9010: Preparing Future Faculty I (3 credits)
  - or GRAD 9020: Preparing Future Faculty II (3 credits)
  - or GRAD 9050: Preparing Future Professionals for Post-Graduate Studies Careers (3 credits)
  - or GRAD 9072: Science Policy and Public Engagement (3 credits)
  - or GRAD 9082: Science Policy and Public Engagement (3 credits)
  - or GRAD 9304: Instructional and Communication Strategies for Effective College Teaching (3 credits)

#### Chemistry and Analysis
- F_S 7310: Food Chemistry and Analysis (3-4 credits)
  - or F_S 7311: Investigation of Food Properties (4 credits)
  - or F_S 7315: Food Chemistry and Analysis Laboratory (4 credits)

#### Engineering/Processing
- F_S 7160: Food Process Engineering (3 credits)
  - or F_S 7330: Principles of Food Processing (3 credits)

#### Microbiology
- F_S 7370: Food Microbiology (3 credits)
- F_S 7375: Food Microbiology Laboratory (2 credits)

#### Quality Assurance
- F_S 7360: Food Quality Assurance (3 credits)

#### Commodity Groups
- F_S 7331: Technology of Dairy Products and Ingredients (3 credits)
  - or F_S 7344: Processing Muscle Foods (3 credits)
  - or F_S 7440: Principles of Winemaking and Wine Chemical Analysis (3 credits)

#### Hospitality Management Track Required Courses:
- HSP_MGMT 7100: Hospitality Human Resources Management (3 credits)
- HSP_MGMT 7110: Hospitality Sales and Marketing (3 credits)
- HSP_MGMT 7180: Strategic Management in the Hospitality Industry (3 credits)
- HSP_MGMT 7200: Destination Management (3 credits)
- HSP_MGMT 7400: Hospitality Finance Management (3 credits)
- F_S 7941: Internship in Food Science (2 credits)

### Agricultural Systems Management Track Required Courses:
- AG_S_M 7020: Agricultural Safety and Health (3 credits)
  - or AG_S_M 7140: Electricity: Wiring and Equipment (3 credits)
- AG_S_M 7220: Material Handling and Conditioning (3 credits)
- AG_S_M 7320: Agricultural Equipment and Machinery (3 credits)
- AG_S_M 7360: Precision Agriculture Science and Technology (3 credits)
- AG_S_M 7390: Optimization and Management of Food and Agriculture Systems (3 credits)
- AG_S_M 7420: Surface Water Management (3 credits)
- or AG_S_M 7460: Irrigation and Drainage (3 credits)

### Plan of Study

The plan of study, completed under the guidance of a FHS Doctoral Degree Program Committee, consists of a list of formal courses and research or problems hours. The signed D2 form listing the committee-approved courses in the student's plan of study must be turned in to the FHS Graduate Program Coordinator no later than the third semester for submission to the Graduate School. See a Sample Plan of Study at this link: https://gradschool.missouri.edu/wp-content/uploads/2018/03/d2.pdf

### Minimum Requirements

- Hours beyond the baccalaureate degree: 72
- Graduate level courses (excluding Problems, Research or Independent Study): 15
- F_S 9087: Seminar in Food Science (2 cr of F_S 8087 may be transferred in. F_S 9087 repeated for a total of 4 credit hours) (1 credit)
- F_S 9090: Research in Foods Science (6 credits)

### Dissertation Requirements

#### Doctoral Degree Program Committee

A FHS Doctoral Degree Program Committee must be identified by the end of the student's second semester. This committee must include at least four MU graduate faculty members, three of whom must be from the Food and Hospitality Systems Graduate Program, including the advisor chair. The advisor chair and at least one other committee member must also be members of MU Doctoral Faculty. At least one committee member must be a graduate faculty member from MU but outside the chosen track in the Food and Hospitality Systems Graduate Program.

#### Qualifying Exam

To fulfill the Ph.D. Qualifying Exam, a proposal of the Ph.D. dissertation research must be presented to and approved by the student's Doctoral Degree Program Committee before the start of the student's third semester. The D1 form must be submitted to the FHS Graduate Program Coordinator for submission to the Graduate School by the same time to indicate the results of this Qualifying Exam. The student's Doctoral
Degree Program Committee shall determine the course of action for students who do not pass the Qualifying Exam.

Research
Students are expected to begin their research once their proposal has been approved by the FHS Doctoral Degree Program Committee at their Qualifying Exam. Students are required to conduct periodic committee meetings to update the Doctoral Degree Program Committee on his/ her research progress throughout the Ph.D. program. Significant modifications of the research studies following initial approval of the proposed Ph.D. research during the Qualifying Exam must be approved by the student’s Doctoral Degree Program Committee. Upon completion of the research, a dissertation based on original research must be reviewed and approved by the student’s Doctoral Degree Program Committee. All Ph.D. candidates are required to prepare at least one manuscript, judged acceptable by the major advisor and at least one additional member of the student’s Doctoral Degree Program Committee, for submission to a refereed journal, prior to the final dissertation defense.

Comprehensive Examination Process
Exit Seminar
Immediately before the defense of the dissertation, the student must present a formal seminar on his/her research. The seminar must take place when MU is officially in session, must be announced at least two weeks prior to the scheduled date and is open to the general university audience.

Final Examination
After the seminar has been presented, a final defense oral examination will be conducted by the FHS Doctoral Degree Program Committee. The candidate should be prepared to defend his/her research and to discuss any related areas.

A report of the examination (D4 form), carrying the signatures of all members of the committee, must be turned in to the FHS Graduate Program Coordinator for submission to the MU Graduate School before the deadline preceding the anticipated date of graduation. For the dissertation to be considered successfully defended, the student’s Doctoral Degree Program Committee must vote to pass the student on the defense with no more than one dissenting or abstaining vote.

All dissertation exit seminars are open to the public. The Food and Hospitality Systems Graduate Program will announce dissertation exit seminar dates to appropriate colleagues within and outside the program. The dissertation defense must take place when MU is officially in session and the candidate must be enrolled at MU at the time.

A final copy of the dissertation must be submitted to the MU Graduate School electronically. A bound hard copy must be submitted to the FHS Graduate Program.

Admissions
Applicants are required to meet two sets of minimum qualifications for admission: the requirements of the Ph.D in Food and Hospitality Systems Graduate Program (https://gradschool.missouri.edu/degreecategory/food-and-hospitality-systems) and the minimum requirements of the Graduate School (https://gradschool.missouri.edu/admissions/eligibility-process). Because requirements vary, you must refer to the degree program’s graduate admission page to learn about specific admission criteria, application deadlines, eligibility and application process. Your application materials will be reviewed by both the Graduate School and the degree program to which you’ve applied before official admission to the University of Missouri.

Professor Emeritus F. H. Hsieh*, R. T. Marshall*, N. Unklesbay*
Adjunct Instructor M. Jones
• Graduate Faculty Member - membership is required to teach graduate-level courses, chair master's thesis committees, and serve on doctoral examination and dissertation committees.
** Doctoral Faculty Member - membership is required to chair doctoral examination or dissertation committees. Graduate faculty membership is a prerequisite for Doctoral faculty membership.

Undergraduate
• BS in Food Science and Nutrition (p. 83)
• Minor in Food Science and Nutrition (p. 84)
The department offers the Bachelor of Science degree with a major in Food Science and Nutrition within four tracks, namely Food Science, Food Business, Enology and Culinary Sciences. A minor is available.
Note: Tracks do not appear on transcripts or diplomas.

Graduate
The Food and Hospitality Systems Graduate Program offers M.S. and Ph.D. graduate degrees under three track options: Food Science,
Hospitality Management and Agricultural Systems Management. We also offer an online graduate certificate program in Food Safety and Defense. The catalog provides a complete list of these degree options (p. 16).

BS in Food Science and Nutrition

Degree Program Description

From creating low-fat ice cream flavors that don’t taste low-fat, to developing packaging that protects food from E. coli and other pathogens, food scientists work to ensure the foods that fill your shopping cart are safe, nutritious and delicious. Food Science and Nutrition uses the latest in food manufacturing to turn agricultural commodities into products that consumers want to buy. A degree in food science and nutrition provides the skills needed to succeed in a variety of food science careers. The degree can be individualized by choosing between three degree tracks: Food Science, Food Business, Culinary Science. Some careers include Food technologist, product developers and quality assurance supervisors. Food technologists are employed by some of the world’s largest and most respected private industry companies, including Del Monte Foods, General Mills, H.J. Heinz and Kellogg. They apply the principles of many scientific disciplines, such as biology, chemistry, engineering, physics, molecular biology, nutrition and microbiology to the challenges of food production. Product developers find employment with many of the same companies as food technologists. Their job, however, focuses more on other aspects of food manufacturing such as consumer acceptability, economics, production feasibility and marketing. Developers also explore new ways to enhance nutritional value and health benefits. Quality assurance supervisors work in private industry but also are employed by government agencies such as the U.S. Department of Agriculture and the Food and Drug Administration. They are responsible for reviewing safety and manufacturing protocol to ensure that the food you eat is safe and of the highest quality.

Major Program Requirements

Students earning a Bachelor of Science in Food Science and Nutrition are required to complete all University general education (p. 31), University undergraduate requirements (p. 30), degree, and major requirements, including foundational courses, which may fulfill some University general education requirements.

Logic course select from PHIL 2400, 2420, 2600, or 2700 3

Core Degree Requirements 36-38

| F_S 1030 Food Science and Nutrition | 3 |
| F_S 2172 Elements of Food Microbiology | 3 |
| F_S 2199 Seminar in Professional Development | 1 |
| F_S 4199 Food Industry Senior Seminar | 1 |
| F_S 4310 Food Chemistry and Analysis | 4 |
| F_S 4370 Food Microbiology | 3 |

| AG_S_M 1040 Physical Principles for Agricultural Applications | 3 |
| or PHYSCS 1210 College Physics I | |
| CHEM 1330 College Chemistry II | 4 |
| CHEM 2030 Survey of Organic Chemistry | 3 |
| CHEM 2130 Organic Laboratory I | 2 |
| STAT 1300 Elementary Statistics | 3 |
| or STAT 1400 Elementary Statistics for Life Sciences | 3-5 |
| MATH 1400 Calculus for Social and Life Sciences I | 3 |
| or MATH 1500 Analytic Geometry and Calculus I | |
| BIOCHM 3630 General Biochemistry | 3 |

Total Credits 114-118

Food Science Track

(Note: Tracks are not listed on transcripts or diplomas.)

Food Science Track Core Courses (39 credits required)

| NEP 2340 Human Nutrition I | 3 |
| F_S 4330 Principles of Food Processing (or FS 4160 Food Process Engineering) | 3 |
| F_S 4311 Investigation of Food Properties | 3 |
| F_S 4315W Food Chemistry and Analysis Laboratory - Writing Intensive | 3 |
| F_S 4375 Food Microbiology Laboratory | 2 |
| F_S 4380 Sensory Analysis of Food and Beverages | 3 |

Capstone course

Choose either F_S 4970W or F_S 4980 3

Study Abroad or Internship

Choose either F_S 3190 or F_S 4941 3

Commodity Block

Choose two selections from the Commodity Block 12

Professional Electives

Choose courses from the Professional Electives 4

Food Business Track

(Note: Tracks are not listed on transcripts or diplomas.)

Food Business Track Core Courses (39 credits required)

| ABM 1042 Applied Macroeconomics | 3 |
| or ECONOM 1015 Principles of Macroeconomics | |
| ACCTCY 2036 Accounting I | 6 |
| & ACCTCY 2037 and Accounting II | |
| ABM 3224 New Products Marketing | 3 |
| Ag law (choose one: AG_EC 2156, AG_EC 3256 or AG_EC 3257) | 3 |
| ABM 3260 General Farm Management | 3 |
| ABM 3282 Agribusiness Finance | 3 |
| Ag Econ elective (choose one: AG_EC 2183, AG_EC 2223, AG_EC 3230, AG_EC 3150, AG_EC 3271, AG_EC 3272, AG_EC 3286, or AG_EC 3294) | 3 |

Capstone Course

Choose either F_S 4970W or F_S 4980 3

Study Abroad or Internship

Choose either F_S 3190 or F_S 4941 3

Commodity Course

Choose either F_S 4331, F_S 4344, or F_S 4345 3
### Professional Electives
Choose courses from the list of Professional Electives 6

### Culinary Science Track
(Note: Tracks are not listed on transcripts or diplomas.)

#### Culinary Science Track Core Courses (39 credits required)

**Core Hospitality Mgmt courses**
- HSP_MGMT 1100 Introduction to Hospitality Management 3
- HSP_MGMT 2100 Hospitality Law 3
- HSP_MGMT 2300 Fundamentals of the Food and Beverage Industry 3
- HSP_MGMT 3310 Food Service Budgeting and Controls 3

**Core Food Science courses**
- NEP 2340 Human Nutrition I 3
- F_S 4330 Principles of Food Processing 3
- F_S 4380 Sensory Analysis of Food and Beverages 3

**Capstone course**
Choose either F_S 4970W or F_S 4980 and HSP_MGMT 4380 3

**Study Abroad or Internship**
Choose either F_S 3190 or F_S 4941 3

**Commodity Course**
Choose one of F_S 3214, F_S 3231 or F_S 4345 3

**Professional Electives**
Choose courses from the Professional Electives 9

### Commodity Blocks
Select two pairs of courses to fulfill science track requirements
- F_S 3214 Principles of Meat Science (AND) 3
- F_S 4344 Processing Muscle Foods 3
- F_S 3231 Principles of Dairy Foods Science (AND) 3
- F_S 4331 Technology of Dairy Products and Ingredients 3
- F_S 2195 Grapes and Wines of the World (AND) 3
- F_S 4345 Principles of Viticulture and Winemaking 3

### Professional Electives
Select courses from this list to fulfill specific track requirements
- F_S 1020 World Food and You 3
- F_S 2131 Dairy Products Evaluation 2
- F_S 3190 Study Abroad: International Meat, Dairy and Enology 3
- F_S 3210 Kitchen Chemistry 3
- F_S 3385 Problems in Food Science 1-3
- F_S 4301 Topics in Food Science 1-3
- F_S 4354 Physiology and Biochemistry of Muscle as Food 3
- F_S 4385 Problems in Food Science 1-3
- F_S 4390 Optimization and Management of Food and Agricultural Systems 3
- F_S 4941 Internship in Food Science or any FS course not yet fulfilling a requirement 3

### Electives
Select electives to fulfill 120 credits with the following as recommended courses

Two other Elective Courses in Food Science  

5-6

9 of the 15 credits need to be fulfilled with 3000-level or higher Food Science courses.

Cross-listed courses can be taken in either the home program or the cross-listed program.

**Hospitality Management**

Seonghee Cho, Program Chair  
Hospitality Management  
122 Eckles Hall  
(573) 882-4100  
Fax: (573) 882-0596  
HRMDept@missouri.edu  
https://dass.missouri.edu/degrees-and-programs/Hospitality-Management-Degree/

As one of the largest industries in the United States, the hospitality and travel industry plays a vital role in economic development and employment. The industry contributes $1.5 trillion to GDP in 2015 and it is forecasted to contribute more than $2.6 trillion by 2027. The Bureau of Labor Statistics reports that the leisure and hospitality industry provides 15.8 million jobs in the United States and with an increase in the most number of jobs in management. With the growth of the industry, the job prospects are bright and the need for a well-trained workforce is greater than ever.

**B.S. Degree in Hospitality Management**

The Hospitality Management program provides students with the skills they need to succeed in a variety of hospitality management careers. As Hospitality Management students, they will gain an understanding of the principles involved in leading a successful hospitality organization. At the same time, students will have the opportunity to practice those principles in applied courses and through an internship.

To customize the Hospitality Management program, students may choose to specialize in one of four areas: conference and event management, food and beverage management, lodging management or sports venue management.

**B.S. Online Degree in Hospitality Management**

MU’s online Hospitality Management program prepares students to be a forward-thinking, innovative and ethical leader in today's global hospitality community. No visits to campus are required. The online courses are taught by the same professors who teach our on-campus courses, and the online course content is identical to the content offered on campus. Plus, online students have the same learning objectives and assessments as on-campus students. http://online.missouri.edu/degereeprograms/cafnr/hospitality-management/bachelors/admissions.aspx.

**Faculty**

Professor E. Tse**  
Associate Professor S. Cho**, D. Kim**  
Associate Teaching Professor H. L. Marshall*  
Assistant Professor P. Liu*  
Assistant Teaching Professor A. Alexander*, M. Palermo*  
Adjunct Professor B. Langford

* Graduate Faculty Member - membership is required to teach graduate-level courses, chair master's thesis committees, and serve on doctoral examination and dissertation committees.

** Doctoral Faculty Member - membership is required to chair doctoral examination or dissertation committees. Graduate faculty membership is a prerequisite for Doctoral faculty membership.

**Undergraduate**

- BS in Hospitality Management (p. 86)  
  - with emphasis in Conference and Event Planning Management (p. 87)  
  - with emphasis in Food and Beverage Management (p. 88)  
  - with emphasis in Lodging Management (p. 88)  
  - with emphasis in Sport Venue Management (p. 89)

- Minor in Hospitality Management (p. 90)

The mission of the program is to develop and nurture forward thinking and an innovative new generation of successful, ethical hospitality leaders in today's global community. The curriculum leading to the B.S. Hospitality Management allows students to be anchored in theories and principles of hospitality management and develop skills and competencies that are essential to hospitality operations. Students in the major have an option to specialize in one of four emphasis areas, Conference and Event (C&E), Food and Beverage (F&B), Lodging Management (Lodging), and Sports and Venue (SVM). The online BS in Hospitality Management follows the exact structure of the on-campus degree plan. Information on the online BS program is available at Mizzou Online. (https://online.missouri.edu/degereeprograms/cafnr/hospitality-management/bachelors/admissions.aspx)

Students transferring into Hospitality Management from other MU degree programs or from other institutions must have a cumulative GPA of 2.50.

A grade of C- or higher is required for all business core, hospitality core, emphasis area, and professional elective courses. Please see the BS in Hospitality Management (p. 86) page for the major program requirements.

**Graduate**

**Graduate Study in Hospitality Management**

The graduate program, Master's and Doctor of Philosophy (Ph.D.), is jointly offered under the **Food and Hospitality Systems** Program as one of the three tracks: Food Science, Hospitality Management and Agricultural Systems Management. The Hospitality Management graduate program is established with the objectives for the generation of new knowledge and intellectual curiosity through research. The program provides an understanding of the body of knowledge in the discipline of hospitality and develops abilities to achieve scholarly
success. These abilities include competency in research, teaching/communication, problem-solving and critical reasoning skills.

After graduation, it is likely that a Masters student will advance their careers in the hospitality industry or continue their Ph.D. study. Ph.D. graduates will likely join the faculty of a college or university that will require research and publication as part of the promotion and tenure process. This goal is accomplished by creating a scholarly research environment, which exposes students the learning opportunity and trains them for teaching, research, writing, publishing, and consulting. The atmosphere is interdisciplinary and incorporates a number of opportunities for students to engage in a variety of types of information exchange and growth.

For additional information regarding Master's and Ph.D. study, please visit the Food and Hospitality System (p. 78) Overview and choose the Hospitality Management track.

**BS in Hospitality Management**

**Degree Program Description**

A B.S. degree in Hospitality Management (HM) provides students with business and managerial skills needed to succeed in a wide variety of hospitality and venue management careers. The curriculum includes core business principles, core hospitality management concepts, and advanced skills in one of the emphasis areas, Conference & Events Planning Management, Food & Beverage Management, Lodging Management, and Sports Venue Management. The essence of these areas is that hospitality is about creating a unique and memorable experience for guests.

The BS in Hospitality Management also has an online option. Information on the online BS program is available at Mizzou Online. ([https://online.missouri.edu/degreeprograms/cafnr/hospitality-management/bachelors/admissions.aspx](https://online.missouri.edu/degreeprograms/cafnr/hospitality-management/bachelors/admissions.aspx))

The Conference and Event Management specialization equips students with the skills and knowledge they need to plan meetings, implement conferences and events and manage event operations and logistics. Students learn the basics of developing and running an event and get the opportunity to practice those skills through hands-on experience — whether planning a wedding, private party, business meeting, conference, fund-raising function, community event, festival or mega-event.

The Lodging Management emphasis equips students for careers as hotel general managers. For students who choose this specialization, the learning experience includes observing the global hotel industry's development and learning every aspect — such as housekeeping, sales, marketing, finance and food and beverage outlet management — of managing a hotel. To enhance their in-classroom learning, students gain hands-on experience through managerial job shadowing and internships.

The Sports Venue Management emphasis provides specialized instruction in managing and operating sports venues as spaces for live entertainment, including sport and non-sport events. Students who successfully complete the Sports Venue Management curriculum will be prepared to assume leadership positions in the dynamic sports venue and entertainment industries.

The Food and Beverage Management emphasis teaches students food and beverage management principles, and students participate in hands-on experiences in food service settings to gain practical skills in food production, food safety, marketing, finance, and restaurant management. Students will learn how to operate a food service operation as an entrepreneur or a professional manager.

**Major Program Requirements**

Students earning a Bachelor of Science in Hospitality Management are required to complete all University general education ([http://catalog.missouri.edu/academicdegreerequirements/generaleducationrequirements](http://catalog.missouri.edu/academicdegreerequirements/generaleducationrequirements)), University undergraduate requirements ([http://catalog.missouri.edu/academicdegreerequirements/universityrequirements](http://catalog.missouri.edu/academicdegreerequirements/universityrequirements)), as well as departmental and emphasis area requirements, including the following selected foundational courses, which may fulfill some University general education requirements.

A grade of C- or higher is required for all business core, hospitality core, emphasis area, and professional elective courses. Please see the BS in Hospitality Management (p. 86) page for the major program requirements.

### BS in Hospitality Management with Emphasis in Food and Beverage Management

#### Degree Program Description
The Food and Beverage Management emphasis teaches students food and beverage management principles, and students participate in hands-on experiences in food service settings to gain practical skills in food production, food safety, marketing, finance and restaurant management. Students will learn how to operate a food service operation as an entrepreneur or a professional manager.

#### Major Program Requirements

**Food & Beverage Management Requirements**
A grade of C- or higher is required for all business core, hospitality core, emphasis area, and professional elective courses. Students must complete all University general education requirements and degree requirements, in addition to the Food & Beverage Management emphasis requirements below:

### BS in Hospitality Management with Emphasis in Lodging Management

#### Degree Program Description
The Lodging Management emphasis equips students for careers as hotel general managers. For students who choose this specialization, the learning experience includes observing the global hotel industry’s development and learning every aspect — such as housekeeping, sales, marketing, finance and food and beverage outlet management — of managing a hotel. To enhance their in-classroom learning, students gain hands-on experience through managerial job shadowing and internships.

#### Major Program Requirements

**Lodging Management Emphasis Requirements**
A grade of C- or higher is required for all business core, hospitality core, emphasis area, and professional elective courses. Students must complete all University general education requirements and degree requirements, in addition to the Lodging Management emphasis requirements below:

### BS in Hospitality Management with Emphasis in Sport Venue Management

#### Degree Program Description

The Sports Venue Management emphasis provides specialized instruction in managing and operating sports venues as spaces for live entertainment, including sport and non-sport events. Students who successfully complete the Sports Venue Management curriculum will be prepared to assume leadership positions in the dynamic sports venue and entertainment industries.

### Major Program Requirements

#### Sport Venue Management Requirements

A grade of C- or higher is required for all business core, hospitality core, emphasis area, and professional elective courses. Students must complete all University general education (p. 31) requirements and degree requirements (p. 45), in addition to the Sports Venue Management emphasis requirements below:

<table>

Total Credits: 120

**Minor in Hospitality Management**

The minor in Hospitality Management is for students interested in enhancing their understanding of the hospitality industry. A student must complete 18 credit hours of coursework with 9 credit hours at the 3000 level or higher. Please use the CAFNR [Online Minor & Certificate Form](https://cafnr.missouri.edu/degrees-and-programs/) to complete the application process for the minor.

**Required Courses for Minor (18 credits)**

**Natural Resource Science and Management**

Charles Nilon, Degree Program Coordinator  
School of Natural Resources  
302 Anheuser-Busch Natural Resources Building  
Phone: (573) 882-3738  
Fax: (573) 882-9526  
nilonc@missouri.edu  
https://cafnr.missouri.edu/degrees-and-programs/

The Natural Resource Science and Management degree addresses the science, art, and craft of creating, managing, using, conserving, and repairing natural and human-dominated ecosystems. The degree will allow students to apply biological, physical, social, political and managerial sciences to the conservation of plant and animal species in forests, grasslands, rivers and streams, and urban areas. The degree also develops students’ skills in working with diverse groups of people. Students with degrees in Natural Resource Science and Management work as fisheries biologists, foresters, interpreters, naturalists, and wildlife biologists for state and federal agencies, nature centers and museums, and consulting firms. Four emphasis areas are offered: Fisheries and Wildlife Sciences, Forest Resources, Human Dimensions, and Terrestrial Ecosystems. All students are encouraged to integrate their classroom learning experiences with research and internship experiences.

T. Strauch

**Research Professor**  
M. A. Gold**

**Research Assistant Professor**  
J. Whittler*

Curators’ Emeritus Professor  
J. R. Jones**

**Adjunct Assistant Professor**  

**Cooperative Associate Professor**  

* * *  
**Graduate Faculty Member** - membership is required to teach graduate-level courses, chair master's thesis committees, and serve on doctoral examination and dissertation committees.  
** Doctoral Faculty Member** - membership is required to chair doctoral examination or dissertation committees. Graduate faculty membership is a prerequisite for Doctoral faculty membership.

**Undergraduate**

- BS in Natural Resource Science and Management (p. 90)  
  - with emphasis in Fisheries and Wildlife Sciences (p. 92)  
  - with emphasis in Forest Resources (p. 92)  
  - with emphasis in Human Dimensions (p. 93)  
  - with emphasis in Terrestrial Ecosystems (p. 94)

**Graduate**

While the College of Agriculture, Food and Natural Resources does not offer a graduate degree specifically in Natural Resource Science Management, there are many options available for graduate studies in Natural Resources. Please refer to the list of graduate degrees on the Natural Resources (p. 95) section of the catalog for more information.

**BS in Natural Resource Science and Management**

The Natural Resource Science and Management degree addresses the science, art, and craft of creating, managing, using, conserving, and repairing natural and human-dominated ecosystems, in a sustainable manner, to meet desired societal goals. The degree has elements that belong to the biological, physical, social, political and managerial sciences that are applied to conserving plant and animal species in forests, grasslands, rivers and streams, and urban areas. The degree also develops students’ skills in working with diverse groups of people. Students with degrees in Natural Resource Science and Management work as fisheries biologists, foresters, interpreters, naturalists, and wildlife biologists for state and federal agencies, nature centers and museums, and consulting firms.

Students pursuing a degree in Natural Resource Science and Management individualize their degree by choosing one of four emphasis areas. The Forest Resources emphasis prepares students to manage forests in order to protect wildlife habitats and the environment while
meeting the ever-growing demand for wood products. The Human Dimensions emphasis trains students to apply social sciences to address questions about how people's attitudes, knowledge, values and behaviors impact management of our natural resources. The Fisheries and Wildlife Science emphasis focuses upon development of skills in conservation of wildlife habitat, protection of endangered species, and management of wild animal populations. The Terrestrial Ecosystem emphasis allows students to combine interests in wildlife management and forestry to both conserve biodiversity and satisfy the needs of society for renewable natural resources using the practice of ecosystem management.

**Major Program Requirements**

Students earning a Bachelor of Science in Natural Resource Science and Management are required to complete all University general education (p. 31), University undergraduate requirements (p. 30), degree, and major requirements. Several foundational courses required in the degree program can be used to meet general education requirements. Students majoring in Natural Resource Science and Management will select an additional 39-49 credit hours of coursework from the following emphasis areas:

- Forest Resources (p. 92)
- Fisheries and Wildlife Science (p. 92)
- Human Dimensions (p. 93)
- Terrestrial Ecosystems (p. 94)

A student may complete the B.S. in Natural Resource Science and Management without selecting a specific emphasis area if they complete the 81 credit hours of general education, foundational, and major core classes and an additional 39 credit hours of coursework with NAT_R, FOREST, or F_W course designators, or other related courses approved by their faculty advisor. Of these 39 hours, at least 30 should be at the 3000- or 4000-level.

Total Credits: 120
BS in Natural Resource Science and Management with Emphasis in Fisheries and Wildlife Sciences

Degree Program Description

The Natural Resource Science and Management degree with an emphasis in Fisheries and Wildlife Sciences has a strong focus on taxonomy and adds additional required courses on research and management techniques. Students with degrees in Natural Resource Science and Management with an emphasis in Fisheries and Wildlife work as conservation biologists, ecologists, fisheries biologists, ornithologists, and wildlife biologists.

Emphasis Area Requirement

In addition to completing major program requirements (p. 90), students must complete the following additional requirements (44 credit hours):

F_W 1100  Introductory Zoology with Laboratory  5
F_W 2500  Introduction to Genetics and Evolution for Conservation  3-4
or BIO_SC 2200  General Genetics
F_W 2900  Principles of Wildlife Management  4
F_W 4300  Fisheries Management  3
F_W 4400  Techniques for Fisheries Management and Conservation  4
or F_W 4700  Wildlife Ecology Methods
or ENV_SC 4300  Methods in Aquatic Ecology
F_W 4500  Animal Population Dynamics and Management  3

Choose from group:  10-12
NAT_R 2080  Outdoor Recreation Consortium  2
ENV_SC 3400  Water Quality and Natural Resources Management  3
or FOREST 4390  Watershed Management and Water Quality

F_W 3700  Animal Behavior  3
F_W 3900  Ecology of Fishes  3
ENV_SC 4100  Lake Ecology  3
ENV_SC 4200  Stream Ecology  3
F_W 4200  Urban Wildlife Conservation  3
F_W 4220  Human Dimensions of Fish and Wildlife Conservation  3
F_W 4600  Ecosystem Management  4
F_W 4800  Environmental Toxicology  3
F_W 4810  Wildlife Disease Ecology  3
F_W 4880  Waterfowl Ecology and Management  3

Choose three courses from group with no more than 5 credits from BIO_SC:  12-13
F_W 2600  Ornithology  5
F_W 2700  Ichthyology  4
F_W 3660  Mammalogy  4
BIO_SC 3710  Introductory Entomology and Insect Diversity  5
& BIO_SC 3715  Invertebrate Zoology  4

BS in Natural Resource Science and Management with Emphasis in Forest Resources

Degree Program Description

The Natural Resource Science and Management degree with an emphasis in Forest Resources expands the knowledge base in fire ecology, silviculture, and forest stand dynamics in order for graduates...
to better address the challenges of managing forest resources in the 21st Century. Students with a degree in Natural Resource Science and Management with an emphasis in Forest Resources will be accredited by the Society of American Foresters and may find employment as community foresters, consulting foresters, ecologists, and resource foresters.

**Emphasis Area Requirements**

In addition to completing major program requirements (p. 90), students must complete the following additional requirements (39 credit hours):

- **FOREST 2541** Forest Utilization 1
- **FOREST 2542** Forest Measurement and Inventory 1
- **FOREST 2544** Introduction to Silviculture and Management 1
- **FOREST 3207** Forest Fire Control and Use 2
- **FOREST 3212** Forest Health and Protection 4
- **FOREST 4330** Practice of Silviculture 4
- **FOREST 4350** Forest Economics 3
- **FOREST 4360** Photogrammetry, Inventory and Models 3
- **FOREST 4380** Forest Resource Management 3
- **FOREST 4390** Watershed Management and Water Quality 3
- **NAT_R 4365** GIS Applications 3
- **PLNT_S 4400** Plant Anatomy 3-4
  - or **PLNT_S 2125** Plant Structure and Function

Professional credit electives approved by advisor to complete 120 total credits

**Semester Plan**

Below is a sample semester plan for the Forest Resources Area. Please consult with your advisor prior to registering for courses.

**Total Credits: 120**

**BS in Natural Resource Science and Management with Emphasis in Human Dimensions**

**Degree Program Description**

The Natural Resource Science and Management degree with an emphasis in Human Dimensions targets students who wish to link a solid background in taxonomy and ecology with social sciences. Students may focus on outdoor interpretation, natural resources economics, and resource policy. Students with degrees in Natural Resource Science and Management with an emphasis in Human Dimensions can find employment as interpretive naturalists, natural resource educators.

**Emphasis Area Requirements**

In addition to completing major program requirements (p. 90), students must complete the following additional requirements (43 credit hours):

- **ABM 2070** Environmental Economics and Policy 3
- **PRST 3230** Outdoor Recreation Policy 3
- **PRST 4340** Recreation Land Management 3
- **NAT_R 4024** Foundations of Environmental Education 3
- **F_W 4220** Human Dimensions of Fish and Wildlife Conservation 3
- **NAT_R 3400** Water Quality and Natural Resource Management 3
  - or **FOREST 4390** Watershed Management and Water Quality 3
- **F_W 4400** Techniques for Fisheries Management and Conservation 4
  - or **F_W 4700** Wildlife Ecology Methods
  - or **ENV_SC 4300** Methods in Aquatic Ecology
- Choose three courses from group with no more than 5 credits from BIO_SC 12-13
  - **F_W 2600** Ornithology
  - **F_W 2700** Ichthyology
  - **F_W 3660** Mammalogy
  - **BIO_SC 3710** Introductory Entomology
  - **BIO_SC 3715** and Insect Diversity
  - **BIO_SC 3260** Invertebrate Zoology
- Choose from group: 9-11
  - **NAT_R 2080** Outdoor Recreation Consortium
SOCIOL 3330  Environmental Justice
RU_SOC 3310  Society, Agriculture and Natural Resources
FOREST 4350  Forest Economics
RU_SOC 4370  Environmental Sociology
GEOG 4790  Geographic Information Systems for the Social Sciences
or NAT_R 4365  GIS Applications
PRST 4250  Parks, Health, and Wellness
ENV SC 4400  Environmental Law
NAT R 2600  Sustainability Foundations

Semester Plan
Below is a sample semester plan for the Human Dimensions Emphasis Area. Please consult with your advisor prior to registering for courses.

First Year

Fall | CR  | Spring | CR  
--- | --- | --- | ---
BIO_SC 1200 | 5 | ATM_SC 1050 | 3 
ENGLSH 1000 | 3 | CHEM 1320 | 4 
MATH 1100 | 3 | Humanities Elective #1 | 3 
NAT_R 1070 | 3 | NAT_R 2325 | 3 
--- | --- | --- | ---
14 | 13 |

Second Year

Fall | CR  | Spring | CR  
--- | --- | --- | ---

F_W 4650 | 4 | 13 | 17 |

Total Credits: 124

BS in Natural Resource Science and Management with Emphasis in Terrestrial Ecosystems

Degree Program Description
The Natural Resource Science and Management degree with an emphasis in Terrestrial Ecosystems combines interests in wildlife management and conservation and forestry focusing on basic and applied concepts important in land management and species conservation. Students with degrees in Natural Resource Science and Management with an emphasis in Terrestrial Ecosystems are accredited by the Society of American Foresters and may find employment as conservation biologists, ecologists, land stewards, and resource foresters.

Emphasis Area Requirements
In addition to completing major program requirements (p. 90), students must complete the following additional requirements (43 credit hours):

challenges and to train the next generation of natural resources and scientific approach to develop sustainable solutions to environmental resources science and management. The School encompasses the fields of: Environmental Sciences; Natural Resource Science and Management; and Parks, Recreation and Sport. The School applies an integrated, scientific approach to develop sustainable solutions to environmental challenges and to train the next generation of natural resources and recreation professionals and leaders. This integrated approach results in creative course offerings, enhanced educational opportunities, stimulation of novel research, advanced understanding of natural systems, and expanded knowledge and management of human interactions with the environment. The School is housed in the Anheuser-Busch Natural Resources Building containing state-of-the-art teaching, research and outreach extension facilities.

Faculty

Faculty members within the School of Natural Resources have their appointments through the following degree programs; Environmental Sciences (p. 71); Natural Resources Science and Management (p. 90); and Parks, Recreation and Sport (p. 111). Their faculty listing can be found on those degree pages.

Undergraduate

While the College of Agriculture, Food and Natural Resources does not offer an undergraduate degree specifically in Natural Resources, there are many options available for graduate studies in Natural Resources including degrees in Environmental Sciences (http://catalog.missouri.edu/undergraduategraduate/collegeofagriculturefoodandnaturalresources/environmentalsciences/bs-environmental-sciences); Natural Resources Science and Management (http://catalog.missouri.edu/undergraduategraduate/collegeofagriculturefoodandnaturalresources/naturalresourcesscienceandmanagement/#text); and Parks, Recreation and Sport (http://catalog.missouri.edu/undergraduategraduate/collegeofagriculturefoodandnaturalresources/parksrecreationandsport).

Graduate

- MS in Natural Resources (p. 95)
  - with emphasis in Agroforestry (p. 96)
  - with emphasis in Fisheries & Wildlife Sciences (p. 97)
  - with emphasis in Forestry (p. 97)
  - with emphasis in Human Dimensions of Natural Resources (p. 98)
  - with emphasis in Parks, Recreation and Tourism (p. 99)
  - with emphasis in Soil, Environmental and Atmospheric Sciences (p. 100)
  - with emphasis in Water Resources (p. 102)

- PhD in Natural Resources (p. 104)
  - with emphasis in Fisheries & Wildlife Sciences (p. 105)
  - with emphasis in Forestry (p. 105)
  - with emphasis in Human Dimensions of Natural Resources (p. 106)
  - with emphasis in Soil, Environmental and Atmospheric Sciences (p. 107)
  - with emphasis in Water Resources (p. 108)

MS in Natural Resources

The MS in Natural Resources has emphasis areas in Agroforestry (p. 96), Fisheries & Wildlife Science (p. 97), Forestry (p. 97), Human Dimensions of Natural Resources (p. 98), Parks Recreation and Tourism (p. 99), Soil, Environmental and Atmospheric Sciences (p. 100), and Water Resources (p. 102). Please see the individual

**Emphasis Area Focus**

Agroforestry, as a farming system that integrates crops and/or livestock with trees and shrubs, has a long history of interdisciplinary research at the University of Missouri. The interdisciplinary emphasis area capitalizes on existing agroforestry research collaborations across The School of Natural Resources (SNR) departments in building an academic program that could attract and serve quality graduate students from Missouri, the nation and the world. The agroforestry emphasis area offers both a thesis and non-thesis option. The program also offers an online option designed for professionals working in natural resources around the globe who already have an undergraduate degree in a related field. Please visit the online webpage for more information: [http://online.missouri.edu/degreeprograms/canr/agroforestry/masters/](http://online.missouri.edu/degreeprograms/canr/agroforestry/masters/). For a listing of Faculty membership of the graduate Agroforestry Emphasis Area: [https://snr.missouri.edu/graduate-studies/agroforestry-graduate-program/](https://snr.missouri.edu/graduate-studies/agroforestry-graduate-program/)

**Admission Requirements**

- Bachelor's degree in a relevant discipline from an accredited institution
- Undergraduate GPA: 3.0 on a scale of 4.0
- Graduate Record Exam score (GRE)*: verbal plus quantitative total of at least 1100 (300 on the new GRE)
- Students whose GPAs and GRE scores do not meet the requirements will be evaluated individually

*The GRE requirement may be waived under exceptional circumstances. Applicants will be reviewed on a case-by-case basis.

**How to Apply**

To the Graduate School:

- All application materials must be submitted to the [Apply Yourself](https://applygrad.missouri.edu/apply) online application system.
- Statement of interest
- Résumé or CV
- GRE scores
- TOEFL scores (if applicable)
- A minimum of three letters of recommendation and the accompanying evaluation sheets from people who can attest to the candidate's scholastic ability and experience relevant to graduate study.
- Publications (optional)

**Application Deadlines**

Applications must be received by the following dates:

- March 15 for the summer semester
- May 15 for the fall semester
- Oct. 15 for the spring semester

**Thesis option:**

Students in the thesis option will complete 30 credit hours of course work with no more than 12 credits for thesis research. Students choosing the M.S. thesis option will prepare a written research proposal and make an oral defense of that proposal within 12 months of their initial enrollment in the program. Students in the thesis option will write a thesis based on their research and participate in a public oral defense of their thesis announced at least two weeks prior to the defense date.

**Non-Thesis option:**

Students in the non-thesis option will complete 30 credit hours of course work with no more than 6 credits for a project. Students choosing the non-thesis option will be required to write a project plan and to make an oral defense of that plan within the first year following their initial enrollment in the program. Students choosing the non-thesis option will write a technical report based on their project and participate in a public oral defense of their report to be announced at least two weeks prior to the defense.

**Timeline Requirements:**

1. Within six month of initial enrollment in the emphasis area, students must submit a plan of study.
2. Within one year of initial enrollment in the emphasis area, students must present a written proposal of their research or project proposal to be reviewed and approved by members of the students' Masters Committee.
3. Students will submit a written thesis or project report following the guidelines specified by the Graduate School. All students must present a public oral defense of their dissertation or project announced at least two weeks prior to the defense date. Electronic media may be used to facilitate the defense for online/distance education students when appropriate.
4. All students will submit an annual report of their progress as required by the MU Graduate School.

**Agroforestry Emphasis Area Coursework Requirements**

Students seeking the agroforestry graduate emphasis will develop their course of study to incorporate 12 hours of a core curriculum of designated courses. This has been designed to include theoretical foundations in both the biophysical and socioeconomic components of agroforestry. The curriculum leads the student through a progression of learning and applying concepts related to (A) Agroforestry Fundamentals; (B) Biophysical Foundation; and (C) Socio-economic Foundation (Table 1).

Each student's coursework requirements, including the selection of specific courses in the above categories, will be listed in the student's plan of study and approved by their graduate committee.

MS in Natural Resources with Emphasis in Fisheries and Wildlife Sciences

Application and Admission Information

Admission Contact Information
Graduate Secretary
302 Anheuser-Busch Natural Resources Building
Columbia, MO 65211
Karen Decker; deckerkf@missouri.edu; (573) 882-3436

Admission Criteria
Fall deadline: Rolling

- Minimum TOEFL scores:
  - Internet-based test (iBT) 79
  - Paper-based test (PBT) 550
- Minimum GRE scores:
  - Verbal + Quantitative 1100
  - Analytical 1100 equivalent scores

Required Application Materials

To the Graduate School:

- All application materials must be submitted to the Apply Yourself (https://applygrad.missouri.edu/apply) online application system
- All required Graduate School documents
- A minimum of three letters of recommendation and the accompanying evaluation sheets from people who can attest to the candidate’s scholastic and conservation field work abilities
- Departmental application
- Written response to 1 of 5 questions listed on the Fisheries and Wildlife Sciences Graduate Program Admissions page
- GRE scores
- TOEFL scores (when applicable)
- Publications (optional)
- Résumé or CV

We require applicants to contact specific faculty to determine the availability of research assistantships prior to applying to the program.

An applicant contemplating graduate work in fisheries, limnology, conservation biology, or wildlife should have a strong background in biological and physical sciences, including biology, botany, zoology, ecology, physiology, and genetics. In addition, such taxonomic courses as plant taxonomy, invertebrate zoology, ichthyology, ornithology, and mammalogy are highly desirable, as is a background in chemistry, mathematics, statistics, and physics.

A background of 25 to 30 hours in biological sciences courses is desirable. Minor deficiencies may be remedied during the graduate program; major deficiencies may require preparatory coursework prior to consideration for admission.

Fisheries and Wildlife Sciences degrees emphasize resource management at organismal, population, or ecosystem scales. An emphasis on resource management helps distinguish our program from basic biology; therefore, course work in fisheries or wildlife management, environmental science, resource policy, or other applied ecology fields is advantageous.

Degree Completion Requirements

Master’s students must complete, with a B average or better, a minimum of 30 hours of course work (15 hours or more at the 8000 course level). Research, problems, special investigations, and special readings courses shall not exceed 12 of the 30 hours.

Plan of Study
Candidates are expected to design and have approved by their committee a plan of study during their first semester in residence and a thesis proposal by their second semester.

Thesis & Oral Examination

A thesis acceptable to the student’s graduate committee shall be completed and defended in a final oral examination; all candidates must complete the oral examination and a final thesis seminar before the degree is conferred.

MS in Natural Resources with Emphasis in Forestry

Graduate research programs leading to the M.S. in Natural Resources with an emphasis in Forestry are designed to prepare students for
Careers in academic institutions, consulting firms, industry, and state and federal agencies.

Forestry graduates interested in research or teaching may concentrate much of their course work in one or more of the related sciences with a thesis appropriate to forestry. Specialized graduate education is available in agroforestry, biometrics, community and landscape ecology, economics, fire ecology, hydrology, geographic information systems, physiological ecology, physiology, policy, silviculture, forest soils, forest management, stand dynamics, water quality, wood quality and tree-ring analysis.

Students often conduct joint research with natural resource specialists at the Northern Research Station (U.S. Forest Service), the Missouri Department of Conservation, the Missouri Department of Natural Resources, the National Park Service, and the U.S. Fish and Wildlife Service.

Degree Requirements

To attain the master’s degree:

- 30 hours of course work must be completed.
- 15 hours or more must be 8000+ level.
- Research, problems, special investigations and special readings courses must not exceed 12 of the 30 hours.
- The GPA of all course work submitted for the degree must be 3.0 or better.

Graduate students typically enroll in courses from across campus. For graduate students of Forestry emphasis area who lack academic or experiential background in forestry, the graduate committee may recommend several courses to compensate for that deficiency.

Forestry graduate students commonly enroll in dual undergraduate / graduate courses at the 7000 level, FOREST 7330, FOREST 7375, FOREST 7320, FOREST 7390.

For a graduate students emphasizing forestry, Natural Resources Seminar (NAT_R 9087) is the only required course in the graduate student’s program of study. All graduate students are expected to attend all forestry seminars and SNR graduate seminars regardless of whether the student is enrolled in the seminar course.

Thesis Requirements

A master’s thesis, or a minimum of 5 semester hours of non-thesis research acceptable to the student’s committee, shall be completed before the final examination. Research toward a thesis normally shall not exceed 8 hours. Thesis requirements and defense are as defined by the MU Graduate School. A final oral examination is given to all candidates before completion of the degree.

Admissions

Admission Contact Information
Dr. Hong S. He
203 ABNR Bldg.
heh@missouri.edu

Applicants are required to meet two sets of minimum qualifications for admission: the requirements of the MS in Natural Resources with emphasis in Forestry (https://gradstudies.missouri.edu/degreecategory/natural-resources) program and the minimum requirements of the Graduate School (https://gradschool.missouri.edu/admissions/eligibility-process). Because requirements vary, you must refer to a degree program's graduate admission page to learn about specific admission criteria, application deadlines, eligibility and application process. Your application materials will be reviewed by both the Graduate School and the degree program to which you've applied before official admission to the University of Missouri.

Students without a Forestry Undergraduate Degree

Those without a baccalaureate degree in forestry may wish to further their education in forest science or to attain professional competence by completing course work in forestry. Work required of students without a forestry degree who want a professional forestry education includes courses in dendrology (FOREST 2151), utilization of forest resources (FOREST 2541), forest resource measurements (FOREST 4380 or FOREST 7380), forest inventory (FOREST 2542), forest fire control and use (FOREST 3207), forest ecology (FOREST 4320 or FOREST 7320), silviculture (FOREST 2544), watershed management (FOREST 7390), and forest economics (FOREST 4350 or FOREST 7350). Some of these courses do not carry graduate credit.

nilonc@missouri.edu; (573) 882-3738

Emphasis Area Focus

The Human Dimensions of Natural Resources Emphasis Area (HDNR) addresses research and management questions including peoples’ attitudes, knowledge, values, perceptions, and behaviors associated with natural resources. As an interdisciplinary emphasis area, HDNR considers applicants with backgrounds in social sciences, environmental education, natural resources management and conservation, or related disciplines.

The MS is a research-based degree. The student is expected to work closely with a faculty advisor to develop a research topic and a program of study. Students who complete a thesis are expected to publish their findings in peer-reviewed journals. A non-thesis option is also available that requires additional coursework and a research project.

Admission Criteria

- Minimum GPA: 3.0 in last 60 hours
- Minimum TOEFL scores:
  - Internet-based test (iBT) 80
  - Paper-based test (PBT) 550
- GRE Required

Required Application Materials

To the Graduate School:
• All application materials must be submitted to the Apply Yourself (https://applygrad.missouri.edu/apply) online application system
• Statement of interest
• Résumé or CV
• GRE scores
• TOEFL scores (if applicable)
• A minimum of three letters of recommendation and the accompanying evaluation sheets from people who can attest to the candidate’s scholastic ability and experience relevant to graduate study
• Publications (optional)

Coursework Requirements
All students in the HDNR Emphasis Area will be required to take at least one course from each of three categories:

1. Social science research methods
2. Quantitative and/or qualitative data analysis
3. Social science theory

Each student’s coursework requirements, including the selection of specific courses in the above categories, will be listed in the student’s plan of study and approved by their graduate committee.

Thesis Option
Students in the thesis option will complete 30 credit hours of coursework with no more than 12 credits for thesis research. Students choosing the thesis option will prepare a written research proposal and make an oral defense of that proposal within 12 months of their initial enrollment in the program. Students in the thesis option will write a thesis based on their research and participate in a public oral defense of their thesis announced at least two weeks prior to the defense date.

Non-Thesis Option
Students in the non-thesis option will complete 36 credit hours of coursework with no more than 12 credits for project research. Students choosing the non-thesis option will be required to write a project plan and to make an oral defense of that plan within the first year following their initial enrollment in the program. Students choosing the non-thesis option will write a technical report based on their project and participate in a public oral defense of their report to be announced at least two weeks prior to the defense.

MS in Natural Resources with Emphasis in Parks, Recreation and Tourism

About the Emphasis
Since virtually everyone participates in some form of leisure, the primary benefit of Parks, Recreation and Tourism (PRT) is to address quality of life issues. The unique interaction of people, places, and activities establish our profession as one of the world’s largest industries. Students learn how to manage leisure service delivery systems by combining theory with practice. This degree is designed to prepare students for advanced positions in the parks, recreation, tourism and sport profession or admission into doctoral programs.

Degree Requirements
The program consists of a minimum of 30 credits for the thesis option and 39 credits for the non-thesis option. For a full explanation of the thesis/non-thesis options, see section below on Thesis/Non-Thesis Requirements (p. 99).

Students are required to take four 8000 level courses in the PRT curriculum: all students must take PRST 8400 Constructs of Leisure and PRST 8430 Research Methods in Parks, Recreation and Tourism; students then choose two courses from the PRT 8000 level curriculum.

All students must take a graduate level analysis course (i.e., statistics, qualitative analysis, or mixed analysis).

Sample Plan of Study
Because students in the M.S. program are from a wide variety of circumstances, and pursue the M.S. at all different paces, a sample plan of study is not easily produced. Students work closely with their advisor to select appropriate coursework.

Thesis/Non-Thesis Requirements
The program offers students two options:

1. Thesis Option
The thesis option is most appropriate for M.S. candidates who aspire to pursue doctoral education in the future, desire distinct research training and experience, and/or desire research or technical writing experience. Students who complete a thesis are encouraged to publish their findings in peer-reviewed journals.

Credit Hour Requirements: The thesis option requires a minimum of 30 credit hours, which includes: a minimum of 15 hours at the 8000/9000 level; a minimum of 12 hours of 8000 level theory-based contact courses within the PRT curriculum; a graduate level analysis course; minimum 3 credits thesis research; and up to a maximum of 12 credits of independent study (Thesis Research, Guided Readings, Problems, or Independent Work).

Thesis Research Boundaries: The thesis endeavor engages content of a solid academic/theoretical need that adds to or extends the knowledge base. It typically requires the student to display original scholarship or application of an existing theory to solve a specific problem. The rigor of the thesis challenges the student to address and engage the scientific process, which includes an evaluative component of peer and academic review.

Thesis Committee: The thesis committee consists of a minimum of three graduate faculty members: two within the PRT department, and one outside the department. Emeritus and/or adjunct faculty members are eligible to serve on student committees, provided they have graduate faculty status.

Procedures: The student develops the thesis proposal with primary guidance of the committee chair. The proposal is defended in a scheduled open forum followed by committee approval or disapproval. Following proposal approval by the committee, the student conducts the research and completes the thesis paper. The student then defends the completed study in a scheduled open forum, followed by committee action to pass or fail the thesis defense. Students must submit the M-1 and M-2 forms by the end of their second semester. The M-3 form should be submitted shortly after the thesis defense.
2. Non-Thesis (Project) Option

A non-thesis option is also available that requires additional coursework and a research project. The non-thesis option is most appropriate for M.S. candidates who view the Master's Degree as the terminal degree, aspire for practitioner work within the profession, and/or desire additional course work to balance their program of study.

Credit Hour Requirements: The non-thesis option requires a minimum of 39 credit hours, which includes: a minimum of 15 hours at the 8000/9000 level; a minimum of 12 hours of 8000 level theory-based contact courses within the PRT curriculum; a graduate level analysis course; 3-6 credits of PRST 8090 Thesis Research in Parks, Recreation, Sport and Tourism (Research Project); and up to a maximum of 12 credits of independent study (Thesis Research, Guided Readings, Problems, or Independent Work).

Non-Thesis Boundaries: The non-thesis option engages content of an academic/professional practice need that addresses issues or problems. It requires the student to display independent scholarship in the definition, review and analysis of a problem or issue under study. The rigor of the project challenges the student to engage content to professional standards, which include the evaluative component of peer and professional review.

Project Committee: The project committee consists of a minimum of three graduate faculty members (one maybe be from outside the PRT department, but not a requirement). Emeritus and/or adjunct faculty members are eligible to serve on student committees, provided they have graduate faculty status.

Procedures: The student develops the project proposal with primary guidance of the committee chair. The committee chair approves the proposal. Following approval, the student completes the project. The student then defends the completed project in a scheduled open forum, followed by committee action to pass or fail the project defense. Students must submit the M-1 form by the end of their second semester. The M-3 form should be submitted shortly after the project defense.

Admissions

Admission Contact Information
Dr. Sonja A. Wilhelm Stanis
Parks, Recreation and Tourism
105 Anheuser-Busch Natural Resources Building
Columbia, MO 65211
sonjaws@missouri.edu; 573-882-9524

Applicants are required to meet two sets of minimum qualifications for admission: the requirements of the MS in Natural Resources with emphasis in Parks, Recreation and Tourism (https://gradstudies.missouri.edu/degreecategory/natural-resources) program and the minimum requirements of the Graduate School (https://gradschool.missouri.edu/admissions/apply). Because requirements vary, you must refer to a degree program's graduate admission page to learn about specific admission criteria, application deadlines, eligibility and application process. Your application materials will be reviewed by both the Office of Graduate Studies and the degree program to which you've applied before official admission to the University of Missouri.

Financial Aid from the Program

Funding is available, but assistantships are highly competitive. Prospective students must complete all the necessary application requirements to be considered for departmental funding. Contact the graduate program emphasis coordinator for more details. Applicants should also contact the faculty they want to work with to determine the availability of possible graduate assistantship positions.

MS in Natural Resources with Emphasis in Soil, Environmental and Atmospheric Sciences

Master of Science in Soil, Environmental and Atmospheric Sciences

The MS degree in Natural Resources with an emphasis in Soil, Environmental and Atmospheric Sciences is designed to prepare students for academic careers in research and teaching or other advanced scientific or professional careers. Students entering the MS program are required to have a BS degree.

MS candidates conduct original research under the supervision of a faculty advisor or advisors and with the participation of a master's committee. The Soil, Environmental and Atmospheric Sciences program expects students to take part in professional and educational activities by giving presentations at conferences and presenting seminars. MS candidates complete a thesis and are expected to publish their research results in peer-reviewed scientific journals. A non-thesis option is also available that requires additional coursework and a research project.

Degree Requirement

The degree program with emphasis in SEAS must include:

• 30 hours of graduate credit, with at least 15 hours comprised of 8000- or 9000-level courses.
• Not more than 12 hours of the minimum 30 hours are permitted for research, problems, special investigations and special readings.
• A minimum of one credit hour of graduate seminar must be included in each student's graduate program.
• All students enrolled in graduate programs are required to participate in a supervised teaching activity.
• All students are required to attend a workshop on ethics and professionalism.
• Students must maintain a GPA of 3.0 (A=4.0) in all course work presented for the degree.

For an atmospheric science focus area, appropriate atmospheric science courses must be selected and approved in consultation with the student's advisor and graduate thesis committee.

For a soil science focus area, at least 12 credit hours of soil science courses at the 7000, 8000, and 9000 levels, exclusive of problems and thesis research, must be included in the student's graduate program.

For an environmental science focus area, at least six credit hours of environmental science courses at the 7000, 8000, and 9000 levels, exclusive of problems and thesis research, must be included in the student's graduate program.

For an environmental science focus area, at least six credit hours of environmental science courses at the 7000, 8000, and 9000 levels, exclusive of problems and thesis research, must be included in the student's graduate program. To meet the six credit hour requirement, courses must be selected from the following list of approved environmental science courses:

<table>

Overview

Undergraduate students in Environmental Sciences interested in the integrated B.S./M.S. program will be encouraged to participate in an undergraduate research experience during the summer of their sophomore year. They will apply and then be selected to enter the integrated B.S./M.S. program during the second semester of their junior year. Selected students will need to meet admission requirements for the Graduate School. Once selected the students will initiate work on their research during the summer of their junior year. During their senior year they will complete their undergraduate credits and can take up to 12 graduate-level credits (courses with numbering 7000 or higher) under MU’s dual enrollment program. After completing the B.S. degree, students will continue their research and take the remaining coursework on their M.S. plan of study necessary to meet the 30 credit hour minimum required by the Graduate School for the M.S. degree. Several scholarships are currently available at the University of Missouri to assist outstanding students for the costs of their undergraduate and graduate education and for conducting undergraduate research, including the Honors College Discovery Fellowships Program and CAFNR and Life Sciences Undergraduate Research Fellowships.

Thesis/Non-Thesis Requirements

Thesis

A thesis, which is a research report of original research on a specialized soil, environmental or atmospheric science problem conducted by the student, must be presented to the student’s graduate committee and successfully defended.

Non-Thesis Option

Under special circumstances, a non-thesis program in the soil science, environmental science or atmospheric science focus area may be approved by the student’s advisory committee, the SEAS Emphasis Area Coordinator and the Director of Graduate Studies. Not more than 6 hours of the minimum 30 hours are permitted for non-thesis research, problems, special investigations and special readings. At least 15 hours of the minimum 30 hours must be 8000- or 9000-level courses. A minimum of one credit hour of graduate seminar must be included in each student’s graduate program. The student is required to participate in a supervised teaching activity and attend a workshop on ethics and professionalism. A student in the non-thesis option must form a graduate advisory committee and have that committee approve of the student taking the non-thesis option, the proposed course plan, and a project for the student to complete to meet the requirements of the non-thesis option. The student will complete a written report for the project which must be approved by the student’s advisory committee.

Admissions

Admission Contact Information

Dr. Stephen Anderson, graduate emphasis area coordinator (andersons@missouri.edu)
Soil, Environmental and Atmospheric Sciences
University of Missouri
302 Anheuser-Busch Natural Resources Building
Columbia, MO 65211 USA
(573) 882-6303

Applicants are required to meet two sets of minimum qualifications for admission: the requirements of the MS in Natural Resources with emphasis in Soil, Environmental and Atmospheric Sciences (https://gradstudies.missouri.edu/degreecategory/natural-resources) and the minimum requirements of the Office of Graduate Studies (http://gradstudies.missouri.edu/admissions/eligibility-process). Because requirements vary, you must refer to a degree program's graduate admission page to learn about specific admission criteria, application deadlines, eligibility and application process. Your application materials will be reviewed by both the Office of Graduate Studies and the degree program to which you’ve applied before official admission to the University of Missouri.

Recommended Preparation

Appropriate undergraduate majors in preparation for graduate studies in the soil, environmental and atmospheric sciences emphasis area include: agronomy, atmospheric science, biochemistry, biology, biogeochecmy, botany, chemistry, earth science, civil and environmental engineering, environmental science, forestry, geosciences, hydrology, mathematics, microbiology, physics, soil science, and watershed management. Check
Completion of a BS Degree

Undergraduate GPA of 3.0 for the last 60 hours of coursework

- Atmospheric science focus area applicants: undergraduate program should include integral calculus and one year of college physics.
- Environmental science focus area applicants: undergraduate program should include general and organic chemistry, introductory biology, calculus, geology, physics, and ecology.
- Soil science focus area applicants: completed courses in general and organic chemistry, calculus, geology and physics. Inadequacies in courses must be remedied through additional course work immediately after admission.

Financial Aid from the Program

Check the School website (https://snr.missouri.edu) or contact individual faculty for details on graduate assistantships that may be available.

Admission Procedures for the Integrated BS/MS

Students seeking admission into the program should submit an application to the SEAS Graduate Emphasis Area Coordinator at the beginning (i.e., January 30th) of the Spring semester of their junior year. A faculty committee will consider several criteria for admission into the Integrated B.S./M.S. Program including:

1. the student’s undergraduate GPA (60 or more credits; minimum GPA of 3.5 at the time of enrollment)
2. a formal statement of interest indicating the intended emphasis area (i.e., soil science, environmental science or atmospheric science)
3. three letters of recommendation with one letter being a formal nomination letter from a SEAS faculty member

A student who meets the eligibility requirements will be extended an offer of admission by the middle of the Spring semester. All students must select a faculty mentor/advisor after admission to the program. A faculty advisory committee will be selected for each student and they will meet during the semester to approve a course of study and assist the student in designing and conducting their research program. Students will prepare a research proposal to be reviewed and accepted by their advisory committee. After approval of the research proposal, students will initiate their research during the summer of their junior year. Formal application of the student into the Graduate School will take place during the final semester of the student’s senior year and is contingent on the student’s successful completion of B.S. degree requirements and meeting eligibility requirements for the graduate program. Students will be required to maintain a cumulative 3.0 GPA during the program, write an M.S. thesis and meet other M.S. degree requirements.

MS in Natural Resources with Emphasis in Water Resources

The Water Resources emphasis area is an interdisciplinary graduate degree program within the School of Natural Resources. It encompasses all fields of natural sciences represented in the School and, through collaboration, involves related expertise from throughout the University of Missouri and beyond. Participating faculty in the Water Resources emphasis area are engaged in both the scientific understanding of water resources (biological, chemical and physical) and its management, and the decision-making processes used to address competing societal values (social, economic and legal). The program has no geographic boundaries but the location of MU suggests most research will be directed to better understanding of water movement, biogeochemical cycling and biological processes of forested-agricultural and urban landscapes of the midcontinent. The lakes, rivers, streams, wetlands and subsurface waters of the region are prime areas for basic and applied research. One of the program’s major global impacts is the training of highly qualified graduate professionals that are equipped to address many of the complex contemporary water resource problems around the world.

The Water Resources graduate emphasis area offers M.S. degree programs specializing in (but not limited to) the occurrence, circulation, distribution, chemical and physical properties, and environmental interaction of surface and subsurface waters, including groundwater. Specific areas of investigation could include lakes and reservoirs, floods and droughts, groundwater aquifers, water use, water quality, water contamination, plant water use, measurement methods, hydrologic modeling and international water resources.

Participating faculty in the Water Resources emphasis area are engaged in both scientific understanding of water resources (biological, chemical and physical) and its management, and the decision-making processes used to address competing societal values (social, economic and legal). The program has no geographic boundaries but benefits from a distinct midcontinent climate, and physiography. Multi-use watersheds (e.g., forest, agriculture, urban), streams, lakes, rivers, wetlands and subsurface waters are ideal areas for basic and applied research that is easily transferable to other regions. One of the program’s major global impacts is the training of highly qualified graduate professionals that are equipped to address many of the complex contemporary water resource problems around the world.

Water Resources program applicants must meet the general requirements set forth by the University of Missouri Office of Graduate School for the M.S. degree, and meet any additional application criteria of the Water Resources graduate emphasis area. Students often self-fund, apply for teaching assistantships, or are supported by grant-funded
research assistantships. Other opportunities may be available to eligible students. Applicants should contact specific faculty to determine the availability of position(s) in the potential advisor’s research program and assistantships or scholarships prior to applying. If encouraged to apply by Water Resources faculty, please apply through the University of Missouri’s online application program.

Upon successful completion of the School of Natural Resources Water Resources graduate program, students will possess strong technical skills in water resources and related sub-disciplines. Graduates will have developed a holistic understanding of the hydrologic cycle related to ecosystem processes as and the interdisciplinary background necessary to understand and address contemporary water resources problems. Graduates will have an appreciation of the complex interactions of biophysical processes and tightly coupled socioeconomic interactions necessary to implement water resource policy.

Degree Requirements

- 30 hours of course work must be completed, and 15 hours or more shall be 8000 level.
- Not more than 40 percent of the 30 hour credit requirement can be satisfied by a combination of special investigations, Research, Readings and/or Problems courses.
- A maximum of 20 percent of the number of credit hours required for a student’s degree may be graduate credits transferred from another university, including another campus of the University of Missouri system upon the recommendation of the adviser, the approval of the academic program director of graduate studies and the MU Office of Graduate Studies.
- Students must maintain a GPA of 3.0 (A=4.0) in all course work presented for the degree.
- Each student’s coursework requirements, including the selection of specific courses, will be listed in the student’s plan of study and approved by their graduate committee.
- A minimum of one credit hour of graduate seminar must be included in each student’s graduate program.

Must take at least 6 credit hours from the following:

Thesis Requirements

Forms and Timelines

M1 Plan of study for Master's Degree

Together with his/her advisor, the student completes the M1 form and provides it to the Director of Graduate Studies in the emphasis area. This form provides the student, the school, and the MU Office of Graduate School with a plan for all course work, transfer credit and research hours that will comprise a student's program of study. This form should be completed by the end of the second semester.

M2 Request for Thesis Committee

The M2 form accompanies the M1, and should be submitted at the same time, by the end of the second semester. It is required of students who will be writing a thesis.

M3 Report of Master's Examining Committee

The M3 form reports the final results of 1) master's thesis defense 2) master's project presentation or 3) master's comprehensive examination. Submit to the MU Office of Graduate Studies as soon as possible after the exam, project presentation or thesis defense.

Thesis defense seminar: All students must present a defense seminar in advance of his/her final examination. The seminar must be publicized and the Director of Graduate Studies needs to be informed of the date as soon as the student arranges it, at least two weeks before the seminar.

If the seminar is not appropriated announced, it will be considered invalid.
A thesis shall be completed before the final examination. Research credits toward a thesis normally shall not exceed eight hours. A final oral examination is provided by all candidates before completion of the degree.

Every candidate should review the “Guidelines for Preparing Theses and Dissertations” from the Graduate School and should consult the Water Resources Director of Graduate Studies for academic program style requirements.

M.S. Committee Meeting Minimum Requirements
M.S. Students must meet with their committee at least twice during their degree seeking program.

First meeting: Present a written research proposal, provide a proposal presentation to the committee and present their M1, and M2 for approval and signing.

Admissions

Admission Contact Information
School of Natural Resources
Water Resources Emphasis Area
303L Anheuser-Busch Natural Resources Building
(573)-882-2832

Director of Graduate Studies:
Rebecca North, Ph.D.
Assistant Professor of Water Quality
School of Natural Resources
University of Missouri
303L Anheuser-Busch Natural Resources Building
Columbia, MO. 65211-7220
(573)-882-2832

Admission Requirements
• Bachelor's degree in a relevant discipline from an accredited institution
• Undergraduate GPA: 3.0 on a scale of 4.0 in last 60 hours
• Graduate Record Exam (GRE)*
• Minimum TOEFL scores: 550 (paper-based test), 80 (Internet-based test), 6.5 (IELTS Academic)
• Experience in research or management of water resources. Practical skills are strongly considered.

* Students whose GPAs do not meet the requirements will be evaluated individually. Applicants will be reviewed on a case-by-case basis.

How to Apply
For the Office of Graduate School:
Completed Graduate School online application

Official Results of English Proficiency Exams (International applicants only)

For the Water Resources Program:
All application materials must be submitted to the Graduate Studies online application system.

A minimum of three letters of recommendation and the accompanying evaluation sheets from people who can attest to the candidate’s scholastic and water resources related field work abilities

Résumé or CV
Letter of professional goals (2 page limit), indicating education, research and career goals
Publications (optional)
GRE scores
TOEFL scores (when applicable)

Applicants should contact specific faculty to determine the availability of potential advisors, available position(s) in the potential advisors lab and of available research assistantships prior to applying.

An applicant contemplating graduate work in water resources should have a strong background in physical sciences, including calculus, chemistry, and physics. Those considering interdisciplinary degrees should also have a background in biology, botany, zoology, ecology and other natural sciences. A background of 25 to 30 hours in physical sciences courses is desirable. Minor deficiencies may be remedied during the graduate program; major deficiencies may require preparatory coursework prior to consideration for admission. Applicants are required to meet two sets of minimum qualifications for admission: the requirements of the MS in Natural Resources with emphasis in Water Resources (https://gradstudies.missouri.edu/degreecategory/natural-resources) and the minimum requirements of the Office of Graduate S (https://gradstudies.missouri.edu/admissions/eligibility-process) school (https://gradstudies.missouri.edu/admissions/eligibility-process). Because requirements vary, you must refer to a degree program's graduate admission page to learn about specific admission criteria, application deadlines, eligibility and application process. Your application materials will be reviewed by both the Office of Graduate Studies and the degree program to which you've applied before official admission to the University of Missouri.

Application Deadlines
We have a rolling application window.

Financial Aid from the Program
Funding is available, but assistantships are highly competitive. Prospective students must complete all the necessary application requirements to be considered for funding. Contact the graduate program emphasis coordinator for more details. Applicants should also contact the faculty they want to work with to determine the availability of possible graduate assistantship positions.

PhD in Natural Resources

The PhD in Natural Resources has emphasis areas in Fisheries & Wildlife Sciences (p. 105), Forestry (p. 105), Human Dimensions of Natural Resources (p. 106), Soil, Environmental & Atmospheric Sciences (p. 107), and Water Resources (p. 108). Please see the
individual emphasis area pages for degree requirements and admissions information.

Fall deadline: Rolling
• Minimum TOEFL scores:
  Internet-based test (iBT)  Paper-based test (PBT)
  79  550
• Minimum GRE scores:
  When did you take the GRE?  Verbal + Quantitative  Analytical
  Prior to August 1, 2011  1100
  On or After August 1, 2011  1100 equivalent scores
• Minimum GPA: 3.2 in last 60 hours of undergraduate coursework.
• Experience in research or management of natural resources. Practical skills are strongly considered. Admission Criteria

Required Application Materials
To the Graduate School (https://applygrad.missouri.edu/apply):
• All application materials must be submitted to the Apply Yourself online application system
• All required Graduate School documents
• A minimum of three letters of recommendation and the accompanying evaluation sheets from people who can attest to the candidate’s scholastic and conservation field work abilities
• Departmental application
• Written response to 1 of 5 questions listed on the Fisheries and Wildlife Sciences Graduate Program Admissions page
• GRE scores
• TOEFL scores (when applicable)
• Publications (optional)
• Résumé or CV

We require applicants to contact specific faculty to determine the availability of research assistantships prior to applying to the program.

An applicant contemplating graduate work in fisheries, limnology, conservation biology, or wildlife should have a strong background in biological and physical sciences, including biology, botany, zoology, ecology, physiology, and genetics. In addition, such taxonomic courses as plant taxonomy, invertebrate zoology, ichthyology, ornithology, and mammalogy are highly desirable, as is a background in chemistry, mathematics, statistics, and physics.

A background of 25 to 30 hours in biological sciences courses is desirable. Minor deficiencies may be remedied during the graduate program; major deficiencies may require preparatory coursework prior to consideration for admission.

Fisheries and Wildlife Sciences degrees emphasize resource management at organismal, population, or ecosystem scales. An emphasis on resource management helps distinguish our program from basic biology; therefore, course work in fisheries or wildlife management, environmental science, resource policy, or other applied ecology fields is advantageous.

PhD Degree Completion Requirements
The PhD degree is conferred only upon those students who, after extensive study, have demonstrated a high level of achievement in their particular specialization in fisheries and wildlife and have completed independent research contributing to knowledge in the field.

Doctoral Committee
A student pursuing a PhD is expected to pass qualifying, comprehensive, and final examinations administered by the student’s doctoral committee. The committee shall be composed of a minimum of 4 members of the MU graduate faculty and will include at least 3 members from the student’s doctoral degree program and 1 outside member from a different MU program. At least 2 of the committee members must be MU doctoral faculty.

Qualifying Examination
The qualifying examination includes a general knowledge examination and is designed to evaluate the student’s background and determine areas that require further course work.

Plan of Study
The doctoral plan of study requires a minimum of 72 hours of graduate credit from courses taken at MU, transfer credits, and research hours. This program must include at least 15 hours of 8000- and 9000-level course work exclusive of problems, readings, and research credits. Up to 30 hours from an accredited master’s program may be applied to the plan of study, subject to committee approval.

Residency Requirement
Students enrolled in the PhD program must also satisfy a residency requirement of at least 3 consecutive semesters in which the student is in residence on the MU campus and enrolled for 6 or more credit hours, unless a prior exception is approved by the director of graduate studies.

PhD in Natural Resources with Emphasis in Forestry

Admission Contact Information
Dr. Hong S. He
203 ABNR Bldg.
Columbia, MO 65211
heh@missouri.edu

Doctorate in Forestry
The PhD degree in forestry is designed to prepare students for academic careers in research and teaching or other advanced scientific or
professional careers. Students entering the PhD program will often have a master’s degree, but this is not an absolute requirement.

PhD candidates conduct original research under the supervision of a faculty advisor or advisors and with the participation of a doctoral committee. Students are expected to engage in coursework to prepare for careers in research, industry or academia. The Department of Forestry expects students to take part in professional and educational activities by giving presentations at conferences and presenting seminars. Ph.D. candidates complete a dissertation and are expected to publish their research results in peer-reviewed scientific journals.

Admission Criteria

Fall deadline: May 15
Spring deadline: October 15
Summer deadline: March 15

- Minimum GPA: 3.0 in last 60 hours
- Minimum TOEFL scores (iBT:80)
- Minimum GRE scores: none

Particular attention is given to the record of the last 2 years of undergraduate study, and/or the type and quality of professional experience since completion of the undergraduate degree. Doctoral candidates must demonstrate a higher level of achievement in each of these criteria.

Required Application Materials

To the Graduate School:

- All required Graduate School documents
- 3 letters of recommendation from individuals qualified to evaluate scholarly capacity and professional qualities
- Letter of intent

To Forestry Emphasis Area:

- Emphasis area application (use form)

Doctoral Committee in Forestry

The student pursuing the doctoral program is expected to pass qualifying, comprehensive and final examinations administered by the student’s doctoral committee. This committee is structured as defined by the MU Graduate School and must have a minimum of 4 members, at least 3 members must be from the student’s doctoral degree program and 1 outside member from a different MU program. The Forestry Department strongly recommends a 5-person committee for Ph.D. students. At least 2 of the committee members must be MU doctoral faculty.

Doctoral Qualifying Examination

The qualifying examination determines whether the student’s background is adequate to enter the PhD program. It also is intended to ascertain if there are areas of weakness in which a candidate will be required to gain background through appropriate coursework or areas that prohibit entry into the program.

D-1 Qualifying Examination Results and Doctoral Committee Approval Form

Submission of the D-1 form follows a meeting of the student’s graduate committee and approval by the committee, of the student’s proposal and plan of research and coursework. This form is to be submitted to the Office of Graduate Studies within one month of exam completion.

D-2 Plan of Study

The D-2 form accompanies the D-1, and is also to be submitted to the MU Office of Graduate Studies within one month of exam completion.

Doctoral Comprehensive Examination

Comprehensive exam must be take a minimum 6 months before dissertation defense. The objectives of the comprehensive examination are twofold:
1. to determine if a student has acquired sufficient depth and breadth of knowledge in selected areas of concentration
2. to evaluate the candidate’s capacity to apply that knowledge in solving applied or theoretical problems.

D-3 Doctoral Comprehensive Exam Result Form

The D-3 forms should be completed and filed with the Office of Graduate Studies within one month of exam completion.

Final Examination

The final examination is directed primarily toward exploration of the dissertation research project. The final examination is directed primarily toward exploration of the dissertation research project. An independent scholarly dissertation approved by the student’s advisor and doctoral committee must be completed. The announcement of public seminar for the dissertation defense must be made at least two weeks in advance of the seminar. It must be well advertised and open to the public. Every candidate should review the Dissertation & Thesis Guidelines (http://gradschool.missouri.edu/academics/thesis-dissertation/diss-thesis-guideline) from the Graduate School and should consult the Director of Graduate Studies for academic program style requirements.

D-4 Report of the Dissertation Defense Form

The D-4 form should be completed and filed with the Office of Graduate Studies as soon as possible after the defense.

Dissertation

An independent scholarly dissertation approved by the student’s advisor and doctoral committee must be completed.

Foreign Language Requirements

Requirements for foreign language and a collateral field, if any, are determined by the student’s doctoral committee. The doctoral committee is expected to make an assessment of the student’s needs as they relate to the student’s background and educational objectives.

PhD in Natural Resources with Emphasis in Human Dimensions of Natural Resources

Application and Admission Information

Dr. Charles Nilon
302 Anheuser-Busch Natural Resources Building
Columbia, MO 65211
nilonc@missouri.edu; (573) 882-3738
Emphasis Area Focus

The Human Dimensions of Natural Resources Emphasis Area (HDNR) addresses research and management questions including peoples’ attitudes, knowledge, values, perceptions, and behaviors associated with natural resources. As an interdisciplinary emphasis area, HDNR considers applicants with backgrounds in social sciences, environmental education, natural resources management and conservation, or related disciplines.

The Ph.D. degree in HDNR is designed to prepare students for careers in academic research and teaching, or advanced scientific professions. The Ph.D. degree is conferred upon students who have demonstrated a high level of achievement in their particular specialization and have completed independent research contributing to knowledge in their respective field.

Admission Criteria

- Minimum GPA: 3.0 in last 60 hours
- Minimum TOEFL scores:

<table>
<thead>
<tr>
<th>Internet-based test (iBT)</th>
<th>Paper-based test (PBT)</th>
</tr>
</thead>
<tbody>
<tr>
<td>80</td>
<td>550</td>
</tr>
</tbody>
</table>

- GRE Required
- Students are expected to have completed a Master’s or equivalent degree at the time they start their doctoral program

Required Application Materials

To the Graduate School (https://applygrad.missouri.edu/apply):

- All application materials must be submitted to the Apply Yourself online application system
- Statement of interest
- Résumé or CV
- GRE scores
- TOEFL scores (if applicable)
- A minimum of three letters of recommendation and the accompanying evaluation sheets from people who can attest to the candidate’s scholastic ability and experience relevant to graduate study
- Publications (optional)

Coursework Requirements

All students in the HDNR Emphasis Area will be required to take at least one course from each of three categories:

1. Social science research methods
2. Quantitative and/or qualitative data analysis
3. Social science theory

Each student's coursework requirements, including the selection of specific courses in the above categories, will be listed in the student's plan of study and approved by their graduate committee.

Doctoral Degree Requirements

The HDNR doctoral program of study requires a minimum of 72 hours of graduate credit from courses taken at MU, transfer credit from a Masters or equivalent degree, and research hours. Doctoral students will be expected to follow a timeline toward completion of their degree:

1. Within one year of initial enrollment in the emphasis area, doctoral students must pass a qualifying examination. The qualifying exam will include a presentation by the student of his/her course of study. The course of study shall be approved by the student's graduate committee. The graduate committee may also request a demonstration of the student's research aptitude, competencies in subject matter, and communication skills.
2. Within three years of initial enrollment in the emphasis area, doctoral students must present a written proposal of their research and an oral defense of that proposal to be reviewed and approved by members of the students' doctoral committee.
3. Within three years of initial enrollment in the emphasis area, doctoral students must pass a comprehensive examination. The PhD comprehensive exam will be a written examination with questions from each of the graduate committee members followed by an oral examination. The format of each set of questions will be determined by the graduate committee members. The oral portion of the comprehensive examination may be combined with the research proposal oral defense.
4. Doctoral students will submit a written dissertation following the guidelines specified by the Graduate School. All doctoral students must present a public oral defense of their dissertation announced at least two weeks prior to the defense date.

PhD in Natural Resources with Emphasis in Soil, Environmental and Atmospheric Sciences

Doctorate in Soil, Environmental and Atmospheric Sciences

The PhD degree in Natural Resources with an emphasis in Soil, Environmental and Atmospheric Sciences is designed to prepare students for academic careers in research and teaching or other advanced scientific or professional careers. Students entering the PhD program will often have a master’s degree, but this is not an absolute requirement.

PhD candidates conduct original research under the supervision of a faculty advisor or advisors and with the participation of a doctoral committee. Students are expected to engage in coursework to prepare for careers in research, industry or academia. The Soil, Environmental and Atmospheric Sciences program expects students to take part in professional and educational activities by giving presentations at conferences and presenting seminars. PhD candidates complete a dissertation and are expected to publish their research results in peer-reviewed scientific journals.

Degree Requirements

- The curriculum is developed by a doctoral program committee and requires a minimum of 72 semester hours beyond the baccalaureate degree.
- At least 15 hours of course work in the degree program must be at the 8000 and 9000 levels, exclusive of research, problems and independent study experiences.
- A minimum of two credit hours of graduate seminar must be included in each student’s graduate program.
• At least 12 credit hours of soil science courses at the 7000, 8000, and 9000 levels, exclusive of problems and thesis research, must be included in the student’s graduate program in the soil science focus area.
• All students are required to attend a workshop on ethics and professionalism.
• All students enrolled in graduate programs are required to participate in a supervised teaching activity.

Qualifying Process
The student should take the qualifying examination soon after admission into the PhD program and submit an approved plan of study to the Office of Graduate School. It is departmental policy that a student is only allowed one opportunity to pass the qualifying exam.

Comprehensive Examination Process
After successfully completing the required course work with a GPA of 3.0 (A=4.0) or better, students must pass a written and oral comprehensive examination administered by their doctoral program committee.

Dissertation Requirements
A dissertation, which is a comprehensive report of original research on a specialized soil or atmospheric science problem conducted by the student, must be presented to the student’s graduate committee and successfully defended.

Admissions
Admission Contact Information
Dr. Stephen Anderson, Graduate Emphasis Area Coordinator
(andersons@missouri.edu)
302 Anheuser-Busch Natural Resources Building
Columbia, MO 65211 USA
(573) 882-6303

Applicants are required to meet two sets of minimum qualifications for admission: the requirements of the PhD in Natural Resources with emphasis in Soil, Environmental and Atmospheric Sciences (https://gradstudies.missouri.edu/degreecategory/natural-resources) and the minimum requirements of the (https://gradstudies.missouri.edu/admissions/eligibility-process) Graduate Schoo (https://gradstudies.missouri.edu/admissions/eligibility-process). Because requirements vary, you must refer to a degree program’s graduate admission page to learn about specific admission criteria, application deadlines, eligibility and application process. Your application materials will be reviewed by both the Office of Graduate Studies and the degree program to which you’ve applied before official admission to the University of Missouri.

Financial Aid from the Program
Check the School website (http://snr.missouri.edu/) or contact individual faculty for details on graduate assistantships that may be available.

PhD in Natural Resources with Emphasis in Water Resources

The Water Resources emphasis area is an interdisciplinary graduate degree program within the School of Natural Resources. It encompasses all fields of natural sciences represented in the School and, through collaboration, involves related expertise from throughout the University of Missouri and beyond. Participating faculty in the Water Resources emphasis area are engaged in both the scientific understanding of water resources (biological, chemical and physical) and its management, and the decision-making processes used to address competing societal values (social, economic and legal). The program has no geographic boundaries but the location of MU suggests most research will be directed to better understanding of water movement, biogeochemical cycling and biological processes of forested-agricultural and urban landscapes of the midcontinent. The lakes, rivers, streams, wetlands and subsurface waters of the region are prime areas for basic and applied research. One of the program’s major global impacts is the training of highly qualified graduate professionals that are equipped to address many of the complex contemporary water resource problems around the world.

The Water Resources graduate emphasis area offers Ph.D. degree programs specializing in (but not limited to) the occurrence, circulation, distribution, chemical and physical properties, and environmental interaction of surface and subsurface waters, including groundwater. Specific areas of investigation could include lakes and reservoirs, floods and droughts, groundwater aquifers, water use, water quality, water contamination, plant water use, measurement methods, hydrologic modeling and international water resources.

Participating faculty in the Water Resources emphasis area are engaged in both scientific understanding of water resources (biological, chemical and physical) and its management, and the decision-making processes used to address competing societal values (social, economic and legal). The program has no geographic boundaries but benefits from a distinct midcontinent climate, and physiography. Multi-use watersheds (e.g., forest, agriculture, urban), streams, lakes, rivers, wetlands and subsurface waters are ideal areas for basic and applied research that is easily transferable to other regions. One of the program’s major global impacts is the training of highly qualified graduate professionals that are equipped to address many of the complex contemporary water resource problems around the world.

Water Resources program applicants must meet the general requirements set forth by the University of Missouri Office of Graduate School for the Ph.D. degree, and meet any additional application criteria of the Water Resources graduate emphasis area. Students often self-fund, apply for teaching assistantships, or are supported by grant-funded research assistantships. Other opportunities may be available to eligible students. Applicants should contact specific faculty to determine the availability of position(s) in the potential advisor’s research program and assistantships or scholarships prior to applying. If encouraged to apply by Water Resources faculty, please apply through the University of Missouri’s online application program.

Upon successful completion of the School of Natural Resources Water Resources graduate program, students will possess strong technical skills in water resources and related sub-disciplines. Graduates will have developed a holistic understanding of the hydrologic cycle related to ecosystem processes as and the interdisciplinary background necessary to understand and address contemporary water resources problems. Graduates will have an appreciation of the complex interactions of biophysical processes and tightly coupled socioeconomic interactions necessary to implement water resource policy.
Degree Requirements

- MU requires a minimum of 72 hrs beyond the Baccalaureate degree for the Ph.D.
- The committee may recommend that a certain number of credits be transferred from the Master’s degree toward the Ph.D.
- A maximum of 30 hours of post baccalaureate graduate credit from an accredited university can be transferred toward the Ph.D. degree program.
- The program must include a minimum of 15 hours of 8000 level course work, exclusive of problems, readings and research.
- A minimum of one credit hour of graduate seminar must be included in each student’s graduate program.

Must take at least 9 credit hours from the following:

**Aquatic Ecosystem Science**
- F_W 8460 Wetland Ecology 3
- F_W 8520 Stream Ecology 3
- NAT_R 7001 Topics in Natural Resources 1-99
- NAT_R 7300 Methods in Aquatic Ecology 3
- NAT_R 7100 Lake Ecology 3
- FOREST 7390 Watershed Management and Water Quality 3
- NAT_R 8450 Advanced Limnology (offered Spring 2020) 3

**Climate and Climatology**
- ATM_SC 7400 Micrometeorology 3
- ATM_SC 7590 Radar Meteorology 3
- ATM_SC 9300 Introduction to Chaos Theory 3
- ATM_SC 8400 Atmospheric General Circulation 3
- ATM_SC 8600 Advanced Climate Dynamics 3

**Hydrologic Science and Water Quality**
- ATM_SC 7550 Physical Meteorology 3
- ENV_SC 7320 Hydrologic and Water Quality Modeling 3
- ENV_SC 7305 Environmental Soil Physics 3
- ENV_SC 7306 Environmental Soil Physics Laboratory 2
- CV_ENG 7710 Soil and Water Conservation Engineering 3
- ENV_SC 8400 Solute Transport in the Vadose Zone 3
- GEOL 7130 Groundwater Modeling 3
- GEOL 8240 Hydrogeologic Processes 3
- GEOL 7100 Groundwater Hydrology 3

**Water Management Technology**
- NAT_R 8290 Hydrologic Measurement and Synthesis 2
- ATM_SC 7510 Remote Sensing for Meteorology and Natural Resources 3
- ATM_SC 7590 Radar Meteorology 3
- ATM_SC 9590 Advanced Applications of Weather Radar 3

**Elective Courses**
- AG_S_M 7420 Surface Water Management 3
- AG_S_M 7440 Water Quality and Pollution Control 3
- AG_S_M 7460 Irrigation and Drainage 3
- CV_ENG 7230 Introduction to Water Quality 3
- CV_ENG 7240 Water Quality Analysis 3
- CV_ENG 7290 Wastewater Treatment and Process Design 3
- CV_ENG 7700 Hydraulics of Open Channels 3
- CV_ENG 8200 Water Quality Modeling 3
- CV_ENG 8215 Environmental Transport Phenomena 3
- CV_ENG 8225 Aquatic Chemistry 3
- CV_ENG 8270 Design of Water and Wastewater Treatment Facilities 3
- GEOL 7300 Introduction to Low-Temperature Geochemistry 3
- GEOL 7500 Organic Geochemistry 3

**Qualifying Process**

The qualifying examination determines whether the student's background is adequate to enter the Ph.D. program, as a candidate. It also is intended to ascertain if there are areas of weakness in which a candidate will be required to gain background through appropriate course work. Therefore, it is advisable that the student, in conjunction with advisor, selects a committee and completes the qualifying exam within the first 3 semesters.

**D-1 Qualifying Examination Results and Doctoral Committee Approval Form**

Submission of the D-1 form follows a meeting of the student’s graduate committee and approval by the committee, of the student’s proposal and plan of research and coursework. This form is to be submitted to the Office of Graduate School no later than the end of the student's second semester of enrollment.

**D-2 Plan of Study**

The D-2 form accompanies the D-1, and is also to be submitted to the MU Office of Graduate School no later than the end of the student's second semester of study.

**Comprehensive Examination Process**

Comprehensive exam must be take a minimum 6 months before dissertation defense. The comprehensive examination is taken following the completion of most if not all, the course work requirements established by the graduate committee.

The objectives of the comprehensive examination are twofold:

1. to determine if a student has acquired sufficient depth and breadth of knowledge in selected areas of concentration; and
2. to evaluate the candidate's capacity to apply that knowledge in solving applied or theoretical problems.

**D-3 Doctoral Comprehensive Exam Result Form**

The D-3 forms should be completed and filed with the Office of Graduate School within one month of exam completion.

**Dissertation Requirements**

Every candidate should review the Dissertation & Thesis Guidelines (http://gradschool.missouri.edu/academics/thesis-dissertation/diss-thesis-guideline) from the Graduate School and should consult the Director of Graduate Studies for academic program style requirements.

**Dissertation Defense Seminar**

The final examination is directed toward, but not limited to, exploration of the dissertation research project.

The DGS must be informed of the dissertation defense seminar at least two weeks in advance of the seminar. It must be well advertised and open to the public.
Admissions

Admission Contact Information
School of Natural Resources
Water Resources Emphasis Area
303L Anheuser-Busch Natural Resources Building
(573)-882-2832

Director of Graduate Studies:
Rebecca North, Ph.D.
Assistant Professor of Water Quality
School of Natural Resources
University of Missouri
303L Anheuser-Busch Natural Resources Building
Columbia, MO, 65211-7220
(573)-882-2832

Admission Requirements

- Bachelor's degree in a relevant discipline from an accredited institution
- Undergraduate GPA: 3.0 on a scale of 4.0 in last 60 hours
- Graduate Record Exam score (GRE)*
- Minimum TOEFL scores: 550 (paper-based test), 80 (Internet-based test), 6.5 (IELTS Academic)
- Experience in research or management of water resources. Practical skills are strongly considered.

*Students whose GPAs do not meet the requirements will be evaluated individually. Applicants will be reviewed on a case-by-case basis.

How to Apply

All application materials must be submitted through the university online application system (https://applygrad.missouri.edu/apply/), including:

- All application materials must be submitted to the online application system
- Statement of interest
- Résumé or CV
- GRE scores
- TOEFL scores (if applicable)

- A minimum of three letters of recommendation and the accompanying evaluation sheets from people who can attest to the candidate's scholastic and conservation field work abilities
- Unofficial Transcripts- As part of the application submission process, all applicants are required to upload unofficial copies of all post-secondary transcripts to the online application. Official transcripts are only required if accepted by the academic program.
- Publications (optional)

Applicants are required to meet two sets of minimum qualifications for admission: the requirements of the PhD in Natural Resources with emphasis in Water Resources (https://gradstudies.missouri.edu/degreecategory/natural-resources) and the minimum requirements of the Office of Graduate Studies (http://gradstudies.missouri.edu/admissions/eligibility-process/minimum-requirements). Because requirements vary, you must refer to a degree program's graduate admission page to learn about specific admission criteria, application deadlines, eligibility and application process. Your application materials will be reviewed by both the Office of Graduate Studies and the degree program to which you've applied before official admission to the University of Missouri.

Applicants should contact specific faculty to determine the availability of research assistantships within the potential advisor(s) in the potential advisors lab and of available research assistantships prior to applying.

Application Deadlines

We have a rolling application window.

Financial Aid from the Program

Funding is available, but assistantships are highly competitive. Prospective students must complete all the necessary application requirements to be considered for funding. Contact the graduate program emphasis coordinator for more details. Applicants should also contact the faculty they want to work with to determine the availability of possible graduate assistantship positions.

An applicant contemplating graduate work in water resources should have a strong background in physical sciences, including calculus, chemistry, and physics. Those considering interdisciplinary degrees should also have a background in biology, botany, zoology, ecology and other natural sciences. A background of 25 to 30 hours in physical sciences courses is desirable. Minor deficiencies may be remedied during the graduate program; major deficiencies may require preparatory coursework prior to consideration for admission. Applicants are required to meet two sets of minimum qualifications for admission: the requirements of the MS in Natural Resources with emphasis in Water Resources (https://gradstudies.missouri.edu/degreecategory/natural-resources) and the minimum requirements of the Office of Graduate Studies (http://gradstudies.missouri.edu/admissions/eligibility-process/minimum-requirements). Because requirements vary, you must refer to a degree program's graduate admission page to learn about specific admission criteria, application deadlines, eligibility and application process. Your application materials will be reviewed by both the Office of Graduate Studies and the degree program to which you've applied before official admission to the University of Missouri.

Parks, Recreation and Sport

D. R. Vaught, Undergraduate Degree Program Coordinator
School of Natural Resources
Parks, Recreation and Sport is among the oldest nationally accredited programs in the United States. Emphasis areas include: Recreation Administration, Natural Resource Recreation Management, Tourism Development, and Sport Management. The program integrates classroom learning with applied research and internship experiences and is a leader in technology infusion.

All students in Parks, Recreation and Sport are required to complete a capstone internship, taken during the last year of study after all courses are completed. The semester-long internship, worth 12 credit hours, is with an on or off-campus agency or organization chosen by the student and approved by the instructor. Regional, national and international internship placements are possible. Students may receive direct financial assistance from the agency or organization during the internship. Internships outside the state of Missouri require a 2.5 GPA.

The program offers BS in Parks, Recreation and Sport and MS in Natural Resources.

### Faculty

- **Associate Professor** M. Morgan**, S. A. Wilhelm-Stanis**
- **Assistant Professor** J. Li*, S. Xu*
- **Associate Teaching Professor** D. R. Vaught*
- **Assistant Teaching Professor** D. Massengale, J. R. Upah*, J. Wartella
- **Adjunct Professor** D. Eiken*
- **Director of Internships** J. R. Upah*
- **Instructor** K. Whisenhunt, J. Young
- **Adjunct Instructor** A. Cheek

- Graduate Faculty Member - membership is required to teach graduate-level courses, chair master’s thesis committees, and serve on doctoral examination and dissertation committees.
- **Doctoral Faculty Member** - membership is required to chair doctoral examination or dissertation committees. Graduate faculty membership is a prerequisite for Doctoral faculty membership.

### Undergraduate

- **BS in Parks, Recreation and Sport** (p. 111)
  - with emphasis in Natural Resource Recreation Management (p. 113)
  - with emphasis in Recreation Administration (p. 113)
  - with emphasis in Sport Management (p. 114)
  - with emphasis in Tourism Development (p. 115)

Students pursuing a degree in Parks, Recreation and Sport choose between four emphasis areas. The Natural Resources Recreation Management emphasis focuses on the combination of natural and social sciences, and the management of people and natural resources in parks, forests, refuges, and reservoirs. The Recreation Administration emphasis prepares students to work within a wide variety of public and private entities to oversee management, events, operations, and finance. The Sport Management emphasis is designed to provide students with the professional preparation, managerial skills, and leadership training required for an array of careers in the sport industry. The Tourism Development emphasis focuses on planning and management associated with tourism venues, enterprises and events.

### Graduate

**School of Natural Resources**

105 Anheuser-Busch Natural Resources Building  
(573) 882-7086

Parks, Recreation and Tourism's graduate program is housed under the MS in Natural Resources with emphasis in Parks, Recreation and Tourism (p. 99). Please visit their page for more information.

**Emphasis Area Coordinator:** Dr. Mark Morgan

### About Parks, Recreation & Tourism

Since virtually everyone participates in some form of leisure, the primary benefit of Parks, Recreation and Tourism (PRT) is to address quality of life issues. The unique interaction of people, places, and activities establish our profession as one of the world’s largest industries. Students learn how to manage service delivery systems by combining theory with practice.

### Career Preparation

The purpose of graduate study is to promote research and scholarship as the foundation of professional excellence, thus preparing candidates for management-level positions or admission to doctoral programs.

### BS in Parks, Recreation and Sport

#### Degree Program Description

The field of parks, recreation and sport is a multi-billion dollar industry, which encompasses important environmental and social issues such as conservation, community building, human development, health and well-being, and the quality of life. The Parks, Recreation and Sport program provides students with opportunities to develop knowledge and skills for designing, managing, and evaluating various leisure services across a variety of user groups. The undergraduate degree program is comprehensive, yet tailored to meet the needs of students based on current job requirements and professional trends including leadership, communication, problem solving, accounting, and economics.

All of our areas of emphasis are accredited with eligibility to sit for the Certified Park and Recreation Professional certification. A wide range of careers in Parks, Recreation and Sport include: outdoor education, park management, park ranger, resource manager, back country guide, visitor relations, recreation supervisors, facility managers, health and fitness, golf course management, park planner, cultural arts, aquatics, account executives, customer relations, game-day operations, compliance, fund raising, sales, and marketing.

### Major Program Requirements

Satisfactory completion of 120 credits is required: a minimum of 108 credits in course work and a 12-credit internship with a cumulative GPA of 2.0. Professional preparation includes course work in a professional core, professional option requirements and electives, and an internship. Students must also complete university general education (p. 31), university graduation requirements (p. 30), degree and major emphasis area requirements, including selected foundational courses which may fulfill some University general education requirements.
Students transferring into Parks, Recreation and Sport from other MU degree programs or from other institutions must have a 2.0 GPA (past term and cumulative) for all work attempted.

or H_D_FS 2400 Principles of Human Development 3
or H_D_FS 2400HW Principles of Human Development - Honors/ Writing Intensive 3
or H_D_FS 2400H Principles of Human Development - Honors 3

Professional Core (required for all options, minimum grade of C- in core) 26
PRST 1010 The American Leisure Experience 3
PRST 1011 Academic Planning and Career Orientation in Parks, Recreation and Tourism 1
PRST 2281 Business of Sport and Recreation 3
PRST 2750 Methods in Research and Evaluation 3
PRST 3210W Personnel Management and Leadership - Writing Intensive 3
PRST 3215 Program and Event Development 3
PRST 4208 Administration and Organizational Behavior 3
PRST 4100 Ethics and Diversity 3
PRST 4250 Parks, Health and Wellness Or PRST 4150 Current Issues in Sport 3

Professional Emphasis Requirements (minimum grade of C- in emphasis courses) 12
Students completing the degree without a designated emphasis area will take 12 credits of PRST courses to fulfill the professional emphasis requirements

Internship (minimum grade of C- in internship courses) 13
PRST 3189 Pre-Internship and Career Development Seminar 1

Total Credits: 120-122

PRST 4940 Parks, Recreation, Sport and Tourism Internship 12

Professional Option Electives 15
Advisor-approved courses specific to the student's selected academic option. At least 6 credits must be from PRST curriculum. These professional electives can be used towards a second professional emphasis.

General Education Courses 21-22
General Electives 2-3

Semester Plan
Below is a sample plan of study, semester by semester. A student's actual plan may vary based on course choices where options are available.

First Year
Fall CR Spring CR
ENGLISH 1000 3 MATH 1100 3
COMMUN 1200 or AG_ED_LD 3 ECONOM 1014 or ABM 1041 3
PRST 1010 3 PRST 3100 or RU_SOC 1000 3
PRST 1011 1 Humanities & Fine Arts 3
HUMANITIES & FINE ARTS 3 Missouri State Law Requirement 3
BIOL 1000 3 Biological, Physical, or Mathematical Science 3

Second Year
Fall CR Spring CR
PSYCH 1000 3 ACCTCY 2010, 2026, 2036, or 2136H 3
STAT 1200, 2500, or ESC_PS 4170 3 MRKTNG 3000, ABM 2183, or ABM 3224 3
PRST 2281 3 PRST 2750 3
Communication Elective 3 Professional Elective 3
Biological or Physical Science 3-4 Emphasis-Area Course with Lab 3

Third Year
Fall CR Spring CR
PRST 4100 3 PRST 3215 4
H_D_FS 2400W or 2400W 3 PRST 4150 or Parks, Health and Wellness Course 3
Emphasis-Area Course 3-4 Emphasis-Area Course 3
Emphasis-Area Course 3
PRST 4100 3 General Elective 3
PRST 4150 or Parks, Health and Wellness Course 3 General Elective 3

Fourth Year
Fall CR Spring CR
PRST 4208 3 PRST 4940 12
PRST 4210W 3 PRST 4100 3
PRST 3189 1 Professional Elective 3
Emphasis-Area Course 3
PRST 4150 or Parks, Health and Wellness Course 3 General Elective 3

Total Credits: 120-122
BS in Parks, Recreation and Sport with Emphasis in Natural Resource Recreation Management

Degree Program Description

The public’s desire for quality of life, the pursuit of happiness and for well organized leisure activities drives a $600 billion marketplace supporting parks and recreation, more than $152 billion in sport management, and a $1.3 trillion investment in tourism. Students interested in Parks Recreation and Sport are individuals who are active, involved in sports and the great outdoors, and enjoy travel. The BS in Parks, Recreation & Sport with an emphasis in Natural Resource Recreation Management focuses on the combination of natural and social sciences, and the management of people and natural resources in parks, forests, refuges, and reservoirs. Areas of study include outdoor recreation, methods of interpretation, and land management. Professionals in natural resource recreation management hold integral roles in operations, visitor management, protection and administration of our federal, state, and local outdoor recreation resources. Outdoor and natural resource recreation managers are employed by local, state, and federal agencies such as state and federal park systems. Responsibilities include managing natural and cultural resources, providing information and education, park operations, planning and design, and outdoor programming. Possible careers include ranger, education/outreach, naturalist, outdoor skills specialist, landscape maintenance, program supervisor, and grants/contract administrator.

Major Program Requirements

Students must complete all university, college, and degree requirements (p. 111), including university general education (p. 31), in addition to the requirements below:

BS in Parks, Recreation and Sport with Emphasis in Recreation Administration

Degree Program Description

The public’s desire for quality of life, the pursuit of happiness and for well organized leisure activities drives a $600 billion marketplace supporting parks and recreation, more than $152 billion in sport management, and a $1.3 trillion investment in tourism. Students interested in Parks, Recreation and Sport are individuals who are active, involved in sports, the great outdoors, and enjoy travel. The BS in Parks, Recreation & Sport with emphasis in Recreation Administration focuses on quality of life issues within our local and global communities. Areas of study include personnel management and leadership, recreation for individuals with disabilities, program development, and park management. Recreation administrators are engaged in a variety of public and private entities including parks and recreation systems, sports complexes, golf courses, resorts, recreation centers, aquatic theme parks and pools, and campus recreation facilities. They are responsible for management and operations, including fiscal responsibility. Careers include aquatics and facility manager, recreation specialists, camp management, adventure recreation, campus recreation, community and recreation complex manager, and golf course superintendent.
### Major Program Requirements

Students must complete all university, college and degree requirements (p. 111), including university general education (p. 31), in addition to the requirements below:

### BS in Parks, Recreation and Sport with Emphasis in Sport Management

#### Degree Program Description

The public’s desire for quality of life, the pursuit of happiness and for well organized leisure activities drives a $600 billion marketplace supporting parks, recreation, more than $152 billion in sport management, and a $1.3 trillion investment in tourism. Students interested in Parks Recreation and Sport are individuals who are active, involved in sports, the great outdoors, and enjoy travel. The BS in Parks, Recreation & Sport with an emphasis in Sport Management specializes in the business aspects of sport and recreation. Areas of study include governance and policy in sport and leisure, sport economics and finance, business of sport, and legal aspects of sport. In Sport Management, economics drive a wide variety of opportunities including professional and collegiate sport, professional management, sporting goods, media, administration and finance. Sport managers are hired by professional sport team's organizations and associations as well as collegiate athletics, sport facilities, in addition to positions in sporting goods, media, administration, and finance. Possible careers include sport brand manager, marketing manager, athletic director, sport agent, media relations director, and ticket sales representative. This emphasis is preparatory for post-baccalaureate and graduate work in law, business, or sport.

#### Major Program Requirements

Students must complete all university, college and degree requirements (p. 30), including university general education (p. 31), in addition to the requirements below:

### BS in Parks, Recreation and Sport with Emphasis in Tourism Development

#### Degree Program Description

The public’s desire for quality of life, the pursuit of happiness, and for well organized leisure activities drives a $600 billion marketplace supporting parks and recreation, more than $152 billion in sport management, and a $1.3 trillion investment in tourism. Students interested in Parks, Recreation and Sport are individuals who are active, involved in sports, the great outdoors, and enjoy travel. The BS in Parks, Recreation & Sport with emphasis in Tourism Development offers students 12-week hands-on training in the area of interest. Students gain experience through coursework and internships. Tourism development, marketing and event specialists grow in careers associated with tourism venues and enterprises; resorts; local, state and regional economic development agencies; and visitor and convention services. They are responsible for promoting their clients throughout the broadly defined tourism industry. This includes organizing promotional and profitable events for venues and communities, developing public relations materials or establishing relationships with various local interest groups.

#### Major Program Requirements

Students must complete all university, college and degree requirements (p. 111), including university general education (p. 31), in addition to the requirements below:

**Foundations of Tourism**

### Plant Sciences

#### Division of Plant Sciences

College of Agriculture, Food and Natural Resources

52 Agriculture Laboratory

(573) 882-3001

Fax: (573) 882-2699

**Division Director:** James English
The Division of Plant Sciences is a consolidation of the disciplines of Agronomy, Entomology, Horticulture, Plant Microbiology and Pathology. Containing both a vibrant and diversified undergraduate and graduate education program, students completing B.S., M.S. or Ph.D. programs are highly competitive for the strong job market in basic or applied careers. In addition to education, the Division of Plant Sciences also provides leadership for plant, insect and microbe-based research, education and Extension programs in the college.

The division is the sole academic program in the state to address issues related to plant production, plant protection and plant biology from the laboratory to the field. We intend to be at the national and international forefront of disciplinary and interdisciplinary research, Extension and education in applied and basic aspects of plant sciences.

Division faculty contribute to advances in conventional, sustainable and alternative production systems, plant biology, genetics and breeding, plant protection and pest management, plant-insect/pathogen interactions, and plant-soil relationships.

Graduate Faculty Member - membership is required to teach graduate-level courses, chair master's thesis committees, and serve on doctoral examination and dissertation committees.

Doctoral Faculty Member - membership is required to chair doctoral examination or dissertation committees. Graduate faculty membership is a prerequisite for Doctoral faculty membership.

Undergraduate

• BS in Plant Sciences (p. 117)
  • with emphasis in Breeding, Biology and Biotechnology (p. 118)
  • with emphasis in Crop Management (p. 118)
  • with emphasis in Horticultural Science and Design (p. 119)

• Minor in Plant Sciences (p. 120)

Director for Undergraduate Programs
Bruce Barrett
3-22i Agriculture Building
(573) 882-3446
Fax: (573) 882-1469
BarrettB@missouri.edu

The Plant Sciences undergraduate major is a joint contribution of the disciplines of Agronomy, Entomology, Horticulture and Plant Microbiology and Pathology. From the manipulation of genes to increasing crop productivity to improving the quality of life by enhancing the landscape, plant science students are engaged in the science and art of working with plants. Educational opportunities in plant science range from basic (genetics, biotechnology and physiology) to applied (crop production and protection, and landscape design).

The division offers the BS degree with a major in Plant Sciences. Students in plant science initially receive a broad education in agriculture, the basic sciences and business. Later, they elect to enroll in a specific emphasis area designed to empower them to be competitive in career opportunities in that area. The emphasis areas are a series of interwoven courses in:

• Crop Management
• Horticultural Science and Design
• Breeding, Biology and Biotechnology

Graduate

• MS in Plant, Insect and Microbial Sciences (p. 120)
• PhD in Plant, Insect and Microbial Sciences (p. 122)

Director of Graduate Studies: James Schoelz

The Division of Plant Sciences offers graduate programs leading to master of science and doctor of philosophy degrees in Plant, Insect and Microbial Sciences. A student can select training from a wide range of courses and research programs to prepare for a career in research, teaching, industry and extension work.

The Division of Plant Sciences maintains excellent graduate programs with classroom instruction and research supervision provided by leading scientists in the field. A student can select training in one of several Graduate Program Areas. Students can follow a traditional curriculum or...
Programmatic Interactions

Students also benefit from interaction with closely allied academic units on and off campus. Students work with scientists in two campus-based USDA research units associated with the division: the Plant Genetics Unit and the Biological Control of Insects Research Laboratory. Additional opportunities exist for interaction with scientists at the Donald Danforth Plant Science Center in St. Louis. Numerous USDA and Danforth Center scientists hold adjunct appointments in the DPS. Students in the DPS are encouraged to interact with interdisciplinary programs on campus such as the Interdisciplinary Plant Group, the Molecular Biology Program, the Genetics Area Program, the Center for Agroforestry and the Missouri Precision Agriculture Center.

Areas of Study

A student can select training from a wide range of courses and research programs to prepare for a career in research, teaching, industry and extension work. Students may complete their degree Graduate Program Areas:

- Crop, Soil and Pest Management
- Entomology
- Horticulture
- Plant Breeding, Genetics and Genomics
- Plant Stress Biology

BS in Plant Sciences

Degree Program Description

From the food on our plates to the homes we live in to the fuel in our vehicles, plants impact all aspects of our daily lives. As an ever-growing human population continues to increase the demand for crops and other plant products, so too does the demand for plant scientists. Plant Sciences addresses the challenges from the field to the laboratory. Students enroll in a generalized core curriculum, then further refine their expertise by choosing among a variety of emphasis areas including: Breeding, Biology & Biotechnology; Crop Management; and Horticultural Science and Design. A few of the plant sciences careers include crop management specialists, horticulturists, plant geneticists, biotechnologists, plant protection specialists, and turfgrass scientists.

Major Program Requirements

Students earning a Bachelor of Science in Plant Sciences are required to complete all University general education (p. 31), University undergraduate requirements (p. 30), degree, and major requirements, including selected foundational courses, which may fulfill some University general education requirements. Students earning a degree in Plant Sciences must also select one emphasis area.

For additional course options see General Education List at http://generaleducation.missouri.edu/Courses eligible must include an “HFA” in appropriate column.

Semester Plan

Below is a sample plan of study, semester by semester. A student’s actual plan may vary based on course choices where options are available.
BS in Plant Sciences with Emphasis in Breeding, Biology and Biotechnology

Degree Program Description

From the food on our plates to the homes we live in to the fuel in our vehicles, plants impact all aspects of our daily lives. As an ever-growing human population continues to increase the demand for crops and other plant products, so too does the demand for plant scientists. Plant Sciences addresses the challenges from the field to the laboratory. Students enroll in a generalized core curriculum, then further refine their expertise in the Breeding, Biology & Biotechnology emphasis area. Plants are an integral component of the food, fiber, and medicinal components necessary to meet current and future population demands. Manipulation of plants at the cellular level can improve yields, pest resistance, and enhance nutritional value. Students in this emphasis area will gain classroom and real world experience (research opportunities in labs; internships with industry partners) to prepare for challenging careers or advanced education. From commercial plant breeders to lab managers, trained students are in high demand for rewarding opportunities.

Major Program Requirements

Emphasis Area Requirements

Manipulation of plants at the cellular and genetic level can lead to improvements in crop performance and resistance to pests, as well as increase plant users. Job opportunities from the laboratory to the field are widespread in seed and chemical industries around the world.

Breeding, Biology and Biotechnology Emphasis Area Requirements

Degree Program Description

From the food on our plates to the homes we live in to the fuel in our vehicles, plants impact all aspects of our daily lives. As an ever-growing human population continues to increase the demand for crops and other plant products, so too does the demand for plant scientists. Plant Sciences addresses the challenges from the field to the laboratory. Students enroll in a generalized core curriculum, then further refine their expertise in the Crop Management emphasis area. Whether from a farm or urban background, developing technology in the husbandry and protection of agronomic or horticultural crops has created this productive career track. Students utilize a combination of classroom and outdoor experiences to prepare for one of many opportunities: crop consultant; agronomist; crop sales representative; pest management specialist; farmer or entrepreneur; and advanced education. Many positions are applied; the participation in crop growth and protection careers will be in demand well into the future. Crop management specialists find employment with universities, the USDA Agricultural Research Service or private companies. They answer agronomic questions specific to their region, study major field and forage crops, and examine the feasibility of growing alternative crops for niche markets.

Major Program Requirements

Emphasis Requirements

The management of food and fiber crops is key to meeting the global demands for food and energy. There are many opportunities to improve plant growth by manipulating production practices and improving control of disease, insect, and weed pests.

BS in Plant Sciences with Emphasis in Horticultural Science and Design

Degree Program Description

From the food on our plates to the homes we live in to the fuel in our vehicles, plants impact all aspects of our daily lives. As an ever-growing human population continues to increase the demand for crops and other plant products, so too does the demand for plant scientists. Plant Sciences addresses the challenges from the field to the laboratory. Students enroll in a generalized core curriculum, then further refine their expertise in the Horticultural Science and Design emphasis area. The beauty of attractive indoor plant displays or ornamental species in landscapes adds value and satisfaction. Appreciating the plants around us and designing new ways to present them can lead to careers in nursery management, landscape designer, zoo groundskeeper, or botanic gardener. Students in this area learn the basics in the classroom and advance their skills working locally (greenhouses, landscape firms) or abroad (Epcot Center, MO Botanical Gardens). Horticultrists use their knowledge of plant growth to sustainably produce flowers, vegetables and ornamental plants to enhance the environment. Careers include botanical gardens, commercial greenhouses and nurseries, landscape design firms, or life science companies.
Major Program Requirements

Emphasis Area Requirements

Trees, flowers and other ornamental plants add beauty to our landscape, preserve green space, and reduce the negative impacts of climate change. Other plants such as vegetables and fruits enhance human health. Career opportunities exist to design landscapes, improve the value and beauty of homes and businesses, as well as commercially grow horticultural crops in greenhouses and other settings.

Minor in Plant Sciences

A minor in Plant Sciences shall consist of a minimum of 15 hours of formal coursework in Plant Sciences (PS) designated courses. Of the 15 hours selected, a minimum of 12 hours must be numbered 2000 or above, of which at least 9 hours must be numbered 3000 or above.

Note: Problems courses, Readings courses, Internship courses and Undergraduate Research courses are not acceptable courses for the Plant Sciences minor, unless approved by the Director for Undergraduate Programs.

MS in Plant, Insect and Microbial Sciences

Degree Requirements

To satisfy the course requirements for a master’s degree, a student must complete:

- A minimum of 30 credit hours from courses numbered 7000 - 9000
- 15 credit hours (towards the 30 credit hour requirement) must be from courses numbered at the 8000 or 9000 level
- 12 credit hours (towards the 30 credit hour requirement) can be satisfied by research, readings and problems courses
- For the Horticulture Program Area, at least 6 credits must be from formal courses, excluding Problems and other independent study courses and only 6 credit hours of research (PLNT_S 8090) can count towards the 30 credit hour requirement, even though additional hours of research can be taken.

The division-wide course requirements for the master’s degree are:

<table>

</tr>
<tr>
<td>PLNT_S 7087</td>
<td>Seminar (Must enroll twice)</td>
<td>2</td>
</tr>
</tbody>
</table>
Teaching Requirement
With the exception of the Entomology Program Area, all students must participate in an approved teaching opportunity or an approved extension program.

Satisfactory Rate of Progress
A student shall maintain a minimum grade point average of 3.0. All divisional course requirements (and any additional requirements set by the student's examination committee) shall be completed in a timely manner. All advisors will meet annually with each of their graduate advisees. They will discuss the student’s performance, any problems that exist and any suggestions for improvement. The advisor will provide the student and the director of graduate studies with a written summary of the meeting as part of the annual program assessment process.

Sample Plan of Study
There are several areas of study within the MS in Plant, Insect and Microbial Sciences degree. A student can select training from a wide range of courses and research programs to prepare for a career in research, teaching, industry and extension work. Note: Areas of Study will not appear on transcripts or diplomas. Each program area emphasizes a customized approach towards the course of study. Each student will work with their advisor and graduate committee to develop a course of study best suited to the student's educational and career goals.

Thesis Requirements
A thesis is required for the M.S. degree in Plant, Insect and Microbial Sciences. The thesis must demonstrate the student's capacity for research and independent thought. Organization of the thesis is subject to approval of the Master's Committee.

The Thesis Defense will consist of a research seminar and final examination, the latter to demonstrate the student's mastery of the academic focus of the chosen Graduate Program Area. It is the student's responsibility to check the Graduate Studies Office's graduation deadlines when scheduling the exam. The candidate must be enrolled to defend the thesis. The examination cannot be administered when MU is not officially in session.

The seminar will be presented by the student for division faculty, staff, students, committee members, and other interested persons. It must summarize the thesis research conducted by the student during the Master's program. The seminar will be followed by the final, oral examination administered by the Master's Committee. Although the general protocol followed during the oral examination shall be at the discretion of the Major Advisor, a typical oral examination lasts about 2 hours and is divided between defense of the thesis and non-thesis subject matter. The research seminar should be scheduled the same day (preferably) or during the week preceding the remainder of the final examination.

Admission Contact Information
Ms. Christa Smith
52 Agriculture Lab; Columbia, MO 65211
(573) 882-3001

Applicants are required to meet two sets of minimum qualifications for admission: the requirements of the MS in Plant, Insect, and Microbial Sciences (https://gradstudies.missouri.edu/degreecategory/plant-insect-microbial-sciences) and the minimum requirements of the Office of Graduate Studies (https://gradstudies.missouri.edu/admissions/eligibility-process). Because requirements vary, you must refer to a degree program's graduate admission page to learn about specific admission criteria, application deadlines, eligibility and application process. Your application materials will be reviewed by both the Office of Graduate Studies and the degree program to which you've applied before official admission to the University of Missouri.

Financial Aid from the Program
Financial assistance is available to qualified students at both the MS and PhD levels, as either fellowships or research assistantships. Some programs require an extra form or statement from those who wish to be considered for internal assistantships, fellowships or other funding packages. Check the program website (http://plantsci.missouri.edu/graduate) or ask the program contact for details.

PhD in Plant, Insect and Microbial Sciences
Degree Requirements
To satisfy the course requirements for a doctoral degree, a student must complete:

- A minimum of 72 credit hours from courses numbered 7000-9000 (this includes dissertation research credit hours - i.e. PLNT_S 9090).
- 15 credit hours (towards the 72 hour requirement) must be from courses numbered at the 8000 or 9000 level, exclusive of dissertation research, problems or independent study.
- For the Horticulture Program Area, all Doctoral students will have successfully completed the requirements for a master's degree before beginning a doctoral program and no more than 30 hours of dissertation research may be counted towards the 72 hr minimum.
- Two semesters of PLNT_S 9087.
- Three semesters of PLNT_S 7087.

Teaching Requirement
With the exception of the Entomology Program Area, all students must participate in an approved teaching opportunity or an approved extension program.

Reasonable Rate of Progress
A reasonable rate of progress toward the degree is required. A Ph.D. student must successfully complete the comprehensive exam within 5 years of their first semester of enrollment as a Ph.D. student. In addition, the remaining program for the doctoral degree must be completed within 5 more years after passing the Comprehensive Exam.

Sample Plan of Study
There are several areas of study within the PhD in Plant, Insect and Microbial Sciences degree. A student can select training from a wide range of courses and research programs to prepare for a career in research, teaching, industry and extension work. Note: Areas of Study will not appear on transcripts or diplomas. Each program area emphasizes a customized approach towards the course of study. Each student will work with their advisor and graduate committee to develop a course of study best suited to the student's educational and career goals.

Crop, Soil and Pest Management
Core Requirements:
PLNT_S 8010 Professionalism and Ethics 2
PLNT_S 9087 Seminar in Plant Science (must enroll twice) 2
PLNT_S 7087  Seminar (must enroll three times)  3
PLNT_S 9090  Dissertation Research  1-10 per semester

**Entomology**

Core Requirements:

PLNT_S 7710  Systematic Entomology  5
PLNT_S 7820  Principles of Insect Physiology  4
PLNT_S 8010  Professionalism and Ethics  2
PLNT_S 9087  Seminar in Plant Science (must enroll twice. Only 1 credit will count towards the 15 credit hour at 8000/9000-level requirement.)  2
PLNT_S 7087  Seminar (must enroll three times)  3
PLNT_S 9090  Dissertation Research  1-10 per semester
PLNT_S 9810  Insect Ecology  3

Two elective formal Entomology courses

**Horticulture**

Core Requirements:

PLNT_S 8010  Professionalism and Ethics  2
PLNT_S 9087  Seminar in Plant Science (must enroll twice. Only 1 credit will count towards the 15 credit hour at 8000/9000-level requirement.)  2
PLNT_S 7087  Seminar (must enroll three times)  3
PLNT_S 9090  Dissertation Research  1-10 per semester

**Plant Breeding, Genetics, and Genomics**

Core Requirements:

PLNT_S 8010  Professionalism and Ethics  2
PLNT_S 9087  Seminar in Plant Science (must enroll twice. Only 1 credit will count towards the 15 credit hour at 8000/9000-level requirement.)  2
PLNT_S 7087  Seminar (must enroll three times)  3
PLNT_S 9090  Dissertation Research  1-10 per semester

Electives

Bridging Courses to Expand Your Background in Plant Biology

PLNT_S 7315  Crop Physiology  3
PLNT_S 7320  Molecular Plant Physiology  3
PLNT_S 7500  Biology and Pathogenesis of Plant-Associated Microbes  4 or 2
PLNT_S 7905  Introduction to Plant Stress Biology  2

Elective Courses to Fulfill the Requirement for 15 Credit Hours at 8000 or 9000 Level

AN_SCI 8430  Introduction to Bioinformatics Programming  4
BIO_SC 8300  Advanced Plant Genetics  3
BIO_SC 8310  Fungal Genetics and Biology  3
PLNT_S 8330  Molecular Breeding and Translational Genomics  3
PLNT_S 8362  Introduction to Plant Metabolism  2
PLNT_S 8365  Introduction to Molecular Cell Biology  2
PLNT_S 9415  Advanced Plant Physiology  3
PLNT_S 9440  Applied Quantitative and Statistical Genetics  3
PLNT_S 9540  Genetics of Plant-Microorganism Interaction  3
PLNT_S 9810  Insect Ecology  3

**Plant Stress Biology**

Core Requirements:

PLNT_S 7315  Crop Physiology  3
PLNT_S 7500  Biology and Pathogenesis of Plant-Associated Microbes  4 or 2
PLNT_S 8010  Professionalism and Ethics  2
PLNT_S 8530  Research with Plant Stress Agents  3
PLNT_S 9087  Seminar in Plant Science (Must enroll twice. Only 1 credit will count towards 15 credit hour 8000/9000-level requirement)  2
PLNT_S 7087  Seminar (must enroll three times)  3
PLNT_S 9690  Dissertation Research  1-10 per semester
PLNT_S 7965  Readings in Plant Stress Biology (must take one of two courses each year.)  1-9
or PLNT_S 7970  Readings in Molecular Ecology of Herbivory

Elective Courses:

AN_SCI 8430  Introduction to Bioinformatics Programming  4
BIO_SC 8300  Advanced Plant Genetics  3
BIOCHM 8434  Signaling in Molecular Cell Biology  3
INFOINST 8005  Applications of Bioinformatics Tools in Biomedical Research  3
BIO_SC 8310  Fungal Genetics and Biology  3
PLNT_S 8330  Molecular Breeding and Translational Genomics  3
PLNT_S 8362  Introduction to Plant Metabolism  2
PLNT_S 8365  Introduction to Molecular Cell Biology  2
PLNT_S 9415  Advanced Plant Physiology  1-3
PLNT_S 9440  Applied Quantitative and Statistical Genetics  3
PLNT_S 9540  Genetics of Plant-Microorganism Interaction  3
PLNT_S 9810  Insect Ecology  3

Additional Entry Level Courses:

PLNT_S 7550  Plant Biotechnology  4
PLNT_S 7400  Plant Anatomy  4
STAT 7070  Statistical Methods for Research  3

**Comprehensive Examination Process**

The Comprehensive Examination is a major milestone in the Ph.D. candidate’s progress towards completion of the degree requirements. The candidate is expected to clearly demonstrate his/her knowledge and understanding of the principles and concepts of the chosen Graduate Program Area, related biological sciences, and the scientific method. The Comprehensive Exam should be scheduled when the student has essentially completed the required plan of study. The Comprehensive Exam must be completed at least seven months before the final
examination (defense). The Comprehensive Exam Committee is the same as the Doctoral Committee.

The Comprehensive Exam requires both written and oral performance by the student to achieve candidacy. The student's advisor will select either Track I or Track II for the format of the exam. The student arranges the written and oral portion of the Comprehensive Exam with each member of the Committee.

**Dissertation Defense**

A dissertation is required of every Ph.D. Candidate in the Division of Plant Sciences. This is to be a substantial scholarly manuscript of original research conducted by the student. The dissertation should reflect the depth of understanding, independent thought, and original work worthy of a Ph.D.

The Dissertation Defense consists of a research seminar and final examination. It is the student's responsibility to check the Graduate School's graduation deadlines when scheduling the exam. The seminar will be presented by the student for division faculty, staff, students, committee members, and other interested persons. The student may choose to present the seminar as part of the Division Seminar Series. It must summarize the dissertation research conducted by the student during the Doctoral program. The seminar will be followed by the final, oral examination administered by the Doctoral Committee. Although the general protocol followed during the oral examination shall be at the discretion of the Major Advisor, a typical oral examination lasts about 2 hours and is divided between discussion of the dissertation and related, dissertation subject matter. The research seminar should be scheduled the same day (preferably) or during the week preceding the remainder of the final examination.

**Admissions**

Applicants are required to meet two sets of minimum qualifications for admission: the requirements of the PhD in Plant, Insect, and Microbial Sciences (https://gradstudies.missouri.edu/degreecategory/plant-insect-microbial-sciences) and the minimum requirements of the Office of Graduate Studies (https://gradstudies.missouri.edu/admissions/eligibility-process). Because requirements vary, you must refer to a degree program's graduate admission page to learn about specific admission criteria, application deadlines, eligibility and application process. Your application materials will be reviewed by both the Office of Graduate Studies and the degree program to which you've applied before official admission to the University of Missouri.

**Financial Aid from the Program**

Financial assistance is available to qualified students at both the MS and PhD levels, as either fellowships or research assistantships. Some programs require an extra form or statement from those who wish to be considered for internal assistantships, fellowships or other funding packages. Check the program website (http://plantsci.missouri.edu/graduate) or ask the program contact for details.

**Rural Sociology**

College of Agriculture, Food and Natural Resources
David O'Brien, Chair
109 Gentry Hall
(573) 882-0392
ObrienDj@missouri.edu
dass.missouri.edu/ruralsoc/
Carol Swaim, Administrative Assistant
121 Gentry Hall
(573) 882-7451
swaimc@missouri.edu

The Department of Rural Sociology participates in the Bachelor of Science in Agriculture degree offered by the College of Agriculture, Food and Natural Resources and offers a minor in rural sociology. For information about the agriculture degree, see the Agriculture degree page. The Department of Rural Sociology also offers graduate degrees.

**Faculty**

Associate Professor J. L. Gilles**
Assistant Professor M. Hendrickson**, H. Qin**
Teaching Assistant Professor (NTT) C. Brock*
Extension Assistant Professor J. Adams*
Associate Extension Professor S. Jeanetta**, M. S. Leuci*
Research Assistant Professor C. Fulcher*
Associate Professor Emeritus K. E. Pigg*
Professor Emeritus R. R. Campbell*, M. Grigsby**, M. F. Nolan*

* Graduate Faculty Member - membership is required to teach graduate-level courses, chair master's thesis committees, and serve on doctoral examination and dissertation committees.  
** Doctoral Faculty Member - membership is required to chair doctoral examination or dissertation committees. Graduate faculty membership is a prerequisite for Doctoral faculty membership.

**Undergraduate**

• Minor in Rural Sociology (p. 125)
  Advisor: Caroline Brock
  brockcc@missouri.edu
  Administrative Assistant: Carol Swaim

  http://dass.missouri.edu/ruralsoc/

**Graduate**

• MS in Rural Sociology (p. 125)

121 Gentry Hall
(573) 882-7451
http://dass.missouri.edu/ruralsoc/

**Director of Graduate Studies:** Jere Gilles

The Department of Rural Sociology offers the MS and PhD degrees. The program consists of broad training in sociological theory and methodology with attention to application and policy issues.

Students entering with a bachelor's degree normally are admitted into the master's program even if they are going on to a PhD. Exceptional students may be admitted to the Masters/PhD program. Up to 12 hours of makeup work may be required for students who have less than adequate undergraduate preparation in the social sciences.
Specializations
Areas of specialization in the department are: sustainable development, community facilitation, and analytical processes

Financial Aid from the Program
Request for financial support is made by the student at the time of application. Most of the financial support is for research assistantships. Some programs require an extra form or statement from those who wish to be considered for internal assistantships, fellowships or other funding packages. Check the program website or ask the program contact for details.

Minor in Rural Sociology
The rural sociology undergraduate minor requires 15 credits in rural sociology courses. Nine credits must be above the 2000 level. The specific combination of courses must be approved by a department advisor.

MS in Rural Sociology

Degree Requirements

Professional Master's Degree
The principal master's degree in rural sociology is the 39-credit-hour professional master's degree. The program is designed to prepare students for positions in the public and private sectors, and it is particularly useful for positions that include applied research, policy analysis or community development. Students who wish to complete a master's degree in rural sociology followed by a doctoral degree in the program also are encouraged to pursue the degree.

The professional master's degree has two options:

1. The community facilitation option for individuals interested in working for government, extension and non-governmental agencies in the field of community development
2. The analytical processes option for students wishing to do policy analysis for government agencies.

Students must have a grade point average of 3.0 or greater and must have completed at least 15 hours of coursework at or above the 8000 level. Both programs require an internship.

Traditional Master's Degree
A 30-credit-hour traditional master's degree, requiring a thesis, is also offered. The degree primarily is intended for those who intend to pursue doctoral studies or who have a special reason for wanting a thesis degree. Although it requires fewer credit hours, a thesis degree normally requires one semester longer to complete than the professional master's degree.

**Thesis/Non-Thesis Requirements**

**Non-Thesis Requirements**

The Professional Master of Science degree does not require a thesis. Instead students are required to complete an internship.

**Thesis Requirements**

Students pursuing the Traditional Master of Science degree must complete a thesis. The thesis take approximately 1-3 semesters to complete.

**Admissions**

Admission Contact: Carol Swaim  
Department of Rural Sociology  
121 Gentry Hall; Columbia, MO 65211  
573-882-7451

Applicants are required to meet two sets of minimum qualifications for admission: the requirements of the MS in Rural Sociology program and the minimum requirements of the Office of Graduate Studies. Because requirements vary, you must refer to a degree program's graduate admission page to learn about specific admission criteria, application deadlines, eligibility and application process. Your application materials will be reviewed by both the Office of Graduate Studies and the degree program to which you've applied before official admission to the University of Missouri.

**PhD in Rural Sociology**

**Degree Requirements**

The PhD is a 72 credit hour minimum with no more than 6 hours of readings or problems courses, and a maximum of 12 dissertation research hours toward the 72 hour requirement. Coursework taken toward a master's degree in the social sciences may count toward these requirements. A student must complete thirty hours of coursework beyond the master's degree.

**Areas of Professional Expertise**

In addition to the required core, every PhD student will be required to complete an “area” of concentration comprised of a minimum of 12 credits (in the case of a minor or certificate requiring less than 12 hours, a student must complete an additional 3 hours of coursework related to this area of concentration).

Students should select from the following options:

1. An existing Graduate Certificate Program
2. An existing Graduate Minor in a substantive Area
3. Development of an individualized “Area of Concentration”.

**Sample Plan of Study**

| RU_SOC 9480 | Community Survey Research | 3 |
| SOCIOl 9487 | Seminar in Sociological Theory II | 3 |

**Area of Professional Expertise**

12 minimum

**Qualifying Process**

To qualify for continuation in the Ph.D. program students must complete two full enrollment semesters at the start of their program in which they take core sequence courses and make a B or above in all courses taken. (The qualifying requirement must be met. In some cases waivers may be given within one year of enrollment in the Ph.D. program.)

**Comprehensive Examination Process**

To be an official candidate for a doctoral degree the student must have passed a comprehensive examination for admission to doctoral study. This is the major examination in the doctoral training program, and must be passed BEFORE FORMAL WORK ON THE DISSERTATION IS BEGUN. It is administered by the Doctoral Program Committee.

Successful completion of a comprehensive examination must occur within five years of beginning the doctoral program. A student is ready to take the comprehensive examination when he/she has:

- Completed all of the courses listed in his/her Plan of Study with satisfactory grades.
- If they entered the program with a Masters degree that did not require a thesis, they must have written and submitted a paper for review in a scholarly journal. A copy of the paper as well as information as to where it was submitted must be in a student’s file.
- Submitted and received approval from their advisory committee for their dissertation research proposal.
- Submitted an approved copy of the dissertation proposal to be kept in the student’s departmental file until the dissertation is actually completed.

The comprehensive examination consists of both a written and an oral examination.

- These are designed and administered by the advisory committee of the Ph.D. student.
- The comprehensive examination is designed to evaluate a student’s preparedness to proceed with the dissertation.
- Students are normally given two opportunities to pass this examination.
- A copy of the completed comprehensive examination will be filed with the director of graduate studies and kept in the departmental student record.

**Written Comprehensive:** The written portion of the examination will evaluate competency in theory and methods in the student’s specialty area, as well as their readiness to conduct their dissertation research. After the advisory committee indicates that a student has passed the
written portion of the comprehensive examination, the oral examination will be given.

**Oral Comprehensive:** The oral portion of the examination will address issues raised on the written examination and in the student’s dissertation plans. This exam is open to faculty and students; the location and time must be publicly announced a minimum of two weeks before the examination takes place. The public part of the examination will be limited to the presentation of the student’s research proposal followed by questions about the proposal. Following the public oral examination the student’s advisory committee will complete the examination in private.

**Dissertation Requirements**

Successful completion of a dissertation or a research monograph, according to the regulations of the Office of Graduate Studies is required.

- The dissertation must be completed within five years of the completion of the comprehensive examination.
- All members of the committee are expected to take an active part in the preparation of the dissertation.
- The student’s committee is to conduct an oral final examination (“defense”) of the dissertation/monograph.
- This examination cannot be scheduled until the advisory committee members have received a completed draft copy of the dissertation.
- This examination is to be open to faculty and students and must be publicly announced at least two weeks before the exam. Candidates should provide the Rural Sociology Department Office with an announcement including (a) the title of the dissertation, (b) the date and location of the orals, and (c) the advisor’s name.
- Faculty and students may attend orals and question candidates, but cannot be present when the vote on the result of the examination is taken.
- At least four committee members must vote to pass a dissertation in order for the degree to be completed.
- The candidate must be enrolled to defend their dissertation.
- The defense must be scheduled when MU is officially in session.
- The Report of the Dissertation Defense form (D-4) and the Approval Page, which must be signed by all members of the approved committee, should be sent to the Office of Graduate Studies after the defense has been completed and must include an electronic copy as specified by the Office of Graduate Studies.

**Admissions**

Admission Contact: Carol Swaim
121 Gentry Hall; Columbia, MO 65211
(573) 882-7451

Applicants are required to meet two sets of minimum qualifications for admission: the requirements of the PhD in Rural Sociology program (https://gradstudies.missouri.edu/degreecategory/rural-sociology) and the minimum requirements of the Graduate School (http://gradschool.missouri.edu/admissions/eligibility-process/minimum-requirements.php). Because requirements vary, you must refer to a degree program’s graduate admission page to learn about specific admission criteria, application deadlines, eligibility and application process. Before official admission to the University of Missouri, your application materials will be reviewed by both the Graduate School and the degree program to which you’ve applied.

**Additional Minors and Certificates - CAFNR**

**Undergraduate Certificates**

- Certificate in Precision Agriculture Technology (p. 127)

**Undergraduate Minors**

- Minor in Agricultural Economics (p. 128)
- Minor in Agricultural Leadership (p. 128)
- Minor in Captive Wild Animal Management (p. 128)
- Minor in Forestry (p. 128)
- Minor in International Agriculture, Food & Natural Resources (p. 129)
- Minor in Science and Agricultural Communications (p. 129)
- Minor in Sustainable Agriculture (p. 130)

**Graduate Certificates**

- Certificate in Agroforestry (p. 130)
- Certificate in Food Safety and Defense (p. 130)
- Certificate in Precision Agriculture Technology (p. 131)

**Certificate in Precision Agriculture Technology**

The Precision Agriculture Technology certificate provides students with the knowledge and skills to address a growing industry need in the technology of precision agriculture. The certificate program will prepare and/or enhance students’ knowledge of the industry thru two key areas:

1. Coursework and intensive on-site labs that focus on precision agriculture technologies utilized by professionals in the field of precision agriculture.
2. Beneficial supporting courses including statistical analysis courses, Plant Science courses, Communications courses, and Agricultural Economics courses.

Students interested in this certificate should complete the online CAFNR form located on the CAFNR website (https://cafnr.missouri.edu/current-students/forms-requirements). The certificate is composed of 12 credit hours consisting of the following 4 required courses:

**Required Courses**

**Minor in Agricultural Economics**

A minor in agricultural economics requires 18 credits in agricultural economics with at least 9 credits at the 3000 level or above. A student earning an agribusiness management major is not eligible for an agricultural economics minor.

**Minor in Agricultural Leadership**

The minor in Agricultural Leadership is for students interested in enhancing their public speaking, analytical reasoning, critical thinking, effective writing and teamwork skills. A student must complete 15 credits of coursework related to leadership and personal development from the list of approved courses. The coordinator of the minor must approve courses not on the list. With appropriate approval, an internship with a focus upon providing the student practical experiences in leadership and supervisory roles can be counted toward the 15 credit requirement.

Students interested in this minor should complete the online form located on the CAFNR website (https://cafnr.missouri.edu/current-students/forms-requirements).

**Minor in Captive Wild Animal Management**

Students majoring in Animal Sciences can obtain a minor in captive wild animal management by taking courses in Animal Sciences, Natural Resources, and Fisheries and Wildlife that focus on captive wild animals.

Students interested in this minor should complete the online form located on the CAFNR website (https://cafnr.missouri.edu/current-students/forms-requirements).

Minor in International Agriculture, Food & Natural Resources

The world is becoming increasingly complex and integrated in nearly every category of human endeavor. An understanding of how global markets, natural resources, food production, and international trade and cooperation are affected by societies, languages, cultures, and governments is an essential component of a well-rounded 21st century education in AFNR. To facilitate these studies, the multidisciplinary International AFNR Minor offers academic recognition for achieving a level of expertise in coursework of international focus.

Coursework

- Fifteen credit hours, selected from the course list below, are required for the minor.
- At least 9 of the 15 hours must be approved CAFNR courses at the 3000 or 4000 level.
- There is flexibility in choice of the remaining 6 credit hours.
  - These can be (1) approved CAFNR elective courses, including study abroad, and (2) other MU courses of international focus, including foreign language, as approved by the International Education Committee.
  - Questions should be directed to the Office of Academic Programs (cathradvising@missouri.edu).
  - Students interested in this minor should complete the online form located on the CAFNR website (https://cafnr.missouri.edu/current-students/forms-requirements).

Although the focus of this minor is not to add foreign language skills, students are strongly encouraged to invest in language to make themselves more competent in the international arena, to gain a competitive advantage for employment, and to advance their careers overall.

Choose at least 15 hours from the following:

- **ABM 3271** International Agricultural Development 3
- **ABM 3272** International Food Trade and Policy 3
- **ABM 3150** International Agribusiness 3
- **ABM 3230** Agricultural and Rural Economic Policy 3
- **AFNR 2190** International Agriculture and Natural Resources 3
- **AFNR 2191** International Agriculture and Natural Resources - Humanities 1-6
- **AFNR 2192** International Agriculture/Natural Resources-Social Science 1-6
- **AN_SCI 2110** Global Animal Agriculture 2
- **ATM_SC 3600** Climates of the World 3
- **F_S 2195** Grapes and Wines of the World 3
- **F_S 3190** Study Abroad: International Meat, Dairy and Enology - Honors 3
  
  or **F_S 3190H** Study Abroad: International Meat, Dairy and Enology - Honors 3

**FOREST 4330** Practice of Silviculture 4
**FOREST 4360** Photogrammetry, Inventory and Models 3
**FOREST 4390** Watershed Management and Water Quality 3
**FOREST 4350** Forest Economics 3

**FOREST 4385** Agroforestry I: Theory, Practice and Adoption 3
**HSP_MGMT 4200** Destination Management 3
**PRST 2082** Domestic and International Sports Environment 1
**RU_SOC 3235** Global Perspectives and Realities 3
**SOIL 4320** Genesis of Soil Landscapes 4

Minor in Science and Agricultural Communications

The Minor in Science and Agricultural Communications will equip students with the knowledge and skills necessary to advocate, publicize, and promote agricultural and natural resources organizations, as well as communicate scientific findings to lay audiences. The interdisciplinary curriculum features foundational courses in verbal communication and writing for the media, while providing students the ability to specialize based on their career interests. This minor will benefit students seeking agricultural and science communication careers, as well as provide a complement of communication and interpersonal skills for future bench scientists.

Students interested in this minor should complete the online CAFNR minor form located at cafnr.missouri.edu.

**Requirements**

Students must complete a total of 16 credit hours to receive the minor.
- Seven hours of required coursework
- Nine additional hours of approved coursework
- At least six credit hours must be at the 3000 level or above
- The coordinator must approve courses not listed.

**Required Courses**

- **SCI_AG_J 1160** Introduction to Science and Agricultural Communication 3
- **AG_ED_LD 2220** Verbal Communication in Agriculture, Food and Natural Resources 3
- **AG_ED_LD 3085** Problems in Agricultural Education and Leadership 1
- or **SCI_AG_J 3385** Problems in Science and Agricultural Journalism 3

**Additional Courses**

- **ABM 2223** Agricultural Sales 3
- **ABM 3224W** New Products Marketing - Writing Intensive 3
- **ATM_SC 4110** Broadcast Meteorology I 2
- **COMMUN 2100** Media Communication in Society 3
- **COMMUN 3310** Message Design and Writing for the Media 3
- **COMMUN 3390** Digital Production I 3
- **COMMUN 3395** Digital Production II 3
- **COMMUN 3460** Organizational Advocacy 3
- **ENGLISH 2030** Professional Writing 3
- **ENGLISH 2040** Intermediate Composition 3
- **SCI_AG_J 2210** Communicating Science to the Public 3
- **SCI_AG_J 3210W** Fundamentals of Communications - Writing Intensive 3
- **SCI_AG_J 3240** Communicating on the Web 3
Minor in Sustainable Agriculture

The minor in sustainable agriculture is for students interested in exploring agriculture and food systems that promote prof-ability, steward our natural resources, and provide enhanced quality of life for farmers, citizens and communities. A student must complete 15 credits of coursework that introduces concepts of sustainable agriculture, provides practical information on natural resources and food production, and investigates the impact of different philosophical and scientific frameworks on food and agriculture.

Students interested in this minor should complete the online form on the CAFNR website (https://cafnr.missouri.edu/current-students/forms-requirements).

Graduate Certificate in Agroforestry

Agroforestry is intensive land-use management combining trees and/or shrubs with crops and/or livestock. It also is new market opportunities. Sustainable agriculture. Land stewardship. Habitat for wildlife. Improved water quality. Diversified farm income.

This 12-hour online graduate certificate, from the Center for Agroforestry at the University of Missouri, provides students with agroforestry fundamentals as well as theoretical foundations in both the biophysical and socioeconomic components of agroforestry.

Designed for individuals with years of experience in agroforestry but lacking a formal credential, it is a perfect fit for those interested in or involved with the Peace Corps, or possessing a bachelor's degree in a related area but no formal training in agroforestry.

Holders of this certificate generally work as professional and consulting foresters, certified crop or horticulture advisors, extension agents, international development experts, soil and plant scientists, forestry and conservation science teachers and educators, and as forestry or soil and water conservation agents.

This online graduate certificate program is unique and fills a void worldwide. To the best of our knowledge, there are no similar programs in agroforestry elsewhere in the United States or abroad.

Graduate Certificate in Food Safety and Defense

By providing a distance education Food Safety and Defense Graduate Certificate program, we will serve the needs of industry and agencies that must protect the human food supply from accidental or deliberate contamination with pathogenic microbes and/or toxicants. In an era of terrorism and global food systems, effective control of foodborne hazards requires advanced education. There is a need for online education for food industry personnel who, while working full time, would like to pursue more in-depth specialized training in food safety and defense that is pertinent to their job.

Kansas State University, Iowa State University, University of Nebraska-Lincoln and the University of Missouri, Columbia have developed pertinent food safety and defense distance education courses and have established a multi-state agricultural consortium to develop and deliver high-priority collaborative distance education programs in the food and agricultural sciences.
Food Safety and Defense Graduate Certificate Learning Outcomes

1. Synthesize a current and multi-faceted picture of key food safety and security issues.
2. Apply, in real-world situations, the scientific principles of microbial and chemical risk assessment and analysis related to food safety and defense issues.
3. Analyze and apply the concepts of HACCP (Hazard Analysis and Critical Control Point) programs, as well as other safety and defense approaches, in the management of food safety and defense in food systems.
4. Evaluate food safety and defense issues in the food industry using the perspectives of sound science, critical thinking and ethical reasoning.

Food Safety and Defense Certificate Requirements

The online certificate program includes a minimum of 12 credits, 8-9 credits in core courses and at least 3 elective credits, on topics including food microbiology, foodborne toxicants, HACCP, food safety and security overview, food laws, risk assessment, food biotechnology, rapid food microbiological methods, and food fermentations, with each participating university offering at least one course on a regular basis, and each university cross-listing all courses.

Students must meet admissions requirements as outlined for this program: http://online.missouri.edu/degreeprograms/cafnr/food-safety-defense/grad-cert/admissions.aspx#howtoapply or equivalent degree at their respective universities. A tuition disbursement framework as in operation for the Great Plains Interactive Distance Education Alliance (IDEA) consortium will be used. Certificate enrollments of 20-25 students per year are anticipated, with time to completion of 2-3 years (1-2 courses per semester). See the Great Plains IDEA (http://www.gpidea.org) for further information.

Admission standards and prerequisites for the certificate program.

Successful applicants must be a graduate of an accredited institution and must rank in the upper quartile (3.0 grade point average) of their class to gain admission. Undergraduate preparation should include emphasis in chemistry and biology or food science.

Course Requirements

Courses required for the Food Safety and Defense Graduate Certificate belong to Kansas State University, Iowa State University, University of Nebraska and the University of Missouri. For more information refer to the Food Safety and Defense Graduate Certificate website: https://online.missouri.edu/degreeprograms/cafnr/food-safety-defense/grad-cert/admissions.aspx

For additional information contact:
- Azlin Mustapha, Ph.D., Professor and Director of Graduate & Certificate Programs
  - E-mail: MustaphaA@missouri.edu
  - Telephone: 573-882-2649

Graduate Certificate in Precision Agriculture Technology

The Graduate Certificate in Precision Agriculture Technology will provide students with the knowledge and skills to address a growing industry need in the technology of production agriculture. For students to be awarded a Graduate Certificate in Precision Agriculture Technology they will need to complete 12 credit hours.

Undergraduate

Students planning to enter the schools of Journalism, Law, Medicine or Veterinary Medicine often spend their first two or four years in the College of Arts and Science in preparation for professional training. Most students, realizing the increased necessity for a broad background in the liberal arts for all professions, earn an undergraduate degree in the college before enrolling in the schools of Law or Medicine. Preprofessional study for veterinary medicine may be completed either in the College of Agriculture, Food and Natural Resources or in the College of Arts and Science.

Undergraduate

- College of Arts and Science Requirements (p. 132)
- Credit Restrictions (p. 132)
- Departmental Examinations (p. 133)
- Maximum Credits Enrolled (p. 133)

• Enrolling at Other Institutions (p. 133)
• Graduation with Latin Honors (p. 133)
• Probation and Dismissal (p. 133)
• Degree Requirements (p. 134)
• Major Program Requirements (p. 136)
• Requirements for Optional Minor (p. 136)
• Requirements for Optional Certificate (p. 136)
• Internships (p. 136)
• Dual Degrees (p. 136)
• Second Degrees (p. 136)
• Double Majors (p. 136)
• Graduate Dual Enrollment (p. 136)
• Advising (p. 137)
• Career Placement (p. 137)
• Air Force Reserve Officer Training Corps (AFROTC) (p. 137)
• Army Reserve Officer Training Corps (AROTC) (p. 137)
**Maximum Credit Policies**

- With the exception of MATH 1100, MATH 1120 (or equivalent), ENGLISH 1000 (or equivalent), and the elementary sequence in a foreign language, the maximum number of credits from a single department that may apply toward graduation is 40 for the BA and the BGS, 70 for the BFA, and 90 for the BM.
- A maximum of 5 credits for BIO_SC 2060 (or BIO_SC 3100) and BIO_SC 3650 may apply toward graduation.
- A maximum of 5 credits for MATH 1100, MATH 1120, MATH 1140, MATH 1160 and MATH 1180 may apply toward graduation.
- A maximum of 5 credits for MATH 1320, MATH 1400 and MATH 1500 may apply toward graduation.
- A maximum of 10 credits for introductory chemistry, which includes CHEM 1310 (or CHEM 1100), CHEM 1320, CHEM 1330 and CHEM 1500H, may apply toward graduation.
- A maximum of 1 credit for ABM 3285 may apply toward graduation.
- For non-music majors, a maximum of 6 credits for music ensemble courses, which include MUS_ENS 1841, MUS_ENS 1842, MUS_ENS 1846, MUS_ENS 1865 and MUS_ENS 2843, may apply toward graduation.
- For non-music majors, a maximum of 12 credits for applied music courses, which include MUS_APMS 1435, MUSIC_NM 1445, MUSIC_NM 2445, MUSIC_NM 2445, MUS_APMS 3455, MUS_APMS 3970, MUSIC_NM 4445 and MUSIC_NM 4445, may apply toward graduation.
- For non-art majors, a maximum of 12 credits for studio art courses may apply toward graduation. For Interdisciplinary Studies majors with no emphasis area, the maximum is 18 credits, and for General Studies majors, the maximum is 21 credits.
- A maximum of 2 credits for physical education activity courses may apply toward graduation.

**Departmental Examinations**

A student who wishes to take a departmental examination must take it before enrolling in a college class in the same subject. Applications normally are made to the departments indicated; however, during the summer preregistration period, some examinations can be taken at the MU Testing Service Office without formal application to the respective departments. In addition, the examinations administered by Testing Services may be taken any time during the academic year.

Students may not earn credit for introductory foreign language courses in their native language.

- **Chemistry**: Apply to the Department of Chemistry, 125 Chemistry Building, for an examination to earn credits in chemistry.
- **Latin**: Apply to the Department of Classical Studies, 405 Strickland Hall.
- **Mathematics**: To earn 3 credits in College Algebra, students may take the proctored ALEKS Exam through the Office of Testing Services. (mathplacement.missouri.edu)
- **Political Science**: Contact the group testing program in the Testing Services Office for information on the 3-credit group test.
- **Statistics**: Apply to the Department of Statistics, 146 Middlebush Hall, for an examination to earn 3 credits for STAT 1300 Elementary Statistics.

**Maximum Credits Enrolled**

With the consent of the dean, students with superior scholastic records may be allowed to register for more than 18 credits during a fall or spring semester. During the summer sessions, a student may not ordinarily be enrolled for more than 9 credits during the two four-week sessions combined and/or the eight-week session.

**Enrolling at Other Institutions**

Students within the College of Arts & Science are allowed to enroll in another institution, while being simultaneously enrolled at MU. Students are strongly encouraged to speak with an advisor to verify course transfer credit, degree applicability and other academic ramifications. Students, however, bear the ultimate responsibility for checking course equivalencies and requesting official transcripts be sent to the MU Office of Admissions (230 Jesse Hall). Similarly, A&S students who are likely to qualify for Latin honors are advised not to risk their eligibility for this distinction because of simultaneous enrollment at another institution (see information on Latin honors). Students who receive financial aid are advised to check with a financial aid officer to learn the implications, if any, of simultaneous enrollment in a non-MU course.

**Graduation with Latin Honors**

Regulations of the college regarding the awarding of Latin honors require that 54 of the final 60 credits are completed in MU course work for a letter grade (A-F). Awarding of Latin honors is based on the cumulative GPA. The local chapter of Phi Beta Kappa requires completion of a minimum of 60 credits of course work on the MU campus, usually during the last two years of study. Exceptions to this latter expectation may be made for students who study abroad in an approved program during their final semesters of study.

**Probation and Dismissal**

**Academic (Scholastic) Standing**

In addition to University requirements defined in the Academic Standing (p. 771) section of this catalog and in the Faculty Handbook (http://facultycouncil.missouri.edu/handbook/article-8.html), academic status of Arts and Science students is determined in accordance with the following faculty guidelines. In addition to semester-based courses, self-paced, intersession, summer and extension coursework also has a bearing on academic status.

- **Students on scholastic probation** have two semesters, (as long as each semester GPA is no lower than 1.0), in which to attain good academic standing (2.0 minimum term and cumulative GPA) or be subject to dismissal.
- **A student on probation** may not be allowed to participate in a study abroad program or internship opportunities.
• In the application of these rules, the dean will determine how an incomplete grade in a course will be considered in determining a student’s academic standing.
• The dean may, in extenuating circumstances, waive any of the foregoing regulations governing eligibility to re-enroll for an individual student.

Degree Requirements

Arts and Science Foundation Requirements

The purpose of the Arts and Science Foundation Requirements is to assure that students fulfill the common educational objectives of the College of Arts and Science. Courses satisfying these requirements impart specialized knowledge and help students fulfill the broader objectives of a liberal education. Thus, these courses help students develop the following abilities:
• To communicate clearly and effectively in both writing and speech
• To generate and test hypotheses
• To locate and develop information needed to solve problems
• To think critically and use analytic skills effectively
• To examine their lives critically and objectively
• To enrich their lives through appreciation of present and past cultural achievements

Foundation requirements include three categories:

• **Basic Skills** requirements ensure competency in composition and communication, mathematics and analytic reasoning, awareness of American history and government, and where applicable, foreign language.
• **Breadth of Study** requirements are met by completing course work from a wide array of disciplines to ensure that graduates are broadly educated.
• **Depth of Study** requirements are met by completing advanced course work that allows for fuller understanding of a discipline than can be gained in introductory course work alone.

All students must complete all Arts and Science Foundation Requirements in order to earn a degree, regardless of prior baccalaureate degrees earned. Course work will be evaluated on a course-by-course basis. For students who earn an Associates of Arts degree from a Regionally accredited Missouri institution all Breadth of Education requirements will be considered to be met. Students will be required to complete at least one Depth of Education class with MU course work. In all cases, completion of the basic English and Mathematics requirements will be evaluated on a course-by-course basis.

**Basic Skills**

MATH 1100, MATH 1160, Math 1050, MATH 1120, STAT 1200 or transferable equivalent with grade of C- or higher
• Required for BA, BFA, BGS, BM and BS degrees.
• Majors will require specific course(s) to meet this requirement.

ENGLISH 1000 or transferable equivalent with grade of C- or higher
• Required for BA, BFA, BGS, BM and BS degrees.
• May also apply toward other degree program requirements.

**Must be chosen from the list of MRP courses designated each semester in the online Schedule of Courses.**
• Not required for First Time College Students Summer 2019 or after.

One course in American government or history (per university General Education Requirement)
• Required for BA, BFA, BGS, BM and BS degrees.
• May also apply as a social science toward the behavioral and social science requirement.
• Should be chosen from the list of MU courses approved to meet Arts and Science Foundation Requirements.

**Foreign Language**

• Each student is required to attain the degree of proficiency equivalent to the completion of at least 12 hours of college-level work in a single foreign language. All MU foreign language departments require a grade in the C range or higher in level I or a language and level II of a language as prerequisites for level II and III, respectively.
• Alternative for selected BS degrees: 12 credits numbered 2000 or above in an area approved by the major department substituted with the concurrence of the dean’s office.
• The foreign language requirements can be waived if a student has completed four units of a single foreign language in high school. If a student chooses to meet the requirement by using high school units, any college credit for that same introductory language will not count towards graduation hours (i.e., a student who has completed 4 units of high school Spanish and has credit for SPAN 1100 will not have the SPAN 1100 count towards graduation hours). If a student wants to have the introductory college credit count towards graduation, the student must complete the language sequence.
• International students whose native language is other than English are exempt from the foreign language requirements but may not receive credit for basic skills courses in their native languages. Others with native competence in one or more foreign language offered by MU may have a foreign language requirement waived by passing an exam given by a faculty member who is fluent in the language. The faculty member need not be a member of the MU faculty, but must be approved by the dean’s office. The exam tests the student’s ability to read, write, and speak the language at the level broadly described as “intermediate.” Results of the examination are forwarded to the dean’s office for evaluation. Students in this situation do not receive advanced-standing credit for their foreign language knowledge.

**Breadth of Study**

Breadth of Study requirements include course work distributed among the following categories: biological, physical and mathematical sciences; behavioral and social sciences; humanities and fine arts.

1. **Biological, physical and mathematical sciences**
9 credits required for BA, BFA, BGS, BM and BS degrees.
• Must include course work from at least two of three areas.
• Must include at least one biological or physical science laboratory course.

2. **Behavioral and social sciences**
9 credits required for BA, BFA, BGS, BM and BS degrees (except for the BS degree with majors in Biological Sciences and Psychology).
• Must include course work from both the behavioral and social sciences.
• 14-15 credits required for all BA degrees and the BS degree with majors in Biological Sciences and Psychology.
  • Must include 5-6 credits of behavioral science.
  • Must include 9 credits of social science, including course work from at least two different areas.

3. **Humanities and fine arts**
9 credits required for the BFA, BGS, BM and BS degrees (except for the BS degree with majors in Biological Sciences and Psychology).
  • Must include course work from at least two different areas.
  • 12 credits required for the BA degree, and the BS degree with majors in Biological Sciences and Psychology.
  • Must include course work from at least three different areas.

4. **Additional breadth requirement for the BGS degree**
3 credits from course work chosen from any of the following four categories: biological, physical and mathematical sciences; behavioral sciences; social sciences; humanities and fine arts.

**Parameters for meeting Breadth of Study requirements:**
• Courses from the major department may not be used for breadth requirements in the BA, BFA and BS.
• Courses from the major department may be used for breadth requirements in the BM.
• Students earning degrees in special degree programs (where the courses in the major represent multiple departments) may use courses from their major departments to meet breadth requirements, but not the specific courses used in the major.
• Courses from outside the major department but required for the major may not be used to meet breadth requirements in the BFA or BA with a major in Art.
• Only one non-Arts and Science course may be used in each of the four categories: biological, physical and mathematical sciences; behavioral sciences; social sciences; humanities and fine arts.
• Courses must be chosen from the Distribution of Content List on the web site of the General Education Program. ([http://generaleducation.missouri.edu/requirements/distribution.php](http://generaleducation.missouri.edu/requirements/distribution.php))
• Courses used to meet breadth requirements may also be used to meet depth requirements (see below).
• Problems, research, readings, and internship courses may not be used for breadth requirements.

**Depth of Study**
Depth of Study requirements include at least 6 hours of course work numbered 2000 or above, distributed as follows:

**BFA in Art**
• 6 credits required (minimum of 2 courses).
• Must include course work from at least two of the following four breadth categories: biological, physical, mathematical sciences; behavioral sciences; social sciences; humanities and fine arts.

**BGS in General Studies, all BA degrees, and BS with majors in Biological Sciences and Psychology**
• 9 credits required (minimum of 3 courses).
• Must include course work from at least two of the following four breadth categories: biological, physical and mathematical sciences; behavioral sciences; social sciences; humanities and fine arts.

**BS with majors in Chemistry, Geological Science, Mathematics, Physics and Statistics**
• 6 credits required (minimum of 2 courses).
• Must include course work from at least two of the following three breadth categories: behavioral sciences; social sciences; humanities and fine arts.

**BS with a major in Economics**
• 6 credits required (minimum of 2 courses).
• Must include course work from at least two of the following four breadth categories: biological, physical and mathematical sciences; behavioral sciences; social sciences; humanities and fine arts.

**BS with a major in Philosophy**
• 6 credits required (minimum of 2 courses).
• Must include course work from at least two of the following three breadth categories: biological, physical and mathematical sciences; behavioral sciences; social sciences.

**BM with a major in Music**
• 6 credits required (minimum of 2 courses).
• Must include course work from at least one of the following three breadth categories: biological, physical and mathematical sciences; behavioral sciences; social sciences.
• 3 credit hours in Music (see below).

**Parameters for Meeting Depth of Study Requirements**
• All courses must be numbered 2000 or above.
• At least 3 credits must be completed with MU course work.
• A student who elects 1-credit topics courses must complete a minimum of three courses in that breadth category as partial fulfillment of the depth of study requirement.
• Courses from the major department may not be used, except for the BM with a major in Music.
• Students earning degrees in special degree programs (where the courses in the major represent multiple departments) may use courses from their major departments to meet depth requirements, but not the specific courses used in the major.
• Courses from outside the major department, but required for the major, may not be used to meet depth requirements in the BFA or BA with a major in Art, the BA or BS with a major in Biology, or the BA with a major in Chemistry, Geological Science, Mathematics, Physics, or Statistics.
• Three hours (one course) of non-Arts and Science coursework may be used towards partial fulfillment of the depth of study requirement.
• Courses must be chosen from the Distribution of Content List ([http://generaleducation.missouri.edu/requirements/distribution.php](http://generaleducation.missouri.edu/requirements/distribution.php)) on the website of the General Education Program.
• Courses used to meet depth requirements may also be used to meet breadth requirements.
• Problems, research, readings, and internship courses may not be used.

**Major Program Requirements**

A major consists of at least 21 credits, including at least 15 credits in courses numbered 2000 or above, 12 of which must be taken in MU course work. See detailed departmental information for additional requirements for specific majors.

All Arts and Science majors require an MU Writing Intensive course numbered 3000 or above and an MU capstone course with grades of C- or higher. In addition, some majors require course work outside the major department.

Each student must declare and receive official approval for a major by submitting a graduation plan no later than the semester after completion of 60 credits. The purpose of the graduation plan is to acquaint students with all requirements that must be met prior to graduation and to plan for the timely completion of these requirements. Departments and programs approve the graduation plan only when the student has met the following criteria:

• Completion of ENGLSH 1000 and MATH 1100 or MATH 1120 (or their equivalents) with grades of C- or higher
• Completion of any additional departmental requirements

**Requirements for an Optional Minor**

A minor consists of at least 15 credits, including at least 6 credits numbered 2000 or above, within a department or program that offers a minor; 9 of the required credits must be taken in MU course work. This requirement can be reduced from 9 to 6 at the discretion of an individual department. See detailed departmental information for additional requirements for specific minors. Courses outside the major department but required for the major may be used towards a minor. In addition, courses required in the minor may be used to meet Foundation requirements.

The College of Arts and Science awards minors only to undergraduate students who are simultaneous recipients of bachelor’s degrees. Students may not earn a major and a minor in the same field.

**Requirements for an Optional Certificate**

A certificate consists of at least 12 credits which must be taken in MU course work. See detailed information for additional requirements for specific certificates. Courses required for the certificate may be used to meet major, optional minor or Foundation requirements.

The College of Arts and Science awards certificates only to undergraduate students who are simultaneous recipients of bachelor’s degrees. Student may not earn a certificate and a minor in the same field.

**Internships**

In order to participate in an internship, a student must be in good academic standing (not on probation) and have completed at least one semester of college coursework after graduation from high school.

**Dual Degrees**

In order to receive two bachelor’s degrees, a student must complete a minimum of 132 credits and complete all of the specific requirements for both degrees. Normally, a minimum of one additional semester is required to earn both degrees. Each candidate for a dual degree is assigned advisors as appropriate.

The College of Arts and Science maintains dual-degree programs with the schools of Law, Medicine and Veterinary Medicine. To enroll in these programs, the student must have completed all of the specific course requirements for the bachelor’s degree prior to admission to the professional school and also must have completed the junior year in residence in the College of Arts and Science. Under certain circumstances, Arts and Science undergraduates may be assured admission to MU’s schools of Law or Medicine.

**Second Degrees**

The faculty of the college has approved the following guidelines for students wishing to obtain a second undergraduate degree after completion of a bachelor’s degree, in addition to any university requirements that may apply:

• A student must complete any college, general education or department requirements that are unique to the new degree program. Requirements that are in effect at the time a student begins work toward the second degree are applicable.
• Students applying for second-degree status will be considered only if they have completed (with grades C- or higher) ENGLISH 1000 and MATH 1100 or MATH 1120 (or equivalents) and have final term and cumulative GPAs no less than 2.0.
• The student must submit a graduation plan in consultation with an advisor in an appropriate department or program before the dean’s office will approve a request from the student to enroll as a candidate for a second degree.
• With the exception of Interdisciplinary Studies majors with an emphasis in Black Studies, Peace Studies, or Women’s and Gender Studies, the college does not approve applications for a second undergraduate degree in General Studies or Interdisciplinary Studies.
• A student who has earned a degree in Interdisciplinary Studies (excluding those with emphasis areas in Black Studies, Environmental Studies, Peace Studies, and Women’s and Gender Studies) or General Studies may not pursue a second degree in a field that was used as a component of the first degree.
• Once enrolled for a second degree, a student is committed to enrolling in course work required for completion of that degree. A student will not be allowed to continue as a candidate for a second undergraduate degree if not enrolled in courses required for the second bachelor’s degree.

**Double Majors**

A number of Arts and Science students choose to complete multiple majors while earning one degree. The requirements of each major, along with requirements for the degree, must be completed. Often, this does not result in the addition of hours to the degree program.

**Graduate Dual Enrollment**

A final-semester senior may dually enroll in the College of Arts and Science and the Office of Graduate Studies with permission of the deans.
of both divisions. This enables the student to complete some graduate course work prior to receiving the bachelor’s degree.

The student must be within 15 credits of completion of the bachelor’s degree and must rank in the upper half of the class.

Application forms for dual enrollment in these two schools may be obtained from the Office of Graduate Studies in 210 Jesse Hall.

Advising

Students who have declared a major are assigned an advisor in that department. Students who have not yet decided on a major are assigned to a professional advisor in the Student Success Center.

Career Placement

Employment opportunities in the various disciplines of the liberal arts vary greatly. Most departments in the college have printed information available describing employment opportunities. The MU Career Center in the Student Success Center offers students a variety of career planning services.

Air Force Reserve Officer Training Corps (AFROTC)

The AFROTC provides the opportunity to become a United States Air Force officer while completing a college degree. The program combines traditional undergraduate education with military instruction in preparation for Air Force leadership challenges. Each semester academic AFROTC classes will build a foundation for application to a two-hour Leadership Lab. Scholarships are available. Visit www.afrotc.com (http://www.afrotc.com) for the most current information. After graduating from college and successfully completing all AFROTC requirements, cadets receive a commission as as second lieutenant with an obligation of four years of service in the active duty Air Force. Pilots incur a ten-year commitment from the date of graduation from pilot training. A few additional career fields require a six or eight year commitment.

MU also offers a Minor in Aerospace Studies (p. 334).

For additional information contact:

Department of Aerospace Studies
217 Crowder Hall
(573) 882-7621
airforce.missouri.edu

Army Reserve Officer Training Corps (AROTC)

Army ROTC is a college elective program that teaches the skills needed to succeed in the Army or the corporate world. Students combine classroom time with hands-on experience and learn leadership and management skills. The experience of Army ROTC provides the confidence needed to excel in college and beyond. The Army ROTC program can be completed through a two- to four-year program designed to develop young men and women into junior commissioned officers in the Active Army, Army Reserve, or Army National Guard. In addition to traditional combat roles, Army officers serve in such professional fields as aviation, medical service, finance, personnel management, communications and engineering. MU also offers a Minor in Military Science (p. 341).

For additional information contact:

Department of Military Science and Leadership
202 Crowder Hall
(573)-882-7721
http://armyrotc.missouri.edu/

Graduate

College of Arts & Science
107 Lowry Hall
(573) 882-6411
http://coas.missouri.edu/

The College of Arts and Science is home to a broad spectrum of disciplines that prepare graduate students for challenging and rewarding careers. Our faculty mentors are known for both research and teaching excellence and many have received national acclaim for discoveries, disciplinary leadership, creative works and music or theater performance.

The School of Music (p. 244), housed within the College, offers masters degrees, a doctoral degrees and a graduate certificate in jazz studies. Music education degrees are offered in conjunction with the College of Education, Department of Learning, Teaching and Curriculum.

Note: Prospective graduate students must apply to both the degree program of interest and to the Office of Graduate Studies. In most cases, the entire application process may be completed online. Find admission and application details by selecting the degree program of interest in the left navigation column.

Ancient Mediterranean Studies

Anatole Mori, Department Chair
College of Arts and Science
112B Swallow Hall
(573) 882-0679

The Department of Ancient Mediterranean Studies offers courses in the life, languages, cultures, and thought of the ancient Greeks and Romans.

The department offers a BA degree with a major in Ancient Mediterranean Studies and emphasis areas in Classical Humanities, Greek, Latin, and Classical Languages; MA degrees in Classical Languages and PhD degrees in Classical Studies. A minor in Ancient Mediterranean Studies is also available.

Faculty

Professor S. Gurd**, D. Trout**
Associate Professor R. D. Marks**, A. Mori**, D. J. Schenker**
Assistant Professor S. Yona*
Assistant Teaching Professor John McDonald*
Professor Emeritus D. M. Hooley**, C. Saylor*

* Graduate Faculty Member - membership is required to teach graduate-level courses, chair master's thesis committees, and serve on doctoral examination and dissertation committees.

** Doctoral Faculty Member - membership is required to chair doctoral examination or dissertation committees. Graduate faculty membership is a prerequisite for Doctoral faculty membership.
Undergraduate

- BA in Ancient Mediterranean Studies (p. 138)
  - with emphasis in Classical Humanities (p. 138)
  - with emphasis in Classical Languages (p. 139)
  - with emphasis in Greek (p. 139)
  - with emphasis in Latin (p. 140)
- Minor in Ancient Mediterranean Studies (p. 140)

Major with Honors

The undergraduate program can also include 3-6 credits in an honors thesis course (CL_HUM 4970H or CLASS 4970H). These credits, in addition to major requirements and a 3.5 GPA in all Classics courses (as well as a 3.3 overall GPA), lead to a BA degree with a major in Classics with Honors.

Double Majors

A double major is a good way of integrating two related areas of interest, such as Classics, Archaeology, English and Philosophy. Students looking forward to a career in medicine or the sciences may use a double major (Classics and Biology or Chemistry, for instance) to ensure a thorough background in the humanities to balance their scientific studies. Usually minor or related field requirements for each major are satisfied by major courses in the other department. Consult with departmental advisors about specifics.

Graduate

- MA in Ancient Mediterranean Studies (p. 140)
- PhD in Ancient Mediterranean Studies (p. 141)

Director of Graduate Studies:
Raymond Marks
222 Swallow Hall
(573) 882-0679
MarksR@missouri.edu (marksr@missouri.edu)

The Department of Ancient Mediterranean Studies offers graduate work leading to the degrees of Master of Arts and Doctor of Philosophy. The graduate faculty encourages applications from talented and committed students, whose undergraduate careers have given them an appreciation of the rich, many-faceted nature of classical studies and an interest in discovering a place of their own in it. Solid experience in Latin and Greek is of course desirable, but Missouri’s MA program is specifically designed for students whose study in one or both of the languages may have come late and who need help getting up to speed rapidly.

Career Preparation

Graduate programs in Ancient Mediterranean Studies are designed to prepare students for professional careers as teachers and scholars of classical literature and ancient civilization. Besides acquiring expertise in the traditional classical disciplines, students are encouraged to become familiar with other areas, such as later literatures and cultures, on which the classical tradition has exercised a decided effect.

Facilities and Resources

Because MU is a contributing member of the American Academy in Rome and the American School of Classical Studies in Athens, the facilities of those organizations are available to graduate students from Missouri. Study in Athens or Rome is often feasible after the completion of a master’s degree. On campus, students have at their disposal the resources of Ellis Library, which are excellent in the major fields of Greek and Latin languages and literatures, and in ancillary fields. This collection is supplemented by the department’s Walter Miller Collection. The Museum of Art and Archaeology contains many items of interest to classicists.

BA in Ancient Mediterranean Studies

Degree Program Description

The Classics major is a broad study of literature, covering a deep knowledge of the elements of language, grammar, and syntax, writing and reading skills, vocabulary building and experience with the foundational texts of the Western literary tradition that have influenced most all of subsequent literary and philosophical thought. The degree has four emphasis areas for students interested in the mythology, literature, history, and culture of ancient Greece and Rome. Three of these emphasis areas — Latin, Greek, and Classical Languages — focus on learning the ancient languages and introduce students to advanced readings in ancient Greek and Latin texts. A fourth emphasis area, Classical Humanities, is available to those students who would like to study the Greek and Latin Classics in translation. In the course of their degree, all classics majors achieve an integrated knowledge of the primary political, social, and military events and developments in the ancient Greek and Roman world. Students completing these majors will be well prepared for a variety of careers and for further study in graduate or other professional schools.

Major Program Requirements

BA major requirements are specified in the four major emphasis areas: Latin, Greek, Classical Languages, and Classical Humanities. These must be met in addition to college (p. 132) and university requirements (p. 30), including University general education (p. 31).

Semester Plan

A sample plan of study has not been designed for this major. Students should contact the academic department for assistance with academic planning.

BA in Ancient Mediterranean Studies with Emphasis in Classical Humanities

Degree Program Description

The Ancient Mediterranean Studies major is a broad study of literature, covering a deep knowledge of the elements of language, grammar, and syntax, writing and reading skills, vocabulary building and experience with the foundational texts. The emphasis in Classical Humanities consists of a structured sequence of classes, all using texts in English translation, that guides students through a broad introduction to Classical literature and culture (e.g., Classical Mythology, Greek Culture, and Roman Culture) into more specialized study of some of the most important literary works and cultural traditions of the western world. The Classical Humanities emphasis area offers a thorough course of study to any student broadly interested in ancient culture as well as a sound pre-professional education. Students completing the major will be well
prepared for a variety of careers and for further study in graduate or other professional schools.

**Major Program Requirements**

Below are the degree requirements. These must be met in addition to college (p. 132) and university requirements (p. 30), including University general education (p. 31).

- **CL HUM Courses at the 1000-2000 levels** 6-9
- **CL HUM Courses at the 3000-level or above** 15-18

(Latin or Greek language courses numbered 4300 or above can be used to replace up to two required Classical Humanities courses.)

**Semester Plan**

Please note that this is only one of many possible routes to a major and that one may concentrate in Latin, or Greek, Classical Languages, or Classical Humanities. For guidance on how to approach other major concentrations, please see the Director for Undergraduate Studies in the Department of Ancient Mediterranean Studies.

Total Credits: 121

**BA in Ancient Mediterranean Studies with Emphasis in Classical Languages**

**Degree Program Description**

The Classics major (within the Department of Ancient Mediterranean Studies) is a broad study of literature, covering a deep knowledge of the elements of language, grammar, and syntax, writing and reading skills, vocabulary building and experience with the foundational texts. Students pursuing Classics with an emphasis in Classical Languages will have a combination of Latin and Greek courses. Students master the grammar, syntax, and vocabulary of the Greek and/or Latin languages, for reading and writing; the distinguishing characteristics of the various styles of the poets and prose writers active during various literary periods; and the fundamental structural elements common to all languages. In addition, students learn to read and translate central Greek and Latin texts, and to identify the resources that will help them read other texts. Students completing the major will be well prepared for a variety of careers and for further study in graduate or other professional schools.

**Major Program Requirements**

Below are the degree requirements. These must be met in addition to college (p. 132) and university requirements (p. 30), including University general education (p. 31).

- **GREEK 1100** Elementary Ancient Greek I 13
- & GREEK 1200 and Elementary Ancient Greek II & GREEK 2000 and Greek Reading
  - or GREEK 1100H Elementary Ancient Greek I - Honors
  - & GREEK 1200H and Elementary Ancient Greek II - Honors
  - & GREEK 2000H and Greek Reading - Honors
  - or LATIN 1100 Elementary Latin I
  - & LATIN 1200 and Elementary Latin II
  - & LATIN 2000 and Latin Reading
  - or LATIN 1100H Honors Elementary Latin
  - & LATIN 1200H and Honors Elementary Latin II
  - & LATIN 2000H and Latin Reading - Honors

(may be used to help satisfy the foreign language requirement in the College of Arts and Science)

- **GREEK 4300** Intermediate Readings 3
- **LATIN 4300** Latin Poetry 3
- or **LATIN 4350** Latin Prose

4000-level course in Greek or Latin 3

| CL HUM courses at the 2000-level or higher | 9 |

BA in Ancient Mediterranean Studies with Emphasis in Latin

Degree Program Description

The Classics major (within the Department of Ancient Mediterranean Studies) is a broad study of literature, covering a deep knowledge of the elements of language, grammar, and syntax, writing and reading skills, vocabulary building and experience with the foundational texts. Students pursuing Classics with an emphasis in Latin will have coursework that is Latin centered. Students master the grammar, syntax, and vocabulary of the Greek and/or Latin languages, for reading and writing; the distinguishing characteristics of the various styles of the poets and prose writers active during various literary periods; and the fundamental structural elements common to all languages. In addition students learn to read and translate central Greek and Latin texts, and to identify the resources that will help them read other texts. Students completing the major will be well prepared for a variety of careers and for further study in graduate or other professional schools.

Major Program Requirements

Below are the degree requirements. These must be met in addition to college (p. 132) and university requirements (p. 30), including University general education (p. 31).

LATIN 1100 Elementary Latin I 13
& LATIN 1200 and Elementary Latin II
& LATIN 2000 and Latin Reading
or LATIN 1100H Honors Elementary Latin
& LATIN 1200H and Honors Elementary Latin II
& LATIN 2000H and Latin Reading - Honors

(may be used to help satisfy the foreign language requirement in the College of Arts and Science)

LATIN 4300 Latin Poetry 3
LATIN 4350-level or above 9
CL HUM courses at the 2000-level or above 9

Semester Plan

A sample plan of study has not been designed for this major. Students should contact the academic department for assistance with academic planning.

Minor in Ancient Mediterranean Studies

Minor requires 15 credit hours

1000 through 2000-level 3-6
3000 through 4000-level 9-12
(3 credits in Greek or Latin language at the 4300-level or above may substitute for equivalent credits)

Total Credits 15

MA in Ancient Mediterranean Studies

Admission Contact Information

Raymond Marks
222 Swallow Hall, Columbia, MO 65211
(573) 882-0679
MarksR@missouri.edu

Admission Criteria

Fall deadline: April 1st
NOTE: Deadline for teaching assistantship applicants: January 15th
Spring deadline: November 1st (Departmental support not typically available)

• Minimum GPA: 3.0 during last 2 years
• Bachelor of arts degree from an accredited college or university
• Reading knowledge of Greek and/or Latin
• GPA of at least 3.0 in Greek and/or Latin courses
• Minimum GRE score: no minimum
• Minimum TOEFL scores
Internet-based test (iBT)  
61 Effective July 1, 2015 must have score of 80

Paper-based test (PBT)  
500 Effective July 1, 2015 must have score of 550

### Required Application Materials

*To the Office of Graduate Studies*

- 3 letters of recommendation
- Statement of interest
- 10-20 pp. writing sample
- Transcripts
- GRE scores

Application materials that cannot be submitted directly to the Office of Graduate Studies may be sent to the Classical Studies program.

### Financial Aid from the Program

Some programs require an extra form or statement from those who wish to be considered for internal assistantships, fellowships or other funding packages. Check the program website or ask the program contact for details.

### Plan of Study

The minimum course of study is 30 semester hours. Of these, at least 12 hours in Greek, Latin, classics and related fields must be at the 8000/9000 level or above, and at least six hours must be in courses in other departments. At least 21 of the 30 hours must be completed in Greek, Latin or classics in the department. AMS 7000 is required of all students during their first year of graduate study. Students who wish to have a minor may take 10-12 hours in another department or complete an ancient studies minor.

### Languages

Some command of German and French (or Italian) is helpful from the outset, and MA candidates are required to have demonstrated proficiency in one of the languages by the time that they begin their second year of graduate study. Degree candidates take MA language tests (Latin and/or Greek) in the 2nd or 3rd year of graduate studies.

### Written Works and Oral Examination

A final oral examination is given by a faculty committee selected by the student in consultation with the advisor. This examination will include defense of either the thesis or a compiled portfolio of seminar papers. If the former option is elected, the thesis will account for six credit hours.

### PhD in Ancient Mediterranean Studies

#### Admission Contact Information

Raymond Marks  
222 Swallow Hall, Columbia, MO 65211  
(573) 882-0679  
MarksR@missouri.edu

#### Admission Criteria

Fall deadline: April 1st  
**NOTE:** Deadline for teaching assistantship applicants: January 15th

### Spring deadline: November 1st (Departmental support not typically available)

- MA with a major in Greek, Latin or classics, or the equivalent of a minimum of 21 hours of graduate work in the language(s). Reading knowledge of Greek and Latin and a reading knowledge of German and French (or Italian)
- Minimum GRE score: no minimum
- Minimum TOEFL scores:
  - Internet-based test (iBT)  
  61
  - Paper-based test (PBT)  
  500

#### Required Application Materials

*To the Office of Graduate Studies*

- 3 letters of recommendation
- Statement of interest
- 10-20 pp. writing sample
- Transcripts
- GRE scores

Application materials that cannot be submitted directly to the Office of Graduate Studies may be sent to the Classical Studies program.

### Financial Aid from the Program

Some programs require an extra form or statement from those who wish to be considered for internal assistantships, fellowships or other funding packages. Check the program website or ask the program contact for details.

### Language Requirements

Proficiency in one of the modern foreign languages (i.e., French, German, or Italian) must be demonstrated by the time of registration for the second year of graduate study; proficiency in the second language must be demonstrated by the time of registration for the third year.

### Plan of Study

A minimum of 72 hours of graduate credit is required for the PhD degree. A maximum of 30 hours of this total may consist of hours transferred from the MA degree. At least 21 additional hours must be taken in the department at the graduate level. A minimum of eight hours of dissertation credit is required. At least two courses in related ancient fields, one of which must be in ancient history or classical archaeology, must be taken at the graduate level. Proficiency in Greek and Latin composition must be demonstrated at some point by course work or examination.

### Minors and Areas of Concentration

All candidates must include in their plan of study a minor or area of concentration consisting of at least 12 hours at the graduate level outside the department. Suggested areas include ancient history, classical archaeology, the classical tradition, late antiquity, the oral tradition, rhetoric, or romance languages. A structured minor in ancient studies also is available.

### Examinations

All candidates are required to complete two four-hour qualifying examinations, one in Greek and one in Latin.
Comprehensive: Written

After completing residency, language, and course requirements, PhD candidates must pass the comprehensive examination consisting of four written examinations in the following fields: Greek literature, Latin literature, special author or topic, and area of concentration or minor field. With the approval of the advisor and the candidate’s committee, extra course work beyond the required 12 hours may be substituted for the written examination in the area of concentration or minor field. Ancient Studies minors are automatically excused from the examination in the minor field.

Comprehensive: Oral

The oral comprehensive examination is taken only after the candidate successfully passes the written examinations.

Dissertation

Within one month of completion of both written and oral comprehensive exams, or at the beginning of the Fall term if the exams are taken in May, the candidate must meet with the doctoral program committee to obtain formal approval of the dissertation topic. Continuous enrollment must be maintained while the candidate completes the dissertation. At least eight hours of dissertation credit are required. A final oral defense of the dissertation is held upon completion of the dissertation.

Anthropology

Lisa Sattenspiel, Chair
Department of Anthropology
College of Arts & Science

Mailing Address:
112 Swallow Hall
Columbia, MO 65211
(573) 882-4731
muasanthropology@missouri.edu
http://anthropology.missouri.edu

Welcome to the Department of Anthropology at the University of Missouri! Our University is the oldest public land grant institution west of the Mississippi, a member of the AAU and the highest category of research universities. We are a small department with an emphasis on scientific approaches to the study of human biology, behavior, culture, and evolution. Our faculty contribute to research on indigenous peoples of the Amazon, prehistoric populations of the US Southwest, the spread of infectious diseases in human groups, human skeletal variation in the past and present, the evolution of cooperation, the genetics of nonhuman primates, and many other topics. MU students study the whole of humanity: its history, variability, artifacts, customs, beliefs and value systems which produces sophisticated problem solvers for today’s complex and conflict-prone world.

Faculty

Professor: L. Sattenspiel (https://anthropology.missouri.edu/?q=people/sattenspiel)**

Assistant Professor:
Visiting Assistant Professor: M. Stanton

Note: All permanent regular faculty members in the department serve as undergraduate mentors for anthropology majors.

- Graduate Faculty Member - membership is required to teach graduate-level courses, chair master's thesis committees, and serve on doctoral examination and dissertation committees.
- Doctoral Faculty Member - membership is required to chair doctoral examination or dissertation committees. Graduate faculty membership is a prerequisite for Doctoral faculty membership.

Undergraduate

- BA in Anthropology (p. 144)
- Minor in Anthropology (p. 146)

Advising Contact - TBA

Director of Undergraduate Studies: Dr. Greg Blomquist (https://anthropology.missouri.edu/people/blomquist) - blomquistG@missouri.edu

The University of Missouri Department of Anthropology offers a BA in Anthropology. Students may also earn Departmental Honors, as outlined in the next section.

Within this program, a student may select a subfield of focus (Note: Subfields will not show on transcripts or diplomas):

- Archaeology (https://anthropology.missouri.edu/?q=research/archaeology)
- Biological anthropology (https://anthropology.missouri.edu/?q=research/biological)
- Cultural anthropology (https://anthropology.missouri.edu/?q=research/cultural-anthropology)
- Some combination of the above, or
- An interdisciplinary focus combining anthropology with some other area(s).

An undergraduate major in anthropology provides a broad educational base that can be the core of a liberal arts education or the background for specific vocational or professional goals of a student. Anthropology is of particular value to students planning professional careers in a world of cultural and ethnic diversity. Anthropology majors are required to take core courses in all three focal areas of the discipline, but may emphasize one or more of them in their remaining courses. Students may also develop an interdisciplinary program in cooperation with other departments or schools. In addition, the department offers an anthropology minor to students who are majoring in other departments and who will profit by more formal training in the discipline.

The Anthropology Department provides many opportunities for students to become involved in research and encourages all students to do so. Such experiences help a student develop creativity, critical thinking skills, and skills in problem solving and writing. Students who are interested in doing anthropological research have several options, including working in close conjunction with a faculty member or working on an independent project under faculty supervision. An independent research experience may lead to an honors degree for eligible students. See BA in Anthropology (p. 144) for more information on this option.
Undergraduate training in anthropology prepares students for work in government agencies (both in the United States and overseas), museum positions, field positions in, for example, archaeology, ethnography, or human paleontology, and for graduate study leading toward college or university teaching of anthropology. An anthropology degree also provides good background for careers in business, journalism, health care, law, and many other fields.

The Department of Anthropology has a number of special facilities that are available for use in classes, for individual research opportunities, and in some cases, for the general public to visit. The list is included below. Students interested in additional information are encouraged to consult the following web site: https://anthropology.missouri.edu/links. (http://web.coas.missouri.edu/~anthro/?q=node/107)

These special facilities include:
- The Museum of Anthropology (https://anthromuseum.missouri.edu) & Museum Support Center
- The Archaeology Laboratory
- The Skeletal Laboratory
- The Fossil Cast Collection
- MURR (http://www.murr.missouri.edu) (University of Missouri Research Reactor)

Goals of the Anthropology Curriculum

Students completing an anthropology degree are awarded a BA degree with a major in Anthropology or a BA degree with Honors in Anthropology. The undergraduate program is designed to help students develop an appreciation of other cultures and other world views and to gain an understanding of how and why the diversity in human culture and biology came about. Several goals help faculty teach undergraduates about the nature of the discipline and how to think critically about what it is, what it means and how it is useful in today’s society. These goals include:

- To recognize the broad, cross-cultural generalizations that characterize anthropology
- To recognize the value of a cross-cultural, comparative perspective
- To acquire an understanding of the basic concepts in the subfields of anthropology
- To acquire advanced knowledge in one or more of the subfields
- To acquire an awareness of the interrelationship of the subfields
- To think critically about the nature and content of anthropological questions
- To assess the structure of an argument and evaluate it and its supporting information
- To communicate effectively in writing or through oral presentation
- To strive for innovative and creative thinking
- To think independently both within and outside anthropology

Students are also encouraged to acquire experience in research design and methods (e.g., using the library and internet effectively to gather information on a problem, or understanding and using the methods of one or more subfields). To this end, the department provides abundant opportunities for students to work with faculty members on independent research projects.

GPA Requirements

The College of Arts and Science requires that students attain a minimum GPA of 2.0 in all courses in their major department.

In addition, all core courses in anthropology (ANTHRO 2020 or ANTHRO 2021/ANTHRO 2022, ANTHRO 2030, ANTHRO 2050 or ANTHRO 2051/ANTHRO 2052, ANTHRO 4980) must be completed with a grade of C- or higher and students may receive a grade below C- in no more than one other course used to satisfy the major.

Graduate

- MA in Anthropology (p. 146)
- PhD in Anthropology (p. 147)

Department of Anthropology

Dr. Libby Cowgill (https://anthropology.missouri.edu/people/cowgilll) (https://anthropology.missouri.edu/?q=node/107), Director of Graduate Studies

CowgillL@missouri.edu (cowgilll@missouri.edu)
Main Office: (573) 882-4731
Fax: (573) 884-5450
http://anthropology.missouri.edu
muasanthropology@missouri.edu

The Department of Anthropology offers graduate work leading to the degrees of Master of Arts (MA) and Doctor of Philosophy (PhD) with a current enrollment of about 30 graduate students. Our department has a broad scientific approach to understanding human biology and behavior, both past and present, that is grounded in ecological and evolutionary theory. The graduate program provides rigorous coursework with a rich combination of hands-on field and laboratory research experiences. Students work closely with a faculty advisor who helps them pursue fellowships/grants and to develop collaborative research projects.

Active areas of research by our regular professors include:

- Archaeology (https://anthropology.missouri.edu/?q=research/archaeology): archaeological theory, evolutionary archaeology, lithic artifact analysis, ceramic analysis, and material sourcing studies with regional foci in the American Southwest
- Biological anthropology (https://anthropology.missouri.edu/?q=research/biological): skeletal biology, functional anatomy, human osteology, Neanderthals, demography, epidemiology, life history, and primate genetics
- Cultural anthropology (https://anthropology.missouri.edu/?q=research/cultural-anthropology): human behavioral ecology, cultural evolution, medical anthropology, and biocultural anthropology with regional foci in Amazonia

Incoming graduate students are admitted into one of three tracks:

Track 1: MA students

Students admitted to Track 1 will be classified as MA seeking students with the Graduate School. (http://gradschool.missouri.edu) These students will complete all requirements for the MA degree as currently outlined in our Graduate Students Handbook (https://anthropology.missouri.edu/sites/default/files/gradfiles/graduate_student_handbook_0.pdf), including completing a thesis (not a proposal or publication as for Track 2, see below, although eventual publication of the thesis is encouraged). Upon completion, the student can, if eligible, apply to the Anthropology program for acceptance as a PhD seeking student.
Track 2: PhD students required to complete MA requirements

Students admitted to this track will be classified as PhD seeking students with the Graduate School (http://gradschool.missouri.edu). These students will complete all course requirements for the MA. With the consent of the student’s committee, a Track 2 student will complete either a thesis OR a proposal formatted for a major granting agency that will serve as the student’s PhD dissertation proposal, OR a primary-authored paper that must have been submitted for publication. In each of these cases, the student will orally defend the work. Upon successful completion of these requirements, the student will be awarded an MA, and will then be eligible to continue work towards a PhD without the need to reapply to the program or change student status.

Track 3: PhD students with MA in hand

Students admitted to this track will be classified as PhD seeking students with the Graduate School (http://gradschool.missouri.edu). They will not be required to complete the MA requirements and will not earn an MA during their graduate work at MU. Upon completion of the requirements currently listed for the PhD program, including coursework, qualifying examination, comprehensive examination, teaching, and dissertation, the student will be awarded a PhD.

Facilities and Collections

Departmental research facilities/collections include a ceramic analysis laboratory, a stone artifact analysis laboratory, a comparative faunal collection, and a skeletal biology laboratory. The Museum of Anthropology (https://anthromuseum.missouri.edu) houses extensive holdings of New World (especially Missouri) archaeological and skeletal materials and ethnographic specimens from many parts of the world, and provides opportunities for museum-oriented studies (see also the Museum Studies Graduate Minor (p. 350)). The Museum Support Center, an archaeological research and curation facility is located on the edge of campus. The University of Missouri Research Reactor provides opportunities for students interested in archaeometry. Resources in other departments or research units available by arrangement include the Electron Microscopy Facility, and the Stable Isotope Laboratory of the Department of Geological Sciences.

Research by Location

Regular faculty members of the department conduct research in the following geographical areas, beyond Missouri: Canada (biological anthropology), Amazonia (biological & cultural anthropology), and the North American Southwest (archaeology). Refer to the faculty list for interests of faculty (https://anthropology.missouri.edu/people/faculty) and emeritus faculty (https://anthropology.missouri.edu/?q=people/emeritus).

Financial Assistance

Financial assistance packages are usually granted on a competitive basis for students who enter the program in the Fall semester. This assistance comes in the form of tuition waivers and stipends provided by Life Science Fellowships, Graduate School Fellowships, teaching assistantships, or graduate instructorships. Applications for teaching assistantships and graduate instructorships for both presently enrolled and prospective graduate students must be received by March 15th of the academic year preceding the academic year for which assistance is sought. Applications will be emailed to existing and incoming students prior to the deadline.

BA in Anthropology

Degree Program Description

Anthropology is the study of the entire human experience, from our primate roots to our globalized present. Anthropology at MU emphasizes scientific approaches to the study of human biology, behavior, culture, and evolution. Anthropology majors are required to take core courses in all three focal areas of the discipline (archaeology, biological anthropology, and cultural anthropology) but may concentrate in one or more of these fields. Students have opportunities to become involved in research, helping them develop creativity, enhance critical thinking skills, solve problems and improve their writing. Undergraduate training in anthropology also prepares students for work in government (both in the United States and abroad), museum positions, and field positions in archaeology, ethnography, human paleontology, or forensics. It may also provide students with the opportunity to enter graduate school leading towards an academic career teaching and conducting anthropological research at a college or university. A degree in anthropology also provides students with the background to pursue careers in business, journalism, health care, law, and many other fields.

Major Program Requirements

In addition to college foundation requirements and University graduation requirements, such as general education (p. 31), all anthropology students are required to complete the following core courses (15 credits):

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>ANTHRO 2020</td>
<td>Fundamentals of Archaeology with Laboratory</td>
<td>4</td>
</tr>
<tr>
<td>or ANTHRO 2021 &amp; ANTHRO 2022</td>
<td></td>
<td></td>
</tr>
<tr>
<td>ANTHRO 2030</td>
<td>Cultural Anthropology</td>
<td>3</td>
</tr>
<tr>
<td>ANTHRO 2050</td>
<td>Introduction to Biological Anthropology with Laboratory</td>
<td>5</td>
</tr>
<tr>
<td>or ANTHRO 2051 &amp; ANTHRO 2052</td>
<td></td>
<td></td>
</tr>
<tr>
<td>ANTHRO 4990</td>
<td>Capstone Seminar in Anthropology</td>
<td>3</td>
</tr>
</tbody>
</table>

Total Credits 15

ANTHRO 4990 Capstone Seminar in Anthropology must be completed even if a student completes an additional major in another department. Some departments waive this requirement for students completing a double major. Students with second majors should check with the other department to see if they are required to complete both capstone courses.

Electives

A minimum of 15 additional Anthropology credits (usually 5 courses) are required for the major. These courses must be distributed as follows:

| Topical/theoretical | 1 course |
| Area               | 1 course |
| Methods            | 1 course |
| Additional courses of student’s choice to bring total to 15 credit hours | 1-2 courses or more |

Explanation about the distribution of departmental courses among these three categories is available at https://anthropology.missouri.edu/sites/default/files/undergrad-files/undergrad_brochure_2015.pdf
The choice of area, topical-theoretical and methods courses is guided by the student’s individual interests and goals, and is selected in consultation with their departmental mentor. With the consent of the student’s mentor and the director of undergraduate studies, the methods/techniques or area requirements may be fulfilled by suitable courses outside anthropology. If this requirement is satisfied by a course outside anthropology, an additional anthropology course is selected to complete the 30 credits required in anthropology.

Students may also complete the methods requirement by gaining hands-on experience doing anthropological research. This experience will normally begin with ANTHRO 2950 Research Skills in Anthropology, an introduction to the methods used by one or more faculty members. This course will satisfy the methods requirement if a student enrolls in it for at least 3 credits. A student may independently choose a faculty mentor and arrange for course credit or can work with the department’s undergraduate research coordinator, who will match the student’s interests with those of one or more faculty members.

Students wishing to continue doing research of an independent nature may register for ANTHRO 4950 Undergraduate Research in Anthropology. Prior approval by the director of undergraduate studies is required to use these courses to satisfy the departmental methods requirement. ANTHRO 4950H Honors Research in Anthropology may be used to satisfy the requirements for an Honors BA with a major in Anthropology, but the course is not required for that degree. Specific requirements for the Honors BA are described below.

Related Courses

Because of the interdisciplinary nature of anthropology, the Department of Anthropology strongly recommends that all students complete a cluster of at least two or three courses that complement chosen courses within the major.

These courses may be offered by a single department or may be a related set of courses from several departments (e.g., courses in ancient history from both the Ancient & Mediterranean Studies and the History departments). The courses should be chosen with their mentor and are intended to provide background in the content of other disciplines related to the student’s anthropological focus. Fulfillment of a formal minor (15 credits in another department as approved by that department) or a second major (at least 30 credits in another department as approved by that department) can also be an effective way to gain expertise in related areas.

Semester Plan

Below is a sample plan of study, semester by semester. A student’s actual plan may vary based on course choices where options are available.

Total Credits: 121-125

* Course meets University general education and/or campus graduation requirements.

^ Course meets degree program requirements.

Departmental Honors

The Honors Program is organized under the Honors College (http://honors.missouri.edu) of the College of Arts and Science within the University of Missouri. To be accepted in the Honors Program, the student must achieve and maintain a minimum cumulative Grade Point Average (GPA) of 3.3 in all course work. In addition, to be accepted, and remain eligible for the honors program in the Department of Anthropology, the student must maintain a GPA of 3.5 in all anthropology courses.

The University of Missouri grants three types of Honors degrees to students in the College of Arts and Science:

1. General Honors, which is administered by the Honors College and which is obtained by completion of a suitable number of honors courses (see the Honors College for details).
2. Latin Honors (e.g., cum laude), which are conferred on students whose GPAs meet specified minimum requirements, and
3. Departmental Honors, which is administered by the Department of Anthropology.

The departmental program leading to the BA degree with Honors in Anthropology is designed for students who desire a more intensive experience in anthropology and who wish to work closely with a particular faculty member in the anthropology department on an independent research or scholarly project. A student wishing to graduate with departmental honors must fulfill the basic course requirements for the BA in Anthropology. In addition, the student, with the assistance of his/her honors advisor, is expected to develop, plan, and conduct research on
an independent project. It is recommended that students in the honors program enroll in ANTHRO 4950H Honors Research in Anthropology, although projects initiated in other courses or through independent, noncredit research experiences may also be honors eligible. To complete the Honors degree, a student must submit the results of the research project as a formal honors thesis that the student defends during an oral examination conducted by an examining committee. The committee consists of three faculty members: the advisor, another faculty member, and the departmental Honors Director. The examination is scheduled no later than the thirteenth week of the term during which the student expects to graduate. Each member of the committee is furnished with a copy of the student’s thesis or evidence of scholarly activity at least ten days before the examination. After the oral defense the student furnishes the department with one final copy of the thesis or evidence of scholarly achievement (e.g., photographs) suitable for preservation by the Department. Upon completion of the program, the examining committee recommends to the Dean of the College of Arts and Science that the student be awarded a BA with Honors in Anthropology.

Back to Top (p. )

**Minor in Anthropology**

A minor in anthropology demonstrates an appreciation for human biological and cultural diversity and complements many programs of study including biology, psychology, sociology, history, foreign languages, fine arts, education, business, medicine, and law. A student wishing to minor in anthropology should contact the Anthropology department Director of Undergraduate Studies for an appointment. The requirements for a minor in anthropology are:

1. A minimum of 15 credit hours are required to complete the minor.
2. A minimum of 9 credit hours must be completed at MU.
3. A maximum of 6 credit hours can be at the 1000 level.
4. A minimum of 3 credit hours are required at the 2000 level or above.
5. No more than 6 credit hours can be in readings, research or problems courses.
6. All required minor coursework must be completed with a grade of C- or higher.
7. A minimum minor GPA of 2.0 is required to earn the minor.
8. You cannot use minor coursework in your major.
9. You cannot use the same coursework for multiple A&S minors.
10. A minor must be completed and awarded at the same time as the MU undergraduate degree.
11. Once an A&S minor is awarded, a student cannot return to MU to complete a major in the same department.
12. Anthropology Minor Form (https://anthropology.missouri.edu/sites/default/files/undergrad-files/minor.pdf) filled out and signed

**MA in Anthropology**

**Admission Criteria (Track One, MA Applicants)**

Students admitted to this track will be classified as MA seeking students with the Graduate School. These students will complete all requirements for the MA degree as currently outlined in the Anthropology Graduate Handbook (https://anthropology.missouri.edu/sites/default/files/gradfiles/graduate_student_handbook_0.pdf), including taking classes in core areas and completing a thesis. Upon completion, the student can, if eligible, apply to the Anthropology program for acceptance as a PhD seeking student.

**Fall deadline:** January 10

**Spring deadline:** October 15 (no departmental financial support available this term)

- Minimum TOEFL scores:
  - Internet-based test (iBT): 80
    - Prior to July 1, 2015 must have score of (61)
  - Paper-based test (PBT): 550
    - Prior to July 1, 2015 must have score of (500)

- Minimum GRE scores:
  - When did you take the GRE?
    - Verbal + Quantitative
    - Analytical
  - Prior to August 1, 2011: 1000
  - On or After August 1, 2011: 300
    - 3.0

Minimum GPA: 3.25 in last 60 hours and in all anthropology courses

Acceptance into the graduate program in anthropology is not limited to students with undergraduate degrees in anthropology.

**Required Application Materials**

*To the Graduate School (https://applygrad.missouri.edu/apply):*

- All required Graduate Admissions documents
- 3 letters of recommendation (through online application)
- GRE scores
- Statement of purpose
- Unofficial transcripts (Official transcripts need to be submitted to the Graduate School upon acceptance.)
- Writing Sample

**Graduation Requirements**

Students are expected to gain advanced knowledge in the three subfields represented in our program (archaeology, biological anthropology, cultural anthropology). Anthropology faculty members work closely with graduate students to conduct collaborative research as an integral component of the graduate program. Opportunities for specialization are provided through research courses leading to a thesis. A program tailored to each student’s educational objectives is planned by the student and the advisory committee of at least three members, one of whom is a non-anthropology faculty member.

**Credit Hours Required for Master's Degree**

MA graduate students must complete a minimum of 30 credit hours beyond the Bachelor of Arts degree. At least 9 of the required hours must be 8000-level anthropology courses and seminars, and must include at least one content course (i.e., not a readings or research course). As part of the 8000-level requirement, all students must take the departmental core courses in cultural anthropology, archaeology, and biological anthropology. ANTHRO 7950, Introduction to Post-Graduate Anthropology is also required. Students lacking a basic course in statistics are required to take at least one course, preferably during
Credit Hours Required for Master’s Degree (Track Two Applicants Only)

Track Two students have the same course and credit requirements for the MA degree as do Track One students. All MA students must complete a minimum of 30 credit hours beyond the Bachelor of Arts degree. At least 9 of the required hours must be 8000-level anthropology courses and seminars, and must include at least one content course (i.e., not a readings or research course). As part of the 8000-level requirement, all students must complete the departmental core courses in cultural anthropology, archaeology, and biological anthropology. Students are also required to take ANTHRO 7950, Introduction to Post-Graduate Anthropology. Students lacking a basic course in statistics are required to take at least one course, preferably during the first year of graduate work. A maximum of 12 hours may be in non-thesis research (ANTHRO 7990/ANTHRO 8990) or reading courses (ANTHRO 7960).

Admission Criteria - Track Three: PhD Students with MA in Hand

Students admitted to this track will be classified as PhD seeking students with the Graduate School. They will not be required to complete the MA requirements and will not earn an MA during their graduate work at MU. Upon completion of the requirements currently listed for the PhD program, including coursework, qualifying examination, comprehensive examination, teaching, and dissertation, the student will be awarded a PhD.

Fall deadline: January 10
Spring deadline: October 15

- Minimum TOEFL scores:

<table>
<thead>
<tr>
<th>Internet-based test (iBT)</th>
<th>Paper-based test (PBT)</th>
</tr>
</thead>
<tbody>
<tr>
<td>80</td>
<td>550</td>
</tr>
<tr>
<td>Prior to July 1, 2015 must have a score of 61</td>
<td>Prior to July 1, 2015 must have a score of 500</td>
</tr>
</tbody>
</table>

- Minimum GRE scores:

<table>
<thead>
<tr>
<th>When did you take the GRE?</th>
<th>Verbal + Quantitative</th>
<th>Analytical</th>
</tr>
</thead>
<tbody>
<tr>
<td>Prior to August 1, 2011</td>
<td>1000</td>
<td>3.0</td>
</tr>
<tr>
<td>On or After August 1, 2011</td>
<td>300</td>
<td>3.0</td>
</tr>
</tbody>
</table>

- Minimum GPA: 3.25 in last 60 hours and in all anthropology courses

Required Application Materials For Track Two Applicants:

To the Graduate School (https://applygrad.missouri.edu/apply):

- All required Graduate Admissions documents
- 3 letters of recommendation (through online application)
- GRE scores
- Statement of purpose
- Unofficial transcripts (Official transcripts need to be submitted to the Graduate School upon acceptance.)
- Writing Sample

Note: A faculty member who is on the doctoral faculty must agree, as a condition of admission, to accept the student as a PhD advisee. These qualifications apply to all applicants, including those with an MA degree from this department. Applicants whose MA is in a field other than anthropology will be considered under the policies for individuals holding the baccalaureate degree except that the quality of graduate work will be taken into consideration.

Required Application Materials for Track Three Applicants

To the Graduate School (https://applygrad.missouri.edu/apply):

- All required Graduate Admissions documents except transcripts
- 3 letters of recommendation (through online application)
- GRE scores
Credit Hours Required for PhD degree
(both Track Two and Track Three)

MU requires a minimum of 72 semester hours beyond the BA or BS for a PhD degree. The 30 hours required for the MA count towards this total. At least 15 of the required hours must be 8000-level courses and seminars and must include at least one content course (i.e., not a readings or research course). As part of the 8000-level requirement, all students must complete the departmental core courses (or the equivalent) in cultural anthropology, archaeology, and biological anthropology. In addition, both basic and mid-level courses in statistics are required (one or both of which can be taken while earning a Master's degree; requirement may also be waived at the discretion of the student's Doctoral Program Committee). A minimum of 3 hours of doctoral research credit (ANTHRO 9090) is also required.

PhD candidates are required to gain teaching experience by either serving as a departmental teaching assistant or graduate instructor for one semester (stipends for which are awarded competitively) or by assisting a faculty member in the preparation and teaching of a course.

Doctoral Examinations and Program Committee

PhD Qualifying Examination

PhD students must pass an oral qualifying examination during their first year in the PhD program. The main purpose of the 2-hour oral examination is to determine if the student is prepared for doctoral work and to expose any weaknesses that should be addressed in the course of earning the PhD degree.

Doctoral Program Committee

The Doctoral Program Committee is established during the first year of the student's PhD work. It is composed of at least 4 faculty members, at least 3 of whom must be members of the Department of Anthropology, and at least one member of the graduate faculty from another MU department and who holds a doctorate degree that is generally not in anthropology. The student's advisor and at least one other committee member must be members of the doctoral faculty at MU; all other committee members must be members of MU's graduate or doctoral faculty.

Comprehensive Examination

An applicant for the PhD normally takes the comprehensive examination at the end of the 2nd or 3rd year in the PhD program. The comprehensive examination consists of 2 parts: 1) a written examination of up to 5 days consisting of questions submitted by members of the committee, principally, but not solely, based on a reading list and dissertation proposal prepared by the student, and 2) a 2-hour oral examination covering the questions and answers from the written examination (and anything else the committee deems appropriate). The exam must be taken at least 7 months prior to graduation, and is not administered unless classes are officially in session (including Summer session).

Dissertation

The PhD in anthropology is awarded after an accepted dissertation has been submitted and defended successfully before the candidate’s Doctoral Program Committee and filed with the Graduate School at MU. Following the advice of the committee, students may either produce a traditional book-length dissertation or write 3 or more primary-authored publishable papers that follow a coherent theme and comprise the main chapters of the dissertation. For either option, the dissertation should contain a general introductory chapter, 3 or more chapters (or manuscripts/publications), and a concluding chapter that summarizes the contributions of the individual papers. Effective for students who pursue the second option and completed the comprehensive examination in 2015 or later, at least 2 papers must be submitted for publication as peer-reviewed journal articles or book chapters prior to the defense of the dissertation (evidence of submission required).

Art

Joe Johnson, Program Director
School of Visual Studies, College of Arts and Science
A129 Fine Arts Building
(573) 882-4037
http://visualstudies.missouri.edu

The Art program is housed principally within the Fine Arts Building. Founded in 1877, the Art faculty consists of 18 full-time faculty, 4 adjunct instructors, and 21 graduate teaching assistants. Our faculty members, many of whom are nationally and internationally renowned, are well-established professional artists and designers with numerous exhibitions, commissions, and awards to their credit.

Our studio/laboratory spaces for each media area have impressive features that include a fully-equipped printmaking studio, photography labs for digital and traditional processes, a papermaking/fiber facility, an anagama kiln, a bronze casting facility, and three state-of-the-art digital labs housing over 65 up-to-date Macintosh computers with large 27-inch monitors, three 44” large-format Epson printers, and a variety of video equipment. The Art program also operates the George Caleb Bingham Gallery (https://art.missouri.edu/gallery/bingham) in the Fine Arts Building, which showcases art exhibitions from students, faculty, and visiting artists year-round. A Visiting Artists Lecture Series is presented during the Fall and Spring semesters and is open to the public. A popular summer experience sponsored by the program in partnership with the International Center is the Summer Study Abroad Program (http://art.missouri.edu/undergraduate/study-abroad.html) that takes place in summers in Italy on odd-numbered years and in the Netherlands and Belgium in even-numbered years. In both countries, students will have the opportunity to study firsthand many of the most important masterpieces in Western art history.

Faculty and students have access to many other resources on the University campus, including the Museum of Art and Archaeology (http://maa.missouri.edu), the State Historical Society of Missouri (http://shs.umsystem.edu), extensive collections of Ellis Library (http://library.missouri.edu/libraries), and the image database on ArtStor (http://www.artstor.org).

You can find the works of MU art faculty and alumni in major museums, galleries, exhibitions, and collections around the world, from New York to Barcelona, and from Africa to China. The work of our faculty and alumni exemplifies the caliber of teaching and creativity that students experience.
in the MU Art Department. We are dedicated to providing our students with the best quality education possible and helping them to develop and nurture their artistic pursuits.

**Faculty**

**Professor** J. M. Brueggenjohann*, R. B. Clarke*, L. Leong*, J. Stealey*

**Curators Teaching Professor** D. L. Huelsbergen*

**Associate Professor** N. Boyer*, J. H. Calvin*, C. Daniggelis*, J. Johnson*, J. Pintz*, C. Sampson*, R. A. Wilson*

**Assistant Professor** C.P. Mannella*, F. Martinez*, J. Thornton*

**Associate Teaching Professor** M. Ballou*

**Visiting Assistant Teaching Professor** A. Wehrwein,

**Assistant Teaching Professor** M. G. Langeneckert, T. Shaffer*

**Professor Emeritus** B. B. Cameron*, W. H. Hawk, L. Kantner, L. Rugolo, O. A. Schuchard, F. H. Stack

* Graduate Faculty Member - membership is required to teach graduate-level courses, chair master's thesis committees, and serve on doctoral examination and dissertation committees.

** Doctoral Faculty Member - membership is required to chair doctoral examination or dissertation committees. Graduate faculty membership is a prerequisite for Doctoral faculty membership.

**Undergraduate**

- **BA in Art** (p. 150)
- **BFA in Art** (p. 151)
- **Minor in Art** (p. 152)

**Director of Undergraduate Studies:** Matt Ballou

The School of Visual Studies Art program in the College of Arts & Science offers a BA and a BFA. A minor in Art is also available. Students have the option to take studio courses in drawing, painting, printmaking, ceramics, sculpture, fibers, photography, digital/experimental media, and graphic design.

The BA degree is intended for the student desiring a liberal education with a concentration in art, while the BFA provides more professional training in the studio area. The BFA is the required undergraduate degree for admission to most Master of Fine Arts programs.

Starting Fall 2015, all students wishing to pursue a BA or BFA degree in art will need to pass the Art Department BA/BFA Portfolio Review. A student will need to have completed six (6) courses in art before submitting a portfolio (although they can be enrolled in the last classes the semester they submit a portfolio) for either the BA or BFA. Those courses are ART_GNRL 1030 (http://catalog.missouri.edu/search/?P=ART_GNRL%201030), ART_GNRL 1040 (http://catalog.missouri.edu/search/?P=ART_GNRL%201040), ART_DRAW 1050 (http://catalog.missouri.edu/search/?P=ART_DRAW%201050); then three studio art courses at the 2000 level. For more detailed information on the portfolio, please refer to the SVS website.

Undergraduate students enrolled in a BA Bachelor of Arts in Fine Arts or BFA Bachelor of Fine Arts degree program who wish to earn a masters with certification to teach K-12 Art can complete Professional Education Certification courses in the College of Education along with three Art Education Professional Education course requirements at the graduate level beginning the summer before senior year in your BA/BFA degree program.

**Graduate**

- **MFA in Art** (p. 152)

School of Visual Studies Art program
A126 Fine Arts Building
Columbia, MO 65211-6090

https://visualstudies.missouri.edu

**Director of Graduate Studies:** Chris Daniggelis

Admission Contact:
Jennifer Bennett, Graduate Student Coordinator
b (warrenb@missouri.edu)ennettjen@missouri.edu

The School of Visual Studies Art program offers a Master of Fine Arts (MFA) program that focuses on the creative goals of the individual. Our aim is to guide each student to finding and developing a particular direction and language as demonstrated by a coherent and conceptually unified body of artwork. Through an intense studio-based practice, our graduates develop into professional artists and college level educators who will successfully contribute to the culture on a local, national and global scale through different fields in the visual arts.

The University of Missouri has been a leader in the visual arts since 1877 when the renowned painter George Caleb Bingham began teaching the first studio courses in the newly formed School of Art. Current faculty members follow in that tradition through their creative work that is nationally and internationally recognized. Their artwork encompases: abstract and figurative painting and drawing, ceramics, sculpture, ceramics sculpture, as well as bronze cast sculpture, traditional and digital photography, all media of printmaking, surface design, illustration, papermaking and book arts, mixed-media, video, installation and performance art plus intermedia and intradmedia approaches. They are all eager to mentor young artists who share the passion for creativity, critical thinking and the arts.

Laboratory facilities are available in all media areas that are continually updated to coincide with technological advancements. The Art program is home to the George Caleb Bingham Gallery with monthly exhibitions highlight artwork by students, local, regional and national artists. Our yearly Florence Summer Study Abroad Program places students in Italy where students have a month to study firsthand many of the most important masterpieces in Western art history. More about the MFA program. (http://art.missouri.edu/mfa-program.html)

**Study Areas**

Applicants typically study within a particular art medium. Applicants declare a media emphasis of their choice at the time of application to the program. Media areas for selection include ceramics, drawing, fibers, graphic design, painting, photography, printmaking, and sculpture. Aspects of new media (2D and 3D computer imaging and animation, video production, web publishing and other digital media) are also integrated into the curriculum of many of the listed traditional media.

**Financial Aid**

Fellowships, scholarships, and tuition waivers, along with graduate teaching assistantships and graduate research assistantships with stipends are available to qualified graduate students. Assistantships include stipends. Some aid is awarded upon acceptance into the program, while others may be awarded later as the student develops within the program. Applications for graduate teaching assistantships
should be submitted along with the application portfolio to the director of graduate studies. Application instructions follow later in this document. For a list of scholarships within the Department of Art, please visit the departmental website at: http://art.missouri.edu/ma-program/scholarships.html

Some campus-wide opportunities are available, too. Most prominent would be the Mizzou Graduate Fellowship that is available for applicants for the fall semester (submitting deadline on January 1st each year) only.

**Advising**

Upon admission to the program, a candidate is assigned a graduate thesis committee chair/major advisor. This person will mentor the student throughout the student’s tenure and help the student to establish the three-member graduate thesis committee. By the second semester the student will select another committee member from the Graduate Faculty to serve as the student’s second advisor. The chair/major advisor will also help the graduate student to select an outside member who is from the graduate faculty of another department. In addition, students have access to all the art department faculty members for consultation throughout the duration of their studies.

**BA in Art**

**Degree Program Description**

The Art program offers opportunities for creative development, provides instruction in visual literacy, and trains students in the necessary technical and conceptual skills needed to pursue a lifetime of creative activity. Through a variety of studio art courses, students learn critical thinking skills, creative problem solving, and become lifelong learners. The Department of Art offers courses in ceramics, drawing, fibers, graphic design, painting, photography, printmaking, and sculpture. The BA degree is a liberal arts degree in which students complete 30 - 40 hours of studio art courses and 9 hours of courses in Art History. Starting Fall 2015, all students wishing to pursue a BA degree in art must pass the Art Department BA/BFA Portfolio Review. Students that earn a degree in art pursue a variety of careers, including artists; art educators; commercial and studio designers; and graphic, web, print and packaging designers.

**Major Program Requirements**

Art majors earning a BA degree complete art foundations courses, art core requirements, and art studio electives. No more than 40 credits in studio art may be included in the BA curriculum. Students enrolled in the BA degree program may not include art or art history courses with a grade of D.

All art majors must complete a minimum of 12 credit hours of MU art coursework numbered 2000 or above. In addition, 9 hours of Art History and Archaeology courses, including two 3-hour classes numbered 2000 or above, are required.

In addition, students must complete all College of Arts and Science and University graduation requirements (p. 30), including University general education (p. 31).

Starting Fall 2015, all students wishing to pursue a BA or BFA degree in art will need to pass the Art program BA/BFA Portfolio Review. A student will need to have completed six (6) courses in art before submitting a portfolio (it is acceptable to be enrolled in the last class(es) the semester the portfolio is submitted) for either the BA or BFA. The courses are

### BFA in Art

#### Degree Program Description

The School of Visual Studies Art program offers opportunities for creative development, provides instruction in visual literacy, and trains students in the necessary technical and conceptual skills needed to pursue a lifetime of creative activity. Through a variety of studio art courses, students learn critical thinking skills, creative problem solving, and become lifelong learners. Course offerings include ceramics, drawing, fibers, graphic design, painting, photography, printmaking, and sculpture. The BFA is considered a professional degree intended to provide a solid foundation for a career in visual art. Students in the BFA program must complete 60-70 hours of studio art and 12 hours of Art History. Starting Fall 2015, all students wishing to pursue a BA or BFA degree in art must pass the Art program BA/BFA Portfolio Review. Students that earn a degree in art pursue a variety of careers, including artists; art educators; commercial and studio designers; and graphic, web, print and packaging designers.

#### Major Program Requirements

Art majors earning a BFA degree complete art foundations courses, art core requirements, and art studio electives with 15 credits in one specific media area. Students enrolled in the BFA degree program may not include art or art history courses with a grade of D.

All art students are assigned a departmental faculty advisor. Students are encouraged to meet with the advisor to plan a program of study with a focus in one particular media area.

BFA students complete 60 to 70 credits in studio art, including a minimum of 15 credits in one specific media area, and 12 credits of art history, including at least two 3-hour Art History & Archaeology courses numbered 2000 or above. A minimum of 35 credit hours of studio art coursework must be taken at MU.

In addition, students must complete all College of Arts and Science and University graduation requirements (p. 30), including University general education. (p. 31)

Starting Fall 2015, all students wishing to pursue a BA or BFA degree in art will need to pass the Art program BA/BFA Portfolio Review. A student will need to have completed six (6) courses in art before submitting a portfolio (it is acceptable to be enrolled in the last class(es) the semester the portfolio is submitted) for either the BA or BFA. The courses are ARTE_VS 1030 (http://catalog.missouri.edu/search/?P=ART_GNRL%201030), ART_GNRL 1040 (http://catalog.missouri.edu/search/?P=ART_GNRL%201040), ART_DRAW 1050 (http://catalog.missouri.edu/search/?P=ART_DRAW%201050) and three studio art courses at the 2000 level. For more detailed information on the portfolio, please refer to the School of Visual Studies website.

Admission is based on the recommendations from the art department graduate faculty members representing each of the media areas. Some applicants, may be placed on a waiting list as alternates, then accepted if others decline their admission offers.

Required Application Materials

Submit Required Application Materials to the Graduate School via the University of Missouri Graduate Application https://applygrad.missouri.edu/apply/ Required Application Materials

- Unofficial transcripts from each college attended (If you are accepted into the MFA program, you will be asked to send official transcripts to the Graduate School)
- Statement of Purpose - Letter of Intent/Artist Statement (your goals for Graduate Study, and a description of your current work and related concepts)
- Résumé (include exhibitions, awards, publications, artistic experience, etc.)
- Portfolio (20 digital images or video files that represent your most recent and accomplished body of work. Your work should indicate your major artistic interest and creative direction, as well as your creative ability and media competence. Maximum of 2 images for any one piece of artwork)
- Assistantship Application (a statement detailing your interest in teaching, past teaching experience and related professional skills)
- Recommendations - Three (3) letters of recommendation

MFA Degree Completion Requirements

The MFA program is a full-time, three-year program consisting of 60-70 credit hours.

The degree includes:

- Studio Art Courses in Major Area: 18 hours
- Studio Practice and Critique Courses: 15 hours
- Studio Art Elective Courses: 18 hours (up to 9 of which may be taken in the major area)
- Art History Courses: 6 hours
- First Year Graduate Studio Seminar Course: 2 hours
- MFA Thesis Exhibition Documentation: 1 hour

Graduate-Level Course work

Graduate level courses are at the 7000/8000/9000 level. A minimum of 15 of the 30 hours must be selected from courses numbered at 8000 and/or 9000 levels; no more than 40 percent of the 30 hours credit requirement can be satisfied by Research, Readings and Problems courses. No credit is given for courses at the 4000 or below levels.

Residency Requirement

A minimum residency of two years is required for the degree. However, mere completion of the prescribed number of credit hours and the residency requirement is insufficient, rather the degree will be granted upon the student’s high level of creative achievement as determined by the student’s graduate thesis committee.

Regular Student Evaluation

The full graduate faculty of the fine art program reviews every MFA candidates progress during the 1st, 3rd and 5th semester. If the
candidate fails to receive a passing evaluation during review, the student is placed on probation for one semester and is required to be reviewed the following semester. If two consecutive unsatisfactory reviews occur, the student may lose funding or be dismissed from the program.

Clearance
During the semester prior to graduation, the graduate thesis committee will approve the student to proceed with the final steps toward graduation, composing the written thesis and mounting the thesis exhibition.

Thesis Acceptance
The graduate thesis committee approves the thesis exhibition and written thesis. During the final semester, the MFA candidate installs a thesis exhibition. The candidate thereafter presents a final draft of the written thesis that defends the conceptual and philosophical ideas of the final body of artwork. Thesis exhibition pieces discussed must be included as images in the written thesis. Each degree candidate must pass a final two-hour oral examination conducted by the graduate thesis committee. The presentation must focus on aspects of academic study related to visual and written aspects of the thesis work. Following final approval of the thesis exhibition and the written thesis, the MFA candidate will officially submit documentation of the theses to the graduate school before the end of the semester in which the exhibition is presented.

Time Limit and Extensions
The time limit for completion of the MFA degree is 5 years. Time spent in military service is excluded. For an extension for other reasons the student must petition the Graduate School through his/her chair/major advisor. The five-year period will extend from the beginning of the first semester of enrollment in which the student is accepted to the MFA degree program to the date of his/her clearance to graduate.

Art History and Archaeology
Michael Yonan, Program Director
School of Visual Studies, College of Arts and Science
102 Swallow Hall
(573) 882-7547
http://visualstudies.missouri.edu

The School of Visual Studies offers undergraduate and graduate degrees in Art History. The curriculum combines traditional classroom courses with experiential, object-centered learning opportunities. Our courses stress acquiring the tools of visual literacy, of developing the ability to discuss and write about art, and to interpret art for the public. We seek to analyze and understand art through the lenses of social history, gender studies, and material culture. The program has particular strengths in medieval, early modern, and modern European and American art, and the arts of German-speaking Europe constitute a particularly strong area of emphasis.

Art History undergraduates examine art through a combination of surveys and seminars, while our graduate students work closely with faculty advisors on individualized programs of study. Masters and doctoral students can further broaden their knowledge by pursuing interdisciplinary minors in Ancient Studies, Medieval and Renaissance Studies, and Women’s and Gender Studies. Many of our students hold internships or graduate research assistantships at museums in Missouri and nationally. Students have also conducted research across North America and abroad through Fulbright, Smithsonian, and Kress Foundation fellowships.

Local art-historical research is further supported by outstanding resources on campus: the Museum of Art and Archaeology, the State Historical Society of Missouri; and Special Collections at Ellis Library have substantial collections of art and visual media from diverse eras and cultures, all of which are available to students for their research. Our students likewise engage with world-class art collections in the state, notably the Saint Louis Art Museum and the Nelson-Atkins Museum of Art, Kansas City.

Faculty
Professor: M.E. Yonan
Associate Professor: K. A. Schwain, A. R. Stanton, J. A. van Dyke
Assistant Teaching Professor: E. J. Hornbeck
Professor Emeritus: N. E. Land Jr., H. W. Marshall
Professor Emerita: P. D. Crown, K. W. Slane

• Graduate Faculty Member - membership is required to teach graduate-level courses, chair master's thesis committees, and serve on doctoral examination and dissertation committees.

** Doctoral Faculty Member - membership is required to chair doctoral examination or dissertation committees. Graduate faculty membership is a prerequisite for Doctoral faculty membership.

Undergraduate
• BA in Art History and Archaeology (p. 154)
• Minor in Art History and Archaeology (p. 156)

Director of Undergraduate Studies: James van Dyke

Double Majors and Dual Degrees
Students may combine a major in art history and archaeology with a major in another department in the College of Arts and Science such as Art or Classical Studies (a double major), or with a major in another college such as Business or Journalism (a dual major). Students who graduate with dual majors will be awarded two degrees; their program of study will include an additional 12 credits. Students who plan to pursue double or dual majors should complete graduation plans in both departments.

Program Honors
Program Honors recognizes students who have demonstrated a commitment to future professional study in art history, wish for more substantial research experience, and have built a record of excellence in art historical coursework.

Requirements:
• 3.3 Cumulative GPA
• 3.6 GPA in Art History
• Successful completion of one 4000-level AR_H_A course as a prerequisite
• Completion of a senior honors essay, ARH_VS 4999

Students apply for Program Honors the semester prior to taking ARH_VS 4999 by writing a proposal on the subject of their essay. The proposal is submitted in duplicate to the faculty member whom the student would like to have serve as the project’s supervisor and to the Director of Undergraduate Studies, but shall be considered and must
be approved by the faculty as a whole. The essay’s topic should reflect both the student’s interests and the expertise of the faculty supervisor. The honors essay should be of substantial length, incorporate significant individual research, and engage with theoretical, historiographical, and methodological perspectives appropriate to the topic at hand. Completing these requirements to the faculty’s satisfaction will earn the student departmental honors.

**Graduate**

- MA in Art History and Archaeology (p. 156)
- PhD in Art History and Archaeology (p. 157)

Art History Graduate Programs
School of Visual Studies

**Director of Graduate Studies: Anne Rudloff Stanton**

**About Art History**

The University of Missouri has played a prominent role in the teaching of the visual arts in North America since Walter Miller and John Pickard first began lecturing on campus in the 1890s. Our faculty and staff reflect the widening scope of our discipline with particular strengths in the areas of medieval and Renaissance art, and the art of modern Europe and the Americas. Current faculty research interests range from medieval manuscripts to modern architecture and contemporary painting. Resources available to faculty and students include the Museum of Art and Archaeology, and the extensive collections of Ellis Library.

**Degrees Offered**

The School of Visual Studies offers the MA and the PhD degrees in Art History and Archaeology. The school participates in interdisciplinary graduate minors in Ancient Studies, Medieval and Renaissance Studies, Museum Studies, and Women's and Gender Studies.

**Funding: Internal and External**

The School of Visual Studies offers teaching assistantships in introductory and upper-level courses.

Generally, Visual Studies offers .25 FTE (full time equivalent) assistantships that require approximately ten hours of work per week. These provide a nine-month stipend; a tuition waiver that covers resident educational and non-resident fees; and a 50% medical insurance subsidy if you enroll in “Student Accident and Sickness Insurance” program. In special circumstances, Visual Studies will offer a .5 FTE to advanced students.

Incoming students are considered for funding when they apply to the program. Returning students submit applications for continued funding in the spring semester. Visual Studies follows the rules set by the Graduate School regarding tuition waiver limits.

In addition to teaching and research assistantships, Visual Studies may award departmental fellowships to advanced students: the Herbert Schooling Fellowship; the John Pickard Fellowship. Holders of these fellowships may, with proper consent, hold additional grants not to exceed $1000 or may hold teaching assistantships.

Finally, Visual Studies offers a number of fellowships and travel awards:

- The Edzard Baumann Traveling Fellowship in European Art
- The Irina Hans Fellowship in Art History
- The Osmund Overby Fund for research in American art, architecture, and historic preservation

Students interested in these awards should contact the director of graduate studies and their advisors for application instructions.

In addition, the University of Missouri Graduate School sponsors two major fellowship programs: a spring competition and a Supplemental Graduate Fellowship Program. Applicants in both art history and archaeology are eligible for these fellowships, which are awarded to entering students through a campus-wide competition. Nominations for both are completed by the director of graduate studies in consultation with the entire faculty. Students in the Department of Art History and Archaeology have held a number of these awards, including the G. Ellsworth Huggins Scholarship, the Gus T. Ridgel Fellowship, and the Robert E. Waterston Award.

Students enrolled in MA and PhD programs are also eligible for awards from The Graduate Professional Council (GPC), which are designed to assist students who are traveling to present research papers, posters or creative works at conferences or symposia. The Graduate Student Association (GSA) also awards travel grants to students who are presenting a paper or poster, or chairing a plenary session or roundtable discussion, at an academic conference.

Finally, the department encourages graduate students to apply for internships, study abroad programs, grants, and fellowships that support their programs of study. An excellent place to initiate this search is Resources in Art History for Graduate Students: A Newsletter of Fellowships and other Opportunities for Art History Graduate Students (http://www.efn.org/~acd/resources.html).

**BA in Art History and Archaeology**

**Degree Program Description**

Art historians and archaeologists seek to understand different cultures by studying their artistic monuments and other material remains. By looking closely at objects within their historical, social, and technological contexts, students develop skills of visual perception and analysis as ways of exploring how images can express identity, share information, and shape everyday life. This integrative approach to cultural traditions draws readily on other disciplines like art, anthropology, classics, film studies, gender studies, history, languages, literature, music, philosophy, and religion. While the BA is not a vocational or professional degree, undergraduate majors gain a broad foundation in the liberal arts that is readily adapted to future goals. Recent graduates of the program have gone on to careers in art galleries, civic arts organizations, cultural heritage offices, historical archives and museums, journalism, library and information sciences, secondary education, and fine arts conservation. Students wishing to pursue specialized research and college-level teaching continue their studies at the masters and doctoral levels.

**Major Program Requirements**

Students may elect a broad program in Art History or a more narrowly focused one in Classical Archaeology. Those who are planning to focus in either program should begin foreign language study as early as possible.
In addition to University general education (p. 31) requirements and other college and University graduation requirements (p. 30), students must meet the following requirements:

**Course requirements**

<table>
<thead>
<tr>
<th>Course</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>Students must take 1110 and 1120:</td>
<td>6</td>
</tr>
<tr>

<tr>
<td>AND</td>
<td></td>
</tr>
<tr>
<td>At least six AR_H_A courses at the 3000 level or above, including at least one course in each of the following three distribution areas and at least two courses at the 4000 level:</td>
<td>18</td>
</tr>
<tr>
<td>Art History option: Ancient, Medieval-Baroque, and Modern Archaeology option: Greek, Roman, and Post-Classic</td>
<td></td>
</tr>
<tr>
<td>PLUS</td>
<td></td>
</tr>
<tr>
<td>Two elective AR_H_A courses at any level, including internship, fieldwork, and study abroad.</td>
<td>6</td>
</tr>
</tbody>
</table>

**Language Requirement**

The Art History option requires study through the reading level (i.e., 12 or 13 credits) in one modern language, such as French, German, Italian, or Spanish. The Archaeology option requires study through the reading level (i.e., 13 credits) in Greek or Latin. Students who plan to attend graduate school are strongly urged to begin study of one or more additional languages.

**Courses Recommended for a Well-Rounded Degree**

Art History students should take additional courses in the Humanities, including anthropology, classical humanities, film studies, history, literature, religious studies, and philosophy, and at least one course in studio art or environmental design. Students pursuing the Archaeology option should take related courses in anthropology, classical humanities, geology, history, religious studies, and philosophy.

**Semester Plan: Art History Track**

Below is a sample plan of study, semester by semester. A student's actual plan may vary based on course choices where options are available.

Total Credits: 120

**Minor in Art History and Archaeology**

A minor in Art History and Archaeology requires 15 credits within the department. Nine of the 15 credits must be at the 3000-level or above.

**MA in Art History and Archaeology**

**Admission Contact Information**

Michael Yonan (YonanM@missouri.edu)
365 McReynolds Hall
Columbia, MO 65211
(573) 882-6711

**About the Master’s**

The MA program in the Department of Art History and Archaeology has two primary goals: to provide graduate students with a strong background in the history of art, from antiquity to the present; and to introduce them to the methods and theories of material and visual analysis, as well as the practices of critical writing and reading. Students who pursue the thesis option have the opportunity to specialize at that stage.

**Admission Criteria**

Admission to the department on the graduate level is granted yearly to a small number of candidates who hold recognized BA or MA degrees in art history, classical archaeology, classics, or related fields of the humanities and social sciences. In addition to the 3.0 GPA required by the Graduate School, the department requires: a GPA of 3.3 in the major field; minimum GRE score (below) and at least three semesters of a single appropriate foreign language (normally German, French or Italian).

Minimum GRE scores:

<table>
<thead>
<tr>
<th>When did you take the GRE?</th>
<th>Verbal + Quantitative</th>
<th>Analytical</th>
</tr>
</thead>
<tbody>
<tr>
<td>Prior to August 1, 2011</td>
<td>1000</td>
<td>4.5</td>
</tr>
<tr>
<td>On or After August 1, 2011</td>
<td>300</td>
<td>4.5</td>
</tr>
</tbody>
</table>

**Required Application Materials**

All application materials must be submitted directly to the Graduate School through its Apply Yourself (https://app.applyyourself.com/AYApplicantLogin/l_ApplicantLogin.asp?id=umc-grad) online application system. Applications will not be considered complete until we receive the following:

- Official transcripts or mark sheets from each university or college you have attended
- GRE scores
- Three letters of recommendation concerning academic qualifications to undertake graduate work
- A short statement of the applicant’s professional goals and reasons for applying to do graduate work in art history or archaeology
- A copy of a recent term paper as a sample of the applicant’s scholarship and writing
- Curriculum vitae

**Financial Aid from the Program**

Incoming students are considered for funding when they apply to the program. Returning students submit applications for continued funding in the spring semester.

**Graduation Requirements**

**Course Requirements**

The successful completion of the MA requires at least thirty hours of coursework that must include: ARH_VS 8110; ARH_VS 8120; four distribution requirements that cover four broad periods of study: Ancient, Medieval and Renaissance, 1500-1850, and 1850-Present; and ARH_VS 8070. If students are invited to pursue the thesis option, they must enroll in ARH_VS 8080 and ARH_VS 8090 in place of ARH_VS 8070. Courses for an interdisciplinary minor field will be in addition to these minimums.

**Language Requirements**

All students must demonstrate reading knowledge of one foreign language, usually German or a Romance language. Departmental language exams are offered in the fall semester of each year, although students can request an examination in the spring semester. Language requirements may be satisfied also by achieving a grade of B or better in a course approved by the Director of Graduate Studies. The department expects that the modern language requirement will be met by the end of the third semester for use in advanced coursework as well as thesis research and writing. In addition to the modern language, students in Classical Archaeology also must have reading knowledge of either Greek or Latin. Students who pursue the thesis option must have reading knowledge of two modern languages: German and a Romance language.

**Master’s Essay**

To complete the degree, students must complete a scholarly essay under the guidance of a faculty advisor. It will most likely be a revision of a research paper from a graduate course taken in the Department of Art History and Archaeology.

**Master’s Essay Oral Examination**

In consultation with the faculty advisor, students will select two additional members of the department faculty to read the essay. Students will discuss their essays in a meeting chaired by their advisor.

**Master’s Thesis Option**

Graduate students who intend to pursue doctoral work should complete the thesis option. This decision is made during the student’s second or third semester in residence in consultation with the Director of Graduate Studies and three faculty members in the student’s area of interest.
Master’s Thesis Committee

The master’s thesis committee consists of at least three people: the student’s thesis advisor, a second member from within the department, and a third member from outside the department. The student should invite the latter two in consultation with his or her thesis advisor.

The committee must approve the thesis topic in the semester before the student plans to defend the thesis; often, this is accomplished during an interview for candidacy.

Master’s Thesis

The master’s thesis enables graduate students to engage in independent and thorough research in a specific area of study. While the thesis need not be an original contribution, neither can it be an uncritical compilation of published facts. A successful thesis will demonstrate the student’s ability to use bibliography in the field; effectively utilize research tools and techniques; synthesize a variety of types of sources; and sustain an argument.

Master’s Thesis Defense

The defense of the master’s thesis is an oral examination, chaired by the student’s advisor, which focuses specifically on the MA thesis. The student should submit a complete draft of the thesis to the advisor at least two months before the intended defense date and a final draft, approved by the advisor, to the entire committee 30 days before the defense. Any changes recommended by the committee during the defense must be made before the finished thesis can be submitted to the Graduate School.

More Information

Further guidelines are included in the department’s graduate programs brochure or on the website.

PhD in Art History and Archaeology

Admission Criteria

The department accepts as candidates for the PhD students who have earned an MA or its equivalent in art history or classical archaeology, either from the University of Missouri or from an institution recognized by the university. An MA thesis is a prerequisite for the PhD in both art history and classical archaeology. The Doctoral Program Committee (see below) determines the acceptability of work completed elsewhere.

Students completing an M.A. degree in the Department of Art History and Archaeology at the University of Missouri-Columbia who want to continue for the Ph.D. must be accepted for advising by a faculty member who is a member of the doctoral faculty. Such students should submit a statement of purpose and a current CV to the department by the January 18 deadline. After they are accepted for advising, they need to submit a "Change of Program, Degree, Emphasis or Advisor Form" to the Graduate School.

Required Application Materials

All application materials must be submitted directly to the Graduate School though its Apply Yourself (https://applygrad.missouri.edu/apply) online application system. Applications will not be considered complete until we receive the following:

- Official transcripts or mark sheets from each university or college you have attended
- GRE scores
- Three letters of recommendation concerning academic qualifications to undertake graduate work
- A short statement of the applicant’s professional goals and reasons for applying to do graduate work in art history or archaeology
- A copy of a recent term paper as a sample of the applicant’s scholarship and writing, and
- Curriculum vitae

Financial Aid from the Program

Incoming students are considered for funding when they apply to the program. Returning students submit applications for continued funding in the spring semester.

Graduation Requirements

Coursework

The Graduate School requires a minimum of 72 hours for the PhD. At least 42 of those hours must be completed after the receipt of MA. Up to 30 hours from a previous institution can count toward the total of 72 hours. Most students will take more than the minimum number of courses and requirements.

The 42 hours must include:

- At least one course from the following four areas—Ancient, Medieval and Renaissance, 1500-1850, and 1850-Present—unless students have taken an equivalent at the MA level.
- 27 hours of courses in the major areas. At least 12 of the 27 hours must be seminars at the 8000 level.
- 15 hours of coursework in the minor areas. At least 6 of the 15 hours must be taken at the 8000-level
The student’s program of study is determined in consultation with the Doctoral Program Committee. The Doctoral Program Committee is constituted in October during the first year of study. It consists of at least four people: the student’s advisor; two additional scholars from within the department; and an outside committee member. The committee:

1. Reviews the student’s MA thesis and determines it equivalency;
2. Accepts any transfer of credit from previous institutions;
3. Approves the plan of study;
4. Determines the major and minor areas as well as the scheduling of the comprehensive exams;
5. Approves the subject of the student’s dissertation;
6. Examines the student’s dissertation.

Languages
All students must demonstrate reading knowledge of two foreign languages, usually German and a Romance language relevant to their area. Departmental language exams are offered in the fall semester of each year, although students can request an examination in the spring semester. Language requirements may be satisfied also by achieving a grade of B or better in a course approved by the Director of Graduate Studies.

In addition to the modern languages, students in classical archaeology must demonstrate reading knowledge of both Greek and Latin. This requirement may be satisfied by passing with a grade of B or better in a course numbered 7500 or higher in both Greek and Latin and by taking a second course at this level (7500 or higher) in the language more closely related to the major field of study. Equivalent courses taken at other institutions must be approved by the Director of Graduate Studies.

Comprehensive Examination
The comprehensive examination in the major and minor areas of art history and archaeology, determined by the student and the doctoral program committee, consists of both written and oral examinations.

Dissertation
The dissertation is expected to be an original, scholarly contribution to the discipline. The topic must be approved by the advisor and the Doctoral Program Committee. A dissertation proposal should be filed with members of the committee within two months of passing the comprehensive exams. A proposal for a dissertation fellowship will satisfy this requirement.

Individual chapters are generally submitted to the advisor as they are written. Other members of the Doctoral Program Committee may also criticize them in draft form. A complete, revised draft of the dissertation must be approved by the advisor at least two months before the defense. Students should distribute the final draft to each member of the committee at least one month before the defense.

Students maintain continuous enrollment by registering for 9080 or 9090 and by submitting a progress report to the Graduate Student Progress System and their advisor each term. Dissertation advising is not normally available during the summer unless previous arrangements have been made.

Further guidelines, including available areas of doctoral study, are included in the department’s website.

Dissertation Defense
The final examination will be in the form of an oral defense of the dissertation. It must take place on or before the penultimate Friday of classes. Any changes recommended by the committee during the defense must be made and approved before the finished thesis can be submitted to the Graduate School. Students are responsible for ensuring they meet the deadlines and guidelines established by the Graduate School for dissertation submission and graduation.

Biological Sciences
J. Walker, Director
College of Arts and Science
105 Tucker Hall

- Department Level Requirements (p. 160)
- BA in Biological Sciences (p. 160)
- BS in Biological Sciences (p. 162)
- Minor in Biological Sciences (p. 164)

Undergraduate Advising Center
3 Tucker Hall
(573) 882-4068
undergraduate research experiences and presentation of research are interested in evidence of critical qualitative characteristics including:

Even more important than the quantitative Grade Point Average, we are interviewed. The best are admitted to the division for graduate study. Students from both national and international pools. Selected candidates offer special outreach programs for secondary school science teachers, to the development of both scientists and informed citizens, we also of their field. Because science exposure in the pre-college years is critical reasoning skills, with graduate mentors who are experts at the frontiers of discovery and the development of individual creativity and critical thinking ability.

Areas of Study
The division offers primarily PhD degrees. General areas of research emphasis within the division include evolutionary biology, ecology and behavior; genetic, cellular, molecular and developmental biology; neurobiology and behavior; and plant sciences. Within these general areas, students may devise more specific graduate programs in, for example, plant genetics, invertebrate chemical communication or neurophysiology.

Interdisciplinary Research
Several students are currently involved in interdepartmental programs in neurosciences, genetics, plant biochemistry and physiology, cellular and molecular biology, the Conservation Biology Program, microbiology, and physiology. In addition, the presence on this campus of a School of Medicine, College of Agriculture, Food and Natural Resources and College of Veterinary Medicine provides opportunities for direct interaction with a variety of established research scientists. Faculty in the division also participate in the Genetics Area Program, the Pathobiology Area Program, the Molecular Biology Program, the Interdisciplinary Program in Plant Biochemistry and Physiology, the Interdisciplinary Neuroscience Program and the Conservation Biology Program.

Graduate

- MA in Biological Sciences (p. 165)
- PhD in Biological Sciences (p. 165)

Director of Graduate Studies: Manuel Leal

About Biological Sciences
The Division of Biological Sciences offers a unique integration of world-class research, award-winning graduate and undergraduate training, and outstanding community outreach. Our research mission includes the acquisition of new knowledge through basic research and coordinated translational research to improve human health, our food supply, and our environment. Graduate training programs emphasize the excitement of discovery and the development of individual creativity and critical reasoning skills, with graduate mentors who are experts at the frontiers of their field. Because science exposure in the pre-college years is critical to the development of both scientists and informed citizens, we also offer special outreach programs for secondary school science teachers, students and citizens in Missouri.

The Division of Biological Sciences actively recruits outstanding graduate students from both national and international pools. Selected candidates are interviewed. The best are admitted to the division for graduate study. Even more important than the quantitative Grade Point Average, we are interested in evidence of critical qualitative characteristics including: undergraduate research experiences and presentation of research results; ability to face and overcome obstacles; exceptional motivation, work ethic, intellectual vitality, initiative, creativity, critical thinking ability and leadership ability.

Research Facilities and Resources
Divisional faculty have ready access to the campus computing network and microcomputers in their laboratories. Beyond the specialized equipment in each faculty research laboratory, departmental and campus equipment and facilities available to graduate students include:

- molecular and cellular biology core facilities, including DNA (with Next Generation Sequencing), Electron Microscopy, Cell and Immunobiology, Informatics, Nuclear Magnetic Resonance, Molecular Cytology, Proteomics, Structural Biology, and Transgenic Animal;
- a 15,000-square-foot greenhouse complex;
- animal-care facilities suitable for mice, bats, rats, rabbits and amphibians;
- a 14-acre botany preserve on the campus and a 146-acre prairie research station;
- 24 walk-in plant growth chambers with regulated light, temperature and humidity controls;
- cell and tissue culture facilities;
- growth chambers;
- scanning spectrophotometers and kinetic fluorimeters;
- ultracentrifuges and scintillation counters;
- HPLC facilities;
- sound isolation acoustic chambers;
• neurophysiological recorders, oscilloscopes and amplifiers; and,
• microneurosurgery facilities and equipment.

Funding
Financial support is available through research training grants, fellowships, scholarships, graduate research assistantships, and graduate teaching assistantships.

Department Level Requirements - Biological Sciences

Requirements - Biological Sciences
Requirements for the BA and BS degrees with a major in Biological Sciences include course work in biology and ancillary science departments (chemistry, physics and math). The BS degree program requires more extensive course work, with additional studies in biology and the ancillary sciences. The BA degree program is more flexible and has fewer required courses to accommodate students with dual degrees or minors in other departments. Both degree programs can be used to prepare for graduate study or professional school. Students must also complete college and university graduation requirements, including university general education requirements.

All courses in the major (including ancillary sciences) must be completed with a grade of C- or higher with a cumulative GPA of 2.0 or higher. (Satisfactory/Unsatisfactory grading is not acceptable for courses in the major.) At least 12 hours of biology coursework must be taken in residence at MU.

Foreign Language Alternative for students pursuing a BS degree in biological sciences
Students who are pursuing a BS degree with a major in biological sciences may opt to satisfy the foreign language requirement through alternative coursework consisting of at least 12 credits in courses numbered 2000 or above. These courses may not be used to satisfy other degree requirements. Students should confer with the Biology Advising Office to insure that alternative courses meet departmental requirements and all alternatives must be approved by the Director of Undergraduate Studies.

Electives
All biology majors must take additional biology courses to total at least 29 credits for the BA degree or 33 credits for the BS degree. No more than 5 credits of introductory biology coursework may be included in the major.

Elective credits must be in formal courses numbered above 2000 and must include at least one 3000- or 4000-level laboratory course, one 4000-level course, and one WI course at the 3000 or 4000 level in a natural science.

Students completing research courses BIO_SC 4950, BIO_SC 4950H, BIO_SC 4952, or BIO_SC 4952H for 6 credits may apply 3 credits toward fulfillment of biology elective hours for the BA or BS degree.

Students may repeat research courses for a total of 12 hours. Any credits remaining after 3 hours are used as a capstone or an elective in biology will be applied toward total hours to graduate. A maximum of 12 credit hours from the following courses (BIO_SC 2940, BIO_SC 2960, BIO_SC 2965H, BIO_SC 4085, BIO_SC 4950, BIO_SC 4950H, BIO_SC 4952 and BIO_SC 4952H) can be counted toward graduation.

BIOCHM 4270 and BIOCHM 4272 may apply toward fulfillment of biology elective hours for the BA or BS degree.

BA in Biological Sciences

Degree Program Description
Biology is a broad field centered on the study of living organisms and processes. While the degree program requires general education courses in behavioral sciences, social sciences, and the humanities, students can specialize their curriculum through their course selections. The main difference between the BS degree and the BA degree is that the BS degree requires more credit hours in biology, chemistry, physics, and math than the BA degree. Some of the knowledge that students acquire includes basic sciences necessary for upper-level biological...
science coursework (i.e., mathematics, statistics, physics, general and organic chemistry), how biologists use mathematical modeling and simulation to describe living systems, and arguments employed by scientists and others in key ethical controversies in biological science and research (for example, stem cell research). This degree is designed to prepare students for graduate study, professional schools, or direct entry into the workplace. Undergraduates majoring in biological sciences go on to careers in a wide range of fields, including medicine and other health professions, biotechnology, industry, government service, conservation and ecology, and secondary and higher education.

**Major Program Requirements**

Department Level Requirements (p. 160) must be completed in addition to all university requirements (p. 30), including general education (p. 31), and the degree requirements below.

**Requirements - Biological Sciences**

Total Credits: 18-24

All courses in the major (including ancillary sciences) must be completed with a grade of C- or higher with a cumulative GPA of 2.0 or higher. No more than 5 credits of introductory biology coursework may be included in the major. At least 12 hours of biology coursework must be taken in residence at MU.

**Electives**

All biology majors must take additional biology courses to total at least 29 credits for the BA degree, of which at least 16 credits must be at the 3000 level or above.

Elective credits must be in formal courses numbered above 2000 and must include at least one 3000- or 4000-level laboratory course, one 4000-level course, and one WI course at the 3000 or 4000 level in a natural science. BIO_SC 2001, BIO_SC 2010, BIO_SC 2015, BIO_SC 2030, BIO_SC 2060, BIO_SC 2100, BIO_SC 2150, BIO_SC 2950, and BIO_SC 3010 may not be used to satisfy this requirement. MICROB 3200 may not be used to satisfy the laboratory course requirement.

Independent readings, internships, and problems courses do not apply (i.e., BIO_SC 2940, BIO_SC 2960, BIO_SC 2965H, BIO_SC 4085, and BIO_SC 4960).

Students completing research courses BIO_SC 4950, BIO_SC 4950H, BIO_SC 4952, or BIO_SC 4952H for 6 credits may apply 3 credits toward fulfillment of capstone or biology elective hours for the BA degree.

Students may repeat research courses for a total of 12 hours. Any credits remaining after 3 hours are used as a capstone or an elective in biology will be applied toward total hours to graduate. A maximum of 12 credit hours from the following courses (BIO_SC 2940, BIO_SC 2960,
BIO_SC 2965H, BIO_SC 4085, BIO_SC 4950, BIO_SC 4950H, BIO_SC 4952 and BIO_SC 4952H) can be counted toward graduation.

BIOCHM 4270 and BIOCHM 4272 may apply toward fulfillment of biology elective hours for the BA or BS degree.

** Semester Plan **

NOTE: These plans are intended only as general guides. Courses outside Biology, Chemistry, MATH 1100, and ENGLISH 1000 are provided only for illustrative purposes. Advanced credit or exemption from the Foreign Language requirement and/or advanced credit in non-science courses, along with the interests of each individual student will determine a final combination of courses in each semester that is unique for each student. Note also that the sample schedules in Semester 5 and beyond are left incomplete on purpose because each schedule should be highly individualized at that point. Students who are pursuing the BA will not need to complete CHEM 2130.

** Plan 1 **

A student that is exempt from MATH 1100

** BS in Biological Sciences **

Degree Program Description

Biology is a broad field centered on the study of living organisms and processes. While the degree program requires general education courses in behavioral sciences, social sciences, and the humanities, students can specialize their curriculum through their course selections. The main difference between the BS degree and the BA degree is that the BS degree requires more credit hours in biology, chemistry, physics, and math than the BA degree. The curriculum for the BS degree currently has the option of completing a foreign language sequence or substituting one of two tracks for the foreign language requirement. Some of the knowledge that students acquire includes basic sciences necessary for upper-level biological science coursework (i.e., mathematics, statistics, physics, general and organic chemistry), how
biologists use mathematical modeling and simulation to describe living systems, and arguments employed by scientists and others in key ethical controversies in biological science and research (for example, stem cell research). This degree is designed to prepare students for graduate study, professional schools, or direct entry into the workplace. Undergraduates majoring in biological sciences go on to careers in a wide range of fields, including medicine and other health professions, biotechnology, industry, government service, conservation and ecology, and secondary and higher education.

**Major Program Requirements**

**Department Level Requirements** (p. 160) must be completed in addition to all university requirements (p. 30), including general education (p. 31), and the degree requirements below.

**Requirements - Biological Sciences**

Requirements for the BA and BS degrees with a major in Biological Sciences include course work in biology and ancillary science departments (chemistry, physics and math). The BS degree program requires more extensive course work, with additional studies in biology and the ancillary sciences. The BA degree program is more flexible and has fewer required courses to accommodate students with dual degrees or minors in other departments. Both degree programs can be used to prepare for graduate study or professional school. Students must also complete college and university graduation requirements, including university general education requirements.

All courses in the major (including ancillary sciences) must be completed with a grade of C- or higher with a cumulative GPA of 2.0 or higher. (Satisfactory/Unsatisfactory grading is not acceptable for courses in the major.) At least 12 hours of biology coursework must be taken in residence at MU.

**Foreign Language Alternative for students pursuing a BS degree in biological sciences**

Students who are pursuing a BS degree with a major in biological sciences may opt to satisfy the foreign language requirement through the following:

- MATH 1400 Calculus for Social and Life Sciences I
- or STAT 1400 Introductory Statistical Reasoning
- MATH 1500 Analytic Geometry and Calculus I
- or STAT 1500 Elementary Statistics
- STAT 1200 Introductory Statistical Reasoning
- or STAT 2500 Introduction to Probability and Statistics I

All courses in the major (including ancillary sciences) must be completed with a grade of C- or higher with a cumulative GPA of 2.0 or higher. No more than 5 credits of introductory coursework may be included in the major. At least 12 hours of biology coursework must be taken in residence at MU.

**Electives**

All biology majors must take additional biology courses to total at least 33 credits for the BS degree, of which at least 14 credits must be at the 3000 level or higher.

Elective credits must be in formal courses numbered above 2000 and must include at least one 3000- or 4000-level laboratory course, one 4000-level course, and one WI course at the 3000 or 4000 level in a natural science. BIO_SC 2001, BIO_SC 2010, BIO_SC 2015, BIO_SC 2030, BIO_SC 2060, BIO_SC 2100, BIO_SC 2150, BIO_SC 2950, and BIO_SC 3010 may not be used to satisfy this requirement. MICROB 3200 may not be used to satisfy the laboratory course requirement.

Independent readings, internships, and problems courses do not apply (i.e., BIO_SC 2940, BIO_SC 2960, BIO_SC 2965H, BIO_SC 4085, and BIO_SC 4960).

Total Credits 35-40
Students completing research courses BIO_SC 4950, BIO_SC 4950H, BIO_SC 4952, or BIO_SC 4952H for 6 credits may apply 3 credits toward fulfillment of capstone or biology elective hours for the BS degree.

Students may repeat research courses for a total of 12 hours. Any credits remaining after 3 hours are used as a capstone or an elective in biology will be applied toward total hours to graduate. A maximum of 12 credit hours from the following courses (BIO_SC 2940, BIO_SC 2960, BIO_SC 2965H, BIO_SC 4085, BIO_SC 4950, BIO_SC 4950H, BIO_SC 4952 and BIO_SC 4952H) can be counted toward graduation. BIOCHM 4270 and BIOCHM 4272 may apply toward fulfillment of biology elective hours for the BA or BS degree.

**Semester Plan**

NOTE: These plans are intended only as general guides. Courses outside Biology and Chemistry are provided only for illustrative purposes. Advanced credit or exemption from the Foreign Language requirement and/or advanced credit in non-science courses, along with the interests of each individual student will determine a final combination of courses in each semester that is unique for each student. Note also that the sample schedules in Semester 5 and beyond are left incomplete on purpose because each schedule should be highly individualized at that point.

**Plan 1**

**A student that is exempt from MATH 1100**

</tr>
</tbody>
</table>
**Introduction to Biological Systems with Laboratory**

**Additional Biological Sciences**

Select 10 credits in courses numbered 2000 or higher (see exclusions below), including at least one course from two of the following areas. Additional coursework may be required to meet the 10 credit requirement.

**Genetics**
- BIO_SC 2200 General Genetics

**Cell Biology**
- BIO_SC 2300 Introduction to Cell Biology

**Evolutionary Biology**
- BIO_SC 3400 Evolution and Ecology
- BIO_SC 4600 Evolution

**Biological Diversity**
- BIO_SC 3210 Plant Systematics
- BIO_SC 3260 Invertebrate Zoology
- BIO_SC 3360 Herpetology
- BIO_SC 3510 Biology of Fungi
- BIO_SC 3710 Introductory Entomology & BIO_SC 3715 and Insect Diversity
- BIO_SC 3750 General Microbiology
- MICROB 3200 Medical Microbiology and Immunology
- F_W 2600 Ornithology
- F_W 2700 Ichthyology
- F_W 3660 Mammalogy

**Total Credits** 15

At least one of the additional courses must include a laboratory.

Courses designed for non-biology majors, problems, internships, readings and research (i.e., BIO_SC 2010, BIO_SC 2015, BIO_SC 2030, BIO_SC 2060, BIO_SC 2100, BIO_SC 2150, BIO_SC 2940, BIO_SC 2960, BIO_SC 2965H, BIO_SC 4085, BIO_SC 4950, BIO_SC 4950H, BIO_SC 4952, BIO_SC 4952H, and BIO_SC 4960) may not be used to fulfill requirements for the minor. MICROB 3200 may not be used to satisfy the laboratory course requirement.

All courses in the minor must have a grade of C- or higher with a cumulative GPA of 2.0 or higher in the minor. (Satisfactory/Unsatisfactory grading is not acceptable for courses in the minor.) At least nine of the 15 credits in the minor must be taken in residence at MU. The program for the Minor must be approved by the Division of Biological Sciences before submitting to the College of Arts and Science.

**MA in Biological Sciences**

For information about Biological Sciences graduate degree programs visit our website: http://biology.missouri.edu/graduate-studies/.

The Division of Biological Sciences also offers a PhD degree (p. 165).

**PhD in Biological Sciences**

The Division of Biological Sciences actively recruits outstanding graduate students from both national and international pools. Selected candidates are interviewed. The best are admitted to the division for graduate study. Even more important than the quantitative Grade Point Average, we are interested in evidence of critical qualitative characteristics including: undergraduate research experiences and presentation of research results; ability to face and overcome obstacles; exceptional motivation, work ethic, intellectual vitality, initiative, creativity, critical thinking ability and leadership ability.

**Eligibility**

All entering graduate students should have a broad background in biology and should have completed courses in mathematics through integral calculus, chemistry through organic chemistry and a year of physics. Exceptions may be made for individual students. Outstanding students with undergraduate degrees in areas other than biology (such as biochemistry, chemistry, physics, engineering, mathematics or psychology) are encouraged to apply with the understanding that subject matter in biology will be addressed in the first year of graduate study.

**Admission Criteria**

- Fall deadline: December 1
- Minimum TOEFL scores:
  - Internet-based test (iBT): 250
  - Paper-based test (PBT): 608

**Required Application Materials**

- To the Office of Graduate Studies:
  - All required Graduate Admissions documents
- To the Biological Sciences Program:
  - Division of Biological Sciences application form
  - Official Transcripts
  - 3 Reference letters
  - Personal Statement
  - Statement of previous research or scholarly experience
  - Résumé

**Chemistry**

T. Glass, Chair
College of Arts and Science
125 Chemistry Building
(573) 882-8374
chemistry@missouri.edu

The Department of Chemistry offers four undergraduate degree tracks, three leading to a Bachelor of Science and one leading to a Bachelor of Arts. A minor in chemistry and a Bachelor of Science degree with departmental honors also are offered.

At the graduate level, the department offers MS and PhD degrees in Chemistry.

**Faculty**

Curators Professor J. L. Atwood**
Rabjohn Professor M. Harmata**
Schlundt Professor K. S. Gates**
Entrance Criteria

An applicant for graduate work in chemistry should have either a Bachelor of Arts or Bachelor of Science degree in chemistry, essentially equivalent to those awarded at MU, with at least a B average or a score at the 70th percentile on the GRE general test.

Examinations

All new graduate students in chemistry are required to take Departmental placement/qualifying examinations in all core areas (analytical, inorganic, organic and physical) prior to registration. Students must qualify in two areas. A student who performs well on an exam, as determined by the department’s Graduate Program Committee, will be considered to have qualified in that area. Students who do not qualify in particular areas, via the placement examinations, must pass appropriate advanced-level courses in those areas to qualify. An A or B grade is required in these courses for qualification.

Research, Advising, and the Committee

Affiliation with research advisor must be made by the end of the first semester through a formal process that is part of CHEM 7087. Student progress in the degree program is evaluated annually in May, using the Graduate Student Progress System through the Graduate School. In addition, the student's Graduate Program Committee meets with the student and their research advisor after their first summer of research to review degree progress. At this time the student will have submitted a formal Research Progress Report to their committee for consideration. All students are expected to attend Departmental Colloquium and Organic/DyNAMITE seminars.

Department Level Requirements - Chemistry

Requirements - BA or BS students

Students should consult with a chemistry advisor to schedule science and mathematics requirements in the appropriate order. Note that for a number of chemistry courses there is a prerequisite of a grade of C or better in a previous course. Please see the Associate Chair for Undergraduate Studies for assignment of an advisor.

Students also must complete all applicable College of Arts and Sciences and University graduation requirements (p. 132), including University general education (p. 31). Note that students pursuing a BS degree with a major in Chemistry may opt to satisfy the foreign language requirement through alternative course work consisting of no fewer than 12 credits numbered 2000 or above.

Degree Tracks

Beyond the major core requirements, each student must select a degree track. There is one track for students pursuing a BA degree and three for those pursuing a BS. The BA degree is designed to meet the needs of students who wish to gain a strong chemistry background but who may have goals other than employment as a chemist or graduate work in chemistry. The American Chemical Society certification track is recommended for BS students who desire professional employment as chemists or who plan to pursue graduate education in chemistry. A medicinal chemistry track is available to BS students who plan careers in the health professions or in pharmaceutical, clinical or medicinal chemistry. The third BS track, leading to simultaneous completion of a BS in Chemistry and a BS in Education, is appropriate for those students who wish to teach chemistry in secondary schools. More information about this third degree track is available from the Chemistry Associate Chair for Undergraduate Studies.

Note: “Track” designations do not appear on transcripts or diplomas.

Double Majors

No specific programs (other than the dual degree program with the College of Education noted above) are offered, although it is possible to combine a chemistry major (BS or BA) with a variety of other majors, including biological sciences, mathematics and physics.

Departmental Honors

A BS with Honors in Chemistry is available to honors-eligible BS students who complete CHEM 4990H and CHEM 4991H as well as all of the requirements for the ACS Certification Track. (These courses replace CHEM 4950). Please see the Chemistry Honors Coordinator, for more specific details about the Honors in Chemistry program.

BA in Chemistry

Degree Program Description

Chemistry is the study of matter and substances in order to understand, explain and predict how substances change. The BA degree is designed for those students who desire a more general education than that provided by the BS degree, but nonetheless are seeking a degree in chemistry. Most chemistry majors continue their education in graduate school or professional school. Many of our graduates are now physicians or have teaching and research careers at universities and colleges. Other graduates are managers in industry and specialists in their fields. This degree also may be appropriate for students in pre-professional programs (pre-medicine, pre-dentistry, pre-pharmacy, and pre-law).

Major Program Requirements

Department Level Requirements (p. 166) must be completed in addition to all university requirements, including general education (p. 31), and the degree requirements below.

Students should consult with a chemistry advisor to schedule science and mathematics requirements in the appropriate order. Note that for a number of chemistry courses there is a prerequisite of a grade of C or better in a previous course. Please see the Associate Chair for Undergraduate Studies for assignment of an advisor.

Students also must complete all applicable College of Arts and Sciences and University graduation requirements (p. 132), including University general education (p. 31). Note that students pursuing a BS degree with a major in Chemistry may opt to satisfy the foreign language requirement through alternative course work consisting of no fewer than 12 credits numbered 2000 or above.

Total Credits: 122-123

* Courses satisfy certain University general education requirements.

Minor in Chemistry

A minor in chemistry is awarded for the completion of:

Required Courses

- CHEM 1320 College Chemistry I 4
- CHEM 1330 College Chemistry II 4
- CHEM 2100 Organic Chemistry I 3
- CHEM 2110 Organic Chemistry II 3
- CHEM 2130 Organic Laboratory I 2

Choose one of the following

- CHEM 2400 Fundamentals of Inorganic Chemistry with Lab 3
- CHEM 3200 Quantitative Methods of Analysis with Lab 4
- CHEM 4600 Introduction to Radiochemistry with Lab 4

If a student’s major already requires all of these courses, then an additional elective course not included in that major must be included in the chemistry minor.

NOTE: At least nine (9) hours must be completed at MU.
All required minor coursework must be completed with a grade of C- or higher.
A minimum GPA of 2.0 is required to earn the minor.
Once an A&S minor is awarded, a student cannot return to MU to complete a major in the same department.
Minor coursework cannot also be used as Foreign Language Alternative.

On-line application form for the Minor in Chemistry (http://backup.coas.missouri.edu/UGForms/minor.html)

**MS in Chemistry**

At this time, the Department of Chemistry is not accepting students into the Master of Science program. Please see admission information on our PhD Program (p. 170).

**PhD in Chemistry**

**Admission Contact Information**

Jerry Brightwell (gradchem@missouri.edu)
125 Chemistry
Columbia, MO 65211
(573) 884-6832

**Admission Criteria**

Fall deadline: February 1
Spring deadline: October 15

- Minimum TOEFL scores:
  - Internet-based test (iBT)
  - Paper-based test (PBT)
  - Minimum 100
  - Minimum 600

- Minimum GRE scores:
  - When did you take the GRE?
    - Prior to August 1, 2011
    - On or After August 1, 2011

<table>
<thead>
<tr>

</tr>
<tr>
<td>On or After August 1, 2011</td>
<td>150</td>
<td>150</td>
<td>3.0-4.0</td>
</tr>
</tbody>
</table>

**Required Application Materials**

*To the Graduate School:*

- All required Graduate School documents

*To the Chemistry Program (https://chemistry.missouri.edu):*

- Departmental Application (PDF)
- GRE scores
- 3 letters of recommendation
- Transcripts from each college and university you have attended
- Statement of Purpose, which should include a summary of why you are interested in pursuing an advanced chemistry degree, a brief description of your previous research experiences, the specific area of chemistry you are interested in pursuing, and your future career goals and plans in the chemistry field.

**Financial Aid from the Program**

Some programs require an extra form or statement from those who wish to be considered for internal assistantships, fellowships or other funding packages. Check the program website or ask the program contact for details.

**Doctoral Degree Requirements**

The following is a brief synopsis of the general degree requirements; please see the Department of Chemistry website for complete details:

1. Students must take at least 5 8000-level courses outside their own research concentration.
2. Students must pass 5 written cumulative exams within a specific time frame.
3. Students must present at least one departmental seminar.
4. Students are required to complete a comprehensive exam, which includes written and oral elements, within a specific time frame.
5. Students must submit and defend a dissertation describing the results of successful and original research in one of the branches of chemistry.

**Communication**

Brian Houston, Chair
College of Arts and Science
108 Switzler Hall
(573) 882-4431
http://communication.missouri.edu

The Department of Communication offers courses in creating and critically evaluating messages. These messages persuade, inform and entertain in contexts such as one-to-one interactions, communication in organizations, and media. Students prepare for careers in broadcasting, sales, public relations, law, politics, marketing and new media.

The department offers BA, MA and PhD degrees with majors in Communication.

**Faculty**

*Associate Professor* E. Behm-Morawitz, C. Colaner, D. S. Dougherty, B. Houston, M. S. McKinney, R. Meisenbach, B. Warner

*Assistant Professor* A. Figueroa-Caballero, H. Hortsman, J. M. Riles

*Assistant Teaching Professor* M. A. Coleman, C. S. Josey, C. Kearney, S. Klien

*Associate Professor Emeritus* M. J. Porter, M. J. Smythe

*Adjunct Professor* A. Abeyta, K. Edwards,

*Graduate Faculty Member - membership is required to teach graduate-level courses, chair master's thesis committees, and serve on doctoral examination and dissertation committees.*

*Doctoral Faculty Member - membership is required to chair doctoral examination or dissertation committees. Graduate faculty membership is a prerequisite for Doctoral faculty membership.*

**Undergraduate**

- BA in Communication (p. 171)

**Admission**

Because of student interest in communication programs, admission is restricted. Students must apply for admission no earlier than the first semester of their sophomore year, or during the semester in which they will complete 45 credits. A copy of the admission procedures and policies is available in the department office or at http://communication.missouri.edu.
The student’s grade point average from the MU system as adjusted by the MU grade repeat policy and the grade point averages in completed communication courses at MU are the primary criteria used to determine admission to the program.

Transferred Student Admission

Transfer students are not eligible for admission until they have completed at least one semester in residence (12 credits) and a communication course in residence. Students who are not admitted may reapply for consideration in subsequent terms.

Departmental Honors

To receive departmental honors, a student must earn a minimum overall MU GPA of 3.3 and a minimum GPA of 3.5 in courses in communication completed at the University of Missouri. Students must select a research project for a minimum of 3 credits with a faculty member, or a creative project completed for a minimum of 3 credits with a faculty member.

Graduate

- MA in Communication (p. 173)
- PhD in Communication (p. 173)

Communication Graduate Programs

College of Arts and Science

108 Switzer Hall

(573) 882-4431

http://communication.missouri.edu/

Director of Graduate Studies: Mitchell McKinney

About the Program

The program takes a theoretical, critical, and experimental approach to the study of communication. The MA program is designed to further enhance the understanding of the communication process by allowing students to study various aspects of communication in greater depth. Graduates are employed in corporate communication, educational and instructional media, sales, research and consulting. The doctoral program is designed for those interested in an academic career of college or university teaching and research. Doctoral students graduate with a strong theoretical background in interpersonal, mass media, organizational, or political communication.

Funding

Graduate students are eligible to apply for fellowships and graduate teaching assistantships. Funding is normally limited to doctoral students.

BA in Communication

Degree Program Description

Communication students navigate rich environments using communication theories and models, critically evaluate messages and arguments, and effectively advocate their values, beliefs, and opinions using communication principles. Graduates are able to create persuasive messages for a variety of contexts using verbal and nonverbal, written, and mediated communication. The curriculum for the degree covers four main areas: interpersonal, mass media, organizational, and political communication. Students are asked to specialize in one area but are required to explore two additional areas. Interpersonal and family communication focuses on communication processes in family and personal relationships. The mass media area studies theory and research related to media content and use, media effects, and audience reception. Students in this area have the opportunity to gain valuable hands-on experience in digital production. Organizational communication focuses on the various ways in which we produce, enact, and generally conduct our lives in various organizational contexts. Political communication studies the communicative activity of citizens, political figures and campaigns, government institutions, and social movements. Professional internships and two undergraduate organizations are offered and student participation is strongly encouraged. A degree in Communication is not intended to provide specific vocational training, but to prepare students for professional opportunities requiring active communication skills. Recent graduates have found careers in sales, public relations, marketing, advertising, promotions, political consulting, corporate communications, event planning, social media, media production, law, education, and public policy.

Major Program Requirements

The major in communication includes a minimum of 30 hours and a maximum of 40 hours in communication courses. Each course is 3 credits unless otherwise noted. Students must complete College of Arts and Sciences (p. 132) and University requirements (p. 30), including University general education requirements (p. 31).

Total Credits 6

Areas of Focus

In addition to required courses, a student must select one of four areas of focus. Students must complete 12-18 hours in one area of focus including one of the core courses in that area (°). The student must take only one course in two of the three other areas of focus. A course may only count once toward meeting these requirements. Students must have at least one 4000+ level course in the major. (Areas of Focus will not appear on transcripts or diplomas.)

### MA in Communication

#### Admission Contact Information

Martha Crump (crumpm@missouri.edu)
108 Switzler Hall; Columbia, MO 65211
(573) 882-4432

#### Admission Criteria

Fall deadline: January 15

- Minimum GPA: 3.0
- Minimum TOEFL scores:
  - Internet-based test (iBT) 61 Effective July 1, 2015 must have a score of 80
  - Paper-based test (PBT) 600
- Minimum GRE scores:
  - Verbal
  - Quantitative
  - Analytical
  - Prior to August 1, 2011 500 500 4.0
  - On or After August 1, 2011 153 144 4.0

Students who do not have an undergraduate degree in communication may be required to take course work beyond the required 30 hours to provide necessary background.

#### Required Application Materials

To the Office of Graduate Studies:
- All required Graduate Admissions documents
To the Communication Program ([http://communication.missouri.edu/?q=grad/admissions](http://communication.missouri.edu/?q=grad/admissions))
  - Departmental application
  - 3 letters of recommendation
  - Example of scholarly writing (no more than 25 pages)
  - Transcripts

### Financial Aid from the Program

Some programs require an extra form or statement from those who wish to be considered for internal assistantships, fellowships or other funding packages. Check the program website or ask the program contact for details.

### Plan of Study

Not more than 6 semester hours of the required 30 hours of credit may be transferred from another university or campus of the University of Missouri System. There is no language requirement. For the assignment of advisors, students should see the director of graduate studies.

### Thesis and Non-thesis Options

The master of arts degree may be completed under either a thesis option, approved by an advisory committee, or a non-thesis option (with a comprehensive examination and project). Both plans require a minimum of 30 hours of graduate credit, including at least 15 hours of course work at the 8000/9000 level. MA candidates may take up to 6 hours of credit for their MA project for the non-thesis option. MA candidates take a minimum of 6 hours in 9090 Thesis Research for the thesis option.

### Credit Hours for Production

No more than 9 hours of course work or independent study in television production or scriptwriting will be accepted for the MA degree. Students may opt to take more production hours but they may not be included in the candidate’s plan of study.

### Length of Study

The MA must be completed in 8 years.

### PhD in Communication

#### Admission Contact Information

Martha Crump (crumpm@missouri.edu)
108 Switzler Hall; Columbia, MO 65211
(573) 882-4432

#### Admission Criteria

Fall deadline: January 15

Minimum GPA: 3.0 preferred
Minimum TOEFL scores:
- Internet-based test (iBT) 61
- Paper-based test (PBT) 600

Minimum GRE scores:
- Verbal
- Quantitative
- Analytical
- Prior to August 1, 2011 500 500 4.0

When did you take the GRE?

<table>

<td>144</td>
<td>4.0</td>
</tr>
</tbody>
</table>
Admission procedures for students who have completed the MA degree elsewhere and wish to become PhD candidates are identical to the departmental requirements outlined for MA candidates. Only those applicants who show evidence of a clear likelihood of successful doctoral work are admitted.

**Required Application Materials**

To the Graduate School
All required Graduate School documents

To the Communication Program
- GRE scores
- Departmental Application
- 3 letters of recommendation
- Example of scholarly writing (no more than 25 pages)
- Transcripts
- Statement of Interest
- Résumé

**Financial Aid from the Program**

Some programs require an extra form or statement from those who wish to be considered for internal assistantships, fellowships or other funding packages. Check the program website or ask the program contact for details.

**Plan of Study**

Before registering for courses, the student must confer with their temporary advisor until a permanent advisor is assigned.

**Committee and Qualifying Requirements**

A doctoral program committee approves the student’s course of study and determines if the student has passed the qualifying requirements during the spring semester of the first year. Only after passing the qualifying requirements will the student be admitted to candidacy for the PhD degree in communication.

For a student whose MA program was done at MU, the six-hour comprehensive examination or the MA thesis defense constitutes the qualifying process. The student may proceed beyond the MA degree only upon the recommendation of the MA examining committee.

**Courses**

The PhD candidate must take at least 48 hours of course work beyond the MA. Students with an MA degree in another discipline may be required by their doctoral program committee to complete additional course work. Course work will include 36 hours within the department. The following courses are required:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>COMMUN 8110</td>
<td>Introduction to Graduate Study in Communication</td>
<td>3</td>

<tr>
<td>COMMUN 8120</td>
<td>Introduction to Communication Research Methods</td>
<td>3</td>
</tr>
<tr>
<td>COMMUN 9170</td>
<td>Research Practicum</td>
<td>3</td>
</tr>
<tr>
<td>COMMUN 9050</td>
<td>Research</td>
<td>3</td>
</tr>
<tr>
<td>One of the following:</td>
<td></td>
<td>3</td>
</tr>
<tr>
<td>COMMUN 8130</td>
<td>Topics in Qualitative Research Methods</td>
<td></td>
</tr>
</tbody>
</table>

**Comprehensive Examination**

The comprehensive examination, including a 30-page literature review, a 15-hour written exam and an oral defense, will cover all areas of studies in the field. During the semester students take comprehensive exams they enroll in.

**Dissertation**

The doctoral dissertation is written under the direction of the candidate’s advisor. The dissertation and the final oral examination on the dissertation complete the requirements for the PhD in communication. Students take a minimum of six hours of.

**Length of Study**

Course work and comprehensive exams for the PhD must be completed in five years. The dissertation must be completed within five years of completing comprehensive examinations. Satisfactory rate of progress means making adequate progress to meet these time requirements. Students working at a typical pace should be able to complete the doctorate in 4 years beyond their master’s.

**Digital Storytelling**

Katina Bitsicas, Program Director
School of Visual Studies, College of Arts and Science
226 Tate Hall
(573) 882-7547
https://visualstudies.missouri.edu/digital-storytelling

Digital Storytelling within the School of Visual Studies combines the ancient practices of narrative with new and emerging tools of multimedia environments. The program emphasizes skills in writing, visual communication and design, and production. Like other forms of storytelling, digital storytelling reaches audiences for artistic, educational, and commercial purposes, translating human knowledge and experience into multimedia spaces. In an age of big data and rapidly changing communication environments, translational skills to connect audiences with interdisciplinary knowledge and expressive arts—from public health to climate science to campaigns to video games—are in high demand across business, government, nonprofit and research sectors. Training in the field requires literacy in narrative, multimedia and networked communication, as well as all elements of digital production, including writing, audio and visual production, and design.

**Faculty**

Associate Professor J. Hearne
Assistant Professor K. Bitsicas, J. Erb, C. Rozier
Graduate Faculty Member - membership is required to teach graduate-level courses, chair master's thesis committees, and serve on doctoral examination and dissertation committees.

** Doctoral Faculty Member - membership is required to chair doctoral examination or dissertation committees. Graduate faculty membership is a prerequisite for Doctoral faculty membership.

Undergraduate

- BA in Digital Storytelling (p. 175)
- Minor in Digital Storytelling (p. 175)

Graduate

There currently is not a degree in Digital Storytelling offered at the graduate level.

BA in Digital Storytelling

Degree Program Description

The Digital Storytelling Program is an interdisciplinary B.A in the School of Visual Studies, that combines narrative and conceptually driven studies with new and emerging multimedia tools to achieve a balance between aesthetic and imagination. Through a variety of academic units including art, film studies, information technology, art history, English, theater and architectural studies, students take courses in writing, critical studies, art, video production and animation. Like other forms of storytelling, digital storytelling translates human knowledge and experience to reach audiences for artistic, commercial and social justice purposes. In arenas ranging from public health to video games to museum education, digital content creators are in high demand across business, government, nonprofit and artistic research sectors. Training in the field requires literacy in narrative, multimedia and networked communication, as well as all elements of digital production, including writing, audio and visual production, and design.

In addition, students must complete all College of Arts and Science and University graduation requirements, including University general education.

owenle@missouri.edu

The Department of Economics takes a global view of economics, with an emphasis on applied problems. An economics major prepares students for careers in business and government and for graduate work in areas such as economics, business and law. A basic understanding of economics develops insight into the many issues facing contemporary society, such as corporate downsizing, environmental pollution, urban decay, poverty, international trade, health care, educational reform, politics and sports deals.

In addition to the BA and the BS degrees in the College of Arts and Science, the Department of Economics offers an emphasis area within the Bachelor of Science in Business Administration (BSBA) degree in the Trulaske College of Business. The department also offers MA and PhD degrees in Economics as well as a minor.

**Assistant Teaching Professor**  
E. Parsons*

* Graduate Faculty Member - membership is required to teach graduate-level courses, chair master's thesis committees, and serve on doctoral examination and dissertation committees.

** Doctoral Faculty Member - membership is required to chair doctoral examination or dissertation committees. Graduate faculty membership is a prerequisite for Doctoral faculty membership.

**Undergraduate**

- BA in Economics (p. 177)
- BS in Economics (p. 178)
- Minor in Economics (p. 179)

Before a graduation plan in economics will be approved, students in the College of Arts and Science must have a cumulative GPA of 2.0 or a 2.0 GPA in economics coursework.

**Departmental Honors**

Candidates for Economics departmental honors must be Economics majors with at least a cumulative GPA of 3.30 and, in Economics courses taken at the University of Missouri-Columbia, at least a GPA of 3.50 for BA majors or a 3.25 for BS majors. Candidates must complete ECONOM 4371 Introductory Econometrics and ECONOM 4995 Honors Thesis during their junior or senior year and must receive a grade of B or higher in order to be awarded Department Honors.

**Double Majors, Dual Degrees and Five-Year Program**

For double majors and dual degrees, students must satisfy all requirements of both degree programs. Some courses may be allowed to count toward both degrees. Carefully chosen elective courses in addition to required courses can facilitate double majors and dual degrees.

Common double majors in the College of Arts and Science are:

- BA with majors in Economics and Political Science, Psychology, History, English or Communication
- BS with majors in Economics and Statistics or Mathematics

Common double degrees with other schools and colleges are:

- BA with majors in Economics and Journalism or Education
- BS with majors in Economics and Engineering, Accountancy, Finance, or Marketing

By planning their courses carefully, Economics majors can earn a bachelor’s and a master’s degree in economics in five years. Students who are in the BA or BS programs are good candidates for this program. Students must be accepted to this program by the beginning of their senior year.

Students interested in pursuing any of these options should contact the Undergraduate Academic Advisor in economics for further advising.

**Economics Emphasis Area in Business Administration Major**

See the Trulaske College of Business for requirements for the Bachelor of Science with a major in Business Administration (BS BA) with an emphasis in Economics (p. 366).

**Graduate**

- MA in Economics (p. 180)
  - with emphasis in Econometrics and Quantitative Economics (p. 180)
- PhD in Economics (p. 180)
  - with emphasis in Econometrics and Quantitative Economics (p. 182)

**Director of Graduate Studies:** Xinghe Wang

**About the Program**

The Department of Economics offers graduate work leading to the master of arts and the doctor of philosophy degrees. The program prepares students for careers in government and private enterprises, colleges, universities and research institutions through training in the techniques and applications of economic analysis, interpretation of data and the
formulation and appraisal of public policy. Admission may be granted at
any time to qualified students.

Degrees Offered
- MA and PhD in Economics
- Cooperative Dual Degrees: MS in Applied Mathematics and MA in
  Economics, MA in Economics and MA in Statistics, MA in Economics
  and JD in law

Specializations
The department offers fields of specialization in monetary economics,
international economics, econometrics, public economics, industrial
organization, labor economics, and quantitative microeconomic policy
analysis.

Dual Degrees
The Departments of Mathematics and Economics offer selected
students the option of obtaining dual degrees: an MS degree in Applied
Mathematics and an MA degree in Economics. The Departments
of Economics and Statistics offer selected students the option of
obtaining dual degrees: an MA degree in Statistics and an MA degree in
Economics within an integrated program. Whereas obtaining separate
master’s degrees would nominally require a minimum of 60 credit hours
of course work, students enrolled in the dual master’s degree program
may obtain degrees based on 48 credit hours of course work. Students
may be able to complete degree requirements within 2½ years.

Financial Support
Student financial support is available to graduate students as teaching
and research assistantships, allocated based on promise and
performance in the program. In addition, direct fellowship support may
also be available to selected candidates. Tuition is waived for students
who receive assistantship or fellowship support. February 1 is the
deadline for applications for assistantships for the school year beginning
in August, but earlier submissions are desirable. Late applications will be
accepted subject to the availability of openings and funds.

BA in Economics

Degree Program Description
Economics is a broad discipline that explores the factors that determine
production, distribution, and consumption of resources. An Economics
degree provides a good foundation on how the economy and the
world works and an understanding of the effects of policy issues.
The BA degree is designed for students who plan to continue their
education in non-economics fields and for students who plan to seek
employment after graduation. Post-graduate educational alternatives
include law school or programs in the business school, political science
and journalism. Graduates in Economics enter a diverse field of jobs in
government, banking, insurance or other financial sectors, private sector
businesses or even open their own businesses. Frequently, students in
humanities or fine arts complete a BA in Economics as a second major in
order to increase their employment potential.

Major Program Requirements
Students must earn a grade of C- or higher in all Economics,
Mathematics and Statistics courses, and must have at least a 2.0 GPA
in Economics courses to earn the degree. At least 21 credit hours in

Economics must be completed in residence. In addition to the major core
requirements, students must complete college and University graduation
requirements (p. 30) including University general education requirements
(p. 31).

Economics is a broad discipline that explores the factors that determine production, distribution, and consumption of resources. An Economics degree provides a good foundation on how the economy and the world works and an understanding of the effects of policy issues. The BS degree in Economics is a challenging degree program specifically designed for students who plan to attend graduate school in Economics, Finance, or related fields. The curriculum includes more quantitative coursework than the BA degree, but still allows students to take electives that focus on various aspects of economics, such as labor, law, and education. Graduates in Economics enter a diverse field of jobs in government, banking, insurance or other financial sectors, private sector businesses or even open their own businesses. Often students pursuing a BS degree double major with Mathematics or Statistics and look at employment positions in actuarial science or more analytical fields.

**Major Program Requirements**

Students must earn a grade of C- or higher in all Economics, Mathematics and Statistics courses, and must have at least a 2.0 GPA in Economics courses to earn the degree. At least 21 credit hours in Economics must be completed in residence. In addition to the major core requirements, students must complete college and University graduation requirements (p. 30) including University general education requirements (p. 31).

**BS Tracks in Economics**

The BS Quantitative Track is a degree program for students who plan to attend graduate school in economics or finance, while the BS Applied Track is a program for students who want more analytical experience for their future career ambitions.

**Minor in Economics**

Students wishing to minor in economics must take a minimum of 18 credits in economics*. Economics courses not taken in residence must be approved by the Department, but at least nine hours must be completed at MU. All courses must be completed with a grade of C- or higher with an Economics GPA of at least 2.0. Students who take both ECONOM 3251 and ECONOM 4351 will receive credit for only one of these courses.

Students pursuing the Bachelor of Science in Business Administration with an emphasis in Economics are not eligible to earn the Economics minor.

**Minor Requirements**

| ECONOM 1014 & ECONOM 1015 or ECONOM 1000 or ECONOM 1051H | Principles of Microeconomics and Principles of Macroeconomics | 5-6 |
| ECONOM 4351 | General Economics | 3 |
| ECONOM 4351 | General Economics - Honors | 3 |
| ECONOM 4351 | Intermediate Microeconomics | 3 |

*Students must have completed at least 12 credits numbered 2000 or above that are not from the parent department, are not normally required of all departmental majors and do not appear elsewhere in the area of concentration. The foreign language alternative is planned by the student with the Economics Academic Advisor and must be approved by the Director of Undergraduate Studies.
MA in Economics

Degree Requirements

To fulfill requirements for the MA degree, a candidate must complete a 30-hour approved program of study. This includes 21 credit hours of core courses:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>

</table>

1 ECONOM 9451 may be substituted for ECONOM 8451, ECONOM 9453 may be substituted for ECONOM 8453, ECONOM 9472 may be substituted for ECONOM 8473, and enrollment in 9000-level courses may require consent of the department and/or the instructor.

PhD Track

Students can also earn an MA while working toward a PhD by passing the comprehensive examination.

Admissions

Applicants are required to meet two sets of minimum qualifications for admission: the requirements of the MA in the Economics program (http://gradstudies.missouri.edu/academics/programs/economics/master-of-arts-in-economics.php) and the minimum requirements of the Office of Graduate Studies (http://gradstudies.missouri.edu/admissions/eligibility-process/minimum-requirements.php). Because requirements vary, you must refer to a degree program’s graduate admission page to learn about specific admission criteria, application deadlines, eligibility and application process. Before official admissions to the University of Missouri, your application materials will be reviewed by both the Office of Graduate Studies and the degree program to which you’ve applied.

Students with a bachelor’s degree in any field may apply for admission into the master’s program. Applicants are admitted on the basis of an undergraduate record, with particular emphasis on performance in economics, mathematics, and statistics courses, performance on the GRE, and letters of recommendation. Although the graduate program assumes mathematical background through calculus, as well as an undergraduate economics training, applicants with more limited backgrounds may be accepted into the program. Such individuals will be assigned supporting course work, some or all of which may be counted toward fulfilling requirements.

Required Application Materials

To be uploaded to the MU Online Graduate Application for Admission:

- Your transcript from every college or university you have attended
- Your résumé
- Your personal statement
- Two letters of recommendation
- A copy of your official TOEFL or IELTS score. Your official TOEFL or IELTS scores (sent directly from the Educational Testing Service) must be submitted directly to the Graduate Admission Office (210 Jesse Hall, Columbia, MO 65211) * International Applicants only.
- Your official GRE scores (sent directly from the Educational Testing Service)

MA in Economics with Empahsis in Econometrics and Quantitative Economics

All MA students in Economics with good academic standing may apply to add the emphasis in Econometrics and Quantitative Economics to their program. The emphasis area requires 9 credit hours. Students may satisfy the requirements for the MA and the emphasis area at the same time.

Required Courses: (must have 3.0 GPA average)

Two 9000-level economics courses in one area of specialization 6
Four other 9000-level economics courses (excluding ECONOM 9090 and ECONOM 9480) 12
15 credit hours of ECONOM 9085, Econom 9480 or other electives 15
Dissertation research 12
Total Credits 72

Courses taken to satisfy these requirements (except dissertation research) may be taken while earning an MA at MU, or, as with students entering the program with prior graduate coursework, at other accredited colleges and universities as recommended by the Graduate Studies Committee.

Qualifying Process
Students pursuing the PhD degree must pass a qualifying examination. Upon completion of relevant required courses in the first year, students take the qualifying examination, which covers microeconomics, macroeconomics and econometrics. The exam is 6 hours in length; it is administered in parts with two-hours devoted to each of the three core subjects. The first offering of the exam is in late May. Students who fail to pass all three parts of the exam the first time may retake the failed part(s) the following July/August. Students who fail the exam may continue in the MA program.

Comprehensive Examination Process
Students pursuing the PhD degree must pass a comprehensive examination. The comprehensive exam has a written section and an oral section, both administered by the student’s dissertation committee. The oral section of the comprehensive exam is part of the dissertation proposal defense.

Dissertation Requirements
The dissertation must make a substantial contribution to knowledge. Upon completion of the dissertation, students pursuing the Ph.D. degree must pass a final oral examination. This exam can include an evaluation of the dissertation, the student’s defense of the dissertation, and the student’s general comprehension of economics, and is open to the academic community.

Ordinarily, to be accepted for advisement in the PhD program, a student must have a master’s degree in economics, or, alternatively, the student must meet the requirements for admission to the MA program, together with the requirement of an adequate background in economics, mathematics and statistics.

Required Application Materials
The following items are required to be uploaded to the MU online Graduate Application for Admission:
• Your transcript from every college or university you have attended
• Your résumé
• Your personal statement
• Three letters of recommendation
• A copy of your official TOEFL or IELTS score. Your official TOEFL or IELTS scores (sent directly from the Educational Testing Service) must be submitted directly to the Graduate Admission Office (210 Jesse Hall, Columbia, MO 65211) * International applicants only.
• Your official GRE scores (sent directly from the Educational Testing Service)

Specialization
Fields
Students are required to complete one area of specialization consisting of two courses and a field paper. It is expected that this area will be related to the objectives of the student’s dissertation. The instructors of the field courses will provide written guidance about field papers and oversee the content of the research paper, and the instructor of the PhD research workshop (ECONOM 9413) oversees the mechanics of the paper. Field requirement is satisfied after both courses have been passed and the instructor(s) of both field courses as well as ECONOM 9413 approve the field paper. The areas of specialization from which the student can choose are listed below. The department commits itself to offering a second course in any field to all students who have completed an initial course in the field, within two semesters of the student completing the initial course (not counting the summer semester). This course may consist of a readings course with one of the faculty members in the field in lieu of a regular course. If a readings course is provided, then the faculty member is required to provide the department with the reading list for the course.
List of Fields and Courses

Econometrics

ECONOM 9476  Advanced Topics in Econometrics II  3
ECONOM 9477  Advanced Topics in Econometrics III  3

Industrial Organization

ECONOM 9455  Monopoly and Competition  3
ECONOM 9471  Advanced Game Theory  3

International Economics

Labor Economics

Monetary Economics

ECONOM 9431  Central Banking Policies  3

Public Economics

Public Policy - Public/International

Quantitative Microeconomic Policy Analysis

ECONOM 9446  Advanced Empirical Methods  3
ECONOM 9447  Topics in Microeconomic Policy Analysis  3

Statement on Satisfactory Progress

1. Taking and completing required course work on schedule and maintaining a GPA of at least 3.0.
2. Enrollment in a full-time program of study, i.e., completion of at least 9 credit hours per semester.
3. Taking and passing qualifying and comprehensive examinations on schedule.
4. Completing the field requirement on schedule.

PhD in Economics with Emphasis in Econometrics and Quantitative Economics

All PhD students in Economics with good academic standing may apply to add the emphasis in Econometrics and Quantitative Economics to their program. The emphasis area requires 12 credit hours. Students may satisfy the requirements for the PhD and the emphasis area at the same time.

Required Courses: (must have 3.0 GPA average)

ECONOM 8370  Mathematics for Economics  3
ECONOM 9472  Econometric Theory I  3
ECONOM 9473  Econometric Theory II  3
ECONOM 9474  Advanced Topics in Econometrics I  3

English

Alexandra Socarides, Chair
Steve Karian, Associate Chair
College of Arts and Science
114 Tate Hall
(573) 882-6421

The English Department provides a major that not only grants a broad introduction to a range of literary and cultural study and creative activities, but also allows students to work more intensely in particular subfields of the discipline, including literary history, critical theory, film and cultural studies, linguistics, and creative writing. A major in English develops skills in reading, critical thinking, and writing. A degree in English is not intended to provide specific vocational training but rather to give a broad education that can lead to many different careers, especially those requiring excellent communication skills and analytical thinking.

Recent graduates have gone on to careers in teaching, publishing, television, film, advertising, public relations, insurance, and government. In addition, English is excellent preparation for graduate or professional schools such as law and business.

The department offers BA, MA, and PhD degrees with majors in English. Two minors are also available, the English minor and the English writing minor.

Faculty

Assistant Professor  G. Fried**, R. Grolemund**, R. Hayes*
Associate Professor Emeritus  S. Cairns**, H. Hinkel*, D. G. Hunt*, M. Patton*, G. Swan
Curators’ Professor Emeritus  E. Lawless*

• Graduate Faculty Member - membership is required to teach graduate-level courses, chair master’s thesis committees, and serve on doctoral examination and dissertation committees.
** Doctoral Faculty Member - membership is required to chair doctoral examination or dissertation committees. Graduate faculty membership is a prerequisite for Doctoral faculty membership.

Undergraduate

• BA in English (p. 183)
• Minor in English (p. 184)
• Minor in English Writing (p. 185)

Director of Undergraduate Studies: Lee Manion

Departmental Honors

To graduate with honors in English, students must have a cumulative GPA of 3.3 and a GPA of 3.5 in English courses and successfully complete ENGLISH 4996 and ENGLISH 4995. Students wishing to enroll in these courses must complete an application process in January of their junior year. More information is available from the Director of Undergraduate Studies or the department’s Academic Advisor.

Graduate

• MA in English (p. 185)
• PhD in English (p. 186)

College of Arts and Science
114 Tate Hall
insurance, government, public service, management, and law. In teaching, publishing, television, film, advertising, public relations, skills and analytical thinking. Recent graduates have gone on to careers intended to provide a broad, open-ended education that can lead to many different careers, especially those requiring excellent communication.

Studies; or Gender and Sexuality Studies. A degree in English is English Language and Linguistics; Folklore Studies; Film and Digital Literary, Critical or Rhetorical Theory; Creative Writing; Composition; Century Literature; African Diaspora Studies; Post-Colonial Literature; and theory/method studies. Students must also take several courses in an area of specialization such as Medieval Literature; Renaissance/Tradition, the only journal involved in the comparative study of oral traditions.

About the Program
With more than 70 M.A. and Ph.D students, we are one of the largest and most diverse departments on the Columbia campus. We offer a wide range of courses in British and American Literature, Creative Writing, African Diaspora Studies, Critical Theory, and English Language and Linguistics.

Subject Areas
Lecture courses, seminars and directed research are available in British and American language and literature, creative writing, critical theory, language and linguistics, and African diaspora studies.

Funding
Students admitted to the graduate program usually receive a fellowship or teaching assistantship. Outstanding applicants will also be eligible to compete for a variety of college and university fellowships. The deadline for applications to both the MA and PhD programs is January 1. Announcements of awards are made by early April.

Publications Experience
Students will also have the opportunity to assist faculty in editing The Missouri Review, a nationally recognized journal of fiction, poetry and essays; Persea Books, a small, venerable publishing house; and Oral Tradition, the only journal involved in the comparative study of oral traditions.

BA in English

Degree Program Description
English majors are asked to think in terms of both the breadth and depth of their knowledge, studying a wide variety of topics, periods and methods; developing skills in reading, critical thinking, and writing; and delving deeply into a particular area of interest. Students study literature from around the world and from all historical periods, learn about the theory and practice of writing through the study of rhetoric and composition, and acquire skills as writers of fiction, poetry, and nonfiction. The BA in English requires the following types of courses: period studies and surveys, author studies, genre/thematic studies, and theory/method studies. Students must also take several courses in an area of specialization such as Medieval Literature; Renaissance/Early Modern Literature; 18th and 19th Century Literature; 20th and 21st Century Literature; African Diaspora Studies; Post-Colonial Literature; Literary, Critical or Rhetorical Theory; Creative Writing; Composition; English Language and Linguistics; Folklore Studies; Film and Digital Studies; or Gender and Sexuality Studies. A degree in English is intended to provide a broad, open-ended education that can lead to many different careers, especially those requiring excellent communication skills and analytical thinking. Recent graduates have gone on to careers in teaching, publishing, television, film, advertising, public relations, insurance, government, public service, management, and law.

In addition, students must complete all College of Arts and Science and University graduation requirements (p. 30), including University general education (p. 31).

Major Program Requirements
English majors must complete a minimum of 30 credit hours in English. At least 24 credit hours in the major must be at the 3000-level or above. At least 9 credit hours must be at the 4000-level. A minor in a different discipline is recommended.

No more than 40 credit hours in English may be counted toward graduation. The required English composition credits are excluded from this maximum and are recommended to be taken before the student enrolls in any English courses numbered above 2009.

Honors: Students may take an additional 3 hours (33 total) to complete ENGLSH 4995 Senior Honors Thesis. Note that ENGLSH 4996 Honors Seminar in English, will count towards the 9-hour requirement for 4000-level classes, ENGLSH 4995 Senior Honors Thesis, will not.

Internships and Independent Research: Students making satisfactory progress towards completion of degree requirements are encouraged to explore possibilities for gaining professional experience through internal or external internships. They are also encouraged to follow up on opportunities to pursue independent research sponsored by the department, the College of Arts and Science, and other divisions of the University. Note that only 3 credit hours of internship or independent study (ENGLSH 4940, ENGLSH 4950, ENGLSH 4955, or ENGLSH 4960) will count towards the major's 4000-level requirement or towards the 24 hours at the 3000-level or above.

Major Core Requirements

Introduction
ENGLSH 2100 Writing About Literature

Body of Major

• At least 30 credit hours in English (including 3 hours of ENGLSH 2100) satisfying requirements listed below.
• Courses may count for 1, 2, or 3 of the three requirements for Breadth of Study, Historical Coverage and Depth of Study.
• At least one course must meet the Diversity Requirement.
• At least 24 hours must be at the 3000-level or above. At least 9 hours must be at the 4000-level.

Breadth of Study
Students take at least 1 course from each of the following areas (3000-level and above).

a. Period Studies and Surveys
Courses in this area examine texts in their historical context, and consider how historical events and developments shape culture and texts.

b. Author Studies
Courses in this area focus on an individual or several authors or artists.

c. Genre Studies; Thematic Studies
Genre Studies introduces students to a textual kind (e.g. the novel, poetry, drama, the essay, etc.), its conventions, and its history.

Thematic Studies explores a shared theme among works that may or may not belong to the same period.

d. Theory and Methods

Courses in this category give primary attention to the frame of inquiry and/or the method by which knowledge-making takes place.

Historical Coverage

Students take 3 courses that focus on literature written prior to 1890. One of these must focus on literature written prior to 1603.

Depth of Study

Students must take 3 courses in a single area of specialization listed below.

a. Medieval Literature
b. Renaissance/Early Modern Literature
c. 18th and 19th Century Literature
d. 20th and 21st Century Literature
e. African Diaspora Studies
f. Postcolonial & Global Literatures
g. Literary, Critical, or Rhetorical Theory
h. Creative Writing
i. Composition & Studies in Writing
j. English Language and Linguistics
k. Folklore Studies
l. Film & Digital Studies
m. Gender and Sexuality Studies
n. Other (subject to English Department Advisor approval)

Diversity Requirement

English majors must take one 3-hour course that focuses on issues such as race, ethnicity, gender, or sexuality. Each semester a list of approved courses will be made available to students.

Culmination

ENGLSH 4970 Capstone Experience (or ENGLSH 4996 Honors Seminar in English if choosing the honors sequence)

Total Credits: 121

* Course concurrently meets University General Education, Arts and Science Foundation and/or campus graduation requirements.

^ Course meets degree requirements or major requirements.

Depth Areas are courses that are 2000 level or above chosen from four areas: the sciences, social sciences, behavioral sciences, or humanities and fine arts. Arts and Science students are required to complete 9 hours in at least 2 of the four areas.

Minor in English

The English minor consists of 15 credit hours of coursework beyond ENGLSH 1000 (or its equivalent). It must include at least 6 credit hours in courses numbered 3000 or above and must include at least 3 credit hours at the 4000 level. It may include no more than 3 credit hours from amongst ENGLSH 4940, ENGLSH 4950, ENGLSH 4955, and ENGLSH 4960. A grade of C- or above must be earned in all minor course work and a minimum GPA of 2.0 achieved in the minor. A minimum of 9 credit hours must be completed in MU coursework.
Minor in English Writing

The English Writing minor consists of 15 credit hours of coursework beyond ENGLSH 1000 (or its equivalent), and is designed to help students in all majors and colleges improve their writing and critical thinking skills. Students must take at least 3 credit hours of a composition course (ENGLSH 2010, ENGLSH 2030, ENGLSH 3010); at least 6 credit hours of a nonfiction creative writing course (ENGLSH 1520, ENGLSH 2520, ENGLSH 4520) or ENGLSH 4040; and at least 3 credit hours of any English Writing Intensive course beyond those WI courses required for graduation. The remaining 3 credit hours can be taken in any of the above 3 categories (composition, nonfiction creative writing or ENGLSH 4040, and English WI) and can include any creative writing course. A grade of C- or above must be earned in all minor course work and a minimum GPA of 2.0 achieved in the minor. A minimum of 9 credit hours must be completed in MU coursework.

MA and MA/PhD

To be admitted to the MA program, a candidate should have majored in English as an undergraduate, with at least 18 hours in upper division courses in literature or linguistics. Students with other undergraduate majors may be admitted provided their background in English studies is suitable and provided they complete an appropriate course of preliminary study. The candidate should have an overall undergraduate average of at least a B (3.0), with a higher average in courses in the major.

Application Process and Materials

Apply online through the Office of Graduate Studies (http://gradstudies.missouri.edu/admissions/apply)

- The University requires a $65 fee and one set of transcripts from all colleges or universities you have attended.
- If already enrolled as a PBS student or as an undergraduate student at MU, you must file a transfer of division form with the admissions office.

The following items are needed to complete your application for the MA, MA/PhD, and PhD programs.

- GRE scores. The general test is required.
- Three letters of recommendation (at least two of which must be academic).
- One transcript from all colleges or universities you have attended.
- CV
- List of any previous graduate classes taken (for PhD candidates)

- Statement of purpose (approximately 500 words): The admissions committee is interested in your past academic interests, including specific papers and projects you have worked on, and what you wish to accomplish as a graduate student. Please explain why you wish to pursue a particular emphasis (poetry, Romanticism, etc...), in this department. The Statement of Purpose serves as your request to be considered for a Graduate School fellowship.
- Writing Sample: One 15-20 page scholarly paper for students applying for Literature Studies or for English Language and Linguistics. Creative Writing applicants should submit one critical/scholarly paper and one of the following: a sample of your fiction (15-30 pages), creative non-fiction (15-20 pages), or poetry (15-20 pages).

Your application cannot be read until all of these materials have been received. All materials must be received by the departmental deadline of January 1.

Plan of Study

The MA program is a two-year program with 30 hours of coursework, including at least 15 hours in graduate seminars at the 8000-level. Coursework builds on a student’s Bachelor’s-level knowledge of her or his field to provide a broad perspective on literature and culture while allowing for specialization and advanced research work. Funded students receive tuition benefits and stipend each year. In their first year, funded students receive teaching training in their first semester, and teach one section of English 1000 while taking three courses per semester. In their second year they teach two sections of English 1000, complete coursework, and write an MA Thesis.

Degree Timeline

First Year: 18 hours of coursework and a ¼-time assistantship in the fall with training to teach composition through shadowing in the Composition Program and through tutoring in the Writing Center. In spring semester, teach one section of English 1000.

Second Year: Complete coursework and teach two sections of English 1000 per semester. Write MA Thesis.

Throughout their time in the department, students will be advised on designing programs of study not only to achieve their personal goals but also to enter the job market as successfully as possible. No grades of C will be counted toward the completion of the required number of hours for the MA. Although the lowest passing grade for graduate credit is B, graduate students should achieve A grades in a significant portion of their courses, and students with a B or near-B average are not encouraged to pursue graduate work beyond the MA.

Course Requirements

30 hours total of coursework of which 15 hours must be at the 8000 level; the remaining hours may be either 7000 or 8000 level.

3 hours in critical theory (English 8060, English 8050, or English 8070)

Introduction to Graduate Study (English 8005): 1-credit class required in Fall semester of the first year

3 hours are required in 2 of the following 3 areas of literature at the 8000 level. However, for students concentrating in literature, 3 hours are required in each of the following 3 areas:
The successful thesis in Language and Linguistics will:

- identify and investigate a problem or question that is relevant to current debates in the field.
- situate the investigation within the relevant scholarship with appropriate citation of the literature.
- demonstrate command of methodological and analytical tools suitable for the investigation.

The successful thesis in Creative Writing will:

- demonstrate command of effective writing in an appropriate academic register.

In their first year, students should discuss possible thesis topics with the Director of Graduate Studies and faculty members likely to constitute the student's MA Thesis Committee.

The MA Thesis includes up to 6 hours of English 8090. Students generally take 6 hours of thesis credit in one semester while doing research and writing. Some will take 3 hours in the fall and then 3 more in the spring semester if they are working closely with an advisor at the outset of the second year. English 8090 counts towards the total number of course hours required for the MA, but does not count towards the required number of 8000-level courses.

**MA/PhD Track**

The MA/PhD program is intended for especially well-prepared students who have BA degrees and know they wish to pursue the PhD. It offers enhanced financial aid and an accelerated time to degree. In their first year in the program, students take three courses per semester. In their first semester, they receive teaching training through shadowing in the Composition Program and through tutoring in the Writing Center. In their second semester, they teach one section of English 1000, receiving a substantial stipend to ensure that they complete their work in a timely manner. In their second, fifth, and sixth years in the program, MA/PhD students teach a reduced schedule of two classes in the fall and one class in the spring without a reduction in pay from our regular PhD package. Students complete MA requirements and begin taking PhD coursework in their second year in the program. Academic requirements for the two degrees are identical with the academic requirements for the separate MA and PhD degrees.

**Self-Funded MA in English**

Students can be accepted into our MA program without the aid of a university fellowship or assistantship. If accepted, students must fulfill all degree requirements, but they do not have to take English 8010, the Theory and Practice of Composition, and do not teach English 1000.

Self-funded students will take seminars, workshops, and other courses with the rest of the graduate student population; permission will be required for participation in the creative writing courses.

Students can pursue the MA either part time or full time, but all students must complete the MA program in the five-year time limit mandated by the Graduate School.

**PhD in English**

**Admission Contact Information**

Victoria Thorp thorpv@missouri.edu
Department of English
114A Tate Hall, Columbia, MO 65211

**Admission Criteria**

Fall deadline: January 1

Minimum TOEFL scores:

<table>
<thead>
<tr>
<th>Internet-based test (iBT)</th>
<th>Paper-based test (PBT)</th>
</tr>
</thead>
<tbody>
<tr>
<td>80</td>
<td>550</td>
</tr>
</tbody>
</table>

**Admission Criteria**

Fall deadline: January 1

Minimum TOEFL scores:

<table>
<thead>
<tr>
<th>Internet-based test (iBT)</th>
<th>Paper-based test (PBT)</th>
</tr>
</thead>
<tbody>
<tr>
<td>80</td>
<td>550</td>
</tr>
</tbody>
</table>
To be considered for the PhD program, a candidate should hold an MA degree in English or its equivalent.

International applicants must send a copy of their TOEFL score, per university requirements.

### Application Process and Materials

Apply online through the Office of Graduate Studies (http://gradstudies.missouri.edu/admissions/apply)

- The University requires a $65 fee and one set of transcripts from all colleges or universities you have attended.
- If already enrolled as a PBS student or as an undergraduate student at MU, you must file a transfer of division form with the admissions office.

The following items are needed to complete your application for the MA, MA/PhD, and PhD programs.

- GRE scores. The general test is required.
- Three letters of recommendation (at least two of which must be academic).
- One transcript from all colleges or universities you have attended.
- CV
- List of any previous graduate classes taken (for PhD candidates)
- Statement of purpose (approximately 500 words): The admissions committee is interested in your past academic interests, including specific papers and projects you have worked on, and what you wish to accomplish as a graduate student. Please explain why you wish to pursue a particular emphasis (poetry, Romanticism, etc...), in this department. The Statement of Purpose serves as your request to be considered for a Graduate School fellowship.
- Writing Sample: One 15-20 page scholarly paper for students applying for Literature Studies or for English Language and Linguistics. Creative Writing applicants should submit one critical/scholarly paper and one of the following: a sample of your fiction (15-30 pages), creative non-fiction (15-20 pages), or poetry (15-20 pages).

Your application cannot be read until all of these materials have been received. All materials must be received by the departmental deadline of January 1.

### Plan of Study

The PhD in English is designed to be a five-year program requiring 30 hours of coursework. Students select and work closely with a faculty advisory committee to plan a course of professional study and training in their chosen primary and secondary fields. Coursework is meant to provide deep knowledge as well as methodological sophistication.

After students complete coursework in the first two years, they take written and oral comprehensive exams in the third year and write a dissertation in the fourth and fifth years.

### Requirements

#### PhD General Course Requirements

The PhD candidate will take 30 hours of coursework beyond the MA (http://gradstudies.missouri.edu/academics/graduation-requirements/doctoral-grad-requirements.php). Coursework must include:

- At least 18 hours in English at the 8000-level (English 8095 and 9090 hours do not count toward the 18-hour requirement).

Candidates’ coursework and program of study will be designed to prepare them as competent scholars in the designated fields. All PhD candidates will be required to take:

- English 8005, Introduction to Graduate Studies (a one hour course in fall semester of the first year in the program)
- English 8010, Theory and Practice of Composition is required in the first semester for students teaching English 1000
- A course in English linguistics focused on the structure of the language (English 7600 or an equivalent graduate course at another institution), on its history (English 7610, English 7200, or an equivalent graduate course at another institution), or on sociolinguistic aspects of English (English 7620 or an equivalent graduate course at another institution)
- A course in literary criticism (English 8050, 8060, 8070, or an equivalent graduate course at another institution)
- English 8020, The Theory and Practice of Teaching in English (for students who want to teach literature classes)

PhD students in the creative writing program are required to take:

- 9 workshop hours at the 8000 level (6 in their primary genre, and 3 in a second genre of choice)
- 9 hours of 8000-level seminars in literature or seminars whose content includes in-depth analysis of literary texts. 7000-level courses, or courses outside of the English department may be substituted with the approval of the DCW and DGS

A student may elect one English 8095 problems course (a maximum of 3 hours credit), with the prior consent of the Director of Graduate Studies, but the credits will not count towards the 18-hour 8000-level course requirement. Students may also take up to 9 hours of coursework outside English in fields related to their programs of study upon the advice and consent of the advisory committee. In general, students with limited backgrounds in related areas (such as history, philosophy, art history) are encouraged to take coursework in such areas, while students with extensive background in other areas (e.g., one whose undergraduate major or MA is in a field other than English) should choose to concentrate coursework within the department.

### Degree Timeline

The typical timeline for the PhD is five years.

##### Semester One

Take three courses; teach courses. Begin to explore potential areas of specialization. Consider potential advisors.

##### Semester Two

Take three courses; teach courses. Choose an advisor, and in consultation form a doctoral committee. Meet with committee to discuss program of study. This meets the Graduate School’s requirement of a “Qualifying Examination.” Use Graduate School’s D-1 form and have it signed at that meeting. After meeting, prepare D-2 form for program of study and have it signed by the committee and the DGS.
• Semester Three
  Take two or three courses; teach courses. Begin reading for comprehensive examination.

• Semester Four
  Take two or three courses; teach courses. Continue reading for comprehensive examination. Submit draft of preparatory essay portion of comprehensive exam to committee for comments.

• Semester Five
  Teach classes. Prepare to take comprehensive examination by the end of the semester. Use D-3 form to register success with the Graduate School.

• Semester Six
  Teach classes. Prepare dissertation proposal early in the semester and have it approved by advisor and DGS. Begin dissertation work.

• Semester Seven
  Teach classes. Work on dissertation.

• Semester Eight
  Teach classes. Work on dissertation.

• Semester Nine
  Teach classes. Take job placement workshop.

• Semester Ten

Foreign Language Requirement

All PhD students must fulfill a foreign language requirement to ensure that all students have familiarity with a language and literature other than English. All of our students, regardless of specialty, gain substantially by situating their work globally. A student may satisfy the foreign language requirement for the PhD in English by demonstrating either 1) advanced proficiency in one foreign language, 2) basic proficiency in two foreign languages, or 3) basic competency in one foreign language, and the completion of two courses in the Digital Humanities Certificate program.

PhD students should determine how they will fulfill the departmental language requirement in consultation with their faculty advisor and other committee members, since different projects and areas of study will require different levels of language proficiency. A student's committee can always recommend that the student pursue language study above and beyond the level required by the departmental language requirement for the purpose of their chosen dissertation project. Advanced proficiency does not require fluency; it requires advanced reading knowledge of another culture’s language and literature.

To obtain advanced proficiency, the student has several options. One is to pass with a grade of B or better one graduate class (7000- or 8000-level, or the equivalent elsewhere, taken within the same time period as above) in the literature of the language chosen. These courses may not be in translation, and any graduate course in a modern language must be taught in that language. A third option is to demonstrate advanced proficiency in a manner approved by the student’s advisor and the director of graduate studies; the mechanism for doing so will be proposed by the student and advisor, and is subject to the approval of the director of graduate studies. Advanced proficiency does not require fluency; it requires advanced reading knowledge of and extended engagement with another culture’s language and literature.

To demonstrate basic proficiency the student must pass with a grade of B or better a) the intensive introduction to a language or b) the three-semester introductory sequence or c) one course at or beyond the third semester level in the language chosen or the equivalent of these courses elsewhere. The courses must have been completed or the examinations taken not more than seven years prior to the candidate's enrollment in the PhD program. Because not all languages are taught using this format at the University of Missouri, students have the option to demonstrate basic proficiency in one of their two chosen languages by taking an introductory course in any language that is relevant to their research. The Director of Graduate Studies will work with students to try for testing for students with proficiency but without coursework in any language (for instance, those who have lived in another country for an extended period of time). In these cases, one option is to take the Twelve-Point Exam from the NYU School of Professional Studies, and achieve a score of at least ten.

Overall, the department recommends students pursue advanced proficiency in one language, a language that will enrich their work. All of our students, regardless of specialty, will gain by making meaningful and extended connections between their own work and a non-English speaking culture.

Proficiency in English

All PhD students must fulfill the foreign language requirement. However, a third option is to present documentary evidence of a score of 700 or higher on the new TOEFL iBT exam. Acceptable evidence of proficiency includes scores of 78 or higher on the iBT TOEFL, 550 or higher on the paper TOEFL, 6 or higher on the Academic IELTS, and 6.5 or higher on the IELTS General.

International students should consult the International Teaching Assistant Program (http://gradstudies.missouri.edu/professional-development/build-your-skills/teach-mentor-preparing-faculty/international-teaching-assistant) (ITAP) of the Graduate School for university and state requirements regarding teaching at the university.

Exams

Qualifying Exam

By the end of the first year, students must meet with their advisers to organize their doctoral committees. The committee is made up of at least three English department members and at least one member from an MU department outside English. Students then meet with this committee to plan coursework and define their primary and secondary fields of study. This meeting satisfies the graduate school requirement for a PhD qualifying examination.

The Qualifying Exam must be a formal meeting, scheduled by the committee chair, with at least three of the four members present. The outside faculty member need not be involved in this meeting, but all four members of the committee must sign the D-1 form. The student and committee chair should decide on a proposed Plan of Study to be discussed and approved at the meeting. The student is responsible for preparing the forms and bringing them to the meeting.
Comprehensive Examination

After the coursework and foreign language requirement have been completed, the student takes the PhD comprehensive examination. This exam consists of a written section (the Preparatory Essay) and a two-and-a-half hour oral exam. Guidelines for the PhD comprehensive examination are as follows:

1. Committee and Reading List

Students will choose a faculty committee consisting of a chair, two additional department members, and an external member from another department.

In consultation with her or his committee, the student will specify reading lists made up of one major field, one minor field, and one field in criticism and theory.

The major field list should reflect the student’s area of professional specialization (poetry, 16th-century British literature, 20th-century American fiction, folklore) and should take account of both the student’s interests and job market categories. If a candidate chooses a major field that is a single genre (or has an otherwise delimited focus), then the candidate’s committee may mandate that the area should extend over at least three centuries.

The minor field list should reflect the student’s area of professional specialization (poetry, 16th-century British literature, 20th-century American fiction, rhetoric and composition, folklore) and should take account of both the student’s interests and job market categories. If a candidate chooses a major field that is a single genre (or has an otherwise delimited focus), then the candidate’s committee may mandate that the area should extend over at least three centuries.

The criticism and theory list will vary depending on the topics of the major and minor lists. In cases where the major and minor lists consist primarily of literary works, the criticism and theory list must include sections covering the major works of criticism and/or theory in those fields. The remainder of the criticism and theory list, up to its entirety in cases where both the major and minor list include substantial secondary reading, can be organized around a major subfield of criticism or theory (poetics, psychoanalysis, the history of the novel) or a particular theme (Theories of the Middle Class; The Role of Religion in Contemporary Fiction; Medieval Conceptions of Gender).

All three lists together should comprise approximately 100 - 120 book length works or the equivalent in scholarly articles or works in other media (as decided in consultation with the committee), with the major list roughly equivalent in size to the combined minor and criticism/theory lists. Where linguistics constitutes one of the fields, the relevant committee member or members will assign, in addition to reading materials, other materials intended to ensure competence in carrying out analyses in phonology, phonetics, syntax, and other areas appropriate to the student’s background and interests.

During the semester in which the student begins drafting her or his reading lists (ideally the second semester of PhD study), the faculty chair will convene a meeting with the entire committee, during which the student will present and defend her or his program of study and draft reading lists. This meeting is known as the Qualifying Examination. During this meeting the committee members will sign the D-1 form; after the meeting the student will prepare the D-2 form for program of study and have it signed by the committee members.

2. Preparatory Essay/Written Comprehensive Exam

During the time a student is preparing for her or his exam, he or she will write a Preparatory Essay of at least twenty-five pages. These essays must not be more than fifty pages. This Preparatory Essay constitutes the written portion of the comprehensive exam, and is designed to give the student the opportunity to demonstrate broad knowledge of her or his fields, deep interest in specific topics relevant to those fields, and initial plans for the dissertation (or, in the case of creative writers, the critical introduction).

This is a highly individualized process, designed to encourage students to shape this process to serve their research needs.

Students will write and submit two different drafts. They will submit a preliminary draft of the essay to committee members for feedback; this must be done the semester before submitting the final draft and taking the exam. When the student submits the final version to the committee, committee members will evaluate it for range and depth of coverage, specificity of references to the works discussed, theoretical grasp of the material and clarity of organization and style. A student should consider the Preparatory Essay an opportunity to address what he or she has learned in the preparation process, and to indicate what questions most interest him or her about the works on her or his lists. The Preparatory Essay is designed to be flexible, but each essay should include the following, in a form agreed upon by the student and the committee:

• Brief overviews of each of the fields represented by the lists, discussing major issues raised by the three lists, and, where relevant, connections among them; these overviews may preface the body of the essay or be folded into it
• Answers to three or four substantive questions about the fields (or, where relevant, problems in linguistic analysis) that were developed in consultation with the committee, and that are meant to serve as talking points for the oral exams
• A preliminary description of the dissertation or, for creative writers, the critical introduction that demonstrates how it will be informed by the student’s reading

In order to pass the written portion of the exam the student must receive no more than one dissenting or abstaining vote on the Preparatory Essay. To submit the final version of the preparatory essay, a student should send the essay to the Graduate Secretary who will distribute the exam to the student’s committee. Within a week of receiving a copy of the exam, committee members will submit evaluations discussing strengths and weaknesses of the Preparatory Essay to the Graduate Studies Secretary, who will forward them to the student and also place copies in the student’s file.

If the student does not pass, the committee will offer advice on rewriting and resubmitting the Preparatory Essay. If the student does pass, the chair of the exam committee, in conjunction with other members of the committee, will schedule the student’s oral examination for no earlier than one week, and no later than one month, following committee members’ reports on the Preparatory Essay. The Graduate Secretary should be informed of the time and place of the oral examination. Students must be enrolled during the term in which they take their oral exam (to be administered only when MU is officially in session). The oral exam must be completed at least seven months before the final defense of the dissertation.

3. Oral Exam

While discussion will be guided by the writing students have done in the Preparatory Essay, the examinee should be prepared for questions on
any item on their list, in order to demonstrate a breadth of training beyond that displayed in the essays. Exams are commonly structured in two parts, with discussion of the essay in the first hour and discussion of the lists more broadly in the second.

The oral exam will be scheduled for two and half hours and will consist of:

• Two hours of questions, with format and time allotted to committee members arranged beforehand by the chair of the student's committee
• Fifteen minutes during which the committee deliberates about the exam
• Fifteen minutes during which the committee informs the student whether he or she has passed or failed, and discusses the exam with the student

During the fifteen-minute faculty deliberation period the chair of the committee is responsible for taking notes, which will form the basis of a 1-2 page document discussing the exam—things the student did well on, and things he or she might improve. The chair should give a copy of this document to the Graduate Secretary, who will forward it to the student and also place a copy in the student's file.

In order to pass the student must receive no more than one dissenting or abstaining vote on the oral exam. Students who fail the oral examination will be allowed to retake it, but cannot do so sooner than 12 weeks after, or later than the end of the semester following, the initial examination. If the student passes the oral examination, all members of the committee must sign the D-3 form. The chair of the committee is responsible for submitting the D-3 form to the graduate studies office, and the form must be filed with the graduate school within two weeks after the final completion of the exams. Per graduate school rules, failure to pass two comprehensive examinations automatically prevents candidacy.

4. Comprehensive Exam Timeline

Semester Two in the PhD program: Choose a committee, begin to draft reading lists, and take the Qualifying Exam.

Semester Three: Begin reading for exams; meet at least once with each committee member; finalize reading lists.

Semester Four: Continue reading for exams and begin drafting Preparatory Essay; meet with each committee member and during meeting discuss a rough draft of the Preparatory Essay (to be given to committee members at least one week prior to the meeting). Students must give the draft of the Preparatory Essay to committee members the semester before they expect to turn in the final version and take the oral exam, and should then meet with committee members for oral feedback.

Semester Five: Give final draft of Preparatory Essay to committee members; complete oral examination; turn in D-3 form upon passing the oral examination.

Continuous Enrollment

After students complete their comprehensive exams, candidacy for the doctoral degree is maintained by enrolling in two credit hours in the fall and spring semesters and one credit in the summer semester up to and including the term in which the dissertation is defended. Failure to enroll continuously in 9090 Research hours (or alternatively, in the 8006 Professional Writing Workshop or Job Market Workshop) until the doctoral degree is awarded terminates candidacy. Guidelines for continuous enrollment can be found on the Graduate School website (http://gradstudies.missouri.edu/admissions/types-of-enrollment/continuous-enrollment.php).

Dissertation and Defense

Prospectus

As soon as possible after passing the comprehensive examination, a candidate should explore a dissertation topic under the guidance of the student’s adviser. Candidates must formally present and describe the topic in a prospectus of no more than fifteen pages (excluding bibliography); for the student to remain in good standing, the prospectus with committee members’ signatures must be submitted to the Graduate Studies Office within three months of a successful oral defense of the Comprehensive Examination or first two weeks of the semester following.

The prospectus should contain five elements:

• The state of current scholarship in the relevant fields
• The nature of the dissertation’s intervention in current scholarship
• A description of method
• A description of the materials—that is, the objects/archives studied and consulted
• A short bibliography

In the case of students writing creative dissertations, the prospectus should primarily describe the critical introduction (see “Creative Dissertation” below); ten pages is a good goal here.

The prospectus should be drafted in consultation with the adviser. Once drafted, it will be the subject of the Prospectus Conference, a meeting of the dissertation committee (outside member optional) covering the student’s ideas and research plans, including schedule. If a majority of the student’s committee doesn’t approve the prospectus, suggestions for revision will be made and the student will submit the revised prospectus only to the adviser; for this reason, students should schedule their meeting with enough time to revise and meet the deadline.

The prospectus must be completed for the student to begin writing, but it is also important because it usually forms the basis of grant applications and dissertation descriptions when the student goes on the job market. It is of long-term use to have a prospectus on file early, even though it is understood that the dissertation may change during research and writing.

Dissertation

Two types of dissertations are written for our program: the scholarly dissertation and the creative dissertation.

The scholarly PhD Dissertation is a work of original scholarship in a recognizable field covered by departmental expertise. Most dissertations in English are between 200 and 350 pages and combine an original argument with research into the field you explore. By the end of the process of researching and writing the dissertation, the successful student will be one of a few world experts in the field addressed.

Therefore topics should be specific enough to allow students to stake a claim to expertise, while broad enough to speak to the general field in which the dissertation is placed. The dissertation becomes the central document upon which you build your academic reputation. At best, it will be ready to go as a book project. Chapters of your dissertation will likely serve as writing samples on the academic job market and might be revised into publications either before or after you have defended it and received your PhD. The dissertation itself will be read by the student’s adviser and a minimum of three other readers (for students entering in the fall of 2005 or later; earlier students must have committees of at
least five faculty members). One member of the committee must be a member of a department other than English. In the process of research and writing, some students work closely with an entire committee; others focus on the responses of their primary adviser to preliminary work. PhD candidates in Creative Writing generally write a creative PhD dissertation, which may take the form of a collection of poetry, a novel, a novella, a book-length collection of short stories, or a book-length work of creative non-fiction. To exercise this option, the candidate must have taken 9-12 hours of creative writing seminars as part of the PhD coursework. In addition to the creative part of the dissertation, the candidate will compose a Critical Introduction, which is an article-length and rigorous critical essay that substantively engages the candidate’s areas of critical interest.

By Graduate School rules, seven months must elapse between a student’s successfully passing the PhD Comprehensive Examination and submitting the PhD dissertation.

**Defense**

Defense usually occurs within a month of submission to the committee of an acceptable dissertation. Committee members prepare questions in advance and the defense consists of a conversation regarding the scholarship and writing of the dissertation. The defense is customarily a celebratory occasion. But committee members can - and sometimes do - ask challenging questions that undercut specific and general issues in the project. Students have a chance to incorporate suggestions from the defense into the final document submitted to the Graduate School. Therefore it is useful to schedule the defense some weeks before the final deadline for submission to the Graduate School in the term in which the student wishes to graduate. A majority of the committee must vote positively for the dissertation to pass. If the dissertation is not passed, the student can revise in accordance with suggestions and resubmit.

**Film Studies**

Roger Cook, Program Director
School of Visual Studies, College of Arts and Science
451 Strickland
(573) 882-9452 or (573) 882-7547
cookrf@missouri.edu
https://visualstudies.missouri.edu/filmstudies

The Film Studies Program within the School of Visual Studies provides guidance to our students from accomplished research and film production faculty, real world experience through hands-on internship practicums, and opportunities for success beyond the program for our graduates. The B.A. offers courses in film analysis and covers the history of cinema, national and global cinemas, film theory and genres, documentary film, and contemporary visual culture. It combines an emphasis on critical thinking, research, problem-solving, written expression, and cultural literacy with the discipline’s unique attention to visual analysis. The Emphasis in Production provides hands-on instruction in all areas of filmmaking, including writing, production management, directing, cinematography, audio, and editing. A degree in Film Studies provides a broad, open-ended education that can lead to many different careers, especially those requiring excellent communication skills and analytical thinking. Recent graduates have gone on to careers in teaching, publishing, public relations, management, law, the TV/motion picture industry, independent filmmaking, advertising and other areas of digital media production.

The program offers a BA degree in film studies, a BA with an emphasis in production, and an undergraduate minor.

**Faculty**

**Professor** R. F. Cook*, R. N. Johnson*, B. Prager*, A. Prahlad*, C. Strathausen*, N. M. West*

**Associate Professor** M. H. Carver*, J. Draper*, J. Hearne*, S. Ireton*, V. M. Kaussen*, W. Kerwin*, M. Moore*, C. Sampson*, R. Tabanelli*

**Assistant Professor** S. C. Rozier*, M. Folescu*, R. Greene*

**Associate Teaching Professor** N. Monnier*,

**Assistant Teaching Professor** K. Bilal, E. Hornbeck, E. Naveh-Benjamin, M. Volz

**Instructor** R. Wise

- Graduate Faculty Member - membership is required to teach graduate-level courses, chair master’s thesis committees, and serve on doctoral examination and dissertation committees.
- **Doctoral Faculty Member** - membership is required to chair doctoral examination or dissertation committees. Graduate faculty membership is a prerequisite for Doctoral faculty membership.

**Undergraduate**

- BA in Film Studies (p. 191)
  - with emphasis in Film Production (p. 192)
  - Minor in Film Studies (p. 193)

**Double and Dual Majors**

A film studies major can be paired with a major in another department. Students must meet the requirements of both departments. The program for each major must be approved by the advisor in the degree-granting department.

**Departmental Honors**

To receive departmental honors, a student must earn a minimum overall MU GPA of 3.3 and a minimum GPA of 3.5 in courses in film studies completed at the University of Missouri. In addition, with the assistance of an honors thesis advisor, the student must develop, plan and conduct research on an independent project, normally while enrolled in FILMS_VS 4995.

**Graduate**

While MU does not offer graduate degrees specifically in film studies, the University does offer post-baccalaureate opportunities in a number of related areas, both within the College of Arts and Science, and in the other Schools and Colleges that make up the University. The catalog provides a complete list of these degree options (p. 16).

**BA in Film Studies**

**Degree Program Description**

The Film Studies Program provides guidance to our students from accomplished research faculty, real world experience through hands-on internship practicums, and opportunities for success beyond the program for our graduates. The B.A. focuses on film analysis and covers the history of cinema, national and global cinemas, film theory and genres, documentary film, and contemporary visual culture. It combines an emphasis on critical thinking, research, problem-solving, written expression, and cultural literacy with the discipline’s unique
attention to the analysis of moving-image media. Students emerge with a greater degree of visual literacy at a time when our culture is becoming increasingly dependent upon visual communication. Graduates have pursued careers in film and related areas of the entertainment industry, journalism, art education, and writing.

**Major Program Requirements**

Film Studies majors must complete 30 credits in film studies, with a grade of C- or above in every course. A minor is recommended. At least 15 hours in the major must be in courses at the 3000 level or above. Students must also complete College of Arts and Sciences and University requirements (p. 30), including University general education requirements. No more than 40 credits in Film Studies may be counted toward graduation.

The 30 hours of Film Studies courses for the major must meet the following requirements:

**Major core requirements**

**UNIT I:**
- FILMS_VS 1800 Introduction to Film Studies 3

**UNIT II:**
- FILMS_VS 2820 Trends in World Cinema 3
- Select one of the following:
  - FILMS_VS 2830 American Film History I, 1895-1950
  - FILMS_VS 2840 American Film History II, 1950-Present

**UNIT III:**
- Electives 18
  At least six of the elective hours must come from one of the following national cinema courses:
  - FILMS_VS 2850 Italian Cinema
  - FILMS_VS 2865 The Art of Soviet and Russian Cinema
  - FILMS_VS 3490 Indian Cinema
  - FILMS_VS 3830 History of German Film
  - FILMS_VS 3845 Modern Israeli Film
  - FILMS_VS 3875 Brazilian Cinema
  - FILMS_VS 3880 Contemporary Chinese Film
  - FILMS_VS 3885 Twenty-First Century South American Cinema
  - FILMS_VS 4963 Latin American Cinema (in Spanish)
  At least six of the elective hours must come from one of the following courses on theory and method:
  - FILMS_VS 2010 The Philosophy of Film
  - FILMS_VS 2860 Film Themes and Genres
  - FILMS_VS 3775 The Ancient World on Film
  - FILMS_VS 3780 Architecture in Film
  - FILMS_VS 3785 Art and Artists on Film
  - FILMS_VS 3820 Major Directors
  - FILMS_VS 3850 Studies in Film History
  - FILMS_VS 3855 Documentary Film
  - FILMS_VS 3861 Film Themes and Genres
  - FILMS_VS 3865 The Holocaust on Screen
  - FILMS_VS 4370 Film Studies: The Intersection of Documentary Film and Journalism
  - FILMS_VS 4810 Film Theory
  - FILMS_VS 4840 Culture and Media
  - FILMS_VS 4860 Film Themes and Genres
  - FILMS_VS 4935 Adaptation of Literature for Film

**UNIT IV:**
- Select one of the following: 3
  - FILMS_VS 4880 Capstone Experience
- One 4000-level FILM S course of at least 3 credits

**Total Credits** 30

**Semester Plan**

Below is a sample plan of study, semester by semester. A student’s actual plan may vary based on course choices where options are available.

**First Year**

**Fall**
- FILMS_VS 1800 Introduction to Film Studies 3
- ENGLSH 1000 3
- Social Science (MO State Law) 3
- MATH 1100 3
- Foreign Language 5

**Spring**
- FILMS_VS 2840 American Film History II, 1950-Present 3
- Science with a Lab 5
- Foreign Language 3
- Humanities/Fine Arts (Writing Intensive) 3
- Behavioral Science 3
- Social Science 3

**Second Year**

**Fall**
- FILMS_VS 2820 Trends in World Cinema 3
- FILM_S 2000+ (National Cinema Course) 3
- Science with a Lab 5
- Foreign Language 3
- Humanities/Fine Arts (Writing Intensive) 3
- Behavioral Science 3
- Social Science 3
- Science Course 3

**Spring**
- FILM_S 2000+ (Theory and Methods Course) 3
- FILM_S 3000+ (National Cinema Course) 3
- Minor Course 3
- Humanities/Fine Arts 3
- Social Science Course 3
- Science Course (Math Reasoning Proficiency) 3

**Third Year**

**Fall**
- FILM_S 2000+ (Theory and Methods Course) 3
- FILM_S 3000+ (Elective) 3
- Minor Course 3
- Humanities/Fine Arts 3
- Social Science Course 3
- Science Course (Math Reasoning Proficiency) 3

**Spring**
- FILM_S 3000+ (Theory and Methods Course) 3
- FILM_S 4000 Level (Capstone) 3
- Minor Course 3
- Humanities/Fine Arts 3
- General Elective Course 3

**Fourth Year**

**Fall**
- FILM_S 3000+ (Theory and Methods Course) 3
- FILM_S 3000+ (Elective) 3
- Minor Course 3
- Writing Intensive Course 3
- General Elective Course 3

**Spring**
- General Elective Course 3

**Total Credits: 120**

**BA in Film Studies with Emphasis in Film Production**

**Degree Program Description**

The Film Studies program provides guidance to our students from accomplished research and film production faculty, real world experience
through hands-on internship practicums, and opportunities for success beyond the program for our graduates. The B.A. in Film Studies with Emphasis in Production offers an immersive curriculum in film production, spanning from writing and cinematography to audio engineering and field production. The program combines rigorous technical instruction with aesthetic, historical, and theoretical topics that inspire you to find innovative ways to express yourself through film. Working with established filmmakers, media artists and scholars, our film production students develop their own personal craft and vision as a filmmaker.

At each stage of the curriculum students exercise and demonstrate their skills and creativity through class projects. This learning process culminates in the senior film project that serves as the central piece of the graduate's portfolio. Recent graduates have gone on to careers in the TV/motion picture industry, independent filmmaking, advertising and other areas of digital media production.

In addition, students must complete all College of Arts and Science and University graduation requirements.

### Major Program Requirements

**Film Studies Core I**

Students must take 6 credit hours

### Minor in Film Studies

To earn a minor in Film Studies, students must earn 15 credits in film studies. Required courses include FILMS_VS 1800, and either FILMS_VS 2830 or FILMS_VS 2840. At least two courses must be at the 3000 level or above. The minor is a flexible and varied program that can be tailored to individual students’ needs. Students wishing to minor in film studies should consult the film studies advisor.

### General Studies

Office of Multidisciplinary Degrees
College of Arts and Science
326H Strickland Hall
omd.missouri.edu
Faculty

Faculty members are housed in departments and schools throughout the University of Missouri.

* Graduate Faculty Member - membership is required to teach graduate-level courses, chair master’s thesis committees, and serve on doctoral examination and dissertation committees.

** Doctoral Faculty Member - membership is required to chair doctoral examination or dissertation committees. Graduate faculty membership is a prerequisite for Doctoral faculty membership.

Undergraduate

- BGS in General Studies (p. 194)

The Bachelor of General Studies (BGS) is designed for students who want a multidisciplinary major to meet educational and career objectives. Students who pursue the BGS need a high degree of motivation and independence. The BGS degree is intended for students pursuing a first bachelor's degree and will not be approved as a second bachelor's degree.

The BGS degree requires a minimum of 120 credit hours with a minimum of 30 credit hours numbered 3000 or above. Students meet with the academic advisor to create a graduation plan after completing 60 credit hours, MATH 1100 or an equivalent with a C- grade or higher, ENGLSH 1000 with a C- grade or higher and maintaining a 2.0 cumulative GPA.

BGS students are required to complete 24 credit hours as declared BGS majors and this may include credit for the semester in which the student declares the BGS major. In exceptional circumstances (and in most cases, only following an absence from MU of 4 or more years), students who need fewer than 24 credit hours to complete all their BGS, A&S and MU requirements must take a minimum 3 credit hour BGS approved upper-level course.

omd.missouri.edu

Graduate

While the College of Arts & Science does not offer a graduate degree in general studies, the College does offer graduate degrees, certificates and minors in a number of multidisciplinary areas. The catalog provides a complete list of these degree options (p. 16) for all Schools and Colleges at the University of Missouri.

BGS in General Studies

Degree Program Description

The Bachelor of General Studies (BGS) is designed for students who want a multidisciplinary major to meet educational and career objectives. Students who pursue the BGS need a high degree of motivation and independence. Students design their curriculum across three main components. Components may be made up of courses from a single department or from a single theme. These degree requirements allow students to build an individualized major that reflects their personal academic interests. Careers options are as varied as the combination of curricula.

In addition, students must complete all College of Arts and Science and University graduation requirements (p. 30), including University general education (p. 31).

Major Program Requirements

Students must complete the Department Requirements (p. 194) as well as those required for the degree listed below:

The BGS major requires 45 credit hours, including a capstone. These 45 credit hours are evenly distributed among three areas of study called components. A component may be made up of courses from a single department or may be made up of courses from multiple departments that relate thematically. Component courses may be selected from any department or program at MU (if the department permits), but at least 18 credit hours must be made of courses from an A&S department.

Of the 15 credit hours required for each component, 6 credit hours in each of the components must be numbered 3000 or higher. Students must maintain a GPA of 2.0 in each component area and grades of D are not acceptable. A student may include one component made entirely of transfer coursework if the other two components each contain 9 credit hours of coursework numbered 3000 or above. BGS students are required to include a minimum of 12 credit hours of MU coursework numbered 3000 level or above in their three components. A student who has earned a degree in General Studies may not pursue a second degree in a field that was used as a component of the first degree.

- 30 of the last 36 hours a student completes must be taken at MU.
- In order to graduate, students must have the following GPAs:
  - 2.0 cumulative GPA (the GPA for all coursework taken at MU)
  - 2.0 major GPA (the GPA for all courses taken to fulfill requirements in the major)
  - 2.0 minor GPA (the GPA for all courses taken to fulfill requirements for a minor)
- A maximum of 6 hours of Internship may apply to graduation
- A maximum of 12 hours of Internship, Readings and/or Special Problems may apply to graduation
- A minimum of 24 hours of coursework must be satisfactorily completed after declaring the General Studies major. For currently enrolled students, this may include credit earned during the semester in which the student declares the BGS major. For students who have been absent from MU for four or more consecutive years, and who need fewer than 24 credit hours to complete the BGS, A&S and MU degree requirements, a minimum of 12 hours of coursework, including 3 hours at the 3000 or higher level, must be satisfactorily completed after declaring the General Studies major. The minimum must allow the student to meet any System or Campus residency requirements.

Semester Plan

Below is a sample plan of study, semester by semester. A student’s actual plan may vary based on course choices where options are available.

Undergraduate

- BA in Geography (p. 196)
  - with emphasis in General Geography (p. 197)
  - with emphasis in Geographic Information Sciences (p. 198)
  - with emphasis in Physical/Environmental (p. 199)
  - with emphasis in Regional/Cultural (p. 200)
- Minor in Geography (p. 200)
- Certificate in Geographical Information Science - Interdisciplinary (p. 201)

The Department of Geography has established the following goals for the Bachelor of Arts with a major in Geography:

- Teach students to think spatially and develop problem solving skills
- Provide an intellectual focus for students seeking a broadly based liberal arts education
- Acquaint students with past and present patterns of landscape development and instill concern for intelligent management of earth's biophysical resources
- Expose students to contemporary issues of geopolitical and international significance and their role in such problems
- Provide the skills and expertise necessary to master the application of geographic information technologies and analysis of spatial data
- Prepare motivated students for career development and graduate study

Four different emphasis areas allow students to further focus the undergraduate degree program on their own personal interests in geography.

1. Human-Regional-cultural geography helps students develop a fuller sense of geographic analysis and better understanding of the human and physical characteristics of major regions and settlement patterns of the world.
2. Physical-environmental systems emphasize the complex interactions between biophysical systems and human behavior in the areas of geomorphology and biogeography, as well as our role in managing applied environmental problems.
3. Geographic information sciences addresses the variety of technologies revolutionizing geographic analysis such as GIS, GPS, remote sensing, computer assisted cartography and spatial statistics.
4. General geography is designed for the student with broad interests in geography that overlap with other emphasis areas.

For students planning to end their formal education with the bachelor's degree, a geography major provides marketable skills and the broad perspectives on environment, society and international affairs that enable graduates to move beyond entry-level positions. Geography also provides a sound foundation for students who plan to enter graduate work in a variety of fields, from geography to business, land use planning, law and medicine. Although positions are not often designated with the title of geographer, geography graduates' employment has grown substantially in private enterprise and in all levels of government in recent years.

The Department offers BA and MA degrees with majors in geography as well as undergraduate and graduate certificates in Geographic Information Science and Geospatial Intelligence. Two minors are also available.

Director of Graduate Studies: Matthew Foulkes

About Geography

The Department of Geography offers a Master of Arts degree that prepares students for a variety of professions, including careers in academics, research, public service, and the private sector. The MA program has a high success rate of preparing students for doctoral study in top-tier geography departments across the United States.

A primary strength of the department is the blending of major research facilities and opportunities with individual student-faculty interaction to build a strong sense of community. Students interested in questions of human geography, the physical environment, or geographic information sciences will find that the department has facilities and faculty expertise to build a successful plan of study.

Core areas of study in the department include human geography, nature/society relationships, physical-environmental systems, and application of geographic information sciences. The faculty has an active program of research and field work in North America, Middle America, the Middle East and Southeast Asia. They pride themselves on a creative instructional and interdisciplinary pattern of activity. The department emphasizes close contact between faculty and graduate students.

Individualized graduate programs allow latitude in areas of specialization such as regional, cultural, and physical geography, as well as geographic information sciences, remote sensing, environmental studies and geographic education. Strong collateral course work in such fields as anthropology, soil and atmospheric science, economics, geology, political science, forestry, computer science and history meets the special interests of many graduate students.

Facilities and Resources

An exceptional departmental collection of reference materials, including maps, journals and books, is available to graduate students in the department’s Wheeler Library and Seminar Room. The holdings of Ellis Library in geography and related fields are extensive and MU’s computer facilities are readily available. In addition, the department is home to the Geographic Resources Center (GRC), the Missouri Spatial Data Information Service and the Spatial Analysis and Modeling teaching laboratory. These facilities serve as an interdisciplinary center for GIS, remote sensing, cartography, computer graphics and digital spatial databases of enormous variety.

Financial Aid from the Program

Some programs require an extra form or statement from those who wish to be considered for internal assistantships, fellowships or other funding packages. Check the program website or ask the program contact for details. In Geography, a total of approximately 6 graduate teaching and research assistantships are awarded on a competitive basis annually. Applicants desiring consideration for one of these positions should indicate this in their application to the department.

BA in Geography

Director of Undergraduate Studies: Douglas Hurt

Degree Program Description

Geographers are interested in a wide range of topics and often work in interdisciplinary teams that analyze challenges like environmental change, resource use, and economic issues in an increasingly interdependent world. Geography majors receive marketable skills during their undergraduate experience. All majors must select one of the four emphasis areas: General Geography, Geographic Information Sciences, Physical/Environmental, Regional/Cultural, or Urban/Population. Geography prepares students for a variety of professions including careers in environmental impact assessment, mapping, remote sensing, geographic information analysis, government service, military intelligence, as well as education.

Major Program Requirements

Students majoring in geography are required to take a total of 33 credits in geography and 3 in statistics. The geography major consists of 21 core credits and at least 15 credits in one of the four geography emphasis areas. In addition, students must complete all degree, College of Arts and Sciences and University requirements (p. 30) including University general education (p. 31).

BA in Geography with Emphasis in General Geography

**Degree Program Description**

Geographers are interested in a wide range of topics and often work in interdisciplinary teams that analyze challenges like environmental change, resource use, and economic issues in an increasingly interdependent world. Students who select the general geography track plan their own upper-division coursework in order to receive a very broadly-structured education, typically selecting courses from all three of the GIS, physical geography, and human geography emphasis areas. Geography prepares students for a variety of professions including careers in environmental impact assessment, mapping, remote sensing, geographic information analysis, government service, military intelligence, as well as education. Geographers are interested in a wide range of topics and often work in interdisciplinary teams that analyze challenges like environmental change, resource use, and economic issues in an increasingly interdependent world. Geography majors receive marketable skills during their undergraduate experience. Recent graduates work for companies such as ESRI and Garmin. MU geography graduates have also found employment with government agencies, including the National Park Service, National Geospatial-Intelligence Agency, U.S. Geological Survey, Missouri Department of Natural Resources, and Missouri Department of Transportation.

**Major Program Requirements**

This area is designed for students with a broad interest in geographical studies. Due to the general nature of this emphasis area, students must develop in consultation with their advisor a personal plan of study outlining specific goals and course requirements. Five geography courses are required, four of those at the 3000-level or higher.

In addition, students must complete all College of Arts and Science and University graduation requirements (p. 30), including University general education (p. 31).

**Semester Plan**

Below is a sample plan of study, semester by semester. A student's actual plan may vary based on course choices where options are available.

**BA in Geography with Emphasis in Geographic Information Sciences**

**Degree Program Description**

Geographers are interested in a wide range of topics and often work in interdisciplinary teams that analyze challenges like environmental change, resource use, and economic issues in an increasingly interdependent world. The study of Geographic Information Systems trains students to address the variety of technologies revolutionizing geographic analysis such as GIS, Global Positioning Systems, remote sensing, computer assisted cartography and spatial statistics. Geography prepares students for a variety of professions including careers in environmental impact assessment, mapping, remote sensing, geographic information analysis, government service, military intelligence, as well as education. Geographers are interested in a wide range of topics and often work in interdisciplinary teams that analyze challenges like environmental change, resource use, and economic issues in an increasingly interdependent world. Geography majors receive marketable skills during their undergraduate experience. Recent graduates work for companies such as ESRI and Garmin. MU geography graduates have also found employment with government agencies, including the National Park Service, National Geospatial-Intelligence Agency, U.S. Geological Survey, Missouri Department of Natural Resources, and Missouri Department of Transportation.

**Major Program Requirements**

The study of GIS prepares students to address the variety of technologies revolutionizing geographic analysis such as GIS, Global Positioning Systems, remote sensing, computer assisted cartography and spatial statistics. Students are required to take three courses (normally nine hours) in the emphasis. Two additional courses (six additional hours) are selected from a secondary emphasis area.

- GEOG 3040: Introduction to Geographic Information Systems GIS
- GEOG 3830: Remote Sensing
- GEOG 4130: The Geospatial Sciences in National Security
- GEOG 4710: Spatial Analysis in Geography
- GEOG 4740: Location Analysis and Site Selection
- GEOG 4790: Geographic Information Systems for the Social Sciences
- GEOG 4810: Landscape Ecology and GIS Analysis I
- GEOG 4860: Advanced Remote Sensing
- GEOG 4940: Advanced Geographic Information Systems (GIS II)

In addition, students must complete all College of Arts and Science and University graduation requirements (p. 30), including University general education (p. 31).

### Degree Program Description

Geographers are interested in a wide range of topics and often work in interdisciplinary teams that analyze challenges like environmental change, resource use, and economic issues in an increasingly interdependent world. Physical and environmental geography emphasizes the complex interactions between the natural world and human behavior. Students learn to identify, delineate, and manage a range of environmental problems facing society from climate and vegetation change to river management. Geography prepares students for a variety of professions including careers in environmental impact assessment, mapping, remote sensing, geographic information analysis, government service, military intelligence, as well as education. Geographers are interested in a wide range of topics and often work in interdisciplinary teams that analyze challenges like environmental change, resource use, and economic issues in an increasingly interdependent world. Geography majors receive marketable skills during their undergraduate experience. Recent graduates work for companies such as ESRI and Garmin. BA in Geography with Emphasis in Regional/ Cultural

Degree Program Descriptions
Geographers are interested in a wide range of topics and often work in interdisciplinary teams that analyze challenges like environmental change, resource use, and economic issues in an increasingly interdependent world. Students studying human geography are trained to understand and analyze the social and cultural elements which generate regional differences. Assessing population patterns, political activity, urban planning, and linguistic distributions are included in this area. Geography prepares students for a variety of professions including careers in environmental impact assessment, mapping, remote sensing, geographic information analysis, government service, military intelligence, as well as education. Geographers are interested in a wide range of topics and often work in interdisciplinary teams that analyze challenges like environmental change, resource use, and economic issues in an increasingly interdependent world. Geography majors receive marketable skills during their undergraduate experience. Recent graduates work for companies such as ESRI and Garmin. Minor in Geography

Minor Program Requirements
Fifteen credits are required for a minor in geography, nine of them numbered 2000 and above.
Certificate in Geographical Information Science - Interdisciplinary

Certificate description: Students from a wide range of disciplines will benefit from students with the theoretical, practical and technical skills that are essential for the analysis of spatial data. Learners become proficient in the use and application of GIS technologies through a flexible set of courses and hands-on experiences. The program offers the training and experience necessary to prepare for the rapidly expanding professional opportunities available in the diverse set of fields that depend on geographic information.

MA in Geography

Application and Admission Information

Admission Contact Information
Dr. Matt Foulkes
Geography admission page: https://geography.missouri.edu/grad/graduate-studies

Admission Criteria

Fall deadline: January 15
- Minimum GPA: 3.0
- Minimum TOEFL scores:
<table>
<thead>
<tr>
<th>Internet-based test (iBT)</th>
<th>Paper-based test (PBT)</th>
</tr>
</thead>
<tbody>
<tr>
<td>61 Effective July 1, 2015 must have score of 80</td>
<td>500 Effective July 1, 2015 must have score of 550</td>
</tr>
</tbody>
</table>
- Minimum GRE scores:
<table>
<thead>
<tr>
<th>When did you take the GRE?</th>
<th>Verbal + Quantitative</th>
</tr>
</thead>
<tbody>
<tr>
<td>Prior to August 1, 2011</td>
<td>1000</td>
</tr>
<tr>
<td>On or After August 1, 2011</td>
<td>297</td>
</tr>
</tbody>
</table>

Preparation for graduate work in geography should include undergraduate courses in geography. Upon consultation with their advisor, students with insufficient background work in geography may be required to take additional undergraduate courses.

Required Application Materials

All elements of the application including those required by the department are submitted through the Graduate School online application. For complete instructions, see https://geography.missouri.edu/grad/graduate-studies.

To the Office of Graduate Studies:
- All required Graduate Admissions documents
- 3 letters of recommendation (submitted through the online application) GRE scores
- Supplemental department application (with Statement of Purpose)

Plan of Study MA in Geography

The Master of Arts degree requires completion of 32 semester hours of course work. Two research options are available: a thesis and a non-thesis option. The non-thesis option requires the completion of a research paper. 15 or more of the 32 hours must be in courses at the 8000 level. Non-thesis candidates may take no more than 6 hours of special problems, special readings, special investigations, or research. Every student must take GEOG 8750 and GEOG 8760, 6 additional hours of seminar-structured course work and 6 hours of course work in geographic methods.

A student's specific program of courses is selected jointly by the student and the graduate advisor, designated during the first semester in residence. All students of either option must pass a comprehensive oral examination at the end of their graduate work.

Graduate Certificate in Geographical Information Science - Interdisciplinary

Certificate description: Students from a wide range of disciplines will benefit from students with the theoretical, practical and technical skills that are essential for the analysis of spatial data. Learners become proficient in the use and application of GIS technologies through a flexible set of courses and hands-on experiences. The program offers the training and experience necessary to prepare for the rapidly expanding professional opportunities available in the diverse set of fields that depend on geographic information.

Federal Gainful Employment disclosure information for this Graduate Certificate is available at https://gradstudies.missouri.edu/degreecategory/geography.

Assistant Professor T. Bidgoli*, J. W. Huntley**

Director, Geology Field Program M. Barquero-Molina*

- Graduate Faculty Member - membership is required to teach graduate-level courses, chair master's thesis committees, and serve on doctoral examination and dissertation committees.
- ** Doctoral Faculty Member - membership is required to chair doctoral examination or dissertation committees. Graduate faculty membership is a prerequisite for Doctoral faculty membership.

Undergraduate

- BA in Geological Sciences (p. 202)
- BS in Geological Sciences (p. 203)
- Minor in Geological Sciences (p. 204)
About the Geological Sciences Program

The areas of research covered by faculty are broad and diverse, with strong research expertise in the general areas of geochemistry, petrology, paleontology, and geophysics-tectonics. These strengths allow us to focus on problems identified by the National Research Council to be socially relevant and to be fundamental to an understanding of earth processes. Dynamic faculty, along with their students, are making significant contributions to numerous areas of basic and applied research. This research is supported by excellent, state-of-the-art analytical facilities in the department and on campus. Our graduate program prepares students for a wide range of professions within the geological sciences; students have been placed in private, federal, state, and academic institutions. Prospective students are encouraged to contact any faculty member directly for additional information.

Areas of Specialization

The areas of specialization are aqueous geochemistry, biogeochemistry, invertebrate paleontology, isotope geochemistry, geophysics, hydrogeology, igneous petrology, metamorphic petrology, paleontology, ore deposits, paleoclimatology, paleoecology, sedimentation, stratigraphy, structural geology, tectonics, and volcanology.

Graduate

- MS in Geology (p. 204)
- PhD in Geology (p. 205)

Department of Geological Sciences

Director of Graduate Studies: Francisco Gomez

About the Degrees

The Bachelor of Arts in Geological Sciences is a liberal arts degree for students interested in earth science. The curriculum provides an overview of several subdisciplines within Geology, including paleontology and hydrogeology. The degree is designed for students interested in careers in science journalism, environmental law, and urban design and planning. The degree can easily be combined with other BA degrees in the College of Arts and Science.

Major Program Requirements

The B.A. Curriculum is designed as a degree through which the student wishes to eventually pursue a career in teaching, journalism, law, etc. In addition to the major core requirements, students must complete all university graduation requirements (p. 30) including university general education (p. 31), as well as all degree and college or school requirements.

Financial Aid from the Program

Some programs require an extra form or statement from those who wish to be considered for internal assistantships, fellowships or other funding packages. Check the program website or ask the program contact for details.
BS in Geological Sciences

Degree Program Description

A Bachelor of Science degree in Geological Sciences provides students with the quantitative and conceptual skills they need to succeed in graduate work and a career as a professional geologist in industry, government or academia. The curriculum provides flexibility for students who seek to focus on a specific subdiscipline in the geosciences. Students interested in geophysics, for example, should use their electives to expand their background in math and to develop a broad knowledge of geology and geophysics. Other subdisciplines include geochemistry, paleobiology and hydrogeology. The capstone class is an award-winning 6-week summer Field Camp based in Lander, Wyoming. Many students participate in research projects with faculty members, usually involving fieldwork, and leading to a senior thesis. Their results are typically presented at a national meeting and in an oral defense in the department. Study abroad classes are typically offered every two to three years - recently to China, Chile, and Spain. Some BS graduates pursue careers in environmental consulting. Many others go into the oil and gas industry, which typically requires an MS degree.

Major Program Requirements

Majoring in geological sciences and earning a Bachelor of Science degree prepares the student for graduate work and a career as a professional geologist in industry, research or academia. The curriculum provides flexibility for students who seek to focus on a specific subdiscipline in the geosciences. Students interested in geophysics, for example, should use their electives to expand their background in math and to develop a broad knowledge of geology and geophysics. In addition, students must meet all degree, college, and university graduation requirements (p. 30) including university general education (p. 31).

Total Credits: 125-130

### Minor in Geological Sciences

A minor in geological sciences consists of 15 credits in the geological sciences with 9 or more at the 2000-level or above. All courses must be taken for a letter grade, and a grade of C- or better must be earned in each course. The courses must be selected in consultation with an advisor in the department.

### MS in Geology

Contact: Dr. Francisco Gomez  
101 Geological Sciences Building  
(573) 882-9744  
https://geology.missouri.edu/grad/graduate-program

The master's degree program includes a thesis and a non-thesis option, both of which require 30 credit hours beyond the bachelor’s degree. The thesis option is accomplished by taking 18 to 21 graduate course credits and preparing a written thesis involving 9-12 credits of research or problems credits. Students have until the middle of their second semester in residence at the university to choose a supervisor and a thesis topic. The non-thesis track requires 27 hours of graduate course credits plus 3 hours of research credit leading to completion of a smaller-scope research project.

### Degree Requirements

- A minimum of 30 hours beyond the bachelor's degree.
- At least 15 hours of 8000- or 9000-level work.
  - For the Thesis Option, no more than 40% of those hours can be thesis research, problems in geological sciences, or similar courses.
  - For the Non-thesis Option, no more than 10% (3 credit hours) can be research, problems in geological sciences, or similar courses.
- Students must maintain a GPA of 3.00 for all competitive classroom work at MU. If GPA falls below 3.00, student must raise GPA to 3.00 or higher by end of next semester or be dropped from Master's program.
The student must choose a supervisor by the middle of his second semester in residence, and make a brief written report to the faculty outlining the proposed thesis research.

The Master's Final Exam is a defense of the thesis. The student should invite all faculty members to attend their defense. An oral presentation of the thesis results must be given at a departmental seminar (either fall or winter semester) as a part of the defense. After an open question-answer session, the student and the exam committee may conclude the defense in a closed question-answer session.

The Non-thesis option also includes a public presentation of the project.

**Note on scheduling defenses:** Faculty members are not required to read theses or conduct final examinations during the summer field season.

**Sample Plan of Study**

The following plan of study is meant to serve as an example, only. An individual student's plan of study will be developed in coordination with their graduate supervisor and reflect the emphasis of their study. The individual student's plan of study will be developed in coordination with their graduate supervisor and reflect the emphasis of their study. The study may also enroll in additional courses that do not appear on the Plan of Study submitted to the Office of Graduate Studies.

**Thesis/Non-Thesis Requirements**

**Thesis:** No more than 12 hours (of the 30) can be Geology 7085, 7990, 8085, & 8090 (problems, readings, thesis research, etc.).

- Fall semester (year 1)
  - GEOL 7650 Plate Tectonics (3 hours)
  - GEOL 7100 Groundwater Hydrology (3 hours)
  - GEOL 7180 Solar System Science (3 hours)
- Spring semester (year 1)
  - GEOL 8750 Silicate Glasses, Liquids and Magmas (3 hours)
  - GEOL 8200 Advanced Structural Geology (3 hours)
  - GEOL 8090 Research in Geological Sciences-Masters Thesis (3 hours)
- Fall semester (year 2)
  - GEOL 8100 Continental Tectonics (3 hours)
  - GEOL 8090 Research in Geological Sciences-Masters Thesis (3 hours)
- Spring semester (year 2)
  - Research in Geological Sciences-Masters Thesis (GEOL 8090) (6 hours)

**Non-Thesis Option:** No more than 3 hours (of the 30) can be Geology 7085, 7990, 8085, & 8090 (problems, readings, thesis research, etc.).

- Fall semester (year 1)
  - GEOL 7100 Groundwater Hydrology (3 hours)
  - GEOL 7180 Solar System Science (3 hours)
  - GEOL 7650 Plate Tectonics (3 hours)
- Spring semester (year 1)
  - GEOL 7120 Engineering Geology (3 hours)
  - GEOL 8240 Hydrogeologic Processes (3 hours)
  - GEOL 8450 Tectonics and Sedimentation (3 hours)
- Fall semester (year 2)

**Admissions**

Fall deadline: none set, but January 31st for guaranteed consideration for departmental financial aid for the following Fall-Spring academic year. Additional admission requirements and criteria:

- Equivalent of MU Bachelor of Science degree in geology or another science field is normally required prior to receiving an advanced degree. Science-course deficiencies must be made up before beginning thesis work.
- International students for whom English is a foreign language must submit a minimum TOEFL score 550 (paper-based) or 80 (Internet-based) or minimum IELTS of 6.5 (average) to be considered for admission.
- Admission is based upon examination of transcripts, required GRE scores (Verbal and Quantitative), and letters of recommendation. Serious consideration for admission requires a 3.00 GPA on the last 60 hours of undergraduate work, GRE scores above the 50th percentile on the Verbal and Quantitative Tests, and strong letters of recommendation.
- GRE scores (required by the department).
- 3 letters of recommendation.
- Personal statement describing the applicants interests, background, motivation, and goals for graduate study at MU.

**Note on GRE Scores and GPA:** Our quantitative assessment of applicants uses a combination of GPA for the last 60 hours and the student’s GRE verbal, quantitative and analytical writing scores. We have a formula that weights the GPA and total GRE scores equally. Applicants with a GPA less than 3.0 may be considered, but their acceptance would require strong GRE scores or exceptional circumstances.

All materials are submitted online through the Office of Graduate Studies.

**Financial Aid from the Program**

Although some graduate students in Geological Sciences are externally supported by fellowships or sponsors, many are generally supported by Graduate Teaching Assistantships and Graduate Research Assistantships. If you are interested in assistantship support, please be sure to indicate so on your application form.

**PhD in Geology**

Contact: Dr. Francisco Gomez
101 Geological Sciences Building
(573) 882-9744
https://geology.missouri.edu/

The doctoral degree requires 72 hours beyond a bachelor's degree, and may include as many as 24 hours credit from a prior master's degree. Doctoral candidates must pass a qualifying exam during their first year in residence to assess their general background so that a meaningful program of study can be constructed. The usual doctoral program involves courses within and outside the department, and researching
the dissertation topic prior to taking the comprehensive examination by the end of the second year. The results of the dissertation research are presented to the faculty and graduate students when the student has completed the project.

Degree Requirements

- Residence: The equivalent of 3 full years of graduate work (72 hours) is required. One year’s credit (up to 24 credit hours for graduate-level, lecture-based courses) is normally granted for the Master’s degree.
- All PhD students must take at least three classes (9-12 hours) outside of the Department, at the 7000 level or higher, as approved by their PhD Advisory Committee. This requirement can be satisfied by non-Geology graduate credits taken elsewhere and accepted by the Graduate School.
- Each year Ph.D. students will submit a report outlining their progress toward degree.
- The student must maintain a minimum 3.0 GPA in order to remain in good standing.
- Qualifying Exam (see below) and Comprehensive Exam (see below).
- Completion and defense of a Dissertation.

Sample Plan of Study

The following plan of study is meant to serve as an example, only. An individual student’s plan of study will be developed in coordination with their graduate supervisor and reflect the emphasis of their study. The study may also enroll in additional courses that do not appear on the Plan of Study submitted to the Office of Graduate Studies.

- Transfer from Masters Degree: 15 hours (graduate courses, only)
- Fall semester (year 1)
  - GEOL 7180 Solar System Science (3 hours)
  - GEOL 7650 Plate Tectonics (3 hours)
  - GEOL 8300 Precambrian History (3 hours)
- Spring semester (year 1)
  - GEOL 8450 Tectonics and Sedimentation (3 hours)
  - GEOL 8320 Introduction to Seismology (3 hours)
  - STAT 7070 Statistical Methods for Research (3 hours)
- Fall semester (year 2)
  - GEOL 8800 Applied Numerical Analysis (3 hours)
  - ASTRON 7180 Solar System Science (3 hours)
  - GEOL 9090 Research in Geological Sciences-Doctoral Dissertation (3 hours)
- Spring semester (year 2)
  - GEOL 8140 Metamorphic Petrology (3 hours)
  - LTC 8724 College Science Teaching (3 hours)
  - GEOL 9090 Research in Geological Sciences-Doctoral Dissertation (3 hours)
  - [Comprehensive Exam passed]
- Summer term (year 2)
  - GEOL 9090 Research in Geological Sciences-Doctoral Dissertation (1 hour)
- Fall semester (year 3)
  - GEOL 9090 Research in Geological Sciences-Doctoral Dissertation (3 hours)
  - ED_LPA 9456 The Professoriate (3 hours)
- Spring semester (year 3)
  - GEOL 9090 Research in Geological Sciences-Doctoral Dissertation (3 hours)
- Summer term (year 3)
  - GEOL 9090 Research in Geological Sciences-Doctoral Dissertation (3 hours)
- Fall semester (year 4)
  - GEOL 9090 Research in Geological Sciences-Doctoral Dissertation (3 hours)
- Spring semester (year 4)
  - GEOL 9090 Research in Geological Sciences-Doctoral Dissertation (3 hours)
- Summer term (year 4)
  - GEOL 9090 Research in Geological Sciences-Doctoral Dissertation (3 hours)
- Fall semester (year 5)
  - GEOL 9090 Research in Geological Sciences-Doctoral Dissertation (3 hours)

Total: 72 hours

Exams

Qualifying Exam Process

After filing a formal application for the Ph.D., the student must take the departmental Ph.D. Qualifying Exam following the first semester in residence. This is a written and oral exam administered by an exam committee. Passing this exam enables the student to form a Ph.D. Advisory committee and plan the Ph.D. Program of Study.

Comprehensive Exam Process

After the Program of Study is completed the student must take the Comprehensive Exam—typically in their 4th or 5th semester. The written portion of the exam is a dissertation research proposal, followed by an oral defense of the proposal. The presentation of the dissertation proposal is open to the public. Following successful completion of the Comprehensive Exam, the Ph.D. student is now a Ph.D. candidate and can devote full attention to the required dissertation.

Dissertation Requirements

The dissertation is expected to be an original piece of research that is a genuine contribution to geology. Continuous registration (fall, winter and summer) is required until the degree is received. The student is required to make an oral presentation of the results of his dissertation research before faculty and students as the project nears completion. A separate defense of the dissertation occurs during the Final Examination after the dissertation has been read by the supervisor and committee members.

Admissions

Fall deadline: none set, but January 31st for guaranteed consideration for departmental financial aid for the following Fall-Spring academic year. Additional admission requirements and criteria:

- The equivalent of the MU Master of Science degree in geology or in another related science is normally required of each student prior to admission to the Ph.D. program. Students with outstanding first year graduate records, however, may bypass the Master’s degree upon petition to the faculty.
**Undergraduate**

- **BA in German** (p. 208)
- **Minor in German** (p. 208)

**Dual Degrees and Double Majors**

As a double major or a dual degree has become an even more popular choice, an increasing number of students choose German or Russian as one of their majors. Students looking forward to a career in medicine or in the sciences use a double major to ensure a thorough background in the humanities to balance their scientific studies. Double majors within the College of Arts and Science can be arranged and, if the second degree program is identified early, dual degree programs outside the college are also possible. Combined programs with journalism, international studies, education and business are frequent choices. Within the college, combinations with political science, history, philosophy, art history, and the sciences are popular double major programs.

**Departmental Honors - German**

Departmental honors are available for students majoring in German with a minimum 3.3 GPA. At least two literature courses must be taken at the 4000-level, with no grades below B. The equivalent of one of the courses may be completed in study abroad. Alternately, at the discretion of the department, a paper written within the capstone course may be substituted.

**Graduate**

- **MA in German** (p. 209)

**Director of Graduate Studies:** Seth Howes

The German and Russian Studies Department offers BA and MA degrees in two cultures and languages of critical significance in the world today - German and Russian. The German program prepares students for admission to PhD programs and for professional language careers in a number of fields. Courses in language, literature, teaching techniques and skills, seminars in various specialized aspects of German studies, and directed study and research provide candidates with opportunities to acquire a comprehensive background in German studies. Teaching assistants receive training in pedagogy.

**Resources and Facilities**

Resources include extensive library holdings in German literature, cultural studies, and teaching methodology, and an electronically equipped audiovisual laboratory for language training.

**Financial Aid from the Program**

Some programs require an extra form or statement from those who wish to be considered for internal assistantships, fellowships or other funding packages. Check the program website or ask the program contact for details.
# BA in German

## Degree Program Description

The German degree is the exploration of the language, literature and culture of German-speaking countries (Germany, Austria, and Switzerland). Many of the greatest thinkers and artists of the modern era - e.g. Einstein, Freud, Nietzsche, Kant, Beethoven, Marx, Kafka, Goethe - came from these regions, while almost every discipline in the humanities, sciences, and social sciences has a strong German tradition. In addition, Germany plays a crucial role in the European Union, on the world political stage, and in economic dealings with the United States and around the world. The BA in German offers you the possibility of participating in this vibrant cultural tradition first hand. MU German majors have successfully pursued careers in business, engineering, finance, law, journalism, government service, teaching, medicine, and the sciences, as well as in art, literature, philosophy, music, and film.

## Major Program Requirements

The major in German consists of 27 credits in German beyond GERMAN 2100. The German faculty strongly encourages all majors to spend at least one semester studying abroad at a German university. Equivalents to all the required courses for the major are available through study abroad. In addition, students must meet all degree, college and university graduation requirements (p. 30) including university general education (p. 31).

### Major core requirements (beyond the A&S language requirement)

The following courses or their equivalents must be included:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>GERMAN 2260</td>
<td>Intermediate German II: Language and Culture</td>
<td>3</td>

**NOTE:** Third Year - Study Abroad at German University

## Minor in German

### Contact:

Megan McKinstry  
Phone: 573-884-4906  
McKinstrym@missouri.edu

The department offers a minor in German consisting of 15 credits beyond GERMAN 2100. A minimum of 6 of these 15 credits must be in German courses numbered 3000 or above. In addition, a minimum of 9 of the 15 credits must be completed in residence. For the German minor, 12 of the 15 credits must be in courses where the language of instruction is German.
MA in German

Application and Admission Information

Admission Contact Information
Dr. Kristin Kopp
kopkr@missouri.edu
411Strickland
Columbia, MO 65211
(573) 882-3367

Admission Criteria

Fall deadline: First preference given to applications received by January 15, subsequent applications welcomed
Note: Applications received by January 15 receive first consideration
Spring deadline: August 1
Note: Applications to begin Spring semester are not encouraged.
Assistantships are typically not available for graduate students beginning Spring semester.

• Minimum TOEFL scores:
  Internet-based test (iBT)
    61 Effective July 1, 2015 must have score of 80
  Paper-based test (PBT)
    500 Effective July 1, 2015 must have score of 550

• Minimum GPA: 3.0

• Undergraduate major in German or equivalent

Note: The department reserves the right to evaluate the work presented for admission and to determine how the student may make up for background deficiencies.

Required Application Materials

To the Office of Graduate Studies:
• All required documents

To the Program:
• Departmental application
• 3 letters of recommendation

Degree Requirements

Students must complete a minimum of 30 hours of graduate-level courses with a GPA of B or higher. No fewer than 24 hours are to be earned in German courses at the 7000 or 8000 level and at least 15 hours must be taken in German courses at the 8000 level. A thesis, with a maximum of 6 hours of credit, or a critical essay, with a maximum of 3 hours credit, are optional. Courses taken outside the department must complement the student’s plan of study and require the approval of the departmental advisor. No languages other than German and English are required. Information regarding specific course requirements can be obtained by writing to the director of graduate studies.

Comprehensive Examinations

Candidates for the MA degree must pass comprehensive written and oral final examinations based on coursework and a cumulatively prepared reading list.

History

C. Rymph, Chair
College of Arts and Science
101 Read Hall
(573) 882-0250
Fax: (573) 884-5151

The Department of History offers undergraduate work in the history of ancient, medieval and modern Europe, the United States, Latin America, Asia and Africa.

The department offers BA, MA and PhD degrees with majors in History. The department offers an emphasis in Public History for undergraduate history majors. A minor is also available.

Faculty

Curators Professor  A. M. Smith**, J. Sperber**
Arvarh E. Strickland Distinguished Professor of African American History and Culture D. Fergus**
Kinder Endowed Chair in Constitutional Democracy J. Sexton**
Professor  J. Pasley**, C. Rymph**, S. Watts**, J. Wigger**
Assistant Professor K. Bowers, C. Diersheide, V. McFarland**, A. Reichardt, D. Yang

Associate Professor Emeritus L. Okamura**

* Graduate Faculty Member - membership is required to teach graduate-level courses, chair master's thesis committees, and serve on doctoral examination and dissertation committees.

** Doctoral Faculty Member - membership is required to chair doctoral examination or dissertation committees. Graduate faculty membership is a prerequisite for Doctoral faculty membership.

Undergraduate

• BA in History (p. 210)
  • with emphasis in Public History (p. 211)
• Minor in History (p. 211)

Graduate

• MA in History (p. 212)
• PhD in History (p. 213)

Director of Graduate Studies: John Frymire

By any measure one might choose, the History Department at the University of Missouri is an outstanding one. Our faculty has compiled a distinguished record of scholarship, receiving major awards to support their research from the National Endowment for the Humanities, the National Science Foundation, the John Simon Guggenheim Foundation and many other sponsors of cutting edge scholarship. Their books have won prizes from the American Historical Association, the Organization
History is the chronicle of humanity's activities throughout the ages. The study of history offers a means of understanding the present by investigating and analyzing the past. Students can choose from a wide selection of course work including courses in the history of the United States, Latin America, Europe (from ancient Greece to the present), Africa and East Asia. The curriculum provides course work in political, social and economic history. The State Historical Society of Missouri has an outstanding library of finding aids and primary and secondary works dealing with Missouri history. The graduate program also has available the resources of the Truman Library at Independence, Missouri.

**Areas of Study**

Lecture courses, seminars and directed research projects are available on the histories of Western Europe, East Asia, Latin America, and the United States. While students are expected to get specialized training in the fields of their choice, they are also urged to develop a broad historical background.

**Facilities and Resources**

Ellis Library has substantial research materials in all fields of graduate study, including an unusual collection of more than 5,000 pamphlets on 17th- and 18th-century British history and 18th- and 19th-century British and continental journals, including publications of all the major academies. The Health Sciences Library has excellent publications on the history of medicine. An additional resource is the Western Historical Manuscript Collection, a unique repository of material for regional studies in political, social and economic history. The State Historical Society of Missouri has an outstanding library of finding aids and primary and secondary works dealing with Missouri history. The graduate program also has available the resources of the Truman Library at Independence, Missouri.

**Internal Funding**

Applicants may compete for Graduate School fellowships for entering students. Graduate School fellowships require departmental nomination. Interested students should consult with the director of graduate studies for further details. The department provides qualified students the opportunity to gain college-level teaching experience as teaching assistants who conduct discussion sections in American and European history. Pending administrative approval and availability of funding, they earn at least $18,000 an academic year at the PhD level and carry nine semester hours. Each appointment is subject to annual review and may be renewed up to a maximum of six years.

**BA in History**

**Degree Program Description**

History is the chronicle of humanity's activities throughout the ages. The study of history offers a means of understanding the present by investigating and analyzing the past. Students can choose from a wide selection of course work including courses in the history of the United States, Latin America, Europe (from ancient Greece to the present), Africa and East Asia. The curriculum provides course work in political, cultural, social, intellectual, environmental and diplomatic history. Beyond the classroom students gain hands-on experience by working as interns at sites such as the University of Missouri Archives the Boone County History & Culture Center and The Museum of Missouri Military History. Students skilled in research, analysis and writing are attractive to graduate schools in history, museum studies, and public affairs as well as law schools, and business schools. Many history majors obtain their teaching certificate to allow them to teach in public schools. History majors are highly recruited in many fields of business, including management, marketing and finance. Libraries, museums, archives, publishing companies, and local history and preservation projects all offer careers with the possibility of continued specialization in history. A number of our majors have also found rewarding work in city, state and federal government, including city planning, historic preservation, and working on political campaigns locally and in Washington DC.

**Major Program Requirements**

A student majoring in history must complete a total of 33 history credits. A grade of C- or better is required for all courses taken for the major. In addition, students must complete all university graduation requirements (p. 30), general education (p. 31) and Arts and Science Foundation Requirements.

BA in History with Emphasis in Public History

Degree Program Description

The Public History emphasis is intended for history majors interested in the application of historical studies in public settings. The course of study encompasses historical work outside of the university setting, including, museums, heritage sites, national parks, archives, public agencies, private corporations and non-profit organizations. The emphasis is designed to prepare students for graduate programs in public history, museum studies, or careers in public service.

Major Program Requirements

I. Introductory Courses (same as BA degree) 9
II. Research Skills (same as BA degree) 3
III. Area Specific Courses (same as BA degree) 9
IV. History Electives 6
   HIST 4910: History in the Public + 1 history course at the 3000 level or above
V. Capstone (Two Internships, HIST 4940) 6
   At least one internship must involve some sort of public presentation (poster session, conference presentation, museum display or digital exhibit) based on original research
VI. Public History Component
   Two courses from above, (not to include HIST 4910 or HIST 4940) must include a digital or public history component.
VI. U.S. History Requirement (same as BA degree)

In addition, students must complete all College of Arts and Science and University graduation requirements (p. 30), including University general education (p. 31).

Semester Plan

Below is a sample plan of study, semester by semester. A student’s actual plan will vary based on course choices where options are available.

Total Credits: 121

Minor in History

A minimum of 15 credits is required for a minor in history. At least 9 of the 15 must be in courses numbered 2000 or above. A minimum of 9 credits must be taken in residence, 6 of which must be in courses numbered 2000 or above. A grade of C- or better is required for all history courses taken for the minor, however, a cumulative GPA in your minor must be at least a 2.0. The selection and mix of courses is left to the discretion of the student.

Once an A&S minor is awarded a student cannot return to MU to complete a major in the same department. A minor must be posted at
the same time as the major degree is posted, you cannot return after you have graduated to obtain a minor.

**MA in History**

**Admission Contact Information**

Nancy Taube (tauben@missouri.edu)
101 Read Hall; Columbia, MO 65211
(573) 882-0250

**Admission Criteria**

Fall deadline: Mid-January (see departmental website for specific date)

- Minimum GPA: 3.0 in last 60 hours
- BA or BS degree
- GPA of 3.3 in undergraduate history courses, and at least 18 hours in history
- Official GRE score report, recommended but not required
- Minimum TOEFL scores (international applicants only):
  - Internet-based test (iBT) 61
  - Paper-based test (PBT) 500
  - Effective July 1, 2015 must have score of 80
  - Effective July 1, 2015 must have score of 550

Candidates who lack the necessary undergraduate hours in history must take graduate-level classes in history to remedy that deficiency before they can be considered for admission. They should consult with the director of graduate studies about appropriate classes. Graduate School regulations prohibit a non-degree student from taking more than twelve hours of course work.

Candidates must achieve a grade point average in these classes of at least 3.3 on a 4.0 scale to be considered for admission. A 3.3 GPA or higher does not guarantee admission. Course work taken as a non-degree student to remedy a deficiency in prerequisites ordinarily will not count toward the MA degree.

**Required Application Materials**

**To the Graduate School:**

- All required documents, including online application
- One uploaded copy of each college transcript where a degree was earned or is pending (official transcripts will be required upon admission)
- Short essay explaining goals and expectations in graduate study, including the fields in which the student plans to specialize (upload to the online application)
- Substantial writing sample, such as a final research paper from a course (upload to the online application)
- 3 letters of recommendation (submission through the online application system strongly preferred, but postal mail submission directly to the department allowed)
- Official GRE score report, recommended but not required
- Official TOEFL score for international students

**Note:** Incomplete applications will not be considered. It is the applicant’s responsibility to ensure that all required documents have been received by the January deadline.

**Financial Aid from the Program**

In this department, all applicants are considered for financial aid unless they indicate otherwise. Announcements of awards are made no later than April 1. Applicants may compete for fellowships for entering students. Fellowships require departmental nomination. Interested students should consult with the director of graduate studies for further details.

The department provides qualified students the opportunity to gain college-level teaching experience as graders who grade exams and papers in American and European history. Pending administrative approval and availability of funding, they earn at least $8,194 an academic year and carry nine semester hours.

Each appointment is subject to annual review and may be renewed up to a maximum of two years.

**Requirements for the Degree Residency**

A minimum of two semesters of full-time enrollment (9 hours each semester) or three semesters of part-time enrollment (6 hours each semester). Enrollment in all graduate courses requires the consent of the student’s advisor and the instructor(s) of the class.

**Hours**

Thirty semester hours of graduate credit are required by the Graduate School for the MA degree. The Graduate School also mandates that at least fifteen of these hours be in courses numbered 8000 or above, and will not count more than twelve hours of individually directed studies toward the thirty hours necessary to earn the degree. The department requires that at least twenty of these hours be in history. For students of United States history, at least fifteen hours must be in formally constituted US history courses. For students in the non-United States history program, at least twelve hours must be in formally constituted non-US history courses. Independently directed work does not count toward fulfilling this requirement in either category.

**Required Courses**

A studies course in every semester in which as many as nine credit hours are carried, unless the student is granted an exemption by the director of graduate studies. Every master’s student must take HIST 8480 Historiography unless excused by the director of graduate studies. HIST 8480 is offered regularly.

Every student who is a non-thesis candidate must complete at least two research seminars before receiving the MA degree. No master’s candidates in US or non-US history are required by the department to demonstrate reading proficiency in any foreign languages or to develop research skills before receiving the MA degree. Individual advisors, however, can require MA candidates to become proficient in reading foreign languages and/or develop specific research skills if they determine such knowledge is essential for the successful completion of a student’s master’s program. As soon as any such determination is made, students will be informed by their advisors. The advisors will also discuss with them processes for achieving and demonstrating those proficiencies.

Master’s candidates in Ancient History must demonstrate proficiency in at least one ancient language (Greek or Latin) and at least one modern language (generally, either French or German) before they begin work on their theses, if they choose that alternative, or before they take the non-thesis MA examination, if they are seeking a terminal master’s degree. These students should also be aware that ancient history graduate
courses can include readings in Greek and Latin. For directions on how to demonstrate proficiency in these ancient and modern languages, students should talk with their advisors and obtain a written description of this process from them.

Special Note: No student will receive graduate credit for any course in which s/he earns a grade below B. The grade of C in a graduate class is equivalent to an F in an undergraduate course.

Satisfactory Progress and Annual Review

At the beginning of every Spring semester, students must complete a "Progress Report" on the Graduate Schools' Graduate Student Progress System (sometimes referred to as "online assessment"). This report will be read by the student's faculty advisor, who will then submit an "Advisor Response." In addition, the student and advisor should meet to discuss the student's progress, confirm expectations for the coming year, and address any concerns either may have regarding the report.

This is an extremely important process for two reasons. First, the advisor determines whether the student is making satisfactory progress toward a degree. If s/he is not, the advisor informs the student what needs to be done to rectify the situation. The student then usually has a year to return to making satisfactory progress. Failure to do so may result in loss of financial aid or dismissal from the program. Second, if the student is making satisfactory progress, the advisor and s/he decide together on what reasonable goals are for the next twelve months. These goals will define "satisfactory progress" at the next assessment meeting.

Appeals

The student may appeal any assessment to the director of graduate studies. If not satisfied, s/he may seek the remedies described in the Graduate School catalog.

Effect of Progress Report Completion on Funding

Completion of the Graduate Student Progress System forms by both student (Progress Report) and faculty (Advisor Response) is mandatory to maintain eligibility for any form of financial aid from the department. Receipt of financial aid requires confirmation by a student's advisor that s/he is making satisfactory progress. No student in the program who applies for or who is seeking renewal of financial aid will be eligible for aid without a complete and up-to-date Graduate Student Progress System Report on file.

Plans for MA Degrees: Thesis plan

All students who wish to apply for admission to doctoral programs in history either at the University of Missouri or at other institutions must write a thesis. A thesis involves an original and extended analysis of an historical issue that requires substantial research. The topic of the thesis must be approved in advance by the student's faculty director and the thesis committee, which is composed of the director, at least one other member of the history faculty, and one faculty member from outside the department.

The Graduate School regulations require that there be an outside faculty person on each thesis committee. At the discretion of the director, additional faculty members may be added to the committee. The appropriate forms, signed by the advisor and the director of graduate studies, will be submitted to the Graduate School.

Students will take HIST 8090, Thesis Research, during those semesters they are actually engaged in writing their thesis. N.B.: The Graduate School only permits six hours of HIST 8090 to count toward the 30 hours necessary to earn a master's degree. Students should also note that hours earned in HIST 8090 do count toward the maximum of 12 hours of independent study, i.e., HIST 8085 (Problems), HIST 8089 (Research), and HIST 8090 (Thesis Research), the Graduate School will accept as credit for this degree.

Plans for MA Degrees: Non-Thesis Plan

Students may earn a master's degree without writing a thesis. A non-thesis MA is a terminal degree. Those who receive it will not be considered for admission to the doctoral program. These students must successfully complete two research seminars in history. These seminars will count toward the thirty hours required for an MA degree. One of the seminar papers must be submitted to the department to fulfill the Graduate School requirement for a substantial effort reflecting creativity or originality.

Examination for the MA degree: For Thesis Plan

The student must defend her/his thesis before a committee of at least three faculty members, one of whom must be the thesis director. Another must be from a department other than History. The committee is appointed by the Graduate School upon recommendation from the Department of History. The examining committee decides:

1. whether to recommend the awarding of the MA degree to the student
2. for prospective doctoral candidates, whether the student shall be permitted to enter the doctoral program.

This latter action constitutes a decision on the qualifying examination required in the doctoral program. Afterwards, the appropriate form(s) will be signed by the advisor, committee members, and the director of graduate studies, then sent to the Graduate School.

Examination for the MA degree: For Non-Thesis Plan

A comprehensive oral examination covering all work for the degree will be conducted by a committee of the advisor and at least two other faculty members, one of whom may be from a department other than history. The examining committee decides whether to recommend the awarding of the MA degree. Afterwards, the appropriate form(s) will be signed by the advisor, committee members, and the director of graduate studies, then sent to the Graduate School.

Graduate School Deadlines for receipt of the MA degree

Students must meet the Graduate Schools' deadlines for the awarding of degrees and the submission of theses. The final form of the thesis must be in conformity with the Graduate School requirements.

PhD in History

Admission Contact Information
Nancy Taube (tauben@missouri.edu)
101 Read Hall; Columbia, MO 65211
(573) 882-0250
Application Deadline
Fall deadline: Mid-January (see departmental website for specific date)

Admission Criteria
- MA in history strongly preferred
- Quality of master’s thesis or research seminar paper submission
- Official GRE score report, recommended but not required
- Minimum TOEFL scores (international applicants only):

<table>
<thead>
<tr>
<th>Internet-based test (iBT)</th>
<th>Paper-based test (PBT)</th>
</tr>
</thead>
<tbody>
<tr>
<td>61</td>
<td>500</td>
</tr>
</tbody>
</table>

Students who do not meet one or more of these criteria may enroll as non-degree graduate students. Contact the director of graduate studies for further details. All admissions of doctoral candidates who did not receive the MA degree from the department are provisional. These students must pass a qualifying examination. See below for information about the qualifying examination.

Required Application Materials

To the Graduate School:
- All required Graduate School documents, including Graduate School online application
- One uploaded copy of each college transcript where a degree was earned or is pending (official transcripts required upon admission)
- Short essay explaining goals and expectations in graduate study, including the fields in which the student plans to specialize (upload to the online application)
- Substantial writing sample, such as a final research paper from a course (upload to the online application)
- 3 letters of recommendation (submission through the online application system strongly preferred, but postal mail submission directly to the department allowed)
- Official GRE score report, recommended but not required
- Official TOEFL score for international students

Note: Incomplete applications will not be considered. It is the applicant’s responsibility to ensure that all required documents have been received by the January deadline.

Financial Aid from the Program

In this department, all applicants are considered for financial aid unless they indicate otherwise. Announcements of awards are made no later than April 1. Applicants may compete for Graduate School fellowships for entering students. Graduate School fellowships require departmental nomination. Interested students should consult with the director of graduate studies for further details.

The department provides qualified students the opportunity to gain college-level teaching experience as teaching assistants who conduct discussion sections in American and European history. Pending administrative approval and availability of funding, they earn at least $18,025 an academic year and carry nine semester hours. Each appointment is subject to annual review and may be renewed up to a maximum of six years.

Qualifying Examination

To be admitted to candidacy for a PhD in history, a student must have earned an MA in history or a related discipline and have passed a qualifying examination.

Students with an MA from the University of Missouri

Students earning their MA in history at this university may, with the approval of their advisory committee, combine their qualifying examination with their MA thesis defense. Other students must take their qualifying examination no later than the beginning of their third semester in the graduate program at the University of Missouri.

Students Who Earned Degrees at Other Institution

All admissions of doctoral candidates who did not receive the MA degree from the department are provisional. These students must pass a qualifying examination no later than the beginning of their third semester of residence at MU. The exam will focus on a research paper the student wrote at MU.

About the Exam

The examining committee will be composed of the student’s advisor and at least two other history faculty members. During the consideration of prospective students, the committee on graduate admissions will consult closely with faculty best suited to advise them.

The basis for the examination will be a substantial research-based seminar paper written here. The exam will be oral, approximately one hour in length; the examiners will include the student’s advisor and at least two other members of the department. It is designed to ascertain the candidate’s intellectual capacity, aptitude, and preparation for PhD level work in history. The committee reserves the right to reject otherwise qualified students if:

1. This department cannot provide the applicant with an adequate program in his/her area of interest
2. No faculty member is willing to supervise his/her work.

PhD Program Overview

The PhD program in history at the University of Missouri is governed by a number of rules, regulations, and expectations. What follows is an explanation of these elements of the program.

Advisor and Advisory Committee

A student will meet with his/her advisor no later than the semester following passage of the qualifying examination for students who earn their MA in history at the University of Missouri and prior to the qualifying examination for other students. The advisor and student together will plan the student’s class work up to the comprehensive exams. They will also choose other members of the student's doctoral committee. That committee will ordinarily consist of the advisor, three members of the history department who are on the graduate faculty, and one graduate faculty member from outside the department. The advisory committee must be approved by the dean of the Graduate School.

Developing a PhD Plan of Study

The committee will meet formally with the student to help the student to develop a major field, two broad historical fields, a historical field outside his/her area of major emphasis, and one field in a discipline other than history for the comprehensive examination. How s/he will meet the foreign language and/or historical research technique requirement (see
below) will be defined and approved by the advisor and the committee. Members of the advisory committee shall meet regularly with the student to ensure he/she is making satisfactory progress.

**PhD Degree Requirements**

To obtain a PhD in history at the University of Missouri, a student must fulfill the following requirements:

1. residency
2. course work
3. foreign language and/or historical/research technique
4. comprehensive examination
5. dissertation and oral defense

**Residency**

A minimum of two semesters of full-time enrollment (9 hours each semester) or three semesters of part-time enrollment (6 hours each semester). Enrollment in all graduate courses requires the consent of the student’s advisor and the instructor(s) of the class.

**Course Work**

The minimum requirement for the PhD degree at the University of Missouri is 72 hours of graduate credit beyond the baccalaureate degree. A student’s advisor and committee may require more. Customarily, students in history have more than 72 hours when they defend their dissertations. If a student has earned an MA degree at another institution, with the approval of her/his advisor and committee, s/he may receive up to 30 hours of credit toward the 72 necessary for the PhD. If a student took additional courses beyond his/her MA degree at another institution, with the approval of her/his advisor and committee, s/he may receive up to a maximum of six hours of credit toward the PhD.

Graduate School regulations forbid the awarding of more than six hours. Two-thirds of the courses taken by a PhD candidate within the department prior to the comprehensive examination must be at the 8000 or 9000 level. These may, and probably will, include History 8085 (Problems), HiST 8410 (Independent Readings PhD Exam), but not HiST 9090 (Dissertation Research).

Every doctoral student who earned his/her master’s degree at another institution must take HiST 8480, Historiography, unless excused by the director of graduate studies. History 8480 is offered regularly.

**Foreign Languages and Historical Research Techniques**

PhD candidates must demonstrate abilities in foreign languages and/or historical research skills appropriate to the completion of a doctoral dissertation in their proposed field of research. There are four different ways a student may fulfill this requirement. Which one is chosen depends on the area of his/her research interest. The advisor and committee must approve the method for fulfilling this requirement.

**PhD Focus Areas**

**Ancient History Focus**

Candidates planning to write a doctoral dissertation in ancient history must demonstrate their competence in Greek and Latin, together with at least two modern languages (usually French and German).

For the ancient language, competence will be shown either by the successful completion of a translation examination designed by a history department faculty member with knowledge of the relevant language, or by the completion of upper-level courses in the department of classical studies, or by other such proof as the advisor and other members of the advisory committee deem appropriate.

Competence in the modern languages will be shown either by the successful completion of a translation examination designed by a history department faculty member with knowledge of the relevant language, or by passing the ETS language examination with a minimum score of 500, or by the successful completion of an upper level language course in any modern language department of the university.

**European History Focus**

Candidates planning to write a dissertation in European history must be competent in two foreign languages.

Competence may be demonstrated either by successful completion of a research paper, the sources for which are predominantly in the foreign language under consideration, or by successful completion of a translation examination designed by a history department faculty member with knowledge of the relevant language, or by passing an ETS language examination with a minimum score of 500. A candidate’s advisory committee may also require him/her to show competence in historical research technique. An historical research technique is a specialized field of study which provides a student with additional skills for research. Quantitative methods/statistics or techniques of historical exhibition, museum work, and the analysis of material culture are some examples. Competence will be demonstrated by satisfactory completion of a substantial research paper or other historical project for which the technique is necessary.

Students who take foreign language courses should keep in mind that all classes below 7000 may not be taken for graduate credit and do not count toward the 9 hours per semester required for those receiving financial aid.

**American History Focus**

Candidates planning to write a dissertation in American history shall have a competent reading knowledge of one foreign language.

Competence in a foreign language shall be demonstrated in the ways described above for candidates in European history.

**Asian or Latin American History Focus**

Candidates planning to write a dissertation in Asian or Latin American history shall demonstrate a competence in such languages as their advisory committee requires for their research. In addition, a candidate’s advisory committee may require the candidate to demonstrate competence in an historical/research technique, as defined above in the American History section (3).

**Preparation for the Comprehensive Examination**

In the department of history, each doctoral student must prepare five fields for the comprehensive examinations. The selection of those fields and the faculty who will be the examiners in each should be begun by the doctoral candidate and her/his advisor during her/his first semester at MU. The advisor will help the student prepare for examination in her/his major field. This will cover significant historical themes and historiographical trends in the specific period and area of the student’s prospective dissertation topic.
Two other members of the history faculty will help the student prepare for examinations in two chronological and/or geographical areas of historical study that are appropriate for his/her dissertation topic. A fourth member of the history faculty will help the student for an examination in a chronological, geographical, and/or thematic area of historical study that is not directly related to his/her dissertation topic. A fifth faculty member from a department other than history will help the student for examination in an outside field. This will cover the methodologies and research findings of another academic discipline.

Areas of Study and Dissertation Topics
What the student learns in this discipline should assist his/her understanding of and research on her/his dissertation topic. The student’s choice of a discipline to work in for his/her outside field is potentially as wide as the number of programs and departments in the university. That choice is not confined merely to departments in the College of Arts and Science. The student must have his/her advisor’s approval of the discipline and the outside faculty member. The Graduate School must approve these selections as well.

Within the department of history there are seven broad areas of historical study:
- US history to 1865 (including the colonial period)
- US history since 1865
- Ancient history
- European history from the fall of Rome through the Reformation
- European history since the Reformation
- Latin American history
- Asian history

The three history faculty who, together with the advisor, will help the student prepare for the comprehensive examinations, must each test him/her on material in a different broad area. Thus the student will be working on three different broad areas, plus the dissertation field. The three faculty members may, in consultation with the student, define the broad area as narrowly or as widely as they choose.

Documenting Exam Preparation
The advisor and the four other faculty members must explain how they want the student to prepare, what they want the student to master, and which criteria they will use to assess the examinations in their particular field. These explanations must be in writing, and copies of each placed in the student’s permanent file.

Comprehensive Examination Requirement
Students may take a comprehensive examination only after fulfilling their residency, course work and foreign language and/or historical research technique requirements. It will be administered by a committee consisting of his/her advisor and four other faculty members, one from a discipline other than history. These should be the faculty members who helped the student prepare for the examinations. Sometimes it may be necessary to find substitutes. The director of graduate studies and the Graduate School must approve any substitutions, and new committee members must describe their expectations in writing for the student and for his/her permanent file.

Comprehensive Exams Processes
The comprehensive exams are given in two stages. The first is a series of at least three written exams. The second is an oral examination, which is conducted if the student passes the written portion. A report of the decision, signed by all members of the committee, must be sent to the Graduate School and the student no later than two weeks after the comprehensive exam is completed. One of the written exams must be in the major field; the committee will determine the subjects of the other exams, and their number.

Special Note: All members can require the student to write on their areas of expertise. Therefore the written examinations could cover all five areas.

All members of the committee will read the written exams and discuss them within two weeks after their completion. If they determine the student has not successfully completed the exam, they will inform him/her immediately and discuss the results. Failure ends the comprehensive exam at this point. The committee must provide the student with an outline in writing of the weaknesses and deficiencies of his/her work.

A copy of this must be placed in the student’s permanent file. If at any time the student believes that parts of the exam are unclear, or the decision of the committee is incorrect, or the advice given by the committee is inadequate, s/he may send a written request for clarification and rectification to the committee. A copy of this request should be sent to the Graduate School as well. The committee must respond to this request in writing within two weeks and a copy must be filed with the department and the Graduate School.

At least 12 weeks must pass before a student who failed can take the comprehensive exams again.

If the committee determines that the student did satisfactory work on the written examinations, they will schedule an oral examination. This second stage of the comprehensive exams will cover all five fields. Each member of the committee will test the student. At the end of the oral examinations, the committee discusses the student’s performance on each field and on the entire examination. This discussion includes both the written and the oral parts of the whole process. Then they vote pass, fail, or abstain on the student’s total performance on the exam.

Criteria for Successful Completion of the Comprehensive Exam
To complete the comprehensive exams successfully, the student must receive a vote of pass from at least four of the five examiners. Should two or more votes be negative or abstentions, the committee follows the same procedure outlined above for failure to pass the written part. These students must repeat the entire examination, not just the fields failed, and not just the oral portion. If the candidate fails the second examination, the examining committee must enter on its report to the dean of the Graduate School a recommendation to prevent the student’s further candidacy.

Dissertation and Oral Defense
Soon after successful completion of the comprehensive examination, the student and advisor will form a dissertation committee of five faculty members. One member of the committee must be from outside the department. The student shall develop with her/his advisor and committee a dissertation topic and a plan of research. S/he should keep in regular contact with the advisor. Together they shall decide when written work will be read by other members of the committee.
Travel Funding

When students begin work on their doctoral dissertations, they may apply for departmental fellowships and travel grants to assist their research and writing.

Satisfactory Progress

The department requires PhD candidates to make satisfactory progress towards completion of their degree.

Annual Review

At the beginning of every Spring Semester, students must complete a "Progress Report" on the Graduate School's Graduate Student Progress System. This report will be read by the student's faculty advisor, who will then submit an "advisor Response." In addition, the student and advisor should meet to discuss the student's progress, confirm expectations for the coming year, and address any concerns either may have regarding the report.

This is an extremely important process for two reasons. First, the advisor determines whether the student is making satisfactory progress toward a degree. If s/he is not, the advisor informs the student what needs to be done to rectify the situation. The student then usually has a year to return to making satisfactory progress.

Failure to do so may result in loss of financial aid or dismissal from the program. Second, if the student is making satisfactory progress, the advisor and s/he decide together on what reasonable goals are for the next twelve months. These goals will define "satisfactory progress" at the next assessment meeting.

Appeals

The student may appeal any assessment to the director of graduate studies. If not satisfied, s/he may seek the remedies described in the Graduate School catalog.

Funding Impact of Incomplete Reports

Completion of the Graduate Student Progress System forms by both student (Progress Report) and faculty (Advisor Response) is mandatory to maintain eligibility for any form of financial aid from the department. Receipt of financial aid requires confirmation by a student's advisor that s/he is making satisfactory progress. No student in the program who applies for or who is seeking renewal of financial aid will be eligible for aid without a complete and up-to-date Graduate Student Progress System Report on file.

Rate of Completion

A PhD student must successfully complete the comprehensive examination within a period of five years beginning with the first semester of enrollment as a PhD student. For an extension of this the student must petition the Graduate School by submitting a request to the advisor who, in turn, submits a written recommendation to the Graduate School. The director of graduate studies will also make a written recommendation. In addition, the dissertation must be successfully defended within five years of passing the comprehensive examination. On petition of the candidate and the candidate's department, an extension of time may be granted by the Graduate School.
easily accommodated in any one department may find this program suited for their needs. Others may find that this option permits a broader approach than the major found in a single department.

The Interdisciplinary Studies major is comprised of two or three components to total 36 credits. A component consists of course work from a single department or area, which may include programs outside the College of Arts and Science (e.g., Journalism, Business or Social Work). At least 18 hours must come from the College of Arts and Science. In addition to the 36 hours required in the major components, Interdisciplinary Studies students must also complete a 3-credit capstone.

Interdisciplinary Studies candidates must earn no less than a 2.0 GPA in each component. They are bound by rules and practices of the College of Arts and Science that pertain to admission to degree programs, the awarding of credit, and the awarding of degrees. Students must complete college as well as University requirements (p. 30), including University general education (p. 31). A student who has earned a degree in Interdisciplinary Studies (excluding majors with emphases in Black Studies, Peace Studies or Women’s and Gender Studies) may not pursue a second degree in a field that was used as a component of the first degree.

Major Core Requirements

Area of concentration (select one option) 36

- Three components of 12 credits each
- Three components, one of 15, one of 12 and one of 9 credits
- Two components of 18 credits each
- Two components, one of 21 and one of 15 credits

All courses in the major must be at the 2000 level, and at least 15 credits must be 3000 level or above.

A minimum of 12 credit hours within all components must be MU courses. A maximum of 6 hours of Internship may apply to graduation. A maximum of 12 hours of Internship, Readings and/or Special Problems may apply to graduation.

Capstone requirement (to be completed during final 45 hours of course work)

There are several ways a student can complete the capstone experience in Interdisciplinary Studies.

1. Special Readings project: With this option, the student completes an independent research project under the supervision of a faculty member. The project allows the student to explore an area of interest and is designed to be an academic challenge. The department is open to creative, innovative approaches to learning. The supervising faculty member is responsible for grading the project. The student is responsible for locating a supervising faculty member.

2. Service Learning project: Students will engage in service activities, directly relevant to their areas of academic emphasis, in community not-for-profit agencies. At the same time as participants work in the community, they will research their agency and organization, undergo mock employment interviews, create a cover letter and résumé based on the professional skills they have gained through their service, and reflect on careers and leadership in public service. Course will be submitted for Writing Intensive credit each semester. Restricted to Interdisciplinary, General and International Studies students.

3. Internship: Students work approximately 50 clock hours per credit at an agency, company or corporation of their choice. Grades are on a pass-fail basis. For an internship to be approved as a capstone experience, it must help the student solidify and explore the areas of concentration. Internships must have prior approval from the Office of Multidisciplinary Degrees (https://omd.missouri.edu).

4. Capstone course: Students may have a specific course designated as a capstone course for the individual degree program. The course must be upper level, and the course must be taken in the last 45 hours of course work as a major. A course taken previously cannot retroactively be counted as a capstone course. Approval for the course must be provided in advance of registration from the Interdisciplinary Studies advisor.

Semester Plan

Below is a sample plan of study, semester by semester. A student’s actual plan may vary based on course choices where options are available.

BA in Interdisciplinary with Emphasis in Black Studies
Degree Program Description

Students in Black Studies learn about the varied experiences of people of African descent from various fields including arts and the humanities, the social sciences, the hard sciences, public policy, education, and law, to name a few. This interdisciplinary field of study focuses on African Americans, Africans, and other people in the African Diaspora. A BA in Interdisciplinary with an emphasis in Black Studies challenges students to learn about and critically analyze the global experiences of people of African descent, including conditions that have shaped their past, as well as their present lives. The degree provides knowledge in the following: critical thinking skills to understand and effectively articulate experiences and contributions of the people who share a common heritage; ability to critically think, research, write, and analyze the black experience; communication (both oral and written), problem solving, strategic planning and a range of research skills. Students acquire such skills while they develop in-depth knowledge that is beneficial to careers in multicultural, cross-cultural, and diversity consulting, all of which are critical in 21st century employment. In addition, graduates of the degree often pursue employment or graduate studies in academic fields such as Social and Intellectual Movements, Politics, Sociology, Literature, Psychology, Music, Art, History, and many others.

Major Program Requirements

Emphasis in Black Studies - Coordinated with the Department of Black Studies, an academic department in the College of Arts and Science
Stephanie Shonekan, Chair
311 Gentry Hall
(573) 882-4326

Students may earn a Bachelor of Arts in the College of Arts and Science with an Interdisciplinary major and an emphasis in Black Studies.

A student majoring in Interdisciplinary with a Black Studies emphasis must complete a total of 33 Black Studies credits. In addition, students must complete all university graduation requirements and Arts and Science Foundation Requirements. A minimum grade of C- is required for each course taken in the major. A minimum cumulative GPA in all major coursework is 2.0.

Emphasis core requirements

- Completion of an interdisciplinary area of concentration of at least 33 credits in Black Studies and related courses.

In selecting a language to meet general education requirements in the College of Arts and Science, students are encouraged to consider Spanish, Portuguese or French.

In addition, students must complete all College of Arts and Science and University graduation requirements (p. 30), including University general education (p. 31).

BA in Interdisciplinary with Emphasis in Environmental Studies

Degree Program Description

The Bachelor of Arts in Interdisciplinary with an emphasis in Environmental Studies is an individually-designed major for students interested in acquiring a broad understanding of environmental issues and the complex causes underlying them. Students design their major to reflect their own interests and goals in the field. Individualized majors of this kind require a higher level of commitment than is typical of traditional majors because students must do the work of building their own degree. The program prepares students for graduate study and careers in education, law, business, public policy, humanitarian aid, non-profit organizations, and government. The majority of students with the degree work in areas such as advocacy and outreach as well as policy and regulation.

Major Program Requirements

The Bachelor of Arts in Interdisciplinary with an emphasis in Environmental Studies is an individually-designed major for students interested in acquiring a broad understanding of environmental issues and the complex causes underlying them. Students design their major to reflect their own interests and goals in the field. Individualized majors of this kind require a higher level of commitment than is typical of traditional majors because students MUST do the work of building their own degree. The program prepares students for graduate study and careers.
in education, law, business, public policy, humanitarian aid, non-profit organizations, and government. The majority of students with the degree work in areas such as advocacy and outreach as well as policy and regulation. Find additional information and course options at https://omd.missouri.edu/?q=env-st/index.

Students in this major must complete 5 specified Core courses to fulfill College of Arts and Science Foundation Requirements and an additional 39 hours minimum for the major. In addition, students must complete all university graduation requirements and Arts and Science Foundation Requirements. A minimum grade of C- is required for courses taken for the major. A minimum cumulative GPA in all major coursework is 2.0.

In addition, students must complete all College of Arts and Science and University graduation requirements (p. 30), including University general education (p. 31).

**Required Core Coursework**

**Biological, Physical, and Mathematical Sciences**

- Complete a general education approved Biological Sciences course. BIO_SC 1010, BIO_SC 1060, BIO_SC 1200, or BIO_SC 1500 are recommended course options.
- Complete a general education approved Geology course. GEOL 1100 or GEOL 1200 are the recommended course options.
- Complete a general education approved Geology course. CHEM 1100, CHEM 1320 and CHEM 1330 are recommended course options.
- One lecture with a corresponding laboratory must be completed.
- Laboratories should be taken with the corresponding lecture or after the lecture course is completed, but not before completing the corresponding lecture course.

**Social Sciences**

- Complete a general education approved Economics or Agricultural Economics course. ECONOM 1014, ECONOM 1015, ABM 1041, or ABM 1042 are recommended.

**Major Requirements**

**Policies**

- A total of 39 hours is required for the major.
- Students must complete 30 hours numbered 2000 or higher in the major.
- 18 hours numbered 3000 level or higher are required in the major.
- D-range grades are not allowed in the major.
- A minimum grade of C- is required for courses taken for the major.
- A minimum cumulative GPA in all major coursework is 2.0.

**Natural Dimensions**

- Complete 15 hours of coursework in this section.
- The course levels will be determined by the academic advisor.
- Refer to the list of Natural Dimensions (https://omd.missouri.edu/?q=env-st/courses/natural-dimensions) courses to find options.

**Social Dimensions**

- Complete 15 hours of coursework in this section.
- The course levels will be determined by the academic advisor.
- Refer to the list of Social Dimensions (https://omd.missouri.edu/?q=env-st/courses/social-dimensions) courses to find options.

**Practicum Core**

- Complete ABM 2070 or NAT_R 2160.
- Complete 3 hours of Service Learning, Internships, or Readings.
- Complete an additional 3 hours of Service Learning, Internships, or Readings.
- Service Learning, Internship, or Readings can be taken as a single course for 6 hours.

**Service Learning, Internships, & Readings**

**Policies**

- The Capstone must be completed in the final 45 hours of coursework.
- Students must earn a C- or higher to fulfill the Capstone requirement.
- Students must have a Capstone approved by their academic advisor.
- Students may complete an Internship or Readings that is not used as a Capstone.
- Students may not earn retroactive credit for internships.

**Internships 4940**

- Students must have a 2.0 cumulative GPA to apply for approval of an internship project.
- Students must not have any active Student Conduct holds.
- Students may not complete an internship at an existing position.
- Students must work 50 hours for each credit hour earned.
- During the Internship period, students must submit the following assignments:
  a. a well-written proposal outlining the details of the internship must accompany the application
  b. a carefully-prepared factual report about the internship which addresses the questions outlined in the student’s internship proposal
  c. a résumé which includes the student’s internship experience and documents the tangible skills they attained while working
  d. an interpretative essay in which students connect what they have learned from their internship experience with their academic work in their individualized major
- Internship supervisors must submit a performance evaluation.
- Internships receive a grade of S or U (pass/fail).
- The Office of Multidisciplinary Degrees reserves the right to deny internship project approval to any student it believes will not be a good representative of the University.

**Readings 4960**

Students work independently with MU faculty on research and/or professional projects. A student finds a campus professor with whom to work. Together, they create concrete objectives for a meaningful project. The professor guides and supervises the student towards completion of the project and is responsible for awarding a letter grade for the course.

**Service-Learning 4970**

Service-Learning provides hands-on experience in service experiences that are coordinated in collaboration with MU and the community. Service-Learning experiences create valuable learning environments for students as they connect with the community in partnerships that provide
effective and far-reaching assistance to those in need. To apply, students must have a 2.5 GPA or higher.

**BA in Interdisciplinary with Emphasis in Peace Studies**

**Degree Program Description**

Peace Studies is offered as an emphasis area in the BA in Interdisciplinary Studies. Students with this emphasis examine issues related to global peace and social justice. The emphasis in Peace Studies helps prepare students for employment, volunteer assignments, and graduate study in such areas as conflict resolution, human rights, humanitarian assistance, sustainable development, social justice, nonviolent social change, and the understanding of global cultural diversity.

**Major Program Requirements**

Clarence Lo, Ph.D, Director  
326 Middlebush Hall  
(573) 882-1736  
loc@missouri.edu

The peace studies emphasis area addresses a wide range of issues concerning peace and justice, including international and civil war and peace; global social and environmental justice; nonviolent social movements, process, and change; cultures, intellectuals, and war and peace; and indigenous peoples and the imperial state. Our courses provide a liberal arts foundation: students explore values to set goals; they evaluate evidence to assess alternate means to achieve goals. Some courses focus on practical issues of community organization, sustainable development (PEA_ST 1120) and construction, and public health (PEA_ST 3401), that students are likely to encounter in work, internship, or volunteer positions. Study abroad courses taught by MU faculty are regularly offered. Since issues of peace and conflict cut across disciplines, the curriculum includes courses offered by both the program itself and cross listed between Peace Studies and other programs and departments of the University.

In addition, students must complete all College of Arts and Science and University graduation requirements (p. 30), including University general education (p. 31).

### BA in Interdisciplinary with Emphasis in Women's and Gender Studies

**Degree Program Description**

Women's and Gender Studies is an interdisciplinary field that establishes gender, sexuality, race, class, and dis/ability as fundamental categories for understanding social structures, cultural norms, and power dynamics. Combining research methods from the humanities and social sciences, the WGST major strengthens critical thinking, writing and research skills; highlights multiple forms of knowledge; and encourages students to think of themselves and others as citizens of a diverse world. WGST scholars produce a wide-variety of analytical, creative, and activist works, investigating intersecting forms of inequalities and oppressions in local and global contexts.

When students graduate with a emphasis in Women's and Gender Studies, they should be able to:

- Apply cross-cultural and global awareness to "big questions" about women and gender
- Have a comprehensive grasp of intersectionality and matrices of power
- Think critically: i.e. consider an issue from multiple perspectives; locate, evaluate and interpret diverse sources; engage in critical self-reflection
- Construct arguments with evidence obtained from research
- Work collaboratively
- Recognize sexist/racist writing and thinking
- Connect knowledge and experience, theory and activism, Women's and Gender Studies materials with other courses
- Communicate effectively in writing and speech
- Apply knowledge for social transformation, citizenship
- Use gender (and other identity categories) as a categories for analysis
This major can be combined with other programs to create a double major or a dual degree. The flexibility and expansiveness of the degree enables our graduates to work in a wide variety of fields, including education, law, public policy, health sciences, human resources, business management, social work, arts, non-profit organizations, NGO’s, advertising and market research, communication, and journalism.

**Major Program Requirements**

Department in the College of Arts and Science

Linda Reeder, Chair
Srirupa Prasad, Director of Undergraduate Studies
325 Strickland Hall
(573) 882-2703

Students may earn a Bachelor of Arts in the College of Arts and Science in Interdisciplinary Studies: Women’s and Gender Studies.

This major can be combined with other programs to create a double major or a dual degree. Within the College of Arts and Science, students can pair it with a major like BA in English, Sociology, Psychology or History, for example, without taking courses beyond the required 120 credits. Students seeking a Bachelor Degree in Journalism or a Public Health degree can earn a second degree, a BA in Interdisciplinary with Emphasis in Women’s and Gender Studies. Required WGST courses for many dual degrees also fit within the 120 credit graduation plan, although 132 total credits are generally required for a dual degree.

The curriculum includes Women’s and Gender Studies core courses as well as cross-listed courses from several departments throughout the University.

Thirty hours are required in Women’s and Gender Studies. In addition to degree requirements, college and university requirements (p. 30), including university general education requirements (p. 31), must be met.

**Required Core Courses**

**International Studies**

Office of Multidisciplinary Degrees
College of Arts and Science
326H Strickland Hall
(573) 882-2703

**International Studies** (https://omd.missouri.edu/?q=intl-st/index)

The Bachelor of Arts in International Studies is an individually designed major with a strong multicultural and global focus. Students in the major have the opportunity to design a major that reflects their own interests and goals. The increased level of flexibility requires a higher level of commitment than is typical of traditional majors because students MUST do the work of building their own degree.

International Studies majors acquire analytical skills and knowledge that will enable them to understand and contribute to shaping the quickly evolving global community. The program prepares students for graduate study and careers in academia, teaching, law, business, public policy, humanitarian aid, non-profit organizations, government, and diplomacy. Students in the program will study advanced foreign language and participate in a study abroad experience to fulfill degree requirements.

**International Business** (https://omd.missouri.edu/?q=intl-bus/index)

The dual degree program in International Business leads to the BS in Business Administration from the Trulaske College of Business and the BA in International Studies from the College of Arts & Science. This degree typically takes 4 1/2 to 5 years to complete. Students in the program will study advanced foreign language and participate in a study abroad experience to fulfill degree requirements.

International Studies majors acquire analytical skills and knowledge that will enable them to understand and contribute to shaping the quickly evolving global community. The program prepares students for graduate study and careers in academia, teaching, law, business, public policy, humanitarian aid, non-profit organizations, government, and diplomacy.
BA in International Studies

Degree Program Description

The Bachelor of Arts in International Studies is an individually designed major with a strong multicultural and global focus. Students in the major have the opportunity to design a major that reflects their own interests and goals. The increased level of flexibility requires a higher level of commitment than is typical of traditional majors because students MUST do the work of building their own degree. International Studies majors acquire analytical skills and knowledge that will enable them to understand and contribute to shaping the quickly evolving global community. The program prepares students for graduate study and careers in academia, teaching, law, business, public policy, humanitarian aid, non-profit organizations, government, and diplomacy. Students in the program will study advanced foreign language and participate in a study abroad experience to fulfill degree requirements.

Major Program Requirements

A student majoring in the BA in International Studies must complete 18 hours of specified Core coursework to fulfill Arts and Science Foundation Requirements, an additional 42 hours minimum for the major, and a study abroad experience. A minimum grade of C- is required for courses taken for the major. A minimum cumulative GPA in all major coursework is 2.0. In addition, students must complete all university graduation requirements and Arts and Science Foundation Requirements. The information below pertains to the BA in International Studies and additional information can be found at https://omd.missouri.edu/?q=intl-st/index. Students interested in the dual degree in International Business, which is a different major, should find additional information at https://omd.missouri.edu/?q=intl-bus/index.

In addition, students must complete all College of Arts and Science and University graduation requirements (p. 30), including University general education (p. 31).

Required Core Coursework

Complete the following courses:

Internships 4940

Policies

Studies, Latin American Studies, Peace Studies, or South Asian Studies. Focus area options are: East Asian Studies, Environmental Studies, European studies. See information on the capstone options below. The focus credit capstone experience will complete the 12 hours of credit in the encourage to take 9 credits from a single department or area. The 3-choice allowing the study of one area in depth. The focus area is typically Course work with an international focus from an area of the student's Focus Area (12 hours minimum)

Sociology, Women's and Gender Studies and Peace Studies. Could include coursework with an international focus from Geography, Social/Behavioral Sciences Area (12 hours minimum)

Could include additional language and literature courses from the Regional/Cultural Area (12 hours minimum)

Could include coursework with an international focus from Geography, History, Political Science, Economics, Anthropology, Sociology, Rural Civilization courses.

Focus Area (12 hours minimum)

Course work with an international focus from an area of the student's choice allowing the study of one area in depth. The focus area is typically related to the foreign language the student is studying. Students are encouraged to take 9 credits from a single department or area. The 3-credit capstone experience will complete the 12 hours of credit in the focus area. See information on the capstone options below. The focus area options are: East Asian Studies, Environmental Studies, European Studies, Latin American Studies, Peace Studies, or South Asian Studies.

Capstone Options

Policies

- The Capstone must be completed in the final 45 hours of coursework.
- Students must earn a C- or higher to fulfill the Capstone requirement.
- Students must have a Capstone approved by their academic advisor.
- Students may complete an Internship or Readings that is not used as a Capstone.
- Students may not earn retroactive credit for internships.

Internships 4940

- Students must have a 2.0 cumulative GPA to apply for approval of an internship project.
- Students must not have any active Student Conduct holds.
- Students may not complete an internship at an existing position.
- Students must work 50 hours for each credit hour earned.
- Only internships in the United States can be approved.

- During the Internship period, students must submit the following assignments:
  - a well-written proposal outlining the details of the internship must accompany the application
  - a carefully-prepared factual report about the internship which addresses the questions outlined in the student's internship proposal
  - a résumé which includes the student's internship experience and documents the tangible skills they attained while working
  - an interpretative essay in which students connect what they have learned from their internship experience with their academic work in their individualized major
  - Internship supervisors must submit a performance evaluation.
- Internships receive a grade of S or U (pass/fail).
- The Office of Multidisciplinary Degrees reserves the right to deny internship project approval to any student it believes will not be a good representation of the University.

Readings 4960

Students work independently with MU faculty on research and/or professional projects. A student finds a campus professor with whom to work. Together, they create concrete objectives for a meaningful project. The professor guides and supervises the student towards completion of the project and is responsible for awarding a letter grade for the course.

Service-Learning 4970

Service-Learning provides hands-on experience in service experiences that are coordinated in collaboration with MU and the community. Service-Learning experiences create valuable learning environments for students as they connect with the community in partnerships that provide effective and far-reaching assistance to those in need. To apply, students must have a 2.5 GPA or higher.

4000-level Capstone course

Students can select a 4000-level course in the Focus Area to fulfill the Capstone requirement. This course does not need to be a departmental Capstone in order to fulfill the requirement.

Study Abroad Experience Requirement

- Students should study abroad for a minimum of 4 weeks.
- If a program is less than 4 weeks, it must be approved by the academic advisor.
- Credit earned during a study abroad experience may be used to fulfill major requirements.
- Students should complete their study abroad experience prior to their last year.
- Preparation for a study abroad experience should begin a year in advance.
- Information on study abroad is available at the International Center website (http://international.missouri.edu/study-outside-the-us).

BA in International Studies with Emphasis in East Asian Studies

Degree Program Description

The Bachelor of Arts in International Studies is an individually designed major with a strong multicultural and global focus. The emphasis in East Asian Studies focuses on creating an understanding and awareness of the culture, history, politics, geography and languages of the East Asian countries, with an emphasis in China, Japan or Korea. The program is multidisciplinary, encompassing course work from the departments of Geography, History, Anthropology, Religious Studies, Political Science and Philosophy, as well as in Chinese, Japanese and Korean. Students are encouraged to begin study of their foreign language no later than the sophomore year. The program prepares students for graduate study and careers in academia, teaching, law, business, public policy, humanitarian aid, non-profit organizations, government, and diplomacy. There is an option available for students who wish to obtain Chinese teaching certification.

Major Program Requirements

Refer to the program requirements for the BA in International Studies (p. 224). East Asian Studies is one of the emphasis areas in the International Studies major. The program is multidisciplinary, encompassing course work from the departments of Geography, History, Anthropology, Religious Studies, Political Science and Philosophy, as well as in Chinese, Japanese and Korean. The program focuses on creating an understanding and awareness of the culture, history, politics, geography and languages of the East Asian countries, with an emphasis in China, Japan or Korea. Students are encouraged to begin study of their foreign language no later than the sophomore year. Students should consult with the International Center about appropriate locations for their study abroad experience.

In addition, students must complete all College of Arts and Science and University graduation requirements (p. 30), including University general education (p. 31).

BA in International Studies with Emphasis in European Studies

Degree Program Description

European studies is an emphasis area in the International Studies major. Students who are studying French, Spanish, German, Italian or Russian may wish to select European studies as their emphasis area. The student examines the politics, culture, history and geography of the European continent, with a focus on the country whose native language is being studied by the student. Given the multidisciplinary approach to this degree, students take courses that are specifically geared to a better understanding of the culture, history, and language of a given country, as well as a better understanding of the entire continent of Europe. The program prepares students for graduate study and careers in academia, teaching, law, business, public policy, humanitarian aid, non-profit organizations, government, and diplomacy.

Major Program Requirements

BA in International Studies with Emphasis in International Business

Degree Program Description

The dual degree program leads to the BS in Business Administration with emphasis in one of the four International Business areas and the BA in International Studies with emphasis in International Business. This dual degree typically takes 4 1/2 to 5 years to complete. Students in the program will study advanced foreign language and participate in a study abroad experience to fulfill degree requirements. International Studies majors acquire analytical skills and knowledge that will enable them to understand and contribute to shaping the quickly evolving global community. The program prepares students for graduate study and careers in academia, teaching, law, business, public policy, humanitarian aid, non-profit organizations, government, and diplomacy.

Major Program Requirements

Refer to the website at https://omd.missouri.edu/?q=intl-bus/index. The dual degree program in International Business leads to the BS in Business Administration from the Trulaske College of Business and the BA in International Studies from the College of Arts & Science. This degree typically takes 4 1/2 to 5 years to complete. Students in the program will study advanced foreign language and participate in a study abroad experience to fulfill degree requirements. A minimum grade of C- is required for courses taken for the major.

International Studies majors acquire analytical skills and knowledge that will enable them to understand and contribute to shaping the quickly evolving global community. The program prepares students for graduate study and careers in academia, teaching, law, business, public policy, humanitarian aid, non-profit organizations, government, and diplomacy.

In addition, students must complete all College of Arts and Science and University graduation requirements (p. 30), including University general education (p. 31).

Semester Plan

Below is a sample plan of study, semester by semester. A student's actual plan may vary based on course choices where options are available or the individual semester plan based on emphasis areas.

Please visit the following for specific semester plans: Economics (p. 369), Finance (p. 370), Management (p. 371), or Marketing (p. 372).

BA in International Studies with Emphasis in Peace Studies

Degree Program Description

Peace Studies is offered as an emphasis area for the BA in International Studies. Students with this emphasis examine issues related to global peace and social justice in the international arena. The emphasis in Peace Studies helps prepare students for employment, volunteer assignments, and graduate study in such areas as conflict resolution, human rights, humanitarian assistance, sustainable development, social justice, nonviolent social change, indigenous peoples, and the understanding of global cultural diversity.

## BA in International Studies with Emphasis in South Asian Studies

### Degree Program Description

The South Asian Studies emphasis offers courses in history, politics, philosophy, religion, culture, social life and languages of India. It thus provides the opportunity for study of an ancient and extensive civilization with a significant role in human history. An emphasis in South Asian Studies prepares students to enter MA and PhD programs in this area of specialization, which often provide intensive summer language programs. An advanced degree opens a variety of professional and job opportunities for those planning to work in such fields as international business, trade and diplomacy, international law or agricultural development, among others.

### Major Program Requirements

Refer to the program requirements for the BA in International Studies (p. 224). The South Asian Studies emphasis offers courses in history, politics, philosophy, religion, culture, social life and languages of India. It thus provides the opportunity for study of an ancient and extensive civilization with a significant role in human history.

An emphasis in South Asian Studies prepares students to enter MA and PhD programs in this area of specialization, which often provide intensive summer language programs. An advanced degree opens a variety of professional and job opportunities for those planning to work in such fields as international business, trade and diplomacy, international law or agricultural development, among others.

In addition, students must complete all College of Arts and Science and University graduation requirements (p. 30), including University general education (p. 31).
Linguistics

Matthew Gordon, Chair
Interdepartmental Program in the College of Arts and Science
223 Tate Hall
(573) 882-6421
gordonmj@missouri.edu

Kibby Smith, Advisor
Office of Multidisciplinary Degrees
(573) 882-6060
smithkib@missouri.edu

Linguistics is the scientific study of human language. It seeks to understand and explain the properties of language in a clear and formal manner. Linguists document understudied and endangered languages, explore the consequences of language contact, measure language variation and change, investigate the structure of language, and analyze the construction of meaning.

Some of the main subfields of linguistics are phonetics (the physical properties of sounds), phonology (the grammar of sounds), morphology (the structure of words), syntax (the organization of phrases and sentences), semantics (meaning), and sociolinguistics (the interaction of language and society).

A Bachelor of Arts with a major in linguistics is available (with an honors option) as a linguistics minor, both involving coursework in the various subfields.

The study of linguistics prepares students for careers which utilize insight into the workings of language including language instruction, translation and interpreting, speech pathology, anthropology, the reconstruction of prehistory, and computational fields related to the interaction of language and technology. Academic careers of linguistic research and teaching are also possible after further training at the graduate level.

In addition, a major in linguistics offers students a liberal education and develops verbal and analytical skills that are valuable in a variety of less directly related careers such as journalism, literary study, and the law.

The linguistics program is staffed by faculty from a number of MU departments. Supporting course work is offered in Anthropology, Black Studies, Classical Studies, Communication, Communication Science and Disorders, the College of Education, English, German and Russian Studies, Psychology, Philosophy, Romance Languages and Literatures, and South Asian Studies.

Although specialists in the field commonly know one or more foreign languages, such knowledge is complementary rather than essential.

Faculty

Professors: P. Weirich*, J. Zemke*, F. Zéphir*
Associate Professors: J. Goodman*, M. Gordon*, C. Horisk*, J. Kramer*, M. McGrath*, P. Robbins*, T. Kazic*
Assistant Professors: A. Alcazar*, M. Fagan*, M. Marlo*, M. Popescu*, A. Radulescu*
Emeritus Faculty: L. Day*, N. L. Furbee*, D. E. Gulstad, B. L. Honeycutt, M-J Smythe, D. Watson, G. Youmans*

* Graduate Faculty Member - membership is required to teach graduate-level courses, chair master's thesis committees, and serve on doctoral examination and dissertation committees.
** Doctoral Faculty Member - membership is required to chair doctoral examination or dissertation committees. Graduate faculty membership is a prerequisite for Doctoral faculty membership.

Undergraduate

- BA in Linguistics (p. 232)
- Minor in Linguistics (p. 233)

Departmental Honors

A student wishing to graduate with honors in Linguistics must earn a 3.3 GPA in all courses and complete all the requirements for the BA in Linguistics. In addition, with the assistance of his/her honors thesis advisor, the student must develop, plan and conduct research on an independent project, normally while enrolled in LINGST 4991. A committee consisting of the thesis advisor and a second reader, to be selected by the advisor and the program chair, will examine the student on the resulting thesis of 25-40 pages in an oral exam held no later than the thirteenth week of the term during which the student expects to graduate. The second reader will be provided with a copy of the thesis at least two weeks before the examination. After completing any revisions that the exam committee recommends, the student will submit a final version of the thesis for linguistics program records and will then be recommended to the college of Arts and Science for a BA with Honors in Linguistics.

Graduate

- Graduate Minor in Linguistics (p. 233)

Interdepartmental Program in the College of Arts and Science
224 Tate Hall
(573) 882-8814

Chair of Linguistics: Matthew Gordon

A graduate minor in linguistics consists of at least 12 hours including two electives and two required courses: LINGST 7630 Phonology and
Major Program Requirements

Graduate degrees in linguistics are not offered but MA and PhD programs that emphasize language and linguistics are available in some cooperating departments such as Anthropology, Communication, English, Romance Languages and Literatures, and Philosophy.

The linguistics area program is staffed by faculty from various departments (see below). Supporting course work may be drawn from a range of units including Anthropology, Black Studies, Classical Studies, Communication, Communication Science and Disorders, the College of Education, English, German and Russian Studies, Philosophy, Psychology, Romance Languages and Literatures, and South Asian Studies.

Financial aid, when available, is arranged through the participating departments.

Cooperating Graduate Degree Programs

Anthropology (p. 143)
Interested Anthropology and other graduate students may minor in Linguistics. Linguistics is a integral component of ethnographic research.

Communication (p. 171)
In the Department of Communication, students learn to apply the study of communication to their professional and personal lives. Students may receive a MA, or PhD through this department.

Communication Science and Disorders (p. 568)
The discipline of Communication Science and Disorders encompasses the field of speech, language, and hearing science and the distinct but related professions of Speech-Language Pathology and Audiology. Students may receive a MA, or PhD through this department.

English (p. 182)
The English department offers MA and PhD degrees with an emphasis in English Language and Linguistics.

Philosophy (p. 267)
Linguistics majors benefit by taking courses offered by the Philosophy Department and can focus on issues at the intersection of philosophy and linguistics.

Romance Languages and Literatures (p. 300)
The Department of Romance Languages and Literatures offers the MA with an emphasis on Language Teaching (MALT).

BA in Linguistics

Degree Program Description

The study of linguistics offers students a liberal education and a window into the fascinating human linguistic capacity. Students can obtain a BA in linguistics, and many students double-major in linguistics and another field. The BA prepares students for graduate study in linguistics and related fields. It also develops analytical and verbal skills that are valuable in a wide variety of professional careers.

### Minor in Linguistics

The minor in linguistics requires at least 15 credits of linguistic courses. They may be drawn from any part of the linguistics curriculum.

### Graduate Minor in Linguistics

Completion Requirements for the Graduate Minor in Linguistics

A graduate minor field in linguistics is available to graduate students. It is comprised of 12 hours, two courses of which are required and two are to be selected from a list of upper level linguistics classes:

**Required:**

- LINGST 7630 Phonology 3
- LINGST 7640 Syntax 3

Sample list from which two additional courses will be selected (appropriate substitutes may be accepted at the discretion of the chair):

- LINGST 7420 Historical Linguistics
- LINGST 7600 Structure of American English
- LINGST 7610 History of the English Language
- LINGST 7620 Regional and Social Dialects of American English
- LINGST 7870 Field Methods in Linguistics

Total Credits 12-13

---

**Mathematics**

Nakhle Asmar, Chair
College of Arts and Science
224 Math Sciences Building
(573) 882-6221
asmarn@missouri.edu

**Faculty**

**Associate Professor** C. Chindris**, A. Harcharras**, C. Morpurgo**, J. Segert*, D. T. Weston**

**Assistant Professor** P. Pivovarov**, S. Walsh**, S. Takeda**, J. Tu**

**Business Mathematics Coordinator** S. Goldschmidt

**Calculus Coordinator** A. Clayton

**College Algebra Coordinator** T. E. Christiansen

- Graduate Faculty Member - membership is required to teach graduate-level courses, chair master's thesis committees, and serve on doctoral examination and dissertation committees.
- Doctoral Faculty Member - membership is required to chair doctoral examination or dissertation committees. Graduate faculty membership is a prerequisite for Doctoral faculty membership.

**Undergraduate**

- Department Level Requirements (p. 234)
- BA in Mathematics (p. 235)
- BS in Mathematics (p. 235)
  - with emphasis in (p. 236) Actuarial Science and Mathematical Finance (p. 236)
- Minor in Mathematics (p. 238)

The Department of Mathematics offers a major with either a Bachelor of Arts or a Bachelor of Science degree. Within the BS degree, an emphasis in Actuarial Science and Financial Mathematics is available. Both the BA and BS degrees will prepare a student for a graduate program in Mathematics.
Preparation for Graduate Study in Mathematics

Students satisfying the requirements for either the BA or the “traditional” BS will have the basic preparation for a graduate program in Mathematics. A student considering graduate work, however, should take additional coursework. Because of this, a BS degree would be considered preferable. Those students in the Actuarial Science area considering graduate work should take MATH 4720 as part of their program. Those students getting a dual degree in Mathematics and Mathematics Education considering graduate work in mathematics should choose to take both MATH 4700 and MATH 4720 as part of their program.

Courses recommended for students planning to pursue graduate studies in pure mathematics: MATH 4400, MATH 4500, MATH 4900, MATH 4920, and MATH 4940.

Courses recommended for students planning to pursue graduate studies in applied mathematics: MATH 4300, MATH 4310, MATH 4315, MATH 4320, MATH 4500, MATH 4540, MATH 4940.

Departmental Honors

Eligibility

To become a candidate for the BA or BS degree with a major in Mathematics with departmental honors, a student must have a cumulative grade point average that meets the Honors College standards. At present, students with a GPA of 3.30 or higher are automatically eligible to enter the departmental honors programs.

Requirements

To graduate with departmental honors in mathematics, a student must satisfy the regular BA or BS degree requirements and must have a GPA of 3.5 or higher in all Mathematics Department courses. In addition, the student must have at least 26 credits in mathematics courses numbered 4000 or above. Furthermore, the student must complete one of the two options listed below.

Option 1: Honors Thesis

The student must write an honors thesis in conjunction with a mentorship or in conjunction with MATH 4996. This option requires that the student enroll in MATH 4996.

Option 2:

The student’s program of study must include MATH 4700, MATH 4900, MATH 4720 and MATH 4920.

Graduate

• MA in Mathematics (p. 238)
• MS in Applied Mathematics (p. 239)
• MST in Mathematics (p. 241)
• PhD in Mathematics (p. 242)

College of Arts and Science

202 Mathematical Sciences Building
(573) 882-6221

https://www.math.missouri.edu/grad/index

Director of Graduate Studies: Stephen Montgomery-Smith

About Mathematics

The Graduate Program in Mathematics is large enough to encompass research and courses in many areas, yet small enough to remain responsive to the needs of individual students. There are approximately 80 graduate students, 40 professors, and 15 postdoctoral and visiting researchers. The active areas of research include: algebraic geometry, analysis (real, complex, functional and harmonic), analytic functions, applied mathematics, financial mathematics and mathematics of insurance, commutative rings, scattering theory, differential equations (ordinary and partial), differential geometry, dynamical systems, general relativity, mathematical physics, number theory, probabilistic analysis and topology.

The Mathematical Sciences Building houses a library with more than 34,000 volumes and 430 journal titles. MU students have access to an extensive array of computing resources.

Admission Notice

Applicants for any graduate degree in mathematics should submit an application for graduate study. Admission to the graduate program does NOT guarantee admission to the Ph.D. program. International Applicants applying from outside North America who seek financial support from the Department will only be considered for the PhD program.

Financial Aid from the Program

All domestic applications for admission are automatically considered for financial support, in most cases by Teaching Assistantships. Virtually all current students are supported financially. Scholarships, assistantships, fellowships and other sources of aid are available.

The Department Research Fellowship, the Blumenthal Scholarship and the McFarlan Fellowship are administered by the department, while the Huggins Scholarship, Gregory Fellowship and Ridgel Fellowship are administered by the university.

International applications with TOEFL of 85 or higher (or equivalent) will also be automatically considered for departmental financial support.

Department Level Requirements-Mathematics

Students may apply to be Math majors upon meeting the following criteria:

• Completion of ENGLISH 1000 and MATH 2300
• Both cumulative GPA and GPA in Math courses numbered 1500 and above (except for 2100) of 2.5 or above.

All math courses required for the degree must be passed with a grade of C- or above.

BA in Mathematics

Degree Program Description

Mathematics is part of the foundation of all the sciences, engineering, statistics, and many social sciences. A degree in mathematics provides one with both the applied mathematics knowledge necessary to engage in these disciplines, and formal reasoning skills that can be applied in any area. The major is well suited for those interested in mathematics alone, or for those looking to supplement another major. Our students go on to jobs or further study in all the above disciplines, as well as many others (medical school or law school, for instance).

Major Program Requirements

All MU General Education (p. 31), University graduation requirements (p. 30) and Arts and Science Breadth and Depth requirements (for the BA) must be satisfied, in addition to the Department Level Requirements (p. 234). The foreign language requirement must be satisfied either by taking a foreign language for 4 years in high school or by completing a language sequence at MU.

Students may apply to be Math majors upon meeting the following criteria:

- Completion of ENGLSH 1000 and MATH 2300
- Both cumulative GPA and GPA in Math courses numbered 1500 and above (expect for 2100) of 2.5 or above.

All math courses required for the degree must be passed with a grade of C- or above.

BS in Mathematics

Degree Program Description

Mathematics is part of the foundation of all the sciences, engineering, statistics, and many social sciences. A degree in mathematics provides one with both the applied mathematics knowledge necessary to engage in these disciplines, and formal reasoning skills that can be applied in any area. The major is well suited for those interested in mathematics alone, or for those looking to supplement another major. Our students go on to jobs or further study in all the above disciplines, as well as many others (medical school or law school, for instance).

Major Program Requirements

The Mathematics Department offers a “Standard” BS, a BS with emphasis in Actuarial Science and Mathematical Finance, and a Dual Degree in Mathematics and Mathematics Education. In each case all MU General Education (p. 31), University graduation requirements (p. 30)
and Arts and Science Breadth and Depth requirements (for the BS) must be satisfied, in addition to the Department Level Requirements (p. 234). Note that the courses accepted for the science requirement by the Mathematics department are more restrictive than the Arts and Science requirement.

All BS degrees require completion of the Foreign Language requirement by one of: four years of a language in high school, completion of a foreign language sequence at MU, or a Foreign Language Alternative (12 credits at the 2000 level or above in an area, or related areas, approved by the Director of Undergraduate Studies).

Students may apply to be Math majors upon meeting the following criteria:

- Completion of ENGLSH 1000 and MATH 2300
- Both cumulative GPA and GPA in Math courses numbered 1500 and above (expect for 2100) of 2.5 or above.

All math courses required for the degree must be passed with a grade of C- or above.

<td>Algorithm Design and Programming I</td>
<td>3</td>
</tr>
</tbody>
</table>

Total Credits: 25

Additional requirements for the BS degree

- MATH 4700
- MATH 4720
- Four approved 4000 level Math electives
- Science Requirement: 12 or more credits from the two groups below. Both groups must be represented.

Group I:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>CR</th>
</tr>
</thead>
<tbody>
<tr>
<td>PHYSCS 2750</td>
<td>University Physics I</td>
<td>5</td>

<tr>
<td>CHEM 1330</td>
<td>College Chemistry II</td>
<td>4</td>
</tr>
<tr>
<td>BIO_SC 1500</td>
<td>Introduction to Biological Systems with Laboratory</td>
<td>5</td>
</tr>
</tbody>
</table>

Group II: Any 4000 level courses in Statistics or Computer Science.

Additional requirements for the BS Degree (Dual degree for Math and Math Ed majors)

- One of: MATH 4300, MATH 4500, or MATH 4700
- One of MATH 4510 or MATH 4720
- Four approved 4000 level Math electives
- Science Requirement: 10 or more credits from the two groups from the Course List above. Both groups must be represented.

Additional requirements for the BS degree (Double major in Math and Economics)

- MATH 4700
- One of MATH 4310, MATH 4720, or MATH 4900
- Four approved 4000 level Math electives
- Science Requirement: 10 or more credits from the two groups from the Course List above. Both groups must be represented.

BS in Mathematics with Emphasis in Actuarial Science and Mathematical Finance
Degree Program Description

Actuarial science applies mathematical and statistical methods to finance and insurance, particularly to the assessment of risk. Actuarial science includes a number of interrelating disciplines, in particular the mathematics of probability and statistics. In the life insurance industry, traditional actuarial science focuses on the analysis of mortality and the production of life tables, and the application of compound interest. More recently, actuarial science has come to embrace more sophisticated mathematical modeling of finance. Ideas from financial economics are also becoming increasingly influential in actuarial thinking.

Major Program Requirements

Students must complete the MU general education requirements (p. 31), University graduation requirements (p. 30) and the Department Level Requirements (p. 234) in addition to the degree requirements listed below.

This emphasis area will serve those who want to pursue a career in the financial and insurance industries. It will also help BS students to prepare for their first actuarial exams. In addition to course requirements, students completing this program are also required to attempt two actuarial exams (Probability and Financial Mathematics or equivalent).

Students may apply to be Math majors upon meeting the following criteria:

- Completion of ENGLSH 1000 and MATH 2300
- Both cumulative GPA and GPA in Math courses numbered 1500 and above (expect for 2100) of 2.5 or above.

All math courses required for the degree must be passed with a grade of C- or above.

Minor in Mathematics

To minor in mathematics, a student must satisfactorily complete the following requirements.

- The equivalents of MATH 1500, MATH 1700 and MATH 2300
- 9 additional credits in approved math courses (students not taking MATH 2320 or MATH 3000, must take all 9 credits at the 4000 level; students taking MATH 2320 or MATH 3000, need an additional 6 credits at the 4000 level)
- All courses completed with grades in C range or higher
- At least 9 credits used to satisfy the minor requirements taken in residence (College of Arts and Science requirement)

MA in Mathematics

Admission Contact Information
Stephen Montgomery-Smith, Director of Graduate Studies
222 Mathematical Sciences Building
Columbia, MO 65211
(573) 882-6221
email: muismathdgs@missouri.edu

Admission Criteria

Notes: Applicants for any graduate degree in mathematics should submit an application for graduate study. Admission to the graduate program does NOT guarantee admission to the Ph.D. program. International Applicants applying from outside North America who seek financial support from the Department will only be considered for the PhD program.

Fall deadline: January 15

- While a bachelor's degree from an accredited institution is required, the undergraduate major need not be mathematics as long as applicants have had sufficient mathematics training to qualify for 8000-level courses during the first three semesters of graduate work.
- Minimum TOEFL scores:

<table>
<thead>
<tr>
<th>Internet-based test (iBT)</th>
<th>Paper-based test (PBT)</th>
</tr>
</thead>
<tbody>
<tr>
<td>61</td>
<td>500</td>
</tr>
<tr>
<td>Effective July 1, 2015</td>
<td>Effective July 1, 2015</td>
</tr>
<tr>
<td>must have score of 80</td>
<td>must have score of 550</td>
</tr>
</tbody>
</table>

Important Notes: International applicants seeking departmental support are required to have a minimum TOEFL score of 85 (Internet-based test) or equivalent. An ibtTOEFL Speaking subscore of 22 or higher is preferred.
- Minimum total academic IELTS score is 5.5

Required Application Materials

- 3 or more letters of recommendation from your professors or persons who assess in detail your academic performance and potential.
- Transcripts
- GRE scores (required for PhD application, strongly recommended for Masters application)
- TOEFL or IELTS (International students only)

Note: The application is submitted through the Office of Graduate Studies’ ApplyYourself system. This includes the online credit card payment $55.00 US for U.S. Citizens and Permanent Residents, $75.00 US for Non-Resident International applicants.

Completing the ApplyYourself Application:

This section consists of four subsections.

- Personal Information: Complete all information as requested.
- Application Information: Applications are considered only starting Fall Semester, and only for Full-time study. Select a degree from the Graduate Degrees offered by the MU Mathematics Department.
- Indicate your selection for the Mathematics Master of Arts (MA)
- Admissions Category: Graduate Degree Sought at MU: Master's
- Graduate Program to which you are seeking admissions: Mathematics Master of Arts (MA)
- Educational History: Complete all information as requested.
- Test Information:
  - The GRE General Test is required for application to the PhD program in Mathematics, and are strongly recommended for Masters applicants. GRE General Test scores sent directly from the ETS will be considered as part of an application if available. The GRE Subject Test is not required, will be considered if submitted.
  - MU's Institutional Code for the GRE is: 6875.
  - MU's Institutional Code for the TOEFL is: 6875.

Supplemental Information:

- (required) Upload your Personal Statement, Statement of Goals or Statement of Purpose.
- Please indicate the specific degree for which you are applying, any additional degrees for which you may later apply, and explain your reasons for choosing to pursue these degrees at the University of Missouri. Note that admissions criteria for the PhD are more stringent than for the Master's. MU PhD students can later add a Master's degree to their program of study without requiring departmental approval. MU Master's students who wish to later add the PhD to their program of study require departmental evaluation and approval.
- (optional) Upload your résumé or curriculum vita.
- (optional) Upload your writing sample.
- You may submit samples of your mathematical writings, publications, or pre-prints. Please limit to 10 pages.
- (optional) Upload any other supporting documents.
- Unofficial copies of transcripts uploaded by applicant can be used for initial evaluation- official transcripts sent directly to the Graduate Admissions Office will still be required to finalize admission.
- Unofficial copies of GRE reports uploaded by applicant can be used for initial evaluation.

RECOMMENDATIONS: The ApplyYourself (https://applygrad.missouri.edu/apply) system will let you request confidential online recommendation letters from your recommendation providers.
You need to provide the names and email addresses of recommendation providers who have agreed in advance to write letters for you. The Mathematics Department application requires at least three recommendation letters from your professors (or persons who assess in detail your academic performance and potential).

**International Applicants Only**

- Unofficial copies of TOEFL/IELTS reports uploaded by applicant can be used for initial evaluation - official reports sent directly to the Graduate Admissions Office will still be required to finalize admission.
- Affidavit of Support for International Applicants: It is not necessary to complete this form. International applicants are required to complete the Affidavit of Support OR provide a letter of support from a University of Missouri graduate degree program before immigration documents can be issued. All international admissions to the Mathematics graduate program come with financial support which suffices to meet this requirement.

The following (paper) application materials must be on file at the Graduate Admissions office before an admission offer can be finalized:

- Official transcripts/mark sheets from each college or university you have attended (sent directly from the college or university). Applicants with degrees from outside the United States must provide academic credentials in both the native language and in English.
- Official TOEFL or IELTS scores (sent directly from the testing service). Please review the Graduate School's policy regarding proof of English Language proficiency.

Please arrange to have these materials mailed to the following address:

University of Missouri-Columbia
Graduate Admissions
210 Jesse Hall
Columbia, MO 65211
800-877-6312
573-884-8488

**MA Degree Completion Requirements**

The degree requirements include the satisfactory completion of 30 hours of approved course work, of which at least 18 hours must be at the 8000 level.

Columbia, MO 65211
(573) 882-6221
email: muasmathdgs@missouri.edu

**Admission Criteria**

Notes: Applicants for any graduate degree in mathematics should submit an application for graduate study. Admission to the graduate program does NOT guarantee admission to the Ph.D. program. International Applicants applying from outside North America who seek financial support from the Department will only be considered for the PhD program.

Fall deadline: January 15

- While a bachelor’s degree from an accredited institution is required, the undergraduate major need not be mathematics as long as applicants have had sufficient mathematics training to qualify for 8000-level courses during the first three semesters of graduate work.
- Minimum TOEFL scores:

<table>
<thead>
<tr>
<th>Internet-based test (iBT)</th>
<th>Paper-based test (PBT)</th>
</tr>
</thead>
<tbody>
<tr>
<td>Effective July 1, 2015 must have score of 80</td>

You need to provide the names and email addresses of recommendation providers who have agreed in advance to write letters for you. The Mathematics Department application requires at least three recommendation letters from your professors (or persons who assess in detail your academic performance and potential).

MST Degree Completion Requirements

This degree is designed primarily for those who want to teach mathematics at the secondary school level. A candidate for the degree must have a valid teaching certificate before entering the program and must satisfactorily complete 30 hours of approved course work. MATH 8190 or MATH 8090 is required. At least 15 hours must be in 8000-level courses, of which at least 9 hours must be courses from the Mathematics Department. At least two courses are required in the fields of algebra, analysis and geometry/topology. The successful completion of a Master’s Project (MATH 8190) or Master’s Thesis (MATH 8090) must be certified by a Master’s Committee consisting of three members of the Mathematics regular faculty.

Note: The MU College of Education at the University of Missouri is a separate academic unit offering graduate degrees in Mathematics
Education, with an emphasis on learning, teaching, and curriculum development.

PhD in Mathematics

Required Application Materials

- 3 or more letters of recommendation from your professors or persons who assess in detail your academic performance and potential.
- Transcripts
- Personal Statement
- GRE scores (required for PhD application, strongly recommended for Masters application)
- TOEFL or IELTS (International students only)

Note: The application is submitted through the Office of Graduate Studies’ ApplyYourself (http://gradschool.missouri.edu/admissions) system. This includes the online credit card payment $55.00 US for U.S. Citizens and Permanent Residents, $75.00 US for Non-Resident International applicants.

Completing the ApplyYourself Application:

The application consists of four subsections.
- Personal Information: Complete all information as requested.
- Application Information: Applications are considered only starting Fall Semester, and only for Full-time study. Select a degree from the Graduate Degrees offered by the MU Mathematics Department.
- Indicate your selection for the Mathematics Doctor of Philosophy (PhD)
- Admissions Category: Graduate Degree Sought at MU: Doctorate
- Graduate Program to which you are seeking admissions: Mathematics Doctor of Philosophy (PhD)
- Educational History: Complete all information as requested.
- Test Information:
  - The GRE General Test is required for application to the PhD program in Mathematics, and are strongly recommended for Masters applicants. GRE General Test scores sent directly from the ETS will be considered as part of an application if available. The GRE Subject Test is not required, will be considered if submitted.
- MU's Institutional Code for the GRE is: 6875.
- MU's Institutional Code for the TOEFL is: 6875.

Supplemental Information:

- (required) Upload your Personal Statement, Statement of Goals or Statement of Purpose.
- Please indicate the specific degree for which you are applying, any additional degrees for which you may later apply, and explain your reasons for choosing to pursue these degrees at the University of Missouri. Note that admissions criteria for the PhD are more stringent than for the Master’s. MU PhD students can later add a Master's degree to their program of study without requiring departmental approval. MU Master’s students who wish to later add the PhD to their program of study require departmental evaluation and approval.
- (optional) Upload your résumé or curriculum vita.
- (optional) Upload your writing sample.
- You may submit samples of your mathematical writings, publications, or pre-prints. Please limit to 10 pages.
- (optional) Upload any other supporting documents
- Unofficial copies of transcripts uploaded by applicant can be used for initial evaluation - official transcripts sent directly to the Graduate Admissions Office will still be required to finalize admission
- Unofficial copies of GRE reports uploaded by applicant can be used for initial evaluation

RECOMMENDATIONS: The ApplyYourself system will let you request confidential online recommendation letters from your recommendation providers. You need to provide the names and email addresses of recommendation providers who have agreed in advance to write letters for you. The Mathematics Department application requires at least three recommendation letters from your professors (or persons who assess in detail your academic performance and potential).

International Applicants Only

- Unofficial copies of TOEFL/IELTS reports uploaded by applicant can be used for initial evaluation - official reports sent directly to the Graduate Admissions Office will still be required to finalize admission
- Affidavit of Support for International Applicants: It is not necessary to complete this form. International applicants are required to complete the Affidavit of Support OR provide a letter of support from a University of Missouri graduate degree program before immigration documents can be issued. All international admissions to the Mathematics graduate program come with financial support which suffices to meet this requirement.
The following (paper) application materials must be on file at the Graduate Admissions office before an admission offer can be finalized:

- Official transcripts/mark sheets from each college or university you have attended (sent directly from the college or university). Applicants with degrees from outside the United States must provide academic credentials in both the native language and in English.
- Official TOEFL or IELTS scores (sent directly from the testing service). Please review the Graduate School’s policy regarding proof of English Language proficiency.

Please arrange to have these materials mailed to the following address:
University of Missouri-Columbia
Graduate Admissions
210 Jesse Hall
Columbia, MO 65211
1-800-877-6312
(573) 884-8488

PhD Degree Completion Requirements

This is a professional research degree designed to prepare students for various advanced professional careers, including college teaching and research. Before formally becoming a candidate, a student must have training equivalent to that required for a master’s degree.

Year 0 courses include basic advanced undergraduate material, which incoming Ph.D. students are required to master before engaging in graduate coursework. Well prepared incoming students can petition to skip some or all of the Year 0 courses. The Director of Graduate Studies will administer an informal exam to see if the students are sufficiently ready to skip Year 0 courses.

<td>3</td>
</tr>
</tbody>
</table>

Total Credits: 18

Year 1 courses will train students to develop a common solid foundation on basic graduate mathematics. The Ph.D. student is required to pass all 6 courses, and to pass qualifying exams in Algebra and Real Analysis. The qualifying exams will be given in May of each year, shortly after finals week. There will be an opportunity to retake a qualifying exam in August just before the beginning of the Fall semester. The Analysis qualifying exams will be from topics from Real Analysis I and Real Analysis II. The Algebra qualifying exams will be from topics from Algebra I and Algebra II.

Extremely well prepared students, with the permission of their initial advisor and the Director of Graduate studies, may take one or both qualifying exams in August before they start their first semester. If they pass, then with the permission of their initial advisor and the Director of Graduate studies they may skip the corresponding courses in Year 1.

**Year 1: Take All 6**

</tr>
</tbody>
</table>

Year 2 and above are the post-qual core courses. Every Ph.D. student must complete at least six of the post-qual core courses. (Note that the parity of the year is determined by the beginning of the AY. For example, Spring 2016 occurs in the beginning of AY 2015, and so would be considered to be in an odd year.)

**Year 2 and above: Minimum 6 classes**

† Here, and elsewhere in this document, the number after the period refers to the section number.

Some of the above courses are listed in the catalog under different names. Others are new courses, and are currently listed as topics courses until we are able to add them to the catalog.

The candidate must further complete a course of study approved by the doctoral program committee and pass a comprehensive examination. The active areas of research interest of the current members of the staff are: algebraic geometry, analysis (real, complex, functional and harmonic), analytic functions, applied mathematics, financial mathematics and mathematics of insurance, commutative rings, scattering theory,
differential equations (ordinary and partial), differential geometry, dynamical systems, general relativity, mathematical physics, number theory, probabilistic analysis and topology.

Note: Effective at the start of Winter Semester 2007, there is NO foreign language proficiency requirement for the Mathematics PhD. However, a student's Doctoral Committee still retains the discretion to impose a foreign language proficiency requirement.

Music

Julia Gaines, Director
140 Fine Arts Bldg.
(573) 882-2606

The School of Music is a department in the College of Arts and Sciences that offers instruction to those who want professional training in music as well as those who wish to pursue music as a vocation. Applied music instruction in piano, voice, string, woodwind, brass and percussion instruments is offered for beginning and advanced students. Elementary and advanced courses are given in music theory and composition. The appreciation, literature and history of music are covered by survey and specialized courses. Undergraduate and graduate courses are offered in music education. The school has an accredited member of the National Association of Schools of Music since 1933.

The School of Music also offers opportunities for all students of the university to participate in various performing ensembles. Regular programs are presented on campus and throughout the state by groups such as the University Philharmonic Orchestra, Wind Ensemble, Marching Mizzou, Symphonic Band, University Band, Jazz Ensembles, Choral Union, University Singers, Concert Chorale, Hitt Street Harmony, Opera Workshop and many vocal, string, percussion and wind chamber ensembles. Membership in these groups is open to interested students by audition, except University Choral Union and University Band, which do not require an audition.

The department offers BA and MA degrees with majors in Music, and BM and MM degrees with majors in Music and Music Education, as well as a PhD degree in Music Education. A minor in Music and a minor and certificate in Jazz Studies are also available, as is a certificate in Music Entrepreneurship.

Faculty

Curators' Teaching Professor: Michael Budds*
Curators' Distinguished Teaching Professor: Wendy Sims*
Associate Professor: Iskander Akhmadullin*, Tim Howe*, Judith Mabary*, Angelo Manzo*, Neil Minturn*, Leo Saguiquilt*, Brian Silvey*
Teaching Professor: Christine Seitz*
Assistant Professor: Megan Arns*, Brandon Boyd*, Alice K. Dade*, Barry Ford*, A. Carolina Heredia*, Eli Lara*, Julie Rosenfeld*, Steven Tharp*
Post Doc: Yoshiaki Onishi

Adjunct Instructor: Emily Edginton Andrews, Bret Bohman, Natalia Bolshakova, Jacob Gotlib, Erica Manzo, Nobuko Hara Oba, Paul Seitz*, Sue Stubbs, Brian Tate

• Graduate Faculty Member - membership is required to teach graduate-level courses, chair master's thesis committees, and serve on doctoral examination and dissertation committees.

** Doctoral Faculty Member - membership is required to chair doctoral examination or dissertation committees. Graduate faculty membership is a prerequisite for Doctoral faculty membership.

Undergraduate

• BA in Music (p. 245)
• BM in Music (p. 246)
  • with emphasis in Composition (p. 246)
  • with emphasis in Music Education (p. 248)
• with emphasis in Music History (p. 250)
• with emphasis in Music Theory (p. 251)
• with emphasis in Performance (p. 252)
• Minor in Music (p. 255)

Departmental Honors

Departmental Honors for the School of Music are designed to reward truly superlative achievement by an undergraduate music student, focusing on the student’s area of performance, theory and composition, or history and literature. A minimum GPA of 3.3 at the onset of the senior year is required, not including grades for large ensembles. The student must initiate the process by submitting a formal application to the Director of the School of Music at the beginning of the semester prior to the semester of graduation, and must receive approval from his or her area coordinator and faculty advisor. Further information and an application form may be obtained by contacting the Director of Undergraduate Studies in Music.

Graduate

• MA in Music (p. 255)
  • with emphasis in Musicology (p. 256)
• MM in Music (p. 257)
  • with emphasis in Collaborative Piano (p. 258)
  • with emphasis in Composition (p. 259)
  • with emphasis in Conducting (p. 259)
  • with emphasis in Jazz Performance & Pedagogy (p. 261)
  • with emphasis in Music Education (p. 261)
  • with emphasis in Music Theory (p. 261)
  • with emphasis in Performance (p. 262)
  • with emphasis in Piano Pedagogy (p. 264)
• PhD in Music Education (p. 265)

School of Music

About the School of Music

Founded in 1907, the School of Music is one of the larger academic units in the College of Arts and Science. Comprised of 38 full-time faculty members and approximately 260 music majors, it is small enough to
permit close, personal interaction between students and faculty, but large enough to provide many wonderful opportunities for talented students to excel. Our primary mission is to prepare students to become professional musicians and music educators. The School of Music is widely known for its scholarship in the field, and it is an important cultural resource for the profession, the campus community, and the people of Missouri.

Performance
At MU a student of music has the opportunity to hear many concerts or to participate in a variety of performing organizations. Many recitals are given by students, faculty and visiting artists. Among the student ensembles that give several concerts during the year are the University Philharmonic, University Wind Ensemble and other concert bands, jazz ensembles, University Singers and other choral ensembles, Show-Me Opera, and chamber music groups. Faculty ensembles that present recitals regularly include the Esterhazy String Quartet, the Missouri Woodwind Quintet and the MU Faculty Brass Quintet.

Resources and Facilities
The music section of the Fine Arts Building contains a recital hall, classrooms, studios and practice facilities. The music holdings in Ellis Library, both printed and recorded materials, constitute a substantial research and reference collection. The School of Music maintains a digital piano and MIDI laboratory, analog and digital music studios, and access to a listening laboratory for history and theory courses. The Sinquefield New Music Center is under construction with classrooms, studios and practice facilities. The music holdings in Ellis Library, both printed and recorded materials, constitute a substantial research and reference collection. The School of Music maintains a digital piano and MIDI laboratory, analog and digital music studios, and access to a listening laboratory for history and theory courses. The Singefield New Music Center is under construction with classes projected to begin with the Spring 2020 semester.

Additional Degree Options
Graduate Certificate in Jazz Studies (p. 345)

Music Education Degrees
These are degrees offered by the Department of Learning, Teaching, and Curriculum in the College of Education (p. 437) in conjunction with the School of Music. These degrees include

BA in Music

Degree Program Description
The Bachelor of Arts (BA) in Music is a 120-hour degree in which the number of courses in music is less than in the professionally-oriented BM degree, thereby making more hours available for non-music courses. The degree does, however, require a well-rounded set of courses that will leave the student with excellent musical understanding and performance skills. In addition, the student has the freedom to pursue a secondary area of interest, which might form the basis of a specific kind of professional training. Most students pursuing a double major (music and another field) choose the BA degree.

Major Program Requirements
Students who elect to earn a Bachelor of Arts with a major in Music will complete a general, liberal arts degree with a strong music emphasis. Students must also complete all degree, college and university graduation requirements, including Arts & Science Foundation Requirements.

Courses completed in the D range may not fulfill music course requirements without the approval of the advisor and the dean, and the student must achieve an overall average of at least C (2.0) in all of the courses attempted in the School of Music.

In addition, students must complete all College of Arts and Science and University graduation requirements (p. 30), including University general education (p. 31).

Foreign Language Requirement:

- Woodwind or Percussion Performance: 12-13 hours of any foreign language
- Theory, Composition, or Piano or Brass Performance: 12-13 hours of French, Italian, or German
- Music History: 10 hours of German + 5-6 hours of second language, approved by advisor (15-16 total)
- String Performance: 12-13 hours of French, Italian, German or Spanish
- Vocal Performance: GERMAN 1100 Elementary German I (5 hours), FRENCH 1100 Elementary French I (5 hours), and ITAL 1100 Elementary Italian I (6 hours); and one additional course in German (5 hours), French (5 hours), or Italian (6 hours) (21-22 hours total). In addition, one hour each in Italian, French, and German diction (music courses; 3 hours total)

Music Education: Foreign language is not required

Candidates must pass an examination administered by the applied faculty in the area of performance at the completion of their sophomore year before entrance is approved to studio instruction at the 4455-level (for performance tracks) or 3455-level (for all other tracks). Degree recitals must be approved two weeks in advance by a faculty hearing committee.

Courses completed in the “D” range may not fulfill music course requirements without the approval of the advisor and the dean, and the student must achieve an overall average of at least C (2.0) in all of the courses attempted in the School of Music at MU. Music education students must have an overall grade point average (GPA) of 2.75, a music content GPA of 3.00, and an education course GPA of 3.00 to qualify for teacher certification.

Requirements for ALL emphasis areas and tracks, except music education.

BM in Music

Degree Program Description

The Bachelor of Music (BM) degree is a program of 120-145 hours that may be earned with an emphasis in Performance (brass, percussion, piano, strings, voice, or woodwinds), Music History, Music Theory, Composition, or Music Education. It is designed for the student who intends to pursue a career as a composer, performer, K-12 or college teacher, as well as the student who plans to enter graduate school to pursue further study in one of these areas. Students must audition to be admitted into the program.

Major Program Requirements

The Bachelor of Music (BM) is a professional degree that offers the maximum concentration in music. The student may focus on instrumental, keyboard or vocal performance; music theory; composition; music history or music education based on the choice of emphasis area. In addition, students must complete degree, college and university requirements, including Arts & Science Foundation Requirements.

In addition, students must complete all College of Arts and Science and University graduation requirements (p. 30), including University general education (p. 31).

Foreign Language Requirement:

- Woodwind or Percussion Performance: 12-13 hours of any foreign language
- Theory, Composition, or Piano or Brass Performance: 12-13 hours of French, Italian, or German
- Music History: 10 hours of German + 5-6 hours of second language, approved by advisor (15-16 total)
- String Performance: 12-13 hours of French, Italian, German or Spanish
- Vocal Performance: GERMAN 1100 Elementary German I (5 hours), FRENCH 1100 Elementary French I (5 hours), and ITAL 1100 Elementary Italian I (6 hours); and one additional course in German (5 hours), French (5 hours), or Italian (6 hours) (21-22 hours total). In addition, one hour each in Italian, French, and German diction (music courses; 3 hours total)

Music Education: Foreign language is not required

Candidates must pass an examination administered by the applied faculty in the area of performance at the completion of their sophomore year before entrance is approved to studio instruction at the 4455-level (for performance tracks) or 3455-level (for all other tracks). Degree recitals must be approved two weeks in advance by a faculty hearing committee.

Courses completed in the “D” range may not fulfill music course requirements without the approval of the advisor and the dean, and the student must achieve an overall average of at least C (2.0) in all of the courses attempted in the School of Music at MU. Music education students must have an overall grade point average (GPA) of 2.75, a music content GPA of 3.00, and an education course GPA of 3.00 to qualify for teacher certification.

Requirements for ALL emphasis areas and tracks, except music education.

Total Credits: 120

Semester Plan

The BM in Music has emphasis areas in Composition (p. 246), Music Education (p. 248), Music History (p. 250), Music Theory (p. 251), and Performance (p. 252). Please see the individual emphasis area pages for semester plans specific to the emphasis area.

BM in Music with Emphasis in Composition

Degree Program Description

The Bachelor of Music (BM) degree with an emphasis in Composition focuses on music theory, methodology, composition of music, and music history. The program requires 130-145 hours, including courses in music theory, music history, studio instruction, and ensembles. It is designed for the student who intends to pursue a career as a composer, performer,
or college teacher, as well as the student who plans to enter graduate
school to pursue further study in one of these areas. Admission to
the composition emphasis area requires an application, examination, and/
or samples of work. Incoming freshmen accepted to the University of
Missouri may be admitted to the BM composition major after a review
of sample compositions and an interview with the composition faculty
(normally on one of the Mizzou Music Days). Students already pursuing
a music degree may be admitted to the emphasis area, typically toward
the end of the sophomore year of study, through an application and
examination process.

Major Program Requirements

In addition to the list of required courses below for the emphasis in
Composition, students must complete the bachelor of music (p. 246),
college and university requirements (p. 30), including Arts & Science
Foundation Requirements (p. 132).

**BM in Music with Emphasis in Music Education**

**Degree Program Description**

The music education degree program is designed for students who wish to become school music teachers. Graduates will be certified to teach music to children in kindergarten through twelfth grade, including elementary general music and either secondary instrumental or vocal music. MU music education students become successful teachers and performers who are sought after by schools in Missouri and beyond, as well as by prestigious graduate programs. Students enhance their musicianship by taking private lessons and participating in ensembles, and acquire a breadth of knowledge through coursework in general education, professional education and core music areas. They develop skills related to music teaching and rehearsing in their music education classes, which are accompanied by observing, interacting with, and instructing students in the public schools. This allows for important hands-on experience prior to the full semester of student teaching. The faculty members who teach music education courses are active professionals who publish research in prestigious journals, and play leadership roles in international and national organizations devoted to improving prekindergarten through college-level music instruction.

**Major Program Requirements**

Students must complete all university (p. 30), general education (p. 31), and content requirements, in addition to degree requirements. Please meet with a music education faculty member to discuss degree requirements and to create a semester plan.

As we continue to implement the new Missouri Standards for the Preparation of Educators mandated by the Department of Elementary and Secondary Education (DESE), curriculum changes will be required that must be met in order to complete your degree and earn teacher certification. Those changes may become effective at any point during your academic program. Therefore, it is extremely important that you DO NOT SELF ADVISE.

The lists below are provided as an overview of the degree requirements. Because this degree program is highly sequenced, and includes requirements leading to state certification including specified content, education, and overall grade point averages, students should not use this list to self advise but must work closely with their music education advisors to plan their coursework.

**MU General Education Requirements** - Students will plan for this coursework with their Music Education Advisors

*Note: Options do not appear on transcripts or diplomas. Emphasis areas appear on transcripts.*

**Music and Education Requirements for All Music Education Students**

**BM in Music with Emphasis in Music History**

**Degree Program Description**

The Bachelor of Music (BM) degree with an emphasis in Music History focuses on the history and significance of musical traditions. The program requires 128-144 hours, including courses in music theory, music history, studio instruction, and ensembles. It is designed for the student who intends to pursue a career as a composer, performer, or college teacher, as well as the student who plans to enter graduate school to pursue further study in one of these areas. In addition to an audition on the major instrument or voice, students must be approved for admission by the music history faculty.

**Non-Music Courses**

- MUS_GENL 1091 Recital Attendance for Undergraduate Music Majors
- MUS_APMS 1435 Studio Instruction for Majors (Piano; total of 4 credit hours)
- MUS_APMS 2455 Studio Instruction
- MUS_GENL 1091 Instrumental Ensemble (total of 8 credit hours)
- MUS_THRY 1210 Introduction to Computer Technology and Music
- MUS_THRY 1221 Tonal Theory II
- MUS_THRY 1230 Aural Training and Sight Singing I
- MUS_THRY 1231 Aural Training and Sight Singing II
- MUS_THRY 2220 Syntax, Structure and Style of Music II
- MUS_THRY 2221 Syntax, Structure and Style of Music IV
- MUS_THRY 2223 Sixteenth-Century Counterpoint
- MUS_THRY 2422 Orchestration
- MUS_H_LI 1322 Introduction to Music in the United States
- MUS_H_LI 2307 History of Western Music I
- MUS_H_LI 2308 History of Western Music II
- MUS_I_VT 1610 Group Piano for Music Majors I
- MUS_I_VT 1611 Group Piano for Music Majors II
- MUS_I_VT 2610 Group Piano for Music Majors III
- MUS_I_VT 2611 Group Piano for Music Majors IV
- MUS_I_VT 2631 Basic Conducting and Score Reading
- MUS_H_LI 43xx History Elective 3+3+6+6
- MUS_GENL 3085 Problems in Music

Total Credits: 59-70
**BM in Music with Emphasis in Music Theory**

### Degree Program Description

The Bachelor of Music (BM) degree with an emphasis in Music Theory teaches students how music works, critical listening, technical performance, and composition. The program requires 125-142 hours, including courses in music theory, music history, studio instruction, and ensembles. It is designed for the student who intends to pursue a career as a composer, performer, or college teacher, as well as the student who plans to enter graduate school to pursue further study in one of these areas. In addition to an audition on the major instrument or voice, admission into the emphasis area requires an application and examination.

### Major Program Requirements

In addition to the list of required courses below for the emphasis in Music Theory, students must complete the bachelor of music (p. 246), college and university requirements (p. 30), including Arts & Science Foundation Requirements (p. 132).

**BM in Music with Emphasis in Music Theory**

- **Degree Program Description**
  - The Bachelor of Music (BM) degree with an emphasis in Music Theory teaches students how music works, critical listening, technical performance, and composition. The program requires 125-142 hours, including courses in music theory, music history, studio instruction, and ensembles. It is designed for the student who intends to pursue a career as a composer, performer, or college teacher, as well as the student who plans to enter graduate school to pursue further study in one of these areas. In addition to an audition on the major instrument or voice, admission into the emphasis area requires an application and examination.

- **Major Program Requirements**
  - In addition to the list of required courses below for the emphasis in Music Theory, students must complete the bachelor of music (p. 246), college and university requirements (p. 30), including Arts & Science Foundation Requirements (p. 132).
BM in Music with Emphasis in Performance

Degree Program Description

The Bachelor of Music (BM) degree with an emphasis in Performance focuses on studio instruction, pedagogy, and literature for instrumental or vocal performance. Students select brass, percussion, piano, strings, voice, or woodwinds as a primary instrument. The program requires 123-143 hours, including courses in music theory, music history, studio instruction, and ensembles. It is designed for the student who intends to pursue a career as a composer, performer, or college teacher, as well as the student who plans to enter graduate school to pursue further study in one of these areas. Students must audition to be admitted into the emphasis area.
Below is a sample plan of study, semester by semester, for each track. A student's actual plan may vary based on course choices where options are available. **NOTE:** All degree programs require a minimum of 120 credits for graduation.

### MUS:APMS 3970

**Total Credits: 124-140**

### Minor in Music

Students who have chosen a major in another field but who wish to continue their musical growth may wish to pursue a music minor. Approval for declaration of the Minor in Music must be received from the Director of Undergraduate Studies in Music. A minimum of 18 credits is required, including at least 6 at the 2000-level or higher:

#### Music Theory

- MUS_THRY 1220 Syntax, Structure and Style of Music I 2
- MUS_THRY 1221 Tonal Music Theory II 2

#### Music History

- MUS_H_LI 1322 Introduction to Music in the United States 2
- MUS_H_LI 2307 History of Western Music I 2
- MUS_H_LI 2308 History of Western Music II 2

#### Ensembles/Applied Music

Any combination of MUSIC 1841, 1842, 2445 (must all be in one area) 4

#### Additional Credits in either Theory, History, or Performance (must all be in one area)

**Total Credits 18**

### MA in Music

#### About the MA

The MA in Music provides opportunities for continued development of musical insights, scholarly competencies, and the enhancement of interests in musical and related non-musical areas. This liberal graduate education is designed to prepare a student to pursue a career in college teaching, especially as preparation for doctoral studies in music history or musicology.

#### Prerequisites

Completion of a bachelor's degree in music (or demonstrated equivalent), with a GPA of **3.0 in the last 60 credit-hours**, is required. Additional prerequisites listed below. In the event that a candidate does not meet the required prerequisites, appropriate additional course(s) will be added as requirements to the degree program:

- Keyboard competency as is typically developed in an undergraduate music degree program
- 4 semesters of languages: 2 semesters each of French, Italian, or German
• 3 courses beyond the core music history courses (MUS_H_LI 2307, MUS_H_LI 2308 at MU)
• Freshman/sophomore music theory courses
• 1 semester of orchestration
• 1 course in counterpoint (3 credits or equivalent)
• 1 course in Western civilization
• 1 course in European history prior to 1800

Priority Application Deadline
All graduate applicants are expected to submit required application materials (for both the School of Music and the Office of Graduate School) by January 15 for fall semester matriculation, in order to receive full consideration for admission and assistantship or scholarship support. Applications submitted after January 15 will be considered as space permits on a rolling basis. Applicants interested in spring semester matriculation should contact the Associate Director of the School of Music (see below).

Application Process
Apply online via Graduate Admission's Slate (https://applygrad.missouri.edu/apply) system, which will prompt you to complete the following:
• Register for an interview during a Graduate Audition/Interview day.
• Submit samples of written scholarly work.
• Submit your unofficial transcript.
• Submit an essay explaining professional goals.
• Request three references to submit letters of recommendation.

Note: The School of Music does not require GRE scores.

International Student Information
Strong English reading, writing, and speaking abilities are necessary for success in the graduate programs in the School of Music. The following scores are required for admission to a graduate degree program in the School of Music:
• Minimum TOEFL scores:

<table>
<thead>
<tr>
<th>Internet-based test (IBT)</th>
<th>Paper-based test (PBT)</th>
</tr>
</thead>
<tbody>
<tr>
<td>80</td>
<td>550</td>
</tr>
</tbody>
</table>

Note: No TOEFL subscores below 52 (paper) or 17 (internet), or IELTS 6
• Minimum Academic IELTS scores:

<table>
<thead>
<tr>
<th>Item</th>
<th>Score</th>
</tr>
</thead>
<tbody>
<tr>
<td>OVERALL</td>
<td>6.5</td>
</tr>
</tbody>
</table>

Note: No IELTS subscores below 5
Note: the University of Missouri’s institutional code for the TOEFL is 6875.

MUS_ENS 8841 | Instrumental Ensemble | 1
MUS_ENS 8842 | Choral Ensemble | 1

At least 15 credits must be at 8000 level
Total credits: 33

Additional Requirements:
• Comprehensive Exam.
• MA degree candidates must satisfactorily complete a Thesis on an approved topic and must pass a final oral examination, administered by a faculty committee, about their projects.

MA in Music with Emphasis in Musicology
This liberal degree is designed to prepare a student to pursue a career in college teaching, or doctoral studies in music history or musicology. Opportunities are provided for continued development of musical insights, scholarly competencies, and the enhancement of interests in music and related non-music areas.

Prerequisites
• Bachelor’s degree in music (or demonstrated equivalent)
• GPA of 3.0 in the last 60 hours
• Keyboard competency as is typically developed in an undergraduate music degree program
• 4 semesters of languages: 2 semesters each of French, Italian, or German
• 3 courses beyond the core music history courses (MUS_H_LI 2307, MUS_H_LI 2308 at MU)
• Freshman/sophomore music theory courses
• 1 semester of orchestration
• 1 course in counterpoint (3 credits or equivalent)
• 1 course in Western civilization
• 1 course in European history prior to 1800

If an applicant does not meet the required prerequisites, then appropriate course(s) may be added to the degree requirements.

Admissions
For admission requirements, refer to the Graduate School’s website for the minimum qualifications for the MA in Music (https://gradstudies.missouri.edu/degrecategory/music). Because requirements vary, you must refer to a degree program’s graduate admission page to learn about specific admission criteria, application deadlines, eligibility,
and the application process. Before official admissions to the University of Missouri, your application materials will be reviewed by both the Graduate School and the degree program to which you’ve applied.

Degree Requirements (33 hours total)

Required Courses

- **MUS_H_LI 8313** Introduction to Graduate Study 2
- **MUS_H_LI 8314** Introduction to Graduate Studies in Music II 1
- **MUS_APMS 7455** Studio Instruction (Taken for a total of 2 credits, either 2 semesters for 1 credit each or 1 semester for 2 credits) 1

Additional coursework required as determined by student and advisor, to include: Music History (8 credits), Research in Musicology Thesis (4-8 credits), Music Theory (4 credits), Music Theory, History or Research Elective (10 credits), Non-Music Electives at 7000-level (2 credits)

Additional Requirements

- Comprehensive Examination (see School of Music website for additional information)
- The student must assemble a faculty thesis committee and pass an oral examination regarding the thesis (a final, substantial original work)
- All courses must be at the 7000 or 8000 level, and at least 15 must be at the 8000 level
- No more than one course with a grade lower than B- may count toward completion of the degree

MM in Music

- The principal function of the MM program is to provide students with opportunities for continued development of their musical talents—in a specific area—and overall musicianship. This degree is designed to prepare the graduate for a career in performance or composition, teaching, or continued graduate studies toward a doctoral degree. Students can choose from the following emphasis areas: Performance (p. 262), Collaborative Piano (p. 258), Piano Pedagogy (p. 264), Music Theory (p. 261), Composition (p. 259), Conducting (p. 259), or Music Education (p. 261). Specific requirements for each area are listed on the emphasis page.

Prerequisites

Completion of a Bachelor of Music degree (or demonstrated equivalent) is required, normally with the same major as that to be pursued at the graduate level, and a GPA of 3.0 in the last 60 credit-hours. In the event that a candidate does not meet the required prerequisites for a specific curriculum (listed below), then appropriate course(s) may be added to the degree program as additional requirements.

WOODWIND, BRASS, PERCUSSION, OR STRING PERFORMANCE

- Senior recital

VOCAL PERFORMANCE

- Senior recital
- Proficiency in French, Italian, and German languages and diction.

PIANO PERFORMANCE

- Senior Recital
- 1 upper-level music history course
- 3 credits of 18th-century counterpoint

COLLABORATIVE PIANO

- Senior Recital
- 2 courses in either French or German
- 2 courses in French, German, or Italian diction
- 1 upper-level music history course
- 3 credits in 18th-century counterpoint

PIANO PEDAGOGY

- 1 upper-level music history course
- 3 credits in 18th-century counterpoint
- A senior recital and undergraduate courses in piano pedagogy or teaching experience are desirable, but not required for admission.

MUSIC THEORY

- 3 credits of 18th- or 16th-century counterpoint
- 2 credits of orchestration
- 2 credits of a theory elective
- 4 credits of music history (equivalent study to MUS_H_LI 2307-MUS_H_LI 2308)
- 16 credits of applied instruction (or equivalent)

COMPOSITION

- 3 credits of 18th- or 16th-century counterpoint
- 2 credits of orchestration
- 8 credits of composition
- 4 credits of music history (equivalent study to MUS_H_LI 2307-MUS_H_LI 2308)
- 16 credits of applied instruction (or equivalent)

CONDUCTING (Choral, Orchestral, or Wind Ensemble)

- 2 undergraduate conducting courses
- Previous conducting experience
- Proficiency in French, Italian, and German diction (Choral Conducting only)
- Proficiency in vocal pedagogy (Choral Conducting only)

Music Education

- Bachelor's degree in music education or music teacher certification (or up to 9 credits of pre/co-requisite coursework in education and/or music education will be required)

Priority Application Deadline

All graduate applicants are expected to submit required application materials (for both the School of Music and the Graduate School) by December 1 for fall semester matriculation, in order to receive full consideration for admission and assistantship or scholarship support. Applications submitted after December 1 will be considered as space permits on a rolling basis. Applicants interested in spring semester matriculation should contact the Admissions Coordinator of the School of Music (see below).
Application Process

Apply online through Graduate Admission's Slate system, which will prompt you to complete the following:

- Register for an audition or interview during a Graduate Audition/Interview day.
- Submit an essay explaining professional goals.
- Submit an unofficial transcript.
- Request three references to submit letters of recommendation.
- For performance areas, a recording will be required.

Notes: The School of Music does not require GRE scores.

International Student Information

Strong English reading, writing, and speaking abilities are necessary for success in the graduate programs in the School of Music. The following scores are required for admission to a graduate degree program in the School of Music:

- Minimum TOEFL scores:
  - Internet-based test (iBT)
    - 80
  - Paper-based test (PBT)
    - 550

Note: No TOEFL subscores below 52 (paper) or 17 (internet)

- Minimum Academic IELTS scores:
  - OVERALL
    - 6.5

Note: No IELTS subscores below 6

Note: the University of Missouri's institutional code for the TOEFL is 6875.

Information about international admissions may be found by clicking here.

Audition Information

A visit to the School of Music and in-person audition are strongly encouraged for applicants planning to major in an applied area (brass, percussion, piano, strings, voice, woodwinds), either on one of the graduation audition days or at another arranged time. In-person auditions are required for all conducting applicants. Applicants who audition initially by recording may be required to participate in a video conference interview (Skype, iChat, etc.) or to audition on campus at a later time. Please visit the School of Music website, music.missouri.edu, for more information regarding graduate audition days.

CONTACT INFORMATION:
Ben Harting, Admissions Coordinator
School of Music
150 Fine Arts Building
Columbia, MO 65211-6120
HartingB@missouri.edu
(573) 882-4471

For Detailed Information About Audition/Interview Expectations and Deadlines by Area, Please Click Here.

Degree Completion Requirements

See Courses of Study. In addition, students must complete the following:

- Comprehensive Exam (see School of Music website for additional information)
- Music Theory and Music History majors must satisfactorily complete a Thesis on an approved topic, and Composition majors must complete a substantial compositional project. Both Music Theory and Composition majors must pass a final oral examination, administered by a faculty committee, about their projects.
- Conducting majors must present two conducting recitals, each 45 minutes in length, or the equivalent, in large ensemble conducting appearances.

MM in Music with Emphasis in Collaborative Piano

Through continued development of performance skills and overall musicianship, this degree is designed to prepare the graduate for a career in performance or teaching, or for doctoral study.

Repertoire and performance are emphasized, with three required degree recitals. Extensive experiences in chamber music are provided with both vocal and instrumental students, and potentially in opera, choral, orchestra, and wind ensembles. All master's students meet weekly in piano performance classes with faculty. MU enjoys a wealth of carefully maintained grand pianos as well as a digital piano lab, two harpsichords and a fortepiano. Annually, distinguished pianists provide masterclasses to MU piano students, including recent guests Boris Berman, Malcolm Bilson, Anne Epperson, Claude Frank, Peter Frankl, Ian Hobson, and Ralph Votapek.

Prerequisites

- Bachelor's degree in Piano (or demonstrated equivalent)
- GPA of 3.0 in the last 60 hours
- Senior recital
- 2 courses in either French or German
- 2 courses in French, German, or Italian diction
- 1 upper-level music history course
- 3 credits of 18th-century counterpoint

If an applicant does not meet the required prerequisites, then appropriate course(s) may be added to the degree requirements.

Admissions

For admission requirements, refer to the Graduate School's website for the minimum qualifications for the MM in Music. Because requirements vary, you must refer to a degree program's graduate admission page to learn about specific admission criteria, application deadlines, eligibility, auditions, and the application process. Before official admissions to the University of Missouri, your application materials will be reviewed by both the Graduate School and the degree program to which you've applied.

Additional coursework required as determined by student and advisor, to include: Music Theory (5 credits), Music History (6 credits), Non-Music Electives at 7000-level (5 credits)

Additional Requirements

- Comprehensive Examination (see School of Music website for additional information)
- The student must assemble a faculty thesis committee and pass an oral examination regarding the thesis (a final, substantial original work)
- All courses must be at the 7000 or 8000 level, and at least 15 credits must be at the 8000 level.
- No more than one course with a grade lower than B- may count toward completion of the degree

MM in Music with Emphasis in Composition

This degree is designed to prepare the graduate for a career in composition, college teaching, or for doctoral study.

MU offers numerous opportunities for collaboration with artists various mediums, community engagement in the creative process, and performance of works on and off campus. The graduate New Music Ensemble is dedicated to performing works of student composers studying at MU. Our annual Sinuefield Composition Prize gives one of our students the opportunity to have a work for large ensemble performed at the annual Chancellor's Concert. In addition we host a Student Composers Concert each spring, a Composers Forum, and a student chapter of Society of Composers, Inc. Our graduates have been admitted to some of the most prestigious doctoral programs in the country, and our students have won many competitions of the Music Teachers National Association, the Music Educators National Conference, and the prestigious Broadcast Music Incorporated (BMI) Student Composers.

Prerequisites

- Bachelor's degree in music (or demonstrated equivalent)
- GPA of 3.0 in the last 60 hours
- 3 credits of 18th- or 16th-century counterpoint
- 2 credits of orchestration
- 8 credits of composition

If an applicant does not meet the required prerequisites, then appropriate course(s) may be added to the degree requirements.

Admissions

For admission requirements, refer to the Graduate School's website for the minimum qualifications for the MM in Music (https://gradstudies.missouri.edu/gradecategory/music). Because requirements vary, you must refer to a degree program's graduate admission page to learn about specific admission criteria, application deadlines, eligibility, and the application process. Before official admissions to the University of Missouri, your application materials will be reviewed by both the Graduate Studies and the degree program to which you've applied.

MM in Music with Emphasis in Conducting

CHORAL CONDUCTING:

Through focus on practical conducting skills while integrating the academic areas of theory, history and pedagogy, this degree is designed to prepare the graduate for a career in conducting or teaching, or for doctoral study. Conducting opportunities include conducting labs, ad hoc ensembles, and five regular ensembles. We also regularly offer opportunities to study with national and international figures. Former guests include Peter Phillips, Joseph Flummerfelt, Erwin Ortner, Amy Kaiser, Simon Carrington and Charles Bruffy.

Prerequisites

- Bachelor's degree in music (or demonstrated equivalent)
- GPA of 3.0 in the last 60 hours
• Basic keyboard skills
• Two undergraduate conducting courses
• Previous conducting experience
• Proficiency in French, Italian, and German diction
• Proficiency in vocal pedagogy

If an applicant does not meet the required prerequisites, then appropriate course(s) may be added to the degree requirements.

Degree Requirements - Choral Conducting (31 hours total)

Additional coursework required as determined by student and advisor, to include: Music Theory (3 credits), Music History (3 credits), Music Theory or History elective (3 credits), Music or Non-Music Electives (2 credits)

WIND CONDUCTING:

Through focus on practical conducting skills while integrating the academic areas of theory, history and pedagogy, this degree is designed to prepare the graduate for a career in conducting or teaching, or for doctoral study. Conducting and teaching opportunities include three concert ensembles, assisting with courses in basic conducting, score reading, and rehearsal techniques, and working and traveling with athletic bands, including Marching Mizzou.

Prerequisites

• Bachelor's degree in music (or demonstrated equivalent)
• GPA of 3.0 in the last 60 hours
• Two undergraduate conducting courses
• Previous conducting experience

If an applicant does not meet the required prerequisites, then appropriate course(s) may be added to the degree requirements.

Admissions

For admission requirements, refer to the Graduate School’s website for the minimum qualifications for the MM in Music (https://gradstudies.missouri.edu/degrecategory/music). Because requirements vary, you must refer to a degree program’s graduate admission page to learn about specific admission criteria, application deadlines, eligibility, auditions, and the application process. Before official admissions to the University of Missouri, your application materials will be reviewed by both the Graduate School and the degree program to which you’ve applied.
Additional Requirements

- Conducting majors must present two conducting recitals, each 45 minutes in length, or the equivalent, in large ensemble conducting appearances.
- Comprehensive Examination (see School of Music website for additional information)
- All courses must be at the 7000 or 8000 level, and at least 15 credits must be at the 8000 level
- No more than one course with a grade lower than B- may count toward completion of the degree

MM in Music with Emphasis in Jazz Performance and Pedagogy

The School of Music is currently not accepting applications for this degree program.

MM in Music with Emphasis in Music Education

Professionals interested in improving their teaching and advancing their careers in music education at the early childhood, elementary school, middle school, or high school level can earn a master’s degree in music education.

Students encounter a simulating curriculum that is relevant to their career aspirations, taught by faculty who are on the cutting edge of best-practice pedagogy, research, scholarship, and creative activity. Music education faculty members play active leadership roles in international, national and state organizations devoted to improving preK-12th grade music instruction. They also regularly publish their work in premier research and practitioner journals, and remain actively engaged with music teachers through presentations, clinics, and guest teaching and conducting.

Master’s degrees can be completed either full-time on campus, or part-time while teaching school with evening, summer, and one or two online courses. Graduate assistantships for full time study may be available, awarded competitively.

Prerequisites

The Master of Music in Music Education is a practice-oriented degree. Students who hold a BA or BM in music may pursue teacher certification simultaneously while working on the degree. Students without music teacher certification may be admitted with pre-/co-requisite requirements designated of up to 9 hours in education and/or music education coursework.

Degree Requirements

This degree requires 32 credit hours. At least 15 hours must be taken in music education, and 16 must be numbered 8000 or above (a course may be counted in both categories: i.e., MUS_EDUC 8150 can count toward both).

Music Education Coursework (15 - 18 credit hours)

Required Courses (3 credit hours each):

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>MUS_EDUC 8150</td>
<td>Foundations of Music Education</td>
</tr>
</tbody>
</table>

Additional music education course(s) as determined by student and advisor, from among those listed below, and depending on course availability

- 3 credits each, unless noted otherwise

- MUS_EDUC 8160 Current Issues in Music Education

Electives

May be in Music, and/or Education (e.g., Educational Psychology or Sociology, TESOL, Reading, Early Childhood), and/or in a related area with advisor approval.

Comprehensive Examinations

Written comprehensive examinations are administered by the music education faculty, comprising take-home projects and essays based on the synthesis the coursework completed, and application of the coursework to their current or future classrooms.

Research Option

Students who aspire to pursue a doctorate in music education in the future may wish to complete a formal research project as part of the degree program, in lieu of the comprehensive examinations. If so, the degree program should include one course in statistics and completion of a publishable research project (4 credit hours total) including an oral examination/defense.

Admissions

For admission requirements, refer to the Graduate School's website for the minimum qualifications for the MM in Music (https://gradstudies.missouri.edu/degreecategory/music). Because requirements vary, you must refer to a degree program’s graduate admission page to learn about specific admission criteria, application deadlines, eligibility, and the application process. Before official admission to the University of Missouri, your application materials will be reviewed by both the Graduate School and the degree program to which you’ve applied.

MM in Music with Emphasis in Music Theory

This degree is designed to prepare the graduate for college-level teaching or for doctoral study.

The program includes in-class teaching experience, study and survey of a wide variety of theory texts, and collaboration with a faculty advisor/mentor. Applicants are encouraged to consider studying music theory.
pedagogy paired with another area (i.e. performance, musicology, conducting, composition, or piano pedagogy).

Active listening, a skill necessary for understanding music and cultivating musical thought, requires musical proficiency: playing an instrument at a moderately accomplished level, score reading, and fluency in keyboard harmony. A theorist must hear what one sees in a score and see in a score what one hears.

**Prerequisites**

- Bachelor's degree in music (or demonstrated equivalent)
- GPA of 3.0 in the last 60 hours
- 3 credits of 18th- or 16th-century counterpoint
- 2 credits of orchestration
- 2 credits of a theory elective
- 4 credits of music history (equivalent study to MUS_H_LI 2307, MUS_H_LI 2308)
- 16 credits of applied instruction (or equivalent)

If an applicant does not meet the required prerequisites, then appropriate course(s) may be added to the degree requirements.

For admission requirements, refer to the Graduate School's website for the minimum qualifications for the MM in Music. Because requirements vary, you must refer to a degree program's graduate admission page to learn about specific admission criteria, application deadlines, eligibility, and the application process. Before official admissions to the University of Missouri, your application materials will be reviewed by both the Graduate Studies and the degree program to which you've applied.

Additional coursework required as determined by student and advisor, to include: Music History (6 credits), Advanced Courses in Theory/Composition (10-14 credits), Music or Non-music electives (2 credits)

**Additional Requirements**

- Comprehensive Examination (see School of Music website for additional information)
- The student must assemble a faculty thesis committee and pass an oral examination regarding the thesis
- All courses must be at the 7000 or 8000 level, and at least 15 credits must be at the 8000 level
- No more than one course with a grade lower than B- may count toward completion of the degree

---

**MM in Music with Emphasis in Performance**

**BRASS:**

Through continued development of performance skills and overall musicianship, this degree is designed to prepare the graduate for a career in performance or teaching, or for doctoral study.

Performance opportunities include large ensembles, mixed chamber ensembles, and faculty-directed chamber ensembles (brass quintets, brass choirs, the MU Trumpet Ensemble, the Mizzou Horn Choir, the MU Trombone Choir, and the MU Tuba/Euphonium Ensemble).

**Prerequisites**

- Bachelor's degree in music (or demonstrated equivalent)
- GPA of 3.0 in the last 60 hours
- Senior recital

If an applicant does not meet the required prerequisites, then appropriate course(s) may be added to the degree requirements.

**PERCUSSION:**

Through continued development of performance skills and overall musicianship, this degree is designed to prepare the graduate for a career in performance or teaching, or for doctoral study.

Performing opportunities include large ensembles, Marching Mizzou Drumline, jazz ensembles and three different percussion ensembles (University Percussion Ensemble, World Percussion Ensemble, and the Graduate Percussion Ensemble). MU has a large inventory of world percussion instruments including a full traditional steel pan band.

**Prerequisites**

- Bachelor's degree in music (or demonstrated equivalent)
- GPA of 3.0 in the last 60 hours
- Senior recital

If an applicant does not meet the required prerequisites, then appropriate course(s) may be added to the degree requirements.

**Degree Requirements - Brass or Percussion Performance (32 hours total)**

PIANO:

Through continued development of performance skills and overall musicianship, this degree is designed to prepare the graduate for a career in performance or teaching, or for doctoral study.

Performance opportunities include recitals, weekly studio class, and chamber music. Most student elect to take courses in pedagogy and qualify to teach in the Community Music Program. The program is supported by a wealth of carefully maintained grand pianos as well as a digital piano lab, two harpsichords and a fortepiano. Annually, distinguished pianists provide masterclasses to MU piano students, including recent guests Boris Berman, Malcolm Bilson, Anne Epperson, Claude Frank, Peter Frankl, Ian Hobson, and Ralph Votapek.

Prerequisites

- Bachelor's degree in Piano (or demonstrated equivalent)
- GPA of 3.0 in the last 60 hours
- Senior recital
- 1 upper-level music history course
- 3 credits of 18th-century counterpoint

If an applicant does not meet the required prerequisites, then appropriate course(s) may be added to the degree requirements.

Degree Requirements - Piano Performance (30 hours total)

VOICE:

Through continued development of performance skills and overall musicianship, this degree is designed to prepare the graduate for a career in performance or teaching, or for doctoral study.

Performance opportunities include choral ensembles, opera workshop, and chamber ensembles with instrumentalists. The Opera Workshop presents scenes every fall semester and a fully staged production each spring semester. In Spring 2015, the Show-Me Opera is presented a production of Puccini’s Suor Angelica and Gianni Schicchi. Other recent opera productions include Robert Ward’s The Crucible, Mozart’s Così fan tutte and The Magic Flute, Rossini’s La Cenerentola, Lehár’s The Merry Widow, and Puccini’s Gianni Schicchi paired with Act II of La bohème.

Prerequisites

- Bachelor’s degree in music (or demonstrated equivalent)
- GPA of 3.0 in the last 60 hours
- Senior recital
- Proficiency in French, Italian, and German languages and diction.

If an applicant does not meet the required prerequisites, then appropriate course(s) may be added to the degree requirements.

Additional coursework required as determined by student and advisor, to include: Music Theory (3 credits), Music History (3 credits), Music Theory or History elective (3 credits), Music or Non-Music Electives (3 credits)

University of Missouri, your application materials will be reviewed by both the Graduate School and the degree program to which you’ve applied.

**MM in Music with Emphasis in Piano Pedagogy**

- If the student elects to do a recital, a recital hearing must be passed before presentation. Through coursework, practical teaching experiences, and performances, this degree prepares students for teaching at all levels---with a focus on promoting wellness, creativity, and injury prevention---or for doctoral study. Practical experiences include teaching group classes and private lessons for children and adults through the Experiencing Piano program, the Community Music Program, and the Group Piano program. MU enjoys a wealth of carefully maintained grand pianos as well as a digital piano lab, two harpsichords, and a fortepiano. Annually, distinguished pianists and pedagogues provide masterclasses to MU piano students, including recent guests Boris Berman, Martha Hilley, Claude Frank, Peter Frankl, Ian Hobson, and Ralph Votapek.

**Prerequisites**

- Bachelor's degree in Piano (or demonstrated equivalent)
- GPA of 3.0 in the last 60 hours
- Senior recital

If an applicant does not meet the required prerequisites, then appropriate course(s) may be added to the degree requirements.

**Prerequisites**

- Bachelor's degree in Piano (or demonstrated equivalent)
- GPA of 3.0 in the last 60 hours
- 1 upper-level music history course
- 3 credits of 18th-century counterpoint

If an applicant does not meet the required prerequisites, then appropriate course(s) may be added to the degree requirements.

**Admissions**

For admission requirements, refer to the Graduate School’s website for the minimum qualifications for the MM in Music (https://gradstudies.missouri.edu/degrecategory/music). Because requirements vary, you must refer to a degree program’s graduate admission page to learn about specific admission criteria, application deadlines, eligibility, auditions, and the application process. Before official admissions to the

The PhD in Music Education is designed to prepare students for careers in higher education as music education teacher/researchers, as ensemble conductors with a strong commitment to music education teaching and research, or as master teachers or music supervisors in the K-12 system. Applicants must be certified music teachers, with a bachelor’s or master’s degree in music education, or present evidence of equivalent experience. Individuals with music teaching experience in higher education but without music teaching experience in elementary or secondary schools are eligible for admission, but are required to complete prerequisites and field experiences in elementary and secondary schools prior to taking comprehensive examinations.

This program is “research-intensive,” and students are expected to complete four to five research courses, read past and current research, assist and eventually collaborate with faculty and peers on research projects, develop the ability to translate research findings to classroom applications, and ultimately achieve independence as a researcher.

Students encounter a simulating curriculum that is relevant to their career aspirations, taught by faculty who are on the cutting edge of best-practice pedagogy, research, scholarship, and creative activity. Music education faculty members play active leadership roles in international and national organizations devoted to improving preK-12th grade music instruction. They also regularly publish their work in premier research and practitioner journals, and remain actively engaged with music teachers through presentations and clinics.

The degree program moved to the School of Music from the College of Education, effective August 2018. It is fully accredited by the National Association of Schools of Music. Please see https://music.missouri.edu for information about the School of Music.

### Degree Requirements

Within the general framework, the PhD program is relatively flexible and individualized for each student. The degree requires 72 hours beyond the bachelor’s degree. Specific coursework is planned by the doctoral student and the four- to five-member doctoral committee to meet the student’s individual needs and future goals. The committee is chaired by a music education faculty member who is a member of the Doctoral Faculty. Students choose one to two support areas, one in music and an optional second area in a related field. The support-area courses are not prescribed, but are selected in consultation with a faculty member in that area, who often serves as a doctoral committee member. In addition to the coursework requirements, students must complete one “research internship” and one “teaching internship,” which may or may not be attached to credit hours. These are faculty-supervised experiences designed to help prepare the students with skills they will need to enter the professoriate.

Residency is essential to the acquisition of experiences necessary for success in the program and the profession. Students’ commitment to spending at least one academic year (fall and winter semester) as a full-time student on the MU campus is required (enrollment in a minimum of 9 credit hours per semester; may be a Teaching Assistant or Research Assistant, but not hold more than a part-time position elsewhere, to be negotiated with the doctoral committee). Students are expected to complete the degree in a timely manner, meeting all Graduate School deadlines. This means a maximum of 5 years for completing coursework from first enrollment as a PhD student (coursework is generally completed in 2 years of full-time study including summers) and 5 years for completing the dissertation after passing comprehensive exams (this is a maximum—most students finish in less time).

### Sample Plan of Study

Total credit specific to degree: 72 beyond bachelor’s degree.

#### Course Area

**Music Education**

- MUS_EDUC 8150 Foundations of Music Education
- MUS_EDUC 8152 Psychology of Music Instruction and Performance
- MUS_EDUC 8160 Current Issues in Music Education
- MUS_EDUC 8170 Doctoral Seminar in Music Education
- MUS_EDUC 8142 Curriculum Materials in Music Education-General
- or MUS_EDUC 8143 Curriculum Materials in Music Education-Vocal
- or MUS_EDUC 8140 Advanced Techniques in Music Education-General
- or MUS_EDUC 8141 Advanced Techniques in Music Education-Early Childhood

**Independent Study, Internship, Research**

- MUS_EDUC 8151 Measurement and Research in Music Education
- Quantitative Research Methods
- Qualitative Research Methods
- Research/Statistics Elective (Quantitative or Qualitative)

**Music Support Area**

- MUS_GENL 8090 Advanced Chamber Ensemble (To include two ensembles for a total of 2 credits)
- MUS_GENL 8000 Research in Music (If the student elects to do a recital, a recital hearing must be passed before presentation)
- or MUS_APMS 8970 Graduate Recital

Additional coursework required as determined by student and advisor, to include: Music History (3 credits), Music Theory (3 credits), Music History or Theory Electives (3 credits), Music or Non-Music Electives (2 credits)

### About

The PhD in Music Education is designed to prepare students for careers in higher education as music education teacher/researchers, as ensemble conductors with a strong commitment to music education teaching and research, or as master teachers or music supervisors in the K-12 system. Applicants must be certified music teachers, with a bachelor’s or master’s degree in music education, or present evidence of equivalent experience. Individuals with music teaching experience in higher education but without music teaching experience in elementary or secondary schools are eligible for admission, but are required to complete prerequisites and field experiences in elementary and secondary schools prior to taking comprehensive examinations.

This program is “research-intensive,” and students are expected to complete four to five research courses, read past and current research, assist and eventually collaborate with faculty and peers on research projects, develop the ability to translate research findings to classroom applications, and ultimately achieve independence as a researcher.

Students encounter a simulating curriculum that is relevant to their career aspirations, taught by faculty who are on the cutting edge of best-practice pedagogy, research, scholarship, and creative activity. Music education faculty members play active leadership roles in international and national organizations devoted to improving preK-12th grade music instruction. They also regularly publish their work in premier research and practitioner journals, and remain actively engaged with music teachers through presentations and clinics.

The degree program moved to the School of Music from the College of Education, effective August 2018. It is fully accredited by the National Association of Schools of Music. Please see https://music.missouri.edu for information about the School of Music.
Comprehensive Examination Process

Students complete comprehensive examinations upon the completion of their formal coursework. These include projects and essays assigned by the music education and support-area faculty, designed to demonstrate that the students have synthesized course materials at a high level, and achieved appropriate research expertise. In lieu of a written examination in a performance-based support area, students may prepare and present a public lecture-recital as a performer or conductor, according to program criteria and under the supervision of the faculty. The comprehensive examination experience concludes with an oral examination. Upon successful completion of the exam, the student is considered a candidate for the degree.

Dissertation Requirements

The final stage of the doctoral degree is completion of a doctoral dissertation that demonstrates the candidate’s potential to become an independent scholar, and which makes a contribution to knowledge related to some aspect of music teaching and/or learning. The topic and methodology are selected by the student, in consultation with the doctoral committee. The written proposal is subject to the approval of the committee. The dissertation research is completed independently, but in close consultation with the advisor and others, as necessary. Several weeks after the complete dissertation is drafted and distributed to the committee, there is a final oral exam, composed of a public presentation and a closed question and answer "defense" with the committee. After passing the examination the student works with the advisor and sometimes members of the committee to make any final revisions required, and deposits the completed document electronically with the Graduate School.

Admissions

Admissions are selective. Applicants must meet the minimum requirements of the PhD in Music Education degree program (see https://music.missouri.edu/grad/phd-music-education) and the minimum requirements of the Graduate School (see http://gradschool.missouri.edu/admissions/eligibility-process/minimum-requirements.php). Prospective students must meet with music education faculty in person, if possible, or, if not, via video conferencing. Depending on their interest and specialty areas, applicants may be required to audition for conducting or applied music faculty. Admissions decisions made by a committee of faculty, and are based on multiple criteria, including faculty time commitments, judgment of the student’s potential for success in the program and profession, program needs, and the fit between the student and the program. Thus, not everyone who meets minimum qualifications is admitted.

Philosophy

Paul Weirich, Chair
College of Arts and Science
438 Strickland Hall

The Department of Philosophy offers a wide variety of undergraduate and graduate courses, including courses on applied ethics, ethical theory, epistemology, logic, metaphysics, philosophy of mind, philosophy of language, philosophy of religion, philosophy of science, philosophy of biology, decision theory, political philosophy, non-Western philosophy, and the history of Western philosophy. The study of philosophy is not only fascinating in its own right but practical too, since it encourages the development of marketable intellectual abilities. These include the abilities to read, think, and write about conceptually complex and abstract material, and to construct and analyze elaborate chains of reasoning. Philosophy majors go on to pursue careers in such fields as law, medicine, business, the non-profit sector, the church, and academia. The department offers BA, BS, MA, and PhD degrees in philosophy, as well as an undergraduate minor.

Faculty

Professor R. N. Johnson**, A. Meinsky**, P. L. Vallentyne**, P. Weirich**
Associate Professor A. Ariew**, K. Boyce*, M. Folescu*, C. S. Horisk**, P. Robbins**
Assistant Professor M. Heckel*, A. Radulescu*
Associate Professor Emeritus A. von Schönborn*

• Graduate Faculty Member - membership is required to teach graduate-level courses, chair master's thesis committees, and serve on doctoral examination and dissertation committees.
•** Doctoral Faculty Member - membership is required to chair doctoral examination or dissertation committees. Graduate faculty membership is a prerequisite for Doctoral faculty membership.

Undergraduate

• BA in Philosophy (p. 267)
• BS in Philosophy (p. 268)
• Minor in Philosophy (p. 269)

Double and Dual Majors

A philosophy major can be paired with a major in another department in the College of Arts and Science (double major) or in some other College (dual major). Students must meet the major requirements of both departments. The program for each department must be approved by the advisor for that department.

Departmental Honors

To earn a BA (or BS) with Departmental Honors in philosophy, a student must achieve at least a 3.3 GPA in all courses, and a 3.7 GPA in all philosophy courses; meet all the standard requirements for the regular philosophy BA (or BS); take PHIL 4998 Honors I in Philosophy, and PHIL 4999 Honors II in Philosophy, writing a satisfactory senior thesis normally of 3,000 to 9,000 words under the guidance of a faculty member who has consented to work with the student; and pass an oral examination on the thesis before a committee of three members of the philosophy faculty.
Graduate

Director of Graduate Studies: Philip Robbins

About the Program

The Department of Philosophy provides excellent training in both research and teaching. The nationally and internationally renowned faculty have expertise in the core areas of philosophy, with particular strengths in epistemology, ethics, philosophy of mind, and political philosophy, and also in various specialties, including philosophy of biology, experimental philosophy, and the foundations of decision and game theory. With 11 full time faculty and around 25 graduate students, we offer a supportive community for pursuit of the MA and the PhD, with a broad range of courses, rigorous training, attentive, high-quality advising, the opportunity to develop a professional network through our series of colloquia and conferences, and help in every aspect of job seeking. We give students the advice and support they need to present their work at regional and national conferences, and to publish in professional journals, before they begin to look for jobs. We also give our students extensive training and experience in teaching, including assistantships with award-winning teachers.

Although we award an MA degree, we only admit students to our PhD program (with the MA obtained in the process).

We receive about 50 applications per year and offer funding to about 10-15% of these. The normal ranges of scores for students we admit are: GRE Verbal 158-170, GRE Quantitative 147-166, and GPA in the major (normally philosophy) 3.9. Our decisions are also based on the quality of the writing sample, letters of reference, and other factors, such as degree of fit with the Department.

Professional Development

Presentation of research at professional meetings and publication by graduate students is strongly encouraged. Prominent philosophers from other institutions visit the Department yearly for talks and symposia. Twice yearly, the Florence G. Kline endowment sponsors an intensive workshop at which papers on a special topic are presented by leading figures in philosophy.

Financial Aid

Fellowships and teaching assistantships are available to qualified students. Applications for fellowships must meet the Office of Graduate Studies deadlines, usually in January. Applications for teaching assistantships must meet the Department deadline of January 15.

BA in Philosophy

Degree Program Description

Philosophy is the search for reasoned answers to certain fundamental questions about the nature of the universe and the place of humans in it, questions that science seems unable to answer. To do philosophy is to construct and evaluate the best arguments for and against the various answers to the questions that philosophy seeks to answer. The Bachelor of Arts is broader in scope than the Bachelor of Science, and is the better choice for most students. The practical value of studying philosophy lies in the intellectual training that it provides. Successful study of philosophy requires, and helps develop, several intellectual abilities: the ability to grasp the big picture as well as fine details; the ability to think, speak, and write about highly abstract and conceptually demanding questions; the ability to identify key assumptions made in arguments; the ability to make relevant conceptual distinctions; and the ability to assess the pros and cons of proposed solutions. These abilities are highly prized in a wide variety of careers, and philosophy majors go on to successful careers in a wide range of fields, including law, medicine, and business.

Major Program Requirements

Undergraduates pursuing a BA degree in philosophy must meet all the non-philosophy requirements for a BA degree in the College of Arts and Science, including university general education requirements (p. 31) and graduation requirements (p. 30). In addition, they are recommended, but not required, to pursue a minor in another field. Finally, they must earn 30 credits in philosophy, with a grade of "C-" or above in every course, distributed as follows:

Logic Requirement

BS in Philosophy

Degree Program Description

Philosophy is the search for reasoned answers to certain fundamental questions about the nature of the universe and the place of humans in it, questions that science seems unable to answer. To do philosophy is to construct and evaluate the best arguments for and against the various answers to the questions that philosophy seeks to answer. The Bachelor of Science emphasizes the formal aspects of philosophy and its many connections with the sciences. It may be a better choice for those wishing to double major in philosophy and a science. The practical value of studying philosophy lies in the intellectual training that it provides. Successful study of philosophy requires, and helps develop, several intellectual abilities: the ability to grasp the big picture as well as fine details; the ability to think, speak, and write about highly abstract and conceptually demanding questions; the ability to identify key assumptions made in arguments; the ability to make relevant conceptual distinctions; and the ability to assess the pros and cons of proposed solutions. These abilities are highly prized in a wide variety of careers, and philosophy majors go on to successful careers in a wide range of fields, including law, medicine, and business.

Major Program Requirements

Undergraduates pursuing a BS degree in philosophy must meet all the non-philosophy requirements for a BS degree in the College of Arts and Science, including university general education (p. 31) requirements and graduation requirements (p. 30). In place of the foreign language requirement, they may take 12 hours of coursework at the 2000-level or higher in Mathematics, Statistics, Physical or Biological Sciences, Psychology, or Economics. In addition, they are recommended, but not required, to pursue a minor in another field. Finally, they must earn 42 credits in philosophy, with a grade of "C-" or above in every course, distributed as follows:

Required Courses

<table>
<thead>
<tr>
<th>Course Code</th>

About the Master of Arts in Philosophy

At this time, our Department is not admitting students who are seeking a terminal master’s degree. However, our doctoral students earn an MA degree en route to the PhD.

Please see the admission criteria for our doctoral degree program (p. 269).

Admission Contact Information
Paul Weirich
College of Arts and Science
Department of Philosophy
415 Strickland Hall

(573) 882-6760

Master of Arts Degree Completion Requirements

- 30 semester hours of graduate work, 15 of which must be at the 8000 level.
- At least 80 percent of the hours submitted for the master’s program must be completed with a grade of A or B.
- A distribution of graduate courses including a proseminar for all first year students, one course in the history of philosophy and one course in either ethics, political philosophy, metaphysics, or epistemology.
- A thesis or two papers of format and topic appropriate for a refereed paper in a major journal, displaying sustained research and philosophical analysis, and an oral defense of the thesis or papers.

PhD in Philosophy

Admission Contact Information
Paul Weirich
College of Arts and Science
Department of Philosophy
415 Strickland Hall
(573) 882-6760

Note: Although we award the MA degree, we only admit students to our PhD program (with the MA obtained in the process). Any unusual circumstances regarding failure to meet the minimum requirements should be called to the attention of the director of graduate admissions.

Admission Process

In order to be considered for our graduate program, the following steps need to be completed (including receipt of transcripts and test scores) by January 15th:

1. Arrange for all relevant official transcripts to be sent directly to the Office of Graduate Studies by your college or university (student copies are not acceptable).
2. Arrange with Educational Testing Services for your GRE scores to be sent directly to the Office of Graduate Studies (MU’s school code is 6875; philosophy’s department code is 2801). Only electronic scores are acceptable.
3. International students also should arrange for their TOEFL scores to be sent directly to the Office of Graduate Studies (MU’s school code is 6875; philosophy’s department code is 2801). The minimum required scores are 100 (internet) total with a speaking score of at least 23 (internet). (For more information about scores, see the Office of Graduate Studies’ TOEFL policy.)
4. Complete the basic information in online Graduate Studies application.
5. Upload a 750-word Statement of Interest to the Supplemental Information section of the on-line Graduate Studies application form. It should explain why you are interested in graduate study in philosophy at the University of Missouri. We encourage you to address, if you wish, how you can advance the department’s commitment to diversity.
6. Upload a sample of your 15-25 page philosophical writing (e.g., a paper or thesis chapter) to the Supplemental Information section of the on-line Graduate Studies application form. For the sake of blind evaluation, do not include your name on the sample you upload.

Minor in Philosophy

A minor in philosophy requires 15 credits in philosophy, including at least 3 credits at the 4000-level and a further 3 credits at the 3000-level or 4000-level.

The remaining credits may be earned in any philosophy courses, except for PHIL 4998 and PHIL 4999.

Of the 15 credits required, 9 must be taken in MU course work.

Students considering a minor might want to consult the requirements for the philosophy major before selecting their courses, so as to leave open the option of upgrading to a major at some later date.

Prospective philosophy minors must get the permission of their academic unit.

MA in Philosophy

About the Master of Arts in Philosophy

At this time, our Department is not admitting students who are seeking a terminal master’s degree. However, our doctoral students earn an MA degree en route to the PhD.

Please see the admission criteria for our doctoral degree program (p. 269).

Admission Contact Information
Paul Weirich
College of Arts and Science
Department of Philosophy
415 Strickland Hall

(573) 882-6760
7. In the Recommendation section of the on-line Graduate Studies application form, enter the information for three letters of recommendation regarding your academic potential. You should first obtain agreement from the professors writing these letters. They will be contacted by e-mail to submit their letters electronically. If a professor is unable to send his/her letters electronically, you should still enter all his/her information in the Recommendation section, but you should write “(off-line)” immediately after her name.

8. A hardcopy of the recommendation should then be sent to the Director of Graduate Studies, Department of Philosophy University of Missouri, Columbia, MO 65211-4160. Because all other materials are electronic, hardcopies often do not receive the same attention. It is thus in your strong interest to have your letters submitted electronically.

9. Complete the Department Philosophy application form (https://philosophy.missouri.edu/grad/graduate-program).

**Admission Criteria**

**Fall deadline: January 15**

- Minimum TOEFL scores:
  - Internet-based test (IBT) 100* 600
  - Speaking score of at least 23
  - Paper-based test (PBT) 600
  - Average GRE scores:
    - Verbal 650 700
    - Quantitative 163 155

**When did you take the GRE?**

- Prior to August 1, 2011
- On or After August 1, 2011

- Eligibility for any graduate work in philosophy requires the equivalent of the following six undergraduate courses in philosophy: formal logic, ethics, ancient philosophy, modern philosophy, epistemology, and metaphysics.
- Deficiencies may be made up after the student is enrolled at MU.
- Average GPA in the major: 3.9

**Required Application Materials**

**To the Office of Graduate Studies**

- All required Graduate Studies documents
- 3 letters of recommendation (submission through the online application system strongly preferred, but postal mail submission directly to the department allowed)
- Statement of interest (upload to the online application)
- Writing sample (upload to the online application)
- Departmental application (download this from https://philosophy.missouri.edu/grad/graduate-program and then upload to the online application).

**To the Philosophy Program**

- GRE score report (electronic only)

**Qualifying Exam**

Qualification for the PhD program is established by a qualifying examination (typically by superior performance on the MA research requirement).

**Graduation Requirements for the PhD**

- 72 hours of course work in philosophy, with at least 42 hours of regular course work.
- A distribution of graduate courses including an introductory seminar for all first year students, two advanced courses in logic, two courses in the history of philosophy, and one course in each of ethics, epistemology, and metaphysics.
- A written and oral dissertation proposal requirement designed to ensure the student’s familiarity with the relevant philosophical literature and ability to analyze philosophical issues. A dissertation and a final oral examination on the dissertation.

**Physics**

Sashi Satpathy, Chair
College of Arts and Science
223 Physics Building

Fax: (573) 882-4195
https://physics.missouri.edu/

Physics is the science that studies the structure and properties of matter and transformations of energy. With math as the language and experimental verification as a guide, physical study has established the fundamental laws of nature that are the foundation of all natural science and technology. The study of physics includes learning the general principles and the phenomena that have been discovered and developing the skills that enable such knowledge to be advanced through research.

The Department of Physics and Astronomy offers a major in physics with either a Bachelor of Arts or a Bachelor of Science Degree. The BA degree provides a broad coverage of classical and modern physics while permitting a broader liberal arts education. It is normally selected by students who do not envision a professional career in physics, but plan to enter a professional school later in their academic career, e.g. medicine, dentistry or law, or who desire to pursue a teaching certificate. The BS degree in Physics is designed to prepare students for scientific careers immediately upon graduation, for further training in graduate school, or for teaching high school physics. A minor in physics or astronomy is also available.

Physics education plays a pivotal role in such areas of burgeoning and societal importance as biomedical optical imaging/biomedicine, materials science, and homeland security. Therefore, the Department of Physics has introduced several new courses and electives to train undergraduate students in optical sciences, biological physics, materials sciences and nanotechnology.

**Faculty**

Associate Professor G. King**, W. T. Montrooij**, H. Yan**
Assistant Professor G. Bian**, Y. Guo**, D. Singh**
Teaching Professor D. Kosztin*
Assistant Teaching Professor Y. Zhang*
Assistant Teaching Professor S. Bompadre*, K. King*
To receive an honors degree with a major in physics, a student must meet the following criteria:

To receive an honors degree with a major in physics, a student must meet the following criteria:

- Graduate Faculty Member - membership is required to teach graduate-level courses, chair master's thesis committees, and serve on doctoral examination and dissertation committees.
- Doctoral Faculty Member - membership is required to chair doctoral examination or dissertation committees. Graduate faculty membership is a prerequisite for Doctoral faculty membership.

Undergraduate

- BA in Physics (p. 272)
- BS in Physics (p. 273)
  - with emphasis in Astronomy (p. 273)
  - with emphasis in Biological Physics (p. 274)
  - with emphasis in Materials Science (p. 275)
- Minor in Physics (p. 276)

Candidates for both degrees must complete 120 credits with an average grade of C or better. For the BA in physics degree, students must complete 30 credits in physics and 19 credits in math and chemistry. For the BS in physics degree, students must complete 45 credits in physics and 25 credits in math and chemistry. Students pursuing a Bachelor of Science in Secondary Education, emphasis in Physics, have the option of obtaining a BS in physics degree by completing 33 credits in physics and 19 hours in math and chemistry. In addition, students must meet all degree, college, and university requirements including University general education. All students who complete the BS degree in Physics automatically also complete a minor in Mathematics.

Departmental Honors

The departmental honors program in physics provides exceptional students with an opportunity to develop skills beyond the normal course work. It also acknowledges those students who have attained a level of achievement beyond what is normally expected of an undergraduate physics major.

To receive an honors degree with a major in physics, a student must meet the following criteria:

- Satisfy the BA or BS degree requirements
- Cumulative GPA of at least 3.30 and minimum GPA of 3.50 in Physics Department courses
- Complete a six credit hours research sequence, by signing up for PHYSICS 4950/ASTRON 4950 Undergraduate Research in Physics/Astronomy in the first (second) semester junior year and for PHYSICS 4950/ASTRON 4960 Senior Thesis (or PHYSICS 4950/ASTRON 4950 again) in the first (second) semester senior year. In PHYSICS 4950 /ASTRON 4950 students will work on a research project, either by doing research in a lab or by doing reading research and completing specific readings under the supervision of a faculty advisor.
- Present the results of the research project in a poster or in a paper prepared in the form of a scientific journal article at a regional or national meeting, to a faculty panel that will consist of no fewer than three Physics Department faculty members, or in a physics seminar.

In order to receive departmental honors recognition, the student must be recommended by the director of undergraduate studies. Upon recommendation, the Office of the University Registrar will be notified that the candidate has earned departmental honors recognition. This acknowledgement will appear on the student’s diploma as well as on the transcript.

Elective Tracks

Students have a variety of courses from which they may select the required credits of physics electives for the BS or BA degree. The department offers tracks that allow students to specialize in astronomy, biological physics, condensed matter physics, energy storage, materials science, nanomaterials, or optoelectronics. Students may wish to pursue one of these tracks, or follow a general track in which they can choose any of the courses that are listed and are not required courses.

Note: Tracks are not indicated on the diploma.

Foreign Language Alternative (BS)

Students who elect an undergraduate program leading to the BS degree with a major in Physics have an option regarding the College of Arts and Science foreign language requirement. This requirement of 12 or 13 credits (depending on the language studied) may be satisfied alternatively by the substitution of an approved specialization. This consists of a minimum of 12 credits at the 2000/3000 level or above and may not include courses normally required of all physics majors. It is to be selected from an area with special relevance to physics and to the student’s own interests and future plans. Students have selected options in aerospace engineering, atmospheric science/geophysical fluid dynamics, radiation biology, chemistry, computer science, electrical engineering (circuits or computer hardware option), geology, nuclear engineering, material science, math and other areas. The choice and planning of an option must be done under the direction of the departmental undergraduate advisor.

Dual Degrees and Double Majors

Students may wish to pursue two baccalaureate dual degrees simultaneously. For example, this might include a BS in Physics and a BS in Engineering, which is the most common choice. In order to receive two baccalaureate degrees, a student must complete a minimum of 132 credits and complete all the specified requirements for both degrees.

Another degree option is a single baccalaureate degree with two majors (double majors), which may be developed with the concurrence of appropriate advisors in the two departments. A notation of the successful completion of the two areas appears on the student’s transcript. Both departments must be in the College of Arts and Sciences. Double major options often chosen by a physics major are chemistry, mathematics or geology. Mathematics is a particularly viable double major because the extensive mathematics component normally required in the BS degree with a major in physics, if coupled with a specialization area chosen from mathematics, nearly completes the BS degree with a major in mathematics.

Careful planning, started early in the academic career, is required to meet the conditions of dual majors or dual degrees. Students who complete such programs obtain the maximum from their undergraduate experience.
Graduate

• MS in Physics (p. 276)
• PhD in Physics (p. 277)
• Graduate Certificate in Teaching High School Physics (p. 279)

About Physics

At the University of Missouri, the physics degrees are offered by the Department of Physics and Astronomy. Because the Department has a moderate size, graduate students are better able to maintain a close relationship with the faculty. Our facilities include various laboratories within the Physics Building as well as the Research Reactor. In certain cases, a student’s work may be done in collaboration with other science and engineering departments.

The largest research area is in experimental and theoretical condensed-matter physics. Graduates in these fields have been very successful in continuing their careers in industry and academics. Other research programs in which thesis work may be accomplished are biological physics and astronomy/astrophysics.

Research Resources

The Department of Physics and Astronomy offers many opportunities for scientific research in internationally recognized programs, some of which are unique at a university and at a level expected only in much larger departments. The main focus of research is in the areas of theoretical and experimental condensed matter physics, biological physics, astrophysics, and alternative energy. These research efforts are fostered by the existence of the University of Missouri Research Reactor (MURR), a 10 MW light-water moderated reactor that is the highest-power university research reactor in the country. Furthermore, many research activities involve facilities at National Laboratories such as Argonne, Oak Ridge, or NIST.

Financial Aid from the Program

Some programs require an extra form or statement from those who wish to be considered for internal assistantships, fellowships or other funding packages. Check the program website or ask the program contact for details.

More Details

For more details on the Physics graduate program please consult the departmental web site: https://physics.missouri.edu/grad/graduate-program.

In particular, details about degree requirements, rules and regulations can be found in the Physics graduate handbook (https://physics.missouri.edu/sites/default/files/grad-files/graduatehandbook10-02-14.pdf).

BA in Physics

Degree Program Description

Physics is the science that studies the structure and properties of matter and transformations of energy. With math as the language and experimental verification as a guide, physical study has established the fundamental laws of nature that are the foundation of all natural science and technology. The study of physics includes learning the general principles and the phenomena that have been discovered and developing the skills that enable such knowledge to be advanced through research. The BA degree provides a broad coverage of classical and modern physics while permitting a broader liberal arts education. It is normally selected by students who plan to enter a professional school later in their academic career, e.g. medicine, dentistry or law, or who desire to pursue a teaching certificate. Physics plays a pivotal role in such areas of expanding and societal importance as biomedical optical imaging/biomedicine, materials science, and homeland security, and as such, courses are offered in optical sciences, biological physics, materials sciences and nanotechnology.

Major Program Requirements

Students must complete the University of Missouri’s general education requirements and graduation requirements (p. 30), in addition to the Major Program Requirements below.

BS in Physics with Emphasis in Astronomy

^ Course meets degree program requirements
* Course meets University general education and/or campus graduation requirements
Degree Program Description

Physics is the science that studies the structure and properties of matter and transformations of energy. With math as the language and experimental verification as a guide, physical study has established the fundamental laws of nature that are the foundation of all natural science and technology. The study of physics includes learning the general principles and the phenomena that have been discovered and developing the skills that enable such knowledge to be advanced through research. An emphasis area in astronomy is excellent preparation also for science teachers, laboratory technicians, computer programmers, and science journalists. It can also serve as the basis for graduate degrees in other fields, such as law or medical school. People with a degree (or background) in Physics with an emphasis in astronomy find jobs in planetariums, science museums, national observatories, national laboratories, federal agencies, universities, business or private industry.

Major Program Requirements

Students interested in astronomy may choose to pursue a BS in Physics with an Emphasis in Astronomy (the emphasis will show up on the transcript). For this option, students must take the required physics courses (p. 273) for the regular BS degree, ASTRON 3010 Introduction to Modern Astrophysics and four additional astronomy/physics elective courses. Three of the astronomy/physics electives must be chosen from the list below:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>ASTRON 4200</td>
<td>Astrophysical Techniques</td>
<td>3</td>
</tr>
<tr>

<td>Undergraduate Research in Astronomy</td>
<td>1-3</td>
</tr>
<tr>
<td>ASTRON 4960</td>
<td>Senior Thesis in Astronomy</td>
<td>3</td>
</tr>
</tbody>
</table>

Only courses with a grade of C- or above will be counted toward the emphasis area. In addition, students must complete all College of Arts and Science and University graduation requirements (p. 30), including University general education (p. 31).

Below is a sample plan of study, semester by semester. A student’s actual plan may vary based on course choices where options are available.

* Course meets degree program requirements

BS in Physics with Emphasis in Biological Physics

Degree Program Description

Physics is the science that studies the structure and properties of matter and transformations of energy. With math as the language and experimental verification as a guide, physical study has established the fundamental laws of nature that are the foundation of all natural science and technology. The study of physics includes learning the general principles and the phenomena that have been discovered and developing the skills that enable such knowledge to be advanced through research. Biological physics is an interdisciplinary area that employs and develops theories and methods of the physical sciences for the investigation of biological systems. There is a long history of the quantitative tools and techniques originally developed within the physics community finding critical applications in biology. Examples range from the first visualization of the DNA double helix via X-ray diffraction to the widespread use of magnetic resonance imaging in hospitals throughout the world. Currently, biological physics is one of the fastest growing physics research areas that is vital for many other fields, including medicine, bioengineering, and biology. Students specializing in this area have career opportunities in medical centers, research institutes and biotechnology industries, as well as the more traditional academic venues.

Major Program Requirements

Students interested in biological physics may choose to pursue a BS in Physics with an Emphasis in Biological Physics (the emphasis will show up on the transcript). For this option, students must take the required physics courses (p. 273) for the regular BS degree, PHYSCS 4520 Introduction to Biophysics, and four additional physics elective courses. Three of the physics electives must be chosen from the list below:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>

<tr>
<td>PHYSCS 4410</td>
<td>Analysis of Biological Macromolecules and Biomaterials</td>
<td>3</td>
</tr>
<tr>
<td>PHYSCS 4420</td>
<td>Introduction to Biomedical Imaging</td>
<td>3</td>
</tr>
</tbody>
</table>
Only courses with a grade of C- or above will be counted toward the emphasis area. In addition, students must complete all College of Arts and Science and University graduation requirements (p. 30), including University general education (p. 31).

**Semester Plan**

Below is a sample plan of study, semester by semester. A student’s actual plan may vary based on course choices where options are available.

**Degree Program Description**

Physics is the science that studies the structure and properties of matter and transformations of energy. With math as the language and experimental verification as a guide, physical study has established the fundamental laws of nature that are the foundation of all natural science and technology. The study of physics includes learning the general principles and the phenomena that have been discovered and developing the skills that enable such knowledge to be advanced through research. Materials Science is an interdisciplinary field encompassing several disciplines of science and technology. Physics lies at the heart of materials science since it provides a rationale for understanding the mechanical, thermal, optical, and magnetic properties of matter. The emphasis area in materials science prepares students in areas of high demand for the 21st century workforce in the US. Materials scientists are employed by companies who make products ranging from metals, ceramics, and biomedical implants to integrated-circuit chips and superconducting materials. A major concentration of the program is on nanomaterials, which prepares students in areas of nanotechnology and energy-related issues.

**Major Program Requirements**

Students interested in materials science may choose to pursue a BS in Physics with an Emphasis in Materials Science (the emphasis will show up on the transcript). For this option, students must take the required physics courses (p. 273) for the regular BS degree, physics 4620 Introduction to Materials Science, and four additional physics elective courses. Three of the physics electives must be chosen from the list below:

- PHYSCS 4190 Physics and Chemistry of Materials 3
- PHYSCS 4410 Analysis of Biological Macromolecules and Biomaterials 3
- PHYSCS 4600 Semiconductor Optics 3
- PHYSCS 4650 Modern Condensed Matter Physics 3
- PHYSCS 4110 Light and Modern Optics 4
- PHYSCS 4950 Undergraduate Research in Physics 1-3
- PHYSCS 4960 Senior Thesis in Physics 3

With approval, one materials science related course may be taken from outside the physics program. Only courses in which a grade of C- or above will be counted toward the emphasis area.

Only courses with a grade of C- or above will be counted toward the emphasis area. In addition, students must complete all College of Arts and Science and University graduation requirements (p. 30), including University general education (p. 31).

**BS in Physics with Emphasis in Materials Science**

---

---
Applications for admission for graduate study in physics have to be completed online. Your online application should include the following documents:

- MU institutional code for GRE and TOEFL: 6875
- The results of the general GRE Test (required).
- The results of the GRE Advanced Physics Test, if available (not mandatory, but strongly recommended).
- For international applicants, the results of the TOEFL Test. The minimum total TOEFL scores for graduate admission into the MU Physics program are 550 (paper-based), 213 (computer-based) or 80 (internet-based). The IELTS test with a minimum score of 6.5 is an acceptable alternative to the TOEFL.
- A statement of purpose, in which you tell us a bit about yourself (e.g. your motivations, career goals, and research interests, and why you chose to apply at the University of Missouri).
- Three letters of recommendation from three of your professors who are familiar with you and your work.
- Official transcripts from all undergraduate and graduate institutions you have attended.

### Admission Criteria

Fall deadline: March 1  
Spring deadline: Rolling (target date: October 1)  
Minimum GRE score: none set

International applicants must submit results of the TOEFL test.

<table>
<thead>
<tr>
<th>Internet-based test (iBT)</th>
<th>Paper-based test (PBT)</th>

- MU institutional code for GRE and TOEFL: 6875
- GRE department code: 0808
- TOEFL department code: 76

### Degree Requirements

In general, students must present at least 30 credit hours for the MS degree, including at least 15 hours in courses at the 8000 level. The program must include at least 15 hours of physics courses. There is no foreign language requirement.

### Physical Science Option

The master of science (physical science) degree is designed for those preparing to teach more than one science or for those broadening their foundation in science before proceeding to the doctoral degree. It emphasizes broad training in physics, chemistry and mathematics. No thesis is required.

### Sample Plan of Study

The MS Degree requires completion of a minimum of 30 course hours beyond the Bachelor’s Degree (at least 15 hours of those in 8000 level courses) with a grade of 3.0 (B) or better, and completion of the Departmental Qualifying Examination at least at the MS pass level. The basic residency requirement stipulates that 24 hours of this work be courses taken at MU (i.e., no more than 6 hours may be transfer credits). In a normal program, this requirement is met by the end of the second year at MU. The required courses for a Master’s Degree are:

- PHYSCS 8610 Classical Mechanics 3
- PHYSCS 8620 Electrodynamics I 3
- PHYSCS 8660 Methods in Mathematical Physics 3

### Minor in Physics

A student whose area of concentration is in another department may receive a minor in physics with the completion of the following courses with grades of C or better: PHYSCS 2750, PHYSCS 2760, PHYSCS 3150, plus two additional physics courses at the 4000 level or above. In order to complete these requirements, the student must complete mathematics through MATH 4100 Differential Equations.

Conversely, a student whose area of concentration is physics may pursue a minor in another department in the College of Arts and Sciences.

### MS in Physics

#### About the Master of Science

The master of science degree in physics prepares students for a variety of scientific careers. Since physics is the most fundamental of the physical sciences, graduate-level studies in the field provide essential knowledge for application in many areas. Students with strong backgrounds in physics, as well as in areas ranging from biology to engineering, are encouraged to consider a personalized MS program in physics. Graduates have many job opportunities in a variety of areas.

#### Application Process

We welcome applications from students who have successfully completed a 4-year undergraduate degree in physics or closely related fields. International students who have gone through a 3-year undergraduate degree program need to have an MS degree to become eligible for admission.

Applications for admission for graduate study in physics have to be completed online. Your online application should include the following material (to be uploaded in electronic format):

- University of Missouri Graduate School Application. Use the online application system to fill out the application form and upload the required documents.
- Official transcripts from all undergraduate and graduate institutions you have attended. 
- Three letters of recommendation from three of your professors who are familiar with you and your work. 
- A statement of purpose, in which you tell us a bit about yourself (e.g. your motivations, career goals, and research interests, and why you chose to apply at the University of Missouri).
- The results of the general GRE Test (required).
- The results of the GRE Advanced Physics Test, if available (not mandatory, but strongly recommended).
- For international applicants, the results of the TOEFL Test. The minimum total TOEFL scores for graduate admission into the MU Physics program are 550 (paper-based), 213 (computer-based) or 80 (internet-based). The IELTS test with a minimum score of 6.5 is an acceptable alternative to the TOEFL.
- A statement of purpose, in which you tell us a bit about yourself (e.g. your motivations, career goals, and research interests, and why you chose to apply at the University of Missouri).
- Three letters of recommendation from three of your professors who are familiar with you and your work.
- Official transcripts from all undergraduate and graduate institutions you have attended.
- A statement of purpose, in which you tell us a bit about yourself (e.g. your motivations, career goals, and research interests, and why you chose to apply at the University of Missouri).
- Three letters of recommendation from three of your professors who are familiar with you and your work.
- Official transcripts from all undergraduate and graduate institutions you have attended.

### Sample Plan of Study

The MS Degree requires completion of a minimum of 30 course hours beyond the Bachelor’s Degree (at least 15 hours of those in 8000 level courses) with a grade of 3.0 (B) or better, and completion of the Departmental Qualifying Examination at least at the MS pass level. The basic residency requirement stipulates that 24 hours of this work be courses taken at MU (i.e., no more than 6 hours may be transfer credits). In a normal program, this requirement is met by the end of the second year at MU. The required courses for a Master’s Degree are:

- PHYSCS 8610 Classical Mechanics 3
- PHYSCS 8620 Electrodynamics I 3
- PHYSCS 8660 Methods in Mathematical Physics 3
Other additional courses may be taken from 7000 and 8000 level courses in astronomy, mathematics, chemistry, biology, engineering, and physics to make a total of 30 hours of course work. In some cases, a student who is a transfer graduate student or who has a particularly strong undergraduate background may have had course work which satisfies the requirement of one or more of these core courses. Exemption from taking these courses at MU may be granted upon written application to the Departmental Graduate Studies Committee.

Research

It is essential for the MS degree that the students carry out some research. Three hours of research, PHYSCS 8090, should be taken, but not more than nine hours of reading and research courses may be included in the 30 hour requirement. (Note: This 9 hour limitation is a departmental requirement and is more restrictive than the Office of Graduate Studies requirement.) A formal MS thesis is not required in Physics. The student, in consultation with his/her advisor, can choose to write an MS thesis as an option (MU Graduate Studies thesis guidelines (http://gradschool.missouri.edu/academics/thesis-dissertation/diss-thesis-guideline)).

Qualifying Examination

The student must pass the Departmental Qualifying Examination at least at the MS pass level. Upon completion of the qualifying examination, the student fills out the form M3, “Report of the Master’s Examining Committee” and gathers the signatures of the Qualifying Examination Committee members. This form is then signed by the Director of Graduate Studies and forwarded to the Office of Graduate Studies Dean. Graduation Requirements

After performing satisfactory work for the first year, the student with the advisor’s assistance completes the form M1, “Plan of Study for the Master’s Degree,” an outline of the course of study for the student’s graduate program, and forwards the application through the Departmental Graduate Studies Committee to the Dean of the Graduate Studies. The plan of study form must be filed no later than the session preceding the session in which the student expects to receive the degree. Upon approval of the M1 form by the Dean of the Graduate Studies, the student is a candidate for the degree.

The program for the Master’s Degree must be completed within a period of eight years beginning with the first semester of enrollment, not including time spent in the armed services. For any extension of this time limitation, the student must petition the Graduate Studies Dean. Such petitions must be received in the Graduate School Office prior to the expiration of the normal period and must be approved by the advisor, the Departmental Director of Graduate Studies, and the Graduate Studies Dean. The Office of Graduate Studies will notify the advisor in writing of the final decision.

The candidate must be enrolled at the MU campus during the semester in which the program of study, outlined in the “Plan of Study for the Master’s Degree”, is expected to be completed. During the first six weeks of this semester, the candidate must personally confirm with the Office of Graduate Studies for all graduation arrangements.

PhD in Physics

The doctor of philosophy degree is designed to educate scientists to be capable of independently formulating and solving problems of fundamental scientific importance. Detailed policies for the PhD degree are listed at the MU Graduate Studies. Here we give details specific to the Physics program.

Application Process

Applications for admission for graduate study in physics have to be completed online. Your online application should include the following material (to be uploaded in electronic format):

- University of Missouri Graduate Studies Application. Use the online application system (https://applygrad.missouri.edu/apply) to fill out the application form and upload the required documents.
- The results of the general GRE Test (required). MU institutional code for GRE: 6875 GRE department code: 0808
- The results of the GRE Advanced Physics Test, if available (not mandatory, but strongly recommended).
- For international applicants, the results of the TOEFL Test. A minimum test score of 80 is required. The IELTS test with a minimum score of 6.5 is an acceptable alternative to the TOEFL.
- A statement of purpose, in which you tell us a bit about yourself (e.g. your motivations, career goals, and research interests, and why you chose to apply at the University of Missouri).
- Three letters of recommendation.
- Your official transcripts from all undergraduate and graduate institutions attended.

Admission Criteria

- Fall deadline: March 1
- Spring deadline: Rolling (target date: October 1)
- Minimum GRE score: none set
- Minimum TOEFL scores (international applicants only):

<table>
<thead>
<tr>
<th>Internet-based test (IBT)</th>
<th>Paper-based test (PBT)</th>
</tr>
</thead>
<tbody>
<tr>
<td>80</td>
<td>550</td>
</tr>
</tbody>
</table>

Note: MU institutional code for TOEFL: 6875. TOEFL department code: 76

Degree Completion Requirements

A Ph.D. Degree requires completion of a minimum of 18 hours beyond the Master’s Degree, with a grade of 3.0 (B) or better, and completion of the Department Qualifying Examination at the PhD pass level. The degree candidate must also meet the residency requirements. There is no foreign language requirement.

The required courses for a PhD Degree (in addition to those for the MS Degree in physics) are as follows:

- PHYSCS 8640 Electrodynamics II (3)
- PHYSCS 8720 Quantum Mechanics II (3)
- Two graduate-level (>8000) courses in the student’s area of specialization (6)
- A graduate-level (>8000) course in an area other than the student’s area of specialization (3)

Additional graduate-level courses to make a total of 18 hours beyond the Master’s Degree are required. See the graduate courses in Physics and Astronomy for electives. In addition, students can choose selected 7000 and 8000 level courses in Mathematics, Chemistry, Biology and Engineering.
A student is required to have taken a minimum of three full years of graduate work beyond the Bachelor’s Degree. All acceptable graduate work, including one year’s residence for a Master’s Degree, is used to compute the three-year requirement for the PhD Degree. It is important to note that this is not a requirement for three calendar years of work, but rather a three-year’s equivalent of full time study. When this three-year residency requirement is satisfied, a student should have finished a minimum of 72 credit hours of graduate work. Within the three-year residence, each doctoral student must successfully complete at least two 12-hour semesters or three 8-hour semesters of graduate level program within a period of 18 calendar months. During this period, the student must be fully involved in academic pursuit, be it study, teaching, or research. This period of full-time reading, reflection, study, teaching, and research is considered necessary to give the student’s program continuity and to fulfill the spirit and special demands of the doctoral program.

A student who is a graduate assistant, or who is engaged in other activities that reduce the time available for graduate study, may need more than the anticipated time to meet course and dissertation requirements. Nonetheless, a reasonable rate of progress is required. A PhD student must successfully complete the comprehensive examination within a period of five years beginning with the first semester of enrollment as a PhD student. In addition, the program for the doctoral degree must be completed within five years of passing the comprehensive examination.

For an extension of this time, the student must, before the expiration of the normal period, petition the Office of Graduate Studies by submitting a request to the advisor who, in turn, submits a written recommendation to the Graduate Studies which has been endorsed by the departmental Director of Graduate Studies. An extension, if granted, may entail a revision of the candidate’s program to update course work and research.

Transfer of Credit

A student who has completed a master’s degree at the University of Missouri-Columbia or elsewhere may, upon recommendation of the advisor and approval by the departmental Director of Graduate Studies and the Office of Graduate Studies, transfer a maximum of 36 credit hours toward the total hours required for the doctoral degree. Transfer credit for doctoral students who do no have an earned master’s degree is limited to a maximum of 12 hours of graduate credit.

Degree Completion Requirements

In general, a PhD requires completion of a minimum of 18 hours beyond the master’s degree, with a grade of 3.0 (B) or better, and completion of the department qualifying examination at the PhD pass level. The degree candidate must also meet the residency requirement. For more details, please consult the department’s website or ask the director of graduate studies.

Plan of Study

The doctoral program committee guides the student in planning a program of study. The Chair of the Doctoral Program Committee, after conferring with the student and the Doctoral Program Committee, submits to the Graduate School a report, including a copy of the proposed course of study and any request for transfer of graduate credit. This plan of study will, when completed, • prepare the student for research in the chosen field of Physics or Astronomy,
• satisfy the credit-hour and residency requirements.

The student must substantially complete the course work outlined in the “Plan of Study for the Doctoral Degree” form (Form D2), to the satisfaction of the Doctoral Program Committee and the Dean before being considered for the Comprehensive Examination.

Comprehensive Examination

To be an official candidate, the student must pass the Doctoral Comprehensive Examination, which is based upon graduate coursework in the Department (PHYSCS 8610, PHYSCS 8620, PHYSCS 8660, PHYSCS 8710, PHYSCS 8720, and other optional courses). The student must be enrolled to take this examination. It is to be administered only when MU is officially in session. The major advisor applies to the Dean for the Doctoral Program Committee to administer the Comprehensive Examination when the doctoral student has
• passed the Qualifying Examination,
• substantially completed the planned course work, and
• completed two years of the residence requirement.

The Comprehensive Examination is the most advanced general exam posed by MU. It may consist of both written and oral sections. It must be completed at least seven months before the final Dissertation Defense. The two sections of the examination must be completed within one month.

The written segment of the Comprehensive Examination is arranged and supervised by the major advisor. It consists of either (1) written questions prepared and graded by members of the Doctoral Program Committee, or (2) a research proposal on the work to be done for the PhD. Normally, the student will have two weeks to answer eight questions. Upon satisfactory completion of the written examination (or research proposal), the student is then given an oral examination by the committee.

For the Comprehensive Examination to be successfully completed, all or all but one of the committee, must vote to pass the student on the entire examination, both written and oral. A report of this examination, as in the “Doctoral Comprehensive Examination Results Form” (Form D3), carrying the signatures of all members of the committee, must be sent to the Graduate School and the student no later than two weeks after the completion of the examination.

A failure of either the written or oral section of the examination constitutes failure of the comprehensive examination. If a failure is reported, the committee will include in the report an outline of the general weaknesses of deficiencies of the student’s work. The student and the committee will work together to identify steps the student might take to become fully prepared for the next examination. If at any time the student believes that the advice given by the committee is inadequate, the student may send a written request for clarification to the committee. A copy of this request should be sent to the Office of Graduate Studies as well. The committee must respond to this request in writing within two weeks and a copy must be filed with the Office of Graduate Studies. A student who fails may not take a second examination for 12 weeks. Failure to pass two Comprehensive Examinations automatically prevents candidacy.
Doctoral Candidacy and Continuous Enrollment

Candidacy for a doctoral degree is established by passing the comprehensive examination. Status as a continuous enrollment doctoral student begins the term after the term in which the comprehensive exam was successfully completed. Candidacy is maintained by enrolling in PHYSICS 9090 research for two semester hours each fall and winter semester and for one semester hour each summer session up to and including the term in which the dissertation is defended. Continuous enrollment provides access to an advisor’s support, doctoral program committee guidance and University research facilities for completion of the dissertation. Failure to continuously enroll in PHYSICS 9090 research until the doctoral degree is awarded terminates candidacy. Candidacy may be reestablished by paying the registration and late fees owed and completing the requirements specified by the student’s doctoral program committee. Registration fees owed may not exceed the amount owed for seven terms, regardless of the number of terms beyond seven for which the student failed to continuously enroll. The committee’s requirements may include a second comprehensive examination of evidence of currency in the research field as suggested by publications in refereed journals. Candidacy is reestablished when the student’s advisor and the departmental Director of Graduate Studies submit a written request to the Office of Graduate Studies explaining the basis of the decision. Once approved, a Request to Re-enroll form must be completed by the student and sent to the department for processing.

Dissertation and Defense

The dissertation must be written on a subject approved by the candidate’s Doctoral Program Committee, must embody the results of original and significant investigation, and must be the candidate’s own work. Candidates should consult the Graduate Studies’ Theses and Dissertations Guidelines.

All dissertation defenses shall be open to all Physics and Astronomy faculty and graduate students. Dissertation defense dates should be publicly announced in advance. The candidate must be enrolled to defend the dissertation, which is administered when MU is officially in session. A report of the dissertation defense form (Form D4), carrying the signatures of all members of the committee, is sent to the Graduate School before the deadline preceding the anticipated date of graduation. For the dissertation to be successfully defended, the student’s doctoral committee must vote to pass the student on the defense with no more than one dissenting or abstaining vote.

Graduate Certificate in Teaching High School Physics

Through this project, participants gain an expanded range of leadership expertise, content knowledge and pedagogical proficiency to share with others, as they become resources and catalysts for reform in science education at the secondary and post-secondary institutional levels. Ultimately, the overall goal is a significant increase in student achievement in science and science coursework.

For more information please visit the A TIME for Physics First website: http://www.physicsfirstmo.org/# or contact the Department of Physics by calling 573-882-7997 or emailing hillsar@missouri.edu

Federal Gainful Employment disclosure information for this Graduate Certificate is available at https://gradstudies.missouri.edu/fged/40.0801-Gedt-Teaching_Physics.html.

Political Science

Moises E. Arce, Chair
College of Arts and Science
113 Professional Building
(573) 882-2843
arcem@missouri.edu

Political science is concerned with government, politics and public policies. In political science courses, students learn how government operates and how to analyze and evaluate public policies and political ideas. This training can help students be more effective as active citizens, as political leaders and as government administrators.

Many political science graduates attend law school or graduate school in political science, public administration, business administration, the social sciences, and other subjects. Others are employed in governmental or political jobs as legislative assistants, military officers or lobbyists, and more go into business or private employment. Many public officials and government administrators have political science degrees.

Courses in political science help students learn to think critically, analyze complex material and communicate effectively. Political science classes require extensive writing assignments, and majors are given many opportunities to hone their writing skills.

The department offers BA, MA and PhD degrees with majors in Political Science.

Faculty

Affiliate Professors: C. N. Conklin*, L. R. Keiser*, J. D. Milyo*, M. A. Stegmaier*

** Graduate Faculty Member - membership is required to teach graduate-level courses, chair master’s thesis committees, and serve on doctoral examination and dissertation committees.

** Doctoral Faculty Member - membership is required to chair doctoral examination or dissertation committees. Graduate faculty membership is a prerequisite for Doctoral faculty membership.

Undergraduate

- BA in Political Science (p. 280)
  - with emphasis in Pre-Law (p. 282)
- Minor in Political Science (p. 284)

Departmental Requirements

Students complete a graduation plan, usually at the end of the sophomore year or beginning of the junior year. They should prepare for political science courses by completing university (p. 30) and College of Arts and Science foundation requirements, including university general education (p. 31).
Students must complete the following classes with letter grades in the C range or better to file a graduation plan:

- POL_SC 1100 or an equivalent course
- ENGLSH 1000 or an equivalent course
- MATH 1050 or MATH 1100
- An approved statistics or mathematics course: STAT 1200, STAT 2200, STAT 2500, MATH 1300, MATH 1400, MATH 1500, or MATH 1700
- An approved department research methods course: POL_SC 3000 or POL_SC 3000W

Students are required to complete 30 credits in political science. Fifteen of the 30 must be numbered 4000 or above.

**Internships**

The Political Science Department offers internship course credit for work in a variety of governmental settings, including work with state legislators, administrative agencies, lobbyists, members of Congress, statewide elected officials, and state political parties. Seniors in good standing with a GPA of 2.67 and juniors in good standing with a GPA of 3.0 who have completed appropriate coursework are eligible to apply. No more than 3 internship credit hours may be included in the 30 hours required for the major.

**Departmental Honors**

Students who have honors eligibility and a 3.5 GPA may enter the departmental honors program. Students who successfully complete a senior honors paper with a letter grade in the “B” range or better will have the phrase “with Honors in Political Science” added to their diplomas. Each year many political science honors students are selected for Phi Beta Kappa, Mortar Board, Golden Key and other scholastic honoraries.

Students who plan to enter graduate school are encouraged to enter the departmental honors program and to speak with a faculty member early in their academic career. Some areas of graduate study require significant preparation in language, statistics and methodology.

**Graduate**

- MA in Political Science (p. 284)
  - with emphasis in Public Policy (p. 284)
- PhD in Political Science (p. 284)

**College of Arts and Science**

113 Professional Building

(573) 882-2062

gradpolsci@missouri.edu

http://politicalscience.missouri.edu/

**Director of Graduate Studies:** Laron Williams

The department emphasizes both quality teaching and research. Several faculty members have received awards and prizes for teaching excellence and innovative research. The department aims to train people as experts in the study of politics and government, while encouraging students to acquire a sufficient background in other disciplines to enable them to correlate their specialized knowledge with all aspects of modern life.

**Careers**

The MA can serve multiple career goals: community-college teaching, continuation of studies to the PhD, entrance into and advancement in public service, or acquisition of skills for a position in the private sector.

Alumni with PhDS have received teaching appointments at public and private colleges as well as positions of responsibility in state and national government in the United States and in many foreign countries. In recent years, an average of five students a year entered the PhD job market. Approximately eighty percent of the PhD graduates became college teachers. Most of the remainder went into public service and a few into the private sector. Six departmental alumni have become college presidents.

**Financial Aid from the Program**

Applications for admission and financial aid are considered on the basis of the entire packet submitted. Students may apply for departmental teaching and research assistantships and fellowships, as well as university scholarships and fellowships. Many of our students are supported by departmental assistantships providing a stipend and course tuition waivers. Consult the program website or ask the program contact for details.

**Satisfactory Progress**

A graduate student must maintain a minimum 3.0 GPA after the first semester of graduate study and a 3.4 cumulative GPA in all subsequent semesters. A student should complete and pass required courses, activities, and examinations on schedule. The student’s advisor and the director of graduate studies will monitor and provide an annual assessment of a student’s progress. Failure to maintain satisfactory progress can have serious consequences, including dismissal from the program.

**BA in Political Science**

**Degree Program Description**

Political science is concerned with government, politics and public policies. In political science students learn how government operates and how to analyze and evaluate public policies and political ideas. This training can help students be more effective as active citizens, as political leaders and as government administrators. The curriculum offers opportunities to link academic study with internships and study abroad. Political Science graduates pursue many careers, some related to politics, but many others pursue other paths in a wide variety of areas such as: law, business and finance, consulting, government, public relations, media, advertising, lobbying, and international relations.

**Major Program Requirements**

Students must complete the University of Missouri’s general education requirements. University graduation requirements (p. 30) and the Departmental Requirements (p. 279), in addition to the degree requirements below.

**All majors must take:**

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>POL_SC 1100</td>
<td>American Government</td>
</tr>
<tr>
<td>POL_SC 3000</td>
<td>Introduction to Political Research - Writing Intensive</td>
</tr>
</tbody>
</table>
*Beginning in Spring 2020, students may take either POL_SC 2500 or POL_SC 3000W to meet the departmental research methods requirement.

### Comparative government (at least one course required)

- **POL_SC 2600** Canadian Politics and Government
- **POL_SC 2700** Comparative Political Systems
- **POL_SC 2720** European Democracies
- **POL_SC 4600** Latin American Politics
- **POL_SC 4610** European Political Systems
- **POL_SC 4630** The Politics of Modern Europe
- **POL_SC 4640** African Politics
- **POL_SC 4660** Canada in North America
- **POL_SC 4670** The Political System of the European Union
- **POL_SC 4680** Chinese Politics and Foreign Policy
- **POL_SC 4690** North and South Korea
- **POL_SC 4695** Understanding Korea Through Film
- **POL_SC 4700** America's Wars in Asia/War and Peace in Asia
- **POL_SC 4710** Terrorism: Religious, Ethnic and Ideological Politics
- **POL_SC 4720** Politics of Development
- **POL_SC 4730** Women and Politics
- **POL_SC 4750** Power and Money
- **POL_SC 4770** Comparative Political Behavior
- **POL_SC 4780** Dictatorship and Democracy
- **POL_SC 4790** The Age of Democratization?

### International affairs (at least one course required)

- **POL_SC 1400** International Relations
- **POL_SC 4410** Politics and War
- **POL_SC 4411** Genocide, Terrorism and Civil War
- **POL_SC 4412** Strategy and Warfare
- **POL_SC 4413** Politics of Cyber-Security
- **POL_SC 4415** Peacekeeping and Intervention
- **POL_SC 4420** Politics of International Economic Relations
- **POL_SC 4430** Global Human Rights
- **POL_SC 4440** International Organization
- **POL_SC 4540** American Foreign Policies
- **POL_SC 4540W** American Foreign Policies - Writing Intensive
- **POL_SC 4550** Environmental Conflict

### Political theory/methodology (one course highly recommended, but not required)

- **POL_SC 2800** Liberty, Justice and the Common Good
- **POL_SC 4000** Introductory Statistics for Political Science
- **POL_SC 4010** Computing Methods
- **POL_SC 4800** Classical Political Theory
- **POL_SC 4810** Modern Political Theory
- **POL_SC 4840** Developing Dynamics of Democracy
- **POL_SC 4850** Scots and the Making of America
- **POL_SC 4850H** Scots and the Making of America - Honors
- **POL_SC 4900** Beltway History and Politics: American Constitutional Democracy in Theory and Practice

### American politics/public policy (at least two courses required)

- **POL_SC 2100** State Government
- **POL_SC 2250** Missouri Politics
- **POL_SC 2200** The Judicial Process
- **POL_SC 2425** Race and the American Story
- **POL_SC 2450** The Intellectual World of the American Founders
- **POL_SC 2450H** The Intellectual World of the American Founders - Honors
- **POL_SC 2455** Constitutional Debates
- **POL_SC 2455H** Constitutional Debates - Honors
- **POL_SC 2860** American Political Thought
- **POL_SC 4100** Political Parties and Election Campaigns
- **POL_SC 4110** Political Behavior
- **POL_SC 4120** Politics and the Media
- **POL_SC 4120W** Politics and the Media - Writing Intensive
- **POL_SC 4130** African-American Politics
- **POL_SC 4131** Race and Politics
- **POL_SC 4132** Race, Immigration, and Urban Politics
- **POL_SC 4140** Congress and Legislative Policy
- **POL_SC 4150** The American Presidency
- **POL_SC 4150W** The American Presidency - Writing Intensive
- **POL_SC 4160** Interest Groups
- **POL_SC 4160W** Interest Groups - Writing Intensive
- **POL_SC 4170** Politics of the American South
- **POL_SC 4180** Politics and Hollywood
- **POL_SC 4180W** Politics and Hollywood - Writing Intensive
- **POL_SC 4190** Elections and Democracy in the United States
- **POL_SC 4200** The American Constitution
- **POL_SC 4200W** The American Constitution - Writing Intensive
- **POL_SC 4210** Constitutional Rights
- **POL_SC 4210W** Constitutional Rights - Writing Intensive
- **POL_SC 4220** The United States Supreme Court
- **POL_SC 4230** Constitution and Civil Liberties
- **POL_SC 4320W** Public Policy - Writing Intensive
- **POL_SC 4310** Comparative State Politics
- **POL_SC 4320** Public Policy
- **POL_SC 4370** The Administrative State, Public Policy and Constitutional Democracy
- **POL_SC 4380** Politics of Criminal Justice
- **POL_SC 4390** United States Health Politics and Policy
- **POL_SC 4830** Democracy in America (and Elsewhere)

### Options

For students who want to concentrate on a specific area, suggestions for a course of study are available from the academic advisor. These include:

- Government service for students who want to become government administrators
- Public information and reporting for students who plan to be governmental press secretaries, public information specialists, interest group lobbyists or government reporters
- International relations for students who want to work for multinational corporations or international agencies

* Course meets University general education and/or campus graduation requirements

**BA in Political Science with Emphasis in Pre-Law**

**Degree Program Description**

Political science is concerned with government, politics and public policies. In political science students learn how government operates and how to analyze and evaluate public policies and political ideas. This training can help students be more effective as active citizens, as political leaders and as government administrators. The curriculum offers opportunities to link academic study with internships and study abroad. Political Science graduates pursue many careers, some related to politics, but many others pursue other paths in a wide variety of areas such as: law, business and finance, consulting, government, public relations, media, advertising, lobbying, and international relations.

The political science emphasis in pre-law is recommended for those who may want to enter law school or to prepare for paralegal careers. It is designed to introduce students to the study of law and judicial process and also provides a general orientation for law school. This program is ideal for those seeking careers in intelligence or law enforcement.

**Major Program Requirements**

Students must complete the University of Missouri’s general education requirements (p. 31), University graduation requirements (p. 30) and the Departmental Requirements (p. 279), in addition to the degree requirements below.

Minor in Political Science

To earn a minor in political science, students must complete 15 credits, including the following:

- **POL_SC 1100**, American Government (3) or an equivalent course
- Additional political science courses totaling 12 credits with at least 6 at the 4000 level
- No more than 3 internship credits may be included and will not count as a 4000 level
- Nine credits must be in residence including 6 at the 4000 level
- A grade of C- or better is required of all political science classes in either a minor or a major with an overall GPA of 2.0 or greater
- Minor coursework cannot also be used for Foreign Language Alternative
- A minor must be completed and awarded at the same time as the MU undergraduate degree
- Once an A&S minor is awarded, a student cannot return to MU to complete a major in the same department

MA in Political Science

Admission Contact Information

Graduate Studies Office
113 Professional Bldg.
Columbia, MO 65211
(573) 882-2062
gradpolsci@missouri.edu

Admission Criteria

Admission into the MA program is determined by the graduate committee’s consideration of the applicant’s academic record, personal statement, letters of recommendation, and the GRE general test.

Fall deadline: December 15

- Minimum TOEFL scores for international applicants: 89
- Minimum GPA: 3.0 overall, in last 60 hours, and in political science courses.
- 12 hours of upper-division course work in political science is recommended.
- An undergraduate major in an area other than political science may be acceptable.

Required Application Materials

- Office of Graduate School online application
- One to two page statement of purpose, describing interests and goals in graduate study in Political Science
- Three letters of recommendation
- Unofficial transcripts from all universities from which degrees were earned (official transcripts required upon admission)
- Official results from the Graduate Record Examination (GRE)
- Academic writing sample
- Test of English as a Foreign Language (TOEFL) scores (for international students)

MA Degree Completion Requirements

All MA students must complete POL_SC 7000, POL_SC 7010, and POL_SC 9030. Each candidate must take one graduate seminar (8000 level or above) in each of two fields. Fields include: American political institutions and behavior, comparative politics and government, international relations, and public policy and administration.

The master’s degree program culminates in a comprehensive oral examination and defense of the research project. The Master of Arts degree may be earned by completing either the thesis or the non-thesis program.

Thesis Option

Students wishing to advance from the master’s program to the PhD program at MU must take the thesis option. The thesis program requires 30 hours of academic credit (at least 18 in 8000-level or above Political Science seminars) and an acceptable thesis for which up to six semester hours of credit must be earned (POL_SC 8090).

Non-Thesis Option

The non-thesis program is a 30-hour generalist master of arts. It requires a student to take at least 30 hours of academic credit (at least 18 in 8000-level or above Political Science seminars) and to write a master’s paper for which up to three hours of credit must be earned (POL_SC 8085).

Satisfactory Progress

A master’s student should maintain a minimum 3.0 GPA after the first semester and a 3.4 cumulative GPA in subsequent semesters. The MA program must be completed within five years of the first semester of enrollment. Most students complete the master’s program within two years.

MA in Political Science with Emphasis in Public Policy

The Department of Political Science is no longer accepting applications to the MA with emphasis in Public Policy degree program. We are accepting applications to the MA in Political Science program (p. 284).

PhD in Political Science

Admission Contact Information

Graduate Studies Office
113 Professional Bldg.
Admission

Admission into the PhD program is determined by the graduate studies committee’s consideration of the applicant’s academic record, personal statement, letters of recommendation, and the GRE.

Admission Criteria

Fall deadline: December 15

- Minimum TOEFL score for international students: 89
- Minimum GPA: 3.0 overall, in last 60 hours, and in political science courses
- 12 hours of upper-division course work in political science is recommended.

Required Application Materials

- Office of Graduate School online application
- One to two page statement of purpose, describing interests and goals in graduate study in Political Science
- Three letters of recommendation
- Unofficial transcripts from all universities from which degrees were earned (official transcripts required upon admission)
- Official results from the Graduate Record Examination (GRE)
- Academic writing sample
- Test of English as a Foreign Language (TOEFL) scores (for international students)

PhD Degree Completion Requirements

A student’s doctoral program must include at least 45 hours of graduate seminars, exclusive of comprehensive exams and dissertation research. At the discretion of the student’s doctoral program committee, up to 30 hours of an MA program may be included in the PhD program.

Plan of Study

Students choose a primary and secondary field from the four doctoral fields: American political institutions and behavior, comparative politics and government, international relations, and public policy and administration.

Graduate courses must include:

- A minimum of 12 seminar hours in the primary (research) field
- A minimum of nine seminar hours in a secondary field supporting the primary field
- A minimum of 13 hours in a methodology or research tool field. Required courses include POL_SC 7000, POL_SC 7010, and POL_SC 9030.
- The remaining six hours in the methodology field may be in advanced formal or quantitative methods, advanced foreign language, or a combination of the two.

Besides completing the necessary course work, the candidate must demonstrate the capacity to use a research tool (such as a foreign language or statistics), should obtain some teaching experience in political science (for academic careers), must pass written and oral comprehensive examinations, must submit and defend a dissertation proposal, and must submit and defend a dissertation.

Length of Study

All required courses and the comprehensive examination must be completed within five years of the first semester in the graduate program. The dissertation must be completed and defended within five years of passing the comprehensive examination.

The PhD usually requires five years full time or the equivalent in part-time work beyond the bachelor’s degree and four years beyond the master’s degree. Full-time students (including teaching and research assistants) must carry a minimum of nine credit hours of courses per semester (except for students conducting dissertation research).

Timeline

The first five semesters of doctoral study typically include course work and preparation for the comprehensive examinations. Comprehensive exams (POL_SC 9970) are typically taken in the spring of the third year. A proposal for dissertation research is defended within a few months of the comprehensive exams. The remaining time is devoted to dissertation research (POL_SC 9090).

Satisfactory Progress

A doctoral student must maintain a minimum 3.0 GPA after the first semester and a 3.4 cumulative GPA in subsequent semesters. Comprehensive exams and dissertation proposal must be completed within a timely fashion. Most students complete the doctoral program within five years.

Psychology

Dr. Jamie Amdt
College of Arts and Science
210 McAlester Hall
(573) 882-6860
http://psychology.missouri.edu

The faculty and staff of the Department of Psychological Sciences are committed to providing students with a high quality, broadly-based undergraduate education. Understanding that undergraduate students use the psychology major as preparation for a variety of postbaccalaureate experiences, the department is dedicated to offering a wide range of courses and services to students. While some students are interested in pursuing psychology-related interests in graduate school, most are interested in pursuing careers after graduating with a Bachelor of Arts (BA).

Regardless of a student’s ultimate goals, faculty members believe that students will be best served by completing a rigorous research-oriented program of study. Therefore, students should expect instructors to take a scientific approach to the psychological content of each course.

The department offers the BA and BS degrees with a major in Psychology, and the MA and PhD degrees with an emphasis in Clinical Psychology, Cognition & Neuroscience, Developmental Psychology, Quantitative Psychology, and Social & Personality Psychology. A minor in Quantitative Methods is also available.
Faculty

Assistant Professor J. Craggs**, A. Groh**
Assistant Research Professor J. Bohanek
Clinical Professor N. Presser*
Associate Clinical Professor M. Klein-Trull*, S. O'Neil*, J. Skinner*, E. Waller*
Associate Teaching Professor I. Segert*
Assistant Teaching Professor L. Bauer*, E. Naveh-Benjamin, M. Skaggs Sheldon,
Professor Emeritus W. Anderson, B. Biddle, R. Geen, J. LoPiccolo, D. Wright
* Graduate Faculty Member - membership is required to teach graduate-level courses, chair master's thesis committees, and serve on doctoral examination and dissertation committees.
** Doctoral Faculty Member - membership is required to chair doctoral examination or dissertation committees. Graduate faculty membership is a prerequisite for Doctoral faculty membership.

Undergraduate

• BA in Psychology (p. 286)
• BS in Psychology (p. 288)
• Minor in Psychology (p. 292)

Graduate

• MA in Psychology (p. 292)
  • emphasis in Child Development and Developmental Psychology (p. 292) *
  • emphasis in Clinical Psychology (p. 292) *
  • emphasis in Cognition and Neuroscience (p. 292) *
  • emphasis in Developmental Psychology (p. 293) *
  • emphasis in Quantitative Psychometrics (p. 293)
  • emphasis in Social/Personality Psychology (p. 293) *
• PhD in Psychology (p. 293)
  • emphasis in Child Clinical and Developmental Psychology (p. 294)
  • emphasis in Clinical and Quantitative Psychology (p. 294)
  • emphasis in Clinical Psychology (p. 294)
  • emphasis in Cognition and Neuroscience (p. 295)
  • emphasis in Developmental Psychology (p. 295)
  • emphasis in Quantitative Psychology (p. 295)
  • emphasis in Social/Personality Psychology (p. 296) *

* Please refer to the corresponding PhD programs for the MA emphasis areas indicated above. Students are only accepted for the PhD in Psychology and the MA is earned as a secondary degree en route to the PhD.

More Information about Emphasis Areas

These programs and others are more fully described at the departmental website at http://psychology.missouri.edu.

Dual Emphases: Child Clinical and Developmental Psychology

Students in the Dual Emphasis Program pursue a graduate degree with training in both clinical (child track) and developmental psychology. Students in this program are involved in training that bridges the two areas of developmental psychology and child-clinical psychology.

Dual Emphases: Clinical and Quantitative Psychology

Students in the Dual Emphasis Program pursue a graduate degree with training in both clinical and quantitative psychology. Students in this program are involved in training that bridges the two training areas. This program provides intensive training in the area of quantitative psychology with the added benefit of training in the research and practice of clinical psychology.

For more information on dual emphases degrees: https://psychology.missouri.edu/area/dual-degree-clinical-and-developmental-psychology

BA in Psychology

Degree Program Description

The study of Psychology aims to understand the mind, behavior, and mental health. The Bachelor of Arts in Psychology (BA) degree is for students interested in studying human behavior in preparation for either employment after completion of the undergraduate psychology degree, or in preparation for applied psychology and other related graduate programs (e.g., counseling, social work, management). Regardless of a student’s ultimate goals, our faculty members believe that students will be best served by completing a rigorous research-oriented program of study. Therefore, students should expect their instructors to take a scientific approach to the particular psychological content of each course. Psychology majors work in diverse fields such as community and social services, human resources, management and business, health care, student affairs and services, law enforcement, education, and scientific research.
Major Core Requirements

• The psychology major requires 30 credit hours in psychology coursework.

• All courses that count toward the psychology major requirements must be completed with a grade of C or better. Grades of C- or below will not be accepted. This includes STAT 1200 or its equivalent (a required course for all psychology majors).

• Students must complete MATH 1050 or MATH 1100 and STAT 1200 and PSYCH 3010, before PSYCH 3020, before the capstone lab. We make no exceptions to the research methods sequence requirements.

• Students must complete at least two psychology courses numbered 4000 or above. The Psychology capstone lab will meet one of these 4000-level courses.

• Students must complete at least one psychology course numbered 3000 or above that is designated Writing Intensive. The psychology capstone lab will meet the WI requirement if completed during the fall or spring semesters. Capstones are not WI in the summer sessions.

• No more than 43 psychology credits may count toward the required 120 credits to graduate. Students enrolled in the two-semester Honors Capstone only may use up to 49 psychology credits toward graduation.

• Students may use no more than 12 hours of Special Problems Courses, Special Readings Courses, or Internship Courses (PSYCH 2950, PSYCH 4940, PSYCH 4950 & PSYCH 4960 toward graduation. Within the 12 hours, no more than 9 hours may be Special Problems Courses, (i.e., psychology research credit hours). A student may complete either 6 hours of PSYCH 2950 and 3 hours of PSYCH 4950, or they may complete 3 hours of PSYCH 2950 and 6 hours of PSYCH 4950.

• Psych majors may have up to a total of 6 hours of PSYCH 4940.

Distribution Areas

Psychology majors are required to complete four distribution courses -- two courses in each of two distribution areas. This ensures that students will have exposure to a wide range of psychological theory and research. In addition, students choose two additional Psychology courses to receive further education according to their interests. Although the distribution areas are presented below as distinct areas of study, a great deal of overlap exists among them. Students should understand the ways in which the various areas complement one another and gain the ability to integrate information learned in the different areas.

Cognitive/Neuroscience Distribution

This distribution area studies the mechanisms of the mind and how they are altered by experience. It also examines the biological basis of the behavior of humans and animals. Courses in this distribution area include:

<table>

</tr>
</tbody>
</table>

Note: A student may not receive credit for PSYCH 2210 if it is completed after PSYCH 4210.

Clinical/Social/Developmental Distribution

This distribution area studies the nature and causes of individuals' thoughts, feelings and behavior in social situations. It analyzes the cultural and biological influences on age-related changes in cognition, emotion, and social behavior that take place throughout an individual's lifespan. It focuses on scientific study of the causes of mental disorders as well as methods for assessing and alleviating mental health problems. It also is concerned with the study of mental health and wellness, including strategies for preventing the development of mental disorders. Courses in this distribution area include:

<table>
<thead>
<tr>

Note: Due to overlap in content, a student may not receive credit for both PSYCH 3350 AND ESC_PS 4200.

**Psychology Electives (2000-level) 6 credit hours**

Students must complete two psychology elective courses numbered 2000 or above, excluding Special Problems/Readings (i.e., PSYCH 2950, PSYCH 4950, PSYCH 4960), Internship PSYCH 4940, and Capstone Labs.

### Degree Program Description

The study of Psychology aims to understand the mind, behavior, and mental health. The Bachelor of Science in Psychology (BS) degree is for students interested in a more science-oriented curriculum to better prepare them for further study in science-oriented psychology graduate programs (e.g., neuroscience, quantitative psychology), or medical school (e.g., Doctor of Medicine/MD, psychiatry), or other health-related graduate programs (e.g., pharmacy, physical therapy). The required science track is not noted on the BS diploma or transcripts, but students can indicate the science track on resumes and/or graduate school application forms. Regardless of a student’s ultimate goals, our faculty members believe that students will be best served by completing a...
rigorous research-oriented program of study. Therefore, students should expect their instructors to take a scientific approach to the particular psychological content of each course. While most psychology majors plan to find employment upon graduation with the undergraduate psychology degree, some psychology majors plan to pursue further study in psychology-related graduate or professional programs. Psychology majors work in diverse fields such as community and social services, human resources, management and business, health care, student affairs and services, law enforcement, education, and scientific research.

Major Program Requirements

To graduate with a Bachelor of Science in Psychology from the College of Arts and Science, a student must complete all degree, college and university graduation requirements (p. 30), including university general education (p. 31) as well as all degree and college or school requirements. Students are reminded to check the Undergraduate Catalog for course descriptions and prerequisite information.

Major Core Requirements

- The psychology major requires 30 credit hours in psychology coursework.
- All courses that count toward the psychology major requirements must be completed with a grade of C or better. Grades of C- or below will not be accepted. This includes STAT 2500 and the required science track. The statistics requirement is fulfilled by taking either (a) STAT 1200 and STAT 2200 or (b) STAT 2500, or (c) STAT 1400 and STAT 2200.
- Students must complete MATH 1100 and STAT 1200. Students taking STAT 2500 must complete an additional pre-requisite math course of MATH 1300, MATH 1400 or MATH 1500.
- Students must complete STAT 1200 or STAT 2500 before or during the same semester as PSYCH 3010.
- Students must complete PSYCH 3010 before PSYCH 3020 which must be completed before the Psych Capstone Lab course. We do not make exceptions to the research methods sequence requirements.
- Students must complete at least two psychology courses numbered 4000 or above. The Psychology Capstone Lab will meet one of these 4000-level courses.
- Students must complete at least one psychology course numbered 3000 or above that is designated Writing Intensive (WI). The Psychology Capstone Lab will meet the WI requirement if completed during the fall or spring semesters. Capstones are not WI in the summer sessions.
- Students may use no more than 12 hours of Special Problems Courses, Special Readings Courses, or Internship Courses (PSYCH 2950, PSYCH 4940, PSYCH 4950, & PSYCH 4960) toward graduation. Within the 12 hours, no more than 9 hours may be Special Problems Courses (i.e., psychology research credit hours). A student may complete either 6 hours of PSYCH 2950 and 3 hours of PSYCH 4950, or they may complete 3 hours of PSYCH 2950 and 6 hours of PSYCH 4950.
- Psych majors may have up to a total of 6 hours of PSYCH 4940.
- Other than the 12 hour limit of Special Problems Courses, Special Readings Courses, and Internship hours described above, there is no limit to the number of psychology credits that may count toward the required 120 credits to graduate with the Bachelor of Science.

Distribution Areas

Psychology majors are required to complete four distribution courses -- two courses in each of two distribution areas. This ensures that students will have exposure to a wide range of psychological theory and research. In addition, students choose two additional Psychology courses to receive further education according to their interests. Although the distribution areas are presented below as distinct areas of study, a great deal of overlap exists among them. Students should understand the ways in which the various areas complement one another and gain the ability to integrate information learned in the different areas.

Cognitive/Neuroscience Distribution

This distribution area studies the mechanisms of the mind and how they are altered by experience. It also examines the biological basis of the behavior of humans and animals. Courses in this distribution area include:

- PSYCH 2110 Learning, Memory, and Cognition 3
- PSYCH 2210 Mind, Brain, and Behavior 3
- PSYCH 2220 Drugs and Behavior 3
- PSYCH 2810 Human Sexuality 3
- PSYCH 3110 Theories of Learning 3
- PSYCH 3140 Cognitive Psychology 3
- PSYCH 3150 Human Memory 3
- PSYCH 3160 Perception and Thought 3
- PSYCH 3420 Cognitive Development in Childhood 3
- PSYCH 3830 Health Psychology 3
- PSYCH 3870 Sleep and Sleep Disorders 3
- PSYCH 4110 Perception 3
- PSYCH 4210 Physiological Psychology 3
- PSYCH 4240 Cognitive Neuroscience 3
- PSYCH 4440 Sex Differences 3
- PSYCH 4520 Behavior Genetics 3
- PSYCH 4570 Pediatric Neuropsychology 3

Note: A student may not receive credit for PSYCH 2210 if it is taken after PSYCH 4210.

Clinical/Social/Developmental Distribution

This distribution area studies the nature and causes of individuals’ thoughts, feelings and behavior in social situations. It analyzes the cultural and biological influences on age-related changes in cognition, emotion, and social behavior that take place throughout an individual’s
lifespan. It focuses on scientific study of the causes of mental disorders as well as methods for assessing and alleviating mental health problems. It also is concerned with the study of mental health and wellness, including strategies for preventing the development of mental disorders. Courses in this distribution area include:

- PSYCH 2310 Social Psychology 3
- PSYCH 2320 Introduction to Personality 3
- PSYCH 2410 Developmental Psychology 3
- PSYCH 2410H Developmental Psychology - Honors 3
- PSYCH 2510 Survey of Abnormal Psychology 3
- PSYCH 2820 Minds, Brains, and Machines 3
- PSYCH 2830 Human-Companion Animal Interaction 3
- PSYCH 3310 Intergroup Relations 3
- PSYCH 3350 Positive Psychology 3
- PSYCH 3370 The Science of Mindfulness 3
- PSYCH 3370W The Science of Mindfulness - Writing Intensive 3
- PSYCH 3420 Cognitive Development in Childhood 3
- PSYCH 3430 Social Development in Childhood 3
- PSYCH 3430W Social Development in Childhood - Writing Intensive 3
- PSYCH 3440 Women's Professional Development 3
- PSYCH 3440H Women's Professional Development - Honors 3
- PSYCH 3510 Introduction to Clinical Psychology 3
- PSYCH 3510W Introduction to Clinical Psychology - Writing Intensive 3
- PSYCH 3815 Cross-Cultural Psychology 3
- PSYCH 3815H Cross-Cultural Psychology - Honors 3
- PSYCH 3830 Health Psychology 3
- PSYCH 3840 Individual Differences 3
- PSYCH 4440 Sex Differences 3
- PSYCH 4520 Behavior Genetics 3
- PSYCH 4530 Research in Psychopathology 3
- PSYCH 4540 Emotional Disorders in Childhood and Adolescence 3
- PSYCH 4560 Schizophrenia 3
- PSYCH 4561 Psychosis and the Brain 3
- PSYCH 4570 Pediatric Neuropsychology 3
- PSYCH 4580 Externalizing Spectrum Disorders 3

Note: Due to overlap in course content, a student may not receive credit for both PSYCH 3350 and ESC_PS 4200.

Note: Due to the overlap in course content, a student may receive credit for only one of the following three courses: PSYCH 2410, H_D_FS 3420 or ESC_PS 2500.

### Psychology Electives (2000-level) 6 credit hours

Students must complete two psychology elective courses numbered 2000 or above, excluding Special Problems/Readings (i.e., PSYCH 2950, PSYCH 4950, PSYCH 4960), Internship PSYCH 4940, and Capstone Labs.

### Foreign Language Alternative for students pursuing a Bachelor of Science in Psychology

Students who are pursuing the Bachelor of Science in Psychology may opt to satisfy the foreign language requirement through approved alternative coursework consisting of at least 12 credits in courses numbered 2000 or above from any combination of the following subjects: Arabic, Chinese, French, German, Hebrew, Italian, Japanese, Korean, Portuguese, Russian, South Asian Studies, and/or Spanish. These courses may not be used to satisfy other degree requirements with the exception of the Writing Intensive requirement. Students should note that the option of a Foreign Language Alternative is applicable specifically to the Bachelor of Science in Psychology. The foreign language requirement for the Bachelor of Arts in Psychology is 12 to 13 hours of a single foreign language sequence.

### Approved Science Course Tracks

Psychology Bachelor of Science students must complete 12 credit hours of approved science coursework in one of the following five approved areas: Biological Sciences, Chemistry, Computer Science, Mathematics, or Statistics. Course grades must be a C or higher. No C- or lower will be accepted.

#### Biological Sciences Track

**Required Core: (5 hours)**

- BIO_SC 1500 Introduction to Biological Systems with Laboratory 5
  OR
- BIO_SC 1500H Introduction to Biological Systems with Laboratory Honors 5
  OR
- BIO_SC 1010 & BIO_SC 1020 General Principles and Concepts of Biology and General Biology Laboratory (with grades of A- or better) 5

**Additional Approved Coursework (at least 7 credit hours from the list below)**

- BIO_SC 2200 General Genetics 4
  OR
- BIO_SC 2200H General Genetics - Honors 4
- BIO_SC 2300 Introduction to Cell Biology 4
- BIO_SC 2300H Introduction to Cell Biology- Honors 4
- BIO_SC 2300HW Introduction to Cell Biology - Honors/ Writing Intensive 4
- BIO_SC 3400 Evolution and Ecology 3
- BIO_SC 3700 Animal Physiology 5
- BIO_SC 4500 Neurobiology 3
- BIO_SC 4600 Evolution 3
- BIO_SC 4640 Behavioral Biology 3-4
- BIO_SC 4986 Neurology of Motor Systems 3
- BIO_SC 4988 Nerve Cells and Behavior 3
- MPP 3202 Elements of Physiology 5

#### Chemistry Track

**Required Core: (6 to 8 hours)**

Prior to Fall Semester 2013: CHEM 1310 (2 hours) and CHEM 1320 or CHEM 1320H (3 hours) and CHEM 1330 or CHEM 1330H (3 hours)
### Mathematical Sciences Track

**Required Courses: (The Math Track requires 13 credit hours):**

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Name</th>
<th>Credit Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>MATH 1500</td>
<td>Analytic Geometry and Calculus I</td>

</tbody>
</table>

Note: Students completing this track must complete additional math courses to meet the pre-req's for STAT 4710. Students will complete MATH 1160 OR MATH 1100 and MATH 1140 and MATH 1500, MATH 1700 and MATH 2300 in sequence as prerequisites to STAT 4710.

### Semester Plan

Below is a sample plan of study, semester by semester. A student's actual plan may vary based on course choices where options are available. Psychology majors are required to earn a C or higher (no C- or below) in all Psychology courses, and all Science Track or Statistics Track or Computer Science Track courses to meet the pre-req's for STAT 4710. Students will complete MATH 1160 OR MATH 1100 and MATH 1140 and MATH 1500, MATH 1700 and MATH 2300 in sequence as prerequisites to STAT 4710.

Minors in Psychology

The psychology minor requires at least 15 credits, distributed as shown below.

<table>
<thead>
<tr>
<th>Course</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>PSYCH 1000 General Psychology</td>
<td>3</td>
</tr>
<tr>
<td>Four regularly-scheduled psychology courses (minimum of 12 hours)</td>
<td>12</td>
</tr>
</tbody>
</table>

At least two of these four courses must be regularly-scheduled on-campus or online psychology courses numbered 3000- or 4000-level. "Regularly-scheduled" includes all on-campus and online courses, except special problems courses (i.e., psychology research credit hours), which are PSYCH 4950 and PSYCH 4960.

Total Credits: 15

To earn the psychology minor, students must have at least a 2.00 GPA in the required courses. Students must receive a grade of "C" or better in all courses required for the minor. Grades of "C-" will not be accepted. Pass/fail graded courses will not be accepted except for approved study abroad coursework.

A total of 9 hours of transfer credit will be accepted toward the minor. Note: Psych 1000 AP credit is counted as transfer credit.

Only courses offered by the Department of Psychological Sciences are accepted toward the minor. Psychology-related course offerings from other departments (e.g., Human Development & Family Science, and Educational, School & Counseling Psychology, Social Work, Sociology) are not accepted toward the psychology minor.

Students can count applicable psychology minor coursework to meet general education foundation requirements.

A minor must be completed and awarded at the same time as the MU undergraduate degree – minors cannot be claimed after graduation.

Once a psychology minor is awarded, a student cannot return to MU to complete a second undergraduate major in psychology. Students cannot earn a major and a minor in psychology.

MA in Psychology

Our department is admitting students who are seeking a terminal master's degree only for our MA with an emphasis in Quantitative Psychometrics (p. 293).

All other students are only accepted for the PhD in psychology and the MA is earned as a secondary degree en route to the PhD.

Please see the admission criteria for our doctoral degree program.

Admission Contact Information
Graduate Student Services
gradpsych@missouri.edu

Columbia, MO 65211
(573) 884-8141
(573) 882-7710 (fax)

MA in Psychology with Emphasis in Child Development and Developmental Psychology

Please refer to the PhD program with an Emphasis in Child Development and Developmental Psychology (p. 294). Students are only accepted for the PhD in Psychology and the MA is earned as a secondary degree en route to the PhD.

Admissions
Please refer to the admission requirements for the PhD program with an Emphasis in Child Development and Developmental Psychology. Students are only accepted for the PhD in Psychology and the MA is earned as a secondary degree en route to the PhD.

MA in Psychology with Emphasis in Clinical Psychology

Please refer to the PhD program with an Emphasis in Clinical Psychology. Students are only accepted for the PhD in Psychology and the MA is earned as a secondary degree en route to the PhD.

Admissions
Please refer to the admission requirements for the PhD program with an Emphasis in Clinical Psychology. Students are accepted for the PhD in Psychology and the MA is earned as a secondary degree en route to the PhD.

MA in Psychology with Emphasis in Cognition and Neuroscience

Please refer to the PhD program with an Emphasis in Cognition and Neuroscience. Students are only accepted for the PhD in Psychology and the MA is earned as a secondary degree en route to the PhD.
Admissions
Please refer to the admission requirements for the PhD program with an Emphasis in Cognition and Neuroscience (p. 295). Students are only accepted for the PhD in Psychology and the MA is earned as a secondary degree en route to the PhD.

MA in Psychology with Emphasis in Developmental Psychology

Please refer to the PhD program with an Emphasis in Developmental Psychology (p. 295). Students are only accepted for the PhD in Psychology and the MA is earned as a secondary degree en route to the PhD.

Admissions
Please refer to the admission requirements for the PhD program with an Emphasis in Developmental Psychology (p. 295). Students are only accepted for the PhD in Psychology and the MA is earned as a secondary degree en route to the PhD.

MA in Psychology with Emphasis in Quantitative Psychometrics

A minimum of 35 hours of graduate-level courses is required for the M.A. in Psychology with an emphasis in Quantitative Psychometrics. Students must complete 30 hours of advanced study at the University of Missouri to receive the degree. This means that a maximum of six hours of graduate coursework taken elsewhere can count toward the master’s degree. Such transfer of credit must be recommended by the student's advisor and approved by the director of graduate studies.

Admissions
Applicants are required to meet two sets of minimum qualifications for admission: the requirements of the MA in Psychology program with an emphasis in Quantitative Psychometrics (https://gradstudies.missouri.edu/degreecategory/psychology) and the minimum requirements of the Office of Graduate Studies (https://gradstudies.missouri.edu/admissions/eligibility-process). Because requirements vary, you must refer to a degree program’s graduate admission page to learn about specific admission criteria, application deadlines, eligibility and application process. Before official admissions to the University of Missouri, your application materials will be reviewed by both the Office of Graduate Studies and the degree program to which you’ve applied.

MA in Psychology with Emphasis in Social/Personality Psychology

Please refer to the PhD program with an Emphasis in Social & Personality Psychology (p. 296). Students are only accepted for the PhD in Psychology and the MA is earned as a secondary degree en route to the PhD.

Admissions
Please refer to the admission requirements for the PhD program with an Emphasis in Social & Personality Psychology (p. 296). Students are only accepted for the PhD in Psychology and the MA is earned as a secondary degree en route to the PhD.

PhD in Psychology

Admission Contact Information
GraduateStudentServices
gradpsych@missouri.edu
210 McAlester Hall
Columbia, MO 65211
(573) 884-8141
(573) 882-7710 (fax)

Admission Criteria
Fall deadline: December 1
- Minimum GPA: 3.0
- Minimum GRE score: no minimum, subject test is strongly recommended
- Minimum TOEFL scores:
  - Internet-based test (iBT): 61 Effective July 1, 2015 must have score of 80
  - Paper-based test (PBT): 500 Effective July 1, 2015 must have score of 550
An interview is required for admission. Students earn an MA en route to the PhD, but we do not admit students seeking a terminal master’s degree.

Most students accepted have an undergraduate major in psychology or its equivalent. Acceptance is based on training, quality of work, recommendations, GRE scores and other information. For additional information on admission requirements, consult Graduate Study in Psychology and Associated Fields, published annually by the American Psychological Association and available in most libraries.

Required Application Materials
Note: Submit all application materials directly to the Office of Graduate Studies
- Graduate School online application including:
  - Faculty interest document (available at department website)
  - Statement of purpose
  - Writing sample
  - Three letters of recommendation
  - One unofficial copy of each college transcript where a degree was earned or is pending
  - Official GRE score report (subject test report recommended)
  - Official TOEFL score (if applicable)

PhD Degree Completion Requirements
The PhD qualifying examination requirement is satisfied by successful completion of the MA degree. A master’s degree with an empirical thesis is required for doctoral study. The master’s with thesis is typically completed as part of a student’s normal progress through the doctoral program.
Students with Degrees from Other Universities

Students who enter the doctoral program with a master's (thesis) degree from another university can satisfy the MA requirement at this university by having their thesis and course work approved by a three-member thesis committee. The committee must be composed of one faculty member from the student’s training area, one faculty member from another training area, and one MU faculty member from outside the department. Those entering the department with a master’s degree obtained without an empirical thesis may meet this requirement by conducting an investigation under the supervision of their advisor and having the resulting thesis approved by a three-member committee with the composition identified above.

Plan of Study

General requirements for the PhD include nine hours of distribution courses, 11 hours in statistics, 24 hours in the area of concentration, other elective courses, and research. Students must earn 83 hours to graduate with the PhD. Practica, internship and additional course work are required for the clinical program. Other requirements include a dissertation and comprehensive and final oral examinations. More detailed information about the rules and regulations for degree completion can be found in the Department of Psychological Sciences Graduate Student Handbook.

Financial Aid from the Program

Financial aid is available through departmental research and teaching assistantships and from university fellowships.

PhD in Psychology with Emphasis in Child Clinical and Developmental Psychology

Students in the Dual Emphasis Program pursue a graduate degree with training in both clinical (child track) and developmental psychology. This program provides training in the area of developmental psychopathology, which bridges the two areas of developmental psychology and child-clinical psychology. To pursue the joint program, students must be officially admitted into both the clinical and developmental training areas within the Department of Psychological Sciences and complete the requirements for both areas. Students should initially apply and be admitted to just one training area, either the clinical or developmental area. Once they have successfully completed the first year in that training area, they may apply to the second area.

Admissions

Applicants are required to meet two sets of minimum qualifications for admission: the requirements of the PhD in Psychology program (https://gradstudies.missouri.edu/degreecategory/psychology) and the minimum requirements of the Office of Graduate Studies (http://gradstudies.missouri.edu/admissions/eligibility-process/minimum-requirements.php). Because requirements vary, you must refer to a degree program's graduate admission page to learn about specific admission criteria, application deadlines, eligibility and application process. Before official admissions to the University of Missouri, your application materials will be reviewed by both the Office of Graduate Studies and the degree program to which you’ve applied before official admission to the University of Missouri.

PhD in Psychology with Emphasis in Clinical and Quantitative Psychology

Students in the Dual Emphasis Program pursue a graduate degree with training in both clinical and quantitative psychology. This program bridges the two training areas, combining intensive training in the area of quantitative psychology with the added benefit of intensive training in the research and practice of clinical psychology. To pursue the joint program, students must be officially admitted into both the clinical and quantitative training areas within the Department of Psychological Sciences and complete the requirements for both areas.

Admissions

Applicants are required to meet two sets of minimum qualifications for admission: the requirements of the PhD in Psychology program (https://gradstudies.missouri.edu/degreecategory/psychology) and the minimum requirements of the Office of Graduate Studies (http://gradstudies.missouri.edu/admissions/eligibility-process/minimum-requirements.php). Because requirements vary, you must refer to a degree program's graduate admission page to learn about specific admission criteria, application deadlines, eligibility and application process. Before official admissions to the University of Missouri, your application materials will be reviewed by both the Office of Graduate Studies and the degree program to which you’ve applied.

PhD in Psychology with Emphasis in Clinical Psychology

The Clinical Psychology program is accredited by the American Psychological Association and by the Psychological Clinical Science Accreditation System, and is a member of the Academy of Psychological Clinical Science. The Clinical program follows a clinical science model of training. Central to this model is a commitment:

1. to using an empirical approach to understand, ameliorate, and prevent human problems in behavior, affect, cognition, and health;
2. to promoting adaptive human functioning; and
3. to disseminating and applying knowledge in ways consistent with scientific evidence.

The Clinical program prepares students for careers involving production, dissemination and support of clinical science research. Clinical faculty and students are active in research and scholarship that advances understanding of the symptoms, causes, course, treatment, and prevention of many of our nation’s most distressing and impairing mental/behavioral health issues (e.g., addictions, anxiety, developmental disorders, juvenile delinquency, mood instability and disorders, schizophrenia) in youth and adults. Students work primarily with core clinical faculty, but may also collaborate with researchers throughout the department and in other campus and community units (e.g., health psychology, Psychiatry, engineering, Thompson Center for Autism and Developmental Disabilities, Fulton State Hospital, Psychological Services Clinic).
Students also develop clinical skills in empirically supported approaches to assessment, prevention and intervention. The Clinical program maintains its own community-based outpatient clinic (the Psychological Services Clinic or PSC) as the primary practicum training site for students in the clinical program. The PSC is staffed by doctoral-level clinical psychologists and clinical graduate students, and it serves a broad range of clients through individual, couple, family, and group assessment and therapy services. The PSC also offers training in specialty services through its Dialectical Behavior Therapy program, Strategies Targeting Alcohol Responsibility program, and MU Center for Evidence-Based Youth Mental Health and MultiSystemic Therapy program. Additional clinical experiences are available through paid or volunteer positions at institutions such as Fulton State Hospital, University Hospitals and Clinics, and the Thompson Center.

Admissions

Applicants are required to meet two sets of minimum qualifications for admission: the requirements of the PhD in Psychology program (https://gradstudies.missouri.edu/degreecategory/psychology) and the minimum requirements of the Office of Graduate Studies (http://gradstudies.missouri.edu/admissions/eligibility-process/minimum-requirements.php). Because requirements vary, you must refer to a degree program’s graduate admission page to learn about specific admission criteria, application deadlines, eligibility and application process. Before official admissions to the University of Missouri, your application materials will be reviewed by both the Office of Graduate Studies and the degree program to which you’ve applied.

PhD in Psychology with Emphasis in Developmental Psychology

Developmental psychology is the scientific study of social, cognitive, and physical development over time. The Developmental Psychology doctoral program offers a strong background in statistics and research methodology and intensive research mentoring. Graduate students engage in research with their primary advisor beginning in their first semester in the program and take supporting coursework.

Admissions

Applicants are required to meet two sets of minimum qualifications for admission: the requirements of the PhD in Psychology program (https://gradstudies.missouri.edu/degreecategory/psychology) and the minimum requirements of the Graduate School (http://gradschool.missouri.edu/admissions/eligibility-process/minimum-requirements.php). Because requirements vary, you must refer to a degree program’s graduate admission page to learn about specific admission criteria, application deadlines, eligibility and application process. Before official admissions to the University of Missouri, your application materials will be reviewed by both the Graduate School and the degree program to which you’ve applied.

PhD in Psychology with Emphasis in Quantitative Psychology

The goal of the PhD program with emphasis in quantitative psychology is to produce researchers who are able to develop, evaluate, and apply advanced methodological techniques to psychological research questions. The program offers considerable diversity in faculty research and coursework offerings; our substantive interests span clinical, social, health, developmental, and cognitive psychology. Quantitative areas of expertise cover a range of linear and non-linear approaches to modeling, as well as meta-analysis, time series, state-space models, and issues in large-scale data management.

Students in quantitative psychology complete coursework in mathematical statistics, experimental design, and measurement, as well as courses in quantitative methods. Students can acquire extensive experience as statistical consultants through specific coursework in statistical consultation. Program requirements are fairly flexible, and students with particular interests in a substantive area of psychology are encouraged to take advanced courses in that area. Quantitative course offerings focus both on classic analytic methods as well as advanced
techniques such as structural equation modeling, multilevel modeling, and meta-analysis.

Strong ties exist between the Department of Psychological Sciences and the Department of Statistics, and students may opt to complete a master's degree in statistics as they progress through the PhD program. In addition, students have the opportunity to gain experience as statistical consultants through specific coursework in this area.

On-going projects conducted by the faculty include research in meta-analytic and secondary analysis techniques, structural equation modeling, particularly as applied to longitudinal models of change and growth, multilevel modeling, and mathematical and statistical models of cognition and perception.

Admissions

Applicants are required to meet two sets of minimum qualifications for admission: the requirements of the PhD in Psychology program (https://gradstudies.missouri.edu/degreecategory/psychology) and the minimum requirements of the Graduate School (http://gradschool.missouri.edu/admissions/eligibility-process/minimum-requirements.php). Because requirements vary, you must refer to a degree program’s graduate admission page to learn about specific admission criteria, application deadlines, eligibility and application process. Before official admissions to the University of Missouri, your application materials will be reviewed by both the Graduate School and the degree program to which you’ve applied.

PhD in Psychology with Emphasis in Social/Personality Psychology

Social/Personality psychology offers training in the traditional areas of social and personality psychology, as well as their relevance for several applied areas including health psychology. This Social/Personality area integrates the psychology of the person and the situation, with the goal of understanding the psychological processes that underlie people’s emotions, motivations, beliefs, actions, and decisions.

Training focuses on the multi-faceted view of social behavior from three levels:

1. the individual level;
2. the contextual level (or social level); and
3. the interaction of the individual and the contextual levels.

All three levels are vital to fully understanding human psychology. Particular research foci in the area include the sources of motivation, both individual and social; the nature of meaning-making, both existential and interpersonal; the determinants of optimal and destructive functioning, both within and between groups and in relationships; and the causes and consequences of psychological well-being, growth, and defense.

Admissions

Applicants are required to meet two sets of minimum qualifications for admission: the requirements of the PhD in Psychology program (https://gradstudies.missouri.edu/degreecategory/psychology) and the minimum requirements of the Graduate School (http://gradschool.missouri.edu/admissions/eligibility-process/minimum-requirements.php). Because requirements vary, you must refer to a degree program’s graduate admission page to learn about specific admission criteria, application deadlines, eligibility and application process. Before official admissions to the University of Missouri, your application materials will be reviewed by both the Graduate School and the degree program to which you’ve applied.

Public Affairs

Public Affairs Graduate Programs
Harry S Truman School of Public Affairs
101 Middlebush Hall, Columbia, Missouri 65211
573-884-1656
Email: truman@missouri.edu
Website: truman.missouri.edu

Established by the University of Missouri Board of Curators in May 2001, the Harry S Truman School of Public Affairs is dedicated to the advancement of study and practice of governance in the state, nation and world. The School offers graduate degrees and certificates in the theory and practice of public and nonprofit management, and public policy.

In keeping with Harry S Truman’s legacy, TSPA has numerous international linkages. Truman School students and alumni have served as Peace Corps volunteers, United Nations interns, in the US State Department, other national consulates or embassies in Washington, and international non-government organizations (NGOs) such as the Red Cross/Red Crescent. Truman School faculty members participate in international projects in Europe, Asia, Africa, and South America. Scholars from Europe, Asia, and other parts of the world regularly visit the Truman School, helping to inform curriculum and classroom discussions.

About the Study of Public Affairs

The Harry S Truman School of Public Affairs offers certificates, master’s and doctoral degrees in public and nonprofit management and public policy. MPA students are prepared for careers in public service that spans government, nonprofit, and private sectors. PhD students are trained for careers in academic and research institutions.

Faculty

Professor: L. Keiser**, P. Mueser**, J. Stallmann**
Professor Emeritus: G. Adams, M. Diamond, T. Johnson, B. Wechsler
Associate Professor: I. Arteaga**, C. Koedel**, M. Stegmaier**
Associate Professor Emeritus: C. Sampson
Assistant Teaching Professor: A. Hull*, K. Miller*
Associate Extension Professor: M. White
Assistant Extension Professor: R. Russell

* Graduate Faculty Member - membership is required to teach graduate-level courses, chair master's thesis committees, and serve on doctoral examination and dissertation committees.
** Doctoral Faculty Member - membership is required to chair doctoral examination or dissertation committees. Graduate faculty membership is a prerequisite for Doctoral faculty membership.

Undergraduate

While MU does not offer undergraduate degrees specifically in public affairs, the University does offer baccalaureate opportunities in a number of related areas in the other Schools and Colleges that make up the
University. The catalog provides a complete list of these degree options (p. 16).

**Graduate**

- MPA in Public Affairs (p. 297)
- PhD in Public Affairs (p. 298)

Community Processes Certificate (https://dass.missouri.edu/graduate-studies/community-processes-graduate-certificate)

Global Public Affairs Certificate* (https://truman.missouri.edu/future-students/graduate-certificate-description)

Grantsmanship Graduate Certificate (https://truman.missouri.edu/future-students/graduate-certificate-description)

Nonprofit Management Graduate Certificate (https://truman.missouri.edu/future-students/graduate-certificate-description)

Organizational Consulting & Change Graduate Certificate* (https://truman.missouri.edu/future-students/graduate-certificate-description)

Public Management Graduate Certificate (https://truman.missouri.edu/future-students/graduate-certificate-description)

Public Policy Graduate Certificate (https://truman.missouri.edu/future-students/graduate-certificate-description)

* Note: The Truman School is temporarily not accepting applications for certificate programs in Global Public Affairs and Organizational Consulting & Change.

**MPA in Public Affairs**

MU Truman School of Public Affairs students study with outstanding faculty, who are talented teachers as well as active, nationally recognized scholars. Policy forums, round-tables with policy makers, lectures by distinguished visiting scholars, and research symposia also enrich student learning. Small classes taught both on campus and in Jefferson City, the state’s capital, make for a lively learning environment. The Truman School MPA program provides a balance of public service values, interpersonal and analytic skills, and a thorough knowledge of administrative and policy processes.

**Degree Requirements**

Consisting of 45 hours of graduate work, the MPA program includes a core (27 hours), an area of specialization (15 hours) and an internship (3 hours). The areas of specialization are Nonprofit and Public Management, and Public Policy.

Students with significant public service experience may have some courses waived, making the MPA program 33 hours for them. The MPA’s Mid-Career option is available to students with 3-5 years of public service experience.

**Internship**

During the summer after their first year in the program, students without significant public sector work experience are required to complete a public service internship. Interns apply what they have learned during the first year in the program, plus they gain practical experience that enables deeper learning during second-year classes.

**Application and Admission Information**

Admission to the Master of Public Affairs Program:
If you are not an active MU non-degree-seeking or graduate student, you will need to apply through the Graduate School online portal (https://gradschool.missouri.edu/admissions/apply). You must be admitted to the Graduate School before you can enroll as a Truman School certificate student. There is a non-refundable application fee.

If you are an active MU student, please contact truman@missouri.edu for instructions.

**Admission Criteria**

**Fall deadline:** Applications are reviewed on a rolling basis, with priority funding consideration given to those applications received by January 15. Applications received after this date will continue to be evaluated on a rolling basis.
In making its decision, the PhD committee considers:

- Minimum GPA: 3.0 in last 60 hours
- Competitive GRE scores
- Non-native English speakers must score at least a **550 on the paper-based TOEFL, 80 on the Internet-based TOEFL or 6.5 on the Academic IELTS**. In addition, it is expected that applicants will achieve **subsection minimums of no less than 17 on IBT, 52 on PBT or 6.0 on IELTS** (subsections: Reading, Listening, Speaking and Writing). Native English speakers are not required to submit TOEFL or IELTS scores. TOEFL and IELTS scores are considered valid for two years beyond the test date.

Admission to the MPA program is competitive and open to students holding baccalaureate degrees from accredited institutions and meeting admissions standards of the Truman School of Public Affairs and the Graduate School.

### Required Application Materials

All admission materials can be submitted through the Graduate School [online portal](https://gradschool.missouri.edu/admissions/apply).

- 3 letters of recommendation (at least two academic-focused)
- GRE score report (GRE alternatives accepted: LSAT and GMAT scores will be considered). Not required for Mid-Career applicants
- TOEFL/IELTS score for non-native English speakers
- Résumé
- Statement of Interest
- Statement of Career Eligibility (required for Mid-Career and Mid-Career Online applicants only)
- Transcripts

### Financial Aid from the Program

To be considered for funding from the Truman School (including a Graduate Research Assistantship and scholarships), please arrange to have all of your application materials submitted by the January 15 deadline. Contact the Truman School at (573) 884-1656 or truman@missouri.edu for more details.

### PhD in Public Affairs

**PhD Contact:** Dr. Ron McGarvey  
(573) 882-9564  
mcgarveyr@missouri.edu

**About the PhD Program in Public Affairs**

The Harry S Truman School of Public Affairs at the University of Missouri offers an interdisciplinary PhD in Public Affairs that prepares graduates for careers in universities, colleges and applied research settings in the public, private and nonprofit sectors. Students complete core sequences in public policy and management as well as research methods, and specializations tailored to students' research interests.

### Acceptance Criteria

In making its decision, the PhD committee considers:

- The applicant’s record of academic achievement (Applicants typically have undergraduate GPAs higher than 3.0, and graduate GPAs higher than 3.5.)
- The quality of the written statement explaining why the applicant wants to pursue the degree
- The quality of the applicant’s writing sample
- Evaluations contained in letters of recommendation
- Acceptable performance on the Graduate Record Examination (GRE). Applicants typically have combined scores of 310 or higher
- Results of a personal interview with the applicant in person or by telephone
- Other factors bearing upon the candidate's potential for success

### Application Procedure

1. Applications for the PhD program are accepted for fall entrance only. For a prospective student’s application to be complete, the Truman School **must receive all required materials by January 4.**
2. Applicants are required to upload application materials to the MU Graduate School Application for Admission ([https://applygrad.missouri.edu/apply](https://applygrad.missouri.edu/apply)).
3. Official GRE/TOEFL/IELTS scores can be directed to institution code 6875, department code 2204.

### Required Application Materials

A student’s application is complete when all of the following materials have been received.

- University of Missouri Graduate School [online application](https://applygrad.missouri.edu/apply) (application fee required)
- Statement of interest (500 words)
- Curriculum vitae/Résumé
- Writing sample
- Personal data sheet
- Three letters of recommendation
- Unofficial undergraduate and graduate transcripts (official will be required after admitted)
- Official Graduate Record Examination (GRE) score report (must be sent by ETS)
- Official TOEFL score report (must be sent by ETS; required of applicants whose native language is not English)

### Entrance Exams

- The Graduate Record Examination (GRE) is required of all applicants.
- Applicants whose native language is not English must achieve a score of 625 (107 iBT) in the Test of English as a Foreign Language (TOEFL).
- Use the following codes to submit test scores to the Truman School:  
  - University of Missouri-Columbia Institution Code: 6875  
  - Truman School Department Code: 2204

### Cost of Attendance and Financial Aid

Prospective students should visit the Graduate School's financial information ([https://gradschool.missouri.edu/funding/pay-your-bill](https://gradschool.missouri.edu/funding/pay-your-bill)) and support web page for current information about tuition and fees. The University’s Office of Student Financial Aid ([https://financialaid.missouri.edu](https://financialaid.missouri.edu)) provides information about other types of aid students can obtain, including federally financed student loans.
Religious Studies

Signe Cohen, Chair
College of Arts and Science

Faculty

Associate Professors S. M. Cohen*, R. Gregory*, N. Hofer*, D. Kelley*
Assistant Professors D. Cohen*

* Graduate Faculty Member - membership is required to teach graduate-level courses, chair master's thesis committees, and serve on doctoral examination and dissertation committees.
** Doctoral Faculty Member - membership is required to chair doctoral examination or dissertation committees. Graduate faculty membership is a prerequisite for Doctoral faculty membership.

Undergraduate

• BA in Religious Studies (p. 299)
• Minor in Religious Studies (p. 300)

The department's field of study includes religious expressions from many cultures and in every period of history. Systematic study of this rich world of expression employs the widest range of academic tools and competencies, from the skills of the literary critic and historian to the analytic abilities of the social scientist and anthropologist. Because of this broad base, study in the department promotes fundamental academic skills and critical judgment and provides deeper understanding of national and international cultures. Thus, the religious studies major provides students with a foundation to pursue careers in business, government, counseling, law, medicine and journalism, as well as advanced professional study in religion. The department offers BA and MA degrees with majors in Religious Studies. A minor is also available.

Double Majors

Students are encouraged to pursue dual majors that combine religion with other interests.

Graduate

While MU does not offer graduate degrees specifically in religious studies, the University does offer graduate degrees opportunities in a number of related areas, both within the College of Arts and Science, and in the other Schools and Colleges that make up the University. The catalog provides a complete list of these degree options (p. 16).

BA in Religious Studies

Degree Program Description

What do shamans, politicians, nurses, prophets, intellectuals, nuns, slaves, and soldiers have in common? They are all part of the Religious Studies curriculum at MU, which studies religion as a powerful influence in human life and history, shaping global cultures, national identities, and the values of individuals. Religious Studies majors explore the roles religion plays in societies, the ways that religious institutions grow and change, the meanings of scriptures from around the world, the extraordinary experiences of religious specialists, and much more. Graduates of the major pursue a variety of employment and graduate school opportunities. A student must take a total of 30 credit hours in the major.

Major Program Requirements

Students must earn a minimum GPA of 2.0 or higher in order to have the credit applied. In addition, students must complete all degree, college and university graduation requirements (p. 30), including university general education (p. 31).

* Degree requirements that also meet University general education requirements
Minor in Religious Studies

A minor in religious studies is available with the following requirements: a minimum of 15 credits, including 6 in courses numbered 2000 or above. A minimum 2.0 MU GPA is required in all courses toward the minor.

Romance Languages

Department of Romance Languages and Literature
143 Arts and Science Building
(573) 882-4874
Fax: (573) 884-8171

The study of a foreign language allows for the development and refinement of communication, listening and speaking skills. Such study also endows students with a concern for world affairs and an appreciation of and respect for individual differences.

The Department of Romance Languages and Literatures offers language and literature courses in French, Italian, Portuguese and Spanish. Students may elect a major in Romance Languages with an emphasis in French or Spanish. Minors are also available in Afro-Romance literatures in Translation, French, Italian Area Studies, Luso-Brazilian Area Studies, Romance Literatures in Translation, and Spanish. The department also participates in the interdepartmental minor in film studies.

Double majors within the College of Arts and Science, as well as dual degree programs outside of the College of Arts and Science, can be arranged if the second degree is identified early. Combined programs with journalism, political science, agriculture, education and business are among the possibilities.

The department offers BA and MA degrees in Romance Languages with major emphasis in French and Spanish; an MA with a major in French Language Teaching or Spanish Language Teaching, and a PhD in Romance Languages. Minors are also available.

Director of Graduate Studies: Mamadou Badiane

About the Department of Romance Languages and Literatures

The Department of Romance Languages and Literatures offers graduate degree programs with an emphasis in Spanish (p. 306), and French (p. 303), both with the option of an emphasis in foreign language teaching. The department's faculty and graduate student seminars are an interdisciplinary, interdepartmental series seeking to provide a collegiate atmosphere in which scholars can present their recent work. The department strongly encourages study abroad as a way to reinforce language skills, broaden one's horizons, and add an unforgettable experience to a meaningful university education.

The Department of Romance Languages and Literatures at the University of Missouri has the country’s only focus area in the field of Afro-Romance Studies. In order to facilitate research collaboration between our faculty members working in this field and scholars outside our institution, we have established the Institute for Languages and Literatures of the African Diaspora. The Institute serves first and foremost to expose black writers of French, Portuguese and Spanish expression to a wider audience.

Specialization

The Department of Romance Languages and Literatures offers four fields of specialization at the doctoral level: French Literature, Francophone Literature, Spanish Literature or Spanish American Literature.

Financial Aid from the Program

Contact the Director of Graduate Studies for details.

BA in Romance Languages

Degree Program Description

Romance Languages is the study of language and literature in French, Italian, Portuguese, and Spanish. The study of a foreign language allows for the development and refinement of communication, listening and speaking skills. Such study also endows students with a concern for world affairs and an appreciation of and respect for individual differences. The Bachelor of Arts degree in Romance Languages is offered in two emphasis areas: French and Spanish. Students must choose one of the emphasis areas to earn the BA in Romance Languages. Given the liberal arts foundation of a degree in Romance Languages students pursue careers in a variety of fields or continue their studies. Graduates have pursued careers in journalism, tourism, diplomacy, and education.
Students must choose a BA in Romance Languages with an emphasis in French (p. 301), or a BA in Romance Languages with an emphasis in Spanish (p. 302). There is no offering for a BA in Romance Languages without an emphasis.

In addition, students must complete all College of Arts and Science and University graduation requirements (p. 30), including University general education (p. 31).

**Major Program Requirements**

The bachelor of arts degree in Romance Languages is offered in two emphasis areas: French (p. 301) and Spanish (p. 302). Students must choose one of the emphasis areas to earn the BA in Romance Languages. Details on the requirements for the programs are listed under each emphasis.

**Semester Plan**

A sample plan of study has not been designed for this major, as students are required to select an emphasis. Refer to the semester plans designed for the emphasis in French (p. 301) or Spanish (p. 302).

**BA in Romance Languages with Emphasis in French**

**Degree Program Description**

The BA in Romance Languages with an emphasis in French is the exploration of the language, literature, and culture of French-speaking countries. The degree requires a minimum of 30 hours of French beyond FRENCH 2100. Faculty strongly encourages all majors to spend at least one semester (or summer) studying abroad, preferably after their second year of the language. Given the liberal arts foundation of a degree in French students pursue careers in a variety of fields or continue their studies. Graduates have pursued careers in journalism, tourism, diplomacy, and education.

**Major Program Requirements**

Students who have not satisfied the requirement of the elementary sequence (four years of foreign language in high school) may take the Foreign Language Placement exam, https://romancelanguages.missouri.edu/undergrad/undergraduate-program, to place them in an upper level language course. Once the upper level course is completed on campus, with a grade in the C range or better the student can apply for Advanced Standing.

For the major, course work must be completed with a grade in the C range or higher in each of the required courses and students must maintain a 2.0 GPA in the major. Students must meet all major requirements listed below, as well as all College of Arts and Science and University graduation requirements (p. 30), including University general education (p. 31).

Students who work toward a double major (two BA degrees within the College of Arts and Science) may be able to complete the majors with a minimum of 120 credits. Students who are considering a dual degree program (in Arts and Science or in another school or college) are advised that a minimum of 132 credits are necessary.

To obtain the BA degree in Romance Languages with an emphasis in French, the following courses, or their equivalents, must be included in the graduation plan (numbers in parentheses indicate prerequisite courses).

<table>

<td>3</td>
</tr>
</tbody>
</table>

**Additional Requirements**

- Students must complete five additional 4000-level courses. We encourage students to take Stylistics as one of these. French 4960: Special Readings cannot be used to fulfill this requirement except by permission of the department chair.
- Students beginning at a level higher than FRENCH 2160 due to placement testing must still complete 30 credits in order to receive the major.
- In addition, the student is required to take a Writing Intensive course in the major, normally designated sections of FRENCH 3420 or FRENCH 3430.
- It is highly recommended (not required) that students take FRENCH 2310 (http://catalog.missouri.edu/search/?P=FRENCH%202310): French Civilization as an elective and, if at all possible, study for a summer, a semester or a full year in a French-speaking country. This course will not count towards the minor or major.

### Additional Requirements

Students must complete five 4000-level courses selected with the advisor's approval.

- Required courses: one peninsular lit., one Spanish-American lit., three courses of choice.

It should be noted that SPAN 4960 Special Readings in Spanish cannot be used to fulfill this requirement except by permission of the department chair. Students who plan to teach at any level should include courses SPAN 3160 and SPAN 3721, rather than their alternates.

- Students beginning at a level higher than SPAN 2160 due to placement testing must still complete 30 credits in order to receive the major.

- In addition, the student is required to take a Writing Intensive course in the major, normally designated sections of SPAN 3420 or SPAN 3430.

- It is highly recommended (not required) that students study for a summer, a semester or a full year in a Spanish-speaking country.

</tbody>
</table>

**Note:** Applicants must also demonstrate adequate preparation in advanced language and literature courses. This will require their having completed at least four courses equivalent to a 4000-level course for masters applicants or a 7000 level course for doctoral applicants at the University of Missouri. At a minimum, three of these courses must be in literature. If the faculty determines a deficiency, they will require that the student complete remedial course work in literature during the first year of enrollment. The director of graduate studies will inform students of these additional requirements at the time of their admission.

**Choosing an Advisor**

All graduate students in the department may choose, or the director of graduate studies will assign them, an academic advisor at the start of their first semester of graduate study. Students must choose an academic advisor by the end of their first semester of graduate study.

**MA Degree Requirements**

Students must complete a total of 30 credit hours at the graduate-level to earn their MA degree. At least 15 hours must be in courses at the 8000 level or above. The plan of study for the MA with an emphasis in Spanish must include a minimum of nine hours of course work in Spanish peninsular literature and a minimum of nine hours of course work in Spanish-American literature. The plan of study for an MA with an emphasis in Spanish must also include three credit hours in the history of the Spanish language (completion of or the equivalent).

For the MA with an emphasis in either French or Spanish, the total number of credit hours in special readings (7960), problems (8085) or any combination of both may not exceed twelve. The number of credit hours in special readings (7960) within the student’s major field may not exceed three per semester. Graduate Instructors with no pedagogical experience or those who have completed no graduate course in foreign language teaching methodology will be required to take FRENCH 7120/SPAN 7120, Foreign Language Teaching Methodology.

Non-native speakers will be required to complete an online proficiency assessment with the appropriate course coordinator before a decision on their admission status is finalized by the department.

**Plan of Study**

The department offers MA degrees with an emphasis in both French and Spanish (Peninsular or Spanish-American literature).

MA candidates must submit a completed M-1 Plan of Study form to the Graduate School at least one semester before taking their MA examinations.

**Minors**

Students may also elect a minor field of study, which requires a minimum of 9 hours of course work completed in another department or other departments. Students interested in such minors should consult the section titled Plan of Study in the Graduate Catalog. These minor fields appear on students’ plan of study, but not on their transcript. Students electing minors must complete the standard MA examination in their major field of emphasis (French or Spanish).

**Funding Through Graduate Instructorships**

MA candidates normally receive 4 semesters of financial support from the University while completing their degree. This support will customarily take the form of a graduate instructorship, though it may take the form of either a research or teaching assistantship.
Possible Fifth Semester of Support
In exceptional cases, students in good standing — with no grades of Incomplete and unproblematic teaching — may receive a fifth semester of support, at the discretion of the faculty. Faculty will award a fifth semester of support according to the department’s need for instructors. Students must submit all requests for a fifth semester of support in writing to the director of graduate studies. No student will receive more than five semesters of support.

Normal Teaching Load vs. Course Load
The minimum teaching assignment for MA candidates holding instructorships is 1 course per semester, although there may be an opportunity for two. International students may never teach more than 2 courses per semester owing to visa restrictions. All MA candidates must be registered in a minimum of 6 hours of course work for each semester in which they hold an instructorship. Students may enroll in up to 6 hours per semester of 8080 (Readings) if they have completed all their course work and are preparing for their MA exams.

Annual Review
The faculty and course directors in both major languages meet during the fall and spring semesters to evaluate the teaching and academic performance of all graduate students. The director of graduate studies informs all students in writing of their status at the end of each semester. Students who fail to remove a grade of Incomplete will be limited to teaching one course per semester for as long that grade of Incomplete remains on their academic record.

Master’s Thesis
The writing of a thesis is optional. A minimum of 4 hours and a maximum of 6 hours of 8090 Research will be allowed for the thesis. Students are urged to obtain the Graduate School’s guidelines for thesis/dissertation writing as the thesis must conform to the Office of Graduate Studies’ formatting and style specifications.

Thesis Committee
Students choosing to write a thesis must name a thesis committee consisting of no fewer than three members of the doctoral faculty at the University of Missouri, one of whom should be from a department other than the Department of Romance Languages and Literatures.

Comprehensive Examination for the MA degree
All candidates for the Master of Arts degree must pass a 6-hour written examination based on the MA reading list. The examination is given twice a year, generally in late October and late March.

The French Master’s examination consists of six 1-hour parts covering literature of the Middle Ages/Renaissance, 17th, 18th, and 19th centuries, and two of the following three periods in the contemporary period: twentieth century French Literature, twentieth century Francophone Literature, contemporary literary theory.

The Spanish examination consists of two 3-hour examinations. The first component covers Peninsular Spanish literature from the Middle Ages to the present and the second component covers Spanish American literature from the Colonial period to the present.

At least half the examination must be written in the candidate’s language of specialization.

Grading of the Comprehensive Exam
The MA examination is graded as follows: High Pass, Pass, and Fail. In order to receive a passing grade on any section of the examination, a student must receive passing grades from two thirds of the examining committee. To pass the entire examination, students must receive passing grades on all sections. With permission from the examining committee, students who fail part of the examination may retake only the failed section or sections of the examination. Two failures of the examination, in whole or in part, will terminate candidacy for the degree and result in dismissal from the program.

MA in Romance Languages with Emphasis in Language Teaching

Admission
Students desiring to work for the degree of Master of Arts, Emphasis on Language Teaching (MALT) should apply directly online to the Graduate School. Applicants can find links for information, instructions for applying and the online application form on the Graduate School's site (http://gradschool.missouri.edu/admissions). This online form is submitted electronically to the Graduate School, along with the application fee.

Additionally, the following materials submitted via the Graduate School’s Apply Yourself (https://applygrad.missouri.edu/apply) system:

- Official transcripts from the institution(s) previously attended
- TOEFL scores (international applicants only)
- Photocopies of diplomas earned at colleges/universities outside the US (international applicants only)

In addition, our department requires the following materials from all applicants:

- Departmental Graduate Studies Application
- Three Letters of Reference
- A 10-15 page-writing sample
- 500-word personal statement detailing the applicant’s reasons for selecting the University of Missouri for graduate studies and academic/career goals. Applicants may also send other supporting materials, such as a résumé, if desired.

The application form and the form for reference letters are available on the Department’s page (http://romancelanguages.missouri.edu).

Eligibility
Candidates for the MA must hold a Bachelor’s degree (or equivalent) with a grade point average of 3.0 or better in their major field of study. They must also demonstrate adequate preparation in advanced language and literature courses for admission. This will normally be four courses equivalent to a 4000-level course at the University of Missouri. At least three of these courses must be in literature or linguistics. If the Admissions Committee believes that a deficiency exists, it will prescribe additional course work (during the first year of enrollment) beyond the 30 credit hours necessary for the MALT degree. The Director of Graduate Studies will inform students of these additional requirements at the time of admission.

All non-native speakers of French/Spanish will be required to complete an online proficiency assessment prior to admission. Applicants will be contacted by the appropriate course coordinators to schedule this
assessment. Students who are judged deficient in any of these areas are required to do remedial work. New graduate students who are required to do remedial work because of the departmental language proficiency examination will be retested within one year. Students must receive a passing score, or their candidacy will be terminated.

All graduate students will be assigned an advisor by the Director of Graduate Studies at the start of their first semester of graduate study.

MALT Program of Study

A total of 30 hours selected from courses receiving graduate credit must be completed for the MALT (Master of Arts in Language Teaching). A minimum of 21 of the 30 hours must be taken in either French or Spanish. At least 15 hours must be in courses at the 8000 level or above. Of these 8000-level courses, six hours must be in the Department of Romance Languages. The remaining 9 hours may be taken from course work outside the department with the approval of the student’s academic advisor.

Note: The College of Education no longer offers a certification program in the field of foreign language education. However, students who do not have a teaching certificate and who are interested in completing relevant courses in the field of education while working on their MALT will need to contact the professional advisors in the School of Education. These students, with advisor’s consent, could use their 9 hours allowed outside the department-provided that they are graduate-level courses toward courses in education. At the completion of their MA, students can work directly with the Missouri Department of Elementary and Secondary Education to see how they can be certified in the State of Missouri.

Please note also that the number of hours of credit allowed for Special Readings (7960) and Problems (8085) may not exceed twelve. MA candidates may not take more than one of these two independent readings course per semester.

Students wishing to transfer MA credits from another university may transfer up to six hours, provided these courses were taken within the last eight years.

MALT candidates must submit a completed M-1 Program of Study to the Graduate School at least one semester before completing their comprehensive examinations.

Teaching Assistants

MALT students normally have 4 semesters of support in which to complete their degree. This support will customarily take the form of a Graduate Instructorship. MA students may not teach more than ten hours per semester. A fifth and final semester may be granted in exceptional circumstances to students in good standing (i.e., no incompletes, history of good teaching, etc.). This extra semester will be awarded on the basis of departmental need and will be granted only if a request is made formally and in writing to the Graduate Studies Committee, which will make its recommendation to the entire faculty. No student will receive support beyond the fifth semester.

The normal course load for MALT candidates holding teaching assistantships is 9 hours. All MALT candidates must register for a minimum of 6 hours of graded courses included in the Master’s program in every semester in which they hold a teaching assistantship. Exceptions to this regulation must have the approval of the Graduate Studies Committee prior to registration. International students must not fall below six hours or they will lose their student status. Students who have completed all coursework may enroll in up to 6 hours per semester of 8080 (Readings) in order to prepare for the MALT exam.

The faculty and the course directors in each of the major languages will meet during the fall and winter semesters to evaluate the performance of all graduate students as students and as teaching assistants. The Director of Graduate Studies will inform all students in writing of their status following this formal performance review.

Any student who fails to have an incomplete removed within one year of its issuance will be limited to teaching one class per semester until the incomplete grade is removed. This excludes Dissertation/Thesis (9090) courses.

Course Distribution

The course distribution for the MALT program is as follows:

**WITHIN THE DEPARTMENT**

<table>
<thead>
<tr>
<th>* Language/Linguistics</th>
<th>6</th>
</tr>

</table>

**OUTSIDE THE DEPARTMENT (UP TO 9 HRS)**

**For students interested in education, suggested courses from the College of Education can include:**

- ESC_PS 7000 Foundation of Teacher Prep I
- SPC_ED 7020 Teaching the Exceptional Learner

**Preparation II (4)**

**For students interested in ESL, courses can include:**

- Structure of American English (3)
- History of the English Language (3)
- Regional and Social Dialects of English (3)

**Please Note:** Courses taken outside the department must be approved by the student’s academic advisor.
Comprehensive Examination for the MALT degree

All graduate students in Language Teaching are required to pass a series of examinations in order to fulfill degree requirements.

written Examination

All students take a six-hour written examination, which consists of three two-hour components. Two of the components include: a) Foreign Language Methodology and Second Language Acquisition; b) Applied Linguistics. In addition, each candidate will be examined in a third field of their choice, either civilization/culture or literature. The two-hour written questions will reflect the coursework completed by each candidate and appropriate texts suggested by faculty represented on the examination committee. These examinations are generally given in November and March.

The MALT examination is graded as follows: High Pass, Pass, and Fail. In order to receive a passing grade, the candidate must attain a Pass in all fields of the written examination. Should a candidate fail any part of the exam and wish second consideration for the degree (s)he must retake the failed section(s). Two failures eliminate the candidate from consideration for the MA in language teaching.

MA in Romance Languages with Emphasis in Spanish

Admission Contact Information

143 Arts and Science
Columbia, MO 65211
(573) 882-5039
https://romancelanguages.missouri.edu/grad/graduate-program

Admission Criteria

Fall deadline: February 15
Spring deadline: October 15

- Minimum GPA: 3.0 in field of major
- Masters applicants must have a bachelor’s degree
- Minimum TOEFL scores (international applicants):

<table>
<thead>
<tr>
<th>Internet-based test (iBT)</th>
<th>Paper-based test (PBT)</th>
</tr>
</thead>
<tbody>
<tr>
<td>61 Effective July 1, 2015 must have</td>
<td>500 Effective July 1, 2015 must have</td>
</tr>
<tr>
<td>score of 80</td>
<td>score of 550</td>
</tr>
</tbody>
</table>

Applicants must also demonstrate adequate preparation in advanced language and literature courses. This will require their having completed at least four courses equivalent to a 4000-level course for masters applicants or a 7000 level course for doctoral applicants at the University of Missouri. At a minimum, three of these courses must be in literature. If the faculty determines a deficiency, they will require that the student complete remedial course work in literature during the first year of enrollment. The director of graduate studies will inform students of these additional requirements at the time of their admission.

Required Application Materials

To the Office of Graduate Studies

- All required Graduate Studies documents
- Official Transcript
- 10-15 page writing sample in language of desired degree program, must be uploaded to the online application
- 500-word Personal Statement, uploaded to the online application
- 3 letters of recommendation (submitted through Apply Yourself (https://applygrad.missouri.edu/apply) or mailed to the Romance Languages Department, 143 Arts & Science, University of Missouri, Columbia, MO 65211)
- Résumé or CV

Choosing an Advisor

All graduate students in the department may choose, or the director of graduate studies will assign them, an academic advisor at the start of their first semester of graduate study. Students must choose an academic advisor by the end of their first semester of graduate study.

Plan of Study

The department offers MA degrees with an emphasis in both French and Spanish (Peninsular or Spanish-American literature).

Minors

Students may also elect a minor field of study, which requires a minimum of 9 hours of course work completed in another department or other departments. Students interested in such minors should consult the section titled Plan of Study in the Graduate Catalog. These minor fields appear on students’ plan of study, but not on their transcript. Students electing minors must complete the standard MA examination in their major field of emphasis (French or Spanish).

MA Degree Requirements

Students must complete a total of 30 credit hours at the graduate-level to earn their MA degree. At least 15 hours must be in courses at the 8000 level or above. The plan of study for the MA with an emphasis in Spanish must include a minimum of nine hours of course work in Spanish peninsular literature and a minimum of nine hours of course work in Spanish-American literature. The plan of study for an MA with an emphasis in Spanish must also include three credit hours in the history of the Spanish language (completion of or the equivalent).

For the MA with an emphasis in either French or Spanish, the total number of credit hours in special readings (7960), problems (8085) or any combination of both may not exceed twelve. The number of credit hours in special readings (7960) within the student’s major field may not exceed three per semester. Graduate Instructors with no pedagogical experience or those who have completed no graduate course in foreign language teaching methodology will be required to take FRENCH 7120/SPAN 7120, Foreign Language Teaching Methodology. Non-native speakers will be required to complete an online proficiency assessment with the appropriate course coordinator before a decision on their admission status is finalized by the department.

Submitting Your Plan of Study to the Office of Graduate Studies

MA candidates must submit a completed M-1 Plan of Study form to the Office of Graduate Studies at least one semester before taking their MA examinations.
Funding Through Graduate Instructorships
MA candidates normally receive 4 semesters of financial support from the University while completing their degree. This support will customarily take the form of a graduate instructorship, though it may take the form of either a research or teaching assistantship.

Possible Fifth Semester of Support
In exceptional cases, students in good standing — with no grades of Incomplete and unproblematic teaching — may receive a fifth semester of support, at the discretion of the faculty. Faculty may award a fifth semester of support according to the department’s need for instructors. Students must submit all requests for a fifth semester of support in writing to the director of graduate studies. No student will receive more than five semesters of support.

Normal Teaching Load vs. Course Load
The minimum teaching assignment for MA candidates holding instructorships is 1 course per semester, although there may be an opportunity for two. International students may never teach more than 2 courses per semester owing to visa restrictions. All MA candidates must be registered in a minimum of 6 hours of course work for each semester in which they hold an instructorship. Students may enroll in up to 6 hours per semester of 8080 (Readings) if they have completed all their course work and are preparing for their MA exams.

Annual Review
The faculty and course directors in both major languages meet during the fall and spring semesters to evaluate the teaching and academic performance of all graduate students. The director of graduate studies informs all students in writing of their status at the end of each semester. Students who fail to remove a grade of Incomplete will be limited to teaching one course per semester for as long that grade of Incomplete remains on their academic record.

Master’s Thesis
The writing of a thesis is optional. A minimum of 4 hours and a maximum of 6 hours of 8090 Research will be allowed for the thesis. Students are urged to obtain the Graduate School’s guidelines for thesis/dissertation writing as the thesis must conform to the Graduate School’s formatting and style specifications.

Thesis Committee
Students choosing to write a thesis must name a thesis committee consisting of no fewer than three members of the doctoral faculty at the University of Missouri, one of whom should be from a department other than the Department of Romance Languages and Literatures.

Comprehensive Examination for the MA degree
All candidates for the Master of Arts degree must pass a 6-hour written examination based on the MA reading list. The examination is given twice a year, generally in late October and late March.

The French Master’s examination consists of six 1-hour parts covering literature of the Middle Ages/Renaissance, 17th, 18th, and 19th centuries, and two of the following three periods in the contemporary period: twentieth century French Literature, twentieth century Francophone Literature, contemporary literary theory.

The Spanish examination consists of two 3-hour examinations. The first component covers Peninsular Spanish literature from the Middle Ages to the present and the second component covers Spanish American literature from the Colonial period to the present.

At least half the examination must be written in the candidate’s language of specialization.

Grading of the Comprehensive Exam
The MA examination is graded as follows: High Pass, Pass, and Fail. In order to receive a passing grade on any section of the examination, a student must receive passing grades from two thirds of the examining committee. To pass the entire examination, students must receive passing grades on all sections. With permission from the examining committee, students who fail part of the examination may retake only the failed section or sections of the examination. Two failures of the examination, in whole or in part, will terminate candidacy for the degree and result in dismissal from the program.

PhD in Romance Languages

Note to Internal Doctoral Applicants
Students who wish to advance to the doctoral program after completing their MA degree in the Department of Romance Languages and Literatures may do so only after receiving written approval from the MA examining committee. Alternatively, candidates may not advance to the doctoral program if the examining committee determines, after the MA examination, that their degree is terminal.

Students advancing directly from the MA to the PhD program need to complete only a Change of Degree Program form, which the department submits to the Office of Graduate Studies.

Students who apply to the doctoral program one semester or more after completing their MA examinations must complete a Request to Re-enroll form and reapply to the doctoral program. They must submit a new departmental application and reference letters. They need not submit a new application to the Office of Graduate Studies.

Application and Admission Information
Admission Contact Information
143 Arts and Science
Columbia, MO 65211
(573) 882-5039
https://romancelanguages.missouri.edu/grad/graduate-program

PhD Admission Criteria
Fall deadline: February 15
Spring deadline: October 15

• Minimum GPA: 3.0 in field of major
• Doctoral applicants must have a master’s degree.
• Minimum TOEFL scores (international applicants):
  Internet-based test (iBT)  Paper-based test (PBT)
  61 Effective July 1, 2015 must have 500 Effective July 1, 2015 must have score of 80 have score of 550

Applicants must also demonstrate adequate preparation in advanced language and literature courses. This will require their having completed at least four courses equivalent to a 4000-level course for masters
applicants or a 7000 level course for doctoral applicants at the University of Missouri. At a minimum, three of these courses must be in literature. If the faculty determines a deficiency, they will require that the student complete remedial course work in literature during the first year of enrollment. The director of graduate studies will inform students of these additional requirements at the time of their admission.

**Required Application Materials**

*Submit to the Office of Graduate Studies using the online application system:*

- All required Graduate Studies documents
- Official Transcript (send to Graduate School at 210 Jesse Hall, University of Missouri, Columbia, MO 65211-1160)
- 10-15 page writing sample in language of desired degree program, must be uploaded to the online application
- 500-word Personal Statement, uploaded to the online application
- 3 letters of recommendation (submitted through Apply Yourself or mailed to the Romance Languages Department, 143 Arts & Science, University of Missouri, Columbia, MO 65211)
- Résumé or CV

*Note:* All application forms are on the Graduate School site

**Specialization**

The Department of Romance Languages and Literatures offers four fields of specialization at the doctoral level: French Literature, Francophone Literature, Spanish Literature or Spanish American Literature.

Candidates may elect a secondary field, which entails a minimum of 9 hours of course work within another department, in consultation with their doctoral program committee. This secondary field appears on students’ plan of study, but not on their transcript. Students electing a secondary field must complete a PhD examination that will include at least one question devoted to their secondary field.

**Choosing an Advisor**

All graduate students in the department may choose, or the director of graduate studies will assign them, an academic advisor at the start of their first semester of graduate study. Students must choose an academic advisor by the end of their first semester of graduate study.

**Qualifying Examination**

All PhD candidates must complete a qualifying examination during their first year in the program to determine their fitness for doctoral study.

**Exemptions**

The faculty may excuse students from this requirement if those students received their MA degree from this department, earned a grade of High Pass on all sections of their MA examination, and enrolled in the PhD program the semester after fulfilling all requirements for the MA degree.

**Purpose and Questions**

The qualifying examination provides an opportunity for the faculty to evaluate candidates and advise their future course of study in the program. The examination consists of two questions related to the candidate’s course work during the previous and current semester: one question requires analysis of a text; the other, discussion of a general topic (e.g., a literary genre, a particular author, a critical or artistic movement, and so on). The candidate’s academic advisor delivers both questions to the candidate three days before a meeting with the examining committee.

**Exam Meeting with the Committee**

At this meeting, the candidate offers two oral presentations of 20-25 minutes each, based on the two questions. Following these presentations, the candidate responds to comments and questions from the examining committee. At the close of this meeting, the examining committee determines whether the candidate’s performance warrants a grade of Pass or Fail. The examining committee communicates these results to the Graduate School in writing, on a D-1 form bearing the signatures of the candidate and all members of the committee. Students who receive a failing grade must retake this examination before the end of the following semester. A second failure on this examination terminates eligibility for the PhD degree and will result in dismissal from the graduate program.

**Arranging the Committee**

All arrangements for the qualifying examination are the joint responsibility of the candidate and the candidate’s academic advisor. Any tenured or tenure-track member of the faculty may act as academic advisor to students during their first year of doctoral study. The academic advisor need not act as the director of that student’s PhD examination or dissertation committee.

**Submitting Results**

Students who earn a passing grade on their qualifying examination submit the D-1 form to the Office of Graduate Studies, communicating the results of the examination and formally naming their doctoral committee.

**Plan of Study & Degree Requirements**

After the qualifying exam, students and their doctoral committee meet to devise a plan of study. The doctoral committee signs and submits this plan of study with the D-2 form to the Graduate School. Students in the PhD program must complete a minimum of 72 hours of course work, which includes a maximum of 30 credit hours earned as part of their MA degree. These credit hours must include course work in language teaching methodology (FRENCH 7120/SPAN 7120 or the equivalent) and, if applicable, the candidate’s secondary field. Spanish doctoral candidates must also complete course work in Old Spanish.

**Foreign Language Requirements**

PhD candidates must demonstrate reading proficiency in 2 languages other than English and their language of specialization (French or Spanish). They may satisfy this requirement, at a minimum, by completing intensive beginning courses in the required languages (4070 or the equivalent) with a grade of B- or better, or by passing written examinations administered by departments at the University of Missouri offering courses in those languages. Students choosing Latin as one of their foreign languages may satisfy this requirement by completing with a grade of B- or better, a beginning honors class (LATÍN 1100H, or the equivalent). Students also fulfill this requirement if they demonstrate proficiency by objective measures (courses, examinations) that exceed this minimum standard, as approved by the Director of Graduate Studies.

Students must satisfy the foreign language requirement before they take their Comprehensive Examination for the PhD. Basic language courses carry no credit toward the PhD and are therefore not included in the Plan of Study.
Latin Requirements for Students of Medieval and Renaissance Literatures

Students specializing in literature of either the Middle Ages or the Renaissance- literature produced within the period from the rise of the vernacular to the end of the seventeenth century- must demonstrate reading proficiency in Latin. In doing so, they fulfill half their foreign language requirement. They demonstrate proficiency in Latin according to the standard explained in the previous paragraph: by means of a beginning Honors course (LATIN 1100H), a written examination administered by the Classics Department, or equivalents of these.

Language Requirements for Students With Secondary Field in Non-English Literature

Students pursuing a secondary field in a non-English literature different from that of their major field must complete with a final grade of B- or better at least three 7000-level courses (or the equivalent) in literature of their secondary field. Completing these courses fulfills half the foreign language requirement.

For example, a student specializing in French literature of the Romantic period may choose a secondary field of German literature of the Romantic period. That student must complete 3 courses in German literature at the 7000 level (or the equivalent). Completing these courses satisfies half the foreign language requirement.

Financial Support: Graduate Instructorships

PhD candidates normally receive 6 semesters of financial support from the university while completing their plan of study and 4 additional semesters of support after completing their PhD examination. This support will customarily take the form of a Graduate Instructorship, though it may take the form of either a Research or Teaching Assistantship.

The minimum teaching assignment for PhD candidates holding instructorships is one course during their first semester of study. Depending on staffing needs, there may be an opportunity to teach two courses per semester. Students writing their dissertation may teach an additional course. International students may never teach more than 2 courses per semester owing to visa restrictions. All PhD candidates must be registered in a minimum of 6 hours of course work for each semester in which they hold an instructorship.

Students may enroll in a maximum of 6 hours per semester of 9080 (Readings) if they have completed all their course work and are preparing for their PhD exams. Students may enroll in a maximum of 12 hours of 9080 (Readings) over the course of their doctoral studies, provided this occurs within their first six semesters of financial support. After passing their PhD examination, students may retain their Instructorships if they enroll in Research (9090) for a minimum of 5 credit hours per year (2 in fall; 2 in spring; 1 in summer).

Annual Review

The faculty and course directors in both major languages meet during the fall and spring semesters to evaluate the teaching and academic performance of all graduate students. The director of graduate studies informs all students in writing of their status at the end of each semester. Students who fail to remove a grade of Incomplete will be limited to teaching one course per semester as long that grade of Incomplete remains on their academic record. This restriction applies to courses other than Research (9090).

The PhD Comprehensive Examination

Reading List, Examining Committee, and Faculty Preparing Questions

Each candidate will name a PhD Examining Committee and, as necessary, other faculty members who will prepare examination questions relating to their respective periods of expertise. The Examining Committee consists of at least 4 members: 3 members of the regular (tenured or tenure-track) faculty from the Department of Romance Languages and Literatures, including the student's academic advisor, 1 outside member from a different department. All of them must belong to the graduate faculty at the University of Missouri. Beyond this minimum, candidates may name other members to the committee - recognized experts in the candidates field - from either the University of Missouri or another institution, with the approval of both the student's academic advisor and the Director of Graduate Studies.

A member of the regular faculty in the Department of Romance Languages and Literatures who is an expert in literature pertaining to each part of the PhD examination will prepare questions for that part. If there is only one available expert in a specific field (for example, only one regular faculty member who is an expert in Medieval literature of either France or Spain), that faculty member must prepare and grade examination questions relating to that field. If there is more than one expert available in a particular field (for example, more than one member of the regular faculty who is an expert in contemporary French literature, contemporary Spanish literature, or contemporary Spanish-American literature), the student may choose one of those faculty members to prepare and grade questions in that field.

All questions on the PhD Examination derive from a reading list that the candidate compiles with the collaboration and approval of the Doctoral Committee and of all other faculty preparing questions. This list aims at both breadth and depth, but mainly depth. It should include texts of literature, criticism, and history that are indispensable for an expert in the candidate's specialized field. Yet, in the non-specialized fields, this list should include a solid literary history of all genres in the period (drama, fiction, lyric, essay), while also including literary texts that would prove indispensable only for an undergraduate survey course that the candidate might teach on works of all periods and all genres over a span of two semesters. In other words, readings from this list should yield both a generalist and a specialist - an instructor who can both design and teach a survey course, and an expert who can produce original scholarship.

Timetable of the PhD Comprehensive Examination in French and Spanish

The candidate and the academic advisor set both the dates and the order for all parts of the Comprehensive Examination, in consultation with the Director of Graduate Studies. The Comprehensive Examination in French or Spanish consists of a written and an oral section. The written section comprises 4 parts of 3 hours per part. Candidates complete the written examination on 4 separate days - 1 part per day - within a period of 14 days. They complete the oral examination no later than five weeks after earning a passing grade on all parts of the written examination. This allows candidates to complete the written examination at the end of the fall semester and to complete the oral examination at the start of the spring semester of the same scholastic year.

Either the Director of Graduate Studies or someone delegated by the Director of Graduate Studies will administer the written part of the PhD
Examination. Only members of the department faculty of departmental staff may administer the examination.

**Oral Examination**

Students complete the oral examination after receiving a passing grade on all sections of the written examination. The oral examination will last 1-2 hours, part of which must be in the language of the candidate’s specialized field. The oral exam allows candidates to clarify, strengthen or amplify the answers of the written exam. Only members of the Doctoral Committee must attend the oral examination.

With permission from the Doctoral Committee, students who fail part of the written or oral examination may retake only the failed part of parts. A minimum of 14 days must elapse before a student retakes a failed part or failed parts of the examination. Two failures of the examination, in whole or in part, will terminate candidacy for the degree and result in dismissal from the program.

**Prospectus**

After passing both the written and oral parts of the PhD Examination, doctoral students present a prospectus of the dissertation. This presentation occurs immediately after completing and passing the oral part of the Examination. Candidates prepare the prospectus in consultation with the academic advisor and deliver it in writing at least one week before the date of the oral examination to all members of the Doctoral Committee. The Prospectus requires approval by all members of the Doctoral Committee.

The prospectus presents a working outline, with a working bibliography, of the proposed project - its topic, organization, and critical method. Just as important, the prospectus should present a line of inquiry that promises to contribute to human knowledge - a thesis, or a position that warrants defending by means of both critical analysis and empirical evidence.

**Research and Dissertation**

Doctoral students register in 9090 (Research) once they have passed their PhD examinations. They will need to enroll for a minimum of 2 credit hours of 9090 during the fall and spring semesters and 1 hour during the summer semester in order to complete the 12 hours of comprehensive examination. Individual departments or area programs may stipulate a shorter time period. Doctoral students should complete all requirements for the degree, including the dissertation, within five years of passing the comprehensive examination. The Office of Graduate Studies extends this deadline in extenuating circumstances. Nonetheless, students must request additional time in writing from the director of graduate studies. Failure to show sufficient progress on the dissertation may result in dismissal from the graduate program. Students should obtain the Graduate Studies’ guidelines for thesis/dissertation writing since the dissertation must conform to the formatting and style specifications established by the Office of Graduate Studies.

**Defense**

Candidates and their directors schedule a formal defense of a dissertation after its acceptance by all members of the doctoral committee. This oral defense, conducted by members of the doctoral committee, is open to the public. For additional information, contact the Director of Graduate Studies in the Department of Romance Languages and Literatures.

---

**Russian**

Sean Ireton, Chair  
College of Arts and Science  
451 Strickland Hall  
(573) 882-4328  
grs@missouri.edu

The Department of German and Russian Studies offers courses in German and Russian language, literature, film, and civilization. It also offers instruction in Arabic, Chinese, Japanese, and Korean. Many courses, such as civilization, culture, literature in translation, and film courses, do not require knowledge of a foreign language.

The department offers the Bachelor of Arts with majors in German, and in Russian, and the Master of Arts in German, and in Russian and Slavonic Studies. The department also offers minors in German, Russian, Chinese, Japanese, and Korean. Many courses in the minor in East Asian Studies are taught in the Department of German and Russian Studies.

**Faculty**

**Associate Professor** M. Kelly*  
**Associate Professor** T. Langen*  
**Teaching Professor** N. Monnier*

- Graduate Faculty Member - membership is required to teach graduate-level courses, chair master’s thesis committees, and serve on doctoral examination and dissertation committees.
- Doctoral Faculty Member - membership is required to chair doctoral examination or dissertation committees. Graduate faculty membership is a prerequisite for Doctoral faculty membership.

**Undergraduate**

- BA in Russian (p. 311)
- Minor in Russian (p. 312)

**Dual Degrees and Double Majors**

As a double major or a dual degree has become an ever more popular choice, an increasing number of students choose German or Russian as one of their majors. Students looking forward to a career in medicine or in the sciences use a double major to ensure a thorough background in the humanities to balance their scientific studies. Double majors within the College of Arts and Science can be arranged and, if the second degree program is identified early, dual degree programs outside the college are also possible. Combined programs with journalism, international studies, education and business are frequent choices. Within the college, combinations with political science, history, philosophy, art history, and the sciences are popular double major programs.

**Departmental Honors - Russian**

Departmental Honors are available for student majoring in Russian with a minimum 3.5 GPA in the Russian major and 3.3 GPA overall. Students must complete a minimum of three literature courses, two of which must be at the 4000 level, with no grades below a B. At the discretion of the department, students may write a thesis paper in lieu of one of the 4000 level literature courses.
Graduate

- MA in Russian and Slavonic Studies (p. 312)

College of Arts and Science
451 Strickland Hall
(573) 882-4328
https://grs.missouri.edu/

Director of Graduate Studies: Martha Kelly

The Master of Arts program in Russian and Slavonic Studies offers advanced study in the literature and culture of Russia. Course offerings are primarily in literature, but reflect a variety of interrelated fields, including religion, philology, intellectual history, and philosophy. In two years of coursework students receive training in the theory and history of Russian literature and culture in general, as well as an introduction to the history of the language.

Careers

Students may go on to careers in a number of fields, including government work and international business; they will also be prepared to continue their studies at the doctoral level.

Facilities and Resources

The library of the University of Missouri is particularly strong in Russian literature, history and culture. We are also part of a consortium that provides quick access to the holdings of many other major academic and public libraries.

Financial Support

In this program, qualified graduate students may have the opportunity to work as teaching assistants in language, literature or civilization courses. Incoming graduate students are normally offered paid positions as Teaching Assistants. Teaching assistants (TAs) are normally appointed for one academic year (two semesters / nine months). The Fall Semester runs from late August to mid-December; the Spring Semester from mid-January to mid-May. TA appointments are normally renewed for the second year of study when teaching and progress toward the degree are satisfactory. Appointments after the second year may be available in special cases, depending upon departmental needs and resources. At present the TA position provides a stipend of approximately $1,000 per month. In addition, tuition for courses taken toward the MA are waived for TAs. Some programs require an extra form or statement from those who wish to be considered for internal assistantships, fellowships or other funding packages. Check the program website or ask the program contact for details. The Graduate School offers several valuable fellowships for which the department may nominate incoming students.

BA in Russian

Degree Program Description

The Russian degree is the exploration of the language, literature, and culture of Russian-speaking countries. The BA in Russian offers you the possibility of participating in this vibrant cultural tradition first hand. The major in Russian consists of 27 credits in Russian beyond RUSS 1200. Within these 27 hours, students must meet minimum requirements within three categories: language, literature, and culture. The Russian faculty strongly encourages all majors to spend at least one semester (or summer) studying abroad, preferably after their second year of the language. Given the liberal arts foundation of a degree in Russian, students pursue careers in a variety of fields or continue their studies. Graduates have pursued careers in journalism, tourism, diplomacy, and education.

Major Program Requirements

The major in Russian consists of 27 credits in Russian beyond RUSS 1200. Within these 27 hours, students must meet minimum requirements within three categories: language, literature, and culture (see below). The Russian faculty strongly encourages all majors to spend at least one semester (or summer) studying abroad, preferably after their second year of the language. In addition, students must meet all degree, college and university graduation requirements (p. 30), including those for university general education (p. 31).

Major core requirements (beyond the A&S language requirement)

Four of the following courses in language or their equivalents (minimum of two at the 3000-plus level) must be included:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>RUSS 2130</td>
<td>Second-Year Russian I</td>
</tr>
<tr>
<td>RUSS 2160</td>
<td>Second-Year Russian II</td>
</tr>
<tr>
<td>RUSS 3001</td>
<td>Topics in Russian-General</td>
</tr>
<tr>
<td>RUSS 3130</td>
<td>Intermediate Russian</td>
</tr>
<tr>
<td>or RUSS 3160</td>
<td>Intermediate Conversation and Composition</td>
</tr>
<tr>
<td>RUSS 3630</td>
<td>Russian Classics I</td>
</tr>
<tr>
<td>RUSS 3640</td>
<td>Russian Classics II</td>
</tr>
<tr>
<td>RUSS 4160</td>
<td>Advanced Russian Conversation</td>
</tr>
</tbody>
</table>

Three literature or culture courses, chosen from the following, and to include at least one at the 4000-level:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>RUSS 2100</td>
<td>Classics and Iconoclasts: An Introduction to Russian Literature</td>
</tr>
<tr>
<td>RUSS 3005</td>
<td>Topics in Russian-Humanities</td>
</tr>
<tr>
<td>RUSS 3380</td>
<td>Sinners, Saints, and Madmen: 19th Century Russian Literature</td>
</tr>
<tr>
<td>RUSS 3390</td>
<td>True Fictions: Russian Prose since 1900</td>
</tr>
<tr>
<td>RUSS 4005</td>
<td>Topics in Russian-Humanities</td>
</tr>
<tr>
<td>RUSS 4420</td>
<td>Russian Poetry</td>
</tr>
<tr>
<td>RUSS 4430</td>
<td>Russian Drama</td>
</tr>
<tr>
<td>RUSS 4435</td>
<td>Russian Prose</td>
</tr>
<tr>
<td>RUSS 4550</td>
<td>Nabokov's Russian Fiction</td>
</tr>
<tr>
<td>RUSS 4820</td>
<td>Blogging the World: The Web in Cultural Context</td>
</tr>
</tbody>
</table>

One of the following two courses in culture:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>RUSS 2310</td>
<td>Between Heaven and Earth: Russian Civilization</td>
</tr>
<tr>
<td>or RUSS 2320</td>
<td>The Arts of Survival: Civilization in Soviet Times</td>
</tr>
</tbody>
</table>

Electives: 3 credits

Elective courses and equivalents to replace the required courses above should be selected in consultation with the advisor.

Total Credits: 27

- Both RUSS 2310 and RUSS 2320 are Writing Intensive Russian civilization courses.

Semester Plan

Below is a sample plan of study, semester by semester. A student’s actual plan may vary based on course choices where options are available.
First Year

<table>

Total Credits: 122

Minor in Russian

The department offers a minor in Russian, consisting of 15 credits beyond RUSS 1200. A minimum of 6 of these 15 credits must be in Russian courses numbered 3000 or above. In addition, a minimum of 9 of the 15 credits must be completed in residence.

MA in Russian and Slavonic Studies

Admission Contact Information

Professor Martha Kelly

Martha Kelly (kellymartha@missouri.edu)
451 Strickland Hall
Columbia, MO 65211
(573) 882-4328

Admission Criteria

Fall deadline: January 1 (domestic); December 15 (international)

Note: to be eligible for a teaching assistantship, application must be received by March 1

Spring deadline: September 1 (domestic); May 1 (international)

Minimum GPA: 3.0 in last 60 hours

Undergraduate major or minor in Russian or equivalent

Minimum TOEFL scores:

<table>
<thead>
<tr>
<th>Internet-based test (iBT)</th>
<th>Paper-based test (PBT)</th>
</tr>
</thead>
<tbody>
<tr>
<td>61 Effective July 1, 2015 must have score of 80</td>
<td>500 Effective July 1, 2015 must have score of 550</td>
</tr>
</tbody>
</table>

Note: No language other than English and Russian is required for admission.

Required Application Materials

To the Office of Graduate Studies:

- All required Graduate Studies documents

To the Program:

- 2 letters of recommendation

Degree Requirements

Students must complete a minimum of 30 hours of graduate-level courses with a GPA of B or higher. In accordance with the Office of Graduate Studies policy, no fewer than 24 of these must be Russian and Slavonic Studies courses at the 7000 or 8000 level, with at least 12 at the 8000 level. In addition, students must demonstrate adequate language skills in English and Russian.

Thesis

A master’s thesis is optional.

Sociology

Edward E. Brent, Chair
College of Arts and Science
312 Middlebush Hall
brente@missouri.edu
573) 882-9172

Sociology is a discipline founded over 100 years ago to bring the scientific method to the study of human societies. It has pioneered in the development of methods and techniques designed to provide accurate and verifiable information about contemporary societies. It is the inventor of survey research and a host of statistical measures. The techniques created by sociologists are now used in all disciplines concerned with human behavior.

Sociologists today conduct research and reason from research findings to generate deeper understandings of how societies work. The generation of theoretical statements and the testing of those statements in a wide variety of social settings is the core of sociological work. Sociologists are knowledge builders, rather than change agents, although there is
an emergent group of scholars who apply sociological knowledge to create changes in organizations, individuals and communities. Sociology contributes to human improvement by seeing that change can be based on credible information and reasoned understanding of how humans work together in groups or larger aggregates.

Faculty

Professor W. Brekhus**, E. E. Brent Jr.**
Assistant Professor T. Ivory*, N. Jones*

* Graduate Faculty Member - membership is required to teach graduate-level courses, chair master's thesis committees, and serve on doctoral examination and dissertation committees.
** Doctoral Faculty Member - membership is required to chair doctoral examination or dissertation committees. Graduate faculty membership is a prerequisite for Doctoral faculty membership.

Undergraduate

- BA in Sociology (p. 313)
- Minor in Sociology (p. 315)

Departmental Honors

Students with a cumulative GPA of at least 3.3 are eligible for departmental honors in sociology. Qualified students who seek this option must write an honors thesis under the supervision of a sociology faculty member. Students who take the honors thesis option are not required to take SOCIOL 4970. Students enroll in SOCIOL 4995 for 3 credits each semester of the senior year for a total of 6 credits.

Graduate

- MA in Sociology (p. 315)
- PhD in Sociology (p. 315)

Department of Sociology
312 Middlebush Hall
(573) 882-8331
http://sociology.missouri.edu/grad/graduate-program

Director of Graduate Studies: Eileen Bjornstrom

About the Program

The Department of Sociology engages students in research, utilizing qualitative and quantitative research methodologies, in order to analyze issues and problems affecting societies. The core of doctoral training is in classical and contemporary theory, and research methods including qualitative, historical, and feminist methodologies, and interviews and field work.

Specializations

Students may focus their studies on any two of the following graduate program areas:

- Culture and Identity
- Health, Aging, and Environment
- Political Economy, Power, and Movements
- Social Inequalities

Within these program areas, students conduct research on such topics as gender, health-care policy, popular culture, hunger, race, criminology, sexualities, and elites and protest movements in the global economy.

Financial Aid from the Program

Financial support for students includes teaching and research assistantships, both of which include remission of educational fees. International students cannot be awarded teaching assistantships until they have completed one semester of residence at MU and pass a test of spoken English.

BA in Sociology

Degree Program Description

Sociology is a discipline founded about 100 years ago to bring the scientific method to the study of human societies. It has pioneered in the development of methods and techniques designed to provide accurate and verifiable information about contemporary societies. It is the inventor of survey research and a host of statistical measures. The techniques created by sociologists are now used in all disciplines concerned with human behavior. A Bachelor of Arts with a major in Sociology consists of 33 credits organized to provide progressively more sophisticated levels of sociological analysis culminating in a capstone experience. The degree offers five tracks of study for students who want a closer fit between the major and future employment: Law, Justice and Society; Power, Inequalities and Social Change; Sexuality, Health and the Life Course; Culture, Identity and the Media; Organizations, Work, Technology and the Economy. Sociologists today conduct research and reason from research findings to generate deeper understandings of how societies work. The generation of theoretical statements and the testing of those statements in a wide variety of social settings is the core of sociological work. We are knowledge builders, rather than change agents, although there is an emergent group of "applied sociologists" who use sociological knowledge to create changes in organizations, individuals, and communities. We contribute to human improvement by seeing that change can be based on good information and reasoned understanding of how humans work together in groups or larger aggregates.

Major Program Requirements

A Bachelor of Arts with a major in Sociology consists of 33 credits organized to provide progressively more sophisticated levels of sociological analysis culminating in a capstone experience or other advanced 4000 level course. It is expected that students start with entry courses, progress to basic courses and then to upper-level electives. In addition, students must complete all degree, College of Arts and Sciences and University graduation requirements (p. 30), including University General Education (p. 31).

Major core requirements

Minor in Sociology

To minor in sociology, a student must complete a total of 15 credits of sociology coursework as follows:

- **SOCIOL 1000** Introduction to Sociology 3
- **SOCIOL 2200** Social Inequalities 3
- Two courses at the 3000-level or above 6
- One other sociology course at any level 3

Total Credits: 15

At least nine credit hours for the minor must be from MU courses.

MA in Sociology

**About the Master of Arts in Sociology**

At this time, our Department is not admitting students who are seeking a terminal master’s degree. However, our doctoral students earn an MA degree en route to the PhD.

Please see the admission criteria for our doctoral degree program (p. 315).

**PhD in Sociology**

**Admission Contact Information**

Graduate Admissions Coordinator
Holli Carr (carrh@missouri.edu)
312 Middlebush Hall
Columbia, MO 65211
(573) 882-8331

**Admission Criteria**

Fall deadline: January 15

- Minimum TOEFL scores:
  - Internet-based test (iBT) 61 Effective July 1, 2015 must have score of 80
  - Paper-based test (PBT) 500 Effective July 1, 2015 must have score of 550
- Minimum GRE score: case-by-case
- 15 hours of undergraduate sociology with a grade of B or better, including one course in sociological theory and a basic statistics course

**Required Application Materials**

To the Office of Graduate Studies:

- All required Graduate Studies documents
To the Sociology Program: http://sociology.missouri.edu/grad/admission-and-application-forms

- GRE score report
- Departmental application
- 3 letters of recommendation
- Statement of research interests
- Copy of Graduate Studies application (needs to be printed out when done online)
- Copies of transcripts (it is helpful to have unofficial copies sent to the department)
- One page Application for Financial Support

**PhD Plan of Study**

The PhD program requires a minimum of 30 hours of course work including:

- **SOCIOL 9187** Seminar in Sociological Theory I 3
- **SOCIOL 9487** Seminar in Sociological Theory II 3
- **SOCIOL 8120** The Logic of Social Research 3
- **SOCIOL 7120** Social Statistics (or its equivalent) 3
- **SOCIOL 8130** Advanced Social Statistics 3
- and two seminars in sociological research methods:
  - **SOCIOL 7110** Feminist Research and Criticism 3
  - **SOCIOL 8187** Seminar on Interview Theory and Technique 3
- **SOCIOL 9287** Seminar in Qualitative Methods in Sociology 3
- **SOCIOL 9288** Ethnographic Fieldwork 3
- **SOCIOL 9687** Topical Seminar in Historical Sociology 3
- plus six courses targeted to the student’s specialty interests.

**Exams and Research**

All students are required to submit a research paper no later than their fourth semester of residence. Students with a Master’s Thesis in sociology can fulfill this requirement as early as their first semester. At least eight months before the date on which they expect to complete the degree, candidates must pass a comprehensive examination centered on two of the five graduate program areas. Students must prepare and
successfully defend a dissertation that makes an original contribution to the discipline.

Statistics

Christopher Wikle, Chair
College of Arts and Science
146 Middlebush Hall
(573) 882-6376
www.stat.missouri.edu
umcasstat@missouri.edu

Information is needed to solve the many problems of today’s world. How much information? What kind? After it is obtained, what must be done with it? Statisticians are trained to help answer these questions. Early admission into the Statistics Department will allow students to plan their programs so that the math and statistics prerequisites can be taken in the most efficient sequence.

The department offers BA, BS, MA and PhD degrees with a major in Statistics. A minor is also available.

Faculty

Teaching Professor S. Lee*, L. D. Ries*
Associate Professor S. Chakraborty**, A. Micheas**, L. A. Thomsbs**
Assistant Professor S. Chao, T. Ji*, E. Schliep*
Adjunct Assistant Professor M. Hawkey, J. Snyder, I. Zaniletti
Instructor T. Christiansen, D. Perkowski

• Graduate Faculty Member - membership is required to teach graduate-level courses, chair master's thesis committees, and serve on doctoral examination and dissertation committees.
** Doctoral Faculty Member - membership is required to chair doctoral examination or dissertation committees. Graduate faculty membership is a prerequisite for Doctoral faculty membership.

Undergraduate

• BA in Statistics (p. 317)
• BS in Statistics (p. 318)
• Minor in Statistics (p. 319)

Credit for Beginning Courses

(Applies to all students and all majors)

• A student may not receive credit toward an undergraduate degree for more than one of STAT 1200, STAT 1300 and STAT 1400.
• A student may not receive credit toward an undergraduate degree for more than one of STAT 2500 and STAT 2530.
• Subject to the above restrictions, a student may receive a maximum of 4 credits toward an undergraduate degree for any combination of STAT 1200, STAT 1300, STAT 1400, STAT 2200, STAT 2500 and STAT 2530.
• A student may not receive credit toward an undergraduate degree for any statistics course numbered 2999 or below if a statistics course numbered 4000 or above was successfully completed prior to or concurrent with the course in question. Exceptions may be approved at the discretion of the department.

Department Degree Requirements - Statistics

The Department of Statistics approves majors in statistics only for students who have met the following criteria:

• Completion of at least one statistics course at the 3000-level or above (or equivalent)
• Cumulative GPA of at least 2.50 overall
• Have earned a grade of C or higher in each statistics course completed

Students are encouraged to supplement their work in statistics with courses from areas such as economics, biology, accounting, finance, marketing, management, psychology, sociology, engineering, agriculture and atmospheric science. In addition, students must complete all degree, college and university graduation requirements (p. 30), including university general education (p. 31).

Options

Students may pursue either a BA or a BS degree. For both degrees, students may pursue either a traditional track or an applied track. Students who are interested in graduate study in statistics are strongly encouraged to follow the traditional track.

Departmental Honors

To be admitted to the undergraduate honors program in the Department of Statistics, a student must have completed at least 12 of the 21 credits of statistics courses required for the major, have a grade-point average of at least 3.25 in all completed statistics courses, and identify a faculty member from the department who agrees to supervise the student’s honors research project.

In order to receive the departmental honors designation, students who have been accepted into the program must graduate with a grade-point average of at least 3.25 in statistics courses, prepare a senior thesis based on their honors project, and present the results of the thesis in a departmental colloquium or other public forum approved by their mentor. They also must earn a grade of “B” or better in 3 credits of STAT 4999.

Graduate

• MA in Statistics (p. 319)
  • with emphasis in Biostatistics (p. 321)
  • with emphasis in Data Analytics (p. 321)
• PhD in Statistics (p. 321)
• Graduate Minor in Statistics (p. 322)

Abbie Van Nice-Booher, Coordinator of Graduate Studies

Director of Graduate Studies: Athanasios Micheas

About Statistics

The statistics department faculty is known for both cutting edge methodological and collaborative research and for outstanding teaching. Faculty members are currently investigating statistical problems in the fields of ecology, genetics, economics, meteorology, wildlife management, epidemiology, AIDS research, geophysics, and
The program’s faculty members have ongoing collaborative programs across disciplines such as biostatistics, bioinformatics, economics, atmospheric science, psychology and with the Missouri Department of Conservation.

The graduate program provides opportunities for graduate study and thesis direction in various areas of probability and statistics, both theoretical and applied. A variety of consulting and collaborative opportunities allow both faculty and graduate students to conduct cooperative and interdisciplinary research. Regular statistics colloquia provide opportunities for faculty and outside speakers to present the results of their research. Faculty and graduate students also participate in weekly seminar series in Bayesian statistics, bioinformatics, and biostatistics.

**Dual Master’s Degree in Economics and Statistics**

The department offers a cooperative MA degree with the Economics Department. Students may obtain MA degrees in economics and statistics with 48 hours of course work numbered 7000 or higher from the University of Missouri instead of the 52 or more required for separate degrees. (These 48 hours may not include any of the following: ECONOM 7351, ECONOM 7353, or STAT 7510, STAT 7530, STAT 7710.) Eighteen or more hours are required from the Department of Economics. At least 15 hours must be numbered 8000 or higher with no more than four hours of 8090. Students must take the core economics courses ECONOM 8451 and ECONOM 8453 and research workshop ECONOM 8413 (2 credit hours). Eighteen or more hours are required from the Department of Statistics. At least 15 hours must be numbered 8000 or higher with no more than three hours of 8090. STAT 7750 and STAT 7760 and MATH 7140 are required if equivalent courses were not taken as an undergraduate.

All candidates must submit a thesis or written project demonstrating an independent effort towards producing original work satisfactory for each degree. The candidate may complete separate theses/projects for both economics and statistics or a single joint thesis/project satisfying both requirements.

**Career Opportunities**

Statisticians are in demand in education, medicine, government, business and industry as well as in the biological, social and physical sciences.

**Facilities & Resources**

The Department of Statistics maintains a state-of-the-art computer network with Linux workstations and servers for research and personal productivity software on PCs. Students have access to the network through PCs in student offices and through the statistics department computer laboratory. An extensive library of software including R, SAS, and common programming languages is maintained. Students also have access to the campus computing network. The statistics department is located in newly renovated space in Middlebush, with easy access to the main library’s outstanding collection of books and journals in statistics.

**Financial Aid from the Program**

Fellowships and teaching and research assistantships are available to qualified graduate students. Some programs require an extra form or statement from those who wish to be considered for internal assistantships, fellowships or other funding packages. Check the program website or ask the program contact for details.

**BA in Statistics**

**Degree Program Description**

Statistics is a modern science concerned with making decisions and inferences from empirical data subject to random variability and error. It deals with designing experiments, sample surveys, summarizing numerical information, building and analyzing statistical models, prediction and choosing between alternate actions. Statistics can tell us how much safer it is to fly than drive, the odds of winning the lottery, our life expectancy and who is likely to win the next election. The BA in Statistics allows students to pursue either a traditional track or an applied track. Students who are interested in graduate study are strongly encouraged to follow the traditional track. All students are encouraged to supplement their work in statistics with courses from areas such as economics, biology, accounting, finance, marketing, management, psychology, sociology, engineering, agriculture and atmospheric science. Because of its importance as a scientific method, the demand for trained statisticians has grown in education, medicine, government, business and industry as well as in the biological, social and physical sciences. Students are trained to meet this demand and develop careers in teaching and research.

**Major Program Requirements**

Students must complete the university general education requirements (p. 31), university graduation requirements (p. 30), and the Department Degree Requirements (p. 316), in addition to the degree requirements below.

### Degree Program Description

Statistics is a modern science concerned with making decisions and inferences from empirical data subject to random variability and error. It deals with designing experiments, sample surveys, summarizing numerical information, building and analyzing statistical models, prediction and choosing between alternate actions. Statistics can tell us how much safer it is to fly than drive, the odds of winning the lottery, our life expectancy and who is likely to win the next election. The BS in Statistics allows students to pursue either a traditional track or an applied track. Students who are interested in graduate study are strongly encouraged to follow the traditional track. All students are encouraged to supplement their work in statistics with courses from areas such as economics, biology, accounting, finance, marketing, management, psychology, sociology, engineering, agriculture and atmospheric science. Students pursuing the BS degree may elect to take an alternative to a foreign language. Because of its importance as a scientific method, the demand for trained statisticians has grown in education, medicine, government, business and industry as well as in the biological, social and physical sciences. Students are trained to meet this demand and develop careers in teaching and research.

### Major Program Requirements

Students must complete the university general education requirements (p. 31), university graduation requirements (p. 30), and Department Degree Requirements (p. 316) in addition to the degree requirements below.

#### Mathematics courses

### Foreign Language Option for Students Pursuing a BS Degree

Students pursuing the BS degree may elect to take an alternative to a foreign language. Such students must complete no fewer than 12 upper-class credits that are not from the parent department, are not normally required of departmental majors and do not appear elsewhere in the graduation plan. This program must be carefully planned to form a coherent unit and must be approved by the director of undergraduate studies.

The following are examples of foreign language alternatives:

- mathematical sciences
- biological sciences
- behavioral sciences
- physical sciences
- business
- engineering
- economics

Total Credits: 120

* Course used as area in lieu of foreign language
+ Course meets University General Education and/or campus requirements

### Minor in Statistics

A minor in statistics requires a minimum of 15 credits in statistics courses numbered 3000 or above. The courses used to complete the minor must be chosen in consultation with the director of undergraduate studies and must include at least one of the following:

- STAT 3500 Introduction to Probability and Statistics II
- STAT 4710 Introduction to Mathematical Statistics
- STAT 4750 Introduction to Probability Theory

A maximum of 3 of the 15 credits may be in:

- STAT 4085 Problems in Statistics for Undergraduates

### MA in Statistics

#### Admission Criteria

**Fall deadline for regular MA track: January 15**

**Fall deadline for applied MA track: March 30**

**Spring deadline: October 15**

- Minimum TOEFL scores:
  - Internet-based test (iBT)
  - Paper-based test (PBT)

<table>
<thead>
<tr>
<th>Test Type</th>
<th>Minimum Scores</th>
</tr>
</thead>
<tbody>
<tr>
<td>iBT</td>
<td>74</td>
</tr>
<tr>
<td>PBT</td>
<td>535</td>
</tr>
</tbody>
</table>

- Minimum GPA: 3.0 in math and statistics courses to enter master's program
- Bachelor's degree from accredited college or university in related area

Undergraduate courses in statistics are recommended but not required. Consideration also is given to rank in graduating class, trends in grade records, maturity and experience, and other criteria bearing on qualifications.

Before entering the graduate program, a student should have a background that includes three semesters of calculus (or equivalent), one semester of matrix theory, and at least one post-calculus course in probability and statistics. Some required courses at the 7000 level not
taken as an undergraduate may be taken for graduate credit as part of
the graduate program.

Required Application Materials

To the Office of Graduate Studies:

• All required Graduate Studies documents

To the Program:

• Departmental application
• 3 letters of recommendation (use departmental form)
• Letter of intent
• GRE score report

Degree Completion Requirements

The general requirements for receiving a master’s degree are at least 30
semester hours of course work at the 7000 level or higher, of which at
least 18 hours must be from the Department of Statistics at MU. The 30
hours may not include more than a total of six hours of

<table>

<td>1-99</td>
</tr>
<tr>
<td>STAT 8220</td>
<td>Applied Statistical Models II</td>
<td>3</td>
</tr>
</tbody>
</table>

At least 15 semester hours of course work at the 8000 level or above
must be from the Department of Statistics at MU. The 15 semester
hours cannot include more than a total of three hours of STAT 8090.

Additional courses recommended but not required are:

Remedial Courses

The following courses are required if equivalent courses were not taken
as an undergraduate: MATH 7140, STAT 7750 and STAT 7760. These
courses may not be used for more than six of the required 30 hours.

Applied Track Masters of Arts Degree

Required core courses

Students must complete the following six courses or equivalent.

<table>

</table>

In addition, students must take four elective courses, at least three of
which must be selected from the department of statistics course offerings
numbered 8000 or above.

Examination

Students in the applied track must pass written and oral master’s exams
administered by a departmental committee.

Regular Track Masters of Arts Degree

Original Written Work

All candidates must submit a written report on an independent effort
toward producing original work. This report may, with the advisor’s
consent, take the form of a thesis, a written review on a set of papers in
statistics, or a written report on an independent study project, which may
include an original application of statistics. For this work, a student must
register for at least three semester hours of STAT 8090.

Presenting the Work

All candidates are required to present an open seminar on the results of
the written report. The report should be made available for public review,
through the Department of Statistics office, for at least one week before
the examination.

Examination

The MA examination covers material presented in the written report and
the seminar and may also cover course work.

Accelerated Masters of Arts Degree

Requirements and Admissions

To be considered for admission to the accelerated MA program in
statistics, a student must:

• Have complete at least 90 credit hours toward a bachelor's degree
  with an overall GPA of at least 3.5.
• Have at least one (preferably two) semesters of undergraduate
  enrollment remaining before completion of a bachelor's degree.
• Have completed the following courses each with grades of "B" or
  higher (a “B minus” is not sufficient):
  • The calculus sequence (MATH 1500, MATH 1700, and
    MATH 2300 or equivalent).
  • A course in matrix theory (MATH 4140 or equivalent).
• A calculus-based course covering statistical inference (STAT 4710 or STAT 4760 or equivalent).
• A course in statistical modeling (STAT 3500 or STAT 4510 or equivalent).
• Have a GPA of at least 3.5 in all math and statistics courses completed and have earned at least a "B" (not "B minus") in each statistics course completed. (NOTE: It is expected that the vast majority of an applicant's math and statistics course work will have been completed in residence at MU. Students who have transferred a substantial amount of math credit from other universities may still apply to the program. These students will be evaluated individually based on both the grades earned in the transferred course and the stature of the university from which the courses were transferred.)
• Have produced an academic record that suggests the student will likely complete an MA degree in statistics.

Satisfactory Progress

Length of Study

A master's candidate is expected to complete the master's degree within three calendar years beginning with the first semester of enrollment unless approval is obtained from the graduate faculty of the Department of Statistics.

Grade Requirements

Any student, while a graduate student in this program, who receives a grade of C or lower in six or more hours of courses offered by the Department of Statistics or a grade of C or lower in nine or more hours of all courses taken will be dismissed from the graduate program unless contrary action is taken by the graduate faculty of the department.

For each credit hour over three hours with a grade of C or lower in courses offered by the Department of Statistics at the 7000 level and above, the student must receive a credit hour with a grade of A in courses offered by the department at the 7000 level and above.

MA in Statistics with Emphasis in Biostatistics

Students who wish to specialize in biostatistics may obtain a degree with special emphasis. The general requirements are the same as those for the MA degree in statistics (p. 319). In addition, students must satisfy the following:

1. Take STAT 7410 and either STAT 7420, STAT 8410 or STAT 9410 or the equivalent;
2. Submit a project or thesis related to biostatistics.

MA in Statistics with Emphasis in Data Analytics

Prerequisites

Three semesters of calculus (or equivalent), one semester of linear algebra, and at least one post-calculus course in probability and statistics. At least one course in applied linear models is recommended.

Degree Requirements

At least 30 hours of course work in the Department of Statistics; of these, at least 15 hours must be numbered 8000 or above.

Master's Exam

All students must pass a written comprehensive exam on the core data analytics portion of the program: STAT 7750, STAT 7760, STAT 8310, STAT 8320. These exams will be administered at least twice per year and may be taken on campus or in testing centers in the United States or Internationally.

PhD in Statistics

Admission Criteria

Fall deadline: January 15
Spring deadline: October 15

• Minimum TOEFL scores:
  Internet-based test (iBT) 80 535
  Paper-based test (PBT)

• Minimum GPA: 3.5 in math and statistics to enter PhD program
• Master's degree from accredited college or university in related area

Before entering the graduate program, a student should have a background that includes three semesters of calculus (or equivalent), one semester of linear algebra, and at least one post-calculus course in probability and statistics. Some required courses at the 7000 level not taken as an undergraduate may be taken for graduate credit as part of the graduate program.

Required Application Materials

To the Office of Graduate Studies:
• All required Graduate Studies documents

To the Program:
• Departmental application
• 3 letters of recommendation (use departmental form)
• Letter of intent
• GRE score report
Qualifying Examination

All doctoral students must pass the qualifying exam, which is offered in August and January of each year. The exam consists of two parts, one covering STAT 7750 and STAT 7760 (Statistical Inference), and a second part covering STAT 8310 and STAT 8320. All doctoral students must take the exams at the first opportunity after the required courses, usually in August at the start of the second year. Students have two attempts to pass each part.

Doctoral Committee

Within one semester of passing the qualifying examination, a student must choose a doctoral program committee in consultation with his or her advisor. This committee consists of at least five members, at least three of whom are members of the doctoral faculty in statistics and at least one from another MU doctoral program.

Preliminary Examination

The preliminary exam is a written exam offered in August and January of each year. Before taking the exam, the student is required to have passed the qualifying exams and chosen his/her major professor. The exam consists of two parts: Part one covering STAT 9710 and STAT 9720 and part two covering STAT 9310. Students have two attempts to pass each part. Students must take the preliminary exam at the earliest possible time after passing the qualifying exam and completing the courses required for the preliminary exam, normally the start of the third year of study.

Required Course Work

Before taking the comprehensive examination, students should complete six courses taken at MU or at comparable institutions.

</tr>
</tbody>
</table>

(Different 9100s can be counted more than once.) Other courses may be substituted at the discretion of the student’s doctoral program committee.

Comprehensive Examination

After successfully completing the preliminary exam and the required coursework, the student is eligible to take the comprehensive examination. This examination consists of a written and oral section as specified in the Graduate Studies catalog. This examination must be completed at least seven months prior to the final defense of the dissertation.

Dissertation

A dissertation, prepared under the direction of a dissertation supervisor, is required. The dissertation should be presented in an open seminar as part of the final examination, which is be conducted by the final examination committee. The dissertation should be made available for public review, through the Department of Statistics office, for at least one week before the examination.

Additional Requirements

Additional requirements for the PhD in statistics are determined by the student’s program committee and the director of graduate studies.

Graduate Minor in Statistics

Master’s Minor

To receive a designated minor in statistics for a master’s degree, at least 12 credit hours of course work at the 7000 level or higher must be completed from the Department of Statistics at MU. The courses should be unified in theme and must be approved by the Director of Graduate Studies of the Department of Statistics.

The courses must be completed with an average grade of B (3.0) or higher.

</tr>
</tbody>
</table>

Students must have at least one course in calculus-based statistics and the equivalent of at least two courses in an applied statistics sequence. The calculus-based statistics requirement can be met by STAT 7710 or STAT 7760 or above, but no more than 6 hours of STAT 7710, STAT 7750, and STAT 7760 can be counted towards the 15 hours. The applied sequence requirement can be satisfied by either STAT 7510/STAT 8220 or STAT 8310/STAT 8320. At most one course from STAT 7510 and STAT 8310 can be counted and at most one course from STAT 8220 and STAT 8320 can be counted towards the 15 hours.
The plan of study must be approved by the Director of Graduate Studies of the Statistics Department and be completed with an average grade of B (3.0) or higher. Each student is encouraged to seek approval of his/her plan of study as soon as possible.

Theatre

Dr. Heather Carver, Chair
College of Arts and Science
Rhynsburger Theatre
129 Fine Arts Center
(573) 882-2021
http://theatre.missouri.edu

The Department of Theatre offers students an appreciation of theatre as a fine art, sharpens the talents of those who seek careers in theatre and provides students with methods of stimulating and using their imagination and intensifying their communication skills.

The department offers BA, MA and PhD degrees with a major in Theatre. A minor is also available.

Faculty

Associate Professor K. Brown**
Assistant Professor B. Carlson*, C. Syler**
Assistant Teaching Professor J. A. Drtina, C. Gleason*

* Graduate Faculty Member - membership is required to teach graduate-level courses, chair master's thesis committees, and serve on doctoral examination and dissertation committees.

** Doctoral Faculty Member - membership is required to chair doctoral examination or dissertation committees. Graduate faculty membership is a prerequisite for Doctoral faculty membership.

Undergraduate

- BA in Theatre (p. 324)
  - with emphasis in Design/Technical (p. 325)
  - with emphasis in Performance (p. 325)
  - with emphasis in Writing for Performance (p. 326)
- Minor in Theatre (p. 327)

Departmental Honors

To graduate with honors in theatre, a student must earn a minimum overall MU GPA of 3.3 and earn a minimum GPA of 3.5 in courses in theatre completed at the University of Missouri.

Double Majors

Many students in theatre choose either a double major or a minor in another area. In either case, the student must see a theatre advisor for approval.

Graduate

- MA in Theatre (p. 327)
- PhD in Theatre (p. 328)

Theatre Graduate Programs
College of Arts and Science
129 Fine Arts Center

Director of Graduate Studies: Cheryl Black

About the Department of Theatre

The MU Department of Theatre has a distinguished history that began shortly after 1900 when a small group of aspiring thespians resolved to enhance the cultural life of the campus by producing plays in an abandoned dining room in Lathrop Hall. In 1925, Professor Donovan Rhynsburger joined the MU faculty and established the Missouri Workshop Theatre. For over 85 years, the department has sustained a national and international reputation as a major center for theatre and performance scholarship and dramatic art production. In 2007 “Academic Analytics” ranked MU Department of Theatre #4 nationally for scholarly productivity in Theatre Literature, History, and Criticism (reported in Chronicle of Higher Education, November 11, 2007). MU Theatre offers graduate and undergraduate programs.

A professional faculty comprises internationally recognized scholars and artists who develop the talents, skills and knowledge of students by teaching them to combine scholarship with artistry. MU has consistently produced fine theatre and notable alumni, including Tennessee Williams, George C. Scott, Tom Berenger, Chris Cooper, Jon Hamm, Ethel Pitts Walker, and Barbara Molette. MU students have won the prestigious David Library Award seven times, several nationally coveted awards like the Mark Twain Comedy Prize, and departmental productions have been cited for national awards by the Kennedy Center American College Theater Festival, the National Communication Association, and the Association of Theatre in Higher Education. Graduate students in the department have won numerous campus, professional and national awards, fellowships and research grants for their scholarship and artistry. The department is proud of its legacy of artistic excellence and the enrichment it brings to the cultural life of the campus and community.

Facilities

Rhynsburger Theatre. Named after Donovan Rhynsburger, MU’s principal theatre for dramatic productions is in the Fine Arts Building, which also houses the music and art departments. The 278-seat proscenium theatre has a large stage and fly system with well-equipped costume and scenic shops located adjacent to the stage. The theatre houses faculty offices, classrooms, shops, dressing rooms and other production support spaces. Students interested in lighting and sound production will find a variety of equipment and modern control systems on which to learn their craft. We’re also thrilled to announce the addition of a new, state-of-the-art professional computer graphics lab in 2012.

Corner Playhouse. The Corner Playhouse provides an opportunity for students and faculty to present smaller, often more experimental productions in a flexible space. Seating up to 125, the theatre is designed to accommodate any stage configuration. Across the street from the Rhynsburger Theatre, the Corner Playhouse also houses dressing rooms, graduate student offices and classrooms.

Satisfactory Progress: General Guidelines for MA and PhD in Theatre

Probationary Status

The following constitute grounds for placing a student on departmental probation:
Earning a grade of C or below in any departmental course taken for graduate credit will result in probationary status. A grade of incomplete in any course will result in probationary status for the subsequent semester. Incomplete grades must be changed to a grade of A or B by the end of the probationary semester (dissertation research incompletes are evaluated as S/U until the dissertation is defended). Failure to comply in a satisfactory manner with all responsibilities related to graduate assistantships. Graduate students in our department are expected to conduct themselves in a manner reflecting the university's commitment to professional integrity, collegiality, and good citizenship. Students who consistently fail to conduct themselves in this manner may be subject to probation or dismissal. In the case of each student on departmental probation, the director of graduate studies will confer with the advisor (in the case of an MA student), or the members of the program committee (in the case of a PhD student) to determine the grounds for removal of probation, and will communicate this decision to the student.

Annual Review

Each Fall semester the director of graduate studies convenes the Graduate Studies Committee to review the progress and performance of all graduate students.

Each graduate student in residence should meet with his or her advisor within the first two weeks of each semester to determine whether satisfactory progress has been maintained, and the advisor shall report the results of this meeting to the director of graduate studies.

Losing & Regaining Financial Support

Termination of departmental financial support will result if the student is considered to be making unsatisfactory progress and the student's program may be terminated. Departmental financial support may be restored when the student has made satisfactory progress toward a graduate degree for one semester, has made an A or a B in all incomplete courses, and is judged to be off probation by the director of graduate studies.

BA in Theatre

Degree Program Description

The study of Theatre focuses upon the produced play, past, present, and future. The BA in Theatre offers students an appreciation of theatre as a fine art, sharpens the talents of those who seek careers in theatre and provides students with methods of stimulating and using their imagination and intensifying their communication skills. Students must choose from one of three emphasis areas: Design/Technical, Performance, and Writing for Performance. The curriculum includes: examining the heritage of theatre through dramatic literature and theatre history, exercises in theatrical skills, artistic training in design and performance, and theory and criticism of theatre. The Rhynsburger Theatre, the Corner Playhouse, and outreach programs serve as laboratories for ongoing examination of theatre in society, responsive to social issues. Working with faculty and staff of professionally trained actors, directors, and designers, students focus on performance, writing for performance, and theatre design and technology. MU undergraduate theatre students have taken their work to the Kennedy Center American College Theatre Festival, winning awards in acting, playwriting, design, and dramaturgy. After graduation, many of our students find work in film, television, and the professional theatre as actors, directors, designers, stage managers, artists, and technicians, or go on to graduate school to further their theatre education.

Major Program Requirements

The major in Theatre consists of core courses and an emphasis area. In addition, all students must complete all College of Arts and Sciences and University graduation requirements (p. 30), including University General Education (p. 31). All courses used to satisfy requirements for the major must be completed with a grade of C or higher.

BA in Theatre with Emphasis in Design/Technical

Degree Program Description

Students in the BA in Theatre with emphasis in Design/Technical study scene design, lighting design, costume design, sound design, theatre technology, and stage management. They further their studies with additional classes in beginning and advanced scenic and costume construction, makeup, stagecraft, costume crafts, pattern making, scenic painting, and theatre architecture. Theatre design students sketch design ideas with pencil and paper, and render those design ideas in 3-D in our computer labs, combine traditional stagecraft techniques with state of the art computer technology, digital image projection, and digital sound mixing. Students participate behind the scenes in a variety of productions -- from main stage faculty-directed musicals and plays, to student-directed shows, ensembles and workshops, take on major roles in our production program as scenic designers, lighting designers, costume designers, sound designers, projection designers, and makeup designers, work as stage managers, carpenters, electricians, riggers, stitchers, cutters, drapers, wardrobe supervisors, props supervisors, lighting and sound board operators, followspot operators, stagehands, and crew members. Graduates work in all areas of the entertainment industry as designers, technicians, directors, teachers, Broadway producers and stage managers, theatre managers, casting agents, box office managers, and scenic artists. We have a strong network of alumni who support one another as they design and build scenery, props, and costumes, mix sound, renovate historic theatres, and work professionally backstage, behind the scenes, and behind the camera in theatre, film, and television in New York, Chicago, Los Angeles, and across the country.

BA in Theatre with Emphasis in Performance

Degree Program Description

Students in the BA in Theatre with emphasis in Performance are offered a curriculum that includes a sequence of acting and performance classes, emphasizing scene study in comedy and drama, contemporary and period styles, stage movement, vocal performance, and musical theatre performance. But it's more than just acting, singing, and dancing – our performance students take introductory and advanced classes in theatre history, script analysis, directing, stage combat, improvisation, and dramatic work. Students have the opportunity to put into practice what they learn in the classroom by performing in a variety of productions -- from main stage faculty-directed musicals and plays, to student-directed shows, ensembles and workshops. College credit can be earned during the spring semester as a member of our professional Summer Repertory Theatre company. MU Theatre alumni are involved in theatre, film, and television in New York, Chicago, Los Angeles, and across the country.
and the performing arts by entertaining and enlightening audiences everywhere.

Students must complete all College of Arts and Science and University graduation requirements (p. 30), including University general education (p. 31).

**BA in Theatre with Emphasis in Writing for Performance**

**Degree Program Description**

Student in the BA in Theatre with emphasis in Writing for Performance are offered a curriculum that includes a sequence of creative writing and literature classes, emphasizing the art and craft of writing as it applies to theatre and performance. MU student playwrights tell their stories through the words and actions of the characters they create. Students take a series of introductory and advanced classes in playwriting, acting, directing, dramaturgy, theatre history, script analysis, performance studies, world dramatic literature, adaptation of literature for stage and film, and screenwriting for film and television. They study dramatic structure, plot and story structure, complex character development, and special playwriting problems and techniques. Students participate in our annual Life and Literature Performance Series which is a celebration of original student plays, stories, poetry, and adaptations of literature, devised theatre, ethnography, performance art, music, and dance. Student playwrights have their new plays performed every week at our Missouri Playwrights Workshop, presented as concert readings during our annual Mizzou New Play Series and summer Comedies-in-Concert Series, and fully produced during our Academic Season as MU Theatre mainstage productions. Students are regularly invited to share their ten-minute plays, one-act plays, and full-length plays at local, regional, and national theatre events, including the annual Kennedy Center American College Theatre Festival. Graduates are involved in theatre, film, and television productions in New York, Chicago, Los Angeles, and across the country. They are playwrights, screenwriters, dramaturges, editors, storytellers, and teachers, who share their imagery, creativity, and theatrical imagination with audiences everywhere.

Students must complete all College of Arts and Science and University graduation requirements (p. 30), including University general education (p. 31).

Dr. Cheryl Black
129 Fine Arts Building; Columbia, MO 65211
(573) 882-0530
blackc@missouri.edu

Admission Criteria

https://theatre.missouri.edu/grad/application-process

Deadline: January 15 for the following fall semester admission. We only admit once a year, barring extraordinary circumstances.

- Minimum TOEFL scores:
  - Internet-based test (iBT) 112
  - Paper-based test (PBT) 650

- Minimum GRE scores:
  - Verbal
  - Quantitative
  - Analytical

When did you take the GRE?

<table>
<thead>
<tr>
<th>Time</th>
<th>Verbal</th>
<th>Quantitative</th>
<th>Analytical</th>
</tr>
</thead>
<tbody>
<tr>
<td>Prior to August 1, 2011</td>

<td>4.0</td>
</tr>
<tr>
<td>On or After August 1, 2011</td>
<td>160</td>
<td>146</td>
<td>4.0</td>
</tr>
</tbody>
</table>

Probationary admission is possible. The director of graduate studies will advise the student in writing of what must be done to change the probationary admission to regular admission.

Required Application Materials

To the Office of Graduate Studies:

- All required Graduate Studies documents

To the Theater Program:

- 3 letters of recommendation
- GRE score report
- Statement of purpose
- Scholarly writing sample

Financial Aid from the Program

Some programs require an extra form or statement from those who wish to be considered for internal assistantships, fellowships or other funding packages. Check the program Web site or ask the program contact for details.

Curriculum Requirements

The degree of Master of Arts in Theatre will be awarded upon completion of the curriculum outlined below with a GPA of 3.0 or better.

Completed Undergraduate Curriculum

Most students have completed this course of study before seeking admission to MU. However, applicants holding undergraduate degrees in disciplines other than theatre will be asked to complete those courses, which were not part of their undergraduate curriculum. In some cases professional theatre experience may substitute for certain courses. Twelve courses in the undergraduate curriculum should be distributed as follows:

- Basic skills: at least one course in each of the following: voice and articulation, movement for the stage, script analysis, technical theatre;
- At least one upper-division course in each of the following: acting, directing, dramatic literature, theatre history;
- at least two upper-division courses in technical theatre; and two upper-division theatre electives.

Graduate Curriculum

The student must complete at least 24 graduate hours while in residence as a graduate student at MU. The academic program should be established in consultation with an advisor not later than the end of the first full semester of residence. No more than six semester hours of graduate work may be transferred from another university. The student submits Form M-1, Application for Degree of Master of Arts to the Graduate Studies listing the courses to be taken to complete the graduate curriculum.
Independent Project
Each candidate for the MA must complete an independent project, which should be specified on the M-1 form as part of the plan of study. There are three options:

1. This may be a thesis, for which up to six semester hours of credit in Theatre Research may be earned.
2. Another option is to write an original performance/play, translate a play/performance, or complete a project in acting, design, adaptation/devising, dramaturgy, solo performance or directing. Credit of up to three semester hours may be earned in a graduate problems course.
3. A student may create and successfully execute a research project to earn three semester hours in a graduate course in independent research.

Satisfactory Progress: General Guidelines for MA in Theatre

Probationary Status
The following constitute grounds for placing a student on departmental probation:

Earning a grade of C or below in any departmental course taken for graduate credit will result in probationary status. A grade of incomplete in any course will result in probationary status for the subsequent semester. Incomplete grades must be changed to a grade of A or B by the end of the probationary semester (dissertation research incompletes are evaluated as S/U until the dissertation is defended). Failure to comply in a satisfactory manner with all responsibilities related to graduate assistantships. Graduate students in our department are expected to conduct themselves in a manner reflecting the university’s commitment to professional integrity, collegiality, and good citizenship. Students who consistently fail to conduct themselves in this manner may be subject to probation or dismissal. In the case of each student on departmental probation, the director of graduate studies will confer with the advisor (in the case of an MA student), or the members of the program committee (in the case of a PhD student) to determine the grounds for removal of probation, and will communicate this decision to the student.

Annual Review
Each Fall semester the director of graduate studies convenes the Graduate Studies Committee to review the progress and performance of all graduate students.

Each graduate student in residence should meet with his or her advisor within the first two weeks of each semester to determine whether satisfactory progress has been maintained, and the advisor shall report the results of this meeting to the director of graduate studies.

Losing & Regaining Financial Support
Termination of departmental financial support will result if the student is considered to be making unsatisfactory progress and the student’s program may be terminated. Departmental financial support may be restored when the student has made satisfactory progress toward a graduate degree for one semester, has made an A or a B in all incomplete courses, and is judged to be off probation by the director of graduate studies.

Master’s Final Examination
Master’s degree students who have been maintaining satisfactory progress toward a degree for a period of 24 months are expected, barring unusual and extenuating circumstances, to be prepared to write the master’s final examination.

Each candidate for the MA is required to pass a final examination to demonstrate mastery of the fundamental principles of the work included in the course of study. An examining board consisting of at least three members of the faculty shall administer the examination. In consultation with his or her advisor the student selects four areas for examination from among those listed below:

At least two but no more than three areas may be selected from among:

- Theatre History and Historiography
- Dramatic Literature and Criticism
- Dramatic and Performance Theory
- Performance Studies and Writing for Performance

At least one but no more than two areas must be selected from among:

- History, Theory or Pedagogy of Acting or Directing
- History, Theory or Pedagogy of Dramaturgy
- History, Theory or Pedagogy of Theatrical Design
- History, Theory or Pedagogy of Performance Studies
- History, Theory or Pedagogy of Playwriting/Writing for Performance

Length of Exam
Two hours are allotted for answering the question(s) for each area, making a total of eight hours for the examination.

Notifying the Graduate School of Results
As soon as the performance on the Master’s Final Examination has been evaluated, the student’s advisor informs the Graduate School, using the appropriate M-form.

If one area examination is unsatisfactory, the examining board will give the student an oral examination on that area, with special emphasis on the questions or questions missed. If two area examinations are unsatisfactory, the student is failed.

• Professional résumé or portfolio
• Creative (dramatic) writing samples

Financial Aid from the Program

Some programs require an extra form or statement from those who wish to be considered for internal assistantships, fellowships or other funding packages. Check the program website or ask the program contact for details.

Careers

The doctorate in theatre at MU aims to provide knowledge and research skills necessary to launch the successful student on a career of scholarly and artistic investigation of theatre history, performance theory and criticism, performance studies, playwriting and other modes of writing for performance (such as adaptation and translation), dramaturgy, performance and theatre pedagogy.

Qualifying Examination

During the first semester of residence, the student completes a qualifying examination. The Graduate Affairs Committee of the Department of Theatre meets with the student to discuss the student’s academic background, career goals and research interests for an oral review and discussion of their proposed course of study. The advisor submits the D-1 form, Qualifying Process/Confirmation of Advisor, reporting on the departmental qualifying process.

Advisory Committee: Form D-1

Doctoral Program Committee asks the graduate dean to approve a committee of four graduate faculty members to help the student plan and carry out a program. One member of the Doctoral Program Committee must come from outside the Department of Theatre.

Program Planning

As early as is practical, usually in the student’s second semester on campus, the student should meet with the Doctoral Program Committee to plan a doctoral program. The student should prepare a trial plan in consultation with the faculty advisor who serves as chair of the Doctoral Program Committee and reports the approved plan of study to the graduate dean on Form D-2: Doctoral Plan of Study.

Theatre Department Course Work

Although the Graduate School requires no specific number of hours of class work, the Department of Theatre typically requires students entering the program with a master’s degree to complete about 40 semester hours of graduate level course work in the theatre department, including three semester hours of Dissertation Research, devoted to writing a dissertation prospectus.

Doctoral Minor

The department also requires the student to complete a doctoral minor, a nine-semester-hour unified area of study outside the Department of Theatre.

Research Tool Options

The PhD in Theatre also includes a research tool requirement that may be satisfied in several ways:

1. Option One: Present evidence of translation ability in each of two foreign languages in one of the following ways: by receiving an acceptable score on a GFSLT Humanities examination if the language is French, German or Spanish (Acceptable scores at this time are: French 570, German 560 and Spanish 540) by receiving certification of competence from a qualified examiner if other languages are presented by showing on one’s transcript a grade of B or better on a literature course at MU. (This course must require reading of works in the foreign language. The course may be taken during the doctoral program or within the five years prior to beginning the program.)

2. Option Two: Demonstrate a high degree of fluency in one foreign language by individual examination conducted by the appropriate language department at MU.

3. Option Three: Choose one language and one block of courses. Demonstrate translation ability for one language as in Option One. Complete with grades of B or better six semester hours in graduate courses taken outside of the department that represent a coherent unit of study, providing a research tool applicable to the candidate’s dissertation research.

4. Option Four: Choose two blocks of courses. Complete with grades of B or better two blocks of course work of six hours each in graduate level courses taken outside of the department that must represent to the candidate’s advisory committee a coherent unit of study. One or both blocks should provide a research tool for the candidate’s dissertation.

Participation in Productions

The doctoral student is encouraged to participate in University Theatre and studio theatre productions and may, in some cases, be required to do so. Academic credit is available.
Satisfactory Progress Guidelines for the PhD in Theatre

Probationary Status

The following constitute grounds for placing a student on departmental probation:

- Earning a grade of C or below in any departmental course taken for graduate credit will result in probationary status.
- A grade of incomplete in any course will result in probationary status for the subsequent semester. Incomplete grades must be changed to a grade of A or B by the end of the probationary semester (dissertation research incompletes are evaluated as S/U until the dissertation is defended).
- Failure to comply in a satisfactory manner with all responsibilities related to graduate assistantships. Graduate students in our department are expected to conduct themselves in a manner reflecting the university’s commitment to professional integrity, collegiality, and good citizenship.
- Students who consistently fail to conduct themselves in this manner may be subject to probation or dismissal. In the case of each student on departmental probation, the director of graduate studies will confer with the advisor (in the case of an MA student), or the members of the program committee (in the case of a PhD student) to determine the grounds for removal of probation, and will communicate this decision to the student.

Annual Review

Each Fall semester the director of graduate studies convenes the Graduate Studies Committee to review the progress and performance of all graduate students.

Each graduate student in residence should meet with his or her advisor within the first two weeks of each semester to determine whether satisfactory progress has been maintained, and the advisor shall report the results of this meeting to the director of graduate studies.

Losing & Regaining Financial Support

Termination of departmental financial support will result if the student is considered to be making unsatisfactory progress and the student’s program may be terminated. Departmental financial support may be restored when the student has made satisfactory progress toward a graduate degree for one semester, has made an A or a B in all incomplete courses, and is judged to be off probation by the director of graduate studies.

Satisfactory Progress Before the Comprehensive Exam

Each semester prior to the semester in which comprehensive examinations are taken, satisfactory progress is maintained when a student completes nine semester hours of graduate level work with a grade of B or above. Incomplete grades are given only under extraordinary circumstances and with the approval of the graduate faculty. Doctoral students who have been maintaining satisfactory progress toward a degree for a period of 36 months are expected, barring unusual and extenuating circumstances, to be prepared to write comprehensive examinations.

Satisfactory Progress During and After Comps

For the semester in which comprehensive examinations are taken and in semesters after comprehensive exams and orals are passed, satisfactory progress is maintained when, in the judgment of the student’s dissertation advisor, the student is making satisfactory progress toward completion of the dissertation.

Students who leave MU having completed all but the dissertation must maintain continuous enrollment by registering for two semester hours of Dissertation Research each fall and spring term and one hour in the summer term. Failure to register negates a student’s candidacy.

Graduate Studies Regulations on Satisfactory Progress

The Graduate Studies regulations regarding a reasonable rate of progress for doctoral students enrolled during or after Fall 2000: Effective for students beginning their doctoral studies during or after Fall Semester 2000, a PhD student must successfully complete the comprehensive exam within a period of five years beginning with the first semester of enrollment as a PhD student. For an extension of this time limit, the student must petition the Office of Graduate Studies by submitting a request to the advisor, who, in turns, submits, via the departmental director of graduate studies, a written recommendation to the Office of Graduate Studies. The Theatre Department recommends taking comprehensive exams no later than the third year of consecutive full enrollment. Only students who have taken and passed their exams by May of their third year of assistantship will be considered for a fourth year of assistantship with the department.

All requests for extensions should be endorsed by the departmental director of graduate studies and should be accompanied by a description of the process whereby currency in the discipline is certified, if required by the department.

Dissertation Proposal/Prospectus

Before comprehensive exams may be scheduled, students will be required to complete a 5-page Dissertation Proposal, concisely but clearly expressing the purpose, justification, method and general organizational plan for the dissertation. A bibliography is also required (bibliography is not included in 5 pp. minimum). The theatre department faculty members on student’s doctoral committee must approve this proposal. After successful completion of comprehensive exams, the student will expand the dissertation proposal into a Dissertation Prospectus — a more detailed and thorough description of the dissertation project. The prospectus should provide a clear statement of the purpose of the dissertation, describe the need for the knowledge the dissertation report will supply, outline the research questions and demonstrate the procedures by which the scholar will answer these questions. The candidate will present the prospectus to the Doctoral Program Committee and will be prepared to defend it.

Comprehensive Examination

After completing the research tool option, a substantial amount of the course work and after obtaining the approval of the 5-page proposal from the Doctoral Program Committee, the student takes the comprehensive examination. The comprehensive examination provides an opportunity for the student to demonstrate a thorough grasp of the history and principles of theatre. The examination provides the Doctoral Program Committee
with a window looking back upon the student’s training as well as a chance to estimate the student’s potential as a problem solving scholar of theatre. Readers of the examination look for more than a reiteration of the content of standard sources of information about dramatic art. The examinee should demonstrate an ability to analyze problems and data, to formulate theses or points of view, and to locate, evaluate and organize evidence to support a contention—the essential skills of scholarship. The comprehensive examination in theatre allows candidates not only to tell what they know but also to demonstrate what they can do with information. Comprehensive exams are scheduled once each semester, during the first third of the current semester.

Stages of the Comprehensive Exam
The examination is given in two stages.

• Stage One consists of a written examination, over the history of theatre, dramatic theory, criticism, writing for performance, performance studies, and theatre pedagogy, and an additional (written) examination consisting of one or two questions posed by the outside member of the Doctoral Program Committee. The examination is evaluated by the student’s Doctoral Program Committee, which decides whether or not the student should be advanced to the oral examination.

• Stage Two is the oral examination administered by the Doctoral Program Committee. This examination provides an opportunity for the student to correct, amend, or defend assertions made in the written examination, although the oral examination is not bound by any limits established by the written examination. Ordinarily, two hours duration, the oral is also an opportunity for the student to demonstrate skill in oral explanation and argument.

Criteria for Passage of the Comprehensive Exam
The result of the comprehensive examination shall be marked pass if all of the Doctoral Program Committee members recommend a pass on the entire examination, both written and oral sections. Should the examination be marked fail, the committee may recommend that the candidate retake the examination after a minimum period of 12 weeks. A report of the committee’s decision (Form D-3), carrying the signatures of all members of the committee, is sent to the Graduate School and to the student no later than two weeks after the comprehensive examination is terminated.

If a failure is reported, the committee also must include in the report an outline of the general weaknesses or deficiencies of the student’s work. The student and the committee members are encouraged to work together to identify steps the student might take to become fully prepared for the next examination. If at any time the student believes that the advice given by the committee is inadequate, the student may send a written request for clarification to the committee. A copy of this request should be sent to the Graduate School. The committee must respond to this request in writing within two weeks with a copy to the Graduate School. Failure to pass two comprehensive examinations automatically prevents candidacy for the doctorate in theatre at MU.

Completing the Dissertation
The final step is completion and approval of the doctoral dissertation. The director of graduate studies can provide the student a copy of Guidelines for Preparing Theses and Dissertations.

Formatting
Dissertations in the Department of Theatre should be formatted according to the latest edition of A Manual for Writers of Term Papers, Theses, and Dissertations, ed. Kate L. Turabian or the MLA Handbook; the chosen format must meet with the dissertation advisor’s approval.

Graduate School Paperwork
Form D-4, Report of the Doctoral Dissertation Defense, indicates that the student has defended the dissertation at an oral examination.

Advisory and Committee Approval of the Dissertation
No draft of the dissertation can be considered a final draft until the advisor (First Reader) has approved it. All dissertation committee members must have at least 10 days to read the dissertation before the last date for oral examination as published by the Office of Graduate Studies. Unanimous approval of the dissertation by four committee members constitutes satisfactory completion of this examination.

Additional Minors and Certificates - A&S

Undergraduate Certificates
• Certificate in American Constitutional Democracy (p. 332)
• Certificate in Jazz Studies (p. 333)
• Certificate in Multicultural Studies (p. 334)
• Certificate in Music Entrepreneurship (p. 334)

Undergraduate Minors
• Minor in Aerospace Studies (p. 334)
• Minor in Afro-Romance Literatures in Translation (p. 334)
• Minor in American Constitutional Democracy (p. 334)
• Minor in Astronomy (p. 336)
• Minor in Black Studies (p. 336)
• Minor in Canadian Studies (p. 336)
• Minor in Chinese Studies (p. 337)
• Minor in East Asian Studies (p. 337)
• Minor in French (p. 338)
• Minor in Italian Area Studies (p. 338)
• Minor in Japanese Studies (p. 338)
• Minor in Jazz Studies (p. 338)
• Minor in Korean Studies (p. 339)
• Minor in Latin American Studies (p. 339)
• Minor in Leadership and Public Service (p. 339)
• Minor in Luso-Brazilian Area Studies (p. 339)
• Minor in Medieval and Renaissance Studies (p. 340)
• Minor in Middle East Studies (p. 340)
• Minor in Military Science (p. 341)
• Minor in Missouri Studies (p. 341)
• Minor in Musical Theatre (http://catalog.missouri.edu/undergradugraduate/collegeofartsandscience/additional-minors-certifications/minor-musical-theatre)
• Minor in Native American and Indigenous Studies (p. 341)
• Minor in Peace Studies (p. 341)
• Minor in Romance Literatures in Translation (p. 342)
• Minor in South Asian Studies (p. 342)
• Minor in Spanish (p. 342)
• Minor in Strategic Studies (p. 342)
• Minor in Women's and Gender Studies (p. 343)

Graduate Certificates
• Certificate in Geospatial Intelligence (p. 343)
• Certificate in Global Public Affairs (p. 344)
• Certificate in Grantsmanship (p. 344)
• Certificate in Jazz Studies (p. 345)
• Certificate in Lifespan Development (p. 345)
• Certificate in Music Entrepreneurship (p. 346)
• Certificate in Nonprofit Management (p. 347)
• Certificate in Organizational Consulting and Change (p. 347)
• Certificate in Public Management (p. 347)
• Certificate in Public Policy (p. 348)
• Certificate in Science Outreach (p. 348)

Graduate Minors
• Minor in Black Studies (p. 349)
• Minor in Medieval and Renaissance Studies (p. 349)
• Minor in Museum Studies (p. 350)
• Minor in Musicology (http://catalog.missouri.edu/undergraduate/graduate/collgeofartsandscience/additional-minors-certifications/graduate-minor-musicology)
• Minor in Psychological Statistics and Methods (p. 350)
• Minor in Women's and Gender Studies (p. 350)

Certificate in American Constitutional Democracy

For general questions about the certificate, contact:
Justin Dyer, Program Director
(573) 882-3777
dyerjb@missouri.edu

Political Science Academic Advisor
(573) 882-2580
politicalscience@missouri.edu

The certificate in American Constitutional Democracy recognizes students who have completed twelve (12) hours of coursework at the University of Missouri on the history, theory, and practice of American constitutional self-government. In contrast to the minor, students pursuing the certificate are not required to complete a study abroad course or internship. Note: courses used to satisfy a major requirement may also count toward a certificate. However, students may not receive credit for both the certificate and the minor in American Constitutional Democracy and cannot apply transfer credit to the certificate.

Students must maintain a “B” average (3.0 GPA) in all certificate coursework. All coursework must be completed at MU.

Must complete 12 hours from the following courses:

A minimum of 12 credits is required, including the following:

**Certificate in Jazz Studies**

Undergraduate Music and Music Education Majors (BM, BA Music) may earn a Certificate in Jazz Studies by completing this core of courses in jazz. Approval for admission into the Certificate program must be received from the Director of Jazz Studies.

A minimum of 12 credits is required, including the following:

- **MUS_THRY 4210** Jazz Harmony and Arranging I 2
- **MUS_THRY 4211** Jazz Harmony and Arranging II 2
- **MUS_I_VT 1620** Jazz Piano Class 1
- **MUS_I_VT 4645** Jazz Improvisation 2
- **MUS_H_LI 4317** Historical Studies in Jazz and Popular Music 3
- **MUS_ENS 1841** Instrumental Ensemble (Total Credits 2) 2

Total Credits 12
Certificate in Multicultural Studies

The College of Arts and Sciences offers a Certificate in Multicultural Studies. Students earning the certificate will become familiar with multicultural and diversity issues. In an increasingly global environment, students earning this certificate will be better prepared to understand and to facilitate cross-cultural interactions in their future careers, as well as in their general life experiences.

Requirements

Students are required to complete a coherent program of 15 credit hours from a list of approved courses*. Approved courses for the certificate critically evaluate and examine issues of social inequality and social stratification (e.g., gender, race, ethnicity, religion, region, sexuality, and/or class inequality) globally and in the United States. Courses must be chosen from at least 2 different departments/programs. At least 6 credits must be completed at the 3000 level or above. One course (up to 3 credit hours minimum and 6 credit hours maximum) may include an applied experience of cultural difference*. Approved research-based undergraduate courses, transcripted Study Abroad and other experiences approved through the Center for International Programs and Studies, and transcript-designated “Service Learning” coursework are among the possibilities. Only coursework in foreign languages that is numbered above 2100 is applicable, and the maximum number of such credit hours is 6. A grade of C- or higher must be earned in each course, and students must maintain a cumulative GPA of 2.0 for overall coursework counting towards the certificate. Consistent with MU policy on certificates, an undergraduate degree and certificate must be awarded simultaneously.

* Contact the Multicultural Certificate Program office, 58 McReynolds, for full details and an updated course list, or go to http://multicultural.missouri.edu/

Certificate in Music Entrepreneurship

The Undergraduate Music Entrepreneurship Certificate offers MU students an officially recognized core of courses dealing with the development, business, and publicity aspects of a musical career. In today's fine arts economy, an increasingly viable and popular model is the “portfolio career,” in which a person incorporates multiple roles (e.g. performer, teacher, advocate, manager, publicist, composer/arranger, etc.) rather than pursuing one narrowly defined career path. Contextualizing the vision, skills, and networking activities needed to achieve a viable arts career, while offering a combination of theoretical and practical career preparation for Mizzou students, is the overarching aim of the Certificate.

Availability: Aimed primarily at degree-seeking students in music and music education, this certificate is also available to students in other majors with a commitment to pursuing a career in the music industries. All students who wish to declare the certificate must receive approval from our Entrepreneurship Coordinator, Leigh Muñoz, mailto:munozl@missouri.edu (munozl@missouri.edu).

Total Credits 12

Minor in Aerospace Studies

A minor in Aerospace Studies is available upon the completion of 15 semester hours, of which 12 hours are taught by Aerospace Studies. The additional 3 hours must be approved by the Department of Aerospace Studies and be in the academic area of history, political science, sociology, military science disciplines, or peace studies.

Minor in Afro-Romance Literatures in Translation

The Minor in Afro-Romance Literatures in Translation is not currently accepting students as the minor is under revision.

Minor in American Constitutional Democracy

For general questions about the minor, contact:
Justin Dyer, Program Director
(573) 882-3777
dyerjb@missouri.edu
Political Science Academic Advisor
(573) 882-2580
politicalscience@missouri.edu

The minor in American Constitutional Democracy is designed for those students who wish to delve more deeply into the American experience with self-governance, exploring the development of the American state and the intellectual, political, historical, and cultural forces that contributed to this development. The minor is appropriate for students in many majors, particularly political science, economics, history, and journalism.

The minor affords students a unique opportunity to gain a broad perspective on issues of American political development, allowing focus on areas where they may have additional educational requirements not offered in their chosen major field of study. In addition, it contains an “experiential” component that permits students to consider constitutional issues in practice and/or in comparative perspective.

Minor Requirements

A minimum of fifteen (15) credits are required for the minor. Students in the minor must maintain a B average (3.0 GPA) for courses in the minor.

A minimum of twelve (12) credits must come from the following courses. At least nine (9) hours must be completed at MU.

Additionally, a minimum of three (3) credits must come from an experiential component. The experiential component may be satisfied through participation in either an internship or study abroad program associated with the minor or approved by the director of the minor.
The minor must be completed with courses from at least two (2) subject areas.

- A minor must be completed and awarded at the same time as the MU undergraduate degree
- Once an A&S minor is awarded, a student cannot return to MU to complete a major in the same department
- Minor coursework cannot also be used for Foreign Language Alternative

Minor in Astronomy

Astrophysics (3 credit hours), plus two additional astronomy courses at the 3000/4000 level or above.

A student must have a total of 19 credit hours to receive a minor in astronomy. At least nine of the 19 credit hours must be completed on-campus. A course in which a grade of D+ or below was received will not count towards the minor. To receive your minor in astronomy, you must print and fill out the minor form (https://physics.missouri.edu/sites/default/files/undergrad-files/fileastronomyminorform.pdf), have it signed by the Director of Undergraduate Studies in the Physics and Astronomy Department, and then take it to 107 Lowry Hall.

Minor in Black Studies

Students seeking a minor in Black Studies must complete 15 credits, including those listed below.

**BL_STU 1000 Introduction to Black Studies** 3

One course in each of three content areas (one must focus on gender) 9

- Social Science (includes History, Political Science, etc.)
- Behavioral Science (includes Sociology, Psychology, etc.)
- Humanities (includes English, Music, Religious Studies, etc.)

One additional course in any of the three content areas 3

Total Credits 15

- Students are also encouraged to take a course in three regional areas of study: Africa, African America, and the Black Diaspora.
- A minimum of 6 credits numbered 2000 or above and at least one 3000-level course must be taken.
- At least 9 credits must be in courses other than readings, methods, techniques or problems.
- A maximum of 3 credits of the minor may be taken in Black Studies courses outside the College of Arts & Science.

Minor in Canadian Studies

For general questions about the minor, contact:

James Endersby, Program Director  
(573) 882-4238  
endersby@missouri.edu

Political Science Academic Advisor  
(573) 882-2580  
politicalscience@missouri.edu

A Minor in Canadian Studies allows you to

- participate in Study Abroad programs in Canada
- enhance your degree and career options
- learn about the culture, history, and politics of Canada

With a minor in Canadian Studies, students will be better equipped to deal with political, economic, social and even cultural issues that will arise vis-a-vis Canada, a close military ally and trading partner. In an era that features the internet, Free Trade, and most importantly, issues of border security and national defense, knowledge of Canada is particularly useful in a number of careers. The Canadian Studies Program is an interdisciplinary program which includes Political Science, Geography, Anthropology, Romance Languages, and Public Affairs. The minor concentration in Canadian Studies will require 15 hours of credits. Courses may be selected from at least two of the disciplines listed below.

Note: Students may petition the director of the minor to include a maximum of three (3) hours from a related course outside the Departments of Political Science and History. Outside courses may have additional prerequisites.
Any course qualifies for the Minor in Canadian Studies as long as it contains at least one-third content on Canada.

- A minor must be completed and awarded at the same time as the MU undergraduate degree.
- Once an A&S minor is awarded, a student cannot return to MU to complete a major in the same department.
- Minor coursework cannot also be used for Foreign Language Alternative.

Minor in Chinese Studies

Students may obtain a minor in Chinese Studies by completing at least 15 credits of Chinese courses. At least nine of these hours must be completed on campus, or as part of an MU faculty-led study abroad program. At least nine of these credit hours must be earned in Chinese language courses beyond the elementary level. The remaining six hours can be earned in non-language Chinese culture courses, or courses from other departments that relate to China.

The Chinese Minor form can be downloaded here (http://catalog.missouri.edu/undergraduategraduate/collegeofartsandscience/additional-minors-certifications/minor-chinese-studies/Chinese_Minor_Form.pdf) (links to PDF). To apply for a minor in Chinese, visit the Department of German & Russian Studies in 448 Strickland Hall.

Minor in East Asian Studies

Office of Multidisciplinary Degrees
326H Strickland Hall
https://omd.missouri.edu/?q=eas-minor/index

Requirements

- Complete 9 hours related to one cultural group and 6 hours related to a second cultural group. For example, a student can complete 9 hours related to Chinese studies and 6 hours related to Japanese studies. The cultural group options are Chinese, Japanese, and Korean.
- At least 6 credits must be numbered 2000 level or above.
- Nine of the required credits must be completed at MU.
- The elementary levels of language (Japanese, Chinese, and/or Korean) may NOT be used to fulfill minor requirements.
- Intermediate-level language courses may be used to meet minor requirements.
- A minimum grade of C- is required for each course taken in the minor. A minimum cumulative GPA in all minor coursework is 2.0.

Policies

- Courses required for the minor may also be used to meet the College of Arts & Science Foundation requirements.
- Minors are only awarded to undergraduate students who are simultaneous recipients of a Bachelor degree.
- Students may not earn a major and a minor in the same field. In addition, students may not earn a major emphasis and a minor in the same field.

For course options see https://omd.missouri.edu/?q=eas-minor/index.
**Minor in French**

Students may obtain a French minor by completing a minimum of 15 credits beyond FRENCH 2100, of which at least 6 credits must be in literature. Courses taught in English and cross-listed courses taught in English do not count toward the minor. The courses listed below are the most likely choice.

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>FRENCH 2160</td>
<td>Intermediate French Composition and Conversation</td>
<td>3</td>
</tr>
<tr>

<td>Advanced French Composition and Commercial French</td>
<td>3</td>
</tr>
<tr>
<td>FRENCH 3410</td>
<td>Introduction to Literary Analysis</td>
<td>3</td>
</tr>
<tr>
<td>FRENCH 3420</td>
<td>Introduction to French Literature I</td>
<td>3</td>
</tr>
<tr>
<td>FRENCH 3430</td>
<td>Introduction to French Literature II</td>
<td>3</td>
</tr>
</tbody>
</table>

Students beginning at a level higher than FRENCH 2160 due to placement testing must still complete the minimum of 15 additional credits in order to receive the minor. A minimum of 9 credits, including 3 in literature, must be taken in residence.

Additionally, course work must be completed with a grade in the C range or higher in each of the required courses and students must maintain a 2.0 GPA in the minor.

**Minor in Japanese Studies**

Students may obtain a minor in Japanese Studies by completing at least 15 credits of Japanese courses. At least nine of these hours must be completed on campus. At least nine of these credit hours must be earned in Japanese language courses beyond the elementary level. The remaining six hours can be earned in non-language Japanese culture courses, or courses from other departments that relate to Japan.

**Minor in Italian Area Studies**

Students may obtain a minor in Italian area studies by completing at least 9 credits must be obtained through the mandatory course sequence: ITAL 2160, ITAL 3150, and ITAL 3160. The remaining 6 credits may be obtained by enrolling in two of our elective courses in English. Elective course offerings vary from year to year. Consult the current course offerings on myZou and/or in the Course Catalogue or contact an Italian faculty member for information for each academic year.

Normally, 9 credits must be completed in residence at MU. However, students are permitted to count 6 credits toward the minor from an officially sanctioned semester or year-long foreign study program in Italy. Six credits toward the minor can also be earned in summer programs abroad, such as the summer intensive language program offered by the University of Bergamo (near Milan) or by the Centro Fiorenza in Florence or on the Island of Elba.

Additionally, course work must be completed with a grade in the C range or higher in each of the required courses and students must maintain a 2.0 GPA in the minor.

Students coming from a different academic institution or students who took courses abroad should contact the Coordinator of Elementary Italian, Dr. Rita Cavignoli, an Italian faculty member before enrolling in any of our Minor courses taught in Italian. A placement exam may be administered in order to assess the student’s linguistic and cultural competence.

Election courses may also be chosen among Italian-emphasis courses offered by other UMC Departments (e.g., Art History, History, Music) or other UMC programs. These courses are subject to approval by either Dr. Rita Cavignoli (cavigiolir@missouri.edu) or Dr. Roberta Tabanelli (tabanellir@missouri.edu).

**Minor in Jazz Studies**

Student who have chosen a major in a non-music field may complete a minor in jazz. The Minor is not intended for beginners, but for students with basic musical knowledge. Hence the prerequisites (MUSIC_NM 1211 or MUS_THRY 1220) for three of the required courses (MUS_I_VT 1620, MUS_I_VT 4645, and MUS_THRY 4210) and auditions required for Jazz Ensembles. Approval for declaration of the Jazz Minor must be received from the Director of Jazz Studies.

A minimum of 15 credits is required, including the following:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>MUS_THRY 4210</td>
<td>Jazz Harmony and Arranging I</td>
<td>2</td>
</tr>
<tr>
<td>MUS_THRY 4211</td>

<td>Jazz Piano Class</td>
<td>1</td>
</tr>
<tr>
<td>MUS_I_VT 4645</td>
<td>Jazz Improvisation</td>
<td>2</td>
</tr>
</tbody>
</table>
Minor in Korean Studies

Students may obtain a minor in Korean Studies by completing at least 15 credits of Korean courses. At least nine of these hours must be completed on campus, or as part of an MU faculty-led study abroad program. At least six of these credit hours must be earned in Korean language courses beyond the elementary level. The remaining nine credit hours can be earned in non-language Korean culture courses, or courses from other departments that relate to Korea.

KOREAN 2160  Intermediate Korean Language I  3
KOREAN 3160  Intermediate Korean Language II  3
KOREAN 2310  Korean Civilization I  3
KOREAN 2320  Korean Civilization II  3
KOREAN 3800  Korean Economic Development and US-Korean Free Trade Agreement  3
KOREAN 3890  Korean Society Through Cinema  3
KOREAN 4220  Korean Unification  3
KOREAN 4260  The Korean Diaspora in the U.S., Japan and China  3
KOREAN 3001  Topics in Korean-General  1-3
KOREAN 3005  Topics in Korean - Humanities  3
KOREAN 4001  Topics in Korean-General  1-3
KOREAN 4005  Topics in Korean - Humanities  1-3
HIST 1830  Survey of East Asian History  3
HIST 2810  History of Korea: Premodern to Hypermodern  3

Minor in Latin American Studies

Office of Multidisciplinary Degrees
326H Strickland Hall
https://omd.missouri.edu/?q=las-minor/index

This is an interdisciplinary minor which allows students to take courses about Latin America from various departments. Find course options at the link above.

Requirements

- Complete 15 credit hours from at least two departments.
- At least 6 credits must be numbered 2000 level or above.
- Nine of the required credits must be completed at MU.
- The elementary levels of language may NOT be used to fulfill minor requirements.
- Intermediate-level language courses may be used to meet minor requirements.
- A minimum grade of C- is required for each course taken in the minor. A minimum cumulative GPA in all minor coursework is 2.0.

Minor in Luso-Brazilian Area Studies

Students may obtain a minor in Luso-Brazilian Area Studies by completing at least 9 credits in the Portuguese language beyond Portuguese 1200, e.g. PORT 2160, PORT 3160 and PORT 3260. An additional 6 credits may be chosen from the following list:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>PORT 2310</td>
<td>Brazilian Civilization</td>
<td>3</td>
</tr>
<tr>
<td>PORT 3001/3005</td>
<td>Topics in Portuguese-General</td>
<td>1-3</td>
</tr>
<tr>
<td>PORT 3420</td>
<td>Survey of Brazilian Literature</td>
<td>3</td>
</tr>
<tr>
<td>PORT 3875</td>
<td>Brazilian Cinema</td>
<td>3</td>
</tr>
<tr>
<td>SPAN 2330</td>
<td>Latin American Civilization</td>
<td>3</td>
</tr>
</tbody>
</table>

Luso-Brazilian culture/topics emphasis courses offered by other programs/departments (e.g. Anthropology, History, Music, Political Science).

Normally 9 credits must be completed in residence at MU. However, students are permitted to count 6 credits toward the minor from an officially sanctioned semester or year-long foreign study program in Brazil or Portugal. These include the MU in Rio de Janeiro program at the Pontificia Universidade Catolica and the CIEE Universidade Nova de Lisboa program.

Policies

- Courses required for the minor may also be used to meet the College of Arts & Science Foundation requirements.
- Minors are only awarded to undergraduate students who are simultaneous recipients of a Bachelor degree.
- Students may not earn a major and a minor in the same field. In addition, students may not earn a major emphasis and a minor in the same field.
Additionally, course work must be completed with a grade in the C range or higher in each of the required courses and students must maintain a minimum GPA of 2.0 in the minor.

**Minor in Medieval and Renaissance Studies**

Think dead languages, medieval literature, and old castles are cool? Love your Shakespeare or Art History class and interested in learning more about the Middle Ages or the Renaissance? Then explore the possibility of a MARS undergraduate minor, in which students do coursework on medieval and Renaissance topics, receiving outstanding instruction from faculty in up to eleven different academic departments. For students interested in medieval and Renaissance history, art, literatures, religion, music, languages, and culture, the MARS minor offers the possibility of furthering interests while studying more broadly towards your major. Meet others interested in the same things as you, incorporate classwork you’ve already done, and learn new things about the Middle Ages and Renaissance, all while showing prospective employers or graduate schools the depth of your study with an official minor in MARS!

**Requirements**

- A minimum of fifteen (15) hours of approved coursework (see list below) in two different departments outside the student’s major department.
- At least nine (9) hours of the fifteen must be numbered 2000 or above.
- At least three (3) hours of the fifteen must be taken in a course numbered 3000 or above.
- A minimum of nine (9) hours must be taken in residence.
- A minimum GPA of 2.0 is required in all courses in the minor.
- Only one course from Classics may count towards the minor.
- Students may specialize in either medieval or Renaissance, but must take at least one course in both.
- Students and their advisors may petition the Chair of MARS (Dr. Emma Lipton, English) to have coursework with relevant content counted. Students may count courses toward the minor that are also used to fulfill general education requirements in the College of Arts and Science. Many upper-level courses in European languages and literatures may be used to fulfill the minor requirements.

Departments keep a list of courses approved for the MARS minor on file for advisors. For a full description of the minor, including a list of all courses currently counted toward the minor, go to Medieval and Renaissance Studies (http://medren.missouri.edu/undergrad.shtml).

**Minor in Middle East Studies**

The minor in Middle East Studies is designed for those students who want to explore the art, history, politics, cultures, and religions of the Middle East in greater detail. For those looking beyond graduation, the minor provides a solid inter-disciplinary foundation and credential with which to pursue graduate work or careers in fields related to the Middle East. Students have the opportunity to take a variety of courses from eleven different departments in the College of Arts and Science. Furthermore, the minor allows students engaged in different disciplines and on different career tracks to engage with and learn from each other and a broad range of faculty. The courses that count toward the minor emphasize and promote critical historical thinking by providing students with the conceptual and analytical tools to think about the often overlooked religious, ethnic, and political diversity of the peoples of the Middle East, past and present.

**Minor Requirements**

The minor requires a minimum of fifteen (15) credit hours from at least three (3) different departments within the College. Students in the minor must maintain a 2.0 GPA for courses in the minor.

At least six (6) of the fifteen (15) required credits must be taken at the level of 2000 or above.

At least nine (9) hours must be completed at MU.

There are no prerequisites.

**Advising and Support**

For information, questions, and advising for the minor, contact:

Nathan Hofer (http://religiousstudies.missouri.edu/people/faculty/hofern.shtml), Associate Professor of Religious Studies and Director of the Minor in Middle East Studies

221G Arts and Science Building

hofern@missouri.edu

For more resources, including an updated course list, see http://mes.missouri.edu/
Minor in Military Science

With departmental approval, students may earn a minor in military science and leadership by successfully completing the following courses:

- MIL_SC 3230  Leadership and Problem Solving  3
- MIL_SC 3240  Leadership and Ethics  3
- MIL_SC 3260  Officership  3
- MIL_SC 3250W  Leadership and Management  3
- MIL_SC 3163  U.S. Military History in the Western Tradition  3

Minor in Missouri Studies

The Minor in Missouri Studies will provide crucial knowledge about Missouri's diverse history, culture, resources, and policy challenges for college graduates entering various career tracks in politics, state and local government, education, journalism, agriculture, law, tourism--particularly for those intending to remain in the state after graduation.

- The minor will require a minimum of 15 credit hours
- At least 9 of those hours must be taken from a list of core courses
- At least 9 of the 15 must be completed in residence at the level of 2000 or above
- At least two of the areas below must be represented
- A minimum GPA of 2.00 is required for all minor courses; grades below a C- will not be accepted

Core Courses*
- ENGLSH 2310  Missouri Writers  3
- GEOG 2130  Geography of Missouri  3
- HIST 2440  History of Missouri  3
- POL_SC 2250  Missouri Politics  3

Elective Courses *
- Environment and Resources*
  - HLTH_SCI 2300  Health Care In Missouri  3
  - PUB_AF 4340  Regional and Economic Development Policy  3

Humanities/Fine Arts*
- ENGLSH 2310  Missouri Writers  3

Social Science *
- ENGLSH 4620  Regional and Social Dialects of American English  3
- GEOG 2130  Geography of Missouri  3
- GEOG 2720  The City  3
- HIST 2230  Walt Disney and American Culture  3
- GEOG 3580W  Placewriting (Active Spring 2019)  3
- HIST 2440  History of Missouri  3
- HIST 4910  History in the Public: An Introduction to the Theory and Practice of Public History  3
- HIST 4940  Internship in History  3
- POL_SC 2250  Missouri Politics  3
- POL_SC 4940  Political Science Internship  3-6

* Some courses are currently being proposed/created and are not listed.

For further information contact:
Samuel Cohen, Associate Professor
Department of English

Minor in Native American and Indigenous Studies

The minor in Native American and Indigenous Studies requires a minimum of 15 credit hours. At least 9 of the 15 credit hours must be taken at the level of 2000 or above. A minimum GPA of 2.0 is required for all courses.

Minor in Peace Studies

A minor in peace studies requires a minimum of 15 credits. PEA_ST 1050 Introduction to Peace Studies is required, plus 12 additional credits. Online writing intensive versions of 1050 are available. It is recommended that the credits be distributed among the five areas on the following list:

Area 1: International and Civil War and Peace
- PEA_ST 2200  Nuclear Weapons: Environmental, Health and Social Effects (Section 2 is writing intensive, section 1 not)
- PEA_ST 2286  Technological Futures, National Security, and Civil Liberties
- PEA_ST 2410  Philosophies of War and Peace
- PEA_ST 2550  Human Rights, Law, War and Peace
- PEA_ST 3230H  Terrorism and Conflict Resolution - Honors
- PEA_ST 3610  Ireland, 1100s to 1850
- PEA_ST 3611  Ireland, 1850-1923
- PEA_ST 3612  Ireland, 1920-Present
- PEA_ST 4331  Nonproliferation Issues for Weapons of Mass Destruction

Area 2: Global Social and Environmental Justice
- PEA_ST 1120  Population and Ecology
- PEA_ST 2000  Exploration in Social and Economic Justice
- PEA_ST 2285  Large Corporations, Economic Crisis, Social Responsibility
- PEA_ST 3401  Global Public Health and Health Care Systems
- PEA_ST 3600  Criminology
- PEA_ST 3870  Social Revolution in Latin America
- PEA_ST 4230  Women, Development and Globalization
- PEA_ST 4520  Political Sociology

Area 3: Nonviolent Social Movements, Process, and Change
- PEA_ST 2182  Critical Dialogues: Nonviolence in Peace/Democracy Movements (Section 2 is writing intensive, section 1 not)
- PEA_ST 3520  Collective Behavior
- PEA_ST 3521  Group Decision Making Processes
- PEA_ST 3522  New Media, Conflict and Control

Area 4: Cultures, Intellectuals, And Global Migration
- PEA_ST 2555  Youth, Islam, and Global Cultures
- PEA_ST 2280  Race, Democracy, and Violence in Cuba and Haiti (Section 2 is writing intensive, section 1 not)
### Minor in Romance Literatures in Translation

**The Department of Romance Languages and Literatures is not currently accepting applications for the "Minor in Romance Literatures in Translation" at this time.**

To obtain a minor in Romance Literatures in Translation, students must complete the basic language sequence shown below.

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Credit Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>SPAN 1100</td>
<td>Elementary Spanish I</td>
<td>3</td>
</tr>
<tr>
<td>&amp; SPAN 1200</td>
<td>and Elementary Spanish II</td>
<td>12</td>
</tr>
<tr>
<td>&amp; SPAN 2100</td>
<td>and Elementary Spanish III</td>
<td></td>
</tr>
<tr>
<td>or FRENCH 1100</td>
<td>Elementary French I</td>
<td>3</td>
</tr>
<tr>
<td>&amp; FRENCH 1200</td>
<td>and Elementary French II</td>
<td>12</td>
</tr>
<tr>
<td>&amp; FRENCH 2100</td>
<td>and Elementary French III</td>
<td></td>
</tr>
<tr>
<td>ITAL 1100</td>
<td>Elementary Italian I</td>
<td>8-12</td>
</tr>
<tr>
<td>&amp; ITAL 1200</td>
<td>and Elementary Italian II</td>
<td></td>

<tr>
<td>PORT 3001/3005</td>
<td>Topics in Portuguese-General</td>
<td>1-3</td>
</tr>
<tr>
<td>SPAN 2320</td>
<td>Literature of Spanish Civil War</td>
<td>3</td>
</tr>
</tbody>
</table>

Additionally, course work must be completed with a grade in the C range or higher in each of the required courses and students must maintain a 2.0 GPA in the minor.

### Minor in South Asian Studies

The South Asian Studies minor is a course of study that allows a student to acquire specialized knowledge about South Asia in a variety of disciplines, e.g., anthropology, history, philosophy, religious studies, political science, sociology, women and gender studies and language studies.

To obtain a minor in South Asian Studies, a student must:

- Complete 15 hours of coursework relating to South Asia. The courses approved for the South Asian Studies minor are listed at [http://southasia.missouri.edu/minor.html](http://southasia.missouri.edu/minor.html).
- At least nine of the 15 hours must be at the 2000 level or above.
- A student is required to take courses in two or more departments.
- A minimum of six hours must be taken in residence.
- A grade of C or better is required for all courses counting toward the South Asian Studies minor.

A minor in South Asian studies can easily be combined with a major in anthropology, philosophy, history, religious studies, political science, geography, journalism, sociology, women & gender studies, etc.

### Minor in Spanish

Students may obtain a Spanish minor by completing a minimum of 15 credits beyond SPAN 2100, of which at least 6 credits must be in literature. Courses taught in English and cross-listed courses taught in English do not count toward the minor. The courses listed below are the most likely choice.

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Credit Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>SPAN 2160</td>
<td>Intermediate Spanish Composition</td>
<td>3</td>
</tr>
<tr>
<td>SPAN 3150</td>
<td>Advanced Spanish Conversation</td>
<td>3</td>
</tr>
<tr>
<td>or SPAN 3721</td>
<td>Spanish Phonetics</td>
<td></td>
</tr>
<tr>
<td>SPAN 3160</td>
<td>Advanced Spanish Composition</td>
<td>3</td>
</tr>
<tr>
<td>or SPAN 3280</td>
<td>Commercial Spanish</td>
<td></td>
</tr>
<tr>
<td>SPAN 3420</td>
<td>Introduction to Hispanic Literature I</td>
<td>3</td>
</tr>
<tr>
<td>SPAN 3430</td>
<td>Introduction to Hispanic Literature II</td>
<td>3</td>
</tr>
</tbody>
</table>

Students beginning at a level higher than SPAN 2160 due to placement testing must still complete the minimum of 15 additional credits to receive the minor. A minimum of 9 credits, including 3 in literature, must be taken in residence.

Additionally, course work must be completed with a grade in the C range or higher in each of the required courses and students must maintain a 2.0 GPA in the minor.

### Minor in Strategic Studies

For general questions about the minor, contact:

Stephen Quackenbush, Program Director
(573) 882-2082
quackenbushs@missouri.edu

Political Science Academic Advisor
(573) 882-2580
politicalscience@missouri.edu

The minor in Strategic Studies is designed for those students who wish to acquire the knowledge and analytical skills that are critical for working in a career field related to national security. The minor is appropriate for students of almost any major, particularly political science, economics,
Combining research methods from the humanities and social sciences, for understanding social structures, cultural norms, and power dynamics. Gender, sexuality, race, class, and dis/ability as fundamental categories.

Women's and Gender Studies is an interdisciplinary field that establishes the undergraduate degree granted at MU. A Women's and Gender Studies minor can be a component of any major field of study. Students in the minor must maintain a B average (3.0 GPA) for courses in the minor.

- A minor must be completed and awarded at the same time as the MU undergraduate degree
- Once an A&S minor is awarded, a student cannot return to MU to complete a major in the same department
- Minor coursework cannot also be used for Foreign Language

The WGST minor strengthens critical thinking, writing and research skills and highlights multiple forms of knowledge.

When students graduate with a Women's and Gender Studies minor they should be able to:

- Apply cross-cultural and global awareness to “big questions” about women and gender
- Have a comprehensive grasp of intersectionality and matrices of domination
- Think critically: i.e. consider an issue from multiple perspectives; locate, evaluate and interpret diverse sources, including statistics; engage in critical self-reflection
- Construct arguments with evidence obtained from research
- Work collaboratively
- Recognize sexist/racist writing and thinking
- Connect knowledge and experience, theory and activism, Women's and Gender Studies materials with other courses
- Communicate effectively in writing and speech
- Apply knowledge for social transformation, citizenship
- Use gender (and other identity categories) as a category/ies for analysis

A student minoring in Women's and Gender Studies is required to fulfill all requirements for their major degree program, and in addition complete at least 15 credits of Women's and Gender Studies courses: A minimum of 9 credits must come from WGST core courses (courses taught by WGST faculty and instructors), in addition 6 credits are required to come from 3000 level or higher courses. For current course offerings see the WGST website (https://wgst.missouri.edu).

Graduate Certificate in Geospatial Intelligence

Graduate Certificate in Geospatial Intelligence

An education in geospatial intelligence theories, methods, and applications is central to many problem-solving tasks and as such, students with proficiency in these areas are well-suited for an array of employment positions in sectors such as academia, military, intelligence analysis, emergency response and disaster management, law enforcement, etc.

A student must complete a minimum of 21 hours of approved coursework and must earn a grade of at least B (3.0) in these courses. Seven courses must be successfully completed, with at least three courses selected from Group A – Technical Core Group; one course from Group B - Analytical Core Group; one course from Group C – Technical Elective Group; and one course from Group D – Analytic Electives. The final course must be a capstone experience in geospatial intelligence (GEOG 7130). A course may only count toward one of the coursework groups. It is important to note that for degree seeking students, courses can typically only be credited to one certificate program at MU (i.e., not counted as credit toward multiple certificates). The MU Graduate Certificate in Geospatial Intelligence will be awarded by MU after successful completion of the coursework and this accomplishment will appear in the student’s academic transcript. Successful completion of the MU Graduate Certificate in Geospatial Intelligence also meets the criteria of MU's United States Geospatial Intelligence (USGIF) (http://
Graduate Certificate in Global Public Affairs

NOTE: The Truman School is temporarily not accepting applications for the certificate program in Global Public Affairs.

The graduate certificate in Global Public Affairs includes 12 credit hours of course work plus an international public affairs experience. The required course provides students with the comparative institutional and economic foundations to understand the complexities of governance and policy making internationally. The three elective courses, selected in consultation with the director of the Global Public Affairs certificate, allow students to delve deeply into specific realms of global policy or governance. The international experience component can be satisfied through an approved public affairs related internship or study abroad course. Students with substantial international public affairs experience prior to entering the certificate program should consult with the certificate director. International students automatically satisfy this experiential requirement through their study in the U.S. For questions, email truman@missouri.edu or call 573-884-1656.

Required Course 3
Comparative and Global Governance (course in development)
Take three of the following: 9
- PUB_AF 8630 Organizational Change in a Community and Global Context
- PUB_AF 8850 Policies and Institutions of the European Union
- PUB_AF 8860 International Comparative Rural Policy
- Global Intensive Public Affairs topics course(s)

Approved courses outside of Public Affairs

Total Credits 12

Graduate Certificate in Grantsmanship

Harry S Truman School of Public Affairs
101 Middlebush Hall
573-884-1656
Email truman@missouri.edu

https://truman.missouri.edu/future-students/graduate-certificate-description

The Truman School offers one of the few completely online grant writing certificate programs in the country, making it easy to fit classes into a busy schedule. Students will learn to write grant proposals and manage grant funded programs effectively. Learn winning grant writing techniques and proper grant management with this four-course graduate certificate in grantsmanship. Our program is well suited for a variety of audiences, including community-based professionals in nonprofit organizations, state and local government and educators in K-12 settings. Graduate and post-doctoral students and young faculty members who are seeking to become more competitive in research careers dependent on external funding will find this certificate to be useful.

Eligibility

Students do not need to be enrolled in a graduate degree program at MU to participate in the program.

Plan of Study

Students must complete 12 credit hours to receive the certificate. Students may begin this program in the summer or fall semesters.

Graduate Certificate in Jazz Studies

The Graduate Certificate in Jazz Studies is a one-year program that provides opportunities for continued development of skills in jazz-specific areas, such as improvisation, pedagogy, and arranging. The certificate is available to degree-seeking and non-degree seeking students alike, non-music as well as music majors, and is designed as an intensive introduction to jazz performance. The program will deepen the student's preparation for a career in jazz performance or prepare the student for further study in jazz.

Prerequisites:

Entrance into the Graduate Certificate program requires a live audition (see below), although video-recorded auditions will be acceptable in rare cases, by permission of the Director of Jazz Studies. Entrance into the program also requires completion of a Bachelor of Music degree (or demonstrated equivalent), with a GPA of 3.0 in the last 60 credit hours. In the event that a candidate does not meet the required prerequisites for a specific curriculum, appropriate course(s) may be added as additional requirements.

Requirements:

Graduate Certificate in Lifespan Development

Dr. Nicole Campione-Barr, Coordinator
Lifespan Development Graduate Certificate Program
204D McAlester Hall
email: campionebarn@missouri.edu
phone: (573) 884-1681

About the Certificate (Educational Objective)

Developmental psychology and lifespan developmental studies include the scientific study of psychological changes that occur over the life course. Therefore, developmental studies are inherently interested in many of the same questions of other areas of psychology, education, family studies, etc., but by investigating the ways in which particular psychological processes change and develop from infancy to adolescence, and through to adulthood. The purpose of the graduate certificate in lifespan development is to provide students in other areas of psychological study, or human behavior broadly defined, a better understanding of the ways in which psychological functions change with age, as well as the challenges and special considerations that are a part of research with children and adolescents and how they may be different from those of working with adults.

Plan of Study

The requirements for acceptance and completion of work for the certificate are as follows:

1. The student must be enrolled and in good standing in a doctoral-level program at MU (available to degree-seeking students only).
2. A request to be included in the certificate program must be made in advance of final completion of courses to Nicole Campione-Barr, PhD. This can be done via e-mail or hard copy, however, the request must also be approved by the student’s major advisor.
3. A formal plan of study must be submitted to the Office of Graduate School no later than the semester prior to graduation. This must be signed by the certificate coordinator (Nicole Campione-Barr) and the director of graduate studies of the student’s major department.
4. Students must complete a minimum of 15 credit hours to be awarded the certificate, following the below guidelines:

Core Courses: students are required to take 3 core courses

When needed, advising will be provided to students by lifespan development certificate coordinator (Nicole Campione-Barr), in conjunction with the student’s major advisor.

Need for Certificate Program

For students within the child clinical psychology Ph.D. program of study there is a need for some students to gain greater exposure to developmental studies. Currently, the department of Psychological Sciences offers a dual child clinical and developmental psychology degree program. This program is extremely rigorous, however, and students and faculty within the Department of Psychological Sciences have identified a need for more in-depth study in developmental science without the commitment of a second degree. In creating the certificate program, however, it was determined that graduate students in other related fields may also wish to pursue further study in lifespan development. In particular, students in education, social work, communication science and disorders, and additional areas within psychology may benefit from greater understanding of developmental processes which could be gained through the required and elective course work outlined in this certificate program.

Impact on Current Programs of Study

The impact to current programs of study is expected to be relatively minimal other than the inclusion of potentially a few more students enrolled in the aforementioned classes.

Advisory Committee Members

Debi Bell, Psychological Sciences
Nicole Campione-Barr, Psychological Sciences
Marilyn Coleman, Human Development & Family Studies
Larry Ganong, Human Development & Family Studies
Jean Ispa, Human Development & Family Studies
Amanda Rose, Psychological Sciences

Graduate Certificate in Music Entrepreneurship

The Graduate Music Entrepreneurship Certificate offers MU graduate students, as well as post-baccalaureate students in the MU community, an officially recognized core of courses dealing with the development, business, and publicity aspects of a musical career. In today's fine arts economy, an increasingly viable and popular model is the "portfolio career," in which a person incorporates multiple roles (e.g. performer, teacher, advocate, manager, publicist, composer/arranger, etc.) rather than pursuing one narrowly defined career path. Contextualizing the vision, skills, and networking activities needed to achieve a viable arts career, while offering a combination of theoretical and practical career preparation for Mizzou students, is the overarching aim of the Certificate.
Availability: Aimed primarily at degree-seeking students in music and music education, this certificate would be also be available to students as an add-on to a degree or as a stand-alone certificate. All students who wish to declare the certificate must receive approval from our certificate director, Prof. Jonathan Kuuskoski (kuuskoskij@missouri.edu).

Required Courses
- MUS_GENL 7510 Career Development for Musicians 2
- MUS_GENL 7512 Principles of Arts Entrepreneurship 2
- MUS_GENL 7514 Arts Marketing 1
- MUS_GENL 7516 Grant Writing for the Arts 1
- MUS_GENL 7518 Arts Industry Survey 1
- MUS_GENL 7520 Non-Profit Management in the Arts 1
- MUS_GENL 7522 Community Engagement in the Arts 1
- MUS_GENL 7530 Leadership, Advocacy, and Policy in the Arts 1
- MUS_GENL 7540 Music Entrepreneurship Practicum 2

Graduate Certificate in Nonprofit Management

Harry S Truman School of Public Affairs
101 Middlebush Hall
573-884-1656
Email truman@missouri.edu

The graduate certificate in nonprofit management provides students with the managerial, fiduciary, and analytical tools necessary for leadership of nonprofit entities. The goal is to develop and hone skills that can be used to achieve organizational missions uniquely aimed at serving the interests of the community.

Eligibility

Students do not need to be enrolled in a graduate degree program at MU to participate.

Careers

As one of the fastest growing sectors in today’s economy, nonprofit organizations have undergone a professionalization in management, with board members changing their orientation from one of personal networks to a bottom-line, information-based outlook. Successful nonprofit organizations today thrive on their ability to compete effectively in the marketplace, read community needs and priorities, and deliver appropriate services within budget.

Plan of Study for the Nonprofit Management Certificate

Students must complete 12 credit hours to receive the certificate.

Elective Course

The fourth course is an elective chosen in consultation with the certificate coordinator from among the courses offered by the Truman School or by another graduate unit at MU.

Federal Gainful Employment disclosure information for this Graduate Certificate is available at https://gradstudies.missouri.edu/fged/52.0206-Gedt-Nonprofit_Mgmt.html

Graduate Certificate in Organizational Consulting and Change

Harry S Truman School of Public Affairs
101 Middlebush Hall
573-884-1656
Email truman@missouri.edu

NOTE: The Truman School is temporarily not accepting applications for the certificate program in Organizational Consulting and Change.

The graduate certificate in organizational consulting and change is a multidisciplinary and multi-sector approach to the theory and practice of transforming organizations and communities in a technologically advanced and global economy. Students will have an opportunity to develop knowledge and competencies appropriate to the advanced study and diagnosis of evolving and emerging organizations and communities in the public, private, and nonprofit arena. They will find a curriculum supportive of careers in academics, management, and consulting.

Eligibility

Students do not need to be enrolled in a graduate degree program at MU to participate in the program.

Plan of Study

Students must complete 12 credit hours to receive the certificate.

Required Courses
- PUB_AF 8610 Group Dynamics and Conflict Resolution 3
- PUB_AF 8620 Organizational Analysis and Change 3
- PUB_AF 8630 Organizational Change in a Community and Global Context 3

Elective Course

The fourth course is an elective chosen in consultation with the certificate coordinator from among the courses offered by the Truman School or by another graduate unit at MU.

Federal Gainful Employment disclosure information for this Graduate Certificate is available at https://gradstudies.missouri.edu/fged/44.0401-Gedt-Org_Change.html

Graduate Certificate in Public Management

Harry S Truman School of Public Affairs
101 Middlebush Hall
573-884-1656
Email truman@missouri.edu
The graduate certificate in public management encompasses administrative skills for ethical, effective leadership and management roles in the public service. Students completing this graduate certificate will be well positioned to begin or advance a public service career with many expecting to pursue management careers in state and local governments.

Eligibility

Students do not need to be enrolled in a graduate degree program at MU to participate.

Plan of Study

Students must complete 12 credit hours to receive the certificate.

Required Public Management Certificate Courses

The first two courses are required, and one of the following 8530 OR 8540, plus one additional elective.

Email truman@mizzou.edu
https://truman.missouri.edu/future-students/graduate-certificate-description

The public policy specialization offers students a strong foundation in the skills necessary to work effectively in the policy environment. Students in the public policy specialization learn theories of the policy process, quantitative and qualitative research methods to analyze policy, and program evaluation. Students also have the opportunity to gain expertise in specific policy areas including education policy, environmental policy, health policy, social policy, and regional development policy.

Eligibility

Students do not need to be enrolled in a graduate degree program at MU to participate in the program. Some prerequisite courses may be necessary for students without prior coursework in statistical or micro-economic analysis.

Plan of Study

Students must complete 12 credit hours to receive the certificate.

Required Courses

<table>

</tr>
</tbody>
</table>

- (PUB_AF 8430 requires PUB_AF 8190 Economic Analysis for Public Affairs and PUB_AF 8181 Research Methods II as prerequisites, or equivalent. These courses may not be used as the additional courses for the certificate.)

Elective Course

The third and fourth courses are policy relevant electives chosen in consultation with the certificate coordinator from among the courses offered by the Truman School or by another graduate department at MU.

Federal Gainful Employment disclosure information for this Graduate Certificate is available at https://gradstudies.missouri.edu/fged/44.0501-Gedt-Public_Policy.html

Graduate Certificate in Science Outreach

The educational objectives of the Certificate in Science Outreach Program are to teach students how to integrate research and outreach, and how to facilitate a dialogue with the lay public. Course work concentrates on increasing the ability of students to communicate science to broad audiences of different ages and different levels of education. Practice and application of outreach develops the “broader impacts” component of the research and emphasizes actual interaction with audiences, to promote understanding and appreciation of science, and support for scientific research.

Although this certificate is named “science outreach,” other types of outreach in STEM (and STEAM!) disciplines are welcomed. Students from medicine, engineering, arts & sciences, education, and other fields participate in this program.

This is a 12-credit graduate certificate program. Each student will complete:

Science Outreach: Public Understanding of Science (3 credits total)

- 2 credits in spring, plus one additional credit in a subsequent semester
- Students learn how to share their research with the public.

Integrating Science with Outreach (6 credits total)

- Set up as an independent study style course, students design and implement outreach projects.
- Projects can range from after school programming to blogging--student creativity is welcomed.

College Science Teaching OR other pedagogical course (3 credits)
The Walter Daniel Resource Center is supported by an endowment set up by the estate of the late Dr. Walter C. Daniel. Dr. Daniel came to the University of Missouri in 1973 as its first vice chancellor. He was instrumental in helping to reorganize the University's administration. However, his success as an administrator never overshadowed his love of teaching and working with students. Located in 328 Gentry Hall, the books, periodicals, reference materials and media resources in this center will supplement and complement existing university resources on the histories, cultures, and societies of people of African descent in Africa, the U.S., and throughout the Diaspora available to the University community. Additionally, the center houses Dr. Daniel's extensive private library of African American literature, as well as an extensive collection of primary and secondary sources including numerous periodicals and scholarly journals. The library also offers a small video collection which can be viewed on site. At the present time the library is a read-only research facility.

Plan of Study

An individual program of specialization in Black Studies may be arranged within the framework of a conventional graduate degree in any one of several fields. The options within a regular degree program are employed to include maximum exposure to courses emphasizing the diverse histories, cultures, and societies of people of African descent in Africa, the U.S., and throughout the Black Diaspora. Courses outside the major department, but in related fields, are incorporated into the student’s study plan. Students interested in pursuing a Black Studies specialty within their chosen fields should consult a departmental advisor, who is an affiliate of the Department of Black Studies, to assist in course selection. Lacking such an advisor, students should contact the Chair of the Department of Black Studies for assistance or send an email to Mary Beth Brown (bromary@missouri.edu) in the Department of Black Studies.

Graduate Minor in Medieval and Renaissance Studies

Considering a graduate MARS minor? While most students still choose to study in a traditional disciplinary framework, a MARS minor allows students to expand the breadth of their studies and research by taking coursework in over 11 different departments on campus. So much of the research on the Middle Ages and the Renaissance is interdisciplinary in nature, and the MARS minor helps students gain expertise in areas outside of their home discipline while simultaneously offering a quick and comprehensive way for prospective employers to understand their specialization and background.

Requirements: Courses that may be applied toward this minor are taught by faculty members from the departments of Art History and Archaeology, Classical Studies, English, Germanic and Russian Studies, History, Music, Philosophy, Religious Studies, and Romance Languages and Literatures. Under certain circumstances, a minor in Medieval or Renaissance studies may also be arranged for MA programs. A student must be accepted for advisement by the major department. Then, in consultation with the major advisor, who must be a specialist in the medieval or Renaissance period, an interdisciplinary curriculum for the minor is prepared and submitted to the Medieval and Renaissance Studies Committee for approval.

- A doctoral candidate in one of these departments offering a PhD may elect a minor concentration in interdisciplinary Medieval or Renaissance Studies by taking at least three appropriate courses outside the department, as well as all appropriate ones within it. Thus one earns, for example, a PhD in Art History and Archaeology.
with specialization in Medieval Studies, or a PhD in History with specialization in Renaissance Studies.

- At least nine (9) hours in relevant 7000 or 8000 level courses outside the major department are required to constitute the minor.
- Because the program places considerable emphasis on foreign languages, all doctoral candidates must study at least two languages.

**Perks:**

- The Newberry Library Center for Renaissance Studies consortium
- MU graduate Association for Medieval and Renaissance studies
- Renaissance reading group
- A listserv announcing campus-related activities for MARS members

Dr. Emma Lipton
Chair of MARS
liptone@missouri.edu

---

**Graduate Minor in Museum Studies**

This minor, offered by the Museum of Art and Archaeology and the Department of Art History and Archaeology, provides students with a systematic introduction to the history, philosophy, and role of museums. The program blends academic theory with practical experience to provide students with an opportunity to build a foundation applicable for work in either university or public museums.

**Curriculum:** The program comprises six courses designed to introduce students to the history and role of museums in society; to the philosophical, legal and administrative issues that face the modern museum; and to the exhibition and preservation skills required of a museum curator. The emphasis of the program is on museum management, curatorial responsibilities (collections management and exhibition) and educational interpretation. Internships and field trips to local museums provide additional insight into the world of museum professionals.

- Individual courses are listed under the Department of Art History and Archaeology. Successful completion of the program is accomplished through 12 credit hours of required course work, including ARH_VS 8130, ARH_VS 7130, ARH_VS 7980, and is recognized when the student successfully completes an M.A. in his or her academic field of study. An individual’s course of study will be arranged with the program director.
- The minimum period required to complete the minor is four semesters, or three semesters and one summer. Courses are open to advanced undergraduate students, but admission to the program is open only to those who have completed a BA degree.

**Admissions:** Students who undertake the museum studies minor are normally already enrolled as graduate students in degree-granting academic departments. Students should apply at the beginning of the fall semester to the Director of Graduate Studies, 109 Pickard Hall, for admission to the program.

---

**Graduate Minor in Psychological Statistics and Methods**

The Minor in Psychological Statistics and Methods is a joint program between the Department of Psychological Sciences and the Department of Statistics.

A total of seven courses at the 7000 level or above in statistics and methods is required. The course options are dependent on the doctoral program in which the student is admitted. More detailed specification of the courses required in the plan of study may be stipulated by the student’s major department and the student should consult with them in this regard.

**Doctoral students in the Department of Psychological Sciences or Statistics** must take at least two of the seven required courses outside their major department.

**A grade of B or better is required in the following courses:**

- **PSYCH 9710** Multivariate Statistics in Psychology 3
- **PSYCH 9720** Latent Variable Models in Statistical Analysis 3
- **PSYCH 9715** Multilevel Modeling 3

**Quantitative Psychology - one of the following is required:**

- **PSYCH 9520** Psychometrics 3
- **PSYCH 9750** Advanced Structural Equation Modeling 3
- **PSYCH 9760** Categorical Data Analysis 3
- **PSYCH 9735** Psychological Process Models 3

**Two approved courses at the 7000 level or above in the Department of Statistics, Mathematics, or in other departments provided those courses are primarily statistics-oriented or methods-oriented.**

**The following courses cannot be used to fulfill minor requirements:**

- **STAT 7050, STAT 7510, STAT 7560, STAT 4970, STAT 7020, STAT 7070, STAT 8220, STAT 8370.**

Doctoral students in other departments must take five courses within the Department of Psychological Sciences or the Department of Statistics, at least two of which are in statistics and two of which are in psychology.

Questions regarding the minor in Psychological Statistics and Methods should be directed to:

**Phil Woods**
Training Area Director
philkwood@gmail.com

**Graduate Minor in Women’s and Gender Studies**

**Contact Information:**

Linda Reeder, Chair
Elisa Glick, Director of Graduate Studies
325 Strickland Hall
(573) 882-2703

**Eligibility for Minor**

The Women’s and Gender Studies Graduate Minor is available to all students pursuing a graduate degree at MU.
Plan of Study

15 credit hours will be chosen to complement the student's main area of graduate study. Students may take up to six hours in their home department. Students will gain expertise in the methodologies and theories in Women's and Gender Studies.

The minor requires the following six credit hours:

<table>

The Robert J. Trulaske Sr., College of Business, established in 1914, educates students for professional opportunities and responsibilities in the private and public sectors. The college includes the School of Accountancy (the first established at a major public university) and the departments of Finance, Management and Marketing. The college offers an undergraduate degree in business administration, a combined bachelor’s and master’s degree program in accountancy, master’s degrees in business administration and finance, and doctoral degrees in accountancy and business.

Students’ educational experiences are enhanced through the scholarly activities of the faculty, who conduct research on significant, timely issues. Students in the college are exposed to relevant theories and concepts applied to real-world operations of private and public enterprises. Students gain added practical insights through internships, field projects, guest speakers, and executives-in-residence. The college’s agencies provide information, research, continuing education, and managerial assistance to practitioners and organizations throughout Missouri and in other states.

The Trulaske College of Business accepts CLEP subject examinations, departmental exams, and Advanced Placement (College Board) credit. More information may be obtained from academic advisors in the Trulaske College of Business Undergraduate Advising Office and the Credit by Examination section in the beginning of this catalog.

Department of Finance

Through the study of finance, students learn to independently analyze security markets, understand basic valuation techniques and use their knowledge to make investment decisions. In addition, students learn basic theoretical concepts in corporate finance and their application to corporate financing and investment decisions. Coursework focuses on the areas of investments, portfolio management, real estate appraisal, financial institutions and corporate finance.

Department of Management

Management is defined by the Academy of Management as including “all processes, structures, and behaviors that are related to the work of organizations, as well as the dynamics of industries, economies, cultures, and other environmental forces that affect organizations and their employees.” Management coursework at MU is quite diverse, covering the areas of human resource management, human behavior in organizations, organization theory, strategic management, supply chain management, entrepreneurship, information systems, e-commerce, operations management, and business law.

Department of Marketing

Marketing focuses on acquiring, developing, and managing customers. It deals with understanding the strategies, tactics, and business processes involved in researching markets, deciding which markets and segments to pursue, identifying what unique value to provide, and then assembling the products, services, people and partner firms needed to build, communicate and deliver that value. Coursework spans the domains of sales management, retailing, marketing research, consumer behavior, digital marketing, and global marketing.

Exploratory Course

Students wanting to explore business administration as a major should take BUS_AD 1500.

Double Emphasis

Students may have a dual emphasis of Finance and Real Estate, or may add on an economics emphasis to any other BSBA emphasis program.

Undergraduate

- Admissions (p. 352)
- Degree core Requirements (p. 353)
- Academic Regulations (p. 354)
- Enrolling in Other Institutions (p. 354)
- Advising (p. 354)
- Business Career Services (p. 354)
- Professional Development Programs (p. 354)

Admissions

Freshmen

Freshman applicants to the Robert J. Trulaske Sr., College of Business (students applying to MU from high school) will be admitted to the lower level if they meet campus admission requirements. Admission to the lower level does not guarantee admission to the BSBA degree program and emphasis areas or the Accountancy program. Admission to an upper-level emphasis area is based on the UM cumulative grade of record (minimum 2.6 GPA), successful completion of the business and professional core courses, and completion of the Professional EDGE requirements.

Transfer Students

Students in good standing in another school or college at MU must submit a Transfer of Division form to the Trulaske College of Business. Such students may be admitted to the lower level if they can complete degree-program admission requirements by the completion of 60 credits for Accountancy or Business students.
External transfer students who request admission to the Trulaske College of Business will be admitted to the lower level if they can complete degree-program admission requirements by the completion of 60 credits. Students are encouraged to have their transcripts evaluated by an academic advisor in the Trulaske College of Business prior to their enrollment at MU.

Coursework completed with a grade of D- or better at an accredited two- or four-year institution will be accepted if the courses are appropriate equivalents of the required MU courses, and if the equivalent MU courses do not require a grade in the C range. Only six hours of business coursework (Accounting, Business Administration, Economics, Finance, Management and Marketing) at the 3000-level or above can be transferred for the degree requirements. The college does not accept developmental or vocational/technical coursework.

Credits transferred from accredited community or junior colleges usually include general education, upper division or pre-accountancy admission requirements and unrestricted elective courses. The Trulaske College of Business accepts a maximum of 64 credits from a community or junior college toward the bachelor’s degree. When more than 64 credits have been completed, the additional courses are evaluated on a course-by-course basis for applicability to lower-level requirements.

A student holding an associate of arts degree from an accredited Missouri Community College will have fulfilled general education requirements (p. 31). However, this does not exempt the student from satisfying the specialized degree, major or emphasis prerequisites of the college in the areas of accounting, economics, math, and statistics.

Students transferring to the college without an associate of arts degree will have their transcripts evaluated on a course-by-course basis and must meet the entrance requirements of the college in the same way as other MU students. Students transferring to the Trulaske College of Business will be required to meet the Professional EDGE requirements based on the earliest semester of continuous enrollment in college after high school graduation.

**Probationary Admissions**

Students are placed on academic probation if they are admitted to the college without fully meeting the good-standing requirements of the school.

**Degree Core Requirements**

**Credit Hour Requirements**

In addition to University general education (p. 31) and graduation requirements, students must meet the following requirements:

- Students must complete a minimum of 120 credits from accredited colleges or universities for all BSBA emphasis areas except International Business, which requires 136-153 credits. (See separate section for international business major requirements.) Additionally, the joint BSAcc and the MAcc degree program requires students to complete a minimum of 150 credit hours.
- In completing the 120 credits for graduation, students may count no more than 40 credits within their emphasis area.

A student who has a degree in another curricular area may receive a Bachelor of Science in Business Administration degree upon completion of all requirements for the degree.

**Professional EDGE (Professional Development Program)**

In addition to completing required coursework to earn a Bachelor of Science, Business Administration degree, students must fulfill the requirements of the Professional EDGE. The goal of the Professional EDGE is to offer opportunities to all BSBA and Accountancy students to develop core competencies and values necessary for success in their professional careers.

As a graduation requirement, the program is comprised of the following:

- Completion of designated professional activities to acquire points for admission to the upper level. Once admitted to the upper level, students will continue to earn points to meet the graduation requirements. Specific activities may be required.
- Completion of BUS_AD 3500 the semester immediately following admission to the upper level. This course is a pre-requisite to the completion of the required BUS_AD 4500. BUS_AD 3500 must be completed in residence.
- Completion of BUS_AD 4500 once admitted to the upper level. This will include completion of a professional level internship/practicum experience. Practicums can be completed over a summer or semester-long period of time (intersession assignments will not meet the Professional EDGE requirement). Students must seek final approval of their internship/practicum experience from the Professional EDGE Office before beginning the course. BUS_AD 4500 must be completed in residence.

If a student fails to meet the requirements of the Professional EDGE at either the lower or upper levels, the student will not be allowed to continue in or graduate from the Trulaske College of Business.

**Professional EDGE Graduation Requirement**

- The student must earn a minimum of 70 EDGE points (maximum of 100) at the lower level for official admittance to the upper level. Once admitted, students must earn a total of 200 EDGE points to meet the graduation requirement. Specific activities and workshops may be required.
- The student must earn a C- (or higher) in BUS_AD 3500 to satisfy the requirement.
- BUS_AD 4500 is graded as Satisfactory/Unsatisfactory. Students must complete practicum course to a satisfactory level of 70% or greater to receive a passing grade for the course.

https://business.missouri.edu/programs-and-admissions/undergraduate/student-development/professional-edge

**Capstone**

Students must complete MANGMT 4970 Strategic Management to meet the capstone requirement. Students must earn a C- or better to earn credit for this course in order to graduate.

**Required Work in Residence**

Students must complete 30 of the last 36 hours of courses in residence at MU.

**Latin Honors**

Graduation with Latin Honors is determined by grade point average from either the last 50 undergraduate credits in the UM system or overall UM System undergraduate credits, whichever is higher. Grade point average
requirements for Latin Honors are 3.5 for cum laude; 3.7 for magna cum laude and 3.9 for summa cum laude.

**Academic Assessment**

Students are required to complete a college-wide assessment exam in addition to a University assessment exam during their capstone course.

**Academic Regulations**

**Credits by Examination**

The Trulaske College of Business accepts CLEP subject examinations, departmental exams and advanced placement (College Board) credit. More information may be obtained from academic advisors in the Trulaske College of Business and the Credit by Examinations section (p. 771).

**Maximum Credits Enrolled**

A student may register for more than 18 credits for a fall or spring term, with permission of their academic advisor in the Trulaske College of Business.

**Probation, Suspension and Dismissal**

**Grade Point Average Requirements**

Minimum GPAs must be maintained in the following categories to remain in good standing with the Trulaske College of Business:

- Students in the Upper Level for Business must maintain a 2.50 GPA in all MU accounting and business courses (Accounting, Business Administration, Economics, Finance, Management and Marketing) in order to graduate. Students in the Upper Level Accountancy, must maintain a 3.0 GPA in order to graduate.
- All students must earn a 2.00 term and cumulative GPA on courses completed in the UM System.

**Probation**

See the Academic Standing (p. 771) section of this catalog.

- A student in good academic standing whose term GPA subsequently falls below 2.0 but is 1.0 or above is placed on academic probation.
- A student whose cumulative GPA for courses offered by the Trulaske College of Business is below a 2.0 is placed on probation. (Courses offered by the college are those with the curricular designations of ACCTCY, BUS AD, ECONOM, FINANC, MANGMT and MRKTNG.) This only applies to students admitted to an upper division BSBA emphasis.
- A student placed on academic probation must establish a 2.0 term GPA, a 2.0 UM System cumulative GPA, and a 2.0 MU Trulaske College of Business cumulative GPA within two successive terms of enrollment; otherwise, the student is ineligible to enroll.
- Students placed on probation may become ineligible to enroll in the Trulaske College of Business at the end of the first term of probation if they become subject to one or more of the first three dismissal provisions below.

**Dismissal**

See University requirements outlined in the Academic Standing (p. 771) section of this catalog.

Students become ineligible (dismissed) to enroll in the Trulaske College of Business if one or more of the following occurs:

- The fall or spring term, Cumulative GPA of Record, or Trulaske College of Business (TCoB) GPA falls below 1.0.
- For a student who has been admitted to the upper level, the TCoB GPA falls below a 1.0 GPA, or if the TCoB GPA has been below a 2.0 for two consecutive semesters (summer terms excluded). This includes all MU accountancy and business courses regardless of whether the courses are completed before or after admission to a BSBA emphasis area.
- The student fails to remove probationary status at the completion of the second successive term on probation (summer terms excluded).

A student who has been ineligible to enroll for a period of one year may be readmitted only on the approval of the Director of Undergraduate Advising. As a condition of readmission, the director may set forth stipulations about minimum standards of academic work that must be maintained by the student. After readmission, if the student again becomes ineligible to enroll, his or her ineligibility is considered permanent.

**Satisfactory/Unsatisfactory Grades**

The S/U grading system is limited to unrestricted elective courses or courses only offered with a S/U grade.

**Enrolling in Other Institutions**

The Trulaske College of Business has no restrictions on a student enrolling in another institution simultaneously as long as university residency requirements are met.

A student may take no more than six credit hours of transfer business coursework (Accounting, Business Administration, Economics, Finance, Management and Marketing) at the 3000-level or higher.

**Advising**

Undergraduate Advising Office
111 Cornell Hall
(573) 882-7073
umcbusadvisingdesk@missouri.edu

Students admitted to a degree program in the college are assigned an academic advisor. The academic advisor works with students in determining coursework needed to complete a degree. Students are responsible for determining an appropriate schedule of courses each semester and are encouraged to meet with their academic advisor for assistance.

**Business Career Services**

Business Career Services (BCS) is a valuable resource for all levels of TCoB students. BCS provides students individual career coaching, guidance and advice in areas such as résumé and cover letter construction/revision, mock interviews, interview preparation, salary negotiations, and much more. Business Career Services partners with numerous companies serving as a liaison to bridge employer with employee. BCS-sponsored events such as Corporate Visit Days and Emphasis Panels (Accountancy, Finance & Banking, Management, Marketing, Real Estate, Sales, Entrepreneurial, Consulting, Government, Health Care, and Human Resources) provide students with firsthand knowledge of what is required to be competitive in the job market upon graduation from the Trulaske College of Business. All students are encouraged to register with BCS and begin utilizing these services as early as freshman year. BCS hosts three career fairs annually.

- The fall or spring term, Cumulative GPA of Record, or Trulaske College of Business (TCoB) GPA falls below 1.0.
- For a student who has been admitted to the upper level, the TCoB GPA falls below a 1.0 GPA, or if the TCoB GPA has been below a 2.0 for two consecutive semesters (summer terms excluded). This includes all MU accountancy and business courses regardless of whether the courses are completed before or after admission to a BSBA emphasis area.
- The student fails to remove probationary status at the completion of the second successive term on probation (summer terms excluded).

Professional EDGE

The mission of the Professional EDGE is to provide every BSBA and Accounting student with substantive professional development experiences during their degree program. Professional EDGE refers to activities, both inside and outside of the classroom, that provide students with the opportunity to develop and practice skills that are needed to perform successfully in professional roles after graduation. Students who graduate with a BSBA degree from the Robert J. Trulaske Sr., College of Business will have content knowledge and advanced professional competencies that are necessary for success in the business world.

Graduate

The Robert J. Trulaske, Sr. College of Business enrolls about 350 graduate students for PhD degrees in both accountancy and business administration, the execMBA, Crosby MBA, MS in Finance, and MA in Accounting.

The primary mission of the college is to prepare students to succeed in the world of business and to advance the body of knowledge about the world of business. Over time, the college's degree programs and faculty research productivity have earned national acclaim. The college takes great pride in its graduates. More than 31,000 alumni are contributing their expertise to the public and private sectors in every state in the U.S. and in a host of foreign countries.

The Trulaske College's graduate-level degree programs and certificates are linked here:

- Crosby MBA (http://catalog.missouri.edu/undergraduategraduate/collegeofbusiness/businessadministration/mba-business-administration/#crosby)
- execMBA (http://catalog.missouri.edu/undergraduategraduate/collegeofbusiness/businessadministration/mba-business-administration/#exec)

The accountancy program at the University of Missouri has long been nationally recognized for its excellence. The college of business faculty have published leading textbooks and research articles and have served at high levels in numerous professional accounting associations. The school offers a combined BSAcc and MAcc degrees.

Students wanting to explore accountancy as a major should take ACCTCY 2036 or ACCTCY 2026.

Admissions

Accountancy prepares students for the competitive field of accounting with a combination of classroom study, practical experience, and student organizations, all in a degree that is nationally recognized for its excellence. The bachelor of science and master of accountancy degree programs are merged into an integrated 150-hour curriculum to be entered into as a junior. The School of Accountancy also offers a Master of Accountancy degree primarily offered online.

Admission decisions will be made at the end of the spring semester for fall admissions only. Meeting the minimum requirements does not guarantee admission. Admission cutoffs will be revised each year in order to control accountancy undergraduate enrollment at a limit that can be served with current authorized faculty staffing and still maintain program quality and meet accreditation guidelines.

Students not admitted to the 150 credit hour degree program in the School of Accountancy may meet Trulaske College of Business admission requirements and transfer into a business administration emphasis area, depending on available space.

A student may take no more than six credit hours of 3000 or higher business courses through non-MU courses off campus, excluding ACCTCY 3326, ACCTCY 3328, ACCTCY 3346, ACCTCY 3347, ACCTCY 4353, ACCTCY 4940 and ACCTCY 7940. Study abroad courses are also excluded from this requirement.

Faculty

Associate Professor K. W. Shaw**
Associate Teaching Professor K. Hockman*, C. Prestigiacomo*
Assistant Teaching Professor E. Bartley, K. Gingrich

* Graduate Faculty Member - membership is required to teach graduate-level courses, chair master's thesis committees, and serve on doctoral examination and dissertation committees.
** Doctoral Faculty Member • membership is required to chair doctoral examination or dissertation committees. Graduate faculty membership is a prerequisite for Doctoral faculty membership.

** Undergraduate

** BSAcc in Accountancy (p. 356)

** Undergraduate Level

Information on students who are admitted to MU and who indicate an interest in becoming accountancy or business majors is subsequently forwarded to the Undergraduate Advising Office of the College of Business (111 Cornell Hall, 573-882-7073). Qualified applicants with less than 54 semester hours of college courses completed will be admitted to the lower level of the Trulaske College of Business. Applicants with more than 54 semester hours of college credit may be admitted to a specific upper level college of business program, e.g., the 150-Hour Accountancy Program, if they meet the program's admission requirements. Students who transfer into the Trulaske College of Business' upper or lower levels from another Mizzou school or college must submit a Transfer of Division form.

The combined BSAcc/MAcc (150-hour) program is open to qualified undergraduate students at Mizzou as well as qualified undergraduates who transfer to MU from other colleges and universities. Interested students not already admitted to Mizzou should visit the Office of Admissions website (http://admissions.missouri.edu/apply). Undergraduate students are also responsible for completing all Trulaske College of Business requirements. These requirements can be found here (p. 352). A student must first be admitted to the Trulaske College of Business before they are eligible to apply to the 150-hr BSAcc/MAcc program.

** Admission to the Joint BSAcc and MAcc Degree Program

In the School of Accountancy, the bachelor’s and master’s degree programs are merged into an integrated 150-hour program. Students should be admitted to the BSAcc/MAcc degree program by the time they have completed 60 hours. Refer to the list of Pre-Accountancy (p. 356) courses in the BSAcc (p. 356) information which are required for admission.

Students must also complete the Professional Edge point requirements for admission to the School of Accountancy and for graduation. Students must earn a minimum of 70 EDGE points (maximum of 100) at the lower level to be considered for official admittance to the upper level. Once admitted, students must earn a total of 200 EDGE points for graduation.

** Academic Standing - School of Accountancy

Accountancy students are in good academic standing if they maintain a cumulative UM grade point average of 3.0 or higher for all coursework subsequent to admission to the 150-hour Accountancy program. Failure to meet this requirement will result in a probationary semester, and if not rectified, potential dismissal from the program. Accountancy students are also subject to the probation and dismissal policies (p. 352) set by the Trulaske College of Business. An undergraduate who has been ineligible to enroll for a period of one year may be readmitted only on the approval of the Director of the 150-hour program in Accountancy. As a condition of readmission, the Director may set forth stipulations with regard to minimum standards of academic work that must be maintained by the student. After readmission, if the student again becomes ineligible to enroll, his or her ineligibility is considered permanent. Accountancy students entering the graduate portion of the 150-hour program should consult the Office of Graduate Studies (http://gradstudies.missouri.edu) for academic standing policies for graduate students.

** Graduate

** MAcc in Accountancy (p. 358)

** PhD in Accountancy (p. 360)

Director of 150 Hour and Master of Accountancy Programs: Shannon Ferguson
Director of PhD Program: Raynolde Peirera

** About Accountancy Graduate Programs

The School of Accountancy offers graduate work leading to the master of accountancy and doctor of philosophy degrees. Graduate programs in accountancy prepare students for advanced professional careers in public, private and governmental accounting, and for careers in teaching and research.

Alert to change and recognizing that accounting education at the graduate level should be ahead of current practice, the School’s programs require course work stressing advanced knowledge in accounting theory and practice, quantitative methods, economics and business. Opportunities exist on and off campus for exchanging ideas with practicing accountants and for participating in the solution of their professional problems.

Among the school’s special facilities are a comprehensive collection of accounting and investment services, computer databases, technical journals and microfilm copies of annual reports, government documents and doctoral dissertations.

** Funding

Fellowships, scholarships and teaching and research assistantships are available to qualified graduate students.

** BSAcc in Accountancy

** Degree Program Description

Students in the School of Accountancy acquire practical experience in the field of accounting. The curriculum provides students with a strong technical accountancy background, a broad advanced business background and professional skills such as public speaking and information systems skills. Accountants engage in a wide variety of activities including preparing financial statements, reconciling business transactions, performing audits of public companies, and developing and using information systems to track financial performance and strategy. The field is competitive and challenging and worth it.
Typical careers in accountancy include auditor, tax advisor, wealth manager, forensic accountant, corporate finance officer, and consultant. The undergraduate and master’s degree programs with a major in accountancy are merged into an integrated 150-credit curriculum to provide high-quality preparation for a career as a professional accountant in public accounting, business or government.

**Major Program Requirements**

The Bachelor of Science with a major in Accountancy is awarded along with the Master of Accountancy degree upon satisfactory completion of the 150-credit, integrated curriculum. In this integrated program, a minimum of 36 credits in accountancy courses at the 3000-level or above must be completed at MU. Admission is competitive; students are required to have a minimum 3.000 University of Missouri GPA of record and at least 45 credit hours earned to apply during the Spring semester. Meeting minimum qualifications does not guarantee admission.

**Major Core Requirements**

The following courses are degree specific major requirements for the 150-credit program in the School of Accountancy. Courses that satisfy University general education (p. 31) and core program prerequisite requirements are recommended for the freshman and sophomore years.

### Accountancy Foundation Courses

</tr>
</tbody>
</table>

Total Credits 124

- ECONOM 1051H/ECONOM 1000 may be taken in place of ECONOM 1014/ECONOM 1024 and ECONOM 1015.
- Requires a grade of C- or better.
- Requires a grade of B- or better for ACCTCY 2036 and ACCTCY 2037, ACCTCY 2136H or ACCTCY 2026, ACCTCY 2137H or ACCTCY 2027 (including grades from other institutions).
- Requires minimum 3.0 GPA (including grades from other institutions) for these Pre-Accountancy courses.
- Need grade of C- or better in MATH 1300 or MATH 1400.
- May take the graduate or undergraduate level course to fulfill this requirement.

### School of Accountancy Graduation Requirements

The merged BSAcc and MAcc degrees require 150 total credits.

### Note:

- MANGMT 3200HW OR MANGMT 4140W is a required course.
- ECONOM 1051H/ECONOM 1000 satisfies both ECONOM 1014 or ECONOM 1024 and ECONOM 1015 requirement.

One humanity or science must be 2000-level or above. Professional electives can be non-business electives (2000+ courses) or Business electives (3000+ courses) approved by academic advisor. Electives must be approved by advisor so that international studies component is met.

### MAcc in Accountancy

- Degree Requirements (p. 358)
- Admission Criteria (p. 358)
- Graduation Requirements (p. 358)
- Online Master of Accountancy (p. 359)

The growing scope and diversity of functions being performed by professional accountants has created a strong demand for individuals who have both a broader base of general and business education as well as more in-depth technical accounting education than can be obtained in a four-year.

### Admission Contact Information

School of Accountancy  
303 Cornell Hall  
573-882-4463

### Requirements for Master’s Degree Only

A student who has a degree in a different curricular area or a bachelor’s degree in accountancy from another college or university may earn a master’s degree from the School of Accountancy upon completion of
the requirements for the degree. The student’s program must include a minimum of 30 credits beyond the bachelor’s degree (or its equivalent) selected from courses carrying graduate credit. In addition, the student must meet the following stipulations:

- At least 15 of the 30 credits must be completed in 8000-9000-level courses.
- A minimum of 24 credits of advanced study must be completed under MU faculty.
- A maximum of 6 graduate credits may be transferred from another college or university.
- All requirements must be completed within eight years from the time of initial enrollment.

MU’s MAcc program is designed especially to provide the additional breadth and depth of knowledge and skills required for success in contemporary accounting practice.

**Professional Accountancy Education**

| ACCTCY 7384 | Auditing Theory and Practice I | 3 |
| ACCTCY 8450 | Accounting and Strategic Business Analysis | 3 |

**Accounting Electives: 12-21 hours**

**Core Business Education**

| MANGMT 7010 | Operations Management (or approved substitute *) | 3 |

**Business electives: 0-9 hours**

* Management 7010 substitutes include Finance 7010, Finance 7020, Management 7540, Accountancy 7865 or Accountancy 8436.

**Admission Criteria to the MAcc**

- Fall deadline: March 15
- Minimum Test of English as a Foreign Language (TOEFL) scores:

<table>
<thead>
<tr>
<th>Internet-based test (iBT)</th>
<th>Paper-based test (PBT)</th>
</tr>
</thead>
<tbody>
<tr>
<td>112</td>
<td>630</td>
</tr>
</tbody>
</table>

- Competitive GMAT score
- Minimum GPA: at least 3.5 for last 60 hours
- Bachelor’s degree from an accredited college or university, with a major in accountancy or equivalent
- A prior record of outstanding academic performance
- Strong letters of recommendation
- Work experience may be considered
- Interview may be required for admission
- A limited number of students may be selected by considering grades and other criteria such as demonstrated commitment, experience, leadership and other exceptional circumstances.

Note: Meeting the minimum requirements does not guarantee admission. Admission is competitive and based on space availability.

**Required Application Materials**

**To the Graduate School**

All required Graduate School documents - online application, unofficial transcripts (official transcript required if accepted by the program) Statement of objectives, no more than 500 words (upload to the online Graduate Application), Letters of Recommendation (upload to the online Graduate Application) and GMAT score (upload to the online Graduate Application).

**TOEFL score (if native language is not English)**

**Prerequisites for the MAcc**

The master of accountancy (MAcc) program encompasses the last 30 hours of MU’s 150-hour accountancy program and assumes students have completed the undergraduate portion of the program, or the equivalent. Students whose undergraduate education is not equivalent to the first 120 hours of the 150-hour program may overcome important deficiencies by taking additional courses approved by the program director.

To be considered for acceptance in the MAcc program candidates must have completed the first 120 hours of MU’s 150-hour program or received a baccalaureate degree from an accredited college or university with a major in accountancy or the equivalent (students with bachelor’s degrees in non-accounting areas may enter the MAcc program after completing an appropriate set of “prerequisite” courses).

In addition to the requirements listed above, other factors such as the student’s statement of objectives and recommendation letters also may be considered to the extent that they provide indications of a student’s ability to be successful in the MAcc program.

Generally, admission decisions for the MAcc program are made on a highly competitive basis.

**Online Master of Accountancy (MAcc)**

Students will be admitted to the Online Master of Accountancy based on a variety of key qualifications. Evaluation criteria will include not only academic success (as represented by a student’s GPA), but also other factors such as professional work experience, leadership experience, and academic aptitude (as displayed by GMAT or GRE scores). Future job potential will be evaluated through interviews by a panel of faculty, staff, and alumni representatives from the accounting profession. Additionally, student motivation and readiness will be assessed through review of their statement of objectives included in the application process.

**Online MAcc Degree Admission Requirements**

The following are admissions requirements for the Online MAcc:

- Four-year accredited bachelor’s degree from a U.S. institution
- Competitive GMAT or GRE score (inquire about eligibility for waiver*)
- Must meet the accounting prerequisites listed below:
  - Accounting I and II
  - Intermediate Financial Accounting I and II
  - Accounting Information Systems
  - Cost and Managerial Accounting
  - Introduction to Taxation
- Competitive undergraduate GPA
- Resume
- Letters of recommendation
- Short answer essay questions
- Applicants may be required to interview

Work experience may be considered in lieu of some admittance requirements. Additionally, students that are employed or otherwise
financially supported by an employer (i.e. an accounting firm or corporation) may receive a waiver of some admittance requirements.

* GMAT/GRE waivers can be discussed by contacting Teal Snoddy at snoddyt@missouri.edu. Decisions are primarily based on undergraduate academic performance and work experience.

The Online Master of Accountancy will require completion of 30 credit hours, 15 of which must be at the 8000 graduate level, during a minimum of three consecutive semesters (Fall, Spring and Summer). Students may take the coursework over multiple years to assist with professional and personal commitments. The Online MAcc consists of the following course requirements:

**Core Business Education**  
Business electives: 0-9 hours

**Professional Accountancy Education**
- ACCTCY 7384 Auditing Theory and Practice I 3
- ACCTCY 8450 Accounting and Strategic Business Analysis 3

**Accounting Electives: 15-24 hours**

**Graduation Requirements for the MAcc**

The basic 30-hour MAcc curriculum requires a minimum of 15 hours of accountancy courses and a minimum of 15 hours of courses reserved exclusively for graduate students. A maximum of 6 semester hours of graduate level course work may be transferred from another accredited master’s program.

Through careful selection of electives, the MAcc program provides great flexibility to enable customized programs of study in specialty areas of particular interest to students. A couple of the most popular areas of specialization are taxation and assurance (where a “tax or assurance track” are available). Go the following link for more information about graduate accounting certificates (p. 385).

**Accountancy Electives:**
- ACCTCY 7365 Governmental Accounting and Budgeting 3
- ACCTCY 7940 Professional Accounting Internship 3-6
- ACCTCY 8363 Multi-Jurisdictional Tax 3
- ACCTCY 8373 Taxation of Corporations and Shareholders 3
- ACCTCY 8404 Internal Auditing 3
- ACCTCY 8414 Audit of Internal Controls 3
- ACCTCY 8419 International Accounting 3
- ACCTCY 8423 Tax Research and Planning 3
- ACCTCY 8428 Data Visualization and Data Mining 3
- ACCTCY 8424 Fraud Examination (or Forensic Accounting) 3
- ACCTCY 8433 Mergers and Acquisitions Taxation 3
- ACCTCY 8436 Advanced Accounting 3
- ACCTCY 8438 Forensic Accounting (or Fraud Examination) 3
- ACCTCY 8444 Advanced Audit 3
- ACCTCY 8448 Emerging Issues in Accounting Information Systems 3
- ACCTCY 8453 Taxes and Business Strategies 3
- ACCTCY 8456 Corporate Governance 3
- ACCTCY 8463 Partnership Taxation 3

**MBA Courses**

MBA courses may be used to fulfill business electives at the graduate level. Please see the Director of the 150-Hour Program during pre-registration to get a list of courses that are available for accountancy students.

Note: Additional coursework may count towards the Master of Accountancy degree with Acct 8401 - Topics in Accounting courses, please inquire with an academic advisor in the School of Accountancy to discuss available coursework.

### PhD in Accountancy

**Admission Contact Information**

School of Accountancy  
Columbia, MO 65211  
573-882-4463  
accountancy@missouri.edu

**Financial Aid from the Program**

Some programs require an extra form or statement from those who wish to be considered for internal assistantships, fellowships or other funding packages. Check the program website or ask the program contact for details.

**Admission Criteria**

Fall deadline: February 1

- Minimum TOEFL scores:
  - Internet-based test (iBT) 100
  - Paper-based test (PBT) 600
- Minimum GMAT scores:
  - Minimum Verbal 700
  - Minimum Quantitative

- A prior record of outstanding academic performance
- Strong letters of recommendation

**Required Application Materials**

To the Graduate School
All required Graduate School documents

To the Accountancy PhD Program
Departmental Application
- 3 Recommendation letters
- Statement of Purpose
- Résumé

Official GMAT scores

*Upload electronically through the Graduate School application

**Prerequisites for the Doctoral Degree in Accountancy**

International students should note that we rarely admit a student directly from outside the United States unless they have studied/worked in an English-language setting.

Prerequisites to undertaking doctoral course work include one, and preferably two, semesters of calculus; an introductory statistics course; and intermediate-level microeconomic theory. An undergraduate
accounting major (or equivalent) is desirable but required. Prior graduate work is not required for admission to the program, but most successful applicants do have a master’s degree.

**Graduation Requirements for the Doctoral Degree in Accountancy**

The University requires 72 total hours beyond a baccalaureate degree for a PhD. In order to meet this requirement, the School of Accountancy requires the following program of course work and dissertation research:

<table>
<thead>
<tr>
<th>Course Type</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>Doctoral-level Accounting Research courses</td>
<td>15</td>
</tr>
<tr>
<td>Course Work in supporting theoretical fields (e.g. economics, finance, organizational theory and behavior)</td>
<td>15</td>
</tr>
<tr>
<td>Statistics and other research methods courses</td>
<td>18</td>
</tr>
<tr>
<td>Weekly Research Seminar (meeting one hour per semester for four years)</td>
<td>8</td>
</tr>
<tr>
<td>Dissertation Research</td>
<td>12-16</td>
</tr>
<tr>
<td><strong>Total Credits</strong></td>
<td>68-72</td>
</tr>
</tbody>
</table>

Course work is designed to be completed in five semesters (two and one-half years). Written and oral comprehensive examinations are then taken after completion of course work, and the remainder of years three and four is devoted to the completion of the research dissertation. Specializations are available in areas of faculty research interests.

**More Information about the Doctoral Degree in Accountancy**

For information about the doctoral degree in accountancy, visit our website or write to:

Dr. Raynolde Pereira, Director of the Doctoral Program in Accountancy

408 Cornell Hall

**Department of Finance**

Through the study of finance, students learn to independently analyze security markets, understand the basic valuation techniques, and use their knowledge to make investment decisions. In addition, students learn basic theoretical concepts in corporate finance and their application to corporate financing and investment decisions. Coursework focuses on the areas of investments, portfolio management, real estate appraisal, financial institutions, and corporate finance.

**Department of Management**

Management is defined by the Academy of Management as including “all processes, structures, and behaviors that are related to the work of organizations, as well as the dynamics of industries, economies, cultures, and other environmental forces that affect organizations and their employees.” Management coursework at MU is quite diverse, covering the areas of human resource management, human behavior in organizations, organization theory, strategic management, supply chain management, entrepreneurship, information systems, e-commerce, operations management, and business law.

**Department of Marketing**

Marketing focuses on acquiring, developing, and managing customers. It deals with understanding the strategies, tactics, and business processes involved in researching markets, deciding which markets and segments to pursue, identifying what unique value to provide, and then assembling the products, services, people, and partner firms needed to build, communicate, and deliver that value. Coursework spans the domains of sales management, retailing, marketing research, consumer behavior, digital marketing, and global marketing.

**Exploratory Course**

Students wanting to explore business administration as a major should take BUS_AD 1500.

**Double Emphasis**

Students in the on campus program may have a dual emphasis of Finance and Real Estate, or may add on an Economics emphasis to any other BSBA emphasis program.

**Pre-Professional Information**

To apply to the upper-level BSBA (and a related emphasis area program, as an on-campus student), a student must have completed a minimum of 45 credits, have at least a UM Cumulative GPA of a 2.6 (minimum requirement and does not guarantee admission to Upper Level), and met the Professional EDGE requirements. A Trulaske College of Business student must be admitted by the semester after the 60th credit hour is earned. The following courses must be among the credits completed or in progress at the time of application:

  - with emphasis in International Business - Management (p. 371)
  - with emphasis in International Business - Marketing (p. 372)
- Minor in Business (p. 377)

Professional EDGE (Professional Development Program)

In addition to completing required coursework to earn a Bachelor of Science, Business Administration degree, students must fulfill the requirements of the Professional EDGE. The goal of the Professional EDGE is to offer opportunities to all BSBA and Accounting students to develop core competencies and values necessary for success in their professional careers.

As a graduation requirement, the program is comprised of the following:

- Completion of designated professional activities to acquire points for admission to the upper level. Once admitted to the upper level, students will continue to earn points to meet the graduation requirements. Specific activities may be required.
- Completion of BUS_AD 3500 the semester immediately following admission to the upper level. This course is a pre-requisite to the completion of the required BUS_AD 4500 course. BUS_AD 3500 must be completed in residence.
- Completion of BUS_AD 4500 once admitted to the upper level. This will include completion of a professional level internship/practicum experience. Practicums can be completed over a summer or semester-long period of time (intersession assignments will not meet the Professional EDGE requirement). Students must seek final approval of their internship/practicum experience from the Professional EDGE Office before beginning the assignment. BUS_AD 4500 must be completed in residence.
If a student fails to meet the requirements of the Professional EDGE at either the lower or upper levels, the student will not be allowed to continue in or graduate from the Trulaske College of Business.

**Professional EDGE Graduation Requirement**

- The student must earn a minimum of 70 EDGE points (maximum of 100) at the lower level for official admittance to the upper level. Once admitted, students must earn a total of 200 EDGE points to meet the graduation requirement. Specific activities and workshops may be required.
- The student must earn a C- (or higher) in BUS_AD 3500 to satisfy the requirement.
- BUS_AD 4500 is graded as Satisfactory/Unsatisfactory. Students must complete practicum course to a satisfactory level of 70% or greater to receive a passing grade for the course.

**Admission to the Business Administration Program**

**Capacity Limitations (On Campus Program Only)**

Admission into the upper-level Bachelor of Science in Business Administration (BSBA), or International Business (BSBA) degree program is highly competitive, because enrollment is limited. Each of the individual emphasis areas (Economics, Finance and Banking, Management, Marketing or Real Estate) has its own capacity limitation. Students who have earned a 3.4 minimum UM cumulative GPA or higher will be guaranteed admission to the upper level emphasis area of their choice. Other students with at least a 2.6 minimum UM cumulative GPA will be admitted on a space available basis.

**Pre-Professional Information**

To apply to the upper-level BSBA (and a related emphasis area program, if an on campus student), a student must have completed a minimum of 45 credits and met the Professional EDGE requirements. A TCOB student must be admitted by the semester after the 60th credit hour is earned. The following courses must be among the credits completed or in process at the time of application.

**Admission to BSBA Degree and Emphasis Areas**

In addition to meeting the previous requirements, students are admitted to an upper-level BSBA emphasis area based on UM cumulative grade point average.

On Campus students request an emphasis area when applying to the upper-division BSBA degree program. If the requested emphasis area is at capacity, students who qualify for admission to the upper-division BSBA degree program are given the opportunity to choose another emphasis area. Online students do not select an emphasis area. Students are notified by email when they are eligible to apply for upper-level status. Students are admitted to upper level in February and September of each year.

Students who complete 60 credits without gaining admission to an upper-level BSBA emphasis area will not be eligible to re-enroll in the Trulaske College of Business, and should meet with an Academic Advisor in the Undergraduate Advising Office to discuss their options.

A student may take no more than six credit hours of 3000 or higher business courses (Accounting, Business Administration, Finance, Economics, Management, or Marketing) off campus. University of Missouri sponsored study abroad courses are excluded from this requirement.

**Graduate**

- MBA in Business Administration (p. 377)
- PhD in Business Administration with emphasis in Business (p. 379)

**About the Crosby MBA (traditional full-time program)**

Crosby MBA candidates come from all backgrounds, including science, engineering, liberal arts, journalism, business and health-related fields. There are no prerequisite courses. Our admission standards are high and the curriculum is rigorous. The Crosby MBA program is AASCSB accredited, nationally recognized and highly ranked by U.S. News.
America’s Best Graduate Schools, Forbes, Princeton Review, and The Wall Street Journal. Students attend full-time, although part-time is an option if the student is able to attend daytime classes.

Through the Crosby MBA program, highly capable graduate students gain real-world experience that prepares them for a wide variety of career paths. The program teaches skills necessary to compete in the global business environment, and helps you achieve a career path that will bring both personal fulfillment and professional success. We offer individual career counseling, an executive mentoring program, employer site visits, and workshops focused on résumé writing, presentation skills, negotiation skills and business etiquette. Students obtain employment in fields such as financial analysis, investments, banking, human resources, project management, strategy, operations and logistics, marketing, marketing analytics, consulting, and non-profit management.

Factors considered in the admissions decision include post-graduation work experience, professional internships and/or co-ops, leadership, community involvement and service, quality of undergraduate work (GPA) and rigor of coursework, competitive score on the GMAT (http://www.mba.com/us) or the GRE (http://www.ets.org/gre), interview required for competitive applicants, career focus and self-awareness demonstrated in question responses and interview.A baccalaureate degree in any discipline from an accredited school is required. See the Crosby MBA website (https://business.missouri.edu/programs-and-admissions/crosby-mba/admissions/apply-now-crosby-mba-program) to apply.

Cooperative Dual Degrees with the Crosby MBA Program

- MBA and Bachelor of Science in Industrial Engineering (BSIE)
- MBA and Bachelor of Science in Information Technology (BS)
- MBA and Master of Health Administration (MHA)
- MBA and Master of Science in Industrial Engineering (MS)
- MBA and Juris Doctor (JD)

About the execMBA Program (for working professionals)

This innovative executive MBA is specifically designed for high achieving professionals seeking a first-rate MBA program that provides flexibility around their work schedules. This is the same renowned degree and the same renowned faculty offered with the Crosby MBA, but is specially designed for executives. Combining face-to-face class time with online delivery for professionals with substantive experience, the 21-month execMBA program will connect you with peers, challenge you in relevant ways, and develop the mind- and skill-set to match today’s marketplace.

All applicants to the MU execMBA must have a minimum of 5-7 years of professional work experience, as well as a letter of endorsement from their employer to participate in the program. Other factors considered in admission include undergraduate GPA (a bachelor’s degree in any discipline from an accredited school is required), demonstrated leadership experience and a personal statement addressing criteria outlined on the exec MBA website. Interviews by invitation will also be conducted.

About the PhD Program

The PhD program (p. 379) is designed to prepare graduates for careers as effective university researchers and teachers or for senior research positions in business or government. Course work involves research activities such as literature review and critique, theoretical modeling, research design, computer-assisted empirical analysis and preparation of proposals and research papers. PhD candidates are provided the opportunity to teach undergraduate courses in their specialty area. In addition, students are expected to participate in national and regional academic conferences and are encouraged to work with faculty in developing individual research and teaching skills.

Program Location: Cornell Hall

Cornell Hall, a state-of-the-art building, houses the Robert J. Trulaske, Sr. College of Business. It contains labs with over 230 computers with a variety of up-to-date software. The College subscribes to the following online services, databases and software packages: Wharton Research Data Services, Audit Analytics Compustat, CRSP, Datastream/Worldscope, Eventus, I/B/E/S, IRRC, ISSM, Mergent FISD, Mutual Fund Links, SDC Platinum, Thomson Reuters, Stock Trak, and Qualtrics (an online survey system).

BSBA in Business Administration

The BSBA in Business Administration is offered on campus as well as online. On campus students must choose an emphasis area (see emphasis areas for degree requirements). (p. 362)

Degree Program Description

In the Trulaske College of Business students are in either the lower level (undeclared) or the upper level (admitted to an emphasis area). Students entering the Trulaske College of Business usually enter the lower level while they take University general education and business preparation courses. The first two years of all business programs (except international business and accounting) involve the same course sequences. A student typically applies to the upper level at the end of the sophomore year or the beginning of the junior year.

On Campus - Major Program Requirements

A student may count a maximum of 40 credits in their emphasis area to meet the 120-credit requirement for the undergraduate degree. Requirements above and beyond general education requirements are listed under upper level admission courses.

Students must complete all university requirements (p. 30), including general education (p. 31), and the degree requirements below.

On-Campus - Major Core Requirements

Course requirements ensure that 40 percent of a student’s course work is earned in divisions other than business.

> Must have either a C- in MATH 1300 or MATH 1400.

Emphasis Areas

General Education Requirement: 27 hrs
Upper Level Admissions Courses: 34 hrs
Required Courses: 26 hrs

On Campus - Semester Plan

Please refer to the degree program page (p. 362) for a list of emphasis areas. The semester plans are specific to the emphasis area for on-campus students.

Online- Major Program Requirements

The online BSBA program provides students flexible access to a highly competitive degree. Coursework provides students with the tools to be successful in careers in Banking and Finance, Business Management, Human Resources, Insurance or Marketing and Sales. The Online BSBA program is designed to be a degree completion program. Students must secure a minimum of 54 credit hours outside of this program to satisfy the 120 credit graduation requirement.

Students must complete all university requirements (p. 30), including general education (p. 31), and Department Level Requirements (p. 362), in addition to the degree requirements below.

Online - Major Program Requirements

General Education (see University General Education Requirements): 27 hrs
Upper Level Admission Courses: 34 hrs
Required Core Business Courses: 26 hrs
Additional Business Courses: 30 hrs
Senior Capstone: 3 hrs
Total: 120 hrs

Online - Upper Level Admission Courses (completed outside of program)

Online - Semester Plan

Below is a sample plan of study, semester by semester. This plan reflects coursework a student will complete within the BSBA online program. All degree requirements not listed in this plan are completed outside of the BSBA online program. A student's actual plan may vary based on course choices and where options are available. Work with your academic advisor on questions specific to your plan of study.

BSBA in Business Administration with Emphasis in Economics

Degree Program Description

Students pursuing a degree in Business Administration will gain exposure to multiple areas of business including Accounting, Economics, Finance and Banking, Management, and Marketing. By choosing to study business administration with an emphasis in Economics, students ready themselves for business careers from the broad perspective of economics, developing expertise in topics such as economic forecasting, analysis of interest rates and financial markets, labor economics and international economics. Students typically prepare for careers in a range of industrial, commercial, and financial organizations as well as government agencies and political institutions. Typical careers include business economist, financial analyst, risk manager, or economic research analyst.

Major Program Requirements

Students must complete all university requirements (p. 30), including general education (p. 31), and the degree requirements below.

General Education Requirements

Upper Level Admission Courses

Required Core Courses

Required Economics Courses

Additional Economic Courses

Courses selected from the following:

- ECONOM 3224: Introduction to International Economics
- ECONOM 3323: Capitalism, Democracy and Society
- ECONOM 4004: Topics in Economics- Social Science
- ECONOM 4311: Labor Economics
- ECONOM 4315: Public Economics
BSBA in Business Administration with Emphasis in Finance and Banking

Degree Program Description

Students pursuing a degree in Business Administration will gain exposure to multiple areas of business including Accounting, Economics, Finance and Banking, Management, and Marketing. An emphasis in Finance and Banking prepares students for careers in commercial banking, corporate finance, financial planning, insurance, investment banking, or money management. Students learn how to independently analyze security markets, understand the basic valuation techniques and use their knowledge to make investment decisions. In addition, students learn basic theoretical concepts in corporate finance and their application to corporate financing and investment decisions.

Major Program Requirements

Students must complete all university requirements (p. 30), including general education (p. 31), and the degree requirements below.

General Education Requirements

27

Upper Level Admission Courses

34

Required Core Courses

26

ECONOM 3229 Money, Banking and Financial Markets
FINANC 3000  Corporate Finance
MANGMT 3000  Principles of Management

**BSBA in Business Administration with Emphasis in International Business - Marketing**

**Degree Program Description**

International Business is a joint degree program offered by the College of Arts and Science and the Trulaske College of Business. The program incorporates foreign language, geographic region and cultural environment courses with core and international business courses. Completion of this degree program requires 139-147 credits depending on emphasis.

**Major Program Requirements**

To complete this course of study, students must be accepted in both the Bachelor of Arts in International Studies program in the College of Arts and Science and the Bachelor of Science in Business Administration program in the Trulaske College of Business. Students must also complete all university requirements (p. 30), including general education (p. 31), and the degree requirements below.
### Social Sciences
- GEOG 1100 or GEOG 1200: Regions and Nations of the World I or II
- POL_SC 1400 or POL_SC 2700: International Relations or Comparative Political Systems

### Behavioral Sciences
- ANTHRO 2030: Cultural Anthropology
- The additional 3 hours can be any general education approved Behavioral Science from the list.

### Humanities
- Civilization course in language studied
- Literature course in language studied
  - Select one of the following:
    - ARCHST 1600: Fundamentals of Environmental Design
    - ARH_VS 1110: Ancient and Medieval Art
    - ARH_VS 1120: Renaissance through Modern Art
    - ENGLISH 2155: Introduction to World Literatures
    - ENGLISH 2159: Introduction to World Literatures, 1890 to Present
    - FILMS_VS 2820: Trends in World Cinema
    - GN_HON 2112H: The Middle Ages and the Renaissance
    - GN_HON 2113H: The Early Modern World: The 17th-19th Centuries Enlightenment
    - GN_HON 2114H: The Modern Era
    - JOURN 1000: The News Media: Journalism and Advertising in a Democratic Society
    - MUSIC_NM 1310: Masterpieces of Western Music
    - MUSIC_NM 1313: Introduction to World Music
    - PEA_ST 3510: Think Global: Fundamentals of Globalization and Digital Technologies
    - PHIL 2100: Philosophy: East and West
    - PHIL 2410: Philosophies of War and Peace
    - REL_ST 1100: Introduction to Religion
    - REL_ST 2100: Indigenous Religions
    - REL_ST 2110: Religions of the World
    - REL_ST 2310: Religions of China and Japan
    - WGST 2080: Perspectives on Sexual and Gender Diversity

### Additional Humanities

### Biological & Physical Sciences
- One course must include a lab

### Foreign Language
- All in the same language
- 18-20

### Area Support
- To be selected with the A&S advisor. Coursework typically includes classes in Culture, Geography, Government, or History related to language studied.

### Upper Level Admission Courses
- 34

### Required Business Core Courses
- 26
  - ECONOM 3229 or ECONOM 3251: Money, Banking and Financial Markets or Theory of the Firm
  - FINANC 3000: Corporate Finance
  - MANGMT 3000: Principles of Management
  - MANGMT 3300: Introduction to Business Processes and Technologies
  - MANGMT 3540: Introduction to Business Law
  - MRKTNG 3000: Principles of Marketing
  - STAT 3500: Introduction to Probability and Statistics II or STAT 4510: Applied Statistical Models I
  - BUS_AD 3500: Advanced Professional Development Principles
  - BUS_AD 4500: Professional Development Program - Internship
  - College of Business WI Course

### Total Credits
- 133-139

### Semester Plan
Below is a sample plan of study, semester by semester. A student's actual plan may vary based on course choices where options are available.

BSBA in Business Administration with Emphasis in Management

Degree Program Description

Students pursuing a degree in Business Administration will gain exposure to multiple areas of business including Accounting, Economics, Finance and Banking, Management, and Marketing. By selecting an emphasis in management students will learn the tools needed for analyzing, planning, organizing, staffing, motivating, and directing a supply chain, business, project, or department. Management coursework is diverse, covering entrepreneurial strategy, human resource management, human behavior in organizations, information systems and analytics, operations and supply chain management, business law, diversity and inclusion, and leadership and ethics. Careers in management include human resource director, hospital administrator, bank manager, industrial relations director, supply chain analyst, buyer, systems analyst and manager of diversity and inclusion.

Major Program Requirements

Students must complete all university requirements (p. 30), including general education (p. 31), and the degree requirements below.

General Education Requirements

Upper Level Admission Courses

Required Core Courses

ECONOM 3229
Money, Banking and Financial Markets
ECONOM 3251
Theory of the Firm
FINANC 3000
Corporate Finance
MANGMT 3000
Principles of Management
MANGMT 3300
Introduction to Business Processes and Technologies
MANGMT 3540
Introduction to Business Law
MRKTN 3000
Principles of Marketing
STAT 3500
Introduction to Probability and Statistics II
or STAT 4510
Applied Statistical Models I
BUS_AD 3500
Advanced Professional Development Principles
BUS_AD 4500
Professional Development Program - Internship

Required Management Courses

MANGMT 4010
Operations Management
MANGMT 4020
Human Resource Management
MANGMT 4030
Organizational Behavior

Additional Management Courses

Select three of the following:

MANGMT 3200
Business and Society

Emphasis Support Courses

Courses to be selected from:

Accountancy: Any 3000 or 4000 level class.
Economics: Any 3000 or 4000 level class
Finance: Any 3000 or 4000 level class.
Management: Any 3000 or 4000 level class (if not used in required core courses)
Marketing: Any 3000 or 4000 level class.
Other 3000 or 4000 level courses taken in fulfillment of requirements for an official certificate, minor or dual major.

Capstone Course - senior year (on campus) Minimum grade of C required

MANGMT 4970
Strategic Management

Semester Plan

Below is a sample plan of study, semester by semester. A student's actual plan may vary based on course choices where options are available.

First Year

Fall  | MATH 1400  | 3
BUS_AD 1500  | 2

Spring  | MATH 1100  | 3
ECONOM 1014  | 3
BSBA in Business Administration with Emphasis in Marketing

Degree Program Description

Students pursuing a degree in Business Administration will gain exposure to multiple areas of business including Accounting, Economics, Finance and Banking, Management, and Marketing. An emphasis in Marketing focuses on creating and managing customers by studying business activities that connect consumers with goods and services. The degree deals with the strategies, tactics and business processes involved in researching markets, deciding which markets and segments to pursue, identifying what unique value to provide and then assembling the products, services, people and partner firms needed to build, communicate and deliver that value. The marketing major is an exciting option for those students seeking an in-depth knowledge of the tools, concepts and practice of modern marketing. This program prepares students for a career in marketing and sales. It focuses on activities that direct the flow of goods and services to the consumer or user. Courses in this area include marketing management, sales, marketing communications, digital marketing, sales promotion, retail, services, brand management, and global marketing.

Major Program Requirements

Students must complete all university requirements (p. 30), including general education (p. 31), and the degree requirements below.

BSBA in Business Administration with Emphasis in Real Estate

Degree Program Description

Students pursuing a degree in Business Administration will gain exposure to multiple areas of business including Accounting, Economics, Finance and Banking, Management, and Marketing. Students who pursue an emphasis in Finance and Banking can add on an emphasis in Real Estate. Real estate is an ideal field for those with an entrepreneurial spirit who seek career options around the globe. The Real Estate emphasis is for students contemplating a career in real estate investment, property management, mortgage banking, or associated field. Related careers include real estate investment analyst, property manager, mortgage banking officer, REIT (real estate investment fund) manager, and real estate valuation specialist.

Major Program Requirements

Students must complete all university requirements (p. 30), including general education (p. 31), and the degree requirements below.

### Minor in Business

The business minor has the same rigor and content as the fundamental courses taken by business students. It provides flexibility in undergraduate studies and better prepares students for jobs and for graduate school. The business minor includes courses that are highly complementary. For most students, the requirements for the business minor are far more valuable than a similar number of courses in one or two areas.

15 of the 18 hours must be taken in residence and a 2.0 GPA in all business courses and those required for the business minor is required. See a business advisor for questions regarding the business minor.

### MBA in Business Administration

**Crosby MBA**
Graduate Programs Office
306 Cornell Hall
Columbia, MO 65211
573-882-2750
mba@missouri.edu
http://mba.missouri.edu

### Degree Requirements (Crosby MBA)

Required course work in Quantitative Analysis, Finance, Management, Marketing, and Professional Development provides a comprehensive business education for Crosby MBA students. Our curriculum assures that graduates enter the 21st century business world with tools that will enable them to be successful.

The program consists of 36 required credits, including foundational and advanced coursework, plus 21 elective credits. The delivery format includes 1.5 credit hour (8-week modules) to allow for focused attention to a particular topic, as well as 3 credit (16 week) courses. The structure of the Crosby MBA allows students to concentrate in a specific area of business, develop a broad managerial focus, or complement business
training with coursework from other areas on campus. Total graduate course work necessary to qualify for the Crosby MBA degree is 57 credit hours; however, students who meet the criteria for waiving certain beginning level courses may substitute those courses with electives. For graduation, MBA students must earn a cumulative grade point average of 3.0 or better.

execmba@missouri.edu
International Residency (execMBA)

The international residency is an 8-10 day immersion in a foreign culture and its business practices during the summer between the first and second year in the program. It serves as an opportunity to apply classroom education to an international setting. Students will consult with businesses on strategic issues, network with local businesses and government officials, and explore international culture.

PhD in Business Administration with Emphasis in Business

About the Doctorate in Business Administration

The PhD program is designed to prepare graduates for careers as effective university researchers and teachers or for senior research positions in business or government. A primary objective of the program is to train PhD candidates to become proficient researchers. Therefore, course work involves research activities such as literature review and critique, theoretical modeling, research design, computer-assisted empirical analysis and preparation of proposals and research papers. Another objective is to train students to become high-quality teachers. PhD candidates are provided the opportunity to teach undergraduate courses in their specialty area. In addition, students are expected to participate in national and regional academic conferences and are encouraged to work with faculty in developing individual research and teaching skills. The PhD in Business Administration offers three concentration areas: Finance (https://business.missouri.edu/programs-and-admissions/phd/academics/business-administration/phd-concentration-finance), Management (https://business.missouri.edu/programs-and-admissions/phd/academics/business-administration/phd-concentration-management) and Marketing. (https://business.missouri.edu/programs-and-admissions/phd/academics/business-administration/phd-concentration-marketing) (Concentrations will not appear on diplomas or transcripts.)

Degree Requirements - all PhD students

1. Before enrolling in concentration area courses, all PhD students in Business Administration must take (or be able to have waived) the below general courses. Students with an MBA typically will have these requirements waived.

Total Credits: 48
3. Two support areas of at least nine credit hours each, one of which must be taken outside the School of Business, or one support area of at least 12 credit hours. These supporting areas offer the student considerable latitude in identifying a course of study that can be tailored to the individual’s interests and goals. If two support areas are selected, the student must also satisfy a 12-hour analytical tool requirement; if one support area is selected, the analytical tool requirement is 18 hours.

4. Collateral requirements emphasizing analytical tools (proficiency in a foreign language does not fulfill the collateral requirements). This is a research methods and analyses sequence of at least 12 hours (or at least 18 hours if only one 12 hour support area is chosen), including appropriate courses in economics, mathematics, psychology, sociology, statistics or other areas deemed appropriate by the program committee.

5. An ongoing seminar experience (each semester until successful completion of comprehensive examinations) that acquaints the student with current literature and research in his/her major area of interest. This seminar is in addition to other seminars offered departmentally (4 hours minimum).

6. Dissertation (minimum 12 hours of 9090 credit).

These requirements are independent of one another; courses taken to satisfy one requirement may not be used to satisfy any other requirement. Previous graduate work taken before admission to the PhD program may be used to satisfy these requirements if it is deemed appropriate by the student’s program committee.

**Concentration in Finance**

The PhD program with a concentration in Finance emphasizes university-level research and teaching skills. The program of study is flexible to meet individual needs and interests, but all students take advanced classes in Finance, Economics, and Statistics. Students are only admitted on a full-time basis and normally work as research or teaching assistants. Students must complete an on-campus interview before any decision can be made regarding their ultimate admission. The GMAT is strongly preferred with the GRE only considered in special circumstances.

**Degree Requirements - Finance Concentration**

**Prerequisites typically needed for Finance program of study:**

<table>

**Support Areas - Finance Concentration**

PhD students must complete either two 9-hour Support Areas or one 12-hour Support Area to complement advanced training in Finance. Successful completion of a Support Area may require a written examination covering course work applied to the Support Area. At least one Support Area must come from outside the College of Business. Most students choose Support Areas in Microeconomics and Statistics resembling the following examples:

**Example support area in Microeconomics:**

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>ECONOM 7370</td>
<td>Quantitative Economics</td>
<td>3</td>
</tr>
<tr>
<td>ECONOM 8451</td>
<td>Microeconomic Theory</td>
<td>3</td>
</tr>
<tr>
<td>ECONOM 9476</td>
<td>Advanced Microeconomic Theory III</td>
<td>3</td>
</tr>
</tbody>
</table>

**Example support area in Statistics:**

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>STAT 7510</td>
<td>Applied Statistical Models I</td>
<td>3</td>
</tr>
<tr>
<td>STAT 7750</td>
<td>Introduction to Probability Theory</td>
<td>3</td>
</tr>
<tr>
<td>STAT 7760</td>
<td>Statistical Inference</td>
<td>3</td>
</tr>
</tbody>
</table>

**Collateral Area - Finance Concentration**

PhD students must complete a 12-hour Collateral Area (if completing two 9-hour Support Areas) or an 18-hour Collateral Area (if completing one 12-hour Support Area) selected in cooperation with a student’s program committee. Coursework applied to a Support Area cannot be applied to a Collateral Area. Recommended is a Collateral Area in Accounting, Econometrics, Economics, Mathematics, Statistics, or Corporate Law. The purpose of the collateral area for finance students is to provide them with the necessary quantitative skills to undertake original empirical research. Some representative examples include:

**Example collateral area in Econometrics:**

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>ECONOM 8472</td>
<td>Econometric Methods I</td>

<td>STAT 7760</td>
<td>Statistical Inference</td>
<td>3</td>
</tr>
<tr>
<td>STAT 7850</td>
<td>Introduction to Stochastic Processes</td>
<td>3</td>
</tr>
</tbody>
</table>

**Concentration in Management**

PhD students with a concentration in Management emphasize university level research and teaching skills. The program of study is flexible to allow students to focus on their personal interests. The program includes a business core of at least 15 hours, at least 15 hours of doctoral seminars in management, one 12-hour or two 9-hour support areas, and
a minimum of 12 hours in research methods and statistics (18 hours with one 12-hour support area). Students typically work as research or teaching assistants. The PhD program in management is designed to provide students with a sound foundation for a productive career as an academic at a research-oriented university.

The Department of Management welcomes applications for entry into the PhD program for the fall semester (beginning in August). The application deadline for full consideration is February 1, but applications that arrive after that date may be considered.

All doctoral students in the School of Business must take (or be able to waive) the following courses: A student with an MBA will typically have these requirements waived.

### Degree Requirements - Management Concentration

#### Management Seminars

PhD students in the management track are required to take four core seminars, and 3 credits of additional seminars that will be offered to match the needs and interests of current students. The four core seminars are:

- MANGMT 9030 Seminar in Macro Organizational Behavior 3
- MANGMT 9040 Seminar in Human Resource Management 3
- MANGMT 9080 Seminar in Entrepreneurship 3
- MANGMT 9060 Seminar in Corporate Strategy 3

While pursuing required course work, all students participate in MANGMT 9101 Topics Seminar in Management (1 hour per semester), which is taken on a Pass/Fail basis.

#### Support Areas - Management Concentration

PhD students must complete either two 9-hour Support Areas or one 12-hour Support Area. Support Areas are tailored to the research and teaching goals of the PhD candidate. Programs are highly individualized to reflect student interests and desired focus. The combination of courses in any Support Area and in the concentration core is flexible, with numerous combinations possible. Program design is subject to the approval of the student's program committee. Typical Support Areas include psychology, economics, research methods and statistics, career development, sociology, marketing, and communication. Listed below are examples of Support Areas that could be selected:

**Example Area I: Psychology**

- PSYCH 8610 Motivation 3
- PSYCH 8620 Personality Psychology 3
- ESC_PS 7200 Positive Psychology 3
- PSYCH 9350 Studies in Social Psychology 1-99

**Example Area II: Economics**

- AAE 8050 Economics of Institutions and Organizations 3
- AAE 9001 Advanced Topics in Economics II 3
- FINANC 9001 Advanced Topics in Finance 3
- ECONOM 7355 Industrial Organization and Competitive Strategy 3
- ECONOM 8451 Microeconomic Theory 3

**Example Area III: Research Methods and Statistics**

- MRKTNG 9010 Introduction to Research Methods in Marketing 1-3
- PSYCH 8710 General Linear Models in Psychology I 4
- PSYCH 8730 Statistical Software Packages 1
- PSYCH 9510 Studies in Clinical Psychology 1-99
- ESC_PS 9650 Application of Multivariate Analysis in Educational Research 3
- ESC_PS 9710 Structural Equation Modeling 3
- ESC_PS 9720 Hierarchical Linear Modeling 3
- SOCIOL 8120 The Logic of Social Research 3
- ECONOM 7370 Quantitative Economics 3
- ECONOM 8472 Econometric Methods I 3
- ECONOM 8473 Applied Econometrics 3
- SOCIOL 9288 Ethnographic Fieldwork 3
- COMMUN 8130 Topics in Qualitative Research Methods 3
- STAT 7110 Statistical Software and Data Analysis 3
- STAT 7710 Introduction to Mathematical Statistics 3
- STAT 7510 Applied Statistical Models I 3

### Research Methods & Analysis (RM&A) Area - Management Concentration

PhD students must complete a 12-hour RM&A Area (if completing two 9-hour Support Areas) or an 18-hour RM&A Area (if completing one 12-hour Support Area). These courses, selected in cooperation with a student's program committee, will provide students with the tools and techniques necessary for conducting empirical research. Sample courses include those listed above in Support Area III. Coursework applied to a Support Area cannot be applied to a Collateral Area.

#### PhD Thesis Credit (MANGMT 9090)

Students enroll in MANGMT 9090 while they are working on their dissertation, typically in their last two years in the program. We require a minimum of 12 credit hours of MANGMT 9090.

Concentration in Marketing

Students with an interest in behavioral, strategic, or methodological issues marketing are a great fit for this program. The program is flexible and can meet individual needs and interests. It offers small class sizes, a set of doctoral specific seminars, and a collaborative environment. Students develop research skills by working with faculty on research projects and from faculty mentoring. Students also gain valuable experience by teaching undergraduate courses.

Degree Requirements - Marketing Concentration

**Analytical Tools - Marketing Concentration**

Courses in research methods and statistics are required to provide each doctoral student with a sound foundation in research skills. Two marketing seminars that focus on research methods are required, with additional courses chosen as appropriate for the student’s specific
research emphasis. This includes a minimum of 12 hours for students with two support areas, or 18 hours for students with one support area. Students often take additional analytical tool courses to further develop the depth of knowledge in tools required for their specific research interests. Coursework in multiple regression, analysis of variance, and multivariate statistics is required.

Qualifying Process

Program Committee

During the first semester of course work, the PhD Coordinator, a member of the doctoral faculty from the major area of study (finance, management or marketing), serves as the student’s faculty advisor.

By the end of the first year of course work, a student should make formal application for the doctoral degree and, after consultation with faculty, request appointment of a Doctoral Program Committee. This committee consists of at least three members from the student’s major area of study and at least one member from a supporting area of study.

The Doctoral Program Committee conducts the qualifying examination and works with the student to design a plan of study.

Residency Requirement

In compliance with University regulations, the doctor of philosophy degree requires the completion of 72 semester hours of graduate work beyond the baccalaureate degree. Within the credit-hour requirement is the residency requirement. To satisfy the residency requirement, a student must complete at least two 9-hour semesters or three 6-hour semesters in an 18-month period at MU. All courses taken to satisfy the residency requirement must be MU courses approved for graduate credit and approved by the student’s doctoral program committee. Correspondence and off-campus courses may not be counted toward the residency requirement. This program is designed for full-time students and requires a minimum 4-year on-campus commitment.

Qualifying Examination and First-Year Project

Every marketing doctoral student is required to pass the qualifying exam consisting of two major components. The first component is a comprehensive evaluation of overall performance in coursework and RA assignments and participation in formal and informal doctoral program elements. The second component is a first-year project addressing a scholarly research topic in marketing consisting of three major parts: a written outline, presentation, and paper suitable for submission to a conference or journal. The goal of this project is to promote early research engagement, interaction with faculty, and the development of communication and presentation skills that will enhance the overall experience of the student throughout the doctoral program.

Finance students take the comprehensive exam following the completion of their doctoral course work requirements. The exam consists of written and oral sections and is typically scheduled at the beginning of the fall semester in the third year of study.

Management doctoral students are required to pass a qualifying exam composed of two parts: 1) major written sections of a faculty-led research paper and 2) an oral presentation of the entire research project.

First year students are expected to write first drafts of one or more major sections of the paper and to present the entire project before the end of the Spring semester of their first year. During this presentation, students are expected to demonstrate excellence in their specific contributions and to demonstrate they understand all aspects of the research project.

Comprehensive Examination Process

Typically, after completion of the course work specified on the plan of study, the student’s doctoral program committee determines the student’s...
readiness to undertake the comprehensive examination. The student must be enrolled at MU the semester s/he takes this examination.

The comprehensive examination process differs by department, but consists of written and oral sections. Both sections must be completed within one month of each other, and at least seven months before a final dissertation defense. Successful completion of the comprehensive examination requires that the student’s doctoral program committee vote to pass the student on the entire examination, both written and oral sections, with no more than one dissenting or abstaining vote. The student who fails this exam may not take a second comprehensive examination for at least 12 weeks. Failure to pass two successive comprehensive examinations automatically prevents candidacy.

Dissertation Requirements

A dissertation is required to complete the doctoral program. Each student, working under the supervision of the doctoral program committee chair, must propose an original scholarly research project. The dissertation proposal is normally defended at the end of the third year of the program in an oral presentation. The proposal must be approved formally by the student's program committee. Following completion of the research, the written dissertation must be orally defended and approved by the student's program committee.

Admissions

BusinessPhD@Missouri.edu
407 Cornell Hall
Columbia, MO 65211
573-882-0181
http://business.missouri.edu/programs-and-admissions/phd

Finance

Through the study of finance, students learn to independently analyze security markets, understand basic valuation techniques and use their knowledge to make financial decisions. In addition, students learn basic theoretical concepts in corporate finance and the application to corporate financing and investment decisions. Coursework focuses on investments, portfolio management, real estate, financial institutions, corporate finance, and risk management/insurance.

Faculty

Professor J. Howe**
Associate Professor M. O'Doherty**, K. Pukthuanthong**
Assistant Professor D. Badoer*, F. Bereskin**, S. Jannati**
Associate Teaching Professor M. Griswold, J. Stansfield
Assistant Teaching Professor M. Dorigan, D. Fischer, J. Hegger, A. Kern, M. Qiu

Undergraduate

While the Trulaske College of Business does not offer an undergraduate degree in Finance, we do offer the BSBA (Bachelor of Science in Business Administration) (p. 362) or BSAcc (Bachelor of Science in Accountancy) (p. 356).

Graduate

• MS in Finance (p. 384)
  • with emphasis in Financial Management (p. 384)
  • with emphasis in Investments (p. 385)
  • with emphasis in Real Estate (p. 385)

MS in Finance

Finance Department
401 Cornell Hall
573-882-5573
business.missouri.edu/programs-and-admissions/online-ms-finance

Mizzou’s online MS Finance is the degree for individuals who want to advance their knowledge of finance in our global business environment and enhance their analytical and financial decision skills. The design of the program fits career objectives of:

• Working finance professionals who seek to enhance their professional opportunities by gaining additional financial skills and knowledge
• Recent degree recipients looking to strengthen their career prospects by furthering their financial training
• University of Missouri undergraduate senior-level students wanting to jump-start their career by continuing their financial education (https://business.missouri.edu/programs-and-admissions/412-program) and receiving their master’s degree in as little as six months following the bachelor’s degree.

MS in Finance with Emphasis in Financial Management

Degree Requirements

• 30 credit hours – finish in 1 year (full-time) or 2 years (part-time)
• Fully online or a combination of online and on-campus classes
• One-week study-abroad experience with costs covered by the program
• CFA Institute Affiliated University
• The Trulaske College of Business is accredited by AACSB

Sample Plan of Study

Major Requirements

Finance Foundation
FINANC 7220 Economics for Managers 1.5-3
FINANC 7420 Managerial Finance II 1-3
FINANC 8320 Financial Markets 1-3
FINANC 8350 Financial Statement Analysis I 1-3

Finance Common Core
FINANC 8352 Financial Statement Analysis II 1.5-3
FINANC 8310 Financial Databases and Analysis 1-3
FINANC 8312 Financial Modeling 1-3
FINANC 8450 Ethics and Standards of Financial Practice 1-3
MS in Finance with Emphasis in Real Estate

Degree Requirements

- 30 credit hours – finish in 1 year (full-time) or 2 years (part-time)
- Fully online or a combination of online and on-campus classes
- One-week study-abroad experience with costs covered by the program
- CFA Institute Affiliated University
- The Trulaske College of Business is accredited by AACSB

Approved elective in Finance - 9 credit hours

Approved electives in Finance or any of the interdepartmental approved courses. Elective courses may be completed in any of the following departments: Accountancy, Agricultural Economics, Architectural Studies, Economics, Management, Marketing, Personal Financial Planning, or the School of Law.

Thesis/Non-Thesis Requirements

Admissions

Additional Minors and Certificates
- Business

Undergraduate Certificates
- Certificate in Human Resource Management (p. 386)
- Certificate in Risk Management and Insurance (p. 386)
- Certificate in Sales and Consumer Development (p. 386)

Graduate Certificates
- Certificate in Assurance (p. 387)
- Certificate in Marketing Analytics (p. 387)
- Certificate in Taxation (p. 387)
Certificate in Human Resource Management

Human capital can be a source of sustainable competitive advantage for organizations. Human Resource Management (HRM) is a specialized management track for those interested in helping employees meet professional goals and organizations optimize employee talent in order to directly enhance business results.

Required GPA: 3.0 or higher for these 15 credit hours

Note: for the purposes of this Certificate, a student can transfer in credit from another institution only for MANGMT 3000. Management 3000 is a prerequisite for all other Management courses.

Total hours: 15

Certificate in Risk Management and Insurance

Organizations that manage risk well are more likely to be successful than those that do not. Effective risk management requires a solid understanding of the sources, dimensions and qualities of risk, as well as the development and implementation of efficient techniques to mitigate, control or avoid those risks. Gain these skills and become competitive in the field of risk management and insurance. Students must have a 3.0 overall GPA.
